

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 3, No. 5

SUMMERLAND, B.C., SEPTEMBER 3, 1910

Whole No. 109

THE PRE-COOLING OF FRUIT.

In the current issue of "Better Fruit" the advantages of pre-cooling fruit are set forth in an article by Rufus Steel.

It is believed that this new system of dealing with fruit will mean almost as much to the fruit industry as did the coming of the refrigerator car.

The cars are run into the pre-cooling shed already packed, the doors of each car are opened, and the air in car is exhausted by means of an intermittent valve—this takes about one hour. False doors are clapped into place, and the cars are then pre-cooled to a temperature of about 40 degrees. If desired the temperature could be reduced to zero, but 40 is considered the best temperature.

To the grower the use of this process means that he need only pick fruit a day or so from being actually ripe—to the consumer it means still more, as he will be able to have fruit which has matured on the tree instead of on the car, thus being far more luscious and better flavour.

As yet there is only one plant which was built at a cost of \$1,000,000, but another is being built already, and no doubt in the near future Okanagan fruit growers will be taking an active interest in such a plant.

GAME LAWS.

According to the British Columbia Game Laws Blue and Willow Grouse may be shot in this district between September 1st and December 31st, both dates inclusive.

Prairie Chicken (Columbia Short Tail Grouse) may be shot during the month of October.

Ducks, Geese and Snipe may be shot between September 1st, 1910, and February 28th, 1911, both dates inclusive.

Columbia or Coast Deer may be shot between September 1st and December 15th, both dates inclusive.

Columbia and Coast Deer may be sold between September 1st and November 15th, both dates inclusive.

Ducks, Geese and Snipe may be sold during the months of October and November.

The shooting of Wapatti throughout the whole province is prohibited.

POINTS TO COUNT AT NATIONAL APPLE SHOW.

In connection with the Canadian National Apple Show at Vancouver, the judging will be governed by the Rules of the American Pomological Society, which run as follows:

Rule 2, section 4, of the American Pomological Society regulation entitled, "Examining and Awarding Committees," reads as follows:

Rule 2. In instituting comparisons of values, committees are instructed to consider:

First—The values of the varieties for the purpose to which they may be adapted.

Second—The color, size and evenness of the specimens.

Third—Their freedom from the marks of insects and other blemishes.

Fourth—The apparent carefulness in handling and taste displayed in the arrangement of the exhibit. (Pack).

The foregoing shall be considered the official guide for the judges, and in making their awards the judges shall be given the widest latitude under these regulations.

RIFLE ASSOCIATION.

There was a fair attendance of members on Saturday at the range to shoot off the first stage of the Price Ellison Cup Competition, and the following were the leading scores for the day. The next stage of this Competition will be shot next Saturday 10th September.

	200 Kne'g	200 Kne'g	200 Prone	200 Rapid Fire	Total.
M. Steuart	28	27	34	29	118
H. Dunsdon	24	29	27	30	110
F. Munro	29	25	33	22	109
O. Smith	27	29	31	20	107
H. Thompson	26	24	28	25	103
W. Smith	29	25	27	21	102
W. Nelson	26	23	27	25	101

SUMMERLAND HOSPITAL.

The following donations have been received at the hospital: Mr. Seaman, potatoes and flowers; Mrs. Angove, potatoes; Mrs. Raincock, vegetables; Mrs. R. T. Monro, peaches; Mrs. Fenner, peaches and flowers; Mrs. Hayes, apricots; Mrs. Hespeler, eggs; Mrs. Ross, flowers; Mr. Thompson, peaches; Mrs. Falcon, peaches; Ladies Aid, cakes and biscuits.

ACCIDENT ON TUESDAY.

Fred. G. Barnard, who is working for Ben Colk, Peach Valley, met with a severe accident on Tuesday last.

He had a full load of cordwood on, and going through the gateway to the lot, the waste water had made a small gulley in which the wheel slipped—this threw a block of wood on to the team, and they started off. Fred was thrown on to the tongue of the wagon, and still held the lines. He tried hard to gain control of the team, but not having a strong enough foothold, this was impossible. When he saw that they were off, he jumped, but did not clear the wagon, and was thrown under the wheels, both of which ran over his arm and stomach. He crawled to the fence and got on his feet by this means. His cries for help were heard by Mr. R. S. Munro, who drove him to the hospital, where he was immediately attended to. He is very severely bruised, and how he escaped with his life is a miracle.

The proclamation of the annexation of Korea by Japan was made public last Monday morning without ceremony. It was quietly received by the people, the news already having been discounted. No fear is expressed that disturbances will follow.

As the result of the vote passed in Penticton, which was almost unanimously in favor of ratifying the agreement between the Kettle Valley railroad and the council, a right-of-way will be located and actual construction work will be commenced in the district by the railroad this fall. The railroad company has secured the location of its right-of-way in the municipality outside of the new townsite. It has also been given the right to use either Winnipeg or Martin Street as a right-of-way through the town to the waterfront, where a depot and a wharf will be constructed. Penticton, President Warren states, will be the principal inter-terminal divisional point on the Kettle Valley system, and extensive yards and car shops will be constructed here.

The total wheat crop of the Canadian North West will easily top the 100,000,000 mark. The crop averages 12.6 bushels per acre.

The Summerland Review

THRIFT AS A NATIONAL ASSET.

The Toronto "Globe" recently printed the text of a remarkable address delivered before the Employers' Association of Toronto by Mr S. T. Bastedo, Superintendent of Government Annuities. The address should be read by every good Canadian, and carefully considered.

The day of opportunity on the American continent is passing. The free lands will be exhausted in another quarter of a century. Great cities here, as in Europe, must inevitably mean at times unemployment and suffering.

The fear of poverty must become ever present in many lives, and, above all, the dread of poverty in old age, when the capacity of earning is gone.

There is need for provision to meet the conditions that will come as inevitably as to-morrow's sunrise. Thoughtful men are beginning to see an end of the material resources of the continent, and are preaching thrift. The conservation of the forests, of the water-powers, of the coal and iron, is preached daily from a hundred platforms. Here and there a voice is raised to tell us that we are as wasteful individually as in the national sphere, and that personal thrift is as much needed as collective thrift. That lesson is reinforced when we read of men once eminent, rich and prosperous, dying in alms-houses because they never recognised the necessity for saving. Let us come nearer home with the argument. There are ten thousand mortgaged homes in this city to-day in which every ounce of energy is devoted to keeping up appearances, to carrying the daily financial burden-homes in which there is nothing but dark foreboding when a look is cast forward to old age. To the hundreds of thousands of Canadians who are living up to their income, or just a little beyond it, Mr Bastedo's address should appeal mightily.

The Parliament of Canada has gone a long way to encourage the people of the Dominion to make provision for old age. It has established a Government Annuities system, under which it is hoped, ultimately, to make provision for the declining years of the great mass of the people. The Government pays the entire cost of management, and every dollar put in comes back to the annuitants with four per cent. compound interest. The money may be paid in at any money order office; it cannot be withdrawn, or seized for debt, or used in any other way. At 55 years of

age, or later if preferred, the annuity begins, and continues till death. By supplementary provisions, if it is desired, the money paid in—should the depositor die before the annuity begins—is returned to his or her relatives with 3 per cent. interest. Should anyone begin to pay for an annuity and be unable to keep up the payments, the amount—if insufficient to provide \$50 per year of annuity—will be returned when the depositor reaches the age of 55, together with 3 per cent. compound interest. In effect, therefore, there is placed at the disposal of every man, woman and child in Canada, without cost other than the expense of administration borne by all the people of Canada, a safe, convenient and simple way of providing for old age.

The movement is worthy of the encouragement of all leaders of public opinion. The young do not so well understand the shadow cast before by an old age of penury or financial anxiety as those of maturer years. They need sometimes to be reminded how that prince of good fellows, Robert Burns, looking back over a youth of folly and extravagance, sadly penned the lines:

"But pleasures are like poppies spread,
You seize the flower, its bloom is shed;
Or, like the snowflake on the river,
A moment white, then melts for ever."

HIGH SCHOOL.

The high school in Summerland is now an arrived fact. At the present it is to be conducted in the Central School, and by 1st of October it will be held in the building belonging to Mr. Sherk on the flat. This will be used for twelve months by which time the new school will be completed on the site of the present school. A teacher will be engaged as soon as possible, and it is hoped that the school will be opened next week, after the Labor Day holiday.

A requisition for a public meeting is being signed by a large number of rate-payers. It is in connection with the road leading to Peach Orchard.

TENDERS FOR COLLEGE SUPPLIES.

Tenders will be received by the undersigned up to Monday, September 5th., for the furnishing and delivering of supplies at Okanagan College for the eight months ending May 21st 1911. Tenders will be received for farm produce, meat, milk and groceries.

List of articles with approximate amount required in each will be supplied by the undersigned upon application by telephone or letter.

Local News Items.

'Kicknies' are running, and a good few formed food for breakfast during the week.

The Supply Comyany have had a large platform erected immediately behind their premises at present occupied by the Okanagan Fruit Union. This will be used for storage puposes and a shed will be erected later.

At the beginning of the week, Mrs. Lloyd of Toronto was demonstrating the Canadian made chocolates and cocoas manufactured by Cowan Company, Ltd., of Toronto. Many availed themselves of the opportunity of testing a first-class cup of chocolate and cocoa.

The new addition to the hotel is now in place and ready for alterations. Mr. Raincocks' gang are now busy moving up the back premises of the late Empire Hall which will occupy a site immediately opposite the Drug Store. The lot will then be free for building upon, and a cement foundation for a new business block will be at once started.

Low rates are announced to the Toronto Exhibition. Regular 1st. class one way fare for the round trip. Tickets, on sale August 19 to September 3rd, are good for ten days going and until September 23 to return to original starting point. Stop-overs are allowed east of Port Arthur. For further information apply to the local C.P.R. agent.

Mr. J. J. Mitchell has been awarded the contract for the digging of trenches for the pipe line extensions by the Canadian Pipe Co. of Vancouver. This firm was successful in its quotation for the supplying and laying of pipe for the municipality. Mr. Mitchell hopes to be through with his contract, consisting of 14 miles of ditch, at the end of three or four months.

Mr. Boulton, of Vancouver, Inspector of Agencies for the Royal Insurance Company of Liverpool, is in town on business in connection with his company. The Royal is an old established insurance business, and is worked with a minimum of expense in the management, thus enabling the steady payment of large bonuses on policies participating in profits. Their policies are many and varied, and well suited to all sorts and conditions of men. Mr Cordy is the local agent, and is prepared to furnish all particulars regarding this company.

News from Peachland

About a dozen of our citizens went to Vernon last week to hear Sir Wilfred. They report large crowds, much enthusiasm and good speeches by the premier and his party.

Messrs. Morrin Thomson & Co. are to-day beginning their great stock reduction sale preparatory to handing over their business to Messrs Eyre & Cutbill on November 1.

Miss Kate Kennedy of Chicago, and Miss Tena Kennedy of Dryden, Ontario are visiting their sister, Mrs. C. G. Elliott. The former is en route to her home in Chicago, via Vancouver and San Francisco, while Miss Tena will spend the winter here.

Mr. G. Phillips is doing a rushing business at the hotel now-a-days. A number of changes have been made, and everything is in first class shape to give the guests proper attention. Already Mr. Phillips has established a reputation as a most excellent host.

School opened this week with a fair attendance considering the busy season. Two new teachers are on the staff this year. Mr Barker, formerly of Enderby, has charge of the high school, and Miss Milne of Vancouver. Both come highly recommended, and a good year's work is looked forward to.

The cement pipe works is running to its full capacity, and turning out a splendid quality of pipe. Already five car loads have been shipped out, and large orders have been secured for more. It is evidently the coming pipe for all irrigation works.

Rev. J. K. Wright of Vancouver, representing The British and Foreign Bible Society held a fairly well attended meeting here Wednesday evening. At the close of the meeting a branch of the Bible Society was organized, with Rev. C. W. Whyte president, Mr. Paul Murray secretary, and Mr. H. E. McCall treasurer.

Mr. Willie Dawson returned last week from the Vancouver Fair, where he was exhibiting a few of his fancy birds. He was very successful securing the following prizes: eight firsts, six seconds, five thirds and three fourths, besides winning a \$20 special for the best and largest collection east of Mission. We congratulate Mr. Dawson on his success; it is a good advertisement for the place.

Slovens, Spring Slovens, Double Crank Axle Wagons, Ordinary Light One-horse Wagons, Doubletree Neckyokes, Crotch Chains and Whiffletrees, Doubletree and Whiffletrees.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU? If it does write us and we will only be too glad to give you all the desired information

Or better yet, call and see us.

Several residents of Northern New Jersey have sent Thomas A. Edison a petition urging him to turn his inventive genius to New Jersey' mosquitoes, the ravages of which they say this summer have been the most serious in many years.

"I am never bothered by the mosquitoes," Mr. Edison told some of his neighbors when the subject was brought up. "You see I am just deaf enough so that I can't hear them coming. I think their hum must be worse than their bite, for everybody growls whenever a mosquito hums."

Mr. Edison has made no formal reply to the petitioners.

In the Kragg shooting case whereby the murderer of Wm. Palmer was mortally wounded by the police in the execution of their duties, the jury have exonerated them from all blame.

Big gold finds are reported from Koyukuk, about 400 miles distant from Dawson City. Eight men shovelling dirt for four hours had a clean up of \$15,000.

A wireless connection was formed on Saturday last at New York between a flying machine and a wireless station. This is the first on record, and was sent by aviator M'Curdy.

SATURDAY, SEPTEMBER 3, 1910.

BOY SCOUTS.

The recent visit of Sir Robert Baden-Powell, Lieut. General in the British Army, has focussed public attention on his small fry organization known as the Boy Scouts. "Peace hath her victories no less renowned than war" and when General Baden-Powell conceived the idea of forming this new corps he accomplished something of greater meaning to society than those exploits at Mafeking and elsewhere which have shed lustre on his name. Possibly the contrast between Tommy Atkins, the machine, and the hardy, self-reliant and always resourceful colonial in the late South African mix-up, led him to a fruitful enquiry into causes and the very sane conclusion that an ounce of prevention is worth a pound of cure.

Canadians are resourceful for the simple reason that in adapting themselves to new conditions they have had to do things and the doing soon gave power to do bigger and better than ever. There is only one way to get power to do and that is by doing. In the Boy Scout system the principle of education is the fundamental thing. In order to get a first class badge there are ten things a boy must be able to do. "He must be able to swim fifty yards. He must have a shilling in the savings-bank. He must be able to send and receive a message either in semaphore or Morse, sixteen letters per minute. As a test of self-reliance he is sent off on a two days' journey by himself, or with only one other Scout. On returning, he must write an intelligible account of things seen. Then he must know how to deal with various accidents—ice-breaking, electric shock, drowning, run-

away carriage, and so on. He must prove that he can make a damper, skin and cook a rabbit, make a hunter's stew, or pluck and cook a bird. He must read a map and draw sketch maps; use an axe for felling timber; judge distance, area, height, size, numbers and weight within 25 per cent. error. Finally, he must bring in a tenderfoot, trained by himself in the points required for a tenderfoot badge."

From there the education goes on indefinitely, badges being given only for actual achievement. The aviator's badge is given to the boy who makes a machine that will fly. And so on with seamanship, cooking, plumbing, surveying, printing, and other lines of activity, the design being to put a premium on thoroughness in work.

From this it will be seen that the organization is something more than a military machine. As a matter of fact the only weapon they have is a staff instead of a gun or a sword, and usefulness, first aid to the injured, pity and relief for those in distress, loyalty, honor, courtesy, and obedience are their battle cries.

But the important thing about their education, and the thing which differentiates it from other organizations of similar purpose, is that they learn these lessons not by teaching and preaching but by doing. Therein lies the hope and therein lies the secret of an enrollment of 400,000 boys from 12 to 18 years of age within three years, in England alone.

Baden-Powell might well be excused from military service to attend to work like this. He is helping to develop a new type of citizen, to furnish us an army of capables for tomorrow. The citizen will have loftier conceptions of his civic relations and responsibilities, while the army will be made up of free men, military in bearing yet hating militarism, that curse of the continent of Europe.

We are glad to see the organization, particularly in the old land and in the cities where by reason of the conditions boys grow up with their active powers largely atrophied for lack of use.

Nothing for several moons back has caused such a stir as the Western trip of Sir Wilfrid Laurier, and more particularly that phase of it which presents Hon. Richard McBride as master of ceremonies and presiding genius of the feast. It was never so seen before in Israel. The lion and the lamb do sometimes sit down together, but then the lamb is generally

inside the lion. Here we behold the redoubtable Tory chieftain throwing politics, as they have hitherto been construed, to the wind, and welcoming as a long-lost brother the man he was walloping with all his might the other day.

"Good politics that, to get on the crest of the wave that is about to roll over you," sneer some of the Liberal papers, but it won't go down. The fact is Mr McBride has played the gentleman, that is all. He has simply been true to himself and to the traditions of his brethren of the legal fraternity, who "strive mightily as adversaries, yet eat together as friends." He has been big enough to distinguish between politics and high citizenship, and innately courteous enough to render the homage due even when it was due a political adversary. Sir Wilfrid was in every way worthy of it.

The spectacle makes one feel better, and inspires a hope that politics is not such a wholly yellow puddle as it is sometimes thought to be.

:: Naramata Notes ::

Rev. H. A. Solly of Summerland conducted evensong service last Sabbath.

Mr. Wm. Edwards of Calgary spent a few days in town this week on business.

Mrs. Dean was a passenger to Penticton on Wednesday evening's boat.

The School opened on Monday with a re-attendance and Mr. Boothe as teacher.

The Express office will be removed to the new quarters now nearing completion on the main street.

A monument in the form of a cross resting on a square pedestal has been placed over the grave of the late Harry Hill.

Mr. D. Wilkins, after a protracted period at Revelstoke, Kamloops, and elsewhere, is spending a short stay with his brother in town.

The "Naramata" experienced some little difficulty last Saturday night in locating her own dock on her way across the lake on account of the dense fog of smoke prevailing.

It is probable that a girls' club will be organized in the near future. The young ladies evidently do not intend to let the young men run all the shows in town or should we say the whole show?

The Summerland Review

Mr. W. Kearns of the Review staff spent a day here this week in the interests of his paper. If by any chance you should have missed handing him your renewal the subscription would be acceptable if sent by mail.

What is believed to be the very best electric machinery ever shipped West reached us on Wednesday by C. P. R. Steamer Kaleden from The Crane Co. and The Canadian Westinghouse Co. The machinery will be installed at an early date.

The Naramata Supply Company are in the midst of their annual stocktaking. It is probable that their stock of dry goods will be turned over to Mrs. Moisch, who contemplates opening out in business in the near future in the stand formerly occupied by Mrs. Caldwell. It is understood that it is Mrs. Moisch's intention to carry a complete stock of dress goods, women's and children's ware. This will be welcome news to the people of Naramata.

Labour Day—Monday the fifth—will be recognized throughout the district as a general holiday. Holiday fares (fare and a third) will be in force on S.S. Okanagan. To the landing, return, \$3.70.

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locomotive Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard" all

**Yours for 17 Cents
a Day!**

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash pay-

ment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

**A Quarter of a Million
People are Making Money**
with

**The OLIVER
Typewriter**

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD "GO!" So easy to run that beginners soon get in the "expert" class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers.

'An Oliver Typewriter in Every Home!'

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE IN BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

Extracts from Commissioner J. C. Metcalfe's
Weekly Bulletin.

Regina—Jobbers here state that prices asked for 'Triumph' peaches by B.C. shippers were too high; could not handle at prices quoted. They would buy Washington 'Elberta' and 'Crawford' peaches at 50 cts. a case in preference for their trade. They further state they could buy Washington apples four and four and a half tiers of different varieties at 85 cts. per box f.o.b. point of shipment.

I think prices asked by B.C. growers and shippers at the present time are reasonable from American side reports. Until quotations are lower from American points or markets here are being glutted by consignments, I would advise shippers to hold to present prices asked.

To summarize. Ontario fruit crops from various sources still continue below medium, apples small and of poor quality. North Yakima reports 'Elberta' peaches dropping of to the extent of 50 per cent. 'Crawfords' from some cause at present unknown have stopped growing, and fully 50 per cent will not be picked being under size.

While the present utter failure of all native wild fruits which grow in such abundance in these provinces, and are put up and used to a great extent by consumers generally, will have the tendency to increase the demands for other fruits, at the same time I would advise growers and shippers to push sales with jobbers and retailers everywhere in these provinces, especially in Alberta and Saskatchewan. The crops are abundant enough to require pushing sales energetically, and growers and shippers that do so will find it to their advantage and benefit. I would also advise picking peaches greener and packing closer. The apples sent have been of good size and clean, but off colour for grade, but there should be no trouble on that score from this date on. Attend to all the shipping details and push sales vigorously, and fill all orders promptly on date required if possible to do so.

The fruit growers of the West Kootenay district are preparing to send a big consignment of their apples to the National Show at Vancouver. It has been demonstrated that land over 3,500 in altitude in that district will grow splendid fruit.

At Rowley's Jewellery Store, new stock which has just arrived is being shown, up-to-date in every respect.

The 'Daily News' of New Westminster does not take the questions recently sent out by the management of the Industrial Guild of the Great Commission at all seriously. The first question asked for a per cent. estimate of the honest portion of our English-speaking Canadian population, and the second dealt with the proportion of 'manly men' contained in the same class of people. In a covering letter which accompanied the questions, the relevancy of these unusual queries was defended by pointing to the widespread dishonesty which permeates the American business world. The deplorable state of affairs in this connection deserves the serious consideration of every thinking man, and an attempt to deal with this problem surely deserves some recognition other than the heaping of vapid jest upon the head of the well meaning interrogator? Perhaps there is more in those questions than meets the eye, especially when it is borne in mind that anyone whom you could not trust with \$10,000 in the dark is dishonest beyond question.

It is expected that the G. T. P. transcontinental line will be completed about the fall of 1913, and the golden spike will be driven near Fraser Lake. Since Oriental labor cannot be employed in the construction work; and whites are hard to procure the work is hampered by a insufficiency of labor.

DELEGATES NOTES ON POULTRY MEETING AT VANCOUVER.

At a meeting of the Summerland members of the Southern Okanagan Poultry Association held some time ago, Walter M. Wright was appointed delegate to the Provincial Convention held at Vancouver on Aug. 18th.

The convention was called to order in the convention Hall, Mr. Kale of New Westminster appointed chairman Mr Isherwood Vancouver appointed Sec. of the convention which was held in the exhibition grounds at 10 a.m. Delegates from all over the province were there and were welcomed by the Manager of the fair and the director in charge of the Poultry branch who assured the delegates that any suggestions they cared to offer would receive careful consideration. Mr. J. Miller made some suitable suggestions and offered to make things hum for the Association as far as it was in his power. The Vice President, Mr. A. Condor and Mr. V. P. Rodman also addressed the Convention offering suitable suggestions to those present, stating that such a public spirited enterprise deserved encouragement.

Mr. Jull Live Stock Commissioner took charge of the meeting and explained the outline that was to be followed. He told of the five recently organized Poultry Ass. and of the work they expected to do. The delegates from the various Associations were appointed as Directors for the Provincial Association.

The directors met immediately and elected Mr. Kale as Pres. of the Provincial Association.

A set of By-laws were made up and revised which occupied nearly all the afternoon. A banquet was tendered the delegates in the evening. After the banquet the delegates met and decided that for this year there should be no provincial show, but that there must be one next year. The Govt. having given a grant to the upbuilding of the poultry industry and believing that it would do the most good by assisting fairs, the board suggested the amount that should be allotted to each fair. The Southern Okanagan Association's grant will probably be \$150. This fair will in all probability be held in Summerland.

The board seemed to favor the idea of having the Provincial fairs held at the inland points as far as possible in order to give an impetus to poultry raising on a commercial basis. Mr. Wright then stated that he believed the Southern Okanagan Association would be in a position to accommodate the visitors to such a fair and also could give a good hall for an exhibition intimating that the board would in all probability have an application from that Association for the first Provincial Fair.

BALLAD OF THE FLY.

Baby bye,
Here's a fly.
By the state he's doomed to die.
Since he brings
Germ-like things
On his legs and wings.
Countless trillions of the same
Have their lodgings on his frame.
His offence
Is immense.
Hang his impudence!
See him pass,
Bold as brass,
With a buzz that's full of "sass."
'Sz—'sz—'sizz!
There he is
On the grub, gee whiz!
See him with infected feet
Walking on the bread and meat.
Then the whim
Seizes him
In the milk to swim
Candy Stores
He explores.
Cakes and bonbons he adores,
And he hops
O'er the chops
In the butcher shops.
Watch him dance with plaguey legs
On the grocer's new laid eggs,
Ham and cheese.
There he sees
Nurseries for disease.
Baby bye,
Shun the fly.
Pure food sharps will tell you why
'Tis no joke.
They will soak
Fly-protecting folk.
Therefore get your little axe,
Slay the "musca" in his tracks.
Don't delay!
Haste to slay!
Little fly, good day, good day!
—Selected.

One thousand dollars in cash is the offer made by the Directors of the Panama-Pacific Exposition Company, to artists and designers the world over for an Exposition Seal. It must be of a character suitable for use as a poster, a crest for stationery or as an Exposition Button, and should typify the completion of the Panama Canal and the celebration of that event proposed to be held in San Francisco in 1915. Finished drawings or paintings should reach the Exploitation and Publicity Committee in San Francisco not later than October 15. It is desired that as wide announcement as possible of this offer be made, that artists everywhere may be inspired to make suggestions and send in their designs by that date. A number of suggestions have already been made and these will be considered when the competition closes.

- Spring, Lot 2551.

Meeting for the purpose of adjudication will be held at Penticton on or about October 20th, 1910; Okanagan Falls on or about October 25th, 1910; and Naramata on or about October 28th, 1910.

W. S. DREWRY,
Chief Water Commissioner.

Lands Department (Water Branch),
Victoria B.C., July 15th, 1910.

To spare his aged mother the shock of seeing him totter mortally wounded into the house, Patrick Rahll, a Brooklyn man, put the last vestige of strength left in him into the refrain of a popular song which he bravely whistled as he passed through the room which she occupied. He reached an adjoining room where he fell unconscious and soon died. Rahll had been stabbed in a fight.

NOTICE OF DISSOLUTION OF PARTNERSHIP.

NOTICE is hereby given that the partnership heretofore existing between us, the undersigned, ORLANDO VAUGHAN and BAPTISTE CRAWFORD MOORE, carrying on business as Merchants at Summerland, B.C., under the firm name and style of VAUGHAN & MOORE, has this day been dissolved by mutual consent, the said BAPTISTE CRAWFORD MOORE retiring from the said partnership, and the said ORLANDO VAUGHAN will continue to carry on the said business under the title of O. VAUGHAN. ALL DEBTS owing and accruing due to the partnership of VAUGHAN & MOORE, are to be paid to the said ORLANDO VAUGHAN at Summerland aforesaid, and all claims against the said partnership are to be presented to the said ORLANDO VAUGHAN, by whom the same will be settled.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

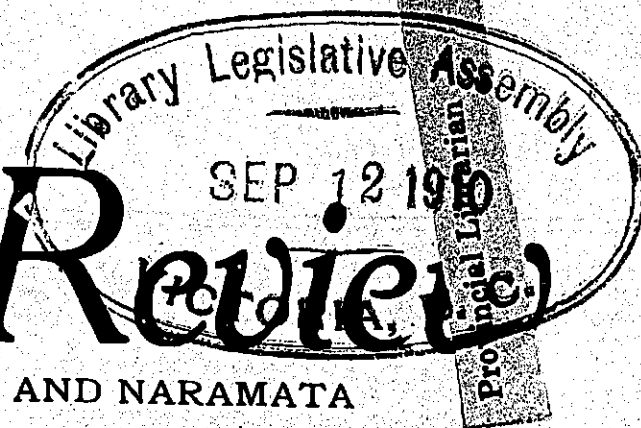

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by

FIGURES TALK.

During last month over 200 tons of fruit left Summerland. This shipment, for one month only, far exceeds the total of any year's shipment in former seasons. It means that for a total of 27 weekdays there were 25 carloads of fruit shipped out, or say an average of one per day. The estimate at the commencement of the season of fruit which would be shipped out of the district was 75 cars, this looks as if it would not be far out according to present reports, especially when it is taken into consideration that the apple crop as yet is not fairly started, and the late peaches are only just coming in with anything like profusion.

The cannery is proving to be the necessity which many of the fruit growers were loth to believe early on in the season. Up to date they have canned over 15 tons of peaches, and are short of labor or this figure would be far higher.

COUNCIL MEETING.

On Monday last there was a special meeting of the council at which all the members were present, with the exception of Councillor G. Gartrell.

The minutes of previous meeting were read and adopted, and communications were read from Mr. J. M. Robinson re the purchase of Electric Light Plant, from Mr. F. F. Busted re the extension of office hours on the wharf, and also a petition from Mr. W. A. Doyle and other residents in Peach Orchard district re the lake shore road upset.

It was resolved that owing to the fact that the council had not the power to grant free light and water to the hotel, the Clerk be instructed to write to the Summerland Development Company to that effect.

Messrs. Taylor and Thornber waited upon the council and submitted their proposal re the purchase of the Electric Light Plant, which same was discussed at full length, and it was resolved that their proposal be accepted, and the Clerk instructed to at once draw up Agreement and By-laws for submission to the ratepayers at as early a date as possible.

The following accounts were passed and authorized to be paid:

Band Grant - - - -	\$30.00
J. L. Logie, salary and postage	57.00

PRESBYTERY MEETING.

On Tuesday evening the 6th, the Presbytery of Kamloops met in the Methodist Church at 8 o'clock. Ex-Moderator the Rev. Mr. MacRae of Golden occupied the chair in the absence of the present Moderator, the Rev. Logie Macdonnell of Vernon, who is ill at his home in Teryins, Ontario. The Presbytery covers territory extending from Field on the East to Kamloops on the West, Princeton on the South to the extreme North. In this Presbytery there are a number of self-supporting congregations, augmented charges, and Home Mission fields. The personnel of the Presbytery present were: Rev. Mr. MacRae of Golden, Rev. Mr. Dallas of Amonhead, Rev. Mr. Wyllie of Kamloops, Rev. Mr. Campbell of Armstrong, Rev. Mr. Vans of Lumby, Rev. Mr. Herdman of Kelowna, Rev. Mr. Whyte of Peachland, Rev. Mr. Allan of Penticton, Rev. Mr. Cameron of Hedley, Rev. Mr. Wilson, Superintendent of Missions in British Columbia, Rev. Mr. Logan of Vancouver, the Financial Agent of Westminster Hall, the youngest Theological College of the Presbyterian Church in Canada, who was asked to sit in the Court as a corresponding member.

Representative Elders present were: Mr. Fortune of Enderby, Mr. M'Crachan of Kelowna, Mr. Loomer of Penticton, and Mr. R. H. English of Summerland. On the evening of Wednesday a public meeting was held at 8 o'clock, when very interesting and instructive addresses were given by Rev. Mr. Logan on educational work carried on by Westminster Hall, Vancouver, and Rev. Mr. Wilson on Home Mission problems.

On the afternoon of Wednesday arrangements were made whereby the entire Presbytery were driven over the Benchlands of Summerland, and every member expressed surprise at the extent and possibilities of the district.

Dinner and tea was served by the ladies in the parlour of the Men's Club.

The tracks along the lake shore will in all probability be extended for another 125 feet towards town. This will bring them right up to the property of Messrs White & Co who will thus be able to run the cars into their shed which they will erect in course of time.

DEATH OF MR. H. PHINNEY.

On Sunday morning last at about 8 a.m. one of our oldest inhabitants, Mr. H. Phinney, passed away to his long rest, at the advanced age of 76.

Mr. Phinney came to Summerland about three years ago from Sackville, N.S., of which place he is a native. For 27 years he has been a member of the Baptist Church, and for several years held office as Deacon.

The remains were interred in the cemetery on Tuesday at 2.30. A large number of relatives and friends were in attendance, and the pall-bearers were as follows: Messrs. G. A. M'Williams, T. Dale, Dr. Sawyer, G. J. Coulter-White, Jas. Tingley, and Dr. M'Intyre. The Rev. J. G. M'Donald officiated, assisted by the Rev. A. T. Robinson.

His last resting place was decorated by many beautiful floral emblems, giving expression to loving sympathy.

DON'T SHOOT PRAIRIE CHICKEN.

By an Order-in-Council passed on August 23rd, and published in the last issue of the British Columbia Gazette, the government has prohibited the shooting of prairie chicken in Yale, Kamloops, and Okanagan electoral districts. This was done owing to representations made by those interested in the preservation of the game birds of the district. Prairie chicken is not a bird which is driven out by cultivation, in fact they thrive better on cultivated farm lands than when they have to depend upon wild food entirely. This section of British Columbia should provide the very best kind of chicken shooting, and will, if the birds are given a chance. They only need another year or two respite and they will again become plentiful. The game warden intends to see that the birds are not shot this year, and he will enforce the law to the limit against anyone shooting prairie chicken.—Merritt Herald.

The Prize List for the Fall Fair has been issued, and copies of same may be procured from Mr. R. Pollock, secretary of the Agricultural Society. It is in booklet form and consists of sixteen pages and cover.

FOUR CUPS AND SHIELD.

GREAT SHOWING BY THE SUMMERLAND TEAM.

At the Kamloops Rifle Shoot Members of the Summerland Rifle Association once more upheld their reputation as first-class shots.

During the last week six members of the local rifle club, viz., Messrs. J. Dunsdon, H. Dunsdon, G. Gartrell, F. Munro, W. Nelson, and O. Smith, have been doing great things. They arrived home on Thursday evening laden with four silver cups and the challenge shield, with the latter medals are awarded. In the Grand Aggregate, 392 was the top score, and H. Dunsdon tied for first place, but was counted down to third place. The following is a list of prizes won:

- Challenge Shield (with Medals).
- M'Intyre Cup.
- Leland Cup.
- Fortune Cup.
- Corporation Cup.

There were two other cups only up for competition, one of which they lost by one point only, and the other by two.

The following is a list as they stood in the various matches:

Kamloops Corporation Challenge Shield Team Match.

TAYLOR & CO.

Provincial and General

It is no longer legal to trap bear in
British Columbia at an time.

The curfew law is being enforced in
Revelstoke, and will shortly be in force at
Enderby also.

Hon. Rodolphe Lemieux has ordered fifty
automatic stamp-vending machines, which
will shortly be distributed in the principal
cities of the Dominion, and later to other
points.

A new company has been incorporated
for the development of the sugar beet in-
dustry, with its headquarters at Mission
City, B. C. Vancouver and Fraser Valley
capitalists are financing the new venture.

The August number of "The Athletic
World," a new name for "Outdoor Can-
ada," has just been received at this office.
Since this publication has been taken over
by W. J. Taylor Ltd., Woodstock, Ont.,
each issue has shown a marked improve-
ment over its predecessor. Besides the
change of title the size has been increased
and the contents augmented. Judging by
the August number, full as it is of good up-
to-date reading pertaining to things ath-
letic, a conspicuous place is assured "The
Athletic World" among the leading Cana-
dian national publications.

A new and important industry will be es-
tablished in Penticton this fall if a site on
the waterfront can be secured from the
council. A Syndicate composed of local
men and outside capitalists proposes to se-
cure 250 feet of waterfrontage on the Es-
planade and to construct a brick kiln with
extensive yards, as the cliffs in the im-
mediate vicinity of Penticton are said to
afford ideal clay for brick manufacture.
Last week a skilled Japanese artist made
an examination of the cliffs on the lake
shore near the rifle range and returned to
town with a beautiful vase fashioned out
of yellow clay. He stated that from these
cliffs clay could be procured which might
be moulded into vessels of pottery such as
delight every visitor to Japan. He was
very inthusiastic over the subject and stat-
ed that if such cliffs were situated near
Vancouver they would be worth millions of
dollars.

News from Peachland

Mrs. A. Town was hostess at a reception Thursday afternoon.

Mrs. E. R. Simpson of Summerland spent Tuesday in town.

Rev. C. W. White is attending the meeting of Presbytery in Summerland this week.

Mr. C. H. Mc. Tavish spent a couple of days in Penticton last week, returning on horseback.

Miss Pollock, of Summerland has been spending a week in town the guest of Mrs. W. M. Douglas.

Miss A. E. Elliot of West Bank, spent Labor Day at her home here, returning Tuesday morning to her school.

Lieut. Governor Bulyea set out Thursday morning for another trip to Edmonton. He expects to be away a couple of weeks.

Rev. J. D. P. Knox returned from Victoria last week, where he has been for a couple of weeks attending general Conference.

Labor day passed off quietly here. A number of small party picnics were held and a good time enjoyed by all hands, the weather supplied being of the right brand to make horseback riding and mountain climbing enjoyable.

Both of our medical men have been building additions to their residences lately, and this week Dr. Nash left town, it is reported, on a very important mission. It may mean nothing but it looks suspicious. It is probable that the actions of both these gentlemen will be watched with interest by their friends.

What price No 1 quality? One of our local growers had a good many peach culls which he presented to a friend. His friend communicated to a store keeper in one of the prairie cities, and ultimately dispatched the culls packed in apple boxes with just a sheet of paper between each layer. Judge of his surprise when he received 5 cents a pound nett, f. o. b. at Peachland. This is good news, and it is to be hoped No 1 does pro ratio.

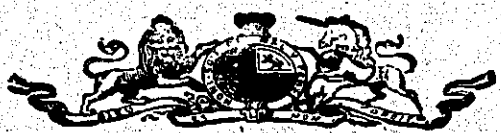

Lieut. Governor Bulyea was in town during the latter part of last week.

Is it an earthquake? people were crying on Sunday morning, but no, it was only the innocent pile driver making up for lost time.

CORRESPONDENCE.

ANOTHER VIEW OF IT.

The Editor, Summerland Review.

Dear Sir,

May I be permitted, in the interests of the institution which I represent, The Industrial Guild of the Great Commission, to say I think you must have read hastily and therefore misread the article in The New Westminster Daily News, touching my recent appeal to the business men of the west regarding the actual results of our church work in terms of character, as they have to do with it in daily life.

I have been giving the Daily News man credit both for a friendly attitude and for

his astuteness in knowing his business. In any remarks of the column or so given to my queries I see nothing but such journalistic pleasantries as are designed from his standpoint to make palatable reading, and the fact that he printed what I had to say in full is sufficient evidence of his judicial and even kindly disposition in the matter.

At the same time I wish to say that I appreciate also very much the kind words of The Review. They are backed by the judgement of the many strong men whose opinions I have already received.

Thanking you Sir for this space, Yours
sincerely, A. T. Robinson,

Commissioner, I. G. G. C.

SATURDAY, SEPTEMBER 10, 1910.

OLIGARCHY VERSUS DEMOCRACY.

The next election in the United States bids fair to be of spectacular strife. Now that the Republican machine of New York has thrown down the gauntlet to Theodore Roosevelt and virtually dared him to do his worst, he will doubtless feel called on to do it, if for no other reason than that implied in the old saying, that any man who wont take a dare will steal a sheep.

It is a kind of unwritten law that no man shall occupy the White House for three successive terms. He must give some other fellow a chance, and incidentally leave no grounds for fearing the surreptitious introduction of the imperial purple. Accordingly, when Mr. Roosevelt was last elected he promised publicly that he would not stand for a third term.

By the time his hour for retirement arrived, however, there was such a tremendous popular clamor for his re-election in order that he might perfect the reforms he had initiated, that nothing stood between him and re-election save his own pledge. A mighty temptation that, and not wanting many and subtle casuists to justify yielding to it on the devil's plea of necessity, the public good, etc. etc. Exhibiting a virtue which far outshines that of Caesar when he thrice refused the triple crown, he steadfastly refused the enticements of his friends, and recommended his colleague, Judge Taft, as a good man for the place. Then he got out of sight for a year to let things cool off.

His successor has clearly been unable to wield the sword of Goliath. Capital has become more strongly entrenched and insolent than ever, and the Republican

party has split. The insurgents now claim that they are the real Republican party which thinks first of the state, while their quondam leaders are simply grafters and tools of powerful corporations, selling the country for gain right and left, as in the case of the tariff which they were elected to revise downward, but have made more grievous than before.

A brother of Dr. Gifford Pinchot, in the September McClure, points out that the same cause which produced the Civil War is now operative. He calls attention to the fact that freeing the states was simply a war measure. What the north was doing was presenting rule by oligarchy. In this way the constitution provided that every slave should have three-fifths the franchise of a free man. This slave vote gave the south a solid thirty as a balance of power. When the population grew in the north, and threatened to outnumber them, they began to push their trade into other states to preserve their power. To defeat this scheme for the perpetual government of the republic by the privileged few, a mighty appeal was made to the citizens of the north by insurgents of the Whig party, who pleaded for government by the people instead of by the few, and the result was, that Republican party which has now so far departed from its ideals as to have played into the hands of the capitalist class till capital rules the nation, and the elected representatives of the people are but puppets in its hands.

We have no doubt that Colonel Roosevelt will hear the call of the oppressed for deliverance. What is more we believe he will head the insurgents and be to them a second Lincoln, breaking the yoke of property bondage, even if it should require, as on the former occasion, the loss of half a million lives. The people must be freed, and Roosevelt seems the man of destiny, the only man in sight strong enough to beard the lion in his den. Him the country will follow. He has given the highest proof of his integrity, and as for his ability it may be said that he is the only man whose "big stick" has ever been sufficiently heavy to make the mammon dragon quiver throughout its "many scaly fold," voluminous and vast.

Efforts are being made by the people of Trail B. C., to have the C. P. R. patrol their railroad lines in that district with a view to preventing the spreading of small fires. Many of the blazes in the Trail district have been traced to locomotive sparks.

MARKET REPORT.

Extracts from Commissioner J. C. Metcalfe's Weekly Bulletin.

Calgary, August 22nd.—Jobbers here report quotations higher for prunes and other varieties of fruits. Do not look for very low prices on fruit this season now. Plunkett & Savage, jobbers here, stated prices were firmer for all fruits. At present time have three car-loads rolling from J. S. Perry from North Yakima on consignment, but stated they would maintain prices on the above cars, as it is good stock and market is bare. They further stated did not anticipate any lower prices this season on any variety of fruit as was indicated by the early June reports of heavy crop from American and other points.

The following are the freight rates on car-loads from points on Sicamous and Okanagan branch, and all points on the Okanagan Lake, including Penticton to Battleford: apples and pears, minimum 24,000 lbs., per 100 lb. \$0.95; other mixed fruits, minimum 20,000 lbs., per 100 lb. \$1.28. Carloads of mixed fruits and vegetables, minimum 24,000 lbs., can be shipped, each commodity taking its own rate, but such mixed car-loads must contain not less than 10,000 lbs. of fruit, apples or pears.

The wholesale fruit men generally report a greater scarcity of fruit than was anticipated in the earlier part of the season from reports received at various times from American shipping points. In past seasons jobbers in these provinces here drew heavily on Washington, Idaho, and Oregon for their fruit supply, and these states responded freely to their demands. Wholesalers claiming not being able to obtain any appreciable quantity from British Columbia to present date.

This year, however, Southern Minnesota, Southern Dakota, Iowa, Northwestern part of Wisconsin, have no fruit, and they are now drawing on the Pacific Coast States for their supplies, and are relieving our markets here in a measure of their fruits. Last season at this time Iowa was shipping into Winnipeg 2,000 barrels of apples per week, now Iowa is buying her apples. Reports from Ontario grow worse as the season advances. Nova Scotia reports the worst crop in years. With these facts in view I would advise our growers and shippers to hold firm to present prices quoted, but push sales energetically, and move fruit promptly as ordered. Pack and grade the best, use Standard Packages of the best quality to be obtained. Pick fruit greener. Our growers and shippers are generally allowing fruit to get over-ripe before picking for shipping long distances. Jobbers want it green to hold up and distribute out to rural points.

The Summerland Review

The Oliver Typewriter for 17 Cents a Day!!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—YOURS FOR 17 CENTS A DAY!

The typewriter whose conquest of the commercial world is a matter of business history—YOURS FOR 17 CENTS A DAY!

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locomotive Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard" all

Yours for 17 Cents a Day!

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash pay-

ment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money with

The **OLIVER** Typewriter

The Standard Visible Writer.

The Oliver Typewriter is a money-maker, RIGHT FROM THE WORD "GO!" So easy to run that beginners soon get in the "expert" class. EARN as you LEARN. Let the machine pay the 17 CENTS A DAY—and all ABOVE that is YOURS.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably ABOVE those of many classes of workers

'An Oliver Typewriter in Every Home!'

That is our battle cry to-day. We have made the Oliver SUPREME IN USEFULNESS and absolutely INDISPENSABLE in BUSINESS. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An EDUCATOR as well as a MONEY maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

The Oliver Typewriter Co.
Oliver Typewriter Building,
Chicago, Illinois.

ALL MASONS TO BE EXCOMMUNICATED.

In a strong address Bishop Archambastle of Joliette declared that so far as the Roman Catholic Church is concerned no good Catholics could become members of the Masonic order, whether of the French, English, or Scottish rite. In his address Archambastle said that Free Masonry aimed at the destruction of the Catholic faith, social order, political authority, and even the marriage tie. The bishop declared that all Masons came equally under the Episcopal ban, and would be ex-communicated and denied Christian burial. Proceeding further he said it was charged that some residents of Joliette were Masons and he said if this was proven he would denounce such persons ex-Cathedra, and demand that all good Catholics vote against them for any public office.

At Toronto lately the Dominion Millers Association at a meeting urged the government to take over the terminal elevators at Port Arthur and Fort William.

John D. Rockefeller's income from his holdings in the Standard Oil Company for the next three months will amount to \$750 per hour, according to a dividend the company has just declared.

REMARKABLE INFLUX FROM GREAT BRITAIN.

Over 40,000 Immigrants for Western Canada in the Past Six Months.

Never in the history of the Dominion of Canada has there been such an influx of British immigrants as during the period from March 1 to August 1 of this year when 41,452 men, women, and children from England, Ireland, and Scotland came into Western Canada by way of Winnipeg; 20,000 more than passed through during the same time last year. During the same period this year, 15,916 immigrants from Europe passed through the Winnipeg Dominion immigration office.

"I can say of the Britishers who came this year," said Dominion Inspector J. Bruce Walker, "that they have been of a higher type than any that we have ever handled before."

"In what respects?" was asked.

"Physically, mentally, morally, and financially," was the reply.

"The best proof of this," he continued, "is that those 41,452 newcomers have been absorbed by the Western Provinces and we have not heard from any of them since they passed through the office. I have their names and addresses but scarcely any of the vast number have ever applied for assistance. These people from the British Isles are a most admirable lot."—Province.

PEACH ORCHARD ROAD.

Many questions have been asked as to what is about to be done with the Lake Shore Road leading to Peach Orchard. At present it is a disgrace to any community, and every day it gets worse. No one seems to be responsible for the job—a kind of haphazard method of working being in vogue. Whatever the final idea may be it is just about time that those in charge, or the parties responsible, whosoever they may be, got down to the work in proper style, and finish it in as quick and workmanlike a manner as possible. On Thursday morning the plow was busy tearing up another 50 yards or so, and it is almost an impossibility for a load to be dragged through the mess up. For more than six weeks this kind of thing has been going on, and it is serious enough. The road is used just about as much as any in the municipality, and surely the ratepayers ought to be considered in the matter. Everything about the affair seems to be so beautifully indefinite, that it has not been possible to find out what is to be the final fix-up of the whole affair. If the Engineer-in-charge is responsible then the principals of the C.P.R. ought to be communicated with. If the latter are responsible, it is up to the Council to settle the affair, and if the Council, then the ratepayers should see into the matter. It surely lies in someone's province, and the sooner it is settled the less dissatisfaction there will be.

WHITNEY—BENSON.

At St. Stephen's church Summerland the marriage of Margaret daughter of late Sheriff Benson (Whonnock) B. C. to R. S. Whitney of Whonnock B. C. was solemnized by Rev. H. Solly on Wednesday morning, 7th inst., at 10.30. The Bride was escorted to the altar and given away by her brother Mr. W. G. Benson. The Wedding was a quiet one and attended only by immediate relations. The bride was attired in her traveling costume of blue Shantung. After the cutting of the cake and toasts, Mr. and Mrs. Whitney drove to Penticton en route for Banff, where the honeymoon will be spent.

L. Russell Williams who has been on the Review staff since the inception of the firm, left their employ on Saturday last. At present he is spending a vacation at the coast after which he will take a course of study at Okanagan College.

:: Naramata Notes ::

The Unity Club met last Friday at the home of Mrs. Lyons.

Reeve Lang of Peachland spent a few hours here on Thursday.

The date set for the opening of the new store is Thursday September 15th. Mrs. Morsch's announcement is good news for the ladies of Naramata.

It is probable that Mr. J. M. Robinson and family will leave early next week for Toronto where the latter intend to continue their various college courses.

Amongst the distinguished visitors in town this week were: Messrs. Alfred G. Gosden of Liverpool and J. Milton State of London England also W. E. S. Luston from Lockport N. Y.

Band practice is absorbing a good share of attention of the Naramata contingent of the Summerland organization in anticipation of their coming engagements at Kelowna and New Westminster.

Mr. Endacotts' new livery barn with spacious and comfortable offices facing the street, is now completed. Part of the office space has been let to the Dominion Express Co. with Mr. W. Allen in charge.

Monday. Labor day was quietly observed in town the only fixture to punctuate the date was a dance under the Athletic Club auspices held in the Opera House. The music was provided by Mr. Wells' gramophone.

Mr. W. S. Miller who has acted as accountant for so long for the Naramata Supply Co. has secured a third interest in the store the transaction dating from September 1st the beginning of the stores business year.

Mr. J. F. Faulkner and Mr. C. Phinney of Vancouver, and both old residents of Summerland were in town during the week.

A concert is being booked on behalf of the band, and the boys are very enthusiastic about its success. Monday Oct. 3rd. is set apart for the day, so every one be ready.

In the current issue of the Vernon News there is a splended one and half column article on "Prosperous Summerland" which is from the pen of the News travelling representative

Local News Items.

The shore road from Peach Orchard to Crescent Beach is now an accomplished fact. The grader made the final trip on Wednesday last and rigs can now travel the whole of the way.

Mr. T. Short left Summerland on Saturday last for Paris, where he has accepted a position with Mr. C. C. Aikins (Naramata) as cook. He expects to be back in Summerland early in the summer of next year.

Labour Day of 1910 is now a past event. It was not recognised generally throughout the district, but the stores and business premises were all closed. A few parties went out in the mountains after grouse, but they did not break any shooting record. The birds were few and far between, very far between, and the day's bag would not overload even one hunter.

The C.P.R. have now on service from the Landing an Iced Refrigerator Service of Cars, three days per week. For Calgary, Edmonton, and McLeod district goods should be on the wharf at Summerland Mondays and Fridays, and for the coast on Wednesdays only. Fruit leaving town any other day is shipped by the ordinary box cars.

During this week it was reported that a man who had come across the lake to purchase strawberries was missing. It proved not so serious as was at first anticipated, as he had decided that a long walk would be good for him, so he tramped round the foot of the lake via Penticton, and naturally dropped in for a friendly glass on the way, and arrived home after his 22 mile tramp just before his friends, who had been out looking for him on the chance that some mishap had occurred.

About thirty range cattle played havoc in a few orchards over Trout Creek at the beginning of the week. They had strayed down from the hills and the fences round the several orchards did not trouble them in the least as they jumped clean over in each case. In one orchard they pulled up by the roots about twenty five 2-year old apricot trees and demolished the young shoots of practically all the apple trees, in other orchards they also did terrific damage. The whole bunch were placed in the pound, but what ever they may be worth will in no wise indemnify the lot owners for their respective losses.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

COUNCIL MEETING.

A special council meeting was held on Tuesday last in the municipal building at West Summerland, to pass Water and Light Department accounts for payment.

Reeve Agur and Councillors Ritchie and Thomson were present. It was stated that at present the power supplied to the generating station was not so heavy as it might be, and it was decided to procure tapered pipes at the connections so that the water would meet with the least resistance possible, and thus develop the highest power.

Accounts to the amount of \$5016.91 were passed for the Light and Water Department, and for the sum of \$166.50 in connection with the Municipal Department.

In connection with the cattle roaming at large and getting into the orchards the Council were of mind that it would be better if the Trout Creek were fenced at a point immediately near to the lot of Mr. Kirks, and thus prevent the beasts from crossing there. In respect to other cattle a stricter watch would have to be made and heavier fines imposed as this laxity on the part of cattle owners is becoming serious, and every endeavour would be put forward to stop the depredations.

A good amount of discussion on the pipe system formed the most part of the meeting, and ways and means whereby the greater amount of utility would be effected with the capital at present being spent was fully entered into. There was nothing definitely decided, but the councillors made several good suggestions which will no doubt be acted upon. They are fully alive to the problem, and, as it requires very serious consideration, are feeling their way in a practical and thorough manner.

There was some talk about the lease of the Electric Light Plant but nothing of moment, and legal advice on the matter is being procured so that the least possible delay will be experienced before the matter is finally placed before the public.

In regard to autos, the Council were of mind that the greatest care should always be exercised by the drivers of these machines, especially round the corners, and to get the horses used to them the drivers should at all times be in readiness to switch off their power, and maybe walk around the auto, to get the horse a little

acquainted. There is no doubt that this is a necessity, and in all probability the drivers will mark the wishes of the Council in this matter. Also in going to and from the flat to keep to certain roads notified, and in every case to avoid the Gulch Road and Switchback, so that drivers may be sure to have these roads at least clear from the whirr of the autos.

This was all the business.

NELSON SHIELDS FOR LOCAL SCHOOLS.

We are authorised to state that Right Hon. Lord Strathcona's Nelson Shield has been offered by Rev. Alfred Hall of Toronto, to each of the schools in the British Columbia Inspectorate.

There are no charges or conditions.

The British and Foreign Sailors' Society, which received the "Victory" copper from the Lords of the British Admiralty, has undertaken the expense of mounting, engraving, and distributing these historic shields, and only asks some voluntary contribution to reimburse them, and aid their Sailors' Institutes for men of the Royal Navy, Merchant Ships, etc., in Canada and all over the world.

These Nelson Shields are highly valued for their patriotic and educational uses in the Universities, Colleges, and Schools where they are already placed.

Private Colleges and Schools are eligible to receive the Nelson Shield, and should apply for them.

In connection with the foregoing, the local School Board have accepted two of these shields which will be competed for each year, the shields to remain the property of the board. The holders name will in all probability be engraved on some separate tablet used for that particular purpose. Being made of the copper from Nelson's flagships Victory and Foudroyant they form very interesting and valuable historical souvenirs.

The Rev. A. Hall of 64 Wellesley Street, Toronto, Ontario, also has several small charms and medallions made from this copper, and anyone may become the possessor of one by making a small donation which same will be applied to the fund for the extension of the Institute for Seamen.

Miss G. Logie left for college at Toronto on Wednesday morning.

MARKET PORT.

Extracts from Commissioner J. C. Metcalfe's Weekly Bulletin.

Calgary, September 3rd.—F. G. Lyne & Co., jobbers here, had a shipment of pears and prunes from Chilliwack, B.C., came in by express, arrived in good condition. Prunes were very good but not packed, being a little short in weight to package. The express charges will prevent a good return in price for same to shippers as prunes are selling at present on this market. The following is a quotation received to-day by F. G. Lyne & Co., jobbers here, from H. J. Shinn, Spokane, Washington, f.o.b. point of shipment, which indicates lower prices being quoted: Apples, per box, 90 cents, Pears, per box, Flemish Beauty, \$1.00, Peaches (Crawford, Alberta, Muirs), per box 45 cents, Crabs, in pear box, \$1.00, Prunes, in four basket crate, 50 cents, Grapes, per case, 60 cents, Tomatoes, in peach box, 50 cents.

Macpherson Fruit Co. here reports to-day having bought ten carloads of peaches from White & Crum, Lewiston, f.o.b. point of shipment, at 33 cents per case, the freight rate is \$1.00 per cwt. These will cost, laid down in Calgary, 76 cents, made up as follows: Peaches, 33, freight, 20, duty, 20, icing, 03, Total, 76. He also reports buying two carloads of prunes from Clarke & Co., Spokane, at 40 cents per case f.o.b. point of shipment. The freight rate is \$1.00 per cwt. These will cost at Calgary 73 cents, made up as follows: Prunes, 40, freight, 20, duty, 10, icing, 03, Total, 73.

From the above it is evident there has been a slump in prices, particularly in peaches, and prices will be hammered down here both by jobbers and retailers in this market, if prices at American points do not recover very shortly.

Would advise shippers to push sales further East in Saskatchewan and Manitoba, avoid consigning. Pick green and pack tight, giving full weight in package. Ship promptly as required, keep track of all cars rolling, and divert if necessary in transit to avoid glutted markets at certain points. The next two weeks will be the crucial period for shippers of peaches.

The Summerland Review

COMMISSION OF CONSERVATION.

Forest Fires—A National Menace.

During the past summer forest fires have been devouring the growth of centuries with ruthless rapacity. Northern Ontario, Manitoba, and British Columbia have suffered most. Fine tracts of mercantable timber worth millions of dollars have been destroyed, square mile upon square mile of young growth coming on to supply the demands of the future has been wiped out of existence. In Northern Ontario, where but a thin layer of vegetable mould covers the rocks, the soft, oozy forest floor, the only hope of vegetation and equable stream flow has been completely destroyed, leaving a cheerless rocky waste for generations to come. Even if no thought be given to the number of lives lost, it must be admitted that the loss occasioned this year by forest fires has been nothing short of appalling.

Can nothing be done, then, to prevent this loss? The answer is that much can be done. The solution of the problem is indicated in two words—public sentiment. The two principal causes of forest fires are campers and railways, and public opinion must be brought to bear upon these. The tourist-camper does not at all realize the extent of the damage which his unextinguished camp fire may do. Laws against leaving camp fires burning are already on the statute books, but it is quite evident that their observance rests mainly with the tourist himself. He must be impressed with the very serious nature of his offence. If a man sets fire to a building, he is convicted of arson and sent to prison as a felon, but if his unextinguished camp fire burns down millions of dollars worth of timber, and perhaps destroys human life as well, he is, at best, made to pay a small fine. When public opinion views this carelessness of the camper as a criminal act, and frowns upon him accordingly, considerable progress will have been made in lessening the number of forest fires from this cause.

But it is the railways that spread the most destruction. Traversing, as they do, the great lone stretches of uninhabited timber areas, the sparks from their locomotives start numerous fires that gain great headway before being detected. Too often the right-of-way, piled thick with inflammable rubbish, furnishes a tinder-box for these conflagrations. The owner of destroyed property along the line has found it almost impossible under the pre-

sent laws to get damages from the railway company, so difficult is it to fix the responsibility, and so expensive is the process of litigation. In order to lessen the number of fires due to this cause, the Committee on Forests of the Commission of Conservation has proposed to make the railways pecuniarily responsible. It has recommended that there be added to the Railway Act a clause making them liable to a fine of \$1,000, recoverable by summary prosecution before a stipendiary magistrate or two justices of the peace, for every fire started by sparks from their locomotives. It makes no difference whether the fire begins outside the right-of-way or spreads therefrom to adjoining land. The railways are exempt from this fine if they can show that they have the best modern appliances on their locomotives to prevent the emission of sparks, that their employees have not shown negligence in conducting to the starting of the fire, and that they have maintained an efficient and properly equipped staff of fire-rangers. In other words, the Committee proposes to lessen the number of fires caused by sparks from locomotives by having the railways fined for the damage they do, unless they take every possible precaution to prevent such damage. This is obviously a fair recommendation as regards both the railways and the public, and the effort to have it made law is worthy of public support. Every Canadian is deeply interested in the protection of our forests; for each forest fire means that he and his children will have to pay higher prices for every foot of lumber they use. Such a measure, for the preservation of our forests, as that recommended by the Committee on Forests of the Commission of Conservation should therefore, commend itself to every public-spirited citizen and newspaper in Canada.

About as good a way to study human nature is when you are driving on the public road. If a man is willing to observe the laws and the courtesies of the road, he will duly give his share of it when meeting another, and shows he is willing to do the gentlemanly thing about it. But when you meet one who takes every advantage of those he meets, and holds the road for his own selfish self, often to the great discomfort of those he meets, or will not allow them to pass, we are almost sure to think of pork in connection with such drivers of teams.

KELOWNA AND IRRIGATION.

During the last week unanimous support was given to the following resolutions by fruit growers in and around the district of Kelowna :

"Whereas the existing conditions in connection with the control and distribution of the water for irrigation purposes are far from satisfactory in certain districts in British Columbia, resulting in excessive waste, inadequate supply, and inequitable distribution, often leading to costly litigation :

"And whereas large tracts of land remain undeveloped in consequence of the lack of systematic conservation :

"Be it resolved that we, the land holders of the Okanagan district respectfully request that the Government of British Columbia take immediate action with a view to solving the problem by introducing a system of Government control, conservation and operation of the water supply for irrigation purposes, by construction of reservoirs and distributing systems in this district."

Next to the wife beater comes the horse beater, and it is to be regretted we have one or two in this community. A horse is the most noble and faithful of animals and the man who would abuse his horse has something lacking in his manhood.

Local News Items.

Mr. J. Campbell left for a trip to Alberta this week.

The Empire Hall, now in its new home, will be open for engagements after October 1st.

Messrs. Robinson & Watson have dissolved partnership, the business now being carried on by Mr. W. J. Robinson.

Is Summerland a fruit district? Well, I should say! Last Monday two and a half car loads of fruit left town. Let it sink in, good and hard, over two and a half car loads—in all 2,400 cases.

Mrs. A. T. Robinson will address the Baptist Sunday School in Elliotts Hall at the regular session next Sunday morning at 11—30 o'clock in connection with the quarterly temperance lesson. All members of the School and others interested are cordially invited to be present.

Fall is just coming on, and sunblinds will not be such a necessity. This will be a relief to many townspeople as many of the blinds are far too low. It would not be a bad idea to enforce a law stating that all supports to window awnings over the sidewalk, shall be at least 6 feet 9 inches from such sidewalk.

Of course if you are contemplating going to college this fall you are thinking and planning for it now, and that is right. It is none too soon to begin to make arrangements and to cast about for a desirable place. We gladly refer you to our college. No town in the state has a higher moral tone and fewer objectionable features. Our college offers unusual facilities for a proper culture of the mind at a very moderate expense, and you are very cordially invited to investigate before deciding to go elsewhere.

PASSES AWAY.

John Scanlan, better known as "Walt Mason," was found dead in his studio in the business section of Philadelphia, last Sunday. He had evidently been dead for several days. Two bottles of laudanum, one filled and the other partly empty, were found in the room. It is not known whether he committed suicide or died of natural causes.

Scanlan's poems, short stories, and epigrams have been published in many magazines and newspapers throughout the country. He was also a painter, but was not so well known as such, and when the police reported the death of John Scanlan, a "cartoonist," it was not at first realised that the dead man was Walt Mason. He was 48 years old.

UNRIVALLED IN ITS BEAUTY, its location, and the excellence of its soil, is our new fruit land proposition on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in the way of orchard land. One of the great outstanding features is that all irrigation and domestic water supply will come through a pressure pipe system.

DOES SUCH A PROPOSITION APPEAL TO YOU?
 If it does write us and we will only be too glad to give you all the desired information

JAMES RITCHIE - PARKDALE - SUMMERLAND

The Summerland Review

Provincial and General

The new institution at Kamloops in connection with the British Columbia Anti-Tuberculosis Society will be opened on Wednesday, September 14.

For the first time in hundreds of years the investiture of the Prince of Wales will take place in Wales. After a keen competition between Cardiff and Carnarvon for the honor, the King has decided in favor of Carnarvon. The ceremony will occur in July.

It has been suggested in connection with the National Apple Show at Vancouver that the entire exhibit of British Columbia growers immediately the Show is over be taken to England and that the Provincial Government be requested to pay all expenses incident thereto.

A large English fruit importing firm which makes a specialty of Canadian apples has adopted a novel method of advertising. It is having moving pictures taken of the fruit for exhibition purposes. The Okanagan valley could furnish many attractive views for this purpose.—Province.

The equipment of the Queen's Own Rifles is attacked by one London critic, who says it has never been seen there before, and hopes it never will be again. In their march with the Buffs it was admitted that the Toronto men had an excellent swing. The pace of the regiment is, in fact, much admired. The Irish Guards, inspected by General Maxse, carried out a fine ceremonial parade before Colonel Pellatt and the Queen's Own Rifles on Queen's Parade, Aldershot.

Things have been moving rapidly in municipal matters during the past two weeks in Vernon. In connection with the hotel closing by-law, a large deputation waited on the council and presented a petition to have the by-law remain intact. Ald. Howard was accused of accepting a contract from the city, and the charge admitted, and as a result has been compelled to resign his seat on the aldermanic board. One hundred and twenty applications were received for the position of city clerk. The old plumbing by-law has been torn to ribbons so as to do away with what some of the aldermen called the plumbing monopoly which has hitherto been in existence.

SATURDAY, SEPTEMBER 17, 1910.

THE FISHERIES DISPUTE SETTLED.

The vexed question of the Newfoundland Fisheries has at length been settled, and settled for all time, by the Hague tribunal. It was a spectre which has arisen periodically for the last hundred years or so. And all because the treaty of 1818, between England and the United States, was not sufficiently explicit. Half the litigation of the world is similarly caused.

In this case there were seven points in dispute. The treaty states that foreigners shall not fish within three miles of the British shore, but it did not state from what points this was to be measured. In case a bay were five miles deep that would leave two good miles, or no miles at all, according as the line was drawn from headland to headland across the mouth of the bay, or from the innermost point straight out.

This was the most important point in the controversy, inasmuch as the bait for the fishing on the banks is found in the bays, and inasmuch as, if the latter interpretation stood, the great Hudson's Bay would belong to the world and not to Canada. The Hague decision therefore gives us all of our own bays and most of the fish.

The cod fish are caught with herring as bait. The herring are found almost wholly within the three mile limit. When Newfoundland, in the interests of its own fishing industry, passed a law forbidding the exportation of bait, the French on this account quit the game. But the United States made a great fuss over it, and offered various inducements for a removal of the restriction, among them the free entry of Newfoundland fish to American markets. The colonial government re-

mained obdurate however, and then something had to be done about it by the powers higher up, since the Yankees claimed they had rights under the treaty of 1818 that must be recognised.

The decision of the Hague tribunal has a direct bearing on our British Columbia salmon and halibut fisheries. The Yankees will now have to keep their distance, and will not have that unlimited opportunity for the slaughtering of fish in the straits, which has of late been threatening the extinction of that valuable source of revenue in the province.

Incidentally also the world has been furnished another argument for disarmament. If this burning question can be settled amicably by arbitration so can other boundary and trade disputes. The brutality of war is a disgrace to our boasted civilization, and irrefragible evidence of the fact that we are at best only enamelled savages.

“As fine a carload of peaches as ever left the Okanagan was shipped on Tuesday by the C.P.R. for exhibition in the store windows of T. Eaton & Co. at Winnipeg. It was made up entirely of a splendid lot of Elbertas collected by B. T. Boies at various lake points, and a C.P.R. official accompanied it to see that it is rushed through and reaches its destination in good shape. This will prove one of the biggest advertisements that the Okanagan has yet received, and is a movement that can not be too highly praised.”

The forgoing appeared in the Vernon News of September 15th.

A car load of peaches for T. Eaton & Co. of Winnipeg left Summerland last Monday, shipped by the Okanagan Fruit Union, all the fruit having been grown in Summerland. If T. Eaton & Co. had two cars of peaches on order then we have been misinformed. Certain it is we can vouch for one, but it is evident from the News report that there were two car loads shipped.

During the week several complaints re the water supply on Jones' Flat have been made at this office, and requesting us to go into the matter. Our representative was at the last meeting of the Council and knows that the members are fully aware of the seriousness of this trouble, and are doing all in their power to alleviate it. Orders have been given for a special man to see to it that water is in the flume as far as Mr. Adamson's lot until such times as the pipe line is completed, and this section will be coupled up with the least possible delay.

SIDETRACK IS SIDETRACKED.

An al fresco public meeting was held on Thursday afternoon to consider the sidetrack which has been planned to cross the road opposite the end of the wharf, and run alongside the same road south, parallel to the packing shed.

Mr. Kirkpatrick, superintendent of mountain section of C.P.R., at the meeting explained the plans and proposals of the company in regard to this matter. The C.P.R. he emphasised had no idea of restricting the traffic on the road—the proposed facilities were for the benefit of the residents of the district, and the best practical method for the present use. Many of the men at the meeting were emphatic in their remarks, and stated that they strongly objected to the proposed arrangements, and some other practical method could be found. They adjourned to the place under discussion and walked over the proposition. Suggested schemes were talked over but the expense incurred in the ideas were far too expensive, and hence could not be considered.

By placing the tracks without a by-law the C.P.R. would be under the jurisdiction of the Council, but if the by-law was passed the C.P.R. would have complete control and right-of-way. In the face of this, still the objectors were for enforcing the by-law and bringing it before the people.

The final decision was to dispense with the track altogether, and hence the sidetrack has, for the present, been sidetracked.

Capt. Fison, water commissioner has been ordered by his doctor to take a rest, and at present he is at the Harrison hot springs. We hope to see him back again at his duties after a little while feeling well and hearty once more to take control of the important extensions which the municipality have on hand at the present time. During his absence Mr. Fred Nixon will have control.

A party of Three who went out hunting on the first for the ever elusive deer arrived home last Monday with a couple of Bucks. These are the first reported from this district and were shot a good few miles back from the lake in very rough country, necessitating a very hard pack with the spoils of sport.

TAYLOR & CO.

News from Peachland

Mr. Ferd. Aitkens returned Monday morning from a trip to Penticton.

Mrs. Wm. Logan returned last week from a visit among her married sons and daughters in the East.

Mrs. Alex. Miller was a passenger to Summerland Monday evening, where she and Miss Miller are staying for a time.

Messrs. Charles Somerville and Bysan Whyte, who are on a survey party at Bear Creek, spent Sunday at their respective homes here.

Rev. and Mrs. T. N. Ritchie and family spent Sunday in town, guests of Mrs. Bulyea. Mr. Ritchie preached at the Baptist service Sunday evening.

Rev. C. W. Whyte and Mr. Paul Imray attended the convention of trustees in Kelowna this week. They are both loud in their praises of the work of the convention.

Mr. J. H. Browning of North Bay, Ont., is spending a few days here inspecting his fruit lot and looking the place over generally. He is much pleased both with his own property and the locality, and predicts a bright future for the place in the fruit industry.

Rev. C. W. Whyte surprised the members of his congregation Sunday evening by resigning from the pastorate of the Presbyterian church here. The resignation to take effect October 1st. Much regret is expressed that he has thought it advisable to take this step. We are pleased to hear that he is not leaving the place.

Our Mr. Willie Dawson attended Revelstoke Fair last week with a bunch of his poultry and gathered in nearly all the prizes he tried for. The following is a list of the ones he secured: twenty-one firsts, twelve seconds, five thirds, and three specials, including two cups and a special in money for the best and largest exhibit. Forty-one prizes in all—that is going some.

The Reading Room is to be managed by an interdenominational committee this year. This committee held its first meeting Monday evening and selected the magazines for the year. Of these a goodly number of high-class kind was selected. On Tuesday evening, at a social given by the young people of the Presbyterian church, these magazines were auctioned off and brought a very good price. The rest of the evening was spent in contests of different kinds interspersed with vocal and instrumental selections.

IN THE UNITED STATES.

He gazed out through the prison bars, while strangers handed him cigars, and big bouquets, and things like those, and said he: "Thus oppression grows! The humble toiler's in the soup, and no one seems to care a whoop. The heartless tyrant sits in state, and puts the poor man in a crate. I held a city job for years, and earned enough to buy my beers, and shoes and such things for my wife; I thought I had that job for life, but then a tyrant mayor came in, and I saw grief and woe begin. He bounced me, comrades, from my place! He said he didn't like my face! Because I didn't earn my pay he shooed me from my job away! He had the nerve to lay it down that people working for the town would have to earn the bones they drew; I balked at that, and so would you. He wasted and destroyed my life; he robbed my children and my wife; he stole my biscuits and my jam; I shot him then, and here I am! My doleful plight should give you pause; I am the martyr for your cause. Shall tyrants crush, with iron boot the face of every poor galoot? Shall tyrants say that men must earn the boodle that they like to burn? Ah, they may rob us of our rights, and put us in distressing plights, and from our children take the bun—but we can always buy a gun!"

WALT MASON.

:: Naramata Notes ::

Capt. and Mrs. Languedoc spent a few days at Vernon this week.

Miss Ella Smith a sister of Mr. T. J. Smith whose family have been summering at Naramata, has gone back to Vancouver.

Mr. Gordon Campbell of Toronto who has visited the Okanagan for the first time has bought an improved ten acres on the north bench, the Nicholes property.

Mrs. Gordon Bain who has been visiting her mother, Mrs. Hayward during the Summer left on Tuesday for Vancouver en route to her home in Prince Rupert.

Mr. Lyons, who has the contract for painting Mr. Hancock's bungalow has his work about completed and with the finishing touches added the house presents a very handsome appearance indeed.

Wednesday morning witnessed quite an exodus from Naramata: Mr. and Mrs. J. M. Robinson and their entire family, with the exception of Miss Gwen, who at present is in Europe, started for Toronto where the latter will continue their various college courses.

Mr. Huston of Lockport N. Y. who has been recruiting for some time here has decided to take up permanent residence in the near future here. He has purchased not only a choice ten acre fruit lot but a block of five town lots close to Mr. Wells.

The opening of the new store by Mrs. Morsch on Wednesday afternoon and evening was an event that brought the ladies out in large numbers. It does not always happen that customers are treated quite as well as upon this occasion, in fact 'twould scarcely pay. The visitors were treated to a dainty luncheon and served with the choicest brand of tea from the Supply Co's grocery. An able band of assistants helped Mrs. Morsch to entertain her guests and prospective patrons. Tea was poured by Mesdames Wells and Wellband, assisted in the afternoon by Miss Mitchell, Miss Vera Palmer, and Miss Adelaide Hayward, and in the evening the Misses Williams, Wells, and F. Mitchell. Altogether the event was a pleasant one and augers well for the success of the venture.

M. J. Henry, the nursery man, has sold his Vancouver business for \$80,000, and will settle down in Chilliwack.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

SUMMERLAND, B.C., SEPTEMBER 24, 1910

Whole No. 112

CANADIAN PEACHES FOR LONDON MARKET.

The Tortona, of the Donaldson Line, which sailed for Glasgow to-day, will take six hundred cases of peaches which will be forwarded from Scotland to the London market. This is said to be the first cargo of Canadian-grown peaches that has been sent to England for commercial purposes. Previously, quantities have been shipped for exhibition purposes. They have laid a foundation of fame upon which the fruit-growers say they will be able to build an extensive and profitable trade in the English markets.

The consignment has been shipped from the Hamilton-Grimsby district.—Montreal Daily Star.

COLLEGE NOTES.

The ladies' building will not be opened until Monday when the heating system will be in proper running order. The building is expected to be comfortably filled; all together there will be between sixty and seventy students in residence on the hill.

On Tuesday nights' boat the first relay of college students arrived in time for the opening of the college on Wednesday morning. The college building this year will be taxed to its utmost, as every room up to date has been engaged, and if needs be, the top flat will be finished off so as to accommodate ten or fifteen more students.

Four new men of the college staff arrived this week. Mr. Moore, head of the musical department, came in with his family on Mondays' boat; he has moved into his new house on his fruit lot. Mr. Baker of the English department and Mr. McAdams head of the Science department arrived on Tuesday's boat. Mr. McLeod, gymnasium instructor, and family, of Nanaimo, came in on Wednesday.

READ THIS.

An exchange very truly says: The newspaper is a law for the indolent, a sermon for the thoughtless, a library for the poor, and an admonisher for the lawless. It may stimulate the most indifferent but cannot be published without cost and sent free to subscribers. This is no joke.

AMUSEMENTS.

The Pringle company of players will fill an engagement of three nights at the Empire Hall, in Summerland, starting September 29th. The press throughout Eastern and Western Canada have been very generous in their praise of this excellent company. Everywhere they have appeared they have met with good success. Their repertoire is new and bright, and the specialties sparkle with fun and amusement. Their opening play will be the four-act comedy-drama, "My Sweetheart." Not only has Mr. Pringle made it a point to give his patrons a clean up-to-date line of comedies and dramas, but he has been particular in his selection of players capable of pleasing the public. Among the players now with this organization will be found Mr. Gerald Clute, Porter Warfield, Alfred Mackay, Johnnie Pringle, Miss Florence Pringle, Miss Carman Brown, and Miss Helen Schuyler. During the present engagement the repertoire will be chosen from the following excellent list: "My Sweetheart," "Jerry and Me," "Two Married Men," "The Western Girl," "Wanted a Wife," and "A Second Honey-moon." A singing, dancing, and dramatic treat is in store.

"BILL INSIDE."

Mr. Bill Smith runs a small hardware store in a back township. A few days ago he came into town to add to his stock of goods. The same were shipped immediately and reached his store before he did, as Bill remained in the city to visit an old friend. Among the lot of cases and packages was a box shaped something like a coffin. When Bill's wife saw this one she uttered a scream and called for a hammer. The drayman, hearing her shrill cries, rushed to see what the trouble was. The wife, pale and faint, pointed to the following inscription on the box: "Bill inside." —Boundary Creek Times.

The deal whereby the electric light plant owned by the Municipality was to have been leased by Messrs. Thornber and Taylor cannot go through. Legal difficulties have been found to be unsurmountable, and the negotiations thus come to an unsuccessful conclusion.

MARKET REPORT.

Extracts from Commissioner J. C. Metcalfe's Weekly Bulletin.

Calgary, September 6.—In conversation with the selling agent for White & Crum, of Lewiston, Idaho, he stated they would handle six hundred car loads of fruit this season. Would market two hundred car loads of that amount in these provinces. He further stated they were about sold out of the smaller large fruits, namely: plums, prunes, peaches, and pears. Had only about five car loads of peaches to offer for sale now. White & Crum control to a great extent the output of Milton & Free-water, Oregon, and also the Alpawai's Orchard Co.'s output of Wawawai, Washington. Prunes are being quoted from North Yakima 40 cents per case in peach boxes, these are not packed, and are short in weight 2 lbs. or more in comparison with the four basket plum crate. The packages cost less, no paper being used, and no cost as to packing, and generally a poorer grade and quality of prunes from what I have seen, than the fruit put up in plum crates with baskets and paper.

Jobbers at this and other points have spoken to me of the wrapping of apples, would prefer to have early and fall varieties that are well colored not wrapped. This would only apply to early and fall varieties, and where the distance was not too great to be shipped. The reason assigned was that they showed up to better advantage, being much more attractive in appearance, and for that reason sold more readily, but with green varieties and winter apples would be better of being wrapped for keeping.

Medicine Hat, September 7.—To date three car loads of fruit, mainly prunes, have arrived at this point, one car H. W. Ireland & Co., American fruit, one car M'Pherson & Co., American fruit, one car F. G. Lynd & Co., British Columbia fruit. In all containing 2,400 cases of prunes, in addition to all that comes in by express and local freight. Prices are being cut very close, jobbers selling retailers at the following prices: American Prunes in peach boxes, 85 cents, American Prunes in four basket crate, \$1.00, British Columbia

Prunes in four basket crate, \$1.00, British Columbia Peaches, per case, \$1.00, American Peaches, per case, \$1.00, British Columbia Apples, per box, \$1.85, American Apples, per box, \$1.85, British Columbia Crabs in pear boxes, \$2.00, British Columbia Pears, \$2.50 to \$2.75.

Calgary, September 8.—Three cars of mixed fruits from British Columbia arrived at Calgary for jobbers yesterday, one car for Plunkett & Savage, one car for F. G. Lyne & Co., and one for the Vernon Fruit Co., all from the lower mainland. Reported in fair condition, average time in transit four days. The markets here are pretty well loaded at present, prunes and plums selling at 85 cents to \$1.25 per case, according to quality. Large consignments of American fruit are being consigned to this market, prices on the better quality are being fairly well maintained to date, the poorer quality selling at the lower prices. Peaches are selling to retailers at \$1.00 per case. Jobbers still report quotations on peaches at 33 cents from North Yakima and Wenatchie.

Moosejaw, September 9.—Jobbers here report quotations from Wenatchie and North Yakima on peaches 33 cents, and prunes in peach boxes at 40 cents per case. Consignments of American fruits are coming into this point, and one car of Ontario fruit arrived here yesterday on consignment. Express agent and dealers here report blackberries arriving in good condition and in fair quantities, demand good. Dealers report British Columbia fruit of all kinds arrive in excellent condition, and the pack, grade and quality very satisfactory to date. Prices are being hammered down at this point both by jobbers and retailers as the following quotations by jobbers to retailers would indicate: Ontario Plums, 11 quart baskets, 85 cents, Ontario Pears, quart baskets, 75 cents, Ontario Tomatoes, 11 quart baskets, 75 cents, Ontario Apples, per bbl. No. 1, \$6.00, Ontario Apples, per bbl. No. 2, \$5.50, British Columbia Apples, Duchess, per box, \$2.00, Washington Apples, Gravenstein, per box, \$2.25, British Columbia Pears, per box, \$3.00, British Columbia Pears, per half box, \$1.60, British Columbia Peaches, Champion, per box, \$1.00, British Columbia Peaches, white, free, \$1.00, Washington Peaches, Albertas, \$1.15, Washington Prunes, in peach box, \$1.00, British Columbia Prunes, per box, \$1.00, British Columbia Plums, per box, 85 cents.

Freight Agent reports nine car loads of
(Market Report Continued on Page 4).

FAREWELL GATHERING.

REV. A. T. AND MRS. ROBINSON GUESTS
OF W. C. T. U.

On Tuesday evening a large and representative gathering met in the Mens' Club to bid farewell and Godspeed to Rev. and Mrs. A. T. Robinson. The representative character of the meeting, held as it was under the auspices of the Baptist and Methodist denominations and the ladies of the W. C. T. U. showed the general esteem in which Mr. and Mrs. Robinson are held and the universal recognition of the deep loss the community suffers in their removal. Mr. J. C. Robson occupied the Chair and, in his opening remarks, made appropriate reference to the occasion of the meeting. There after he called on Mr. H. C. Mellor, who, on behalf of the Presbyterian Church—in the unavoidable absence of Mr. Hood—expressed the deep indebtedness the Church was under to Mr. and Mrs. Robinson for the kindly interest they had always shown in the affairs of the Church and for the frequent and valued services of Mr. Robinson in the pulpit supply. He expressed the keenest regret in their unavoidable removal from the community, but looked forward to having them with us again on some future occasion.

Speaking for the Methodist Denomination, Rev. Mr. Hardy referred to the splendid work and magnificent results achieved by the W. C. T. U., in the history of which Mrs. Robinson had played so important a part. The loss experienced by the departure of Mr. and Mrs. Robinson was not only a loss to this community but to the entire province. Referring to the recent Local Option legislation, he traced the strong influence of the W. C. T. U. in achieving this boon for the Province. He had thought for some time that the rapid growth of the community demanded some central organization in the unity of which the interests of the people would be protected and had hoped that the wise and able leadership of Mrs. Robinson the W. C. T. U. could have met this necessity. He referred to the genial and kindly relationship with Mr. Robinson, and to the able assistance he had from time to time rendered the Church on whose behalf he expressed the keenest regret at their departure and bade them farewell and Godspeed.

Mrs. Watson, President of the W. C. T. U. who was next called upon, bore eloquent testimony to the magnificent work of Mrs. A. T. Robinson in the W. C. T. U. with which she had been so long and so closely connected. Referring to the national character of Mrs. A. T. Robinson's work, she related how, in the course of last winter, she had received letters from friends at various points in the northwest, where Mrs. Robinson had touched, testifying to the splendid work Mrs. Robinson had carried on in these provinces. In the departure of Mr. and Mrs. Robinson, she said, not only the community, but the whole of western

Canada sustained a heavy loss, and she hoped their many friends would have the pleasure of seeing them again in Summerland ere long.

In reply to the various addresses, Mrs. Robinson expressed her gratitude for the kind appreciation shown by the many friends present. The intimation that a farewell meeting was to be held had come as a surprise to her and Mr. Robinson and they appreciated the kindly spirit that had prompted the social evening. It has been a great disappointment to them to find that, through circumstances over which they had no control, they had been compelled to abandon the idea of making Summerland their home—Summerland with its ideal moral conditions and where they had made so many friends. As an evidence of the love and deep interest they had in Summerland, however, she had decided to retain her membership in the Methodist Church and Mr. Robinson had also decided to remain attached to the Baptist Church here. Touching on the importance of the W. C. T. U. work, Mrs. Robinson traced some of the most important reforms in recent years in the United States and Canada to the direct influence of the W. C. T. U. She congratulated the local branch on having such bright and earnest officers and the community in general on its pure moral record and ideal conditions.

Dr. Sawyer was then called upon, and, in a few well chosen words, expressed the indebtedness of the college and the Baptist Church for the splendid services rendered by Mr. Robinson during his stay in Summerland. As a member of the college board, with the history of which he had been closely connected, his wise and able counsel had been of the greatest assistance. He had cheerfully at all times devoted himself to the interests of the Church and during the past summer months had willingly met their need in the matter of pulpit supply. Mr. Hardy had claimed Mrs. Robinson as attached to the Methodist Church but he felt there was that catholicity of spirit about Mrs. Robinson that forbade her being tied down to any particular denomination. She was interested in any organization or influence that tended to advance the Kingdom, and he felt that the Baptists had also a certain claim on her sympathies. He did not feel that this was altogether an occasion for sorrow. Life was made up of experiences such as this and they had the assurance that both Mr. and Mrs. Robinson would be back from time to time to visit them. On behalf of the College and Baptist Church he wished them every blessing and God speed.

In reply Mr. Robinson thanked the many friends for their kind appreciation and for the kindly interest that had always been manifested in their work. It was a matter of great disappointment to them to find they were unable to make Summerland their home and head quarters, but they had no choice in the matter. Speaking on the work of the Industrial Guild of the Great Commission, he referred to the important principles on which this organization is based and outlined his programme for the next months. In concluding he congratulated Summerland on its wealth of talent as had been evidenced by the programme of the evening.

Tea was served by the ladies and the meeting brought to a close. During the course of the evening songs were rendered by Misses Brown and Bartholomew and Mr. Crawshaw and instrumental items by the Messrs. Pollock.

AN URGENT NEED.

A peculiar case at present exists in Summerland. A chronic consumptive came in a little over six months ago from the coast, having been ordered to the Okanagan district as a last resort. On his way here he heard of a family in town who were natives of the same town which he originally came from, and upon arrival in Summerland, he immediately looked them up. After his introducing himself, they took him in, thinking he would be better in a little while. Six months have sped along and he is now a chronic invalid, requiring constant attention and careful nursing.

The municipality have turned down the application for assistance, and the hospital at Vernon cannot accept him as a patient. No help is forthcoming of any description, and the result is he is still living on the charity of those who first took him in.

For a chance acquaintance they have done nobly, and it is just about time that some move on behalf of the invalid was made. Is it not within the province of the municipality, or is it a matter for the church. It lies between the two, and should be attended to without the least delay.

"MY SWEETHEART."

In presenting the comedy drama "My Sweetheart" at the Empire Hall on September 29th the Pringle Players do so knowing it to be one of their most pleasing plays. It is a home play that will please all. Each member of the cast being particularly suited to the part assumed. In no scene is the interest allowed to drag. A strong vein of comedy runs throughout, and this, combined with counter plot filled with pathos, keeps the audience interested from start to finish. Miss Florence Pringle as Rose, the country girl, has a part that fits her style of acting to perfection—her change from a rough child of nature to a society lady is an artistic piece of work in which she completely forgets her own personality, and actually lives the character of the mountain girl and the lady. Her support is good, and the stage setting are all that could be wished for. Particular attention will be paid to the costuming of the play. Those who fail to see "My Sweetheart" will miss a treat.

Last week on the wharf, the sum of \$800.00 was received for fruit, it would be interesting to know the total value of the whole shipment.

(Market Report Continued from Page 2).

B. C. fruit arrived this point to date, and all in good condition. Dealers here report the arrival of Early Triumph peaches from B. C. in excellent condition, and of much better quality than anticipated, and are highly pleased with the product, and state they will handle in future. Dealers further report much larger quantities sold than ever before this season. Demand and consumption are greatly increased. A very fine car load of Bartlett pears arrived here yesterday from Kelowna for the Rex Fruit Company. Dealers report them excellent in every respect.

To summarize: Peaches from American points this date must be practically over, and if growers and shippers in B. C. can avoid making consignments for a time and push sales in the meantime, even at slightly reduced prices for peaches, with mixed carloads of other fruits, using this as an inducement to jobbers to buy until markets are relieved of the American product which prevail at present pretty generally at all the distributing points, I think it would be better. Jobbers here state they do not anticipate very low prices on prunes, and to meet the American competition in prunes I think it advisable, at present, to ship prunes in peach boxes, and save cost on package, paper, and packing, and less weight of fruit in package, but would not advise this for the Lower Mainland shipper of prunes and plums, as they do not hold up so well in this package as in the four-basket crate, as it is necessary for fruit to arrive in good condition if the highest market prices are to be obtained. Pears and crabs are firm. I do not think our growers and shippers have any cause to worry about apples as the jobbers feel disposed to handle our product, having knowledge of our pack, grade and quality of apples now, but prices will be regulated by the American product offered, and our growers and shippers must be prepared to meet their prices for the same grade and quality of fruit.

A special meeting of the Council was held in the Municipal Building at West Summerland on Thursday evening at 6 o'clock. Counc. J. Thomson took the chair in the absence of the Reeve. It was resolved that C. J. Thomson be appointed a member of the Board of Control until the end of the present year. It was resolved that the council do approve of the action taken by Counc. Ritchie in regard to changes made by him in connection with the municipal work now being carried out, and that he is hereby appointed in full control and management of said work from now on to the end of the year, under the Board of Control. This was all the business.

SCHOOL TRUSTEES CONVENTION.

The convention of school trustees held last week at Kelowna has given good evidence that it is a real live body of men. This comes somewhat as a surprise since, outside the city school boards at any rate, school trustees are the most retiring men of all who serve the public. In some sections it takes a smart teacher to find out who they are, the secretary-treasurer acting as the head and front and Grand High Kakiak of the order on all ordinary occasions.

As for extraordinary occasions in the life of the rural trustee they are none—or have been none till lately. Now, however, he has found his opportunity, has come up out of the woods to meet his city brother, and is proceeding to make himself felt in the land. As he has a good ballot in his sleeve and more or less influence over other ballots at the primaries, as evidenced presumptively by his badge of office, politicians have a more than ordinarily glad hand for him on his coming into the lime light, and a member of the government is detailed to attend his convention.

All of which is good politics, and perhaps good business as well. If we may judge by the grist of matters handled at Kelowna last week the government has made no mistake in being on hand. There are some real live wires in the association of trustees. Unlike the association of teachers they don't hold their positions on the basis of so much per month and a month's notice. They can kick back and do it real hard, and in a place where it will be felt. They don't care a hoot for anybody when at their deliberations, and intend to get at

least a respectful hearing when they announce their findings.

And so they will. They are a pretty level headed lot of men. They are out for business, and are bound to secure some much needed reforms in our more or less antiquated educational processes, and if we had a pull in the Teachers' Association we would exercise it in the direction of endeavouring to secure a look in on their doings. A limited delegation of well-informed and well-ballasted top-notchers of the teaching body might be able to afford some useful educational suggestions to such an earnest, bright and public-spirited body as the Trustees' Convention is proving itself to be.

Incidentally we were glad to have them with us socially for an hour or two on the conclusion of their labors last week. Their little trip is, of course, just another evidence of the want-to-know-all-about-it quality that is in them, a quality that is bound to produce good fruit in more than one respect later on.

CORRESPONDENCE.

The Editor, Summerland Review.

Dear Sir,

When first the prize list of the forthcoming show on Oct. 19th was published in your paper considerable enthusiasm was apparent in a growing form on this side of the lake and there was every prospect of Naramata showing the stage of development she has arrived at by her exhibition of flowers and vegetables even if her age did preclude her from showing fruit.

Now, Sir, the folders are to hand and we find that unless a member of the Agricultural Society one must pay 10 per cent of the prize money as entrance fee. (In the few classes where the writer imagined he would figure, this would mean \$7.00 in fees.)

This and the fact that one has to bring all over the day before—and spend the day of course—and then again next day to see the show; will have the result of comparatively little or nothing coming across and then probably a complaint of lack of enthusiasm.

If the idea is to compel a man to become a member before he can show why not say so? I enclose my card and beg to remain,

Yours faithfully,

“Naramatan.”

The band concert is going to prove one of the most interesting events of the season. A splendid program has been arranged and everything points to a successful event.

Local News Items.

The services in the Baptist church West Summerland will change next Sunday; Sunday School at two o'clock and preaching service at three o'clock.

Janet Sutherland we are pleased to say is progressing very favourably after her recent operation, and it is expected she will be convalescent by Monday next.

The new Baptist pastor Rev. Mr. Pattison is expected to arrive on the 29th and to take the services Oct. 2. The congregation expect to hold a welcome sociable for him on Friday evening Oct. 7th.

Car load of peaches consigned to T. Eaton & Co. delivered and sold in 90 minutes. Firm wire for duplicate order at same price. Sold at 57 cents f.o.b. Summerland. Washington peaches being quoted at 27 f.o.b. in State of Washington.

Rev. and Mrs. I. C. Archibald who have spent many years as missionarries in India will conduct the Baptist services on Sunday. In the morning at the front and in the after noon, one will address the West Summerland Sunday School and the other the preaching service. They will also address a public meeting there in the evening at 7.30 o'clock. All welcome.

We note with interest the two advertisements of Okanagan peaches, one in the Vancouver Province the other in the Winnipeg Free Press. At Vancouver the peaches were advertised at 75 cents per box, while at Winnipeg the same peaches were selling for 95 cents a box or a difference of 20 per cent. An old motto runs to this effect, “that a prophet is without honor in his own country,” and judging at the difference in price of Okanagan peaches, this saying could be applied to the case in point, only substitute peaches for prophet. Certain it is, that our growers will have to cater to the prairie markets instead of the coast. It is also certain that we are in the business for business, and as Okanagan fruit has a world wide reputation, as being no 1 quality, in fact Okanagan, when applied to fruit is a trade mark of the highest standard. Then we must always command the highest price in fruit.

CARD OF THANKS.

Mr. and Mrs. Thos. Collinge desire to return thanks for the kind sympathy shown them in their recent bereavement.

Provincial and General

Six boxes of apples, the best the Yakima can grow, are being sent from that district to King George V. The gift is at the instance of some English residents.

During the six months ending July 31, homestead entries to the number of 33,414 were made. This is an increase of over 50 per cent. on the entries during the same period in 1909.

A Crimean veteran in the person of Captain W. Smith passed away at Revelstoke last week. He was present at the famous siege and evacuation of the Russian fortress of Sebastopol.

It is rumoured that Premier McBride contemplates making some changes in his cabinet, whereby Attorney-General Bowser retires in favour of Wm. Ross, of Fernie, and becomes Minister of Finance.

Sir George Doughty, who arrived at Winnipeg on Monday night from a visit to British Columbia, expressed himself as much pleased by his visit to the coast. He sums up his impressions in these words: "This is a great country, with a great future."

A railroad estimate of the fruit output of the Wenatchee Valley, Washington, for this season, places the total at from 2,500 to 3,000 boxes. The whole crop is valued at \$2,500,000. This is easily the best year the valley has had, but indications point to future years eclipsing easily even this.

Quebec fruit growers contemplate sending a carload exhibit of their renowned "Fameuse" apple to the National Apple Show at Vancouver. If the financial difficulties are overcome, and a representative exhibit can be obtained, the French province will show their produce for certain.

The preliminary proceedings against Dr. Crippen and Miss Le Neve have not tended to strengthen the case for the Crown. Experts who examined the remains found buried in the cellar stated that whilst death was undoubtedly caused by poison they were unable definitely to determine the sex. Repeated efforts have been made to induce the girl to turn "King's witness," and give evidence against her companion, but so far unsuccessfully.

RICH RED BLOOD.

You Will Never Have It as Long
as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

Summerland Drug Company

BAPTIST CHURCH—In Elliott's Hall at 10-30 p. m. Sunday school at 11.30 a. m.

:: Naramata Notes ::

Mrs. Mc.Cullock is visiting friends at Vernon.

A number of elusive deer have recently been secured by local sportsman.

Master Gerald Williams is recovering from a severe attack of pleurisy.

The foundations for Mr. Wolstencrofts new house is now well under way

Miss Kate Smith after several weeks visit with Vernon friends, has returned to the parental roof.

Mr. Tom Kenyon one of our local bandsman, spent a days or so at Kelowna filling a special engagement.

Mr. Booth has bought a substantial driving outfit from Rev. A. T. Robinson, who has recently disposed of his real estate interests in Summerland.

From all accounts it would seem that the region for miles back of town is a veritable paradise for the hunters, and as regards fishing at Chute Creek. ! it is simply help yourself to all you wish.

The dance given by the recently organized Girls' club in the Opera House Wednesday evening was one of the chief social events of the week. The young ladies are to be congratulated for their careful preparation and their ability to handle and please a crowd.

Ever attend a corn roasting? If not you missed something good, at least so say those who last Saturday evening accepted the hospitality of Mr. and Mrs. Simpson to attend "a corn roaster" on their recently purchased town lots on the South Beech. Quite a large crowd was in attendance and a really jolly time was spent round the bon-fires roasting and eating corn.

It is probable that a regular place of worship will be erected in Naramata this fall on ground reserved for that purpose some time ago. The present place of worship, the Opera House, is quite costly and does not have the home-like appearance that a regular church would have. Rev. G. O. Fallis is the moving spirit in this work. He has his plans well in hand and with promises of several substantial subscriptions up his sleeve he is confidently hopeful of having the new edifice ready for Christmas.

Gerald Desmond, of Vancouver will lecture in the Mens' Club Wednesday night, Oct. 12th, at 8 o'clock. The subject will be "Revolution". Everyone invited.

Water Notice.

NOTICE is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Osoyoos Division of Yale District.

(a) The name, address and occupation of the applicant is Charles Hagarth Whellams and Paul Amos Smith, Shingle Creek, B. C. Ranchers.

(b) The name of the lake, stream or source is June Creek, being a tributary of Shingle Creek.

(c) The point of diversion is near North line of applicants Pre-emptions Claim, No. 5965, in Group 1, Osoyoos.

(d) The quantity of water applied for is two cubic feet per second.

(e) The character of the proposed works is a dam, ditch and flume.

(f) The premises on which the water is to be used is Pre-emption Claim No. 5965, in Group 1, Osoyoos.

(g) The purposes for which the water is to be used--Irrigation.

(h) If for irrigation describe the land intended to be irrigated, giving acreage. Pre-emption Claim No. 5965, in group 1, Osoyoos, -320 acres.

(j) Area of Crown land intended to be occupied by the proposed works--None.

(k) This notice was posted on the 17th day of September, 1910, and application will be made to the Commissioner on the seventeenth day of October, 1910.

(l) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet--None.

CHAS. H. WHELLAM.
PAUL A. SMITH.

Shingle Creek,
Summerland B.C.

PRAIRIE CROPS.

Ottawa, September 13.—The Bulletin of the Census and Statistics Office, issued to-day, says that the reports on field crops at the end of August are more certain than at the end of July, and that the situation during the month has improved. In the older provinces the grains have matured well, and have been harvested and saved in fine condition. The estimate for wheat, oats, and barley is 445,420,000 bushels, which is 129,188,000 bushels less than the final estimate for last year. Spring wheat is less by 45,608,000 bushels, oats by 70,219,000 bushels, and barley by 16,010,000 bushels; but fall wheat shows an increase of 1,649,000 bushels. The Eastern Provinces show gains in each one of these crops. The increase of wheat there is 3,633,000 bushels, of oats 23,219,000 bushels and of barley 625,000 bushels. The loss in the Western Provinces, exclusive of British Columbia, is a result of the great drouth of July, which reduced the area harvested by 22 per cent. for wheat, by 24 per cent. for oats, and by 31.5 per cent. for barley. The estimated production of wheat for the whole of Canada is 122,785,000 bushels, of oats 283,247,000 bushels, and of barley 39,388,000 bushels, as compared with 166,744,000 bushels wheat, 353,466,000 bushels oats, and 55,398,000 bushels barley in the final estimate for last year. The estimate for Manitoba, Saskatchewan, and Alberta is 99,890,000 bushels wheat, 92,201,000 bushels oats, and 14,723,000 bushels barley, being an average of 11.89 bushels for wheat, of 20.96 bushels for oats, and of 14.49 bushels for barley on the area sown, but of 15.24 bushels wheat, 27.91 bushels oats, and 21.22 bushels barley on the area reaped. Compared with the same period last year for the Dominion the average condition of spring wheat on August 31 was 79.05 to 84.31, of oats 80.03 to 84.89, and of barley 80.51 to 83.54; but compared with the condition at the end of July it was 79.05 to 77.05 for spring wheat, 80.03 to 79.57 for oats, and 80.51 to 79.62 for barley. Peas, beans, buckwheat, mixed grains, flax, corn for fodder, potatoes and alfalfa, have declined in condition, but peas, mixed grains, and flax only appreciably; whilst corn for husking, turnips, mangolds, carrots, sugar beets, and pasture have improved.

Mr. W. Simpson has received an appointment from the Government as a judge in the fruit section of the Nelson Fair. He will probably leave by Monday's boat.
