DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 3, No. 30

SUMMERLAND, B.C., MARCH 4, 1911

Whole No. 134

## BRUTALLY ASSAULTED.

**Mrs. Harvey Phinney, formerly of Sackville, but for Some Years of Summerland, was the Victim. She was Visiting in Newcastle, N.B.**

The following is taken from the Sackville (N. B.) Tribune, dated Thursday, February 16th., 1911.

Newcastle, Feb. 12.—A murderous assault was committed here at an early hour Saturday evening, on an old lady 72 years of age, who was passing along Barley Lane between King and Pleasant Streets, in the heart of the town.

Mrs. Harvey Phinney, the victim of the dastardly outrage, said to belong to St. John, has been visiting at the home of a permanent resident.

The assault took place shortly after nine o'clock, when a full moon was shining brightly and there were large numbers of people on the streets.

At 9.30 o'clock a young girl passing along the lane saw a woman lying near the fence with her face covered with blood, and her clothing torn and dishevelled. Very frightened the girl dashed back crying out in alarm.

A crowd soon collected and the old lady, who was badly cut about the face and hands, had her clothes badly torn and showed other signs of vile usage, was carried into a neighbor's house.

She was unconscious but alive, and Dr. Desmond, who was hastily summoned, succeeded in bringing her round. She said her assailant was a young man in knee trousers. The fellow sprang upon her like a madman and started to beat her brutally. She screamed and fell insensible. When she was discovered her pocketbook, containing a considerable sum of money was missing. The torn clothing indicated further outrage, but the approach of some one evidently frightened the assailant away.

Up to this evening the police have found no clue to the assailant but it is supposed he was a lumberjack crazed with drink. The pocketbook, rifled of its contents, was found in the morning not far from the scene of the assault.

Never before in the history of the town have the people been so wrought up as they were when the story of the dastardly assault spread about. The age of the victim made the atrocity one of peculiar horror, and had the perpetrator fallen into the hands of any of the excited search parties it would have gone hard with him.

Mrs. Phinney is resting comfortably and hopes are entertained that she will eventually recover from the effects of the terrible shock and brutal beating she sustained.

Newcastle, N.B., Feb. 13.—Patrick Carroll about twenty years of age was arrested today on suspicion of having been the party who

committed the assault upon Mrs. Harvey Phinney Saturday evening.

Mrs. Phinney is recovering from her fright and injuries received but is not yet able to leave her bed, hence the prisoner has not yet been brought before her for identification. The victim of the brutal assault mentioned was Mrs. Harvey Phinney formerly of Sackville, but for some years of Summerland, B.C. (It will be remembered that Mr. Phinney died last fall in Summerland. About Christmas time Mrs. Phinney came to Newcastle where her brothers and sisters live. She has recently been the guest of her sister, Mrs. Crocker.)

## SUPERINTENDENT STEVENS TO RETIRE.

Mr. C. S. Stevens, who has been in charge of the Dominion Government Telegraphs and Telephones in the interior of British Columbia during the past seven years, will sever his connection with the Department on May 1st. next.

During his superintendency Mr. Stevens has extended and developed the Government system from 67 miles of line to 543 miles, from ten agencies to 54 offices from a revenue of \$50 a month to one of \$1,800 per month. Local exchanges of the Government telephones have been installed at Hedley, Merrit, Nicola and Princeton during this time with over 100 subscribers in all. Of all the Government lines in Canada this is the only one which yields an increase of revenue over expenditure.

When Mr. Stevens accepted the position seven years ago it was on conditions stipulated by him that he work on part salary only and that he be allowed to continue his private business until one or both became too large to be well conducted together. That time has now come and Mr. Stevens retires to devote the whole of his time to his private interests as Managing Director of the Lake Shore Telephone Company, Limited, of Summerland.

## LIBERAL ASSOCIATION.

There was a meeting of the Summerland Liberal Association on Friday last, at the Schoolhouse, West Summerland, and among others the following resolutions were unanimously carried:

"That this meeting approve of the Reciprocity Bill now being negotiated. That as fruit growers of Summerland we have no fear of American competition; as Canadians we would gladly see an increased preference to all British goods."

To the Editor, "Summerland Review."

"That this meeting express its appreciation in its fair and impartial arguments brought forward on the reciprocity question; and that a copy of this resolution be sent the editor for publication."

## MORE SOCIALISM.

### Organizer Desmond again Lectures in Summerland.

A mere handful of people gathered in Elliott's Hall on Thursday evening when Gerald Desmond again lectured on one phase of socialism. On the merits or otherwise of this system of economic reform we will say nothing; but we do think that it would do many people good to learn what socialism really is. Some condemn it yet not knowing what they condemn.

Following a few brief introductory remarks Organizer Desmond spoke for over an hour on "the History of the Working Class." He explained that previous to the division of society into the working and the non-working classes, a state of primitive communism prevailed. All things were in common. Neither the natural resources or the tools of production were any one individual's property but the common possession of all. The first departure from these conditions came with the introduction of forced labor, chiefly by prisoners of war. These captives were enslaved; that is, they were made to work for the primary benefit of others. And it was along these two lines that humanity continued to develop. All down through history, ancient, medieval and modern, labor had undoubtedly played the greatest part. By it civilizations had been built up, and, in many cases torn down. Rome, for instance, fell through the instrumentality of the very people she had enslaved. And although rebellion and revolt had marked the path of this unjust labor forcing system, it yet remained for the workers of today to finally overthrow it, and substitute their system of economic equality.

A meeting of the Ratepayers' Association will be held in the Central Schoolhouse West Summerland, this evening, (Friday) at eight o'clock.

The following are among the registrations at the Hotel this week. B. Golden; R. Buxton; C. F. Martin; E. F. Metcalf; G. E. Little; of Vancouver. J. McLaughlan, J. W. Gellatly, of Peachland. Col. L. E. Van Hise, of DeLand, Fla. R. H. Carley, Nelson. F. B. Howarth Salmon Arm. J. Irwin, H. B. Morris, Seattle. H. M. Pearson, Calgary. G. Brady Victoria. G. R. Hookham, H. C. Hickenbotham. England. F. H. Latimer Penticton.

Hon. Clifford Sifton has severed his connection with the Liberal Party, of which he has been so hearty a supporter. He does not agree with reciprocity, and on Tuesday last, in the House at Ottawa, announced the same in very outspoken terms.

**:: Naramata Notes ::**

**CARD OF THANKS.**

We, the undersigned, beg to express our sincere thanks to those friends in Summerland and Naramata who so kindly assisted us during our recent misfortune, and Mr. R. H. Goodman and Mr. R. H. King particularly for their assistance, together with that of the other gentlemen who volunteered their services in the erection of our new house.

Mr. and Mrs. F. H. Rounds.

Mr. and Mrs. White have moved into the Wilkins house for the present.

The Athletic Club held the last of the season's whist parties last Thursday evening at the home of Mrs. Johnson where a very pleasant time was passed. At the close the prizes for the "high ones and the low ones" for the whole season's games were handed out. Miss Lois Wells and Miss Adelaide Hayward were the fortunate young ladies. Mr. Nuttall won on a toss-up from Mr. R. Boothe who tied for the gentleman's first honors. Mr. George Cook discovered the gentleman's consolation prize after half an hour spent in unravelling carefully and untying about a score boxes of ever diminishing sizes—one within the other—revealing at last a miniature box of bachelors buttons. The boys are to be congratulated for their success in carrying out their various undertakings.

Mr. Gerald Desmond, Dominion organizer for the Socialist Party of Canada held a meeting on Monday evening of this week in the Opera House to a fair sized audience. At the close of the lecture steps were taken looking towards the organization of a Socialist executive here. But of this more later.

Amongst the coming events is one which will doubtless draw a packed house. It is a concert for the band on the 17th of March. The young folks of town who are responsible for this good idea are being ably supported by Mrs. Gillespie who has so kindly agreed to conduct the rehearsals for the choruses, etc. Better set this date—Friday March 17—aside labelled reserved for the band.

The building of the Methodist Church has proceeded in great shape this week. The building is already roofed and will be shortly be ready for the plasterers. A large force of expert carpenters are responsible for the expeditious workmanship.

A large crowd from town went across to Summerland on Tuesday evening to take in the show "Managing Mildred" in the Men's Club.

The task of re-modelling the "Naramata" though not yet complete, is well under way and the boat will soon be in shape for the season's work.

**Local News Items.**

Mr. G. A. McWilliams has on his list several lots in our sister town of Penticton. Call and see his plan.

If Summerland's to show  
The stuff we want, you know,  
Then those who fruit do grow  
Must spray, spray, spray.

Having disposed of my business to Mr. J. Downton, I beg to intimate that all accounts rendered are now due and I trust same will be met promptly.—L. C. WOODWORTH.

Harry Silvester left on Thursday morning for an extended trip to the Old Country. It is twenty-nine years since he was there last and he expects to be away for six months or more.

The Lake Shore Telephone Co. expect to move into their new exchange early next week. They are issuing a new directory of Summerland, which is much needed, as the number of their subscribers is increasing so rapidly.

MAY 24th.—There will be a meeting of all those interested in "Summerland Day" held in the Council Chamber at eight o'clock on Monday evening. Don't forget this—help make Summerland hum by reviving the festival of the 24th. Come and air your opinions, and help out some.

The opening of the New Presbyterian Church at West Summerland, which was announced to take place on the 12th. inst., has been postponed, and the time when it is ready for public worship will be duly announced. The installation of a bell in the edifice is contemplated, and it is to be hoped that this move will be realized.

Last week-end the surveyors of the Kettle River Valley line surveyed two crossings of Trout Creek, just below Mr. Neve's residence in that district. This will make three surveys for the crossing of the creek, and if Dame Rumor is to be relied upon, the next survey will be along the creek itself up as far as Mr. Dean's place then it will strike out from there.

Last week, Greata's Ranch, situate about ten miles north of Summerland, changed hands for the sum of \$42,000, a Vancouver syndicate being the purchasers. Mr. G. A. McWilliams, of Summerland, put the deal through. There are about thirty acres planted, twenty with seven-year old trees, and ten with young trees. The acreage of this ranch is considerable, and has a splendid water supply.

The Honor Roll of the Central School, Division I, for February, is as follows:—

Senior 4th. John McLeod 81; Blanche Babbit 80; Gordon Ritchie 77; Kathleen Babbit 75; Charles Steuart 75; Willie Simpson 75; Gordon Robertson 74; Jean McIntyre 73; Cleveland Stevens 72. Junior 4th. Kenneth Elliott 69; Olga Tunstall 67; Eliza Ritchie 62; Lee Hatfield 62; Helen Robertson 61.

**SPRING MILLINERY**

We beg to intimate that we are adding this branch to our lines already carried and will show range of styles in due season.

**STYLISH HATS NOW MADE TO ORDER.**

From Monday March 6th to Saturday the 18th, Special clean-up sale of Odd Lines of Boots and Shoes. All to go at great bargains.

Oranges, Lemons, Grape Fruit, Groceries and Confectionery just arrived.

## PROROGATION IN SIGHT.

Victoria, B.C., Feb. 22.—With the passage of the Estimates through Committee of Supply in record time, and the inauguration of night sittings in the House, the beginning of the end of the 1911 session of the Provincial Parliament is characteristically emphasized. The members have obtained all that it is possible for them to obtain for the necessities of their constituencies during the present year, and all are now becoming anxious to return to their homes and individual business interests. As a result, the remaining items on the Order Paper are being attacked with noteworthy energy, and the announcement is made that this week will witness prorogation.

Mr. Alexander Lucas, the new member for Yale, in his maiden speech in the House, acquitted himself with the most extraordinary distinction, his address being one of the most original, practical and concise of the present session, and the manner of its deliverance clear, forceful and convincing. Mr. Lucas said, preliminarily, that it was not his intention to analyze the Budget speech, or to comment upon it, but rather to take advantage of the latitude this debate permitted and bring to the attention of the House what in his opinion was deserving of serious consideration. He felt that it was a pleasant duty to join in the congratulations to the Finance Minister and the country upon prevailing satisfactory conditions, while the members should be peculiarly well satisfied with the large district grants. By the end of the current year, he felt confident in predicting, the advance of the country generally would fully justify the contemplated expenditures, although the amount of money involved was very large.

The question which he desired to particularly refer was the somewhat unfortunate position of the average farmer of the province. It had been said that British Columbia at the present time was not producing more than fifty per cent of its actual requirements in food commodities. All would admit that if a greater proportion of the necessities of life were produced at home it would be far better for the province in every way; and he believed that with proper and fair assistance to the farmer, the output of the farms in British Columbia could be largely increased. There were many old settlers throughout the Province who had come here in the early days and secured large holdings when all the land was before them to select from, and who in consequence had undoubtedly done well. These had been particularly fortunate in their locations and had either taken up land naturally well watered or so placed that water might be easily applied, but there were very many others who, inexperienced at the beginning, had been less fortunate in their selections. These had taken up land in the semi-arid belt and found it a matter of great difficulty to secure the water requisite for irrigation, in sufficient quantity or economically delivered. Others found the heavy timber a formidable obstacle and the cost of clearing beyond their limited means.

To facilitate the bringing of land under cultivation the member thought that some business provision should be made so that the actual settler might obtain money sufficient for the development of his holding by way of loan or long term payments, so that these might be met out of the annual profits of the crop. In this province at present there did not appear to be any opportunity for the farmer thus to borrow for his necessities at reasonable interest, and on long term payments, and the inauguration of some arrangement of this nature would operate most favorably to the country in the augmentation of the production of our food supplies and in the increased acreage brought under cultivation. It was true that the farmers of Ontario had been under a somewhat similar handicap to that prevailing here, and as a result it had taken Ontario a long time to get its farms under cultivation. Besides, times had changed greatly, and as much progress was now expected in a single year as in twenty when Ontario was young. If the farmers could not keep pace with the time and develop their farms so as to take immediate advantage of an anxious market they would miss golden opportunities.

He had read not long ago a very interesting statement made by the First Minister in which the Premier had estimated that there would be expenditures in British Columbia during the next four years in railway construction and similar important development work of no less a sum than \$100,000,000. A few days afterwards he had met and been in conversation with a prominent banker, when this statement came up, and the banker had said that the Premier's only mistake was in that he had very much under-estimated the situation—that over \$200,000,000 would thus be applied to the development of British Columbia during the next four years. With that great prospect before it, the Government was quite justified in making the large grants that had been made for necessary public works. There was no danger of British Columbia suffering from any immediate depression.

Another matter worthy of attention in connection with its influence on the Provincial farmer was the great development of the fruit growing areas of the neighbouring states. In Washington and in Idaho during the last few years over \$200,000,000 has been expended in bringing water to the land and thereby placing under cultivation a large area, adding immensely to the self-sustaining capacity of the people and their export trade. This large expenditure was partially by the state, and it had been the means of adding to Washington's population approximately one hundred and twenty per cent, and to that of Idaho one hundred and one per cent. While all this increase of population and of agricultural activity could not be ascribed to the irrigation works referred to, it was undoubtedly that development had received a great impetus through these works. He had himself made a tour of the states in question and spoke with personal knowledge of the conditions prevailing. Everywhere the consensus of opinion was that great benefit had re-

sulted and there had been an immense influx of population in consequence. The produce of these states would soon be coming into British Columbia and if anything could be done to place the farmers of British Columbia on an equality of competition it was manifestly in the interests of the Province that it should be done. Personally, he was firmly convinced that it could be done, and that the Government would be abundantly justified in taking up the matter and endeavouring to arrive at a satisfactory solution of the principal problems now confronting the farmer. In this connection he recommended the appointment of an expert commission to make enquiry into and devise a solution of each problem. The commission suggested might well give special attention to irrigation matters, which the individual farmer was not in a position to grapple with.

**BEE LEGISLATION.**

A Bill was introduced into the legislature recently for the suppression of foul or black brood in bees. This is a first attempt in this province to eradicate what may be spoken of as the greatest obstacle to successful agriculture. Under this new measure provision is made for the appointment of inspectors as may be necessary to examine apiaries for signs of the disease. Where the inspector is satisfied of the existence of the disease in a malignant form he is authorized to order all colonies affected together with their contents if these cannot be effectually disinfected immediately destroyed by fire under his supervision.

The following is the Honor Roll for February in Ward I. School:—3rd Grade. Allen Harris 92; Jean Babbit 83; Edna English 28; Kathleen Brown 80. 2nd Grade. Olive Bristow 83; Marjorie Hatfield 82; Willie Clark 81; Gwen Harris 81.

The regular monthly meeting of the W. C. T. U. will be held at the home of Mrs. Pattison, Shaughnessy Avenue, on Monday March 6th at 3 p.m.

Messrs. R. H. Agur and C. J. Thompson arrived back from their trip to the coast on Wednesday evening.

Things are moving in the athletic line at the College. Last Friday evening at the town gymnasium the boys cinched the basketball pennants by winning the fifth game of the series with a score of 19-13. It was neither a scientific nor a spectacular game, but one in which more weight than skill was in evidence. The final game of the series is to be played tonight (Friday) in the College gymnasium, and if the town team go under again, the College quintette will have completed their scheduled season without dropping a point. Last Saturday evening the inter-class track meeting was pulled off successfully, and the Academy '14 class headed the score with a total of 75 points. Full particulars of the forthcoming musical gymnasium demonstration will be announced during the week. The date has been fixed for Friday evening, March 17, and the executive in charge of affairs are going to leave no step untaken that will add to the attractiveness of the program.

**SIR THOMAS SHAUGHNESSY**  
President of the Canadian Pacific Railroad.

To be the guiding spirit of a great railway company, with a firm hand on the lever of a thousand phases of the work, requires long, practical, thorough experience, splendid executive ability in choosing and handling men, and a quick mind to decide vital issues on the moment if need be. Sir Thomas G. Shaughnessy has these essentials and more; he is a tireless worker, a man of energy and enthusiasm, a keen common sense that cuts Gordian knots of difficulty with ease, and a prodigious memory that is always ready on the instant.

He was born in Milwaukee, Wis., of Irish parentage in 1853, and after taking the usual course in the public schools had a little supplementary smoothing down and polishing in a business college, and was then ready at sixteen to begin the battle of life. He entered the kindergarten of railroading in his first position in the purchasing department of the Milwaukee and St. Paul road, and it was not long before it was recognized that he had a good business head firmly set on his broad shoulders; and with constant purpose and undaunted determination he worked his way, never looking at the clock nor stinting his efforts, until in 1879, at the age of twenty-six, he was general store-keeper of the road.

In 1882, Sir William Van Horne, another alumnus of this railroad which was a splendid college of training and experience, resigned from the Milwaukee and St. Paul to assume the management of the Canadian Pacific. He had been keeping close tally on Mr. Shaughnessy's work; he realized his possibilities and was confident that the young man was broad-gauge enough to be equal to larger opportunities, and took him to Canada as general purchasing agent. Two years later he won, by his ability, the post of assistant general manager, later becoming assistant to the President and in 1891 was made Vice-President and elected a director, and in 1898 when Sir William Van Horne retired from the presidency, the opportunity of his life, the climax of the rosiest dreams of his ambition came to Mr. Shaughnessy when he was made President—the kindly autocrat of the Canadian Pacific.

In October, 1901, his old folks at home in Milwaukee were roused from sleep one night by a messenger with a telegram. In trembling fear his father opened the envelope and with wonder and delight read aloud these words from one of the great railway kings of the western hemisphere: "You may be gratified to know that His Majesty has conferred on me the honor of knighthood. One owes a great deal to a good father and mother. T. G. Shaughnessy."

Entered according to Act of the Parliament of Canada, in the year 1935, by W. G. Mack, at the Department of Agriculture

The somewhat ironical motto, "All this too  
will pass away" confronts the visitor to the  
office of a famous police official in Montreal.  
It carries very little comfort to the criminal  
who stands on the brink of a long separation  
from society behind the grated windows of a  
penitentiary cell or perchance in the shadow  
of the gallows but it spells splendid significance  
to the man who is compelled to listen while the  
politicians rage and the party press howls one  
way or the other about the evils or the benefits  
which are sure to follow in the footsteps of the  
enactment now on the boards.

### CANADA'S MOVEMENT FORWARD.

In the Canadian Courier a writer remarks that—the first ten years of Canada's century have made the New Canada by opening up the West and that the last decade of the nineteenth century saw the gradual passing of the older Canada. "But more singular," he adds, "it is exactly two decades since Canada was confronted with the possibility of absorption by the United States.

"In 1891, Hon. Edward Blake wrote his famous Durham letter, in which openly he resigned his seat in the House of Commons. He told the people of Canada he was doing so because the Liberal Party was committed to Free Trade with the United States, and that so far as his vision was concerned, reciprocity meant annexation. He went to Ireland and became member for Longford.

"Two years later the Liberals went into power, not having as yet disclaimed free trade. Since 1896 the Liberal Government in Canada has not been accused of being a free-trade party. There are a good many people in Canada who have said that the Liberals now are more protectionists than were the Conservatives of 1896 or 1878. The reasons why the Liberal party abandoned free trade have been somewhat made by the United States Congress with its series of keep-out measures; the McKinley Bill and the Payne-Aldrich Bill. The Liberals were completely billed out of free trade into a protective, retaliatory policy.

"In 1891—the free trade bogey and the Durham letter, following the fiasco of Erastus Wiman and Senator Butterworth, who tried to practise what Goldwin Smith preached; in 1911 twenty years later the same Liberal Party, negotiating with Washington; Parliament and Congress simultaneously debating the issue; both countries divided into camps over the question—and the end not yet in sight. The same shibboleth is used now as was contained in the Durham letter of 1891. Free trade to some people means ultimate annexation.

"Meanwhile, without an export duty we have sent a couple of million people to live in

the United States, and without any tariff we have taken half a million American farmers into Western Canada."

### LEARNING FROM EXPERIENCE.

It is a wise saw, if an old one, that to learn from personal experience is good, but to learn from the experience of others is better. The wise man is big enough to take his learning from any source from which it may come. He does not stop to read the college degree before recognizing the quality of the knowledge. If it be good he accepts it as his own; if it bears the imprint of practical common sense, though it may come from a source antagonistic to that which he has been taught to believe was the only orthodox way, he nails it, and to the crude article adds his own knowledge and works it up into something of more practical service to himself—and others.

Fruit conditions in the Okanagan Valley are just beginning to be understood. The recent winnings at the National Apple shows, at Spokane and Vancouver, demonstrated beyond a doubt that we can here produce several varieties of apples better than can be produced anywhere else in the world. This being true, there should be no difficulty for our fruit growers to dispose of this quality of apples at fancy prices—\$2.00 to \$2.50 per box.

The same may be said of our peaches. There cannot be a more delicious, highly flavored peach grown than the Southern Okanagan peach. And wherever it is known, the demand for it is persistent and exceeds the supply.

To get this fruit to the open market is not difficult. But the open market is not the fancy-priced market, and it is the fancy-priced market that our fruit unions must build up or get into. The following statement of the fancy market situation in the United States, made by Mr. C. H. Sproat, manager of the Hood River apple growers' union, will give an insight into the operations there carried on:—"We think the Hood River Apple Growers' Union has fared very favorably when compared with the results other box apple sections have obtained this year. At the same time the results are somewhat disappointing to the Union. The general conditions which prevailed throughout the latter part of the season were very unusual. The trees were heavily loaded with fruit, and while we were anticipating a large crop of average sized apples, the fine growing weather and the early fall rains seemed to produce apples of an unusual size. This in turn produced a much larger crop than was anticipated in the month of August. In years gone by, the highest priced apples of our fancy grades have been the extremely large ones, for the reason that the people seem to want what they have difficulty in getting, there being very few large sized apples on the market in years gone by. These brought high prices. This season the 120s and 128 sized Newtons and Spitzenbergs were very scarce, so much so that the Union had to cancel several carload lot orders because it was impossible to procure these sized apples; and

on the other hand in years past we have had a very fair proportion of 4½ tier stock of Spitzenbergs and Yellow Newtowns, which have always sold very readily. This season we were obliged to disappoint Steinhardt and Kelly for we were only able to supply them with a very small percentage of their needs of 4½ tier Spitzenbergs and Yellow Newtowns. This firm has a special trade which uses a very large output of this sized fruit. The relations which have existed between Steinhardt and Kelly and the Hood River Apple Growers' Union this season have been along the same lines as have prevailed in the three past seasons, in which they have handled our apples.

"The Union this season, up to date, has sold apples in 25 states of the Union and in 65 different cities to 87 different consignees. While here and there it has been necessary to allow some rebates from the original invoice price, owing to the poor condition of some of the varieties upon arrival at destination, on the whole we have found the f.o.b. purchasers straightforward and upright business men, and, generally speaking, wherever a rebate has been necessary, we believe the consignee in most cases was justified in asking for same.

Following are the prices at which Hood the Hood River Apple Growers' Union disposed of the apple stock in the past eight years, f.o.b. Hood River: 1903, \$1.75 per box; 1904, \$1.85 per box; 1905, \$2.00 per box; 1906, \$2.20 per box; 1907, \$2.25 per box; 1908, \$2.25 per box; 1909, \$2.40 per box; 1909, \$2.00 per box.

### MANAGING MILDRED.

On Tuesday evening last, at the Men's Club, this comedy was produced by one of the Walker Companies, under the management of Chas. Picquet.

A very large audience was in attendance—one of the largest ever seen in this building—and throughout the whole evening, they were provided with a fare, the like of which has rarely if ever been provided before in Summerland. From start to finish, the players kept the audience in a happy mood, and laughter was the slogan of the evening. Amongst the many light operatic pieces which they rendered were some with very catchy tunes, perhaps "Whistle It" caught on the best. Then they were not only exponents of music in the lighter vein, but also no mean artistes in grand opera as their rendition of the Miserere Scene from Il Trovatore testified. The orchestra helped matters fine and there several selections were very well played and much enjoyed. Altogether the "Managing Mildred" Company impressed Summerland very forcibly, and they may be ever sure of presenting their plays before a large and enthusiastic audience in our town.

The band has arranged to give a concert in the College gymnasium on Thursday the 30th., at 8.15. There is every indication that this is going to be one of the best. The band is hard at work on the Poet and Peasant overture, Light Cavalry march, etc., and making splendid progress.

# The Summerland Review

## NEWS FROM THE EAST.

(From our own correspondent.)

Montreal, Feb. 27.—It seems no use trying to get away from it. Reciprocity dogs our every footstep, stares us in the face when we get up in the morning and is the last thing on our tongues or in our minds when we go to bed. In fact we are lucky if we do not dream about it. The papers are full of it, public bodies are passing resolutions about it and our friends pester us to know what we think about it. Tiresome as the naval discussion was many would welcome it back if it would rid us of the present talk, talk, talk.

The big interests are well organized and can make their feelings known in very short order throughout the length of the land. They are all strongly against reciprocity. They have thrown the full weight of their powerful organizations into the battle against the international agreement. Money is no object and there is very little doubt that a lavish fund is at the disposal of those who are making the welkin ring. The vast majority of the people have no organization and are very little heard from. If the industries of the country are ever in danger the stock market has a method all its own of which way the wind blows. The prices of the leading securities listed on the public market of the stock exchanges are not slow to discount unfavorable conditions and long before they materialize and long before the general public realizes what is going to happen a decline in values sets in. In justice to the reciprocity agreement it must be stated that the stock market has as yet shown no signs of disturbance. On the other hand it has not even interrupted the bull movement which has been in progress for months. Canadian Pacific which was one of the great corporations which was going to be chewed up at both ends and its business knocked endways, has unkindly kept on increasing in value. This the government is not slow in pointing out. As for the annexation talk everyone knows what a stew the country was thrown into by M. Champ Clark's hot talk at Washington. And even yet there are many who believe that we can reciprocate and still be loyal to the Empire.

For one reason or another people in the east have an idea that the west is, as a whole, very much in favor of reciprocity, and it was with a feeling of pride and no little astonishment that manufacturers and others read the sentiments expressed by Pat Burns the Calgary cattle king, on the subject. Mr. Burns, as is well known, is probably the biggest man the west has ever produced. He is the owner of thousands of heads of cattle, of large packing plants at Calgary and Vancouver, and is an extensive trader in sheep, swine, poultry, butter, eggs, and kindred products. He has been called the Armour of Canada, and in Western Canada at least, where he operates something like seventy-six distributing houses and retail stores, he deserves the name. Mr. Burns says reciprocity is "not dangerous" to his business, but he goes further than that, no matter what

its effect, he would be in favor of a pact that would benefit the whole country and not one which would bring a few temporary dollars to a certain class. Mr. Burns spoke like a patriot and he has many a follower in the east.

The fear has been expressed in many well informed circles that, if this reciprocity agreement goes through Canada will be cut off like an erring son from England's bounty. English money has been coming into the country for investment in handfuls lately, much to the advantage of the Dominion. Should the agreement pass England will draw her purse strings. The president of the Corporation Agencies, Limited, has been in England for the past two weeks or more on a financial mission for his company, and his return has been awaited with interest by the banking community here. He says there is a great deal of talk in London that if reciprocity goes through it will be far more difficult for the Canadian Government and municipalities and other undertakings to procure financial assistance in England, but that his own feelings are that so long as Canada maintains her present prosperous condition it will not be difficult to find in England purchasers for good Canadian securities, although it may be necessary, for some time to come to pay higher rates of interest for our borrowed money. While in London he arranged for the opening of an office for Corporation Agencies in that city, and made some valuable connections for that corporation there, so that it will now be in a far better position to assist in the re-organization of the finances of good Canadian undertakings, and also to facilitate the investment of English money in Canada.

The outlook in the industrial world in and about Montreal is particularly promising, and as spring approaches signs of activity are apparent on every hand. New manufactories are springing into life, and the older established ones, while having been busy all the winter, are more than ever busy just now that the days are growing longer and the sun stronger.

Medical jurisprudence was distinctly at loggerheads this week in the trial of a claim for damages in the superior court and it was evident that medical men, like other professions, are influenced by the commercial angle from which they look at a subject. Neuresthanian was the trouble from which the victim was supposed to be suffering and one side claimed that it was not a disease at all while the plaintiff's argument was all in the other direction. Paul Dinowertz was injured in the Spanish River wreck on the Canadian Pacific about a year ago and the claim he put in totalled up to about \$14,000 while the company was willing to settle for about \$1,500. There was much learned evidence on the nature of the alleged disease and the upshot was that the judge and jury were practically at sea as to just what neuresthanian meant and what it was likely to do to a man when he was not looking. Ultimately the claimant was awarded \$3,500 and costs and while he got more than the railway offered there is no doubt that it paid the company to fight rather than pay the full amount demanded. Consequently, both sides won.

### BASEBALL CLUB RE-ORGANIZED. (contributed)

At a meeting held in the hotel on Wednesday evening the boys decided to re-organize the Summerland Baseball club on the original lines.

The following officers were elected for the year 1911:— Hon. President Reeve Jas. Ritchie. Hon. Vice-President Adam Stark. President Dr. F. W. Andrew. Vice President D. H. Watson. Secretary Treasurer G. A. McLaine. Manager M. D. Manchester. Captain Fred Baker.

The secretary was instructed to correspond with other clubs in the Valley regarding the arrangement of a schedule of games for this season, and also with the Okanagan College Club regarding a special schedule with them as their season closes about the 1st of June.

Quite a lot of discussion took place on other matters but a motion was carried authorizing a committee composed of the manager, captain and secretary, to deal with the other business. As a number of the former ball players have left the district some new blood will have to be installed. Get out and catch a place, boys.

We are looking for the co-operation of all both financially and otherwise to make this strictly amateur ball club a success this season. We also hope that the press will give us all the assistance and encouragement in its power.

Mr. and Mrs. H. Glennie left for Penticton last week-end, at which place they will in future reside, Harry having accepted a position with Messrs. Eyre and Cutbill.

### POSSIBILITIES OF TOBACCO GROWING.

Department of Agriculture,  
Victoria, B.C.,  
23rd February, 1911.

The Editor,  
The Summerland Review,  
Summerland, B.C.

Sir,  
The services of Mr. L. Holman, of Kelowna, who has demonstrated in such a capable manner the possibilities for tobacco growing in certain districts of the province by the adoption of scientific and correct methods, have been secured by this department in order that he may visit different points throughout the Province in order to secure the best results from tobacco growing.

Will you kindly, through the medium of your valuable paper, notify your readers that Mr. Holman will conduct a demonstration meeting under the auspices of the Summerland Farmers' Institute on the 15th. of March.

I am, Sir,  
Your obedient servant,  
WM. E. SCOTT,  
Deputy Minister.

The Gold medal won by our small fruit exhibit at the Royal Horticultural Society's show in London last fall, came to hand during the week.

The Baptist Church services next Sunday, both in the morning at West Summerland and in the evening at the front, will be conducted by Rev. H G. Estabrook. Pastor Pattison is conducting anniversary services in Penticton that day.

### MAN'S SPIRITUAL DEVELOPMENT.

Rev. E. J. Brailsford, in the Quarterly Review, London, says:

"If the inquiry be pressed, 'Does spiritual insight keep pace with material knowledge?' the answer in negative terms is inevitable. Modern science assents to this judgement. 'And surely,' writes Sir Oliver Lodge in 'Reason and Belief,' we are all blind and deaf to much that would appeal to higher beings. A dog in a picture gallery interested in corners and smells may represent as in a parable much of our own attitude to the universe.'

"It may be difficult for the ordinary man of the world to acquire a quiet spot in the midst of the whirl of modern life, but it is not impossible; a short railway journey will

bring the city excursionist near

'The silence that is in the starry sky,

The sleep that is among the lonely hills'; while thousands of those who are compelled to remain in the shop or house may enter into the closet and shut-to the door.

"The development of any faculty depends upon exercise. By it the weakest organ may be strengthened, and the most unreliable become steady and true. The sailor's eye, the musician's ear, the blindman's touch, attain a range and delicacy which are the result of repeated effort. There seems to be no limit to their increase in efficiency. They apparently improve with successive generations. In like manner, intentional or unconscious use of the spiritual sense enlarges its capacity and magnifies its power.

# DON'T BE A Landless Man

SUMMERLAND. B.C.

"When we are told that these are not the days of open vision, it is well to inquire the reason why. In the midst of many noble influences which are elevating and softening human character, there is still the fierce insatiable craving for gold. The love of it is fatal. It corrodes the heart and blinds the eyes of the mind. The man with the muck-rake saw no bending heavens and offered crown. The gold mines of Johannesburg and the diamond fields of Kimberly have produced no poetry, no music, no work of art. The forms that haunt them are sad and gloomy spectres."

Don't forget the meeting in the Council Chamber on Monday evening at eight. Subject, "Celebration on May 24th." Come and make the meeting hum.

## QUALITY CLOTHING FOR SPRING.

## RICH RED BLOOD.

You Will Never Have It as Long  
as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets; a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

## MUNICIPAL COUNCIL MEET.

The regular monthly meeting of the Council was held in the Municipal Building, at West Summerland on Monday last, when the following business is transacted:

The minutes of the last meeting were read, and duly adopted.

A deputation from Gartrell waited on the Council re the irrigation of part of that district. The Council talked the matter over, and after Mr. Latimer has been interviewed, they will go further into the matter.

A communication from the Ratepayers' Association was read asking if the Council intended to enforce the penalty clause of the contract with the waterworks contractor, for not carrying out the provisions of the agreement; also drawing attention to the fact that they understood the water mains were not excavated to the depth required by the specifications, and asking if a deduction is to be made from the contract price when settling with the contractor, and if so, how much.

In regard to this matter, the Council were of the opinion that seeing the contractor for the supply of pipes had done all in his power to live up to the agreement, and the Council had not suffered any loss, they would not enforce the agreement, and that in regard to the uniform depth of the pipe, the same had been passed by their engineer, and this being the case, the contractors were in accordance with the agreement.

The Summerland Development Company notified the Council that sheep were at large in the north end of the municipality, and damaging orchards. The Council replied that the matter had been attended to, and the sheep were driven out of the municipality during last week.

A letter was read from Thos. Collinge re telephone pole on the switchback road, claiming for injuries received last November. The Council decided to submit the claim to their legal representative.

The tenders for a vault were opened, but nothing definite in regard to the matter was decided.

Mr. G. Morgan waited upon the Council regarding the road along the gulch from Trout Creek to the Benches. Pipe for same was ordered from the Peachland Pipe Co. and Mr. Morgan will fix same when delivered.

The following accounts were passed for payment:—

J. A. Darke	\$20.10
Supply Company	50.00
J. L. Logie	63.00
Board of Trade	400.00
Men's Club	5.00
C. P. Nelson	4.45
G. Morgan	50.00
Water and Light Dept.	149.30
S. F. Sharp	6.00
Geo. Parkinson	4.50
Campbell Bros.	42.50
<b>Total</b>	<b>\$794.85</b>

## Water and Light Dept.

Pay Roll	\$461.10
Supply Company	4.80
C. N. Borton	6.60
Mrs. E. Hanington	11.60
White & Co.	31.60
White Valley Irrigation and Power Co.	10.00
J. S. Ritchie	.45
Crane Co.	86.45
Empire Manufacturing Co.	48.25
R. Mitchell	10.00
R H English	2.00
C.P.R.	15.26
T. P. Thornber	200.71
Canadian Westinghouse Co.	25.71
W. J. Docking	7.50
F. H. Latimer	75.00
Telephone Co.	2.25
Drug Company	1.20
Marie Arkell	2.00
H. A. Solly	2.00
<b>Total</b>	<b>\$1,004.48</b>

A by-law was read for the first time fixing and regulating the rates of the Municipality for Water and Light, during the present year. Copies in full of this by-law will be posted in the Post Offices, Hotel and Public Buildings. We give below a few excerpts:—

	Irrigation Rate	Domestic Water General Rate	Users Rate
1 Town Lot	\$2.00		\$18.00
2 Town Lots	4.00		do.
3 do.	6.00		do.
4 do.	8.00		do.
5 do.	9.00		do.
6 do.	10.00		do.
7 do.	11.00		do.
8 do.	12.00		do.

Over eight lots by acreage.			
1 Acre	6.00	6.00	18.00
2 Acres	9.00	do.	do.
3 do.	12.00	do.	do.
4 do.	14.00	do.	do.
5 do.	15.00	do.	do.
6 do.	16.50	do.	do.
7 do.	17.50	7.00	do.
8 do.	20.00	8.00	do.
9 do.	22.50	9.00	do.
10 do.	25.00	10.00	do.

Each additional acre \$2.50 Irrigation Rate, and \$1.00 General Water Rate. Two roomers allowed on one tap at \$18.00 per year, 75 cents per month additional for each roomer. The General Rate is a rate levied on all lots reached by the Domestic Water Pipe line.

## POWER.

Special rates for power according to water used. Water power for washing machines \$4.00 per year.

## ELECTRIC LIGHT.

12½ cents per kilowatt. Minimum charge \$8.00 per quarter. Over 500 kilowatts per

quarter, 10 cents per kilowatt; over 1000 kilowatts per quarter, 8 cents per kilowatt.

The IRRIGATION and GENERAL WATER RATES are due and payable on 1st of May.

The USERS RATE, POWER RATE AND ELECTRIC LIGHT RATES are due and payable quarterly, notice of which will be sent out each quarter.

Fire Master Watson asked the Council if they intended to furnish a shed or building for the housing of the Hose and Reel at present lying in T. McAlpin's shed. After a lot of heated discussion in which it was suggested that the ratepayers of that particular district should furnish the shed themselves, which same would gladly be done if the hose and reel were transferred to another section of the community, the Council decided to furnish the building requested.

## MAY the 24th.

A GOOD OLD SUMMERLAND TIME.

**Enthusiastic Meeting of Ratepayers in Municipal Hall, on Monday Last. Committee Appointed. A Big Day Promised.**

On Monday evening last, the meeting called by a few interested in the 24th of May Celebration proved to be a popular one, and from the large and enthusiastic gathering, it would seem that Summerland is not yet so lethargic but that she can rise to the occasion if need be. To show the spirit of the meeting, they intend to offer prizes of \$1,000 for the various events, and over \$100 was promised that evening, and the balance will soon be forthcoming when our citizens know it is to be a "Summerland Day"—a day of sport and merriment worked and carried out by a representative committee of the whole of the community.

Empire Day will this year be celebrated on the old stamping ground at Crescent Beach, and will consist of Horse Races, Field Sports, Ball Game, and other interesting items, and the band will give many selections during the day. In the evening, it is proposed to hold an entertainment in the new Opera House, but of this more hereafter.

The following were appointed as a committee with power to add to their number. Messrs. Bristow, Collas, Cordy, Fetherstonhaugh, Maj Hutton, Manchester, Mellor, A. E. Nelson, Sherk, and V. Taylor, with Mr. Cordy as secretary and Mr. Collas as treasurer.

At a subsequent meeting of the committee, the following were appointed to respective committees: Finance, Messrs. Collas, Stackhouse and Taylor. Advertising, Messrs. Sherk, Mellor and Nelson. Program, Messrs. Bristow, Hutton and Manchester.

The next meeting will be held on Monday the 18th, at eight p.m. in the Council Chamber, and the respective committees will report as to their procedure.

## Peachland Paragraphs.

Rev. C. W. Whyte returned last week to Field after spending a week here visiting his family.

Mr. John George manager of the British Columbia Cement Co. of Princeton has been in town for a few days selling stock for his company. We understand that a good many purchased.

An informal social was held in the Hall by the Methodist congregation to welcome back Mr. and Mrs. George Mitchell, who have returned from Penticton. They are two of our most useful citizens so their return is welcomed not only by the members of their own congregation, but by all the community.

Mr. E. Pratt, of Vernon, who is just recovering from a very severe attack of typhoid fever, is spending a few days at the home of his father-in-law, Mr. William Moore.

Reeve Garraway returned last week from his trip east, and was duly sworn in as Reeve. He lost no time in getting to work for the first night of his return there was a special meeting of the Council at which the three money by-laws were put through and Wednesday March 22 arranged for submitting them to the ratepayers. The Reeve appointed the following standing committees for the year. Finance and assessment, Messrs. Douglas and Elliott. Works, Messrs. Clarence and Houston. Fire, water and light, Messrs. Elliott and Clarence. Health, police and relief, Messrs. Houston and Douglas.

Work on the new Methodist Church is proceeding rapidly. By the time this is in print the building will probably be enclosed and water-proof. When completed, it will be a fine serviceable building exceptionally well built for strength of walls and roof.

Mr. and Mrs. Alfred Town are leaving on Monday morning on a trip to Winnipeg. Mrs. Town will be away about two months, while Mr. Town will be away all the summer. All join in wishing them a happy time among their friends in the prairie capital.

Mrs. George Verey of Vernon, is visiting her parents Mr. and Mrs. William Moore for a few weeks.

Rev. J. P. D. Knox received the sad news of the death of his brother in Trenton, Ontario, this week.

The following is the baseball schedule between teams of Summerland and Okanagan College for the ensuing season: March 30, April 6, 13, 20, 27, May 4, 11, and 18. The games will be played on the Flat commencing at 3.30 p.m. sharp.

**FOUND**—In Prairie Valley, a gauntlet glove. Owner may have same by describing property.

25 PER CENT bonus paid for 200 Wagener, good stock. C. C. Aikins, Naramata, B.C.

The following are among the Hotel registrations this week: W. H. Harvey, W. J. McDonald, J. Newman, M. Wilson, D. Ritchie, W. M. Leman, C. Brown, P. U. Higginson, Vancouver; A. S. Hatfield, H. W. C. Corbett, Kaleden; J. H. Smith Revelstoke; C. Calder, Enderby; W. A. Lang, Peachland; Mr. and Mrs. P. Smith, Kelowna; D.H. Dick, Nth Vancouver, M. M. Fraser, Nelson; J. V. Tiffin, Calgary; J. R. Emrick A. Gibson, F. T. Maylor, Haileybury; V. Daymes, Nelson; John Gillies, Braeside; A. D. Henry Oshawa; R. Mackay Miss Mackay, Vernon; A.H. Robinson Toronto; H. J. Gagor, Montreal; Dan Williams Penticton; Jas. Brown Calgary; D. W. Hutchinson, W. Mackay Vernon.

### BASKETBALL.

#### Town versus College.

Basketball has become quite an institution in town, and at every game played there is a very large following of supporters. During this season, the Town and College boys have met several times, and the latter have been victorious in every game. On Thursday evening last this was again the case the College winning out by 24—16.

Both the teams were in good training and fairly adept in combination. Had the boys from the hill played as clean a game as their opponents, and in particular, had two of their players remembered that basketball is not an excuse for getting in a little horseplay, in all probability, the score would have been much more equal.

Thursday's game, the last of the season, concluded the series of six games the boys have been playing for pennants. In addition to capturing these pennants by winning the six games right off, the College boys have completed their season without dropping a game, an enviable distinction for any team.

### ENTRY LAND ALL GONE.

Mr. F. T. Griffin, C.P.R. land commissioner at Winnipeg, who is on a visit to headquarters at Montreal, states that within the last two years 20,000,000 acres of government land have been taken up as homesteads and pre-emptions. The result is that the last block of open prairie lands in the West available for homestead entry and pre-emption has now been practically taken up and future homesteaders will have to resort to the partially wooded lands of the northern and outlying districts or will have to purchase from the railway company or other holders. This is bound to mean another increase in the value of the land.

### Municipality of Summerland. NOTICE.

All parties are hereby warned that the piling of wood or the throwing or depositing of rubbish on any street or lane are liable to the penalties in By-law No. 7.

## Kaleden Comments.

Railway rumors are interesting just now; we are all on the qui vive.

Mr. Conklin of Penticton, has been over lately making improvements on his property here.

Mr. George Purvis, who went to the coast some weeks ago in a poor state of health, has returned feeling much better.

Mr. McAllister, of Winnipeg, was in town recently with a view to making arrangements to settle with his family on his property here this spring.

Mr. Purley Simpson has built and stocked an ice house here, and intends shortly to erect a butcher shop in conjunction near the centre of the town.

Mr. D. D. Lapsley is completing spacious alterations and enlargements in his general store, to meet the greatly increased demands of the present year.

Mr. R. Finlay and son recently arrived and set up their tents on the Kaleden property. Mr. Finlay's family will follow him shortly from Summerland, where they are at present staying.

Your correspondent has just returned from Pullman, where he has been taking a special winter course in Horticulture at the Washington State College. Too much cannot be said of the courtesy, care and obliging spirit of the College staff, and B. C. farmers and fruit growers are indeed fortunate to be able to obtain such advantages free of cost, as are at our service at Pullman.

Miss Grosvenor Purdie, graduate of U.N.B. has succeeded Miss Watson of Summerland as teacher of the Kaleden school. Miss Purdie has been wonderfully successful in her previous appointments, and we anticipate much happiness and blessing in her work here.

More than a week ago shaling re-commenced on the roads. The last traces of winter are rapidly disappearing, and in a few days' time construction will commence on the Kaleden wharf, under the direction of Mr. T. McAlpin of Summerland.

Messrs. A. S. Hatfield & Co., the sole agents for the Kaleden Fruit Lands, anticipate doing a large business this spring. In spite of the numerous drawbacks experienced in opening up a new place, when discontent and dissatisfaction here and there hold sway, and accusation is oftentimes misplaced, private opinion supports our local company, for the good work they accomplished last season, in the midst of difficulties, and confidently wishes them still more abundant success this year.

The annual meeting of the Rifle Association will be held in the Municipal Hall, Summerland, on Thursday next, the 16th inst., at eight p.m. All interested are cordially invited to attend.

Property Owners wishing to Sell or Exchange should consult

**Mr. F. D. COOPER,**

Real Estate Broker,

Peach Orchard, Summerland.

Mrs. J. M. Hector, of Brandon, is the guest of her sister Mrs. J. N. Merrill.

Mr. J. M. Robinson arrived in Summerland on Wednesday evening from his extensive tour of the British Isles and also of the Continent. After seeing the work on the sidehills in Spain and Italy, Mr. Robinson is more than ever convinced that we in the Okanagan have a great country, full of all kinds of possibilities.

If the Municipality wish to raise the wind, why not enforce a dog tax? Here is a source of revenue as yet not touched, and it would be worth while instituting such a tax. Again, those who own these four-footed friends should pay for the privilege of allowing them to run at large to the annoyance of shopkeepers and the public generally. It is only right that such a tax should be in force, and we believe that the owners of the several animals would in no wise be antagonistic to the tax—that is if they really care for the dumb critters.

A paradox. "If you will use Tungsten Lights" is the agreement generally made between the Council and those seeking electrical installation; yet, both in the Municipal Hall, and also in the Municipal Building at West Summerland, the old carbon lamps are still in evidence.

The roads of Summerland seem to be a dumping ground at the present time, for cordwood, rigs, old cans, etc. The Council are taking the matter up. It is to be hoped that they will strictly enforce the regulation, as it is only by that means that the road allowance will be kept clear.

An unusual interruption occurred at the Council meeting on Monday last. Whether it was the weighty arguments brought to bear on the subject in hand, or yet the general argumentative demeanour of the Council that brought it about, is hard to say, but certain it is that a goodly portion of the ceiling dropped, but no damage was done, and what might have been a catastrophe was treated as a joke.

Messrs. Shields, Hatfield & Clark have received a consignment of first class Motors for boats, and are showing the same at their premises on Shaughnessy Avenue. A call on this firm would repay you.

BORN.—To Mr. and Mrs. E. O. James, on March 1st, a daughter.

**THE FOUR MACS.**

Messrs. W. J. McIntyre, train master at Grand Forks, B.C., A. N. McIntyre, train master at Field, B.C., and Frank McIntyre, of Dinsmore, Sask., were all visitors with their brother Rev. R. J. McIntyre last Saturday. This is the first time in twenty-five years that the four brothers have all been together at the same time and place, and the event was celebrated by a curling game with the brothers forming one rink and Jack Ringer skipping the opponents. "We won," said Mr. McIntyre the pastor, although it took thirteen ends to get the game." Two of the McIntyre brothers had never played before.—Revelstoke Mail Herald.

**UNRIVALLED IN ITS BEAUTY,** its location, and the excellence of its  
soil, is our new fruit land proposition  
on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on  
which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without  
stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in  
the way of orchard land. One of the great outstanding features is that all irrigation and domestic  
water supply will come through a pressure pipe system.

### THE BALMY DAYS OF SPRING.

Where is the Okanaganite who does not feel the tingle of spring; who does not see in the warm sunshine and soft winds the mellowing of winter's frigid grasp into the warm embrace of summer's soothing tide; who does not hear in the chatter of the magpie and the caw of the crow the call of the wild, or mayhap the whispering of the hoe and the garden rake?

Spring is here, and with it the opening of a year filled with the promise of plenty, and overflowing with possibilities. Never has the future been brighter; never have we had so much to give assurance and to increase our store of optimism. Especially in the Lake section of the Okanagan does the future promise phenomenal advancement. The condition of our fruit orchards, and the fruit market possibilities, together with the fact of so many acres soon to be planted, all indicate a prosperous year for everybody, and points to the incoming of hundreds of new people to join their lives with those already here in building up this ideal homeland.

Here we live, as "Bruce" once so nicely put it, "the quiet, simple life in a valley with the luring mystery of a mountain background the sparkling, ever-changing, yet never failing, beauty of lake and mountain stream as a part of the picture, with winding roads 'mid orchards' blossom, with plenty of mundane comforts, where your neighbour is as good as you are, where there is neither sordid poverty nor the puffed-up vanity of plethoric wealth; where the daily occupation of making a living is so akin to recreation that all work is a pleasure; where the carking cares and nerve destroying anxieties of city life are but a distant memory of a few wasted years—this is the castle in Spain that is being erected daily on the hills and in the valleys of the Okanagan lake."

Never before, perhaps, have so many people yearned for the happy mean "twixt poverty and wealth" as they do to-day. And never apparently have so many people found

what they were looking for as they have found it in the hills and valleys of Okanagan Lake district, "this land of fruit and flowers, of smiling lake and blue skies, of varied interests and beauty."

With the melting of the snow will come the green hills and verdant valleys, rich in the perfume of a myriad of wild flowers, and in every direction life—abundant life—will spring forth.

This year there will be "something doing"—and something to do for everybody.

In the meantime, what message have the garden hoe and rake for you?

### ADVERSE OPINIONS.

Instead of the discussion of the reciprocity agreement subsiding, it appears to be as general now as when the terms of the agreement first became known. And opinions differ widely as to the merits of the proposed tariff changes. It is not to be expected that there can be any discussion of the treaty in Canada without sectional feeling coloring the argument one way or another. But when we go across the waters and seek an unbiassed opinion there, we are even more impressed by the political shading of the discussion.

The London Spectator says: "It is evident that there is an increasing volume of opinion both in the United States and Canada in favor of the proposed Reciprocity Agreement. In both countries it is true, certain manufacturing groups are crying out that they will be injured, and in Canada some fruit growers and others follow suit; but the general voice of the people cannot be mistaken. In fine, there is a much stronger Free Trade Party in Canada than we have been allowed to hear about, in spite of the agitation of the Canadian farmers. The agreement is one of the hardest blows against protection and in favor of free trade which have been struck in many years."

And the London Morning Post takes an opposite view: "The Liberals alone are to blame for the danger that has now come to a head. They try to shuffle off their responsibility by prating about the forces of Nature, and rejoicing over the material prosperity which the reciprocity proposals would give Canada. But they can not deny the fact that the Canadian people have been forced to consider this new departure simply because they could not obtain in the Mother Country the extended markets which they required for their development. Ever since 1897 Canada has granted a preference to the United Kingdom and for seventeen years her responsible statesmen have been asking their kinsmen in this country to enter into a wider arrangement and so stimulate Imperial trade, and lay deep and wide the foundations of Imperial unity. The Canadian people chose their course deliberately, and followed it consistently. Their policy has been brilliantly successful. The rapidity with which Canadian prosperity has grown has become a by-word. The foundations were well and truly laid. All that was needed to create a great community equal to the United States in riches and Power was an extended market in which the products of their vast territory

could find a sale, and they naturally sought this market in the United Kingdom. The preference they gave to British goods was of enormous value. It at once changed the decline in British export trade to Canada into a great and progressive increase, and showed more forcibly than any arguments could do the immense benefits and possibilities of Imperial Reciprocity. When action is needed the Liberals say complacently that the policy of Imperial Preference is 'against nature,' as if the power and prosperity of the United Kingdom and the whole edifice of the Empire had not been built up in spite of every obstacle which nature and geography could impose."

Speaking in this connection in the House of Commons, Premier Asquith said: "The provisional arrangement which has been entered into—an arrangement strictly on both sides 'ad referendum' only—between the negotiators from Canada and the United States is an arrangement between themselves to be carried out on their own responsibility. I will content myself with one or two observations. In the first place, with regard to Canadian Preference, I am perfectly certain that we should have done nothing to prevent the natural trend of events; we should have done nothing which in the long run would have been beneficial to Canada, and we should have done something which would have been fatally injurious to the people of this country if for the purpose of developing what are called preferential relations we had put a tax on the importation of food from those free sources of supply, Russia, Argentine, and the rest which are outside the British Empire. That is not the way to encourage good feelings with the Colonies, or in the long run to consolidate the bonds of Imperial Union. My other observation is this: To my mind—and I only speak for myself for the moment—it is as certain as the rising of the sun or the succession of the seasons that as time went on, sooner or later the people of the United States, with their growing population, with their developing industries, with the constant encroachment on the exhaustion of their natural food supply, in order to bring down the cost of living and to maintain the fair subsistence of their people would have been bound to level the tariff walls which separate them from countries close to their doors. I will add that the inevitable tendency of irresistible economic forces could not have been neutralized or counteracted by any artificial fiscal arrangement which we could make with Canada or any other part of the Empire."

There are many poultry fanciers in town, but as a rule we do not get any statistics in regard to their fowls. This week, however, we had some figures given us which we think are interesting. From 188 pullets, Mr. T. J. Garnett has procured 4,260 eggs during January and February. This means that for January he had 157 dozen at 50 cents per dozen, and for February 198 dozen also at 50 cents with the exception of the last week in the month when they dropped to 40 cents.

District Municipality of Peachland.

BY-LAW NO. 21.

A By-law for raising \$3000.00 for making additions to the Electric Lighting System.

WHEREAS in the interests of the inhabitants of the Corporation of the District Municipality of Peachland, an Electric Lighting System has been installed, and it is deemed expedient to make additions and extensions thereto.

AND WHEREAS it is necessary to raise by way of loan upon the credit of the said Municipality the sum of \$3,000.00 payable on the first day of May, 1931, bearing interest in the meantime, payable half-yearly at the rate of five per cent per annum, the principal of such loan when raised to be applied for the purposes aforesaid:

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$250.74 by rate in each and every year:

AND WHEREAS the whole rateable property of the said Municipality according to the last revised assessment roll is \$415,960.

AND WHEREAS the total amount of existing debenture debt of the said Municipality is \$20,800 of which none of the interest or principal is in arrears:

NOW THEREFORE, the Reeve and Council of the Municipality of Peachland in open meeting assembled, enact as follows:

1. It shall be lawful for the Reeve of the Municipality of Peachland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality by way of debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of \$3,000.00 and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality, for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the said Reeve to cause any number of Debentures to be made for the sum of not less than \$100.00 each, bearing interest at five per cent per annum not exceeding in the whole the sum of \$3,000.00 and all such Debentures shall be sealed with the seal of the District Municipality of Peachland signed by the Reeve and countersigned by the treasurer of the said Municipality.

3. The said Debentures shall bear date the First day of May, 1911, and shall be made payable in twenty years from the date hereinafter named for this By-law to take effect at the Northern Crown Bank, Municipality of Peachland, B.C.

4. The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent per annum on the amount of the said Debentures and such interest shall be payable half-yearly on the First days of May and November in each and every year, and the signature to such coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality sufficient to pay interest on the debt hereby created, during the currency of the said Debentures, and to provide for the payment of the said debt when due.

6. The sum of \$150.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition

to all other rates, for the payment of the interest on the said Debentures.

7. The sum of \$100.74 shall be raised and levied annually by a rate on all the rateable property on the said Municipality, in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the said Municipality from time to time to re-purchase any of the said Debentures a such price or prices as may be mutually agreed upon and all Debentures so re-purchased shall forthwith be cancelled and no re-issue of any Debenture or Debentures shall be made in consequence of such re-purchase.

9. This By-law shall, before the final passage thereof receive the assent of the electors of the said Municipality of Peachland in the manner provided for in the "Municipal Clauses Act 1896 and Amending Acts."

10. This By-law shall come into force and take effect on the First day of May, 1911.

11. This By-law may be cited for all purposes as the Peachland Electric Light Loan By-law, 1911.

Passed by the Municipal Council this second day of March, 1911.

Received the assent of the Electors of the Municipality of Peachland the day of March, 1911.

Reconsidered and finally passed by the Municipal Council the day of March, 1911.

NOTICE.

Take Notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Council Chamber, Peachland, B.C., on Wednesday, March 22nd., 1911, between the hours of 9 a.m. and 7 p.m. H. McDougall has been appointed to act as Returning Officer thereat.

H. McDOUGALL, Clerk.

District Municipality of Peachland.

BY-LAW NO. 22.

A By-law to raise \$2,000.00 for extension to a water-works system within a prescribed area of the Municipality of Peachland.

WHEREAS within the area hereinafter mentioned there has been constructed under the provisions of the "Municipal Clauses Act, 1896, and Amending Acts," relating to local improvements in Township Municipalities, a waterworks system.

AND WHEREAS the owners of more than one-half in value of the real property situate in the Municipality of Peachland and included within the following boundaries, that is to say—commencing at the South-east corner of Block numbered Eleven (11) according to a map or plan of a sub-division of lot numbered eleven hundred and eighty-three (1183) in Group numbered one (1) of the Osoyoos Division of the Yale District, as deposited in the Land Registry Office at the city of Kamloops, B.C., and therein numbered one hundred and seventeen (117) running thence West following the South boundary of Block numbered eleven (11) to the South-west corner thereof, thence North along the West boundary of said Block eleven (11) to Princeton Avenue, thence along Princeton and Somerset Avenues to the North-west corner of Block numbered nine (9) according to a map or plan of a sub-division of lot numbered four hundred and ninety (490) in said Group one (1), as deposited in said Land Registry Office and therein numbered forty-

four (44) thence following the North boundary of said lot nine (9) to Columbia Avenue, thence along Columbia Avenue to the North-west corner of Block numbered thirty-nine (39), according to said plan numbered forty-four, thence West to the South-west corner of lot numbered nine hundred and two (902) in said Group one (1), thence following the North and West boundaries of said last mentioned lot and lot numbered two hundred and twenty (220); in said Group one (1), to the shore of Okanagan Lake, thence along the said Lake shore to the point of commencement—have, under the provisions of section 259 of the said "Municipal Clauses Act," 1896, and Amending Acts, filed a petition with the Municipal Clerk asking that the Municipality provide for payment of—

(a) Procuring an Engineer to make necessary surveys, plans and estimates for extensions to the said water works system to supply water for ordinary, household and fire protection purposes to the inhabitants within the above described area; and for levying a rate on the assessed value of the real property within the said area to defray the cost of such surveys, plans and estimates.

AND WHEREAS the estimated cost of the proposed work does not exceed twenty-five (25) per cent of the assessed value of the real property and improvements within the said prescribed area, which cost if added to the other debts for which the real property and improvements within the said prescribed area are liable, do not exceed thirty-five (35) per cent of the assessed value of the real property and improvements within the said prescribed area, according to the last revised assessment roll of the Municipality, and it is deemed advisable to pass this By-law for carrying out to completion the proposed work.

AND WHEREAS it is necessary to raise by way of loan upon the credit of the said Municipality the sum of two thousand dollars, payable on the First day of May, 1931, bearing interest in the meantime, payable half-yearly, at the rate of five per cent per annum, the principal sum of such loan when raised to be applied towards the carrying out and completion of the proposed work and for paying all fees, costs, charges and expenses lawfully to be incurred and payable in respect thereof and for paying the cost of the surveys, plans and estimates and any other preliminary expenses connected with such proposed works.

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$167.16 by special rate in each and every year on all the rateable property situate within the area above defined.

AND WHEREAS the whole rateable property of the District Municipality of Peachland according to the last revised assessment roll is \$415,960, and the whole rateable property rateable under this By-law according to the said assessment roll is \$83,965.

AND WHEREAS the total amount of existing debenture debt of the said Municipality is \$20,800, of which none of the principal or interest is in arrears.

BE IT, THEREFORE, enacted by the Reeve and Council of the District Municipality of Peachland, in open meeting assembled, as follows:—

1. That the said surveys, plans and estimates so obtained of the proposed work be adopted and that the said extensions to the said waterworks system be carried out and completed in accordance with such surveys, plans and estimates.

2. It shall be lawful for the Reeve of the District Municipality of Peachland to raise by way of loan from any person or persons, body or bodies corporate, who may be

# The Sumnerland Review

willing to advance the same on the credit of the said Municipality by way of the Debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of \$2,000, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinbefore recited.

3. It shall be lawful for the said Reeve to cause any number of Debentures to be made for the sum of not less than \$500 each, bearing interest at five per cent per annum, not exceeding in the whole the sum of \$2,000, and all such Debentures shall be sealed with the seal of the District Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

4. The said Debentures shall bear date the First day of May, 1911, and shall be made payable in twenty years from the date hereinafter named for this By-law to take effect at the Northern Crown Bank, Municipality of Peachland, B.C.

5. The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent per annum on the amount of the said Debentures and such interest shall be payable half-yearly, on the First days of May and November in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

6. A special rate on the dollar shall be assessed, levied and collected, in the same manner as municipal taxes are assessed, levied and collected, annually in addition to all other rates upon and from the real property and upon fifty per cent of the assessed value of the improvements thereon within the area above described for the payment of interest on the debt hereby created during the currency of the said Debentures and for forming a sinking fund to repay the said debt when due.

7. The sum of \$100.00 shall be assessed, levied and collected in the same manner as municipal taxes are assessed, levied and collected, annually, by a special rate on all the real property and upon fifty per cent of the assessed value of the improvements in the said area above described, in addition to all other rates for the payment of the interest on the said Debentures.

8. The sum of \$67.16 shall be levied, assessed and collected, annually, in the same manner as municipal taxes are assessed, levied and collected by a special rate upon and from all the real property and fifty per cent of the assessed value of the improvements in the above described area, in addition to all other rates for forming a sinking fund to repay the said debt when due.

9. It shall be lawful for the said Municipality from time to time to re-purchase any of the said Debentures at such price or prices as may be mutually agreed upon and all Debentures so re-purchased shall forthwith be cancelled and no re-issue of any Debenture or Debentures shall be made in consequence of any such re-purchase.

10. This By-law shall come into force and take effect on the First day of May, 1911.

11. This By-law may be cited for all purposes as the "Peachland Waterworks Extension By-law, 1911."

Passed by the Municipal Council this Second day of March, 1911.

Re-considered and finally passed by the Municipal Council this day of , 1911.  
Reeve Clerk.

## NOTICE.

Take Notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Council Chamber, Peachland, B.C., on Wednesday, March 22nd, 1911, between the hours of 9 a.m. and 7 p.m. H. McDougall has been appointed to act a Returning Officer thereat.

H. McDOUGALL, Clerk.

## District Municipality of Peachland.

### BY-LAW NO. 23.

#### A By-law for raising \$1000.00 for constructing and improving Roads, Streets and Bridges.

WHEREAS it is deemed expedient in the interests of the Corporation of the District Municipality of Peachland to construct roads, streets and bridges in the Municipality;

AND WHEREAS it is necessary to raise by way of loan upon the credit of the said Municipality the sum of \$1,000.00 payable on the First day of May, 1911, bearing interest in the meantime, payable half-yearly at the rate of five per cent per annum, the principal of such loan when raised to be applied for the purposes aforesaid;

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$83.58 by rate in each and every year;

AND WHEREAS the whole rateable property of the said Municipality according to the last revised assessment roll is \$415,960;

AND WHEREAS the total amount of existing debenture debt of the said Municipality is \$20,800 of which none of the interest or principal is in arrears;

NOW THEREFORE the Reeve and Council of the Municipality of Peachland in open meeting assembled, enact as follows:

1. It shall be lawful for the Reeve of the Municipality of Peachland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same, on the credit of the said Municipality by way of the Debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of \$1,000.00 and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality, for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the said Reeve to cause any number of Debentures to be made for the sum of not less than \$100.00 each, bearing interest at the rate of five per cent per annum, not exceeding in the whole the sum of \$1,000.00 and all such Debentures shall be sealed with the seal of the Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said Debentures shall bear date the First day of May, 1911, and shall be made payable in twenty years from the date hereinafter named for this By-law to take effect, at the Northern Crown Bank, Municipality of Peachland, B.C.

4. The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent per annum on the amount of the said Debentures and such interest shall be payable half-yearly on the First days of May and November in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of \$50.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all the other rates for the payment of the interest on the said Debentures.

7. The sum of \$33.58 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all other rates, for the payment of the debt when due.

8. It shall be lawful for the said Municipality, from time to time to re-purchase any of the said Debentures at such price or prices as may be mutually agreed upon and all Debentures so re-purchased shall forthwith be cancelled and no re-issue of any Debenture or Debentures shall be made in consequence of such re-purchase.

9. This By-law shall, before the final passage thereof receive the assent of the electors of the said Municipality of Peachland in the manner provided for by the "Municipal Clauses Act 1896 and Amending Acts."

10. This By-law shall come into force and take effect on the First day of May, 1911.

11. This By-law may be cited for all purposes as the Roads and Streets Improvement Loan By-law, 1911.

Passed by the Municipal Council this second day of March, 1911.

Received the assent of the electors of the Municipality of Peachland this day of March, 1911.

Re-considered and finally passed by the Municipal Council the day of March, 1911.

## NOTICE.

Take Notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Council Chamber, Peachland, B.C., on Wednesday, March 22nd, 1911, between the hours of 9 a.m. and 7 p.m. H. McDougall has been appointed to act as Returning Officer thereat.

H. McDOUGALL, Clerk.

At the Methodist Church next Sunday night will be given the third of the monthly addresses on "The Religious Mission of the Anglo-Saxon" with special reference to Canadian problems. This series will be concluded on Thursday night of next week when Rev. E. W. Moran, B. A., Superintendent of Oriental Missions in B.C. will deliver an illustrated lecture on "The Anglo-Saxon and the Orient."

The ladies' auxiliary of the Men's Club is busy arranging for a concert which is to be given in the Club on Thursday, March 23.

At a meeting of the Baseball Club held in the Hotel on Saturday evening Mr. J. M. Robinson was elected Patron for the coming season.

TO PRUNERS—A big stock of smoke glasses has just arrived at the Jewelry Store.

The Womens Institute regular monthly meeting will be held in the Mens' Club on Friday the 17th inst. at three p.m. The subject to be demonstrated will be "Shirt Waist Making."

The Unity Club held its regular meeting last Friday afternoon at the home of Mrs. George Cook.

Mr. and Mrs. Dean have moved into their new house recently completed by C. W. Johnson.

Amongst the towns folk who contemplate building houses this spring on their fruit lots are Messrs. Waters, Simpson, and others.

Rev. G. O. Fallis conducted service as usual in the Opera House last Sabbath morning. His subject was "The Immortality of the Soul."

The Whist Club met on Tuesday evening of this week at the home of Mr. H. J. Wells. The time, as is usual at these club gatherings, passed all too quickly. At the close during the service of the luncheon, one well known lady created a good deal of amusement for the others by wonderful tidings gathered from glimpses at the empty tea-cups of interested lady friends.

Mrs. Wellband returned from Toronto after several months' absence

Preparations for the Band Benefit Concert announced for next Thursday, the 17th inst. are well under way. No pains are being spared to make this one of the big "goes" of the season. Everybody should and everybody sure will turn out to this the first concert in Naramata which has for its object the boosting of the band. The programme is long but delightfully varied, so that the soberest man in town need never feel himself weary. The band boys will give two or three numbers and the ladies of the Unity Club and the Girls' Club have kindly consented to contribute toward the evening's enjoyment. Admission 50c. to any part of the House.

**RATEPAYERS' ASSOCIATION.**

The regular monthly meeting of the Ratepayers' Association on Friday evening was well attended.

For the benefit of those present at the last meeting the resolutions which had been adopted were informally discussed.

The advantages of municipal government by a Board of Commissioners came up. It drew an instructive speech from Mr. Stevens which was listened to with great attention.

The question of a Sunday telephone service was again brought up. The result of the discussion was a promise from Mr. Stevens, the manager of the Telephone Company, that as soon as he could get the necessary appliances he would connect all lines with one telephone on Sundays for the use of those requiring medical services. Due notice of the installment of this needed service will be given by the company. The thanks of the meeting were tendered to Mr. Stevens for this important concession.

The meeting then adjourned.

The next regular meeting of the Association will take place in Friday the 31st inst.

### CHAMP CLARK'S EXUBERANCE.

Canadians generally when they read Champ Clark's remarks, made in a speech in the House of Representatives some days ago, laughed merrily—and let it go at that. He was not taken seriously. And it would seem that Mr. Clark is not taken any more seriously at home. The New York Evening Post voices the sentiment of Americans generally when it says: "Our Canadian friends should understand that although Champ Clark is the prospective Speaker of the House of Representatives in the next Congress, his 'obiter dicta' are not regarded in this country as having world-shaking importance. When, in the course of his reciprocity speech, he spoke of being in favor of the bill because he hoped to see the day when the American Flag will float

over every square foot of the British North American possessions clear to the north Pole, he was not expressing a permanent and deeply cherished sentiment of his own—not to speak of the Democratic party or the nation—but merely filling out a sonorous paragraph. The people of the United States are thinking so little about absorbing Canada that if Mr. Clark's remarks had not been telegraphed to that country, nobody in his own would have given them a second thought, and very few would have known that he had made them. This is not saying that Mr. Clark is without ability or even influence, but his best friend will not deny that he is a little given to exuberance."

SUMMERLAND. B.C.

**QUALITY CLOTHING FOR SPRING.**

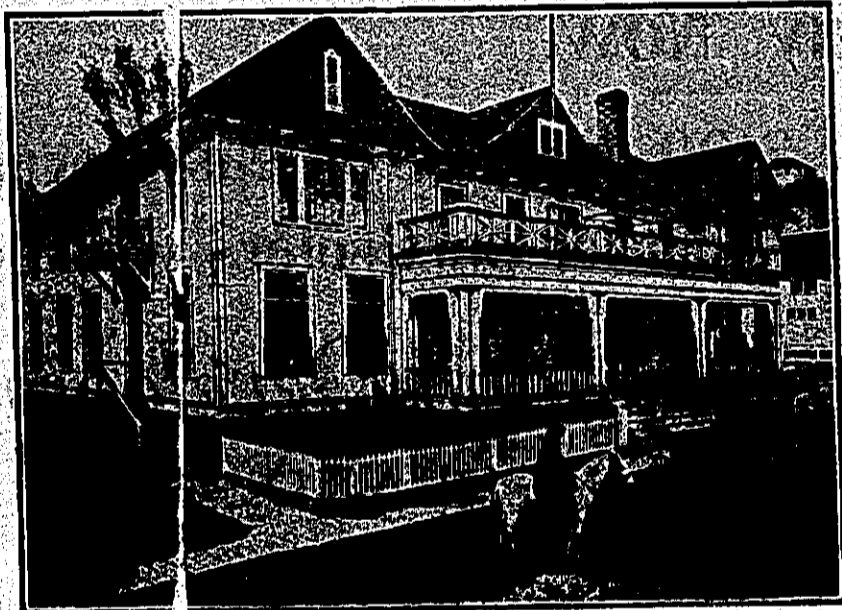

Our first shipment of 20th Century Clothing has arrived, and is very much ahead of anything we have ever shown in the past. There is a style, a cut, a hang, about this clothing that you get in no other. The man that wants to be correctly dressed wears

**20TH CENTURY CLOTHING.**

Grey is particularly popular this season. The patterns are neat and tasty. Styles are very much the same as last year with the three button sock still the favorite. The quality, style, fit and finish of this clothing is unequalled. We want you to see the best. It will cost nothing to have a look through.

**RICH RED BLOOD.**

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

**HYOMEI**  
(PRONOUNCED HIGH-O-ME)

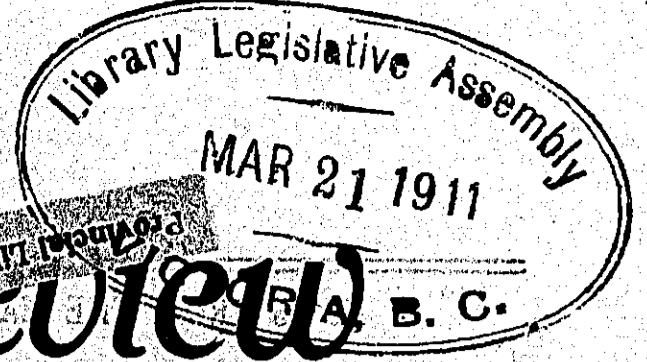

CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 3, No. 32

SUMMERLAND, B.C., MARCH 18, 1911

Whole No. 136

## SUMMERLAND DAY, MAY 24th.—KEEP THIS DATE IN YOUR HAT.

### HOW TO SPRAY.

Better Fruit gives the following advice on spraying:

Spray thoroughly. Direct your attention to the hardest places to reach. Cover every surface. Wet behind the buds. Reach the bottom of every crack. Fill the lower calyx cup. Do not try to economize on spray.

For all orchard spraying use a high pressure pump (at least 200 pounds). Use bordeaux nozzles only. Use an eight-foot spray-rod. Have a crook to set the nozzle at an angle of forty-five degrees. Spray from a tower if the trees are beyond your reach.

### BORDEAUX.

Bluestone	6 pounds.
Good lime	4 pounds.
Water	50 gallons.

Dissolve the bluestone by suspending it in a sack in 25 gallons of water in a barrel. Slake the lime in another vessel, adding a little water slowly, and dilute to 25 gallons. Mix the two thoroughly. Even the best bordeaux may scorch in rainy weather. For double-strength Bordeaux use twice as much bluestone and lime.

### TOBACCO.

Tobacco leaves	1 pound.
Water	4 gallons.

Simmer for one hour and strain. Two pounds of tobacco dust or ground tobacco may be substituted for the leaves. "Black Leaf" extract may be used, 1 part to 65 parts of water.

A little Lysol added to tobacco sprays greatly increases their value, and permits further dilution.

### ARSENATE OF LEAD.

Arsenate of lead	1 pound.
Water	50 gallons.

For newly hatched insects it is not necessary to use it stronger. Mix well first with a small amount of water. Powdered arsenate of lead is about twice as strong as the paste. Do not use arsenate that settles quickly.

### CARBOLATED LIME.

Lime	10 pounds.
Water	50 gallons.

Carbolic acid 1 pint or more. Slake the lime with a little water, add the rest of the water and the carbolic acid.

### KEROSENE EMULSION.

Kerosene	2 gallons.
Whale-oil soap	1 pound.
Water	1 gallon.

Dissolve the soap in the water by boiling, and add the suds boiling to the kerosene, away from the fire. The mixture is then to be agitated violently, preferably by forcing it back on itself with a force pump. After four or five minutes the mixture suddenly becomes creamy in consistence. If well made, the cream will stand for a long time without free oil rising to the surface. Unless otherwise stated, use one gallon of the emulsion to twelve gallons of water in spraying. One quart of soft soap or one pound of laundry soap may be used instead of the whale-oil soap.

### FARMERS' INSTITUTE.

There was a fairly large attendance at the Farmers' Institute meeting on Wednesday evening last. The lecturer was Mr. L. Holman, the tobacco culture expert of Kelowna. In a brief but concise address, covering the whole of the art of tobacco growing, Mr. Holman very clearly demonstrated that there is money for the man who cultivates the tobacco habit—that is in the plant, and also he has demonstrated at Kelowna the suitability of the Okanagan district for the culture of My Lady Nicotine. Many questions were asked and great interest was evinced in Mr. Holman's lecture.

As luck would have it, a cigar manufacturer of London, Ontario, had come west to see Mr. Holman, and met him at Summerland.

He attended the lecture, and afterwards gave some trenchant pointers from the manufacturer's point of view. He said that Kelowna is the only place in Canada that grows the leaf required for the best of cigars, and the market for this leaf was practically unlimited. No doubt the whole of the Okanagan was as well suited for it, but it had not, as yet, been tried out.

Altogether, Wednesday's meeting was a great success, and we would not be the least surprised to see a few devoting themselves to the growth of tobacco in Summerland ere very long.

### B.C. AT THE CORONATION.

Victoria, March 9.—Plans for the approaching spring and summer are already being matured by the members of the Provincial Government, in connection with which it is understood that Hon. Thomas Taylor, the minister of public works, will leave the capital in about two weeks, and his annual spring tour over the various roads of British Columbia begin about the first of April. Hon. Mr. and Mrs. Bowser are arranging to leave with Premier and Mrs. McBride about the end of May for London to be present at and participate in the imposing ceremony in connection with the coronation of His Majesty King George V.

### ORCHARD PLANTING NUMBER.

Those who intend planting fruit trees this spring whether beginners or experienced fruit growers will be interested in and perhaps secure some useful information from the March number of The Canadian Horticulturist of Peterboro, Ontario, which devotes considerable attention to this matter. Selection of soil and location suitable for an orchard, preparation for planting and how to plant, the best varieties, cultivation after planting and other subjects of like nature are dealt with by competent authorities in this number. Articles also appear dealing with the subjects of spraying, fertilizing, renewing old orchards and other matters which will prove of interest to the practical fruit grower at this season. A report of the deputation of the fruit and vegetable growers who waited on the Government recently in regard to the proposed tariff changes is given in this number by a staff representative who accompanied the deputation. An illustration showing the members of this deputation on the steps of the Parliament Buildings, Ottawa, also appears.

Messrs. Angove and Stinson hold their first Spring Show of Millinery on Wednesday, the 29th. inst., and invite all the ladies of Summerland to visit their store on that day. Afternoon tea will be served from 3:00 till 6:00.

Rev. E. W. Morgan, B.A., formerly of West China, but now superintendent of Missions to the Chinese in B.C., visited Summerland in connection with the work of his department on Wednesday and gave an illustrated lecture in the Methodist Church. A fair audience was present and showed deep interest in the well-told story of oriental conditions and problems. F. Dickman, pastor of the Chinese Church in Vancouver accompanied him and interviewed the local Chinese.

All roads should lead to the College Gymnasium on Monday evening, when the students are giving an athletic and musical concert. The gymnastic numbers will show you what can be done by systematic instruction in a good gymnasium, and the musical items will all be provided by College talent. One or two other attractive features also appear on the program. Book your seats at the Drug Store down town, or the Summerland Supply Company's branch store at West Summerland.

## NEWS FROM THE EAST.

(From our own correspondent.)

Montreal, March 13.—It is going to be a busy year on the St. Lawrence this season say the old salts, with corresponding wealth and boom to the Dominion. Sailing dates are set earlier for all the ocean going steamers than ever before and the Department of Marine and Fisheries is doing its share by promising to get the bouys and lighthouses on the long river channel in shape to guide the pioneer vessel of 1911 safely from the sea to her berth on the waterfront. There is one cloud in the sky. The long rumored seamen's strike appears to be growing into something real. It is a move by the sailors against the International Shipping Federation and affects all men who go down to the sea in ships the world over. Owners and agents of vessels here are watching keenly for the results of the meeting of the International Congress of Seamen which is being held in Antwerp and which will decide the stand to be taken by sailors and stokers in dealing with the shipping masters.

No less a person than the Governor General himself is said to have taken the other end of the small wager Earl Percy made that he could walk from Montreal to Ottawa on three days. The earl, who is an attache to the vice-regal household, left Montreal early on a Saturday and arrived at Rideau Hall the following Monday night, thus covering the one hundred and ten odd miles in three days. A Yukon dog driver in the pink of condition would hardly do better. This is not altogether a record for the peerage, however. When the Earl of Lonsdale was in Canada fifteen years ago he walked up the same route Earl Percy took as far as Como, crossed the Ottawa River to Oka and continued across country to St. Eustace in one day. After resting at the old seigneurie of the Globenskys over night he returned to Montreal by St. Rose and Terrebonne—almost ninety miles in two days.

Is hanging obsolete? Sheriff Lemieux of Montreal certainly thinks so. There are three murder cases before the courts in one stage or another and Radcliffe the public executioner is dead. The Government has announced that no successor will be appointed and that hereafter each sheriff will be expected to be his own hangman. This is quite as it should be and according to law. But the sheriffs do not like it. They want a man with some experience for such an important undertaking. Mr. Lemieux has a standing offer of a new suit of clothes and a nice wad of bank bills to any man who will come forward and put a satisfactory finishing touch upon any one of the three men now up for trial who may be convicted.

Canada's larger cities have not yet solved the problems of transporting the great crowds which daily throng to the business centres in the morning, and disperse toward the outskirts each night. Workers have to work to get to work and work to get back

home again. Montreal is disgraceful in this respect, and acknowledges so. Her street railway is absolutely incapable of handling the people who live in the suburbs. But a change is coming. The development of the suburban trolley system, such as they have in the states connecting town after town and covering miles upon miles, and with it the development of much now inaccessible country is no longer a question for the future around Montreal. Plans are in the making to bring towns as far away as Sherbrooke in the Eastern Townships to Montreal's back door. Power has been turned into Sherbrooke's new power house and the Sherbrooke Railway and Power Company, under new management, his plans afoot which will rival Adam Beck and his hydro-electric scheme for Ontario.

Archbishop Bruchesi has placed the ban on mixed marriages in his diocese and curiosity has reached bubbling point in society circles as to how Miss Alice Shaughnessy, Sir Thomas Shaughnessy's eldest daughter, is going to get the knot tied when she becomes the wife of Mr. H. W. Beauclerk. Miss Shaughnessy is a strong Roman Catholic and Mr. Beauclerk a protestant. Rouse's Point, just across the border line, is Montreal's Gretna Green; but it is not likely that it will be necessary to go there, although there have been many weddings in the little boundary town of late on account of the ban. There are other mixed marriages which are causing trouble also, but they are not to be mentioned in the same breath. These are the union of Chinese men to white women. If they can not get married they go to live in Chinatown anyway. Orientals seem to have a strange fascination over some women. The police say it is the "dope" which attracts them. Be that as it may Chinese wedding bells are frequent these days and the bride is always a white girl. With few exceptions the Chinamen make good husbands but the authorities do not approve.

Although the provincial health authorities say they are not in the least alarmed it is evident that the dread disease, small pox, has by no means been eliminated from the Montreal district by the isolation of the three cases discovered here in as many weeks. There are suspicions of further outbreaks and several suspects are under surveillance. A woman is being carefully watched in Maisonnouve and three children have been placed in a vacant house in the north end with a heroic trained nurse. The medical authorities are doing their utmost to keep the cases quiet with a view to nipping any public unrest in the bud. Montreal has not yet forgotten the trying times of 1885 and 1886 when hundreds lost their lives.

A cure for insanity, discovered by Dr. Robertson of the Edinburgh Asylum for the Insane, has been reported and attending physicians at the Verdun and St. John de Eieu asylums here are so much interested that an effort is being made to send a specialist to Scotland to investigate and get further particulars

OKANAGAN DISTRICT.

Ferry, Summerland—East Summerland, Okanagan Lake.

In accordance with chapter 78, R. S. B. C. 1897, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as East Summerland, a distance of about two miles and three quarters.

Applications will be received up to noon Monday March 27, 1911.

The charter will cover a period expiring on March 13, 1913.

The ferry shall make two trips each way every day, weather permitting.

Applications shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Steamboat Inspection Act," chapter 46, 1898, and amending Act, Parliament of Canada.

Applications shall state the tolls it is proposed to ask for—

- Each adult passenger.
- Each child (not in arms) under 13 years.
- Each head of cattle, horse, mule, or donkey, etc.
- Each calf, sheep, goat, or swine, etc.
- Each vehicle with one horse and driver.
- Each cart or wagon with one horse and driver, loaded.
- Each vehicle with two horses and driver, unloaded.
- Each vehicle with two horses and driver, loaded.
- Each parcel of 25 pounds and under.
- Freight, per 100 pounds and under, non-perishable goods.
- Freight, per 100 pounds, and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of two hundred and fifty (\$250) dollars.

The Government of British Columbia is not necessarily bound to accept any application submitted.

F. C. GAMBLE,  
Public Works Engineer.

Department of Public Works,  
Victoria, B.C.,  
March 7th, 1911.

SHERIFF'S SALE.

The Westbank Trading Company, Limited, Westbank, British Columbia, under a Chattel Mortgage to the Royal Bank of Canada for the sum of \$7,094.00.

Lien contract to the W. H. Petrie, B.C. Limited, and by virtue of a Writ of Fi Fa issued out of the Supreme Court of British Columbia, a Woodman's Lien for the sum of \$2,316.35 besides Sheriff's fees and other legal expenses, and to me directed and delivered, and I have duly seized and levied upon the following property, to wit.

1st. Saw Mill, Buildings and Machinery, situated on lot 24 according to plan of subdivision of Lots 486, 805 and 806, Osoyoos Division of Yale District, B.C., known as Westbank, together with lease of said lots for three years, subject to renewal.

2nd. 700,000 feet of sawlogs, more or less.

3rd. 200,000 feet of lumber, more or less, in the Mill yard.

4th. Portable Engines and Sundries.

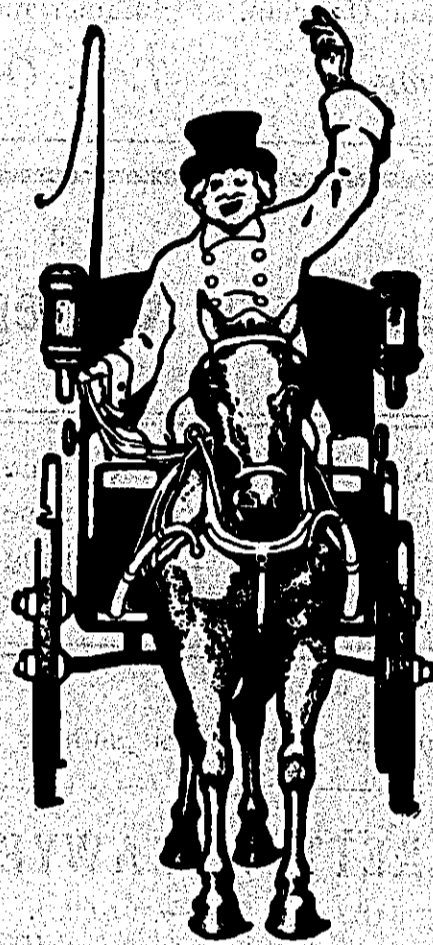

Notice is given that on Tuesday the Fourth Day of April, 1911, at the hour of 11 o'clock of said day at the Saw Mill, Westbank, I will sell by public auction the above described property or so much thereof as will satisfy the claims and costs.

Mill and property can be seen on applying to John Robinson, bailiff in charge at the Mill, Westbank.

Dated this second day of March, 1911.

A few useful orchard Horses for Sale

In the Penticton Herald of last week, Mr. Warren, President of the Kettle Valley Railway, says, "The line will run from Penticton to Trout Creek canyon, then via Upper Summerland. A station will be built on the Summerland benches." This statement has given rise to much argument in town, but meanwhile, there are fruit growers on the Trout Creek benches and also on Paradise Flat contemplating sub-dividing into town lots, in preparation for the station.

Mr. A. J. Woodburn, foreman on construction work for the Lakeshore Telephone Co. accomplished a very creditable performance on Monday morning last. He disconnected 150 telephones from the old office, and connected them up to the new head quarters, and this without one subscriber being inconvenienced thereby or a delay of any kind whatsoever.

Quite an addition to the Watson clan in town was made last week-end, when Mr. C. Watson, along with his wife and family arrived, also Mr. and Mrs. J. W. Thompson, and family, all of Ranfurly, Man. The Watsons are at present staying with Well, and Dave is entertaining the Thompson family—Mrs. Thomson being his sister.

CARD OF THANKS.

Mr. L. C. Woodworth and family wish to thank the friends who were so kind to them in their time of bereavement.

NOTICE.

Tenders will be received by the undersigned up to the 22nd day of April, 1911, at 5 p.m. for the purchase of Block 27, Subdivision of Lot No. 541, Group One, New Westminster District, situated in the city of Vancouver, and being the site of the old Provincial Courthouse. Each tender must be enclosed in a registered letter and must be addressed to the undersigned, and plainly marked "Tender for Old Vancouver Courthouse Site," and must be accompanied by an accepted cheque for ten per cent of the first payment of the purchase money. Payment for the property will be accepted in instalments of one-quarter of the purchase money. The first of such instalments to be paid within thirty days of the acceptance of the tender, and the other three annually thereafter, with interest at the rate of six per cent per annum. In the event of the person whose tender is accepted failing to complete the first installment within thirty days of the notice of such acceptance, the sale to him will be cancelled and his ten per cent deposit forfeited. The cheques of unsuccessful tenderers will be returned. The highest or any tender will not necessarily be accepted. No commissions of any kind will be allowed.

**THE OVERSEAS CLUB.**

(contributed)

The idea of the Over-Seas Club is to sustain  
a keen sense of civic responsibility.

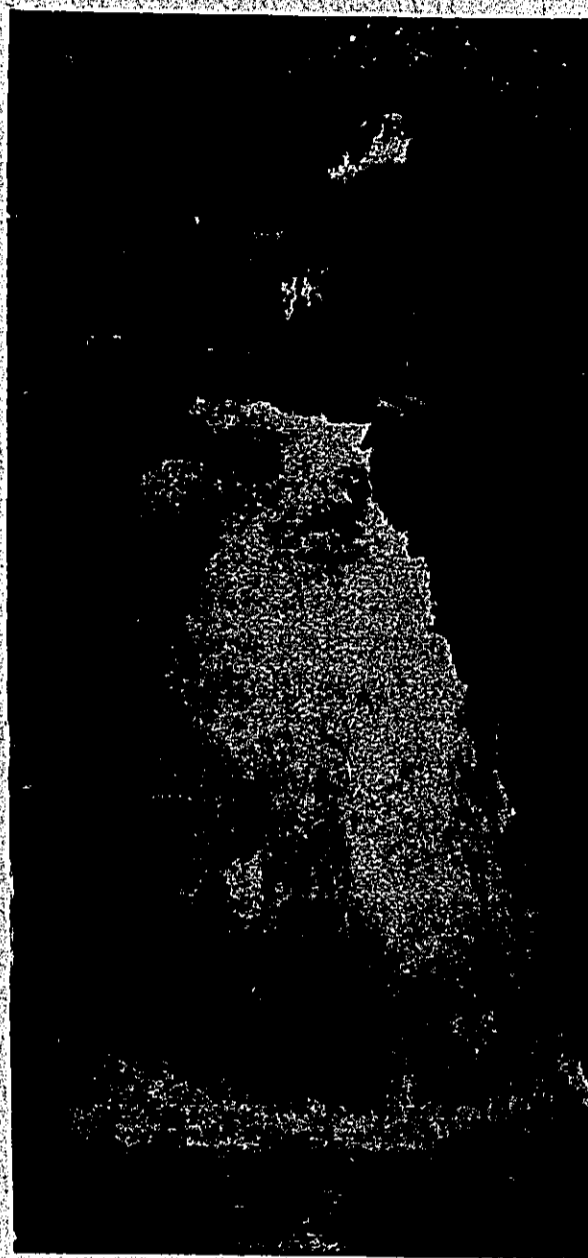

The real work of Empire building rests up-  
on the men and women who go forth to occupy  
these outlying places. The Over-Seas Club  
crystallizes that these sons and daughters are  
missionaries. How great is the need for an  
organization to link together lonely British  
citizens residing abroad. There are thousands  
of Englishmen, Scotchmen, Irishmen, Welsh-  
men and Canadians leading lonely lives who  
realize that by means of the Over-Seas Club  
they will be enabled in future to forge a link  
of common sympathy with their fellow citizens  
not only in British Columbia but elsewhere.  
Ladies are eligible for membership of the  
Over-Seas Club and I shall be only too delight-  
ed to hear from any lady in Summerland who  
is willing to join the Club. I might add that  
any British citizen above the age of twelve  
can be enrolled on our list as members. Ulti-  
mately it may be possible to form a junior  
branch of the Over-Seas Club in Summerland  
for those under sixteen and to organize a Boy  
Scout movement such as is being done in sev-  
eral parts of B.C. and Canada by the different  
branches. A Club handbook giving the list  
of our branches is to be published as complete  
as possible and to contain the names of active  
branches only. It is hoped that this will be  
ready by the 1st of June 1911. Any member  
in Summerland wishing to obtain a copy can  
order them through me at the rate of 25 cents  
a copy. The total membership of the Sum-  
merland Branch to date is sixty-six.

**CHAS. A. MARSHALL,**  
Secretary.

The Music Department of the College, under

Or better yet, call and see us.

**UNRIVALLED IN ITS BEAUTY,** its location, and the excellence of its  
soil, is our new fruit land proposition  
on the west shore of Dog Lake in the sunny southern Okanagan Valley.

Here fronting on one of the finest inland sheets of water, with a full eastern exposure, and on  
which the sun shines forth in all its glorious splendor, are to be found hundreds of acres without  
stones, without timber, without alkali. Here the most punctilious fruit grower can be satisfied in  
the way of orchard land. One of the great outstanding features is that all irrigation and domestic  
water supply will come through a pressure pipe system.

**DOES SUCH A PROPOSITION APPEAL TO YOU?**

If it does write us and we will only be too glad to give you all the desired information

### THE "HANG OUT" LAD.

In "The Way to Win," a writer draws attention to the danger of the "hang out" to the average young man of the average small town, and the serious consequences to all young men who contract the "hang out" habit.

At the opening of the present college year a young man returned to his college town after a couple of years' absence. Through force of circumstances he had left school in his freshman year and in the intervening time had lost track of his former school friends. He longed to see them once more—just as you and I. Many of them had gone through a preparatory course with him, and he looked forward to a shaking of hands and the "swapping" of old confidences. But on arriving at the old town he found things changed. Unfamiliar faces greeted him at every turn. Finally he sought out a business man whom he had known in the past, and enquired where the "boys" of the college "hung out". He was directed to a pool and billiard hall. Here he eagerly scanned the faces of the scores of young men present in the hope of finding among them some of his old-time friends, but he was disappointed. All were strangers. Yet each bore the unmistakable stamp of the college boy.

He soon made the acquaintance of the proprietor, and enquired as to his erstwhile friends. He mentioned the fact that none of the old boys were present. The keeper of the "hang-out" was brutally frank in his answer. "O, that is easy to explain. You've been gone two years. The fellows who spend their time around here don't last that long in college. They are care free and money free. The fellows who you used to know and are still in college are the fellows who don't "hang out" down town.

"The boys who make this their headquarters are a nice lot of fellows. They are young and irresponsible; the most of them away from their homes for the first time. They are going to spend their money, and I may as

well have it as any one else. But there is a limit to parental indulgence. School work soon gets beyond those who put in their time downtown. A bad report goes home and by the end of the year they are pretty well weeded out. The closing of the school year generally finishes the rest of them.

"But every year brings us new ones and every year we have about so many".

### WHERE MONEY IS TO BE MADE.

It is safe to say that British Columbia is spending millions of dollars annually for foodstuffs which might as well be produced within our own borders. The increase last year in money sent across the border for poultry alone was appalling when we consider how well adapted this province is for poultry raising. The demand in this direction is far beyond the supply, and no branch of the farm offers better inducements to the energetic agriculturist or horticulturist than that of poultry raising. While some men are losing money on poultry, others are making fabulous returns on their investment. It is the same in all branches of farming and in commercial lines too. Success in poultry like success in anything else, depends on the man.

The latest compiled statistics on the poultry industry bring out the striking facts that the increase in importations in 1910 over 1909 are away beyond reason, while the home production increase was but nominal. Last year we imported over five and a half million pounds of poultry and 1,339,260 dozen eggs. It is becoming quite apparent that our agriculturists and horticulturists are not keeping up with the fast increasing demands of our rapidly growing cities. These cities must be fed, and owing to our own inability to supply them they are becoming handy markets for the poultrymen of the Western States and the Eastern Provinces. Money sent out of the province for foodstuffs is money lost to our agriculturists and horticulturists in particular and the province in general.

### THE APPLE OUTLOOK.

In order to learn if the yield of apples had decreased in the Northwestern United States as it had in Ontario and to find out what methods had been adopted to counteract the decline, the Canadian Horticulturist addressed letters to the horticulturists at the various experimental stations of the Northwestern States and the answers to all were practically the same. "They showed," says the Horticulturist, "that owing to neglect, increase of insects, San Jose scale, and fungus diseases the orchard interests had been dug out and the land used for other crops. All the stations report that there has been a great awakening during the past three or four years and that a large acreage is being planted to apples. More attention is being paid to the cultivation, spraying and pruning of the old orchards. The outlook for the future is bright as the men who are taking up the apple business at this time know the difficulties in the way and how to overcome them."

## :: Naramata Notes ::

Mr. J. M. Robinson was a visitor to Vernon this week.

Mrs. F. H. Rounds was a visitor to Kelowna on Tuesday.

Mr. A. B. Campbell and party from Penticton were visitors to town on Wednesday.

Mr. H. A. Dangerfield, Winnipeg, was in town this week looking over his real estate interests here.

On Sunday week, March 26, there will be a special service in the Opera House conducted by Mrs. Gillespie.

Mr. and Mrs. Hornsey and family have moved to the cottage recently vacated by Mr. and Mrs. Dean.

That the railway coming to Naramata will be built in the near future appears to be a well-founded rumor.

Mr. W. Land turned the first sod for the spring work when he, with others, began fencing his acreage east of town.

The accounts of the Band Concert and of the laying of the corner stone of the new Methodist Church has been held over till our next issue.

It is probable that Mr. White may remove to Summerland at least for the immediate future on account of a change of plan re the Chute Creek proposition.

The Methodist Girls' Club of Summerland has secured the services of Mrs. Gillespie of town to help them get up a drill for a concert in the near future.

The "Naramata" was launched safely on Thursday after having undergone several important improvements. The seating capacity has been doubled by the additional twelve feet of length added to her.

### PESTS WE HAVE TO FIGHT.

Fir-tree oil soap is destructive to the aphid. Dissolve an ounce of it in warm water and syringe or wash the plant with it. Red spider is readily routed by plain water. The pest cannot endure moisture. Its appearance is an indication of too dry air.

The blue aphid, which works at the roots of roses and other plants, and the mealy bug, a small downy creature, thrive in a high temperature, and sorely troubles plants in an ordinary living room. For the former, pour liquid tobacco strong and black about the roots; for the bugs, use fir tree oil soap.

Mildew on leaves will yield if dusted with flowers of sulphur or sprayed with kerosene emulsion.

Spring HAS come—at least the butterfly and the bull frogs tell us so. The former are fluttering around here and there, and the croak of the frog is heard afar.

## District Municipality of Peachland.

### BY-LAW NO. 21.

#### A By-law for raising \$3000.00 for making additions to the Electric Lighting System.

WHEREAS in the interests of the inhabitants of the Corporation of the District Municipality of Peachland, an Electric Lighting System has been installed, and it is deemed expedient to make additions and extensions thereto.

AND WHEREAS it is necessary to raise by way of loan upon the credit of the said Municipality the sum of \$3,000.00 payable on the first day of May, 1931, bearing interest in the meantime, payable half-yearly at the rate of five per cent per annum, the principal of such loan when raised to be applied for the purposes aforesaid:

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$250.74 by rate in each and every year:

AND WHEREAS the whole rateable property of the said Municipality according to the last revised assessment roll is \$415,960.

AND WHEREAS the total amount of existing debenture debt of the said Municipality is \$20,800 of which none of the interest or principal is in arrears.

NOW THEREFORE, the Reeve and Council of the Municipality of Peachland in open meeting assembled, enact as follows:

1. It shall be lawful for the Reeve of the Municipality of Peachland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality by way of debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of \$3,000.00 and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality, for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the said Reeve to cause any number of Debentures to be made for the sum of not less than \$100.00 each, bearing interest at five per cent per annum not exceeding in the whole the sum of \$3,000.00 and all such Debentures shall be sealed with the seal of the District Municipality of Peachland signed by the Reeve and countersigned by the treasurer of the said Municipality.

3. The said Debentures shall bear date the First day of May, 1911, and shall be made payable in twenty years from the date hereinafter named for this By law to take effect at the Northern Crown Bank, Municipality of Peachland, B.C.

4. The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent per annum on the amount of the said Debentures and such interest shall be payable half-yearly on the First days of May and November in each and every year, and the signature to such coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality sufficient to pay interest on the debt hereby created, during the currency of the said Debentures, and to provide for the payment of the said debt when due.

6. The sum of \$150.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition

to all other rates, for the payment of the interest on the said Debentures.

7. The sum of \$100.74 shall be raised and levied annually by a rate on all the rateable property on the said Municipality, in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the said Municipality from time to time to re-purchase any of the said Debentures a such price or prices as may be mutually agreed upon and all Debentures so re-purchased shall forthwith be cancelled and no re-issue of any Debenture or Debentures shall be made in consequence of such re-purchase.

9. This By-law shall, before the final passage thereof receive the assent of the electors of the said Municipality of Peachland in the manner provided for in the "Municipal Clauses Act 1896 and Amending Acts."

10. This By-law shall come into force and take effect on the First day of May, 1911.

11. This By-law may be cited for all purposes as the Peachland Electric Light Loan By-law, 1911.

Passed by the Municipal Council this second day of March, 1911.

Received the assent of the Electors of the Municipality of Peachland the \_\_\_\_\_ day of March, 1911.

Reconsidered and finally passed by the Municipal Council the \_\_\_\_\_ day of March, 1911.

#### NOTICE.

Take Notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Council Chamber, Peachland, B.C., on Wednesday, March 22nd., 1911, between the hours of 9 a.m. and 7 p.m. H. McDougall has been appointed to act as Returning Officer thereat.

H. McDOUGALL, Clerk.

## District Municipality of Peachland.

### BY-LAW NO. 22.

#### A By-law to raise \$2,000.00 for extension to a water-works system within a prescribed area of the Municipality of Peachland.

WHEREAS within the area hereinafter mentioned there has been constructed under the provisions of the "Municipal Clauses Act, 1896, and Amending Acts," relating to local improvements in Township Municipalities, a waterworks system.

AND WHEREAS the owners of more than one-half in value of the real property situate in the Municipality of Peachland and included within the following boundaries, that is to say—commencing at the South-east corner of Block numbered Eleven (11) according to a map or plan of a sub-division of lot numbered eleven hundred and eighty-three (1183) in Group numbered one (1) of the Osoyoos Division of the Yale District, as deposited in the Land Registry Office at the city of Kamloops, B.C., and therein numbered one hundred and seventeen (117) running thence West following the South boundary of Block numbered eleven (11) to the South-west corner thereof, thence North along the West boundary of said Block eleven (11) to Princeton Avenue, thence along Princeton and Somerset Avenues to the North-west corner of Block numbered nine (9) according to a map or plan of a sub-division of lot numbered four hundred and ninety (490) in said Group one (1), as deposited in said Land Registry Office and therein numbered forty-

four (44) thence following the North boundary of said lot nine (9) to Columbia Avenue, thence along Columbia Avenue to the North-west corner of Block numbered thirty-nine (39), according to said plan numbered forty-four, thence West to the South-west corner of lot numbered nine hundred and two (902) in said Group one (1), thence following the North and West boundaries of said last mentioned lot and lot numbered two hundred and twenty (220), in said Group one (1), to the shore of Okanagan Lake, thence along the said Lake shore to the point of commencement—have, under the provisions of section 259 of the said "Municipal Clauses Act," 1896, and Amending Acts, filed a petition with the Municipal Clerk asking that the Municipality provide for payment of—

(a) Procuring an Enigneer to make necessary surveys, plans and estimates for extensions to the said water works system to supply water for ordinary, household and fire protection purposes to the inhabitants within the above described area; and for levying a rate on the assessed value of the real property within the said area to defray the cost of such surveys, plans and estimates.

AND WHEREAS the estimated cost of the proposed work does not exceed twenty-five (25) per cent of the assessed value of the real property and improvements within the said prescribed area, which cost if added to the other debts for which the real property and improvements within the said prescribed area are liable, do not exceed thirty-five (35) per cent of the assessed value of the real property and improvements within the said prescribed area, according to the last revised assessment roll of the Municipality, and it is deemed advisable to pass this By-law for carrying out to completion the proposed work.

AND WHEREAS it is necessary to raise by way of loan upon the credit of the said Municipality the sum of two thousand dollars, payable on the First day of May, 1931, bearing interest in the meantime, payable half-yearly, at the rate of five per cent per annum, the principal sum of such loan when raised to be applied towards the carrying out and completion of the proposed work and for paying all fees, costs, charges and expenses lawfully to be incurred and payable in respect thereof and for paying the cost of the surveys, plans and estimates and any other preliminary expenses connected with such proposed works.

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$167.16 by special rate in each and every year on all the rateable property situate within the area above defined.

AND WHEREAS the whole rateable property of the District Municipality of Peachland according to the last revised assessment roll is \$415,960, and the whole rateable property rateable under this By-law according to the said assessment roll is \$83,965.

AND WHEREAS the total amount of existing debenture debt of the said Municipality is \$20,800, of which none of the principal or interest is in arrears.

BE IT, THEREFORE, enacted by the Reeve and Council of the District Municipality of Peachland, in open meeting assembled, as follows:—

1. That the said surveys, plans and estimates so obtained of the proposed work be adopted and that the said extensions to the said waterworks system be carried out and completed in accordance with such surveys, plans and estimates.

2. It shall be lawful for the Reeve of the District Municipality of Peachland to raise by way of loan from any person or persons, body or bodies corporate, who may be

# The Summerland Review

willing to advance the same on the credit of the said Municipality by way of the Debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of \$2,000, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinbefore recited.

3. It shall be lawful for the said Reeve to cause any number of Debentures to be made for the sum of not less than \$500 each, bearing interest at five per cent per annum, not exceeding in the whole the sum of \$2,000, and all such Debentures shall be sealed with the seal of the District Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

4. The said Debentures shall bear date the First day of May, 1911, and shall be made payable in twenty years from the date hereinafter named for this By-law to take effect at the Northern Crown Bank, Municipality of Peachland, B.C.

5. The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent per annum on the amount of the said Debentures and such interest shall be payable half-yearly, on the First days of May and November in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

6. A special rate on the dollar shall be assessed, levied and collected, in the same manner as municipal taxes are assessed, levied and collected, annually in addition to all other rates upon and from the real property and upon fifty per cent of the assessed value of the improvements thereon within the area above described for the payment of interest on the debt hereby created during the currency of the said Debentures and for forming a sinking fund to repay the said debt when due.

7. The sum of \$100.00 shall be assessed, levied and collected in the same manner as municipal taxes are assessed, levied and collected, annually, by a special rate on all the real property and upon fifty per cent of the assessed value of the improvements in the said area above described, in addition to all other rates for the payment of the interest on the said Debentures.

8. The sum of \$67.16 shall be levied, assessed and collected, annually, in the same manner as municipal taxes are assessed, levied and collected by a special rate upon and from all the real property and fifty per cent of the assessed value of the improvements in the above described area, in addition to all other rates for forming a sinking fund to repay the said debt when due.

9. It shall be lawful for the said Municipality from time to time to re-purchase any of the said Debentures at such price or prices as may be mutually agreed upon and all Debentures so re-purchased shall forthwith be cancelled and no re-issue of any Debenture or Debentures shall be made in consequence of any such re-purchase.

10. This By-law shall come into force and take effect on the First day of May, 1911.

11. This By-law may be cited for all purposes as the "Peachland Waterworks Extension By-law, 1911."

Passed by the Municipal Council this Second day of March, 1911.

Re-considered and finally passed by the Municipal Council this day of , 1911.

Reeve

Clerk.

## District Municipality of Peachland.

### BY-LAW NO. 23.

#### A By-law for raising \$1000.00 for constructing and improving Roads, Streets and Bridges.

WHEREAS it is deemed expedient in the interests of the Corporation of the District Municipality of Peachland to construct roads, streets and bridges in the Municipality;

AND WHEREAS it is necessary to raise by way of loan upon the credit of the said Municipality the sum of \$1,000.00 payable on the First day of May, 1931, bearing interest in the meantime, payable half-yearly at the rate of five per cent per annum, the principal of such loan when raised to be applied for the purposes aforesaid;

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$83.58 by rate in each and every year;

AND WHEREAS the whole rateable property of the said Municipality according to the last revised assessment roll is \$415,960;

AND WHEREAS the total amount of existing debenture debt of the said Municipality is \$20,800 of which none of the interest or principal is in arrears;

NOW THEREFORE the Reeve and Council of the Municipality of Peachland in open meeting assembled, enact as follows:

1. It shall be lawful for the Reeve of the Municipality of Peachland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality by way of the Debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of \$1,000.00 and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality, for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the said Reeve to cause any number of Debentures to be made for the sum of not less than \$100.00 each, bearing interest at the rate of five per cent per annum, not exceeding in the whole the sum of \$1,000.00 and all such Debentures shall be sealed with the seal of the Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said Debentures shall bear date the First day of May, 1911, and shall be made payable in twenty years from the date hereinafter named for this By-law to take effect, at the Northern Crown Bank, Municipality of Peachland, B.C.

4. The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent per annum on the amount of the said Debentures and such interest shall be payable half-yearly on the First days of May and November in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of \$50.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all the other rates for the payment of the interest on the said Debentures.

7. The sum of \$33.58 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all other rates, for the payment of the debt when due.

8. It shall be lawful for the said Municipality, from time to time to re-purchase any of the said Debentures at such price or prices as may be mutually agreed upon and all Debentures so re-purchased shall forthwith be cancelled and no re-issue of any Debenture or Debentures shall be made in consequence of such re-purchase.

9. This By-law shall, before the final passage thereof receive the assent of the electors of the said Municipality of Peachland in the manner provided for by the "Municipal Clauses Act 1896 and Amending Acts."

10. This By-law shall come into force and take effect on the First day of May, 1911.

11. This By-law may be cited for all purposes as the Roads and Streets Improvement Loan By-law, 1911.

Passed by the Municipal Council this second day of March, 1911.

Received the assent of the electors of the Municipality of Peachland this day of March, 1911.

Re-considered and finally passed by the Municipal Council the day of March, 1911.

Reciprocity and Christianity will be Mr. Pattison's subject next Sunday evening in Elliott's Hall.

The Ladies Hospital Auxiliary will hold their monthly meeting on Tuesday next at three p.m. in the Ladies Parlor of the Men's Club.

Our fruit growers surely know one of the best aids to successful fruit culture. In a bulletin recently published by the Horticultural Dept. at Victoria on "Aid to Bee Keepers," we notice that Summerland heads the list in the number of bee-keepers with twenty-one, Vancouver and Vernon being close followers.

Margaret, wife of L. C. Woodworth, departed this life early last Monday morning, after a trying illness of three months. She was born at Halifax, Nova Scotia, forty-six years ago. With her family she came to Summerland last March. Her patience in suffering, her good cheer in the presence of exceedingly depressing circumstances, and her calm faith told of a beautiful and courageous spirit. The funeral service was held in the Baptist Church on Monday afternoon, and was conducted by Mr. Hood.

Mrs. Woodworth is survived by her husband and three sons, Clarence McPherson, Cyril and St. Clair, and by a sister in California. The sympathy of this community goes out to these friends in their sorrow.

St. Andrew's Presbyterian Church, at West Summerland, will be opened for Divine Service on Sunday, March 26. The service will be conducted by Rev. John A. Clark, B.A., pastor of Knox Church, Calgary. Special music by the choir.

A Concert will be given in the Church on Monday evening, the 27th., under the auspices of the Ladies' Aid Society, who have voluntarily undertaken the interior finishing of the church. The programme will consist of songs, readings, recitations, etc., with an address from Rev. Mr. Clark and local and visiting ministers. There will be no charge for admission, but an offering will be taken up during the evening.

The railway, sirs,—the railway,—where will it finally go? That is the talk—everybody has it and the doctors prescribe a little patience for those who have the fever in anything like a malignant form. At present the line keeps pretty high, and the longest line surveyed through the municipality at present comes up the south side of Trout Creek, crossing south of Mr. Angove's lot, then across the road toward Mr. R. W. Nelson's lot, round the Giant's Head, keeping well above Mr. Steven's house, also Mr. J. E. Phinney's and at this point it is well up towards the college. Up the Peach Valley on the east side, then across to Paradise Flat, and from there to Trout Creek canyon proceeding round by Conklin Mountain.

What about the 24th? Well, you just wait and see. Its going to be the best yet. Last Monday's committee meeting was attended by practically all the members, and the various sub-committees reported.

There will be twenty-five events at the least, which will include horse races, some of them very novel in their character, foot races, a good ball game for cup and medals, and a tug-of-war. This last stunt will be very popular and teams should get down to practice at once, as the prizes are well worth while.

Committees were appointed to see Mr. J. M. Robinson about the use of Crescent Beach, and others to go into the matters of transportation, refreshments, laying of track, clearing of road, etc. It sure is going to be a good day.

## RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

SUMMERLAND, B.C., MARCH 25, 1911

Whole No. 137

## MUNICIPAL COUNCIL MEET.

The special meeting of the Council held last Monday-morning in the Municipal Building, West Summerland, was the first presided over by Reeve Ritchie since his return from his Old Country trip. All the Councillors were present with the exception of J. R. Brown.

A delegation consisting of Messrs. W. J. Robinson and E. B. May, representing the Hospital Board, was in waiting when the Council assembled and was given audience immediately. Mr. Robinson stated the case, which was, in brief, a scheme for raising funds for a new hospital building. It was desirable, even necessary, that Summerland should possess an up-to-date hospital. The premises at present occupied were both inadequate and unsuitable. Plans were presented covering a two-storey building with basement, having a frontage of about 130 feet, and accommodating eighteen in-patients. The Development Company had generously promised to donate a site comprising about two acres, south of Dr. R. C. Lipsett's house, just out of town. \$15,000 would cover the cost of the construction and furnishing of the building, and of this amount one third was expected as a grant from the provincial government, and the Hospital Board asked that the Council donate a similar amount, leaving the remainder to public subscription. Mr. Robinson emphasized the fact that the hospital was a public institution, and he felt sure that public sentiment favored the proposal. He suggested that the \$5,000 be raised by debentures payable in twenty years, thus giving the people an opportunity of voting on the question.

The Reeve thought it was certainly a matter that the rate payers should be given an opportunity to discuss, and the Council concurring, it was decided that a public meeting be called for the expression of the ratepayers will.

The minutes of the last meeting were then read and declared approved.

Messrs. J. Steuart and B. H. Sherk waited on the Council regarding the condition of a road, which although of necessity much used, was at this season of the year always well-nigh impassible. It needed

raising and grading. They were promised attention in the matter.

Mr. J. M. Robinson, manager secretary of the Development Company, attended in regard to the taxation of the Hotel. Mr. Robinson claimed that under an agreement made with the Council last year, the Hotel was to be supplied with free light and water, but that agreement had this year been violated. He asked for a renewal of the arrangement and suggested the payment of a bonus to help cover the deficit at present incurred in the maintainance of the Hotel until the Company could place it on a revenue earning basis. The Council should recognize that a good hotel is a valuable asset to any community, and as such the people should be prepared to help support it. The matter came in for considerable discussion and finally the clerk was instructed to report further at the next meeting.

In connection with the municipal vault, the amended tender of J. G. Robertson, for \$308 was accepted.

Several communications were dealt with, and a batch of letters requesting road work was referred to the Works Committee, who will inspect personally and call for tenders to cover the work they consider necessary.

Consulting Engineer Latimer reported on an overdue account from the Canadian Pipe Company for \$3,715.38 recommending that it be paid, and this was authorized.

By-law No. 31, fixing the water and light rates, was finally passed, after being amended by deleting the clause relating to water consumption by roomers. This by-law after having been duly signed and sealed will pass on to the statute book.

It was resolved to rebate the taxes due on the Power House and Reservoir sites before they became Municipal property.

The Council then adjourned for two weeks.

A branch of the Canadian Bank of Commerce is to be opened in Kelowna in the next week or two. Premises have been secured next to the Royal Bank in the store occupied by H. D. Chisholme, who is giving up business with the intention of returning east.—Kelowna Record.

## PRIZE LIST SUMMERLAND APPLE SHOW 1911.

The following is the Prize List for the Fall Fair to be held at Summerland, under the auspices of the Summerland Agricultural Association:

Apples.

Polishing will be allowed; pack to be considered in all cases. (No box to contain more than one variety).

Class 1.—Best ten boxes winter apples, 5 varieties, two boxes of each variety. Prizes \$100, \$50 and \$25.

Class 2.—Best two barrels, two boxes, two baskets, two jars and two plates. Prizes \$50 and \$25.

Class 3.—Best 3 boxes Jonathan. Prizes \$25, \$15 and \$7.50, and a silver Cup, value \$75.00, presented by W. H. Mallett, Jeweller, Brandon, Man. To be won three years in succession; apples to become property of the donor.

Class 4.—Best two boxes Yellow Newtown Pippin, Spitzenberg, Winter Banana, Wagener, Northern Spy, McIntosh Red, Grimes Golden, Cox's Orange Pippin and Gravenstein. Prizes for each variety, \$25, \$15 and \$7.50.

Class 5.—Best box Rome Beauty, Baldwin, Rhode Island Greening, Wealthy, King of Tompkins, Hubbardson's Nonsuch, White Winter Pearmain, Fameuse, Golden Russet and Talman sweet. Prizes, for each variety, \$10, \$5 and \$2.50.

Class 6.—Best box Crab apples, Transcendent and Hyslep. Prizes, for each variety, \$10 and \$5.

Class 7.—Best plate exhibits of standard varieties of apples; each variety to be judged separately; five apples to constitute a plate. Diplomas will be awarded.

Class 9.—Best pear box of Quinces. Prizes of \$10 and \$5.

Class 10.—Best two baskets of grapes, any variety, no more than one variety in a basket. Prizes \$5 and \$2.50.

Class 11.—Best box of ripe tomatoes. Prizes of \$5 and \$2.50.

Class 12.—Special prizes by the Summerland Supply Company, Ltd., to the exhibitor winning the greatest number of first prizes in box fruits. Sectaire value \$25, couch value \$15 and chair value \$10.

Class 13.—Best five cantaloupes,

any variety; best two water melons; any variety; best three vegetable marrows; best pumpkin; best squash best five peppers. Prizes for each, \$2 and \$1.

Class 14.—Best bushel of potatoes, no more than one variety in a bushel, any exhibitor may show one or more varieties. Prizes of \$15 and \$10.

Class 15.—Best collection of vegetables. Prizes of \$25, \$15 and \$10.

Class 16.—Special prize by the A. E. McKenzie Co., Brandon, Man. The A. E. McKenzie Co. offer a special prize of \$5 to the winner of the first prize for the best collection of vegetables, and an additional prize of \$25 to the exhibitor winning the greatest number of prizes in the province for vegetables. Vegetables to be grown from McKenzie's seeds.

Class 17.—Best collection of pot plants. Prizes of \$10 and \$5.

Class 18.—Best exhibit of cut flowers (grown outside); cut flowers (other than grown outside.) Prizes for each, \$10 and \$5. Sweet peas any color; chrysanthemums (grown outside.) Prizes for each, \$5 and \$2.50.

Class 19.—Best pan of home-made bread, two or more loaves. Prizes of \$5 and \$2.50.

Class 20.—Best exhibit of honey in comb, not less than 5 lbs; best jar of extracted honey, not less than 5 lbs. Prizes for each \$3 and \$2. Best general display of honey. Prizes of \$5 and \$2.50.

Four entries or no third prize. Three entries or no second prize.

R. H. English will have carriages to take parties wishing to attend the Opening Services of the Presbyterian Church, West Summerland, morning and evening. Round trip 50 cents. Book seats early.

The monthly meeting of the Women's Institute was held on Friday the 17th inst in the Ladies Parlor of the Men's Club. There were 24 present and a very interesting demonstration was given by Mrs. Milne on the cutting-out and putting together of a plain shirt-waist. Although most of the members already knew in a general way how to set about this frequent task, yet Mrs. Milne was able to give several useful little tips not previously known; and it is on these little touches that the style of the finished article depends.

**STUDENTS' CONCERT.**

A good program and a good audience: this sums up the evening's entertainment provided by the students of the College on Monday evening. Over 250 people gathered in the spacious gymnasium at the foot of the hill and for nearly three hours watched and listened to a varied program, embracing athletics, music and elocution, of a character perhaps never before presented to a Summerland audience.

In so diversified an entertainment comparison of the various numbers would be invidious and unnecessary. All were well received, and the evening's accomplishments exceeded the most sanguine expectations of those responsible.

The athletic items included musical dumbbell drill and club swinging, parallel bar and tumbling exercises, pyramid building and wrestling bouts. The creditable precision which marked the musical drills was particularly pleasing, and the three-storey pyramid building, especially the "kneeling collapsible" was also much admired. The bar and tumbling exercises presented some novel features, while of the two wrestling bouts, the lightweight, between Messrs. Freeman and Patten was called off without a fall, and in the heavies, Young gained one fall on Perry. Physical Instructor McLeod, in the few months he has been with the boys in their gymnasium work, has done great things, and to him the credit for the excellent showing made by the youthful gymnasts should go.

The brief musical program was much enjoyed. Harold Dewar gave two violin solos, and in Elgar's "Salute D'Amour," was at his best. Summerland will always turn out to hear him. Miss Haines, at the piano, performed in the manner which has pleased her audiences for the last two or three seasons, and was presented with a bouquet as a small appreciation. She provided also the music for the drills and the college songs. Mr. W. H. A. Moore, head of the Music Department of the College, sang "The Banderiero" very effectively. We look forward to hearing more of him in the near future. A new local elocutionist, Mr. C. Stackhouse, made his first public appearance, dilating serio-comically on Old Mother Hubbard, and the cat and the fiddle. We never realized, when we used to repeat these rhymes how much there was in them, and we are indebted to Mr. Stackhouse for an enlarged understanding and

a truer realization of their hidden meaning. The band, too, performed no less acceptably. The results of Bandmaster Pearce's untiring efforts are now beginning to manifest themselves, and the boys are certain to draw a good crowd to their concert a little later.

The evening closed with a short sketch typical of college life. It represented the final meeting of the "Eata Bita Pie Club" and introduced a number of college songs rendered en masse, and a pleasing solo by J. W. S. Logie

Messrs. H. Fader and A. McDougall, burlesque artistes, kept the audience continually in smiles with their mirth provoking capers, introducing another novel feature on a program.

The coffers of the students' Athletic Association are the richer by \$110 as a result of the evening's endeavours, truly a gratifying result.

**PUBLIC MEETING.**

Elsewhere in our columns appears the notice convening a public meeting for the consideration of the advisability of erecting a new hospital building, with municipal aid, and for the discussion of hotel affairs.

We need not emphasize the importance of this gathering; it is apparent. It provides an opportunity for the ratepayer to express himself one way or the other. It is, further, a wise step on the part of the Council to shift the onerous burden they would incur by moving unadvisedly, and to place it on the shoulders of those whose interests they represent. It rests with the electors now to attend this meeting, and give the Council an inkling of public sentiment on these matters; for any subsequent action in this connection on the part of the civic fathers will be governed by the feelings they hear expressed on Tuesday next.

The Sunday School workers who attended the Okanagan district Convention held at Penticton on Tuesday and Wednesday of this week returned on Thursday morning with glowing reports of the proceedings. Over sixty delegates were in attendance and the following were from Summerland: Revs. F. W. Hardy, F. W. Pattison, and A. W. McLeod. Messrs. J. C. Robson, J. L. Logie, G. J. C. White, C. McWilliams and C. S. Stevens. Mesdames Pattison, Mitchell, Brown, Conway, Angove, D. H. Watson, Lipsett and White.

**Peachland Notes:**

Mr. Will Russell of Armsrtong spent Thursday in town. Master Franklin Elliott has been suffering from a severe attack of croup.

Mr. E. J. Hayward of Summerland was in town visiting his relatives over Sunday.

The delegates to the Sunday School Convention in Penticton returned on Thursday morning and are loud in their praises of the hospitality they received while there, as well as the excellence of the programme.

Mr. H. Lang was in town this week and arranged to begin work on the lakeshore road again. One gang works from the mill to Deep Creek, while another begins at Deep Creek and works south. Work will also soon begin on the hundred feet extension to the wharf.

The local Sunday Schools held a temperance rally last Sunday afternoon at which a fine program of music and recitations was given by the scholars. Rev. Mr. Lewes gave an excellent address which was given an attentive hearing by all present.

Voting on the Money By-laws took place on Wednesday and while the vote was not large not a single negative vote was cast. One by-law authorised the issuing of Debentures to the amount of \$3,000 for electric light extensions and the other authorised the raising of \$1,000 for road and bridgework.

Mr. J. M. Robinson paid his first visit to Peachland since his return from Europe on Wednesday morning. He met the Council to sign the necessary papers to complete the arrangement entered into with the former Council for the settlement of the foreshore dispute. The Council had agreed to give Mr. Robinson a quit claim deed for the lots from the wharf to the "bump," while he gave the council the same for those north of the wharf. The advantage to the Municipality in this arrangement is that it now leaves the way open for the C.P.R. to put in their slip north of the wharf.

**SUMMERLAND MUNICIPALITY.**

A public meeting will be held in the Municipal Hall, Summerland, on Tuesday, March 28th, at 2.30 p.m. to consider the passing of a By-law making a grant to the Hospital, and also the granting of free light and water to the Summerland Hotel.

J. L. LOGIE,  
Municipal Clerk.

Miss French of Vernon is visiting  
friends in Summerland.

Work was commenced during the  
past week on the foundations of a  
new livery stable on the lake shore  
almost opposite the site of the pre-  
sent building.

Mr. F. C. Manchester returned  
on Thursday evening from Everett,  
Wash., where he has spent the winter  
months. Mr. Manchester ex-  
pects to remain in Summerland for  
some time.

The Ladies Auxiliary of the Men's  
Club gave most successful concert  
in the Club Room last Thursday ev-  
ening and was well attended by the  
townspeople who thoroughly enjoyed  
themselves. The programme was a  
varied one and well adapted to  
bring out the talents of all taking  
part. The various numbers were  
well rendered and showed that a  
great deal of time was spent in the  
preparation, and it is to be hoped  
that another such entertainment  
will be put on in the near future.

Colonel S. B. Jameson, late of  
the Seaforth Highlanders, has late-  
ly visited the fruit growing districts  
of British Columbia and writes a  
few words in praise of Summerland  
in "Canada" of March 4th. "From  
Penticton I visited Summerland.  
Here is a beautiful valley not seen  
from the lake, which stretches in  
a westerly direction for many miles,  
and is covered with good fruit  
ranches. Very fine peaches are  
grown. A carload was sent to  
Winnipeg while I was there, and  
they had a telegram to say that they  
were all sold in ninety minutes,  
and they would take as many more  
of the same quality as they could  
send them. Apples pay far better  
than peaches however, and are  
much easier to handle."

The following are among the ho-  
tel registrations this week: A. P.  
Graham; A. H. Black, R. B. Bow-  
den, R. J. Sharpe, S. McClelland,  
J. S. Cox, J. Venables, Sir W.  
E. Bidey, Rev. R. A. Simmons,  
of Vancouver. W. A. Peters, Kel-  
owna; W. A. Russell, Armstrong;

ett, Wash.; A. B. Campbell, Pen-  
ticton; Mr. and Mrs. T. Maloney,  
Manitou, Man; J. A. Rowe, Pen-  
ticton; W. J. Wilson, Kelowna;  
R. Grimes, San Francisco; J. Math-  
ison, Hamilton, Ontario; F. Par-  
sons, E. Campbell, Kelowna; A.  
Arden, Okanagan Centre; Captain  
R. F. Heard, Detroit, Mich; A. E.  
Taylor, Nelson; E. J. Manche,  
Tacoma; T. A. MacFarlane, New  
Westminster; F. J. Harvey, Mon-  
treal; J. M. Robinson, Mr. and  
Mrs. J. S. Gillespie, and H. W.  
Endacott, Naramata.

**AN OTTAWA EXPRESSION OF OPINION.**

Reciprocity and the reciprocity debate continue to occupy the public mind. Even to the most superficial observer there are apparent changes in the situation since Mr. Fielding made his announcement in January after his return from Washington. The agreement when first presented, met with some approval; the Liberals seemed united and thought the Conservatives divided. Now the Conservatives are solid in their opposition and the Liberal majority is falling to pieces. This situation is due in part to the inactivity of the Government which is presenting practically no argument in support of its policy. The speeches delivered by Mr. R. L. Borden, Hon. G. E. Foster, Mr. H. B. Ames, Mr. Martin Burrell and others who are now supplemented and endorsed by the independent judgment of the Hon. Clifford Sifton. Mr. Sifton practically says that he waited for some time before speaking in the hope that some facts might be presented by the Government in favour of the reciprocity agreement. That he waited in vain is evident from his own declaration that either the Government has prepared no case or in its efforts to prepare one, has stumbled upon facts and figures which it dares not present to Parliament. Mr. Sifton's speech was quite free from hypocrisy. He frankly admitted that the Laurier Cabinet had decided in 1897 not to carry out the pledges of the Liberal party on the tariff question. On the contrary they decided to retain and maintain the national policy introducing only the British preference. This departure by himself and his associates from their solemn pledges to the people he justified on the ground of expediency; not expediency in the vulgar sense of personal advantage but expediency based upon the needs of the country. The Liberals when they came into power, according to Mr. Sifton, found it to be impracticable to carry out their free trade doctrines and therefore accepted and practised the doctrine of protection so successfully vindicated by the Government of Sir John A. McDonald. Reading between the lines of Mr. Sifton's speech one can easily perceive the protest of the practical statesman and man of affairs against experiments dictated by free traders and doctrinaires. He has learned from experience that free trade is alright in theory but that it will

not work in a country like Canada. Were Mr. Sifton still in opposition he might demand many impracticable things from the Government and his party did demand them when the Conservatives were in power. But Mr. Sifton realizes that the Laurier Government is something different from the Laurier Opposition. In opposition the Liberals might demand anything that occurred to them but in power they must use some judgment. It is because the Liberal party is getting back to the position it occupied in opposition that Mr. Sifton protests. He pointed out to Sir Wilfred Laurier that the Liberals thrive well when they put their principles in their pockets and administer the Government on the lines laid down by Sir John A. Macdonald. He warns them that they are riding for a fall when they desert the doctrines of Macdonald and take up with the preaching of Laurier and Cartwright.

**HEALTH AND BEAUTY.**

Summerland, B.C.,  
March 22.

The Editor,  
Summerland Review,  
Summerland, B.C.

Dear Sir:

There is a matter of considerable importance to the people of Summerland in which their action should be taken without delay, and that is the preservation in its natural condition of the small section of land at the foot of the Gulch Road and immediately west of the building at present used as a hospital. This little spot in its spring and summer freshness and greenery presents a sight of which we have all too few in Summerland, and which a very few hours work with an axe would destroy for all time. It has already been injured by indiscriminate camping, wood gathering and picketing of horses.

There is a more vital reason affecting the residents of the lower portion of the town, for its preservation from contamination, in that it is the source of the civic water supply for that section. In this connection I notice that the little reservoir or tank is open and free of access with nothing to hinder its pollution by dipping from it with vessels not clean.

I would like much to learn the views of others as to whether this spot, made beautiful by nature, is to be preserved to refresh our oft-times tired eyes, or is it to go the way so many things have gone in the course of progress. I will for the time subscribe myself as a

## Kaleden Comments

Mr. James Ritchie, of Summerland, has returned from his visit to the Old Country.

Mr. Tom McAlpin, of Summerland, has arrived in town to take charge of the development work here this season.

Several Sponson canoes, ordered by Kaleden people through Messrs. Hatfield & Co. the local agents of the Chesnut Canoe Company, of Fredrickton, N.B., have arrived in Summerland where they will have motor engines installed by Messrs. Shields, Hatfield & Clark of that town, preparatory to their proceeding to the Lower Okanagan Lake.

Mr. O. E. Tomlin of this town, whose livery business is likely to be a very paying concern from now on, contemplates selling his whole outfit including buildings, on reasonable terms, having his time fully engaged with other varied interests. Here is a rare chance for someone.

The past week has brought with it springlike conditions. All frost was out of the ground save on northern exposures early in the week, potatoe pits have been opened up, Messrs Hatfield & Co. have started their labors in real earnest, pruning operations having been completed and the staking out of new orchards commenced.

Mr. J. Davis and Mr. Purvis have been busy in the building line, many residents having work for them to do at an early date. Mr. O. E. Tomlin is enlarging and improving his house overlooking the town. Mr. P. Simpson has commenced to lay the foundation for his butcher shop near the centre. Plowing, cultivating and road shaling are in full swing. The place is assuming the aspect of a busy hive which it certainly is destined to be this year. The fruit trees have come through the winter most satisfactorily.

W. Arthur Battye wishes to inform his Summerland patrons that he will be in town next week and that he has now a revised scale of charges.

**FOR SALE**—24 foot motor launch; 2½ h. p. Fairbanks Morse engine; speed 10 m. p. h. Storm hood; safe in any sea. A snap. \$300 or \$275 cash. Harold E. Dewar, P.O. Box 87.

**EGGS FOR SETTING**—Prize winning Brown Leghorns and Buff Cochins. \$1.00 per setting. A. A. Derrick.

### OKANAGAN DISTRICT.

Ferry, Summerland—East Summerland, Okanagan Lake.

In accordance with chapter 78, R. S. B. C. 1897, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as East Summerland, a distance of about two miles and three quarters.

Applications will be received up to noon Monday March 27, 1911.

The charter will cover a period expiring on March 13, 1913.

The ferry shall make two trips each way every day, weather permitting.

Applications shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Steamboat Inspection Act," chapter 46, 1898, and amending Act, Parliament of Canada.

Applications shall state the tolls it is proposed to ask for—

Each adult passenger.  
Each child (not in arms) under 13 years.

Each head of cattle, horse, mule, or donkey, etc.

Each calf, sheep, goat, or swine, etc.

Each vehicle with one horse and driver.

Each cart or wagon with one horse and driver, loaded.

Each vehicle with two horses and driver, unloaded.

Each vehicle with two horses and driver, loaded.

Each parcel of 25 pounds and under.

Freight, per 100 pounds and under, non-perishable goods.

Freight, per 100 pounds, and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of two hundred and fifty (\$250) dollars.

The Government of British Columbia is not necessarily bound to accept any application submitted.

E. C. GAMBLE,  
Public Works Engineer.

Department of Public Works,  
Victoria, B. C.,

March 7th, 1911.

**EGGS FOR HATCHING** From my prize winning Brown Leghorns, White Wyandottes, and Silver Spangled Hamburgs, Buff Cochins. \$2.00 for 13. H. Bristow.

**TO RENT.**—Four roomed Cottage to rent. Apply to A. Steuart.

**WHITE WYANDOTTE EGGS** for hatching. \$2.00 per setting. W. A. Wright.

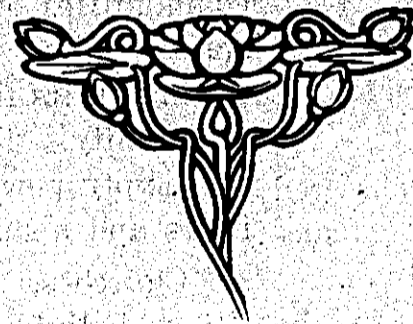

**TYPICAL WHITE WYANDOTTES.**

—Eggs for hatching from my prize-winning pens headed by eastern prize winner. \$2.00 for 13. W. Beattie, West Summerland.

SATURDAY, MARCH 18, 1911.

EDITOR MEGRAW AND COL. CARTWRIGHT

Editor Megraw a few weeks ago indulged in that extremely dangerous pastime of guessing. In his valuable paper, the Hedley Gazette, Editor Megraw "guessed" that the editor of the Summerland Review carried himself under the hat of Colonel Cartwright. Editor Megraw is a very poor guesser, as the following letter from Colonel Cartwright will show.

To my old friend Megraw, Editor of the Hedley Gazette.

Dear Sir: You do your temporary the Summerland Review a grave injustice in your issue of March 2nd in assuming that I (Colonel Cartwright) was responsible for his sentiment and patriotic stand in favor of reciprocity.

I have no doubt that he consulted some of the Conservative and successful fruit growers of this place before expressing himself in the able way he did; taking his cue from them. Do you know that our good pieces of fruit land are bringing from \$1,000 to \$1,400 per acre for orchards not yet in full bearing? Last year one conservative fruit grower netted \$4,000 from twelve acres while two others realized half that amount each from about the same area. They sold privately, shipping only ripened fruit and getting cash in advance.

It is true that our poor fruit may need protection but it would need treble the present protection to help it. Next year we won't have any poor fruit from Summerland, we need not. We want Chicago and New York markets for our high grade apples. Moreover, we

desire both English and American buyers to take in our district after taking in Oregon and Washington.

Yours sincerely, R. Cartwright.

CHURCH UNITY.

One of the most promising signs of the times is the growing desire of people of all denominations to do away with the evil of over-churching. From many sources arguments against the practice, and the churches themselves are beginning to realize that something must be done to prevent the overlapping if the church is to maintain the position she has held for so long. A comprehensive plan has just been prepared by a select joint committee of Toronto, representing the Methodist, Presbyterian and Congregational churches of Canada. The committee recommends that committees be appointed by the different churches to define local districts and appoint local committees of the synod conference or association, that where overlapping exists, an investigation shall be made to determine which of the co-operating churches shall be entrusted with the work, and that any of the co-operating churches desiring to undertake work in a field shall first submit its proposal to the local committee interested.

A writer in an American magazine discussing the question of over-churching in the sparsely populated communities of the New England states, notes how the church is failing in its full duty towards its community. The result is too often empty pews, under paid ministers and a sluggish spiritual life.

"Churches," says the writer, "like individuals, like to herd, and since the church is a human institution, all the characteristics of the individual are manifest in it magnified form. Individuals herd where the feeding is rich and abundant, and they generally overdo the herding act; likewise, where the prospect looks good, you will find a multiplicity of churches, and in nearly all cases, struggling churches."

The writer continues, and he expresses a thought that has been in the minds of many when he says: "The effects of this over-churching are not only disastrous to the community and have a greater influence for religious and moral indifference than any other one factor in our present day life. . . . In these

communities, men and women who are in accord with the teachings of Jesus Christ, but are not in agreement with the rivalry of the denominations, and are consequently classed with the unchurched, have told me that they do not care to mix up in the petty quarrels and assist in the catch-penny devices to raise money to support a multiplicity of denominations which claim they are all working for the same end, but refuse to unite and make their work effective."

After viewing at length all the whys and wherefores given in excuse for the over-churching evil, the writer points to the good work now going on looking to the uniting of the church forces. The Interdenominational Commission of Maine has formulated a statement of principles which show the constructive work being done to solve this great problem. Under these principles no community in which any denomination has any legitimate claim should be entered by any other denomination; a feeble church should be revived, rather than a new one established to become its rival; the preference of a community should always be regarded by denominational committees; those denominations having churches nearest at hand should, other things being equal, be recognized as being in the most advantageous position to encourage and aid a new enterprise in their vicinity; in case one denomination begins gospel work in a community, it shall be left to develop that work, without denominational interference.

The younger men in the ministry are rising like young Turks, asking for better conditions, and some of the fellows on the western fields are resigning their pastorates to relieve the situation.

THE TIDE TO CANADA CONTINUES.

An American dispatch tells of the great influx of American farmers to Canada, and declares that the number this year will be fully up to that of previous years, and gives the reasons why. "When farm lands in the middle west can be sold for \$275 an acre, the dispatch says, "and lands equally as good can be purchased in Manitoba, Saskatchewan, Alberta and other parts of the Canadian West from \$10 to \$30 an acre, there is one of the very best reasons why the farmers in the States should sell out and go to Canada." These farmers are of the best class. They bring with them the

proceeds of the sales of their high-priced farms, and are investing their ready cash in Canada. It is but repeating the story of recent years. And here is an excellent

hint thrown out by the dispatch: "So brisk does emigration promise to be this year that a number of the western states have joined, and organized the "Western Development Association," for the purpose of fighting the movement of westerners to Canada. The greatest single force against which the Development Company has to work is the glowing accounts written "back home" by those farmers who went to Canada in previous years and who have prospered there. Every farmer in Canada, who went to that country from the middle west, writes back to his old friends and tries to induce them to come up and get rich, as he is doing. These appeals are more effective than any amount of advertising that can be sent out of Canada.

British Columbia fruit lands are proving very attractive to these American farmers, and thousands of acres will be purchased in this province this year. The usual amount of land purchased is ten acres, yet there are some Americans who are looking for large tracts—some as high as 1000 acres. One Omaha syndicate last year purchased 30,000 acres of land along the railroad building to Prince Rupert, and this spring will see many people from Omaha and vicinity coming to their new homes in that district.

Agents of Mormonism are active in Montreal. They are distributing literature throughout the city. They are endeavouring by personal intercourse to persuade members of many churches to accept the doctrines of the so-called "Church of Jesus." Most of the Mormons still practise polygamy and are putting up a strong fight against those who are attacking their methods and arguments in proselyting. The Hon. Winston Churchill has just started an investigation into the ways of the Mormons throughout the British Empire and Canadians who object to them are furnishing him with valuable information as to their movements in Canada. Are you building? Get your order in now for cement work to J. C. Williams, Naramata.

Don't forget the Band Concert in the College Gymnasium on Thursday evening next at eight p.m. Rally round and give them a good house.

**: Naramata Notes :**

It is reported that a dentist from Calgary will shortly arrive to open up an office.

Mr. Bartlett and Miss Williams attended the Sunday School Convention this week at Penticton.

Mr. Mallett, Jeweller, of Brandon, and a brother of Mrs. W. W. Mitchell spent a day or two in town recently.

"Beacon Lights of the Twentieth Century" is the subject of an address to be given in the Opera House next Sunday evening by Mrs. Gillespie.

For next week look out for the dance in the Opera House, proceeds in aid of—what? Why in aid of the band of course. Better stick the date up, Thursday March 29th.

Foreman Miller of the Penticton Lumber Company, acting under orders from head-quarters has closed down his lumber camp for the present and has removed with his outfit to three mile creek where active preparations for the building of the Company's new Saw Mill are well in progress.

Mr. A. Moody had an escape from drowning last Sunday afternoon that he will not soon forget. It seems that while returning from Summerland in a canoe with a companion named Wilson a squall came up and their canoe upset. Two other companions who were following at some distance in a row-boat reached the scene in the nick of time to save Moody who was dragged into the boat quite exhausted.

The card club held their last party at the home of Mr. and Mrs. George Cook. Most of the usual membership were in attendance and a delightful evening's play occurred. Next Tuesday evening's gathering will positively be the winding up gathering for the season, and wouldn't it be fine if everyone who has taken part in any of these popular gatherings were to turn out and close the season with a grand flourish. Remember the place: Mr. and Mrs. C. W. Johnson's.

The Band Benefit Concert held in the Opera House last Thursday week proved the big success of anticipated in these columns recently. The programme, while on the whole somewhat below the standard for Naramata, was owing doubtless to the shortness of preparations, and was nevertheless a truly creditable one. The musical selections by the recently organized band were a sur-

prise and a delight to everyone, thus proving themselves worthy of the hearty support at present being accorded them. A feature of the program was a speech by Mr. Robinson but recently arrived from a three month's sojourn in Europe.

The corner-stone of the Methodist Church was declared "well and truly laid" last Friday afternoon by Mrs. John Niblock before quite a large and representative audience. The speakers on the occasion were the pastor, Rev. G. O. Fallis, who conducted the ceremony, and Mr. J. M. Robinson, who delivered the oration. The Band was in attendance and contributed greatly to the musical end of the programme. To correct the false impression that the church construction is just nicely begun let it be stated right here that on the contrary the building is now nearing the plastering stage and that it is earnestly hoped that the opening services may occur before Easter.

The first practise shoot of the Rifle Association will be held today (Saturday) at two o'clock on the Garnett Valley Range.

**NOTICE.**

Tenders will be received by the undersigned up to the 22nd day of April, 1911, at 5 p.m. for the purchase of Block 27, Subdivision of Lot No. 541, Group One, New Westminster District, situated in the city of Vancouver, and being the site of the old Provincial Courthouse. Each tender must be enclosed in a registered letter and must be addressed to the undersigned, and plainly marked "Tender for Old Vancouver Courthouse Site," and must be accompanied by an accepted cheque for ten per cent of the first payment of the purchase money. Payment for the property will be accepted in instalments of one-quarter of the purchase money. The first of such instalments to be paid within thirty days of the acceptance of the tender, and the other three annually thereafter, with interest at the rate of six per cent per annum. In the event of the person whose tender is accepted failing to complete the first instalment within thirty days of the notice of such acceptance the sale to him will be cancelled and his ten per cent deposit forfeited. The cheques of unsuccessful tenderers will be returned. The highest or any tender will not necessarily be accepted. No commissions of any kind will be allowed.

NEWS FROM THE EAST.

(From our own correspondent.)

Montreal, March 20.— If the pick and shovel men work as hard when the time comes as the legislators have been doing lately the island of Montreal will be ancient history even to the present generation. Bill after bill is being presented to the legislature at Quebec and charter after charter is being sought asking for power and authority to build bridges and tunnels across the Saint Lawrence and the Riviere des Prairies from the mainland to the island of Montreal. Of course the river will still be there, but if the plans all mature the crossing of them from the island to the mainland will be like crossing the Seine from one district of Paris to another. No less than seven railway and development companies want to get into the city. Two of them would tunnel the river, the others would build bridges. One of them has conceived the brilliant idea of tunnelling the whole island, passing under the streets from north to south under Mount Royal and out goodness knows where in one of the back parishes. The promoters are working like mad to obtain the necessary consent to start work. Montreal needs more ways of communication with the mainland to the south of her, but it is doubtful if she is quite ready to go into bridge building and tunnelling wholesale. There is something behind all this activity and excitement which the public as yet has not been able to fathom.

Heretofore Montreal has been looked upon as an unanimous champion of the Georgian Bay Canal project, so that it was with some surprise that the plans outlined by Mr. H. Holgate the expert engineer, for the development of Canada's waterways, were received so heartily. Mr. Holgate asserted that if the present St. Lawrence route were improved as it would be quite possible to improve it, it would prove so much superior to the Georgian Bay Canal route as to render the consideration of that vast project entirely superfluous. The improvement of the Saint Lawrence canal system has been much discussed, but not in such a way as to produce definite conclusions. No comprehensive estimates and surveys have been made so as to determine the practicability of increasing the capacity of this route to Montreal on such a scale as contemplated for the Georgian Bay canal, with locks 650 feet long 75 feet wide and a minimum of 22 feet of water on the sill. The time has come when such a study of the Saint Lawrence should

be made. Mr. Holman said that the idea of canalizing the river by maintaining the navigation channel in the river and erecting dams below the various rapids had been the dream of engineers for many years.

Despite the fact that reciprocity does not stand a chance of being settled one way or the other for some time to come Canadian industries are booming, and there is a feeling of the utmost confidence pervading the atmosphere breathed by those who have money tied up in Canadian industrial securities. The severe depressions which have prevailed during the past twelve months in such staples as cement, iron and asbestos are now lifting and legitimate business is now getting back to a normal basis again. The Amalgamated Asbestos Corporation for instance, whose annual meeting was held last week, gives promise of good times to come by announcing that although the output from the mills during the past season was large, with a lessening of the cost of production this year, due to the adoption of newer methods, and with more activity in the trade this year of which signs are now apparent, the results of the coming season will show great improvement. An English syndicate has purchased \$300,000 treasury bonds of this company and \$200,000 more will probably be purchased later on so that the organization now has the same working capital as at the commencement of its operations. Shareholders in this and other industrial companies have great confidence in the future no matter what the political aspect. On the whole industrial stocks and bonds have never been looked upon more favorably than now. The P. Burns Limited of Calgary, the great ranchers and packers of the west, have just made a million dollar bond issue through the Dominion Securities. They are being snapped up in record time—even beating the old record held by this same firm a year or so ago for disposing of its offerings. The character of Pat Burns himself is in the meantime responsible for this. People in the east think as much of the old pioneer and patriot as they do in the west, where he lives and is known, but it is the rattling success he has made of his business that makes those with money to invest anxious to get in with him. The Bell Telephone Co. is also putting out another issue, this time through the Royal Securities, Max Aitken, Canada's British M.P. being the father of it so to speak. Mr. Aitken is coming back to home and glory soon and Montreal is preparing a brass band welcome for him.

### HOSPITAL AFFAIRS.

The Hospital Staff wish to thank the Ladies Aid for the handsome shower of Donations presented to the Hospital on March 19th.

The Hospital Board has been considering for some time the advisability of a new hospital, which same should be complete in every detail. They have prepared plans for the proposed building and these are now on view at the Drug Store.

The proposed building, if erected will be on a plot of ground opposite to Dr. Lipsett's house, which has been presented by the Development Company. The approximate cost will be \$15,000, composed of \$10,000 for the building and \$3,000 for the furnishings, leaving \$2,000 to meet miscellaneous expenses.

\$5,000 is expected from government aid, \$5,000 from public subscription, and the remainder they desire to get from the Council, to be raised by debentures.

All this will necessitate a public meeting, which it is intended will be held at an early date. Come and air your views, and let your sentiments be known for or against. This is an important matter and requires serious consideration. It is not advisable to hurry the matter through, for in hospital affairs, as well as in many others, the first cost is not always the greatest.

### Poultry Supplies in Stock.

Stevens; First Vice-President W. Richie; Second Vice-President E. Garnett; Secretary-treasurer Jno. Tait; Auditor A. H. Steven; Executive Messrs. S. Sharp, G. A. McWilliams, A. H. Steven, Jas. Darke, S. H. Adams, G. Graham and James Ritchie.

Local News Items

See Angove & Stinson's announcement re Millinery on the second page.

There has been a parcel left on the shelf of the wicket at the Post Office. Owner can have same by proving property to the Postmaster.

Are you prepared for the fishing season? A new stock of fishing tackle has just arrived at the Drug Store. Everything for the angler. Call and inspect.

The Stores will be closed on Thursday afternoons during the summer months. The first day of closing will be Thursday, April 6 at twelve noon and weekly from that date on.

The Baptist Sunday School at West Summerland next Sunday will be held at three o'clock in the College Gymnasium. There is to be a special program. All are invited. Spread the word.

The Summerland Band will give another of their ever popular concerts in the College gymnasium next Thursday evening. The boys have been practising faithfully for some time past and deserve all the encouragement that can be given them. Be sure and attend and help the band along.

"The fly who forgets to wipe his feet will soon call on you." Give him a hearty welcome and never let him depart; meet him with a nice little whacker, or provide decent resting places for him and see to it that they are of the sticky variety or else poisonous. He is too good a friend (?) not to hold once you get him in your home.

All the down town church services next Sunday have been withdrawn for the opening of St. Andrew's Presbyterian Church, West Summerland. Services will be held at 11 a.m. and 7 p.m. to be conducted by Rev. John Clark, B.A., of Calgary. Special music will be rendered by the Methodist Choir. An entertainment will be held the following evening, when Mr. Clark will again speak.

Now that the Lakeshore Telephone Company have moved into their new premises the emergency night service will be resumed. This refers to calls for emergency only, such as for the doctor in special cases, fire, etc. Otherwise the service is open from 6 a.m. to 10 p.m. and no calls except as above must be made before or after these hours. The Sunday service is as before, from 9 a.m. to 10-30, and from 5 p.m. to 6.00.

SHERIFF'S SALE.

The Westbank Trading Company, Limited, Westbank, British Columbia, under a Chattel Mortgage the Royal Bank of Canada for the sum of \$7,094.00.

Lien contract to the W. H. Petrie, B.C. **: Peachland Notes :**

(Too late for last week).

Rev. J. P. D. Knox spent Monday in Kelowna.

Mr. and Mrs. A. Town left on Monday morning for Winnipeg.

Mr. G. A. McWilliams was in town on Wednesday looking over some real estate propositions.

Mrs. S. F. Callendar and Miss Hazel set out on Monday for a month's visit to Vancouver. While they are away Miss Hazel will consult an oculist as her eyes have been giving her trouble lately.

Reeve Garraway and W. A. Lang, president of the Board of Trade, were a deputation to Penticton last Friday to meet Mr. Warren, president of the Kettle Valley Railroad, to lay before him a map of the Trepannier Creek route. Mr. Warren was so impressed with the apparent ease of this route compared with others surveyed, that he agreed to send his engineers over it at once.

The regular monthly meeting of the Municipal Council was held on Tuesday evening. The most important item to come before the councillors was the resignation of Mr. H. McDougall as Clerk. Mr. McDougall has held that position ever since the organization of the Municipality, and has been particularly faithful and painstaking in the discharge of his duties. He finds, however, that these duties are becoming something of a burden to a man of his years and hence his resignation. While accepting it, the Council expressed in the strongest terms their appreciation of Mr. McDougall's services and asked him to continue in office until they have an opportunity to select a successor.

**GOING INTO THE HIGH-PRICED MARKET.**

An eastern exchange, in dealing with the reciprocity question, has this to say in regard to the fruit growers and free fruit: "Those fruit men are not altogether consistent. Out in British Columbia they boast of having the best climate and fruit land in the world—that is when they want to sell their land. Now they cry out that they cannot compete with United States fruit growers." Is the above true or not? We must draw the attention of our friend to the fact that the Observer has never said nor admitted that the B.C. fruit grower could not compete with the American ar-

ticle under the same conditions, and there is more than one fruit grower in this district who is making every preparation to go right after the higher prices on the other side of the line if the new tariff regulations ever go through. The Summerland Review is another paper which has faith enough in its own district to contend that the fruit growers have nothing to fear. In fact, with very few exceptions, the only newspapers which are crying "blue ruin" to the fruit industry here are a few hide-bound periodicals. Some political partisans or weak-kneed growers take up the cry.—Salmon Arm Observer.

**CHURCH NOTICES.**

St. Stephen's Church.—Holy Communion 8 a. m. Matins 11 a. m. Evensong 7 p. m. Sunday School 10 a. m. First Sunday in the month, Holy Communion at 12 noon.

# A Few Suggestions

In New Spring Apparel for Men.

The Up-to-Date Man recognises the fact that it is necessary to maintain a neat and smart appearance about clothes. A well dressed man commands attention. The new men's suits we are showing are made of fabrics most popular for this season. Neat small patterns in grey worsteds; subdued browns and greens in small checks and stripes, and the workmanship is of the highest order.

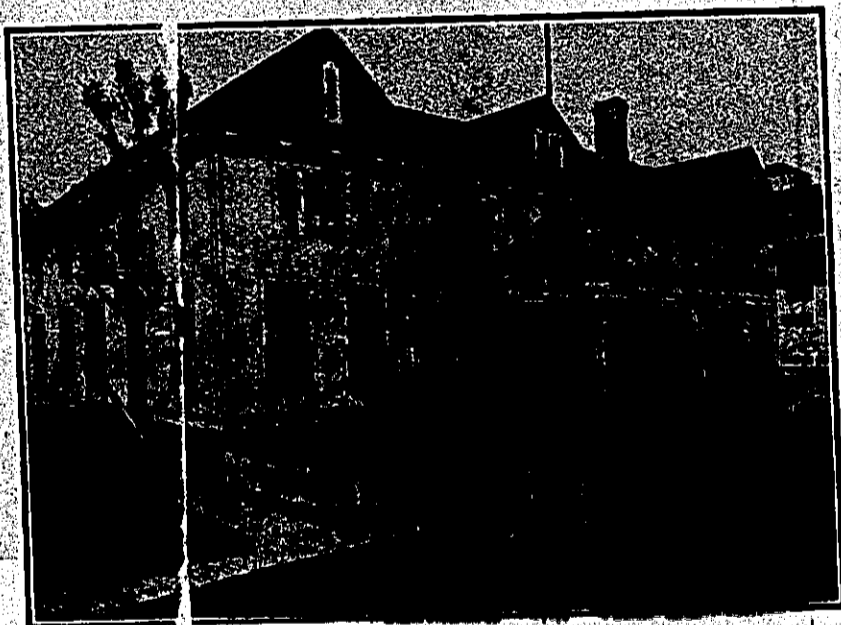

The hats for Spring are decidedly smart and stylish. The crown is full and can be worn in block or dented, with a nice full roll rim.

The new boots combine style and comfort. We have them in Valour, Box Calf and Patent, with the new light box toe and wing tip.

Shirts in carefully selected designs. Overalls, Jackets, etc., at right prices.

## RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.
