DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 3, No. 1

SUMMERLAND, B.C., AUGUST 6 1910

Whole No. 105

BAND PROGRAMME.

The following programme will be rendered on Sunday afternoon, August 7th, at Naramata, commencing at 3 p.m.

- March, Battleship Texas - Beyer
- Solo, Love Song - Turner
- March, Under the Double Eagle - Wagner
- Serenade, Sweet Thoughts Mackie
- March, Blaze Away - Holtzman
- Romance, Good Luck - Lauredean
- March, King Cotton - Sousa
- Maple Leaf and King.

A. C. Pearce, Bandmaster. D. H. Watson, Manager.

RIFLE ASSOCIATION.

The third shoot for the Dominion Salver took place on the range last Saturday, with the following scores high:

	200	500	600	Total
M. Steuart	31	30	31	92
F. Munro	30	26	32	88
W. Nelson	30	32	26	88
G. Gartrell	23	35	29	87
O. Smith	29	25	30	84
H. Dunsdon	30	29	22	81

HOSPITAL AUXILIARY RETURNS THANKS.

The ladies of the Summerland Hospital Auxiliary wish to thank Mr. J. M. Robinson for the donation of the receipts of the box seats at the recent regatta at Naramata.

They also wish to thank others of the Naramata people who assisted the Auxiliary that day in so many ways.

Mrs. E. N. Robson,
Cor. Sec. of Auxiliary.

For the last two years the Summerland school has led the province in the number of successful candidates at the rural entrance examinations, passing 9 last year and 11 this year. These figures give the necessary passes for the organization of a high school. As a result the trustees have made on application to the department for the establishment of a high school in the community during the coming year. A list of 27 names of pupils eligible to attend high school has been forwarded, and the inspector is expected in at any time to report, and in all probability such a school will be established.

MARKET REPORT.

Extracts from Commissioner J. C. Metcalfe's Weekly Bulletin.

Calgary, July 20.—Jobbers and retailers report raspberries and cherries arriving in good condition generally, but raspberries are getting a little soft now.

Two cars of mixed fruit came into Calgary the latter part of July from California to Plunkett & Savage. Jobbers expected to net shippers on peaches 35 cents per case, tomatoes 40 cents per case of 20 lbs. I also saw a car of Ben Davis apples from Colorado consigned to the same firm, arrived in excellent condition and were selling at \$2.25 and \$2.50 per box. With the same firm I saw apricots from the Wenatchee Valley which were very poor stock indeed, cost f.o.b. point of shipment, 65 cents per case.

MacLeod, July 21st.—Agent here reports B.C. small fruits arriving here in good condition to present date. What come in are mainly from Kootenay points. There is a flat rate of \$2.00 by express from Kootenay points to all points along this line, and the same rate exists from Spokane. The express rate from Calgary is \$1.30 per cwt. and \$2.55 from the lower mainland to Mission Junction, and \$2.48 from Okanagan points. The freight rate from Nelson to this point on mixed cars of vegetables is 25 cents per cwt.; car of mixed fruits, apples and pears, 60 cents per cwt.; car of mixed fruit, apples and pears, from Grand Forks, 65 cents per cwt.; car of mixed fruits, apples and pears, from Vernon, 70 cents per cwt.; straight cars of vegetables from Vernon to MacLeod, 43 cents. American strawberries, raspberries and blackberries and other small fruits arriving in large quantities at this point and other points along this line. They use the flat box 1½ inches in depth and 5½ inches square for raspberries, and the deep box for strawberries and blackberries. They hold less than our four-fifths but more than our two-fifths.

Medicine Hat, July 23rd.—Express agent and dealers here report small fruits arriving in excellent condition this season to date, but supply far short of demand. Dealers here state they are buying peaches from jobbing houses in Calgary and Lethbridge f.o.b. point of shipment at \$1.00

per case for Triumphs and \$1.25 for Hales Early and Crawford. There is one jobbing house at this point, F. G. Lynd & Company. Dealers here further report they obtain all their supply of small fruits from B.C. as they find prices lower, less time is taken in transit, and the fruit arrives in better condition than when they buy from jobbers here. Cherries and raspberries arrive in lesser quantities at this point.

To summarize, I would advise B.C. shippers to perfect all arrangements and be ready to handle fruit crop promptly and expeditiously when ready to ship, and see that your carriers and transportation companies are in the same position to handle your fruit products quickly and without delay. Get hold of the markets here at once through jobbers and retailers, and don't hold off too long. No doubt it will be necessary for the B.C. shippers to place a percentage of their fruit in Winnipeg and the Manitoba province. I repeat again, get in touch at once with the jobbers and retailers of fruit products in all the provinces. You will require all, no doubt, to market your crop successfully in the face of competition to be met by American growers and shippers.

TO ORGANIZE B.C. POULTRY ASSOCIATION.

A meeting of those interested in poultry will be held in the Convention Hall, Exhibition Grounds, Vancouver, on the 18th inst. It is purposed to organize a B.C. poultry association with an annual membership fee of \$1.00. The objects of the association will be "better poultry and more of it," and its particular mission will be to secure a more widespread interest in thoroughbred fowls.

Delegates from all over the province are expected to be present, and the organizers of the association desire that one at least from every district interested in poultry be in attendance.

It is up to the local association to get busy and appoint a representative from the newly formed Southern Okanagan Association.

Reeve Agur, Councillor Brown and Captain Fyson left on Tuesday morning for Kamloops.

Provincial and General

Captain Peter Elliston, who, it will be remembered, inspected the rifles of the local club about three years ago, met his death in Victoria last week at the hands of a subordinate on Monday. One of the gunners, Grant by name, had been punished by the Captain for a breach of military discipline, and when he came out of the guard room, he waited for Capt. Elliston, and shot him through the neck. The victim died in agony within a few minutes. The culprit will be tried by court-martial.

At Aurora, Ill., the authorities have decreed that every citizen shall have a bath at least once a week, and anyone violating this law will be arrested and punished to the full extent of the law. It appears as if the authorities are alive to the danger of infection from the great unwashed, but how will they keep tab of the washed and the unwashed?

The Vernon Board of Trade have just issued a folder containing numerous illustrations and descriptive matter of their district. It is in every way a first class production, and the Board are to be congratulated upon their progressiveness. The printers also deserve a word of praise for the manner in which the folder is gotten up.

On Tuesday following a clash with with the C.N.R. police at the company shops at Winnipeg, where 500 carmen are on strike, a mob of strikers stoned the workshops where strikebreakers are boarded. No one was hurt. In another part of the yards 30 freight and passenger cars were burned. One hundred special police were put on duty to guard the shops.

At the present time Spain is more or less in a revolutionary state. Premier Canalejas has received many threats of death, and his guard has been doubled. An effort is being made to overthrow the power of the clerical faction of the government.

Linley Sambourne, who has delighted many thousands every week by his cartoons in "Punch," passed away on Wednesday at his home in London, England, at the age of 65.

Local News Items.

Mr. W. J. Clement, late proprietor of the Penticton Press, was in town for a couple of days at the beginning of the week.

Last Wednesday over six tons of fruit was shipped from Summerland. Who said 'go in' some'?

A few boys and girls are required at the cannery to peel fruit etc. Apply to H. Bristow, or office at cannery.

The C.P.R. are giving cheap excursion rates for the Vancouver Exhibition. The round trip ticket from Summerland will cost \$16.15 and tickets will be on sale for five days.

On Wednesday the 'York' brought down two carloads of lumber for the new wharf and dock. This will help along a little, as the men have been waiting some little time for material to proceed with their work.

To assist fruit growers a labor exchange has been opened at the Water Commissioners' Office, West Summerland. Any orchardist requiring help should notify them, and any fruit picker wanting a job will also please notify. 'Phone Rose 4.

The new cold storage plant and packing shed is once more being attended to. The contractors simply eat up material, with the result that they have had to lay off owing to a shortage of lumber. This has now come forward, and the sound of the hammer is once more heard along the Peach Orchard road.

In the departmental examinations of the province of British Columbia, two students from Summerland, who were up at the Peachland centre for examination in the preliminary courses of the junior grade High School, first year's work, viz., Ethel McIntyre and Grace Logie, were successful. Of a total of 900 marks, Ethel attained 576 and Grace 572, and with these figures they stood first and second on the list at the Peachland centre.

The government have offered the sum of \$6,500 for the establishment of a central school, on condition that the municipality put up the sum of \$2,000, and close all the outlying schools, thus gathering all the pupils at the one central school. To build this school would necessitate the raising of a loan by debentures, and a by-law will have to be passed ere this can be done. It is expected that the council will go into this matter at an early date, and submit a by-law to the electors for their approval.

WATER ACT, 1909.

BY DIRECTION of the Board of Investigation, Notice is hereby given that the Board will proceed to adjudicate upon claims to water on the following streams and tributaries thereto in the Similkameen and Osoyoos Water Districts, under authority of Part 3 of the Water Act, 1909.

Slovens, Spring Slovens, Double Crank Axle Wagons, Ordinary Light One-horse Wagons, Doubletree Neckyokes, Crotch Chains and Whifletrees, Doubletree and Whifletrees.

SEE OUR NEW STOCK.

Why lift three feet when a half or two thirds will do as well?

Reduce your lift strain and it will lengthen your life. An ordinary wagon is three feet off the ground, our new double crank wagons but two feet and our slovens but 16 inches. The low draft makes them easier to haul.

Our new spring slovens are just the thing for the orchard as they will take a load under trees that the ordinary wagon would not.

Be careful of your hay and feed it is going to be scarce and high. We advance prices next week.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

J. M. ROBINSON, Manager,
NARAMATA, B.C.

Or better yet, call and see us.

Dr. Crippen, who has long been wanted for the supposed murder of his wife, was arrested on board the C. P. R. steamer "Montrose" from Antwerp, at Quebec, on Sunday last. With him was his typist, Miss Leneve. They were travelling under the names of John Robinson and John George Robinson, the woman being dressed as a boy. Inspector Drew of Scotland Yard crossed the Atlantic in the Laurentic and made the arrest. They will be deported to London and tried there. The wireless telegraph service was instrumental in the capture of the fugitives, as by its means the detective was enabled to keep in communication with the captain of the Montrose.

Found, in Trout Creek, a watch with fob: owner can have same by proving property and applying at the Review Office.

The packing houses are very busy with the peach, apricot and early apple crop. The two down town are shipping great quantities, and the new one up on the flat started business on Monday morning.

The Ladies of the Summerland Hospital Auxiliary took over \$160 at their refreshment booth at Naramata Regatta last week. When expenses have been paid about \$112 will go to the hospital funds, with an additional \$29 from the sale of box tickets. The ladies deserve great credit for this gratifying result of their labors.

SATURDAY, AUGUST 6, 1910.

ONCE MORE.

This week we pass our second mile post and enter on the third lap of the race against the sheriff and various other collecting agencies. In optimistic moments we even indulge in the hope of gaining on them somewhat as our bad debts account grows smaller and the delinquent subscriber ceases to be found in the land.

In a few weeks the Review hopes to have installed a typesetting machine of the Unity pattern. This will facilitate the despatch of business very much. Printers seem hard to find and more than once we have been embarrassed by a rush of work which could not be timed out with that promptness which we would like to see characterize the mechanical part of our business.

We are happy to think that we have no monopoly of prosperity. Every newspaper in the valley has to chronicle a similar condition of things. Let us hope that the good times will continue. Newspapers are but the indices of general conditions. When general business falls off, the sheriff soon gets them. We shall stand or fall together.

EDUCATION IN SUMMERLAND.

Summerland is approaching another important epoch in her educational history—one in which it will be possible to make a distinct forward movement if the ratepayers of the district seize the opportunities that will shortly be given them to do so.

The comparatively large number of pupils in the district eligible to attend a high school has warranted the School Board in asking the Education Department to insti-

tute such a school in Summerland ready for the coming term.

As the school inspector is required to visit the district to ascertain the actual number of pupils who will attend the high school it will probably mean a sacrifice on the part of some parents to promise to allow eligible pupils to attend the school, in order that the inspector can report the required number, 20 pupils, to the Superintendent of Education.

The operation of the central school in its entirety will be even a greater benefit than the high school, as all the public school pupils will be affected thereby.

The advantages of having a thoroughly graded school under competent teachers and proper supervision by the principal, are so obvious that the Municipality should accept the generous assistance of the Government without hesitation.

Ample provision will be made for the safe conveyance of the smaller pupils from the outlying parts of the locality to the central, the Government bearing half of annual cost of such transportation.

With its high school in operation; with a central school doing as efficient work as any city school; with the Okanagan College and its recent improvements, Summerland unquestionably, in the near future, will become the most important educational centre in the Okanagan.

Summerland is up against the fruit picking problem this week in dead earnest, and blessed is the man who has a houseful of children to help save his grey hairs from going down in sudden flight to the grave. A big crop undoubtedly has its distractions as well as its attractions.

We would be glad if our Penticton neighbours would shovel the smoke from their bush fires the other way. It gets in our eyes so we can hardly see how to meet that draft which comes along next week.

The cannery is almost ready for work. The cans are at the Landing and as they arrive here the plant will commence work.

The new C.P.R. steamer 'Kaleden' is busy transporting freight from the Landing to Summerland.

A new freight service for fruit will be in effect about the middle of next week. The Aberdeen and a car barge will run on alternate days, arriving at 4 p.m. and leaving at 7 p.m. The idea is to get the fruit up to the Landing in the coolest hours of the day.

:: Naramata Notes ::

Mr. and Mrs. L. J. Block are spending a short holiday at Banff.

Mr. J. C. Williams reports business brisk in his new undertaking. At present he is deluged with orders for cement brick.

Messrs Gillespie and Jack Robinson attended the Irrigation Convention at Kamloops this week.

Mrs. Wellband's peach orchard now coming into bearing for the first time, possesses a few exceptionally fine trees.

Mr. W. H. Pefley has purchased a 640 acre block some 12 or 15 miles from Penticton, and will remove there shortly.

Contractor Johnson is rushing the Hancock house toward completion, at least as far as the woodwork and plastering is concerned. Mrs. Hancock and family sailed from England last Saturday and will probably be here toward the close of another week. Hence the occasion for expeditious work.

Quite a number of people took advantage of Mr. McCullough's kindness last Sunday in furnishing the 'Orillia' to convey quite a large picnic party to "Paradise," Mr. Wilson's ranch situated about five miles up the lake. The place proved a veritable Garden of Eden with this difference that there was no forbidden tree. It was a case of 'help yourself'. The lunch provided by the ladies from the different baskets was a feast not to be soon forgotten. Before leaving the wharf the whole boatload broke into cheers for Mr. Wilson who was voted a 'jolly good fellow'.

Williams Brothers,

CEMENT CONTRACTORS,

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locomotive Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard" all

Yours for 17 Cents a Day!

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash payment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money with

The **OLIVER** Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD "GO!" So easy to run that beginners soon get in the "expert" class. EARN as YOU LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers.

'An Oliver Typewriter in Every Home!'

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE IN BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

THE RULE OF LIFE.

WALT MASON.

A mountain of books have been written, to show us the paths we should tread, and we have been laden with precepts, by sages both living and dead; and most of the wisdom is useless, for what a man needs to do, is just to be gentle and true, lad, just to be gentle and true. The name of the teachers is legion who'd point out the road to success they'd have us believe that the journey, unguided, is full of distress; the secret, however, is simple, and easy to carry in mind; it's just to be honest and kind, lad, just to be honest and kind. I don't care a

cent for the theories and creeds that the wise men expound; for all of the words that are thundered are merely a wind and a sound; the logic of life is so simple, it leaves all the dogmas behind; it's just to be honest and kind, lad, just to be honest and kind.

Two coast cities lay claim to know the decision of the B.C. University Site Commissioners. A Victoria paper says the University will be built there, and a Vancouver paper says Point Grey is to have it. Maybe it will not be at either place, but still, both papers KNOW.

Local News Items.

Dr. Mathison will be in attendance at his office until the 20th inst. 'Phone 28.

Wm. Ritchie expects a car of cement in a few days. Special price on wharf.

A good few of the townspeople are taking advantage of the cheap rates at present available for the prairie districts.

Peach Orchard road is "up". Grading and excavating operations are in progress to make room for the siding tracks from the slip dock.

Chas. H. Cordy has removed his business quarters from opposite the bank, and now occupies the office recently vacated by the Development Company.

Miss Badgley has been travelling Summerland this week for subscriptions for The Vancouver Province. She is after the \$5,000 prize and means to procure it. She has hustled a good number of local subscriptions.

The strike on the G.T.P. was settled in Toronto on Tuesday after a lengthy conference between representatives of both sides.

The canneries at the coast are kept fully employed day and night boxing up the salmon. The run of fish this year is well up to the usual.

In New York recently a chaffuer saved a man from drowning. When the excitement subsided, he found that his wallet containing \$100 was missing—also the man whom he had rescued.

At Accrington, Lancs., Eng., a huge fire occurred in the Williams store on Saturday last, when the place was crowded with customers. In the panic which ensued 5 women were killed.

It is reported that the apple crop in the Annapolis Valley, Nova Scotia, is very light this year. The output will not be more than 400,000 barrels as against 700,000 last year.

It is now two years since the disastrous fire occurred at Fernie, and it is wonderful how the city has raised itself from its ashes. There are today 70 fireproof buildings and 900 residences in the city, and many business houses besides. A most up-to-date water and electric supply has been laid on new side walks constructed and sundry other improvements effected. It all indicates the progressiveness of the citizens of Fernie, who are determined to make their city one of the leading places of business in the interior.

The Summerland Review

CORRESPONDENCE.

We do not hold ourselves responsible for opinions expressed by correspondents.—Ed.

The Editor, Summerland Review.

Dear Sir:

It would be interesting and instructive to learn why so much procrastination has been shown by the authorities with regard to the recent bush fires in this and the adjoining districts. In nearly all, if not in every case, these fires could have been easily extinguished by one or two men, at a minimum expenditure of time and money, if prompt action had been taken as soon as a blaze was noticed.

Apparently, however, the powers that be prefer to wait till the conflagration has reached really formidable dimensions, when a large gang of men is required to cope successfully with the flames.

Surely it must be obvious to the meanest intellect that a fire on the hills in a dry season like this, will most certainly spread if not checked, and in all probability hundreds of acres of more or less valuable timber partially destroyed, the one now raging between Naramata and Penticton being a case in point.

An estimate of the cost to the Government for fire fighting in this neighbourhood this summer would be interesting. It must already run into four figures.

Yours, etc.,

Ratepayer.

UMPIRE BERRY'S VINDICATION.

The Editor, Summerland Review.

Dear Sir,

According to your paper, I am to blame for the baseball mix up between Summerland and Enderby at Naramata. You say I am the cause of the game not starting on time, and consequently not finishing in time for the boat, etc., etc., etc. I am writing this to explain my position, and to shew you where you are all wrong.

Before I got to the ground I was not asked to umpire by the committee in charge, by the Summerland ball team, or by the Enderby team; so why am I the cause of the trouble?

I was asked by Mr. Syer of Penticton to umpire if Penticton played Enderby. I told the Enderby team and they agreed. They may have understood I would umpire their game anyway, but nothing was said to me about umpiring in case Summerland played Enderby, and I took it for granted that Syer of Penticton would umpire.

Besides, I was informed twice by members of the committee that the ball game would not start till the other sports were over, so naturally I thought I was in lots of time for the ball game when I left the stand.

Now I do not want to be called a poor sport. The man who will umpire a ball game is a better sport than the man who plays or the man who writes it up—I have done it all, so I know. Also, the man who umpires has troubles enough without being handed the rough edge by the newspapers.

Yours very truly,

R. E. Berry.

Vernon, B.C.

P.S.—When I left the ground I understood the game was to be played off on neutral ground.

NEW WESTMINSTER FAIR.

Manager W. H. Keary, of the New Westminster Fair, was in town this week. As in former years, this show is planned to be a successful one, and the management of the Royal City Fair have a reputation for doing things well.

Their premium list is published in booklet form and consists of a hundred and twenty pages. There will be prizes and attractions to the value of \$50,000 provided. In the apple section there are good prizes put up. Twelve varieties, five boxes in each, and the 1st., 2nd. and 3rd. prizes in each are \$25, \$20 and \$15 respectively. These varieties consist of Grimes Golden, Jonathan, Wagener, Yellow Newton, Spitzenberg, etc.

It is stated that an arrangement has been suggested between the City of Kamloops and the Canadian Northern Railway Company, by which construction of the branch to the Okanagan will be commenced next year and pushed to completion.

It is reported that the first fires in the Nelson district are beyond control. Most of the plant of the Silver King mine has been destroyed. At Jackson Siding one of the fire fighters was killed by a falling tree.

At Ottawa last Friday in a league lacrosse game, the police were roughly handled, and as a result, several players have to answer assault charges, and some spectators are charged with interfering with the police in the execution of their duty. The police are determined to stop brutality in sport; hence the fracas.

ALFRED RICHARDSON.

RICH RED BLOOD.

You Will Never Have It as Long
as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up--by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)
CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

AGRICULTURAL SOCIETY.

Prize List for Local Apple Show Finally Adjusted.

A meeting of the Board of Directors of the Agricultural Society was held on Saturday evening, when the details of the Prize List in connection with the local apple show were finally adjusted, and arrangements made to have it issued at once. The premiums of the prize list are such as should ensure the keenest competition in the various classes; and, as a selection of the finest fruit of the exhibition will be made for the Canadian Apple Show at Vancouver, it is essential, in the best interests of the community, that all growers give their local show premier place. The date is October 19th. Before that date representatives of the Government will be around to make the selection for the Horticultural Society's Show in London, and it is understood that a carload will also be required for the display of Okanagan fruit in Winnipeg. While both these objects are deserving of some of the best fruit the district can produce, the importance of the Canadian Apple Show cannot be too strongly impressed upon local growers. It is estimated that about 800 boxes will be required to represent Summerland, and it will readily be recognized how important it is to have a good local exhibition, from which the fruit which will represent the district at Vancouver will be selected.

The Directors of the Society are in negotiation with the Secretary of the National Apple Show with a view to making the various entries for the district, and to facilitate the arrangements, growers are requested to supply the secretary, R. Pollock, with a list of the number of boxes and the varieties of the apples they are able to furnish.

DEMONSTRATION ORCHARDS.

Mr. W. E. Scott, deputy minister of agriculture, makes the announcement that within a few weeks the sites for orchards will be finally chosen, there being over 20 to establish. At the present time the intention of the department is to place them roughly as follows; Vancouver Island, two; Lower Mainland, two or three; Yale-Kamloops, four; Okanagan, four; Columbia Valley, one; Boundary, one or two; Kootenay and Arrow districts, six. This is open to alteration, but it is not considered likely that there will be any changes of importance.

The horticulturists of each district will get applications from all persons in their sections desirous of maintaining the orchard work. These will then be considered by the department, and a choice arrived at. The understanding is that the applicant will furnish a five acre tract, which the government will prepare and plant with trees. The keeper is then to conduct the orchard as outlined by the provincial horticulturist up to a certain amount per acre as decided as necessary for the commercial expenditure in that district.

The men in charge of the orchards will get practical help of great value, and have the benefit of the advice of experts in the department. Mr. Scott considers there will be plenty of fruit enthusiasts ready to devote their land and time to the service on the conditions described.

As it will be up to the government to get results from the orchards, great care is to be exercised in the selection of the land and the men.

It is expected that the orchards will be a strong educative factor in the fruit growing industry, and a good advertisement for the fruit capabilities of the province. Settlers will be able to see orchards run on good sound lines; and they also can have an opportunity of gaining useful information whenever desired. The orchards are to be used at certain times of the year for demonstration purposes for the district, when gatherings will be held and the right practices in planting, irrigating, spraying, pruning and picking will be shown.

The Summerland Review

MARKET REPORT.

Extracts from Commissioner J. C. Metcalfe's Weekly Bulletin.

August 10.—A special wire to the Department of Agriculture, Victoria, from Fruit Commissioner Metcalfe at Winnipeg states that prices for all deciduous fruits are firmer, and quotations to jobbers higher for peaches, plums and prunes. Chicago and eastern markets are higher owing to an increased demand for Pacific coast fruit. Private reports to jobbers state that the Ontario crop is below medium. Small and poor quality American apricots over.

Calgary, July 26.—The report is current to-day that the Royal Fruit Company, of Edmonton, has bought the fruit output of Salmon Arm, B.C.

Quotations are as follows by jobbers to retailers this date, July 25: Apples, \$2.25 to \$2.50; Pears, \$3.00 to \$3.50; Peaches, \$1.40 to \$1.20 and \$1.00 as per variety; Plums, \$1.25; Apricots, \$1.50.

Moose Jaw, July 26.—American fruit, both California and Washington, are in great evidence here. The jobbers are avoiding buying large quantities of early fruits of different varieties at present and looking for or anticipating still lower quotations than at present quoted.

Regina, July 27.—Cherries from the Okanagan Valley and Kootenay arriving in lesser quantities but in excellent condition. They are in great demand at high prices.

Brandon, July 29.—Express agent and dealers here report raspberries and cherries arriving in excellent condition this season, but raspberries have stopped coming, shippers not caring to take the risk of shipping such long distances unless under ice. The supply of cherries and raspberries has been far short of the demand at this and other points, and now that the supply is practically over, wholesalers, retailers and consumers are hungry and anxious to obtain.

The manager of the Pioneer Fruit Company states that he will not pay the price for B. C. Triumph peaches when he can buy Early Crawford's at the same price to supply his trade. The manager of the same house further stated that Clingan, Scales and Carscaden, general merchants, Virden, Manitoba, on the main line, C.P.R., are sending out quotations as follows for carloads delivered f.o.b. point of purchaser: peaches, per case, \$1.15; Italian prunes, per case, \$1.10; plums, per case, \$1.20; pears, per case, \$2.25.

I may state here that one of the members of this firm owns a fruit orchard at

Peachland, B. C., and if quotations are correctly stated they are certainly very low to start the season with in selling to the retail trade.

The manager of the MacPherson Fruit Company here stated that he was buying California and Washington peaches to supply his trade for the purpose of protecting himself against other jobbers filling the markets before ours came in. He further stated he was very doubtful if we had any such crop as we anticipated in B.C. of the different varieties of fruit as estimated. He had been disappointed so often in B.C. fruit, and instanced an experience with one firm in respect to strawberries this season. The firm stated they could supply five or six carloads and quoted price. He closed with them at price and arranged with them to ship cars three days apart, and never got but one carload. He further stated he could not obtain cherries after their sending out and his receiving quotations and quantities to be shipped by the foregoing firm this season.

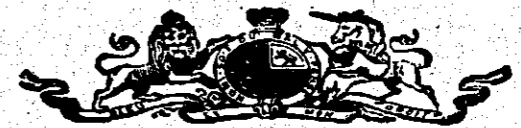

I have seen some Ontario small fruits here, gooseberries and red currants shipped in by the Canada Fruit Company, of Grimsby, Ont., by express. From this on now Ontario fruits will arrive in quantities at Manitoba points. Smith, Burton & Co. are the distributing agents here, Brandon, for this firm. The express rate is \$2.65 per 100 lbs. from Grimsby to this point.

It is quite evident that prices will not rule high for certain varieties of fruit on these markets and it will be necessary for our shippers to get in touch with these markets and the jobbers and retailers at once, and although they may not buy heavily at the present date for future shipment, they are buying for immediate shipment and delivery a certain number of cars per week to supply their trade. B. C. shippers should use every effort to make sales for future delivery and also for immediate shipment as well, and get their connections for the later and heavier shipments to follow. By this means they will prevent in a measure the American shipper getting his connection with the jobbers here. Another reason is to stop, as far as possible, consignments which are being done to some extent at the present time, but will be largely increased no doubt later in the season, but if jobbers have bought and markets should be glutted later on by consignments, they will push sales and maintain prices on the purchased product, whilst they may be obliged to sacrifice the consigned to get sale for it.

I hope growers and shippers have perfected all their arrangements for handling promptly as to labour, packages and transportation, etc., and make every endeavour to put up a high class product in every respect of the different varieties of fruits they may have to ship.

We are doing a considerable amount of advertising everywhere we call and giving interviews to wholesalers and retailers as well as to the press. In addition to this we are spending, by the advice of your Government, a certain amount of advertising in leading papers at principal points.

It is reported that contracts will be let this summer for constructing the Great Northern railway between Oroville and Penticton.

WATER ACT, 1909.

BY DIRECTION of the Board of Investigation, Notice is hereby given that the Board will proceed to adjudicate upon claims to water on the following streams and tributaries thereto in the Similkameen and Osoyoos Water Districts, under authority of Part 3 of the Water Act, 1909.

Pine Creek
Spring on Pre-emption No. 2986
Spring on Ecks Pre-emption
Shoot Creek
Ellis or Nanisheen Creek
James Creek
Penticton Creek
Spring on Pre-emption No 2551
Canon Lake
Second Creek
Cedar Creek
Little Penticton Creek

SUMMERLAND, . . . B. C.

Local News Items.

Dr. Mathison will be in attendance at his office until the 20th inst. 'Phone 28.

The Ladies Aid of the Presbyterian Church intend to serve tea and refreshments at the Apple Show in October.

Mr. and Mrs. M. Beavis and Mr. and Mrs. W. J. Docking left on Tuesday for a visit to the Prairie Provinces.

On Wednesday Ed. Bentley journeyed to the Kelowna regatta in his gasoline launch 'Greybird.'

The 'Onaway' left on Monday for the regatta at Kelowna. Messrs. Agur and a few friends were aboard.

On Tuesday last, in the vicinity of Wm. Simpson's, a cloudburst occurred and swamped the district. Some of Billy's chickens held a regatta all on their own.

The regular monthly meeting of the Ladies Hospital Auxiliary will be held in Council Chamber on Tuesday, August 16th at 3 p.m. All interested in hospital work are requested to attend.

The crop of peaches is very heavy indeed. They are netting the growers from 2 to 2½ cents a pound. In many cases they are getting 65 cts. f.o.b. at Summerland, out of which, of course, expenses have to be paid.

Wednesday and Thursday were the days set apart at Kelowna for the celebration of their annual regatta. Many journeyed from Summerland, and the sports being good, and the weather all that could be desired, they thoroughly enjoyed themselves.

During the week a carton of peaches was received at the Review Office. Of the Triumph variety and nine in number, they weighed 3½ lbs., or 6½ ozs. each average. One weighed half a pound, and measured 9½ in. x 9½ in. They were grown by Mr. W. H. Tate of Prairie Valley.

P.S.—Other samples are welcome — you bet.—P.D.

On Tuesday evening last "there were sounds of revelry by night." They came from the young people of the Excelsior Bible Class, who held a social that evening. A party of over twenty boarded the 'Greybird' and the 'Svip' at dusk and for about an hour enjoyed a cruise down the lake. They afterwards adjourned to Elliott's Hall where a short time was spent with games, refreshments and the transaction of some class business.

Wagons, Ordinary Light One-horse Wagons,
Doubletree Neckyokes, Crotch Chains and Whifle-
trees, Doubletree and Whifletrees.**

SEE OUR NEW STOCK.

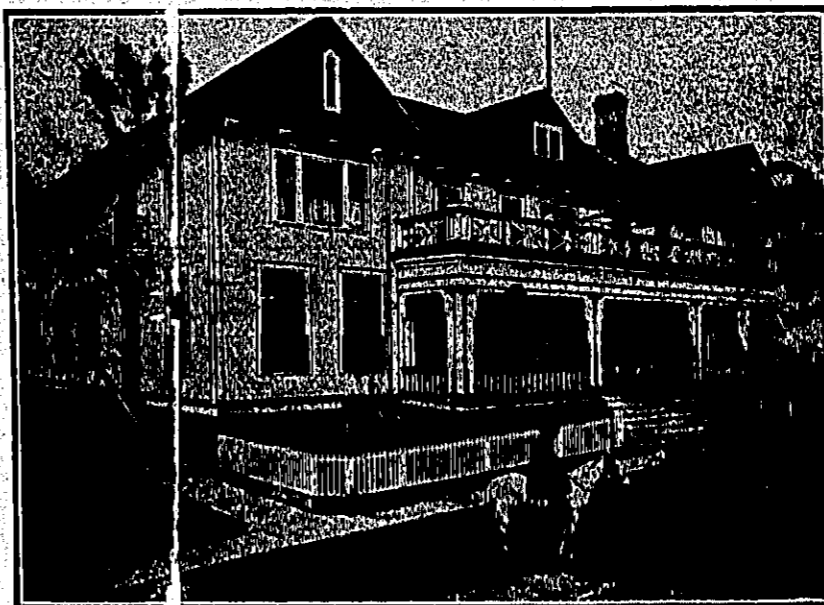

Why lift three feet when a half or two thirds will do as well?

Reduce your lift strain and it will lengthen your life. An ordinary wagon is
three feet off the ground, ovr new double crank wagons but two feet and our
slovens but 16 inches. The low draft makes them easier to haul.

Our new spring slovens are just the thing for the orchard as they will take a load
under trees that the ordinary wagon would not.

Be careful of your hay and feed it is going to be scarce and high. We advance
prices next week.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its
soil, is our new fruit land proposition
on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on
which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without
stones, without timber, without alkali. Here the most punctillious fruit grower can be satisfied in
the way of orchard land. One of the great outstanding features is that all irrigation and domestic
water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU?

WEDDING BELLS.

Pares--Bentley.

A quiet family party went on the launch 'Greybird' on Tuesday last to Penticton, where, at the Anglican Church, Miss H. M. Bentley and Mr. T. E. Pares were married. Mr. and Mrs. Pares afterwards set out on a riding tour.

DOUKHOBORS BUSY.

The Doukhobor settlement at Waterloo, in the Kootenay is forging to the front. Over the settlement is Peter Verigin, head of the Doukhobor Society.

In this settlement there are 1,000 Doukhobors. Waterloo is a veritable garden, and the great ranch is considered by ex-

perts to be almost perfect. They are clearing 4,000 acres of land, to be planted at once in an immense orchard of all kinds of fruit, both large and small.

The settlement is fulfilling a contract with the C.P.R. for 100,000 railway ties. They possess three portable sawmills, and are now negotiating for a fourth. They have a ferry across the river at Waterloo, also one at Castlegar, and are erecting one still further up the river. In addition to the above they are building a bridge which connects with a private road leading to Pass creek, where they own 2,000 acres of land. Where the road intercepts the bridge they are going to erect a large store for the purpose of supplying the colony, as well as the public.

SATURDAY, AUGUST 13, 1910.

FRUIT STEALING.

Complaints have lately been made in more than one quarter, of fruit stealing. These offences seem to have been chiefly against non-resident lot owners, probably because of the lesser risk from bulldog or birdshot.

It is certainly very trying to look expectantly for a crop, not merely for its own sake but as a pledge of future possibilities, and then when one stretches forth a hand to receive it, after its long and careful nursing, to find it has vanished into thin air.

Should anyone be found guilty of doing this jugglery, the heaviest penalty the law allows will doubtless be handed out to him, for public sentiment in Summerland is deeply opposed to the inception and progress of such practices. This has been made evident by the fact that the Municipal Council has offered a reward of \$100 for the conviction of anyone found stealing fruit within the municipality.

While we are sorry for those who have thus been unlawfully defrauded of the first fruits of their investments, we feel still more sorry for the culprit. His soul is badly crippled or he wouldn't want what is not his, and he sells himself for a pitifully small price, rather less usually than the price Judas Iscariot received when he sold himself to the dirty work he had in hand. He should be placed in some kind of psychic hospital instead of a jail, but the chances are in favour of the latter for him if he be caught, since public feeling is as it is. Light fingered gentry should remember that it is a long time since the forbidden apple first got poor humanity into trouble, and it has been the apple of discord ever since,

as many a boy now wearing whiskers can testify.

The wisdom of the Council in spending money freely on the roads is now made patent as the quantity of fruit that has to be marketed comes into view. The areas in front of the packing houses begin to look like the elevator streets of a prairie town in October. Were the roads in their original dusty condition, the fruit sent out would not be in its present fine shape. Peaches, human or arboreal, are sadly affected by dust and jolting, to say nothing of the wear and tear on the horse, rig and driver. Good roads save time also, and time is a very important item these days, if one may judge by the dearth of gossip about town. Every man seems as intent on what he is at as is an ant or hornet on a June morning.

USES OF SAWDUST.

Sawdust is usually regarded as an objectionable product because it increases the danger of fire if deposited near mills or lumber piles and necessitates either cartage with accompanying expense or the construction of a "burner" and the use of conveyors or carts to transfer it from the saws.

A double economy, however, is now in progress. As a result of the use of band saws instead of the old circular and gang saws, a log that, under the old system produced eight boards, will now produce nine, a very substantial increase in product with a corresponding decrease in the amount of sawdust produced.

Owing to its chemical and mechanical properties, it has an ever increasing field of usefulness. Used as an absorbent for nitro-glycerine, it produces dynamite. Used with clay and burned, it produces a terra-cotta brick full of small cavities that owing to its lightness and its properties as a non-conductor, makes excellent fire-proof material for partition walls. Treating it with fused caustic alkali produces oxalic acid. Treating it with sulphuric acid and fermenting the sugar so formed, produces alcohol. Mixed with a suitable binder and compressed, it can be used for making mouldings and imitation carvings; while, if mixed with Portland cement, it produces a flooring material. It is an excellent packing material for fragile articles and for dangerous explosives and can be used as packing in walls to make them sound proof and cold proof.

PIRATICAL NEST CLEARED OUT.

Full details of the fighting at Colowan, near Macao were received by the Empress of India which arrived at Victoria last week. The Chinese admiral, Li Chun assisted the fleet of Portuguese gunboats in the bombardment and blockade of the island where the pirates were besieged behind the high mud walls of the villages. The pirates after a week's bombardment during which a number of fights between landing parties and the pirates took place, broke blockade during a heavy storm at night, the majority making their escape. When the Portuguese and Chinese landing force rushed the walls of Colowan they found it practically deserted. There was considerable loss of life during the fighting and 400 pirates were taken. The island had been a pirate stronghold for thirty years.

Municipality of Summerland.

SALE OF LAND FOR TAXES.

Under instructions from the Municipal Council of the Municipality of Summerland, there will be sold by Public Auction on Wednesday, August the twenty fourth 1910, at 2 o'clock p.m., in the Council Chamber, Summerland, the following lands on which the taxes have been delinquent since the 31st day of December 1908, unless the said taxes and costs are paid prior to the said date:

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—**YOURS FOR 17 CENTS A DAY!**

The typewriter whose conquest of the commercial world is a matter of business history—**YOURS FOR 17 CENTS A DAY!**

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locomotive Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard" all

**Yours for 17 Cents
a Day!**

We announced this new sales plan recently, just to feel the pulse of the people.

Simply a small cash pay-

ment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

**A Quarter of a Million
People are Making Money**

:: Naramata Notes ::

Rev. G. O. Fallis conducted a sacramental service last Sabbath at the close of the regular meeting.

Mr. Hancock journeyed to Sicamous to meet his wife and family who were on their way out from England.

Mr. and Mrs. L. J. Block returned on Tuesday from Banff where they have been on a short holiday trip.

Mr. J. Somerset Aikins is having a substantial cement tank built on his property on a high spot back from his bungalow.

Dr. and Mrs. Wilson, from Vancouver, were the guests of Mr. and Mrs. Robinson on Sunday.

Mr. R. Wilkins launched a new sailboat on Wednesday. The vessel presents a fine appearance, and is a fine tribute to 'Bobs' workmanship.

The third of the season's series of band concerts drew a fairly good but thoroughly appreciative audience to the grand stand last Sunday afternoon. Although several members of the band were absent, the class of music was certainly high, and Mr. A. C. Pearce the leader is certainly deserving of great credit for his painstaking efforts.

Master Willis Mitchell had a close call on Monday evening, through injuries received by a fall from a horse. The little fellow was badly cut about the forehead and the side of his face. Dr. Andrew who dressed the wounds in the first place, said that although bad the matter might easily have been more serious.

A NOVEL FRUIT PICKER.

In the "Scientific American" a device is given for picking fruit from the top branches of a tree without the use of a ladder. Take an ordinary grape basket and make a hole through the bottom. Through this pass the handle of an ordinary rake, and fasten the rake to the handle in the centre and connect with string at each end to the side of the basket. The fruit is pulled by the rake and drops into the basket, and it is claimed that with reasonable care the skins will not be scarred. By splicing another pole to the rake handle a splendid reach is obtained.

The Convention of the B.C. School Trustees Association will this year be held in Kelowna and will be opened on Sept. 13.

IRRIGATION CONVENTION AT KAMLOOPS

The irrigation convention held last week at Kamloops was an unqualified success. Over a hundred delegates were present, and the proceedings were carried on with an enthusiasm which manifested the deep interest modern agriculturists take in irrigation. Every section of B.C. was represented, and Alberta and Saskatchewan also sent their delegates.

In the opening session, Premier McBride, enthusiastically received, spoke of the attitude of the government toward irrigation, and pointed to the B.C. Water Act, recently passed, for a result of their efforts to help the cause along. By irrigation, land a few years ago worth merely a nominal sum was now valued in millions, and this process was still going on. To her already many valuable assets the province had now added that of fruit culture, and her products in this direction were second to none. He regretted the unavoidable absence of Hon. Price Ellison, who, as minister of works, had hoped to be present.

Later, Martin Burrell, M.P., addressed the delegates in a manner which shewed he knew whereof he spoke. He maintained that much water is being used improperly,

and that farmers needed instruction in the proper distribution of water to their crops. Irrigation works should be public property, and the government should help the work along as much as possible.

Several important resolutions were passed by the convention. The most important, carried after much discussion, urged the taking of steps toward the introduction of a system of government ownership for all irrigation works in the province. The National Apple show at Vancouver was heartily endorsed by the delegates.

It was unanimously decided to hold next year's convention at Calgary.

RIFLE ASSOCIATION.

There was the usual practice on the range on Saturday last, with capital shooting conditions. This Saturday the final shoot for the Dominion Salver will take place, and a good attendance is requested. High scores last Saturday:-

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

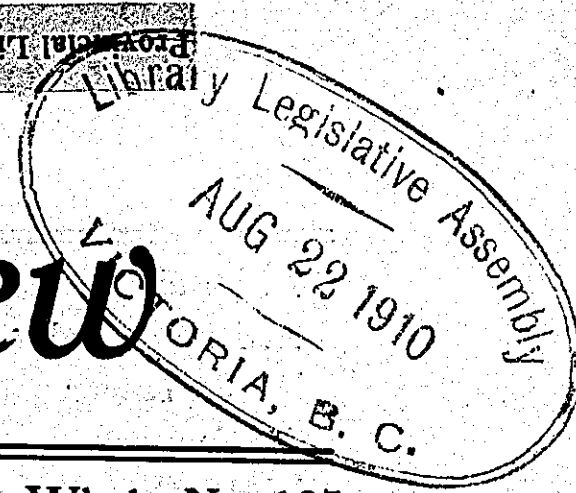

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by

Vol. 3, No. 3

SUMMERLAND, B.C., AUGUST 20, 1910

Whole No. 107

MUNICIPAL COUNCIL.

In Session for Five Hours - Deputation re Peach Orchard Road - Express Office and Longer Hours - School Board Grant for \$2,500
New Pipe Line to be Proceeded With at Once

At the meeting of the Council on Saturday last they were in session for five hours and a big bunch of business was dealt with. In the absence of the reeve, Councillor Thompson took the chair, and the following business was transacted:

A deputation of residents in the Peach Orchard district waited upon the Council desiring to know what was being done in regard to the road leading to Peach Orchard, and would the track be laid across the road as it was all too narrow now. The Council resolved that the Reeve be requested to communicate with the C.P.R., stating that they very strongly object to the placing of the track across the road there, and asking them to discontinue it.

Messrs. White and Co. asked that the cars be allowed to cross the street, and the Council resolved to grant this, the line to run between blocks 28A and 36A for business purposes, thus connecting Messrs. White's warehouse with the C.P.R. tracks.

G. Barkwill asked permission to have a tent on the beach at Peach Orchard, which was granted.

A letter was read from Mr. Bentley re the Peach Orchard road.

A petition was received from the employees of the municipality asking that a nine hour day be brought into force instead of the present one of ten hours; but the Council did not grant the application.

A letter was read from Mr. Busteed of the C.P.R. re the extension of hours at the wharf during the fruit season, stating that arrangements had been made to have the office hours extended to suit the fruit growers as soon as possible. It was resolved to communicate with Mr. Busteed and inform him that as yet no change had been made and that immediate action was necessary.

Mr. J. M. Robinson wrote re the leasing of the electric light plant, and it was resolved that he be requested to forward any offers in respect to the same at as early a

date as possible. A proposition for the taking over of the plant was also received from Messrs. Thornber and Taylor, and the clerk was instructed to write them, making an early appointment, in order to confer on their scheme.

A communication was received from the School Trustees, asking the Council to pass a by-law for the purpose of raising the sum of \$2,500 by debentures for a new high school. The clerk was instructed to frame the necessary by-law at as early a date as possible.

The band sent a deputation before the council asking for assistance to pay expenses to the New Westminster Fair, at which they have been engaged. They explained that \$700 would be necessary to clear their expenses, of which \$500 was already in hand or promised. The Council acknowledged the validity of their plea, and also the advertisement it would be to the town, but were sorry that owing to the heavy burden on the taxes at the present time, they were unable to comply with their request.

Mr. Ashcroft, consulting engineer to the municipality, was present, and the suggestions he brought forth were discussed at length, and the cost of the improvements investigated in a very thorough manner. Mr. Ashcroft explained in detail all the plans and specifications for the proposed improvements to the present irrigation system, and each section was figured out separately, shewing the estimated cost of the various sections. The system, in brief, will consist of a combination of pipe and flume, and the improvements proposed for immediate procedure will be the first instalment of a complete pipe system. The waters from Aeneas and Prairie Creeks will be brought together somewhere on the flat, and by this means a much greater head of water will be given, and instead of a 50 per cent. leakage as at present, the loss in

transit will be entirely eliminated, thus doubling the amount of available water. The domestic and irrigation supplies will be run together in a wooden pipe from the reservoir, across Siwash Flat, Lower Jones Flat and around Giant Head, along Garnett Valley and Jones Flat, with an extension of 6,000 feet to Peach Orchard, at a total cost of \$121,575. This figure leaves a good margin for small extensions and improvements which may become urgent. The combining of the two systems saves the sum of \$26,430 in the original expenditure.

As it would not be possible to do all the work outlined before 1911, owing to the short time during which the water can be out of the ditches, Mr. Ashcroft recommended that the following items be proceeded with this year. Improvements at head gates at Trout Creek, Trout Creek main, North Main in Prairie Valley, and improvements at headwater lakes; that tenders be called for the supply of pipe, the digging of trenches and the hauling of the pipes.

It was resolved that the Board of Control be authorized to call for tenders as suggested, and to see to the carrying out of the system as recommended.

In the current issue of the Vancouver Sunday Mail, there is an article on 'The Sniling Okanagan Valley.' It is a splendid write up for the Vernon and Mara districts, and well illustrated; but as for the other places in the Valley, it passes over them in a sentence.

Salvatore Setta, a wealthy Italian land owner, was kidnapped last week by brigands, who are holding him for ransom. His family and friends are hastening to raise the ransom demanded by the bandits, fearing that Setta may be killed. His captors sent notice that the price of freedom is \$10,000. Recently, a wealthy merchant was killed when his family refused to pay the ransom demanded by his captors.

HOBOS RAMPANT.

It has oftentimes been said that we get more like Chicago every day, and it is becoming more so as the weeks roll along. Hoboes now are the latest addition to the community, one good specimen arrived in at the beginning of last week. He was on his way to the coast he said, having started out from Prince Albert, but he had come round through the Okanagan to see the country. He had his usual credentials in the form of a letter, and could give reams of stories as to how and why he was on the road, etc., but if he could make his way to the coast he had friends to help him there. Meanwhile this story he foisted upon all and sundry going through the district and many a quarter was given to him. Another dropped in the town of the same variety this week and worked the oracle once more. It is a well known fact that the Society of Hoboes is one of the best organized institutions in the world, wherever one goes there they are with their secret signs marked round the place. It is not charity to give to such individuals, rather the reverse, and whenever one presents a letter of appeal and tells his mournful tale of woe, or maybe perhaps a nasty wound is displayed which the doctor could soon tell us was entirely superficial, and caused through some slight acid or concoction by the vagrant himself, it is wise for all to be wary of such people, and give them the cold shoulder, thereby gaining a name for the district as being entirely adverse to that type of humanity dubbed HOBOS.

The Baptist service at West Summerland for next Sunday will be at three o'clock instead of half past. Rev. Mr. Williamson, field secretary of Sunday Schools for B.C., will make an address, and there will also be a farewell address from Mr J. J. Wallace who is about to remove to Vancouver. There will be special music by the Sunday School. All, especially those interested in Sunday Schools, are invited to be present.

You don't have to go to war to be patriotic. Improve your locality, uphold your town, enlarge its interests, and lend a hand to progress and you are a patriot—a lover of your country—as truly as the soldier who shoulders his musket. This is just the right size of town to settle down in and enjoy life. Everything for the comfort of life can be purchased here. When you want to leave your farm, come to our town and build a nice comfortable home and be among the best people in the world.

W. Nelson	31	26	30	87
A. E. Nelson	29	28	26	83
F. Munro	27	25	30	82
B. Steuart	26	28	28	82
J. Dunsdon	27	30	25	82
O. Smith	31	27	22	80

The winner of the Salver, which was for the best aggregate of four shoots, turned out to be Muir Steuart with a total of 357, and the leading scores over the series were:

	25 June	9 July	30 July	13 Aug	Total
M. Steuart	91	83	92	91	357
F. Munro	86	95	88	82	351
H. Dunsdon	85	91	81	88	345
W. Nelson	83	81	88	87	339
B. Steuart	95	78	83	82	338

WATER ACT, 1909.

BY DIRECTION of the Board of Investigation, Notice is hereby given that the Board will proceed to adjudicate upon claims to water on the following streams and tributaries thereto in the Similkameen and Osoyoos Water Districts, under authority of Part 3 of the Water Act, 1909.

- Pine Creek
- Spring on Pre-emption No. 2986
- Spring on Ecks Pre-emption
- Shoot Creek
- Ellis or Nanisheen Creek
- James Creek
- Penticton Creek
- Spring on Pre-emption No 2551
- Canon Lake
- Second Creek
- Cedar Creek
- Little Penticton Creek
- Sheep Creek
- Four-mile Creek South on Dog Lake
- Four-mile Creek on East side Okanagan Lake
- Five-mile Creek
- Johnson Creek
- Spring on Pre-emption No. 4507
- Spring near Pre-emption near Four-mile Creek
- Spring near 1st Creek near Pre-emption No.188a
- Spring on Sub-lot 19, L. 2711
- Alder Creek
- Maple Creek
- Creek three miles south on Dog Lake
- McLean Creek
- Lake near Kelowna-Penticton Trail
- Spring, Penticton
- Stewards Dam
- Creek, Lot 286
- Seven-mile Creek (Lots 210 and 266)
- Camp, Old Camp, 9 mile or Arawana Creek.
- Creek on Lot 211.
- Spring near south-east corner of lot 587.
- South branch of Ellis Creek.
- Spring, Lot 2551.

Meeting for the purpose of adjudication will be held at Penticton on or about October 20th, 1910; Okanagan Falls on or about October 25th, 1910; and Naramata on or about October 28th, 1910.

W. S. DREWRY,
Chief Water Commissioner.

Lands Department (Water Branch),
Victoria B.C., July 15th, 1910.

Local News Items.

Close upon 25 left town for the fair at the coast at the beginning of the week.

Mr. F. M. Wright is at present at the conference of Poultrymen at Vancouver. He represents the Southern Okanagan.

Miss Hector, of Brandon, Man., is at present visiting Mrs. J. N. Merrill at Trout Creek for two or three weeks.

In another column it will be seen that the closing of ditches is advertised to take place on September 1st on the north and south main sections.

Mr. Harold E. Dewar is just commencing violin classes, and Summerland may hope in the near future to have several budding young violinists of the a la Simonetti variety.

The new 500 foot hose with reel arrived in town at the beginning of the week. It is to be used in the south end of the town, and will be stationed near to Dr. Andrew's residence.

For the benefit of the residents in the Okanagan district sleeping accommodation in the Vancouver sleeper has been given to the agent at Sicamous. Applications should be made through the local agent.

Mr Howis of Nicola was touring the district in his car during the past week. Near T. J. Smith's ranch the car ran off the road, and a couple of hours hard work by a team was necessary before the automobile was once more on level ground.

It would seem that Triumph peaches weighing a half pound each are by no means uncommon, as several have been handed in to the Review Office this week. One lot of four nicely filled a plum basket. P.S.— They afterwards filled our bread baskets.—P.D.

Mr. A. J. Saunders, of Chicago, was in town the beginning of the week. He has considerable property here, and it being three years since he was last in the community, was very surprised at the showing now as against then. He is at present in business in Chicago and reports it brisk.

The cans for the cannery have at last arrived, and the place is now in working order. In canning the fruit the patent sanitary can will be used, which means that no solder or any other such sealing solution will be used, the can being automatically fastened and clamped.

Local News Items.

The last Sunday afternoon Band Concert in Summerland for the season will take place in the bandstand next Sunday from 3 to 4 o'clock.

The members of the W.C.T.U. of Peachland purpose holding a social, during the afternoon and evening of Thursday the 25th August, on the lawn of Hon. G. H. V. Bulyea. Ice-cream, cake, and other refreshments will be served. Come and bring your friends.

It was a fine summer morning, not Monday by any means, and he went to the kitchen to look at the canary which usually sat on his perch in the familiar cage. Judge his surprise when a snake knowingly looked through the open door, and threw out his forked tongue. Mr. Reptile was soon despatched and dissected, and the missing songster was found to be an inside passenger. - At this rate Summerland will be as famous for unparalleled incidents in the feathered world as she is for the luscious peach and rosy apple.

Mr. Wm. P. Kearns is at present going the rounds of the district on behalf of the Review. He is authorized to collect subscriptions, and to save unnecessary grey hairs on the pate of the manager and free him a little from the shortage of filthy lucre, and it is hoped that Mr. Kearns will be received with open arms, and what is more to the point, with an open wallet.

Otto Lane and Arthur M'Ewan of the C.P.R. bridge gang in town have departed East for a three months vacation. On Saturday night they were presented by their friends each with a silver pipe. The presentation was made by Mr Edgar, and the recipients suitably replied. After which songs and stories were given by members.

The Boundary Creek Times says that if Dr. Crippen is anything like his newspaper portraits it will not take the jury five minutes to bring in a verdict of guilty.

The first number of "Westward Ho" in its changed form and name "Man-to-Man Magazine" has been published.

---	---	---	---

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctillious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

Or better yet, call and see us.

The British shipbuilding firms seeking permission to tender for the construction of vessels for the new Canadian navy are Harland & Wolff, Swan & Hunter, and Vickers, Sons & Maxim. Canadian firms who have asked for the privilege of looking over the British Admiralty plans are the Polson Iron Works, Toronto, the British Columbia Marine Railway Company, Victoria, and the Collingwood Shipbuilding Company.

When the admiralty plans are in readiness it is announced that the agents of the companies desiring to tender will be allowed to examine the plans as proposed before putting in their tenders.

A number of English financiers were gathered together in Winnipeg last week, and this has led to the rumour that some big project is brewing. It would seem that there is a prospect of another railway from coast to coast.

An interesting postal case was tried in Victoria the other day. The agents of the Licenced Victuallers Association had 25,000 letters for delivery in Vancouver. To save expense they expressed them to the terminal city, thus saving one cent per letter. The Post Office authorities took the matter up, but the acting magistrate declared the proceeding quite legal. The case will be taken to a higher court.

SATURDAY, AUGUST 20, 1910.

TOO MUCH RED TAPE.

It would perhaps be too much to expect the business of Canada, which is carried on by salaried officials, to be done with that precision, courtesy and despatch which would mark the same were its emoluments going into private pockets.

Nevertheless, by watchfulness on the part of those higher up, as in the case of great industrial and mercantile enterprises, much might be done in the direction of simplifying processes, with a view to facilitating the despatch of business.

For instance, one direction in which the government might do something is at the ports of entry for inland customs. A bale of goods might lie in Vernon, held in bond by the government, till it rots, without the owner in Summerland knowing it was there. That is so far as the government is concerned. The department does not undertake to tell Tom, Dick or Harry it is holding up something which belongs him. It looks to the transportation companies to do that. But why, we ask, should government officials depend on the transportation companies to do their business for them without check or compensation? It is not the railway that forcibly seizes and holds up Tom's goods: it is the custom's department. Why then does that department not promptly notify the consignee of its action. The railway companies have surely work enough and sins enough of their own to look after without assuming new duties imposed by the government.

Again, when the government does hold up Tom's goods, why does it not forward to him at once simple blank forms to be filled out by him, and returned at once

with the certified invoices of the shipper, leaving the highly technical data required by the department to be filled in to its heart's content by one of its own officials. And if more is required as a guarantee of good faith why should not the declaration before the notary, who abides in every town, be enough? It is enough for other legal transactions, such as real estate deals, wills, and other matters involving vast sums of money, that a Notary Public affix his official seal. Why then may he not do it in this simple matter?

As things are at present, if a Summerland citizen gets a box of goods worth \$10 from the United States, it is held in Vernon till the C. P. R. officials think it worth while to write about it. Then the citizen must either lose two day's work and his travelling expenses to go before the collector in Vernon with his invoices, story and signature, or he must shell out the sum of \$1 to an unknown gentleman in Vernon called a custom's broker, to have him go in his place. He must provide this gentleman with a legal instrument known as a power of attorney to sign his name for him, and when that is done and the broker has correctly filled up the forms, having somewhere learned how to thread the mazes thereof, then the goods may be released and eventually sent on.

Now, why in the name of all that is curious, we ask, should the resident of Summerland, Peachland, or Penticton have to employ a broker, and pay double duty, to get his goods out of pawn? He doesn't have to do that with the C.P.R. or the Dominion Express Company, or with any other business corporation. Why should his signature on a power of attorney form be any more efficacious in Vernon than his simple declaration before a notary in Summerland? Why should he be obliged to truck with a man in Vernon whom he doesn't know at a cost of \$1 per, losing several days' time, when he could do just as well for 50 cents with his fellow citizen whom he knows, esteems, and sees every day?

Why should a man outside the customs office be required to fill out customs forms? Is it to give the customs collector rest? If it is why does not the department get him another clerk and manage its own business in a business-like way, as other men of affairs are wont to do? The man to classify goods and fill up the schedule accordingly from the certified invoice is the man who runs the custom's business, and all

poor Tom, who has the misfortune to live out of port, should be required to do is to make affidavit to these invoices, and come down with his shekels as per the assessment. For what else do we support a customs office at all?

As things are now inconvenience and expense are heaped upon the out-of-town taxpayer unnecessarily, and it is up to the government to do something to remedy it. Governments, like business enterprises, can't afford not to keep up with the times, which are certainly hard enough for lots of people, without having our protectors add needless burdens.

MARKET REPORT.

Extracts from Commissioner J. C. Metcalfe's Weekly Bulletin.

Apricots are not a heavy crop and rather under size everywhere. B. C. should have no trouble in marketing the crop at fair prices in these markets. Avoid selling too much in local markets, as they have from some American points a better rate into Vancouver than from Okanagan Valley points. On the other hand, peaches are a good crop and prices quoted from American side 40, 45 and 50 cents per case, for the different varieties would indicate about 65, 70 and 75 on a commercial basis of Oregon, Washington prices for B. C. The other large fruits, apples, crabs, pears, plums and prunes will probably rule firmer at fair prices than indicated from first reports, although plums and prunes are reported a heavy crop at some American points. It is not safe to speculate on price at present, the latest reports from Ontario re. large fruits are favourable to B. C. Jobbers and retailers here have been thoroughly advised of our good crop, and it is for the B. C. shippers now to make good by placing themselves in touch at once with the jobbers, retailers and consumers of these markets by putting up a good product and shipping promptly when ready whatever they may have to ship at fair market prices.

REGATTA No. 3 AT NARAMATA CALLED OFF.

On account of the C.P.R. not being able to furnish excursion boats for service on Regatta Day, owing to the heavy fruit crop on the lake, the Committee have been compelled to call off the event which was advertised to take place on September 5th.

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as “The Balance Shift”—“The Ruling Device”—“The Double Release”—“The Locomotive Base”—“The Automatic Spacer”—“The Automatic Tabulator”—“The Disappearing Indicator”—“The Adjustable Paper Fingers”—“The Scientific Condensed Keyboard” all

Yours for 17 Cents a Day!

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash pay-

ment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money with

The OLIVER Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD “GO!” So easy to run that beginners soon get in the “expert” class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers.

‘An Oliver Typewriter in Every Home!’

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE IN BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

DEATH OF MISS FLORENCE NIGHTINGALE.

Photo. by London Stereoscopic Co.

FLORENCE NIGHTINGALE The Angel of the Crimea.

In her home in the West End of London, passing the days of the late Autumn of her life in an invalid chair, lives a white-haired, sweet-faced, kindly-voiced noble woman, whom the world knows as Florence Nightingale. Born in 1820 in Florence, Italy, the daughter of a wealthy Englishman, under his loving tutorship she mastered the classics and literature, became a good musician and learned several languages.

She had a genius for helpfulness, a consecration to humanity that found expression in sweet ministrations of love and care of the sick and suffering. In nursing she saw a noble career for women and in 1849 went to a Protestant school for nurses, on the Rhine. On her return to England she assumed management of a sanitarium for invalid governesses. In 1854 England was roused to a white heat of indignation by the revelations of the horrors of the hospital service of the Crimea. Government incompetency, imbecile red tape, rascally dishonor and criminal neglect in treating the sick and wounded soldiers made mere war itself a paradise of mercy by contrast. Dante's Inferno seemed a mild bit of imagination in the face of the real horrors at Scutari, with four miles of beds huddled in one three-story house.

Florence Nightingale volunteered to lead a band of women to transform the hospitals in the name of humanity, and in November, 1854, with thirty-eight nurses she reached Scutari. Her magic touch brought order out of chaos; the sunshine, sweetness and soothing peace of woman's work filled the rooms; the ghastly mortality was reduced to a minimum; soldiers wounded and dying kissed the shadow of the angel of the Crimea as it fell across their counterpanes or reverently touched the hem of her garment as she passed near them. Often for twenty hours at a stretch she stood giving her orders—the noble leader of her little army of peace; and her kindness, wisdom, sweetness, energy, influence and inspiration seemed inexhaustible.

For two years she kept up the fight and with health impaired returned to England, shunning all publicity. The £50,000 testimonial tendered her by the people, she refused, but finally accepted to found a training school for nurses. By penny subscriptions the soldiers secured enough to erect a statue to her memory, but this, too, she rejected. For nearly fifty years she has been an invalid, and yet this "Grand Old Woman of England," at the age of eighty-five is still serene, sweet, helpful and contented, with a name that will be hallowed as long as the British army and the British nation shall endure.

Entered according to Act of the Parliament of Canada, in the year 1905, by W. C. Mack, at the Department of Agriculture.

On Saturday afternoon last Miss Florence Nightingale passed away, an attack of the heart bringing on the end.

She was the only woman who had ever been decorated with the Order of Merit, and her name will ever live in the hearts and minds of those who have warm side in their nature for humanity. Whenever the Crimean War is mentioned her name is always to the front, being interwoven with many of the gallant deeds of the armies during that terrible struggle. The foregoing appreciation, written previous to her death, gives some slight information as to the high estimation in which she was held throughout the whole of the civilized world.

you will have to come to us. We manufacture
all our harness on the premises, and our
name is a guarantee of quality.

TAYLOR & CO.

:: Naramata Notes ::

Mr. Jack Robinson is at Vancouver attending the exhibition.

Mr. and Mrs. Hancock and family have located a temporary residence in Capt. Languedoc's tent till their house is finished.

Mr. and Mrs. Simpson from Seattle have come here to live. Mr. Simpson will have charge of the electric light plant.

Ralph Kent who has been conducting the extensions to the irrigation system at the upper lakes, has broken up camp for another year, the irrigation season being practically over. His party are now at work on the pipe line making repairs.

The school board are up against a difficulty. A week ago a teacher was practically engaged when subsequently it was learned that the Dept. of Education would not ratify the appointment an account of the party concerned not having B.C. standing.

'The next regatta is off.' That is the word being handed out this week. It is owing to the inability of the C.P.R. to guarantee transportation facilities during the rush of fruit exportation. So that settles our water sports for another year.

Prof. Allen of Wesley College paid Naramata a flying visit last week while on a trip to the coast. He was the guest of his brother A. B. Allen.

Messrs. Gavin of Vancouver are holidaying by trail on horseback. They came up from Penticton last Sunday and spent a few hours with Mr. and Mrs. Hancock. They expressed the opinion that the possibilities of the Okanagan Valley are as yet in their infancy.

On Tuesday the 'Naramata' with the houseboat in tow conveyed a party of land-seekers up north to the Company's new sub-division near Chute Creek. Quite a number of choices were sold, amongst those from here who got at the centre of this proposition being Mr. and Mrs. Simpson, Mr. Wolsencroft, Capt. and Mrs. Languedoc, Mr. C. W. Johnson, Mrs. Wellband, (two), Mr. W. Armour and Mr. Goodman. Besides the fruit lots several town lot choices were sold.

The Sunday School Picnic in the grove down by Mr. Wolstencrofts on Thursday afternoon was well attended and a really good time was spent.

Auction Sale.

Acting under instructions from Mr. J. J. Wallace who is leaving the district, the following household furniture and other effects will be sold by auction at his residence in the Peach Orchard, Summerland, on **Saturday, August 20th, at 2-0 p.m.**

Budding, Pruning, etc., and all kinds of orchard work. W. E. Thomas, West Summerland.

FOR SALE.—30 cords 18 and 20 inch wood, No. 1 quality. Apply E. O. James.

The telephone system will soon be in Fort George.

THE BAND:

In Summerland, at the present time, a very worthy institution is the band. They work hard, and are beginning at last to be recognised, outside the town as well as by our townpeople, as an institution of which the district has just cause to be proud. Whenever they go out of the district, the music which they render is very much appreciated, and well-deserved praise has been forthcoming on every occasion as yet when they have had outside engagements. At Kelowna during the regatta they figured on the program and were exceptionally well received, one criticism was that they were not in uniform, this was to be regretted, but could not be avoided as the extra costumes ordered were not to hand, although long promised, however they have arrived now and this criticism will be no more. They have been engaged to play for three days at the New Westminster show during the month of October, and will fulfil the engagement. The boys deserve it—they have worked hard—and this trip is surely coming to them. Previous to going to the coast they fully intend to give a concert, assisted by local talent, and it is fully expected that the townspeople will turn out and fill the hall to overflowing, just as a slight recognition that the band, as an institution in the town, is appreciated by all, and their services at all times are ever welcome.

CROP CONDITIONS IN EASTERN AND PRAIRIE PROVINCES.

Ottawa, August 12.—The census bulletin shows that the conditions of field crops in Canada this year have been greatly modified by temperature and rainfall, and that between the East and the West it is hardly possible to make a statement of averages that will not be misleading. In the Eastern Provinces growth has been uniformly good throughout July, and the percentages of condition have been high for every crop; but in extensive tracts of the northwest provinces drouth has prevailed and crops are reported in every stage of condition. The northerly parts of these provinces have been largely exempt from the drouth, and there the per cent conditions are high. It is difficult to indicate fairly an average of conditions for the East and West which does not take account of the areas sown, and these have been considerably reduced since the June report. The August report will give revised figures from which yields may be estimated.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by

Whole No. 108

THE APPLE SHOW.

The following letter, which is self-explanatory, has been received from the Agricultural Department by the secretary of the local apple show:

R. Pollock, Esq.,
Secy. Summerland Agricultural Assn.,
Summerland.

Dear Sir,

I beg to inform you that the Department of Agriculture is making arrangements for packing demonstrations at your forthcoming Exhibition, and will provide a competent packer, together with necessary supplies to be used in the demonstration work. I need not state that this feature at your Exhibition should be the means of arousing a very lively interest in the fruit growing industry, and I would suggest your giving full and ample publicity to same in all your programs, prize lists, and catalogues, so that the public may be made fully aware of what should no doubt prove a very attractive feature in the holding of your exhibition.

Yours very truly,

ALBERT E. CRADDOCK,
Secretary Agricultural Fairs Association.

FAREWELL SERVICE TO MR. J. J. WALLACE.

On Sunday afternoon there was a pleasant service in the Baptist Church, West Summerland. It was especially Sunday School Sunday. The school sang a number of pieces suitable to summer and flower time, and beautiful flowers were much in evidence. Mr J. J. Wallace, for two and a half years the superintendent of the school, gave a farewell address previous to leaving for Vancouver. Rev. Mr Estabrook spoke words of appreciation of Mr Wallace, both as Superintendent of Sunday School and Treasurer of the College, outlining a history of the school in its development from a small tent to its present quarters. A beautiful American Standard R. V. Bible with concordance was then presented to Mr Wallace.

Mr Williamson, the interdenominational field secretary for British Columbia Sunday Schools, then gave his interesting and powerful address on the World Sunday School Convention at Washington.

OUR PEACHES BEAT NIAGARA PRODUCT

Is Vancouver Man's Opinion.

The following letter has been received from a business man at the coast:

To Messrs. Young & Moore,
West Summerland, B.C.

Dear Sirs:

Your postcard of the 17th inst. received advising shipment by express of one box of peaches, which have arrived. I must congratulate you upon the quality of the fruit you sent. My original home was in St. Catherines Ontario, in the Niagara district, and of course you know that the people in that district pride themselves in the claim that they produce the finest peaches grown, but if any superior to yours is raised in the world they have got to show me.

I am,

Yours very truly,
W. H. W---

SUMMERLAND CANNERY.

This is now an actual fact, as the full cans testify, and the growers are well pleased that their culls have now a market. Up to the present the overripe and under-sized fruit has not been saleable, and the result has been not satisfactory, this is no more, as the plant on the wharf is up to date in every respect, and capable of handling 7000 2lb. cans per day. At present there are 30 working away, and peaches are being handled. The fruit is first pitted, then scalded and peeled. The cans are then filled with the fruit and syrup added, the lid is fastened on automatically, and the contents boiled. The fruit is handled very little indeed, only when the stone is extracted, and as there is no solder or other sealing solution used the product produced is of the very best.

RIFLE ASSOCIATION.

This Saturday the first stage of the Price Ellison Cup is shot off, and this being class firing also, every member is requested to make a special effort and attend.

On Saturday last, at the rifle range, the following were the scores above 80:

	200	500	600	Total
F. Munro	34	31	26	91
O. Smith	32	26	27	85
M. Steuart	30	29	26	85

HOW CANADA GROWS.

As a result of the great amount of railway construction in the Canadian West that portion of the Dominion is building towns on the wholesale plan. The Canadian government and the railroads, working in harmony, intend to lay out and populate 220 towns during next year and the remainder of this.

It is stated that an average of three new towns will be placed on the map of Canada every week during the next eighteen months. Along the new Grand Trunk Pacific system will be placed about 150 of these embryo cities; the Canadian Pacific railway will build up new towns along its roadbed whenever there are more than sixteen miles between existing stations; the Canadian Northern has entered the new town building scheme, and will place thirty-five new towns as it drives its 3000 mile extension through the unbroken wilderness of the Northwest.

The government has mapped out a scheme whereby it will populate the new towns as fast as the townsites are laid out. First the railroad will erect a station, then an elevator will be built, so that the farmers will be assured of a local market for their crops; then a school building will be started, and while all these preparations are under way the host of Canadian Immigration agents in the United States will be actively engaged in trying to secure an American population for the towns and surrounding farm lands.—Province.

NEW POST OFFICE RULES.

Our postmaster formulates the following rules for the benefit of his patrons, and that you may know what you may exact: No letters given out until they have been received. If you don't get a letter or a paper on the day you expect it have the postmaster look through all the boxes and down the cellar also. It ought to be there somewhere and he likes to hunt for it just to please you. If your friend don't write rave at the postmaster. He is to blame. If he tells you no, put on a grieved look and say there ought to be some. He is probably hiding your mail for the pleasure of having you call for it. Ask him to look again. If you are buying stamps make him lick them and put them on, that's his business.

Local News Items.

The road to success is paved with good advertisements.

Dr. and Mrs. Munro, from Vancouver, are at present in town. They are in residence on their property in Peach Valley.

It is probable that the proprietors of the Fruit Magazine will erect a tent for business at the forthcoming local Apple Show.

It is said that a goose drinks water one hundred times a day. Some geese don't drink water at all.

The new addition to the hotel is now in its place, and work is being pushed forward to have it in readiness at as early a date as possible.

The SS. Kaleden is once more under way. She has a roving commission, and is freighting from all points of the lake, calling where the captain thinks it advisable.

A man never realizes the superiority of woman so much as when he is sewing on a button without a thimble, pushing the needle against the wall to get it half way through, and pulling it through the other half by hanging on to it with the teeth.

The College authorities this year are inviting tenders for supplies. On account of the enormous increase of students this has become necessary, and the approximate quantity of goods required may be obtained from the secretary to the board.

For starting a fire on his lot at Trout Creek without a permit a resident was this week brought up to answer the charge, and he was leniently dealt with. This is the first case in the community, and a warning to others who neglect to carry out the law in respect to burning brush, etc.

Pull together, brethren. We are all here for the same purpose. Then live and let live. The best way to build up a town is for each and every man to pull together and not strive to rend and tear down. All the residents of a town are partners' not opponents. In all likelihood the more business done by your rival the more you will do. Every merchant who treats his customers honestly and fairly will get his share, and the more business that can be secured by united effort, the better it will be for all.

MEMBER OF LOCAL LEGISLATURE—Price Ellison, Vernon.

CHIEF OF FIRE BRIGADE—D. H. Watson.
PROVINCIAL CORONER AND HEALTH OFFICER
Dr. F. W. Andrew.

The bush fires in the Kootenays are still raging, the district being covered with a heavy pall of smoke. Navigation on the main Kootenay lake is conducted with difficulty—the steering having to be accomplished by use of the compass. One gentleman tried to cross the lake in a row boat but got lost, and rowed for eight miles before he got his bearings.

In Northern Idaho the White Pine Forests are still burning fiercely, the flames travelling at times at the rate of 60 miles an hour. Out of a force of 600 firefighters, there are 300 missing, and it is feared that they have perished in the flames.

If those who use the roads would think a little there would be little cause for complaint. It is a very common thing for drivers with a heavy load going to the flats to place a rock behind the wheel of their wagon. This they get from the side of the road. One does not object to the rock being used, but it is the fact that they are left there for some other person to drive over, thereby causing unnecessary jolting to the fruit which comes down. If the drivers would see to it that as soon as their team starts up again they remove the rock this complaint would not be necessary.

The piledriver is now busy driving in bents for the new wharf which will extend out in the lake for a distance of 255 feet. At the same time the packing house nearby is fast nearing completion, and that part of the town will soon be busy. It is high time, for at present the old wharf is taxed to the utmost, and during the last week great difficulty has been experienced in clearing off the many car loads of stuff which have arrived.

WATER ACT, 1909.

BY DIRECTION of the Board of Investigation, Notice is hereby given that the Board will proceed to adjudicate upon claims to water on the following streams and tributaries thereto in the Similkameen and Osoyoos Water Districts, under authority of Part 3 of the Water Act, 1909.

Spring, Lot 2551.

Meeting for the purpose of adjudication will be held at Penticton on or about October 20th, 1910; Okanagan Falls on or about October 25th, 1910; and Naramata on or about October 28th, 1910.

W. S. DREWRY,
Chief Water Commissioner.

Lands Department (Water Branch),
Victoria B. C., July 15th, 1910.

MARKET REPORT.

Extracts from Commissioner J. C. Metcalfe's Weekly Bulletin.

Winnipeg.— I find jobbers here quite ready to buy B.C. fruit if assured as to obtaining it, after ordering, on date required. Demand is good and prices are firmer for all varieties of fruit. Jobbers state they would prefer to buy B.C. peaches as profits would be larger than on the California product, and that is their point always. They do not look for the low prices to which the earlier reports and quotations pointed.

Regina.— Jobbers are desirous of buying B.C. peaches but are afraid to order because of uncertainty of obtaining shipment on time. Growers and shippers in B.C. should be able to assure jobbers as to date of shipping and keep trace of cars.

Saskatoon.— I saw a car of mixed fruit from Vernon, shipped on Aug. 3, arrived here on the 11th—8 days in transit. The peaches, apples and plums though ripe were good, but the apricots and cucumbers were too ripe. Consignee stated he would have to sell in town; too ripe to be shipped out to rural points. The following day I examined another car of mixed fruit and vegetables from Vernon; shipped August 5, arrived on the 12th— seven days in transit. Consignee stated that on opening this car the temperature was 70 degrees, and no ice whatever in the bunkers; icing in transit was certainly neglected. The potatoes were good, apricots a total loss, beans dry and mouldy, and apples sound but below grade.

Growers and shippers are evidently letting peaches and apricots ripen on the trees too much before picking. Shippers must insist that transportation company examine cars in transit, and filling bunkers with ice when necessary to prevent variation in temperature. Avoid filling cars too full and brace securely to avoid slurring of crates. When shipping mixed cars put apricots and peaches near the bunkers and apples to the centre. Keep trace of cars either from shipping point or destination, and be able to divert in transit if necessary.

Bears are getting cheeky in Whitemouth, Man. There being hardly any water they are making for the vicinity of the towns. The other night a farmer met four, he had his rifle with him and shot one which turned on him, and he was badly mauled. His cries brought a neighbor and between them they despatched Bruin. At the present time the people in the district hardly ever travel without a rifle on account of the brutes.

BAPTIST CHURCH—In Elliott's Hall at 10.30 a.m. Sunday school at 11.30 a.m.

At West Summerland: Sunday School, 2.30 p.m. Service, 3.30 p.m. B.Y.P.U., 7 p.m.

Earl Grey has started for the frozen north. He is travelling en route for York Factory.

Two young fellows named Roy and Meade met their death in Winnipeg last Monday. They were working at the electric light wires, and Roy touched a live wire and was instantly killed, and Meade attempted to rescue him, but met the same fate. They were working without rubber gloves which are provided for all employees.

A porter named William Palmer was shot and killed at the hotel at Kragg on Saturday last, and the murderer, Martin Hellar, took to the bush. He was hunted down, but kept his pursuers at bay with a 30.30 rifle for some considerable time. A shot from constable Gorman brought him down, but he gained cover in a disused shack, and it was some time ere he gave in. He was ultimately captured and taken to the hospital at Fernie, where his wound was attended to. In all probability it will prove fatal.

Dr. Crippen and Miss LeNeve have been extradited to England on the liner 'Megantic' which left Montreal last Friday. Old Country justice is swift, so that the mystery surrounding Mrs. Crippen's death will soon be either solved or deepened.

Rates \$2 to \$3 Per Day.	- . . -	- . . -	Special Terms by Week or Month

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

THE SUMMERLAND TRUST CO., LTD.

J. M. ROBINSON, Manager,

NARAMATA, B.C.

Or better yet, call and see us.

By reason of the great success of Vancouver's first fair, which closed on Saturday, its directors and officials now suggest the holding of a great world's exposition in 1917 to celebrate the jubilee of confederation. Others favor 1918 as a more appropriate year. The directors intend to aim for a big event from now on, and will request the city and provincial government to make a grant of additional land in Hastings Park, which will give the exhibition a total of nearly two hundred acres of meadow, forest, mountain and seashore, making the site one of the most ideal on the continent. The federal government will also be approached for a grant.

Mr. and Mrs. L. C. Woodworth wish to thank their many friends of Summerland for the kindness and sympathy shown them during the recent illness and death of their little loved one.

On Wednesday night a team standing outside T. E. Moore's store started off at a trot down towards town, journeying by the gulch road. They negotiated this alright, but when near the hospital they got a fright, and careered off at a good pace, finishing up by smashing the rig, and also two others with which they collided. Freda Woodburn was knocked down by them, and got her head badly cut. She received every attention, and is getting along alright now.

SATURDAY, AUGUST 27, 1910.

THE ANGEL OF THE CRIMEA.

In the passing of Florence Nightingale at the age of ninety years the world loses one of its most beautiful and heroic characters. We say "beautiful" because she was deservedly called "the angel of the Crimea" as the following classic tribute sent home from the front will show: "Wherever there is disease in its most dangerous form, and the hand of the despoiler distressingly high, there is that incomparable woman sure to be seen; her benignant presence is an influence for good comfort even amid the struggles of expiring nature. She is a "ministering angel" without exaggeration in these hospitals, and, as her slender form glides quietly along each corridor, every poor fellow's face softens with gratitude at the sight of her. When all the medical officers have retired for the night, and silence and darkness have settled down upon those miles of prostrate sick, she may be observed alone, with a little lamp in her hand, making her solitary round."

That she was heroic is evidenced by the fact that she blazed a new trail at the usual price—the social frown, words from the doctors that were like bullets, and words from her friends and equals that were little better than spear thrusts. Yet she never faltered nor swerved from her high ideal.

To understand what she endured and accomplished we have to remember that Florence Nightingale was by birth and breeding a lady. She was highly educated, speaking half a dozen languages fluently, and was well up in science and mathematics. When she began her work of car-

ing for the sick, and generally ameliorating social conditions, nursing was the work of Sairy Gamps, "reeking of onions and rum, with one hand on their patient's pillow and the other in his pocket." To be identified with them was to be as those who have touched the unclean thing.

Yet this noble, clear-brained girl, seeing that much of the misery was simply due to ignorance and bad sanitary conditions among the poor, quietly immolated herself on the altar of public service, in the hope that by patient continuance in better doing she might ultimately effect a change for the better in the lives of those about her.

It is another evidence of the power of her intellect that before tackling this huge task of reformation she should have seen so clearly the need of most careful preparation on her own part. She not only investigated the methods of caring for the sick in England but walked the hospitals of Dublin, Edinburgh, France, Germany and Italy. In the most noted hospital in Germany she enrolled herself as a voluntary nurse in 1849, and when she returned to England she knew more than any person in the land regarding hospital work.

Small wonder then that when there reached England the howls of the dying soldiers, whose lives, in the care of brutal and drunken army surgeons, were being worn out in filth and vermin as might be those of mongrel curs in a kennel, the war office should beg this cultured lady to come to their help by leading out there a company of English women to care for English soldiers, as French women were caring for those of France. She went, and order and cleanliness soon came out of chaos and dirt. Of the army uniforms she found so encrusted with filth and vermin that many soldiers preferred to go without coat or shirt rather than wear them, she made a bonfire, to the great delight of the men and the scandal of the surgeons. Things were made hard for her in other ways, but she persevered, and finally cleaned things up and so saved the lives of thousands dying of neglect. Worn out she took fever but refused to return to England till her work was done. When she did England was at her feet. But she did not want it and escaped the tribute by booking for home as simply Miss Smith.

Later on, when the government requested her to report on the reform of sanitary conditions, she presented such a report as, it is said, has never from that day to this been excelled by any body of sanitary experts summoned to investigate defective

conditions.

It is pleasing to think that honors of many kinds did come after all to that noble spirit. A special jewel from Victoria, the Albert medal, herself and the Queen the only two women on whom it was ever conferred; a large sum of money from popular subscription, with which she built a hospital, and training school for nurses—these and other distinctions attested the esteem in which her life and work have been held by great and small alike. She was worthy of them all, and dying, leaves behind her a name imperishable in the annals of the splendid few born to great achievements.

With her usual modesty she requested a quiet funeral; and refused a tomb among the illustrious dead in Westminster Abbey.

:: Naramata Notes ::

Mr Gordon Jury from Bowmanville, Ont., spent the fore part of the week in town the guest of his university friend, Mr Will Robinson.

At the close of the morning service last Sunday Miss Vera Palmer and Miss Gladys Robinson sang an acceptable song.

The "Kaleden," the new C.P.R. steamer, paid Naramata her first visit to deliver freight.

Mr W. H. Pefley has added another 320 acres to his possessions in the neighborhood of Penticton. This makes his block comprise 960 acres.

Mr Walter Land leaves early next week for the South. His intention is to spend the fall and winter in the fruit districts of Washington.

Numerous stories are afloat regarding the depredations of the cayotes amongst the local poultry yards. It may yet be found necessary to make a united effort to exterminate the thieves.

The road construction gang under foreman W. Nuttall are making good progress on the way to Chute Creek, their objective point.

Mr Robinson spent a couple of days this week back of Peachland examining, with others, the sources of Deep Creek.

Mayor Gaynor of New York is fast gaining health. The wound caused by the shot of the would-be assassin is gradually healing, and his physicians are considering plans for his removal to his home.

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as “The Balance Shift”—“The Ruling Device”—“The Double Release”—“The Locomotive Base”—“The Automatic Spacer”—“The Automatic Tabulator”—“The Disappearing Indicator”—“The Adjustable Paper Fingers”—“The Scientific Condensed Keyboard” all

**Yours for 17 Cents
a Day!**

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash pay-

ment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

**A Quarter of a Million
People are Making Money**
with

The **OLIVER**
Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD “GO!” So easy to run that beginners soon get in the “expert” class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers

‘An Oliver Typewriter in Every Home!’

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE IN BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

SIR WILFRID LAURIER

The Premier of Canada

By sheer force of ability and the compelling power of character, Sir Wilfrid Laurier has reached the highest position in Canadian politics, and won a name that "must live in the annals of the British Empire." He has overridden obstacles that would have daunted a man of less virile genius and patriotism. Though French was his ancestry and language, and Catholicism his religion, he has become the leader of the destinies of a great English-speaking nation, the larger part of whose people are Protestants.

He was born in St. Lin, Quebec, in 1841, of a family of rebels who fought bravely under Papineau in the revolt of 1837. From the little country school where his teacher, a Scotchman, spurred his ambition and powerfully influenced his life, he passed to L'Assomption College, and in 1864, after completing his course in law, entered the Bar. When he made his debut in politics in 1871 as a member of the Quebec Assembly, his magic eloquence, the fearlessness, strength and finality of his words, and the mastery by which he brought order out of chaos, light out of darkness, thrilled his audience.

Three years later he resigned from the Legislature and was returned to the House of Commons on the overthrow of the Macdonald government. In 1876 he became minister of inland revenue, and two years later changes in politics deprived him of this position. He was the acknowledged leader of the Liberals who were the Opposition party until 1896, when after eighteen years of waiting, the reins of government again came into their hands and in the first flush of triumph they made him Premier.

His statesmanship has been broad, liberal, far-sighted; his patriotism and his love of liberty are manifest in every act and word. He loves and cherishes the British Empire, and glories in the part that Canada takes in it; but as a Power of great possibility, sharing with the United States the golden future of the American continent, he demands of England and the world the recognition of Canada, not as a babe in the swaddling clothes of a colony, but as a full grown nation of virility and assured triumph.

Tall, erect, with a handsome presence, clean-shaven face, clear, penetrating blue eyes, a firm mouth, broad shoulders, a brow masterful and dignified, a voice soft, sonorous and ever with the suggestion of unexpended reserve, a smile gentle and soothing as a benediction, with a courtesy and kindness that surround him as an aura—this is Sir Wilfrid Laurier, Canada's greatest orator and statesman.

Entered according to Act of the Parliament of Canada, in the year 1904, by W. G. Mack, at the Department of Agriculture.

Charles G. Hubbard, of the Hubbard, Elliott Company, narrowly escaped death when charged by a bull moose while hunting in the Lake Kenai county. He killed the enraged animal when it was only ten feet away. The horns are said to be the most beautiful yet found in this section of Alaska.

At Vernon, on Tuesday, Mr. H. C. Schulthers of Coldstream had a close call. He was driving across the railway track, and his wagon rumbling heavily, he did not hear a train which was approaching. It struck the fore part of his wagon completely smashing it and one of the horses was killed. Mr. Schulther was bruised, but luckily escaped with his life.

AT REST.

On Sunday August 21st, after a brief illness of one week, Susie Annabel Woodworth, youngest child of Mr. and Mrs. L. C. Woodworth, aged three years and three months.

As a result of information laid by James Bates, provincial game warden for Moyie district, E. G. Gwynne, a Moyie merchant, and Arthur Peachey, an employee of the Consolidated company at the St Eugene concentrator there, appeared before E. A. Hill, J.P., charged with shooting a black bear and a cub out of season. The accused pleaded ignorance of the game regulations and were fined the minimum penalty of \$25 and costs. The accused contributed \$27 each to the provincial treasury.

TAYLOR & CO.

Local News Items.

The new science teacher at the College is Mr Guy M'Adam. He is a graduate of University of New Brunswick, and also M.A. of same university. For two years he took up special science work at Harvard, from which place he comes to Summerland. As a teacher he is well qualified, having already had six years experience in that capacity.

The new Shore road between Peachland and Summerland is fast forging ahead. It is now possible to get saddle horse along to Crescent Beach, and at the rate the improvements are going along, rigs will soon be able to journey up to there also. The heavy blasting which is going on, was responsible for a landslide this side of Crescent Beach on Tuesday. No one was working near at the time, and the earth displaced went down on to the road, and a goodly portion in the lake.

For those intending to travel, and requiring sleeping accommodation, it would be advisable to notify the local agent. For instance there were 150 went down to the exhibition at the coast recently, no notification as to number could be forwarded, hence the sleeping accommodation was naturally inadequate, and many were disappointed. To avert this, it is easy, and the travellers should notify early, at least five days ahead.

It would be interesting to know the record for the number of peaches eaten in one day. We have heard of one case where a kid of ten ate 50. A week or so ago two pretty big kids started in a box, and finished it, but like Oliver Twist they wanted more but they were not forthcoming.

We owe it to the community in which we live to do everything we can in every way possible that will be to its advantage. Our neighbor's prosperity means a great deal more to us than someone's who lives elsewhere. We should bear this in mind in buying our goods. We can afford to pay our home man a firm price for his wares rather than send our money away, knowing as we do that every dollar our own citizen makes will help in sustaining our schools, churches and public institutions. It pays richly to patronize home industry.

NOTICE OF DISSOLUTION OF PARTNERSHIP.

NOTICE is hereby given that the partnership heretofore existing between us, the undersigned, ORLANDO VAUGHAN and BAPTISTE CRAWFORD MOORE, carrying on business as Merchants at Summerland, B.C., under the firm name and style of VAUGHAN & MOORE, has this day been dissolved by mutual consent, the said BAPTISTE CRAWFORD MOORE retiring from the said partnership, and the said ORLANDO VAUGHAN will continue to carry on the said business under the title of O. VAUGHAN. ALL DEBTS owing and accruing due to the partnership of VAUGHAN & MOORE, are to be paid to the said ORLANDO VAUGHAN at Summerland aforesaid, and all claims against the said partnership are to be presented to the said ORLANDO VAUGHAN, by whom the same will be settled.

DATED AT SUMMERLAND this fifteenth day of July, 1910.

WITNESS as to the signatures
of ORLANDO VAUGHAN and O. Vaughan.
BAPTISTE CRAWFORD MOORE, B. C. Moore.

W. H. T. Gahan,
Solicitor, Penticton, B.C.

TENDERS FOR COLLEGE SUPPLIES.

Tenders will be received by the undersigned up to Monday, September 5th., for the furnishing and delivering of supplies at Okanagan College for the eight months ending May 21st 1911. Tenders will be received for farm produce, meat, milk and groceries.

List of articles with approximate amount required in each will be supplied by the undersigned upon application by telephone or letter.

Municipality of Summerland.

TAX NOTICE.

No Discount is allowed on Municipal Taxes paid after the end of August. The Municipal Treasurer will be in the Council Chamber, Summerland, and the Municipal Office, West Summerland, to give all Ratepayers an opportunity to pay their taxes and get the benefit of the discount. Office hours will be as follows: Council Chamber, Summerland, Wednesday, August 24, 10 a.m. to 5 p.m.; Friday, August 26, 2 p.m. to 5 p.m.; Monday, August 29, 2 p.m. to 5 p.m.; Wednesday, August 31, 10 a.m. to 5 p.m. Municipal Office, West Summerland, Thursday, August 25, 9 a.m. to 12 a.m.; Saturday, August 27, 9 a.m. to 12 a.m.; Tuesday, August 30, 9 a.m. to 12 a.m.

J. L. LOGIE,
Municipal Treasurer.

Local News Items.

Apples at the packing house are fetching 2c. a lb. and pears 2½.

The Public Schools re-open on Monday August 27, with new teachers in the Prairie Valley, Garnett Valley, and Town schools.

Mr., Mrs. and Miss Wallace left for the coast on Wednesday morning. They will take up residence in the city of Vancouver.

Miss Helen Badgley who was in Summerland after Province subscriptions, has come out second in the great competition which has been going on for the last few weeks.

The Okanagan Fruit Union are providing an exhibit of Okanagan fruit for Messrs T. Eaton & Co. of Winnipeg. Early in September a car load of peaches will be on view, and later on a car load of apples.

The Nez Perce Indians from Idaho made their annual trek through town this week on their way to the hop fields at Vernon. Their get-up, as usual, was quite picturesque. They were a source of great interest to the followers of the kodak.

Up to the present time about 130 tons of fruit has been shipped from the district, consisting chiefly of peaches. This as yet is a very small amount, as the late peach crop and apple crop will be exceptionally heavy according to the reports on the orchards.

The "buzzer" at the cannery is O.K. It is amusing to see the watches pulled out to see if they are right. One benefit is that there is little variance in time nowadays, and anyhow there are at least two timekeepers actually alike—a rare occurrence in our town.

Inspector Miller came in last week-end to go over the ground and see if Summerland has the required number of pupils eligible to attend a high school. The prospects are that his report to the Department will favour the establishment of such a school.

The Triumph crop is now over, and the Yellow St John is almost finished, the Early Crawfords are now coming along and Elbertas are expected in a few days. A good many apples are being packed just now, and a load of pears came in last week for shipment. The packing houses will soon be in full swing again with the late peaches and early apples.

Provincial and General

14,000 Scotch people emigrated to Canada last year, and it is estimated that this year's figures will be 80 per cent or even 100 per cent better. They go chiefly to Ontario and British Columbia.

The discovery of copper and gold in the mountains lately near Hope, B.C., started a stampede out of the little town that bids fair to empty the town in record time. The first few claims staked out are reported to be rich in copper and gold. This is the first gold excitement that has troubled Hope since the big rush of 1858.

Already the royal matchmakers are at work, arranging a marriage between the young Princess Victoria Louise, only daughter of the Kaiser, and Edward, Prince of Wales. The political aspect is said to appeal strongly to the Kaiser.

A conservative estimate of Alberta's crop yield for this year places the total at 25,000,000 bushels. This is about 22 per cent. less than last year.

John B. Moissant, a French Canadian aviator, travelled from Paris to London last week, carrying a passenger. The trip took two days.

During the seven months ending July 31, 170,590 persons sailed from British ports to the United States, 217,285 to Canada, 21,183 to Australia and 14,467 to South Africa. It is stated that Australia offers the best inducements to immigrants.

Prof. Crow of the Provincial Agricultural College, Guelph, Ont., states that taken as a whole, the apple growing industry of Ontario is on the decline. This is where B.C. steps in.

The new Naval College will be opened at Halifax this fall with a class of 30 chosen by competitive examination.

At the funeral service of the late Miss Florence Nightingale a crowd of 5000 mourners were in attendance at St Paul's, London. One thousand nurses in uniform being prominent in the great audience, and the band of the Coldstream Guards played the funeral chants.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and ear sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by

Summerland Drug Company
