

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 3, No. 39

SUMMERLAND, B.C., MAY 6, 1911

Whole No. 143

MUNICIPAL COUNCIL MEET.

On Monday last the Council met in regular monthly session in the Council Chamber, Summerland.

After the minutes of the previous meeting had been read, the Council dealt with the correspondence until ten o'clock, when they formed themselves into a Court of Revision in accordance with the notice on the assessment Roll of the Municipality.

From ten o'clock until four thirty, with an adjournment of two and a half hours, they were kept hard at work listening to the various claims and objections presented.

There were twenty-one cases dealt with in regard to the assessment of property, and twelve with respect to irrigation and water rates charged on their holdings.

In many cases the argument of the objector was good and the claim was granted. Others were turned down, and in many cases which referred more particularly to the amount of land it was possible to bring under irrigation, the matter was left over to be examined and settled by officials appointed for that purpose. The two following resolutions were passed by the Court:

Resolved that acreages under ten acres owned by the same party, and not divided by streets or lanes, come under the total Domestic Water acreage rate.

Resolved: that in all cases where the acreage is under ten acres, and owned by the same individual, and not separated by streets or lanes, it shall come under the regular acreage rate, and shall have no more than one connection.

At four thirty the Court closed, and Council matters were dealt with for two hours.

Mr. J. M. Robinson proposed to the Council that if they would build a cement sidewalk by the side of the Empire Block to the Bank of Montreal, he would bear half the cost. The Council agreed to this proposition.

It was resolved that the Assessment Roll as revised be the Assessment Roll for the year 1911. It was resolved also, that the Water and Light Roll, as revised, be the Water and Light Roll for the year 1911.

A plan of sub-division of No.

13, Lot 473 was submitted by Mr. J. C. Robson, and passed subject to a few qualifications.

A letter from the Attorney General was read. This referred to the fines imposed in the municipality, and defining the rules regarding same and also quoting the law on the subject.

A letter from Messrs. C. Meredith & Co. re debentures was read, also one from C. H. Cordy, re insurance on School properties.

The following accounts were passed for payment:—

T. B. Young	\$12.00
Jno. Tait	1.40
C. Anderson	10.00
Band	30.00
J. L. Logie	60.00
Colonist	22.00
Drug Company	4.40
Water and Light Dept.	25.00
R. H. English	3.00
R. R. Chew	2.50
W. Ritchie	1.37
Supply Company	25.20

Total \$196.92

proposed system at Gartrell. At the last named place he suggested an intake higher up the creek than the present flume, and pipe lines throughout (about seven miles of pipe) at an approximate cost of \$25,000.

At Aeneas Creek he did not consider the dam satisfactory, and suggested three propositions for altering the arrangements there, the middle figure being \$2,285.45.

The Prairie Valley dam was more detailed and intricate, and would require consideration, and it was resolved that the Board of Control be authorised to carry out in the best possible manner the suggestions made in Mr. Latimer's report re the intake at Prairie Valley Reservoir and the Trout Creek district.

Irrigation matters were discussed for over an hour, and were gone into very thoroughly.

The Government Road at Gartrell was the next source of interest, and occupied another hour. The proposed road is a Government one, but the right-of-way through the

HOLIDAYS GALORE.

June 3, the birthday of his Majesty King George V. and June 22, Coronation Day will be proclaimed as statutory or legal holidays in Canada.

Some time ago his Majesty instructed through the Colonial Office that he would prefer to have his birthday celebrated on the actual anniversary of his birth instead of adhering to the precedent set by the late Sovereign, King Edward, whose birthday was officially celebrated on Victoria Day, instead of on November 9. Good Friday, Easter Monday, Victoria Day, and Dominion Day are now statutory holidays, and with June 3 added as a fixed holiday from now on and Coronation Day made an extra holiday this year, the Dominion will be well served with public holidays during the coming eleven weeks.

WANTS A CLEAN-UP DAY.

The Revelstoke Herald asks, "Is this a clean city?" and then proceeds to answer: "We might as well all be honest about it and admit that now, at least, it is not. Take a walk down the principal streets of the city any day and glance to the right or left along the lanes and into the back yards and see the piles of litter and rubbish lying around and then ask yourself the question and answer it honestly. Don't you think it would look better if all this rubbish and stuff were cleared away to the rubbish heap where it belongs? Certainly you do. Then for the sake of public health, if not for the appearance of things, get it cleared away. It might be well for the city Council to instal a few rubbish and paper receptacles on our main street at least, so that we can have one clean street in the city. A few dollars would be sufficient for that and then the public could be educated up to depositing papers and such stuff therein."

Shields, Hatfield & Clark launched two boats on Thursday of this week, a twenty-five foot for Mr. Stark, and a twenty-two foot for Mr. Gibbons of Penticton. They have on order a thirty-five foot cabin cruiser for Kelowna and a twenty-two foot launch for Summerland.

CLEAN-UP

There will be a meeting of all those interested in "Clean-Up Day" in the Municipal Hall, down town, on Tuesday evening at 7:30. Business: Final Arrangements. COME.

The By-law fixing the rates and taxes for 1911 was read for the first, second and third times. This was a by-law fixing the rates at 10 mills on the dollar—6 on roads and bridges, 2 on Schools and 2 on Debentures. All persons paying their rates before the 1st. day of September will be entitled to a discount of one-sixth of the amount except on the Debenture rate. It was resolved that a grant of \$2,500 be made to the Agricultural Society for the purpose of erecting a Horticultural Hall in Summerland.

A report from Mr. Latimer, C.E., on the irrigation system, was read. The report was very long and purely technical. It dealt with the intake at Prairie Valley, and also at Aeneas Creek, and the

various lots has to be purchased by the municipality. As it stands at present it will require \$1500 to swing the proposition, but the matter was referred back to the committee to see the parties interested, and try to arrange a settlement.

Resolved that the Clerk be instructed to draw the attention of the Customs Department of the Dominion Government to the necessity of the appointment of a Customs Officer at this point, citing the loss and inconvenience incurred in the importation of perishable goods.

This was all the business.

Eating cucumbers will take away freckles—on the cucumbers.

WENATCHEE EMPLOYS JAPANESE SCAVENGERS.

The city of Wenatchee has been forced to seek foreign labor to take care of the garbage, and a contract has been entered into with a Japanese firm in Seattle to keep the city clean for the next three years. For two years efforts have been made to get local men to engage in the business, but the results have been unsatisfactory. It is the determination of the health department to keep all alleys and streets clean. The Council now has the principal streets cleaned twice a week.

WILL POST FRUIT GROWERS ON STATE OF PRICES.

The provincial government is taking steps for a most comprehensive system of market reporting for the benefit of the fruit industry this season. The past season, L. A. Metcalfe, the market commissioner was alone in the field, and his reports to Victoria were distributed throughout the fruit districts by mail. This season, the government has promised to have agencies in the principal distributing markets of the prairie and from the telegraphic reports sent to Victoria bulletins will be wired out to the affiliated associations. This will cut at least five days from the time required to get market information to originating points and will, in fact, keep the associations posted within twenty-four hours of the actual market. In addition, one agent will be maintained in the competitive valleys south of the line to advise on market conditions there, for with reciprocity looming up, it is important to become acquainted with American conditions methods and organizations.

If you desire a very fattening food for your fowls, plant a few sunflowers. They thrive in this climate, and bear a big load of seed heads. But one must not over-feed them. Sunflower seed is said to contain about 16 per cent. of protein and 21 per cent. of fat. This is about six or eight times as large a proportion of fat as is contained in our small grains, and four times as much as is in ordinary corn, one of the most fattening of cereals. It is said that a small allowance of sunflower seed is a good thing during the cold weather and at moulting time.—Nor' West Farmer.

Dirt and darkness foster disease. Pure air and sunshine are their antidotes.

EMPIRE DAY CELEBRATIONS.

Summerland, B.C.,

May 4, 1911.

The Editor,

Summerland Review,
Summerland, B.C.

Dear Sir:

In making up the programme of the sports to be held at Summerland on May 24th, a copy of which was mailed to you for advertisement. I omitted to insert the following: Half Mile, open, two in three, \$100. First, \$70, second, \$30.

Will you please make this clear in a fairly prominent position in your next issue, calling attention to the omission. Thanking you in anticipation,

Yours faithfully,

CHAS. H. CORDY,

Secretary, Summerland Empire Day Committee.

Rev. James Hood is away at Vancouver this week attending a meeting of the Synod.

Just What You Need for Your Shack!

A Burlap Felt that will keep out the wind and look neat and is not expensive. We have it in red and green.

We have a superior line of building and insulating papers besides the famous Ruberoid Roofing.

THE ROOFING QUESTION

WHY NOT SETTLE IT ONCE AND FOR ALL

Settle it by using a roofing of known wearing qualities. It's not what a roofing ought to do; it's what it HAS DONE, IS DOING and WILL DO. We can prove that

RUBEROID ROOFING

Trade Mark - Reg. U. S. Pat. Off.
that was applied to various kinds of buildings from 10 to 15 years ago is still in perfect condition. No leaks, no repairs.
WHERE CAN YOU EQUAL THIS RECORD?
Ruberoid contains no tar, rubber, paper or other substances that need a protecting mineral coat. It protects itself from all influences of heat, cold or dampness. It is acid-proof, fire-resisting, and will not melt, crack or rust. Anybody can lay it.
Write to-day for free samples.

Birrel's Orchard Extension Reversible Discs. Next week's advt will be interesting.

NOTICE.

All bills due the undersigned up to the 15th day of April, 1911, will be payable to and collected by A. A. Derrick, Summerland, Lakeside Stock and Dairy Company, Limited. F. LeRoy Black, Secretary-Treasurer, Summerland, April 15, 1911.

Mr. George Fox, late Waterworks superintendent at North Vancouver, has been appointed waterworks superintendent at Vernon.

Wm. Ritchie has just unloaded a car of Bain carriages. He invites the public to call at his warehouse at West Summerland and inspect these vehicles. 5-5-1

If the "clean-up" day in Summerland would only realize to the workers the takings at the "clean-up" in the Klondike gold fields what a lot of willing workers there would be! Come along and try your luck, anyhow.

Mr. E. F. Heath, West Summerland, has commenced a vegetable garden there, and will devote his whole time to it, cultivating his lot solely for these necessary table foods.

Premier McBride will arrive in Ottawa today (Friday) to confer with R. L. Borden regarding the political situation and an alliance of the provincial organization with federal forces in anti-reciprocity. There is no change in the deadlock situation. The Government forces are determined to sit all summer if need be to compel a vote on the reciprocity issue.

COAL RESERVES IN SIMILKAMEEN.
The new coal mines at Coalmont, in the Similkameen, are estimated to contain 120,000,000 tons of high grade coal suitable for domestic purposes, for steaming, for coke and blacksmithing. There are six seams and an average thickness of fifty feet of coal. It is expected that shipments will begin by next September. A contract for an additional fifty feet of tunnel work on the Myers Creek Coal Company's property near Bergen has been let. The tunnel is at present in some 100 feet and is stated to expose some substantial coal cropings.—Exchange.

45,000 AMERICANS COMING.

Forty-five thousand persons, with twenty million dollars in cash and effects, is the estimate given by the C. P.R. officials regarding the immigration of United States farmers during the next few weeks.

SIR THOMAS RETURNS.

Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, arrived in Quebec during the week on the Empress of Ireland, and came on to Montreal in his private coach, taking up duty immediately after getting in to the Windsor headquarters. Sir Thomas has been away since the beginning of March on a combined business and pleasure trip to London and the Mediterranean.

SUICIDE AT WOODS LAKE.

A distressing case of suicide occurred at Woods Lake last week, says the Kelowna Courier, when Mr. J. O'Mahoney, well known to many Kelownians, took his life by placing a rifle to his mouth and blew out his brains. He lived with Mr. J. Hayton, but was alone in the house at the time. No further details are obtainable, but it is supposed that the deed was done in a fit of despondency to which the deceased was subject occasionally. He was an Irishman in the prime of life, much liked by all who knew him. Dr. Morris came down from Vernon last night to hold an investigation, but there is no doubt as to it being a case of suicide.

GAME LICENSES.

The customary annual notices with respect to fishing and hunting licenses for non-residents of the province have just been issued from the provincial game department, and are now being distributed. The fees are: For general license, good for one year, to cover all fish and game that may be taken under existing regulations, \$100; spring bear hunting license, good from January 1 to July 14, \$25; Birds, season, \$50; angler's license, good for one year, \$5. Licenses may be taken out at the office of the provincial game warden or that of any government agent.

CANADA AROUSED.

Whether this reciprocity talk has aroused Canada's industrial spirit, or whether there is some other cause at work, is a question. Whatever the reason, there is no doubt that the industrial spirit of the country was never so active. Every town or city, every industrial or commercial association, and every manufacturer is keenly pushing business. Ottawa is to have a "shopping week" as part of its boost campaign. Hamilton had an "Industrial Day" on May 3rd. Other towns are getting out advertising and arranging campaigns for attracting attention.

This is well. The rule that no man can lift himself by pulling on his own boot strings does not apply to a country or town. Every industrial community may elevate itself and increase its efficiency by taking thought for the morrow. Men, not geography, make a community or a town. Geography may help, but men are absolutely essential. Where men are active, determined, intelligent, there is progress and success.—Canadian Courier.

WHAT IS MAN?

The little girl who wrote in her composition that "Man is a two-legged animal," must give place to another of her ilk, who goes more definitely into details and handles her subject in the following original manner: "Men are what women marry. They drink and smoke and swear, but don't go to church. Perhaps if they wore bonnets they would. They are more logical than women, and also more zoological. Both men and women sprung from monkeys, but the women sprung further than the men."

The proposed church union in Summerland is billed as not possible at the present time. The Methodist congregation favored the union as proposed with one or two qualifications, but the Presbyterians, the other denomination concerned, turned it down. The following, from the Montreal Weekly Witness, on this matter as a whole, is interesting reading: By a majority of over two to one, the members of the Presbyteries throughout the Dominion have voted in favor of church union on the proposed basis. There are sixty-eight presbyteries in Canada and all have now voted on the resolution, and fifty-four have voted in approval of the basis of union, twelve have voted against, whilst two have modified their vote in such a way that they must now be counted in opposition.

There is to be a Piano and 'Cello Recital in the Men's Club on Tuesday evening at eight o'clock. Miss Thompson and Mr. J. K. Chorlton, of Penticton, will be the chief artists.

The Organizing Convention of the B.C. Political Equality League will be held in Vancouver on the 5th of May.

RIFLE ASSOCIATION.

ALL HANDS FOR CLEAN-UP DAY!

We never have known Summerland to enter upon anything in the spirit of half-heartedness. What is undertaken is generally carried through, and in a big, generous way.

The inauguration of Clean-Up Day will not be an exception to the rule. If we love our home and appreciate the natural beauty of our town and its environments, we shall enter into the spirit underlying the thought of Clean-Up Day, and make it ring true of our faith, our hope and our loyalty in, of and to Summerland and the great Okanagan Lake district.

Summerland is now the accredited centre of the Okanagan Peach Belt. It is the point that all are pointing to as the head of the forest growth superior to anything else in the world at present. Its shores, indented with a multitude of harbors, bays and inlets, teeming with myriads of fish; its rocks and sands, containing gold, iron, silver, coal and various other minerals. And besides all this, a climate superior to England in every respect, both as regards heat and moisture—and yet men will ask what is it worth! I answer, 'Worth more than Quebec and all the maritime provinces thrown in,' and skeptics may rest assured that the day is not far distant when my words will be accepted as truth."

The committee having in hand the preparations for Victoria Day celebrations deserve great credit for the able manner in which they have thus far perfected these arrangements. They have set out to make the celebration a success and will do it. However, no matter how complete the arrangements may be, nor how perfectly they are executed, if the town, as a whole, is not clean, neat and tidy, the pleasure of the day will be seriously marred to the great majority of our visitors. All hands to the clean-up!

"THIS SECOND BRITAIN." BISHOP OF LONDON ON DEATH
"For four or five days we have scarcely seen a ray of sunshine; it has been cold and dimly foggy," writes a friend from Los Angeles, California.

And all the while, in this Okanagan of ours the robins and the meadow larks, the swallows and the linnets, the thrush, the blue-bird, the wild canary, and the little bird so common that it lives without a name—all are singing in spring's mellow sunshine as they fly from tree to tree, post to post, carrying happiness and hopefulness into the hearts of all who'd hear!

Is it any wonder that there is an exodus from the east to this favored section of British Columbia? Is it surprising that the Okanagan Valley, the garden spot of this great province should receive such an influx of people and money. It is just beginning to dawn upon the minds of many in the eastern provinces that British Columbia is the place to move to. When British Columbia is better known, when the curtain of ignorance about her resources is torn away, then the surprise will come.

Prof. Macoun has made a statement about the future of British Columbia that each day is being realized. "As the years roll on," says he, "and our possessions be- come developed, the value of this second Britain will come so vividly before the people that men will ask with astonishment why such ignorance of British Columbia prevailed in the past. Today here are 400 miles of Coast line clothed with a forest growth superior to anything else in the world at present. Its shores, indented with a multitude of harbors, bays and inlets, teeming with myriads of fish; its rocks and sands, containing gold, iron, silver, coal and various other minerals. And besides all this, a climate superior to England in every respect, both as regards heat and moisture—and yet men will ask what is it worth! I answer, 'Worth more than Quebec and all the maritime provinces thrown in,' and skeptics may rest assured that the day is not far distant when my words will be accepted as truth."

Yes, Miss Summerland, it is better to have a reputation that is difficult to live up to than to have a reputation that is hard to live down.

Every man confers some benefit on the world—the lazy man confers his when he dies.

BISHOP OF LONDON ON DEATH
Preaching at the Church of St. Lawrence Jewry, London, E.C., at a service in connection with the Commercial Travellers' Christian Association, the Bishop of London said that there was no subject on which Christians were so mistaken as on that of death. Death was mistaken for the pain that sometimes preceded it. Being born into another world was probably like being born into this. The proposed horror of death was founded on nothing more than a delusion. Death was an incident that took place in a continuous life, and the idea that the spirit slept after death was a complete delusion. There were six things revealed to us about the life after death—that the man was the same man five minutes after death as five minutes before it, except that he had passed through one more experience of life, that his character would grow, that he had memory, that he would be a Christ in Paradise, that there would still be mutual recognition, and that he would still have a great interest in the world he had left. Such thoughts ought to make one careful not to do something on earth which he would be ashamed to remember five minutes after death.

TENNIS ASSOCIATION.

The Okanagan Valley Lawn Tennis Association was organized at a meeting held last week. The following officers were elected:—
Hon. President, Mr. W. T. Shatford, Penticton. President, Dr. B. F. Boyce, Kelowna; Vice-President, Mr. Scott Allan, Vernon; Secretary Treasurer, Rev. G. O. Fallis, Penticton; Executive Committee, Dr. Huycke, Kelowna; Mr. A. H. Bell, Okanagan Mission; Mr. Hodges, Vernon; Mr. M. C. Kendall, Penticton; Mr. E. B. May, Summerland. It is the intention of the Association to hold a tournament in Kelowna during the last week in June, at which about one hundred players from outside points are expected to be in attendance.—Kelowna Courier.

The following is the Honor List of Ward I. School, for the month of April.

3rd. Class:—Allen Harris 93; Doris Fulton 85; Ida Shileds 78; Eva Shields 77; Kathleen Brown 72; Bertha Bristow 71.

2nd. Class:—James Clark 82; Olive Bristow 75; Willie Clark 73; Donald Ross 71; Gwen Harris 70.

1st. Class:—Jack Harris 75.

NEWS FROM THE EAST.

(From Our Own Correspondent).
Montreal, May 3.—With the problem of accomodating a population of one million five years hence staring her in the face, Montreal is planning to rob Father Neptune of nearly a square mile of territory in an effort to provide additional room. As in the case of many smaller cities the plan in question simply proposes reclamation. In this case the reclamation will be from the river involving an amount of land which will be worth something like a million dollars. The idea originated with an engineer who acted in a consulting capacity in the erection of some of the largest buildings in the city, and has made a specialty of foundation and caisson work. His idea, in brief, is to lengthen the island of Montreal by the erection of sea walls, behind which the space could be filled in by pumping sand from the channel. Chimerical as the scheme may sound at first hearing there appears to be no reason why it should not be carried out, since the value of the land will far exceed the cost of its creation. Of course until borings and surveys have been made it is impossible to more than roughly estimate the cost of such an undertaking, but it is believed that it would not only pay for itself but leave a handsome profit besides. It is well over a year now since Johnny Woods, an expert second storey man and false key burglar, stepped out to freedom and announced that all was not as it should be behind the walls of St. Vincent de Paul penitentiary where he had been confined for the five years previous for robbing the home of ex-Mayor Ekers whilst His Worship and family were abroad. Johnny is a smooth, well educated young Englishman and he tells a good story. The newspapers took him up and he became famous in a night. Briefly he charged that cocaine, rum, dope of any kind and pipes to smoke it with, dainties, tobacco, even knives and razors, were bartered and exchanged within the walls of the "pen" as freely as they would be outside. Coin of the realm was the standard of trade, although if short, an ordinary plug of tobacco cut into ten slices, stood for fifty cents. From outside appearances Johnny's tales did not ruffle one whit the equanimity of the prison officials, the inspectors nor the Department of Justice, but it has since been learned that, almost as soon as he had spoken, a

searching investigation was ordered through the Dominion Police. Now it turns out, matters are even worse than Johnny pictured them. One guard had the audacity to enter to partnership with a convict to run a bar room. The guard in the fire ground route" and the prisoner peddled it, his place of business being a well concealed cave in the huge coal pile standing in a corner of the walled yard. A hospital orderly sold cocaine and morphine from the hospital stores. A cook, when discharged after his time was up, walked out with seven hundred dollars in his pocket although he had not a cent when he was sentenced, all of it made by selling dainties and extra rations to the wealthier inmates. Several guards have already been suspended and a general shake-up and re-organization is being brought about behind those high grey walls.

Cheques totalling \$93,397.51 are being sent out from the City Hall as a cheerful May Day present from the city to its various creditors. The whole sum comprises Montreal's half yearly payment of interest on the various civic loans, including interest on the loans of the several municipalities which were last year annexed to the city. Nearly two millions of dollars are expended each year in this way. The sum of £34,50 18s. 4d. goes to the Bank of Montreal in London, £19,204 2s. 3d. goes to the National Bank of Scotland in London, and £46 0s. 6d. goes to the Bank of Scotland in Edinburgh. The foregoing amounts are equivalent in Canadian money to \$553,632.25 and the balance of the interest is made up in coupons and stock dividends payable in New York and Montreal.

That various citizens throughout the country may be the unsuspecting wearers of gun cotton neckties and explosive socks liable to blow up at any moment, is the startling possibility just brought to light here. Nor is the feminine sex immune from the danger since petticoats may likewise be articles of destruction. This unsuspected condition of affairs has been discovered through a local protest recently filed against the manufacture of artificial silk from cellulose, in which it appears that there is a possibility that almost any article of wearing apparel made to imitate real silk may actually be explosive. According to the protest, there are several processes by which artificial silk is produced from cellulose. One pro-

cess employs nitro-cellulose which is really nothing more than soluble gun cotton. From the threads to be used in the manufacture are drawn in ether or alcohol. After the thread has been drawn and is ready for wearing it is supposed to be denitrated. If it is, it is entirely safe. If it is not, it may be exceedingly dangerous, for it then remains nothing less than gun cotton spun into a fabric. So in the future it may be worth while to refrain from stamping the "near silk" clad foot or yanking viciously at the cravat of the same material, even though no casualties from explosive garments have yet been reported.

WHERE WOULD YOU BE IN A CASE LIKE THIS?

A certain preacher once grew fervent in exhorting to an honest living, says an exchange, and near the close of the sermon he said: "Let every person in the house who is paying his or her debts stand up." Instantly every man and woman in the house save one, was standing. After they were peacefully seated the dominie asked, "Now let those stand up who are not paying their debts," and a long lean man of sixty or more years clothed in a seedy suit of the past decade, slowly assumed a perpendicular position in his pew. "How is it, my friend," inquired the minister in austere tones, "that you are the only one in this intelligent congregation who does not meet his obligations?" The lanky individual meekly answered, "I run a newspaper, and the brethren who just stood up are my subscribers, and—" The minister broke in abruptly with "We will close with the benediction."

Let's not sit on the stool of Possibility when certainty may be ours if we hustle for it.

RESERVE.
NOTICE is hereby given that all vacant Crown lands not already under reserve, situated within the boundaries of the Land Recording Districts of Cariboo and Lillooet and the Kamloops Division of Yale Land Recording District are reserved from any alienation under the "Land Act" except by pre-emption.
ROBT. A. RENWICK,
Deputy Minister of Lands,
Department of Lands,
Victoria, B.C., April 3rd, 1911.

There was a meeting of the executive of the Agricultural Society on Monday last. Proofs of the Prize List were submitted and passed. The Summerland Fall Show is going to be one of the best in the Province, and the prizes offered are worth while. The ladies section of the Show is going to be one of the features—and full entries in all classes will be the result of the go-aheadness of this, the most live society in town.

GERM LIFE IN SOIL.

A bulletin recently prepared by the Colorado experimental station contains some rather interesting suggestions concerning the character of soils and particularly pertaining to the great variety of life forms that appear in soils. For the benefit of young people particularly, those interested in what might be called the scientific side of things, a short extract from this bulletin which shows the part played by germs in the liberation of plant food, is published: "The most of us think of the soil as a mass of very small particles of rocks and some moisture which furnishes physical support and sustenance to the plants that grow in it, and nothing more. We do not think of it as teeming with life, but it is. Some of this life is beneficial to the growth of the cultural plants which furnish us our food and pleasure, but some of it is indifferent or perhaps prejudicial. Most of us have, during the past few years, heard of the part played by certain germs, which acting in succession effect the conversion of organic nitric acid forming nitrates in the soil, in which form the nitrogen is taken up by the plants. This change of organic nitrogen, either of vegetable or animal origin, into nitric acid or nitrates, is called nitrification, and consists, as intimated, of several separate processes. This is not the only process going on in the soil which is dependent on the presence of germ life, or micro-organisms. Among others is one which has to do with the building up of nitric acid or the formation of nitrates. The preceding process, nitrification, depends upon the vegetable or animal matter in the soil for its supply of nitrogen and there are three steps in the process of converting it into nitric acid, but in this one the source of the nitrogen is the atmosphere and the agent which takes the nitrogen from the atmosphere and converts it into nitric acid, respectively nitrates, is also a germ that lives in the soil.

"It should be added that this process of nitrification can only be carried on when the soil contains a reasonable supply of moisture and it cannot be carried on under any circumstances when the soil particles are absolutely surrounded by free water. This is why so many soils are greatly improved by tile drainage, even though they may never appear to be very wet at any season of the year. In most cases, tile drainage increases the yield of

crops, simply because they make it possible for the germs in the soil to lead a more active life, and consequently to liberate more fertility for the benefit of the crops."

We of the Okanagan do not need to go to the expense of draining, but we can thus see the reason why too much irrigation water is detrimental to the best results.

HOSPITAL FOR INSANE REPORT.

The report of the New Westminster Hospital for the Insane shows there were 617 patients in the Institution at the end of April, of which 444 were males. Only 21 patients were admitted during the month; 4 returned from probation; 4 were discharged without probation; 15 were discharged on probation; 6 were discharged at the expiry of probation; 5 males died, and none escaped. The total number of patients out on probation is 55.

Naramata Notes:

Mr. Aikins has had his bungalow further enlarged by a 14 x 40 addition. Mr. C. W. Johnson has the contract well nigh completed.

The Trust Company are extending the Domestic Water Pipe line up Third Street to meet the requirements of several new residences in that quarter of the town.

Many of the fruit lots are this year exhibiting quite an encouraging wealth of fruit blossoms—apples, peaches and cherries.

Dr. Crawford of Vancouver spent the week-end at Naramata the guest of Mr. Robinson.

Mrs. Johnson returned on Monday evening from the Kelowna Hospital very much improved in health.

Road construction work commenced this week under the foremanship of Mr. W. Nuttall.

Mr. and Mrs. W. J. Robinson of Summerland spent Tuesday of this week in town.

Mr. C. Grimaldi has returned to town after several weeks absence.

"If a man die, shall he live again?" will be the subject of the sermon at the West Summerland Baptist Church on Sunday morning. The evening service at the front will be in the new church, and will begin at half past six.

The 24th of May celebration committee held a meeting on Wednesday evening in the secretary's office. They arranged a very excellent program, baseball at eleven a.m. and the horse races commence at one o'clock. Refreshments will be provided on the grounds. There will be a horse race every half hour from one o'clock, and the other events will be run off between each race, making a full day's sport. The road to Crescent Beach will be in good condition, and every arrangement is made for the convenience of the large crowd expected. The prizes in all the events are well worth while, and a full entry is expected. Everybody should be on hand at this Summerland's Day, which starts at eleven o'clock, a.m. and with the evening's concert will keep you amused for twelve hours. Entries close two hours after the arrival of the Okanagan on the 23rd inst, to C. H. Cordy, secretary.

The following announcement which appeared in the Manitoba Free Press under date of May 1, will be of local interest.

"A marriage has been arranged and will take place June 15, between Mr. Peter van den Nest, late 19th Hussars, only son of the late Mr. Amedee van den Nest, Belgian Minister at Cairo, and of Mrs. Hutton, Bredon Hill, Summerland, B. C., and Edith Borradale, eldest daughter of Mr. C. C. Chipman, Commissioner of the Hudson's Bay Company, and Mrs. Chipman.

COUNTERFEITS.

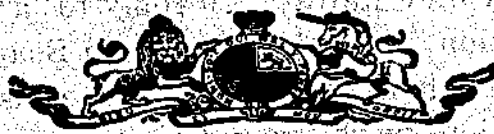

Clumsy imitations of Bank of Montreal Bills in Circulation.

Clumsy counterfeits of five dollar bills of the Bank of Montreal are in circulation, and the bank is issuing warnings against these forgeries which are supposed to have emanated in Eastern Canada.

They are lithographs and but poor imitations of the beautiful work seen on the genuine bill, the back being particularly crude.

As far as is known they are all Series B, No. 29,707, and dated Jan. 2, 1904, but how many are in circulation is not known, but it is said that these worthless pieces of paper are quite common especially in the east.

During the rough sea on Wednesday evening the C.P.R. tug "Castlegar" tried very hard to get the barge at the slip dock but the heavy seas prevented her every time, with the result that she ultimately had to cross over to Naramata and tie up for the night.

PUBLIC SERVICE ACT.

The qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places commencing on Monday the 3rd July next:—

Armstrong, Chilliwack, Cumberland, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, North Vancouver, Peachland, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of twenty-one and thirty, if for Third-class Clerks, and between sixteen and twenty-one if for Junior Clerks or Stenographers. Applications will not be accepted if received after than the 15th June next.

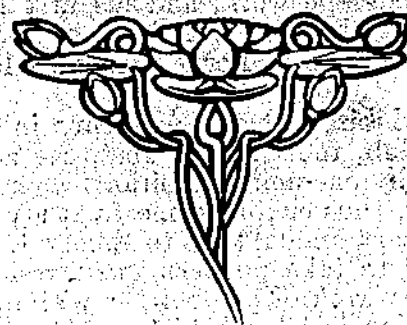

Further information, together with application forms, may be obtained from the undersigned.

P. WALKER,
Registrar, Public Service.

HOMER WATSON

Canada's Great Landscape Painter.

Every great landscape artist is both a poet and a painter. The imagination, the intuition, the interpretation, the sympathy, the reverence, the love, kinship and communion with Nature of the poet, filtering through the mind of the artist find their medium of expression in brush and colors. Every great painting is a poem in paint instead of in print.

One feels this strongly in the presence of Homer Watson's paintings, the putting on canvas of a single mood, with detail ever subordinated to the general effect. They are never photographic, but are always strongly individual interpretations. Whether it be a rough sea with the dancing fisher-boats under a dull, rain-filled sky, the white mill catching the high lights with its background of foliage, the lone rider bent over his horse plodding along a rain-washed road, some noble monarch forest tree braving the elements, or his interpretations of any other moods of Nature, one always feels the sentiment, the richness of color, the atmosphere, the glow, the feeling—all seem inseparable parts of a single effect. The dainty daubs of detail characteristic of some painters find no place in Mr. Watson's work; it is ever bold, rugged, broad in treatment, breathing vigor and vitality.

Homer Watson was born in the little village of Doon, on Grand River, Ont., in 1856, and as a boy at school showed his natural instinct for art when he surreptitiously drew on his slate an over-vivid picture of the strong and peculiar features of his teacher, which drew upon him deserved punishment. He seemed to turn naturally to landscape work, and his first large painting "The Pioneer Mill," which appeared at the first exhibition of the Royal Canadian Academy was purchased by the Marquis of Lorne, and now hangs in a place of honor in Windsor Castle.

Mr. Watson has exhibited at the Academy in England, the New Gallery, the New English Art Club, the Glasgow Institute and at International Expositions, and been honored by one-man exhibitions where thirty or more of his paintings were hung together, thus enabling one to study comparatively the range of his work. He makes almost annual trips to England, but loves Canada, her scenes and her people too well to take up permanent residence abroad. It is always dangerous to compare the work of one painter with another as it may carry with it a suggestion of imitation which would be unjust to one whose work is so individual as Mr. Watson's; but the critics in their appreciation of his paintings couple his name with the names of Corot, Constable, Diaz, Rosseau and Courbet—a noble band of masters with whom Canada's painter may feel honored to be placed.

Engraved according to Act of the Parliament of Canada, in the year 1906, by W. G. Mack at the Department of Agriculture

The new high school is going ahead fast, and Bert Harvey, the contractor, is rushing the building through. He has a big staff working, and the premises when completed will be a fine addition to the public buildings of this town.

An important minstrel rehearsal will be held on Monday evening, May 8th, in the Council Chamber, Summerland. All taking part are requested to be in attendance.

Quite a number of residents are interesting themselves in "clean-up day." They fully expect to have at least a very presentable foreshore by the 24th.

Where will the new Horticultural Hall be? The proposed \$5,000 building will be of inestimable benefit to the town and district.

On Friday evening, John Griffith, the eminent actor, appeared in "Othello," in the new Empire Hall. There was a very fair house, and the well known Shakespearean play was well received.

Mr. C. Stackhouse left on Friday last for Ashcroft. Mr. Stackhouse has accepted the position as business manager of the Ashcroft Journal, and we wish him every success in his new position.

NEW STATION FOR VERNON. CLEAN-UP BEGINS IN THE KLONDIKE.

Taking advantage of the presence of Superintendent Kilpatrick of the C. P. R. who was in town on Saturday, the Transportation Committee of the Board of Trade interviewed him regarding the vexatious delays which frequently occur in handling freight shipped from this city to points down the lake. The Committee laid the matter before Mr. Kilpatrick very fully, and he took copious notes of the points raised and promised to do all in his service which had been brought to his attention. He expressed his opinion that the best solution of the problem would be to start a daily engine, that he will put on, will run down at ten o'clock each morning. He also informed the committee that plans for the new station are ready and he expected that tenders would be called for in the course of a week or two. He assured them that the building would be a credit to the city and would far exceed in cost the sum estimated last year by the Board as being sufficient to meet their requirements.—Vernon News.

KETTLE VALLEY RAILWAY.

Construction work will be commenced east and west of Penticton within two months and by the end of the year it is expected that 125 miles—or about half the distance between Merritt and Midway—will be spanned with steel. This definite statement was made by Mr. J. J. Warren, president of the Kettle Valley Railway in reply to a question from the Penticton Board of Trade as to when actual construction work would be commenced. Mr. Warren stated that he intended to make Penticton the base of operations this summer for construction work. The Contractor will commence work on the wharf this week and a passenger depot will be erected at the same time. As soon as the slips are built, the C. P.R. will put in a fruit cooling house.—Victoria Times.

Of special interest to the younger element in the community is the humorous concert and candy sale followed by an old fashioned English Charade to be given next Friday in the Men's Club at eight o'clock.

Two checks were lost down town on Thursday afternoon. One for \$16.20 the other for \$8.00 both made out to W. J. Baettie. Please return to owner or to the Review Office.

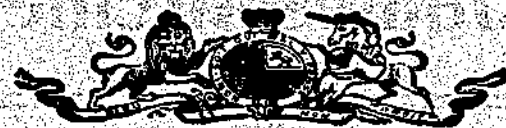

KLONDIKE.

The Klondike clean-up has begun. Water is running in the river. All the big dredges have started, the hydraulic plants are getting into action and individual miners are washing out their winter dumps. The Klondike's output this year will be the largest for years, with the promise of steady increase for years yet to come. Last year the yield was more than four million dollars; this year it will exceed five million dollars. Two or three dredges, several large hydraulic plants, and at least one giant water power plant are being installed, representing the investment of millions.

LAUDS BORDEN'S STAND.

The Pall Mall (London) Gazette, says, regarding Laurier's absence from the Imperial Conference, that there is such a thing as bluff in Canadian as well as in English politics. It may be that Sir Wilfred Laurier is trying to overcome his opponent's nerve. Mr. Borden and his friends would be false to their faith in Canadian nationality if they did not resist Taft's machinations. It is their plain duty to employ every weapon of resistance.

FOR SALE.—Jersey Cow, Apply Review Office.

NOTICE.

Public Notice is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation has been approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at \$10 and \$5 per acre respectively.

This regulation further provides that the prices fixed therein shall apply to all lands with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occurred in the consideration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provision of sections 34 or 36 of the "Land Act" and who are not willing to complete such purchases under the prices fixed by the aforesaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications.

TO KILL CUTWORMS.

Sometimes gardens are badly riddled by cutworms about the latter end of May. In the night they eat off the plants about the surface of the soil; and then hide during the daytime, covered in the soil close at hand.

The best remedy we know of is poisoned bran. Take a large pan of bran, put into it a teacupful of water and stir up until the bran appears to be perfectly dry. Then add the Paris green. It will adhere to the bran and will mix finely through it. If the dry Paris green is put into the bran, it will sink through to the bottom almost as quickly as water. If dampened there is enough flour in the bran to make the Paris green adhere to it. Do not use more than half a pound of Paris green to fifty pounds of bran.

If you use too much poison the insects will not eat it. Sprinkle this mixture where you expect the cut worms to get it, but not where the hens or babies will feed on it. It is not good for hens or babies.—Nor' West Farmer.

From advice from the Old Country it would seem that Covent Garden is not the only desirable market for our fruit, Liverpool, Glasgow and Manchester are going to prove excellent markets for our products.

At the Council meetings recently, there has been much discussion about the untidy habits of many of the residents in the district. They will persist in dumping old cans, clothes, etc, in all sorts of places which are not meant to be used as dumping grounds, and the Council are eager to catch some one at this pestiferous habit. More power to their elbow.

George Gartrell is the latest convert to automobilism. He brought his car up from Penticton on Thursday. This is the fifth of its ilk in Summerland. We grow more city-like day by day.

KOOTENAY FOLLOWS OKANAGAN'S EXAMPLE.

The Kootenay Fruit Growers' Union Limited, was recently organized at Nelson. The charter membership enrolment is 99 and a permanent Board of Directors has been elected. They start with a subscribed capital of some \$5,000 which they hope soon to double. It is expected that the Union will become affiliated with the B.C. Fruit Growers' Association at an early date. C. W. Bush, of West Arm, was elected president of the Board of Directors.

On the night of April 30th Bangor, Maine, was visited by a most disastrous fire. One third of the city is said to be in ruins and the property loss is estimated at \$6,000,000. There were at least three fatalities and thousands of people have been rendered homeless. Much suffering from the cold, wet weather prevails.

Track laborers, bridge and building carpenters, painters and workmen of all classes of railway improvements to the number of fifteen hundred, in addition to the regular staff, are now at work on the C. P. R. in the B. C. Division. A thorough overhauling and general improvement is being made.

Counterfeit fifty cent pieces are being circulated in Winnipeg.

Plans are on foot to make Winnipeg the best lighted city in America.

Small pox has broken out among the Ojibway Indians at Arden Village on the Nepissing Reserve on the south shore of Lake Nepissing. The Indian Agent at once isolated the two cases which had developed and ordered the immediate vaccination of the entire band of 400. In the meantime a rigid quarantine will be enforced.

The Summerland Baseball team journeyed to Penticton on Thursday afternoon and came out on top of a score of 17-14. As the score indicates, it was not exactly ball of the star brand, errors being plentiful on both sides. The game showed up the lack of practice from which both teams are suffering. We hope for better ball on the 24th.

Keep Well Dressed

Don't Get Sloppy—You can't afford it

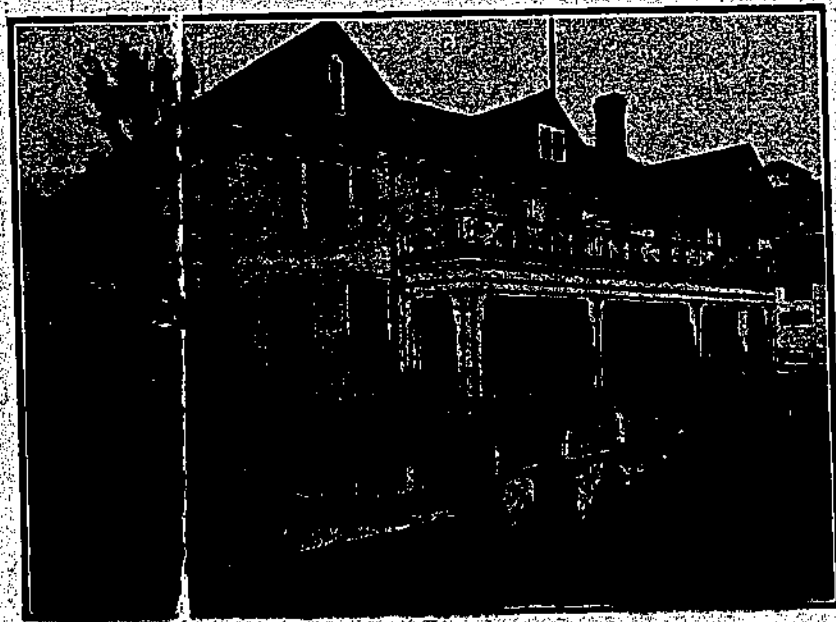

The World welcomes the well-dressed man. No man has ever hurt his cause by being well dressed.

We are showing the very newest styles in men's clothing, and the value of good style in the clothes you select cannot be over-estimated. The quality is largely a matter of honesty, and we feel we can give you both in the 20th Century Brand.

Our stock is very complete, and patterns and values are the best. Come in and let us fit you out.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

SUMMERLAND, B.C., MAY 13, 1911

Weekly No. 144

CLEAN-UP DAY.

OFFICERS APPOINTED. ALL GET READY FOR A BIG DAY.

A very enthusiastic gathering of citizens was held Tuesday evening at the front, in the Municipal Chamber. This was in response to a call to come together and discuss ways and means for a general clean-up.

Rev. F. W. Pattison was called to the chair, and Mr. R. Pollock was appointed secretary.

Mr. Pattison explained the purpose of the gathering and various plans were outlined and discussed. A motion was passed that a resolution be submitted to the Municipal Council asking that Thursday, May 18, be declared a public holiday to be observed as a general "clean-up" day. It was also resolved that the secretary notify Mr. William Ritchie, who had expressed himself in sympathy with the action of the meeting, with a view to having the west end of our municipality co-operate in the work. A discussion followed as to a plan of campaign and it was decided to intimate to all lot owners that they would be expected each to see that his own lot is attended to and that where a lot is occupied by a tenant that owner and tenant co-operate in the "putting-in order" of the lot.

It was decided that in the cleaning up of the water front, that a captain and the necessary number of lieutenants be appointed to take charge of operations. Mr. McWilliams was appointed captain, with Mr. H. C. Mellor lieutenant, in charge of the district from Crescent Beach to Geo. Gartrell's house, and Mr. F. D. Cooper from there to the C. P. R. wharf. From this point south to the Post Office will be under the charge of Mr. G. J. Coulter White. The district from the Post Office to the old wharf was placed in charge of R. Pollock, and D. H. Watson and C. N. Borton will jointly superintend the section between the old wharf and R. H. English's new stables. These gentlemen will also be near the hose shed in case of need. R. H. English will be lieutenant for the district between his stable and the Shields, Hatfield & Clark build-

MUNICIPALITY OF SUMMERLAND

I hereby proclaim THURSDAY MAY 18th, 1911, a Civic Holiday and call upon all Summerland citizens to observe the same by participating in a general clean-up.

JAS. RITCHIE,
Reeve.

ing. From there to Prairie Creek will be under the supervision of Dr. Smith, and from thence to D. H. Watson's residence will be in charge of Jno. Tait. A committee of two was appointed to wait on the Council and submit the resolution as to the holiday and to ask that the Council provide the necessary teams to gather and dispose of the garbage and rubbish as collected by the various companies.

The secretary was instructed to apply to the Development Company and the Municipality for the loan of such tools as might be needed.

That a thorough good job is to be made of the work and that the citizens mean business is evident from the hours of work decided upon, these being from eight o'clock in the morning till twelve, and from one to six. It was felt that every man should realize his duty as a citizen and report early, ready for work with shovel, rake, etc., to Captain G. A. McWilliams at his office, who will assign to each where he will be most needed, and that all will go at it with the determination that Summerland shall have a clean and shining front on Victoria Day.

The secretary was also instructed to write the Fire Warden at Vernon, asking permission to burn the refuse as gathered. Arrangements were made to have the fire brigade in readiness in case a wind should spring up.

A general discussion followed on the evident necessity of having some permanent provision made for the disposal of garbage, etc., as while a clean-up had been made a year ago, its results were not now in evidence.

A resolution was passed that the Medical Health Officer approach the Council with a recommendation that the Municipality place reposi-

tories at frequent and convenient points throughout the town, where the citizens could deposit cans, garbage, etc., and that the municipal team empty these receptacles at suitable times. Also embodied in the resolution was the suggestion that the Council pass a by-law prohibiting citizens from depositing garbage elsewhere than in the receptacles so provided.

It was also felt that a summer Arbor Day should be appointed somewhat earlier in the season than this, when the citizens might individually beautify their lots by the planting of ornamental trees, shrubs, etc.

Judging from the spirit of the meeting, the making and keeping of Summerland the Garden of Eden it should be, is likely to be soon accomplished.

BRITISH EMPIRE PROBLEMS.

Mr. Balfour, speaking on the Unionist programme, before the Junior Imperial and Constitutional League, in the Prince's Hall, Lambeth Baths, London, on April 6th., said in part:

I remember a good many years ago Mr. Gladstone telling me that the problems that would have to be solved by my generation were far more intricate and difficult than those that had to be solved by the generation of which he was one of the most distinguished representatives. Mr. Gladstone, I suppose, was about forty years older than myself. I suppose that the same difference of years separates me from the great bulk of those I now delight to address. I say to you what Mr. Gladstone said to me: I say to you that the problems which your generation will have to solve are more difficult even than the problems that have fallen

for solution to the generation of which I am a member. There are difficulties of engaging honorably and peacefully the relations between the great Western populations and great eastern populations, now, for the first time, armed with all that western knowledge and western science can give them.

That is a new problem, and it is a problem—I am not talking of Japan at this moment—which as regards great Oriental nations is a growing difficulty, and of which no man can see the complete issue. There is the problem of bringing together the various parts of the British Empire, either by some of the methods that have already been suggested, or by measures yet to be contrived, which never really came before our forefathers as a practical problem at all. They were content, and naturally content, at the moment with seeing that these infant states were properly governed, had a constitution as soon as they were fit for a constitution—in other words, they dealt with them, as they ought to have dealt with them in those days, as a mother deals with an infant. They are now our equals, or are approaching being our equals, in wealth and population. Some day, if Canada is allowed to pursue unchecked her great career, she will be as populous and as wealthy—more populous and more wealthy than the Mother Country, a great, in some ways the greatest, unit perhaps in the composite whole of the British Empire. That is a problem with which our fathers and grandfathers never had to deal. It is a problem you will have to deal with and will have to consider."

What The People Want.

An anti-Home Rule amendment to the Lords' Veto Bill was defeated in the British House of Commons on April 25, after a spirited debate, by a vote of 284 to 190. During the discussion Mr. Asquith said that the Cabinet was convinced that the electors had returned them to power with the full knowledge that they would give Ireland a measure of Home Rule.

HON. RICHARD McBRIDE AT OTTAWA.

A great Conservative banquet was held at Ottawa last Friday evening, when Hon. R. L. Borden invited his followers to meet Hon. Richard McBride, Hon. W. J. Bowser, Hon. J. D. Hazen, premier of New Brunswick, and Hon. R. Rogers, Commissioner of Public Works for Manitoba.

In a speech full of fight Mr. Borden referred to the reciprocity proposal as "the the most mischevious and damnable ever submitted to a legislative body." He declared the Conservatives would resist resolutely and firmly this measure to the very end, and hinted that the time might come in the near future when the Conservative party would call upon the leaders of the party in provincial politics east and west to join in the federal fight.

Mr. McBride was given a magnificent reception when he arose to speak. He declared that the guiding principle of the Conservative party was country first, and if the eventuality came about, some of the men now administering provincial affairs might be impelled to respond to the nation's call. The significance of this utterance could not be misunderstood, and evoked stentorian cheering.

Mr. Borden said in part: "Canada today is confronted with the greatest issue which this country has witnessed since 1867. I will not weary you discussing the question, but ask you to remember that in 1902 and again in 1907, the government of this country at the Imperial Conference at London pledged itself to a policy of preferential trade between the United Kingdom and the Great Dominions of the Empire, and affirmed by resolution that such a policy would stimulate mutual commercial relations and strengthen the Empire. Consider the proposed agreement with the United States, to which the government claims to have pledged the honor of the country, and tell me whether it does not absolutely destroy any prospect of consummating that policy of reciprocity within the empire. If there is any doubt upon this question let the answer be given by a very great statesman, the President of the United States. The man who holds that office has probably greater power than the ruler of any civilized country in the world. He combines in himself powers which under our constitu-

tion are vested in the crown and in the Prime Minister. The high position and remarkable ability and foresight of President Taft require us to give the most profound attention to his view of the effect of our government's action.

"On January 2 last, in his message to Congress, he emphasized the statement that Canada was at the parting of the ways. As Mr. Foster has well asked, 'What are the ways to which the President alludes?' One of the paths is that closer relation with the great Empire whose flag floats over us and the other is the patch which leads to closer and closer relations with the United States by means of a trade agreement from which that country excludes the rest of the empire. But President Taft has been still more definite in a later utterance. Speaking in New York on April 27 he observed, in referring to Canada, 'The bond uniting the Dominion with the mother country is light and almost imperceptible.' The concluding paragraph of the same speech is, however, of the most pregnant importance and demands the most serious consideration from every Canadian who stands for the unity of Canada and the integrity of the Empire. Listen to the words of the President of the United States. 'I have said that this was a critical time in the solution of the question of reciprocity. It is critical because unless it is decided favorably now it is exceedingly probable that no such opportunity will ever again come to the United States. The forces which are at work in England and Canada to separate her by a Chinese wall from the United States and to make her part of an imperial commercial band reaching from England round the world and back to England again by a system of preferential tariffs, will derive an impetus from the rejection of this treaty, and if we would have reciprocity with all the advantages that I have described, and that I sincerely and earnestly believe will follow its adoption, we must take it now or give it up for ever.'

"Let me say that one great principle and policy should ever be in mind. The West and East of Canada must not be separated by any apparent divergance of interest, or by any unfortunate divergance of sentiment. Let us alter but one word in a well known line and say 'Oh! east is east and west is west, and never the twain shall part.' Let us not fail to recognize that henceforth the West of Canada must

have more and more influence and a greater voice in Parliament and in the Cabinet than has heretofore been the case. Strong as is the Conservative party in the House of Commons at the present time, it must call to its councils other strong men from the west, and require them at no distant day to enter the Federal arena. These men, knowing thoroughly the aspirations and needs of Western Canada, will give adequate expression to its views in Parliament, and assure its full influence in future Conservative governments."

WHITE & CO.,

SUMMERLAND, B.C.

Naramata Notes:

Mr. Morland and Dr. Lipsett, of Summerland, spent the week-end in Naramata.

Mrs. Dodd, and son, recent arrivals from Lilydale N.Y. are likely to become permanent residents.

Mrs. Morland and children were guests of Mrs. Wellband for a few days this week.

Mr. John Niblock is still confined to his room on account of illness.

Mr. Cam. Robinson and sister Marguerite are expected back from Toronto prior to May 24th.

Mr. and Mrs. R. H. King were given a pleasant surprise one evening last week when the young folks of town to the number of about twenty took possession of the house and spent three or four hours in a very enjoyable way, dancing the light fantastic. Mrs. Boothe performed the duties of chaperone in a very satisfactory manner.

Mr. F. J. Young, manager of Mr. Niblock's ranch, has gone in to the dairybusiness in earnest and is meeting with good success.

Mr. J. M. Robinson with a party of friends from Summerland and Naramata made a trip to Peachland on Tuesday in his recently enlarged launch.

The youngest child of Mr. and Mrs. H. Mulford is reported to be ill with pneumonia. Dr. Andrew who was hastily summoned on Monday evening prescribed the "open air" treatment. The case is being watched with interest.

Mrs. Morsch, our enterprising business woman, has decided much to the delight of the citizens, to serve ice cream, cake, etc., every Saturday evening during the summer.

Mr. Fred Sindeband, late of the firm of Bishop & Co., New York, has arrived in town to accept a position as accountant for Messrs. Niblock & Endacott.

A car-load of pipe for use on the Trust Company's extensive additions to their irrigation system has been received from the Pacific Coast Pipe Company.

Mr. Frank Dodd has accepted a position as clerk in the former hotel which will in future be known as the "Lakeside Hotel." A billiard table will be run in connection.

EAT APPLES!

By P. Devlin, Penticton, B.C., in "Better Fruit."

Come, take heed to Doctor Fills, Eat apples!

Throw away your dopey pills, Eat apples!

If in chops you must invest, Though your stomach wants a rest, Do that which you know is best, Eat apples!

If you're feeling rather blue, Eat apples!

When barleycorn has proved untrue, Eat apples!

Then you'll soon recuperate, And dodge a most unwelcome fate, You know it never is too late, if you Eat apples!

When you go to meet your Eve, Eat apples!

If she says that you're her Steve, Eat apples!

She will breathe the fragrant odor Of sweet Pippins in October, And at least she'll know you're sober, Eat apples!

Epitaph.

Here lies the good old Doctor Fills, Well he prescribed for all our ills; Here's hoping that he'll get full mention At the roll call of the last convention.

Kettle Valley Railway.

The Penticton Council has been successful in having a clause inserted in its agreement with the Kettle Valley Railway which specifies that grading work will be begun there by the first week in July. The railway company has also pledged itself to fulfil the condition of the irrigation agreement relating to property purchased from the municipality. Mr. F. Billings, of Vernon, solicitor for the Kettle Valley Railway, is the authority for the statement that 400 men will be employed in railway construction out of Penticton this summer. President Warren will occupy his new house in Penticton on his return from Toronto.—Province.

Emigrants to the number of seventeen hundred left Glasgow for Canada on the 29th ult.

MUNICIPAL CLAUSES ACT.

No doubt the Municipal Clauses Act was conceived in the spirit of the greatest good to the greatest number, and with the object of making it impossible for graft to creep in. But there seems to be a weak spot. It is that section which makes it unlawful for any person holding office of Reeve or Alderman to have any business transaction with the municipality. If a reeve or alderman is a merchant and sells a pound of nails to the city, or a paper of pins, or a bottle of ink, he must resign the office at once.

The purpose of this clause is apparent. It precludes the possibility of graft. At the same time it works a hardship on many of our small towns and cities. Generally speaking the business men in the small towns are the best material available to handle the business of the corporation. They are usually public spirited men and earnest in their efforts to develop the town and keep its business on a safe, sound basis. But they are forced to keep their hands off of city business. If they permit themselves to be elected to office, they must be prepared to sacrifice their business with the city and turn down orders for material and labor and supplies. They may devote many hours of their time each week in the consideration of Corporation business, and give gratis the personal attention which, if paid for at its real value, would cost the city many hundreds of dollars annually; yet, if while acting in the capacity of a public officer, they sell to the city a paper of tacks or a pad of paper, the law makes them subject to a heavy penalty and compels them to resign.

As a result of this clause in the Act, many cities are deprived of the services of their best men, and municipal business is poorly handled.

It seems that there should be some saner method of handling this phase of our public affairs. On the face of it the law offers an insult to every business man. It presupposes that every business man is a grafter and because he is in business he must be dishonest. There might be something in the argument that it is impossible to draw the line, and that if business men were permitted to sit on the Municipal Councils some of them might graft on the city, still we believe that for that for every ten cents that might be lost through graft of this type, many cities are now losing dollars through not having business men on their corporation councils.

PROTECTION versus FREE TRADE.

Terence wrote: "So many men, so many minds. Every man in his own way." And as we study the question of reciprocity these words are brought forcibly to the mind.

When Abraham Lincoln said, "I do not know much about the tariff, but I do know this much: Where we buy goods abroad, we get the goods and the foreigner gets the money; when we buy goods made at home, we get both the goods and the money." No better definition of protection was ever given, and it is this protection that Canada must persist in if the Dominion is to continue to prosper.

Mr. Peter Cooper is credited with this remark: "No goods purchased abroad are cheap that take the place of our own labor and our own raw material." And it is this thought that should be at the bottom of every movement looking towards a restricted trade policy with the United States, whether in the form of the present reciprocity agreement, or any other agreement in which our trade relations are concerned.

It seems to us that the trade policy of the United States would be a safe policy for Canada to adopt. The American policy, which has been applied to Canada as well as to all the world, has been to sell all that it possibly could of the products of its soil and its mills and its workshops, and to buy just as little as it could from other countries. By adhering to this policy the United States has turned the balance of trade in its own favor.

or. Last year it amounted to \$600,000,000 against the whole world, and \$71,000,000 against Canada. That this is a good thing for the United States no one will attempt to deny. And that it will continue to be her policy as long as the rest of the world will permit her to do it, is but reasonable to suppose.

NEWS FROM THE EAST.

(From Our Own Correspondent).

Montreal, May 10.—The Board of Control, or the Galveston plan of commission form of government for cities, as it is called in the United States where it originated, is a failure in so far as Montreal is concerned according to a band of ex-aldermen, would-be contractors, ward-healers and others who have formed themselves into an organization whose aim is to recapture the City Hall for the old form of aldermanic patronage and plunder carried on so successfully until last year under the old system of civic government of aldermanic committees. The Commissioners have held the reins of office for slightly over a year now. Anyone who takes the trouble to compare in ever so casual a manner, the results which have been achieved in that short time in the way of civic improvement, with the results that were promised but which were never forthcoming during the many years of the old aldermanic sway, will agree that the new system, instead of being a failure as claimed, has been a great success. There have been shortcomings, of course, but all round it may be said that never before has the city's money and energy been put to better use than during the last twelve months. When the Board of Control was elected the number of aldermen was cut down from two to one for each ward. This left a few gentlemen at home who had had a taste of political life, and hankered for more. Up to the present they have been kept quiet, but now, it appears, they are getting together and intend to make a concerted effort to obtain control of the municipal purse strings once more. "Disbelieve it, if you wish," remarked an informant, but it is a fact. The proposition is to issue a petition which the people will be asked to sign praying for a referendum on the question. The argument is that the Board of Control is not giving satisfactory results, and they contend that a referendum would put the Board out of existence.

"Behind this movement are a

number of the members of the old aldermanic regime and certain contractors who complain that the controllers are not giving them a fair show.

"This petition is actually in preparation. Unless the plans of the promoters miscarry, however, the petition will be launched on the public in the near future with a beating of drums and the sound of trumpets. Watch for developments."

Is the Canadian child "forward"? Members of the Commission of English educational experts who are visiting Canada in the interests of education, answer the question with an emphatic negative.

"That is to say," said one of the Commissioners, "the children are not 'forward' in the sense of the word which is generally interpreted as rudeness. On the contrary, they are bright, and show an absolute absence of self-consciousness which is really delightful. It indicates an individuality and an alertness which will make them good, bright, self-reliant citizens of the future. It also speaks well for the system of instruction given in the schools, and is a testimonial of the careful work of the teacher, whose salary is not commensurate with the efforts that both he and she must have made in order to obtain such results." The Commission, which is composed of leading British educationalists, is making a tour of the Dominion with a view to reporting on the school system in this country.

General compulsory vaccination has been ordered by the Provincial Board of Health of the Province of Quebec. This will mean not only vaccination for those who have never been vaccinated, but also re-vaccination for those who have not been vaccinated for the last seven years. This stringent step has been adopted in view of the discovery that cases of small pox had been reported in more than twenty counties. Moreover, the attention of the Board has been called to the fact that as lumbermen returned from the bush inspectors found many cases of small pox. Dr. E. Pelletier, secretary of the Provincial Board of Health, declares that it is time to stamp out the contagion before it has become too general. "We are surrounded by smallpox," said he. Ontario is infested and the neighboring States are also on the verge of an epidemic. We have discovered lately that hundreds of cases have been

shielded, even by physicians, sometimes through ignorance, and sometimes quite deliberately. This is the explanation of the numerous outbreaks reported from over twenty counties of the province.

Eighteen hours out of the twenty-four should be the limit for any man, in any class of work, not only on account of muscular exertion and failing strength but also because of failing brain power, the man losing his capacity to appreciate his surroundings and to direct his operations. Such is the substance of the opinion of Dr. Francois de Martigny, chief surgeon of the Hotel Dieu, in the case of Dame L. Laverdure against the Canadian Northern claiming \$8,000 for the death of her husband. Brouillette was killed in a fall at about ten o'clock in the morning after having been at work since seven o'clock of the previous morning, having suspended work only for meal hours, and having worked through the day and night. The contention of the plaintiff was that the company had no right to allow men to work during such long hours. Dr. De Martigny was called by the plaintiff's counsel to state what was the limit of a man's endurance, and placed the limit at eighteen hours of continual muscle or brain work, reasonable time being allowed for meals.

Pointing to The Weak Spot.

The coming Imperial Conference in London, which has been much discussed in Parliament and the press of Britain during the past few weeks, reveal, it is thought by some important personages, an unsuspected weak spot in the constitutional theory of the British Empire, namely, the increasing desire of the colonies to have their own foreign policy, irrespective of the Mother Country. The empire's attitude toward Japan undoubtedly is the subject of the gravest discussion. The Government promises to reveal all Cabinet secrets to the colonial premiers 'under absolute secrecy.' One writer in the 'Times' says that Canada may use her navy to support a policy which England does not want, and that Australia may be threatening Japan when England and Japan are engaged in delicate negotiations about a Japanese alliance. Australia, by the advice of the English Admiral sent for the purpose, proposes to build a fleet of fifty-two vessels at a cost of £88,000,000.

NOTICE.

Public Notice is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation has been approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at \$10 and \$5 per acre respectively.

This regulation further provides that the prices fixed therein shall apply to all lands with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occurred in the consideration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provision of sections 34 or 36 of the "Land Act" and who are not willing to complete such purchases under the prices fixed by the aforesaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications. WILLIAM R. ROSS, Minister of Lands.

Department of Lands,
Victoria, B.C., April 3rd, 1911.

DEPARTMENT OF WORKS.

Notice To Contractors.

Black Mountain School.

SEALED TENDERS superscribed "Tender for Black Mountain School," will be received by the Hon. the Minister of Public Works up to noon of Wednesday, the 31st day of May, 1911, for the erection and completion of a large one-room school building at Black Mountain, in the Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 6th day of May, 1911, at the offices of S. Sproule, Esq., Secretary to the School Board, Rulland, B. C.; the Government Agent at Vernon; and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of \$150, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

H. E. GRIFFITH,
Public Works Engineer,
Public Works Department,
Victoria, B. C.,
2nd. May, 1911. 12-5-3

FAMOUS PEOPLE
BY FANNIE M. LOTHROP

RUDYARD KIPLING

The Greatest Living English Author

A small man, tanned and bronzed to a clear light mahogany, squarely built, with broad shoulders, keen blue eyes, heavy straight eyebrows, a thick dark mustache and square resolute jaw dressed in clothes that shout defiance to fashion plates—this is Rudyard Kipling. Alive, alert, aggressive and intense, quick in movement, a bit cynical and quizzical, he at first suggests one thoroughly self-satisfied; one who is his own court of appeals.

At Bombay, the most cosmopolitan city of Asia, Kipling was born in Christmas week of 1865. His father was an Englishman, a professor of architectural sculpture in a Bombay college, and when Rudyard was six he was shipped back to England to be educated. At thirteen he entered the United Service College at Westward Ho, under the direction of old Indian officers. The atmosphere was military and Indian and was doubtless a potent factor in coloring the mind of the boy, who acquired more by unconscious absorption than by direct study. It is true that he carried off the prizes in English literature in a matter-of-fact kind of a way, as if it were his assigned share of the plunder; but otherwise revealed no symptoms of genius.

At seventeen he went to India to work on the "Civil and Military Gazette" at Lahore, where his talent began to be recognized in a half patronizing way by the editor-in-chief. Strange, however, the "Plain Tales from the Hills," which gave him his first European success, and his "Departmental Ditties" were accepted under protest, to humor the boy, rather than for any merit the editors discovered.

A man of supreme individuality, he has the splendid courage of his convictions. He dared to lash England into a fight when the Boer war seemed to him imperative; he scourged the country he loved for her treatment of her soldiers; he inspired those soldiers by his stirring, tingling lines and martial stanzas, while Alfred Austin, the Laureate, was writing pink-lemonade verses guaranteed to offend no one. Then came his magnificent "Recessional"—a new classic added to our literature.

Kipling is the apostle of the strenuous; he loves color and paints it with love; he is thrilled by struggle, by power, by conquest. He shows man with the primal instincts and passions, nature unvarnished. He is often blunt to brutality, fearless to the point of frenzy, but always sincere, and always best when he lets the Oriental in his nature keep him close to the India he has revealed to the world as no other English writer has ever done.

Entered according to Act of the Parliament of Canada, in the year 1904, by W. G. Mack, at the Department of Agriculture.

Messrs. G. A. McWilliams, A. H. Steven, D. H. Watson and H. Bristow have goneto Vernon being summoned there as jurymen.

The College baseball team, after their success on Thursday, have de-

decided to hunt scalps further afield. They are arranging a series of games with towns on their way home to the coast, and leaving Summerland on the morning of the 24th, expect to play games with Tent House and Frame Kitchen, Vernon, Kamloops, and with Col-umbian College, New Westminster.

Rev. F. W. Hardy went to Vancouver on Tuesday to attend Conference. He is expected to return Thursday next. His and Mr. Hood's congregations will unite for the Sunday services.

Apply to G. A. McWilliams. 9-5-1

Pioneer Of Methodism Passes Away.

The death of Rev. Dr. Ebenezer Robson, the father of Methodism in British Columbia, and the former pastor of many B. C. congregations, took place at his home in Vancouver, on the 4th inst.

Dr. Robson was in his 77th year, and he came to this province by way of Cape Horn in 1859 beginning his career as a missionary to the Argonauts at Hill's Bar in the Fraser Valley.

He was one of the greatest men that Ontario has given to the West, and no one occupied a higher position in the regard of the people. The funeral took place from the Mount Pleasant Methodist Church at 2.30 on Tuesday the 9th inst.

There is a probability that a procession of aeroplanes may be one of the features of the Coronation celebrations.

Prairie fires have been burning on the Canadian Northern line from Dauphin to Prince Albert, a distance of 100 miles.

A special train, carrying nothing but newspapers, leaves Toronto at 2.45 every morning for Western Ontario points. In railroad circles the train is known as the "Intelligence Limited."

Local News Items.

Mr. T. J. Smith was taken seriously ill early this week and was forced to return to hospital. It is believed that the strain of the Vancouver Horse Show, where he was successful in taking probably the largest number of awards made to any individual exhibitor, was too much for him. He had not quite recovered from the effects of the severe attack of typhoid fever which laid him low shortly after his return from the Old Country. It is hoped that he will soon be able to get about again.—Exchange.

The Municipal Council will hold a special meeting at West Summerland, on Monday morning next, to pass Water and Light accounts and to take up any other business in order.

Cleaning Up Summerland will be the subject at the Summerland Baptist Church next Sunday evening, at seven o'clock. "There is no place like Home" is the next sermon in the series to young men at the West Summerland Baptist Church on Sunday morning.

The Manitoba Free Press devoted a full column of its front page of the issue of May 6th, to an obituary and photo cut of the late Mr. J. Somerset Aikins, who died suddenly at his home in Winnipeg on Friday last.

Mr. Aikins was one of Western Canada's pioneers, coming west in 1875. He was a son of the late Hon. J. C. Aikins, formerly Lieutenant-Governor of Manitoba. His widow is a daughter of the Hon. C. C. Colby, of Stanstead, Que. Carroll Aikins, of Naramata, is an only son. He left for Winnipeg immediately upon receipt of the message announcing his father's death.

Geo. N. Gartrell's new car is for hire. This car is one of the famous make of 'Case' and is specially built for hard work. She is of the regular touring variety very strong, and fitted with a reliable engine.

A meeting of the Ratepayers' Association is to be held in the School house, West Summerland, on Friday evening, May 19.

The monthly meeting of the Women's Institute will be held on Friday the 19th, inst. in the Parlours of the Men's Club. Subject: Possibilities of a can of salmon and of tomatoes.

BASEBALL.

College Boys Play Double Header with Penticton and Kelowna.

The College baseball nine played some snappy baseball on Thursday afternoon. They played a double header and, won both games—the first from Penticton by the odd run in thirteen, and they then proceeded to give Kelowna an exhibition of run-getting that made the visitors wonder. Half-way through the seventh inning, when the game stopped, the score was about 17-3, with the College boys on the long end.

The game with the men from the south was good baseball. Spectators described it as the best game of the season. It was neck to neck all through to the last, and good fielding on both sides held the runs down until the ninth, when runs began to come rather freely. The visitors began to get a little loose, and with the locals holding together better, the latter won out.

The Kelowna game was more or less a farce. It belonged to the College from the start. They hit often and hard, and took runs just when they pleased. The Kelowna men, on the other hand, could not connect with McDougald at all, and the game quickly began to assume one sided proportions. When the visitors quit, the game promised a record breaking score, though the tally keepers were beginning to lose count.

It is no every day feat in the baseball world to win two consecutive games without any intermission, and the College rejoices at this culmination of their hard practices. For a pitcher to heave the sphere for sixteen innings straight off, and to hold the men at the bat to nine runs, is by no means ordinary baseball.

It is reported that platinum in paying quantities has been found in the Similkameen and Tulameen rivers. The company operating have ceased drilling till the water recedes, when work will be resumed.

The Moyie Leader, which has been published in Moyie, B. C. for the last thirteen years, went out of business on the 28th ult. The paper was started in April, 1898, by F. J. Smyth, and was always one of the best written of the western exchanges, but owing to the depression in the district the publishe has decided to close down.

According to a recent ruling in the eyes of the law, any person who receives from the post office for three months a weekly newspaper is considered a bona-fide subscriber, whether he has paid the fee or not, and is liable for the same. In the case of daily papers the time limit is only one month.

The Review is in receipt of a notice from Mr. John McMillan manager of the new city market at Vancouver. The market will be opened for business on Monday, June 12th by the Market and Industries Committee of the City Council.

Kaleden Comments

Two of the Sponson Canoes out of a total of seven or eight on order, have reached Kaleden from Summerland, namely an eighteen foot quarter decked, installed with a 2 h.p. gasoline engine, owned by Mr. D. D. Lapsley, and a fifteen foot with a movable rowing seat and oars, "The Dilworth," owned by Mr. J. D. Harrison. Mr. Lapsley is building himself a private two armed wharf into which to run his boat.

The following recent arrivals have purchased property here: Mr. J. L. Kerr and brother, of New York, Messrs. J. and A. Murgatroyd, and Mr. Joseph Pickard, all of Leeds, England, and Messrs. R. Ravenscroft and A. Kay, of Bolton, England, and very shortly the wives of some of our new residents will follow them. We regret that owing to the death of his mother in England, Mr. Jack Crook, one of our bright promising stalwarts who had intended sending for his wife and family this summer, has been recalled to the Old Country, and had to leave us suddenly this week.

Lord de Vescie and companion, and Mrs. Jas. Ritchie were among this week's visitors who motored over from Summerland.

Staking and planting are giving way to irrigation, which work will be vigorously carried on during the coming week. Road-builing under the direction of M. W. P. Simpson is also steadily progressing.

A daily mail service on the Lower Okanagan Lake, between the head of the lake, Kaleden and the Falls, will commence on Monday May the 8th., in the capable hands of the Southern Okanagan Transportation Company. Messrs. A. S. Hatfield and Fraser Campbell have taken over the launch "Kaleden," scows, etc., and with all the necessary equipment have formed the above company.

On Saturday, April 29, invitation was given to the bachelors of Kaleden in particular, by the ladies, to an "At Home" in the School House. The boys did not need to be asked twice, they were all there, and the girls too, strange to say. A highly enjoyable time was spent, a most interestingly varied programme having been prepared for the public delectation, in surroundings gaily decorated and festooned with flowers. Rev.

F. W. Avauche and son drove over for the occasion and entered heartily into all the fun. Music, songs, readings, guessing contests, archery, refreshments, the results and the general satisfaction made all the workers feel it had been well worth the time, trouble and expense to entertain upwards of seventy people. Encore, and best thanks to our lady friends. On Friday evening, May 5th., the Findlays entertained several young men, a kind general invitation having been issued to all such in Kaleden. Those who were able to accept, expressed keen satisfaction the next day for the pleasure experienced and the kindness shown.

Mr. McGraw has been building extensively on his property here, preparatory to the arrival of his family from Scotland.

We are glad to have Mrs. A. S. Hatfield with us again, better in health, after a short stay in Summerland where she retreated for a complete rest.

Seeking Adventure.

Two young lads looking for adventure and excitement were identified here late last week and anxious relations were informed as to their movements. They had both walked from Westbank to Summerland and were on board the S.S. Okanagan bound south before being noticed by those on the look-out for them.

It is stated that a lad, Broughman by name, who has relatives in Washington State, had persuaded another, the son of Mr. Hewlett, of Westbank, to cut loose from the home ties and try his luck in the south. They succeeded in getting away, but were soon missed, and telephone messages were sent out to have the adventurous youths intercepted. It was not until they had reached Summerland and had slipped in among the crowd at the C. P. R. pier and boarded the steamer that they were "spotted." But yet they were free as the boat was just pulling out.

However, Mr. R. H. English, who was directing the search here, immediately telephoned Penticton to the police constable, and also put the anxious parents in communication with the same official, who was instructed to hold the boys and return them to their home on the morning northward trip of the Okanagan.

Penticton Councilmen Resign.

Only four Councilmen were present last Saturday evening when Mr. Tily rose to read the minutes of the previous meeting, and shortly, there were but three, as Councillor Kinney had but taken his seat in order that he might explain his position to his colleagues and to the public.

Mr. Tily read the resignations of Councillors Weeks, Lachore and Kinney all of whom had found it incumbent upon them to resign in accordance with the terms of the Municipal Clauses Act which stipulates that no one connected with the Council must enter into any contract therewith.

"These resignations are all necessary?" asked Reeve Foley-Bennett of Municipal Solicitor Gahan.

"It is laid down in the act that any persons having contract with the municipality is disqualified from holding office," replied Mr. Gahan.

"In justice to myself and the general public I shall explain my position," declared Retiring Councillor Kinney. "Last winter, when there was a great deal of work to be done, I allowed my team to be leased to another man who did municipal work."—Penticton Herald.

Local News Items

Mr. J. M. Robinson's remodelled launch "Naramata" certainly looked very trim and graceful as she made her trial spin on the lake last Tuesday. She left Naramata with Mr. and Mrs. J. M. Robinson, and Mr. J. S. Gillespie on board, and shortly afterwards called at Summerland, where she was boarded by Mr. and Mrs. W. J. Robinson, Mrs. M. M. Robinson, Mrs. Collins, Mrs. Dodd and son Frank, and Miss C. McDougall. From Summerland a trip was made to Peachland, which was, of course, much enjoyed by all. Mrs. G. Gray, who had been spending a couple of days at Peachland on her return from the coast, returned with the party. As the "Naramata" appeared on this occasion she was quite a different boat from when she was pulled out last year having been very materially lengthened. Mr. N. Alexander, late engineer of the "Maude Moore" has charge of the boat's motor.

During this last week a couple of hoboes struck town during different days—or may be the same one if different guise. They were turned down when they asked for alms, but were offered food at many a home—the better way to deal with this professional type of individual. F. H. Neve is having a substantial stone foundation built under his cottage, as well as having some other pleasing extensions and improvements made.

Mrs. James Gartrell, of Trout Creek, is at present visiting her daughter, Mrs. Lloyd Jones at Kelowna.

Mrs. J. S. Campbell and child with her sister, Miss McBride, of Glasgow, Scotland, arrived in Summerland on Monday.

Harry Reynolds has sold his motor boat to Mr. H. J. Collas, of the Bank at West Summerland, and has purchased Mr. M. D. Manchester's Viper model. He has had a new motor put in, and hopes to have a speedy boat.

The concert advertised for Tuesday evening last was withdrawn. The artistes, Mr. J. K. Chorlton and party, had come from Penticton in the hopes that there would at least be a drawing room crowd, but this was not the case. There were seven present and three of these were strangers to the town. The party played one selection and then gave the money back to those who had turned out.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(PRONOUNCED HIGH-O-ME)

CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

Vol. 3, No. 41

SUMMERLAND, B.C. MAY 20, 1911

VICTORIA, B. C.

Whole No. 145

MUNICIPAL COUNCIL MEET.

The Municipal Council met in extra session on Monday, the full Board being present.

A report from the Municipal Health Officer was read. This referred to the sanitary conditions of the C. P. R. grounds, and carried certain suggestions pertaining thereto. The Clerk was instructed to take the matter up with the C.P.R. officials with a view to having sanitary matters made good and certain conveniences arranged.

An application from J. W. Harris for a position as weed destroyer was also read and placed on the table.

A letter from the law firm of Billings and Cochrane to the Council was read, advising the board to take no action re Mr. T. Collinge's claim for damages because of his injuries received by contact with a telephone post. The letter did not state that Mr. Collinge's claim was a hopeless one, but rather that there were so many things to consider pro and con, that the outcome if put in court would be doubtful.

The legal advisors thought it would be well to let the matter go to court and thus establish a precedent.

A deputation from the Trout Creek district waited upon the Council to ascertain what action had been taken, if any, towards supplying the bottom lands with water. They were given encouraging attention and were promised a new system at the earliest possible date. In the meantime a dam to supply the present system, and as a part of the new service, will soon be commenced.

By-law number 33, fixing the taxes for this year passed its final reading. A full copy of this by-law is published elsewhere in this issue.

A motion was passed instructing the Municipal Collector to proceed to sell all lands on which taxes have been delinquent since December 31, 1909; said sale to take place at the Municipal Offices at West Summerland on the 9th day of July, at 10 o'clock a.m., unless the said taxes are paid with all costs prior to the said date.

The finance Committee recommended payment of the following accounts:

S. Lowry	\$2.00
H. Collas	4.75
W. Watts	4.00
G. Brimble	6.25
R. Mitchell	6.00

F. H. Latimer	276.25
J. A. Darke	107.90
Canadian Pipe Co.	9353.60
Pay Roll	1144.54
Total	\$11608.58

After considerable discussion it was decided best to have a foreman to take charge of construction work and a motion was passed officially appointing J. J. Mitchell as such, at a salary of one hundred and fifty dollars per month. He is to have charge of both road and water system construction work.

By-law No. 33, as finally passed by the Council, is as follows: There shall be levied on all lands on the Assessment Roll for the year 1911 of the Municipality of Summerland: A rate of 6 mills on the \$ for municipal purposes; two mills on the \$ for debenture purposes; two mills on the \$ for school purposes.

All persons paying the annual rate of tax assessed on land, except the debenture rates, prior to the first day of September, 1911, shall

be entitled to a discount of one-sixth of the amount due.

All taxes paid on or after the first day of September, 1911, shall be payable at par until the first day of January, 1912, and all taxes unpaid on the first day of January, 1912, shall bear interest at the rate of eight per cent. per annum.

Typical English Immigrants.

The Vancouver Province tells of the arrival in that city of a type of the English families now seeking homes in British Columbia. It is the class of emigration that the country most needs.

Accompanied by eight of their nine sons Mr. and Mrs. Fred Smith of Bristol, England, reached Vancouver in search of a new home for the family in British Columbia. The coming of the Smith contingent was heralded in the coast papers some days ago, despatches from Montreal stating that they had arrived there and were determined to try their fortunes on the Pacific coast. The eight boys, all healthy, range in age from five to twenty, and in size like the steps of a stair case. The eldest of the nine sons, a young married architect, is still in England but will come to join his father and mother within a short time.

The head of the house is a contractor, and proposes to enter that business here. The eldest of the eight boys he has brought along with him has learned the carpentering trade, while the next two were clerks in the Old Country, and will probably seek similar positions here. The rest of the lads are rather too young yet for responsible positions, but Mr. Smith says that he hopes to make good Canadians out of them by the time they reached manhood.

From the cheerfulness with which they greeted Vancouver this morning the indications are that the ten more Smiths now here will do more than make a mere numerical addition to the population. They seemed to be filled with a determination to "make good" in the new land.

T. J. Garnett, has bought the lot north of his present property and is breaking it ready for development.

Burn Them Out.

Though spraying with arsenates early in the season is a preventive of the tent worm, the next best thing is to destroy both the caterpillars and their nests with fire, just as soon as they appear. A bunch of straw, or a rag saturated with kerosene, and attached to the end of a pole, will destroy them if it does not burn out before the task is completed; but it must be prepared anew each time.

The advantage of a kerosene torch is that it is always ready for use and needs but to have the match applied. This often means that the time to burn out the tenets can be spared when they are first noticed, as no time need be spent in preparation. A common tin torch will answer, but the three burner torch made for this purpose will do the work more quickly, and once purchased will last a lifetime.

Burlap in the Garden.

Be careful when watering seeds in flats says a writer in the Garden Magazine. Although I used a sprinkler with a very fine rose, I found that I washed to the edges the seeds in several flats of foxgloves, leaving the centre bare, while at the edges the plants were too thick. After that I escaped further trouble by soaking burlap in water and laying it on flats. After the seedlings are up the danger of washing them out is small.

Burlap, by the way, is one of the handiest gardening "tools" I use it to shade flats of seedlings, placing it over sticks, a couple of feet long, nailed to each corner of the box, shade transplanted plants with it, and in the fall protect the best of the dahlias from the frost. With the present prices of lumber, it is more economical to use over seed beds than the orthodox lath screen, and appears to give just as good results.

Major Hutton has recently presented the Hospital with a cabinet wardrobe. Judging from the good things said about the Major by the Hospital staff, they certainly appreciate his thoughtfulness in sending them such a useful and acceptable gift.

Naramata Notes

COLLEGE CLOSING.

Mrs. Moreland and children returned home to Summerland on Wednesday after a week's visit in town the guests of Mrs. Wellband.

In the absence of our pastor, Rev. G. O. Fallis, who is attending the Methodist Conference at the coast, Mr. Bartlett conducted the service on Sunday last. A song service was held in the evening at the home of Mrs. Niblock.

Mr. Carrol Aikins returned on Thursday from Winnipeg where he was so recently summoned to attend the funeral of his father, the late J. S. Aikins.

The dance given in the Opera House under the auspices of the Band was well attended by the local followers of this popular amusement. The music furnished was of a high order, and kept the merry crowd on the floor during repeated encores.

Mr. Gillespie, who is at present laid up as a result of injuries received through a fall from his horse last Monday afternoon, is not nearly so badly hurt as his friends at first thought, and no doubt will be able to be about in another week or so.

Mrs. Goodman, from Summerland, was across to Naramata on Wednesday, the guest of Mrs. R. H. King.

The torrent of water at present rushing down the local creek seems more voluminous than usual, and the lake is beginning to show quite an appreciable rise.

The recent showers of rain have greatly stimulated vegetation both down town and on the benches.

Mr. J. B. Woods, the barber of Summerland, has decided to spend Friday night of each week in Naramata attending to the wants of his Naramata patrons. His shop will likely be in one of the old office rooms.

The exodus from Scotland and the Old Country generally is remarkable. The census just taken shews that the young men are ever leaving their homeland. When the cars pass the head of the docks at Glasgow, the conductors now call out, "Change here for Canada." There has been a much larger exodus of fishermen from the west of Scotland this year than ever known before. They have all come to Canada, and are of that sturdy Scotch breed that "gets there" every time.

The exercises in connection with the closing of the year's work at Okanagan College will be held during the coming week. On Sunday, the 21st., Rev. J. B. Warnicker, pastor of the First Baptist Church, Victoria, will preach to the College students and assembled friends. The service will be held in the College gymnasium at 10.30 in the morning. All are cordially invited to attend. In the evening Mr. Warnicker will preach at the opening of the new church building at the front.

Monday evening the teachers and students of the Music Department will give a recital in the Gymnasium. A good program has been prepared and a pleasant evening may be expected. The proceeds of the concert will be applied to the further equipment of the Music Department.

Tuesday morning at ten, the Board of Governors of the College will meet in the chapel in Ritchie Hall to consider the work of the past year and to formulate plans for the new year.

Tuesday evening at eight the formal closing exercises of the College will be held in the Gymnasium. Rev. Mr. Warnicker will give an address on some theme appropriate to the occasion. Diplomas will be awarded and several musical selections will be furnished. The friends generally are heartily invited to be present and participate in the enjoyment and profit of the evening.

The following are among the hotel registrations for the week:

- Mrs. J. H. Davies, W. J. Beel, J. Muir, John Tove, A. Rowley, F. H. Wolfe, A. Tabb, B. Harrison, wife and children, J. D. Caverhill, D. W. Hutchinson, J. Brown, L. S. Davies, Mr. Stanford, G. E. Cooper and C. S. Cartwright, all of Vancouver; J. M. Robb, Calgary; E. Shaw, Westbank; J. K. Chorlton, B. Shaw, Penticton; A. Low, Cranbrook; C. A. Washburn, A. Rose, Revelstoke; R. Hill, Tormarkable; G. W. Carr, Vernon; C. B. Gordon, wife and children, Monleaving their homeland. When the treat; G. B. Phillips, Calgary; M. McSwein, Nelson; Penticton Baseball Team; W. F. Palmer, Kamloops; Kelowna Baseball Team; A. McDougal, Penticton; R. T. Hazelwood, Kelowna; H. D. Russell, H. M. Blake, Penticton; W. R. Rouke, Vernon; W. Cookson, Penticton; Hamilton Lang, Vernon; F. V. Moffat, Enderby; Baron de Thoren, England; H. Garraway, Vernon; P.

Smith, Kamloops; J. Gordon, Victoria; J. H. Smith, Revelstoke; C. R. Brown, New Glasgow, N.S.; W. Henry, Kelowna; R. McMaster, D. Ritchie, L. H. Campbell, W. W. Burch, A. L. Patrick, R. W. Biggar, S. G. McClelland; all of Vancouver; S. F. Covert, Calgary; F. H. Latimer, Penticton; Jack Lawler, Vancouver; Ed. Brady, Victoria; J. S. McDonald, Edmonton; J. S. Joslin, Virden, Man.; G. W. Morfitt and wife, Calgary.

Victoria Day will be full of interest and attraction for the local sportsmen. In fact, the attractions are of such quality as should bring in many spectators from other valley points. What with the ball game in the morning, horse racing in the afternoon, athletic sports in between, and the band concert and minstrel show for the evening, the day will be well filled.

Making Rain When It Is Dry.

Irrigation we are told was practiced extensively in ancient times in Egypt, Assyria, Persia, China, Japan and India. It was employed by the Moors in Spain and by the Romans in Italy, and the Spanish conquerors found great irrigation systems in existence in South America.

An irrigation system consists essentially of a network of canals and ditches which traverse the arid district and are supplied by pumps or by dams and reservoirs. The water either seeps through the walls of the ditches or is caused to overflow the land by damming the ditches. Irrigating systems are constructed for large districts, and also for single farms and fields. In the latter case pipes are often substituted for ditches, and the pipes are sometimes connected with sprinkling apparatus by which the water is distributed over the land in the form of artificial rain. These devices are not very largely employed owing to their great cost of construction and operation; their rapid deterioration under rough usage, and other defects.

A new device, which has been giving good results in Germany is described in a recent issue of "Prometheus," from which the following account is taken: The water is drawn from any convenient pond, stream or spring, and is pumped to the field through a portable system of pipes laid on the surface of the ground. The power may be obtained from a traction engine with which every large farm should be provided. The sections of the water mains are connected by very simple and easily operated clamps, without screws, and at the mains is provided, at intervals of 66 feet, or four rods, with cut-off valves which can be connected to the sprinkling apparatus by short lengths of flexible hose. The main is adapted to the inequalities of the ground by the insertion of elbows wherever they are required. The artificial rain is produced by rotary sprinklers, resembling those commonly used on land, and turned by the reaction of the water. The sprinkler has two opposite arms, each of which is five meters (16 feet, or one rod) long, and is perforated with a number of lateral orifices, while the terminal orifice projects a stream, radially to a distance of one rod farther, and a second terminal nozzle, which delivers a still more powerful stream, is automatically brought into operation

four times in each revolution. The result is that the sprinkler waters an area four rods square. The sprinkler is connected to the middle of a horizontal pipe four rods long, which is mounted on a single wheel, the whole constituting a sprinkling carriage or unit of the great irrigation system. Similar carriages having pipes four rods long, without sprinklers, are used for connections.

A large field may be conveniently watered with the aid of four sprinkling carriages and two pipe carriages. A sprinkling carriage is connected by short flexible hose to a valve of the main, and a second sprinkling carriage is similarly connected to the first one. To the side of the main (the east side, for example) is attached a chain of two pipe carriages, and two sprinkling carriages. When the plots covered by the sprinklers have been sufficiently watered, the six carriages are disconnected from the valve and drawn forward four rods to the next valve, by means of light cables and winches. By repeating these operations until the end of the main is reached, two strips of land, each eight rods wide are watered. The main forms the eastern boundary of one water strip and is separated from the other by a dry strip eight rods wide, over which the nonsprinkling pipe carriages have travelled. All of the carriages are then placed on light wheeled trucks and moved eight rods westward, retaining their relative positions. This manoeuvre shifts the eastern pair of sprinkling carriages to the dry strip just east of the main, the non-sprinkling carriages to the watered strip west of the main, and the western pair of sprinkling carriages to the next eight rod strip of the field. The sprinkling is then resumed and the line of carriages is drawn back, which can be connected to the end of the field from which they started. The whole series of operations results in watering a belt 32 rods, or 52 feet, wide, and as long as the main, which occupies the median line of the watered belt. The main is then taken apart and shifted 32 rods westward, and the series of operations is repeated. A system of parallel and conveniently spaced stationary pipes may sometimes be preferable to one perforated with a number of lateral orifices, while the terminal orifice projects a stream, radially to a distance of one rod farther, and a second terminal nozzle, which delivers a still more powerful stream, is automatically brought into operation

If You Wish First-Class Groceries & Provisions

O. VAUGHAN

Blacksmiths, Jobbers, Band

feet in diameter, they do little damage to crops. The tracks made by the wheels occupy only about one per cent. of the total surface. This system of irrigating by means of artificial rain is not very expensive. An apparatus capable of delivering 700 gallons per minute, and including pipe sufficient, when laid permanently, to supply sixty acres, costs less than \$4,000. The area served can be trebled or quadrupled by frequently shifting the pipes. With a flow of 700 gallons per minute about 19 acres can be supplied with water equivalent to a rainfall of two-fifths of an inch in a working day of ten hours. In general, it may be estimated that an artificial rainfall of two-fifths of an inch costs about 50 cents an acre. The experiments already made shows that this expense, which includes an allowance for amortization, is small in comparison with the increase in yield, which may exceed one hundred per cent., even in seasons which are not exceedingly dry. The advantage derived from artificial rain in very dry years can scarcely be estimated.

NEWS FROM THE EAST.

(From Our Own Correspondent).

Montreal, May 17.—A significant notice of an important resolution was allowed to slip by without comment a few days ago when the Postmaster General announced at Ottawa that employees of the postal service were to be re-classified. Briefly Mr. Lemieux proposes to rearrange the service in such a way that mail will be on the move almost every moment from the time it is posted to the time that it is delivered. The waste seconds, minutes and even hours when a letter is at rest, either in the corner post box awaiting collection, in a sack in the post office waiting to be sorted out, or in a pigeon hole awaiting delivery, will be reduced to a minimum. According to Mr. Lemieux's statement several classes of postal employees are to be abolished, and an increase of pay is to be granted to the others. In Montreal it is noticed that the uniformed force, the men who walk the city with the pouches and bags full of mail on their backs, is to be decreased. Until the reason was discovered there was considerable objection on the part of citizens. Now it appears, the Government has in hand plans calling for the installation of the tube system of letter delivery and collection. Drop a note into your tube in your office, and presto, it is whisked off to the post office where it is sorted immediately with others of its kind and shot into another tube which whisks it off to the sub-post office nearest the address on the envelope. If it is for the out of town mail, of course, it waits for the fast-growing obsolete train service.

news to an old comrade of Fitzgerald's, in Montreal, and there had been an exchange of two letters between this point and Athabasca Landing; before the Commissioner of the Force at Regina had received a telegram from Dawson on the subject. This is not the first time, by any means, that the rapidity with which news travelling by snowshoe and dog train has surprised civilization.

Fashionable women who have delayed ordering their spring and summer supply of the puffs, rats and other mysterious paraphernalia with which woman's natural supply of hair is augmented, face an embarrassing state of affairs. The reason for this is the strike of the workers engaged in the making of switches, transformations, and similar aids to the hairdresser's art. These employees demand an advance in wages and claim that at the rates they are now paid, they are not even able to equip themselves with a fair supply of the artificial curls which they turn out in such numbers for their more fortunate sisters. As this city is the Canadian centre of the artificial hair market the dearth in the supply of women's most widely used aids to nature is likely to cause general distress unless the indignation of the feminine public puts an early end to the present contest. Impracticable persons of the male sex have suggested that the present difficulty might be met by using last season's styles, but the horror with which this proposal was received is convincing evidence that if there is anything more useless than a last year's bird nest, it must be last year's rats and curls.

DEATH.

KIRK.—In London, Ont., on Wednesday 3rd inst., Rebecca Durand, widow of the late J.G. Kirk, of Stratford, Ont., in her 80th year.

A drunken man was seen on the street early in the week. To the credit of Summerland it can be truly said that, like the past cool weather, it is quite exceptional.

Mr. M. C. Skillicorn is building on his newly acquired lot adjoining Mr. Fenner's, and expects his wife and child this week from the Isle of Man.

J. A. Evans is building a bungalow on his lot south of Ed. Garnett's and been there for some time.

W. C. Kelly has bought a parcel of land from Wm. Manuel and proposes putting up a cottage thereon this summer.

For Fresh Groceries and Provisions

NEWS FROM THE EAST.

(From Our Own Correspondent).

Montreal, May 17.—A significant notice of an important resolution was allowed to slip by without comment a few days ago when the Postmaster General announced at Ottawa that employees of the postal service were to be re-classified. Briefly Mr. Lemieux proposes to rearrange the service in such a way that mail will be on the move almost every moment from the time it is posted to the time that it is delivered. The waste seconds, minutes and even hours when a letter is at rest, either in the corner post box awaiting collection, in a sack in the post office waiting to be sorted out, or in a pigeon hole awaiting delivery, will be reduced to a minimum. According to Mr. Lemieux's statement several classes of postal employees are to be abolished, and an increase of pay is to be granted to the others. In Montreal it is noticed that the uniformed force, the men who walk the city with the pouches and bags full of mail on their backs, is to be decreased. Until the reason was discovered there was considerable objection on the part of citizens. Now it appears, the Government has in hand plans calling for the installation of the tube system of letter delivery and collection. Drop a note into your tube in your office, and presto, it is whisked off to the post office where it is sorted immediately with others of its kind and shot into another tube which whisks it off to the sub post office nearest the address on the envelope. If it is for the out of town mail, of course, it waits for the fast growing obsolete train service.

The regular mail and telegraph service was badly beaten in heralding the sad news of the death of Inspector Fitzgerald of the Royal North West Mounted Police, and his three companions, all of whom were frozen to death on the Dawson-Fort McPherson trail. Well over a month before the official despatch announcing the fate of these gallant officers was sent out from Regina, Pearson, a constable stationed at Athabasca Landing, ninety miles north of Edmonton, had heard from the Indians that "Fitz" was dead. The Peel River Indians had told the Fort Good Hope Indians; they had told the Dog Ribs; the Dog Ribs had told the Slaveys; the Slaveys had told the Crees, and so the story had gone—nearly two thousand miles, from well within the Arctic Circle to civilization. Pearson wrote the

news to an old comrade of Fitzgerald's, in Montreal, and there had been an exchange of two letters between this point and Athabasca Landing, before the Commissioner of the Force at Regina had received a telegram from Dawson on the subject. This is not the first time, by any means, that the rapidity with which news travelling by snowshoe and dog train has surprised civilization.

Fashionable women who have delayed ordering their spring and summer supply of the puffs, rats and other mysterious paraphernalia with which woman's natural supply of hair is augmented, face an embarrassing state of affairs. The reason for this is the strike of the workers engaged in the making of switches, transformations, and similar aids to the hairdresser's art. These employees demand an advance in wages and claim that at the rates they are now paid, they are not even able to equip themselves with a fair supply of the artificial curls which they turn out in such numbers for their more fortunate sisters. As this city is the Canadian centre of the artificial hair market the dearth in the supply of women's most widely used aids to nature is likely to cause general distress unless the indignation of the feminine public puts an early end to the present contest. Impracticable persons of the male sex have suggested that the present difficulty might be met by using last season's styles, but the horror with which this proposal was received is convincing evidence that if there is anything more useless than a last year's bird nest, it must be last year's rats and curls.

NOTICE.

Public Notice is hereby given that, under the authority contained in section 131 of the 'Land Act,' a regulation has been approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands, at \$10 and \$5 per acre respectively. This regulation further provides that the prices fixed therein shall apply to all lands, with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occurred in the consideration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provision of sections 34 or 36 of the 'Land Act' and who are not willing to complete such purchases under the prices fixed by the aforesaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications.

WILLIAM R. ROSS, Minister of Lands, Department of Lands, Victoria, B. C., April 3rd, 1911.

DEPARTMENT OF WORKS

Notice To Contractors.

Black Mountain School.

SEALED TENDERS superscribed "Tender for Black Mountain School," will be received by the Hon. the Minister of Public Works up to noon of Wednesday, the 31st day of May, 1911, for the erection and completion of a large one-room school building at Black Mountain, in the Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 6th day of May, 1911, at the offices of S. Sproule, Esq., Secretary to the School Board, Rulland, B. C.; the Government Agent at Vernon; and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of \$150, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished. The lowest or any tender not necessarily accepted.

H. E. GRIFFITH, Public Works Engineer, Public Works Department, Victoria, B. C.

Dog Days in Montreal

Dog days are early this year. To those who do not understand the slang of the financial district, it may be explained that the dog days are the days when business is slack and trading is at a standstill. They occur periodically at no set time, but are usually most frequent in July and August. The term is believed to have originated years ago in New York amongst the brokers on the Stock Exchange. Just behind the great money market in that city there used to be a man who kept a dog market. When business was poor the financiers used to while away the time buying, trading and talking dogs. Montreal brokers need a dog market badly, sometimes, and seldom as badly as these days. The only novel occurrence which has taken place on or about the Montreal Stock Exchange for weeks has been the listing of the securities of the Sawyer-Massey Company, Limited, Canada's largest manufacturers of farming implements. When stocks are newly listed they invariably attract a certain amount of attention, and not infrequently lead the mar-

ket in activity for the time being. Seventy-five years ago the present huge concern was a village blacksmith shop. Like Topsey, it "just grewed" with the rest of the country to its present huge dimensions. Until a year or so ago it was practically a closed corporation, but in 1910, through a re-arrangement which brought the present company into being, an opportunity was afforded for general participation in the enterprise. The head-quarters of the Company are at Hamilton, Ontario, where the manufacturing site covers about fifteen acres. As the present factories and warehouses only cover an area of about five acres, ample room is afforded for extensions when necessary, although the present factories are capable of producing more than they are at present putting out. In the twenty years following 1889 the total sales had increased from less than \$100,000 to nearly \$1,000,000, and in that time had paid out in dividends \$425,000.

AT CRESCENT BEACH

Country Against City.

Country and city are arrayed against one another on the question of reciprocity with Canada. Farmers from Minnesota denounce it as iniquitous, while deputations from cities along the international boundary endorse it unqualifiedly.

Henry M. Flagg, master of the Minnesota grange told the Senate Finance Committee that nothing since the civil war had so inflamed the farmers of the northwest as the proposed "iniquitous reciprocity bill." P. V. Collins, editor of a farm paper in the northwest, presented a protest signed by 35,000 farmers of the northwest, 30,000 of whom reside in Minnesota. Mr. Collins declared that support of reciprocity was due largely to misinformation.

Senator Stone subjected Mr. Collins to a sharp examination. The senator led the witness to repeat that the farmers were in opposition. "Yes, they are more than that; they are vehement and bitter," asserted Mr. Collins.

Mr. Stone then read from a paper that in response to an appeal for funds to send a delegation to Wash-

ington, there had been contributed \$389. The sum of \$98, he read, has been paid to collect the amount and \$111 of the total had been contributed by bankers, \$97 by creamery men, \$14 by elevator men and \$15 by fire insurance men.

Mr. Collins explained that these men were also farmers. "I presume from this showing that there is also enthusiasm, vehemence, unanimity and bitterness on their part," said Mr. Stone.

CORDY versus STEVEN.

A law suit of local interest is soon to be tried at a court to be held at Penticton. A certain piece of land had been put on the lists of a local real estate agent for sale. As is customary in such cases permission to cut the standing timber was given to A. H. Steven, he to pay the regular rates. As the story is told on the street the parcel of land was sold in the meantime, and unknown to the real estate man. Mr. C. H. Cordy was made local attorney for the new owner. The purchaser declared that his property had been damaged to the extent of some \$400 and Mr. Cordy claimed that amount from Mr. Steven. The latter claims to have made the purchase of the timber in good faith, and is not disposed to admit a fault by paying up the additional amount, while Mr. Cordy, as the owner's agent, must press for what his client claims as his price for the timber removed. It seems to be one of those cases which occasionally develop in which business men inadvertently get involved.

:Peachland Notes:

Mr. H. Hardy is suffering from an attack of lumbago.

Mr. Robert Michael was quite seriously ill on Sunday but, we understand, is now recovering.

Rev. C. W. Whyte conducted song service in the Methodist Church on Sunday evening.

Messrs. Needham, Urquhart, Douglas, and C. G. Elliott returned from Vernon on Saturday.

A special meeting of the Council was held Monday evening to open the tenders for the debentures. Several offers were received, but that of Brent, Noxon & Co., of Toronto, for 98.275, the money to be delivered without expense to the municipality, and accrued interest allowed, was the best, and was accepted. The only other business transacted was the official appointment of Mr. Jas. Kay as pound-keeper.

Mr. and Mrs. John Wright are rejoicing over the arrival of a fine pair of boys.

Miss Olive Ferguson went to Kelowna on Tuesday to get specialist treatment for her injured knee. She is remaining in the Hospital for a few days.

The Summerland Band has decided to give the general public an opportunity of witnessing one of the finest entertainments ever presented in Summerland, and when the band starts anything they do it right. This theatrical treat will consist of a big minstrel and dramatic entertainment in which the local stars will shine with exceptional brilliance. The minstrel part of the program will be a regular up-to-date minstrel show with all of the catchy songs of the season together with the funny end men jokes, Band selections, musical specialties, and vocal quartettes. The second part of the program will be a splendid dramatic sketch, "Faithful James," presented by the Summerland Amateur Dramatic Society. Special scenery and equipment is being prepared, and nothing will be lacking to make this performance first class in every respect. General admission, 50 cents. Reserved seats 75 cents. Complete programs will be distributed on May 24th and seats can be reserved at the Summerland Drug Co. New Opera House, May 24.

CORDY versus STEVEN.

A law suit of local interest is soon to be tried at a court to be held at Penticton. A certain piece of land had been put on the lists of a local real estate agent for sale. As is customary in such cases permission to cut the standing timber was given to A. H. Steven, he to pay the regular rates. As the story is told on the street the parcel of land was sold in the meantime, and unknown to the real estate man. Mr. C. H. Cordy was made local attorney for the new owner. The purchaser declared that his property had been damaged to the extent of some \$400 and Mr. Cordy claimed that amount from Mr. Steven. The latter claims to have made the purchase of the timber in good faith, and is not disposed to admit a fault by paying up the additional amount, while Mr. Cordy, as the owner's agent, must press for what his client claims as his price for the timber removed. It seems to be one of those cases which occasionally develop in which business men inadvertently get involved.

GOOD TIME COME

SUMMERLAND DIRECTORY

- MUNICIPAL COUNCIL—Reeve, Jas Ritchie, Clerk, J. L. Logie.
- BOARD OF TRADE—Pres., R. H. Agur, Sec., C. Stackhouse.
- SCHOOL BOARD—Chairman, G. A. McWilliams, Sec., J. L. Logie.
- JUSTICES OF THE PEACE—R. H. Agur, R. H. English and J. M. Robinson.
- CORONER AND HEALTH INSPECTOR—Dr. C. M. Smith.
- FARMERS' INSTITUTE—Pres., C. J. Thomson, Sec., I. B. Fulton.
- SUMMERLAND HOSPITAL—Hon. Sec., J. M. Sutherland, to whom all communications should be addressed. The fees are as follows:
 - Ordinary cases \$2.00 per day
 - Maternity cases not confined to bed: \$2
 - Maternity cases confined to bed: \$3
 - Cases requiring night nursing: \$2.50
 - Surgical Operations, major, extra: \$5.00
 - Surgical Operations, minor, extra: \$2.50
- CHIEF OF FIRE BRIGADE—D. H. Watson.
- POST OFFICE.—General Delivery 8-30 a.m. to 6-0 p.m. Money and nothing will be lacking to make this performance first class in every respect. General admission, to 10 p. m.—Week-days only, 50 cents. Reserved seats 75 cents. Complete programs will be distributed on May 24th and seats can be reserved at the Summerland Drug Co. New Opera House, May 24, Mon. Wed. & Friday 4-30 p. m.

: Peachland Notes :

Mr. H. Hardy is suffering from an attack of lumbago.

Mr. Robert Michael was quite seriously ill on Sunday but, we understand, is now recovering.

Rev. C. W. Whyte conducted song service in the Methodist Church on Sunday evening.

Messrs. Needham, Urquhart, Douglas, and C. G. Elliott returned from Vernon on Saturday.

A special meeting of the Council was held Monday evening to open the tenders for the debentures. Several offers were received, but that of Brent, Noxon & Co., of Toronto, for 98.275, the money to be delivered without expense to the municipality, and accrued interest allowed, was the best, and was accepted. The only other business transacted was the official appointment of Mr. Jas. Kay as pound-keeper.

Mr. and Mrs. John Wright are rejoicing over the arrival of a fine pair of boys.

Miss Olive Ferguson went to Kelowna on Tuesday to get specialist treatment for her injured knee. She is remaining in the Hospital for a few days.

The Summerland Band has decided to give the general public an opportunity of witnessing one of the finest entertainments ever presented in Summerland, and when the band starts anything they do it right. This theatrical treat will consist of a big minstrel and dramatic entertainment in which the local stars will shine with exceptional brilliance. The minstrel part of the program will be a regular up-to-date minstrel show with all of the catchy songs of the season together with the funny end men jokes, Band selections, musical specialties, and vocal quartettes. The second part of the program will be a splendid dramatic sketch, "Faithful James," presented by the Summerland Amateur Dramatic Society. The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 3, No. 42

SUMMERLAND, B.C., MAY 27, 1911

Whole No. 146

New Church Formally Opened.

The new Summerland Baptist church was formally opened on Sunday evening last. The Presbyterian and Methodist services had been withdrawn and the attendance at the new church was a large and representative one. The building was taxed to its fullest capacity.

The Pastor, Rev. F. W. Pattison, presided on the platform, and with him was Rev. H. G. Estabrook, Rev. A. G. Campbell, both former pastors, also Rev. Jas. Hood, of the Presbyterian Church, Rev. Dr. Hardy, of the Methodist Church, Dr. Sawyer, principal of the College, and Rev. J. B. Warnicker, pastor of the First Baptist Church, Victoria, the preacher for the evening. All on the platform assisted in the service.

There was a large choir which provided excellent music. The solo, "O Rest in the Lord," by Miss Anna Hayes was beautifully sung, and the selection by the College Quartette was also worthy of special mention.

There were general remarks of satisfaction heard among the dispersing crowd both as to the service and the pleasing architecture of the exterior of the neat little church and the convenience of its interior arrangements.

Mr. W. Estabrook Called Hence.

Mr. Willard Estabrook, who has been resident in Peach Orchard, Summerland, for the past five years, passed quietly away on Friday morning, the 26th inst., at the age of 82. The funeral will take place to-day, (Saturday), at 4:30 p.m. The sympathy of the entire community is extended to Mrs. Estabrook and family.

The Summerland Band desires to thank all those assisted in making their entertainment on Wednesday evening last such a huge success, and also those who so heartily supported the band by coming and filling the hall to overflowing. This recognition of their services is heartily appreciated, and gives them a bigger incentive than ever to keep Summerland band to the fore.

The Overseas Club.

(contributed). A general meeting of the Overseas Club was held in the Schoolhouse, West Summerland, on the 23rd inst.

The members present agreed to pay the sum of five dollars a year toward the erection of a Club Room if suitable premises are provided. I shall be glad if any member desirous of subscribing to this fund will kindly communicate with me, or with those authorised to receive subscriptions.

It gives me great pleasure to inform all members that the total membership of the Club up to May 6th, is 35,953, branches forming 1,797. The goal which the Overseas Club set before itself of obtaining 50,000 recruits by the end of June would seem to be by no means unattainable. The geographical distribution of the first 30,000 members of the Club, is that Canada heads the list with 9,000 members, followed by South Africa with 7,700. The membership elsewhere

is as follows: Asia, 3,600; Africa, (other than the Union of South Africa), 1,700; Europe, 600; Australia, 1,900; South America, 1,200; New Zealand 1,400; United States, 1,700; West Indies, 900.

I strongly emphasize that any subject of King George the Fifth, so long as he sincerely approves of the ideals and objects of the Club, is most heartily welcomed.

The London Daily Mail issues an Overseas Edition, which has thousands of subscribers throughout the world. This small, concise and interesting weekly gives the principal news and happenings of interest to its overseas readers and has brought British subjects separated by land and sea in closer touch with each other. If anyone wishes to obtain this Overseas Edition of the Daily Mail, if they will give me their names, I will gladly order it to be sent them. The subscription is \$1.25 per annum.

The Club membership for Summerland is 120.

Chas. A. Marshall,
Secretary and Treasurer.

FOUND at Naramata; a small row boat evidently washed away from its moorings during the recent storm.

It is reported that a New York syndicate has just purchased a block of coal land in northern British Columbia, comprising four hundred square miles. The purchase price is nearly a million dollars. This area has been exhaustively tested with diamond drills, and these are said to prove the presence of coal in immense quantities, some seams running over 20 feet in thickness.

Naramata, the beautiful little town at the foot of Okanagan Lake, has a fine new hostelry. It is a frame structure of two storeys with thirty-five rooms and hot and cold water as well as bath for each room. The Summerland Trust Company, of which J. M. Robinson is the head, erected the hotel, and it is one of the finest in the district.—The New Empire.

It is announced that the Associated Portland Cement Manufacturers of London, England, have secured two sites for the manufacture of cement in British Columbia, one inland and one on tidewater, and that the company will commence constructive operations within a few weeks. The cost of the works, it is stated, will run over a million dollars and the plants will have a capacity of seven thousand barrels per day.

The prosperity of a country depends not on the abundance of its revenues, nor on the strength of its fortifications, nor on the beauty of its public buildings; but it consists in the number of its cultivated citizens, its men of education, enlightenment, and character. Here is to be found its true interest, its chief strength, its real power.—Martin Luther.

A patron of a certain newspaper once asked, "Mr. Printer, how is it that you never call on me to pay for your paper?" "Oh," replied the man of types, "we never ask a gentleman for money." "Indeed," the patron said in surprise, "how do you manage to get along when he does not pay?" "Why," returned the clicker of cold lead, "after a certain time we conclude he is not a gentleman and ask him."

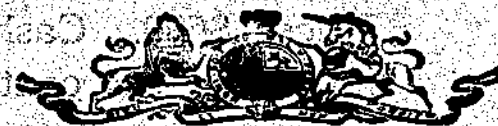

When your competitor is convinced that you are spending too much money for advertising in this paper you are on the right road.

Weather permitting, the band will occupy the stand, opposite the Hotel this evening for the first time, this year. Saturday at 8.15 sharp.

The Presbyterian service will be held as usual at St. Andrew's Church, West Summerland, at 10.30, Sunday School at 11.30. Service in the evening at Methodist Church, at 7 p.m.

The Methodists resume their regular services next Sunday. The morning service will be held in their own church, and the evening service in St. Andrew's Church, West Summerland.

The Review regrets that owing to lack of space it is unable to publish accounts of the College Closing Exercises, and of Empire Day celebrations, in this issue. Some of the matter published this week might have been held over had we had the time to re-arrange, but this has been a short week in our composing room.

NOTICE.

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation was approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at \$10 and \$5 per acre respectively. This regulation further provided that the prices fixed therein should apply to all lands with respect to which the applications to purchase were given favorable consideration after the date of such regulation, namely April 3rd., 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor in Council on the 10th. of May, 1911, that the regulation dated the 3rd. of April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd., 1911, and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd., 1911.

ROBT. A. RENWICK,
Deputy Minister of Lands,
Department of Lands,
Victoria, B.C., 16th of May, 1911.

Montreal's long established and picturesque May First moving-day is fast disappearing, and as a result van owners and expressmen are much perturbed. For many years it has been almost impossible to secure for this day any sort of a vehicle in which goods and chattels could be removed unless engaged far in advance. By common consent the whole city moved just as regularly as the first of May arrived. Of late years, however, this form of unrest has been steadily on the decrease, and this year, so far as the appearance on the streets of wagon-loads of furniture, went, was almost entirely lacking. Two causes contribute to this state of affairs, according to the sorrowing moving men. In the first place it is becoming a very general custom to date leases from October 1st instead of May 1st, while the general increase of prosperity among the poorer quarters reduced the evictions which usually take place on this day by many thousands.

PUBLIC SERVICE ACT.

The qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places commencing on Monday the 3rd July next:

Armstrong, Chilliwack, Cumberland, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, North Vancouver, Peachland, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of twenty-one and thirty, if for Third-class Clerks, and between sixteen and twenty-one, if for Junior Clerks or Stenographers. Applications will not be accepted if received after than the 15th June next.

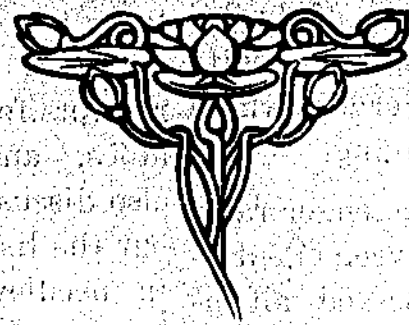

Further information, together with application forms, may be obtained from the undersigned.

What Becomes Of The Money?

It takes a chain of five middlemen to market the products of the American fruit raisers. Possibly they are not all essential, but they each have a hand—and fairly large hands they seem to be—in the absorption of the profits. Consequently there is nothing surprising in the fact that four out of every five cents the people of America pay for their apples or peaches or their plums go into the pockets of men whose only knowledge of fruit raising is derived from a familiarity with its purely commercial aspects. Nor is it at all likely that any of the five will voluntarily relinquish his connection with the trade so long as there is a dollar to be made out of it. An investigation was set on foot by an inquisitive fruit grower who could not altogether understand how it was that the box of apples for which he was lucky to get 88 cents was sold in the city for an even \$4.00. A short inquiry showed the how if not the why. First came the Fruit Growers' Association, which bought the apples for shipment to New York. Following it, the commission mer-

chant, to whom they were consigned, made his fair profit, and to him succeeded the broker who knew the wholesale market. After the wholesaler had, in turn, done his little part in completing the transaction, all that was left was for the retailer to dispose of them to the ultimate consumer and the transaction was ended. That is what became of \$3.12 cents out of a \$4.00 purchase.—Exchange.

Peachland Notes:

Mr. Shelton of Vancouver Island spent Tuesday in town, looking over some real estate propositions.

Mr. J. White of Spence's Bridge is visiting Mr. Alf. Houston for a couple of weeks.

The lake shoreroad is completed now as far as deep creek and ready for traffic. Mr. Jas. Michael's gang have over two miles done south of deep creek but there is no way of connecting with the upper road the far end it is no use to travellers. It is to be hoped that before the end of the season that they will complete it to some point where connection can be made with the old road.

Nominations were called for on the 18th to fill the vacancy in Ward III, caused by the death of Mr. A. J. C. Clarence. As the ratepayers neglected to nominate a man for the vacancy the council appointed Mr. H. Hardy, at a special meeting held last Monday evening. He accepted the position and took the necessary declaration. The reeve appointed him chairman of the board of works.

As there was no public celebration of Empire Day here, a good many private picnics were enjoyed, while quite a few went to Summerland to enjoy the celebration down there.

Mr. L. D. McCall is busy at the new wharf, and if the weather man will only deal out calm days, so that the pile driver can work, he will soon have it ready for business. When completed it will be one of the finest wharves on the lake. By-laws involving the borrowing of nearly \$50,000 are to soon be voted upon by the ratepayers of Penticton. Four deaths from heat are reported at Chicago. The thermometer stood at 92 degrees at 4 p.m.

A COMPLICATED PROBLEM

Looking into the future a decade or two, it is not a stretch of the imagination to see every foot of arable land in the Okanagan Valley worth from \$500 to \$1,000 per acre, and much of it a great deal more. There are many good reasons for this. In the first place, Okanagan soil, when properly tilled and watered, will produce crops in quality and quantity which will pay a high rate of interest on the above valuation. If net profit were the first and only consideration, this, then, would be enough. But there are other considerations equally valuable if not of greater real weight. The scope of arable land is comparatively small. In a few years every acre will be under cultivation. The demand for Okanagan land is growing steadily; few who have bought are desirous of selling at any price, and, while the demand is increasing and the land which is cultivated is virtually off the market, the supply is fixed and cannot be added to. There are, it is true, other districts in the province which offer inducements to homeseekers, yet these inducements can hardly be as enticing as those of the Okanagan. These districts will take care of the overflow. But the climate, soil and scenic beauty of the Okanagan are beyond compare, and these considerations are really first in the mind of the man who has made his "stake" and is looking for a place to personally plant it and himself. Here he finds work enough in the building of a home or perhaps re-establishing himself in a quiet business, to keep the body healthy and the mind active.

well provided with the essentials of life that they do not have to worry about the net profits of the soil. They are here to make a home where they can pass the sunset days of life in peace and quiet, surrounded by Nature's grandest handiwork. But there are others whose very peace of mind depends upon the net profits from the crop sold. And land selling at \$200, \$500, or \$1,000 an acre, cannot produce a harvest at a profit to the owner unless it is handled right. It must be intensively farmed—every foot of it must be made to produce its best. Intensive agriculture and the production of the highest grade of food is what we should aim at here. And those who have studied the problem know it is not an easy task, even where conditions are most favorable.

The man who has labored under the impression that anyone can farm and in any old way, is still laboring—and will. But the man who knows that successful farming is a science requiring the best in a man to bring out the best in the soil will eventually reach the goal he is seeking and in no place quicker than in the Peach Belt of the Okanagan.

Well farmed sections in Europe may be cited as an example of what intensive farming has done over there, and conditions here, as to soil, water and climate, are much more favorable. Yet these other considerations which must be taken into account. Over there land is dear and labor cheap, while here both land and labor is dear.

The Provincial Government, through the Department of Agriculture, has done and is doing a great work by way of assisting the agriculturist in these matters of ways and means, looking to the fuller development of the lands, so as to get the highest possible good. Looking into the future the government sees the need of thorough organization, and the best possible training of the men engaged in the work, if farming is to show a profit at the high price of land. Hence we have experts in the various branches of agriculture, visiting the various stations at frequent intervals, to get into personal touch with the men engaged in the work, and give them sympathetic direction in their work. This has been the aim of the government. But it has not hit the mark. Only here and there communities have responded to the efforts put forth. In most cases the lecturers are listened to by only

a few and then rather disinterestedly. The Farmers' Institute meetings are therefore not doing the work they should. Other provinces have been confronted with the same conditions. The general apathy of the average farmer is proverbial when it comes to listening to talks on farming, however good they may be. If he can be shown, by a practical demonstration on his own land he is prepared to take heed.

The Department of Agriculture of Ontario came to this conclusion some time ago. In 1907, the government started work in six counties. A Department of Agriculture is alright to direct the general work; an Agricultural College at some convenient place as an institution of training for the teachers who are to do the work is a necessity, and experimental farms are needed for carrying out certain lines of work and for getting results that will be of practical use. "But, after many years of experience," says the deputy minister of agriculture of that province, "we found that these were limited in their usefulness; they alone would never regenerate the great mass of the farmers—they would help those who wanted to be helped, who were seeking help and who would get help because they appreciated the value of such assistance, but the great majority of the farmers would be moved by none of these things. The Department of Education also wished to inaugurate some plan of agricultural instruction in rural schools. Through the united efforts of these two departments, we finally decided on the plan of locating graduates of the Agricultural College in various counties as teachers of agriculture and leaders in agricultural improvement. In other words, we established branch offices of our department and moved the Agricultural College nearer to the farmer's home. We made it possible for our representative to go into the farmer's field, his chard, his dairy, and, what gave him greatest confidence, right into his home. Further, he was a resident, not a transient, and as soon as the formalities of becoming acquainted were over, he won the farmer's confidence by his sincerity and his ability to help. We proposed to erect and now have fifteen counties equipped with its greatly increased earning capacity and with only a small proportionate increase in the maintenance expenses the new institution would not be any greater expense to the public than at present.

about as much for the office—but there is no expenditure of public money that produces greater results."

ANNUAL HOSPITAL MEETING.

The annual meeting of the Summerland Hospital Society was held on Monday, May 22, in the Council Chamber, Summerland, with President W. J. Robinson in the chair. Not a very large number of men were present, but the Ladies' Auxiliary was fairly well represented.

After the passing of the minutes of the last Annual meeting, the Treasurer's report was read and adopted. A vote of thanks was tendered the treasurer, Mr. E. B. May, for his thorough, detailed report of the Society's financial condition.

The Articles of Association require that two members of the Board retire each year. This year the terms of office of Major Hutton and Mr. Jas. Ritchie expired. The vacancies were filled by the unanimous election of Major Hutton and G. J. Coulter White, each for a term of three years. Mr. Ritchie had stated that he could not act this year owing to his many duties. Mr. Robson sent in his resignation to the President of the Board, which was accepted at the President's request in Mr. Robson's best interests. After some persuasion, Mr. Ritchie consented to act on the Board as Municipal Reeve, with the understanding that his position would be taken by his successor on the Council, thus making the Reeve a permanent member of the Hospital Board.

Due to the probable necessity of even more frequent Board Meetings during the coming year than in the past, and the difficulty that has been experienced in getting a quorum, the president suggested that the number necessary to constitute a working quorum be reduced. After some discussion it was voted that three members of the Board duly constitute such quorum.

Mr. Robinson gave a verbal report of the new hospital proposition as matters at present stand. He shewed clearly the great need of such an institution as the Society and his ability to help. We proposed to erect and how that now have fifteen counties equipped with its greatly increased earning capacity and with only a small proportionate increase in the maintenance expenses the new institution would not be any greater expense to the public than at present.

The president was questioned as to the expenses of furnishing the proposed building, and if the rate-payers were likely to be called upon to pay the cost. Mr. Robinson stated that he had already received offers from different individuals interested in the work, and each to fully furnish a ward, and he had no doubt, that, judging from the offers already received that there would be enough people able and willing to help, and to fully furnish the various wards.

Mr. G. J. Coulter White called the attention of the meeting to the valuable and liberal offer of the Summerland Development Company in giving the Board a free hand to select from their various properties sufficient and suitable grounds for the new building site, and, upon his motion, thanks were voted them for the valuable property offered the Society. In putting the motion, the president stated that the Board had selected what was no doubt the Company's most valuable land, the site chosen being worth at least \$3,000,000.

After the discussion of several minor matters, the meeting adjourned.

After the general public meeting, the Board held a session to elect officers for the ensuing year.

The following were all re-elected:
 W. J. Robinson, President.
 R. Clouston, Vice President.
 Jas. Sutherland, Secretary.
 E. B. May, Treasurer.

NOTICE.

Public Notice is hereby given that, under the authority contained in section 131 of the 'Land Act,' a regulation has been approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at \$10 and \$5 per acre respectively. This regulation further provides that the prices fixed therein shall apply to all lands with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occurred in the consideration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provision of sections 34 or 36 of the 'Land Act' and who are not willing to complete such purchases under the prices fixed by the aforesaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications.

WILLIAM R. ROSS,
 Minister of Lands,
 Department of Lands,
 Victoria, B.C., April 3rd, 1911.

DEPARTMENT OF WORKS.
 Notice To Contractors.

Black Mountain School.

SEALED TENDERS superscribed "Tender for Black Mountain School," will be received by the Hon. the Minister of Public Works up to noon of Wednesday, the 31st day of May, 1911, for the erection and completion of a large one-room school building at Black Mountain, in the Okanagan Electoral District.

Plans, specifications, contract, and forms of tender, may be seen on and after the 6th day of May, 1911, at the offices of S. Sproule, Esq., Secretary to the School Board, Rulland, B.C.; the Government Agent at Vernon; and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of \$150, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.
 H. E. GRIFFITH,
 Public Works Engineer,
 Public Works Department,
 Victoria, B. C.,
 2nd. May, 1911.

All the above Goods for two weeks at 10 p.c. Discount for Cash.

WHITE & CO.,

SUMMERLAND, B.C.

NEWS FROM THE EAST.

(From Our Own Correspondent).

Montreal, May 23.—By the end of the coming summer there will be at least one hundred and seventy new towns in Canada, not counting those which come into existence gradually and in the natural course of evolution. The one hundred and seventy will all be in the West—the great, the glorious West. Not for them the hum-drum processes of conventional development; they will spring, full-panoplied, into being, with hotels, court-houses, jails and all the modern conveniences, on paper, and a small railroad station, a mile or so of siding and unbounded hope and confidence in the future as actual assets. The Canadian Pacific will be responsible for fifty of them, the Grand Trunk Pacific for twenty-four, and the Canadian Northern for ninety-six. It is a fair supposition that all of them will live because of the fostering care of their railroad and that most of them will prosper because the time has come for towns to succeed farms at selected locations on the prairies, and the rail-

roads are in a better position to do the selecting than any other instrumentality except the land companies. Nor will these railroad towns be the only ones to come into being in the West in the next three or four months, but from their number it is possible to draw some kind of an impression of the method and the speed of western development.

Insanity as a defence in murder trials which has become so common of late years, may eventually be eliminated as the result of a novel movement just started here. Figures have been gathered which show that in this city alone there are two thousand feeble-minded children many of whom will inevitably become members of the criminal class. Statistics show that crime and insanity are on the increase and that fully half the criminals are criminals because of mental or nervous conditions obtained during childhood. Accordingly it is proposed now to catch the potential criminals suffering from some mental or nervous disorder while they are young and cure them before it becomes too late. To this end it is planned to estab-

lish here an institution where feeble-minded children shall be examined and registered, since, if the condition is recognized soon enough the child can generally be cured. Under the present system the procedure is to send mentally deficient children to a reformatory from which they are released, in a few months often worse than they were before entering. Under the new plan they will not be released until they are cured. If this proposal does succeed in eliminating the overworked plea of insanity in criminal cases it is not improbable that a long suffering public will be willing to erect a monument to its sponsor.

Fire alarms have been far in excess this year in comparison with the same period of last year. Since the first of January eight hundred and fifty-seven runs were made by the various divisions of the fire brigade, up to the first of May, while during the same period in 1910 the total number was only six hundred and thirtysix. Up to the first of June last year the runs numbered only eight hundred and seven.

About Irrigation

Trees transpire water in the winter the same as they do in the summer, but not to so great an extent, of course, as when the trees are in full leaf and in an active state of growth. The gist of the whole matter is simply this: If the ground becomes dry in the winter the trees will be very apt to be injured by the tops drying out. This is one of the principal causes of the so-called freezing dry, a common occurrence in the northern part of Colorado. As a general thing it may be said that late irrigation is advisable, because the rule will apply to the majority of cases. But it is with irrigation as with most other orchard operations—no set rules can be given; the orchardist must determine these points for himself. If the orchard soil is inclined to hold water, obviously more water will be detrimental. In some cases we have seen, drainage would be a better practice. In other orchards the ground will become very dry, all of which the grower can easily determine, and then he should regulate his practice accordingly.—Better Fruit.

PETITION FOR BY-LAW.

A petition having the necessary number of signatures has been presented to the Council requesting them to prepare and submit to the ratepayers a by-law authorizing the Council to appropriate seven thousand dollars for the new hospital building fund.

As the Review understands it, when such a petition bearing the signatures sufficient to represent fifty per cent. or more of the assessed property of the municipality, is presented, the Council must comply with the request. All citizens will thus have an opportunity of voting on the new hospital proposition. As the assessed value of the property within the municipality totals more than two and one-half million dollars it was no small task for the Hospital Board to secure the necessary number of signatures. The petition presented represents property to the value of about one million three hundred thousand dollars.

A CLEAN SUMMERLAND.

(Held over from last week).

Undertaken—accomplished; thus does Summerland. There were many sore muscles and lame backs after the strenuous task. But it is done and we are all proud of the changed appearance of our municipality. Now let us keep it so. This in so many words is the general expression of all those who so loyally put in a hard day's work for the general good of the community.

Those who were absent during the day, or who busied themselves at home marvelled at the transformation accomplished in a single day and are no doubt grateful to their fellow citizens for the changed appearance and the improved sanitary conditions established.

From early morning to late at night hard and willingly they toiled and while quite a number of the squads were lacking men, hard work by those who did participate, what was undertaken is now accomplished. One very noticeable feature along Shaughnessy Avenue and the lake shore was the large proportion of men from the benches as compared to the number of residents of that section, and much credit is due them for the changed front which Summerland now presents. The showers at noon made the danger of spreading fires much less, but it also rendered much of the material non-inflammable, with the result that it had to be added to the volume of refuse for the teams to remove. Here again, the committee was handicapped as teams enough to carry away the refuse as it was gathered were not available. Captain Phinney reported that he did not fare so badly in this respect as did Captain McWilliams, but says he was very short of men.

The unanimous opinion expressed "the morning after" with the sore muscles as a constant reminder was that the Health Department, Public Works Department, or whatever department such work would come under, should see to it that proper by-laws are enacted and enforced. Many suggest that receptacles for garbage be placed at frequent intervals for the use of citizens, not only on the business streets, but throughout the whole community. Certainly they do not feel like doing the same work over again in a few months, and are hoping the Council will take the necessary action.

RICH RED BLOOD.

You Will Never Have It as Long as You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. The Summerland Drug Co. sells Mi-o-na for 50 cents a large box, and guarantees it to cure or money back.

HYOMEI

(ANNOUNCED HIGH-O-ME)
CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or
money back. Sold and guaranteed by

Summerland Drug Company
