

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 4, No. 14

SUMMERLAND, B.C. NOVEMBER 3, 1911.

Whole No. 169

## Date of Apple Show for 1912.

### Further Grant of \$2000 Received.

#### More Additions to the Prize List.

There gathered at the office of D. H. Watson, on Saturday last, a large and enthusiastic group of members of the Summerland Agricultural Association. The purpose of the meeting was to talk over the recent Show and arrange plans for next season's fair.

Early in the meeting the President, Mr. C. J. Thomson, made the pleasing announcement that the Association was in receipt of a cheque from Hon. Price Ellison, Minister of Finance, for \$2000, this being the amount promised by him in his address at the opening of the new hall. This amount is being applied against the expense of erecting the new hall, and is in addition to the grants previously made by the government.

The Bank of Montreal having asked for a copy of the minutes of the Association, giving the proper officers authority to sign and endorse, a motion was accordingly made authorizing the President and Treasurer to sign cheques and the Treasurer to endorse cheques for deposit.

C. Pineo was duly appointed auditor for the current year.

There was some considerable discussion on the best date on which to hold the Apple Show. Many claiming that it was a little early this year, finding many orchardists very busy gathering their fruit. It was suggested that early in November was a better time, but it was finally decided to hold the next show the last Wednesday and Thursday in October.

A motion was carried instructing the Association representative to suggest to the Provincial Horticultural Association at its next meeting that the Spokane score card for 1911 be adopted for Fairs throughout the Province.

The meeting also made a recommendation to the directors that several of the more important varieties of apples not included in this year's box exhibit be

added to the prize list next season.

There were some complaints of exhibits being brought in and placed after the appointed hour, with result that some of the exhibits which had already been placed were disturbed to make room for the late ones. It was decided that any exhibit arriving later than the hour given would henceforth be refused.

The meeting also recommended that the directors consider the advisability of putting a railing in front of exhibits, particularly the box display. It was thought that this would also be an advantage to the judges in their work after the opening of the doors to the public.

This year the directors did not think it advisable to charge an admission fee, but at Saturday night's meeting it was decided to recommend that an admission fee of 25 cts. be charged, giving free admission to members and their families.

General expression of appreciation of the work performed by Secretary Pollock, and the efficient manner in which he has filled the position of Secretary Treasurer, were made, and it was unanimously voted that he be paid \$100. for his services for 1910 and 1911.

The President read a letter from the Minister of Agriculture, Mr. Wm. E. Scott, in which he thanked the President and Association for their kindness during his stay in Summerland. A motion of thanks was passed and copy of same ordered mailed to each judge by the secretary.

The President reported that a number of ladies had approached him suggesting that a dance be given in the new hall under the auspices of the Agricultural Society. The suggestion met with general approval and a committee of three, Messrs. J. M. Sutherland, J. Tait, and R. C. Lipsett were appointed to arrange details.

#### HANDSOME TROPHY.

The cup won by A. Stuart for the best apples in the two box display has arrived. This is a particularly handsome silver cup mounted on ebony base, presented by Mr. W. H. Mallett of Brandon. Before it becomes the property of the exhibitor it must be won three years in succession. This beautiful cup is now on display in the window of the Summerland Supply Co., and is being greatly admired by citizens generally. There has not in all the interior of British Columbia been such a fine prize given for a two box display. Mr. Mallett, the donor, and who by the way owns a fruit lot in Summerland, certainly deserves the thanks of the Association.

#### KETTLE RIVER VALLEY RAILWAY.

Active construction work is likely to begin at an early date on the K. R. V. R. Large construction camps are now being erected on the benches in the Indian Reserve between Summerland and Penticton. Just what route the railway will take through this Municipality has not yet been announced. The engineers are yet encamped just below Mr. Fyffe's ranch in Peach Valley.

By the aid of the teacher the child of the present is trained into the man of the future.

#### AGRICULTURAL SOCIETY BALL.

The Ball to be given under the auspices of the Summerland Agricultural Society in Ellison Hall will take place on the evening of Thursday, the 9th Instant. Gentleman tickets at \$1.00 will be on sale at once, and it is hoped that the opening of the Hall will be well patronized at this popular price. No charge for ladies will be made, but in return all ladies are invited to contribute or assist in furnishing the supper. Mr. James M. Sutherland, Mr. John Tait, and Mr. C. W. Foabery are the committee appointed by the Directors to carry out the details.

#### GYMNASIUM CLASSES.

Gymnasium classes for boys under 16 years of age will begin on Tuesday afternoon, November 7, at 3.30 o'clock. The fee will be \$4.00 for the season. Classes will be held every Tuesday and Thursday.

Evening classes for young men will be held every Tuesday and Friday from 8 to 10 p.m. The fee will be \$1.50 per month.

Circulation Man.—That Woman who wanted her name kept out of the paper yesterday has stopped her subscription.

Editor.—Why, we kept her name out.

C. M.—That's the answer.

#### WEDDING.

##### BOYLE-LOOMER.

The Lakeside Baptist Church, was handsomely decorated Wednesday afternoon with potted plants, ferns etc. and the aisles and the entrance to the church were carpeted in honor of the wedding which took place at four o'clock. The contracting parties were Miss Florence Gertrude Agnes Boyle and Arthur Gordon Loomer, both natives of Nova Scotia, and the wedding was performed by Rev. F. W. Pattison, using the double ring ceremony.

Miss Edna McLeod presided very pleasingly at the organ playing The Bridal Chorus from Lohengrin while the bridal party entered the church, and during the ceremony, and Mendelssohn's Wedding March as the bride and groom came down the aisle and entered their carriage.

The bride was very becomingly dressed in white satin, with fringe and bridal veil, and carried a bouquet of cosmos and fern.

Mr. George Loomer brother of the groom was groomsmen, and Miss Gertrude Rines, dressed in silk embroidered net, was bridesmaid. The bride was given away by Mr. W. E. Rines.

At the conclusion of the ceremony the bridal party went to the home of Mr. and Mrs. W. E. Rines, the latter a sister of the groom, where a wedding dinner was given, and later boarded the Str. Okanagan for Penticton, their future home.

The presents received by the newly married couple were numerous and handsome as well as valuable, many of them coming from the east.

The wedding is the culmination of a pretty romance, and a faithful betrothal of several years. Born on the same day, not more than a half mile apart at Kentville, N. S., and growing up together, an early attachment was formed. Nine years ago the duties of life necessitated a separation, Miss Boyle going to Massachusetts and becoming a professional nurse, while Mr. Loomer has been in B.C. for six years, and is Dominion express messenger on the Str. Okanagan.

Not for seven years have they seen each other till Miss Boyle's recent arrival here.

The happy couple have taken up their residence in a newly furnished house on Mountain St., Penticton, where they will be 'at home' after Dec. 1st.

#### SCHOOL BYLAW ADOPTED.

The balloting on bylaw No. 85 on Monday last was not very heavy. Only 67 ballots in all being cast. The result was 46 to 21 in favor of the bylaw. This means that the school buildings which it was proposed to put up for sale will remain the property of the school board.

#### BOY SCOUT TREAT.

The Boy Scouts had an unusually pleasant time last Monday evening. They met as usual at the gymnasium and from there marched to the home of Mr. and Mrs. G. J. Coulter White, where a very pleasant evening was enjoyed, the first part about a large bon-fire and later at a bounteously spread table. The boys expressed themselves as being delighted with the treat.

Why kill nettles if you grow thistles?

For every evil under the sun There's a remedy or none.

If there's a remedy, try to find it, If there's not, try not to mind it.

#### BANQUET TO MARTIN BURRELL.

##### TWO HUNDRED AND FIFTY GUESTS ATTEND.

Quite a number of Summerland people attended the complimentary banquet tendered the Hon. Martin Burrell, Minister of Agriculture, at Kelowna, Thursday night. The affair was a magnificent success and a great tribute to the popular Yale-Cariboo representative. There were in all about two hundred and fifty guests. The hall was particularly well decorated the decorating being frequently referred to by the speakers during the evening. The representatives from the lower lake district left shortly after midnight, arriving at Summerland at 5 o'clock this morning. Among those attending from here were Messrs. Hector Sutherland, J. M. Sutherland, H. C. Mellor, D. H. Watson, C. H. Cordy, W. Shields, and G. A. McLaine.

#### SUNDAY BOAT-BEGINNING Nov. 12.

The local C. P. R. staff here received orders in connection with the Sunday lake steamer service, Sunday Nov. 12th, is the date fixed for the commencing of the seven day boat service.

#### NEW OFFICE BUILDING.

To meet the demands of its growing business the Review will soon have enlarged offices. Two floors addition will be made to the premises now occupied, this will give office space on the street level, which will no doubt be made a great convenience to customers and at the same time give an opportunity of displaying the work from the Review presses. The news office will also be on the street level.

#### FRUIT EXPERT DELIGHTED.

Mr. Wm. H. Bunting, Dominion Government fruit expert, accompanied by his secretary F. H. Grindly, paid Summerland a visit this week. Mr. Bunting has come to this Province to make a report on the fruit industry. They were shown about Summerland, and inspected a number of the orchards as well as the packing house. Mr. Bunting expresses himself as greatly delighted with conditions here, and predicts a very prosperous future for the fruit industry.

#### MRS. R. L. BORDEN.

In course of an appreciation of the wife of the premier a Canadian lady writer says she is in truth "not only a very gracious and attractive woman, but she is, also, a very cultured and understanding woman, one to whom the laws of harmony are revealed. Therefore, whether I think of her in her gleaming evening gown, with orchids to match, trailing their rich lengths over her white arm, and all the glitter and the coronation of a vice-regal opening of the Houses of Parliament for her background; or in her simple house dress, whose folds the heartlight tinted with fires of amethyst; I think of her with the idea of the aesthetic taste well gratified — she is still a picture."

Mrs. Borden, feminine to a degree, is what one must call a woman's woman. Woman and the concerns of woman interest her to an astonished extent, she has high ideals for her sex. She has great pride, also, in her sex's achievement.

#### Kelowna Team Defeats College

##### In Exciting Game of Rugby.

#### Football Season Opened with Interesting Match.

Rugby has arrived in Summerland. The Kelowna team clashed with the College fifteen, in what is hoped to be the first Annual Thanksgiving game, on the College Campus and emerged from the struggle with the long end of a score of 14-3. This apparently one side score is not indicative of the play from a spectators' standpoint for the game was hotly contested throughout and many thrilling plays electrified the small crowd that was present. The College are offering no excuses and stoutly declare that they will win next time when they meet the same team in Kelowna. However it may be said that of the college team were only three men who knew even the rudiments of the game. Many had never even seen rugby played before and so with one week's practice for a team of twelve greenhorns and three tenderfeet they did very well. The game started about an hour and a half late owing to the Kelowna team not appearing. Kelowna won the toss and as there was no wind chose to play with the sun behind them and the game was on. Mutrie of Kelowna handled the whistle in a very efficient manner giving no favor to either side. This half was chiefly Kelowna. The ball was carried between the opposing twenty-five yard lines hardly crossing that of the College several times and only a desperate struggle on

the goal line saved several scores. Finally a touch down was scored which Kelowna failed to convert and play went on as before, the College rushing strongly till half time. Score 3-0. With the disadvantage of the sun in their eyes removed the College hoped to make a better showing in the second period and after five minutes of play, Corey of the College made the finest run of the day taking the ball at his own twenty-five yard line and evading the whole Kelowna back field went over for a touch down. Perry failed to convert. Score 3-3. Early in the game Corey had been hurt twice but pluckily continued playing. Fifteen minutes before the end of the game he had to retire and Johnson, another College man, went off with a strained leg. Packham of the College went on but the hole left by these two players could not be plugged and two touch downs went through one of which was converted. Score 11-3. Perry proved the next unlucky man and a strained leg kept him from showing speed and two minutes before play ended Kelowna went over again. Score 14-3.

Too much cannot be said of the celerity of Kelowna's forming up and their cleverness in passing. Every man was always in position and this together with their greater weight combined to give them the victory. The College congratulates the winners who proved the best team but warns them to look out next time.

#### College News.

The Faculty and Students of Okanagan College were guests at an informal banquet in the College dining room on Monday, Oct. 30, 1911. After the dinner several toasts were proposed. The King, proposed by Prof. Baker. Sang National Anthem. The College, proposed by Mr. Armstrong, responded to by Miss K. McLeod, Mr. W. Wright, Miss C. Simpson, and Mr. H. C. Pacham. The Football Team, proposed by Mr. Renolds (a member of Kelowna Team), responded to by Mr. Gordon C. Perry (Captain of College Team). The Literary Society, proposed by G. R. Parsons, responded to by F. Menzie, and J. M. Marshall. The Ladies, proposed by Mr. Armstrong responded to by Ladies giving three cheers. Mrs. Simpson (Matron for the Banquet), proposed by Mr. Baker, responded to by three cheers from students. The guests then adjourned en masse to an at home given by the ladies in residence. A delightful evening was spent with games and music. At a late hour "God Save the King" brought Thanksgiving Day to a close.

Prof. and Mrs. Perry spent the week end and Thanksgiving at Kaledon. A number of the lady students spent Thanksgiving at their homes—Misses Ruby and Pearl Elliot at Kelowna, Miss Marlon Cosmar and Miss Leone Morrison at Penticton, Miss Archena Preston at Kaledon, Miss Kathleen Bridges visited friends at Penticton, Miss Woods visited friends in Kelowna, Miss Annie Campbell and Miss Louise Norris spent the week end with Mrs. Lipsett.

Better do than dream; better be than seem.

#### C.P.R. TO ELECTRIFY ITS LINES THROUGH B.C.

The C.P.R. is to electrify its line through British Columbia, or a greater part of it, at an early date. Such is the information given the Review by a reliable citizen, who seemingly has his information first hand. To make this alteration in motive power would probably require two or three years at the least. In the meantime the engines in the mountain divisions are being equipped for oil which fuel will be in general use this winter. Some fifty thousand dollars worth of coal plant, much of it only recently erected, is being scrapped as of course it will be useless when oil is used as fuel. This will greatly reduce the danger of forest fires and will give increased traction power to the engines now being so fitted. It is stated that in one place the C.P.R. will be able to develop power for electrical purposes totalling one hundred thousand horse-power. No doubt if other power stations are required abundance of water power will be available.

#### RUNAWAY.

A short but exciting runaway occurred on Shughnessy Avenue Tuesday afternoon. Mr. Conway's horse was standing hitched to a telephone post near the Review Office, when some youngsters passing by with switches in their hands either struck the horse or so frightened him that he broke loose and started down town. The runaway animal turned the corner at Angove & Stinsons, but at the head of the wharf suddenly turned back again and in doing so horse and rig turned over and was captured before getting further. Some little damage was done to the buggy.

# The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.  
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

### Advertising Rates:

LEGAL NOTICES—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. for first inch and 25c. each subsequent inch each insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion.

LODGE NOTICES, Etc.—25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 3, 1911.

### OPINIONS OF PROMINENT MEN.

Too much stress cannot be put upon the utterances of the prominent British Columbians who visited Summerland at the opening of the new exhibition hall two weeks ago. These men, while not speaking from a technical knowledge on the subject of fruit growing, spoke as men of large vision and a thorough understanding of what constitutes the essentials in the upbuilding and the prosperity of a community. And it cannot but do us good to bear in mind at all times the words of these distinguished visitors.

The Hon. A. E. McPhillips, president of the Executive Council of B.C., said many things which indicated the good impression made upon him by what he saw here, but nothing spoken by him more impressed his audience than these prophetic words:

"I have had the opportunity to visit many fruit exhibits in various parts of the world, but never have I seen one at all to compete with the splendid one here. When one comes near to these hills one would never think for one moment that their potentialities are what they are to-day, but put water on them and with the industry of those who have come here we see what can be done in six or seven years, and if this can be done in this period, what then may be done in twenty-five years? A quarter of a century will not be much to those of us here to-day, and yet what may not be done in that time."

Mr. Chas. H. Lugin, editor of the Victoria Colonist and member of the Tax Commission, made an important statement of very great benefit to Summerland district, when he said: "For six years previous to coming to this wonderful country, I was Secretary to the Agricultural Department, in New Brunswick. My duties were to visit the exhibits in that province which boasts of its good fruit. I also had to visit shows in Nova Scotia whose reputation for excellent fruit is of the highest. It was my pleasure to visit a great many fairs in the New England States where fruit is made a great speciality. With all that experience I was not prepared for what I saw here. I did not believe it was possible to grow such apples."

Mr. W. H. Walkin of Vancouver, expressed a thought that, while not a new one, brought out the point he wished to make most forcibly. "You only have taxation of ten mills on the dollar, and this is a mere nothing," said he. "You ought to be paying 30 mills on the dollar for the privileges you have here to-day."

And the Rev. H. B. Gray, D.D., late headmaster and warden of Bradfield College, Eng., and Secretary of the Taxation Commission, spoke most eloquently a message of good cheer when he said: "I have sailed down the Rhine and watched the clusters of burnished grapes growing on its many-castled banks. I have revelled among the palm trees in Palmyra and Damascus and have sat in the fragrant orange groves on the shores of the Mediterranean. I have trodden where the hop poles in the Kentish fields make a bow over the heads of the wayfarers and seen the waves of shadow pass over the corn fields of the motherland, but never till last night did I behold the fairest of all the products of your Western land, that magnificent array of apples which were exhibited in such profusion."

### WINTER APPLE GROWING.

We can all take heed to the advice given by Mr. Wm. E. Scott in his address on the occasion of the Summerland Apple Show. Plant for winter apple was the keynote of his remarks. Where this fruit can be so successfully grown as here, better advice could not be given. Our winter apples in addition to being of a very superior quality, can be kept in cold storage until the market calls for it—and there is ever a steady market for winter apples. There could not be a more profitable crop grown, nor one which insures such a harvest year after year.

### INDIAN RESERVE LANDS.

The sooner the newspapers of the province take up the question of Indian reserves and urge the proper disposition of the Indians and the usurpation of their surplus lands by white settlers, under the supervision of the government, the sooner will a better condition be brought about, not only for the Indians, but for the province as a whole. It is a great loss to the province to have so many thousand acres of this land held uselessly in reserves that never have been and never will be used by the Indians. In this connection the Vernon News says:

"The area of land tied up in Indian Reserve in the Okanagan amounts to at least 50,000 acres. And it is the very cream of the district. Stretching for miles along Okanagan Lake is a reserve which would be capable of supporting thousands of white settlers; and at present it is occupied by less than a hundred Siwashos. It is doubtful if half this number are legally entitled to live on the reserve, as many of the present occupants are Indians from across the line, or Siwashos whose rightful homes are on other reserves. The same state of affairs may be found all over the province. Put your finger on the map at the mouth of almost any stream, or the most desirable location beside a lake, and you will find that it is reserved for Indians who make little or no use of the land. . . . If these lands were offered for sale by public competition, a sum would be realized that would make every Indian wealthy, while it is hardly possible to estimate the advantage that would accrue to the Province by throwing such fertile acres open for settlement. We believe that the matter should be made the subject of a thorough investigation by a Commission appointed jointly by the Dominion and Provincial governments, and that no time should be lost in calling such a Commission into being."

### DEFENCE OF THE MORMONS.

Until there is more to substantiate the charges that have been made against the Mormons of Canada than the slippery flippant phrase, "It is said," these same, sober, industrious, lawabiding people will not need any thing to be said in their defence. But the action of the Presbyterian General Assembly in placing itself on record in favor of an active campaign against Mormonism, has brought about a feeling of resentment on the part of those who have lived among the Mormons and learned to respect them.

Some months ago it will be remembered The Canadian Courier published a series of articles by Miss Nan Moulton, in which the writer stated that she found the Mormons a peaceful, progressive and hard-working people, but she also found in their colleges and churches they were preaching polygamy. As for the practice of polygamy, she found that if it were being done it was carefully hidden.

As a result of the action of the Presbyterian General Assembly, Mrs. Arthur Murphy ("Janey Canuck") writes a paper in the Canadian Courier defending the Mormons. She reasons thus: Too many people have had to lay down their lives for the vindication of liberty of opinion in matters religious for us to hold the principle lightly, and it should not be necessary for any Protestant body to be so reminded.

"Why do the Presbyterians object to them as residents?" She asks, to which she answers, "Their chief objection would seem to arise from the fact that the Church has not been successful in making converts among them. Their mission to the Mormons has been a flat failure and the Church is now in the position of having to support expensive and unprofitable posts or else retire in humiliation from a field upon which they entered with a very considerable assurance. . . ."

I hold it a cowardly act to defame any woman, or any community of women, on the safe but slippery phrase, "It is said." . . . It was said only when I came close and studied the conditions at first hand—and with an open mind as I could manage—that the reason of their prosperity became evident. The secret of their growth lies in their system of self-denial, with its rule of tithing, and their putting into actual practice the christine doctrine of the brotherhood of man. . . . I have not any recent statistics by me, but I find in the year 1878, there was not a saloon, a brewery, a gambling-house, a brothel or a beggar, and as a consequence, not a lawyer, in thirteen of their countries. That the Alberta Mormons are equally law abiding is evidenced by the fact that although they have been there 13 years, not one member of their large community has been confined in our Provincial Penitentiary—a statement that cannot be said of any other religious body. This being the case, it is the commonest kind of sense that we present to them the tolerant spirit and the kindly, courteous manner that helps us as Canadian citizens and gentlefolk."

### BETWEEN ME AND HANK.

This thing we call sin is the result of our misuse and abuse of the God in all. To teach that man is full of sin is damnable. It can do no good and is sure to make him what we teach he is. Man is not more sinful than the Creator—if he follows the lead of Nature and lives true to the God within. When man is true to himself and expresses the truth as it seeks expression through him, he is then in harmony with the Divine in Nature, because he suppresses nothing. Suppression is the curse of the age. It is the one great sin. Growth is stifled through it; we wear our goodness about our necks as we bind a piece of iron about a tree to strengthen it. Life in the tree is choked out. Growth stops and the tree dies.

All but twenty-five constituencies have been heard from in the recent Dominion election. Premier Borden's popular majority is placed at 87,898 as compared with 24,853 received by Premier Laurier in 1908. The total vote, so far as completed, is 569,670 Conservative; 531,896 Liberal.

It's risky riding when the devil is driving.

To be loved, be lovable.

The big Canadian lake freighter "Emperor" with some 317,000 bushels of wheat in her holds, sank at the entrance to a canal at the Soo. She was punctured by an anchor hastily dropped in shallow water.

Instead of bringing more happiness to a man, much money is apt to drive away the little he has already.

**Shiloh's Cure**  
QUICKLY STOPS COUGHS, CURES COLDS, HEALS THE THROAT AND LUNGS. 25 CENTS

### WASHINGTON NURSERY COMPANY.

475 Acre Plant. Largest in the North-west.  
SIX MILLION FRUIT TREES. All produced from carefully selected buds and scions and grown on our own budded seedlings.

These trees are propagated from carefully selected buds and scions secured by our men from bearing trees which have produced regular crops of the best strain of their varieties. These bearing trees are labelled while the fruit is thereon, allowing no opportunity for a mistake as to the best strains.

Our motto is "A Square Deal."  
There is nothing that we appreciate more than a satisfied customer. Need we say more?

The Washington Nursery Company,  
Toppensish, Wash.

**THOS. B. YOUNG**  
Flour and Feed  
Phone Violet 8.

Wanted Farmer Will to Farmer Bill,  
The cost of living's high,  
Says Farmer Bill to Farmer Will,  
"Depends on where you buy."  
"Why don't you go to Young's?" quoth he,  
"That is the place to deal."  
Then puffed up with prosperity,  
You'll soon begin to feel.  
Flax, oats and bran, shorts, wheat and corn  
Chopped barley, oats and wheat,  
Rolled oats for breakfast in the morn,  
At prices hard to beat.  
Be sure to try his flour too,  
His wheat flour and oatmeal;  
Alberta Fancy Patent try,  
That Flour with the Seal.  
Young's poultry feed when fed each day,  
You'll find this is no hoax;  
Your hens will soon begin to lay  
You eggs with double yolk.  
"Why do you wail, why do you weep?"  
There is our miller, in our own town,  
The dawdling fact comes with a leap—  
The cost of living has gone down.

# A Big Asset

## The Solid Earth

Of Course, you must procure the right kind of Soil, the kind that will grow anything. This is the kind we offer in Summerland; the fruit-growing centre of the world-famed Okanagan district.

Lots at \$100 per acre on easy terms of payment. :: For further particulars write or call on

**UNTIL** a few years ago, although concrete had already been generally adopted throughout the country by contractors and farmers for almost all structural work, it was the practice to stop all work on this form of construction as soon as the cold weather set in.

It has been found, however, that concrete work may be carried on in cold weather successfully, and with but very little more trouble than under ordinary circumstances.

This fact is of great benefit to the farmer, as it is in the colder period of the year that he is able to find time for building and making the many articles around the farm to which concrete so readily adapts itself.

With a few simple precautions it has been found that concrete can be used, not only in freezing weather, but when the thermometer has been actually below zero.

If the concrete freezes before it starts to "set," it will not be injured, but if the freezing takes place after the "setting" action has started up, the concrete is likely to be damaged when it thaws, owing to the expansion of the melting water forcing the particles apart and making the concrete crumbly. On the other hand, if the concrete has a chance to become thoroughly "set" before freezing, no harm will be done. To give it this chance you must first of all prepare the materials as described below, and secondly you must protect the concrete after it has been placed in the "forms."

**PREPARATION OF MATERIALS.**

Concrete will, on its own account, develop a certain amount of heat in

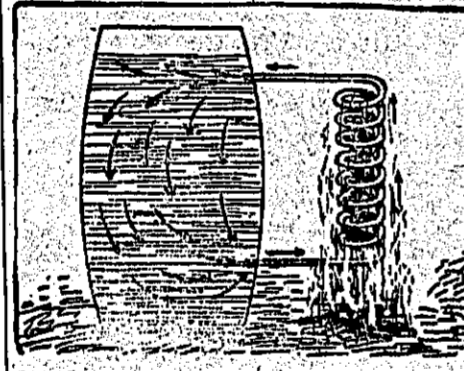

FIG. 1. SHOWING SIMPLE METHOD OF WATER HEATING.

the "setting" process. But in cold weather, some outside assistance, in the form of artificial heat, is necessary. The best way to develop this artificial heat is to warm the materials before mixing. This shortens the time that it takes the concrete to "set" and lengthens the time necessary to bring it to the freezing point. Bear in mind that the less water used, the quicker concrete "sets." Therefore, it is advisable to use as little water as possible in the mixing during cold weather.

**HEATING WATER.**

A simple and easily-made vessel for heating water is shown in the accompanying drawing. (See Fig. 1.) A coil is made of one-inch pipe with the ends fastened in the barrel and made water-tight. A small fire built under the coil will heat the water rapidly and will keep it in circulation, thus keeping all the water heated.

For this purpose it is wise to use a length of malleable iron gas-pipe, because it is easily bent into the required coil. This is done by taking a log or fence-post about the size of the coil and bending the pipe around it. This method prevents the pipe

from "buckling" and makes the coils more regular in size.

When concrete work is being done on a large scale, it is advisable to use the two-barrel heater shown in Fig. 2. This allows the water to be constantly replenished without reducing the heat of the water in the barrel from which the hot water is taken.

Most farmers, however, possess large boiling kettles, used during butchering time, or for making soft soap, etc. One of these will do equally well.

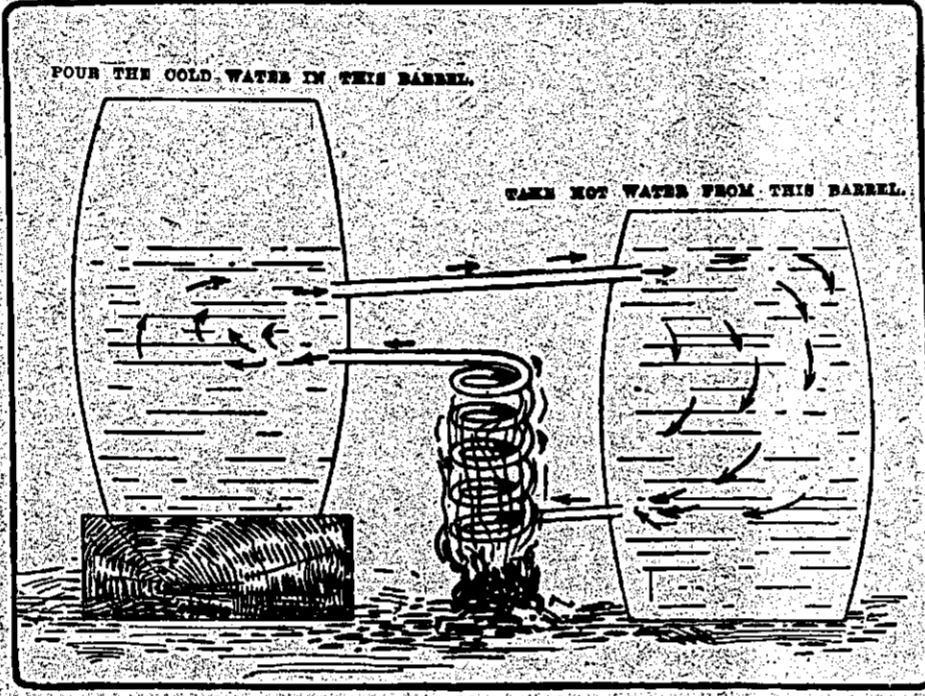

FIG. 2. SHOWING TWO-BARREL METHOD OF HEATING WATER.

When concrete work is being done on a large scale, it is advisable to use the two-barrel heater shown in Fig. 2. This allows the water to be constantly replenished without reducing the heat of the water in the barrel from which the hot water is taken.

Most farmers, however, possess large boiling kettles, used during butchering time, or for making soft soap, etc. One of these will do equally well.

**HEATING SAND AND STONE.**

Sand and stone may be very easily heated by making use of two pieces of stove pipe, one piece for the sand and the other for the stone. The pipes are laid on the ground in such a position as to allow the wind to make a good draft. The fire is then built in one end. The flames pass through, heating the whole pipe, and as fresh fuel is added, the ends are pushed along the pipe and gradually work out at the other end. The sand and stone should be piled on top of the stove

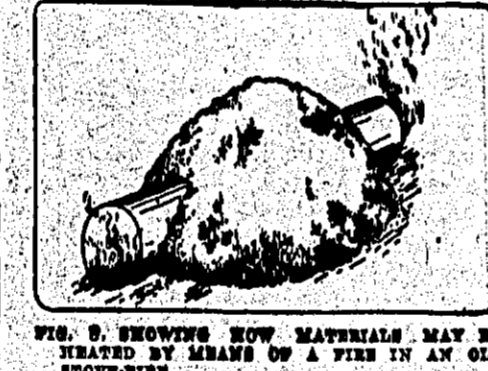

FIG. 3. SHOWING HOW MATERIALS MAY BE HEATED BY MEANS OF A FIRE IN AN OLD STOVE-PIPE.

al protection, heavy paper should be nailed to the vertical posts of the forms, (see Figure 4), thus leaving an enclosed air space between each pair of posts. These air spaces will have about fifteen degrees higher temperature than the outside air. The "forms" should always be left on longer in cold weather, as it takes longer for the concrete to harden.

**PROTECTING THIN STRUCTURES.**

In the case of thin walls where extra cold weather calls for addition-

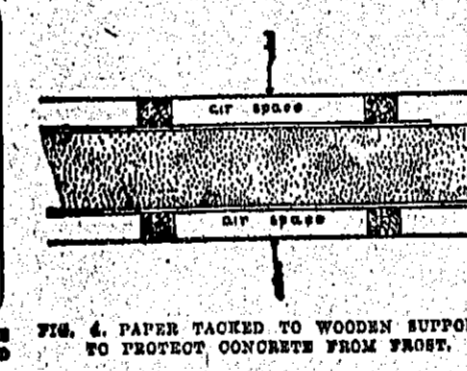

FIG. 4. PAPER TACKED TO WOODEN SUPPORTS TO PROTECT CONCRETE FROM FROST.

There is no reason why concrete cannot be used with complete success in cold weather if these simple precautions be followed.

**EGG LAYING CONTEST**

**NOW BEING CONDUCTED IN VANCOUVER.**

The first egg laying contest to be inaugurated on the American continent is now being conducted on the exhibition grounds, Vancouver.

Pens have been received from the following sections of the province, and betoken the widespread interest aroused: Revelstoke, Arrow Park, Vernon, Chilliwack, Central Park, Duncan, Lulu Island, Port Mann, Steveston, Crofton, Victoria, Salt Spring Island, Thetis Island, Cowichan, Burquitlam, Cobble Hill, Kamloops, Burnaby, Chemainus, Seaniehton, Hagan, Mount Tolmie, and five pens from Australia and one from New Zealand.

Upwards of forty pens have been entered and a capable manager has been secured.

The importance of this contest, and the benefit to be derived by the poultry industry, more especially in this province, is already fully recognized by the provincial government who have donated \$100 towards the prize fund. In addition, the Vancouver Exhibition Board and the British Columbia Poultry Association have also each donated \$100.

Valuable experiments will be run during the competition, and it is the intention of the Committee to publish monthly detailed reports of the progress of the contest, giving the number of eggs laid by each pen, together with the name of breed, price received for eggs, etc.

In Australia, and recently in the United States, several of the newspapers have taken a very active interest in such matters. For instance, the first egg laying contest ever held was instituted by the "Sydney Telegraph," New South Wales, and this competition is at the end of eight years, still being run by the aforesaid journal.

Coming nearer home, the Philadelphia "North American," of Philadelphia, contemplates running an international egg laying competition in Connecticut, U. S. A., starting 1st of November, 1911, and is advertising the contest throughout the North American continent.

The following committee are in charge of the contest: T. Edwards, Poultry Judge, Victoria, (Chairman); W. Stonehouse, Vancouver, representing the British Columbia Poultry Association; H. Ralston, Manager, Vancouver Exhibition; W. E. Scott, Deputy Minister of Agriculture, (ex officio); and J. R. Terry, Department of Agriculture, Victoria.

A TENDERFOOT'S WOOING

—BY— CLIVE PHILLIPS WOLLEY

(AUTHOR OF "GOLD IN CARIBOO," ETC.)

Synopsis of Previous Chapters.

The scene of the story is an old cattle ranch, called the Risky, in Caribou, British Columbia, during the early days. Jim Combe, foreman of the ranch had watched Kitty Clifford, the owner's sister-in-law grow up on the ranch, and had been led to believe that she might ultimately become his wife.

CHAPTER XVII The Indians.

In order to keep Anstruther amused and quiet, Mary Rolt had dinner served that night for the four of them in the bedroom, busy-ing herself in making the pretty place as vivid a contrast as possible to the grim world outside.

"And? Oh, and she married, of course, and her brothers do just as they did whilst she was with them, except that her husband now cleans her boots." But Anstruther was not listening to Mrs. Rolt's libel on lady helps.

made it difficult to understand the rapidly with which stack after stack burst into flames. The heavy Scotch mist with which the valley was filled—a freezing mist which was almost rain—was crimson now.

back again for a lantern. When he returned again he handed the Boss a key. "I thought as you allus kept that yourself, Boss."

DEPARTMENT OF LANDS. Water Branch.

IN the matter of the Board of Investigation created by Part III of the "Water Act" for the determination of water rights existing on the 12th day of March, 1909; and in the matter of the following creeks in the Osoyoos Water District—

- Swan Lake, Swan Lake Creek, Short's or Biche Creek, North Fork of Biche Creek, Siwash Creek, Smith's Creek, Stoney Creek, Slacks Creek, Shannon Lake, Speer Lake, Spruce Creek, Sucker Creek, Sugar Lake, Silver Spring Creek, Sow-Sap Creek, Spring Creek, Spalluncheon, Sturt's Creek, Styx Creek, Trout Creek, Trepannier Creek, Three-mile Creek, Tamarack Lake, Vance Creek, Veners Creek, Venner Creek, Vernon Creek, Woods or Torrent Creek, Whiteman Creek, White or Clearwater Creek, and all unnamed springs, streams, creeks, ponds, gulches, and lakes tributary to or in the vicinity of the above named streams.

Water Notice. J. F. ARMSTRONG, Chairman. o27 n8 10 10 24. GEORGE COOPER, By his agent, W. L. D'Aeth, Dated this 23rd day of October, 1911. o27 n8 10 17

Companies Act. ## Naramata Notes.

Mr. J. S. Gillespie is now at Calgary on business in the interests of the Trust Company.

Mr. J. M. Robinson left on Thursday morning en route to Toronto. He expects to be absent several months.

Mr. and Mrs. Peacock and Miss Peacock have arrived in Naramata and have already taken up residence at "Kenwood" orchard.

Mrs. Campbell has returned to her home in Battle Creek, Mich. after a little over a year's residence here, the guest of her daughter, Mrs. F. H. Rounds.

Mr. G. Purdham after several months sojourn in B.C. has decided to return to his home in Battle Creek, Mich., and left town on Thursday morning.

Mr. Howard Rounds who some months ago accepted a position as stenographer for the National Cash Register Co. at Vancouver has returned to Naramata and is again at his post in the Company's office. Mr. Rounds' return is one of the pleasantest events of the week.

The Unity Club ladies decided at their last meeting held last Friday, at the home of Mrs. F. H. Rounds to hold a chicken supper on the evening of Saturday November 18. Mrs. H. J. Wells has kindly offered to throw her house open for the occasion. Let's stick the date up Saturday Nov. 18th.

Master Stanley Stiff, while out on Hallowe'en seeing what trouble he might make for other people ran pell mell into a pile of iron pipe right on the corner of the Supply Co's Store, striking his nose an awful biff which laid the lad out for a short while. The accident, though painful, was not serious and after a day or so was round again.

A team of horses belonging to Mr. Endacott and which are employed in road construction work at Chute Creek took a tumble one day last week while attempting to make the way down a steep grade with the grader. Before the animals could be stopped they had taken four or five rolls over one another and stopped right at the edge of a precipice from which perilous predicament they were eventually rescued by means of a block and pulley.

It will possibly be news to some that we are to have a new set of books added to the library, and news too, perhaps, that Mr. Block has kindly consented to act as librarian. Mr. Block seems the right man in the right place. His shop is right in the main avenue, where everyone who will can with little trouble avail himself of the privileges of the shelves, and it is hoped that the opportunity thus afforded the readers of the community to secure good reading matter may not be allowed to pass unimproved during the coming winter evenings.

The masquerade ball on Hallowe'en under the auspices of the Sigma Delta Club was another social triumph upon the part of the young ladies. Besides having almost a capacity house the whole evening was one delightfully pleasing programme—from a pleasure seeker's point of view. The music furnished by Mrs. Booth, pianiste, and Reg. Booth as trap drummer, was of such a high order as to command the admiration of the most fastidious. The crowd was composed largely of Naramata folk, yet Summerland and Penticton were well represented too. Many of the costumes were especially fine and worthy of mention. Amongst these were Capt. Languedoc as Hindoo, Fred Baker of Summerland as Mophistocles, Dr. Andrew as Young Colonel, Fred Manchester as Highland Lassie, Miss Bunting and Mrs. Moreland as Red Cross Nurses, Mrs. Gillespie as Spanish Lady, Miss McCulloch as Queen of Hearts, Miss Vera Palmer as Young American Girl, Mrs. Orr of Summerland as Indian Maid

## Peachland Notes.

### NEW METHODIST CHURCH.

The Peachland Methodists are all busy this week preparing for the opening of their new church next Sunday. The bell is in place and it is expected that by Saturday night the building will be completed. Rev Dr. J. H. White and Rev. R. J. McIntyre will conduct the opening services. Monday evening a social will be given in the Hall followed by a meeting in the new church at which a programme of music and addresses will be given.

Miss Topenham has moved into Mr. Thompson Elliott's house this week.

Miss Leone Morrison of Okanagan College spent Thanksgiving at her home here.

Miss Montgomery returned Monday evening from a three days' trip to Kelowna.

Miss Olive Young of Penticton, was the guest of her grandparents over Sunday.

The Misses Sharp have rented Mrs. Pollard's cottage and moved to town for the winter.

Miss Edith Hayward visited her two sisters Mrs. J. L. Elliott and Mrs. Jno. Wright the early part of the week.

C. G. Elliott had the unpleasant experience of finding two of his colts on the hills with a broken leg each. One a valuable standard bred foal. The cause of the accidents is unknown.

The Baptists held their anniversary services last Sabbath, Rev. A. W. McLeod conducting the services. Monday evening a social was given by the ladies of the congregation, which was well attended and an enjoyable time spent.

The Cement Pipe works have closed down for the season. Although an order came in for more pipe the day they closed, they decided not to start up again this fall. Orders have been plentiful this season, this form of water pipe is evidently becoming popular with the irrigation companies.

### COLONIAL INTELLIGENCE LEAGUE

Miss Dorothy M. Davis, representing the Colonial Intelligence League in British Columbia, has been touring the Okanagan in the interests of the League, and paid Summerland a visit during the Apple Show. Miss Davis is very enthusiastic in her work, and expects to accomplish great things for the young ladies that her organization purposes bringing to this country, as well as filling a long felt want in the homes, offices, etc., of this province.

Miss Davies states that she has enlisted the support of the Provincial Government, and has secured a tract of land in the lower Fraser Valley as a home for the young ladies coming from the homeland. The League carefully selects the prospective immigrants and gives them special training for Canadian life before sending them to this country. After their arrival they are further acquainted with conditions here before being placed in positions. Not only helpers, but teachers, nurses, dress-makers, milliners, and all kinds of feminine professions are brought out by this League.

There are agencies at Enderby, Armstrong, Vernon, Kelowna, Penticton, etc. Mrs. H. A. Solly represents the League in Summerland.

It is not always wise to judge another by their tongue or coat, for true worth lies where neither ear nor eye can penetrate.

## Local News Items.

The Misses Conway were at Kelowna for Thanksgiving.

O. Vaughan and his bride are expected to arrive to-night.

Miss Hunter, teacher in the Central School, spent Thanksgiving at her home in Kelowna.

Dr. and Mrs. C. M. Smith who have been visiting friends at Peachland, returned early this week.

Mr. J. E. Phinney spent Thanksgiving at Kelowna, the guest of his daughter, Mrs. Jack Conway.

Mr. and Mrs. T. McAlpine have returned from Kaleden, and are again occupying their residence on Beach Avenue.

G. R. Hookham, one of our ranch owners, went out on Thursday morning's boat. He expects to be away until February.

Harvest Home services were held in the Baptist Churches last Sunday. The decorations were appropriate and tastefully arranged.

The Rev. Jas. Hood who has been at Peachland since resigning his pastorate here, started for Cumberland, Vancouver Island on Saturday last.

Mr. and Mrs. A. B. Williams and Miss Williams are expected to arrive from London, Eng. Saturday. Frank Williams went east as far as Banff to meet them.

Mr. Wm. Armstrong of the college occupied Rev. F. W. Hardy's pulpit on Sunday last, Mr. Hardy being at Armstrong attending the dedication of the church there.

The car of specimen apples from Summerland orchards that has been gathered by C. J. Thomson, President of the Agricultural Association, started on its journey to England to-day.

The 'Ladies Aid' of the Methodist Church purpose holding their Christmas Sale of fancy and useful articles early in December, contributions are solicited from all interested friends. Date of Sale and further particulars will be announced later.

A meeting of the Presbyterian congregation was held Thursday night, being convened by the moderator, Rev. F. Miller of Penticton. It was decided to look about for a suitable man for pastor. In the meantime arrangements will be made for a supply each Sunday.

Mr. and Mrs. Thos. Stevenson of Spokane, who are touring southern British Columbia in their auto, paid Summerland a visit this week. Mr. Stevenson passed through this section of British Columbia some years ago on horse back, and is greatly surprised at the transformation he finds on his return.

Mrs. H. H. Elsey of Airdrie, Alta, accompanied by a daughter, arrived in Summerland this week. She was preceded by a son and daughter, who came in earlier to commence with the school term, and will be followed shortly by Mr. Elsey and a son. Mr. and Mrs. Elsey were formerly residents of Pilot Mound, Man., and own a fruit lot here.

**MISUNDERSTOOD.**

A man entered a restaurant and studied the bill of fare. After he had further studied it and learned it by heart, he impatiently tapped his glass with his knife.

In response, a tall angular waitress waddled towards him. Her gait was between that of a crab and an inquisitive goose, and it took her fully two minutes to reach his side.

"Have you frog's legs?" he demanded sharply.

"Dear me, no, sir!" she exclaimed, smirking. "I'm obliged to walk this way on account of rheumatism."

Be hardy, but be not hard.

## Local News Items.

A. Town of Peachland was a visitor to town this week.

Miss Alcock of Vancouver is the guest of Mrs. George Gartell.

Canada's 12th. parliament will meet for dispatch of business on Wednesday, Nov. 15th.

Tom Hickey who has been on the prairies for some months returned on Tuesday night's boat.

Rev. Mr. Conn of Okanagan Landing, preached in the Presbyterian church on Sunday.

Mr. Benson, who was for some time engineer on the ferry, went to Saskatchewan this week.

Penticton has recently formed a Ratepayers' Association, to keep watch on the doings of the Municipal Council.

Messrs. A. B. and E. Stovel of Winnipeg, accompanied by T. G. Wanless, paid Summerland a call early this week.

Duncan Ross has gone back to his big tunnel job on the G. T. P. and is said to be taking his defeat philosophically and manfully.

The ferry 'Maud Moore' has been running on her winter schedule since Nov. 1. She now leaves Summerland at 9 and 3, Naramata 10 and 4.

It is probable that Summerland and Kelowna will play football on Nov. 9th. Arrangements are now being made for a game of Association on that date.

Mrs. Pattison, mother of Rev. F. W. Pattison, returned on Tuesday evening's boat, accompanied by Mr. Pattison who went out Monday morning to meet her.

Mr. C. R. Phinney, son of J. E. Phinney, West Summerland, who has held the post of ledger-keeper in the Royal Bank at Kelowna for the past two years, has been transferred to the Vancouver office.

Some very nice locally grown beef, may be noticed from time to time in Mr. Downton's meat market. The locally grown article has been supplying Summerland for some weeks. It makes good eating too.

Eighty-five per cent of all headaches are the result of eye-strain. Are you troubled that way? If so consult S. L. Taube of the Taube Optical Co. He will be at the Summerland Drug Co's store, on Monday November 18th. N 8-10

The work of Miss Florence Hayes shown in the Art Department of the Apple Show was very favorably commented upon by the judges and they recommended to the Women's Institute that she be given a special prize and a diploma for the excellency of her handwork. Miss Hayes was the winner of the Anglo-Stinson special prize—an embroidered linen tablecloth.

G. H. Aston of Penticton, a member of the Provincial police, was in town this week, and from here went to Peachland. He has been making some enquiries while here of the disappearance of W. D. Spaulneur, who very unexpectedly left town on the evening of Oct. 24th., taking with him a horse and saddle, the property of F. Brind. There may be further interesting developments.

Miss Jennie Robinson, a missionary of India, now on furlough and who has been touring Canada in the interests of the cause, will be in Summerland Sunday and will address the Baptist congregation at the morning and evening services. It is stated that Miss Robinson is an unusually pleasing speaker and she will no doubt have large audiences. Miss Robinson will dine at the College on Sunday and during the afternoon will hold a consultation with the students.

## Council Holds Long Session.

### Trout Creek Irrigation Scheme Discussed.

#### That Annual Statement Again Comes Up.

Monday's session of the Municipal Council was long and tedious, the board sitting till 1:30 p.m.

With the exception of Councillor Brown, the full board was in attendance, and got down to business shortly after 9 o'clock.

There were several delegations, that from Trout Creek taking much time. Several disputes arose between members of the board considerably delaying business, and seemingly accomplishing no good. Local option Sunday boat, the government advertisement re water records, now appearing in the Review, the 1910 fines, a resolution from the Ratepayers Association, hospital affairs, extension of the water system to Paradise Flat, and various other matters were dealt with.

#### TROUT CREEK IRRIGATION.

There was present a large delegation from Trout Creek to further follow up their demands for an irrigation water system. They had been promised some weeks ago that a concrete dam would be put in to serve that district, and as nothing had yet been done they came to protest against the delay, and to ascertain just what the Council proposed to do.

The Municipality's connection with this district is different, as regards the water service, from that with any other portion of the Municipality.

The water rights pertaining to the land there were not taken over by the Municipality as was that pertaining to other portions of the district. They have there and still operate in a fashion their own system. The lot holders are unorganized, and the service is in a very chaotic condition. The property there of course participates in debt interest, and is bearing its portion of the expense of serving the rest of the Municipality, but derives no benefit therefrom.

The Council is very willing to take over the system, and make it a part of the Municipal plant, but seemingly there is some considerable difficulty in accomplishing this.

What would seem a very practical way out of the difficulty was proposed by Reeve Ritchie, namely that a joint stock company be formed by the property holders of the district, each acre entitling the holder to a share in the company.

Then there would be some organization with which the Municipality might deal, and from which it could readily acquire the water records, and through which it could better deal with the whole matter of serving that district.

Recently water agreement forms were procured by the Municipality with the idea of having each individual holder sign a water agreement.

The difficulty of entering into a contract of this kind is that when signed by both parties, the Municipality, of course, becomes liable for a satisfactory water service next season, whereas all they have promised to do, and can undertake for next season, is to put in the new concrete dam and connect it with the present distribution system, which system is not satisfactory.

This plan could not therefore be carried out, but it was proposed that the lot holders sign the water agreement, so that when the Municipality had its system installed it could by signing the contract, complete the agreement and thereby hold the different lot owners to their contract to take service from the new system.

At first there was some objection upon the part of the Trout Creek delegation to this proposal, but it was finally decided that this was the only way out of the difficulty for them, and the only way the Municipality would be justified in incurring the expense of putting in the dam and drawing up plans for a complete service for 1918.

It was then left to the Trout Creek people to sign the water agreements immediately upon their being prepared, when the work of putting in the dam will at once be proceeded with.

#### LOCAL OPTION.

A letter from a representative of the Ministerial League was received, asking the Council to approve of an amendment to the Municipal Clauses Act, as proposed by the Local Option League. After very little discussion, the Council passed a motion approving of the amendment asked for by the Local Option League, that the Municipal Act be amended, granting the Municipalities the right to take a referendum on the question of granting liquor licenses on a petition being presented representing fifteen per cent. of the ratepayers.

From this followed an informal discussion on Sunday boat service, and which seemed to meet with general disapproval. The Reeve declared "The whole thing is the result of a few commercial men wanting to get down to these towns to worry the dealers on Sundays—men who work hard during the week and who badly need rest on Sundays." No formal action was taken on the question by the Council as a body.

#### MUNICIPAL WATER RECORDS.

The Council is materially interested in the advertisement now appearing in the Review for the Water Branch of the Department of Lands, asking for a memorandum of water rights on numerous creeks in the Okanagan which must be filed with the chief water commissioner on or before November 30th, and the Clerk was instructed to have a memorandum of all water rights held by the Council on Enceas, Prairie and Trout Creeks prepared and forwarded to the proper authorities prior to the 30th.

#### DANGEROUS TREES.

A communication was read from Mr. Stark calling attention to two trees which were a menace to public safety, being likely to be brought down by a heavy wind at any time. Another of like nature was received from Mr. T. Beavis, complaining of some trees likely to blow down on his dwelling, and asking to have same removed. Both were referred to the Board of Works.

#### THOSE FINES.

In reply to an enquiry sent to the Attorney General's Department, the Clerk was in receipt of a statement sent that Department by the local Police Magistrate, showing fines of \$120 collected during 1910, and the Attorney General further stated that he presumed that this amount had been received by the Treasurer of the Department. The Clerk reported that he had taken the matter up with the Treasurer, and had been informed that the amount had not been received. This matter was handed over to the Finance Committee for adjustment.

#### CRITICIZES ANNUAL STATEMENT.

A letter from the secretary of the Ratepayers' Association, enclosing a copy of a resolution passed by that body was received and read by the Clerk. The resolution called attention to the apparent discrepancies between the statement of Municipal affairs for 1910 as published in April last and the statement published in August, and calling for a number of explanations. The resolution was handed over to the Finance Committee with instructions to look into the questions brought up and report.

The resolution as passed by the association contained a phrase which was interpreted by the Council as a threat, and was objected to, the Council feeling that the inference was that the present Board was not honorably performing its duties, and endeavouring to cover

## SUMMERLAND APPLES AT CALGARY.

### LOCAL COMPANY MAKE AN ATTRACTIVE DISPLAY.

(From the Calgary News-Telegram) In the last few days the people of Calgary have developed an unheard-of desire for apples—for great, big, juicy, red and yellow apples. T. D. Colliss, president of the Okanagan Commercial Orchards Company, is responsible for it is under his direction that there is being exhibited at 212 Eighth Avenue East, an excellent showing of Okanagan Valley apples.

Mr. Colliss is a man who has spent years in the fruit-raising industry, and is an authority on fruit lands over the entire continent. Raised in Colorado, he watched the Grand Valley change from sage bush into one of the richest fruit producing districts, and saw fruit trees spring from alkali ground, which was considered absolutely worthless, and saw this land double and treble in value until it was considered cheap from \$1,500 to \$2,000 per acre.

Mr. Colliss has been interested in the fruit lands of Hood River and Rogue River, Oregon has developed orchards in Wenatchee and North Yakima districts, but Mr. Colliss says he has found the fruit raiser's paradise in the Okanagan Valley. Situated as it is in a valley running north and south, protected on either side by a range of hills that break the cold winds from the mountains and the sea. The Okanagan Valley, says Mr. Colliss, is ideal for the raising of fruit. He will quote many other reasons why this is so, but the most convincing one is the display of fruit, all grown on land owned or adjoining his company's land near Summerland.

In speaking of the future of the fruit industry in British Columbia, Mr. Colliss called attention to the fact that while the Pacific Coast States have over 750,000 acres of fruit land, most of which is to-day bearing fruit, that the price of apples in the United States is advancing steadily and will continue to do so, owing to the increase in the population, and the demands of the export trade.

In British Columbia there is only about 15,000 acres that are suitable for the raising of high grade fruit, so it can readily be seen that fruit land in British Columbia will demand a much higher price than land in the states, owing to the rapid increase of population in the Dominion, to say nothing about the superior quality, for Okanagan apples are to-day conceded to be the highest grade of fruit raised on the American continent.

Mr. Colliss terms his exhibit, one of education, saying that his idea in showing this fruit is to educate the people regarding what is rapidly becoming one of the great resources of the Dominion.

(These apples were some prize specimens exhibited at the recent Apple Show here.—Ed.)

## SUNDAY MASS MEETING.

Next Sunday is "World's Temperance Sunday." The churches throughout the length and breadth of the country will on that day give special attention to the temperance cause. A combined mass meeting of children and adults is announced to be held at the Baptist Church, Shaughnessy Avenue, at three o'clock.

In view of the recent request made to the Municipal Council some facts referring to this request for an amendment to the Municipal Clauses Act may be of interest. British Columbia is now the only province that does not have a local option law. Prince Edward Island is total prohibition, also Nova Scotia, excepting Halifax. Over half of New Brunswick and over half of the municipalities of Quebec and Ontario have local option. The same may be said of Manitoba and this law is also in operation in a large part of Saskatchewan and Alberta.

The amendment asked for does not seem unreasonable, it simply places the power to deal with the liquor licenses in the hands of the local authorities.

She who buys "bargains" is often "sold."

## B. C. POTATOES WIN STILLWELL TROPHY

### AND \$1,000 IN COMPETITION WITH WHOLE CONTINENT.

Victoria, Nov. 5.—By winning the Stillwell trophy and \$1000 at the Great Pan-American Exhibition at New York Saturday, British Columbia has earned the reputation of growing the best potatoes on the North American continent. The exhibit which gained this award consisted of 101 varieties drawn from all sections of the province, aggregating in weight about one and a half tons. The credit for the display rests entirely with the Department of Agriculture. The entire province was scoured to secure the finest specimens, and Mr. W. E. Scott, Deputy Minister of Agriculture and those who assisted him in the task deserve the highest praise for the new honor which they have won for the province.

The exhibit was in charge of Mr. Ashael Smith, the "Potato King" of British Columbia, who brought with him to New York as assistants in charge of the display Mr. Stuart Wade, New Westminster's publicity agent, and Mr. H. McClure Johnson of Vernon. The potatoes were secured from the Okanagan, the Kootenays the Fraser Valley, Ashcroft, and Salmon Arm district under instructions from the Department of Agriculture. They were packed at New Westminster in boxes totalling thirty pounds each and each specimen was wrapped and packed in the same manner as apples, so as to insure their arriving at their destination in the best condition.

That the potato industry of the province, which is admittedly carried on in a slipshod manner, should have been successful in winning the great Stillwell trophy is a wonderful encomium on the productivity of British Columbia's soil. The provincial exhibit was in competition with carefully selected displays from all agricultural areas of the continent. It is only a few months since the idea was first mooted that British Columbia should compete, so that there was nothing done in the way of preparation and the specimens selected just as they are grown year in and year out in the province.

The value of the advertisement cannot be over estimated. Mr. W. H. Scott, Deputy Minister of Agriculture, stated last night when asked to express an opinion on the result which was communicated to him by wire, said that he believed that it was one of the greatest advertisements which the province had ever secured. As far as he knew practically every state in the American Union was represented by an exhibit, so that the outcome was an immense triumph for the fertility of the soil in this province.

## SUMMERLAND THE BEST YET.

In conversation with one of our citizens, the Commissioner touring Canada investigating the fruit industry throughout the country, stated that Summerland was the most up-to-date place he had seen, and he had been on the road since last July.

## BAD TASTE.

The New York Herald, in withdrawing its staff correspondent from Ottawa in disgust, because Canada voted down reciprocity, has displayed rank bad taste in asserting, as falsely as insolently, that if the United States desired to acquire Canada, neither Canada "nor its overlord, England" could prevent it. Even so foolish a journal as the Herald, says an Eastern exchange, must know enough history to realize how little there is to support such bragadoelo. Bitter recollection should have prevented the Herald from talking such nonsense, even in a fit of ill-temper. Commodore Bennett ought to suspend himself for three weeks for inexcusable bad judgment and worse taste.

In Jewish marriages the woman is always placed to the right of the bridegroom. With every other nation of the world the bride's place in the ceremony is to the left.

## SCHOOL BOARD MEETING.

### A Number of Complaints Are Lodged.

#### Petition to Re-Open Town School Not Granted.

The Board of School trustees met in regular session at the Municipal Offices on Monday afternoon. As in the morning with the Municipal Council, so with the Trustees, were delegations much in evidence to make complaints on various matters. Communications were received from the Health Inspector, the Department of Education, a petition to open the town school was read, and a number of other matters of general interest discussed.

That taking up most of the time and creating considerable interest, and surprise as well, on the part of some of the trustees, were the numerous complaints in connection with the transportation service for the people, and conditions at the Central School during the study hours.

Several people from Trout Creek complained of the absence of robes or other means to keep the children warm in transit. They had been before the Board five weeks previously, and made the same complaint, receiving the promise that matters would be made right at once. According to the complainants, there had been no improvement, and for some weeks a number of children as a result had not been attending school. The absence of covers for some of the rigs and their not being sufficiently enclosed to keep out wind rain and mud and the total lack of robes were complained of.

The chairman of the Board stated that he, with the other trustees, had immediately after the meeting five weeks previously, gone to the contractor asking to have these matters made right, and while still there they had seen the measurements taken and, as they understood, orders given for lap robes, and they were also given to understand that material for the covers would be ordered immediately. One citizen stated that he had been to Mr. J. S. Ritchie, who it was understood had the order for the robes, and learned that while he had taken the measurements, no definite order for robes had been received by him. Another stated that it was only on Saturday the 4th inst. that the hoops for the tops had been ordered.

#### DANGEROUS DRIVING.

Another, and perhaps more serious complaint was that the rig which carries the Trout Creek children is driven down the Gulch hill at a very dangerous pace. A citizen reported that when he had spoken of the matter to the driver the latter said that the brakes would not work and that his horses would not or could not hold back on the hill, and of necessity he had to let them go at a rapid pace.

Yet others complained of the conditions at the Central School. Some of the children have complained to their parents that some of the rooms were not sufficiently heated and that as a result, several had contracted colds. One parent reported that the children were not allowed to eat their lunches in the building.

While it was generally known among the Trustees that the vehicles for conveyance were not satisfactorily equipped, the report of the fast driving down the Gulch hill and of the improper heating

and turning out of the children at the lunch hour, with a number of other minor reports of the conditions at the school, came as a surprise to them and called for some rather indignant remarks. It was pointed out that the consolidated school was altogether a new idea here, and that things were not sufficiently organized to have everything running properly, but the Board hoped to have everything satisfactory in a very short time.

The Medical Health Officer's report was received and read. This report shows that a number of the pupils attending school were suffering from minor physical ailments or defects.

#### TOWN SCHOOL PETITION.

The petition to open the town school was signed by some forty-two citizens, in some cases mother and father both signing. However, there were very few, if any, parents in the town district that have not signed the petition. The reasons given for the request are that the children have to stand around awaiting their conveyance and that the means of conveyance itself is unsatisfactory.

The Board, of course, realized that these conditions applied to other districts as well, and to comply with the request would be to dispense with the Central School system. The Department of Education pays one half of the cost of conveyance and, of course, this proportion of the teachers' salaries, and under the present conditions the Board was sure that the Department would not assist in the maintenance of another school, and for the Municipality to assume the expense of a teacher and the heating and care of a school was impossible. The chairman, however, made the remark that as the Primary department at the Central school is now well filled that "that time is coming, and coming soon, when there will be need to open the school."

The following resolution was passed in reply to the petition: "Owing to the fact that the contracts for hauling the children have been made for the year and that the government desires to make a reasonable experiment of the consolidated school and owing to the increased expense needed we do not see our way clear to comply with the petition calling for a primary school to be opened, but we expect that the increase in the number of pupils will justify this another year."

The Board are in receipt of a handsome engraving of the Royal Family from the Department of Education at Victoria, with the request that it be framed and put in the High School. The secretary was instructed to carry out this request.

As there have been some complaints of the irregular hour of opening school, it was decided to procure a suitable clock as well as thermometers for each of the rooms.

Mrs. T. C. Orr, who had a very fine exhibit of wild flowers pressed in their natural shape at the Apple Show, offered to donate same to the High School provided a suitable case was provided to hold them. No definite action was taken at Monday's meeting.

#### NEED FOR FRUIT INSPECTION.

A Summerland resident who recently visited Banff tells the Review that while there he saw apples marked "Fancy B. C. Apples, \$2.75 a box." The apples thus displayed, he declares, were unfit to eat. They were small, scabby, and inferior in every grade. Such apples, he declares, would not be accepted any grade at the local packing house. Evidently they were not Okanagan apples.

Such a display being exposed to the view of travellers passing through will do more harm than many dollars advertising can counteract.

#### CLOSE SEASON FOR BEAVER.

An order-in-council sent out by the Provincial Game Warden makes the trapping of beaver illegal in that portion of the Similkameen Electoral District included in the Okanagan river and lakes between Pentleton and the boundary line of the United States of America; and also in the watershed of all streams and lakes running into the said Okanagan river and lakes, between the same points.

In Chicago they are teaching school children how to get on and off cars.

[Continued on Page 8.]

## The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED,  
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

### Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. for first inch and 25c. each subsequent inch each insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c. per counted line, 10c. per line each subsequent insertion.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted, throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method, customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 10, 1911.

### HON. MARTIN BURRELL BANQUETTED.

The citizens of Kelowna and the Okanagan generally are to be congratulated on the splendid success attending the complimentary banquet given in honor of the new Minister of Agriculture last Thursday evening in the Kelowna Opera House.

No doubt there are those who attended the banquet expecting Mr. Burrell to give a clearer statement of policy to be pursued by himself in his administration of the affairs of the Department of Agriculture, but Mr. Burrell is wise, and he said little which could possibly be a source of embarrassment to him later on, when he becomes better acquainted with the needs of his department. He assured his hearers that he would exert every effort to so administer the affairs of his department as to place the agricultural industry of the Dominion on a most prosperous basis. He promised to give sympathetic consideration to every proposition submitted to him, but did not make any other promises, either for the district or individuals.

Knowing the man, this is sufficient. Mr. Burrell would say nothing which could possibly give offence, nor would he presume to speak for the new government, nor even for his own department, knowing as he does so little of its scope and requirements. When he has had a chance to see it in operation, and to become better acquainted with the work, Mr. Burrell will be in a better position to speak with definiteness, and with a knowledge that will make his statements bear weight. Until that time, Mr. Burrell is very canny in his statements.

### A BOOSTER THAT DELIVERS.

Amongst the boosters of us all, I want to mention the name of my old friend, J. M. Robinson, the booster of the West; he is not a booster that cannot deliver the goods." Thus spoke Hon. Martin Burrell in his "warming-up" remarks at Kelowna last Thursday evening. Mr. Burrell then painted a word picture of the hills of Summerland today and contrasted it with what was to be seen here only a few years ago, and in passing he paid a glowing tribute to the men of Summerland who are responsible for this great transformation.

We sometimes get sick of too much sweetness. So much has been said reflecting credit upon the work of Summerland's citizens that there would be ample cause for them holding an abnormal "conceit of themselves." But do we? We do not, and we do. We are just conceited enough to believe there is no district that can outclass us in point of public spirit and holding together, but on the other hand, we know it requires effort, and a lot of it, to do things better than they can be done anywhere else.

In the years to come we foresee progressive Summerland at the top notch of Okanagan cities. Not because of any natural advantage, but because of the indomitable spirit of her people and their penchant for holding together.

### A WORTHY AIM.

"A modern library in every community in British Columbia." This, in a few words is the object of the British Columbia Library Association, recently organized in Victoria, and headed by such men as Hon. Henry Eason Young, M.D., R. W. Douglas, of the Vancouver Public Library. This association was organized to encourage the organization and development of Public Libraries in this Province.

The association contemplates the passage of a modern Public Libraries Act, which would provide for the establishment of Library Boards in any part of the Province; give authority to municipalities to levy a rate for library purposes; make provision for a Provincial grant in proportion to the amount raised locally, and provide for the training of librarians and the organization, inspection and assistance of Public Libraries in the Province by an officer or officers appointed by the government.

This is a step in the right direction. It is the first step looking to making the Public Library an institution of real service to the people in the smaller towns and thinly populated sections of the Province.

No institution is of more value to a community than a public library—modern and well kept—and yet no institution is so much neglected in a small community. It is generally pushed away in the corner—at least, of the people's thoughts—and forgotten, whereas it should and readily could be made the most important institution in the community. We congratulate the organizers of the Library Association and wish them unbounded success in the work they have undertaken. C. W. Whyte, B.A., Y.M.C.A. building, Victoria, is secretary of the Association, to whom all interested are requested to write.

### PREMIER BORDEN'S POLICY.

If any doubt exists in the mind of anyone as to the policy to be pursued by Premier Borden's government, that doubt may be dispelled. In reply to a toast to himself at a banquet in Halifax given on November 8th, Mr. Borden said in part:

"In some quarters which I need not name, the claim has been made that the result of the election was due to some hostile or unfriendly spirit on the part of the Canadian people to the great neighbouring republic. It is desired that any such idea, if it exists, should be dissipated and dispelled. The recent election of the Canadian people was in no respect induced by a spirit of unfriendliness to the United States. It was rather brought about by their determination to maintain complete control of their own fiscal system, and to mould their own destiny

along the lines of a policy which has been pursued in this country for the past thirty years. Canada is an autonomous nation within the British Empire, and is closely and inseparably united to that empire by ties of kinship, of sentiment and of fealty, by historic association and tradition, by the character of its institutions, and by the free will of its people.

"The policy of the Liberal-Conservative party as presented to the people in the recent election is before you. Among some of its principal items are such encouragement of the great basis of industry, agriculture, as will enable those who till the soil to receive the highest return for their products, to turn out their products in the highest form and at the same time preserve the fertility of the land. Hand in hand with this is the aid and encouragement which we propose for the purpose of establishing and maintaining permanent highways of a character suitable to our conditions. The regulation of our tariff upon reasonable business principles is an important article of our policy that is to be carried out by the establishment of a permanent tariff commission which will ascertain all necessary facts in connection with the conditions and cost of production and which will advise as to the conclusions which ought to be drawn from the facts so ascertained.

"We propose also to extend that reform of the civil service which we initiated while in opposition and which the late administration carried out in part upon our initiative. So far as trade relations are concerned, we believe that the true idea of reciprocity can be found within the vast Dominions of this empire with its wonderful variety of natural and other products which can be exchanged to the mutual advantage of all.

"We do not claim to be infallible, but we do claim that as servants of the people of Canada we shall give to our public duties the best that is in us and no man can do more."

### STRENGTH OF CHARACTER.

"There are no circumstances so poor but that character may display itself and make itself therein. Strength of character lies not in demanding special circumstances, but in mastering and using any that may be given. Our work and our daily contact with others form our scene of action, and God blesses with a peculiar blessing the efforts put forth to profit, not some self-selected occasion, but the actual conditions in which we find ourselves.—Canon Scott Holland, "Creed and Character."

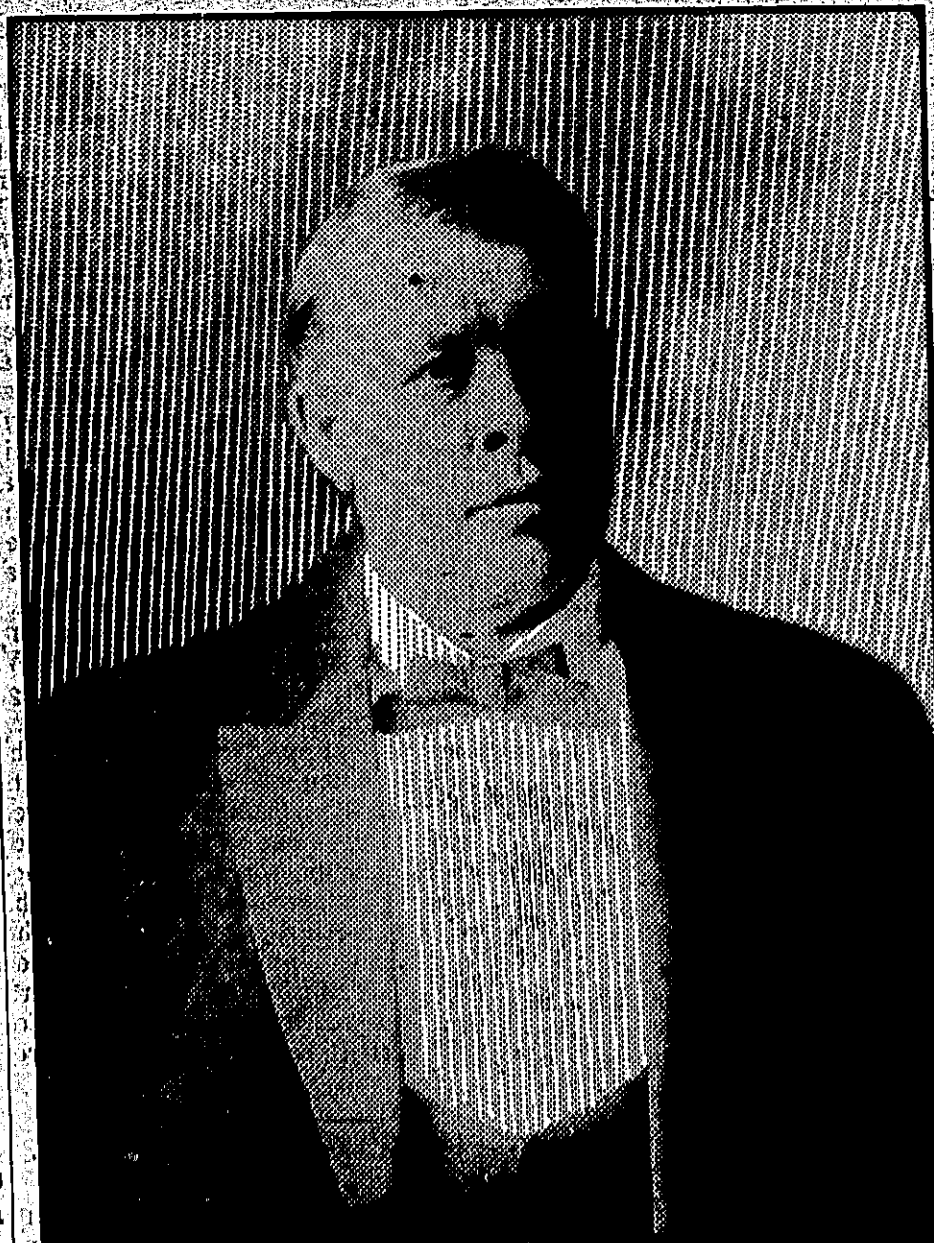

Avoid what makes thy pocket a void.

### WHEN FOWLS SNEEZE.

Sneezing in fowls belongs to dis-temper or a cold in the head, and in itself is only a slight ailment. In quite young chicks the trouble is best treated by putting four drops of tincture of aconite in a half pint of drinking water. Use the homeopathic aconite. For the older chickens, tie a piece of assafoetida about the size of a hazelnut wrapped in a piece of muslin and fastened in the drinking fountain or vessel so that the fowls cannot pull it out.

**Kaleden Comments**

Mr. W. R. Rourke has returned from a business trip to Vernon.

Mr. T. J. McAlpin has moved with his family to Summerland.

Miss F. Hayes, of Summerland, is visiting Mrs. D. D. Lapsley and Mrs. A. S. Hatfield.

Mr. John D. Harrison is home from Vernon, having spent the last two months packing fruit for a firm in that city.

Mr. H. W. Corbett is excavating extensively under his house with the object of building a commodious cement cellar.

Mr. and Mrs. S. D. Scott, of Vancouver, were in town for a few days last week. They were charmed with the place and its environment, and will probably secure Kaleden property.

Mrs. R. P. Whitman, of Seymour Arm, has been visiting Mrs. A. S. Hatfield. Mr. Whitman is the owner of a fine orchard near the town site and hopes to make his home at Kaleden before long.

On Monday, October 30th, a successful and satisfactory Thanksgiving Dinner was given by the Women's Club. The proceeds, which amounted to some seventy dollars, are to be used in connection with the newly established library and reading room. The cookhouse dining tables were tastefully arranged, and the menu consisted of soup, turkey, lamb, plum pudding and various other delicacies, all gratefully absorbed by the inner man. After dinner speeches were made by Rev. T. N. Ritchie, Mr. Jas. Ritchie and Mr. George Purvis, winding up with a neat eulogy to the ladies by the chairman, Mr. Jas. McGraw.

**PARCEL POST RATES.**

We frequently complain of the excessive freight charges of the railway companies and the (frequently) prohibitive charges of the express companies, and declare that our government should do something to relieve the situation. But in the matter of charges our government has not been blameless, participating in much the same practice as have the big corporations, possibly because of their influence in things political.

The question of parcels post is one that at present calls for attention and adjustment. For instance, an eleven pound parcel can be sent from Great Britain to any point in Canada by mail, whereas nothing over five pounds can be sent between post offices in Canada. Moreover a parcel can be sent from Liverpool to Summerland more cheaply than it could be sent from Vancouver to Summerland. Finally, a parcel can be sent from Montreal to Hong Kong at a considerably lower rate than that obtaining between Montreal and a neighbouring city. This is a matter that will probably receive early attention from the new government.

[Continued from Page 1.] some crookedness. The Reeve remarked that if he thought that such was a true reflection of the ratepayers of the Municipality, he would resign instantly, and he questioned the right of a few men coming together and passing a resolution, and representing it as coming from the ratepayers. Personally, he was only too pleased to work with the ratepayers of the Municipality and he again declared that if he could believe that this was from the ratepayers of the Municipality he would resign that minute. To begin with, this Council had nothing to do with last year's business.

**HOSPITAL AFFAIRS.**

A statement of the present financial standing of the hospital was presented by several members of the Hospital Board, with the request that the Council meet the deficit which had been incurred. The Council were quite willing to undertake to assume the liabilities but were not in a position to do so. However, the following resolution was passed: "That the members of the Council, having heard the statement made by the Hospital Board regret that the funds of the Municipality do not at present allow of their giving a grant, but strongly recommend that at the beginning of next year a grant be made them sufficient to relieve them of any financial liability."

Mr. G. J. Coulter White called the attention of the Council to the unsatisfactory condition of a road near his property. This was referred to the Board of Works to be looked after at once.

**WATER EXTENSIONS.**

The Trout Creek matter was not the only thing which took up a considerable portion of the Council's time. The discussion which followed the reading of the report by Engineer Latimer on the installing of an irrigation system on Paradise Flat was long and tedious, and practically nothing was accomplished thereby. The Engineer recommended that a stove pipe system be used. This was adopted, upon condition that the pipes could be kept filled throughout the year. The plant, according to an estimate made by Engineer Latimer, will cost \$6,200. This does not include the cost of tapping a spring on the opposite side of Trout Creek, which the Engineer believes would be advisable.

The report of the cost of building the Trout Creek dam estimates the necessary expenditure at \$1,908 considerably higher than was estimated by the Council. Dam, \$1,155, 575 feet of pipe (to connect with the present distribution system), \$575, sundries, \$173.

Engineer Latimer was expected here early this week to go further into the matter of a power site, and a resolution authorizing him to examine and report as to a power site, and to make the necessary surveys for same on Eneas and Trout Creeks and their tributaries was passed.

The Council then adjourned to meet next Monday morning at nine a.m.

**THE DISPOSAL OF SEWAGE.**

(From the B. C. Building News)

The problem of sewage disposal is encountered at every residence, public school, and institution outside the city, and by many inside the city. Villages and towns are often without any disposal whatever, and even cities have systems which are worthless. And so it happens that the problem is well-nigh universal. As a result, typhoid fever and other filth diseases flourish everywhere. A large number of people employ the primitive vault, many the cess-pool, and a few the so-called "septic tank." When possible, drains carry it into running streams, or lakes, but rightly understood, one is about as bad as another. One poisons the lakes or streams which should be kept pure for regular or emergency use of those who need the water. The other more or less permanently poisons the earth and the underground water supply, both of which, on the highest consideration, should be kept as free as possible from contaminations. When sewage is deposited a few feet below the surface, it may live for ever. Excavations in old Babylonia have uncovered filth forty-five hundred years old.

It cannot be too strongly emphasized that the septic tank alone under no circumstances effects more than a thirty per cent. purification, and usually it does less than twenty per cent. But it does not perform the necessary office of liquification, though if the tank is properly constructed, it is possible to so treat the liquid effluent that it becomes as pure as ordinary good drinking water. But if the tank is not properly constructed, the effluent cannot be so successfully treated by any known means. It can easily be too large or too small, the proper dimensions being a matter of sound engineering judgment depending on local conditions. The liquification is due to bacterial action without atmospheric oxygen. It is a fermentation which develops when sewage has been kept from the air for a certain length of time. If underdone or overdone fine results are impossible.

To accomplish purification, the effluent should be aerated, and must be subjected to a further bacterial action with atmospheric oxygen. This process calls for filter beds. These filters are of different designs, known as intermittent sand, contact, percolating and combinations thereof, depending on the character of the sewage to be dealt with, the outlet, and general surroundings. However, it is always possible to do it well at reasonable expense. Residential systems can usually be installed at a very modest outlay and be entirely concealed from view within very narrow limits. In view of these facts, it is deplorable that these plague spots are not prohibited by law, and the public compelled to promote sanitary conditions. Some of the eastern and central states are making substantial progress, and the sooner the Pacific Northwest makes a start, the better it will be for all future. The state board of health in Minnesota, for instance, has been given authority by the legislature, and its first substantial move was to prohibit the emptying of sewage into any of the rivers or lakes within the state. Other regulations are following, and it is hoped that ultimately even the isolated farmhouses in the country will be compelled to provide proper drainage and sewage disposal.

**A GOOD POSITION**

Can be had by ambitious young men and ladies in the field of wireless or railroad telegraphy. Since the eight hour law became effective, and since the wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Position pay beginners from \$70 to \$90 per month; with good chances of advancement.

The National Telegraphy Institute of Portland, Oregon, operates under the supervision of railroad and wireless officials and places all graduates in position. It will pay you to write them for full details.

**HOW TO LIVE.**

"How to die" is not half so religious a question as "How to live." The man who lives with a clear conscience will die happily and without fear. The problem of life is living not dying. Life is the most natural gift of the Creator, for He gave man life by breathing into him the breath of life. He wants us to live long and live well. "I am come that they might have life, and that they might have it more abundantly."—John Timothy Stone.

**CAN YOU GUESS?**

Do you like mathematical problems? Here's one, simple but puzzling. A certain gentleman expecting the boat to be late, wired to his hired man to meet him with the buggy at 6.30 p.m. on the wharf. The boat arrived however at 4.40 p.m., so he started to walk home at three miles an hour and he met his buggy when it had gone eight miles. He got in and drove home, arriving there one hour earlier than he had originally expected to.

How far was it from the wharf to his house, and at what pace did the buggy travel?

**ALFALFA A SOIL BUILDER.**

One great virtue of alfalfa is its ability to increase the nitrogen content of the soil. About 77 per cent of the air is nitrogen. It is estimated that there are 35,000 tons over every acre of land, worth, at the present rate of 18 cents a pound, over \$12,000,000, if it could be used. It is taken out of the air into the soil by very minute plants called bacteria, which live in the little nodules found on the alfalfa roots. It takes about 25,000 bacteria to measure an inch.

They take the nitrogen from the air and use it in their life processes and then give it up to the alfalfa plant in another form. Alfalfa plants remove a large amount of nitrogen from the soil, but the bacteria collect so much that a portion is left for other plants that follow.

If the soil is too wet, the bacteria cannot work, and if too hard, the air containing the nitrogen cannot get to them.

All plants which have the ability to add nitrogen to the soil like alfalfa, are called legumes. Some legumes closely related to alfalfa are sweet, red and white clover; some more distantly related are beans and peas.

## Naramata Notes.

Mr. R. Reid has decided to build on his lot and has already begun work on the foundation.

Mr. and Mrs. Fred J. Young have moved into their new house on their lot south of town and near Mr. Schreck's.

Mr. Hancock made a successful trip recently into the hills back of his ranch bringing home with him a choice lot of venison.

Edith Hayward was a week-end visitor under the parental roof. Miss Hayward reports that the work at Okanagan College is progressing favorably.

Mrs. Aikens accompanied by her mother, and sister Miss Colby left on Tuesday for Vancouver where they purpose spending a few weeks before going on south to California for the winter season.

The Sunday School folk are already facing the eyes and hearts of the children toward Christmas and the usual Christmas entertainment. A preparatory practice was conducted on Wednesday by Miss Williams.

The ladies sewing circle held their weekly meet at the home of Mrs. Lyons Wednesday afternoon. The ladies with commendable forethought are preparing for a Bazaar on December 7th. in order to provide the church with a suitable organ.

Who said that the days of large fish and "much" deer are the past days? Some people are doing nicely in present times. Those who know say that Capt. Languedoc can land big fish almost any old time his last catch weighed a trifle over nine pounds.

Master LeRoy Boothe has been appointed general office boy with the Trust Company here and entered upon his new duties on November 1st. Roy will study stenography and general business methods under the practical supervision of the capable staff.

Mr. and Mrs. A. F. Large are amongst the latest arrivals in Naramata. Mrs. Large is a sister of Mrs. Myers. Mr. Large is temporarily filling the position of his brother-in-law Mr. Myers who has given up working for the Company and is now at work for himself on his fruit lot. His friends wish him every success in his new venture.

Did you ever hear of dull times in Naramata? Don't look much like it just now, if social events keep coming as they sure are this season. Next week—18th November is the date set for the Chicken Dinner by the Unity Club ladies, at the home of Mrs. Wells. And the Bazaar December 7th., to say nothing of the events being spoken for by the lovers of the "light fantastic."

### LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

OUR APPLES IN THE EAST.  
November 6th, 1911.

The Editor,  
The Summerland Review,  
Summerland, B.C.

Dear Sir:

The wonderful display of fruit at our recent Apple Show filled me with the wish to let some of the people in my old home in the East know what our Valley is capable of. So with the assistance of Mr. Thomson, I secured a box of Spitzenberg, and sent them to Mr. S. R. Hesson, of Stratford Ontario.

His appreciation of them will perhaps be interesting reading for your readers. He writes:

"They are simply the most perfect I have ever seen, and the flavor is fine, reminding me of the old famed Spitznberg, which, I am sorry to say, we never see now—why, I cannot say. But I fancy our winters are too hard on the trees. Such fruit would go round the wide, wide world and arrive in good condition, and keep until May or longer. Your Valley well deserves the name of Summerland. If I may judge by the high color of the apples it must be indeed a land of sunshine."

Yours truly,  
J. A. KIRK.

Maybe there are no honey bees.

## BLAMES SUMMERLAND

FOR DELAYING RAILWAY CONSTRUCTION WORK.

(From the Penticton Herald)

That Mr. J. J. Warren is a much maligned man is evident from the statement made by Reeve Foley-Bennett at the last meeting of the Council. It has been the practice, not only in Penticton, but in other towns through which the Kettle Valley Railway will eventually cut, to place the blame for the delay in proceeding with the construction of the line, on the shoulders of the President of the railway, but it is evident from the confession of Mr. Rice, one of the contractors, that not at Mr. Warren's door must be laid the responsibility for the measured way in which progress has been made. The contract for the line to Merritt was given to the Vancouver and Spokane firm several months ago, but owing to the opposition met with from the Summerland people, who naturally desired the railway through their little burgh, construction work could not be undertaken. This difficulty has practically been overcome, and although only five miles out from Penticton, are put in hand Messrs. Rice have succeeded in securing the whole of the contract on each side of the lake from Summerland on the east, and Merritt on the west. Patience is a necessary virtue in a heavy country like British Columbia, where difficult grades have to be negotiated, and plans carefully drawn before work can be attempted.

## NEW CHURCH OPENED AT PEACHLAND.

DEDICATION SERVICE HELD.

The opening of the new Methodist Church here last Sunday was the event of the past week. In spite of the rainy day good congregations were present both morning and evening. In the morning Dr. J.H. White preached the dedicatory sermon and conducted the regular dedication service afterwards, with him on the platform and assisting in the service were Revs. Mr. Fisher, A. W. MacLeod, R. J. McIntyre and J. S. Allan. At the Sunday School in the afternoon addresses were given by the visiting ministers and the pastor Mr. Allan. The Rev. R. J. McIntyre who was the first pastor of the congregation, preached in the evening being assisted in the service by the other ministers present. At the conclusion of the regular service Dr. White administered sacrament. The Presbyterians and Baptists very kindly withdrew their services for the day and a good many of the two churches were present at the services. Monday evening the ladies of the congregation gave a supper in the Orange Hall, this was followed by a meeting in the church where a good program of music and addresses was enjoyed by a large audience.

Both the Sunday services and the Monday evening meeting the choir under the able management of Mrs. Geo. Mitchell furnished appropriate music and contributed largely to the success of the occasion. Mrs. E. F. Lang had charge of the new organ and accompanied the choir and soloists in her usual efficient manner.

All the speakers complimented the congregation on the splendid appearance of the new church. Dr. White pronounced it the finest Methodist church in the Valley.

### COURAGE AND HOPE.

How often do we hear the admonition: "Keep your head above water." The best way to fulfill the injunction is to keep the spirit above. Courage, hope, what can a man not do with these? What is he able to do without them. Courage is an elixir of life, giving power to both mind and body. It strengthens the sinews, it revivifies the spirit. It makes life, indeed, worth living.

"But," it may be asked, "how can a person gain courage who is not 'born with it'?" There are two requisites: 1. He believes that what he is doing is worth doing. 2. He must feel that of all the things in the world it is the thing that calls him: With those convictions, he is equipped with weapons that shall level every obstacle, make a path through every maze—for of these are born courage and faith.

SHORT COURSES FOR FRUIT GROWERS.

The B. C. Department of Agriculture has this year arranged for short courses in fruit and vegetable growing to be conducted by the officers of the Horticultural branch. This will mainly be conducted under the auspices of the Farmers' Institute. Short courses will be held during December, January and March. In general character these meetings will be quite different from and superior to the usual institute gatherings. The majority of the addresses will be given by officials of the Horticultural branch who are thoroughly conversant with conditions. Meetings will extend over two days morning, afternoon and evening. Special features will be practical demonstrations, study of soils, special lectures will be given by the Deputy Minister of Agriculture, the Prairie Market Commissioner, and prominent fruit growers. The series of lectures and discussions will be framed in each case to meet local conditions. The selection of orchard sites and soils, buying of Nursery stock, propagation of trees, grafting budding, and the planting and care of the orchard, fertilizers, and use of cover crops, prevention of winter injury, plant physiology, insects and plant diseases. Spraying, growing of small fruits, judging and exhibition standards, practical co-operation and buying and selling, economy in production, simple book-keeping, marketing commercial productions of potatoes, profitable onion growing are some of the topics which will be discussed.

SCHOOL REPORT.

Report of Summerland Public School for the month of October, 1911.

Division 1.—Number enrolled, 32. Average actual attendance, 26 plus. Pupils making an average of 75 per cent or over. 1. Leighton MacLeod; 2. Gordon Ritchie; 3. Harvey Phinney.

Division 2.—Number enrolled, 49. Average actual attendance, 36 plus. Pupils making an average of 75 per cent or more.

Junior 4th.—1. Alex. Munro; 2. Jennie Brewer; 3. Donald McIntyre; Hattie Phinney, Allen Harris, equal; 4. Eva Bloomfield, Helen Robertson, equal; 5. Edna English.

Third.—1. Herbert Williams; 2. Olive Bristow; 3. Kathleen Merrill; 4. Marjorie Hatfield; 5. Fairy Adams.

Division 3.—Number enrolled, 47. Average attendance 37. Honor Roll, pupils making 75 per cent or over. Senior 2nd.—1. Opal Thomson; 2. Gertrude Darke. Junior 2nd.—1. Joe Gayton.

Senior 1st.—1. Lily Simpson; 2. Ruby Thomson; 3. Gertrude Angwin; Hugh McIntyre, equal.

Second Primer.—1. Milton Phillips; 2. Helen Campbell; 3. Dorothy Darlington, Carroll Graham, equal.

Primer A.—1. Roland Reed; 2. Allivano Phillips; 3. Hilda Arnett.

Primer B.—1. Warren Gayton; 2. Bessie Thompson; 3. Grace Garnett.

Primer C.—1. Esther Stevens; 2. Hazel Stinson; 3. Glen McCulloch.

Eighty-five per cent of all headaches are the result of eye-strain. Are you troubled that way? If so consult S. L. Taube of the Taube Optical Co. He will be at the Summerland Drug Co's store, on Monday November 13th.

Hon. Martin Burrell, Federal Minister of Agriculture, was re-elected last Friday by acclamation.

The election returns for Yale-Cariboo are now complete. Burrell received 4102, MacDonald 2061, Johnston 251. Dr. McDonald will therefore not lose his deposit, having secured 10 more votes than half the number cast for the Conservative candidate.

There seems to be no doubt that the police authorities have captured two of the men who participated in the recent Bank of Montreal robbery at New Westminster. Two men who had been paying out some Montreal Bank notes were suspected and arrested at Vancouver. Further evidence fully justifies the arrest.

Bill Miner, the notorious train robber who escaped from a Georgian penitentiary recently, has been captured in that state and is again in the clutches of the law. He and a companion were located in a box car. "Old Bill" offered no resistance, but his companion did, with the result that he was shot and killed in the fight that ensued.

Local News Items.

Mrs. C. M. Smith was a visitor at Peachland this week.

Hector Sutherland recently returned from a visit to Winnipeg.

People are willing to admit a man's ability after he gets there.

Wm. Smith of Garnett Valley is home again after spending some months on the prairie.

Anyone desirous of purchasing some nice chrysanthemums may procure same at W. J. Robinson's greenhouse.

The Scotch are going to celebrate St. Andrew's Day, Nov. 30th with a concert followed by a dance in Empire Hall.

Tom Hickey and Jack Craig, who have been in the prairie provinces for some weeks, have returned to Summerland.

The W. H. Wilson lot and cottage has been purchased by H. H. Elsey, who, with his family, has recently come to Summerland.

Miss Robinson, a Canadian missionary to South India, now on furlough, gave very interesting talks on Sunday last morning, afternoon and evening.

The Southern Okanagan Poultry Association will meet on Saturday night in the municipal hall, Shaughnessy Avenue. Matters of importance in connection with the coming Show will be dealt with.

We are having a taste of real winter. There has been a sudden drop in the temperature and snow which was to be seen on the mountains round about has made its appearance, though in very small quantity on the lower levels.

The monthly meeting of the Women's Institute will be held on Friday the 17th, inst. at three o'clock, in the Parlor of the Men's Club, when omelette making will be practically demonstrated, and ways discussed for lightening household work.

Last night's ball, held under the auspices of the Agricultural Association in the new Exhibition Hall, was pronounced a very successful affair, and was very largely attended. The buffet supper served from 10 to 2 received much favorable comment.

The gale seemingly terminated our summer weather. For several days the thermometer has been steadily dropping and at 7 o'clock this (Friday morning) the official reading at the Government Station was 6 above zero. This, we believe, is the lowest for November in Summerland's history.

The Lakeshore Telephone Co. are extending their system around the foot of the lake and up the other side as far as Naramata. They already have a number of subscribers in Naramata and in a very few weeks the connection between there and the Telephone Co.'s head office here will be completed.

Professor C. D. Denton, formerly of Okanagan College staff, passed through British Columbia last week on his way to California. He was accompanied by his sister. They will spend at least the greater portion of the winter in the sunny south. Friends who saw Mr. Denton state that he is looking particularly well and now weighs over two hundred pounds.

The heavy northerly gale of Tuesday night raised quite a sea on the lake which piled up in alarming shape at the southern end. The steamer Okanagan, moored at Penticton, was temporarily disabled. Her hog chains—the stays which are the back-bone of the craft were broken. There was therefore no north point trip made Wednesday morning. The Aberdeen made the down trip that afternoon.

Next Sunday is Temperance Sunday throughout the Sunday Schools of the word and arrangements have been made locally to hold suitable exercises on that day. The Summerland Branch of the Local Option League, the local W. C. T. U. and the down town Sunday Schools are all operating in a mass meeting to be held in the Lakeside Baptist church at 8 o'clock. An attractive educational program is arranged, and a resolution seeking improved Provincial Legislation on Temperance lines will be presented for adoption. This meeting is public and should be well attended.

W. A. DOYLE,  
n 10-17p West Summerland.

A Peachland resident who has not kept pace with local improvements, was the first would-be passenger from here for the Sunday boat, and accordingly early Sunday morning went down to the old wharf to await her arrival. When he noticed the ship turning her brilliant headlight on the C. P. R. wharf, he started to run for it. Although he made the distance in record time he did not make the connection and in no very pleasant mood stood watching the rapidly disappearing steamer.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 4, No. 16

SUMMERLAND, B.C., NOVEMBER 17, 1911.

Whole No. 171

## Adjourned Session of Council.

### Accounts Totalling \$17,000 Are Passed.

#### INCREASE OF SALARY FOR ACCOUNTANT.

An adjourned meeting of the Municipal Council was held on Monday morning. Committee business occupied much of the earlier part of the forenoon, and regular Council business was not commenced at the usual hour. The full Board was in attendance.

A letter from A. F. Solly was read asking permission to remove a tree on the roadway adjoining his property. This request was referred to the Board of Works to be looked into. Another letter from the Superintendent of Fire Wards was placed before the Council. This letter follows up a previous request for a cheque for expenses with the Giant Head fire. The legal position of the Council will be learned before any definite action is taken in this matter.

#### REBATES.

The Board of Works advised that the following applications for rebates be allowed: G. M. Loomer, W. E. Grieve, for domestic water general and user's rates. O. E. Dobree, A. Richardson, and E. T. Mountford, for irrigation rates, that of Mr. Dobree covering two years. This report was approved by the Council.

The Board of Works also reported that they had inspected the new pipe line recently laid by contract with the Canadian Pipe Company, and found that there were now only two leaks to be repaired. They recommended that a portion of the pipe near S. M. Young's have extra covering.

The payment of a further sum of \$123.88 to Engineer Latimer, for the surveying of a route through the Municipality for the Kettle River Valley Railway Company was authorized. This makes a total expenditure for locating this route of \$623.88.

There was some general discussion as to the abolition of dispensing with the ward limits and of increasing the number of members on the Council. No action was taken.

## The Female Wage Earner.

"Is it possible for a female wage-earner to save from her monthly wage an amount which in the aggregate will be sufficient to provide her with an income from the time her earning days are over?" was recently the subject of an interesting discussion at a Women's Club, and the conclusion came to was, that if the wage-earner were earning less than \$500 a year this would be extremely difficult. For the purpose of illustration, the period of accumulation was assumed to be from 23 to 60, and the amount of capital required \$6,000; in order to yield an income of \$300 a year, which was considered to be the minimum amount on which she could maintain herself with comfort and respectability. All this may be quite true. But there is another plan of investment of which the ladies had evidently not heard, namely, the Canadian Government Annuities system, which is not only absolutely safe, but which will give a much larger return for a small investment, and larger it may be said than any other plan available will give as a means of making provision for old age.

For example, if a woman of 23 were to deposit with the government yearly the sum of \$30.24 until she was 60, which she could do by weekly or monthly instalments if she preferred, or a total of \$1451.88 only, the Government would pay her \$300 dollars a year or \$75 every three months as long as she might live from after 60. If she died before attaining that age, the total payments made with three per cent. interest would be refunded to her heirs. If she died at 58 they would receive \$2425.77 or \$1052.37 more than she had paid in up to that time.

If she had no one dependent upon her and was concerned about her-

Upon a motion being put it was unanimously voted by the Council that Accountant Nixon's salary be fixed at \$125.00 per month. This increase dates back to August 1st, when increased duties were put upon him.

#### MILES OF ANTHRACITE COAL.

Immense beds of anthracite coal of the finest quality have been discovered in the Skeena River district. Thousands of square miles of that country is underlain with a fine, non-coking, smokeless anthracite. These immense coal beds are only from one hundred to one hundred and fifty miles from the seaboard. A company of eastern capitalists are proceeding at once to develop this great coalfield. It is estimated that the coal can be put down at the docks on the seaboard for \$2.50 per ton. The daily output from the new fields will probably reach three hundred thousand tons, necessitating three hundred daily trains to the port of shipment. This wealth of superior coal will probably largely revolutionize business all up and down the Pacific coast.

## C.P.R. WITHDRAW THEIR SANCTION

### TO A POSTAL CLERK ON BOARD THE OKANAGAN.

Readers of the Review will probably remember that some months ago we made the announcement that the Post Office Department was about to put a Postal Clerk on the steamer Okanagan. The need for such a service is admitted.

Under the present conditions, if a Summerland resident mails a letter for Kelowna or any other up-lake point on the steamer, this letter is carried through to the Landing and put on to the train. There it is worked with other mail matter and bagged for Kelowna and eventually it reaches its destination, after travelling many miles. The same applies to matter mailed on the downward trip of the boat. It is carried past its destination and delivered a day late. This results in a very slow means of communication between lake points and is a serious handicap.

When this matter was brought before the Post Office Department, we learn from an undoubted authority that steps were immediately taken to remedy the matter, and application was made to the C. P. R. Their consent was obtained to place a postal clerk on the boat. The necessary equipment, it is understood, was gathered, and a clerk selected, and the necessary changes in the staff were ordered. Just at this point, however, the C. P. R. withdrew their sanction to the improved service, refusing to give the necessary space on the boat.

If this corporation is as anxious to give the Okanagan Lake towns a good service as they stated when inaugurating the Sunday boat, they should not further delay the postal authorities' desire to improve their system.

## KETTLE RIVER VALLEY RAILWAY

Construction work is forging ahead on the Kettle Valley railway, which is to be the important link that will not only make a short route from Grand Forks to the coast, but will ultimately place this city on the main line of the Canadian Pacific transcontinental service. Contractors were in the city this week making financial arrangements for further construction. The building of the entire link is to be completed in 1912.

Thus far fifty-seven miles of track have been laid on the Kettle Valley line. In all, 141 miles of the road have been built or are under construction. The track has been laid from Midway west to the third crossing of the Kettle River, a distance of twenty-seven miles. It will reach Carmi, eighteen miles farther west in December, providing shipping facilities to a number of mines which have a large ore tonnage blocked out. The properties include the Carmi and the Sally with high values in silver.

Grading is now under way on a forty mile section between Penton and Osprey Lake. The contract is being carried out by Messrs. L. M. Rice & Co., and Messrs. Grant, Smith, Boomer & Hughes.

The line has also been built from Merritt in the Nicola Valley to Otter Summit, a distance of thirty miles, and a train service will likely be established shortly.—Grand Forks Gazette.

## FARMERS' INSTITUTE.

A meeting of the members of the Farmers' Institute and all others interested, will be held in the Schoolhouse, West Summerland, on November 21st, at 7.30 p.m., when the president, Mr. C. J. Thomson, will read a paper on Alfalfa, and other important matters with reference to the work of the Institute will be discussed. A large attendance is requested.

R. POLLOCK, Secretary.

## CANADIAN TO SUCCEED MR. BALFOUR.

Mr. Bonar Law, a native of New Brunswick, has been appointed leader of the Unionist party in Great Britain to succeed Hon. A. J. Balfour. It is expected that Mr. Law will zealously advocate Tariff Reform.

## PRINCIPAL McDONALD RESIGNS

### SUBSTITUTE OBTAINED.

Mr. MacDonald, Principal of the Public School, has resigned. Mr. MacDonald is not enjoying the best of health, having only recently suffered an attack of typhoid fever, and has taken up school work again before completely recovering. This has resulted in a nervous breakdown, and Mr. MacDonald has found it necessary to resign the principalship of the Central School. He will have the sympathy of Summerland citizens in general, and particularly of the friends he has made since coming here.

Rev. F. W. Hardy has very kindly consented to teach in Mr. MacDonald's department, but did not care to assume the responsibilities of the principalship. Arrangements have accordingly been made with Mr. Hunting, Principal of the High School, to assume charge of the Public School until a new principal is secured for that department. In order to be able to carry on the work, Mr. Hunting has found it necessary to move his school to the central building, and to make the necessary room the department now being taught by Mr. Hardy will occupy the High School building.

## SCHOOL NOTICE.

It will be considered a great favor by the undersigned if parents or guardians of pupils attending the public schools, will in future communicate with the principal in order to adjust any difficulties or misunderstandings which may arise from time to time.

Observance of this request will insure better results and prompt attention from the teaching staff.

(signed) H. D. HUNTING,  
Principal, pro tem,  
Summerland Public Schools.

## OVERSEAS CLUB MEETING.

A very successful and well attended meeting of the Overseas Club was held at the Central Schoolhouse on November 14. A letter was read by the secretary from Mr. Hector Sutherland, regretting that he was not able to be present to take the chair.

The heartiness with which the members of the Club have entered into the spirit of the movement augurs well for its future.

During the evening it was decided to have a supper on New Year's Eve at Hotel Summerland, and the price was fixed at \$1.50 per plate. A dance will also be held early in December.

The secretary was instructed to write Captain Downes, secretary of the Club at Vernon, asking him to be the guest of the local Club at the New Year's supper.

Under date of October 17, the Summerland Club sent a formal letter of welcome to His Royal Highness the Duke of Connaught, and the following acknowledgement was read at the meeting:

"The military secretary is desired to express the best thanks of His Royal Highness, the Governor-General, for the message of welcome sent him by the Summerland branch of the Overseas Club."

After the completion of the business of the evening, the members indulged in a programme of music, recitations, etc.

## FAVORITE OF THE WEST.

No home in this Western country can well afford to be without "The Family Herald and Weekly Star," of Montreal. It is particularly useful in Western homes. The information it gives to the new settlers, and old settlers as well, is worth hundreds of dollars a year. It is simply marvellous the amount of good instructive matter that paper contains each week. It well deserves its success. One dollar can not be better invested in Western homes than by ordering that great paper. A beautiful premium picture entitled "Home Again" is also included, and it is well worth the dollar alone.

Fear of failure is father of failure.

## Government Packing Schools.

### Educative Policy Will Be Extended.

#### A SCHOOL FOR EVERY FRUIT DISTRICT.

The following announcement of the fruit packing schools to be conducted by the horticultural branch of the Department of Agriculture, will be read with interest. This work was begun two years ago, largely in an experimental way, but the very gratifying results fully justify the considerable extension of the work last year. Considerable improvement in the character of the product of many districts has resulted. Seventy-five per cent. of the packed fruit exhibited at the Fairs throughout the Province this year was packed by the packing schools. This work has thus become of considerable significance in the development of the fruit industry, and through it, it is hoped that the invasion of Japanese and Chinese packers, so successful in California, will be largely prevented in this province. Another advantage is the development of the uniformly good pack from all districts.

The department of Agriculture, in accordance with its policy of education, will continue the fruit packing schools as inaugurated two years ago and extended last winter. The five packing schools with an attendance of 120 pupils in the spring of 1910, grew to a total of thirty schools with a total attendance of 385 pupils in the spring of 1911. These schools proved very popular, and have undoubtedly filled a great need in the districts in which they were placed. The decision of the Department to continue its previous policy and to extend the series of packing schools to cover every district, will, it is expected, meet with the approval of fruit growers. It is hoped that this year schools will be placed in every fruit district of the Province where a sufficient number of pupils can be secured.

The expert instructors who were secured for the previous years, we are glad to say will be in charge again this year. A comparison of the class of instruction furnished here with that of Oregon and Washington, has demonstrated its efficiency for the purposes of meeting all modern competition in fruit packing. The standing and experience of the instructors secured, and the confidence reposed in them by the Department of Agriculture, guarantees to the fruit growers the highest possible class of instruction.

The policy of placing the local administration of the packing schools in the hands of a responsible local body, such as the Farmer's Institute, the Fruit Growers' Association, or the Board of Trade, has proved entirely satisfactory, and the same plan will be continued this year.

The Department of Agriculture provides the instructor, and pays his expenses. The Department will also bear the cost of the packing paper, the fruit, and all other legitimate expenses, except that of the secretarial work and of hall rent, which it has been found most satisfactory to leave to local arrangement.

The responsible organization in each case will be required to guarantee a minimum of twelve pupils, but not more than fifteen, with the proper qualifications, at a fee of three dollars each, to take the twelve lessons of two and a half hours a lesson, the school extending over one week. In a limited number of districts, a double packing school can be arranged for any in which the minimum guarantee will be twenty-four pupils, but not more than thirty, for the same number of lessons. The guarantee organization will also arrange for and bear the expense of the hall, its heating and lighting.

The hall for fifteen pupils must be at least thirty feet by fifteen feet, and well lighted. It must be heated sufficiently to prevent chilling of the fingers of the packers and to prevent freezing of the fruit at night.

The Department, will, as far as possible, use local fruit, paying for the same the legitimate market price. About three boxes per pupil is necessary. The hardier varieties, such as Ben Davis and Gano are preferred. Fruit must be in good condition, but need not be graded, and none should run under 2 1/2 inches in diameter. Organizations should at once secure the necessary fruit, or, if none is available, the Department should be expressly notified, and will then procure same.

The instructor will bring with him the necessary packing tables and fruit paper. On his arrival, he should be met by some responsible person, who should provide him with all necessary information so as to get the school under way without loss of time.

The instructor will bring with him the necessary packing tables and fruit paper. On his arrival, he should be met by some responsible person, who should provide him with all necessary information so as to get the school under way without loss of time.

#### THE ADVANTAGES OF PACKING SCHOOLS.

1. Principally, practical and thorough instruction in actual commercial packing. Each pupil is engaged in actual packing, under the personal supervision of an instructor, who knows and can teach commercial packing.
2. Pupils will learn the methods in equipment used by up-to-date and progressive Associations in picking, grading, wrapping, packing and handling of fruit.
3. Instructions will be given in the proper marking of different sizes and grades of fruit, and the interpretation of the "Fruit Marks Act."
4. Packers whom the instructors give a score of seventy-five per cent. efficiency in the packing school, and who put up a creditable pack the following year, will be entitled to a diploma certifying the same, from the Department of Agriculture.
5. Fruit growers not attending the school regularly, may visit the packing school to secure information, at the discretion of the instructor.
6. An evening meeting can be arranged, at which the principal features will be the following:
  - (a) Packing demonstration by the instructor.
  - (b) Packing contest by the pupils.
  - (c) Fruit Judging, both in plates and boxes of fruit, by all present.
  - (d) A general discussion on the Fruit Marks regulations, the marking of boxes, fruit handling from the orchard to the car, packing house equipment, etc., by the instructor.

The demand for packing schools is already evident, and, as it may be necessary to start operations in December, districts wishing to avail themselves of this opportunity should send application as soon as possible to R. M. Winslow, Provincial Horticulturist, at Victoria.

## SCOTCH CONCERT TO BE HELD ON ST. ANDREW'S NIGHT.

Arrangements are well in hand for this coming concert, to be held in the Empire Hall on the evening of Thursday, the 30th inst, Saint Andrew's day. The committee have been successful in obtaining some of the best local talent. The programme will also include some items from outside points, and every effort is being made to make the "night" a huge success. Immediately after the concert a dance will be given, and a cordial invitation is extended to everybody for the evening. Fuller particulars will be announced in next week's issue.

## NOT SELLING OUT.

One of our contemporaries published a report last week that the Lakeshore Telephone Company had received an offer for their system, presumably from the C. P. R. Upon enquiry of the manager at the Company's head office here, it was stated that there was absolutely no truth in the report.

**LETTERS TO THE EDITOR.**

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

**A SNOW BY-LAW.**

The Editor, The Summerland Review, Summerland, B. C.

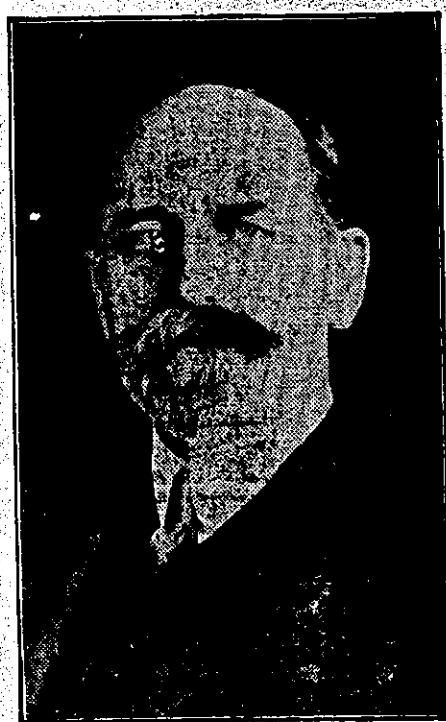

Dear Sir :

Do you not think that strangers visiting the town would be more favorably impressed were our sidewalks kept free from snow and ice during the winter months, as they are in any "up-to-date" town or city?

Let some city father introduce such a by-law forthwith and see that provision is made to ENFORCE the same; he will then deserve the thanks of the community, and the honor of re-election.

Yours, etc.,

CIVIS.

An Eminent Banker.

The present system of Banking in Canada, which has been commended and often followed in other countries to a great extent owes its existence to Sir Edward Clouston. Perhaps no one person has had such a clear insight into banking affairs, or done so much to promote the excellent system now in operation in Canada as has Sir Edward Clouston. His principle work was in connection with the Bank of Montreal, which is now one of the soundest financial institutions of the world. He was born in the small village of Moose Factory in 1849. On leaving the Montreal High School at the age of 16 years, he entered the Bank of Montreal, and after many years hard work he raised himself to his present position.

**NEW DRAMATIC SOCIETY.**

An Association of Players is being formed in Summerland under the direction of Mr. Wm. Sauter. It is proposed to produce a play once a month at Summerland, Kelowna and Vernon and at other places in the Valley as seems advisable.

Mr. Sauter, whose experience has been very wide, is a most capable actor himself, and is well qualified to train and perfect that talent of which Summerland is so justly proud. He is devoting the winter months entirely to this work and those who are fortunate enough to secure places in the various casts will profit of his knowledge of a really great art.

Scenery and stage properties are being acquired and no pains will be spared to make these plays the best that are to be seen in the Valley this winter. It is expected that the first play will be produced during the first or second week in December, notice of which will be given in due time.

**MEDICINAL FRUITS.**

Ripe apples eaten raw and thoroughly masticated are excellent for digestive troubles.

The pear shares the medical qualities just recited, and in addition, is somewhat more easily digested by weak stomachs than is the apple.

The quince is only used in the form of preserves, as a rule. It is said that owing to its excessive astringency when raw, it is employed by the peasantry of Europe to stop hemorrhages by placing slices of it on wounds.

The curative powers of the grapes are established facts, as the history of the 'cures' in which the vine plays the chief part testifies.

Rhubarb, owing to the large proportion of oxalic acid that it contains, is a capital anti-scurbutic. In the case of minor forms of scurvy it acts as a curative. The young plant when stewed and eaten at breakfast, is of great assistance to the constipated. Its laxative qualities in general are well known.

Bananas should be used with caution by the constipated.

The fig possesses laxative powers of a high order. This is also true of dates and tamarinds.

Peaches, apricots and nectarines have marked laxative effects.

The plum, greengage, damson and so forth all have medicinal qualities.

Fine creamery butter was made as early as 1898 B. C. Just the same we wish our grocer would stop sending that kind.

**CANADIAN APPLES IN SHANGHAI.**

The Canadian Trade Commissioner at Shanghai recently wrote to his department at Ottawa concerning his efforts to promote trade in apples between Canada and China.

Many merchants there prefer the Canadian product, but find the prices are too high. One particular firm desired from 550 to 1000 cases to be delivered from Vancouver to Shanghai by December 5, but found that the Canadian firm with whom they communicated quoted \$2.50 gold per case of 41 pounds, which was 41 cents more than the United States firms were quoting. The Shanghai market can easily absorb 1600 cases this season. A trail shipment of Canadian apples last year met with considerable success. Commissioner Harris states that if Canadian apples can be quoted for \$1.80, they can easily compete with those from the United States.

**APPLE TREE BRINGS \$600.**

A Linn County, Oregon, apple tree was sold lately for \$600. It was an "ever-bearing" tree, being a great natural curiosity, and, so far as is known, the only one of its kind in the world. It is a tree which grew up in a fence corner on the farm of David E. Junkin, ten miles south east of Albany, Oregon. It is now ten years old and for several years has borne ripe fruit from May to November of each year, having blossoms, green fruit and ripe fruit all on its branches at the same time during the summer. The apples are of good quality. The tree was bought by a nursery company which is to have all its products for ten years.

Desired things may not be desirable.

The State of Maine which has had constitutional prohibition for some years, voted on the question of repealing the law on September 11th. The final accounts show 758 against the repeal, thus Maine will continue dry.

STOPS COUGHS HEALS THE LUNGS  
PRICE, 25 CENTS

**POULTRY SHOW SOON.**

At an enthusiastic meeting of the Southern Okanagan Poultry Association, it was definitely decided to hold the second annual show on the 27th and 28th of December. This is a few days later than was originally intended, but it was felt that this date would be more convenient for all concerned. Efforts are being made to secure the services of R. J. Terry, Provincial Poultry Expert, to lecture and demonstrate during the exhibition as last year, and Mr. Wm. Coates, of Vancouver will again do the judging. With the show so near at hand, all subscriptions are urgently needed to assist the finances of the association. It is hoped that the show will receive sufficient support to turn the deficit of last year into a surplus. Subscriptions should be paid to C. N. Borton or to the secretary, C. P. Nelson.

**SOILS CAPACITY FOR WATER.**

By D. W. Frear, Instructor in Agronomy, Colorado Agricultural College.

Actual experiments show that the actual field water capacity of arid soils varies from 14 per cent. for a very sandy loam, to eighteen per cent. for a clay loam, with an average of about 16 per cent. The greatest water capacity would be even more. At this rate every 12 inches in depth of soil can hold from 2.25 to 2.65 inches of water, or an average of 2.45 inches. At this rate it is possible to store approximately 20 inches of water in the upper ten feet of soil. This is from one and one half to two times the annual rainfall over the better dry farming sections. Therefore it should be and is possible to store one or two years' rainfall in the soil by using proper tillage methods.

**Weather Report**

Abstract from weather records for October, 1911, kept at the Government Station, Balcom Ranch, Summerland, B. C.

FRIDAY, NOVEMBER 17, 1911.

### BRITISH COLUMBIA MINISTERS AT OTTAWA.

Hon. Richard McBride is losing no time in bringing before the new Ottawa government the demands of British Columbia for better terms and the adjustment of the differences which have kept this province "at outs" with Ottawa for the past few years. The trip recently made by him and his ministers, Hon. Mr. Bowser and Hon. Mr. Ross, has surely been productive of much good, though it is not yet known the full purport of the demands made nor the scope of the settlement reached or to be reached as the result of their visit.

Their reception at Ottawa by Premier Borden and his ministers is indicative of the cordial relations which will exist between the two governments in future, and points to the mutual good that will be the result of these cordial relations. All misunderstandings have been wiped out; harmony prevails, and we may now look forward to the early settlement of the ever-present question regarding the opening of Dominion lands in the railway belt, and the disposition of Indian reserve lands.

### CIVIL SERVICE REFORM.

The ninth plank in Mr. Borden's platform as laid down in his final message to the people before the general elections, runs thus:

"(9) The extension of civil service reform."

This means that those employed in the civil service outside of Ottawa will be placed under the Civil Service Commission at an early date. Then no man over thirty-five will be eligible for a government position, and candidates must be examined before appointment.

### NEW UNIONIST LEADER.

Hon. A. J. Balfour, the ineffective leader of the Unionist party of England, has resigned unable to longer withstand the faint praise of his friends and followers. In his place a Canadian born zealot, Mr. Andrew Bonar Law, has been named, and the Unionists have taken new heart in their long fight for tariff reform. Mr. Bonar Law was born in New Brunswick. He is characterized by the London Daily Chronicle as the ablest tariff reform exponent in Parliament. He is a fighter from start to finish and has made his name as a remarkably able platform orator with an amazing capacity for figures. He first came into prominence in 1902 as parliamentary secretary to the Board of Trade, a position he held till the Unionists went down in defeat in 1906. From 1900 to the debacle in 1906, he sat as Unionist member for the Blackfrairs division of Glasgow, but being numbered among the slain and had to seek re-election and found a seat in the Dulwich division of Camberwell. He was re-elected for this seat, but at the second election he nobly resigned in order to fight the great fight of Tariff Reform in the Manchester cotton trade district, which is the stronghold of the Free Traders. He went down to defeat, but he made a great impression on the constituency and his gallant fight on that occasion has doubtless had much to do with his selection for the leadership now. Another member retired and Bonar Law became member for the Bootle division, Lancashire, southwest.

### WORKING OUT THEIR OWN SALVATION.

The horrible slaughter of the Manchus by the revolutionary forces and of the Chinese by the Manchus continues in the Far East. Whole communities of the Manchu class are being wiped out, and in the other portions of the Empire, thousands of innocent Chinese, women and children, are daily butchered by the Manchu forces. It is no longer a question of whether the imperial forces can cope with and quell the revolution. It is now pretty well conceded that they cannot; that the Manchu dynasty is doomed, and that the outcome will be a Chinese republic. It is therefore urged in some quarters that the powers of Europe should recognize the insurrectionists and stop the awful butchery. But the powers seem to be slow to act.

No doubt there is good reason for this. Life is held cheaply in the Chinese Empire. War, rebellion, famine and flood have in the past produced great fluctuations in the teeming population of the Empire, which is now placed at 400,000,000. Many thousands of thousands of the millions may be done away with and they will not be missed by the Empire. This seems to be the thought back of the present revolution, and a clean sweep is evidently intended. Neither side has asked for interference on the part of the other powers. They seemingly want to fight it out alone.

Summed up in a few words the Chinese revolution is simply the Younger China smashing the old gods which stink of insense, cruelty and oppression.

The North China News, a leading foreign newspaper, commenting on the massacres says:

"It is not known whether the Manchus or the Chinese prevailed—in point of fact the Chinese have prevailed and the government is paralyzed—but it is a question of innocent human lives and the hideous slaughter of non-combatants, women and children. The Christian powers have not the right to the name if they can witness such crimes in silence."

### SANE SPEECH AND SWORD TALK.

We have only to contrast the recent utterances of Rt. Hon. Herbert Asquith at the Lord Mayor's banquet, London, November 10, with the fiery words of Chancellor Bethmann-Hollweg in the Reichstag, on

the same day, to measure the temper of the English and the German nations. These men, we believe, speak for the people of the countries referred to. In one we see the sane, cool-headed, business man, in the other the empty thunder of the military spirit; big sword, big guns, and gold braid and brass buttons.

Mr. Asquith: "There is no great secret about either the aims or methods of British Policy. Where British interests are involved it is our business to safeguard them. Where treaty obligations come in it is our duty to fulfil them. Where we have established friendships and understandings we seek to maintain them and loyally keep them intact. But our friendships are neither exclusive nor jealous. We have no cause to quarrel with any nation. Nor, with such a history and such an empire as our own, have we any desire to curtail or fetter the natural and legitimate aspirations of others."

Bethmann-Hollweg in the Reichstag: "We are not living in the Homeric age, when threats and boastings were thought necessary. Germany is strong enough to dispense with such shield rattling and will know how to draw the sword when the time comes. The Emperor steadily insisted on strict adherence to our programme at all stages of the negotiations, in full consciousness that every action of a great power may involve the fateful question of peace or war, and in full readiness to uphold the honor of the nation with the sword."

## THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

To the young man who has no taste for reading, the evening hours become loaded with temptation. It is tiresome to sit moping by the stove, and he naturally drifts to the street or the card table. There he finds others like himself, with vacant hours to while away and thus grow up those habits which soon eventuate in dissipation or lead to crime.

All that the wife can do will not make the home an agreeable one. Neither can a wife be happy with a husband who is addicted to finding fault with his bread and butter. She may try ever so hard to please him, yet when he sits down to meals, she lives in constant fear that some portion of the food will not suit his fastidious taste.

Be polite to your children. Do you expect them to be mindful of your welfare, to grow glad at your approach, to bound away to do your pleasure before your request is half spoken? Then, with all your dignity and authority, mingle politeness. Give it a niche in your household temple. Only then will you have the true secret of sending out into the world really finished ladies and gentlemen.

When we launch our ship on the morning waves of the great sea of life, let us guide them by the light of the home, with the helm of the cradle words of our mother. Not until we have left home and are wanderers in the curious strangeness of a strange land unnoticed, unheeded, lonely and weary, will we know of a truth what a mother is. Then we feel that she is good and we bless her. Never can we repay our mother's kindness. Her withered form and her silvering braids shall be defended till that day cometh when He shall make up His jewels—and then we ween, Heaven will know no brighter, no purer angel than she. When the ever shining stars shall wane in the falling of our vision, and the noisy world will grow still in our sleep of death, will we forget her; not till then.

The making of money and the saving of money, as distinguished from the miserly love of money which is said to be the root of all evil, should be the aim of all young men who start out in life for themselves. They include habits of industry that lead to contentment and often ward off dissipation, want and future misery. It is not the gathering in of wealth that has sent so many of our leading men to prison, it is the unlawful way in which they tried to reap their harvest.

If brothers or sisters err, the world says "shun them, thus you will show that you disapprove of the act, making an example of them." Alas! how many examples we have of this mode of teaching crowding the haunts of infamy to-day. Once bright young lives, over whose pure lips and innocent brows mothers watched in all tenderness; but the trembling feet took one false step, and so we thrust them out of our hearts, out of our churches, and would even thrust them out of heaven. Is it right, is it just, is it Christ-like?

What's the use of getting into a fret and worry over gossip that has been set afloat to our disadvantage by a meddling busybody who has more time than character? These things can't possibly injure you, unless, indeed, you take notice of them and give them character and standing. If what is said about you is true, set yourself right at once; if it is false, let it go for what it will fetch. If a bee stings you, would you go to the hive and destroy it? Would not a thousand come on you? It is wisdom to say little respecting the injuries you have received.

We like to see the glancing, cheerful light through the window of a neighbour of a cold night, or watch them, as the evening deepens, gradually creeping from the parlor to the upper stories of the house near us. We like to watch the little children going in and out of the door, to play or to school. We like to see the white robed baby dancing up and down in its mother's arms, or the father reading his newspaper there at evening, or any of these cheerful impromptu home glimpses, which, though we are no Paul Pry, we will assert go to make a pleasant neighbour to those who live for comfort instead of show.

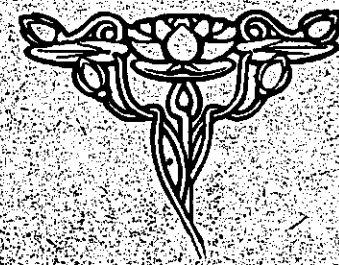

We should strive to make ourselves such members of the household band that our absence is like the loss of sunshine from a summer day. We can do it if we enter into the right spirit of home. The idea seems to exist among us that to be polite to each other in the family circle is foolish and like "putting on airs." We must rid ourselves of this notion and act on the principle that whatever helps to make our intercourse pleasant with those outside the family circle should be brought into use there.

A cut finger is not benighted by pulling off the plaster and exposing it to somebody's eye. Charity covereth a multitude of sins. Things thus covered are cured without a scar; but once carried to meddling friends, there is no end to the trouble they may cause. Keep it to yourself. Troubles are transient; and, when a sorrow is healed and passed, what a comfort to say: "No one ever knew till it was over."

## Naramata Notes.

Rev. G. O. Fallis, spent a couple of days hunting in the hills back of town this week.

Mr. C. W. Johnson made a successful trail on Tuesday bringing home two young bucks.

Mrs. F. J. Languedoc went out on Wednesday's boat for a few weeks' holiday at Vancouver.

The Ladies' Sewing Circle reports good progress toward the preparations for the seventh of December Bazaar.

Mr. J. S. Gillespie, who is still at Calgary, reports a temperature one morning recently of twenty-eight degrees below the round spot.

The Sigma Delta Girls held their regular bi-monthly session at the home of their vice-president, Miss Freda Mitchell, on Tuesday afternoon.

Mr. M. Miller, of Penticton, was in town on Tuesday completing arrangements for a masquerade ball to be held next Tuesday night in this town.

The Unity Club held a very pleasant gathering last Friday at the home of Mrs. Simpson. The chief item of business was the naming of committees.

Speculation is still rife as regards the location of the railway station for Naramata. The recent visit of President Warren is said to have had this question in view.

Miss Ruth Parminter, of Cloverbar, Alberta, has come to Naramata to spend a portion of the winter season. During her stay here Miss Parminter will be the guest of Mrs. F. J. Young.

The small boy is this week rejoicing over a light fall of snow which affords him an excellent sport—sleigh riding on the hills east of town. It is thought probable by the old timers that we shall yet see a month's fall weather ere winter really settles in for a serious visit.

According to present indications there will be a full turnout to the chicken dinner on Saturday evening at the home of Mrs. Wells. The Unity Club women have always made things "go" and the conspicuous man on Saturday will likely be the one who simply must remain away.

Is it lawful to shoot deer—or anything else—on Sundays? Some people are of the opinion that it is not lawful. Some there are who would have the man shot who would kill a deer at any time. Recently a deer made a miss in attempting to leap the page wire fence on the Russell lot immediately south of Mr. Wolstencroft's fruit lot and becoming entangled was devoured by coyotes.

## Peachland Notes.

Mr. Grant Lang is at Vancouver attending the Convention of School Trustees which is meeting in that city this week.

Mr. M. N. Morrison left for New Westminster on Monday morning. There he and his brother are opening a nail factory.

Mr. W. Lang, of Winnipeg, arrived in town Saturday evening. He will be the guest of his daughter-in-law, Mrs. E. F. Lang, for the winter.

The Trepannier Creek Saw Mill Co. has hired two very able-looking teams from the K. L. O. Co., of Kelowna, and are very busy getting out logs on the new snow.

The snow storm of last week has had the effect of driving the deer down to the front and hunters are having much better success lately. Several fine specimens were brought to town this week.

## PROVINCIAL & GENERAL.

Salmon Arm is seeking incorporation as a city.

Matches will soon be manufactured at New Westminster.

Golden, B.C. suffered a \$27,000 fire recently.

Penticton is having considerable trouble with chicken thieves.

Two women occupants of a Lake St., Nelson, house lost their lives in a fire on the morning of Nov. 7.

A noticeable feature of the recent Burrell banquet at Kelowna, was the total absence of alcoholic refreshments.

The raising of Shetland ponies has been taken up at Kelowna. Recently sixty of these little animals were placed on the ranch of Mr. Cosens.

A great surprise in political circles in London was created by the resignation of the leadership of the opposition by the Right Hon. A. J. Balfour.

Extra police have been on duty for some days at the mines in Fernier. Small riots have occurred and to prevent a general outbreak the extra police were called.

In these days when so much interest is taken in aviation it may surprise many to learn that at the beginning of last century Canada had at least one pioneer in air navigation. The Rev. Mr. Short, Anglican rector of Three Rivers, Que., constructed a flying machine upon which he made numerous flights from his study window to various parts of his grounds, to the great astonishment of his neighbors.

## First Impressions

## Are Lasting

and the impression created by your stationery when opened by a new or prospective customer is going to remain.

If it is cheap, indifferently prepared material, your chances of getting or keeping the business connection will be poor.

On the other hand a letter-head or bill-head artistically designed and neatly printed, delivered in an envelope of like quality will prove an excellent business getter.

The Review Job Department is splendidly equipped and is operated by competent and artistic workmen. Therefore

## WE ARE PREPARED

to turn out work of the highest quality. Only the best is "good enough."

(Continued from Page 6.)

ing down from the hills, until he was nearly midway between the pines and the cherry patch.

There he checked sharply, his nose went up and his brush dropped, and wheeling in his tracks, he went back to the nearest rising ground, on which he stood awhile reconnoitring.

Something in the country displeased him, for after a prolonged survey he loped back the way he had come.

The coyote's behavior was suggestive of suspicion, but a little broad-winged hawk which poised in the clear air or swung noiselessly overhead with a keen eye for mice or beetles, contradicted the habitually suspicious vagabond. Rolt found it impossible to remain strung up to concert pitch for ever in such an atmosphere of peaceful beauty, just as the half alarmed buck does, when pitted against the everlasting patience of his hunter, and was actually dozing when a voice behind him asked:

"Have you got your Holland along with you to-day, Boss?"

Rolt started, but though only half awake, he had sense enough to lie still.

"Yes," he said without turning. "It's good for long shooting, ain't it?"

"It's sighted for five hundred yards."

"I guess that's good enough. Do you see that yallerish looking bunch of sage brush, the biggest in sight, away there to the right? Jest perforate it, will you?"

Rolt raised his rifle, and looked questioningly at old Al, whose head was now alongside his own.

The old man nodded, and Rolt, adjusting his sights to the five hundred yards range, cuddled down on his rifle.

"High or low?" "I guess it's most solid near the bottom," chuckled Al.

Then Rolt drew a long breath, for a moment there was silence, and then a little puff of dust, fifty yards beyond the sage brush, recorded the fact that the foresight had been taken too full. A few sprigs of the yellow weed fell, but otherwise there was no sign of movement from the bush.

"Sits stiller nor a fool hen," commented Al. "Try her lower still, Boss."

Rolt took the same bead again, but this time he took it upon the very base of his target. At his second shot the bush he had watched for an hour became alive. A horrid scream followed the impact

of his bullet and in place of the little fountain of golden dust, a man's body sprang high into the air and then pitched headlong on the near side of the bush writhing and tying itself into knots amongst the branches of the withered sage brush.

"Must be quite a holler there; almost as good as this one of ourn. I seed him coming from the time he started. Holy smoke!"

Al's ejaculation was the result of a perfect blizzard of bullets which suddenly burst upon the cherry patch, cutting the feeble brush into ribbons and tatters and making the defenders crouch in their lairs like frightened rabbits.

"Fire a good many shots for fifteen Injuns," growled Al. "Liker fifty. It's the hull Chilcoteen tribe, blank 'em," and then rising recklessly to his knees he roared, "Turn it loose, boys. Don't let the beggars get away," and he emptied the magazine of his repeater with a rapidity that would have done credit to a machine gun.

Five minutes earlier the Boss had grown tired of watching the motionless sage brush over which the hawk has swung and from which the coyote has retreated so promptly, and now, whilst the rifles rattled and the smell of powder tainted the air, there were a dozen wild figures dashing from it for the pine belt. Only two of them fell, and one of these got to his feet again and was hauled into cover by his fellows.

"Blanked bad shooting. Say Boss, that shot of yours turned the hull' bloomin' orchestra. How many did you git?"

"I'm afraid I did not touch any of them."

"Guess you're better at sitters. Didn't you spot any of them before I told you to shoot at that brush? Lord! I've been watching that fellow over there for nigh on an hour. It's lucky I didn't wait for him to come within range of my old shootin' iron."

"Why, what difference would it have made?"

"All the difference between living and dying. They'd have rushed us in ten minutes, and shooting as we did they'd have got in. But I reckon they won't try that game any more for a while."

Rolt sincerely hoped that they would not, or that if they did old Al's eyes would keep watch for them. In his own eyes he had lost all confidence.

For a long time silence fell again between the pines and the cherry trees. There was no sound, but for the crack of an occasional twig as one of the defenders moved uneasily in his narrow shelter; no movement except from that twisted

figure by the sage brush.

It was quite a long time before that became quite still, and Rolt was thankful when that time came.

Before the attempted rush the sage brush had been equally still, and the memory of that fact so worried Rolt that he now began to imagine enemies in the most ridiculous grass patches. He was beginning to lose his sense of proportion and imagination magnified the most absurd trifles.

It was a relief when a single shot broke the strain of long waiting. The bullet dropped about a couple of hundred yards from the cherry patch and ricocheted through its highest branches. There was a slight pause and then a second shot from the same spot in the timber, the bullet dropping a hundred yards nearer Al's screen.

"Jest so," muttered Al, who had again crawled to Rolt's side, "and the next will be nearer still. They are getting our range now. Had ought to have done that first go off. I guess there'll be no room for two now. Lie low, boys, it's going to storm again," and he crawled back to his own position just as it began to hail bullets.

For a good quarter of an hour the Indians in the timber kept up a steady stream of independent firing, as if they would fill up that little hollow with lead or reap the thin cover in it with their concentrated fire, but though their bullets cut down the standing brush as if it had been slashed, riddled it, and left it in flying tatters the men under ground remained untouched. Neither did they attempt to reply.

"Don't stir, boys, and don't shoot back," commanded Al. "When they think they've killed every insect in this bloomin' brush patch, they'll maybe try some other racket. Then we'll get our work in."

CHAPTER XXI.

Further Developments.

The Indians were very thorough in their work of destruction, and thanks to the looting of Rolt's store-house they had plenty of ammunition to spare, but at last even they were satisfied.

The cherry patch looked like a field after a Manitoba hail storm. There could have been little doubt in the Chilcoteen's minds that anything it had sheltered was as dead as Julius Caesar. But being Indians they elected to run no risks. When the firing ceased a sound of chopping began, and Rolt, who should have known better, imagined that the cold-blooded brutes were going to feed before picking

up their birds, but he misjudged them. An Indian is sufficiently cold blooded, but not on the hunting trail or warpath. Then he thinks a great deal less of his belly than does a white man under similar circumstances.

Before long a great tree crashed down, and before the sound of its fall had died away, they saw the top of another lean slowly over, hang for a moment, and then disappear in a spray of shattered boughs and pine needles.

Three fell in all, and still the chopping went on. Then for the first time Rolt noticed what looked like a great sawlog just outside the line of pine trees, lying parallel with that line, and as he noticed it, two more came to join it. There was no doubt that they came; he saw them emerge slowly, like some footless monsters, moving sideways down the hill.

"Ah, here they come! They're gettin' down to business at last. That's more like Cree fightin'! I would'n't have thought they knowed so much," muttered Al.

But at first Rolt, who had not Al's experience, did not understand, and the sight of those great pine logs creeping down abreast, apparently by their own volition, was very horrible.

From time to time a rifle spat redly from the timber, but for the most part the slow progress of the logs down the sloping prairie was made in absolute silence. The sun creeping across the heavens seemed to move faster than they did.

"We've got to get them other two over this side," said Al. "We can't stop them," pointing to the logs, "and when they get here there'll be a blanked hot time in the cherry patch."

"Can't we spare them?" Won't the Indians sneak round from behind?"

"Not likely, and if they do, we've got to risk it, I guess they'll wipe us out this time," and with this cheering remark he crept away, returning with Toma.

"I've left the other galoot where he was," he explained. "He ain't any account as a rifle shot, but he's so plumb scared that he'll make a pretty smart looking man. Hul-loh! What's got that log?"

[To be Continued.]

ANOTHER CENSUS.

So much dissatisfaction with the recent census has been expressed that the Dominion Government is now considering the advisability of making another national enumeration next year.

Better be one-sided than two faced.

**Local News Items.**

Rev. A. H. Solly boarded the Okanagan on Monday night en route to Vernon.

A largely attended dance was given by Mrs. Geo. N. Gartrell at her home on Wednesday evening.

C. N. Borton has been on a business trip this week to Keremeos and Princeton, and is expected home this week.

J. N. Merrill has purchased the cottage which has for some time been occupied by Rev. F. W. Pattison, and has moved down from "the hill."

John Tripp, representing the Canadian Home Investment Company, has been in Summerland this week, and reports having done considerable business.

The regular monthly meeting of the Ladies' Hospital Auxiliary will be held on Tuesday afternoon at three o'clock at the home of Mr. F. W. Andrew. All ladies are welcome.

Captain Estabrooks, of the steamer Okanagan, states that he has not experienced such a hurricane as that of Tuesday morning of last week, during the whole of his thirteen years on the lake.

There is little probability of the seven day lake service making any change in the mail service. A recent inquiry to the Superintendent at Vancouver, brings the reply that no change is contemplated.

The Canadian Pacific Railway has replied to a number of letters of protest against the Sunday boat, addressed to the General Manager, by Summerland citizens. They state that the change is merely an experiment to ascertain if the service is wanted.

Mr. P. S. Wood, manager of the local branch of the Eastern Townships Bank, has leased the Gainer residence, recently occupied by Mr. J. N. Merrill. He has already had his furniture moved into the cottage and expects Mrs. Wood to arrive next week.

Mr. C. O. Brownell, whose advertisement appeared in last week's issue, announcing a musical concert for Thursday of this week, was in town that day, but the concert was not given. Lack of patronage is understood to have been the reason. Mr. Brownell states, however, that he will return to Summerland at a more opportune time.

The night watchman of the steamer Okanagan, ex-captain Boswick, narrowly escaped drowning one morning last week. In looking for the hawser to cast it off preparatory to the sailing of the boat, he lost his footing and fell into the lake. The crew were all asleep and had it not been for the unusually early arrival of the engineer, the accident might have resulted in a fatality.

Mr. E. Clark Bowker, manager of the Dominion Bank at Edmonton, has lately been visiting the Okanagan and spent the past ten days in Summerland, the guest of Mr. J. M. Sutherland. He is much impressed with all the appearances of this great Valley and was surprised to see the evidences of progress made by Summerland, considering its age. He predicts a great future for this part of British Columbia when railways and roads are built to provide adequate transportation.

Only a few citizens have as yet taken advantage of the excellent storage accommodation recently provided by the Agricultural Association. The basement of the new hall, which is the full size of the building, is excellently equipped for the storage of fruit and vegetable. Precautions have been taken against any sudden and severe dip in the weather. The charge is only nominal, being five cents per package or bushel. Mr. J. M. Sutherland, who lives near by, has charge of the building.

For sometime there has been pending a case between C. H. Cordy, agent, and A. H. Steven. This was a suit entered by Mr. Cordy representing the owner, for logs cut on a lot by Mr. Steven, without the owners consent. The wood was cut upon the authority of a real estate agent, who had or supposed he had the necessary authority. The case has been postponed from court to court but finally came up on Thursday. Just as we are about to go to press we learn that the suit against Mr. Steven has been lost and that not only was Mr. Steven successful in defending the case but gets his costs as well.

**Local News Items.**

W. C. Kelly has moved into his new cottage at West Summerland.

Arthur N. Pope, of Peachland, has been appointed a Justice of the Peace.

Mr. G. A. McWilliams was a passenger on Thursday morning's boat bound for Vernon.

Before the mild chinook wind which sprang up on Thursday afternoon our little winter is rapidly disappearing. We may yet have many weeks of fall weather.

The business of the Summerland Fruit Company is being closed out. The accounts are being collected as speedily as possible, with a view to finally winding up the business.

Mrs. E. W. Sawyer is at present in the Vancouver Hospital. Full particulars have not yet been learned, but friends state that no alarm is felt and that it is expected Mrs. Sawyer will be able to join Dr. Sawyer again in the course of another week or two.

Rev. Mr. Conn, of Okanagan Landing, will conduct the services in the Presbyterian church both morning and evening next Sunday. On the following Sunday, Rev. Mr. Pringle, of Vernon, will preach at West Summerland in the morning and down town in the evening.

Some good sized whitefish have recently been caught in Okanagan Lake. Some years ago the authorities put some whitefish fry in the lake, but until now it was supposed that they had been consumed by other fish. It is hoped that this species of fish will increase in quantity.

Gilbert Thornber has been operated upon for appendicitis, and is doing well. Mr. Thornber went up the lake on Monday and entered the hospital at Kelowna, where he underwent operation on Tuesday. Word has been received by relatives here that the doctors are well pleased with results, and a rapid recovery is looked for.

The Ladies Aid of the Methodist Church will hold their Christmas Sale on Thursday, December 7th in the Gymnasium of the Men's Club. A large assortment of useful and fancy articles suitable for Xmas presents will be offered for sale. Afternoon tea and cake will be served, also a choice display of home made candy. Remember the date, December 7th.

A horse driven by Mr. A. F. Solly took a hurried spin over the newly fallen snow on Monday morning, and made a circuit of West Summerland in quick time. Running east from the Supply Company's branch store, it made considerable speed before reaching the corner near Mr. Kelly's new cottage. Turning this corner sharply it turned its driver out into the snow and proceeded northward. In a little while it was seen coming back toward the store to the rear and turned in passing the Municipal Hall, and was finally captured at the fruit shed nearby.

Methodist Church services will hereafter be held down town every Sunday morning, and next Sunday the speaker will be Rev. E. V. Staplefield, B.A., a former Vancouver pastor of magnetic personality and pleasing address. Mr. Staplefield is now College Secretary for the Province, and has recently returned from an extended visit to all the leading Colleges of the United States and Canada; and is preparing plans for the immediate establishment of a thoroughly equipped and up-to-date Church College, in connection with the Provincial University at Point Grey Vancouver. He will preach in Summerland in the morning and at Penticton in the evening and his visit should be of real value to all interested in Education work. Mr. Hardy will preach in the evening.

**CANADIAN NORTHERN RAILWAY SOON.**

Sir William McKonzie, President of the Canadian Northern Railway, assured Premier McBride in a recent conversation at Ottawa that in two years through transcontinental trains will be running into Vancouver over the Canadian Northern. As it is generally understood that the Okanagan branch will be constructed about the same time as the through line, this will be received as good news in this Valley.

## THOSE SCHOOL RIGS.

### MORE PROTESTS FROM TROUT CREEK.

Our friends at Trout Creek are still in trouble. In fact, many of them are feeling very sore, and, whether to assist them in their demands, or to enlist the sympathy of their fellow citizens and avoid being termed "kickers," they have called upon the Review to give further publicity to their troubles. They state that nearly eight weeks ago they called upon the Board of School Trustees, and pointed out the fact that satisfactory means of conveying their children to the Central School had not been provided, and that the matter has since been frequently brought to the attention of the Board. When asked what they expected in the way of a conveyance they stated that the contract required "a good, clean, comfortable rig with cover," and they declare that such rigs have not been provided, and that for some weeks they have been unable to send their little ones to school. They complained that while they are compelled to pay school taxes they are thus deprived of the use of the schools and their little ones are dropping behind because of not being able to attend school. The complainants do not believe that the Trustees are satisfied with the means of conveyance that have been provided, and ask if they have no control over the contractors. These parents contend that not only should the rigs be covered, but closed at, at least, one end to prevent draughts, and also furnished with a sufficient number of lap robes.

The Review is not conversant with the terms of the contract, and therefore does not know whether the contractors are or are not living up to their agreements. In discussing the matter with one of the Trustees, the latter stated that the material for making the covers was expected this week, and thus rigs not already covered would immediately have covers put on them.

There is a total lack of experience among all those connected with the matter in the Central School idea, and while matters may move extremely slowly from the parents' point of view, it may be that those in authority are doing the best they can, and that eventually everything will be so organized that things will run smoothly and satisfactorily for all concerned.

## ANNUAL SCOTCH CONCERT.

"Oh never, never, Scotia's realm desert."—Burns.

What promises to be the principal social function of the season will be held in the Empire Hall, Summerland, Thursday, November 30th, (St. Andrew's Night), when the Scotch folk will gather "Frae a' the Airs the Win' Can Blaw" and spend a few hours enjoyably amid expressions of Scottish song and sentiment, and the recollections of other days "In the Dear Hame Land Far Ayont the Sea."

The program is in the hands of an energetic committee and the best efforts of each member of same is being put forth to ensure the night's entertainment being of the highest order. The assistance of several well-known artists from outside points has been secured, and they, with the promised local talent, can be relied upon to do justice to Auld Scotland that night.

After the concert comes the dance, and the committee expect that all trippers of the light fantastic will take advantage of this part of the entertainment to the "wae sma' oors ayont the twal."

Everybody will be welcomed. Tickets can be secured from the members of the committee, Messrs. John Tait, Robert Pollock, John Stewart, A. G. Smith, Jas. O. Smith and A. H. Stoven.

## CARD OF THANKS.

To all the friends whose sympathy and services were so kindly extended in our time of bereavement we desire to extend our sincere thanks.

Mrs. Holder and Family.

Father's fraud drives sons abroad.

## PECULIAR SITUATION.

A somewhat peculiar situation has developed with respect to the Municipality and the water records. As advertised, the Government has been asking for copies of all water records held in the province, evidently for the purpose of permanently adjusting them. Several letters relating to the water records have passed between the Municipal Clerk and Government officials. The latter have taken the view that the Municipality does not own any water rights, and cannot own any, they being inseparable from the land for which they were applied, each land owner having a certain fixed claim. No doubt the matter will eventually be satisfactorily adjusted by the Municipality being accepted as a holder in trust for the land owners.

## K.R.V.R. ASKING FOR TIME EXTENSION.

The Kettle River Valley Railway Company is giving notice that they intend to apply to Parliament at its next session for authority to construct a branch from a point at or near Vernon to a point at or near Penticton, and also to extend the time within which it may construct the main line and branches which it has already been authorized to construct.

## CRUISER FOR CANADA.

A London dispatch says that the British armoured cruiser Aboukir leaves Malta for England about November 25, having been sold to the Canadian Government. The Aboukir is a first class cruiser of the Cressy type, and was built on the Clyde by the Fairfield Shipbuilding Company. She was laid down at the end of 1898 and completed in 1902. The Aboukir displaces 12,000 tons and steams 21 knots, while her main armament consists of two 9.2 in. and twelve 6 in. guns. She belongs to the sixth cruiser squadron and has been for some years on the Mediterranean station.

## AMATEUR THEATRICALS.

(contributed)

In view of the production shortly of "The Truth" by Mr. Sauter and his associate players, it would perhaps be of interest to some of our readers to know what the play is about.

It deals, of course, with a love affair, but this time a love affair of husband and wife; when conjugal felicity is marred by a sad habit of the wife's—that of telling fibs. She is a dear lovable woman, but likeliest of her sex, fond of attention, which she gets from an attractive but weak young man.

Becky (the wife) meets him nearly every day, partly with the desire to induce him to return to his wife with whom he has quarrelled. Unfortunately, her good intentions are misunderstood both by her own husband and the weak youth's wife. Complications arise in which Becky gets hopelessly entangled, and to extricate herself she departs from the narrow way of Truth. She really has nothing to hide and had she explained matters at the beginning, well—there would have been no play. Her husband eventually begins to doubt her and declaring that his confidence once shaken, he can never trust her again, he leaves her. Becky returns to her father, who, in the hope of making things right, sends the husband a telegram saying that Becky is dying. The telegram has the desired effect; Warden (the husband), coming post haste by the first train, Becky, who has agreed to enter into her father's plan, on seeing her husband, throws aside her mock illness, and declares she has had enough of lying. How it ends would be unfair to tell. The play is delightfully bright and refreshing with an excellent moral, and full of clean wholesome laughter from beginning to end. It is one of Clyde Fitch's best productions and had a long run both in London and New York. The cast will include Miss Evelyn Higgin, Miss Marion Cartwright, Miss Dorothea Cooper, Miss Mary Sutherland and Miss Janetta Sutherland, Messrs. Cordy, Austin Cooper, and William Sauter.

## WOMAN'S MISSIONARY CONVENTION.

### SUMMERLAND NEXT MEETING PLACE.

(contributed)

The Fourth Annual Convention of the Okanagan District of the Woman's Missionary Society was held on Thursday, November 16th, in the Methodist Church, Armstrong. Delegates were present from Penticton, Summerland, Kelowna, Vernon, Knob Hill, the local Auxiliary also being well represented. The reports of the various Auxiliaries and Bands showed an increase in enterprise and membership. Mrs. D. H. Watson, of Summerland, the president, occupied the chair.

Papers were read during the afternoon on "Auxiliary Work," and "The Call to the Local Auxiliaries and What They Exist For," by Mrs. S. J. Green and Mrs. G. M. Deaver. These papers were well prepared, urging mothers to train their daughters for the great work of saving souls. A report of the Board of Managers, which recently met at Lindsay, Ontario, was read by the secretary. This report was full of interesting items of business which had been transacted, and showed a total membership of 36,100, or including the Young People of Circles and Bands, 59,163.

The evening session opened with Rev. S. J. Green in the chair. Words of welcome were given by Mrs. G. H. Gamble and replied to by Mrs. W. H. Gaddes, of Kelowna. Greetings were conveyed to the Convention by Mrs. Fisher, representing the Missionary Society of the Presbyterian Church, and by Mrs. Chambers, for the W.C.T.U. A letter of greeting from the branch president, Mrs. J. F. Betts was also read. An anthem by the choir was much enjoyed, as was also a chorus by the children and a quartette. A beautifully rendered solo was given by Mrs. L. Dilworth. The addresses of the evening were given by Mrs. G. O. Fallis, Penticton, and Rev. S. J. Green, of Armstrong. Mrs. Fallis' address was entitled, "A Call to the Work," and showed to us in how many ways the call to service might come to us. Queenliness in the home was the one note running through her address. The subject of "Our Debt," taken in the sense of our obligation, was well handled by Mr. Green.

Mrs. D. H. Watson was re-elected District Organizer. An invitation to hold the next Convention in Summerland was accepted. The offering amounted to \$10.70. A vote of thanks was tendered to the ladies of Armstrong and to all who assisted in making the Convention a success.

The Convention closed by all present repeating "Our Watchword"—"Not by might, nor by power, but by my spirit, saith the Lord of Hosts."

## SENSATIONAL ANNOUNCEMENT.

Mr. Arthur Pensonby M.P., who was principal private secretary to the late Sir Henry Campbell-Bannerman when Prime Minister, speaking in London last week at the Reform Club on "The Delinquency of Anglo-German Relations," said: "Only to-day I was assured—and I believe the statement is true—that last September we were on the very verge of war, that the North Sea Fleet was cleared for action and had torpedo nets out in expectation of an attack from the German torpedo boats."

Ed. note.—"Clearing for action" is probably done many times in a year by way of practice or drill.

## MORE ELECTRIC CURRENT.

Some slight alterations have been made at the Power House recently which have very materially increased the efficiency of the plant. It is now stated that from 100 to 200 more lamps can be served, the increased quantity, of course, depending upon whether the old carbon or tungsten lamp is used, and their size.

He who thinks he cannot win is sure to be quite right about it, for he has already lost.

## OBITUARY.

### WALTER HOLDER.

Death has this week taken away one of Summerland's most respected citizens. Though not unexpected, the loss is keenly felt by his family, who have the sympathy of the community in their bereavement. Mr. Holder has been a great sufferer, having been for many years afflicted with rheumatism, and lately with heart disease, this being the immediate cause of his death, at the age of 57. Born in England in 1854, Mr. Holder came to Summerland in 1907, from Woking, Surrey. During his years of suffering he has continued cheerful, bearing his trouble with wonderful patience. He leaves to mourn their loss a widow, three daughters and two sons. The daughters are Mrs. Magnus Tait and the Misses May and Nellie. The sons are Percy and Edward, the former being well known here, and the owner of a fruit ranch at West Summerland, while the latter is in the employ of the B.C. Electric Co. at Vancouver.

The funeral service, conducted by Rev. F. W. Pattison, was held from the Baptist Church, West Summerland, interment being in the Peach Orchard cemetery.

## LECTURE ON ALFALFA.

The Farmers' Institute held a very profitable gathering Tuesday evening at the Schoolhouse, West Summerland. A carefully prepared paper was read by Mr. C. J. Thompson on Alfalfa and its adaptability to conditions here. The reading of the paper was followed by a general discussion, and it was decided that the growing of alfalfa, as well as corn and other fodder crops should become the general practice in young orchards, sufficient space, of course, being reserved for cultivation around the trees.

There will be another meeting held shortly to receive and discuss a special report which is expected from the Government experts at Ottawa, on black spot, its cause, nature, prevention, etc.

## COOKERY DEMONSTRATION.

In connection with the Women's Institute a course in cookery demonstrations will be given by Miss Livingstone, of Vancouver, in the Men's Club, on November 29th and 30th, and will include demonstrations and talks on: An every day dinner. The economical cooking of meats. The cutting and curing of meats.

Special features will be Labour saving devices and utensils in cookery. Answering questions relating to cookery. Competitions in farm dinner menus. Morning session 10.30 a.m. Afternoon session 2 p.m. Both days.

Miss Livingstone, of the Boston School of Domestic Science and New York School of Cookery, is a noted demonstrator, and has given many popular and valuable lectures in all parts of British Columbia. A hearty invitation is extended to all interested.

## A BARGAIN INDEED.

It would be impossible to figure what a benefit The Family Herald and Weekly Star of Montreal has been to the west. It affords the greatest amount of genuine good reading for every member of the family, and its benefits to the farming community in its agricultural pages are worth hundreds of thousands of dollars every year. It is not merely a theoretical paper. It is a practical farm paper in every respect and there is no farmer in Canada who could not profit by reading it. Two cents a week, one dollar a year—the price of one bushel of wheat for a year's whole subscription—to that great paper, not to speak of that beautiful premium picture, "Home Again," size 22 by 20 inches, ready for framing. It makes one wonder if the publishers pay their paper bills. Any home in this western country that does not receive the Family Herald and Weekly Star will miss a bargain indeed.

A maid's best dress is bashfulness.

## PLANS ARE APPROVED.

### COUNCIL ORDERS COMMENCEMENT OF NEW POWER DAM.

An emergency meeting of the Municipal Council was called Tuesday afternoon. The matter put before the Council referred to the new dam for Trout Creek.

The plans for this dam have been completed by Engineer Latimer, and approved of by the Council, and Mr. Mitchell was instructed to proceed with construction.

The site is just below the mouth of the canyon and the dam must necessarily touch the Indian Reserve on the south side.

One of the Siwash, with more enterprise than is general among his tribe, and who has a water record saw in this an opportunity to get water for his plot of land of ten or twelve acres, which he has wanted for some time, but could not afford the cost of conveying it to his lot.

The request of the Indian was presented by Indian Agent Brown, and his claims, as stated to Mr. Mitchell were reported by the latter to Mr. Mitchell, Antoine Pierre, the Indian referred to, intimated that unless his request was granted there might be some difficulty in getting permission to lay the water pipe along the south side of the Creek as planned. Indian Agent Brown, however, was not aware of any intimation of threat, having simply been asked to arrange with the council for a water service for Antoine Pierre.

As the dam, which was only four feet in height, is merely to make a body of dead water at the head of the irrigation pipe, holds up all Trout Creek, and has a broad spillway over which the water will flow, there is, of course, abundance of water, and to satisfy the Indian's request it is only necessary to provide a small opening south of the spillway to serve a flume or a ditch which the Indian will construct. The matter was accordingly adjusted in this manner, the details being left with Messrs. Brown and Mitchell to work out.

## TWO LECTURES ON TEACHING.

Rev. D. J. Welsh, of Kelowna, who was appointed Superintendent of the Teacher Training Department by the recent Sunday School Convention at New Westminster, will deliver two lectures on Monday and Tuesday evenings, the 27th and 28th November, at eight o'clock in the West Summerland Baptist Church. His subjects will be "The Art of Teaching" and "The What and How of Teacher Training." These two lectures are selected from a series delivered by Mr. Welsh at Kelowna some time ago, which met with great appreciation. Mr. Welsh is not only a strong and interesting lecturer, but he is also able to speak with authority, being a specialist in his subject. All in any way interested in Sunday School work should therefore make a point of being present.

## TO DUST A FOWL.

A good insect powder is so cheap there is no use or excuse for allowing old fowls to remain covered with vermin. True, it takes some work and time to properly dust a grown fowl, but the results obtained in more eggs from laying hens and stronger fertility from males that are free from vermin are so great that one cannot afford to overlook this important part of the poultry keeping business. Where two persons can work together it is best for one party to hold the fowl and the other apply the powder. Take the fowl in your lap, the head toward your body;

hold the foot securely with one hand and with the other turn the feathers the wrong way, while the other party dusts the bird next the skin. Always turn the fowl over, so that the dust can reach every part.

In working alone it is best to use a cord fastened to a rafter, the bird hanging down, its feet secured by a slip-knot in the cord. It will flutter at first, but will soon quiet down, and the feathers will relax. Start at the thighs and dust thoroughly every part. One can dust about thirty fowls in one hour, by this system.

## LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

## THE TOWN SCHOOL.

Summerland, B.C.,  
November 20th, 1911.

The Editor,

The Summerland Review,  
Summerland, B.C.

Dear Sir:

I see in a recent issue of your paper a report of the meeting of the School Board, at which a petition, which they acknowledge was signed by every parent having children attending school, asking that the town school be re-opened, was deliberately turned down when it came before them.

Now, I would like to know who is supposed to run the schools, the people or a few interested individuals?

The next step the people will take, I presume, will be to ask the Board to resign in order to get what they want, or will they allow them to remain in office until they are voted out of office at the municipal election?

Would it not be better to have men on the Board who have children attending, and who therefore have the welfare of the children at heart?

Yours, etc.,

PARENT.

## DEATH OF CHAS. O. DOUGLAS.

The death at Penticton, of Mr. Charles O. Douglas, travelling salesman for Stanfields, and whose home is in Toronto, has caused considerable talk, and some adverse criticism of those connected with the case.

Mr. Douglas, who is quite well-known among the trades people, only recently arrived in Penticton from Keremeos and vicinity, and was suffering from a cold on his arrival.

One report stated that he had become overheated while assisting with a stalled automobile, and this resulted in a chill. He was cared for by Dr. White at Penticton, in his room at the Penticton Hotel. Shortly after midnight an occupant of the next room heard a noise, and Mr. Douglas was found lying on the floor, with some clothing on fire and the room filled with smoke. There had been a lamp left burning in the room.

Coroner Andrew was notified and an inquest was held, the verdict being that death was due to suffocation, to which, owing to the weak condition of the patient's heart during an attack of pleurisy, he would be easily susceptible. According to the coroner there can be no blame attached to the attending physician or the attendants at the hotel. Only a few minutes previously the patient had been visited and it is supposed that in his weakened condition he got out of bed and fell, causing the fire. This case is being used by many as an evidence of the great need of a suitable hospital in Penticton.

## VIRTUES OF THE ONION.

Onions are really sweeteners of the breath after the local effects have passed away, as they correct stomach disorders and carry off the accumulated poisons of the system. They provide a blood purifier that all may freely use, and do perfect work in constipation troubles. As a Vermifuge, the onion cannot be surpassed, and eaten raw will often check a violent cold in the head. One small onion eaten before retiring every night is a well-known doctor's prescription for numerous affections of the head, and is highly recommended for sleeplessness. It acts on the nerves in a soothing way, without the injurious effects of the drugs often applied. The heart of the onion heated and placed in the ear will often relieve the agony of ear ache, while the glyrup produced from sprinkling a sliced onion with sugar and baking it is said to work wonders in a croupy child.—Selected.

He who seeks a brother without a fault will remain without a brother.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

### Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. for first inch and 25c each subsequent inch each insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 24, 1911.

### CHINA'S CONDITION IMPROVED.

Yuan Shi Kai, the strong man of China, who two years ago became too strong for the weaklings constituting the governing power of that nation, and was exiled by orders of the power behind the throne, has been recalled, and the government of China placed in his hands, in the hope of his being able to pull it out of the embarrassing condition into which princely incompetency has placed it. Yuan Shi Kai has been made premier, and he has named a new cabinet, in which some of the revolutionary leaders have been made members, and from which the Chinese princes have been excluded.

It was at first thought that this would end the trouble, but, while conditions are somewhat improved by the change, the trouble is not to be so easily settled. It is stated in a dispatch from Shanghai that the rebels and the imperial troops clashed between Chin-Kiang and Nanking. If revolutionary forecasts are correct this will be the beginning of the big battle. The revolutionary strategists have planned their attack carefully. During the last few days a large body of rebel troops with guns, provisions and ammunition and horses have been dispatched from Shanghai for Chin-Kiang by rail. Thence they are advancing on Nanking forty-five miles distant. Simultaneously other bodies of troops are converging on the Imperial outposts via the Yang-Tse River and a small tributary stream from the interior, with the object of developing attacks from three sides. The equipment of the rebels is excellent and many of the leaders have had foreign military training.

Cable despatches from Tientsin announce that the American minister has issued peremptory orders to all Americans in the interior to take their residence at once in the nearest post.

Archibald Ross Colquhoun, well known as a journalist and explorer, in an article in the Daily Graphic, which professes to outline the programme of the Chinese rebels on the authority of the leaders of the rebellion, says that the revolutionary committee has summoned Dr. Sun Yat Sen, one of the instigators of the rebellion and that he will shortly arrive in Shanghai to take up the direction of affairs. The intention, according to the article, is to institute a military government under the direction of an American, General Homer Lea. There will be a period of three years or less of martial law, during which administrative reforms will be undertaken, and this is to be followed by another period of three years during which the military government will be assisted by certain elected bodies.

At the expiration of this time it is expected that the country will be prepared for a constitutional republican government with a president and two elective chambers.

Mr. Colquhoun says it is believed that Dr. Sen will be the first president.

### CANADA AND CONSUMPTION.

The writer once knew a young man in the Kootenay country who was given up to die of consumption by the attending physician. He was advised to go to California; to remain in Canada meant that he would die in three months or less. This young man left the hospital but he did not go to California. He got a position in a mining company's office which was located a mile and a half in the hills away from the residence of the young man. Every morning and night the young man walked to the office from his home. He adopted systematic deep breathing; inhaling while taking six or eight light steps, retaining the lungs full for the same period of time, emptying them slowly in the same time and holding them empty for a like period. He did not dope himself with patent medicines. Slowly he began to show an improvement. To-day he is a healthy and wealthy dentist in the city of Vancouver. Had he gone to California and there continued the same lazy mode of breathing practiced by him previously, he would now be at rest beneath the daisies.

A Colorado doctor says that tuberculosis is only a bad habit. It is a form of laziness; a lazy habit of breathing. The individual does not use all of his lungs, and the coils not used collapse; the tubercles find a resting place and hatch, and gradually the disease spreads. The germs of tuberculosis are in every individual—existence is a fight between the factions of life and death. Life is a matter of elimination. If you use all the lungs you have every day in the open air, systematically, for even a short time, you will never die of consumption.

There is a great movement in Canada at the present time to stamp out tuberculosis. The various provincial governments and other organizations are spending large sums of money in the erection of tubercular sanitariums where the disease is treated. If one-half the amount were spent in teaching the systematic conservation of the health of the individual we do not doubt but that far greater good would be accomplished. Tuberculosis in Canada is largely the result of foul air breathing. Every schoolhouse, every church building, every public hall, and many of our homes lack proper ventilation. We have gone to church and other public buildings and found the atmosphere sickening with broached-over dead air.

### GETTING WHAT WE PAY FOR.

"In nature," says Emerson, "nothing can be given; all things are sold." In other words, we get what we are prepared to pay for. Nemesia keeps the balance sheet. For everything we get, something is given. Gain or loss is impossible. For every expansion there is a con-

traction. Every misfortune carries its kernel of wisdom. Genius is defective on its social side, the social animal is defective on the side of genius. One enjoys the half of life which is lost to the other.

Those in places of power or responsibility have doled out their souls for the position, and those who stay at home and drowse by the grate have missed the exaltation of self-sowing. Adversity is the mother of strength, and a well-rounded character is one that has not been too good. "What I need I'll get," argues Emerson, "and if I don't get it, it merely proves that I didn't need it."

### GREAT LOSS TO WORKERS.

It is estimated by Mr. Elias Rogers, President of the Crow's Nest Coal Company, that the miners of that district have lost four million dollars in wages in the strike which ended by the men resuming work on Monday of this week. It is doubtful if the men gained anything of material consequence in the strike. Of course, the coal operators lost also; the community lost; the country lost. Ten millions is the total estimated loss. But the great losers are the miners themselves; and they are the least able to stand it.

Few strikes in this country, or in any other country have resulted differently. The workmen have generally come out at the small end. Perhaps there is a gain to the organization, but the individual workmen themselves never fully recover the ground they lose in one such strike. We have known good men in other callings, members of a labor organization which felt called upon to order its men out on strike, who were never able to retrieve the ground lost by striking. And the loss and suffering, the deprivation and want, did not fall heaviest upon the men actually engaged in the strike, but upon the wives and homes of the strikers.

It seems incredible that in these advanced days organizations of labouring men should resort to this suicidal policy in the settlement of disputes. But there is nothing else for it while ignorance is rife and agitators are paid to meddle.

### - Between Me and Hank -

One Ali Baba once said that "cheap thinking and high kicking" are the things that are sending the country to the demition how-wow. Put this down as true: there is only one way in which a man or a community can make himself or itself respected; statute law will not do it; rights voted him by the state are of little avail; making demands will not secure the desired sesame. If we gain the paradise of freedom in thought, word and action it will be because we have earned it—because we deserve it. A make-believe condition of excellence may suffice for a time, but there is in the heart of every manly man and womanly woman that which cannot be satisfied with anything short of the real thing, the result of quiet, persistent, useful effort.

If life were one thing and culture another, we might then build up a character on empty phrases and artificial education, but when we attempt to make culture something outside of and alien to useful work which is in line with common sense, we accumulate barnacles that retard the progress of the ship of state.

To benefit others we must be reasonably happy and reasonably good. Animation through useful activity, good-cheer, kindness and health. Patience, persistency and a firm determination to do the right thing, and to mind your own business so that others, too, may mind theirs. A dash of discontent with past achievements is a good thing, for then we shall constantly put forth an effort to do more and better work. When what we have done in the past looks big to us, we are not doing much to-day. And when we have to make much of our culture we have not any.

### IMMENSE NEW GAS WELL AT BOW ISLAND.

Daily Production of Well 5,000,000 Cubic Feet.

Widespread interest is being manifested in the opening of another new gas well at Bow Island, which is producing natural gas at the rate of 5,000,000 cubic feet every 24 hours. Attention was first attracted to Bow Island when the gas well known as "Old Glory" was discovered. At the time of its discovery, "Old Glory" with its daily production of 8,865,000 cubic feet of gas, was the largest natural gas well on the American continent. But in addition to "Old Glory" Bow Island has four other gas wells, one of which is producing 28,000,000 cubic feet of gas daily.

The opening of this new gas well gives Bow Island a daily production of 11,865,000 cubic feet of gas every 24 hours and the distinction of being the world's greatest natural gas field.

The Canadian Western Natural Gas Co., which controls the Bow Island gas field, and in which the Canadian Pacific Railway is understood to be interested, is to supply natural gas to Calgary and the work of piping the gas from Bow Island to Calgary is now under way.

In its enormous supply of natural gas, Bow Island, with its practically unlimited supply of cheap fuel, will be able to offer unusual inducements to manufacturers and it is generally conceded that Bow Island will become an important manufacturing centre. The town, although less than two years old, already has a population of 400 and presents to the eye of the visitor a scene of remarkable activity and development.

The Grand Pacific Land Co., Limited, with head offices in Winnipeg, Man., controls a part of the townsite of Bow Island and has appointed Chas. H. Cordy, Summerland, as its exclusive Summerland

representative for the sale of Bow Island lots. Complete information as to the World's Greatest Natural Gas Field and the opportunities for profitable investment in Bow Island may be had by calling upon or writing Chas. H. Cordy at Summerland, or the Grand Pacific Land Co., Limited, at Winnipeg, Man.

**THE HOME CIRCLE.**

Crude Thoughts From the Editorial Pen.

The first duty of a man is to his home, to his wife and his children, if he is so fortunate as to have them.

Laughter is day and sobriety is night, and a smile is the twilight that hovers gently between both, and more bewitching than either.

Many a child goes astray, not because there is a want of prayer or virtue at home, but simply because home lacks sunshine. A child needs smiles as much as flowers need sunbeams.

We know from sad experience that it is very inconvenient to be poor, but no man is poor who has a happy home and it does not need lace curtains or velvet carpet to make a home happy.

Every one has to fish for what he gets. Others may possibly bait and take off the prize from the hook and paddle the boat, but the fishing has to be done by your own hand. Every other means you may try will turn out a failure.

Do not ask the teacher or some classmate to solve that hard problem. Do it yourself. You might as well let him eat your dinner as do your sums for you. It is in studying as in eating; he who does it gets the benefit, and not he who sees it done.

We believe that many lives are wrecked, not so much by the storms of life, as by drifting with the tide and striking these rocks and coming in contact with the hidden sins and dangers along the shore. Push out on the deep water, head your bark up the stream. None but lazy, indolent people drift with the tide.

Do not sit and ponder over trouble; you cannot dispel it by making yourself miserable. Never look into the future with despair; you cannot cross a bridge until you come to it. Don't harrow your mind over things that cannot be helped. Live confiding in the present. The past cannot be remedied, and you have yet to try the future.

The mother who radiates peace, radiates strength also. The restlessness, the noise, the rush of life to-day, make it all the more necessary to maintain within the home an atmosphere of serenity and sweetness so that the threshold once crossed, the outside noise, the clatter and strife are left securely behind. This is, perhaps, an old fashioned conception of home.

If one desires to improve in manners he can never do so except by mingling with the refined and good. Diffidence often keeps back those who have in early life but few social advantages. The only way to overcome this painful difficulty is to plunge in. It is one of the most

easily cured of all maladies. A bath in the bracing ocean of social life will enable a person to keep his footing bravely.

In the family relation every one should always be at his best. The home ought to be a heaven. It ought to be as nearly heaven as is possible on earth. There should be no purposely withered flowers about the hearthstone and no purposely clouded sunbeams. Selfishness alone ought to be sufficient to make home conduct exemplary. Certainly all want a pleasant home. Certainly all want smiles instead of frowns.

Parents, through lack of recognition of the individuality of children, often try to force their minds as a burglar opens a safe, using the jemmy of parental command or the dynamite of punishment. It is so much easier, so much more natural, to find the combination of the safe—the individuality of the child that is the key to its mental and moral processes and peculiarities! Then the mind opens to truth naturally, simply, automatically. A bud does not become a flower by irreverent fingers forcing its petals apart; it requires merely self-revelation, self-development through self-activity, naturally unfolding, normal growth in harmony with its environment.

A homestead without a pair of old folks—"Time's dotting chronicles"—seated contentedly in the chimney corner, would hardly be a homestead at all. If they are in the picture, it is complete. There you may find them, day in and day out, in all sorts of weather, steadfast to their places and to each other. When the eaves drip, in the middle of the winter forenoons, the old man with head of silver abandons his post and newspaper to make the accustomed tour of the kitchen offices, the shed or the barn, lingering by the way to throw down a handful of grain for the pinched poultry. With what minuteness he is cautioned by grandmother not to go out insufficiently clad, and with what a single-hearted joy she welcomes him when he comes back to her again.

Half the marriages in the world are nothing but bubbles and barter. A man wants a wife. He casts about for an even exchange. In a year he is tired of his bargain. In five years love is dead, and cold-browed tolerance inherits love's garments. In twenty years tolerance is in its grave and hate reigns supreme. The wife is naggy and prickly and peckish. The husband is dogmatical and reticent and mean. But there they hang together on the bough, like two gnarled and frosted apples, until the winds of death dislodge them and away they go. The only way to be rid of bubble marriages—marriages that turn out emptiness with one drop of water as the residuum, and that drop a tear—is to educate our boys and girls to something higher than playing with pipes and soapy water. Give them something more earnest to do and see that they do it. Compel men and women to choose their life companions with a tithe of the solemnity they bring to the selection of a carriage horse or a ribbon.

# A TENDERFOOT'S WOOLING

—BY—

CLIVE PHILLIPS WOLLEY

(AUTHOR OF "GOLD IN CARIBOO," ETC.)

CHAPTER XXI.—Continued.

The centre log had reached the spot where Al's hat lay, and as it passed over it, possibly one of the hands that propelled the log reached for the derelict "Stetson," which had been the old man's pride. At the same time the slope of the prairie increased suddenly, and this particular log had been trimmed too fine. By nature it had grown absolutely round, it was a white pine and young, and therefore smooth and heavy, and the men who had trimmed it had taken all the limbs off close to the trunk.

The result was that though it had crawled as slowly as its companions up to this point as soon as it felt the sharper incline it began to turn over much more freely, each revolution giving additional impetus until it was obviously rolling.

Already it was twenty feet ahead of its companions, and then for a moment a brown hand showed above it. Al's rifle came to his shoulder, but he was too slow; the hand disappeared before he could press the trigger.

"Look out, Rolt," he cried. "They can't hold it! Its got away with them! If they can't stop it, they're our meat, sure," and he stood up recklessly to get a better chance with his rifle.

Faster and faster came the log, and again a hand showed, and this time the arm and shoulder with it, and the old man fired; but the arm, broken at the wrist, had fallen behind the log, before his bullet chipped the bark of it.

"Bully for you, Rolt. I take it all back about them sitters." But Rolt did not even smile. His lips were thin now, and set, and his eyes were glued to that log, whilst he held his rifle as men hold their guns at the pigeon traps at Hurlingham.

If the covering party in the timber had been able to hit a haystack at seven hundred yards, the fate of Al and Rolt would have been sealed, for in the excitement of the moment both men stood up, every thought intent upon their prey, utterly regardless of the leaden bees which hummed harmlessly by them.

And then the expected happened. Four men, however desperate, cannot hold a green pine log from behind when it begins to roll, and realizing this, one of the Indians let go and bolted back towards the timber. He fell with Rolt's bullet through his shoulder, and Al's through his thigh before he had gone a dozen paces. The others held on for one more breathing space, and then the log broke clean away from them, rolling merrily down the hill, whilst three miserable devils writhed in the sagebrush in the vain hope of hiding from the white men's withering volley. One wretch ran perhaps for fifty yards with an arm swinging helplessly from his shoulder as he ran, and they saw him wince and stumble as a second bullet touched him.

"Outer to me, Boss," shouted Al, pumping up another cartridge, "bull to you," he added, regretfully, before he could fire again, as his fellow-creature collapsed in a heap and lay still.

Men fighting for their lives have no sentiment, and perhaps Al never had much at any time. The sight of blood had roused all his fighting instincts, and for the moment he was as reckless as he was pitiless.

"Oh, shoot, and be blanked!" he cried, as half a dozen bullets hummed past him. "It's our turn now. Pull them other traps, can't you?"

But the other traps were not pulled. Whilst the centre log was betraying its masters, the two outside ones had come to a standstill, and so, in spite of Al's gibes and the bullets with which he made chips of them fly, they remained, great black bars on the prairie, three hundred yards from the cherry patch, whilst the November sun crawled down towards the horizon. Suddenly it dipped into a low lying bar of cloud and the light faded so suddenly that Al noticed it.

"We've got to hurry, Boss," he said, sinking into his place by Rolt's side, and shaking a spray of blood off his hand where a bullet

Cree brave, he dashed after his leader.

To their credit, in spite of his pace, Toma and Al were not much farther behind Rolt when he sprang at the log, than the second and third strings are behind the winner in the quarter.

As Rolt reached the log a group of figures rose from the sage brush. They had already wormed their way through it for some fifty yards un- seen, but concealment now being impossible, they rose now and ran.

"Fleet as an Indian" men say who do not know Indians. Those who do know them would back Oxford or Harvard, Cambridge or Yale, to beat any Indian who ever drew the breath of the prairies into his lungs. The trouble is that most men who take back these stories of Indian prowess don't know anything about first-class athletes; don't know what it means to come to London the wonder of your country and find yourself a very moderate, second-class, in town; and, moreover, the raconteurs, being for the most part authorities on whiskey, have no personal standard to judge by. They themselves think themselves men. The boys would call them obsolete machines past forty and—fit only for wasting good fuel.

But Rolt's muscles had been kept hard by an outdoor life, and he was still five years on the right side of forty, so that his feet seemed to devour the distance, and in spite of their efforts, the shadowy figures of the Indians grew plainer, until one turned to face the panting terror at his shoulder. He had hardly time to see the fierce white face. The earth itself seemed to rise up and strike him, and he knew no more.

Years after he was known as Billy Broke jaw. He was more lucky than the big Chilcoteen just ahead of him. The hand which struck the sense out of Billy, gripped and clawed at the nape of the next man's neck. For a dozen paces it seemed doubtful whether white rage or red terror would win in that race for life, but the clawing fingers bent at last, and the Indian's shock of black hair, being coarse and strong as a horse's mane, the grip of these fingers held, like fox and hound in the final worry.

There is a particular scent to day, not unlike the smell of dying sage-brush, which makes old man Rolt turn squeamish. When he smells it, he sees the whites of an Indian's eyes, and feels a neck bending back until it snicks.

## CHAPTER XXII.

### The Return Home.

Rolt and Al did not stay to look at their work.

"Come on," the old man insisted, and though the remaining Chilcoteens had secured too good a start to be caught up now, the two white men pressed as closely upon their heels as they could. Before the pursuers had covered half the distance the pursued had vanished into the timber; but Al held on steadily, straight into the Indian's lines.

Through the first rank of the pines master and man passed unmolested, running swiftly but silently, until Rolt saw indistinctly a mob of men on his right, uncertain, it seemed, whether to run to him or away from him, until Al called to them in the strange clucking gutturals of their own language.

The meaning of what Al said Rolt could not catch, but he saw the mob disperse, running apparently in the same general direction as himself, and he wondered even then at the marvellously true accent and ready wit which had for the moment deceived the Indians.

For twenty yards the two tore through the impeding brush or blundered in the dark amongst logs and windfalls, then they emerged upon the main trail which led to Kholowna's camp. If they had had time to think, the smooth firmness of it would have suggested to them the numbers of an enemy who could wear such a trail in so short a time.

As they ran past what looked in the dark to be a brush lantern, a man leapt out upon the path, and Al, who was now leading, repeated his cry. But the man was too near to be deceived, and though Al was past him, the Indian tried boldly to block Rolt's way. To Rolt he was the full back of his boyhood's days. Without decreasing his pace he pretended to swerve, and then, as the man closed on him, turned and ran right at him, tilted the Indian's chin up with the butt of his hand so that his head was shoved almost off his shoulders, and so passed

amongst the great dim pines which stood for goal posts, through a line of smouldering fires, seeing only the figure of the tall tireless runner in front.

As they ran a horse whinnied, and Al, checking for a minute, branched off the main trail.

"Holy smoke!" he ejaculated, as Rolt overhauled him. "That's their horse camp. Let's chance it, Boss. It's worth the risk," and he stole swiftly along through the bushes until they opened out into a narrow swamp, not an acre in extent all told. In it twenty or thirty horses had been picketed and as luck would have it not a man was in sight.

"Cut the ropes or pull the pegs," gasped Al, and his own Jack knife snickered and slashed about the horses' reckless of their heels or of any that might be on the trail.

"Now jump and git," he added, "I'll finish 'em. Jump, blank it, jump!" he screamed, as the Boss hesitated, and a crashing of brush in the direction of the fires warned him that the minutes of grace had almost expired.

Rolt obeyed him as the last rope was severed, and Al, losing his head at last, cried in his triumph, "Now catch us, you swine!" as he swung himself on the back of the last horse and galloped into the bush.

As if in answer to his taunt, a dozen Indians dashed into the opening, and four or five rifles were fired point blank at the retreating figure.

Luckily his horse was not hit, but for a moment the old man swayed and all but toppled from his seat, but though he rode bare-backed he got his grip again, and in spite of the deadly sickness which took him and the warm trickle from the numbed shoulder, he managed to stick on, whilst the loose horses, frightened by the shooting, thundered past, jostling him as they went into the darkness in which Rolt had vanished.

For a mile, perhaps, he let his horse gallop, almost lying on his neck to avoid overhanging boughs, maintaining a precarious position by holding on to the horse's mane with his uninjured hand.

Sorely against his will he had to let his rifle go. If his enemies caught him the rifle would be useless now, and he had all that he could do for the one good arm left him.

When at last he came out upon the open prairie he reduced his pace to a lope and sat up, muttering as he guided his horse with his knees and tried to hold up his wounded arm with his left hand.

"Winged, blank them, but not bagged yet, nor goin' to be by any measly Chilcoteen," but though his words were brave his sleeve was very sodden with a warm sticky fluid which still continued to ooze into it, and he was growing so dim of sight and dizzy that he would have ridden right into Rolt had not his horse shied.

Then for the first time since he had grown to man's estate, the old man cut a voluntary, but even then he held on to the halter rope, and managed to murmur:

"All right, Colonel. Don't shoot. I'm comin' down," but he had only a hazy idea that Rolt was blocking the way, his rifle resting across his horse's back, and of what happened after that for a while after he spoke he knew nothing.

His disgust was immense, and his scorn withering, when he sat up again with a curious bandage tied tightly around his upper arm, and heard the Boss ask whether he thought he could sit on his horse if it were led for him.

"Sit on? Who the blank said I couldn't sit on? I'm only barked a bit. Must have knocked this fool head of mine agen a bough, I reckon, or I shouldn't have fell off." But for all that he couldn't remount without assistance, which he accepted only under protest, and with such a perfect string of oaths, such as in ordinary times no man ever heard him use.

But once in the saddle again, he seemed to recover. It is true that he never spoke a word after the first five minutes, which was unlike Al, but he remained on his horse's back whilst the endless miles went by in the dark. Only once Rolt heard him muttering to himself, "Guess I can go on three legs as well as a buck. I never seed a buck yet as would stop because I tinkered with it."

[To be Continued.]

When wife will gad, husband is sad.

## Naramata Notes.

Mr. George Wolstencroft spent Tuesday in Summerland on business in connection with the firm.

A box social about the middle of December is one of the coming events to be handled by the Sigma Delta Club.

Mr. D. McKay has had his acreage lot situated immediately east of town—back from the powder house—ploughed this week and put into shape for planting in the spring.

The task of fitting up the bank building has been done by local tradesmen—Mr. Johnson doing the carpenter work, Mr. J. C. Lyons the painting—the whole a very creditable piece of work indeed.

Mr. C. W. Johnson has disposed of three town lots situated at the corner of Robinson Avenue and Second Street. The Eastern Townships Bank are the purchasers and it is therefore probable that the building of bank premises will be begun in the coming season.

A landslide on Sunday last just back of Mr. Hornsey's quite blocked up the road for several rods. Early in the week, however, the Government Road Foreman, Mr. Nuttall, was on hand with a force of men and teams and soon had the passage in good shape again.

The masquerade ball held in Penitence on Tuesday night was, evidently a very successful event judging from the many expressions of opinion by those in attendance. Amongst those from our town present were Mrs. A. W. McCulloch, Mrs. T. H. Boothe, Mrs. D. McKay, Mrs. Peterson, Miss Vera Palmer, Miss Reid, Miss Mitchell, Miss Freda Mitchell, Messrs McCulloch, McSwain, Thealy, Peterson, Nuttall, Kenyon, Land, R. L. Boothe, Armour, H. Mitchell, N. Mitchell, and Beauchar.

Judging from the keenness of the bidding on certain staple articles of diet, particularly sugar and butter, at the auction sale held as an aftermath to the Unity Club's chicken dinner last Saturday, there is evidently a famine for some people. It was noticed, for instance, that one gentleman paid 35 cents for a box containing two layers of sugar cubes, when a whole box sells regularly at 40 cents. Another gentleman got fascinated by the sight of a wee pound of butter in the hands of the auctioneer and had not his opposing bidder quit hoisting the price the sale would still be going on. If anyone does not know what butter at \$1.25 per pound tastes like, ask F. C. Manchester.

The chicken dinner on Saturday evening at the home of Mrs. H. J. Wells, under Unity Club auspices, was quite the entire success promised it should be by those who conceived the idea. The meal was well prepared and well served, and was evidently thoroughly enjoyed by the large number of guests. The dinner was followed by an interesting programme by local artistes, and this was followed by an auction sale of extras which proved a very profitable source of revenue for the Club. The program was as follows: Instrumental duet by Miss Block, pianist and Miss Hazel Wells, violinist; Reading, Miss B. Mitchell; "How Uncle Moses Sold Eggs"; Solo, Miss Vera Palmer, assisted by the Sigma Delta girls and others in the chorus, "It Takes Me Back to the Old Folks"; Sketch, Mrs. Lewis Block, "The New Organ"; Solo, Mr. Fred Manchester, "The Lakes of Killarney"; Step Dancing, Captain F. J. Languedoc; the closing number being a solo by Mr. Manchester, assisted by the crowd, "All Aboard for Blanket Bay."

## Kaleden Comments

Mr. D. D. Lapsley has started the construction of his warehouse which is being built over the water adjoining the wharf.

Mr. J. C. Findlay's new cement house is practically ready for occupation; the heating plant, which he is expecting from the east has yet to be installed.

Mr. James Ritchie's handsome hotel on the water front is nearing completion, so far as its exterior is concerned, the weather, with two days exception, having been mild enough to permit the finishing of the cement walls. Interior carpentry is progressing steadily, and the grounds are being enclosed.

On Sunday evening, November 19, a pleasant time was spent by a large gathering of young people at the home of Mr. and Mrs. O. E. Tomlin. Favorite hymns were heartily sung, and since the hosts of the evening are leaving on Tuesday, for a three weeks stay near Spokane, and other members of the gathering are going to England and various Prairie and Eastern cities for the winter, the closing hymn—"God be with you till we meet again," was appropriately sung.

We have organized this fall a football team, the captain being H. S. Jay, and the boys, in spite of the severe threatening weather were keenly anticipating their first fight with the Summerland team on November 9th, Kelowna being unable to fulfil their engagement. Hurried preparations were made and details arranged, but intense cold on the eventful morning decided us that it was useless to make the journey, and the game was reluctantly abandoned, or temporarily postponed.

## THE YOUTH'S COMPANION FOR 1912.

No other paper is quite like The Youth's Companion. It is taken in half a million homes, where the choice of reading is made with as much care as the choice of friends.

For years the Companion has enjoyed contributions by distinguished men and women of Great Britain and Canada. Among those already engaged to write for the 1912 volume are General Baden-Powell, who has something of interest to say about the Boy Scout Movement, Sir Harry Johnston, who recalls the last of the South African hunters, William T. Stead, Jerome K. Jerome, Jane Barlow, Frank T. Bullen, Rev. W. J. Dawson, Richard Whiteing, Sir James Crichton-Browne, and the Duke of Argyll, a former Governor-General of Canada.

The serial stories alone, which will follow one another through the year, will be worth \$1.50 each when published in book form. By taking The Companion the Canadian subscriber gets them all and 250 other complete stories for \$2.00; and the Articles, Miscellany, Boys' Page, Girls' Page, Household Page, etc., put in for good measure. Now is the time to subscribe, for on January 1st, 1912, the subscription price will be advanced to \$2.25.

Do not forget that the new subscriber for 1912 receives free The Companion's Calendar for 1912, lithographed in ten colors and gold, and all the issues for the remaining weeks of 1911 from the time the subscription is received.

New subscriptions should be addressed to The Youth's Companion, 144 Berkeley Street, Boston, Massachusetts, U.S.A., or the Review Office, Summerland.

Pegging away will win the day.

### Local News Items. Local News Items.

**BORN**—to Mr. and Mrs. A. G. Munn, a daughter, on the 22nd. 10½ pounds.

**BORN**—On Sunday, November 19th, to Mr. and Mrs. F. G. Barnard, a daughter.

Mr. Jas. Conway is now the owner of the building on Shaughnessy Avenue occupied by Mr. James, the tailor.

Mrs. Hood wishes it understood that she did not state that the needlework advertised for in last week's issue was stolen and regrets that the advertisement appeared in this form.

Everything is in readiness at the Skating Rink on the side of Gian's Head, for that popular winter pastime. All except the ice, and for this there may have to be a long wait. A fine concrete floor has been put in and is now flooded awaiting a sufficient drop in temperature.

Mr. Thos. Collinge has gone to Vancouver Island with the idea of permanently locating there. Mrs. Collinge has been the guest of Mr. and Mrs. Hector Sutherland for a few days, and leaves on Monday evening for Victoria, where she will remain some time visiting friends, before joining her husband. It is probable that they will settle in Alberni.

A Sale and Supper is to be given on December 7th in the Men's Club Gymnasium, by the Ladies' Aid of the Methodist Church. Aprons, bags, fancy articles, etc., and home-made candy will be tastefully displayed for sale. During the afternoon tea will be served, and at six o'clock a substantial supper will be served, of which further announcement will be made later.

Early this week the Municipal Clerk, J. L. Logie, came down town to get some chairs from the Council Chamber for use in one of the public buildings at West Summerland, but found the room empty, not a chair being left. The last we heard was that Mr. Logie was still looking for the chairs. The room has never been locked day or night, and anyone so disposed could easily remove any piece of furniture.

A Public Dance will held in the Empire Hall on Tuesday evening, December 5th, to provide funds to give Summerland a winter attraction in the shape of an open-air skating rink. This rink, which is in process of formation on the Tennis Club Grounds on Siwash Flat, will be open to all who wish to join it, and will be greatly appreciated by all those who care for out-of-door winter amusement. Tickets for the dance may be obtained from H. D. Suckling, Bank of Montreal, Miss Cartwright, West Summerland, Miss Higgin, Prairie Valley, Gentleman's ticket, including one lady, \$2.00. Extra lady, \$1.00.

## DINNA... FORGET

## RECITAL

By the Music Department of Okanagan College, will be given in the COLLEGE GYMNASIUM, ON Friday, Dec. 8th, 1911, Commencing at 8 o'clock.  
ADMISSION - 50 c.  
Plan of Seats at McWilliams' Pharmacy, West Summerland, and at Summerland Drug Company.

J. M. Sutherland went East to Winnipeg this week and will be absent for ten days or two weeks.

T. C. Orr is out again after having been confined to his house through illness for a week or more.

T. B. Young is further extending his business and will soon have a stock of farm implements.

Bert Drake is soon to leave for his old home in England, and will sail from St. John on December 13. It has been several years since Mr. Drake has seen his wife and family.

Rev. George Pringle, of Vernon, will preach to the Presbyterians on Sunday next, occupying the pulpit at West Summerland in the morning and down town in the evening.

Our outside readers, if they have not already done so, would do well to study our October weather report. It would be impossible to get its equal from any other government station in Canada.

Mr. Gordon Dinning of the Eastern Townships Bank, Sherbrooke, Quebec, has been transferred to the Summerland branch of the same institution. This bank now has staff of three in its local office.

Our local Telephone Company is entering upon a larger field of activity and is seeking increased powers from the Provincial Government. Their advertisement appears in this week's issue.

The Overseas Club is to hold a general meeting on Wednesday evening, the 29th inst. One item of business will be the election of a president. The Club is arranging to hold a dance and a whist drive on December 13th.

Summerland citizens will be pleased to learn that the music department of Okanagan College is soon to give another of their popular musical recitals. This will be held in the College Gymnasium, on Friday, December 8th.

On Tuesday, the 28th inst, a meeting of local hockeyists is called for at the Men's Club. This meeting is for the purpose of organizing for the coming season. All interested in hockey are invited to be present.
