SUMMERLAND, B.C., JUNE 3, 1911

Whole No. 1472

## OKANAGAN COLLEGE CLOSING EXERCISES.

Rev. J. B. Warnicker, Victoria, the Chief Speaker.

(Held over from last week.)  
This has been a busy week at Okanagan College. On Sunday morning, the Annual Church Service was held in the Gymnasium. The sermon was preached by the Rev. J. B. Warnicker of the first Baptist Church, Victoria. Taking as his text the First Epistle to the Corinthians ii: 2, Mr. Warnicker pointed out the need of principle and personality in the solution of the problems which we, as citizens of Canada in the twentieth century have to confront. The College choir was present, and during the offering Mr. Moore sang "The Lord is my Light," by Allitsen.

Examinations closed on Monday. In the evening the faculty and students of the Music Department presented their second recital. The playing of Miss Ethel Bennett, Miss Helen Sawyer and Miss Eleanor Postill was especially appreciated. Miss Bennett and Miss Sawyer are both careful students. Their artistic interpretation and finished technique added much to the pleasure of the evening. Miss Postill, a younger musician, seemed to enter intuitively into the subtle shading of McDowell's "Woodland Scenes." Equally delightful were the two choruses by the Glee Club. This has become one of the most popular College organizations. Its work reflects the greater credit on its conductor, Mr. Moore. With Miss Haines he is to be congratulated upon the splendid progress made by the Department.

At the close of the concert an informal gathering of the student body was held in the Chapel. A noteworthy feature of the event was the number of old students who added to the gaiety of the occasion. Among those present were Miss Etelle Fulton, Miss Georgina Logie, of McMaster University, and Messrs. Frank Hayward, Cliff McWilliams, Frank Williams, D. L. McNeill and Alden Peck, of Vancouver; Rev. Mr. Pattison, acting as chairman, introduced the following Toast List: The King; Our College; The Faculty; The Codes; The Lyceum; Athletics; The Old Students.

At its conclusion, Mr. McLeod, Physical Director, presented O's to the following members of the College teams past and present: Cliff McWilliams, Angus McDougall, Frank Hayward, G. R. Stevens, Lorne Morlock, Verne McNeill, G. A. McAdam, Alden Peck, F. McWilliams, F. Williams, Chester McNeill, Harold Fader, Alex McDougall, Leslie Eaton, Bryson Pittman, Ward Shaver, Gordon Perry, James Gordon, Harold Koenig.

After refreshments had been partaken of, the company dispersed to the strains of the "Okanagan Doxology," at a late hour. On Tuesday morning the Board of Governors met to consider plans for next year's work.

Commencement was held in the evening, and after the processional prayer was offered by the Rev. E. W. Avaucho of Penticton. Dr. Sawyer then presented a short informal report with his accustomed felicity. Speaking of the difficulties of the past and the promise of the future he suggested as a suitable motto for the institution "Per aspera ad astra" (The average attendance, he noted, had been the largest in the history of the College, and there was every prospect of a record being made.) He then called on Mr. Warnicker who spoke briefly on the significance of the motto.

The diplomas were then presented. Owing to the re-organization of the work in the academic department only two students—Miss Louise Norris of Vancouver and Mr. AC. Riley—were able to complete the course. In the Business Department certificates were granted to Mr. Garnett E. Willis, Chilliwack; George B. Craig, Okanagan Falls; James S. Gordon, New Westminster; John McDougall, Thos. B. Young, Summerland; Harold Fader, New Westminster. Certificates in Stenography and Typewriting were awarded to Miss Edna McLeod, Miss Amy T. Brown, Miss Florence E. McLean, Miss Ellen Lynn, and Miss Mary Postill, New Westminster. During the evening Mr. Moore and Miss Haines played the Rhapsody of Liszt with unusual power and brilliancy of execution. The College Quartette was also called upon for a selection. The scholastic year of 1910-1911 was then brought to a close by the singing of the National Anthem, hearty cheers for the faculty and the college yell.

## Spraying For Pests.

The Rose Bug. Spray, about June 7th, roses, grapes, asters and all plants with large, juicy buds or blossoms, with arsenate of lead, one pound in ten gallons of water (or Bordeaux mixture). Repeat about June 14. Meanwhile pick off every bug you see.

Potatoe Beetle. Don't look at first for a hard shelled bug, but for a soft, repulsive looking red and black worm. Spray arsenate of lead on Potatoes, egg plant and tomatoes as soon as he appears.

Aphis, Thrips and Leaf Hoppers will bother the flowers, roses especially. Use whale oil soap or kerosene emulsion, May 21 and June 20.

Mildew and all other fungi: Bordeaux mixture every two weeks will prevent, and should cure. Potassium sulphide will do on roses, and copper sulphide may be substituted on vines, etc, where there is danger of staining.—Garden Magazine.

## June 3rd Proclaimed Holiday.

Ottawa, May 26. — Saturday, June 3, the birthday of King George V, has been proclaimed a legal holiday throughout the Dominion. No announcement has yet been made regarding Coronation Day, June 28.

## U.S Gunboat Being Removed From Great Lakes.

The gunboat Nashville, which has been used by the U.S. Navy for the past year, has been ordered to the Charleston Navy Yard, where it will arrive in June.

This terse announcement by the United States naval authorities was at first taken to mean that America had, on her own initiative, decided to alleviate Canada's oft expressed complaints in regard to gunboats on the Great Lakes.

Further inquiry, however, proved disappointing, for it was found that the Nashville will be relieved on the lakes by the Dubuque, a gunboat, even more modern and powerful than the Nashville. A third question has often been raised in parliament, but never thoroughly thrashed out, although the Minister of Justice a year or so ago, admitted that it was direct violation of the Ashburton Treaty.

The department of railways and canals has issued a call for tenders for the construction of 185 miles of the Hudson Bay Railway.

## BOY SCOUTS ORGANIZED.

At a meeting of representative citizens held recently a "Governing Council" for the purpose of organizing and supervising a company of Boy Scouts was formed. Col. Cartwright, Hon. President Rev. E. W. Pattison, Chairman C. A. Marshall Secretary-Treasurer Rev. F. W. Hardy, Chaplain C. N. Borton Scout Master A. W. McLeod Adjutant. Immediately steps were taken to form a local company and a meeting of boys and others interested was called for last Monday evening in the vicinity of the College Gymnasium at seven o'clock. This was well attended and a company of some thirty-eight boys, between the ages of ten and eighteen years, was formed. There was a short prayer at the opening, and after some preliminaries the boys were lined up and put through some simple drill tactics. This was followed by a wand drill under the guidance of Adj. McLeod. Scout Master C. N. Borton said Summerland citizens in general and the boys in particular, no small tribute when he pronounced them by long odds the finest and brightest lot of boys he had ever seen in a line up. He has had no small experience in this line of work either. "Summerland leads in so many things there is no doubt that numerically as well as in quality that this new company will soon be in the front ranks of the Canadian Boy Scouts. It is the hope of the next drill will be held in the College Gymnasium on Monday next at seven o'clock. It is anticipated that a retired sea-faring man will be present to instruct the boys in the tying of various knots. There will also probably be a scout game. Before a boy becomes a Scout he must take the Scouts' promise thus:

ON MY HONOUR I promise that I will do my best

1. To do my duty to God and the King.
  2. To help other people at all times.
  3. To obey the Scout law.
- The Scout motto is "Be Prepared" and a summary of the scout law is as follows:
1. A scout's honour is to be trusted.
  2. A Scout is loyal.
  3. A scout's duty is to be useful and to help others.
  4. A scout is a friend to all and brother to every other scout no matter to what social class the honor belongs.
  5. A scout is courteous.
  6. A scout is a friend to animals.
  7. A scout obeys orders.
  8. A scout smiles and whistles under all circumstances.
  9. A scout is thrifty.
  10. Each one of these laws is elaborated upon in the large and complete Scouts text book "Scouting for Boys," by Lieutenant-General Sir Robert Baden-Powell, K.C., B. A. a number of copies of which are already in the possession of the boys and more are on order. The Governing Council is confident of having the sympathy and support of the citizens in the developing and maintaining of this organization, one of the greatest benefactors of humanity.

The Vancouver Province is authorized by the statement that a lawsuit will shortly be started between the Dominion authorities and those of B.C. over a question of ownership of lands at Point Grey. The site of the new B.C. University will be involved in the question.

## VICTORIA DAY ROYALLY CELEBRATED.

### A Full Day's Programme.

(held over from last week.)  
Crescent Beach was the centre of attraction for the Southern Okanagan all day on the 24th. Summerland turned out in full force, a large proportion of Naramata's population was present, and Penticton and Kaleden were both largely represented. Besides there was quite a number from Peachland and other up-the-lake points. About the shore at the beach were motor boats and launches, canoes and rowboats. At the park entrance many automobiles were conspicuous, while among the trees and here and there about the grounds many horses—probably over two hundred—were tethered. Everybody was there for a holiday and a good time. Many private picnic parties were there to enjoy the sports as well as their out-of-doors luncheons.

The baseball game at eleven was a disappointment to Summerlanders. Penticton led from the first and ultimately won a lop-sided game by 10-0. The local pitcher delivered good ball, but was poorly supported, and errors rather than heavy hitting contributed to Penticton's long score.

The afternoon was fully taken up with the horse racing varied with the athletic sports. There were a number of particularly good saddle horses among the participants in the former. It was very evident that horse running is a popular sport in the district, and the local Indians are no small factor in maintaining that interest. The aborigines were numerically strong, and in addition to being good horsemen are the owners of some very fine runners.

There were many events of interest among the athletic sports, some of them creating much amusement. Here again the Siwash was no mean competitor, taking a goodly share of the prizes.

The results of the races were as follows:

**HORSE RACES.**  
Half mile open.—1st, \$70, E. V. Fuller's "Don" (Kelowna). 2nd, \$30, H. Bristow's "Astoria Belle." This was run in two heats, both being very good races, "Don" winning the first by a length and the second by a neck only.

Half mile local.—1st, \$50, H. Bristow's "Astoria Belle" 2nd, \$25, W. Raincock's bay horse, won by two lengths.  
Pony race.—1st, \$50, W. Kruger's "Cherry" 2nd, \$25, Eneas' cheaply mare, Nellie Guilcheno. Won by a neck. "Nancy" and "Laddie" being two and three lengths behind.

Cowboy race.—Final heat, 1st, \$30, C. Shuttleworth, 2nd, \$20, F. Brent. There were six starters in this race and several riders gave a good display of agility and skill in the saddle. The final heat was a capital race.

Mile open.—1st, \$70, Baptiste's brown horse, 2nd, \$30, E. V. Fuller's "Don." The latter led for two-thirds of the distance, but the jockey pulled up thinking apparently that he had completed the course. Amid shouts of "go on," from the spectators, he got his horse going again, but Baptiste's horse had obtained too great a lead to catch up, and the Kelowna horse was beaten by three lengths. H. G. Barnard's "Colonel" was a bad third.

## ATHLETIC SPORTS.

Do yards dash, 1st, Billy Raincock. 2nd, J. O. Smith.  
Three-legged race, 1st, Billy Raincock and H. Bristow.  
Portly Gent's race, 1st, A. D. Adamson.

## Long Jump, 1st H. V. Acland, 2nd 4-mile, 1st, Billy Kruger, 2nd, Boys' three-legged race, 1st, Wellband and Boothe, 2nd, A. Campbell, 2nd, L. Craig, 1st, G. Campbell, 2nd, J. Keenan, 1st, Girl's race, under 15, 1st, A. E. Bristow, 2nd, E. Phinney, 1st, Girl's race, under 12, 1st, B. Bristow, 2nd, E. Garnett, 1st, Tug-of-war, Summerland beat Penticton.

The program at Crescent Beach was not completed till six o'clock, and the day was pronounced a huge success. Financially, the committee hope to have a small margin to the good.

The chief attraction of the evening was the Summerland Band's Minstrel and Dramatic entertainment in the new Empire Hall. The large new hall was soon filled, and long before the opening many were turned away. Seats were at a premium, a number being resold. Some desirous of admission offered the ticket seller as high as two dollars for a seat—something he did not have at any price. After the formal opening of the hall by Hon. Price Ellison, (note of which was made last week) the following program was presented:

END MEN: M. Manchester, M. McConnell, J. Woods, F. Neve.  
INERLOCUTOR: F. Manchester.  
SOLOISTS: J. W. S. Logie, Thos. Collinge, T. Crossen, J. Smith.  
QUARTETTE: G. Thornber, T. Beavis, A. Smith, J. O. Smith.  
CHORUS: McLain, Black, Craig, Derrick, Beavis, Everett, Cotton, Borton, Nelson, Stewart, Joslin.  
ACCOMPANIST: Miss Olga Watson.

The Summerland Band, 1. Opening Chorus, 2. Entire Company, 3. Mr. M. Manchester Introducing You Can't Be a Friend to Everybody, 4. Summerland Band, Selection, 5. Mr. Jack Woods, Introducing I've Lost My Gal, 6. Quartette, 7. O. K. Quartette, 8. M. McConnell Introducing Moonlight in Jungle Town, 9. Solo, In the Garden of my Heart, 10. Mr. J. W. S. Logie, 11. Summerland Band, Selection, 12. Solo, Drinking Song, 13. Mr. J. O. Smith, 14. Mr. F. Neve, Introducing Come After Breakfast, 15. Solo, Boys of The Old Brigade, 16. Mr. Thos. Collinge, 17. Summerland Band, Selection, 18. Solo, Summer Moon, 19. Mr. T. Crossen, 20. Mr. Manchester, Introducing Cry Baby in the Moon, 21. Ten Minutes Intermittion.

## COMEDY: FAITHFUL JAMES.

James, a waiter, Chas. H. Gormy, Admiral Vincent, R. H. Holmer, Henry Duncann, H. J. Collas, Phillip Melville, H. V. Acland, Walter (Foreign), O. G. G. Villiers, Mrs. Duncann, Miss Sutherland, Mrs. Melville, Mrs. May, Synopsis:—Scene in apartment, Grosley's Hotel, London. Time: The present.

## GOD SAVE THE KING.

The end men, though amateurs and some of them on the stage for the first time, might almost have passed as professionals. The quality of the singing was good—especially was this true of the soloists and quartette. Miss Watson, accompanist, played beautifully. Judging from the quality of the

acting in the Summerland Amateur Dramatic Society's play, there is little need to go outside for talent in this line. No doubt Summerland with its new hall and artistes of such a quality will frequently be treated to playing of a high class. Mr. F. C. Manchester certainly deserves credit for his well trained minstrel team, and for the pleasing stage arrangements. Mr. Knox, too, should be complimented on the very pleasing presentation of "Faithful James."

## THE RAILWAY AND SUMMERLAND.

The route of the Kettle Valley Railway and its relation to Summerland is probably the chief topic of conversation of the business men of the place, both about the street corners and in the places of business. Immediately upon the circulation of the report that a route, some distance to the south west of Summerland had been decided upon the matter was taken up by the Board of Trade and the Transportation Committee, made an appointment with President Warren of the railway company to discuss the various surveys and possible routes through Summerland. Mr. Warren was in Summerland on Wednesday and it is understood that R. H. Agur, president of the Board of Trade, and the Transportation Committee—James Ritchie and C. S. Stevens—were given a hearing. It is understood that a number of reasons were given for the decision of the railway to pass us by. One of the chief excuses was the cost of bridging Trout Creek canyon, which, it was stated, might cost as much as a quarter of a million dollars, and in addition, the coming into Summerland would add about five miles to the length of the railway. But, as one of our citizens put it, the people are not inclined to accept these excuses as sufficient reasons, as the line is really a part of a new transcontinental route and the price of such a bridge is infinitesimal compared to the total cost per mile. As to the adding of five miles to the total length of the road, this should be immediately offset by the business derived from this large and growing community.

"What about the subsidies?" is a question frequently asked. The provincial and the federal governments are both subsidizing the line and they will be paid for the five miles. Evidently, the Board of Trade has not given up, for it is understood that the transportation committee has assured President Warren that they can point out an easy and practical route which will bring this line through Summerland, and in fact, took the engineer over such route on Thursday. The Board of Trade pointed out to President Warren the importance of Summerland as a fruit district, and as a traffic producing community, and also showed him the necessity of transportation—particularly for the outlying districts. They evidently are a long way from giving up trying to get the new transcontinental line to go through Summerland. Certain members of the Board of Trade suggest taking other steps in this matter if this week's efforts are not successful. It is probable in this event that a deputation will go to Victoria to discuss the matter with the provincial government, and another to Ottawa to put the case before the Federal authorities, and the Railway Commission.

Miss Haines and Prof. Denton, of the College, both Nova Scotians by birth, have gone east. Miss Haines expects to remain.

**VACCINATION QUESTION AGAIN**

Dr. J. C. Fagan, Secretary of the Provincial Board of Health, has just issued a pamphlet on the subject of vaccination. In this pamphlet Dr. Fagan says, after reviewing the history of Jenner's discovery in 1788, that cowpox was a prevention of small pox.

"Vaccination is a process of transmitting by inoculation a mild disease known as 'vacinia,' 'cow-pox,' or modified small-pox from animal to animal, or from man to man. In past days all of these sources have been used, but unfortunately a small percentage of evil results were in evidence. As a result humanized vaccine is not used now, and the calf vaccine purified and protected by glycerine, is the present virus, and gives the utmost protection with the least evil results."

"Ordinarily there is a little irritation at the site of the inoculation, and on the third day, as a rule, a papule is seen, surrounded by a reddish zone. This gradually increases, and on the fifth or sixth day shows a definite vesicle, the margins of which are raised. By the eighth day the vesicle has attained its maximum size. About the tenth day the contents become purulent and the skin swollen, hardened, and often painful."

The constitutional symptoms vary with each individual. There may be a slight fever and in children considerable restlessness, especially during the night. Persons with the results above described are rendered immune to small-pox for at least seven years.

Complications may follow vaccination in unhealthy subjects or as the result of uncleanness. There may also follow certain rashes, many of which may be avoided by care. The transmission of disease has unfortunately taken place, but with the present day methods and the use of calf in place of human lymph, the danger of transmission need not be considered."

It is apparent that the Board of Health is desirous of instituting an educational campaign on this question of vaccination. The pamphlet issued by Dr. Fagan is not of a nature to inspire confidence in the efficacy of cow-pox.

In support of Dr. Fagan's statement that "complications may follow vaccination," we find in Osler's Modern Medicine, "Wilson (1902) first found tetanus bacilli in vaccine virus, and Carlini, out of four hundred examinations of fifty different specimens of lymph, found tetanus bacilli five times. He concludes that they belong to the normal flora of lymph, but occur rarely and in small numbers, because in a series of specimens of the same lymph he found the germs in only one tube."

Reading the accounts of the separate cases, and still more those of epidemics of complications, gives one an unfavorable view of vaccination.

It might be well for some one favorable to vaccination to produce the records of deaths from small-pox in England since the compulsory vaccination law was done away

with there twelve or thirteen years ago. The cowpox inflicted upon the children prior to the rescinding of the compulsory vaccination law in England must be pretty well worn out by this time, and yet we can find no record of any unusual number of deaths in England as a result of the decline of the vaccination craze.

Anyone interested in the subject need have no difficulty in discovering cases where serious complications have followed in the wake of vaccination. Almost anyone can point to cases which have come to their personal notices.

Ada Muir, writing in the Winnipeg Voice, on the cruelty of the compulsory vaccination law, says:

"The following are the names of a few children who have been saved from small-pox by vaccination. To save space I am not publishing the full addresses, but any reader interested may have them:

"October 17.—William Kintz, aged seven years, died from lock-jaw caused by vaccination.

"October 22.—Edward M. Berry, aged six years, died from cerebro-spinal meningitis caused by vaccination.

"October 28.—Gwendolyn Brasher, aged six years, died from lock-jaw caused by vaccination.

"October 28.—Charles Ware, aged nine years, died from lock-jaw caused by vaccination.

"October 31.—Archer Ansell, aged five years, died from lock-jaw caused by vaccination.

"November 15.—Lulu Terwilliger, aged nine years, died from lock-jaw caused by vaccination.

"November 15.—Margaret Graham, aged four years, died from lock-jaw caused by vaccination.

"November 28.—Wilfred McKenna, aged seven years, died from lock-jaw caused by vaccination.

"December 5.—Rose Brogan, aged six years, died from lock-jaw caused by vaccination.

"November 29.—Grace Lawrence had her left arm taken off because blood poisoning set in as a result of vaccination."

**HON. PRICE ELLISON.**

One could not write a history of the Okanagan Lake district and leave out the name of Mr. J. M. Robinson. He fathered each separate and distinct town in the Peach Belt and after they were placed on their feet, he has maintained a close, watchful care over all, viewing in the development of each the advantage of all.

What Mr. Robinson has been to the Okanagan Lake district, Hon. Price Ellison has been to the great Okanagan Valley in general. One could not miss the attitude of Mr. Ellison on his visit to Summerland a week or more ago, on his trip of inspection through the district, without renewed admiration for the man. No part of the district is too small for his consideration and no demand too insignificant to command his attention. Mr. Ellison is big enough to see in the development of one section the good of all, and, while demanding the strictest accounting for all public moneys spent in the district, he is most liberal in giving assistance to everything looking toward the better development of the individual parts of the district.

**TREE PLANTING.**

An interesting experiment has just been concluded at the Washington State Experimental Station. During the past fifteen years a test has been carried on to prove the best varieties of trees for certain purposes. While there may be some difference in the climatic conditions prevailing in the Okanagan and Washington, still it is so slight as not to be of any consequence in the matter of trees. Therefore, the results of fifteen years of experiment will be of interest to us.

"From a long and varied experience," the report says, "we would suggest the planting of those trees

mentioned in the following list, for special purposes:

"Large, rapid growing trees for street and shade: Black Locust, Carolina poplar, silver poplar, cottonwood and Oregon maple, the last mentioned for west of the Cascades only.

"Large medium growing trees for street or shade: Sycamore maple, Norway maple, Scotch elm, silver maple, English oak, English maple, flowering ash, green ash, hackberry, box elder, black walnut, scarlet oak, European linden and horse chestnut.

"Deciduous trees for lawn or park planting: Cut-leaved weeping birch, European linden, flowering ash, Wein's cut-leaved maple, Japanese chestnut, American hornbeam, English oak, scarlet oak, red maple, American mountain ash, white birch, European Mountain ash, Bolles poplar, Lombardy poplar, golden willow, European larch, native thorn and hardy catalpa.

"Evergreen trees for lawn and park planting: Colorado blue spruce, Norway spruce, Engelmann's spruce, Black Hills spruce, Douglas fir, white fir, Irish juniper, Austrian pine, Scotch pine, dwarf mountain pine and giant cedar."

**Duelling in Canada.**

For the first time in many years a man has been killed in Montreal in a regulation duel with pistols. Moreover, no action has been taken by the authorities. This apparent indifference, however, should not be taken as another indication of the much talked of "crime wave" for the victim was truly killed in a technical sense. Only, the duel was fought with real weapons, which were not loaded with blank cartridges but with real bullets. The bullets, however, were made of wax, so that the person struck suffered no injury. This duelling with wax bullets which was the feature at a duelling competition which included meetings with every sort of weapon, ancient and modern, is by no means a childish matter. The contestants are armoured with heavily padded canvas suits and have their heads protected with helmets resembling those worn by divers. The necessity for such precautions was illustrated by the fencing instructor who fired a wax bullet at a catalogue from a distance of ten yards, the missile penetrating 130 pages. The contestants were stationed thirty yards apart, but even at that distance the impact of the bullets was severe. A new death record was established by one man who succeeded in being "killed" four times, with foil, duelling sword, sabre and pistol in succession. Society has taken to the new form of duelling and numerous "deaths" may soon be expected among the "four hundred" elite.

A merchant can "afford" to publish any advertisement which has in it one or more friend-winning facts about his store.

Woolen blankets should be put away in boxes lined with newspapers and a few pieces of cotton saturated with turpentine, should be put in the corners of the boxes to keep out the moths.

Edmonton and Strathecona have decided to amalgamate. The name "Edmonton" will be retained.

About three thousand French-Canadians from Quebec and the United States have recently reached western Canada.

On May 24th., the only entertainment offered in Vernon was a baseball game between the fast Summerland College team and the local organization. A crowd of about four hundred, among whom were a number of Kelowna, Summerland and Lumby people, witnessed the game, and one and all state that it was one of the fastest games of baseball ever played in this city. The College won by a score of 7-5.—Vernon News.

**Peachland Notes:**

Mrs. C. G. Elliott, Miss Kennedy and Miss Lewes each spent a day in Kelowna this week.

Miss Olive Ferguson, who went to the Kelowna Hospital for her injured knee is still there as the injured joint is not yielding very rapidly to treatment.

Rev. C. W. Whyte left last week to attend the meeting of the Presbyterian Synod at Ottawa. The Canadian capital is Mr. Whyte's old home, and the trip will be of interest to him apart from the Synod meeting.

Mr. R. J. Hogg has been appointed Fire Warden for this district, and has already entered upon his duties, making a trip of inspection into the hills last week.

Mr. H. McDougall has charge of the census taking from the north end of the municipality to Trout Creek, south of Summerland, and began operations on the 1st of June. As all the returns must be in by the 30th inst., he will be a busy man this month.

Mr. Wm. Dryden, clerk to the municipality, went to Summerland on Wednesday evening to attend to some municipal business.

A special meeting of the Council was held on Tuesday evening at which the principal business was the appointment of a Constable. A great many complaints have been made of late about the boys monopolizing the roads for baseball and lacrosse, and with the larger boys obstructing the sidewalks in some places, the Council decided to enforce By-law No. 6, passed nearly two years ago, regulating such matters, and to ensure its enforcement appointed Mr. A. H. Houston as Constable. Steps are being taken to ensure for the boys a convenient and suitable practice ground so that no hardship will be worked on them by keeping them off the street in their play.

**LATEST RAILWAY NEWS.**

President Warren and Engineer Brooks of the Kettle Valley Railway, were in Summerland on Thursday by appointment with the transportation Committee of the Board of Trade. They were taken over the route suggested by the committee, and President Warren has promised to have a survey made and that if it is found feasible to get into the C. P. R. warehouse at West Summerland the line will be built via that route. The report of Engineer Brooks will be awaited with interest.

Derriek's Pure Ice Cream. For Sale by Angove and Stinson. J8

I. Beach has purchased from Jas. Gartrell the building on Shaughnessy Avenue he now occupies as a bakery.

L. Harris, of Vernon, provincial Inspector of Apiaries, has been about Summerland this week. He has been giving private advice and instruction to local bee-keepers, as well as inspecting their hives.

The legislature of Nova Scotia has been dissolved, and the date of the elections has been set for Wednesday, June 14th, with nominations a week earlier. The legislature has run its full term of five years, and the standing of the parties at the time of dissolution was 38 Liberals and 5 Conservatives.

The apple box is Nature's medicine chest.

Census enumerators all over Canada began their work on the 1st of June. Predictions of a total population of over eight millions are being made at Ottawa.

### Kaleden Comments

Fresh arrivals this week are Mr. H. Beacon, of Pilcher Creek, Alberta, and Mesdames L. L. and A. Kerr, from the east, who have joined their husbands here.

Mr. W. Baskin is here surveying a prospective road from the Junction Ranch to Parker's. Kaleden is already furnished with exceptionally good and numerous roads, and the valuable work along this line is likely to steadily continue, for the comfort and convenience of the residents, visitors and passing traveller alike.

It would appear that the "big game" season is in full swing; for on Empire Day, Fred Ford shot a seven pound eagle on the wing, and will shortly be the proud possessor of that king of birds stuffed and mounted. Then a few days previously, two of our boys, seeing a ferocious looking beast making straight for the lake, as though making good its escape after plunging some lonely traveller, gallantly pursued the miscreant, jumping hastily into the nearest boat at hand, a freshly painted one, and in spite of loud distant protestations from the owner, pushed out into the lake after their quarry, which they eventually overtook by superhuman efforts, paddling the boat with a strip of wood in the absence of oars, and loudly encouraged and applauded by their excited companions on the shore. The fierce brute, exhausted by the chase and a long run before reaching the water, had well nigh spent its strength; with fine daring the boys grabbed at the head of their victim, and having made him secure, pulled back with all possible speed to shore, where in a helpless condition they landed their prize—Tomlin's spring pig!

On Empire Day several of our people took a holiday. Mrs. Grieve and Mrs. Babbit entertained numerous friends out at the Ranch, Messrs. A. S. Hatfield and H. Corbett leaving Kaleden the day before had some very successful early morning fishing in the creeks to the west of Summerland, securing some dozens of rainbow trout; in fact so strenuous was their day that they succeeded in squeezing 25 hours into it (so they say), arriving back home about midnight. Mr. Pitman, using only three cells of his battery made a most successful trip, in his two horse power motor Sponson canoe up the river to Penticton and back. Several paid a visit to Summerland, where they renewed old acquaintances and shared in "all the fun of the fair." The weather though fine and sunny during the early part of the day, clouded over, grew windy and somewhat threatening. More promptitude in carrying out the various events on the programme of sports, and better refreshment arrangements, both on the grounds and in town after the sports were over, would have assisted greatly in leaving a pleasant impression on the minds of visitors.

#### Local Student's High Average

In connection with the announcements made by principal Sawyer on Tuesday evening of last week regarding diplomas, a further statement should have been made in regard to the work of Mr. Claude Monro, of Summerland. Mr. Monro completed all the work of the Matriculation Class except the Latin of the last year. In this subject he was short for practically the requirements of the year. In the other branches of the course he maintained a high average running over eighty per cent. Mr. Monro proposes to complete the Latin during the vacation and will receive his diploma whenever he satisfies the requirements in Latin. Had he been willing to rest satisfied with a low mark in Latin he could easily have made his pass but he preferred to leave the subject for further and more thorough preparation.

#### NOTICE

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation was approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at \$10 and \$5 per acre respectively. This regulation further provided that the prices fixed therein should apply to all lands with respect to which the applications to purchase were given favorable consideration after the date of such regulation, namely April 3rd, 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor in Council on the 10th of May, 1911, that the regulation dated the 3rd of April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd, 1911, and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd, 1911.

ROBT. A. RENWICK,  
Deputy Minister of Lands,  
Department of Lands,  
Victoria, B.C., 16th of May, 1911.  
M27-J3-10-17-24

#### PUBLIC SERVICE ACT.

The qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places commencing on Monday the 3rd July next:—

Armstrong, Chilliwack, Cumberland, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, North Vancouver, Peachland, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of twenty-one and thirty, if for Third-class Clerks, and between sixteen and twenty-one if for Junior Clerks or Stenographers. Applications will not be accepted if received after the 15th June next.

Further information, together with application forms, may be obtained from the undersigned.

P. WALKER,  
Registrar, Public Service,  
Victoria, B.C., 17th April, 1911.

### Naramata Notes:

THE REGATTA! That is the topic in our burgh this month. It looms up bigger than the Coronation itself. Guess it's the biggest event in the year's history of the place.

The Athletic Club held a special meeting last Thursday week at which a full discussion of the event took place. A strong committee has the matter in hand and will doubtless have the co-operation of every sport lover in town to crown June 22 in Naramata with the laurel wreath of success.

The ladies of the Unity Club turned out in large numbers last Friday. It was a regular meeting and was held at the home of Mrs. Wolstencroft. Mrs. Boothe played the part of hostess. The next gathering is booked for June 9th, at Mrs. Hancock's.

Mrs. Gillespie returned on Monday from a trip to California.

Mr. C. Grimaldi shot an elusive coyote one day this week. The animal ran upwards of sixty rods after having been literally riddled with the bullet.

Mr. J. C. Lyons claims the honor of having picked the first dish of strawberries grown in Naramata date, May 28.

The S. C. Smith Lumber Company received a heavy consignment of logs this week for their saw mill operations which have already begun in the mill north of town.

Mr. Carrol Aikins expects to return to Winnipeg early next week where he will conduct the real estate business until recently carried on by his late father.

Mr. and Mrs. Walters and family have removed to their new home on their fruit lot.

Miss Irene Morgan, as a result of a hit in the face by a batted ball during a game on the sports grounds last Saturday is in the hospital suffering from a broken nose. The accident might have happened to any one. Miss Morgan was playing shortstop and was about to catch a grounder on a rebound when the ball by striking an unexpected angle striking the unfortunate player full in the face causing a profuse hemorrhage. Unfortunate and regrettable as the accident is, it is to be hoped that it may not result in dampening the ardor of the young ladies for the game.

### LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

The Editor, Summerland Review, Summerland, B.C.

Dear Sir: The writer looked in vain through the columns of the Summerland Review for the apology which those in charge of the Empire Day festivities, and especially those who had charge of the musical program, owe to the public. There is, perhaps, a reason for the omission of patriotic music in the opening of the Empire Hall. The Review kindly informs us that P. C. Manchester was given a carte blanche so far as that part of the program was concerned, and possibly Mr. Manchester is not a British subject. And, even this is not sufficient reason why jokes of the "Missouri mule" type should gain precedence over "God Save the King," and "The Maple Leaf," and that too, after the Hon. Price Wilson's short patriotic address.

Ed. Note: The Review did not state that Mr. Manchester had been given a carte blanche in arranging the programme above referred to. What it reported was that he had been given a free hand in equipping and furnishing the stage of the new hall.

### Nearer The Truth.

Mr. George Gartrell of Summerland met with an accident on Victoria Day. He was taking a party to Crescent Beach Park in his automobile. Taking a sharp curve the wheels of the machine skidded, and the auto. was precipitated into the lake. The passengers escaped injury, but the car was off the run for the rest of the day. Penticton Herald of women.

So the story goes. Bye and bye the car will have dropped off one of the cliffs right into the lake with seven fatalities as a result. The truth of the matter is that George was turning his car round to come back to Summerland, the passengers having disembarked, and the road being narrow at the point of turning, he considered the lake not too soft to back into. But his car was too heavy for the deceptive shaley looking mud, with the result that the back wheels were up to the axles, and the car was put out of business for a little while.

### A Case in Point.

The Summerland Review is of the opinion that the section of the Municipal Clauses Act which provides that no person shall have any business dealings with the municipality and at the same time occupy a seat on the council is more of a detriment than a safeguard, at the same time admitting that legislation to prevent graft is a necessity. It certainly seems too much of a good thing when a business man, if he will occupy a seat at the council board and give his services almost gratuitously to furthering the welfare of the district, must carefully refrain from selling as much as a pound of nails to be used by municipal workmen on a municipal job. This is bound to keep many men who would otherwise be willing to serve the district in this capacity from doing so. We had a case in point a couple of years ago where lumber was taken from a mill in which one of the councilmen was a partner. At the time considerable fuss was raised on this account. It turned out that the lumber, although taken from the yard, belonged to a private party, and not the mill company, but it would have been poor business to travel four or five miles further into town or to another mill for a few planks, when the same could be secured practically on the job and at the same price. Salmon Arm Observer.

### Local News Items

Skunks are busy just now, and those raising chickens, know it. Trap them or shoot them—but if the latter method is necessary, then wait until Master Skunk is on your neighbour's land.

Mrs. Hood is holding her annual Spring Sale. It will pay you to visit her store.

The Summerland Tennis Club held a very successful dance in Empire Hall on Wednesday evening last. There were about thirty-five couples present, and a very enjoyable evening was spent.

Ed. Bentley was at the Landing last week in his motor boat "Greybird." Coming home on Monday, he made Summerland in five hours and fifty minutes.

BIRTH.—At Norton Lees, Balchaine, May 25th, to Mr. and Mrs. O. P. Rowan, a son. Mr. Fred Manchester will conduct a dancing school for ladies and gentlemen every Tuesday night, commencing June 10th, from eight till ten o'clock, in Empire Hall. See him for further information.

A splendid specimen of the Golden Eagle was trapped in the mountains last week, by "Charlie," the herder for W. Armstrong. The bird has a spread of six feet six inches, from tip to tip, and occupies a position in the Ding Store, mounted by Fred Anderson.

### Stomach Agony

Abolish the Cause and Misery and Distress of Indigestion will Vanish

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness; sour stomach; fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-o-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to the Summerland Drug Company this very day and get a large box of Mi-o-na tablets, and start themselves on the right road to health at once.

The price of Mi-o-na tablets is only fifty cents, and the Summerland Drug Company guarantees them to cure indigestion or money back.

Thin or lean or scrawny people will find in Mi-o-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

## HYOMEI

**FAMOUS PEOPLE**  
BY FANNIE M. LOTHROP

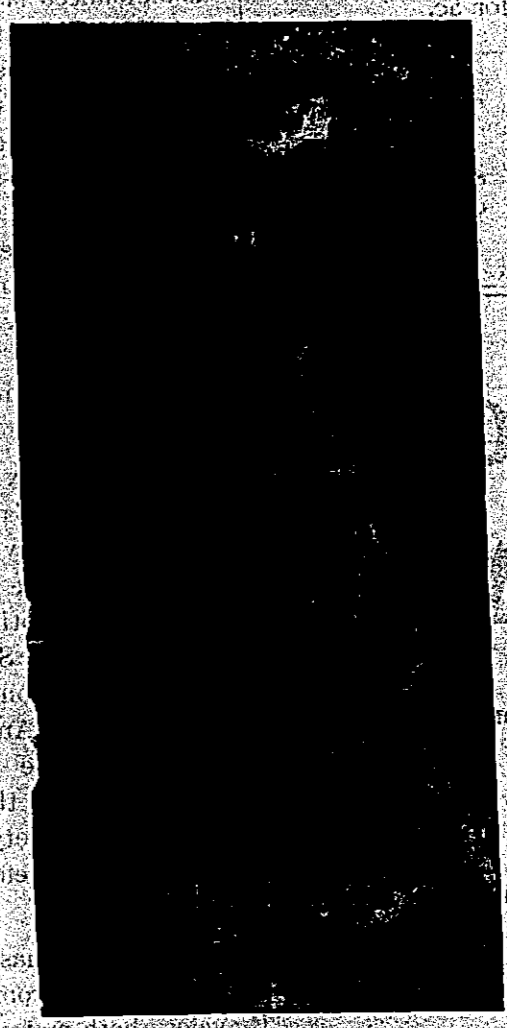

**HELEN KELLER**  
The World's Most Remarkable College Graduate  
The story of Helen Keller's life is the biography of two wonderful women—the blind, deaf and dumb girl, who for over twenty years has fought against awful odds; and the kind, ingenious and patient teacher who has led her charge into the sunlight of knowledge and of kinship with humanity.  
In 1880, when Miss Annie Sullivan was called to Tuscombia, Ala., to assume the care of Helen, the child had been living for nearly five years in the mental darkness that followed her terrible affliction, resulting from convulsions. The task of education seemed well-nigh hopeless, for the one sense through which the child's mind was to be awakened to consciousness was her sense of touch. But in June, 1884, eighteen years later, Miss Keller graduated from Radcliffe with distinction, and received her degree of B. A.  
This fairy tale of education, this romance of the conquest of obstacles, is a superb triumph of concentration. At her entrance examination, in June, 1880, as if Nature had not sufficiently handicapped her efforts, she had to submit to two additional trials. The questions were given her in the American Braille system of writing for the blind, with which Miss Keller was only slightly familiar, having learned the English Braille—the two systems being as different as two distinct systems of shorthand. This delay in pushing out the translation of the questions was further aggravated by the fact that her little Swiss watch with raised figures had unfortunately been left at home, so she had no means of gauging the time, yet her typewriter clicked out the answers and she "passed" with flying colors in every study.  
During her college course, in many studies Miss Sullivan repeated the lesson while Helen's fragile fingers, feathering their way over her mentor's face, translated the muscular motions of speech into ideas. She studied English, Latin, French, Greek, German, political economy, logic, higher mathematics, chemistry and all the other myriad phases of college wisdom, through her wonderful fingers.  
She uses the typewriter in five languages, has learned to speak with clear articulation, can swim, row, play cards, chess and basketball; and, perform a hundred other seemingly impossible things. Her memory is marvellous, her temperament sunny and happy; her mind is wonderfully broad, subtle and thorough, and her book, "The Story of My Life," besides being a biography, is the most important work of the century on being a blind and deaf person, is the most important work of the century on psychology as a revelation of the human mind, its moods and possibilities.

**Local News Items.**

Where is the Summerland war canoe? Time the boys were putting in some practice for Coronation Day. We don't want second prize.

Mrs. Pattison, mother of Rev. F. W. Pattison, has gone east for a vacation. She is expected to return in September.

Mrs. R. C. Tippett is expected home on Saturday's boat. The doctor reports that her health is much improved.

Mr. James Clark killed a ten pound silver trout on Wednesday evening last. He was trawling well down to Trout Creek Point.

The public entertainment that was announced last week to be held in the new Baptist Church was postponed out of respect to the late Mr. W. Estabrook. It is now announced for next Tuesday evening. There will be no admission charge, and the gathering is to celebrate the opening of the new place of worship. An appropriate program is being arranged by Mrs. Hayes and Mr. C. P. Nelson. It is expected that all the local ministers will be present.

Rev. John Knox Wright, district secretary of the Canadian Bible Society, an auxiliary of the British and Foreign Bible Society, is to preach in the Baptist Church, West Summerland, on Sunday morning at 10:30. On Monday evening at 8 o'clock in St. Andrew's Presbyterian Church, he will address a public meeting in the interests of the Canadian Society. Dr. E. W. Sawyer is president of the local branch.

C. P. Nelson has procured the motor bicycle from Ed. Butler. Bicycles, both motor and otherwise are quite a popular institution in Summerland this season.

Fred Anderson has sold his latest motor launch to Mr. Weekes of Penticon.

The lake shore drive between Summerland and Penticon promises to be a popular and much used thoroughfare this season. It will this summer, no doubt be one of the very best roads in the interior of B. C.

It will no doubt have been noticed that the Okanagan is making much better time of late. No doubt this is because of the greatly increased capacity of the barge service due to the advent of the powerful tug "Castlegar." The improved service is greatly appreciated.

The steamer "Aberdeen" has been missed about the lake of late. She has been put in dock at Okanagan Landing and is being thoroughly overhauled, in fact almost rebuilt. It is hoped to have her in commission in good time for the moving of the fruit crop.

It is reported that W. A. Lang, an ex-reeve of Peachland has secured the Indian reserve some ten or twelve miles north of Peachland. It will possibly be thrown open for settlement and will make a valuable addition to the Okanagan Fruit districts.

The funeral of the late Mr. Willard Estabrook took place last Saturday afternoon from his residence in Peach Orchard. The large gathering of friends and neighbors, assembled to pay a last tribute to their friendship, bore eloquent testimony to the esteem in which he was held locally. A short, impressive service, conducted by the Rev. F. W. Pattison, assisted by Dr. E. W. Sawyer, was held prior to interment in the cemetery nearby. The pall bearers were Messrs. Adam Stark, Homer Butland, W. H. Hays and Wm. Kerr.

Mr. J. C. Robinson's class in the Methodist Sunday School, known as the "Tuckabatcha" will celebrate the King's birthday, to-day, (Saturday) at Chute Creek. They have engaged the "Maude Moore" to transport them to that point.

**Disarm The Bobby.**

Some of the women workers for civic improvement in Montreal have advised as a possible step in progress to have the policeman's club and revolver replaced by a lighter cane. One of the city papers remarks that this is the direction which all correction is taking nowadays—that of moral suasion rather than force—and reminds us that this ideal has been measurably attained in some communities. The London "bobby" though unarmed, usually carries his point, and the Paris sergeant de ville, though he carries a sword is rarely known to draw it from its bright scabbard. While the conditions in the new land, with its heterogeneous population still unsettled, may not allow of the quieter methods of the older civilizations, still the stirring of such questions points to the day when the more brotherly admonition shall be sufficient among us. The appeal in London and Paris is to the community sense of the people. The need of law and order is recognized there unconsciously perhaps, and the established rule is more respected, more easily enforced.

**Card of Thanks.**

"Mrs. W. Estabrook and family wish, through your columns, to thank their many friends for the kindnesses shown them in their recent sorrow."

Dr. Ellis, one of Canada's greatest geologists died at Ottawa on Wednesday 23rd of May. He had been connected with the Government Geological Service since 1872. His parents were loyalists who settled in Nova Scotia, where he was born in 1845.

Otto Becker, of Hamburg, Germany, has purchased a block of land near Wardner, B.C., where he will start an ostrich farm. He has been engaged in ostrich farming in Africa and after a thorough investigation has decided that conditions are favorable for ostrich raising. Ostriches ranches are successful in California, Arizona, Texas and Florida.

The court of appeals of the Methodist Church has decided that under no circumstances are women to represent Methodist congregations at national conferences. The issue was raised by the British Columbia conference where a woman elected by a quarterly board to represent the church, was refused admission to the conference.

Rev. Dr. Gordon (Ralph Connor) has failed in his attempt at conciliation between the mine owners and miners of Fernie, B.C., and has adjourned the conference.

Miss Evelyn, daughter of Hon. J. E. Hillson, Provincial Minister of Finance, has passed her final examination at McGill University for the degree of B.A.

Two weeks ago while the mail auto was making its regular trip between Vernon and Kelowna, the driver lost control of his machine, while going down the hill to Loch Lake, with the result that the four passengers were thrown out of the bank and some of them seriously hurt. The machine stopped just a foot or two from the edge of the water. While the passengers were not actually injured, they were very close to it.

**WANTED**—A few young children in laying condition, will be adopted, preferred others do if laying. Write giving particulars to "Poultry" care of Review, 110 Main St., Kelowna, B.C.

**LOST**—Willard driving between the "Buckshot" Shop and Thos. E. Moore's store, by way of the gulch road, a lady's gunmetal watch and four-de-lis pin. Finder please return to the Review Office.

**FOR SALE**—Large "Homocent" wagon, suitable for team, heavy body and tires. Owner would exchange for light one. L. Page, West Summerland.

**Best In Footwear**

You are known by the shoes you wear. Your good taste is shown by the manner in dressing your feet. You are no better than your feet and your feet are no better than the shoes you wear.

A stylish rich looking shoe shows gentility and neatness in the wearer. But you must have quality as well as style in the shoes you wear.

The shoes we are showing combine both these features. You can rely on getting better value for your money here than can be had elsewhere.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND PEACHLAND AND NARAMATA

Vol. 3, No. 44

SUMMERLAND, B.C., JUNE 10, 1911

Whole No. 148

## A BUSY COUNCIL MEETING

### MANY CITIZENS IN ATTENDANCE BETTER FIRE PROTECTION

### Big Building for the Park Road Obstructions to go A Larger Cemetery

The Municipal Council met in regular monthly session on Monday morning. Reeve Ritchie was in the chair, and about the Board were Councillors Thomson, Dunsdon and Lewes. Quite a number of citizens were also in attendance.

A goodly part of the morning was taken up by a delegation from the Trout Creek benches. They reported that a number of the lots were not getting sufficient water, or water when it was not expected. There were many suggestions offered and ways and means of bettering the conditions discussed. It was shown that there was an abundance of water, but until the new distribution system is installed, a very thorough supervision by ditchmen is necessary and a mutual arrangement for the taking of water on different days by the lot holders instituted. A pipeline for the further distribution of domestic water will be extended in that direction.

Another deputation, composed of E. J. Phinney and Will Ritchie, enquired of the Board as to what arrangements were being made for better fire protection about the business section at West Summerland. They were told that some more hydrants were on order and would soon be installed. A motion was also passed by the Council ordering that one of the reel carts with four hundred feet of hose be placed at West Summerland for fire protection purposes. This seemingly satisfied the deputation.

Mr. Arnott asked the Council what was being done about a road passing his lot, and the matter was promised early attention.

### SUB-DIVISION PLANS REFUSED

Several plans of sub-divisions were presented for approval of the Council. None were altogether in order and they were turned back for revision, correction or completion. It was then enacted that the Clerk be authorized to sign on behalf of the Council these plans on the same being in order according to the Land Registry Act of 1900, and amending acts.

C. S. Stevens called the attention of the Council to the fact that while notices had been posted for the instruction of motorists, that these were not sufficiently conspicuous for strangers nor had instructions for teams been posted. He thought that teams should not go down the hills allotted to the cars for their access to the benches.

Yet another deputation representing the Citizens' Band came before the Council. They came, not making any request for themselves, but to report that a number of West Summerland citizens had asked them to give some of their open-air concerts there. They said that the Band was willing to do so if they had a bandstand, and also transportation for a few of the members provided.

### \$7,000 HALL FOR THE PARK.

The Agricultural Society was heard in reference to a site for the new Exhibition Hall. They reported that while a number of sites were available, they had come to the Council asking permission to erect their building in the park in Peach Orchard. The chief objection to all the other sites was the cost of putting in a frost-proof collar which must be provided before the plans were passed by the government officers and the Society's committee believed that the only place where this could be done economically was at the south of the park where the

building could be put against the bank.

There was considerable discussion re possibilities of future complications and control of the building and grounds.

The following motion was finally carried.

"That the request of the Horticultural Society for the right to erect and control a building for horticultural purposes in the park in Peach Orchard be and is hereby granted on the understanding that the Reeve of the municipality be in each year a director on the board, and if found necessary a proper lease be given to the Horticultural Society.

The members of the council took up the matter of reported obstructions to roads or road allowance being erected in Peach Orchard. The clerk was instructed to notify any person putting any building or obstruction on any street or road to at once remove the same and any person obstructing any street or road by tethering any animal on the same are rendering themselves liable to prosecution by so doing."

A letter from C. Meredith & Co. Ltd., of Montreal, written in the interests of eastern purchasers was received, asking that the council arrange to have all interest coupons on debentures payable at par in Montreal.

Another letter as follows from the Health Officer Dr. C. M. Smith was read:

"In order to prevent the future accumulation of garbage and refuse in streets and lanes, as well as on resident and non-resident premises throughout the district it is absolutely necessary that the Council provide suitable receptacles (with covers), to be placed at convenient points for the reception of such waste material, and that arrangements be made to collect and remove same at short intervals."

The Council informally concluded that it had not sufficient funds this year to draw from out of which to provide for such a service.

A not very encouraging reply to a recent letter to the Customs Department at Ottawa, asking that a Customs Office be established here was also read. The Clerk was instructed to again take up the matter with the department.

### HOSPITAL BY-LAW PROGRESSING

The petition, asking that a by-law in accordance with the Hospital Society's request be prepared and put before the ratepayers to be voted upon, was presented. The Clerk was instructed to take up the question of a by-law with the Council's solicitors.

Enquiry was made as to what progress had been made with the adjustment of the Hotel accounts. The Clerk reported that he had made enquiries of the citizens' committee appointed to examine the accounts and verify the statement already submitted, that they had taken the matter up with the Development Company, but that the Company wished them to wait till they could get a full year's statement.

The Reeve brought up the matter of the early necessity of providing additional cemetery space. He urged that the present site was an ideal one and should be extended if adjoining properties could be purchased right. The Clerk was instructed to open negotiations toward such purchases.

As it was nearly one o'clock and the business was not completed, adjournment was made till Monday, the 12th inst.

### CENTRAL SCHOOL TO BE OPEN IN FALL

### Rearrangement of Teaching Staff Conveyance of Pupils.

The Summerland School Board met in regular session Monday afternoon. The chief items of public interest discussed were the receiving of resignations of some of the teachers, and a rearrangement of the teaching staff, because of the opening of the new Central School in the fall.

The resignations of both Mr. Robson and Mr. Hindle were accepted. The secretary was instructed to advertise for two men, one for the principalship of the High School, and the other for a similar position in the Public School. Miss Thompson, teacher at Prairie Valley, and Miss Hobbs at Trout Creek, also resigned. The consolidation of the schools, makes the need for lady teachers less and it will not be necessary to refill the positions of either of these young ladies at present. Misses Watson, Hunter and Lewis will form part of the Central School staff next fall.

The secretary is also to call for tenders for the conveyance of pupils to and from the Central School building.

### Local News Items.

The following is the Honor List for the Ward I. School for May: Senior 3rd.—Doris Fulton, 92; Allen Harris, 89; Gertrude Rines, 77; Bertha Bristow, 76; Kathleen Brown, 76; Ida Shields, 75; Edna English, 71; Senior 2nd.—James Clark, 82; Gwen Harris, 78; Kathleen Merrill, 76; Donald Ross, 75; Marjorie Hatfield, 72; Willie Clark, 70. Junior 1st.—Bobbie Hatfield, 75; Laurence Beavis, 70; Jack Harris, 70.

Judge and Mrs. Walker, of Winnipeg, were this week the guests of Mr. and Mrs. J. M. Sutherland, Peach Orchard.

Mrs. E. J. Phinney returned from a visit to the coast last weekend.

The local exponents of the histrionic arts are busy on a comedy by that clever dramatist, Oscar Wilde. The title of the play is, "The Importance of Being Earnest," and it is in every way a splendid comedy. It is to be produced on Coronation Day, in the Empire Hall, and the local hospital will benefit by the proceeds.

E. S. Hoppin and wife, of Vancouver, have recently arrived in Summerland. They have rented the tont house on M. D. Manchester's fruit lot and will probably spend some weeks in this health-giving climate.

On Friday last, the 2nd inst, Mrs. W. H. Snow, of West Summerland, passed away to her eternal home. Mrs. Snow had been ailing for some considerable time, and was recently operated upon for cancer. The operation was successful, but pneumonia set in before she recovered, to which she succumbed. To her sorrowing husband and three children the sympathy of the community goes out in their very sad bereavement. The remains were interred in the Roman Catholic cemetery at Kelowna, Father Verbeck officiating. A number of friends journeyed from Summerland to Kelowna, to pay the last tribute to the departed.

The many friends of Dr. Angwin will be pleased to hear that he is now rapidly regaining his strength, following his late spell of illness.

### ROYAL WELSH LADIES' CHOIR

### Other Good Entertainments Booked.

Our enterprising Citizens' Band are congratulating themselves on having been able to secure several unusually good entertainments which will be put on in Summerland from time to time during the coming fall and winter months.

The first to be presented will be the "Juvenile Bostonians." This company is composed of some twenty young people ranging in age from thirteen to eighteen years, and is booked for September 25. Their program is described as being a very clean, bright and pleasing musical comedy.

The Royal Welsh Ladies' Choir is already known in the Okanagan, having appeared at Kelowna last season to capacity houses, and for which place they are again booked this year. The Choir is composed of some twenty-four Welsh ladies, and will no doubt be met with a crowded house on October 17th. Summerland is fortunate in securing a night from this Choir repertoire. For January 15, 1912, the "Dixie Jubilee Singers" have been secured, and on February 15th we are to have the "Castle Square Entertainers."

It was not until the management of the above companies had been satisfied that music of excellent quality would be furnished by the local band that they were permitted to include Summerland in their circuits.

### THAT HOTEL MATTER.

It was stated at the Council meeting on Monday last, by the Clerk that he had been informed by a member of the committee appointed to inquire into and report upon Hotel matters, that the Company had asked them to wait until a year's accounts had been completed. This was not in accordance with the facts as understood by the Review, and a representative made further inquiries at the Development Company's offices. The Review learns that when this matter was taken up with the Council by Mr. J. M. Robinson, manager of the company, that he submitted accounts to the end of 1910, covering a period of eight months in the business year of the Hotel. These accounts were submitted at the public meeting, and again given the committee which was appointed to investigate and report. This eight months statement was taken up with the Company by the committee, and the Company states that after going over the accounts, the committee (not the Company), suggested that it might be well to wait till after May 1st (it was then April) and get a full year's statement.

The Company, while regretting the delay, consented and a detailed statement for the year ending April 30th, was prepared. This has been ready since the middle of May, and the committee notified several times to that effect. The Development Company feel that it is only fair to themselves that this correction be made, as they were in no wise responsible for the delay, but were ready and willing to give the committee any information required.

The monthly meeting of the Women's Institute will be held on Friday, the 16th inst, at three o'clock in the Parlors of the Men's Club. There is to be a strawberry shortcake demonstration, with a cup of tea and a short musical program. As the meetings are to be discontinued during the next three months the ladies hope for a good attendance.

## RATEPAYERS' ASSOCIATION

### GOOD ATTENDANCE P. C. A. PROPOSED THAT PIPE LINE

### Resolution re Municipal Statement

The Ratepayers' Association held an adjourned meeting on Friday evening, the 3rd inst.

Considerable business was transacted although there was not the animated discussion noticed at previous meetings.

The secretary submitted particulars respecting the organization of a Society for the Prevention of Cruelty to Animals, under the laws of the Province. Messrs. English and Richardson were requested to take in hand the formation of a Society in Summerland. In view of facts that have come before some of the members of the Association, such a Society is undoubtedly needed here, and it is hoped that the efforts in this direction will meet with the active assistance from our citizens.

The secretary also gave a verbal report of the legal advice that had been obtained in connection with the Pipe Line contract. It was to the effect that the contract was altogether in favor of the contractor, and that the interests of the Municipality had not been properly protected. Respecting the penalty clause the contention of the Council that compensation could only be claimed for loss sustained, and that as the loss was so trifling it would not be worth while trying to collect the same, was plainly not upheld by the terms of the agreement which plainly reserves to the Council the right of enforcing a penalty of \$20 per day for each and every day that the work is unfinished after the time specified for completion, such penalty to be deducted from money due the contractor. It was the duty of the Council to retain the penalty. Then if the contractor objected, it would be for him to show why the penalty should not be exacted. The omission to make a deduction from the contract price for the reduction in depth of the trenches could not be defended because it was endorsed by the Engineer. The Council could not take shelter behind the Engineer, as they were primarily responsible.

The committee appointed to interview the Council respecting amendments to the Pound By-law and regarding the speed and routes used by chauffeurs, reported that the Council did not seem disposed to amend the Pound By-law but promised better regulations respecting automobiles. The financial statement of the affairs of the Municipality recently published in the Review was brought up. The following resolution respecting it was carried: "That whereas section 63 of the Municipal Clauses Act provides that the Municipal Council shall on or before the second Monday in January in each year, publish or post up on the door of the Council Chamber a balance sheet showing the assets and liabilities of the Corporation on the 31st day of December immediately previous to such publication or posting up, and also a statement showing the receipts or revenue and expenditure from the first day of December (inclusive) last passed, under the general heads of such receipts and expenditures giving as full particulars as possible, so as to enable the ratepayers to understand the financial affairs of the Corporation. Whereas the said balance sheet and statement of receipts and expenditures were not posted as required by law; Wherefore it was explained by

the Council to the committee of this Association deputed to interview the Council respecting the neglect in issuing said balance sheet and statement that the delay was to be attributed to the fact that the books of the municipality were closed at the end of the year for one month only, whereas several months were necessary for the Auditor to examine said books and prepare said balance sheet and statement.

Whereas the Summerland Review in its issue of the 8th of April published a balance sheet and statement of receipts and expenditures of the financial affairs of the Corporation over the signature of the proper municipal officers. Whereas said balance sheet and statement do not give as full particulars as possible so as to enable the ratepayers to understand the financial affairs of the municipality as is required by the provisions of the Municipal Clauses Act. It is the opinion of this meeting:

1. That if the books of the Municipality are kept in an efficient manner there should be no need to close them for a longer period than one month to enable the Auditor to prepare the balance sheet and statement in time to be made public in accordance with the Municipal Clauses Act.

2. That it is impossible to obtain from the balance sheet and statement of receipts and expenditure published full details as to the items that should accrue under the respective heads thereof charged or as to the expenditure under the respective heads as required by law.

3. And that in other respects, that are apparent as the said balance sheet and statement are referred to for such other information as a ratepayer might reasonably look for in such documents, they are defective. Therefore this meeting hereby requests the Municipal Council to have a balance sheet and statement of receipts and expenditure for the year 1910 prepared by the Auditor that will as fully as possible conform to the provisions of Section 63 of the Municipal Clauses Act, together with a detailed report thereon by the Auditor embodying any information or criticism he may think proper to advance respecting the financial affairs of the Corporation. The meeting then adjourned.

A Fernie man bought a ranch last year. It comprised some 200 acres. He engaged two men to take care of his fences and crops. He paid them \$2.75 per day. They did not get along very well. Neither did the work. He raised the first man to \$3 per day and made him working for man over the other, whose wages he reduced to \$2.50. The arrangement was an improvement in the amount of work accomplished but was not satisfactory. He raised the first man to \$3.25 and made him walking boss. The other was reduced to \$2.25 per day and had to do all the work that was done. The amateur rancher found the last arrangement produced the best results. Why?—Froo Froo.

"No no talkoo Chinese velly well," explained the hostess upon greeting the distinguished visitor from the Flowery Kingdom. "No matter," responded the latter, "I can converso tolerably well in English."

#### SOME OF THE GREATEST THINGS.

Here are some facts which every Britisher will accept without question and feel just a little bit of pride in doing so:

The finest gardens in the world are the gardens at Kew, England. They cover an area of 270 acres, and are visited by more than a million and a half people every year. The gardens contain the finest collection of exotic plants in the world, a palm house, a winter garden, a museum, an observatory and a school for gardeners.

The largest map in the world is the Ordnance Survey map of England, containing over 108,000 sheets, and costing one million dollars a year for twenty years. The scale varies from ten feet to one-tenth of an inch to the mile. The details are so minute that maps having a scale of 25 inches "show every hedge, fence, wall, building and even every isolated tree in the country." The plans show not only the exact shape of every building, but every porch, door-step, lamp-post, railway and fire plug.

The largest single community of the world is London, lying in four counties and having a population of 7,500,000, equalling the combined populations of Paris, Berlin, St. Petersburg and Rome. To walk through all the streets, avenues, lanes and alleys of the city, never traversing the same one twice, would require a ten-mile walk every day for twelve years. The streets, placed end to end, would reach around the world and leave a remnant that would stretch from London to the Okanagan Valley.

#### FLAG AMBITIONS.

The British Californian, published at Oakland, California, hits the nail squarely on the head when it says: "The Canadians have taken the path that leads away from home, it is true, but there need be no fear that they will fall victims to the machinations of any other nation that may seek to devour them. If there is a man on earth capable of taking care of himself in any company it is John Canuck. By temperament, intelligence and training he is peculiarly fitted to hold his own and make the best bargain for himself in this rough and selfish world. Also he has certain high ambitions which are not to be attained by merging his nationality with another. One day a common flag may float over all the territory between the Arctic Ocean and the Panama, but it will not be a flag on which the maple leaf does not figure."

#### MR. JOSEPH CHAMBERLAIN, PROPHET.

Just now when the big men of England are endeavouring to draw out Sir Wilfred Laurier to make some public reference to Canada's reciprocity agreement with the United States, the following words of Mr. Joseph Chamberlain, delivered at London, on July 8th, 1904, will be read with interest:

"The Colonies will never want for suitors, and if you do not pay your court to them while they still are willing to receive your addresses you will find that in the time to

come they will have made other arrangements, and you will no longer be welcomed in the house of those who are now your greatest friends."

#### PROMINENT MANITOBIANS HERE.

The early part of this week was spent in Summerland by His Honor Judge Walker and Mrs. Walker, of Winnipeg. These pioneers of the metropolis of western Canada have many friends in and about Summerland who would have been glad to have them spend a longer time here. Mr. and Mrs. Walker are returning to their Winnipeg home after spending the winter in Honolulu. This is their second visit to Summerland. Since visiting Summerland two years ago Judge Walker has retired from the senior Judgeship of the county courts of Manitoba, having concluded his judicial career after twenty-five years of service on the bench.

There are few Manitobans in this vicinity who do not remember the placid kindness of Mr. and Mrs. Walker during their forty years residence in Winnipeg and Brandon, and their many old-time friends who have known them best will appreciate these words from the Winnipeg Telegram:

"The passing of Judge Walker from the bench to private life, marks as few events could the closing of an epoch in the history of Manitoba. The event is emphasized by the strong personality of one who in the social and professional life of Winnipeg since its beginning has been unobtrusively conspicuous in an honourable career at the bar, in the councils of government, and on the bench since the creation of Manitoba as a province of the Dominion of Canada and the municipal incorporation of Winnipeg as a city. Judge Walker probably has been longer and more prominently allied with the progress of Winnipeg and of Manitoba. For over forty years he has been practically a resident of Winnipeg and ever during that time has been an influential factor in the social, religious, professional and public development of the metropolis of Western Canada.

"It may be, however, that as long as David Marr Walker will be remembered by those who knew him or followed him as an officer of the first Red River expeditions, by clients who benefitted by his wise advice as practising lawyer in the early days of Winnipeg's history, by political adherents who recall his counsel and earnestness as attorney-general at a time when Manitoba was an isolated province of the Dominion, by lawyers and litigants who recall his care and courtesy as a judge of an important, "the people's" court, it may be that he will longest live in the memories of those who knew him as Judge Walker, the high-minded, clear-headed, kindly gentleman of a school that is passing in the hurry and haste of an eager age."

#### STEPPING FORWARD.

How do you like the Review in its new and enlarged form? This is the first step in the improvements which have long been in contemplation and which promise to add materially to the advancement of the towns of the Peach Belt. The Review has ever held an important place in the development of the district and it has endeavoured at all times to keep abreast of the needs of the district in the matter of newspaper and job printing plant. We have, indeed, stepped far in advance of our present needs in the matter of presses and typesetting machine, but this modern machinery will not only permit us to cope easily and readily with present needs, but will place us in a position to handle the increased business of the future in a manner acceptable to all.

The field covered by the Review is necessarily restricted, but it is rapidly enlarging and, thanks to our

We wish to thank our many customers for their generous and ever-increasing patronage while we have been in the Feed and Implement business.

We hope to be able to announce next week something of the future of the business.

Prompt payment of accounts would greatly facilitate the settlement of our affairs.

Large platform scale for sale. We have a few cans of Lime-sulphur spray for sale. Balance of other stock on hand while open.

## WHITE & CO.

able and willing correspondents in the various parts which need to be covered, we have been able to meet all conditions and are prepared to step still farther forward as the demands of the district demand it.

#### NARAMATA'S REGATTA.

Few events held in the Okanagan Valley have been as successful as the Naramata Regatta last year. It was an occasion which spoke volumes for the splendid character of our people and the district, and one that will be long remembered by all having anything to do with it, either as a member of the committee having charge of the work in connection with it, or as a visitor from the other towns in the Valley. We understand it is the intention this year to make the approaching regatta even a greater success than that of a year ago. This means hard work, and lots of it. It means the sacrifice of time and money. It means that each must do his part that all—the district—may benefit.

Decided—accomplished.

#### TO OUR SUBSCRIBERS.

We understand that subscribers in some parts of the municipality have difficulty in procuring their papers up to time. We do not understand how this should happen. Papers for each postal district are delivered Friday afternoon to the Summerland post office in bundles and leave in that condition, so please note, if any one person procures a paper from your particular post office, then there is no reason why yours should not be delivered also. The Review will be glad to take the matter up with the P. O. if irregularities continue. Kindly report if such is the case.

#### MUNICIPALITY OF SUMMERLAND.

Central School Conveyance Contracts.

TENDERS will be received by the undersigned marked "Conveyance Contracts," up to June 20, 1911, for the conveyance of pupils to the Central School, West Summerland, on the following routes:  
Route No. 1.—Gartrell Post Office via Town to Central School.  
Route No. 2.—Mr. Elliott's Store via Peach Orchard Gulch to Central School, returning in evening via Summerland School.  
Route No. 3.—Mr. Adams to Central School.

The maximum number of pupils expected to be conveyed on each route is as follows: No. 1, 12; No. 2, 20; No. 3, 10.

The pupils to be conveyed in suitable rigs in time for school each school day, and called for in the evening at the close of school and conveyed back to starting point.

Tenders to state the price for each double trip the rig being found by the School Board, and also if found by Tenderor.

The successful Tenderor to be prepared to enter into an agreement with the appended Bond for due carrying out of contract for one year.

J10 17 J. L. LOGIE, Secretary.

at prices on which you cannot help but make money, situated as it is within five minutes walk of the Central School and near the Okanagan College. The lots are all planted and a domestic water system goes past two sides of the property.

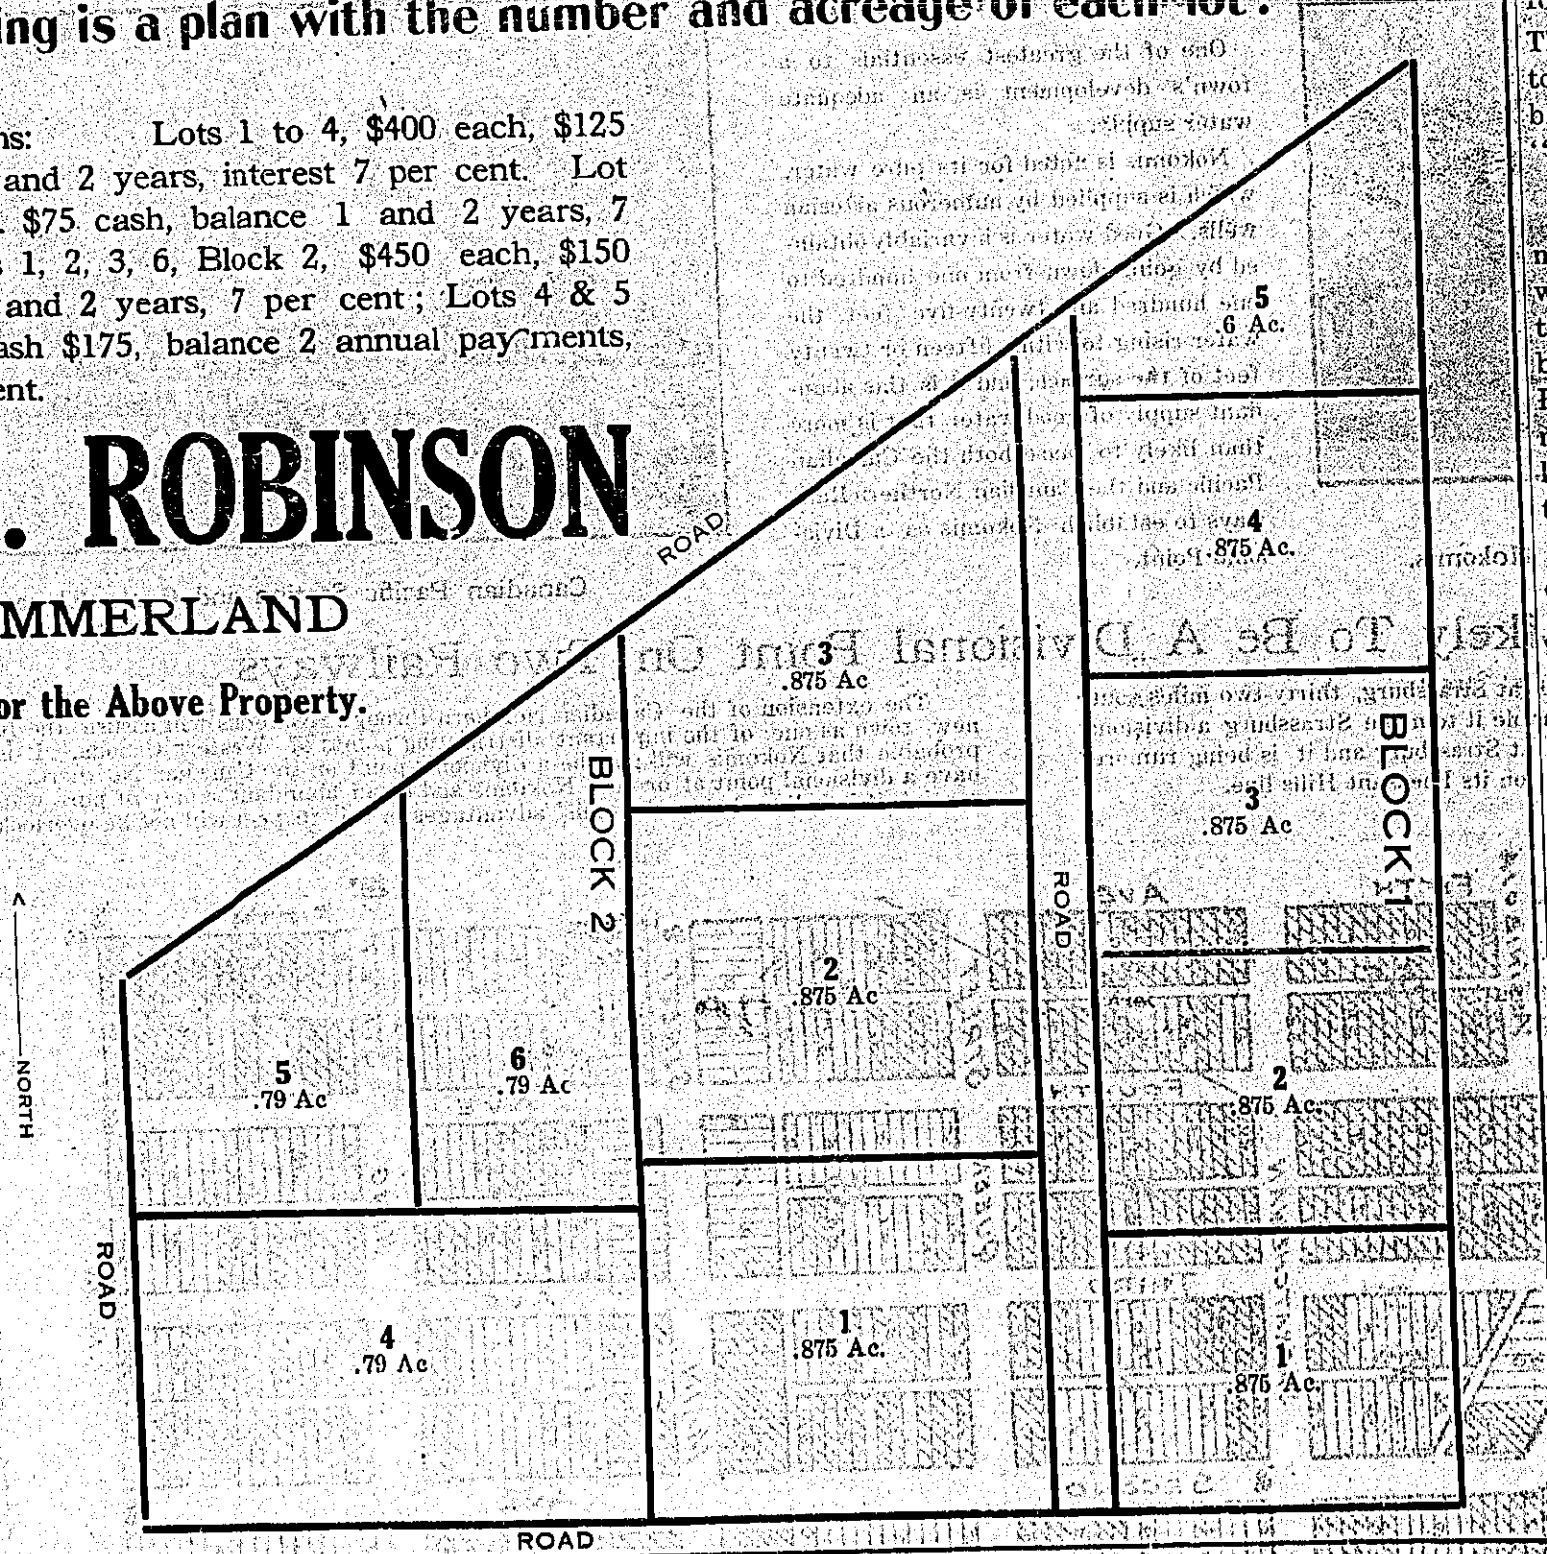

The following is a plan with the number and acreage of each lot:

Prices and Terms: Lots 1 to 4, \$400 each, \$125 cash, balance 1 and 2 years, interest 7 per cent. Lot 5 Block 1, \$210. \$75 cash, balance 1 and 2 years, 7 per cent. Lots 1, 2, 3, 6, Block 2, \$450 each, \$150 cash, balance 1 and 2 years, 7 per cent; Lots 4 & 5 Prices \$600. Cash \$175, balance 2 annual payments, interest 7 per cent.

## W. J. ROBINSON

### SUMMERLAND

Sole Agent for the Above Property.

## Naramata Notes:

Mr. G. B. Purdham from Battle Creek, Mich., is spending a vacation in town, the guest of Mr. and Mrs. H. J. Wells.

Miss Irene Morgan returned on Monday from the Summerland Hospital much to the delight of her many friends.

Mr. J. M. Robinson is expected back the forepart of next week from his trip to Montreal.

The presence of quite a number of Japs in town who have come in or who have been brought in to do ditchwork, would seem to point to a labor problem which it is to be hoped may not become acute.

The preparations for the regatta are in quiet progress. It is probable that there will be no big excursion boat this year, as the "Aberdeent," the only available boat capable of carrying a big crowd is undergoing extensive repairs at the Landing and will not be ready for the date set for the regatta.

The Hotel grounds are beginning to show up a wonderful wealth of bloom and reflect much credit upon "the man behind the hoe."

Last Tuesday evening a social meeting was held in connection with the opening of the new Baptist Church. The other ministers brought their greetings. Mr. W. H. A. Moore and Miss McLeod furnished music. The ladies served a lunch, and everybody had a good time.

The Boy Scout movement increases in interest. Every man believes in a healthy work for boys. All friends of boys who can may the opportunity of contributing to the initial expense of securing equipment for the local branch by putting their names on the subscription lists which have been opened at the Bank of Montreal Summerland and West Summerland. The subscriptions can be paid to the clerks. About \$100 is desired.

Mrs. J. Lock left on Wednesday morning for Kelowna where she expects to remain for a few days.

### "IOLANTHE"

A Well Staged Production.

The "Three cheers for Kelowna" so heartily given at the conclusion of "Iolanthe" Thursday evening was only one evidence of the complete satisfaction felt by the large and enthusiastic audience which so thoroughly enjoyed the performance from beginning to end. Summerland had heard much praise of the comic opera "Iolanthe" as put on by the Kelowna Musical and Dramatic Society, and an unusually large gathering, crowding Empire Hall to its fullest capacity, came expecting much. Judging from the very genuine praise given by the dispersing audience there were none who were not pleasantly and agreeably surprised at the high standard by this amateur company. Little more could have been expected from a company of professionals. The presentation was exceedingly well staged and from first to last went with a swing quite in keeping with that class of opera. The scenery, especially painted for "Iolanthe" was particularly good, the pastoral scene being very pleasing and realistic. The costumes were elaborate and complete as was also the general stage arrangement, the varied lighting effects being splendid.

The impression made upon Summerland by the Kelowna Amateurs assures crowded houses at future productions here.

FOR SALE.—Uxbridge Organ, thirteen stops, in good conditions. \$75.00 Cash. Apply Review: j10 17

FOR SALE, cheap; comfortable 14 x 20 shack with or without contents. Enquire Review Office, or Box 155, Post Office. j10 17

**PUBLIC NOTICE** is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation was approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at \$10 and \$5 per acre respectively.

This regulation further provided that the prices fixed therein should apply to all lands with respect to which the applications to purchase were given favorable consideration after the date of such regulation, namely April 3rd, 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor in Council on the 10th. of May, 1911, that the regulation dated the 3rd. of April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd, 1911; and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd, 1911.

ROBT. A. RENWICK,  
Deputy Minister of Lands,  
Department of Lands,  
Victoria, B.C., 16th of May, 1911.

### PUBLIC SERVICE ACT.

The qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places commencing on Monday the 3rd July next:—

Armstrong, Chilliwack, Cumberland, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, North Vancouver, Peachland, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of twenty-one and thirty, if for Third-class Clerks, and between sixteen and twenty-one if for Junior Clerks or Stenographers. Applications will not be accepted if received after than the 15th June next.

Further information, together with application forms, may be obtained from the undersigned.

5.5.6 P. WALKER,  
Registrar, Public Service,  
Victoria, B.C., 27th April, 1911.

### NOTICE TO CONTRACTORS.

Ellison School.

SEALED TENDERS, superscribed "Tender for Ellison School building," will be received by the Honourable the Minister of Public Works up to noon of Monday, the 26th day of June, 1911, for the erection and completion of a two-room frame school with concrete basement, etc., at Ellison, B. C., in the Okanagan Electoral District.

Plans, specifications, contracts, and forms of tender may be seen on and after the 5th day of June, 1911, at the offices of M. Heron Esq., Secretary to the School Board, Kelowna, B.C., the Government Agent, Vernon, B.C., and at the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of \$500, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the form supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,  
Public Works Engineer,  
Department of Public Works,  
Victoria, B.C.,

## Stomach Agony

Abolish the Cause, and Misery and Distress of Indigestion will Vanish

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness; sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-o-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to the Summerland Drug Company this very day and get a large box of Mi-o-na tablets, and start themselves on the right road to health at once.

The price of Mi-o-na tablets is only fifty cents, and the Summerland Drug Company guarantees them to cure indigestion or money back.

Thin or lean or scrawny people will find in Mi-o-na a maker of flesh and blood; because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

## LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C. June 6th, 1911. Editor, Summerland Review, Summerland, B.C.

Sir,  
In reply to the letter written to and published by The Summerland Review by someone who criticised my methods of conducting a theatrical entertainment, and signed the article Pro Patria, the gentleman of patriotic principles evidently did not understand the situation, and I do not consider him of sufficient standing in the community to warrant an explanation, as any gentleman who declares himself for patriotism in such an emphatic manner should not hesitate to sign his name in full to his declaration of principle. As he did not do this I would imagine the article was inspired by feelings of personal spite, or utter lack of principle. His reference to the Missouri Mule was entirely uncalled for, and as I never resided in Missouri I am entirely ignorant of the habits of this "malignant beast," but there is another animal that sneaks around under cover of darkness, committing all kinds of depredations, and when disturbed emits a vile odor which is extremely disagreeable to everyone in the locality. Perhaps our Pro Patria friend will understand the significance. If not, he might call, and the matter will be explained in detail. Personally I would not have replied in any manner to the unjust remarks, but on account of several others connected with the entertainment, outside of the Summerland Band, I feel that they should be protected from the pen of writers of the Pro Patria type.

I wish to thank the Review for the Editor's footnote in the last issue.  
FRED. C. MANCHESTER.

The Editor, Summerland Review, Summerland, B.C.

Dear Sir:  
At the present time we in Summerland are going through a very interesting experience and that is a municipally governed water system. Under the old regime there were many complaints, and not the least amongst those complaining were one or two of the members of the present council. At the present time, things are reversed, and they now have to find excuses for the many complaints lodged.

Excuses are cheap things in any case. Facts are real things, and one of the most realistic of all facts is at the present time, we are suffering and, incidentally, paying, for glaring errors of judgement, and mistakes of every description.

The council seem to be in a quandary as to where to lay the blame—well, what has occurred in the past does not so much matter anyhow, it is past, so let us bury it. But the present! what of it? Errors of judgement are still of common occurrence. Why did the only practical man in the employ of the council quit his job recently? The present foreman may be capable enough, but if so, how is it that several sections of pipe which were laid under contract by him last fall have not been passed by the council's engineer? As those sections have to be repaired before they are passed by the council, it would be interesting to know if they will be fixed under the present foreman, and if so, will it be as foreman at \$150 per month, or as contractor to the pipe company, the time occupied in this work deducted from his salary.

It is no easy matter being a councillor and none of us are perfect, however, every business man would see to it that he had capable men in his employ if they were at all obtainable, but in the past the council seem to have done things any old way, and at last when they got a real civil engineer on the job who knows his work, they appoint a man whose only qualification seems to be a knowledge of the pipe line and where it goes through the municipality. Municipal matters should be placed on a business footing, and the best man would be an economical investment on such a system as the waterworks system in Summerland.  
Yours,  
MUNICIPALITAS.

# Best In Footwear

You are known by the shoes you wear. Your good taste is shown by the manner in dressing your feet. You are no better than your feet and your feet are no better than the shoes you wear.

A stylish rich looking shoe shows gentility and neatness in the wearer. But you must have quality as well as style in the shoes you wear.

The shoes we are showing combine both these features. You can rely on getting better value for your money here than can be had elsewhere.

## THE FRUIT-GROWERS OF THE OKANAGAN.

Fruit growers in the summer and actors in the winter! Not such a bad combination when you come to think it out, in fact, after due consideration, a very excellent idea, and one that should arouse a good deal of interest in amateur theatrical circles, for, of course, it must be from amateur dramatic clubs that the company will have to be recruited.

We all know that during the late autumn and through the winter the fruit grower has more leisure than he knows what to do with. Why should not these months be employed pleasantly and profitably? And how could they be more pleasantly and, we hope, more profitably employed than by making a three months tour through the eastern provinces with a small company of players in a first class play?

It is with the object of forming such a company that Mr. William Sauter is arranging a number of performances in the Okanagan Valley, in which competition all who are interested in dramatic art are invited to take part.

One company is already rehearsing in Summerland and will give their first performance of "The Importance of Being Earnest,"

at the Empire Hall on Coronation Day, June 22nd, in aid of the Summerland Hospital. The performance that evening will commence at 8.30 so as to enable those attending the Regatta at Naramata to be in time for the play.

Other companies will be formed in Vernon, Kelowna, Penticton and Naramata. The most suitable members, who are desirous of going on tour will then be chosen for the trip eastward. Exhibits of fruit, etc., from the Okanagan will be taken on the tour and shown at the theatres and the most important stores, and a lecture with moving pictures, illustrative of the methods of fruit growing in the Valley will be given on certain afternoons at the different theatres. Not a bad method of letting people know something about our Valley!

To us, who have settled down to this life of fruit growing, there may not appear to be anything very exciting about it, but to our distant neighbours of the cities motion pictures of the Okanagan, with its beautiful scenery, its fruit trees and systems of cultivation and irrigation would certainly prove of great interest and would doubtless attract the attention of many to this prosperous Valley.

All communications should be addressed to William Sauter, West Summerland.

## AN INTERESTING SIGHT.

Some eighteen or twenty of Summerland's residents, motored or drove to Shingle Creek a few days ago to visit the Armstrong ranch there, and particularly to witness the shearing of the sheep. "Billy" possesses some six hundred sheep and seven hundred lambs. This large flock is handled by a shepherd (on horseback) and three dogs. Visitors say it was wonderful how quickly and effectively those dogs rounded up the large flock and put them all into a nono too extensal coral, literally packing them in. An expert shearor was on hand and certainly performed wonderfully. During that day he removed the coats from one hundred and sixty sheep, averaging one fleece ovry four minutes. Mr. Armstrong has some 1,400 acres in all, some 50 of which is under alfalfa. There is also on the ranch quite a herd of dairy cattle under the management of an expert dairyman.

## THE REGATTA.

### Big Day At Naramata Next Thursday.

Coronation Day is to witness one of the greatest sporting events of the season and district in the regatta at that pretty watering place—Naramata. It is styled Regatta No. 1, 1911 Series. Boats leave Summerland at 12 noon and 1 p.m. and Penticton at 12.35.

The Summerland Baseball team is going over to play Penticton for championship and valuable trophy. The aquatic sports will include war canoe, motor-boat, sculling and swimming races. Many visitors will no doubt take advantage of this opportunity to inspect the new "Hotel Naramata" which is now open to receive guests. Lunch and dinner will also be served at the Lakeside Hotel.

## SUMMERLAND MEN PARTICIPATE

### In Local Option Convention at Kelowna, Tuesday June 27, 1911.

The following is the expected program for the Convention at Kelowna on the above date.

## IN THE METHODIST CHURCH.

9 a.m.—Devotional service by Rev. J. P. D. Knox, Chairman.  
9.30 a.m.—Superintendent's report and local reports from Leagues, Unions and Templar Orders represented. Address by Rev. Jno. Robson, Vernon, on "The Lesson of the Reports."

10.30 a.m.—"Meetings and Literature" by Rev. F. W. Hardy, B.D., Summerland. "Money and Method" by Dr. Archibald, Kamloops. "Work Among the Young" by Rev. Jas. Hood, Summerland, followed by discussion.

11.50 a.m.—Election of Committees and other business.

2.00 p.m.—Opening service by Rev. A. W. McLeod, Summerland, Chairman.  
2.30 p.m.—"The Right of Self Government re the Liquor Traffic" by Mr. C. S. Stevens, Summerland, and Mr. Banton. "A Forward move in Temperance and Moral Reform" by Rev. D. J. Welsh (and another). "The Union of Christian and Temperance Forces" by Rev. N. A. Davis, Vancouver. All followed by discussion.

4.30 p.m.—Reports of Committees, district organizations, deputations, etc.

## PRESBYTERIAN CHURCH.

7.30 p.m.—United Choirs.  
8.00 p.m.—Chairman, Mr. R. J. Hoag. Address, "Local Option and Equal Suffrage in New Zealand" by Rev. N. A. Davis, Vancouver. "Enthusiasm in Temperance Work" by Rev. G. O. Fallis, Penticton. "Money and Men" by Dr. Sawyer, Summerland. "A White Province" by Dr. Spencer.

All temperance workers are invited. All societies can be represented, Churches, Young People's Societies, Ministers and Laymen are expected in large numbers. All who are going should inform Mr. J. B. Knowles, Kelowna, by June 23rd. Reduced rates as usual. D. Spencer, Superintendent.

At the Acadia University commencement exercise, Mr. Gilbert V. White, B.Sc., of this town, was granted his M.A. degree, he having taken a special course in economics and sociology during the past winter.

During the regular service at the new Baptist Church on Sunday evening last, the ordinance of Baptism was administered to one candidate.

Ex-Roeve R. H. Agur was a passenger on the northward bound boat on Friday morning.

## COUNCIL IN EXTRA SESSION.

### Passing of Numerous Accounts

### Court of Revision in Session

The Municipal Council met in extra session Monday. A full morning's work was put in—the adjournment not being made till one o'clock. With the exception of Councillor Brown a full board was in attendance. The verifying and passing of accounts for payment took up much of the time. When these were completed the council resolved itself into the Court of Revision, and took up the numerous appeals against water rates.

The following accounts of the Finance Committee were passed for payment:

J. L. Logie	\$62.00
Citizens Band	80.00
Supply Co.	25.00
Summerland Drug Co.	7.50
A. Richardson Co.	2.50
W. Atkinson	.50
D. L. Sutherland	4.25
A. Richardson Co.	13.89
Summerland Drug Co.	9.25
J. Duguid	3.50
W. Watts	2.25
R. Perrier	2.25
G. Brumble	11.25
T. Bustard	1.75
Water and Light Dept.	17.50
A. H. Steven	13.75
<b>Total</b>	<b>\$197.14</b>

Following accounts for the water and light department were then passed for payment:

T. P. Thornber	50.94
Shields, Hatfield & Clark	1.00
W. F. Brind	1.00
J. A. Darke	101.25
Canadian Pipe Co.	25.75
O.P.R.	27.15
F. A. C. Wright	14.50
Supply Co.	63.95
D. Leckie	17.00
C. N. Borton	132.98
Robertson, Godson & Co. Ld.	200.00
Scott Darkis	15.00
Empire Mfg. Co.	297.15
G. W. McLaren	34.00
White & Co.	17.25
John S. Ritchie	32.45
Marie Arkell	2.00
Government Telephones	4.25
Summerland Drug Co.	.75
A. H. Stevens	12.50
Richardson & Co.	60.33
B. H. Sherk	42.90
W. Ritchie	496.87
<b>Pay Roll</b>	<b>1746.68</b>

## COURT OF REVISION.

There was a long list of appeals against water rates. Most of them being because of alleged overcharge as figured on acreage basis. In some cases parts of lots were above the flumes, while in others, though the owner held the specified acreage for one reason or another it was claimed that certain portions should be exempted.

Each case was taken up individually and seemingly treated in a fair and impartial manner. Most claims were considered reasonable and reductions allowed, some few were compromised while others stood over for further investigation. No time was left to take up communications etc including resolutions by ratepayers association, citizens' committee on hotel matter. These will be discussed at the next meeting.

## THANKS!

The Summerland Review has changed its form and enlarged to a six column, six page paper, all home print, making it one of the husky papers of the district.—Hedley Gazette.

## Peachland Notes:

Mr. Holden drove to Kelowna Thursday afternoon to take part in a lacrosse match, Kelowna vs. Vernon.

Mr. Cutbill has bought Dr. Robertson's fine front acre lot, and is building a house thereon, laying out a tennis court, and generally beautifying the place.

Roy White and Harold Miller took a strip across the lake one day this week, and while wandering about over there found a swarm of bees hanging to a limb of a tree. Finding an old apple box on the shore they succeeded in "hiving" the colony and brought them home. They now occupy a regulation hive and seem to be busy at their trade.

The Methodist congregation met at the home of Mrs. A. Town on Monday evening to give Miss Kennedy a "farewell." After a joyfully evening spent in games and music, Mr. Knox called for order and asked several members of the official board and some of the choir to make "remarks" about Miss Kennedy, which they all seemed glad to do, testifying to the efficient manner in which she had officiated as organist for the last eight months and wishing her a good time in Vancouver. The choir leader, Mrs. Mitchell, on behalf of the congregation, presented Miss Kennedy with a beautiful gold bracelet. Although taken by surprise, Miss Kennedy was equal to the occasion and replied in a neat speech thanking her friends for their kindness on this and other occasions while she had been among them. Miss Kennedy left for Vancouver, and after visiting there for a couple of months, she returns to her home in Dryden, Ontario.

Another farewell was held in the Presbyterian Church on Tuesday evening, for Miss Kathleen Lang, who left Wednesday morning to begin her course of training in the Vernon Hospital. Miss Lang is possessed of qualities which will undoubtedly make her a success as a nurse and her many Peachland friends join in wishing her every possible success in her new work.

Rev. A. Henderson, of the Centennial Church, Victoria, B.C., spent the week here visiting friends and inspecting his fruit lot here. He occupied the Methodist pulpit on Sunday evening and delivered a splendid address.

A Matriculation examination is being held here this week, the Rev. J. D. P. Knox presiding. Three candidates are writing.

Reeve James Ritchie went up the lake on Thursday morning's boat.

Mr. Campbell Robinson has been maintaining the honor of the Okanagan at Toronto. In addition to leading in his own class, he has taken second place in general efficiency, a good record indeed in a large university.

A talk with the children will be given next Sunday morning, and for several Sundays following in connection with the service at the West Summerland Baptist Church. The subject of the regular sermon will be: The Two Brothers, being the last in the series to young men. W. J. Brandrith, Exhibitor Commissioner for British Columbia, was in town this week arranging for exhibits for Toronto, Winnipeg, Regina, etc. He states that this province will have two or three times as much space as formerly allotted us. He also says that Summerland's exhibits looked particularly well last year and he is looking for some pretty choice displays from here this season.

## Naramata Notes:

Mr. and Mrs. Wolstencroft, the former a brother of George Wolstencroft, of town, have arrived recently from Accrington, England to take up permanent residence in Naramata.

Mrs. (Rev.) Howcroft, from High River, Alberta, spent the week as a visitor here, the guest of her brother, Mr. A. W. McCulloch.

Mrs. M. M. Robinson of Summerland, spent the week-end on "this side" a guest at the Hotel Naramata.

Mr. J. M. Robinson has returned from his recent hurried trip to Montreal and Toronto. He was accompanied from the latter city by Mr. Will Robinson, and by his daughters, the Misses Gwen, Gladys, Dorothy and Kathleen.

Next week promises to be a busy week in our little world, but you can put us down for a go, if we are favoured by Mr. Weatherman with the right article for June 21st and 22nd. Two big days. One for the children and lovers of children, and one for, say, the boys. To be more explicit: The school children under the direction of the teacher are preparing a patriotic programme for Wednesday afternoon, following the general plan suggested by the Government for giving suitable emphasis to the Coronation idea. A special feature of this program will be a salute to the British flag. Here are the words of the salute written for the occasion by Mrs. Gillespie: Hail! Flag of the Empire! Our joy and our pride, Honor and loved over the world far and wide. We salute thee, and pray that for ever thou'llt wave Upheld by the loyal, the true, and the brave. It is hoped that there will be a generous turn-out of citizens to this what is to the children, at least an important occasion.

The other big day is Thursday, the day of our first regatta of the season. The handbills are now out announcing the general character of the program. A commendable feature of this year's "say so" is an alternative list of events; if the lake should be too rough for aquatics, field sports will be substituted.

An effort is being made to secure the co-operation of all the various organizations in town to secure a grand parade on Wednesday evening. Why not have a grand march past headed by our Band, composed of school children, the Young Ladies Club, the Unity Club, and the Athletic Club. We cannot all go to see the King crowned, but let us be merry at home.

## THE BOY SCOUTS.

Monday night is "scout night" with the boys. Interest in this organization continues to grow. Recruits are being added weekly to the lists. Last Monday the Scouts were taught the tying of various knots by a retired sea-faring man. Dispatch carrying, as practised by Boy Scouts everywhere, was carried out successfully and a relay race, Morse vs. boys proved very interesting. The horse lost the race, 7.30 is the hour henceforth for meeting. The Boy Scout text books have come and may be obtained next Monday evening at the College gymnasium.

The frame of Prof. W. H. A. Moore's new house is being erected this week. It promises to be a pretty nice cottage.

## LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Editor, Summerland Review, Summerland, B.C.

Dear Sir:

Mr. F. C. Manchester's letter in last week's issue was quite remarkable. He referred to the writer as a skunk, to himself as a full-fledged mule from Missouri. He takes upon himself too much honour. The asininity of his remarks suggests a generation more remote. For the benefit of Mr. Manchester and his friends I wish to say that Pro Patria is the Miss Thompson referred to in Column 3, page 1, of last week's Review. The writer was quite prepared to accept the Editor's footnote as explanatory, in part, of the situation and Mr. Manchester, with more ordinary sense, might have found other and more rational means of identifying Pro Patria.

## PRO PATRIA.

Department of Agriculture, Victoria, B.C., June 8th, 1911.

The Editor, Summerland Review, Summerland, B.C.

Sir: Will you kindly through the medium of your valuable paper give publicity to the following communication recently received in this Department, with regard to the One Thousand Dollar Stowell Trophy to be given for the best exhibit of potatoes at the American Land and Irrigation Exposition, to be held in the Madison Square Gardens, New York, November 3rd to 12th, 1911, viz: At the American Land and Irrigation Exposition to be held at Madison Square Gardens, New York, November 3rd to 12th, 1911, there is a one thousand dollar trophy offered for the Best exhibit of late potatoes. The exhibit does not necessarily need to belong to one individual, but may be exhibited by a Department of Agriculture, Farmers' Organization, or by a District. The main point is that the One Thousand Dollar Trophy is to be given for the best exhibit of potatoes represented by marketable quality, smooth appearance, flush eyes and uniformity of size. The yield of each variety per acre, which acre must be officially surveyed, must be sworn to by the grower, and attested by two or more reputable witnesses.

It will readily appear to you, that the winning of a trophy of this character will advertise your province at this great exhibition extensively. We are confident that splendid potatoes can be grown in Western Canada, and are very anxious that one, or all of the four Western Provinces shall take this matter up in a systematic and careful manner, supplying a creditable exhibit so that, if possible, you may win the handsome trophy referred to.

Will it not be possible for your Department to take up this matter? We would like to have a reply from you stating what you would be prepared to do in the way of gathering this exhibit.

Yours very truly,  
WM. E. SCOTT,  
Deputy Minister.

The top floor of the main College Building is being finished. This will make accommodation for sixteen additional male students.

The Misses Spencer have had plans prepared for a fine two storey residence which they purpose having erected on their ten acre lot.

## OPEN THE BOOKS

At a meeting of the Ratepayers' Association last week, a resolution was passed asking the Municipal Council to prepare a clearer statement of receipts and disbursements for the year 1910. There cannot be any good reason why the request should not be complied with. In fact, there is every reason why the request should be complied with. There should not be, and we do not believe there is, any reason for the municipal fathers to desire the financial statement to lack clearness on any point upon which the Ratepayers' Association asks light, and it surely is up to the Reeve and Aldermen to be open, frank and free with the ratepayers in the matter of the expenditure of public funds. The clearer the statement, the less cause there will be for misunderstanding, and the surest way to avoid criticism is to let the ratepayers know all there is to be known about municipal matters. In sister municipalities of the Valley a quarterly audit of the public accounts is practiced, and the practice is conducive to much good. It prevents long delays at the year's end, keeps the ratepayers in touch with municipal affairs and the public accounts up to date. No doubt, there will soon be some system adopted by the province whereby every city and municipality will have its accounts handled in the same way, and a provincial auditor will be appointed to make quarterly or semi-annual audits. Something along this line has been asked by the B.C. municipalities organization for some time. There is so much to commend such a system it cannot long be delayed, and the sooner it comes the better for all.

## SIR WILFRED IN ENGLAND

Whatever differences of opinion we might hold, and however serious our objections may be to the proposed reciprocity agreement, we should not forget that Sir Wilfred Laurier is still Prime Minister of Canada. And we cannot look upon the attitude of the man in his present embarrassing position, without marvelling at his self-command and calm, sane poise. We can readily understand now why Sir Wilfred should have at first concluded to remain away from the Imperial Conference. Every effort has been made by England's strongest statesmen to draw him out on the reciprocity question; every opportunity has been given him to make some public pronouncement on the question that is proving of such vital interest to Canada and the Motherland. We are reminded by his position of the much beloved son returning to the old home, and because of some misunderstanding not yet explained, or the feeling of guilt in the son's heart, he cannot look into the eyes of his mother with that old spirit of mutual understanding and affection heretofore prevailing. England greeted Sir Wilfred as warmly as ever. He landed amid a marvellous show of color and music. There was no indication of any coldness. No word was expressed indicating the feeling of

the Motherland on the matter of the son's foreign entanglement. Little by little, however, it became apparent that England expected Sir Wilfred to say something. The Mother wished to hear something from the son's lips the particulars of her son's entanglement before passing judgement. At first the opening made for him to speak was barely perceptible; later they became more pronounced, and finally the public prints and public meetings openly endeavoured to drag Canada's Prime Minister into a public discussion of his reciprocity position.

In it all Sir Wilfred has maintained an unruffled personality; he has given no clue as to what shall come from him when he does speak—if at all. Perhaps Sir Wilfred has nothing to say; perhaps he has a great deal to say. But, until after the King's coronation, he will not speak. If this is his position, he will yet turn the tables upon the public men and public prints of the Old Land. If this is not his position, if he has kept silent because ashamed to speak, if he returns to Canada without explaining to the Motherland his position and his purpose, Canada will not honor him on his return as of old.

## OLD ENOUGH TO LEARN

Comparisons at all times are odious, and yet which one comes from them. A prominent visitor to Summerland last week, who had spent several weeks in the fruit orchards in and about Wenatchee, Washington, was asked his opinion as to the quality of Summerland orchards compared with the orchards of Wenatchee. If we were at liberty to give the visitor's name it would at once dispel any thought that his opinion was based upon prejudice. We consider it, therefore, all the more valuable. And we give it, believing that our fruit growers are big enough to see the point without feeling any sting. "I am glad to see here such a country. I am glad to know that such fruit lands as the Summerland district possess cannot be excelled in any place. I believe the day is coming when the finest fruit in America will come from these orchards. But I want to tell you this: Your orchards do not compare with those I saw in the Wenatchee Valley. Your trees are not so well taken care of, or the soil is not so well worked, and fear there is a tendency here, on the part of some at least, to allow the orchards to take care of themselves, and the fruit get to market as best it can. This, no doubt, is due to the fact that your people have not had any practical experience in fruit growing on a commercial basis before taking up their work here, and their experience, or the experience of many in the packing and selling of fruit must therefore be limited. It is what might naturally be expected in a section where the fruit industry is in its infancy. Your orchards look good; there is reason for great encouragement; but there is also room for great improvement."

## WANTING TO KNOW

The Missouri peachant is a good one. Wanting to know, is a safe proposition. It hurts nobody to enquire. And you, much of the talk pro and con on the question of water systems reminds us of the story told on the great Edison. Mr. Edison was explaining to a reporter the part played by Mr. Branly, the now French academician, in the discovery of wireless telegraphy. The poor reporter, a little bewildered by all the talk about Hertzian waves, transmitters, volta, ohms, and so forth, ventured on a question that made Mr. Edison smile. "That question," he said, "reminds me of the city father who rose and said; Mr. Chairman, I'd like to know for my constituents benefit whether this proposed hydraulic pump is to be run by steam or electricity."

Spend and enjoy a good day at Naramata Regatta, and make it perfect by witnessing the Play at the Empire Hall, Summerland.

BEING EARNEST

# EMPIRE HALL.

### NEW BAND MANAGEMENT.

At a recent meeting of the Band, matters of financial and general business interest were discussed, and new officers elected. D. H. Watson has been president and manager, and C. N. Borton secretary treasurer, and upon these two has fallen the work of management and financing. After some considerable discussion it was voted that henceforth the Band's affairs shall be managed by an executive of five. C. S. Stevens was made president and J. Blewett secretary treasurer. These, with V. Taylor, A. Spencer and C. N. Borton form the new executive.

Financially, the Band is yet considerably handicapped. Each new piece of music costs several dollars and with the salary of the Bandmaster and the expense of uniforms, etc., it is necessary that several hundred dollars in addition to the municipal grant be realized each year. While the worries and perplexities are many, yet the boys feel that this "the best band in the interior of B.C." has the goodwill of the citizens generally, and they are determined to remain at the top.

Several citizens have already signified their willingness to contribute to the Band annually if a fund is started. It might be well to arrange a plan whereby a person by donating a certain sum, would become a life member, and a smaller fee would entitle one to yearly membership. This is only a suggestion.

### LADIES HOSPITAL AUXILIARY.

#### Law Party At The Rectory.

The regular monthly meeting of the Hospital Auxiliary will take place at Mrs. H. A. Solly's residence, The Rectory, on Tuesday afternoon next, at three o'clock. Regular business will be transacted for an hour, after which tea will be served on the lawn. All the young ladies of Summerland are especially invited to this meeting, as it is intended to organize and inaugurate a Young Ladies branch of the Auxiliary. Every lady interested in Hospital work is cordially invited to be on hand next Tuesday.

### NOTICE.

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation was approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at \$10 and \$5 per acre respectively. This regulation further provided that the prices fixed therein should apply to all lands with respect to which the applications to purchase were given favorable consideration after the date of such regulation, namely April 3rd, 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor in Council on the 10th of May, 1911, that the regulation dated the 3rd of April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd, 1911, and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd, 1911.

### NOTICE TO CONTRACTORS.

#### Ellison School.

SEALED TENDERS, superscribed "Tender for Ellison School-building," will be received by the Honourable the Minister of Public Works up to noon of Monday, the 26th day of June, 1911, for the erection and completion of a two-room frame school with concrete basement, etc., at Ellison, B. C., in the Okanagan Electoral District. Plans, specifications, contract, and forms of tender may be seen on and after the 5th day of June, 1911, at the offices of M. Horeon Esq., Secretary to the School Board, Kelowna, B. C., the Government Agent, Vernon, B. C., and at the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of \$500, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished. The lowest or my tender not necessarily accepted.  
J. E. GRIFFITH,  
Public Works Engineer,  
Department of Public Works,  
Victoria, B. C.,

# NOKOMIS

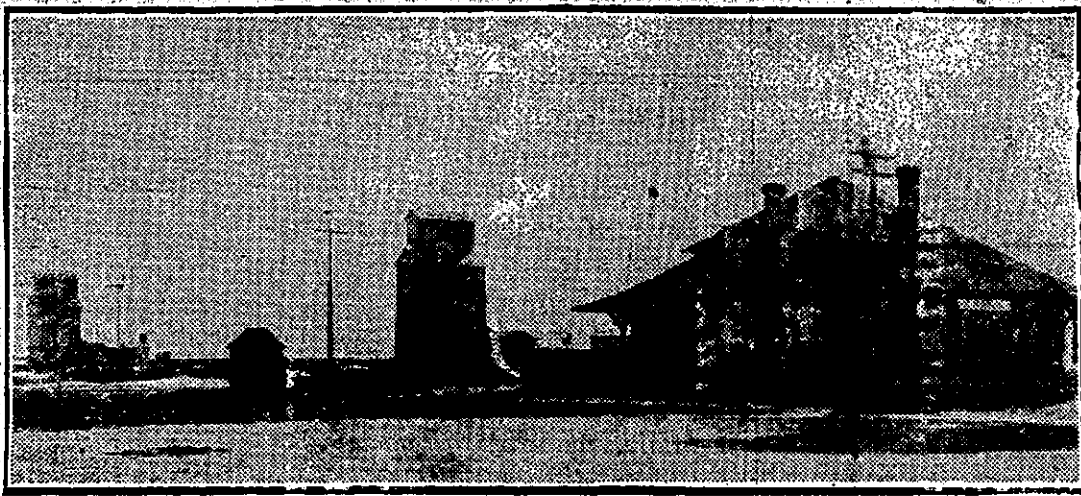

## "The Junction City"

Nokomis is situated midway between Winnipeg and Edmonton, in the centre of the Province of Saskatchewan. Nokomis is in the heart of Saskatchewan's renowned wheat district—the Last Mountain Valley.

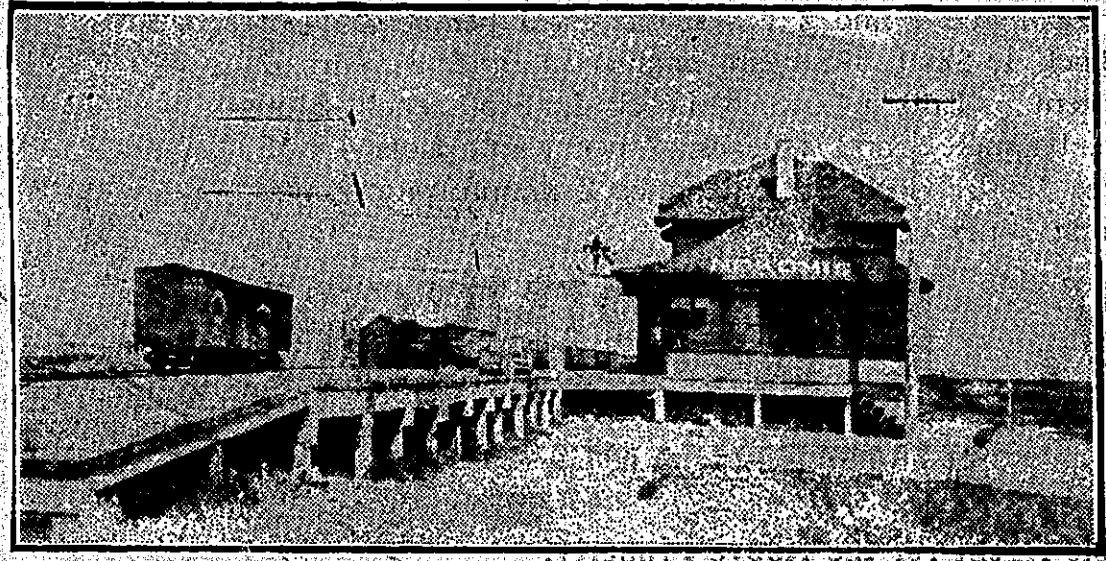

The future of Nokomis as an important Railway Centre is assured by two Transcontinental Railways—the Grand Trunk Pacific and the Canadian Pacific. Another Transcontinental, the Canadian Northern Railway, is to extend its line through Nokomis. Five large implement warehouses, a flour mill, and the Imperial Oil Co. now use Nokomis as a distributing point. The lead taken by these institutions is about to be followed by others of similar importance, and in a short time it is expected that the railway yards will be hedged in by warehouses and mercantile establishments, and will be active, not only with a huge national forwarding and traffic business, but with the hum of local manufacturers and wholesale enter-

prises. As a distributing point Nokomis affords advantages which manufacturers and jobbers will not overlook. It will command a large part of the jobbing trade for a considerable distance up and down the main line of the Grand Trunk Pacific Railway and the two important branch lines which will centre there. Its shipping facilities make it an especially advantageous location for manufacturers. It has been demonstrated that an abundance of water for factory use is obtainable.

Backed by a rich agricultural district, an important railroad centre, a distributing centre and destined to become a manufacturing centre, Nokomis cannot help continuing to grow rapidly, and continued growth means continued increase in real estate values and big profits for those who invest in real estate there at present prices. When population doubles real estate values quadruple. Today is the time to buy lots in Nokomis.

Grand Trunk Pacific Station and Grain Elevators at Nokomis.

Canadian Pacific Station and Grain Elevators at Nokomis.

### Nokomis Likely To Be A Divisional Point On Two Railways

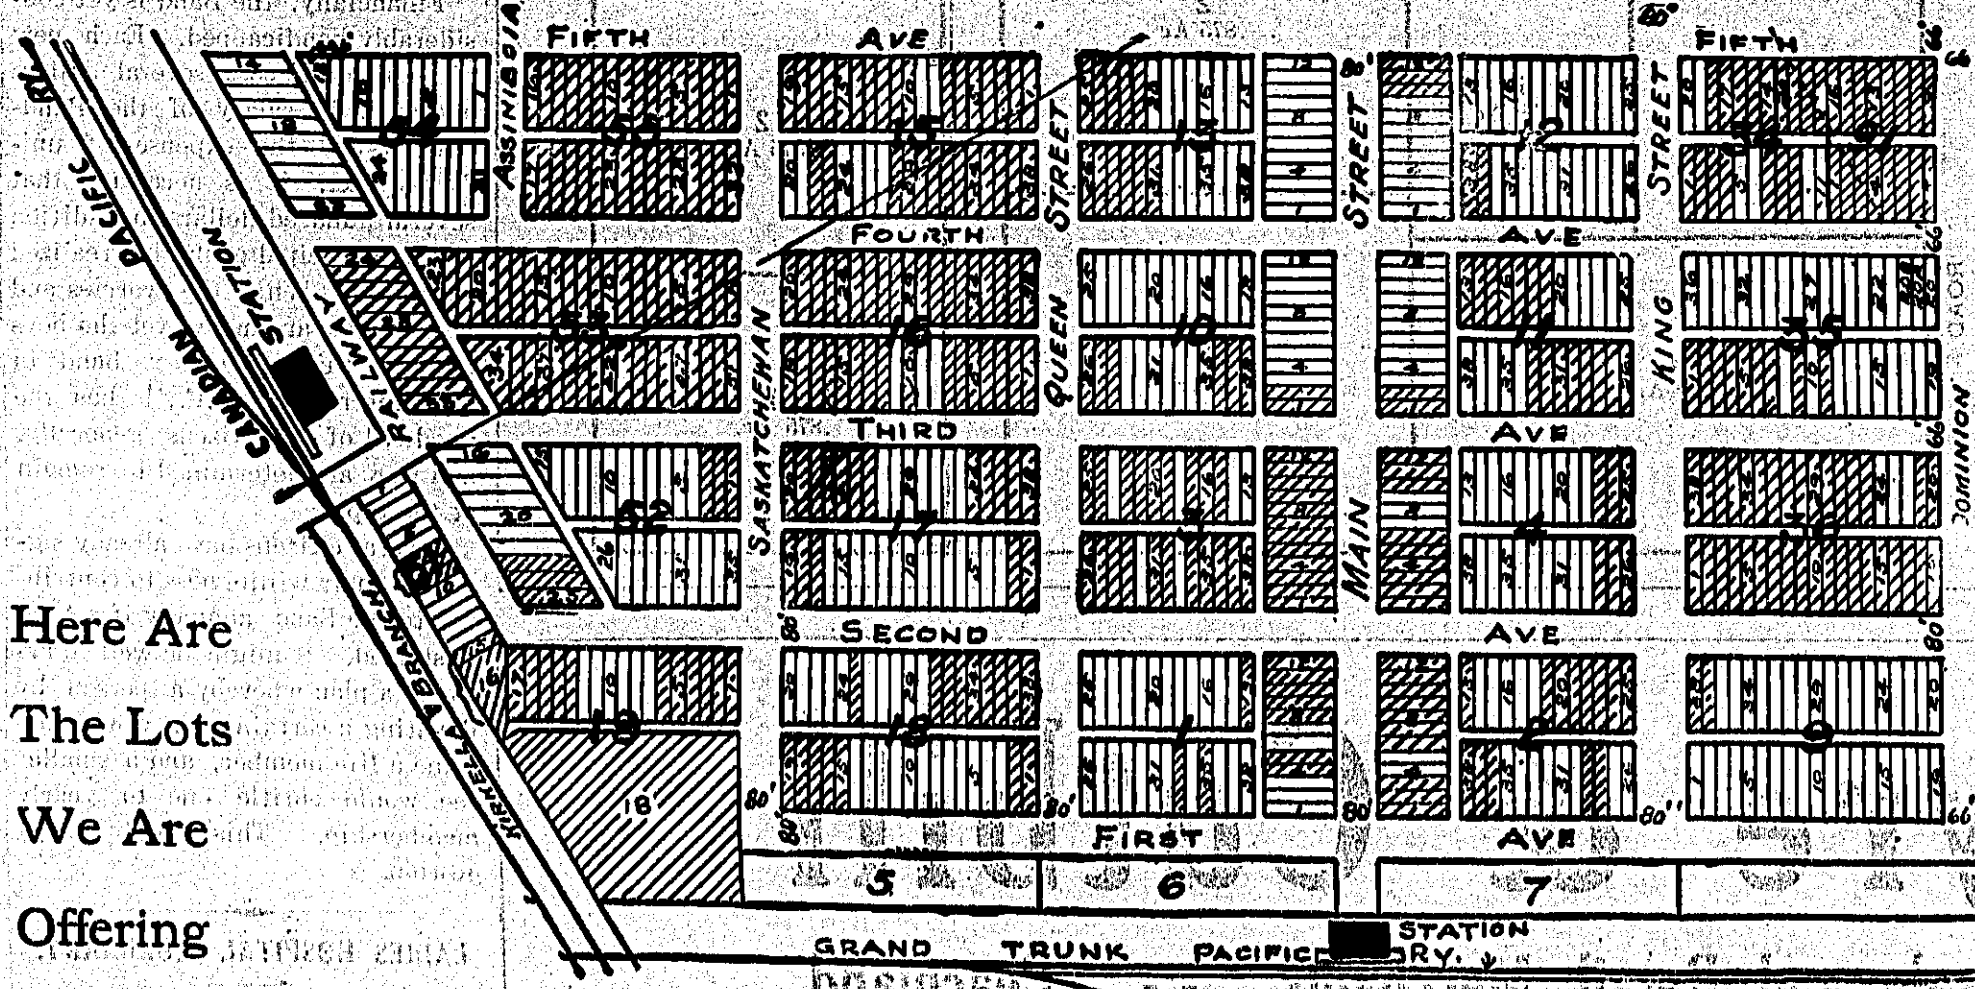

It is claimed that the Canadian Pacific has expended over \$40,000 at Strassburg, thirty-two miles south of Nokomis, in endeavoring to secure an adequate supply of water to enable it to make Strassburg a divisional point. It is understood that sufficient water has not yet been obtained at Strassburg and it is being rumored that the Canadian Pacific will consider making Nokomis a divisional point on its Pheasant Hills line.

The extension of the Canadian Northern through Nokomis will assure the future of this rapidly growing new town as one of the important distributing points of Western Canada. It is not only possible, but very probable that Nokomis will also be a divisional point on the Canadian Northern. The Canadian Northern must have a divisional point at or near Nokomis and as an abundant supply of pure water at a divisional point is essential, it is believed that Nokomis' advantages in this respect will not be overlooked.

### Nokomis a Live Business Town

Practically every line of business is represented at Nokomis. It has a planing mill, blacksmith shops, three lumber yards, five implement warehouses, 2 banks—the Northern Crown and the Canadian Bank of Commerce—a local telephone system, three well appointed hotels, five grain elevators, flour mill, livery stables (one of which is said to have been built at a cost of \$16,000), tanks of the Imperial Oil Company, and a well edited newspaper, etc.

The business men of Nokomis are progressive and successful; it is people sober, intelligent and industrious, its location and environment are such as to facilitate its commercial prosperity and render a steady growth possible. The surrounding country is well cultivated, the soil fertile, the farmers thrifty and progressive. Then, too, the geographical position of the town is such as to make it an excellent distributing point. From its advantageous surroundings, its commercial facilities, its business opportunities, and its advantages as a shipping and distributing point, its excellent sanitary conditions and water supply and the thousand and one things that tend to make it a desirable place in which to dwell, the town is attracting the attention of manufacturers and men of business from afar, and the outlook of Nokomis is of a most bright and promising character. The healthfulness of the climate, the character of the public improvements, the desirable class of settlers—practically all English speaking—together with the beauty of the site, combine to place Nokomis in the front rank of modern Western towns.

Here Are  
The Lots  
We Are  
Offering

### Nokomis Has Five Grain Elevators

Five grain elevators at Nokomis and one flour mill are taxed to the limit of their capacity to handle the grain grown in the vicinity of Nokomis. Being an important shipping point on the Grand Trunk Pacific and the Canadian Pacific Railways, Nokomis affords splendid transportation facilities to the farmers of the Last Mountain Valley.

### All the earmarks of a city

If there is anything in laying a good foundation for future greatness then Nokomis is surely well in evidence. The complaint is frequently heard that one Western town is pretty much like another—only more so. In this respect Nokomis is an exception for here one misses the homely and unpicturesque shack and square front Western town. Nokomis is but a babe in arms in age, compared with some towns, yet it can boast of permanent buildings of brick, cement block and frame construction; whilst many of the private residences would do credit to a

much more pretentious town. Nokomis is proud of her buildings, which are a tribute to the unbounding faith of her people. So marked is this feature of the place that strangers are quick to perceive it, and the Rev. Dr. Carmichael, of Winnipeg, voiced this expression when he declared here, a few weeks ago, that the people of Nokomis have laid the foundations, not of a village or town, but rather a city.

### UP-TO-DATE TELEPHONE SYSTEM

Arrangements practically have been completed to construct a rural telephone system to connect with the local system. It is reported that the Saskatchewan Government intends to run several trunk telephone lines in various parts of the Province this year, one of which will extend through Nokomis. This will give Nokomis unexcelled long distance telephone service.

**INFORMATION COUPON**  
Grand Pacific Land Co., Limited,  
248 Somerset Block, Winnipeg, Man.  
Please send me by return mail full particulars regarding the sale of lots in Nokomis. It is understood that in receiving this information I am under no obligation to invest.  
Name \_\_\_\_\_  
Address \_\_\_\_\_

Here is a plan of the property we are offering you; study it carefully; every lot is in the original townsite. No lot shown on this plan is farther north from the Grand Trunk Pacific station than four blocks and no lot is more than four blocks from Main Street. Note the width of the business streets—First Ave., Second Ave., Saskatchewan Street, Queen Street, Main Street and King Street—all Eighty Foot Wide.  
That these lots are selling rapidly can be seen from the fact that only those left blank are available. No matter where you decide to buy, you will find that business houses, or residences, are quite close beside the property you purchase. Nokomis is a real live, growing town, and those who buy now will participate in the advance in prices which is almost sure to come. Read what people who know have to say about real estate investments:  
Andrew Carnegie, the steel king, says: "Ninety per cent. of all millionaires become so through growing real estate. More money can be made in real estate than from all industrial investments combined."  
Hetty Green, the most successful business woman in the world, says: "I advise women to invest in real estate. It is the collateral to be preferred above all others, and the safest means of investing money."  
Russell Sage said: "Real estate is an imperishable asset, ever increasing in value. It is the most solid security that human ingenuity has ever devised. It

is the basis of all security and about the only indestructible security."  
Theodore Roosevelt, ex-President of the United States, says: "Every person who invests in well selected real estate in a growing section of a prosperous community adopts the surest and safest method of becoming independent; for real estate is the basis of all wealth."  
That Mr. Roosevelt's statement is correct, no one will deny, and that Canada, especially Western Canada, is a prosperous community, every one who considers will readily admit. The point is, where are you getting a piece of land in a growing section of this prosperous community? Read this advertisement right thru, and decide for yourself whether you are right when we say that our offering of lots in Nokomis is your opportunity. You doubtless know several who have made large profits from small investments in real estate. Your first thought was: "Well, he sure is a lucky fellow!" Don't you believe it; there is no such thing as luck; what you mistake for luck is the quality some people have of grasping at the right time opportunities that are presented. This offering of lots in Nokomis is a chance to make good, for you to be looked upon as one of those lucky fellows who have made money easily. Consider our proposition, ask for further particulars by filling in and mailing the coupon in this advertisement or call and have a talk with us. This is the chance you have been waiting for.

DON'T MISS THIS OPPORTUNITY

Opportunity knocks at every man's door, but very often we slam the door in her face. I have for sale one acre lot all flumed, fenced and planted in three year old apples, pears, apricots, plums and peaches. Also one 3 acre block partly planted in three year old apples, pears, cherries, plums and peaches, all just coming into bearing. As I am leaving Summerland, these properties will be sold on very easy prices and terms to suit. These sub-divisions are within 15 minutes walk of either Summerland or Parkdale stores, are composed of a rich deep black loam, with no alkali and no stones. They are easily irrigated by flume, and overlook the Okanagan Lake where the steamers can be seen passing to and fro. For the man who cannot afford to buy and run a large estate, for the man who just wants a delightful little home of his own that he can afford to buy, and pay for on his own terms, that he can care for without trouble in the evenings these lots are ideal. They will bring him a profitable income should he keep them, and prove a good speculation should he ever desire to sell. I shall be pleased to show this property to you whether you feel that you want to invest or not. None need feel that they are under any obligation to buy. Stomach Agony

Abolish the Cause, and Misery and Distress of Indigestion will Vanish

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas, biliousness, sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-o-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to the Summerland Drug Company this very day and get a large box of Mi-o-na tablets, and start themselves on the right road to health at once.

The price of Mi-o-na tablets is only fifty cents, and the Summerland Drug Company guarantees them to cure indigestion or money back.

Thin or lean or scrawny people will find in Mi-o-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

Nokomis Is Growing.

Considerable interest is being taken in the report that the Canadian Northern is to extend its line through Nokomis. The latest Canadian Northern time-table shows this proposed line running through Nokomis and connecting with the Calgary branch. It is understood that Nokomis is being favorably considered as a divisional point on this new line on the Canadian Northern, as the mileage is about right, and Nokomis has an abundant supply of good water.

Nokomis is situated midway between Winnipeg and Edmonton, in the centre of the province of Saskatchewan, and its future as an important railway centre is assured. Five large implement warehouses, a flour mill and the Imperial Oil Company now use Nokomis as a distributing point. The lead taken by these institutions is about to be followed by others of similar importance. As a distributing point Nokomis affords advantages which manufacturers and jobbers will not overlook. It will command a large part of the jobbing trade for a considerable distance up and down the main line of the Grand Trunk Pacific railway and the two important branch lines which will centre there. Its shipping facilities make it an especially advantageous location for manufacturers. It has been demonstrated that an abundance of water for factory use is obtainable.

Five grain elevators at Nokomis and one flour mill are taxed to the limit of their capacity to handle the grain grown in the vicinity of Nokomis. Being an important point on the Grand Trunk Pacific and the Canadian Pacific railways, Nokomis affords splendid transportation facilities to the farmers of the Last Mountain Valley.

Practically every line of business is represented at Nokomis. It has a planing mill, blacksmith shops, three lumber yards, five implement warehouses, two banks—the Northern Crown and the Canadian Bank of Commerce—a local telephone system, three well-appointed hotels, five grain elevators, flour mill, livery stables (one of which is said to have been built at a cost of \$16,000), tanks of the Imperial Oil Company, and a well edited newspaper.—Winnipeg Free Press.

FOR SALE.—One good acre lot, soil black loam, nice spring, creek on place. Four-roomed house with stone basement, also a few trees. Apply the Editor, Review, Summerland. J 17.

Do not forget the Local Option Convention at Kelowna, all day Tuesday, June 27th. GREAT SUBJECTS WILL BE DISCUSSED BY PROMINENT MINISTERS AND LAYMEN. Local Option Leagues, Temperance Lodges and W. C. T. Unions will be represented. Everyone interested in Temperance Reform is requested to be present. Special rates arranged by boat and rail. Get Standard Certificates. J17 24

SUMMERLAND, B.C. JUNE 24, 1911

Whole 150

## GENERAL ELECTION SOON.

Private advice from the east states positively that there will be a general election this year, perhaps in September or October. It is intimated that upon Sir Wilfred's return from England he will make public his intentions to the country on the reciprocity issue, and will not attempt to force the present agreement through the House.

In view of this, the Liberal and Conservative leaders are assembling their force preparatory for a quick, decisive campaign. There will soon be a general line-up, locally and otherwise, and reciprocity is the issue upon which the election will be fought.

## SCHOOL CONVEYANCE CONTRACTS AWARDED.

The Board of School Trustees met Tuesday to open tenders and award contracts for the conveyance of children to the new Central School in the fall. A. H. Steven secured the Trout Creek route and also the town route. The Garnett Valley route was awarded to I. Blair. Each contractor provides his own rigs which must comply in all respects with the requirements of the Board, in convenience, comfort, etc.

## OUR BOY SCOUTS.

The Boy Scout movement goes on increasing in members and interest. Last Monday evening Mr. Hardy read the service which will be used at the coronation of King George V. Scoutmaster Borton taught the boys the composition of the Union Jack, and the right way to fly it. He also instructed them in the salutes and signs that characterize a scout. Then the first "tests" were given. First, the Scouts' Promise was taken by the boys, who were prepared to try for the rank of Tenderfoot; this was heard by Mr. Hood. After this the expectant scouts were examined in the Scout Law by Mr. Pattison. Next their knowledge of the Union Jack, and the signs and salutes was tested by the Scoutmaster. Finally the boys tied the following knots under the eyes of Messrs. Quipp and Tait: reef, sheet, bend, clove hitch, bowline, fisherman's and sheepshank. The following boys passed the "tests": George Dale, Rich Estabrook, Donald Ross, and Allen Harris. They will shortly be presented with the Tenderfoot buttonhole badge. Further examination will be held soon.

Next Monday evening all boys who have enrolled are requested to report to Scoutmaster Borton at the Summerland Bandstand promptly at half past seven. There they will line up and march to a point on the lakeshore where the proper method of dealing with drowning accidents will be demonstrated; after which there will be a physical drill conducted by Mr. McLeod, and a test of salutes and signs by the Scoutmaster. The company will then march to the home of Dr. Smith for a social time.

Coronation Day was marked in Summerland by a glorious array of flagpoles on all the public buildings. Maybe the gale the previous evening had blown the flags over the hills and far away. Private individuals made up for the deficiency, however, and a good display of flags and bunting were to be seen all round the district.

Dune, Woods came in yesterday from Summerland and is going to work on some of his best holdings in Camp Hedley.—Hedley Gazette.

## FRUIT SEASON OPENS.

The first shipment of locally grown fruit to outside markets was made Tuesday morning. The fruit was packed and shipped by the Okanagan Fruit Union, Limited. Only cherries and strawberries are being shipped yet, and all consignments have gone east.

## S.S. OKANAGAN'S UP TRIP.

To Be Made At More Reasonable Hour. Change Expected Soon.

Important and drastic changes in the lake service of the C. P. R. are promised as a result of the recent visit to the valley of W. H. Brodie, general passenger agent. Lake travellers generally are not satisfied with the present schedule. Most of the time at Okanagan Landing is now employed in coaling and it is necessary to handle the coal in wheelbarrows. To accomplish this the steamer arrives at the Landing some hours previous to the departure of the train northwards. It is announced that this difficulty will be speedily obviated by the installation of a coaling apparatus. With this improvement complete it will be possible for the boat to leave Penticton at a much later hour in the morning and still be in ample time to make the necessary train connections. While the new schedule has not been made public it is generally conceded that the hour of departure from Penticton will be shifted to 8 o'clock, three hours later than at present. Mr. Brodie was unable to state just when the changes would be made, but he gave every assurance that they would be hastened. It will be necessary to take up the matter with Montreal, but it is almost certain that our recommendations will find endorsement at the head offices.

## THE IMPORTANCE OF BEING EARNEST.

On Thursday evening, in the Empire Hall, the Summerland Amateur Dramatic Society, with Mr. William Sauter, played to a large audience Oscar Wilde's comedy "The Importance of Being Earnest." The scenery, produced locally, was very appropriate and excellent in quality.

Mr. Sauter as John Worthing, J.P., the principal character, showed marked ability and was much enjoyed by all. As the play depicts the artificiality of a section of English society, some of the parts were particularly hard to sustain, but each participant did his or her part well, evidencing much training and a wise selection of castes. Miss Mary Sutherland, as "Cecily," was a happy choice and carried her part delightfully. The same must be said of the other lady performers, Mrs. E. B. May as "Miss Prism," Miss Evelyn Higgin as "Hon. Gwendoline Fairfax" and Mrs. C. Petherstonhaugh as "Lady Bracknell," all displaying natural histrionic talent. Among the gentlemen too, it would be hard to differentiate, each depicting well the part allotted him. Mr. R. H. Holmer sustained well the character of "Rev. Canon Chasuble, D.D.," a type of clergyman depicted by the author. Both Mr. H. J. Collas and Mr. R. M. Knox as serving men performed admirably. The acting of Oliver Villiers in the character of "Algernon Moncrieff," of the idle wealthy English city life, was also portrayed pleasingly.

Mr. and Mrs. Peter Van den Nest are expected to arrive in Summerland this week end.

The Summerland Amateur Dramatic Society go to Kelowna on Saturday morning where they will put on "The Importance of Being Earnest."

## THE REGATTA AT NARAMATA. EVENT OF CORONATION DAY FOR SOUTHERN OKANAGAN.

Ideal Weather Conditions. Interesting Program. Regatta No. 1, 1911 Series Makes a Good Beginning for This Season's Events at Okanagan's Famous Watering Place.

Despite numerous private picnics and various pleasure parties for Coronation Day, Vernon and Naramata, the centres of attraction for the Okanagan, drew large crowds. With its widely advertised programme and special excursion fares and the boat schedule arranged to suit, Vernon, it was of course expected that many from the lake district would go northward to spend the Day. There were no steamers available to make excursions to Naramata, so the Amateur Athletic and Aquatic Association were not looking for as large a gathering as usually attends their regattas. It was evident, however, that many more than were counted on had planned to enjoy the day on the shores of Okanagan Lake's most beautiful watering place and pleasure resort—Naramata, for had not those showers so unexpectedly appeared on Thursday morning many more would have repaired to this pretty spot. It must have been very gratifying to the committee to have such a gathering as witnessed the carrying out of their very interesting program. Kelowna, Peachland, Penticton, Kaleden and Summerland were all well represented.

A very pleasing sight was the many motor craft that were seen floating off the shore and grandstand. They varied in size from the small graceful motor canoe to the large commodious cruiser, and almost without exception were of very pleasing lines and many were able to show considerable speed; quite a change from a year or two ago.

## THE PROGRAMME.

The programme was a very full one and with the ball game required the afternoon till seven o'clock to complete. The water sports were called for, with the following results:

Single canoe race, Nuttall, Naramata, 1st; Glennie, Penticton, 2nd.

Double sculls, Sharp and Barkwill, Summerland, 1st; Glennie and another, 2nd.

War canoe race, 15 paddles, Robinson Cup and medals; this proved a very exciting race, Peachland had held the honors from last season, but this time Kelowna came in ahead by about two lengths, time seven minutes nine and one fifth seconds.

Motor Boat handicap.—For this there were many entries and while the handicap eliminated any excitement from the start, yet the boats were so close at the finish that much interest was developed. On time allowance, Bentley, Summerland, took first; Clark, also Summerland, second; and Wilson, Paradise Ranch, third. Elliott's boat from Kelowna, and Gibbon's Penticton boat both proved very speedy. Perhaps even more excitement was developed in the nine paddle mixed war canoe race, than with the bigger event. Four ladies and five gentlemen comprised the crew of each canoe, and the race was a close one to the finish. It was only by a single surge ahead at the last instant that Peachland won. They were then about four foot ahead of Naramata, time two minutes, Single sculls, Barkwill, Summerland, 1st; Hughes, Penticton, 2nd. War canoes race, nine paddles.—In this, too, the difference at the finish were small. Kelowna came

## BASEBALL.

After the completion of the aquatic sports the crowd repaired to the Athletic ground to witness the ball game, Summerland versus Penticton. The Penticton team started off well, making a good score in the first inning, and led throughout. It was not until they got well into the game that the Summerland boys got in any really good work, but it was then too late to recover what they had lost at the start. It was obvious that their opponents were in altogether better practice. Penticton ultimately won by 13 to 7.

The weather was all that could be desired, and Naramata, planted as it is among the green trees on the lake level townsite, jutting out into the lake, looked extremely pretty as approached from the water. The extensive beach gently lapped by the peaceful wavelets and dotted with numerous tents, looked extremely inviting.

## COMMENTS.

Why was it that Summerland did not participate in the war canoe races? The beautifully arranged and well kept grounds about the Hotel Naramata reflect much credit upon Gardener (Avison). Many of the flower beds are particularly artistic and pleasing in design.

Had the committee in charge been able to have all entries made earlier, the prearranged program strictly adhered to, and each event called on more promptly; many who would have liked to see more of Naramata would have been able to do so.

The ladies of the Summerland Hospital Auxiliary deserve much credit for the satisfactory manner in which they catered to the needs of the Okanagan "open air" appetites and critical palates.

About twenty five people from Summerland went up to the Coronation Day celebrations at Vernon. They returned weary, but happy, after a long and strenuous day, at 12.20 a.m.

The elements certainly celebrated the Coronation, right royally. Many a weary head was lifted from its pillow early on Thursday morning to see the extraordinary pyrotechnic display of the lightning, whilst yet many an one buried far under the blankets to shut out the noisy volleys of King, Thor.

The fruit packing warehouse down town is being decorated by a few letters which spell "Okanagan Fruit Union, Ltd." Also a huge apple is to be painted thereon; the particular variety of which has not yet been decided upon by the artist, but it will be correct in one feature at least, and that is the size, as it will occupy a space 5 foot square.

MARRIED. On Wednesday last at seven p.m. at the residence of G. Marshall, XL Ranch, Mr. James McKenzie and Miss Olive Thomas, of Stirling, Scotland, were united in marriage. The Rev. James Hood officiated. Only a few intimate friends were present.

## Local News Items: Naramata Notes:

Miss Hayes, formerly of the government telephone service here, and latterly holding a position in the same service at Vernon is to return to Summerland. Beginning July 1st, the long distance telephone office will again be at the local post office and Miss Hayes will resume charge there.

A meeting of the Local Option League will be held in the Baptist Church, Summerland, on Wednesday evening next, at eight o'clock. Provincial Superintendent Spencer is to address the meeting.

A Lawn Social, under the auspices of the Ladies Auxiliary of the Methodist Church, will be held on Monday evening, June 26, at the home of Dr. C. M. Smith. Ice cream and cake, strawberries and cream with other refreshments will be served. Launches will be available for those wishing to take a spin on the lake, and a musical program will also be furnished.

Past Grand J. E. Phinney, of the I-O-O-F Summerland Lodge, has been appointed as Conductor of the Grand Lodge of British Columbia recently held in Cranbrook. A sale of some 160 acres of land at Meadow Valley was made last week. The property was held by E. R. Simpson, of Peach Orchard, and was purchased by a Saskatchewan gentleman. The sale was made through the real estate office of G. A. McWilliams.

Mr. and Mrs. R. H. English made a hurried trip by automobile to Keremeos and return on Monday last.

On Thursday July 6th, the Cartwright Concert Company from Chicago will give a performance in the Empire Hall. This company is under the same management as the Williams Jubilee Singers, which is a guarantee of quality. Mr. Cartwright was the soloist selected for the Commencement Exercises of the University of Washington recently.

R. H. English's new livery stables are rapidly nearing completion. He will transfer as soon as water and light are installed.

Mrs. I. B. Fulton and daughter, Doris spent this week with friends at Kelowna.

Mrs. R. M. Ross and son Donald left for Armstrong on Thursday morning on a short visit.

Mr. J. C. Robson went up to Vernon on Coronation Day and on to Revelstoke, returning on Saturday evening.

Anniversary services will be held at the Methodist Church, morning and evening, on Sunday next, June 25th. This is the fifth anniversary of the church in Summerland. The preacher for the day will be the Rev. G. O. Falls, B.D., of Penticton. The Church will be appropriately decorated and there will be special music.

The closing meeting of the Women's Institute was held last Tuesday afternoon in the Ladies' Parlor of the Men's Club, Mrs. White, president in the chair. It was one of the most successful and best attended meetings that has yet been held. Miss Margaret White gave a very clear demonstration on making a strawberry shortcake, and both the demonstration and the shortcake were much appreciated. While the cake was baking a short program was given, after which tea and shortcake were handed round. Numerous votes of thanks and a reminder of the October Show exhibits brought the meeting to a close. The Institute will not meet again until September.

## CARD OF THANKS.

Mr. and Mrs. Morgan wish to thank most heartily the friends in Naramata and Summerland for the many little kindnesses extended to their daughter, Miss Irene, during her recent illness.

The Wellband Ranch south of town, one of the oldest and largest orchards in the place, has recently changed hands at a good figure. It is understood that some fine residential property in Vancouver enters into the deal.

The friends and adherents of the Anglican Church are to be favoured every month with a visit from the Rev. H. A. Solly. The services will be held at three o'clock. The next service will be held two weeks from next Sunday.

The Trust Company have a force of workmen busy at the upper lakes completing their new comprehensive irrigation system, forming a connection of the upper waters of Chute Creek with those of Mill Creek. Though the system may not be the most imposing, it is nevertheless one of the finest in the interior of British Columbia.

The local bandmen much to the delight of their numerous friends conducted an informal dance for three hours in the pavilion on the lake beach last Thursday evening. A collection during the course of the programme resulted in a substantial sum being added to the treasurer's purse.

What about Sunday afternoon band concerts? Answer, shall we have them?

The pool room being run in connection with the Lakeside Hotel is being very generously patronised, and is doubtless affording the disciples of the cue pleasant hours of diversion.

An account of the patriotic programme conducted in the local school on Wednesday afternoon is held over till next week.

The Naramata Supply Company are having their shelf room considerably augmented in order to place heavier grocery, boot and shoe and hardware orders. Mr. George Cook has the contract.

Mr. James Young is at present spending a few weeks in town the guest of his daughter Mrs. R. H. King. It is Mr. Young's intention to have a house built on his fruit lot this season and to take up permanent residence here in the fall.

Miss Bena Logie, of West Summerland, spent the week-end in town the guest of Mrs. Wellband. The "Naramata" made one of her record trips to Peachland on Monday carrying quite a number of guests of Mr. Robinson.

Messrs. Will, Jack and Campbell Robinson made a trip to Keremeos on Tuesday.

## ABLE PREACHER COMING.

Rev. H. F. Waring, of the Fifth Avenue Baptist Church, Vancouver, and family, are coming to Summerland in a few weeks, and it is expected they will remain for some time. They are to occupy the cottage now used by Rev. F. W. Pattison. Mr. Pattison takes his vacation during Mr. Waring's stay here, and the latter will preach at the regular Baptist Church services during his absence.

Rev. Mr. Waring was at one time pastor of the Brunson Street Baptist Church, Saint John, N.B., and later of the First Baptist Church, Halifax, N.S., coming from there to Vancouver. He is considered one of the ablest of the Baptist ministers in Canada.

#### THE KING.

God bless him! From every home under the British flag the sentiment back of these words goes forth this week—the coronation week of King George V and Queen Mary. The pride of every Britisher is in the institutions of the Motherland. And while the crowning of a king may not mean so much to the British people as it meant of old, we still cling to the ceremony as one we would not do without. King George has already indicated the high plane his reign will assume. His "Wake Up England" slogan uttered some few months ago indicates how clearly he has grasped the situation confronting the Empire. He has said in effect: "We love our institutions and will cling to them, but we cannot live on the past accomplishments of the past of our ancestors. We must wake up. We must break away from the old rule of conformity and bring out the individuality of the individual as well as of the Empire. Ours is a favored land, but it can only remain so only in the measure that we 'make good' as individuals."

Great things will come to the British Empire as a result of the reign of King George V and Queen Mary.

#### NATURALIZATION LAWS.

Speaking before the Imperial Conference a few days ago at London, Sir Wilfred Laurier expressed the opinion that the present naturalization laws of the Empire required changing, and he strongly urged the adoption of the principal that there should be uniformity in the effect of naturalization where ever granted, and that the man who is a British subject anywhere should be recognized as a British subject everywhere. Premier Laurier said that all the Dominions had availed themselves of the naturalization powers granted them by their constitutions, but in no two dominions were the conditions the same. The certificate given by self-governing dominions was limited to the territory of that dominion. For instance, one hundred thousand Americans came to Canada every year, the greater part of whom sought naturalization at the earliest possible moment. They were British subjects, while they remained in Canada, but if they ever came over to Britain they were American citizens.

The position taken by Sir Wilfred Laurier will appeal to any sane man. One's citizenship can be changed with one's clothes; then the natural result of our naturalization laws must be to reduce British citizenship to a commercial commodity, something to be bought with a price—a license as it were, good only in the dominion in which the citizen resides. Such a law will not develop loyalty nor will it tend to make good citizens.

#### WISDOM OF THE SAGE.

Often times we hear from the lips of the philosopher the expression of truth which we find in that old saying: "Sometime the wisdom of a white hair comes to the flaxen head. Do you not see that all truth is the same

to-day as it was a thousand—ten thousand—years ago, and the same as it will be a thousand—ten thousand years hence? As we grow into it we express it. We speak no new truth, nor can we. It is the same as always has been and always will be.

Sometimes circumstances have been such in the life of this or that individual as to develop within him the wisdom of a sage, though he be young in years. Indeed, the matter of years does not seem to count for much.

Wisdom comes not altogether as a result of years, nor of experience, but rather as a result of how we take it.

#### INTROSPECTION.

Get the habit, Emerson tells us that "man is a bundle of habits." And there is, perhaps, no habit so prolific of results as the habit of introspection. What kind of a proposition are you working? What are the profits? What service are you rendering the community and to humanity? What is the prime motive at the bottom of your business? Is the dollar the touchstone of your every thought and action? Are you striving for nothing higher?

The quiet hour of introspection at the close of each day's labor is a wonderful help in clarifying the vision and preparing the way for the next day's duties.

#### BETWEEN ME AND HANK.

Do not mind what the world is saying; live up to your own conscience and let the world do likewise.

Outside opinions can never be a fair judge. Be your own attorney, judge and jury.

The person minus a conscience is also minus a heart and soul.

Strive, even if you fail. How much better to know that you couldn't than to feel that you might have.

Health is God's greatest gift; hence we say that the Okanagan is God's favoured spot, for here one may have a super-abundance of health.

Idealizing will hurt nobody so do not be afraid of it.

Ah, woman—the man doesn't live who you cannot subdue with either look or word, therefore, if harm befalls you through him, remember it was you who left the latch string out for him to enter your domain.

There can't be much in a fellow who sows wild oats and then asks a woman to help him reap the harvest.

If you want to advertise a thing tell it to a woman, and then let Nature take its course.

When you think you are "OK" don't neglect to keep the thought in flower, for you will find a lot of people who don't think as you do.

It is sometimes very expensive to open your mouth, and it costs nothing to keep it shut, so keep it shut.

After a duration of twenty-two months the strike at the Springhill coal mines, Springhill, Nova Scotia, has been brought to a close. The miners have gained nothing by the strike. Some one thousand two hundred men have been idle for nearly two years and their loss is estimated at nearly half a million dollars.

#### TIMELY ADVICE.

#### R. M. Winslow, Provincial Horticulturist, On The Thinning Of Large Fruits.

The removal of surplus fruit from fruit trees is a matter of great importance and is receiving more attention year by year from the growers of British Columbia. On this account, some general arguments in favor of the practice and some hints on methods, may prove of value, more especially to beginners.

While the crop on fruit trees, as a whole, is not heavy this year, some trees are overladen and there are very few on which the fruit could not be improved by judicious thinning. The members of the B.C. Fruit Growers' Association know that the crops of Ontario, Nova Scotia and all the Eastern and Central States, promise to be the largest in years, which means a great bulk of number 2 fruit on our markets this year. In the season of 1910 the difference between the prices of number 1 and number 2 fruit was not great. This season, on the contrary, the higher grade fruit will probably bring a much higher price, and, in addition, will have a much wider market and a keener demand.

On a medium or short crop, the grower naturally wants all the possible returns for his fruit. When he considers that the surplus, misshapen and diseased fruit on a tree decreases the quality of the balance, he will see the urgent necessity for the proper amount of thinning. Winter pruning is in essence a method of thinning. It can, however, never take the place of the latter practice, and no grower has the right to say that because of judicious winter pruning, thinning is unnecessary. Every tree should be inspected, and, if necessary, the fruit thinned.

THE REASONS FOR THINNING FRUITS.

1.—From the standpoint of the tree and the soil the great argument is that a crop of numerous small apples has a great many more seeds in it than the same weight of larger fruit. It is the seed, and not the flesh of the fruit, which requires the concentrated plant food. A thousand small apples make about double the drain on plant food that five hundred large ones do.

2.—Trees judiciously thinned tend to bear moderate crops each year. They do not degenerate into bearing every other year, and trees that have acquired this bad habit may be trained into more regular annual bearing by proper thinning.

3.—The weight of fruit can be distributed more evenly and more towards the centre of the tree, enabling the tree to carry the fruit more easily with less breakage of branches from wind or from the heavy load. It helps to make propagation unnecessary.

4.—The fruit is of higher quality in the years of heavy crop, and in years of a general light crop there is a larger quantity with quality, so that in the average the growers receive a much higher net return from the tree.

5.—Thinning does not necessarily decrease the weight of fruit harvested. Usually the weight in any one year is just as great as though no thinning had been practiced. Sometimes it is greater.

6.—The removal of misshapen apples and all but one apple from each cluster, diminishes the percentage of culls.

7.—The percentage of perfect apples may be increased up to as high as 99 per cent, and still a tree may carry a full crop of them.

8.—The better fruit usually averages higher in color, of a larger size, more uniform and better in flavour and keeping quality.

9.—The cost of harvesting, handling, wrapping and packing a box of 96's is much less than a box of 188's.

10.—The grower reaps the higher prices, and the greater profit from selling the larger and better grades of fruit. This will be especially marked in 1911 and as competition for markets increases, this benefit will become greater year by year.

11.—Both the individual grower and the district gain in reputation by the higher quality of the output. This reacts in future seasons in a wider market and still higher prices.

In British Columbia there is probably no question but that in every district thinned fruit will give a better profit to the owner. The objection that the labor for the purpose is expensive is obviously a fallacy as it cannot cost any more to pick an apple in June than it does in October.

(Concluded Next Week)

#### IMPROVED LAKE MAIL SERVICE.

In response to the repeated applications by the various Boards of Trade in the Okanagan district, J. McLeod, Superintendent of Mail Service in B.C., reports that a mail clerk will be put on the Steamer Okanagan. The service is to begin as soon as an appointment can be made, and suitable accommodation on the steamer is provided.

#### NEEDED IMPROVEMENTS.

To travellers coming west there is little evidence at Steamous, there being any country to the southward worthy of inspection, or that Steamous exists largely because of the great Okanagan lying in that direction. This is to be changed, and the relation of Steamous to the Okanagan is to be made known. A large sign, "Change Cars Here for the Famous Okanagan Fruit District," is to be placed at Steamous just west of the C. P. R. Hotel, and will measure ten feet by eighteen feet.

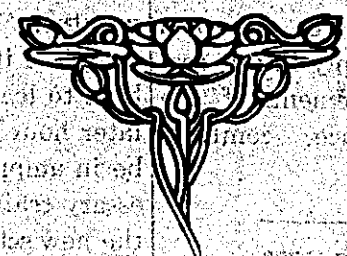

The C. P. R. management have also promised to insert the words "Okanagan Junction" under "Steamous" when the next time tables are printed.

Messrs. Stirling and Pitcairn, Limited, wholesale fruiterers of Kelowna, have recently been incorporated.

### DON'T MISS THIS OPPORTUNITY

Opportunity knocks at every man's door, but very often we slam the door in her face.

I have for sale one acre lot all flumed, fenced and planted in three year old apples, pears, apricots, plums, and peaches. Also one 8 acre block partly planted in three year old apples, pears, cherries, plums and peaches, all just coming into bearing.

As I am leaving Summerland, these properties will be sold on very easy prices and terms to suit.

These sub-divisions are within 15 minutes walk of either Summerland or Parkdale stores, are composed of a rich deep black loam, with no alkali and no stones.

They are easily irrigated by flume, and overlook the Okanagan Lake where the steamers can be seen passing to and fro.

For the man who cannot afford to buy and run a large estate, for the man who just wants a delightful little home of his own that he can afford to buy, and pay for on his own terms, that he can care for without trouble in the evenings - these lots are ideal. They will bring him a profitable income should he keep them, and prove a good speculation should he ever desire to sell.

DON'T LET THIS OPPORTUNITY ESCAPE YOU

I shall be pleased to show this property to you whether you feel that you want to invest or not. None need feel that they are under any obligation to buy.

For further particulars, phone or write, or better yet, call on

### Fruit Outlook For British Columbia.

The British Columbia Fruit Growers' Association, of which Mr. B. H. Agur, of Summerland, is president, and Provincial Horticulturist R. M. Winslow the active secretary, has just prepared a comprehensive report on the June fruit crop prospects upon the foundation of detail and district reports from members and correspondents in all parts of the province. This summary report is now ready for issuance to the Association's members and reads in part as follows:

Raspberries.—The lower mainland is the principal shipping district. The full crop will be about July 15 to 20. The acreage about the same as last year with a yield of 200 crates per acre predicted at Hammond and Honey, and excellent prospects reported at Mission for over 300 crates. A few raspberries are grown all over the fruit districts, but mostly for local supply and jam factories. Raspberries on the whole will be an average crop, and prices should be good. Canneries and jam factories are creating a good demand at fair prices. Shipments will be fewer than usual, several days.

Cherries.—Olivets are reported a good crop, around Victoria with some 1,500 crates in the total. Sour cherries are not heavy owing to spring frosts. Sweet cherries are reported dropping heavily after a heavy bloom.

Early plums.—Reported fair to good crop, not at all heavy. Italian Prunes.—Lower Mainland, fair crop, and fair in Vancouver Island, but good in Grand Forks, Vernon and Kelowna, the principal interior shipping points.

Peaches.—Perhaps one carload will be shipped from Summerland and several cars from Penticton. In our last report we omitted to except Penticton from the general off-crop in this line. Latest reports indicate several carloads of the earliest varieties there.

Pears.—Most varieties bloomed heavily, and very few fruits have set as a rule. Salmon Arm, Kelowna, and Grand Forks report good crops.

Early Apples.—On Vancouver Island the early apples will be from one-half to two-thirds of last year's crop. The late apples are reported from poor to excellent, probably fifty per cent. of 1910. In the lower mainland early apples will be a fair crop, but late apples will be a very light crop. Indeed, Salmon Arm and Armstrong districts report early apples a good to heavy crop, late apples also excellent. Thompson River orchards and the Okanagan generally report that early apples are a good crop, from 90 to 100 per cent. of last year, and late apples will run perhaps 75 per cent. of last year's shipments.

In the Kootenay early apples are reported fair to good. Grand Forks expects a crop many times that of last year. In winter apples the Kootenay generally expects 60 to 70 per cent. of last year's crop.

Generally speaking, Grand Forks will have a uniformly large crop of all varieties of fruit produced there, but all other districts will average up below last year.

### Death of Sir W. S. Gilbert.

Sir W. S. Gilbert met with a fatal accident on Monday, the 20th of May last. He was with friends in a pool situated in the grounds of his estate. A young lady got out of her depth, and Sir William went to her assistance swimming rapidly. Just as he reached her, he collapsed and sank, and although help was at hand and he was immediately brought out, it was too late, he had already been called upon the exertion of swimming rapidly having been too much for him. Sir W. S. Gilbert was seventy-four years old, and his hobby and the librettos of the famous Gilbert and Sullivan operas will ever live as a lasting monument to one of the world's greatest humorists.

### TENDERS will be received by the undersigned marked "Conveyance Contracts," up to July 3, 1911, for the conveyance of pupils to the Central School, West Summerland, on the following routes:

Route No. 4.—From Prairie Valley School to Central School.

The pupils to be conveyed in suitable rigs in time for school each school day, and called for in the evening at the close of school and conveyed back to starting point.

Tenders to state the price for each double trip the rig being found by the School Board, and also if taken by Tenderer.

The successful Tenderer to be prepared to enter into an agreement with the appended Bond for due carrying out of contract for one year.

J. I. LOGIE, Secretary, Ju24-Jyl.

Brown: "Yes, I'm acquainted with your wife, old man. I knew her before you married her."

Smith: "Ah, that's where you had the advantage of me for I didn't."

### NOTICE

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the Land Act, a regulation was approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at \$10 and \$5 per acre respectively.

This regulation further provided that the prices fixed therein should apply to all lands with respect to which the applications to purchase were given favorable consideration after the date of such regulation, namely April 3rd., 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor in Council on the 10th. of May, 1911, that the regulation dated the 3rd. of April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd., 1911, and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd., 1911.

ROBT. A. RENWICK, Deputy Minister of Lands, Department of Lands, Victoria, B.C., 16th of May, 1911. M27-J3-10-17-24

### NOTICE TO CONTRACTORS.

Ellison School.

SEALED TENDERS, superscribed "Tender for Ellison School-building" will be received by the Honourable the Minister of Public Works up to noon of Monday, the 26th day of June, 1911, for the erection and completion of a two-room frame school with concrete basement, etc., at Ellison, B. C., in the Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 5th day of June, 1911, at the offices of M. Hereon Esq., Secretary to the School Board, Kelowna, B. C., the Government Agent, Vernon, B. C., and at the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of \$500, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH, Public Works Engineer, Department of Public Works, Victoria, B.C., June 1st, 1911. J10 17 24

### MUNICIPALITY OF SUMMERLAND.

Central School Conveyance Contracts.

TENDERS will be received by the undersigned marked "Conveyance Contracts," up to July 3, 1911, for the conveyance of pupils to the Central School, West Summerland, on the following routes:

Route No. 4.—From Prairie Valley School to Central School.

The pupils to be conveyed in suitable rigs in time for school each school day, and called for in the evening at the close of school and conveyed back to starting point.

Tenders to state the price for each double trip the rig being found by the School Board, and also if taken by Tenderer.

The successful Tenderer to be prepared to enter into an agreement with the appended Bond for due carrying out of contract for one year.

J. I. LOGIE, Secretary, Ju24-Jyl.

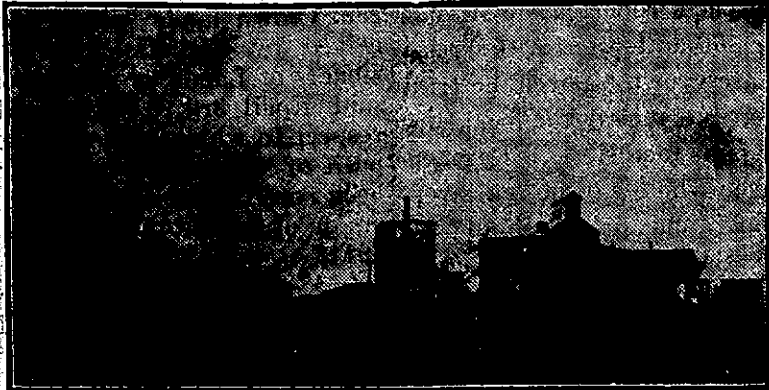

Brown: "Yes, I'm acquainted with your wife, old man. I knew her before you married her."

Smith: "Ah, that's where you had the advantage of me for I didn't."

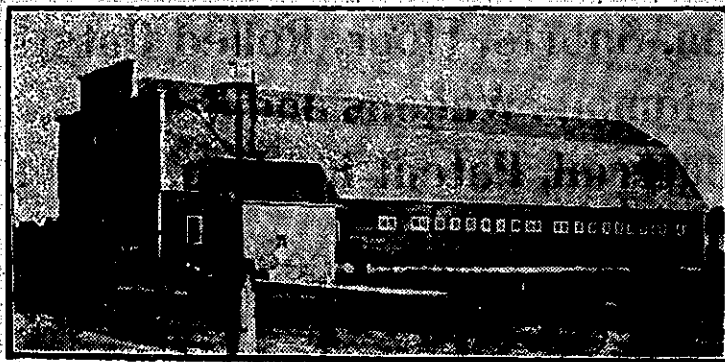

Widespread Attention is Being Attracted to the Business Openings and the Possibilities for Quick Profits in the Close-in Lots in

# NOKOMIS

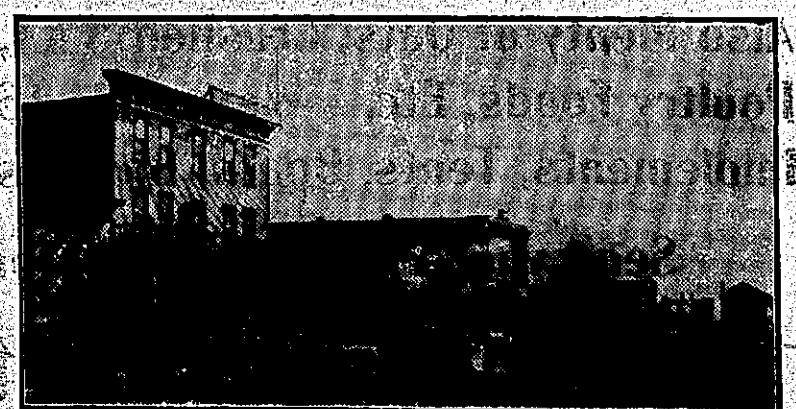

## "The Junction City"

North American Lumber Yards at Nokomis.

Palace Livery at Nokomis. Estimated Cost to Build, \$16,000.

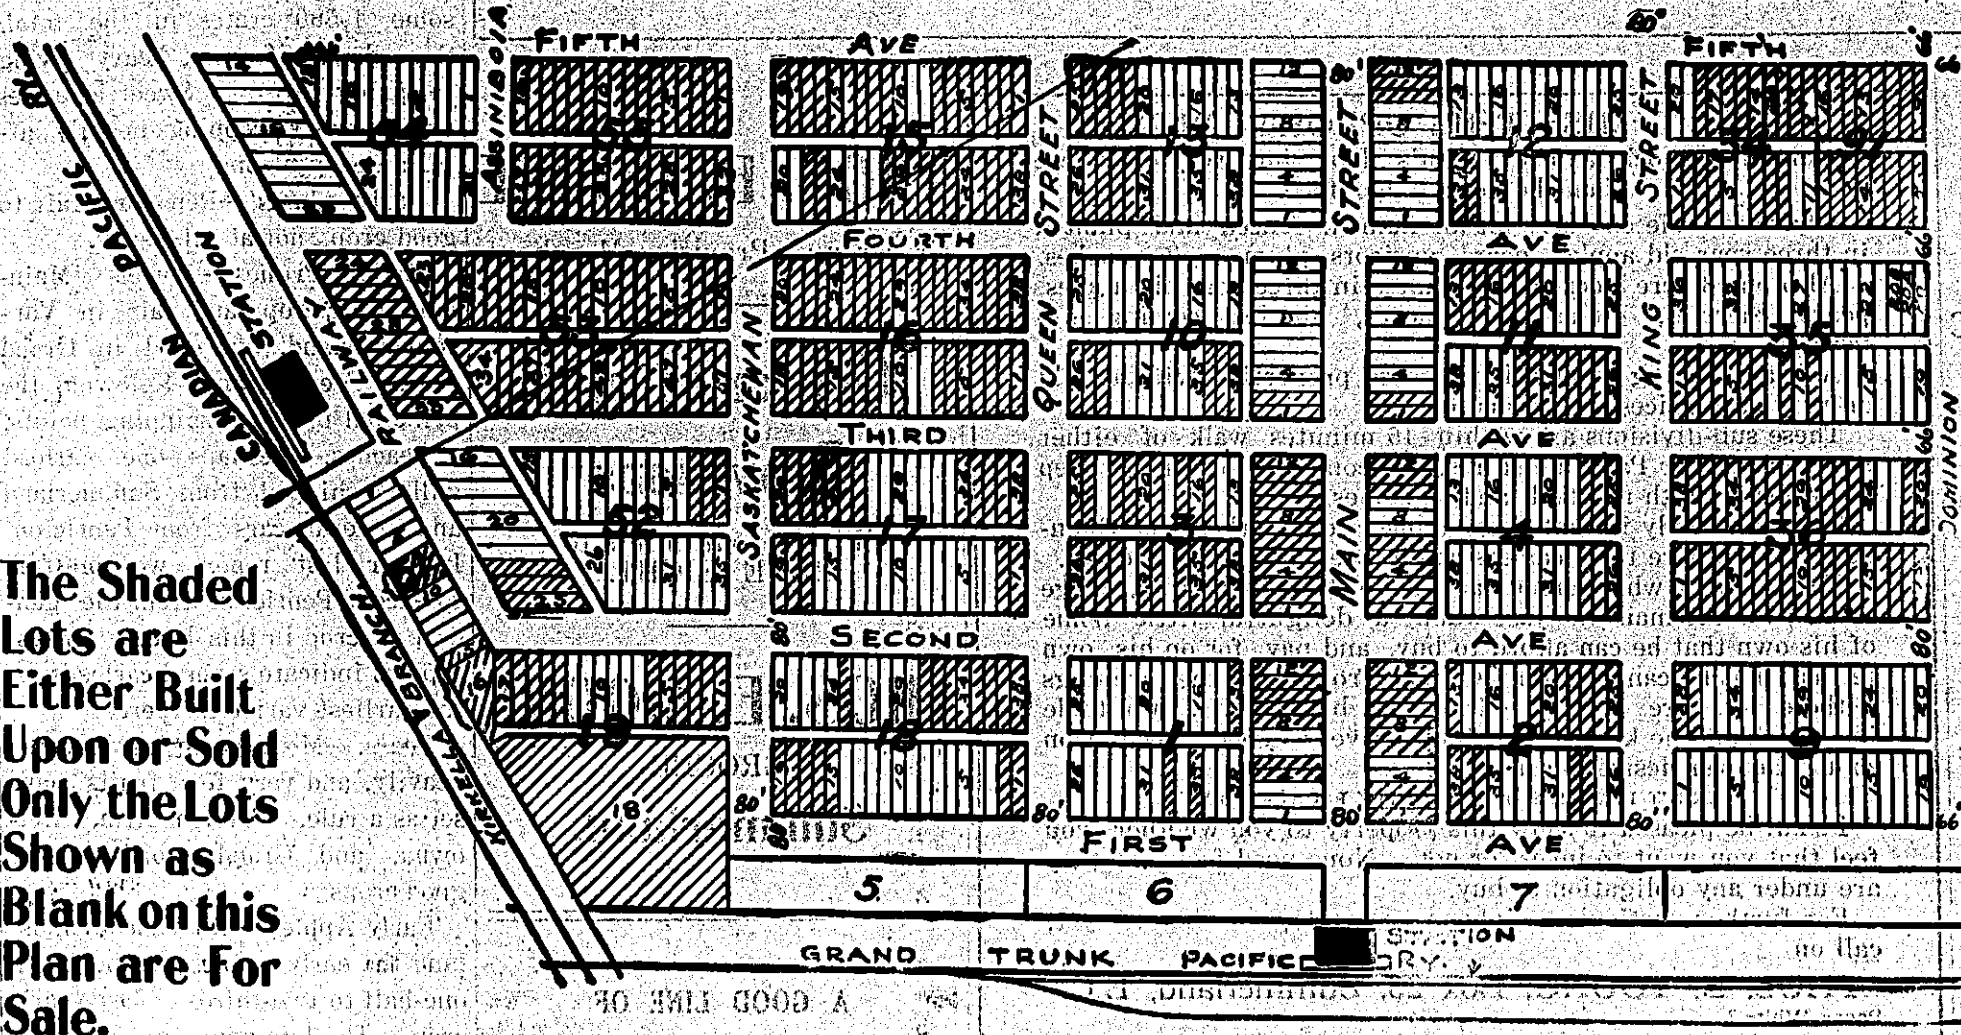

Second Avenue, Nokomis.

### Watch Nokomis Grow

We predict a rapid and substantial growth for this new Railway City within the next 12 months. We received a letter a few days ago from a barrister in Antigonish, N. S., asking us if there was an opening in Nokomis for a solicitor. Yesterday we received a letter from a baker in Chapleau, Ont., asking us if there was an opening in Nokomis for another bakery. Another letter from a resident of Nokomis advises us of his intention to at once erect a restaurant and confectionery store. The widespread attention which our extensive advertising campaign is attracting to Nokomis should within the next few months materially increase its population and cause new business enterprises to engage in business here. When population doubles real estate values quadruple.

The Shaded Lots are Either Built Upon or Sold Only the Lots Shown as Blank on this Plan are For Sale.

### Future Railway

Nokomis is situated in the centre of the Province of Saskatchewan—in the heart of the renowned Wheat District—The Last Mountain Valley.

Nokomis is served by two Transcontinental Railways—the Grand Trunk Pacific and the Canadian Pacific. And the Canadian Northern is to extend its line through Nokomis. This will give Nokomis three Transcontinental Railways, which undoubtedly will assure its future importance as a Railway Centre.

An opportunity for the investor to share in the large profits that will result from the rapid growth of this new Railway Centre.

A City is Building at Nokomis.

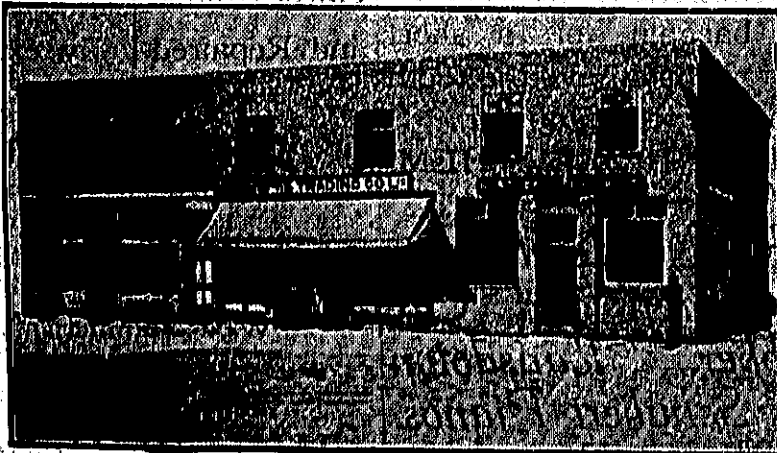

### Why These Lots Are Offered To The Public

The Grand Pacific Land Company, Limited is chartered and authorized by the Dominion Government to buy and sell Western Canada Lands. The question might be urged that if we honestly believed that these Nokomis lots were going to advance in value, why do we not hold them. Not even a Rockefeller or Rothschild could buy and hold all of the good things in the business world. If the townsites of Nokomis were owned by a group of men, and no lots could be purchased by the business man and the investor, Nokomis as a town would cease to exist. It is the business men who will go to Nokomis and engage in various lines of business, the farmers who will store their grain and purchase their supplies at Nokomis and the railways already there, which afford un-

excelled transportation facilities, that will cause Nokomis to develop into an important city. It is those who buy well located lots when the town is in the infancy of its development that make the large profits—not those who buy at the top of the market. It is a well known fact that more than one-half of mankind are like sheep—they wait until others have started and then follow. We are offering well located Nokomis lots at such low prices that Nokomis will not have to grow very much before these lots will be worth double what we now are asking for them. We believe in Nokomis and those who invest in this New Railway City at present prices will have made an investment, the result of which will fully demonstrate the soundness of our advice.

### Easy Monthly Payments Without Interest

The lots we offer range in price from \$50 to \$350 and they can be bought by paying one-tenth of the purchase price with application and the remainder in nine equal monthly payments without interest. A Fifty Dollar lot will mean a payment of \$5 with application and nine monthly payments of \$5 each. Can you afford to miss this opportunity when the terms are so easy? Remember, this is not a sub-division property. Every lot shown on the above plan is located in the original townsite of Nokomis. Perfect title will be issued to purchasers of these lots. Come in at once or phone, write or wire us, at our expense, asking us to reserve the lots you want. They are going very rapidly, and the close-in lots are going first. Don't delay, send in your order or fill in attached coupon TODAY.

Northern Crown Bank at Nokomis

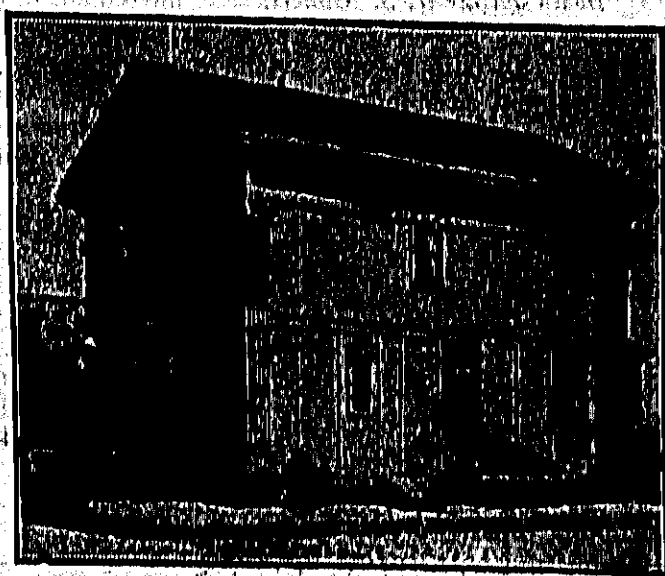

### Building Operations Active in Nokomis

It is understood that arrangements have practically been completed by the council of Nokomis, to at once begin the erection of a large, modern town hall. Debentures running over a term of years will be issued for this purpose. The building probably will be erected at the N.W. corner of Third Avenue and Main Street, where the Fire Hall is now located. The Fire Hall probably will be moved back on Third Avenue. One of the grain elevator companies is to at once begin the construction of a large grain elevator. Several new businesses are now under construction and it is expected that many new business buildings will be erected in Nokomis within the next few months.

### Nokomis Likely To Be A Divisional Point On Two Railways

It is claimed that the Canadian Pacific has expended over \$40,000 at Strassburg, thirty-two miles south of Nokomis, in endeavoring to secure an adequate supply of water to enable it to make Strassburg a divisional point. It is understood that sufficient water has not yet been obtained at Strassburg and it is being rumored that the Canadian Pacific will consider making Nokomis a divisional point on its Pleasant Hills line.

The extension of the Canadian Northern through Nokomis will assure the future of this rapidly growing town as one of the important distributing points of Western Canada. It is not only possible, but very probable that Nokomis will also be a divisional point on the Canadian Northern. The Canadian Northern must have a divisional point at or near Nokomis and as an abundant supply of pure water at a divisional point is essential, it is believed that Nokomis' advantages in this respect will not be overlooked.

**Okanagan Fruit Shipments.**

Three years ago it was said that the C. P. R. was preparing to handle an annual output of 1,200 cars of fruit from the Okanagan Valley by 1911. When the statement was made it was received with scoffing by some, doubt by many, hesitancy even by those most enthusiastic over the capabilities of this favoured district.

In the light of developments of 1910, the strong probability is that the Canadian Pacific will have to provide transportation for more than 1,200 cars of fruit from the Okanagan Valley in 1911.

From Vernon and Okanagan Lake points the grand total of fruit for the 1910 crops was approximately 536 cars. Of this total, it is estimated that 10 were cars of small fruits, principally cherries, with a few strawberries and raspberries. Plums and prunes approximated 44 cars, apricots 7 cars, crab apples 36 cars, pears 18 cars. The peach crop returned a total of 77 cars approximately. This total includes as well as the actual exports from the Valley, the surprising quantity of 110 tons put up by three canneries, Kelowna, Peachland and Summerland.

To the Big Red Apple of the Okanagan, however, must be given the place of honor, for the total export production is closely estimated by the experts engaged directly in the supervision and handling of the shipments, at 344 cars, much the largest return on record, and due in large degree to much of the acreage of young plantations now first beginning to yield an appreciable quantity.

There is to be added to the export business from the Okanagan Valley the very large total of 386 cars of vegetables and other produce (excluding hay) for the 1910 season.

The grand total estimated for the Okanagan Lake points and Vernon is approximately 925 or 930 car loads, or very close to 1,000 cars. Considering these totals, it is readily seen that the estimate of 1,200 car loads for 1911 may very easily be reached and passed.

**HEALTH ACT.**

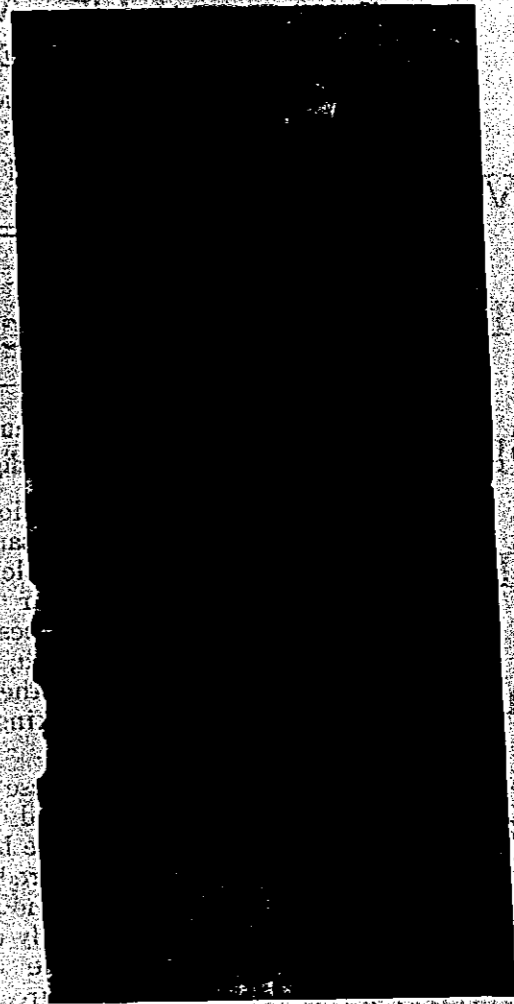

Regulations for the Sanitary Control of Lumber, Mining, and other Camps, Sawmills, and other Industries situated in Unorganized Districts.

- 1.—Every employer of labour on any work in any lumbering, mining construction, or other camp, sawmill, or other industry situated in any portion of an unorganized district, shall, upon the establishment of each and every camp or work, forthwith notify the Sanitary Inspector of the Province of the establishment of the same, and when requested to do so, shall furnish such particulars as may be required by the said Inspector.
  - 2.—The owner, manager, agent, or foreman of any lumber, mining, or other camp, sawmill, or other industry located within an unorganized district, shall, in connection with every such industry or works, be responsible for the execution and enforcement of any regulation herein contained or hereafter to be adopted.
  - 3.—If in the opinion of the Sanitary Inspector the site of any camp or works is unhealthy or unsanitary, he may order the removal of such camp or works to some other site selected by him.
  - 4.—Any house, tent, or dwelling occupied by the employees of any industry located within any unorganized district shall contain sufficient cubic feet of air space for every occupant thereof as may in each instance be deemed necessary by the Sanitary Inspector, and shall further be provided with efficient means of ventilation. The floor of every dwelling shall be constructed of boards or planks, or other material equally suitable for the purpose, raised on supports at least one foot from the ground, and so made that it shall be tight. Every dwelling other than a temporary tent shall be lighted by windows so constructed that they can be opened when necessary.
  - 5.—The method of ventilation of every dwelling in which a stove or furnace is used shall be such as will satisfy the Sanitary Inspector. The temperature of the room shall be maintained at from 60 to 65 degrees Fahr., and a shallow pan supplied with water shall be kept on the stove to supply air moisture.
  - 6.—Every camp or works of every industry coming under these regulations shall be equipped with a wash-house or laundry containing a stove and tubs for bathing purposes.
  - 7.—Every camp or works shall be provided with a building or tent properly constructed and set apart as a kitchen, and having a dining room in connection therewith, with proper conveniences for the cleanliness and comfort of the employees.
  - 8.—Proper receptacles "refuse" be kept on hand into which all refuse, whether liquid or solid, must be placed, and such refuse must be regularly destroyed by fire or removed to a safe distance from any building and be so deposited as to not create a nuisance or contaminate the drinking water.
  - 9.—Latrines, earth, or other closets must be located, constructed, and maintained in a manner satisfactory to the said Inspector.
  - 10.—Stables in connection with any camp or works must be located as not to contaminate the water supply, and must be not less than 125 feet distant from any dwelling or kitchen. This distance may be increased at the discretion of the Sanitary Inspector.
  - 11.—The water supply of any camp or works must be uncontaminated and obtained from a source satisfactory to the Sanitary Inspector.
  - 12.—Printed copies of these regulations may be obtained from the Sanitary Inspector.
  - 13.—Should the Sanitary Inspector find that any of these regulations are not complied with, he may, where necessary, take steps to enforce them, and the expense of such action shall be paid by the employer or his agent.
  - 14.—The penalties contained and provided in section 97 of the "Health Act" shall apply to the violation of any of these regulations.
  - 15.—The Sanitary Inspector may, where deemed necessary, obtain the services of any Provincial constable or constables to assist him in the performance of his duties and to aid in the enforcement of these regulations.
- By Order,  
L. T. DAVIS, M.D.,  
Sanitary Inspector, Victoria.

**Kaleden Comments**

Miss M. Neve, of Summerland, is the guest of Mr. and Mrs. Frank Harrison.

M. C. P. Nelson, of Summerland, was a visitor to town this week, and took a few photographs.

M. John F. Park has brought his wife and child from Vernon, and his household effects have arrived from England.

Mr. Harry Corbitt entertained several friends at his country seat last Wednesday, the spacious reception room being enlivened with music and merry dancers to a late hour in the evening.

Messrs. A. Kay and J. Taylor left for Kelowna last Wednesday, the former, however, expecting to return in a few days time.

Mr. Arthur B. Francis, of Banbury, England, is a new arrival, who hopes to make Kaleden his future home. He is an old friend of Mr. John D. Harrison, with whom he is staying.

Rev. Mr. Cleland, Episcopal clergyman, drove over from Penticton last Sunday afternoon, and conducted Divine Worship at the home of Mr. Frank Harrison. Arrangements are being made whereby Mr. Cleland will hold a service alternate Sunday afternoons at Kaleden and the Falls during the season.

Enquiries having been made as to the successes achieved by Kaleden residents at the Falls sports on the 3rd. of June, friends in the Valley will be interested to note the following:— 200 yards swimming race, 1st, Mr. R. G. Tato; 2nd, Mr. Johnston. Canoe doubles, men, 2nd, Messrs. R. G. Tato and H. Corbitt. Canoe doubles, mixed, 1st, Miss Harrison and Mr. R. G. Tato; 2nd, Miss M. Neve and Mr. H. Corbitt.

Last Sunday evening, a large number of friends gathered at the home of Mrs. W. P. Simpson, where they spent a very happy time, singing to their hearts' content the old and favourite hymns.

### Stomach Agony

Abolish the Cause, and Misery and Distress of Indigestion will Vanish

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness; sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-o-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to the Summerland Drug Company this very day and get a large box of Mi-o-na tablets, and start themselves on the right road to health at once.

The price of Mi-o-na tablets is only fifty cents, and the Summerland Drug Company guarantees them to cure indigestion or money back.

Thin or lean or scrawny people will find in Mi-o-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

### NOTICE TO CONTRACTORS.

Black Mountain School.

SEALED TENDERS superscribed "Tender for Black Mountain School," will be received by the Hon. the Minister for Public Works up to noon of Friday, the 30th day of June, 1911, for the erection and completion of a large one-room school building at Black Mountain, in the Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 14th day of June, 1911, at the offices of S. Sproule, Esq., Secretary to the School Board, Rulland, B.C.; the Government Agent, Vernon; and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of \$150, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

H. E. GRIFFITH,  
Public Works Engineer.

Public Works Department,  
Victoria, B.C., 14th June, 1911.

Much has been heard of late of the splendid houses being erected in different parts of the country by the National Finance Company, of Vancouver. This company are exclusive agents for the "Prudential Builders Limited" who build more houses than any other builder or contractor in Canada.

A specialty is made of the artistic bungalow style of any size, so prevalent in California. The Company uses nothing but the best material in their houses, and all parts are cut to pattern by machine, making them fit absolutely. The Company owns its own timber limits, sawmills, and has a factory and plant unexcelled in Canada. On account of the large number of houses erected this company is able to quote closer prices, (f.o.b. nearest railway station) than the average contractor. Anyone contemplating building would do well to get particulars from the National Finance Company, Limited, Vancouver, B.C.

The Temperance public are reminded of the Local Option Convention at Kelowna all day Tuesday June 27th, in the Methodist and Presbyterian Churches. A good program is prepared and the whole Okanagan district should be well represented. The usual boat and rail rates have been secured.

### RIFLE ASSOCIATION.

On Saturday last the third shoot of the series for the Dominion of Canada Salver took place with the scoring as follows:

	200	500	600	Total
B. Stewart	31	33	30	94
H. Dunsdon	28	32	29	89
M. Stewart	31	29	25	85
J. Dunsdon	28	26	20	74
J. Conway	28	26	20	74

The next shoot will be on Saturday, 8th of July, and a full attendance is expected. More members are still required to bring the Association up to strength, and the secretary (F. J. Nixon, West Summerland), will be pleased to give full particulars to any member of the public interested in rifle shooting.

Mrs. Carrie Nation, the temperance reformer whose strenuous methods frequently brought her notoriety, is dead. She had been ailing for a long time, the cause of her end being paralysis.

Mr. T. Dale spent a couple of days in Vernon this weekend.
