SUMMERLAND, B.C., NOVEMBER 1, 1912.

Whole No. 221

Winnings at Penticton Fair

Summerland Fruit Makes The Show.

Penticton's Horticultural and Agricultural Show has been pronounced "second to none that has yet been arranged in the Valley." How much Summerland fruit was displayed there, and how far it entered into making the show the success that it was is not realized until a list of the awards is perused.

The published list of prize-winners, as furnished by the secretary, does not give the addresses of the winners. As a result the districts from which the prize fruit was sent does not get due credit, and the casual reader naturally concludes that the show was made up of Penticton fruit.

Summerland apples lead in practically every class in which they were entered, thus again proving the unquestionable superiority of the product of our orchards, which not only win wherever shown abroad, but stands foremost among the high-grade Okanagan article, which cannot be excelled by any district anywhere.

In the Ten Box exhibit A. Steuart took first prize. He also took first in the Five Box on Jonathans. In this class L. C. Woodworth was first with McIntosh Red, and F. R. Gartrell second with Winesap. In the Two Box exhibit the prizes awarded to Summerland fruit were as follows:

- Jonathan—A. Steuart, first.
- Grimes Golden—A. E. Walker, first.
- McIntosh Red—L. C. Woodworth, first; J. R. Doherty, second.
- Winesap—F. R. Gartrell, first.
- Wagner—J. R. Doherty, first.
- Winter Banana—J. R. Doherty, first; A. McKay, second.
- Cox's Orange—A. Steuart, first.
- Northern Spy—F. R. Gartrell, second. No first.
- One Box Exhibit.
- Cox's Orange—S. F. Sharp, first.
- Gravenstein—A. Steuart, first.
- Grimes Golden—A. E. Walker, first.
- Jonathan—J. Steuart, first; A. Steuart, second.

- King—J. R. Brown, first; H. Bristow, second.
- McIntosh Red—L. C. Woodworth, first; J. Steuart, second.
- Rome Beauty—F. R. Gartrell, second.
- Spitzenberg—J. Steuart, first.
- Salome—F. R. Gartrell, first.
- Winesap—F. R. Gartrell, first.
- Wealthy—J. R. Doherty, first; A. Steuart, second.
- Fameuse—A. McKay, first.
- Golden Russet—J. Steuart, first.
- Northern Spy—F. R. Gartrell, first.
- Staymen Winesap—J. Steuart, first.
- Yellow Bellefleur—F. R. Gartrell, second.
- Tolman Sweet—A. Steuart, first.
- Any Other Variety—J. R. Doherty, first; J. R. Brown, second.

- Best Plate.
- Baldwin—J. R. Brown, second.
- Cox's Orange—S. F. Sharp, first; J. Steuart, second.
- Grimes Golden—J. Steuart, first; A. Steuart, second.
- Jonathan—J. Steuart, second.
- McIntosh Red—A. Steuart, first.
- Spitzenberg—J. Steuart, second.
- Salome—F. R. Gartrell, first.
- Winesap—F. R. Gartrell, first.
- Wealthy—A. Steuart, first; J. R. Brown, second.
- Wagner—J. R. Brown, first; J. R. Doherty, second.
- Yellow Newton—H. Bristow, second.
- Fameuse—C. H. Tate, second.
- Golden Russet—J. Steuart, first; F. R. Gartrell, second.
- Northern Spy—J. R. Brown, first.
- Winter Banana—J. R. Doherty, second.
- Staymen Winesap—J. Steuart, first.
- Yellow Bellefleur—T. J. Smith, first; F. R. Gartrell, second.
- Permain—J. R. Brown, first.
- Best Collection Five Plates, Five Varieties.
- First—A. Steuart. Second—S. F. Sharp. Third—F. R. Gartrell.

The few years that were entered from here also stood well.

Wonderful Array of Fruit

Large Display of Perfect Apples at Fourth Annual Show

Competition Keen. Prizes Well Distributed.

As was stated by the Hon. Price Ellison in his opening address, the display of fruit at the Agricultural Association's Fair last year was perfection and it could therefore not be possible to excel it in the exhibit this year. However, this year's display is fully up to the high standard that has already been set, and the marvellous display of color and symmetry of form and perfection in pack is indeed a wonderful sight.

The Fair opened under not very promising weather on Wednesday afternoon. Thursday and Friday, however, were both fine, and the muddy roads of the first day quickly dried up. The entries from outside have not been quite as large as anticipated, due, no doubt, to the district show having just been held at Vernon. There are, however, a fair proportion of these exhibits.

The artistic displays this year are an improvement over those of last year. Worthy of special mention is the very original design by Mr. Agur, depicting the marvellous transformation that has taken place here within a few years. It would be necessary to see and study the design in order to appreciate it, the idea conveyed being that the land which recently grew nothing but bull pine and sage brush is now yielding fruit of the most perfect quality. The booth next to Mr. Agur's, arranged by Mr. Orr, in which apple was enthroned as king, was also unique in design. In each step approaching the throne apples were embedded, and on the throne was a golden crown containing apples. The canopy over the throne bore the words "Apple is King." The booth which took first prize was a very artistic one built of red apples and trimmed with Oregon grape. Next to it, and taking second prize, was the display made by J. R. Brown, the chief feature of which was a Union Jack done in red, white and blue, and built with wrapped apples.

On the other side of the building was an exhibit that attracted much attention. That which received most admiration being a box of assorted "sugared sunbeams," being a confection made from fruit pulps of various kinds. While there was a great variety of color no artificial coloring was used and no gelatine or other foreign ingredient except in some cases additional fruit flavor. This display of Mrs. Fosbery's, and the one next to it, Mrs. Kerr's, containing Apple Butter, Apple Chutney, Apple Cider, and a collection of candied fruit, received special note from the judges. The other side attractions were, a fine display of jams, jellies, marmalades, etc., by the Okanagan Jam Company, a fine array of canned goods by Balcom Cannery, Ltd., and an excellent display of local views in C. P. Nelson's booth.

The show was formally opened on Thursday by the Honorable Minister of Agriculture, Price Ellison. Time and space would not permit our publishing this week the excellent speeches made at the formal opening of the show by the Honorable Minister of Agriculture, Price Ellison, and Chief Inspector Cunningham. We might say that Mr. Cunningham in his remarks outlined or suggested a practical scheme for the remedying of the unsatisfactory market conditions, and at the same time further guarding against the infection of our orchards. Mr. Cunningham's plan was well received as a practical and logical one, it being nothing less than that the Federal Government prohibit the importation of fruit from infected districts.

The prize list as published below gives the address of all winners who are not residents of Summerland.

- APRLES, Etc.
- CLASS 1.—Ten Box Exhibit.
- C. J. Thomson. A. Steuart. Bankhead Orchards, Kelowna.
- CLASS 2.—Artistic Display.
- A. Steuart. J. R. Brown. H. C. Mellor.

The Proposed Money By-Laws

Discussed at Public Meeting.

Council's Plans Favorably Received and Action Endorsed.

The public meeting held in the Empire Hall on Tuesday afternoon, for the purpose of discussing proposed improvements and extensions of public utilities, was fairly well attended, and civic affairs were thoroughly discussed. Reeve Thomson was in the chair and outlined the Council's program. He declared the present reservoir not enough to carry through the winter. It was necessary to fill it twice last winter. It has become necessary to lay a pipe from Trout Creek to the Reservoir or pipe Eneas Creek. While the expenditure was large the extended system will cover much additional territory and yield considerably more revenue. It has become necessary to cement line the south main irrigation ditch. The hillside below is now soaked with water.

Last year the north main was in the same condition as is the south main now. It was cement-lined and is giving good service, and saving much water. According to carefully prepared figures your council will need one hundred and ten thousand dollars to carry through their plans, and they can see no other way but this as there are many applications for domestic water that cannot now be satisfied. For the enlarging of the electric light plant and the extension of the service between thirty and thirty-five thousand will be needed.

Replying to a question the Reeve said the proposed irrigation extension will include Trout Creek Point.

Municipal Clerk Logie followed the Reeve reading figures in detail. These showed that the enlarged electric light plant would be practically self-sustaining from the first. Mr. Logie also reviewed the history of the water service, showing why Eneas Creek had been decided upon. At its headwaters there is a large watershed, good storage facilities, good elevation, and what is essential for domestic purposes good water.

The figures read by Mr. Logie gave the estimated expenditure, the amounts necessary to meet sinking fund and interest, the estimated additional revenue, shortage or surplus on each section of the extension, and the amount needed to be added to taxes to meet the deficits. \$50,000 will be required to lay the

IMPORTANT BUSINESS CHANGES.

Mr. Wm. Limmer, who for some time has been a partner in Angove & Stinson Co. Ltd., has sold his interests to Mr. T. Beavis, who has been connected with the Summerland Supply Co. Ltd. Mr. Beavis enters upon his new duties at once and is succeeded by Mr. A. L. Moreland, formerly with the Supply Co.

SUMMERLAND WINNINGS AT VERNON.

There were only two Summerland exhibitors at the Okanagan Valley Apple Show at Vernon, John Steuart and A. Steuart, the latter's exhibit being in charge of his son Muir Steuart.

John Steuart made six entries and took four first and one second, while Muir Steuart with sixteen entries took fourteen firsts and one second. This was in the box fruit line only. A number of prizes on plate stuff was also taken. Muir Steuart got first prize on the ten boxes of Jonathans, and first on six different five box lots. His ten boxes of Jonathans and five boxes of McIntosh Red got two special prizes upon the recommendation of the judges, Prof. Gardner pronouncing the five boxes of McIntosh Red the best he had ever seen. Messrs. Steuart pronounced themselves well satisfied with the awards and with the way in which the show was handled. The accommodations were good and they made special mention of the attention given them by the Secretary.

Though the refrigerator car which went off the dock last week still obstructs the slipway shipments have not been greatly delayed. Five carloads of apples for the Old Country were shipped this week. These were put aboard the Str. Aberdeen and cars were loaded at the Landing. Goods coming inward have been delivered in the same manner. C.P.R. officials expect, however, to have the car removed this week.

DOG MAKES VALUABLE FIND.

On Tuesday one of our young lady citizens lost a purse containing some \$30, and after a diligent search gave up all hope of finding it. Her delight may be imagined when she received a telephone message on Thursday afternoon stating that the purse had been found. Evidently it had been dropped while riding in a carriage with a friend as the lost purse was brought into the home of that friend some miles distant by the dog. This again displays the marvellous intelligence frequently shown by our canine pets.

RIFLE ASSOCIATION.

The 1912 season is now finished, and the rifle range closed for the year. The attendance has been better this season than for some time past, and the shooting showed a marked improvement. There is one more result to record, the Stark Trophy. This is a gold watch donated by Mr. A. Stark, for the aggregate of the best six shoots during the season over the 200, 500 and 600 yards, and the 600, 800 and 900 yards ranges. This has been a keen competition throughout, and it was not until the close that the issue was finally decided. The scores are:

- Oliver Smith - 100 97 95 94 93 93 572
- Jas. Dunsdon - 101 98 95 93 92 92 590
- Wm. Nelson - 96 95 93 92 92 580
- H. Dunsdon - 97 91 91 91 89 89 548
- F. R. Gartrell 97 92 90 89 88 87 548

The annual inspection will take place on the 16th inst., and all members having government rifles are requested to return same to the Secretary at once.

Mr. Wm. Limmer has purchased the Beavis cottage on the hill, now occupied by J. W. Wheeler. Mr. Wheeler, it is understood, will take his family to Garnett Valley Mill, of which he is manager.

THE APPLE SHOW.

After attending the Summerland Apple Show, and seeing the splendid display of Fruit and Vegetables, one cannot fail but be impressed with the great possibilities of Summerland; with the railroad making such rapid progress, a closer market will soon be established, and the success of Summerland is assured. What about your investments? Are you putting your spare cash

in the bank, where it is earning you a mere pittance, or are you investing in good close into town property that will double and treble its value in a year's time? Don't forget that close-in Elsey Sub-Division on Jubilee Road, which can be bought so cheap now, and which in a year's time will be worth all kinds of money. Call at my office and talk over the easy payments.

W.J. Robinson
REAL ESTATE & INSURANCE

What About Light?

Are you taking advantage of the low rate at which I am offering 25 candle-power Tungsten Lamps? Don't you want to have a brighter light at less cost than you are now paying? A few of them left, and while they last only 75 cents.

Coal.

PLEASE book your orders ahead for coal so that I will be able to order to meet your requirements. \$10.25 delivered in Town. \$11.00 delivered on the Flat.

HOW ABOUT INSURANCE?

The Money By-Laws

[Continued from Page 1.]

Additional expenditure would ultimately mean an increase of about \$12 on a ten acre lot, but he thought no one would object to paying this to insure an abundant supply and have the modern conveniences.

In replying to a question from Mr. C. N. Higgin Reeve Thomson explained that Trout Creek headwaters had been investigated and upon the recommendation of Supt. Mitchell and Coun. Dunsdon, as well as the Engineer, Eneas Creek had been decided upon. Trout Creek headwaters are difficult of access and hard to dam. Its valley will be settled shortly and everything must drain into Trout Creek. Eneas Creek affords better water. The expenditure upon it will be largely within the Municipal limits, and the main will serve ranches for a greater part of its distance, which would not be the case if a pipe were laid on Trout Creek. Engineer Yuill recommended an oil engine as an auxiliary. There seemed to be no doubt of the illegality of using irrigation water for developing electric power. Any person in the Municipality who was not getting enough irrigation water, and was so disposed, could have an injunction issued against the use of water for developing power. According to Engineer Yuill's estimate \$187 worth of oil would have generated all the electric light used during the past year. Vernon is buying at 7 cents a gallon. Ours would not cost more than 10 cents. A 16 and 14 inch main will be laid in Garnett Valley.

The proposition to develop power and re-use the water for irrigation purposes had been found impracticable. There would not be sufficient head for either. Coun. W. J. Robinson, who was the next speaker, made a strong plea for the improvement of the various municipal public utilities. He said that the citizens must realize that this is a municipal district, not a city. Residents are far apart, but they want domestic water and electric light, and rightly so. But to give this service is going to cost something. He, too, was so placed that he was being well served now but he must also consider his brother man and he believed that all should be treated alike. One of

the benefits from the expenditure would be the increase in land values. With domestic water, electric light and telephone over the whole district Summerland would be an ideal place. Canyon Creek and Trout Creek storage dams are now carrying all they can. Coun. Robinson reviewed the recent history of locating storage sites and believed the site decided upon was the best yet. We are now using all the water available and will need more. All the land in the northern section is under contract for water and it must be put on. Better water could be obtained from Eneas Creek for domestic purposes, otherwise a filtering pipe would be needed. The speaker said he favored the use of waterpower for electric light, but he doubted if there was water to spare. A steel pipe would need to be laid connecting with the new main, and this would cost as much as an oil plant. He put much importance in electric light and believed it would be a big advertisement. The Council have long and seriously considered these matters and now submit their figures to the ratepayers, "and we are now as one of you." It is for the ratepayers to decide.

Replying to a question from Mr. G. J. C. White Reeve Thomson stated that the municipality's credit was good. The firm who had bought the previous issues of debentures are prepared to take the new issue. The Reeve stated, however, that the bond market was not good, but he believed the municipality could do a little financing. Some \$6000 sinking fund was on hand and may be used to advantage to purchase some of the new issue. The Bank of Montreal will also give assistance until the market is better. Mr. White also suggested night and day irrigation. This met with the approval of the Reeve and is likely to be soon inaugurated.

Mr. Quipp suggested a Municipal Fire Insurance scheme. J. Tait asked if any provision had been made for taking a census.

Mr. Nelson wanted to know if the proposed money were raised if the work would be done by contract or day's work, and if by contract will the council buy yellow labor? The Reeve replied that while this had not been decided upon he personally favored the work being done by day under the Municipal Superintendent. Speaking along this line Coun. Robinson said it would be

impossible to bind the next Council, but personally he favored day work.

Ex-Reeve Ritchie believed the matter had been fully explained and he could see no other way than to carry out the Council's plans. We must keep up our water systems and the outlying districts must be supplied. The electric light will be practically self-supporting and it would not be fair to keep many out of it. He moved that the meeting endorse the action of the Council and this motion was seconded by Mr. C. H. Cordy who believed the matter should be looked at in a broad-minded way. Garnett Valley must eventually be piped for domestic purposes and placing the main in that valley would answer this purpose. Mr. Ritchie said the Council were to be commended for bringing this plan on now. The present Council can't spend the money but this will be for the new Council and will be directly under the will of the people as voiced in the next election.

C. N. Higgin also endorsed the plan and said he believed that the district could not be soundly established until abundance of water is to be had.

Mr. H. Sutherland urged caution and thought it might be possible to get along another year or two under present conditions. He might favor this plan after further consideration. He urged that the first steps should be the enlarging of the bounds of the Municipality.

The motion of Messrs. Ritchie and Cordy was carried without a dissenting voice.

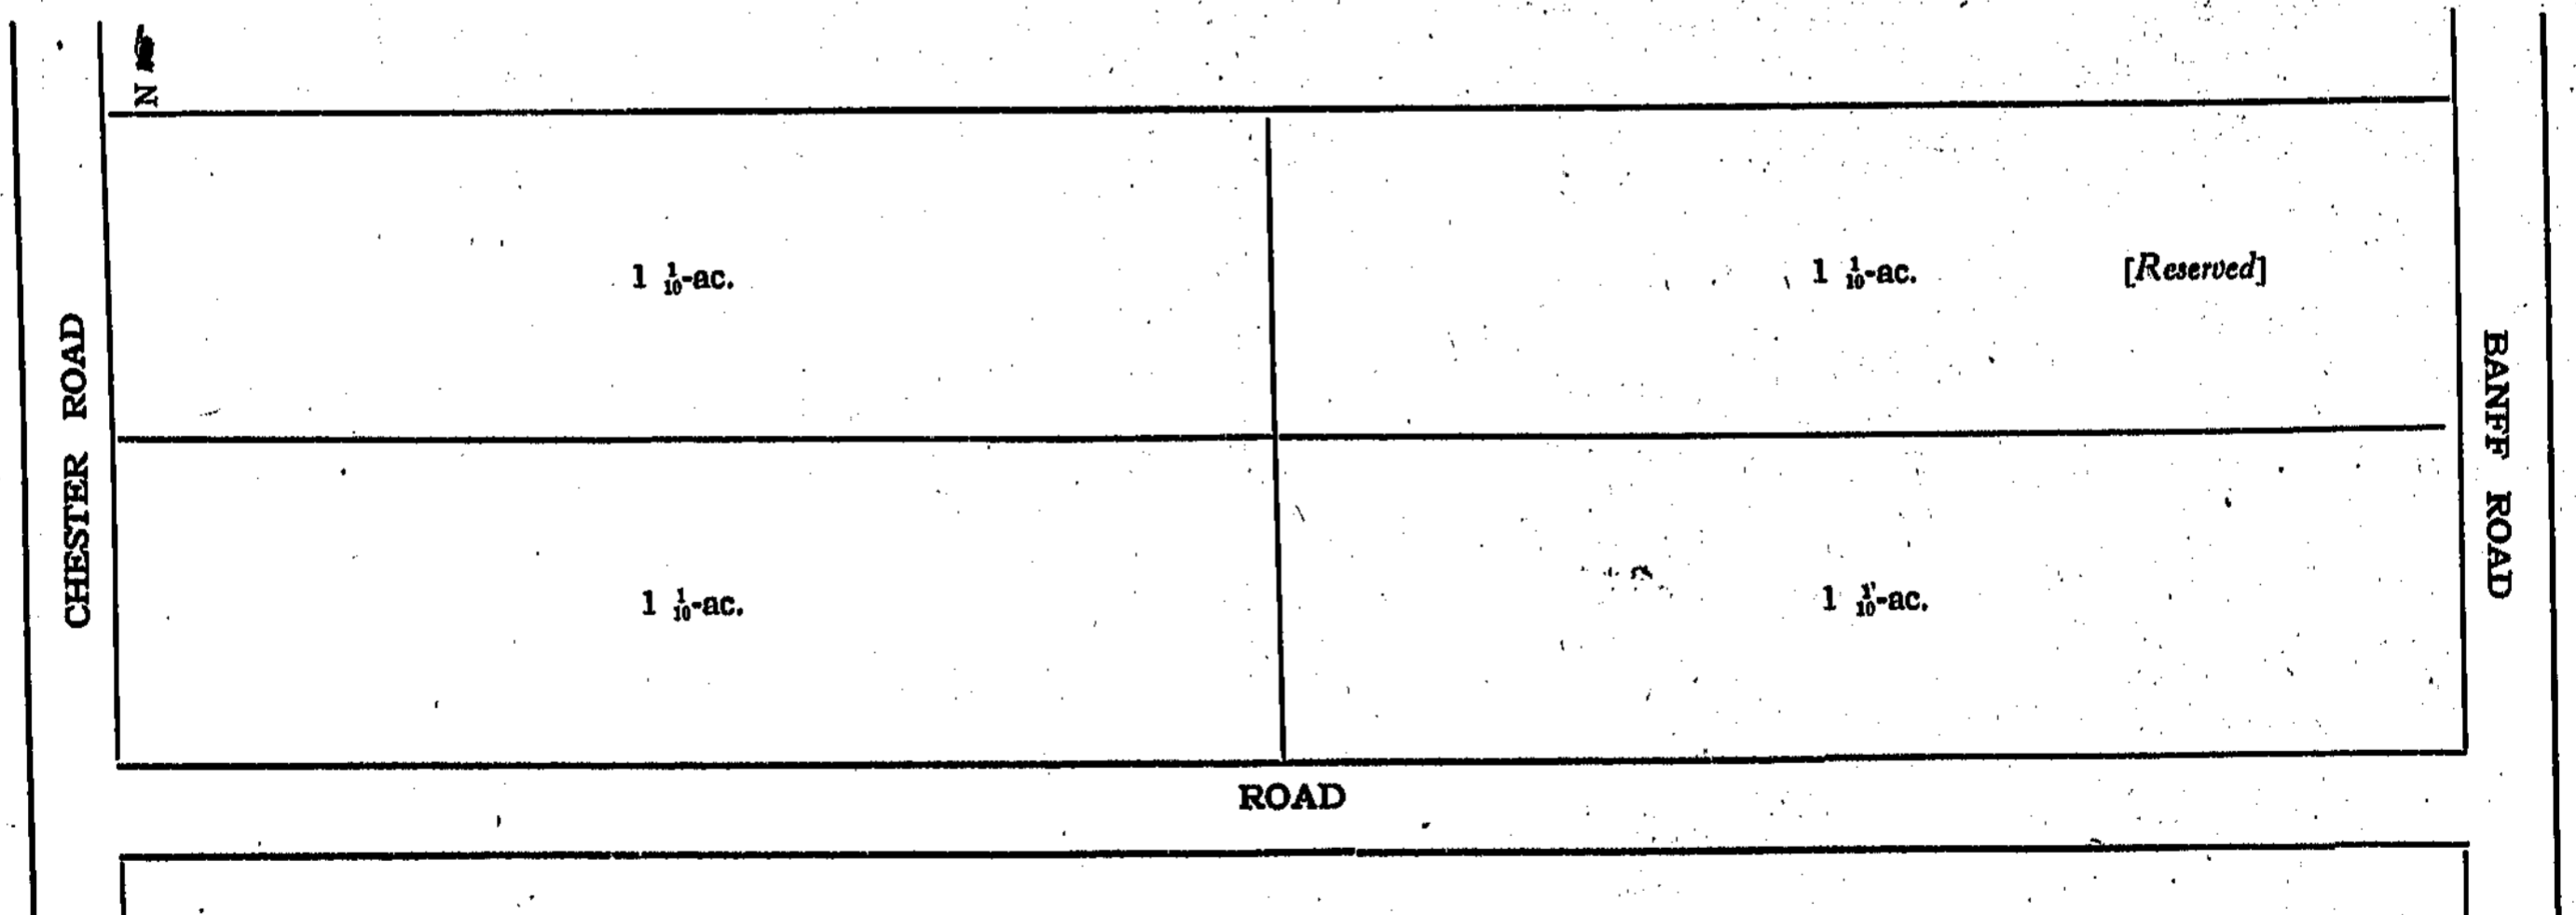

Municipal Clerk Logie called the attention of those present to the fact that a petition bearing the signature of at least 10 per cent. of the ratepayers must be presented to the Council asking them to submit a by-law for the proposed electric light expenditure.

Rev. H. A. Solly wanted to know the qualifications of a ratepayer. This said Mr. Logie is a matter that occupied a great deal of time at the recent meeting of the Union of Municipalities and it had been concluded, as the law now stands to make no attempt to revise the lists and that the assessment rolls would be adhered to.

The necessary electric light petitions were signed by most of those present before leaving the room.

RESIDENTIAL ACREAGE

Adjoining TENNIS COURTS, West Summerland, B.C.

Only four lots of one acre and one-tenth each, or in lots half this size, to be sold at prices leaving a big margin of profit to the Purchaser, on the reasonable terms of one-fifth cash, the balance being spread over four years.

REMEMBER:--There are very few of these lots; the price is low and the terms easy. In order to be sure of securing one of these lots apply without delay to

SUMMERLAND - - B.C.

A Favored Valley

Recently, as announced in these columns, Mr. Carroll C. Aikins, with Messrs. Thos. Short, W. Simpson and an eastern friend, made an auto trip of nearly a thousand miles through Washington fruit valleys.

The purpose of the trip was largely to become acquainted with the general conditions prevailing in the fruit growing districts of Washington, and to place himself where he could at least make comparisons.

Throughout the journey the usual methods of obtaining information first-hand were followed, and Mr. Aikins in summing up said that there cannot but be a great and hopeful future for our own valley; that with the same number of years growth, the best of theirs is no better than the best at home, and, leaving prejudice aside, we appear to lead.

When asked if the Washington growers had any trouble marketing their fruit he replied, "Yes, but that period of loss and trouble, not to say annoyance, is passed since putting the whole fruit industry in a class by itself, governed by interstate laws."

And are the people as a rule happy and contented, and do they appear to be prosperous? "Oh, yes, that I can assure you is the case. The marked difference, between the ordinary farming communities and these where people went extensively into fruit growing was readily noticeable."

"How about the price of land?" "Improved orchards from 10 to 12 years old sell from \$1,000 to \$2,000 per acre, according to the class of facilities and conditions of the buildings, and I take it," said Mr. Aikins, "that those are prices we may reasonably hope to have prevailing here in the Okanagan Valley possibly before 10 years have rolled by."

Incidentally the character of the roads came up for a short remark. That nowhere do you come across roads that are in anyway superior to our own in B.C., and that many stretches south of the border are simply wretched. Indeed it would seem that our Provincial Government is being complimented on all sides for the excellent work being accomplished in this department.

CANADA'S TRADE GROWING RAPIDLY.

Ottawa, Oct. 22.—The trade of Canada for the first third of the present fiscal year, shows an increase of nearly eighty million dollars, or a little over 30 per cent as compared with the corresponding three months of last year. The total trade for the first four months of the present fiscal year was \$328,635,844, as compared with \$249,081,736 last year.

Imports this year totalled \$210,766,457, an increase of \$47,907,809. Exports totalled \$117,870,487, an increase of \$31,697,599.

Imports for domestic consumption during the four months totalled \$209,834,046, an increase of \$52,336,666. Domestic exports totalled \$107,808,936, an increase of \$29,604,820. Exports of agricultural products improved by nearly \$2,300,000, and exports of manufactured goods by over \$2,000,000, and exports of mine products by four and one-half million.

If the present rate of increase is continued for the full twelve months Canada's trade for the fiscal year will run over the million dollars mark.

A WESTERN FAVORITE.

The Family Herald and Weekly Star of Montreal have announced their program for 1918, and subscribers are to receive greater value than ever before, and this is saying a whole lot. In this western country, such a paper is a great blessing. It interests everybody. The hints and information it gives are worth hundreds of dollars in a year. New settlers cannot afford to be without such a paper, no other fills the bill for the west like The Family Herald and Weekly Star. In addition to the paper for a whole year, each subscriber receives a most beautiful picture entitled "Mother's Treasures." It is 20 by 20 inches, all ready for framing. The picture alone would sell at a two dollar bill in any art store in the big cities. Any home not now getting The Family Herald and Weekly Star should give it a trial for 1918. They will never regret it.

God reaches us good things by our own hands.

Thanksgiving Supper and Concert

An event that was no doubt an unqualified success (financially as well as otherwise) was the Thanksgiving Supper and Concert given by the members of the St. Andrew's Presbyterian Church and congregation last Monday evening. The supper was given in the new Campbell building at West Summerland, and the large room on the second floor proved altogether inadequate for the purpose. There was table accommodation for about one hundred, and we would not venture to guess how much food had been provided as there seemed no end to the supply, even after more than three hundred had been fed. As fast as the tables were cleared those who had dined repaired to the church near by, making room for others. In the church, after all had been catered for, a most enjoyable concert was listened to by a crowded house. In fact not only were the church pews packed but many additional seats were provided to accommodate the crowd. The opening number was a chorus, "Oh, Canada," by the church choir. Other choruses of a patriotic nature, one by eighteen girls, "The Song of Canada," and the final number by a chorus of over forty voices was well received. Among other numbers were solos by Mrs. George Gartrell, a solo by T. Beavis, solo by John Steuart, an anthem, "Lord of the Living Harvest," duet by Messrs. J. and A. Smith, Scotch Readings by J. G. Robertson, also solos by Alex. and James Smith. Not the least entertaining items were the short addresses interspersed through the program, given by Revs. A. W. McLeod, F. W. Pattison, F. W. Hardy, and C. H. Daly. The latter was also chairman of the evening.

Cheap Money For Farmers

Commenting on the Hon. Price Ellison's proposal to furnish government loans to farmers at a low rate of interest the Nelson News says:

"Hon. Price Ellison, who has given many striking evidences of his thorough understanding of the needs of the agricultural industry of this province, has come out strongly in favor of the proposal that the government should come to the assistance of new settlers in the way of loans at a low rate of interest. In the course of an interview at Victoria recently, upon his return from the upper country, he is quoted as saying: "It is my firm conviction that if agriculture is to be developed in this province, some means must be found of supplying the farmers with cheap money. The province has several million dollars on hand and I cannot see why it should not be loaned to the farmers at a low rate of interest instead of being loaned to the banks."

"There is no apparent reason why Mr. Ellison's suggestion should not be carried into effect, but should there be any objection to loaning government funds in the way proposed, it is hard to see why money should not be raised for the purpose on the province's credit, and re-loaned to agriculturists as is done in New Zealand, Australia and elsewhere. The whole matter, it may be added, has been more or less before the government for some time, but action in the matter, if any is to be taken, will probably be delayed until after the proposed agricultural commission has been appointed and has concluded its labors and made its report."

"When that commission is engaged upon its work, it would be well, therefore, if all those interested would place before its members the necessity for some action along the lines of supplying settlers with money and at a reasonable rate of interest, for the development of their properties. At present millions upon millions of dollars worth of soil products are being imported into British Columbia each year. There is no reason why practically all of these imports should not be produced at home. All that prevents this being done is the present backward state of agriculture in the province, due, to a very large extent, to lack of capital on the part of those engaged in the industry."

"Anything which the government may do to assist agriculture in the way of loans to bona fide settlers will be a move in the interests of British Columbia and of all its people."

Talk to the point, and stop when you have reached it. Be comprehensive in all you say and write.—John Neal.

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So, with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

FREE Fine Engraving in Sepia of the Borden Cabinet for Readers of the "News-Advertiser."

EVERYONE wants a picture of the members of the Government of Canada. The "News-Advertiser" has had prepared for the exclusive use of its readers in this province a large engraved plate of Rt. Hon. R. L. Borden and his Ministers.

The group is redrawn from the latest photographs of the eighteen Ministers, who compose the advisers of His Royal Highness the Governor-General. It is printed in sepia on heavy board ready for framing, and will be of the greatest educational value in the home, the school, and the library.

The Prime Minister, HON. R. L. BORDEN, occupies a central position, and is shown standing at the head of the Council Table. Seated about him are his colleagues.

Dimly in the background the features of Sir John Macdonald look down on his successors.

How to Obtain the Picture

This fine engraving, of which a limited number have been prepared, will be sent

FREE OF CHARGE

to new subscribers, or to old subscribers, who renew their subscriptions for one year (\$3.00).

For out of town subscribers the picture will be tubed and postage prepaid.

Non-subscribers may obtain copies on payment of 50 cents. If mailed, ten cents extra for tubing and postage.

Applications and remittances (cash must accompany order) must be made to

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—\$4 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—10c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 5c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 1, 1912.

FRUIT FROM INFECTED DISTRICTS.

ACCORDING to Chief Inspector Cunningham this province has some twenty-six experts engaged in guarding our orchards against pests and disease. The Department goes to great expense in inspecting every importation of fruit, and when it is realized that the City of Vancouver alone, up to the middle of this month, had imported over three hundred cars of fruit, the magnitude of the task will be realized. The protection that has thus been afforded our orchards is, perhaps more than anything else, the reason our orchard products are always in the front rank. The fruit industry is now entering upon a stage of development and volume that will make the importation of the foreign article unnecessary, and we believe that Mr. Cunningham, in his address at the opening of the Apple Show, laid before our fruit growers the scheme to give them the protection, and the only protection, they need. Mr. Cunningham, who so unsparingly devotes his whole energies to the betterment of the fruit grower, now advocates the prohibiting the of importation of fruit from all infected districts. This would save the province many thousands of dollars now spent for inspection, and would give the home market to the home product, as practically all the fruit growing centres to the south are infected with codling moth, San Jose scale and other dangerous pests. This plan would still further insure the province continuing to hold the unique position it now holds among the fruit growing districts of the world—the cleanest of them all—being yet absolutely free from pests invariably found elsewhere. The enactment of such a law would not impose any hardship on the consumer. It would insure his getting clean, wholesome fruit, and Canadian fruit districts are now producing sufficient fruit to satisfy the home markets. The only difference being that fruit would come into the markets a week or two later than now when imported from more southern districts. The serious dumping problem and other unsatisfactory marketing conditions would disappear. The consumer would also get the fruit they prefer—the home grown article.

THE JAIL.

Rev. A. W. McLeod, in his pleasing address before the audience at the Thanksgiving Concert at the Presbyterian Church last Monday night, made one statement not quite in accordance with facts. Evidently our genial fellow-citizen is sticking too closely to the bush to keep himself posted on what is doing in our busy burg. Mr. McLeod took advantage of the occasion to reprimand the Review for advocating some months ago the erection of a jail, which this journal believed, in view of the coming of the railway navy, should not longer be done without. Mr. McLeod made the boast that none of the railway men, with perhaps one exception, had yet occupied the jail. We have since enquired into the facts and learn that more than a dozen men have been occupants of that building since its erection, and we are told by one of the officials that every one of these have been from the railway camps. We know, too, that the jail is only used as a last resort and this is only as it should be. Whenever it is possible other disposition is made of the men when it becomes necessary for the law to take them in charge.

THE big expenditure after all in the plan as outlined by the Municipal Council is for the storage of water and the connecting of the new reservoir with the present system. Extensions made will be largely self-supporting.

WE fear our local fruit growers made a mistake in not entering more thoroughly into the idea of the District Apple Show and not exhibiting more generally at Vernon. Only two of our citizens exhibited there. Had Summerland entered on the district display she would, without doubt, have taken the first prize. As it is Vernon now has the honor of holding the first prize for the district display of the Okanagan, with Penticton second. Much advertising capital will be made of this. No one will question that if Summerland had gone after this prize she would have captured it.

We have given preference this week to the prize lists believing that our readers would themselves make this choice. In publishing the list of the local show in the same week in which it occurred we have outdone some of our Valley contemporaries. At Penticton a partial list of the winnings appeared a week after the show, the balance the second week. Vernon's prize list came out one week after the show. We have gone to considerable inconvenience to accomplish this, but believe the effort will be appreciated by our readers.

THIS might be termed our Success Number—so replete is it with records of honors obtained by products of the soil of Summerland, the Okanagan and B.C.

The fountain of beauty is the heart, and every generous thought illustrates the walls of your chamber.—Smiles.

Little Brother—"What's o'th' quote?" Little Bigger Brother—"It's saying 'No, thank you,' when you want to holler 'Gimme!'"

Our Philosopher

IT is said that an evangelist recently told the people of a neighboring town that if they wished to see the newspaper man-of-that place converted, the immediate payment of their back subscriptions was the first step to be taken towards the desired end. That's a good practical suggestion. When a man walks into a printing office and plunks down the cash for ten or fifteen years back subscription he's got genuine dyed-in-the-wool religion, and it makes a profound impression on the editor.

ARE you willing to have better times? If so, talk good times and you may be able to convey the same spirit to some poor despondent mortal. Our manner of business has a great deal to do with the times, for the times, as the expression is commonly used, are very much what we make them. The poor, miserable, business hypocondria is never satisfied. He imagines the whole business world is wrong, and is always looking for a panic or some unforeseen evil, and constitutes to a very large measure the growler. There is never any good cheer in his business house, and the very goods on his own shelves bespeak it; when you have dealt with him you feel more like you had attended a funeral than anything else. While on the other hand, we all like to deal with a cheerful, bright, happy, business man; you always feel better after you have met him. This life of ours is full of sunshine and bright spots, and all you have to do is to gather it in. It is a free, God-given privilege; therefore, don't shut out the sunlight by burying yourself in a dark and gloomy cave of despondency, but be cheerful, happy and hopeful, and by so doing cast a few bright, cheerful rays of hope in the darkened path of some fellow being.

Local News Items.

Dr. and Mrs. Lipsett returned on Thursday night from Lethbridge and other Alberta points.

Rev. Mr. Gilbert and Mrs. Gilbert are now occupying the Thornber tent-house on the hill.

Mr. and Mrs. James Ritchie and family returned home on Monday last, having spent two weeks at the hotel in Kaleden.

Mr. E. Hunt and family are moving to the Garnett Valley mill. Mr. Hunt's cottage will be occupied during the winter by Mr. Tulley.

The students of the High School held a most enjoyable Hallowe'en Party at the home of Mr. and Mrs. Will Ritchie on Thursday, October 31st.

The ladies of the College Faculty will be at home to their friends on Thursday, November 7th, and on the first Thursday of each succeeding month, except January.

Rev. N. A. Harkness, minister of Grandview Baptist Church, Vancouver, who was visiting at the home of his mother, West Summerland, returned to the Coast on Thursday morning.

The Overseas Club holds its first general meeting beginning the winter series next Thursday. Mr. H. Sutherland will address the members on "Canada," and Mr. William Sauter speaks on "Imperialism." Music will be furnished.

Percy Thornber met with a painful accident on Wednesday while returning from the Agricultural Hall. Mr. Thornber was riding his horse toward town when a bicycle was met and the horse shying threw Mr. Thornber from the saddle, badly wrenching one of his ankles.

The refrigerator car which has been obstructing the barge moorings at the C.P.R. dock was pulled out of the way this morning, the Str. Okanagan being delayed an hour to give assistance. The top of the car still shows above the surface, and it is expected that an effort will be made to lift it out bodily.

The special Thanksgiving services in the Presbyterian Church last Sunday were well attended. The morning service was conducted by the pastor, assisted by Rev. Mr. Burton of Vancouver. In the evening Rev. F. W. Hardy led the service. A special Thanksgiving Offering was taken up, the result of which will be announced later, while the receipts from the Thanksgiving supper were about \$115.

Elsewhere in these columns appears an ad. over the signature of Reeve Thomson, the President of the Fruit-Growers' Association which will doubtless meet with hearty response. It is understood that Mr. Thomson with some others has formulated a plan to provide the community with a cannery of sufficient capacity to suit the needs of the district and which it is proposed to have ready for operations early next season.

The Curling Club is making an early start in organizing for their winter's pleasure by calling a meeting for the 9th November. Every effort will be made to have the game in fine swing by Christmas—weather permitting—thus giving the club a longer season for play than formerly. Additional ice will be obtained, made necessary by the increased membership of last year, and the good prospects for many more, both old and new players, wishing to join now.

George Gartrell and Oliver Smith have returned from a short expedition over the hills south-east of the lake, their trip taking them near Carmi. Though they each brought back two fine deer heads they returned disappointed. A grizzly had been sighted and wounded. For hours they followed his trail marked by blood until darkness overtook them, compelling them to camp for the night. The trail had not been long resumed when a snowstorm came on covering bruin's track, and the hunters were compelled to return disappointed.

HOSPITAL DONATIONS

Anglican Harvest Festival at Naramata—fruit and vegetables.

Mrs. Robertson—pickles and jelly.

Mrs. Morland—preserved peaches and pickles.

JIMMY'S LETTER TO DAD

Okanagan College,
West Summerland, B.C.,
31st Oct., 1912.

Dear Dad,

I know that you will be wondering why I did not write you last week. Well dad I had so much work to do that I had scarcely time to breathe. I am just scratching up now a few minutes before the mail arrives, to write home. We've had quite a few events of importance since the last time I wrote. On Monday we had a real Thanksgiving dinner in the evening. The dining room was decorated, and the tables had lots of good things. The Lady Principal allowed us to take the girls down to dinner, and we sure had a ripping time. After dinner we escorted our partners over to the Sem., and spent a good time around the piano.

Last Saturday we held our first debate, "Resolved that Woman Suffrage would be beneficial." The best speech of the evening was given by Miss Woods, a member of the negative. She sure gave a great speech against the question, and proved to all the O. C. students, as well as the judges, that to allow women to vote, would be a huge farce. So say I, but don't tell sis I said so. We are now eagerly looking forward to the next meeting of the Lit. when we have a mock parliament, and discuss Home Rule for Ireland. I believe I'm going to be the constable of the house that night.

To-morrow night we expect to have our first real reception over at the Sem. I hear that the girls are making great preparations, washing curtains and ribbons, making jellies and candies, etc., but I guess I'll know more about it on Saturday morning than now. Tell mother those silk socks just arrived in time for this affair.

Well I must close now, for I've just got time to get up my Bible for to-morrow before lights go out. I guess Pack's not going to get back with the mail before the glimmer is out. Goodbye.

Your loving son,

JIMMY.

DUKE PLEASSED WITH HIS RECEPTION.

Upon leaving the boundaries of the Province of British Columbia, H.R.H. the Duke of Connaught wrote to his Honor the Lieutenant-Governor, expressing his thanks for the kindly welcome given himself and the Duchess by the people of the province. The letter reads as follows:

"My Dear Lieutenant-Governor, On leaving British Columbia I write to you to say what great pleasure my journey through the province has given me, and how highly appreciative the Duchess and I have been of the reception we met with everywhere, and of the trouble which has been taken to decorate the houses and towns wherever we have been.

"Should you think fit to do so, I hope you will take steps to make this letter public. Believe me, yours very truly,

Signed: ARTHUR."

CAPTAIN ESTABROOKS HONORED

The Duke of Connaught presented Capt. G. L. Estabrook of the s.s. Okanagan, with a handsome gold breast pin as a memento of his visit. On the pin is the Garter with its insignia encircling the Duke's monogram surmounted by a coronet set in rubies and emeralds, all on twisted gold wire.—Kelowna Courier.

WEDDING.

TUNBRIDGE—NEVE.

On Wednesday afternoon at 2.30 o'clock, in the Anglican Church, Miss Mary Neve and Mr. Norley Tunbridge were made man and wife, Rev. H. A. Solly being the officiating clergyman. Due to the recent death of a sister of the bride the wedding was a quiet one, and only a few intimate friends were present. The bride was given away by her father. She was becomingly attired in a dark blue tailored costume, with large black picture hat. Miss Connie Neve, her sister, was bridesmaid, and was dressed in grey. The bridegroom is a citizen of Penticton, and immediately after the ceremony Mr. and Mrs. Tunbridge left for that place by motor car. From there they will go to the Coast for a two weeks' trip.

Better Dinners

"Is dinner ready, Mary?"

"Yes, Madam—it is ready, and, I think, a great success."

"Your cooking is improving."

"Well perhaps it is, and I hope so, but really, Mrs. Housewife, I think our new Gurney-Oxford is partly responsible for the success I have had lately. I was never able to cook roasts and fowl so well on our old stove, and as for bread and biscuits, I used to tremble when I went to take them from the oven—they were so often soggy and heavy. Now they are always light and beautifully brown, and, if I do say it myself, something to be proud of."

"That's true, Mary, my husband has said almost the same thing. I'm awfully glad you approve of my choice of a Gurney-Oxford. He approves because of the saving in coal since we got it, also because of the better meals he is getting."

"Indeed he's right, Madam—and it requires so little attention."

"That's fine, Mary. Will you serve dinner in a few minutes please."

Borton Plumbing & Heating Co.,
SUMMERLAND, B.C.

District Convention Naramata Notes.

The Fifth Annual Convention of the Women's Missionary Society for the Okanagan District was held in the Methodist Church, Summerland, Oct. 24th, Mrs. D. H. Watson, District Organizer, presiding. Twenty-five delegates were present from outside points and many visitors, and a deep interest taken in both sessions. Reports from the various auxiliaries showed progress. Kelowna auxiliary leading in membership and money raised. Miss Williams of Naramata gave an interesting paper, "A Plea for Missions." Mrs. W. J. Robinson, Summerland, dealt with "The Christian's Relation to Missions." Greetings were extended by the Baptist Mission Circle, also the W.C.T.U. "The Problems of our Home Missions" was taken up by Mrs. G. A. Robison, Kelowna, showing the serious situation the churches of Canada are facing in regard to immigration, especially that of the west. It is of the greatest importance that Canada be built up a Christian nation.

"A Round Table Conference" on auxiliary work was conducted by Mrs. Fallis, Penticton. Questions regarding different departments of the work were discussed and proved most interesting.

Two members having been "called home" during the year a short memorial service was held. Supper was served in the church and a social time was spent. The evening session was presided over by Rev. G. O. Fallis. In a few words Mrs. Hardy welcomed the delegates and was replied to by Mrs. Deaver of Vernon in a suitable manner. Anthems, solos and duets were much enjoyed, also a recitation by Miss Kathleen Brown. A motion song was carried out by the Mission Band. A paper culled from addresses which had been prepared by Mrs. F. B. Stacey of Vancouver, who was the B.C. branch representative at the recent board meeting held in Toronto, was read by Mrs. J. W. Jones. A number of missionaries from China and Japan, who were on furlough, were in attendance at the board meeting, and from their addresses a splendid paper had been prepared by Mrs. Stacey. Our missionaries give all "they die daily."

The address of the evening was given by Rev. F. W. Hardy, taking for his subject "The Reflex Influence of Missions."

The offering amounted to \$16 which goes to the entertaining auxiliary. Miss Gray of Penticton was elected District Organizer.

An invitation to hold the next convention in Vernon was accepted.

Oh, you beautiful snow! Oh, you Hallowe'en! What sport for kids! Some full grown ones, too!

Miss Irene Morgan of Penticton spent the week-end in Naramata the guest of Mrs. Boothe.

The ferry service to Penticton continues to meet with good patronage, fully justifying the experiment by the Boat Company.

The heavy blasting being kept up close to town sounds as if there was sure something doing round or near Naramata, eh!

Mrs. D. McKay and two daughters, Vera and Clara, have gone on a trip to their old home town in Manitoba, Hamiota.

Since the real closing of the tourist hotel there has been, as one would readily expect, a distinct falling off in the number of visitors to our town.

The social evening in the church basement on Thanksgiving night passed off very enjoyably. There was a good crowd out and the folks were evidently out after fun and they sure got—'twas sure up to them.

Dec. 4th! Dec. 4!! Dec. 4!!! Well what about? This: It's on that identical date that we're to fix our faces—and our finances—for another big whopping selling match at the church. The Sale of Work—to be crudely plain of speech—and what more. There is to be pork and beans, cooked to a turn, guaranteed to put "Heintz's" article back to second place at least. Dec. 4.

The Master Bridle

An invention known as the Master Bridle, does away with the bit entirely, and still gives one the perfect control of his horse. This bitless bridle is simplicity itself. It is nothing more than a leather band containing a steel spring covered with leather which runs over the nasal bone, above the nostrils, high enough not to interfere with the breathing. Then by a very simple leverage with another strap that runs under the jaw, pressure on the nose is increased or decreased at will when pulling on the reins. It seems a marvel that the world has had to wait for someone to invent this bridle that controls the horse at this most vulnerable point of his entire anatomy, the nasal bone. His power to pull, to resist the action of the reins, is reduced by this method to the point where the driver becomes absolutely the master. While at the utmost the pressure is comparatively light at this sensitive spot, the will of the rider or driver is supreme. One or two short lessons with the bridle before putting the horse in the shafts suffices to accustom him to it.

For horses that have such tender mouths that they refuse to go on the bit, this bridle also works like a charm. Blinders and cheek reins are done away with, the horse carries his head naturally and shows improvement in gait and appearance. We are not writing from the inventor's advertisements, but from actual experience, as we have tried out the Master Bridle on a spirited horse. After a ten minute lesson, we hitched her to the carriage and went for a ride. She seemed to enjoy the new experience as much as we did. One of the most interesting things about the bridle is the fact that the horse, without suffering the slightest pain, comes, after two or three lessons, to surrender himself to you. He seems almost to undergo a change in disposition. This bitless bridle is one of the humanest inventions of our times, and as such we heartily endorse it. Elbert Hubbard, himself a horseman, has been so enthusiastic over this device, that he has written a very attractive booklet setting forth its many advantages above any of the old-fashioned means of horse-control. While it will be hard to make headway against the age-long belief that a bit is a necessity in a horse's mouth, we sincerely hope to see the day when all our teaming, delivery and farm horses as well as our roadsters are driven and controlled by this safer and more intelligent method.—F. H. R. in Our Dumb Animals.

"You see, we have good streets, excellent lighting and shipping facilities. Trade conditions are good. We hope you will locate here." "I dunno," said the visitor. "Things look good. But, tell me this," "Well?" "What kind of a ball team have you?"—Washington Herald.

Instead of "patching up" your house, repair for good with concrete

A FEW bags of "Canada" cement, some stone and sand and water, mixed and placed where needed, will make an old house look like new. What is more important, the improvements,—be they porch floor, foundations, steps, chimney-caps, or column-bases—are made to last. Time, wear and weather have no effect upon concrete, except to make it stronger.

Even if you have never used concrete, you can quickly learn how from our 160-page book,

"What the Farmer can do with Concrete"

Which we will send to you free upon request. It will show you how to build a concrete porch as well as how to use concrete for scores of other purposes around the home and on the farm.

Write for it to-day. It is absolutely free.

WHEN you buy cement, be sure it's "Canada" cement. Then you can be certain of satisfaction.

Address

Coroner's Inquest

The coroner's inquest on the death of J. Peters was held last Friday afternoon in Elliott's Hall. Messrs. McAlpin, Borton, M. Beavis, Figgis, Anderson, and Chapmell were the jury empanelled. Provincial constable McDonald of Penticton assisted Coroner Andrew.

The first witness sworn was constable Ernest Graham. He knew the late J. Peters, and on the night of September 19th, picked him up and took him to Beach's bunk-house, and told him he must get out of town next morning. He was a drinking man and for three weeks, more or less, had been under the influence of liquor. On receiving instructions, after the finding of the body, he went up and took charge of it where it lay in Prairie Valley, and brought it to town. He recognized the corpse as that of J. Peters by the clothing, hair and moustache. Witness, when shown a bottle labelled and smelling of carbolic acid, identified it as the bottle found beside the body. The body was badly decomposed.

Robert Milne, when sworn, said that he was a driver for the Supply Co. at West Summerland, and that about 11.30 a.m., October 24th, he found the body of a man on the west side of the Mountain House. He was lying on his right side, and his face was black. Beside the body was a bundle of blankets. After the discovery he telephoned to Constable E. Graham, and also reported the matter to Reeve Thomson about 12 o'clock. At 1 o'clock he went out with the Coroner, found an empty bottle (identified bottle in court as same) about two feet from the body labelled carbolic acid. There was no sign of a struggle having taken place. The coroner found a pipe, two plugs of tobacco, a hair comb, no money, no letters. He did not know Peters. The witness then described how he happened to find the body, which was due to the behavior of his dog. The body was twelve feet from the road and back to it.

Dr. C. M. Smith testified to making a post-mortem examination of the body. The skin was dark and discolored, due probably to decomposition. The body was that of a well-nourished man and the contents of the stomach was largely undigested food. There was further technical evidence showing the probability of the presence of carbolic acid. Other organs were good as far as could be ascertained in the advanced state of decomposition.

J. B. Lane, employed as book-keeper in Crandel's camp, identified the body as that of J. Peters. He knew deceased as a freight teamster. Peters came in April and worked about six weeks. He was a drinking man. Deceased, Mr. Lane stated, left work voluntarily. He had met Peters several times in Summerland. Last time he met him he was feeling despondent and blue. This was a month or six weeks ago. We have had no carbolic acid in our camp. Deceased could stand a great deal of drink. I heard him once say, in speaking of drinking, that if he had the power he would take the tax off whisky and put it on flour.

J. W. S. Logie was next sworn. He said he was a druggist and manager of the Summerland Drug Co. He recognized the bottle, it was a six ounce bottle. He knew deceased casually as Red Peters. In reply to the question, "Did you sell him this bottle?" Mr. Logie said, "Not that I know of. Certainly not within six weeks." We do not keep record of carbolic acid sales. There are two schedules of poisons. Those in schedule "A" must be signed for personally, and the purchaser must be personally known to the vendor. No record of sale is required for those under schedule "B," of which carbolic acid is one. The label must be marked "poison," and bear the name of contents and name of vendor. Judging from the color of acid in bottle the witness thought it old. All the acid sold in the last year was perfectly clear. He thought this must have been in the bottle for several months. He identified his own handwriting on label. Witness said he sold a lot of carbolic acid mostly in one, two or three ounce bottles, larger amounts for stable or camp use. Deceased tried to get liquor from me but did not give him any. May have sold him carbolic acid some months ago but do not think it.

Alexander Chisholm, teamster, swore that he identified deceased by his clothing. He knew Peters for four months. He was a drinking man. Last saw him five or six weeks ago; he was then melancholy, and it was difficult to get him to talk. He looked as if he had just come off a drunk.

NEW C.P.R. LINE

The most interesting railway announcement made for some time is that in connection with the building of another transcontinental line by the Canadian Pacific Railway. The proposed new line will run considerably south of the present main line between Winnipeg and Vancouver, and is estimated to save a distance of 400 miles from coast to coast.

It is also stated that the new route will have an easier grade than the existing main line. Furthermore, it is reckoned that twenty hours will be saved in the time between Winnipeg and the Pacific Coast. It will involve some very heavy tunnelling in the British Columbia section. The report comes as a surprise, following the announcement that the company will make all haste to double-track the present main line across the Dominion.

It looks as if the object of the C.P.R. were to be well prepared for extra business consequent upon the opening of the Panama Canal, for Sir Thomas Shaughnessy recently made the statement that the company proposes to add considerably to the number of its coastal service vessels. He said that the number built on the Pacific Coast would depend upon the circumstances.—Busy Man's Canada.

We should allow others' excellencies to preserve a modest opinion of our own.—Barrow.

After being out a short time the jury returned with a verdict of death by "cause unknown," which was not satisfactory to the coroner, and he sent them back with instructions to bring in a verdict according to the evidence given. The verdict, as finally given by the jury, was that death was due to poison self-administered.

Bargains for OUR Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1

Vancouver Daily Province	- \$3.00
Better Fruit	- 1.00
The Review	- 2.00—6.00
The three for \$5.00	

BARGAIN No. 2

Canadian Courier	- \$3.00
Canadian Horticulturist	- .60
The Review	- 2.00—5.60
The three for \$4.60	

BARGAIN No. 3

Vancouver Daily Sun	- \$3.00
Country Life in America	- 5.00
The Review	- 2.00—10.00
The three for \$8.00	

BARGAIN No. 4

Canadian Horticulturist	- .60
Canadian Poultry Review	- .50
The Review	- 2.00—3.10
The three for \$2.70	

BARGAIN No. 5

The Busy Man's Canada	- \$1.00
World's Work	- 3.60
The News-Advertiser, Daily	3.00
The Review	- 2.00—9.60
The four for \$7.00	

BARGAIN No. 6

Winnipeg Telegram	- \$2.00
(or Free Press)	
B.C. Saturday Sunset	- 2.00
Canadian Magazine	- 2.50
The Review	- 2.00—8.50
All four only \$6.60	

BARGAIN No. 7

World Wide	- \$1.50
Farmers' Advocate	- 1.50
Free Press, Weekly	- 1.00
The Review	- 2.00—6.00
The four for \$4.75

OBITUARY.

J. Nevin Davidson passed away on Friday afternoon, October 25th at the home of his father, West Summerland. This young man came to Summerland from Vancouver last year in the hope that the Okanagan climate would restore his failing health. For some time improvement was marked, but a few weeks ago he caught a severe cold which turned to pneumonia which his system was unable to overcome. During his stay here Nevin Davidson made many friends by his genial manner and the courageous way in which he met his severe illness. His father and mother and sister left for Vancouver with the remains on Sunday's boat. Their numerous friends deeply sympathize with them in their sorrow.

Classified Advts.

3 cents per word first insertion. 1 cent per word subsequent insertions.

For Sale.

FOR SALE—Four good cows at the dairy. Records of daily and yearly production may be had. A. A. Derrick.

LOST.—Pocket-book containing cheque for thousand dollars, some cash and other paper value. Liberal reward if returned to Review Office.

LOST—Between C.P.R. wharf and ferry landing, an oil's tooth, polished and with hole in top. Return to Review Office and receive reward.

DRY FARMING PRIZES SWEEP BY BRITISH COLUMBIA.

At the Dry-Farming Congress, Lethbridge, British Columbia showed a large exhibit of agricultural and natural resources, and many boards of trade and districts had good showings. B.C. was awarded the trophy for the best exhibit of fruit at the congress, and had the province not been debarred from competition on account of its exhibit not being solely a dry-farming one, there is no doubt but that it would have taken the first place, as it was generally conceded to be the best on view. The first prize for early potatoes was awarded to the province, and the first and second prize was also secured for late potatoes, together with the sweep-stake prize for the best potatoes on earth, the winning exhibit being sent from the Okanagan.

These prizes were won in competition with a large number of exhibits, which, the congress being an international one, came from far afield, there being large exhibits from California, Colorado, Oklahoma, Idaho, Washington and other places. There was scarcely anything in competition from British Columbia but what secured a prize. Nanaimo, whose board of trade had a creditable exhibit, took first prize for the largest mangel.

"FREE STUMPING. POWDER."

There has been published in a number of the Provincial papers a report to the effect that the Provincial Government would furnish stumping powder free to settlers who wished to remove stumps from their farm property. Where this story originated is not known but it has been denied by no less an official than the Minister of Agriculture. It may have emanated, however, from the fact that members of the Farmers' Institute are furnished powder by the Department of Agriculture at a price much below the ordinary retail price.

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

Start of Double Canoe Race at one of Naramata's Regattas

Take a trip to the Okanagan this summer and stop at Naramata. Get acquainted with this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience overlooking the Lake is at your service. One summer spent in Naramata means every summer spent there until you finally conclude there is no real living anywhere else. Then a nice 5 or 10 acre fruit farm on the benches solves the question and makes you independent for ever afterwards.

Communicate with THE HOTEL NARAMATA for rates, and information regarding accommodation, amusements, etc. OR THE OKANAGAN TRUST CO., Ltd. J. M. ROBINSON, F. C. MANCHESTER, Manager, Agent, NARAMATA, B.C. SUMMERLAND, B.C.

FIRE AT WENATCHEE.

Wenatchee, Wash., Oct. 24.—The worst fire in the history of Wenatchee occurred this morning, when the Wenatchee Canning, Cod Storage and Ice Company's plant was totally destroyed, entailing a loss of about \$75,000 to the company, and from \$125,000 to \$150,000 to growers who had apples in storage. The cannery's loss is partially covered by \$55,000 insurance. The growers had no insurance whatever.

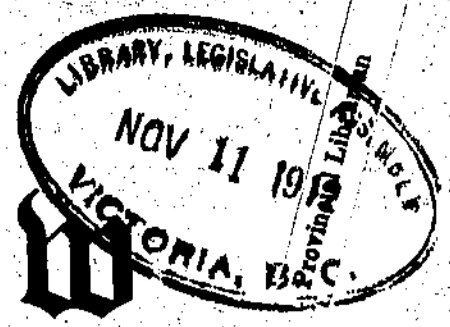

BRITISH COLUMBIA POTATOES WIN IN WORLD COMPETITION.

British Columbia, as at the New York Land Show, carried off the honors at Lethbridge in the potato exhibit, and Western Canada again takes the big wheat prize. That this should be so at both exhibitions is the subject for gratification. It proves that the samples of Marquis wheat, and potatoes, which won the world's prizes at New York, were not "freak produc-

tions," but that Western Canada in the one case, and British Columbia in the other, are equal to the task of producing world record crops annually, and indeed produces them every year in the ordinary course of the practice of agriculture.

Examine what is said, not him who speaks.—Abdu-l'alah.

COUNCIL IN SPECIAL SESSION

Further Consider Proposed Money By-Laws.
Vote Will Be Taken Nov. 20th.

Acting-Reeve Lewes in Chair. Grant to Cannery Promised.

Though the object of the special meeting of the Municipal Council on Tuesday last was to further consider the proposed money by-laws and to clear up correspondence on hand, much of the morning was taken up by delegations and citizens who had matters which they wished to bring before the Board.

The meeting was called to order at 9.45 on Tuesday morning by Acting Reeve H. S. Lewes, all the members of the Council being present with the exception of the Reeve.

A number of those who own lots in the meadow at the mouth of Prairie Valley are desirous of having their properties better drained and propose deepening the bed of Prairie Creek. Messrs. R. V. Agur and J. A. Kirk, two of the lot owners interested, came before the Council asking that the Board look after the culverts, which will need to be lowered at the same time.

These gentlemen were authorized to proceed with the work, and they promised that their men would assist those of Supt. Mitchell in order to speedily make the change in the culverts so that traffic might not be delayed.

Messrs. Mellor, H. Sutherland and R. Steuart came to the Council laying before them a proposition for a cannery and asking the assistance of the Board. Mr. Mellor, the spokesman of the committee, emphasized the need of a cannery, and said that a plan had been formulated that would give the district this much needed industry without a large amount of local capital, and asked that the Board would intimate their willingness to assist with a bonus of \$5,000 or \$6,000. With this promise the contemplated scheme could be carried through. For a time the Board lost its identity as a body of Municipal officials, all entering heartily with the citizens present into the discussion of the peach question.

Coun. Robinson declared that the growers of Summerland must be thoroughly organized. Further and larger organization is also advisable, but until this community is organized into one selling organization success cannot be attained. He declared that some of the peaches which went from here to the cannery at Kelowna were repacked and shipped from there as Kelowna peaches. He strongly condemned the present plan of selling, and pronounced the Union a failure. He favored the proposition of establishing a local cannery, but did not know on what basis it was proposed to organize.

Mr. Logie said that \$20,000 would be needed to put up plant. \$5,000 is asked as a bonus; \$10,000 will be subscribed, and \$5,000 is promised as a loan on the building. A working capital of \$10,000 in addition will be needed if the plant were run by the owning company. He thought it might be better to lease for a year or two. Experience could be gained that way, and possibly a satisfactory manager who would continue with the owning company. His own experience proved the need of such an institution. The Jam Factory and private orders had saved him from serious losses. The fruit he sold through the Union was a loss. He urged the introduction of mixed farming, instead of confining the production to fruit; peas, bonns, corn, etc., should be grown between the permanent trees, and they would have a ready sale at good prices at the cannery. Mr. Mellor and his associates went away with the assurance that while the present Council could not bind next year's Board, they would put themselves on record as favoring the granting of the bonus asked for. This would be granted on much the same condition as was the bonus last year to the Agricultural Association for the erection of the exhibition building.

Mr. Garnett, manager of the Jam Factory and Mr. J. M. Sutherland came before the Council asking that the electric light service be extended to the factory. They claimed that one or at least two poles was all that was required, and offered to pay the expense of the extension. Coun. Robinson urged that all public places should be lighted, and that an industry of this kind should be given every encouragement, and moved that the extension be made. This was strongly opposed by Coun. Dunsdon who said that the Council had established a principle and that it should be lived up to. He thought it enough to make connections where extensions were not necessary, and that until money was available no further extensions should be made. Coun. Robinson contended that \$1000 had been appropriated for electric light extensions early in the year and that that amount was not so expended. This was contradicted by Coun. Dunsdon. After a rather heated debate Coun. Robinson's motion was carried. All pronounced themselves disposed to encourage the institution, but the stand was taken by those opposing the extension on the principle involved.

C. Noel Higgin found himself in an awkward situation. He is at present living in the Raincock cottage in Peach Orchard and discovered that he could not pay his water rates and get the advantage of discount because of arrears unpaid. This matter of arrears had been before the Council on different occasions and yet stands against the property. Mr. Higgin was told that the Council looked to the owner not to him for the payment of the water rates and advised him to settle with his landlord.

Communications were then taken up and read by the Clerk. The Vancouver Board of Trade wrote thanking the Council for courtesies extended them during their visit to the Okanagan.

Further communications were received relative to sanitary conditions along Trout Creek. A provincial authority had found the conditions not as good as they might be at three of the camps, namely: Ross's, Nelson's, and Nicholas'. He had, however, cautioned them and they promised to remedy matters.

A reply was received from Findlay Munro in reference to work done by D. Clark, who has a claim before the Council. Mr. Munro could not vouch for the time put in by Mr. Clark, but remembered that he had done some work.

The auditor's report of receipts and disbursements for the quarter ending September 30th was submitted to the Board.

L. C. Woodworth and G. Thornber made application for connection with the electric light service.

R. S. Monro wrote in reference to a charge for a pipeline lateral, which charge stands against his brother's account. His letter embodied a report from his brother, Dr. Monro, that he was not liable for the cost of extension. This was a transaction between Dr. Monro and the Board of Control. The Municipal Clerk had no record of the arrangement on the minute book.

The Clerk was instructed to notify Dr. Monro that the Municipality has no power to issue a deed for the piece of road which the Doctor wished to take in exchange for a piece along the other side of his property.

Supt. Mitchell recommended the cutting off of the old domestic water pipe serving Moyes' house and others on the hill as well as several homes in Peach Orchard. Connections have been made with a new pipe for the houses on the hill, while a new main would have to be laid to serve Mr. Sutherland and others in Peach Orchard.

(Continued on page 7.)

CANNING COMPANY.

Citizens Will Organize.

A large number of citizens met in the gymnasium of the Men's Club on Thursday afternoon to discuss the organizing of a canning company. Mr. Hector Sutherland was appointed chairman, and Mr. A. L. Moreland, Secretary. The plan as outlined by Mr. Mellor before the Municipal Council early this week was described by him and he made a motion that a committee be appointed to secure the necessary number of subscribers to the capital stock.

There was at times a seeming diversity of opinion as to how best to organize, but a motion that a committee be appointed to solicit subscriptions to the capital stock, the shares of which will be \$25 each was carried. Messrs. G. J. C. White, H. C. Mellor and H. Sutherland were appointed a committee to get the necessary subscribers and gather information and data in reference to the building and operating of a cannery. Among those who participated in the discussion were H. C. Mellor, J. L. Logie, H. Sutherland, C. J. Bentley, G. W. McLaren, W. J. Robinson, G. J. C. White, R. H. English, W. H. Hayes and others.

The opinion that Summerland must not longer remain at the mercy of the Fruit Union seemed general and strong expressions of condemnation were frequent. The opinion of Coun. Robinson was that the Canning Co. must not only can fruit but must market fresh much of the local output.

It is proposed to organize the Company under an Agricultural Act of the Provincial Government, and it is necessary before Government assistance in the way of a loan can be asked that at least twenty-five citizens form themselves into an association.

Immediately at the close of the discussion a goodly number of citizens subscribed to the proposed organization.

Wilson is U.S. President-Elect

Elected Tuesday by Big Majority.

For the first time since Cleveland was elected to the presidency of the United States in 1902 a Democratic president was elected on Tuesday. The latest returns from the electoral college give Wilson a total vote of 415. Roosevelt runs second with only 104, while Taft comes in behind with barely a dozen votes.

Indications are that the Democrats will have a majority in congress. As the fight has largely been a fight against the trusts and high tariff an early and very material reduction in the customs tariff is sure to result. Canada may then get all or much of the advantages in the United States markets that the Republicans were asking her to make a big sacrifice in order to obtain.

OKANAGAN APPLES NOW GOING TO ENGLAND.

The carload of Okanagan prize apples, which met with such success at Lethbridge recently, will be shipped to England for exhibition.

The B.C. Government are making the shipment, and it is intended to have the apples shown in London and afterwards exhibited in some of the provincial centres.

T. J. SMITH PROVES SOLVENCY.

Two weeks ago there appeared in these columns a short notice to the effect that some of our citizens had entered suit against Mr. T. J. Smith. It was inferred that those who were disputed accounts, but upon further enquiry it has been learned that for some time some of Mr. Smith's creditors have been trying to prove him insolvent. After a fight in the courts Mr. Smith has come off victorious, showing to the satisfaction of the court that he has a margin of \$450,000.

Messrs. Hatfield & Clarke have leased the warehouse on the T. J. Smith wharf, and will use it for a boat factory. Their present building is rapidly filling up with boats for winter storage. They start next week on the building of a 50 ft. power boat for the ferry company.

RECIPROCITY WITH CANADA.

Sydney Fruit Congress Urges Government To Make Arrangements.

Sydney, N.S.W., Oct. 29.—The desirability of reciprocal trade between Canada and Australia on similar lines to that already existing between Canada and New Zealand has been endorsed by the Sydney fruit congress. The congress feels that with sufficient shipping accommodation provided a tremendous increase in trade with the sister dominion would result, and it has been decided to ask the state government, which is favorable to the movement, to take up negotiations with Ottawa.

TOWN SCHOOL.

Results of October Examination.

2nd Reader.—Muriel Wilson, 81 per cent.; Lawrence Beavis, 80 per cent.

2nd Primer.—Ronald White; Earle Wilson, 82 per cent.

High 1st Primer.—Hazel Stinson, 70 per cent.

Low 1st Primer.—Kirk Sutherland, 80 per cent.; Jean Blewitt, 77 per cent.

"OVER-SEAS" CLUB MEETING.

A special meeting of the Overseas Club Summerland was held on Thursday evening, with C. H. Cordy in the chair.

Mr. H. Sutherland gave a very interesting address on the pioneers of Canada, dealing chiefly with Winnipeg.

Mr. Sauter read a paper on Imperialism.

Rev. and Hon. Heneage, representing the Boy Scout movement in B.C., was present, and spoke on the necessity of teaching our boys what the Union Jack is. In his remarks he stated that only one out of six of the boys he had spoken to really knew what our flag means.

Two solos and a reading rounded out a program that, judging by the amount of applause, was very much appreciated.

A NEW DEPARTURE.

It is proposed by the post office department to issue one cent stamp books on the same principle as now obtains in the case of two cent stamps. The latter have been issued for some years in books of twelve for twenty-five cents, in convenient vest pocket form, and have proved a great boon, especially for travelers.

The growth of the picture post-card business and the one cent drop letter rate in cities have created a demand for a similar issue of one cent stamp-books.

GEORGE CRAIG IMPROVING.

George Craig, who has been confined to the Hospital for some time with a broken leg, is making satisfactory progress. Mr. Craig suffered a serious set-back by a fall several weeks ago when entering the Hospital on crutches. The accident has made it necessary for him to remain in bed ever since. It is expected, however, that he will be able to move about a little within a few days.

Mr. Tom Kelly, one of Summerland's pioneers and prospectors, left this morning for the "old sod."

Mr. W. G. Raby of Calgary, who some time ago purchased a property on Jones Flat, is having a large house built thereon. His brother is here in charge of the building operations, and the foundation has already been laid by J. G. Robertson.

There is now on display in the window of the local jewelry store a bronze medal, the gift of H.R.H. the Duke of Connaught. This medal is one of twelve presented to twelve different districts in the province to be awarded to the High School pupil making the highest marks at the last examinations. Miss Edith Bristow is the proud owner of the medal, which was presented to her by Mr. G. J. C. White, Chairman of the School Board, on Tuesday, at the High School.

MANUAL TRAINING FAVORED.

School Board Purpose Providing Lunch Room for Consolidated Schools. Hot Soup May Be Served.

Much Routine Business.

The School Board held its regular monthly meeting on Monday afternoon at three o'clock. All the trustees were present. After the reading of the minutes the Chairman took up several matters that were noted therein and reported on those which had been referred to committees of which he was a member. Mr. C. N. Borton had gone with him to look into the trouble with the plumbing and heating at the Central School. He claimed the leakage was due to want of tightening up some connections. The school had been closed one day because of lack of heat. This, he believed, was because the janitor was not familiar with conditions, and wood instead of coal was being used. The supply of coal came to hand that day and he heard of no more trouble. The water around the heater was due to the way in which the conductors were placed on the roof. At a very small cost this could be remedied and a motion was passed authorizing the work.

The Chairman, with Dr. McIntyre, were the committee appointed to receive the tenders and award the contract for conveyance on route 5. Three tenders were received, James Fyffe, \$2.75; C. Quipp, \$2.46; T. J. Garnett, \$2.20. Mr. Garnett was awarded the contract and started on the route on October 21.

The Chairman also reported on the High School supplies, saying he had looked over what was on hand and found there was an overstock in some lines and a need in others. The Principal is now making a list of the requirements. The Chairman recommended that the Board appropriate a fixed amount for High School laboratory material, which a committee or the Secretary could expend as judiciously as possible. He said further that a large cabinet is needed in the High School to hold this material.

The Director of Manual Training Schools for the province had paid Summerland a visit, but the chairman was unable to get any of the Trustees except Dr. McIntyre. These two members of the Board went into the matter fully, and a more detailed report given later in the afternoon. Dr. McIntyre inquired about the broken windows in the Central School. The Secretary replied that the glass of proper size was not to be had in town but it had been ordered and would be put in by the janitor immediately upon arrival. A complaint about the raising of the lower sash for ventilating the rooms in the Central School brought forth a long discussion upon ventilating, and the care of the building in general. The opinion was expressed that as the upper sashes had been fixed for ventilating purposes, and an instrument for opening and closing provided there was no need for raising the lower sash. It was reported also to the Board that the school doors had been found open at night. The Secretary pointed out that the building is equipped with a ventilating system making the opening of the windows unnecessary. This system takes the bad air off the floors and up through the chimney while fresh air is admitted from above. A schedule of rules was suggested for each room, but on motion of Trustee McIntyre, seconded by Trustee Docking, the Secretary was instructed to write the Principal explaining the system of heating, ventilating, etc., and that a similar letter be written the janitor.

Chairman White submitted a suggestion which had been made to him that the empty room in the High School building be converted into a lunch room in the charge of an adult pupil or one of the teachers. At present the pupils are eating everywhere and this is not conducive to cleanliness or tidiness. Another recommendation from the

Chairman was that an arrangement be made for the providing of hot soup for the children who bring their lunches. This he thought could be done at a very nominal cost to the pupil, possibly no more than 2 cents per day. Trustee Robinson pointed out some of the objections there might be to this and the matter was quite fully discussed. Finally, on the motion of Trustees Robinson and Adams, Chairman White and Dr. McIntyre were appointed a committee to look into the matter of a lunch room and submit the proposition of serving soup, to the Principal. The committee was given power to act, if, they deemed it advisable, to carry out these plans, after learning the desire of the parents through the children.

Further discussing the requisition for High School laboratory material Trustee Robinson said the appropriation should be made after the New Year. The Secretary said there were no funds available for this purpose. The Chairman said it was no use trying to run a High School without material, and thought some appropriation should be made. Trustee McIntyre said that the school should have the things they needed, and after further discussion a motion by Trustees Docking and Adams that an appropriation of \$25 be made to provide for material needed this year was passed.

Communications were then taken up. The Secretary of the Trustees Association acknowledged the membership fee of \$15 received from the local board, and said that he hoped to visit this district soon.

A request was received from the W.C.T.U. for the use of one of the rooms next Monday and Tuesday, when Miss Katherin McLeod will be prepared to address the school girls, at the close of the afternoon session. The opinion was expressed that it would be better to have the girls dismissed an hour early so that Miss McLeod might talk with them before the departure of the conveyances for the home trip. A favorable reply was given the W.C.T.U. over the telephone.

A letter was received from the Department of Education advising the Board that H.R.H. the Duke of Connaught had sent the department twelve bronze medals which he would be pleased to have distributed among twelve school districts enumerated, the medal to go to the member of the High School who made the best standing last year. Miss Edith Bristow was designated in the letter from the department as the winner of the medal for Summerland. The medal which was awarded as a memento of the visit of the Duke and Duchess, bears in relief the busts of the Duke and Duchess on the reverse is the British Coat of Arms. Chairman White was requested to present the medal this week, and the Secretary instructed to return thanks.

Chairman White said that Mr. Johnson of Trout Creek had told him that the poles, as now arranged, on the Trout Creek and town rigs, would be dangerous in icy weather, and recommended that a change be made. A motion by Trustees Docking and McIntyre was passed instructing the contractors to have the changes made.

Trustee Adams inquired about robes to which Chairman White replied that it had been fully explained to the contractors when they were before the board, of what was required of them. The Secretary was instructed to notify the different contractors that they are expected to provide the necessary robes.

Chairman White then took up his report on Manual Training, and the matter was carefully considered by the Board. When the Director of Manual Training was here he

ANOTHER AMERICAN WHOLESALE FIRM.

The control of the wholesale fruit trade on the prairies, held by American houses, has been further strengthened by the sale of the old-established business of the MacPherson Fruit Company, organized in Winnipeg in 1883, to Nash Bros., of Grand Forks, North Dakota. It was understood that the business had changed hands, and that Mr. R. R. Scott, who for many years has been its active manager, was the buyer. The new firm is known as the Scott Fruit Company, Ltd., but it is stated, however, that Nash Brothers are the real purchasers. As in addition to the headquarters at Winnipeg, branches are in active operation at Calgary, Edmonton, Lethbridge, Medicine Hat, Moose Jaw, Saskatoon, Brandon and Regina, the purchase provides a splendid field in the fruit trade for the new concern. It is also reported from Grand Forks that the same American firm has just bought out the interests of the Stacey Fruit Company. This latter concern is one of the strongest in the north-west. It has done business for many years under the firm name of E. P. Stacey & Son, from Minneapolis. The former head of the firm is now dead, and the business has been carried on by his sons. The transfer of the business to the Nash Bros. would make the latter concern a very powerful and influential one in the general fruit business.

The firm of Nash Bos., which now controls a large portion of the fruit business of Western Canada, consists of three brothers. One of these resides in New York and the other two in Grand Forks, where they have a large retail business as well as wholesale.

A DOSE FOR THE DOCTOR.

Dr. H — was sitting by the side of a rather deaf maiden lady at dinner, when the latter, in a simpering manner, remarked, "Ought I to call you Dr. H — or Mr. H —?" The medico is rather irascible, so he replied, "Call me what you like, madam. Some of my friends call me an old fool." The lady, imperfectly hearing, innocently replied, "Ah! But these are only people who know you intimately!"

District Municipality of Summerland

BY-LAW No. 41.

A By-Law to raise \$55,000.00, to enlarge and improve the Domestic Water System and plant of the District Municipality of Summerland, B.C.

WHEREAS it is deemed advisable to repair, enlarge, improve and extend the Domestic Water System and plant of the said Municipality of Summerland, and WHEREAS it is necessary to raise for the said purpose, by way of loan, upon the credit of the said Municipality of Summerland, the sum of \$55,000.00, payable on the first day of December, A.D. 1912, bearing interest in the meantime payable half yearly at the rate of five per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$3,730.65 by rate in each and every year.

AND WHEREAS the whole rateable property of the said Municipality of Summerland, according to the last revised assessment roll is \$2,690,550.00.

AND WHEREAS the total amount of debenture debt of the said said Municipality of Summerland is \$290,000.00, of which none of the principal or interest is in arrears.

Now, therefore, the Reeve and Council of the said Municipality of Summerland, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said Municipality of Summerland to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$55,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinafter recited.

2. It shall be lawful for the Reeve to cause any number of debentures to be made for the sum of not less than \$1,000.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of \$55,000.00, and all such debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said debentures shall bear date the First day of December, 1912, and shall be made payable in thirty years from the date hereinafter named for this By-Law to take effect, at the Agency of the Bank of Montreal, in the said Municipality of Summerland.

4. The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the first days of June and December in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of \$2,750.00 shall be raised and levied annually by a rate on all the rateable property in the Municipality in addition to all other rates, for the payment of the interest on the said debentures.

7. The sum of \$980.65 shall be raised and levied annually by a rate on all the rateable property in the said Municipality in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon and no re-issue of any Debentures shall be made in consequence of such repurchase.

9. This By-Law shall, before the final passage thereof, receive the assent of the electors of the said District Municipality of Summerland in the manner provided by the "Municipal Act, 1906," and amending Acts.

10. This By-Law shall come into force and take effect on the First day of December, A.D. 1912.

11. This By-Law may be cited for all purposes as the "Domestic Water Improvement Loan By-Law, 1912."

Passed by the Municipal Council this Fifth day of November, 1912.

Received the assent of the Electors of the said District Municipality of Summerland

Reconsidered and finally passed by the Municipal Council the day of November, 1912.

Reeve.
Clerk.

Take notice that the above is a true copy of the proposed By-Law upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four and at the Municipal Offices, West Summerland, for Wards Two and Three, on Wednesday, November 20th, 1912, between the hours of 9 a.m. and 7 p.m.

J. L. Logie, Municipal Clerk.

District Municipality of Summerland

BY-LAW No. 42.

A By-Law to raise \$55,000.00 to enlarge, improve and extend the Irrigation System and Plant of the District Municipality of Summerland, B.C.

WHEREAS it is deemed advisable to repair, enlarge, extend and improve the irrigation system and plant of the said Municipality of Summerland,

AND WHEREAS it is necessary for the said purposes to raise, by way of loan, upon the credit of the said Municipality of Summerland, the sum of \$55,000.00, payable on the first day of December, A.D. 1912, bearing interest in the meantime, payable half yearly at the rate of five per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of \$3,730.65 by rate in each and every year.

AND WHEREAS the whole rateable property of the said Municipality of Summerland, according to the last revised assessment roll, is \$2,690,550.00.

AND WHEREAS the total amount of debenture debt of the said said Municipality of Summerland is \$290,000.00, of which none of the principal or interest is in arrears.

NOW, THEREFORE, the Reeve and Council of the said Municipality of Summerland, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said Municipality of Summerland to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the

credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$55,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinafter recited.

2. It shall be lawful for the Reeve to cause any number of Debentures to be made, for the sum of not less than \$1,000.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of \$55,000.00, and all such Debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said Debentures shall bear date the First day of December, 1912, and shall be made payable in thirty years from the date hereinafter named for this By-Law to take effect, at the Agency of the Bank of Montreal, in the said Municipality of Summerland.

4. The said Debentures shall have Coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the First days of June and December in each and every year and the signatures to such Coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of \$2,750.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality in addition to all other rates, for the payment of the interest on the said Debentures.

7. The sum of \$980.65 shall be raised and levied annually by a rate on all the rateable property in the said Municipality in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon and no re-issue of any Debenture or Debentures shall be made in consequence of such repurchase.

9. This By-Law shall, before the final passage thereof, receive the assent of the Electors of the said District Municipality of Summerland in the manner provided for by the "Municipal Act, 1906," and amending Acts.

10. This By-Law shall come into force and take effect on the First day of December, 1912.

11. This By-Law may be cited for all purposes as the "Irrigation Loan By-Law, 1912."

Passed by the Municipal Council this Fifth day of November, 1912.

Received the assent of the Electors of the said District Municipality of Summerland the day of November, 1912.

Reconsidered and finally passed by the Municipal Council the day of November, 1912.

Reeve.
Clerk.

Take notice that the above is a true copy of the proposed By-Law, upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Wednesday, November 20th, 1912, between the hours of 9 a.m. and 7 p.m.

J. L. Logie, Municipal Clerk.

District Municipality of Summerland

BY-LAW No. 43.

A By-Law to raise \$35,000.00 to enlarge and improve the Electric Light System and Plant of the District Municipality of Summerland.

WHEREAS it is deemed advisable to repair, enlarge, extend and improve the Electric Light System and Plant of the said Municipality of Summerland,

AND WHEREAS it is necessary for the said purposes to raise by way of loan upon the credit of the said Municipality of Summerland the sum of \$35,000.00, payable on the First day of December, A.D. 1912, bearing interest in the meantime payable half yearly at the rate of five per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$2,925.37 by rate in each and every year.

AND WHEREAS the whole rateable property of the said Municipality of Summerland, according to the last revised assessment roll is \$2,690,550.00.

AND WHEREAS the total amount of Debenture debt of the said said Municipality of Summerland is \$290,000.00, of which none of the principal or interest is in arrears.

NOW, THEREFORE, the Reeve and Council of the said Municipality of Summerland, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said Municipality of Summerland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$35,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinafter recited.

2. It shall be lawful for the Reeve to cause any number of Debentures to be made for the sum of not less than \$1,000.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of \$35,000.00, and all such Debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said Debentures shall bear date the First day of December, 1912, and shall be made payable in twenty years from the date hereinafter named for this By-Law to take effect, at the Agency of the Bank of Montreal, in the said Municipality of Summerland.

4. The said Debentures shall have Coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the First days of June and December in each and every year, and the signatures to such Coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt, when due.

6. The sum of \$1,750.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality in addition to all other rates, for the payment of the interest on the said Debentures.

7. The sum of \$1,175.37 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all other rates, for the payment of the debt hereby created, when due.

8. It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon and no re-issue of any Debenture or Debentures shall be made in consequence of such repurchase.

9. This By-Law shall, before the final passage thereof, receive the assent of the Electors of the said District Municipality of Summerland in the manner provided by the "Municipal Act, 1906," and amending Acts.

10. This By-Law shall come into force and take effect on the First day of December, 1912.

11. This By-Law may be cited for all purposes as the "Electric Light Loan By-Law, 1912."

Passed by the Municipal Council this Fifth day of November, 1912.

Received the assent of the Electors of the said District Municipality of Summerland the day of November, 1912.

Reconsidered and finally passed by the Municipal Council, the day of November, 1912.

Reeve.
Clerk.

Take notice that the above is a true copy of the proposed By-Law, upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Wednesday, November 20th, 1912, between the hours of 9 a.m. and 7 p.m.

Remove Peach Fillers.

Advice of Horticulturist.

The time has come for the removal of the peach fillers, in the older orchards of this district. The large spreading tops of the peach trees are crowding the young apple trees, which are now coming into bearing, and unless removed, they will rob these permanent trees. This is the advice of Provincial Horticulturist Ben Hoy.

The apple trees are now beginning to produce large crops of fruit, and require all the nourishment in the soil. By taking a shovel and digging into the soil, between the apple and the peach trees, it will be seen that the roots of these trees are intermingled. This means that they are competing for moisture and plant food in the same soil area. The undesirability of this condition is at once apparent to the fruit grower, who is looking forward to picking large crops of fruit from the permanent trees, at the minimum cost of production. Every pound of plant food removed from the soil by these fillers means less nourishment for the permanent trees in the future. The question of keeping up the fertility of the soil has not been a serious one, but if proper precautions are not taken, and a good system of soil management adopted, growers will have to face this problem in the near future. The soil is the foundation of the orchard.

The large spreading tops of the peach trees make spraying and cultivation difficult. It is almost impossible to do thorough spraying, and in many orchards cross cultivation cannot be done at all.

These large tops will interfere with the shaping of the apple tree. Where fillers are left in too long, poorly shaped permanents are the result. The light is shut out from two sides, encouraging the growth of long, naked branches, by preventing the formation of buds and fruit spurs.

With fillers, more irrigation is required, and in some seasons this may be a very undesirable factor. The peach trees may need irrigating when the apples do not, and if the water is put on, an excessive growth is encouraged on the apple trees, and over-sized, poor quality apples may be the result. On the other hand, if water is not put on, the peaches may not get enough moisture for their full development.

When the harmful results of leaving the fillers in too long, and the extra cost of maintaining them is considered, the profit received from them does not warrant keeping them any longer in the older orchards of this district.

WHAT FORESTRY MEANS.

Hon. W. R. Ross Defines It Concisely.

The true meaning of forestry, as it is intended to apply that science in the Province of British Columbia, was admirably expressed by Hon. W. R. Ross at the recent Canadian Forestry Association held at Victoria. He said: "Forestry, as we practice it, means the scientific management of the government's immense timber business so that the citizen who would otherwise have to pay \$15 in taxes has only to pay \$10; so that in years to come the citizen will have to pay still less; so that, while producing these effects on revenue, the system of forest finance will be so adjusted as to offer the maximum of encouragement to the growth of the lumber industry; and, above all other considerations, so that our forest capital, the source of our forest prosperity, may be preserved intact."

HIS ALARM CLOCK.

An American and a Scotsman were walking one day near the foot of a mountain in the Highlands. The Scot, wishing to impress the visitor, produced a famous echo to be heard in that place.

When the echo returned clearly after nearly four minutes, the proud native, turning to the Yankee, exclaimed, "There, man, ye canna show anything like that in your country!"

"Oh, I don't know," said the American. "I guess we can better that. Why, in my camp in the Rockies, when I go to bed, I just lean out of my window and call out, 'Time to get up! Wake up!' and eight hours afterward the echo comes back and wakes me."

"Why Billie, how you do grow." "Yes, auntie, I think they water me too much. Why, I'm bathed night and morning."

Naramata Notes.

Mr. Cash is busy with the clearing of his ten acre plot, purchased some time last summer.

Mrs. Julius Block, who has been ill for some few weeks, is reported to be regaining health slowly.

Mr. and Mrs. Oliver E. Tomlin of Kaleden were among the recent visitors to town while up to attend the Summerland Apple Show.

The Grant Smith Co. have removed their head office to Kelowna. Mr. H. Rounds will remain behind here for the present to look after the company's interests at this end.

Ralph Kent, a former resident of Naramata, paid our town a short visit on Tuesday on business. Mr. Kent was greatly pleased to note the numerous signs of advancement in the community's growth.

It is now definitely announced that the Naramata Saw Mill has changed hands. The new owners are the Turner Bros. of The Landing. Preparations are being made for the removal of the machinery in the near future.

Seth Dawson of Peachland was in here on a short visit with Mr. Bartlett recently. Mr. Dawson has been fortunate in receiving the \$100 prize from the Canada Cement Co. for having made the most artistic display through the wise use of that firm's material.

"Drugs, Stationery, Notions, Tobaccos" has taken the place of "The Kettle Valley Bunk House" sign on the building immediately adjoining the livery barn. The Summerland Drug Co. are stocking up the small store which should prove quite a convenience to the public.

Another quiet wedding of two of Naramata's popular young folk, Mr. W. Armour and Miss Grace Wilson took place recently at Penticton, Rev. G. O. Fallis officiating. After a short honeymoon spent at Vernon the happy pair have taken up residence on their fruit ranch near town.

Mrs. Allen and Mrs. McCullough entertained the ladies of the Unity Club upon the occasion of the recent meeting. One new member was added to the now lengthy roll of membership. Mrs. D. F. Hildabrand, wife of the railway contractor whose camp lies immediately east of the town.

What about our winter's program of social gatherings. Are we to have a regular or an irregular series of parties or none at all. Or is everyone so foolishly busy as to have no time left for relaxation? It is to be hoped that something may be done before the Christmas rush is upon us again.

Nobody appears to keep bees in or round Naramata, more's the pity! Nevertheless there was a "Bee" seen here last Thursday—a wood bee that lasted all day and part of the night. This good old-fashioned method of wood-cutting proved, quite enjoyable sport for a number of Naramata's stalwarts who wished to help out Mr. Allen, at present an invalid.

STUDY FRUIT INDUSTRY.

Well-Known Fruit Grower's Report.

Ottawa, Oct. 28.—The report of William H. Bunting, an extensive fruit grower of St. Catharines, Ontario, on Fruit Growing in Canada has now been prepared and is in the hands of the Minister of Agriculture.

In his general conclusions Mr. Bunting points out that while the growing of fruit offers ample reward for the man of energy, patience and perseverance, there is perhaps no phase of the agricultural endeavor which requires to be more closely studied and in which a wider range of information is more desirable and necessary.

The future of the industry, he states, was never brighter than it is to-day the prospects never more attractive, nor the field of extensive effort in all fruit-growing provinces more inviting.

WHAT EXPERIENCE TEACHES.

The turning point with a lot of men is when a pretty girl passes.

The widow with money to burn can easily get a match.

Lots of our "coming men" fail to arrive.

Some of our family trees require a lot of pruning.

SHILOH
quickly stops cough, cures cold, and heals the throat and lungs. 11 U 25 cents.

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

FREE Fine Engraving in Sepia of the **Borden Cabinet for Readers of the "News-Advertiser."**

EVERYONE wants a picture of the members of the Government of Canada. The "News-Advertiser" has prepared for the exclusive use of its readers in this province a large engraved plate of Rt. Hon. R. L. Borden and his Ministers.

The group is redrawn from the latest photographs of the eighteen Ministers, who compose the advisers of His Royal Highness the Governor-General. It is printed in sepia on heavy board ready for framing, and will be of the greatest educational value in the home, the school, and the library.

The Prime Minister, HON. R. L. BORDEN, occupies a central position, and is shown standing at the head of the Council Table. Seated about him are his colleagues.

Dimly in the background the features of Sir John Macdonald look down on his successors.

How to Obtain the Picture

This fine engraving, of which a limited number have been prepared, will be sent

FREE OF CHARGE

to new subscribers, or to old subscribers, who renew their subscriptions for one year (\$3.00).

For out of town subscribers the picture will be tubed and postage prepaid.

Non-subscribers may obtain copies on payment of 50 cents. If mailed, ten cents extra for tubing and postage.

Applications and remittances (cash must accompany order) must be made to

RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 5c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 1, 1912.

SCIENCE OF LOGGING.

THAT lumbering should properly be regarded as a science and as a profession is the substance of resolutions recently adopted by the British Columbia Lumber and Shingle Manufacturers' Association and by the Canadian Forestry Association, favoring the establishment of a course in logging engineering at the new University of British Columbia. The success which has attended the agricultural colleges of Canada and the United States in equipping the farmers' sons with a scientific knowledge of husbandry, is evidence of what might be expected from similar courses devoted to logging engineering. The courses of study in our agricultural colleges have been intensely practical and helpful. The lumber industry deserves the same consideration for those who desire to become expert loggers and lumbermen, in the broadest sense of the term. Logging is rapidly coming to be recognized as one of the most important features in the lumber industry. Each year the difficulties increase, and the consequent demand for knowledge grows more apparent.

WATER POWERS OF BRITISH COLUMBIA.

A GOOD EXAMPLE of what can be done in developing and, at the same time, conserving water power resources is given by the Jordan River plant of the British Columbia Electric Railway Company, on Vancouver Island. Although the average precipitation over its watershed reaches the excessive figure of 80 inches, the Jordan River, like the majority of our streams, has a wide variation between summer and winter flow. The company has had the flow of this river systematically gauged since 1907 and the results obtained justified the building of large storage reservoirs for the purpose of impounding waters which would otherwise go to waste. The total capacity of these reservoirs, of which there are five, is 1,500,000,000 cubic feet, and they provide ample storage, within reasonable cost, for an ultimate maximum plant output of 24,000 h.p. to 36,000 h.p.

A TOWN'S GROWTH

IS ENTIRELY a matter of the enterprise of the business men. In every district and in every province can be found towns that are continually forging ahead, while others in the same vicinity remain practically at a stand still and accomplish nothing in the way of improvements or advancements. In every case the fault can be found to rest, not with the town, but with the people themselves.

The reason why some towns grow is because they have men in them with push and energy who are not afraid to spend their time, energy and money in anything that will boom and benefit the town. They have confidence enough in their town to erect substantial and modern buildings and residences and work for public improvement in the same order. They organize stock companies and establish factories, induce industrial enterprises to locate and use every means to further the best interests of the town. Their work is never considered finished and the accomplishment of one thing is only an incentive of another.

On the other hand the town that does not get ahead will be found to be dominated by either a set of men who are perfectly satisfied with their surroundings or who are afraid somebody else will be benefitted in the event something is started, consequently no effort of any kind is made by this class for these two reasons. If some men, or set of men, endeavor to start something, they are met by opposition and discouragement and it is uphill work all the way and very often failure.

Every town, however, has a certain progressive element which hopes for a turn of the tide when it will go forward by leaps and bounds and occupy a position of importance along with other numerous advantages which goes to make a good town in every sense the word implies. But this stage cannot be accomplished by mere wishes or suggestions. It can only come from harmony in purpose and action and the eternal vigilance of its citizens. The town with these things will continue to grow and improve, but the town without them can be expected to remain in a state of lethargy indefinitely without affording its residents anything but a mere existence.

JUDGING from the remarks made by a number of citizens at the cannery meeting on Thursday afternoon, the opinion seems to be that there is abundance of time in which to organize a company and arrange for the canning of next season's crop. It is the opinion of the Review that while every move should be given due consideration, action cannot be taken too soon, and, in fact, if the venture is to meet with success next season the time for preliminaries is indeed short. The business should be so far advanced by February that all details are arranged and a market found for the output. It is customary with Canadian cannors to secure buyers for the season's output long before the seed to produce the crop is in the ground.

OVER a million members are now enrolled in the Layman's Missionary Movement in Canada. Viewed from a moral standpoint alone, such a vast community cannot help but wield a most elevating influence for good among the indifferent.—Vancouver Sun.

WHY CANADA IS BRITISH.

"HOW AND WHY is Canada British" was the title of an interesting historical address delivered by Mr. Justice W. R. Riddell before a large meeting of the Empire Club in Toronto recently.

"We are British," said Judge Riddell, "because we have as a birthright a share in the Union Jack, a share in the long story of valor and self-sacrifice of those who have lived under its folds in the glory of many centuries of history. We are convinced that there is no similar institution which can compare as an instrument of good to mankind with the British Empire, and we are determined not to give up our share in it. Nowhere is there such liberty as the British subject enjoys. Not bound by the dead hand of dead and gone generations, he makes his government as he wishes it to be. Girt by friend or foe, he says the thing he will. Thought is free, speech is free, worship of God is free. And with freedom comes opportunity. In every knapsack there is the marshal's baton; the career is open to the talent; a man is what he makes himself. The barber's apprentice may become the Chief Justice of England, the farmer's son or stone mason the Prime Minister of Canada. We are a free nation in a free Empire, and what heart can wish more? What more can the most ardent patriot demand?"

Mr. A. B. Williams is having some very material improvements and additions made to his house in Peach Orchard. When completed, it will be a very neat and commodious bungalow.

Arrangements are being made to hold a concert and dance on St. Andrews' night. Keep this night free, and prepare for a good time with Scotch song and story.

The Rev. and Hon. T. R. Heneage the Provincial Secretary of the Boy Scouts of British Columbia, is visiting in town to confer with the committee of the Boy Scouts.

Miss Taylor, an expert in dress-making, gave a number of demonstrations in dressmaking this week before the members of the Women's Institute, and Mrs. Townley of Vancouver addressed the ladies on patriotic subjects. Mrs. Townley, who is an experienced lecturer, also visited the town school on Thursday morning, speaking to the little ones on patriotic subjects, and visited the Central School on Friday morning. Both Mrs. Townley and Miss Taylor are working under the auspices of the Provincial Department of Agriculture.

Local News Items. Local News Items.

Mr. James Ritchie is visiting Calgary this week on a business trip.

Mr. W. J. Robinson has closed his residence for the winter and has taken rooms in the hotel.

Make your selections of Xmas Greetings while our line is complete. Review Office.

Presbyterian service will be held in the Methodist Church next Sunday evening at 7 o'clock.

Mr. David Avasche, of Penticton, made a flying trip on horseback to Summerland on Monday last.

Look! W. J. Robinson's Greenhouse, headquarters for Chrysanthemums. All shades. Choice flowers.

BORN—At the Cottage Hospital on Thursday, October 31st, to the wife of W. J. Docking of Trout Creek, a son.

BORN—To the wife of Dr. F. W. Andrew, at the Cottage Hospital, on Tuesday, November 5th, a son.

Among the many good things which help to make up the happiness of a home, are the weekly visits of this paper; try it.

Rev. Mr. Harkness goes to Kelowna to-morrow morning where he will preach at both services in the Baptist Church on Sunday.

Messrs. Pares and Houghton of West Summerland brought home three deer as the result of a week-end hunting trip to Fish Lake.

For Sale.—Coal oil heater; coal oil stove; cooking utensils; wash boiler, tub and wash board; one rug, 9 by 12; one toilet set. Mrs. T. C. Stinson.

Mr. P. S. Wood, manager of the local branch of the Canadian Bank of Commerce, who has been relieving the manager of the Penticton branch, returned home on Sunday.

Small house to rent near Richardson's lumber yard. Also stove, bedstead, bed spring and other household furniture for sale. Apply to owner, George Davidson or W. C. Kelley.

Nothing is more suitable or genuinely satisfactory than a personal Xmas Greeting Card. We have a great number of varieties, with a price range to suit all. Printed to order. Review Office.

An eastern exchange reports the presence of Dr. Sawyer at the Maritime Baptist Convention at Moncton, N.B., and that the courtesies of the convention were extended to the visitor. Dr. Sawyer addressed the convention on more than one occasion.

The Okanagan Jam Company, Ltd., of Summerland, has received a silver cup for the quality of its product, and the excellent display made at the Okanagan Apple Show at Vernon. The product of our local factory was pronounced by the judges the best jam they had ever tasted.

Miss Katherin McLeod, formerly Lady Principal of Okanagan College, is touring B.C., and under the auspices of the W.C.T.U. gives lessons to the young lady pupils of the schools along the lines of moral education. Miss McLeod will speak to the girls of the Central and High Schools next Monday and Tuesday afternoons.

When a man is nearly frozen from a ten mile drive on a cold winter day, he will hardly stop to read a board advertisement. But at home in his arm chair with his legs crossed before a cheerful fire he reads his local paper, and while he is feeling good and has plenty of time, picks out the live business men of the town from the advertisements in the paper and makes up his mind where he will trade. Plan now for your winter advertising campaign.

On Monday evening a number of young people held a surprise party at the home of Mr. and Mrs. Wellington Watson in honor of Mr. Muir Stewart, who is leaving town for a few weeks. Dancing was indulged in until the wee sma' hours of the morning, when the guests dispersed after the singing of "Auld Lang Syne." Those who were fortunate enough to be present expressed themselves as having been treated to one of the most delightful evenings yet held in Summerland.

Shiloh
The family remedy for Coughs and Colds.
"Shiloh costs so little and does so much!"

Big line of Xmas Greetings now on hand. Order early. Review Office.

Mr. R. H. English has purchased from Tom Kelley his pre-emption at Upper Trout Creek.

The new pipes for domestic water service on Paradise Flat are being hauled and laid this week.

Dr. Mathison will be at his Summerland office from Nov. 12th to 30th. Work by appointment only.

Messrs. Clarke & Hatfield left this week on a four days' hunting trip in the adjacent hills.

Mrs. A. Harkness leaves to-night (Friday) for a short visit with friends in Penticton.

Mr. Roy Cunningham, who has been connected with the Summerland Restaurant for some time past, left on Thursday morning for Vernon.

Mr. R. H. Steuart left on Thursday morning with a large exhibit of apples for the Spokane Apple Show of next week.

Messrs. R. H. Helmer and C. J. Thomson left on Monday morning for the Old Country to superintend the distribution of apples which they recently shipped.

Workmen are busy these days building a stairway up the hillside in front of the West Summerland Baptist Church. This is an improvement that will undoubtedly be greatly appreciated by members of this congregation in the winter weather.

The ten acre lot lying north of the Ritchie greenhouse, and adjoining the Victoria Gardens, West Summerland, is to be sub-divided into half acre home sites and placed on the market next week. The entire plot is planted to apple and pear trees, and should prove a desirable home section.

Mr. W. P. Greenwood, one of our local carpenters, has purchased the corner lot opposite Dr. Angwin's, and formerly owned by Mr. C. S. Stevens. Mr. Greenwood, who expects other members of his family to arrive in Summerland next spring, intends to erect a dwelling house on his new property.

It is a long time since the old people at home saw you or had a picture of you. It takes at least two weeks to finish portraits and another two weeks for them to go to England. Make an appointment now, so that they may have one for Christmas. You could not better please them in any other way—There's a photographer in your town.

Miss Katherin McLeod will speak to mothers and teachers on Sunday afternoon at three o'clock, in the Presbyterian Church. On Monday at two o'clock, she will talk to the young ladies of the Consolidated and High Schools in the vacant room in the High School building, and on Tuesday at the same hour and place Miss McLeod will speak to the younger girls.

SAWMILL BURNED.

A. Richardson's lumber mill, situated some five or six miles from town, on Trout Creek, is reported to have been burned to the ground last night about ten o'clock.

The reflection from the fire was plainly visible to all who were about the hill or West Summerland. Particulars are not yet available, Mr. Richardson having gone out to the scene of the fire this morning.

Fortunately Mr. Richardson has a good supply of finished lumber at his yards, West Summerland.

A WONDERFUL BARGAIN.

For a great big dollar's worth the offer this season by the Family Herald and Weekly Star of Montreal cannot be beaten. A sample copy of their new picture, "Mother's Treasures," size 28 by 20 inches, all ready for framing, has reached this office. It certainly is beautiful and every home in Canada will be the better of having a copy in the house. The Family Herald and Weekly Star, bigger, brighter and better than ever, along with such a beautiful picture, all for one dollar, is a bargain that should be taken advantage of. It is only the Family Herald and Weekly Star that can offer such a picture free with a year's subscription. People wonder how it can be done, yet still it is done, and the people get the benefit.

Only Results Count

The one thing above all else that you want to know about the range you buy is this—that it will cook and broil and bake with absolute satisfaction.

Other features of a range, such as convenience, economy and appearance, are, of course also indispensable, but the prime necessity in a range is results in cooking. The Gurney-Oxford gives results—not now and then, but always.

Every Gurney-Oxford is a source of continual satisfaction to its owner. Day after day, year after year, it enables her to produce pastry, bread, roasts that contribute to the pleasure of housekeeping. That is why the Gurney-Oxford finds its strongest support among those who have had actual and intimate experience with it. You too will number your Gurney-Oxford among your best friends.

B.C. FRUIT WILL BE SHOWN AT NEW YORK.

Thirty boxes of Summerland prize fruit is being sent to the New York Land Show for exhibition. The fruit will form part of the C.P.R. display and will be sent by the Minister of Agriculture for B.C. It is afterwards to be exhibited in Chicago and Wm. E. Scott, Deputy Minister of Agriculture will go there as the representative of the B.C. Government.

This is the fruit that made such a great showing at the recent Dry-Farming Congress at Lethbridge.

Norman S. Rankin will have charge of the exhibit. The date of the Land Show is November 15.

HIS GOLD MINE.

A young man recently got married and took a house determined to grow enough vegetables to keep the household going. He started to dig up the garden, and, after half-an-hour's hard work, was astonished to find a half dollar at his feet. Then he dug with renewed ardor. Several pennies, a dime, and a quarter rewarded his efforts.

"Bless me! If this ain't a gold mine!" he said, digging away for all he was worth. "I wonder what I'll find next?"

His arms ached, little beads of perspiration trickled down his nose, and his neck felt as though it was breaking. He could stick to it no longer. He straightened his back at last with a groan of pain, and at the same instant felt something cold sliding down his leg. In a moment he had grasped the truth. There was a hole in his trousers pocket.

HE HAD HER GUESSING.

President Mellen of the New Haven, likes railroad stories, no matter what the variety, and was immensely pleased with one of the lesser officials the other day when he told him this one as being not only true but as an occurrence in the New Haven station:

A nervous lady stopped a baggage-master and demanded to know why her train was arriving late.

"Well," said he, "it's just like this: The train ahead is behind and this train was behind before, besides."

The lady could not figure it out and neither for a moment could President Mellen.

NOT EASY FOR HIM.

"It's easy," began Mr. Jones, "to obey the Biblical injunction when one's neighbor is a pretty girl."

"But surely," replied the bright girl next door, "it isn't easy for you."

"Oh, yes; I refer to the command to 'love thy neighbor.'"

"Yes, but the command is really 'love thy neighbor as thyself.'"

The telephone girl in a certain hotel answered a queer call over the house exchange the other morning about eleven o'clock. When she "plugged in" a man's voice said: "Hello! Is this the So-and-So Hotel?" "No," replied the girl, who was slightly surprised. "This is such-and-such Hotel." "Oh, all right!" said the man, "Just woke up and didn't know where I was."

A man staying at a hotel asked the person next to him if he would please pass the mustard. "Sir," said the other, "do you mistake me for a waiter?" "Oh, no, sir," was the immediate reply, "I only mistook you for a gentleman."

For every wing of black and orange on a woman's hat an apple tree is stripped of leaves and young fruit, or an elm is denuded of its graceful foliage by the cankerworm.—Our Dumb Animals.

"I always make it a practice to let to-morrow take care of itself." "That's easy enough, but it's forgetting yesterday that causes trouble for so many of us."

"Dearest, if I were far, far away, could you love me still?" "Why, Reggie, what a question! I'm sure the farther you were away the better I should love you."

TOO MUCH WATER.

Soil Can Retain Only a Limited Amount of Water.

A very sandy loam soil when very dry contains 6 per cent. or more moisture. Ordinary crops deplete moisture in a sandy loam soil to only 9 or 10 per cent. in the first four or six feet.

The ordinary sandy loam soil, when saturated with water, contains about 16 per cent. of moisture. A coarser soil contains less, and a finer, heavier soil more than this amount. However, the heavier soil will withhold from the crop a much higher percentage of moisture than the lighter soil. Also the plants feed more deeply in the lighter soil, so that the amount of available water that may be stored in various soils does not vary greatly. One per cent. of moisture on the first six feet of the soil is approximately equal to one acre-inch of water.

Since the maximum amount of water a sandy loam will retain against gravity is about 16 per cent., and since the ordinary crop draws this down to only 69 per cent., and since 1 per cent. in six feet of soil means about one inch of water, it is obvious that there can be stored at any one irrigation only about six or seven inches of water on a field growing a crop. This is allowing a maximum amount of water. Under most conditions one-half this amount would be enough to saturate the feeding ground of the plants. If the soil is very dry, as alfalfa or native land, then possibly 10 inches may be stored. If more water is added it goes deeper than six feet, and is not readily available to the crop.

Why put on more water than the soil can use?

Too much water is an injury.

First.—It washes out plant food. Nitrogen is the plant food element that the western soil is most deficient in. It is easily washed out. If washed below the feeding ground of plant roots, it is lost.

Second.—It clogs the surface few inches of soil by cementing the small particles together and thus produces puddling, which all recognize as very injurious to soil.

Third.—It crowds out air. This lessens action of bacteria in making plant food.

Fourth.—It lowers the temperature of soil. This retards growth. Seasons are too short in northern states and growth should be hastened.

Fifth.—The excess water that goes into the soil comes out somewhere. It often seeps out on the land lower down and injures it, or even destroys its use for agricultural purposes.

Sixth.—Water has a value the same as any other material. No man has a right to more than he uses properly. If he uses more than he needs, or wastes it, he is using something that does not belong to him.

ANXIETY.

I've got a letter, parson, from my son away out West, An' my ol' heart's as heavy as an anvil in my breast, To think the boy who's futur' I had once so proudly planned Should wander from the path o' right an' come to such an' end! I told him when he left us, only three short years ago, He'd find himself a plowin' a mighty crooked row— He'd miss his father's counsels, and his mother's prayers, too; But he said the farm was hateful, an' he guessed he'd have to go.

I know thar's big temptation for a youngster in the West, But I believed our John had the courage to resist; An' when he left I warned him o' the ever-waitin' snares That lie like hidden serpents in life's pathway everywhores, Our Jack, he promised faithful to be keorful an' allowed He'd build a reputation that'd make us mighty proud; But it seems as how my counsel sort o' faded from his mind, An' now the boy's in trouble of the very wustest kind!

His letters come so seldom that I somehow sort o' knowed That Jack was trampin' on a mighty rocky road; But I never once imagined he would bow my head in shame, An' in the dust would wallor his ol' daddy's honored name. Ho writes from west the Rockies an' the story's mighty short; I just can't tell his mother; it'd crush her poor ol' heart! An' so I reckon, parson, you might break the news to her— Jack's in the Legislatur', but he doesn't say what fur.

—The Fruit Magazine.

BORDEN CABINET AGAIN COMPLETE.

The reconstruction of the cabinet, made necessary by the retirement of Hon. F. D. Monk, became effective when Louis Coderre, M.P. for Hochelaga was sworn in as Secretary of State, becoming the new Minister of Quebec. The present Secretary of State, Hon. Dr. Roche, becomes Minister of the Interior, and Hon. Robert Rogers Minister of Public Works.

The department of Mines has been transferred to the department of Secretary of State, so that Mr. Coderre will not only be Secretary of State but Minister of Mines, having control of the geological survey and all the various branches of that department.

The reconstructed cabinet now stands as follows: Hon. Robert Rogers, Minister of Public Works; Hon. Dr. Roche, Minister of the Interior; Hon. Louis Coderre, Secretary of State and Minister of Mines.

Wenatchee's apple crop this year is estimated at approximately 3,500 carloads or 2,000,000 boxes.

(Continued from page 1.)
R. S. Monro asked that Supt. Mitchell and others or some official meet him on his property and arrange for changing the position of a flume or ditch which he claimed interfered with orchard work. This was referred to the Supt. as was also a request from W. A. Wright that the road near his place be repaired.

Manager May of the Bank of Montreal asked that a road approaching his property be repaired. The Supt., who was present, said that all that could be done had been as the road was only fifteen or twenty feet wide. Coun. Robinson explained that a sub-division had been made and that this road was half the width of the proposed road. The other half was to come off the adjoining property.

The petitions asking for a submission of money by-laws for domestic water, irrigation and electric light, bearing the required number of signatures, was laid on the table.

The Clerk also read a long letter from H. B. Taylor, asking that, in view of the work he had already done in connection with the electric light plant, he be given an opportunity to submit estimates, etc.

A recent estimate made by Messrs. Mather, Yuill & Co. was also read and compared with an estimate submitted in 1910 by T. P. Thornber. There was a very marked difference in the figures of these two estimates, so great in fact that the Council thought further enquiry should be made. The estimate as submitted in 1910 showed an anticipated profit of very satisfactory proportions. Coun. Robinson asked why this had not been placed before the Council before, and expressed surprise that with these figures before them, a previous Council, should have favored a plan to hand over the only paying public utility to private interests. In reply to a question the Clerk reported that the proposed sale was arranged but that he had claimed it was illegal and his contention was corroborated by Messrs. Billings & Cochrane.

A. G. Kirk, Assistant Clerk of the Board of Railway Commissioners wrote the Council submitting the plan of the Kettle Valley Railway, as outlined by that company, for a highway crossing which has been a matter of dispute. The company promised to level down an obstructing hill, giving users of the highway a good view of approaching trains.

J. R. Brown asked the Council to do something with the water which is flowing out of the bank at the rear of his property, and which flow had partly buried some of his buildings and had made the road inaccessible. The general opinion was that the spring was a new one caused by the introduction of irrigation and would likely be permanent. The Board denied any responsibility.

Supt. Mitchell was called and instructed to put the light into the Jam Factory, which he promised to do on Thursday of this week.

The three by-laws, one for \$55,000 for domestic water system, and another for a like amount for the enlarging, improving and extending of the irrigation system, and a third for \$85,000 for electric light purposes were given their readings. For the first two thirty years bonds at 5 per cent. will be issued, for the electric light twenty year bonds. The by laws will be given their final reading next Tuesday, and a vote will be taken on Wednesday, November 20th.

A motion was carried unanimously asking that the Provincial or Federal Government build a public wharf from a point near Dr. Smith's.

The Council then adjourned to meet next Tuesday morning.

(Continued from Page 1.)
partly arranged for a plan whereby an instructor could be employed between Kelowna and Summerland. He recommended that the instructor live at Kelowna and hold classes there on Monday, Tuesday and Wednesday of each week arriving here on Wednesday evening and teaching on Thursday and Friday. This suggestion was for the Fall Term of 1913, and he asked that the plan be considered by the board, and that their opinion be expressed. There would be an initial expense for equipment of about \$700, of which the government would pay 75 per cent. The Educational Department will bear 60 per cent. of the teacher's salary, and of the remaining 40 per cent. the local board would be required to pay two-fifths, that is 16 per cent. of the teacher's salary. A building would be needed, and the cost of this would possibly total \$2000. The government will furnish specifications and pay 60 per cent. of the cost. All the figures as given were stated to be outside figures so that the board need not anticipate paying more than specified. Each class in manual training covers one half day's work. At present there are pupils enough for four classes. Two of seventeen and one of fifteen from the Central, and one of five from the High School. It was suggested that possibly some college boys would join the latter class and bear a proportion of the expense. A full course of training is laid out by the department. There are now twenty-nine Manual Training teachers in B.C. In a number of rural districts where there are no consolidated schools they consolidate for this purpose alone, and very satisfactory results have been obtained. The cost to the local board after the first year was placed at \$645.00 for a twenty bench department. The Director asked that the Board express their opinion of the proposition and pass a motion accordingly. The recommendation of the Director met with the approval of the Board, and they considered favorably a proposition to inaugurate that branch of training for the Fall of 1913, the motion being carried unanimously.

The following accounts were ordered paid:

Teachers' salaries	\$510.00
Janitor	24.00
J. L. Logie	10.00
H. Dunham, route 4	69.30
J. R. Campbell, route 3	55.00
Pares & Hookham, routes 2 and 4	114.40
A. Anderson, route 5	35.00
T. J. Garnett, route 5	13.20
Summerland Supply Co.	13.50
Pares & Hookham	.75
A. W. Stanley, coal	243.70
E. N. Moyer Co., desks	64.27
Mr. Pushman	6.00
Wm. Ritchie	2.00
Wm. Ritchie on account of new school wagon	200.00
	\$1361.12

It was reported to the Board that the latest addition to the vehicles had not been completed according to specifications. For this reason part of the purchase price was held back until the work is done to the satisfaction of the Board.

President.

Bargains for
OUR *Subscribers*

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1	
Vancouver Daily Province	- \$3.00
Better Fruit	- 1.00
The Review	- 2.00—6.00
The three for \$5.00	

BARGAIN No. 2	
Canadian Courier	- \$3.00
Canadian Horticulturist	- .60
The Review	- 2.00—5.60
The three for \$4.60	

BARGAIN No. 3	
Vancouver Daily Sun	- \$3.00
Country Life in America	- 5.00
The Review	- 2.00—10.00
The three for \$8.00	

BARGAIN No. 4	
Canadian Horticulturist	- .60
Canadian Poultry Review	- .50
The Review	- 2.00—3.10
The three for \$2.70	

BARGAIN No. 5	
The Busy Man's Canada	- \$1.00
World's Work	- 3.60
The News-Advertiser, Daily	3.00
The Review	- 2.00—9.60
The four for \$7.00	

BARGAIN No. 6	
Winnipeg Telegram	- \$2.00
(or Free Press)	
B.C. Saturday Sunset	- 2.00
Canadian Magazine	- 2.50
The Review	- 2.00—8.50
All four only \$6.60	

BARGAIN No. 7	
World Wide	- \$1.50
Farmers' Advocate	- 1.50
Free Press, Weekly	- 1.00
The Review	- 2.00—6.00
The four for \$4.75	

BARGAIN No. 8	
British Columbia Magazine	- \$1.50
Toronto Mail and Empire	- 1.00
Farmers' Advocate	- 1.50
The Review	- 2.00—6.00
All four for \$4.50	

If none of these combinations suit you, make up one to your liking, and we will quote you a price on the selection.

We are also Subscription Agents for—

The Ladies' Home Journal	- \$2.00	Country Gentleman	- \$2.25
Saturday Evening Post	- 1.50	The Fruit Magazine	- 1.50
Successful Poultryman	- .50		

These Offers are for old or new Subscribers. If present Subscribers are in arrears it will be necessary to pay to date before these Bargains become available.

BARGAIN No. 9	
Calgary Herald	- \$3.00
Collier's (Canadian Ed.)	- 5.50
The Review	- 2.00—10.50
The three for \$8.90

return to this office. tf.

LOST—Between C.P.R. wharf
and ferry landing, an elk's tooth,
polished and with hole in top. Re-
turn to Review Office and receive
reward.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the
Dominion, in Manitoba, Sas-
katchewan and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the
Province of British Columbia, may
be leased for a term of twenty-one
years at an annual rental of \$1 an
acre. Not more than 2,560 acres
will be leased to one applicant.

Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.
In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.

Each application must be accom-
panied by a fee of \$5 which will be
refunded if the rights applied for
are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.

The lease will include the coal
mining rights only, but the lessee
may be permitted to purchase what-
ever available surface rights may be
considered necessary for the work-
ing of the mine at the rate of
\$10 an acre.

For full information application
should be made to the Secretary of
the Department of the Interior,
Ottawa, or to any Agent or Sub-
Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this adver-
tisement will not be paid for.

College Notes.

The meetings of the Literary
Society, held alternate Saturday
evenings, have been well attended
and exceedingly interesting. On
Saturday, October 26th, a debate
was held when the good old subject
was threshed out: "Resolved that
Woman's Suffrage is in the best
interest of society." The affirma-
tive was led by Mr. J. Marshall,
and the negative by Mr. H. C.
Packham; the latter being the
winner. Next Saturday night,
Nov. 9th, a Mock Parliament will
be held, when the Home Rule Bill
will be introduced and fought out.
Mr. Ed. W. Armstrong has been
elected speaker of the House and
has been so deep in the labyrinth
of Parliamentary Rules that Greek
and Hebrew have been forgotten.
Mr. Wm. Armstrong is the force-
ful leader of the Government, while
his keen watchful antagonist, the
leader of the Opposition, is Mr.
H. C. Packham. A most interest-
ing and enjoyable time is expected.
The strangers gallery will be open,
and the public invited.

On Monday evening, October
28th, the young ladies of the Col-
lege gave the boys an excellent
Thanksgiving Dinner in the College
dining-room. The hall was most
tastefully decorated and the dinner
as good as any we ever had at home.
Those boys who had sufficient cour-
age and manliness to escort a young
lady to the table certainly had a
splendid treat. After the dinner
the lady students were "At Home"
in the parlors of Morton Hall to
their fellow students of Ritchie
Hall.

On Friday night, November 1st,
a Hallowe'en party was given by
Miss Colwell to the Faculty, stu-
dents and Board of Governors of
the College. The parlors of Morton
Hall were most beautifully decora-
ted with autumn leaves and Jack
o' Lanterns. This was a most
pleasing social function, and was
greatly appreciated by all who
attended. The boys are still say-
ing, "Oh, my! those pumpkin pies
were good!"

The Y.M.C.A. and Y.W.C.A.
work this year is most encouraging.
The decision to hold separate socie-
ties has proved wise. Never before
has there been such interest mani-
fest in this department of the work
in the College, whether by the boys
or girls. On Tuesday night last
the Y.M.C.A. was led by Rev.
F. W. Pattison, his subject being,
"Ye must be born again." There
was a large attendance of the young
men and good attention given.

"The Lyceum," the College
magazine, is expected out about
the 15th of each month, and will
have from 12 to 15 pages. The
subscription price for the season,
6 copies, for points outside Sum-
merland, will be \$1. For subscri-
bers in the town 15 cents per
copy. Ed. Armstrong has been
appointed circulating manager.

Government Telegraphs.

New Copper Line Finished.

A telegraph instrument has been placed in the local office of the government telegraph and telephone service, and will be connected with the through line within the next few days. The new copper line has been strung from the cable end at West Bank through south as far as Penticton. It was hoped to have had the changes from telephone to telegraph made the first of the month but some unavoidable delays have occurred at Kelowna and Penticton in the transferring of the offices from the Okanagan Telephone Co. to the new government quarters. The iron line is still being used for telephone purposes. When the change is made the iron line will be used for telegraph and the new copper line for telephone purposes.

CAR RECOVERED AFTER WEEKS IN LAKE.

During the past week a gang of men have been busy raising the refrigerator car which fell into the lake some short time ago. A block and tackle was fastened to the shore and car, and gradually the men hauled the big box by hand and steam donkey through the water. Considerable difficulty was experienced moving it around the end of the freight wharf, but last evening the men succeeded in drawing it up on the gravel close to shore. This morning a cable was attached to the prow of the Str. Okanagan through pulleys to the car, and, after some careful maneuvering, the steamer backing out, the car was rolled on to skids laid out from the shore. It will now be worked up the skidway and placed upon the temporary track that has been built along the shore to the Union warehouse, whence it can easily be run on to the wharf again.

Mr. Wm. Miller of Revelstoke, who has built the snow sheds, slides, etc., for the mountain section of the C.P.R., and who superintends the clearing of their wrecks, was in charge of the work here. His methods in this undertaking prove his success in this line of activity.

CONSOLIDATED SCHOOL REPORT.

Those having the highest standing in their various classes during October:

- Division I.—Senior IV.
Kathleen Elliott, Leighton McLeod, Islay Johnston, Merle Thompson, Volney Merrill.
- Intermediate IV.
Kathleen Brown, Mabel Watson, Eliza Ritchie, Dorothy Tingley, Helen Robertson.
- Division II.—Junior IV.
Carrie Harvey, Marjorie Hatfield, Dwight Ritchie.
- Senior III.
Fairy Adams, Irvine Adams, Opal Thompson.
- Junior III.
Cecil Ritchie, Hazel Stewart, Bernard Taylor.
- Division III.—Senior II.
Leonard Whitfield, Lily Simpson, Alex. Smith.
- Junior II.
Dwight McLeod, Frank Calder, Ronald Phinney.
- Senior I.
Helen Campbell, Bob Hatfield, Eva Watson.
- Junior I.
Stuart Daly, Jean Caldwell.
- PRIMARY DEPARTMENT.
Senior Second Primer.
Maurice Darke, Grace Garnett, Bossie Thompson.
- Senior First Primer.
Edgar Walker, Mason Merrihow, Sylvia Washington.
- First Primer—Division A.
Lillian Darke, Allan Ritchie, Zanda Garnett.
- First Primer—Division B.
Jessie Monroe, Florence Campbell, Dorothy Dunstan.

Brotherhood Organized.

Large and Successful Men's Banquet.

A very important meeting, judged from the effect it is certain to have upon the life of Summerland in the future, was held in the Baptist Church, West Summerland, on Tuesday night, when some hundred men sat down to a splendidly prepared banquet, and later discussed some of the important questions of the day. The church was tastefully decorated for the occasion with flags, bunting and sprays of Oregon grape, designed by Miss Spencer and executed by Mr. J. Schofield. The banquet prepared by the ladies of the church was one of the most generous ever provided in Summerland, and was most thoroughly enjoyed by the men when they were called to the tables at 6.45 p.m. by Rev. F. W. Pattison, master of ceremonies.

After the tables had been cleared a splendid program was rendered. The orchestra of the Summerland church delighted the gathering with a number of excellent selections. Vocal solos were given by Miss A. Hayes and Mr. Wallace Wright, while Mr. Spencer was encored in a trombone solo, which was most highly appreciated.

A number of excellent addresses were also given, R. E. E. Harkness speaking on "The Man and the Boy," Prof. Baker, "The Young Man of Summerland," Rev. A. W. McLeod, "The Man and Morals," Mr. G. J. Coulter White, "The Man and his Foreign Brother."

At the conclusion of the program it was unanimously decided to organize a Brotherhood to meet each Tuesday evening, at present in the home of Mr. Pattison, for the discussion of social and other important questions. The officers elected are:

- President—Dr. E. W. Sawyer.
Vice-President—Mr. Thos. Dale.
Secretary—Rev. A. W. McLeod.
Treasurer—Mr. Clarence Craig.
Rev. F. W. Pattison to be ex-officio member of the executive.
- The fee and age limit for membership will be decided upon at the next meeting of the Brotherhood.
- All men who are desirous of building character and aiding their fellow men are eligible for membership. This is a good move on the part of the men of Summerland, and should prove a strong force in the good life of the community.

"THE PLAYERS" IN "DAVID GARRICK."

Thursday, November 28th is the date fixed by the Players for their next production. So far we have seen this company in modern comedy only—"The Importance of Being Earnest," "The Truth," and "Cousin Kate," representing Oscar Wilde, Clyde Fitch and Hubert Henry Davies, a trio whose work no company need be ashamed of interpreting. Having made so excellent a record as The Players undoubtedly have done, not only in Summerland but in each of the other Lake towns, we look forward with interest to their next performance which will be the most ambitious that they have so far attempted.

"David Garrick" is familiar to most playgoers, and it is probably the best known of the late T. W. Robertson's plays, made famous by such actors as the older Sothorn, Sir Charles Wyndham and E. S. Willard, the latter playing it for many years in Canada and the States, and included in his company was one of The Players, whose familiarity with the piece should stand him in good stead.

The period (about 1740) is one of the most picturesque in history, for it was the time of lace and ruffles, panniers and powdered hair, profound bows and courtly gesture, and it is attention to such detail that contributes largely to the success of a play like "David Garrick." This attention we understand will not be found wanting, for much time and trouble has been spent in preserving the "atmosphere" of the period.

The cast will consist of Mrs. E. B. May, Miss Evelyn Higgin, Miss Marion Cartwright and Messrs. Cordy, Knox, Sauter, Fosbery, Collas, Penso (of Kelowna) and E. R. Simpson.

A visit to the other lake towns will follow the performance here. Thursday, November 28th at 8.30.

MUNICIPAL COUNCIL

Holds Regular Monthly Meeting.

Big Sheaf of Accounts Passed for Payment.

The passing of accounts and considering of communications took up much of the time at the regular monthly meeting of the Municipal Council last Tuesday morning.

The meeting was called to order about 10 o'clock with Coun. Lewes in the chair, all the members of the Board being present with the exception of Reeve Thomson.

After the reading of the minutes of the previous meetings, communications were dealt with. A letter was received from the Union Engineering Co., of which H. B. Taylor is a member, offering a 50 horse power oil engine for \$7,500. This was represented as an unusually good offer and was only open for a short time, being the manufacturer's offer on a sample engine of a standard make. The Clerk was instructed to reply to Mr. Taylor to the effect that the Council were not in a position to purchase at the present time.

Another letter was read from Mr. E. B. May in reference to the road approaching his house. Mr. May expressed surprise at the stand taken in reference to this road at the last meeting, and stated that he could have the road put in satisfactory condition for \$50 or \$60. No further action was taken by the Board, but several members expressed the intention of looking over the proposition for themselves.

The Superintendent submitted a report of work done during the month. This report advised that a dam had been built at Eneas Creek headwaters, and that a gate was being placed in position.

The following accounts were submitted by the Finance Committee, and payment authorized:

Pay Roll	\$2098.15
Robertson-Godson Co., pipe, etc.	88.57
Northern Elec. & Man. Co., wire	5.58
Wm. Ritchie, lumber	22.87
John S. Richie, harness sundries	.75
Pares & Hookham, teaming	16.00

A. Richardson, lumber	24.13
Darkis & Whitfield, smithing	125.05
Municipal School Board, requisition	23.95
Dominion Glazed Cement Pipe Co.,	1870.00
	51.83
	\$5200.40

A bill from undertaker Graham for \$20 for burying the body of the late Mr. Peters which was found in Prairie Valley, was criticized by several of the Board. \$25 was charged for a coffin, and the Clerk pointed out that some two or three years ago a resolution had been passed limiting paupers' burying expenses to \$15 or \$20. The clerk was instructed to return the bill to be O.K.'d, and also to write

the Coroner asking that henceforth cheaper coffins be used.

Another bill which was presented uncertified was one from Mr. R. H. English for \$1 for cartage on "drunk to jail."

It was pointed out by Coun. Robinson that at present the jail cannot be reached by horse and carriage, and he recommended that the road back of the Empire Hall block be extended to the jail.

There were quite a bunch of bills for expenses in connection with the Duke's visit which were not in order for payment, the bills not being certified. These included bills for bunting, flags, etc., and the goods were not known to be in the possession of the Municipal authorities. The bills were referred back for further information. It was pointed out that these accounts should not have been charged to the Municipality but rather to those in charge of the entertainment.

The Board of Works reported that the Supt. was now hiring a livery horse for use in his work as Superintendent. The Council were of the opinion that this was an unnecessary expense and Coun. Dale recommended that the horse now kept by the Municipality for this purpose be shot and a suitable animal purchased, and he thought it would not be difficult to get a horse for its feed until an animal that would fill the requirements was obtained.

A grant of \$175 to the Board of Trade for advertising purposes was made. This was the grant promised some months ago to the Board of Trade, and will be used to pay for descriptive folders which have been enclosed in fruit packages for shipment to the outside markets.

The Council will meet again on Saturday the 23rd to dispose of the by-laws which will be voted upon on the 20th.

DEMONSTRATIONS IN DRESSMAKING.

The Women's Institute dressmaking demonstrations given by Miss Taylor under the auspices of the Women's Institute last Thursday and Friday were well attended and much appreciated. On Thursday morning Miss Taylor illustrated very clearly the proper use of patterns, the way to use the quilter on the sewing-machine to make a straight hem. How to cut out and fit a dress skirt, and gave some very useful information about dressmaking in general.

On Thursday afternoon the lessons were continued before an eager and interested audience of 49. A shirt waist was cut out and fitted, Miss Taylor explaining and showing the best and easiest method of working. During the afternoon Mrs. Townley spoke to the ladies on "Our flag and what it stands for," and spoke of the importance of instilling into the mind of the young definite ideas of loyalty and patriotism, and of the great privileges which are theirs and ours because we were born under the British flag.

On Friday morning Miss Taylor gave further instructions in shirt waist making, laying stress on the importance of details to obtain good results. As requested several ladies had brought misfitting garments which Miss Taylor refitted, pointing out the mistakes and showing how to remedy them.

The afternoon was given up to the demonstration of tailored button-holes and the scientific fitting of a blouse lining. Miss Taylor by her skillful and painstaking effort winning the gratitude and appreciation of all present.

Mrs. Townley resumed her talk to the mothers on the importance of teaching the children the meaning and proper formation of the flag, remarking that sometimes it is incorrectly made and even flown upside down, that it is woman's province to teach the young devotion and loyalty to the flag of the Empire and all that it stands for, that, living as we do so far from

Fruit Growers Should Combine.

Board For Fixing Prices is Necessary.

Closer co-operations between the shipping unions that despatch the fruit of the Okanagan to market is the solution of Mr. Wm. E. Scott, Deputy Minister of Agriculture, when asked his opinion of the problem facing growers in the valley during the past season.

"What is required in the Okanagan," said Mr. Scott, "is that they should have a better organization for marketing their fruit. They have very successful shipping unions, but there is no agreement between them as to the price, and they are at present simply cutting each other's throats. They should appoint a board to meet when required and fix the prices of the different varieties. They would then secure much better results."

"The cost of producing a box of apples," proceeded the Deputy Minister, "is 65 cents, and the market price has ranged from 90 cents to \$1.35, the average being \$1.10—or say a profit of 45 cents. On 500 boxes, therefore, the profit should be \$225."

"It is said that American competition is a serious thing for the industry. The fact is that the B.C. industry has a duty of 13 cents in its favor and an additional three cents for inspection. Freight charges from the competing districts are, on the whole, in favor of B.C. growers as against the American. What is really wanted is an organization of the kind I have specified and conditions in the Okanagan will then speedily improve."

Mr. Scott pointed out that the size of the crop in the Okanagan this year had caused the grower to get a lower price, but the price he did get for apples, pears, cherries and strawberries gave a very fair profit on the capital invested in commercial orchards.

Peach growing is not favored by the government department over which Mr. Scott presides, because the market is fully supplied with American peaches by the time the B.C. varieties are ready to ship. Growers are everywhere being induced to give up growing peaches. Winter apples, Mr. Scott believes to be the best for the growers to attend to.

Mr. Scott speaks enthusiastically of the interest in the Lethbridge Dry-Farming Congress, and emphasizes particularly the great interest shown in the B.C. fruit exhibit, which was the largest of all the provinces. As an advertisement 100 boxes of fruit were given away free.

To make known the resources and advantages of B.C. for settlers, the government is taking advantage of the Chicago Land Show, one of the most important on the American continent. The attendance is usually almost as large as that at the Toronto Exhibition. The agricultural, timber, mineral and fishery resources of B.C. are to be shown. An exhibit of fruit will be taken from Vernon. Exhibits shown at the Lethbridge congress will accompany it. Last year at Chicago the province showed potatoes alone, but this year the department desires a much greater publicity for the products of the country, and have arranged a thoroughly representative exhibition. With the Deputy Minister of Agriculture will go Mr. M. S. Middleton, provincial horticulturist, and Mr. A. H. Shotbolt, of the Department of Agriculture.

"The advantages that will accrue to this province can hardly be over-estimated," said Mr. Scott. "The information that we shall spread as to the resources of the province cannot but secure us more American capital, and also men to settle here. We propose to give cinematograph lectures during the exhibition, depicting the industries and advantages of B.C., as well as the scenery."

At the centre of the throne, there is great danger of them growing up careless and indifferent to the glorious traditions of the past and the great privileges of being British born.

He who can suppress a moment's anger may prevent a day of sorrow.—Punahon.

College Notes.

On Nov. 13th the Amateur Athletic Association of the College held a special meeting at which the captain of the rugby team was authorized to accept the challenge of the Kelowna team for a game at that city on Saturday afternoon Nov. 16th, provided that Kelowna gives a return match at an early date. The team will go to Kelowna on Saturday morning returning by the evening boat, the game to be played on the polo grounds at 2.00 p.m. sharp. At this meeting it was voted unanimously that all players should be chosen among those students who do not smoke during the training season.

At the beginning of the season it was decided by the Faculty that so long as the season was open the practice on the campus should be counted as gymnasium work. At this meeting it was also decided to ask that now the gymnasium should be opened for all male members who might wish to attend, and next week it is expected that classes will be hard at work.

On Sunday night Rev. G. J. Coulter White gave a most interesting and instructive address on "Travels through the Holy Land," to the members of the Faculty, student body and the friends of the College in the College chapel. A very large audience was present and closely followed the address which was thoroughly enjoyed by all. Mr. White was dressed in the native male costume of Palestine and Mrs. White in that of the female. A larger knowledge of the life in the Orient was gained by the clear and helpful talk by Mr. White.

On Monday Rev. F. W. Pattison met a number of the students when it was decided that the professing christian men of the College should hold themselves responsible for the Sunday services to be held at Camp No. 5. It was also concluded to accept the services of the lady pupils for musical aid on alternate Sundays. Mr. H. C. Packham was elected chairman of the committee for the appointment of the leaders of each Sunday.

The students were greatly pleased to welcome back to their halls, Miss K. McLeod, former Lady Principal of the College. Miss McLeod remained from Friday night till Wednesday evening. Her address to the young women was highly instructive and much appreciated.

A number of the classes of each department have recently organized. The 2nd and 4th years of the Academy have taken the initiative in the social life of the school. On Friday night, Nov. 22nd, they are to give a "Topic" reception to the members of the Faculty and the student body. Refreshments will be served and a most enjoyable evening is anticipated. We hope that other classes will follow the example of these two.

VERNON GIRL'S CLUB ORGANIZER HERE.

Miss Bertha J. Campbell of the Bank of Montreal staff, Vernon, visited her many friends of Summerland this week. Miss Campbell is the president of the Vernon Girl's Club, an organization recently formed, more especially for the benefit of those girls who are without homes in the city, though its membership is open to all who may wish to join. The purpose of the club is very similar to that of the Y.W.C.A., the girls meeting every Wednesday night at which time lectures are given by prominent speakers, entertainments held and social hours enjoyed. The success of the movement, which is heartily and liberally supported by all citizens, is largely due to the energy and efficient leadership of Miss Campbell.

We bring this work to the attention of the ladies of our town as it is one necessary in every community and worthy of all consideration and support.

If you have built castles in the air your work need not be lost, that is where they should be. Now put the foundations under them.—Thoreau.

ISSUE No. 7.

SUMMERLAND, B.C., NOV. 8, 1912.

1-Page

WELCOME.

Summerland extends a welcome to the Homeseeker, and when the proposed Municipal improvements are carried out, the new cannery going, and the railroad running through, I think we can look forward to a rapid development of the Town. Homeseekers therefore will make no mistake in buying now for prices are sure to go up, the town will become more thickly populated, and there will be an increased demand for inside property. I have still a few of those Elsey lots, - although I do not expect to have them long, so speak quick if you want one. I can also sell you inside property in larger pieces if you want them, but would recommend the Sub-division lots as a particularly good buy.

W.J. Robinson

Hotel Summerland.

The Billiard Tournament.

The Billiard Tournament is now in full swing, the competition being very keen, and those winning only doing so by a small margin; this is owing to the splendid judgment shown by Mr. C. H. Cordy, who arranges the handicaps. All those engaged in the tournament will kindly note that the first round is to be finished by Tuesday evening, November 19th.

The winners so far are Messrs. M. Beavis, C. H. Cordy, Jas. Coutts, J. Clark, C. Ehinke, G. Macy, G. Corner.

COAL.

I have just received word that the car of coal so long expected will be in in a few days, so order now.

Tungsten Lamps, 75 cents.

Kaleden Comments

Mrs. C. Hatfield left on Monday for a visit to Summerland and Naramata.

The "Woman's Club" met at the home of Mrs. D. Lapsley on Wednesday the 13th.

Mrs. J. C. Findlay is away staying with her daughter, Mrs. Jas. Ritchie of West Summerland.

A son was born to the wife of Mr. Wm. Mitchell on the 5th. We are pleased to report favorably.

Mr. and Mrs. Baker of Penticton paid a visit last Sunday to Mrs. Baker's parents, Mr. and Mrs. T. C. Preston.

The Mision Circle in connection with the Baptist Church met at the home of Mrs. T. C. Preston on Wednesday the 6th.

Mr. M. C. Henderson, who has been on the sick list for the past week, has now recovered, and was able to take the service last Sunday.

The Inspector of Schools, Mr. Danton, paid a visit to our school on the 12th, and has made one or two suggestions for the improvement of the work.

The meeting of the Young People's Christian Endeavor was at the home of Mrs. O. E. Tomlin last Sunday evening, when Miss McLaughlan was the leader.

Mr. and Mrs. Fox, late of Vernon, have taken up their residence at Hotel Kaleden for the winter months. Mr. Fox, who is a civil engineer, is in charge of the work now in operation on Gillespie Ranch.

A mayor of the old school was as cynical as he was corrupt. A schoolmate visited him one day and asked for a job. "Well, Joe," the mayor answered heartily, "the very next job I have to give away you shall get." Joe waited about a year, then he ventured to call on the mayor again. "How about that job?" he said reproachfully. "You told me a year ago that I was to get the very next job you had to give away." The mayor, with a cynical smile, replied: "But I've had none to give away, Joe. I've sold them all!"

credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$55,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinafter recited.

2. It shall be lawful for the Reeve to cause any number of Debentures to be made, for the sum of not less than \$1,000.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of \$55,000.00, and all such Debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said Debentures shall bear date the First day of December, 1912, and shall be made payable in thirty years from the date hereinafter named for this By-Law to take effect, at the Agency of the Bank of Montreal, in the said Municipality of Summerland.

4. The said Debentures shall have Coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the First days of June and December in each and every year and the signatures to such Coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of \$2,750.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality in addition to all other rates, for the payment of the interest on the said Debentures.

7. The sum of \$980.65 shall be raised and levied annually by a rate on all the rateable property in the said Municipality in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon and no re-issue of any Debenture or Debentures shall be made in consequence of such repurchase.

9. This By-Law shall, before the final passage thereof, receive the assent of the Electors of the said District Municipality of Summerland in the manner provided for by the "Municipal Act, 1906," and amending Acts.

10. This By-Law shall come into force and take effect on the First day of December, 1912.

11. This By-Law may be cited for all purposes as the "Irrigation Loan By-Law, 1912."

Passed by the Municipal Council this Fifth day of November, 1912.

Received the assent of the Electors of the said District Municipality of Summerland the day of November, 1912.

Reconsidered and finally passed by the Municipal Council the day of November, 1912.

Reeve.
Clerk.

Take notice that the above is a true copy of the proposed By-Law, upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Wednesday, November 20th, 1912, between the hours of 9 a.m. and 7 p.m.

J. L. Logie, Municipal Clerk.

District Municipality of Summerland

BY-LAW No. 41.

A By-Law to raise \$55,000.00, to enlarge and improve the Domestic Water System and plant of the District Municipality of Summerland, B.C.

WHEREAS it is deemed advisable to repair, enlarge, improve and extend the Domestic Water System and plant of the said Municipality of Summerland, and WHEREAS it is necessary to raise for the said purpose, by way of loan, upon the credit of the said Municipality of Summerland, the sum of \$55,000.00, payable on the first day of December, A.D. 1912, bearing interest in the meantime payable half yearly at the rate of five per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$3,730.65 by rate in each and every year.

AND WHEREAS the whole rateable property of the said Municipality of Summerland, according to the last revised assessment roll is \$2,690,550.00.

AND WHEREAS the total amount of debenture debt of the said said Municipality of Summerland is \$290,000.00, of which none of the principal or interest is in arrears.

Now, therefore, the Reeve and Council of the said Municipality of Summerland, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said Municipality of Summerland to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$55,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinafter recited.

2. It shall be lawful for the Reeve to cause any number of debentures to be made for the sum of not less than \$1,000.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of \$55,000.00, and all such debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said debentures shall bear date the First day of December, 1912, and shall be made payable in thirty years from the date hereinafter named for this By-Law to take effect, at the Agency of the Bank of Montreal, in the said Municipality of Summerland.

4. The said Debentures shall have coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the first days of June and December in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of \$2,750.00 shall be raised and levied annually by a rate on all the rateable property in the Municipality in addition to all other rates, for the payment of the interest on the said debentures.

7. The sum of \$980.65 shall be raised and levied annually by a rate on all the rateable property in the said Municipality in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon and no re-issue of any Debentures shall be made in consequence of such repurchase.

9. This By-Law shall, before the final passage thereof, receive the assent of the electors of the said District Municipality of Summerland in the manner provided by the "Municipal Act, 1906," and amending Acts.

10. This By-Law shall come into force and take effect on the First day of December, A.D. 1912.

11. This By-Law may be cited for all purposes as the "Domestic Water Improvement Loan By-Law, 1912."

Passed by the Municipal Council this Fifth day of November, 1912.

Received the assent of the Electors of the said District Municipality of Summerland the day of November, 1912.

Reconsidered and finally passed by the Municipal Council the day of November, 1912.

Reeve.
Clerk.

Take notice that the above is a true copy of the proposed By-Law upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four and at the Municipal Offices, West Summerland, for Wards Two and Three, on Wednesday, November 20th, 1912, between the hours of 9 a.m. and 7 p.m.

District Municipality of Summerland

BY-LAW No. 42.

A By-Law to raise \$55,000.00 to enlarge, improve and extend the Irrigation System and Plant of the District Municipality of Summerland, B.C.

WHEREAS it is deemed advisable to repair, enlarge, extend and improve the irrigation system and plant of the said Municipality of Summerland,

AND WHEREAS it is necessary for the said purposes to raise, by way of loan, upon the credit of the said Municipality of Summerland, the sum of \$55,000.00, payable on the first day of December, A.D. 1912, bearing interest in the meantime, payable half yearly at the rate of five per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of \$3,730.65 by rate in each and every year.

AND WHEREAS the whole rateable property of the said Municipality of Summerland, according to the last revised assessment roll, is \$2,690,550.00.

AND WHEREAS the total amount of debenture debt of the said said Municipality of Summerland is \$290,000.00, of which none of the principal or interest is in arrears.

NOW, THEREFORE, the Reeve and Council of the said Municipality of Summerland, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said Municipality of Summerland to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the

District Municipality of Summerland

BY-LAW No. 43.

A By-Law to raise \$85,000.00 to enlarge and improve the Electric Light System and Plant of the District Municipality of Summerland.

WHEREAS it is deemed advisable to repair, enlarge, extend and improve the Electric Light System and Plant of the said Municipality of Summerland,

AND WHEREAS it is necessary for the said purposes to raise by way of loan upon the credit of the said Municipality of Summerland the sum of \$85,000.00, payable on the First day of December, A.D. 1912, bearing interest in the meantime payable half yearly at the rate of five per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of \$2,925.37 by rate in each and every year,

AND WHEREAS the whole rateable property of the said Municipality of Summerland, according to the last revised assessment roll is \$2,690,550.00,

AND WHEREAS the total amount of Debenture debt of the said said Municipality of Summerland is \$290,000.00, of which none of the principal or interest is in arrears,

NOW, THEREFORE, the Reeve and Council of the said Municipality of Summerland, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said Municipality of Summerland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$85,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinafter recited.

2. It shall be lawful for the Reeve to cause any number of Debentures to be made for the sum of not less than \$1,000.00 each, bearing interest at the rate of five per cent. per annum, not exceeding in the whole the sum of \$85,000.00, and all such Debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said Debentures shall bear date the First day of December, 1912, and shall be made payable in twenty years from the date hereinafter named for this By-Law to take effect, at the Agency of the Bank of Montreal, in the said Municipality of Summerland.

4. The said Debentures shall have Coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the First days of June and December in each and every year, and the signatures to such Coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of \$1,750.00 shall be raised and levied annually by a rate on all the rateable property in the said Municipality in addition to all other rates, for the payment of the interest on the said Debentures.

7. The sum of \$1,175.37 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all other rates, for the payment of the debt hereby created, when due.

8. It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon and no re-issue of any Debenture or Debentures shall be made in consequence of such repurchase.

9. This By-Law shall, before the final passage thereof, receive the assent of the Electors of the said District Municipality of Summerland in the manner provided by the "Municipal Act, 1906," and amending Acts.

10. This By-Law shall come into force and take effect on the First day of December, 1912.

11. This By-Law may be cited for all purposes as the "Electric Light Loan By-Law, 1912."

Passed by the Municipal Council this Fifth day of November, 1912.

Received the assent of the Electors of the said District Municipality of Summerland the day of November, 1912.

Reconsidered and finally passed by the Municipal Council, the day of November, 1912.

No Money Required.

"It takes money to run a newspaper."—Ex.
What an exaggeration. What a whooper. It doesn't take any money to run a newspaper. It can be run without money. It is not a business venture. It is a charitable institution, a begging concern, a highway robber. The newspaper is a child of the air, a creature of a dream. It can go on and on and on, when any other concern would be in the hands of the receiver and wound up with cobwebs in the windows.

It takes wind to run a newspaper; it takes gall to run a newspaper. It takes scintillating, acrobatic imagination and half a dozen white shirts and a railroad pass to run a newspaper. But money—whoever needed money in conducting a newspaper? Kind words are the medium of exchange that do the business for the editor—kind words and church social tickets. When you see an editor with money, watch him. He'll be paying his bills and disgracing the profession. Never give money to an editor. Make him trade it out. He likes a swap.

Then when you die, after you have stood around for years and sneered at the editor and his little Jim Crow paper, be sure that you have your wife send in for three extra copies by one of your weeping children, and when she reads the generous and touching notice about you, forewarn her to neglect to send fifteen cents to the editor. It would overwhelm him. Money is a corrupting thing. The editor knows it, and what he wants is your heartfelt thanks, then he can thank the printers and they can thank the grocers. Give your job work to a travelling man, and then ask for half rates for church notices. Get your lodge letter heads and stationery printed out of town and then flood the editor with beautiful thoughts in resolutions of respect and cards of thanks. They make such spicy reading, and you are so proud of your local paper when you pick it up filled with these glowing mortuary articles.

But money—scorn the filthy thing. Don't let the pure innocent editor know anything about it. Keep that for sordid trades people who charge for their wares. The editor gives his bounty away. The Lord loves a cheerful giver. He takes care of the editor. Don't worry about the editor. He has a charter from the province to act as a door mat for the community. He will get out the paper somehow; and stand up for the town and whoop it up for you when you run for office. Don't worry about the editor—he'll get on. The Lord knows how—but somehow.

A GOOD NUMBER.

The Fruit Magazine, Scientific Farmer and Canadian Citizen for November is full of useful information, as usual. A new variety of apple, called "Meldrum's Beauty," is shown in a beautiful colored frontispiece, the Dry-Farming Congress held at Lethbridge in October is given considerable attention, and other special articles, aside from the editorial columns are: "Stock and Dairy," "Egg Laying Contest," "Useful Household Suggestions," and many others.

"Twas not in the month of March, but, all the same, 'twas gusty and dusty—uncomfortably gusty and dusty, in fact.

Particles of the earth in the form of grit filled one's eyes, nose and mouth, and scraps of Tory newspapers chased shreds of Liberal publications with horrid gloe, and with Labor leaflets at their heels.

Mrs. Frigid, after much struggling against the bluster, at length reached her destination—the grocer's shop.

"Yes, ma'am?" beamed Sandem, hastening forward, and pawing the counter with eager anticipation.

"A pound of tea—and quickly!" came the tart retort.

"Yes'm. Certainly'm. Very dusty to-day, isn't it?"

Sadly Mrs. Frigid turned her eyes from the scales.

"It is always!" she retorted bitterly.

And the wind shrieked its applause.

"Why was it you never married again, Aunt Sallie?" inquired Mrs. McClano of an old colored woman in West Virginia.

"Dhood, Miss Ellie," replied the old woman, earnestly, "dat dand nigger's wuth moah to me dan a live one. I gits a pension."

Naramata Notes.

Mrs. F. L. Roe of the Lakeside has kindly consented to act as agent for any laundry being sent to Penticton, now that our own is out of commission.

T. H. Boothe, one of our local real estate and insurance men, has been appointed to represent the Manufacturers' Life, and entered upon his duties this week.

Mr. J. S. Gillespie goes out shortly on an extended eastern trip in the interests of the Okanagan Trust Co. His ultimate direction is to London and Liverpool. During his absence his duties here as superintendent are being taken up by Mr. Campbell Robinson.

The Fourth of December people have appealed to the muses for a line of inspiration for their proposed social gathering, and instead of a line the poet has sent them four stanzas. Here they are, you'll read them I'm sure:

Dear friends, pray, listen to the call
We're sending to our neighbors,
For assistance from you all
Success will crown our labors.

December fourth to our Bazaar
Please come, now do not fail us;
You all can help, though distant far,
A kerchief kindly mail us.

To be without a hankerchief
Is really quite distressing,
So forward one in quick relief,
And you'll receive our blessing.

But there are other things to send
For supper and for selling;
Just help a little, please, dear friend,
Much gratitude compelling.

Naramata October School Report.

The following shows the relative standing of the pupils in the different classes for the month of October in our local school:

Senior IV.—Total, 1200.

Lois Wells, 882; Joe Morsch, 859; Stewart Allen, 856; Violet Mitchell, 845; Adelaide Hayward, 814; Irene McCulloch, 807; Vara Salting, 712; Arthur Stiff, 696; Edmund Boothe, 592; Harold Allen, 489.

Junior IV.—Total 1100.

Catherine Hancock, 753; Guy Ireland, 727; Stanley Stiff, 726; Marie Hancock, 723; Edith Roe, 714; Willie Mitchell, 602; Edward Morsch, 602; Lucy Hargreaves, 545; Arnold Stiff, 494; Dora Williams, 389.

II. Reader—Total, 900.

Hope Steele, 635; Irene Brodie, 508; Laurie Pushman, 496; Marguerite Salting, 508; Avar McCulloch, 439; Wesley Rounds, 356.

I. Reader—Total, 900.

Alice Myers, 731; Ina Ireland, 686; Ralph Boothe, 548; Clifton Roe, 59; Margaret Allen, 50; Gordon Williams, 388.

II. Primer—Total, 700.

Donald Salting, 478; Willie Hornsey, 470; Margaret Mitchell, 468.

I. Primer.

1. Malcolm Walters; 2. Evelyn McCulloch; 3. Frank Blair; 4. Florence Stiff; 5. Jack Hornsey; 6. Stewart Pushman; 7. Harry Roe.

WEEDS POISON CROPS.

It has been generally supposed that the principal effect upon the soil, of weeds in the growing crops, was that they took away moisture and plant food that should go to the crops. Recent investigation at Cornell University has demonstrated that they have a deleterious effect upon crops in that they poison the plants by the intermingling of their roots. Corn and weeds were allowed to grow side by side in similar soil but with partitions placed so that the roots were kept apart. The corn and weed grew normally. In another box the corn and weeds were placed so that the roots could intermingle, with the result that the corn was stunted and its growth materially retarded. It is a case of incompatibility of association.

During a discussion of the fitness of things in general, some one asked, "if a young man takes his best girl to the grand opera, spends eight dollars on a supper after the performance, and then takes her home in a taxicab, should he kiss her good-night?" An old bachelor who was present growled, "I don't think she ought to expect it. Seems to me he has done enough for her."

SHILOH
quickly stops coughs, cures colds, and heals the throat and lungs. 11 25 cents.

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

Borden Cabinet for Readers of the "News-Advertiser."

EVERYONE wants a picture of the members of the Government of Canada. The "News-Advertiser" has had prepared for the exclusive use of its readers in this province a large engraved plate of Rt. Hon. R. L. Borden and his Ministers.

The group is redrawn from the latest photographs of the eighteen Ministers, who compose the advisers of His Royal Highness the Governor-General. It is printed in sepia on heavy board ready for framing, and will be of the greatest educational value in the home, the school, and the library.

The Prime Minister, HON. R. L. BORDEN, occupies a central position, and is shown standing at the head of the Council Table. Seated about him are his colleagues.

Dimly in the background the features of Sir John Macdonald look down on his successors.

How to Obtain the Picture
This fine engraving, of which a limited number have been prepared, will be sent

FREE OF CHARGE
to new subscribers, or to old subscribers, who renew their subscriptions for one year (\$3.00).

For out of town subscribers the picture will be tubed and postage prepaid. Non-subscribers may obtain copies on payment of 50 cents. If mailed, ten cents extra for tubing and postage. Applications and remittances (cash must accompany order) must be made to

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 15, 1912.

THE MUNICIPAL CLAUSES ACT.

THE executive of the B.C. Union of Municipalities is this week meeting the Municipal Government Commission, and is sure to make some recommendations for revision of the Municipalities Act that will mean much to this and every other Municipality in the province.

A request for a clause clearly interpreting the Elections Act will doubtless be made by the executive. How necessary this is was clearly shown at the recent sessions of the Union of Municipalities when it was found that a number of interpretations had been put on the Act, with the result that its application is not uniform. The complexity of the Act was recently shown by Mayor Lee of New Westminster, president of the executive when he stated "that he had been informed by the deputy attorney general that all persons having a registered interest of \$100 in any property were entitled to vote in municipal elections, although not on money by-laws. Solicitor McDiarmid pointed out that the Act could be construed without difficulty to read that these persons could not vote on money by-laws as 'owners' under the meaning of the Elections Act. He asked that something be suggested by the executive to do away with the confusion with regard to local improvements, which were paid for by all property holders affected, whether owners simply by agreement of sale or by deed, whereas, under the opinion of the official mentioned, only registered deed holders could vote on these by-laws, and frequently they had no real interest in the local improvements, having disposed of the property.

"It was thought that the wording in the Act providing for the waiving of his right to vote by the registered deedholder so as to allow others interested in the property to vote, was such that by this Act the deedholder cut himself from all chance to vote even on other property. The executive expressed the opinion that the section should be framed so that the deedholder simply waived his right to vote on his interest in any one or any number of individual properties. Ald. Enright of Vancouver contended that when the deedholder sold he escaped the payment of further taxes and therefore had no further voting rights.

It was concluded to ask the commission for action so as to give to all persons holding one hundred dollar's interest in any property the right to vote in elections and for by-laws." This is along the line of the interpretation of the deputy attorney general, but it is claimed that the present Act does not clearly provide for it.

Of vital importance to Summerland and our sister towns of the Okanagan is the executive's decision to recommend that municipalities be given power to own and operate telephone systems, even in adjacent districts, provided the consent of the adjacent district affected, or the Provincial Government as the case might be, was obtained. The reference to "municipalities" applies to all districts governed under the Municipal Clauses Act, whether cities or not.

IN addition to the naval policy, which will probably be presented before Christmas, parliament will at the coming session be called upon to deal with a number of important federal matters. The providing of additional harbor facilities at the national ports; the creation of a tariff commission, the revision of the Banking Act; the provision of a fund for building of national highways and better terms for British Columbia are some of the matters to be considered.

Our Philosopher

GROWING OLD.

Do not be fretful because you have come to spectacles. While glasses look premature on a young man's nose, they are an adornment to an octogenarian's face. Besides that, when your eyesight is poor you miss seeing a great many things—unpleasant things—that the younger are obliged to look at. Do not be worried because your ear is becoming dull. In that way you can escape being bored with many of the things that are said, if the gates of sound keep out much of the discord. If the hair is getting thin, it takes less time to comb it, and then it is not all the time falling down over your eyes; or if it be getting white, we think that color is as respectable as any other—that is the color of the snow and the blossoms and the clouds and all angelic habiliments. Do not worry because the time comes on when you must go into the next world. It is only a better room with brighter pictures, finer society and sweeter music. Robert McChoyne and John Know and Harriet Newel, Mrs. Hemans, John Milton and Martin Luther will be good enough company for the most of us. The corn stalk standing in the field today, will not sigh dimly when the huskers leap over the fence, and throwing their arms around the stack, swing it to the ground; it is only to take the golden ear from the husk. Death for the aged Christian is only husking time, and then the load goes in from the frosts into the garner. Our congratulations to those who are nearly done with the nuttances of this world. Give your staff to your little grandson to ride horse on. You are going to be young again and you will have no need for crutches. May the clouds around the setting sun be golden and such as lead the "weather wise" to prophesy a clear morning.

Experimental Farms.

In the past few years such progress has been made in the settlement and cultivation of the Okanagan Valley and of the Similkameen country from the Boundary district westward that the whole region has deservedly attracted the attention of the departmental authorities at Ottawa. It is in some respects the most desirable part of British Columbia from the husbandman's point of view; its fertile soil and its salubrious climate unite to make it not only a most profitable field in which to engage in the cultivation of the land but an especially pleasing locality in which to reside.

From the standpoint of the horticulturist it is particularly alluring. Within its boundaries all the fruits for which Eastern Canada and the States of Washington and Oregon have become justly celebrated are grown in their highest excellence. In competition with those from other parts of the continent the fruits of this district have been awarded the superiority both in the United States and in Great Britain and it is unquestionable that in the future it will become one of the greatest fruit growing districts in America. It will always command an unlimited market too for its production—the market of the Canadian prairies and that of the Coast district, now being settled so rapidly. It is not surprising, then, that the Department of Agriculture at Ottawa should have decided, as Mr. W. C. Macoun, the Dominion Horticulturist, announces it has decided, to establish an experimental farm for the benefit of that region.

No doubt this decision is due in no small degree to the personal knowledge possessed by the Minister of Agriculture, Hon. Martin Burrell, of the possibilities of the district, and of the encouragement it should be given, if it is to enjoy the fullest opportunity for speedy development. Mr. Burrell, who is himself a practical horticulturist, is thoroughly acquainted with the whole region, from having spent some years of residence in the Boundary country, where he was engaged in fruit growing.

Of the advantage to the district to be secured from the establishment of an experimental farm there can be no doubt. The Canadian experimental farms have been and are conducted on an excellent and practical system. They have proved an educative influence wherever they have existed and have done much for agriculture in the Dominion. The men who have successively had the chief direction of them have been men of large capacity and sound practical experience, who have employed them in the widest possible way for the instruction and advantage of the farming community. It is always, therefore, a matter of congratulation with any district when one of

these institutions is placed in its midst. British Columbia is fortunate, then, at the present time, in seeing at the head of the Agricultural Department at Ottawa a man who not only understands the needs of the industry but appreciates the possibilities of the country and realizes what its needs are for the proper development of its agricultural resources.—Vancouver Sun.

VANCOUVER MAN'S LONG WALK.

A. S. Brown, a native of Scotland, and now a resident of Vancouver, arrived in Winnipeg early on the morning of October 22 on his walking tour across the Dominion. He left Vancouver August 26, and to win his wager of \$500 that he would traverse the Dominion on foot, and in addition to paying his expenses, earn \$500, has ten weeks in which to complete his trip.

Mr. Brown is well known in Summerland, having been connected with Mr. McCarthy's office of the K.V.R., during the months of June and July last.

BARRELS OF APPLES SPOILED.

Ingersoll, Ont., Nov. 11.—That hundreds of barrels of apples throughout Oxford county will go to waste owing to so much important work on the part of the farmers is the opinion expressed here. The price of the fruit remains around the dollar mark, but the farmers by no means exert themselves to pick the entire crop, and it is probable that large quantities of choice apples will never be removed from the trees.

UNANIMOUS VERDICT.

Newspaper publishers and citizens generally throughout the Dominion are unanimous in their opinion that the picture entitled "Mother's Treasures," given with The Family Herald and Weekly Star of Montreal, this season, is a most delightful and beautiful subject. Here is the opinion of one publisher: "Mother's Treasures" is a marvel of beauty. The subject is one that will have a tendency to strengthen home ties. We, in the same business, wonder how you can afford to give such value in pictures besides the vast amount of good things in The Family Herald and Weekly Star." Signed, E. W. Richards, The Mirror, Millbrook. No home in Canada should be without this beautiful picture. One dollar pays a full year's subscription to The Family Herald and Weekly Star, including the picture, which is ready for framing, size 23 by 29 inches. It is a big dollar's worth, indeed.

Hostess—Mr. Mann, you eat roast beef rare, do you not? Guest—Yes—rare and rarely.

Local News Items. Local News Items.

Make your selections of Xmas Greetings while our line is complete. Review Office.

Mrs Ruth Johnston of Vernon was visiting this week at the home of Mrs. A. Harkness, West Summerland.

The regular monthly meeting of the Women's Institute, which is usually held on the third Friday, has this month been cancelled.

Miss Harvey of West Summerland has accepted the position of lady clerk in the West Summerland branch of the Supply Co.'s store.

Look! W. J. Robinson's Greenhouse, headquarters for Chrysanthemums. All shades. Choice flowers. ad

Mr. G. H. E. Hudson, the well-known photographer of Kelowna, was in town on Wednesday taking views of the principal scenes of the district.

The Ladies Hospital Auxiliary monthly meeting will be held on Tuesday, November 19th, at the home of Mrs. A. L. Moreland, at three o'clock.

For Sale.—Coal oil stove; cooking utensils; wash boiler, tub and washboard; one rug, 9 by 12; one toilet set; and other household articles. Mrs. T. C. Stinson.

Mrs. Dr. Harrington is the guest of Miss Colwell, Principal of the Ladies College, until such time as the new cottage, now in course of construction, is complete.

Many of the sub-contractors of the Clarke & Thomson camp have finished their portions of grading and the men are leaving the district or entering the other camps.

Mrs. Nickelson of North Vancouver arrived in town on Wednesday night and will remain some weeks, the guest of her sisters, the Misses Spencer of West Summerland.

Miss Margaret White, we are glad to report, has so well recovered from her recent operation for appendicitis as to enter Dr. Ernest Hall's new hospital at 1090 Victoria Drive, Vancouver, as a probation nurse.

Mr. Kenneth Kennard, who has been spending some weeks at the home of the Misses Spencer, West Summerland, has been appointed time-keeper at K.V.R. camp No. 18, and left on Monday last to take up his position there.

Owing to the continued rains and the extra amount of teaming to and from the camps, the roads in the outlying portions of the district have become all but impassable. Even on level roads in some of the valleys it is necessary to double up teams.

Mr. Roy Phinney this week severs his connection with the Summerland Supply Co., and will be associated with the Schaet Bros., construction contractors, on the Naramata section of the K.V.R. West Summerland will greatly miss the genial smile of Roy.

Mrs. K. S. Hogg entertained a number of young people last night at a dinner in honor of Mr. Gordon Dinning. Mr. Dinning, who has been connected with the local office of the Canadian Bank of Commerce for the past year, has been transferred to the Victoria branch of the same office.

The meetings held by Miss Kathryn McLeod during her visit to Summerland, and under the auspices of the W.C.T.U., were well attended and highly interesting. On Saturday the College ladies enjoyed a very instructive and profitable address, and on Sunday afternoon a large audience greeted Miss McLeod in the Presbyterian Church at West Summerland. On Monday afternoon an address was delivered in the school house to the young ladies of the town, and on Tuesday afternoon, in the same rooms, Miss McLeod spoke to the younger girls of school age. All addresses were greatly appreciated by the ladies of the town.

Miss Blizzard of Penticton is visiting Mrs. J. Hood.

Mr. F. D. Cooper was a passenger to Kelowna this morning.

Dr. Smith left by this morning's boat for Peachland.

Big line of Xmas Greetings now on hand. Order early. Review Office.

Mrs. Lloyd-Jones of Kelowna is visiting at the home of her parents, Mr. and Mrs. James Gartrell of Trout Creek.

Dr. R. C. Lipsett left for the Coast this morning on a short business trip. He expects to return about a week hence.

Capt. Estabrooke of the steamer Okanagan is absent this week on his holidays. Captain Weeks of the Aberdeen has taken his position.

A potato measuring 14 inches in length and of good proportions was recently brought to the Review Office by Mr. H. C. Mellor, and may be seen in the office window.

Mr. S. R. MacEwen, Secy.-Treas. of the Okanagan Realty Co. of Summerland, leaves on Monday for Toronto, Ontario. Mr. MacEwen expects to be in the east most of the coming winter.

Mrs. T. C. Stinson leaves the latter part of this month for the Coast. Mr. Stinson is now engaged in business in Burnaby where it is understood he is meeting with success.

A meeting of all interested in basketball will be held in the parlor of the Men's Club next Tuesday night at 8 o'clock for the purpose of organizing for the winter. A large attendance is requested.

Mr. H. D. Suckling has returned from a six weeks' vacation and has resumed his duties as accountant of the Bank of Montreal. Mr. Suckling visited Montreal, Ottawa and other eastern cities.

There is nothing in a picture which appeals so much as "the human interest." There can be no Xmas gift so attractive to your friends as one telling them something about yourself. There's a photographer in your town.

Winter is coming! At least so say the birds of the air. Two flocks of wild geese have this week gone south, one on Tuesday evening and another early this morning. Yet autumn is still with us, and we know of winter only through the papers of the East.

A rather curious freak in the vegetable line is on display in the Review Office window. A carrot of unusually large proportions is completely encircled by another not much smaller, the two being so wound together as to be inseparable without breaking.

A meeting under the auspices of the Board of Trade to be held on Monday evening, Nov. 18, at eight o'clock, in the Men's Club, will be addressed by Mr. Thos. Cunningham, subject, "Better Protection for B.C. Fruit Industry." This is a very important subject, and every fruit grower in Summerland is invited to be present.

Rev. H. E. Gilbert of Manitoba, well-known in Methodist Church circles, passed away last Monday evening. Mr. Gilbert had been in failing health for some time and recently came here with his wife hoping the change would give him restored health. The remains were taken back to Manitoba by the bereaved wife, Mrs. F. W. Hardy accompanied Mrs. Gilbert as far as Sicamous Junction.

At a recent evening service in the Summerland Baptist Church Miss Anna Hayes sang "The Penitent" in a manner that made a deep impression. She will by request repeat the song next Sunday evening. Rev. F. W. Pattison, the pastor, will, on the same evening, give the second sermon of his series of sermons on "Home, Sweet, Home." Sunday's topic will be "Out in the Hard World."

HOT APPLE PIES IN GALORE.
Spokane, Nov. 12.—The spectacle of a continuous stream of hot apple pies coming by means of an endless chain arrangement, out of a huge oven at the rate of 2,500 an hour, and then given away to spectators has been, decided on as a feature of this week's National Apple Show now being held here.

The Three Guardsmen

The Gurney-Oxford Range is fitted with three devices which constantly and uncompromisingly stand on guard to see that the fire is always under perfect control—that the coal bills are sheared down to the lowest figure—that the oven is always evenly and properly heated—that no clinkers obstruct the free burning and proper ventilation of the fire.

The Gurney-Economizer, fitted on the smoke pipe, is the only draft you have to attend to; a small lever put up or down entirely regulates the fire. It saves one ton of coal in six. It carries little heat up the chimney—only the smoke. It feeds the gases which burn to the fire-box, and it cannot be had on any other range than the Gurney-Oxford.

The Gurney-Oxford oven is surrounded by flues that carry an equal amount of heat to all sides. This almost guarantees results in cooking by providing an oven evenly heated, without cold corners or variation.

The Gurney-Oxford Grate is the result of exhaustive tests to find the proper carrying surface for the fire. The fire has abundant air to breathe, and the less amount of coal burned is all consumed. So then, the housewife who has the "Three Guardsmen" watching over her range, will experience security and satisfaction in cooking that is not provided by any other range.

Borton Plumbing & Heating Co.,
SUMMERLAND, B.C.

Peachland Notes.

Dr. and Mrs. A. C. Nash and little daughter have gone to Lumbly for the winter.

The offerings at the Methodist Anniversary services amounted to \$500 which will be applied to the church debt.

Mr. Chas. Somerville returned on Monday from Manitoba where he had been looking after his farms and threshing.

The Reading Room will be open for the exchange of books on Wednesday and Saturday evenings from 6.45 to 8.15 p.m.

The following letter, written by W. M. Dryden, Clerk of the Municipality of Peachland, in reply to questions written him by Dr. Eggleston of Portland, Ont., will prove interesting reading to many:

Peachland, B.C.,
Sept. 25th, 1912.
Dr. W. G. Eggleston,
Portland, Ont.

Dear Sir:—In reply to your favor of September 21st I beg to say that I cannot give you all the information desired, but will do my best to enlighten you as much as possible in regard to Peachland.

This municipality is one of the smallest (if not the smallest) in British Columbia, but as far as taxation is concerned, what applies to a small municipality applies to a large as well.

The actual number of resident land-owners I would estimate at 150. We have never had anything but a single tax since the municipality was incorporated, and the system gives general satisfaction.

Taxpayers seem to be more satisfied under this system than that adopted by the Provincial Government, of taxing improvements, previous to this place being incorporated. The change was made by the first Council and has been continued since, and I don't think any resident landowner would ever support a change to the old system.

I most certainly think that exemption of improvements from tax most beneficial to farmers, fruit growers, and other home owners.

My reason for so thinking is that it gives encouragement and incentive to go ahead, and both improve and beautify the holdings without being taxed for their labors in that direction. I would much rather put a higher rate of tax on Municipal land to reach the speculator, who, like the drone, waits until the bee makes the honey and then turn fat at the expense of the bee.

Trusting this information will answer your purpose, I am, sir,
yours respectfully,
W. M. Dryden, C.M.C.

Fruit Packing Schools

The Department of Agriculture in accordance with its policy of the last three years will continue the fruit packing schools during the coming winter. The Department hopes this year to place schools in every fruit district of the province where a sufficient number of pupils can be secured.

The expenses of the schools will be apportioned as heretofore, the Department bearing nearly all the expense.

There must be a minimum of twelve pupils—not more than fifteen—for each course, for which a fee of \$8 will be charged. There will be twelve lessons, two each day of two and a half hours a lesson. Where twenty-four pupils, and not more than thirty, wish to take the course, a second course will be provided.

Pupils will learn in addition to packing a good deal about the methods and equipment used by the most progressive associations, and will learn a good deal of the interpretation of the Fruit Marks Act. Pupils who gain a score of 75 per cent for efficiency in the packing school, and who put up a creditable pack for the Department prizes the following year, may secure a diploma certifying same from the Department.

The results in the improvements of the fruit packing methods throughout the province as a result of these schools have been very gratifying. At present over 80 per cent of the fruit packed commercially and for fruit exhibits in this province is packed by pupils of the Government Packing Schools.

The boy who has the freedom of the street after nightfall without business or permission, is cultivating a dangerous habit. Any place where a boy has no business is no place for him, be it on the street, in stores or livery barn. A boy that is all right will prefer his home, friends, books or newspapers to the class found on the street. Business men of all kinds look upon the boy loafers as the "dead beats" of the future. Boys, if you will adopt the right habits while boys, you will, in manhood, be useful to the world, and will be a source of comfort to your parents and friends, and then you will have the satisfaction of looking back upon a well spent past.

HIS TRIBUTE.

General Funston tells a story of a soldier in the Philippines who was nursed through the rice fever. On his recovery he thanked his nurse like this:
"Thank you very much, ma'am, for yer kindness. I shan't never forget it. If ever there was a fallen angel you're one."

You may be paid \$50 in Cash for improving your walk like this

108 Canadian farmers will receive cash prizes (twelve in each Province) in our big

1912 FARMERS' PRIZE CONTEST

WE held a contest last year in which 36 prizes were offered. This year there will be three times as many prizes (108) and therefore three times as many chances for you to win one of them. You do not have to use a large quantity of cement to win a prize. Many of last year's prize-winners used comparatively little cement.

THE contest is divided into three classes and in only one of these (Class "A") does the amount of cement used count in deciding prize winners. Class "B" is for doing the best concrete work (the size makes no difference). Class "C" is for sending in the best and clearest description of how any piece of concrete work was done.

THERE will be four prizes (first \$50; second, \$25; third, \$15; fourth, \$10) in each class in each Province. Thus you have only to compete with other farmers in your own Province, and not with those in all parts of Canada. This gives you the best possible chance to win a \$50 prize.

IT COSTS NOTHING TO ENTER—There are absolutely no "strings" to this offer. There is no entry fee or red tape to bother with. You cannot lose, because the improvements you make of concrete in competing for the prize will be more than worth their cost. We have a book, "What the Farmer Can Do With Concrete," that will give you all the information about the use of concrete you can need. It will be sent to you free when you take us for complete particulars of the Prize Contest. Ask for particulars to-day. Just say "Send me, free, your book and full particulars of the 1912 Prize Contest," on a post card and mail it to-day. Address: Publicity Manager,

Canada Cement Company Limited, 503 Herald Bldg., Montreal

Winter Eggs.

By W. W. STORMS in the Fruit Magazine.

The laying hen is usually searching for what she needs to make eggs. She takes what she wants in the way of food and lets the rest alone.

If you compel her to take what she doesn't want or take nothing, why, of course, she will take what you provide rather than starve to death, but she won't lay as many eggs.

Therefore, we like the hopper method of feeding. We always provide a self-feeder hung on the wall just high enough so the hens eat what they want without wasting it on the floor.

A better method is to provide a platform 16 inches or so above the floor, so the fowl can jump up and down for the feed and water they desire, and then go back to the litter to work for the grain that is scattered in it.

In one apartment of the self-feeder is grit; another, charcoal; another, oyster shells; another, equal parts of finely cracked corn, wheat, barley and oats; in another, beefscraps; in still another is placed dry bran.

You might think that the hens will eat too much, but they won't; they will eat only what they want.

When you find a hen that lives off the feeder and gets fat and lazy, she is usually too lazy to work and too lazy to lay eggs, and had better be sent to the butcher.

Scatter the whole grain, such as wheat, barley and corn, in the litter. Feed them whole corn at night, especially on cool nights. They need a cropful to keep up the bodily heat over night.

Give them table scraps and green food at noon. For green food use cabbage, mangel-wurzels, sugar beets, chopped apples, etc. Onions are also relished, but they are liable to flavor the eggs.

Noon is also a good time to feed green cut bone. Give them a little every day, and only what they will eat up clean.

It is a rich food, a great egg-producer, and a little will go a long way. If you notice a looseness of the bowels after feeding it cut down the amount.

Keep them always eager and their appetites sharp for fresh meat and cut bone, and you will get all the eggs you can expect.

Once in a while feed a mash in the morning composed of bran, middlings, beef scraps, etc., mixed with a little milk or water. It must not be wet and sloppy, but dry and crumbly.

Feed them only what they will eat up quickly and cleanly. They shouldn't be allowed to trample on any that is left over, or to leave any to become sour and foul.

Fowls should have plenty of fresh water, and never warm it. They like a cool fresh drink, the same as we do.

Provide a dust-bath, so they may help to rid themselves of lice. Use plenty of liquid louse-killer, and keep the whole pen scrupulously clean.

If a variety of food is given there is no need of fear about plenty of eggs. Do not feed whole grain in hoppers. Only the ground food, beef scraps and bran are fed there.

If these simple suggestions are carried out, consistent with your local conditions, the hens will do the rest.

Two dozen eggs every day will be just like finding \$1.20 in change in the nest, according to prices for fresh eggs in the local market.

CHURCH NOTICES.

Baptist Church—At West Summerland every Sunday at 10.30 a. m. Sunday School at 11.45 a. m. At the Lakeshore Church 7 p. m. Sunday School at 11.30 a. m.

Fruit Trees of all sorts

MY IDEAL FOR A BOY.

By Mrs. Peter McNaughton,
School Trustee, Vancouver, B.C.

Young men of Vancouver, you
are variously spoken of as "The
bone and sinew of our population,"
"The material of which our com-
ing statesmen are to be made,"
"The boys of to-day will be the
men of to-morrow," etc., etc.
These things you all realize. How
can you best become good men and
true, worthy the grand old name of
gentleman? Will you take the first
suggestion from this paragraph:
"Stand ye in the ways and see and
ask for the old paths where is the
good way and walk therein?"

Yours fathers and mothers have
travelled those paths, and will you
talk things over with them?

Having fixed upon a plain path
or route, it may be well to decide
how best to prepare to follow it
unflinchingly. That you should
develop all your faculties, make
the most of yourselves physically,
mentally, morally, is essential, be-
cause you must be resourceful if
you would avoid idleness or loafing
—one great danger to youth. Then,
too, this resourcefulness will make
you more self-respectful; it will
give you a broad sympathy with
the man who works with his hands,
and enable you to understand his
difficulties. It will lift you into
the realm of the thinker and thus
give you thoughts new and beauti-
ful for every hour. "As a man
thinketh in his heart so is he." You
will learn that to be well is a
duty and from your early youth
will seek health in many ways
through abundant sleep, absolute
cleanliness and simple food, so
that you may be physically fit.

Following these suggestions, do
you not think you would be worthy
the name of gentlemen? "Self-
reverence, self-knowledge, self-
control—these three alone lend life
to sovereign power."

The head office of the Provincial
Local Option League, now the
"B.C. Alliance," is at Dr. Ernest
Hall's office, Rogers Block, Van-
couver. Dr. Spencer's office is at
48, Flack Block, and is the centre
for Evangelism, Prohibition and
Social Service in connection with
Theatre Services in Vancouver.
Dr. Spencer and his co-adjutor,
Rev. F. G. West, are prepared to
preach and lecture in any town or
city in British Columbia, assisting
Dr. Hall, the churches, or others
in the promotion of Christian
Work.

**SYNOPSIS OF COAL MINING
REGULATIONS.**

COAL MINING RIGHTS of the
Dominion, in Manitoba, Sas-
katchewan and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the
Province of British Columbia, may
be leased for a term of twenty-one
years at an annual rental of \$1 an
acre. Not more than 2,560 acres
will be leased to one applicant.

Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.

In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.

Each application must be accom-
panied by a fee of \$5 which will be
refunded if the rights applied for
are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.

The lease will include the coal
mining rights only, but the lessee
may be permitted to purchase what-
ever available surface rights may be
considered necessary for the work-
ing of the mine at the rate of
\$10 an acre.

For full information application
should be made to the Secretary of
the Department of the Interior,
Ottawa, or to any Agent or Sub-
Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this adver-
tisement will not be paid for.

**Review Clubbing Offers
will save you money.**

“British Columbia Is The Winner

M. Stuart, of Summerland, Captures the Foreign Country Special.”

In Spite of Great Handicap, Local Fruit Leads.

The above is a heading taken from the news columns of the Spokesman Review, Spokane, Wash., under date of Sunday, November 17th. The second prize under the same class was captured by F. G. Fauquier, Needles, B.C.

The Review is in receipt of a letter from Mr. Stuart which letter was written previous to the awarding of the prizes. Mr. Stuart gives us a number of news items that will be of particular interest to Review readers.

The National Apple Show of this year has been pronounced the best yet held, both as to size and quality (there being twenty carload exhibits), and Spokane claims this year's show the world's best. A unique feature of the show is the free apple pie which was mentioned in the Review news columns of last week. The apples are cooked in a pot 10 feet in diameter and 15 feet high, and after being made into pies are put through an oven over 100 feet long, on an endless chain, and are handed out to some 4000 to 6000 visitors each day. Wenatchee and Yakima both have large displays, there being four or five carload exhibits from each, and many box lots.

Marketing conditions is the subject of general conversation and is being discussed by daily conferences. Our fellow citizen writes that while conditions are not satisfactory here they are much worse on the American side. During the peach season peaches were delivered to any address in the city at about 90 cents a box retail, and apples are now retailing at 50 cents and 60 cents.

After discussing the matter thoroughly it has been decided that the western apple crop must be marketed by co-operation of the growers, and a central selling agency for the four main apple growing states of the west has been started.

Out of twenty-nine varieties in the single box entries at the National Apple Show at Spokane, in three of which there were no entries at all, Summerland won nine firsts, and four seconds, thus coming second in the number of prizes secured, Wenatchee being first with twelve firsts and seven seconds. The following are the Summerland winners:

Cox Orange Pippin—M. Stuart, 1st.
Gravenstein—M. Stuart, 1st.
Golden Russett—J. Stuart, 1st.
McIntosh Red—L. C. Woodworth, 1st.

Northern Spy—J. R. Brown, 1st.
Rhode Island Greening—M. Stuart, 1st.

Spitzenberg—J. Stuart, 2nd.
Wagener—M. Stuart, 2nd.
Wealthy—M. Stuart, 1st.

Winter Banana—A. McKay, 1st.
M. Stuart, 2nd.

White Winter Pearmain—L. C. Woodworth, 2nd.
Jonathan—M. Stuart, 1st.

Five other prizes, all of which are seconds, have come to B.C. It is understood that M. Stuart will take his exhibit to Portland where an exhibition is being held this week.

(Special to the Review)

Summerland has again won out against the best Wenatchee and Yakima could produce. The judges and directors say it was the largest and best quality show they have ever had, and considering the fact that Wenatchee brought over most of their box fruit and packed it in the building while the Summerland fruit was hauled fifty miles over the hills, and then shipped 300 miles on the railway goes to prove that Summerland takes second place to nobody in apple growing and packing.

Some of the Wenatchee growers say that when they left home with their fruit they weren't afraid of their Yakima or Hood River, but it was these fellows from the Okanagan, B.C., they had to look out for. M. Stuart had large cards painted "grown at Summerland, B.C." and put them on his prize winning boxes, and it caused quite a lot of comment to see so many Summerland cards, especially in the single box contests.

Much of the Summerland fruit goes to the Portland, Oregon, show and as this show is nearly all Hood River stuff it will be interesting to see how they can stand up with so famous a district as Summerland.

\$10 per box was paid by James J. Hill of the Great Northern for some of Mr. Stuart's apples.

These will be used by his railway in its exhibit in the east.

a number from friends and relatives in Manitoba, Ottawa, St. John and the United States.

The staff of the Summerland Supply Co., Ltd., of which Mr. Stark is Secretary-Treasurer and Managing Director, gave a handsome chime clock and a silver tea service.

The home was most artistically decorated with white and yellow chrysanthemums and ferns, backed with Oregon grape.

The marriage, at three o'clock, was witnessed by only a few immediate friends and relatives, while from 8.30 to 5 an "At Home" was given in honor of the bride when some fifty or sixty guests assembled to extend good wishes and congratulations. Immediately after the reception the happy couple motored to Penticton where the steamer was boarded, beginning an extended honeymoon trip to Southern California and other centres.

The bride's travelling costume was a tailored suit of grey whipcord, princess lace blouse, veiled in grey ninon, and cerise moire hat.

SUMMERLAND APPLES TO ADVERTISE B.C.

Recently the local packing house of the Okanagan Fruit Union packed and shipped for the Provincial Government about 400 boxes of apples. These apples were shipped to Chicago and will be included in the Provincial exhibit there.

All Three By-Laws Carried.

A Fifty Per Cent. Vote Gives Large Majorities.

The result of the voting in the three money by-laws Nos. 41, 42, and 43 shows a large majority in favor of all three loans. The results are as follows:

By-law	No.	For	Against	Spoiled	Total
No. 41	41	86	13	3	102
No. 42	42	90	8	2	100
No. 43	43	82	18	2	102

By-law No. 41 for domestic water purposes, No. 42 for irrigation, and No. 43 for electric light.

BASKETBALL CLUB FORMED.

A large number of men interested in basket ball held an enthusiastic meeting last Tuesday night when a basket ball club was formed, and plans for the coming season decided upon.

The following officers were elected:

- President—P. S. Wood.
- Vice-President—H. Bristow.
- Sec'y-Treas.—H. Everett.
- Captain—Cliff McWilliams.
- Vice-Captain—D. M. Brown.
- Committee of Management—Cliff McWilliams; D. M. Brown; John McLeod.

Practice games will be held Tuesday and Thursday nights in the Men's Club. The colors decided upon by the boys are black and gold. The admission fee for membership to the club was set at \$1.

A good schedule for games will soon be made out and it is expected that a fine winter's sport will be had. All men will be welcome as members of this club. Show your interest by joining. Help the boys along. Watch the black and gold win the pennant.

C.P.R. TO LEASE K.V.R.

An Ottawa dispatch says that the Kettle Valley Railway Company will apply to Parliament at the approaching session for authority to lease its line of railway to the C.P.R., which proposes to construct the following lines:

From a point on its present authorized line at or near Summers Creek, by the most feasible route to the Copper Mountain and Nogi mining camps, situated about fifteen miles south-west of Princeton.

From a point at or near Vernon, in a southerly direction by way of Kelowna, and by the most feasible route to a point at or near Penticton, B.C.

From the terminus of the branch authorized by the Statutes of 1911 in a northerly and north-westerly direction, by the most feasible route to the Otter Summit, about thirty miles south of Merritt, B.C.

From a point at or near Tulameen, westerly up the Tulameen River, a distance of about fifty miles in length.

FRUIT GROWERS ASK FOR RECIPROCITY.

Victoria, Nov. 19.—On behalf of the British Columbia Fruit Growers' Association, the secretary, Mr. R. M. Winslow, has addressed a letter to Hon. George E. Foster, Minister of Trade and Commerce, urging that steps be taken toward bringing about a large measure of reciprocity between this country and Australia, more especially in the matter of an exchange of fruits.

POTATO PRICES.

Potatoes just now are fairly dear, and dealers say that their price will rise considerably in the near future. At present it is mounting up 10 to 15 cents at a time. Local ones cost from 90 cents to \$1, while the Ashcroft variety, which is eminently superior, is \$1.25 or \$1.50. The fact that this vegetable, if grown on high ground, will flourish more than, and exceed in fructification, the root grown on low-lying soil, accounts for the superiority of the Ashcroft potato. This is why the soil of Lulu Island and the Delta is not so conducive to fruitfulness as is the rich mould of the high interior.—Vancouver News-Advertiser.

Railway Construction

Making Good Progress.

Everywhere along the Okanagan division of the Kettle Valley Railway, construction work is being pushed on with all possible speed. Shortage of labor is still somewhat of a handicap. The section passing through the Indian Reserve, between Summerland and Penticton, is rapidly nearing completion as far as the road bed is concerned.

A temporary bridge has been erected over the Okanagan river, and the laying of the steel has commenced. The ties, rails, and other material are being delivered by a working engine recently landed at Penticton. The preliminary work on the immense bridge which is to cross Trout Creek Canyon connecting the Summerland section with the Indian Reserve section is well in hand. The immense steel bridge which is to span the canyon as well as the bridge crossing the Okanagan river below Penticton will be erected as soon as possible. The concrete work for the latter will be finished within a month.

Work on the east side of the lake is progressing rapidly. There are some big gullies on that side, and it is probable that trestle bridges will be built over these, on account of the agitation and representations made by the residents of the section to keep the right-of-way to the lake.

B.C. FRUIT FOR PRAIRIES.

Provincial Department Will Undertake Campaign to Enlarge Market.

Victoria, Nov. 19.—Upon the return to the city of Mr. W. E. Scott, who is at present in Chicago, an energetic and systematic attempt will be made to increase the markets for British Columbia fruits not only in the cities but also in the smaller towns of the prairie provinces. A considerable part of the energy of the fruit branch of the department of agriculture has hitherto been devoted to providing exhibits calculated to attract attention in the centres of the United States and Great Britain. The real object and purpose of these exhibits has been to bring in settlers and to sell lands to them. The approaching campaign on the prairies will be conducted on a different basis, its object being simply to provide an outlet for the ever-growing fruit crop of the Okanagan and other districts. The fruit will be collected by the carload under the auspices of the department and will be sent forward, accompanied by an agent whose business it will be to dispose of it along the route, and above all, to see that it is properly advertised. It is believed that this scheme in its carrying out will be comparatively inexpensive, as enough fruit should be sold from the train to cover the major portion of the cost.

PROFIT FOR SOMEONE.

Apples Sold For 70 Cents in Ontario. Cost \$5.25 in Winnipeg.

Winnipeg, Nov. 19.—The manager of a Winnipeg insurance company purchased a barrel of Ontario apples from a retail store the other day, paying \$5.25. When he opened the barrel he found a letter addressed to "the purchaser." It read:

"I got seventy cents for this barrel. How much did you pay for it?"

FOUR TRACK RAILROAD.

Chief Engineer Sullivan of the C.P.R., announced, at the railway commission's meeting held recently, that the C.P.R. would begin shortly the construction of two tracks between Brandon and Fort William, making a four track road for six hundred miles. Mr. B. J. Bury, vice-president, said the company would begin double tracking their road from Montreal to Fort William.

Dr. J. H. White, Supt. of Missions of the Methodist Church, was in town early this week. Dr. White's son, Edward, is one of the staff of the Provincial Horticultural Department now located here.

B.C. Orchards Exposed To Danger.

Inspector Cunningham Gives Warning Message.

Increased Importations From Infected Districts Breaking Down Present Inspection System.

The subject of Inspector Cunningham's address in the Gymnasium of the Men's Club last Monday night was worthy of the attendance of every fruit grower of the district, and no doubt it was a considerable disappointment to Mr. Cunningham to find a rather slim audience awaiting him. Mr. Cunningham went thoroughly into the question of the protection of B.C.'s fruit industry, particularly the guarding of her orchards against fruit pests.

After showing something of the enormous volume of Canada's fruit industry, and particularly of the great proportions that industry has attained in this province, the speaker pointed out the dangers against which the industry in this province had been guarded up to the present time and urged that an increased vigilance must be shown if this province is to maintain its unique position of being the only fruit district on the continent which is free from the much dreaded codling moth, San Jose Scale, as well as numerous other fruit pests. So imminent has the danger become, due to the enormously increased importation of fruit, and which is shown by the fact that larva and cocoons of the dreaded moth have this year been found in the province; Mr. Cunningham has entered into an active campaign to have a quarantine placed against all fruit coming from infected districts, and it is with a fixed purpose and determination that the Inspector is now touring the province placing the matter before the Board of Trade and fruit-growers' organizations.

The speaker contrasted the conditions as found in the Okanagan some years ago and those of to-day, and credited the marvellous change to the introduction of the fruit industry. While taking some credit to himself for having done his share to bring about this change, much credit was due to the Government in sending out exhibitions and in getting people to come and invest their money and labor in the industry. Now that the industry has become thoroughly established there are two problems which must be dealt with, these are marketing and protecting the orchards. He blamed the disappointing returns for this season's crop to lack of organization, and to excessive transportation charges. No Okanagan peaches were to be found in Vancouver, and he marvelled at it, because he knew there was an abundance of good fruit on the trees. Upon investigation he found the Great Northern was carrying five boxes of peaches for 100 lbs. and charging 30 cents, while our own line, which we have bonused and helped in every way, was carrying only four boxes for 100 lbs. and charging 54 cents. This was a handicap that must be removed.

The speaker said that he read with indignation the advice given by some members of the Vancouver Board of Trade to the Okanagan Fruit Grower to pull out the peach trees. Why should this be done? Simply because freight charges are too great and transportation too slow. Why does the C.P.R., our own bonused corporation, charge 54 cents for four boxes while the foreign railway charges 30 cents for five. Perhaps the Board of Trade men were afraid to tell the truth but the speaker declared he was not. He felt personal responsibility as he had advised entering upon the industry. The province has done much to encourage the industry, and so has Ottawa, and both must stand behind the people who have entered into it.

Inspector Cunningham then read from the Horticultural Act showing the legislative power of the Board of Horticulture, and showing, too, that he was acting within his duties as Inspector in entering upon this campaign.

In speaking again of marketing he laid considerable blame with the shippers for losing the Vancouver

market, and urged that it be recovered. To hold that market would mean much for the Okanagan.

One feature of the situation is that though the tax-payer has contributed much through the Department of Agriculture toward the building up of the fruit industry, the man of the coast cities sees little returns, the grower centering all his energies on catering to the prairie markets. This was another reason why attention should be given to the Coast markets, otherwise the Minister of Finance may be embarrassed in his endeavor to further horticulture. That department will need more and more money as the business develops, and the taxpayer will not continue to eat foreign fruit and support the Horticulture Department.

Inspector Cunningham went on to show the marvellous growth of the Coast markets within the past two or three years. Vancouver, which takes about half of the importations, has received from the south in ten months to November 1st, 124,900 boxes of apples, besides a large quantity of crabs and pears, 27,755 plums, 88,100 peaches, 21,350 apricots, which, with prunes, etc., make a total of 301,232. Two big importing months are yet to be added to complete the year's importations. Already up to the 11th November 40 carloads of apples have come in. All the money which this represents should be kept in the province.

Inspector Cunningham then entered directly upon the principal subject of the evening, and the problem which is giving him chief concern, that of the constant danger to which B.C.'s orchards are now exposed by reason of importing fruit from infected districts.

During this season, up to November 1st, about 10,000 boxes of apples had been condemned because of infection with Codling Moth.

A large quantity of pears and peaches, besides some apricots, plums and crabs were condemned for the same reason. Only last Saturday his department had condemned two carloads for the same reason. The ordinary citizen does not realize the danger as do the inspectors.

With the nursery stock a reasonable protection can be had, but because of the change in packing methods in which all apples are now wrapped, to be sure that pests were not being imported, every apple would need to be examined.

This would mean the unwrapping, wrapping and repacking of all apples. In spite of the vigilance of the department the Codling Moth can get by and did get by this season. The moth was found in one orchard in the Okanagan, and the danger was only removed after the department had gone to a great expense in buying the crop of that orchard and two adjoining orchards, picking and steaming all the fruit.

Another danger to which we are exposed is the peach worm. This one pest alone is according to official statistics, responsible for the destruction of from 25 to 30 per cent. of California's peach crop. The presence of this insect is hard to detect.

The question is "how can we protect our orchards?" It can be done, and other countries are doing it. An Englishman, if he can't get a precedent, will create one. There are, however, sufficient precedents in this case. The United Kingdom prohibits the importation of cattle from countries infected with the foot-and-mouth disease, even from British countries. Fruit growing is as essential to B.C. as the cattle industry is to Britain. Canada has a quarantine against the importation of potatoes from Newfoundland. United States prohibits fruit from Hawaiian Islands. If it is right to do this why is it not right for Canada to quarantine against dangerous or

WEDDING.

STARK—HAYES.

A pretty home wedding was solemnized on Wednesday, November 20th at Strowan House, Summerland, the home of the bride, when Miss Florence Robertson, second daughter of Mr. and Mrs. William H. Hayes, became the wife of Mr. Adam Stark.

Rev. F. W. Pattison, pastor of the Baptist Church, performed the ceremony.

The bride looked lovely, gowned in ivory satin, with waist and skirt draped in point lace (the work of the bride), the conventional wedding veil with orange blossom, and carrying a bouquet of white roses and maiden hair fern, and wearing the groom's gift, a diamond necklace in platinum setting.

The maid-of-honor, Miss Anna Road Hayes, younger sister of the bride, looked very pretty in a dress of amethyst satin, and carrying a bouquet of yellow chrysanthemums.

Mrs. Hayes, the mother of the bride was becomingly attired in grey silk, while Miss Edna McLeod, who played the wedding march wore pale blue marquisette, and Miss Gertrude Angwin, the flower girl, was very pretty in pale blue silk.

The groom's gift to the maid-of-honor and to Miss McLeod were gold necklets with pearl pendants.

The wedding gifts were numerous and very beautiful. Besides those from the many friends of the bride and groom in the community were

Changing Weather Conditions.

An Expert Attempts to Explain.

Edmonton, Alberta., Nov. 19 — Statements concerning the ever-changing climatic conditions, which, he frankly admits, may be startling to the scientific world as well as to the layman, were made in an interview in Edmonton recently by Dr. James Munro, M.E., of Winnipeg, who has given the subject the study of a life time. He said:

"From information gathered from many sources, both from Europe and America, I am led to believe there is a far-reaching cause which may account for the tremendous rains covering the whole of the north temperate zone; reaching across Canada, across the Atlantic Ocean, covering England and Scotland, and Northern Europe and Asia. The continuous and universal rainfall this last summer extending over the portions of the earth named, following a year that was noted for its large rainfall, has caused me to endeavor to get at the basic principle or cause of this phenomena.

"Newton, by applying his theory of gravitation combined with so-called centrifugal force to the earth, and assuming that an oblate spheroid or rotation is a form of equilibrium for a homogeneous fluid rotating with uniform velocity, was one of the first to prove that the interior of the earth was a molten mass, and that the rotary motions of the earth, combined with the attraction of the other planets, together with the sun, kept the earth suspended and whirling through space.

"Now, the radiation of the earth's heat is causing a condensation of the surface of the planet, and this contraction at certain points tends to throw up the interior molten matter at points where the earth's shell is perhaps thinner. This has recently occurred in the northern Pacific Ocean, where large new Islands have been thrown up.

"Reports show that the Japan current has changed its course, striking Northern Canada and Alaska at a much higher point than formerly. The mild winds from this current flowing north-easterly are melting the snows and ices of the Arctic, and the winds from the north are carrying the moisture-laden clouds south and east, and depositing their moisture in rain and snow.

"This has been a cool cloudy summer, and we have wondered where all the rain came from, as the cloudy atmosphere did not permit the sun to draw its moistures from ordinary lakes and rivers. Again, it is my belief that the accumulated ice at the South Pole, coupled with the throwing off of the large number of enormous icebergs at the North Pole, has caused the earth to slightly change its centre of gravity, thus throwing the Arctic zone farther south, causing the sun to evaporate its snows and ices to a greater extent at the north than ever before. Note the great number of icebergs that have been reported in the Atlantic ocean the last few years. The Yukon country and Iceland too are experiencing greater heat this year than ever recorded.

"Only the other day it was reported that a great glacier more than a mile in length had broken from that fringe of Alaska which cuts the Yukon from the Pacific Ocean. Nature is slowly unfolding her wondrous plan. With the melting of the northern snows and the warming of the waters of Hudson's Bay, she will give Canada access to new sources of wealth which for centuries lay latent and undeveloped."

APPLE PRICES.

The Produce News of November 9th, a trade paper published in New York, has some interesting quotations on apples. New York prices range from \$3 for fancy Greenings to \$2.50 to \$2.75 for Kings, \$2.50 to \$3 for Spitz., down to \$1.50 to \$2.25 for Ben Davis. These are warehouse prices. Auction prices that week were: Oregon Jonathans \$1.30 to \$1.45. Private sales in the auction room brought \$1.25 to \$1.50 for Spitz., and a car of Jonathans averaged \$1.20.

Cable advices from England say that Watsonville Newtons four tier are selling at \$1.62 to \$1.75, 4 1/2 at \$1.12.

In Chicago good Greenings were selling at auction as low as \$1.15. Several carloads of Jonathans brought \$1.30 for extra fancy, \$1.10 for fancy, the balance \$1.

=MILK=

is still a very important article of diet to be carefully dealt with in Summerland.

It has been my endeavour during the past four years, to give to Summerland people a safe and good product.

For various reasons I will not deliver the Milk as heretofore, but I will have a SUPPLY AT THE STORE, which will be just as good as usual.

I will loan a Milk Bottle to any regular Customer purchasing Milk at my Store, which may be kept clean by the user for his or her own supply.

TICKETS WILL BE SOLD:

Large Bottles - 9 for \$1.00
Small " - 16 " \$1.00

Thanking you for your patronage in the past, and assuring you that the usual high standard of quality and care in the handling of my Milk will be maintained in the future,

I am, Yours faithfully,

A. A. DERRICK.

[Continued from Page 1.]

chard pests. The United States cannot object. They have set the example. They also prohibit the importation of potatoes from Newfoundland; St. Pierre, Miquelon, Great Britain, Ireland, Germany and Austria-Hungary. They have shown us the way, we hope to follow. California has a quarantine against Florida, Louisiana, Georgia and other south-eastern states for the white fly, prohibiting all fruit and vegetables with the exception of tomatoes. Further, she prohibits alfalfa from Utah, Idaho or Wyoming, because of alfalfa weevil. Upon these grounds an appeal will be made to Ottawa for the protection of our orchards.

Mr. Cunningham then gave something of the life history of the Codling Moth, showing how easy it was for it to get by the Inspectors on fruit coming from infected districts. It may come in in the egg stage and in a month have developed into a moth. Not only may it be imported on or in the fruit but in the packages, or it may be brought in in infected cars. The latter was the means by which the Okanagan orchard referred to had received its infection. A carload of fruit had been brought in to the Coast and the same car used by the C.P.R. for shipping goods to the interior.

No expense is too great to keep out Codling moth. If we had the Codling Moth and San Jose Scale we might as well go out of the business. It takes the eggs of the moth from eight to eighteen days to hatch. The worm then enters the fruit through the calyx, and after two to four weeks burrowing and feeding it comes forth.

In order, therefore, to guard against this pest, fruit would need to be quarantined at least thirty days.

The speaker then tried to further emphasize the danger to which B.C. is exposed from Codling Moth, San Jose Scale and Peach Worm. California, Washington and Oregon all have them. He asked "Are we to continue to expose ourselves to this danger?"

B.C. is the only division, whether state or province, that is now free, and it has cost a lot to keep it clean. The time has now come when more drastic measures are necessary. In face of the large importations protection is no longer possible with the present methods. We cannot now ship to Australia without a sworn certificate that B.C. is free of these pests. If our orchards became infected we would be debarred from the markets of Australia and South Africa. The speaker said he had shown the danger to the Boards of Trade and fruit growers in a number of places. The matter is likely to be taken up by the Boards and Associate Boards of Trade.

Mr. Cunningham then read some resolutions which had been passed by several of the Boards of Trade of the Valley, showing their intention to take this matter to Ottawa with a view to having an act passed to prohibit the importation of fruit from infected districts. Suppose we failed at Ottawa, what Inspector did not anticipate, as we have a Minister of Agriculture who understands—but in case of failure

—the next move would be with the Provincial Government. As he had pointed out it takes at least thirty days for the pests to be made manifest. Therefore it would be necessary for his branch of the Horticultural Department to hold the goods in quarantine for that period. This is a serious problem, but he trusted that it was now clear to his hearers that we must keep our orchards clean.

Mr. Barnhill, who has been with the department for some months, and is an American citizen, said that as such he would not stand for the Inspector's proposition were it not that he realized the need of such action. He showed that this was a world-wide movement, and was another effort to stamp out pests. Such legislating would not be against the United States but would be a help. The speaker spoke very complimentary of Mr. Cunningham's worth and complimented the growers on having such a champion. Mr. Barnhill said that he had seen cocoons of the Codling Moth in freight cars in this valley. The moth did not spread by drifting but by just such transportation. "It is up to you to keep your orchards clean." He believed that Dean Bailey of Cornell, to whom Inspector Cunningham had referred as a man pre-eminent in the scientific world, and also of high moral ideals, would heartily approve of Canada's taking such a stand.

Inspector Cunningham again spoke for a few moments on the question of marketing and emphatically condemned the present selling agencies in having failed completely to reach the prairie markets. While at the Dry-Farming Congress in Lethbridge he found the people surprised and delighted with the fruit shown in the B.C. exhibit. To his surprise there was no B.C. fruit on sale in any of the stores of Lethbridge, and he declared that we had fallen down on the marketing of the fruit.

At that time apples were retailing for \$2.15, while here there are apples in the warehouse yet unsold, and on the prairie people are hungry for fruit. He urged that the fruit growers be not discouraged as there would soon be a remedy.

A unanimous vote of thanks was extended to the Inspector on the motion of H. L. Sutherland, who touched upon marketing, and said that it had been his purpose to ask all fruit growers who possibly could to go to Ottawa and request that the Canadian duty be raised to that imposed by the United States. Mr. Sutherland's motion was seconded by G. W. McLaren, and a vote of thanks to Mr. Barnhill, moved by Gilbert Thornbor and J. L. Hillborn was unanimously carried.

W. D. Howells, at a luncheon at Kittery Point, said of a certain popular novelist: "There is about as much poetry in him as there is in McMasters. McMasters, you know, was walking with a beautiful girl in a wild wood. 'What is your favorite flower, Mr. McMasters?' the girl asked softly. McMasters thought a moment, then cleared his throat and answered: 'Well, I believe I like the whole wheat boat.'"

DRUGS BOOKS STATIONERY

Co-operation in Packing and Selling Fruit.

The following article by Dr. H Johnson, Grimsby, Ontario, in a recent number of the Canadian Horticulturist is timely:

"Co-operation on the part of growers in the packing and sale of apples, or other fruit, has met with unqualified success in every case where any society or organization has been conducted on a proper business footing. Contrariwise, every case of failure in co-operation can be traced to inefficient management. Yet the fact remains that there are still many fruit growers very half-hearted, if not actually hostile, in their attitude towards co-operation. It will be found that growers of this class are either unaware of the benefits to be derived from co-operation on a business basis, or else that they have been disappointed in the results achieved by some organization of which they have formed part, and which has not had the advantage of capable management.

"The trend of all modern business or industrial operations is the sub-division of labor; and the greater the degree to which this sub-division is carried, the cheaper will prove the production or distribution of the goods, whatever they may be, and the higher the ratio of profit. Hence, on merely theoretical grounds, co-operation in packing and selling fruit is a great step in advance, because it creates a sub-division in the labor of the fruit grower, whose time should be given entirely to raising produce and not to selling it. A fruit grower may be, but as a rule is not, a business man. In either case, he is making a mistake if he attempts to sell his own fruit, because it may be taken as a sine qua non that better prices could be secured by a salesman whose sole time is given to selling fruit. No grower who looks after his orchards has time to study markets. A salesman, on the other hand, has little else to do.

"Practically speaking, therefore, the success or failure of a co-operative organization is narrowed down to the question of obtaining a good salesman and an efficient manager to look after the concern. These two qualities may be united in one man, and in small societies money could be saved by combining the two functions. But in a large concern, which handles a big amount of fruit, it is better to keep the management and sales departments separate, and have each under the charge of a suitable man.

"That co-operation has benefitted the grower in many sections is evidenced by the prices now obtained for the produce raised. In the case of apples a price frequently offered by the buyer, and judged by the farmer to be a good one, was one dollar a barrel on the tree. Many sales, as a matter of fact, took place at lower figures, and some were effected at not more than fifty cents. In sales of this kind the buyers put up the pack while the grower usually supplied labor for picking.

"In Norfolk county, Ontario, under co-operation the price to the grower for the years 1909 and 1910 rose to two dollars a barrel on the tree. The average f.o.b. price under the Norfolk Association was three dollars a barrel, which is really equivalent to two dollars on the tree, expenses being counted as follows: cost of selling, twenty cents; picking, fifteen cents; packing, fifteen cents; barrel forty cents; hauling and loading, ten cents; total one dollar.

"Around Oshawa the net return also now averages two dollars a barrel on the tree. In the Burlington district, which has worked up an export trade to England, the price to the grower averages not less than two dollars ten cents on the tree.

"The case of the Hood River (Oregon) organization, however, supplies the best argument in favor of co-operation. Before the Hood River Apple Growers' Union was formed the average price realized by growers was one dollar twenty-five cents a bushel box. Since organization the average f.o.b. price netted is two dollars fifteen cents a box.

"One of the first difficulties met with in all co-operative societies is to find a way of paying each member a fair price for all fruit sold through the organization. All growers do not produce the same quality of fruit. Some are careless, some indifferent, while others are not content unless they raise really first-class stuff. If all sales are pooled the latter category of growers naturally suffer and do not receive the extra reward due to them.

"The only way out of this difficulty is to have all fruit graded or packed at central or receiving stations, and to pool sales of each grade separately, crediting each member with the number of packages of the particular grades delivered. This is a fair way out of the difficulty, and one that is not difficult to put into practice, as it merely entails the services at the central station of a receiver who is a good judge of fruit (in the case here the fruit is put up by the grower) and an efficient staff of packers for fruit put up in central stations.

"In the case of berries of all kinds the number of grades should be strictly limited to two: First-class berries and poor berries.

"It is poor policy for any individual, and much more so for a large organization, to market poor quality stuff, and all berries which are not first-class should be sent to the canning factories. It will be found that the factories are prepared to contract with large co-operative societies at much better prices than with individuals, the reason for this being obvious: they can afford to give a better price, as they do not have to send round a lot of men touting for small contracts among growers. In no case should poor fruit be thrown on to the market, as it merely breaks the price and does not satisfy the consumer. The general Canadian public is wealthy enough and is prepared to pay a fair price for good fruit, but it does not require trash at any price.

"As regards cherries, there is no particular difficulty in grading. They may be classed conveniently as Number One Sours, Sweets, and Number Two Sours, Sweets. Samples of the same variety will not be found to vary greatly from one orchard to another in the same season, although there may be a good deal of variation from one year to another.

"It is when we come to apples or peaches that the real difficulties begin, since in the case of these fruits the differences in quality from one orchard to another are tremendous. Hard and fast rules as regards packing and grading must be made by each organization according to the market in which it is selling.

"In the organization of an apple union the following are the chief points, as emphasized by an expert from the Hood River Valley, which are essential for success: The organization must be a large and powerful one in command of a wide acreage. This gives the society a large quantity of apples for sale and enables it to a certain extent to make its own price. It is advisable to sell the whole output to one man, or corporation. In putting up the apples, the packer is the judge and not the grower. Each packer must be registered, given a number, and made responsible for grade and pack. In no case must the packers have any interest in the orchards or in the sale of fruit.

"In the Hood River Valley the packers are paid at the rate of thirty-five cents an hour, with board; or, if they prefer it, at the rate of seven cents a box. This is a good wage, but a good class of labor is required, as the work is of a responsible nature. All members contract to sell the whole output of their orchards through the medium of the union, and every year they come in and sign a paper giving as close an estimate as possible, of the expected return of each variety of fruit. Tenders for the purchase of the crop are invited on this estimate.

"Every box of apples delivered by the Hood River Apple Growers' Union is guaranteed true to grade and all layers uniform with the top.

"The foregoing simple principles, which have been strictly carried out, have made for the phenomenal success of the Hood River Union; and all fruit selling organizations which have not been equally successful should apply these principles in the future. It does not matter whether the fruit is apples, peaches, or otherwise. All fruit sold must be true to grade and this cannot be done except in the manner outlined.

Make Your Grocery Money Buy More

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

FREE Fine Engraving in Sepia of the Borden Cabinet for Readers of the "News-Advertiser."

EVERYONE wants a picture of the members of the Government of Canada. The "News-Advertiser" has had prepared for the exclusive use of its readers in this province a large engraved plate of Rt. Hon. R. L. Borden and his Ministers.

The group is redrawn from the latest photographs of the eighteen Ministers, who compose the advisers of His Royal Highness the Governor-General. It is printed in sepia on heavy board ready for framing, and will be of the greatest educational value in the home, the school, and the library.

The Prime Minister, HON. R. L. BORDEN, occupies a central position, and is shown standing at the head of the Council Table. Seated about him are his colleagues.

Dimly in the background the features of Sir John Macdonald look down on his successors.

How to Obtain the Picture

This fine engraving, of which a limited number have been prepared, will be sent

FREE OF CHARGE

to new subscribers, or to old subscribers, who renew their subscriptions for one year (\$3.00).

For out of town subscribers the picture will be tubed and postage prepaid.

Non-subscribers may obtain copies on payment of 50 cents. If mailed, ten cents extra for tubing and postage.

Applications and remittances (cash must accompany order) must be made to

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED, RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 22, 1912.

Local Notes.

W. C. Kelley is having an addition built to his cottage.

Robert Barkwill returned from Alberta last Friday night.

W. A. Doyle leaves shortly for California where he will remain for some weeks.

Dr. Lipsett came in on Thursday night from a short business trip to the Coast.

Sweet peas, roses and a number of other flowering plants are still flourishing out of doors.

Miss Doyle left last week for Calgary. She expects to spend some months in prairie towns.

Mr. and Mrs. W. J. Robinson entertained the teaching staff of the Municipal Schools at dinner on Friday the 15th, at Hotel Summerland.

Rev. E. W. Stapleford, B.A., occupied the pulpit of the Methodist Church last Sunday evening. His subject being "Christ and the College." Mr. Stapleford is Educational Secretary for the Methodist Church, and has recently returned from a visit to the leading Canadian, British and American Universities, where he has been collecting data to be used in the establishment of the new Methodist College in connection with the Provincial University at Point Grey.

UNPEELED APPLE SAUCE.

Wash some firm juicy apples, cut them up, and take out the cores. Put them into an enamelled saucepan with little hot water, and bring to-boiling point. Stir frequently while cooking, take off the fire, and put through a fine colander to remove the skins from the sauce. Add sugar to taste, heat again, but do not let boil, until the sugar is melted, then stir in a spoonful of lemon juice, and let get cold before serving.

FRUIT MARKS ACT.

Fruit Growers' Association Suggested Amendments.

Some amendments to the Dominion Fruit Marks Act are being advocated by the Fruit Growers' Association of British Columbia, and it is expected that the matter will be taken up during the approaching session of the Federal Parliament. Several hundred circulars have been issued to fruit growers, asking them for expressions of opinion upon the several points involved. These are three in number: First, the standard of color and size for each variety and each grade of apple. A second matter which it is desired to have the Dominion Parliament legislate upon is the size of fruit boxes, the British Columbia fruit growers being desirous of having the American apple box adopted as the standard. This box is better than the Canadian in many respects. It holds more fruit and its shape is more convenient for handling and for loading into cars. In the third place, the association wishes that the trade names "Fancy," "No. 1" and "No. 2" be discarded, and the designations, "Extra Fancy," "Fancy" and "Choice," which are now in use in the United States, be substituted therefor.—Vernon News.

GIRLS HOTEL FOR OKANAGAN.

Authorized by wealthy associates in England to increase the investments held by them in British Columbia to the amount of one million dollars, Mr. R. Mason, a financial man from London, England, has arrived in B.C. and is now at Vancouver.

At his own expense Mr. Mason will shortly erect a hotel in the Okanagan Valley for the British Women's Immigration Society. The hostelry is to be built at Penticton and will be utilized as a distributing point for young women domestics sent out by the parent society in Great Britain.

CHURCH NOTICES.

St. Stephen's Church (Anglican).—Holy Communion every Sunday at 8 a.m. except on the first Sunday in the month. First Sunday in the month Holy Communion at 12 noon. Matins 11, Evensong 7, each Sunday. Rev. H. A. Solly, B.A., Rector.

Baptist Church.—At West Summerland every Sunday at 10.30 a.m. Sunday School at 11.45 a.m. At the Lakeshore Church 7 p.m. Sunday School at 11.30 a.m. F. W. Pattison, Pastor.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30 a.m., Sunday School, 11.30 a.m. Evening, Fortnightly at 7 p.m., alternating with the Methodist Church. Rev. C. H. Daly, Pastor.

Methodist Church.—Services every Sunday morning at 10.30. Sunday School at 11.30. Fortnightly evening service at 7, alternating with Presbyterian Church, West Summerland. Frank W. Hardy, Pastor.

Naramata Notes.

Mrs. Languedoc spent the weekend with friends at Penticton.

Mr. and Mrs. J. W. S. Logie were the guests of Mrs. R. C. Robinson on Tuesday.

Mrs. W. J. Robinson visited friends in Naramata for a few days last week.

On Thursday of last week Mr. J. S. Gillespie left for England on an extended tour in connection with the Government Immigration work.

Mr. Griffin and Mr. Endacott drove to Kelowna, over the new Kettle Valley Railway wagon road on Monday.

We are pleased to report that Mrs. Julius Block is fast recovering strength again after a rather severe illness.

The hotel cottage opposite Mr. Mulford's butcher shop has been rented to the K. V. R. for use as a hospital. It will be opened immediately.

Mr. S. R. MacEwen left on Wednesday morning's boat for the east. The many friends he has made in Naramata will be glad to welcome him when he returns in the spring.

Mrs. R. C. Robinson will receive on Wednesday and Thursday, November 27th and 28th, and afterwards on the second Wednesday of each month.

The Unity Club met on Friday at the club-house and spent a very pleasant afternoon. Mrs. Wells and the Misses Hazel and Lois Wells were the hostesses for the afternoon.

The Okanagan Trust Co. wish to make it known that any inquiries regarding the cutting of wood, fence posts or poles on their property should be referred to Captain Languedoc.

Our Philosopher

THE FATHER'S TEACHINGS.

The boy loves his mother probably more than he does his father, but so far as relates to the affairs of life in general and on its hard side, he has ten times the confidence in his father's practical and available wisdom than he has in that of his mother. And if his father finds it necessary in the conduct of business to strain one or two of the commandments the boy will keep on repeating them to his mother and commence breaking them with his father, and that, too, without feeling the sinuosity of the procedure involves any great amount of inconsistency. . . . The only thing that will save the boy and hold him in anyway true to the fixed pole of rectitude that no considerations of place or circumstance can deflect him, is that he be under the domination of a father whose life in the midst of the world incarnates the principles learned from the mother in the midst of the home. The boy will believe in the feasibility of the mother's doctrine of righteousness if he sees his father take it out and exemplify it under the stress of business.

The father's life in this degree measures the power of the mother's tuition, and is the hand of God hastening or postponing the fulfillment of her longings and prayers for the children of the household.

THE newspaper is to-day the most potent element in civilization. Its audience is practically unlimited. It reaches every class and condition of men. It penetrates to every hut and hovel on the farthest confines of human society. The schools have an influence and gather the children of the high and low. But after schools are outgrown, teachers forgotten, and books mouldy and dusty, the newspaper is still a constant companion.

No public speaker, be he preacher or political orator, can draw an audience of one-tenth that which greets the average newspaper to-day, and thus the tone of the press becomes a matter of vital importance to the welfare of the community. The influence is widespread and is also lasting. Therefore we say, study well the contents of the paper you are taking and if it contains that which tends to lower the scale of morality and humanity and not to the elevation of that which is good and right, better off are you by far without it.

Local News Items. Local News Items.

BORN—On Tuesday, November 19th, at Victoria Gardens, to Mr. and Mrs. J. W. Pacey, a son.

Make your selections of Xmas Greetings while our line is complete. Review Office.

Miss Miriam White starts for her old home in Ontario next week where she will spend Christmas with her parents.

Hilton Snyder and Walter Mumm of West Summerland brought home two deer as the result of a week-end shooting expedition on the Bald Range.

The power boat "Kaleden" has been leased for the winter months by the Okanagan Lake Boat Company, who will use it in conjunction with the Maude Moore as a ferry.

The Okanagan Lake Boat Co. are announcing in their regular space this week a change in their time table. This will be their winter schedule, and will take effect on November 25th.

Miss Dimock and Mrs. Hugh McDougall of Peachland have been visiting at the home of Mr. and Mrs. T. N. Ritchie this week. Mrs. McDougall left on Thursday for Naramata, to visit her sister Mrs. Roe.

The refrigerator car which has been with difficulty reclaimed from the lake, has now been replaced on its trucks, and is on the temporary track on the shore just north of the approach to the C.P.R. dock.

Eighty-five per cent of headaches are the result of eye strain. If you are troubled, that way consult Dr. S. L. Taube on his visit to Summerland Drug Store, Summerland, B.C., on Tuesday, December 3rd, 1912.

Wm. Limmer expects to move, the latter part of this month, into the cottage on the hill which he recently purchased. The house which he now occupies will be taken by Mr. Dan. Williams, while the place which he vacates has been rented to Mr. Tulley.

Richard J. Angus of Minnesota was in Summerland last week end. Mr. Angus is a nephew of R. B. Angus, President of the Bank of Montreal and a C.P.R. official. The latter owns a 10 acre fruit ranch in Prairie Valley. The younger man is acquiring this property from his uncle and his visit here was to inspect the orchard.

Mrs. J. Rowley entertained a number of friends last Monday evening in honor of Mrs. T. C. Stinson and Mr. Gordon Dinning. Mrs. Stinson leaves here with her family on the 29th to join her husband who is now in business in Burnaby, while Mr. Dinning, who has been in the Canadian Bank of Commerce here, has been transferred to Victoria and left for there on Wednesday morning.

Mr. John S. Chapman of Peachland is in town this week representing the Mimax Company, manufacturers of fire extinguishers. A number of these effective little devices, he says, are being bought by fire departments, and placed in convenient places, and are always ready for immediate use. This is an English invention. Already some of the Okanagan towns are being equipped in this manner. Mr. Chapman will endeavor to have the local fire department place a number of these devices where they may be always available.

In the Lakeshore Baptist Church on Friday, November 29th, at eight o'clock, Rev. H. G. Estabrook of Vancouver will deliver his stereoscopic lecture on "The Highways and Byways of B.C." Mr. Estabrook has travelled extensively throughout the province and is eminently fitted to speak of its wonderful scenes and resources as well as the great development in all lines of activity. Special attention will be given in this lecture to Prince Rupert and the Kootenay Valley. As this is the regular monthly social gathering a social hour of friendly intercourse with refreshments will be spent to which the public is invited. There will be no admission fee but a collection will be taken, the proceeds to go to the Baptist Missions of B.C., of which Mr. Estabrook is superintendent.

Big line of Xmas Greetings now on hand. Order early. Review Office.

Mr. J. J. Mitchell is this week shipping a car of apples to New Zealand.

Cliff McWilliams made a short trip to the Landing and return on Wednesday.

Visit the Studio the first week in December for Christmas Cards and Booklets.

Mr. Gordon Glennie of Hamilton, Ontario, is visiting at the home of his sister, Mrs. E. C. Graham.

Mrs. A. Solly went up to Kelowna on Wednesday morning's boat, returning again on Thursday evening.

T. F. Hickey of Summerland has bought the Prairie Valley and Peach Valley property of the Craig Brothers.

Albert Anderson is making an addition to his home on his orchard property adjoining that of John G. Robertson.

Ready first week in December—Booklets, Xmas Cards, Post Cards, Double Post. Cards, and larger views—At the Studio.

St. Andrew's Presbyterian Sunday School, West Summerland, will hold its Christmas entertainment this year on Monday evening, December 23rd in the church.

R. E. Harkness and his mother leave next week for Vancouver. Immediately after the New Year Mr. Harkness expects to go to Chicago University for a post graduate course.

We are glad to learn that St. Andrew's night will be observed in Summerland by a concert, a notice of which will be found on another page. We are sure that our Scotch friends will worthily celebrate the occasion.

Four unfortunates from the railway camps were quartered in the Municipal jail on Wednesday night. They were brought before Magistrate English on Thursday morning and each fined \$5 and costs for drunkenness.

The Ladies Auxiliaries of Okanagan College will hold a sale of work on Saturday afternoon, November 30th, in the hall above Elliott's store, West Summerland. Tea will also be served. A further notice will appear in next week's Review.

Mr. Robert Pollock left this morning (Friday), on a trip to London and Glasgow. Mr. Pollock emphatically declares that this is a purely business trip and that he will return alone in the not distant future. His many friends will certainly remember this statement of Bob's.

Remember the date of visit of Dr. S. L. Taube, eye-sight specialist of the Taube Optical Company of Calgary and Vancouver, who will be at Summerland Drug Store, Summerland, on Tuesday, Dec. 3rd. If there is anything wrong with your eye-sight don't fail to consult him. All work absolutely guaranteed as tested. n 29

Messrs. James Ritchie and R. Pollock leave this week on a business trip to the Old Country. Mr. Ritchie will probably not return till February, while Mr. Pollock may remain for some months longer. Mr. Pollock left here this (Friday) morning, and will take ship at St. John. Mr. Ritchie leaves on Saturday morning, and will board the same ship at Halifax.

Next Tuesday evening, November 26th, "The Brotherhood," recently organized in connection with the Summerland Baptist Church, will meet at eight o'clock sharp in the church at West Summerland. Rev. F. W. Pattison will give a lecture on "Life in London Slums," which will be illustrated by lantern views. Mr. Peterson, the Norwegian, whose singing has already won him local fame, will give one of his selections. Refreshments will be served at the close of the program.

Mr. S. R. MacEwan, Sec.-Treas. of the Okanagan Realty Co. Ltd., proprietors of Red Apple Valley, and who also looked after the local interests of the Summerland Development Co. and Empiro Hall, has gone East for the winter. Mr. F. C. Manchester will have charge of Empiro Hall during his absence and all correspondence should be addressed to him.

ONTARIO'S APPLE TRADE IN THE WEST IS FALLING OFF.

Winnipeg, Nov. 17.—Ontario's apple trade in Western Canada has fallen off so much in the past two or three years that the government of that province has sent a special commissioner to Winnipeg and western towns and cities to ascertain what the trouble may be and report at once to the government.

The special commissioner is Alexander Earle, Ont., western market commissioner in the Ontario department of agriculture, and he has been quietly making inquiries in the city for the past two or three days.

As a result of these inquiries, Mr. Earle will make recommendations to his government, advocating radical changes in the system of exporting apples and fruit from Ontario to the western provinces, which he hopes will result in reinstating Ontario fruit in its former place in the west.

Discussing the question, Mr. Earle stated that he was amazed at the samples of Ontario fruit he found in some of the warehouses and stores of Winnipeg. The chief complaint was in regard to packing, and again, apples of No. 3 quality were shipped as No. 1.

"No wonder we're losing to British Columbia," said Mr. Earle, "but we will have to stop this kind of thing. Apparently the Ontario shippers have been harboring the impression that anything is good enough for the West. They've got to alter that opinion at once and realize that they are doing business with people who demand the best and lots of attention. A better system of inspection will have to be established, and I recommend that to the government."

Mr. Earle is visiting several other points in the west before presenting his reports.

APPLE SALAD.

Select some nice red apples, and polish them. Cut a thick slice off one end, and remove the inside of the fruit, leaving the shell. Cut the apple into small bits, mix with chopped celery and walnut meats, moisten with mayonnaise, and refill the shells. Place each apple on a crisp leaf of lettuce, and serve.

The GURNEY-OXFORD is an efficient RANGE

A business is kept up-to-date because it means a difference between profit and loss. The successful business uses such modern time-and-labor-savers as typewriters, adding machines and electricity. Woman's work in the home is also a matter of profit and loss. If she has improved and modern tools, she gains time and leisure and better results. If she has old-fashioned ideas to contend with, she loses energy and effort and peace of mind.

The Gurney-Economizer is the greatest single improvement ever devised to simplify cooking. It regulates the fire and heat of the oven with one direct motion. The heat of the fire is distributed by a scientific arrangement of flues that keeps the oven uniformly heated. The grates hold the fire on the least possible surface.

The Gurney-Oxford Range is a most efficient piece of household furniture. It puts the kitchen on the same labor-saving, up-to-date basis as a successful business.

Borton Plumbing & Heating Co.,
SUMMERLAND, B.C.

CO-OPERATION IN PACKING AND SELLING FRUIT. (Contd. from p. 3).

"Any well managed organization will quickly discover which methods of grading and packing are the best suited to its particular requirements. At the same time it would be a step in advance for the fruit industry if all organizations could agree to a universal system of packing and grading.

"There is one point on which Canadian growers and dealers in fruit make a great mistake, and that is in over-estimating the value of large fruit. A large apple or a large peach has no better flavor than a medium-sized or even a small specimen. Yet in Canadian wholesale markets all peaches which do not attain a certain size are put out of the number one class. The same thing applies to apples in the manner in which they are packed by some of the Canadian organizations. Better prices would be obtained by the grower if less attention was paid to size and more to quality."

A ROBBIE BURNS RELIC.

An unpublished poem by Robert Burns has recently been discovered in possession of Mrs. John Moffat of St. Andrews, Scotland. The verses are prefaced as follows:

"Composed by Robert Burns, and presented to the nobleman addressed upon being called up from the servants' hall (where he had been sent to dine along with them) to add to the entertainment of his company, along with which company he had been asked to go on an excursion to the Bass Rock. On presenting which he put on his hat, turned on his heel and retired."

This poem was copied by Mrs. Moffat's grandfather, the late Mr. Edward Sanderson, nearly one hundred years ago.

The verses were as follows:—
 "My lord, I would not fill your chair,

Tho' ye be proudest noble's heir. I came this night to join your feast As equal of the best at least! 'Tis true that cash with me is scant,

And titles trifles that I want. Tho' king has never made me kneel To stamp my manhood with his seal.

But what of that? The King on high Who took less pains with you than I,

Has filled my bosom and my mind With something better in its kind Than your broad acres, something which I cannot well translate to speech. But by its impulse I can know 'Tis deeds, not birth, that make men low.

Your rank, my lord, is but a loan! But mine, thank heaven, is all my own.

A peasant, 'tis my pride to be;

Look round and round your hall, and see

Who boasts a higher pedigree! I was not fit, it seems, to dine With those fox-hunting heroes fine.

But only came to bandy jests Among your lordship's hopeful guests.

There must be here some sad mistake— I would not play for such a stake. Be a buffoon for drink and meat, And a poor earl's taxpaid seat!

No, die my heart, ere such a shame Descends on Robert Burns's name."

—The Fruit Magazine.

Carroll Foss, son of C. O. Foss, district engineer in charge of the Transcontinental in New Brunswick, has arrived home from the West, and will assist his father with the final estimates in connection with the roads. He was formerly one of the engineers in charge of the building of the road, and has since been fruit ranching in British Columbia. Mr. Foss found the climate of the Okanagan Valley very delightful.—St. John Telegraph.

"David Garrick."

David Garrick, the play to be presented by the Summerland Players on Thursday, November 28th, was first produced in London in 1864, when the inimitable Sothern of Lord Dundreary fame played Garrick, but he was not the only actor who achieved distinction in this part, for it has proved to be one of the most important mediums for the art of Sir Charles Wyndham, who periodically revives the play with the greatest success.

The story, founded in a pretended incident in Garrick's life, was first dramatized for the German stage, then translated into French, and eventually adapted for the English stage by T. W. Robertson.

The scene opens in the home of a wealthy city merchant, Simon Ingot, whose only daughter has fallen in love with Garrick, whom she has seen on the stage but has never met. The love proves to be something more than a mere stage infatuation, so much so that her father, who is anxious that she should marry her cousin, became greatly concerned and determines to send for Garrick with the view of asking him to leave the stage; in fact the country, in the hope that being no more able to see him his daughter may in time forget him. Garrick arrives and of course ridicules the idea of giving up a profession to which he is bound heart and soul. He, however, proposes a plan by which he promises the father to disillusion the girl. He induces the father to ask him to a dinner that Ingot is giving that night to some old friends, friends that he knew when he was poor.

In the second act the guests arrived, an odd company, and one in which Garrick finds himself strangely out of place. The last to enter the room and be presented to Garrick is the daughter whom he no sooner sees than he realizes too late he has promised to disillusion the one woman who has ever created a really deep impression upon him, although he has only seen her as a member of the audience. However, he has given his word of honor to the father, and he keeps his promise so well that it is not long before the spell begins to work. In the words of Chivy, an acquaintance of his, "he acts the drunkard, the gamester, and the bully, everything to disgust the girl," and with such success that she eventually orders him out of the house.

In the following scene she discovers that not only is he in love with her but that the role of drunkard and gambler was only assumed to disillusion her on account of a promise given to her father.

She also hears that his escapade has led him into a duel, which she determines to avert at any cost.

The following morning she goes to Garrick's house and meets him on his return from the duel. Her father who has followed her comes in just in time to hear Garrick advise her to go back at once to her home.

Whether his advice was acted upon or not will be seen by those who attend the performance on Thursday November 28th.

A COINCIDENCE.

In a recent issue of one of the Calgary dailies there appears a seven column display advertisement advertising a certain brand of whisky. The other column on that page is devoted to a news item depicting the awful crimes of a man who attributes his deeds to the drinking of whisky. For a year or more in the Eastern States nowadays have been mysteriously murdered. The perpetrator of the deeds makes confessions on unsigned postal cards, usually after he is far removed from the scene of the deed, but in no way discloses his identity. The murderer says: "Three times have I taken life, twelve times have I tried and cannot help it." He claims to be a prominent fraternity man of high degree, "honored and respected." Again he says: "I am sick of trying to fool myself, I am a homicidal maniac." He admits deep remorse on account of the murders committed but confesses that he cannot control himself. A drinker's brain is the cause he gives, and "remorse and sorrow for the parents is bringing the results which will soon come to the end. The demon whisky will then have one more victim."

We cannot control the evil tongues of others, but a good life enables us to despise them.—Cato.

Bargains for OUR Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1
 Vancouver Daily Province - \$3.00
 Better Fruit - 1.00
 The Review - 2.00-6.00
 The three for \$5.00

BARGAIN No. 2
 Canadian Courier - \$3.00
 Canadian Horticulturist - .60
 The Review - 2.00-5.60
 The three for \$4.60

BARGAIN No. 3
 Vancouver Daily Sun - \$3.00
 Country Life in America - 5.00
 The Review - 2.00-10.00
 The three for \$8.00

BARGAIN No. 4
 Canadian Horticulturist - .60
 Canadian Poultry Review - .50
 The Review - 2.00-3.10
 The three for \$2.70

BARGAIN No. 5
 The Busy Man's Canada - \$1.00
 World's Work - 3.60
 The News-Advertiser, Daily - 3.00
 The Review - 2.00-9.60
 The four for \$7.00

BARGAIN No. 6
 Winnipeg Telegram - \$2.00
 (or Free Press)
 B.C. Saturday Sunset - 2.00
 Canadian Magazine - 2.50
 The Review - 2.00-8.50
 All four only \$6.60

BARGAIN No. 7
 World Wide - \$1.50
 Farmers' Advocate - 1.50
 Free Press, Weekly - 1.00
 The Review - 2.00-6.00
 The four for \$4.75

BARGAIN No. 8
 British Columbia Magazine - \$1.50
 Toronto Mail and Empire - 1.00
 Farmers' Advocate - 1.50
 The Review - 2.00-6.00
 All four for \$4.50

BARGAIN No. 9
 Calgary Herald - \$3.00

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
 Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

FOOTBALL.

College versus Kelowna.

Other Items of Interest.

On Saturday the 16th the College rugby team paid a visit to Kelowna for a friendly game. The ball was kicked off at 2.30 p.m. For the first part of the first half the College boys were hard pressed, the good work of our backs only saving a large score. In the first fifteen minutes a touch down was secured by Kelowna but they failed to convert. Jasper then made a good run for the College but was brought low just within Kelowna's five yard goal line. However, in the last part of the first half our boys kept close to the Kelowna goal. The first half ended with three points in the northern city's favor.

In the first part of the second half the College had to fight hard to guard their own goal, Kelowna getting within the five yard line but Corey saved the situation. Shortly after, however, Kelowna scored another touch down. The remainder of the game was fought out largely in the centre of the field. Another touch down being scored by Kelowna just before the end of play. But the Okanagan had whistled already and the College boys rushed from the field with the score 9-0 against them, though their hearts were still light and their strength unabated.

The College had the weight and the good "scrim" formation but the quarters failed in good team work, there being little passing and co-operation. The only time the ball was passed out in good style resulted in Wolvertons splendid rush down the field which play might have occurred oftener throughout the game, and resulted in a victory. Though the game resulted in defeat for the students they have learned from Kelowna that team work alone will win.

On Sunday evening, the 17th, Dr. Harrington spoke to the students on "Life in Japan." There was a large attendance and keen interest manifest. Next Sunday night Miss Colwell, Lady Principal, is taking charge of the meeting, and is giving a sacred concert. She herself will give a reading from Henry Von Dyke. Special music will be provided by the Musical Department of the College. All friends are warmly welcomed to these meetings in the College chapel at seven o'clock. You will enjoy them and especially this one of Sunday next.

To-night the Second and Fourth Years are holding a reception in the reception room of Morton Hall. As this is the first of its kind this year an enjoyable time is expected.

The Y.M.C.A. is still holding its meeting on Tuesday night. A similar program to that of the Y.W.C.A. has been adopted by the society, the meetings being led alternately by a member of the Faculty and one of the students. Last Tuesday night Rev. C. H. Daly interested the boys with a very helpful and instructive address.

The Y.W.C.A. is holding interesting meetings also. Miss Helen Sawyer led the service on Wednesday night last. Too much cannot be said of the helpful influence these meetings have upon the lives of the girls.

The Lyceum is out! Got a copy—15 cents each—seven for \$1, at the Drug Stores. You'll enjoy it!

THE REV. IRL R. HICKS'S 1913 ALMANAC.

The Rev. Irl R. Hicks Almanac for 1913 is now ready. It is the most splendid number of this popular Year Book ever printed. Its value has been more than ever proven by remarkable fulfillments of its storm, weather and earthquake forecasts this year. Professor Hicks justly merits the confidence and support of all the people. Don't fail to send 35 cents for his 1913 Almanac, or only one dollar for his splendid Magazine and Almanac one year. The best one dollar investment possible in any home or business. Send to Word and Works Publishing Company, 3401 Franklin Ave., St. Louis, Mo.

The "Review" Job Department is up-to-date in every respect.

*** NARAMATA ***

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

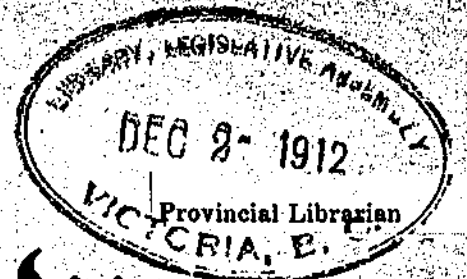

Start of Double Canoe Race at one of Naramata's Regattas

Take a trip to the Okanagan this summer and stop at Naramata. Get acquainted with this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience overlooking the Lake is at your service. One summer spent in Naramata means every summer spent there until you finally conclude there is no real living anywhere else. Then a nice 5 or 10 acre fruit farm on the benches solves the question and makes you independent for ever afterwards.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 18

SUMMERLAND, B.C., NOVEMBER 29, 1912.

Whole No. 225

Ward Boundaries Altered. Siwash Flat Now In Ward Two.

Money By-Laws Passed. No Attempt At Present
to Market New Debenture Issue.

The Municipal Council held an extra session on the afternoon of last Friday to give the three money by-laws their final reading.

Coun. H. S. Lewes was in the chair, all the Board being present with the exception of Reeve Thomson.

A number of communications were dealt with and a personal request from Mr. Caldwell for a rebate of a charge for removing of noxious weeds was dealt with.

Following are the communications read:
The Secretary of the [Union of B.C. Municipalities wrote in reference to the Union's engaging a solicitor to watch legislation at Victoria.

The Okanagan Telephone Co. wrote for permission for the extension of their lines within the Municipality.

A letter from the Southern Kelowna Land Co. in reference to the installation of an oil burning engine on the K. V. Railway was received.

A communication was received from Mr. E. B. May, Manager of the Bank of Montreal, in reference to the proposed issue of debentures. L. C. Woodworth made application for electric light.

W. Caldwell waited on the Council and asked that a charge against his property for destroying noxious weeds be cancelled—the lot then being the property of Mr. Kennedy.

After hearing Mr. Caldwell's story the Board, upon the motion of Couns. Dale and Robinson, agreed to rebate half the charge provided the claim was settled before the end of the year.

The request of the Carlson Co., which had been received at the previous meeting, for connection with the domestic water pipe line at Block 10, District Lot 441, was granted upon motion of Couns. Robinson and Dunsdon. The company will pay a water rate not to exceed \$5 per month.

The request of the Manager of the Bank of Montreal that the road approaching his home be improved, which request had been brought before the Council at a previous meeting, was again considered and a motion made by Coun. Robinson, seconded by Coun. Dale that improvements not to exceed \$60 be made on the road was carried.

Mr. Logie, as returning officer, submitted a statement of the poll on money by-laws Nos. 41, 42 and 43, and as clerk reported that these have received the assent of the electors. The three by-laws were finally considered by the Council. On the motion of Couns. Robinson and Dale these by-laws were passed and the Reeve and Clerk authorized to sign and seal.

A statement from F. J. Nixon, the accountant, showing the receipts and expenditures to date was read, showing a small amount yet available for current expenditure before the end of the year.

The advisability of re-adjusting the wards in order to make the assessment value in each as near the same as possible was brought up for consideration and met with the approval of the Council. The wards are now made up as follows:

Ward I.—District Lot No. 455, 473 and 675.

Ward II.—District Lot No. 454, 674, 678, 472, 2104, 2095, 1177, 470, 480, 3822, 3823, 3910 and 3640.

Ward III.—District Lot No. 474, 475, 476, 2891, 2543, 2800, 2561, 2195, 440, 480, 1078, 2560, 2892, 8104, 4875, 3870, 3921, 2542, and 3754.

Ward IV.—District Lot No. 20G1, 441, 477, 508, 974, 3910, 3807 and 12196.

The Council then adjourned to meet December 10th at 9 a.m. at the regular monthly meeting.

The following is the letter received from the Bank of Montreal in reference to the floating of debenture bonds, and the Clerk's reply:

Correspondence re Sale of Debentures.

Bank of Montreal,
Summerland, B.C.
Nov. 14th, 1912.

Messrs. The Reeve and Council,
Summerland Municipality,
West Summerland.

Dear Sirs,
Re contemplated issue of debentures as already advertised.

Will you permit me to point out to you that you could hardly have chosen a more inopportune time to make a further issue of your debentures. You are aware, of course, that I had already procured for Mr. C. J. Thomson an opinion from Montreal on this subject, which he probably communicated to you. This opinion is very much to the point and comes from a most reliable source, saying it would be a mistake. I also communicated with you on 30th July, 1912, in connection with the very congested state of the Canadian Municipal Market in London, which should have been a sufficient warning that further attempts to market debentures would prove a very expensive matter.

I note, however, that you are apparently going right ahead, so I decided to correspond with my Superintendent in Vancouver on the matter and gain his opinion. He writes me as follows:

"It would be exceedingly unwise for the Municipality of Summerland to go on with any public works now involving the marketing of bonds, and you should tell them that if they are depending on looking to the Bank of Montreal to assist them in such undertakings, that we do not consider it advisable to do so, so that they would have to go on and absolutely sell their bonds before expending their proceeds, unless, of course, they can obtain assistance elsewhere. I am sure that they will be well advised to postpone their contemplated improvements until they can borrow at a better rate than 6 per cent."

I am sure that if the ratepayers are made fully aware of these marketing conditions before they are asked to vote on these expenditures, they will consider it advisable to wait a space of one or two years, if need be, until monetary conditions have improved.

Yours truly,
E. B. MAY,
Manager.

16th November, 1912.

E. B. May, Esq.,
Manager, Bank of Montreal,
Summerland.

Dear Sir,
Your favor of the 14th inst., addressed to the Reeve and Council of the Municipality, has been duly received.

The Council will not meet until after the vote is taken on the 20th of this month, so that no official reply can be given to your communication until after their meeting.

In the meantime I would like to put you right as to what the position of the Council is in regard to these debentures. The Council are well aware that, at the present time, it would be unwise to put any debentures on the market, and they do not intend to do so for some time, but they wish to be ready to go on with the work just as soon as it is possible to dispose of those debentures. The carrying out of the work contemplated is very important, but it would be very foolish to go and do the work and, at the same time, have no means of meeting the liability. The present intention of this Council is to leave the matter over entirely for the new Council to deal with, and this matter must be thoroughly thrashed out at the annual meeting and a decided stand taken as to the future policy of the new Council, and this is one question on which there must be no doubt, that no work must be done until such time

as they can get the debentures sold or money realized on them. The present Council are quite firm in that stand. What the future Council will be is a matter to guard against.

Personally, I shall do what lies in my power to prevent this Municipality being put in any false position. The credit of the Municipality is too important a question to trifle with in any way, and I am strongly of the opinion that, when the matter is properly put before the people, that they will be one with the Council in going slow as to any future improvements, with out knowing definitely where they are at.

Yours faithfully,
Municipal Clerk.

27th November, 1912.

E. B. May, Esq.,
Manager, Bank of Montreal,
Summerland.

Dear Sir,
Your favor of November 14th, re contemplated issue of debentures, was laid before the Municipal Council at their meeting on the 22nd, along with my reply to same. I am instructed to say that the reply given to you by the writer is the sentiment of the Municipal Council, and meets with their full approval.

Yours faithfully,
Municipal Clerk.

The most important change in the ward limits is the putting of all of what is known as Siwash Flat into Ward II. This has been partly in Ward III, (Prairie Valley) and partly in Ward II, (Jones Flat, Garnett Valley, etc.) Henceforth this dividing line between Wards II, and III, will be the street, Granville Road, from W. C. Kelley's to Jas. Ritchie's real estate office.—Ed.

Railway Camps.

(Contributed).

In view of the approaching entertainment to be held in the interest of the railroad camp work, the following remarks are of interest:

Between Summerland and the Summit there are now some 15 camps, exclusive of two engineer's camps, averaging perhaps fifty men per camp. About half the work is being done by sub-contractors, the other half by the contractors, Carlson & Co. Almost all the men engaged on the work are of foreign birth, the majority being Scandinavians, Austrians and Italians. They speak English more or less brokenly.

In spite of the fact that the winter is here, there is still much coming and going among the men. This is partly due to the fact that the "wanderlust" has a strong hold on this class of men. There is also a feeling among them that they are not properly housed. Concerning the meals, however, only words of praise can truthfully be spoken. The men greatly appreciate the literature which is distributed among them weekly by Rev. A. W. McLeod. If the writer's experience among the camps is a fair criterion, it must be admitted that a much smaller proportion cares for the religious services. Some, however, unquestionably appreciate the brief service held among them. In explanation of the indifference of the many, it must be said that the Church has not done much to show these men that she cares for them. It is the testimony of the men that very rarely indeed has any interest been shown in their well-being.

It is very much to the credit of the churches of Summerland that they have faced their duty to these "Strangers within our gates," and are trying to show them that they have a place in our thoughts.

FRUIT GROWERS, ATTENTION!

A joint meeting of the Agricultural and Fruit Growers Associations and the Farmers' Institute is called for Tuesday afternoon next, December 3, at three o'clock in the afternoon, in the Men's Club. The chief business will be to discuss the fruit situation, and prepare any resolutions it may be thought best to forward to the Provincial Conventions at Victoria,

and also it may be to appoint delegates to those meetings. This is a very important meeting as it may have to do with some of our problems and help market our fruit in future years. Anyone having definite suggestions he would like to submit would greatly facilitate the business by putting them in writing in the shape of a resolution and submitting them to the meeting. It is to be hoped that all the fruit growers will make it a point to be present, whether at present members of any of the above societies or not, and freely help in making plans for future action which will be good for the of all.

G. J. COULTER WHITE.

College Notes.

The Rugby ball seems to be at last packed in sawdust and flannels until springtime again softens the soil.

Last Tuesday the Y.M.C.A. held its usual meeting. Mr. W. M. Armstrong, president of the association, led the meeting, and a very helpful and interesting hour was spent.

Next Sunday, December 1st, Rev. H. A. Solly will address the meeting on the subject "Service." This is a practical subject and it is being handled by a practical man. We hope to see many visitors.

The Y.W.C.A. is doing some good work among our girls. Next Wednesday evening the ladies will have a missionary evening. Miss Colwell will address the meeting on "Mission work in Hawaii."

Our ladies express their appreciation of the magazines which the Ladies Auxiliary have so kindly supplied. Some eighteen magazines are now finding their way into the Ladies residence each month.

We regret the sudden departure of Miss Kate Ross. Miss Ross returned to her home in Vernon on account of sickness. Her speedy recovery is hoped for, and her return to the College, after the Christmas vacation, anticipated.

On Thursday, November 28th the Athletic Association met and appointed captains of the senior and junior Basketball teams. Frances Hayward, known better as "Frank," is now leader of our senior team, while Orlando Dupont, the popular "Frenchie," is to guide our youthful warriors "to a gory bed or to victory."

Saturday, November 23rd, was the date of one of the most strenuous battles ever fought in Okanagan College. Frank Hayward led the affirmative and Ed. W. Armstrong the negative on the question, "Resolved that Free Trade with United States of America is in the best interests of Canada." The debaters were closely matched, but after a short deliberation the judges pronounced the affirmative victors. We have some good talent in the Literary Society. Why could we not pick a team to meet some outside team and have an inter-district debate?

On Sunday, 24th November the usual evening service was held in the College Chapel. This meeting is always open to visitors from the community. Those who missed at Sunday's service missed a treat. The following program was presented:

Piano Solo, Miss Hurschman. Solo, "Face to Face," Miss Helen Sawyer. Violin Solo, Prof. R. P. Baker. Reading, "The Lost Word" (Henry Van Dyke), Lady Principal Colwell. Solo, Miss E. Woods. Piano Solo, Miss G. Hurschman. Doxology. Benediction, Dr. Harrington.

Friday, November 22nd, Ac. XIII and XV classes were at "At Home" to the members of the faculty and student body. The program took the form of a Topic Reception. Lady Principal Cowell, Miss Katie Butters, and Mr. John Marshall welcomed the guests. Many new acquaintances were made and old ones missed. We welcome the new and regret the loss of the old. Delicious cocoa, cake and jollies composed a dainty luncheon in the middle of the program. The success of the evening can best be expressed by the words of one of our ladies, "It's the only topic reception I have ever enjoyed."

Summerland Leads at Portland. Defeats Famous American Districts.

Repeated Winnings Put Her In Fore As Producer of
High Grade Apples. B.C. Potatoes Also Lead.

Summerland fruit has come off with high honors at the Land Products Show at Portland, Oregon. The Hood River district near by was the keenest competitor. B.C. potatoes also took highest honors, Smith of Ladner, B.C., winning out against all competitors. Ladner's potatoes and Summerland's apples proved to Hood River that B.C. is hard to beat.

Mr. Muir Stuart of Summerland has kindly furnished the Review with a list of his winnings at the Portland Show. With eleven entries he has taken seven firsts and two seconds. A great score for Summerland was the winning of first on the single box of Spitzberg's against ten entries from Hood River. Hood River growers have claimed that if they can grow anything it is the Spitzberg, and now Summerland has beaten them on their own ground with fruit hauled over a mountainous journey of fifty miles and a five hundred mile rail journey with a stop at

Spokane beside. Mr. Stuart says that after visiting the two shows at Spokane and Portland he is more than ever convinced that Summerland is the greatest apple district in the world, and says that the growers of Washington and Oregon are beginning to admit this themselves. Summerland has now beaten Wenatchee, Hood River, Rogue River and Yakima on their own ground on a dozen or more of their best varieties.

Following are the prizes taken by Mr. Stuart at Portland:

- 1st Prize, Four Box McIntosh Red.
- 2nd Prize, Four Box Jonathan.
- 1st Prize, One Box Spitzberg.
- 1st Prize, One Box Gano.
- 1st Prize, One Box Winter Banana.
- 1st Prize, One Box Northern Spy.
- 1st Prize, One Box Wealthy.
- 1st Prize, One Box Permain.
- 2nd Prize, One Box McIntosh Red.

OKANAGAN TELEPHONE CO.

The Okanagan Telephone Co. is making good progress on its trunk line. Already the work has been completed down through Peachland and the exchange of that town is now connected with all the company's exchanges further north by its own line. The company expects to have the Summerland exchange connected with its own system by December 10th.

Manager Dobie, accompanied by Mr. Webster, the construction foreman, was in town on Wednesday. It is the company's intention to rebuild the local plant as soon as similar work has been completed at Penticton. It is stated on good authority that the company will also put in a telegraph system to compete with the Government Telegraph service.

SUMMERLAND HENS ENTERED AT INTERNATIONAL LAYING CONTEST

The International Laying Contest conducted during the past year under the auspices of the Provincial Poultry Association, has created considerable interest throughout the Province in laying competitions. The Provincial Department of Agriculture has arranged for another contest of a year's duration, which opens at Victoria on December 3rd. Entries are open to the world, and keen competition is anticipated.

The birds are divided into two general classes the light weights and heavy weights. Prizes of \$100, \$75, \$50, and \$25 will be awarded to each class.

Summerland will be represented by a pen of six brown leghorns entered by C. N. Borton.

The first poultry show of any importance will be held at Vernon next week. A number of birds will be sent from here, among them being Leghorns, White Wyandottes and Rhode Island Reds, entered by H. Bristow, and a pen of Brown Leghorns and four single birds by C. N. Borton. A. H. Mulford and D. Munroe of Naramata are also sending up exhibits.

There will be a service of song in St. Andrew's Presbyterian Church, West Summerland, next Sunday night. Mr. Daly's subject will be "The Songs of Life," illustrated by choruses and solos.

On Sunday, December 8th, the Sacrament of the Lord's Supper will be celebrated in St. Andrew's Presbyterian Church, West Summerland, at the morning service; preparatory service on Friday evening, December 6th, at eight o'clock.

BOY SCOUTS.

The management of the Boy Scouts has been successful in booking a high class entertainment for December 12th in Empire Hall. The profits of this entertainment are for the benefit of the Boy Scout movement. The entertainment will be given by the Imperial Hand-Bell Ringers, under the management of Mr. J. Cosgrove, who is known in the western entertainment world as one who puts on only the best. The Hand-Bell Ringers are from Yorkshire, England.

The Chronicle of Spokane, Wash., has this to say of the entertainment given in that city: A delightful entertainment was given by the Imperial English Bell Ringers at their initial appearance before a Spokane audience—each number was received with applause. Perhaps the most difficult selections of the evening were the two overtures, "Massaniello" and "Itali-ana," and the selection from "Il Trovatore." The Bell Ringers rendered the numbers with wonderful technique. Another feature of the entertainment proved to be the piccolo and violin solos with bell accompaniments.

APPLE PRICES

The following items on the apple markets gleaned from the last number of Produce News will be of interest.

"In spite of heavy receipts, practically double those of last season, the New York market continues in fair shape. The best fruit, however, is not bringing proportionately higher prices.

"Consumption is heavy, and a sharp demand for fancy pack later is anticipated.

"New York says: 'The foreign market still continues depressed.' Liverpool cables that market unchanged except for improved demand for Watsonville Newtowns, which range from \$1.44 to \$1.56. In London Washington Newtowns averaged \$1.96. Red River \$2.0 to \$2.16 and Hood River \$2.16 to \$2.40, with outlook for better prices. In Chicago boxed Delicious are bringing \$1.50 to \$2.00, Jonathans \$1.25 to \$1.60, Grimes Golden \$1.25 to \$1.75, Rome Beauties \$1.50 to \$2.00."

The members of the local Liberal Conservative Association are to hold their annual meeting on Thursday evening, December 6th, at eight o'clock, in the Men's Club. It is understood that business of unusual importance is to be considered. The president's advertisement will be found elsewhere in this issue.

Death of Sir Ed. Clouston.

Montreal, Nov. 28.—Sir Edward Clouston was overcome by weakness shortly before noon to-day, while in the office of the Royal Securities Company, and was removed to the Royal Victoria Hospital in an ambulance. He had just entered the office when he was seen to totter and fall to the floor. Sir Edward died at three o'clock this afternoon. Apoplexy was the cause of death.—News Item.

A GREAT BANKER.

The two most eminent Canadian bankers known to this generation have been Sir Edward Clouston of Montreal, and Sir Edward Walker of Toronto. Though associated with the two largest banks in the Dominion their reputation has been personal and derived from the institution of which they were the heads. The Toronto banker is more a man of letters and has wider interest in art and other elements of culture than Sir Edward Clouston, while the latter lent his wonderful business skill to scores of benevolent, educational and helpful movements while he was a member of long lists of financial and industrial directorates. The death of Sir Edward Clouston leaves vacant the presidency of at least five business corporations of national importance, and directorates in more than a dozen others. He was vice-president or director of seven hospital corporations, a dispensary and the Order of Nurses, and the Ambulance Association. He was one of the McGill University board and a trustee of many other institutions. His wide range of social, sporting and recreation interests is shown by his membership in seventeen clubs as reported in Morgon. When a man of such business gifts and experience in such large and varied interests, so generous a supporter of good causes and so useful a worker in their behalf, passes away he leaves many gaps to be filled.

But Sir Edward Clouston is best known as a banker. For forty-seven years he was with the Bank of Montreal, and for nearly a quarter of a century he has been its working chief. His annual statements have been a sort of financial budget speech to the people of Canada, having vastly more weight in respect to the matters discussed than the budget of any finance minister.—News-Advertiser.

IMPORTANT RESOLUTION BY NELSON FRUIT GROWERS.

Nelson, Nov. 26.—At a meeting of the Nelson Farmers' Institute a resolution was passed urging the Provincial Government to take immediate steps to encourage and further the immediate formation of a central distributing medium for the fruits of all districts; also that the Provincial and Federal Governments co-operate in the inspection of fruit, and that a dumping clause be made effective against fruit from foreign countries. The resolution will be sent for consideration at the annual meeting next January of the central institute at Victoria.

In connection with the suggestion regarding the central distributing medium, it was stated by Mr. James Johnstone, that the present production of fruit in British Columbia could only supply 25 per cent. of the market of the prairie provinces.

PRAISES APPLES SENT FROM THIS PROVINCE.

The Canadian Trade Commissioner in New Zealand reports to his department at Ottawa that there are splendid prospects for a good trade in British Columbia apples in New Zealand. He reports that the steamer Makura, which arrived at the end of last month, had two consignments of apples and some pears. He says in regard to this shipment:

"One firm took 620 cases of Jonathan apples and the other 80 cases of Wealthy apples and 20 cases of pears. The pears were all right until taken out of the vessel and then they seemed to become overripe quickly and some cases of them were ruined. As to the 80 cases of apples, they were of splendid quality, but unfortunately were too large for table use purposes. They sold readily for \$3 a case, but would have brought higher prices had they been smaller and better adapted for table use. The shipper of these apples has arranged for another 1000 cases to be sent at once. The new Jonathans were satisfactory in every particular."

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

BETTER THAN RICHES.

The desire to accumulate something for one's children is a commendable one; but it is well to bear in mind that the best things are to be given to the children personally, in good examples, kind words and thoughtful teachings. A very sensible writer recently said about this important subject: "Children must be taught what the parents wish them to know. Teach them truthful gentle ways and they will be true and gentle. If a boy learns bad language from his father, he will repeat it just as certainly as he has a tongue in his mouth, and if a little girl hears her mother gossip she will gossip just as soon as she meets a playmate. People who devour their food like cattle must not expect their children to have good table manners. Gentlemen and good women are home made. There is nothing on earth for which one ought to be more thankful than for having been brought up in the atmosphere of a pure home. Such a home may be narrow and even hard, it may be deficient in material comforts. A man, sturdy as an oak, once said, "I was the son of poor parents and from my youth up was inured to self denial and hardships, but I do not remember of ever hearing a word from the lips of either my mother or my father that was not as it should be. Better such recollections than a great inheritance."

CARRY sunshine in all your walks of life.

MOST of us have got to learn that contentment and not worldly wealth brings happiness.

WHICH way is your life pulling; Is it upward or downward? Are you helping somewhere or hindering anywhere? Is this week's record the best chapter of your life story? Are you ready to have it printed and left as a legacy to your friends? If not, what is the matter with it? Important problem, isn't it?

A CARLOAD of pity is not worth a handful of help.

KEEP the rooms sweet and pure by ventilation. For this reason air and sunshine are free.

THE BOOK OF BOOKS.

No fragment of a battle ever survived so many battles as the Bible; no citadel ever withstood so many hurricanes and was swept by so many storms. And yet it stands. It has seen the rise and fall of Daniel's four empires. Assyria bequeaths a few mutilated figures to the riches of our national museum. Media and Persia, like Babylon which they conquered, have been weighed in the balance and long ago found wanting. Greece faintly survives in its historical fame. "Tis living Greece no more," and iron Rome of the Caesars has long since ceased to boast. And yet the book that foretells all still survives. While the nations, kings, philosophers, systems, institutions, have died away. The Bible engages men's deepest thought, is examined by the keenest intellect, stands revered before the highest tribunals, is more read, sifted and debated, more devoutly loved and more vehemently assailed, more defended and denied, more industriously translated and freely given to the world, more honored and abused than any other book the world ever saw. It survives all changes, itself unchanged; it moves all minds, yet is moved by none; it sees all things decay yet itself is incorruptible; it sees myriads of other books engulfed in the stream of time yet it is borne along till the mystic angel plants its foot in the sea and swears by Him that liveth for ever and ever that time shall be no more. With Isaiah we say: "All flesh is grass and all the goodness thereof is as the flower of the field. The grass withereth, the flower fadeth, but the word of God shall stand for ever."

BE like the harvest of this year—good and generous.

PROFANITY never did any man the least good. No man is richer, or happier or wiser for it. It commends no one to society; it is disgusting to the refined and abominable to the good.

BIRDS BIG EATERS.

Baby robins have been observed to eat half their own weight of beef scraps, digest all this within three hours and then be ready for another meal.

A pair of red-eyed vireos were noted by a naturalist to feed their offspring over a hundred times in ten hours. Grosbeaks, sworn enemies of the Colorado potato beetle, have been seen to assimilate almost a hundred caterpillars or larvae an hour. Over three thousand aphids have perished by the bills of the insect loving throats in the same period of time.—Suburban Life Magazine.

SOMEWHAT BRUTAL.

A somewhat brutal thing was said unawares at an evening party. Shortly after midnight a gentleman was pressed to sing. Very thoughtfully he put forward the excuse that at that late hour the next door neighbors might object.

"Oh, never mind the neighbors," cried the young lady of the house, "they poisoned our dog last week." —Edinburgh Scotsman

SHILOH

CHURCH NOTICES.

Methodist Church — Services every Sunday morning at 10.30. Sunday School at 11.30. Fortnightly evening service at 7, alternating with Presbyterian Church, West Summerland. Frank W. Hardy, Pastor.

St. Stephen's Church (Anglican) — Holy Communion every Sunday at 8 a.m. except on the first Sunday in the month. First Sunday in the month Holy Communion at 12 noon. Matins 11, Evensong 7, each Sunday. Rev. H. A. Solly, B.A., Rector.

Baptist Church — At West Summerland every Sunday at 10.30 a.m. Sunday School at 11.45 a.m. At the Lakeshore Church 7 p.m. Sunday School at 11.30 a.m. F. W. Pattison, Pastor.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30 a.m., Sunday School, 11.30 a.m. Evening, Fortnightly at 7 p.m., alternating with the Methodist Church. Rev. C. H. Daly, Pastor.

A blush on the cheek is worth two in the drug store.

Make Your Grocery Money Buy More

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

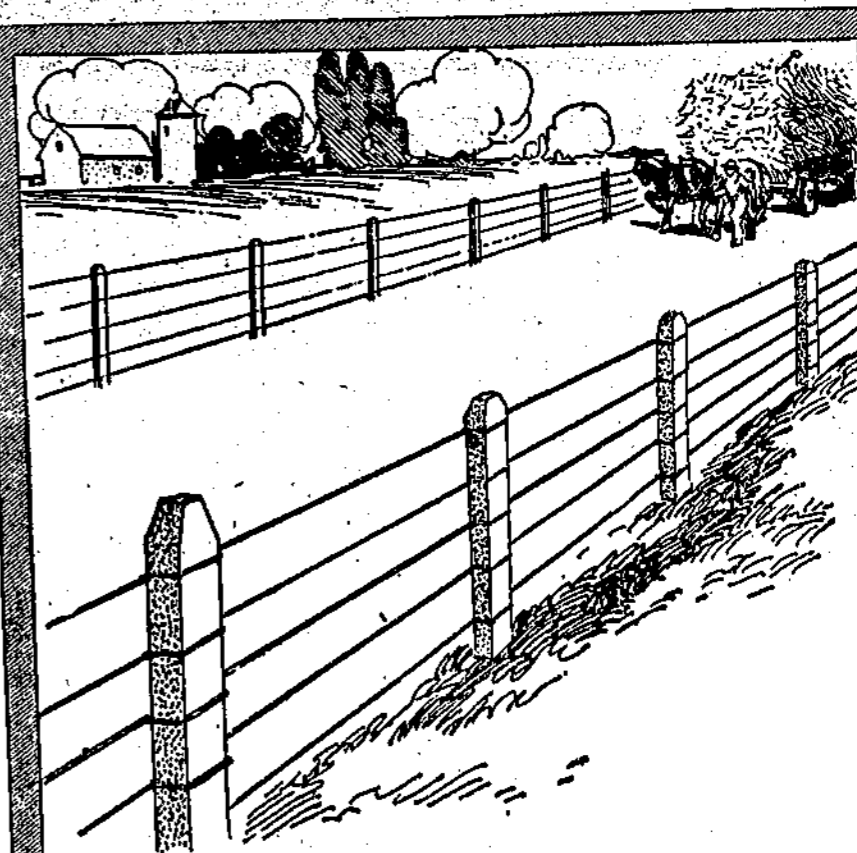

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

O. VAUGHAN

GROCER & COMMISSION MERCHANT

How Much of Your Road Money is Spent in Filling Ruts?

IF the millions of dollars that have been spent repairing worn-out, washed-out streets and roads had been used to build more miles of good highways, fewer farmers would now be wasting valuable time and money taking "round-about" routes to town.

FIRST cost of an ordinary dirt or macadam road is usually only a "starter." The cost of upkeep soon equals that first cost and there is always an ever-increasing annual expense for repairs. The worst feature of it is that such a road is never a really first-class highway.

IN estimating the cost of a road you should include the expense of keeping it in good condition for at least twenty years. If you don't, you're figuring on the first payment for that road, only. And the remaining payments are as certain as taxes. The upkeep cost of concrete roads is practically nothing.

Concrete roads are the best roads from the first—and the best and cheapest roads at the end of ten, fifteen and twenty years.

CONCRETE is the ideal paving material for streets in small towns as well as for main highways in the country.

Edward N. Hines, Wayne County, Michigan, Road Commissioner, and one of America's foremost authorities on good roads, says:

Any community that wants a good road, a road that is cheaper for even a short time under fairly heavy traffic than any other good road, a road that is not unacceptably maintained, a road that is sanitary and dustless, a road that is not slippery on roads that afford good traction for any type of vehicle 300 days in the year, a road that in the long run, say 10, 15, 20 years and longer, is the cheapest of all good roads, should investigate the merits of concrete.

WRITE for the facts about Concrete highways. When convinced, use your influence to have the roads for which you pay built to last. We have highway experts who will visit any community intending to build more roads and explain just why and how concrete roads are best and cheapest.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 29, 1912.

THE BOND MARKET.

In view of the recent assent of the electors to the raising of a further loan on Municipal Debentures and the Council's decision not to make any attempt at the present time to market these bonds, the following article from The Financier, an important London financial journal, which recently commented in a front page article on the condition of the London money market with reference to Canadian municipal bonds and covering generally the question of the financial undertakings of the cities and municipalities at the present time as they impressed the London investor will be timely reading. The article is as follows:

"Since the excitement caused by the war has somewhat subsided, Lombard Street is finding time to discuss the Chinese puzzle and the 'jamb' in the waters of Canadian municipal finance. A point has now been reached when Canadian city securities are unsaleable, partly because they were issued at absurdly high prices during the boom, and are still too high, in spite of the fall; partly because the number of cities who are would-be borrowers has completely confused London's financial thinking powers; and partly because the offering of these securities enormously exceeds the demand for them, since the English investor, better informed as to Canadian possibilities than he was a year or two ago, no longer sees the point of making investments which develop other people's property without giving him any share in the profits.

"During this summer the pavements of the City have been dark with the shadows of innumerable Canadian mayors, Reeves and commissioners, who have been darting out of one bank and into another in search of buyers for their securities. They have met with scant encouragement. Only Winnipeg, Saskatoon, Calgary, Edmonton, Vancouver, North Vancouver and New Westminster were successful. Vancouver and Winnipeg have issued four per cent. bonds, the others four and a half per cent., all at between 97½ and 99, and in almost every case the underwriters have had to take up a very large proportion of the issue, and have been vainly trying to unload ever since. Canadian first and second class cities will in future have to issue on a 5½ per cent. to 6 per cent. basis. At least a score of city representatives have now returned to Canada empty-handed, but in many cases temporary methods have been resorted to, and the street is full of Canadian city acceptances, payable in from three to twelve months.

"Amongst these cities thus postponing the evil day when they must fund their debts, or raise the money by direct taxation, are Toronto, which has discounted one-year bills at 4½ per cent, and Montreal, Port Arthur, Saskatoon, Moose Jaw, Calgary, Edmonton, South Vancouver and Victoria, which have discounted three to nine months' bills at from 5 per cent. to 6½ per cent. Some of these bills fall due next month. Where is the money to meet them coming from? Is it not time that the Dominion or Provincial governments prohibited municipal bodies from spending money before they have got it to spend, and prohibited the banks from granting overdrafts to municipal bodies?"

CRADLE FOR CANADA'S JACK TAR.

AT the instance of the Provincial Government the Federal authorities have made a change in the Pacific Coast fishing regulations which will greatly encourage the white fisherman. Of late years the industry has fallen into the control of the cannery, and through them, of the cheaper oriental fisher.

Premier McBride, while he has always championed the causes of "white labor," probably had in mind when he advised the change, the possibility of a recruiting ground for the Canadian Navy soon to be.

CHEAPER MONEY FOR THE FARMER.

THE question of cheaper money for the farmer is gaining constantly a larger share of the attention of public men. For a year or more one of Canada's big metropolitan dailies has been carrying on a vigorous campaign, with the object of having the Federal Government do something in the way of assisting with its credit, or its powers to borrow money at a very low rate of interest, the man on the soil who needs the ready cash to develop his property. The question is also receiving the attention of the government of our own province, and judging from recent utterances of our Minister of Agriculture and of Finance (a happy combination) definite action will no doubt be taken by our paternal government to assist the worthy tiller of the soil.

The question of loans for farmers is also attracting attention in the United States. The Democratic platform contained this plank:

"Of equal importance with the question of currency reform is the question of rural credits or agricultural finance. Therefore, we recommend that an investigation of agricultural credit societies in foreign countries be made, so that it may be ascertained whether a system of rural credits may be devised suitable to conditions in the United States; and we also favor legislation permitting national banks to loan a reasonable proportion of their funds on real estate security."

A conference is to be held in Minnopolis at which the whole question of rural credit legislation is to be dealt with, the idea being to recommend a feasible plan for rural loans on farm security.

It is a true and trite saying, "well begun is half done," and we insist that no school is right well begun that does not open with a good, round, hearty song. It refreshes, brightens, pacifies discordant minds, soothes ruffled tempers, and imparts a relish for the duties that follow. A singing people are a happy people, are a happy people, then let us sing.

THE ever-increasing cost of living is being made the subject of investigation in Montreal. That city's Hebrew population of some fifty or sixty thousand has declared a strike against increasing prices. Alderman Blumenthal has, according to the Montreal Herald discovered "evidences of a butter trust, an egg trust, a milk trust, a fish trust, and a sugar combine," while Mr. Alphonse Verville, M.P., who was the principal speaker at a meeting held in the Labor Temple a week ago to discuss the local food question, emphatically gave it as his opinion that there was a canned goods trust in local operation."

IS Canada Overborrowing? This is a question that has been asked frequently of late. The fact of the stringency of the money market has no doubt raised the question. It was ably answered at a recent banquet in London by the London Manager of the Bank of Montreal, Mr. F. W. Taylor, and our own Canadian Minister, Hon. George E. Foster. Canadian Provincial Securities were principally dealt with, and it was shown that they, as well as municipal finances, were on a sound basis. Mr. Taylor thinks it is doubtful whether the real merit of Canadian Provincial Securities had ever been realized by the British investor. That more than a billion dollars have been borrowed by Canada in the past ten years for public purposes shows to what extent Canadian development depends on London, the world's financial centre.

Our Philosopher

HELP HER GROW.

If you like the home town best,
Tell 'em so!
If you'd have her lead the rest,
Help her grow!
When there's anything to do
Let the fellows count on you,
You'll feel bully when it's through,
Don't you know.

If you want to make a hit,
Get a name!
If the other fellow's it,
Who's to blame?
Spend your money in the town,
Where you pull the sheekles down,
Give the mail concern a frown—
That's the game!

If you're used to giving knocks,
Change your style!
Throw bouquets instead of rock,
For a while.
Let the other fellow roast,
Shun him as you would a ghost,
Meet his hammer with a boast
And a smile.

When a stranger from afar
Comes along,
Tell him who and what we are—
Make it strong.
Needn't flatter, never bluff;
Tell the truth, but that's enough,
Join the boosters—they're the stuff,
We belong.

"YOU will probably find something in your paper you cannot endorse. Even the Bible is rather plain and hits some hard licks. If you were to get mad and burn up your Bible, the hundreds of presses would still go on printing them. Call the editor all sorts of names, the paper will still be published. And what is more you sneak around and borrow a copy of it from your neighbor. It is much better to keep your vest pulled down and your subscription paid up.

A BOY'S success is largely measured by his manliness. That the term of manliness may be understood by our youthful readers, let it be understood that it does not mean a boy who can chew tobacco, smoke cigars and cigarettes, and who curses and swears and uses obscene language and keeps company with boys of questionable character. A manly boy has sense enough to know that these things detract from the character of any boy. Most employers feel that it is their duty to discharge a boy with these habits almost as quick as for absolute dishonesty. The boy who aspires to be anything or anybody in the world cannot afford to ape the very worst habits in man, but should follow only the best examples of the best men.

Fred. G. Anderson is spending a few days in Kelowna.

Mr. John Johnston returned on Saturday night from a business trip to Calgary.

Mr. Dave Avauche of the College was a visitor home to Pentiction over Sunday.

Make your selections of Xmas Greetings while our line is complete. Review Office.

Mr. L. C. Woodworth was a passenger by Monday's boat to Vernon and Armstrong.

After this week sittings can only be arranged for before 1 p.m. There's a photographer in your town.

Mr. Nickleson of North Vancouver is spending a few days at the home of his sisters-in-law, the Misses Spencer.

Ladies are cordially invited to attend the next meeting of the W.C.T.U. on Monday, December 2nd, at three o'clock, at the home of Mrs. D. H. Watson.

The Russian Thistle is in excellent condition for burning just now. Why not get rid of them before they break loose and roll about scattering their seed for next year?

Eighty-five per cent of headaches are the result of eye strain. If you are troubled that way consult Dr. S. L. Taube on his visit to Summerland Drug Store, Summerland, B.C., on Tuesday, December 3rd, 1912.

Mr. Harry McLeod returned home Friday afternoon from Kelowna where he has been associated with the Okanagan Telephone Co. He and his men are now working on the line in the Summerland district.

Mr. H. H. Elsey returned on Wednesday 27th from an extended trip to Calgary, Edmonton and other prairie towns. He reports very cold weather and that the farmers experience a difficulty in threshing their crops.

Last Friday evening a successful social gathering of a number of the local Scotsmen and friends took place in the Over-seas club room, West Summerland. The evening was passed in preparation for the "Annual Scotch Night" next week.

It is a fact that no one who has advertised liberally and energetically feels like disputing that it was the best spent money he put into his business. As a horse was never made fat by a single bushel of oats, so a single advertisement is never a perfect test of the benefits of advertising.

On Friday of last week the senior Bible Class of the Lake Shore Baptist Church met at the home of their teacher, Mrs. Lipsett, to say farewell to Mrs. Pardee, a valued member of the class. Mrs. Pardee was presented with a large bouquet of chrysanthemums, and several smaller bouquets of different flowers. The class spent a very pleasant two hours that will long be remembered by all present.

A most pleasing and in every way satisfactory performance was that given in Empire Hall last night by the local dramatic organization, "The Players." This time The Players have undertaken something a little heavier than heretofore, and their presenting so acceptably last night T. W. Robertson's "David Garrick" fully justified the undertaking. All through the performance the excellent playing brought frequent applause from a large and appreciative audience.

Paradise Flat, which has recently come under new management, is likely to be the scene of considerable activity next spring. This property, which was, until recently, held by the Okanagan Commercial Orchards Co., Ltd., is now the property of the Southern British Columbia Orchards Ltd., of which Mr. James Ritchie is the president. The company has opened an office in Vancouver, and is represented there by Mr. G. A. McWilliams. It is in the interests of this company, as well as his Kaledon proposition, that Mr. Ritchie has gone to the Old Country. In London an office will be opened in charge of Mr. R. Pollock who accompanied Mr. Ritchie.

WANTED—Honey, local product, comb or strained. Cash paid. A. A. Derrick.

WANTED—Live poultry, any size or age. Highest prices paid. L. C. Woodworth. n20 d6

Big line of Xmas Greetings now on hand. Order early. Review Office.

Mr. L. H. Page is now living in his new bungalow at the foot of Giant's Head.

The Misses Logie spent Sunday last with their sister Mrs. Robinson, Naramata.

First week in December—Post Cards, Double Post Cards, Xmas Cards and Views. At the Studio.

Mr. Bert Harvey is engaged finishing the interior of the Anglican Church, West Summerland.

Mr. Rabie, who is having a large house built on Jones Flat, is expected to arrive here next week from Alberta.

The local ministers and their wives were entertained at dinner last Friday evening by the Rev. F. W. Pattison.

Mrs. C. P. Nelson will be at home on Wednesday, December the 4th, and the first Wednesday in each month thereafter.

Mr. Snider, who owns an orchard property east of Giant's Head, will have a cottage built thereon ready for occupancy next spring.

The local Scotsmen are making every preparation for a successful evening in Empire Hall, St. Andrews Night, December 4th.

The Vernon Fruit Co. will build a large new warehouse this coming year on their property in Kelowna. The company report a very successful year's business.

Mr. Butler, who for some time has been teller in the local branch of the Bank of Montreal, has been transferred to the Prince Rupert branch, and left for their last week.

Mr. Simms of the inspection branch of the Horticultural Department, who has been located here for some months, will leave shortly to spend the holiday season with his family in California.

A sale of hand work will be held in the Campbell building, West Summerland, on Saturday afternoon. This sale is conducted by the Ladies' Aid of the College.

Mr. William Dow of Alex. Calgary, arrived here with his wife last Friday. Mr. Dow has rented the Thompson cottage at West Summerland, and it is his purpose to buy a ranch and permanently locate here.

Mr. and Mrs. Fraser left for the Coast this mornig, where they plan on spending some months. The Ladies' Aid of St. Andrew's Church presented Mrs. Fraser before leaving with a well-filled purse.

Jack Conway moved into his new cottage, south of the College gymnasium, last week. Mr. Woodworth's other cottage on the College Drive will be finished this week and occupied by Dr. Harrington and family.

Mr. J. L. Logie and Rev. C. H. Daly visited the construction camps of the K.V.R. on Sunday last. In the absence of Mr. Daly Rev. A. W. McLeod conducted the services morning and evening in the Presbyterian and Methodist churches.

The Misses Harrington, daughters of Dr. Harrington of the College faculty, who have been the guests of their uncle, R. Harrington, Peachland, are expected here shortly. Mr. Harrington with his family will live in the cottage on Collogo drive recently erected by L. C. Woodworth.

Remember the date of visit of Dr. S. L. Taube, eye-sight specialist of the Taube Optical Company of Calgary and Vancouver, who will be at Summerland Drug Store, Summerland, on Tuesday, Dec. 3rd. If there is anything wrong with your eye-sight don't fail to consult him. All work absolutely guaranteed as tested. n 20

The Collogo faculty are preparing for a concert to be given on December 18th. Among those who will take part are Miss Colwell, the Lady Principal, who will give some readings, Miss Higgin, violin selections, Miss Hurschman, piano solo, and Prof. W. H. A. Moore, vocal solos. Watch for advertisement in next week's paper.

Shiloh The family remedy for Coughs and Colds. Shiloh costs so little and does so much!

FATAL ACCIDENT AT NARAMATA

A teamster, Louis Ericson, met with an accident yesterday at Naramata which resulted in his death. While resting his team of horses on a grade he stood between the front and rear wheels. Becoming frightened the team shied suddenly, throwing the driver, and the rear wheel passed over his abdomen. The accident occurred about 4.30. The team went on to camp, and the men started back from there in search of the teamster. He was immediately hurried to the emergency hospital where he died at noon to-day.

J. L. Hilborn was up at Vernon recently on a business trip.

Mr. and Mrs. Thomas Moore spent last Sunday in Peachland.

BORN—At the Vernon Jubilee Hospital, on Wednesday, November 20th, to the wife of Mr. S. P. French, Jun., a daughter.

Mrs. R. C. Lipsett, accompanied by little Marguerite Moreland, spent a few days last week with her sister, Mrs. J. B. Robinson, Peachland.

If you want to sell you must advertise.

Common Mistakes in Marketing Fruit.

By J. P. CAREY, Dominion Fruit Inspector, Toronto, in the Canadian Horticulturist.

There is one aim that stands out above all others in the minds of those engaged in any particular business, and that is to shave or manipulate their operations as to enable them to secure the greatest possible profits. In order to reach this degree of perfection, there are two great essentials, namely, a close and careful study of conditions surrounding the particular business in which one is engaged, and then the application of business methods. This, perhaps, will apply more forcibly to fruit handling than to any other business.

In approaching the subject, "Common mistakes in Marketing Fruit," one is likely to reach the conclusion, after a study of the fruit business up to a few years ago, that it has been one huge mistake or that it has consisted of a succession of mistakes. Perhaps the greatest mistake has been the one that was made by the grower when he divorced himself from the idea that he had anything to do with the marketing of his fruit. The common impression with the average grower seems to have been that when he placed the tree in the ground there his responsibility ended, and that every step to be taken further until the fruit reached the consumer, was within the province of dealers. This being the case the grower was not as interested in growing a good quality of fruit, nor in its proper harvesting and packing as he otherwise would have been. This was the grower's mistake, and now he, as well as the trade generally, have discovered, to their sorrow, that as a result of bad practices the consumers of Canadian fruit have been unfavorably impressed with it. In consequence it may take some years to live down the mistakes of the past.

Within the last few years the trade has undergone a great change in its methods of marketing followed. The numerous co-operative associations organized throughout the province has at last set the grower thinking. Now he knows that he is interested in the fruit until it reaches the consumer, and that the size of his cheque will be regulated by the good or bad sales made. Naturally, therefore, he is now interested not only in the quality but also in the proper packing and handling of the fruit.

We come now to the fruit dealer. Some few may say that the dealer or middleman should be cut out. I agree with the majority that there is room and always will be room for the reputable dealer or middleman. With them we have the two mediums through which to market our fruit, namely co-operative associations and reputed dealers.

Have the dealers made mistakes? Just have a talk with a dealer of twenty-five years' experience and ask him. Perhaps the greatest mistake made by dealers has been the handling of too large quantities of fruit. This involves the hiring of a large number of operators and results in a large percentage of men or boys being engaged who know little or nothing about the work. As a consequence, through lack of judgment, large quantities of inferior fruit are placed on the market, shipments are refused, and contracts broken. It also involves on the one hand the picking and marketing of immature fruit, in order to get the work done, and on the other hand, that which is equally as bad, the leaving on the trees of large quantities of the best fruit until caught by the wind storms or frost. This always has been no small cause of our marketing troubles.

One dealer informed me that he made a mistake when he took an advance on his shipments, which necessitated all his apples going to a certain quarter whether it was the best market for them or not. Other dealers may have discovered that they have made similar mistakes, and it is just possible that some of those who gave the advances have made the same discovery.

CO-OPERATIVE ASSOCIATIONS.

Do co-operative associations make any mistakes? They do. The principle of co-operation is perfect. The practice sometimes faulty. The kingpin on which turns the success or failure of an association seems to be the manager. Accepting anyone as manager except a first-class man is the greatest mistake an association can make.

Some of the associations made the grave mistake the first year of their existence of not making their initial pack such as to give their dealer good satisfaction. As a result they had to look for a new dealer the second year. Changing dealers each year is bad business. It never has been known to give more than ordinary results.

It has been truthfully said that the best advertisement is a "satisfied customer." This surely is the key to successful marketing; and should be the aim of not only the association, but of each of their individual members.

At first thought we naturally conclude that the higher the contract price received for our fruit the better. This has proved to be a great mistake. A manager of an association may, by holding at an exorbitant figure early in the season, secure a contract for his pack at his figure. Later however, when the fruit is delivered, or being delivered, if the dealer finds that he is being loaded up with fruit of only ordinary quality bought at fancy prices, while his competitor across the street is putting him out of business with fruit bought at a reasonable price, then there is bound to be trouble. If the fruit is at all defective it is refused, or a rebate is demanded, or perhaps a lawsuit results. I would much prefer a good reasonable "live and let live" price, with no rebates and no lawsuits.

Perhaps the greatest problem yet unsolved, and a requirement that should engage the attention of the shipping end of the trade, is the pre-cooling of fruit before shipment. It is required in order that the consumer may get a larger percentage of our fruit at its best.

There is another general practice in marketing which all growers and shippers should war against, and that is the placing on the market of too large a percentage of the lower grades of apples.

With the higher ideals that now seem to be established in the minds of the growers and the packers, coupled with the facilities that are being placed within the reach of all concerned, we should soon be able to eliminate our most serious marketing troubles, and secure for the Canadian fruit industry the high place it is entitled to in the markets of the world.

GREAT NORTHERN WILL BUILD LINE TO OTTER SUMMIT.

The Kettle Valley line and the Great Northern Railway have finally made an arrangement respecting railway construction covering the Hope range and approaches. As a result of a conference between Mr. J. J. Warren, president of the former company, and Mr. L. C. Gilman of Seattle, assistant to the president of the Great Northern, it has been agreed that the latter road will build a double-track line eight miles long, up the west fork of the Otter River to Otter Summit, to be used in common by both companies.

The section referred to is east of the summit of the Hope Mountains. In virtue of the same arrangement the Kettle Valley line will build a single-track line, ultimately to be double-tracked, between Otter Summit and the summit of the Hope Range, a distance of twelve miles. This last-mentioned section is now being built by Messrs. Twohy Bros., railway contractors. The Nicola Valley branch of the Kettle Valley line from Merritt will effect a junction at Otter Summit.

No details have reached here as to which of the two companies will undertake the building of the proposed single-track line from Hope Summit down the Coquahalla River to Hope, on the Fraser River. This line will be used in common, and will be built at the expense of both companies.

LETTER TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

THE OVER-SEAS CLUB.

The Editor, Summerland Review.

Dear Sir: I am glad to report that the total membership of the "Over-Seas" Club has now reached the grand total of 100,623. I must say the good which can be done by the Over-Seas Club is incalculable if only all the members will bear in mind the creed and objects of our organization. Excellent work, along patriotic lines, is being accomplished by the Over-Seas Club in all parts of the world. In Canada we have made splendid headway, and have upwards of 35,000 members in 75 active branches. I think the work of the Over-seas Club is much handicapped by the fact that there is no specific medium to stimulate interest among the members.

Our organizer, Mr. Evelyn Wrench, is now on his way to visit the branches of the Over-seas Club in New Zealand and Australia.

CHAS. A. MARSHALL,
Hon. Sec. and Treas.

BETTER THAN THE BEST.

While it is generally admitted that The Family Herald and Weekly Star of Montreal is the best family and farmer's weekly paper printed, the Publishers are determined to make it still better. They are sparing no expense to give their subscribers of 1913 bigger value than ever. Their beautiful picture, "Mother's Treasures," is a delightful subject for the home, and it is safe to say that no one who receives a copy would part with it for double the money.

No mistake can be made in sending one dollar for that great weekly paper for 1913. Every subscriber gets the picture, "Mother's Treasures," size 23 by 29 inches, free. It is the biggest dollar's worth offered to-day.

APPLE DUMPLINGS.

Make a soft pastry dough, using baking powder and shortening with the flour, and mixing with milk. Roll out about half an inch thick, and cut into squares. Pare and core some good-sized tart apples. Lay an apple in the centre of each square of dough, and fill the core cavity with sugar. Fold the dough around the apples, tie each in a small pudding cloth wrung out of hot water and floured on the inside, drop into boiling water, and cook briskly for an hour. Serve with a hard sauce.

A tourist from the east, visiting an old prospector in his lonely cabin in the hills, commented: "And yet you seem so cheerful and happy." "Yes," replied the one of the pick and shovel. "I spent a week in Boston once, and no matter what happens to me, I've been cheerful ever since."

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Greenwood, B.C." will be received at this office until 4.00 p.m., on Monday, December 9, 1912, for the construction of a public building at Greenwood, B.C.

Plans, specification and forms of contract can be seen and forms of tender obtained at the office of Mr. Wm. Henderson, Resident Architect, Victoria, B.C., at the Post Office, Greenwood, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, November 18, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department—29965 n 20 d 6

Ontario Fruit Trade to Abolish Middleman.

Cold Storage Houses to be Erected on the Prairies.

Alex. Earle, western market commissioner of the Ontario Department of Agriculture, is in the prairie cities gathering information regarding the fruit trade. The department is endeavoring to get the eastern producers and western consumers closer together in order that the former can get a better price for the fruit and the latter will not have to pay so much.

It is likely that a system of cold storage houses will be established at principal centres in the prairie provinces in which stocks will be kept and sold direct to the retailers, or to the consumers at a fixed price. This will eliminate the several middlemen who now seem to get a slice of the difference between \$1 a barrel in the grower's orchard and the \$5.50 in the Manitoba home. The Doukhobor fruit growers in British Columbia have already bought sites in several western centres for warehouses, with the intention of selling their fruit direct to consumers.

It was thought that with their communistic methods they will capture the trade of the prairie provinces, as in their case there will be no middlemen to milk both ends.

HOTEL DESTROYED BY FIRE.

At five o'clock Thursday morning of last week the New Zealand Hotel at Hedley was completely destroyed by fire. No casualties resulted, but many had some very narrow escapes; nothing was saved.

Mr. Jackson, the proprietor, suffered a few burns after dashing up the burning staircase and saving his little child. Mrs. Jackson would not drop the child through the bedroom window to willing hands below, so Jackson had to do something quick or wife and child would be lost. It was a plucky deed. Mrs. Jackson was let down by a rope through the window. The livery barn and the Grand Union Hotel, both within sixty feet of the burning building, were saved with great effort. The hotel loss is partly covered by insurance.

ONTARIO PEACH SHIPMENTS A FAILURE.

The shipments of Ontario peaches to London, England, this year were not nearly so successful as last year. Many of the cases arrived on the market with 25 per cent. of the fruit either partially or wholly decayed. Evidently they were picked over-ripe, but in some cases the fruit must have been blemished, for the fruit arrived there as black as coal.

Some shipments of Ontario tomatoes were also made, and in this case, too, failure followed, and the Covent Garden merchants refused to put them on the market. Covent Garden men are doubtful if a tomato trade from Canada can be made a success, and certainly not without great improvements in packing.

PROPORTIONAL REPRESENTATION

Proportional representation has been adapted in New Zealand, which has been a leader in so much progressive legislation. Under the system of proportional representation each voter states his choice in the order of his preference. That is to say, he indicates the candidate he desires to be elected, and also his second and third or more choices. It is claimed that this principle, of which Earl Grey is an ardent supporter, gives a much more just representation than the present system of voting. Under the present system the minority, no matter how large, has no political power. An exchange illustrates this in the following manner: Suppose there were four tickets in the field opposed to each other. Suppose three of the candidates each polled 1,000 votes and the fourth 1,001. The latter would be elected, and votes of the other 3,000 electors would be without representation. The Ottawa Citizen declares itself in favor of the adoption of proportional representation in Canada.—St. John Telegraph.

THE WHOLE FLOCK.

Freddie's mother was trying to persuade him to go to bed early. "You see, my dear, the little chickens go to roost soon after the sun goes down," she said. "Yes, mamma, but the old hen always goes with them."

Bargains for OUR Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1
 Vancouver Daily Province - \$3.00
 Better Fruit - 1.00
 The Review - 2.00—6.00
 The three for **\$5.00**

BARGAIN No. 2
 Canadian Courier - \$3.00
 Canadian Horticulturist - .60
 The Review - 2.00—5.60
 The three for **\$4.60**

BARGAIN No. 3
 Vancouver Daily Sun - \$3.00
 Country Life in America - 5.00
 The Review - 2.00—10.00
 The three for **\$8.00**

BARGAIN No. 4
 Canadian Horticulturist - .60
 Canadian Poultry Review - .50
 The Review - 2.00—3.10
 The three for **\$2.70**

BARGAIN No. 5
 The Busy Man's Canada - \$1.00
 World's Work - 3.60
 The News-Advertiser, Daily 3.00
 The Review - 2.00—9.60
 The four for **\$7.00**

BARGAIN No. 6
 Winnipeg Telegram - \$2.00
 (or Free Press)
 B.C. Saturday Sunset - 2.00
 Canadian Magazine - 2.50
 The Review - 2.00—8.50
 All four only **\$6.60**

BARGAIN No. 7
 World Wide - \$1.50
 Farmers' Advocate - 1.50
 Free Press, Weekly - 1.00
 The Review - 2.00—6.00
 The four for **\$4.75**

BARGAIN No. 8
 British Columbia Magazine - \$1.50
 Toronto Mail and Empire - 1.00
 Farmers' Advocate - 1.50
 The Review - 2.00—6.00
 All four for **\$4.50**

BARGAIN No. 9
 Calgary Herald - \$3.00
 Collier's (Canadian Ed.) - 5.50
 The Review - 2.00—10.50
 The three for **\$8.90**

BARGAIN No. 10
 Vernon News - \$2.00
 Toronto Saturday Night - 3.00
 The Review - 2.00—7.00
 The three for **\$5.85**

BARGAIN No. 11
 Canadian Pictorial - \$1.00
 Windsor Magazine (13 mos.) 3.25
 The Delineator - 2.00
 The Review - 2.00—8.25
 The four for **\$5.75**

BARGAIN No. 12
 Rod and Gun - \$1.00
 Poultry Review - .50
 Nor-West Farmer - 1.00
 The Review - 2.00—4.50
 All four for **\$3.90**

BARGAIN No. 13
 The Garden Magazine - \$1.85
 Canadian Courier - 3.00
 The Review - 2.00—6.85
 The three for **\$5.75**

BARGAIN No. 14
Weekly Edition of either—
 The Province -
 Calgary Herald -
 Winnipeg Telegram -
 Winnipeg Free Press -
 Family Herald and Weekly Star
 Toronto Mail and Empire (and Borden Picture)
 or
 Montreal Witness - 1.00
 Canadian Sportsman - 2.00
 McLean's Magazine - 2.00
 The Review - 2.00—7.00
 The four for **\$5.40**

If none of these combinations suit you, make up one to your liking, and we will quote you a price on the selection.

We are also Subscription Agents for—

The Ladies' Home Journal - \$2.00 | Country Gentleman - \$2.25
 Saturday Evening Post - 1.50 | The Fruit Magazine - 1.50
 Successful Poultryman - .50

These Offers are for old or new Subscribers. If present Subscribers are in arrears it will be necessary to pay to date before these Bargains become available.

SYNOPSIS OF COAL MINING
REGULATIONS.

COAL MINING RIGHTS OF THE
Dominion, in Manitoba, Sas-
katchewan and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the
Province of British Columbia, may
be leased for a term of twenty-one
years at an annual rental of \$1 an
acre. Not more than 2,560 acres
will be leased to one applicant.

Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.

In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.

Each application must be accom-
panied by a fee of \$5 which will be
refunded if the rights applied for
are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.

The lease will include the coal
mining rights only, but the lessee
may be permitted to purchase what-
ever available surface rights may be
considered necessary for the work-
ing of the mine at the rate of
\$10 an acre.

For full information application
should be made to the Secretary of
the Department of the Interior,
Ottawa, or to any Agent or Sub-
Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B. - Unauthorized publication of this adver-
tisement will not be paid for.

The "Review" Job
Department is up-
to-date in every res-
pect.

AN ARTFUL APPROACH.

"Son, why don't you play circus?
It's great fun. First you make a
sawdust ring."
"Where'll I got any sawdust,
dad?"
"Here's the saw. Just saw some
of that cordwood into stove lengths.
You can have all the sawdust you
make."

Naramata Notes.

The Drug Store is proving to be
quite an addition to our town.

Captain Languedoc secured
another fine young deer last week.

Remember the bazaar on Wed-
nesday afternoon, December 4th,
in the Naramata church.

Miss Mason and Miss Logie of
Summerland attended the "Mother-
land" party last Saturday.

Work on the K.V.R. is progres-
sing rapidly on this side of the
lake. Four new camps are to be
started very soon.

Quite a large number of ladies
from Summerland and Naramata
attended Mrs. R. C. Robinson's
post-nuptial reception on Wednes-
day and Thursday of this week.

The second in the series of dances
which are being given in the Hall,
under the management of Mr. and
Mrs. Deans Walters, was held last
Saturday and proved to be a splen-
did success. The "Maple Leaf and
Heather Party" - the next in the
series - will be held on Thursday
evening, December 5th.

The Brotherhood to Discuss
Socialism

The Brotherhood meetings which
are held around the fireside at the
home of Rev. F. W. Pattison each
Tuesday evening, will be led by
Rev. A. W. McLeod. The subjects
are sociological and are outlined
by the greatest sociologists of
America, in the little magazine,
"The Gospel of the Kingdom,"
which are, in fact, studies in Social
Reform. The syllabus for Decem-
ber deals with the general subject,
"Crime and the Criminal," and
considers particularly "The Pre-
vention of Crime" from the fol-
lowing viewpoints: 1. Environ-
ment; 2. Temperance; 3. Work
and Play; 4. Social Standards;
5. Religion; which will be dealt
with in their respective order at
the Tuesday evening gatherings.

The outline for the first quarter
of 1913 might also be given which
is as follows:

- January - POVERTY.
5. Existing Conditions in the
United States.
12. Causes of Poverty.
19. Effect Upon Morals.
26. What To Do About It.

- February - WEALTH.
2. Existing Conditions in the
United States.
9. Causes of Concentration of
Wealth.
16. Effect Upon Character.
23. Effect Upon Society.

- March - SOCIALISM.
2. What Socialism Is.
9. The Merits of Socialism.
16. The Dangers of Socialism.
23. Syndicalism and Anarchy.
30. Christian Socialism.

All men interested in these sub-
jects and the welfare of their fel-
lows are invited to these discus-
sions. Come next Tuesday evening
and consider the prevention of
crime from the viewpoint of the
environment.

"Why, papa, this is roast beef,"
said a little boy at the table, while
company was present. "What of
it?" asked the fond parent. "Well,
you told mamma this morning you
were going to bring a mutton head
home for dinner."

West Summerland.

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

Start of Double Canoe Race at one of Naramata's Regattas

Take a trip to the Okanagan this summer and stop at Naramata! Get acquainted with
this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience
overlooking the Lake is at your service. One summer spent in Naramata means every
summer spent there until you finally conclude there is no real living anywhere else.
Then a nice 5 or 10 acre fruit farm on the benches solves the question and makes you
independent for ever afterwards.
