Dear Mother and all,

Say it is a wonder
that you would not write
and tell me what is
wrong with Alice and how
she is doing. I am one of
the family. I got a letter from
her at New Westminster.
Is it that? If that is the trouble
bear up Mother for I am sure
she will be all right in
a few days. Please give me
the whole story in your next
letter.

I got Candy's note of the
14th Aug. M. And many thanks
for same. Say if I sent
my application for a Commission

papers home do you think you
could get a Minister or J.
to sign them certifying my
character and a school
teacher to sign them
certifying my education? If
so I will send them so
as I will have them back
by the time I get another
blighty.

I did not get that
instructor's job. Say please
send me Leone's address.
Don't worry that skin disease
is nafoo finis. And I
have been out of hospital
for some time now.

I just came off an eight-
days pass and enjoyed
myself greatly. I went up
to see Margaret Mann and
her father spent about
two days in Aberdeen, and

two in Edinburgh.

Don't forget to let me know about Alice. Hoping you are all well, I am

Your Loving Son

Gordon

P.S.

Say I sent home a few views of Edinburgh for Mother, a Tern for Candy with a Seafork badge and a tie a piece for the boys, also a wrist-bone brooch for Mother. Hope you receive them ok.
