FRIDAY, OCTOBER 6, 1911.

MARTIN BURRELL FOR THE CABINET.

The Inland Sentinel, a Liberal paper published at Kamloops, has started an agitation to have Martin Burrell, the member for Yale-Cariboo, appointed to the portfolio of Minister of Agriculture in the new government. The west is certainly entitled to cabinet representation, and at least one member should be from the Pacific province. At the last session of the House, Mr. Burrell took the strongest stand against the reciprocity agreement, especially as it affected the fruit growing and farming interests, and the electors of his district have approved of his course by returning him by a largely increased majority. We believe, therefore, that he has some claim on the position, and are confident that if appointed, he will fill it to the honor of himself, his party, and Canada.

INDIAN RESERVE LANDS.

In the past, whenever the question of utilization of the unused thousands of acres of lands held in Indian reserves in this Valley has been discussed through the press, the end has been a conclusion that nothing could be accomplished owing to the standing difference of opinion as to the title of the land after the Indians' rights to it have been disposed of. It seemed impossible to get the matter into court to decide the issue. The Provincial government blamed the Dominion and the Dominion government blamed the Province. And there the matter has stood for many years.

Now the way should be clear for the final settlement of this problem. There can no longer be any reason for the difference of opinion which has existed, if there ever was any, and it is of vital importance to the many districts in the Province, particularly the Okanagan Valley, to have the Dominion and Provincial governments get together and decide what course to pursue.

If the title to the land reverts to the Province when the Indians have been satisfied to give it up, then it will be up to the Province to find the means to satisfy the Indians, and when the Indians have been satisfied, to resell the land to white settlers at a figure sufficient to clear the Provincial government of any loss in the transaction. If on the other hand, the land belongs to the Dominion government, the Dominion should provide means to satisfy the Indians and then resell to white settlers at a price that would be fair to all parties.

The law relating to the regulation and control of Indian reserve lands should be so amended as to place the Indian in a better position, not only in the matter of his own moral and physical development, but also in his relations to the white communities in which his lot is cast. To permit the Indians to refuse to allow a wagon road to be built through unoccupied reserve land, to give the white settlers beyond the Indian lands access to their homesteads, is sheer sentimental folly. Yet we know of several instances in this Valley where white settlers have been deprived of roads to their homesteads because the Indians did not feel disposed to grant the right of way to the Provincial government. There are many similar cases, which show the need of a saner reserve law.

CONSERVING THE EMPIRE.

One of the big things done by Theodore Roosevelt when president of the United States, if not the greatest—was in providing for a permanent Conservation Commission, charged with the care and oversight of the natural resources of the United States. And one of the best things proposed by Sir Wilfrid Laurier as prime minister of Canada, was the resolution urged by him before the Imperial Conference on June 16th last, providing for the appointment of a Royal Commission to investigate and report upon the natural resources of the Empire, "the development attained and attainable, and the facilities for production, manufacture and distribution, the trade of each part with the others and with the outside world, the food and raw material requirements of each, and the sources thereof available."

It is to be hoped that this will be a permanent commission like the Roosevelt Commission. Nothing could be of greater service to the Empire, in bringing to the attention of each individual citizen of the Empire his own bread-and-butter interest in the conservation of the Empire's resources.

The work already done by the Roosevelt Commission is of immeasurable value to the United States in particular and the American continent as a whole. But great as this work is, and great as it is destined to become as the work of the Commission progresses, it is not to be compared in general importance to the world with the work which comes under the direction of the Royal Commission provided for in the Laurier resolution.

As a result of this resolution, the British Empire will soon have its Conservation Commission and its Development Board. And, growing out of the work of these, we shall see in years not far distant, the realization by the nations of the world of the necessity of pooling their resources and co-operating in their economic development.

Science has already found the means to abolish material poverty as soon as man cares to use those means fully. The work of these Conservation Commissions will be to bring home to each individual of the nation and empire his own personal interest in the work in hand, and it is not too much to hope for that material poverty throughout the civilized world will be abolished as the result of this work of conservation.

COBDENISM versus PROTECTION.

England has too long held to the Cobden fetish. This is the conclusion of the vast majority of thinking men even in that country of free trade. In the campaign just closed in Canada the question of free trade came in for a good portion of the general discussion. There are men in Canada to-day who apparently believe that we should change the policy of protection, under which Canada has so far progressed, to a policy of free trade. In the campaign just closed many earnest advocates of Cobdenism took occasion to publicly and privately demand the inauguration of such a policy in Canada. Apparently they little knew what the result would be and would not take the pains to look into the matter.

We do not believe that Canada will ever see the day when free trade will be adopted as our national policy. It would be suicidal, and the most retrograde step we could take.

We have only to study the conditions in England to-day to arrive at this conclusion. The "cheap-cost-of-living" theory does not work out in practice. Of what use to a fellow is a cheap loaf if he has not the means to buy it?

These free trade advocates blind their eyes to the fact that in England tens of thousands of workers do not earn money enough to purchase the necessities of life. In the face of such restlessness as England has but recently experienced, these followers of Cobdenism tell us that we should break away from the policy under which we have progressed so well and take up a policy that has all but ruined the conditions of the workers in England.

English mechanics who have come to Canada from the Motherland are the readiest to condemn the conditions into which the workers of England have fallen as the result of free trade. In the recent strike or railroad employees in England, the increase asked by the men was fifty cents a week in the wages paid them. And the average weekly wage paid these men is something under five dollars.

A report on "the cost of living and wages" in England and America was recently made by the assistant secretary of the British Board of Trade. The report states that an English workingman with an average family maintained under our conditions would find his wages on this continent higher by 130 per cent. with slightly shorter hours, while his expenditures on food and rent would be higher here by about 52 per cent. When wages and hours are put together here, it works out at 240 against 100 in England. In other words wages are two and a half times higher in America than in England. To give the working masses of the Old Land a living wage, the British Isles must and no doubt will revert to protection.

ITALY DECLARES WAR.

It would be interesting to know what is back of Italy's declaration of war against Turkey. No doubt Italy is now exercising her right given under secret agreement by the powers at Berlin in 1878, when the treaty was made ending the Russo-Turkish War, by which it was secretly agreed that Italy would be permitted to "exercise a pacific penetration" of Tripoli. This seems almost certain since Turkey has received no response to her appeals to the powers for their intervention to prevent bloodshed, and at the same time to thwart Italy's designs upon Turkish territory.

Italy has assured the powers that it is for the benefit of progress and humanity that she is taking Tripoli, and the powers are apparently prepared to take Italy's word for it. At all events, the powers are so busy about little affairs of their own that they have no time to give to Turkey. However, it may lead to larger complications in which the powers may be forced to intervene. If Italy can accomplish her designs at once, if the Ottoman resistance is short and ineffective, the trouble will soon be over and Italy will be in command of Tripoli, and, right or wrong, the powers will recognize Italy's command over that territory.

There does not appear to be any cause for Italy's declaration of war, except that she wants Tripoli. A note addressed to Turkey peremptorily fixed 24 hours as the period within which the Turkish government must reply to the demands therein set forth. These demands were to the effect that Italy would take over Tripoli and establish a government there. The reasons assigned for this arbitrary action are set forth by Italy in these words:

"During a long series of years the government of Italy has never ceased to make representations to the Porte upon the absolute necessity of correcting the state of disorder to which the government of Turkey had abandoned Tripoli and Cyrene. These regions should be admitted to the benefits of progress realized by other parts of the Mediterranean and Africa. This transformation which is imposed by the general exigencies of civilization constitutes for Italy vital interest of the first order by reason of the slight distance separating these countries from the coasts of Italy.

"Notwithstanding the attitude taken by the government of Italy, which has always accorded its loyal support to the impartial government in the different political questions of recent times and notwithstanding the moderation and patience shown by the government of Italy, its views concerning Tripoli have been badly received by the Imperial government, but more than that, all enterprise on the part of Italians in the regions mentioned has been systematically opposed and unjustifiably crushed."

WASHINGTON NURSERY COMPANY.

475 Acre Plant. Largest in the North-west.

SIX MILLION FRUIT TREES. All produced from carefully selected buds and scions and grown on our own budded seedlings.

These trees are propagated from carefully selected buds and scions secured by our men from bearing trees which have produced regular crops of the best strain of their varieties. These bearing trees are labelled while the fruit is thereon, allowing no opportunity for a mistake as to the best strains.

Our motto is "A Square Deal."

There is nothing that we appreciate more than a satisfied customer. Need we say more?

The Washington Nursery Company,
Toppenish, Wash.

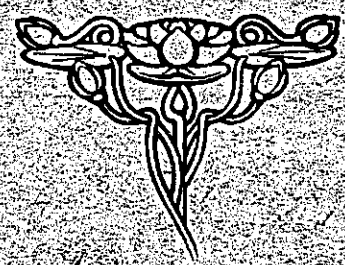

Grass widows are sometimes the result of sowing wild oats. A flirt and her conscience are soon divorced.

Bonnors—That's the second time you have used the phrase "aching void." I wish you would tell me how a void can ache.
Jonners—Easiest thing on earth; don't you ever have a headache?
Jonny—"Jack, you ought to make some sacrifice to prove that you love me. What will you give up when we are married?"
Jack—"I'll give up being a bachelor."

A Big Asset

The Solid Earth

Of Course, you must procure the right kind of Soil, the kind that will grow anything. This is the kind we offer in Summerland; the fruit-growing centre of the world-famed Okanagan district.

LOOKING AHEAD.

The news item in our Naramata Notes last week stating that the work of surveying North Naramata had been completed and the lots were now to be put upon the market this week, will be joyfully received by many who some months ago purchased choice lots, and who, since then, have been awaiting the opening of the subdivision. The great success of the purchasers of Naramata properties has made the demand for North Naramata lots more keen, and we shall see this new subdivision quickly picked up by buyers who will rapidly set it out into fruit orchards and develop the beautiful homes these hills overlooking the placid Okanagan are so capable of.

All men cannot be promoters of the J. M. Robinson type. Few men have the insight and the foresight that has characterized his promotions in the Okanagan Lake district. He looked far into the future when he picked out Peachland, Summerland and Naramata as townsites, and selected the choice lands lying about them for the homes and orchards which have since grown up. Unforeseen obstacles have been encountered, it is true, but these have been quickly overcome when the efforts of a united community were directed intelligently to this end.

North Naramata is the culmination of the big, broad scheme, or shall we say the realization of the dream, that has bottomed every effort of Mr. Robinson in his work on Okanagan Lake. The fulfillment is yet to come. Stupendous undertakings require a vast amount of patience and optimism, coupled with sane, hard work. But these have been exercised, and every step forward is one looking to the completion of the work Mr. Robinson set his hand to some years ago when he found the hills of Okanagan Lake a vast stretch of waste.

We consider that the purchase of North Naramata property is like placing one's money into a savings bank that will pay fifty to one hundred per cent. interest per annum. This has been the experience of those who intelligently placed their money in properties of the Okanagan Lake district, and a mistake cannot be made with the surrounding properties offering such conclusive evidence of the great possibilities before us.

Here's to North Naramata, the new Okanagan baby! "Lang may yer lum reek."

"GENTLEMANLY" GAMES.

For the past few weeks a controversy has been carried on in the Canadian Courier taking the professional baseball game as the theme to be discussed. One Mr. Patterson declares the game to be dead wrong; not so gentlemanly as cricket, etc. Another, Mr. Fitzgerald, declares Mr. Patterson is away off, and his defence of the game is really heart-rending. All of which shows that very good men sometimes go very far wrong in discussing very unimportant details. For any writer to waste space discussing what he considers to be the drawbacks to the game of professional baseball, or professional lacrosse, is quite absurd; and for a writer of Mr. Fitzgerald's ability—he is sporting editor of the Toronto Telegram—to consider that professional baseball needs any defence is more absurd. To consider these professional games with cricket—"the gentlemanly game"—is quite ridiculous. As well draw a comparison between college football and marbles. So far as the "gentlemanliness" of the different games is concerned, it would seem that this is largely a matter of private opinion, and would rest entirely upon what one considers constitutes a gentleman. The noise, hilarity, and rooting and color waving so characteristic of the baseball and lacrosse game, may be less genteel than the cigarette and funereal atmosphere characteristic of the cricket field, but the big point of difference is not this. The big point of difference is in the interest of the masses. There can be no doubt that baseball and lacrosse are more the games which interest the great majority in America. Cricket may be more the gentleman's game, but we have yet to hear of a cricket game drawing \$1,000, \$2,000, \$6,000, \$10,000 gate receipts, and this, after all, is the surest indication of where the interest in a game lies. Any discussion of the minor points of difference seems a waste of effort.

PREMIER M'BRIDE'S WISDOM.

The decision of Premier McBride not to accept the proffered portfolio in the new federal cabinet under Mr. R. L. Borden will be accepted with a degree of satisfaction by everyone having the interest of British Columbia at heart. While all would, no doubt, be pleased to see Premier McBride in Mr. Borden's cabinet, and, from a purely political point of view, it would be a move to the advantage of both Mr. Borden and Premier McBride, still there is a larger duty that the people of British Columbia look to Premier McBride to perform and he has very wisely chosen that duty.

Premier McBride has brought British Columbia to its present enviable position. He has done a great work, but he has not yet completed his work, and until he does so the full measure of the man and his mission cannot well be taken.

Hon. Mr. Bowser expressed the thought when he said of Mr. McBride's decision to decline the cabinet position at Ottawa: "He and his government have inaugurated many important matters of legislation, and many radical moves in administration, and he wishes more than anything else to stay and see them out. Years of tremendous prosperity are in store for British Columbia. British coffers are beginning to open since the defeat of reciprocity as never before to our investments. Preferment in the East was desirable, but when it came to leaving British Columbia in its growing and prosperous time there

was only one decision that the Premier could reach, and that was to stay with his native province. British Columbia needs Mr. McBride here."

THE EUROPEAN WAR CLOUD.

The "war" between Italy and Turkey would be laughable were it not for the grave consequences that may possibly arise from it. If we are to judge from the happenings which have taken place at Tripoli and along the Turkish coast, this "war" if it is confined to Turkey and to the two powers now in the conflict, will simply mean Italy's taking forcible possession of Turkish territory and ports of entry and the final decapitation of the Ottoman power. Turkey shows no confidence in her fighting power, and must eventually fall an easy prey to Italy unless some other power step in, and this hardly seems probable. The powers as a whole have shown very little sympathy for the Turk, and intervention of any kind is not likely unless one or more of the larger powers concludes that intervention is necessary to protect the interests of the intervening powers.

Of course, European complications may arise out of this comic opera now on the stage at Tripoli, but there need be little fear of it. The three nations directly concerned besides those now at war are England, Germany and France. When we compare the naval strength of these powers, the likelihood of war becomes remote indeed. The Philadelphia Ledger makes this interesting comparison:

	Gt. Britain.	Germany.	France.

SIR WILFRID RETIRES.

On July 16th 1896, Sir Wilfrid Laurier took the oath of office as Canada's Prime Minister. On Friday last, October 6th, after fifteen years of service in that capacity he and his colleagues handed in their resignations to His Excellency Earl Grey. Mr. R. L. Borden was at once asked by His Excellency to form a government. Mr. Borden announces his cabinet this week.

Thus we are told of the retirement of one of Canada's most gifted sons, and the coming to power of another, less tried, perhaps, and of a distinctly different type, yet one who gives promise of being a leader of great strength and moral convictions and a power in the building of a nation within the British Empire. Sir Wilfrid goes out on an issue clean-cut and devoid of all scandal. It was the great mistake of his political life, as we look upon it now, but in after years a new light may be shed upon it and the name of Laurier may loom up large as a man who sacrificed office and power for what would have been to the Empire's good.

This we do not know. But this we do know. Whatever may be the outcome, the man going out and the man coming in have proved valiant fighters; the former a good loser and the latter a gallant victor.

The voice of the people was so decisively spoken it left nothing in doubt. Sir Wilfrid accepted the mandate not whiningly as with a "broken heart," but bravely and in his customary good spirit. Mr. Borden accepted his victory and enters upon his duties as Prime Minister with a subdued power and feeling deeply the responsibility that is his, yet with no thought of fear in the outcome. He knows he has at his back a United Canada and an Empire greater than the world has ever seen.

His Honor the Lieutenant-Governor announces with sorrow the death of Lieutenant-Colonel Richard Wolfenden I.S.O., V.D., who for forty-eight years has been King's Printer, and has had charge of the Government printing office at Victoria. Mr. Wolfenden was a man of many admirable qualities, and as official of the province was ever thorough in his work and careful in his judgement. Under his watchful eye the Government Printing Office at Victoria has been made a model of utility and system.

The Boy Scouts.

Boy-scout interest now centres round the concert to be given in Empire Hall, on Friday evening, October 27th. The program will be made up entirely of local talent, and the boys themselves will provide three or four numbers. The admission will be fifty cents, the proceeds to go towards the expense of several projects contemplated for the winter. Liberal patronage for a worthy cause is hoped for.

A feature of last Monday evening's meeting was an address given by Miss Bemister, of Winnipeg, a well-known authoress, who is at present the guest of Miss Annie Dale. Her address, which took the form of a story of a boy who did his duty bravely in the face of difficulty and inclination to do otherwise, was listened to with interest by the boys.

After the Concert it is hoped to settle down to Second-Class Scout work.

Peachland Notes.

Born on Oct 8th, to Mr. and Mrs. Jacob Winger, a daughter.

Mr. and Mrs. A. H. Cutbill returned Monday from a trip to Princeton.

Mr. W. C. Aitkin, contractor, has completed a fine cottage for Captain Tewart, on his five acre lot. The Captain is moving this week.

Mr. Bertie Tillbrook left for Montreal Monday. It is hinted that there Mr. Tillbrook will meet his bride and return to Peachland a benedict.

Mr. A. Town returned Tuesday from a trip to Winnipeg. He is glad to get home to the sunny Okanagan after a few weeks of the cold and rain of Manitoba.

Mr. Alf Houston returned from a hunting trip up Trepanier Creek this week, laden with a bear and a deer. He had better luck than most of the hunters who have been out so far this year.

Postal rates in China are the cheapest in the world.

The oldest city in the world is Damascus. Nineveh, Babylon, Tyre, Sidon have gone their way, but Damascus remains, and that, too what it was before the days of Abraham, a centre of trade and travel.

NEW CANADIAN COINS.

The issue of Canadian gold coins which will be made in the course of a few weeks, will bear King George's head on one side and on the other the Canadian coat of arms. The dies have now arrived from England, and coining will commence as soon as possible. The designs of the \$5 and \$10 pieces are practically the same. The \$5 will be generally known as a "George", and the ten as a "Double George."

Whenever the country newspaper finds outsiders invading the field of the home merchants with goods and merchandise, it is asked to rise against the intruders and advise the people to buy their goods from the home merchant, and if the paper, to help it to eke out an existence, accepted advertising from some of the mail order houses, there would at once be a howl. When outside printing houses send their representatives among the merchants and business men, many of these same people give their orders and get inferior work for their money. That's reciprocity.

Weather Report

Abstract from weather records for September, 1911, kept at the Government Station, Balcom Ranch, Summerland, B. C.

September	Maximum	Minimum	Barometer Readings	Sunshine (Hours)	Rainfall (Inches)

LORD STRATHCONA Canadian High Commissioner to London

In 1838 a young Scotch boy of eighteen, named Donald A. Smith, entered the service of the Hudson Bay Company. He had been educated for the Civil Service in India; but the sturdy life of hardship, the rigorous, close, hand-to-hand battle with fate, somehow appealed to him more than the easier and more enervating life of the Orient.

For thirteen years he laboured on the hard Labrador coast, where the climate was inhuman, the monotony insurmountable, the loneliness appalling, and promotion seemed slower than the movement of a glacier.

But young Smith made his record; and in this rough training-school learned self-reliance, courage, self-conquest, prudence, and shrewdness among the solitudes, and a sureness of judgment. He learned to conquer obstacles, and to laugh in triumph at them. In 1869 he had gradually risen to the post of resident governor—the supreme possibility under the Hudson Bay Company.

When the federation decided to take over the title of the company, they met an obstacle in the opposition of the Metis, the half-breeds of the plains, who rose in rebellion under the leadership of the fanatic Louis Riel. In this extremity Donald Smith was recognized, and his courage, tact and wisdom aided in cutting the Gordian knot of disagreement. He at once became the most powerful man in the Northwest, and a year later was elected to the House of Commons. Then came the fierce battle against the corruption, bribery, and Governmental incompetency in building the great railroad connecting the

oceans, and later the organizing of the company, headed by Mr. Smith (the future Lord Strathcona) and his cousin, Lord Mount Stephen, that built the magnificent railroad on the ruins of the Government's hopeless failure. Lord Strathcona's financial ability, his organizing power, his genius to inspire others to see and realize his visions, carried the day; and as J. J. Hill says, "the one person to whose efforts early confidence and in the growth of our country, our success in early railroading is due, is Lord Strathcona." He received his first imperial honor in 1886 and in 1897 was raised to the peerage. His manifold duties defy cataloguing; as a financier, statesman, philanthropist, and in various other fields, he has been pre-eminent, and like all other really great men, he has retained his simplicity through it all. This week, though in his 91st year, he returns to London as Canadian High Commissioner, a most exacting position, and his marvellous knowledge of Canadian affairs and his other unique qualities would make it impossible to replace him.

His lordship only arrived in Canada since the recent elections and doubtless expected his resignation would be accepted. Lord Strathcona expects that he will be able to return to this country in February, when his presence is required to transact some important business. It is thought then that he will succeed in inducing the Dominion Government to appoint a successor to him as High Commissioner in London. In the meantime, it is understood, his resignation will remain in abeyance.

ROYAL WELSH LADIES' CHOIR.

A Synopsis of Its Foundation and Its Glorious Record.

The fame of Welsh choral singing became world wide, when in 1872 a mixed choir consisting mainly of Welsh village folk, under the leadership of Caradog (Griffith Rhys Jones), won the Crystal Palace Company's \$5,500 challenge trophy, and a cash prize of \$500. This fame was enhanced the following year, when the same choir under the same leader again won the trophy, beating the London Choir, known then as the Paris Prize Choir, under the leadership of Mr. Proudman. The sons and daughters, especially the daughters, of the principality have ever since maintained the fame and ever enhanced the standard established and set by the Crystal Palace victories.

Of all the Welsh musical organizations, the Royal Welsh Ladies' Choir has been first and foremost, not only to maintain the fame, but to set a standard to Welsh or any other choral singing that has never yet been excelled.

The visits of the Royal Welsh Ladies' Choir to America is by no means a new venture. Indeed, it is now a matter of history. America was first thrilled by these human nightingales from the land of song as early as 1893; when the musical daughters of Wales won a first prize at the World's Fair, Chicago. The choir was then under the direction of its founder and first leader, Madame Clara Novello Davies. In February of the following year, the late Queen Victoria commanded the choir to appear and sing before her at Osborne. The concert took place in the Indian Durbar room, in the presence of several of the crowned heads of Europe. As a proof that the Royal Welsh Ladies' Choir has, under the direction of Madame Hughes Thomas, sustained the high standard and renown established by the first choir, the choir as at present directed and constituted has won laurels in all lands and was also commanded to sing before the late King Edward VII. in the presence also of royalty.

The Royal Welsh Ladies' Choir stands—and sings—before the world to-day as the unsurpassed organization of its kind, and, incidentally, as the standard bearer through all lands of the superiority of the Welsh nation as a nation of singers. It would be a difficult task, indeed, to analyze this fact, but it can be realized in a most easy way—that is by going to listen to the choir when they visit Summerland on Tuesday next.

A TENDERFOOT'S WOOING

—BY—

CLIVE PHILLIPS WOLLEY

(AUTHOR OF "GOLD IN CARIBOO," ETC.)

Synopsis of Previous Chapters.

The scene of the story is an old cattle ranch, called the Risky, in Caribou, British Columbia, during the early days. Jim Combe, foreman of the ranch had watched Kitty Rolt, the owner's daughter, grow up on the ranch, and had been led to believe that she might ultimately become his wife. He had matters all his own way until Kitty pays a visit to relatives in England, and brings back with her one Richard Anstruther, who speedily becomes a rival for her affections. With two lovers on the ranch, Kitty appears to vacillate from one to the other, though she does not perhaps realize the intensity of the situation for the two men. Jim easily proves his superiority when it comes to the ways of the country, but he lacks that polish and grace of the well-bred English gentleman, which Anstruther displays to perfection. Her visit to England opens Kitty's eyes as to the distance between the rivals, and Jim sees with bitterness that Kitty's affections seem to drift away from him. He manages however, to conceal his feelings. While Jim and Rolt are away hunting cattle thieves, a storm arises and Anstruther, left alone in the house with the women, is injured by a falling tree in endeavouring to rescue a pet fawn of Kitty's, which is left out in the storm. Her anxiety for the injured man's life, reveals to Mrs. Rolt the real state of her daughters affections. On the return of the men, Jim is dispatched to Soda Creek for a doctor and finds him away attending a funeral. On his return he refuses to go with Jim, and indulges in a drunken carousal. He rapidly becomes maudlin, and in this state Jim resolves to take him by force. With this end in view, he has enlisted the aid of the only sober man around.

CHAPTER XIII—Continued.

The violent exercise did something to counteract the effects of the chill air upon his heated brain, but not enough. He could remember that the door fastened with a latch, he could even repeat to himself the necessary instructions for opening the latch; but for the life of him he could not find it.

Sitting upon the ground with his eyes carefully shut, and talking rapidly but incoherently, he explored the whole door from the mud to within six inches of the lock half a dozen times, and at last concluding that he must have reached the wrong side of the house, began to crawl round it, until utterly weary, he sank despairingly into a peculiarly cold puddle, from which lowly station he beat intermittently upon the solid pine logs of the wall imploring old man Hayes to "get up and let a fellow in." At last oblivion came to him, but not in the kindly fashion to which he had grown accustomed. There was a difficulty about breathing which he did not remember to have noticed on previous occasions. It was quite natural that he should have turned over on his back, but his head was rolling about in an unusual way, and there seemed to be an obstruction in front of his mouth.

"Asphyxiation," he decided. "Unusual symptom, rather think unnatural. Not enough whiskey for that," and then he went out into space where nothing mattered, and thought itself became a mere succession of vague and disconnected suggestions.

One of these, the most persistent, was that he was flying. He remembered, as you do in dreams, that he had done this before. He had never been quite certain whether it was in dreams that he flew, or it was in waking life. The dream had always seemed so real, but he knew that he was flying now. He felt himself going up and up, and it was only will which supplied the motive power. He knew that because he tried to flap his wings and could not. They were tied to his sides,

"Heave him up on to the pinto, Bill. He's dead to the world."
"How is he going to stick on?"
"You heave him up," insisted

Combe from the other side of the stolen horse. "I'll fix that. He'll ride as well as the pinto's last passenger."

"The old man is there," replied Bill, looking over his shoulder nervously, and speaking in a hushed voice.

"Yes. Can you steady him like that whilst I throw a hitch around him. Don't let him roll."

"I'll try, Jim; but his legs are like water. You can't hold them. They slip always to once."

"They won't do that long. Now! How's that?"

Combe had taken the tie rope from the pinto's saddle, and with it had lashed the doctor's feet together under the belly of his horse, after which he had passed the bight of the rope round his victim's waist and secured him firmly by it to the horn of the saddle.

"I guess he'll ride like that for a bit," he said, looking critically at his work. "Seems pretty well packed, doesn't he?" and taking the doctor by the shoulder he swayed him tentatively in the saddle.

"Yes, he'll stay there till you untie him, but what are you going to tell the ferryman?"

"That's my trouble. I'm blanked if I know how I'm going to fix that, unless I bag him too. I wish the doctor was not too drunk to sit on by himself."

"If he wasn't he wouldn't go."

"Yes, he would, with this," and the light flickered on a barrel hardly harder than the speaker's face.

Bill looked at Combe, doubtfully. He had known Jim many years, but he had never seen the man he saw now. The sight staggered him and made him doubtful of the share he had taken in the proceedings.

"You don't mean no foul play by him, do you?"

"No, of course not. A dead ass ain't no good. Hand me his bridle," and Combe reached from the saddle for it. But Bill held on to it.

"See here, Jim, this is a mighty ugly business. Is it for a woman?"

"For a woman, sure. Hand over, or they'll be after us."

Still the man doubted, and Combe saw a bar of light in the front of the Ideal. Someone had opened the door to look out. The crowd was growing impatient for its drinks.

"There was no time to be lost. It was cruel but he had to do it."

"Bill," he hissed, "when she died, wouldn't you have done this or any other blanked thing to save her?"

"My God, yes," was the startled answer. Without further demur Bill handed over the bridle and Jim, turning the horses sharply down hill, disappeared into the night, whilst the widower slunk through the back premises into the Ideal.

CHAPTER XIV.

Doctor Prothero Awakens.

It seemed to the doctor that his pace was suddenly accelerated. In his dream flight he began to move with quite phenomenal rapidity. In all previous expeditions of the kind, the motion had been a steady sailing, so steady that if he had not seen the steeples and towers going by below him, he would have considered himself absolutely stationary in space. But now he was going at a great speed and jerkily. Yes, certainly jerkily, and the atmosphere was becoming distinctly colder. He had entered a stratum of cold air. Ah, yes, that must be it. He was getting higher; he was, in fact, rocketing. That was it, he was rocketing. Quite natural, he reflected. You hit a bird in the hand and it rockets. The whiskey has hit me in the hand and it rockets. Certainly I am rocketing. But as his thoughts grew less vague his body grew more and more cold. The spirit was dying out in his blood, and his tightly bound extremities were beginning to freeze.

He became conscious that he was no longer in the streets of Soda Creek. He could hear the horses' feet and gravel which rattled and ailed beneath them, and a jerk which threw him heavily upon his horse's neck woke him to the fact that he was riding down an ex-

tremely steep incline into a gray sea of icy vapour.

It has been said that Doctor Prothero was one of those men who had the faculty of becoming drunk a dozen times in the twenty-four hours. His recovery from the effects of drink was as rapid as his lapse into drunkenness and now his brain began to work almost normally.

He realized that he was riding tied to his saddle, his arms pinioned and his mouth gagged, and that someone, also riding, was leading his horse along the edge of a gray flood from which came a roar and an incessant grinding sound. Dr. Prothero's earliest impression of a river was the union of a dozen tiny springs which well up from the earth's heart amongst meadow-sweet and fritillaries, in his native Wiltshire, or at the wildest a junction of little brown rills which wind chattering to their meeting place through the purple heather of that which English folk call a mountain, and so gathered and united, wander on, picking up a little friend here and another more fully grown further on, until together they turn a miller's wheel, or dream through lush hay fields to the sea.

But the Fraser, by which that silent figure led him, is not a river of this kind.

Born of the snows in that barren land where earth's ribs show above the last of the black pines, the Fraser is bitter and savage from its birth. There are no lush grass fields for it to flow through, no miller's wheels for it to turn.

Its course is through sand and gravel; that it is gold gravel makes it no more beautiful; past gray benches stained in leprous patches by vivid metallic colours. It has nothing to do with farming until weary of life and retired from business, it reaches its muddy delta, where it farms because it is too feeble to do any thing else.

Its life work was mining. It is the great sluice box of northern British Columbia, the great water power which eats away the gold bearing rocks, which builds the sand bars and feeds them year by year with much fine gold, which tempts the strongest of our men with the possibility of quickly earned wealth, and having sucked their lives out of them, leaves them stranded in such back waters as Soda Creek.

The banks of it under which Jim Combe led the doctor's stumbling horse, were sheer cliffs of gravel, the raw edges of a great earth wound, through which the river tore its course, and the brim of it was no place of primroses, but a fringe of great boulders, too heavy even for its great waters to move and here and there the bones of a stranded pine.

Far overhead the two could see a few tall conifers, towering in the night mist, and behind them, up stream, the dull red light which marked the centre of such life as there was in Soda Creek.

Where a cable crossed the river they paused, and Jim, dismounting, went down to the water's edge. The ferry was there, moored to the bank, the ice-cakes gathering round it as it lay, but there was no boatman by it, and the little shack in which he sheltered was empty. Jim got into the ferry and tried to move it, but the chain of it was secured by a great padlock. It was kept for the public's convenience and the ferryman's profit, and the ferryman had gone.

"Curse it. That's what I might have expected," Jim muttered, "but I didn't see him in the saloon when we left."

For a time he wrestled with the lock and tried to break it with a boulder from the beach, but such attempts had been foreseen and the fastenings were too strong to yield to rude surgery.

"Doesn't matter much if they do come now," he said to himself, and began to hulloa on the off-chance that the ferryman might be within hearing. He even took out his revolver and fired a shot, but for a while there was no response. The ferryman had concluded that his cowboy passenger of the morning was as other cowboys he had known, and would be as long over his half hour's business as they had been, and Caribou being a free country, he had gone where he listed.

But the revolver shot had roused the others, if it had not called the ferryman. The red glow in the centre of the townlet was redder now and larger. The door of the Ideal was wide open, and there were voices on the night air, the voices of men which grew closer as he listened. Possibly Bill's suspicions had found voice at the last moment, the revolver shot having confirmed them, and now the whole drunken gang was out looking for the doctor and his abductor. It

did not matter much. He could easily escape such a posse as they were likely to form, but he turned toward his captive. It was no use keeping him any longer.

"Hulloa, you are awake, are you? Want them wraps off your mouth?" he asked cynically. "They'll keep the cold off your chest," but he moved toward him and released the doctor from his gag.

"You might as well untie my hands whilst you are at it. They are nearly frozen already," said Prothero in a matter-of-fact tone. Jim looked at him in some surprise. The sobering effects of that ride had been even greater than he had anticipated.

"I guess you can sit on them by yourself," he remarked, unfastening the rope which bound his captive's legs, before freeing his hands. "Steady!" Don't fall off as you ride back, and don't try any monkey tricks with me. It ain't worth it," and then, reassured by the doctor's appearance, he let his hands go.

"Now you might as well go back and finish the night with your pals. Sorry I troubled you."

But the doctor remained sitting where he was.

"You ain't afraid about finding your way, are you?" asked Combe.

"They'll be here pretty soon now, if they don't fall in and get drowned. I'm not coming along. Soda Creek might not be healthy for me just now."

Still the doctor sat where he was, stretching his cramped legs, feeling the stiffened muscles of his arms, swaying a little in his saddle, and looking at Combe.

"You must have wanted me pretty badly," he said at length, and there was no trace of anger in his voice, no protest against his attempted abduction.

"Guess I did, or I shouldn't have took you."

"What is it? A woman? You aren't married?"

Jim laughed a hard laugh.

"What is it then?"

"You aren't drunk or a fool?"

"Ain't I? That new tenderfoot, Anstruther, has broke himself up pretty badly. Miss Clifford is nursing him and wants a doctor."

"Ah!" grunted the doctor, and whistled a strange hollow whistle like that of a fog horn. It was a curious trick he had on occasions of insight. He knew the Risky Ranch pretty well, though he was no favorite there, and he knew its internal history, and could have made shrewd guesses about Miss Clifford and Jim Combe and even about Mr. Anstruther. The ways of the world are very much alike everywhere, and doctors know them better than most men.

"What is the matter with Anstruther?"

"Ribs broke, two or three, and may be something worse inside."

"Well he will get over that without my assistance or die. Does it matter?"

Jim looked at him stupidly.

"To you," the doctor added.

"No, I don't know as it does matter a whole heap. I rode that devil here in a day and a night to get you. He wasn't broke when we left," and he pointed to the weary roan.

"I've lied to poor old Bill; I've stolen a horse and done my best to steal a man. I don't suppose it does matter," and he sat down on one side of the boulders whilst the hue and cry came nearer. He could see the lanterns flashing now like drunken stars along the edge of the bank not half a mile away.

"If you had told me that it was for a woman I would have come."

"But it wasn't."

"No?" hesitating questioningly on the monosyllable, but you told Bill so. Why didn't you lie to me?"

"It wouldn't have helped. You didn't go for Bill's woman."

The doctor flinched for the first time, and opened his mouth as if to defend himself, but thought better of it, and shrugging his shoulders asked:

"Have you got all my instruments and things there? That is my bag, I think," and he pointed to the satchel strapped upon Jim's horse.

"Yes, I got them before I left."

"Very thoughtful of you. Hand them up for me to look at. I'm too stiff to get off my horse yet."

Jim obeyed, and by the faint light of a match, which Jim had to hold for him, the doctor explored the interior of his grip-sack.

"Our friend Bill got those, I imagine," he said. "He was thinking of his own case. He always is. Wrap them up in this and put them on the bank. Someone will find them and we shan't have any use for them on this trip. We don't want to carry any more than we are obliged to."

Jim struck another match and

the doctor finished his examination.

"They have all the ordinary appliances for cases of accident at Rolt's I suppose?" He was quiet now and business-like.

"I guess so."
"Well, these will do then. We shall make them all in a devil of a mess, but the water-proof case will save some of them. I'm glad you brought that, Mr. Combe."

There was a pause whilst Jim fastened the bag in its place again; the lights were growing very close now, and the voices of the searchers plainly audible. Combe could distinguish his own name, uttered from time to time. "Well, what are we waiting for? Aren't you coming?"

"Back to Soda Creek?"

"No, to the Risky. Isn't that where you wanted to take me?"

"We can't. That blanked ferryman has gone and I can't break the lock."

"Is that so, and Jim Combe can't cross this bit of a river without a boat to get back to the man Miss Clifford is nursing? Shaw! Here is the way," and the dare devil crammed the only top hat in Caribou more tightly on his head, spurred his beast into the edge of the grey flood that went roaring by, slipped and recovered, sitting his horse now as firmly as Combe himself might have done, slipped again, and the next moment was swimming, horse and man, deep in the angry waters of the Fraser.

[To be Continued.]

Naramata Notes.

Mr. Bartlett and Mr. C.W. Johnson were over to the Baptist S. S. convention in Summerland this week.

Mrs. Simpson Sr. after a months visit with her daughter Miss Dorothy Simpson in Kelowna, has returned to town.

It is probable that Mrs. J. M. Robinson and daughters Kathleen and Marguerete will leave on Monday for Toronto.

Mr. and Mrs. Geo. Wolstencroft after several weeks at the Coast cities has resumed his duties in the office of the Trust Co.

Mrs. Campbell has announced her intention to leave shortly for Baule Creek on an extended visit to her daughter, Mrs. Thompson of that city.

Mr. M. Wilson of Paradise Ranch situated north of North Naramata, is having between thirty and forty acres of land broken up this year in preparation for spring planting.

Mr. W. J. Bonevia of Vernon, acting under instruction from the Provincial department of Agriculture was in our vicinity recently collecting necessary data regarding the orchards.

Mr. and Mrs. Fetherstonhaugh and son went out on Monday en route for Victoria. It is understood that Mr. Fetherstonhaugh contemplates taking up residence close to the provincial capital.

A scow load of lumber addressed to C. W. Johnson, Naramata was unloaded here on Wednesday which to the knowing ones' spells Club House—Yes Sir that club house is a go. Look for more about the "Club" in next week's issue.

Mr. Harry Hearndon has gone to Kelowna to join the Jeanne Russell Co. at present touring the valley. During the four months in town Harry has made a host of friends who will be pleased to hear of his progress and who will be glad to learn of his return with the birds in the spring.

The service at 3 o'clock on Sunday afternoon conducted by Rev. H. B. Solly was in the nature of a Harvest Home Festival. The church had been tastefully decorated for the occasion; an interesting display of garden and orchard products testified to the intelligence and thrift of the citizens of Naramata.

C. Stanley Wright C. E. after several months at Naramata on survey work, left on Tuesday evening's boat for Penticton. North Naramata is now well and truly surveyed and the next step is the construction of the bridge across Chute creek and the necessary road to the wharf has been started. The bridge contract has been let.

Mr. W. H. Hargrave, manager of the Vancouver branch of the Eastern Township Bank accompanied by two of the directors Messrs Howard and Kalham while touring B.C. stopped off to spend a day at Naramata. A pleasant feature of their visit here was a drive out to the Aikens Orchards where they met Mrs. Aikin's mother, Mrs. Colby, whose husband is also a director of this same bank.

Last week a hunting party comprised of Messrs. Hancock, Languedoc, and Johnson made a successful pursuit of the trail in the vicinity of Squally Point, bringing with them what is said to be the finest buck that was ever taken in the hills. Capt. Languedoc was the lucky marksman in this case. There are plenty of deer to be had, but the difficulties of getting the animals out after they are shot are really awful.

RIFLE ASSOCIATION.

Competition for Bank of Montreal Cup.

The Bank of Montreal Cup was shot for on Saturday, and a fair number of marksmen attended the range for this event. The conditions were ten shots and a sighter at 200 and 300 yards, and the best man proved to be W. E. Ward, who won out with a margin of five points. Lending scores:

Name	200	300	Total
W. E. Ward	44	40	84
W. Nelson	41	38	79
A. E. Nelson	41	38	79
J. Dunsdon	41	36	77
H. Dunsdon	42	34	76
G. Barkwill	39	36	75
H. Barkwill	36	38	74
C. W. Haddrell	44	28	72

FALLING HAIR.

Mrs. James Harris of Wapolla, Sask., says: I have found Parisian Sage to be the best scalp and hair tonic and dressing I have ever used. My hair had been coming out in combfuls and was very dry and brittle and the scalp was always itching and full of dandruff. I have used two bottles of Parisian Sage and it has stopped my hair from falling, the itching and dandruff have disappeared and my hair is fine and glossy. I would not be without this fine Hair Tonic for many times the price.

For women, men or children Parisian Sage is without doubt the finest preparation for the hair. Delicately perfumed, it is free from grease and stickiness and ought to be where every member of the family could use it daily. Large bottle 50 cents at all druggists or from the proprietors, The Groux Manufacturing Co., Fort Erie, Ontario, postpaid. The girl with the auburn hair is on every package. Sold and guaranteed by

Local News Items. Local News Items.

Miss McWhinney went to Spokane Wash. on Tuesday.

H. B. Gordon and family went down to Vancouver this week.

Spring flowering bulbs and rose trees for sale. Order now. See J. Tait. o13

June weather still remains entrapped between the hills of the Okanagan.

Cliff McWilliams has gone to Winnipeg where he will take a course in the Medical College.

Next Sunday is rally Day in the Lakefront Baptist Sunday School, special program has been provided.

Mrs. J. H. Simpson and family have returned to Vancouver. About a year was spent here for the benefit of the health of the youngest daughter.

Dr. and Mrs. Lipsett, I. B. Fulton, R. Pollock and Gordon Robertson were some of the visitors to the New Westminster Exhibition, who have returned.

A meeting of the Girl's Auxiliary of the Hospital will be held to-morrow (Saturday) afternoon in the Council Chamber, Summerland. A good attendance is hoped for.

Mrs. Susan Bentley and Miss Clouston have gone to the United States. They motored from here to Oroville and from there went to Spokane. It is stated they will later go to New York.

Mr. Geo. Hindle formerly principal of the Summerland High school now holds a similar position at Golden B.C. Writing to a friend here he says that he likes the place and his school and work there very much.

A meeting of the ladies Hospital Auxiliary will be held in the Ladies Parlor of the Men's Club on Tuesday afternoon next at three o'clock. All ladies interested in the hospital are cordially invited to attend.

Rev. Jas. Hood and family are now at Peachland. They will spend October there, and then go to Cumberland B.C., where Mr. Hood takes up his duties as pastor of the Presbyterian church, the first of November.

Mr. and Mrs. J. Avar Black and Miss Black were visitors at the Provincial Exhibition last week. After visiting the coast cities, they go east to Amherst, N. S., Mr. Black's home town and where he is interested in a foundry, requiring his spending a portion of each year there.

Next Thursday there will be held here an inquiry by the Commission under the "Public Inquiries Act," for the purpose of inquiring into and reporting upon the working of the "Assessment Act, 1903," with respect to its practical bearings upon the financial requirements of the province.

The hunting party comprised of Geo. Gartrell and Oliver Smith, Summerland and Allen Brooks of Okanagan Landing had a very successful hunt, Mr. Gartrell secured a moose, a black bear and a mountain goat beside a lot of smaller game. Mr. Smith has not yet returned being determined to get a caribou in addition to his other prizes.

The friends of I. B. Fulton and family will regret to learn that they will be leaving shortly for Vancouver where they will reside. Mr. Fulton returned Tuesday from a week's visit to that city and is now busily preparing to move to there with his family. He is advertising an auction of his household effects Saturday 21st inst.

On Saturday afternoon the members of the Sunshine League of the Parkdale Baptist Church spent a very pleasant time on the grounds of the church. Games were enjoyed by all present until supper time when they all sat down to a rather unusual supper of Kickininos, Baked Potatoes and Baked Beans. The afternoon was pronounced a success by everybody present.

The Matron wishes to thank the public for the following donations to the Summerland Cottage Hospital Fruit and Vegetables, Mrs. Pineo, Mrs. Young, Mrs. W. J. Robinson, Mrs. Moreland, and Mrs. Andrews, Flowers, Mrs. Tait and Mrs. Hayes, Ladies Aid, Fruit for preserving and curtains, St. Stephens Church Harvest Thanksgiving, Vegetables and Fruit, Naramata English Church, Harvest Thanksgiving Fruit and Vegetables,

Miss Amy Brown is at Roger's Pass, where she is visiting friends.

Mrs. W. R. Shields has returned from a visit with friends at Kelowna.

Jack Woods left on Monday morning for Vernon where he has a position.

Mrs. H. W. F. Tavender received at her new home on Wednesday of last week.

Municipal Clerk J. L. Logie was at Vernon this week in the interests of the Municipality.

Rev. G. O. Fallis and bride, of Penticton, were the guests of Rev. and Mrs. F. W. Hardy on Tuesday.

J. A. M. Speed, a resident of Bathfield was in town recently making arrangements to spend the winter here.

Mr. Fetherstonhaugh and family went out on Friday of last week to Victoria. They will probably spend the winter on Vancouver Island.

A bridge-building crew in charge of Mr. Bouchard, of Enderby, have commenced the construction of a bridge across Chute Creek, North Naramata.

Persons wishing to undertake the job of cleaning and plowing twenty-five acres at Naramata, will please call at the office of Jas. Ritchie, West Summerland. o13

A. A. Derrick has secured the services of a scientific dairyman in the person of Mr. Pounder, recently from England. Mr. Pounder is an old friend of Messrs. Percy and Gilbert Thornber.

R. H. English will have teams running between town and the Exhibition Hall, Peach Orchard, during the two days of the Apple Show. Twenty-five cents each way. o13

The local barber shop has again changed ownership. Alexander McKay is now the proprietor and the purchase price is said to be seven hundred dollars. Jack Crawford, of Toronto, will now be the tonsorial artist.

Mr. Limmer, who came here from Nova Scotia some weeks ago is now a stockholder in that enterprising firm, The Angove & Stinson Company, Limited, and is engaged in one of the departments of that concern.

A petition prepared in behalf of the women of British Columbia praying for the right to exercise the franchise at provincial elections, is now being circulated throughout the province. In the appeal the claim is made that the suffrage already granted to women in school and municipal matters has been attended with benefit to the community.

The Jeanne Russell Company will appear at Empire Hall two nights beginning Thursday, October 19 in "The Devil" and "The Little Minister." The management wishes to apologize to Summerland people for their failure to appear as advertised on the 12th inst, but it was impossible. On account of their non-appearance they have decided to give us two plays instead of the one originally intended.

A fatal accident occurred near Lumby on Friday last. A young Englishman, John Edwards, who had a contract for clearing the Husband pre-emption, while at his work was, literally, blown to atoms by the explosion of powder he was carrying. It was his habit to carry fuses, caps, powder and tools in a box and it is supposed that some tool ignited one of the caps.

A team, belonging to R. H. Agur, ran away from the Fruit House on Thursday and caused much excitement. It had been unhitched and tied near the Packing House, but taking fright at a passing auto, broke loose and went off towards Peach Orchard. They were soon found in town again, having gone up through Peach Orchard to the school on the hill and from there down town again.

A. L. Moreland is now the secretary of the Commercial Orchard Company, Limited, and has already entered upon his new duties, with office in D. H. Watson's real estate office. This is the company recently formed to develop the Paradise Flat property at one time held by Reeve Ritchie. They purpose going extensively into the business of fruit growing in a commercial way. Being comprised of men thoroughly conversant with conditions here this offers another guarantee of the future prosperity of the Okanagan fruit business and of the faith those men have in its success.

SUMMERLAND, B.C., OCTOBER 20, 1911.

Whole No. 167

SUMMERLAND'S THIRD ANNUAL APPLE SHOW.

Over Eight Hundred and Fifty Entries, and Competition is Keen.

Judges Have Difficulty in Deciding Prizewinners. New Building is Formally Opened by Hon. Price Ellison, and Hall is Named After Him. Further Grant of Two Thousand Dollars for Agricultural Association.

Summerland gave even itself a great surprise in its wonderful Apple Show and even more surprised and delighted were the judges and provincial government officials in attendance; and of the latter their were a goodly number.

Already the new hall has been pronounced too small and plans must at once be made to greatly increase its size.

The large number of entries was very gratifying, there being 850 this year as compared with 480 in 1910.

The general excellence of the fruit was very marked, and the work for the judges difficult. The judging was very thoroughly and carefully done. Displays were so uniform that the judges found it necessary in very many instances to dig to the bottom of the boxes. Each point was carefully scored and quite a few boxes scored a full 100 points, while 96, 97 and 98 was a very common total. In many of the competitions a tie resulted making it difficult for the judges to decide, which must take 2nd or 3rd prizes.

A. Steuart had the good fortune to capture the largest number of prizes with C. J. Thomson a close second. Mr. Steuart's prizes will total about \$400.00. C. J. Thomson won the 10 box prize of \$100, with J. R. Brown second \$50.00. A. Steuart took first of \$50.00 for the two-box exhibit as well as capturing the buggy for another display. He also took the stove for best 5 boxes of winter apples.

Notwithstanding the fact that a large number of the best prizes were taken by these two, yet the distribution of prizes is much better this year than ever before, an evidence of the coming in of the younger orchards. Henceforth there will no doubt be many more entries for the larger prizes.

Summerland's new Exhibition Hall, now officially styled "Ellison Hall," was formally opened Wednesday at 2.30 p.m., by British Columbia's Minister of Finance, Hon. Price Ellison.

The new Hall is a valuable addition to Summerland's public buildings, and one of which every citizen may well be proud. It will, no doubt, situated as it is in the public park, be a building much in demand.

In calling upon Hon. Price Ellison to open the hall, President Thomson, of the Agricultural Association, referred to the Show as being a very satisfactory one from the society's point of view, both because of the number of entries, of which there were some eight hundred, and of the quality displayed.

Mr. Ellison expressed his pleasure at being here, and witnessing such a fine display. It was to him such an important event that he had had the meetings of the Water Commission at Vernon postponed, in order that he might be here and also have the other members of the Commission come and see what Summerland can do, and what has been done in a few years.

When he first knew this country this section was an Indian wigwam; later it became a cattle ranch, and he asked, "What now?" He congratulated his hearers for the interest taken in the exhibition and hoped they would not let their interest wane in the years to come. It was well to come together in a friendly strife, and he urged upon all to show their products. Such would be a great stimulus to the community. The speaker referred to the difficulties with which the Judges met in deciding between the competing exhibits, as to which should be given

first, second or third prizes—as they were all good for firsts. In looking over the fruit he thought it wonderful what had been done in so short a time.

He remembered when he first offered himself as a candidate for the provincial government, that it was asked, "Who is this man, anyway?" He is being supported by a Mr. Robinson, who is selling side-hill at Peachland for fruit lands, and Mr. Robinson was being ridiculed. We now were able to see what Mr. Robinson saw in the future, and what British Columbia needed was more just such men and British Columbia would then come into its own.

Recently at the London Show, British Columbia had eleven hundred boxes on exhibition and every British Columbian there felt that the Show was his own. New Brunswick also had exhibits there, but, as he had told a young man from that province whom he had met just a few minutes before, it looked like fifteen cents.

Whilst down at Fernie recently, he noticed Gravenstien apples from Nova Scotia which he compared very unfavorably with the British Columbia product, and there was also a large quantity of American apples coming to this province. This was evidence that we had a home market for years to come.

The speaker also mentioned the unsurpassed quality of our fruit. We have here a great deal to boast of—not so much of soil as of climate. Where, for instance, would you find so fine a day in the middle of October as we were enjoying?

The Minister of Finance struck a responsive cord when he remarked that we were all at the mercy of the C. P. R. But, he said, it will not always be so. Where they had competitors that company carried

freight three times as far for a third of the rate they charge us." "We've got to do something to change this," he said. Personally, he had objected to the Kettle River Valley Railroad as being a part of the C. P. R. This was denied by President Warren, but it was now evident that he (the speaker) had been right. We cannot therefore hope for competition with the C. P. R. from that source. But it would not require a great stretch of imagination to see competition right here. The C. P. R., because of that ten per cent. clause in its charter, was practically beyond the control of the Railway Commissioners; but the C. N. R. is building a railroad across the continent and will soon build down the Okanagan Valley. This company's rates will be under the control of the Commission, and the Canadian Pacific will of necessity have to fix their rates to correspond.

Now nearly every town in England and Scotland has Washington and Oregon apples, and only because of the better freight rates they were able to compete with British Columbia. In a recent conversation with the new Dominion Minister of Agriculture, the speaker suggested that the duty on American fruit be made the same as the duty against Canadian fruit making the duty 25 cents instead of 13 cents as at present.

Referring again to the new building, the Minister said he had not been in as good a building in all of British Columbia. When the Association had asked him for provincial aid in erecting the hall, he had said, "Put a frostproof basement under it and put a floor in it on which the young people may dance, and we'll give you the assistance." He was very pleased with the building and he now proposed sending a cheque for Two Thousand Dollars to put the Association out of debt. This announcement was received with loud cheering by the audience gathered about the front of the hall. He was proud to be able to do so, because we were worthy of it. He further promised to help liberally next year in the roads and bridges of the municipality. The provincial government were now able to give this assistance. Only a few years ago \$13,000.00 was the total grant for the whole riding; and now it was half a million.

As the speaker concluded his remarks by formally declaring the hall open, some ladies from the balcony above showered him with bouquets which he very gracefully acknowledged. The Band then played the Maple Leaf, and the crowd resumed its inspection of the various exhibits.

Canada's New Governor-General H. R. H. Duke of Connaught Arrives.

Brother of Late King Edward is Enthusiastically Welcomed by Huge Crowds.

Amid scenes of almost unparalleled enthusiasm His Royal Highness the Duke of Connaught, the new Governor-General of the Dominion of Canada, was welcomed to Rideau Hall last Saturday. He was accompanied by the Duchess, and a concourse of seventy thousand people lined the route taken by the Vice Regal party through the streets of the capital city.

Premier Borden was the first to greet His Highness when the royal train reached Ottawa, and introduced Sir Wilfrid Laurier and other eminent members of the assembled company.

The appointment of the Duke of Connaught as the successor of Earl Grey in the Dominion Governor-Generalship, marks the first filling

of that office by a Prince of the Royal Blood. It was by the special wish of the late King Edward VII. that his brother was chosen for this high and responsible office—the first position in Canada.

Earl and Countess Grey, and their daughters the Ladies Evelyn and Violet, were given a farewell national in its scope on the occasion of their departure from Ottawa last week. His excellency, who has proved himself one of Canada's most distinguished Governor-Generals, was speeded on his return to England by a large gathering of prominent people, and a vast assembly of people who crowded round the depots at Ottawa and Montreal.

THE DUKE OF CONNAUGHT

EARL GREY

One of the last public acts of the late Governor-General was the swearing-in of the new Dominion Cabinet recently selected by Hon. R. L. Borden.

COUNTESS GREY

The following series of data give in brief the distinguished military career of the Duke of Connaught:

- 1868—Entered the Army.
- 1871—Promoted to Captain.
- 1875—Became Major.
- 1878—Appointed Lieutenant-Colonel.
- 1880—Became Colonel.
- 1880—Was made Major-General.
- 1880—Was promoted to Lieutenant-General.
- 1888—Made General.
- 1902—Appointed Field Marshal.
- 1878-4—Brigade Major, Aldershot.
- 1875-6—Assistant Adjutant General, Gibraltar.
- 1880—Brigadier General, Aldershot.
- 1882—Major General, Expeditionary Force, Egypt.
- 1883—Brigadier General, Aldershot.
- 1883-5-6—Major General Bengal.
- 1886-90—Lieutenant General, Bombay.
- 1890-3—Lieutenant General, Southern District.
- 1893-8—Commanding Troops, Aldershot.
- 1900-4—Commander of Forces in Ireland.
- 1901-4—Commanding Third Army Corps.
- 1904-7—Inspector-General of the Forces.
- Since 1907—Commander-in-Chief, Mediterranean Forces.
- 1870—Served during the Fenian Raid in Canada.
- 1882—Major-General Commanding Brigade of Guards in Egyptian

War, and received a medal with clasp, bronze star, and the thanks of the House of Commons for distinguished service at Wahuta and Tel-el-Kebir.

The field of the Duke's activity as Inspector-General of the Forces embraced the whole Empire, and after having visited all parts of the United Kingdom in the performance of his duties, he set out at the end of 1905 to inspect the garrisons in South Africa, while not long after his return he started on a second world tour, which included Egypt, Ceylon, the Straits Settlements and Hong Kong. These visits to outlying garrisons on the fringe of our vast Empire were vitally necessary for the co-ordination of the work of preparation for war, and gigantic as was the task of personally passing in review the whole of the home and colonial garrisons and defences, His Royal Highness kept pace with the work and his outspoken reports on our "far-flung battle line" were very helpful to the Army Council. His influence as Inspector-General of the Forces was a good and active one, for he possesses in an uncommon degree the happy knack of putting his finger on the very root of matters upon which great issues depend and of explaining his views in an eminently common-sense and convincing manner. The Duke is an enthusiastic soldier, and knows the possibilities and limitations of the British Army, and, withal, too, there is no more popular officer than he with all the ranks.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES—\$7.00 for 30 days, \$5.00 for 60 days.

WATER NOTICES—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. for first inch and 25c. each subsequent inch each insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, OCTOBER 20, 1911.

MINISTER OF AGRICULTURE.

In the selection of Martin Burrell as Minister of Agriculture Premier Borden chose the right man for the position. It would be difficult indeed to find another better suited, by past experiences and education. Years ago, before Mr. Burrell had any thought of entering public life, he was engaged in agriculture in Ontario. He assisted largely in drafting the Canadian Marts Act, and on many occasions has made valuable suggestions on agricultural matters in response to requests from the Dominion Department of Agriculture. Later Mr. Burrell removed to British Columbia and has taken the lead in agricultural matters, particularly in the fruit growing branch. This has placed Mr. Burrell in close touch with agricultural conditions throughout the Dominion, and no man has a better grasp of the general situation than he. By inclination Mr. Burrell is distinctly an agriculturist, but one of the highest type. He takes to it scientifically, like a duck to water. He is a clean man—a strong man—a worker. And we may be sure there will be no drones in the Agricultural Department while he is boss.

SUMMERLAND'S FALL FAIR.

When the writer visited the new Agricultural Hall last Saturday afternoon, the workmen were just putting in the doors and windows. The hanging of the bunting and festoons was just started. To think that in so short a time as two days the hall was to be decorated and the exhibits placed in position ready for opening on Wednesday morning, meant that someone would have to put forth almost superhuman effort. The task seemed to be impossible. But it was done, and well done.

To the ladies and gentlemen engaged in the work the Agricultural Association and the municipality in general are indebted in a very large measure for the success of the Fall Fair.

There was a magnificent display of all kinds of fruit and vegetables, for which this district is noted, and the artistic arrangement of the entire exhibit was highly commended by the great number of visitors to the Fair from neighbouring points.

GETTING READY FOR ACTION.

Big things are in store for the Okanagan. It is said by men in a position to know that we are to witness in 1912 the commencement of a period of great expansion in this favored Valley. The building of another transportation line to connect up the several Valley towns, is only one of the events foreshadowed. To forestall its business rival, the C. P. R. is already making a strong bid to retain the traffic it now holds a monopoly on. It has in the past season ballasted the track from Sicamous to Vernon and has in contemplation the filling in of all trestle bridges on the line and otherwise strengthening the roadbed to accommodate its main line locomotives. It is also planning to erect a tourist hotel at Sicamous of three hundred room capacity, and will operate this hotel in conjunction with its Banff hotel. This means the bringing of thousands of tourists annually into the Okanagan. Not only this. It means that of the thousands of tourists who are thus induced to visit this attractive dimple on the smiling face of God's green earth, there will be hundreds who will make this their garden home. And these tourists will be made up of the best people in Canada and the United States and the quality of the Motherland.

What all this will mean for the Okanagan Lake district can better be imagined than foretold. One thing is certain: the pioneer work is finished, and the period of opulence—the period of realization is dawning. The hard work of the men and women who had faith in themselves and the district, and who staked their all here on the parched hills overlooking the lake, is producing an untold harvest of wealth of the best there is in life. The work of their hands, assisted by the water placed upon the land, has brought forth an empire in the budding. God bless the pioneers!

INDIAN RESERVE LANDS.

A movement is on foot which promises to accomplish something in the direction of government action on the Indian Reserve and Dominion Lands problem in British Columbia. It is proposed that each Conservative Association and Board of Trade in the Valley should pass a resolution asking the Dominion Government to appoint a Commission composed of local men whose duty it shall be to enquire into and report upon the questions of Indian Reserve lands and to recommend a system for the better handling of Dominion Lands.

This suggestion seems to be the correct thing at this time. It embraces the sanest plan we have seen recommended and we believe it will meet with the approval of all citizens, and particularly those who understand the intricate points to be dealt with in considering these much discussed problems. With the local and Dominion governments working hand in hand to find a solution, it should not be difficult to bring these questions within the scope of a more workable law.

THE MAN WHO HOLDS ON.

Sombody has said that "good things all come by indirection, and they usually travel incog." We seldom recognize the things which are best for us and when they generally find us unprepared. We knock at the door of opportunity and all the while opportunity is at our back trying to push us inside. We all expect to find the thing most wished for dressed in a fashion quite unlike that in which it comes.

The man who sanely and serenely accepts the present as a period for preparation for the future will never be found decrying his position and blaming the elements or others for the conditions about which he

complains. He knows that all life—real life—is made up of obstacles, and when a particularly unfortunate circumstance throws him up against the real thing in the time of trouble, sets his teeth the harder and gets down to solid work with a determination to win. And he does win.

Summerland district this year suffered a reverse. The fruit crop was small and the profits nil. Every fruit district has at one time or another experienced similar setback. And they will suffer them again. But because they have come and will come again does not mean that there will be no more fruit trees planted. The bountiful crop which is almost certain to follow will make us forget the reverse, and the industry will swing back to its former prosperous condition.

The man who holds on is sure to be the winner. He is found to be strong of heart when circumstances are the most against him.

Here's The Point

THOS. B. YOUNG

Flour and Feed

'Phone Violet 8.

Wanted Farmer Will to Farmer Bill,
"The cost of living's high."
Says Farmer Bill to Farmer Will,
"Depends on where you buy."

"Why don't you go to Young's!" quoth he.
"That is the place to deal."
Then puffed up with prosperity
You'll soon begin to feel.

Hay, oats and bran, shorts, wheat and corn
Chopped barley, oats and wheat,
Rolled oats for breakfast in the morn,
At prices hard to beat.

Deave to try his flour rye,
Hill wheats and oatmeal;
Alberta Fancy Patent try
That Flour with the Seal.

Young's poultry feed when fed each day,
You'll find this is no hoax;
Your hens will soon begin to lay
You eggs with double yolks."

"Why do you wall, why do you weep?"
Here in our midst, in our own town,
The deaving fact comes with a lea—
The cost of living has gone down.

The Corporation of the District Municipality of Summerland.

BY-LAW NO. 35

By-Law for Raising \$2,500.00 for School Purposes.

WHEREAS the Municipal School Board of the District Municipality of Summerland has deemed it advisable not to dispose of the Prairie Valley and the Garnett Valley Schools, as authorized by the Department of Public Instruction;

AND WHEREAS there is required the sum of \$2,500.00 to meet in full the cost of the erection of the Central School and the further improvement of the School grounds;

AND WHEREAS it is necessary for the said purpose to raise, by way of loan, upon the credit of the Municipality of Summerland the said sum of \$2,500.00, payable on the first day of December, A.D. 1921, bearing interest in the meantime, payable half yearly, at the rate of five per cent. per annum, the principal of such loan, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of \$333.23 by rate in each and every year.

AND WHEREAS the whole rateable property of the Municipality of Summerland according to the last revised assessment roll is \$2,550,930.00.

AND WHEREAS the total amount of existing Debenture debt of the said Municipality of Summerland is \$287,500.00, of which none of the principal or interest is in arrears.

NOW THEREFORE the Reeve and Council of the Municipality of Summerland in open meeting assembled enact as follows:

1.—It shall be lawful for the Reeve of the Municipality of Summerland to raise, by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum not to exceed in the whole the sum of \$2,500.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality, for the purpose and with the objects hereinbefore recited.

2.—It shall be lawful for the said Reeve to cause any number of debentures to be made for the sum of not less than \$500.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of \$2,500.00, and all such debentures shall be sealed with the seal of the Municipality of Summerland, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3.—The said Debentures shall bear date the first day of December, 1911 and shall be payable in ten years from the date hereinafter named for this By-law to take effect at the Bank of Montreal, Summerland, British Columbia.

4.—The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said Debentures, and such interest shall be payable half-yearly on the first day of June and December in each and every year and the signatures to such coupons may either be written, stamped, printed or lithographed.

5.—A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6.—The sum of \$125.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality of Summerland in addition to all the other rates for the payment of the interest on the said debentures.

7.—The sum of \$208.23 shall be raised and levied annually by a rate on all the rateable property in the said Municipality of Summerland in addition to all other rates for the payment of the debt hereby created when due.

8.—It shall be lawful for the said Municipality from time to time to repurchase any of the said debentures at such price or prices as may be mutually agreed upon, and all Debentures so repurchased shall forthwith be cancelled and no re-issue of any Debenture or Debentures shall be made in consequence of such repurchase.

9.—This By-law shall before the final passage thereof, receive the assent of the electors of the said Municipality of Summerland in the manner provided for by the "Municipal Clauses Act," 1906, and Amending Acts.

10.—This By-law shall come into force and take effect on the First day of December, A.D. 1911.

11.—This By-law may be cited for all purposes as the "Municipality of Summerland School Loan By-Law, 1911."

Passed by the Municipal Council this 16th day of October, 1911.

Received the assent of the electors of the Municipality of Summerland the day of 1911.

Reconsidered and finally passed by the Municipal Council the day of 1911.

Reeve,
Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law, upon which the vote of the Ratepayers of the Municipality will be taken at the Municipal Hall, Summerland, for Wards One and Four, and at the Municipal Office, West Summerland, for Wards Two and Three, on the 31st day of October, 1911, between the hours of 9 a.m. and 7 p.m.

J. L. LOGIE,
Municipal Clerk.

MUNICIPALITY OF SUMMERLAND.

TO WIT

PUBLIC NOTICE is hereby given to the Ratepayers of the Municipality aforesaid that a Poll will be taken on By-law No. 35, known as the "School Loan By-law," 1911, which requires the assent of the Ratepayers at the following places:—

Municipal Hall, Summerland, for Wards one and Four.
Municipal Offices, West Summerland, for Wards Two and Three,

on Tuesday, the thirty-first day of October, 1911, between the hours of nine o'clock, a.m., and seven o'clock, p.m., and that on Thursday, November 2nd, 1911, at ten o'clock a.m., at the Municipal Offices, West Summerland, I will count up the votes given for and against the said By-law, and shall then and there proclaim the result of said Poll.

J. L. LOGIE,
Returning Officer.

SHALL THE HOSPITAL BE CLOSED?

Ladies Hospital Auxiliary Says No.

At a meeting of the directors of the Summerland Cottage Hospital held last Friday, it was thought best to close that institution, because of lack of patronage and funds.

Up to October 1st, the total indebtedness was over seven hundred dollars, with a net debt of three hundred dollars or more.

The lack of accommodation does not permit of receiving nearly all the cases offering, while at other times there are not enough patients to keep the staff employed.

At the present time the income from patients is not more than half enough to maintain the institution.

Because of all these facts, the Board have thought it best to close. They purpose putting the facts and figures before the Municipal Council, recommending that they assume the debt and permit the Board to retain the furniture, etc.

The plan would then be to allow some responsible person or persons to use the furniture and building as a private hospital.

Just here, again, the ladies stepped in and said that the hospital must not be closed. The Ladies' Hospital Auxiliary are to meet the Board with a proposition at an early date. If the ladies so decide, they will probably present some plan whereby they may have it their way and the Cottage Hospital be continued.

SUMMERLAND RESIDENT WEDS.

Reginald Tate, manager of Sir Thomas Shaughnessy's fruit ranch, and son of Chief Justice Tate of Montreal, was married on Monday last to Miss Harrison of Kal-eden.

The ceremony was at St. Saviour's Anglican Church, Ponticton and the rector, Rev. Mr. Cleland, officiated.

The newly married couple at once boarded the Str. Okanagan and are going as far east as Montreal on their honeymoon trip.

Upon their return they will reside at the Shaughnessy ranch Summerland.

NEW OFFICE ON NINTH STREET.

The building which has been standing vacant and in an unfinished condition since its removal to its present position opposite Downtown's meat store is now being fitted up and will be used as a real estate office.

W. J. Robinson who is vacating his present office for the Eastern Townships bank will occupy the new office and expects to remove shortly.

A TENDERFOOT'S WOOING

-BY-

CLIVE PHILLIPS WOLLEY

(AUTHOR OF "GOLD IN CARIBOO," ETC.)

Synopsis of Previous Chapters.

The scene of the story is an old cattle ranch, called the Risky, in Caribou, British Columbia, during the early days. Jim Combe, foreman of the ranch had watched Kitty Rolt, the owner's daughter, grow up on the ranch, and had been led to believe that she might ultimately become his wife. He had matters all his own way until Kitty pays a visit to relatives in England, and brings back with her one Richard Anstruther, who speedily becomes a rival for her affections. With two lovers on the ranch, Kitty appears to vacillate from one to the other, though she does not perhaps realize the intensity of the situation for the two men. Jim easily proves his superiority when it comes to the ways of the country, but he lacks that polish and grace of the well-bred English gentleman, which Anstruther displays to perfection. Her visit to England opens Kitty's eyes as to the distance between the rivals, and Jim sees with bitterness that Kitty's affections seem to drift away from him. He manages however, to conceal his feelings. While Jim and Rolt are away hunting cattle thieves, a storm arises and Anstruther, left alone in the house with the women, is injured by a falling tree in endeavouring to rescue a pet fawn of Kitty's which is left out in the storm. Her anxiety for the injured man's life reveals to Mrs. Rolt the real state of her daughters affections. On the return of the men folk, Jim is dispatched to Soda Creek for a doctor and finds him away attending a funeral. On his return he refuses to go with Jim, and indulges in a drunken carousal. He rapidly becomes maudlin, and in this state Jim resolves to take him by force. The doctor awakens from his stupor on the branch of the Fraser decides to go on and has plunged into the turbulent stream on horseback.

CHAPTER XV.

The Fraser is Crossed.

"Well, I'm blanked! Protheroe! You infernal drunken fool, come back. Come back, I say. You'll drown, sure."

But Protheroe took no notice of Jim's frantic cry. In that roar of waters which was already about his waist, and seemed to be climbing to his ears, he could hear nothing from the shore which he had left, and if he had done so, he had sense enough to know that it would have been more dangerous to try to turn back than to go on.

Jim saw that himself as the words left his lips, but it is the fashion of human beings in dire straits to cry for the impossible. And Jim was in a worse strait than the doctor. In the swirl at his feet there were two small objects, somewhat darker than the heaving darkness around them. They might have been pieces of drift wood, being hustled down the stream, but to Jim they would be in that dreary future in front of him, the horse he stole and the man he murdered.

And the unsteady lights of the Soda Creek lanterns were dancing along the river's course coming down stream towards him, nearer and nearer, until he could hear the voices of those who carried them in spite of the noise of the waters.

With a curse he swung himself into the saddle, and wrenching the roan's head round viciously, he galloped up stream for fifty yards, over a chaos of slippery boulders.

Then he turned his horse's head towards the river, and drove his spurs home, but though the colt's spirit was broken by bitter, hard work, his instinct recoiled from this new peril, and he rose flitting and pawing the air on the very edge of the flood.

It was in vain. The man's blood was up and the ice-coated boulders gave the beast no footing. With a crash the two went into the river, the horse on its side, whilst the man, thrown clear of his mount, disappeared some feet down stream of him.

Twice the beast was turned over in the flood, and for a few moments the water swept over the man, but before other had been drifted to

the level of Protheroe, Jim had regained his horse's head and twisting the fingers of one hand in the beast's long mane, swam steadily on the down stream side of it.

Once he had his head above water, the colt swam superbly, driving against the current with all the energy of young life battling against death, so that before they had half crossed from shore to shore, Combe and his horse were level with Protheroe, and making some sort of breakwater for him.

But it was not enough. The doctor was still in the saddle, and Combe could see the pinto's head sinking lower and lower. If the doctor stayed where he was, the horse embarrassed by his weight, must drown, and in spite of his efforts Combe could not make his voice heard in that swirl of waters.

On the bank, the noise was as the indistinct roar of a mob, but in mid-stream each voice became distinct, individual and hostile.

He heard the waves roaring at him, he could feel the under-currents pulling separately at him, he knew what they wanted, and the fury, and the number of them daunted him.

His only chance was to cling to his horse; his only hope of saving Protheroe seemed to be to let go, and if possible, drag the doctor out of his saddle.

But at the last moment Protheroe seemed to realize what was required of him, and slid out of the saddle, holding on to his horse's mane, and swimming as Jim swam.

By this time both horses had drifted below the level of the ferry, which was now crowded with men, gesticulating and apparently shouting to the two in the water, and some of the more sober among the lantern bearers having got the ferry out towards mid-stream, were endeavoring to let a rope down towards the doctor.

But it was hopeless fishing. The line was not long enough, and the casting of it inaccurate. Neither Jim nor the doctor attempted to avail themselves of it.

Side by side, stunned by the noise around them, they battled with the Fraser, whilst though the farther bank seemed to come no nearer, the red lights of Soda Creek grew more dim and distant, and the figures on the ferry more indistinct.

Luckily for the swimmers there was even less ice in the river than there had been in the morning when Combe crossed it. The frost had not held in the upper country through the tributaries that supply the Fraser with its first run of ice, but there was enough of it to add to their difficulties.

Suddenly the light of Soda Creek went out altogether, and the dancing lanterns on the ferry disappeared, and at the same time a new sound struck upon their ears, a dull, grinding noise, which grew louder and more distinct with every second that passed.

They had drifted past a bend in the river, and at the next, to which they were being hurried, the ice was packing. If they got into that pack before reaching the other shore, it would be the end of them. The horses, spent already, must go under in the churning and grinding ice.

Straining his eyes to the utmost, Combe thought that he could just distinguish the line of the farther bank. It was nearer than the ice pack which he could hear in the dark below him, but was it near enough? They were being carried down stream many yards for every foot which they made in the direction of the shore. It was just one of those positions in which death is made doubly hard by the temptation to struggle against it. Death itself is probably not so very dreadful. Nature is full of bogies to coerce her wilful children, and the last bogy of all, used mainly to make us play out our innings to the end, is possibly the most gentle fraud amongst them, but that struggle in the dark amongst the irresistible waters, with life and safety so near at hand, was bitter to bear, and at the very climax of it, Jim's horse gave in and turned its head down stream.

In a moment they were racing towards their death. After all that long stubborn fight against the

stream, with the shore almost within reach, the failure of the roan's courage had ruined them. If he had been alone it is possible that Combe would have given in then and drifted down quietly to his death, rather than fight longer against the inevitable, but the sight of the other man, still struggling, and obviously spent, roused him to one more effort.

It was useless to shout to the horse, but with his free hand he managed to strike it in the face, and drag its head almost under with the other, until in despair the beast turned up stream again. But it was too late. Jim knew it, for he could hear the ice teeth gnashing at his heels, and he only struck out still from a stubborn determination to fight to the last inch.

His reward exceeded his hopes. Since he plunged into the Fraser it had seemed to Combe that he and his horse by immense efforts had just managed to remain stationary upon a plane of sliding water which carried them towards the ice pack, but now for the first time the long lean head which had bored down upon him, pushing him always nearer and nearer to eternity, began to forge ahead. There was no doubt of it.

They had reached the eddy under the shore; the big boulders loomed up, grew clearer, and the roan struck bottom.

At the first touch Combe's knees seemed to give under him. All his strength had gone, and having gone through the depths he seemed likely to drown in the shallows. It was only by an immense effort of will that he braced himself sufficiently to stagger out of the eddy. He could have fallen where he landed, but a cry from the doctor found one last reserve of strength left in his companion, and calling upon that "last ounce," Jim blundered down the bank and into the water, falling against a great tooth of rock, which broke the force of the river at the bend.

By what seemed a miracle, the pinto had just made good its footing on the very last point between it and the swirl which led to the ice jamb, but the doctor was too spent to profit by his horse's good luck, and though Jim grabbed him as he was swept by, he could do no more.

For what seemed to him five of the longest minutes he had ever known, the water crushed him against that rock tooth, whilst his arm was racked with the pain of keeping his fingers crooked in that bundle of wet clothing, which swayed with the current, but which he had not the strength to drag back.

He could hold on to it, he would go with it rather than let go, but he could not find the strength necessary to draw it to a place of safety.

Jim felt his body slipping away from the rock which sheltered him. Gently, insistently, like an angler who puts all the strain he dare upon a lightly hooked fish, the waters drew him from his hold, and then there came one of those strange chuckling sounds which water makes amongst the boulders.

In his light-headed condition it was the laugh of a devil that wins, and it touched some spring in his nature, of which for the moment he had lost control, the strength came back to his muscles, and with a last desperate effort he drew Protheroe to him; dragged him somehow to the river's brim, and dropped him there, where the waters lapped over the first boulders of the dry land.

For a long pause there was silence, but for the ravings of the river, bawled of its prey, and the little wind, which whined like a wolf amongst the sage brush along the cliff's edges.

Utterly spent, the two men lay where they had fallen, as did the pinto. Only the roan stood upright, and even his strong knees were bent, his head hung, and his whole body was shaken with shivering fits.

Combe was the first to recover. Dragging himself to his feet, he went over to the doctor's horse, "You've got to get up, old fellow," he said, "or you'll die on our hands, and we can't spare you yet," but the poor beast lay with his head stretched along the ground, and took no notice of him. It had made up its mind to die.

"Can you help me, Doc?" Jim asked, but the doctor shook his head, and lay still, nor was it until nearly an hour later that Combe contrived to get his companion and the two horses up to the top of the cliffs, upon which he built a roaring fire, not only for the sake of comfort, but as a sign to any whom it might concern that they had survived the river crossing.

"And now, Doc, I guess you might as well get along towards

the ferry. There'll maybe some-one there still, unless they've given us up for dead. You will have had about enough for one while, I expect."

"What! Give up the run when I've jumped the big brook? Not much, Jim."

"Then you mean coming on?" "I started to get there, and I'm going to get there with both feet, my son, as you would say in your picturesque fashion."

Jim pulled at his pipe in silence for some time, then in a shamefaced way he said:

"I owe you an apology, Doctor."

"For abduction? Yes, I believe that there is some trivial penalty attached to that form of amusement."

"No; not a blanked bit for that. You'd have done the same only I didn't know it. It's just for not knowing you; I'm sorry. I ought to have known you were a man."

"I was drunk. Anything is good enough for a drunk."

"There ain't another man in Caribou would have risked his life as you did, drunk or sober."

The doctor laughed.

"You did for one, and that is life anyway. Do you think that the loss of it would have been a terrible calamity? Think of it! No more whiskey—bad whiskey at that; no more graceful badinage with the coy Kate Canyon; no more delicate jests with that fat-headed bar keeper; no more memory perhaps. If I believed that last, Jim, by heaven, I would not forgive you for pulling me out. But let's stop talking and get a move on, or those fools will be over to look for us."

"We shall have to walk, at first, at any rate."

"It can't be helped. I suppose that we can get some feed for the horses at Braithwaite's."

"Yes, if we start now we should be there by sun up," and lighting their pipes, the two led their horses away towards the west.

King George gave \$5,000 to be distributed for the benefit of the poor of Dublin.

Naramata Notes.

Miss Florence Reid, after a short period in Vancouver, has come to town to join her parents who have taken up residence here.

Captain Languedoc is evidently getting a run of the hunter's good luck this season, having captured another deer this week.

Miss Edith Hayward who is taking the commercial course in Okanagan College, paid the parental home a visit over Sunday.

The residents of Third Street will soon be rejoicing over the extension of the electric light along their thoroughfare and of course to their homes.

Mr. Peacock who last August bought the Kenwood orchards, was in town this week in company with W. J. Robinson and took a drive south to inspect his property.

Mr. T. J. Smith of Vancouver, and his two friends Dr. Crosby and Mr. Stark, from the same city, came over by special ferry on Sunday to have a short visit with Mr. Robinson.

Mr. and Mrs. Petersen, of Kelowna, have rented the house on Robinson Avenue formerly occupied by Mr. Simpson's family. Mr. Petersen is engineer on the steamer "Kelowna."

Mr. Miller, of Calgary, a prominent C. P. R. official and a Naramata orchard enthusiast came in on Wednesday evening to take in the Apple Show and to inspect his property here.

Mrs. J. M. Robinson and daughters Kathleen and Marguerite left on Monday morning en route for Toronto, where they will join the other members of the family who went a few weeks ago.

Miss Brunton has gone to Summerland to assume housekeeping duties in the hotel in that place. The Tourist Hotel here, where Miss Brunton so fully demonstrated her ability, has closed down till next season.

Mr. Carroll Aikins and Mrs. Aikins expect to return to Winnipeg next week. Mrs. Colby (Mrs. Aikins' mother) and Miss Colby expect to go to Vancouver and from there to California, where they will probably pass the winter.

Mr. H. M. Walker, a journalist from Enderby, was a week-end visitor here recently. Mr. Walker has the honor of having FIRST CHOICE of the North Naramata lots and his visit was made for the purpose of making selection.

Monday, October 16th, the day set apart for the opening of North Naramata witnessed quite a stir of real estate enthusiasts about town. Several were over from Summerland to have a look over the proposition and to select their choice.

Mr. W. Wallace is laid up this week as a result of bruises sustained by being thrown under one of the hind wheels of a wagon during the course of a runaway. Fortunately there was no load on at the time, else the story would certainly have been different.

The range cattle have been proving themselves rather obnoxious neighbors. A bunch of cattle that just leer at a four-strand barb wire fence are certainly undesirable visitors. This week several attempts were made to drive them off and it is to be hoped with good results.

What might have proved a disastrous fire but for the prompt action of one of the mill hands occurred this week at the Smith Lumber Co.'s sawmill north of town. A small blaze had started on the roof when it was first noticed, but a few buckets of water promptly applied averted a calamity.

The ladies of the church contemplate holding a bazaar early in December and this week made a thorough canvass of the ladies in order to make sure of the hearty co-operation of the community. At a representative meeting held on Monday evening at the home of Mrs. J. C. Lyons committees were selected to arrange the necessary details.

The corner stone of the Unity Club House was well and truly laid last Friday afternoon in the presence of a large and thoroughly representative gathering of Naramata citizens, Mrs. Robinson officiating. The service was conducted by the President of the organization, Mrs. Gillespie, in that lady's capable manner. The gathering was addressed by representatives of almost every organization in town, Mr. Lewis Block for the Dramatic Club,

Mr. Julius Block for Naramata citizens, Miss Bessie Mitchell for the Sigma Delta Club, Mr. H. J. Wells for the Athletic Club, and Mr. J. M. Robinson for the Trust Company. Upon the completion of this important function the crowd repaired to the rotunda of Hotel Naramata, where, after the serving of a delightful luncheon a short but pleasing programme of music, songs, recitations, etc., was made to minister to the pleasure of the occasion. At the business meeting which concluded the afternoon's proceedings, Mr. C. W. Johnson became an honorary member of the now popular and aggressive organization.

Peachland Notes.

Mr. W. J. Robinson, of Summerland, was in town on Tuesday.

Mr. Gordon McDugald, who has been spending the summer in Kelowna, returned home last week.

Mr. W. R. Bartlett, of Naramata, spent a day in town this week inspecting his property here.

Mrs. W. Brian, and daughter, of Vancouver are visiting her parents Mr. and Mrs. D. J. White.

Several Peachlanders are attending the Summerland Apple Show this week. We hope they may secure some of the fine prizes offered.

The council are extending the electric light line up Elliott Ave., and out on Princeton Ave., as far as Mr. Hugh Williams. The contract for supplying the poles has been let and the work of installation will be proceeded with at once.

The Cement Pipe Works, which had been closed down for some time, waiting for new forms, began operations again this week and are working overtime to finish a large contract before cold weather sets in.

The Methodists have fixed on Nov. 5th as the date for the opening of their new church. It is expected that Rev. Dr. White, Superintendent of Missions, and Rev. R. J. McIntyre of Revelstoke, the first pastor of the church, will be present on Sunday to conduct the dedicatory services. On Monday evening following, there will be a supper given followed by a programme of music and addresses.

ANOTHER BANK.

Eastern Townships Bank to Open Two Branches.

Another evidence of the growth and also of the faith placed by capitalists in the immediate prosperity and further development of this section of the Okanagan is given in the announcement recently made by the Eastern Townships Bank of its purpose to open branches in Summerland and Naramata.

The directors of this financial institution, accompanied by the provincial manager from Vancouver, have been touring British Columbia, and upon looking over this district decided to open branches here. The offices until recently occupied by W. J. Robinson and the Development Company have been secured, and the new banking institution will begin business here at once.

At Naramata they have rented the place formerly occupied by the Post Office which will be used temporarily. The directors while here purchased a building site at Naramata and there will be erected thereon a suitable bank building.

The Eastern Townships Bank is a Quebec institution and is popular in Eastern Canada being what might be called a "people's bank." It now has many branches through all the west.

BYLAW APPROVED BY COUNCIL.

The new by-law to authorize the raising, by the sale of debentures, the sum of twenty-five hundred dollars for school purposes was given its three readings at a special meeting of the Council held on Monday morning, October 31st is the date fixed for the taking of the votes.

In proportion to its size the fly walks about thirty-five times as fast as a man.

The Ratepayers' Association will meet at the Schoolhouse, West Summerland on Friday the 27th inst at eight p.m. All ratepayers are requested to be present.

C. H. CORDY, President.

Wm. Moors, formerly of the Review staff, went to Vernon Thursday.

Findlay McWilliams expects soon to return home. He has spent the summer at work in Kaleden.

Mr. and Mrs. Fulton and family expect to board the boat Monday evening en route to Vancouver.

T. J. Smith paid Summerland a visit on Saturday. He was accompanied by Dr. Crosby and Mr. Stark, both of Vancouver.

A very pronounced improvement in the pack was a feature of the Apple Show, showing the good results of the packing schools.

A child born to Mr. and Mrs. Myers, of Naramata, on Thursday, died that evening. Interment was made on Friday, the services being conducted by Rev. F. W. Hardy.

Mr. Peacock, of Winnipeg, is at present the guest of his daughter, Mrs. W. J. Robinson. He has purchased the Niblock Orchards at Naramata and will soon take up his residence there.

A meeting of the Agricultural Association is announced for Saturday the 28th inst. at eight o'clock, in the Council Chamber, Shaughnessy Avenue. The purpose—to discuss prize list and plans for next year.

Notwithstanding the fact that quite a few carloads of apples have been shipped from here, there are many thousands of boxes yet in store or at the orchards. The price of winter varieties is off at present, and many hundreds of boxes are now in store at the warehouse.

The large collection of roses in the pillow of bloom, presented to Mrs. Fulton is only one more evidence of the beauties of our climate. While we are enjoying summer weather with roses blooming in the open near the first of November, the prairies are experiencing winter weather.

The October number of the Canadian Horticulturist has on its cover page a handsome cut showing a view of Prairie Valley and the surrounding hills. Summerland views are becoming quite popular with the magazines. Quite recently the "New Empire" had a pleasing cover design showing Jones and Siwash Flats and Giants Head.

OUR APPLES FOR NEW YORK EXHIBITION.

Provincial Government Secures Some Prize Fruit for Display.

The Deputy Minister of Agriculture, Mr. William E. Scott, was so impressed with the quality of the fruit exhibited at this week's Apple Show, that he secured thirty boxes which the government will forward to New York to enter the competition for the \$500 gold prize for the best twenty-five boxes, five varieties. More honors for Summerland.

"When I started in life," said Mr. Booster, I worked twelve hours a day."
"Yes," replied his son, "but in these rapid times any one who took twelve hours to do a day's work couldn't hold a job."

TWO ACCIDENTS.

Schoolboy Receives Broken Leg.

An accident which has brought out many expressions of sympathy and regret, occurred to little Bobby Hatfield on Monday morning, and resulted in a badly broken leg.

He with the other school children were bound for school by the usual conveyance.

The team was at the time walking along the road in front of L. C. Woodworth's and Bobby jumped off the rig. Instead of returning to his seat by the prescribed way he attempted to climb over the side. In doing so he lost his hold on the side and fell under the wheel, resulting in a compound fracture of the right thigh. He was carried into Mr. Woodworth's and medical aid was summoned. As quickly as possible the doctor was taken by auto and the patient, after being attended to, was carried to his parents home by the same conveyance.

Latest reports are that the young man is doing as well as could be expected. Beside the fracture he is also suffering with an injured heel, the wheel having passed over the left heel and right thigh.

Naramata Man's Narrow Escape.

A most unusual accident occurred at Naramata recently when W. Wallace, working on the Aikin's ranch, was run over by a farm wagon, the wheel of which passed directly over his neck. Though none of the bones were broken they were considerably injured, and Mr. Wallace was made very sick by the accident. He is making good progress towards complete recovery.

BOY SCOUT CONCERT.

Help the Boys to Help Themselves.

There is being advertised for Friday evening, October 27th, in Empire Hall, an evening's entertainment that should draw a large crowd. Some of our best local talent is to assist in the programme and not the least interesting part of it will be the three or four exhibitions of drill and scout work by the Boy Scouts. The entertainment is for the purpose of starting a boy's library. Our young folk, especially the boys of scout age, do not have the variety or a sufficient number of books of the suitable class and it is proposed to appoint a committee of citizens to select and purchase a number of good, readable, morally healthy books for the boys.

A large proportion of next Friday's earnings will be so expended, and the balance will go to defray some legitimate expenses in connection with the Boy Scout Movement. It is hoped that all who have the good of the boys at heart—and that means everyone in Summerland—will recognize this worthy cause by giving the boys their financial support and attendance at what is sure to be a very enjoyable entertainment.

SUMMERLAND APPLES TO BE TESTED

By Government For Their Storage Qualities.

The Canadian Government has ordered a shipment of Summerland apples for the purpose of testing their keeping qualities. The fruit is to be put into cold storage for twelve months. The results will be watched with interest.

FAREWELL TO MR. I. B. FULTON.

A largely attended farewell was given Mr. and Mrs. I. B. Fulton and family in the Parkdale Baptist Church last Wednesday evening.

The class rooms had been fitted up for the occasion, but the gathering of friends and well-wishers was so much larger than anticipated that it became necessary to repair to the auditorium. During the evening a very large and beautiful pillow of roses was presented to Mrs. Fulton. There were many expressions of regret at their going and of good wishes for them in their new home.

Vol. 4, No. 13

SUMMERLAND, B.C., OCTOBER 27, 1911.

Whole No. 168

"SPECIALIZE IN WINTER APPLES."

DEPUTY MINISTER SCOTT GIVES SOME SOUND ADVICE.

OTHER INTERESTING SPEECHES.

In addition to the satisfaction and delight derived by our own citizens from the magnificent display of fruit at last week's exhibition, there was keen delight and encouragement and additional optimism derived from the many remarks heard from prominent visitors and speakers at the Show. While some of the remarks savoured of politics and many of the speakers were disposed to give out "taffy," yet it could readily be discerned that the wonderful display of fruit had made a marked impression. We were fortunate in having in the Valley at the time two bodies of prominent men, namely the Water Commission and the Tax Commission, a number of whom would not otherwise have seen what is being accomplished here. And these gentlemen, prominent in provincial affairs, will henceforth be good advertisers of Summerland real estate, and the products of our orchards.

On the first day of the Show our own representative at Victoria, Hon. Price Ellison, Minister of Finance, made a very happy speech, notes of which were able to give in last week's issue.

On the second day there were a number of speakers, including Hon. Albert E. McPhillips, President of the Provincial Council, Mr. Lugin, Editor-in-chief, The Colonist, Victoria, Mr. W. H. Malkin, a wholesale grocer of Vancouver, and a member of the Tax Commission, Dr. Young, an educationalist of note and also a member of the Tax Commission.

Hon. Mr. McPhillips spoke of the wonders that had been accomplished in making the barren hills round about produce such fruit as was on exhibition within the Agricultural Hall, and until a few years ago such a thing was not thought possible. It took the genius of men to undertake the work of bringing the hills under their subjection, and the one who deserved the greatest praise was Mr. J. M. Robinson. Mr. McPhillips said that he had visited many fruit exhibitions this year but had never seen one that could compare with that of Summerland.

Looking at these dun-brown hills one would never think it possible to accomplish what has been done in the past six or seven years. Realizing what has been done, it will not be hard to predict the wonders that will be accomplished in the next century. He had, during his visit here, ridden about and seen miles and miles of orchards and thousands upon thousands of fruit trees. He predicted a most brilliant future for our community.

He assured his hearers that the Government of the day would look after the interests of the fruit grower in every particular, and the province was now in a condition to be able to do so. There was a magnificent surplus, which, by the way, was in the keeping of our member, Mr. Ellison, and the speaker, as president of the Provincial Council, stated that he hoped in the very near future that there would be no direct taxation in this province. We have the largest and richest province in the Dominion and its boundless natural resources would soon yield enough income to pay the expenses of government, improvements, etc. When we realized that this province was the property of only three thousand people the individual wealth was immense.

The speaker argued that if it were possible for the provincial government to build up such a magnificent surplus in such a short time they should soon be able to give the ratonnyers a dividend from the revenue from natural resources, such dividend to be in the form of a remission of taxes.

He expressed his delight with his visit here, and hoped it would be the precursor of many another. Mr. Lugin, editor of the Colonist, was the next speaker. In opening his remarks, he stated he had been Secretary of Agriculture for the province of New Brunswick

for six or seven years, and during his tenure of office had visited many fruit shows in Nova Scotia and the New England States, and notwithstanding all his experience, he was not prepared to see such a magnificent display as was on exhibition here. Never in all his life had he seen such fruit and he did not think it possible that anything better could be produced anywhere. He was so impressed with its magnificent quality, that as editor of the Colonist, he would certainly make its wonders known. With the proper conservation of water in this district there was no reason why we could not make this the garden of the continent.

In closing, the speaker reminded his hearers that the growing of good fruit was not everything, for while it was a good thing to grow good fruit, it was a better thing to grow good citizens.

Mr. W. H. Malkin followed with a short address. He had gone up through the Okanagan Valley some eight or ten years ago, passing this point by water going from Penticton to Kelowna. At that time it was largely a wilderness, and to him, the apples shown at the exhibition were a great surprise. He declared that there was no city in the world that would not be proud to be able to make such a display. He also complimented the ladies on the fine display of art work, and made special mention of the water colors by Mrs. Collinge. At the time of his first visit to this part of the province, some one had made the prophecy that within ten years there would be from fifteen hundred to two thousand cars of fruit shipped from this Valley annually. He admitted that he did not believe it possible, and ridiculed the optimism of the one prophesying. He believed, however, that this had been accomplished.

He thought we had here a model municipality. We have no bars, no jails, and a fine college, and excellent schools, and our tax rate of ten mills on the dollar was mere nothing. British Columbia after fifteen years of waiting was now coming to its own. With Mr. Ellison to represent us at Victoria, and Mr. Burrell, our representative at Ottawa, as Minister of Agriculture, we would be able to get a square deal.

Dr. Young, who is a member of the Tax Commission, and a recognized authority in matters of political economy, is an educationalist who had recently become a citizen of the Pacific Province, having for years been connected with the Bradford Schools in England. Dr. Young said he supposed we were wondering why he had come all the way out here. It was because of the spirit of unlimited optimism of the province which had brought him all the way across this great country, and because of his desire to share in the uplift of this young empire that he had forsaken the Old Land for the new. Dr. Young followed these remarks with others which were filled with wit and humor, and kept his hearers in constant laughter and greatly delighted all who heard him.

During the last evening of the Show the attendance was not large, but there was a fair gathering of enthusiastic orchardists who were anxious to hear Wm. E. Scott, Deputy Minister of Agriculture. Shortly after eight o'clock the people were gathered about Mr. C. N. Borton's exhibition booth, from which they were addressed by Mr. Scott. He expressed great appreciation and delight at the wonderful display of fruit before him. Mr. Winslow had been a judge at the Show last year, but was unable to be present this year, and Mr. Winslow had asked him if he would come and judge here. He was delighted to do so, but assured his hearers that Mr. Winslow would be with us again.

In speaking of the work of judging he stated that in many cases it was difficult to decide who should have first prizes. In the competi-

tion for the buggy the first prize was won by a difference of only two points over the second best. He thought the specializing of box exhibits a good plan, and in judging these exhibits he found the closest work he had ever done. Over and over again, in judging for first and second, or second and third, the competition came out even. The judging was done on the regular Spokane Association score, and many of the exhibits had to be scored repeatedly before a decision could be obtained.

He again referred to Mr. Winslow as a thoroughly experienced man who had his heart and soul in his work, and he felt that the fruit growers of the province were fortunate in having such a man as provincial horticulturist. He also outlined the method of the Department of Horticulture in developing and assisting the industry throughout the province. The Department realized that success cannot be made in this age by antiquated methods. They purpose continuing the short courses each winter and there will be a school here again during the coming winter. The packing schools had only been started the year before last, but already the results had justified the expense. Each pupil is charged three dollars for a two weeks' course in packing. The government supplies the fruit and employs the best men possible as teachers, paying them a high salary. Wherever enough pupils could be enlisted a packing school would be conducted.

THE FRUIT GROWER.

Mr. Scott then took up the fruit growing industry, and followed up through several years, giving valuable advice. To begin with one must have a liking for the work. If entered into for money only the orchardist is sure to fail, but if adapted to the work and ever ready to learn, he will be successful. He must have a fundamental knowledge of soil conditions, the right class of land, and the right situation. He declared that the greatest and most fatal mistake is planting too many varieties in the orchard. When he began an orchard some years ago, and before apple growing had become the science it now is, he had sixty varieties in his orchard, but later, by top grafting, etc., this number was reduced to six. The speaker then undertook to name some six or eight varieties that he would strongly advise planting here, and to which varieties he recommended orchardists to limit themselves. For fall apples he recommended Wealthy and McIntosh Red. These bear early and give a heavy yield of excellent fruit. For winter varieties he recommended six varieties, named in their order of worth, Spitzenberg, Jonathan, Winter Banana, Yellow Newtown Pippin, Wagener and Grimes Golden. Two years ago he had strongly advised against the planting of Cox's Orange Pippin, but, he said, "If you can grow them as I see them here, I would now advise otherwise." In his estimation it is the highest class of apple growing, but he had thought that it could not be successfully grown here.

He strongly urged working together for a few varieties. We could soil to much better advantage. The speaker advised getting a nursery "that grows good stock of the kind you want. Don't buy from eastern nurseries. Conditions are different, and the time needed in transportation is too long." Every nursery selling stock in the province is under a bond of \$20,00, and must deal honestly with its customers, else forfeit its bond. The government was ever ready to protect the fruit grower and enforce this law.

PREPARING THE SOIL.

The soil here lacked humus and nitrogen, and the speaker advised "Never start your orchard without first ploughing under a leguminous crop. Don't think that you will lose a year by it, you won't." The growth of the trees in a few years would be much greater than if planted on virgin soil. Our soil had an abundance of potash and phosphoric acid and commercial fertilizers were not required. Right here he desired to remind his hearers that it was not only God's sunshine that gave the wonderful

color to our apples, but the potash in the soil is a large contributor.

PLANTING.

Mr. Scott advised planting in the square forty feet apart with fillers. He found here many orchards planted at thirty feet. This was too close, with the greater distance fillers would last much longer, and the greater distance is none too much for matured trees. He did not attempt to tell his hearers how to plant trees as they probably knew as well as he, and if any did not the new comers could learn from the older citizens.

PRUNING.

Of the different styles of pruning the speaker favored the modified pyramid with three leading branches. Never allow a crotch in a tree. The first, second and third years of pruning were very simple, but the pruner must know the variety of tree and use common sense. Watch what those of experience about you are doing. Thousands of trees have been spoiled by over pruning. He had heard reports of difficulty of bringing Northern Spys into bearing. He had had the same difficulty but had overcome it by summer pruning which produced good results. "You know if you want wood, prune in the winter, if you want fruit, prune in summer."

CULTIVATION.

Of the different methods of treating the orchard soil, Mr. Scott strongly condemned permitting its going to sod. An orchard in sod was rarely successful. During the first few years crops of clover might be grown if not too near the trees, and garden crops might also be grown between the trees. For keeping the top soil in the best condition he recommended the Kimball cultivator.

If he had to do with only one implement this was the one he would choose.

IRRIGATION.

Over irrigation has killed many trees. One reason was with the soil saturated late in the fall the trees continued to produce new wood which when the cold weather set in was not sufficiently matured and the tree was top killed. On the other and if too dry the trees would become root killed. He recommended that irrigation be stopped early, allowing the wood to ripen and later on dampen the soil which will benefit the roots. Too such water also spoiled the fruit, affecting its keeping qualities.

SPRAYING.

Mr. Scott stated that he had not found many bugs here, but predicted that they would eventually come. He recommended lime sulphur spraying in the spring just when the bud is bursting and the green is beginning to show. The peach mildew was undoubtedly the hardest thing to fight. For this he recommended lime sulphur to be followed by arsenate of lead as the blossoms are falling. Black leaf was a good spray for aphides.

THINNING.

The speaker said that thinning fruit is the easiest way to make fruit. A tree that otherwise would have ten boxes of inferior fruit will produce twelve to fifteen boxes if thinned. This is because the fruit has a better chance to grow, and there are fewer seeds to draw the strength from the tree. For the unthinned fruit the price would be about 75 cents per box. For the larger quantity of thinned fruit the price would be about \$12.5 per box. Mr. Scott said that he got into trouble a few years ago in trying to discourage the planting of peach trees here, but he still held that view, and believed that no money had been made out of peaches in the last few years. Just here he was interrupted by Mr. Thomson of the Agricultural Association, who declared that he had made thousands of dollars out of his peaches, but nevertheless Mr. Scott maintained that our peaches are too late to compete with California and Oregon peaches, and by the time ours get on the market, prices are low. "Why grow this perishable fruit, anyway, when you can grow such apples?" and he advised that we specialize on winter apples, and we would make Summerland famous. He would not say much about packing after what he had seen here, but this is

List of Awards in Plate Section.

First Class Fruit Makes Judging Difficult. R. H. Agur Captures Special Prize.

Below is a list of winnings for Plate Displays. The other winnings were published in last week's issue. Much credit is due the able directorate, C. J. Thomson, D. H. Watson, R. Pollock, H. C. Mellor.

J. L. Logie, and J. M. Sutherland, for the great success of the show. The untiring efforts of R. Pollock, and the ably filling by him of the position of secretary, deserves special mention and the thanks of all those interested in the display.

R. H. Agur. A. Steuart. Dunsdon Bros.

a very important part of the fruit industry. He urged that we strive to improve if possible every year in packing as in everything else.

CO-OPERATION.

We must co-operate in everything to get the best results. Co-operation is absolutely necessary and it is astonishing what has been done by this method.

The speaker complimented Summerland on its showing in the packing contest. Two of the packing school pupils had that afternoon packed three boxes in twenty-six minutes. This time had not been

approached anywhere else in the province. When he was informed by one of the judges that Manager Lawler of the Fruit Union had packed three and a half boxes in seven minutes, he declared it impossible and still seemed to doubt the statement. Referring to the packing school, Mr. D. H. Watson, in reply to a question of the speaker, declared that the time allowed for the school here was altogether too short for the number of pupils entering, and also wanted to emphasize that fact that we wanted here the same instructor we had last year.

WEDDINGS.

VAUGHAN—PETERS.

Word was received on Wednesday announcing the marriage of Mr. O. Vaughan and Miss Peters, at Vancouver.

Miss Peters, a former resident of Summerland, has been at her early home in England for some time, and only recently returned, going right through to Vancouver, where she was met by Mr. Vaughan. The honeymoon will be spent at Victoria, at the home of the groom's parents. Upon their return to Summerland they will reside in the Ross cottage, Beach Avenue.

BEATTIE—SUTCLIFFE.

A quiet church wedding was solemnized at the Anglican Church,

on Friday last, October 20th. The contracting parties were Miss Clara Mabel Sutcliffe, of London, England, and William John Beattie, of West Summerland. Rev. H. A. Solly officiated. The bride was given away by Mr. Marshall, Miss Linterne acting as bridesmaid. The wedding was a quiet one, being attended only by a few intimate friends and relatives of the bride and groom.

A wedding supper was given by Mrs. Solly at the Rectory at which some twenty guests sat down. The newly wedded couple have already returned from a short trip to up the lake points and will make their residence on Mr. Beattie's fruit lot at West Summerland.

Mrs. Beattie, who came to this province some months ago has made her home with Mrs. Solly since coming here.

FRIDAY, OCTOBER 27, 1911.

SUNDAY TRAIN SERVICE.

No doubt there are those of good heart and earnest desire who will object to a Sunday train in the Okanagan. We heard a preacher state in his pulpit a few evenings ago that he would exert every effort possible to take business from the corporation which would introduce a Sunday train in this Valley. In so stating, this good friend expressed the wish which fathered the thought, but did not, we think, express the thought back of the idea of a Sunday train from Sicamous to the Landing. To tie up travellers for Okanagan points at Sicamous Junction over Sunday is as unreasonable and unjust as to tie up travellers on the mainline at any point where Sunday finds them. It is surprising that the Canadian Pacific Railway has permitted the injustice so long.

We do not like to take exception to the attitude of the "men of the cloth," but in this particular instance we believe the man of the cloth is reaching somewhat beyond his calling in threatening to injure the commercial interests of even the C. P. R., for its having expressed a determination to put on a Sunday accommodation train that means so much to the travelling public. These things must come as the population of the Valley increases, and will come in spite of this kind of opposition.

MUNICIPAL VOTERS' LIST.

The person who sells a piece of property on an agreement of sale is no longer the owner of it. The person buying the piece of property on an agreement of sale is the owner of it. Legally no power can take it away from him, or lay claim to it—while he complies with the terms of the agreement. The person selling a piece of property sells his interest in it and the person buying the piece of property buys that interest. All interest goes with the transaction. Henceforward the purchaser must pay all property tax levied on the property, and must be responsible for all improvements made in connection with it. He suffers or benefits by all money by-laws passed by the municipality subsequent to the purchase by him of the property. And yet, according to the Municipal Clauses Act, 1908, the purchaser on an agreement of sale, cannot vote as a property holder at any municipal election. He may have his name placed on the Municipal Voters' List as a householder, but this does not permit him to vote on any money by-law. He votes simply as a renter of property.

According to the Act, the qualifications of a property voter in City Municipalities specify that he shall be the "OWNER of real estate of assessed value of not less than \$100, or who is the representative of an incorporated company, which is the ASSESSED OWNER of lands, etc., of not less than \$100," situate within the municipality. The qualifications of any township or district municipality, according to the Act, shall be "the assessed owner of lands or improvements of not less than \$100."

It will be noted in these quotations from the Act that the "assessed owner" is a qualified elector in the case of any incorporated company owning property to the value of not less than \$100, also the "assessed owner" of land to the value of not less than \$100 in any township or district municipality is a qualified elector, and yet the Act will not let the assessed owner, other than an incorporated company, vote as a property owner in city municipalities.

Why this distinction? Does not the Act place the assessed owner of land in a city municipality at a disadvantage? Should not the assessed owner individual have the same privilege as the assessed company owner? If not, why not?

This phase of the Municipal Clauses Act has caused no little difficulty in the past in the matter of making up the City Municipal Voters' Lists, and the last civic election in the city of Victoria was declared illegal on this technical difference between an "owner" and an "assessed owner." It would seem only reasonable and just for an order-in-council to be issued which should place the assessed individual owner of city property on the same basis as the assessed company owner, or the assessed owner in district municipalities.

CHINESE UPRISING.

By slow degrees, China is emerging out of the semi-darkness it has been in since the sixteenth century, and by much bloodshed and revolution the great masses of that seething hive of thrift, slovenliness, greed and graft are breaking the rule of the Manchus. Despatches tell of a great revolution now in progress there and the revolutionaries claim a great victory over the Imperial troops at Hankow. No doubt the Imperial troops will in the end succeed in quelling the lawless, unless, as is intimated enough of the Imperial troops prove disloyal to thwart the campaign instituted by the government.

The uprising seems to be general in the north of China. At Hankow the conduct of the revolutionaries is reported to be almost exemplary. Martial law is being enforced, and every effort exercised looking to the preservation of order and the safety of foreigners.

The movement is directed against the power of the Manchus. In some instances whole communities of Manchus, men women and children, have been slaughtered by the revolutionaries, the object being apparently to dig them out, root and branch.

The Manchu army is considered the elite army of China. It is said to be 80,000 to 40,000 strong. The provincial armies are equally as strong numerically, but are not so well trained and are poorly armed. The reign of the Manchu dates back to the date of the establishment of the present dynasty, 1604. At that time, the victorious troops, com-

posed mainly of Manchus, were permanently quartered at Peking and constituted a hereditary army. The force was divided into eight banners, and under one or other of these banners all Manchus and all the descendants of other nationalities were enrolled. Each adult male was by birth entitled to be enrolled as a soldier, and by virtue of his enrollment had a right to draw rations whether on active service or not. As a fighting force the Manchus had long become quite effete, but in recent years steps have been taken to bring this army up to a higher standard of efficiency.

THE BROADNESS OF CHURCH WORK.

The Fourth Ecumenical Conference of the Methodist Church of the World opened in Toronto on October 4th, and continued for a period of two weeks. The conference had no legislative power. It had no power to make or amend church laws. It is not a creed-making body. Brotherhood, information and inspiration are the underlying thoughts back of it. It was held in London in 1881; It was next held in Washington in 1891, and again in London in 1901.

Many papers were read. Of these the most important was that from the pen of N. W. Rowell, K.C., of Toronto. Space will not permit our giving anything like a full text of the paper, but here is the thought that bottoms Mr. Rowell's argument.

"Let us hear the words of John Wesley: 'I desire to form a league, offensive and defensive, with every soldier of Jesus Christ.' 'If thy heart be as my heart, give me thy hand.'

"On this broad and catholic platform let us stand. For this great ideal of co-operation and unity let us unceasingly strive. It is well to remind ourselves that Methodism was born, not to formulate a new faith or to establish a new type of ecclesiastical organization, but to call men to a new life, and we are never truer to our origin than when joining hands with all other communities and organizations engaged in similar work.

"A few years ago we had our decennial Methodist stock-taking, considering the magnitude of the investment of men and money, the result, so far as it has been registered in church membership on the home field, has been very disappointing, and it is little comfort to know that other denominations are passing through a similar experience. It is not without significance that, side by side with a decreasing ratio of increase in church membership in the homelands, the great things for which the Church stands, the great principles which prompt men to right living and right acting, are finding increasing expression in the lives of the multitudes of men outside the Church, and the past ten years furnishes a record of unparalleled achievement in the foreign mission field. Why does not the church as an organization more largely grip the heart and intellect of men in the home lands? Why is that leadership in great movements of social and moral reform, which of right belongs to the church, has in so many other cases passed into other hands? Why is it that so many who need the helping hand of the good Samaritan look not to the Church, but outside the Church to find it? No doubt many causes contribute to produce present conditions. But is it not true that multitudes of men outside the Church are not hostile to the Church? They are simply indifferent to it. It does not interest them. Life all around them is of such absorbing interest that the Church makes no particular appeal to them. Why is it? I want to suggest for your consideration one of many contributing causes. The lack of a direct, commanding and compelling appeal to the deep and vital things in life by men of faith and vision, men of Christlike sympathy and sacrifice. Wherever you find such an appeal by such a man the multitudes respond.

"Our ministry is the product of the system. So large a proportion of the time of the ministry if required to keep the machinery of their church organizations in operation that too many come to look upon this as their work rather than simply a means to enable them to more effectively present the living Christ to men. Great opportunities and great causes develop great men. Operating church machinery never will. Has not the multiplication of our denominations, the competition between one denomination and another in small centres of population greatly accentuated this difficulty and increased the peril to our ministry?"

WASHINGTON NURSERY COMPANY.

475 Acre Plant. Largest in the North-west.

SIX MILLION FRUIT TREES. All produced from carefully selected buds and scions and grown on our own budded seedlings.

These trees are propagated from carefully selected buds and scions secured by our men from bearing trees which have produced regular crops of the best strain of their varieties. These bearing trees are labelled while the fruit is thereon, allowing no opportunity for a mistake as to the best strains.

Our motto is "A Square Deal."

There is nothing that we appreciate more than a satisfied customer. Need we say more?

The Washington Nursery Company,
Toppenish, Wash.

Here's The Point

THOS. B. YOUNG
Flour and Feed

Phone Violet 8.

Walled Farmer Will to Farmer Bill,
"The cost of living's high."
Says Farmer Bill to Farmer Will,
"Depends on where you buy."

"Why don't you go to Young's?" quoth he,
"That is the place to deal,
Then pulled up with prosperity
You'll soon begin to feel."

Hay, oats and bran, shoria, wheat and corn
Chopped barley, oats and wheat,
Rolled oats for breakfast in the morn,
At prices hard to beat.

Be sure to try his flour eye,
His wheatloaf and oatmeal,
Alberta Fancy Patent try
That Flour with the Seal.

Young's poultry feed when fed each day,
You'll find this is no hoax;
Your hens will soon begin to lay
You eggs with double yolks."

"Why do you wall, why do you weep?"
Here in our mill in our own town,
The cleaning fact comes with a leap—
The cost of living has gone down.

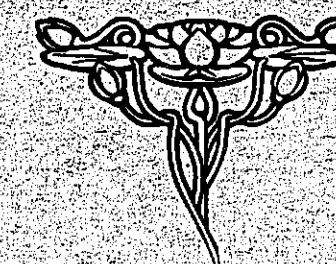

If only the same trouble were spent in studying the feelings of others as each expects to be studied, life would be much happier for us all.

Order is the sanity of the mind, the health of the body, the peace of the city, the security of the country. As the beams of a house, so is order to all things.

A Big Asset

The Solid Earth

Of Course, you must procure the right kind of Soil, the kind that will grow anything. This is the kind we offer in Summerland; the fruit-growing centre of the world-famed Okanagan district.

The Corporation of the District Municipality of Summerland.

BY-LAW NO. 35.

By-Law for Raising \$2,500.00 for School Purposes.

WHEREAS the Municipal School Board of the District Municipality of Summerland has deemed it advisable not to dispose of the Prairie Valley and the Garnett Valley Schools, as authorized by the Department of Public Instruction;

AND WHEREAS there is required the sum of \$2,500.00 to meet in full the cost of the erection of the Central School and the further improvement of the School grounds;

AND WHEREAS it is necessary for the said purpose to raise, by way of loan, upon the credit of the Municipality of Summerland the said sum of \$2,500.00, payable on the first day of December, A. D. 1921, bearing interest in the meantime, payable half yearly, at the rate of five per cent per annum, the principal of such loan, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of \$333.23 by rate in each and every year.

AND WHEREAS the whole rateable property of the Municipality of Summerland according to the last revised assessment roll is \$2,550,930.00.

AND WHEREAS the total amount of existing Debenture debt of the said Municipality of Summerland is \$287,500.00, of which none of the principal or interest is in arrears.

NOW THEREFORE the Reeve and Council of the Municipality of Summerland in open meeting assembled enact as follows:

1.—It shall be lawful for the Reeve of the Municipality of Summerland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same, on the credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum not to exceed in the whole the sum of \$2,500.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality, for the purpose and with the objects hereinbefore recited.

2.—It shall be lawful for the said Reeve to cause any number of debentures to be made for the sum of not less than \$500.00 each, bearing interest at the rate of five per cent per annum, not exceeding in the whole the sum of \$2,500.00, and all such debentures shall be sealed with the seal of the Municipality of Summerland, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3.—The said Debentures shall bear date the first day of December, 1911 and shall be payable in ten years from the date hereinafter named for this By-law to take effect at the Bank of Montreal, Summerland, British Columbia.

4.—The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent per annum on the amount of the said Debentures, and such interest shall be payable half-yearly on the first day of June and December in each and every year, and the signatures to such coupons may either be written, stamped, printed or lithographed.

5.—A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6.—The sum of \$125.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality of Summerland in addition to all the other rates for the payment of the interest on the said debentures.

7.—The sum of \$208.23 shall be raised and levied annually by a rate on all the rateable property in the said Municipality of Summerland in addition to all other rates for the payment of the debt hereby created when due.

8.—It shall be lawful for the said Municipality from time to time to repurchase any of the said debentures at such price or prices as may be mutually agreed upon, and all Debentures so re-purchased shall forthwith be cancelled and no issue of any Debenture or Debentures shall be made in consequence of such repurchase.

9.—This By-law shall before the final passage thereof, receive the assent of the electors of the said Municipality of Summerland in the manner provided for by the "Municipal Clauses Act," 1906, and Amending Acts.

10.—This By-law shall come into force and take effect on the First day of December, A. D. 1911.

11.—This By-law may be cited for all purposes as the "Municipality of Summerland School Loan By-Law, 1911."

Passed by the Municipal Council this 16th day of October, 1911.

Received the assent of the electors of the Municipality of Summerland the day of 1911.

Reconsidered and finally passed by the Municipal Council the day of 1911.

Reeve.
Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law, upon which the vote of the Ratepayers of the Municipality will be taken at the Municipal Hall, Summerland, for Wards One and Four, and at the Municipal Office, West Summerland, for Wards Two and Three, on the 31st day of October, 1911, between the hours of 9 a.m. and 7 p.m.

J. L. LOGIE,
Municipal Clerk.

MUNICIPALITY OF SUMMERLAND.

TO WIT.

PUBLIC NOTICE is hereby given to the Ratepayers of the Municipality aforesaid that a Poll will be taken on By-law No. 35, known as the "School Loan By-law," 1911, which requires the assent of the Ratepayers at the following places:

Municipal Hall, Summerland, for Wards one and Four.
Municipal Offices, West Summerland, for Wards Two and Three,

on Tuesday, the thirty-first day of October, 1911, between the hours of nine o'clock, a.m., and seven o'clock, p.m., and that on Thursday, November 2nd, 1911, at ten o'clock a.m., at the Municipal Offices, West Summerland, I will count up the votes given for and against the said By-law, and shall then and there proclaim the result of said Poll.

J. L. LOGIE,
Returning Officer.

Peachland Notes.

Mr. Holden spent a couple of days in Kelowna last week.

Mrs. Town gave a reception Thursday afternoon in honor of Mrs. Hood. A very enjoyable time was spent.

Mr. and Mrs. George Keyes spent a week here gathering apples and potatoes from their lot. They returned to Penticton last Wednesday.

Mr. Jacob Winger is just completing an addition to his residence which will give it an imposing appearance. Mr. W. C. Atkin has the work in charge.

Mr. Alex Miller, of Summerland, spent a day in town last week. Friends here are pleased to learn

that Miss Agnes Miller is improving in health.

Mr. William Lupton and family are moving to Westbank for the winter. Mr. Lupton has secured a position with a new land syndicate in that vicinity.

Dr. and Mrs. R. C. Lipsett, of Summerland, were guests of Mr. and Mrs. J. B. Robinson over Sunday. The doctor spent most of Monday making professional visits.

Mr. W. J. Moore of the Lambly Ranch, has on exhibition in Mr. Town's window, a couple of very healthy potatoes. One scales 4 lbs. 7 oz., and the other 6 lbs. 8 oz.

Mr. and Mrs. Jas. Scott set out Thursday morning for a lengthy trip, their destination being Georgia, U.S.A., where Mr. Scott purposes going into the fruit growing business on an extensive scale.

The Boy Scouts.

The second annual meeting of the Local Council of the Baden-Powell Boy Scouts was held on Monday evening last at the College Gymnasium. Among those present were the Revs. F. W. Hardy, H. A. Solly, F. W. Pattison, A. W. MacLeod, Drs. J. P. McIntyre and C. M. Smith, Messrs. C. A. Marshall, R. E. White, C. N. Borton and J. Tait. General business in connection with the Boy Scout movement was attended to and the concert to be given this coming Friday evening received its due attention.

Following is the list of officers elected for the coming year:

Hon. President, Col. Cartwright.
Hon. Vice Presidents, Messrs. Adam Stark, J. M. Robinson, James Ritchie.

Chairman, Rev. H. A. Solly.
Vice Chairman, Dr. C. M. Smith.
Secretary, Treasurer, C. A. Marshall.

Chaplain, Rev. F. W. Hardy.
The results already accomplished have been very encouraging, and the boys are entering into their work with a will. The committee was appointed to secure satisfactory quarters for the winter where a drill floor and a reading room may be had. Scout Master Borton, Adjutant MacLeod, Quartermaster Tait and Assistant Scout Master Williams will have direct charge of the boys. The instruction work is divided amongst these four.

It is hoped that the citizens of Summerland will accord their cordial support to the entertainment being given at the Empire Hall tonight (Friday), in aid of the Boy Scout Funds. There is no question that the organization has been doing excellent work among the boys, and it is to provide the continuance of this work that the concert is being given. The best of Summerland's talent will assist in the programme, and that alone should be sufficient advertisement. Add to this the worthiness of the cause, and a full house should be assured.

AUTO. DELIVERY SERVICE.

Another auto has come to town, a Brockville "30." The owner of the new car is Mr. T. E. Moore. Mr. Moore has been considering the delivery of groceries by motor as he has beloved it cheaper and more satisfactory than by team. He is now trying the plan and is greatly pleased with results so far. The amount of territory that can be covered by one man is very much greater than with a team and the cost of maintenance he claims so much less that a great deal more business can be done at less expense.

A TENDERFOOT'S WOONG

-BY-

CLIVE PHILLIPS WOLLEY

(AUTHOR OF "GOLD IN CARIBOO," ETC.)

Synopsis of Previous Chapters.

The scene of the story is an old cattle ranch, called the Risky, in Caribou, British Columbia, during the early days. Jim Combe, foreman of the ranch had watched Kitty Clifford, the owner's sister-in-law grow up on the ranch, and had been led to believe that she might ultimately become his wife. He had matters all his own way until Kitty pays a visit to relatives in England, and brings back with her one Richard Anstruther, who speedily becomes a rival for her affections. With two lovers on the ranch, Kitty appears to vacillate from one to the other, though she does not perhaps realize the intensity of the situation for the two men. Jim easily proves his superiority when it comes to the ways of the country, but he lacks that polish and grace of the well-bred English gentleman, which Anstruther displays to perfection. Her visit to England opens Kitty's eyes as to the distance between the rivals, and Jim sees with bitterness that Kitty's affections seem to drift away from him. He manages however, to conceal his feelings. While Jim and Rolt are away hunting cattle thieves, a storm arises and Anstruther, left alone in the house with the women, is injured by a falling tree in endeavouring to rescue a pet fawn of Kitty's which is left out in the storm. Her anxiety for the injured man's life reveals to Mrs. Rolt the real state of her sister's affections. On the return of the men folk, Jim is dispatched to Soda Creek for a doctor.

CHAPTER XVI.

Meanwhile at the Risky.

After Jim Combe's departure a strange quiet fell upon the life of the ranch. There were no galloping horses about the corral; there was no noisy cowboy chaff about the barns. The one thing necessary was to keep Frank Anstruther quiet. Any movement caused him excruciating pain, and was likely to disarrange the imperfect bandages in which his body was swathed, and though he took his punishment with set lips, he was a bad patient, restless under restraint, and excitable to the last degree. It was only as long as Kitty was in the room that they could keep him still. As long as she was in his sight he would lie hour after hour without stirring, only his eyes in his white face alive, and those so followed every turn of the girl's pretty head, that they frightened her. She began to feel that those burning eyes could see through her into her heart, and for that she was by no means ready for yet. There was a picture in it upon which she was trying to pass judgment, a picture of furious storm in which trees were crashing and roofs lifting and solid substances were being whirled about by some invisible agency, and in the middle of it all a great red roan raged. "Them's baby tricks," she quoted under her breath, and a proud smile spread over her face as she thought of the man who drove the great red devil into the heart of the storm to do her bidding. "I wish I could have seen Jim start." The voice came from the bed, and Kitty flushed guiltily as she turned towards the speaker. He did then read her very thoughts. "Why do you say that?" "It must have been a grand match between Jim and the stallion. I don't think Jim has his equal as a horseman." "That's what they say about here, but I don't suppose he would be any good in your country." "Why my country and not your's?" and then with a generous impulse, "Jim would be good anywhere. The better the class the more he would shine in it. Sitting a fence isn't as hard as sitting a buck jumper. Seeming is not worth anything compared to doing," and he pushed irritably at the bedclothes which encompassed him. "Suffering is harder than either," said a quiet voice at his elbow. "Kitty, make Mr. Anstruther take this, and don't let him wor-

ry about Jim. Jim is quite able to take care of himself." Jim's best friend was his worst advocate. It was just that ability to take care of himself that told against him with the woman he loved; just the helplessness and dependence of Anstruther which appealed to Kitty. It almost seemed as if the quiet of the sick room had leaked through the log walls, and pervaded not only the whole ranch, but nature itself. Even the storm had quieted down after that one wild night. As the house lay somewhat lower than the surrounding country it was wrapped in a veil of mist, through and above which, patched with thin snow, the rising fells showed, emphasizing the great distances and the beggarliness of the November foothills. It was the time of year in which, to a girl like Kitty, the contrast between the sheltered life of the Old Country and the homelessness of the new world to be most apparent, and as she dwelt upon this, looking hour after hour into the gloom outside, the only relief to her thoughts was the necessity for waiting upon the man who had become to her typical of England. To her, in the midst of her reverie, came Phon, the Chinese cook. "Missy Rolt here?" "No, isn't she with the boss?" "No can find her. Ole Mary come, want some clothes. Heap cold," and the Chinaman gave a sympathetic shiver. "You go find Missy Rolt; me plenty busy cook him grub." Kitty looked at Anstruther. Apparently he was asleep, so humoring the cook, she went down to the library where Rolt and his wife were sitting. "Poor old soul, what a day for her to come," was Mary Rolt's greeting of the message. "Just the sort of day to make one want more clothes, dear. Have you anything to give her?" asked Rolt. "I can find something, I expect. I am rather glad that she has come, aren't you, Dick? It looks as if the trouble with her people is blowing over." "Perhaps; but the fact that an Indian begs of you may mean nothing. You know what cultus pot-latch means." "A free gift, that is a fool's bargain. I know, but I think old Mary is grateful and really likes me." Her husband smiled. He was not quite certain which would be the greater miracle, that anyone should not like Mary Rolt, or that an Indian should be grateful. He had known Indians for a lifetime. After his wife had left the room on her mission of charity, taking Kitty with her to "rummage" in the old clothes box, the Boss sat for some time, smoking and thinking, and his thoughts were not cheerful ones. A good many of his castles in the air had fallen since Anstruther's arrival, and without Jim's help he did not feel as sanguine of ultimate success on the Risky as he had done. A sharp cry called him back from the future to the present. "What is it," he called, opening his door. "I don't know, dear," answered his wife from the lumber room. "It must have been Mr. Anstruther who called." "Where is Kitty?" "Here with me, looking out some thing for old Mary." "She ought not to—" But at this point he and his wife reached the sick room together, where Kitty was already bonding over Anstruther. "He has fainted again," she said chafing his hands helplessly, but even as she spoke consciousness returned to him. "I beg your pardon," he murmured, very faintly. I give you all so much trouble, but when I tried to call you I got another nasty one, and went off, I suppose, as usual. It seems to me I can't do anything without fainting," and he closed his eyes wearily, almost as if he were going to illustrate his last words. "What did you want, old fellow?" asked Rolt, kindly. We won't leave you again. It was very careless of us to do so."

Anstruther lifted his hand in deprecating fashion. "Nonsense. I don't want so much looking after, but when Kitty was away I thought I saw someone in that little room." "In my bathroom?" "Yes, Kitty sits there sometimes when she wants me to stop talking and sleep, and I thought she had come back." "There is no one there now," said Rolt, coming back from the room. "Who did you think it was?" "I don't know. I saw someone peering round the door at me. I thought that it was an Indian when I sat up and called, and you know what happened." "Did you hear the man move?" "No, I only saw the face, or thought that I did, but perhaps it was only a sick man's fancy." "He is a fraud, Kitty," decided Rolt, with a good humored laugh, "he wanted you back, and invented this bogie as an excuse to bring you back. Better not leave your post again," and so saying he dismissed the subject, but nevertheless he went into the little bathroom and looked round it very carefully. On the table beneath his looking glass lay a handful of small silver, with his studs and some old gold seals in a china tray, and his watch was hung on a nail in the window frame. These were the only small moveables of any value in the room, and neither they nor anything else seemed to have been touched. As he went out of the room he noticed a damp patch upon the polished wood of the stairs, which a vivid imagination might have made into the outline of a wet moccasin, but the Boss disregarded it. Five minutes later when he met his wife downstairs, he asked whether she had found anything for the old woman. "Yes, I made up quite a bundle for her; a warm petticoat and all sorts of things, Kitty's and mine; but the silly old thing has gone without them." Rolt looked grave. "Oh, you need not frown, Dick. We were rather long, I know, but it really is so hard to decide what one really has done with, and if the old woman didn't get her clothes to-day, she will get them next week when she comes to give the house its monthly scrubbing." Rolt looked out over the darkening landscape. The November day was rapidly drawing to a close, and he knew that Old Mary had seven miles to trudge back to her rancherie, but it was curious that she had not waited. He could see the trail which led to the gulch through which ran Mary's road home, but there was no sign of Mary. Old as she was she must have moved quickly to have gained the shelter of the gulch already, or she could not have waited long for those clothes. A question which Rolt wanted to ask was suppressed before it left his lips. Instead he asked his wife how long it was since old Mary had given the house one of her "thorough scrubbing." "More than a month, I'm afraid, but you know they have all been away from the rancherie. Why? Do any of the rooms want scrubbing very badly, old man?" "Oh, no, not a bit. I make a good deal of mess with my boots in the bath room, but you and Kitty look after the top floor, don't you, little woman. It is always as clean as a new pin in spite of my efforts to the contrary." "What a delightful old humbug you are, Dick, where I am concerned," she said fondly. "I did not know that you would miss old Mary's ministrations. She cleans the whole house once a month, upstairs and down, but we ought to have kept up appearances at any rate in her absence. I will go and see to it at once." This was more than Rolt had bargained for. He had obtained the information he wanted without alarming her, but by suggesting a fault where he knew none existed. However, he followed his wife to the room, and was relieved to be shown all sorts of dirt and disorder, which he himself would never have noticed, but no trace could he find of that for which he was looking. Nothing had been touched; nothing that he could think of was missing. Even that damp outline on the boards had dried now. He wished he had examined it more carefully, but after all, it could not have been old Mary in his room, though she apparently did know the way to it. He paused for a long minute, and went over everything carefully with his eye. By George! his Winchester had gone. No it hadn't. There it was behind his oilskin, and

there was absolutely nothing else which she could have wanted. That face peering around the doorway must have been a sick man's fancy. [To be Continued.]

Water Notice.

I, George Cooper, of Kelowna, B.C., by occupation a farmer, give notice that I intend on the 23rd day of November, next, at eleven o'clock in the forenoon, to apply to the Water Commissioner at his office at Vernon, B.C., for a licence to take and use 2.8 cubic feet of water per second from Powers Creek, being Record No. 752. The water will be used on Lot 807 for irrigation purposes. I intend to apply at the same time for permission to store one hundred and thirty acre-feet of the said water in a reservoir at Fish Lake, at the head-waters of the south fork of Power Creek, under Section 52 (a), Chapter 48 Water Act, 1909. GEORGE COOPER, By his agent, W. L. D'Aeth. Dated this 23rd day of October, 1911. o27 n3 10 17

DEPARTMENT OF LANDS.

Water Branch.

IN the matter of the Board of Investigation created by Part III. of the "Water Act" for the determination of water rights existing on the 12th day of March, 1909, and in the matter of the following creeks in the Osoyoos Water District—

Aberdeen Lake, Beaver Lake, Beaver Jack Creek, Bonneau Creek, Bear Creek and its South Fork, Big Creek, Blue Spring Creek, Big Horn Creek, Bissette Creek, B. X. or Deep Creek, Beaver Lake, Bolagno Lake, Bath Creek, Big Creek, Burnyeat Creek, Brown Creek, Brewer Creek, Bold Range Creek, Bouchers Garden Spring, Cherry Creek, Cedar Creek, Coldstream Creek, Cranberry Creek, Clear Creek, Copper Creek, Cattail Lake, Clark or Horse Creek, Cashmere Creek, Canon Creek, Clover Creek, Cottonwood Springs, Commons Creek, Christies Creek, Deep Creek and its North Fork, Dailey Creek, Duck Lake, Duck Lake Creek, Diamond Dry Lake, Duncan Creek, Dry Creek, Deafy Creek, Davidson Creek, Darke's Creek, Darke's Lake, Deer Creek, Dutchman Creek, Echo Lake, Eight-mile Creek, Eneas Creek, Esparron Lake, Fish Lake, Fahni Lake, Fern Creek, Five-mile Creek, Finlay Creek, Fox Creek, Falls Creek, Fall Creek, Garnett Lake, Girod's Creek, Goose Lake, Gurney Creek, Granite Creek, Harris Creek, Haddo Lake, Hill or Verner Creek, Headwater Lake, Hog Gulch, Hill Creek, Irish or Coyotte Creek, Island Lake, or Lake of the Woods, Ireland Creek, Jones Creek, Jacob Creek, Jacks Creek, King Edward VII. Lake, Keep Creek, Larch Creek, Le Duc's Creek, Lapsley Creek, Louts Creek, Long Lake, Long Lake Creek, Lyon's Irrigation Ditch, Lulluwane or Vernon Creek, Latch Creek, Mud Lake, Mabel Lake, Menkins Creek, Mill Creek, Miller's Spring, Mountain Creek, Musgrove Creek, Madora Creek, McDougall Creek, Nicklen Creek, Nelson Creek, North Branch Creek, O'Keefe's Creek, Otter Creek, Otter Lake, Prairie Creek, Power's or Rashdale Creek, Porteous Creek, Pigeon Creek, Putman Creek, Perry Creek, Roata Creek, Rocky Gulch, Ribblesworth Creek, Rollings Lake, Six-mile Creek, Splder Creek, Shuswap River, Sheep Creek, Shingle Creek,

Swan Lake, Swan Lake Creek, Short's or Biche Creek, North Fork of Biche Creek, Siwash Creek, Smith's Creek, Stoney Creek, Slacks Creek, Shannon Lake, Speer Lake, Spruce Creek, Sucker Creek, Sugar Lake, Silver Spring Creek, Sow-Sap Creek, Spring Creek, Spallumcheen, Sturt's Creek, Styx Creek, Trout Creek, Trepannier Creek, Three-mile Creek, Tamarack Lake, Vance Creek, Veners Creek, Verner Creek, Vernon Creek, Woods or Torrent Creek, Whiteman Creek, White or Clearwater Creek,

and all unnamed springs, streams, creeks, ponds, gulches, and lakes tributary to or in the vicinity of the above named streams.

Take notice that each and every person, partnership, company, or municipality who, on the said 12th day of March, 1909, had water rights on any of the above-mentioned creeks, is directed to forward on or before the 30th day of November, 1911, to the Chief Water Commissioner at the Parliament Buildings at Victoria, a memorandum of the claim in writing as required by section 27 of the said Act as amended. Printed forms for such memorandum (Form No. 19) can be obtained from any of the Water Commissioners in the Province; And take notice that the said Board of Investigation intends to proceed upon such claims on or about the 10th day of January, 1912. After the claims have been tabulated by the Board, notice will be given of the places and days on which evidence will be heard at local points.

Dated at Victoria this 19th day of October, 1911.

J. F. ARMSTRONG,
Chairman.

Naramata Notes. Kaleden Comments

Mr. Jas. Young was a passenger to Penticton on Monday evening's boat.

Mrs. Morsch was a visitor to Peachland and Kelowna this week on business.

The church ladies are busy preparing for a Bazaar to be held early in December. But more of this later.

Messrs. Armour and Grimaldi have returned to town after several weeks in Summerland on contract work.

Mr. Carrol Aikins has returned to Winnipeg—but it is in the hope of again returning to pass part of the winter here.

Mrs. T. H. Boothe and son Edmund, were across the lake for a few days this week, the guests of Mrs. Thos. Dale.

Mr. J. Miller of Calgary, went out on Monday on his return from a couple of weeks vacation spent in various parts of the province.

Contractor Johnson announces that the Club House for the Naramata Ladies is well under way and that plastering will commence next Tuesday.

Shall there be a government telephone line run into Naramata from Penticton this fall? This is a question that seems likely to be answered shortly in the affirmative.

On Friday last Hon. Price Ellison, chairman of the Tax Commission, and his colleagues, paid their respects to our community coming round via Penticton from Summerland.

What about a herd law for Naramata? The presence of a number of unwelcome bovines down town recently has still further emphasized the nuisance caused by cattle running at large.

The young ladies of the Sigma Delta club are busy preparing for a masquerade ball on Halloween. A large attendance is expected to fill the Opera House upon the occasion of Tuesday night next.

Are there beavers at North Naramata? It would seem so. Recently Mr. Nuttall, road foreman, brought to town unmistakable marks of beavers' teeth. These specimens of wood carving are on view at the school.

J. Roy Colwell, a rising legal light of the law firm of Taylor & Colwell, of Portage la Prairie, on his way to Princeton, B. C. on business, stopped off for a day to have a look over his partner's personal property here.

Mrs. S. M. Pittman, of Kaleden, was in town over the week-end the guest of Mrs. C. McKay. During her stay in town, Mrs. Pittman found time to call upon and renew the friendship of many of her former Naramata friends.

Mr. J. B. Ireland, recently from Reston, Manitoba, has settled in town. Mr. Ireland has been fortunate in securing the Davies orchard, immediately below Mr. Hancock's and for the present will occupy the Robertson cottage recently vacated by Mr. Mitchell and family.

Mr. Hargrave, provincial manager of the Eastern Townships Bank, with his architect Mr. Fox, spent Wednesday of this week in town on business. Temporary quarters are being fitted up for the use of the branch office to be opened up here on November 1st. The coming of a bank to town marks an era in the history, growth and prosperity of Naramata.

TELEPHONE EXCHANGE FOR NARAMATA.

The Lakeshore Telephone Company has completed arrangements for the opening of an exchange in Naramata. Connection will be made with Penticton and from there to other exchanges on the Company's system.

A farewell and presentation was made to Mr. George Brimble, at the home of Mrs. Taylor at West Summerland on Tuesday evening. Quite a number of friends gathered to bid farewell and a supper given by Mrs. Taylor was greatly enjoyed. Mr. C. A. Marshall, chairman of the evening, made Mr. Brimble a presentation of a suitcase on behalf of those present. Votes of thanks were tendered Mrs. Taylor and also to Mr. Wm. Callan, who acted as collector of the necessary funds. Mr. Brimble boarded the Okanagan Wednesday morning on route to England, and from there will later sail to Australia.

Mr. D. P. Simpson is building an addition to his butcher shop.

Work on the new residences of Messrs. T. C. Preston and J. C. Findlay is progressing favorably.

Messrs. Frank Johnston and F. A. Lejeune took their departure for England on Monday last, the former by Ceylon and the latter direct.

The Kaleden Supply Company have placed an order for lumber to be used in the construction of a large freight shed which will be built near the new wharf.

On Sunday, the 15th inst., Rev. Mr. A. Vauche was absent from Kaleden, his place being taken by Mr. Huntley, of Penticton, who laboured for some years in China in connection with the Baptist Mission of England.

Miss Kathleen Harrison, daughter of Mr. and Mrs. Frank Harrison, was married to Reginald G. Tait in the Anglican Church, Penticton on the 16th inst. The groom was supported by Mr. Harry Corbett. Immediately after the ceremony the happy couple left for Montreal, where they will be the guests of Sir Melbourne and Lady Tait. On their return to British Columbia they will reside at Summerland. On behalf of the residents of Kaleden we extend to them all good wishes for a happy and prosperous future.

The Kaleden Women's Club, under the leadership of Mrs. D. D. Lapsley, has inaugurated a movement looking towards the establishment of a circulating library and reading room for men. Books have been ordered, and it is hoped that in a short time arrangements will be completed so that our young men, many of whom are obliged through lack of other accommodation, to live in tents, will have a comfortable room in which to spend two or three evenings a week, with books and magazines provided for their entertainment. This movement deserves—and will have—heartly support.

Work on Mr. Jas. Ritchie's hotel is progressing rapidly under the able direction of Mr. Harry Tomlin. The new hostelry, which is being constructed of concrete, measures forty-eight feet by sixty-eight feet; is four stories high and will contain thirty rooms, each splendidly furnished and the appointments throughout most modern, including hot water heating, electric light plant, running water and telephones in every room and an up-to-date laundry. There will also be two dining rooms, one for regular boarders, and one for transient guests. Spacious grounds surround the building which are to be made as beautiful as art-aided nature can make them. Mr. Ritchie is to be warmly commended in his endeavour to make this hotel second to none in the Valley. We might also add—there is to be no bar. Whether Mr. Ritchie's action in this regard is behind the times or slightly ahead of them, is largely a matter of viewpoint.

PROVINCIAL FRUIT INSPECTOR VISITS SUMMERLAND.

Provincial Fruit Inspector Thos. Cunningham paid Summerland a visit this week. Mr. Cunningham has been touring the province in the interests of horticulture. Recently he condemned and destroyed a shipment of American fruit sent into Kereemoos. The Inspector promises still further assistance for the British Columbia fruit grower from the provincial government.

Recently he was at Creston, in the Crow's Nest Pass, to receive a large power sprayer purchased by the provincial government. It came from London, Ontario, and proving highly satisfactory, another was immediately ordered by wire, to be sent to Grand Forks. Summerland is soon to receive one. These power sprayers are to be used in an educational way and the government will furnish an expert to give the fruit grower instruction in spraying. Altogether there will be about a dozen power machines distributed throughout the province for demonstration purposes. The Summerland orchards are reported to be in a healthy condition generally. Only in one or two cases is there slight trouble which it is expected will be easily overcome.

The Ratpayers' Association will meet at the Schoolhouse, West Summerland on Friday the 27th inst at eight p.m. All ratpayers are requested to be present. C. H. CORDY, President. o20 27

SUNDAY BOAT SERVICE.

Lower Lake Towns Vigorously Protest.

It has been given out that it is the purpose of the C. P. R. to run a Sunday train to and from Sicom Junction, to connect with the transcontinentals, and also to run the Steamer Okanagan to connect with these Sunday trains. As soon as this became known there was a general protest among a good many citizens in the lower lake district, and already a determined effort is on foot to have the order recalled. The plan as announced is to begin the new service the first Sunday in November. Already a large number of protests have been made to the C. P. R. General Superintendent F. S. Busted at Vancouver.

It is stated that Penticton has made a very strong protest against the movement. One of the arguments is that the members of the steamer crew who already have long hours would have no time whatever to spend at home. From Penticton along the lake to Kelowna the different church organizations have taken the matter in hand, and already a vigorous protest has been made by the Methodist and Baptist churches here, as well as a number of private individuals.

We have not been able to learn the position of the Board of Trade definitely, but from what can be learned they will probably favor the Sunday boat.

Revs. Hardy and Pattison have been active in the matter this week, and the latter announces that in a prelude to his sermons next Sunday morning and evening he will refer to the Sunday boat proposition.

APPLES FOR THE HOMELAND.

Good progress is being made in preparing the car of winter apples for the Home Land. Many are taking advantage of this opportunity to send a sample of Summerland fruit to friends at home. Mr. C. J. Thompson, who is making the shipment says he will easily have a carload.

By way of advertising Summerland there is being put in each box of apples a copy of the Board of Trade pamphlet.

YALE-CARIBOO BY-ELECTION.

The Cabinet Council have fixed upon November 4th as the date of nomination for the by-election made necessary by the acceptance of a portfolio by Hon. Martin Burrell. Polling is fixed for November 11th—one week after nominations. As it is not probable that he will be opposed, the minister's appointment will likely be confirmed on nomination day.

MORE APPLES FOR AUSTRALIA.

Recently one of Summerland's fruit growers received by wire an order for several hundred boxes of apples—Jonathan and Wineap—for shipment to Australia. The product of our orchards is receiving its due recognition.

ENDORSES MARTIN BURRELL.

British Columbia's representative in the Cabinet is endorsed by political opponents. The Hamilton Times (Liberal) says: "The probabilities are that the choice of Martin Burrell as Minister of Agriculture will be amply justified by the results. Mr. Burrell has many qualifications for this high office."

Hon. Martin Burrell was at Victoria Wednesday. He announced that the Duke of Connaught intends visiting B.C. next summer.

A large variety of samples of a particularly nice lot of Xmas Greetings may be seen at the Review Office. These are personal Greeting Folders with your own name, ranch name, and address. Hand colored. ORDER EARLY.

One hearty laugh together will bring enemies into closer communion of heart than hours spent on both sides in inward wrestling with the mental demon of uncharitable feeling.

Summerland.

Local News Items.

Mrs. C. M. Smith is visiting friends at Peachland.

Prof. Campbell has returned from the prairie provinces.

Mr. Hector Sutherland is spending a few days in Manitoba.

Mr. and Mrs. C. Fetherstonhaugh are now residents of Cowichan Bay, Vancouver Island.

Percy Thornber was a passenger on Friday morning's boat, going to Revelstoke on private business.

Miss Minnie Robson went out on Wednesday morning to Revelstoke making a short visit to Vernon en route.

Dr. and Mrs. Lipsett spent a few days at Peachland last week end, the guests of Mr. and Mrs. J. B. Robinson, returning Monday evening.

Miss Amy Brown returned on Tuesday evening from a vacation spent at Roger's Pass and other points along the main line of the C. P. R.

Don't forget the Boy Scout Concert to-night. The program is announced to begin at eight o'clock and will begin promptly at that hour.

Rev. F. W. Pattison is expecting his mother to arrive by Monday's boat. Mrs. Pattison has been for some months with sons and daughters in the East.

Mrs. Amanda MacNeil, relict of the late Rev. Donald MacNeil, and for several years a resident of Peachland, died at Burnaby Wednesday, aged 70 years.

W. J. Robinson is making an improvement in his hot house on the property recently purchased from his brother. He has had a modern heating plant installed.

Bobby Hatfield, who is suffering from a badly broken thigh and other injuries as a result of an accident while going to school, is reported as progressing favorably.

Friends of Alex. Steven will be glad to hear that he is about again and rapidly recovering from an attack of lumbago, with which he has been confined to his home for a few days.

Harvest Home Services will be held in the Baptist churches next Sunday, West Summerland in morning, in the Lakefront church at night. Everybody is cordially welcomed.

The local football season will be opened by a game of Rugby, College v. Kelowna, Thanksgiving Day, Monday 30th, at 2 p.m. The game will be played on the college campus, and an admission fee of 25c will be charged.

Rev. F. W. Hardy will conduct Harvest Home Services at Kelowna next Sunday. His work here will be taken by Rev. Wm. Armstrong, of Okanagan College, who will preach down town in the morning and at West Summerland in the evening.

T. Beavis and family moved to their new home on Beach Avenue this week. Mr. Beavis' cottage on the hill is now occupied by Mr. Wheeler whose family recently arrived from New York. Mr. Wheeler is interested in the Garnett Valley Sawmill.

Dr. E. W. Sawyer, Principal of Okanagan College, with Mrs. Sawyer, has gone to the coast cities where he will spend some weeks in the interests of the Baptist educational institution. Mrs. Sawyer will accompany her husband throughout the trip.

Rev. F. Miller of Penticton, preached in the Presbyterian Church, last Sunday. A business meeting of the session was also held to discuss plans for the future. There may possibly be an amalgamation with the Methodists for the time being at least.

The new office building on Ninth Street, opposite the Meat Market, is rapidly nearing completion. This building will be occupied by F. C. Manchester, representing the Summerland Development Company, and the Okanagan Trust Company, and by W. J. Robinson.

The Ladies Auxiliary met with the Hospital Board this week. It was decided this board would no longer continue to run the institution unless unexpected funds became available. The ladies suggested a person who might be gotten to take over the place furnished and run it as a private hospital. They are now in correspondence with this lady and this plan may be arranged.
