## FIRE FIEND.

### EAGEL'S STOCK AND STORE NARROWLY ESCAPE DESTRUCTION.

**Blaze Located at 11 p. m.—Supposed to Have Started Among Matches—Prompt Action Prevents Total Destruction.**

Fire broke out in Egel & Co.'s grocery store on Monday night and destroyed a large quantity of stock and badly damaged the building.

Mr. Egel and his partner Mr. Vaughan were working late on Monday night preparing the orders for one of the country delivery runs, and it was after half past ten when they vacated the premises. No fire was in the stove and no lights were left burning. About 10:45 Miss Ireland was passing and noticed the blaze, and ran to turn in an alarm. J. B. Woods, whose place of business adjoins Egel & Co.'s store states that he heard a noise which he at first took to be wind, but when the crackling commenced he ran out and found the store in a blaze below the stairway, and the flames creeping up the wall of the building. He also gave an alarm, and in an incredibly short space of time the hose wagon was out and hydrant pressure was brought to bear on the fire. Mr. Egel, who had been aroused, entered the store at considerable risk in order to save his order and day books which had not been locked in the safe.

The prompt and effective action of the volunteer fire brigade saved not only the Egel store but the photographic studio on one side and the barber shop on the other. The origin of the blaze is a mystery, and one can only conjecture as to the cause. The most plausible theory is that a couple of cases of matches, piled against the outer wall may have been jarred and shaken down by outside traffic and ignited by the fall.

The building is nailed up tight pending the inspection of the Fire Companies' appraisers. There is a \$750 insurance on the building and \$800 on the stock and fixtures in the Sovereign Fire Assurance Company, and Mr. McWilliams, the agent, has been instructed to size up the loss and report to his company. There is also a thousand dollars insurance on building and stock in

the Liverpool, London and Globe Company, represented by W. J. Robinson. The appraiser for the company will be here as soon as possible.

Whichever way the matter goes Messrs. Egel & Co. must stand a very heavy loss as the store must of necessity be closed for some time, first to wait on the appraisers; second, for the carpenters, and third, for the arrival of new stock. General sympathy is expressed for Messrs. Egel & Co. in their loss.

### CARD OF THANKS.

Messrs. Egel & Co. wish to publicly thank those who so cheerfully and effectively assisted them in the fire at their place of business on Monday evening. They are fully cognizant of the fact that their willing and prompt service saved them from total loss, and are correspondingly grateful.

On behalf of the firm,

E. A. EAGEL.

### BOYS' BRIGADE CONCERT.

**Summerland Boys' Brigade Closes Season with Good Time.—Exhibition Drill given.**

The Summerland Boys' Brigade, under the able leadership of Mr. Robt. Pollock, gave a closing entertainment in the Parkdale Baptist Church on Tuesday evening in the presence of a large number of their relatives and friends.

The chair was occupied by Rev. H. G. Estabrook, and the first number was an exhibition drill by a squad of the boys, who did great credit to themselves and their commander. Pte. Jas. Keen gave a recitation, Pte. W. Bateman, reading; Miss Ruth Dale, song; Sgt. Douglas Steuart, recitation; Lance Corp. Geo. Dale, reading.

A number of short addresses were given by the friends of the boys who were present, and at the request of some who came in late the boys paraded again, and also went through a number of calisthenic exercises very creditably. Refreshments were served at the conclusion of the programme.

The company has now disbanded for the summer months, and expects to re-organize bright and early next fall.

## WISE ACTION.

### BOARD OF TRADE INAUGURATES PUBLICITY CAMPAIGN.

**Splendid Illustrated booklet to be Compiled—Summerland's Magnificent Resources to be Intelligently Advertised.**

The regular quarterly meeting of the Board of Trade was held in the office of the secretary, C. H. Cordy on Monday afternoon with a good attendance.

The Board has decided upon an active publicity campaign, and an illustrated booklet of the district is to be compiled at once and 5,000 or 10,000 copies printed.

A motion was discussed and passed—That the Municipal council be asked for a grant of \$500 for publicity purposes.

Ways and means of distribution were discussed and it was decided to work largely through the residents of the district and to encourage them to send copies to their friends. Also to make use of Tourist Associations, and kindred organizations.

There were a number of communications and among them, one from W. W. Whyte of the C. P. R., with reference to boat service on the lake. Mr. Whyte stated that a daily service would be inaugurated on May 1, also that the advisability of maintaining a daily boat during the winter of '09 and '10 would receive careful consideration.

Other communications dealt with fruit markets, shipping, grading, etc. A letter was received from Mr. Price Ellison, M. L. A., with reference to the establishment of a Small Debts Court.

### OKANAGAN. AN ACROSTIC.

#### An Invitation and a Warning.

O come where the seasons are kindest of all,  
Kindly in Spring, Summer, Winter and Fall.  
Always its murmuring zephyrs sigh—  
Now to the valley of climate and fruit,  
Answer the summons which bids you be quick.

Go where the melons and peaches grow thick  
Act, ere lumbago has left you a wreck.  
Now is the time to get into the trek.

JONES' FLAT.

**COLLEGE 12, TOWN 11.**

The town baseball fans suffered defeat yesterday at the hands of the snappy bunch of diamond dusters who sail under the College colors, to the tune of 12 to 11.

The Champions of the Valley were at a disadvantage on account of not having had any practice this season, whereas the College boys have had a better chance, and are certainly playing good ball.

The teams were as follow :

College		Town
Leland	P.	Steenson
Clouston	C.	Baker
Watson	1st B.	Blewitt
McNeill	2nd B.	McIntyre
Carter	3rd B.	Glennie
Cunningham	CF.	Gartrell
Clay	RF.	Walker
McWilliams	LF.	Young
Robinson	SS.	Conway

Carter had his ankle badly hurt on second base. He was sliding when McIntyre stepped on him, tearing the flesh and compelling him to retire. McWilliams was also replaced by LeGros, who acted as umpire during the first part of the game. D. H. Watson officiated in that capacity during the balance of the match.

The game was an interesting one all through, although the students looked somewhat blue at the end of the third innings when the town had eight runs to their credit against two. That, however, was the last time any of the town boys reached home until the ninth innings, when they got three of their men home. On the fourth innings the College rooters nearly went wild when they got five men safely home, and on the sixth innings evened up the score.

Three home runs were made during the game. One each by Cunningham and Clouston for the College, and one by Conway for the Town.

Both batteries did excellent work; Leland surprising the Town boys by his brand of goods. A number of errors were stacked up against the players on both teams. These will without doubt disappear as the season advances. The College boys are in good shape for their game with Kelowna next Saturday.

Following is the score by innings:

College	1	0	1	5	0	1	1	1	2	-12
Town	2	2	4	0	0	0	0	0	3	-11

The Water Department is having a busy time of it repairing leaks in the mains. The system is to be largely extended this season.

**BATHING STARTS EARLY.**

C. N. Higgin and Frank Williams should have their names recorded as the first bathers in Lake Okanagan for the season of 1909.

The first plunger was Skipper Higgin of the Maud Moore. He was standing on the side of the vessel when a sudden lurch caused him to tumble over the side. The engineer happened to look out for a moment and saw the skipper in the rear of the boat doing the overhand stroke and

making record time. He instantly reversed and helped the swimmer aboard, very wet but still in the ring.

Frank Williams was the second victim. He was enjoying himself in a canoe and was a considerable distance beyond the end of the big wharf when a sudden wind capsize the frail bark and Frank was compelled to take an involuntary bath. Fortunately he is a good swimmer and immediately swam for the upturned canoe and struck out in the darkness for the shore, trailing the canoe behind him.

# The Summerland Review

## COLLEGE NOTES

Miss Ida Wilcox, one of the Okanagan college students left for her home at Salmon Arm on Tuesday's boat. A number of her companions were down to the wharf to see her off. She was compelled to discontinue her studies through ill health.

About twenty-six college students enjoyed a climb to the crown of the Giant's Head on Saturday last. Fun was the order of the day and on their return they were entertained at Parkdale by Mrs. James Ritchie.

Prof. Carter sustained a severe injury to his ankle during Thursday's baseball game. He was compelled to miss his classes on Friday.

The meetings of the Lyceum have been called off both for this week and next.

Dr. Sawyer will be out of town for a few days next week in attendance at the Sunday school conference which is to be held at Vernon.

A lawn tennis court has been laid out on College Hill and is being kept occupied during recreation hours by the students.

Mr. Shanks of the student body spent a few days this week at his home in Kelowna.

Wilbur Watson and Ward Duncan journeyed to Kelowna last week and conducted the Baptist church services there. The former preached and the latter sang at both services.

A meeting of the college board was held on Thursday night.

Misses Black and Connor from Manitoba who have been visiting in Summerland for a few weeks expect to leave for Vernon this (Saturday) morning.

A number of local Sunday school workers will attend the S. S. convention in Vernon next week.

G. H. Phillipps of Peachland was a visitor in town this week.

## CORRESPONDENCE.

We do not hold ourselves responsible for opinions expressed by correspondents.—ED.

### SYSTEMATIC SABBATH BREAKING.

Editor Review,

Dear Sir,—It seems to me that the time has arrived when a little more respect for the Sabbath day should be displayed in Summerland.

During the past few weeks, Sunday seems to have become a day for sport rather than a day for worship. A week ago last Sunday, a number of young men were playing catch for a considerable time opposite my place at the south end of the town, and last Sunday, the street was turned into a rifle range and a number were shooting at a target.

Now, Mr. Editor, I have children growing up, and I am doing my best to teach them to respect the Lord's day, and as a ratepayer, I consider that I am entitled to assistance from the town authorities to the extent of their seeing that the laws of order and decency are enforced.

It appears to me that the time has come when Summerland needs a little more time to be given by the police constable, and if the council could put on a man whose duty it would be to look after sidewalks and sanitation as well as being responsible for general constabulary work, it might be a good move.

OLD TIMER.

### FIRE PROTECTION.

Editor Review,

Dear Sir,—The outbreak of fire which occurred last Monday night which was prevented from assuming serious proportions, not by any organized system, but through the prompt action of a few private citizens should induce us to make one or two improvements in this connection.

If a fire breaks out after bed time, who are we to call, and how are they to be called? If you could ascertain the names and publish them, also the best means of notifying them, it would be a step in the right direction.

Many members of the brigade are probably on the telephone, whilst other public spirited men who have 'phones would in all likelihood join. These men could be reached at any time of the night by some such scheme as the following, at a very little expense:

A small bell in each man's bedroom, to be connected with the telephone wire at night, then one or two fire alarms at various

known points, permanently connected with the lines running to these houses. This appears to be a simple and inexpensive plan for securing a fair number of men at any time of the night. It is only a suggestion, there will probably be others, such as a fire-bell in the town.

CHAS. H. CORDY.

The Review Phone number has been changed to D-9.

Mr. Parker who recently arrived from Virden to take charge of Dr. Stevenson's property on Jones' Flat, had a narrow escape from serious injury on Thursday afternoon. He was driving up the grade approaching the high flume and in passing another vehicle, got too near the edge and horse, rig and man rolled to the bottom, some 20 feet below. Miraculously the rig and horse escaped without a scratch. Mr. Parker was thrown clear of danger and escaped with a few scratches and bruises.

## News from Peachland

Rev. J. J. Nixon spent Sunday in Enderby preaching Missionary Sermons for Rev. W. Miller.

People are well along with their lot work already, most of the lots are plowed and the trees pruned and sprayed.

Mr. Jno. Wright has had his gangs busy on the ditches lately and with such good effect that they expect to have the water down Thursday of this week.

Mr. T. N. Ritchie left on Tuesday's boat for an extended trip through the North West towns as far east as Calgary. He expects to be gone about ten days.

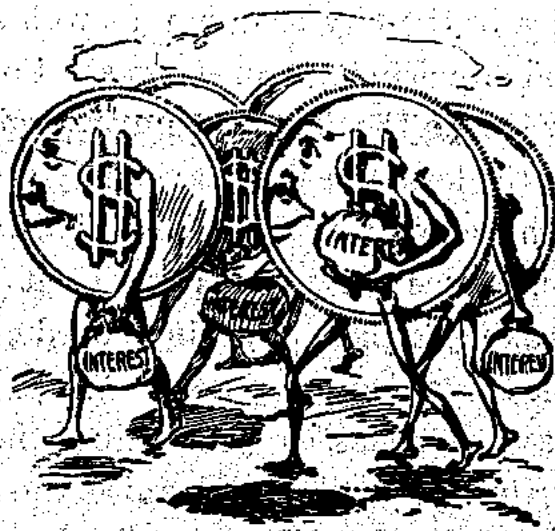

Mr. and Mrs. Wm. Robinson, who have been spending the winter with their daughter, Mrs. Seaton, are leaving this week for their home in Brandon. They will visit for a time at Cochrane, Sask. on their way home.

Three of our teamsters with their outfits, leave for Naramata Wednesday, to plow and harrow fruit lots. Those going are: Messrs. H. Cossar, Thos. McLaughlin and Wm. Williams.

The Municipal Council held a short meeting last Thursday. Considerable correspondence was disposed of. The principal business, however, was to consider the tenders for the grading on Lang Ave. As it was felt that those received were rather high the time for receiving them was extended to March 31st.

Rev. Walter Russell spent Saturday, Sunday and Monday in town and while here held eight services. These were well attended and very well enjoyed by all. He is a speaker of unusual power and ability, and seldom do we hear the gospel truths so clearly and forcibly put. He left here to join in the large evangelistic campaign in the Kootenays.

A farewell social was held in the Hall Tuesday evening for Mr. Murray as he has decided to leave at the end of the month, having found that his health will not stand teaching again. Addresses were given by representatives from nearly every organization in town, expressing regret at his departure, appreciation of his good work in the community, and hopes for his return next year quite restored to health. At the conclusion Mr. Murray made a feeling and suitable reply. So far the trustees have not succeeded in securing a successor.

### FIRE---THE TAX COLLECTOR.

We have a proverb to the effect that fire is a good servant but a very bad master and to that sentiment we all lend cheerful assent; but that every big fire is the master of us all is a proposition, the truth of which is not quite so apparent.

Yet, so it is. If this province finds its hills denuded of timber by fire, just so much of its revenue will we have to make up later by taxes, directly or indirectly levied. It is therefore of the highest importance to guard those treasures of nature. France and Germany spend large sums every year in the effort to replace forests wantonly destroyed in other days. The United States is obliged to pursue a similar course, not only to provide timber for the building operations of the future, but to preserve the soil's otherwise washed off the hill sides, and the moisture conserved for the air by roots, shade and leaves.

To guard these remaining sources of arboreal wealth, governments appoint fire guardians and impose heavy penalties on the carelessness that lets the fire fiend loose in the woods. But better than either of these provisions, excellent and necessary as they undoubtedly are, is the cultivation, through the press and the public schools of a love for these plumed and helmeted guardians of the soil and an enlightenment as to the price paid for every fire and who pays for the fires. When we have by such means succeeded in developing such a public sentiment as will regard as a criminal the man who lets a fire get away from him, we shall have done more to prevent bush fires than all fire wardens and penalties combined.

But we all have to pay toll for every large fire in the city or town as well as for those on government preserves. Popular fancy regards the insurance companies as bearing the loss, but that is simply an illusion of the popular imagination. The insurance companies no more pay for it than the storekeeper pays the increased cent a pound in the price of sugar. We pay for it. Heavy fire losses just cause the fire underwriters to smile—and raise the rates on the landlord. The landlord smiles grimly and raises the rents on the tenant, and the tenant in turn takes it out of someone else as he may be able. So for every large fire, or for a series of destructive small ones, there is a general tax levied to which we must all contribute. The burden of the fire sits less heavily on the insured only because a million are taxed to repay him in part for his loss.

Hence the man who starts a fire or allows one to get the start of him is the common enemy of all. In this country he is looked upon as an unfortunate, worthy of sympathy if his chimney catches fire to the destruction of his home, but in the old world he is regarded as a culprit who should have his ears boxed for having thus carelessly endangered the lives and property of others while ruining his own.

It is no doubt due in no small measure to this police duty done by public sentiment that the average loss by fire in six European countries for the five years ending 1907, was only 33 cents per capita while in the United States for the same time the loss was \$3.02 per capita or nearly ten times as great. Making a heavy allowance for the building materials used, it is still evident that a large part of the loss sustained on this side of the Atlantic is due to the large liberty of endangering the property of others we enjoy through the carelessness permitted us with regard to our own.

According to the American Board of Underwriters the loss by fire in the United States for the past four years was \$1,257,716,955.00 or more than \$251,000,000 a year, and who pays for that? Who but the sovereign people who pay the war tax; the boodle tax and all the other taxes that necessity, extravagance, ignorance and iniquity daily impose upon our weary backs?

When the ordinary citizen once realizes that every fire is simply a tax collector and that he must be prepared to help rebuild the structure he has just seen destroyed he will begin to be not only more careful of his own property, but more careful to see that his neighbor is more careful of it too.

**LOCAL NEWS**

The tickets for the "Crucifixion" are going fast and a full house is assured. The soloists of the evening will be Mr. W. Duncan, tenor; Messrs. Thornber and Carter basses. The singers in the mixed quartette will be, Misses Bartholomew and Brown, Messrs. Duncan and Peters. Male quartette, Messrs. Smith, Morgan, Carter, Peters.

The handsome new Doherty organ recently ordered by the managers of the Baptist church arrived on Monday, s. boat and was taken direct to Empire hall and utilized for the first time on Tuesday night and greatly aided the singers in their work. The instrument has two manuals, side stops and pump attachment and is both ornate, sweet toned and powerful. After the rendition of the "Crucifixion" in the hall on Good Friday evening, the instrument will be removed to its new home in the Parkdale Baptist church in readiness for the second presentation of the "Crucifixion" on Easter Monday. The Choral class is giving the latter concert in aid of the organ fund.

Fred Brind of the Water department has returned from a four months visit to his old home and relatives in Wiltshire, Eng. Mr. Brind enjoyed his trip very much in spite of a very rough return passage. He gives a gloomy report of things in the old land and says that there has been and still is a vast amount of distress among the poorer classes generally throughout the land. Labor conditions are getting worse all the time and shops are being closed for increasingly long periods. Labor Unions are growing in strength but labor is so plentiful that overcrowding is the result. He expressed himself as thankful to get back to the little old Okanagan Valley where all are prosperous and flour barrels are full.

Messrs. Armit and Stenson of the Summerland Bakery and Restaurant have sold out to Mr. Isaac Beech, a recent arrival from Port Greville, Cumberland Co., N. S. Mr. Beech is accompanied by his son who is assisting in the business. Mr. Beech comes highly recommended as an experienced caterer and will doubtless do an excellent business at the old stand. Mr. Armit will shortly leave for the prairies, and his many friends regret to see him go. The secret of Jack's popularity is that he is always good natured and obliging and has always done his best in caring for his patrons.

**TO OUR CUSTOMERS**

Our place of business will be closed for a few days, awaiting adjustment of fire losses. We will open up at the earliest possible date, and trust to be again favored with your valuable orders.—EAGEL & CO.

**:: Naramata Notes ::**

Mr. Pye, of Kelowna spent a few days in town this week.

A first heavy shipment of fruit trees are said to be in prime condition.

Mr. Schreck and also Mr. Wolsencroft are planting their respective lots this week.

Mr. Robinson's launch the Naramata, after a repainting by Mr. R. Wilkins, is again ready for action.

Extensive alterations are being made in the Companies offices by Messrs. Robertson & King.

Mr. A. H. Mulford's neat little sail boat has been given a few trial spins after being rigged out afresh by R. Calvin.

The Japanese Tea Party under the auspice of the Unity Club billed for last Tuesday evening was deferred till Tuesday, April 6th owing to the storm on the lake.

Before a crowded house on Sunday afternoon Mrs. Gillespie gave an interesting and instructive address on "Spiritualism," its origin, meaning and growth were explained. The occasion was the 61st anniversary of the organization of the first Spiritualistic body and is recognized quite generally throughout America and Canada. A duet rendered by Messrs. J. S. Gillespie and Fred Manchester at the opening of the service and a solo by Mr. James Crawshaw at the close of the address were well received. Mrs. Wellband as pianist and Mr. James Pollock as violinist, were pleasing accompanists.

The subject and date of the next lecture will be announced later.

A Maritime "Old Boys," association is being formed in the valley and an informal census of ex-Maritimers is being compiled.

It is reported that the steamboat Okanagan will resume its daily trips to and from the Landing about May 1st.

Rev. R. J. McIntyre will preach in Naramata, Sunday evening at 7 o'clock.

**BUSINESS NOTICE**

MESSRS. ARMIT & STEENSON beg to notify their various patrons that the business recently carried on under their name has been disposed of to Mr. Beech, and they trust that the patronage which they have received in the past will be extended to the new proprietor.

All accounts outstanding are due and payable and are to be paid to Armit & Steenson.

### THREE BRIDES ON A BOAT

Wednesday's boat had on board three bridal couples, of which two, Mr. and Mrs. F. Allen Tovel, of Lockport, N. Y., and Rev. A. T. Robinson and Mrs. Robinson, were the guests of Mr. Robinson's brother, J. M.

Mr. Robinson was expected on Friday's boat and a bushel of rice awaited him on his arrival but unfortunately business made it necessary for him to come a couple of days earlier.

Mr. and Mrs. Tovel were married two weeks ago. According to a Lockport paper the wedding was a very fashionable event. It was celebrated in the Presbyterian Church by Rev. A. Evans D.D. and the presents were so numerous and valuable as to testify to a very high regard on the part of Lockport friends.

Mrs. Tovel was one of the soloists of the city and many will remember her visit here three years ago as Miss Mildred Huston.

Mr. and Mrs. Tovel will reside in Naramata.

Major Shoof, traveller and soldier and lecturer gave two very interesting lectures in the Methodist church. The drilling of new recruits caused much amusement. Major Schoof has about decided to purchase a fruit lot here and to bring his family in from Claresholme to reside.

### CORRESPONDENCE

Editor, Review:—I quite agree with Martin Burrell in his speech re. yellow peril in Canada as printed in the Review. Canada can never become a great nation as long as greedy Canadian men prefer employing yellow labour to employing men of their own flesh and blood, sacrificing their pride of race for greed of gold, also making our community piebald

At present it is only the labouring classes who are the sufferers, but when the Asiatic merchant opens up his store here in Summerland and cuts down prices, and his children rub shoulders with ours at school it will perhaps be a horse of another colour. The fable of the Arab and camel is well known, but it will bear repeating.

An Arab was one cold day sitting in his tent when a camel stopped at the door and asked permission to put his nose inside the tent; this was granted. After a while he asked for and received permission to put his head and neck inside the warm tent. It wasn't long before the camel had possession of the tent and the Arab was forced out into the cold. "He who runs may read."

S. P. Q. R.

The new Rifle range will be opened on Saturday, April 3rd, by Col. Cartwright. All members are requested to be present.

## Provincial and General

Six hundred farmers from the Old Country reached Winnipeg last Friday in the midst of a snow storm.

Constable J. Tooth will be transferred from Penticton to Kelowna on the first of April. His successor has not yet been named. Constable Tooth has been stationed at Penticton for about three years.

Considerable alarm has been caused in one of the Turkish provinces by the appearance of a new Mahdi. He preaches regeneration of the world, and by his laws liars are to be punished by the pulling out of the tongue, and thieves by the amputation of hands.

It is proposed to hold in Glasgow next summer an exhibition of Scottish National History, Art, and Industry, and a provisional committee has been appointed to promote the scheme. The destination of the expected surplus would be the endowment of a Chair of Scottish History and Literature in Glasgow University.

Thirty-four townships of land mostly situated between Lake Winnipeg and Lake Manitoba, 90 miles north of Winnipeg have been thrown open for homestead entry. Printed lists of the exact location of these lands may be obtained from the Dominion Lands Office, Winnipeg.

The annual meeting of the Armstrong Gun Club was held on Thursday evening in the club rooms. The accounts for the year were passed and the following officers elected: President, L. W. Patten; Captain, M. Toll; Sec.-Treas., A. E. Sage. The president and secretary were appointed a committee to look up new grounds. Several new members joined and the first shoot will be held on Good Friday.

A live tarantula, the size of the palm of one's hand, was the cause of a lot of excitement at Oscar Brown & Co.'s wholesale fruit warehouse, Winnipeg. The whole staff took a few minutes off until the big spider was rounded up into a bottle. C. Butterfield, who first discovered the tarantula, had it in his hand, but when he realized what it was he could not let it drop quick enough. The spider arrived in a car of bananas from Central America which was trans-shipped at New Orleans.

## VALUABLE TOWN LOT GIVEN AWAY

I AM placing on the market a large tract of the finest fruit lands ever offered to the public, upon which I am constructing a pressure pipe system of irrigation. Upon completion of this work this will be the first place in Canada where lot holders will have irrigation water under pressure and enjoy beautiful domestic water in their homes the year round.

These lands stretch for over four miles along the shore of Dog Lake, which is four miles south of Okanagan Lake.

The location is a picture of fascinating charm and loveliness. Here there are hundreds of acres of beautiful Prairie slopes surrounding a very pretty townsite on a charming lake beach. FOR A SUITABLE NAME FOR THIS PLACE I WILL GIVE A BUILDING LOT IN THIS TOWNSITE.

Each proposed name must be accompanied by five names and addresses of persons who wish to become interested in fruit culture in the Okanagan Valley. Dr. Sawyer and Professor Perry of Okanagan College, Summerland, have kindly consented to select the most suitable name from amongst those submitted. Competition closes April 7th. Don't wait, but send names at once.

JAMES RITCHIE, SUMMERLAND, B.C.

Telephone Gray 2.

A monster specimen of Golden Zone ore taken at a depth of 45 feet out of the shaft now being sunk was brought down on Wednesday last, says the Hedley Gazette. It came off the hanging wall and would weigh in the neighborhood of 240 lbs. Those who are most familiar with Golden Zone ore and have had assays made of the various kinds of ore met with in that ledge claim that it will assay somewhere in the neighborhood of \$100 per ton. The specimen will go to Seattle and will afterwards be taken to Ottawa, where it will have a place in the geological museum.

On Easter Monday, a friendly rifle match will take place on the Armstrong range between teams from Vernon, Armstrong and Enderby.

A committee of inquiry on the subject of Indian emigration is to sit shortly in London, when the question of employing Indian labor in other parts of the British Empire will be discussed.

The W. F. M. S., of the Presbyterian church held an interesting meeting on Tuesday afternoon when Missions in China were discussed.

LOCAL NEWS

The Review will be published on Thursday instead of Friday next week.

The Japanese concert and lecture on "A night in Chinatown," by Naramata talent in the Naramata Opera Hall has been postponed until Tuesday evening next.

The Aberdeen is replacing the Okanagan for a few days on the up and down run. The latter vessel is being adorned with a new coat of paint, and other beautifying touches.

The new street lights were turned on for the first time, on Tuesday evening. The forty incandescents contribute greatly to the up-to-dateness of the town and the comfort of pedestrians.

The Baptist service at the Front will be Sunday morning instead of evening. Evangelist Baker and Mr. McLean, gospel singer will conduct the service also the service in the Parkdale church in the afternoon.

The football team has been re-organized for the season with good prospects. Officers were elected as follows: Pres., E. B. May; V. P., R. H. English; Sec., Jno. Tait; Treas., W. Atkinson; Manager, A. H. Stevens; Capt., B. Nelson; V. Capt., C. McWilliams. Executive, Sec., Treas., Capt., V. Capt., and M'gr. Team will practice Thursdays and Saturdays.

Where is the Joke?

The following samples of alleged wit are from the Greenwood Ledge. It would be interesting to know just where to smile:

"The Summerland theological students play baseball. It is to be hoped that this will not lead up to 'hit me,' 'that's the baby,' 'deuce in the hole,' and other pastimes."

"The Baptist church services have been discontinued in Summerland while the evangelists are working that town. Possibly the water became overheated."

Elections in Manitoba.

The members of the Manitoba cabinet who have been at Ottawa for a week conferring with Sir Wilfrid Laurier on his extension of the boundaries of Manitoba were expected back on Monday, and it is generally believed they contemplate an immediate appeal to the country on this issue. The opposition has called several conventions to nominate candidates.

## MADE A HIT.

### JAPANESE TEA AT NARAMATA THE EVENT OF THE SEASON.

Gay Costumes, Bright Singing, Interesting and Instructive Lecture and Dainty Refreshments--- Crowd from Summerland.

On Tuesday evening last a very entertaining and enjoyable time was spent in the Opera House Naramata. The programme consisted of songs and choruses, and a lecture on "A trip through Chinatown in old 'Frisco,'" by Mrs. Gillespie.

From 150 to 200 were present, a goodly number of these being from Summerland. The Maud Moore had to make a double trip, and she was crowded on each journey. As one entered the hall, the decorations were the first thing to be noticed, and even though they had been up for a week, they still welcomed the visitor and created a homelike feeling.

When the audience was assembled and comfortably settled in a free and easy way around the tables, Mrs. Wellband, who occupied the chair, announced the first item, song and chorus, "Karama." The curtain was then drawn to one side, and to view was presented a pretty group of about twenty Geisha Girls daintily dressed in all imaginable colors and shades, and to the front was Mrs. MacDowell, the soloist.

"Karama" was well sung, and well received, as was also "Hoo Long Lie," the second song with chorus. The gestures of the chorus lent themselves to the subjects of the song. A Fantasia by Fred Manchester on the favorite "Briar" demonstrated what a puff of smoke could do. If all pipes were productive of such effects—well, there would be such a rush for briars, factories would have to work overtime. J. Pollock assisted with a violin obligato.

The lecture by Mrs. Gillespie was the feature of the evening. Commencing at a Chinese mission, one was escorted through the stores, bazaars, theatres and households, and kept going all the time. The descriptive parts were vivid and realistic, especially the one of the Joss house and the lecturer was able to introduce as a simile, the origin of our church chimes throughout the universe.

A description of a wedding opened the lecture, and the funeral customs closed it. Although the lecture occupied 40 minutes, the lecturer gave the whole town life from beginning to end. Not the least interesting were the witty sallies she made at the expense of one or two members of the audience.

After the programme came tea and a choice selection of cakes, bon bons and candies, which were enjoyed by all. The whole proceedings occupied about two and a half hours and everyone expressed their appreciation of the entertainment.

## HUMUS IN THE SOIL.

Professor Thornber of Pullman Washington Agricultural College and Experiment Station, in a recent address to the fruit growers said: "Humus has been called the 'bread of plants' and the term seems very appropriate when its relations to plant growth are known. Soils lacking humus have very little vitality, and are practically worthless from an agricultural point of view. Speaking of the power of humus soils for holding water the Alabama Farmer says 'the power of absorbing water is eight times greater in a humus soil than in a soil without humus.'"

The same authority in speaking of 'friability and tilth' brings out in a striking manner the result of tillage on soils in this way:

"Take a cubic inch of soil. It presents but six sides to the hair roots of the plant. But divide it up into as fine particles as you can by proper cultivation and you will find that there are three million sides to the cubic inch which can be touched by the hair roots of the plant and the fertilizer taken from it that was in the soil moisture. Take a cubic foot of soil and when it is divided into that fineness which you can get by proper manipulation of the soil it will present to the root system, sixteen acres of surface. Think of it, that when you take that soil and divide it, it will spread over sixteen acres!"

During the three months ending September 30 last year 252 persons were killed on railways in the United Kingdom. Of these no fewer than 128 were trespassers,

## LONG SESSION

### TOWN FATHERS DISCUSS CIVIC MATTERS FROM MORN TILL EVE.

Make Grant for Publicity Purposes—Pass Many Accounts—Increase Agents' Licences—Remove Street Campers.

The Municipal fathers held an all day session on Monday, and transacted a big sheaf of business.

In the forenoon they passed accounts to the tune of \$3,500 for contracts performed throughout the district.

Road Commissioner Mellor presented his report on the work to be done during the current year, and it was decided to call for tenders for work to the extent of from \$3,000 to \$4,000, all of which must be completed before Nov. 1.

Fire Brigade matters were debated, and it was decided to order more ladders and trucks. It was considered that there was a sufficient quantity of hose on hand to meet all requirements. Mr. D. Watson was appointed fire chief.

The Trade License By-law was a fruitful theme for discussion and the Council was divided on the question. At last it was decided to raise the license fee from \$10 for each six months to \$25 each six months. This will effect agents of all descriptions, local or otherwise, except fruit tree agents, who will pay a fee of \$10 per year.

The letter in last week's Review, dealing with profanity on the public streets was discussed, and arising out of the discussion it was decided to move all campers from the public streets, and the clerk was instructed to order all trespassers to remove at once. No camping will hereafter be allowed along the lake shore without permission of the Council, and public rowdiness or profanity will be promptly suppressed.

The application of the Board of Trade for a grant of \$300 from the Council was discussed at length, and a motion was eventually passed granting them \$275 for publicity purposes.

The Press Association is informed that His Majesty the King has been pleased to become the patron of the new Radium Institute.

**Provincial and General**

Victoria, one of the States of the Commonwealth, still retains the late Queen's head on some of its stamps. Letters thus stamped are now regarded on their arrival here as not stamped at all and charged double on delivery. One of the persons thus penalised asked the reason why at St. Martin's-le-Grand, and was told that the time of grace—six years—after a change of sovereignty had now expired.—Glasgow Herald.

Twelve years ago a workman committed suicide in a village near Epinal, in France. The children of the deceased man knew that he had saved money, but it was nowhere to be found. The mystery has now been explained. The tomb was opened in the presence of the eldest son, when, mingled with the bones of the skeleton a little heap of gold was disclosed. There were 20 louis, valued at \$4 each, and 35 10-franc pieces, worth \$2 each. The father was on bad terms with his children, and in order to prevent them from profiting by his death he swallowed the gold.

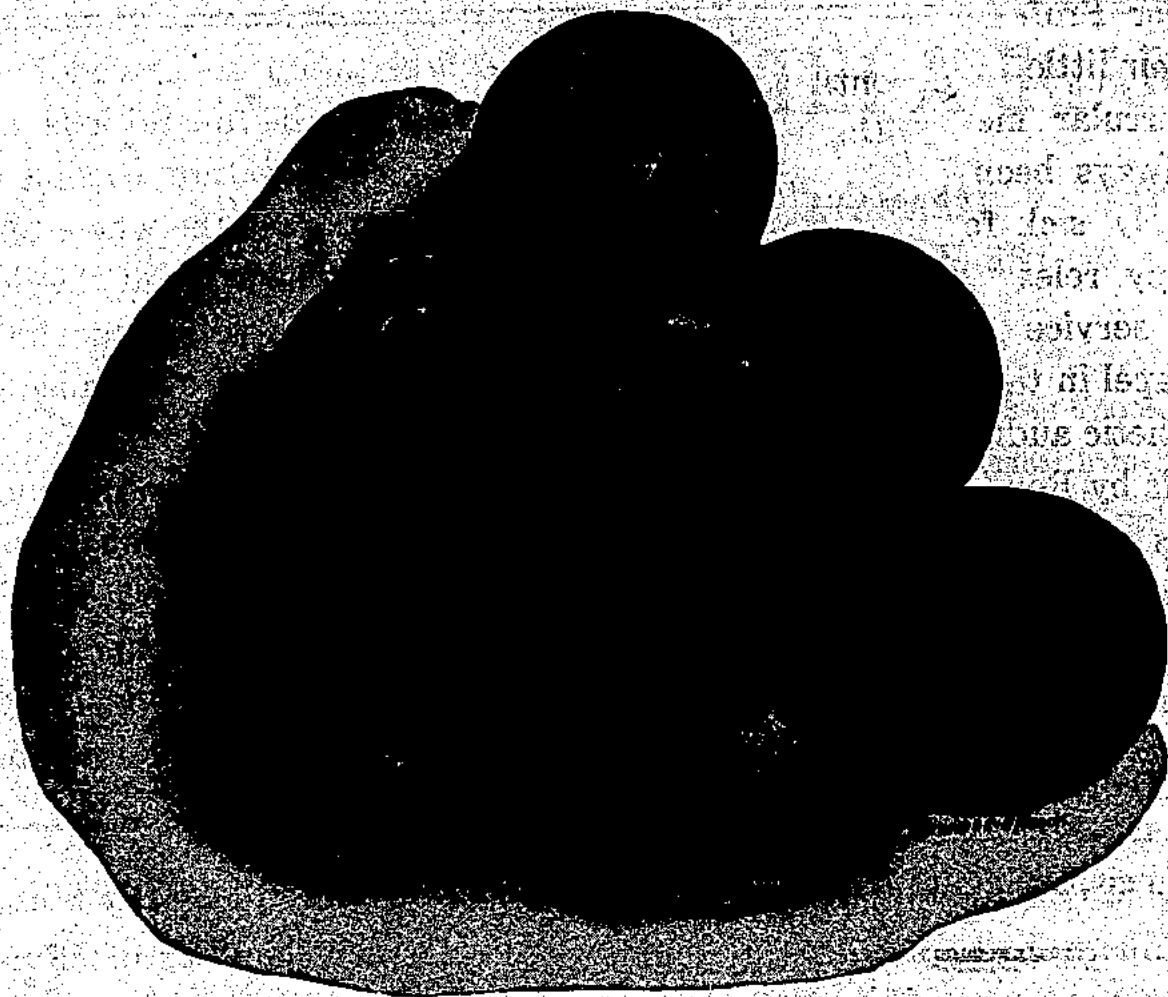

**ANOTHER NEW AIRSHIP.**

W. Friese-Greene, a Brighton photographer, has patented, and is now building the most remarkable air ship yet constructed. The novel feature of the vessel is its twin construction. It consists of two elongated gas bags placed side by side. Should one bag collapse, there will be no fear of accident, and the airship has as its balancing instrument the wonderful gyroscope.

There are four motors, one driving the gyroscope, another the propeller fan and two others for emergency. The gyroscope is used for steering, its position being altered by means of steering gear attached to an ordinary ship's wheel. The airship can be made to rise or fall by a movable weight travelling on endless band from end to end of the machine. Two aeroplanes are also used to alter the angle of the airship.

J. L. Johnson of Vancouver, was in town this week looking over the property owned by his brother E. H. Johnson of Brandon. Mr. Johnson's acquaintance with Summerland had hitherto been the view from the lake and he expressed himself as not being much struck on the place. A drive through the district has opened his eyes so widely, that there is every prospect of his future enrolment as a property holding resident.

### UNRIVALLED IN ITS BEAUTY,

 its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

### DOES SUCH A PROPOSITION APPEAL TO YOU?

If it does write us and we will only be too glad to give you all the desired information.

**JAMES RITCHIE - PARKDALE - SUMMERLAND**

### Business Announcement

Mr. John S. Ritchie begs to announce to the public of Summerland and surrounding district that he will shortly establish himself in the

### Harness Making and

### Boot and Shoe Repair Business

in the new premises at what is at present known as Parkdale, Summerland, and hopes to merit a fair share of the public patronage. Charges moderate.

Call and see his harness stock in a few days.

PARKDALE SUMMERLAND

Dated 8th April, 1909

MUNICIPALITY OF SUMMERLAND.

### NOTICE

THE Pound By-Law is now in force prohibiting the running at large of any live stock within the Municipality. The Municipal Council has made arrangements whereby live stock can be cared for during the summer months at a reasonable rate by a responsible party who will also see that all live stock roaming at large is impounded. Information as to the cost of caring for stock can be obtained from any member of the Municipal Council or the undersigned.

J. L. LOGIE,  
Municipal Clerk

The annual meeting of the Summerland Athletic Association will be held next Tuesday evening at 8 o'clock in the Town hall when sports generally will be discussed and plans laid for the ensuing year.

W. Wanless of Vernon is registered at the hotel.

## News from Peachland

Mrs. Seaton returned Monday, from a visit to Kelowna.

Miss Kinney is to spend her Easter holidays with a cousin in Penticton.

Mrs. R. H. English, of Summerland, spent a couple of days with Miss Smith.

Mrs. Grieve returned by Monday's boat to Summerland, after spending a few days with Mrs. Ritchie.

Mrs. (Dr.) Smith, of Summerland, was the guest of her sister-in-law Miss Minnie Smith, last week.

Miss Mabel Robinson, who has been spending some months with her sister in Frank, B. C., returned this week to her home.

The B. Y. P. U., held a social last Tuesday evening which was well attended, not only by the members of the organization but by members of other societies in town.

The council held a special meeting Tuesday evening. Several accounts from the School Board were passed and some for work on the roads. The tender of John McLaughlin, for changing Lang avenue to cross Lot 61 was accepted. Arrangements also were made to appoint a constable for the municipality. The next meeting of the council will be the regular monthly meeting on Tuesday of next week.

## :: Naramata Notes ::

Miss White spent Sunday here, the guest of Miss Hatfield.

A second large shipment of trees came in on Wednesday's boat.

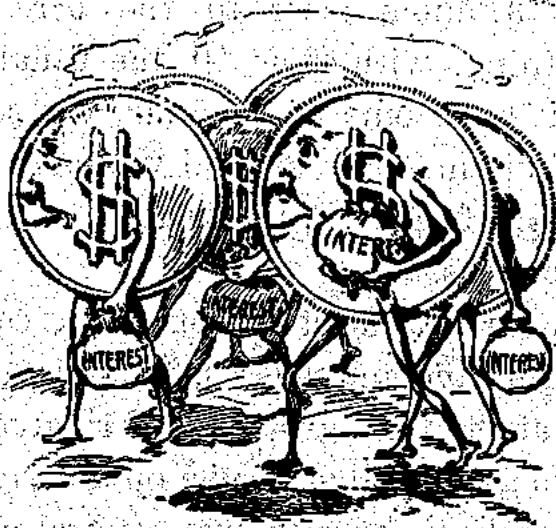

Mr. T. R. Wellband has returned to town after several months absence on business.

Mr. and Mrs. Tovel, late of Lockport, have taken up their residence in Naramata.

The irrigation work goes merrily forward. A heavy shipment of pipe is daily expected and after this reaches here the fruit tree planting will be a safe proposition.

Mr. and Mrs. Davies and family from Edmonton, have arrived with a car load of household and settlers effects. They have a fruit lot in course of development.

Mr. J. S. Aikins has left for his home in Winnipeg. Before leaving he made arrangements for planting ten acres with a choice assortment of trees and shrubs. The contract for the erection of his cottage was left to the care of Messrs. Robertson and King.

### NEEDS TO BE REVAMPED.

In a public print of Woodstock, N. B., appeared recently a lengthy article on the Kootenay country. It appears over the signature of F. Allison Currier. It is on the whole a very optimistic article in which the writer takes the public into his confidence as to how he came to find his "Enchanted gardens of Dreamland" in the Whatshan Valley after his tour of the Western fruit growing states, East Kootenay, Boundary and the Okanagan, the manifest intent of the whole thing being the persuasion of the sons of New Brunswick to a great trek in which he might lead them.

Now with that we have no quarrel. It is conceivable that many Blue-noses might be benefitted by a tussle with the colossal stumps and dense undergrowth of the rain soaked bottoms of the Kootenays, while its twenty feet of snowfall served to remind them of 'ome. But when Mr. Currier undertakes to tell the eastern public of the man who was offered \$25 per tree for the fruit on his Gravensteins before they were picked he refused the offer and netted \$30 from each tree. Each one of these will give as much profit as an acre of finest wheat on the prairies, and there are 130 of these to the acre, besides an equal number of pear, plum, prune, cherries and peach trees which are put in as "fillers"—When he goes on in that style, then he leaves himself open to the charge of gross deception or of culpable ignorance—particularly when we reflect on his added statement that from \$500 to \$800 may be made by cultivating strawberries between those very trees.

An acre in the Kootenay is no bigger than an acre in the Okanagan, Ontario or

the United States and if in these latter places 37 apple trees to the acre is the ideal thing, with 49 or 50 the usual, then what is to become of the man who squeezes in four times the natural number, to say nothing of \$500.00 to \$800.00 worth of strawberries.

Mr. Currier talks of the "enormous cost" of irrigating land and says it is 'unsatisfactory' and that the fruit grown on irrigated land is not so good as that grown on unirrigated.

Just where he got his inspiration for those whoppers we do not know. Irrigation in Summerland costs per acre just five-sixths the price he quotes for one box of apples and the device that raises us above the caprices of Summer, is highly appreciated not only by the fruit growers of the Okanagan, but by the grain raisers of Alberta. Moreover Okanagan fruit raised under irrigation has attracted world wide attention on account both of its flavor and its color. The medals and diplomas held in this valley bear witness to that fact incontestably and this man in so speaking has simply advertised his own ignorance to gods and men.

But worse yet, he drags an honorable gentleman, Mr. A. B. McNeill, chief of the Dominion Fruit Division at Ottawa, in to his mire of mendacity and gross ignorance when he quotes him as saying: The only province of Canada that can produce apples of the fancy class is British Columbia and I have come to the conclusion that the only district even in B. C., that can produce it is the Kootenay. The soil and climate are unequalled anywhere in the world."

"A lie will travel half around the world while truth is getting its boots on" it seems. A nice time poor McNeill has of it trying to chase that one. Happily it is overdone. The paint is too patent on the hussy's face, and even where the injured party cannot trace its devious way, there is something about the opening sentence that inspires doubt as to the rest.

Mr. Currier's article needs badly to be revamped.

Two births were reported in Summerland last week. A son, to Mr. and Mrs. Washington on the 3rd and to Mr. and Mrs. Harry Tomlin, a daughter on the 2nd.

W. A. Wright who came from near Ottawa last fall in search of better health is improving nicely. Jones' Flat is certainly a healthy spot.

Summerland, B. C.

**DON'T WANT CHINAMEN.**

A petition largely signed by merchants on McKenzie Avenue was read at the meeting of the city council last night, requesting that the council prevent the opening of a Chinese restaurant on McKenzie Avenue, in the premises now occupied by G. Knight and H. N. Coursier, on the grounds that it is a menace to the public. The council have acted on this previously and passed the fire-limit bylaw on that block, thus effectively preventing the Chink's move.  
—Revelstoke Herald.

**HALIFAX WIDE AWAKE.**

At a meeting of the Halifax board of trade a resolution was adopted favoring a Canadian navy, made in Canada, with Halifax the principal dockyard.

**GOOD-BYE OLD SPORT.**

Old Sport is dead. After having been a pensioner on public charity for a considerable length of time, the old brown haired, one eyed veteran, died suddenly a few days ago. Old age had crept upon him with stealthy tread, the remaining optic had grown weak and watery and he had long been badly in need of a dentists services. The only thing about him which had not diminished with the advancing years was his pugnacious spirit and his love for a scrap. The immediate cause of death was a dose of lead pills taken internally. Good bye! old sport. No more scraps for you; no more weary back-door hunts for juicy bones; no more shivering in the cold and wet, but a long, long dreamless sleep in doggies Paradise.

**POINER MINISTER HONORED.**

A complimentary banquet was tendered to Rev. Dr. Ebenezer Robson in Pender Hall, Vancouver, on Thursday evening which was a noteworthy event. Recently Dr. Robson celebrated the fiftieth anniversary of his arrival on the coast and during all that time has been an assiduous and successful religious worker. At the banquet on Thursday evening, among those present were Premier McBride, Hon. W. J. Bowser, Dr. White, of New Westminster, Mr. James Turner, jr., Thomas Cunningham and others. Mr. Cunningham is another of the Provincial veterans, having been in this section for fifty years.

**FUTURE OF AQUATICS.**

What about a boat house and a place where boats can be hired? It is rather hard luck that a fellow who has a girl should either be compelled to buy a boat of his own, or try and borrow one from some other fellow who is not a bit keen about lending.

However, it must be done, as most ladies dearly love boating, and it would be a stigma upon the fair names of the gallant youth, middle age and old age of the opposite sex in Summerland if they did not dearly love to oblige them.

The scheme outlined by the Canoe Club at its preliminary meetings for building a landing wharf and boat house and having boats for hire, seems to have become sidetracked in some way or other, but it is hoped that some scheme for placing a number of boats and canoes at the disposal of those who wish to hire, rather than borrow or buy, will soon materialize.

Few towns in Canada are better situated than Summerland for cultivating the aquatic fever. A number of sculling shells are desirable for racing purposes, and who knows but a Hanlan or a Towns might be found within the gates to uphold the fair name of the district against the world.

An eight oared crew ought to be gliding over the waters, during spring, summer and fall and fitting them to wrest the honors from Red River rowers and Varsity eights. An annual regatta, when every floating craft from a tub to a passenger boat would be festooned with evergreens and flowers, a series of races for good purses; a pyrotechnic display from the deck of the big scow would attract visitors from outside points and add to Summerland's popularity as one of the choicest Summer resorts in the west.

Is there not a wise man, or three wise men for that matter, with eyes widely open to the star of Summerland's prosperity who can be induced to boost for aquatics and devise schemes, not only for a Canoe Club, but for a Rowing Club and boat houses with a supply of boats available for the public use?

A Review representative was told a yarn yesterday which it is hard to swallow, and yet the narrator has a reputation for veracity. The story goes that new settlers in the district planted a lot of trees last year and planted a large proportion of them upside down. This spring they carefully pruned the roots and are at loss to know why the trees are not thriving.

## WELCOMED TO SUMMERLAND.

### Reception to Rev. A. T. Robinson and His Distinguished Bride.

Empire Hall was crowded beyond its seating accommodation last Monday evening on the occasion of a reception tendered Rev. A. T. Robinson, M. A., and his distinguished bride, who has until lately been known to the world at large as Miss A. L. A. Murcutt, F. R. S. G. S.

The hall was decorated for the occasion with bridal white and potted plants of various kinds and a choice programme of music was rendered in which Misses Bartholomew and McDougald and Mr. Ward Duncan bore a charming part vocally, while Misses Logie, Robson, Dale and Bateman contributed beautiful strains from the piano. Miss Mallett also helped along the hilarity of the evening by a recitation in the negro dialect.

Near the door stood the guests of honor receiving, attended by Mesdames Hood, H. G. Estabrook and Logie.

For the space of an hour the procession continued and the names presented represented the best blood and brains of the community. Friends from Peachland and Naramata, also were present, and Rev. Daniel Spencer, L. L. D., came down from Vernon on purpose to attend the function.

The chair was occupied by Everett W. Sawyer, B. A., D. C. L., president of Okanagan College. In a few happy words of greeting, he set the ball rolling when the receiving ordeal was over, and the ladies of the W. C. T. U., in the work of which organization Mrs. Robinson has been deeply and actively interested in many lands, came forward with a very flattering address, read to her by Mrs R. J. McIntyre. They also provided choice refreshments towards the close of the evening. Rev. Dr. Spencer, Supt. of Local Option work for the province, occupied a seat on the platform. He was one of the speakers of the evening. With deep feeling, he spoke of the magnificent work done by Mrs Robinson, in behalf of temperance and moral reform in this province. He did not hesitate to say there is not a woman in Canada who could have done the work which she had succeeded in doing during the past year. From long and close acquaintance with her, he could commend not only her splendid gifts of platform and pen, but her steadfast, womanly heart as well.

Replying to the welcomes extended, Mrs. Robinson spoke only for a few minutes, but in her usual bright and effective way that always seems to vivify a meeting. She alluded facetiously to her coming to Summerland and what she had found there, and explained for the benefit of those who had been interested, that the engagement had not been announced "for reasons of state."

Mr. Robinson followed in a happy vein, ably accounting for his part in the transaction and announcing as his reason for coming to Summerland his determination to develop from this centre on interdenominational lines, the organization known as the Industrial Guild of the Great Commission, in the interests of which he founded and publishes Summerland's pioneer journal, The Missionary Arena. After referring briefly to the past success of the organization, he intimated that he had persuaded Mrs. Robinson to join him in working out its destiny--something large and beneficent, if the judgment of eminent men elsewhere, and its own practical results in operation may be taken as any criterion.

### GOOD CITIZENS.

Of Mr. Robinson it is not necessary to say much. He is personally well known to most of our readers. Those who know him best, love him most, for his sterling qualities of soul make for him a warm place in the hearts of many men who come to know him. Before entering the ministry, he was one of the brightest and most promising young journalists of the Northwest and even now, his facile pen contributes valuable information concerning the Okanagan Valley through many of the leading publications of Canada.

As secretary of the Executive of the Board of Governors of Okanagan college, he is close to the educational interests of the province and does not lose opportunity of serving those interests when occasion offers.

And as for Mrs. Robinson, well, she has the world at her feet, won by sheer merit, and it would be strange if Summerland to which she has come to make her home did not rise up in recognition of her coming. If Scotland could rise up to give her a national farewell, this community would have simply proclaimed its own ignorance by neglecting to extend a formal welcome. The Local Option League of B.C. recently presented Mrs. Robinson with a fine silver service in recognition of her worth and work. But her work has reached far beyond the bounds of Canada. As the representative of fifty magazines and two hundred and fifty papers of this continent she was some years ago authorized to investigate the industrial conditions of Japan, and while doing so was the recipient of special honors at the hands of that nation.

For her work as a traveller, lecturer and writer she was made a Fellow of the Royal Scottish Geographical Society, before which she has lectured in the leading cities of Britain. That is an honor rarely attained by a woman. As a lecturer her charm

is such that the largest halls in Edinburgh, Glasgow and other large cities have been crowded night after night to hear her speak. As an organizer she holds the world's record, having on one occasion rounded up 1,200 in a single evening, and as a lady she is altogether charming. The Review therefore extends to Mr. Robinson its most cordial congratulations on the prize he brings back to Summerland, and wishes him and his bride many happy and prosperous years in their orchard home, Conestoga.

### FROM "THE CHRISTIAN WORLD."

The following extract from "The Christian World," one of the leading religious periodicals of Great Britain, will doubtless be of interest to our readers:

"Miss A. L. A. Murcutt received the unusual honor of a national farewell on Monday evening in Glasgow city, held at the close of a Scottish lecturing tour. Between 3,000 and 4,000 people were present from all parts of the country, and an address of appreciation and farewell was presented to Miss Murcutt. Her honors have come to her not only from the people, for the Royal Geographical Society has recently made her a Fellow of that Society, as writer, lecturer and traveller. Miss Murcutt's personality is bewilderingly versatile. She possesses the frank good fellowship which fairly captivates the crowds that come under her influence, along with a refinement due to an academic training and contact with men and women in all parts of the world. She combines merciless outspokenness with deep Christian sentiment.

"Miss Murcutt was born in Australia, where her father had died several months before. Her mother was a highly educated woman, a linguist and musician. From her earliest years she had a passion for travel, and yet, strange to relate, Miss Murcutt is one of the worst imaginable victims to the terrible fiend *mal de mer*. She has travelled a distance equal to twelve times around the world, has adopted the customs and assumed the costumes of the Chinese, Japanese, Russians, Hindus, and Whitechapel Slummites, not to speak of Canada, the United States and the more accessible parts of Europe. She has visited the chief prisons of the world, has been among the long haired Ainus of Japan and in the islands of Hakkaido and Saghalien—a record surely for a 'defenceless woman.'

"Miss Murcutt is no mere globe trotter. She is on fire with her zeal of social reform. But her mission, she declares, is to the heathen at home. Her oratorical powers are of a high order."

**LOCAL NEWS**

Mr. and Mrs. Toyer, recent arrivals in Naramata, were visitors in Summerland this week.

Rev. H. G. Estabrook, Dr. Sawyer, J. J. Wallace and several others attended the district Sunday school conference in Vernon this week.

Evangelist Baker and Hugh McLean, gospel singer, conducted two services here last Sunday, and will be here again next Sunday.

There is great need of a clean up around some of the back doors along Shaughnessy avenue. The bad odors are decidedly offensive and a menace to health.

Bathing has genuinely commenced in Summerland. Messrs Higgins and Bentley have set the ball rolling and others are following suit.

A large flock of geese passed over the district a couple of nights ago, arousing the dwellers under canvas by their honk-honking and suggesting an automobile parade to sleepy heads.

The Canoe Club is building a house in readiness for the reception of the long expected war canoe. The new building will adjoin the wharf in the rear of the Fruit Company's building.

Dr. Andrew is setting the pace for Western physicians, and it is reported that he is importing a quantity of radium for experimental purposes. This is about the second shipment of the new substance into the west.

Mr. Duncan of Morden, Man., arrived in Summerland from the Penticton end of the lake, on a visit to his daughter, Miss Alice Duncan one of the college students. During his stay in the district, Mr. Duncan will be the guest of Mr. and Mrs. Jas. Ritchie at Parkdale.

After a considerable amount of correspondence and persuasion, C. H. Cordy has succeeded in securing a decided reduction in fruit-growers accident insurance rates. He has also made arrangements with one of his fire insurance companies, whereby those taking out policies may borrow small sums on real estate.

Miss Mary Dale left on Tuesday morning for Winnipeg where she will nurse her sister, Mrs. E. W. Bateman who has been seriously ill for some time. As soon as Mrs. Bateman is able to travel, Miss Dale will bring her to Summerland to recuperate.

**The Brown Brothers Company, Nurserymen, OF ONTARIO**

Are extensive growers of all kinds of Fruit Trees, Shrubs, Roses, and Ornamental Trees, and the members of the firm are all practical nurserymen of 25 years experience, and have built up the most successful and extensive business of the kind in Canada.

The growing of the stock, as well as every other detail in connection with the work, is personally superintended by the individual members of the firm, and they work on the plan that the best is none to good for their customers.

We have made large shipments of trees into the Okanagan Valley and can give the names of the largest planters in that district, who have planted our stock successfully, if desired.

Our trees are grown in the famous Niagara district, in Ontario, in a climate very similar to that of the Okanagan Valley, and our trees are consequently better suited to the needs of planters there, than are the Coast stock, being more hardy in wood, with a more abundant supply of fibrous roots, which count for much in making an investment in an orchard a safe and permanent one.

We shall be pleased to hear from prospective planters, with a view to supplying them with the best grade of trees, true to name. We wish to secure the services of a good reliable man to represent us and will make liberal terms to the right party, for all, or a part time. Write for terms, prices, etc., to

**COLLEGE NOTES**

The College was closed on Monday out of sympathy for Professor and Mrs. Denton, who lost their little nine month old daughter of tubercular meningitis. The little one had always been bright and healthy and was only sick for a week. Death was a happy release from her suffering. The funeral service was conducted in the College Chapel in the presence of a large and sympathetic audience of students and other friends by Rev. H. G. Estabrook, and the remains were laid away to their last resting place in the cemetery.

Miss K. C. Davison spent the week end with friends at Kelowna.

Ben Le Gros, Academy '11 was sick for a few days last week. He has been able to resume his classes again.

**STRAWBERRIES.**

In the local items of last week something was said about the importance of growers planting more strawberries in view of the fact that there is to be a cannery established here, and to be of use for next season the plants must be set out this season.

Mr. Agur in corresponding about strawberries has the following from a reliable man of Portland, Ore.

"The two standard varieties of strawberries for canning in Oregon are the Clark Seedling and the Old Wilson. If the canners could obtain all they need of these they would take no others which are grown here. A large quantity of Magoons are canned but the canners usually pay from one-half cent to one cent less per pound for Magoons than for berries of the other varieties mentioned. The Magoon yields so much more than either the Clark Seedling or the Wilson that growers will not raise as many of the latter as the canners want. On rather heavy soil which holds moisture well until the end of the season and with high culture a good crop of Wilsons can be obtained."

The fire commissioners will meet with Fire Chief Watson next Tuesday, to select a fire brigade for the protection of the residents and business places of the district.

A. Vaughan of Victoria, was the guest of his brother, O.W. Vaughan, of Eigel & Co. for a short time this week.

Vol. 1

SUMMERLAND, B. C., APRIL 17, 1909

No. 37

## CHORAL CONCERT.

### RENDITION OF STAINER'S MEDITATION ON "THE CRUCIFIXION" MOST SUCCESSFUL.

Two Large Audiences Listen to Splendid Music by Choral Choir of Thirty-five Voices Under Miss Davison's Able Leadership.

The rendition of Stainer's sacred meditation on the evenings of Good Friday and Easter Monday, by the Choral class of Okanagan college drew large crowds on both occasions and was a rich treat for all who had the pleasure of attending. The event was a veritable sermon in song and left a lasting impression on the audience.

Miss K. C. Davison as conductor controlled the thirty-five voices as an organist controls the instrument and met with ready response to the calls she made upon them.

The organ in the hands of Miss Haines provided exactly what was needed and her preludes and interludes added greatly to the general enjoyment and finish of the production. The soloists of the evening were Mr. Ward Duncan, tenor; Prof. Carter and Mr. Gilbert Thornber, basses. Mixed quartette, Misses Bartholomew and Brown; Messrs. Duncan and Peters. Male quartette, Messrs. Smith, Morgan, Carter and Peters.

At the outset, Rev. H. G. Estabrook, on both occasions gave a brief outline of the composer and the purpose of the meditation.

The soloists and chorus were at their best towards the close of the production on Monday evening in the Parkdale Baptist church. At the outset the newness of environment, and coldness of the room apparently had its effect on the singers.

By way of criticism, it might be said that a few more altos would have improved the balance of the parts. The tenor line was somewhat lacking in tone, especially during the initial numbers.

Of the soloists, it would be difficult to particularize. Some expressed themselves as being particularly well pleased with Prof. Carter's sympathetic voice and careful interpretation of the composer's thought. The gem of the evening apart from the choruses was the duet by Messrs. Duncan and Carter "So thou Lifest Thy Divine Petition," and next in excellence

came the mixed quartette "For God So Loved the World," by Misses Bartholomew and Brown, Messrs. Duncan and Peters.

In the chorus work, the shading and expression was delightful, especially in the hymn selections, the "Litany of the Passion" being particularly pleasing. Of the heavier selections, "The Appeal to the Crucified" stood out pre-eminently as the premier number of the evening. The changing spirit of the chorus being carefully and beautifully interpreted. A marked improvement on previous efforts was noticed in the matter of precision and enunciation.

The difficult recitative parts were effectively handled and the choral class is prepared to tackle anything that comes along. Miss Davison, the talented leader has won the confidence of the singers and has now reached the point where the very best may be expected.

### DIED IN WINNIPEG.

The sad tidings of the death of Mrs. E. W. Bateman, a daughter of Mrs. George Dale, and sister of the Misses Dale and Messrs. J. and T. Dale, of this district, reached Summerland on Monday.

A daughter and son of the deceased lady, May and Warren Bateman are in Summerland. The news came as a great shock to relatives and friends alike as none imagined Mrs. Bateman's condition to be so serious, although she had been ailing for some time. Miss Mary Dale left Summerland last week to nurse her sister and favorable reports had been received.

The deceased was in Summerland last summer and had expected to return when able to travel. A husband, four sons and three daughters are left and are the recipients of general sympathy.

### TWO GARNETT CHILDREN BURNED.

Mr. and Mrs. T. Garnett's little thirteen months old girl sustained a serious accident a few days ago. A pail of scalding bran was on the floor ready to be carried to the stable. The little one fell into the pail and the scalding material was pulled over her, causing very severe and painful burns.

The child of Ed. Garnett, Shaughnessy avenue, fell into the burning ashes of a rubbish heap on Wednesday. As a result, both hands were severely burned.

It is a strange coincidence that two Garnett children of different families should be the victims of burning accidents during a week.

## CARE FOR SICK.

### REPRESENTATIVE GATHERING OF CITIZENS ADVOCATE COTTAGE HOSPITAL.

Such an Institution Considered Necessary by Majority of Meeting—Large Sum Subscribed and Canvassers Appointed.

A public meeting, previously announced in the several churches, was held in the Council Chamber on Monday at 3 p. m. and was largely attended by both sexes. Reeve R. H. Agur was appointed chairman and Mr. J. M. Sutherland, secretary.

The chairman explained the object of the meeting and called upon those interested for suggestions.

Hon. Wm. Hespeler, Honorary President of the Winnipeg General Hospital, urged the importance and advisability of such an institution, in a brief address.

A resolution, moved by Mr. J. L. Logie and seconded by Mr. W. J. Robinson, to the effect that such an institution should be established, was carried after brief discussion and a few explanatory statements by Drs. Smith and Andrew. A general committee composed of six men and five ladies, namely, W. Hespeler Esq., Messrs. A. Stark, J. L. Logie, White, W. J. Robinson, Dr. C. M. Smith, Mesdames Fyshe, Ross, Cartwright, (Dr.) Smith and Solly, was appointed, to take all preliminary steps, secure necessary data, solicit subscriptions, and report at a subsequent meeting to be called by the chairman. The membership fee, entitling to a vote was fixed at \$5.00 per annum; the life membership was placed at \$50 and over.

The sum of \$710 was subscribed by those present, and it is expected that with such a worthy end in view, the response to the canvassing committee will be most generous.

Sub-committees were struck to canvas the several wards, as follows—

Ward 1—Mrs. C. M. Smith, Mrs. Ross, Mr. A. Stark.

Ward 2—Mrs. (Col.) Cartwright and Mr. J. L. Logie.

Ward 3—Mrs. Solly and Mr. W. J. Robinson.

Ward 4—Mrs. Fyshe and Rev. G. J. C. White

**LOCAL NEWS**

Reeve R. H. Agur was a passenger to Vernon on Tuesday last.

C. P. Jones of Vancouver, formerly of Vernon, architect of Major Hutton's handsome residence, was in town this week.

The hotel lawn and flower beds are being put in shape and planted with their usual choice varieties of seeds and plants.

Mrs. A. T. Robinson will receive at Conestoga on the 22nd. and 23rd. inst. from 3 to 6 p.m.

Rev. Mr. Hibbert drove in from Penticton on Monday last in order to hear the rendition of "The Crucifixion."

Mr. and Mrs. M. O. Jenks, a bride and bridegroom from Penticton, were guests at the Hotel Summerland during the early part of the week.

Dr. Lipsett has returned from a business trip to the coast. He found business booming in Vancouver, and a healthy improvement in financial conditions.

An immense shipment of fruit trees arrived here this week after having been put through the usual process at the fumigating station.

A meeting of the Summerland Athletic Association is called for Tuesday evening at 8 p. m., in the municipal hall. One of the objects of the meeting is the discussion of a 24th of May celebration.

A library has been ordered for the Parkdale Baptist Sunday School. The order calls for about sixty-five books of a varied character. These will be added to as frequently as funds will permit.

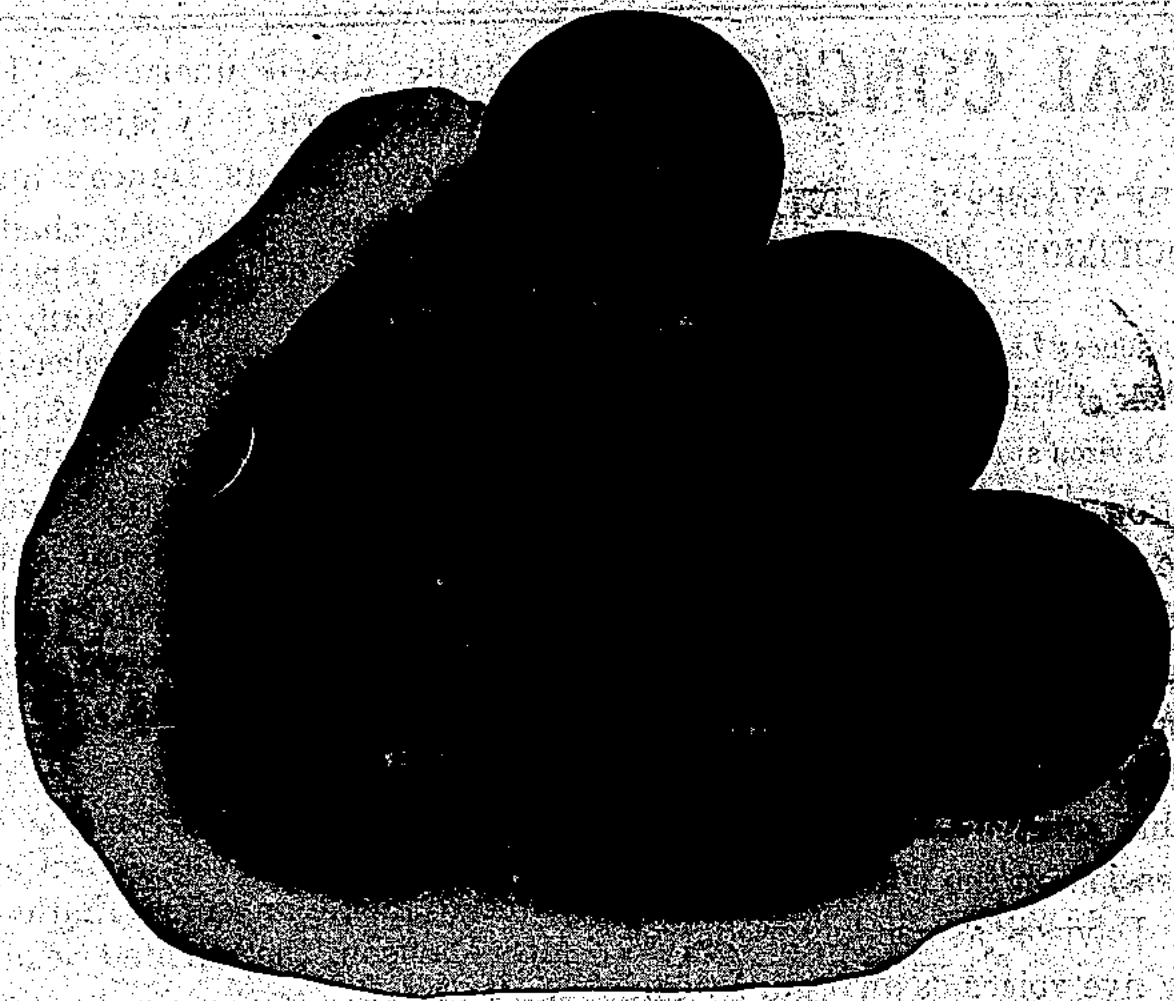

The regular quarterly meeting of the Board of Trade, will be held on Tuesday next at 7:30 p. m. in Empire Hall. A lot of business is awaiting discussion and a full attendance is looked for.

The Development Company has completed the work of pruning and spraying the lots in their care and four teams are at work continuously during daylight, plowing and cultivating.

Thomas McArthur, who has been a resident of Summerland for a considerable length of time, said good-bye to his friends this week and left on Tuesday morning for the coast.

Mr. Snider of Vancouver, who owns a fine lot on the Preston Estate, is again a visitor in Summerland and is busy planting more trees and otherwise improving his property.

Co. Kelowna. Wholesale by A. S. Hatfield, Summerland.

The name for the Dog Lake townsite has not yet been decided upon by the judges. A very large number of names were sent in and the judges have no easy task. The report of the choice will be announced later.

The restaurant in connection with the Summerland Bakery, closes to-day (Saturday). The new proprietors of the business have decided that it does not pay.

A motor canoe belonging to Mark Manchester is flying around the lake these days. It is purely an experiment, and as such is a success and no doubt many will avail themselves of this new form of sport.

A. E. Ashcroft of Vernon was a guest at the hotel this week.

W. H. Ireland was a passenger to Vernon Thursday morning.

The Development Company turned the water on in the flumes for the first time this season on Monday last, for the benefit of householders and those who are planting gardens, etc. The mains are all clean and everything in readiness for business. The Garnett Valley section of the flume is being sheeted with galvanized iron and a splendid job is being made of it. About 2,500 feet is being covered.

## CORRESPONDENCE.

We do not hold ourselves responsible for opinions  
expressed by correspondents.—Ed.

## WANDERING FOWL.

### EDITOR REVIEW—

Dear Sir, I desire to have your aid in  
making known the grievances of a few  
of our townspeople, viz.,—chickens. A  
small enough bird truly, but sufficiently  
large to dishearten the endeavors of ama-  
teur gardeners. No matter how early one  
may get up, they have stolen a march on  
you and have been at your favorite bed of  
pet seedlings. A wire fence of a reason-  
able height is of no service. Again, it is  
not all of us who desire such an artistic (?)  
decoration around our property.

If one shoots the birds, unpleasantness  
is rife, nay, even if a threat is issued that  
you will so do,—but something must be  
done. The owner, or owners of fowls gen-  
erally just let them roam over any lot they  
(the fowls) may take a fancy to, and never  
a care is exercised to keep them in their  
own lot.

Seeing that horses and cattle may be  
impounded if perchance they stray on the  
roads or fruit lots, surely some redress  
should be possible for the owners of lots  
on which chickens take their daily prom-  
enade.

Trusting this letter may be the means of  
securing some redress. I remain,

Yours Truly,

CLUCK, CLUCK.

The total receipts of the two Choral Club  
concerts amounted to \$174.

Travelling passenger agent Coombe of  
the C. P. R., paid the local office an official  
visit this week.

Rev. T. N. Ritchie of Peachland, was the  
guest of his brother, James Ritchie, on  
Monday.

Principal Sawyer of the college received  
a car load of household effects from the  
east this week.

The Ladies' Aid of the Presbyterian  
Church purpose holding a concert on May  
14th, at which refreshments will be served  
from 7 to 8. Further particulars will be  
published later.

An immense shipment of fruit trees from  
Washington nurseries came in direct this  
week and a second large shipment was re-  
ceived through Naramata. The bales and  
bundles were opened up on the lake shore  
and distributed to the purchasers.

## FIRE BRIGADE BUSY.

### Fire Chief Watson Organizes Efficient Fire Fight- ing force---Lots of Volunteers.

A well attended meeting of the young  
men of the district was held on Tuesday  
night in Empire hall at the call of Fire  
Chief Watson, who occupied the chair.

After explaining the object of the meet-  
ing, volunteers were called for and sixteen  
young men were selected as follows :

Messrs. F. Baker, B. McLellan, J. B.  
Woods, J. McDougall, E. R. Butler, W. H.  
Walker, M. Beavis, Jno. Tait, W. Grieve,  
G. Gartrell, J. Blewitt, B. L. Hatfield, V.  
Taylor, H. Bristow, G. M. Ross, O.  
Vaughan.

The meeting appointed F. Baker, Cap-  
tain, and John Tait secretary.

Hose—Baker, Gartrell, Ross, Vaughan.

Axemen—Hatfield, Bristow.

Ladders—Woods, McDougall, Beavis,  
Taylor.

Hydrants—Butler.

Reel—Blewitt, McLellan, Walker, Grieve,  
Tait.

Practise is called for every Tuesday eve-  
ning and the boys will have their first run  
next week.

H. C. James of Vancouver, representing  
the Pacific Coast Wood Pipe Company, was  
in town last week. He went on to Dog  
Lake to figure on the piping proposition  
there.

A meeting of the council of the Men's  
Club was held on Wednesday evening  
when the Constitution was presented from  
the committee on Constitution, and was ac-  
cepted with a few changes. The council  
will meet with the Quarterly Official Board  
to plan for the opening of the club some-  
time about the middle of May.

Evangelists Baker and McLean will con-  
duct services morning and afternoon on  
Sunday in the Parkdale Baptist Church,  
at 11 a.m. and 3:30 p.m. The evening ser-  
vice down town will be conducted by Rev.  
A. T. Robinson. Pastor Estabrook and  
Mr. McLean will have charge of the Young  
People's service on the Flat in the even-  
ing. Services will be conducted in the  
Parkdale Church every evening next week  
except Saturday.

Lord Strathcona has donated \$10,000 a  
year to the public schools of the Dominion  
to be used for physical and military train-  
ing. In the House of Commons Sir Wil-  
fred Laurier accepted the gift amid cheers.

## News from Peachland

Mr. Chas. Pope of the Government Office, Vernon, spent the Easter holidays at his home here.

Mr. T. N. Ritchie returned last Friday from a trip to Edmonton, Alta.

Mr. J. Thacker, who has been spending the winter in Vernon, is in town for a few days.

Mr. W. A. Lang came in on Friday's boat after two months of wandering among his old friends in Manitoba and Eastern cities.

Miss A. E. Elliott, accompanied by Mrs. N. S. Marshall, spent the Easter holidays at her home in Peachland.

Mr. E. E. Eddy has hired a man to work his place, and with his family returned to North Bay to resume for a time his old position as conductor on the C.P.R.

Lieut.-Gov. Bulyea, of Edmonton, arrived on Friday on his annual trip of inspection of his property here. While here he is the guest of his sister Mrs. J. B. Robinson.

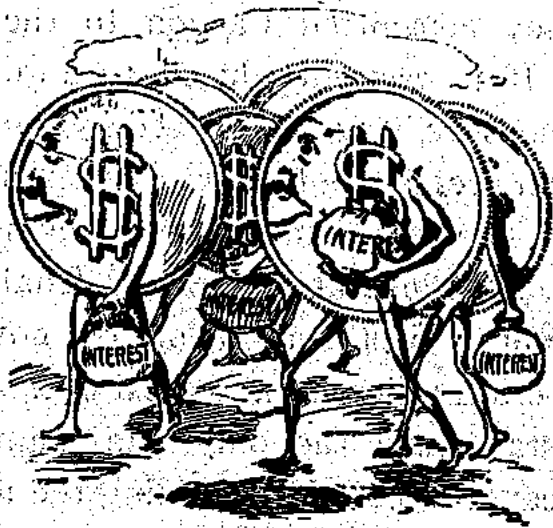

The Methodist choir had Easter music prepared for Sunday morning which was much enjoyed by the large congregation. Rev. J. J. Nixon preached an appropriate sermon on the text "Come see the place where He lay."

Mr. Wm. Freele of the firm of McColl & Freele, who has been spending the winter around his old haunts in Manitoba, returned last week. It was generally expected that Billy would be at the expense of another ticket on the return trip, but he seems to have been spared this expense.

Messrs. Eyre & Cutbill have in a full line of feed and are cutting prices somewhat. Messrs. McColl & Freele are not to be outdone, however, and announce that they are in the game to stay and are prepared to meet any honest competition there is.

Nursery stock is arriving almost daily, and people are busy getting their trees planted. The ground is in good condition, and with water running there should only be small losses among the new stock.

The regular monthly meeting of the Municipal Council was held Tuesday afternoon, the whole Council being present. The Health by-law was finally considered and passed, also the Herd and Pound by-laws. Mr. William Dryden was appointed constable, and a by-law defining his duties was read a first time.

### PAYING THE PIPER.

The dear people who voted for Mr. Laurier's Grand Trunk Pacific scheme, a thing which they were assured by him would cost \$13,000,000 while the leader of the opposition shouted out that it must cost over \$50,000,000, will now learn with what sweet grace they can muster that the sharks are back for more. Mr. Fielding makes application in their behalf for another loan of \$10,000,000. If we may believe Mr. Borden, who naturally has been dogging the heels of the rival enterprise thus far and fying his protest in the House in no uncertain language, the total cost to the country till now is nearly \$300,000,000 of which the G. T. P. Co., have furnished twenty-eight and three quarter millions. Since Canada does not own the road, the balance may be fairly considered a gift to the G. T. P. Co.

If Canada owned the road after she had built it, expensive as it has proved, we should not consider the price unbearable, but the misery of it is that a bunch of grafters owns it and so far as we can see, there is no reason why the very corporation it was built to oppose should not gather it in and use it as a working tool. What is there to prevent it with the stock listed in open market, and a treasury so plethoric and a sagacity so striking as that manifested in the head offices of the C. P. R.? and why should not the C. P. R., in defense of its own vested interests, strain every resource it possesses in the effort to strike down a possible rival of such magnitude? Such a move would but be in the natural course of business and far less reprehensible than the rapacity that in the first place preyed upon the simplicity of the common people through the simplicity or duplicity of its elected representatives.

Yet, be it remembered, Mr. Laurier and his government appealed to the people before they committed Canada to the contract. If it was introduced as a government measure, it was endorsed by the dear people in preference to Mr. Borden's plan to have the government build, own and control, if not operate the road. That fact if it is not a justification of the government's crass policy, is at least a mitigating circumstance and the only one doubtless which can now give Mr. Fielding the nerve to come back after another \$10,000,000 for the predatory band into whose clutches we seem to have fallen.

Possibly the one thought which will afford Mr. Borden a modicum of grim satisfaction in the whole miserable affair is that not only the poor Tories but every good honest Liberal in Canada as well, will have to dig down deeper and ever deeper into his jeans to pay the piper of the G. T. P. banquet.

A movement is on foot to found a cottage hospital in Summerland. Certainly a cottage hospital is a nice thing to have in the community and it is creditable to the hearts of the promoters that the enterprise should have been introduced to the attention of the public, now that the private institution, by the removal of Nurse Sinclair, ceases to be. But whether the time is opportune for such a responsibility to be assumed is a question which should have a thorough discussion. The people of Summerland have many obligations to meet and they must be just before they become too generous. However, it is refreshing to note the enthusiasm displayed at last Monday's meeting and to observe that responsible business men took a leading part in a canvass favorable to the proposition.

### KISSED 'EM ALL.

During the late Dominion election in Yale-Cariboo, B. C., when Duncan Ross, of Greenwood, and M. Burrell, of Grand Forks, contested, they both happened along the same road, a short distance apart, between Penticton and Keremeos, looking for votes. Duncan Ross the hindermost, called at a certain farm house where a bright little girl came to the door.

Said he "Sissie, will you give me a drink of water?" which she quickly did. Then he gave her some candy, and asked:

"Did the man just ahead of me give you any candy?" "Yes, sir."

Then he gave her a nickle and enquired:

"Did he give you any money?"

"Yes sir, he gave me ten cents."

Then, picking her up, he kissed her and asked:

"Did he kiss you?"

"Yes, sir," she replied "and he kissed me, too!"—The Kettle River Journal, Orient, Wash.

Oxford won the historic boat race last week, by three and a half lengths.

England defeated Scotland at soccer, on the 3rd, by a score of 2-0.

The Phoenix Pioneer has a fine cut on its front page this week illustrative of the proposed connecting tunnel, between Greenwood and Phoenix. Greenwood has promised the Greenwood-Phoenix Tramway Co. a \$50,000 bonus, in the form of debentures to be paid by the city.

W. M. Firth, collector of customs, went to Chopaka yesterday to clear a bunch of sheep, numbering about 300, which Joe Armstrong was bringing across the line. He returned the same evening via speeder, making the round trip in a few hours. —Keremeos Chronicle.

Charles Armstrong returned to Keremeos on Tuesday after spending a couple of weeks at Hooligan's Spur getting some thirty carloads of railway material that had been left there, shipped on to Keremeos. A large amount of all kinds of building material is on hand now—except the ties, which are only a short distance away—but it is thought that operations will not commence until after high water.

The county of Buckingham, England, has been thrown into a fever at the discovery, which was recently announced officially, that all marriages celebrated at the parish church of St. James, Bradwell, during the past fifty years, are illegal. This church has been the scene of thousands of weddings of couples from all parts of the country. It now appears that the church was never licensed to celebrate marriages. Steps will be taken to legalize the marriage ceremonies solemnized there.

Dominion government immigration officials report the rush of immigration to Western Canada as unprecedented. Three thousand immigrants are now on the way here from the Old Country, and as four thousand have already arrived this season has opened well. Four-fifths of these go on farther West, large numbers going to British Columbia. The influx from the States is enormous, every train crossing the boundary line at Emerson, Gretna and North Portal is crowded and there seems to be no let-up. —Free Press.

**:: Naramata Notes ::**

Miss Vera Palmer has returned from Hamiota where she visited for a few months with friends.

Messrs. Robertson & King are busy rushing up Mr. Allen's house. Mr. Allen's household effects are already here and Mrs. Allen and the children are expected soon.

Mr. and Mrs. Scott and family of Penticton have taken temporary residence in the Scaife cottage pending the erection of their house on the Aikens property. Mr. Scott is a skilled fruit man and gardener, and will live on, and have charge of the Aikens orchard.

Capt. and Mrs. Languedoc, and a brother of the latter, a Mr. Mason are the most recent arrivals. They came here from Edmonton where they landed but a few weeks ago from England intending to go farming on a large scale. But they were so disappointed with conditions at present prevailing up north that they decided to visit the Okanagan Valley. Already the Captain has selected two pieces of choice property over near Mill Creek and expects to be soon comfortably located in a cottage now in course of construction.

Prof. (Percy) Hook who spent holidays here last year is with us once again and at present is looking after his own and his brother's fruit lots.

Mr. F. Allen Tovel has accepted a position in the office of the Summerland Trust Co.

**CONSERVATIVE MEETING**

The annual meeting of the Summerland Conservative Association, will be held on Monday afternoon at 3 o'clock in Empire Hall. Officers will be elected for the ensuing year and business of interest to the party will be discussed. All supporters of the party are cordially invited to be present.

## NEWS FROM PEACHLAND.

Another of the wanderers to come back again is Mr. Geo. Tickell. George spent the winter in England and while he did not bring a wife back with him, stoutly declares that one is coming to him in about a month. Some of the boys are inclined to be dubious of the truth of this tale, but we shall soon know.

Mrs. Dimock and family who have been in the hotel for the past year left for their old home in the States last week. Mrs. House is managing the hotel at present until the arrival of the new tenant, Mr. J. J. Hamilton of Edmonton, Alta., who is expected to arrive on the 21st. Mr. Hamilton comes very highly recommended for the position and will doubtless put this very important institution on a proper footing.

The second session of the mock parliament was held Tuesday evening and called out a very fair sized audience. The bill before the house was one granting the franchise to women. The bill was introduced by Dr. Nash, Minister of Education, seconded by Rev. C. W. White, Provincial Treasurer. A good deal of unfavorable criticism by the Opposition was provoked by the clause which fixed the date of the coming into force of the bill for Jan. 1st, 1911. A startling feature of the session was the defection from the Government of the Attorney General, Mr. R. C. McDougall, after a spirited attack on his late colleagues. In spite, however, of his apostacy the bill passed by a small majority.

### DISTINGUISHED VISITOR.

Hon. G. H. V. Bulyea, Lieut.-Governor of Alberta was the guest of Mrs. Belyea's sister, Mrs. Lipsett. Mr. Bulyea is one of the largest property holders in the district, and is always warmly welcomed by his many Summerland friends and admirers. Yesterday he was a visitor at Naramata, and on Monday will attend a meeting of the Peachland Canning company in which he is largely interested.

Mr. Bulyea speaks very hopefully of conditions in Alberta. The country is filling up with the very best kind of settlers, and there is a general feeling of prosperity in both agricultural and business circles.

A most interesting Sunday school session was held in the Methodist church last Sunday morning when four five minute addresses were given on the Resurrection. Some splendid music was rendered by the choir.

**UNRIVALLED IN ITS BEAUTY,** its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

**DOES SUCH A PROPOSITION APPEAL TO YOU?**

If it does write us and we will only be too glad to give you all the desired information.

**JAMES RITCHIE - PARKDALE - SUMMERLAND**

### MUNICIPALITY OF SUMMERLAND.

#### NOTICE

THE Pound By-Law is now in force prohibiting the running at large of any live stock within the Municipality. The Municipal Council has made arrangements whereby live stock can be cared for during the summer months at a reasonable rate by a responsible party who will also see that all live stock roaming at large is impounded. Information as to the cost of caring for stock can be obtained from any member of the Municipal Council or the undersigned

LOCAL NEWS

Hon. W. Hespeler is the guest of his son Mr. A. Æ. Hespeler.

Miss Blanchard, daughter of Dr. Blanchford of Winnipeg, is the guest of Mr. and Mrs. A. Æ. Hespeler.

Mark Manchester has fenced in his property near Dr. Lipsett's new house and will probably build there this summer. He has decided to plant a variety of trees and transform the wilderness into a model home orchard and garden.

Jack Steenson, the valued pitcher of the local baseball nine left Summerland last week for the coast. Jack is missed very much by his friends of both sexes and a number are softly singing "Will ye no come back again." It is hoped that he will shortly return.

E. A. Eigel & Co., are again open for business, satisfactory agreements having been reached with the appraisers for the Insurance companies in connection with the recent fire. A large addition is being erected in the rear of the store which will add to the business accommodation.

A merry party of boys and girls, embracing the Philathea and Baraca classes of the Parkdale Baptist church enjoyed a trip to the summit of the Giant's Head on Saturday afternoon. The weather was just right for climbing and the view from the top was superb. The Watchman was visited on the return journey. On their return, the party was entertained at the home of Mr. and Mrs. Thomas Dale.

Rev. G. J. Coulter White has returned to Summerland, arriving on last Friday's boat, after having spent the winter with his family at Wolfville, N. S. Mr. White has a fine property near the Anglican church and is already busy with the spring work. He expects Mrs. White and family here in about two months.

A lad named Johnnie Hole, whose father drives one of the Company's teams, had a very narrow escape from sudden death on Saturday evening. He was driving home with his father about ten o'clock, and dropped a parcel in the darkness. In alighting to secure the parcel, he somehow fell and became mixed up with the heels of the horses and the waggon wheels. The horses became frightened and the only wonder is that the lad was not trampled to death. His clothing was torn, and he sustained a number of cuts and bruises, but no bones were broken.

The Brown Brothers Company, Nurserymen,  
OF ONTARIO

Are extensive growers of all kinds of Fruit Trees, Shrubs, Roses, and Ornamental Trees, and the members of the firm are all practical nurserymen of 25 years experience, and have built up the most successful and extensive business of the kind in Canada. The growing of the stock, as well as every other detail in connection with the work, is personally superintended by the individual members of the firm, and they work on the plan that the best is none to good for their customers. We have made large shipments of trees into the Okanagan Valley and can give the names of the largest planters in that district, who have planted our stock successfully, if desired. Our trees are grown in the famous Niagara district, in Ontario, in a climate very similar to that of the Okanagan Valley, and our trees are consequently better suited to the needs of planters there, than are the Coast stock, being more hardy in wood, with a more abundant supply of fibrous roots, which count for much in making an investment in an orchard a safe and permanent one. We shall be pleased to hear from prospective planters, with a view to supplying them with the best grade of trees, true to name. We wish to secure the services of a good reliable man to represent us and will make liberal terms to the right party, for all, or a part time. Write for terms, prices, etc., to

PROTECT YOUR TREES

These destroyers cannot live where trees have been treated with  
WARNOCK'S TREE PAINT

Pear Blight, Rabbits, Mice, Borers, Canker Worm, San Jose Scale, Oyster Shell, Bark Louse and Sun Scald. THE COST IS VERY SMALL. It will not wash off. One application protects for two years. Warnock's Tree Paint is not an experiment. It has stood the test for 5 years in all parts of the United States. It is an absolute Preventative and Cure for Pear Blight. We invite investigation. The Arkansas Experimental Station has used this tree paint for three years. November, 1907, they purchased 50 gallons for free distribution among leading orchards. Send for 16-page free booklet to G. R. LAWES, Enderby B.C. Sole Manufacturer for B.C. Agent: C. H. CORDY, Summerland.

## The Summerland Review

### CIVIC OWNERSHIP.

#### Big Proposition Debated by Council—Embracing Assuming of Water and Light Franchises.

A lengthy session of the Municipal Council was held on Thursday when Mr. J. M. Robinson, president of the Development Company, and C. S. Stevens, manager of The Lake Shore Telephone Company met the Councillors to discuss their various interests.

The chief matter of interest was a proposition made by Mr. Robinson for the Municipality to take over the irrigation and domestic water and electric lighting systems at present owned and operated by the Company. The price asked was \$150,000, and the Company is willing to take debentures in payment, to extend over a period of 40 years at 5 per cent.

There was considerable debate on the question and the clerk was instructed to collect all necessary data dealing with the acreage now paying for water, the number of acres now sold that can be irrigated, total number of acres being watered by other companies, total revenue received by the Company, miles of fluming, etc., for presentation to the Council at as early a date as possible. The Councillors are inclined to favor the scheme and if it is decided that the property and revenue produced will justify the expenditure a by-law will be submitted to the people.

The conference with Mr. Stevens was very satisfactory and a working basis dealing with the placing of poles, etc., was arrived at which will eventually be placed before the electors for ratification.

Road contracts were discussed and work will be let as far as the money will go. Special road contract forms are to be prepared.

Mr. and Mrs. Wilson, of Sherbrook, Quebec arrived in town on Monday. It is understood that they propose purchasing and locating here.

A donation for the men's club was received last week from the Crown Tailoring Company of Toronto, through its agent in Summerland, Mr. John Tait. This action is surely worthy of imitation.

Mr. Stuart Muirhead, secretary of the Provincial Sunday School association was a visitor in Summerland on Friday evening talking over the plans for the next Okanagan S. S., convention which is to be held in Summerland. The representatives to the Vernon convention did not return with glowing reports of the success of the gathering, but say—wait until next year.

## READY FOR ACTION

### SUMMERLAND LIBERAL-CONSERVATIVE ASSOCIATION ELECTS OFFICERS.

**Satisfaction Expressed at Past Local Member is Playing in Federal Politics. Plans Laid for Further Advancement.**

A well attended annual meeting of the Liberal-Conservative Association of Summerland was held on Monday afternoon, when the officers for the past year gave an account of their stewardship and new officers were elected for the ensuing year.

The chair was occupied by the retiring President, Mr. Hector Sutherland.

Mr. Sutherland briefly reviewed the work of the past year and spoke with much satisfaction of the successes achieved in the Dominion Election by Conservative candidates in British Columbia. He was particularly gratified that this constituency had returned such an able representative as Mr. Martin Burrell. Mr. Burrell was making his influence felt in the Federal House as an able debater and a man with a mission. Mr. Sutherland read from the Winnipeg Telegram a pleasing tribute to Mr. Burrell's ability and worth. He then called upon the secretary, Mr. W. C. W. Fosberry, for the minutes of the last annual meeting. These were approved as read and officers were elected as follows: Patrons—Hon. R. L. Borden, Hon. Richard McBride, Mr. Martin Burrell, M. P., Mr. Price Ellison, M. P. P. Hon. Pres., Mr. J. M. Robinson.

Mr. Sutherland was urged to stand for re-election as president, but firmly declined to accept the office for another term. Mr. H. C. Mellor was then nominated and unanimously elected to that office.

1st Vice-President, B. C. Moore.

2nd Vice-President, J. C. Robson.

Secretary, W. C. W. Fosberry.

Treasurer, R. H. English.

Executive committee—Ward 1, A. L. Moreland, C. H. Cordy.

Ward 2—H. Sutherland, C. N. Borten.

Ward 3—G. H. Doherty, R. V. Agur.

Ward 4—R. C. Clouston, F. Gartrell.

Garnett Valley (district)—John Steuart, H. Gallagher.

The advisability of holding a public meeting was discussed and left in the hands of the executive committee.

## SOCIAL EVENING.

The bible class of the Parkdale Presbyterian Sunday school entertained their friends at a social which was held at the home of Mr. and Mrs. J. Mitchell on Tuesday evening. About thirty attended. There was no formal programme but those present spent a most enjoyable evening playing various games. Last, but not least a season was spent in disposing of the good things provided by the ladies of the class. This is the first of a series of socials which the class proposes to hold every two months.

## ATHLETIC ASSOCIATION.

### Plans Discussed for Holding Celebration on the Twenty-fourth of May.

A meeting of the Summerland Athletic association was held in the Municipal Hall on Tuesday evening. The attendance was not so large as it should have been but the business of holding a 24th of May celebration was brought up by the chairman, Rev. R. J. McIntyre.

The opinion generally expressed was that such a celebration was in the best interests of the district and should be encouraged. Messrs. V. Taylor and W. Nelson were appointed a committee with instructions to feel the pulse of the businessmen and also see what can be done along the line of finances toward the providing of purses and prizes of such a character as to attract competitors. The committee will report as early as possible as the time for preparation is getting short.

## BREAD STUFFS RISE.

At a recent meeting of the Vancouver Master Bakers' association, it was decided to raise the price of bread from 5c per loaf straight to sixteen loaves for \$1.00 retail and twenty for \$1.00 wholesale.

The price of flour has been finally settled at \$7.40 per bbl. Some wholesalers rose to \$7.60, but prices have now been arranged on the \$7.40 basis for best patents.

The price of bread was advanced one cent a loaf this week in Winnipeg. It is now six cents.

R. H. Agur was a passenger to the coast on Tuesday's boat.

## NATURE'S FORCES

### BIG SCHEME TO HARNESS SHUSWAP FALLS AND PROVIDE POWER.

**Immense Electric Plant May be Built Capable of supplying all the Electric Energy Needed in the Okanagan Valley.**

Mr. W. R. C. Morris of Vernon, representing the proposed Shuswap Falls Power company was a visitor in Summerland on Wednesday, and was driven around the district by Mr. W. J. Robinson.

The prime mover in the promotion of the power company is Mr. Ricardo, manager of the Coldstream ranch at Vernon and the plan is to harness the Shuswap Falls for the operating of electrical engines of sufficient generative capacity to provide power for the operation of electric cars, and for mechanical and light purposes for the whole of the Okanagan Valley in the same manner as the Bonnington Falls Power company supplies a large section of West Kootenay.

Mr. J. M. Robinson took the matter up with Mr. Morris, and strongly advocated the inauguration and operation of a ten mile electric car system, tapping the main fruit-growing section of Summerland and establishing connection with the sister district of Peachland.

The object Mr. Morris has in view is the collection of data as to the amount of power which would be required along the lake and getting at the feeling of the people as to the way in which they would patronize such an undertaking.

While at Penticton, Mr. Morris was taken in hand by L. W. Shatford, M. L. A. and shown around the district. Mr. Shatford drove Mr. Morris to Naramata and from thence Mr. Morris came to Summerland.

The head office of the firm will be at Vernon and it is altogether probable that the work will be proceeded with at once.

Mr. N. Thacker of Toronto has been visiting in town this week. He has taken a run around the district and has taken a great fancy to Summerland. He may soon be enrolled as one of the local property holders.

LOCAL NEWS

Rev. A. T. Robinson will preach at Penticton to-morrow.

Evangelists Baker and McLean will conduct the Baptist services to-morrow.

Mr. and Mrs. Adam Stark entertained a select company of friends at a card party on Tuesday night.

On Thursday last Bert M'Lelland and Miss English journeyed to Okanagan Falls to attend the funeral of Bert's niece.

Mrs. R. C. Lipsett will receive on the 28th and on the fourth Wednesday in each month thereafter.

Mr. A. E. Finch, a new arrival in the district has rented Mr. W. C. W. Fosberry's ranch for the season. Mr. Fosberry will run Mr. Doyle's ranch this summer.

A considerable number of Summerlanders took the special trip to Penticton on Thursday and enjoyed the production of "The Pirates of Penzance."

A full meeting of the officers and collectors acting in connection with the proposed cottage hospital is called for next Monday afternoon at 3 o'clock in the Municipal Hall. All interested are invited to be present.

Messrs. J. M. Robinson, W. J. Robinson and Rev. A. T. Robinson went to Peachland on Thursday to attend the annual meeting of the Peachland Townsite Company. Reports received were very satisfactory and a dividend of 8 per cent was declared.

One of the College students named Paull is nursing a badly cut wrist. In running through the hall a few days ago he somehow sent his fist through the heavy glass in the hall door. The sharp edges cut an artery in the wrist and as a result lost a considerable amount of vital fluid before a temporary tourniquet could be applied. Dr. Smith was sent for and Paull, as his chums call him, now has his arm in a sling.

Little Jack Moreland, who lives with his parents above the rear of the Supply Co.'s store, tumbled out of one of the upstairs windows on Wednesday evening to the sidewalk some fifteen or more feet below. The parents had an anxious few minutes until they found that the little chap had sustained no broken bones. Jack is about as usual apparently none the worse for his big tumble.

The reception held by Mrs. A. T. Robinson, F.R.S.G.S., at her home Conestoga, on Thursday and Friday of this week, was largely attended by the ladies of Summerland, and judging from the gales of laughter that blew over the gulch they must have been having a more than ordinarily good time. The hostess was assisted in receiving by Mrs. J. M. Robinson, while Mrs. R. C. Lipsett and Mrs. Geo. Gray poured tea. This is according to Dame Rumor, since "mere men" were not allowed on the premises.

**AFTER OPIUM FIENDS.**

The first convicton under the new Dominion law prohibiting the sale of opium, was made by the police magistrate in Victoria when sentence of one year's imprisonment without the option of a fine was imposed. Counsel for the accused practically threw up the case on finding that his client had lied to him. Chinese witnesses who know Fong Chong, the accused, say he is over 70 years of age, and that he has been running an opium joint for many years.

## BURRELL ON FRUIT.

### Makes Pointed Remarks in Federal House on Difficulties of Fruit growers.

The British Columbia fruit growers want more protection, says the Family Herald, through the enforcement of the Fruit Marks Act. The market for which they are contending is that of the prairie provinces; they claim that the Fruit Marks Act is applied to Canadian growers, but not to Americans, who thereby get an advantage in the market.

The case was presented by Mr. Martin Burrell, of Yale-Cariboo, who is a practical fruit grower. He estimated the fruit acreage of British Columbia at 75,000 acres, with a value of \$15,000,000, and predicted a value of \$100,000,000 ten years hence. Incidentally, he stated that of the 75,000 acres of fruit trees, 5,000 acres were of peaches—a fact not generally realized in the East.

Mr. Burrell maintained that the non-enforcement of the Fruit Marks Act against Americans was resulting in the Americans dumping in the Canadian West diseased fruit and culls. This fruit was sold as first grade, and therefore the British Columbian growers, who had to comply with the Canadian regulations, had to meet unfair competition. He cited one American company which controlled five distributing houses in the prairie provinces. The peach market, he stated, is largely held by Americans who last year shipped into Saskatchewan and Alberta 63,000 cases, or 50 carloads.

Mr. Burrell's remedy was the appointment of more inspectors. He proposed that the inspecting force in the West be brought up to seven; two in Manitoba, one each in Saskatchewan and Alberta, and three in British Columbia.

Mr. Burrell also made this suggestion regarding the tariff: American fruit comes largely in boxes, while the Canadian duty is based on the barrel. At present interpretation is made by four boxes a barrel, whereas they hold more. He asked that the interpretation should be changed, and that three boxes should be called a barrel. This would equal an increase equivalent to one-quarter of the duty.

After further debate the Minister paid a compliment to British Columbia fruit. He would prefer it to American. He believed the chief reason why the British Columbians had not captured the prairie market, was that they did not produce enough to supply the demand.

He met Mr. Burrell's suggestion in regard to the tariff by promising

to bring it before the Minister of Customs. He would represent to him that, if fruit were to be admitted in boxes, and the duty paid on a barrel basis, the basis should be three instead of four boxes to the barrel. The Minister closed by expressing his readiness to give a larger measure of inspection, and pointed out that three inspectors had been added to the Ontario force last season.

## News from Peachland

Rev. J. T. Jones spent Sunday in Kelowna where he preached morning and evening in the Baptist church.

Mr. Fred. Aitkens spent a couple of days in Kelowna last week.

Mr. W. J. Robinson of Summerland, was in town last week renewing acquaintances.

Mr. A. Town set out for Winnipeg a week ago Saturday. He reports having passed through two blizzards and landing in a freeze-up in Winnipeg. All of which made him long for the sunny weather he enjoyed while putting his lot in such excellent order before leaving Peachland.

Lieut. Governor Bulyea left by Tuesday's boat for Edmonton, after spending a week among his friends here and in Summerland. While here he laid out the work which he wants done on his fruit lot for the summer. His Honor and family will occupy their summer residence early in June.

Miss Bell was a passenger on Tuesday's boat being on her way to visit friends in the northern part of England.

Master Roy White was unfortunate enough to lose his little saddle mare last week. He turned her out with hobbles on and in some way she threw herself and broke her neck.

The English church gave a concert last Wednesday. It took the form of a wax work exhibition, the famous Mrs. Jarley's. Mrs. Jarley, (Mr. Vicary) and his two assistants, Pat Murphy, (Geo. Mitchel) and Senor. Yellotti, (C. G. Elliot) entertained a large audience with their life-like figures of historical celebrities, done in wax. As each of these was wheeled in on a small truck by the attendants, Mrs. Jarley gave a racy description of their career. When set up in position, wound up and oiled, they went through the performance for which they had been most famous. The proceeds, amounting to \$25 were in aid of the English church mission.

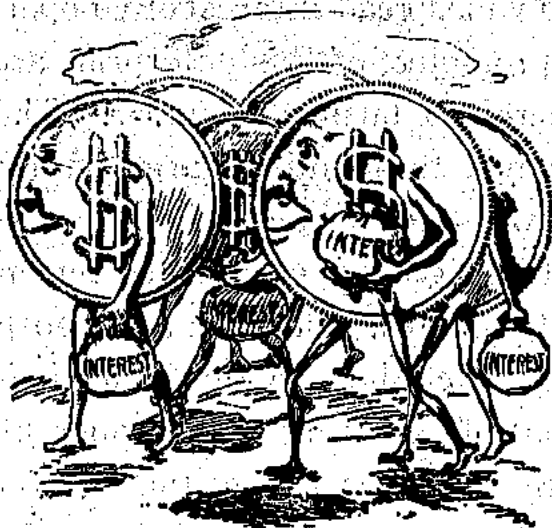

On Friday evening, Rev. D. E. Hatt gave a very enjoyable entertainment, being readings from Dr. Drummond. Mr. Hatt excels in this line and those present certainly enjoyed a treat. The proceeds were in aid of Okanagan College. On Sunday Mr. Hatt preached for the Baptists in the morning and in the evening for the Methodists, taking as his subject the religious teachings of Tennyson.

Mrs. Mitchel is busy putting the finishing touches to the choruses in the Rancher's Glee Club, preparatory for their concert on May 21st. The Kitchen band will be in attendance and will add greatly to the programme. Everyone should plan to be present at the concert.

Dr. and Mrs. Lipsett were in town over Sunday, the doctor being up to attend a meeting of the cannery directors. At this meeting the plan for the season was decided upon. It was decided that if a sufficiently large quantity of produce were guaranteed by lot owners, the cannery would run all summer. Tuesday evening a meeting of the Fruit growers association was called and among other things discussed was the prices offered by the cannery for tomatoes, beans and small fruits. While a good many hold that these prices are too low, it is probable that the required amount of produce will be forthcoming to keep the cannery in operation all season.

Mr. and Mrs. Wolstencroft and Mrs. Wolstencroft's sister, are in town for a couple of days. Mr. Wolstencroft has been auditing the Townsite Co.'s books in preparation for the annual meeting of the Company on Thursday.

Exclusive of children 16,500 settlers have arrived in Montreal in the past thirty days. Twelve thousand went West.

### THE OKANAGAN FRUIT UNION.

Now for another stagger at the great problem of marketing our fruit! We have had two previous experiments, the individualistic and the provincial co-operative, neither one of which seems to have been quite satisfactory. The latest is The Okanagan Fruit Union, Limited, the incorporators of which are Messrs. W. C. Ricardo, John Kidston, R. H. Agur, E. M. Carruthers and W. T. Shatford.

The declared object of the Union is to handle the fruit of this valley from Sicamous to the boundary and adjacent centres; to keep tab on the markets and so regulate the delivery of fruit thereto as to prevent either a glut or a famine; the development of our natural markets; securing exact information as to their capacity; keeping a sharp eye on all competitors and the erection at various points of canneries and cooling and evaporating plants. It is proposed to later on erect cold storage plants in outside centres.

It is proposed to also have the stock distributed among the fruit growers of the valley at \$50.00 a share with a first call of \$20.00. A Board of Directors, made up of the representatives of the various centres will have absolute control and work through an executive of managing directors and an office manager. There are no promoter's shares nor is there any issue of debentures. The working capital at present is the nominal value of the shares sold. Packing is to be done for members at cost. Ten per cent will be charged on fruit sold on commission and 6 per cent is allowed as a dividend on stock after a reserve fund has been provided for. Profits are returned to the growers in exact proportion to the

shipments made by them, and it is proposed that payment should be made for fresh fruit to the growers as follows: Fifty per cent on the 15th of the month succeeding that on which the sale is made, 25 per cent thirty days later and the balance in another 30 days.

The Union in all cases guarantees growers against bad debts from purchasers through the Union and stamps all fruit with the Union label and the name and place of the packing house.

Fruit going to canneries and drying plants is bought outright by the Union at a fixed price and the canned goods are sold for the benefit of the Union.

The floating of this company probably marks an era in the history of the valley. The cut-throat policy of individualism in which the many weak must be slain is manifestly impossible. The provincial co-operative scheme, while plausible in theory possessed grave practical difficulties. It is so large as to be unwieldy; it is exposed to the hazards of sectional preferences and jealousies and it presents extreme difficulties in the way of management. The segregation of farmer and fruit grower does not favor that large confidence and wide vision which are essential to the proper conduct of a great and highly specialized business, in these days of keen commercial rivalry.

The Okanagan Fruit Union is peculiarly promising in that it combines the brains and method of capitalism with the monopoly and widespread interest of co-operation.

The promoters of this enterprise are men of recognized business temper. They are accustomed to handling large affairs. So far as we know them they are men not only of ability and experience but men of integrity as well, and the apparently fair basis on which they organize, and their first act—that of securing the proper kind of king pin for their proposition, go far as a preliminary guarantee for the sanity and success of their future operations. The mere fact that they secured as manager a gentleman who has handled the bulk of the fruit of the Yakima county for two years at a net profit of 25 and 27 per cent respectively will do much to inspire confidence in their enterprise.

Then too, the guarantee to the fruit grower that he shall receive his money for what he has sold, and the profit sharing they accord him after the expenses, reserve fund and six per cent dividend on stock have been provided for, will do much for the popularity of the enterprise. Plac-

ing the management absolutely in the hands of responsible directors where five cent fingers can't get at, is also a most favorable indication. "Boldness has genius power and magic in it," but boldness is treason to the pinhead. Men often have to launch out into the deep if they would catch anything worth while.

We shall be glad to see the Okanagan Fruit Union have a fair trial. The promoters are to be given credit for their public spirit in seeking to keep Okanagan interests and Okanagan money in the Okanagan. The sheriff gathered in their provincial predecessors awhile ago, but we miss our guess if this new attempt at the solution of a large and difficult problem does not run a better course, and ultimately bring such fame to the products of this valley as they could not otherwise have had.

**LOCAL NEWS**

The Misses Roberts of Vernon are guests at the hotel.

Mrs. J. M. Robinson will receive on Wednesday, April 28, and every 4th Wednesday following.

Owing to the Maud Moore being temporarily out of action, an old friend "the Rattlesnake" is now doing duty as the ferry.

Messrs. Bartholomew and Atkinson have completed the contract of painting the Central school.

C. Corbett and family have removed to Kelowna where they expect to reside in future.

R. R. Hylton and A. S. Miller of Penticton, who are in the employ of F. H. Latimer, P. L. S., who is doing some work for Mr. James Ritchie, were in town this week.

B. M. McDonald and F. W. Fraser of Kelowna were in town this week looking for potatoes. Spuds are said to be scarce in the Orchard City.

Miss Kinney of Gladstone is the guest of Mr. and Mrs. K. S. Hogg. Miss Kinney also has other friends in the district who will demand a share of her time.

Rev. D. E. Hatt, of Vancouver, accompanied by Mrs. Hatt and their little daughter spent a few days in the district this week.

The fire laddies turned out in full force to the first brigade practise on Tuesday evening and did remarkably well for novices. They will be cracker-jacks in a week or two and longing for a real fire to operate on.

Rev. Dr. Sawyer, Rev. G. H. Estabrook, Rev. D. E. Hatt and Mrs. Hatt were passengers to Vancouver on Thursday morning. The gentlemen were on business connected with the college.

As a practical demonstration of how matches may cause a conflagration. At a certain camp in the district a full box of King Edward Parlor matches fell from a shelf and rolled under the table. A moment later dense volumes of smoke poured from below and the sulphurous nature of the fumes and their source caused the young man who was washing dishes to turn pale. It transpired that the fall had ignited the matches, and it was necessary to hustle the box outside, where it continued to burn merrily.

**:: Naramata Notes ::**

Mr. and Mrs. F. Allen Tovel have taken up their residence in the cosy cottage formerly occupied by Dr. and Mrs. McKechnie.

The Ladies' Unity Club met last Friday afternoon at the home of Mrs. Wellband. As this was the annual meeting, reports were read showing the extent of the work accomplished during the year. The officers were elected as follows: President, Mrs. J. S. Gillespie; V. P., Mrs. T. R. Wellband; Sec., Mrs. J. M. Robinson; Treas., Mrs. W. S. Miller. The next meeting will be held at the home of Mrs. James Hayward.

The Maud Moore, after a week's sojourn on the balmy beach up by the mill is again in commission.

Mr. Percy Hook who quite recently returned from Silver City, Utah, to look after his interests here brought with him a very fine pen of thoroughbred fowls of the Rhode Island Red variety.

A car load of water pipes to be used in the irrigating trenches arrived here on Monday night and the work of piping is in full swing.

Mr. R. Wilkins is now working for the Okanagan Lake Boat Co.

**ORCHARD'S GUIDE.**

**Compendium of Useful Information on the Okanagan Valley Just Received From the Press.**

The first edition of Orchard's Guide and directory to the Okanagan Valley has been placed upon the Editor's table.

The book is the result of a year's work by Mr. E. A. Orchard, and the object in view is the placing in the hands of the public a ready reference book for all classes of people interested in the Okanagan Valley, business men, tourists, sportsmen, capitalists and intending settlers. Mr. Orchard has succeeded admirably in his purpose.

A very good map, the best thing of its kind, illustrative of the Valley and surrounding district, forms the frontispiece and the book is well illustrated with characteristic views of the district.

Each section is dealt with separately, and embraces a write-up of the district, business directory etc. Altogether the book is of such a character that no person desiring to be well informed can afford to be without it.

Or better yet, call and see us.

KELOWNA 13, COLLEGE 11.

**UNRIVALLED IN ITS BEAUTY,** its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

**DOES SUCH A PROPOSITION APPEAL TO YOU?**

If it does write us and we will only be too glad to give you all the desired information

**JAMES RITCHIE - PARKDALE - SUMMERLAND**

The game on Thursday afternoon between the Kelowna and College teams was an interesting one and about indicates the relative play of the teams. Errors were rolled up disgracefully by both teams, some of the College boys of whom better things were expected did far too much fumbling and wild throwing. Some radical change is needed in style if the boys hope to make good for the balance of the season. The boys have a good team and by rights should have beaten the visitors. The Kelowna boys played a steadier game than the locals and earned their victory. For the first four innings it looked as though it was to be all College and that was where they took their tumble. It was too dark for play after the seventh innings. The teams were as follows:

College—LeGros, Clouston, Watson, McNeill, Leland, Cunningham, Clay, Carlisle, Robinson.

Kelowna—Eastman, Paull, Frame, Jamieson, Tredgold, Creelman, K. Tredgold, McMillan, Pettigrew.

Score by innings:

Kelowna—3 0 1 0 4 3 2 0 0—13.

College—0 2 5 2 0 2 0 0 0—11.

Umpire—F. Baker.

## ARROW LAKES SERVICE.

According to a Vancouver despatch the C. P. R. is taking steps to greatly improve transportation on the Arrow lakes. A new tugboat of much greater power than the Columbia, has just been completed to handle freight.

An appropriation of \$118,000 has been made for a new passenger boat to be built of steel, larger, faster and more powerful than the steamer Rossland—in fact the finest afloat on British Columbia waters. The new boat will replace the Kootenay for the through passenger service and that boat will probably be set aside for handling business on the lower Arrow lake. It is very evident the C. P. R. expects great development on the Arrow lakes.

The Kootenay is now being overhauled and eight new staterooms added.—Kootenayan.

## TO BE OR NOT TO BE.

A meeting of the Athletic Association is called for Monday evening in the Municipal Hall, at which the recently appointed committees will report. The spirit and support at the meeting will decide the fate of the 24th of May celebration.

## MUNICIPALITY OF SUMMERLAND.

## Provincial and General

There is every prospect of a trout hatchery being built at Kaslo, according to the Kootenaiian.

A terrific explosion of dynamite near the Cathedral of St. Peter's in Rome last Friday injured twenty persons and destroyed a portion of the Borgpio Palace, according to a bulletin received by the Exchange Telegraph concern. The explosion shook the foundation of the world's greatest and most imposing cathedral. Improper storing of dynamite by fishermen was the cause of the accident.

Although the C. P. R. has been granted a five years' extension of their charter to complete the Kootenay & Arrowhead line, it looks as if there will be something doing shortly. A party of six C. P. R. engineers came in on the Kokanee on Monday last and went on through to Gerrard, the evident intention being to survey the line once more. — Kaslo Kootenaiian.

Two million five hundred thousand dollars in bonds of the Stave Lake Power Company have been underwritten by eastern Canadian capital. Work on the completion of the big power undertaking at Stave Lake Falls will be rushed by the addition of a large force of men to the crew now at work, and within eighteen months the company will be delivering power in New Westminster and Vancouver.

Land Agent Cochran informs The Medicine Hat News that 650 homesteads were taken up there for the year ending March 31st.

Hon. R. L. Bordon is suffering from insomnia at Caledonia Springs and will not return to Ottawa till next week. He is playing golf but his physicians have warned him that he is in danger of a nervous break-down and must rest.

In Lethbridge district thirty steam plows were at work during the first half of the month. Seeding begins next week in the older sections.

L. Stockett, president of the Operators' Association, at Fernie has wired the Miners' Union executive requesting another conference to arrange for the striking miners to return to work.

## The Brown Brothers Company, Nurserymen, OF ONTARIO

Are extensive growers of all kinds of Fruit Trees, Shrubs, Roses, and Ornamental Trees, and the members of the firm are all practical nurserymen of 25 years' experience, and have built up the most successful and extensive business of the kind in Canada.

The growing of the stock, as well as every other detail in connection with the work, is personally superintended by the individual members of the firm, and they work on the plan that the best is none to good for their customers.

We have made large shipments of trees into the Okanagan Valley and can give the names of the largest planters in that district, who have planted our stock successfully, if desired.

Our trees are grown in the famous Niagara district, in Ontario, in a climate very similar to that of the Okanagan Valley, and our trees are consequently better suited to the needs of planters there, than are the Coast stock, being more hardy in wood, with a more abundant supply of fibrous roots, which count for much in making an investment in an orchard a safe and permanent one.

We shall be pleased to hear from prospective planters, with a view to supplying them with the best grade of trees, true to name. We wish to secure the services of a good reliable man to represent us and will make liberal terms to the right party, for all, or a part time. Write for terms, prices, etc., to

CHAS. L. TROTTER, Manager,

Brown Brothers Company, Nurserymen, Ltd. 1125 8th Av. Vancouver, B.C.

## PROTECT YOUR TREES

These destroyers cannot live where trees have been treated with  
WARNOCK'S TREE PAINT

Pear Blight, Rabbits, Mice, Borers, Canker Worm, San Jose Scale, Oyster Shell, Bark Louse and Sun Scald. THE COST IS VERY SMALL. It will not wash off. One application protects for two years. Warnock's Tree Paint is not an experiment. It has stood the test for 5 years in all parts of the United States. It is an absolute Preventative and Cure for Pear Blight. We invite investigation. The Arkansas Experimental Station has used this tree paint for three years. November, 1907, they purchased 50 gallons for free distribution among leading orchards. Send for 16-page free booklet to  
Agent: C. H. CORDY, Summerland.      G. R. LAWES, Enderby B.C.      Sole Manufacturer for B.C.

**"KALEDEN."**

The name chosen for the new Dog Lake townsite being promoted by Mr. Jas. Ritchie is "Kaleden," and the winner is Rev. Walter Russell, the evangelist, who recently made so many friends in Summerland. The name is well chosen, kalos being the Greek for beautiful, thus making it Beautiful Eden.

Competition was keen and over two hundred names were sent in from different parts of the province. The choice of the judges eventually narrowed down to five, and Kaleden became the choice.

Evangelist Russell will now have the pleasure of selecting for himself a town lot where he may come and take a well earned rest from his unsparing efforts for the benefit of his fellow men.

**CARS FOR SUMMERLAND.**

It will be interesting for the people of this district to learn that negotiations are under way whereby a ten mile car line may be expected to be in operation within the next two years.

The system will be so laid out as to tap the main residential district, establishing connections with the front so as to handle the fruit crop two years hence.

**ASIATIC IMMIGRATION.**

A communication has been received at this office requesting the reproduction of a lengthy address on "Yellow Peril" delivered by Prof. James Leacock before the St. James Literary Society as published in the London, (Ont.) Free Press. The article is altogether too lengthy for publication in full and we therefore give the following excerpt:

The speaker took his audience back to the early ages and showed that the Orient had always been a menace to western civilization. In modern times all portions of the British Empire had been endangered by the ingress of Chinese and other Asiatics. "We believe" said a member of the Queensland parliament a few years ago "that this continent can be developed with white labor. But if this hope is false, then we say rather let it remain untilled till all eternity than saddle this continent with the presence of an alien and hostile people."

The article concludes with an impassioned appeal for a white Canada.
