DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHTON AND NARAMATA

Vol. 2, No. 31

SUMMERLAND, B.C., MARCH 5, 1910

Whole No. 83

## PRIZES OFFERED FOR BRIGHT IDEAS

### BOARD OF TRADE COUNCIL WANTS SOMETHING PITHY AND POINTED.

#### Plans Laid for the Advancement of the District--- Representatives Appointed to Act on Associated Board's Transportation Committee.

A meeting of the Council of the Board of Trade was held in the office of the secretary on Friday of last week.

The principal question up for debate was ways and means of boosting Summerland. As an outcome it was moved by Messrs. Stark and Logie—that the Immigration and Advertising committee take up the matter of advertising slips for fruit boxes, and that prizes be offered as follows for the best slips, each one to consist of not more than four, pithy, pointed sentences of not more than ten words each on an average. Three prizes, \$3, \$2 and \$1. All contributions to become the property of the Board of Trade, to be used as it shall see fit.

The secretary reported on the meeting of the Associated Boards of trade of the Okanagan Valley, which was held at Kelowna on the 26th of Jan, 1910. Arising out of the report it was moved by Messrs. Stark and Mellor—that Messrs. Ritchie and Wallace be requested to act on the transportation committee of the Associated Boards.

It was moved, seconded and carried—that Mr. R. H. Clouston the chairman of the immigration and advertising committee be appointed to act on the advertising committee of the Associated Boards.

Arising out of the correspondence, the secretary was instructed to write to Mr. Gook, editor of the Real Estate Gazette, thanking him for the article on Summerland in the first issue and accepting his offer with reference to making a cut from photo and giving further write-up.

The secretary was also instructed to write further to Mr. Peters of the C. P. R. re cannery.

Messrs. W. H. Tait and V. Taylor were elected members of board.

A report was handed in from the chairman of the advertising committee contain-

### THE ROBT. MEIKLE CONCERT.

In the Men's Club on Saturday evening last a splendid concert was given under the auspices of the Men's Club, by Robert Meikle and company. The company consisted of Miss Nellie Malcolm, accompanist; Miss Juanita Badgley, elocutionist; Mr. Lloyd, humorist; Mr. Robert Meikle, baritone.

The program consisted of 12 items, and encores for each item were asked for, and the artists graciously gave six of them; even then the audience did not seem to have had enough, so still yelled for more.

Miss Badgley was most at home in her representations of the junior members of the family—the little boy who ate, and ate, and ate; and the little girl who had to entertain her sister's beau. Miss Malcolm as accompanist was very good indeed. Mr. Lloyd was suffering from a severe cold, which handicapped him very much. His selections were very much enjoyed.

Mr. Meikle has a voice of exceptional strength and roundness of tone, which he has under complete control. His deep notes have a good mellow sound with them and the top notes are most ringing clear. He is most at home in the Scotch martial songs, and such songs as The Old Brigade and The Toreador's Song, which give him every chance to use his voice to perfection.

This concert makes the fourth of the Walker series which have visited Summerland, each one being excellent, and it is with pleasure that the Summerland people will look out for the Walker companies in future years.

The rapid thaw of the past few days has played havoc with the snow and swelled the streams of the district to large proportions, as well as causing a number of new streams to find temporary channels for themselves. The snow is now all gone from the flats and dust is blowing. Spring work is well under way and plows are being hauled out of the place of winter retirement and put in shape for immediate use.

ing some very useful suggestions, several of which it was decided to act on after further information had been gathered by the committee.

## NEW SOCIETY IS SAFELY LAUNCHED

### REPRESENTATIVE MEN ORGANIZE BRANCH OF AGRICULTURAL SOCIETY.

#### Officers and a Provisional Board of Directors Elected---Membership Placed at Two Dollars--- Large Membership Assured.

On Thursday afternoon a large number of residents of the district assembled in the Municipal Hall for the purpose of forming an Agricultural Society.

Counc. C. J. Thomson was voted to the chair and Mr. W. C. W. Fosbery was appointed secretary pro. tem.

After Mr. J. L. Logie had read the act dealing with the incorporation of Agricultural and Horticultural societies, it was moved by Mr. McLaren and seconded by Mr. C. H. Cordy: That we form an Agricultural Society; which motion carried.

It was decided to call the organization The Summerland Agricultural Society, and election of officers resulted as follows: President, C. J. Thomson; Vice-President, D. H. Watson; Sec.-Treas., R. Pollock; Provisional Directors—J. M. Sutherland, J. L. Logie and R. H. Agur.

The annual membership fee was placed at two dollars. A membership roll was immediately started and all present subscribed thereto. An effort will be made to enroll every fruit grower in the district and there is every prospect that the Society will be a strong one and first and foremost will ensure successful fruit exhibitions in Summerland.

Following the meeting Mr. McLaren submitted a communication from Deputy Minister of Agriculture, Mr. Scott, regarding a Convention to be held in Kamloops on April 12th and 13th to meet officials of the C. P. R. and Dominion Express Co. to discuss transportation; to meet representatives from the wholesale houses to discuss the marketing problem; and to reorganise the B. C. Fruit Growers' Association so as to make a representation of all the fruit growing districts of the Province and to outline the work which may best be taken up to the advantage of the Association.

# The Summerland Review

There followed a discussion as to the importance of the convention, especially with reference to the adjustment of freight rates and it was decided to ask Mr. Agur if he would act as Delegate. On being communicated with by telephone the Reeve expressed his willingness to act in this capacity.

## DIED AT TRURO.

Mrs. J. F. Faulkner received a wire this week from Truro, announcing the fact that her mother had succumbed to a severe attack of apoplexy.

The deceased lady had reached the advanced age of 84 and leaves three daughters seven grand children and five great grandchildren.

The remains have been interred in the family plot in the Wolfville cemetery.

The conditions in Manitoba during the past year were the most satisfactory in the history of the province, a surplus of \$640,000 being reported. The sum of five million dollars was expended of which amount one and a half million was spent on telephone construction.

A large warehouse was burned down on Wednesday at Kelowna. The building was detached from others and the sudden and mysterious nature of the conflagration has led to the opinion that it was the result of spontaneous combustion.

## AUCTION SALE.

### PRELIMINARY NOTICE.

Acting under instructions from Mr. S. Parker, his entire stock of indoor and outdoor effects will be sold by auction on Saturday March 12, at 2 p.m. sharp.

The sale will take place at Mr. Parker's residence on Dr. Stephenson's Lot and will include Incubator and Brooder, Bone Crusher, Churns, Plow, Harrows, Cultivator. See full particulars in handbills and paper next week.

CHAS. H. CORDY,  
Auctioneer.

### POUND NOTICE.

Impounded on Feb. 25th, a brown mare with small white strip in face, white ring around nigh hind foot, blotch brand on left shoulder, has buckskin colt running with her. Unless previously claimed will be sold at the corral on my premises on Saturday March 12th, at 2 o'clock, to defray expenses.

THOS. DALE,  
Pound-keeper.  
Summerland, B.C.  
March 3rd, 1910.

## STEAMER FOR LOWER OKANAGAN.

Says the Penticton Press—Jas. Ritchie, of Kaleden, has received word from J. C. Gore, C. P. R. superintendent of Lake and River Navigation, to the effect that the C. P. R. will immediately begin the construction of a 95-ft. steamer which will run between Penticton and Kaleden via the Okanagan river and Lower Okanagan Lake.

The best part of the news is that the boat is to be ready for operation by the first of May of this year. The boat which is to be built at Okanagan Landing, will of course run as far south as Okanagan Falls and will prove a great boon to the people of the lower lake. It will carry three or four cars of freight.

## Postponed Meeting

Word has been received definitely announcing that Mr. W. E. Scott, Deputy Minister of Agriculture, and Mr. J. C. Metcalf, Market Commissioner will be in town tonight (Saturday), and will be heard in Empire Hall at 8 p.m.

EVERYBODY EXPECTED

## TYPHOID MARY.

"Typhoid Mary," whose real name is withheld at the request of the New York health authorities, is a free woman again, after having been confined in charity hospitals, off and on, for three years, because physicians said that she was a living receptacle for typhoid germs, and a menace to public health. She was formerly a cook, and considered very dangerous in that capacity as likely to transmit disease. With the understanding that she is to cook no more, Mr. Lederie, the health commissioner has announced that the department has decided to release her.

Typhoid Mary had of late been confined in a charity hospital on an island in the East river. Her case is unique in medical records. After repeated cases of typhoid had been discovered in places where she had cooked, the authorities made an investigation, which resulted in her detention on

## THE LORD'S DAY ACT.

The Canadian Publishing Association has issued the first number of The Dominion Sentinel, while it announces that it is not published in the interest of any class whatsoever, yet every signed article is the product of a Seventh Day Adventist preacher or leader, and all its 48 pages are devoted to earnest explanations and exposition of the views of that body concerning Lord's Day legislation. Very clearly this journal is issued in the interest of the people who are opposed to all legislation in regard to the Lord's Day.

Again and again in its 48 pages the writers declare that Lord's Day legislation in general, and the Lord's Day Act of Canada in particular, is religious legislation. It is said to be an effort to enforce the ten commandments by law, a purpose to bring about a strict religious observance of the Lord's Day Act by law; a law enacted under the plea to benefit man, often used to oppress him, etc., yet in the whole 48 pages, there is not named one section, or clause of the Lord's Day Act that proves the charge that it is religious, or that it is in any way substantiates the specious charges of these Seventh Day Adventist writers.

The fact is that the Lord's Day Act nowhere seeks to enforce religion. Its single purpose is to preserve the civil rights of citizens throughout the Dominion to that day as their weekly day of rest. When the act was before the Canadian Parliament for enactment, an effort was made by the Adventists and other Sabbath keepers to secure an amendment which was of a purely religious character. In fact the only effort to secure religious legislation in connection with the act was promulgated by the Saturday Sabbath keepers.

The civil character of Sunday laws is well stated by the supreme court of New York, in a recent case.

"As a civil institution, it (the Sabbath) is older than the government. The framers of the first constitution found it in existence; they recognized it in their acts. The stability of government; the welfare of the subject and the interests of society have made a day of rest necessary and its observance should be to some extent compulsory."

the theory that she was a walking reservoir of typhoid germs, harmless to herself, but easily communicated to those for whom she cooked.

**SPRAYING AND PRUNING.**

About a hundred and fifty residents of the district took in the spraying and pruning demonstration on Tuesday afternoon in G. L. Parker's orchard.

The day was favorable and those who were there were able to stand around without discomfort. Mr. Hoy handled the pruning demonstration and was carefully watched. A large number of questions were asked and courteously answered.

The greater interest however centred around the spraying exhibition for which R. M. Winslow had come armed with the latest spraying apparatus. This Mr. Winslow highly recommended as the most compact and desirable article of its kind he had ever handled.

He used a Bean "Magic" pump No. 9, which registers the pressure and with it one man is able to secure and maintain a pressure of 140 lbs.

The feature of the demonstration was the action of the nozzles used, which were the "Friend" and the Bean "Clipper." The former was considered the more suitable for this district and the demonstrator proceeded to give his reasons for that opinion. Lime-Sulphur spray was used and for the purpose of testing the spray, the Baume hydrometer was recommended, and the spray should test up to 33. The whole afternoon was spent on the grounds and was considered to be time well employed.

**FRUIT TREE STATISTICS.**

The secretary of the Board of Trade states that the statistical forms dealing with the numbers and varieties of fruit trees planted in Summerland are coming in very slowly. Only a comparatively small proportion of the forms sent out have been returned.

It is strongly urged that this matter may have prompt attention. There is no time better than the present, as in a very short time now the spring work will be in full swing and time will be limited. The people of the district should remember that the statistics are required for a specific purpose: that of demonstrating to the government and to outsiders, that Summerland is not an experiment but a place where homes are being formed and money made and where it would be wise for other people to invest their dollars.

Those who are courteous enough to return the forms to the secretary, properly filled out are benefitting not merely the Board of Trade but themselves and the district generally.

**UNRIVALLED IN ITS BEAUTY,** its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

**DOES SUCH A PROPOSITION APPEAL TO YOU?**  
If it does write us and we will only be too glad to give you all the desired information

**JAMES RITCHIE                      PARKDALE                      SUMMERLAND**

**Local News Items.**

Mr. Phinney, sr., is reported to be seriously ill at his home on the flat.

Mrs. James Bennett of Westbank is at present visiting her aunt, Mrs. J. Downton.

Miss Eileen Maguire and Company will give an entertainment in the Men's Club on Tuesday evening March 22nd.

The programmes are out for the Okanagan S. S. convention which will be held in Summerland March 23 and 24.

Mr. S. Parker on the Flat is about to leave the district. He has instructed Mr. Cordy to sell his goods by auction.

Messrs. James and John Campbell have purchased a considerable interest in the Garnett Valley mill and Mr. James Campbell has assumed management.

The Quarterly Board of the Methodist church has extended an invitation to Rev. Mr. Hughes of Cranbrook to be their pastor for next year.

Mr. R. Pollock's article on "Bees," which recently appeared in the Review, was reproduced in part in several newspapers throughout the province.

The following gifts have been received at the hospital during the past month: Eggs from Mrs. Clouston and Mrs. Solly, cake and tarts from Mrs. Moreland and Mrs. Johnson of Naramata.

At the regular meeting of the L. O. L., which was held on Tuesday evening last Rev. R. J. McIntyre, who was recently elected Grand Master of the Provincial organization, was greeted with Grand Lodge honors and felicitations were extended.

Reeve Agur reports that the legislation required for the assumption by the district of the electric light and water franchises is progressing favorably, and will in all probability receive its final reading this next week.

One of W. Grieve's horses slipped into a cesspool a few days ago while being worked. After a good deal of splashing and fuss the animal was hauled out by means of a rope. He was a much stronger animal when he came out than he was before he fell in.

The Farmer's Advocate of Feb. 23, contains an interesting article on Summerland from the pen of C. H. Cordy, secretary of the Summerland Board of Trade. It tells of the past winter; present and future and of the recent packing school.

## :: Naramata Notes ::

Mr. John Niblock returned to Naramata last Saturday.

Mr. and Mrs. Williams who came from Lindsay, Ontario, some weeks ago have decided to make their home here.

Quite a number of the residents of Naramata went to Summerland on Tuesday to the demonstration of spraying and pruning under the auspices of the Farmers' Institute.

The Ladies' Unity Club will meet Friday afternoon at the home of Mrs. Block.

Mrs. Languedoc is spending the week in Summerland.

Mr. Nuttal returned on Friday from Victoria.

### SOCIAL AT PARKDALE.

On Friday evening last in the Parkdale School the Presbyterians held a social in aid of the church funds. The hall was full, about 175 being present, and many of the audience enjoyed the novelty of once again sitting in the benches or desks, and great fun was going the whole of the evening.

Mr. H. Sutherland occupied the chair and made a few brief remarks, then the following program was proceeded with:

Gramophone	Mr. Robertson
Song	Mr. T. Collinge
Recitation	Miss Raleigh
Violin Solo	Mr. Beattie
Song	Miss A. McDougald
Song	Mr. A. Smith
Speech	Mr. R. H. English
Gramophone	Mr. Robertson
Interval	
Pianoforte Solo	Mrs. Steuart
Dialogue	Mr. D. Steuart and Miss Mitchell
Song	Mr. T. Collinge
Violin Solo	Mr. Beattie
Song	Mr. A. Smith
Song	Mr. J. Steuart
Speech	Rev. J. Hood

### Refreshments.

During the interval the gramophone gave some splendid band selections which were much appreciated. The refreshments were many and varied and were done full justice to.

The social all through was a great success, financially it was a better one, and the promoters have need to be pleased with their labors.

## : SUMMERLAND DIRECTORY :

MUNICIPAL COUNCIL—Reeve, R. H. Agur, Clerk, J. L. Logie.

BOARD OF TRADE—Pres., R. H. Agur, Sec., C. H. Cordy.

### A BETTER WAY.

The following extract is taken from the Military Emigration League of London, England. It gives the gist of what is in itself a well-meant humanitarian attempt to solve a large and difficult problem:

"The principal object of the league is to facilitate the employment and settlement of ex-service men, reservists, and their families, in our Overseas Dominions.

"It is to be recognized that service in the navy and army to a very great extent fails to fit men for skilled work on their return to civil life in the United Kingdom, which in many cases therefore leads to unemployment and distress, or to the acceptance by pensioners, of work at unduly low wages, thus injuriously affecting the home labor market.

"On the other hand, the discipline of the services helps to prepare men for Colonial life, which offers to them and their families assured prospects such as can seldom be attained in the old country.

"As the future of the Empire largely depends upon the class of settlers by whom the country may be populated, the emigration of men possessing ability, energy and character of carefully selected sailors and soldiers will be a most valuable asset.

"Further, much may be done under a proposal of this nature, to remove the stigma which attaches to a nation that leaves many men of this class workless and foodless; to promote the defence of the Empire by settling such men in its overseas dominions; and to help recruiting by affording reasonable prospects of remunerative employment on retirement from the services."

Presumably the over-seas dominions referred to includes the Dominion of Canada, particularly its Western part. Since that is so we may be permitted to make a remark or two. In the first place we believe it to be right that something should be done for the faithful sailor or soldier who has for the best years of his life lived on the danger line in our behalf. To cast him off in his old age would be both ungrateful and impolitic. Some provision should be made for him.

But will the casting adrift of such a man in an entirely new world be to him a kindness or to the country a benefit? He will be no more at home here than in the old land. The sailor will be as much at sea as he was so to speak; but it will be a sea for which he has no chart and on which he will find it hard to get his bearings. He may go on the rocks, to be literal again, if he does not know how to work, he may find himself out of employment or working at unduly low wages in Canada as well as at home.

Yet he should be cared for. Now instead of leaving that kind of man to his own resources, when past middle age, leaving him in the new world as frightened as a cat in a strange garret, why should not the Imperial government furnish a school of manual education in Canada where he could go for a time till he found his footing and learned to do some of the work required in Canada?

Why should not the Imperial government have a dozen Imperial training farms in Canada, officered by English farmers whom Tommy will understand and follow? They might even do like the C.P.R., or the government of Russia, towards giving the man a start on the land, when he has worked for a year or two and got his bearings.

Such a scheme does not look at all chimerical to us, provided the farms be reasonably small and Tommy Atkins and his sailor brother would, or should be everlastingly grateful to a government which would thus put them in the way of acquiring a specialized knowledge, a home and an independence in the evening of life.

This would be a far better way than to let him take his chances among more skilled laborers of Canada or visit his natural inefficiency on the small employer of labor who is perhaps ill able to bear it and who perchance visits his displeasure on Tommy in sour words and a speedy discharge that leave the veteran embittered in feeling and more discouraged than ever.

### ABOUT THE BAND.

Just a word about the band. It would be hard to "beat the band" for faithfulness and attention to business. Very few of the people who enjoy the periodical band concerts of the summer months and swell with pride when the local harmony-makers win well-merited praise at outside points realize what it costs in time, energy and money to deliver the goods.

They do not think of the near-midnight climbs up the hill after a two and a half hour band practice twice a week nor the sore lips acquired in getting just the right kind of pucker on the mouthpiece. "The band boys ought to be proud of wearing natty uniforms and winning admiring glances from bright eyes. They ought to be glad they are able entertain us," so the matter is regarded by many. Well, doubtless the boys are proud of themselves, they have reason to be. But at the present time they are going ahead under difficulties, and the main difficulty is—lack of funds.

The band needs new instruments and new music. These being forthcoming the people of Summerland will have no reason to think of the Summerland band as being second raters in the non-professional band series. Conductor Pearce is proving himself to be the right man in the right place. He has won the confidence of the boys and has demonstrated the fact that he is able to wield the baton and to play his cornet in swell style.

Now, exit preamble and enter—point—The point is this—let us reiterate it—money is needed to make the music go, and place the band where it should be.

The band is an institution, unique in itself inasmuch as it can be run to a large extent on wind, but like all other institutions, a certain amount of money is necessary in addition. Some of the instruments now in use ought to be consigned to the instrumental bone yard and replaced by others. The band has a considerable amount of music on hand and a large proportion of that also should be consigned to the afore-mentioned bone yard and replaced by more suitable and up-to-date stuff.

It has been said that some of the instruments and music were purchased as a job lot from Commodore Noah, when Shem, Ham, Japheth et al wound up their long freighting trip, on the top of the Giants Head. They had played it out during the trip and the Commodore sold it at a sacrifice in order to get it off his nerves. That, of course we have no means of proving and must allow to remain an interesting item

# The Summerland Review

of legendary lore. However, the point remains—money is needed and the pith may be provided in the shape of a good cheque made payable to Mr. C. N. Borton, hon. secretary-treasurer of the band.

Putting all joking aside, the band is a deserving institution and one which will bring dollars to Summerland as an advertising medium if the flattering engagements in sight during the summer materialize, and there is no reason why they should not. The people of Summerland, must help furnish the sinews of war, if they would reap the benefit.

Several tyros are working hard to catch places on the band and it would not be a surprise if some divorce cases should materialize as a result.

## A PLEA FOR PUNCTUALITY.

Another plea for punctuality. When a meeting or concert is advertised for a certain time, why in the world should a start not be made at the time specified, instead of making the punctual ones do penance for the dilatoriness of the late ones.

Dilatoriness with Summerland is, as Harry Lauder says, "not a habit, but a gift." It would be a splendid idea if officials in charge of the various concerts or public meetings would make a compact together to start punctually and the people would fall in line. The man who has bought a couple of dollar seat tickets and trades on the idea that the show will not start until an hour after the advertised time will sit up and take notice if he happens to meander in when the first half of the program is about over. He will feel as though he has been wilfully defrauded out of something, but after the lesson has been repeated once or twice he will fall in line and be on hand at the advertised time.

Sometime perhaps the artists are to blame but more often than not it is the engineers in charge of the function, whatever it may be. The amusement seekers are not really to blame. When they check their seats they know very well that they cannot be balked of a place at the entertainment, and they argue—"why should I sit in that stuffy hall with my best girl for three quarters of an hour when I can be outside enjoying the fresh air?" He could be there at eight just as well as not, and certainly would be if the show was sure to start at that hour.

This is an age of reforms and it certainly would be an excellent thing to undertake a reform along the line of starting of meetings and entertainments. It would be a saving not only of time but of money and temper.

## Provincial and General

The official reports of the flood damage in Paris in eighteen out of the eighty-six departments show a monetary loss of \$14,600,000. This includes the \$10,000,000 damage in Paris, but here, as elsewhere, no account is made of the indirect losses, which are incalculable.

Vol. 1, No. 1, of the Nicola Valley News has been received at this office. The editor is modest and does not mention his name. He states that the paper will be conservative in politics and devoted to the interests of the valley. The issue is full of news, well arranged and well printed. The Review extends a neighborly greeting.

The second annual report of the telephone commissioners was laid on the table of the House on Friday afternoon last, and showed that the government system had a most successful year, the revenue being increased by \$140,444. To-day there are 25,400 subscribers, and long distance lines have been increased to 5,180 miles.

It is unofficially stated that A. B. W. Hodges, local manager of the Granby Consolidated Mining, Smelting and Power company, has resigned his position to accept the management of a big mining concern in Peru, South America, at a salary of \$50,000 per annum.---Phoenix Pioneer.

The name "Osoyoos" which has been held by the Farmers' Institute at this point until lately has now been changed to the Kelowna Farmers' Institute in compliance with a request made by the President Mr. T. G. Speers when he was at the convention at Victoria a few weeks ago. The news of the change was received from Victoria last week and the new name of the Institute has been duly recorded at head quarters.---Record, Kelowna.

The Dominion government has decided to locate Canada's naval college at Halifax. The estimates are: building \$150,000; furnishing and workshops, \$50,000; battery \$20,000; arming of battery, \$110,000; officers' quarters, \$70,000; men's quarters, \$20,000; dockyard construction, \$100,000; dockyard upkeep for four years, \$1,130,000; naval college upkeep for four years \$275,000; and barracks upkeep, \$275,000.

**ALFALFA WILL GROW EVERYWHERE.**

While experts have been declaring that alfalfa would only grow in certain soils and in certain climates it has proved its adaptability to nearly all climates and almost all soils. It produces with a rainfall as scant as 14 inches, and in the Gulf states flourishes with 65 inches. It gives crops at an elevation of 8,000 feet above sea level, and in southern California it grows below sea level to a height of six feet or over, with nine cuttings a year, aggregating ten to twelve tons. An authenticated photograph in possession of the writer shows a wonderful alfalfa plant raised in the irrigated desert of southern California, sixty feet below sea level, that measured considerably more than ten feet in height. Satisfactory crops are raised, but on limited areas as yet in Vermont and Florida.

New York has grown it for over one hundred years in her clay and gravel; Nebraska grows it in her western sand hills without plowing, as does Nevada on her sage-brush desert. The depleted cotton soils of Alabama and rich corn lands of Illinois and Missouri each respond generously with profitable yields to the enterprising farmer, while its accumulated nitrogen and the subsoiling it effects are making the rich land more valuable and giving back to the crop-worn soil the priceless elements of which it has been in successive generations despoiled by a conscienceless husbandry. — Coburn's Book of Alfalfa.

Vol. 2, No. 32

SUMMERLAND, B.C., MARCH 12, 1910

Whole No. 84

## MUCH INFORMATION GIVEN UPON FRUIT PROBLEMS

### Deputy Minister of Agriculture Scott and Market Commissioner Metcalfe Unfold Matters Pertain- ing to Their Departments---Demonstration Orchard for Summerland.

There was a large attendance in Empire Hall on Saturday evening for the purpose of hearing addresses by Deputy Minister of Agriculture, W. E. Scott, and J. C. Metcalfe, Market Commissioner, on matters pertaining to their separate departments.

The chair was occupied by Councillor C. J. Thomson, president of the Agricultural society, who after a few introductory and explanatory remarks, called upon Mr. Jones for a pianoforte selection.

Mr. Scott was then called upon, and in brief, it may be said, he captured his audience right away. He has an informal manner of speaking, and seemed instinctively to catch on to exactly what his hearers wanted to know, and provide for it. With such a man as Mr. Scott in charge of the agricultural and horticultural interests of the province, the people may feel assured that the industry in all its phases is likely to advance by leaps and bounds.

Mr. Scott, expressed pleasure at being in Summerland for the first time, and in the capacity of deputy minister of agriculture. He had long been anxious to visit the district of which he had heard so much, and stated his intention of, as far as possible, visiting every fruit growing and agricultural section of the province, in order that he might become personally acquainted, not only with the surroundings and conditions, but with the people themselves.

In speaking of the work of his department, he paid high tribute to the work

done by Capt. Tatlow in previous terms and also to the work of Mr. Farmer his predecessor in the department. Mr. Hodson was doing splendid service in connection with Institute work. There were now in the province 42 Institutes with a membership of over 4000. There were also 25 women's Institutes, which received assistance from the department at the same rate as the men's Institutes.

Mr. Jull had been placed in charge of the poultry department and was doing excellent service. He commended the poultry industry as one well worthy of the attention of all fruit growers, as it could be conveniently managed as a side line.

He announced that in all probability Mr. Jull would be through this district very shortly in company with Prof. Thornber, of the Washington State Agricultural college, to give a series of addresses along poultry lines. The announcement was received with applause.

Great as had been the immigration of past years from the mother land, Mr. Scott looked for an unprecedented increase in that line in the coming year. The political mix up in the old country was having the effect of driving the people out, and the bookings for Canada were greater than ever before. It was an interesting fact that nearly all the old country bookings were for Alberta and B. C. The prairie provinces were filling up with incredible rapidity and it was high time that the fruit growers went to work to increase their fruit areas. There was no danger of overstocking the market,

and the dealers were calling loudly for larger shipments of fruits. He was well aware that there had been a serious setback a year ago, but, on going carefully into statistics the damage had proved to be only about 2 per cent and there was absolutely no reason for discouragement, as such a season might never come again. More than that, the severe cold had been of educational value along the line of deciding upon the varieties which would stand the hardest possible weather.

The people had great cause for thankfulness for their homes and splendid prospects. During his recent stay in England he had been greatly touched by the squalor and wretchedness of a large proportion of the poor wretches in the big cities. Here, poverty was unknown and the careful orchardist could always depend upon deriving a comfortable living from his industry. For 20 years he had been engaged in farming in B.C. and while he had not made a fortune, he had always made a comfortable living and the years had been among the happiest of his life.

He was glad the packing school had been such a success and that the people had fallen in with the idea in so enthusiastic a manner. It meant a great improvement in the pack and that was half the problem of marketing. The Okanagan grew the finest fruit in the world as he knew by actual comparison. With regard to the pack, the two firms operating in the valley were doing first class work, but unfortunately the standard was not maintained through-

## The Summerland Review

out the province and as a result the innocent were compelled to suffer with the guilty. He made a strong appeal for more co-operation between the various parts of the province, and while a central distributing station was hardly feasible at the present time, he would advise the cultivation of that idea as far as possible.

The sum of \$10,000 had been devoted by the department to the operation of demonstration orchards in various portions of the province. Fifteen were to be put in operation eventually; six were to be started this year. Of these, three would be placed in the Okanagan Valley, (cheers) one or two in the Kootenays; one on Vancouver Island and one on the lower mainland.

One of the great difficulties was securing the right men for the work. At the present time he had Mr. Winslow, Mr. Hoy and Mr. Middleton; the latter was working in the Kootenays. He still needed two more men and he hoped eventually to get them.

He urged that a carefully selected delegation be sent to Kamloops on April 12 and 13 for the purpose of conferring with the representatives of the railway companies and wholesalers. Matters were to be taken up which were of vital interest to the fruit growers of the west and the meeting demanded the best attention that could be given it.

Mr. Scott spoke approvingly of the recently organized Agricultural society, and recommended his audience to roll up as large a membership list as possible, as, if there was not a good showing of names, the application for a grant might be turned down by the government.

The government had been very generous in their appropriation for agriculture and had given him everything he had asked for. He had been called into an executive meeting to explain the various amounts asked for, and in making his requests he had been ably supported by the member for this constituency, Hon. Price Ellison.

The following appropriations were made:

Farmers' Institutes	\$12,000
B. C. Dairymen's Association	2,500
" Stock Breeders' Assn.	2,500
" Fruit Growers' Assn.	2,500
" Poultry Fairs Association	2,500
" Flock Masters' Association	250
Agricultural Fairs Association	50,000
Board of Horticulture	5,000
Demonstration Orchards	10,000
Department of Agriculture	20,000
Exhibition Purposes	10,000
	<u>\$117,250</u>

The government was taking hold of the Fruit Growers' Association and Mr. R. M. Winslow had been appointed secretary of the association. The association would hereafter be under the control of the department of agriculture. He commended it to the attention and support of every fruit grower.

Mr. Scott spoke in commendatory terms of the wonderful budget speech made by Attorney General Bowser. The total returns for the province approximated \$82,500,000, of which the agricultural department was responsible for \$8,500,000, representing a million and a half dollars more than that of the previous year. The revenue represented \$315 per head for every man, woman and child in the province, or \$1,200 per head for every able bodied man in the province, which was without doubt among the highest in the world, all of which was indicative of the vast resources of the west.

The speaker then turned his attention for a short time to the marketing of products and the vast amount of fruit required right within reach of the B. C. markets. The coast was growing by leaps and bounds and could handle in itself all the fruit grown in the valley.

Last year Mr. Scott was in charge of the fruit exhibits in the east and the old country, and he gave some particularly interesting information as to the methods adopted in the various displays. At London last year his exhibit occupied a space of 70 x 50 feet, and embraced fruits, wood, fish and stuffed animals, and in every case the exhibit attracted great attention and admiration. In addition to the exhibit he each day gave from one to four cinematograph lectures. In Toronto, the attendance averaged 125,000 a day, and the people of the east opened their eyes at the fruit, and also at the packing and grading. In Ottawa the attendance averaged 40,000.

At the Royal Horticultural Society's exhibition in London Mr. Scott had secured 480 cases of fruit for exhibition purposes. The British Columbia exhibit was superb. The show had been formally opened by H.R.H. Princess Louise, and the managers of the exhibition had difficulty in getting her away from the fruit in order to perform the opening ceremony. The exhibit captured five awards, of which the Okanagan display claimed the highest award, the silver gilt Knightsian medal. Kaslo also won a similar medal.

At Edinburgh the attendance was phenomenal, and it was necessary to give four

cinematograph lectures of an hour and a half each day in order to accommodate the interested crowds.

Altogether during his stay in the old country he delivered forty-three lectures, Mr. Webster, fifteen; Mr. Turner, twelve; and Mr. Bickmore, twelve; and he considered it a particularly wise expenditure of money and time. In addition to the set horticultural exhibitions Mr. Scott had attended several stock shows and lectured at them.

The culminating triumph came when His Majesty, King Edward, climbed up the stairs at the exhibition at Islington for the purpose of witnessing for himself the display of B.C. fruit. His Majesty was slightly out of breath with his climb, but was vastly interested in all that he saw, and asked many questions about the country and its people. His message to the B.C. parliament was, "Please convey to your government of British Columbia my keen appreciation of the magnificent fruit displayed here."

Mr. Metcalfe was the next speaker, and after a few introductory remarks he spoke of farmers' institutes, and advised all who possibly could to become members of the Farmers' Institute, as it was the best educational medium open to the intelligent fruit grower.

With regard to the market it was practically inexhaustible. It was absolutely impossible to secure fruit in large enough quantities for the wholesalers to take much notice of it. The population was increasing by leaps and bounds, new settlements were springing into being, and the new railroads were bringing new towns within reach of a fruit supply. He urged upon the audience to plant out larger areas of trees, and above all to be careful as to the varieties of fruit trees planted and the handling, packing and grading of the fruit. Some of the fruit packers were turning out a splendid product. The Okanagan for instance had demonstrated beyond a shadow of a doubt that they could grow the best fruit in the world. All that was wanted was an uniform pack and more of it. There should be a strenuous effort made looking forward to uniformity throughout the province. As soon as the fruit supply was larger the buyers would be in the district buying by the car, f.o.b. at point of shipment. At present the American product secured the best price because it had the best name.

Most of the fruit from the Okanagan was going to Alberta, and it must measure up to the American product which was

**UNRIVALLED IN ITS BEAUTY,** its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

**DOES SUCH A PROPOSITION APPEAL TO YOU?**

"FAIRBANKS-MORSE" OUTFITS

Go to G. A. McWilliams when you want the best value in Pianos or Organs that you can get in the Okanagan Valley, he buys for cash and sells right.

being poured in there. The California peaches were poured in there before it was possible to place the B. C. product on the market, and the people were afraid to wait on the B. C. product lest they should get left on their peach supply.

With regard to the method of disposing of the fruit, three methods were open. First, through the jobbers and wholesalers; second, through the retailers by means of operating wholesale houses and the employ of travellers; and third, direct to the consumer. At present it was deemed the safest and wisest plan to deal through the wholesalers on account of the vast expense attendant upon the other systems.

"More and Better Fruit" should be the motto of every fruit grower. Co-operation in handling fruit was the first step in the right direction. Co-operate in buying material, and always aim at centralization.

A conference followed in which a number took part, and a number of interesting facts were elicited.

At the conclusion of the conference a hearty vote of thanks was moved by Reeve Agur and seconded by Mr. J. L. Logie, which carried unanimously.

The meeting will long be remembered as one replete with useful information, and both Mr. Scott and Mr. Metcalfe will rest assured that whenever they come back to Summerland they will receive a hearty welcome.

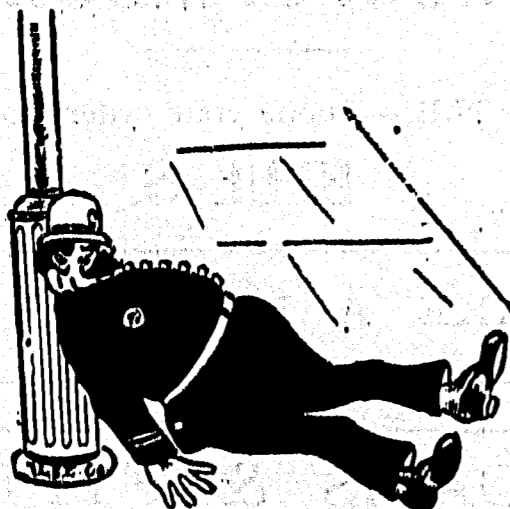

During the evening Mr. Collinge sang and Mr. Pearce, conductor of the band, made his initial appearance as an entertainer, and with his cornet delighted the audience with his rendition of "The Holy City," and as an encore "Alice, Where Art Thou." Mr. Jones was the accompanist.

**BIRTH**—To Mr. and Mrs. Geo. R. Raincock, on the 9th inst., a daughter.

Mrs. Bent who has been the guest of Rev and Mrs. G. J. Coulter White for the past few months left on Monday's boat for Lethbridge where she will spend a few weeks with relatives.

Mr. A. G. Munn of Harbor Grace, New Foundland who has been visiting Mr. and Mrs. White, left this week for his eastern home. Mr. Munn has taken a great liking to the Okanagan Valley and may possibly remove here in the not distant future.

The College Lyceum Literary Society will hold an open meeting on Saturday evening, starting at 7:45, which will take the form of a mock trial. An interesting and amusing time is promised.

# YOUNG WELSHMAN SUDDENLY KILLED

On Thursday evening, shortly before six o'clock, Curwyn Jones, a young man of 19 met his death in a sad and tragic manner.

After loading his waggon near Elliott's store he hitched on the team and started for Beach avenue. He did not keep to the centre of the road and the roughness of the ground, presumably jolted him off the load, as he was noticed to be sitting on the double trees, with a leg on either side of of the tongue.

The team was travelling pretty fast and the tongue struck a telephone pole, breaking as a result of the impact. The body of the waggon was thrown forward, jamming the teamster.

Help was immediately on hand, and the waggon was hauled back, extricating the victim. Jones was carried to the hospital where Dr. Smith was soon in attendance, and found the victim's skull seriously fractured. Death took place 30 minutes later, Jones not having regained consciousness.

The deceased came from Denbigh, N.W., arriving in the west a few months ago.

Since his arrival in Summerland he had been in the employ of Coun. J. R. Brown, whose team he was driving at the time of the catastrophe.

The funeral took place this (Friday) afternoon at Mr. J. R. Brown's house, and from thence proceeded to the Anglican church where service was conducted, at 4 o'clock, the remains being interred in the English church cemetery. Rev. H. A. Solly officiating.

A public meeting will be held in the Parkdale Baptist church on Friday evening of next week commencing at 8 o'clock, under the auspices of the Mission Circle. Preceding this, a social time will be spent and refreshments will be served, commencing at 6 o'clock. A cordial invitation is extended to the members of other Mission circles to be present.

On Tuesday evening, entertainment lovers will have the pleasure of hearing the charming Irish vocalist, Miss Eileen McGuire, assisted by Miss Lucy Webling, entertainer, and Walter McRaye, humorist. Men's Club, commencing at 8:30.

There will be a basket ball match in the gymnasium at 7:30 this (Friday) evening between the Town and College teams.

SATURDAY, MARCH 12, 1910

**EXHIBITION FRUIT.**

At the meeting last Saturday evening, in the course of Mr. Scott's address, it transpired that Summerland fruit had been exhibited at the various Canadian and Old Country exhibitions by Stirling & Pitcairn, of Kelowna, as part of their exhibit, and assisted in winning their prizes. The fruit came from Mr. Gartrell's orchard and was purchased on the tree by the above firm.

There is of course no blame to be attached to Messrs. Stirling and Pitcairn in the matter as they bought and paid for the fruit and it was theirs to do as they liked with. This phase however does come into the matter—where is that kind of thing going to stop?

Without doubt as the years go by, the bulk of the fruit of the district will be sold on the tree in that way, and, as in other places, will prove the simplest and easiest method for the grower to adopt, but there should certainly be some agreement entered into between the orchardist and the buyer, whereby a certain quantity of No. 1 fruit shall be reserved by the owner of the orchard for exhibition purposes.

Every box of prize fruit is a golden advertisement for the district, and while we like to see other districts flourish we also want our share of the glory of building up the reputation of the golden west.

The Summerland Farmer's Institute will have a Poultry meeting in Empire hall on Monday evening next, March 14. Mr. W. M. Wright will be the speaker and will deal with the utility fowl, the market fowl, houses and housing; feeds and feeding; fleshing fowls for market and the production of an egg laying strain. Everybody is invited to be present.

**MUNICIPAL COUNCIL HANDLES SHEAF OF  
FACTS AND FIGURES.**

**New Hose and Equipment Ordered for South End--  
Grant of \$360 made the Band---Several Dep-  
utations ask for Road Improvements.**

The Reeve and Councillors were all present at Monday's council meeting. The minutes were passed. A most voluminous sheaf of correspondence was taken up and among the letters were a large number of applications for positions which were laid on the table. Others were as follows:

From Billings & Cochrane re by-laws in connection with water and light systems.

From Hon. Price Ellison stating that the required amendments to the municipal clauses act were being pushed ahead as rapidly as possible.

From Dr. E. W. Sawyer re improvements required on road to College.

From W. H. T. Gahan, re cost of municipal administration.

From C. E. Doherty, New Westminster, medical superintendent of the Hospital for the Insane, re condition of Alex. Rankin.

From J. D. Kennedy, Portage la Prairie refusing to pay bill for work done on property. The clerk was instructed to write to Mr. Kennedy, enclosing copy of Noxious Weed act.

From W. C. W. Fosbery re cutting off of road to his property and asking for redress in the form of another road.

From W. H. Maclean, deputy attorney general re burial expenses of Frank De Beer stating that the government would give \$25 towards funeral expenses.

From Savage & McGavin re bond issue.

From C. N. Borton asking improvement on road in Peach Orchard.

A petition was received from residents in the south portion of municipality asking improvements to the road from Mr. Clouston's property to corner of 9-2196, and to construct road from n.w. corner of 9-2196 as marked on map, to south end of Queens road lot, No. 1073.

The following deputations were listened to:

Mr. Baker, stating that as a result of a culvert being blocked up by contractors removing gravel, the water had been diverted across his property occasioning great damage to property. He wished to

know who was responsible and was referred to the contractor.

Mr. Docking and Mr. Hespeler, re taking mould from sides of public roads.

Mr. Munro, calling attention to washout on Alkali Flat. Mr. Tait and Mr. Tingley also asking for improvements to roads. In each case the council promised to look into the matter.

The following estimate of the revenue and cost of operation, and a sinking fund for the up-keep in connection with the water and light systems was presented:

Irrigation system—  
6000 acres at rate of \$5 per ac. \$30,000  
Yearly cost of operation \$10,000  
Sinking fund for up-keep 3,000 13,000

Leaving a balance to pay,  
interest and S'kg Fund of \$17,000  
Total debenture issue, \$170,500 at 5 per cent for 30 years.

Domestic water, gravity system:  
200 consumers at \$24, \$4,800  
Local frontage tax 1,600 \$6,400  
Yearly cost of operation \$1,000  
Sinking fund for up-keep 400 1,400

L'vg bal. to pay interest  
and sinking fund \$5,000  
Total debenture issue \$62,500 at 5 per cent for 30 years.

This plant shall have a capacity of supplying at least 400 consumers, but at present 200 is all that can be counted on as using water.

Electric Light plant.  
Revenue from 1,000 outlets \$3,000  
Cost of maintenance 1,000 \$2,000

Leaving a balance to pay, interest and sinking fund. Total issue of debentures, \$17,500 for 30 years.

Debenture Issue, 1910:  
S'land Dev. Co., Domestic water \$ 17,500  
" Irrigation " 77,000  
" Elec. Light Sys. 17,500  
Garnett Valley Land Co. Irig. sys. 23,500  
Extension Dom. water system 44,500  
Extension Irig. Water system 70,000  
\$250,000

Rate of interest, 5 per cent, payable half yearly, June, 1, Dec. 1.

The following accounts were ordered paid:

T. J. Garnett	\$124.00
S. S. Co.	44.65
R. H. English	5.35
S. Dev. Co.,	18.98
S. S. Co.,	50.00
J. L. Logie	53.00
C. P. Nelson	30.00
C. McDonald	1.25

G. R. Raincock	50
H. Endersby	1.00
J. D. Johnson	11.00
B. C. Moore	67.80
Band	60.00
	<u>\$467.48</u>

Mr. D. H. Watson waited on the council in the dual capacity of manager of the band and chief of the fire-brigade and he got all he asked for. For the band he requested the balance of last years grant and the January and February proportion for this year. For the fire brigade he asked for an additional 500 feet of fire hose, a hose reel and nozzle, to be placed at the south end of the town.

Ritchie—Brown—Settlers in the municipality desirous of obtaining leaf mould can do so on application to the clerk, on the condition that they place one load of shale or gravel on the road for every load of leaf mould taken. Carried.

Ritchie—Thomson—That all contracts let last year be completed to the satisfaction of the council on or before the 31st of March, 1910, or contracts cancelled. Carried.

Ritchie—Gartrell—That the sum of sixty dollars arrears from last year due to the band be paid at once, as well as the sum of sixty dollars for January and February of current year. Carried.

Thomson—Gartrell—That the band grant be \$360 for the year 1910, to be paid monthly. Carried.

Gartrell—Ritchie—That the council purchase 500 feet of hose, reel and nozzle for fire protection. Carried.

The clerk asked that a letter box might placed in the door of his office, in order that any who wished to leave communications there might do so and thus avoid the sometimes unavoidable delay occasioned by passing through the post office.

Reeve Lang and Mrs. Lang, of Peachland spent a few days in Summerland this week, the guests of Reeve and Mrs. Agur.

A little over a week ago, a high pine tree was felled in Garnett Valley, and as it fell a bird's nest containing three young birds was discovered.

The members of the Women's Institute will meet on Friday next, the 18th inst., in the Men's Club. The subject for discussion is Poultry, and note books and pencils will be in evidence. A chicken boning demonstration will be given by Miss Margaret White.

## GARDEN, FIELD AND FLOWER SEEDS

New crop now arriving from our growers in England, France, Holland, Canada and the United States, All tested as to vitality and purity on arrival. The best only is good enough for our customers. Catalogue free.

Business will be continued at our old stand until May. After that in new location, which will be announced later.

## News from Peachland

Mrs. Seaton returned Thursday from a visit to Naramata.

BORN—To Mr. and Mrs. B. S. Brown, a son, on Wednesday, March 9th. Congratulations!

Mr. McCarthy, of MacDonald, Man., was in town for a few days this week visiting old acquaintances from that region.

Mr. Lloyd Affleck left last Saturday for his home in Nelson after a week's visit with friends here.

Mr. Bourgenough has bought the McNeil place from Mr. Willie Dawson, and as soon as he gets things in shape will move in.

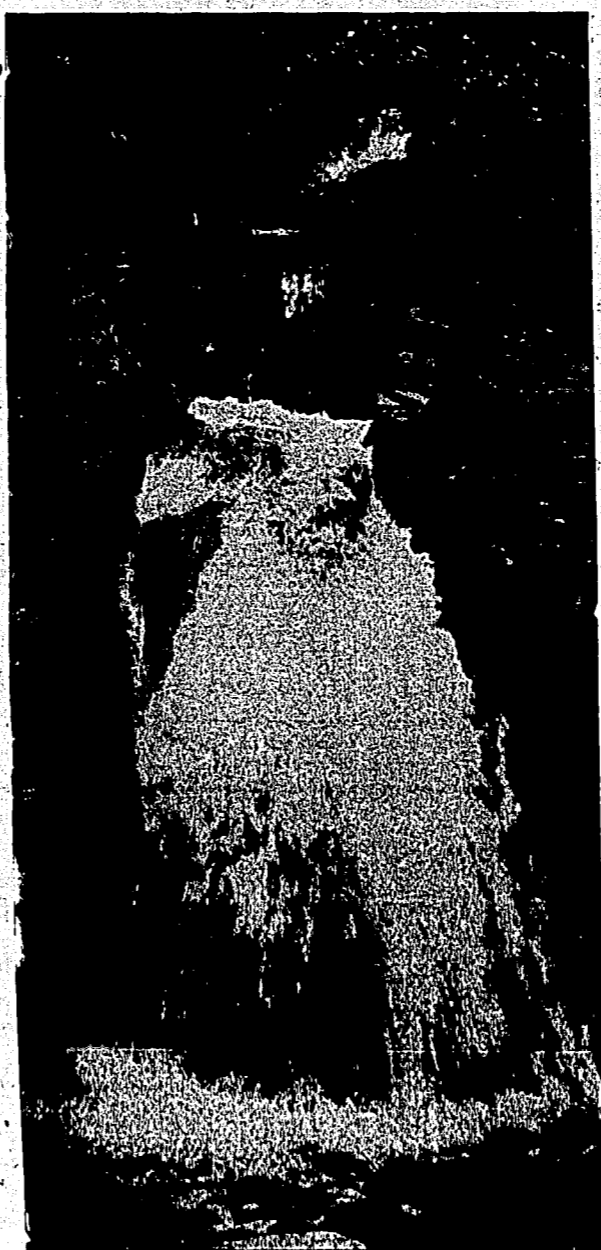

Mr. Geo. Needham, Sr., returned Tuesday from a few day's visit with friends in Summerland.

Rev. J. J. Nixon is slowly recovering from a very severe attack of la grippe. As he was unable to take his regular work on Sunday Rev. Mr. MacDonald very kindly conducted service for him.

Mr. Ambrose, representing the Pacific Coast Pipe Co. of Vancouver, came in Monday evening to superintend the laying of the pipe, both for the electric light and domestic water. The report that the electric light was to have been in running order two weeks ago was somewhat premature, as the dynamo has not yet arrived.

The banquet in connection with the Lay men's Missionary Movement in the Presbyterian Church on Monday evening was a splendid success. Forty-seven men sat down to a well filled table, Mrs. R. H. Robertson being caterer. When ample justice had been done to the good things provided, the chairman, Mr. Garroway, arose and briefly explained the nature of the movement, calling on Mr. Thos. Powell for a fuller statement of the case. This Mr. Powell gave in a most comprehensive and forceful speech, which clearly showed his intimate knowledge of the movement and interest in missions. Mayor Geo. Bell, of Enderby, was present and gave an impressive address, which was very attentively listened to. A number of resolutions were introduced and adopted by the meeting, calculated to result in some tangible good for the cause of missions. Altogether it was a most pleasant and profitable evening, and will, without doubt, stimulate interest in this very important subject.

Mr. Hoy, government horticulturist, by the spectators, and Mr. Hoy was kept busy answering questions and defending his method of pruning. This he did in a most gentlemanly manner, and won the respect of the crowd. Arrangements were made for a two days' visit a little later.

**Local News Items.**

The telephone gang is spending a few days in the district fixing up the telephone system.

The Hon. W. Hespeler and Mrs. Hespeler will be here for a short visit to their son and daughter on Monday.

Combination ladder and step ladder, the thing for the orchard. Just received by White & Co.

Mrs. W. Downton and Miss Downton left this week on the return journey to their home at Wilcox, Sask.

A meeting of the Liberal Conservative Association executive was held in Municipal hall on Wednesday afternoon.

Mr. F. McArthur, a prominent farmer of Longburn, Man., is a visitor in Summerland. He has property here beyond T. J. Smith's orchard.

Mr. P. Van der Nest has returned to Summerland after spending the winter at coast and on the other side. He was among those were held up on the C.P.R. by the avalanche near Field.

Arrangements for the Okanagan district Sunday School convention which is to be held here on the 23rd and 24th are well under way and everything indicates that the event will be a pronounced success.

Capt. Von Dem Hagen of the Imperial German Staff Berlin, Germany, and Mrs. Hagen are at present the guests of Mr. and Mrs. A. Æ. Hespeler, at Eberstein ranch, and will probably purchase property in the district.

On Monday next the Supply Co.'s grocery store will be a centre of interest. The high quality of Ridgeway's Teas will be demonstrated and everybody is invited to come along and take a glorious drink of "the cup that cheers."

On Monday evening next at 7:30 in Elliott's Hall the Foresters will hold an At Home, to which all and sundry are cordially invited. During the evening there will be musical items and speeches, and refreshments will be served.

Mr. Alex. Steven's new cottage near Major Hutton's is finished, and will be ready for the owner on his return should he happen to need it. There is no knowing who might be with him. The cottage is one of the best looking in the district and was built by Mr. J. Darke.

**CLOSING OUT PRICES

WHO NAMED THE LAKE?

Different stories have been told as to how the Okanagan got its name, and many have laughed at those who called it the "Oh-can-agen." The following legend has leaked out, however, and many features extant tend to give it credence.

A trapper from away back in the mountains many years ago took his little lad with him on one of his periodical hunting trips. A few weeks after they had started out, while shooting at a deer, the hunter's old muzzle loader exploded, and the powder struck his eyes, depriving him of his sight. He lost all idea of distance, and with the little chap wandered on and on, depending on the child's eyes for avoiding pitfalls. At last they came to a large body of water which he had never heard of before, and the child described its dimensions as well as he could. The trapper now felt that he was hopelessly lost, and had gotten far beyond the bounds of civilization. Suddenly as they wandered along the pebbly beach, the child cried out, "Oh papa, there's a can." "What kind of a can, child?" "A new tomato can, papa."

Hope rose within his breast, and telling the child to keep his eyes open for tracks, they wandered on, and as other cans were found the child would cry delightedly, "Oh! can agen, papa." A bunch of trappers were soon found and their lives were saved, but the name Oh-can-agen, eventually "Okanagan" stuck to the body of water.

And what could be more appropriate to-day. Just take a walk along the beach and as soon as you have feasted your eyes on the beauties of nature turn your gaze to your feet, and it is cans, cans, and then some more cans—beautifully picturesque emblems of civilization. It don't stop at tin cans either. It is a dumping ground for rags and bones, old rubbers, waste paper, garbage and other microbe breeders, to say nothing of the seepage of septic tanks, and rotting vegetation washed up by the waves. Surely it is time someone took the bull by the horns and organized a clean up crusade.

We do not vouch for the authenticity of the legend, but the moral is obvious.

Mr. James Ritchie paid a business visit to Vernon this week.

The framework of Messrs. Shields & Hatfield's new smithy and workshops is now up and the work of finishing is being rushed ahead as rapidly as possible.

Weather Report

Mr. Fred Anderson launched a new motor boat of the V type this week for Mr. Wilson, of Pine Creek. It is a good sea boat, being 19-ft. long, with 5 1-2-ft. beam and is fitted with a 2 h p gasoline engine.

Those desiring Summerland booklets for the purpose of sending them away to friends may obtain all they require on application at any of the local real estate offices.

Mr. Woodworth arrived here this week from Halifax, N. S., rejoining his family. One of the younger members of the family was sent in to this district some time ago in order to see if it would benefit his asthma. He has made so complete a recovery that the family will in all probability make their home in the district.

The Agricultural society's membership list is growing fairly well and all the residents of the district are urged to subscribe to it at once. The executive is endeavoring to secure at least a hundred members before April 1, and it is incumbent upon all to feel the responsibility and take a share in it.

## MODEL ORCHARDS FOR OKANAGAN

TO BE STARTED AT ONCE AT SUMMERLAND  
KELOWNA AND VERNON.

Mr. R. M. Winslow To be Along Soon to Select  
Orchards---Nursery Stock in B.C. Washington  
and Oregon is Exhausted.

Mr. R. M. Winslow has just returned from Oregon, says a despatch from Victoria, where he was offered, and refused a professorship at the State Agricultural College. He will leave next week for Vernon to attend a meeting on March 28 in reference to the inauguration of the demonstration orchard plan outlined by Finance Minister W. J. Bowser in his budget speech and for which the legislature has appropriated \$10,000 as a beginning.

The Okanagan has been selected for the three first of these orchards, which will be placed at Summerland Vernon and Kelowna, 10 acres in each case being utilized, typical soil and conditions being secured, and exact record of all expenditures and receipts being kept so that the commercial possibilities may be accurately determined.

Local men are to be placed in charge in each case, under the supervision of officials of the department of agriculture, and very special care will naturally be exercised in the selection of stock.

A serious condition in respect to the expansion of the fruit industry has been reported to the effect that the supply of nursery stock in B. C., Oregon and Washington has been exhausted.

### NEW BASEBALL RULES.

Here are two important changes in the 1910 baseball rules:

A runner is allowed three bases if a player on the defence throws a glove or a mask at a batted ball and succeeds in hitting it or impedes its progress.

The coacher's box has been limited so that the coacher cannot approach nearer to the first base than 15 feet. The dead line is drawn at an imaginary line, directly through the first and second bases.

Provincial legislature prorogued March 10th.

### STUMPING EXTRAORDINARY.

A discovery of great importance to owners of cut over lands has been made by one of the workers in a Rhineland paper mill, who noticed the destructive action of nitric acid and sulphuric acid on woody structures.

This man has recently removed the stumps from sixteen acres of new land at a cost of four cents each and five minutes labor for each stump. His method is as follows:

With a two inch augur he bores a hole down into the stump about two feet deep, and pours into this hole one pint of a mixture of equal parts of nitric acid and sulphuric acid. He plugs the hole tightly with a plug previously dipped in melted paraffine. Thirty days later the stump, roots and all, will be a charred mass of rotten pulp, and may be spread over the soil with a shovel, as a fertilizer.

### TRADESMEN'S HALF-HOLIDAY.

Once again the Summer is hurrying along and the tradespeople of the district are about to revert to their Summer half-holiday. The shops will close on Thursday April 1st at 12-0 noon, and so on throughout the Summer until the 31st of October.

It behoves the townspeople to remember this as maybe a few would otherwise come down town to do business on Thursday afternoon week, and find the shops closed; it then will dawn upon them that it is "April 1st."

### BRITAIN'S NAVAL POWER.

This is the statement of the growth of British naval power as given by Admiral Fisher on his retirement from office:

	'04	'09
Battleships	16	44
First class cruisers	13	37
Smaller cruisers and gunboats	30	58
Destroyers	24	121
Torpedo boats	16	88
Submarines	0	59

The British Naval estimates for this year will exceed \$200,000,000. On April 1, there will be under construction, 7 battleships; 3 armoured cruisers; 9 protected cruisers; two unarmored cruisers; 37 destroyers and nine submarines.

## RAILWAY BUILDINGS COMING THIS WAY

GREAT NORTHERN EXPECTS TO REACH  
PENTICTON THIS YEAR.

Many Camps Being Formed in Similkameen---  
Steam Shovels are in full Swing in Princeton---1050-ft. Tunnel Within 4 months.

The Great Northern line from Oroville to Penticton is being located by Engineer Russell. This line will be about forty miles in length, and it is stated will be constructed within the present year, as it is comparatively easy to build.

In regard to construction at Princeton, the Similkameen Star says: The contractors are making good progress with the preliminary work of building camps and laying down supplies. Good roads have favored hauling rails and equipment for construction. There is snow all along the line, which delays earth work, rock and tunnel contracts being least affected. Once the ground is in condition for pick and shovel use, eight hundred men will be employed on the eighteen miles under contract.

Press statements outside, the Star continues, have been given currency to the effect that the eighteen miles would be completed by July 1st. Practical men do not give much credence to this report. It is known, however, that the Great Northern is urging the work along with all speed. The work is heavy and difficult, with three or four bridges and two tunnels. If the locomotive reaches Welldo station, ten miles west of Princeton by the 1st of November it will be good going.

In the two weeks that have passed since the steam shovel began on the approach to the tunnel in the western suburbs of the town a large amount of earth has been removed, which is being used to reclaim overflowed ground. The tunnel proper is 1,050 feet long, and will take at least four months to complete, working full time from both ends.

It is reported that J. Pierpont Morgan will contribute financial aid to Prof. Rampoldi, of the University of Pavia who declares that he has discovered a cure for cancer.

# BARNYARD FRIENDS RECEIVE ATTENTION

There was a good attendance at the Farmer's Institute meeting in Empire Hall on Monday evening when "Poultry" was the theme for discussion. The chair was occupied by the president of the Institute, Mr. C. J. Thomson.

The speaker of the evening was Mr. W. M. Wright and he handled his subject in a masterly manner. Considerable discussion was evoked and a profitable time was spent by all. A model hen coop was used to illustrate the lecture.

Mr. Wright said in part as follows:

In selecting a branch of the poultry industry to speak upon that would be of value and interest to the greatest number here in Summerland, I have chosen the development of the "utility bird."

In order to give you a full understanding of what is implied by the "utility bird," it will be necessary to explain the different classes that we divide poultry into. There are four classes in all—the Asiatic, Mediterranean, American and Bantam.

The speaker stated that the former were the heavy market fowl such as Brahmas Langshans and Cochins. The Mediterraneans were a lighter and more nervous class of fowl, but good layers. That class embraced Leghorns, Minorcas, Hamburgs, Black Minorcas etc. The American class was derived from those two classes and in frame were between the two and among the latter was the utility bird.

The ideal fowl was of medium length and not much longer than the depth of the body. A bird which is too long in the breast gives a scrawny appearance, making it poor for marketing.

In the opinion of the lecturer the Wyandottes were the ideal general purpose bird being of ideal shape and disposition. When dressed it had no disfiguring pin feathers, thus giving them a great advantage over heavier breeds which in addition to showing pin feathers were inclined to go fat instead of flesh.

All breeds were what they were made as egg layers and were the result of feeding and housing and breeding from the best layers in the flock.

There were two methods of finding out the best layers, trap nesting and selecting. After having selected the flock came the

question of housing. The essential requirements were plenty of light, fresh air, room for the attendant to work, scratching space, freedom from draughts and dampness. A small model house was used to illustrate the requirements.

The pens were 11x9-ft., by 7ft 8 in high, accommodating 25 hens. The light was supplied by one window on the south side. Fresh air was admitted through two burlap screens, the same width as the window, thus causing a constant circulation. In front of the roosts, a curtain frame could be placed and a curtain let down as an extra precaution on very cold nights. He considered such protection hardly necessary in Summerland.

The roosts were placed at the back of the pens, over the roost platforms and in connection, much care was taken to keep them perfectly sanitary.

With regard to feeding—food should be varied and suited to either egg production or fattening as might be desired.

There were two methods of feeding—i.e. mash feeding with dry grain and the second the dry feeding method which was of more recent development. A good ration for laying stock was wheat, bran, ground oats, corn, alfalfa meal or clover, green or dry bone and blood meal, shell and grit. Spiced foods were only a temporary stimulant and were not advisable in his estimation.

An eastern expert hung a lighted lantern in his fowl house at 6 a.m. and after dusk during the short winter days, thus increasing their hours of production.

In speaking of fattening methods, the first rule laid down was that flesh, not fat was required. Three methods were in use—pen fleshing, crate fleshing and cramming. The two former he considered the more satisfactory. In cramming, the flesh was not so good. In England, cramming was more generally used than elsewhere.

Mr. Wright concluded his very instructive address with the history of the Danish Faverolles.

At the Orange Grand Lodge meeting of Ontario, there were nearly 400 delegates.

**EVERETT W. SAWYER.**

**Obituary.**

One of the saddest events in the history of Summerland transpired on Wednesday last when Mrs. Adam Stark passed into the great beyond after having undergone a very serious and necessary operation in the hospital at Kelowna.

Nothing was further from the minds of her friends than death, when they thought of her. She went to Kelowna in the best of spirits and all expected to see her back in the course of a few weeks renewed in health and strength. The tidings of her death came home with stunning force to all, and the first thought was for the bereaved husband who was known to be one of the greatest of home lovers, and there was a simultaneous movement of sympathy towards the support and consolation of the widower.

The Maud Moore was immediately chartered and a number of friends journeyed to Kelowna, their presence and ready sympathy doing much towards softening the blow, and every care and attention was paid so as to reduce as far as possible the force of the bereavement.

From the hospital the remains were taken to the Okanagan and Mr. Stark accompanied by Mr. D. H. Watson left with the remains for Brandon, where they will be interred to-morrow (Sunday).

The deceased was a Manitoba lady and was married at Griswold after which she lived for many years at Brandon with her husband, coming west to Summerland six years ago.

She was a life long member of the Methodist church and was a useful church worker so long as her health would permit.

She leaves five sisters and two brothers, all of whom, except one brother who is at Kamloops, are residing on the prairies.

Mr. and Mrs. D. H. Watson are their oldest friends in the district, being well acquainted as young people, and the fact that Mr. Watson has accompanied Mr. Stark on his painful journey is appreciated by all.

**News from Peachland**

Mr. Hamilton Lang and family are visiting friends in town for a few days.

Mr. H. Battye is in town this week tuning pianos.

Miss Black who has been at the coast for some months, has returned to visit her sister, Mrs. Hugh Williams.

Mrs. Geo. Mitchell is training the young people of the Baptist and Methodist Sunday schools for an Easter entertainment to be given on the evening of easter Monday.

Mr. Wm. Scott, of Naramata has moved up here to take charge of Mr. T. R. Wellband's lots. Mr. Scott is an experienced orchardist and will be able to put Mr. Wellband's property in first class shape.

Dr. A. C. Nash was made glad by the arrival of his brother from the old country this week. Mr. Nash has not been in the most robust health so wishes to see what this climate will do for him.

Mr. Harry Cossar reports the sale of the Marshall property to some eastern capitalists for the sum of \$18,000. Mr. Cossar and his partner purchased this property for \$6,000 a year ago, so they have made a good thing out of their investment.

The packing school opened on Tuesday morning and a good many more were on hand than Mr. Berkeley could handle properly. Those who are taking the work are greatly pleased with the course. Another class could be gathered as soon as this one finishes if the instructor's time permitted.

Mr. Wm. Dryden has been appointed road foreman by the council and began his duties this week. The roads are being gone over with the grader and under foreman Dryden's supervision, they will soon be in first class condition again after the spring washouts.

The laying of the water pipes has gone along very quickly and will very likely be completed this week. The large pipe running to the power house is full of water and all ready to run the machinery. If the dynamo were here we might have electric light at once.

Beside being road foreman, Mr. Dryden has another very important office in the Municipality, that of collector of dog tax. Already there is a worried look about several of the dogs around town. It is being whispered that several owners do not consider their dogs worth \$1.50 and it is more than likely that there will be some sudden deaths among the canines.

PENTICTON.**

Select Seed Grain of all kinds.

**FORESTERS "AT HOME."**

The Summerland court of the Canadian order of Foresters gave an "At Home" on Monday evening last, which was a good innovation, as this order is not so well known in the district, and such a pleasant evening as was provided must help to stimulate interest in the order.

There were about 60 present and the Chief Ranger, Rev. Jas. Hood occupied the chair, and the following programme was proceeded with:

- Organ solo . . . . . Mr. Powell Jones
- Song . . . . . Mr. A. Smith
- Cornet solo . . . . . Mr. A. C. Pierce
- Song . . . . . Mr. J. Steuart
- Recitation . . . . . Miss Raleigh
- Violin solo . . . . . Mr. Hunt
- Selection . . . Trout Creek Quartette
- Song . . . . . Mr. Smith
- Song . . . . . Mr. J. Steuart
- Selection . . . Trout Creek Quartette

The chairman and Dr. Andrew each made a few brief remarks and at about 10 o'clock, refreshments were served in ample quantity, after which, the entertained departed home, having spent a most enjoyable evening.

**A MEMORY OF THE St. JOHN RIVER.**

By W.K., Summerland.

We lay among the new mown hay  
 That piled the barn floor,  
 And watched the glassy river flow  
 Beyond the open door.  
 Heaven's breath was stilled, the waving  
 boughs,  
 Had ceased their graceful play,  
 Far off, the hills, white fringed with cloud  
 Seemed sunk in sleep for aye.  
 The summer sun, full fierce o'er all  
 Moved safely to the west,  
 The shadows lengthened as we looked,  
 'Twas calm, and peace, and rest.  
 We ne'er again can feel that scene,  
 As on that summer's day.  
 Ever on nature's page is writ  
 The legend, past away.  
 Yet 'mid the waste of wintry snow,  
 And bitter, biting blast,  
 'Tis good to summon back again  
 That summer memory past.  
 So may we fill our youth's bright day  
 With summer's glow,  
 To cherish when our heads are white  
 As winter's snow.

Fort George now has a fortnightly mail service.

# The Summerland Review

## BUSINESS CHANGE.

Another business change has taken place in Summerland during the past week and the Summerland Supply Company has gone out of the plumbing, heating and tinsmithing business.

The business has been purchased by Mr. C. N. Borton, who is too well-known in Summerland to need an introduction. He has been in charge of the business here for the past three years and since his arrival has filled nearly all the plumbing and heating contracts of the district, including the fixing of the college. Before coming to Summerland he was in the employ of one of the largest eastern firms, that of Sumner & Co. of Monkton, N.B., where he gained a considerable amount of his experience.

Mr. Borton has the reputation for doing a first-class job and will doubtless receive the fullest confidence on the part of the people of Summerland. He proposes carrying a full line of baths, sinks, sheet metals, pipe fittings and other articles incidental to the building up of a first-class business.

## QUEEN'S OWN RIFLES.

Several members of the Queen's Own Rifles, will assemble from all parts of the continent at Toronto next June, for a reunion in celebration of the Semi-Centennial of the regiment. The festivities will commence Saturday, June 18, with a reception at Government House, his Honor, the Lieutenant-Governor, like many other notables, being an ex-member of the crack regiment. On Sunday a monster church parade of ex-members and the present members will be an unique affair. During the week, grand historical pageants on a scale only equalled at the Quebec Tercentenary, will be given by several thousand performers on the Rosedale Athletic Grounds. In addition there will be numerous social meetings of old comrades.

In nearly every town and city in the Dominion, and in many in the United States and elsewhere, are men who have served in the Queen's Own, and the Semi-Centennial Committee is desirous of getting personally in touch with as many of them as possible. To that end it will greatly facilitate matters if the ex-members who see this will at once communicate with the permanent secretary, Mr. G. I. Riddell, 36 King Street East, Toronto, and prevail upon all the other ex-members they know to do the same. Mr. Riddell will promptly send them particulars,

### THE PEOPLE'S RICHARD.

The discussion on the C. N. R., contract in the House last week has made more clear than ever what many people have for some time suspected, that in Richard McBride this province possesses a statesman.

There are lords many and politicians many, but statesmen are few. The Hon. Richard McBride undoubtedly belongs to the latter class. He has "the vision splendid"; he has the zeal for the good of his country and he has the resolution of character without which the other two qualities are usually worthless. To have stood off scores of predatory corporations and to have finally obliged one of the strongest of them to do business on a strictly fair basis all round is in itself a thing that ought to keep his memory green for years if it does not give him a place among the immortals.

Think of it! A transcontinental line and no cash subsidy! and no land grant! and a cinch on the rates! a provincial people's cinch at that, and while the other provinces have to be content with the machinery of a high and mighty commission! and the whole thing without putting up a dollar!! It was never so seen before in Canada. Richard has set a pace as well as made a record, and it is therefore not surprising that the hearts of the people should go out to him in loyal response.

As stated in his speech in parliament, this province will for the first time get competitive rates. The C. P. R. got 20 miles on each side of its main line and 20,000 acres per mile (much of it priceless coal land) along the Crow's Nest Pass road, for building up a monopoly; the Canadian Northern will break the monopoly for nothing and do it under compulsion of the province,

if it does not do it of its own accord. This looks like good news to those who have been doing the suffering.

The Premier's bargain stands out in sharp contrast with that made in Ottawa with the G. T. P., people, whereby a wealthy corporation gets millions of dollars in interest for completing its line through a rich mineral and agricultural section of this province and when it has done so it will take a Philadelphia lawyer to make them ease up on their all but helpless clients.

The C.N.R. as a base line through the heart of the province is the pledge that in due time all the little valleys contiguous to it shall have their branch lines operating under such conditions as will make life possible, tolerable and even happy.

### THE SNOWBALL SYSTEM.

A copy of the following prayer has been received by several people in Summerland. Presumably the system has just arrived in this district, and if each individual who receives the scrawl copies it out and forwards it "unsigned," as the screech directs, then every man, woman and child throughout Canada will be provided with a copy during the next few months, and postal officials will have to increase their staff.

The reproduction is an exact copy of the one which has been forwarded to us, type-written :

"An ancient Prayer: Oh Lord Jesus I implore you bless all mankind keep us from all evil by thy precious blood and take us to dwell with you in eternity . . . This prayer was sent to me I send it on to you it is an exact copy of an ancient prayer, copy it and see what happens. It is said in Jerusalem that he who will not copy the prayer will meet with misfortune but he who will write it for nine days beginning with the day he receives it and will mail the copy each day to a friend will on the ninth day experience some great joy and will be delivered from all calamities. Make a wish while writing the prayer and do not break the chain. It must not be signed."

To say the least of it, the whole thing is drivel, concocted to work upon the minds of unhealthy or superstitious individuals, and as we have no desire to "see what will happen," we have decided to break the chain.

The Russian Minister of Justice has refused to admit women to the bar.

### WOMEN'S BANK.

A bank, operated by and for women is one of the latest London innovations. It is a branch of Farrow's bank. The only male on the premises will be a messenger. Men will be excluded from becoming depositors.

Five hundred women's names are already enrolled, the greater number of them representing new accounts, but some transferred from the central office by request of female clients.

### EASTER MUSIC.

Owing to the fact that a number of its members will be out of town on Easter Sunday, the Baptist church choir at Parkdale will render its Easter music program tomorrow as follows: "Christ the Lord is Risen" Warren; Duet, from Stainer's "Crucifixion," Messrs. Duncan and Carter; "Seek Ye the Lord," Roberts, solo and obligato, Mr. Ward Duncan.

Mr. Wilbur Watson will have charge of the service.

The Maud Moore is now running on her summer schedule as follows: from Summerland at 8 a.m. and 4 p.m., and from Naramata at 8-45 a.m. and 5 p.m. Extra trips on Saturdays: from Summerland at 7-0 and 10-0 p.m. and from Naramata at 7-30 and 10-30 p.m.

The management of the Men's Club once more request that all library books be returned without further delay. The guilty ones are detaining a new full set as the present library must be returned complete ere a new lot can be installed.

Rev. Mr. Elmhurst paid a visit to Kelowna by Thursday's boat.

It is rumored that there is likely to be a stronger baseball league this season than last, with Kelowna, Peachland, Penticton and the local team fighting it out for the honors.

The Summerland Supply Company is putting in a stock of bee keepers supplies.

Miss Eileen McGuire with others will give an entertainment in the Men's Club on Tuesday evening. At one time Miss McGuire was soloist in the City Temple, London, England.

At a meeting in the club rooms on Monday evening, final arrangements were made for the entertaining of visitors at the S. S. Convention here on Wednesday and Thursday of next week. Music will be rendered by an union choir.

**SUMMERLAND HOSPITAL.**

The following is a statement of the affairs at March 1st 1910:

Bills due and payable for Feb.	\$119.53

**:: Naramata Notes ::**

Mr. W. J. Robinsen and son spent Sunday in town.

Mrs. Capt. Languedoc, after a week's sojourn with friends in Summerland, has returned to her home.

Mrs. T. R. Wellband is again able to be round, having been somewhat indisposed on account of illness for some weeks.

In the evening of Sunday last Rev. H. A. Solly conducted divine service before an appreciative audience.

Rev. G. O. Fallis, of Penticton, after a lapse of several weeks on account of illness again occupied his place at the Sunday service at 10 a. m.

Mr. A. B. Allen has accepted a position as book-keeper with Mr. Jno. Niblock, who has taken charge of much of the development work formerly handled direct by the Summerland Trust Co.

Mr. H. J. Wells has let the contract to Mr. C. W. Johnson for the erection of a dwelling house on property recently purchased from the latter and situated to the south of the town near Mr. Miller's cottages.

Among our list of visitors last week were Miss A. Dale, of Summerland, and her friend Miss Margaret Bemister, of Winnipeg, the now popular writer of short stories. While in town the ladies were entertained at the home of Mr. and Mrs. T. H. Boothe.

Mr. C. Aikins has about completed the fencing of his recent purchases along the lake shore road. It is said to be Mr. Aikin's intention to begin extensive improvements on the two mountain lots, down close to the lake. Better take a stroll round and have a look at this interesting knoll before the dynamite shakes it to pieces.

By the way, have you heard anyone talking about Naramata's fine roads? You have! Then it was last year shortly after the roads were made. But how about now? Don't you think that there should be someone put on our roads in the spring to keep touching them up some? Nothing seriously wrong anywhere, but then! See! here is a place where gravel and sand interfere. Here a small slide of mud spoils one side of your path, and yonder is a small wash out that any man with a shovel and an hour's time could repair. Why not put a man in charge to maintain good roads all the time?

**JIM'S STORY.**

He saved his advertising bill it sure must be confess't  
He also saved himself a great deal more;  
He had to put the shutters up and take a lovely rest  
Then went clerking in a down town grocer store.

### Local News Items.

Mr. B. Sherk is building a large warehouse on the flat at Parkdale.

The Baptist church is being improved by the touch of the painter's brush.

Miss Mary Dale and her niece Miss Mammie Bateman left on Monday last on a visit to Vancouver.

Miss Bemister of Winnipeg who has been the guest of the Misses Dale for the past few weeks has returned home.

Mr. J. N. Merritt, accompanied by his son, was a visitor in town this week. They come from Balcarres, Sask.

James Moore Robinson, to be a member of the Board of Investigation under the Water Act, 1909.—B. C. Gazette.

The mock trial under the auspices of the Lyceum Literary society has been indefinitely postponed.

Mr. F. Billings of the legal firm of Billings & Cochrane, Vernon, was in town on business on Thursday last.

H. C. N. Etches, of Salmon Arm arrived in town this week and has assumed the duties of sawyer at the Garnett Valley Sawmill.

The Fruit Company's Lumber yard at Parkdale has been taken over by Mr. W. Ritchie who will manage the business in future.

The anniversary exercises of the Armstrong Baptist church, will be held on Sunday next. Dr. Sawyer will preach at both services.

Mr. Ward Duncan was a passenger to Kelowna on Monday last for the purpose of consulting with the architect over plans for the proposed College gymnasium.

Mr. F. W. Clingan of Virden who is the owner of a fine property on Jones Flat was a visitor in the district this week. He was accompanied by Mr. E. E. Bayne, also of Virden.

Shooting at the rifle range has recommenced and the indications are that that useful and interesting pastime will be more popular this year than ever. At the end of the season there will doubtless be a number of new cups and trophies lined up beside the already large collection. Any desiring to unite with the club can receive all the necessary information from the secretary, Mr. Fred Nixon.

(OFFICE AND PACKING GROUNDS)

### NARAMATA NOTES--continued.

Mr. A. G. Robertson has sold his fruit farm to Mr. Williams, of Lindsay, Ont.

A new heating apparatus has been installed in the greenhouse by Mr. A. C. Williams.

There are strong indications that a riding club would be a popular institution in Naramata this season. Have you not observed?

The band boys of town held a successful practice on Tuesday evening under the direction of the leader from Summerland, Mr. Pierce.

Mr. S. C. Smith, of Vernon, was here for a short while recently looking over the progress of repairs to the Orillia. Mr. R. Wilkins has the work in hand.

The hotel grounds have had some additional labor bestowed upon them preparatory to the magic strokes of the gardener, who is now on the ground preparing flowers in the greenhouse.

Mrs. Mark Manchester accompanied by Mrs. Bryant, a recent purchaser in Summerland, spent an enjoyable day here on Tuesday, the guests of Mr. and Mrs. Gillespie.

Mr. W. S. Miller, the fortunate owner of a fine pre-emption right up close to town, has commenced clearing a portion of the arable land, of which there is probably fifty acres.

At the close of the English Church service last Sunday a short business session was held. The chief matter attended to was the appointment of Capt. Languedoc to the position of churchwarden in the place of Mr. Turner, who has taken up his residence in Summerland.

Mr. and Mrs. Anthony Fields, of Port Elgin, N. B., recently celebrated their Golden Wedding.

The Grand Forks Agricultural Society is discussing the purchase of the race track and grounds in that city at an outlay of about \$7000.

Grand Forks Cricketers have re-organized for the coming season.

Farmer's Institute Field Day at Kelowna last week is reported to have been a huge success.

Dr. Cook is reported to be in Brazil under a fictitious name.

Volcanic eruptions in the south have dispersed Chamorro's rebel army.

## Local News Items.

A few Summerlanders attended a masquerade ball at Keremeos on Thursday.

Mr. H. W. Biggin of Kelowna was a visitor in town this week.

Green was very much in evidence about the streets on the 17th of Ireland.

Mr. Allan Brooks of Okanagan Landing the well-known naturalist and artist is the guest of Mr. and Mrs. George Gartrell.

Mr. Fred Anderson has said good bye to Pine Creek and has taken up his residence in Summerland.

Mr. Harry Scott has returned to Summerland after having spent the winter at his home in Hilton, Man.

Owing to the fact that Friday next will be a public holiday, the Review will be published on Thursday.

Mr. C. S. Stevens, manager of the Lake Shore Telephone Company waited on the council on Thursday morning and secured permission to extend pole lines.

Mr. Chittenden, Optician, will be at the Summerland Drug Co.'s Store on Tuesday March 29th, and parties desiring to have their eyes tested will kindly take notice.

### PRACTICAL PUNISHMENT.

A bibulous young Siwash who was brought before Magistrate English on Tuesday last, was sentenced to 30 days hard labor for his father on the parental estate, instead of the customary 30 days at the government's free boarding house.

Young Mr. Indian developed a glorious jag a few days ago and proceeded to demonstrate the fact by smashing things up generally. He was very "sassy" to his Pa, called the old gentleman a lot of nasty names; and wound up the demonstration by punching his daddy's head. Papa Indian immediately had recourse to the white man with the result already mentioned.

If the culprit objected to perform any reasonable duties, he was to be returned to the magistrate who undertook to see that the sentence of hard work was removed and substituted by thirty day's rest in jail.

The prize list for the Okanagan Rifle Association matches here on the 1st, 2nd and 3rd of June are now printed. The prize list amounts to \$750 in cash besides 16 medals 7 cups and one shield. There will be four team matches. Armstrong Advertiser.

Prayer meeting in church Wednesday at 7:30 p. m.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 2, No. 34

SUMMERLAND, B.C., MARCH 26, 1910

Whole No. 86

## MODEL FRUIT FARM.

Besides the three experimental farms in the Okanagan, it is reported that others will be placed as follows: two on Vancouver Island, one near Victoria and the other in Nanaimo district; two on the lower mainland, one on each side of the Fraser, Hammond being one location favored. Two in Yale-Kamloops, one near Kamloops city and the other at Penny's or Savonas. Three will be allowed to Kootenay, of which one will be near Creston.

## BASEBALL PROSPECTS.

If things pan out all right there should be an interesting series of baseball matches in the central Okanagan district during the coming season.

Last season with only two teams in the league, the contests became somewhat tame on account of the games being altogether too one sided. Had the Summerland lads been licked a little oftener, there would have been more baseball interest than there was. This year, it is expected that both Peachland and Penticton will have teams in the field and it is possible that Naramata will also make a brave attempt to get into the swim.

It was rumored at one time that Kelowna was out of the game for this year, but more recently it has been stated that they will have a team in the field as usual. That is no more than was expected, as Kelowna possesses too good a bunch of sports, both male and female, to be left out in the cold. There is no reason why the old spirit of friendly rivalry of last year should not be just as keen as ever.

The Summerland prospects for the season were never better. There is enough material right on the spot as bona fide residents to put a team in the field which will give any team in the interior a good run for its money. So far the boys have not had a workout, but limber up on the street during spare moments.

W. R. Hancock has returned to Summerland and has accepted a position as bookkeeper with Messrs. Vaughan and Moore. It is good to see Ray back again and in good shape to occupy the box as soon as baseball season starts.

## STARTLING EGG FIGURES.

### Competent Official Gives Information on the Value of Egg Industry in North America.

In an interview given an eastern paper Mr. R. S. Hamar, of the Ontario Department of Agriculture, asked "How many bad, broken and boiled eggs do you think Canada produces in a year?" "Boiled eggs!" exclaimed the interviewer in an interruption of incredibility. "Yes," he said, "the boiled eggs are the left overs at meals and are sold as spot fresh."

Mr. Hamer went on to say that the people have not the faintest idea of what the industry means till the facts are collected and put into statistical and comparativel array. The egg production of North America in a single year would pay the debt of the United States—hundreds of millions—in one year and ten months. The egg output for the United States for three months is equal to the entire steel output in that country for one year. Corn growing is the only industry in the land which excels in commercial volume that of eggs.

This is credible when one thinks that about all the other industries go in belts or by the States; but eggs, like the stars, cover every portion of the earth. If the annual output of eggs in North America were cased and packed in cars it would form a solid train stretching from Montreal to Nelson, B.C.

## RAILWAY ACTIVITY.

Construction on the Kettle Valley line will start from Merritt early in May. The road will go from Merritt up the Coldwater for 30 miles and will then divert southeast. It will be finished in less than three years.

Construction gangs are starting from three points, Merritt, Penticton and Midway. The divisional point will be at Merritt. Victoria Times.

## WORLD'S BOSS HEN.

Not a single doorknob being counted, says the "Successful Poultryman," the world's champion hen has just laid 291 eggs in a little over 11 months. She is finishing strong, and will pass under the wire with a round 300 eggs to her credit for the year.

This hen belongs to E. W. Starnell of Alexandria, Va., and has been officially recognized on account of her performance.

## GARBLED FACTS.

The "Literary Digest" of March 12 contains an interesting article entitled "Progress of Canada on the Pacific" by Mons. Villetard de Languerie, and is copied from a Parisian weekly entitled "Tours du Monde." The article reads very nicely until he comes to facts (?) relative to the agriculture and horticulture of the province, then it says "since 1901 British Columbia has exported many million dollars worth of agricultural products, and since 1891, 3,000 acres of orchards have been planted."

The writer was certainly not taking any chances on unduly exaggerating conditions when he thus wrote the figures. Summerland alone, just one comparatively small section of the Okanagan has gone beyond that figure in the last five years.

## CHEMICAL STUMPING.

In last week's issue there appeared an article on chemical stumping, and as a result, on the morning following the drug store had sold out all the required chemicals on hand long before noon.

It is expected that there will soon be a sufficient quantity of the required chemicals on hand to give the process a fair trial and The Review will be glad to receive the results of the various experiments made, so that others may be guided by them. If the process is successful it is certainly designed to become a boon to all who have land to clear.

The last batch of Chinese laborers left Johannesburg for their native land at the beginning of the month, the repatriation having taken four years to complete. The largest number of Chinese in the Transvaal at any one time was 53,856. The number of natives employed in the gold mines in the Witwatersrand in September last was 156,065. It was feared the profits would decrease after the repatriation, but this is not the case, as working costs are 22c. per ton less than in 1908, and the output of gold has increased. Last year the Transvaal mines turned out \$154,625,000.00 worth of gold, or 84 per cent. of the world's output of gold.

Seeding has started in several sections of the northwest.

# SUNDAY SCHOOLS AND THEIR WORK

## Summerland Welcomes Large Delegation, Representing the Okanagan district--Convention is Filled with Splendid Addresses, Helpful Conferences and Bright Music.

The most successful Sunday school convention ever held in the Okanagan Valley is now in progress in the Methodist church.

There is a large delegation present, every town and Sunday school in the constituency being represented. It is somewhat regrettable that the convention came so late in the week, especially in view of the fact that the Review is being published a day earlier on account of Good Friday being a public holiday. As a result the report of proceedings is unavoidably curtailed.

The people of the district have thrown open their homes, and all delegates are being billeted.

The convention is the sixth in the history of the organization and at the opening session on Wednesday evening, after a song service, led by the Provincial Secretary, Rev. I. W. Williamson, and Devotional exercises, led by Dr. Sawyer, the first vice-president Rev. J. Ball (Kelowna), took the chair, and called upon, Mr. J. R. Brown for the address of welcome, which he gave in splendid style. The address was replied to by Rev. C. W. Whyte of Peachland in an interesting, reminiscent mood.

The following committees were appointed by the chairman:

See Last Page

### TO-DAY'S (Thursday's) PROGRAMME.

- 9 to 9:15, Devotional Exercises . . . Rev. S. J. Thompson, Kelowna  
 9:15 to 10, (a) District Secretary's Report . . . Mr. J. C. Robson

**Local News Items.**

J. Johnson was a passenger to Kelowna on Wednesday last.

F. H. Latimer of Penticton was in town this week on business.

Real Estate is becoming active in Summerland and Tuesday last, \$15,000 worth of property changed hands.

Prof. Carter, of the College, is spending his Easter holidays with friends at Vernon.

It is expected that plans will soon be completed for the proposed new Baptist church at the front. The committee in charge are aiming to secure a building which will be ideal in every respect.

Mr. and Mrs. J. N. Merrill, recent arrivals from Balcarres, Sask., have purchased the Webster property in the Trout Creek district, and have already taken up their residence thereon.

Mr. W. Grieve expects shortly to leave for the coast, and after spending a few days with his brother at Vancouver will leave for California in the hope that it will lead to an improvement in his health.

A very enjoyable evening was held on Friday last in the Parkdale Baptist church when the ladies of the Mission Circle entertained a number of the ladies of other churches to a sumptuous dinner, and in the after part of the evening a splendid missionary program was conducted.

Mr. E. E. Samson, manager of the Okanagan Fruit Union, has been in town the past few days and in company with Mr. C. H. Cordy, has been visiting the residents, offering them stock in the Union. He has been well met by the majority of the people and has disposed of a considerable quantity of stock.

It is reported that the C.P.R., construction gang is at work at the Landing, constructing the new steamboat for the Southern Okanagan. When they complete their labors they will in all probability come to Summerland to start on the construction of the proposed new wharves and slips.

Mr. Woodworth, a recent arrival in town has purchased Mr. Alex. McKay's twelve acre property on the flat, and will take immediate possession. This property is one of the very finest in Summerland and is in full bearing. There is a splendid living from the small fruits alone on the place.

## :: Naramata Notes ::

The special Ferry service on Thursday night was much appreciated.

The cottage being built on the Niblock's property is rapidly nearing completion.

Mr. J. C. Lyons was confined to his bed a few days this week on account of illness.

Mr. J. M. Robinson is expected home shortly.

On Wednesday a card party was held in Opera House under auspices of the Athletic Club.

Mr. J. Summerset Aikins of Winnipeg reached this point Tuesday evening to spend a few weeks looking over his interests here

The finishing touches are being put on the "Orillia" and it is likely that we shall soon hear again her welcome toot! toot!

It is rumored that Naramata is to have a daily service by the Okanagan, through the Summer.

It is said that the new cure for troublesome stumps, mentioned in last week's issue, caused quite a run on the local drug store for the necessary acids.

Mrs. Gillespie, our talented lecturer, will hold a public service in the Opera House next Sunday at 7-30. Her subject will be: "If a man die shall he live again."

Mr. Walter L. Land, the genial secretary of the Athletic Club, after some month's absence in Vernon, has returned to town once again.

Rev. Mr. Fallis preached here on Sunday last, and at the close of the service a substantial subscription was made in aid of Home and Foreign Missions.

The Unity Club met last Friday at the home of Mrs. A. B. Allen. A large number of ladies were present and a pleasant time was spent. The chief item of discussion was the proposed concert to be given probably the third week in April. A dainty lunch was served by the hostess at the close of the meeting. The Club will meet next Friday at the home of Mrs. R. King.

Mr. J. Sutherland, of Summerland, visited here Monday, and proceeded east of four mile creek, to his brother's fruit lot. While here he submitted plans for a fine dwelling to be built, which will probably cost in the neighborhood of \$5,000. The contract has not yet been awarded, but it is probable that Mr. C. W. Johnson will be the builder.

## ..Hotel Summerland..

## EILEEN MAGUIRE CONCERT.

On Tuesday in the Men's Club, Miss Eileen Maguire, Miss Lucy Webling and Mr. Walter McRaye provided an evening's entertainment.

A varied program was rendered and seemed to be thoroughly enjoyed by many of the audience.

Miss Maguire's best song was "Coo" which she delivered in a very pleasing manner.

The little sketch "An Anonymous Letter" is a splendid take-off in Jerome K. Jerome's own humorous style, and Miss Webling and Mr. McRaye have it down pat.

There is no doubt but that Mr. McRaye is a clever exponent of Dr. Drummond's Habitant selections, but some of his stories are chestnuts and stale ones at that, and to work them off on an innocent audience twice in eight months is too much of a good thing.

A fairly good audience was in attendance and the Men's Club, under whose auspices the entertainment was held, should benefit from their enterprise.

It is now considered likely that Hon. Sydney Fisher will shortly resign his seat in the Commons and enter the Senate.

H. M. S.; Niobe, hitherto the flagship of the home fleet at Devonport is being overhauled to fit it for service as a training craft for the Canadian navy.

Fifty-seven carloads of household effects and farm implements left London Ont. and vicinity for the west during the past fortnight. The trains grow larger and heavier each week.

As a result of the Spanish river wreck, Paul Dinowitzer, merchant, of Montreal, has entered action in the superior court against the C. P. R., claiming \$14,800 damages.

In regard to the Comet, Foster says: The solid body of the comet will pass very close to the earth's orbit about eight days after the earth will have passed the point of crossing and as I see it the poisonous gases that may be thrown off from the comet will follow the earth along the path of the earth's orbit. I cannot say that these gases will reach the earth but if they do it will be along the path mentioned and may cause some strange diseases during the spring and summer.

## SUMMERLAND DIRECTORY

MUNICIPAL COUNCIL—Reeve, R. H. Agur, Clerk, J. L. Logie.

BOARD OF TRADE—Pres., R. H. Agur, Sec., C. H. Cordy.

### SUMMERLAND LEADS THEM ALL.

The following letter is being sent out to all rate payers in company with their assessment notices for this year:

Summerland, April 2, 1910.

DEAR SIR OR MADAM:

The assessment of the Municipality has been increased for the year 1910 on an average of about 50 per cent. When the assessment was first made in the year 1907 the principal of land value only, as a basis of assessment was adopted, all improvements being exempted from taxation.

During the past two years, no change was made as to the assessed value of the land, but an adjustment as to the ratio of valuation, so that the same would be as equitable as possible. The land having greatly increased in value since the first assessment was made, the Municipal Council deemed the time opportune for an increased valuation so that the assessment would more nearly represent the true value of the land.

That has been done so far as our knowledge of the land permitted, and every effort made to see that no one is treated in the matter of their assessment unfairly.

YOURS TRULY,

J. L. LOGIE,

Assessor.

As will be seen, the council in order to establish an equilibrium between revenue and expenditure, has decided upon a considerable raise in the assessment of properties within the limits of the municipality.

There may be some, who on first receipt of their notices may feel inclined to rebel, and consider the assessment unreasonable, but when the matter is carefully looked into, it is very apparent that the trouble

lies in the fact that the past rate of assessment has been too low. Most property holders would far rather have a fairly high rate of assessment and a low taxation, than a very low assessment and a high rate of taxation. It looks better in selling a property to be able to show that the assessed value warrants the price asked.

In Summerland, both the assessment value and the rate of taxation have been the lowest in any corporate district in B. C. and even with the increased rate of taxation and assessment, will still retain that enviable status.

Peachland, Summerland's nearest neighbor to the north is assessing at two-thirds the market value of the land, with a taxation of 14 mills on the dollar.

In Kelowna, not only are land values assessed, but improvements to the rate of 50 per cent of cost are taxed. The rate of assessment on land was 75 per cent last year. This year the land is being assessed at its full market value. The taxation rate is 33 mills on the dollar.

The municipality of Coldstream has placed its gross rate of taxation at 12 2-5 mills on the dollar. On raw land the assessment rate has been placed at \$125 per acre with an increase of \$50 per year for succeeding years. Ten mills is charged on all improvements.

A ten acre orchard in full bearing is valued at \$7,500 and is assessed at \$750 per acre, i. e., its full face value.

The city of Kamloops recently made the assertion, through the medium of the press that its assessment and taxation rate was the lowest in B. C., and consequently have laid themselves open to correction. Their assessment rate is 65 per cent of the value with a taxation rate of 18 mills on the dollar.

Just compare the foregoing figures with conditions as they obtain in Summerland.

The best land in the district is valued at \$1000 per acre and will be assessed at \$300 or one third, under the proposed new assessment which will come into force this year.

The rate of taxation last year was 10 mills on the dollar, and this year, in order to meet the need on account of the taking over of the water and light systems and the continuance of the vigorous campaign of road improvement, the rate will probably be increased 2 mills, making the rate 12 mills, which may possibly be again reduced as the water and light systems become more revenue producing.

Very few realize the tremendous proper-

ty values extant in Summerland to day, and when told that they approximate four million, five hundred thousand dollars, and still growing by leaps and bounds, people are inclined to elevate their eyebrows and look skeptical. Nevertheless, such is the case. Assessed land values are estimated at \$1,500,000. Property values are estimated at \$3,000,000 as is made apparent in the matter of the sale of debentures.

This places Summerland away at the head of the list. Coldstream, a much older district comes next with an assessment of \$934,618 which includes the assessment of improvements.

The following figures have been obtained showing assessment values of the various municipalities during 1909:

Summerland, \$1,060,000,

Coldstream, \$934,618,

Penticton, \$845,955,

Kelowna, \$840,660;

Peachland, \$305,200.

It is the bounden duty of every man woman and child to "root" for the place he or she calls home, even though the elasticity of that intangible thing called conscience may have to be tested somewhat. The delightful thing about Summerland is that when we "root" we need do no violence to our finer sensibilities, and the half, even then, will not have been told.

The assessment and taxation rate may take a jump this year, but the fact is worth reiterating—even with the proposed hoist the Summerland rate will still be among the lowest, if not the lowest in British Columbia.

### HOW MANY ARE WE?

Next year the census of Canada will be taken again and guessing is now in order as to what the results will show. More than one well informed man believes the population will by that time run up well toward eight millions.

In our minds there is little doubt that in another decade the population will have increased 125 per cent. It was approximately so in the case of the United States, till at length she had to restrict immigration to her shores. We have the same problems and opportunities she presented sixty years ago. We have the same undeveloped wilderness, the same arboreal and mineral wealth untapped, and the same call, long and loud, for men.

But whereas at that time steam was in its infancy and the settler had to take weeks or months jolting over corduroy

# The Summerland Review

roads on his way to his homestead, our people are carried within sight of their destinations in a few days. And, moreover, in a such time as it took the former to clear ten or fifteen acres for crop, the latter has anywhere from one to four hundred acres under tribute.

In those days the best ships carried five or six hundred passengers; to-day they are building floating palaces in Belfast capable of landing ten thousand at once on our shores. What is more, so fast and so far has the fame of our land extended that passage has now to be booked several months ahead in order to get accommodation on the Atlantic steamers.

All this means that the United States progress, rapid as it has been, will hardly do as a precedent for us, since there must be added to the foregoing considerations this, that the pressure of population in the old world has vastly increased in the past sixty years, while the United States has joined it as the chief contributory source of our immigration.

In view, therefore, of the rapidity of our growth from this time forward we would like to see the Government take the census quinquennially, instead of once a decade, and we would like to see them follow the English custom and do it in a day. The present system is long, labored and expensive, but good for grafters and heelers. It furnishes an occasion of reward to the faithful; but the dear people have to pay a sweet price for it.

Now why should it not be done in one night? Every man roosts somewhere at night. Why not go to the roost for him. If he is not there his trunk is and the landlady will know about it. By bringing a little pressure to bear beforehand on householders, hotels, trains, boats, etc., a complete list of lodgers could be obtained in one night, and reduplications could be eliminated by office work afterward. Surely if England with nearly six times our population can do this, and if they can do it on the continent, there is no reason why Canada should follow methods that were consigned to the scrap heap a quarter of a century ago, especially when it costs ten times as much and takes ten times as long to do it our way.

Legislature like that is kin to the infantile legislation which allows the trade of the country to be paralyzed by transportation and industrial strikes, because a few men in one section of the community have a dispute with their capitalistic neighbors

## GARDEN, FIELD AND FLOWER SEEDS

New crop now arriving from our growers in England, France, Holland, Canada and the United States. All tested as to vitality and purity on arrival. The best only is good enough for our customers. Catalogue free.

Business will be continued at our old stand until May. After that in new location, which will be announced later.

### Provincial and General

Webb Wright has sold his hotel in Enderby to Charles Cood for \$20,000.

The marriage of Princess Patricia, of Connaught to King Manuel of Portugal will take place this coming summer.

Work has commenced on the new Methodist college at Strathcona, which is to cost \$100,000.

When Lieut.-Gen., Baden-Powell visits Toronto this summer, he will find 5000 boy scouts waiting for review.

The Salmon Arm people are rejoicing over a grant of \$7000 made by the provincial government towards road improvement.

According to deputy minister of agriculture Scott, as a result of his recent trip through the province there is every prospect of a record crop of all kinds of fruit this season.

Ruby and Wilfrid Westwood, two big New Zealand children arrived in St. John, N. B. last week and are travelling across Canada. Ruby, who is 16, weighs 229-lbs., Wilfrid, only 12, tips the beam at 330-lbs.

The Great Northern is planning a 17 mile tunnel from Chiwaukum to Skykomish in order to escape such disasters as the Wellington snowslide. This would be the longest tunnel in the world and would cost \$50,000,000.

It is reported that a strike is inevitable in South Wales (U.K.) as negotiations over the new wage agreement between the coal miners and the operators were broken off on the 19th instant. A strike would effect in all over 1,000,000 workers.

It is reported that the C.P.R. intend to expend a sum of \$60,000,000 on new construction work, of which two-thirds will be spent in the west. The ultimate ambition of Sir Thomas Shaughnessy, so it is said by those close to the president of the big trans-continental, is to have completed during his lifetime a double track road from the Atlantic to the Pacific. Gross earnings of the Canadian Pacific for the fiscal year to end June 30th next are expected to exceed \$100,000,000, the first time this mark will have been attained and a net profit of \$25,000,000 is confidently predicted.

### JIM'S STORY.

The work and worry finished Jim, he couldn't stand the strain.  
Of thinking of the past, and trimming cheese;  
So the undertaker put poor Jim below, and he'll remain  
Till Gabriel's trump comes tooting o'er the trees.

**Local News Items.**

Mrs. K. C. Hogg was a passenger to Peachland on Thursday.

Thursday, April 7th will be the first day of the weekly half holidays.

Mr. Mark Manchester was in Peachland on business on Thursday.

It is reported that Mrs. Harrison who has for some time been seriously ill at Kaladen is getting better.

On Monday the members of the junior bible class of the Methodist Sunday school will open the picnic season with a jaunt to Spray Falls, Naramata.

Don't forget that Mr. Chittenden, Optician, will be at the Summerland Drug Co.'s Store on Tuesday, March 29th. Make your appointments now at the Drug Store.

Mr. Richards, Veterinary Surgeon of Kelowna will be in town next week. He fully intends to make periodical trips to this district if patronage warrants same.

There is a noticeable increase in the passenger traffic on the lake these days. A glance at the hotel register shows a vast increase in the number of guests.

George Irving left on Friday for Brandon where he intends to stay for some two or three years. Summerland claims George so he's just got to come back.

A baseball game between Schoolboys and College Jnrs. was played on the College Campus, last Friday, and College won 6-5. It was a good game throughout, and maybe if the Schoolboys would throw a little quicker to bases, the score would be reversed.

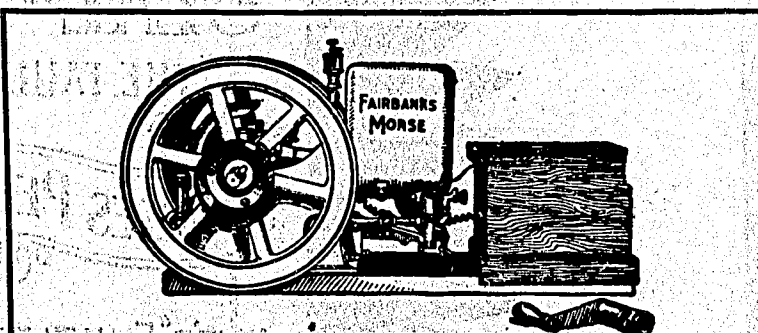

There will be a memorial service in the Methodist church on Sunday evening, in memory of the late Mrs. Adam Stark. The pastor will preach an appropriate sermon and the choir will render suitable music.

The chief engineer reports that a splendid route has been located for the Hudson Bay route and it is reported that William McKenzie has joined the director's board of the company.

A practical joker is abroad in London and Winston Churchill was the victim. A short time ago, that gentleman's equanimity was upset by the arrival of 20 loads of coal which the carters in turn proceeded to unload. The victim had considerable difficulty in persuading them to cease unloading.

**A Positive Cure  
For Indigestion**

If you have indigestion, your food ferments in the stomach and bowels. It does more: it decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but ferments and oftentimes rots in the stomach.

And fermentation is caused by the stomach not being strong enough and energetic enough to thoroughly mix the food with the digestive juices.

M-I-O-N-A is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed by The Summerland Drug Co to be, or money back. The price of a large box of Mi-o-na tablets is 50 cents, and they are sure to promptly relieve the worst case of indigestion or gastritis. Try them

**Local News Items.**

Mr. T. J. Smith paid Summerland a visit this week.

Echo of Tuesday evening's concert—Have you seen Hamlet? A wee small voice "Y-e-s!"

Capt. Von Dem Hagen has purchased 10 acres and a pre-emption in Garnett Valley from Mr. Robert Barkwell.

Miss Haines of the college staff is spending the Easter holidays with Mrs. Huycke at Kelowna.

Mr. W. Marchant, Inspector of Customs was in town on Friday evening last on a flying visit.

Mr. C. N. Higgin has returned from a visit to the old country and will resume his duties as skipper of the good ship Maud Moore on the first of the month.

Mr. and Mrs. E. Mountford have returned from their honeymoon trip to the coast and have taken up their residence on Paradise Flat.

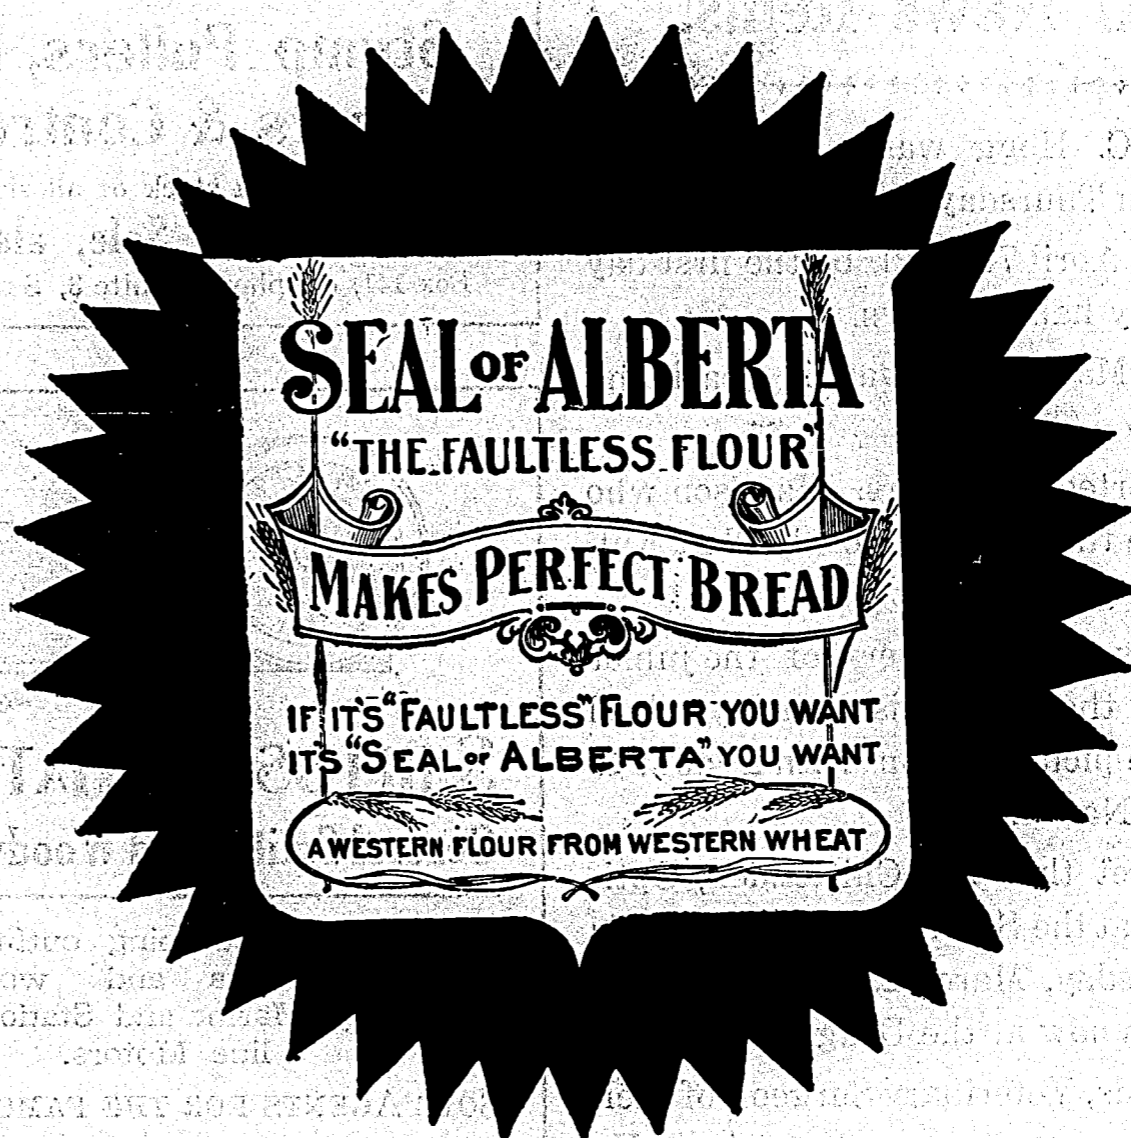

On Sunday the English Church services will be held for the first time in the new building at Parkdale. Rev. H. A. Solly will officiate and services will be held as seen in Church notices.

Miss Black, who has been spending a considerable time in Summerland, the guest of Mr. and Mrs. Hector Sutherland and Mr. and Mrs. McLaren left on Monday last for her home in Morden, Man.

Rev. D. J. Welsh and Mrs. Welsh of Kelowna are the guests of their parents, Mr. and Mrs. Thomas Welsh. They are in town for the purpose of attending the Sunday school convention.

According to the Orchard City Record the South Okanagan footballers have been practising hard for some time and the first match of the season is to be played on Good Friday. That is setting the pace for Summerland as there is very little doing in sports line at present. Doubtless with the advent of the weekly half holiday the boys will get down to business.

The other evening at an entertainment in town both the entertainers and the audience as a whole were thoroughly disgusted by the behaviour of a few individuals who pose as "men." Men of this particular type ought each to be provided with a five cent rattle along with a nice tin tray and a hammer and sent with a nursemaid to a room set apart for the kids.
