SUMMERLAND, B.C., OCTOBER 2, 1909

No. 61

EXHIBITION PLANS KEEP ON GROWING

ORIGINAL IDEA OF APPLE SHOW SWELLS TO GENERAL EXHIBIT.

Flowers, Plants and Dairy produce Added to the Attractions of the Hour—Catalogues Sent out—Remember the Date Oct. 7.

When the question of holding an apple show in Summerland was considered by a few interested people a week or so ago, there was not the slightest idea that anything approaching an elaborate exhibition would be undertaken. The original plan was to have a plain, but interesting collection of "Eve's temptations" of a character qualified to demonstrate the possibilities of Summerland as a centre for apple culture.

It looks now, however, as though an elaborate exhibition would be placed before the people of the district, and before those from outside points who have not absorbed the foolish idea that their section has a monopoly on the power to produce.

The apple section was the first to be undertaken and the prize list at first arranged called for a large variety of apples, and the prospect of diplomas for the winners. When completed the list looked lonely and as there are still some late varieties of peaches hanging on the trees, late peaches and also pears were added.

In order to enhance the beauty of the fruit, a few flowering plants would be necessary, and the question arose, why not offer a few prizes for the plants loaned for the occasion, and as a result a competent man was asked to compile a prize list for plants. Cut flowers then forced themselves upon the notice of the workers and cut flowers were promptly added to the already large catalogue.

Even then, the committee was not permitted to cry "enough." Some of the chicken cranks came around and said that the chicken business was just as important in Summerland and just as much entitled to consideration as fruits and flowers, so the committee bowed their heads humbly, (a new virtue by the way in some members of the committee) and said, trot along your chicken show ideas, tell us what is needed and we will call for a chicken ex-

EARLY CLOSING.

This week winds up the weekly half holiday season and naturally the clerks are feeling somewhat blue over the loss of their weekly recreation season. The fact that a spell of wet weather has apparently made its appearance, will possibly reconcile them in some measure to the fact that it is necessary for them to stay in, but they would welcome the inauguration of a movement to close the places of business at 6 o'clock every evening except Saturday.

The plan seems fairly reasonable. The average consumer usually finds that no matter how often the stores are closed he has an abundance of time in which to spend his money. If all the merchants fell in line with the proposition, there is but little doubt that for the benefit of the army of very obliging clerks to be found in Summerland, the general public would cheerfully undertake to do their shopping between the hours of 8 a.m., and 6 p.m.

Telephones are becoming very generally in use and very few people in the district are far away from a telephone which they can use, and the comprehensive delivery system now in vogue makes it quite easy for the consumer to get in touch with the business men on short notice.

In nearly all the larger cities the stores are closed sharp at 6 and promptly at 10 on Saturday nights and the people are just as well satisfied as they were in the barbaric old days when a business man insisted on keeping his poor unfortunate clerk with his nose to the grindstone until 11 o'clock every night and clean up the store on Sundays by way of recreation.

If the matter was put to a public vote there is but little doubt that the people of the district would fall in line with the suggestion and support the store employees in their desire.

hibit; and it would not surprise anybody even now if the committee should call for a fine arts, needlework, and several other kinds of exhibits.

There is just another suggestion which might be worthy of consideration, and that is the advisability of putting in a baby section. There is no lack of material in Summerland and the quality is gilt edged. This section might be thrown open to the world at large and still all the prizes remain in Summerland. We respectfully make this suggestion to the overworked members of the committee in charge.

MAKE HISTORY NEXT SUNDAY

FORMAL LAYING OF FOUNDATION OF ST. STEPHEN'S CHURCH.

Archdeacon Beer to be Present and Perform the Ceremony—Building to be Rushed Along as Rapidly as Possible.

Next Sunday will be a red letter day for the Anglican communion at Summerland, for Oct 3rd is the date fixed for Archdeacon Beer to lay the foundation stone of the new church of St. Stephen.

Some eight years ago the settlers at the Barclay Ranch and those at Trout Creek built a small church, choosing a location half way between those two settlements. The development of the parish has been such that the present church is far too small and the site much too inconvenient, so at the last Easter meeting it was definitely decided to erect a new church in a more central spot. Mr. W. A. Peters kindly furnished plans, which were approved of by the congregation, and by the New Year it is hoped that a stone edifice for holding divine service will be ready.

The church however, will not be completed in the immediate future as the chancel will be added to the nave later. The dimensions of the nave are 65 feet by 40 feet; the walls are to be built of cobble stones, which work is being taken in hand by Mr. J. Robertson, while the wood work will be in the charge of Messrs. Nelson Bros. who built the Rectory a year ago.

The church will cost at present about \$6,000 and when completed will be a credit to the parish.

ENFORCING THE GAME LAWS.

The Provincial authorities have secured 45 convictions for infringements of the Game Laws this season, and the money paid in fines amounts to about \$1100. They are making every effort rigidly to enforce the Act, and it is expected that the number of offences next year will be greatly reduced.

Miss Georgina Logie left this week for Vancouver, where she will pursue her studies in the Vancouver branch of McGill University.

FIRST ANNUAL SHOW.

List of Awards Offered to the Successful Competitors on Oct. 7th.

For fear that all the residents of the district may not have received a copy of the first annual exhibition prize list, we append below a list of the articles called for and the awards offered. As an inducement to send as large and varied an exhibit as possible, the committee in charge is offering a lady's secretarie to the one who is successful in capturing the greatest number of prizes.

The committee insists that all exhibits shall be entered in the name of the actual owner and violation of that rule will mean the forfeiture of prizes. All entries must be in by Oct. 5th and the articles to be exhibited must be in the building not later than 9 a.m. on the day of the show. All entries are to be made to Mr. Robert Pollock at Mr. W. J. Robinson's office, adjoining the bank of Montreal.

It is hoped that everybody will get busy and help to make the event a huge success.

APPLES ETC.

CLASS 1.

Best 5 boxes winter apples, any variety, no box to contain more than one variety.

Special Diploma for best pack in this class, to be packed by grower.

CLASS 2.

- No. 1 Best box yellow Newtowns
- 2 Best box Spitzenberg
- 3 " Winter Banana
- 4 " Jonathan
- 5 " Wagener
- 6 " Rome Beauty
- 7 " Northern Spy
- 8 " Baldwin
- 9 " Rhode Island Greening
- 10 " Gravenstein
- 11 " Wealthy
- 12 " King of Tompkins
- 13 " Hubbartson Nonsuch
- 14 " McIntosh Red
- 15 " Grimes Golden

Special Diploma given to exhibitor winning most prizes in Class 2

CLASS 3.

Best pyramid of Winter Apples, 2 foot base, any variety—attractiveness to count 50 per cent of total points

CLASS 4

Best plate exhibits of standard varieties of Apples, each variety to be judged separately. 5 apples to constitute a plate

Special Diploma given to exhibitor winning most prizes in this class

CLASS 5

Best box of Pears, any variety. Only one variety allowed in box

AGENTS:

A. B. Elliott

J. DOWNTON desires to intimate that the

Butcher Business

at present carried on by Gartrell & Co. will, after Oct. 1st be owned and worked under the name of J. Downton, and he trusts that by supplying the best quality of meat at the lowest price, he will retain the patronage and favor of the public of Summerland generally

TERMS - STRICTLY CASH

Local News Items.

The new Board of Trade pamphlet can be posted for two cents if placed in envelopes not sealed and marked printed matter only, on the outside.

The regular meeting of the Orange Lodge will be held on Tuesday next, Oct. 5th. Special business awaits the consideration of the members.

The local Oddfellows have changed their night of meeting and hereafter will meet on Friday evening of each week instead of Thursday as heretofore.

Mr. and Mrs. Brewer with their daughter Jennie left on Tuesday morning for Lethbridge where they will probably spend the winter with relatives.

The new library, secured for the use of the members of the Parkdale Baptist Sunday school, was opened last Sunday and embraces a very choice collection of books. Plans have already matured whereby the number will be added to.

Rev. W.M. Rochester, western secretary of the Lords Day Alliance will be in Summerland on Oct. 9 and will address a mass meeting in the Methodist church at 8 p. m. Mr. Rochester is too well known to need introduction and is always sure of an audience.

The Fruit Company's building in the vicinity of the bathing house, has been torn down and placed on the vacant lot adjoining the livery barn. It is rumored that this is the initial move towards building wharves and slips by the C.P.R., for the landing of cars from scows and bringing freight to Summerland without transshipping.

The members of the Presbyterian church expect very shortly to commence the erection of a commodious church building at Parkdale not far from the Supply Company's store. The rumor is that they have fallen in line with the idea adopted by some of the other churches and will build as far as the money in sight will render advisable.

An entire change of programme is promised in connection with the violin recital to be given by Master Wilfred Small and Mr. Percy Hook on Monday evening next. The audience was so highly delighted with their evening's entertainment on the last appearance of these talented artists, that a full house will doubtless be accorded them.

Mr. Robert Bailey and daughter of Pontiac, Mich. and Miss Harry from Elkhorn, Man., were the guests of J. R. Doherty, Brookside Cottage, Balcoma, for a few days this week and were greatly delighted with the beauties of Summerland, especially Prairie Valley. They have visited all the coast cities, including the Seattle fair.

While Pearl Ward, the 11 year old daughter of Thomas Ward, of Amherstburg, N.S. was driving along the river road, a runaway team attached to a wagon attracted her attention. She kept her horse on the side of the road so as to give the animals a chance to pass her. Instead the team split and the pole of the wagon struck her rig. The force of the collision threw her into the air, and when she alighted she was astride the wagon tongue. She clung to her perilous position by grasping each of the inside tugs and in this position was carried nearly a mile before the team was stopped. When she was taken from the pole it was found she had sustained a broken thigh.

Why—this man is an atheist on advertising matter.

:: Naramata Notes ::

Rev. H. A. Solly conducted divine service here on Sunday evening.

J. Allen, who last week had one of his legs broken while working at the saw mill north of town, is progressing as well as could be expected.

Mr. Harry Mulford, who as previously announced has opened out an independent butcher shop on Robinson Ave., reports a brisk business.

A considerable amount of settlers effects has been unloaded at our wharf in the course of the week, the property mostly of the families from Battle Creek, Michigan.

Mr. Carroll Aikins, after a few weeks in Naramata looking after his interests, left on Thursday's boat for Golden, B. C. where he will go extensively into the real estate business.

The ten o'clock service last Sunday, the occasion of the farewell address of the Rev. W. L. Bradley, was marked by a special violin solo by Master Wilfred L. Small.

J. A. Kirk, provincial surveyor from Summerland with a number of assistants, is busy this week striking the line for the extension of the road toward Kelowna. It is probable that the work will be completed this fall as far as Fred Anderson's ranch.

Prof. Hook, after a summer spent in looking after his own and his brother's fruit lots, has decided to "break camp" till the balmy days of spring shall again summon him back. It is understood that it is his intention to travel on a concert tour as accompanist for Wilfred L. Small. While regretting the professor's removal from their midst, the people of Naramata join in wishing the genial Percy all kinds of success.

GARTRELL---ENGLISH.

On Wednesday afternoon, two of Summerland's popular young people, in the persons of Miss Anna Elizabeth English, eldest daughter of Mr. and Mrs. R. H. English, and Mr. Fred Gartrell, were made one by Rev. James Hood. There were a number of guests present at the bride's home and as the bride entered the drawing room with her father, a wedding march was played by Miss Chrissie Tait. The young couple were unattended by either bridesmaid or groomsman.

The room was made beautiful with many choice flowers and plants. The bride looked very charming in a bridal gown of cream silk eolene and taffeta and wore the usual veil and orange blossoms, also a handsome pearl necklace, the gift of the bridegroom. She carried in her hand a beautiful shower bouquet of white roses and carnations.

As soon as the final words had been spoken, a wedding banquet was partaken of by between twenty and thirty guests and a pleasant time was spent in receiving congratulations prior to the arrival of the boat on which the young couple embarked amid a shower of confetti, rice, and old shoes.

The bride wore a travelling suit of brown panama, the coat opening over a white embroidered blouse, and also wore with this a large white hat with plumes.

The presents received by the bride were unusually rich and attractive and will make a splendid showing in the handsome new house in the Trout creek district which the bridegroom has erected this summer for the reception of his bride.

A honeymoon will be spent at coast cities and Mr. and Mrs. Gartrell will in all probability visit the A. Y. P. before returning.

BACK TO COLLEGE.

This is the season of the year in which the voice of the freshman is heard in the land. He enters on his college course and into his new associations with such a flamboyant enthusiasm and masterful air of being equal to all that may be required of him, and more too, that the fatherly professors smile, and the sophomores rub their hands gleefully in prospect of the good times at hand in the time honored prerogative of reducing to normal size the freshman's head.

And perhaps that is all right. It is all right if done properly. Classics, mathematics and physics are valuable, no doubt, but a large part of the education obtained by Gustavus Adolphus in college is of the kind for which his father pays no fees. The student body provide it gratis, and it is every whit as valuable as that which is paid for by the term. The average college is the purest form of democracy known to the world. The only aristocracy is the aristocracy of democracy—brains and ability. The son of a rich father sits side by side with the poor boy who has patches on his trousers, but if the impecunious youth has no patches on his recitations and examination papers, Purple and Fine Linen can't get the honors when it comes to an election: not by a long chalk. And the first rude hint that Purple and Fine Linen gets is when he enters in all the full orb'd splendor of a freshman. Those barbarian "sophs" simply don't care a hurrah who his father was or how big in the city of his habitation. Things have to be settled and values determined on the more elementary principle of man to man.

Of course not all freshmen are megalomaniacs. All kinds of temperaments will be in that class as in the three classes above it. Some are of the serious type and take their college work with deadly earnestness; others look on it as a huge joke. Each is helped by the attrition of the other, the one to become less serious, the other more so.

This week, Okanagan college has again become a light house on the landscape as other schools elsewhere. The mental dust and rust of the holidays is becoming scourged off rapidly. New faces adorn the campus and voices new and old are heard in the halls. The Review wishes them all "a very merry cheer" and the preservation of their feathers next spring in the annual tussle with the books and the professors.

Okanagan Valley has a right to be proud of the record its institution of higher education has thus far made. We know of no college in Canada which has grown in like time more rapidly, except perhaps some of those institutions which began their careers full blown, with a heavy endowment; and we are pleased to be able to think none is doing better work in the class room. Prof. Hickson of McGill University, who spent some days in Summerland a short time ago expressed his gratification and surprise at the work covered in Okanagan college last year, and Principal Sawyer has more than once declared his laudable determination to keep the standard of examination equal to that of the very best institutions in Canada, no matter what happens.

That this is being done is evidenced by the fact that Okanagan college students are given on request, as a matter of fact, an equivalent standing in the largest universities of the east, Toronto and McGill.

It is a matter for regret that the ladies' building in connection with the college could not be got ready in time for this year. February is the earliest date at which it could have been opened and by that time all students would have their arrangements made. The Board of Governors has however, engaged a cultured lady principal, Miss McLeod of Boston, to have charge of the young ladies attending this year, and they expect to begin building operations in the spring in order to be fully ready for next season's students.

The plans for the extension to be made to the building occupied by the Summerland Supply company have been received from Mr. W. A. Peter's, and promises to be of up-to-date appearance.

CORRESPONDENCE.

We do not hold ourselves responsible for opinions expressed by correspondents.—ED.

GIGGLERS IN CHURCH.

EDITOR REVIEW:

Dear Sir,—I think the editorial which appeared in your paper last week, met with the general approval of the people of the district who would like to be punctual, especially at church, but there is another annoyance prevalent in Summerland which is having the effect of keeping people from church altogether, and that is the thoughtless action of a bunch of young people to be found apparently in all the churches, who throughout the whole service keep up a running conversation, interspersed by assinine giggling.

The trouble is by no means a new one and the offenders have been publicly rebuked from the pulpits of the district, in a general way on more than one occasion, which is certainly a disgrace in a district such as this where everybody is at least expected to be commonly decent.

The great difficulty seems to arise from the fact that the most flagrant offenders are grown up young women and the daughters of some of the leading lights in the various churches and nobody seems to like to take the initiative in dealing personally in a drastic manner with the offenders.

If a child misbehaves in church, the average parent will see that the child is corrected on arriving at home, but not a child in the district can be accused of such disgraceful and thoughtless behavior as these grown up, beribboned children who must certainly be sadly lacking in grey matter or they would not act in such an indecent and unbecoming manner.

If the various churches would take up the matter and see that the offenders are privately rebuked, and in the event of that being a failure, publicly rebuked, the annoyance might soon be eradicated.

COMMON SENSE.

MAY KICK OUT COUNCIL.

The Port Arthur council will probably take definite action soon on a matter that has been under discussion for a long time; that of a new system of municipal government. Talk is heard of a paid commission of experts to act instead of a mayor and council. The members would be railway, light, power and telephone experts, and with another as chairman act as a board of directors, taking in charge the big business created by the various franchises in which the city has practically half a million dollars invested.

DANGEROUS NOXIOUS WEED.

The attention of the authorities is called to the alarming growth in the district, of the Russian thistle and tumble weed. Many a prairie farmer has tried for years to eradicate the pest and at last has given up the fight and moved out. The Peach Orchard road and various roads on the flat are lined with the thistle and prompt action should be taken to clear them out before they seed and spread the pest all over the district. The thistle, according to those who have had experience, is one of the hardest weeds to root out and when once it gets old and solid, it is so tough and unyielding that a horse's legs will be cut, or the garments of the one who is foolish enough to try to force his way through, torn to shreds in attempting the proposition. The thistle is very much like the tumble weed, with the exception that the thistle has spines and the tumble weed has none. The weed is easily located. It branches up in bush form right from the ground and has a kind of heather colored bloom. When the weed is cut off at the roots, it retains its circular form and will roll and tumble in the wind to the great terror of horses who happen to be in the way. The weed is easy to cut up, and a man with a mattock could do big execution in a day as it is only necessary to bend the huge tops over and cut them off at the roots.

The matter is one of the greatest importance and it is hoped that immediate action will be taken to meet the difficulty.

News from Peachland

Rev. J. J. Nixon went to Penticton on Thursday to attend the wedding of the Rev. H. Hubbard, of Phcenix.

Miss Evelyn Brown of Summerland has come to reside here for the Winter and will attend the High School.

Mr. R. P. Morrin, manager of the Canadian Bank of Commerce, at Elkhorn, Sask. is visiting his brother M. N. Morrison for a few days.

Mr. G. C. Hinton and J. A. Shand of the Allis-Chalmers-Bullock company of Montreal are in town submitting prices for the electric plant.

Messrs Hook and Manchester came up in a launch on Wednesday on business. They were detained over night by the high winds which prevailed.

Rev. Geo. Follis stopped off here for a few days this week to visit his old college friend Rev. J. J. Nixon. He was on his way to Penticton where he has charge of the Methodist Church.

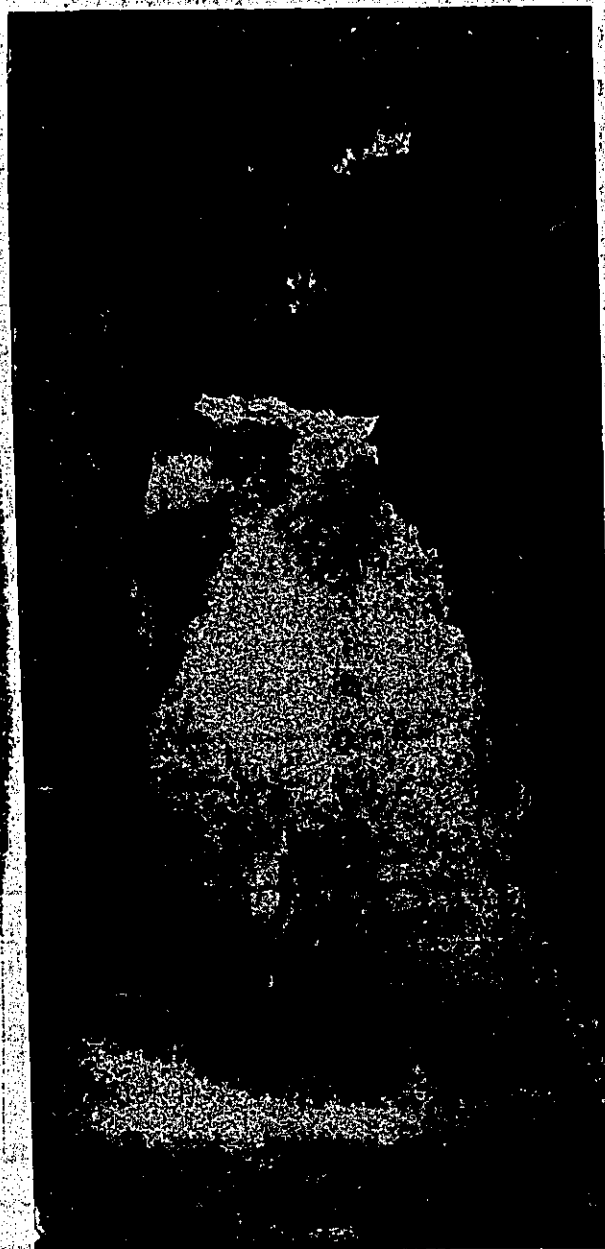

Reeve Lang left for Winnipeg Monday morning to bring out his cousin, Ed. Lang for a change of climate as he is suffering from a nervous break down and needs a rest and a change.

A Shakespearian club was organised last week and will hold its first meeting in the Reading Room. Quite a goodly number have joined and a profitable winter of study is looked forward to. King Lear is the first selection to study.

Our townsman, Mr. Jack McKennon, is to be complimented on his success at the Victoria fair. He had 13 exhibits of apples and secured 12 prizes, 7 firsts and 5 seconds. Mr. Willie Dawson also has been sweeping up the prizes, having secured 9 firsts, 8 seconds and a cup at the recent Vernon fair, besides making some sales at fancy prices.

Two concerts, which promise to be unusually good, are on the boards for this week. The members of the Aquatic and Athletic association are giving one Thursday evening and have been making careful preparation for it. While on Saturday evening the talented boy violinist, Wilfrid Small with Mr. Percy Hook as pianist is to give a recital in the Presbyterian church.

The evening of Oct. 7th is nomination day for the Men's Club, and election day Oct. 14th. Poll open from 10 a.m. to 5 p.m. and from 6:30 to 8.

B. SAUNDERS - SUMMERLAND

A CROWING HEN.

The old saw about "a whistling girl and a crowing hen" has been put out of business entirely by a yarn told in all truthfulness by a worthy resident of the district whose reputation for veracity is absolutely unassailable.

He says that he has a hen that can crow just as well as any rooster and sits in front of the door and raises melodious sounds to the great delight of all and sundry, who are at first unable to account for the smallness of the alleged rooster's comb.

The hen is quite a pet. It will come when called by name, and will sit and hold up its head so that it can be conveniently tickled under the chin, or stroked on the top of the comb holder.

The phenomenon is a splendid layer, thus proving that the balance of the adage, "Neither fit" etc., is a fallacy belonging to the primeval ages. This particular crowing hen, which is of the Cochin China variety, is a hard and persistent worker and only takes six weeks holidays in the year, and lays annually 320 eggs of normal size and shape. The owner is trying to breed others of the same class and will call them Prairievallecus Henicokrels. Any who who are bitten by the microbes of unbelief may secure proofs on application.

Nine suffragettes in jail at Birmingham, England, started a riot when doctors tried to break their "hunger strike" by forcing food down their throats with stomach pumps. Two women submitted to the forcible feeding, but the others revolted. They attacked the doctors and attendants. Windows were smashed, furniture broken and the clothing of the women badly torn in the fight that followed. After being overpowered the women were handcuffed and placed in solitary confinement. The women were arrested recently for attempting to prevent Premier Asquith from speaking and in carrying on a struggle with the prison authorities started the "hunger strike," refusing food in any form.

Rev. D. J. Welsh, B.A., B.Th., B.D., who has just completed a post-graduate course in Chicago University, arrived in Summerland on Saturday last accompanied by Mrs. Welsh, and spent a few days with Mr. Welsh's father and mother, Mr. and Mrs. Thomas Welsh. They left on Thursday morning for Kelowna where Mr. Welsh will assume the pastoral charge of the Baptist church.

SUMMERLAND B.C.

Improved Fruit Lots a Speciality.

The Hon. Thomas Taylor states according to an exchange, that the government has decided to build a trunk road across B. C., 400 miles from the coast to Alberta. What the Dewdney trail was to the early settlers in southern B. C., this important road, when carried to completion, will be to the many settlements in the same Southern part of the province and Mr. Taylor is to be congratulated on a proposal, which, when completed will make him remembered as one of B. C.'s benefactors. This road will mean the linking up of several wagon roads already built and enhance inter-communication between the many interior towns.

SUMMERLAND. B.C.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctillious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU?
If it does write us and we will only be too glad to give you all the desired information

No. 62

FOUNDATION STONE IS WELL AND TRULY LAID

The foundation stone of the new Anglican church, which will be known as St. Stephen's, was "well and truly laid" on Sunday last by the Ven. Archdeacon Beer, of Kaslo.

The new church is being erected in one of the choicest spots in Summerland, adjacent to the rectory. The floor had been laid on the foundations of the building, and at the eastern end where the chancel will eventually be, the raised platform was furnished with reading desk and chairs for the clergy. Below them were the choir benches and the organ. An excellent choir led in the service of song. An abundant supply of seats had been carefully arranged for the comfort of the congregation, and these were filled by some 200 people.

Short after 11 a. m., Ven. Archdeacon Beer, Rev. T. Greene, B. A., rector of the Anglican church at Kelowna; Rev. H. A. Solly, B. A., and Mr. Parker, lay reader, ascended the platform, the congregation standing, and the service called for on the printed programmes with which all were provided, was successfully carried out. In addition to the responses, Psalms 95, 84, 87, 127 and 122 were read and several hymns were sung very heartily. During the service a collection was taken up in the interests of the church building fund.

The sermon for the occasion was preached by the Archdeacon, from the second book of Samuel, VII:1-2. "And it came to pass, when the king sat in his house, and the Lord had given him rest round about from all his enemies, that the king said unto Nathan the prophet, 'See now, I dwell in an house of cedar, but the ark of the Lord dwelleth within curtains.'"

The speaker briefly outlined the history of God's chosen people up to the time dealt with in his text. The desire of David was a laudable one, which, even though the Lord did not allow David to carry out, was approved by Him, in that He allowed David to make the preparations for the house, and his son Solomon to build it. The building was ablaze with gold, silver and pre-

cious stones, and the choicest timber was placed within it. David considered nothing too good and no expense or trouble too great for the house of God for which he was preparing. So it should be to-day. The best was none too good for the glory of God.

He rejoiced that the people of the parish of Summerland had planned wisely with a view to the future. The old building had been quite suitable for the original congregation and now the time had come for greater things and the change in the centre of population had made a change of location necessary, as well as a much larger edifice than the one which had been deemed sufficient in the day of beginnings.

He trusted that the building would be made as beautiful as possible and that it might become a place, above all, where men and women would come to worship. A veritable house of God in which the children might be baptized into the most holy faith, the youths and maidens confirmed, the young men and women married and at last that the beautiful and solemn words of the Anglican ritual might be pronounced above the remains of the aged ones as they were carried to their last resting place, where they would await the final call of judgment day.

He hoped that the people of Summerland would love their church and prove it a place for the finding of peace and rest. The Archdeacon spoke very frankly and plainly of the doctrinal beliefs of the church and won the respect of all who heard him.

The actual laying of the stone followed the singing of the hymn "The Church's one foundation." The mason was present and as the stone was lowered into its place the Archdeacon touched it lightly with his mallet, and pronounced the stone well and truly laid. In the stone was placed a brief history of the church which was compiled by the rector, a copy of which is appended below, also a copy of the Review bearing the date of the current week, as an additional proof to those who centuries hence

may be curious enough to look inside, that the date upon the outside of the stone is bona-fide.

CHURCH HISTORY.

In the name of the Father and of the Son and of the Holy Ghost.—Amen.

The foundation stone of the Church of St. Stephen, Summerland, British Columbia, was laid on Sunday, Oct. 3rd, A.D. 1909, by the Venerable Henry Beer, Archdeacon of Kootenay, in the presence of the Rev. Thomas Greene, Rural Dean, and of the Rev. H. A. Solly, Rector of the parish, and of a congregation of some 250 people, in the fifteenth year of the consecration of the Right Reverend John Dart, Bishop of New Westminster and Kootenay and in the eighth year of His Gracious Majesty, King Edward VII.

The churchwardens for the year were Cuthbert Fetherstonhaugh Esquire, the Rector's Warden, and Gerald L. Parker Esquire, the People's Warden.

Trout Creek was formerly a hamlet served by the Rev. T. Greene, the Vicar of Kelowna. In 1906 the Rev. A. St. I. Mildmay the vicar of Penticton, assumed the charge of the parish. Meanwhile the hamlet had greatly developed and the name was changed to that of Summerland. On December 17th, 1907 the Rev. Herbert A. Solly, B.A. arrived from England, having been appointed by Bishop Dart the first vicar of Summerland. The congregation at a general meeting of the congregation held in January 1908, decided to build immediately a vicarage, which was accomplished during the year, and at the annual vestry meeting held at Easter, 1909, the congregation determined to discontinue receiving a grant of \$450, £50 of which had been given by the parish of Chevening, Sevenoaks, England, of which Canon Hall-Hall was rector; they also decided to build a new church to the glory of God.

H. A. SOLLY,
Rector of Summerland.

Miss McLeod of Boston, who has been engaged by the college board to act as Principal of the proposed girls' wing at the college and who will take charge of the English class at the college, will it is expected, reach Summerland and enter upon her duties in the course of a few days.

Notice.

Land Act, Kamloops District, District
of Yale.

Sixty days after date we intend applying to the
Chief Commissioner of Lands and Works for per-
mission to purchase the following lands situate in
the Kamloops Division of Yale District:

Commencing at a post set forty chains east and
forty chains north of the south west corner of the
Summerland Development Company's reservoir site;
thence north eighty chains, thence east forty chains,
thence south eighty chains, thence west forty chains
to point of commencement, containing three hundred
and twenty acres.

Purpose for which required: Reservoir Site.
The Summerland Trust Company Limited

July 10th 1909

Owing to pressure of space a large
amount of local matter has been crowded
out this week

Local News Items.

O. P. Bowen who recently bought Mr. Fosberry's place, left on Tuesday morning for the junction to meet Mrs. Bowen.

J. S. Hooper of Rossland, representing a Rossland syndicate, was in the district during the past week locating some land.

Jack Conway who has been on the sick list for a week or two, was well enough to be able to resume his duties this week.

The rooms above Vaughan & Moore's store have been fitted up for the accommodation of tenants.

Mrs. Thos Collinge wishes to intimate that she will be At Home on the third Friday in each month.

Mr. H. G. M. Wilson of the Canadian Bank of Commerce, Vancouver, was a visitor last week-end at Mr. H. Sutherland's.

C. W. Stevenson, representing the American Type Foundry, was in town on business this week.

Rev. W. Rochester representing the Lord's Day Alliance will give a lecture in the Methodist Church on the 19th inst.

Mrs. Elsley of Toronto and Mrs. Snyder of Victoria are at present visiting Mr and Mrs Stinson

W. E. Davidson of the firm of Smith, Davidson & Wright of Vancouver, was in town this week on one of his periodical business trips.

G. J. Thornton, the fruit preserving expert who has been engaged by the government to preserve the fruits selected by its representatives for permanent exhibition purposes, was in town this week making selections of fruit for preserving.

At a meeting of the Orange Lodge which was held on Tuesday evening; it was decided to abandon the present lodge room and accept the offer of Mr. A. B. Elliott to take over the furnishings of the lodge room and fit up a larger and more commodious hall above his store. The new lodge room will be larger and more lofty than the old room and will be properly fitted up with ante-rooms, lockers and the necessary accommodation for lodges. The proposed plans for a demonstration on the 5th day of November, were further discussed and it is expected that a large number of Orangemen will be present from various lake ports. The local Orangemen propose sparing no trouble to make the affair a huge success.

Wasn't the Apple Show O.K.?

His elbows peep through gaping sleeves, his shoes all rag and tatter
Frowsy, lifeless, hopeless, careless,
Dusty, grimy, grizzled, hairless.
Why this unkempt, dreary business? why this hard luck chatter?
Why—this man is an atheist on advertising matter.

HOME GROWN FRUIT CHALLENGES WORLD

Over Four Hundred Entries in Summerland's Impromptu Fruit Show--Judge Winslow makes but One Criticism, that Apples are too Large---Local Member, Mr. Price Ellison formally Opens Exhibition.

Summerland's first annual apple show was as is usual with things that are attempted in Summerland, a huge success and the exhibits were of a character such as it would defy the world to re-produce. Even those who had lived here for years were simply astounded when they saw collected together the product of the district. The array was bewildering and the coloring and size of some of the apples especially, was of such a character as to make the beholder's mouth water in spite of himself.

The poultry exhibit was small but choice and the fire hall had been requisitioned for its accommodation. The display of vegetables was to be found in the Fruit Co.'s warehouse.

Great interest was evinced in the Baby Show, there being 2 classes: Under 1 year old, 8 entries, Mrs. W. C. W. Fosbery's baby taking 1st; under 2 years old Mrs. A. L. Morland's baby gained the prize out of 7 entries. Both winners received a five dollar bill.

The judges for the various classes were Messrs. R. M. Winslow, B. Hoy, W. Simpson, W. Dawson and A. Rankin.

The exhibition was formally opened by Price Ellison Esq. M.P.P. who was introduced by the chairman, Reeve R. H. Agur. He congratulated the people of the district on their splendid show and was satisfied that it could not be duplicated in any district in Canada. Speaking of last year's frost he said that Summerland was to be congratulated on its location as it suffered less than any of the other sections of the valley.

He complimented the Municipal Council on its progressiveness in providing good roads, and was pleased to learn they still planned to continue the good work. He gave a few pointers on fruit culture and retired amid general applause.

The chairman then called upon Mr. J. M. Robinson who responded in his usual happy style, expressing his pleasure that

the district was so well able to produce such a glorious display of fruit on its own initiative.

The following is a list of the prize winners:
APPLES ETC.

CONTINUED, LAST PAGE.

News from Peachland

Mr. Willie Dawson was judging at the Summerland Poultry Show on Thursday.

Mr. H. McDougall spent a couple of days in Vernon this week.

Miss B. Fowler who has been spending the summer with friends in Summerland returned to Peachland this week.

Mr. E. R. Simpson of Summerland was in town Monday. While here he bought a driving horse from C. G. Elliott.

Marshall brothers lost a valuable working horse this week from some mysterious sickness. Two others of their outfit were very sick but recovered. This one was alright at bedtime but dead before daylight.

Mr. Jas. Silver and his son Willie spent Sunday with the family in town. Mr. Silver has charge of the construction of a large dam and ditch for a Vernon Syndicate while Willie is teamster in Miller and Garroway's camp near the head of the lake.

Mrs. A. T. Robinson addressed the W.C.T.U. last Friday and gave a very fine address on the work and aims of the organization. A reception was held in her honor in the Presbyterian Church and was largely attended by the members of the W.C.T.U.

The Aquatic and Athletic Association Concert last Thursday was a decided success as far as the performers' part was concerned but the size of the audience left much to be desired. Had half the number been present that was at the free sports on Labor Day the boys would have been materially helped with their financial burdens, as it was, not much help was received. Wake up Peachland and help the boys.

A very fair-sized audience turned out on Saturday evening to hear Master Wilfrid Small and Mr. Percy Hook and they were repaid for their going as the performance of both the artistes was of a very high order. Wilfred is certainly a marvel with the violin and will surely rank amongst the best exponents of this instrument ere very long. Should they ever visit us again they may be sure of a full house.

The W. M. S. of the Methodist church will hold a public meeting on Wednesday evening in the church. A programme of music and addresses will be given. The leading speaker will be Mrs Snyder of the Chinese Rescue Home, Victoria. All are welcome, collection will be taken in aid of W. M. S.

FATAL ACCIDENT AT NARAMATA.

During a run-away accident on Wednesday morning, John Cameron, gardener with the Trust Co., received fatal injuries. Mr. Cameron was driving along with James Hayward and the horse taking fright he was thrown from the rig, alighting on the top of a stake which caused hemorrhage. Dr. Andrew was immediately summoned but he could only relieved the pain of the sufferer death taking place at 6 p. m.

Mr. Cameron was a respected member of the community, and the Review extends its sympathy to his wife and family in the Old Country.

WON BIG PRIZES.

T. J. Smith's String of Horses Distinguish Themselves at Vancouver.

A private letter from Mr. T. J. Smith states that the stallion Milverton which was in this district all summer, carried off the blue ribbon at the Victoria horse show last week. He was unfortunately entered too late to have a chance against the light horses in the sweepstakes. It is expected that he will try his luck at the New Westminster exhibition.

"Cannie" another member of Mr. Smith's string, captured a red ribbon in the breeding class. In all Mr. Smith captured eight blue ribbons representing cups and prizes and seven red ribbons and other trophies, about twenty in all.

A favorite harness horse "Red Hawk" won the reserve championship.

"Credential" won the high jump, clearing 6ft. 6in. and on Saturday night cleared 7ft. over solid boards, tying with "Foxcatcher" the New York champion owned by Farrell of Seattle. It was midnight when the contest stopped and the tie was left over to be decided later, and the standing will possibly be settled at Seattle during the present week.

Mr. Smith is well known here and his friends congratulate him on his success.

On Wednesday evening under the auspices of the Band, Miss-Pauline Johnson the Mohawk Elocutionist assisted by Mr. M'Crae and Miss Lucy Webbling gave an entertainment in the Empire Hall. Her best character sketches were 'The Englishman' and 'Canadian Born,' both pieces being voiciferously appreciated. Mr. M'Crae's rendering of 'Little Baptiste' was exceptionally fine, and no doubt Drummond's Habitant sketches are his especial line. A fairly good house listened throughout with great interest.

PROPORTIONAL REPRESENTATION.

His Excellency, Earl Grey, will make himself felt in Canadian affairs yet if he keeps on, in spite of that "divinity which doth hedge a king" and his viceregal representative.

It has been generally supposed that to dance well, give elegant dinners and set the social pace in faultless style is about all that should be reasonably expected of Majesty's representative in Ottawa. As for having opinions on public affairs or venturing to express them out loud even if they were possessed, that has been a thing utterly unlooked for in that quarter.

Earl Grey, however, has in more ways than one given evidence of more than a perfunctory interest in Canada and Canadian affairs. He has repeatedly made tours across the continent and when on these tours he has not hesitated to leave the luxurious couches so closely hugged by his predecessors, and mounting a horse, ride over long stretches of the country to see for himself something of Canada's rural life and undeveloped resources. And what is more, he has made it his business to enquire of every likely man with whom he came in contact, how he found conditions and what he considered the possibilities. He has even proposed a temporary change of base for the vice-regal court in order that other cities than the capital might catch a few beams of reflected glory.

Radical as that is however, he has now probably gone farther than that. When last week at a banquet in Nelson, he raised his voice in favor of proportional representation and pleaded its cause in dignified but unmistakeable terms, he ventured to enter the political den of lions and that is an act

which calls for moral courage these days, on the part of a governor-general. It is by gerrymander the politicians hold their prey all too often. Both parties have been addicted to it. It is quite one of the tricks of the trade and by no means to be despised as a means of retaining seats and capturing new ones. A clear majority of eighteen thousand votes has before now found itself roosting in the cool shades of opposition in Canada, while a majority vote of hundreds of thousands has more than once failed to elect a president in the United States.

The system urged by Earl Grey does away with all possibility of anything like that. Every man's vote will count, for he will mark his ballot for the candidates in the order in which he wishes those candidates to be elected. If his ballot is marked first for A, secondly for B and thirdly for C, and A has a simple plurality before his vote is counted and so does not need it, his vote goes to B. If B has a plurality too it goes to C, and so on. No more piling up of big majorities. Every man's vote counts, the best men win and the sentiment of Canada is proportionally represented in parliament.

His Excellency struck out a good line that time when he forgot the vapid effusions customary on such occasions and spoke out like a man and a statesman. Why shouldn't we have proportional representation as he suggests? If it works well in Tasmania and elsewhere, it should work well here, and a little cleaning up in politics wouldn't hurt anybody except those who ought to be hurt. The scheme is well worth threshing out.

WILFRID SMALL'S RECITAL.

On Monday evening last Wilfrid Small, assisted by Percy S. Hook at the piano, gave his second recital in Summerland, and a critical but appreciative audience was delighted with the many and varied selections, the artists being encored time and again. There is no doubt but what there is a great career in store for this youthful violinist and it is with great pleasure that we look forward to his return to this part of the province.

Prof. Hook is a pleasing and clever accompanist and his selections were such as to give him plenty of scope for his unquestionable talents.

The Hon. Wm. Hespeler was unexpectedly called to Winnipeg and left for that city at the beginning of the week.

I. G. G. C. CAMPAIGN.

Rev. and Mrs. A. T. Robinson Leave for Alberta in Interests of Guild.

Rev. A. T. Robinson and Mrs. Robinson left this morning (Saturday) on an extended tour in the interests of the Industrial Guild of the Great Commission, a financial and educational missionary institution of considerable promise. As an application of the reflex or manual training principle, to ethical problems in building up juvenile character, the Guild presents claims worthy of very serious consideration by those who have to do with that kind of responsibility.

Mr. and Mrs. Robinson will lecture on this theme for several nights next week in Vernon before going to Alberta for the winter. The Alberta campaign opens in Westminster Presbyterian church in Edmonton the last Sunday in October, in response to the invitation of the pastor Rev. C. A. Menzies who spent his holidays in Naramata last summer, and it will probably continue all winter through the towns of that province.

The claims of the I. G. G. C. are well known locally, and all who have made a careful study of the matter are fully of the opinion that the problems of finance confronting the churches would be to a large extent met, if the common sense ideas advanced by the Guild were carried out. With such a splendid team of workers as Rev. and Mrs. Robinson, there is no doubt but the enrollment on the books of the Guild will be greatly augmented during the coming months.

Mr. Robinson is without doubt one of the most listenable speakers in the valley and has the excellent faculty of always saying something when he does speak. The I. G. G. C. is entirely his own idea and is simply another instance of his great versatility as a thinker and as a writer.

Mrs. Robinson, nee Miss A. L. Murcutt, is perhaps the leading lady platform orator in Canada, and few there can be in any country with as great ability in her particular line, in any part of the world. The fact that she has considered it worth while to devote her best energies to the I. G. G. C. is another point in its favor. The Review extends best wishes for the success of the coming campaign.

G. H. Wood of Toronto, was in town on a business trip during the past week.

D. W. Elder and Mrs. Elder of North Vancouver, were visitors at the hotel during the past week.

Water Notice.

NOTICE is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Osoyoos Division of Yale District.

(a) The name, address and occupation of the applicant is The Garnett Valley Land Company, Limited.

(b) The name of the lake, stream or source is Island Lake on Aeneas Creek.

(c) The point of diversion is at the outlet of said lake.

(d) The quantity of water applied for is four cubic feet per second.

(e) The character of the proposed works is a dam for storing water, together with pipes, ditches and flumes for facilitating the diversion and distribution of same; the water to follow the natural channel of the said Creek until point of distribution is reached.

(f) A reasonably fair and accurate description of the premises on which the water is to be used is Lot No. 480, Group 1, Osoyoos.

(g) The purposes of the proposed user—Irrigation

(h) If the water be required for the purposes of irrigation, then the area of the land intended to be irrigated described with reasonable particularity is Lot No. 480, containing 160 acres.

(j) The area of the Crown Lands intended to be occupied by the proposed works—forty acres, approximately, area covered by said lake.

(k) This notice was posted on the fifth day of October, 1909, and application will be made to the Commissioner at the city of Vernon, B.C. on the fourth day of November, 1909.

(l) The names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: D. Lloyd Jones, Kelowna, B.C., James Ritchie and Harry Dunsdon, Summerland, B.C.

(m) The name of the applicant company in full is The Garnett Valley Land Company, Limited.

(n) The head office is at Summerland, B.C.

(o) The capital is \$50,000, divided into 5,000 shares of \$10 each, with \$12,000 paid up.

(p) Copy of such parts of the Memorandum of Association as authorize the proposed application and works, (sub-section C of Memorandum of Association), "To develop, acquire, own and hold records of unrecorded water, and to purchase water records and water privileges, and to construct, erect, maintain and operate canals, ditches, aqueducts, raceways, flumes, weirs, wheels, feeders, laterals, reservoirs, dams, lakes, wells, buildings or other erections or works, which may be required in connection with with the improvement and use of the said water and power, or by altering, renewing, extending, improving, repairing or maintaining any such works, or any part thereof, and to conduct, carry on and transfer water to all persons and corporations for irrigation, manufacturing, industrial, mechanical, mining, milling, domestic and stock raising purposes, and also to build and construct storage reservoirs for the collection and storage of water for the purposes before mentioned, with full power and authority to make contracts and agreements for the sale of permanent water rights and carrying water for the purposes aforesaid.

:: Naramata Notes ::

Mr. Percy Hook was a visitor in town for a few hours on Monday.

The Unity Club has decided to give a Hallowe'en party.

Miss Chisholm visited friends in Summerland over Sunday.

W. J. Robinson spent the week end at Naramata with his family.

The assessor, W. S. Wilmot of Vernon, spent a few hours here on Wednesday last.

W. Nuttall and A. Dawson have returned to town after a brief absence.

Mrs. Wm. Weaver returned last week from a visit to the coast.

T. R. Wellband has returned to Vancouver where he is pushing the sale of Naramata property.

R. H. Giboney, formerly of Naramata but now of Kaleden was a visitor in town on Monday.

F. H. Rounds is preparing to make extensive additions to his cottage on his fruit lot east of town.

Mrs. T. R. Wellband and family have moved back to their residence after spending the summer at Rosebud camp.

The new store on Robinson avenue has recently been plastered, adding very much to the appearance of the interior.

Rev. Mr. Follis, the Methodist pastor preached his first sermon in Naramata last Sunday.

W. A. Robinson who recently resumed his studies at Okanagan College, spent Saturday in town.

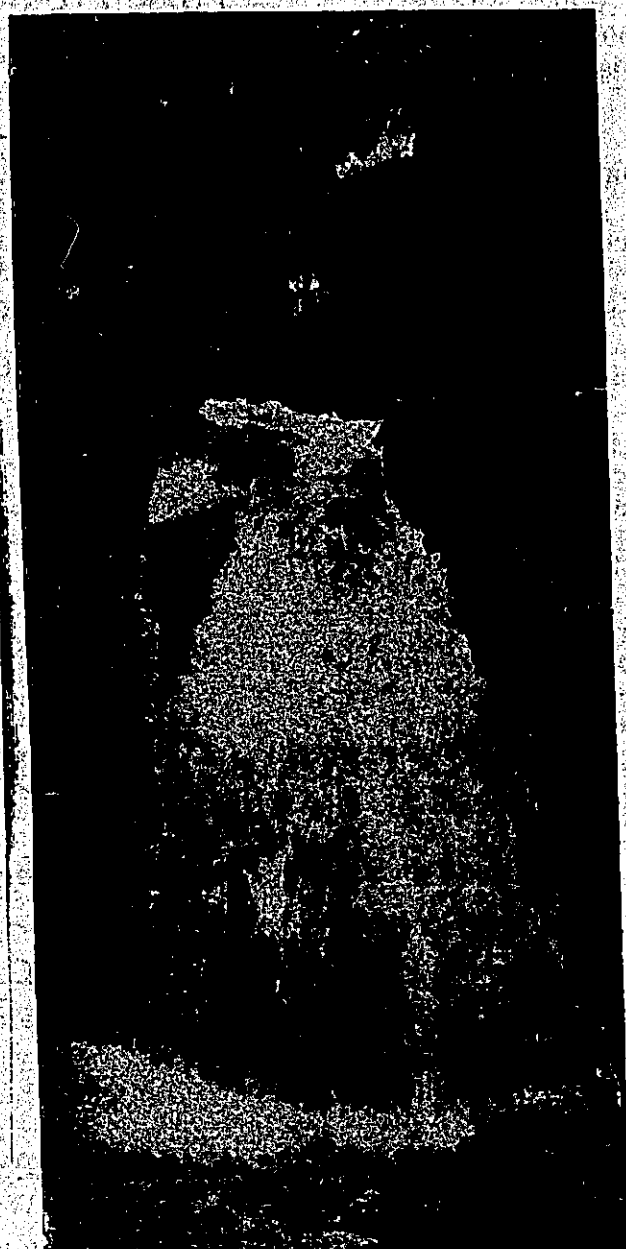

Morley Stock has taken charge of the ranch for the winter for the Summerland Trust Company.

Mrs. F. W. Law and daughter Kathleen after a pleasant summer outing at Naramata, remove this week to Victoria where they reside.

Among the distinguished visitors in town this week were J. Sommerset Aikins of Winnipeg and his friend and business partner, G. A. Muttelbury.

It is altogether likely that the nucleus of a public library will be started in town this fall or winter, but further announcements will be made later.

The Unity Club met on Friday at Mrs. J. M. Robinson's. There was a large and representative attendance, and Mrs. Miller read a report which showed the finances of the organization to be in a flourishing condition.

B. SAUNDERS - SUMMERLAND

\$50 REWARD:

Some conscienceless sneak went through Mark Manchester's musk melon patch a couple of nights ago, swiped the best and plugged the rest. Such an action savors so much of wilful and deliberate malice that it cannot be too severely condemned.

It is sincerely hoped that the seeds of the stolen melons will give the scoundrel a severe attack of spinal melongitis. If it does he can finance the operation by applying to Mark Manchester who offers \$50 reward for information leading to the conviction of the culprit.

Water Notice.

NOTICE is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Osoyoos Division of Yale District.

(a) The name, address and occupation of the applicant is The Garnett Valley Land Company, Limited.

(b) The name of the lake, stream or source is Harrowdene Lake on Aeneas Creek.

(c) The point of diversion is at the outlet of said lake.

(d) The quantity of water applied for is four cubic feet per second.

(e) The character of the proposed works is a dam for storing water, together with pipes, ditches and flumes for facilitating the diversion and distribution of same, the water to follow the natural channel of the said Creek until point of distribution is reached.

(f) A reasonably fair and accurate description of the premises on which the water is to be used is Lots Nos. 1177 and 3195, Group 1, Osoyoos.

(g) The purposes of the proposed user—Irrigation

(h) If the water be required for the purposes of irrigation, then the area of the land intended to be irrigated described with reasonable particularity are Lots Nos. 1177 and 3195, containing 640 acres.

(i) The area of the Crown Lands intended to be occupied by the proposed works—thirty-five acres, approximately, area covered by said lake.

(k) This notice was posted on the fifth day of October, 1909, and application will be made to the Commissioner at the city of Vernon, B.C. on the fourth day of November, 1909.

(l) The names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: D. Lloyd Jones, Kelowna, B.C., James Ritchie and Harry Dunsdon, Summerland, B.C.

(m) The name of the applicant company in full is The Garnett Valley Land Company, Limited.

(n) The head office is at Summerland, B.C.

(o) The capital is \$50,000, divided into 5,000 shares of \$10 each, with \$12,000 paid up.

(p) Copy of such parts of the Memorandum of Association as authorize the proposed application and works, (sub-section, C of Memorandum of Association), "To develop, acquire, own and hold records of unrecorded water, and to purchase water records and water privileges, and to construct, erect, maintain and operate canals, ditches, aqueducts, raceways, flumes, weirs, wheels, feeders, laterals, reservoirs, dams, lakes, wells, buildings or other erections or works, which may be required in connection with the improvement and use of the said water and water power, or by altering, renewing, extending, improving, repairing or maintaining any such works, or any part thereof, and to conduct, carry on and transfer water to all persons and corporations for irrigation, manufacturing, industrial, mechanical, mining, milling, domestic and stock raising purposes, and also to build and construct storage reservoirs for the collection and storage of water for the purposes before mentioned, with full power and authority to make contracts and agreements for the sale of permanent water rights and carrying water for the purposes aforesaid.

COUNCIL STILL BUILDING ROADS

VIGOROUS CAMPAIGN OF ROAD IMPROVEMENT GOES MERRILY ON.

Band is Allowed Additional Grant—Citizens make Petitions—Large Sheaf of Accounts Passed—Several Communications.

There was a full attendance at the regular meeting of the municipal council on Monday last. Communications were received as follows:

From G. H. Nelson, Prairie Valley, re road to his lot; the Gov't Agent at Vernon, re cutting trees on street; P. Thornber re site on lake shore for boat landing; F. J. Nixon and others re road to their lots in sub-division 2-508.

The Finance committee recommended payment of the following accounts:

W. H. Tait, Prairie Valley rd.	\$ 59.75
S'land Drug Co., stationery	1.25
Rifle Ass'n, grant	50.00
S'land Review, printing, stationery	10.65
S'land Fruit Co., cement, Cont. 40	38.50
J. L. Logie, postage	3.00
" salary	50.00
F. A. Ford, work on roads	31.25
H. C. Mellor, Road Com.,	30.60
E. Hunt, work on roads	57.25
G. Barkwell work sidewalk, flume	47.83
H. Harlow, mak'g cement pipes	47.83
Gartrell & Co., charity	5.26
B. H. Sherk, bal. road contracts	109.09
T. B. Young, contracts	156.50
B. H. Sherk, contract	40.00
	<hr/>
	\$750.00

Brown—Gartrell—That the report be adopted. Carried.

Ritchie—Gartrell—That an extra grant of \$10 a month for 5 months be made the Citizens Band. Carried

Ritchie—Thomson—That the time for completion of contract No. 40 be extended two months. Carried.

The Public Works committee reported recommending the acceptance of the following tenders for road contracts:

Cont. No. 11	T. B. Young	\$ 31.75
" 12	" "	66.75
" 13	R. H. English	24.00
" 14	T. B. Young	54.75
" 15	" "	66.75
	(including cement pipe.)	
" 16	T. B. Young	74.75
		<hr/>
		\$306.75

Ritchie—Thomson—That the report be adopted. Carried.

Ritchie—Thompson—That the clerk be instructed to advertise for tenders for the building of a road through sub-division 2, lot 508, from the main road through to lake shore and also for a branch road on College hill. Carried.

Miss Lane who has been a resident of Summerland for a considerable time and has operated a dress making establishment left on Tuesday last for Moosejaw where she will visit for a time. After that she will take charge of a dress making establishment in Calgary.

The Summerland Development Co.
SUMMERLAND. B.C.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition

on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 2

SUMMERLAND, B.C., OCTOBER 16, 1909

No. 63

AFTERMATH OF THE FIRST SHOW

Combined Effort on Part of Fruit Growers Leads to Successful Inauguration of Annual Event.

Difficulties Met and Difficulties to Meet--Splendid Groundwork for Future Successes--Provincial Orchardist Winslow Explains Ideals to Attain in Fruit Culture--High Standard Placed Before the Conscientious Fruit Grower--Omissions Recorded.

Summerland's first annual exhibition is now a thing of the past, and the pace set by the manager, Mr. D. H. Watson was of such a rapid character that it is sincerely hoped that he will be on hand next year to carry on the good work, and follow up his own excellent lead. It is doubtful if anyone else around the district will be daring enough to take on the job.

It was astounding to the workers themselves to find before them an array of 450 entries when their most sanguine expectations led them to hope for about 250 at the outside.

As is natural with a first attempt a few weak spots were located which will be rectified, when there is a longer time taken for preparation (it seems incredible to believe that not more than ten days was consumed in the preparation and consummation of the show idea) better accommodation for the display of exhibits, and the weak spots of this year's effort to work upon, there is no risk what ever in predicting an unqualified success next year.

One of the greatest problems the management will have to face, is that of when to hold the fair so as to secure at one time a representative display of what Summerland can produce. To catch the apple crop one must give the go by to a large extent to peaches, plums and a large variety of other fruits which Summerland can place on the market in lavish quantities. It almost looks, on the face of it, as though two exhibitions would have to be held, in order to cover the district properly.

The only fault the judges had to find with the display was that the apples were too large to be a model marketable product. It must be remembered however that all the apples on the trees are not so huge as the capacity testers on display. The exhibit represented the biggest and bonniest the orchards could produce.

Mr. Ellison who formally opened the show, showed himself to be a bigger and broader man than most. He frankly admitted that he knew of no district in the world which could make such a splendid showing as Summerland has made. He looked back on the day of beginnings with much the same kind of pride [as the father of a once sickly, delicate boy would point to the same lad years later, six feet tall and star tackle of his college Rugby team.

His expressions of unbounded faith were contagious, and with such a team of optimists as Mr. Ellison and Mr. J. M. Robinson, there is no wonder that the Okanagan Valley already looms large in the eyes of the fruit world.

The baby show was one of the leading features of the day, and seldom has such a galaxy of infantile loveliness been congregated in one place at one time. Mr. Ellison was there all through, and gave his admiring moral support to the judges. Had they been in any danger there is no doubt but that he would have been on hand to read the riot act. There are, however, no ladies in Summerland of ultra-suffragette tendencies, and if the judges made mistakes they graciously excused them on the grounds of their extreme youth and ignorance. At

the close of the judging Mr. Ellison undertook to perpetuate the happy thought by offering six cups at the next annual show: three for the finest babies under one year, and three more for those under two. The ladies to appoint the judges. The shape and size of the head to count fifty out of the one hundred points obtainable.

At the evening session of the exhibition Empire Hall was requisitioned. Mr. J. M. Sutherland filled the chair and Mr. R. M. Winslow addressed a large audience, confining his attention mainly to fruit judging and fruit packing.

At the outset he confessed that the show was a great surprise to him. He had not been here since the early days when things were pretty much on the blue side. He had greatly enjoyed taking a look through the district and to note how very little, as compared with other districts, Summerland had suffered from the severe frosts of last winter. The trees had shown marvellous power of recovery. The fruit was better than that to be found in Washington or Oregon and was quite as good as the Hood River output. Therefore there was no reason in the world for any discouragement.

Of the exhibition, in spite of the lack of room and hurried preparation, he spoke very highly. He was sorry that, due probably to careless nurserymen, there had been a few varieties of apples which he had been unable to locate. It was wise to stay by two or three reliable varieties for which there was a good trade demand, and stay with them as nearly as possible. The trade wanted a standard, uniform article in size and quality. At the present time the apples were somewhat too large to make a good dessert apple, as one was really more than the average diner could get away with. He counselled the exhibitors to pay more attention to box exhibits and less to plate exhibits.

The ideal seller was a four tier box of apples. No buyer would take three tier apples when he could get four.

Summerland had, he understood, high ideals morally, and it should be the earnest effort for all to cultivate high ideals along the line of fruit culture. In earlier days the Hood River district had been made up of material similar to that of Summerland.

The Summerland Review

Okanagan Electoral District

There had been a good sprinkling of college men, and they had striven only for the best backed by an excellent co-operative spirit.

Mr. Winslow then took up the matter of apple judging, and called upon the audience to name the qualities to be looked for in a No. 1 apple; the standard size, he said, was 2 1/4 inches in diameter. The enquiries elicited the following answers: color, shape, size, uniformity, shipping possibilities, freedom from blemish, etc.

On no account should a blemished apple be packed. Blemishes embraced abrasions and marks of all descriptions, lack of stem, (the latter because where the stem was torn out it left a place for rot, and one rotten apple would spoil the whole pack). The stem should not be too long, as it was apt to bruise another apple unless packed with greatest care.

About 25 per cent of the total number of points obtainable by a box of apples went to uniformity; therefore watch the size of the product. To illustrate this point Mr. Winslow referred to the fact that a certain district in New Brunswick had captured the potato trade of Ontario, a province which considered that it could not be beaten on the potato question. The secret of the success of the New Brunswickers lay in the fact that their potatoes were of a uniform size and shape and were free from blemishes. The same thing applied to apples or any other fruit. The government inspectors demanded uniform packs and values. Lack of uniformity was at present keeping B. C. out of the running with the better class of American producers. Time, he believed, would fully rectify the difficulty. The time to ship was largely a matter of variety. The best time to ship was when the seeds were just turning a little brown around the edges.

The whole evening was full of interesting and highly instructive matter, and while the attendance was large it is a matter of regret that the hall was not full to overflowing. One thing may be said in favour of the people: distances in Summerland are great, and the majority of the men of the district were in town all the afternoon with their wives and families, and were compelled to take them home at a seasonable hour for the little ones.

Should Mr. Winslow come again it is hoped that the day will not be so full of attractions for the crowd, and so more than full of tiring work for himself.

NOTICE IS HEREBY GIVEN that objections have been filed with me against the following names being retained on the Register of Voters for the Okanagan Electoral District, under the provisions of the "Provincial Elections Act Amendment Act, 1909," viz:—

1	Abbott, Frederick	Vernon, Coldstream Ranch	Labourer

Local News Items.

T. Wanless of Vernon was a visitor in town this week on business.

W. Nichol left on Wednesday last for the coast where he will spend the winter.

H. C. James representing the Pacific Coast Wood Pipe company was a visitor in town this week.

Messrs. G. A. McWilliams and John Tait left on Thursday last for the coast and will take in the big fair at New Westminster.

Miss A. W. McKeigan, of Cleveland, O., was a visitor in town this week, drumming up business for the Saturday Sunset.

The regular meeting of the Women's Hospital Auxiliary will be held on Tuesday next at 3 p.m., in the council chamber.

Work has been temporarily suspended on the Anglican church, pending the arrival of the door and window frames from the coast factory from which they have been ordered.

The regular quarterly business meeting of the Baptist church will be held on Wednesday evening. Important business demands the attendance of every member of the church.

A. T. Gordon a recent arrival from Atbara, Soudan, was a visitor at the hotel this week. He is looking through the interior of B. C., with a view to selecting a choice spot for a home.

The local Masons were visited by their Grand Master, Mr. H. N. Rich, of Ladner, B. C., and Mr. B. F. Boyce, of Kelowna, deputy grand master for this district. A social time was spent in the lodge room following special work.

The flock of geese bought recently by H. Cancellor, from James Gartrell went off on a private exploration tour on Tuesday last. A search party in a couple of row boats located the "swimaways" away beyond Crescent Beach. The procession on the home trip was somewhat amusing. Lest they should take a notion to try the aerial route on their next jaunt, each bird has had a wing abbreviated.

The road building lecture which was to have been delivered on Saturday evening last by Major James Sheppard of Queenston, Ont., under the auspices of the Farmers Institute, was not given for the simple reason there was nobody there to hear. It is hoped that another attempt will be made and that a little more trouble will be taken to advertise the event. Saturday night is however a bad time for holding public meetings.

THE QUESTION WITH YOU IS 'MONEY'

"WHERE SHALL I INVEST TO MAKE THE MOST MONEY?"

Reflect upon this: The people of British Columbia are paying out a million dollars every year for soap.

The demand for LIGHTHOUSE SOAP in less than a year has outgrown the capacity of our factory and we are compelled to build a new one.

For this purpose, the Western Soap Co., Ltd., has been incorporated with a capital of \$250,000, divided in 250,000 shares at \$1 each, of which 100,000 shares are now being taken by the public at par.

WHETHER YOU HAVE MUCH MONEY OR LITTLE

the opportunity is equally good. We issue shares in lots of not less than 50 and not more than 3,000 to any one person, and the terms of payment are: 25 per cent. on application, 25 per cent. on allotment and the balance in calls of not more than 25 per cent. at any one time.

REMEMBER THESE FACTS:

1. Everyone uses and has to use soap.
2. Every additional person who comes into the country increases the demand, the sales and the profits.
3. Every year the value of your company stock increases as the business grows.
4. Every year you get a dividend—a cash return upon the money invested.
5. LIGHTHOUSE SOAP is made by a process which no other company can use—a process which enables the company to manufacture a superior soap at a lower cost than its competitors.
6. The demand for LIGHTHOUSE SOAP is equivalent to about three times the present capacity of our factory to supply.

WE CAN SHOW YOU:

FIRST—a most conservative annual return of 20 per cent. on your investment;

SECOND—where your interest in the exclusive manufacturing process of the Western Soap Co. will increase the value of your stock several hundred per cent. in a few years.

Do not put in any money—simply ask to be shown—then use your own judgment.

WESTERN SOAP CO., LTD.—Vancouver, B.C.

Gentlemen,

Please show me at once the exceptional profits which I can make by purchasing stock in your Company.

Name _____ Address _____

Always address: Western Soap Co. Ltd., Vancouver, B.C.

REMEMBER--'LIGHTHOUSE SOAP MAKES LIGHT HOUSEWORK'

ALEXANDER--BOWLER.

Married at Vernon on Oct. 6, by Rev. Logie McDonnell, Mabel Bowler of West Bridgport, Nottingham, England, to Henry Norman Alexander, formerly of Toronto. After a few days spent in Vernon they will reside in their new home in Peachland.

ANENT CHINESE LAUNDRYMEN.

Editor Review—

Dear Sir,—Suppose a Chinese laundry man were tubercular, and sprinkled the clothes which he was ironing, in the usual Chinese way, that of filling the mouth with water and blowing it over the clothes, What effect would it be likely to have on the wearer of the clothes?

We hear a great deal about the white plague now-a-days, and looking upon the matter from a non-professional standpoint, it seems to me that such a condition of affairs would certainly be a grave menace to the welfare of the general public.

Please understand that I am not making any statements as to the existing condition of things, as I am not a medical man, but I do think the matter is well worthy of the attention of the local health inspector.

ANTI-TUBERCULOSIS.

HOSPITAL NOT FORGOTTEN.

The hospital still looms large in the eyes of the patriotic people of Summerland. The following donations are reported for the past week:

Vegetables, English church; pair of blankets, flowers, Methodist church; fruit, flowers and vegetables, Exhibition. A framed and autographed photograph of himself has also been donated by Hon. W. Hespeler.

ANNUAL RIDE.

Some are asking whether there will be a ride on Thanksgiving day this year. If there is to be, it is high time to get busy and make plans for the afternoon such as will be comprehensible to all.

Last year it will be remembered that the party started like a flock of sheep from the lumber yard, but unlike a flock of sheep, they lost each other. A few coralled the grub baskets and half of the riders spent their time hunting for the other half.

Why not try and arrange an equestrian paper chase by way of a change? Something new is always appreciated.

BOTTLED FRUIT FOR OLD COUNTRY.

G. I. Thornton, the fruit preserving expert has received instructions from the Provincial Department of Agriculture to forward to Mr. Scoot all the jars of fruit which he has ready as Mr. Scoot is to take them along to the various exhibitions in the Old Country.

All the fruit that Mr. Thornton procured at the recent successful show was ready and has been forwarded.

Summerland again.

LOCAL OPTION IN SUMMERLAND.

A public meeting in the interest of Local Option will be held in the Methodist Church on Thursday evening next, the 21st inst. at 8 o'clock, Dr. Sawyer in the chair. There will be addresses given by local speakers and a few musical items.

Miss Marion White, niece of Mrs. R. C. Lipsett, so well and favorably known in Summerland, and who has spent the Summer with her aunt, has gone to Nanton, Alta., on a visit to her cousin. From there she will proceed to her home in Ontario.

News from Peachland

Mr. Geo. S. Tickle has begun work again on the Calahan lot across Trepannier Creek.

Mr. J. L. Vicary attended a stock holders' meeting of the South Okanagan Land Co. in Penticton on Tuesday evening.

Dr. and Mrs. R. C. Lipsett were in town for a couple of days this week visiting friends.

Mrs. (Dr.) C. M. Smith of Summerland has been visiting her Peachland relatives this week.

Rev. J. J. Nixon is also attending the Fair, leaving last Monday; and Mrs. N. S. Davidson Wednesday morning for the same destination.

Mr. R. J. Hogg set out for New Westminster Fair last week. While away he will visit the Fraser Valley Nursery as he is agent for that company, and wishes to personally inspect their stock before offering it for sale.

At the regular meeting of the Council last Tuesday Mr. Norman Pope was appointed pound keeper, with stable and accommodation suitable for the needs of the animals ready for occupancy. Who will be the first to furnish a victim.

Mr. Fred Gasleigh who has been process man in the cannery left Monday morning for South Bend, Indiana, to take charge of a large canning plant for a couple of months. The work there this fall will be putting up pork and beans.

The Johnson-McRay concert in the Orange Hall last Thursday was not very well attended—probably because they have been here two or three times before, and give practically the same programme each time. A guarantee of a change in the programme would no doubt have a beneficial effect on the audience.

Major Shepherd addressed a small audience on Monday evening in the Orange Hall on the subject of Roadmaking. During the day Mr. H. McDougall drove him over some of the new roads of the district and the Major complimented the people on the character of the work and commended the spirit of progress in that every one had voted for road improvement last July when the by-law was submitted.

Mrs. Geo. Mitchell is giving a concert on Tuesday, October 19th, which should draw a good house. All the selections will be

old, but the cream of old acquaintances will be met there. One of the features of the programme will be the singing of The Holy City by Mrs. Mitchell, while a company of twelve pretty girls suitably dressed will be on the platform, and by motions, etc., act the different scenes of the song. No regular charge will be made, but a collection at the door will go to a missionary project in which Mrs. Mitchell is interested.

China Painting. Mrs. Thos. R. Wellband of Naramata will take orders for holiday work. A large stock of white china will be found in her studio. A class in Summerland may be arranged for.

HARNESSING THE WIND.

He would be a wise man who could make even a half decent guess as to the latent wealth of nature. Earth and sky and sea are full of possibilities if we could but tap them. The ocean, for instance, is rich in gold and marketable commodities. It is said that one cubic mile of sea water contains millions of dollars worth of gold, sodium chloride, magnesium, and other marketable commodities, the gold alone held in solution running over a million to the cubic mile. As yet happily no profitable way of extracting these valuables has been found. When that time comes gold will probably cease to be the standard of values in commerce, and some rarer commodity will have to be found to take its place.

Another vast field that is not yet profitably exploited, except for transportation, is the air. The vagrant winds of heaven have been like the ordinary household dog, too often felt to be quite a superfluity. It is true they have purified the air, have carried thousands on their way, and dispelled the miasmas of the swamps, but at the same time they have hindered the progress of millions of querulous pedestrians, dried out the tilled land of the farmer, scattered or ripped up the white, fluttering trophies of his wife's wash day, and played other pranks upon our poor, heavy going humanity without giving us a chance to have back at them.

But of late we have been scoring several times. There is oxygen enough in those vagrant winds to fire all the furnaces of the world and melt them with fervent heat. We have been getting a little of it in our laboratories. There is nitrogen enough in

the air to fertilize and make highly productive all the arid saharas on the planet. Man has lately succeeded in bottling it up for commercial purposes and selling it at so much per. Now comes the cheering bit of news that the strength of the wind, as well as its constituent elements, is to be harnessed to do our bidding.

It is a windmill of course, and of course there have been windmills since long before Cæsar was a yearling, but the trouble with their motive power, the wind, has been that it was too fitful in action. Men couldn't be bothered waiting for it. It generated tremendous energy but there has been no way of storing up that energy for steady, even use, such as is required in running machinery. The wind would drive an electrical generator, but the trouble was that the generator has to be driven at a steady speed, while the wind has a high variation. Winds going from 14 to 25 miles an hour could be utilized, but as these were only a small fraction of the yearly blow, the machinery did not make enough to pay for the time it was idle.

On the other hand the wind rate could not be controlled. Now, however, we have the glad tidings that a firm of London engineers has succeeded in reconciling wind, wheel and generator. There is the usual tower, and a wind wheel or turbine. A belt connects the generator. The output of the generator and therefore the generator's resistance to being driven by the turbine is automatically proportioned to the power exerted by the wheel at the moment, and for high winds this device is further strengthened by another device which, by its control of the wheel and tails of the mill, makes it automatically refuse to receive more power, however strong the gale, than the generator below is able to carry. Ball bearings in oil reduce the friction and make very light winds available. The plant, which costs \$750 in the Old Country when installed with a 24 ft. wheel, it is claimed, generates enough electricity to light a fair sized country house, charge the batteries for motor car and launch, provide current for electric cooking and electric lift, besides furnishing power for sawing wood, pumping water, grinding corn, and running the dairy machinery and sewing and other machines in the house. Larger plants will run flour mills, and pumping and lighting plants for mines.

Of course it would be rather awkward to have no light, no lift and no fire because the wind did not happen along, but doubtless that difficulty will be overcome by having storage batteries—or by utilizing some of the political, theological or social wind now going to waste.

WINNERS OF SPECIAL PRIZES

C. J. THOMPSON WINS SPECIAL AWARD FOR LARGEST NUMBER OF PRIZES.

Summerland Ranchers Win Well Earned Recognition for Faithful Labor—Messrs. Stuart and Agur Tie in Plate Exhibit Series.

The most coveted trophy at the recent exhibition, the special prize offered by the Summerland Supply Company to the exhibitor winning the greatest number of prizes, was captured by Mr. C. J. Thomson, and his home will hereafter be adorned by a handsome ladies secretaire. As a matter of fact, Mr. Thomson and Mr. J. Tait tied in the number of prizes won, each capturing thirteen. Mr. Thomson however won the greatest number of firsts. Mr. Tait said, however, in his usual good-natured way "Charlie can have the prize anyhow for I sold him the trees from the Layritz."

Taking the prizes in the order named in the catalogue, the winners were as follows in the special series:

Special for best apple pack, Class II—C. J. Thomson.

Special for greatest number of prizes in Class II—C. J. Thomson.

Special for greatest number of prizes in Class IV, plates of apples—Tie between R. H. Agur and A. Stuart.

Special in pot plants—John Tait.

Special in cut flowers—John Tait.

Special for best bird in poultry section—Mrs. Bentley.

In the great rush occasioned by the exhibition coming the day before publication a few errors of omission and commission occurred which are here rectified. In the poultry section White Leghorn class, A. B. Elliott took 1st for pen and 1st for pullet instead of J. M. Sutherland. In the Apple class, Fred Anderson won a first with a plate of Westfield's Seek-no-further.

LOCAL OPTION CONVENTION.

At Vernon, on Tuesday October 26th, there will be a Local Option Convention and the great moral question now agitating the province will be discussed. A strong programme is being arranged and many prominent speakers will be present. The convention will commence at 2 p.m. and will last one day.

VAUGHAN & MOORE, GROCERS, ETC.

:: Naramata Notes ::

W. Kearns, representing the Vernon News was in town on Monday on business in connection with his paper.

J. A. Kirk has completed his survey of the extension to the road north of us, and has returned to his home in Summerland.

Mrs. Caldwell, proprietor of the ladies' fancy goods store, has removed her stock to the building across the street adjoining the butcher shop.

The infant daughter of Mr. and Mrs. J. C. Williams died on Monday. The funeral service took place the following day, Mrs. Gillespie officiating.

Prof. Wilkinson of Kelowna was in town over Monday night looking after his business interests here. The first five acre choice in the second sub-division belongs to him. The lot was planted this year and the trees are in fine shape.

Mrs. George Wolstencroft returned from England last Friday evening, after an absence of five months. A pleasing incident on the return trip was the marriage of her travelling companion Miss M. Bowler, at Vernon, to Mr. Norman Alexander.

Through the thoughtful kindness of Mr. J. M. Robinson the school children were given an opportunity to get across the lake to see the fruit exhibit at Summerland on the afternoon of October 7th. The Maud Moore was chartered for the occasion and a big crowd took in the show.

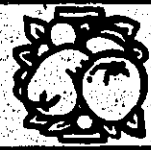

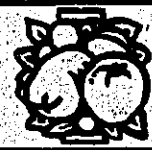

The funeral service of the late John Cameron who died here last Wednesday week as a result of injuries received in a runaway accident, was held at the Nurses Cottage on Friday afternoon, Rev. Jas. Hood, assisted by Mrs. Gillespie, officiating.

Rev. G. O. Fallis of Penticton preached in the opera house last Sabbath to a fairly large and representative audience, basing his remarks on these words: I am come that ye might have life, and that ye might have it more abundantly; his subject being The Abundant Life, or The Life Extraordinary. Service next Sunday at the usual hour, ten o'clock.

Mr. C. S. Stevens of Summerland, representing the Gov. Telephone Service, took a trip to Naramata last Monday round by Penticton of course, with a view toward extending the line from the latter town, and thus putting us in touch with the outside world. May the work soon be undertaken is the wish of everyone here.

The Methodist ladies will conduct a sale of home made cookery in the Men's club building on Saturday Oct. 23.

The Rev. W. M. Rochester will address an audience in the Methodist church on Tuesday evening next, in the interests of the Lord's Day Alliance.

The Harvest Home service in the Methodist church last Sunday was a complete success. The church was beautifully decorated with fruit, flowers and vegetables.

A meeting of the congregation of the Presbyterian church will be held on Monday evening at 8 o'clock for the purpose of making the final arrangements for the new church building.

The Grand Master of the Oddfellows of B. C., is expected in Summerland on Oct. 26th. He will visit the local lodge in his official capacity, and the attendance of all brethren is requested.

Dressmaking will be carried on during the coming season by Miss Greenly in the rooms over the Fruit Company's store and satisfaction is guaranteed. Millinery trimming also. Ladies' own material used when desired.

Last Wednesday night in the Methodist church, Mrs. Snyder of the Chinese Rescue Home, Victoria, gave a splendid address to an interested audience on her work in the Home. The Methodist choir contributed greatly to the evening's enjoyment.

The first football match of the season was played on the College Campus, between the public schools and the College juniors. The game was a particularly good one as may be gathered from the fact that neither side scored during the game.

MATTER FOR MEDITATION.

Lighthouse Soap Makers Place Stock on the Market and Invite Investigation.

In another section of this issue will be found an advertisement for the Western Soap Company, of Vancouver, inviting enquiry.

It appears that in order to meet the growing demands of their business they have incorporated a joint stock company, with a capitalization of \$250,000, issued in 250,000 shares of \$1.00 each.

One hundred thousand of these shares are now on the market at par.

FINE NEW LAUNCH.

The Okanagan Lake Boat Company recently turned out what they consider to be the finest launch ever built by them. The new craft is called the Greybird. It is of the pointed torpedo stern type, 22 ft. 6inc. long with a 5ft. 8inc. beam, and a speed of a little over 8 miles per hour.

The keel, ribs, etc. are all of the best oak and the planking is of pine, the decks being laid yacht fashion. The engine is a two cylinder 5-7 h.p. Fairbanks Morse, and is installed a little forward amidships, being enclosed in cedar engine house. The boat runs silently and is a credit to the builders.

CORRESPONDENCE.

We do not hold ourselves responsible for opinions expressed by correspondents.—Ed.

EDITOR REVIEW:

Dear Sir—As the new pamphlet is now issued it is necessary for us to take such steps towards its distribution as will ensure the number of copies we have on hand doing the greatest amount of good.

There are several ways in which all residents may help in this matter: one of these is for each of us to send a copy to the editor of the local paper at home, or at the place at which we last lived, with a personal letter; this, owing to the well-known courtesy of editors in general, should lead to a fair share of publicity.

Those knowing hotel proprietors at good central points might send them a few copies, asking them to distribute same where they would do the most good.

There are a number of other ways in which the books can be distributed to advantage, and all who can help either with suggestions or in the way of distribution can obtain copies of the pamphlet and envelopes from the Secretary.

This applies to you personally, so kindly start at once.

Yours truly,

CHAS. H. CORDY,

Sec.-Treas. Board of Trade.

TOURING C.P.R. OFFICIALS.

A distinguished party of C.P.R. Officials passed through Summerland on Wednesday last on an official tour of inspection of the company's lines west of Port Arthur. They came in from Keremeos by stage after having been along the Crow's Nest Line. At Penticton they were met by the good ship Aberdeen and conveyed to the Landing, only making a stay of about 10 minutes at the local wharf.

The party embraced G. J. Beasley, general manager west of Port Arthur; F. F. Busted, General Superintendent; Capt. Gore, Superintendent of Lake and River Steamers; R. M. Matheson, K.C., Company's Solicitor; and a staff of stenographers.

LEADER WILLIAMS HONORED.

The members of the Summerland Brass and Reed band honored their late leader Mr. Dan Williams, recently, by presenting him with a handsome silver tea service and china salad bowl. Mr. Williams had for a long time led the band gratuitously and had been particularly faithful and efficient in the discharge of his duties, thus making the presentation a very graceful and becoming act. His removal to Penticton is a distinct loss to the band and to the district. The letter which accompanied the gifts reads as follows:

Presented to Cond. Dan Williams by the Summerland Brass and Reed band. We hope that both you and Mrs. Williams may live to drink many happy cups of tea from this little set, and when it becomes too battered, why place it on the shelf and when you look at it, think of the good old days in the band room when we tried to play on our little harps to the roll of the drum as played by - - -

Once more wishing you all success in your new place of abode

On behalf of the band

BORTON.

The Methodists will hold a congregational gathering in the Mens' club room on the evening of Thanksgiving day.

Mr. J. T. Graves of Winnipeg is visiting in Summerland and is thinking seriously of making it his home.

Mr. Forbes, chief despatcher for the C. P. R. at Calgary has been visiting at Naramata this week, looking over the property owned by himself and his brother. Together they have 20 acres of choice land across the lake.

Word has been received that Dr. R. H. Robertson, formerly of Peachland, who has been practising his old profession of dentistry at Brandon for some months past was, at the present time in the Portage la Prairie hospital, suffering from a severe attack of typhoid fever.

Capt. Webb, one of the latest arrivals in the district is preparing to erect a sectional house on his property here. The Captain spent a great many years on the Malay Peninsular, operating a rubber plantation. He proposes hereafter to grow a more delectable quality than rubber. He is bringing in a car load of furniture and hopes to have his family installed.

DON'T BE A Landless Man

Invest your money in the Solid Earth. Get a Fruit Lot. Summerland has a Future. Your Fruit Lot will grow in value while you sleep. Consider what it will be worth ten years from now even if you never get enough ahead to improve it, and Buy Now.

Lots at \$100 per acre on easy terms of payment. For further particulars write or call on

The Summerland Development Co.

SUMMERLAND. B.C.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU?
If it does write us and we will only be too glad to give you all the desired information

No. 64

FINE ADDRESS ON SABBATH QUESTION

REV. W. M. ROCHESTER TELLS OF WORK OF GROWING ORGANIZATION.

The Alliance has Freed Thousands of Workmen from Working seven Days a Week--Aim--To Preserve Lord's Day Observance.

On Tuesday evening in the Methodist church, Rev. W. M. Rochester, Western Secretary for the Lord's Day Alliance, delivered an address on the work being done by that body throughout Canada, and emphasized the importance of a proper observance of one day in seven.

Said he "This is not a personal, local, or domestic question, but a great national question as it effects the life of the nation.

The idea has gone abroad that the Sabbath was made for the church, and it is the church's business to see that it is observed. The bible says 'The Sabbath was made for man.' The great object is the well-being of humanity. The Alliance is not concerned about church attendance, important even as that may be, but about the physical, social and moral life of the people.

This is not an ecclesiastical law, but just a great natural law that has existed from the beginning. The cause of the Sabbath may have come from the Bible, but came also from man, and his needs.' The speaker used an illustration of a one day clock and an 8 day clock, and showed how each should be treated if men are to get the best results. Said he "Man is built on the seven day plan, and must be true to the plan on which he is built, in order to get the best results physically, mentally and spiritually."

'The church uses this day; the business of the church is not to propagate religion but by religion to reach men, so the business or mission of the Sabbath is to make men. Then if the Sunday law is a natural law it is the natural right of all the people to enjoy, and not of any particular class. It ought to be possible for all men to use the day as he feels is best for him so to do, in the park, by the lakeshore, by his own fire-side, or in any way that will help him and not interfere with the rights of another.

Since the Lord's Day Alliance began its work 85,000 workmen have been given their Sunday who did not have it before.'

Reference was made to the attempt to play professional baseball in North Vancouver. A deputation waited on the Premier with the result that the Attorney General consented to permit prosecution in case action should be taken against the promoters of the scheme. This stopped Sunday baseball on the Canadian coast (western). The law says there shall not be a professional game for money. It took three years of hard work to get that law.

In pressing upon the people the necessity of observing the day, the idea of the good to be obtained should be kept paramount instead of the punishment. It is not a case of depriving of liberty but of securing liberty for the people and particularly the toiling multitude.

The act is in force at present all over Canada, mark that, and the Attorney General in B.C. must give some good reason for refusing to permit a prosecution when such is sought by the people.

The work of educating the people is going on. Over three quarters of a million of copies of the act have been distributed. The people are urged to refrain from forcing work on others. Special mention was made of the habit of mailing letters on Sunday and forcing extra labor upon those in Post Offices.

Mr. Rochester gave a splendid address to a delighted audience, and at the close a number of people joined the local branch of the Alliance, of which Mr. J. L. Logie is pres. and Mr. H. C. Mellor sec.-treas.

SUCCESSFUL EXHIBITION.

The actual attendance at the provincial exhibition held at New Westminster during the past week was 44,143, while the gate receipts amounted to \$12,607. While the financial statement for the fair cannot be completed for some time, it is expected that there will be a small balance after all accounts are settled.

The receipts for the present year are but \$200 short of last year's figures, but to offset this the expenses are considerably less.

The attendance this year was about 6000 less than last year, but this large difference is accounted for principally by the use of coupon membership and children's tickets during the fair just closed.—Daily News.

WILL SPEAK ON DOMESTIC SCIENCE

MISS LAURA ROSE OF GUELPH WILL ADDRESS MATRONS AND MAIDENS.

Mr. B. Hoy will Speak on Horticultural Subjects and Give Public Demonstration of Pruning and Fruit Packing.

A meeting which should be of particular interest to all the people of Summerland will be held in connection with the Farmers' Institute, on Monday evening, Nov. 1, at which Miss Laura Rose, of Guelph, Ont., will lecture on Domestic Science and Women's Institutes. Mr. B. Hoy will lecture on horticultural subjects.

It is also expected that Mr. Hoy will hold some practical demonstrations in pruning and fruit packing both of which are vital questions with fruit growers and should be exceedingly interesting.

All interested are requested to remember the date and make a strenuous effort to be present. The place of meeting will be announced later.

BROKE HIS ARM.

Thomas Washington who has been for some time past in the employ of H. C. Mellor sustained a broken arm a few days ago while lifting potatoes into a wagon.

He worked along in considerable pain for a couple of days before going to the doctor. He will be laid off work for several weeks.

MARRIED IN VANCOUVER.

Word has reached town of the marriage in Vancouver, of Alex. Grieve, until recently of Summerland to Miss Polly Howell who was also for some time a resident of Summerland.

The young couple were married in the First Baptist Church, Vancouver, by Rev. Dr. Perry. The young couple, who will make their home in Vancouver, are the recipients of the best wishes of their friends and acquaintances in Summerland.

The Summerland Review

Annual Round-up.

Okanagan Electoral District

Put on yer derved old chapps 'n things
'N mount yer fat cayuse
Jus watch the old grub wagon folk
'N ride jest like ther deuce.

The Committee for the Round-up on Thanksgiving Day has issued a high-arty invitation, and if perchance you haven't received one, don't bother your head but come all the same, as it ain't no invitation affair at all; the invites was only printed cos the committee (same old bunch) had a bit o' dough to blow in.

Ladies, charitably inclined, and willing to donate sandwiches and other goodies, are requested to leave the same with J. W. S. Logie, town at 10 o'clock or at the Lumber yard at eleven. Any grub that is left over after Jack is through will be conveyed to the entrance of Meadow Valley, and will be ready for the delectation of the "busters" at two o'clock sharp.

LOCAL OPTION MEETING.

A meeting in the interests of Local Option, was held in the Methodist church on Thursday evening last. The audience was unfortunately very small. Perhaps however the people of Summerland are so well posted on the question, and so satisfied that Local Option is desirable, that they considered it unnecessary to attend the meeting.

The chair was occupied by Rev. Dr. Sawyer and the chief speaker was Mr. C. S. Stevens who spoke at considerable length and showed himself to be well posted on the subject under discussion.

It is expected that Summerland will be well represented at the coming local option convention which is to be held at Vernon.

AN APPRECIATION.

Appreciation now and then is relished by the best of men, therefore we publish the following without a single blush:

"I have been receiving and enjoying your paper for some time, and thinking the benefits should not continue all on one side, I am sending you express order for \$4.00.

"I trust this will carry me until I seek your acquaintance at closer range, as I have purchased a property in your vicinity and hope soon to be making my home in your highly favored district."

Yours respectfully,

X. Y. Z.

NOTICE IS HEREBY GIVEN that objections have been filed with me against the following names being retained on the Register of Voters for the Okanagan Electoral District, under the provisions of the "Provincial Elections Act Amendment Act, 1909," viz:—

1	Abbott, Frederick	Vernon, Coldstream Ranch	Labourer
4	Adams, Harold Albert	Okanagan Landing, Adam's Farm	Farmer
7	Adams, Wilfred	Okanagan Landing, Adam's Farm	Farmer
59	Anderson, Albert Main	Vernon, Greenhow's Ranch	Labourer
68	Anderson, James	Vernon, Vernon Hotel	Labourer
96	Ashe, Sidney R.	Vernon, Seventh Street	Jeweller
120	Bagnall, William Aubrey	Vernon, Barnard Avenue	Chemist

INSPECT WESTERN FORESTS.

Official Inspectors travel through timber belts of Western Canada, and report.

Mr. A. Knetchel, inspector of Dominion forest reserves, and R. H. Campbell, Dominion superintendent of forestry, have reached Winnipeg from the west. Mr. Knetchel has been in the west since April 1st on matters connected with his department. He has just returned from the Cypress hills, where, the department is considering an addition to the existing forest reserve, which now covers half a township. Experimental work is being done on the reserve with a view to encouraging the growth of young trees and also in the direction of keeping the forests clean and lessening the danger from fire.

During the summer Mr. Knetchel made a trip along the eastern slope of the Rockies from High River to the Crow's Nest Pass with saddle horses. A large amount of dead timber was found along the trails. This is a prolific source of forest fires and one which the department is studying with a view to taking preventive measures. Mr. Knetchel is returning immediately to the west.

FAVORS DR. COOK.

The father of Knud Rasmussen has received a letter from his son, who lived for many years among the Esquimos and speaks the language perfectly. In the letter Mr. Rasmussen says he will arrive at Copenhagen from Greenland shortly, bringing conclusive evidence in favor of Dr. Cook against Commander Peary.

TELEPHONE V. TELEGRAPH.

In a few weeks the Canadian Pacific Railway will have telephonic connection between Brandon and Sudbury, a distance of over 1100 miles. Plans are now being prepared by the company to have a line built from Winnipeg to Fort William which will complete the connection. The line between Cartier and Port Arthur is now completed, and this week the line from Brandon to Winnipeg will be in working order. Plans are also being made for a line from Medicine Hat west.

The ladies of the Hospital Auxiliary wish to intimate that donations of vegetables will be particularly acceptable at the hospital. The good people of Summerland will please take notice, and when lifting their winter vegetable crop, set apart a few sacks towards lining the hospital cellar.

Local News Items.

Mr. George Batho, of Winnipeg, editor of the Nor' West Farmer spent a few days in Summerland this week looking over his property and visiting at the homes of friends. Mr. Batho has property both in Garnett Valley and on the Flat.

Mr. Harrison who with Mrs. Harrison, son and daughter has been a guest at the hotel for the past few weeks, has purchased property at Kaleden and is building a house there. As soon as the house is finished the family will make their home there.

Mr. and Mrs. H. Schaeffer, of St. John, N. B., were visitors in Summerland this week. They were met at the landing by their son, K. C. Schaeffer who has been living here for some time. Mr. Schaeffer is in the employ of the Intercolonial Railway and is an old friend of Mr. J. J. Wallace and Mr. J. F. Faulkner of this place.

The Summerland Drug Company is adding jewelry to its stock and is also extending its premises. Scott's stock of jewelry has been purchased, and in order to meet the demands for space, the store recently occupied by the milliners has been requisitioned and will hereafter be the headquarters for stationery and jewellery, with Mr. Hogg in charge. J. W. S. Logie will stay with the drug store.

Mr. A. B. Elliott has made a start on the work of fitting up the proposed new lodge room above his store. As a preliminary he is at present putting down the foundation for a 20-foot extension at the rear of his place of business. The lower portion of the annex will supplement the store accommodation, while the upper section will be fitted up as ante rooms for the crafts. The work will be completed and the lodge room ready for occupancy in about a month.

Coyotes are becoming particularly bold in certain sections of the community and people are seeing their poultry whisked out of the barn yard, without being able to stop the depredation. The coyotes of course are always wise enough to time their visits so that the boss is not around with the gun handy. Two footed coyotes are also getting in their dirty work, and one morning recently the Chinaman awoke to find his hen roost had been deprived of half a dozen birds. As an interesting co-incidence it is rumored that a Chinese class is to be organized for the purpose of teaching the yellow brother to love his enemies.

Weather Report

Abstract from weather records for September, 1909, kept at the Government Station, Balcomo Ranch, Summerland, B.C.

The Summerland Review

News from Peachland

Mr. H. Hardy spent Thursday in Kelowna on a business trip.

The Orillia took away the last boom of piles for the Penticton bridge on Thursday of this week.

In the absence of Rev. Mr. Nixon, Mr. S. F. Callender occupied the pulpit for the Methodists on Sunday evening.

Rev. R. M. Rochester addressed a meeting in the Presbyterian church Tuesday evening in the interests of the Lord's Day Alliance.

Mr. Geo. Sutherland of Kelowna has about completed the plastering of Mr. J. L. Elliott's cement block house and has made a very fine job of it.

Mrs. Geo. Mitchell was unfortunate enough to badly scald her fore arm with steam. Had it only been further down towards the fingers George would probably have had to wash the dishes for a week or two.

Tuesday evening saw the return of those who had been attending the New Westminster fair. Rev. J. J. Nixon, Mr. Grant Lang, Mr. and Mrs. Morrin and Miss Leone Morrison comprised the Peachland contingent.

Mr. B. S. Brown made his last shipment of "kicknies" for the season last Monday. It has been one of the heaviest runs known around here, and Mr. Brown has sent several tons to points in the north western provinces.

The trench for the water pipes for the domestic and fire protection systems, is about completed and work will now be pushed in the canon to try to get the dam in and the pipe all laid before cold weather sets in.

A mass meeting was held in the Orange Hall at the conclusion of the evening service on Sunday last to appoint delegates to the Local Option League Convention to be held in Vernon on the 26 inst. The following were appointed delegates, Messrs. R. J. Hogg, W. A. Lang, L. D. McCall, Revs. C. W. Whyte and T. N. Ritchie, C. G. Elliott, H. McDougall, T. Elliott, Chas. Young, J. Urquhart, A. E. Nash, W. J. Garraway and Mrs. J. Robinson. While it is not expected that all these will find it convenient to attend, it is hoped that a goodly number will be present from our branch of the League.

LOCAL OPTION.

A Local Option convention is called for in Vernon on Oct. 26th. The ground represented will be the Okanagan district and the delegates will consider ways and means of making ready for the plebiscite which the government has promised to take at some reasonably early date. As there are rumors of a general election this fall, the local option people are getting busy in order to be prepared for action, should the battle close around them.

This convention will no doubt do good in arousing interest in the issues at stake, but, if we mistake not it would have done much more good if it had been called earlier. Many a stray vote might have been got on the list by that careful attention to detail which has characterized our most successful politicians. However, the fact that local option has nothing to do with party politics has its meaning. Both parties have been adding names for their own benefit, and those names by a vigorous campaign of enlightenment, can be made to count for local autonomy.

There can be no question about the right of the cause for which local option delegates are tooting. If it were a matter of prohibition of the liquor traffic, local or general, there might be some who would find grounds of disagreement; but how any free man can refuse to vote for local option we fail to understand. The right of local control of local affairs has too long been conceded in principle and established in practice to need discussion here. The presence of a licensed bar in any community is a peculiarly local affair. Why then should not the question as to whether any community shall, or shall not have a bar, be left wholly

to the people of that community to decide? Whose business is it outside? and by what right does any power outside presume to thrust a thing undesired upon the people of any district?

The local option leaders have been politic in their demands. They do not ask for the suppression of the liquor traffic either here or elsewhere: they ask that we shall have the power to say "yes" or "no;" that is, that we be given freedom to mind our own business, leaving other people free to mind theirs.

How any man can refuse to vote for such a reasonable request from the government is more than we can see. To refuse to do looks like treason to local interests and that fundamental principle of liberty which has made the Anglo-Saxon peoples feared. Did local autonomy interfere with the rights of the province as a whole, there might be difference of opinion as to right of demand for local option, but since the question is essentially local and for that matter, almost personal, it does not appear that outside powers should by any indirection circumscribe our liberty to have, or not to have as may seem to us good.

The government of this province is a government of the people, by the people and for the people, and it will do the will of the people in due course: only that will must be clearly and unmistakably registered in the only way governments are authorized to recognize, viz., the little white ballots that count in a court of law. All else is wind and idle, so if the people want local power to handle the local liquor traffic it is up to them to furnish the government a good, clear warrant for the action.

GONE TO PENTICTON.

Mr. Dan Williams was in town this week packing up his household goods and superintending their removal to Penticton whither he has now removed in company with Mrs. Williams and daughter.

Both Mr. and Mrs. Williams will be very much missed in Summerland as they have always been mixed up with the various musical and other organizations of the district. The best of wishes follow them to their new home in Penticton.

Advices from Ottawa state that J. A. MacDonald, K. C., who has hitherto been recognized as the leader of the Liberal party in B. C., has resigned that office in order to accept a judgeship. Fighting John Oliver, of Delta has assumed the leadership of the provincial Opposition.

Local News Items.

Mr. Hugh Walton returned home on Wednesday from the coast.

An addition is being made to the rear of the Summerland Supply Company's plumbing and tinsmithing department.

Chas. Koehler, of Guelph, Ont., is a visitor in town and may make his home in Summerland.

Rev. Mr. Thompson, Presbyterian minister at Kelowna was a visitor in town this week.

The excursionists to the Provincial Exhibition at New Westminster returned home on Wednesday night. They all report a good time.

On Monday evening, a gathering of the Methodist congregation will be held for the purpose of social intercourse and to get the members better acquainted. The proposed dinner has been called off.

The Ladies' Aid of the Methodist church will conduct a sale of cooking in the Summerland Fruit Co.'s store on Saturday afternoon. Tea and cake will also be served. Here is a chance to secure Thanksgiving fare.

On Tuesday, Oct. 26th, Mrs. Wellband will be glad to meet any that are interested in or desire to enter a china painting class at the residence of Mrs. A. L. Moreland, from 10 a.m. till 4 p.m.

It is expected that basket ball practice will commence at the Men's club this week. A number of young men in town are keen for the sport and there is no reason why a couple of crack teams should not be in the field this winter. How about a ladies basket ball team?

Rev. F. W. Auvache occupied the pulpit of the Peachland Baptist church on Sunday last after having attended a meeting of the Baptist Home Mission board in Vernon last week. After a brief stay in Summerland as the guest of Mr. James Ritchie he took a trip out to Kaleden, returning up the lake on his way home on Wednesday's boat.

A meeting of the members of the Fruit Growers Association is being called by the Secretary, G. W. McLaren, which will be held on the evening of Saturday, Oct. 30, at the hour of 7:30 for the purpose of winding up the business in connection with the recent exhibition and attending to other matters of importance to the association.

:: Naramata Notes ::

Mr. Carroll Aikins returned to town on Monday evening from a business trip in the Kootenay.

The work of levelling the grounds in the vicinity of the new hotel site is being pushed toward completion.

Mr. R. T. Heselwood of Kelowna, representing the Albany Nurseries was here on Tuesday last for a few hours on business in connection with his firm.

Mr. C. E. Craig, superintendent of the Niblock Fruit Lots is having a large and substantial stable built on Mr. Niblock's property.

A good-sized addition is being built to Mr. Fred Manchester's Cottage. The work is being done by Messrs. Dawson and McKay.

Mr. W. Joint, a prosperous Manitoba farmer on his way home from the A.Y.P. Exposition spent a day in town last week. He is most favorably impressed with the whole of the valley, and with our township in particular.

Two additional families have moved up to their fruit lots: These are Mr. and Mrs. R. H. King who have been tenting on the lake shore since last spring, and Mr. and Mrs. F. H. Rounds, late of Battle Creek, Mich., who have recently completed a fine addition to their home on the benches.

The Unity Club met in regular session last Friday afternoon at the home of Mrs. Languedoc, on Mill Creek, and an enjoyable hour was spent. The chief topic of discussion was the Hallowe'en party which is to be held on Monday evening, Nov. 1st., arrangements for which were made. Every one in the place is invited to this party and is expected to contribute his share of fun—real genuine fun. A collection will be taken to cover the expenses.

SUCCESSFUL CONCERT AT PEACHLAND

Mrs. Mitchell's concert Tuesday evening was a decided success from all standpoints, a large audience, a good programme and the tidy sum of \$18.30 taken at the door. Mrs. Mitchell is to be congratulated upon the success of the evening, especially with the beautiful rendering of the Holy City, while nine pretty maidens dressed in white acted the scenes of the song in a manner which reflected great credit upon their trainer, Mrs. Mitchell, and brought a great burst of applause from the audience.

Local News Items.

Mrs. A. A. Wright, of Renfrew, Ont., who has been visiting her sons here, returned home on Tuesday.

Mr. G. W. Nelson, a recent arrival from Glasgow, Scotland, has purchased land at Kaleden, and proposes making his home in the new settlement.

Col. Cartwright and R. H. English were passengers to Vernon on Wednesday, both having been subpoenaed in connection with the assizes.

While at the coast Jack Tait made a visit to the Layritz Nurseries in Victoria which firm he represents, and was quite pleased to find the stock in such fine condition.

The pulpit of the Baptist church, both at Parkdale and at the Front will be occupied on Sunday by Mr. Wilbur Watson, the Rev. H. G. Estabrook occupying the pulpit at Peachland.

Dr. C. M. Smith has presided to the library in connection with the Men's Club, a valuable work "Canada—an Encyclopaedia of the country," by J. Castell Hopkins. The publication is comprised in five volumes considering the Dominion in its historic relations, its material progress and its national development.

At a meeting of the members of the Presbyterian church which was held in the Parkdale school house on Monday evening the church building proposition was under consideration. The finances in connection with the proposed new building were reported to be in a healthy condition. It is expected that work will shortly be commenced on a building which will be a credit to the denomination and to the district.

Editor Hagen of the Revelstoke Mail-Herald was acquitted of the charge of obtaining money under false pretenses at Kamloops last week, the jury adding a rider to their decision that "the jury feel and strongly believe that criminal proceedings should never have been taken against the accused." The court room was crowded and people who were strangers to Hagen as well as his friends rallied round him, and shook hands with him, and congratulated him on the effectual manner in which he rebutted the charge laid against him. And on the streets and in the Leland Hotel where he was staying the experience was repeated, thus closing one of the most sensational incidents in the history of Revelstoke.

Provincial and General

There is a rumor afloat that King Edward will bestow the Order of Knighthood upon C. M. Hays, when Mr. Hays assumes his duties of president of the Grand Trunk Railway system.

An International commission on veterinarians to devise means for checking bovine tuberculosis has been formed to consist of Dr. Rutherford, Senator Edwards, Dr. Hodgetts, F. W. Flavelle and Prof. Torrance, with seven American appointees.

The naval harbor which has been in course of construction for the past 11 years and has cost approximately about \$20,000,000, was formally opened by the Prince of Wales last week, at Dover, England. The harbor comprises an area of nearly 700 acres, formerly covered by the open sea, but to which the biggest Dreadnoughts may now have access at all times.

The Okanagan Fruit Union have secured the capital necessary to construct packing houses in Vernon, Okanagan Landing, and various points on the Lake. Construction will be started immediately. The building in Vernon is to be a two storey structure with a basement and will cost about \$10,000. A cold storage warehouse will also be erected either at Vernon or Okanagan.

The speeches recently attributed to Lord Northcliffe, Lord Charles Beresford and others together with various magazine articles dealing with the relations of Great Britain and Germany have been widely reproduced and commented upon by the German press. The German commentators point out that all the suggestion of coming trouble between Germany and Great Britain come from the British side and that no German of distinction, either in a public speech, or in writing has given breath to suspicion of Great Britain. Apprehension is expressed over the growing war party in Great Britain. This party is said to be small to-day, but influential and fed with doubts and misrepresentation and extravagant and fanciful accounts of Germany's aims, and it is gathering strength. An official effort is being made to restrain German comment on these speeches and articles with the idea of avoiding the production of material for irritating discussions.—Witness.

His Excellency Earl Grey laid the corner stone of the Alberta parliament buildings at Regina on Oct. 4.

The Canadian Peace and Arbitration society has been formed in Toronto to promote peace, and to celebrate the century of peace since the war of 1812-14. Sir William Mulock is the president of this society.

There was a large attendance at the Baptist church last Friday says the Orchard City Record, published at Kelowna, the occasion being the formal welcome to the Rev. D. J. Welsh to the Baptist Ministry here. The proceedings commenced at 8 o'clock with Mr. J. E. Reekie presiding. Rev. S. J. Thompson gave an address of welcome, as did also Rev. A. W. K. Herdman and Mayor de Hart. During the evening vocal and instrumental numbers were rendered. The new pastor spoke a few words of thanks to those present for the welcome he had received.

Grading on the V. V. & E. will reach Princeton this week. The work has been carried on with great expedition aided by favourable weather conditions taken as a whole. A demonstration will likely be held there when the workmen reach that city. Citizens now have their eyes on Vancouver and various predictions are being made as to when direct connection with that city will be an accomplished fact.—Similkameen Star.

REV. H. G. ESTABROOK, B. A., Pastor.

AFTER SHOP GIRLS.

No more frills and short sleeves.-Severe uniform dress to be worn.

Hereafter all shop girls in the principal department stores in Chicago must attire themselves in plain dresses. Ribbons, Julia Marlowe curls, hair puffs, rats, false busts, pads and such, are on their way to the junk heap, for the edict has gone forth.

To make sure that it will be carried into effect in at least one of the big stores, a woman censor has been appointed. Her only duties are to see that the sales ladies obey the printed orders which command that all the female employees of the store appear "natural."

Jewelry is to be limited to one ring and a locket. The sleeves in shirt waists must be at least three-quarter lengths. Low collars will not be tolerated. Flashy, fluffy lingerie is objected to and the surest way to resign is to "make up."

Mr. George Gartrell has returned from a two weeks hunting trip near Albert Canyon. He reports game very scarce, but succeeded in landing a fine caribou.

DON'T BE A Landless Man

Invest your money in the Solid Earth. Get a Fruit Lot. Summerland has a Future. Your Fruit Lot will grow in value while you sleep. Consider what it will be worth ten years from now even if you never get enough ahead to improve it, and Buy Now.

Lots at \$100 per acre on easy terms of payment. For further particulars write or call on

The Summerland Development Co.

SUMMERLAND. B.C.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

JAMES RITCHIE

SUMMERLAND, B.C., OCTOBER 30, 1909

No. 65

PREPARE TO VOTE ON NOVEMBER 25

Premier Appeals to Country on Railway Policy-- Deal Proposed With Canadian Northern.

Local Option will also be a Feature of the Campaign--Messrs. Tatlow and Fulton Resign Positions on Cabinet--Messrs. Bowser and Price Ellison appointed to Fill Vacancies--Railway Scheme Embraces line Through Summerland also C. N. R. Transcontinental.

Nominations, Thursday, Nov. 11.

Elections, Thursday, Nov. 25.

Such is the edict which has gone forth from Victoria, and the campaign promises to be a short, but a merry one.

Parliament was formally dissolved on Wednesday of last week.

In the approaching election there will be two separate ballots, one for the electorates' choice of the parties and their candidates, and for the endorsement of two railway agreements, the other for their approval or disapproval of local option.

In an interview given to a representative of the Vancouver Province, the Premier gave in greater detail the result of the cabinet conference on the negotiations with the Canadian Northern Railway, stating that an agreement had been reached for the granting by the government, upon the approval of the electorate, of financial aid to the B. C., section of this transcontinental line. Also of an agreement to aid the Kettle Valley railway.

The provincial aid, which, subject to the endorsement of the electorate, will be given to Messrs. McKenzie & Mann's already surveyed line from the Yellowhead Pass to Vancouver, and the sea, is under agreement in these terms:

TERMS OF AGREEMENT

The province is to guarantee the company's bonds to the amount of \$35,000 per mile for a distance which with main line and branches is not to exceed 600 miles. They will be 30-year bonds and the interest is to be four per cent.

As security for this guarantee, the government will be given by Mackenzie &

Mann a first mortgage upon the road throughout B. C., and in addition, their covenant upon their railway systems throughout Canada.

White labor only is to be employed.

A fair wage clause is to be observed.

Actual construction is to be commenced within three months after the bill has passed the legislature, summoned to meet Jan. 20 and receives the assent of the Lieut.-Gov. The entire road is to be completed within four years of that date.

RAILWAY FOR SUMMERLAND

For the aid to be extended to the Kettle Valley railway line, that line is to be built from Midway to Penticton to Summerland, and from the latter to Aspen Grove, and then up the Coldwater river to join the C. P. R., at Nicola, (a through coast-Kootenay connection.)

The road from Penticton to Nicola, a distance of 150 miles, is to receive a subsidy of \$5,000 per mile in cash or inscribed stock and that portion of the road is to be taxed at the rate of \$90 per mile, the ordinary rate of taxation.

The company also agrees to build from Grand Forks, up the North Fork of the Kettle river, a distance of 30 miles.

The company is getting the old Midway and Vernon subsidy, which the courts have held is still in existence; and it has agreed to pay the old debts the Okanagan Construction company incurred in connection with the grading out to Midway.

The payments to the company for the construction of in all about 250 miles will be made by the government when every ten miles are built, the government holding

back payments on 20 until completion of the portion subsidized.

Construction is to be commenced within six months after the agreement is confirmed by the legislature, and is to be completed within four years.

The white labor and fair-wage clauses are included in the agreement.

JOHN OLIVER APPROVES

Speaking at a mass meeting in Victoria a few days ago, the Liberal Leader, Mr. John Oliver, in an address to the electorate said:

"Even now the government is concluding negotiations looking to a grant of financial aid to the Canadian Northern Railway. Well, I say the Liberals are in favor of such an agreement if the terms are acceptable."

MINISTERS RESIGN

Hon. R. G. Tatlow, minister of finance, and Hon. Fred J. Fulton, chief commissioner of lands have resigned their portfolios.

Mr. Tatlow, in explanation of the action he had taken in resigning from the cabinet stated that he was in perfect accord with Premier McBride with the single exception of the railway policy. In this respect, however, he thought that the assistance proposed to be granted to the Canadian Northern was too great, and for that reason he considered it his duty to retire from the government.

Mr. Fulton has for some time past taken the position that, on general principles, railways will be built in the province without government assistance, wherever conditions warrant, and in his opinion, the conditions now obtaining warrant, and in fact necessitate, the immediate construction by the Canadian Northern of a line to the Pacific Coast. In consequence, in this case he says the government assistance is not required. On all other points, Mr. Fulton stated that he is fully in accord with the policy of the present government.

The Premier, while very much regretting the loss of Mr. Tatlow and Mr. Fulton from his cabinet, stated that since he had to keep the pledge he had made to the people of the province, he had adopted as a part of his policy the first feasible scheme for railway construction through British Columbia.

He considered that there was no other

Okanagan Electoral District

course open to him, and, in parting with his late colleagues, he expressed his high opinion of both of them, and was very pleased indeed to state that the friendly relations existing between them were in no wise changed, the only difference in their views being on the railway policy.

PORTFOLIO FOR ELLISON

As a result of the resignations of Ministers Fulton and Tatlow, Hon. W. J. Bowser, has been sworn in as head of the Provincial Treasury, thus occupying a triple administrative role. He will retain the position until after the elections.

Mr. Price Ellison has been selected to fill the office of Commissioner of Lands.

FOREST FIRES.

According to a bulletin of the Forestry Branch of the Department of the Interior, there were 835 forest fires in Canada in 1908, by which 56,290,000 feet of timber, board measure, were damaged or destroyed and the value amounted to \$25,583,550. Twenty-two lives were lost. The main causes of the fires were sparks from railway locomotives, bush burning by settlers, and carelessness by travellers and sportsmen.

NOTICE IS HEREBY GIVEN that objections have been filed with me against the following names being retained on the Register of Voters for the Okanagan Electoral District, under the provisions of the "Provincial Elections Act Amendment Act, 1909," viz:-

EXAMINATION FOR INSPECTORS OF STEAM BOILERS AND MACHINERY.

EXAMINATIONS for the position of Inspector of Steam Boilers and Machinery, under the "Steam Boilers Inspection Act, 1901." will be held at the Parliament Buildings, Victoria, commencing Nov. 8th, 1909. Application and instruction forms can be had on application to the undersigned, to whom the former must be returned, correctly filled in, not later than Nov. 1st, 1909, salary \$110.00 per month.

JOHN PECK.

Chief Inspector of Machinery
New Westminster, B. C.

CARD OF THANKS.

Mr. Thomas Washington, who had the misfortune to break his arm recently, wishes to publicly express his warm appreciation and gratitude for the ready and practical sympathy shown him by the public of Summerland.

Jas. Elmhirst's big field of potatoes is a source of wonderment to the diggers. They began turning out 3, 4 and 5-lb., tubers, and put them aside as curiosities, but soon found that the whole field runs to those sizes. Keremeos Chronicle.

Capt. Scourby of the Danish government ship Godhaab, which has just arrived here after a northern voyage declares that he has no doubt whatever that Dr. Frederick A. Cook reached the North Pole. Capt. Scourby can speak Eskimo fluently and he made inquiry among the natives and obtained at first hand a report from Cook's two Eskimo's. They both told the same story about the doctor's Pole journey.

ODDFELLOWS CELEBRATE

Welcome Grand Master in Royal Style and Entertain Local Guests.

The Grand Master of the I. O. O. F., Mr. W. Law, of Vancouver, was in town on a visit to the local lodge on Tuesday last.

During the evening he was at their meeting in the lodge room, after which the brethren adjourned to the hotel, where supper had been prepared for them.

Several local gentlemen had been invited to meet Grand Master Law at the festive board, so that a goodly crowd sat down at the tables, which, by the way were prettily decorated and looked very inviting, reflecting great credit upon Mr. Cancellor and his staff.

After full and ample justice had been done to the choice viands, the Noble Grand Bro. J. F. Faulkner called the company to order, and proceeded with the following toast list:

- The King;
- Our Noble Order, Bro. W. Law;
- Sister Lodges, D. H. Watson;
- Sister Societies, J. C. Robson, and Rev. R. J. McIntyre;

The Okanagan Lodge I. O. O. F., proposed by D. H. Watson, and responded to by J. F. Faulkner and Dr. Andrew.

The Clergy, proposed by J. W. S. Logie, responded to by Rev's. Solly, Estabrook and Hood.

The Press, Thos. Collinge. This was the last toast of the evening and was followed by the singing of "Auld Lang Syne," and the company dispersed at a seasonable hour.

METHODIST "AT HOME."

On Monday a social was given by the Methodists in the rooms of the Men's club building, which was thoroughly enjoyed by all present. The first part of the evening was spent in conversation and games of an amusing nature, the laughter of the children mingled with that of men and women of maturer years and all worry and troubles were forgotten, so quickly did the evening pass that time was only left for part of the programme.

The company was then invited into the spacious parlors where refreshments were served by the ladies, after which, the gathering was dismissed by the singing of the Doxology. A number expressed the hope that a similar evening would soon be arranged.

Mr. Ray Hancock, is in town again after having spent a month or so in Vancouver.

Review Office.

The Summerland Review

News from Peachland

BORN—To Mr. and Mrs. D. Kirkby, a daughter on Oct 25th.

Mesdames L. D. and H. E. McCall spent Tuesday in Kelowna.

Rev. J. J. Nixon sustained his reputation as a dangerous man with a gun by securing we believe, the only deer shot so far this year, in the immediate vicinity.

Miss A. E. Elliott came down from Armstrong to spend Thanksgiving with her relatives here. She returned to her school on Tuesday morning.

Miss Olive Young also spent the holiday at her home here, returning to Prairie Valley Monday afternoon.

Others who spent the day here were, Rev. Jas. Hood and family, Dr. and Mrs. Chas. Smith, Mr. John McDougald and Miss Alice McDougald.

Mrs. C. G. Elliott with her little daughter Dorothy, set out Tuesday for a visit to her old home in Dryden, Ontario.

Quite a goodly number of Peachlanders attended the Local Option Convention in Vernon on Tuesday and Wednesday of this week. The following attended: Mr. and Mrs. R. J. Hogg, Mr. and Mrs. H. McDougald, Rev. C. W. Whyte, Messrs. C. G. and R. L. Elliott. A good programme was provided and a profitable time was spent. Had other towns sent a proportional number of delegates, a record attendance would have been present.

Rev. Principal McKay of Vancouver Presbyterian College, is to speak here Thursday evening on "A trip to the Holy Land." It is to be hoped that there will be a full house to greet him as he is a speaker of more than ordinary ability.

LOCAL NEWS ITEMS

The annual meeting of the local branch of the Local Option League, will be held next week. The exact time and place will be announced from the various pulpits on Sunday. Election of officers and other business will be under consideration.

There should be a large attendance in Empire Hall on Monday evening when Miss Laura Rose, of Guelph, Ont., will lecture on Domestic Science, and Mr. B. Hoy will speak on Horticultural subjects. The meeting will be held under the auspices of the Farmers Institute and will start at 8 o'clock sharp.

CONSERVATION OF ENERGY.

For many decades the bounty of nature on this continent has been so lavish that comparatively little thought has been taken for the future. Blessings brighten as they take their flight, however, and the pressure of population on the heels of subsistence in the republic beside us is now causing some uneasy and profit-bearing reflections in which Canada has been taking a mild interest.

One effect of these economic heart searchings has been the sudden desire and incipient determination to prevent criminal waste of our great forest preserves. It is now recognized that forest areas have limits even in North America; that the massacre of those grand old plumed sentinels of the land whose youth rejoiced in the meridian of Washington's glory, means poverty to the soil through diminished rainfalls and that an ounce of prevention may be worth more than a pound of cure when it comes to arboreal ills in a nation's life. The nations have taken counsel together and the echoes of that assembly's appeal have been heard even in the Okanagan Valley, as a result of the listening ear possessed by an alert provincial government.

But there is another great storehouse of wealth toward which a government "of the people, by the people and for the people" should have regard now if it would well serve their interests. That asset is the water power of this province. Increasingly evident it will become, that the water falls of this province, and for that matter its lakes and rivers, contain unknown possibilities of wealth—and trouble. Let astute corporations seize the waterfalls of this province and in the coming days when

steam engines have been largely relegated to the scrap heap, they will be in a position to dictate terms that will be felt by those who toil and those who travel.

Socialism as a system has grave weaknesses, but it also has some distinguishing merits and one of these is that it advocates a policy that is not oligarchical. Increased wealth rules whether in war or peace. Put the sources of wealth into the hands of a few and the foundations of national greatness are destroyed at a blow.

Of course all national wealth does not consist in waterfalls, but part of it does, and there is no reason why governments, by careless sale of franchises should enslave their children's children. Leases for a term of years on terms that are just to invested capital, should always be preferred to complete alienation of title. Capital will then be kept in that deferential attitude which becomes it and the nations manhood will be spared its sacrifice on the altars of Mammon.

ANNUAL ROUND UP.

Thanksgiving Day Ride Proves to be a Most Enjoyable Affair.

Were you at the annual round-up? No? Then you missed it. It was one of the big events of the year. Every horse in town capable of bearing a man or a woman was requisitioned and they were a charming lot of horses according to the standard of the old adage, "Variety is Charming." They were there in all sorts, colors and sizes, and they were so constantly on the move that it was pretty hard to keep track of them and the poor photographer budded a few gray hairs as he attempted to catch the bunch at a moment when they were all still, and as a matter of fact that moment never came. By actual count there were about fifty horses in the ride and a few rigs went along with the grub waggon to see that Harry Glennie, the head of the commissariat department, didn't polish off what the members of the fodder committee had left over for the riders.

The cavalcade as it started off was highly imposing. John Woods Esq., held the honorary and honorable position of Head Puncher and in spite of the fact that his attention was somewhat divided, he acquitted himself in a most dignified and creditable manner. He kept a close eye on the strays and managed not to let any of the colts and calves get too far away from the bunch.

The rear was brought up in style by John W. S. Logie Esq., who showed him-

self to be a worthy partner of the distinguished head puncher. He watched that the laggards did not lag too much. He carefully headed off the strays from the bypaths and none escaped his hawk like eye and wandered out onto the range. He steered them all safe for the entrance of Meadow Valley and coralled the whole bunch in the vicinity of the grub waggon. Even then he kept up picket duty and saw that all were navigated safe back again to the home pasture.

Altogether it was a grand good time. It was surprising how many people had a pained expression next day, however, and looked as though they were almost too tired to sit down and would far rather stand than thus exert themselves.

There is a scheme on foot for next year and it is likely that a bunch of lively cayuses will be run in from the range and the day wound up with a regular broncho busting contest. All start to get ready for next year's ride so that you won't be left without a horse. Better speak for one at once.

Oh, why look you so pained beloved?

Let me all your troubles share.

My secret I can't tell sweet dovie,

But please provide a cushioned chair.

MANUFACTURING SORGHUM.

Splendid Brand of Table Syrup Successfully Produced at Naramata.

One of the newest industries in this section of the Okanagan Valley is the manufacture of Sorghum, or corn syrup.

During the past season, Messrs. Robertson and Aikins sowed a quantity of cane at Naramata, which safely reached maturity. The syrup was produced with excellent success, demonstrating beyond the shadow of a doubt that the industry can be successfully and profitably carried on in the district.

The appliances used for the reduction of the syrup were of the most primitive character, but the results, as demonstrated by the samples of the product which have been tested by those fortunate enough to secure them, were certainly first class. The more elaborate apparatus for the making of the syrup is said to be inexpensive and the industry promises to become a lucrative one.

It is possible that the growing of the cane will be undertaken on a more extensive plan next year and that it may eventually become one of the large interests of the valley.

:: Naramata Notes ::

Mrs. Languedoc was at Summerland this week, the guest of Mrs. H. J. Solly.

Miss Robinson returned on Monday evening after an enjoyable visit with friends at the coast.

N. L. Ellis of Summerland, was in town last Saturday.

Messrs. Chas. and John Nichol of Winnipeg, were guests at the hotel over Sunday.

Mrs. J. M. Robinson and Mrs. J. S. Gillespie spent a few days at Kelowna this week.

A young bay horse belonging to some unknown party, died this week south of town not far from J. M. Shreck's. The question arises as to the party responsible for its burial.

Mr. and Mrs. J. C. Lyons have moved to their new home up town near the school.

W. E. Welby of Penticton, spent a few hours here on Monday.

The Athletic Club is holding a turkey shoot at 1 o'clock sharp today (Saturday) on the athletic grounds. Quite a large number of choice fowl have been secured for the occasion and doubtless a fine afternoon's sport is assured.

The public library from McGill University has arrived. Mr. Bartlett, who is in charge of the post office and the hotel, has very kindly consented to take charge of the books.

HAY & OATS

Hereafter I am arranging to have cars of hay, oats, wheat, etc. to be shipped to my order here.

Consumers accepting delivery at the wharf immediately on arrival of car will be allowed a special discount, while small orders will be filled at my premises on Siwash Flat during regular business hours.

My prices will be the lowest possible, and terms are strictly cash.

B. H. SHERK - PHONE BLUE 3-

There will be a Liberal-Conservative nominating convention in Vernon on Nov. 2nd. The local supporters of the Liberal-Conservative party are requested to meet in the council chamber this (Saturday) afternoon at 3 o'clock for the purpose of selecting delegates.

The local Chinese laundry has changed hands. For a consideration of \$500 Won Gong has sold out, lock, stock and barrel, and skidoed back to Canton. The new owners are Lew King You and Chas. Chong.

The band has undertaken a proposition made by Mr. C. P. Walker, the Winnipeg theatrical manager, which will provide Summerland with a course of five exceptionally high class theatrical attractions.

Local News Items.

Mrs. Geo. Anderson will be "At home" on the second Wednesday in each month.

Mr. L. Nellis, one of the most prosperous farmers of the Brandon plains was a visitor in Summerland this week, in company with Mrs. Nellis. Mr. Nellis is the owner of a choice 10-acre property near the Anglican church.

Among the visitors in town this week were Dr. J. Wilson Paton, of Bath, England, and his son, Mr. J. Paton. They have been looking carefully over Summerland and are both delighted with the prospects. It is probable that Dr. Paton will purchase property in the district and leave his son in charge.

W. P. Kearns, travelling representative of the Vernon News was in town this week for a short time.

The members of the local branch of the L. O. L., are issuing invitations for an "At Home" which is to be held on the evening of Nov. 5th. There will be a considerable number of visiting Orangemen and the evening will be made both entertaining and educational. There will be music and singing, and a number of addresses, followed by refreshments.

Members of the L. O. L., are requested to remember that the regular meeting of the lodge will be held on Tuesday evening. Special business and degree work.

The old steamer, York paid Summerland a visit on Monday last. Aboard her, in addition to the crew were Supt. Kilpatrick, and Capt. Gore, Supt., of Lake and River Steamers.

Alex. Steven is about to erect an office on his Shaughnessy Av., lots which will be used as dental parlors, and occupied by Dr. Mathison about Nov. 15.

SHORTER BY 230 MILES.

A statement which is arousing great interest in railway circles, says the Province was recently made by a Canadian Northern official, to the effect "Our railway line as surveyed and to be built from Edmonton to the Pacific is 230 miles shorter than its Canadian rivals."

The governments of the three prairie provinces have decided to make a united appeal to Ottawa authorities for the right to administer their own school lands funds.

LOCAL BOARD OF TRADE HOLDS COUNCIL SESSION

A meeting of the council of the Board of Trade was held at the Town Hall on Wednesday Oct. 27th and the following business was transacted:

The minutes of the last meeting were read and confirmed.

Correspondence was then read, including the following—Sundry letters to the Attorney General and Mr. Price Ellison re Petty Debts Court, as a result of which the secretary reported that the court was established and that Mr. R. H. English was being appointed judge by the Attorney General.

A letter to the Hon. Sydney Fisher, pointing out the advantages of the Indian Reserve as a site for the Experimental farm and asking that these be seriously considered before the site is finally decided on. Also a reply to the above from Mr. Fisher, saying that when he comes to consider the question he will be glad to bear in mind the points brought out in the letter.

A letter to Mr. Wm. White, second vice-president of the C.P.R., strongly urging that the daily boat be continued without a break and pointing out the advantages which would accrue to all parties by such continuance. Reply to above not yet received.

In connection with the Experimental Farm it was mentioned that there was a report that the government had some idea of establishing it at some point on the main line west of Sicamous. As a result of this discussion it was moved by J. M. Robinson—H. C. Mellor—That the secretary of the Associated Boards of Trade of the Okanagan Valley be asked to write to the Hon. Sydney Fisher, Minister of Agriculture for the Dominion of Canada, Ottawa, Ont., urging that the government in selecting a location for the Experimental Station in the dry belt of B. C., have the station strictly in the dry belt at some point south of Sicamous, and at such a place as will confer the greatest benefit and bring the best results to the orchardist, and further urging that it be established without delay, as the absence of a properly equipped Experimental Station in the Okanagan in the past, where fully 80 per cent. of the fruit trees of the interior of B. C. are located, has caused serious loss. Carried.

H. C. Mellor—C. H. Cordy—That the secretary of the Associated Boards of Trade

be requested to forward a copy of the resolution referring to the establishment of an experimental farm south of Sicamous, strictly in the dry belt, to Mr. Martin Burrell M. P., Grand Forks, B. C., as well as to his address at Ottawa, urging him to follow up as closely as possible the locating of an experimental station south of Sicamous, as it has been reported that the government had some idea of establishing it at some point on the main line west of Sicamous. Carried.

Certain infectious diseases having been complained of in nursery stock coming from the Coast, this matter was discussed and it was eventually moved by A. Stark—R. H. English—That the Secretary of the Associated Boards of Trade be asked to confer with the Boards of Trade of the Okanagan, as well as other Boards of Trade of interior points where fruit is grown, with a view to joining in a strong appeal to the Provincial Department of Agriculture to adopt the system of fumigation for all coast grown trees sold by coast nurseries for interior B. C., delivery, on the same basis as is adopted with fruit trees coming from the United States and other provinces of Canada. Carried.

The Associated Boards of Trade having been asked by the Penticton Board to recommend a resolution, urging that a strong representation be made to the C. P. R., that there is now too much traffic and freight up and down Okanagan Lake and too large a population depending on this mail to depend on a tri-weekly boat service on the Lake, and that the Dominion Government be petitioned to make arrangements for a daily mail service to all points on the Okanagan throughout the year.

A. Stark—E. B. May—That this resolution be approved and fully endorsed. Carried.

The need having arisen for an exact knowledge of the number and variety of each sort of tree in the district, both as a means of estimating the crop and as a demonstration of the need for handling the crop, it was moved by J. M. Robinson—A. Stark—That the Board of Trade make a census of the trees, getting the age, number variety, etc., of all trees in the district and that the secretary be instructed to draw up a circular letter embodying these points, such letter to be forwarded to all growers. Carried.

Summerland, B. C.

The question of ways and means for a cannery was raised, and after a lengthy discussion, it was decided that the secretary should look into the matter and report.

May—Mellor—That the secretary is hereby instructed to bring to the notice of the Municipal council the necessity of enforcing the Trade License by-law, so that all might receive the same treatment. Carried.

LOCAL OPTION MANIFESTO.

Pledge Prepared for Submission to Candidates of Both Sides of the House.

The following is the Local Option manifesto issued to 70 Leagues and 30 other agents in every electoral riding in B. C. A pledge has also been prepared and will be submitted for signature to the different candidates of both parties ;

"The elections are announced for November 25th. Nominations take place November 11th. The Plebiscite vote for a Local Option Law will take place at the same time as the election. Now is the time for church, temperance and moral people to wake up.

The Local Option League aims at giving the right to every citizen in British Columbia to say 'Yes' or 'No' to the licensed liquor traffic. This must be done, first, by obtaining a local option law, and then by letting the people in each city, town or district put the same in operation if they desire to do so. It surely is the right of the people to say whether the liquor traffic shall be legalized or not. Therefore, the coming Plebiscite vote will probably ask: Are you in favor of local option legislation? Your answer will be 'Yes!' Is not this a fair proposition? The Plebiscite vote and the general elections are at hand. A full temperance vote on the first and the election of local option candidates are your responsibility.

If you are a voter, and a temperance man, it is important you should get into the primaries and conventions of your own political party, and see that local option candidates are nominated. Unless you do this, you simply play into the hands of the liquor men. We urge you therefore, to take your place and part in your own political party and use your influence to get others to vote for this principle and for good men. If you claim not to be a party man, then consider under present circumstances that it is best to choose one or the other, in order to use your influence, not for party reasons but the public good. Many of our best citizens have severely left provincial politics alone, consequently we are handicapped by the votes of liquor men and others, who want an open province. Therefore, get into the primaries and conventions and vote as you pray."

Cherries in October are rather unusual, but they can still be seen growing in Kaslo in A. W. Allen's garden. Kootenaiian.

DON'T BE A Landless Man

The Summerland Development Co.

SUMMERLAND. B.C.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

Underwear and Sweaters for Fall and Winter.

We are showing a very fine line of these goods for Ladies, Men and Children, in all sizes and weights.

The brands we carry are of the very best. Splendid fitters, good wearers, and guaranteed unshrinkable. We buy these goods direct from the manufacturers which is a guarantee of the best value possible

We have just opened a very pretty line of Children's Sweaters, all sizes, in Navy, Tan and Resida.
