DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 4, No. 40

SUMMERLAND, B.C., MAY 3, 1912.

Whole No. 194

Lowering of Water of Okanagan Lake Objected To.

Strong Petition Against Proposition.

Matter Laid Before Water Commission at Vernon.

A deputation headed by Mr. Leckie-Ewing, of Okanagan Landing, and Mr. Dudley Ward, M.P. for Southampton, England, who is the owner of property on Okanagan Lake, waited upon the Water Commissioners sitting at Vernon, and submitted the following petition, which is a copy of one sent to the Hon. F. D. Monk, and the Hon. Martin Burrell:

"To the Honorable F. D. Monk, Minister of Public Works, Ottawa, and—

To the Honorable Martin Burrell, Minister of Agriculture, Ottawa, and—

We, the undersigned residents on Okanagan Lake Shore, or its neighborhood, or being interested therein, hereby respectfully request that the dredging operations now going on in Okanagan River be stopped forthwith, for the following obvious reasons:

1.—That they have caused, and are still causing a fall in the level of the lake.

2.—That the lowering of the lake entirely spoils the homes of the settlers on its shores, and in most cases renders them unfit to live in.

3.—That residences which are wholly dependent on the lake for their water, are now being deprived of a convenient supply.

4.—That in consequence of the lowering of springs and seepage in proportion to the fall of the lake, orchards and market gardens are being seriously affected, because of the fact that they are solely dependent on the moisture from these sources.

5.—That wharves, both public and private, and boat anchorages, are being spoilt, and, owing to the shallowness of the water, will have to be rebuilt.

6.—That shade trees, which are

always so attractive to the summer visitor, are rapidly dying off for want of sufficient moisture.

7.—That long, unsightly stretches of mud and rock are being formed between the houses and the lake, and from a sanitary point of view, this is most undesirable, especially in such places as Okanagan Landing and those similarly situated.

Finally, your petitioners consider that if it is desired to deepen the channel for navigation purposes, dredging is futile; water finds its own level and in due course the lake will fall to the level of the river bed.

We, therefore, respectfully request that the lake be raised to its former level (about three feet), and that navigation be accomplished by building a suitable lock, or otherwise."

The Commission appeared to agree with the contention of the petitioners, and said that the matter would be taken up with the Ottawa Government.

At the conclusion of the session on Tuesday, a cordial vote of thanks to the Commissioners for the careful and courteous manner in which their duties had been performed was moved by H. A. Heggie and seconded by R. V. Clement.

During their visit to the Okanagan the Commissioners have visited the various irrigation systems of the Valley, including Shuswap Falls, and have made themselves thoroughly acquainted with local conditions. They left on Tuesday for Victoria, and will return later to take up the matter of records in the Railway Belt, as soon as the agreement between the Dominion and Provincial Governments in this matter is completed.

A MUSICAL TREAT.

Summerland was treated with some excellent music on Sunday, when the Toronto Glee Club spent the day here, singing in the Methodist Church in the morning, and giving a sacred concert in Empire Hall in the afternoon. The hall was well filled, and the musicians appeared to best advantage in their sympathetic rendition of some choice selections of church music. The large audience was deeply moved by the rich melodies as interpreted by first class artists. From the opening number, "Lead, Kindly Light," to the closing quartette, "Sweet Sabbath Eve," every song was an inspiration and a delight. H. Ruthven MacDonald, basso and conductor of the company, sang beautifully the solo, "Building For Eternity," with much dramatic effect.

Those who attended the performance of the Club on Saturday night were greatly surprised when they realized that they were being entertained by a much better company of musicians than usually visits this Valley, and, no doubt, their delight was further increased when it was announced from the stage that a sacred concert would be given on Sunday afternoon. It was evident from the greatly increased attendance on that occasion that Summerland people misjudged the quality of the troupe that was advertised to appear.

OPEN SEASON FOR FISH.

There seems to be some misunderstanding on the part of some of our local sportsmen as to the legal open season for trout fishing. The following extracts from a copy of the act will settle any dispute: "No one shall take trout of any kind from the 15th of November in each year to the 25th of March following, except in the waters of the interior portion of the province east of the 120th meridian, where no one shall take trout of any kind from the 15th of November in each year to the 30th day of April following, both days inclusive. No trout of any kind under eight inches in length shall be taken from the waters of British Columbia, and, if taken, shall be immediately returned to the water alive and uninjured. No trout under three pounds in weight shall be bought, sold or exposed for sale in British Columbia, nor shall any trout be bought, sold or exposed for sale during the closed season provided therein."

As we are east of the 120th meridian fishing here commences May 1st.

Mrs. E. W. Bateman, of Vancouver, and daughter Jessie, arrived in Summerland by last Sunday's boat, being called hither by the serious illness of Mrs. Bateman's mother, Mrs. Dale, sen., who has since passed away.

College Boys Meet Oroville and Penticton in Double-header.

Lose to Former But Defeat the Latter.

Oroville Fisher Holds Locals to Four Hits, but College Score Twice on Errors.

The college boys wound up their baseball schedule for 1912 on Thursday last with a double header, played on the campus, against the Oroville, Wash., and the Penticton clubs. The Oroville aggregation proved a special attraction on account of the closeness of their home game with the students, and a crowd of about 350 were present when Umpire Syer called "Play Ball." The afternoon was marred by a heavy rainstorm in the fifth inning, which compelled the suspension of play for about fifteen minutes, and left the diamond in a rather soggy condition. Mitchell and Ryan for Oroville, and MacDougall and Corey for Okanagan College, were the batteries announced, and with both teams keyed to a high tension, one of the fastest encounters of the year commenced. Mitchell, reputedly a Spokane City Leaguer, had the College hitters at his mercy during the entire matinee. He yielded but four hits, only one of which figured in the run getting, and then shaky play contributed heavily to the score. After Morlock was passed in the first, Stevens hit to second, forcing the shortstop; Stevens promptly stole, and scored on two consecutive errors by the Oroville backstop. In the sixth, Cunningham singled, stole second, and third, and romped home when the catcher threw into left field in an endeavor to catch him off third. This ended all the run getting for the College boys. A game finish in the ninth when Ryan singled, took third on a wild throw, after which Dupont drew a pass, was almost productive, but Mitchell put on the clamps and Menzies perished on strikes. MacDougall, doing mound duty for the Collegians, was hit frequently, but was very effective in pinches. The first Oroville tally came in the second, on Powell's hit, and Cunningham's miscue, when a fast grounder danced through the second baseman. Again in the fifth, Cunningham, playing with a badly dislocated finger, paved the way for two tallies with an error, which was pardonable

under the circumstances, assisting the runners across the pan. In the seventh, after Hart was given a life at first, Mitchell tripled and subsequently scored, and thereafter the most desperate efforts of the College offense were futile. Bright snappy fielding by Morelock, Ryan and Dupont featured, while Mitchell's work was pre-eminent for the visitors. Final score 5-2 for Oroville.

The second game, against Penticton, commenced about 5.15, and on account of the lateness of the hour was shortened to six innings. Syer and Russell opposed MacDougall who again took up the burden of twirling for this encounter also, and Stevens who replaced Corey. Undaunted by their earlier defeat, the maroons jumped in with vim and mowed down the opposition until the fourth when a combination of hits, errors and poor judgment counted thrice for the visitors. This was all, however, for Penticton. Cunningham was worked around and across in the third for the students, and this was nearly all for the home bunch. Syer's curve was working well, and in the closing spasm with the score 3-1 against them matters were desperate. But the fighting college spirit that has ever manifested itself was present, and a garrison finish brought the crowd to their feet cheering madly. MacDougall beat out a bunt, and Morlock was passed, MacDougall taking third. The squeeze play was attempted, but Stevens popped out. Morelock cleverly drew a throw to catch him at second and MacDougall galloped across. Morlock scored a moment later on Cunningham's drive, and the manager atoned for all previous defects by stealing third, from whence a moment later a pass ball sent him home, and the game was stowed away beyond recall. The features of the second combat was the beautiful work of Finniss at third and a circus catch by Ryan in centre, with his subsequent throw to first to complete a double play. Final score 4-3 for the College.

SCENE IN PEACH ORCHARD PARK.

What is Summerland going to do this season towards cleaning and beautifying this park, its only bit of primeval forest? It would not be difficult or expensive to have a good sward of green, a few seats, swings, etc., which would make it an ideal spot in which tired mothers and their little ones could enjoy an afternoon during the hot weather

GROWING 100 VARIETIES OF POTATOES.

Lethbridge, Alta., May 2.—Tillman Reuter, member of the executive committee of the International Dry Farming Congress for Oregon, informs the executive secretary-treasurer, J. T. Burns, that Oregon will be represented at the Dry Farmed Product Exposition here October 21-26 next, not only by himself, but probably by several districts, and possibly by the Oregon State Agricultural College at Corvallis.

Mr. Reuter has reserved 75 feet of space for an individual exhibit and will compete for all prizes possible. He writes that he will enter probably 100 varieties of potatoes, and that while he does not desire to compete single-handed against the government exhibit, he is willing to take his chances, and serves notice to the Canadian farmers that they must "go some" to beat him in vegetables this fall.

He won the largest number of prizes of any exhibitor at the Exposition at Spokane, and at Colorado Springs last year he won 26 prizes. One of his feature exhibits will be watermelons, and he promises to bring to Lethbridge some watermelons that will make Chairman McNichol, of the Exposition Committee devote one whole day to a watermelon food.

Mr. Reuter is already putting in his crop and he reports conditions in Oregon as excellent. He recently received a call from President Kerr and Professor Scudder of the Oregon State Agricultural College, at Corvallis, who, after inspecting his large dry farm expressed themselves desirous of establishing a dry farming experimental station in his vicinity. The dry farming movement is growing rapidly, he says, and he looks forward to a large delegation from Oregon attending the Seventh International Dry Farming Congress at Lethbridge in October.

Offers Library to Farmers' Institute.

Up to Each Individual Member to Assist the Secretary.

Summerland Should Work For The Prize.

The following letter in what a very handsome offer is made to the local Farmers' Institute speaks for itself. Summerland has all the essentials necessary to the capturing of this nucleus of a library for Institute work, including a hustling secretary—and it is up to all the members of the organization together with its supporters to get busy.

The letter is addressed to the secretary and is as follows:

Department of Agriculture, Victoria, B.C., 17th April, 1912.

To the Secretaries of Farmers' Institutes in B.C.

Sir,—With the rapid growth of the Institutes, and the increased membership, I am desirous of providing some scheme whereby the full interest of the members may be obtained in so far as promoting the aims and objects for which Institutes have been formed throughout the Province.

In this respect, I have decided to award a set of books dealing with agriculture, for the best returns received from the Institutes at the end of the present year. The books that I purpose awarding will form the nucleus of a library for each Institute, and arrangements will have to be made by the executive committees of the successful Institutes as to having the books placed on file so that they may be available for the perusal of the members at any time they may so desire.

A complete set of books will be awarded for the best results in each of the following:—

1. For the most complete set of reports, statement of accounts, and

membership lists sent in during the year by any Institute.

2. For the largest number of new members secured during 1912.

3. For the best essay dealing with the subject of crops by any member of an Institute at any of the meetings of said Institute.

You can readily see that my desire is to create more enthusiasm among the members, and to get them to apply themselves more keenly to the work of their Institutes by assisting in writing essays, and personally reading same at meetings of the Institute from time to time.

Then again, it will encourage the Secretaries to do their very utmost to perform their secretarial duties in an expeditious and entirely satisfactory manner.

Trusting this scheme will appeal to your executive and that you will put forth every effort to try and secure one or more sets of the books to be awarded in connection with the competitions.

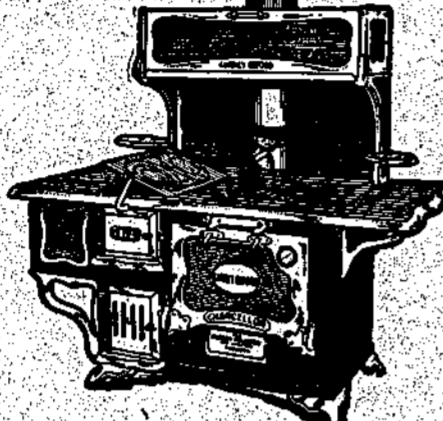

I am Sir,
Your obedient servant,
WM. E. SCOTT,
Superintendent of Institutes.

HOSPITAL DONATIONS.

The Matron of the Hospital takes this opportunity of thanking donors for material assistance to the hospital as follows:

Mr. A. Richardson, lumber for walk from street.
Mr. A. B. Elliott, nails for same.
Mrs. R. Stewart, cake and dust broom.
Mrs. J. Downton, preserves.
Mrs. A. L. Morland, preserves.

I CARRY A FULL LINE OF
Farm Implements
 Including WAGONS, CULTIVATORS, PLOWS, HARROWS, MOWERS and RAKES, &c., &c., together with REPAIRS of all kinds.
 BARNET REFRIGERATORS, TRUCK SCALES, and INCUBATORS.
Flour & Feed of all kinds including POULTRY SUPPLIES
 Call in and see us, we shall be glad to show you what we have.
 WOOD YARD and TEAMING in connection.
 Phone, Violet 8.

THE HOME CIRCLE.
 Crude Thoughts From the Editorial Pen.

THE IDEAL HOME.
 (The following is our second contribution on the Ideal Home. We received many compliments on the first one published, and the following is certainly good.)—Editor.

The head of my "ideal home" is a father possessing firmness of character without being a tyrant. He gives the best that he is, socially and mentally, to his family. The mother is patient, kind and courageous, the children obedient. The home is not the home of wealth, neither is it the home of poverty. Order and system prevail in every department. The radiance of truth rests on every face. There is refinement and culture. The mother tongue is spoken in all its purity. The ideal home is a Christian home. The Bible is read and its precepts are lived. Books and papers are to be seen everywhere. The books are selected with care so that they may entertain and instruct without corrupting the reader. No profanity or slang is heard here. The cup that inebriates has never had a place in this home. The children honor their parents and the parents respect the rights of their children, and life is made as bright as possible for them. They are early taught to love the beautiful in art as well as in nature. Flowers and music help to refine and beautify their home. This family is taught to deal justly and they weigh their fellow man by what he is and not by what he has. This "ideal home" is so attractive that the children are not tempted to spend their evenings on the street or in doubtful places of amusement.

THERE'S ROOM AT THE BOTTOM.
 Many and weighty are the editorials that have been written on "There Is Always Room At The Top." Our greatest writers have pointed young men to the top round of the ladder. This is well, but it is time to call a halt. There are too many at the top and none at the bottom.

"There's room at the top has been preached by our preachers; Been sung by our poets and taught by our teachers, Until by such teaching, grown wiser and sadder, We have almost forgotten the foot of life's ladder."
 Young men have a desire to enter some profession. They imagine that only lawyers, editors or politicians ever reach the top of the ladder. Young ladies who have from youth been pointed to the top of the ladder, shun the dish pan and the broom as they would the cholera. The piano and music books, to speak French correctly, and to waltz gracefully, they consider only stepping stones leading to the top of the ladder. The time has come when it is almost impossible to find a young man or woman at the foot of the ladder, willing to labor at any calling that is honorable and earn living by the sweat of their brow.

"There's room at the bottom; O men of stations! Be not drawn aside by their trite iterations From the commonplace duties which lie at the bottom. High places are quite hard to hold when you've got 'em."
 Multiplied scores of young men who are complete failures in the various professions would have successfully followed plow handles, or as engineers, might now be "holding down" a fast mail train. But too many imagine they cannot climb the ladder if their fingers are soiled. They forget that
 "The road at the top leads over rockiest ledges, Who climbs must hold on by the raggedest edges, And many a man who has missed his vocation Is brought to himself by a bad dislocation."

LET US LEARN to tip our hats as politely to the young lady who sews for her living or earns it by any honest toil as to the one who teaches French or chews gum in seven different languages. Let us give as warm a clasp of the hand to the honest toiler of the soil, the fireman or brakeman as we do to the doctor or lawyer. Let us recognize honesty and industry wherever it is found, and the time will soon come when there will be an army of bright, intelligent honest young men and women at the bottom of the ladder, ready to labor at any honorable calling. Let us remember that the most beautiful lives have blossomed in the darkest places, as lilies full of fragrance in the slimy, stagnant waters. Wealth, birth and official station may and do secure their possessors an extreme, superficial courtesy; but they never did nor never can command the reverence of the heart. The most beautiful flowers are found hidden in some shady nook; so the most beautiful lives are often found hidden in an humble home at the foot of the ladder.

PROFANITY is the foul odor of an impure heart.
SCOLDING and nagging never mended anything. They have ruined the peace of unnumbered families.
THERE ARE a thousand ways of making other people happy, and you have only to look about to find them.
IF A MAN dares to live within his means, and is resolute in his purpose not to appear more than he really is, let him be applauded. There is something fresh and rare in such an example.

TRY IT.
 Help a brother on his way,
 Give a lifting hand today,
 Say the kindly word of cheer,
 Help to dry the mourner's tear,
 When you've done a kindness real,
 See yourself how good you feel.
 Do you meet a fellow down,
 Do not greet him with a frown;
 Do not turn away in scorn,
 Grip his hand and say, "Good Morn!"
 Try his little wounds to heal,
 See yourself how good you feel.
 There's no joy compared to this,
 Earth can no'er bestow such bliss,
 Help another on his way,
 Have a cheerful word to say,
 Then when evening shadows steal,
 See yourself how good you feel.
 —Sacred Heart Review.

MEDITERRANEAN FLY.
 Ottawa, May 2.—In addition to the regulations prohibiting the importation of unannounced fruits and vegetables from Hawaii as a precaution against the incoming of the Mediterranean fruit fly, the government has passed an order in council requiring importers of nursery stock and transportation companies and customs brokers engaged in the importation of nursery stock to notify the Dominion entomologist of all such imports arriving. The importers are also required to notify the entomologist, giving all particulars within five days of ordering. This order does not apply to nursery stock imported into British Columbia by residents of that province.

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion. LOCAL NOTICES or Readers, immediately following regular locale, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 3, 1912.

ASSESSMENT.

TO THOSE who still hold to the exploded fallacy that under valuation of their property means correspondingly low taxes, the local system of assessment should be one worthy of commendation. They cannot readily realize the equitable advantages of a universal assessment to full value, and perhaps at first sight these are not very apparent.

There is no reason why the assessment of a property should not be its market value, or vice-versa. The value of land to a buyer should coincide with its worth to the municipality. The discrepancy that usually exists between these two figures may be accounted for in two ways. Either the selling values are inflated, or the assessment is low. This is a plain, bald statement of fact. The fundamental principle of taxation on land values—the exemption of improvements—is not called into question. The contention raised is this: either Summerland property is worth its "market" price, or it is not. Presuming it is, then it is worth that sum to the municipality for purposes of taxation, for values should be constant.

The assessment of land up to its legitimate market value would work no hardship on the tax payer. On the contrary, granted that the municipal revenue required to be raised remained stationary, the individual tax rate would drop, since there would be a larger amount upon which to raise revenue. Then, as now, the tax rate would rise only as the levy increased.

The argument might be advanced that it is not the land values, but the non-taxable improvements, that are at present under assessed. If this be so, then what objection can there be to raising their value, till the total figure approximates that placed on the property by its owner? If, however, it is the actual land value that is placed too low, then it would be to the advantage of Summerland as a municipality to have an adjustment made. The assessment roll would then be a trustworthy guide in transactions involving real property, and a true index of the wealth that Summerland soil represents.

GETTING THE FIGURES.

An important extension of the departmental work is being undertaken this year by the Provincial Department of Agriculture. The need of more accurate statistics has been felt and under the auspices of the Department the Statistical Branch has been reorganized with a view to having this work successfully carried out. The secretaries of the various Farmers' Institutes throughout the Provinces are to be appointed as enumerators to gather statistics pertaining to the actual state of affairs prevailing in their respective districts from time to time. A small fee will be paid for the services which will include the distribution of report forms among the agricultural population of their districts, the gathering and summarizing of same, and the furnishing of such information to the Statistics Branch of the Department as may be required from time to time. It is the purpose of the Department this year to have three report forms sent out in the immediate future, one requiring the acreage under cultivation, another seeking information pertaining to the estimated yield likely to be produced on this acreage under average conditions, and the third will be a report of the actual yield with the prevailing market prices. The Department is to be complimented upon the thoroughness with which it is fulfilling its duties in serving the people, and in every way fostering our greatest national industry.

HOW WE CAN HELP YOU.

DID YOU EVER stop to think what a great labor saver the home paper is as a means of communication with absent friends? "Write to me often!" is the last command the one breaking away from home ties so often gives to those left behind and receives from those left at home when going to a new place. In the rush and hurry of everyday life very few people nowadays have time to devote to correspondence of the leisurely kind the people of other days kept up with such unvarying punctuality. And here is where the local paper saves a world of trouble. It is better than a letter, too, for it contains much that a letter would not. Items of interest are in it that the writer of a letter might not know of or overlook. It is wonderful how eagerly one devours a home paper when a stranger in a strange land. And equally interested in your local paper are those who are interested in you. As the people you did not know intimately while at home become of absorbing interest to you when you read of them so will your distant friends take a keen interest in those who figure prominently or otherwise in your home affairs. If there is someone to whom you should write, try sending them this paper regularly and a letter occasionally and see if they do not appreciate the favor of the paper.

POLITENESS IN THE PUBLIC SCHOOLS.

IT IS BETTER for a schoolboy or girl to enter life with gentle, courteous manners than to know the names of all the British sovereigns or the location of all the world's important cities. The charge is brought against the public schools that the pupils are rude and jostling; that they are harsh and discourteous in their manner to strangers and to one another. It is quite compatible with robust training and strict discipline that the public school teacher should have the low, gentle voice, the gracious, magnetic manner. The pupils will catch some-

thing of the gentleness, and besides, object lessons and stories should be constantly placed before them, to produce this result. If there is no time, then better leave out some of the mechanical drilling and memorizing.

REDUCED RATES ON FRUIT.

AS A RULE, the Canadian Pacific Railway does out its concessions to the public very meagrely. Such a huge corporation can afford to remain indifferent to the demands of a section of those whom circumstance compels to be their patrons, and they do so—until it is clearly apparent that the public convenience can be served with profit. Then they hasten. It is hardly to their credit that they seldom, if ever in fact, anticipate improvements in the service, but usually wait till the public clamor is loud enough to be heard far and wide. On this account the reduction in the freight rates on fruit and vegetables announced elsewhere in this issue is more than welcome. True, these reductions have not come before they were needed, but the C.P.R. granted them without any pressure being needed from the Railway Commissioners, that body whose duties are to watch the interests of the railway users. The company apparently considers that the debt it owed to the people's government, for the very material assistance given in its early years, is now liquidated; for there is no convenience given without adequate profit can be derived from it.

ALL SECTIONS and all classes will benefit by better roads. Few movements are as truly national in as many ways as the flourishing cause of highway improvement.

HATCHING fish by artificial means to stock the waters of Canada is engaged in on a large scale by the Dominion Government. In 1909 the Dominion Fish Hatcheries planted no fewer than 1,024,282,000 fry in various waters throughout the country. Of the 37 hatcheries now in operation, British Columbia and Quebec have eight each, Nova Scotia, New Brunswick and Ontario have five each, and Manitoba and Prince Edward Island have each three.

THAT BRITISH COLUMBIA is a very wealthy province is generally understood. The annual revenue of the provincial government has been rapidly increasing for some years, but how the total now compares with that of other provinces will probably surprise many. In point of fact, the budget is now the largest of those of the Canadian provinces. Its revenue for the past fiscal year was \$10,500,000. This is larger than that of the province of Ontario with six times the population, and a revenue which in 1910 amounted to \$9,000,000; much larger than that of Quebec (\$6,000,000), with five times the population; considerably in advance of the combined three prairie provinces, with three times the population, and three times that of the three maritime provinces taken together and having double the population.

Sir Frederic Cowen's Cantata,

"The Rose Maiden,"

will be given in

INJUNCTION SERVED.

Powder Removed to Right-of-Way.

Messrs. Carlson & Co, the railway contractors, who had arranged to build a powder house near the town "dump," were served with an injunction last Saturday morning. The company's representative declares that there was absolutely no danger, but he took his instructions to move very pleasantly.

Mr. A. E. Hespeler, who immediately got busy upon hearing of the purpose of the company to store explosives in that vicinity, after a vain attempt to have the municipality prevent the storage of powder there, telephoned to his solicitors in Penticton, instructing them to put the matter before the judge then presiding over the court there, and later in the day visited the court himself. It was not until eight o'clock, however, that the judge issued the necessary papers.

Mr. Seehaver, when served with the injunction, accepted the order laughingly, and said he would of course move the powder to some point along the right-of-way, just where he did not know. He did not think he was going contrary to law in putting the powder where he did, and there had been no intimation made to him of any dissatisfaction with the location of the magazine. All the powder has now been removed.

Mrs. McCollough is visiting Mrs. D. McKay, Naramata.

Mr. R. H. Agur returned from the Coast on Monday's boat.

Mrs. Jack Conway, of Kelowna, is visiting her parents, Mr. and Mrs. J. E. Phinney.

Mr. and Mrs. P. S. Wood were the guests of Mr. and Mrs. Hancock, Naramata, for the week-end.

Mrs. K. S. Hogg has gone to Hedley, whither she has been called by the serious illness of a friend.

Ed. Garnett, who recently sold his town property to C. H. Cordy, has removed to his fruit lot on the benches.

Mrs. R. H. Helmer has returned from a visit to Vernon, where she was the guest of her sister, Mrs. H. Lang.

Over four miles of grading are completed and ready for the steel on the Kettle Valley Railway between Summerland and Penticton.

Work has now commenced on Naramata's new industry—the bottling works—where soda water and soft drinks will be manufactured.

Encouraging reports continue to come in from the local silver mine. A trial shipment of ore is to be shipped to the smelter at Trail shortly and the results will be awaited with interest.

W. J. Docking, of Trout Creek, accompanied by his sister, Mrs. S. Adams, of Garnett Valley, left on Tuesday for their former home in Manitoba, having been called there because of the serious illness of their father.

The members of S. Stephen's Guild propose holding a Strawberry and Cream Fete some time in June. There will be a small Sale of Work, supper will be served, and those who like the lake by moonlight will be provided with boats for short excursions. Mrs. R. H. Agur has kindly lent her Boathouse for the occasion.

Mr. Rowley, proprietor of the local jewelry store, arrived with his wife on Thursday's boat. Mr. T. C. Orr, who has managed the business up to the present, expresses himself as delighted to be free to devote his time and energies to his fruit lot. Mr. and Mrs. Rowley will occupy the rooms till now occupied by Mr. and Mrs. Orr.

The provincial department of agriculture, under instructions from Hon. Price Ellison, is arranging to send a fine exhibit of British Columbia fruit and vegetables, thoroughly representative of all parts of the province, to the Dry Farming Products Exhibition, to be held in Lethbridge, Alta., on the 21st of October, and continuing until the 26th of that month.

Little Margaret Hardy caused her parents, Rev. F. W. and Mrs. Hardy, some anxious hours this week. The little one, by climbing up to a high shelf procured some matches, from which she sucked all the phosphorus and sulphur. Little was thought of it at the time, but some hours later she became very ill, and for a time there was much alarm. We are glad, however, to be able to report that she is now rapidly recovering.

Arrangements have been made by the Department of Agriculture to have Mr. L. Harris, Foul Brood Inspector, visit this district, for the purpose of lecturing on Bee-Keeping and demonstrating the handling of Bee Hives, etc. Mr. Harris will be in Summerland on the 18th inst. and in Naramata on the 20th. It is expected that while here he will also carry out his official duties of Hive Inspector. Any persons keeping bees will kindly notify either Mr. Tait, secretary of the Farmers' Institute, or Mr. Pollock, secretary of the Agricultural Association.

The secretary of the Farmers' Institute has received a reply from the secretary of the Kelowna Canning Co., in reference to the suggestion of the Institute that the company operate the local cannery this season. In his acknowledgment the secretary does not hold out much encouragement, and thinks it not likely that his company will operate here. The resolution passed at the Farmers' Institute will be laid before the directors at their next meeting. It is the opinion of the Kelowna office that the Summerland output can this season be taken care of by either the Penticton or Kelowna Canneries.

Local News Items.

Delightful spring showers! Ideal growing weather.

Dr. E. W. Sawyer came in from a trip to the Coast on Tuesday night.

Mr. G. A. McWilliams made a trip to Vernon Tuesday returning on Wednesday night's boat.

Messrs. Alex. and John Steuart are at the Coast this week, having been called there by the death of their sister, Mrs. Spaulding.

T. E. Moore has been confined to his home for the last two days with a lame back, the result of a wetting while driving in the rain.

The College boys were too much for the Peachland team in last Saturday's ball game. 8-2 in favor of the College was the final score.

Rev. H. A. Solly is this week attending a committee meeting of the Anglican Synod at Nelson. Messrs. Greene, of Kelowna, and Seager, of Vernon, went on the same mission.

Members of the Anglican denomination will be interested to learn that Rev. Mr. Seager, of Vernon, has been chosen principal of the new church university to be opened in Vancouver.

The Council will meet as the Court of Revision on Monday. There are a number of appeals to be dealt with. It is probable also that the Dog Tax By-law will be finally acted upon at that meeting.

Mrs. Merrill, of Winnebago, Minnesota, is this week the guest of her daughter, Mrs. Wellington Watson. Mrs. Merrill is accompanied by her niece, Miss Tait, of Prince Albert.

A large number of railway construction men, including sub-contractors and laborers, arrived from the south this (Friday) morning on the boat. Strange languages will henceforth be quite common among us.

The Board of School Trustees will hold their regular meeting at Saturday afternoon at three o'clock, instead of on Monday morning as usual. The object of this change is to give the trustees and teachers an opportunity to get better acquainted, and they will meet in the Central School for this purpose.

Preliminary work has been started for the double tracking of the C. P. R. across this province from Calgary to Vancouver. This will be the most extensive improvement undertaken by the C. P. R. since the building of the main line, and will involve the expenditure of millions of dollars. Where better grades and curves can be had the present main line will not be strictly paralleled.

DIED—At West Summerland, on the morning of May 3, Sarah Dale, relict of the late George Dale, who died four years ago. Two sons and two daughters survive, Messrs. Thomas and John Dale, and Miss Annie Dale, all of West Summerland, and Mrs. E. W. Bateman, of Vancouver.

Miss Arleigh Marks, daughter of the distinguished comedian, Tom Marks, in the soubrette role of "His Irish Honor," Empire Hall, to-night.

Commercial Onion Culture.

Concluded From Our Issue Of April 19.

By P. E. FRENCH, Assistant Provincial Horticulturist.

CULTIVATION AND WEEDING.

Cultivation should begin as soon as the location of the rows can be determined. If it is necessary to run the wheel-hoe before the onions are up, you can generally see the mark left by the roller of the seed drill. The ground should be frequently stirred by means of the wheel-hoe, which straddles the row of onions, leaving only about 1 1/2 inches wide to weed by hand. It is always desirable to stir the surface of the ground as soon as possible after a rain, to prevent the formation of a crust on the surface. The weeds in between the plants in the rows can be pulled when necessary. If the wheel-hoe is carefully used the expense of hand weeding is lessened considerably.

In cultivating onions the earth should be hoed away from, rather than towards, the plants.

THINNING.

About the time of the second weeding by hand the onions should be thinned to about one inch apart in the rows. Where the climate and soil are favorable for the growing of onions, there is no need of thinning more than this. Onions have the quality of crowding out to the sides, so that they may grow close together and still be of good size.

IRRIGATION.

Where irrigation is practised, care should be taken not to apply too much water. When the plants are in need of water apply in alternate rows, giving the ground a fair soaking, and then shut off the water, so that the sun can do his part. Cultivation should follow each irrigation as soon as the soil is dry enough.

HARVESTING.

If the onion tops do not fall down flat on the ground at the proper time about the middle of August to the middle of September, it is good practice to go over the patch and pound the upright ones down.

Harvesting should commence as soon as most of the necks have turned yellow and are considerably wilted. Do not delay harvesting simply because there may be some green tops when the main crop is ready. If left too long the bulbs are liable to make new roots, especially if the weather is damp, and the quality of the onion is injured. Pull the onions by hand and deposit them in windrows containing the onions from two or three rows. If they are taken out with rakes they are apt to be bruised, and thus will not keep as well. The crop is left in the windrows until fully cured, which takes about ten days in good weather. During this time they should be topped with knives, cutting the tops off about 1/2 inch from the bulb. On bright days the curing will be hastened by stirring with a wooden rake, being careful not to bruise the bulbs. If there is danger of a rainy season, the onions may be cured in open sheds or on the barn floor. After the crop is cured the bulbs should be sorted and properly stored.

All weeds and refuse should be removed from the field, and, if possible, a fall crop grown.

MARKETING.

Onions should be sold as soon as a fair price can be obtained, and not stored for the winter, unless there is a very good chance of a rise. If you have an extra favorable season, they may be shipped right from the field, but it is generally advisable to empty them out in open sheds and pick them over again. All the small onions should be picked out and sold separately for pickling purposes.

WINTER STORING.

It is not advisable for the inexperienced grower to try winter storing. Unless thoroughly cured, many bulbs will sprout, while others with only a slight bruise will decay. There will be more or less shrinkage, and a large percentage of the onions will be lost if proper care is not given to ventilating and maintaining the desired temperature. However, it is desirable that growers should understand the conditions necessary to keep onions through the winter months, so that they might store part of their crop. I would not advise storing very many unless one has the facilities for doing so. It is essential that the bulbs should be well matured, thoroughly cured, not bruised, and in a perfectly dormant state for successful winter storing.

Onions may be wintered by two different processes—namely, by freezing the bulbs and keeping them in this condition all the winter, or by storing them in a dry apartment where the temperature can be maintained just above the freezing point.

The former method is very satisfactory where the weather is cold during the entire winter. The onions are placed in a barn or out-building and allowed to freeze. They are then covered with hay straw or bags, and are allowed to remain in this condition all the winter. The covering should not be removed in the spring until the bulbs are entirely thawed out. The temperature should not run above 32 degrees or below 15 degrees Fahrenheit. Successive freezing and thawing or severe freezing will injure the bulbs.

As onions cannot be fed to stock, it is not well to have too many on hand in the spring.

ENEMIES OF THE ONION.

The most important enemies of the onion are the onion-maggot, onion-smut and cutworms.

The onion-maggot is a very destructive insect. The eggs are deposited on the plants near the ground and require about two weeks to hatch. After the egg hatches, the larvae burrow into the bulb, where they remain for about two weeks, then emerge, pupate in the ground, and the adult insects deposit their eggs for another generation. The larvae cause the plants to turn yellow in color, wither, and finally die before the bulbs have matured. The only satisfactory preventive known yet is to plant on a new location each year.

The onion-smut attacks the new plants, causing the formation of dark spots or lines on the leaves. As the onion seedling develops, these spots crack open, exposing a black powdery mass which contains the spores of the fungus. The disease when very severe causes the tops to wither and die, and often spreads to the bulbs. As a preventive all the refuse on the field should be burned immediately after the crop has been harvested. Adherence to a strict system of crop rotation is the most practical preventive against this disease. A mixture of equal parts of sulphur and lime, sown in the drills with the seed, is very good.

The best remedy for cutworms is poisoned bran. Table 50 pounds of bran and 1 pound of paris green. Mix dry and dampen with some sweetened water. Apply this in the evening alongside the row.

EMPIRE DAY SPORTS.

The committee appointed to arrange for Empire Day sports have already every promise of a good program. The field sports which will be held on the College Campus, West Summerland, will commence at 11 o'clock. There will be athletic sports, football and baseball, and other interesting events. In the evening the Summerland Players will present "Cousin Kate," a comedy in three acts written by H. Hubert Davies. This will be given in Empire Hall commencing at 8.30.

MURDER NEAR KAMLOOPS.

Deliberate murder was committed at Furrer Sliding, about six miles east of Kamloops, about eight o'clock on Saturday night, when a Jap named S. Tinkihashi, shot and killed K. Omori while the two were lying in their bunks in one of the C. P. R. repair gangs. There is said to have been bad blood between the men for some time and they had been engaged in a violent quarrel for a short time before the shooting. Both men are said to have been under the influence of liquor.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

The Only Dictionary with the New Divided Page. 400,000 Words. 3700 Pages. 6000 Illustrations. Cost nearly half a million dollars. Let us tell you about this most remarkable single volume.

Freight Charges on Fruit Are Reduced.

Cut Announced by C.P.R. East and West of B.C. Interior.

Victoria, B.C., May 1.—A considerable reduction in the British Columbia fruit rates has been made by the C. P. R. as the result of a conference held last February in Ottawa between the executive of the British Columbia Fruit Growers' Association and Mr. W. B. Lanigan, the assistant freight traffic manager of the railroad. Since that time some correspondence has taken place on the subject, and the reductions are now announced. In westbound traffic the carload minimum on vegetables in boxes or crates, which was 30,000 pounds, has been reduced to 24,000 pounds. This reduction is expected to encourage the production of rhubarb, tomatoes, celery and other vegetables shipped in boxes or crates. The minimum in sacks is reduced to 30,000 pounds.

From the Okanagan district to Vancouver fresh fruit in carloads, which was formerly 53 cents per hundred pounds is reduced to 48 cents. Apples and pears in less than carloads, formerly 65 cents per hundred, have been reduced to 48 cents. Apples and pears in carloads, formerly 45 cents, have been reduced to 40 cents.

In eastbound traffic, apples and pears from Kamloops to Calgary, formerly 70 cents per hundred pounds, will be 62 cents; from the Okanagan to Medicine Hat, formerly 75 cents, will be 71 cents; from Spences Bridge to Calgary, formerly 80 cents, will be 68 cents; from Spences Bridge to Medicine Hat, formerly 85 cents will be 79 cents. Reduction to other points eastward will be calculated on the Calgary mileage basis.

The general effect of the reductions eastward will be to the advantage of the British Columbia shipper, approximately 5 cents per box on apples and pears, which will be a considerable aid in meeting United States competition in the prairie markets. The reductions eastward will affect chiefly the market of Calgary and vicinity, which consumes the bulk of the British Columbia shipments.

The reductions westward are expected to enable growers in the interior to ship to the Coast markets much more extensively than heretofore.

A feature of the new rates is that they are made voluntarily by the C. P. R. without any appeal to the Railway Commission, and solely in the expectation that they will be justified by an increased traffic which will be developed.

FOUL BROOD AMONG BEES.

Lectures Being Delivered to Keepers Throughout the Province.

Victoria, B.C., May 1.—Foul brood among bees is being made the subject of a special campaign in British Columbia this spring by the provincial health department. This is an evil which has not yet assumed serious proportions, but against which it was nevertheless thought well to have special legislation passed two sessions ago. Lectures on how to recognize and stamp out the disease will be delivered at several places.

Mr. L. Harris will speak at Vernon, May 8; Armstrong, May 10; Kelowna, May 12; Westbank, May 14; Peachland, May 16; Summerland, May 18; Naramata, May 20; Penticton, May 22; Kaledon, May 24; Keremeos, May 27; Grand Forks, May 31; Enderby, June 6; Salmon Arm, June 8; Shuswap, June 10; Kamloops, June 12; Ah-croft, June 14; Revelstoke, June 17; Golden, June 19; Wilmer and Windermere, June 24.

The value of the presence of bees in a fruit district is now being fully realized and the importance of preventing plagues among them. Bee-keepers are being especially warned to look out for what is known as the Ialo of Wight disease, which has not yet made its appearance in this province, but is liable to be brought any time by hives from Great Britain. It is an acute form of bee paralysis. The bees cannot fly or run but only crawl, congregating in small bunches. It is very destructive and is liable to make a clean sweep of any district in which it gets started.

John R. Torry will henceforth be known as "Chief Instructor of Poultry Raising." He has been gazetted for that position beginning April 1st.

SCHOOL REPORTS.

The pupils in the Senior Fourth Grade taking over 70 per cent. on the monthly examinations are as follows:
Leighton MacLeod, 79; Kathleen Elliott, 79; Gordon Campbell, 76; Roy Elsey, 70; Willie Gallagher, 70.

The pupils of the Intermediate Fourth Grade taking over 60 per cent. on the monthly examinations are as follows:

Allan Harris, 88; Ida Johnston, 84; Ernest Lister, 75; Willie Smith, 75; James Kean, 73; Rita Harrison, 72; Eliza Ritchie, 69; Bertha Johnston, 68; Florence Elliott, 66; Kathleen Brown, 66; Lee Hatfield, 62; Kenneth Elliott, 60.

Pupils of the Junior Fourth Class who obtained 60 per cent. or over in April:

Dorothy Tingley, 78; Bertha Bristow, 73; Mabel Watson, 71; Jean Babbit, 70; Hattie Phinney, 69; May Thomson, 68; Gertrude Rines, 68; Ida Shields, 67; Jennie Brewer, 67; Helen Robertson, 66; Eva Shields, 65; Eva Bloomfield, 64.

Pupils of the Senior Fourth Class who obtained 60 per cent. or over in April:

Ada Darlington, 85; Gertrude Elsey, 82; Olive Bristow, 81; Marjorie Hatfield, 76; Kathleen Merrill, 72; Herbert Williams, 72.

Pupils of Junior Third Class who obtained 60 per cent. or over:

Opal Thomson, 79.

RIFLE ASSOCIATION.

The first of the Dominion Salver series was shot off on Saturday, there being seventeen members competing. Shooting conditions were good, and the scoring improved.

	200	500	600	Total
W. Nelson	30	33	29	92
H. Dunsdon	31	28	30	89
B. Steuart	31	29	29	89
O. Smith	29	32	26	87
J. Dunsdon	27	29	27	83
M. Steuart	32	26	25	83
G. Loomer	26	30	25	81

Saturday next, the long ranges will be shot over, to get in practice for the Okanagan Rifle Association Meeting at Armstrong, which takes place on the 16th, 17th and 18th of May. Programs can be obtained now on the range.

More members are still required to bring the Association up to its establishment.

SWEET CLOVER AS A SOIL IMPROVER.

One of the most valuable qualities of sweet clover is its ability to improve the soil on which it grows, according to a recent bulletin of the U. S. Department of Agriculture. This it does in part by reason of its large roots, which break up the lower layers of the soil, and by their rapid decay add a great deal of humus to the layers which lie below the usual depths of plowing. In addition to this the stubble and stems when plowed under add a good deal of humus to the soil. Its most important characteristic is the ability which it enjoys in common with other legumes, of fixing nitrogen by means of the nitrogen-gathering bacteria which live in the tubercles on the roots of the plant. This ability enables it to add much nitrogen, a most costly fertilizer, to the soil in which it grows.

Many legumes require considerable humus in the soil for anything like a good growth, but sweet clover seems to be a notable exception to this rule and will generally thrive where this usually essential factor is absent. The ability to thrive in such locations makes it especially valuable as a pioneer crop on poor run down, badly washed fields such as exist in parts of the southern states, especially in limestone sections. Its ability to succeed on similar fields outside the limestone section has not yet been fully determined.

GREEN CROPS FOR HENS.

The Michigan experiment station advises sowing some special forage crops for the hens. Oats or barley can be sown in early spring to be followed by oats and rape. When these are gone, a crop of rape and buckwheat can be sown. Alfalfa makes a good permanent pasture for hens, growing so rapidly that there is little danger of its being killed off.

Nothing is really sacred until all things are.

WEDDING.

WILSON-GILLIES.

Naramata, May 2.—The wedding in town on Friday last, and the festivities connected with the same proved the most interesting and pleasant event that has taken place here for some time.

Two popular young folk of Naramata, Mr. A. P. Wilson and Miss Nellie Gillies were the principals upon the occasion. Their supporters were Mr. W. Armour and Miss Wilson, sister of the groom.

The ceremony was performed at Mr. Wilson's own home. Rev. G. O. Fallis, of Penticton, officiating. The bride, in the absence of her parents who live in Scotland, was given away by Mr. J. M. Robinson.

The toast list which followed was an interesting feature, the speakers being Mr. Fallis, Mr. Robinson, and Mr. and Mrs. Gillespie. Then followed a dinner par excellence, served at the home of Mrs. D. McKay, who has been the recipient of many well deserved compliments for its general excellence.

In the evening the doors of the Opera House were thrown open, where, at the call of a general in-

itation, a large number of friends gathered to do honor to the occasion, and until twelve o'clock a very enjoyable dance was carried on. The band was in attendance and provided a number of popular selections. Mrs. Languedoc made a pleasing pianist.

On Saturday morning Mr. and Mrs. Wilson left on a short honeymoon trip to Vernon, returning in the course of a few days to take up residence in Naramata.

SCOTCH LOGIC.

Donald (who is seeing his more prosperous cousin off by the train)—Ye nicht like tae leave me a bob or twa tae drink ye a safe journey, Wullie.

Wullie (feigning regret)—Man, I canna. A' my spare shullin's I gie tae my auld mither.

Donald—That's strange. Because yer mither told me ye never gie her anything.

Wullie—Weel, if I dinna gie my auld mither anything, what sort o' chance dae ye think you've got?—Punch.

Most of us know just what we should have done yesterday—tomorrow.

Naramata Notes.

Mr. B. McGan has taken up residence in the Miller cottage down by the beach.

Mr. Gerald Roe, the newly appointed clerk at Hotel Naramata spent part of the week visiting friends at North Naramata.

Mr. Jack Cameron, after several months absence from Naramata spent chiefly in Vancouver and Seattle has returned to town.

Mr. W. H. Irwin, Western Sunday School Superintendent, on his way east from Vancouver, dropped off at Naramata to inspect his holdings in our vicinity.

Mr. W. Rutland, an employee of the company is off duty because of a broken rib, the result of an accident while loading furniture off the wharf on Friday last.

Two of Mrs. Languedoc's cousins have recently arrived from Calgary, though formerly from England, and will doubtless take up land either here or at North Naramata.

Mr. R. H. King, who recently purchased an additional five acres (half of the original first choice ten acres owned at one time by F. W. Law, of Vancouver) has had the lot plowed and planted with apple trees. Mr. King is to be congratulated upon securing such a valuable addition to his holdings.

The men at work on the pipe line extensions appear to be covering the ground rapidly, and with the heavy shipment of pipe which reached the wharf this week there should be little difficulty in the way of delivering water to the numerous newly developed holdings on or about the 10th of May.

That the Trust Company are willing to lead the way toward making Naramata the city beautiful was this week further exemplified when all of First Street and much of Robinson Avenue were planted with a double row of promising shade trees. This is a splendid idea and should be followed by every lot owner in Naramata.

An effort is being made to have the present government ferry grant sufficiently increased so as to warrant a somewhat improved ferry service. At present the service is quite inadequate to meet the demands of a thriving community such as ours. It is expected that we shall shortly hear of a new schedule being established.

The first of the contemplated summer cottages to be built this year and to be run in connection with the Hotel is being built immediately south of the present gardens over toward the Club House. This cottage will be occupied by Mr. Cash, a nephew of Hon. Martin Burrell, and his mother. Meanwhile, Mr. Cash will stay in the ranch cottage.

The wealth of fruit blossoms in our vicinity is very marked, and it would certainly be worth while for the town folks who ordinarily see little of the benches to take a drive out and see the promise of the year now at our doors. In this connection it might be in order to remark that with the advent of marketable crops of fruit that the arrival in town of each family—till now mere absentee owners—will go a long way toward solving the problem of labor.

Mr. Woodburn, manager of the Okanagan Telephone Company's business at this end of the lake was in town recently endeavoring to sign up first contracts with the various parties who last fall signed up with the Lakeshore Co. On account of the proposed tariff of three dollars per month, he did not meet with complete success. This only seems to show that the telephone business, like the post office business, should be run by the government.

The Trust Company's irrigation is again running for the convenience of their numerous patrons. The system is again in the hands of two experienced employees, Capt. Languedoc and J. M. Schrock. The work of umpiring the water game is gradually becoming more and more complex as the area under cultivation increases. Just here it might not be amiss to put in a word for the water men. These men expect the users of water: 1—To be ready to receive the water the moment it is turned on, and 2—To be economical in so far as not allowing your neighbor's land to suffer through waste of water from your current, 3—To be ready to shut off at the proper time. In fact, most trouble arises through users forgetting that "there are others" in the game whose rights should be respected.

SUMMER BUNGALOWS.

Summer bungalows of a more or less temporary or portable character, for the country or seaside, may be put up economically and substantially by using quarter-inch Asbestos Board for the outside walls and roof, and Utility or Tonawanda Board for the inside walls and partitions. A simple timber framing with studs sixteen inches apart on which the boards are nailed and the joints covered with four inch battens bedded in elastic weatherproof cement, will make a structure sufficiently durable to last for years, and one which can readily be taken to pieces and transported when necessary.

There is no need for bricks, mortar or plaster. Asbestos Boards being fireproof can be used as material for a flue, if it is necessary to have a fireplace inside. In the

hands of a carpenter or a handy man, a few hundred dollars will put up a smart little bungalow, while less will build a useful shack or hut more weatherproof and comfortable than made of timber alone, and quite as cheap.

This material is used extensively in Germany and elsewhere on the European continent for the erection of chalets, and also such buildings as schools, barracks, isolation hospitals, shooting lodges, etc. as being safe, more sanitary and economical than any other that can be used; besides having the advantages of rapid erection and easy removal.

The W. C. Thomson Company, 319 Pender Street, West, Vancouver, are keeping large stocks of these materials, as the demand is already very considerable and certain to go on increasing.

TWO WAYS OF COOKING EGGS.

With Ham on Toast.—Chop very fine some cold cooked ham. Separate the yolks and whites of several eggs, keeping each yolk whole and by itself. Beat the whites stiff. Butter some slices of toast, spread each with minced ham, and place the beaten egg white over this like a little nest with a hollow in the centre, into which drop a yolk. Sprinkle with salt and pepper, and bake in a moderate oven.

Eggs Fondue.—Break six eggs into a perfectly smooth saucepan, add a tablespoonful of butter, four heaping teaspoons of grated cheese; season lightly with salt, white pepper, and paprika. Place the saucepan over a hot fire, and stir the contents until they are of the consistency of custard. Then remove from the fire, spread on squares of hot buttered toast with the crust removed, and serve.

Don't let repairs eat up your profits

Whether they represent actual cash outlay, or only the time of yourself and your help, repairs are waste just the same. When you make an improvement—no matter how small its cost may be—let it be permanent. Then it is a real investment, something on which you can realize in cash should you decide to sell your property; and something that will pay you constant dividends in convenience, sightliness and comfort as long as the farm remains your own.

Concrete Improvements Are Permanent

They last as long as the very hills themselves. They do not require experts to build them. Their first cost, in most cases, is no more than for inferior materials.

Aren't you interested in the subject of permanent, modern farm improvements?

Then write for the book that describes hundreds of them—**"WHAT THE FARMER CAN DO WITH CONCRETE"**

It isn't a Catalogue. Every one of its 160 handsomely illustrated pages is interesting and instructive. They tell how to mix concrete, how to place it, what can be done with it. The book was printed to sell for 50 cents, but we have a copy for you, free.

Your name and address on a postal will bring this book **TO YOU ABSOLUTELY FREE**. Mail the postcard to-day. The book will come to you by return mail. Address **CANADA CEMENT CO., Ltd.** NATIONAL BANK BUILDING MONTREAL, P.Q.

ARE YOU REPRESENTED ?

"No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns," says an exchange. This applies to all kinds of business—general stores, dry goods, grocers, furniture dealers, manufacturing establishments, automobile dealers, mechanics, professional men and, in fact, all class of business men. This does not mean that you should have a whole or half or even a quarter of a page ad. in every issue of the paper, but your name and business should be mentioned if you do not use more than a two line space. A stranger picking up a newspaper should be able to tell just what business is represented in a town by looking at the business mentioned in the paper. This is the best possible town advertiser. The man who does not advertise his business does an injustice to himself and his town. He is the man who expects the newspaper to do the most free boosting for his town. The man who insists on sharing the business that comes to a town but refuses to advertise his business is not a valuable addition to any town. The life of any town depends upon the live wide-awake and liberal advertising business men.

Marion Beavis, the little girl who so narrowly escaped death by being knocked down by a horse and stepped on, is making remarkable progress, much better than could have been hoped for. She now has no further need for the bandages, the bones of her jaw and her collar bone having knit very rapidly.

COUNCIL CONSIDERS ELECTRICAL EXTENSIONS

GARNETT VALLEY PIPE LINE ALSO DISCUSSED

DETAILED ESTIMATE OF IMPROVEMENTS TO PUBLIC UTILITIES TO BE DRAWN UP, PREPARATORY TO PLACING QUESTION BEFORE PEOPLE

A special session of the Municipal Council was held on Monday following their meeting as Court of Revision. Part of a report submitted by Engineer F. H. Latimer was discussed in detail, and this occupied most of the afternoon.

A few communications were read after the minutes of the last meeting had been read and adopted.

A delegation from the Ratepayers' Association waited upon the Council to draw attention to some matters needing attention in the town section. The most important was the appointment of a constable. The delegation drew attention to the large number of homeless men now in town awaiting the commencement of work on the railway. These men were on the streets all night, and the situation called for immediate action. Later in the afternoon this was discussed fully by the Council. It was generally conceded that with the great number of men in town—and more coming—that situations might arise calling for quick intervention on the part of the law. A motion was ultimately put through authorizing the Reeve to make any arrangements necessary for the employment of a constable, and also for the provision of a lock-up. It is hoped that a constable on straight duty will only be required for a short time. The Council is in communication with the Provincial Government with a view to having a provincial constable stationed here. The Clerk was instructed to wire Hon. Price Ellison emphasizing the urgency of the situation.

The delegation also requested a fuller electric light service. At present the current was not turned on until nearly seven o'clock, and it was sometimes necessary to use lamps till the light came. Electric light was not available after about twelve o'clock, and the delegation was of the opinion that an all night service was called for at the present time. The necessity was again urged of a service one morning per week for the use of the electric irons. A considerable number had been installed, but were quite useless without the current. Attention was also drawn to the unsafe condition of some of the high tension electric light wires in town. In some places the wires appeared to be in imminent danger of leaving the poles, and serious trouble might result if this occurred. Supt. Mitchell will look into this.

The petition presented by property holders in District Lot Nos. 474 and 475, for the deepening of Prairie Creek, was considered, and Council placed themselves on record as being willing to bear one-fifth of the cost of this work.

Jas. Gartrell wrote informing the Council that over 800 loads of gravel had been removed from his property for use on the roads. Mr. Gartrell apparently thought he should be indemnified.

A letter was read from the office of the Hon. Frank Cochrane, Dominion Minister of Railways and Canals, forwarding a copy of the revised surveyed route of the Kettle Valley Railway from Penticton to Osoy Lake, passing through this municipality, and stating that since this survey was satisfactory to the Council, it had been approved.

W. C. Kolley, barrister, tendered legal advice as requested, on the scope of the trade license, and also in regard to the storing of explosives within the limits of the municipality.

Dr. C. M. Smith, Medical Health Officer, wrote advising that the requirements of the Board of Health be more strictly enforced; also drawing attention to the inadequacy of his annual remuneration of \$25, which did not cover the time and expense he found himself put to in the performance of his duties. The rapid growth of our community would soon call for stricter measures regarding sanitation, and Dr.

Smith suggested, further, that the Council institute a permanent system for dealing with refuse of all kinds.

Messrs. Stirling and Pitearn, of Kelowna, asked for information as to the road limits and sidewalk allowance near the Okanagan Fruit Union packing house. They proposed building on the lot adjoining which they had leased from the C. P. R. The ground space was small and they naturally desired to utilize every available inch of the property. The Clerk will give them the necessary information. Duncan Woods urged upon the Council the necessity of providing public lavatories in various places much frequented.

W. Arnett regarded the condition of the road to the west of his property as unsafe, and thought it should be closed. He pointed out, also, that the stones which had gathered on the lower part of his lot during the building of this road should be removed at an early date, as he intended fencing this plot in the near future, and when this was done the Council would be put to increased expense in removing the stones.

Mrs. J. Merrihew, of Garnett Valley, wrote drawing attention to the bad condition of an open ditch on her property, Lot 14, which put her to considerable inconvenience. The Cartier National Memorial Committee solicited a donation from the Council.

J. J. Calder asked that a road to his property be made at once. At present he used a road on an adjoining property, and this was to be plowed up immediately. He therefore requested the Council to provide an entrance on to his land. He protested, too, against his water rates.

No action was taken in regard to the majority of these communications, and they were laid on table, to be dealt with probably at the regular meeting next Tuesday.

The revised subdivision of the block owned by the Summerland Fruit Company between Shaughnessy Avenue and the lake, again submitted to the Council for approval, brought out a difference of opinion regarding the ownership of a strip of land left by the reeding lake. The Fruit Company has included this in their subdivision, and exception is taken to this by Coun. Robinson. The question will be further considered at a subsequent meeting.

The report submitted by Mr. Latimer made a somewhat voluminous document in the whole. Only that part which dealt with the electric light extensions was taken up at this meeting. The Engineer was present in person, and discussed in detail with the Council the points raised in his report.

It is now clearly apparent that extensive additions must be made both to the water and light systems in the immediate future. Much new land is coming under cultivation, and many new buildings are springing up calling for many electric light connections. It is proposed to meet the situation partially with a sixteen inch cement pipeline down Garnett Valley. Outside the requirements of the electrical department, the municipality has pressing water obligations to meet at Trout Creek, Paradise Flat, and on the land lying between the entrance to Garnett Valley and Crescent Beach. Less pressing—though not the less necessary—extensions are called for in town and Peach Orchard.

Mr. Latimer's advice regarding electric light extension is the installation of new generating plant at an approximate cost of \$28,000.

If the Council adhered to the use of water power, this plant would be put in down town. The Engineer pointed out, however, that each year the demands upon the supply

[Continued on Page 5.]

"The Rose Maiden."

Arrangements For Monday Evening's Performance.

The Choral Class under the direction of Prof. W. H. A. Moore, give Sir Frederic Cowen's cantata, "The Rose Maiden," in the College Gymnasium, on Monday evening next. Arrangements have been made with Mr. R. H. English to have teams running from town. The round trip will cost 50 cents, or those who prefer may drive one way for 25 cents.

Those who attend such entertainments as this, and who are not familiar with the text miss much of the pleasure of the program. Such will not be the case in this instance. Neat leaflets with the full text of the cantata, together with a concise argument have been prepared, and will be on sale at the door. These will be excellent souvenirs of the occasion. They will cost 10 cents each, two copies for 15 cents. With the words before them, everyone will enjoy this musical program, the best of the season.

WEDDING.

LANG-FOWLER

At Peachland on Sunday last, at the conclusion of the evening service in the Baptist church, Rev. A. W. MacLeod announced that a service of another nature was to be held, and all who wished might remain. In the presence of practically the full congregation, the marriage of Mr. Edward Lang and Miss Lucy Fowler was solemnized. Both are residents of Peachland. In anticipation of her approaching nuptials, a number of Peachland ladies gathered at the home of Mrs. Hugh McDougald on Thursday afternoon of last week, and gave Miss Fowler a shower of household articles. The wedding has attracted much interest locally, for the groom is already an octogenarian, while the bride is not many years this side of the three score and ten.

The Municipal Council are in communication with Hon. Price Ellison with a view to having a member of the Provincial Police stationed here.

Methodist Gathering.

Okanagan District Ministers and Laymen Meet in Summerland.

The annual meeting of the Methodist Clergymen of the Okanagan District was held in the local Methodist Church on Monday and Tuesday of this week. Rev. Jno. Robson, of Vernon, presided and Rev. F. W. Hardy, of Summerland, as financial secretary. About twenty were in attendance, including prominent laymen of the various towns from Enderby to Princeton. The ministers were: Revs. R. Dawson Hall, of Enderby; J. Robson, Vernon; J. W. Davidson, Kelowna; J. L. Allan, Peachland; F. W. Hardy, Summerland; G. O. Fallis, Penticton; W. C. McWhinney, Keremeos; T. A. Osborne, Princeton.

Among the laymen attending was Mayor J. W. Jones, of Kelowna, who is the District Representative of the Department of Finance, and who is introducing to the district what is known as the Parker system. This scheme applies up-to-date business methods to the raising of church funds, and is being received with favor everywhere.

Rapid growth has marked the year's work in all the churches and a big budget of business was passed in review. The compilation of the church union vote for the Valley showed it to be almost unanimous, over ninety-six per cent voting in favor.

Increases in membership, income, property, salaries, mission giving and Sunday Schools were features of almost all reports.

Few changes of pastorate are probable this year. The visitors were favored with delightful weather, were greatly impressed by the sight of our orchards in full bloom, and left by Wednesday's boat well pleased with Summerland hospitality.

The Toronto Ladies' Quartette will appear in Empire Hall to-night (Friday). The quartette comprises a violinist, dramatic soprano, an entertainer, and pianist, all reputed of exceptional ability. An excellent program is promised, and a well-filled house should greet these ladies.

The irrigation ditches are again in operation. The water was first turned on last Tuesday.

PROGRESS WITH THE RAILWAY

Summerland the Base of Supplies for Section.

PRELIMINARIES BEING PUSHED AHEAD.

Although actual construction work has not yet commenced in Summerland, railway activities have not slackened. A warehouse has been erected adjoining the track at the wharf, and nearly a dozen cars of supplies have already been dealt with. The Fruit Union building is also being temporarily utilized for storage purposes. The office of the Cashier has been transferred from Penticton to this point, the intention being to pay wages and make incidental disbursements from here. Summerland has been made the base of supplies for the entire section between Penticton and Osoy Lake.

Buildings have been put up on Alkali Flat for the housing of blasting materials and tools, and the construction of the camps will be proceeded with immediately.

Men looking for work of this nature have been flocking to Summerland for the past two or three weeks, till there are now a considerable number awaiting the commencement of operations.

Messrs. G. A. Carlson & Co, railway contractors of Spokane, Wash., have the contract for thirty-five miles of road on the Kettle Valley line west of Penticton. Their contract begins above Trout Creek and runs to Osoy Lake, half-way to Princeton. No time limit has been set for its completion, but it is understood that the work must be completed not later than early in the new year. Employment will be given to 1,600 men, and if that number cannot be procured locally

the balance will be imported from Spokane and other points.

The material for the three steel bridges for this section is already on the way. Work has been started on the new spur line through Penticton and the new station there is almost ready for occupancy.

When the work on the Carlson contract get into full swing the payroll will be almost one hundred thousand dollars per month.

The Dominion Department of Railways has approved of the final revised survey, passing through Summerland, on the recommendation of the Council. The proposed spur from Kelowna to Vernon has been held over for further investigation.

President J. J. Warren states that construction will begin immediately from the end of the track on the Coldwater toward Princeton.

East of Penticton, Carmi is the scene of much preliminary construction excitement in the extension of the Kettle Valley Railway, the steel on which is now laid close to Carmi, west from Midway 27 miles.

The contract for another 45 miles of the road has been let. The work will be rushed to completion this summer and will bring the line to the summit on route to Penticton, leaving only 33 miles of the road from Midway to Penticton now to be constructed for.

Subcontracts along the new line have been let for nineteen miles. Camps have been built and supplies obtained prior to actual construction work being commenced.

TWO SCHOOL BOARD MEETINGS

TRUSTEES HEAR VIEWS OF TEACHERS ON EDUCATIONAL SITUATION

Their Suggestions Subsequently Discussed Tenders Invited for Wall Round School Grounds

The regular meeting of the Board of School Trustees held last Saturday afternoon in the Central School building partook of the nature of a conference between Trustees and teachers. It has been the expressed opinion of both these bodies that their relations have not been of the intimate nature desirable. Accordingly, this meeting was convened that the Trustees might get into closer touch with the school situation as seen from the viewpoint of the teachers. The entire staff was present with the exception of Miss Watson, and a quorum of Trustees, Messrs. White, Robinson and Dr. McIntyre.

A FEW SUGGESTIONS.

At the conclusion of the routine business, Chairman G. J. C. White explained briefly the objects of the joint gathering. His conception of the function of school training was that it was a preparation for the assumption of the responsibilities of citizenship. This called for a perfect understanding between teachers and Trustees and the employment of the best methods. The Trustees could not be in such close touch with the educational situation and its needs as the teachers, who, as professional people could often see further in the solution of school problems. He brought a few suggestions which he would lay before them.

Empire Day was at hand. The nature of the day should be made clear to the children, otherwise there was danger of the occasion degenerating into a meaningless holiday. It might be possible to hold suitable exercises on the previous day.

In some parts of the country Arbor Day was also a holiday. Its primary object was the planting of trees for purposes of beautification. Here was an opportunity to secure the co-operation of the scholars in the improving of the school grounds. In this case it might be possible to combine the celebrations of Empire and Arbor Days.

The daily flag raising called for by the Provincial School Law did not appear to be strictly adhered to here. Mr. White suggested that periodically some simple ceremony for this purpose be arranged, which would help to cultivate a love for the Canadian flag. This could be overdone, but he thought a little more attention could be paid to it here. Patriotism generally should be encouraged.

He had noticed too, that the Education Department purposed holding a summer camp for the instruction of teachers practising their profession in methods of giving physical training to their scholars. This was another matter that might perhaps be emphasized more here. Children always welcomed organized play.

Mr. White was not aware if a school library was in operation here. This idea had been successfully worked out in his experience on the prairies, and might be a desirable feature to introduce here.

WHAT THE TEACHERS THINK.

Principal H. D. Hunting, voicing the sentiments of the teaching staff, welcomed the opportunity to get into closer touch with the Trustees. Personally, he was in sympathy with all the suggestions Mr. White had thrown out.

Patriotism was by no means neglected here. Several subjects in the school curriculum emphasized this, and none of the teachers neglected any opportunity to instill love of country into the scholars. A patriotic program for Empire Day would be most desirable, and perhaps might be worked out.

In regard to the school grounds he was not yet satisfied with their condition. The work done recently

had brought many small stones to the surface, already causing one serious accident and being liable to cause more. All these stones should be raked off; they were a menace to the children at play. He suggested that the grounds be sown down in grass, and later on flowers might be planted. The teachers were heartily in sympathy with the idea of improving the grounds, and he could promise the Trustees their hearty co-operation in any work of this nature.

Mr. Hunting said he purposed attending the physical training camp that Mr. White had spoken of. He expected to be in camp for about six weeks, and if the opportunity presented itself he would put to advantage the knowledge he expected to gain.

UNSATISFACTORY CARETAKING.

Mr. Hunting complained of the janitor work that was being done on the ground that the system employed was wrong. The janitor should be under the direct supervision of the principal and teachers, and not bound down by a straight contract, laying down duties. He wished it distinctly understood that there was no ill feeling between any of the teachers and the janitor, but there was a difficulty in so far as he was responsible directly to the Trustees, and not to the teachers.

Mr. Logie explained the nature of the contract between the School Board and the janitor, saying it distinctly stated that the work must be done to the satisfaction of the teachers. Three hundred dollars per year was paid for the caretaking, about equivalent to half-time employment.

Mr. Hunting replied that he had been under a misapprehension. The janitor had undoubtedly done much work the contract did not call for, and he had felt reluctant to impose any fresh duties upon him. Much of the work was being done by the janitor's wife, and this was very unsatisfactory since she could not or would not understand English, and the teachers were not familiar with Italian. Much of the janitor work the teachers themselves had been compelled to do, and he thought this was not proper. He himself had this winter done much work with the furnaces, and it was a fact that even the lady teachers had been compelled to do work which was undoubtedly part of the janitor's duties. The floors and windows were not properly cleaned and the desks and equipment were covered with dust after every sweeping.

Mr. Hunting called attention also to the condition of the basement. The recent wet weather had caused the water from the caves to accumulate in the cellar, and to attend the furnace it was necessary to wade through water. Sewage conditions, too, were unsatisfactory. There was a seepage from the septic tank, and surface water gathered when the tank was used. This called for immediate attention. The drinking fountains recently installed were not working satisfactorily. Sufficient pressure was not forthcoming and when all the water connections were in use the scholars were compelled to suck the fountains, which was more unsanitary than the use of the drinking cups which had been replaced.

Mr. Hunting called attention also to the condition of the basement. Sufficient pressure was not forthcoming and when all the water connections were in use the scholars were compelled to suck the fountains, which was more unsanitary than the use of the drinking cups which had been replaced.

PRESSING NEED OF EQUIPMENT.

In regard to the equipment of the schools, certain apparatus which every school needed had never been purchased. Certain subjects were suffering for lack of proper equipment. Two of the most pressing needs of the High School Department were a microscope and drawing models. Between \$50 and \$70

Commercial Potato Culture.

By P. E. FRENCH, Assistant Provincial Horticulturist.
 Abridged.

[Concluded from our last issue]
CULTIVATION AND WEEDING.

The success of the potato crop depends largely upon the kind of cultivation given. No matter how well the land has been prepared and how carefully the sets have been planted, the crop will be much reduced if the soil is allowed to become hard, the weeds to grow, and the moisture lost which could be saved. Cultivation should begin soon after planting. The common drag harrow, or a weeder, can be run over the ground three or four times, or until the potato plants are three or four inches high. From then on, most of the cultivation is done with the single horse cultivator. The first time the cultivator is used the ground should be cultivated fairly deep and as near the plants as possible without injuring them, to loosen the soil for the tubers. Later cultivations should be shallow to prevent injury to the roots and tubers. The soil should be cultivated every week or ten days, depending on the weather. If the soil becomes baked, evaporation takes place rapidly. It should be stirred after each rain. If the land is weedy, the more frequent the cultivation the less work with the hoe to keep the area clean. From five to six cultivations, or even more, are none too many, and it is usually found that the crop increases in proportion to the number of cultivations. The last two or three cultivations the earth should be thrown towards the plants if the potatoes are near the surface. The weeds that are not killed by the horse cultivator should be hoed out or pulled by hand. Hilling potatoes in dry sections is a mistake of much too common occurrence.

HARVESTING.

Potatoes may be dug with the four-tined potatoes fork, plowed out, or dug with the potato digger. The former method is used when the area is small or the ground stony, and also in the case of digging potatoes early, when care should be taken in handling, not to bruise the tubers more than necessary. Where there are large areas to be dug, the potato digger is essential, as digging with the fork is too expensive, now that good men are difficult to get and wages are high. There are a number of good potato diggers now on the market.

Potatoes, unless affected with late blight, or rot, are ready to dig as soon as the tops have died, if the weather is favorable. They should be dug in dry weather, so that when taken to the cellar or store room they will be perfectly dry. If the potatoes are affected with late blight, it is advisable to leave them in the ground as long as possible, because the diseased tubers will usually show signs of rot before they have to be taken up on account of frost. Potatoes in wet land should be dug before those in dry or well-drained soil, because there is a greater tendency to rot.

MARKETING.

Potatoes which have been dug in an immature state should be marketed immediately and placed upon the market in such quantities only as will admit of immediate consumption. The mature potatoes may be shipped in the fall, or held over until spring. Growers should be very particular about grading their potatoes before marketing them. All the small potatoes should be picked out and fed to the stock.

STORING.

Potatoes are best stored in a cool, well-ventilated cellar or root-house which is perfectly dark. Too much stress cannot be put on good ventilation. If there is not a good system of ventilation in the cellar, slats can be nailed a little apart about five or six inches from the wall. A temporary floor with cracks between the boards can be put about six inches before the temporary floor. This allows the air to circulate around and through the pile. If the pile is very large, slatted ventilators can be placed here and there from top to bottom.

Potatoes should be kept at as low a temperature as possible without freezing, and at the same time keep the surrounding air as dry as possible. They should be mature when harvested, as skin-slip potatoes do not keep well.

In some sections of British Columbia potatoes are often pitted. This is more often done in the drier parts of the Province. The pit should be made from six to eight feet wide, about eight inches deep, and as long as needed. The potatoes are then placed in the pit about four feet deep and covered with enough straw to keep the earth from coming through, and then about one foot of earth on top of this. Do not cover the top immediately. Leave a strip along the top for a week or two for ventilation. If there is danger of rain, this can be done with sacking. When this strip is covered leave a small hole for ventilation every eight or ten feet. In the winter time, if there is danger of very cold weather, the pit can be covered with straw manure.

The value of potatoes for seed or for eating is greatly lessened if they are allowed to sprout.

DISEASES.

The principal diseases of the potato are the Early and Late Blight, Rot and Potato Scab. The two former may be controlled by spraying with Bordeaux Mixture throughout the growing season. Generally three or four sprayings are sufficient. The spores of Potato Scab may be destroyed on the potato before planting by soaking the tubers in: Formalin, 1 pound in 30 gallons of water; or in corrosive sublimate, 1 ounce in 7 gallons of water, for two hours.

RIFLE ASSOCIATION.

Regular attendance and steady practice on the range is having its reward for most of the members in improved scoring. Long distances were the order of shooting; and scoring was as follows for the leading men:

	600	800	900	Total
M. Stewart	26	35	29	90
J. Dunsdon	28	28	27	83
J. Conway	29	23	30	82
W. Nelson	28	28	25	81
H. Dunsdon	27	30	16	73

On Saturday first, the short ranges will be shot over, and all members who intend going to Armstrong for the Okanagan Rifle Association shoot are requested to attend and get in practice for this meeting.

SCHOOL REPORT.

Report of the Junior Primary Department, giving those who have the highest standing in each class:
 Senior Second Primer.—Arthur Williams; Maud Darkis; Willie Kean.

Junior Second Primer.—Graec Garnett; Sam Darkis; Warren Gayton.

Senior First Primer.—Mason Morrishow; Sylvia Washington; Edgar Walker.

Junior First Primer.—Allan Ritchie; Lillian Darke; Eva Johnson; James Smith.

EXPERT HERE.

Summerland is growing. One evidence of this fact is that we now have a watchmaker in the person of Mr. Jos. Rowley, who has arrived to take charge of his business managed for the past two years by Mr. T. C. Orr. Mr. Rowley is a practical watchmaker of long and varied experience, having learned the art by serving a seven years' apprenticeship in one of the best factories in England. He has also had a valuable experience in the noted Elgin watch factory, having finished over three thousand watch movements in that establishment.

Mr. Rowley comes to Summerland from Toronto where he has successfully conducted his business in that city for the past twenty-five years.

The people of Summerland are to be congratulated in having a man who can now handle their watches with accuracy and promptness, as Mr. Rowley intends devoting the whole of his time to the business here.

Lamb's liver, which is very delicate, and not so much used as it deserves to be, is delicious minced and served on toast. It is also excellent diced, cooked two or three minutes in a tablespoonful of butter, and folded in an omelet, with peppers and a minced olive or two.

THE HOME CIRCLE.
 Crude Thoughts From the Editorial Pen.

THE IDEAL HOME.

Dear Editor:—What do you say—"my idea of Home" in the space you indicate? A volume, and a large one, would be required to discuss the mere outlines of this subject. But you have given me some time to boil down my crude and imperfect ideas on this theme. A great writer, you know, said on one occasion, "This is a very long letter, but positively I had not time to make it shorter."

"An Ideal Home," you say. Well, it must be where love abides, rock rooted in confidence.

It must be where physical comforts are not wanting, but where luxury and pretence have not usurped the places of peace and repose. There may be more joy in the hovel than in the palace; but you are asking for the ideal "home," and such a home requires all the comforts.

There must be music, because music is the language of the soul when ordinary language fails.

There must be religion. I do not speak of creeds, or doctrines or Bibles, or prayer books. There must be a deep, reverential, God-fearing and God-trusting religion, which exemplifies the doctrine taught in the Sermon on the Mount, and the golden rule.

There should be calm, low voices and quiet manners. There should be children and books, and pictures and flowers. The silver hairs and tremulous voice of age should be there—the grandmother or grandfather, or both.

The well-bred guest should be there and the way to the door should not always be hedged against the poor, for he is "always with you."

With these crude suggestions accepted and applied, I should say with one whose literary shoes I am not worthy to unloose:

"Home, it is where the day-star springs,
 And where the evening sun reposes;
 Where'er the eagle spreads his wings
 From northern snows to southern roses."

LEARN TO LAUGH.

A good laugh is better than medicine. Learn how to tell a story. A well told story is a welcome sunbeam in a sick room. The world is too busy to care for ills and sorrows. Learn to keep your own troubles to yourself. Learn to stop croaking. If you cannot see any good in the world, keep the bad to yourself. Learn to hide your pains and aches under pleasant smiles. No one cares whether you have the earache, headache, or rheumatism. Don't cry. Tears do well enough in novels but are out of place in real life. Learn to meet your friends with a smile. A good humored man or woman is always welcome, but the dyspeptic is not wanted anywhere and is a nuisance as well. Above all, give pleasure. Lose no chance of giving pleasure. You will pass through this world but once. Any good thing, therefore, that you can show to anyone, you had better do it now; do not defer or neglect it; for you will not pass this way again.

ONLY AS each man or each woman performs his or her personal duty in any department of life, can that department be lifted to a higher plane.

GREATNESS marches single file, and there can only be one man at the head of the column.

A BABY DEFINED.

A London paper offered a prize for the best definition of a baby, and received the following, the first named taking the prize:

A tiny feather from the wing of love dropped into the sacred lap of motherhood.

An inhabitant of Lapland.

A padlock on the chains of love.

A bursting bud on the tree of life.

A nurlous bud of uncertain blossom.

A human flower untouched by the finger of care.

The most extensive employer of female labor.

The only precious possession that never excites envy.

The pulp from which the leaves of life's book are made.

The morning caller, noonday crawler, midnight brawler.

The smartest little craft afloat in homes delightful bay.

A native of all countries who speaks language of none.

A little stranger with a free pass to the heart's best affections.

A thing we are expected to kiss, and look as if we enjoyed it.

A soft bundle of love and trouble which we cannot do without.

The magic spell by which the gods transform the house into a home.

Quaint little craft called innocence, laden with simplicity and love.

The unconscious mediator between father and mother and focus of their hearts.

A pleasure to two, a nuisance to every other body, and a necessity to the world.

The latest edition to humanity of which every couple think they possess the finest copy.

The bachelor's horror, the mother's treasure, and the despotic tyrant of the most republican household.

A mite of humanity that will cry no harder if a pin is stuck into him than he will if the cat won't let him pull her tail.

A stranger with unspeakable cheek that enters the house without a stitch on his back, and is received with open arms by everyone.

A necessity—in order to keep up the supply of readers for the future, the sweetest thing God ever made and forgot to give wings to.

Eggs on Coquille.—Mix half a cup of soft bread crumbs with an equal amount of ham chopped fine, and moisten slightly with melted butter. Season with salt, pepper, and minced parsley. Make into a smooth paste with hot milk or cream. Put into a dish, shape little hollows in it, break an egg into each hollow, sprinkle with buttered cracker crumbs, and bake in the oven until the whites of the eggs are firm and the yolks set.

A farmer who was the father of twelve children had rocked each in the same cradle with the same great toe. He was rocking the newest arrival one evening when his wife remarked, "William, that cradle is nearly worn out. I'm afraid it will fall to pieces."

"It's about used up," replied her husband; then, handing her a ten dollar bill he remarked, "The next time you go to town get a new one, a good one, one that will last."

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 10, 1912.

A NEED FOR POLICE PROTECTION.

WE SHOULD FACE the fact squarely that Summerland is no longer a white-gloved community. It is regrettable that an admission of this character should be called for, but it is necessary to keep this in mind now that the question of police protection is before us. Recent incidents and present conditions show the pressing need of the establishment of a permanent department for law enforcement. If it were widely known that no one within the limits of the municipality of Summerland has power to summarily arrest even the most flagrant offender against the established rules of social conduct without the authority of a warrant—which would have to be specially issued by a justice of the peace—unprincipled people might be deluded into believing our town to be an ideal place to go "on the rampage."

There is no questioning the sobering effect of a display of lawful might. The very knowledge that someone is prepared to take instant action should a breach of the law be committed would in many cases act as a deterrent on would-be perpetrators, besides reassuring many nervous residents.

Railway construction is bringing to Summerland an element of population with a notorious reputation for law-breaking proclivities. It is unfortunate for these men that this reputation has been tagged to them, since in a great many cases it is undeserved. Nevertheless, situations are liable to arise, and, in fact, have arisen in the last few days, when the arm of the law should be stretched forth in an exemplary fashion. Small misdemeanors should not be condoned by inaction, but discouraged by swift reprisal. The laxity that has been shown offenders up to now, must be put aside. Threatening conditions call for the removal of the velvet gauntlet that has hitherto hidden the iron hand of the law from plain view. It is wise to be prepared to meet any exigencies, rather than to find ourselves faced with a situation with which we cannot deal swiftly and surely.

A RAILWAY RATE WAR.

THE GRIEVANCES of the public with reference to alleged discrimination in railway freight and traffic rates are consolidating into a rate war in which the case is that of the people against the corporations. It is only by arousing and educating the public mind to a full sense of the ingenuity of these discriminations that a sufficiently strong public sentiment can be created to secure relief. Naturally the Canadian Pacific Railway, being the oldest road and possessing the widest range of operations, comes in for the heaviest impact of the serious charges which are in order.

The subject of territorial traffic schedules has long been a grievance in some parts of British Columbia, the distributing centres of the interior having a standing complaint against the railways because through rates to the Coast are less than distributing rates in interior territory. Goods are shipped from Montreal, Toronto and Winnipeg at such rates as permit the wholesalers of the Terminal City to outbid their competitors in the interior because of this "territorial" schedule.

The Canadian Pacific Railway is now paying ten per cent. on its common stock, which is selling around two hundred and fifty dollars for a hundred dollar share. As this ten per cent. is a higher interest than the Canadian Pacific can pay without laying itself open to other obligations specified in its first contract with the government, it has been divided up into seven per cent. on the stock and three per cent. on land sales. The country would, in any case, hardly stand for a further increase in the interest paid to its stockholders in view of the high freight rates. The directors find it necessary to disguise their enormous profits and distribute them in a way that will not be too obvious to the people of the West, who feel the burden most directly. In 1909 they "cut a melon," as the saying is, by allotting to the shareholders thirty million dollars of new stock at \$125 a share. This year they made a new issue of about eighteen million dollars' worth at \$150 a share, and to-day, with stock at \$250, they are asked to ballot another sixty million dollars worth at \$150. As every previous allotment has had from the day of issue a value not far from that of the old stock, this new issue will be tantamount to a present to the stockholders of about a hundred dollars a share. On an issue of sixty million dollars this would amount to the Canadian Pacific Railway Company making a present of sixty million dollars to its shareholders. How many such presents is the country going to stand for before it calls a halt?

THE FACT that there was but one appeal against the assessment of land values presented at the Court of Revision this week, indicates that Summerland has an Assessor who knows the business.

THIS HAS BEEN a busy week in municipal circles—Court of Revision, special Council Session, and two School Board meetings, all within five days. This municipal activity is a sure sign of Summerland's progress as a community. Watch us grow!

THE INITIAL STEP in one of the greatest undertakings this country of great undertakings has seen, was made at Alberni, Vancouver Island, on Saturday last. The occasion was the planting of the first post along a highway that is to extend from one end of Canada to the other, from the Pacific to the Atlantic, a distance of four thousand miles.

LOCAL PRIDE is a great business builder—knocking is the surest way to wipe a place off the map. Let us all be practical boosters for our own town. Let us start to-day! And let us keep it up all the time.

DISCIPLES of Isaak Walton will rejoice to hear that prospects for sport with the rod and line this season are bright. Some of the men who await the commencement of railway operations here have been whiling away leisure hours at the end of the wharf with hooks. Their amateur endeavors have proved the existence of gullible fish in plenty in our waters. Whitefish, trout, squabfish and suckers have figured among the catches.

THE SENTIMENTS of Summerland regarding Sunday observance are being totally ignored by the railway contractors, who have been working their men seven days a week on Alkali Flat. We see clearly the necessity for hastening this work to the utmost; but at the same time, this can be overdone. We prefer to wait a little longer for our railway, so that when it is finally in operation, we can use it with an unclouded conscience.

PENTICTON now boasts a Chief of Police, who has been presented with a brand new uniform. The force of law-preservers in that town is now three, with a fourth appointment pending. The populations of Summerland and Penticton are practically the same, and it is to our credit that we have not been compelled to take similar precautions for the maintenance of law and order. We have not even a police force, much less a Chief in braid and buttons.

SOME TIME AGO the Review stated in an article on its front page that Summerland was to be made the base of supplies for the section of the Kettle Valley line between Trout Creek and Osprey Lake. Heated protestations from the Penticton Herald followed this announcement, that journal seeking the authority of President Warren for a statement that Penticton would still be used as the distributing point for supplies and equipment. But in spite of it all, the Review article stands. The case was under-estimated rather than over. Summerland will be the distributing point and base of supplies for the entire section between Penticton and the Summit. The office of the cashier and accountant has been transferred to this point, and a considerable quantity of railway material has been dealt with here.

Council Sits as Court of Revision

NUMEROUS APPEALS AGAINST WATER RATES ALLOWED.

The annual session of the Council as Court of Revision, to determine appeals against assessment and water rates, was held on Monday last. There were but two appeals filed in reference to property values, the remainder being against water rates levied.

An important issue was raised by Coun. Robinson in the appeals of Jas. Ritchie for rebates on water rates levied on property in Block 3640.

It appears that the original water agreements between the Garnett Valley Land Company and the property holders served by that company's system, specified that the maximum irrigation rate chargeable should be \$2.50 per acre. The deed of transfer made when the municipality acquired the system, states that the purchasers agree to assume the contracted obligations of the company, special reference being made to this irrigation rate. A proviso added to this clause, however, distinctly calls for the maintenance of uniformity in irrigation rates throughout the whole municipal system. Agreements between the municipality and water users specify a minimum rate of \$2.50 per acre, and this is still in force if the discount offered is taken into account. If it ever becomes necessary to increase this rate, on account of improvements affecting the entire system, the Council contend that the saving clause mentioned above would allow of the rates to Garnett Valley users being kept consistent with the rest of the municipality. Coun. Robinson's view, however, is not in accordance with this.

The following were the cases heard:

IRRIGATION AND DOMESTIC WATER GENERAL RATE.	
E. R. Simpson, 26-29 and 30-36 : 3194.	To be charged on 10 acre basis.
R. Robertson, 8 and 9 : 1073.	" " " "
Mrs. M. A. Dickinson, 24 : 473.	Reduced to 10 acres.
W. C. W. Fosbery, 7 : 2194.	" 4 "
Miss E. L. P. Hayes, 11 : 676.	" 2 "
J. J. Calder, 17 : 441.	" 7 "
J. A. Read, 14 : 441.	" 7 "
A. A. Derrick, 2 : 508G.	" 7 "
Jas. Ritchie, 12 : 474.	" 10 "
do. do. 56, 57, 60-65 : 3640.	Rebated.
Okanagan College, 1 : 2561, 1911 and 1912.	" "
J. M. McDougald, 2 : 2562.	" "
J. R. Doherty, 17 : 31 : 476.	To have pipe connection.
C. H. H. Coates, 8 : 35 : 476.	" "
Wm. Cross, 24 : 439.	Not allowed.
do. do. 28 : 439.	Reduced to 7 acres.
W. C. White, 18 : 441.	Not allowed.
J. D. Johnston, 11 : 475.	" "

ASSESSMENT.

J. A. Read, 14 : 441, Reduced to \$2,250.00
A. J. T. Anderson, Lots 1, 2, part 3, Block 10 : 3397, Reduced to \$550.00

Local News Items. Local News Items.

C. H. Cordy was a visitor to Vernon this week.

BORN—To Mr. and Mrs. C. Noel Higgin, on Wednesday, May 8, a son.

Mrs. J. W. Angwin and daughter Gertrude are at the Coast on a short visit.

BORN—To Mr. and Mrs. Harry Darke, on Tuesday, the 7th inst, a son (prematurely, living but a few hours).

Mr. G. Bateman, of Calgary, spent the week-end here and attended the funeral of the late Mrs. Dale, sen.

Rev. Mr. Daly, the new Presbyterian minister, is expected to arrive in Summerland on the evening of the 24th inst.

Ben Hoy, of the Horticultural Department, with his assistant Mr. Briton, spent two days in Summerland recently, looking over the orchards.

Mr. and Mrs. E. W. Bateman, and Miss Jessie Bateman returned to the Coast on Tuesday morning. They were accompanied by Miss Annie Dale, who will remain for about two weeks.

Summerland is perhaps the only place along the lake that has not a name plate on its front door. This is not to be the case much longer, for the C. P. R. are said to be contemplating the erection of a large sign "SUMMERLAND" at the wharf.

Meetings of the Farmers' Institute will be held on Saturday afternoon at 2.30 in Mr. W. J. Robinson's orchard near town, and in the Men's Club at night at 8 p.m. Mr. L. Harris, Inspector of Apiaries will demonstrate with Bees in the orchard and continue his lecture in the evening.

Mr. A. J. Woodburn has removed with his family to Penticton, where he is in charge of the maintenance of the Okanagan Telephone Company's system. Mr. Phillips from Vancouver, has assumed charge of the company's work here, and with his wife and family are temporarily occupying the tents in Peach Orchard vacated by Mr. Woodburn.

"Cousin Kate" is well under way and there is promise of an excellent performance by local amateurs, under the direction of Mr. Sauter. The cast will include Miss Higgin, Miss Cartwright, Mrs. C. F. Garnett, Miss Cooper, and Messrs. Sauter, Edward Logie and Villiers. The performance will be given on the evening of May 24.

The Choral Class conducted by Prof. W. H. A. Moore, will render Sir Frederic Cowen's Cantata, "The Rose Maiden," on Monday evening next, in the College Gymnasium, commencing at eight o'clock. Admission, 75 cents and 50 cents. Printed copies of the words and a brief sketch of the story will be available for the audience.

Mr. W. H. Irwin, general superintendent and secretary of the Manitoba Sunday School Association, was a visitor to town last week. Mr. Irwin has six months leave of absence, half of which time he is spending in British Columbia. He has held an orchard property at Naramata for some three and a half years, and came here with the idea that he would probably list it for sale. He has not been here since he made his purchase, and finds such a marked advance that he has decided to keep his holdings. Mr. Irwin expressed himself surprised and delighted at the progress which has been made in Summerland as well as in Naramata since he was last here.

The regular monthly meeting of the Women's Institute will be held at three o'clock in the Parlors of the Men's Club on Friday May 7. There will be a Cooking Demonstration. A good attendance is hoped for. In connection with this organization a series of lectures is announced by Mrs. Davies, on the commercial aspects of agricultural occupations for women. Mrs. Davies has for several years made a financial success of poultry-raising, and similar enterprises in Canada, and can speak from practical knowledge. The subjects will be: 1.—Poultry for Profit. 2.—Dairying for Profit. 3.—Market-Gardening for Profit. 4.—Floriculture for Profit and Pleasure. Mrs. Davies will lecture in Summerland on June 17; afternoon session, 2.30 o'clock; evening session, 8 o'clock.

Mrs. C. M. Smith returned from Peachland on Tuesday.

Mr. Aitchison is having a house erected on Paradise Flat. Jas. Darke has the contract.

Miss Alice McDougald, of Peachland, is the guest of her aunt, Mrs. G. Gray.

Rev. G. O. Fallis, of Penticton, spent a day or two in town with friends this week.

Mayor Jones, of Kelowna, was a visitor to Summerland attending the Methodist gathering here.

The Misses Tait, of Kelowna, who have been the guests of Mrs. D. H. Watson, went to Penticton on Tuesday.

Mr. H. Sutherland left on Wednesday morning on a trip to Winnipeg. He will be away for about three weeks.

Both the Bank of Montreal and Bank of Commerce local branches have been visited by official inspectors in their regular routine.

Jack Conway has returned from Kelowna and is now with the Supply Company at West Summerland.

Mr. J. J. Calder, late of Calgary, has had a residence erected on his property in Peach Valley. Mrs. Calder and son arrived in Summerland last week.

While at his work in the Supply Company's store at West Summerland, Roy Phinney wrenched his arm, necessitating a sling for some days.

The picnic season has begun, the first of the season being held by the Tuckabatchee Class of the Methodist Sunday School on Paradise Flat Thursday afternoon. With ideal weather, the large number greatly enjoyed their outing.

There will be a special meeting of the Ladies' Hospital Auxiliary on Tuesday afternoon, the 14th inst, at three o'clock in the Parlors of the Men's Club. As business of importance is to be decided, a full attendance is urgently requested.

H. L. Garraway, manager for the Okanagan Fruit Union, has been in town this week getting contracts from fruit growers for handling their crops. Mr. Garraway stated that he had nearly eighty per cent. of the entire output of Summerland accounted for. The Union is making exception for fruit consumed locally, and that required for exhibition purposes, but demands notification when fruit is disposed of through these channels. All other fruit must be handled through the Union.

The Summerland Football team journeyed to Kelowna last Saturday to meet Kelowna in a fixture of the Valley League. Kelowna scored first, but Forsyth equalized for Summerland shortly afterwards, following a corner. This was all the scoring in the first half. On the resumption of play J. McDougald was forced to retire with an injured knee. Kelowna's second score came soon afterwards, and their third on a penalty. Three minutes before the finish Atkinson scored for Summerland by a brilliant individual effort. Final score 3-2. The League table stands as follows:

	P	W	L	D	For	Ag	Ps
Vernon	1	1	0	0	4	1	2
Penticton	1	1	0	0	1	0	2
Kelowna	2	1	1	0	4	6	2
Summerland	2	0	2	0	3	4	0

Press opinions of the Kenney-Harvey Entertainers: "Their third appearance, but we're laughing yet."—Belleville Intelligencer. "Each artist in his line, but in dual work they excel."—St. Thomas Journal. "One of the best entertainments held here in years."—St. John, N.B. Telegraph. "Miss Ada Davis possesses a beautiful soprano voice of full rich quality, which shows careful training and marked ability. She won the admiration of the audience and will ever prove a favorite."

[Continued from Page 1.]
of irrigation water became greater. If electrical plant of larger capacity was installed, more water would be needed for motive power. To satisfy the needs of both irrigation and power systems, a considerable amount of water would be needed. Mr. Latimer seriously doubted if the present supply could meet these demands. With irrigation water running during the day, and a big power plant running full blast at night there would be no opportunity to conserve the reservoir supplies till late in the fall, when irrigation ceased. If a serious shortage was felt before that time, the Water Act clearly provided that an irrigation service must be maintained before all else. Consequently, in this case, the power plant would suffer.

It was on this account that Mr. Latimer advised the Council to seriously consider the advisability of installing a motive plant of crude oil engines. A 100 kilowatt capacity engine and the necessary generating plant would mean a yearly upkeep of about \$4,210. The best place for a power house to accommodate it would be in Peach Valley, near the railway station, so that oil fuel could be obtained easily. A plant of this nature could provide for a greatly enlarged electric light service, and current would be available for power purposes. Mr. Latimer reported that the present plant—which, if replaced, could still be maintained as an auxiliary unit—was now working dangerously near its capacity. The foundations under the power house were not in a condition to permit of the generator carrying a heavier load, and if more was crowded on to it, the present connections would suffer in brilliancy. It would be unwise to work the plant too near its utmost limit.

If the Council proposed to make the Garnett Valley pipeline serve for power purposes as well as for irrigation and domestic water, then Mr. Latimer would advise replacing the present wood pipe from the small dam on Prairie Creek with a steel line, to accommodate the increased pressure that would result from the two lines being linked up.

Coun. Robinson took a prominent part in the discussion which followed the presentation of this report. He first asked Mr. Latimer whether it would not be possible to get more power by going higher up Prairie Creek, even to the Reservoir. The supply from the intake on Trout Creek to the Reservoir could perhaps be augmented by putting a pipe in between these points. Further, was there sufficient water in Eneas Creek to store so that a sixteen inch pipe such as it was proposed to lay, could be continuously supplied?

The Engineer did not think that a materially increased pressure could be obtained from Prairie Creek. The higher altitude an intake at the Reservoir would have would not justify the extra length of pipe it would necessitate. The supply in the Reservoir could not be increased to any great extent owing to the very slight fall between the intake and that point. In regard to the capacity of Eneas Creek for storage purposes, Mr. Latimer was of the opinion that sufficient water would be available in the early summer, but towards the fall, the supply in the big dam would have to be drawn upon to a large extent.

Coun. Robinson then outlined his policy in regard to water and light extensions. He favored the development of the systems to the utmost. If the improved services were adequate, then the Council would be justified in expecting the revenues derived therefrom to pay a suitable dividend in the investment. There was no reason why the irrigation system should not pay. If the present rates were not high enough, then they should be raised, if a satisfactory service was given. His idea in extensions would be to work towards a universal pipe system, combining both domestic and irrigation services. This would greatly reduce the cost of maintenance. There was no questioning the need for electrical extensions, either. Provision must be made for expansion in this department in the immediate future. Later on, he thought the Canyon Creek proposition could be taken into consideration. The country immediately west of Summerland will be developed, and with the mines working, there would be a greater demand for power.

Mr. Latimer pointed out one serious objection to the idea of combining both irrigation and domestic water services. If the Upper Trout Creek district was ever thickly settled, the Creek would be liable to contamination. Domestic water from this source would have to be

filtered before it could be safely used.

Coun. Lewes reminded the Council that in addition to the laying of pipe for extension there were undoubtedly some existing fluming and ditches that would need attention very soon. In his opinion the existing works should be inspected and an estimate prepared of the cost to put them in thorough repair for some years to come.

Mr. Latimer agreed to this. If the main ditches were cement-lined, the enormous loss by seepage would be avoided to a large extent, and this alone would make a great difference in the amount of water available for use. The cost of this would be \$1 per foot or more.

Reverting again to the Garnett Valley line, Coun. Robinson asked whether it would be possible to supply domestic water to Paradise Flat from this source.

The Engineer was doubtful. No available water was high enough to be placed there without pumping, and the spring water across Trout Creek on the Indian Reserve, for which a record had been taken would be the best and most satisfactory.

Coun. Lewes questioned whether the Garnett Valley pipeline, if it were carried over the north end of Siwash Flat to the property above Crescent Beach, and then to town, instead of going direct, would pay for its increased length.

The Reeve pointed out that this route was the only way of supplying water where it had been promised.

In reply to a question from Coun. Lewes, Mr. Latimer said that the cost of installing a pipe large enough for both power and irrigation would not be a great amount above that of providing one for irrigation purposes alone.

The first step then, Coun. Lewes said, was to ascertain whether there was sufficient water in Eneas Creek for both purposes, and in this Mr. Latimer affirmed.

Coun. Robinson gave it as his opinion that the cost of improvements and extensions now called for, would cost in toto nearly \$150,000. The expenditure of such a sum would naturally call for the sanction of the ratepayers. He suggested that a detailed report of this work be prepared, to show how it would affect the individual lot owner. A complete outline of policy would enable the ratepayer to vote intelligently upon the matter, and would indicate just where the money would go. Then it would be for the people to sanction or reject.

Mr. Latimer agreed. Such a report would be very comprehensive, and would call for a close inspection of the present system. Much time would have to be expended in its preparation, adding to the cost.

It was the general feeling of the Council, however, that this should be done. Accordingly, a motion made by Couns. Robinson and Dale was carried: That the Engineer be instructed to examine the irrigation and domestic water and electric light plants as to necessary requirements, with a view to putting them on a satisfactory basis for present and immediate future requirements, with the probable cost.

The Council then adjourned till next Tuesday, the 12th inst, the regular monthly meeting.

To get better results from a hot water bottle, wrap it in a soft cloth wrung out in hot water. This will give a steaming heat and is much more effective for neuralgia, etc., than the dry heat of the bottle, as ordinarily applied.

CIVIL SERVICE ACT.

THE qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places, commencing on Tuesday, the 2nd July next:— Armstrong, Chilliwack, Cumberland, Duncan, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, Peachland, Prince Rupert, Penticton, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of 21 and 30, if for Third-class Clerks; and between 16 and 21, if for Junior Clerks or Stenographers.

Applications will be accepted if received not later than the 15th June next.

Further information, together with application forms, may be obtained from the undersigned.

Section 7 of the "Civil Service Act" provides that temporary clerks and stenographers, who have not been regularly appointed by Order in Council, must pass this examination.

P. WALKER, Registrar, Civil Service, Victoria, B.C., 1st May, 1912. my10-je14

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

A NEW CREATION WEBSTER'S NEW INTERNATIONAL DICTIONARY

THE MERRIAM WEBSTER The Only Now unabridged dictionary in many years. Contains the pith and essence of an authoritative library. Covers every field of knowledge. An Encyclopaedia in a single book. The Only Dictionary with the New Divided Page. 400,000 Words. 2700 Pages. 6000 Illustrations. Cost nearly half a million dollars. Let us tell you about this most remarkable single volume.

(Continued from Page 1.) should be expended in apparatus immediately.

The board space in some of the rooms was inadequate. Mr. Logie pointed out that the provision made by the Provincial Department had been doubled. This matter was left for the teachers and secretary to adjust.

Mr. Hunting asked for proper shading of the windows on the sunny side of the buildings. Awnings were also needed at the town school.

He desired also to draw attention of the Trustees to the prevalence of lateness among the scholars. Apparently the parents were not endeavoring to co-operate with the teachers in the matter of punctuality. It had been the practice to detain for half an hour any scholar late without an excuse, but this was not satisfactory.

Tardiness had become more noticeable since the long hours had been resumed. By a system of award to the class with the least number of "lates" the number had been greatly reduced, but the trouble had not yet been eliminated. The absence of a standard time could not justly account for the unpunctuality. There appeared to be a number of eligible children who were not attending school at all. There was no one whose duty it was to hunt up absentees, and so this matter had been neglected.

There was some discussion on the points Mr. Hunting had presented, but as the hour was already getting late it was proposed that fuller consideration of the points be left over.

The secretary was instructed to interview the janitor and arrange for a more satisfactory continuance of this work.

REGULAR SESSION.

Regular business was then proceeded with.

Insp. Gordon submitted his report on the work of the High School, which was read by Mr. Logie.

Miss Lister, whose parents reside at Balcom, and who is at present attending Normal School in Vancouver, applied for a position on the school staff here, when a suitable vacancy occurred.

Mr. Logie reported that there was no word from Inspector Miller, and consequently the date of the proposed public meeting could not be fixed.

The following accounts were submitted and passed:

Table with 2 columns: Item, Amount. Includes Salaries (\$500.00), W. Ritchie, plumbing (69.80), A. H. Steven, contract (170.00), etc.

The School Board then adjourned to meet in special sitting on Wednesday afternoon at 8 o'clock.

The adjourned session on Wednesday afternoon in the Municipal Building, West Summerland, was brief. Order was called just before four o'clock and adjournment was made about 5.30. The same Trustees were in attendance.

The principal business was the consideration of the points raised by Mr. Hunting at the Saturday meeting.

Secretary Logie, reported that he already had in hand the matters of the water pressure in the sanitary fountains, the seepage from the septic tank, and the additional blackboard space.

Requisitions submitted for High School and Primary supplies raised a question of the care of permanent equipment. Apparently a considerable amount of apparatus is lost sight of, and it was felt that a system should be instituted whereby the teachers make a periodical report of the supplies they have on hand. The individual items on the lists were gone over, and W. J. Robinson moved and Dr. J. P. McIntyre seconded that the secretary and Dr. McIntyre be a committee to procure goods for the schools as requested by the principal; and that an invoice be given to the teachers with a request that they give a written report of what they have on hand at the end of the term.

The date of Inspector Miller's visit to the schools is still uncer-

tain, and the secretary will make arrangements for the public meeting that the Inspector will address on the school situation from the standpoint of the Education Department.

The building of the stone wall on the east and south sides of the Central School grounds was considered, and it was decided to call for tenders for its construction. The wall is to be 2 1/2 feet high, eighteen inches wide at the base and twelve at the top, stone faced and concrete backed. Further specifications may be obtained from the secretary. Tenders will be received up to the 22nd inst.

The secretary will look into the cost of awnings for the windows on the sunny side of the schools, and the question will be disposed of later.

The meeting then adjourned.

THE LATE MRS. GEORGE DALE.

The funeral of the late Mrs. George Dale, who died on Friday morning last, after a short illness, took place on Sunday afternoon. A brief service was held at the home of her son, John, where Mrs. Dale herself had resided. Friends from all parts of Summerland attended. Many of them unable to find room in the house, waited outside and followed the coffin to the grave. Rev. F. W. Pattison, pastor of the Baptist Church, of which Mrs. Dale was a strong member, conducted the service.

Active almost till the end, in spite of her eighty-two years, Mrs. Dale was respected throughout the whole community, though she was not able to get out a great deal. She was born in Ireland, and came out to Ontario in the early days. Her first move westwards was to Portage la Prairie, and from there she came to Summerland in May, 1907. Two sons and two daughters, survive her, and all were present when she passed away. They are Messrs. Thomas and John, and Miss Annie Dale, and Mrs. E. W. Bateman.

JIMMY'S LETTER TO DAD.

Okanagan College, West Summerland, May 8, 1912.

Dear Dad: Your letter of admonition received last Saturday night, and I have taken my pen in hand, etc. There has been quite a lot doing lately, but mostly in the sporting line. I sent you a marked copy of the "Review" telling of the game with Oroville and Penticton, so you didn't miss much about them. The chief topic of conversation at present is the impending examination period which begins a week from to-day. Ten days or so of that then closing on the 28th, and hurrah for home. I certainly do not envy those poor teachers and pupils in the high school that have to stay another month. Quite a number are preparing for the McGill Matriculation exams, and there seems to be good reasons to suppose that most of them will pass. Next Monday night the Choral Concert is to be given. All our talent is local but all is good. Mrs. Ross, the soprano, doesn't need any introduction to anyone in a Summerland audience, since she has sung acceptably so many years. Miss Annie Campbell, though a Vancouverite, has been at the College here for several years, and though not fully trained yet, has a voice of great promise and wonderful sweetness. Miss Campbell takes the contralto work. Mr. B. Newton, the tenor, has a reputation already as an oratorio and cantata singer. Mr. Wallace Wright, the fourth member of the artists' quartette, has a sweet baritone voice of almost tenor quality in his upper notes. While not strong its limpid purity is very pleasing. Professor Moore, the conductor, and Miss Lou Scheeler, the accompanist, are both well-known here by their work.

This afternoon, the regular junior baseball team—which by the way was defeated by the town juniors—had another very interesting game with a nondescript bunch from the College, which was distinguished by its many names. They were, however, those in the College who did not represent the College on either the senior or junior teams. The game waxed fast and furious, and finally ended with a score of 11—7 in favor of the juniors. Elliott's curves had the other team hitting wildly a greater part of the time, though he issued four passes in the first inning. A return game is to be arranged at an early date.

Tell the folks to have lots of good stuff to eat when I get back. Lots of love to all,

Your JIMMY.

Naramata Notes.

Mr. and Mrs. Edgars have taken up residence in the Palmer cottage.

Mr. J. S. Gillespie has been granted a license to act as Notary Public for the town and district.

There appears to be considerable movement in real estate transfers particularly of centrally located town lots.

Capt. and Mrs. Languedoc were in Summerland over Sunday the guests of Mr. and Mrs. W. J. Robinson.

Mr. and Mrs. Reid and daughter Miss Reid have removed to their new home on their orchard immediately opposite Mr. Allan.

Mr. F. J. Roe, of Montreal, a brother of Mr. Gerald Roe, of Hotel Naramata, was in town for a few days this week.

Miss Colby and her mother, after a month's visit at Naramata, left on Tuesday on their return trip home to Sherbrook, Quebec.

Mrs. Steele, of Vancouver, came in on Wednesday's boat to take up residence on the well-known Wellband ranch.

The folks who gathered at the Unity Clubhouse on Thursday evening are reported to have had a pleasant and profitable social time.

Those who attended the ball in Penticton on Tuesday evening given by the young ladies' Hospital Auxiliary report having had a good time.

Mr. Carroll Aikins has returned to Winnipeg. During the spring season Mr. Aikins has had another large addition made to his orchard holdings.

Mr. J. H. Pushman has purchased the handsome residence known locally as the Wellband house from T. H. Boothe and will shortly move to town.

The contract for constructing the building for the bottle-works has been let to a local contractor, Mr. Geo. Cook, who commenced operations on Thursday of this week.

Mrs. J. H. Pushman was a visitor to town on Tuesday, and while here took advantage of a chance of a pleasant drive to Chute Creek, to visit the folks at North Naramata.

Mrs. Cash, a sister of Hon. Martin Burrell, and Mr. Cash, her son, are among the guests at the Hotel. They purpose occupying the new summer cottage now in course of construction on the lake shore.

The work of road construction has begun in earnest with Mr. W. Nuttall again in charge. The program for the season is fairly extensive, and will include a good deal of widening of existing highways.

The creeks are this week all at high water and the time is opportune for visiting the Spray and Bridal Veil falls on Camp Creek. Already parties are being formed to visit the famed spots in the near future.

LEFT FOR THE WEST.

(Ottawa Citizen)

On the eve of their leaving for the fruitlands of British Columbia, presentations were made by employees of the Royal Mint to Messrs. Peter S. Roe, foreman of the mechanical department, and Wm. McGann, foreman plumber and steamfitter, both of whom have been connected with the Mint since it was opened five years ago. Mr. Roe was presented with a purse of gold at the Mint Building. The presentation was made formally by Mr. Thomas H. Mansell, foreman of the operating department, and a number of the men who had contributed were present. Mr. McGann was rounded up at the Union station Friday, as he was just going to board the westbound train, and he was also made the recipient of a purse of gold, Mr. Johnson doing the honors.

Mr. Roe, with his wife and family, has left for Applodale, B.C., there to become superintendent of irrigation for the Okanagan Land Company, while Mr. McGann will start a general agency and plumbing business in Naramata, B.C.

To destroy rod ants, grease tin plates with lard and put them on the floor with a few sticks for the ants to climb up. Soon the plates will be covered with ants, which prefer lard even to sugar. Turn the plates upside down on a hot fire.

Extremes meet when the kitten plays with its tail.

Whole No. 196

RAILWAY CONSTRUCTION NOW UNDER WAY.

Notes of Progress Along the Line.

The advent of the railway contractors has made a marked change in the volume of business about the waterfront and streets. A number of four-horse and mule teams are busily engaged transferring stores and material from the dock to the right-of-way. Messrs. Carlson & Co. have completed their large warehouse beside the dock track and have also built an office on the shore between their storehouse and the Post Office. A great deal of material is arriving by each trip of the Castlegar, and while many carloads are in storage, the goods are being transferred to the camps as rapidly as possible.

A resident who visited Penticton recently reports that merchants there are feeling very sore because of the establishment of the base of supplies at Summerland. That town had evidently counted on being the centre of activity for construction both east and west. According to information gathered at Carlson & Co.'s office, Summerland will be the base of supplies for construction south to Penticton and west as far as the present contract covers.

The site of the proposed line is also a scene of much animation. Here and there at short intervals sub-contractors are building quarters, and in one or two places actual removal of dirt has commenced. All along the right-of-way is being cleared. There will be ten crossings by the railway of the roads in the district, all of which with one exception have been amicably adjusted. That nearest Trout Creek Canyon will be submitted to the Railway Commission.

While there are a good many men about the town and district who have not yet commenced actual work, excellent order still prevails. Reports of petty stealing here and there being the only irregularities heard of.

A recent issue of the Oroville Gazette reports a great caravan of wagons and men passing northwards through that town heading for Okanagan Lake where they are to work on the Kettle Valley Railway. Box cars or any other sleeping accommodation was utilized, but notwithstanding that it was impossible to find shelter for them all, they were quiet and orderly.

(Star, Princeton.)

J. J. Warren, president of the Kettle Valley Railway, spent three or four days in and about Princeton last week, leaving on Saturday for Penticton. He thinks Princeton will grow with the development of its resources.

It is not probable any contracts for grading on the Kettle Valley line will be let from Princeton east or west before the latter part of summer or early fall. There is only one locating survey party in the field, Brooke's, and until he has finished it is conjectural where the line will finally be located. From the Fivemile country there are two routes by which to approach Princeton.

(Grand Forks Gazette.)

Contracts have been let for 45 miles of construction work on the Kettle Valley Railway west of Carmi to Cross, Duffy & Heckman, and Carmi is at present the scene of much preliminary construction activity, according to Chas. Mix, who returned this week from a trip up the West Fork.

Subcontracts have been let to Williams & Pondergast for nine miles, and to J. Dunsatt for ten miles. They are getting supplies in and having camps built to proceed with the work.

Steel is now laid from Midway to within five miles of Carmi, a distance of 27 miles. The new contract let will be rushed to completion this summer, and will take the steel close to the summit on route from Carmi to Penticton, a distance of 78 miles.

(Merritt News.)

Twohy Brothers have secured the contract for thirty miles of Kettle Valley construction, from the end of the roadbed already made out of this city towards Princeton. Bright & McDonald have secured the con-

tract for the work from the summit of the Coldwater river to the head of the Coquahalla. Dirt will begin to fly as soon as the road finished is opened for construction trains. This work is delayed on account of customs difficulties at the boundary over which the locomotives are being brought.

Last week Chief Engineer Kennedy, of the V. V. & E. telegraphed to the foreman of the Great Northern construction work at Hope to commence work up the Coquahalla. The Kettle Valley Company will not be caught napping, and it is expected that there will be a grand rush between the two companies to get the first steel laid in the Coquahalla. The dilatoriness of the engineer appointed to report upon the feasibility of a two-road route up the Coquahalla bids fair to waste the summer. Neither road can afford to wait upon such slow moving tactics, and it would seem that they are going to build the roads and then let the engineer find out that two roads are quite feasible.

WORK AT PARADISE FLAT.

A gang of about fifteen men are working a transformation in the Paradise Flat district, Summerland's latest subdivision, at the head of Peach Valley. A year or two ago, this district was a wide expanse of wooded virgin soil. Now, by man's direction, Nature is being made to yield a more profitable crop than cordwood. Development work is proceeding apace. The pipe for the irrigation system is being laid as rapidly as a shortage of labor will permit. The great work now on hand, however, is the planting of trees. A large shipment of nursery stock arrived recently, and if the ideal conditions for this work which have lately prevailed continue, rapid progress will be made. Before planting operations stop, some twenty thousand trees will have been set out.

The Paradise Flat proposition, as a whole is a most attractive one. It will appeal especially to investors who prefer to get in at the beginning of things, rather than at a later period of orchard development. All the planted trees are being fenced, and will be served by the municipal pipeline irrigation system now being installed. Provision is also being made for a domestic system, which will be installed when the demand is called for. Already several residences are in the prospective, and Paradise Flat will not be the least among the flourishing adjuncts of Summerland, if present indications are rightly interpreted.

REAL ESTATE TRANSFERS.

The ten acre orchard on Jones Flat, the property of G. A. McLaine has been purchased by J. L. Hilborne, of Leamington, Ontario, who recently visited this district. The sale was made through the office of G. A. McWilliams.

Another property to change hands is that held by Clive Dent, of Winnipeg, an 8 1/2 acre lot opposite T. J. Garnett's. Mr. G. Marshall is the purchaser. This sale was also made by Mr. McWilliams.

RIFLE ASSOCIATION.

The attendance at the last practice shoot was all that could be desired, the whole of the members who have joined this year, nineteen in number, turning out, together with ten men from the Penticton Rifle Association. The latter motored up for a shoot over the long ranges, to get in practice for the Okanagan Shoot this week. The leading scores of the local men were:

	200	500	600	Total
M. Stuart	32	32	31	95
J. Dunsdon	33	32	30	95
O. Smith	27	33	31	91
H. Dunsdon	31	31	29	91
B. Stewart	28	32	28	88
W. Nelson	20	31	25	86
F. Gartroll	28	25	32	85
F. Nixon	26	27	20	82

On Wednesday morning about eight members of the Summerland Club journeyed to Armstrong to take part in the annual three days shoot of the Okanagan Rifle Association, and it is fully expected that they will uphold Summerland's previous successes. Practice on the range as usual this week.

ANOTHER PROTRACTED COUNCIL SESSION.

CLEAN-UP DAY TUESDAY NEXT, MAY 21.

Reeve and Coun. Robinson Will Make Provision for a Lock-up. Dog Tax By-Law Finally Passed. Garnett Valley Irrigation Rate Crops Up Again. Some Litigious Questions Raised.

The regular meeting of the Council on Tuesday last was another all-day session. Many matters of minor importance were dealt with, and a few of greater moment. It was a great day of discussion. The minutes of the last meeting were read to a full Council, and declared adopted by the Reeve.

PERSONAL INTERVIEWS.

Before proceeding with the regular business several who sought personal attention from the Council were given hearings, and adjournment for luncheon was necessary before these were concluded.

R. S. Munro, of Peach Valley, was the first heard. He came representing the interests of his brother, Dr. Munro, of Vancouver, protesting against his assessment for water rates and land values. An adjustment satisfactory to him was made on the water rates last year, but this year the charges had reverted back to the original amount. Additional assessment and general water rates had been levied on account of a pipeline ordered to be laid, but not yet installed. It was pointed out to Mr. Munro that the Assessment Roll for the year 1912 had been closed, and to open it again would be a bad precedent.

Mr. Munro also called attention to three other matters, upon which he had already been in communication with the Council. They were the removal of some trees from the corner of a lot, which were interfering with the growth of crops he was trying to raise, and which the Council were under promise to remove; the bad condition of the road across the alkali swamp, which needed building up with gravel; and the seepage from a leaking flume, causing alkali to rise. Coun. Lewes will investigate these matters with Supt. Mitchell.

W. J. Smith, of Garnett Valley, again emphasized a long standing complaint he has with the Council. A small dam on his property, used to raise the water in the ditch up to a level to enter the Siwash Flat flume, was overflowing, with detriment to his land. This dam was the source of Mr. Smith's domestic water supply; but the water did not run fast enough to keep the dam clear of obnoxious growth, thus affecting the purity of the water. This state of affairs has prevailed for three years.

Schemes for the abolition of this dam were discussed, and it was finally promised that the Council will investigate and act as they see fit.

PEACH ORCHARD SUB-DIVISIONS.

Mr. J. M. Sutherland presented for the approval of the Council plans of sub-divisions in Peach Orchard, lots 1 and 2, block 6, and lots 1 and 2, block 9. A contentious question arose when it developed that the legislation under which these plans had been drawn up was since amended, and this involves the question of the width of a street allowance. Mr. Sutherland argued that the Council could state the plans approved under the old legislation. Then the Registrar at Kamloops could take up any question of legality with the Attorney-General. No liability attached itself to the Council if this course were pursued. Mr. J. A. Kirk supported Mr. Sutherland in this view. The question for the Council was whether, in the face of new enactments now in force, approval could be given to plans prepared under the obsolete laws.

It was proposed in the morning to refer the question to W. C. Kelley, solicitor, for legal opinion. Later in the afternoon, however, it was resolved that the plans be affirmed in so far as the streets are concerned, and the Clerk be author-

ized to sign the same on the other conditions of the Land Act being complied with.

Mr. Sutherland brought up the question of the claim for damages presented to the Council some time since on account of sawdust in water pipes. This claim was turned down at the time on the ground that too long a time had elapsed before the Council were notified of the damage. The Clerk read from the statutes supporting this decision, and Mr. Sutherland accepted this ruling.

Mr. C. Bentley, on behalf of Mrs. K. Bentley, asked permission to consolidate two lots of four and five acres respectively, separated by an apparently unusable road allowance, into one lot of nine acres. Mrs. Bentley was prepared to replace the flumes at present in use by pipes at her own expense, if the Council would put water to one point which would serve the whole nine acres. Tacit consent was given to this.

A rebate asked for by Mr. Bentley on the ground that six days of irrigation out of sixty were lost, entitling a discount of one-tenth, was not allowed.

Regarding a road in the vicinity of their property, a short cut across a corner of a piece of land now held by Mr. Logie was being used, but this was being fenced in, and traffic would soon have to use the proper road allowance, which was in exceedingly bad condition. Mr. Bentley suggested that the Council take steps to secure the piece of land now being used, which would make a much better road, and give more satisfaction. Perhaps the Council could visit the spot and satisfy themselves as to this.

The hearing of the cases, and incidental discussion occupied the entire morning session.

T. P. Thornber, municipal electrician, was in attendance after luncheon in regard to an account presented by him, which had not yet been paid, on account of the time charged up being questioned. On a vote of the Council this account was passed. In reply to a request from Mr. Thornber, on behalf of the ladies of the Anglican Church, permission was granted to extend the electric light temporarily to Agur's boat house, at no expense to the Council.

GARNETT VALLEY IRRIGATION RATES.

The question of the Garnett Valley irrigation rate was raised by J. Dunsdon, who waited on the Council. Mr. Dunsdon stated that he was prepared to pay an irrigation rate of \$2.50 per acre, but since this was the maximum rate his agreement with the Garnett Valley Land Co., allowed, he could not recognize any discounts or rebates. Including the discount the present rate was three dollars per acre, which was higher than the Council could legally go, if they were to abide by the agreement made by the Land Co. to the lot owners.

This contention raised a discussion on the question of irrigation rates throughout the municipality. The rates must be kept uniform, and at the present scale of charges, the system is not paying expenses. The Council desire to settle the Garnett Valley amicably, avoiding, if possible, the employment of legal machinery. The advice of W. C. Kelley will be obtained on the two agreements.

The matter of irrigation rates being charged from the 1st of May, when the water was not available till some days later, was again brought to the notice of the Council. Mr. Dunsdon suggested that the water be turned on earlier, so that the system would be in full swing by May 1.

On behalf of the Civilian Rifle Association, Mr. Dunsdon asked

INSPECTOR MILLER COMING.

Secretary Logie has this morning received information that School Inspector Miller will be here next week and asks that Mr. Logie arrange for a public meeting to be held on Wednesday, the 29th inst. All interested in school matters are requested to be present at the Central School on that evening to hear what Inspector Miller has to say on the school situation in Summerland up to the present time.

EMPIRE DAY PROGRAM.

Arrangements have been made to hold a day of sports on Empire Day, Friday next, at West Summerland. The two big events are an Okanagan Valley League Football game, Vernon versus Summerland, and a baseball game, Oroville versus Summerland. These alone should draw good crowds. The athletic events are as follows:

- 100 yards flat race, open.
- 220 yards flat race, open.
- 1/2 mile flat race, open.
- 1 mile flat race, open.
- High jump, open.
- Long jump, open.
- Putting the weight, 14 lbs. open.
- Sack race, open.
- Entry fee for the above, 25 cents each event. The following have no entry fees:
- Thread and needle race.
- One mile relay race, four men.
- 100 yards boys under 15.
- 50 yards boys under 15.
- 50 yards girls under 15.
- 50 yards boys under 12.
- 50 yards girls under 12.
- 100 yards Boy Scout race in uniform, 14 years and under, and over 14.

A tug of war will also be held. A prize list of \$150 has been subscribed. Events will not necessarily be run in this order. Entries will be received by Chas. A. Marshall, secretary.

At 8.30 p.m., in Empire Hall "The Summerland Players" will present a three act comedy "Cousin Kate." Reserved Seat, \$1.00, admission, 75 cents.

GOD SAVE THE KING.

HOSPITAL AID.

The Ladies' Hospital Auxiliary, who have undertaken to provide for the rental of the hospital building, will hold a ten cent tea at the home of Mrs. R. M. Ross, on Tuesday afternoon, May 21st, at three o'clock. The proceeds in full will be applied to the rent account. Gentlemen as well as ladies are invited to attend, being assured a pleasant hour. There will be music while tea is being served.

PENTICTON'S TAX RATE.

The Penticton Council have struck the tax rate for the present year at 17 1/2 mills. This is 1/2 mill less than last year, despite the fact that provision will have to be made for interest and sinking fund on waterworks and electric light debentures to the extent of \$26,000. Another year the revenue from these departments will meet this, but owing to the fact that water will not be turned on before July, and electric current not before winter, the income will be small this year.

The low tax rate would not be possible were it not for the fact that there is an increase in the assessment over last year of over one million dollars. The single tax is in force and no taxes are collected on improvements. This is a means of discouraging speculation and encouraging building to a very large extent.

A grant of five hundred dollars has been made to the Board of Trade for publicity purposes. Yet there is a strong feeling that this amount is inadequate, and a movement is on foot to ask the Council for a much larger sum and submit the whole question to the people on a referendum vote. If the necessary signatures are attached to a petition this will likely be done quite soon.

CARD OF THANKS.

The family of the late Mrs. Dale desire to express their sincere thanks for the kindness and sympathy extended to them by so many friends in the time of their bereavement.

A SUCCESSFUL PERFORMANCE.

College Choral Class Gives Cantata "The Rose Maiden."

Monday evening's performance of "The Rose Maiden," a cantata by Sir Frederic Cowen, was a success. In some respects it was the most enjoyable musical event the College has given this season. Some three years have elapsed since a local choral concert was given, but it is hoped that another three years will not elapse before another comes along.

Almost two hundred people gathered in the College Gymnasium, comfortably filling the hall. This was, perhaps, not as many as were expected, but this is a busy time of year. Certainly there were many more who would have attended had they known the nature of the music.

"The Rose Maiden" is a typically modern composition. The music carries with it a subtle suggestiveness, in harmony with the beautiful lines adapted from the German. The solo arias are for the most part simple and uninvolved, appealing on this account more strongly to the audience. The choruses were few in number but effective, and strongly rendered. Printed copies of the words allowed the audience to follow the progress of the story, though the value of this privilege was discounted when the lights were reduced.

The big hall is admirably suited to concerts of this description. The platform was arranged very effectively, and accommodated the performers, who numbered about fifty.

To Mrs. Geo. Ross belongs the honor of the evening. Seldom, if ever, has Mrs. Ross been heard to better advantage. It is some time since she has appeared upon a public platform, and it was indeed a welcome reappearance. Particularly pleasing was her solo, "The Rose of Love," and the repetitions of the tuneful air.

Miss Annie Campbell has already appeared in College recitals once or twice. Her contralto is of exceptional quality and volume. Overcoming a slight tremulousness at first she sang later with a confidence beyond her youth.

Mr. B. Newton possesses a tenor voice of wonderful clearness and strength. He reached his highest notes with surprising ease, and with no sacrifice of tone or volume. His was perhaps the heaviest solo part, "The Sleep of Even" his last solo, appealed most strongly to the audience.

Mr. Wallace Wright, baritone, was lacking in volume, but nevertheless sang his solos with rare sweetness. It was in the concerted passages that his voice was partially lost.

To Miss Loa Scheeler, accompanist, fell the hardest work of the evening. It was a difficult accompaniment, but at the hands of Miss Scheeler nothing was lost. To her should go a great deal of the credit for the success of the performance. The chorus consisted of nearly fifty voices. The male parts were short, but still held their own. The familiar "Bridal Chorus" was their best effort as a whole. The ladies' chorus also deserves special mention.

The entire performance was a great tribute to Prof. W. H. A. Moore, the conductor, who spent much time on its preparation. Suggestions are being heard for a repeat performance, and this would be welcome, for such a work cannot be assimilated at one hearing. Choral concerts are always popular, and this work should be made one of the regular branches of the Music Department of the College, which is now properly looked upon as the centre of Summerland's musical activities.

MAYOR LOSES HIS SALARY.

Nelson, B.C., May 15.—Nelson's mayor is now without the salary of \$1,200 a year, which has been paid to the city's chief magistrate since incorporation in 1897. Announcement was made to this effect yesterday on account of the amendment to the Municipal Act, which prohibits the payment of a salary to a mayor in any city with a population of less than twenty thousand.

Some Orchard Pests And Their Control.

By B. HOY, B.S.A., Assistant Horticulturist.

For purposes of study and of treatment, Orchard Pests may be divided into four great classes:

1. Insect Pests, such as the Aphis, Caterpillars, the Oyster-shell Bark Louse, and the Tent Caterpillar.
2. Fungous Pests, such as Apple Scab, and Peach Leaf Curl.
3. Bacterial diseases, such as Cherry-tree Gummosis, Fruit Pit, and Water Core.

INSECT PESTS.

Before destroying any insect affecting the orchard, three points should be carefully observed.

1. Whether it is actually injurious or beneficial. Many insects, such as the Lady Beetles and the Syrphus Flies, are of great benefit. Watch closely, and determine the form of injury.

2. With injurious insects, note the manner in which the food is absorbed, particularly whether from the surface, or whether by suction from below it.

3. Decide on the most vulnerable point in the insect's life history. For general purposes of control by spraying, insects may be divided into two classes:

First—BITING INSECTS, provided with biting jaws adapted to chewing food. These are usually controlled by covering the plant with a stomach poison, such as Arsenic in a suitable form.

Second—SUCKING INSECTS. Are more difficult to control. They are provided with sharp beaks, with which they pierce the surface and draw their food in the form of the plant juices from below it. There is no way of reaching them with a stomach poison, just as a mosquito, which is one of this class, cannot be poisoned by Paris Green. The Aphis and the various Scale Insects are our principal foes in this class. For Sucking Insects we, therefore, use a contact insecticide, that is, one which kills the insect by touching it, either by filling up the breathing pores, which are situated along the sides of the body, as with Kerosene Emulsion, or by the general caustic action of the spray, as with Lime Sulphur. To get results with contact insecticides, every insect must be covered. With stomach insecticides, we spray to cover the entire surface liable to injury. With contact insecticides we spray to cover every insect.

Most insects have four stages in their life history:

First—The egg.

Second—the larval, or worm form, which is the period of growth, and during which most insects do their injury.

Third—The pupal form, usually a resting form, and usually also invulnerable in practice.

Fourth—The adult, or perfect form.

In the case of the Tent Caterpillar, for instance, the eggs are deposited in the fall, in a mass surrounding a young twig, and coated with a waterproof covering. The Winter Spray usually does them little harm. The eggs hatch in the spring, the larva or caterpillar growing rapidly on the young leaves. This is evidently the time to destroy it with a stomach poison, as it is a Biting Insect. The Codling Moth is another example. The egg is laid on the surface of the leaf or fruit, and is not vulnerable to any practicable spray. As the young larva hatches out, it may feed for a few days on the surface of the leaf, but usually makes its first meal on the surface of the fruit, generally in the calyx end. As we have no means of attacking it unless it has penetrated the fruit, it is evident that some stomach poison must be administered with its first meal. This we secure by an arsenical spray, thoroughly applied just after the blossoms fall. We have no means of attacking the pupal form or the adult form, despite many trials. With a knowledge of the principal facts concerning the life history of any pest, we are able to determine possible and practicable methods of control.

SOME PRINCIPAL ORCHARD INSECTS.

THE BUD MOTH. A small, brown caterpillar found eating the buds early in the spring. If plentiful, spray with Arsenate of Lead, 2 pounds to 40 gallons of water, just as the buds begin to open.

THE LESSER APPLE WORM. A small pinkish larva, similar in general aspects to that of the Codling Moth. It eats into the apple in much the same way. Found principally in the Victoria and Armstrong districts. If serious, spray with Arsenate of Lead, 2 pounds to 40 gallons of water, just after the blossoms fall.

THE CODLING MOTH. Not found in British Columbia. The most serious pest of the apple grower anywhere. The spray mentioned for Lesser Apple Worm is the most effectual for Codling Moth, and should be followed by another spraying in about ten days.

TENT CATERPILLARS, FALL WEB WORM, RED AND YELLOW HUMPED APPLE TREE CATERPILLARS, AND OTHER LEAF-EATING INSECTS, may be destroyed with Arsenate of lead applied when the insects are first noticed.

PEAR AND CHERRY SLUG. A black, slimy larva, resembling a tadpole in appearance, but only about half an inch long, found eating the upper surface of the leaves of the Pear and Cherry. The first brood is prevalent in June and early July, and the second in August. One of the easiest insects to destroy, either with Arsenate of Lead, one pound to forty gallons of water, or even with ordinary road-dust or slacked lime sprinkled on them.

SCALE INSECTS, the OYSTER SHELL BARK, the SAN JOSE SCALE, and OTHERS OF THE SAME TYPE, are all easily controlled by the winter application of Lime Sulphur Solution. The commercial Lime Sulphur, testing to 32½ degrees Baume, should be diluted with nine parts of water. This spray controls all scale insects, and is beneficial in other ways. If applied in the spring, just as the buds are swelling, it not only aids in destroying the eggs of Aphis and Red Spider, but it is important in the control of many plant diseases, such as Peach Leaf Curl, Apple Scab, and some types of Canker.

APHIS.

There are numerous kinds of Aphis: on the Apple, the Green Aphis, the Rosy Aphis, and the Woolly Aphis; on the Pear, the Green Aphis; on the Plum and Prune, the Hop Louse and the Mealy Aphis; on the Peach, the Black and Green Aphis; and on the cherry, the Black Aphis; but the remedies for all of this class are similar.

The spring applications of the Lime Sulphur destroys many of the eggs in the winter forms. During the summer, attacks of Aphis are controlled with a solution of Black Leaf 40, Whale Oil and Quassia Chips, Kerosene Emulsion, and other contact insecticides. Use at the strengths indicated on the Spray Calendar.

With the root forms of the Woolly Apple Aphis and the Black Peach Aphis, it is necessary to clear the earth from around the base of the tree, and sprinkle with tobacco stems. This treatment gives reasonably good results.

BORERS. These affect the Apple and the Peach principally. The borers should be dug out with a sharp knife in the spring. Lime Sulphur, especially if considerable extra Lime is added, acts as a deterrent. (To be concluded next week.)

According to a list compiled in Tokio, there are only 1018 Japanese who possess \$250,000 or more in the whole world, although the population of Japan, including Formosa, is over 51,000,000. Ten years ago there were only 441 of rich Japanese.

Eels have been known to live in captivity sixty years; salmon are said to live in healthy condition one hundred years; carp occasionally reach one hundred and fifty years; and pike have been known to enjoy an even longer span of life.

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

NO matter how your mothers may speak, their hearts are in the right place; if their attire is old-fashioned and their manners not up to the frills of the twentieth century standard, they have had experience of more value than all the schooling and extra accomplishments that you may think of shining excellence. Heed your mother—you will never regret it.

It is the mother of a household whose life is chiefly threatened by monotony. She stays at home. She is always in the house seeing the same things, hearing the same voices, doing the same work day after day, with endless regularity. The demands upon her time and strength and love and patience are increasing, and the wonder is that she does not break-down more frequently than is actually the case.

GIRLS, listen to your mothers; they are your wisest teachers, your best counsellors. Even though you have received a college education and the dear one who in all probability has denied herself to give it to you has never gone beyond the third reader, you can rest assured that it is not book learning that will keep your feet away from many pitfalls that she can warn you from in tender, loving fashion that you will do well to heed.

ONE reason why some men do not get along better in this world is because they have not the proper stimulant in their homes. Their homes lack those little touches of refinement which bring the best out of them. Neatness and taste are possible in the poorest homes. Let a woman make the atmosphere as dainty as her means allow, and she will raise her husband to the same standard. And as she elevates him the effort is felt upon herself, her children, her home, and her future.

WHEN you want to get your grandest idea of a queen, you do not think of Catherine of Russia, or of Annie of England, or Marie Theresa of Germany, but when you want to get your grandest idea of a queen you think of a plain woman who sat opposite your father at the table or walked with him arm in arm down life's pathway; sometimes to the Thanksgiving banquet, sometimes to the grave, but always together—soothing your petty griefs, correcting your childish waywardness, joining in your infantile sports, listening to your evening prayers, toiling for you with needle or at the spinning wheel, and on cold nights wrapping you up snug and warm. "Mother! mother!" Ah, she was a queen!

MANY women are martyrs, and yet they do not know it. They shut the sunshine out of their houses and their hearts, they wear veils, they carry parasols; they do all possible to keep off the subtlest and yet most potent influence which is intended to give them strength, beauty and cheerfulness.

DO not distrust your friend. You may not always understand his actions and consequently you may not interpret them aright. If he is impulsive he may not always act in accordance with your ideas, he will make mistakes, and perhaps stumble by the wayside. But if he is your friend stand up for him and believe in his goodness and virtue and his desire for your welfare. Remember that you cannot see his heart, and there is more of nobility and goodness than appears on the surface. You cannot afford to distrust him; for real friendship is rare. Do not hold yourself aloof from him but encourage him by counsel, precept and example. Help him if he is weak, and encourage him if he falters. His heart will go out in gratitude, and you both will have made the world better.

WOULD it not be a good plan for the girls in country neighborhoods to form classes, and get a competent, experienced dressmaker to teach them the principles of dressmaking. It is a satisfaction to wear well fitting, stylish dresses, though they need not be, and if home-made, would not be, expensive ones. A perfect-fitting waist pattern once secured—and this the teacher should be able to give them—endless variety may be made by different materials and modes of trimming. When their course of instruction was finished, the class might subscribe for two or three of the best fashion monthlies, and then keep up with the best new modes. They could and should be able to help one another in the parts of fitting that one cannot well do for herself, and be gaining at the same time an art useful to them all their lives.

IF all the members of a family were as courteous and kind to each other as they are to strangers, what a difference it would make in the home atmosphere.

WE never knew a man who was faithful to his early and adopted home who was given over at the same time to any gross form of wickedness. If you find more enjoyment in the clubroom, in the literary society, in the art saloon, than you do in these unpretending home pleasures, you are on the road to ruin.

ALL the elegance in the world will not make a home, and a spoonful of love exceeds whole shiploads of furniture and all the gorgeousness the world can gather.

FRIENDS OF INDIANS WAIT ON FEDERAL GOVT.

Ottawa, May 7.—The old appeal of the British Columbia Indians for some sort of recognition of the title claimed by the Indians to lands in British Columbia was renewed to-day, when a deputation consisting of Rev. Canon Tucker of London, representing the Moral and Social Reform Council of Canada, and Rev. A. E. O'Moira of Victoria, representing the Indians and their friends, waited on the government. The ministers present were Rt. Hon. R. L. Borden, Hon. Robert Rogers, and Hon. Martin Burroll. Mr. O'Moira argued that

the Dominion government ought to take action, the Imperial and the Dominion governments having always favored a recognition of the claim or an adjudication by the survey council, while the provincial government had held that there was no issue. Hon. Robert Rogers assured the deputation he would take immediate steps toward a satisfactory solution, and would see that the rights of the Indians were safeguarded.

We do not always perceive that even the writing of a note of congratulation may be made by us the performance of a most sacred and blessed work.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.
In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 17, 1912.

JAIL AND POLICE.

THE IDEA of building the jail and courtroom over the electric light station is a happy one. By building there the lot on Ninth Street will be saved for other purposes, and to have the cells and courtroom above the electric light station will greatly simplify the matter of heating during the winter. The present building could well be made one storey higher and the upper storey would be readily approachable from the street. By using the same material—cement blocks—there would be an air of solidity and security that would have its moral effect. Altogether, we think this a much better site than that originally proposed, opposite the Drug Store.

That the townspeople are disappointed in the arrangement made for police protection is, of course, natural, and there is no gainsaying that the service is inadequate. To have one man about the streets during the hours of the evening when people are about may be of some use, but before there can be a real feeling of security there must be an officer on patrol well into the night, if not all night, and he should be uniformed. The simple display of brass buttons as an evidence of preparedness to enforce the law would in many instances prevent the breaking of it. In fact, the district cannot be said to be properly policed until there are two or three uniformed men, one or more of whom should be mounted. Frequent trips should be made over the district, and the construction camps visited often. These visits would act as a warning that it would be unwise to break the laws and be an evidence of the fact that the authorities are prepared to keep order. A few dollars thus spent in police patrol may be the saving of much expense later and would be cheap insurance for the safety of citizens and property.

A GREAT PUBLIC SERVANT PASSES.

A STERLING public servant, great in courage and capacity, was Judge Mabee, chairman of the Canadian Railway Commission, who died recently. Combining a judicial temperament and a fine legal training with admirable common sense, endless patience, clear cut decision and an unflinching desire to seek justice by the shortest method, this man had made the Railway Commission in many respects the most useful of our federal tribunals.

Many judges have fine ideals and admirable theories; Judge Mabee put these into practice. His way of doing business would suggest to a layman that he had a well defined idea as to how much time is wasted in the courts, how the law's delays baffle and irritate the honest man who seeks simple justice and who has neither the patience nor the money to abide the refinements of what we call legal "battles." Judge Mabee brushed aside the non-essentials firmly and quickly; he frowned upon trickery; he protected the weak and the confused witness, asking only that he tell his tale honestly. He discouraged lawyers who desired to embroider evidence and wax irrelevantly eloquent. He cared no more for the wealthiest corporation or the most eminent defendant than for the humblest petitioner. Neither prejudice nor sympathy shadowed his judgment. He sought the truth, and he had a rare capacity for getting at it under circumstances that would have discouraged a man less patient or less resourceful.

Of powerful physique, and still in his prime, Judge Mabee seemed destined to grow old in the public service—but it was written otherwise. Presiding as usual on April 29, he left the bench to go to the hospital he was never to leave alive. No man in Canada had grown more rapidly or more deservedly in public estimation; nor will be more sincerely mourned and honored. He has left the country a priceless example, by showing how much can be done by a public servant, who combines high courage and signal ability with unselfishness in seeking to serve the country.—St. John Telegraph.

RELIEF IN SIGHT.

THE CASE of the West versus the railways has been placed before the Railway Commission, and if that body maintains its reputation for fairness established under the late Judge Mabee, the West may hope for a good measure of relief from the oppressive transportation charges now in vogue. It was shown at a recent sitting of the Commission at Toronto that in some cases in the West freight rates are charged more than 200 per cent. higher than in the East. The Commission decided that the onus must be placed on the railways, and that they must justify their existing western rates. The inquiry will go further, so that every phase of freight rates will be investigated. Not only will discrimination against the West as compared with the East be looked into, but also the reasonableness of the complaints of the East as well as the West, and the general basis upon which rates are established. The practical methods of the Commission and the excellent service it is giving the country was shown by the over-ruling of technicalities and other obstructions brought up by the counsel for the railway companies. So good a case has the West that not only has the onus been placed on the railways but they have been given to understand that there must be no delay in the case, and they have been ordered to give notice by May 21 when they can proceed. The whole matter of revenue and operating expenses will be investigated and unless the companies are successful in so twisting the figures as to hide the facts there can be little doubt that a material reduction in freight rates will be ordered.

CANADA'S REVENUE is expanding rapidly, and if the present pace is maintained throughout the year, the revenue from customs duties will total one hundred million dollars. The increase in April, 1912 over that of April, 1911 is more than two and a half millions.

THE SOUTHERN OKANAGAN district, which has already earned an enviable reputation for its excellent fruit, gives fair promise of becoming famous also for its mineral productions. With a mine turning out silver ore of a high grade and the discovery of free gold and rubies in its creeks and good prospects for coal in paying quantities, fruit is not likely to be our only source of wealth.

TUESDAY has been declared a civic holiday, for the purpose of a general "clean-up." While the Review has advocated a different method of scavenging and still thinks that a systematic clean-up once or twice a week should be in vogue, yet until our civic fathers see as we think they should, we would urge upon all to do their utmost to make "Clean-Up Day" a success, that our town and district may look and be the better and more sanitary.

THE CANADIAN PACIFIC is extending its operations even to the continent of Europe. For the benefit of American and Canadian travellers who flock to the Tyrolean Alps sightseeing, arrangements have been completed with the State Railways of Austria and Switzerland, whereby the observation car service now in operation on the company's system on this continent is to be inaugurated in those countries. These cars will bear the familiar legend "CANADIAN PACIFIC" and should give tourists from this continent a feeling of the nearness of home, after all. A nominal fee will make seats in the observation cars available to all travellers. To the European railways cars of this nature are an innovation, and the outcome of this enterprising experiment will be watched with interest.

Local News Items.

Dr. and Mrs. R. C. Lipsett were guests of Mr. J. M. Robinson at Hotel Naramata last week-end.

Rev. A. W. MacLeod preached in the Kelowna Methodist Church last Sunday morning and evening.

J. L. Logie spent the latter part of this week in the hills in connection with the right-of-way of the Kettle Valley Railway.

The hot weather of the last few days has made a marked difference in the lake, the water having risen more than a foot within the last three or four days.

The C. P. R. office is being enlarged to include all the space across that end of the building. The alterations will not only give more office room, but additional waiting accommodation also.

Some International Workers of the World have, according to the Herald, arrived at Penticton. We hope that the authorities will be prepared to deport immediately any of these agitators who may appear in Summerland.

Gold and rubies have been found in small quantities in the brook running through Naramata, known as Camp Creek. A representative of the Review was recently shown three rubies, one medium-sized and two smaller, and two gold nuggets. All were taken from Camp Creek, a short distance below Bridal Veil Falls.

The following have been chosen to play in the Summerland versus Vernon Football match, at West Summerland on May 24: D. Thompson, goal; J. Dowdsen, J. Woods, backs; B. Newton, J. Weeks, C. Brind, half-backs; W. Atkinson, W. King, G. Fisher, J. Lacey, J. Templeton, forwards; P. Coles and J. Forsyth, reserves.

The Toronto Ladies' Quartette which appeared in Empire Hall last Friday night proved to be one of the best companies that has visited Summerland for a long time. Those who were in attendance went anticipating a musical treat but were surprised and delighted at the high quality of the programme, each number on which received hearty encores. Each of the four ladies was a finished artiste in her specialty, and in combination made up a quartette that would be hard to equal.

On Thursday afternoon of this week, Mrs. R. C. Lipsett entertained very successfully in honor of the ladies of the College. There were about twenty-five guests, among whom were Mrs. Somerset and her daughter, Mrs. Dean-Smith, who, with Dr. Lipsett, were pioneers in Peachland. Mrs. Somerset and Mrs. Dean-Smith are on their way from California, where they have been spending the winter, to their home in Winnipeg. They are the guests of Miss Robinson, Naramata, Miss Graves, Miss Morrison and Miss Campbell, of the College, helped serve.

CORRECTION.—An important omission was made from the local news item published last week, chronicling the visit of H. L. Garraway, of the Okanagan Fruit Union, to Summerland. Regarding the contracts the Union is making with growers, it was stated that all fruit, excepting that required for local consumption and exhibition purposes, was required to be handled through the Union packing houses. To these two exceptions should have been added a third—perhaps more important than either—that of fruit contracted for by the canneries. Present indications are that a large amount of fruit will be disposed of in this way. The omission is to be regretted, since it might have conveyed to some a false impression of an otherwise fair contract.

The Standard

MONTREAL

THE STANDARD is the National Weekly Newspaper of the Dominion of Canada. It is national in all its aims. It uses the most expensive engravings, procuring the photographs from all over the world. Its articles are carefully selected and its editorial policy is thoroughly independent. A subscription to The Standard costs \$2.00 per year to any address in Canada or Great Britain.

TRY IT FOR 1912!

Montreal Standard Publishing Co., Limited, Publishers.

Local News Items.

F. Whitfield has had a cottage erected at West Summerland near the Presbyterian Church.

The Summerland Tennis Club held a very successful ball in Empire Hall on Thursday evening.

G. A. McWilliams went to Vancouver Thursday morning. He will probably be absent for a fortnight.

The College students held their annual picnic on the Dairy property, Trout Creek last Saturday afternoon.

Next Friday being a holiday, the Review will be issued on Thursday. Will advertisers keep this in mind and have copy for changes in not later than Tuesday afternoon?

There is no longer any occasion for differences in time locally between individual watches. The jeweller has placed a chronometer in his window, which will henceforth give Summerland a standard time.

A. N. Fielden, of England, who has been spending some weeks in Summerland, is reported to have purchased the Theid property in Garnett Valley. Mr. Fielden is returning to England within the next few days, and the property will remain in charge of Mr. Theid.

Rev. and Mrs. F. W. Hardy went to Vancouver Monday morning to attend the Methodist Conference. Mr. and Mrs. Hardy will take a few days vacation after the Conference, and are expected to return on Saturday the 25th inst. There will be no service in the Methodist Church next Sunday.

Whether or not the schools are given a holiday on Tuesday next, Clean-Up-Day depends on Inspector Miller. If he is here on that day there will be two sessions as usual; if not, the children will be conveyed to the schools in the morning and the forenoon will be spent about the grounds, and upon those who are carried will be returned to their homes.

Penticton's hydro-electric scheme which was originally expected to cost \$71,000, will, according to Engineer Latimer's amended figures cost that town \$200,000. Already \$24,000 has been expended for steel piping and the situation is considered serious. Engineer Latimer now recommends the purchase of an oil engine costing \$20,000 to run the dynamos already contracted for.

Messrs. Fletcher & Gowen, the former an expert motor engineer, from Vancouver, and the latter a member of a motor firm in Kelowna, were in Summerland this week, demonstrating with a "Tudhope 30" car. This is a Canadian car, manufactured in Orillia, Ont., largely in use at the Coast. The machine was ferried across to Westbank, from Kelowna, and from Westbank to Summerland a fast journey was made by road. Those who investigated the "Tudhope" were favorably impressed with its possibilities as an economical and hard working car for this hilly country.

TEACHERS' CERTIFICATES.

Victoria, B.C., May 14.—Notice has been given by the education department that the Council of Public Instruction has been pleased to admit to the teaching staff of British Columbia for the school year beginning July 1 next, teachers from England, Scotland, Ireland and Wales, and from the several provinces of the Dominion, who are the holders of first-class professional certificates, and to grant them British Columbia certificates of the first class.

In the case of the sister province of Quebec, the McGill Model School diploma only will be accepted as proof of the required professional training.

The Council of Public Instruction, it is also announced, has prescribed a list of text books for use in the British Columbia schools.

"COUSIN KATE."

As a splendid finish to the gala day on May 24th, "The Players," Summerland's excellent company of dramatic artists, will play "Cousin Kate," which is, perhaps, Hubert Harry Davies' best production. The curtain will be raised promptly at 8.30, and all who purpose attending are requested to be in their seats at that hour, so that they will not miss the first part of the play. "The Players" have already been requested to put this comedy on at Kelowna and Vernon, and it is probable that they will go over farther afield.

Canning Vegetables for Winter Use.

(Farmer's Magazine.)

Many a home knows nothing of the diatetic joys of vegetables in the winter months. Such should not be if the knowledge of how to successfully can them were more understood.

Canning vegetables is not a difficult process. Perfect cleanliness and long cooking are the two secrets of success. To ensure their keeping a darkened cupboard in a cool cellar is all that is necessary.

As the choicest vegetables are the ones that make the most satisfying preparations on the summer dining table, so the good housekeeper will see that none but choice specimens are used for canning purposes. Where plenty rules, absolutely nothing but the choicest should be used. It is a safe rule never to use for canning purposes any vegetable that has passed its perfection. Peas that have begun to harden, tough asparagus, beets that are stringy or beans passed the brittle stage, will be better cast aside. Of course, the asparagus will have been attended to early in June after which will follow peas, tender onions, beans, beets, tomatoes, corn, lima beans, etc.

METHOD.

For vegetable canning use glass jars and thick rubbers. The newer, wider-mouthed, straight-sided jars are more convenient than the old style. Wash and rinse them immediately before filling, in scalding water. Incline the jars so that the water runs into them as soon as the outside surface comes in contact with it and roll them over quickly.

With a few exceptions, the raw vegetables are placed in the jars; cold water enough to fill them is poured in; the covers are laid on loosely and the jars then set in a tank of cold water which should boil for three hours. The water in the tank need not be higher than three-fourth of the height of the jars, but the side of the tank should be at least four inches above the tops of the jars. The tank should be covered during the boiling. Cloths laid around and under the jars will prevent their breaking.

When the cooking is within half an hour of completion, pull the tank to the back of the stove, remove the covers, and refill the jars with boiling water. The rubbers are placed in position and the jars sealed and allowed to continue cooking to the end of the required time. When the jars are cold, give the screw tops an extra twist.

PEAS.

Gather them before they become the least overgrown—a day too long on the vines will spoil them. Shell and place immediately in jars. Add salt, fill the jars with water and cook for ten minutes in salt water. Drain off the water. Then arrange as described above and cook.

BEANS.

String beans are cut into lengths, boiled for ten minutes, then put into jars, which are stood in a kettle of water and boiled for two hours. Add a teaspoonful of salt, fill the jar to overflowing with boiling water, screw up, and keep in a cool, dark place. Another plan is as follows: Wash and break each pod in two or three pieces, put on the stove in a saucepan of cold salt water and when it just commences to bubble (don't let it boil) drain the beans out and put into jars that have been washed and scalded. Have ready another saucepan of boiling salt water and fill the jars nearly to the brim, leaving just room enough for one tablespoonful of hot vinegar, screw on the tops and set away. When required for use pour off the brine and put in a saucepan of fresh water with a pinch of soda added; let them come to a boil and immediately pour off the water, then cook as you would fresh beans.

CORN.

Use well-developed corn that has not begun to harden. Cut it from the cob with a sharp knife and pack it into jars, pressing down tightly until the milk overflows the jars. Add no water. When all are filled, place the jars in a boiler and cook half an hour with the covers laid loosely on. Remove from the fire and seal, then cook for two hours longer. The preliminary cooking permits the corn to swell without endangering the jars, which may burst if tightly sealed from the first. Succotash is canned by first half filling the jars with green Lima beans, then filling the remainder of the jar with corn, pressing down firmly. Add a teaspoonful of salt to each jar, and cook like corn.

TOMATOES.

These should be thoroughly ripe. If green near the stem, they develop a disagreeable acidity in cooking. Be careful what kind of utensil is used in cooking tomatoes. Aluminum vessels are preferable; do not use tin or cheap grades of enamelled ware. Pour boiling water over the fruit and draw off the loosened skin. Cut the tomatoes in half. Put them over a fire in a stewing kettle with water enough to float them and cook until tender. Have the jars in readiness. Dip in scalding water. Set on a warm, damp cloth, adjust the rubber at the top and fill with the cooked vegetables. Dip the covers in boiling water. Adjust them and seal. When cool, tighten the covers of all screw tops. Tomatoes will not keep if exposed to the light.

Tomatoes canned whole are especially nice. Use wide-mouthed jars which admit the fruit without crushing. Have the jars scalded. Fill with tomatoes. Pour boiling water into the jars and seal. Let them stand in a covered kettle of boiling water for fifteen minutes. Cool and store.

YOUNG ONIONS.

Remove the tops and the outside skins. Wash them and fill the jars. Let them cook about two hours. Add two tablespoonfuls of boiling vinegar and a little salt to each jar before sealing.

BEEFS.

Young beets are delicious if pulled when less than an inch and a half across. Wash them and cook until tender in boiling water. Skin and slice rather thinly into jars. Lay the covers over them and set at the back of the range in a pan of boiling water. Pour over the beets a boiling hot liquor made from one part vinegar and three parts water agreeably salted. Seal the jars and set them aside to cool.

Municipality of SUMMERLAND

TUESDAY, MAY 21st, has been proclaimed a Civic Holiday by the Municipal Council, and all good citizens are called on to observe the same by making every effort to properly clean up their premises, and streets in front of same, on that day. Committees will be in charge of the work at the Lakefront and West Summerland.

J. L. LOGIE,
Municipal Clerk.

WHY OWN

WEBSTER'S NEW INTERNATIONAL DICTIONARY

THE MERRIAM WEBSTER?

Because it is a NEW CREATION, covering every fold of the world's thought, action and culture. The only new unabridged dictionary in many years.

Because it defines over 400,000 words; more than ever before appeared between two covers, 8700 Pages, 6000 Illustrations.

Because it is the only dictionary with the new divided page. A "Stroke of Genius."

Because it is an encyclopaedia in a single volume.

Because it is accepted by the Courts, Schools and from its one supreme authority.

Because he who knows Wins Success. Let us tell you about this new work.

WRITE for specimen of new divided page. G. & C. MERRIAM CO., Publishers, Springfield, Mass. Mention this paper, receive FREE a set of pocket maps.

State your needs in 'THE REVIEW' 'WASNT' Column.

 One light Chestnut Horse, about 1,300 lbs.
 One Bay Mare, no better roadster in the Valley.

Apply to J. E. PHINNEY.

"CIVIL SERVICE ACT."

THE qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places, commencing on Tuesday, the 2nd July next:—
 Armstrong, Chilliwack, Cumberland, Duncan, Golden, Grand Forks, Kamloops, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, Peachland, Prince Rupert, Penticton, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of 21 and 30, if for Third-class Clerks; and between 16 and 21, if for Junior Clerks or Stenographers.

Applications will be accepted if received not later than the 15th June next.

Further information, together with application forms, may be obtained from the undersigned.

Section 7 of the "Civil Service Act" provides that temporary clerks and stenographers, who have not been regularly appointed by Order in Council, must pass this examination.

P. WALKER,
 Registrar, Civil Service.
 Victoria, B.C., 1st May, 1912.
 my10-je14

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
 Deputy Minister of the Interior.
 N.B.—Unauthorized publication of this advertisement will not be paid for.

COAL PROSPECTOR'S NOTICE

TAKE NOTICE that I, John D. Rice, of West Summerland, prospector, intend to apply for a license to prospect for coal on the following described land: Commencing at a post placed about two and a half miles west of Okanagan Lake, in Okanagan District of Yale, on the bank of Trout Creek, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to the point of commencement.

Dated, May 17, 1912.
 my17-je14p JOHN D. RICE.

[Continued from Page 1.]

the Council to donate medals to accompany a trophy shield the citizens of Summerland had presented to the Association. This would be equivalent to a grant. Mr. Dunsdon will ascertain the approximate cost and report later to the Council.

This concluded the hearing of the deputations, and regular business was proceeded with.

THAT POWDER INJUNCTION.

The Reeve read the injunction recently obtained by local application from the railway contractors against the storing of powder within the municipal limits. This injunction cites the municipality as one of the plaintiffs, but the Council repudiate the inclusion of their name as entirely unauthorized. Mr. Tunbridge, of Penticton, who served the plaintiffs, had no instruction from the Council to involve them. The matter will be enquired into further.

CONSTABLE AND LOCK-UP.

Definite steps were taken in regard to a constable and lock-up accommodation. The Reeve reported that in the exercise of the power given him at the last meeting, he had appointed E. C. Graham as Constable for the town section, at a salary of \$30 per month. The duties were particularly from the late afternoon till nearly midnight as circumstances demand. It is hoped that it will not be necessary to make this appointment permanent. Provision was made also for a lock-up. It was suggested that an appropriation be made to cover the cost of a suitable building, but after some deliberation, it was decided to leave the matter of providing for specifications and tenders for a lock-up with the Reeve and Coun. Robinson. The suggested dimensions were 12 x 16 x 8 feet, two cells and an attendance room.

COMMUNICATIONS DEALT WITH.

The Kettle Valley Railway wrote regarding the ten crossings in the municipality. In only one instance, at Trout Creek, near Mr. Neve's property, where the railway meets the road at the same level has any difficulty arisen. The nine agreed upon were approved, and the one in question will go to the Railway Commission for settlement. F. H. Hole wrote asking for a road to the Caldwell lot, which was in his charge this season. This was referred to Coun. Lewes.

W. T. Shatford, of Penticton, asked for the co-operation of Summerland in the matter of the continuation of the dredging of the Okanagan River. No action was taken in reply to this, since the Council do not unanimously favor the scheme.

Communications from E. B. May, regarding the grade and width of the lane to the Bank of Montreal property, E. Hunt, complaining of insufficient water pressure owing to trouble with valves nearby; and D. L. Sutherland, regarding the Peach Orchard electric light extensions were all referred to Supt. Mitchell for his attention.

M. C. Skillcorn was granted a rebate of irrigation and domestic water rates on five acres above the water line, for the year 1911. Legal advice was tendered by W. C. Kelley regarding the ownership of the foreshore of the Summerland Fruit Company's sub-division on the lakefront. Later, the Clerk was authorized to approve of the plans (Block 46, L. L. 455).

The request of Mr. Kelley that the road upon which his property faced be called "Rosedale Avenue" was granted.

Messrs. Stirling & Pitcairn, of Kelowna, desiring to have a loading platform on to the road at car level, for the fruit shed they are to erect near the wharf, suggested that the sidewalk for that section of the road be removed to the other side of the street. The Council decided, however, to have the sidewalk put in on the same conditions as that adjacent to the Okanagan Fruit Union building.

T. J. Garnott was granted a rebate of \$20.00 on 1911 rates.

J. Gantroll's communication regarding a quantity of gravel taken from his property will be dealt with by Coun. Robinson.

Coun. Lewes will take up the matter of a road to J. J. Calder's lot.

A CLEAN-UP DAY.

Out of the consideration of a letter from Dr. C. M. Smith, Medical Health Officer, came the worthy decision to have another Clean-Up Day on, Tuesday next,

A SNAP

233 Acres on Okanagan Lake for \$12,000

20 Acres cultivated with 800 Peach Trees, bearing
 200 Cherries, 1 year old
 250 Apple do.
 400 Apple, this spring
 100 Cherries do.
 100 Mixed Varieties, do.
 75 Grapes do.

Four-room COTTAGE 12 x 32ft.

Four miles from Summerland
 Twenty Acres cultivated, with water on, pumped from the Lake by hot-air pump. Thirty Acres more cleared, and with little expense can be irrigated

Price \$12,000—half cash, balance 3 years, 6 p. cent

May 21. The Council will place two teams at the disposal of the community, for the removal of rubbish collected from the roads and public places. A holiday will be called as last year, and it is hoped that the people will co-operate with the Council in their endeavors to get a respectable looking Summerland, in spite of the somewhat short notice. The two districts will organize themselves, as last year.

The Council recognize the pressing need for sanitary measures. The advisability of appointing sanitary inspectors was discussed but no appointments were made.

The Council has no power to act upon the suggestion of Duncan Woods, to provide public sanitary conveniences.

W. Arnett's letter was referred to the Superintendent.
 Engineer Latimer's report was placed on file.

The Clerk was instructed to write the owners of animals allowed to run at large throughout the municipality, instructing them to keep their stock off the roads.

Settlement for the municipal cemetery was presented along the lines previously decided upon. The deed is now in the hands of the Clerk. The settlement was approved by motion, and the Reeve and Coun. Robinson will look into ways and means for the administration of this property.

DOG TAX BY-LAW PASSES.

The Dog Tax By-law, No. 39, was read a third time, finally considered and passed. An annual tax of \$2.40 on every dog over six months of age, with a discount of one-sixth if paid before July 1, for the current year. Hereafter the tax will be due on January 2nd, discount being allowed for one month. All stray dogs will be impounded, kept for a week, and sold or destroyed.

The Board of Works will call for tenders for the deepening of Prairie Creek to specifications they hold.

ACCOUNTS PASSED.

The following accounts were recommended for payment and approved:

Pay Roll	\$1731.91
Summerland Supply Co., supplies	57.14
W. Ritchie, lumber and cement	204.20

School Board, requisition	4.45
	1098.05
Total	\$4,561.78

The Council then adjourned to meet in special session if necessary, at the call of the Reeve.

KELOWNA INCREASES ASSESSMENT.

To meet the additional fixed charges necessitated by the passage of the sewer and school by-laws, the city council of Kelowna has decided to raise the assessment on Kelowna property by half a million dollars. In the event of the passage of all the by-laws the increased assessment will allow of an additional borrowing power of \$100,000. At a special meeting of the ratifiers of Kelowna the mayor and aldermen urged the necessity of carrying the

Naramata Notes.

Geo. R. Robertson, of Penticton, was a visitor to our vicinity on Wednesday.

Mr. and Mrs. H. W. Endacott were passengers to Kelowna on Wednesday.

Miss D. Simpson paid the parental roof a visit last week, returning on Tuesday to Kelowna.

Mr. and Mrs. Reginald R. Wallace and son, of Vancouver, enjoyed a few days in town this week.

Dr. and Mrs. R. C. Lipsett spent Saturday in town the guests of Mr. Robinson at the Hotel.

The showers of Wednesday came as welcome visitors to the numerous growers of small fruits and vegetables.

Mrs. J. B. Somersett, of Winnipeg, and her daughter, Mrs. E. Dean Smith, are enjoying a short holiday season here.

The construction of the Bottle Works is proceeding rapidly and if the machinery reaches here in due time, the plant should be in running trim shortly after June 10.

The carpenters are busy on a large warehouse being built between the wharves. This building will serve a long felt want to the numerous patrons of the lake service.

The road work in town is proceeding rapidly. The blasting of a number of Nature's giants was announced with special emphasis this week. The men throughout are extremely cautious, and little fear need be entertained by the citizens.

Mr. Hyde, a recent arrival from Toronto, has announced his intention to go into the boot and shoe repairing business here shortly, as soon as his "kit" and a shipment of English leather comes along. The citizens appreciate the presence, at last, of an all-round boot and shoe man in town.

The success which attended the little ten cent concert put up by the Unity Club ladies last Thursday was a delightful surprise to almost everyone, and little wonder that the young folks, and some of those not quite so young, are beginning to talk of the next one which won't be due till 'way on in June.

Quite a number of citizens took advantage of the splendid sunshine and leisure of last Sunday to visit the falls on Camp Creek, immediately east of town. The volume of water travelling with thundering roar down the steep declivities is now at its height, and a visit to the falls now is certainly in order.

LATEST PICTURE OF BORDEN.

The recent change of Government has made R. L. Borden the central figure of our Canadian public life. Many would like a good picture of him. We can supply one FREE. We will send anyone our paper for one year, and The Weekly Mail and Empire, (the regular rate of which is \$1.00 per year), for the same period, the two together, to include the free picture of the new Canadian Premier, for \$3.50.

The Borden picture is on fine paper suitable for framing, in photo tints, 18 x 24 inches, and is in itself as a work of art, easily worth the price of a year's subscription to either paper. Send all orders to the office of The Summerland Review.

CHURCH NOTICES.

Which is his

THERE'S no mistaking the expression of a man whose farm is well "improved." He looks as prosperous as he feels.

It isn't the size of a place that counts most, nor its actual dollars-and-cents value. It's rather that "well-kept," thrifty appearance; the appearance that makes you think of fat stock, and well-filled barns, and comfortable, contented living.

Neat, permanent improvements go further in giving a farm this appearance than any other feature.

Concrete Is The Ideal Material

For such improvements. It is neat, harmonizing with its surroundings in the country. Everlasting, it cannot be injured by fire, frost, wind or lightning. Age—instead of causing it to decay—actually makes it stronger.

Concrete never needs repair—first cost is last cost. New improvements can be added year after year with less expense than would be required to keep wooden structures in repair.

Concrete walks, feeding floors, dairy-barns, ice-houses, root-cellars, well-curbings, fence posts, silos—which of these does your farm need most? Whatever you want to build, it's best to build it of concrete.

Do you want to know more about this subject of permanent farm improvements? Then write for your copy of

"What The Farmer Can Do With Concrete."

It's a book of 160 pages, telling how other farmers have used the "handy material" to good advantage. Published to sell at 50c. a copy, it is now being offered free to all farmers who write for it. Address

Canada Cement Co., Ltd., National Bank Building, Montreal.

TAYLOR & Co.

PROVINCIAL FUMIGATING PLANT.

Hon. Price Ellison is at Vancouver inspecting the proposed new sites for the Provincial Government's plants for the fumigation and inspection of fruit and nursery stock.

The work of this branch of the Agricultural Department's activities has been greatly extended during the present season owing to the discovery that the mealy bug and the Mediterranean bug were being imported along with citrus fruits. As these insects do not confine themselves to citrus fruits, but are liable to spread to others, the Department has felt it necessary to take all possible steps for their eradication. The Government has been offered three sites for the proposed new plant, two by the C.P.R. and one by the Great Northern. Mr. Ellison will decide which of these offers is to be accepted.

BANK OF MONTREAL CAPITAL WILL BE \$25,000,000.

The shareholders of the Bank of Montreal have been called to attend a meeting on June 18th, to authorize application for an increase in the capital of the bank to \$25,000,000. The present capitalization is \$16,000,000.

It is stated that this is a precautionary measure, due to the bank's desire to keep up with the demand for circulation, and to keep abreast of the constant development and expansion of the country generally.

Following close on the announcement of the distribution of a bonus of one per cent to the shareholders of the Bank of Montreal came the decision of the management to seek power to make the capital \$25,000,000.

It is understood that it is not the intention of the bank to issue the additional \$9,000,000 at once, but to place it in a position to provide for increased circulation as the growth of the country demands.

Only last year the bank increased its capital from \$14,000,000 to \$16,000,000. Ten years ago it was \$12,000,000, less by more than one-half the prospective authorized capital.

That Canada's premier banking institution intends to keep abreast of the times is fully evident, notwithstanding the conservatism which is a synonym for the management.—Montreal Star.

Telegraph Connections Are Assured

Department Issues Order to Push Work to Completion

Kelowna—Westbank Cable Now en Route

The following letter from L. A. Palmer, District Supt. of Government Telegraph Service will be read with much satisfaction and interest by all. There have been persistent rumours and stories of different plans and in order to get at the facts the Review applied to Mr. Palmer for all information available to date. It is with much pleasure that we are able to announce the progress that is being made to give the Southern Okanagan telegraph connection, and that we may expect the opening of telegraph offices at Summerland, Peachland, Penticton and other points at an early date.

Office of Dist. Supt.,
Kamloops, B.C.,
May 20, 1912.

To The Editor,
Summerland Review.

Dear Sir:
I understand a rumor has been put into circulation in your district to the effect that the control of the Government Long Distance Line in the Okanagan Valley, is about to pass into the hands of the Okanagan Telephone Company.

In regard to this I may say that no intimation of any such proposal has reached this office, and, in fact, the Government has just authorized the expenditure of several thousand dollars in the improvement and extension of the service between Vernon and Penticton, and the Department has ordered the work to proceed at once.

Already we have part of the poles for this work on hand at Summerland and Penticton, and the balance are being cut. Other

line materials are stored at various points between Kelowna and Penticton, and the cable to cross the Lake, Kelowna to Westbank, has been in transit from Halifax about two weeks, and in the course of two or three weeks more the construction gang will be at work near Summerland.

On the completion of this work, which will be rushed as rapidly as possible, Telegraph Service will be installed at the larger towns, and every effort made to give the Okanagan people an adequate service. For the special advantage of fruit shippers we are connecting our line with the C. P. R. Freight Depot at Okanagan Landing. Poles are now on the ground, and this will be the first piece of construction undertaken.

I might state further in regard to the inquiry which has reached this office re the above rumor, that an understanding was entered into with one of the Directors of the Okanagan Telephone Company that they were to recede from any attempt to acquire proprietorship of the Government line or any attempt to parallel or kill the business on our line, with other similar conditions as to agencies in Okanagan towns, etc., providing we should refrain from any interference with the local telephone situation in those towns. We have lived up to that agreement and expect it to be kept.

Yours truly,

L. A. PALMER,
District Superintendent,
Government Telegraph Service.

Ratepayers Meeting Is Sparsely Attended.

Misunderstanding as to Date For Public Discussion of School Matters.

A combination of unfortunate circumstances influenced the attendance at the public meeting called for the discussion of the local school situation. The inadvertency by which the meeting was announced in the Review for the 29th inst., probably misled some; and although special intimation was sent through the children on Wednesday, yet not more than a dozen ratepayers gathered at the Central School in the evening to listen to the views of Inspector Miller. This sparse attendance cannot be taken as a criterion of the interest which Summerland takes in its school problems, for the question is admittedly one of the most pressing which faces the municipality at the present time.

After a few introductory remarks by Mr. G. J. C. White, chairman of the Board of School Trustees, who presided, Inspector Miller made a brief report.

He bases his advocacy of a consolidated school system on the higher standard of educational efficiency attainable. Teachers could do better work with larger classes of fewer grades than with small classes of many grades, and, with the higher average attendance that centralization brought about, the schools undoubtedly increased in efficiency.

Mr. Miller was pleased to note improvement in the inner workings of the schools. Suggestions he had made upon the occasion of his last visit had been acted upon, and the teachers were working hard for an increased efficiency. One need of the situation here—Mr. Miller saw it, was for a more active cooperation of parents with the teachers. If parents were prepared to support the teachers in the effort being made to establish a more rigid discipline, greater improvements in this direction would soon manifest themselves. As far as he had been able to gather in the course of his investigations into the question here, most of the complaints which had been made were, properly considered, not levelled against the principle round which the system works, but rather against the methods employed in putting the system into operation. Earlier in the year a number of difficulties in connection with transportation seemed to have arisen, some of which had since been overcome. There had been frequent changes in the teaching staff, and this had also had a deleterious effect upon the school work. Difficulties of this nature were not due to shortcomings of the system of consolidation, but were merely defects in the local arrangements.

Though Summerland was the first school district in British Columbia to adopt the principle of centralization, it should not be termed an "experiment," since other provinces had it in operation. The community deserved credit for their progressiveness in calling for this modern system, and Mr. Miller considered it would be a mistake to withdraw at this early stage. At the same time, the Department of Education did not wish to impose upon the people here a school system which had not the endorsement of the public here.

When the meeting was thrown open for discussion, Messrs. Dunham, Doeking and Johnson, all of Trout Creek, drew attention to the unsatisfactory transportation arrangements for that district. They established the fact that the rig for that part has been taking too long for the journey, thus necessitating a very early start for the children who ride in it.

Such matters as this can be remedied in succeeding years by amending the contracts. Perfection can hardly be expected the first year, and trouble of this nature can be guarded against in future.

Regarding the suggestion which had been made to build a new school at the south end of town, Mr. Miller said he would favor such a scheme when the present accommodation became inadequate—as it soon would. There was a possibility, however, that the coming of the railway would have a tendency to alter the contours of

Arrangements for College Closing

Rev. Wm. Stevenson, of Victoria, will be Chief Speaker

The Closing Exercises of Okanagan College will occur May 28—29. On Sunday the 26th, the Rev. William Stevenson, pastor of the Emmanuel Baptist Church, Victoria, will preach before the College and assembled friends in the Baptist Church, West Summerland. The service will begin at 10.30 a.m. Mr. Stevenson will also take the evening service in the Lakefront Baptist Church. For various reasons it has been deemed wise to hold the morning service in the Church rather than in the Gymnasium, as last year. Special provision will be made for seating the audience in the Church, and it is expected that there will be ample accommodation for all who may wish to attend. A cordial invitation is extended to all interested friends to be present and hear Mr. Stevenson's message. The speaker of the morning has won for himself a large place in the estimation of those acquainted with his work. He is a thoughtful, versatile, fearless writer and speaker, and always claims the undivided attention of those who listen to him.

On Monday evening, the College Board and Faculty hold a reception in the Gymnasium. To this gathering a large number of invitations has been issued. An effort has been made to reach all who might be expected to be interested in such a function. If any have failed to receive an invitation card who desire to be present on this evening, if such will communicate their wish to Professor A. J. Perry, he will gladly forward the invitation. There has been no thought of excluding any one; rather the purpose has been to draw together for a social evening all who would appreciate the opportunity of meeting friends from this and other communities. Several musical numbers will add to the pleasure of the occasion.

On Tuesday morning at 9.30 in the College Chapel, the Executive of the College will meet for the transaction of necessary business.

On Tuesday evening at eight o'clock, the formal Closing Exercises of the College will be held in the Baptist Church, West Summerland. In addition to the ordinary exercises of this occasion, the Rev. William Stevenson, the preacher of Sunday will deliver an address, the subject of which will be announced on Sunday. It is hoped that a large audience will greet Mr. Stevenson again on Tuesday evening.

Further particulars or changes may be announced on Sunday.

INDUCTION OF NEW PASTOR.

Rev. H. C. Daly, of Almonte, Ontario, the new pastor of the Summerland Presbyterian Church, is expected to arrive in the Valley to-night (Thursday). He will not land at Summerland, but will journey on to Penticton where he will spend the week-end with Rev. Mr. Miller, an old friend. Mr. Daly will return to Summerland on the first of the week, and an induction service will be held in St. Andrew's Church on Tuesday evening at eight o'clock. Rev. F. Miller, Moderator in the call, will officiate, assisted by Rev. P. Henderson, of Armstrong, Rev. Main, of Vernon, and Rev. Ball, of Kelowna. The Rev. Huntley, of Penticton, whose ministrations for the past two months have been greatly appreciated by the congregation, is also expected to take part in the proceedings.

After the Induction Services there will be a reception to welcome the new pastor by members of the congregation, adherents and interested friends.

population, so that it would be wise to wait for some time before pushing that scheme further.

The greatest disadvantage that appeared to the new school system was that young children were kept away from home for a considerable time. Mr. Miller admitted this objection. He pointed out, however, that this was a sacrifice the parents were called upon to make in the interests of the better education of their children.

Reductions in C. P. R. Freight Rates

Good Work by the B.C. Fruit Growers' Association

Car Shortage Seems Probable

The Transportation Committee of the British Columbia Fruit Growers' Association has secured some very valuable results for our shippers by its representations to W. B. Lanigan, Head of the Canadian Pacific Freight Department, Winnipeg. Details of the work of the committee to date are as follows:

RE-SHIPMENT RATES.

In the Okanagan shippers asked for a low rate on small quantities of various fruits being assembled at central points for re-shipment in carloads. The C. P. R. has recognized the principle of such re-shipment rates as a just one, and the flat rate of 10 cents per 100 pounds has already been in operation in the Okanagan for one year, to all assembling points in the Valley. These rates apply only in a forward direction.

REDUCTION IN CARLOAD MINIMUMS.

The minimum of carload weights in case vegetables has been reduced from 30,000 pounds to 24,000. This rate will operate to great advantage in the case of vegetables shipped in crates, such as rhubarb, cabbage, celery and tomatoes.

DELAYS IN TRANSIT.

A number of complaints from various shippers as to delays in transit were brought before Mr. Lanigan. All agents will be instructed this year to give these commodities as quick dispatch as possible. Shippers should report complaints promptly so that delays may be investigated, and should get these complaints in to the Secretary as quickly as possible. To expedite carload shipments from Okanagan points, the C. P. R. is inaugurating a schedule fruit train service from Okanagan Landing to Revelstoke, avoiding delay at Sicamous, and making connection at Revelstoke for the East, and giving a running time between Okanagan Landing and Calgary of about 48 hours. The local refrigerator service from Okanagan points to Vancouver and the Coast will again be placed in operation this year and additional barges are being placed on Okanagan Lake.

REFRIGERATOR CAR SERVICE.

The Okanagan and Grand Forks shippers pointed out the losses occasioned by the use of the unventilated brine tank refrigerator cars. The committee pointed out to Mr. Lanigan the deficiency in these cars, and he advised that four hundred more ventilated refrigerator cars were under construction this year, a portion of which would be available for this year's crop. He has also undertaken to fit up all brine tank cars with ventilators as fast as they come into the shops, so that by the time cars are required in the fruit districts, there should be available a supply of ventilated Bohn-system cars or ventilated brine tank cars.

PROBABLE CAR SHORTAGE.

In view of the great increase in shipments this year, it is quite possible that there may be some car shortage despite the greatest efforts on the part of the Company to provide against it. Where shippers have not made a report to the

C. P. R. direct or through the British Columbia Fruit Growers' Association of the number of cars they expect to require in each month of the shipping season, they should do so at once.

REDUCTIONS IN EAST-BOUND FREIGHT RATES.

The committee represented to Mr. Lanigan the desirability of reductions in freight rates generally to prairie points, especially to those of the nearer markets of Alberta and western Saskatchewan, which consume the bulk of British Columbia shipments. He met the views of the committee, and agreed to a reduction according to mileage, taking the 8th class rate to Calgary 35 cents per 100 pounds in car load. Apples and pears in less than carloads, and "fresh fruits" in carloads take 5th class. Apples and pears in carloads take 3rd class. The reduction on this basis will extend to a number of the distributing points in Alberta and Saskatchewan, and some of them are as follows:

Apples in carloads:
Kamloops District, to Calgary, from a 70 cent rate reduced to 62 cents. Okanagan District to Calgary, from a 70 cent rate reduced to 60 cents. Spence's Bridge to Calgary from an 80 cent rate reduced to 68 cents. Okanagan points, to Medicine Hat, from a 75 cent rate reduced to 71 cents. Spence's Bridge to Medicine Hat, from an 85 cent rate reduced to 79 cents.

The exact figures from other points and for other commodities will be made known in the new tariff, which will be issued as early as possible. It will be seen that the reduction in rates will mean a saving of \$24 a car on apples and pears from Okanagan points to Calgary; on soft fruits it will probably be about the same. In these two items alone the reductions will mean a saving to the Okanagan this year of about \$10,000.

REDUCTION IN RATES TO THE COAST.

The committee also pointed out to Mr. Lanigan that British Columbia fruit was not now supplied to the Coast markets in anything like the right proportion, and asked that he make what reductions in rates he could to assist our growers in entering this market, now almost altogether occupied by Oregon and Washington fruit. He accordingly cut the rate on fresh fruit in carloads from 58 cents to 48 cents per hundred pounds; apples and pears in carloads from 45 cents to 40 cents. This reduction will not, however, increase the competition which Coast fruit may meet on these markets as the effect will be to displace a certain amount only of the imported American fruit.

The reduction in rates and minimums and improvements in service undertaken by the C. P. R., are made because of the representations of the B. C. Fruit Growers' Association in the belief that the same would result in an increase in business to the Company. The committee expect that the improvements will put our produce on the market in materially better condition and at less expense.

CONSTABLE ASTON'S ASSAILANT SENTENCED TO DEATH.

After an all day sitting of the Vernon Assize Court at the beginning of the week, Walter Boyd, alias William James, was found guilty of having shot and killed Constable Aston on the steamer "Okanagan" a few months ago. Boyd was sentenced to be hanged on August 9.

The whole of the day was taken up with the case. Mr. Burns appeared for the Crown, and Mr. R. H. Rogers for the defence. The jury retired at ten minutes past five, and returned into Court shortly after eight o'clock with a verdict of guilty. At half past eight the death penalty was passed.

C.N.R. AT KELOWNA.

Kelowna, May 21.—The engineer of the C. N. R. who is at present at work in the city locating the track for the railway waited on the Council in respect to railway crossings. He said it had been practically decided to have the company's water frontage on the land belonging to Dr. Boyce and Mrs. Stirling. In reaching this property they would have to come down Gaston Avenue passing along the exhibition grounds. The line would not interfere with the exhibition grounds. The station would be located on Ellis Street, on the southwest corner opposite the exhibition grounds. The complete survey of the lines would probably be ready in about a month's time and would be laid before the Council.

Irrigation Conference at Kelowna

Many Eminent Speakers Expected At Gathering In August.

Irrigation is a very prominent word in the lexicon of British Columbians at the present time, and before the present season is run out it will have achieved even greater prominence. The provincial government has engaged experts in this branch of engineering to come and advise them as to the best methods of conducting irrigation systems in the province. That work is going on now, but later on in the summer, or to be exact, in the month of August, what might be termed an Irrigation Conference will be held at Kelowna. That conference will be under the auspices of the Western Canada Irrigation Association, an organization promoted by the Canadian Pacific Railway, for the purpose of bettering the conditions of their lands in this and the other western provinces of the Dominion. The provincial government has granted \$2,000 towards the expenses of the conference.

SOME EMINENT SPEAKERS.

Mr. N. S. Rankin, secretary of the association, reports that he has received the consent of Hon. Mr. Ross, Minister of Lands, to preside over the meetings. He also states that Hon. Price Ellison, Minister of Finance and Agriculture, has consented to be present. Others who have been approached and who are expected to be at the conference bear such distinguished names in the world of agriculture as the Hon. Martin Burrell, Federal Minister of Agriculture, Professor Atkinson, of Montana, Professor Lewis, of Corvallis, Oregon, Professor Dean, of Montana, Mr. N. E. Webster, of New York, the noted irrigation financier, and Rev. E. McQueen Gray, of New Mexico, and numerous others.

VALUABLE PAPERS.

The lecturers have been chosen for the conference, not merely on account of their knowledge and general reputation, but more on account of the fact that the conditions to which they have accorded special study, or the location in

which they had operated for a number of years, coincided in many degrees with the conditions to be found in this province.

A paper will be read by one of the professors on the subject of raising alfalfa, which is a question that has gained greatly in prominence during the past year on account of the repeated assertions that it is perfectly possible to raise alfalfa in the province, the climatic and soil conditions being almost if not identical with other places on the other side of the line where several crops are raised each year. Special reference to the cure of Baldwin spot will be the subject of the address of another professor who has made a special study of the disease. Practically all forms of fruit culture will also be discussed by experts whose word in relation to their subjects must be regarded as the last word in the application of scientific methods to production.

PROPOSED INCREASE IN MINIMUM CARLOAD WEIGHTS.

The Canadian Pacific and other railways operating in British Columbia, propose to materially increase their minimum carload weights. For first, second and third-class freight the present minimum is 20,000, and the proposed is 24,000. For the fourth, fifth and sixth classes the minimum is increased from 24,000 to 30,000 pounds. For the seventh, eighth and tenth classes the jump is from 30,000 to 36,000 pounds. In addition, there are numerous changes in the exceptions to the class minimums for example: agricultural implements present 20,000 lbs., proposed 24,000 lbs.; brick, present 30,000 lbs., proposed 40,000 lbs.; flour, present 30,000 lbs., proposed 40,000 lbs.; wheat, present 30,000 lbs., proposed 40,000 lbs.; salt, present 30,000 lbs., proposed 40,000 lbs.; machinery, present 20,000 lbs., proposed 24,000 lbs.

Over one hundred items in the exception list are affected by increases ranging from six to sixteen thousand pounds. This revised list will be submitted to the Board of Railway Commissioners, and any objection should be filed with the Board not later than June 7.

Over twelve million square miles are embraced by the British Empire.

Some Orchard Pests And Their Control.

[Concluded from our last issue]

FUNGIOUS DISEASES.

While insects belong to the animal kingdom, the various fungi and bacteria are plants. A fungous is a true plant, though usually quite simple in structure. Unlike ferns and flowering plants, fungi have no green coloring matter, and derive all their sustenance in organic form by living as parasites on living organisms, or as saprophytes on dead ones. The Mushroom and the Bread-mould are two common types. The whitish threads to be found running through the soil beneath a mushroom or toadstool, is the true plant body, which is equivalent to the roots and stems of the higher plants, while the mushroom itself is the fruiting body containing the spores, which are the equivalent of seeds.

From the standpoint of the fruitgrower, fungi may be divided into two classes:

1.—Those whose mycelium, or vegetative portion lives on the surface of the host plant, as, for example, the various mildews.

2.—The larger class embraces those whose mycelium penetrates into the tissues of the host plant, such as the Apple Scab and Black Spot Canker.

The fungi belonging to the first group can generally be destroyed by spraying with suitable fungicides when they appear, but those of Group 2 are not affected by such spraying. Their entrance into the tissues is to be prevented by spraying before inoculation takes place. This requires that all the susceptible area be thoroughly coated with the spray, and, if growth is taking place, as in the spring and early summer, spraying must be repeated to cover the new growth as long as there is danger of serious inoculation.

The fungous diseases causing the most serious loss in this Province, are:

- 1.—Black Spot Canker.
- 2.—The Brown Rot of the Plum, Prune and Cherry.
- 3.—Apple Scab.

BLACK SPOT CANKER.

This disease causes the death of large areas of the bark and outer wood, especially of the Apple. It is of consequence only where fall rains are plentiful, in combination with mild weather. It is easily prevented by one thorough spraying in the fall with double-strength Bordeaux Mixture.

BROWN ROT OF THE PLUM AND CHERRY.

This disease was first introduced into the Province about ten or twelve years ago, and is now a cause of serious loss, especially in the Coast Districts. It is dependent on wet weather, and, in dry seasons almost disappears.

Its control is difficult, because of its very rapid growth and prolific spore production. While absolute prevention under favorable conditions is impossible with the knowledge we now have, the following measures give a reasonable immunity:

- 1.—Prune out the trees to admit air and sunlight.
- 2.—Collect and destroy all old fruits on the tree or the ground before spring plowing.
- 3.—Spray with Lime Sulphur thoroughly, just before the buds open.
- 4.—Spray just after blossoming, and again when the fruit is half-grown, with Lime Sulphur diluted 1 to 50.
- 5.—Thin out fruits so that no two touch.
- 6.—Handle carefully, to prevent loss of stems and bruising.
- 7.—Allow fruit to stand overnight in a cool place before packing. Pack up only perfect fruit, and keep fruit cool as possible to destination.

APPLE SCAB.

Apple Scab or Black Spot is prevalent in most parts of the Province subject to any considerable rainfall in Spring and early Summer. The varieties of the Fameuse family are most subject. The spores of the disease are carried over the winter on the twigs and old leaves. They germinate and spread in the Spring, about the time the blossoms begin to open.

REMEDIES.

- 1.—Destroy old leaves, by burning or plowing under.
- 2.—Prune trees to admit sunlight and air.
- 3.—Spray with Lime Sulphur, 1 to 9, before the buds open.
- 4.—Spray just before blossoming with Lime Sulphur, 1 to 25.
- 5.—Spray again, just after the blossoms fall, with Lime Sulphur, 1 in 30.

The second spraying is by far the most important, and must be very thorough if results are to be satisfactory.

BACTERIAL DISEASES—PEAR BLIGHT.

Pear Blight is at present almost unknown in the Province, the repressive measures taken by the Government to control it having given most excellent results. Growers should however, be continually on the watch for this disease affecting both Pear and Apple trees, and must be prepared to take the strictest measures to prevent its gaining a foothold.

DESCRIPTION.

The young shoots and thin leaves wither and turn black, looking very much as though they had been scorched by fire. The infection works down the stem, destroying the life entirely, as far as it goes. Particularly where infection on old bark takes place, there will be found small drops of a sweetish liquid oozing from the bark. This liquid contains myriads of the bacteria causing the disease, and as it is attractive to bees and other insects, these carry the germs all through the orchard, especially to the blossoms. The nectar in the blossom is a particularly favorable medium for inoculation, and from this follows the form called "Twig Blight," which involves the destruction of the fruit spurs.

Spraying is impossible, because the points of infection cannot be reached by it. The only remedy which has proven effectual is the cutting out of the diseased areas, followed by careful disinfection of the wound and the knife or saw. Cuts should be made from two inches to one foot below the diseased area, depending on the rapidity of progress being made by the Blight.

In connection with the treatment of Insects and Diseases, fruit growers should secure copies of the Spray Calendar for 1912, and of Circular No. 9, on "Sprays and Spraying," issued by the Horticultural Branch of the Department of Agriculture.

Egg Timbales.—Beat six eggs lightly only until the whites and yolks are well mixed. Add a cup and a half of milk, a teaspoon of salt, pepper to season, a teaspoonful of minced parsley, and a few drops of onion juice. Stir the mixture, pour it into small buttered cups or moulds, set these in a pan of hot water, and bake in a moderate oven until firm. Serve with tomato sauce. To make the sauce, stew half of a can of tomatoes, and rub the pulp through a strainer. Mix a tablespoonful of butter and a heaping tablespoon of flour together in saucepan, letting them cook together but not brown. Add gradually the strained tomato, and cook, keeping the sauce stirred smooth. Season with salt.

By July 1 the British Columbia Portland Cement company's plant at Princeton, the first cement plant to be constructed on the mainland of this province, is expected to be in operation, according to H. M. Budd, a representative of the company, who is at the Hume. The factory will have a capacity of 700 barrels per day, said Mr. Budd, with one unit in operation. Provision will be made for two additional units so that the plant when completed to its full capacity will manufacture over 2000 barrels per day. "Between 40,000 and 50,000 barrels of cement will be required on the Canadian Northern construction work between Kamloops and the coast," he said.—Nelson Daily News.

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

LET US take time to speak sweet, foolish words to those we love. By and by, when they can no longer hear us, our foolishness will seem more wise than our best wisdom.

IN THE HOME should be found the most delicate and refined society, as here it is that we receive our first and most influential lessons in the great school of life. These lessons should partake of perfect honesty, truthfulness, manhood, heroism, patriotism and all things that tend to elevate the human character.

THE FATHER returns to his home after a weary day of work. He is tired in body and in mind. Coming back, he opens the home door and throws off care; he is joyous at the thought of the dear ones he will meet after hours of absence. His young daughter, in a pretty gown, with the bloom and freshness only girlhood wears, should be ready to give him the attention he loves—the kiss, the cheery word—to help her mother and the rest in letting her father see how much he is loved at home.

A TRUE MARRIAGE is the soul's Eden. It is the visiting place of angels. It is not given to words to express the refinement of pleasure, the delicacy of joy and the abounding fulness of satisfaction that those feel whom God hath joined in a high marriage of spirit. Such a union is the highest school of virtue, the soul's convent where the vestal fires of purity are kept continually burning. May only such happy unions attend the young men and maidens of our vicinity who may even now be planning their wedding garments.

LET A WIFE and mother love her home and her children with the most absolute and unswerving devotion and serve them with the most unselfish fidelity, and yet there are, nevertheless, times when she is weary. She knows better than anyone else the steps and the stitches, the same things done over and over, and the pettiness of the trials that come to the nursery and the kitchen. They are so insignificant that she is ashamed to talk of them, and we fear she sometimes forgets to tell her Savior, how hard they press her; and so, bearing her cross all alone its weight becomes crushing.

BOYS, as well as girls, should be taught to help in the house. How often we see the girls made to help with the housework while the boys are allowed to play checkers, or sit at the fire toasting their toes.

THE BOYS on the farm are better off if they only knew it, than thousands of the boys who are at large, wandering hither and thither, searching and looking for "rich bonanzas" to turn up. There is nothing like being practical and there is but one way to get the habit. Acquire business methods and train yourself to do good, honest, hard work. Don't waste your time learning to tie a cravat. You can buy cravats already tied.

GOOD HOUSEKEEPING has more to do with domestic happiness than young lovers dream of. We believe these times need women whose most beautiful work will be done inside their own doors. Without good housekeeping, the romance will soon go out of marriage.

WE HAVE SEEN little children while running at play, or perhaps on an errand for their parents, get a fall and bump a head or skin a finger, and when they go to their parents for a kind word of comfort they would say: "Well, next time look where you are going, and don't be so awkward. Now go along, and hush!" That child will certainly find out sooner or later that its parents have no love or sympathy for it, and will grow up without any kind feeling towards that parent. But, on the other hand, let the child come to the parents for advice, and if kind words are spoken the child will not forget it, and will always look with respect on that parent.

TO MAKE home happy is an art—an art a good many people have either lost or never found.

IF YOU WANT to give a little boy, from six to ten years old, a good start for the penitentiary, just allow him the privilege of running on the streets until late bedtime.

No one wants an impertinent, swaggering, cigarette-smoking boy about an office, or as clerk, book-keeper or stenographer. Girls do not acquire these detestable habits, and are, therefore, getting the places.

A BOY can help clear away after a meal, sweep the floor, polish the stove or wash the dishes, just as effectively as a girl. He is, as a rule, stronger. He will love his home more, and when he becomes a man, and has a home of his own, he will respect his wife all the more for having been taught to respect his mother and sisters.

IT IS nice to be handsome, but it is handsomer to be nice.

THE STREET is the best place in the world for teaching vice, profanity and crime; nearly all the bad language and the idle, vicious habits of boys are taught on the street at late hours of the night.

REVENGE is the only debt which it is wrong to pay.

The Okanagan Telephone Company have commenced work on the building of their Penticton exchange. The building will be 40 x 85 and will consist of a basement and first floor, all of concrete. The basement will contain work rooms, storage room and heating apparatus. On the main floor will be a general office, operating room, wire chief's room and a rest room for the operators. It is estimated that the building will cost \$8,000.

SURE PROOF.

"People nowadays," said the old house cat, "don't know how to raise children. They let the youngsters have their own way too much." "That's right," replied the old brood hen. "Now look at these chicks of mine. They wouldn't have amounted to anything if they hadn't been sent upon."—Catholic Times and Standard.

TAKE NOTICE.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, ETC.—25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 24, 1912.

GOVERNMENT CHEAP MONEY

DOWN IN New Brunswick the friends of a progressive immigration policy are urging their Provincial Government to take steps to secure "cheap money" for any farmers who will settle in their Province. And no more attractive bait could be offered the incoming immigrant. He would know that he could obtain money at low rates of interest to improve his farm, to stock it, to equip it with implements, and to extend his holdings, should he desire to do so. This system of public loans does not imply—properly looked at—an increase in the national debt, as some critics pretend. The Government need not go into debt at all, except for the trifling sum which, from time to time, may not be on loan to farmers. All it will do is to stand between the money-lenders of Europe, where money is cheap, and the Canadian farmers who want to borrow their cheap money. As fast as the country goes into debt to the money-lenders, it gets out of it again by finding farmers who will take the responsibility off its shoulders—not at all the same thing as borrowing money to spend it. Moreover, it must repay them. The Government will not pay interest on the money borrowed for the farmers—the farmers will do that. Nor will it have to repay the principal, for the same reason. It will not be a Government debt at all, unless the farmer defaults; and then the Government can sell the property and recoup itself for its loss.

Nor is the objection that it is "impracticable" any more convincing. Its practicability is proven to the hilt by the stubborn fact that it is already in operation. It is no use saying that a thing cannot be done when it is being done. A system is in operation in the colony of New Zealand—a community not unlike our own. The money in this case is borrowed by the Government in England. It is loaned to the farmers on freeholds up to three-fifths or two-thirds of the value of the security, and on leaseholds up to three-fifths of the value of the lessee's interest in the lease. The mortgages are repayable by half-yearly payments of the principal and interest combined, the interest being reckoned at four and a half per cent. provided the payment is made not later than fourteen days after the due date. How many Canadian farmers would like to get their money at 4½ per cent! Yet the New Zealand Government ought not to be able to borrow as cheaply as our Government.

It seems to be recognized everywhere but in backward Canada that the public credit should be used to assist the basic industry of agriculture at this vital point. The fact of the matter is that those who talk about Governments not being able to intervene in this important business of money-lending for the purpose of aiding agriculture, have not bothered to look up the facts. It is the very phase in the development of countries which has seen the most of Government intervention. New countries and old countries—countries in Europe, in Asia and in Australasia, have received this assistance where they most needed it.

U. S. SHOULD IMITATE CANADA

"THE CANADIAN METHOD of dealing with strikes is one that we could wisely afford to imitate," So writes Dr. Pankhurst, the well-known social reformer.

"Strikes involve three items of expense," Dr. Pankhurst goes on to say, "expense to the operatives, which is the most grievous of all in its immediate results; expense in its immediate results; expense to the general public in the way of disturbing the equilibrium of production and trade.

"Now, in Canada they do things differently.

"Strikes occur there, but they are not allowed to continue a running sore, draining month after month the vitality of the body politic, using up acquired wages, intruding on acquired capital and producing a general state of uncertainty and unsettlement.

"The Canadian law does not forbid strikes, but requires their postponement till a determined official effort has been made to effect an adjustment.

"This system of procedure wrongs no one, compromises no one's interests and allows the wheels of enterprise to continue running. A movement outside of our own country, which has more than justified itself by five years of mutually beneficent results, ought to find advocates and imitation on this side of the Canadian frontier."

A NATIONAL LOSS

THE DEATH of the Hon. Mr. Justice James P. Mabee, Chairman of the Board of Railway Commissioners for Canada, is nothing less than a national loss. The position he filled was of national importance, and the man whom death has just removed filled it in every sense of the word. Canada has, therefore, lost a great public servant.

Of all the bodies to which power has been delegated by the Parliament of Canada, the most important and the most powerful is the Board of Railway Commissioners; in fact, it has been said that no other court in the Empire possesses equal powers. The Board is not only a judicial body, but it is an executive and a legislative body as well. It sits in judgment on disputes arising under the general railway law of Canada, it enforces its decisions, and it legislates with respect to railway rates. Between the public and the common carriers by land the Board of Railway Commissioners holds the balance of justice.

Its jurisdiction is co-terminous with the Dominion, and the work it is called upon to perform is nothing short of tremendous. Last year the Board held eighty-eight public sittings at which five hundred and

sixty-five applications were heard, besides a great volume of minor business transacted.

Since the creation of the Board three men have filled the position of Chairman. The first was the late Hon. A. Blair, who, before becoming Chairman of the Board of Commissioners, had been Minister of Railways. Upon Mr. Blair's voluntary retirement, he was succeeded by the late Mr. Justice Killam, who left the Bench of Manitoba to preside over the great railway tribunal. After a few years of arduous service, Judge Killam died in Ottawa, and was succeeded by Mr. Justice Mabee, of the High Court of Ontario.

For a little more than four years Judge Mabee filled the position, and able and energetic as were his two predecessors, the position was never better filled. Nature had especially endowed Judge Mabee with the qualities essential to the successful discharge of high judicial duties, and to the discharge of those duties he gave the best that was in him. He had made himself master of the railway legislation of the country, and he enforced the law with an absolute impartiality and fearlessness possible only to great minds.

The death of such a public servant is nothing less than a national loss.—The Standard

MOONLIGHT nights are with us again—and so are the street lights.

TUESDAY was a very nice day for a holiday. Though by many misappropriated or mis-spent, the day was generally enjoyed.

SUMMERLAND is to have another annual exhibition. We have our Apple Show and we have our Poultry Show and now, by the enterprise of the ladies of the local branch of the Women's Institute, we are to have a Flower Show.

WHERE shall we get the men to harvest the bountiful crop that Nature has given us this year? It is going to be a serious question, and an organized endeavor should be made to meet it before the fruit season opens in real earnest.

BEAR IN MIND that it is better to have a small crop of good-sized, mature and saleable fruit than a large crop that has been stunted by overcrowding on the tree. Thin out your fruit; it will pay you as well as pruning and spraying.

LACK OF preliminary organization and of a head, either officially appointed or voluntary, together with the doubt that the work would be carried through to completion made "Clean Up Day," an utter failure in so far as street cleaning was concerned.

AMERICAN POLITICS IN PLAIN LANGUAGE

Sir Gilbert Parker's Opinion of Roosevelt and Taft

The following statement by Sir Gilbert Parker, cabled from London recently appeared in Canadian and United States dailies:

"I am not going to engage in a discussion of American politics, but since the President of the United States in a letter declared his policy towards Canada, in whose destiny I am very deeply concerned, I feel myself at liberty to say, as far as all Imperialists are concerned, we detest his secret intention, deliberately stated, even more than we detest his affirmed policy of commercial reciprocity. We, who know the United States, were well aware since the time of Mr. Blaine that commercial annexation leading to political annexation was the policy which was greatly desired in certain official quarters in America. I do not quarrel with their desire or intention, but it is our business to see the desire or intention shall never be fulfilled.

LET THE CAT OUT

Champ Clark let the cat out of the bag, and the bitter and painful part of the whole business is, you have a Democratic candidate and two republican candidates for the presidency, who have declared for the absorption of Canada. We are never likely to be deluded again.

"Now, I want to say I don't believe the mass of the American people would, as they say, stand for the kind of policy secretly exploited and falsely stated by the head of the American republic. To Colonel Roosevelt, Mr. Taft said he meant the absorption of Canada. To the people of the United States and the people of Canada he said he meant only mutual commercial advantage.

"We British people want a square deal, and if you caught us trying to sneak Alaska from you

by such a game as President Taft played, I fancy the President would go to Congress and ask for an appropriation, and you know what that means.

PLEA FOR FAIR PLAY.

"Alaska is needed to complete Canada's territorial position, but no one in the British Empire has ever thought of trying to inveigle the United States to part with her possession in Alaska, either commercially or territorially.

"Let us have fair play. We want no more than we are entitled to, and no less.

"I say the letter written by President Taft to Colonel Roosevelt, to the policy of which both agreed, is a blot on the high and honorable traditions of American foreign policy. Let the United States leave our Imperial bonds, our constitutionalities, alone. That's what Canada said. That's what I, in common with fellow-imperialists say. We mean to hold the British

Empire as it stands, every foot of it. We mean to keep intact the bond between our over-seas dominions and the United Kingdom. We mean, just as powerfully as Americans ever meant, by patriotically safeguarding our interests, to prevent our flag from being hauled down in Canada or our commercial position weakened by indirect means. Thank heaven the Canadian people suspected the game and kept faith.

AMERICANS ASHAMED.

"The President, ex-President, and the Democratic candidate for the Presidency declared for the absorption of Canada. What do the American people think of it? I know what we would think of the American people if they approved of the President's, ex-President, and Democratic candidate's desire and purpose, but I believe the vast majority of the American people are to-day ashamed of what the President did."

EMPIRE DAY

"Cousin Kate"

a Comedy in Three Acts by Hubert Henry Davies, will be presented by

"The Players"

on Friday, May 24, 1912, at 8.30 p.m. in

The Opera House.

Local News Items.
 G. R. Hookham made a trip to Keremeos on Saturday last.

BORN—To Mr. and Mrs. Alex. Smith, on Wednesday, May 22, a son.

Miss Myrtle Watson of Jones Flat is at Calgary on a visit to friends.

There is sure to be an interesting game of baseball Friday afternoon, Summerland versus Kelowna.

There will be no Presbyterian church services on Sunday next. Sunday School will be held as usual at 11.30 a.m.

Messrs. R. Callan and A. McLaine, of West Summerland, spent Sunday in Kaleden.

The Summerland Lawn Tennis Club has drawn up its constitution which will be put in booklet form, so that each member may have a copy.

Dog tax notices are being sent out from the Municipal Offices. Unless paid before June 30th, the rate of \$2.00 will be increased to \$2.40.

F. C. Manchester will be moving to Naramata within a few days. He purposes continuing in real estate and will open an office on that side.

A. L. Moreland returned on Tuesday night from a short business trip to Nelson and the Kootenay country. He says he saw nothing in that vicinity to equal Summerland.

The water in Okanagan Lake is still rising. It is now higher than at any time last season. The approach to the boat factory, which was supposed by the owners to be above the water line at any time, has already been reached by the water.

There will be no Sunday School session in the Lakefront Baptist Church on Sunday morning next. This will give those who attend there an opportunity to be present at the College Closing Service at the West Summerland Church at 10.30 a.m.

Dominion Day is to be Pentecost's Day. Already preparations are under way for an excellent program. The Pentecost Band has been engaged for the day, which has been given over to the Turf Club, and the principal events will be horse racing, with prizes ranging from \$15 to \$100.

An important real estate sale was closed out at West Summerland last week, when W. C. Kelley, barrister, purchased the Terris orchard property opposite Dr. McIntyre's at the rate of \$300 per acre. This figure indicates the increasing values of properties in West Summerland.

The members of the Ladies' Hospital Auxiliary held a most enjoyable tea at the home of Mrs. R. M. Ross on Tuesday afternoon of this week. The function was pronounced a great success both socially and financially. The proceeds, which amounted to \$20.75 will be devoted entirely to the Hospital funds. The ladies take this opportunity of thanking all who in any way contributed to the afternoon's entertainment.

Elsewhere in this issue is a formal announcement of the opening of Mrs. Milne's new store. Mrs. Milne is receiving daily her supply of stock which includes millinery, hosiery and small wares. The dressmaking department in charge of Miss Barclaugh is a feature of the business. The new building recently erected opposite the residence of R. H. English has been divided into two stores. The second store is occupied by Mrs. Noble as a Tea Room and Confectionery Store. Afternoon tea is being served from three to five. Home-made candies will be one of Mrs. Noble's specialties.

Local News Items.
 Music for Empire Day Sports at West Summerland will be furnished by the Naramata Band.

Indian Agent J. R. Brown is this week in the south country on an official tour. He is accompanied by Mrs. Brown.

F. W. Phillips, of Vancouver, is now local lineman for the Okanagan Telephone Company, Mr. Woodburn having been transferred to Penticton.

Don't forget the sports at West Summerland on Friday. Of course you will be present to witness the Summerland Football team take the game on Empire Day.

W. J. Curtis, Piano Tuner, will be at Summerland about May 30th. Orders left with T. E. Moore or G. A. McWilliams will receive prompt attention. my 24 31

Archie Allan and "Sandy" Nicolson, who have been with R. H. English for some time, have gone to Edmonton, with the intention of taking up homesteads in that vicinity.

Mrs. Alex. Miller, of Peachland is the guest for the week-end of Dr. and Mrs. R. C. Lipsett. Miss Kate Miller accompanied her mother and will spend a few days with Miss Watson.

There will be no Boy Scout parade to-morrow, the 24th, but on Friday next, the 31st inst., the boys are to meet at the home of Dr. and Mrs. C. M. Smith. During the evening Dr. Smith will give them a drill in First Aid.

Judging from the advance sale of reserved seat tickets Empire Hall will be crowded on the evening of Empire Day. A good number of front row tickets were sold as early as Wednesday, an unusual thing, even when there is a good house.

A Summerland resident upon visiting his cellar recently discovered a package which he had forgotten. It contained some Winter Bananas, and when brought out, the fruit was shown to be in prime condition, thus proving that this delicious apple can be kept at least until well into May.

The Women's Institute held their regular monthly meeting on Friday afternoon, May 17. There was a good attendance and much interest was displayed in the able pastry-making demonstration by Mrs. Geo. Gattrell. Plans were formulated for holding a Flower Show on the third Friday in August. A prize list has been drawn up for the Needlework Competitions at the Apple Show in October. The institute is offering thirty dollars in prizes and the Agricultural Association has promised to double the amount, making sixty dollars in prize money.

WEDDING.
 Atkins—Turner.
 A private wedding took place at the Anglican Church on Tuesday last, at nine o'clock, when George M. Atkins, of Summerland, and Miss A. E. Turner, of Bradford, England, were united in wedlock by the Rector, Rev. H. A. Solly. Miss Turner arrived on Saturday night direct from England, and was accompanied by her nephew, J. E. Turner, who will make his home with Mr. and Mrs. Atkins in their new cottage recently built near the residence of Mr. G. J. C. White.

PROGRESS OF THE WEST.
 The immigration movement into Western Canada has advanced very rapidly in the last five years. In 1907, 262,469 persons came in from all sources. The next year 246,908 came, in 1909 280,794, in 1910 311,094, and in 1911 the figures show 350,420 settlers, all of whom have come with the avowed intention of taking up their permanent residence with us. The wealth of Western Canada's partially developed natural resources is yet untold. With only ten per cent. of the vast stretches of fertile land under crop, with lumber and mineral resources merely surface touched, with millions of acres of free land and other millions of cheap land Western Canada is bound to have first place among the countries of the world as a place in which people may come and settle and make for themselves a home and a business equal to the ability, capacity and capital invested.

Western Progress, published at Winnipeg, Manitoba, has this little formula and suggests its application to individual cases generally in 1912, guaranteeing a satisfactory cure.

First of all come West; Then let A stand for Ambition C " " Courage E " " Efficiency O " " Optimism F " Funds (more or less) W " " The West

Thus A plus C plus E plus O plus F plus W equals SUCCESS, of which may you experience a generous measure during 1912.

Newfoundland is the oldest British colony, and was discovered by John Cabot in 1497.

The average yearly production of the 21,000,000 acres of European vineyards is 1,170,000,000 gallons.

A BUMPER CROP IN THE OKANAGAN
 Victoria, May 21.—R. M. Winslow, the provincial horticulturist, brings back to-day to Victoria a glowing account of the Okanagan district, where he has been attending the British Columbia Fruit Growers' Association conference.

The Okanagan is expecting a bumper crop both of vegetables and fruit, he says. Little winter injury has been done, and nearly every peach tree is said to have a good crop, while at Peachland apricots are already one inch long. Cherries are setting heavy crops. Many of the trees should yield a quarter of a ton. Apples and peaches will need considerable thinning to obtain good sized fruit. There is an enormous increase in the acreage of land under potatoes, onions and tomatoes, and the present estimate is that the crop yield of this district will be double that of last year.

The C. P. R. have placed the contract for five hundred tons of potatoes for their dining cars, no tuber to be over 1 1/2 or under one pound. Special seed has been set for this crop, which will be grown in the Okanagan.

GOD SAVE THE KING.

COLLEGE CONVOCATION
 An event of interest to Western Baptists took place last week when McMaster University, of Toronto, held a special convocation at Brandon to confer degrees in arts, this being the first of such events in Western Canada.

Chancellor McCrimmon represented the University and delivered a brilliant oration on the fundamental principles of Christian education. Dr. A. P. McDiarmid, the retiring Principal of Brandon College, was tendered an ovation following his address to the students.

The College presented twelve graduates and about twenty-five graduates of other universities received degrees ad eundem gradum, among whom were W. C. Kelley, barrister, and Rev. J. H. Bowering, who is locating in Summerland.

A FINE BOAT
 The Summerland Boat Works this week put afloat a very fine craft for use on the Lower Okanagan Lake. The boat was ordered and will be used by the Ferry Company of which A. S. Hatfield, of Kaleden, is the manager and principal owner. She is forty feet long by ten feet beam with an engine room amidships, and commodious seating capacity under a canopy extending from the engine cabin to the rear. She is fitted with a powerful heavy duty four-cycle engine and will be greatly appreciated by the ferry patrons on the Lower Lake.

Mr. Jas. Clark, of the Summerland Boat Works reports that his firm has orders booked to keep the full staff hustling until late in the summer. There will be some speedy boats, both motor and sail, turned out by this enterprising local concern this season.

EMPIRE DAY PROGRAM
 Arrangements have been made to hold a day of sports on Empire Day, Friday next, at West Summerland. The two big events are an Okanagan Valley League Football game, Vernon versus Summerland, and a baseball game, Kelowna versus Summerland. These alone should draw good crowds. The athletic events are as follows:

- 100 yards flat race, open.
- 220 yards flat race, open.
- 1/2 mile flat race open.
- 1 mile flat race, open.
- High jump, open.
- Long jump, open.
- Putting the weight, 14 lbs, open.
- Sack race, open.
- Entry fee for the above, 25 cents each event. The following have no entry fees:
- Throat and needle race.
- One mile relay race, four men.
- 100 yards, boys under 15.
- 50 yards boys under 15.
- 50 yards, girls under 15.
- 50 yards boys under 12.
- 50 yards girls under 12.
- 100 yards Boy Scout race in uniform, 14 years and under, and over 14.

A tug of war will also be held. A prize list of \$150 has been subscribed. Events will not necessarily be run in this order. Entries will be received by Chas. A. Marshall, secretary.

At 8.30 p.m., in Empire Hall "The Summerland Players" will present a three act comedy "Cousin Kato." Reserved Seat, \$1.00, admission, 75 cents.

BEE DEMONSTRATION.
 Mr. L. Harris, the Bee Expert, who visited Summerland last Saturday, gave a demonstration in handling bees that afternoon in Mr. W. J. Robinson's orchard. Mr. Harris strongly emphasized the necessity of bee-keeping in orchards. This necessity is becoming more and more recognized, and in experimental and horticultural stations it has been shown that where bees are prevalent there is not only more fruit but much better fruit, proving that when the blossom is highly pollinated, fruit of a more perfect type, in size, shape and color results. As it is only the No. 1 fruit that our orchardists are striving for, they should, as speedily as possible, employ the services of "the busy bee."

British Columbia is to have a London office building soon costing some \$250,000. Premier McBride is choosing the site while in London.

Municipality of SUMMERLAND
By-Law No. 39. DOG TAX
 ALL OWNERS OF DOGS in the Municipality are notified that the above By-law was finally passed on the 14th May, and the tax for the current year is now due and payable to the undersigned.

Extract from By-law:

CLAUSE NO. 3.
 No dog over six months shall be allowed to run at large within the Municipality, unless the tax for the same has been paid and a tag procured from the Municipality and kept fastened by a collar to the dog in such a manner as to be easily observed.

CLAUSE NO. 6.
 The tax for the year 1912 shall be Two Dollars, if paid by 30th June, and on and after 1st July, Two Dollars and forty cents.

F. J. NIXON,
 Collector.
 Municipal Offices,
 West Summerland.

ROYAL NAVAL COLLEGE OF CANADA, HALIFAX, N.S.

THE next examination for the entry of Naval Cadets will be held at the examination centre of the Civil Service Commission in November, 1912; parents or guardians of intending candidates should apply to the Secretary, Civil Service Commission, Ottawa, for entry papers before 1st October next.

Candidates must be between the ages of 14 and 16 on 1st October, 1913.

Cadets are trained for appointment as Officers in the Naval Service, the course at the College being two years, followed by one year in a Training Cruiser, after which Cadets are rated Midshipmen.

Further details can be obtained on application to undersigned.

G. J. DESBARATS,
 Deputy Minister, Department of the Naval Service,
 Department of the Naval Service, Ottawa, May 6th, 1912. m24-je24eow

"CIVIL SERVICE ACT."

THE qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places, commencing on Tuesday, the 2nd July next:—
 Armstrong, Chilliwack, Cumberland, Duncan, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, Peachland, Prince Rupert, Penticton, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of 21 and 30, if for Third-class Clerks; and between 16 and 21, if for Junior Clerks or Stenographers.

Applications will be accepted if received not later than the 15th June next.

Further information, together with application forms, may be obtained from the undersigned.

Section 7 of the "Civil Service Act" provides that temporary clerks and stenographers, who have not been regularly appointed by Order in Council, must pass this examination.

P. WALKER,
 Registrar, Civil Service.
 Victoria, B.C., 1st May, 1912.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
 Deputy Minister of the Interior.
 N.B.—Unauthorized publication of this advertisement will not be paid for.

COAL PROSPECTOR'S NOTICE

TAKE NOTICE that I, John D. Rice, of West Summerland, prospector, intend to apply for a license to prospect for coal on the following described land: Commencing at a post placed about two and a half miles west of Okanagan Lake, in Okanagan District of Yale, on the bank of Trout Creek, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to the point of commencement.

Dated, May 17, 1912.
 my17-je14p JOHN D. RICE.

B. C.'s. Irrigation Projects.

Three Big Irrigation Companies to Make Large Expenditure for Improvement of Fruit Lands of Province.

The development of the irrigated areas of British Columbia's eastern fruit valleys is now beginning to attract enormous interest in the Old Country, in Eastern Canada and in the United States. Large fruit and orchard development companies in the province are floating three irrigation projects in the Okanagan, Columbia and Nicola Valleys that will place 23,000 acres of first-class fruit lands ready for intensive cultivation.

WORK IN THE OKANAGAN.

The work of the Kelowna Irrigation Company on a tract of 8,000 acres adjoining the north-western part of the Kelowna townsite, will be completed this season. The system of irrigation employed on this tract is comprehensive. Three concrete reservoirs with a capacity of 4,000 feet, will receive the water from small mountain lakes. From the reservoirs 25 miles of concrete lined ditches; two miles of 30-inch pipe; three miles of steel fluming and 35 miles of distribution pipe will convey the water over the land. The system is the first of its kind to be installed in British Columbia and will cost \$350,000 to complete. The work was started in the spring of 1910 and makes available about 6,000 acres not before under irrigation. The land is divided into ten and fifteen acre tracts, and about 75 per cent. of the area is now occupied by settlers who have come exclusively from Eastern Canada.

A feature of the development work is the horticultural department. Thirty men and twenty teams are employed under the direction of an expert horticulturist to hasten orchards on towards the bearing period. Fruit trees such as apples, pears, plums, prunes and cherries were planted to the number of forty thousand in 1911, and seventy thousand additional will be planted this year.

IN THE COLUMBIA VALLEY.

To the north of Windermere, in the Columbia Valley, work will be started this month on a tract of 9,000 acres, a system of open ditches and steel flumes being installed. The water will be secured from Sinclair Creek and two small creeks that rise in the glacial fields of the Rockies. This tract is on the line of the Kootenay Central Railway and with the completion of that branch the Calgary market will be placed 24 hours nearer to the Valley than it is at present. The system will cost \$250,000 and similar work will be undertaken by a skilled horticulturist to that now going on in the Okanagan. The water service will be built in units, and it is estimated that the entire system will not be completed before 1915.

IN THE NICOLA COUNTRY.

One of the oldest ranch properties in British Columbia, the Beaver Ranch, at the head of Nicola Lake, a tract of more than 6,000 acres, settled in 1885, is also being put under irrigation. An open ditch with wooden and steel flumes will convey the water from the headwaters of Beaver Creek. Hardy fruit and root crops will be the principal products of the tract, and it is understood that the farms will be settled by Old Country people, retired officers of the army and civil service. Arrangements are being made for the transportation of settlers as soon as the tracts are in shape to receive them. The C. P. R. touches the lower end of Nicola Lake, and a boat service will be established to connect with the trains. A railway survey from Kamloops to Nicola passes through the property, and the Hope Mountain line will place the Vancouver market in direct connection with the district. Alberta and Saskatchewan markets will also be reached by Nicola shippers. The project will require four or five years to complete.

The Provincial Convention of School Trustees this year is to be held at Kamloops September 24-26. It is probable that Hon. Martin Burrell will be one of the speakers.

State your needs in "THE REVIEW" "WANT" Column.

DISCOLORED PITH IN NURSERY TREES.

Inspector Cunningham's Warning and Advice.

Fifty carloads of nursery stock, packed tight and inspected tree by tree, have gone through the hands of the fruit inspection office this season. Mr. Thomas Cunningham, provincial inspector of fruit pests, states that condemnations have been proportionally fewer than in former years.

"We find, however," said the inspector, "that a new trouble has developed. We have found the pith of some of the young trees coming in to be discolored and brown. This not being a contagious disease, I had serious doubts about my authority to condemn the trees, so I allowed them to go through, but I believed it was my duty to apprise the consignees, and I am sending out this circular letter."

Mr. Cunningham here produced a copy of the circular setting forth the nature of the injury and advising growers to cut down below the discoloration to the white pith before planting. The circular stated that the discoloration was evidently caused partly by heavy rains in Washington, where most of the stock came from last fall. Mr. Cunningham said he did not wish growers to take any chances, and cutting down the trees could do no injury, as it would tend to create trees with lower tops and better to handle.

Discussing a recent order of the Dominion Government restricting the importation of Hawaiian fruit, and compelling importers to notify the Dominion entomologist, Mr. Cunningham pointed out that owing to the distance of this province from Ottawa, British Columbia was exempted from the provisions. He did not think that the country would suffer from it, except that it might prohibit the importation of pineapples, of which we got the best from Hawaii. So far as he was concerned he was more anxious to see reciprocal trade relations with Australasia in fruit importations. The only objection seemed to be that there might be danger of introducing from the Antipodes the Mediterranean fruit fly to Canada. One of his staff had large experience in the New Zealand department of entomology, so that he was well equipped for the inspection of fruit infected with it. In New Zealand it could only be eradicated by destroying all trees in which infection was found. It was introduced to that colony on oranges, and protective measures were not taken until many peach trees were infected with it. There was little danger of having to pass through that experience in British Columbia, as we had the men and the equipment to deal with it.

CHURCH NOTICES.

St. Stephen's Church (Anglican).—Holy Communion every Sunday at 8 a.m. except on the first Sunday in the month. First Sunday in the month Holy Communion at 12 noon. Matins 11, Evensong 7, each Sunday. Rev. H. A. Solly, B.A., Rector.

Methodist Church.—Services: Morning, every Sunday at 10.30. Sunday School at 11.30. Evening, fortnightly at 7, alternating with West Summerland.—Frank W. Hardy, M.A., B.D., Pastor.

Baptist Church.—At West Summerland every Sunday at 10.30 a.m. Sunday School at 11.45 a.m. At the Lakeshore Church 7 p.m. Sunday School at 11.30 a.m. F. W. Pattison, Pastor.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30 a.m., Sunday School, 11.30 a.m. Evening, fortnightly at 7 p.m., alternating with the Methodist Church.

RAISIN BREAD.

Cover two cupfuls of seedless raisins and two cupfuls of rolled oats with boiling water. Cook in a double boiler to a thick porridge and until raisins are plump and tender. Then add one tablespoonful of lard and one of salt, one cupful of cooking molasses and one pint of water. Soak one yeast cake in a little water. When ingredients are cool add yeast. Mix with flour into a smooth dough. Let rise over night. In the morning mould into pans. Let rise and bake. Turn each loaf in melted lard when placed in oven and again when baked and removed from oven. This process makes a tender crust.

Biblical Discovery Is Made. C.P.R. to Exhibit at New York

Papyrus Volume Gives Text Of Parts Of Deuteronomy, Jonah And The Acts Of The Apostles.

The London Times announces the discovery in Egypt of a papyrus volume containing the text of the greater part of Deuteronomy, the whole of Jonah, and nearly all the Acts of the Apostles, which it describes as perhaps the most important find of all the excavations in Egypt.

The volume is written in the dialect of Upper Egypt and comparison with other manuscripts indicates that it is far older than any Coptic manuscript hitherto found. It contains one hundred leaves eleven by six inches, but it probably contained twenty more. Many of the leaves are wormeaten and the edges rubbed. There are no decorated margins or ornamented initials, a fact which indicates its great antiquity. It was bound with pieces of old inscribed papyrus gummed together and covered with varnished kidskin. The manuscripts are all in the same texts, and some of the coarse expressions in Deuteronomy reproduced from the Hebrew in the Greek translation have been much softened.

The book of Jonah is complete except in parts, where only one or two words are gone. Hitherto only a few verses of Jonah have been discovered in the Coptic.

In the acts of the Apostles, which is perhaps the most important section of the book, there are numerous mistakes in spelling, both of Greek and Coptic words. There are other blunders which would only be made by a careless copyist or through copying an old and partly obliterated text. Sometimes words and whole lines are omitted. The museum authorities think the errors can be attributed to the Archetype, as elsewhere the writer shows great care. Experts think the volume was written not later than the middle of the fourth century.

British Columbia Potatoes For Stillwell Trophy. Will Make Display Of Fauna Of This Province.

The C. P. R. is making arrangements with the Provincial Museum authorities at Victoria for obtaining a full collection of wild animals, birds and fish for their exhibit at the annual exposition to be held at the Madison Square Gardens, New York, next November. The company has appropriated the sum of \$5,000 for this purpose.

It is the intention of the C. P. R. also to exhibit potatoes representative of British Columbia, and in this a special effort is being made to capture the prize that came the way of the province last year at the first time of asking, namely the Stillwell trophy. In this connection the company has just issued a clever advertisement. Its exterior represents the outline of a British Columbia potato, appropriately colored, and the inside contains the necessary information.

LATEST PICTURE OF BORDEN.

The recent change of Government has made R. L. Borden the central figure of our Canadian public life. Many would like a good picture of him. We can supply one FREE. We will send anyone our paper for one year, and The Weekly Mail and Empire, (the regular rate of which is \$1.00 per year), for the same period, the two together, to include the free picture of the new Canadian Premier, for \$2.50.

The Borden picture is on fine paper suitable for framing, in photo tints, 18 x 24 inches, and is in itself as a work of art, easily worth the price of a year's subscription to either paper.

Send all orders to the office of The Summerland Review.

In Spain women take the place of newsboys in the streets.

History Of The Apple.

Romans First To Recognize Its Value.

THOUGH "apple" is a Saxon word, and is but very slightly changed from the original form, "aepel," the Romans are generally credited with having been the first to recognize the value of the fruit, and to them, no doubt, we owe the first efforts towards cultivation attempted in England. At a later date the monks, to whom also we owe so much in the development of all manner of useful things, afterwards made a special study of the apple, and it is worthy of note that the Arbroath Pippin, or Oslin apple, was either first introduced or first extensively cultivated by the monks of the Abbey of Aberbrothwick. Another famous variety, the Nonpareil, is said to have been brought from France by a Jesuit in the time of Queen Mary.

THE ORIGIN OF SOME OLD VARIETIES.

The origin of many of the apples still commonly cultivated in English gardens probably dates back to the time of the Conquest, and the fact that the Normans paid particular attention to this fruit no doubt accounts for the many French names to be discovered on the labels in the orchard. Perhaps the first truly British apple that was extensively cultivated was the Custard variety—at any rate, this is the apple first mentioned by name in early writings. Turner refers to it as the only apple alluded to in the horticultural records of the thirteenth century, where it appears as the "Costard." He adds that it is so referred to in the fruiterers' bills of the year 1292, and whether there were other equally famous varieties of apples known at the time or not, it is significant that the word "costermonger," which was originally "costard-monger," or a "dealer in costards," evidently owes its origin to the most famous apple of that period. The custards apple was what we should now call a "cooker"—indeed, its name now implies it—and it is plain enough that apples were first regarded more as material for cooked dishes than as dessert. The bitterness of the fruit which made it unpalatable when eaten "au naturel," must have taken many years to remove. The dessert apple proper is said to have been practically unknown until the reign of Henry VIII, in whose time great attention was paid to this branch of orchard development.

THE PIPPINS.

The pippins, which are said to have been so called because it was possible to raise the trees from the pips or seeds, and so to obtain eatable fruit without having to recourse to grafting, were brought from France, according to the omniscient Fuller, in the sixteenth year of Henry VIII's reign, and half a century later they were grown by most orchard owners. Justice Shallow refers to these French varieties when he says: "You shall see mine orchard, where, in an arbor, we will eat a last year's pippin of mine own grafting," from which we may infer that in some cases it was found desirable to graft even the pippins. The "Ronat" or Golden Pippin is said, however, to have been raised at Parham Park, Sussex, England, to-day more famous for its herony than for its fruit.

CIDER AND "LAMBSWOOL."

Cider, of course, is still commonly brewed in many parts of the country, but the day has gone when every farmer of importance owned his cider press and regarded the autumn brewing of that beverage as one of the most important functions of the year. Except in a few counties, the old cider orchards are more or less allowed to run to rack and ruin nowadays, while the famous winter beverage of our forefathers, also made from the juice of the apple, and which was known as "lambswool," is, one believes, everywhere forgotten. But the recipe for making this beverage, which is said to have been the grand ingredient of the wassail bowl, has been preserved, and any one is at liberty to experiment with "The pulpe of the roasted apple, in number four or five, according to the greatness of the apples (especially the pomewater), mixed in a wine quart of faire water, and labored together until it comes to be as apples and ale, which we call lambswool."

But the old-time uses of the apple did not end here, for as Gararde assures us, there is made an ointment with the pulp of Apples and swine's grease and rosewater, which is used to beautify the face and take away the roughness of the skin; it is called in shops pomatum, of the apple whereof it is made.

Eggs Beaugard.—Boil three eggs twenty minutes, remove the shells, separate the whites from the yolks, and chop the whites fine. Put a teaspoonful of butter and a heaping teaspoon of flour into a saucepan, mix well, pour on gradually a cup of rich milk, and cook to a smooth sauce. Season with salt and pepper. Make some slices

of nice toast and cut into squares. Stir the whites of the eggs into the broam sauce, spread over the toast, and rub the egg yolks through a strainer over the top. Set the dish for a minute in the oven, garnish with small pieces of toast cut in points or triangles, and with a sprig or two of parsley, and serve.

Naramata Notes.

Mr. and Mrs. R. M. H. Turner paid Naramata a short visit last Saturday.

Mr. J. H. Pushman has moved to town having taken possession of the residence recently purchased from T. H. Boothe.

Mr. and Mrs. Warren, from Penticton, were here for a few days last week looking over the prospects in the real estate line.

Mrs. Morgan, a former resident of town, was here for a brief visit this week. The family are returning from Kamloops and intend to settle in Penticton.

The Unity Club held a pleasant session last Friday, their semi-monthly gathering. They were entertained by two Bs of the club, Miss Brunton and Mrs. Boothe.

The occasional showers of the season have had a splendid effect upon vegetation of every description. The strawberry season is at hand, and wild varieties have been picked this week.

Mr. Davies has purchased a house and an acre and a half orchard from Mr. N. Alexander, engineer on the "Maude Moore." It is not, however, Mr. Davies' intention to take immediate possession.

The old Boat Factory is being very considerably altered and enlarged. A solid cement and stone cellar is being placed under it, and the whole building is being made to serve the needs of a departmental store. The Naramata Supply Company will probably vacate their present premises and make room for the Trust Company's office staff whose present quarters are entirely inadequate.

JIMMY'S LETTER TO DAD.

Okanagan College,
West Summerland,
May 22, 1912.

Dear Dad:

Exams! Six down and two to go, as the golf enthusiasts say. Passed in everything but the two hardest ones to come. Nothing but study these days.

Yours, as ever,
JIMMY.

RIFLE ASSOCIATION.

The local men taking part in the Sixth Annual Meeting of the Okanagan Rifle Association, at Armstrong last week, report having had an excellent time, and while they were unable this trip to capture any of the chief events, they were well up in the several competitions, and in the team shoot for the Summerland Shield, were only two points behind the winners. The results of the team shooting was:

SUMMERLAND SHIELD.

Vernon	742
Summerland	740
Armstrong	719
Kamloops	714
Penticton	698

Teams of eight men, 7 shots and a sighter each at 200, 500 and 600 yards.

ARMSTRONG SHIELD.

Kamloops	632
Armstrong	628
Vernon	625
Summerland	622
Penticton	591

Teams of six men, 10 shots and a sighter at 500, 7 shots and a sighter at 600 and 800 yards.

VERNON SHIELD.

Kamloops	721
Vernon	681
Summerland	669
Armstrong	657
Penticton	632

Teams of eight men, 7 shots and a sighter each at 800, 900 and 1,000 yards.

There were about fifty-two competitors attending the meet, and in the Grand Aggregate, which is the best index of the individual shooting, the leading and local scores were:

1—Areher, Kamloops	364
Winner	
2—Marshall, Armstrong	364
3—B. Stewart, Summerland	352
17—W. Nelson, do.	348
18—O. Smith, do.	345
19—J. Conway, do.	343

On the local range here the balance of the members held their weekly practice, leading scores being

	200	500	600	Total
G.M. Loomer	32	31	31	94
A. E. Nelson	28	27	30	85
F. J. Nixon	25	27	28	80

There will be the usual shoot this week on Saturday.

Okanagan College Closing Exercises

Local Institution Commemorates Fifth Anniversary

A Successful Year's Work.—Freshman and Sophomore Courses for 1912-13

The Fifth Anniversary Closing Exercises of Okanagan College took place on May 26, 27, and 28.

The closing sermon was delivered by Rev. Wm. Stevenson, pastor of Immanuel Baptist Church, Victoria, B.C., in the Baptist Church, West Summerland. Mr. Stevenson gave a strong message to the student body. He is forceful, direct, very sincere, in proclaiming the gospel of Christ. He has a magnetic personality, and is a most pleasing speaker. He thus held his audience with ease.

Mr. Stevenson chose for his subject the great theme of "Life." His one thesis was that the ideal life is that lived after the pattern of Christ, who touched life, in its highest reaches, on all sides. To mould our lives in accordance with the teachings of the Master, is the only hope of humanity. He appealed strongly, to the students, as they go out into the public life of this country, to LIVE for the betterment and purifying and ennobling of the social life of the time. Principal Sawyer presided.

Solos were very acceptably rendered by Professor Moore and Miss Annie Campbell.

Solo, Professor Moore, "The Lord is My Light," Francis Alliston.

Solo, Miss Campbell, "Nature's Praise of God," Beethoven.

On May 27th the "At Home" given by the Faculty and Board of Governors, took place in the College Gymnasium from 8 to 10.30. This was the first function of this kind given by the College, and was pronounced a success. In response to 500 invitations about 350 friends of the College were present. The decorations and arrangements were excellent, and much praise is due Miss Spencer, Mrs. Perry, and Mr. Middleton, the committee, who could make a large, bare, gymnasium building presentable.

In the receiving line were Dr. and Mrs. Sawyer, Rev. Wm. Stevenson, the guest of the evening, Dr. and Mrs. McIntyre, and Miss McLeod, the Lady Principal. The guests were announced by Mr. Gilbert White.

A very pleasing feature of the evening was the appearance, for the first time, of the College orchestra under the direction of Prof. Moore. They were enthusiastically received as they rendered the three selections—1. The Rob Roy March (de Koven); 2. Minuet from the Opera "Bernice," (Handel); and 3. The Waltz, "Magnolia Blossoms," (de Koven). The personnel of the orchestra is as follows:

- Miss Higgin, First Violin. Prof. Baker, Do. do. Mr. Muir Stuart, Clarinet. Miss Higgin, Cello. Miss Quipp, Do. Prof. Wright, Trombone. Mrs. Moore, Second Violin. Miss Byrd Do. do. Miss Scheeler, Piano. Prof. Moore, Leader.

It is to be hoped that the "At Home" will be an annual function of the closing exercises of the College.

The closing of the College proper took place on Tuesday evening, in the West Summerland Baptist Church. Principal Sawyer and his staff, together with the speaker of the evening, Rev. Wm. Stevenson of Victoria, occupied seats on the platform. The student body filled the left section of the church.

The exercises were opened with prayer by Rev. Mr. Stuart, pastor of the Baptist Church, Armstrong, B.C., Miss Denholm sang a solo. Rev. Mr. Stevenson was then introduced to the audience. His subject was "The Making of a Nation." In his introduction the speaker laid down the basic principle that, we make the world in which we live. A city, a nation, is an expression of soul.

The Province of British Columbia is a great heritage. It is the backbone of Canada. It will be, on the completion of the Panama Canal, the front door of Canada. A great problem confronts the Can-

adian people. A great future lies before her. What is she to finally become and be?

All nations have specialized. Palestine noted for her religion, Greece for her art and culture, Rome for her law, government and empire building. What is Canada's specialization to be?

Mr. Stevenson then pointed out some of the necessities for the building of a great and good nation.

- 1. Good laws and justly administered. 2. Purity and honor in public life. 3. Enterprise and energy in developing and opening up a country to the people. 4. Education, stripped of its false ideals—(a) educated people despise labor, (b) culture which makes caste feeling. 5. Religion—pure religion makes people better. 6. Patriotism—the kind that makes a man love his fellow men.

The speaker had the rapt attention of his listeners for upwards of an hour. Mr. Stevenson contributed much to the success of this year's closing exercises.

GRANTING OF CERTIFICATES.

Dr. Sawyer then granted the following certificates:

I.—Collegiate Course.

- 1. Miss Kathleen Bridges, Cranbrook, B.C. 2. Mr. T. Alvin Cunningham, Vagreville, Alta. 3. Miss Ruth Dale, West Summerland, B.C. 4. Mr. Bryson Finnis, Cranbrook, B.C. 5. Mr. Joseph Graham, West Summerland, B.C. 6. Mr. Wilbur Ryan, Vancouver, B.C. 7. Miss Victoria Stevens, Edmonton, Alta.

II.—Stenography and Typewriting Course.

- 1. Miss Ella Vance, Kelowna, B.C. 2. Miss Alice Kierstead, Penticton, B.C. 3. Miss Susie Crowe, Penticton, B.C. 4. Miss Annie Stewart, West Summerland, B.C. 5. Miss Myrtle Larter, Chilliwack, B.C.

III.—Business Course.

- 1. Mr. Leonard Armstrong, West Summerland, B.C. 2. Mr. Le Roy Black, Summerland, B.C. 3. Mr. Arnold Gayton, West Summerland, B.C. 4. Mr. Edmund Sawyer, Summerland, B.C.

The following report was then read:

Report of Students in the Academic Department, 1911-12.

FOURTH YEAR.

The following students have passed in all the required subjects and are entitled to the Collegiate Diploma:

See Collegiate Course List above. The general high standing of students in this class should be noted. Class led by Kathleen Bridges with an average of 84 per cent. for the year's work.

The following special students have passed in all subjects and are advanced to the next year:

Walter Middleton, Kelowna. His remarkable record should be noted. He completed the work, with the exception of French, with a very high average.

The following students are advanced to the next year:

Christino Simpson, Vancouver, B.C.

THIRD YEAR.

The following students have passed in all the required subjects and are advanced to the Fourth Year:

John Marshall, Vancouver.

SECOND YEAR.

The following students have passed in all the required subjects and are advanced to the third year:

Marion Cossar, Penticton; Keith Elliott, Summerland; Roscoe McWilliams, Summerland; Annie Lynn, Armstrong; Henry C. Packham, Robson, B.C.

The following Special Students have passed in all subjects and are advanced to the Third Year:

Annie Campbell, Vancouver; May Allen, Vancouver; Ella Morrison, Vancouver; W. P. Morton, Vernon.

Class led by Marion Cossar with an average of 81 per cent. for the year's work.

FIRST YEAR.

The following students have passed in all the required subjects and are advanced to the Second Year:

Kate Butters, Lumby; Josie Butters, Lumby; Margaret Williams, Vancouver.

A general high average in each case. Class led by Margaret Williams, whose marks on examination were as follows: Algebra, 100; Geometry, 100; French, 100; English Composition, 100; English Grammar, 100; Bible, 97; Arithmetic, 95; English Literature, 88; Latin, 82.

The following Special Students have passed in all subjects and are advanced to the Second Year:

Clinton Campbell, Vancouver; Gerald Few, Victoria; Ethel Hammar, Chilliwack; Consuela Willis, Chilliwack.

The following students are advanced to the Second Year:

Alonzo Dupont, Revelstoke; William Simpson, Vancouver.

The following students who have not yet written their 2nd term examinations and received their year's standing have made excellent records:

Third Year—Geo. R. Parsons, Chatham, Ontario.

Second Year—William M. Armstrong, Pincher Creek, Alta.; Chas. Johnston, Revelstoke; Leone Morrison, Peachland.

First Year—Harold Pinkney, Blairmore, Alta.; Marjorie Simpson, Summerland.

The Musical Department has had much success this year. Dr. H. C. Perrin, Head of the Musical Department of McGill University, has been here conducting examinations. Eleven students out of fifteen who tried the Examination in Piano passed successfully. Miss Olga Watson of the Public School staff headed the list, making 130 points out of a possible 150.

The following with their grades passed in Piano:

- Miss Olga Watson, Grade III, Summerland; Miss E. Thomson, Grade III, West Summerland; Miss Jean Stevens, Grade IV, Edmonton, Alta.; Miss Laura Denholm, Grade IV, Chilliwack; Miss Helen Sawyer, West Summerland; Miss Annie Campbell (Voice) Grade IV, Vancouver; Miss Margaret Williams, Grade V, Vancouver; Miss Edna Graves, Grade V, Nelson; Miss Helen Phinney, Grade V, W. Summerland; Miss Elizabeth Johnston, Grade VI, West Summerland; Miss Marjorie Hatfield, Grade VI, Summerland.

Dr. Perrin expressed himself as highly pleased with the work in this Department. Prof. Moore and Miss Scheeler, the instructors, deserve much praise for the excellent showing they have made.

The Freshman work in affiliation with McMaster University, has been carried on this year. The final results are yet in the hands of the Examining Board of McMaster. The following make up the class:

Miss Marion Clingan, Salmon Arm; Mr. George Clingan, Salmon Arm; Mr. Hugh Corey, Kamloops; Mr. Arthur Riley, London, Eng.; Mr. Frank Menzies, Vancouver.

Miss E. Thomson then rendered a piano solo entitled, "Murmuring Zephyrs, Jensen-Nienann.

The following announcements were made by Dr. Sawyer:

The Board of Governors had decided to put on during the next two terms, the First and Second Years of University Work, in affiliation with McMaster University. In this connection he spoke of the advance of the work. The efforts of the College are bearing fruit. This year two of the old students have graduated, Miss Georgina Logie has just graduated B.A. at McMaster University, taking First Class Honors in English Literature, and Mr. R. Campbell Robinson, has received the B.A. degree with First Class standing at Toronto University.

Mr. John Morton late of Vancouver has bequeathed a large tract of land in South Vancouver to the Western Educational Board of the Baptist Union.

Mr. Morton was one of the first settlers in Vancouver, and throughout his life has been most beneficent in his gifts to the Church and to all causes of philanthropy.

Rev. H. G. Eastbrook, the Superintendent of Home Missions for

(Continued on Page 2.)

"The Players" in "Cousin Kate"

Successful Presentation to a Large and Appreciative Audience.

On the evening of Friday, 24th May, the Summerland Players gave a very charming presentation of Hubert Henry Davies' "Cousin Kate," a light comedy in three acts. The play is ambitious work for any company of local or provincial players, however gifted, and it was with feelings of some misgiving that we betook ourselves to the venue of the play on Friday evening. Any doubts we may have entertained, however, were soon dispelled, for in the first act it was seen at once that the audience were "up against" something really good.

Miss Evelyn Higgin as Cousin Kate, had an exceedingly difficult and onerous part to perform, but she acted with wonderful dignity and grace, blending a certain old-fashioned simplicity of manner with a most attractive and winsome modern style, reminding one very peculiarly at times of that brilliant artiste, Ethel Barrymore. In the second act her ability was seen to particular advantage, where she combined good, solid work with a lightness and airy charm that captivated the house.

Mr. William Sauter, in the character of Heath Desmond, had full play for his undoubted gifts. In conjunction with Cousin Kate, for whom, as her lover, he conceived a passionate and devoted affection, he put in an extraordinary, exacting and meritorious work. As an irresponsible Bohemian artist-lover, falling into a series of very trying and perplexing situations, he comforted himself with an easy grace and assurance that carried him triumphantly through to the happy end.

Miss Marion Cartwright, as Mrs. Spencer, had a very special reception. It was something of a surprise to see Miss Cartwright in such an unusually staid but nevertheless exceedingly difficult part, namely that of the much worried and perplexed mother of Amy and Bobby Spencer. Very high praise is due Miss Cartwright for her able and intelligent interpretation of a truly difficult part, and the alternate phases of happiness and dejection through which she passed the better showed her genius and resource.

Mrs. Cecil Garnett filled the role of the demure, pious and even priggish Amy Spencer, the jilted fiancée of the hopeless and inconstant Heath Desmond, for whom she imagined she entertained a sincere and pure affection. Her love for Heath rapidly cooled under desertion and the wiles and machinations of Cousin Kate, whom she supposed to be her ally, resulted in a climax of misunderstanding and coldness, of which the Rev. James Bartlett (Mr. O. Villers) knowing Amy's "churchy" tendencies, was not slow to take advantage. Mrs. Garnett played her part lightly and cleverly and charmed the audience with her naive and simple manner.

The part of the Rev. James Bartlett was well sustained by Mr. Oliver Villers with a due amount of earnest and careful acting. His steadfastness of purpose, his outspokenness and his devotion to and defence of the distracted Amy and the no less distracted Mrs. Spencer, were exceedingly well done, and fitted very happily into the play.

As Jane, Miss Dorothy Cooper had not a great deal to do, but her brief appearances on the stage were nicely studied and wore a necessary and excellent relief to the "heavier work of the other-players.

Master Edward Logie found a role to his liking as Bobby Spencer and received frequent applause for his good work. By and by, given larger scope, he should do credit to Summerland and himself, and in future performances of the Players where the services of a very calm and collected young gentleman are required.

One was glad to see such a well-filled house, and the appreciation of the audience was continuous and marked. Assuredly, The Players must go on. Nor must they confine themselves to the restricted sphere of Summerland. Mr. William Sauter has brought together a company of players such as one in-

Empire Day at West Summerland

Home Teams are Victorious in both Baseball and Football

Large Crowds Attend Celebrations.—List of Winners in Athletic Events

Empire Day was all that could be desired as a day for field sports, and the attendance at West Summerland was large. Judging from the number of conveyances on and about the grounds practically every rig in the district was called into service for the day. Though the program was published to begin at eleven o'clock, it was not until the afternoon that the crowd gathered in large numbers. In the meantime some of the races and other events had been put on, and about three o'clock the baseball game, Summerland versus Peachland, began, and the crowd enjoyed the game greatly. Though the visiting team was soon shown to be at a disadvantage, the game was not so one-sided as the final score would seem to indicate, and considering the fact that the Peachland boys were playing on a strange diamond against an exceptionally good battery, they did not put up a bad game. The final score was 14-4 in favor of Summerland.

The music furnished by the Naramata Band was greatly appreciated. The event of the day, however, was the league football match between Summerland and Vernon, the result of which was a general surprise, and the Summerland boys are certainly to be congratulated in lowering the colors of the heretofore victorious Vernon team.

LIST OF ATHLETIC EVENTS.

- 380 yards—1st Roy Stevens; 2nd L. Patten. 440 yards—1st A. Gayton; 2nd D. Steuart. 220 yards—1st A. Gayton; 2nd L. Patten. High Jump—Tie between Wm. Kruger and A. McDougall. 100 yards Dash—1st A. Gayton; 2nd L. Patten. 80 yards Sack Race—1st L. Sherk; 2nd R. Verrier. Putting the Weight—1st D. Donaldson; 2nd J. R. Campbell. 50 yards, boys under 15—1st D. Dupont; 2nd W. Simpson; 3rd H. Phinney. 100 yards, boys under 15—1st W. Simpson; 2nd D. Dupont; 3rd H. Phinney. 50 yards, boys under 12—1st D. Ritchie; 2nd J. Gayton; 3rd Wm. Snow. Broad Jump—1st Cliff McWilliams; 2nd L. Patten. Boys' Special Race, under 10—1st Moses Marshall; 2nd Warren Gayton; 3rd Joe Gayton. Boy Scouts' 14 and under—1st James Kean; 2nd H. Phinney; 3rd William Snow. Boy Scouts, over 14—1st Jas. Kean; 2nd H. Phinney. Girls, under 12—1st Bertha Bristow; 2nd Dorothy Tingley; 3rd Muriel Phinney. Girls, under 15—1st Bertha Bristow; 2nd Hattie Phinney; 3rd Dorothy Tingley. Relay Race—College Team. Tug of War—Swede Team. Starter, G. Fisher. Judges, R. H. Helmer, W. Beattie.

FOOTBALL.—Summerland v. Vernon.

This league game was played late in the afternoon before a considerable number of spectators. Inasmuch as the home team had already lost two games in the series, one to Penticton and the other to Kelowna, and Vernon had won two games from the same teams, speculation was rife as to the result of this game.

The game was delayed until late in the afternoon on account of the non-arrival of the Vernon boys, whose journey by automobiles was

decided seldom seen outside the large centres. To Mr. Sauter, as actor-manager, the play owes almost all its success. Mr. Sauter's gifts are associated with a highly practical and business-like personality, and Summerlanders have come to admire this charming and gifted amateur resident in their midst. But the whole company, indeed, is to be congratulated on Friday night's performance, which we understand, is to be repeated at Kelowna, Vernon and elsewhere, thus giving the residents in those towns another opportunity of seeing what Summerland amateurs can do.

not without drawbacks, and in justice it must be said of them that they would have felt in better form had they had other means of transportation.

About 5.30 the game was started in charge of A. H. Steven who undertook to act as referee. Captain Fisher won the toss, and Vernon were sent to defend the east goal with a strong sun facing them. From the start off it was plainly discernible that it was no mean task that each team had set themselves to capture the points at stake, and from the very start the pace was fast. Vernon pressed at the start, but their efforts were frustrated by the stubbornness of the Summerland defence. The local team then took the game in hand, and from an individual effort on the part of Fisher, a hot shot was sent into the Vernon goal which struck the crossbar and glanced downward. With difficulty the ball was cleared and returned to mid-field, when the referee had some misgivings as to whether the ball from Fisher's efforts had actually crossed the line or not, stopped the play and proceeded to interrogate the goal umpire on the matter. The umpire, of whom it must be said that he was a Vernon man, claimed that the ball had crossed the goal line, but Referee Steven, knowing that he could not state with any degree of accuracy himself that a goal had actually been scored, together with the fact that he had allowed the ball to return to play, decided on a throw-up, to which the sportsmanlike Summerland team agreed to without demur.

The teams crossed over at half time with no goals to their credit. After an interval of ten minutes play was resumed, and give and take play was the feature of the best game of football that has ever been seen in Summerland. The splendid combination exhibited by the visitors throughout, and the resolute endeavors on the part of the homesters to checkmate every attempt to break through provided a bill of fare that the crowd thoroughly enjoyed.

By dint of perseverance the home team forced the play, and from a melee in front of the Vernon goal Fisher scored with a swift, low shot that gave the visiting custodian no chance. This put the crowd in good humor, and every encouragement was given to the home team and they redoubled their efforts, with the result that shortly afterwards Lacey, Summerland's inside left, headed through a second goal, which ended the scoring, though both teams strained every effort.

Result—Summerland 2, Vernon 0.

NOTES.

The visitors' goalkeeper could not be held responsible for the goals that went through. He played a good game.

There was nothing to choose between the visiting backs, both kicking and tackling well.

The halves put in a hard afternoon's work, the centre seeming the best of the trio.

The combination of the Vernon forward line was one of the features of the game, while the inside left appeared to be a star.

The whole eleven were a strong team, playing a clean, gentlemanly game, taking their defeat like true sportsmen—with one notable exception.

For the homesters, Thompson, the custodian, saved again and again in a manner which the supporters did not fail to appreciate. Summerland had all that could be wished for in backs, J. Woods playing an exceptionally good game, and in Dawson he had a valuable partner.

The halfback line was all that could be desired, J. Weeks showing himself to much better advantage than previously.

Fisher was undoubtedly the outstanding man in the forward line, and both wings played with a determination that left little to choose between.

AN EFFORT TO SOLVE THE LABOR PROBLEM.

The following circular letter has been sent out by the British Columbia Fruit Growers' Association, to its members throughout the province:

Victoria, B.C.,
May 22nd, 1912.

TO FRUIT GROWERS.

The early promise of an abundant crop of fruit of all kinds throughout the fruit growing districts of British Columbia, has not been depreciated by frost or unfavorable weather of any kind. It is safe to estimate that our shipments will be fifty per cent. greater than in any previous year.

The large fruit crop, and the greatly increased acreage in potatoes, onions, tomatoes, and other truck crops will require an extra amount of labor. The executive of the British Columbia Fruit Growers' Association, therefore, has directed me to learn what labor will be required, and to what extent outside help will be necessary. The executive has just compiled a statement of the refrigerator and box cars required to handle the crop. In a similar way it is desired to learn what extra labor will be necessary to cultivate and harvest it.

The information must be definite and correct, and should be sent in as soon as possible. Such action can then be urged on the Government and on the Transportation Companies as should result in supplying the demand. Fruit growers will also be informed of the general result of the inquiry, and so will be in a better position to decide to what extent they should arrange to bring in their own help. The association will make known our labor requirements wherever there are likely to be people in search of this kind of work. When

two years ago such information was generally distributed throughout Great Britain, it resulted in the voluntary emigration of a certain number of people of the right class.

Your answer to this inquiry does not in any way bind you to the acceptance of the labor for which you ask. The Executive is asking for general information only.

In view of the importance of the matter, and the need for quick action (if action is shown to be necessary) it is hoped that you will reply by return mail. Yours very truly,
R. M. WINSLOW.

The information required is as follows:

- 1.—How many men as temporary laborers do you expect to require in 1912?
 - 2.—For what months do you require this help?
 - 3.—What rate of wages with board are you willing to pay?
 - 4.—Can you furnish board and lodging? (Note.—To be able to furnish board is almost imperative in the case of any white labor, if this labor is to be brought into the district.)
 - 5.—How many men are you prepared to take for eight months of the year?
 - 6.—What rate of wages per month are you willing to pay?
 - 7.—Can you furnish board and lodging?
 - 8.—How many teamsters do you require for eight months or more of the year?
 - 9.—What rate of wages, with board, are you willing to pay?
 - 10.—Do you require domestic help as general servants?
 - 11.—What wage per month are you willing to pay by the year?
- The questions above refer only to white labor.

VANCOUVER MARKET COMMITTEE SUBMITS REPORT

After some considerable correspondence with the manager of the City Market of Vancouver and the Dominion Express Co., the committee appointed at the recent joint meeting of the Farmers' Institute, Agricultural Association, and B. C. Fruit Growers' Association are of the opinion that it will not be practicable this year to ship peaches or any kind of other tender fruits to the City Market in carload lots. The express rates for peaches at present are the same for small shipments as for carload lots, and any reduction in the rate for carload lots would only apparently be granted on a guarantee of so many cars per week.

In view of the fact that American peaches were dumped in Vancouver Market in 1910 to such an extent as to seriously depress the selling price, the committee would not, at this stage, advise that any arrangements be made to ship in car-load lots, or at all events to guarantee a minimum number of carloads per week, as the apparent saving to be effected would not justify the risk.

The committee are of opinion, however, that a splendid market can be developed in Vancouver for our peaches and other tender fruits, if these are shipped in fairly ripe condition and by express. The American peaches dumped on the Vancouver market are largely shipped by freight, and, being taken off the trees and shipped before they are in a ripe condition, they

do not show up to advantage when marketed, lacking in flavor and all the qualities that make a good marketable peach. As a result of their investigations the committee feel satisfied that for a superior product there is a ready and increasing demand in Vancouver, and that the market for first-class fruits at satisfactory prices can easily be developed. It will be readily seen, however, that until the Summerland product becomes known and recognized the market will be rather limited, and any shipments to the City Market this year should be with a view to establishing a reputation for first-class fruit.

The sale of Summerland fruit in the City Market will be regularly advertised in the Coast papers, and advices of the prices realized will be telegraphed to Summerland, where arrangements have been made to have copies of the advices posted up in the Post Offices at Summerland, West Summerland, Balcom and Gartroll. A report for the week will also be published in the Review.

K. V. Railway Engineer McCarthy has opened a permanent office in the rooms in the Taylor building over the harness store. All of the chief offices of the railway and construction companies will be in town. Mr. McCarthy for a time was located near the line but found it more convenient to have his office closer in.

POUND NOTICE

ONE ROAN STALLION, rising three or four years, four white feet, star on forehead, chestnut mane and tail, branded J on right shoulder.

If not claimed in TEN DAYS will be sold to defray expenses.

JAMES KAY,
Pound Keeper,
Peachland.

Dated 17th May, 1912.

[Continued from Page 1.]

British Columbia, was called to the platform, and spoke briefly, but hopefully and encouragingly. Mr. Wallace Wright then sang, "I Attempt from Love's Sickness to Fly," Purcell.

Some people from outside Summerland were noticed in the audience. Among them might be mentioned:

Rev. Mr. Steuart, Armstrong; Rev. F. W. Auvache, Penticton; Rev. D. J. Welsh, Kelowna, Miss Georgina Logie, B.A., just home from McMaster University; R. Campbell Robinson, B.A., Naramata, just home from Toronto University, and Miss Muriel Huntley, Penticton. The last three were students of the first year of the College, and they were gladly welcomed back.

The Board of Governors met in yearly session in the chapel of Ritchie Hall on Tuesday morning. Any business transacted, to be announced, will be made known in a few days. Outside of the local Board, Revs. H. G. Estabrook, Vancouver, F. W. Auvache, Penticton and D. J. Welsh, Kelowna, were present.

The Closing Banquet was held in Ritchie Hall dining room, on Tuesday night, from 11 o'clock on into the hours of Wednesday morning. This banquet was given by the students to the old students, to the Faculty and to the Board of Governors. Rev. F. W. Pattison made an excellent toast-master. Many and various were the speeches in proposing and responding to the toasts of the evening. Mr. A. W. MacLeod, Athletic Instructor, awarded honors, the College Cap and the College O, to those who had worthily won them. Alonzo Dupont received the greatest ovation of all those who were thus honored.

The students left for their homes on the Wednesday early morning boat. They were happy and sad. Going home is always gladdening, but saying the parting word to intimate college associates is always saddening.

And so old College Hill is silent, sombre and majestic. The sun shines as brightly as ever, the view over orchard and lake is as beautiful, but the young life has gone. Good-bye, say the College Halls, we hope to welcome you all again in the Fall.

THE FACULTY.

Only a few changes will be made in the Faculty for the next year. Announcements of new appointments will appear later.

Dr. E. W. Sawyer will spend some time during the vacation in the interests of the College in various parts of the province.

Miss K. C. McLeod, Lady Principal, who has given such excellent service for three years, is forced to retire through illness. Her physician has ordered her to rest for a time.

Miss McLeod is contemplating a trip on the European continent for next year.

Vice-Principal R. P. Baker has retired for the summer to his ranch at Appledale, B.C.

Prof. and Mrs. A. J. Perry have taken rooms in the Ladies' Building for the summer months.

Prof. D. H. McIntosh remains at his old quarters in Ritchie Hall for some part of his vacation.

Prof. C. D. Denton, who has been in a Californian Sanitarium for the past few months, has so far recovered that he is to return to the Mathematics Department on the opening of next term.

Prof. G. V. White retires from this Department, and goes to Harvard to take Post-Graduate courses in the School of Commerce.

Mr. Ernest H. Lock, who has put in a sterling year's work in the departments of languages and mathematics, will spend the summer at his home in Kaledon, proceeding in the Fall to McMaster University, Toronto, where he will complete his university course in two years.

Prof. W. H. A. Moore, Head of the Music Department, expects to remain at his home in Summerland during the summer excepting for about one month which he will spend at the Coast.

Miss Lou Schoeler, of the Piano Department has accepted the position of Organist in St. Andrew's Presbyterian Church, Revelstoke, for the vacation.

Prof. W. M. Wright, Head of the Commercial Department, visits his old home in Ontario, after an absence of four years in this province.

Miss Maud Byrd, of the Commercial Department, has gone to her home in Victoria.

Induction of New Pastor.

Rev. H. C. Daly Welcomed to New Field.

The Induction of Rev. H. C. Daly, of Almonte, Ontario, the new pastor of the Summerland Presbyterian Church, took place on Tuesday evening and was an interesting and impressive ceremony. Rev. F. Miller, of Penticton, who has acted as Moderator during the vacancy of the local pulpit, presided. The church was appropriately decorated with an abundance of flowers. About two hundred people were present.

The address to the new pastor was delivered by Rev. P. Henderson, of Armstrong, who presented the duties, the temptations and the opportunities of the modern clergyman with thoughtful and earnest appeal.

He was followed by Rev. C. W. Whyte, formerly of Peachland, and one of the first clergymen to hold services in Summerland. His address to the congregation was forceful and practical with emphasis on the mutual obligations being undertaken.

The solemn vows of the ritual of the Induction were read by Rev. F. Miller, responded to by the new pastor after which Mr. Miller offered the Prayer of Consecration of preacher and people to the relationships and tasks mutually undertaken.

At the close of the Induction Service a reception was held at which Mr. Daly was presented by Mr. R. H. English. A brief program followed with addresses of welcome and fraternal greeting from Rev. Mr. Huntley, of Penticton, who has been supplying the vacant pulpit, and Rev. F. W. Hardy, of the local Methodist Church. Mr. Daly responded briefly, expressing appreciation of favorable first impressions.

Appropriate and effective musical numbers were rendered by F. Miller, leader of the Presbyterian choir, Miss Ethel Brown and Miss Merle Tait, a visiting contralto soloist from Prince Albert, Sask.

Refreshments were served by the Ladies' Aid, and the gathering dispersed feeling that the pleasant evening was a good omen of a successful pastorate.

Monday, the birthday of King George V, will be a Bank Holiday, which means that in addition to the banks being closed, the Post Office will only be open for the usual holiday hours.

Municipality of SUMMERLAND

By-Law No. 39. DOG TAX

ALL OWNERS OF DOGS in the Municipality are notified that the above By-law was finally passed on the 14th May, and the tax for the current year is now due and payable to the undersigned.

Extract from By-law:

CLAUSE NO. 3.
No dog over six months shall be allowed to run at large within the Municipality, unless the tax for the same has been paid and a tag procured from the Municipality and kept fastened by a collar to the dog in such a manner as to be easily observed.

CLAUSE NO. 6.
The tax for the year 1912 shall be Two Dollars, if paid by 30th June, and on and after 1st July, Two Dollars and forty cents.

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

SPRAY the wife who scolds and the husband that comes in with muddy boots.

LIFE is a failure that looks back from a pleasureless age, and wishes for a return of the years that a different course might be pursued.

NOTHING is truer than that those who are passing through the "fires of adversity" need every expression of helpful sympathy from those upon whom such trials have not fallen.

REAL WOMANLINESS is a woman's greatest beauty and most winning grace.

SLEEP eight hours out of the twenty-four; eat three meals a day and walk on the sunny side of the way.

FILL YOUR SOUL with richness, then when sorrow comes to you, her black shadows will be parted into golden rifts by your gathered sunshine.

WHEN CONVERSING, choose pleasant and interesting topics. If speaking of your acquaintances to strangers, mention their good qualities, not their faults.

DO NOT FRET. If you want anyone about you to accomplish anything, do not enfeeble them by fretting, do not destroy all desire, and crush out life itself by your fret—fret—fretting.

FRESH HEWN CHIPS.

IF YOU would be happy as a child, please one. Childish wonder is the first step in human wisdom.

To best please a child is the highest triumph of philosophy. A happy child is most likely to make an honest man.

To stimulate wholesome curiosity in the mind of a child is to plant golden seed.

I would rather be called the children's friend than the world's king. He that makes useful knowledge most attractive to the young is the king of sages.

Childish laughter is the echo of heavenly music. The noblest act is that of making others happy. Innocent amusements transform tears into rainbows.

The author of harmless mirth is a public benefactor. Amusement to children is like rain to flowers. Wholesome recreation conquers evil thoughts.

KILL the spirit of fault-finding as you would a serpent.

WHAT appear to be calamities are often the sources of fortunes.

SOMEBODY insists the children need fewer precepts and more good example.

IN TOO MANY families the mother assumes charge of everything and her daughters are but genteel loungers in the household.

NO BOY or girl can ever come to be utterly bad who remembers only love and tenderness and sweetness as associated with father and mother in the old-time home.

CHILDREN should be influenced unconsciously; they should be surrounded by an atmosphere of goodness, which they should breathe as unconsciously as they breathe the air. "Example is better than precept." To successfully influence your children for good, you must do as you would have them do. If you would have them polite, be polite to them, and to the inferiors of the household. Teach them to be considerate for others, by showing that you have consideration for everybody. Children are imitative, and monkey attributes may be turned to good uses by presenting to them qualities worthy of imitation.

THE GRADUATE.

WE ALL LOVE the young graduate who comes home and takes her right place in her family and seeks in a pleasant, unaffected manner to improve the home life and teach and guide the younger ones of that home; better is she now to fill her place in the church and among her young friends who have not had her advantages. Where can she find a broader field for good work? Commonplace though it may appear, this doing of ones duty embodies the highest ideal of life and character. The doing of the commonplace work achieves the welfare of the world. We love the young graduate that does not claim to know more than other people. It is not right, and, then, it is not wise; for it is such a good way of cheating ourselves. Sometimes, other people who have been schooled in the university of the world, could teach the new graduates many things that are valuable, of which she has never heard. All great truths are not always gramatically spoken, and everything that can be known is not found in books. It is right for the young people to have an opinion on everything that comes before them; but it would be well to remember that the great achievements of life have been accomplished by men and women in the gray of life, not in the downy years of youth. Let them look for the best in everything and everybody and "do all the good you can in all the ways you can, to all the people you can," in whatsoever place circumstances beyond your control place you. A college education is a valued possession and greatly to be desired, but if it fails to broaden the heart as well as the mind, it is a failure.

LAUGHTER A STRENGTHENER.

There is probably not the remotest corner of the minute blood vessels of the body that does not feel some wavelot from the great convulsion produced by hearty laughter shaking the central man. And thus it is that a good laugh strengthens a man's life by conveying a distinct and additional stimulus to the vital forces. The time may come when physicians will prescribe to a torpid patient, "so many ponds of laughter, to be undergone at such and such a time," just as they do now a pill, or an electric or galvanic shock.

TAKE NOTICE.

"CIVIL SERVICE ACT."

THE qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places, commencing on Tuesday, the 2nd July next:—
Armstrong, Chilliwack, Cumberland, Duncan, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, Peachland, Prince Rupert, Penticton, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of 21 and 30, if for Third-class Clerks; and between 16 and 21, if for Junior Clerks or Stenographers.

Applications will be accepted if received not later than the 15th June next.

Further information, together with application forms, may be obtained from the undersigned.

Section 7 of the "Civil Service Act" provides that temporary clerks and stenographers, who have not been regularly appointed by Order in Council, must pass this examination.

P. WALKER,
Registrar, Civil Service.
Victoria, B.C., 1st May, 1912.
my10-je14

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

COAL PROSPECTOR'S NOTICE

TAKE NOTICE that I, John D. Rice, of West Summerland, prospector, intend to apply for a license to prospect for coal on the following described land: Commencing at a post placed about two and a half miles west of Okanagan Lake, in Okanagan District of Yale, on the bank of Trout Creek, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to the point of commencement.

Dated, May 17, 1912.
my17-je14p **JOHN D. RICE.**

Not only this
but
these
as well

DON'T think that concrete can be used only for building bridges, silos, walls and walks; because if you do, you will probably overlook all the places where you can use it now.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen profitable uses for concrete on your farm at the present moment. Perhaps you haven't thought of "Concrete," except for a new barn, or a silo, or some other big improvement for which you aren't quite ready yet. That's why you should read

"What The Farmer Can Do With Concrete"

It will open your eyes to the hundreds of uses that other farmers have found for this material. In plain language, and with the aid of many photographs, it explains just what these uses are, and how they can be applied to your farm.

Concrete can not only be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable. It is not only a building material; it's a "handy" material, something that you'll grow to depend upon more and more, as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for you to buy our cement. Every one of its 160 pages is devoted to telling you what farmers have done and can do with concrete.

IT'S FREE FOR THE ASKING. Your name on a postal, or in a letter, will bring the book to you by return mail. Or use the coupon. Address

BUY AT HOME.

We believe in trading with home merchants. You can see what you buy, get what you want, and cause a larger circulation of your money at home. One of the most striking and pointed illustrations of the advantage of buying at home is given in the following—which might easily be duplicated in Summerland, when a man went to buy a saw. He saw the kind he wanted and asked the price. It was \$1.65, the dealer said.

"Good gracious," said the man, "I can buy the same thing at the T. Eaton Co., Winnipeg, for \$1.35."

"That's less than it cost me," said the dealer, "but I'll sell it on the same terms as the mail order house just the same."

"Alright," said the customer, "you can send it along and charge it up to my account."

"Not on your life," the dealer said, "no charge accounts. You can't do business with the mail order house that way. Fork over the cash."

The customer complied. "Now two cents postage and five cents for a money order."

"What—?"

"Certainly, you have to send a letter and a money order to a mail order house, you know."

The customer, inwardly raving, kept to his agreement and paid the nickel.

"Now twenty-five cents for expressage."

"Well, I'll be—," he said, "but paid it saying, 'Now hand me that saw and I'll take it home myself and be rid of this foolery.'"

"Hand it to you? Where do you think you are? You're in Summerland and I'm in Winnipeg, and you will have to wait two weeks for that saw." Whereupon the dealer hung the saw on a peg and put the money in his drawer.

"That makes \$1.67," he said, "it has cost you two cents more and taken you two weeks longer to get than if you had paid my price in the first place."

Don't buy elsewhere!

KELOWNA BOARD OF TRADE.

The lowering of the lake, better advertising of the city, and the Western Canada Irrigation Association Convention which meets in Kelowna this fall, were some of the important topics discussed at a recent meeting of the Board of Trade of that city. Immediate action in regard to the lowering of the lake was urged. Mr. S. T. Elliott contended that it was not the lowering of the permanent level so much as to prevent its rising in flood time that was needed.

Relaxed Throat.—Gargle with vinegar and warm water mixed in equal quantities.

The British Columbia Government can develop the country and make money at the same time, by borrowing money at four per cent, and lending it to the farmers at eight per cent.—The Lodge.

APRICOT AND PEACH THINNING.

(Contributed).

The time for thinning apricots is at hand, and the peaches will be ready soon. It is a good thing to remember that it is not the flesh of the fruit that exhausts the tree, but the pit. Therefore, in growing peaches that will go 60 to the box, these are taking only half the vitality out of the tree compared with the little chaps that go 120, and only take half the packing and paper, besides giving everyone twice as much satisfaction, even if the price is to be the same. Now is the time to decide which kind you want.

In thinning trees which have set very heavily it is a good plan to thin once leaving the peaches fairly close, and then go over the tree a second time later on. When the fruit is in thick clusters one often damages the stalk of the fruit that we wish to leave, and it eventually falls. By going over the trees a second time any places where the fruit is still too thick can be thinned down. There is no hard and fast rule in thinning, but take care that no two peaches facing the same way on a twig are close enough to touch when fully grown.

THE "OVER-SEAS CLUB."

The Organizer of the "Over-seas" Club has left England for Canada. During his tour he proposes visiting all the chief organized branches of the "Over-seas" Club in the Dominion starting with Ottawa and Montreal, and ending at Vancouver and Victoria.

For some time it has been felt at headquarters that it was necessary in the interests of the ever-growing organization for someone from the headquarters' staff to visit the outlying branches with a view to greater cohesion as regards the working of the Club as a whole. Communications intended for him should be addressed to Mr. E. Wrench, c.o. Mr. W. S. Marson, Montreal "Star," Montreal.

"TITANIC."

Wreck of "Titanic," largest, best written, best illustrated and most attractive book ever offered the public for \$1.00. Agents wanted. Biggest commission ever. Freight prepaid. Outfit free. Send 10 cents, cost of mailing. Rush to-day to Maritime Publishing Co., Box 94, St. John, N.B.

Adversity is the trial of principle. Without it a man hardly knows whether he is honest or not.

The Progress Club of Vancouver has made a proposal that the towns of the Okanagan Valley jointly establish a permanent exhibit at the Coast by taking space for that purpose in the new building of the Club.

Mrs. Thorner is spending a few
days with friends at Naramata.

Mrs. Grieves of Kaleden is the
guest of her daughter, Mrs. T. Mc-
Alpin.

BORN—To Mr. and Mrs. A. H.
Steven, on Sunday, May 26, a
daughter.

Mr. C. N. Higgin, Jr., who has
sold his interests in the ferry is re-
moving to the Bentley cottage on
the lakeshore.

Dan Williams has returned from
Penticton with his family, and is
now living in the Garnett place re-
cently purchased by C. H. Cordy.

Mr. and Mrs. J. M. Sutherland
entertained a large number of
friends at a very successful "At
Home" in Ellison Hall on Thurs-
day night.

When the total returns were made
up it was found that the receipts
from the "At Home" held May
21st by the Ladies' Auxiliary,
totalled \$26.00 instead of \$20.75.

L. A. Palmer, Supt. of Govern-
ment Telegraph and Telephones,
paid a hurried official visit to Sum-
merland this week. He is expected
here again shortly.

W. J. Curtis, Piano Tuner, will
be at Summerland about May 30th.
Orders left with T. E. Moore or
G. A. McWilliams will receive
prompt attention. my 24 31

Mr. Christopherson, cashier for G.
A. Carlson & Co., who are making
Summerland their head-quarters,
has moved into the McCulloch
cottage.

Native strawberries are now on
the market. The Summerland Sup-
ply Co.'s branch at West Summer-
land have been offering them during
the last few days.

A. S. Hatfield's new boat, "Sig-
net," and the old "Kaleden" will
both be called into service on the
Lower Okanagan Lake on Monday,
June 3rd, running from the head
of that lake to Okanagan Falls.

At a meeting of the School Board
on Wednesday it was decided to call
for applications for the position of
Principal of the Public School,
offering a salary of \$115.00 per
month.

Mr. and Mrs. J. H. Thompson,
father and mother of the popular
goalkeeper of the Summerland foot-
ball team, arrived from the Old
Country on Friday night in time
to see the second half of the foot-
ball game. "Davie" will be known
in future as the junior goalkeeper.

The neat little craft, "Sicamous
Wolf," recently built by Messrs.
Hatfield & Clark for Mr. Congrieve,
proprietor of the Bellevue Hotel,
Sicamous Junction, has been mak-
ing some records. On the 24th she
won every contest on Shuswap Lake
in which she entered, taking two
cups and some large cash prizes.
She makes at least 20 miles an
hour.

Mr. John Hosie and his sister,
Miss Hosie, of Arbroath, Scotland,
are the guests of Mr. and Mrs.
Cooper, Peach Orchard. It is said
that Mr. Hosie is negotiating for
the Borton property near Mr.
Cooper's, and will take up his re-
sidence here. Mr. Hosie is a literary
man, and was a librarian in Scot-
land. He will correspond for sev-
eral publications in the Old Coun-
try, and no doubt Summerland will
be the better advertised by the pro-
ductions of his pen.

WEDDING.

Williams—Estabrook.

A quiet, home wedding was sol-
emnized at "Brookdale," Peach
Orchard, on Monday afternoon last,
May 27th, when Miss M. G. Estab-
brook, only daughter of Mrs.
Willard Estabrook, late of Sack-
ville, N.B., was married to Mr. L.
R. Williams, eldest son of Mr. and
Mrs. A. B. Williams, late of Lon-
don, England, and now of Sum-
merland.

The ceremony was performed by
Rev. F. W. Pattison, pastor of the
Baptist Church here, in the pres-
ence of a few immediate relatives.
The bride was given away by her
brother, Rev. H. G. Estabrook.

Both the bride and groom have
been resident in Summerland for a
number of years, and are well-
known among a wide circle of
friends and acquaintances, who all
unite in wishing them God-speed
on their journey together through
life.

Mrs. Anguin and daughter Ger-
trude returned from the Coast on
Wednesday night's boat.

The Okanagan Football League is
seriously contemplating the organ-
izing of a team to send to the
Coast to enter the Provincial Com-
petitions there.

A. B. Elliott has leased one of
the stores in the new Campbell
building at West Summerland, and
will open a branch there. T. E.
Moore will move his grocery to the
other store in the same building as
soon as completed.

Rumors are current of a Trustees'
meeting to which the Press was not
invited. It is said that all the de-
liberations were not as smooth
as they might have been, and
as a result ward meetings have
been called. At these meetings
Trustee Robinson will champion the
ward schools, and one or more of
the other Trustees will be in at-
tendance to support the other side.
It is hoped that the question will
be finally settled next week.

contractors and others interested
with a view to providing reading
matter, Sunday Song services, etc.,
for the men employed, held another
meeting this week.

Arrangements have been made
for receiving literature for distri-
bution among the camps. There
will be someone in an office down
town and another at West Summer-
land to receive any reading matter
which the citizens will bring in.
One young man in each of the
camps will be asked to look after
the reading matter, as well as writ-
ing materials, etc. It was also de-
cided to employ a man to divide his
time among the different camps,
holding the song services and in
other ways helping the men. It is
understood that Rev. A. W. Mac
Leod had consented to take on this

work provided he can be released
from the Peachland Church, where
he preaches every Sunday at pre-
sent. This arrangement has not
yet been confirmed by the commit-
tee, but there seems little doubt
of its going through, and Mr. Mac
Leod is looked upon as being par-
ticularly well qualified for the
work. If this arrangement is com-
pleted he will be engaged for one
year, giving practically all his
time in the summer and during the
rest of the year all his time except-
ing when he is needed at the Col-
lege Gymnasium. The committee
also purpose asking the Young
People's Societies of the various
churches of Vancouver to gather
literature and forward for distri-
bution among the camps. The C.P.R.
will be asked to send this free.

Naramata Notes.

Mr. Woodburn, accompanied by his wife and child, was in town on Wednesday on telephone business.

Mr. F. C. Manchester has removed from Summerland and purposes engaging in the real state business in town.

Good progress is being made in the remodelling of the store building. A big force is still at work and is pushing their task to completion.

The "Naramata" Mr. J. M. Robinson's private launch has again been put into the water for the season's run, and seems to be as speedy as ever.

Capt. Languedoc had a trip to Fairview on Saturday last in quest of a stray saddle-horse which, it would seem, must have been stolen and driven south.

Mr. McGann has purchased the lot immediately north of Mr. Boothe's, and selected the lot known as the Brodie lot for a friend who is yet in the East.

There are so many new folk—whole families—coming to live here that it is hard to keep track of them. The season of 1912 is marking an epoch in the growth and development of Naramata.

How about electric light for the benches? This is a query often being asked and it is to be hoped will be answered in the affirmative in the Fall, or at least, after the great rush of present work ceases.

W. H. Pefley pleasantly surprised his Naramata friends one evening last week when after about two years absence in Zion City, Illinois, he slipped off the boat. It is Mr. Pefley's intention to shortly send for his wife and family, and to take up permanent residence here.

An important change announced elsewhere in this issue is the transfer of the Ferry ownership to Mr. P. S. Roe. The change takes place on Saturday, June 1st. The Maude Moore is being thoroughly overhauled and will be ready in the course of about a week. Mr. C. N. Higgin, the captain of the boat, has been a most faithful and obliging official, and has always been supported by a competent engineer. The travelling public will doubtless for a while miss their presence in the boat.

FERRY COMPANY SELLS OUT.

The Okanagan Lake Boat Company will, after the first of June be controlled by Mr. P. S. Roe, of North Naramata. Mr. Roe is taking over the charter and chattels of the company, the book accounts only remaining in the possession of Mr. Higgin and his associates. The transfer will be made on the 1st of June. It is understood that Mr. Roe has sent to his former home in the Ottawa Valley for a man to run the boat. The "Maude Moore" has been hauled up for a few days undergoing extensive repairs, and the new proprietors have also just purchased the substantial gasoline launch formerly the property of Mr. A. Stark. It is the purpose of the new management to improve the service as rapidly as possible, and there is every probability of more frequent trips and a connection with North Naramata.

RIFLE ASSOCIATION.

The attendance was well maintained on the range on Saturday, there being only one or two absences. This week the final Dominion Silver Shoot, and the first shoot of the Canadian Rifle League will be the two chief items of interest.

Scoring—24th May.

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

Take a trip to the Okanagan this summer and stop at Naramata. Get acquainted with this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience overlooking the Lake is at your service. One summer spent in Naramata means every summer spent there until you finally conclude there is no real living anywhere else. Then a nice 5 or 10 acre fruit farm on the benches solves the question and makes you independent for ever afterwards.

Communicate with **THE HOTEL NARAMATA** OR THE OKANAGAN TRUST CO., Ltd.
for rates, and information regarding accommodation, amusements, etc.
