DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 2, No. 48

SUMMERLAND, B.C., JULY 2 1910

Whole No. 100

AGRICULTURAL SOCIETY.

**Summerland's Annual Fruit Show in October.
Arrangements Being Made for an
Exhibition Excellent in Every
Way.**

Arrangements are well in hand for the annual exhibition in Summerland, which will be held this year on or about the 14th of October.

Subscriptions are being courted, and so far, the show is being well supported, but it is up to every fruit grower in the district to come forward and help the exhibition along. A personal interest in this local enterprise not only helps the district, but at the same time, it also assists the fruit industry.

The Society intends this to become THE event in Summerland, not only this year, but in the forthcoming years — something well worth a visit, and something worth while to exhibit at. There will be prizes to the value of about \$600, and as this is a prize fruit growing country, those who win will be showing exceptionally good fruit. You can grow this kind of fruit, the Summerland kind, and though the exhibition cannot be attempted on the same large scale as in the various cities, yet it will not be behind when it comes to quality, for the district is second to none.

The prize list is being made up and will be printed at an early date, so that everyone will be well notified of the many and varied classes. The following is a resume of the Prize List:

CLASS 1.—Best 5 boxes winter apples, any variety, no box to contain more than one variety. First \$50, second, \$25.

CLASS 2.—Consisting of two boxes of apples: Yellow Newtown Pippin, Spitzenburg, Winter Banana, Jonathan, Wagener, Northern Spy, McIntosh Red, Grimes Golden. In each variety there is a prize of \$15 for first, and \$10 for second.

CLASS 3.—One box of Apples: Rome Beauty, Baldwin, Rhode Island Greening, Gravenstein, Wealthy, King of Tompkins, Hubbardson's Nonsuch, Cox's Orange Pippin, White Winter Pearmain, Fameuse. In each variety there is a prize of \$10 for first and \$5 for second.

CLASS 4.—Box of Crab Apples, any variety. First \$5, second \$2.50.

CLASS 5.—Best pyramid of winter apples any variety. Attractiveness to count 50 per cent. of total points. First \$5, second \$2.50.

CLASS 6.—Best plate exhibits of standard varieties of apples. Each variety to be judged separately. Five apples to constitute a plate. Diplomas.

CLASS 7.—Best box of pears, Bartlett, Flemish Beauty, Beurre d'Anjou, or any other variety. First in each \$5, second \$2.50.

CLASS 8.—Best two baskets of grapes, any variety, no more than one variety in one basket. First \$10, second \$5.

CLASS 9.—Best box of ripe tomatoes. First \$5, second \$2.50.

CLASS 10.—Best 5 Cantaloupes, any variety, best 5 water melons, any variety, best 5 vegetable marrows, best 5 pumpkins, best 5 squash, and best 5 peppers. First in each \$2, second in each \$1.

CLASS 11.—Best exhibit of potatoes. First \$15, second \$10.

CLASS 12.—Best collection of vegetables. First \$10, second \$5.

CLASS 13.—Best collection of pot plants. First \$10, second \$5.

CLASS 14.—Best exhibit of cut flowers. First \$10, second \$5. Best exhibit of sweet peas, any color. First \$5, second \$2.50.

CLASS 15.—Best pan of home-made bread two or more loaves. First \$5, second \$2.50.

CLASS 16.—Best exhibit of honey in comb not less than 5-lbs. First \$3, second \$2. Best jar of extracted honey, not less than 5-lbs. First \$3, second \$2. Best general display of honey, not less than 5-lbs. First \$3, second \$2.

A packing contest will be held for packing students. Packed fruit exhibited by them will be judged by an expert packer, and their proficiency in show packing judged. Prizes will be awarded to the value of \$30. The conditions are:— Each exhibit must consist of 5 boxes of apples; 5 or fewer varieties; 5 packs; all layers except face to be wrapped; box need not have been nailed; fruit may be wiped; no layer papers.

In all classes the entries must be made in the name of the growers or producers only and by such producers in person, or their agents duly authorized.

In the box exhibits packing to be considered in all cases; fruit to be unwrapped and unpolished.

A CANNERY AT LAST.

Mr. T. J. Smith will instal Plant in Shed on the Wharf.

After being in negotiation for some little time, the deal has gone through, and Mr. T. J. Smith has purchased the plant until recently used by the Kelowna Cannery Co. They discarded it on account of it being too small for their present needs.

The plant is capable of dealing with 1000 cans per day, and is expected to arrive on Saturday or Monday.

It will be situated in the big shed on the wharf, and will be ready to handle all kinds of fruit early enough in the season.

NOTED HORTICULTURALISTS COMING.

Mr. Fulton, secretary of the Farmers' Institute, has received intimation to the effect that Professors Thornber and Thatcher, of the State College, Washington, will be in Summerland on July 22nd.

In the afternoon, Professor Thornber, assisted by Mr. Hoy, will give a demonstration, and in the evening he will talk upon Practical Peach and Apple Culture. Prof. Thatcher will take for his subject either Soil Fertility or Agricultural Education in Public Schools.

BAND PROGRAMME.

The following programme will be rendered on Sunday afternoon, July 3rd, at Naramata, commencing at 3 p.m.

March, Our Special	-	-	Jewell.
Solo, Love and Roses	-	-	Czibulka.
March, Steel King	-	-	St. Clair.
Intermezzo, Loin Du Bal	-	-	Gillet.
March, R. L. I. B.	-	-	Hall.
Gavotte, Loving Hearts	-	-	Beyer.
March, Richmond	-	-	Hall.

Maple Leaf and King.

The following programme will be rendered in the Bandstand, Summerland, on Thursday evening, July 7th, commencing at 8.30 p.m.

March, Inspection	-	-	Beyer.
Selection, Welsh Airs	-	-	Round.
Barn Dance, Beauty Bright	-	-	Hosfeld.
Valse, Danube Waves	-	-	Ivonovici.
Intermezzo, Lion Du Bal	-	-	Gillet.
March, Appleton	-	-	Hall.

The Maple Leaf and King.

Bandmaster.	Manager.

HAVE BREAKFAST HIGH IN THE AIR

TWENTY PASSENGERS TRAVEL ON DIRIGIBLE

The Deutschland will make Hundred mile Flights Starting from Dusseldorf, Germany. First Commercial Trips in the World.

The giant dirigible Deutschland at Dusseldorf, Germany, made the first purely commercial aerial trip in the history of the world last Friday, June 24. It sailed with twenty passengers who had paid \$50 each for their tickets.

The Deutschland was in the air three hours, sailing south-easterly. Weather conditions were ideal for the flight.

The Deutschland travelled a distance of fifty miles, then returned to Dusseldorf. Twenty new passengers were taken aboard for a similar flight this afternoon. It is the plan of the management to continue these hundred-mile flights with Dusseldorf as the starting point and terminal.

The revenue in fares for this trip is \$3,000. Twelve Germans, six Englishmen, and two Hollanders were the passengers on the first trip, and breakfast was served on board.

Airship depots equipped with turnstiles have already been established, and the management will soon open ticket offices.
—Victoria Times.

RIFLE ASSOCIATION.

The first shoot of a series of four for the Dominion Salver took place on the range on Saturday, the following leading :

	200	500	600	Total
B. Steuart	31	34	30	95
M. Steuart	32	27	32	91

RECEPTION TO REV. AND MRS. HARDY.

A very pleasant and enjoyable time was spent on Monday evening in the Men's Club, the occasion being the reception, on the part of the Methodist congregation, to their new pastor and his wife, Rev. and Mrs. Hardy. Mrs. A. T. Robinson occupied the chair, and in her usual witty and graceful manner spoke words of hearty welcome to the guests of the evening.

Words of welcome were also spoken by Mr. Robson, representing the congregation; by Mrs. Conway, for the Women's Missionary Society; by Mr. J. R. Brown, for the Sunday School; and by Rev. Jas. Hood, on behalf of the Presbyterian Church.

To these kindly greetings, Mr. Hardy, on behalf of Mrs. Hardy and himself, made a very fitting and comprehensive reply.

A short but delightful musical program was rendered during the evening. Instrumental music by Mr. P. Thornber, solos by Mr. Harris and Miss Brown, and a quartette by Misses Brown and Hobbs and Messrs. S. Sharp and G. Thornber.

At the close of the evening refreshments were served by the ladies of the congregation in attendance.

Whilst digging a drain under the Mountain House at Prairie Valley, recently, the worker came across a nest containing six eggs upon which the mother bird was sitting, about two feet under the surface. The eggs were all fertile. It would be interesting to know how the bird came to be there, and how many years it had been buried.

In the conditions of the tenders for the construction of ships for Canada's navy, it has been definitely decided that one of the requirements shall be that they be built in Canada. The navy department will be in a position within about a month to supply all the necessary information on which to base the tenders, and any Canadian or British firm of established standing will be given ample opportunity to submit figures. The firm of Vickers, Son & Maxim is now actively preparing to have its Canadian branch at Montreal in readiness to undertake the work of construction next year, if their tender is accepted by the government.

The first payment for the Irrigation, Light and Domestic Water Systems, which the Municipality have recently purchased, has been made during this week.

NATIONAL IMPORTANCE of PUBLIC HEALTH.

The fundamental importance of the subject of public health to our national civilization and industrial efficiency was concisely expressed by the Chairman of the Commission of Conservation in his inaugural address before the first annual meeting of the Commission. In this connection Mr. Sifton said in part: "The physical strength of the people is the resource from which all others derive value. Extreme and scrupulous regard for the lives and health of the population may be taken as the best criterion of the degree of real civilization and refinement to which a country has attained. It cannot be said that it has received too much attention, though the Provinces, the Dominion, and the municipalities have health laws and health administrations all doing effective and useful work. There are, however, many branches of the subject, general in their character, which merit attention. The Dominion spends hundreds of thousands of dollars in eradicating the diseases of animals, and the work, it is pleasing to know, is being done with thoroughness. But no similar effort is being made by Province or Dominion to meet the ravages of diseases among human beings, such e.g., as tuberculosis."

That there is a great work to be done in checking the inroads of tuberculosis is evidenced by the mortality statistics of the last census. In the census year there were 9,709 deaths from the disease in Canada. Or, in other words, twelve deaths out of every hundred in that year were due to tuberculosis. And yet tuberculosis is classed by modern medical science as a preventable disease.

There will be a special meeting of the Ladies Hospital Auxiliaty on Tuesday next at 8 p.m. in the Municipal Hall.

The members of the Canoe Club have had a very good offer for their war canoe. It has not yet been decided what to do in the matter, but seeing that athletics and sports seem to be in a very dormant state at the present time, it would not be a bad idea to dispose of this piece of property, and place the proceeds in a trust account at the bank, to be expended at some future time in a manner decided upon by the members. Maybe, seeing that at present there is no place for the bathers, it could be spent in the erection of such an one, or if it has to be devoted to boats of some kind, then a good idea would be to erect some sort of landing for motors, &c., which could be used as a tie-up for craft of this description.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctillious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU?
If it does write us and we will only be too glad to give you all the desired information

SUMMERLAND HOSPITAL.

During the past month the following donations have been thankfully received at the hospital:

Fruit—Miss Logie, Messrs. S. M. Young, McLaren and J. Gartrell.

Flowers—Mesdames Beavis and J. Ritchie, Miss McLaren and Mr. J. Tait.

Fowl and Vegetables—Mrs. Wilkins, Naramata.

Cake—Mesdames W. Stark, and Johnson, (Naramata), and the Ladies of the Hospital Auxillary.

Cream—Mr. A. A. Derrick.

Ice Cream—Messrs. Derrick and Beach.

Fish—Messrs. Miller, Wharton and Dewar.

\$10 towards the child's cot, collected by Mrs. C. Pineo.

PENTICTON PRESS CHANGES HANDS.

Mr. W. J. Clement, proprietor of The Penticton Press, has sold his business in that town during the last week, and in the issue of June 25 he gives his valedictory editorial. In it he expresses his pleasure at having seen the gradual growth of Penticton, and during the time he has been running The Press, now almost four years, he has formed many lasting friendships. At the conclusion of his farewell words he makes mention of the fact that although he has sold out to a local company he has not resigned from a journalistic career, but when he opens up again it will be in a much larger centre or in a district of more rapid growth than that in which flourishes the luscious peach.

MACARONI FACTORY FOR EDMONTON.

If it is possible to secure the right grade of wheat for the purpose in the Edmonton district, the establishment of a factory for the manufacture of macaroni is a possibility for Edmonton in the near future.

C. Marinaro, a wealthy manufacturer, who operates a macaroni factory in Pennsylvania, is now in the city to look into the matter.

Mr. H. Johnston, of Kelowna, Chief Fire Warden of the Okanagan Valley, was in the district during the early part of the week. Whilst at Naramata he arrested a delinquent who had been resident in Kelowna for several months, and during the last week had issued a few worthless cheques. He had travelled from there with the Pringle Stock Company.

SATURDAY, JULY 2, 1910

INTER-URBAN COMITY.

In a recent public speech, the mayor of one of our Okanagan towns is reported to have made some remarks reflecting on the sanitary equipment of Kelowna. The Courier rises up with a fierce growl and a manifest desire to sample the mayor's trousers. To come back to plain speech, The Courier emphatically "denies the allegations and defies the alligator," and goes on to suggest that His Worship should be made to take it back or get what for.

This inspires us to rise up and make a few remarks appropriate to the occasion, on the comity of our towns throughout the Okanagan.

Thus far the newspapers of the valley seem to have behaved admirably in this regard, with one or two little exceptions, but their readers have not always been so considerate. We have heard some of the most prodigious lies ever fabricated told about that part of the Okanagan with which we are most familiar, viz., Peachland, Summerland, and Naramata. These lies were, of course, of the derogatory variety, and never by any chance intended, however mistakenly, to be helpful to these places. What is more, they were manifestly fathered by people living in other parts of the valley, and designed in each case to build up the home town on the ruins of the one cast down by misrepresentation.

Now that kind of thing we hold is not only vicious, it is impolitic. This valley, after all, is one. It is segregated and a unit so far as the great world outside is concerned. These towns are members of a natural civic family, and to sow discord among them is just about as sensible and lovely as

to have Bill, Tom and Sally pulling hair and scratching one another's eyes out just for the infinite pleasure such a procedure affords in the titillation of the fighting beast which lies sleeping but never dead in every one of us.

Of course, if Tom steps on Bill's pet corn with malice aforethought there is going to be a row in the family. and Tom will be more or less hurt, and the neighbours will be saying "how lovely it is for brethren to dwell together in unity!" How much better, therefore, both for Tom and the family to steer clear of the pet corn.

And what applies to us applies with equal propriety to the other valleys of this province. Nature has interposed barriers which will in time make us second editions of Scotland and the cantons of Switzerland, worse or better as the case may be. Anything then which tends to accentuate the community isolation already sufficiently emphasized by nature, is treason to the province, which is itself walled off from the other provinces, and anything which tends to foment strife within the valleys themselves is an unfriendly, unwise, and even an idiotic act.

Rivalry there will and must be among our towns, as is the case in every husky, growing family; but it should be a generous rivalry that remembers the family bond. There is room enough for us all in this valley with its wonderful possibilities, and

"Together we rise or fall,
Dwarfed or God-like, bond or free."

But if we decry and tear down what others are trying to build up, instead of lending each his or her small influence toward drawing together and knitting up the whole, let us at once reckon we shall yet come face to face with that principle which has never yet been found false in church, state, or home—"If ye devour one another take heed that ye be not consumed one of another."

Mr. W. J. Clement, the late proprietor and editor of our contemporary, The Penticton Press, has sold out his interests in that journal and decided to leave the district. This has been no sudden move, but has received very careful consideration on Mr. Clement's part for the past few months. During four years of very hard work he has been at the helm of The Press and at times the outlook has not been very bright. It seems as if just at the time he has finally decided to leave it our sister town is going to be the most progressive on

the lake, and we are sorry that Mr. Clement could not stay to see the evolution of the district. However, he has decided to quit, and we wish him every success in his new venture, wheresoever that may be.

FAREWELL PRESENTATION TO MISS FAULKNER.

On Wednesday evening, the members of the Baptist choir at the front shewed their appreciation of their late organist's efforts in a very pleasant fashion. Shortly after eight the choir gathered at the wharf and boarded Mr. E. Bentley's launch the 'Grey-bird'. The next hour and three quarters was spent in a delightful cruise up the lake. The party then disembarked at Peach Orchard, and repaired to the home of Miss Bartholomew. Here, after refreshments had been served, Mr. L. R. Williams, in a brief speech, eulogized the guest of the evening for her unflinching willingness, regularity and cheerfulness. On behalf of the choir he presented her with a tastefully worded testimonial, to which all the choir appended their signatures. The congregation also expressed their feelings in a practical manner, and on their behalf Miss Bartholomew handed to Miss Faulkner a purse of gold.

In a short reply, Miss Faulkner said she was sorry to sever her connection with Summerland, where she had spent so many happy times. She had not done very much, (a statement which was not accepted), and she hoped in the future to visit the people who had so overwhelmed her with kindness.

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as “The Balance Shift”—“The Ruling Device”—“The Double Release”—“The Locomotive Base”—“The Automatic Spacer”—“The Automatic Tabulator”—“The Disappearing Indicator”—“The Adjustable Paper Fingers”—“The Scientific Condensed Keyboard” all

Yours for 17 Cents a Day!

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash payment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money with

The **OLIVER** Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD “GO!” So easy to run that beginners soon get in the “expert” class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers.

‘An Oliver Typewriter in Every Home!’

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE IN BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our very selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

PENTICTON A DIVISIONAL POINT.

President and Engineer of The Kettle Valley Railway Discuss Matters With Council.

At Penticton last week, the president and chief engineer of the Kettle Valley Railway Company met the council, and had a friendly chat.

President Warren stated that the company desired rights to cross certain streets and a flat rate of taxation for twenty years, along with a grant of foreshore from Winnipeg Street to Penticton Creek. In exchange for this the Company would make Penticton a divisional point. He fully expected that he would reside in Penticton, and the head office would be there. Fifteen acres would be purchased for machine shops and roundhouses. The engineer, Mr. McCullough, submitted plans which showed the tracks of the railway, the main line would follow the lake, and come to Trout Creek, where probably a spur would be run to the lake at that point. From there the line would begin to climb westward.

The Council decided to grant a flat rate of taxation of \$250 per year on all the railway property in Penticton, and providing that this is passed by the ratepayers. Just so soon as the survey is finished, construction will commence.

HE WAS SATISFIED !!

Frederick C. Beyer a well known journalist, told at a recent press banquet a newspaper story.

"A Medina editor died," he said, "and was, of course, directed to ascend to the Abode of the Just. But during the ascent the editor's journalistic curiosity asserted itself, and he said:

"Is it permitted for one to have a look at—er—the other place?"

"Certainly," and, accordingly, a descent to the other place was made. Here the editor found much to interest him. He scurried about, and was soon lost to view.

"His angelic escort got worried at last, and began a systematic search for his charge. He found him at last, seated before a furnace, fanning himself and gazing at the people in the fire. On the door of the furnace was a plate saying, 'Delinquent subscribers.'

"'Come,' said the angel to the editor, 'we must be going.'

"'You go on,' the editor answered, without lifting his eyes, 'I'm not coming. This is heaven enough for me.'" — Louisville Times.

CHAS. H. CORDY, Auctioneer.

:: Naramata Notes ::

The school children are now enjoying a well-earned holiday.

The Pringle Stock Co., after a successful two nights' engagement here, left on Wednesday's boat for Penticton, to fill an engagement.

Mr. Harold Endacott has accepted a position with Mr. Niblock, who last spring took over the fruit lot development work. Mr. Endacott will have charge of all the outside work.

Mr. Hancock has purchased the year-old ten-acre orchard of W. H. Pefley. It is Mr. Hancock's intention to build a comfortable house on the property very shortly, and to make other important improvements.

In order to stave off another such overcrowding as occurred at last Thursday's regatta, the seating capacity of the grandstand is to be very substantially increased before "Naramata Day," July 28th.

Mr. Ralph Kent headed a party who last Monday went up to the mountains to tap the upper lake levels, in order to make sure of having an adequate water supply during July and August.

The meeting of the Unity Club at the delightfully airy tent of Mrs. Robinson, on the beach, proved a most pleasing event socially. They have made arrangements for a pic-nic at Trout Creek next Thursday afternoon. The Maud Moore has been chartered for the occasion, and the Naramata will also be on hand.

The address delivered last Sunday morning by Rev. G. O. Fallis, was of peculiar interest. Basing his remarks upon two passages in St. John's gospel — "Every branch that beareth fruit, He purgeth it," "Now is the axe laid to the root of the tree," he shewed by forceful illustration the folly of the extreme radical on the one hand and the extreme conservative on the other.

ASBESTOS MINE AT OKANAGAN FALLS.

Mr. A. J. Smythe, proprietor of Red Cliff Farm, brought report to Penticton on Monday that a rich strike of asbestos had been found at Manard's Ranch, two miles from Okanagan Falls. It is a vein containing 12 to 14 inches of solid asbestos ore, with deposits of nickle and graphite. Samples have been sent to the coast to be assayed, and if, as expected, a favorable report is received, development work will be at once commenced.

Just In—Another shipment of flour that is flour.
ROBIN HOOD.

Satisfaction guaranteed or your money back.

A Full Line of Clean Fresh Groceries always on hand.

VAUGHAN & MOORE, GROCERS, ETC.

Local News Items.

Mr. Ricardo, manager of the Coldstream Ranch, Vernon, was in town last week end.

Mr. Pitcairn of Messrs. Stirling and Pitcairn, Kelowna, was in town on business in the early part of the week.

Mr. Villiers, of London, England, brother of Mr. Oliver Villiers, along with Mrs. Villiers, were in town for a short visit this week.

Messrs. Stirling and Pitcairn are about to build a fruit packing house, and fully intend to place it down near to the wharf if suitable arrangements can be made.

Mr. and Mrs. Evans and family, of Brandon, who have been visiting Summerland for the last few weeks, left for home on Tuesday last.

Attention is drawn to the advertisement in this issue of the sale by auction, at 1.30 on Saturday afternoon, at the residence of Mr. J. F. Faulkner. The goods are nearly new and in excellent condition.

A little excitement was caused on the Flat on Monday, when a horse scampered across the College campus. Luckily no one was in the rig, and the horse came to a sudden stop when one of the shafts lodged in the wheels of the grader, and broke off.

Mr. A. E. Ashcroft, C.E. of Vernon arrived in town Monday, as consulting engineer in connection with the domestic water system. Capt. Fyson and his staff have been busy working at the levels and general lay out of the scheme and the board of control are now finally passing plans for the extension of this system.

The growth of Summerland continues, and history is still being made. The printing office has installed a fine new white towel. The old one finished its apprenticeship this week, having attained the state of being able to stand alone—and that in spite of being boiled once during its career. It had also become too holey for this place.—The P.D.

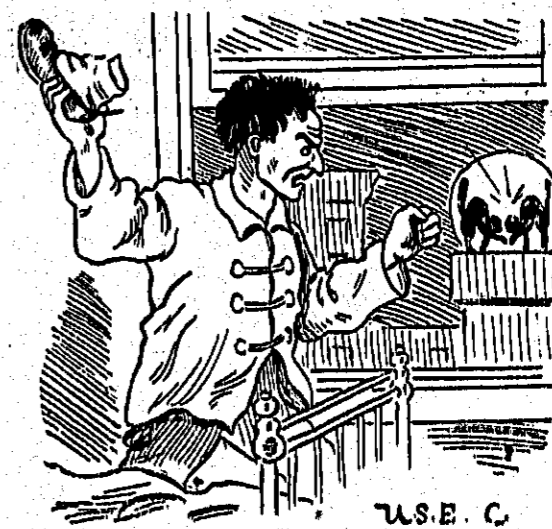

The Ladies Auxiliary of the Summerland Hospital wish to acknowledge the receipt of \$19.70 from the Young Men's Club, this being the balance of the proceeds from the 24th of May celebrations. Also \$10 from Mr. J. B. McLaren of Winnipeg, and \$10.50 collected by Mrs. Moreland from the young men of the town.

TAYLOR & CO.

California Oil will bring You Greater and Quicker Returns than any other Investment.

You have heard of the wonderful wealth of the California Oil Fields---of how men who invested but a few dollars in various oil companies at their inception became independently wealthy in a night. The instances that we quote herewith, in which a hundred dollar original investment became worth as high as fifteen thousand dollars, are not exceptions.

Take, for instance, if you had invested \$100 in the following companies, on the following basis, you would have made:

Silver Tip	\$ 600
W. K.	1,000
Sterling	1,000
Premier	1,100
Monte Christo	1,120
Record	2,000
S. F. & McK.	2,400
Sauerdough	4,166
Lucile	5,000
San Joaquin	5,700
Peerless	6,350
Kern River	9,500
Central Oil	15,000

"Pinal" shares sold at 25 cents, they are now selling at \$25 and paying monthly dividends of 15 per cent, an income of \$60 per month on an investment of \$100. When the "Silver Tip" came in, the stock jumped over night from 66 cents to \$4 and has been paying monthly dividends of 10 per cent ever since.

There is nothing phenomenal in such occurrences. Almost every day a well is being brought in by some company in the California oil fields, many of which are gushers, spouting thousands of barrels per day.

The "Lakeview" for instance, came in a short time ago with 40,000 barrels per day.

"Silver Tip" with 28,000 barrels a day. The "Coalinga-Mohawk" a wonderful flow of 12,000 barrels a day; and we honestly believe that the "Coalinga-Eureka" property will produce as much if not more, in her first well, as has any of the premier wells in this district.

We base such a statement on the fact that the property controlled by this Company is so well sit-

uated, being within the proven oil zone, and having in its immediate vicinity the largest producing oil wells in the world.

You will see therefore that in this proposition the element of chance is eliminated, and you are practically placing your money in an already-sure-thing. Never before have the public been afforded an opportunity to buy in on the ground floor in a proposition embracing at the same time, the maximum security for the money invested and the greatest possible profits.

Remember that 96 per cent. of the wells drilled in the Coalinga Field produce oil.

The small block of shares remaining to be sold at 25 cents per share will no doubt be taken up within a few days after this advertising announcement appears. This means, that if you anticipate acquiring an interest in the California oil fields, through the purchase of shares in the Coalinga Eureka Oil Company, you must act promptly; either wire your reserve for a block of shares at once, or remit by first mail. If you wire, specify clearly the number of shares and send your cash deposit or all cash by first mail.

On receipt of wire, the Secretary of the Company will set aside the block requested, allowing sufficient time for a letter to reach the Company's office from your home, if you take advantage of the first mail.

Price of Shares, 50 Cents. July 16th.

Do not overlook the fact that we have issued a statement that the price of every share in the Company will be advanced to 50 cents, on the morning of July 16th. It will be impossible for you to acquire Coalinga-Eureka oil shares after that date at

a lower figure. Those who have taken advantage of the 25 cent. offer will make 100 per cent. on the money they have invested, and will be in the pathway of great profits, since it is only a matter of a few weeks until the drills on our property will be down to the oil levels.

No man can become wealthy by leaving his money in the Savings Bank at a small rate of interest. You must invest your capital in a proposition which embraces the greatest security and a promise of early and handsome profits.

OIL IS PRODUCING TO-DAY MORE MONEY AND GREATER WEALTH THAN ANY OTHER RESOURCE OR COMMODITY IN THE WORLD. In a very short time all of the available property in the California fields that are within the proven oil zone will be taken up by capitalists or in the control of corporations.

REMEMBER THAT THE SHARES OF THIS COMPANY ARE NON-ASSESSABLE. EACH SHARE HAS A PAR VALUE OF \$1.00. SMALLEST BLOCK OF STOCK SOLD 200 SHARES, ON WHICH PAYMENTS ARE AS FOLLOWS:

WHAT YOUR MONEY WILL BUY.

Cash Plan (5 per cent deducted).			
\$47.50 will buy 200 shares	par value	\$200	
118.75 " 500 "	"	500	
237.50 " 1000 "	"	1000

RICH RED BLOOD.

You Will Never Have It as Long
as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

Summerland Drug Company

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NIMMATA

Vol. 2, No. 49

SUMMERLAND, B.C., JULY 9 1910

Whole No. 101

COUNCIL MET LAST MONDAY

By-Law Framed to be Passed Fixing Rates for Irrigation and Domestic Water Power and Light. Domestic Pipe Line to be Installed Immediately.

The monthly meeting of the Council was held in the Municipal hall on Monday last. All the councillors were present with the exception of Coun. Gartrell, who is still far from well, and under the doctor's care.

The minutes of the previous meeting were read and adopted.

A complaint was made by residents in Garnett Valley to the effect that their water was being polluted. The matter was referred to Capt. Fyson for his attention.

Mr. Hodges had been consulted with regard to the system to be adopted in keeping the books of the Light and Water Department, and his suggestions were adopted.

A letter received from the B. C. Good Roads Association was filed.

A by-law was ordered to be drawn up which would embody the following rates for irrigation water:-

acres	\$	acres	\$
1	10	2	11
3	12	4	13
5	15	6	16.50
7	18	8	20

Exceeding 8 acres \$2.50 per acre. Uncultivable land under the irrigation line to be charged the full rate unless owners do not require water for same, and have a certified plan made by a Provincial Surveyor shewing the quantity of land not cultivable.

Domestic Water Rates:

- \$1.00 per month for service in town.
- 1.50 do. do. for 1 and 2 acre lots.
- 2.00 do. do. exceeding 2 acres.
- 2.00 per season for lawn service.

Electric Light Rates.

- 1 light \$1.00 per month.
- 2 to 5 lights 50 cents each per month.
- 6 to 10 lights 35 cents each per month.
- 10 or more 25 cents each per month.
- Meter rate 12½ cents per kilowatt.

Power Rates.

- Review Co. \$5 per month.
- Hotel 3 do.
- J. Downton 3 do.
- Post Office 3 do.

Resolved that the Council allow a grant of \$100 to the Agricultural Society for the current year.

John Tait was authorized to see that no stray horses or cattle be allowed to roam at large in the Municipality, with power to impound them.

The chief business of the day was the consideration of the report submitted by Mr. A. E. Ashcroft, C.E. He advised the Board to combine, in many instances, the irrigation and domestic systems, and run the water into a pipe line, as it would be most advantageous to work it in this manner. He found that there was little difference between the levels of the Aeneas Creek and Prairie Reservoir supplies, with the result that the two systems could be brought together and thereby considerably increase the value of the irrigation system. By this combination, practically every drop of the water would be used, and the waste brought down to a minimum. Where the present flumes required repairing he advised the use of metal parts, thus avoiding the enormous waste which occurs at present.

His suggestions were received and adopted, and he was authorized to proceed at once with the plans and specifications, and submit the same to the council, who would consider them. Meanwhile, the work of digging trenches for the system could be put in hand at as early a date as possible, so that there would be little or no delay in installing the pipes when the correct dimensions have been arrived at.

The following accounts were passed and ordered to be paid:

Supply Co.	-	-	25.00
J. W. Harris	-	-	81.25
Band	-	-	30.00
J. L. Logie	-	-	53.15
C. McDonald	-	-	9.50
V. Payne	-	-	9.50
S. A. Deinko	-	-	2.00
R. H. English	-	-	9.00
Supply Co.	-	-	6.70
W. Simpson	-	-	85.50
Agricultural Society	-	-	100.00
			\$411.60

IRRIGATION CONVENTION.

The Western Canada Irrigation Association will hold its fourth annual convention this year at Kamloops, on August 4th, 5th and 6th. It is hoped that the residents of all parts of the province will be sufficiently interested in the subject of irrigation to have delegates present, and that in the Dry Belt all those who must perforce take a more intimate interest will turn up whether delegates or not. The program, which it is hoped will be carried out in full, includes papers by Mr. Newell, chief of the reclamation department of the United States; Clifford Sifton, M.P., an enthusiastic advocate of conservation; R. B. Bennett, of Calgary, and Chas. Wilson K.C., both of whom are experts on the legal questions connected with irrigation; and A. E. Ashcroft, of Vernon, and A. E. Meighen, of Kamloops, on the practical side as concerned with company projects. Other recognized experts on different branches of the subject will also be asked to prepare papers for submission to the convention, and the discussion on all these papers cannot but result in benefit to the cause.

RIFLE ASSOCIATION.

The next shoot of the Association will be held on Saturday next, July the 9th, for the Dominion of Canada Salver. It is hoped that there will be a full attendance of members.

During the week the Inspection Officer visited Summerland and examined the books and rifles, and found everything satisfactory.

The first Canadian National Apple Show will be held in Vancouver from October 31 to November 5. There is a splendid prize list, worthy of such a show, and full particulars are published in the current issue of the Fruit Magazine. The American Pomological Society standards will govern the judging.

Owing to the nigger having won the heavyweight boxing championship, racial feeling runs very high in some of the southern states, and several negroes have already met their deaths at the hands of the white mob.

The Summerland Review

CORRESPONDENCE.

We do not hold ourselves responsible for opinions expressed by correspondents.—Ed.

To the Editor, Summerland Review:

The time for dealing with the peach crop is now very short, and the question arises how we are to market it.

The two courses open to us are, to deal with the Okanagan Fruit Union or with commission agents. The main interests of the commission agents is to make profits for themselves, and competition amongst them is the only chance for the grower to be sure of a fair price for his fruit. In this valley competition is almost entirely absent, and from what one hears many of our growers are prepared to sell themselves body and soul to a commission house at any price, rather than take their share in shouldering the responsibilities of dealing with the question in such a way as will promote their own prosperity and the ultimate prosperity of the valley.

In 1908 there was some effort to deal with the fruit crop of the whole of B. C. through a central exchange, but unfortunately the proposition was too large, and at headquarters it was not apparently in very able hands.

A fruit union has now been organized to deal with the crop of this valley alone.

The business management of the Okanagan Fruit Union is in the hands of a man who, year by year, for a long time past, has successfully handled more fruit each season than has been produced in this valley since its inception, and has from across the line beaten us in our own north and middle west markets.

He has the reputation of being one of the best fruit men in the States, and he has brought with him the pick of a carefully selected staff.

The Union has been made possible by the enterprise of Mr. Ricardo and other leading fruit growers of the valley; men who were farsighted enough to see that without united effort our fruit could never be successfully marketed.

The Directorate of the Union alone is a guarantee to the growers.

The Okanagan Fruit Union guarantee payment for all fruit shipped through them upon the following terms:—

- 50 per cent in 30 days,
- 25 per cent in 60 days,
- 25 per cent in 90 days.

To be a member of the Union it is necessary to take one \$50 share, upon which interest is paid at the rate of 6 per cent per annum.

It is within my own knowledge that many Summerland growers who shipped through the Union last year received high prices and prompt and full cash payments.

It is much to the credit of the manager, that in carrying on a business of some \$50,000 last season—a bad season and the first business year of the Union—bad debts amounted to less than four dollars.

Agriculture in Denmark and other European countries and in the United States, has been pulled out of the mire by forswearing commission agents, and by growers marketing their produce through their own unions, run by themselves.

The most successful unions decline to admit as a member any grower who does not bind himself to do the whole of his business through them. I hope the day is not far distant when the Okanagan Fruit Union will take up this attitude. All fruit not shipped through the Union is in competition with the Union; result—lower prices.

What the Union needs is not so much our share subscription as our loyal support and a foreknowledge as to what quantity of fruit will be given them to handle.

The commission agent contracting beforehand must keep down prices to protect himself. The Union has a staff of expert salesmen in the best markets, whose only object is to get the best obtainable prices for us.

Are we too weak, too shortsighted and too suspicious of our neighbours to join together for our own good and our own defence?

Yours faithfully,
F. Billy Bentley.

WEDDING BELLS.

Benson--Cooper.

On Thursday, June 30th, at St. Stephen's Church, Summerland, the marriage took place of Miss Honoria Fairbridge, daughter of Mr. and Mrs. F. D. Cooper, and Mr. Gouinlock Benson, of Kelowna.

The church was prettily decorated with white syringa, roses, and wild clematis. At 3.30 p.m. the bride arrived, and was escorted up the aisle on her father's arm, followed by her sister and two little sailor boys. The ceremony was performed by the Rev. H. A. Solly, the service being fully choral, music being rendered by Mr. Powell Jones. Mr. D'Aeth (Kelowna) very ably performed the duties of best man. After the ceremony the bride and groom drove to Bally-crystal, where the reception was held. The bride's frock was soft Liberty satin heavily

embroidered with surtack braid. She was veiled with old Irish Limerick lace, simply arranged over a wreath of white heather; white orange blossom decked her gown. She carried a large bouquet of white gloire de dijon roses and bridal wreath. The bridesmaid wore a simple pink voile frock, a large biscuit-coloured straw hat, massed with pink roses and maidenhair fern. Following were (Mr. and Mrs. Philip Du Moulin's) two little boys in white men-o'-war suits.

The bride's mother looked charming in soft violet crepe de chine gown, with a becoming violet gage hat. She carried a bunch of mauve sweet peas.

Mrs. Benson (groom's mother, of Whonnock, B.C.) was in black and white satin merveilleux, and a large black hat, carrying a bunch of white flowers.

Miss Benson (sister of the groom) looked very smart in a mauve satin gown and hat, carrying a bunch of roses.

Mrs. Du Moulin, of Kelowna, wore a beautiful gown of Wedgewood blue, trimmed with point lace.

Miss Chipman, of Winnepeg, a guest of Mrs. Cooper, wore a large black crinoline hat, with a turquoise blue frock draped with a black marquisette tunic.

The bride, after having cut the wedding cake, changed her frock, re-appearing in her travelling costume of blue tailor-made suit, and large mushroom hat. The happy pair drove off amidst a shower of rice and confetti. They will spend their honeymoon at the coast cities. Among the invited guests were the following:

Mr and Mrs Agur, Mr and Mrs Somerset Aikins and party (Winnepeg), Mr and Mrs Osler, Mr and Mrs Fetherstonhaugh, Mr and Mrs Helmer, Mr. and Mrs Deans, Mr and Mrs Bowen, Mr and Mrs Collinge, Dr. and Mrs Andrew, Mr and Mrs Acland, Mr and Mrs David Bentley, Mr and Mrs Faulder and Miss Faulder, Mr and Mrs Higgin, Misses Higgin, Misses Dodwell, Miss Tait, Major and Mrs Hutton, Colonel and Mrs Cartwright, Misses Cartwright, Mr and Mrs Theede, Mr and Mrs Kerr, Miss Kerr, Rev and Mrs Solly, Captain and Mrs Webb, Mr and Mrs Adamson, Mr and Mrs Cordy, Misses Cordy, Mr and Mrs Fosberry, Mr and Mrs Doyle, Mr and Mrs Bentley, Misses Bentley, Miss Fordham, Miss Rose, Mr and Mrs Dobree, Mr and Mrs Estabrook, Rev and Mrs Estabrook, Miss Estabrook, Mr and Mrs J Sutherland, Miss Sheila Sutherland, Master Kirk Sutherland, Mr and Mrs Hector Sutherland, Miss Sutherland, Miss

Miss Ballantyne left for Victoria on Wednesday morning.

The Shingle Creek Settlement have been released from Quarantine, the whole outfit having been fumigated.

Mrs. J. F. Faulkner with Miss Faulkner and Frank left for the coast on Tuesday morning.

The Agricultural Society will hold the Apple Show on or about the 19th of October. Remember this date as the show will be worthy of Summerland in every respect.

Mrs. J. Conway will receive on Tuesday and Wednesday of next week. After which she will be "at home" every fourth Wednesday.

Mr. and Mrs. F. B. Hamilton, of Winnipeg, are spending the summer with Mrs. Hamilton's father, Mr. J. Davidson, of Peach Valley.

Mr. and Mrs. J. J. Wallace, Mr. and Mrs. H. G. Estabrook, Mrs. Phinney sen., Mrs. G. J. C. White, Mr. C. S. Stevens, and others, left by Tuesday's boat to attend the Baptist Convention, which meets at the coast.

July 21st. This is the date of the second annual regatta at Peachland, and as the Sports in our sister town help along everything down here, and join in heartily in whatever happens along, it is up to Summerland to give them a turn. The regatta will be worth a visit, as last year's was a very good one indeed, and it was more or less rushed. With the time they have had preparing this one, and the energetic committee behind it, there is every prospect of a thoroughly enjoyable day's sport.

Were you on the wharf last Friday? As the Aberdeen came alongside she emitted a most beautiful spray of a nice, dirty, messy, damp, sooty material, which came down on one and all, and it was far from appreciated, and no wonder, for the damage to hats must have run close upon \$100, and many dresses were spoilt for the day. This kind of thing is just carelessness on the part of the engineer or one of his staff and could easily be prevented by a little forethought. It is to be hoped that in future a little consideration will be shown toward the passengers who intend spending an enjoyable day in spotless linen and silk, which are decorative enough and quite cool without a gratis shower bath the like of which was given last Friday.

Rates \$2 to \$3 Per Day.			Special Terms by Week or Month

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

JAMES RITCHIE - PARKDALE - SUMMERLAND

A SOCIAL EVENING.

The regular monthly meeting of the W.C.T.U. for July took on social colors as the ladies have agreed that it is not right to work too hard during dog days. The meeting was held at the home of Mrs. A. T. Robinson, and all brave honoraries of the order were invited. The President, Mrs. D. H. Watson, presided with marked ability. Sweet music was furnished by Misses Robson, McDougald, Brown and Bortholomew, and excellent speeches were made by Mesdames Watson, Hood and Robinson; also two minute flights by Messrs. Hardy, Hood, Robson, Brown, Dr. Smith and others. Mrs. Lipsett lauded the house with a timely reading, and choice refreshments that make glad the heart of man wound up the evening's enjoyment.

The next social gathering is to be held at the home of the President.

OKANAGAN FRUIT CROP.

Views of the Hon. Price Ellison.

"The fruit crop of the Okanagan Valley will this year be a bumper one. The Okanagan was never looking better than at the present time. My advices are that the fruit crop there this season will be three times as large as it was last year. Some fears are expressed in certain quarters that there may be some loss on account of shortage of labor for the picking of the fruit, but I am not apprehensive on that score, as matters of such a nature generally right themselves. Why should there be a shortage of labor on the fruit ranches of the Okanagan? The picking of fruit is a much more pleasant occupation than the task of following a threshing outfit; I know it is, because I have taken a hand at both. On the prairies the farmers generally manage to secure labor at harvest time, and I think it will be found that when labor is required in the Okanagan it will be forthcoming."

At present the C.P.R. is building two large packing houses, one at Vernon and the other at Summerland. The outlook for the fruit growers of the Okanagan is most promising, there being no lack of markets and the movement of the fruit will be expedited this year as never before.

—Province.

There are 22 representatives from Canada at the Bisley rifle shoot this year. These include two from the west, viz., Capt. W. Hart McHarg and Capt. W. H. Forrest, both of Vancouver.

SATURDAY, JULY 9, 1910

OUR FIRST NATIONAL APPLE SHOW

As announced last week at some length in our news columns, we are to have a fruit and flower show here in the fall. Something like \$600.00 is to be expended in prizes as a stimulus toward making busy horticulturists to take a lively interest in it. It is hoped that indirectly the healthy rivalry thereby generated will be of use in deepening the interest in horticulture, sharpening our faculties of discrimination where fruit is concerned, and comforting everybody with such undeniable evidences of Summerland's fruit growing possibilities as must silence the most skeptical and vindicate the most sanguine.

This is all very good, and the gentlemen who have undertaken gratuitously the vast labor it entails are worthy of all praise for their public spirit. But for our part we are hoping the plans laid will be enlarged to take in the first National Apple Show ever held in Canada, October 31 to November 5 of this year in Vancouver.

We are pretty well convinced among ourselves that we can grow apples. We think we have good reason for believing that we can. If so we should get into the arena this year and make good. It is not so much what we think about ourselves that counts as what the great world outside thinks, and this great exhibition with its authoritative awards furnishes the opportunity for this district, as well as the whole province, to show what it can do.

The names connected with the National Apple Show, Earl Grey, Sir Thos. Shaughnessy, Hon. Richard McBride, Maxwell Smith and others, are a guarantee that the show with its \$25,000 prize list will not be

a fiasco. It is now time Peachland, Summerland and Naramata began to get busy and play that larger part in the horticultural game for which, as we believe, they are by nature so peculiarly well fitted. Till now we have been so occupied with development work that the complimentary work of exhibitions has gone by the board. This phase of our industry should now receive large and careful attention. It has a direct bearing on the marketing of fruit next year. Indirectly it affects land values. Incidentally the public outside has a right now to expect us, about whom so much has been said, to come up to the scratch and make good with the tangible tokens of our profession.

If anything further is needed the magnificent prizes offered should be a sufficient inducement. A matter of \$1925.00 for the prize car loads, \$1000.00 sweepstakes, and \$925.00 for the best district exhibits makes competition worth while, especially since the fruit can immediately be sold at fancy prices, and valuable medals are thrown in. Prizes to the value of \$185.00 in three medals are offered for the biggest apple on earth, and when we remember the one sent from Summerland some years ago which weighed 31 ozs., of which the Government had a plaster cast made, we are not without hopes in that line. The prizes for the best collection of whoppers total \$300.00.

According to The Fruit Magazine for July the judges in making their awards for the Grand Prize will consider "first, value of the varieties for the purposes to which they may be adapted; second, color, size and uniformity of fruit; third, freedom from marks of insects and other blemishes; fourth, pack; in accordance with the rules of the American Pomological Society."

The district displays will be scored as follows: Best artistic arrangement of exhibit, 20 points; quality, 15; color, 15; condition, 15; pack, 15; size, 10; uniformity, 10.

Miss Lloyd, the new matron at the hospital, arrived last week-end, and is now in full charge of that popular and necessary institution.

Chas. Adams, who has been resident in Summerland for a good few years, and was in partnership with J. Fyffe, trading as Adams & Fyffe, has decided to leave the district. He is about to locate in Melbourne, Australia, where he will join his father, who is in business there.

**Yours for 17 Cents
a Day!**

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash pay-

ment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money

with

The OLIVER Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD "GO!" So easy to run that beginners soon get in the "expert" class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers.

'An Oliver Typewriter in Every Home!'

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE IN BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

The Oliver Typewriter Co. Oliver Typewriter Building, Chicago, Illinois.

THE FIRST AT PENTICTON.

Ideal weather prevailed for the annual race meet at Penticton, and the huge crowd of visitors were accorded a very hearty reception. About two hundred journeyed from Summerland on pleasure bent, and they were by no means disappointed.

In the morning a baseball game was played between Penticton and Summerland, the former winning out by 13 to 8. The game was very ragged as the final score testifies.

The chief interest of the day centred round the turf and a good program had been provided, the like of which it would be difficult to excel in any interior town.

The weakest part of the affair was the judges' stand. Who was responsible it is not possible to say, but certain it is for the most part they were very indecisive and in the wrong box. "Go" was heard from more than one place, and the riders were disconcerted thereby. They should have complete control, and pull up the starter good and hard, and in turn deal severely with any interfering busybody. When the bell is rung, every jockey recognises the signal for "come back," it was sounded on two occasions, yet the false start in each case was allowed, and possible winners were unfairly handicapped.

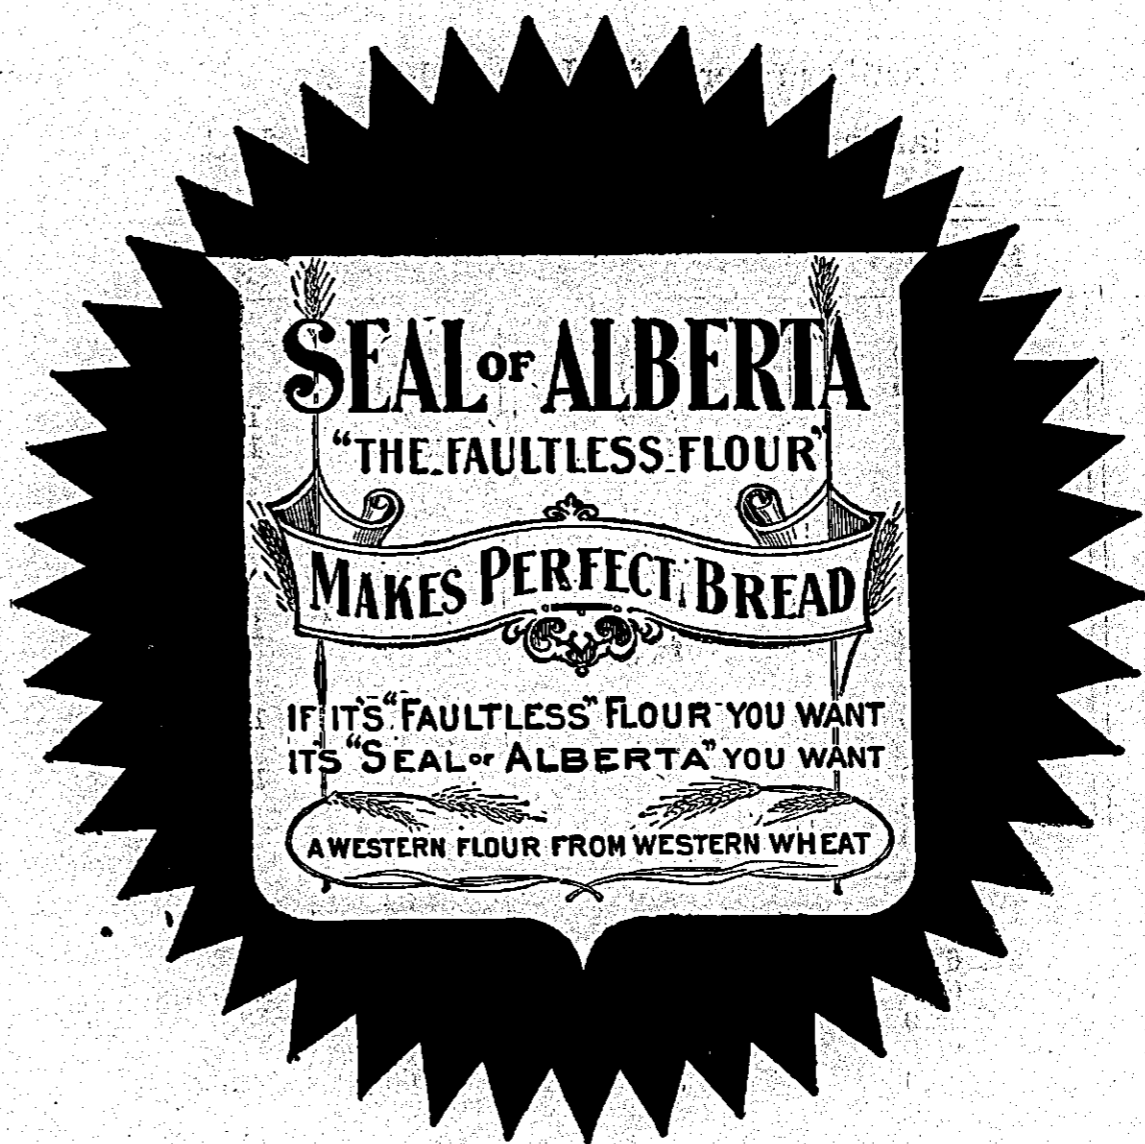

It is up to the association to remedy this serious defect next year.

Hy. Bristow's *Cannie Campbell*, ridden by Joe Brent, was alone in the mile race. Joe was a little sport, and received a big ovation.

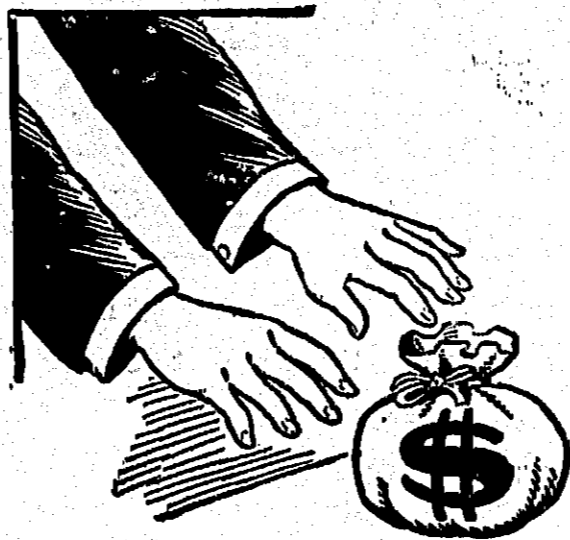

In the cowboy's race, E. Raincock's *Bluebird* proved the winner. It was a hard fight, and he won the race in the turns.

In the field events, J. Conway was the only competitor from Summerland, and he seemed to think it was easy, as he did not exert himself, with the result that W. Kruger came in first in the 100 yards, Jack taking second place. Out of seven events, Kruger took prizes in five.

The Union Sunday Schools picnic this year will take place at Bulyea Point, Trout Creek on Thursday afternoon, July 14th. The *Maude Moore* with the scow will leave the wharf at 1.30. Given a fine day this picnic should be a great success, as the committee of arrangements have the matter well in hand. There will be no charge for the trip, refreshments will be provided on the grounds, and a good programme of sports for the kiddies is being prepared, for which prizes will be given,

Provincial and General

The big fight between Johnson and Jeffries came off at Reno on Monday last. It is reported to have been the most cruel thrashing ever inflicted on a white man. The moving picture man was there, and those in the cities who could not afford to go to Reno, are now complacently enjoying the living photographs of the affair at 10 cents a time.

A wing of the Czar of Russia's summer palace at Peterhoff was destroyed by fire on Monday last. Its origin is believed to have been incendiarism. The loss is heavy.

The contract for the first section of the Kettle Valley Line has been awarded to a Vancouver firm. The contractor will construct 30 miles between Merritt and the Coldwater River, working from the former place. From Coldwater River the line comes eastward towards Penticton.

The Exhibition number of The Farmers' Advocate and Home Journal is a splendid 64-page magazine, containing interesting articles and current farm topics. The editor and publishers are to be congratulated upon the get-up of their popular journal.

It is reported that the fight pictures will be banned in many of the States and also in South Africa, owing to their effect upon the black population.

EXCERPTS FROM COMMISSIONER METCALFE'S REPORT.

Moose Jaw. — California peaches are selling to retailers at \$2.75 per box. California plums (Early Climan) are selling at \$2.75 per case.

Regina. — I saw some cherries (May Duke) from Vernon in perfect condition. They cost over \$2.50 per case (16 lbs. net) laid down here. Jobbers state they can buy Oregon and Washington cherries at 65 to 75 cents per case of 10 lbs .f.o.b. there. California apricots—poor stock—sell at \$2.50 per case.

Indian Head. — Dealers here would draw all their supply of small fruits from B. C. if obtainable. Prices are being well maintained, not only at this point, but everywhere generally where fruit arrives in good condition.

:: Naramata Notes ::

Mr. Pittman, now of Kaleden, spent a few hours at his home here on Sunday.

Mr. Carroll Aitkins, after a successful season spent here on his ranch, returned this week to Winnipeg.

Miss Ella Lipsett, of Vancouver, was recently the guest of Mrs. Robinson for a short while.

The plans for Mr. Hancock's new residence are now ready. It is likely that Contractor Johnson will personally supervise the construction.

Building operations in town continue briskly. Besides the work on the hotel and the alterations to the grand stand, there are several fine dwelling houses going up.

Miss Chisholm has returned to Winnipeg after a successful year's work in our school. She was accompanied by her mother who spent the latter part of June visiting friends in the valley.

The dance in the Opera House on Monday evening, July 4th, the American's day proved to be one of the pleasantest events of the season. The function was given under Athletic Club auspices.

On Saturday, Mr. and Mrs. Somerset Aikins gave a very enjoyable tea in the new summer house in honor of Miss Chipman of Winnipeg. The party were afterwards taken to Summerland in Mr. E. Bentley's launch, the "Greybird."

Rev. G. O. Fallis spent the greater part of the week in pastoral visitation. He has announced a series of sermons under the general heading of "Angel Messengers at the Door of the Soul." The first sermon of the series will be given next Sunday morning.

The second of the season's series of Sunday afternoon concerts by the Summerland Brass and Reed Band was a feature of the week. After hearing this organization perform the ordinary traveller is obliged to sit up and take notice. The boys are fast gaining a name for themselves.

NOTICE.

THE Directors of the Garnett Valley Land Co., Ltd., having declared a dividend, it will be necessary that all transfers of this Stock be completed in the books of said Co. not later than 1st Aug., 1910; after which date checks will be issued to holders of Stock as shown by the Company's Register.

OSOYOOS LAND DISTRICT.

DISTRICT OF YALE.

TAKE NOTICE that Alfred Richardson, of West Summerland, occupation mill owner, intends to apply for permission to purchase the following described land:--Commencing at a post planted at the north east corner of Lot 2893; thence north 24.67 chains to the south line of Lot 2558; thence west 28 chains more or less to the south west corner of Lot 2558; thence south 24.67 chains to the north line of Lot 2893; thence east 28 chains more or less to the point of commencement. Containing 70 acres more or less.

Dated June 6th, 1910.

ALFRED RICHARDSON.

RICH RED BLOOD.

You Will Never Have It as Long
as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

SUMMERLAND, B.C., JULY 16 1910

Whole No. 1

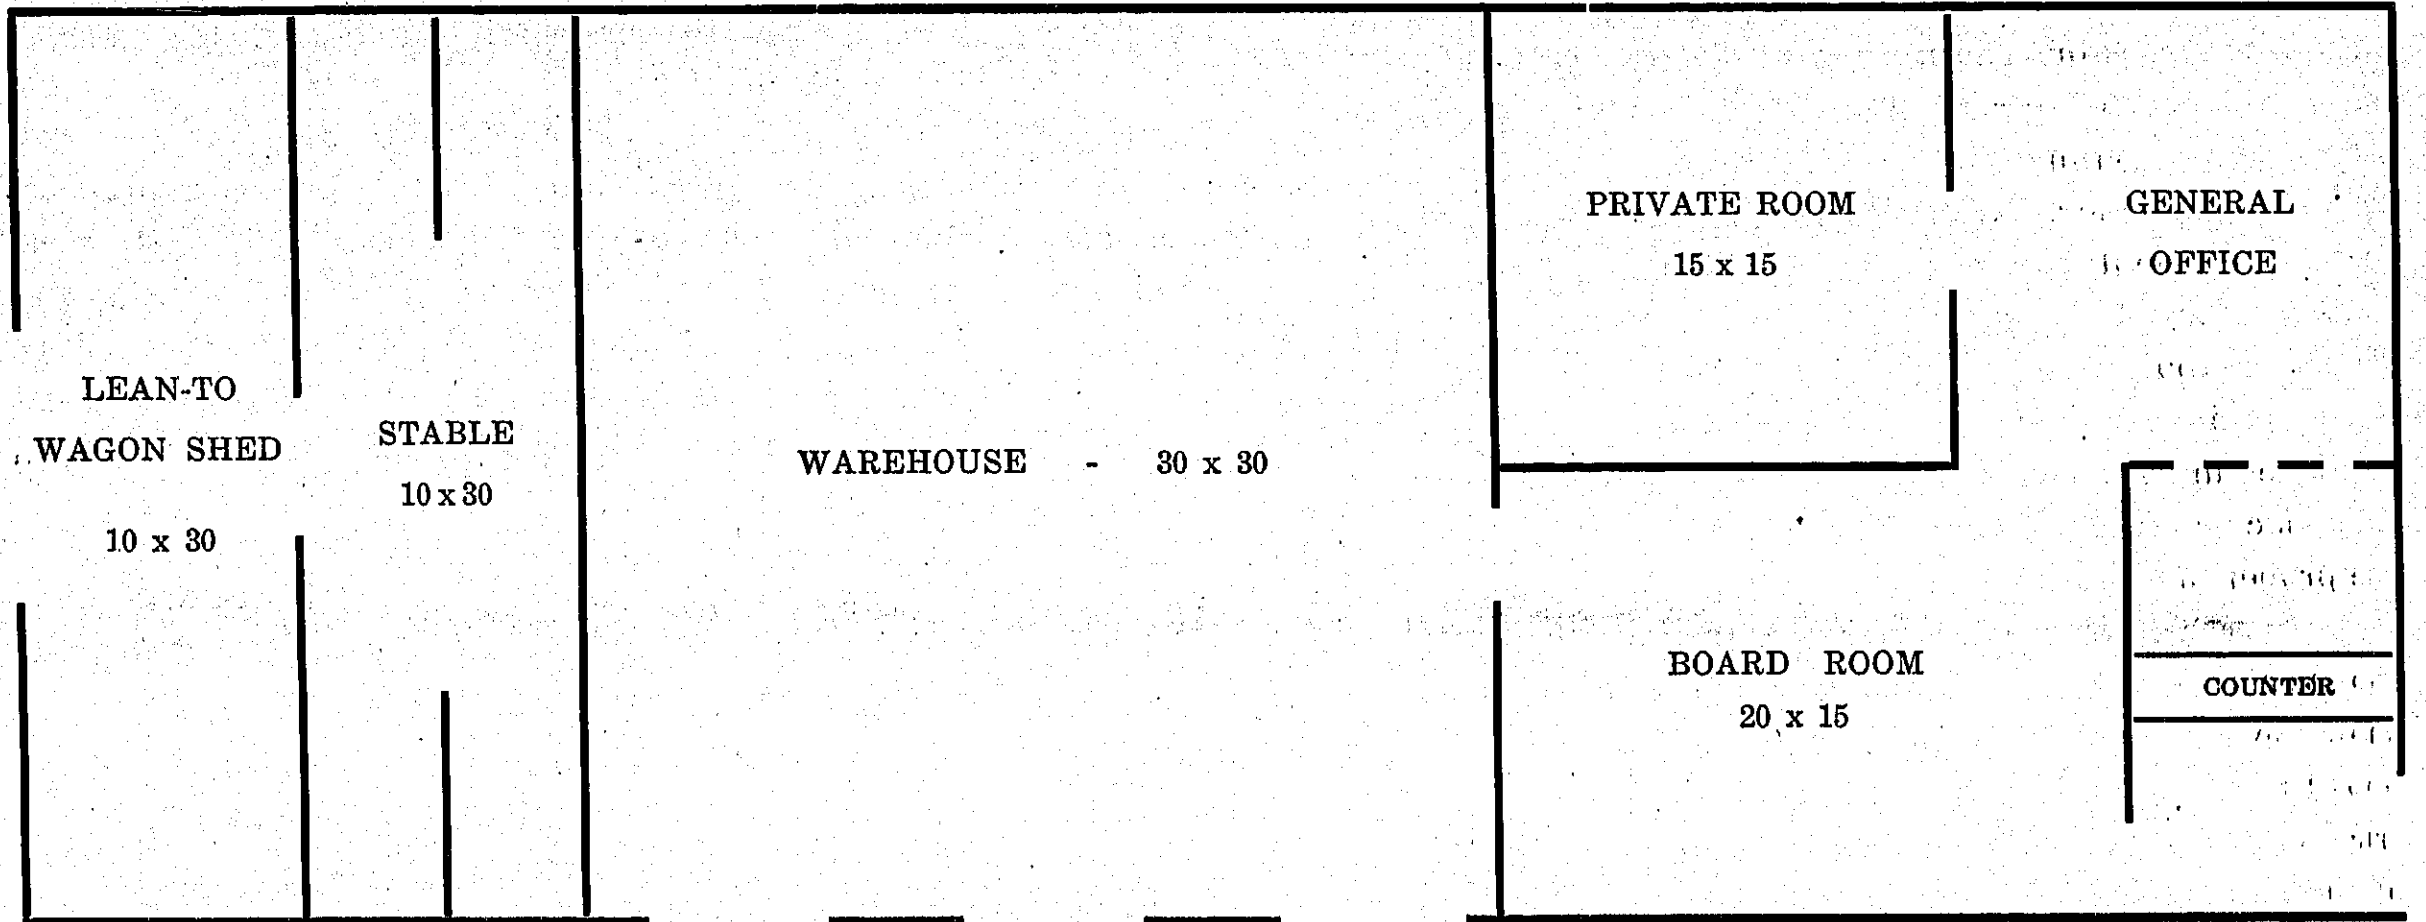

NEW MUNICIPAL BUILDING NOW COMPLETE

Provincial Librarian

The building on the flat for the Irrigation, Light and Water Department of the municipality is now completed, and is a splendid edifice, practical in every way, and well worthy of the district of Summerland. It has been designed for use, and it will be used. Being in the centre of the

irrigation system, every part of the flume and pipe line can be reached in the shortest possible time, and supplies for repairs will arrive at the same time as the workmen, thereby decreasing the cost of labour, and saving useless waste of water in any break out which may occur. Messrs. Nelson

Bros. contracted for the building, and are seeing to it that it is finished with the best of material. We publish herewith a rough sketch of the floor plan, which will help our readers to form some idea of the place and its dimensions.

COUNCIL MET ON MONDAY THE ELEVENTH.

Mr. F. A. C. Wright Engaged as Engineer. Constable appointed. Offers for Lease and Development of Electrical Plant to be Advertised for. C.P.R requested to Have Longer Hours in Express Office.

The Municipal Council met on Monday last in the board room of the new building at West Summerland.

After having inspected the building they proceeded with the following business.

By-law No. 28 relating to the street near Giants Head, which same it is proposed to reduce from 66 feet to 50, was read and finally reconsidered and adopted, and the Reeve and Clerk were authorized to sign and seal the same.

It was resolved that Mr. F. A. C. Wright be engaged as engineer at the salary of one hundred dollars per month, all necessary instruments for his use to be provided by himself, engagement to date as at July 1st.

It was resolved that John Tait be engaged as constable for the municipality at the

salary of \$25 per annum and all fees earned

The most important business of the meeting next came up for discussion. This was in connection with the electric light plant. After much discussion, the council decided to ask for offers for the lease and development of the plant. As this is a big undertaking, and there are many points to discuss and decide, it would be helpful if those desirous of placing offers would talk the matter over with the council at their next meeting.

The clerk was requested to ask the Superintendent of the C. P. R. to have the express and freight office at Summerland open from 5 a.m. to 10 p.m during the fruit season, as it is absolutely necessary for the proper handling of fruit.

It was resolved that in future the council meet on the second Monday in each month; with the exception of August, which meeting will be held on Saturday the 6th.

The final business was the passing of the accounts and the following were authorized to be paid.

PROFESSOR THORNER TO LECTURE IN SUMMERLAND.

In connection with the lectures under the Farmers' Institute, which are to be given in Summerland, we have received the following letter from the Dept. of Agriculture which is self-explanatory:

Victoria, July 7.

To the Editor, Summerland Review:

Dear Sir,

Will you kindly, through the medium of your paper, inform the fruit growers and others throughout your district, that intimation has just been received in the Department that Professor Thatcher of Pullman, Wash., will be unable to fulfil his agreement made with the Dept. of Agriculture to lecture at meetings of the Farmers' Institute. Professor Thornber will come, and it is probable that he will be able to secure some good man to take the place of Professor Thatcher. We are trying to effect arrangements along this line, and hope that we may be successful. Professor Thornber would like very much people to bring specimens of fungus or insect pests to his lectures, so that a discussion may take place on them, and he may point out the proper methods which should be adopted to eradicate them. Lantern slides showing various objects of interest will be shown by Professor Thornber. It is to be hoped that the fruit growers in your district will take advantage of the presence of such an eminent authority as Professor Thornber and attend the lectures.

I am,

Yours faithfully,

Wm. E. Scott,

Deputy Minister of Agriculture.

(Since receiving the above we have been notified to the effect that Prof. A. L. Melander, Entomologist, will accompany Prof. Thornber, and will deliver a lecture.—ED.)

In the Manitoba elections on Monday last, there were a few changes in the constituencies, but the majority remains almost the same. There were returned 28 Conservatives and 13 Liberals.

Local News Items.

Who said mouse traps? A good story is going round to the effect that a well-known local young fellow had a new practical joke played upon him the other day. He is particularly fond of fruit and always looks for it whenever a certain rig happens along. The driver recently fixed an orange box on the back and left one of the slats loose. The oranges were tempting, so A—that is, the visitor went for one but soon found that the fruit was a sin and a snare and that mousetraps were real and nippy. The so-called oranges were nothing more or less than a series of mousetraps nicely set and wrapped in paper, and they did their work in a very slick fashion. The 'phone has been busy ever since.

The results of the Rural High School Entrance Examinations are announced, and Summerland's standing is as follows: Candidates 13, passed 11.

Jessie Mitchell 622, Marjorie Tingley 620, Lemer Sherk 613, Alexandrina Thomson, 586, Robert Munro 571, Arnold Gayton 566, Eula Watson 554, Ralph Brown 550, George Dale 550, Willard R. Estabrook 550, Walter Mumm 550.

BUSH FIRE.

On Tuesday, Fire-warden Johnson of Kelowna, and Fire-master Allen of Vernon arrived in town, and with the whole of the men working on the government roads, journeyed out to the bush fire in the Meadow Valley district, about 14 miles back. There they were joined by the roadmen from Peachland.

The fire has evidently been started by some careless person burning brush. At this time of the year such burning is against the law, and the perpetrator is liable to a very severe penalty. There are thirty men fighting the flames, which take a course about six miles wide. What this means in loss of timber is serious, but of much more vital interest to the district is the loss of this timber as a snow shed, as it will not be possible to keep the snow back if the growth is destroyed on the mountain sides. It is up to everybody to assist the Government and to see to it that at picnics etc., every care is exercised when fires are lighted, and when finished with to see that they are entirely put out.

REGATTA NO. 2.

THIS PROMISES TO BE A GREAT EVENT.

On Thursday, July 28th, the people of Naramata will put forth their best efforts to please those who take advantage of the cheap excursions arranged for that day and visit this town.

The charming lake trip on the C.P.R.'s palatial steamer, "Okanagan," is one of the big attractions for the day. The management have the idea that the people between the Lake and Sicamous Junction should be afforded at least one cheap excursion down the Lake each year, and they propose to furnish that excursion as well as a bright, snappy five hours' entertainment at the Naramata end that will be pleasing to all.

WAR CANOE RACES.

The greatest excitement was created last year by the splendid WAR CANOE races. The same tremendous enthusiasm was manifested at the opening regatta on June 23rd, and everything points to these great races reaching the high-water mark on July 28th.

LIFE-SAVING CREWS.

Another of the most spectacular events of the day will be the great struggle between the life-saving crews of the ss. "Okanagan," ss. "Aberdeen," and ss. "York," for the Robinson cup. The crew of the Aberdeen won this race at the last regatta, and they say, "What we have we hold." This will be a hot contest.

BASEBALL CHAMPIONSHIP.

The highest pitch to which the excitement ran last year was in the final game between Kelowna and Summerland, for the Price Ellison cup. This year the Hon. Mr. Ellison not only presents a splendid cup, but the winning team are to be decorated with Silver Medals as well. The strongest team on the Lake will be pitted against the best team the north end of the Valley can muster, and the winners of the game will be considered the champions of the Valley for the season. The probabilities are that it will be Penticton v. Enderby. This match is timed for 4.0 p.m.

LOTS OF GOOD MUSIC.

The Summerland Brass and Reed Band has been engaged for the day, and the Vernon Band is expected also. The very best of band music will, therefore, flow abundantly.

Sailing races, motor races, canoe races, skiff races, swimming races, and all kinds of novelty stunts in the water.

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locomotive Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard" all

Yours for 17 Cents a Day!

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash pay-

ment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money with

The OLIVER Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD "GO!" So easy to run that beginners soon get in the "expert" class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers.

'An Oliver Typewriter in Every Home!'

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE in BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

News from Peachland

Lieut. Gov. Bulyea left last week for a few days business in Edmonton and Winnipeg.

Among the enthusiastic Orangemen who spent the 'glorious 12th' in Kelowna were Messrs. W. A. Lang, R. Michael and L. D. McCall.

Messrs. Lang and Bywater began sawing at their upper mill this week and expect to be able to fill orders now for all kinds of lumber.

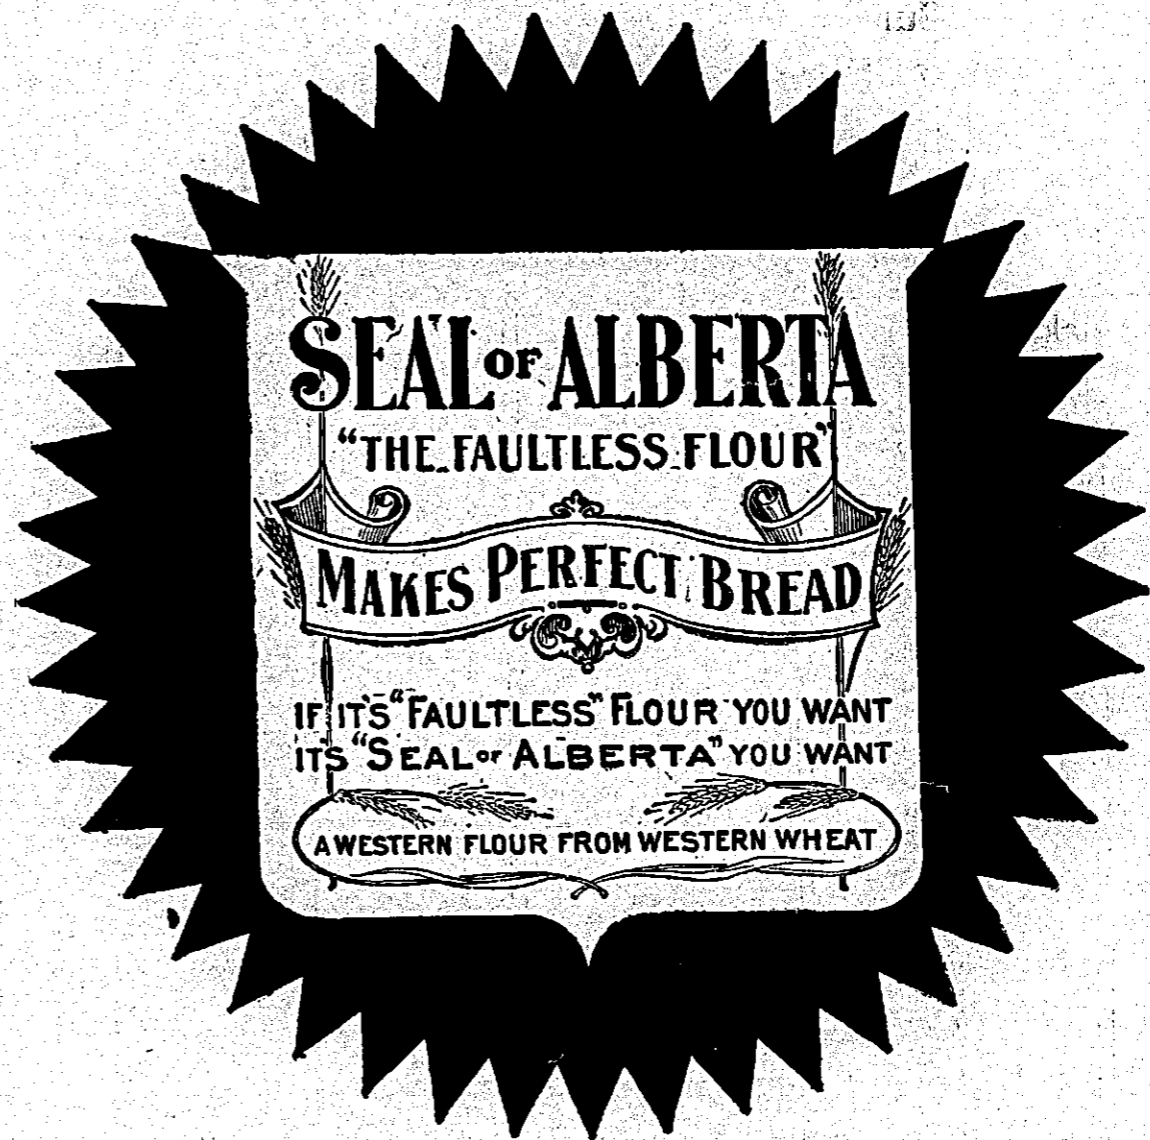

Mr. G. Barker who has been presiding at the High School Examinations here for the last week, left on Monday for Okanagan Falls to inspect his fruit orchard. The trustees have secured Mr. Barker as principal of the High School for next year.

The Dominion Glazed Cement Pipe Coy. are now in full operation and turning out large quantities of pipe, but have not been able to overtake the orders which accumulated since they began building. They get their power from the municipal electric plant.

Everything points to the prospect of a most successful regatta here on the 21st. The different committees have their work well in hand and by Thursday everything will be in readiness. A good boat service from both directions has been secured from the C. P. R. and a large crowd is expected. The Summerland Band will be in attendance, and a good program of aquatic events, with good prizes attached, has been arranged. The Townsite Co. are busy on the grand stand, and expect to have it ready for the occasion. This will add very much to the comfort of the spectators and will be much appreciated. The task of catering has been undertaken by the Ladies' organizations of the different churches and will certainly be well looked after. If the weather proves fine there will be a great day's sport.

Penticton will hold its first horticultural exhibition the first week in October. On Friday night at a general meeting of fruit growers committees were struck in this connection, and initial arrangements were made. Fruit growing is now rapidly developing and large displays are expected to be made. Ranchers are preparing to send a comprehensive exhibit of apples to the big show at Vancouver.

A fire occurred in the Prairie Valley district on Wednesday, and but for prompt action would have proved serious.

The Summerland Review

NORTH VANCOUVER BUSH FIRE.

Careless campers on Sunday afternoon started a blaze in Lynn valley, North Vancouver, which soon spread and assumed dangerous proportions. Within an hour it had jumped the creek, and cut a swath a mile wide and three miles long just beyond the street car track.

A number of shacks and summer cottages in the path of the flames were burned up so quickly that all effort at saving the contents were useless. Some of the inmates were rescued with difficulty.

Timber valued at many thousands of dollars was reduced almost to ashes by the devouring element, the trees being so dry that the fire barely reached them before they would be one mass of flame from trunk to top.

At midnight a hundred white men and nearly two hundred Japanese were working night and main under the direction of the fire rangers, many of whom had already been on active fire fighting duty for sixteen hours.

The blaze was spectacular in the extreme and was witnessed by thousands of Vancouver people, who crossed over to gaze on the scene of destruction.

EARL GREY'S OPINION.

Earl Grey, in last week's Standard of Empire gives a statement of his hopes and the conditions regarding Canada, and says: "Canadians are a sane, sober, strenuous, earnest people, patriotic, invincibly industrious, a people following no will-of-the-wisps, but steadily and surely, with their eyes open alike to opportunity and dangers, are building up between the Atlantic and Pacific the greatest nation that has ever been within the greatest Empire. That has ever been Canada's wonderful inspirations to any right-thinking man. No better fate could befall any British boy, girl, man or woman than to become a good Canadian and play his or her part in the Dominion's great forward march, which is the most wonderful process in this wonderful age." Earl Grey strongly favours emigration of young children to Canada.

RIFLE ASSOCIATION.

The second shoot for the Dominion Salver took place on Saturday, the following scores leading:

Provincial and General

It is reported that the provincial government of Ontario have issued an order prohibiting the exhibition of moving pictures of the Johnson-Jeffries prize fight in any part of the dominion.

The Canadians at Bisley are giving a good report of themselves. They won the colonial prize, and came a good second in the Kolapore cup, only losing by two points. At 200 yards, Canada topped the list with a score of 267 out of a possible 280, and was second in the 300, 500, and 600 yds. shoots. This is sure going some.

It is reported that Japan will not renew her alliance with Great Britain when the present treaty expires, but will probably come on to a triple alliance with Germany, Austria, and Italy. Meanwhile the Old Country is preparing for events, and is enlarging her fortifications at Singapore. Japan has another string to her bow, and suggests a larger alliance which will include Turkey as well as the others forementioned. Japan is rushing things.

Mr. J. J. Wallace is about to leave the district, and the whole of his household effects will be sold by auction, at an early date, by C. H. Cordy.

The Fruit Packing shed on the flat, for the Okanagan Fruit Union is going to be an immense place. The floor space covers 150 x 50 ft., and there will be a loading platform running on one side the whole length of the building. A small private office will occupy one corner of the place and the remainder of the building will be one huge room for the packing of fruit. Messrs. Nelson Bros. have the contract well in hand.

SUMMERLAND HOSPITAL.

The following subscriptions to the hospital for the year 1910 are gratefully acknowledged by the Hon. Treasurer:

- Mr. G. A. Mc Williams - \$25
- Mr. W. J. Robinson - \$25

Rates \$2 to \$3 Per Day.		Special Terms by Week or Month	

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctillious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU?
If it does write us and we will only be too glad to give you all the desired information

Local News Items.

The demonstration by Prof. Thornber next Friday at 2.0, will be in the orchard immediately adjacent to Mr. Thos. Dale's.

Mr. Wetherill is at present in town. He is fixing the machinery in the cannery and will have it all in readiness for the present season's crop.

Naramata regatta No. 2 is advertised on another page. This regatta is billed to excel all former attempts, and, given a fine day, the visitors will spend a very happy time.

Mr. J. Arkell has built a fine residence on the flat, and in one of the rooms has had a huge oven erected. Just so soon as the door arrives he will open up a baker's shop and supply the staff of life to all and sundry.

About fifteen representatives of the local Orange lodge celebrated the "12th" at Kelowna where the district upheld the anniversary. Next year the Okanagan County Lodge will hold their annual celebration in Summerland.

Geo. Anderson has completed the smithy on Shaughnessy Avenue for Messrs. Shields and Hatfield. It is exactly to the plan of the building which was so unfortunately destroyed by fire a few months back. The proprietors are at present busy transferring their plant, and hope to have it all fixed at an early date.

At the home of Mrs. F. J. Nixon, Miss Raleigh was the recipient of a "keepsake shower." It was a very pleasant affair, and fun was rampant the whole evening. Miss Raleigh will be missed in the community very much, and she has the good wishes of all for the future. She will not forget Summerland, nor her many friends. The "keepsakes" showered upon her will ever be a pleasant reminder of the town in the mountains.

Messrs. Stirling and Pitcairn of Kelowna, are at present building a packing shed on the wharf immediately adjacent to the freight shed. The size of the building is 70ft. x 20ft., consisting of one large shed. Mr. Geo. E. Ritchie of Kelowna has the job well in hand, and the shed will be ready for occupancy at the beginning of next week. This firm intends to build a large establishment immediately south of the new warehouse and slip dock just so soon as the work on the dock, etc., is finished.

Local News Items.

The first shipment of apricots, consisting of 11 boxes left Summerland on July 9th.

The Band will play in Peach Orchard on Sunday afternoon, July 17th.

Mr. Alex. McKay left on Wednesday for Ashcroft, on his journey to Fort George.

Mrs. J. S. Campbell and her brother leave to-day (Saturday), on a trip to Scotland.

Mrs. T. C. Stinson and children left on a visit to Manitoba and Ontario on Tuesday morning last.

Mrs. F. W. Hardy will hold her first reception in Summerland on Tuesday, July 19, afternoon and evening, and will afterwards receive on the first and third Tuesdays of each month.

The regular monthly meeting of the Ladies' Auxiliary of the Summerland Hospital will be held in the Council Chamber on Tuesday, July 19th, at 3 p.m. All interested in Hospital work are requested to attend.

Rev. F. W. Hardy will continue his series of fortnightly evening addresses on the general social topic of "Life's Relationships," on Sunday next, the subject being "Relationship to my Neighbor." The public are cordially invited.

Mr. E. E. Samson, manager of the Okanagan Fruit Union, was in the district during last week end. He is visiting points on the lake, and forming an approximate estimate of the apricot and peach crops, so that he may have all his staff fully organized to cope with the fruit.

The ladies' residence in connection with the college is fast rearing itself skywards, and work is being rushed forward to have the building finished for the Fall Term, which commences Sept. 21st. It will form a fine extension to the college, and, from reports, there are almost a sufficient number of lady students already enrolled to fill the building.

At Peachland, next Thursday, is being held the second annual regatta, and given a fine day this should prove one of the events of the Okanagan. In addition to the printed list of events, there will be:

- Single sculling race, 440 yards straight.
- Double do. do. do. do.
- Mixed do. do. do. do.

The Summerland Band will be in attendance, and a big crowd is being catered for.

AUCTION.

Acting under instructions from Messrs. T. C. STINSON, who is declining housekeeping, and E. O. DOBREE, who has left the district, the following valuable

Indoor & Outdoor Effects

Will be Sold by Auction at the RESIDENCE of Mr. STINSON, On SATURDAY, JULY 23rd, 1910, at 2 p.m. sharp.

The Sale will commence with Mr. Dobree's kitchenware, tools (including two 3-ft. cramps, saws, planes, soldering iron, &c.) tool box and step ladder; the smaller articles will be brought to Mr. Stinson's house. Also two Phylo chicken houses, netting, and large tent, all of which will be sold as they stand on Mr. Dobree's Lot in the Peach Orchard, where they can be seen at any time prior to the Sale. Followed at about 2.45 by Mr. Stinson's Property.

:: Naramata Notes ::

Mr. Hancock is spending a short while
in Vancouver.

Mrs. Hannah and daughter from Edmon-
ton are guests of Mrs. Niblock.

Mr. J. M. Robinson was a business vis-
itor to Victoria this week.

Mrs. J. S. Gillespie has gone on an ex-
tended trip to Chicago and New York.

Mr. Mulford's new cottage is about com-
pleted and presents quite a handsome ap-
pearance.

Mr. J. C. Williams who has contracted
to build the cement work on the Hancock
house has the work pretty well in hand.

Mr. and Mrs. Walters, late of Battle
Creek, Mich., have taken up their resi-
dence in rooms above the new store.

Next Thursday is the date of the regatta
at Peachland, and it is hoped that a big
crowd from this place will go along and
help cheer our war canoe boys on to vic-
tory.

The changes to the grand stand will be
completed in about a week and will very
much increase our facilities for handling
the big crowd expected on Naramata Day,
July 28th.

The picnic at Trout Creek held last
Thursday conducted by the Unity Club,
was one of the most enjoyable events of
the season. The afternoon having been
declared a public holiday, almost everyone
who possibly could get away was there—
men and women, boys and girls. There
was a lengthy programme of sports in
which both fat people and lean kind had
a chance to distinguish themselves. The
most fun-provoking event however by long
odds, was the ball game, married vs. sin-
gle ladies, which resulted in a long score
for the latter. Rev. G. O. Fallis—brave
man that he is—made a bold stand for In-
ternational League rules, and narrowly
escaped from the fierce attack of the van-
quished at the close of the game.

Mayor Taylor, of Vancouver, has inti-
mated that he will not attempt to bar the
big fight pictures if shown at places which
are not frequented by youths. He strongly
resents Dr. Spencer's prompt appeal for
their suppression, saying that there is no
need for eastern importations to point out
danger to public morals at every stage, and
intimates that Dr. Spencer's appeal was
more or less of self advertisement.

BURN STRAW.

Every advance in civilization means an increase in the number of man's wants and an added tax on the resources of nature. In no field is the pinch of necessity coming to be felt more directly than in the matter of the fuel problem. Pulp mills and house building have so eaten up the forests of the new world that we are told the end is in sight, unless methods of conservation and re forestation be promptly applied.

The coalfields of the United States are also running low. Coal is extracted in diminishing quantities at an ever increasing cost. It is true that in Alaska there are extensive coal deposits, as also in this province, while on the plains there are various beds of an inferior quality; but in this province and Alberta the strikes which occur among the labour unions with wonderful regularity are serving to limit the output by raising the wages while reducing the hours of labour. This makes it so hard for the rapidly growing prairie towns to get their supplies, that they are always on the verge of a coal famine—a very serious matter in a climate so inhospitable as that of the northwest.

Now, however, comes the cheering tidings that a straw burner has at last been evolved. We have seen other straw burners but they were not what one might call a howling success, partly because of the litter and dirt connected with the feeding and partly because of the too frequent need of replenishing the pile of fuel. The new invention disposes of the former by having the firebox filled out of doors while emptying the ashes, and obviates the latter by burning the gas from the ignited

straw. The drafts are so regulated that one stoking will last from twenty four to thirty six hours, thus eclipsing anything yet known to commercial science. The stove is made in heater style, somewhat on the airtight pattern but rather larger, and the whole secret of its success lies in a pipe which runs from the gas-filled top down on the outside and in again to the flame. The gas is collected in one end and burned in the other with scarcely any appreciable waste of carbon, and no danger of explosion.

The inventor of the new stove is Mr. Garlock, a bright American of Saskatoon. Should his stove do all that is claimed for it, as we have no doubt it does, since it seems to have passed the experimental stage, then Mr. Henry D. Garlock must be reckoned among the greatest benefactors of the age. The farmer's fuel on the great plains will henceforth cost him nothing, since a small fraction of the straw which illuminates the sky in one county in the wheat belt every fall, would warm every house in the Canadian north west for a whole winter.

Indeed, it is quite possible that straw for the stove will yet be baled for fuel and shipped to this province and elsewhere, and special adaptations of the principle may knock coal and wood from many a boiler. Freights may be high but straw is cheap, clean, light, easy to handle, and clearly the ideal thing for lazy people with strong native indispositions toward wrestling with the coal scuttle and the buck saw.

SUNDAY SCHOOL PICNIC.

On Thursday afternoon the united Sunday Schools held their annual picnic in ideal weather. The scow and the Maude Moore were loaded with a happy throng, and a big crowd also journeyed to the pleasure grounds by road, keeping the dust on the Trout Creek road in a healthy moving mass. Upon their arrival at the grounds behind Bulyea wharf, the juniors and seniors as well set about to enjoy themselves in a very thorough manner. Mr. J. R. Brown had a lot of games organized for the youngsters and they were pulled off in first class fashion, causing great fun. He did not forget the older ones at the picnic, and one or two good races also occurred between them. Refreshments were served and at the close of yet another successful holiday, the partakers journeyed home, tired, but fully ready for just such another happy day next year.

EXCERPTS FROM COMMISSIONER METCALFE'S
MARKET REPORT.

Moose Jaw. — I saw a lot of cherries here from the Okanagan district, of the following varieties:— 'Gov. Wood' arrived in poor condition; 'Black Tartarian' and 'Montmorency' arrived in fair condition only; 'Yellow Spanish' arrived in good condition. I understood they had been consigned to the Rex Fruit Co. here, and the prices realized would not be satisfactory to the shippers in B.C. 'Gov. Wood' cherries are no good on the lower mainland or Vancouver Island and from what I have seen here of the cherry from the Okanagan I would certainly discourage the growing of it; it is small and will not hold up or stand shipping. Growers and shippers will lose on this cherry, and at the same time lower the standard of their fruit products.

California apricots are selling to the trade at \$1.75 per case. Jobbers and retailers everywhere here report them as very slow selling to date, and further report they are not holding up, breaking down immediately. They also complain of California peaches the same way this season. I saw a shipment of raspberries here from Vernon B.C., arrived in good condition.

I should advise growers and shippers to avoid consigning any kind of fruit if possible, to jobbers and retailers. You obtain no returns for the same, the market here is demoralized by your doing so for other fruits brought out, better can or preserve or at least keep at home and avoid cost attendant upon shipping them out, also avoid shipping out a poor quality of any kind as instanced in the case of these Governor Wood cherries. You suffer a loss financially and injure your reputation as growers and shippers of high class fruit, which is so necessary in the successful marketing of our fruit products at this present time.

I deprecate also the cutting of prices on raspberries by some growers and shippers in the upper part of the province below regular quotations by growers and shippers in other parts. There is no necessity for it, the output of raspberries is limited and the sale for them is exceptionally good all over the provinces, either in crates or pails.

Grand Forks fully expects to ship about sixty car loads of fruit this season.

In the terminal city of the great west, Sir Wilfrid Laurier's visit will be celebrated by a civic holiday.

TAKE NOTICE that Alfred Richardson, of West Summerland, occupation mill owner, intends to apply for permission to purchase the following described land :-Commencing at a post planted at the north east corner of Lot 2893; thence north 24.87 chains to the south line of Lot 2558; thence west 28 chains more or less to the south west corner of Lot 2558; thence south 24.87 chains to the north line of Lot 2893; thence east 28 chains more or less to the point of commencement. Containing 70 acres more or less.

Dated June 6th, 1910,

ALFRED RICHARDSON.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up--by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)
CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 2, No. 51

SUMMERLAND, B.C., JULY 23 1910

Whole No. 103

REGATTA AT PEACHLAND.

Dame Nature was not altogether kind to the people of Peachland on Thursday last, when they held their second annual regatta. The morning was bright and promised a day ideal for aquatic sports, but in the early afternoon heavy clouds gathered, and a little later came showers, which repeatedly drove the spectators from the open grand stand to shelter. A thunder storm broke about 4 o'clock, and after two events had been put through in the rain, the management reluctantly decided to close the regatta, abandoning four events.

The York, late in leaving Penticton, left Summerland with a scow about 9.35 a.m. A party of nearly 75, including the Summerland Band, went the trip, and after a pleasant two hours journey arrived at Peachland—45 minutes after the regatta had been timed to start. The Aberdeen had already arrived from Kelowna with a good crowd, and during the afternoon numerous steam and gasoline launches brought in parties from various points. Altogether a crowd of about 300 people watched the sports.

The regatta course had been laid out with the finishing point opposite Reeve Lang's residence, at the north end of the course. Here an uncovered grand stand with a judges' box had been erected by the Townsite Co. This erection when completed is to form a clubhouse; a hall or pavilion upstairs, and dressing rooms and boathouse below. A covering over the stand on Thursday would have sheltered the people from both sun and shower, and added much to the general comfort.

A lengthy program of some 21 items had been arranged, and apart from the four abandoned owing to the climatic inclemency only two were called off on account of a lack of entries. There was, of course, the inevitable delay between the items, sometimes as long as half an hour, which gaps the band filled with music. The races, though somewhat sparse of entrants, were as a rule well contested, most of the finishes being close.

Peachland continued their winning career in the War Canoe races, all the three senior events falling to them. Thus they win the Robinson Shield, and the Forester's

and Lang Cups. The race for the last named trophy was especially keen, only a half length separating first and second. Peachland's concerted paddlework—evidently the result of constant practise—invariably put them ahead in the straight, but Kelowna were quicker on the turn. Peachland lost the Junior War Canoe race, and entered an unsuccessful protest against the result on the ground that one of their opponents crew was over age.

Another interesting race was the mixed war canoe race of four ladies and five gentlemen. One Kelowna and two Peachland crews entered, and though a considerable rain was falling, enthusiasm ran high. The finish was exceptionally close, a home town crew winning by barely two feet, and only a half length behind came the third crew, also Peachlanders. The Ladies War Canoe race was unfortunately among the events called off.

The sole Summerland competitor was J. Blewitt, and he came back the winner of two first prizes. Out of four entries he won the single canoe race and with Nuttall of Naramata as a partner he gained the double canoe ½ mile spurt.

In the ladies swimming race, one of the competitors collapsed after covering about half the distance, and had to be assisted by a nearby boat.

The catering by the ladies of the various church organizations was excellent. The lunch provided would have satisfied the most epicurean palate, and the ice cream was—well—a dream.

Mention should be made, too, of the Summerland band, which in addition to rendering a lengthy programme, also provided music on the boat trips. Their efforts were much appreciated.

On the whole, in spite of the rain, the committee should be satisfied with the result of their labours for they provided a really enjoyable day for the visitors.

The following is the list of events and winners:

Senior War Canoe Race, Robinson Shield
15 paddles - 1 mile, 1 turn.

Bronze Medals presented by Messrs. Eyre & Cutbill.

1st Peachland 2nd Kelowna

Boys' Swimming Race, 12 years & under

Mixed War Canoe Race. 4 ladies and
5 men. ¼ mile straight. Individual
prizes presented by Wm. Freele, Esq.

1st Mr. Saunderson's crew. 2nd Kelowna
3rd Mr. Bywater's crew.

The Summerland Review

MARKET REPORT.

Calgary.— Jobbers quote retailers the following prices here:

Cherries per 24 basket crate	-	\$3.75
do. per 4 basket case Plum crate		2.00
Black Currants 24 basket case	-	4.50
Red Currants 24 basket case	-	2.00
Raspberries 24 basket case	-	2.50

The demand for red currants is very limited and slow of sale, and prices rule much lower than for black currants, which are in good demand.

All fruit coming in from B.C. arriving in good condition, prices generally well maintained. Cherries are declining a little in price, large quantities arriving here now.

I saw a car of Tragedy prunes Burbank plums, Triumph and Hale's Early peaches all from California, arrived in good condition and selling to the trade:

Plums	-	\$1.75 per case.
Prunes	-	2.00 do. do.
Peaches	-	1.75 do. do.

Crossfield, Alta.—Agent at this point reports raspberries coming in here from B.C. now. Fruit dealers at all these places prefer to deal with the growers and shippers in B.C. for small fruits as they can buy cheaper, arrive fresher, coming direct being less time in transit. Of course California apples, apricots, and plums are in evidence, and sold by the dealers at these points at the present time. B.C. cherries gooseberries, red and black currants, are being sold by these dealers.

In one week there arrived at Calgary by express from B.C., 1,700 cases of different varieties of small fruits. Some were distributed to points north and east from here. The following are current prices to retailers on California and B.C. fruits:

Cal. Peaches, per box	-	\$1.50 to 1.65
„ Apples, per box, small		3.00
„ Pears, per box	-	4.25
„ Prunes, per box	-	2.00
„ Plums, per box	-	1.75
„ Cherries, per box of 10lbs.		1.50 to 1.75
„ Tomatoes, box 4 baskets		3.50
B.C. Cherries, 24 basket case		3.75
„ Cherries, 4 basket case plum crate	-	2.50
Black Currants, 24 baskets	-	3.25 to 4.00
Red Currants, 24 baskets	-	3.00
Gooseberries, 24 baskets	-	3.25
Raspberries, 24 baskets	-	2.50
Strawberries, 24 baskets	-	3.75
Tomatoes, 4 basket case	-	4.00

These tomatoes from B.C. were very fine stock—sound, solid, uniform, and of good size and color.

The following is an estimate of peaches that probably can be sold or handled at the points given below for preserving purposes. I submitted these estimates to all the jobbers here, and they were confirmed by them. I may say this includes the areas the jobbers distribute into at the various points:

Calgary	-	20 to 25	carloads.
Lethbridge	-	5 to 8	„
Medicine Hat	-	2	„
Moose Jaw	-	5 to 7	„
Regina	-	10	„
Saskatoon	-	8	„
Winnipeg		25 to 35	„
Brandon	-	10	„

In addition to this there will be what is canned and preserved by the canneries, and preserved and canned by consumers at local points in B.C.

This estimate may be affected and decreased by a partial failure of the crops in some parts, as is threatened at the present time for want of moisture south and east from this point, Calgary, and also from the fact that peaches are regarded as more or less of a luxury. California peaches at 35c. per case, Washington, Oregon, at 45c. per case, are about equal to 70c. in B.C., the margin of difference being covered by duty, variation in freight rates and icing charges. I think it advisable for growers and shippers to get quotations in the hands of jobbers and retailers in these provinces now, before they buy from American points, and at the same time use every endeavour to put up a good product in every respect, perfect your arrangements for shipping, and be ready to move your crop quickly and expeditiously as the crop requires to be moved, because failure in one detail may mean a serious loss to you.

I hope that growers and shippers will furnish our Exhibition Commissioners with an abundant and regular supply of all the different kinds of fruits available; send the best, and pack perfectly. These exhibitions are just starting, and I regard them as a good advt. for B.C., particularly now as our Province with its big crop of fruit looms up large in the public eye of these Provinces, and will much more so if we market this big crop successfully. I may state I am doing some advertising in a number of the leading papers throughout these Provinces at the request of the Government of B.C. I may say further I am giving interviews to papers where published at all points I have called at, advising to watch and wait for our big fruit crop, as it is certain of coming into these Provinces. The quality will be the best, the quantity large, and the prices will be reasonable.

Signed, J. C. METCALFE, Commissioner.

IRRIGATION CONVENTION AT KAMLOOPS.

At the irrigation convention that will be held at Kamloops at the beginning of August there will be gathered together many men to whom the subject of irrigation has a keen interest. Hon. Clifford Sifton, chairman of the Canadian conservation commission, has been invited to attend. R. H. Campbell, superintendent of forestry, Ottawa, will be present. Premier McBride and Hon. Thos. Taylor will be in attendance, as will also Martin Burrill, M.P., R. B. Bennett, K.C., and Wm. Pearce of the C.P.R. service, Calgary. Prof. Etcheverry, of the department of agriculture, university of California, will read a paper on a practical subject and will deliver a lecture in the evening, illustrated by lantern slides. Charles Wilson, K.C., has been asked to read a paper on the new water legislation, and there is promise that in point of interest the convention this year will be most successful. There is a marked interest manifested in the event and most of the large irrigation companies will send delegates to the gathering and the various other bodies entitled to representation will send delegates.

The visiting delegates will be shown orchards and farms in the vicinity where irrigation has long been practised and others in the early stages of development. All that is needed to make the convention the success it should be is a large and representative attendance, and the indications point to this want being filled.

NEW BAPTIST PASTOR COMING.

Rev. Harold Pattison, B.A., of Boston, Mass., a son of the late Prof. Pattison of Rochester theological seminary, has accepted a call to the pastorate of the Baptist church here, and will assume his new relations about October 1st.

Mr. Pattison is a man of cosmopolitan experience, having studied men and methods on the plains of the west for two years and in London, England, for two years, where he was assistant to the world famous F. B. Meyer and Campbell Morgan. He has lately been engaged in working out a solution of the down town church with a colleague of a sister denomination. The work was quite successful but too strenuous for his health. Hence the change.

At the B. C. Rifle Association meet in Vancouver, Harry Dunsden and Muir Stuart are the representatives from the local club.

BOARD OF TRADE.

There was a meeting of the Board of Trade this week and the chief business was the resolution passed relating to forthcoming exhibits, which reads as follows: That the fruitgrowers of Summerland be urgently requested not to dispose of their choicest apples, but to care for and retain same for exhibition at the Vancouver Apple Show, and for exhibition purposes in the Old Country, which in the past have won us such good results. This is most important for the benefit of the district.

In reference to the foregoing, Mr. D. H. Watson was deputed to interview the council.

Mr. J. L. Logie was appointed as representative at the Kamloops Irrigation Convention during August 3, 4 and 5.

C.P.R. OFFICIALS IN SUMMERLAND.

Mr. Bursteed, general supt.; Mr. Kilpatrick, district supt.; Mr. Bowles, general freight agent; Mr. Foster, general pass. agent; Capt. Gore, supt. C.P.R. steamers in B.C., and Mr. Ford, district engineer, were in town on Friday on business connected with the company.

FOREST FIRES.

At the present time forest fires are raging in the surrounding district. Lightning started them a little over a week ago, and the fire-fighters are endeavouring to prevent their spreading. The whole place is enveloped in smoke, and from the lake in the evening it is a sight to witness the surrounding mountains enveloped in flames. The heavy rains on Thursday helped considerably towards checking the spread of the flames.

FATALITY AT KELOWNA.

Mr. Jas. Wilkes, of Kelowna, lost his life during the squall on Thursday afternoon. He was out fishing in his row boat, and as the gale increased his friends grew anxious for his safety. The steamer York was at the wharf, and the captain went in search of the fisherman. They first saw a hat on the water, then an oar, and, fearing the worst, looked anxiously for the boat, which they ultimately sighted, floating upside down, and Mr. Wilkes was missing. As yet his body has not been recovered. The deceased was a well-known resident at Kelowna, and as a pianist was in great demand. He is not unknown in Summerland, and at one or two affairs here, has provided the music.

:: Naramata Notes ::

The Unity Club meet next Friday at the home of Mrs. W. Mitchell.

Mr. Hancock returned on Monday after a week spent at Vancouver.

Master Roy Boothe spent a few days visiting friends at Summerland.

Mr. A. P. Wilson journeyed north as far as Sicamous on Wednesday to meet his sister on her way out from Scotland.

The carpenters at work on the extensive additions to the grand stand, hope to have everything in readiness for the 28th—next Thursday—our second regatta.

The forest fires across the lake have become very serious. The Provincial Government have ordered all road construction gangs to fight the flames. W. Nuthall sent his full force this week.

The results of the work of the men up at the head waters were visible on Thursday morning, when a full head of water was sent across the high flume from Mill creek. It is a comforting thought to know that in the midst of a hot, dry season such as this, that there is, and always shall be, an immense body of water upon which to rely.

On Thursday afternoon, the scholars of St. Stephen's Sunday School journeyed to Trout Creek on pleasure bent. They were a merry group, and even though the storm came up, enjoyed themselves thoroughly.

A good Bell organ for sale cheap for cash. Apply Mr. G. A. McWilliams.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

JAMES RITCHIE - PARKDALE - SUMMERLAND

The Summerland Review

CORRESPONDENCE.

We do not hold ourselves responsible for opinions expressed by correspondents.—ED.

To the Editor, Summerland Review:

Dear Sir:—Is it not a shame that in our town at the present time there is no provision whatsoever for those who may desire to bathe? The scow has now been boarded up and the old wharf is demolished the late bathing shed having been promoted to act as garage.

We advertise the place, mention that there is boating, bathing, etc., and this being the case, why is there no provision made for the bathers? During the present hot spell many of us are deterred from bathing for the simple reason that we do not know where to change.

I would like to draw the attention of the council to this very necessary convenience feeling confident that it is the desire of many of the young folks of Summerland to have a bathing house erected. At Kelowna there is such an one, and why not at Summerland. Wherever it may be erected it would be frequented.

Trusting that you will publish my little plea, I remain,

Yours faithfully,

Aquaticus.

The Board of Governors of Okanagan College received tidings of a handsome gift this week. It comes from Rev. C. Padley, of the Kootenay district, and consists of fifty thousand shares of Diamond Coal Company stock, worth at the present time about \$35,000. The gift is an endowment for a chair of theology in the College.

Miss Raleigh was presented with a small purse of gold by the members of the Baptist Sunday Schools on Friday last. A merry party assembled at the home of Mr. and Mrs. C. S. Stevens, and during the evening Rev. G. J. Coulter White made the presentation, eulogizing Miss Raleigh's work in the Sunday School; Mr. Stevens also made a few remarks, and Miss Raleigh suitably replied.

Penticton is going ahead. The Bank of Montreal has opened a branch there, and it is understood that the Bank of Hamilton contemplate establishing themselves there.

Solto Douglas, brother of the present Marquis of Queensberry, is now working on a C.P.R. survey crew for three months, at \$2 per day. He vows that his wife has spent his fortune; she was known on the variety stage as Margaret Mooney.

SATURDAY, JULY 23, 1910

ESPERANTO.

Esperanto is the language specially contrived by Dr. Zamenhof for universal use. He was moved to formulate it by the conviction that no small part of the bickerings in his native province on the Baltic Sea were caused by mutual misapprehensions arising from the various dialects used. Could a new language be formed which would be easy to learn, these difficulties would vanish, and in time, by its universal adoption, the commerce and literary fellowship of the whole world would be vastly promoted.

Dr. Zamenhof is not the first man who has sighed for a universal language. Nor is he the first to attempt to produce one. He is, however, the first to make a successful attempt in that direction. Volapuk, much talked of two decades ago, fell down through inherent weakness, but Esperanto lives and grows. Ten different journals are devoted to its propagation, and international conferences are held every year in Europe, the proceedings of which are conducted wholly in that tongue.

Esperanto is not such a fool scheme as might at first blush seem. Nor will it do to say we have languages enough to wrestle with now without adding another. It is precisely because there are so many we need this new one. Let its use become general as a secondary language and Englishman, German; Hindoo or Jap, can travel all over the world without difficulty, and enjoy the best the world has to offer in the way of literature.

For the glory of Esperanto is that it is a language built on scientific principles. Other languages, like Topsy, "just grow-

ed." As a result they are encumbered with thousands of unnecessary words, numerous and perplexing variations of sound, tricky idioms and a system of growth which calls for a wide knowledge of half-a-dozen other languages if one, would know at a glance what a new word means.

In Esperanto 900 root words, including prefixes and suffixes, give one all the language required in ordinary use. It does not take long to learn them, particularly if one has some knowledge of Latin, English, and French, since the root words from which other words are made by prefixes and affixes are often derived from those languages. And as for the grammar of the language, that is supposed to be mastered in an hour. There are no silent letters, the language is phonetic, and the words never change their form. Syllables that never change take the place of inflexions, and a single prefix will do away with a long list of words. The prefix "mal," for instance, denotes the direct opposite of any idea. Thus malbona means not good; malalta low, short; malestimi to despise, and so on. A Frenchman learning our language would have to learn not only our words for "good," "tall," "esteemed," and so on with an indefinitely long list, but as many more denoting the opposite idea, as "bad," "low," "to despise." In Esperanto he learns half the list and tacks "mal" on each word and he has the word for the opposite idea.

It is said that Esperanto can be mastered by anyone of ordinary intelligence in three months. If this be so, then in Europe, where the countries are no larger than our provinces, the children in high schools should be made to learn it. We are so homogeneous and self-contained on this continent that it is not needed on that plane, but colleges might well find room for it, the more especially as the new tongue is said to be not only simple but capable of expressing the nicest shades of meaning. The thing spreads in Europe and the Orient, and Canadians will yet find it greatly to their advantage to have a knowledge of the new tongue, which has its roots in the familiar ground, however arbitrary its genesis may have seemed.

At the Vancouver Exhibition there will be prizes for Canadian artists, wood-carvers, architects, etc., also for the best collection of insects, which must be classed. One variety consists of 200 "Canadian born" bugs, which must be injurious, and samples of the injury they perpetrate on field flower or tree must be shown.

Vancouver Exhibition

August 15 to 20, 1910.
Vancouver - - B. C.

\$30,000

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as “The Balance Shift”—“The Ruling Device”—“The Double Release”—“The Locomotive Base”—“The Automatic Spacer”—“The Automatic Tabulator”—“The Disappearing Indicator”—“The Adjustable Paper Fingers”—“The Scientific Condensed Keyboard” all

Yours for 17 Cents a Day!

We announced this new sales plan recently, just to feel the pulse of the people.

Simply a small cash payment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money with

The **OLIVER** Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD “GO!” So easy to run that beginners soon get in the “expert” class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers.

‘An Oliver Typewriter in Every Home!’

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE IN BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

Local News Items.

Misses E. and N. Raleigh left for their home in Vancouver on Monday last.

Mr. E. C. Dent left for the east yesterday. He will be with his parents, and intends to be away for three or four months.

Mr. and Mrs. E. B. May left on Friday morning for a three months' holiday in England.

Mr. J. R. Brown has been appointed as Indian agent. His district extends from Sicamous south, and includes the whole of the Okanagan Valley.

Mrs. Wilson, of Livingstone, Montana, sister of Mrs. W. Watson and Mrs. House, also of Montana, are at present the guests of Mrs. W. Watson.

Mr. and Mrs. T. G. Beavis and family, left today (Friday) on a trip to Crystal City and other prairie points. They expect to be away for a few months.

Mr. W. Borton, brother of Cliff, arrived in town on Monday. He is going to work for Messrs. Borton and Watson, and will work at the copper and tin-smithing side of the business.

The ladies are requested to contribute cake for the Hospital Auxiliary lunch counter at Naramata next Thursday. Kindly send supplies to Council Chamber on Wednesday afternoon.

The first box of peaches was shipped out on Friday last, and the first consignment of one-and-a-half ton on Monday. The fruit is ripening very quickly and the packers will have all they can do to handle the crop.

Miss Estabrooks, of St. John, N.B., a gold medalist graduate of McGill in classics has been added to the staff of lady teachers in Okanagan College. Miss Estabrooks comes with very high recommendations.

Mr. and Mrs. W. G. Benson arrived back from their tour of the coast cities on Tuesday last. Mr. Benson will assume charge of the Bank of Montreal at Summerland whilst Mr. May is away on his holiday in the Old Country.

The sale by Auction tomorrow will be at the residence of Mr. T. C. Stinson. Mr. Dobree's effects will also be sold there, but the tent and Philo chicken houses should be seen at Peach Orchard prior to the sale, as they will not be removed from Mr. Dobree's lot,

AUCTION.

Acting under instructions from Messrs. T. C. STINSON, who is declining housekeeping, and E. O. DOBREE, who has left the district, the following valuable

Indoor & Outdoor Effects

Will be Sold by Auction at the RESIDENCE of Mr. STINSON, On SATURDAY, JULY 23rd, 1910, at 2 p.m. sharp.

The Sale will commence with Mr. Dobree's kitchenware, tools (including two 3-ft. cramps, saws, planes, soldering iron, &c.) tool box and step ladder; the smaller articles will be brought to Mr. Stinson's house. Also two Phylo chicken houses, netting, and large tent, all of which will be sold as they stand on Mr. Dobree's Lot in the Peach Orchard, where they can be seen at any time prior to the Sale. Followed at about 2.45 by Mr. Stinson's Property.

cott, Hotel.

This season prairie chicken may be law-
fully shot during the month of October.
The duck season opens on the 28th of
September, and the open season for deer
is from September 1st to December 15th.
Blue and willow grouse may be shot from
September 1st to December 31st.

The opening day of Vancouver's first
exhibition is fast approaching, and there
are busy times ahead for the management.
Entries for the various competitions are
already rolling in from all over the
Province and Canada. So many applica-
tions have been made for space by differ-
ent manufacturers and business organiza-
tions that Manager Roy is at his wit's end
to provide adequate accommodation for
them all.

A BASE BALL BOTHER.

The Penticton Herald of last week came out with a very pretty little article about baseball, in which it stated in a glaring headline that the Penticton fans are wondering why Summerland should play at Naramata. During the week a letter has been received here from the chief 'fan' of the Penticton team, which is interesting. He states that he does not blame the Summerland boys for feeling sore at the statements made in the article in question, as they were uncalled for, and the items were not obtained from anyone in authority in the Penticton Club.

The Summerland and Penticton teams are friends—may they ever so remain—but had the Penticton Herald its own way, they would be enemies. If the Herald desires to throw down the glove then we shall be obliged to take it up, but if it desires fair and square sport, then the editor should see to it that his facts are correct and fully endorsed by the baseball nine ere he places them in his paper at all, much less in the prominent place allotted last week.

"Summerland is butting in." It would be well if the writer of the article would 'but out' until he is a little more familiar with southern Okanagan sports.

We have no desire to quarrel, but just want the editor of the Herald to know that we are not going to take a kick in the back from anybody. Summerland still holds the baseball championship of the Southern Okanagan, and will so do until fairly beaten in a series of league games.

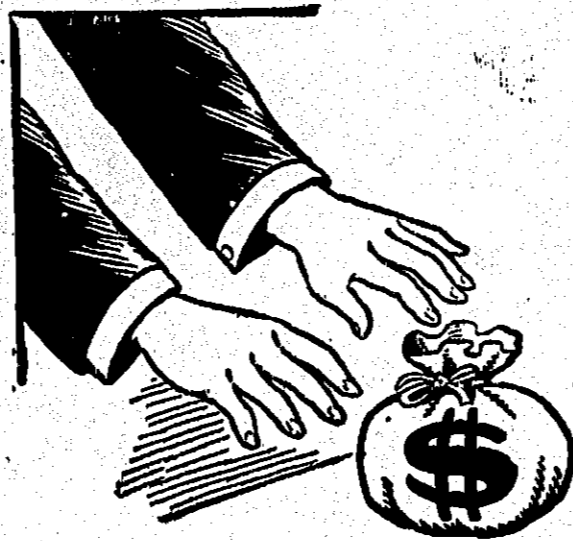

GETTING BUSY IN THE KOOTENAY.

The Kaslo Board of Trade has made an initial move for the co-operation of the whole of the Boards of Trade in the Kootenay district to combine and make a district exhibit at the forthcoming National Apple Show in Vancouver. The fruit-growers of that district are evidently fully alive to the advantages to be derived by having a first-class exhibit only at the great show of the west, and it is up to the Okanagan growers to show what they can do. There has never yet been an exhibition of fruit from Summerland at the coast, and it would be well for all to let the province see what can be grown in the southern part of the sunny Okanagan.

REGATTA NO. 2.

THIS PROMISES TO BE A GREAT EVENT.

On Thursday, July 28th, the people of Naramata will put forth their best efforts to please those who take advantage of the cheap excursions arranged for that day and visit this town.

The charming lake trip on the C.P.R.'s palatial steamer, "Okanagan," is one of the big attractions for the day. The management have the idea that the people between the Lake and Sicamous Junction should be afforded at least one cheap excursion down the Lake each year, and they propose to furnish that excursion as well as a bright, snappy five hours' entertainment at the Naramata end that will be pleasing to all.

WAR CANOE RACES.

The greatest excitement was created last year by the splendid WAR CANOE races. The same tremendous enthusiasm was manifested at the opening regatta on June 23rd, and everything points to these great races reaching the high-water mark on July 28th.

LIFE-SAVING CREWS.

Another of the most spectacular events of the day will be the great struggle between the life-saving crews of the ss. "Okanagan," ss. "Aberdeen," and ss. "York," for the Robinson cup. The crew of the Aberdeen won this race at the last regatta, and they say, "What we have we hold." This will be a hot contest.

BASEBALL CHAMPIONSHIP.

The highest pitch to which the excitement ran last year was in the final game between Kelowna and Summerland, for the Price Ellison cup. This year the Hon. Mr. Ellison not only presents a splendid cup, but the winning team are to be decorated with Silver Medals as well. The strongest team on the Lake will be pitted against the best team the north end of the Valley can muster, and the winners of the game will be considered the champions of the Valley for the season. The probabilities are that it will be Penticton v. Enderby. This match is timed for 4.0 p.m.

LOTS OF GOOD MUSIC.

The Summerland Brass and Reed Band has been engaged for the day, and the Vernon Band is expected also. The very best of band music will, therefore, flow abundantly.

Sailing races, motor races, canoe races, skiff races, swimming races, and all kinds of novelty stunts in the water.

OSOYOOS LAND DISTRICT.

DISTRICT OF YALE.

TAKE NOTICE that Alfred Richardson, of West Summerland, occupation mill owner, intends to apply for permission to purchase the following described land :-Commencing at a post planted at the north east corner of Lot 2898; thence north 24.67 chains to the south line of Lot 2558; thence west 28 chains more or less to the south west corner of Lot 2558; thence south 24.67 chains to the north line of Lot 2898; thence east 28 chains more or less to the point of commencement. Containing 70 acres more or less.

Dated June 6th, 1910.

ALFRED RICHARDSON.

RICH RED BLOOD.

You Will Never Have It as Long
as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

Whole No. 104

NARAMATA DAY REGATTA.

Crowds of People From all Points of the Valley. The Okanagan Crowded to the Smokestack.

Two Baseball Matches Plenty of Music Some Good Water Stunts Peachland pull off two War Canoe Races and Naramata one Every Provision made for the Visitors
Next Regatta Sept. 5th

On Thursday, Naramata Day, the town on the east side of the lake presented quite a gay appearance. The regatta had been advertised as an opportunity for the residents of the whole of the valley to visit the southern points, and well did they so do. Right from Sicamous they came and at Enderby about 150 boarded the train. At Vernon and the other points along the line they flocked in the cars, and at the landing boarded the steamer Okanagan. All down the lake the mystic words Naramata Regatta had been whispered, and by the time the steamer arrived at the watering place of the Okanagan, a crowd of close on 600 was aboard. They thoroughly enjoyed their trip, which was made all the more enjoyable by music rendered by the splendid band from Vernon. From Penticton and points south the trippers also came in crowds, so that by the time they had been packed into the grand stand, and scattered over the vicinity of the wharf, over one thousand people were numbered.

A good programme had been provided and every care had been taken to ensure a good time.

During the regatta both the Vernon and Summerland bands rendered selections which were appreciated by all.

The refreshment booths were kept very busy serving out their viands of all kinds. The Summerland ladies of the hospital auxiliary were kept very busy indeed, and even though they must have made a splendid profit, they deserved every cent of it, for they worked very hard indeed and had their department well equipped and exceptionally well organized.

If it were possible to bring in crowds from the east and from the coast similar to the one gathered at Naramata on Thursday

it would be far better than reams of advertising matter, and columns of newspaper matter. Even as it was the effect on the visitors from the north was startling, as a great number of them were not acquainted with conditions at this end of the lake, and many resolved to make a better and closer acquaintance by spending their vacations in the district.

THE BASEBALL GAMES.

The baseball games formed a big part of the programme. In the morning the Summerland boys met the Penticton team, and had a fight as to who should play the Enderby representatives in the afternoon. It fell to the lot of Summerland to win by 12-8. The game was not over good as the score indicates, and at times it looked like a win for Penticton, but they did not manage it this time. In the afternoon the winning team met Enderby. Summerland was handicapped in having played once during the morning; but the game was not played to a finish. It stood 7-7 at the close of the seventh innings.

There will undoubtedly be much displeasure with the decision of the umpire who declared the game 9-0 in favour of Summerland.

It was Enderby's own fault. They would not play ball until Mr. Berry, of Vernon, appeared on the field to act as their umpire, and although he was well aware that the boys were waiting, he did not hurry in the least, with the result that instead of commencing at 3-30, the advertised time, they did not start until 4-15. This was too long a delay, and although Murphy, the Enderby captain was well aware that the boat would leave at 6-30, he would not start until Berry happened along. Meanwhile he objected to Summerland playing a Penticton

man, but withdrew when it was pointed out to him that one member of his team came from Kelowna and yet another from Armstrong.

Had the teams started in sharp there would have been time enough to finish the game, and the umpire being well aware of the fact gave his decision in favour of the team who stayed on the field to finish the game.

It was awkward enough for Enderby, but they were well aware that the boat would leave at the advertised time, therefore they should have started the game at the advertised time as both teams were on the field. In any case an offer to pay their fares up to the Landing was made to them if they would stop and finish the game, but they would not, and Summerland were declared the winners by the umpire, Dr. McGregor.

THE REGATTA.

The War Canoe races were the events at which the spectators got most excited. In the Mixed War Canoe Naramata won out against Peachland by about two lengths, but Peachland came out first in the other two races, viz. the Junior and Senior. They thus win the silver medals which go with the Robinson Cup. If successful again in this race, they will win the gold medals, which are surely worth all the training any team may put in. They deserve their victories as they paddle well and play a winning game all through. As they were punting to the starting post the Peachland crew got upset, but boarded their craft again and paddled to victory. At the turn both teams were level but Peachland put on a spurt and won by a full length. This was the fastest War Canoe race on the lake, as they paddled the mile with one turn in seven and a half minutes.

Continued on page 5.

LECTURE ON ORCHARDS.

Interesting Meeting Under Auspices of Farmers' Institute on Friday Last.
Professors Thornber and Melander give advice.

On Friday last, Professors Thornber and Melander, of the Washington State Agricultural College, were in Summerland under the auspices of the Farmers' Institute. In the afternoon they gave a demonstration in Mr. T. Dale's orchard, and in the evening each delivered a lecture in the Men's Club.

The demonstration took the form of a practical chat with demonstrations on fruit or fruit trees, chiefly apple, and was well attended. Different methods of pruning were illustrated, and reasons given for each method; spraying was emphasized, particularly with a heavy pressure to get through the foliage. Many questions were asked and answered, and great benefit was derived by all who made it their business to attend.

In the evening, at the Men's Club, a good crowd assembled to hear these two well known professors. Mr. C. Thompson occupied the chair, and in a brief speech called upon Mr. W. E. Scott, deputy Minister of Agriculture.

Mr. Scott said that he was pleased once again to have the opportunity of visiting Summerland. Since his last visit the prospects of the fruit crop seemed to have been more than maintained. As to the labour required for the picking of the fruit, he advised his audience not to take it too seriously to heart, as it was only a question of supply and demand, and would ultimately right itself. At present the department was trying to devise means for obtaining additional labour, but it is necessary to have information from the fruit growers as to the amount of help they would require. In a country such as this, there is no room for the pessimist, but all should be optimistic. The country was built by optimists. If there is a little backset now and again, it does no good to worry, take things coolly and they will adjust themselves. At the end of his brief but philosophical address, he called upon Prof. Thornber for his lecture.

Prof. Thornber, commencing, said that he was quite at home in B.C., and he was very pleased indeed to be once again before the fruit growers of Summerland. Although in Washington they had the largest collection of apple trees in the world, and one of the most remarkable orchards, he was glad to get into an orchard section for prac-

tical work, amongst men who grow apples for livelihood. In the course of his remarks he gave one or two particulars as to the laying out of a fruit orchard. As regards the selection of the land, certain conditions are particularly adapted to certain fruits. Land should be well air-drained and well water-drained, and any formation likely to act as a catch for frost, water or alkali should be avoided. Plenty of water is necessary for the trees, but it is unwise to think that because one has a good supply, that it should all be used. There is as much danger from the one extreme as from the other. A small amount of water well tended is better than too much. Fertility of soil with a good depth was another very important consideration. The Spitzenberg apple requires a very deep porous soil. In Summerland he did not think they would go far wrong if the orchards were planted with Rome Beauty, Jonathan and Wagener apples. So far as he was able to judge during his brief visit, he would say these three were the most suited to the place and its conditions. In preparing an orchard it is not wise to hurry, because it pays to have the land thoroughly prepared before planting. Many orchards are failures because of inadequate preparation of the land. Then plant first class fruit trees, clean stock, and a grafted tree in preference to one which has been budded. Pedigree stock pays best in the end.

Early spring is the best time to plant most kinds of fruit trees. For apples it is best to plant in the fall.

The soil should be well tilled. Keep the surface of the ground broken and mulch it well. Cultivate for the crop which is on the tree and at the same time remember to cultivate for the following year's crop, as buds are forming. For a young orchard cultivate deep and get the roots well down. Cultivate apple trees until the size of the fruit is determined. If it is necessary to cultivate late, use a cover crop, which is an absolute necessity to preserve the soil and to add the necessary humus to the soil. The soil must be kept up. Immediately before the last cultivation, sow either fall wheat or fall rye. He preferred the hairy vetch but it was not always easily procured. Canada peas or red clover also form good cover crops. He advised sowing rye about the first of August and harrowing about the

fifteenth, and keep a good four feet from the trees. In case of danger to the trees during the winter, he would sow cover crops the first year. But do not mow the crop and haul it off the orchard.

In his remarks on pruning he advised that as soon as planted in the spring, apple trees should be cut to about 18 to 24 in. peaches about 12 to 15 in., and pears about 12 to 24 in. The most essential pruning was in the first year. The second year was also very important, and he preferred to leave from three to five good branches. In apple trees rub off the buds for the first six or eight inches above the ground. Cherry trees should be pruned after the crop, and plums when in bloom. It was advisable to group cherries as they had to be dried off before most of the trees, being the first crop in.

For peaches he advised the Triumph and Elberta. In pears he believed the brightest of futures was in store for the grower, but it would pay to keep a man to police the orchard for blight. Bartlett and Burre d' Anjou he thought the best varieties.

At the close of his lecture he called upon Prof. Melander for his address upon insects and fruit pests. He gave a very interesting lecture on bugs of all kinds. His pet aversion was the house fly, and he trisected and magnified the little pest, proving it beyond doubt a pestiferous nuisance both on the earth and in the jam. An interesting chart indicating the fly and its responsibility for the spread of typhoid was shown. He dwelt at full length on orchard insects, and advised sprays of various kinds. The gist of his remarks on this subject have been issued in a tabulated form, and will be supplied to anyone sending to the College in Washington. Bees, he continued, were a necessity in a fruit district, and he strongly advised growers to keep a few hives in their orchards to help set the fruit blossoms. This year the bloom had been early, and the bees had not been enabled to get to work with the result that far fewer buds had set than would otherwise have been the case. This illustrated how valuable these insects were to the orchard.

At the close of the lectures Mr. Agur proposed a vote of thanks to the lecturers, who were such practical men and not mere theorists. Thanks were also due to Mr. Scott for helping the bringing of the lecturers here this season. He hoped that every year the fruit growers of the district would be able to gain knowledge from lecturers of the same calibre as those who had been before them that evening.

This brought the meeting to a close.

:: Naramata Notes ::

The first ripe peaches grown at Naramata were picked this week from Mr. Mitchell's orchard. He has a fair crop.

Mrs. Johnson and daughter from Winnipeg were visitors in town this week as the guests of Mrs. Robinson.

Amongst the number of recent additions to our permanent residents might be mentioned Mrs. Cook and daughter, Miss Chambers from Finlay, Mich.

Mr. J. M. Schreck has a hen that did the two egg a day stunt one day last week. This is certainly going some and is the very next thing to the fabled goose that laid the golden egg.

Miss Wilson, a sister of Andy, arrived from Scotland, and the two daughters of Mr. and Mrs. T. J. Williams. Miss Williams is an accomplished musician, a graduate of the Toronto Conservatory of Music.

Mr. Fallis came up from Penticton last Sunday in Mr. Connor's launch. He was accompanied by Mr. and Mrs. Bull of Winnipeg; who are spending a short holiday in the Okanagan Valley.

Mr. J. C. Williams has entered into partnership with his brother, and they are going into the cement business. They have recently bought the business of Mr. H. Harlaw of Penticton, and are fully equipped for meeting all local demands.

The choir recently organized in connection with the Sunday morning services is proving quite an assistance to the meetings. There is as yet a dearth of male voices but doubtless this weakness will be remedied in time.

Mr. and Mrs. E. Mitchell entertained a party of young folks on Saturday evening with progressive whist. The scoring throughout the series was not high, the only distinguished score being made by Mr. Nuttall. The crowd broke up with the singing of a few favourite airs, and hearty cheers for the host and hostess.

A Stockton (Cal.) poultry breeder is experimenting with electricity. He has a theory that chicks have a tendency to be in likeness and markings to the more vital parent. Each night he takes the rooster from the perch, which is of steel, and a current of electricity is passed through. By this means he hopes to impart a greater vitality to the hens.

REGATTA---cont.

In the double canoe race one of the canoes capsized at the turn and caused great fun. The water was warm and the occupants did not seem to mind.

The following is the list of events and winners:

Double Canoe. 1 Stevens and M'Laughlin.

Mixed War Canoe 1 Naramata.

Single Canoe 1 Stevens 2 Blewitt 3 Agur.

Double Sculls 1 Barkwill and Moulding
2 Dennison and M Cody.

Senior War Canoe 1 Peachland.

Mixed Double Canoe 1 Stevens and Miss Robinson 2 Agur and Miss Kerr.

Diving 1 Howis 2 Rogers 3 Wilson.

FOR SALE. Canning Outfit. Apply W.M. Wright.

Local News Items.

Messrs. Williams Bros. have commenced business as concrete and cement makers. They have purchased the complete outfit from Messrs. Harlow of Penticton. It is their intention to contract work for the Lower Okanagan district, Kaleden etc.

The building formerly occupied by the Grocery department of the Supply Co., is now being gradually removed to form a new addition to the hotel. This will be worked on the dollar a day basis. The lower part will form a dining room, and the upper story will be divided into bedrooms.

Mr. J. Rowley, Jeweller and Optician, of Toronto, who has a branch in Summerland, is at present visiting his daughter, Mrs. Orr.

A gang of firefighters journeyed to the Garnet Valley district on Thursday morning

Messrs. White & Co. have built a lean-to shed immediately against the store of the Supply Co. This is meant as a store for wagons, rigs, etc.

The first really large consignment of fruit was shipped on Wednesday. There is every indication that this season's crop will be up to expectations.

Miss Mary Dale was married at Vancouver last Saturday to Mr. E. W. Bateman. The Rev. P. Clinton Parker officiated. Mr. Bateman is the C.P.R. right-of-way and lease agent at the terminal city.

At the landing they are now about to start building the new tug for the barge service on the lake, there is also to be built another heavy barge. This will mean when completed that the lake service will be second to none in the province, and during the fruit season the whole of the fleet will be kept busy transporting the heavy crop from the various points of shipment on the lake.

A few good fruit pickers are wanted by H. Bristow, also help for the cannery.

Crowds of Summerland people journeyed across the lake on Thursday to see the regatta. There were a good few contestants from here. In the single canoe race Blewitt would undoubtedly have won had the start been fair, but it was the very extreme and the bell should have been vigorously rung. In the double canoe event, although a Summerland team had entered, the race was run off without them. The members of this crew were known to be at dinner, they had been playing ball in the morning and a man must eat. Surely in such a case the contestants ought to be considered.

PROTECT THE CHILDREN.

The Toronto Telegram comes out with a suggestion appropriate to the season when it suggests that one more examination should be added to the examinations already darkening the juvenile sky, viz., an examination for examiners.

We would like to say Amen, and to add as a further suggestion that all members of the Boards of Education who have to do with the mapping out of the courses of study pass special examinations with regard to their sanity as well as their academic proficiency. In our own province, for instance, we have seen children from ten to thirteen years of age struggling to mentally masticate nineteen hundred years of British history, with Canada's three hundred thrown in for good measure. Had the youngsters nothing else to do such a task might not be so unreasonable, but when we remember that they have half a dozen other subjects to master, each presenting its own peculiar and ferocious hours to these youthful knights of learning, the imposition becomes not only silly but brutal.

It will not do to say that the history referred to is only a digest. That is doubtless true, since the child couldn't well carry in his small arms a full treatment of the subject, to say nothing of his head; but it is precisely that kind of digest which would give the boy's father mental dyspepsia, if indeed it did not give him the colic. What then does it mean to the boy? Is it any wonder he wishes all teachers and examiners were hanged, or that they had died before they were born?

Children of the public school have an

unappeasable appetite for stories. History disguised in story form would be a delight to them, and it would whet their desires for fuller knowledge, which might in the high school be given them when the faculty of judgment, which succeeds that of the imagination and the memory in the order of ripening, has begun to open.

Not only do we see children preparing for high school entrance in this province have nineteen hundred years of British history and three hundred years of Canadian history to cover, but we have seen a Canadian history paper set for them which might have been set for a Bourindt or a college graduate. The questions involved constitutional issues such as a twelve year old mind was never designed to grasp, and we could not help thinking the man who set that paper certainly did not know his business, since, apparently, he did not know the limitations of the child mind.

Teaching is one of the finest of all fine arts and none but those actually engaged in it and masters of it should be allowed to lay hands on it. It is far more fitting and necessary that the pedagogical affairs of this province should be in the hands of the teachers than that laymen should be obliged to keep their hands out of law, medicine and dental surgery, so the gentlemen of those professions can steer things to suit their own particular interests, at times regardless of the public good.

The teachers' associations should be at least as influential in educational matters as are the medical, dental and legal associations in their fields. But make 'em all pass their examinations first; that's the point. It's no easier to teach without special training than it is to preach, farm or run a newspaper.

RIFLE ASSOCIATION.

On Saturday first, July 30th, the third shoot of the series for the Dominion Salver will take place on the range, and all members are requested to make a special effort to attend.

Demand for Taxes.

The Revenue Tax of \$8.00 is payable by every male person of 18 years of age and under 60. This tax is due on the 2nd day of January in each and every year, and may be paid to

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locking Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard" all

**Yours for 17 Cents
 a Day!**

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash pay-

ment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

**A Quarter of a Million
 People are Making Money**
 with

The **OLIVER**
 Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD "GO!" So easy to run that beginners soon get in the "expert" class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers

'An Oliver Typewriter in Every Home!'

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE in BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

SUMMERLAND, - - - B. C.

Mr. A. B. Williams, who has been in Summerland for about two months, with Miss Williams, who joined her brothers here last October, left on Wednesday morning on their way back to London, England. They expect to return and settle here next spring.

Mr. Harris, who for some time past has been resident in town, has been appointed teacher at the town school. Mr. Harris has had a long teaching experience in the north of England, and comes with a full knowledge of his profession. He holds various certificates, and for twelve years was master of the school at High Preston, Yorkshire. Upon resigning from that position to come out west, he was presented with a purse of \$400 from the trustees, and the assistant teachers and scholars presented to him a writing cabinet suitably inscribed.

The Summerland Review

BEES AND FERTILIZATION.

(From "Gleanings in Bee Culture.")

A Spokane man recently made a trip to Wenatchee Wash., talking bees to the orchard men of that district. An investigation was made at the request of one of the leading citizens of the town, and Prof. R. E. Trumble was entrusted with the work. His conclusions as given in the newspapers are of great interest to bee-keepers. The report in an abbreviated form follows.

The apple blossom drop is largely due to three causes: First, many of the young terminal shoots set fruit this year. This is unusual; and where it happens, most of the blossoms normally fall from these young shoots.

Second, unfavourable wind conditions during the blossoming period reduced the wind pollination to a minimum.

Third, we have very inadequate bee-pollination in this valley, because we have very few bees compared with the great number of trees to be cross-pollinated. When going through the orchards during the blossoming time I have found only two or three bees in a five acre orchard. While there are over 68 insects that cross-pollinate apples, these insects are not here in number great enough to cross-pollinate the great numbers of bearing trees we have. Another thing that made bee pollination difficult this spring was the fact that all the varieties of apples bloomed so nearly at the same time. This was unusual, ordinarily there being great variation in the time of blooming among the varieties and even among the blossoms of the same varieties.

Counts were made of three varieties of apple trees near beehives (30 to 100 yds.). For comparison, counts were also made on the same varieties of trees, where there were no beehives near, to determine the percentage of blossoms and fruit spurs that failed to set fruit, and the number that set fruit with and without bees. Only spurs that bore blossoms this year were counted.

It was found that where the bees were near, only 7 per cent. of the fruit spurs failed on the average; while where there were no bees 49 per cent. of the fruit spurs that normally set three or four apples failed. These did not set a single apple.

Prof. Trumble summarizes his investigation as follows: "Our conclusion is that to prevent such difficulties in the future, we must get bees. The common honey-bees are the best insect pollinators on earth. They come earlier in the spring, stay out later in the fall; begin earlier in the morn-

ing; work later in the evening; and will work under more unfavourable conditions than any other insect. From my work with bees, I have calculated that a single honey bee is capable of cross-pollinating over 16,000 apple blossoms in a single day; but during the blossoming period there are so many blossoms that the bees do not go far from the hives, so that we need hives all over the orchard.

CANADA'S NEXT CENSUS OF POPULATION.

The next census of Canada will be taken under date of June 1st, 1911, and will embrace the subjects of population, mortality, agriculture, manufactures, minerals, fisheries and dairy products.

Population will be recorded under the heads of residence and personal description; citizenship, nationality and religion; profession, occupation and trade or means of living; wage earnings and insurance; education and language spoken, and infirmities.

Every person living on June 1st will be entered on the schedule of population by name, as member of a family, institution or household, together with place of habitation, sex, relationship to head of the family or household, and whether single, married, widowed, divorced or legally separated. The month of birth, year of birth and age at last birthday will also be recorded.

Entries will be made for each person to show the country or place of birth, year of immigration to Canada if born elsewhere, year of naturalization if formerly an alien, and also racial or tribal origin, nationality and religion. Every person of alien birth who has become a naturalized citizen is a Canadian by nationality; and every British subject with residence in Canada, as well as every native of Canada who has acquired citizenship by birth or naturalization, is also a Canadian by nationality. But there is no Canadian by racial or tribal origin, unless the Indians are so counted.

Every person having an occupation or trade will be entered for it, but if employed in the census year at some other occupation for part or whole time, he will be so recorded also. If the person is working on own account the entry will be so made. An entry is also required to be made showing where the person is employed, as on farm, in woollen mill, at foundry shop, in drug store, etc.

Wage earners are entered to show the

number of weeks employed in 1910 at chief occupation or trade; at other than chief occupation if any; the hours of working time per week at chief occupation, or at other occupation if any; the total earnings in 1910 at chief occupation; the total earnings at other than chief occupation; and the rate per hour when employed by the hour.

Entries are required to be made for each person showing the amount of insurance held at date of the census upon life, as well as against accident or sickness, together with the cost of such insurance in the census year.

Under the heading of education and language, records will be taken for every person of five years of age and over showing the number of months at school in 1910, and if the person can read and write, and the language commonly spoken by each person. The cost of education in 1910 for persons over 16 years of age at college, convent or university is also called for.

The last question on the schedule of population relates to infirmities. It calls for a record of each person having an infirmity. If blind, deaf and dumb, crazy or lunatic, idiotic or silly, a record thereof will be made in the proper column, and the age at which the infirmity appeared is required to be specified.

LAUNCH OF THE GOOD SHIP "KALEDEN."

On Saturday last, immediately upon the arrival of the Okanagan at the Landing, the new steamer for the lower lake service was launched. Miss Estabrook, of Penticton, christened her, and the hausers were immediately cut, and she slid down the well greased ways, and took to the water as if she was settling in her natural element. She made her initial voyage on Tuesday, and journeyed down the lake to Penticton, making very good time. She called in at Summerland, and quite a few turned out on the wharf to see her, but her stay was so short that it was impossible to board her and form any opinion as to her furnishings. Capt. McMorris was in charge, and Capt. Gore was on board. On Wednesday she journeyed through the river as far as the falls and on Thursday journeyed back and careered up to the Landing to be finished. Running light, she draws about 17 inches of water.

SUMMERLAND SHOTS SCORE HIGH.

At the B.C. Riflemen's shoot held in Vancouver, our local representatives were both mentioned in the prize list, Muir Stuart far more often than fell to the lot of most competitors. Had there been two civilians admitted to the Ottawa team Muir would have been amongst them, as his aggregate was 297, and there were six representatives on the team just below that figure. However, there is only one civilian allowed, and it fell to the lot of E. S. Wilband of Vancouver to be the lucky man, with an aggregate of 300.

In the Nanaimo Cup shoot Muir scored 44, the top score being 47; in the Victoria Corporation match he pulled off 28 as against 31 for the winner. In the grand aggregate he was seventh from the top, there being only one civilian higher than he, and in the tyro aggregate he came off sixth from the top. Harry Dunsdon was fourth in the tyro for the Victoria Corporation match, the top score being 25 and Harry's was 24.

In the tyro team matches, the standing was as follows:

Vancouver Rifle Association	980
Okanagan do., first team	970
Sixth D.C.O.R. Vancouver	942
Fifth C.G.A. Victoria	934
Okanagan Rifle Association, 2nd team	929
Esquimalt Garrison Association	917

The regular meeting of orange lodge will be held on Tuesday evening next.

TAKE NOTICE that Alfred Richardson, of West Summerland, occupation mill owner, intends to apply for permission to purchase the following described land:--Commencing at a post planted at the north east corner of Lot 2898; thence north 24.67 chains to the south line of Lot 2558; thence west 28 chains more or less to the south west corner of Lot 2558; thence south 24.67 chains to the north line of Lot 2898; thence east 28 chains more or less to the point of commencement. Containing 70 acres more or less.

Dated June 6th, 1910,

ALFRED RICHARDSON.

RICH RED BLOOD.

You Will Never Have It as Long
as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up--by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)
