SUMMERLAND, B.C., OCTOBER 4, 1912.

Whole No. 217

Summerland Awaits Royal Party

Civic Address To Be Delivered at Wharf

Boy Scouts and School Children Will Participate in Reception Program

Summerland will, to-morrow, receive the honor of a visit from H.R.H. the Duke of Connaught and the Vice-Regal Party, and will extend to him and to T.R.H. the Duchess of Connaught and the Princess Patricia a welcome as loyal as British hearts can give.

Our town has made elaborate preparations for their arrival. Our streets have been cleaned, our buildings decorated, our flags raised to the mast-head, and to-morrow we gather in thousands to honor and welcome him who is the representative of His Gracious Majesty, our King, not only because he is such representative, but because of our appreciation of his personal worth.

All the details of the reception have been completed. A flotilla of motor launches will go out to meet the Okanagan, and escort the Royal Party to the wharf. Immediately upon landing their Royal Highnesses will be met by Reeve Thomson, when the address of welcome will be presented and the reply made by H.R.H. the Duke of Connaught.

Then will follow the Boy Scout review by the Duke, who is Scoutmaster of the Dominion; after this the presentation of a bouquet of roses to each of their Royal Highnesses, the Duchess of Connaught and the Princess Patricia.

At the conclusion of these proceedings at the wharf the Royal Party will enter the waiting automobiles to be taken on a sight-seeing trip through the fruit valleys and orchards of the district. The route to be followed is that given in our issue of two weeks ago: from the wharf, north by the Lake Shore, through Peach Orchard, and up the switchback, round by Capt. Webb's, across Jones' Flat, past Col. Cartwright's, up Prairie Valley, through the Agur estate, returning, through West Summerland, passing the new Anglican Church and turning south around Giant's Head, and coming down through the Zimmermann Gulch Road to Trout Creek point, and back to the starting point, via the Lake Shore Drive.

The civic address of welcome to be presented by Reeve Thomson to H.R.H. the Duke of Connaught, is on display to-day in the window of the Summerland Supply Co.'s Store. The design, wrought by Capt. Coode, is most artistic, deserving of high praise and commendation.

Mr. Wm. Simpson is back from a trip through the Washington fruit districts, where he went with Mr. Carrol Aikens and party. Mr. Simpson returns more than ever satisfied with the Okanagan. He was surprised on returning home to find melon vines and other tender garden stuff growing as in August. Everywhere in the South, where they visited, frost had been experienced.

Mr. and Mrs. McDougall, who have been occupying the Phinney cottage for some months, went down to Vancouver the first of the week. When he came home Mr. McDougall was in very poor health, but of late he has made wonderful progress toward recovery. He had intended spending the winter in California before returning to take up his work in Vancouver, but so satisfactory has been his progress while here that he has decided to spend the winter here rather than in California.

In searching for suitable help for orchard work Mr. G. W. McLaren has been advertising in some of the Old Country papers, and now has a considerable list of desirable young men of the middle class who are desirous of coming to this country, and, for the sake of experience, are willing to come on particularly favorable terms. A number of the letters which Mr. McLaren has received have appended to him, and indicate the writers as being of the right sort. Mr. McLaren will willingly give access to this list to any who are desirous of procuring help.

The following are the names of those who, with their autos, will convey the Vice-Regal Party over the district to-morrow, and, respectively, the name of the one assigned as escort to each car: Mr. N. Bentley; Mr. Jas. Ritchie; Mr. J. J. Mitchell; Mr. A. Richardson; Mr. T. G. Garnett; Mr. C. Cordy; Mr. R. W. Deans; Mr. Caldwell; with Reeve Thomson; Mr. J. M. Robinson; Rev. H. A. Solly; Mr. H. Sutherland; Mr. G. J. Coulter White; Mr. H. S. Lewes; Mr. W. J. Robinson; Mr. H. Dunsdon as escorts.

It is not known how many of the party will be desirous of taking the trip, and, therefore, whom each car will convey. H.R.H. The Duke of Connaught will occupy the first car, with Mr. Thomson as escort.

It has been requested that the school children meet at the Supply Co.'s Store down town at 10.00 a.m. to receive their supply of flags, and that the Boy Scouts, the School children, and all those taking active part in the formal welcome, be at the wharf by 10.30 a.m., so that sufficient time may be had for allotting the different positions. It is also requested that the wharf and the streets north from the Post Office be kept clear of horses and carriages for the greater convenience and freedom of the automobiles and attending pedestrians.

The arch erected on the wharf as part of our welcome demonstration is one of which our citizens should be justly proud. The design is calculated to give a massive and substantial effect, and reflects great credit upon Mr. Atkins who wrought it. The decoration of apples and Oregon grapes by Mr. T. C. Orr, have added an individualistic touch of local color. The warehouse of the Okanagan Fruit Union has been well cleaned, and boxes of apples tastefully arranged for the inspection of the Vice-Regal Party.

West Summerland has prepared for the Royal Visit by elaborate decorations. The streets have been cleaned of all debris, and the roads cleared of the summer's obnoxious growth. Streamers and flags have been strung across the streets in the town centre, while all the business blocks have had their fronts artistically hung with bunting.

The steamer Okanagan, conveying the Royal Party, passed Summerland on its way to Penticton at 3.20 this afternoon. She was met just off Naramata by the steamer York, which gave the Royal Salute.

The following is the lake itinerary of H.R.H. the Duke of Connaught and the Vice-Regal Party, as received by those in charge of affairs: Leave Okanagan Landing at 11.30 a.m., Friday, October 4th; arrive Penticton at 4.00 p.m., Friday.

Leave Penticton 10.00 a.m. Saturday, Oct. 5th; arrive Summerland, 10.30-11.00 a.m., remaining one hour and a-half.

Leave for 'Kolowna, arriving about 2.00 p.m.; remain an hour and a-half; leaving for the Arrow Lakes and a trip on the Columbia River.

CAMP WORK.

The railway Camps' Committee, in charge of the social work at the different camps, held a meeting on Wednesday last in the office of the Municipal Buildings. The Sunday afternoon meetings, with their leaders, at the various camps, were decided upon. The chief item of business was that of finances to carry on the work, especially the provision of good literature. This is a worthy cause, deserving of generous support. Mr. G. J. C. White, treasurer of the committee, would gladly receive any contributions.

Fred Manchester and bride are at Naramata, having arrived there on Wednesday from California.

UNABLE TO ACCEPT.

Hon. Martin Burrell Cannot Accept Board of Trade Invitation.

Of the two committees appointed at the last meeting of the Summerland Board of Trade only the first will have any duties to perform, the banquet committee will not have the anticipated honor of dining the Minister of Agriculture. The following telegram was received by the secretary of the Board of Trade on Wednesday morning:

Victoria, Oct. 1st.

A. L. Moreland,
Minister desires me to express his thanks for invitation and regrets that as His Royal Highness wishes him to accompany him to Nelson from Okanagan Saturday he is unable to accept. Hopes to see Summerland friends Saturday.

Wm. Ide, Private Sec'y.

There are some matters of much importance to this district which the Board is desirous of laying before Hon. Mr. Burrell, and an interview has been asked for. It is confidently hoped the minister can find time for this while in the vicinity this week-end.

The steamer Aberdeen began passenger service on Thursday night, relieving the steamer Okanagan, which has been commissioned to convey the Royal Party on their lake trip.

RAILWAY CAMP CONCERT.

A splendid concert was given by a number of townspeople at camp 5, Peach Valley, on Friday evening, Sept. 27th. One hundred and fifty people from the town, as well as a number of college boys attended.

After a short time spent in "getting acquainted" the following program was rendered, Mr. G. J. C. White occupying the chair:

Choruses by the boys' club, trained by Mrs. Jas. Ritchie; quartettes—Miss Mason, Miss Grace Logie, Messrs. J. W. and Ed. Logie. Vocal solos by Miss Ethel Brown, Miss Helen Sawyer, Miss Margaret White, Mr. Jas. O. Smith, Mr. J. W. Logie and Master Willie Smith. Recitation by Gordon Campbell. Readings by Messrs. Wm. Sauter and A. W. McLeod. Miss Bena Logie and Mrs. Jas. Ritchie acted as efficient accompanists. The special feature of the evening's program was the Norwegian solos by Mr. Peterson. The "yodeling" song, especially, brought down the house. All who attended are enthusiastic in their expression of the evening's enjoyment, and speak with unstinted praise of the generous collation provided by chef Nelson and his able corps of assistants. An "old timer" of the district pronounced it the best concert ever given in Summerland. One of the railway officials expressed his glad appreciation of the visit and his hope that another might soon be made.

All is to be feared where all is to be lost.—Byron.

\$150,000 Needed for Public Utilities

Amount Required to Carry Out Progressive Program

Matters To Be Laid Before Ratepayers Soon

A special meeting of the Council was held last Tuesday evening. This was for the purpose of wrestling with the problem of extending the various public utilities. The pressing need of conserving more water, and extending the present system of distribution to many of the properties within the Municipality not yet served, is realized, and the question has been thoroughly looked into, and Tuesday's meeting was to consider the financial aspect of the situation.

Before calling on Engineer Latimer to lay his figures before the Board, some correspondence was dealt with. A letter from Mr. W. Nelson, and another from Mr. Moyes, complaining of leakage in flume and water main, were referred to the Superintendent. Of the latter complaint the Reeve thought the leaky pipe had been or was to be at once cut off, that section being served by a new pipe recently laid. A letter from the Department at Victoria was read calling the attention of the Board to the fact that the B.C. General Agent in London needed some pamphlets in order to satisfy numerous inquiries in the Old Country, and the clerk was instructed to refer this to the Board of Trade.

The Medical Health Officer, who had recently visited some of the railway camps, particularly the Crandell camp, submitted his report. It is evident that the camp is so situated that there is some difficulty, even though the men are so disposed, to keep the creek free from contamination. Swine were found running at large and wallowing in the creek. The camp foreman was ordered to have them corralled and kept far enough away to avoid possible contamination. Speaking of this subject the Reeve reported that he had, since last meeting, had a constable visit all the camps, post abstracts from the Health Act, together with the penalty clause, and warning the foremen of the various camps against polluting the creek.

A communication from Dr. Andrew, who is Health Officer for the unorganized districts adjoining the Municipality, was also received. The doctor reported that the sanitary conditions of Trout Creek had been reported by him to the Provincial Police, and a constable would be sent to make inspection.

The Board were invited by the Secretary of the Union of Municipalities to send two delegates to the Annual Provincial meeting to be held at Revelstoke on the 22nd and 23rd insts. Coun. Robinson and Clerk Logie were elected to represent the Board.

A letter received by the Reeve from Mr. Osler asked that domestic water service be extended to his property in Prairie Valley, and offered to pay the expense of same.

The Clerk of the Municipality of Penticton wrote asking the Council to make the afternoon of Friday, October the 18th, the weekly half-holiday instead of Thursday. This is to enable the citizens to attend the Penticton Apple Show.

The condition of the road running from the Gulch road to Mr. Arnett's home was brought to the attention of the Board by the Clerk. Instructions were issued to Superintendent Mitchell to look into the complaint.

Engineer Latimer, who had spent some time on a preliminary survey of Garnett Valley, Jones Flat, and the northern section of the Municipality, presented his figures to the Board. To supply all this outlying district as well as to insure sufficient volume of water, and give additional pressure in the mains already laid, the Engineer advised the laying of a 18 inch main down Garnett Valley, and at the western end of Jones Flat the supply would be divided, diverting part of it to Jones' Flat and part to connect with the present system. This new main will insure an abundance of water for some time to come. In addition to the increased volume it is pointed out that the Enns Creek water is much more desirable for domestic use, being purer than

Trout Creek. Henceforth, owing to railway construction, etc., Trout Creek is not likely to be satisfactory. The Reeve expressed the belief that it would soon be found impossible to fill the Trout Creek reservoir, which would be disastrous. By supplying the winter needs of the district from Enns Creek the Trout Creek reservoir would be permitted to fill ready for the next irrigation season.

Electric light matters were also discussed, figures being submitted by Mr. Nixon who had had the assistance of the Engineer. It was stated by Mr. Nixon that with the electric light system extended over the district, not including Garnett Valley, from which section only one application had been received, it would be necessary to erect 12 and one-fifth miles of pole line, and that with the exception of a small deficit for the first year or two the proposition would pay all expenses, including the sinking fund and debenture interest. This without giving the system credit for additional street light that would be added. There was some difference of opinion as to the best way to generate the power, the Engineer recommending a Diesel oil engine, while Coun. Robinson contended that we should adhere to the present system rather than experiment with something of which we had no knowledge. While the Engineer admitted that there would be an additional expense in operation and maintenance, he claimed that the same capital expenditure would give a more powerful plant, and also argued that there was a question of the legality of using water for power purposes.

The extension of the present domestic water system and of the irrigation system were also considered.

After going into the question thoroughly it was found that \$150,000 would be needed to provide the necessary utilities. This would supply the needs for some years to come. It was felt advisable, however, that a plan looking to the future should be decided upon, and the necessary authority to issue debentures be obtained. The cost of the large main down through Garnett Valley to Jones' Flat will be about \$50,000. The new distribution system for Jones' Flat, the northern portion of the Municipality, and around to Peach Orchard, about \$25,000, and about \$8,500 will be required to put in the distribution system at Trout Creek, and \$2,500 to connect Paradise Flat with the present system, this including the cost of pumping engine and cement tank. Some other extensions brought the amount needed for the water system to \$90,000. \$40,000 will be required to cover the district with the electric light system, whether hydro-electric or oil engine. It is expected that the system will be practically self-sustaining from the first, and will therefore not increase taxes. \$10,000 will be needed for storage purposes, and another \$10,000 to carry water to various lots and to provide for other sundry needs, making the total amount required \$150,000.

The plans outlined will be considered again at the regular meeting of the Council on Tuesday next. It is probable that immediately after that date a meeting of the ratenayers will be called, and the plans laid before them for consideration.

HOSPITAL DONATIONS.

The matron of the Cottage Hospital gratefully acknowledges the following gifts for the month of September:

Doris Williams and Edna English—Kickaninios.

Mr. Fred Anderson—Venison.

Mrs. Merrill—Kickaninios.

Mrs. Moreland—Pickles and preserved fruit.

Mrs. Downton—Preserved fruit. Should any of the ladies of the town have old linen to spare the Hospital would gladly receive such gifts.

WELCOME.

Summerland extends a loyal welcome to His Royal Highness the Duke of Connaught, Governor-General of Canada, to Her Royal Highness the Duchess of Connaught, and to Her Royal Highness the Princess Patricia.

DOMINION CELEBRATION.

Toronto Oct. 2.—The United Empire Loyalists have decided upon a Dominion-wide celebration to commemorate the centenary of the death of General Sir Isaac Brock, who fell at the battle of Queenston Heights on October 13, 1812. The various forms of celebrations decided upon will include special services in all of the schools of Canada on the afternoon of Friday, October 11; a patriotic service and the decoration of the Brock monument at Queenston Heights on Saturday, October 12; a royal salute from cannon in all the military saluting points in Canada on October 12; and memorial services in every church on Sunday October 13. It was proposed to have Monday, October 14, proclaimed a national holiday, but after due consideration it was considered that the time was too short for securing such a proclamation and perfecting details.

A resolution was passed asking the Dominion Government to send a wreath to be placed on the monument of General Brock in St. Paul's Cathedral, London, October 13.

CANADIAN PEACHES FOR GREAT BRITAIN.

Canada has become an exporter of peaches. A carload of selected fruit from the Niagara district is being sent each week to England. The business is the result of an exhibit at the Crystal Palace last year. It is expected that within a short time Canadian peaches will be as well known in England as Canadian apples and pears are to-day.

"READY FOR MORE APPLES."

Apropos of the proposed shipment of apples to the Old Country early in November, comes the following reply received by one of our citizens to his question, "Are you ready for more apples?" which he asked in correspondence with a friend in England to whom he shipped some of our Okanagan apples last year:

"Ready for more apples?"
You just catch us there.
Any amount of them
That you can spare."

"Visions of last year's crop
Linger this side.
Color and quality
Can't be denied.

Our "home-grown" apples
Are very good eating;
Devins and Lefcesters
All take some beating.

Some good for elder,
Some good for ples,
Some for the table,
All good to the eyes.

Ribston's and Blenheim's—
All more or less known—
And our own Cornish Gills
Best apple grown.

But I'm bound to confess,
Both for color and size,
On the whole the Columbian
Must take the prize.

So I'll answer your question
Most joyfully "you,"
And in anticipation
Our thanks I convey.

BODY FOUND.

The body of James Cosnar, who was drowned a few days ago near Okanagan Landing, was found on the beach just below that point, on Tuesday last.

ISSUE No. 2.

SUMMERLAND, B.C., OCT. 4, 1912.

4-Page

THE ABOVE MADE POSSIBLE.

I have opened up a small Sub-Division in West Summerland, the plan of which will appear in this space next issue. The lots are already surveyed and on the market, and first come first served. Now these lots are very close in, only about 400 yards from the post office, and equally near the churches. These lots make one of the best propositions yet offered to the public, owing to their being so close in, and also owing to the extremely low price at which they are offered. \$50 down will handle one

of these lots, and balance, \$100, on very easy terms, this makes the price of a lot \$150. At this price I feel sure that they will be picked up very quickly. One of the great ambitions of the married man is to own his own home, sit under his own porch and read his newspaper after a well-spent day of hard work, no rent to look forward to, and whose only thought is to improve his home. These extremely low priced lots makes this picture just cited possible. Phone or call at my office for further particulars.

W.J. Robinson
REAL ESTATE & INSURANCE

LOCAL NEWS.

The many patrons of the hotel Summerland will be pleased to learn that an entirely new staff, under the direction of Miss Tully, has been secured for the kitchen, and the celestials have taken their departure.

The Hotel sample room has been turned into nice comfortable quarters for the railroad laborers, where they can get a place to sit and read or sleep at a very nominal cost.

I wish to correct an error in last issue. The Maples Ranch only contains 5 acres and not 7 as stated.

A few more money-saving Tungsten lamps left.

College Notes.

Mr. Frank Hayward, a student at the College, spent the week-end at his home in Naramata.

The rugby boys have already got together for hard work. Chas. G. Johnston has been appointed captain of the team, and Professor Denton coach. The first practice was held on the college campus last Friday afternoon. There is good material for a strong team, and some of the boys made a fine showing. Things should be "doing" this year. There is a possibility that a game may be played with the Kelowna High School boys at the time of the Apple Show, October 30th, 31st and Nov. 1st.

The college gymnasium has received some alterations in preparation for the opening of work on Monday, October 7th. The baths have been overhauled and placed in good condition, abundance of hot and cold water being provided for showers. Regular classes will begin Monday next, 7th inst. Although some readjustments may have to be made later work will be begun on the following schedule: college class (men), 4.15 to 5.30 p.m. Monday and Wednesday. College class (women), 2.15 to 3.30 p.m., Tuesday and Thursday. Class for school-boys, 3.45 to 5.30 p.m., Tuesday and Friday. Evening class for men, 8 to 10 p.m., Tuesday and Thursday. Evening class for ladies, 8 to 10 p.m., Wednesday and Friday. If there is any demand for it, an afternoon class for girls will be started in the public school building. The first class for boys will be held on Tuesday afternoon, October 8th, beginning at 3.45 p.m. On the same date at 8 p.m. the first evening class for men will be held.

The students of the College gathered in their Assembly Hall on Friday afternoon last to reorganize their Athletic Association for the year 1912-13. After an address by Dr. Sawyer on "The Co-Operation of Faculty and Students for Athletics," the following officers were elected: Dr. Sawyer, Hon. President; Ed. W. Armstrong, President; F. Williams, Vice-President; Geo. F. Clingan, Secretary; Chas. G. Johnston, Treasurer. An amendment to the constitution was suggested by the Faculty and adopted

by the student body, viz: that the executive of the association should consist of seven members; two of the Faculty appointed by the Faculty; the physical director; one from each of the three senior years; and one from the Commercial Form. The executive, as appointed, consists of the following: Faculty,—Professors Baker and Denton; Soph. Year—Frank Hayward; Freshman Year—Bryson Finnis; Matriculation—Ed. Armstrong; Commercial—Hilton Snider; Physical Director—Rev. A. W. McLeod. The Board of the College has given a grant of \$25.00 to the association for the work of the year. The membership fee of \$1.00 per term for male students is to be paid to the Treasurer of the College Board who transfers to the Treasurer of the association.

TO USE CONCRETE FOR KING EDWARD ROAD.

A portion of the King Edward Highway is to be built of concrete, the contract for its construction having been let on Sept. 11th by the Honorable J. E. Caron, Minister of Agriculture and Highways of the Province of Quebec. The King Edward Highway is the Canadian section of the International Highway, connecting Montreal with several large cities of the United States. Ultimately it is expected that this road will continue as far south as Miami, Florida.

It was the original intention that the entire highway should be built of macadam; but the Honorable Minister, who has under his jurisdiction the Canadian branch of the work, has become interested in concrete roadways, and has decided upon this important undertaking as a good place to try it out. Governments and municipalities are gradually coming to recognize the necessity of a more permanent form of roadway construction. That concrete is the material which best fulfils all the requirements of a permanent roadway, is a fact that will ultimately obtain world-wide recognition.

Proud looks make foul work in fair faces.

We enjoy thoroughly only the pleasure that we give.—Dumas.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Seymour Arm, B.C." will be received at this office until 4 p.m., on Tuesday, October 29, 1912, for the construction of a Pile Bent Wharf at Seymour Arm, District of Cariboo, B.C.

Plans, specification, and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq., District Engineer, New Westminster, B.C., F. W. Aylmer, Esq., District Engineer, Chase, B.C., and on application to the Postmaster at Seymour Arm, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

A HOME SNUGGERY.

There should always be one spot in the home sacred to the best interests of the family. A room full of comfort, where the sofa is made to lounge on, and the chairs to tilt back, and the carpet to dig the toes in; where bills and bickerings are alike forbidden, and the straight-laced propriety of the dining room or parlor can be abandoned for romps and story telling; where the dust doesn't show, and nothing is too fine to use, and at whose door all the burdens drop off as they will some time at the gate of heaven—a room whose speech is silver and whose silence is golden—where the tranquility of a summer sabbath is broken only by sweet murmurs of love and confidence, where a happy cat curls herself to repose in blissful affinity with the peaceful house dog, a place where the wicked cease from troubling and the weary are at rest. A sort of moral lean-to which adjoins the house beautiful. Here Jacob's ladder is planted, and angels ascending and descending bring with them endless measures of peace. Every home should have this one place of retreat.

It is no impossible place. Love is the architect; content its atmosphere. We find it in our friends' homes, often where least expected, and are surprised because it is never a show place. It is simply a golden room in a wooden house.

FASHION KILLS more women than toil and sorrow. Obedience to fashion is a greater transgression of the laws of woman's nature, a greater injury to physical and mental condition, than poverty and neglect. The slave woman at her task will live and grow old and see two or three generations of her mistresses pass away. The washer woman, with scarce a ray of hope to cheer her in her toil, will live to see her fashionable sisters die all around her. The kitchen maid is hearty and strong when her lady has to be nursed like a sick baby. It is the sad truth that fashion-pampered women are almost worthless for all the ends of human life; they have but little force of character; they have still less power of moral will, and quite as little physical energy. They live for no great purpose in life, they accomplish no worthy ends. They are only doll forms in the hands of milliners and servants, to be dressed and fed to order. They write no books, they set no virtuous examples of rich and womanly life. If they rear children, nurses and servants do all save give them birth, and when reared, what are they? What do they ever amount to but weak scions of the old stock? Who ever heard of a fashionable woman's child exhibiting any virtue or power of mind for which it became eminent? Read the biographies of great and good men and women. Not one of them had a fashionable mother. They nearly all sprang from strong-minded women, who had about as little to do with fashions as the changing clouds. The trite saying, "A man may say too much, even on the best of subjects," will answer here.

SCHOOL TEACHING.

At a teachers' examination they were asked by the superintendent "Why they taught school?" Nearly all of them taught from a desire to do good, and one or two were honest enough to confess they wanted the money. To teach for the sake of doing good is noble, and there is no harm in working for money, providing you do your very best to earn your money. Who ever expects to teach school on "flowery beds of ease" might as well abandon the field at the outset. There is no need for a teacher to be eternally grumbling about small salaries, school directors, and superintendents and unnecessary work. A teacher must make up her mind to work hard and to be found fault with. She must not be over-sensitive. Let her conscientiously strive to do her work and let a worrying, trying-to-please-everybody-spirit depart. Above all things, don't be forever grumbling, accept the situation and extract all the sunshine and sweetness out of it you can. We believe there is much enjoyment in plain, prosaic school teaching, and we speak what we know. Fathers and mothers are apt to express their opinion in a way that you will hear of it, if you happen to cross John or Mary, but that is only the bitter with the sweet. There are parents who appreciate your earnest work; you are sowing seed that will ripen into grand men and women if you are doing the best you can, working cheerfully, and not continually grumbling about your salary, the lack of appreciation, and your social standing. Dignify your labor. Be gentle and patient. And above all be earnest in your work.

A WOMAN'S INFLUENCE is very great for good or evil. A kind word from a wife or a mother may stay a man from untold evil, and one sharp, bitter, thoughtless word may drive him to desperation.

CHURCH NOTICES.

Baptist Church—At West Summerland every Sunday at 10.30 a. m. Sunday School at 11.45 a. m. At the Lakeshore Church 7 p. m. Sunday School at 11.30 a. m.
F. W. Pattison, Pastor.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30 a. m., Sunday School, 11.30 a. m. Evening, Fortnightly at 7 p. m., alternating with the Methodist Church. Rev. C. H. Daly, Pastor.

Methodist Church—Services every Sunday morning at 10.30. Sunday School at 11.30. Fortnightly evening service at 7, alternating with Presbyterian Church, West Summerland.
Frank W. Hardy, Pastor.

St. Stephen's Church (Anglican)—Holy Communion every Sunday at 8 a. m. except on the first Sunday in the month. First Sunday in the month Holy Communion at 12 noon. Matins 11, Evensong 7, each Sunday. Rev. H. A. Solly, B.A., Rector.

THE LETTER OF THE LAW.

Mr. F. E. Smith, M.P., tells a story of a County Court case he was engaged in, in which the plaintiff's son, a lad of eight, was to appear as a witness.

When the youngster entered the box he wore boots several sizes too large, a hat that almost hid his face, long trousers rolled up so that the baggy knees were at his ankles, and, to complete the picture, a swallow tail coat that had to be held from sweeping the floor. This ludicrous picture was too much for the Court; but the judge, between his spasms of laughter, managed to ask the boy his reason for appearing in such garb.

With a wondering look the boy fished in an inner pocket and hauled the summons from it, pointing out a sentence with solemn mien, as he did so. "To appear in father's suit," it read.

WOULD LIVE BETTER.

Man With Bowler—"That's a 'ard-workin' wife you've got, Bill!" Bill—"She is that; wiah I'd a couple more like her."—Idens.

NEW BOOKS

We have recently received a fresh supply of the LATEST FICTION, including such titles as—

Riders of the Purple Sage by Zane Grey
The Red Lane by Halman Day
The Math by Orcutt
Their Yesterdays by Harold Bell Wright
The Flower of the North by Curwood
and many others.

The Summerland Development Company

Has a few CHOICE LOTS left in their great Closing Out Sale. These are offered at the original price, in spite of the fact that the value of the land has been greatly enhanced through the activities of the District.

NOW is your chance to Invest in additional Holdings; or, if you do not own an Orchard, to establish a HOME in the Okanagan.

Both Improved and unimproved lands are offered. Those interested will be shown over the District at any time to suit their convenience.

Call on or Write:

The Summerland Development Co.

S. R. MACOWEN

SUMMERLAND - B.C.

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, OCTOBER 4, 1912.

PEACHES AND FREIGHT RATES.

The article reprinted from the Calgary Herald in last week's Review has created much discussion, and the discussion has revealed some serious misquotations of rates on the part of the Herald.

The Review, while believing that the C.P.R. should materially reduce its freight and express rates, has no desire to be unfair to that corporation, which, after all, has done much to develop this part of our fair Canada, and exceedingly regrets that it inadvertently quoted figures giving a false impression of that company's attitude toward the B.C. fruit industry.

A comparison of the figures given by the Herald, and the rates as quoted by the local office, reveals some wide discrepancies.

"A crate of American fruit laid down in Calgary" says the Herald, "costs 46 cents. To lay down a car of B.C. fruit costs 70 cents per crate." The tariff on peaches to Calgary, in carload lots, as quoted by the local agent, is 85 cents per hundred. As five boxes weigh 100 lbs. the freight is 17 cent per box. To this must be added the icing charge, which runs from \$35 to \$40 per car, averaging about 3 and one third cents per box, so that Summerland peaches in carload lots are delivered in Calgary at practically 21 cents per crate."

"The express rates are prohibitive, it costs \$3.20 per 100 lbs., and consequently there is very little of the products of the B.C. orchards shipped in this way," is the story of the Herald. Again taking the rate between Summerland and Calgary we find that the express charge on a single package is 45 cents, on 100 lbs. \$2.25. No rates could be had for carload lots by express to Calgary, but a rate of \$2 expressage in carload lots to Winnipeg was quoted, and to Saskatoon, and Strathcona (Edmonton) \$2.25 per 100. The usual icing charges are added to these rates. Going by freight the carload rate to Calgary as stated above, is 85 cents per 100. Less than carload lots \$1.27 per 100. On apples for the same destination the freight rate per carload is 58 cents, less than carload 85 cents. Peaches are billed at 20 lbs. per box, apples at 45 lbs. per box.

We note, too, that some of the Vancouver papers have been giving "reasons" why the wholesalers in that city do not handle more Okanagan fruit, and one of these merchants is quoted as saying that apples in carload lots cost 40 cents per box, freight. The rate, as quoted by the C.P.R., is 40 cents per 100, or for less than carload lots, 48 cents per 100.

A more complete organization of the fruit growers, not only of the Okanagan, but of the whole province is evidently much needed. With such an organization the distributing end of the fruit industry would also be better organized. The most serious feature of the unsatisfactory marketing conditions is the prevailing practice of the fruit distributors on the American side to "dump" on to the Canadian market rather than demoralize their own market. Something should and must be done to prevent this. This practice of dumping results in no good to anyone, and if continued would eventually mean generally higher prices to the consumer than would prevail under more normal conditions of supply and demand.

"DECADENT BRITAIN."

That Great Britain is losing her position as the world's leading commercial nation is sometimes stated by prominent citizens of other nations. That such is far from being the truth is evident from a review of trade statistics.

Instead of diminishing, Great Britain's trade is expanding at a rate which is a surprise to even the most optimistic. Notwithstanding labor troubles of a very serious character, and that the weather this year has been most unfavorable, business continues to grow, and it is now announced that the foreign trade of the United Kingdom for August exceeded by \$100,000,000 that of August 1911, while for the first eight months of this year the country's foreign trade is greater by \$290,000,000 than that of the corresponding period of last year.

There is no such record in the previous history of British commerce. Domestic trade, according to the London Daily News, is relatively quite as good as the foreign trade. The News says that the country is prosperous, and that there is every reason to think this prosperity will continue. It adds:

"Unemployment last month was lower than for many years, and the staple British industries are in a very flourishing condition. The cotton trade unions report 'full employment, with bright prospects for the continuance of this happy state of affairs; the engineers have no unemployed; more ships are being built than at any other period."

"The present boom in British industry dates from 1909, and has gone on without interruption since that year; but it is, in fact, the continuation at a much greater pace of a period of expansion which began in 1902 and was broken in 1908. The reason for the break in 1908 is familiar—the American financial collapse in October, 1907. It was British capital that contributed largely to reduce the ravages throughout the world of American financial heterodoxy, and British commerce both felt the ill results to a slighter extent than other countries, and recovered from them with exceptional rapidity. Inside twelve months British trade had resumed its forward stride, and it has gone on from 'record' to 'record' in spite of labor troubles of rare severity. For so quick a recovery and so prolonged an expansion there is no precedent. What we are now enjoying is not the fictitious boom following a wasteful war, nor the artificial expansion due to reckless speculation, but a firmly based development of industrial efficiency and industrial productivity."

THE BROCK CENTENARY.

We heartily commend the decision of the United Empire Loyalists at their meeting held in Toronto, September 25th, as reported on another page of this issue, to hold a Dominion wide Celebration in commemoration of the centenary of General Brock's death. We believe this move in the right direction. As Canadians we are far too prone to forget the men who have saved our nation, and to fail in realizing our "heritage of sacrifice." General Brock was one who gave his life to hold this country British, and his deed is rightly commemorated in our National Anthem.

It is fitting, then, that the centenary of his death should be observed in some special manner. We hope, therefore, that our schools will have appropriate exercises on the afternoon of Friday, October 11th, for the patriotic training of our children, and that our churches may hold memorial services on the following Sunday.

Local News Items. Local News Items.

Reeve Thomson was at Salmon Arm last week judging the fruit at the show there.

The Review is grateful to S. M. Young for some exceptionally fine Elberta peaches brought to this office this week.

Mr. T. J. Smith of Vancouver came in from Naramata on Thursday morning to look over his extensive interests here.

Dr. W. N. Gunning of Rossland was in town over Saturday 28th, looking over his new five-acre apple orchard, West Summerland.

Mr. Robert S. Day of Victoria, Provincial Agent of the Guardian Fire Assurance Co., Ltd., of England, was in town on business on Thursday last.

Mr. Harwood returned to his home in Vernon on Friday morning, having spent three or four days on a hunting trip in the hills of our district. No big game was brought down.

The W.C.T.U. will meet in the Club Room on Monday, October 7, at 8 p.m., and will be addressed by Mrs. Dorothy Davis of Vancouver, B.C. A cordial invitation is extended to all.

Mr. Jas. Clark, of Hatfield & Clark, took Mr. Dan Williams' new motor launch on a trial trip to Kelowna on Tuesday. The little boat made a good run, a speed of 14 1/2 miles per hour being attained.

One of the railroad construction workmen at the Clarke & Thomson camp was struck on the head and rendered unconscious by a piece of flying rock on Wednesday morning. The injury, however, was fortunately very slight, and the man was soon at work again.

Little Bessie, the four year old daughter of Mr. and Mrs. Harry Tomlin, while playing near the garden fence last Monday, fell on the barbed wire, receiving a deep gash in the cheek. The little girl was brought to the office of Dr. Andrew who put five stitches in the wound.

Constable Graham was called to Crandle's camp on Thursday morning to investigate a case of reported theft. A workman claimed he had lost fifty dollars, and charged the camp cook with the deed. It was found, however, that the charge could not be substantiated, and the case was dropped.

Hotel Summerland has been compelled to fit up its sample rooms with bunks in order to accommodate the large number of construction men constantly coming to the town. Rooms 24 and 26, just off the billiard and pool hall, have been transformed into splendid sample rooms for the display of travellers' goods.

Mr. Fred. Layton, of Penticton, trouble manager of the Government Telephone and Telegraph lines from Westbank to Penticton, was in town this week superintending the building of the telegraph line between Summerland and Penticton. The finishing of this short section completes the government telegraph line down the valley.

Mr. Henry Austin, one time in charge of the physical work of the men's club in Summerland, and lately of the Vernon Y.M.C.A., has been recently appointed assistant physical director in the Vancouver City Y.M.C.A. "The Y. Boy", the monthly publication of the Vancouver association, speaks very highly of his ability and work.

An informal reception for the new professors and students of the college is to be held in the West Summerland Baptist Church, Friday, October 11th at 7.30 p.m. The pastors of the various churches of the town will extend their greetings and well-wishes. A splendid program will be provided, after which a social hour, with refreshments served, will be spent. The many friends of the college will be gladly welcomed.

A young man was arrested on Monday night for being drunk and disorderly on the C.P.R. wharf. He had been somewhat quarrelsome before the arrival of the evening boat, but on embarking on it for Penticton he became abusive with the mate and had to be taken into custody. At the trial the following morning he made the plea of first offence and temptation by his companions. He was discharged on paying a fine of \$5.00 and costs. Our sincere wish is that such men might be protected in our non-licence district, and the real culprits punished.

Mr. Jas. Ritchie made a trip to Kelowna on Thursday last.

Mrs. K. S. Hogg returned home from Hedley on Wednesday morning, October 2nd.

Mr. and Mrs. C. P. Nelson have moved into their new home in Beach Avenue.

"Billy" Robinson has gone to Toronto where he will take a course in one of the schools there.

The opportunity to get good local gifts at a low price, offered by the Summerland Drug Co., should not be neglected.

Mr. J. S. Gardon of Victoria Provincial High School Inspector, was in town on Tuesday on his official duties.

Mr. Harry McLeod, formerly a lineman on the Government Telephone system, left on Wednesday for Kelowna, having accepted a position with the Okanagan Telephone Co.

Mr. J. M. Robinson went up to Vernon on Thursday morning, having been asked by the Municipal Council of that city to join them in welcoming the Duke of Connaught and Party to the Okanagan.

B. C. Moore, a former resident of Summerland, and now of the Prairie Coal Co., visited town this week. He made the journey from Regina via the Arrow Lakes and Boundary country in a touring car.

Dr. W. J. Knox and P. B. Willets, druggist, of Kelowna, arrived in town on Thursday night with a fully equipped outfit for a hunting trip of two or three weeks duration. Headquarters will be made at Mr. Sullivan's, Trout Creek.

The hour delay of the steamer Okanagan on the morning of Tuesday last, was caused by the unusually heavy traffic due to the removal of railway contractors' effects from Naramata to points further north on the lake.

The remains of Frank Holm, who met his death by accident at camp 19, as reported last week, were laid to rest in the Summerland Cemetery on Saturday afternoon, Sept. 28th. Rev. R. E. E. Harkness conducted a short service at the grave.

A workman at Ross's camp met with a serious accident on Monday, Sept. 30th, by having his foot severely crushed by falling rock. In the absence of Dr. Davidson of the K.V.R. hospital, Dr. Andrew was called to attend the unfortunate man.

Mr. H. Whitaker of Kaleden was in town on Saturday, and bought 50 boxes of No. 1 Summerland apples from Mr. C. J. Thomson. These apples are to be shipped to Barnsley, an important mining town in south Yorkshire, and will be exhibited at the annual fruit and chrysanthemum show there.

Rev. A. S. Everton, who has been supplying the Baptist Church of Vernon during the months of August and September, finished his work there on Sunday last. Mr. Everton has been appointed Professor of Theology in Okanagan College, and in addition to these duties will act as Pastor of the Baptist Church in Peachland.

"The Players" of Summerland, who so successfully put on "Cousin Kate" in the Empire Hall, as well as at Vernon and Penticton, will be seen in the same comedy at Kelowna on Tuesday, October 15th. The same troupe are now rehearsing "David Garrick," which will be played here some time in November. Special costumes for this comedy are now being prepared.

Mr. L. C. Woodworth is erecting a fine dwelling house on the hillside just east of the college gymnasium. The building will be occupied, immediately upon completion, by Mr. Jack Conway, clerk in the West Summerland branch of the Supply Co. Mr. Woodworth is also having a cottage erected further up the hill from this, and facing on the College Drive, to be occupied by Professor Harrington of the college staff.

A tension in the local lumber and building business was relieved last Tuesday by the arrival of the Castlegar with shingles and other building material. Building operations in the district had been delayed for some time owing to the lack of these supplies, and a number of contractors had become anxious over the situation, although the local dealers had orders for these lines for some time. This consignment will, however, start operations again.

The Gurney-Oxford is prompt

No matter what comes or goes—meals we must have.

The preparation of meals comes round three times a day.

Every housewife wants to know that she can depend on her stove absolutely; she wants to know that there is no element of chance or likelihood of mishap in her cooking arrangements; that meals will be ready promptly on time.

The Gurney Economizer is an assurance against accident and mishap in cooking. It is a simple device and found only on the Gurney-Oxford. One lever controls everything. The fire can be slowed down for hours and revived in a few minutes. An arrangement of flues makes the Gurney-Oxford Oven always uniformly heated—the Gurney-Oxford Oven is never to blame! It will make a good cook a better cook; it does more than its share towards making every meal a success and a pleasure.

**Borton Plumbing & Heating Co.,
SUMMERLAND, B.C.**

Kaleden Comments

Mr. A. S. Hatfield and Mr. H. Whitaker spent the week-end in Summerland.

The Mission Circle met at the home of Mrs. O. E. Tomlin on Wednesday the 2nd.

We are pleased to report Mr. T. C. Preston and Mr. A. S. Hatfield improving in health.

Miss Scott left on Friday's boat for a visit to Summerland before returning to the Coast.

A quantity of ripe strawberries were gathered on Mr. Purvis' lot during last week, which is another proof of the fertility of the soil in Kaleden.

It has been decided to hold the service of the Baptist Church at 3 p.m. on Sunday afternoons for the winter months. Sunday School will meet at 2 p.m.

An interesting event took place on the evening of Tuesday the 1st, when the reading room and library were opened to the public. The room is comfortably furnished in mission style, with easy-chairs, book-cases, etc. A well-selected library is already available for the use of those who read, and it is hoped in the near future to build a room that will be more commodious. Tea and refreshments were served by the Women's Club in Mr. Purley Simpson's store, the proceeds of which will go to augment the funds.

The following persons have registered at Hotel Kaleden during the last few days: Thos. Rae, Vancouver; R. J. Edmond, Hedley; Mr. and Mrs. Fraser Campbell, S. Penticton; Mrs. McNeil; Dr. W. N. Gunning, Rossland; Jas. Ritchie, West Summerland; Mr. and Mrs. O. E. Parkhurst, Riverside; Mr. and Mrs. C. E. Blackmore, Riverside; Miss Adele Blackmore, Riverside; J. E. Allnight, Riverside; Mr. and Mrs. J. F. Samson, Oroville; Mr. and Mrs. A. D. Balderson, Oroville; Henry Jentery, Vancouver; Mrs. W. G. Wilks, Dog Lake; Arthur T. Churcher, Dog Lake; P. Fox, Coldstream, B.C.

A splendid filling for sofa cushions may be made by taking ten cent's worth of cotton batting, cutting it into small squares and heating it in a baking pan in the oven for half an hour, care being taken not to let it scorch. Each little square will puff up to twice its size, and will be light and fluffy as a feather.

Naramata Notes.

Probably next week the tourist hotel will close for the season.

Mr. D. McKay has about completed a fine addition to his residence on Third Street.

Mrs. E. Mastin of Montreal is a visitor in town this week, the guest of a former school-mate, Mrs. J. C. Lyons.

Mr. W. Moore, local gardener, is giving up his position shortly with the intention of going to Vancouver. It is probable that the greenhouse may remain closed till the spring.

On Tuesday of this week there was a regular exodus of workmen to the number of about 75, to Kelowna, where they commence on wagon road work from that centre south toward the Summit.

Mr. Gerald Williams' new gasoline launch is now making good speed after a period of bucking contests. Several trips to Summerland have proved up splendidly in speed and safety.

Mrs. D. F. Hildabrand, wife of one of the railway contractors, has come to town, and will reside with her husband in a temporary cottage built for their accommodation on Mr. Hodson's lot.

E. W. Endacott returned from the south on Saturday, bringing with him a splendid bunch of horses for use in railway construction near town. The animals are all in good condition, and some of them were secured at fancy figures.

Ever take the bridge path up to the falls! Some people don't seem to know about them. Take Robinson Avenue as far as Camp Creek bridge, then follow a clever path along the creek. 'Twill lead you up and up. Better try it some day.

Quite an interesting freak of nature is noticeable at present a short distance above the saw-mill, where the creek recently took a "header," bodily running underground for a distance of 15 or 20 feet and reappearing as if nothing had happened.

Not being satisfied with the prospect of seeing the royal personages to-morrow at Summerland, a number of our citizens took a trip to Penticton to-day (Friday) to witness the celebrations in that town. Hope this won't prove to be getting too much of what is called good. Eh!

The construction of government roads, has for this season, come to a halt, and a number of the men are enjoying a few days rest. Naramata has now some of the best roads in the country. It yet remains to improve some of the early grades made when the proposition was just opening up, and when "rush" was the motto.

The Trust company has had quite a stretch of the sports ground seeded to alfalfa. The experiment, if successful, may lead to a very general use of this class of fodder for wintering the stock. Fact is it would then pay all those who prefer to keep their own cow, to stable their animal winter and summer—a practice which, if generally followed, would rid the growers of vegetables from Bossy's occasional depredations.

The concert given in the hall last Friday night by the Junior Epworth League drew a large crowd. The program, arranged by the prime mover, Miss M. Williams, was almost entirely of a juvenile character, consisting of choruses and recitations. Much of the musical part of the program was furnished by members of Miss Williams' music class. Mrs. Languedoc played the accompaniments with her usual efficiency. The proceeds amounted to about \$25, all of which will be available for the proposed library.

The attendance at the local school is now the largest in its history, and with the prospects of additional pupils it surely is time for the school board to bestir themselves and take the necessary steps toward securing an additional teacher. Why should we have to do pioneer work in this line. We're no poor community. The great bulk of the land is owned by absentees, many of whom are indifferent whether there is a graded school or an ungraded—or none at all. We can well afford the additional expense. Why not have the best that we can get for our children?

Modesty is a guard to virtue.

Write for the "Concrete Book"

IN Canada, where the winters are long and cold, houses must be solid and substantial. No "gingerbread frills," such as distinguish California bungalows, can be permitted. Canadian homes should be built to defy wind and cold, to keep warm inside when it's thirty below out-doors.

IT is because Concrete, of all materials, best withstands wind, water and cold, that it is fast becoming popular with Canadian home-builders. Concrete houses are warm in winter, requiring less coal for heating; they are cool in summer. A Concrete house never needs repairs; because, instead of decaying, it actually grows stronger with time and exposure to the elements.

VERY attractive architectural effects may be obtained with Concrete, especially for houses in the country, where the rough concrete surface harmonizes with its surroundings.

SINCE it never requires repairs, the first cost of a concrete residence is the last cost; and it is cheaper, for this reason, than any other kind of home. used in scores of other ways around the home and on the farm. For each of these purposes it is the best material known.

NOT only is Concrete the best material for house-building. It may also be IF you haven't investigated the use of Concrete around the home and on the

Dwarf Fruit Trees are in Great Demand.

Often Wanted by Lovers of Trees whose Room is Limited.

Dwarf trees will never take the place of standard stock, yet the wide attention which they have received during late years has increased the demand to such an extent that the supply has not kept pace.

This condition has been brought about, says E. M. Straight of Macdonald College, not because of any commercial value which such fruit may possess, but because of the appeal which dwarf stock makes to the small householder, the owner of the private estate or to the gardener who tills only his back yard. So far as we know the commercial value of the dwarf stock has never been tried out, but apple trees, twenty inches high, growing in a few feet of space, laden with fruit, are objects of much interest, and particularly fit them for culture by men who love trees and fruit but are forced to farm in limited quarters.

Dwarf trees assume their dwarfness either by grafting on dwarf roots or by rigorous pruning; but in common horticultural parlance the former only is meant. If a plum were grafted on a sand cherry root, the tree arising would produce fruit exactly the same as the tree from which the scion was taken, but the tree would be somewhat dwarfed. It would seem like a clear case of starvation. The cherry roots would not have the power to take up and assimilate plant food in sufficiently large quantities to nourish the plum tree as it was wont to grow, and it assumed the dwarf character.

Every one must have noticed wild apple trees arising in old apple pastures and beside rivers and lakes, which never obtain normal size. If the Fameuse were grafted on these, miniature Fameuse trees would be produced, which might be planted closely together, and which individually would bear a limited number of No. 1 Fameuse apples. If these roots could be propagated cheaply enough they would furnish a satisfactory source of supply. The Paradise stock is simply one of these dwarf varieties, and is the variety used for the purpose. The Paradise stocks are grown chiefly in France and is the dwarfest stick known for apples.

The reproduction of Paradise stock is secured by means of mound layering. This Paradise apple is naturally inclined to stool out somewhat from the roots.

This habit is encouraged by cutting the plants back to the ground. When the young shoots are thrown up they are banked up by a hoe or by plowing furrows up against the rows of plants. The young shoots then form roots at the base and these rooted shoots or layers are removed when one year old. They are then planted in nursery rows in the spring, when they are usually budded the following July or August.

The Doucin stock is simply another variety of the dwarf apples. It is more vigorous and larger growing than the Paradise and produces a tree, when ordinary varieties are grafted upon it, about midway in size between the ordinary standard apple and the same variety growing on the Paradise.

One of the greatest advantages of the dwarf tree is its early bearing qualities. Usually dwarf apples bear the second year after pruning, while the same variety of standard trees might not produce fruit for six years. The man who plants dwarf trees stands a fair chance of eating the fruit thereof.

A small tree has certain advantages over large ones. No stepladder is necessary in picking the fruit, no tower is necessary in the spraying outfit when spraying the tree, no climbing necessary during the pruning season; and what is lost in fruit per tree may be partially made up by the increased number of trees growing on a given area. What is lost in quantity is partially offset by the quality too, for apples produced on dwarf trees are superior in flavor and general excellence.

We have already pointed out how the needs of the gardener are served by the dwarf fruit; but the fruit men are finding a greater use for them as "fillers" in the orchard. When standard trees are planted thirty-five to the acre, which is now the usual practice, the land is not more than one-fourth occupied for the first years, and not more than half occupied for the first ten years. How to occupy this space during the early life of the orchard is a problem of great importance. Temporary trees set between the standard trees are known as "fillers." Dwarf trees are the most satisfactory for the purpose. They may be set half way between each two standards in every direction. Their dwarfness and early bearing particularly fit them for the purpose. A crop from the fillers may be harvested years before the standards come into bearing. As soon as the fillers interfere with cultivation or press upon the standards for room, they may and should be removed; but in the meantime they will have paid the running expenses of the orchard.

Dwarf stock costs more than standard because the trees are somewhat harder to propagate. Usually dwarf trees are shorter lived and certainly require more care. These considerations present the other side of the question, and must not be forgotten. No person should plant dwarf stock unless he intends to pay the price.

Dwarf plums, peaches and pears are also on the market and have a place there. The pear is dwarfed by grafting on quince roots, the peach by grafting on the plum, and the plum by grafting on the sand cherry.

Dwarf trees are receiving much attention at present. The fruit men should not be deceived, however. They have a place but should not be extensively planted in commercial work, except as fillers between standard trees.

DO "FADS" PAY?

This is an age of fashion. The one who breaks ranks is the exception. Everyone tries the "fads," and the "fads" pay. The newspaper as an advertising medium is well established, and advertisers find it the best paying medium. The old custom of tramping around in search of new goods, cheap wares and bargains has long since been abandoned. The people now on earth depend on the newspaper for this information. If you do not advertise you cannot expect a customer to wear out a five dollar pair of shoes to hunt you up. He does not, either. They all read the newspapers. Especially is this true of the Review, and if you are not there you are not "in it."

NOT HAVING ANY.

"Ah, glad to see you, old man. But take your overcoat off, or you won't feel it when you go out."
"That's the trouble. I took an overcoat off in the place where I called yesterday, and I haven't seen it since."

Bargains for OUR Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1

Vancouver Daily Province - \$3.00
Better Fruit - 1.00
The Review - 2.00 - 6.00
The three for \$5.00

BARGAIN No. 2

Canadian Courier - \$3.00
Canadian Horticulturist - .60
The Review - 2.00 - 5.60
The three for \$4.60

BARGAIN No. 3

Vancouver Daily Sun - \$3.00
Country Life in America - 5.00
The Review - 2.00 - 10.00
The three for \$8.00

BARGAIN No. 4

Canadian Horticulturist - .60
Canadian Poultry Review - .50
The Review - 2.00 - 3.10
The three for \$2.70

BARGAIN No. 5

The Busy Man's Canada - \$1.00
World's Work - 3.60
The News-Advertiser, Daily - 3.00
The Review - 2.00 - 9.60
The four for \$7.00

BARGAIN No. 6

Winnipeg Telegram - \$2.00
(or Free Press)
B.C. Saturday Sunset - 2.00
Canadian Magazine - 2.50
The Review - 2.00 - 8.50
All four only \$6.60

BARGAIN No. 7

World Wide - \$1.50
Farmers' Advocate - 1.50
Free Press, Weekly - 1.00
The Review - 2.00 - 6.00
The four for \$4.75

BARGAIN No. 8

British Columbia Magazine - \$1.50
Toronto Mail and Empire - 1.00
Farmers' Advocate - 1.50

**SYNOPSIS OF COAL MINING
REGULATIONS.**

COAL MINING RIGHTS of the
Dominion, in Manitoba, Sas-
katchewan and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the
Province of British Columbia, may
be leased for a term of twenty-one
years at an annual rental of \$1 an
acre. Not more than 2,560 acres
will be leased to one applicant.

Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.

In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.

Each application must be accom-
panied by a fee of \$5 which will be
refunded if the rights applied for
are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.

The lease will include the coal
mining rights only, but the lessee
may be permitted to purchase what-
ever available surface rights may be
considered necessary for the work-
ing of the mine at the rate of
\$10 an acre.

For full information application
should be made to the Secretary of
the Department of the Interior,
Ottawa, or to any Agent or Sub-
Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this adver-
tisement will not be paid for.

J. R. CAMPBELL

JIMMY'S LETTER TO DAD
Okanagan College,
West Summerland, B. C.,
October 2nd, 1912.

Dear Dad;
This week has been a real busy
one, but we are now well under
way with the work. We have now
got all our societies organized.
The board gave a grant of \$25.00
to the athletic society because we
were clean broke. They are sure
sports. I think the literary society
will do better this year. We are
expecting some cracker-jack de-
bates. Am awfully sorry that the
girls won't be in the Y.M.C.A.
meetings this year. They are to
have separate meetings in the
sem., and we have got to run our
own show, but I hear we are to
have meetings together in the
college chapel on Sunday evenings,
and that the board are going to
bring in some real good speakers,
so that perhaps it won't be so bad
after all. The classes are filling,
up fairly well, but only a very
few of the old girls are back, and
some of the fellows therefore have
put on sackcloth and ashes.

Last Friday a bunch of us went
out to a railway camp concert, and
after the concert, the cook, who
was a real jolly guy, provided a
great supper, and presented us all
with paper napkins. Tell sis I'll
save mine for her. I hope there
will be another concert soon, for
the buns and ham were sure good.

We expect to have our first
reception down at the church next
Friday evening, and we expect
then to get a formal introduction
to the new girls. I expect there
will be a free fight for we have
not enough girls yet to go round.
Quite a number are still expected,
but they are hanging back.

The Duke is to be here on Satur-
day. He is to pass round College
Hill in an auto. You bet we'll be
there to give His Highness the
good old yell. I hope he won't
think we are a bunch of Siwash.

Well, I must close now, for I've
got an awful dose of work to do.
The Profs. are sure soaking it in
this year. Tell Ma. I got her note
about the shirts and socks.

Your loving son,
JIMMY.

P.S.—The treasurers of the dif-
ferent societies will soon be round
collecting subscriptions. What
shall I do? I've only got about a
dollar left after buying all those
new books. I think ten dollars
will cover them.—J.

B. C. WINS MANY FRUIT PRIZES.

Vancouver, Oct. 2.—"That British
Columbia is a big factor to be
reckoned with as far as agricul-
tural prosperity is concerned," and
that Eastern Canada will have to
look well to her laurels in competi-
tion with this province, are two
points pretty well established at the
Dominion Fair held at Ottawa
recently, which I had the good
fortune to attend," said Mr. Mal-
colm R. J. Reid, Canadian Immi-
gration Inspector at the port of
Vancouver.

"I have returned from my trip
with pleasure, quite enthusiastic
over the showing of individual
British Columbia exhibitors, and
also the very creditable exhibition
made by the Provincial Govern-
ment. Both proved to be a very
great advertisement for the agricul-
tural possibilities of this section.
British Columbia, as a big com-
petitor with the eastern provinces
in the field of agricultural products,
loomed up bigger than ever before.

"British Columbia had a special
pavilion at Ottawa, in which the
fruits, grains, vegetables and tim-
ber products were mostly advan-
tageously shown. The C.P.R. and
the G.T.P. railways, showed splen-
did exhibits, and aided very materi-
ally in the advertising of this
province as a great agricultural
centre. Commissioner W. J. Brand-
rith had charge of the whole exhibit
and is to be given credit for the
excellence of the management.

Unfortunately no arrangements
had been made for the award of a
gold medal for the best exhibit,
but that a diploma has been given
to British Columbia for the best
arranged and most artistic exhibit
in the show. The Ottawa press
units in most appreciative praise
of this province and the exhibit it
had put forward as typical of its
resources.

Mrs. Young of Jones' Flat is
supplying the Vico-Royal Party
with fruit throughout their tour of
the west.

Mrs. J. Hood is at present visit-
ing with her daughter in Van-
couver. Miss Crosson is looking
after her business interests during
her absence.

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

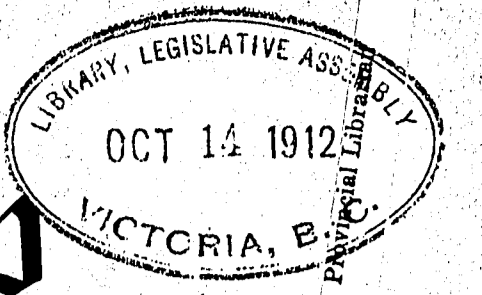

Start of Double Canoe Race at one of Naramata's Regattas

Take a trip to the Okanagan this summer and stop at Naramata. Got acquainted with
this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience
overlooking the Lake is at your service. One summer spent in Naramata means every
summer spent there until you finally conclude there is no real living anywhere else.
Then a nice 5 or 10 acre fruit farm on the benches solves the question and makes you
independent for ever afterwards.

Communicate with
THE HOTEL NARAMATA

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 11

SUMMERLAND, B.C., OCTOBER 11, 1912.

Whole No. 218

The Governor-General's Visit.

Royal Party Given Fine Reception.

Delighted With Auto Trip.

A true Summerland day of bright, warm sunshine was granted us in welcoming H.R.H. The Duke of Connaught and his Party. The town had been gaily decorated for the occasion; streamers and bunting in profusion draped the business blocks, while all the main buildings flew the Union Jack.

An hour before the time for the boat's arrival a large number of happy, expectant citizens crowded the wharf, where the civic arch of welcome had been erected and the formal welcome was to be extended.

The archway, designed by Mr. Geo. Atkins of the town, was greatly admired by the members of the party, and was declared by H.R.H. to be one of the choicest seen on his tour. Its construction was of six pairs of frame pillars, three on either side; the arch proper, bearing the greeting "Welcome to Summerland," resting upon the two central pairs. The top was a construction of trellis work, overlaid with autumn foliage, the pillars being twined with garlands of Oregon grape vines and festoons of apples. The woodwork throughout was painted white, making a very pleasing and effective appearance.

Sharp at eleven o'clock the Okanagan bearing the Royal Party, having steamed by Naramata on the way from Penticton, drew into the wharf; a picturesque flotilla of brightly decorated motor launches forming an escort, and the band playing the English march "Sons of the Brave."

Their Royal Highnesses were greeted on their appearance a few minutes later by a few bars of "God Save the King," and, on landing, were met by Reeve Thomson and Mr. J. M. Robinson.

After introductions were made the party were conducted a few steps to the archway where the Councillors, with their wives, and the members of the reception committee were presented. The school children, drawn up in orderly formation, sang the first stanza of "God Save the King," after which the Reeve read the civic Address of Welcome, and the Duke made appropriate reply. A beautifully finished album of various views of the district was presented to H.R.H. the Duchess of Connaught; while Valentine, the beautiful little daughter of Mr. and Mrs. C. F. Garnett, presented her with a bouquet of roses, and the equally charming Allana, daughter of Mr. and Mrs. J. M. Sutherland, presented one to the Princess Patricia. The Boy Scouts, drawn up at the centre of the wharf, were then reviewed by the Duke, who expressed his appreciation of their splendid appearance. After visiting the Packing House of the Okanagan Fruit Union, which had been well stocked with a fine display of apples, the party entered waiting automobiles and were driven on a tour of inspection over the fruit district.

On their return to the wharf, nearly an hour later, a large crowd again greeted them. An instance of the Duke's thoughtfulness and keen sense of appreciation was shown, while he awaited the arrival of his party, by his call for Mr. Atkins, who designed the arch, in order to extend to him his congratulations, and express his pleasure over the beauty of the design.

After chatting a few moments with those whom they had met the Duke and Party, amid the cheers of the assembled hundreds, embarked at 12.50 for Kelowna and a trip to the Arrow Lakes.

NOTES ON THE ROYAL VISIT.

Mrs. Bulson, who had been introduced to the Royal Party, while on their visit to the Alberta capital, again met them on their arrival at the wharf.

The owners of the autos had their cars in excellent trim, some of them very tastefully decorated.

That of A. Richardson was deserving of special note.

Judging from the numerous remarks of surprise and delight the Royal Party appreciated the auto ride through the district. Two outstanding features with them was the Agur homestead and the Zimmerman gulch road.

Okanagan College has the honor of being the first to greet H.R.H. the Duke of Connaught, since his arrival in the Dominion, with a college yell. So says a member of the staff, who has been with the Duke continuously since his coming to Canada.

The calling out of the motor boats and sailing craft to meet the Vice-Regal Party was a happy thought. They added much to the picturesqueness of the scene. The Agur yacht, with its large spread of canvas, and all bunting flying, was a particularly pretty sight.

Mr. Atkins, as designer of the arch (if arch it might be called), deserves the hearty thanks of the citizens of the community for his ingenious design. Princess Patricia was heard to pronounce it the finest design they had seen on their whole tour. The Duke said it was one of the best.

There was some adverse criticism as to the arrangement of the autos in the procession, a number of citizens objected to an outside car being used for the Duke, and many remarked that the honor of position should have gone to the ex-Reeve or Superintendent, or to Mr. Richardson who had taken such pains in decorating his car.

While inspecting the fruit in the Packing House Princess Patricia, who had been closely examining some apples and had helped herself to one, noticed the sign immediately in front of her, "This fruit is to be packed and not eaten," and asked if the sign had been put up especially for this occasion. A nice apple was selected for her, which she carried off as a souvenir.

The Boy Scouts made a very presentable appearance, and created a very favorable impression with the Duke. The boys showed excellent discipline, and were well handled by Scout-Master Pollock. Special mention should also be made of the bugle band, which, in a short time under the direction of Mr. Borton, has achieved wonders. The pleasing call of the bugle was the military feature of the reception.

Captain Estabrooke of the steamer Okanagan reports the appreciation expressed by their Royal Highnesses of the welcome accorded by the people of Summerland. They thoroughly enjoyed the varying scenes of the auto ride through the valleys and over the bench lands, and were delighted with the splendid appearance of the many orchards. Special mention was made of the arch erected on the wharf. In fact, the captain said, that reference was made to it again and again as the most pleasing yet seen on the tour.

The following are among those who were presented to T.R.H.s on their visit to Summerland, on Saturday last: Reeve and Mrs. C. J. Thomson; Mrs. R. C. Lipsett; Mr. and Mrs. W. J. Robinson; Mr. and Mrs. Hector Sutherland and Miss Sheila Sutherland; Rev. H. J. and Mrs. Solly; Mr. and Mrs. G. J. C. White; Mrs. J. M. Robinson; Mr. and Mrs. H. V. Ackland. His Royal Highness had previously made special request that he might meet Mr. and Mrs. Ackland. Mr. Ackland's father having served as aide-de-camp to the Duke in former years.

Mr. G. A. McWilliams, one of our most enterprising real estate men, has opened an office in Vancouver. At present Mr. McWilliams is giving his personal attention to the Vancouver end of the business.

A. L. MORELAND IN ACCIDENT.

The many friends of Mr. A. L. Moreland will learn with regret of the serious accident that befell him about five o'clock on Wednesday afternoon. Mr. Moreland had driven out with Mr. C. P. Nelson to take photographs of some of the orchards throughout the district near the home of Aitchison, Paradise Flat. Mr. Nelson alighted to open a gate when the horse, without the slightest provocation, began to kick and buck, turning the buggy over and smashing it completely.

Mr. Moreland was entangled in the cover, which happened to be up at the time, and was drawn over the tripod of the camera, which was driven into Mr. Moreland's leg, tearing an ugly gash. Fortunately Miss Aitchison, who is a graduate nurse, was at home, and being called rendered prompt and efficient service. Mr. Moreland was then driven to town and received medical attention, the doctor being obliged to make a number of stitches. We are glad to say that latest reports state that Mr. Moreland is resting well, and suffers no immediate danger.

A. B. Elliott and family have moved to West Summerland.

The Ladies' Hospital Auxiliary will have their monthly meeting on Tuesday at three o'clock at the home of Mrs. R. M. Ross.

Bowen Brothers, whose ranch at Upper Trout Creek has been cut in two by the K. V. Railway, are selling out their effects, and it is understood they will move to Australia.

UNPLEASANT EXPERIENCE.

On Monday evening six members of Okanagan Lodge 58, I.O.O.F., paid a friendly visit to Lodge 51, Penticton, making the trip in Dan Williams' new motor launch. The return journey was begun about 2.30 a.m. and all was well till they reached, as was supposed, a point opposite Agur's boat-house, when the gasoline failed and they found themselves without power. The sea at the time was very heavy, and within a few minutes they had drifted back to Trout Creek Point. Here strenuous efforts had to be made to keep the boat from becoming smashed on the shore, Mr. Williams jumping into the water to save his craft.

The strong wind, however, drove them around Trout Creek Point, and coming into the lee they took turns with the one paddle in the boat and slowly made their way to shore. Mr. Williams then went in search of gasoline, and securing some from Mr. Gartrell, returned to his weary, shivering "Brothers," landing them safely in Summerland about 8.30.

It is asserted that the next trip to Penticton will be by the time-honored stage coach or reliable Maud Moore.

The Summerland Musical Society held its first practice on Wednesday night in Elliott's Hall. There was a good attendance, and considering that the music had only been in the possession of the members for about two days the practice was good. "The Mikado" is the society's first attempt.

Civic Address and Duke's Reply.

Civic Address of Welcome to H.R.H. The Duke of Connaught, the Duchess and Princess Patricia, and the Duke's reply.

TO HIS ROYAL HIGHNESS THE DUKE OF CONNAUGHT, K.G.

Your Royal Highness—

It is with feelings of great pleasure mingled with sentiments of fervent loyalty that we bid you welcome to Summerland on this the occasion of your first visit to the Okanagan Valley.

May we be permitted to express our keen appreciation that the illustrious son of our late beloved Queen should have decided to make his home in our Dominion, coming to us at a time when he was entitled to seek a well-earned rest in retirement, to take upon himself the arduous duties which the office he has chosen involves.

We, as loyal subjects of His Majesty the King greet you his distinguished representative.

Your visit is further enhanced by the presence of Her Royal Highness The Duchess of Connaught, for whose recovery from her recent illness we are heartily thankful to God, and also by that of Her Royal Highness The Princess Patricia who has already captured the hearts of the Dominion.

It might be of interest to Your Royal Highness to know that although a few scattered settlers have lived in this neighborhood for some twenty-five years, it was not till the year 1905 that the settlement took place in earnest. In those seven years the population has grown from a mere handful of people to the number of about 8000. The assessed value of the Municipality has increased from a few thousand dollars to \$1,610,855, while improvements valued at \$1,000,000 have been made by property owners.

That this confidence in our orchards has not been misplaced has been amply verified, for in the year 1910 we captured the First Prize for a mixed car of apples at the Canadian National Apple Show held in Vancouver; while last year Summerland bore off ten first and four second prizes out of fifteen entries at the U.S. National Apple Show held at Spokane.

While, however, our staple industry is fruit culture the highest ideals we aim at are to live in harmony with each other, and to be loyal to our God and King.

We feel highly honored by Your Royal Highness's visit and sincerely trust that you may carry back across the continent and thence to the shores of the Motherland the happiest remembrances of your visit to our Province and of the deep loyalty to His Majesty the King of the people who have made this land their home.

Signed on behalf of the Municipality of Summerland, Reeve—C. J. Thomson, Clerk—J. L. Logie.

THE DUKE OF CONNAUGHT'S REPLY.

Gentlemen—

I beg you to accept my heartfelt thanks for the address of welcome which you have presented in the name of Summerland, and also for your expressions of loyalty to the Throne.

I congratulate you on the successes which have crowned your efforts in the cultivation of apples, and trust that Summerland and the Okanagan Valley may always be in the front rank of the fruit growers of this continent.

At the same time may I express my sincere hopes for the maintenance of the high ideas of which you have expressed; for they, and not financial prosperity, alone are what make a happy and contented community.

Regular Meeting Municipal Council

All Day Session Adjourned Till Wednesday Next.

The regular monthly meeting of the Municipal Council was held on Tuesday at the Municipal Offices, there being both morning and afternoon sessions. After the reading and approving of the minutes of the previous meetings communications were dealt with.

An invitation from the Vernon City Clerk requesting the Council to a reception of the Duke of Connaught was filed. Billings & Cochrane sent in a claim for a balance of account. It would appear that tenders had been asked for a lot of wood, property of the Municipality, and now piled at Paradise Flat, as two offers were received, one from T. B. Young for \$3 per double rick, [another from Pares & Hookham for \$2 for a like quantity. The clerk was instructed to advise T. B. Young that his tender for what wood the Council had to dispose of would be accepted.

C. F. Garnett applied for electric light for the Jam Factory, and W. C. Kelley again made application for electric light. There were other communications from Mr. Kelley, one being a request for reduction of assessment made on Lots 1, 2, 3 on Block 58 D L 3640. He also wrote the Council again asking for settlement of Mr. D. Clark's claim, which claim was presented to the Council at a previous meeting. As the Council lacks the necessary information the Clerk was instructed to write F. Munro to ascertain if he knew anything of Mr. Clark's claim. The answer of the Council to Mr. Kelley's claim for reduction of assessment was that the Council did not consider the assessment too high. R. S. Monro was another who asked for a reduction in assessment.

Mr. B. Colk again appeared before the Council in reference to a road near Paradise Flat. This was referred to the Superintendent of Works with instructions to attend to same at once. A complaint was received from R. S. Monro about the cement pipe near Mr. McKay's block which has been out of order, and also of the condition of the road in Peach Valley.

James Fyffe waited on the Council requesting the right to erect a public weigh scale on the road near the Power House, and opposite Hotel Summerland.

A deputation waited on the Council in connection with the deepening of Prairie Creek in district Lots 475 and 470. The Council agreed to adhere to their previous offer to pay one-fifth of the cost, provided the tender for the work met with their approval.

A plan of a new sub-division at West Summerland, which is this week being put on the market for H. H. Elsey, was submitted to the Council for their approval. Reeve Thomson informed the Council that he would in all probability be absent from the Council for some time; and asked that the Council appoint an acting Reeve in his absence.

The question of extensions to the various public utilities occupied considerable time. It was deemed advisable to compile more data so that the question might be intelligently placed before the ratepayers. The Accountant was accordingly instructed to prepare an accurate estimate of the earnings that would be received from the various extensions. With these figures it will be possible to know what, if any, additions will require to be made to the present tax rate to provide for these needed services. With these figures, which are to be presented to the Council next Wednesday evening, they will then come before the ratepayers of the district, and discuss with them the advisability of making a loan to provide for extensions to domestic water, irrigation and electric light systems.

Evidently the insistent demands for electric light connection is having some effect, as the Council decided to have a test made of the plant on Saturday evening of this week, between 7.30 and 8, when all the business lights will be on, and in this way they will expect to learn how much more power they have to dispose of.

The following motions were considered and carried: on the motion of Couns. Dunsdon and Dale Coun. Lewes and the Clerk were appointed a committee to meet with the Summerland Development Co. and Wm. Ritchie re the account of Billings & Cochrane.

The Council authorized the issue of a cheque for \$1,868.97 in payment of lands bought by the Municipality at the Annual Tax Sale.

Coun. Dunsdon moved that Coun. Lewes be appointed acting Reeve in case of absence of the Reeve from the Municipality. This motion was seconded by Coun. Robinson and unanimously carried.

A motion made by Coun. Robinson, and seconded by Coun. Dale, was carried, authorizing the Clerk to approve of the plan of Block 53 D L 640, when all the conditions required by the Municipality and Registry Acts are complied with.

The request of James Fyffe for permission to erect a public weigh scale was granted upon condition that it be done in a manner satisfactory to the Council.

The service which is being given by the electric-light department again met with severe criticism on the part of Coun. Robinson. He thought that the present method of conducting the business of that department showed a lack of business ability. Now that the plant is giving an all-night service two men are required, each to serve a certain number of hours. Mr. Robinson found that Mr. Thornber was working up till 12.30 each night, when he was relieved by Mr. Gray, who worked until 5, when Mr. Thornber again came on duty. Mr. Robinson ridiculed this arrangement, and thought that if this was an indication of the methods adopted by those in charge a change had better be made.

The Finance Committee recommended payment of the following accounts, which report was approved:

Pay Roll, September	\$1896.79
Summerland Supply Co., supplies	24.65
Summerland Supply Co., jail account	22.80
Angove & Stinson, cheese cloth	.50
A. B. Elliot, tools, etc.	38.80
J. S. Ritchie, harness sundries	4.35
Wm. Ritchie, lumber, August	27.05
Do, do, do, September	28.24
A. Richardson & Co., lumber	44.56
T. B. Young, feed	35.00
A. H. & J. Steven, teaming, etc.	76.90
Pares & Hookham, teaming, etc.	121.45
R. H. English, teaming, etc.	8.00
J. D. Johnston, feed	35.00
Robertson-Godson Co., pipe, etc.	32.54
Do, do, do.	49.75
Crane & Co., valve	4.06
Northern Electric Supply Co., wire	2.28
T. P. Thornber, electric work	1.70
Do, do.	17.97
Summerland Drug Co., stationery	1.95
Clarke Stewart & Co., stationery	9.75
White & Bindon, Ltd.	16.50
Govt. Telephone Service, telegrams and phone	1.05
Okanagan Telephone Co., rental	4.25
R. Callan, stable expense	.50
Mrs. J. C. Arkell, provisions	2.05
Marie Arkell, cleaning office	2.00
Wellington Watson, constable duty	3.00
F. H. Latimer, professional services	190.50
H. Dunsdon, expenses	15.00
S. A. Liddell, packing	10.50
Water Commission, fee water record	10.00
Dr. M. Smith, medical inspector	18.00
Dr. C. M. Smith, analysis	4.50
E. C. Graham, constable	27.00
Sum'land Municipality, street lighting	30.00
Sum'land Municipality, water and light	7.50

HERE IT IS!

As I promised in my last issue, above you will see the plan of the small sub-division which I have opened up in West Summerland. This, as I said before, is only a few hundred yards from the post office and churches. The lots marked with an X have already been sold before the plan was hardly opened up, and a number of others have been spoken for. You will see at a glance that

this is one of the best propositions yet offered to the public in Summerland, and no doubt these lots will be picked up very quickly. The terms are very easy.

Only \$50

down and the balance

in two years.

I expect to sell all of these lots within the next two weeks so speak quickly for your choice. Call or 'phone my office.

Don't forget that I can give you nicely screened lump coal for \$9.75 delivered in Town, and \$10.50 on the Flat.

Also some Tungsten lamps left.

W.J. Robinson
REALESTATE & INSURANCE

SCHOOL REPORT.

Reports for the month of September indicate the largest enrolment in the history of our public school. The following is the enrolment by divisions:

DIVISION I.	Teacher—Principal Brown	43.
DIVISION II.	Teacher—Miss Rothwell	32.
DIVISION III.	Teacher—Miss Watson	45.
DIVISION IV.	Teacher—Miss Lewis	40.
DIVISION V.	Teacher—Miss Williams	31.
Total		191.

The following are the names in order of the five in each Division having the highest standing in the examinations of the month of September:

Division I.—Entrance Class.
Volney Merrill, Leighton McLeod, Minnie Gallagher, Kathleen Elliott, Merle Thomson.

Division II.—Intermediate Class.
Helen Adams—promoted to Entrance Class, Bertha Bristow, Gertrude Rines, Dorothy Tingley, Kathleen Brown, Jean Ritchie.

Division III.—Senior Second Primer.
Grace Garnett, Bessie Thomson, Maurice Darke, Allivan Phillips.

Division IV.—Junior First Primer.
Mason Merrihew, Sylvia Washington, Gertrude Arkell, Vera Walker.

Division V.—Junior First Primer—Division A.
Lilian Darke, Zanda Garnett, Eva Johnson.

Division V.—Junior First Primer—Division B.
Willie Colwell, Walter Ramsay, Newell Wright, Florence Campbell.

An exchange says "e" is the most unfortunate letter in the English alphabet, because it is never in cash, always in debt, and never out of danger. It forgets that the aforesaid letter is never in war, but always in peace. It is in the beginning of existence, the commencement of ease and the end of all trouble. Without it there would be no water, no meat, no bread, no life, no gospel, no father, no mother, brother, sister, wife, home, heaven or—hell.

CANADIAN v. U.S. FRUIT.

The air is now full of protests by Canadian fruit growers against the action of wholesale fruit merchants buying so much fruit from the United States, and the latter protest as strongly that they prefer Canadian fruit when they can buy it at a right price and put up properly in attractive packages. If the Canadian fruit growers would only be more loyal to their own co-operative organizations, learn the lesson of united action with mutual respect for one another's interests, and put up their goods in a thoroughly up-to-date manner, they could compel a square deal and get a good price.

Speaking on this subject, Mr. Thomas Cunningham, Chief Fruit Pest Inspector for B.C., says:

"The foreign fruit grower seems to have got control of the Vancouver market, which is the best cash market on the Pacific Coast. There was more fruit shipped in this year than last, and more last than the year before, which shows that the consumption of foreign fruit is on the increase. Unfortunately the same cannot be said of the home-grown article. The explanation is not in the inferiority of our own fruit, because in exhibition tests either in the United States or in the Mother Country, British Columbia fruit generally carries off the bulk of the prizes. No, the fault lies in the high freight rates and the faulty system of distribution. The question is one that should be looked into. The local fruit grower, given equal conditions, can hold his own with any competitor, but he is not given a fair chance by any means.

"The production of small fruits in this province has gone behind. Vancouver Island produced more strawberries seven years ago than it does to-day, and yet it has the best strawberry soil in the world. Why is this? Unfair transportation rates, lack of co-operation between growers, and poor delivery. It costs more to bring fruit from Vernon than it does from across the border in Wentachee. This is discrimination. Cheaper transportation, quicker delivery and more co-operation will go far to improve the situation."

—The Fruit Magazine.
You never lose by doing a good turn.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Seymour Arm, B.C.," will be received at this office until 4 p.m., on Tuesday, October 29, 1912, for the construction of a Pile Bent Wharf at Seymour Arm, District of Cariboo, B.C.

Plans, specification, and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq., District Engineer, New Westminster, B.C.; F. W. Aylmer, Esq., District Engineer, Chase, B.C., and on application to the Postmaster at Seymour Arm, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, September 27, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—27958. 04-11

Invalids are apt to need nourishment often and only a little at a time. At times something cooling is preferred to a hot dish. A baked apple combined with custard is both refreshing and nourishing. The apples should be cored and peeled, then baked with a little sugar and water until soft.

FIRST ANNUAL Okanagan Valley APPLE SHOW

To be held in VERNON, October 23 & 24, 1912

Under the auspices of the Okanagan and Spallumcheen Agricultural Society and the Associated Boards of Trade of the Okanagan Valley

\$4,000 in Prizes: District, Twenty-Five, Ten, Five and One Box Displays

THE HON., THE PREMIER, Sir RICHARD McBRIDE, K.C.M.G.,
will Open the Show on October 23rd.

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

THE EDITOR'S ADVANTAGE.

Did you ever stop to think of how many more whacks the editor gets at his victim than any other business man in town does? With the editor the whacking process lasts from the cradle to the grave.

When a person is born, even before the preacher gets a chance to baptize him, the editor has congratulated the happy parents, and has specified in extravagant phrases the weight, sex and pedigree of the new arrival. At the christening the editor often manages to squeeze out a personal item of interest to his readers, which is far better than the preacher can do for he has to charge up his labors to the Lord, who is far harder to get cash out of even than a subscriber. When the victim graduates from the town High school the editor generally expects to reap about a column of good reading matter, and often prints a picture. Then if the victim gets married, the preacher gets five dollars, and the editor gets twenty-five dollars worth of surprise for his readers. When Mr. Victim gets sick the doctor gets a faint chance of some day collecting a bill against him, but the editor has some cash news every week, telling the patient's "many friends" how he is getting along. And then if he dies, the editor gets the most valuable news of all. Not that he is ever glad of the misfortune, but the news is worth money to him just the same. Maybe the undertaker gets a little more than the editor, but it is the only chance he has had at the victim during his whole career, while the editor has been pulling something out of him all along the line.

A STORY is told of a lady who compared her husband to a handsome piano lamp that he had presented to her. Her husband felt quite flattered until she mentioned the particulars of the resemblance. "Well," she said, "you know, my dear, it has a good deal of brass about it, it is handsome to look at, it is not remarkably brilliant, requires a good deal of attention, liable to explode when half full, flares up occasionally, is always out at bedtime, and is bound to smoke."

HOME is a place where a man can do as he pleases—if he is married to the right woman.

THERE is one class of laborers who never strike and seldom complain. They get up at five o'clock in the morning, and never get back to bed until ten or eleven o'clock at night; they work without ceasing the whole of that time, and receive no other emolument than food and the plainest kind of clothing; they understand something of every branch of economy and labor, from finance to cooking; though harassed by a hundred responsibilities, though driven and worried, though reproached and loked down upon they never revolt, and they cannot organize for their own protection. Not even sickness releases them from their posts. No sacrifice is deemed too great for them to make, and no incompetency in any branch of their work is excused. No essays, books or poems are written in tribute to their steadfastness. They die in the harness and are supplanted as quickly as may be. These are the housekeeping wives of the laboring men.

A GOOD NEIGHBOR is always the most desirable of possessions, although in some cases their social value is under-estimated. What constitutes a good neighbor is also frequently misconstrued, although the sensible acceptance of the term is, the neighbor who is friendly without being officious, helpful without being superfluously so, and, finally, one who respects the privacy of others' household affairs by a certain degree of formality of manner.

IT DOES us all good to get a peep into our neighbor's homes and lives occasionally, not for idle curiosity, but for the good it may do us. Most wives think they are the busiest women in the world, and have more worries than any other housekeeper. When you feel this way, my friend, put on your bonnet and go and sit with your neighbor for an hour or so; or what is still better, spend the day, eat a meal away from home. You will come back refreshed in mind and body, and feel that you would not exchange your burdens for theirs, no, not even to be rich like them.

CHURCH NOTICES.

Baptist Church—At West Summerland every Sunday at 10.30 a.m. Sunday School at 11.45 a.m. At the Lakeshore Church 7 p.m. Sunday School at 11.30 a.m. F. W. Pattison, Pastor.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30 a.m., Sunday School, 11.30 a.m. Evening, Fortnightly at 7 p.m., alternating with the Methodist Church. Rev. C. H. Daly, Pastor.

Methodist Church—Services every Sunday morning at 10.30. Sunday School at 11.30. Fortnightly evening service at 7, alternating with Presbyterian Church, West Summerland. Frank W. Hardy, Pastor.

St. Stephen's Church (Anglican).—Holy Communion every Sunday at 8 a.m. except on the first Sunday in the month. First Sunday in the month Holy Communion at 12 noon. Matins 11, Evensong 7, each Sunday. Rev. H. A. Solly, B.A., Rector.

If instead of a gem, or even a flower, we could cast the gift of a lovely thought into the heart of a friend, that would be giving as the angels must give.—George MacDonald.

A REVISED VERSION.

"Where are you going, my pretty maid?"

"I really don't know, kind, sir," she said.

"Mother's quite set upon touring Spain; Harry's inclined to a summer in Maine.

Susan is crazy to go to Paroo. Mabel's for cruising along by the sea.

Tommy's for shooting and fishing this year.

Father's for tending to business right here.

As for myself, sir, I honestly feel I'd like to do France in an automobile."

"Your father has sense, my pretty maid."

"He'll need more than that, kind sir," she said.

"Sense is all right in attending to biz, But dollars are needed in families like his."

UNCERTAIN.

"Have you purchased your new car yet, Mrs. Noorich?" asked the visitor. "No, Mr. Smithers, I ain't. I can't make up my mind whether to get a gasolene car or a limousine car. Maybe you can tell me—does limousine smell as bad as gasolene?" inquired the lady.—Harper's Weekly.

Make Your Grocery Money Buy More

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

FRIDAY, OCTOBER 11, 1912.

HIS ROYAL HIGHNESS, The Duke of Connaught, has come and gone. Eagerly expectant we awaited his visit, and loyally we welcomed him to our town, resplendent in flags and streamers to do him honor. And it was pre-eminently fitting that so it should be. For is he not our Governor-General, the representative of His Majesty, the King ? and are we not commanded to pay tribute "to whom tribute is due," "to honor the King," "to give thanks for kings and all that are in high places, that we may lead a tranquil and quiet life in all godliness and gravity!" For certain it is that those people, of nation or of city, who respect not the office of authority will respect neither law nor order. Thus, in welcoming the Duke of Connaught, we honored our Governor-General; made homage to our King, and paid tribute to those laws and institutions that have made the Empire great.

But the Duke of Connaught was welcomed for himself. As a soldier he has served the empire in many parts. As a man he has, on this tour, won the affection and esteem of all by his kindly genial manner.

We express the hope that, the tour ended, His Royal Highness, with the Duchess of Connaught and the Princess may arrive safely at the Capital, and that this journey throughout the nation may serve to bind the Dominion closer to the Heart of the Empire.

The steamer Okanagan is again running late, arriving in Summerland after eight o'clock at night. As this is the only passenger service accorded the southern portion of the lake, we feel that it is not justice to the people of the district. During the summer months and the long evenings the lateness of the hour was not so greatly felt. But with the coming of winter and the early evening darkness the delay causes exceedingly inconvenience to those incoming and outgoing. Could the Okanagan be reserved for passenger and express service only, the departure from the Landing on the present schedule would permit her arrival here not later than six o'clock. We express the hope that the C.P.R. Co. may find it possible to grant this consideration to the people of the southern part of the Okanagan.

We humans find it difficult to forgive. It is a racial characteristic. Easier far is it to retaliate in kind. So true is this, indeed, that the spirit of generous forgiveness marking the life of any other is a cause for our marvel and incredible admiration. Therefore, the wondering question of the good man of old as he beheld this supreme quality of the perfect man : "Master, how oft shall my brother sin against me and I forgive him, till seven times seven?"

But hard as it is to forgive, how much harder is it to ask forgiveness; that is, to confess oneself in the wrong; to make apology. The ability to do this is the mark, indeed, of the true man.

One day last week a business man of the town gave offence to another. In fact there was offence on both sides. In a moment of anger bitter words were spoken. But a few hours later these two men met on the street, and the first manfully, frankly, without reservation or seeking self-justification, made apology; and apologies were exchanged and accepted.

Thus was mutual respect and esteem maintained. How much of life is embittered; how much enjoyment lost; how many friendships broken by the inability to apologise! We honor the man who can, and will, apologise with frankness.

ONE of the most dangerous habits people can indulge in is that of lying in bed. Nine-tenths of all the deaths occur in bed. Nearly one half of all those who are murdered are murdered in bed. It is while you are in bed that your house is robbed and your chickens stolen. It is while you are in bed that the bugs bite you and bad dreams haunt you. Therefore, dear reader, never go to bed.

An exchange gets off the following: Ten cents a line will be charged for obituary notices of all business men who do not advertise while living. Delinquent subscribers will be charged fifteen cents a line. Advertisers and cash subscribers will receive as good a send-off as we are capable of writing, without any charge whatever. Better send in your subscription now.

WIFE DESERTERS.

Ottawa, Oct. 8.—Sir George McRae, Chairman of the Local Government Board of Scotland, has arrived in Ottawa. He is touring Canada looking into cases wherein Old Country men have deserted their wives and come to this country. There are said to be thousands of such cases in the Dominion. Sir George's mission is probably one of the most unique on which any titled visitor has yet come to Canada. Briefly it is to further an arrangement between Canada and Scotland by which husbands may be deported or, failing that, that they should contribute to the support of their spouses. "In the City of Glasgow, alone," said Sir George, "the number of

wives and children deserted last year was 970, which cost no less than \$41,250. The number for the whole of Scotland was 3,808, representing an expenditure to the country of \$157,500."

A business deal of importance and interest to Summerland is the purchase by Messrs. Figgis & McGuire of the restaurant and bakery formerly conducted by Mr. Beach. The building lately occupied by Mr. Beach will be transformed into a large dining-room and restaurant, while the old tailor shop will be fitted up as a rooming house to be run in connection with it. It is understood that Mr. Figgis will have charge of the boarding house, and Mr. McGuire the bakery.

JIMMY'S LETTER TO DAD

Okanagan College,
West Summerland, B. C.,
11th October, 1912.

Dear Dad,
I've just remembered that I haven't written home this week. I've been so terribly busy that I've scarcely time to breathe. You see, that extra class in Expression gives me a whole lot more to do, but it's sure great dope. I guess I'll be an orator by the time I get through. At present I am only a bleating sheep saying "Ba, Ba." All this week we've been practising rugby, trying to get into shape for our first real game, which comes off pretty soon. We had two scratch games between the Hill-climbers and the Bean-eaters, each team winning one game. The work-outs were pretty good, everything considered. Of course some of the guys are pretty green yet. To-day we were all busy fixing up a new tennis court. Johnson and Riley were very busy surveying the ground with some sort of home-made instrument. They haven't decided yet whether it will be level or have a 2 per cent grade. The rest of us were busy with picks, spades and barrows, toiling like the Egyptians of old.

To-morrow (Friday night) we have our first reception down in the church, and on Saturday we expect to have our first meeting of the Lit. I guess the Lits. are going to do great things this year. I hear that about a dozen debates have been mapped out already. I guess we are soon to hear Pack's oratory.

No, Dad, I haven't skipped a single class so far. It's going to be mighty hard to do so this year. There's a list of penalties about a mile long posted up in the office. You bet, I'll try and keep clear. I wonder if you could send me a little dough along. Dad, I've got to buy some new football trousers for that game that's coming off pretty soon.

Well, I must close now. Lights out sharp at 10.30, and I'm supposed to be between the blankets by then. More next time. Give my love to Mother and sis.

Your loving son,
JIMMY.

Miss Kathryn C. McLeod, formerly Lady Principal in the college, has been appointed Moral Instructor in the public schools of British Columbia. The work is under the auspices of the W.C.T.U. and is similar to that carried on throughout New England by the extension department of the Boston School of Eugenics.

LOCALS.

Maurice Hodson representing the B.C. Magazine and Saturday Sunset is about town this week.

Mrs. W. H. Hayes, Mrs. W. W. Estabrooke and Mrs. J. Hood, who were at the Coast during the New Westminster Fair, have returned.

Jack Robinson leaves for the East on Sunday, and will immediately be called to the Bar in Ontario. He will be accompanied by his sisters Gladys and Kathleen.

Mr. and Mrs. W. McDougal have returned from a visit to the Coast. They purpose remaining here for the winter for the benefit of Mr. McDougal's health.

Mr. J. M. Robinson leaves in about a week for Vancouver, and from there will go east probably stopping off to visit the Vernon Apple Show.

Mr. and Mrs. T. E. Moore celebrated their 10th wedding anniversary last Tuesday evening. A large number of friends called to congratulate them, and a pleasant social evening was spent.

The Nicola Coal Co. have advised their local agent, Mr. W. J. Robinson, that after the 15th the price of coal will be advanced 50 cents per ton. Mr. Robinson says he will book orders up to that time at the present price.

Rev. F. W. Pattison is receiving the congratulations of the members of his church and congregation, as well as numerous townspeople, on the announcement of his engagement to Miss Dowde of East Orange, New Jersey.

Sunday, October 13th, will be Rally Day at the Baptist Church and Sunday School of West Summerland. Special attractive music has been prepared by the members of the school, and other features of interest will be introduced. All are specially invited to visit the Sunday School which meets at 11.45, at the close of the morning service.

George Craig, who has been confined to the hospital for some time with a broken leg, has been making satisfactory progress. On Wednesday, however, he had the extreme misfortune to fall backward on the front steps of the hospital, falling heavily on his shoulder. There was fear that some injury might also have been done to the broken limb, but this possibly is not the case. He, however, put in a restless night, and again has quite a temperature. It is hoped, however, that the shock is the only cause of his indisposition.

Local News Items. Local News Items.

BIRTH—At Victoria Gardens, West Summerland, Oct. 4th, to Mr. and Mrs. John Weeks, a son.

Mrs. Will Ritchie, who paid a ten day's visit to friends at the Coast, returned home on Tuesday.

BORN—On October 8th, at the Cottage Hospital, to the wife of H. W. Agar of Victoria Gardens, a daughter.

Mrs. W. H. Hayes was a passenger on the Okanagan Tuesday night, returning from a visit to Vancouver and other Coast cities.

The steamer Okanagan resumed passenger service on Sunday, October 6th, having conveyed the Vice-Regal Party on their return trip to Okanagan Landing.

Miss Dorothy Davis, who was in town on Monday and Tuesday of this week in the interests of the Equality League, left for Penticton on Tuesday night's boat.

Rev. D. J. Welsh, Pastor of the Baptist Church of Kelowna, visited Rev. F. W. Pattison Thursday and Friday this week. He returns to his home on Saturday morning.

Mr. Roys, formerly Superintendent of the B.C. Telephone Co., with headquarters at Kamloops, has assumed charge of the construction of the Government Telephone system throughout the Okanagan. Mr. Roys expects to settle permanently in Summerland.

Mrs. Thos. Darkis and children returned to the old home in New Brunswick this week, where the family will reside permanently. Mr. Darkis, who is employed by the Richardson Lumber Co., will not return east till the spring. The family came to Summerland about a year ago.

Miss Margaret White, who is on a visit to Vancouver where she went on Saturday, September 28th, was compelled to undergo an operation for appendicitis on Wednesday, October 2nd. We are pleased to learn that the operation was successful, and that Miss White is rapidly regaining her normal strength.

A special car was placed at the disposal of those from the Okanagan district taking advantage of the recent excursion rates to the New Westminster Fair and the Coast cities on Sept. 28th. The car met the boat at the Landing, thus affording a through trip without change at Seacom Junction. The same privileges were likewise granted on the return journey.

Ritchie's Lumber yards have been unusually active this fall. Two cars of Coast lumber have been unloaded within the past week. They report, also, the largest orders for apple boxes ever received since they entered the business. The demand is greater at the present time than the mill can supply. This speaks well of the development and productivity of the apple industry in this community.

Mr. and Mrs. Jas. H. Schofield of Pincher Creek have been in town for some days, registered at the Hotel. Mr. Schofield is a pioneer of Calgary, having been in that place in the early '70's—before Calgary was. He has many interesting stories to tell of the early days and his long trips by trail over the prairies. Mr. and Mrs. Schofield will spend the winter in Summerland, their daughter being a student at Okanagan College.

Mr. Jas. A. Darke of West Summerland, who left Saturday, September 28th, on a visit to friends in the Coast cities returned to his home on the evening of the 5th October. Mr. Darke also visited the Fair at New Westminster, and reports a very successful exhibition. He believes that within a very short time Vancouver will undoubtedly be the metropolis of the Dominion. Business in all lines is very active there at the present time.

On Sunday October 6th, there passed away at his home in West Summerland, John Lawson, aged 42 years. Mr. Lawson, who had been ill for some years, came from Goderich, Ontario, to the Okanagan in July, stopping first at Naramata, and later, in August, removed to West Summerland. The change, however, proved of little benefit, and during the last few weeks the patient failed rapidly. Mr. Lawson was a member of the Masonic and Oddfellow's Lodges. The widow, and E. V. Lawson, a brother of the deceased, returned with the body to the former home at Goderich on Monday morning.

CATS IN ENGLAND.

Huxley once stated that the prestige of England on sea and land depended on the old maids of England, and for why? Because the maiden sisterhood cared for innumerable cats. The cats destroyed the field mice, and so the mice could

not destroy the bumblebees, and without the bees no clover could be grown. And no clover, no good English beef, and therefore no English yeomen to man the ships or fight on land or sea for the great nation on whose possessions the sun never sets and whose war drums are heard around the world.

Better Dinners

"Is dinner ready, Mary?"
 "Yes, Madam—it is ready, and, I think, a great success."
 "Your cooking is improving."
 "Well perhaps it is, and I hope so, but really, Mrs. Housewife, I think our new Gurney-Oxford is partly responsible for the success I have had lately. I was never able to cook roasts and fowl so well on our old stove, and as for bread and biscuits, I used to tremble when I went to take them from the oven—they were so often soggy and heavy. Now they are always light and beautifully brown, and, if I do say it myself, something to be proud of."
 "That's true, Mary, my husband has said almost the same thing. I'm awfully glad you approve of my choice of a Gurney-Oxford. He approves because of the saving in coal since we got it, also because of the better meals he is getting."
 "Indeed he's right, Madam—and it requires so little attention."
 "That's fine, Mary. Will you serve dinner in a few minutes please."

Kaleden Comments

Mr. Foss returned from the Coast last Tuesday.
 Mrs. Green, with her family, of Marron Lake, has returned to Nanaimo.

The trans-continental car passed through on Wednesday on their way to Vancouver.

Mr. B. H. Sherk and family have removed to the Coast, where they intend to reside in future.

Mr. Atkinson and Ben Newton went up to Summerland last Saturday for the celebrations there.

Dr. Wilson from Carstairs, near Calgary, arrived last Friday on a visit to Captain and Mrs. Hatfield.

Captain and Mrs. Hatfield went out to their ranch last Monday morning where they intend to stay for several weeks.

Dr. Wilson, who is a Methodist minister, preached at the service held in the schoolroom last Sunday afternoon. A large congregation assembled and listened to a clever and interesting sermon with close attention.

A large number of the residents availed themselves last Friday of the special excursion made by the Cygnet to go up to Penticton, to take part in the celebrations to welcome their Royal Highnesses the Duke and Duchess of Connaught.

The hotel register records the following visitors for the past few days: G. N. Gartrell, Summerland; Mrs. Gartrell, Summerland; Florence R. Hayes, Summerland; A. Stark, Summerland; F. Sampson, Oroville; Mrs. A. D. Balderson, Oroville; Mr. and Mrs. S. B. Starratt, jun., Oroville; Olive Jane Balderson, Oroville; Mrs. C. D. B. Green, Nanaimo; Miss B. W. Green, Nanaimo; V. de B. Green, Nanaimo; Robert Wood, Greenwood; R. S. Conklin, Penticton.

REPORTED P. & O. LINE PURCHASE.

Montreal, Oct. 5.—The latest rumor concerning the C.P.R. and its plans for the future is given currency in the Financial Times. It says that the railway plans to pay \$100,000,000 for the famous Peninsular & Oriental Steamship Company. There are nearly fifty-five fine vessels in the fleet, which maintain services from Southampton to the Orient and Australia, via the Seuz Canal. The acquisition of this line would give the C.P.R. a service completely around the world. No confirmation of this report can be had at the company's offices here.

Not to hear conscience is the way to silence it.

RASPBERRY CANES

Mrs. K. BENTLEY has a few hundred fine Canes grown from Stock imported from England two years ago.

\$4 per 100.

At "Northolme," north of Crescent Beach.

Summerland School Board

Tenders for Conveyance, Central School

Applicants to state price per double trip, and be prepared to enter into a bond for the due carrying out of contract.

J. L. LOGIE,
 Secretary, School Board

Naramata Notes.

Mr. Fred Manchester and bride, nee Miss Nelly Taggart, returned recently from California.

Mr. James Miller of Calgary, a prominent C.P.R. official in the ambitious city, spent a week here recently.

R. W. Harris, a prominent lawyer from the provincial capital, with his wife and family, is enjoying a fortnight's holiday at Hotel Naramata.

Miss Gwen Robinson has returned to Toronto. En route stopovers at Calgary and Winnipeg may delay her arrival at Ontario's university town for a full two weeks.

Hotel Naramata will close after Oct. 15th. There will, however, be excellent sleeping accommodation at the Hotel cottages, and good meals may always be obtained at the Lakeside Hotel.

On Friday last, one of our local sportsmen, and crack shots, Capt. Languedoc met with an unusually good streak of luck, capturing no less than three deer in less than half an hour.

Mr. Frank Hayward and Master Roy Boothe have enrolled as students in Okanagan College. The former is completing his matriculation work, while the latter is entering upon the commercial course.

Almost the entire population of Naramata, turned out to the celebrations at Summerland in honor of the Duke of Connaught. Quite a number of our local bandsmen were in the line-up when it came to a show-down for music, and they certainly acquitted themselves in fine style.

The Roe Brothers have a neat and commodious bunkhouse finished. The building, as previously noted, has been erected on a lot adjoining Fred Roe's cottage. The words "Kettle Valley Bunkhouse" conspicuously painted on one side, stand out attractively to the man in search of inexpensive lodging.

Next week, on account of the closing of the hotel, there will probably be quite an exodus from town. Mr. Jack Robinson and his two sisters, Kathleen and Gladys, go out on Sunday. Quite a number of the tourists purpose going down to Hotel Incola at Penticton. Mr. and Mrs. Robinson will probably be here for another week.

Mr. John M. Schreck has set a commendable pace in line of gate pillars which serve as splendid models. The posts are constructed of stone faced with cement, and bear, neatly engraved, on the face the name of the ranch. It is Mr. Schreck's intention, as time goes on, to replace with cement posts, and to have, in the end, a fence which will have the staying powers of an old Roman road.

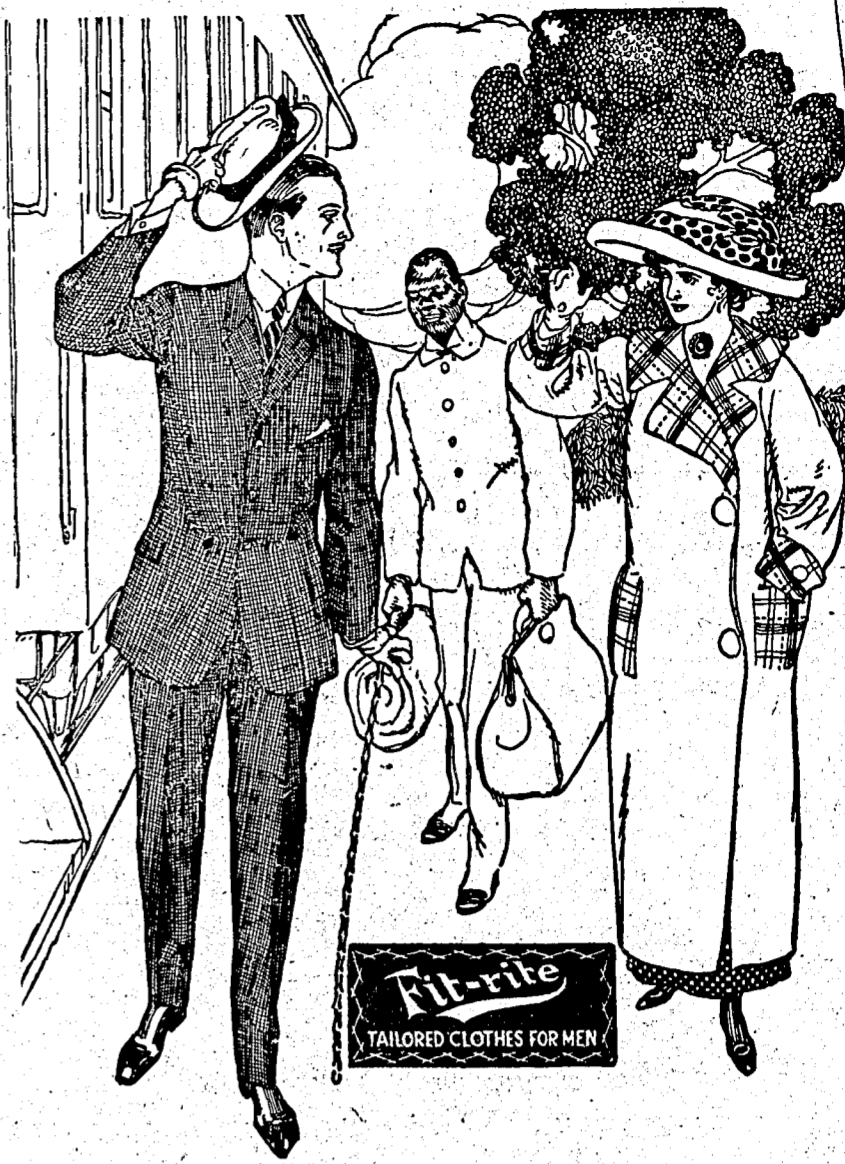

What better evidence of our unexcelled climate can there be than the presence of the bed of geraniums still in full bloom on the hotel grounds! or the roses in Mr. Wolstencroft's garden, or the black berries, and second crop of strawberries that you ate—or could have eaten—this very week. To say nothing about fresh berry pie! Self-evident, eh! Moral, Live on the prairies if you must, but die in the Okanagan if you can.

What about that CHICKEN SUPPER! This is to be one great, big consuming event. At present it's consuming time, paper and energy, and a whole lot of other things; but Saturday (tomorrow) 'twill be a question of consuming chickens. The chickens are to be the biggest; the programme the spiciest, and the fun the wildest we've ever experienced. See if it don't! Stay at home and be s-o-r-r-y! Come and be glad.

POTATO CANKER.

A circular notice has been issued by Mr. H. T. Gussow, Dominion Government Botanist, warning potato growers against a disease called the potato "canker," which is causing some alarm throughout the Dominion. A copy of the circular with cuts showing the character of the disease may be had on application to the Department. Growers are requested to examine their potatoes carefully at harvest time, and on discovery of the disease immediately send specimen tubers to the Dominion Botanist Ottawa.

Blessings ever wait on virtuous deeds, and though a late, a sure reward succeeds.—Congreve.

SCHOOL BOARD MEETING

Garnett Valley Rig Ordered
School Attendance Steadily Increasing

The Municipal School Board met in regular monthly session last Monday at 3 o'clock in the Council Chamber, all members being present. In addition to the passing of the accounts several matters of more than usual importance were dealt with.

After the reading of the minutes a number of communications received since last meeting were read by the Secretary.

A letter from Messrs. A. H. & J. Steven notified the Board that they had sold their business to Messrs. Pares & Hookham, who had assumed the contract for the transporting of school children. Messrs. Steven asked that the transfer be confirmed, which was done, with the proviso that the new firm live up to the agreement, and that the school vehicles be properly housed.

Inspector of manual training for the province wrote asking if it was their intention to open a Manual Training Department in connection with the public school. If so he would be pleased to come here and advise them in the matter of equipment, etc. The secretary was instructed to thank the Inspector, and inform him that while the Board are considering the opening of a Manual Training Department they are not in a position to do so just at present, but would like to have a visit from him that they might learn more of that branch of education.

A reply had been received from the Educational Department in reference to the application for assistance in the teaching of Domestic Science, the Board desiring to procure the services of an expert who will be here during the winter months, for a few hours each day, had applied to the Educational Department for financial assistance. The reply was to the effect of the Department that they were prepared to put \$40 per month, and dollar for dollar put up by the Board upon the condition that the teacher give her whole time to the work. As this did not cover the present plans of the Trustees the Secretary was instructed to again state their case to the Department.

Trustee Robinson who had been instructed to have the town school building put in order submitted two tenders received by him, one from M. Beavis, and the other from Atkins Bros., the latter being the successful tenderers. Walls, ceiling, and woodwork of the building were tinted and painted, price being \$49.

A requisition, received from the Principal of the High School, for chemicals and other material for laboratory work was read. There seemed to be a tendency on the part of some of the officials to curtail the supply, but the Chairman urged the necessity of making ample provision for the work in the school, pointing out that other schools were spending considerable amounts for laboratory supplies. Finally a committee of the Chairman and Trustees Adams and McIntyre was appointed to confer with the Principal of the High School, and to provide the supplies needed.

An account from the janitor of the Central School for work done in connection with the grounds was received. This account embodied several other accounts, and was referred back to the janitor with a request that individual accounts be sent in, covering the team work, etc., which he was authorized to have done.

Chairman White, in speaking of the new route which had been laid out, and for which he temporarily had been providing a rig, said that the new rig carried from 12 to 16 pupils, and yet there is no reduction in the load of the Trout Creek rig, and he thought the time was near at hand when another route, taking in Peach Valley, would be necessary.

Principal Brown of the Consolidated School called on the Board to make them acquainted with what he termed unsatisfactory conditions at the Central. The building for the past week or two had not been kept as clean as it should be, and when school opened the building was not sufficiently heated. The septic tank which last year, gave trouble is again causing considerable annoyance. The overflow, instead of being conveyed off underground, comes to the surface. The tank in one of the toilet rooms flushes continually, this latter trouble having been called to the attention of the Board a month ago. In reference to this the

Secretary said that he had called the attention of Mr. Borton to the matter, and he promised to have it repaired. Continual overflow of water might have something to do with the cause of trouble with the septic tank. The heating system is said to be in a very unsatisfactory condition, a number of joints are leaking, and it was also noted that when any trouble occurred the section could not be cut off from the rest of the system while the repairs were being made, it being necessary to draw the fire and empty the boiler. Remarks of surprise at the failure of the system to give satisfaction were made and the plant pronounced by one of the officials as a "white elephant."

The unsatisfactory condition of both heating and plumbing was referred to a committee of the Chairman, Secretary and Dr. McIntyre, who, with the Principal, will investigate the troubles and insist that the contractor's guarantee be lived up to.

The Garnett Valley route is still being served by the contractor's vehicle, and is not satisfactory. The committee appointed to purchase a new rig for that route reported that Wm. Ritchie had in stock a wagon identically the same as the two new ones purchased for school rigs, with the exception that it had no top and seats, but which he would fit up similar to the other two and sell for \$225. As this was a very material saving on the price of the former purchase it was thought advisable to make this arrangement.

Chairman White, who was the only trustee to attend the Provincial Trustees Convention recently held at Revelstoke, reported briefly of the gathering. He found there a very enthusiastic lot of people, and much helpful in school work was learned. The organization met with the hearty endorsement of the Chairman, and he urged that Summerland be definitely affiliated with the Convention and give it financial support. He thought too that the next meeting should be attended by every member of the local School Board, whose expenses should be paid by the Municipality. Vernon sent its Secretary and five Trustees, and paid their expenses. Nelson allowed each Trustee attending the Convention \$75. Summerland, as far as he could learn, was the only place which did not pay its representatives' expenses.

The Secretary was ordered to procure some additional individual desks for the town school.

The following salaries and accounts were passed for payment:

D. H. Hunting	\$115.00
D. M. Brown	115.00
Miss Rothwell	100.00
Miss Watson	60.00
Miss Lewis	60.00

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the
Dominion, in Manitoba, Sas-
katchewan and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the
Province of British Columbia, may
be leased for a term of twenty-one
years at an annual rental of \$1 an
acre. Not more than 2,560 acres
will be leased to one applicant.
Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.
In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.
Each application must be accom-
panied by a fee of \$5 which will be
refunded if the rights applied for
are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.

The lease will include the coal
mining rights only, but the lessee
may be permitted to purchase what-
ever available surface rights may be
considered necessary for the work-
ing of the mine at the rate of
\$10 an acre.

For full information application
should be made to the Secretary of
the Department of the Interior,
Ottawa, or to any Agent or Sub-
Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this adver-
tisement will not be paid for.

GOOD

Dry WOOD

\$5.00

per Load of Two, Ricks

For CASH on delivery will
allow 10 per cent, off this price

PHONE GREEN 7

J. R. CAMPBELL

College Notes.

On Tuesday, October 1st, the
students of the college organized
their Literary Society for the com-
ing year. The officers elected are:
A. C. Riley, President; Phyllis
Falkner, Vice-President; H. C.
Packham, Secretary - Treasurer.
Some difference of opinion was
expressed in deciding upon the
amount of the membership fee. It
was moved that it should be made
\$1.00 per term, but after much
discussion it was voted to continue
last year's amount, 50 cents per
term. The society is to hold its
meetings every Saturday night, and
is to be known as the Okanagan
College Lyceum.

The publication of the society is
to be known as "The Lyceum,"
the staff appointed being: Editor-
in-chief—Frank Hayward; Man-
ager—Frank Williams. It has not
yet been decided whether the paper
will be published once a month or
semi-monthly.

On the evening of Friday, Octo-
ber 4th, a new constitution was
presented to the society and adopted
by the members. The chief change
from that of the past having to do
with the relation of the publication
to the society. The editorial staff
was also enlarged, a sub-editor
being appointed from each of the
college, academic, commercial and
music departments, as also from
the Faculty.

On Friday afternoon, October
4th, the "Hill-climbers" (day
students) challenged the "Bean-
eaters" (resident students) to a
game of rugby. The game was
very strenuous, and resulted in
favor of the "Hill-climbers," 8-3.
The ladies of the college were
present and cheered heartily for
their mess-mates, but to no advan-
tage.

A return match was played on the
afternoon of the 9th, with victory
for the "Bean-eaters," 6-5.
Strange to say the fair champions
of the game were not present on
this occasion. The tie will be
played off at an early date.

DEVELOPMENT LEAGUE MEETING.

At a meeting held in New West-
minster last week of the committee
appointed at the conference held
earlier in the same city to make
further arrangements for the for-
mation of a British Columbia
Development League, it was de-
cided to try and hold a convention
to be attended by all interested
during the Apple Show to be held
in Vernon towards the end of this
month.

Mr. E. S. Rowe, commissioner of
the Vancouver Progress Club,
which, with the New Westminister
Progressive Association, is work-
ing toward the formation of such a
league, communicated with Vernon
asking if such a time would be
convenient for the board of trade
there to hold this convention.

Representatives of all boards of
trade and publicity bodies will be
on the membership rolls of this
new organization, which has for its
objects the settlement of the lands
of the province, securing manufac-
turing industries for the various
towns of the province and "promot-
ing provincial prosperity and prog-
ress" in general.

Mr. H. V. Ackland removes to
Victoria this week where he will
reside in future.

The second meeting of the Sum-
merland Local of the Socialist
Party of Canada was held on Mon-
day night at the home of Jack
Logie, Peach Orchard. The first
part of the evening was granted
Miss Dorothy Davis, organizing
secretary of the Political Equality
League, for the presentation of
arguments in favor of Woman
Suffrage. After some discussion a
resolution was passed urging the
Provincial Government to pass a
bill granting this franchise. The
regular program for the evening
was then followed. Mr. Gerald
Desmond gave a lecture on "The
Political Economy of Socialism,"
which provoked much discussion.
The meeting adjourned to recon-
vene Monday night next.

Apple Show will be Big Affair.

Everything Points to Unqualified Success. Double Size of Last Year's.

Material Alteration to Building.

Preparations for Summerland's Fourth Annual Apple Show, to be held in Ellison Hall, Peach Orchard, Wednesday, October 30th to Friday November 1st, are well advanced. It will be the endeavor of the management to make the exhibition of this year the very best yet held. Already it has a high name and a wide recognition among the fruit men of the province. Mr. Wm. E. Scott, Deputy Minister of Agriculture, and Superintendent of Farmers' Institutes, in speaking of the Show of last year said: "I consider your exhibition, as an Apple Show, about the best I have ever seen. The quality of the fruit could not be surpassed, and the grading and packing was particularly good. The packed box exhibits of the packing school pupils, were the best that I have yet seen put up at any show in the Province."

In 1910, Provincial Horticulturist, Mr. R. M. Winslow, stated that the Summerland Apple Show of that year was as large as that of Nelson and Victoria combined. But in 1911 we had double the entries of year 1910. This year it is desired to have double those of 1911. In order to accomplish this, however, the hearty co-operation of all fruit growers is required. Reports from Grand Forks, Nelson and Salmon Arm indicate that the fruit exhibitions held in these places are rapidly developing in the number of entries and the quality of the exhibits. In order to maintain our high standing as the best Apple Show of B.C. every one must take active interest and participation in the Show of 1912.

The exhibition, as is recognized by all, is an excellent medium through which to advertise our district. In fact the Shows of the past years are largely responsible for the favorable reputation held by our fruit throughout the entire west and the Old Country. Being fully alive to this advertising value of the exhibition the management have given it special attention. Arrangements have therefore been made with C. P. Nelson whereby he will be given the accommodation of a booth in the hall, where photos of the exhibition may be obtained. On the first day of the Fair, Mr. Nelson will take photos of the exhibits, and on the second and third days post-card pictures of these may be had. Larger photographs of the entire exhibition will also be printed and may be had at the booth. This provides an excellent opportunity for the people of the community to inform their far distant friends in a very tangible way of the wonderful possibilities of Summerland as a fruit centre. Mr. Nelson will also have for sale at the booth large views of Summerland landscape and orchards.

The judging of the various exhibits will commence on Wednesday the 30th at 10 a.m., when the exhibitors only will be granted admission. On the following day, Thursday 31st, at 2 p.m., the Exhibition will be formally opened by Hon. Price Ellison, Provincial Minister of Finance and Agriculture. The admission fee for each day will be 25 cents for non-members. The management are arranging to have a refreshment booth on the grounds so that visitors may remain the entire day, if so desired, at the Show.

Special attractions have also been arranged for. A rugby match between the Kelowna boys and Okanagan College will be played at 3 o'clock Thursday afternoon on the Campus, West Summerland. On Friday, at 8 o'clock, a game of "Soccer" will be played by Pentiction and Summerland on the Campus, West Summerland. On Wednesday evening there will be a light opera, "The Missouri Girl," in Empiro Hall. Under the auspices of the Overseas Club a dance will be given in Empiro Hall on the evening of the 31st.

The management has also succeeded in securing special exhibition

rates from the C.P.R. from all points in the Valley, also from all points on the main line between Kamloops on the west and Revelstoke on the east, and likewise from all points on the Fernie-Revelstoke line and intermediate branches. Negotiations are being made to run special trips from Naramata, Peachland, Pentiction, and in all probability from Kelowna also.

It is to be urged that all entries be in not later than October 24th, since the Secretary must make up the list of entries in the various classes that the best possible arrangements may be made to display the fruit in the most attractive manner.

Mr. J. Lawler, local manager of the Okanagan Fruit Union, will give an Apple Press as a special prize for the best 4 1/2-tier box of apples. All entries must be made under class 20.

Extensive alterations have been made in the interior of Ellison Hall preparatory to the holding of the Apple Show. Seven skylights have been set in and the interior throughout has been tinted. This will afford much more light and give a more pleasing background to the fruit display.

Fruit packers are reminded that again this year there will be an apple packing contest held at the Fair.

This contest is quite distinct from the packed fruit exhibit made in connection with the packing schools, and the packing will be done at the Show under the eyes of the judges. The Association will not accept the entries of professional packers.

The entry fee is one dollar, and entries will close on Thursday October 24. The management will provide the fruit, paper and other necessary equipment, and the apples will be placed on the tables by disinterested persons. All the apples are to be packed diagonally in standard Canadian boxes, each contestant to pack three boxes; time to be taken when contestant places last box on floor.

To secure perfect, or twenty points, for speed the contestant must pack the three boxes within twenty-five minutes, and every three minutes longer reduces the score two points. If not finished within sixty minutes, the contestant will be ruled out. The following score will apply:

- | | |
|----------------|------------|
| Speed | 20 points. |
| Uniformity | 15 do. |
| Alignment | 10 do. |
| Bulge | 10 do. |
| Height at ends | 10 do. |
| Firmness | 20 do. |
| Wrapping | 15 do. |

The prizes which are provided by the Department are:

- | | |
|--------------|---------|
| First Prize | \$15.00 |
| Second Prize | 10.00 |
| Third Prize | 5.00 |

Much interest was taken in this event last year, and no doubt there will be more contestants and correspondingly more interest this season.

BIG BRIDGE SOON.

Preparations are under way for the construction of the large K.V.R. bridge across Trout Creek. The filling in has been almost completed, and the work on the bridge will commence at an early date. Messrs. Pares & Hookham are now hauling the lumber for its construction from the Garnett Valley saw mill.

Miss Elizabeth Colwell, Lady Principal of Okanagan College, will hold a reception for Mrs. Reekie of Vancouver in the college reception rooms to-morrow afternoon.

On Wednesday afternoon, Olive, the fourteen year old daughter of Mr. W. J. Robinson, passed away at her father's home here. The funeral will take place to-day in Peachland, Mr. and Mrs. Robinson having taken the body there by this morning's boat.

ABSURD FIGURES.

Local Census-Taking a Farce.

Some weeks ago the financial house who marketed the Summerland Municipal Bonds wrote the Reeve asking what was the matter with Summerland that it was not increasing in population. This inquiry was a surprise to the Reeve, who, of course, knew that there had been a very material increase in the population of the district, which is now estimated at from 2500 to 3000. Where the brokers got their information was not known, but it was supposed that they must have seen the figures of the recent census, and, as has been suspected, they were not doing Summerland justice. The Municipal Clerk accordingly wrote to the Census Department at Ottawa asking for the figures for this district. The following letter has just been received:

"In reply to your letter of the 30th ult. I beg to inform you that we have not published statistics of population by Municipalities, but have merely given out figures of census sub-districts. However, we have endeavored to obtain the population of the Municipality of Summerland, but our return shows Summerland, West Summerland, Summerland village, Gattelle, Trout Lake and Balcomo.

It is impossible for us to state just what Summerland Municipality might be, as we have no definition of the boundaries in this office, but no doubt you will be able to tell this yourself.

The population of the above places are as follows:

Summerland	902
West Summerland	103
Summerland village	95
Gattelle	29
Trout Lake	8
Balcomo	6

1143

It will be at least three months before we can possibly give you the religious denominations, as the work has not yet been completed.

Yours very truly,
A. BLUE, Chief Officer."

This report appeared so ridiculous to the office staff that they asked the members of the Council to make a guess both of the total and of the amount allotted to each centre, as named in the letter. Naturally there was some difference of opinion as to where these centres were and what territory they covered. The conclusion being that the enumerator in this case termed the benches overlooking the lake above and north of the town as Summerland, Trout Lake was thought to mean the benches overlooking Trout Creek. One of the many families in that community would make the total enumeration. Even more absurd is the population given for Balcomo. Where Jones Flat, Peach Valley, Paradise Flat and Garnett Valley come in is not known. Naturally there was much merriment over the attempt to guess the enumerator's figures. One Councillor wished to give it up, saying that he couldn't guess. "You can guess as near as the Census man," was the encouraging reply. To this came "Did he guess it?"

Here is something that may be of interest to dog owners here. A recent supreme court decision outlines responsibilities of owners of dogs. The decision was a case where action had been brought to recover damages from the owner of a dog that barked and frightened the plaintiff's horse. The plaintiff was thrown and injured, and brought suit for \$1500 damages. The jury gave him a verdict for that amount, and the owner of the dog appealed to the Supreme Court. The Supreme Court sustained the verdict, and said in strong words that the owners of barking and vicious dogs are responsible for all damages caused by such dogs, and the owners keep them at their own peril.

It is the way in which a man decides little things no less than great ones, that indicates what he is made of.—President Handley.

Friendship can sometimes show its strength as much by the readiness with which it accepts benefits as by the freedom with which it gives them.—Stalkor.

DIFFICULT ENGINEERING.

Railway Switchback at Naramata.

The building of the K. V. Railway on the east side of the lake will be no mean engineering accomplishment. In fact it is said that the work in the vicinity of Naramata is the heaviest on the whole 57 miles of that division of the K.V. Railway. There has been a good deal of work in building wagon roads to the line. These, however, are nearing completion, and then there will be a wagon road from Okanagan Mission to Naramata built for the construction of the railroad. This will mean a linking up of the highways at the north and south of the lake giving through connection between Vernon and Penitcton, with a fairly good road.

There are at the present time some 500 men at work on the east side of the lake, 300 of them being still occupied in wagon road building, mostly at the upper end. There are now, however, eight camps established at Naramata and vicinity, and as the men are released from road building more camps will be established. Mr. Griffin, the man in charge of the work, expects that, with the exception of tunnel work, the road will be completed by next May. This will include both grading and bridging.

There have been surveys and re-surveys with a view to getting the best possible grade from lake level to the summit, which has an elevation of some 1300 feet above lake level. The most difficult part being found in getting over the hills nearest the lake. Instead of skirting the rocky hills near Squally Point it has been decided to go through the gap back of Chute Creek. To attain this elevation a switchback has been found necessary.

After leaving Pentiction the line will run north along the upper edge of the bench. Shortly after crossing Mill Creek just north of Naramata, there will be a 200 foot tunnel through a rock. Just as the line nears Chute Creek it turns in against the hill and swings around directly south, skirting the side of the hill, and continues south to a point south and east of Naramata township. Immediately back of the township this return line will be one mile and a-quarter distant from the lower line. To swing the line northward again has been a serious problem, and if the present plans of the engineers are approved there will be a sharp turn through a tunnel 1600 feet long. This will double the line back on itself with a distance of only 500 feet between. From here the route will be northward and eastward swinging up through the depression east of Chute Creek.

LORD'S DAY ALLIANCE.

There will be a meeting of the Lord's Day Alliance in St. Andrew's Church, West Summerland, Tuesday evening, October 22nd, at eight o'clock.

Rev. Mr. Huistis of Red Deer, Secretary of the Lord's Day Alliance for the Provinces of B.C. and Alberta, will speak in the interests of the Alliance, and of the working of the Lord's Day Act, throughout these provinces.

It is expected that at this meeting there will also be an election of officers of the local organization.

PENTICTON FRUIT SHOW.

A large number from Summerland took advantage of the excursion rates to Pentiction Fair, leaving this morning at eleven by the Steamer Aberdeen. Among those making the trip were: Mr. and Mrs. Walter Pencock, Mr. and Mrs. J. Lawler, Mr. and Mrs. A. Britten, Rev. A. W. McLeod, Mr. Simpson, Mrs. Will Ritchie.

A large party also made the trip by motor boat.

Summerland growers who have exhibits at the Fair are Messrs. M. Stewart, Fred Gattelle, Jas. Doherty and H. C. Howie.

Writes have been issued against T. J. Smith on the action of several local people. S. M. Young is suing for \$36, A. R. Gayton, \$204, Shields, Hatfield & Clarke, \$255.

Adjourned Meeting of Council.

Public Utilities Question Further Discussed.

Change in Plans for Electric Light.

An adjourned meeting of the Municipal Council was held on Wednesday afternoon. Those present were Reeve Thomson, Councillors Lewes and Dunsdon. The object of the meeting was to further discuss public utilities. The recommendation of Engineer Latimer that an electric light plant with power generated with a Deisel oil engine be located at West Summerland, does not meet with the favor of the Councillors, or at least with those present at Wednesday's meeting. Mr. Thornber's recommendation which was made about two years ago, and which was again placed before the Council, met with favor.

The Reeve thought it would be much cheaper to place any additional plant beside or in conjunction with the present plant, thus avoiding the necessity of discarding the plant, which is a good one, and by that arrangement one man could operate both units when necessary. The plan as finally decided upon by the Council is to install a Deisel oil engine of the same power as the present hydraulic plant as an adjunct, making two generating units. In this way it is believed that it will only be necessary to run the oil engine two or three hours each evening, the water plant generating sufficient power to carry through the night, and for all time except a while in the evening when the full load is on. The Reeve thought that this doubling the power would furnish ample lighting capacity for several years to come when another unit of like capacity might be added, giving reserve machines in case of accident. This plan meeting with approval of those present, the clerk was instructed to write Messrs. Mather Yuill & Co. for quotations and other information on the proposed new plant.

The proposed extensions to public utilities will eventually require close on \$150,000. The ratepayers will be asked to vote on by-laws authorizing the raising of \$110,000 for irrigation and domestic water systems. The amount required for the electric light system under Engineer Latimer's recommendation was \$40,000. The Council anticipate being able to reduce the electric light needs to \$25,000 by their change in program. The further necessary details will be compiled at another early date, and the Council expect to come before the ratepayers on the 28th to lay their plans before them.

A recent application for domestic water which required the laying of considerable pipe, carried with it a promise to pay for the additional pipe required. The Reeve stated that several applications of this nature had been made but that the users had not in a single case fulfilled their promise to pay for the pipe, and he did not propose giving his sanction to future outlays of this nature. While no formal motion was passed it was the unanimous opinion of those present that unless these obligations are paid at once there is no other recourse but to cut off the supply.

A long letter to the Reeve from R. S. Monro was read by the former. This letter threatened to expose the Council unless they gave a hearing to the writer's application for a re-assessment. He claimed that the assessor had put a certain valuation on his property and later the Municipal assessor as one of the valuers of the land taken by the K.V. Railway put a lower valuation on it. Reeve Thomson said that he had already advised Mr. Monro to carry out his threat.

Coun. Lewes, as Chairman of the Finance Committee brought up the matter of unpaid trade licenses and dog taxes. There should have been paid into the treasury \$500 for the former and only \$80 had been received. He wanted to know if some action could not be taken to collect as this money was needed. Coun. Dunsdon thought it was very unfair to those who had paid their dog taxes to let the others who had not paid go free.

It is estimated that some \$200 should have been received on dog taxes—only half the amount has yet come to hand. Plans to impound the dogs, to give the taxes to the constable to collect, and other means were discussed. No action was taken.

Reeve Thomson thought that the Trade License should be cut out. While this principal was not opposed by Coun. Lewes he said it could not be done this year as trade licenses had been included in the estimated revenue.

Tenders for hauling pipe from the wharf to near Paradise Flat were received from Pares & Hookham, \$3.00; James Fyffe, \$2.50; R. H. English, \$3.25. James Fyffe's figure, 2.50, was accepted.

Supt. Mitchell asked that some action be taken against railway contractors for the breaking of the irrigation flume, and using the water. He said that sub-contractor Crandell had cut the flume and used the irrigation water to wash out a cutting, and the earth thus removed was washed into the lake, making it very muddy. He said that the diverting of the water had made it impossible to get any to Paradise Flat, where there had not been any for several days.

Supt. Mitchell made a request that the Council pay half the cost of a new set of tires for his auto, basing his demand on the fact that since his purchase the auto has been almost exclusively used for Municipal work. Coun. Lewes replied that no provision had been made in the estimates for anything of this nature, and he could not see where the funds would come from.

Harry Tomlin, who is now living on his property at Victoria Gardens, asked that water be laid to his lot. He did not relish the prospect of having to carry water all winter. He pointed out to the Council that he was well within the 400 feet limit, but the Council's reply was again "no funds." There was no pipe on hand, and until the proposed by-law is authorized by the ratepayers, no funds will be available for any work of this nature.

FOREIGN TONGUES.

Two Scotsmen staying at a third-rate hotel in London discovered that the washstand in their bedroom was minus soap. After ringing the bell, an attendant appeared and asked their wishes.

"Sen' up snop, lad—a wee bit snop, quick!" exclaimed one of the Caledonians.

The attendant gazed open-mouthed at the two men, muttering: "They are not French or German, nor yet Spanish. What can they want?"

The Scot became angry. "Man," he thundered, "can ye no' understand plain Scotch?"

The attendant promptly withdrew, and returned with a bottle and two glasses.

The perfection of art is to conceal art.—Quintillion.

HERE IT IS!

ABOVE you will see the plan of the small sub-division which I have opened up in West Summerland. This, as I said before, is only a few hundred yards from the post office and churches.

The lots marked with an X have already been sold before the plan was hardly opened up, and a number of others have been spoken for.

You will see at a glance that

this is one of the best propositions yet offered to the public in Summerland, and no doubt these lots will be picked up very quickly.

The terms are very easy.

Only \$50
down and the balance
in two years.

I expect to sell all of these lots within the next two weeks so speak quickly for your choice. Call or phone my office.

Please take notice that after this date the coal will be \$10.25 delivered in Town, and \$11.00 on the Flat.

Also some Tungsten lamps left.

W.J. Robinson

College Notes.

A slight change in the Y.M. and Y.W.C.A. work of the College has been effected this year. Formerly, the two organizations formed a joint society with the one executive, and met at the same hour and place. This year they are two separate and distinct societies, each with its own set of officers, and holding separate meetings.

The officers of the Y.M.C.A. are: President—W. M. Armstrong; Vice-President—J. Marshall; Secretary-Treasurer—J. Leach. The officers for the Y.W.C.A. are: President—Miss Woods; Vice-President—Miss M. Short; Secretary-Treasurer—Miss Renwick. The Y.M.C.A. will meet each Tuesday evening at 7 o'clock, and the Y.W.C.A. on Sunday afternoons.

The first meeting of the Y.M.C.A. was held on Tuesday evening, October 8th, when Rev. S. Everton spoke very helpfully to the men. On Sunday, October 6th, the Y.W.C.A. met for their first service.

The Faculty have arranged to hold services Sunday evenings at 7 o'clock, once a month in the Baptist Church, and the remaining Sundays in the College Chapel. A number of strong speakers have been secured, and it is believed that the meetings will be most enjoyable and inspiring. The first of the series was held last Sunday evening, Mr. Robertson, traveling Secretary of the Y.M.C.A. delivering the address. It is expected that Rev. Mr. McLeod, missionary on furlough from India, will speak. Announcements of the program will be made from week to week. An invitation is extended to all who may wish to attend these services.

The girls of the college having been invited to join the Athletic Association a meeting was held on Thursday the 10th, to decide the basis of membership. The young ladies consented to unite upon conditions that the fee should be 50 cents per term, and that the tennis courts should be put and kept in good order by the society. This was agreed to by the association. Mr. Chas. Johnston was appointed to superintend the reconstruction of the courts.

College Professors and Students are Welcomed

The reception for the college professors and students held in the West Summerland Baptist Church on Friday evening last was very largely attended.

The first hour was spent very informally in getting acquainted, affording the students an opportunity to meet one another, their professors and the many friends of the college in a social way.

About nine o'clock the meeting was called to order by Rev. F. W. Pattison, who conducted the program. Rev. C. H. Daly, on behalf of the friends from the Presbyterian Church, brought messages of goodwill, and spoke words of counsel to the students. Rev. F. W. Hardy, who was unable to attend, sent expressions of regret at his enforced absence; and words of kindly greeting. Rev. H. A. Solly, who was out of town, was also unable to be present. Dr. McIntyre, on behalf of the Board of Governors, welcomed the new professors and students to the college and the town, and in a very few well-chosen words gave helpful counsel to the students.

Mr. Ed. Armstrong aptly responded for the students, and Dr. Sawyer in a very brief speech made reply on behalf of the Faculty. During the evening solos were rendered by Miss Helen Sawyer, Miss Anna Hayes, Prof. Moore and Mr. Petersen, whose Swedish songs were heartily appreciated.

Old students were glad to welcome back Hugh Perry, Corry and Orlando Du Pont (Frenchie) who returned to their studies (?) on Monday night.

The Literary Society held its first meeting of the year on Saturday evening, October 2th. Prof. Denton gave a very instructive paper on "The History of Telegraphy."

A committee of the juniors, composed of Harvey Phinney, Ed. Wolterton and Mr. Anguin was appointed to interview the High School boys as to the possibility of organizing a rugby football team from their numbers.

JIMMY'S LETTER TO DAD

Okanagan College,
West Summerland, B.C.,
17th October, 1912.

Dear Dad,
I received your letter O.K. last night. It was awfully good of you dad to send these ten bucks along. I'll do my best to make them go a long way. Frenchy and Corey, two of the old fellows, came in this week from up the line somewhere. Frenchy couldn't get here earlier because he had some contract to finish with the Revelstoke ball team. Bill Corey has been peddling fruit or lumber, I don't remember which, between here and Moose Jaw. The first meeting of the Lit. came off alright. Prof. Denton gave a lecture on Telegraphy, sparks, waves, etc. He says that its just an accident that we have the telegraph, sounds rather funny but he sure said so. On Sunday we had the man who took Mr. Bishop's place in the Y.M.C.A. I forget his name just now. He told us all about the business from A to Z.

We are still having good workouts on the campus, getting ready for that game with Kelowna around Thanksgiving time. Johnson is sure making a good captain. We expect Middleton in soon and then we will have an A1 team. I guess we'll carry everything away this year.

The reception came off at the Church last Friday. I guess I wouldn't mind these affairs if those long speeches were only cut out, but I hate attending lectures at night after sitting through five every day.

Well, must close now. This is really study hour.

Your loving son,
JIMMY.

The tie between the Bean-eaters and Hill-climbers was to have been played off on the afternoon of the 14th, but the Hill-climbers did not appear. They were too busy digging spuds.

At the morning chapel service Tuesday last Rev. F. W. Pattison spoke to the students, basing his remarks on the thought, "Only live fish can swim up stream." This is the first of a series of talks to be delivered by outsiders at the morning chapel services.

FIRST ANNUAL Okanagan Valley APPLE SHOW

To be held in VERNON, October 23 & 24, 1912

Under the auspices of the Okanagan and Spallumcheen Agricultural Society and the Associated Boards of Trade of the Okanagan Valley

\$4,000 in Prizes: District, Twenty-Five, Ten, Five and One Box Displays

THE HON., THE PREMIER, Sir RICHARD McBRIDE, K.C.M.G.,

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

THE OLD HOME.

Well worth the recollection of an occasional hour. Boys, do you ever sit down and talk for an hour over the scenes, and adversities and successes of childhood? Do you ever take time to look back over the hill of life and call up the days of ye olden times when you were at home under the protecting care of a fond father and a devoted mother? Do the early days spent possibly in a pioneer home, ever occur to you as the happiest home of your eventful life?

These questions are for the "Old Boys," those who have passed the meridian of life and now are on the down slope, and who, from natural causes, will soon pass into the unknown beyond, where they are to enjoy the rewards that come of a well directed life.

Boys, think of the old home where were father, mother, and the charming brothers and sisters whose whole aim was to keep home happy and make life a pleasure rather than a burden. You remember father's corner behind the big fireplace, do you not? See him as he sits and nods in the twilight of the dim fire, and dreams of the day when his boys will be Sentaors, and will not have to stand the bitter trials of the dark forests or the treeless prairies.

Perchance he has toiled all day in the clearing, vigorously battling with nature for the ascendancy of the arts of man. He did these things you know and all for you too. His trials were bitter. His aims were noble. His object was happiness prompted by a motive of love. The home was crude, compared with the gorgeous palaces of these days. But the joy was there because father was and love because mother was. Yes, see her as she sits at her work over in the corner. She is the perfect embodiment of happiness. Her boys and girls are all at home. They are yet in their innocency and she knows their every thought and observes with pride their every act.

Father and mother, brothers and sisters. The Old Home. What depths of meaning lie in these words. There is comfort in them. They recall the innocent prattle of younger brothers and sisters. They recall the kindly directed efforts of the seniors to secure the joy and peace that comes from the fraternity of home with its bonds of affection.

The dim old forest and the wide expanding prairie are there too. The low murmuring rill with its beautiful song is there. We were all there when we were young, but how we are old and all that we can do is recall, recall, recall.

Do this boys, and see if you do not appreciate more fully all that you are and have. It is but just that you should affectionately look upon the past.

MOURNING FOR THE DEAD.

There are few things in which men and women show themselves so irrational as in prolonged and consuming grief for the dead. It is not in human nature to be philosophic when the earth has closed over one we love, but to nourish agony and sorrow is nearly an abdication of reason itself. The God who orders our births, orders likewise our deaths. All must die. To die is as common and as natural as to live. Being common, universal, certain, it cannot be an evil. Those who have gone before, no matter how long their days, seemed to have lived and vanished as creatures of the hour, so that even over the death of the young we should not lament at the seeming untimeliness of their taking off. It is indiscreet to assume that the death of the young is a peculiar calamity and hardship. How can we tell what they have escaped, or decide that they are singularly fortunate? Who finds life such an unmixed blessing as to grieve long over the translation of those who are yet innocent and happy to serene spheres. It is vain and unavailing to grieve over what has happened and cannot be altered. It does no good to the dead and it injures the living. It is also mutiny against the Presiding Judge of all. To honor the dead aright is to cherish fondly the memory of good dispositions and deeds, and make that memory a guide for our own spiritual attainments. This is better than marble slabs, glowing memorials or devouring pang of fruitless woe. The ancient world never clothed death with the terrors which came in with the church and the middle ages. Who grieves forever has no faith in a reunion. Such tears silently proclaim the fear of annihilation, the despair that forgets God.

WE WANT girls with hearts; girls with tenderness and sympathy, with "tears that flow for others' ills," and smiles that light outward their sunny thoughts. We have, clever girls and witty girls and brilliant girls. Give us a consignment of jolly, unaffected, natural girls, warm hearted girls, with lots of fun and no coarseness; girls who can go out and romp in the snow and wash the snow in each others' faces, tug at a hand sled, roll a snowball, and think it no forfeiture to their dignity to frolic with their ten year old brothers. With a few more such girls the world would brighten up as June does under showery weather. Speed the day when the world is full of them, to the extinction of the airy, affected, brainless mynxes who think of nothing but of self and face powder.

BREAD and cheso and kisses are better than sumptuously laden tables with no expression of love.

1912 CROP YIELD 208,368,000 BUSHELS.

Winnipeg, Oct. 12.—The Canadian Bank of Commerce after a comprehensive and systematic examination of the crop conditions in Western Canada, estimates the wheat yield at 106,000,000 bushels; oats, 224,500,000 bushels; barley, 40,000,000 bushels; flax, 12,000,000 bushels.

The total value of the grain crops to the producer is estimated by the bank at \$208,000,000, made up as follows:

Wheat, 106,000,000 bushels, 62 cents	-	\$121,520,000
Oats, 224,500,000 bushels, at 25 cents	-	56,125,000
Barley, 40,000,000 bushels, 33 cents	-	16,533,000
Flax, 12,000,000 bushels, \$1.10	-	14,100,000
Total	-	\$208,368,000

IT CERTAINLY PAYS TO
ADVERTISE IN "The Review."

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED,
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, OCTOBER 18, 1912.

ELECTRIC LIGHT EXTENSION.

The decision of the Town Council to furnish sufficient power to electrify the district is a wise one. It has been generally understood by outsiders that electric light is available, and until it is available to all a handicap is put on settlement here. In these days of progress and high price of coal oil electric light is almost as essential as domestic water.

No better advertising scheme could be devised than the covering of this place with electric light, and in no way can it be done as cheaply. The figures, as compiled by the municipal office staff, show that even with an estimated expenditure of \$40,000 it would only be necessary to increase taxes by a quarter mill to accomplish this result, and this tax only for a year or two. These figures do not include any revenue from street lighting. Reducing the expenditure to \$25,000 should entirely do away with any need of a tax for electric light, and no doubt the larger institution will be self supporting from the first. Whether it is advisable to generate the additional power by oil engine or water we are not prepared to say, but if water be available we see no reason why a quick decision should not be made in its favor.

CIVIC PRIDE NEEDED.

IN two weeks Summerland is to hold its Fourth Annual Apple Show, when it is expected that hundreds of visitors from different parts of the province will be in our town. Summerland is already noted for its excellent climate; the generous hospitality of its citizens, and the splendid quality of the fruit produced. But we fear that it is also noted for its unkempt appearance. We have heard it said again and again that Summerland is the most "untidy" town of the Valley. Though we do not believe this libel yet we must remove all cause for its expression. We believe that nature has endowed this spot with a certain rugged beauty, difficult to be found elsewhere in Western Canada. It is for us to assist the work of nature and not to mar it so that visitors to the Show may remark on the cleanliness of our streets, and general order of our town, as well as on the natural advantages of the place. Yet our main street is, to say the least, disorderly in appearance. In the very heart of the business section are piles of empty oil barrels, broken boxes and other rubbish. There is no excuse for these conditions for we are far past the pioneer stage. Their worst feature is not the eye-sore thus presented but the fact that they indicate a spirit of indifference, a lack of civic sentiment.

But we would call special attention to the condition of the Park, in the immediate vicinity of the Elliston Hall, where the Exhibition is to be held. Nothing of any consequence has as yet been done to improve the grounds, and beautify the site. Yet a very little labor and money expended would make this a very delightful spot. We would suggest that the directors of the Agricultural Association be appointed a committee to improve the Park. Let definite plans be outlined and work conducted according to these plans. The old brush should be cleared away, gravel walks and drives laid out, and shade trees planted in proper order. The work might be done in the Fall and Spring when labor is slack. The Council might make an annual grant for four or five years towards this work that it might be done in the most approved manner. We would then have a Park worthy our pride and the other features for which Summerland is noted.

Our Philosopher

GOT SOMETHING FOR NOTHING.

When a person gets something for nothing, said something usually contains a joker or has a string attached to it. For instance, a certain preacher received from a patent medicine company an offer to provide his church with song books free of any charge. It was explained that there would be a few ads in the front and back of the books, but that these ads would not be offensive to the members of the congregation. Since the books were being secured for nothing, the preacher gave the order and the books arrived. He found the ads to be mildly worded and decided to use the books. He explained from the pulpit how the books had been secured, and announced that they would sing No. 274. Imagine the people's surprise when, on reaching the second verse, they found themselves singing, "Hark, the Heavenly angels sing, Johnson's pills are just the thing; Angelic voices meek and mild—two for man and one for child."

THE LIFE OF A TOWN.

It takes live men to make a live town. Dead men are only fit to inhabit cemeteries. If they are really decently dead, dead all over, we tenderly lay them away in the sleep of the tomb, but if they are only dead in all enterprise and spirit, outside of the narrow limits of their own selfishness, and yet persist in walking around, moving their calloused hearts and consciences where real business is wont to pulse and throb with vigor they are really like the drone bees, in the way until they are stung to death and dragged outside of the hive of legitimate industry. Twelve really live men are worth more to a town generally than a round full thousand of such useless material that lays around like rubbish in a rushing stream that is aching and foaming to turn mills and factories. Yes, live men bless and dead men curse a town.

ILLUSTRATED LECTURES.

An informal missionary conference of unusual interest will be held on Wednesday, October 23rd, at 8 p.m. in the West Summerland Baptist Church. Rev. H. G. Estabrook, Superintendent of Home Missions for B.C., will deliver a lecture on "By the Highways and Byways of B.C." Rev. A. A. McLeod, who was a missionary for years in India, will speak on "Life in India." Mr. McLeod has had a varied experience in his work in India, and has been one of the most successful missionaries. He has gone into villages with not one christian inhabitant, and has left them, if not entirely, at least nominally christian.

It is expected that both these lectures will be illustrated by stereopticon views, and while they deal somewhat specially with the work of the Baptist denomination, yet they are of a general nature, and will be of interest to all who may attend. All friends will be welcome at this meeting.

The Women's Missionary Society of the Methodist Church will hold their Fifth Annual District Convention next Thursday afternoon and evening. Both sessions will be open to the public.

While driving down the switch-back last week Mr. J. Wheeler, Manager of the Garnett Valley Lumber Co., accompanied by Mrs. Pardee, his sister-in-law, and his little daughter, had a narrow escape from a serious accident. Suddenly and without apparent cause the horse turned off the road-side and down the bank. Mr. Wheeler and little daughter were thrown out while the horse ran down the steep hillside. Mrs. Pardee, however, remained in the buggy, but could make no effort to control the horse as the reins were beyond her reach. Before going far the horse was stopped by Mr. Stanley, who fortunately happened to be near, and Mrs. Pardee escaped without injury. Mr. Wheeler received a nasty cut and was badly shaken up, but the little girl escaped serious injury.

WANTED—Five tons potatoes at Maples Ranch. W. J. Robinson. tf

LOCALS.

Mrs. W. H. Hayes entertained a number of lady friends early this week at a thimble party.

Mrs. H. A. Reynolds, Idyllwylde, Garnett Valley, will receive on Thursday and Friday, October 24th and 25th.

Coun. Thos. Dale was unable to attend the meeting of the Municipal Council on Wednesday owing to ill-health.

A. L. Moreland, who was seriously hurt last week, is making satisfactory progress. He will, however, be confined to his home for some time yet.

Messrs. Simpson and Grieve will open a meat market at West Summerland in the building formerly occupied by the Somerset bakery. These are two enterprising young men and will doubtless command a large patronage. The store will be open for business on Saturday, October 19th.

In a short interview with Coun. Robinson he expressed himself as in favor of the decision of the other members of the Council to add to the present power plant. He, however, says he will strongly oppose the use of an oil engine, declaring that there will be an abundance of water when the additional storage is provided.

Special Thanksgiving Services will be conducted in St. Andrew's Presbyterian Church, West Summerland, on Sunday, October 27th, commencing with morning service at 10.30 a.m., evening service at 7 p.m. Rev. C. H. Daly, pastor, will conduct both services. Special music will be rendered. A special collection in aid of the building fund will be taken. On Monday evening, October 28th, the ladies of the congregation will serve a supper in the Fruit Union Building, West Summerland, and the choir of St. Andrew's Church, assisted by several friends, will give a Patriotic Concert in the church. The program on this occasion will be composed of solos, duets, quartettes, choruses, readings, etc. Mr. David Lister will make his first appearance in Summerland as a Scotch Reader on this occasion. Supper will be served from 6 to 7.30. Concert to commence at 8.

ACCIDENTS to FRUIT GROWERS are many but there is only one Policy giving the greatest benefits at lowest rates.

WE HAVE IT.

Messrs. Cordy & Higgin report a most successful sale at the Bowen Ranch, Balcom, on Thursday. Prices were good and articles found ready buyers. In fact 100 lots were disposed of in four and a half hours. About 100 were present for lunch, and at least 150 during the afternoon. This was reckoned very large for the unpleasant day.

Meteorological Report

Weather fine, but cool. Better get one of A. & S. SWEATERS, and feel warm and "summery." They are going like Hot-cakes. Prices Lowest in Summerland.

Local News Items. Local News Items.

Mrs. George Gartrell is paying a visit to friends in Vernon this week.

Mr. Thos. Beavis and family left for a week's visit in Armstrong and vicinity.

Mr. and Mrs. W. C. Kelley, who spent Tuesday in Kelowna, returned home on Wednesday evening.

Mr. and Mrs. Fetherstonhaugh and family, formerly residents of this district, came into town on Wednesday night.

Mrs. Van Allen and daughter, who have been visiting with Mrs. Agur, leave on Monday next for their home in Toronto.

Mrs. Robert Johnston of Gartrell and Mrs. Archie Rutherford, Balcom, left for Bradwardine, Man., on this (Friday) morning's boat.

Mr. Jack Robinson and sisters, Gladys and Kathleen of Naramata, left by Wednesday morning's boat for Toronto, to resume their studies in the different institutions there.

The sub-division recently placed on the market by Mr. H. H. Elsey, found ready buyers. Lots facing the present street were bought up immediately the market was open.

Commencing on November first the Naramata agency of the Canadian Bank of Commerce will be opened only two days a week—Tuesdays and Fridays.

Mrs. A. Harkness and family, who have been occupying the Gainer house for several months, will move to their new bungalow at West Summerland to-day (Friday).

Mr. T. B. Shoebottom of the Attorney General's office was in town on Wednesday gathering reports of all trials, fines, etc., recorded previous to the establishment of the Small Debt Court.

While digging his potatoes last Tuesday Mr. W. E. Rines found one that measured over a foot in length, and tipped the scales at five pounds. This must be near the record even for Summerland.

"The Players" of Summerland returned on Wednesday night from Kelowna where they presented "Cousin Kate" on Tuesday night. Mr. Sauter reports a full house and a splendid reception accorded them.

Mr. Clayton Hamilton, who has been in town some months for the sake of his health, was pleased by the arrival of his sisters from Winnipeg this week. They will spend the winter in Summerland.

Dr. Knox and Mr. P. B. Willets, who have been spending a couple of weeks on a hunting expedition in the hills, returned to Kelowna on Thursday morning. They report an enjoyable trip and a couple of deer shot.

Rev. A. A. McLeod of Vancouver, missionary on furlough from India, will speak on Sunday morning next in the West Summerland Baptist Church. In the evening, at seven o'clock, he will address the students in the college chapel.

Mr. R. H. Burk, formerly in the barbering business in Vancouver and Vernon is in town this week. Mr. Burk is well pleased with the town, climatically and socially, and says he may enter his own trade, or begin some new line in our midst.

Dr. E. W. Sawyer, Principal of Okanagan College, left on Saturday morning, October 12th, to visit eastern cities in the interest of the college. Dr. Sawyer will attend the Baptist Convention of Ontario and Quebec, and also of the Maritime Provinces. He expects to be absent about five or six weeks.

The Okanagan Lake Boat Co., Ltd., of Naramata, have contracted with the Summerland ship-building firm of Hatfield & Clark, for a new motor ferry to be used on their Summerland-Naramata route. The boat is to be 50 ft. long, with 10 ft. beam, carrying at least one hundred passengers, and is to be ready for service in the spring.

Rev. Mr. and Mrs. Gilbert arrived from Manitoba on Sunday night's boat, and are staying at the home of Rev. F. W. and Mrs. Hardy. Mr. Gilbert, who has come to Summerland for his health, has already found the climate and rare atmosphere beneficial, and expects to remain in the town for the winter. Mr. Gilbert was formerly a clergyman in Fort William, Ont.

Miss Georgina Blair has returned from Kaleden where she spent the summer.

Messrs. Hatfield & Clarke are busy constructing a new motor boat for Mr. Hancock of Naramata.

Mr. Thomas Welsh of Vancouver, who has interests in orchard property here, arrived in town on Thursday evening.

Mr. H. H. Elsey left on Wednesday morning for Calgary. A visit may also be made to the Dry-Farming Congress held this week at Lethbridge.

Mr. Robert G. Clarke, Dominion Inspector of Packed Fruit, was in town over Thursday night, leaving for Penticton this morning on the steamer Aberdeen.

Mrs. Jas. Ritchie and family left for Kaleden on Tuesday last, Mr. Ritchie making the trip on Thursday afternoon. The family will remain at Kaleden for two weeks.

Mr. James Ritchie sold his large motor car on Friday last to parties in Kelowna. It is understood that Mr. Ritchie may later invest in an electric machine equipped with the latest Edison storage battery.

Miss Gertrude Rines, daughter of Mr. and Mrs. Wm. Rines, while spending the week-end with her grand-parents, Mr. and Mrs. Loomer of Penticton, was taken ill and was unable to return home till Wednesday morning.

Rev. Mr. MacKay of Vernon, representative of the British Home and Foreign Bible Society, was in town on Wednesday and Thursday. Mr. MacKay was obliged to return to Vernon on Friday morning for another supply of books.

Revs. F. W. Pattison and C. H. Daly left on Thursday morning on a two days' visit to the different camps of the K.V.R. The trip has been made in the interest of the social and religious work being carried on among the men of the camps.

Mr. T. B. Young is moving the dwelling house formerly owned and occupied by Mr. Thos. Darkis on the Brewer lot, and bought by Mr. C. H. Gayton, to the lot north of the grain and feed store, West Summerland. Mr. Gayton is having the house fitted up for rent.

Mr. Koch, time-keeper at Nelson's Camp, is confined to the K.V.R. Hospital with a broken leg. One day last week he attempted to ride a fractious horse, and the animal beginning to buck Mr. Koch jumped off, alighting on the side of his foot, snapping the bone just above the ankle.

The College Choral Society will meet for the first time this term in the college chapel at 7 o'clock on Monday evening next. Quite a number of town's people joined the society last year, and no doubt there will be a good number again this year. The college orchestra expects to resume practice on Thursday next.

Ensign Richardson of the Vernon Salvation Army corps was in town Sunday and Monday collecting the annual donation for the Rescue and Orphan Homes conducted by the army. Mr. Richardson has pledged his corps for \$400, and says he is confident it can be secured in the Valley. He will visit other Okanagan points this week.

Dr. and Mrs. Angwin, who were in charge of the hotel at Kaleden, have returned to their home here. During their absence their cottage was occupied by Mr. and Mrs. Jack Conway. Until the cottage they are to occupy is completed Mr. Conway will live with his mother, and Mrs. Conway will, for a time, visit friends in Kelowna.

Dr. and Mrs. R. C. Lipsett left on Wednesday morning for Lethbridge to attend the Dry-Farming Congress and International Congress of Farm Women held this week in that city. Dr. Lipsett, on the invitation of Hon. Price Ellison, will assist Commissioner Brandrith with the Provincial Exhibit. Mrs. Lipsett is delegate from the Women's Institutes of B.C.

A large number of Summerland people crossed the lake last Saturday afternoon and evening to enjoy the Chicken Supper provided by the Unity Club of Naramata, and a pleasing entertainment given in the Opera House by members of the same society. A most enjoyable time was spent, and the entertainment was particularly well prepared, revealing much latent talent, as well as capable training by their instructor, Mrs. Gillespie.

Better Dinners

"Is dinner ready, Mary?"
 "Yes, Madam—it is ready, and, I think, a great success."
 "Your cooking is improving."
 "Well perhaps it is, and I hope so, but really, Mrs. Housewife, I think our new Gurney-Oxford is partly responsible for the success I have had lately. I was never able to cook roasts and fowl so well on our old stove, and as for bread and biscuits, I used to tremble when I went to take them from the oven—they were so often soggy and heavy. Now they are always light and beautifully brown, and, if I do say it myself, something to be proud of."
 "That's true, Mary, my husband has said almost the same thing. I'm awfully glad you approve of my choice of a Gurney-Oxford. He approves because of the saving in coal since we got it, also because of the better meals he is getting."
 "Indeed he's right, Madam—and it requires so little attention."
 "That's fine, Mary. Will you serve dinner in a few minutes please."

Borton Plumbing & Heating Co.,
SUMMERLAND, B.C.

Kaleden Comments

Hotel Kaleden closed on the 15th inst. for the winter months.
 Mrs. Jas. Ritchie of West Summerland is staying down for a visit.
 The lots in South Kaleden are being cleared and ploughed ready for planting in the spring.
 Dr. and Mrs. Angwin have returned to their home in Summerland.
 A Harvest Thanksgiving service is to be held in the schoolhouse next Sunday afternoon at 3 p.m.

Mr. and Mrs. Soanes drove down from Penticton last Sunday to spend the day with Mrs. O. E. Tomlin.

Miss Georgina Blair has returned to Summerland after spending the summer here.

Mrs. O. E. Tomlin and Mrs. John Parks entertained the young people last Tuesday evening, at the home of Mrs. Tomlin, to a very pleasant social time. Games of different kinds were played, and refreshments were served at the close.

Development work has commenced on Gillespie's Ranch, and a number of men went out last Monday morning for the purpose of helping in the work there. A steam shovel has been brought in as there are several miles of ditch to be dug in preparation for the water to be used in irrigating the lots, which are of a superior value.

DOUKHOBORS PLAN FRUIT WAREHOUSES.

Nelson, B.C., Oct. 15.—According to Peter Veregin, the Doukhobors in British Columbia will, when their orchards reach bearing stage, in two or three years, adopt means for selling in prairie markets, which will eliminate the middlemen's profit and give the grower a better price and lower the cost to the consumers.

Preparations are being made, he told the Doukhobor commissioner, to erect large warehouses at Calgary, Edmonton, Moose Jaw and other large distributing points. From these the community will sell the fruit to retailers. He was confident that American competition need not be feared, and that the Doukhobors would handle, on a small commission, fruit grown by other ranchers in this district, thus enabling the small man to secure benefit of car load rates and community selling plan.

Naramata Notes.

Hotel Naramata closed on Thursday as per previous announcement, and will not reopen till further announcements.

An effort is being made to secure the services of our local bandsmen to play at Summerland during the course of the Apple Show.

John H. Poff of Vancouver, the well-known insurance manager of the Sun Life, spent a few days recently with our local agent, T. H. Boothe.

The various construction camps are this week being connected up by telephone, adding much to the convenience and shall we say the safety of the whole works.

Commencing on November first the Naramata agency of the Canadian Bank of Commerce will be opened only two days a week—Tuesdays and Fridays.

Mr. and Mrs. Hodson were visitors to Penticton for a few days recently, the former attending to certain contract work and the latter as a guest of Mrs. Schoop.

The premises recently occupied by the laundry have been leased to Messrs. Hilton and Mastin, the former of Vancouver, the latter from Princeton, who purpose opening another pool room with barber shop in connection.

J. Howard Rounds, the expert stenographer, who has been in the company's office for the last two or three years has accepted an offer to assume charge of the local office for the Kettle Valley Railway, whose head officials are about to remove to Kelowna.

The steam laundry operations last week came to a sudden stop on account of the breaking of the power wheel, and as an outcome of this, the company have decided upon altering the plant entirely. They announce that an electric power plant will be established upon another site as soon as it is at all possible to get next that rather heavy undertaking.

The chicken supper was everything promised and more, and the programme which followed was itself well worth the price. The ladies of the Unity Club and their capable president, Mrs. Gillespie, deserve great credit for untiring efforts in bringing the event forward so happily. The following is the program: 1 Sketch—A Fair Encounter—Miss Ruth Chambers and Miss Wells; 2 Song and Chorus—A Very Ambitious Girl—Miss Gladys Robinson, chorus by concert company; 3 Solo—1 Double Double Dare—Miss Margaret Mitchell; 4 Song and Chorus—I want a Girl who is just like the girl my father used to have—concert company; 5—Men's Chorus—Moonlight Bay—F. M. Manchester—Assisted by the Gentlemen; 6 Playette by Gladys and Kathleen Robinson—Granny's Picture; 7 Costume Song and Chorus—Would You Like to take a Walk With Me—The Quaker Girls; 8 God Save the King.

CHURCH NOTICES.

Baptist Church—At West Summerland every Sunday at 10.30 a.m. Sunday School at 11.45 a.m. At the Lakeshore Church 7 p.m. Sunday School at 11.30 a.m. F. W. Pattison, Pastor.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30 a.m., Sunday School, 11.30 a.m. Evening, Fortnightly at 7 p.m., alternating with the Methodist Church. Rev. C. H. Daly, Pastor.

Methodist Church—Services every Sunday morning at 10.30. Sunday School at 11.30. Fortnightly evening service at 7, alternating with Presbyterian Church, West Summerland. Frank W. Hardy, Pastor.

St. Stephen's Church (Anglican).—Holy Communion every Sunday at 8 a.m. except on the first Sunday in the month. First Sunday in the month Holy Communion at 12 noon. Matins 11, Evensong 7, each Sunday. Rev. H. A. Solly, B.A., Rector.

COULDN'T AFFORD IT.

"Yes," said Tom Poorman, "I've been invited to her wedding, but I'm not going."
 "But," urged his friend, "do you think you can afford to have your absence noticed?"
 "Better than I can afford to have my presents noticed. That's the trouble."

Will you be one of the 108 farmers who will receive our Prize Contest checks?

THERE will be twelve cash prizes in each of the nine provinces (108 in all) in the 1912 Prize Contest for Canadian Farmers. The 1911 Contest was so successful in awakening interest in the use of Concrete on the farm, that a second contest, in which three times as many prizes are offered, was decided upon for this year.

The Contest this year is divided into three classes, "A," "B," and "C," and there will be four prizes in each class. (First prize, \$50; Second prize, \$25; Third prize, \$15; Fourth prize, \$10.) Thus there are three \$50 Prizes, three \$25 Prizes, three \$15 Prizes, and three \$10 Prizes, for each province.

DESCRIPTION OF CLASSES
 In Each Class there will be First, Second, Third and Fourth Prizes (\$50, \$25, \$15, and \$10) for Each Province.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most "Canada" Cement on their farms in the year 1912.
 CLASS "B"—Prizes to be awarded to the four farmers in each province who send photographs of the best concrete work done with "Canada" Cement on their farms in 1912.
 CLASS "C"—Prizes to be awarded to the four farmers in each province who send in the best description, telling how any piece of concrete work was done with "Canada" Cement. (Entries for this prize must be accompanied by photographs of the work.)

Don't think that you must use a large quantity of cement in order to win a prize. The quantity of cement used does not count in Classes "B" and "C." Many of last year's prize winners used very little cement.

When you enter the Contest, you have a chance to win a cash prize of \$50 as well as the certainty that you will add a permanent improvement to your farm. If you haven't a copy, be sure and ask for our book, "What the Farmer Can Do With Concrete." It will not only suggest many improvements that you can use in entering the Contest, but will tell you all about the use of concrete on the farm.

Just write your name and address on the attached coupon, or use a postal card, and we will send full particulars of the Prize Contest and a copy of "What the Farmer Can Do With Concrete" to you absolutely free.

**PACKING METHODS ARE
STEADILY IMPROVING.**

Victoria, Oct. 14.—Mr. W. E. Scott, Deputy Minister of Agriculture, speaking of the statement made by the market clerk of Vancouver, that fruit sent to the Vancouver market was not properly packed, is inclined to think that conditions are perhaps not quite so bad as painted. "There is no doubt, however," says Mr. Scott, "that some of the coast farmers pack their fruit badly. This is done by men who are careless or indifferent, the kind of men who try to deceive by putting the large apples on the top. There is, I think, more poor packing done along the coast than in the interior of the province. In the interior the work of the provincial packing schools is beginning to tell, and the packing is done excellently as a rule."

"In comparing the Canadian and American fruit in the Vancouver market it must be remembered that not much fruit from the Okanagan, for instance, finds its way to Vancouver. The farmers naturally seek the best market and they find it in Calgary rather than in the coast cities. But the packing is steadily improving and the day is not far distant when criticism on this score ought to be a thing of the past except as to the men—there will always be a few—who will not learn."

"As to the statement that the Americans get better freight rates into the prairie market than do the farmers of British Columbia, that is not true, taken as a whole. There are one or two instances in which there is a slight advantage to the American farmer, but generally speaking the Canadian has the best of it in getting into the Canadian market as he ought to have. But where the Americans do get an advantage is in their method of selling. The four states of Idaho, Washington, Oregon and Montana have what practically amounts to a single selling agency for the whole four, and in this way they prevent different districts from reducing the price of bidding against each other. In British Columbia, the different associations have not yet learned to act together, and for that reason they are at a disadvantage."

"In any case the British Columbia growers cannot reasonably expect a continuance of the high prices which have prevailed of late years. They must expect to presently get down to the basis of about a dollar a box, and at that there is good money in the business. Prices for apples could not, in my judgment, continue permanently at \$1.50 and \$1.75 per box."

A WELCOME VISITOR.

Full measure, "pressed down and running over," describes the contents of The Fruit Magazine, Scientific Farmer and Canadian Citizen, for October.

The Editor deals with the Governor-General's Western tour, Canadian versus United States fruit, the potatoe canker plague, etc., and the contributed articles are lengthy and extremely interesting. Amongst these are a full report of the Canadian Forestry Convention, held in Victoria, B.C., last month, an exhaustive article on irrigation and forestry in Egypt, Soudan, India, Ceylon, Burma, Java, Australia, New Zealand, Philippines, Formosa, China, Corea and Japan, by Mr. William Pearce of Calgary, Alta., Irrigation Lessons from the Old World, by Sir William Wilcox, and The Poultry Industry of British Columbia, by Prof. M. A. Jull of Macdonald College, Quebec. The Home Department and the usual Ottawa Letter command the usual interest, and the photo engravings are numerous and beautiful.

CANADIAN APPLES WANTED.

Ottawa, Oct. 14.—Advices received by the trade and commerce department show that there will be a good market in Germany for Canadian apples. Last year some 120,000 barrels were received at Hamburg, and the conditions warrant the expectation that the demand will be fully equal to that of last year. Three large importers in Hamburg are anxious to ascertain if they cannot possibly obtain a quantity of the same variety of apples of from 500 to 1,000 barrels put up by the same packer under the same brand which would become known and appreciated for reliability.

The way to be nothing is to do nothing.—Howe.

FEDERAL GRANTS FOR AGRICULTURE IN B.C.

Victoria, Oct. 14.—Hon. Price Ellison, Minister of Finance, has received a cheque for \$27,000 and some odd cents, being the amount appropriated for B.C. under the federal legislation of last session, providing for co-operation with the provinces in aids to agriculture. The greater part of this sum, \$11,000 will be devoted to the improvement of pure-bred live stock, but \$10,000 of it will be allocated for general farm improvement work, including lessons in the rotation of crops, care of poultry and farm animals generally, and development of the work of Farmers' Institutes. The sum of \$4,000 is set aside for the securing of exhibits for the demonstration train of B.C. products, which is to tour Canada next spring, whilst \$1,000 will be distributed to the improvement of the condition of the women on the farms. It is understood that the agreement between the two governments provides that the allocation of the grant may be altered each year if the provincial government so desires, but that any change must be approved by the Federal Minister of Agriculture before it is put into effect.

NELSON APPLES FOR LONDON.

Nelson, Oct. 12.—Definite decision to send a carload of fruit on consignment to Covent Garden, London, has been reached by the directors of the Kootenay Fruit Growers' Union. The car will be made up on October 20, and will reach England in ample time for the Christmas market. Cox's Orange Pippins, Yellow Newtowns and Northern Spys will be the varieties shipped.

It is probable that a second car, made up of boxes consigned to individuals in various parts of the Old Country by friends in this country, will be sent across the Atlantic in time for Christmas.

"A number of orders have already been received by the Union," said Raymond T. Hicks, manager, "and it is anticipated that there will be little difficulty in making up a carload. The cost per box will be about \$3, and will include all charges for fruit and for transportation and delivery to the individuals to whom the boxes are addressed. About \$1 of this charge will be represented by transportation expenses."

BRITISH COLUMBIA FRUIT.

Nelson Oct. 14.—A resolution asking the Provincial Government to appoint, at an early date, an agricultural commission in order that British Columbia marketing conditions for fruit and the competition of the American product may be investigated and action taken before next season will be urged at the annual Provincial Conservative Convention at Revelstoke this month by the Nelson association.

BORDEN GOVERNMENT WINS.

The by-election held in Macdonald constituency, Man., on Saturday, October 12th, was won with about 800 majority by Mr. Alex. Morrison, conservative candidate, over Mr. R. L. Richardson, who ran on independent liberal and Grain Growers' ticket. The by-election awakened keen interest throughout Canada as it was regarded as a test of the reciprocity sentiment in Manitoba, this being largely to the front in Mr. Richardson's ticket.

C.P.R. AND P. & O.

Montreal, Oct. 15.—The report published in the Financial Times that the C.P.R. would take over a controlling interest in the Peninsula and Oriental Steam Navigation Company, thus giving them a world-encircling transportation system, is denied by Mr. G. M. Bosworth, fourth vice-president of the C.P.R., who is in charge of the C.P.R. steamship lines. Mr. Bosworth states that such a proposal has never been considered.

SET A THINKIN'.

Pat was a bashful lover; and Biddy was coy, but not too coy. "Biddy," began Pat timidly, "did ye ever think of marryin'?" "Sure, now, th' subject has niver intered me thoughts," demurely replied Biddy. "It's sorry Oi am," said Pat, turning away. "Wan minute, Pat," called Biddy softly. "Ye've set me a thinkin'."—Harper's Bazaar.

**Bargains for
OUR Subscribers**

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1

Vancouver Daily Province - \$3.00
Better Fruit - - - 1.00
The Review - - - 2.00-6.00
The three for **\$5.00**

BARGAIN No. 2

Canadian Courier - - - \$3.00
Canadian Horticulturist - .60
The Review - - - 2.00-5.60
The three for **\$4.60**

BARGAIN No. 3

Vancouver Daily Sun - - \$3.00
Country Life in America - 5.00
The Review - - - 2.00-10.00
The three for **\$8.00**

BARGAIN No. 4

Canadian Horticulturist - .60
Canadian Poultry Review - .50
The Review - - - 2.00-3.10
The three for **\$2.70**

BARGAIN No. 5

The Busy Man's Canada - \$1.00
World's Work - - - 3.60
The News-Advertiser, Daily 3.00

B.C. FALL FAIRS FOR 1912.

Vernon, Fruit October 23, 24 Summerland Oct. 30, 31, Nov. 1

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

GOOD Dry WOOD \$5.00 per Load of Two Ricks For CASH on delivery will allow 10 per cent, off this price PHONE GREEN 7 J. R. CAMPBELL

WILL CO-OPERATE ON TRIP TO VERNON.

The Vancouver Board of Trade and the Progress Club have decided to co-operate and run a joint excursion to Vernon for the convention called in that city for October 23 to discuss the formation of a development league for this province. It is expected that a large party of members of both bodies will make the trip. Both clubs are interested in the formation of such a league. Dr. E. S. Rowe will go as official representative of the Progress Club, and the Board of Trade will also be officially represented.

Dr. Rowe will in all probability go from Vernon to Calgary to attend the meeting of the publicity department of the Canadian Pacific Railway Company. He will be Vancouver's unofficial representative at the gathering, and will arrange for more publicity for this city on the prairies.

A special car will leave Vancouver on Tuesday, October 22, and will return here on Saturday evening, October 26. Arrangements are now being made to have the car run as a special from Sicamous, allowing for stops at Enderby and Armstrong, and it is probable that visits to Kelowna and Penticton will also be arranged.

TEN COMMANDMENTS OF AGRICULTURE.

- 1. Prepare a deep and thoroughly pulverized seed bed, well drained; break in the fall to the depth of 8, 10, or 12 inches, according to the soil, with implements that will not bring too much of the subsoil to the surface (the foregoing depths should be reached gradually.) 2. Use seed of the best variety, intelligently selected and carefully stored. 3. In cultivated crops, give the rows and the plants in the rows a space suited to the plant, the soil, and the climate. 4. Use intensive tillage during the growing period of the crops. 5. Secure a high content of humus in the soil by the use of legumes, barnyard manure, farm refuse, and commercial fertilizers. 6. Carry out a systematic crop rotation with a winter cover crop on southern farms. 7. Accomplish more work in a day by using more horse-power and better implements. 8. Increase the farm stock to the extent of utilizing all the waste products and idle lands of the farm. 9. Produce all the food required for the men and animals on the farm. 10. Keep an account of each farm product, in order to know from which the gain or loss arises.

PICKLED APPLES.

Take ripe, hard, sweet apples. Peel carefully and throw into a pan of water to which a handful of salt has been added. Take two quarts of vinegar (for one peck of apples) and four pounds of lump sugar, half an ounce of mace, half an ounce of cloves, half an ounce of allspice, one teaspoonful of mustard seed, the same of pepper, and a little salt. Place all the spices in a muslin bag and boil in the vinegar for ten minutes, add the sugar and boil till clear. Put in the apples, after wiping them dry from the salt and water, and simmer gently until they are soft. Take up, place in glass preserving jars, and pour the vinegar in.

THE AFGHAN ANTHEM.

Discussing national anthems recalls one of the "many inventions" that come from India. During Lord Kitchener's term as commander-in-chief the Amir of Afghanistan paid his state visit to India. The government, desiring to do him special honor, decided that the regimental bands must salute him with the Afghan national anthem, and agitated officials appended to Lord Kitchener, "What does it matter?" he asked. "Play a few bars of anything and nobody will be any the wiser or the worse." The officials were rather shocked at his levity, but it seemed the only way out of the difficulty, so everywhere the Amir went he was saluted with the first few bars of the slow march from "Scipio," and all united in praising the beauty of the Afghan National Anthem.—London Chronicle.

If you think you can achieve anything great or small doing it by its end starts, put that erroneous idea out of your head at once.—Charles Dickens.

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

Start of Double Canoe Race at one of Naramata's Regattas

Take a trip to the Okanagan this summer and stop at Naramata. Get acquainted with this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience overlooking the Lake is at your service. One summer spent in Naramata means every summer spent there until you finally conclude there is no real living anywhere else. Then a nice 5 or 10 acre fruit farm on the benches solves the question and makes you independent for ever afterwards.

Communicate with THE HOTEL NARAMATA for rates, and information regarding accommodation, amusements, etc. OR THE OKANAGAN TRUST CO., Ltd. J. M. ROBINSON, F. C. MANCHESTER, Manager, NARAMATA, B.C. Agent, SUMMERLAND, B.C.

Vol. 5, No. 13

SUMMERLAND, B.C., OCTOBER 25, 1912.

Whole No. 220

Development League

A number of members of the Vancouver Progress Club and Board of Trade are this week visiting the Okanagan. By pre-arrangement they met at Vernon representatives of the local boards, and a co-operative organization has been organized under the name "Industrial and Development League." Affiliated with this league will be the various Boards of Trade, Farmers' Institute and similar organizations. Another meeting to complete the organization will be held at Revelstoke in January. On Thursday the visitors made a tour of the lake district for which the steamer Aberdeen was chartered. A stop of two or three hours was made at Summerland, and the party was taken over the district by autos. A number of members of the local Board of Trade met the party at the wharf and acted as escorts.

Box Car in Lake

For the past two or three days one of the C.P.R. box cars has been lying in the lake immediately in front of the car slip. While some shunting was being done a loaded car struck an empty one which was close to the apron and its weight proved too much for the hoisting mechanism, which gave way, allowing the outer end to drop and the car to slide into the lake. Usually when there is any weight on the apron the outer end is supported by the barge.

Suicide Suspected.

The body of J. Peters was found near the Mountain House, Prairie Valley, on Thursday morning. Peters, who has been about the district for some months, had been drinking heavily of late, having recently cashed a cheque which he received for teaming in connection with the railway construction. He was much under the influence of drink when last seen, and he was put to bed by Constable Graham. He got away, however, early on the next morning, and started up Trout Creek. An empty carbolic acid bottle was found beside the body, and Coroner Andrew has ordered an autopsy, and will this afternoon hold an inquest.

MEETING OF THE LORD'S DAY ALLIANCE.

Rev. Mr. Huistis of Red Deer, Secretary of the Lord's Day Alliance for the Provinces of B.C. and Alberta, addressed the local branch of that organization last Tuesday evening in St. Andrew's Presbyterian Church. Mr. Huistis spoke along the line of the necessity of the Seventh Day. The result of the meeting was a re-organization of the local branch when the following officers were elected:

President—Mr. J. L. Logie; Secretary—Dr. J. P. McIntyre; Treasurer—Mr. J. G. Robertson. The executive includes the officers and ministers of the different churches (the latter are also vice-presidents of the local branch), also Messrs. Munn, Mellor and T. N. Ritchie. A collection was taken in aid of the organization.

HOME DRESSMAKING.

Mrs. Stacey and Miss Taylor, two experts in dressmaking, will demonstrate here early next month. These demonstrations will be given under the auspices of the Women's Institute. These ladies are visiting the various branches of the Institute throughout the province, and will visit Summerland on November 7th and 8th. There will be a morning and afternoon session each day at 10 a.m. and 2 p.m. Coming as practical dressmakers of many years experience they will be able to give excellent advice on dressmaking problems. Their work will include:

1. Proper Use of Patterns.
2. Modern Dressmaking Appliances and Sewing Machine Attachments.
3. Cutting Out and Fitting.
4. Altering and Making-Over.

Summerland Apples Lead Everywhere

18 Firsts, 2 Seconds 70 to 80 per cent. Prize Money Out of 22 Entries. Taken by Summerland Apples

Summerland's Score at Valley Shows.

Summerland has this year repeated its marvellous success made at Spokane last year, by making equally as good a scoring at the Okanagan Apple Show, which is being held in Vernon this week. Summerland has captured twenty prizes out of twenty-two entries. Eighteen of these are first prizes, two are seconds.

Although up to the time of going to press we have been unable to get a detailed list of the results of Penticton's Fruit Fair, we learn from undoubted authority that Summerland apples have made another big scoop there, and exhibitors from here have captured close on eighty per cent. of the prize money.

Our Fruit Makes Big Scoop at Penticton

Among those who exhibited fruit at Penticton were: A. Steuart, James Doherty, John Steuart, Fred Gartrell, J. R. Brown, H. Bristow, and C. H. Tate. A. Steuart captured first prize for both the ten box and the five box exhibits.

One of the incidents of this success is that the manager of the local packing house wins his bet, which was that Summerland would capture fifty per cent. or more of the prize money.

Full details will be given in our next week's issue.

Breach of Contract.

Five railway navvies were arrested this morning as they were boarding the "Maude Moore" for Naramata. The men had been engaged by Mr. Crandall to work on his section of the Kettle Valley Railway construction. They had had three or four meals but had done no work. The job was evidently not to their liking, for they left the camp before daylight this morning in a body. Mr. Crandall at once got out the necessary papers for their arrest. They were brought before Magistrate English early this afternoon, and he found them rather a refractory bunch. They refused to go back and the magistrate did not want to send them up. Finally a compromise was made whereby the men were let out on suspended sentence, and they will work at one of the other camps to earn enough to pay their indebtedness and the costs.

SECRETARY WILLIAMSON AND PARTY HERE SUNDAY.

This coming Sunday secretary J. W. Williamson, General Secretary of the British Columbia Sunday School Association expects to be here. He will be accompanied by secretary Fisher, General Secretary of California, and secretary Pratt of Washington. Rev. W. A. Brown, International Missionary Superintendent will also be with the party. All three men sing, and with Mr. A. Crowcroft of Kelowna will form a male quartette. It is proposed to hold a Sunday School Institute. Everyone is interested in young life, and so everyone will be interested to hear what these experts upon young life in the most influential organization in the world will have to say.

On Sunday morning one of these men will speak at the Summerland Methodist Church and at the West Summerland Baptist Church. These services begin at half-past ten. A Rally Day service will take place in connection with the Sunday School at the Summerland Baptist Church at half-past eleven.

Sunday afternoon a union meeting will be held at the West Summerland Baptist Church. This should be a strong service as all four men are expected to be present.

Sunday evening at seven o'clock services will be held at both the Summerland Methodist and Baptist Churches, to be addressed by one of the secretaries. Then at a quarter past eight a final union-service will be conducted at the Methodist Church, with all four men again contributing to make an informing and inspiring service.

The public is earnestly invited to attend as many of the services as possible.

LAW SUIT.

There was recently a case tried before the magistrate at Kelowna, which has something of local interest. The suit was brought by Ulysses Guide, a plastermason, and one of the prominent members of Summerland's Italian colony, against a citizen of Naramata for whom he, or his men, had done some plastering. The contract price for the job was \$80. When completed the work was not to the satisfaction of the householder, and it is stated that he refused to pay the bill, offering, however, to pay in the vicinity of \$70. This offer was refused and payment in full demanded. An attempt at arbitration was not successful, although Mr. Fenner, who was called in as appraiser, pronounced the work not up to specification. Ulysses thereupon entered suit and judgment has now been given. The defendant had paid into court the amount tendered by him to the plaintiff. It is now stated that Guide has obtained judgment for only a nominal amount for the work done, and that he must pay the costs, thus virtually the judgment is in favor of the defendant. Not only does the contractor lose all the amount tendered him by the defendant but he will have to pay something in addition as well to cover the expenses.

CANADA HOLDS KEY TO NAVAL SITUATION.

Source of Fuel as Well.

It has just been discovered that Canada possesses the Key to the European naval problem. When Schneider in 1889 introduced the use of nickel into the manufacture of steel plate, he little realized that he was placing in Canada's hands a great means for maintaining the peace of the world.

Battleships without nickel steel armour would be utterly helpless before modern guns. If nickel were no longer obtainable, armour construction would go back a quarter of a century.

Canada to-day produces about 90 per cent. of the world's supply of nickel. Practically all of the remainder comes from New Caledonia, an island in the south-western Pacific, controlled by France.

In 1910, the value of nickel ore and matter exported from Canada to the United States was approximately \$3,450,000. As the only refineries in America are in the United States, nearly six-sevenths of the Canadian nickel was refined to the south of the border. The refining process raised the value of this Canadian ore to nearly \$12,000,000. The major portion of this refined nickel is used in the manufacture of nickel steel.

Consequently, if Canada were to prohibit the export of nickel, the nickel steel industries of Europe would fall into decay, and high-grade armour plate for battleships would be an impossibility.

Naturally such a course would be a bit hard on Canadian nickel producers, but then see what it would do to the world's expenditure on navies.

In these times of wars and rumors of wars it is assuring to know that Canada possesses such a potent weapon making for world peace.

Nova Scotian's believe that in the near future their province will become a huge oil reservoir for the British Navy. It has been proved that fifty gallons of oil can be distilled from every ton of coal, and there is estimated to be 10,000 million tons in Nova Scotia's 4000 square miles of coal fields. With the possibility that oil will in no long time take the place of coal as fuel for vessels, the little Canadian province should become one of the great oil producing districts of the world.

RICHMOND HARKNESS.

Richmond Harkness passed away on Thursday morning, at the home of his mother, West Summerland.

Mr. Harkness was a native of Sarnia, Ontario. Funeral services will be held on Saturday morning, at 10.30 a.m.

Ed. Sawyer, who went down to the Coast some two or three weeks ago, is reported to have secured a position on one of the C. P. R. Princess steamers.

Vernon, Kelowna, Penticton and Summerland are all making strenuous efforts to capture the first prize for the district offered by the former city for the best display at the International Dry-Farming Congress at Lethbridge.

Fight White Plague with Present Poll Tax

Revelstoke, B.C. Oct. 21.—To fight the white plague with the poll-tax is a proposal which the delegates at the Revelstoke Convention of the B.C. Union of Municipalities will discuss. Rather than see the poll-tax revenue of \$300,000 per year disappear altogether, it is the idea of those behind the suggested change to have it directed towards providing health protection throughout the province.

Ex-Reeve J. Y. McNaught of North Vancouver district, a member of the Municipality executive and a director of Tranquille Sanitarium, is bringing the proposal to this convention from the gathering of school trustees at Kamloops some weeks ago. He proposes that the \$3 poll-tax in future be called a health protection tax, and that from the funds so raised, efforts be directed by the province towards stamping out tuberculosis as well as keeping a close watch on other prevalent diseases. Special health officers would be employed for the purpose of inspecting the scholars in all schools, and directing the general school sanitary arrangements. From this tax fund also, tubercular patients sent to institutions would be supported, thus relieving cities and municipalities from one burden of taxation.

It is pointed-out further that it would be unwise to relieve the foreign population from what is practically its only tax, the poll-tax, because, with this tax used for health protection the municipalities would no longer have to pay fees for foreigners and others sent to various hospitals. The hospitals themselves, particularly if they maintained white plague wards, could receive considerable financial assistance.

The city of Duncan is asking the convention to seek to have the personal property tax now collected by the Provincial Government left to the municipalities to levy, and apply to municipal purposes.

PEDIGREED POTATOES.

Will be Grown Here Next Year.

Mr. L. H. Newman, Secretary-Treasurer of the Canadian Seed-growers' Association, paid Summerland a visit last Friday. While here Mr. Newman was the guest of a former friend, Mr. A. A. Derrick.

Mr. Newman is travelling across Canada inspecting seed-growers' lots, over which the association has supervision. As his position would imply Mr. Newman is an expert in plant propagation, and in 1910 spent some months abroad in further studies of this activity. The association assume the supervision of the seed-growing plots of its members, and at the time of harvest the seed or crop is gathered under the direct inspection of one of the officers of the association. Improvement of the potato is one of the aims of the association. After growing the potato under ideal conditions from pedigreed stock the crop is gathered, sacked

Here's One More Improvement.

Canada's Fruit Inspection Service Re-Organized by Hon. Martin Burrell, and Results are Already in Evidence.

(From our Ottawa Correspondent).

Ottawa, Oct. 21.—During the past summer the fruit inspection service of the Department of Agriculture was extended and completely re-organized by Hon. Martin Burrell. The result has been seen this fall in the most efficient fruit inspection Canada has ever had. At the last Dominion Fruit Growers' conferences great stress was laid on the importance of the proper grading and marketing of fruit and the need of more extended inspection, especially at points of shipment and of fruit coming in from the United States. As far as possible the ideas of the fruit growers have been followed in the re-organization.

The country has been divided into five inspection districts as follows: Maritime provinces, Quebec and Eastern Ontario, Western Ontario, Prairie Provinces and British Columbia. In addition to the five chief inspectors fifteen temporary inspectors have been added to the staff.

In the past Canadian export fruit has been closely inspected, with the result that Dominion fruit stands high in the markets of Great Britain and Europe. Despite continual requests for better domestic inspection, Hon. Sydney Fisher neglected to improve the arrangements for inspection for domestic consumption. The local buyer both in east and west has thus been at the mercy of unscrupulous dealers. The change which Mr. Burrell has effected has given the domestic market almost as close inspection as in the case of the export fruit.

Hon. Martin Burrell, Minister of Agriculture, has under consideration a plan by which the important industry of poultry raising will be strengthened and developed, and has recently appointed an officer to take charge of this work in Prince Edward Island.

BENEFITS FOR FRUIT GROWERS.

"The new freight rates tariff, which was the result of a conference at Vernon, gives British Columbia fruit growers an advantage in Alberta and many parts of Saskatchewan over their chief competitors in Washington and Oregon," said Mr. R. M. Winslow, provincial horticulturist, in a recent interview.

"Regarding the estimated yield, the figures supplied to the British Columbia Fruit Growers' Union about two months ago, will, I am sure, be very materially increased when the total yield has been marketed. During the past five weeks I have been touring all parts of the province and there is no question but that the crops are all greater than at first anticipated.

"Previous to the reorganization of the British Columbia Fruit Growers' Union there were only about 100 members. During the past four years it has grown to a much more powerful body, and has now a membership of over 800. It is doing invaluable work wherever general reforms can be effected. The revision of freight rate charges and transportation matters generally have occupied close upon four years, and now the Union will turn its attention to the necessary regulations in grades, marks and packages, to meet the changing market conditions."

Though sometimes what is called "a happy hit" may be made by a bold venture, the common highway of steady industry and application is the only safe road to travel.—Samuel Smiles.

and sealed with the association's seal, and the association guarantees the variety and quality of the product. As a result of Mr. Newman's visit the growing of potatoes for seed under the direction of the association will likely be taken up here next year. Other seeds may be grown later.

POST CARD FROM CALGARY

COAL.

Calgary,
Oct. 17th, 1912.

Dear Mr. Robinson,

Will you please reserve two lots on the north side, one of the large ones, and the one next to it, and oblige.

Yours truly,

.....

This is the way the lots are going; watch them sell, the ones marked X are sold, and No. 20 is spoken for, so if you have any notion, buy now before they are all gone.

\$10.25 delivered in Town.
\$11.00 delivered on the Flat.
Special prices quoted per car or half car.

Tungsten Lamps.
25 Candle Power only 75 cents.

REAL ESTATE & INSURANCE

POINTERS FOR HORSEMEN.

Let the horse have at least one day's rest every week. See that he is comfortable in his stall; that he is neither dark, damp, or draughty, and that he has a good bed to lie on.

See that his harness fits properly, and is kept clean.

Make sure that he is neither overloaded nor overdriven. Do not leave him standing with a heavy load unsupported by shaft-props, nor with the sun glaring in his face.

Horses, like human beings, are often thirsty when hard at work, so offer them water frequently. A little oatmeal in the water is very refreshing and sustaining.

Don't buy cheap feed. It is false economy because the horse will pay the price.

Don't use an overhead checkrein; it causes suffering, and injures the horse—also it prevents him using his full strength.

Use no blinders. The horse does not need them, and they are liable to injure his eyes.

If your horse falls, don't shout at him or beat him; help him to get up.

Don't experiment with medicine when your horse is sick nor listen to the man who has a secret remedy for every ailment, but consult a reputable veterinary at once.

Be gentle, be kind, be patient.

GROCER HEAVILY FINED.

A bad contravention of the medical Health Act was dealt with by Magistrate Bates this morning when Bruce Neil was fined \$25 and costs for selling bad fruit.

The evidence of Dr. Pickard and a constable was to the effect that Neil bought a carload of peaches on Tuesday at very low cost and sold them at 25 cents per crate. He was warned by the Health Officer not to sell any until he had inspected them, but this was not done, and several who later had bought the bad fruit telephoned to Dr. Pickard, laying serious complaint. The Health Officer, in his evidence, spoke strongly on defendant's action, which he termed adding insult to injury.

The magistrate also said he felt strongly on this case, as the health of the whole community had been endangered. He fined defendant \$25 and costs.—Brandon Daily Sun.

Fruit Prices.

Compares Retail Prices in Prairie Towns with Growers' Receipts.

The Saskatchewan Farmer has this to say of fruit prices as they are with them, and as reported to be in the Okanagan by Mr. C. L. Rogers, a resident of Penticton, who was in Moose Jaw on Labor Day. He had noticed an article quoted from the Saskatchewan Farmer, which implied that fruit growers in British Columbia did not take sufficient interest in the great market for fruit on our prairies. He called to protest and give his side of the question on behalf of B.C. fruit growers, as he considered they were not responsible.

On Saturday evening, August 21, Mr. Rogers called at a number of fruit stores in Moose Jaw and watched citizens buy dozens of five pound baskets of fruit—peaches, plums and even prunes (blue plums) at 50 cents and some at 60 cents a basket. It made him hot to think that before leaving Penticton he had sold his crop at 2 cents a pound—10 cents a basket. This was the standard price in the Okanagan Valley. Apples are sold at 2 cents a pound, the very best fall apples. In Moose Jaw he saw them being sold at 15 cents a pound, two pounds for a quarter.

There are three packing houses in the Okanagan Valley that buy fruit from growers for export, and one cannery. The standing price for fruit at the cannery is \$1.75 per 100 pounds. The best of free stone peaches are sold at that price. Tomatoes are sold at \$15.00 a ton—3 cent a pound. The fruit is culled very closely by buyers; any discarded fruit is charged back against the grower who has to remove it, or be charged for draying it to refuse grounds. Condition, soil and climate are most favorable for raising all kinds of the best and most delicious fruits in the market, yet the growers only receive a small pittance, as it were, when they sell them. This is exceedingly interesting. Who gets the big profits? We have a Minister of Trade and Commerce, with a large staff of officials to look after our trade with foreign countries, could they not give some attention to inter provincial trade, and thereby benefit two classes of our people

—the producers and the consumers. These conditions right at our own doors remind us of the Indian hunter's remark to a company of men who failed to shoot a deer that had been standing looking at the men as they approached: "Huh! White man no good, look too far, deer close, no shoot."

HALF-MILLION SPENT ENCOURAGING AGRICULTURE.

All of the provinces have now signed agreements with the Dominion Government by which they will receive the subsidy voted last session by parliament. When the new administration came into office it was felt that a broad policy for the betterment of agriculture in Canada through co-operation with the provincial governments should be adopted. It was felt that nothing in this direction could be properly done until a general survey of the agricultural conditions in Canada had been made.

To make this survey and to report on a general policy, C. C. James, formerly deputy minister of agriculture for Ontario, a man of undoubted standing in the agricultural world, and with a deep knowledge and experience which peculiarly fits him for such work, was appointed commissioner. He is at present engaged on preparing his report, and it will be ready by the opening of parliament.

However, as Mr. James' report was not ready last session, it was decided to give immediate assistance to agriculture by voting the sum of \$500,000 to this cause by way of a grant to the provincial governments on a population basis. The grant was to be expended for the cause of agriculture according to a plan approved by the Minister of Agriculture. New Brunswick was the first province to fall in line, they have all heartily followed and taken up the plan with enthusiasm.

The following table shows how much each province receives:—

Ontario	\$175,733.32
Quebec	139,482.40
Nova Scotia	34,288.45
New Brunswick	24,509.93
Prince Edward Island	6,529.85
British Columbia	27,334.76
Manitoba	31,730.05
Saskatchewan	34,296.29
Alberta	26,094.95

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

CULTIVATE A SWEET VOICE.

There is no power of love so hard to keep as a kind voice. A kind hand is deaf and dumb. It may be rough in flesh and blood, yet do the work of a soft heart, and do it with a soft touch. But there is no one thing it so much needs as a sweet voice to tell what it means and feels, and it is hard to get it and keep it in the right tone. One must start in youth, and be on the watch night and day, at work and while at play to keep a voice that will speak at all times the thought of a kind heart. You often hear boys and girls say things at play with a quick, sharp voice, as if it were the snap of a whip.

If any of them get vexed you will hear a voice that will sound as if it were made up of a snarl, a whine and a bark. Such a voice often speaks worse than the heart feels. It shows more ill-will in tone than in words. It is often in mirth that one gets a voice or a tone that is sharp, and it sticks to him through life, and stirs up ill-will and grief, and falls like a drop of gall on the sweet joys of home. Such as these get a sharp home voice for use and keep their best voice for those they meet elsewhere, just as they would save their best cakes and pies for their guests and all their sour food for their own board. We would say to all boys and girls, "Use your best voice at home." Watch it by day as a pearl of great price, for it will be worth more to you in the days to come than the best pearl in the sea. A kind voice is a lark's song to heart and home. It is to the heart what light is to the eye.

THE command, be diligent in business fervent in spirit, serving the Lord, is for every day in the week right in our homes. It is the steady, every day diligence, doing each day the work of that day that tells.

WITH the coming of fall come the ring of the school bells. They bring serious thought to many—those who last year gathered up their books and said goodbye to teachers and pupils, with a little sigh for the past are again reminded of the partings, that for them these bells mean only memories. But to the little ones, who have reached six, how important these first days, they can scarcely wait for the sound that calls them to new life; they go blithely enough, even the timid ones. To the mothers of these little beginners, how much it all means; they feel their darlings slipping away, going from their all-sheltering care into the first step of independent life. There are so many evils that beset the way, companionship of those less carefully trained, hard places to be gone over, trials very real and dreadful to shrinking childhood. It is not strange that mother should look longingly and tearfully at her dear child just setting forth, all eagerness and interest in the first day at school, and as the mother turns into the house to her duties of the day, it is not strange it is with a little sigh for days that are no more; her baby is gone.

THIS is our recipe for home happiness. Who will give us a better one? Love, peppered with patience, salted with suavity, dampened with discretion, crowded with cheerfulness, showered with sunshine, tintured with trust, flavored with forgiveness, freighted with frankness, charged with confidence, complete with contentment, heroic and hopeful.

MARRIED couples would be happier if home troubles were kept within the four walls of the home; if each would remember that the other was a human being, and not an angel, and if husbands and wives would sometimes remember that they were once sweethearts and lovers and should be so always.

YOUNG MAN, there is one thing you cannot do. You cannot make a success in life unless you work. Older men than you have tried it and failed. You cannot loaf around the street corner, smoke, tell stories and sponge on someone else without making a failure of life. You must learn a trade or get into some honest business. If you don't you will become a chronic loafer, and there is no place in the world for loafers. The ripe fruit is at the top of the tree and you must climb if you get it or some smart man will pluck it from you. Do something, no matter how small or how low the wages, it will be a starter. Help yourself and others will help you. There is no royal road to success; will, grit and endurance are the qualities that lead to it.

WE have heard a great deal in the past year about woman's mission and woman's sphere, until between two contending forces we have begun to wonder whether woman really has any right to exist on earth at all. And yet each day is proving all these assertions, grotesque and otherwise, but mere misnomers, while woman continues to perform much the same mission that has fallen to her lot since the world began; doing it better in some cases than in others, more appreciated sometimes than others, but doing her mission and developing with the race and with the world into new opportunities, higher duties and greater privileges. It is an old teaching but one that we need constantly to call to mind, that the one who does that duty which is nearest at hand is the one who accomplishes the most for the world. It is as true of classes as it is of individuals.

SOMETIME, SOMEWHERE.

Sometime, somewhere, in the eternal plan,
Will come a good to offset every ill,
As nature's book is balanced, so to man
A balance perfect come there must and will;
This, then, our solace, when the way is dark
And only sorrows we are called to share;
As came God's sunshine in the storm-tossed Ark,
'Twill come to us sometime somewhere.

Sometime, somewhere, in this world or the next,
And, in some way, a perfect opiate
Will come to souls by troubles now perplexed,
And all our griefs find compensating joys;
Go on, brave heart! if doing what you can
Life's burdens, as they come, to fully bear—
Fear not! the justice that is due a man
Will all be yours sometime, somewhere.
—The Fruit Magazine.

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

Has a few CHOICE LOTS left in their great Closing Out Sale. These are offered at the original price, in spite of the fact that the value of the land has been greatly enhanced through the activities of the District.

NOW is your chance to Invest in additional Holdings; or, if you do not own an Orchard, to establish a HOME in the Okanagan.

Both Improved and unimproved lands are offered. Those interested will be shown over the District at any time to suit their convenience.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED,
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.
LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.
WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.
THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.
LOCAL NOTICES or Readers, Immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.
LODGE NOTICES, Etc., 25c. per week, per column inch.
FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.
Transient Advertisements payable in advance.
Rates for Contract Advertisements furnished on application.
Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.
In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, OCTOBER 25, 1912.

THE PROPOSED BY-LAWS.

There is no one who will object to making an investment provided he is satisfied that it will yield him a profit.

The proposed raising of monies by floating of additional Municipal bonds will in the final review be looked upon by the individual ratepayer as a personal venture. In this case, however, the individual has the advantage of borrowing the needed capital at a low rate of interest, and his actual investment will only be the 5 or 6 per cent. per annum on his portion of the additional capital that will be invested in local public utilities. If looked upon from a business standpoint and in the nature of an investment we believe that the ratepayers will not hesitate to give their endorsement of the Council's proposal to further improve and extend the various Municipal utilities. No one can deny that additional storage of water and the extension of domestic and irrigation systems are needed, and the same may be said of the electric light. These extensions will immediately bring in additional revenue, and it has been shown that the latter utility, the electric light system will be self sustaining, so that the money borrowed for that purpose will not incur any tax to the property owner. As matters now stand it has been generally believed and recent developments have proven that there must be a material increase in the taxes to maintain the present systems. Either this or an increase in rates. With the extension of these utilities we are of the opinion that it will make unnecessary the increase which would otherwise be unavoidable, and instead the increase will be in interest on bonded indebtedness. With the latter there will be a marked improvement in the whole community, the extensions bringing, as they will, a great deal more land under cultivation, and many now absentee landowners will come here to live when domestic water and electric light become available. There will perhaps be no other time in the life of the district when the putting into circulation of the thousands of dollars which this work will cost in wages, etc., will be of as much good and materially advance the place as at the present. This may be discounting the future but it certainly will have a most beneficial immediate effect.

WHY IS THIS?

Much has been said by the press of late both pro and con on the unsatisfactory market conditions for our peaches. The wholesalers in Vancouver in particular have been severely roasted for their uncomplimentary remarks of the Okanagan product. That nothing better can be produced than the Okanagan peach is a generally accepted truth, but the growing of a good article is not all. It would seem that our people have yet something to learn about packing to suit the buyers. A former resident of Summerland, a property owner here, and a keen observer, who has been in Vancouver for some months, referring to conditions there in a private letter to the writer says: "I may tell you that Okanagan fruit has a poor reputation in Vancouver, but chiefly on account of the pack. If one were to judge the Okanagan crop of peaches by the sample that was shown at the Vancouver Exhibition, they would get a poor impression of our peach crop. These peaches were certainly very mean indeed, and I was ashamed to see them exhibited as Okanagan fruit."

Some will go so far as to say that this reputation has been purposely created by the Vancouver jobber. We are disposed, however, to think that there is a good deal of truth in the complaint, and that private individuals are not careful enough in their selection, packing and grading.

TRADE LICENCES, ETC.

If the decrees of the local civic government are to have the respect of the citizens they must be enforced. When trade licenses, dog taxes and other levies are made it must be done impartially, and have behind it the necessary power to enforce payment. When the recent dog tax was imposed about half the dog owners of the district paid the tax. It would seem that the others do not intend to pay. Either the unpaid taxes should be collected forthwith or the amounts already collected refunded.

OUR POPULATION.

Now that it is known that Summerland did not get due credit for the amount of its population in the recent census taking, we believe every citizen would support a proposition that the Municipality take a census. Not only would a correct census be helpful to our own officials but it would also put us in a better light with the brokers who recently marketed our Municipal bonds, and will be helpful in getting a better price than otherwise for the bonds which it is proposed to float in the immediate future. The census taking could be directed from the Municipal office, and could be taken at very little expense other in time or money.

NO town will grow whose people are untrue to it. Its citizens can either establish or destroy confidence in it. Whoever destroys it is an enemy to progress and a traitor to the community. If they deny it, do not invest their money in it, nor patronize its business establishments, they are surely killing it. The prosperity of a town depends chiefly upon the confidence the people have in it.

Our Philosopher

HERE is a biography in a nutshell: Born, welcomed, cried, caressed, fed, grew, amused, reared, studied, examined, graduated, in love, loved, engaged, married, quarreled, reconciled, suffered, deserted, taken ill, died, mourned, buried and forgotten.

AN exchange says that one trouble with this world is that there are too many people who will not cast their bread upon the waters unless they are assured that it will come back to them in a few days a full-grown sandwich all trimmed with ham, butter and mustard.

DON'T blame the newspaper man for what happens in the community. If there is anything in the life of the place that you do not wish to go abroad in the world, blame yourself that it exists—not the paper for saying something about it. It is the editor's duty to make a typographical photograph of the town each week, and if you take a homely picture don't kick the instrument, but try to get a better expression on your face the next time.

STINGINESS.

If there is anything on earth that gives us a longing for eternal rest and deep, damp solitude, it is a man who comes to a town, builds up a big paying business, grows rich and then squats down on the gold like a hen on a door knob, and is too stingy even to let the gravels grind in his own big gizzard.

A real, genuine 18-carat, stingy, selfish man can't be honest, and if he ever gets to heaven and has wings, he will fold them up and walk for fear he will ruffle a plume or lose a tail feather. The kind of men who build up a town and enjoy life and make the best citizens, are the enterprising, energetic and liberal men, who believe in living and letting others live; and who does not, when they get a dollar, immediately put it out of circulation. Such is what causes hard times and hinders growth. If it were not for our broad-gauged, enterprising men it would be impossible to build up a prosperous community.

Local News Items.

Mr. Lund of New Brunswick is visiting at the home of his sister, Mrs. C. N. Borton.

Sixty voices will render the closing chorus at the concert in St. Andrew's Church next Monday evening.

Rev. Mr. Gilbert and Mrs. Gilbert, who recently came in to spend the winter here, have rented the Thornber tent-house opposite Mr. McWilliams' cottage on the hill.

A steel tubular boiler, locomotive style, has arrived at the dock for the Okanagan Jam Company. This will be used to generate steam for cooking and power purposes at the Jam Factory.

The ladies of St. Andrew's Church are requested to send their contributions in baking to the Hall over Mr. Elliott's branch store at West Summerland on Monday afternoon at three o'clock.

The evening service in the Methodist Church next Sunday will be cancelled in favor of the Thanksgiving Services in St. Andrew's Church, West Summerland. Rev. F. W. Hardy will co-operate in the service.

During last Friday night's high wind an electric light pole near the Hespeler ranch was blown down, carrying with it the transformer and cutting off a good part of the service. This occurred about three o'clock Saturday morning.

Miss Robertson, who has been long distance operator in the Post Office building for some months, leaves here next Sunday for the Coast. It is understood that Miss Robertson will engage as a nurse in one of the hospitals in Vancouver.

The Review, with many others, learns with pleasure that C.P.R. agent Geo. Ross is to remain with us. Mr. Ross was practically booked to go to Vancouver, but a change has been made in the plans which will permit his continuing here for a time at least.

One of the events of the Fair will be a game of basket-ball played by Okanagan College and Summerland. This will be on the evening of Friday, November 1st, at eight o'clock. The game of rugby announced last week has been cancelled, the Kelowna boys finding it impossible to fulfill the engagement.

Was it complimentary or otherwise? All those who visited the wharf at the time of the Duke of Connaught's visit will remember the crowd of young men on the tops of the freight cars, and also the college yell which they gave when the royal party went up to inspect the fruit shed. An old country visitor, who evidently was not aware that we had a college in our midst, but knew of the railway building, remarked in all seriousness, "Wasn't it awfully decent of those Swedes to give their national cry."

The storm of last Friday night was the first indication of winter weather. Saturday morning found the hills surrounding the valley covered with a blanket of snow, which extended close down to the fruit benches. In fact some of the orchards had a slight covering of snow, which, however, soon disappeared. The milder south winds are rapidly melting what yet remains. The Coast papers report the hills there also clad in a mantle of snow, which is said to have made its first appearance a month earlier than last year.

Members of the Farmers' Institute have just received a valuable bunch of bulletins from the Provincial Department of Agriculture. This includes Bulletin No. 26 on Poultry "Practical Raising," Bulletin No. 30 also from the poultry branch, treating "Natural and Artificial Incubation and Brooding," by J. R. Terry, B.S.A., Chief Poultry Instructor, circular Bulletin No. 2 on "Tuberculosis in Poultry," by the same author. Bulletin No. 40 dealing with the "Cultivation of Alfalfa," by H. Rive, B.S.A., Provincial Dairy Instructor, also Bulletins Nos. 38 and 45, the former on "Construction of Silos," and the latter treating with Agricultural Statistics for 1911. The Thirteenth Annual Report of the Farmers' Institute of B.C. accompanies these bulletins. Any member of the Institute who has not received this lot of bulletins will no doubt be furnished with same upon application to the Department.

Local News Items.

Coun. W. J. Robinson is this week attending the meeting at Revelstoke of the Union of Municipalities of B.C.

The Summerland Drug Co. are opening a branch Drug Store in Naramata, with F. C. Manchester in charge.

The Conservative Convention was held at Revelstoke this week. Mr. C. H. Cordy was the delegate from Summerland. There were five delegates from the lake district, and five from the upper valley. Mr. J. M. Robinson stopped off there on his way east from Vancouver.

A marked improvement has been noted in the West Summerland feed store which has been given a coat of dark red paint. The paint brush could be kept more constantly in use much to the advantage of the community, adding years to the life of the buildings and making them more pleasing to look upon.

W. Simpson, who has had the supervision of the Aikins orchards at Naramata, has been recently engaged by Mr. Aikins to take full charge of the property, and will move on to the orchard next spring. Mr. Simpson will spend a good portion of the winter months on the property, doing the usual orchard work.

Special Thanksgiving services will be held in St. Andrew's Presbyterian Church, West Summerland, next Sunday and Monday. On Monday evening the ladies of the congregation will serve supper in the Hall over Elliott's branch store at West Summerland, and the choir, largely augmented, will give a patriotic concert in the Church.

Miss Margaret White, who was recently operated on at Vancouver for appendicitis, has made wonderful progress towards complete recovery. She was only an inmate of the hospital for six days, and shortly after was walking about the city as usual. Miss White's friends will be glad to hear that she feels better than she has for a year or more.

Mr. G. J. C. White received a telegram on Wednesday conveying to him the unpleasant news of the death of his eldest brother, Mr. Geo. H. White of Sussex, N.B. The late Mr. White has been since early manhood a citizen of Sussex and was practically the father of that progressive eastern town. His energy and capital have entered into practically all of Sussex's business undertakings. Mr. White visited his brother here three years ago and was much impressed with Summerland.

Some people say that advertising is all a matter of luck; that you cannot tell what advertising is going to do or whether or not it is going to pay. This may be true, but it is very strange that a man who gives intelligent thought to this advertising, and does it in an intelligent, straightforward way, usually has the luck on his side. He is lucky in his advertising because he has reduced it to a science. Advertising is just as certain as paying rent. Advertising is governed by just as much common sense business lines as govern the purchase of a lot of potatoes or codfish.

BIG HIGH-CLASS SHOW COMING.

Manager MacEwen of the local playhouse takes great pleasure in announcing to the people of Summerland and vicinity that he has succeeded in securing Fred Raymond's great comedy success, "The Missouri Girl" for date of Wednesday, October 30th here. This is the same show exactly that plays Regina, Calgary and all the larger cities.

The company carries two complete sets of special scenery, the smaller of which will fit the local stage very nicely, thus insuring the complete production the same as seen in the regular city theatres.

As the management here is under a very heavy expence in securing this excellent attraction, it is to be hoped that local theatro-goers will appreciate his efforts to give them first-class attractions, by packing the house on the above date.

Tickets may now be secured at Summerland Drug Store, prices 50 cents, 75 cents, and \$1.

Drill Sergeant (after worrying Brown for two hours)—"Right about face!"

P. O. Box 134 W. Simpson Summerland, B.C.

THE SUPERLATIVE SHE.

An after-dinner speaker at a banquet in New York condemned the American snob. "America is a republic," he said. "We all began—even the mightiest of us—humbly and simply. When I hear one person snubbing another on grounds of birth the thing strikes me as ludicrous and unreal. It reminds me of a Mayflower girl. "A girl of Mayflower descent yielded to the pinch of poverty sufficiently to marry a Grand Rapids millionaire. But her husband was a plebeian, and she would never forgive him for it. She would never cease from insulting him on account of his low origin. "She was shopping one day, and a salesman said to her: "And to whom shall I send the parcel, madam?" "With her nose in the air, she turned to her maid and said: "Marie, tell this man your master's name. I never can remember it myself."

JAPAN'S ANTHEM.

The Japanese national anthem is the most poetically worded in the world, with the possible exception of the Norwegian, "Ja vi elsker," written by Bjornstjerne Bjornson. That is, of course, a matter of opinion, but the Japanese anthem is commendably short and makes, in its English form, an eminently pleasing poem. Its ten lines are as follows: Until this grain of sand, Tossed by each wavelet's freak, Grow to a cloud-grit peak Towering above the land; Until the dewy flake Beading this blossom's gold Swell to a mighty lake— Age upon age untold Joy to joy manifold Add for our sovereign's sake. "I've just discovered why women weep at a wedding." "Well, why?" "The married women weep out of sympathy, and the single ones because the wedding isn't theirs."

Kaledon Comments

Mr. and Mrs. Lewis Block of Naramata came in on Friday to visit Mrs. Block's parents, Capt. and Mrs. Hatfield. The "Woman's Club" was entertained last Wednesday afternoon at Hotel Kaledon, by Mrs. James Ritchie of Parkdale, West Summerland. The meeting of the Young People's Christian Endeavor was held at the home of Mrs. J. C. Findlay last Sunday evening, the chair being taken by Mrs. O. E. Tomlin. During the storm of Monday the Cygnet went ashore at the head of the lake, and the mails are being brought down by stage until she is able to take the regular service again. A social was held in the schoolroom last Monday evening. A short program was given, refreshments were served, and altogether the young people had a very happy time. A number of residents went up by the special excursion run by the Cygnet last Friday morning to visit the Apple Show at Penticton. The Harvest Thanksgiving service held last Sunday afternoon in the Schoolroom was well attended, and a spirit of thankfulness prevailed. The room was nicely decorated with flowers, fruit and vegetables, and the singing was very hearty. The special preacher was Mr. John Marshall of Okanagan College, Summerland. His discourse was very earnest, and he gave some very helpful thoughts. Mr. Marshall was accompanied by his brother, Mr. Christopher, who arrived from Sheffield, England, on the preceding Friday.

Naramata Notes.

Master Roy Boothe of Okanagan College spent the week-end under the parental roof. Mr. and Mrs. R. Campbell Robinson have taken up house-keeping in the ranch cottage. Mr. J. M. Robinson, prior to going east, went to Victoria on a short business trip. J. Kirk of Summerland was in town a few days recently on a short surveying task in the interests of the Okanagan Trust Co. Mr. Carroll C. Aikins has engaged the services of one of Summerland's expert tree men and orchardist, W. Simpson, who will enter upon his duties early in the coming season. Miss Jeffers of New York, and a sister, Mr. Frank Wilcox from Vancouver, also Miss Wilcox of Salmon Arm, paid Naramata a few days visit this week; guests of Mrs. T. D. Williams. No Thanksgiving Dinner this year in our town and church, but nevertheless there's to be some other half as good, namely, a Thanksgiving Evening. The social is given by the ladies of the church. During the course of railway construction work it might be well for some of our citizens, particularly the juvenile portion, to remember that the railway right-of-way is, at places, bristling with danger—falling rocks, flying missiles and rolling logs, and that 'twere better not to be too anxious to explore the route. The ladies sewing circle are preparing for a big sale of work on the evening of Thanksgiving Day. At their gathering on Wednesday there was some discussion on the subject of organizing themselves into a regular society along the lines of a Ladies Aid, and it is probable that the circle will develop into that eventually. Messrs. Reid, Large, King and Lyons journeyed to Kelowna on Monday last to give evidence in a wage case. The result of the trial was a vindication of the rights of the private individual to dispute the payment for work that is "scamped." There are certain well-defined marks of good workmanship which in the case in point were evidently ignored. A drug store, not of course fully equipped, but nevertheless a drug store, containing a limited stock of drugs together with notions is being opened out in the new building recently erected by the Roe Brothers. The new venture will be stocked by the Summerland Drug Co., and will be run by F. C. Manchester in connection with his real estate business. That two barber shops should open out in our town inside of one week is an actual fact. Messrs. Hillin and Mastin have an up-to-date shop running in connection with their pool room at the wharf. In the Lakeside Mr. Brown commenced work last Thursday week. Still there are people who will drawingly ask: "Do you think a railway makes any difference to Naramata?" Enough said! "Joe," a favorite saddle horse owned by Mr. Robinson had to swim for his life on Monday last having backed off the scow quite in the middle of the lake. There were three horses in all on the scow and one of the animals became frightened by the tossing of the barge, and in the scramble poor Joe suddenly found himself on the wrong side of the railing. There remained nothing to do but to steer the boat behind and head the poor brute toward shore. After a thorough rubbing down in a warm stall, and warm blankets, Joe was as gay as ever in an hour's time.

RASPBERRY CANES

Mrs. K. BENTLEY has a few hundred fine Canes grown from Stock imported from England two years ago. \$4 per 100. At "Northolme," north of Crescent Beach.

HOW TAILORS SEW ON BUTTONS.

Tailors double their thread used to sew on buttons and make a knot and hold the knot in the teeth while they twist the thread; then they wax it and that keeps it twisted. Then they put a pin across the button, and after the buttons are sewn on they remove the pin and wind the thread around several times making a kind of stem. This makes it more easy to button the garment. The buttons on children's waists should be sewed on this way so more than one garment can be buttoned on the same waist.

Municipality of Summerland MUNICIPAL Public Meeting

A Public Meeting will be held in the EMPIRE HALL, ON Tuesday, 29th Oct. at 2.30 p.m., for the purpose of taking into consideration the extension of the Domestic Water, Irrigation and Electric Light Systems, and the Storage of Water. A full attendance of the Ratepayers is requested, as matters of great importance will be discussed. J. L. LOGIE, Municipal Clerk.

Better Dinners

"Is dinner ready, Mary?" "Yes, Madam—it is ready, and, I think, a great success." "Your cooking is improving." "Well perhaps it is, and I hope so, but really, Mrs. Housewife, I think our new Gurney-Oxford is partly responsible for the success I have had lately. I was never able to cook roasts and fowl so well on our old stove, and as for bread and biscuits, I used to tremble when I went to take them from the oven—they were so often soggy and heavy. Now they are always light and beautifully brown, and, if I do say it myself, something to be proud of." "That's true, Mary, my husband has said almost the same thing. I'm awfully glad you approve of my choice of a Gurney-Oxford. He approves because of the saving in coal since we got it, also, because of the better meals he is getting." "Indeed he's right, Madam—and it requires so little attention." "That's fine, Mary. Will you serve dinner in a few minutes please."

ABOUT POTATOES.

Mealy potatoes are more nutritious than waxy, because the former contain the greatest quantity of starch. Thus a microscope shows a potato to be almost entirely composed of cells, which are sometimes filled and sometimes contain clusters of beautiful little oval grains. Now, these little grains remain unchanged in cold water, but when the water is heated to about the degree that melts the wax they dissolve in it, while becoming a jelly and occupying a larger space than it did in the form of grains. When a potato is boiled each of the cells becomes full of jelly, and if there is not a great quantity of starch in the cells it will not burst, but if the number of grains or their size be very great, the potato is broken on all sides by the expansion of the jelly in the cells, and mealiness is produced. To insure mealy potatoes peel them and put them on the fire in boiling water, when nearly done drain them, put them on a dry cloth, cover them closely, and set them near the fire for five minutes. In time of frost the only precaution is to keep the potatoes in a perfectly dark place for some days after the thaw has commenced.

GOOD ADVERTISEMENT FOR B.C.

Victoria, Oct. 22.—If British Columbia does not take the chief award at the Dry Farming Congress in Lethbridge it will not be the fault of the officials of the Department of Agriculture, for they have prepared an exhibit of the fruits and grains of this province, which it is believed will be the equal, if not the superior, as is hoped, of any similar exhibit, no matter whence it comes. The fruit exhibit which was shown at New Westminster, and which gained the chief honors, has been transferred to Lethbridge, with changes where the changes of the fruit made them necessary, and the province is sending a display of vegetables, which will require a lot of beating when the time for judging arrives. The representation of the province at the Congress is in the hands of Mr. W. J. Brandrith, of the Department of Agriculture, and advices from Lethbridge state that the exhibit has gained high praise from those who have seen it. The exhibit will be a good advertisement for British Columbia as the Congress will be attended by delegates from practically every one of the central and western states of the United States.

Miss Blanche Edwards, appearing as "Daisy Grubb," with "The Missouri Girl" Company, at Empire Hall, Wednesday, October 30th.

Bargains for
OUR Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1
Vancouver Daily Province - \$3.00
Better Fruit - - - 1.00
The Review - - - 2.00—6.00
The three for **\$5.00**

BARGAIN No. 2
Canadian Courier - - \$3.00
Canadian Horticulturist - .60

THE YOUTH'S COMPANION, 1913.

The Youth's Companion appeals to every interest of family life, from housekeeping to athletics. It begins with stories of youthful vim and vigor, with articles which disclose the secrets of successful play in the great games, with charming tales of life at the girls' colleges. But The Companion does not surrender these readers when they have entered the more serious paths of life. Mothers will welcome the page for little children and the weekly doctor's article. Fathers will find the important news of the day as it is, and not as it is rumored to be. The entire household will appreciate the sketches which touch gently on common foibles or caricature eccentricity. In short, for less than five cents a week The Companion brings into the home clean entertainment, pure inspiration, fine ideals, increase of knowledge.

Names rarely seen in tables of contents will be found in The Companion's Announcement for 1913, which will be sent upon request—with samples of the paper, to those not familiar with it. Every new subscriber for 1913 who sends 2.25 will receive free all the issues for the remaining weeks of 1912; also, free, The Companion Transparency and Calendar for 1913, in rich, translucent colors—the most beautiful of all Companion souvenirs. The Youth's Companion, 144 Berkeley St., Boston, Mass. New Subscriptions received at this office.

"I'm a self-made man," said the proud individual. "Well, you are all right, except as to your head," commented the other party of the conversation. "How's that?" "The part you talk with is out of proportion to the part you think with."

you must advertise.*

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

B.C. FALL FAIRS FOR 1912.
Summerland Oct. 30, 31, Nov. 1

College Notes.

Miss Reekie of Vancouver was the guest of Miss Colwell during last weekend.

Mr. A. Henderson of Kaleden spent part of Thursday visiting friends at the college.

Sunday 20th Rev. A. A. McLeod of India, gave a very interesting talk to a large audience in the college chapel.

Tuesday 22nd the Y.M.C.A. had the pleasure of being led by Rev. D. J. Welsh of Kelowna. Mr. Welsh is always a welcome visitor at O.K.C.

The members of the choral society assembled for the first time this term in the chapel on Monday evening. It is not yet decided what work the society will take up this season. The next meeting will be on Monday week.

The first month of the college year has passed bringing results of the monthly test. Many of the bright youths are going about looking sad. Cheer up, boys, another month is ahead of you, and the hope that you may be seniors then.

Despite the cold weather the male students are still enthusiastic in their Rugby practices. An endeavor is being made to have a match with either Vernon or Kelowna at an early date. The Hill-climbers are still too busy to meet their friends the Beanaters on the campus.

A rumor has been wafted thro' a crack in the wall of the college gym, that the ladies are practising basket-ball. It would be a good deed to repair the breach but it would do more good for our girls to make this rumor fact, and give the Summerland people a treat in seeing their girls beat some outside team.

The Lyceum Society have arranged for a debate on Women Suffrage at their meeting on Saturday. It was hoped that it would be possible for three lady members to take the negative and three gentlemen the affirmative, but it is doubtful if the ladies will be guilty of renouncing their "rights" to this extent.

Six Rules For Irrigationists to Follow To Protect Their Soil.

Too much water is an injury to soil.

First.—It washes out plant food. Nitrogen is the plant food element that the western soil is most deficient in. It is easily washed out. If washed below feeding ground of plant roots, it is lost.

Second.—It clogs the surface few inches of soil by cementing the small particles together and thus produces puddling, which all recognize as very injurious to soil.

Third.—It crowds out air. This lessens the action of bacteria in making plant food.

Fourth.—It lowers the temperature of soil. This retards growth. Seasons are too short in northern states and growth should be hastened.

Fifth.—The excess water that goes into the soil comes out somewhere. It often seeps out in the land lower and injures it, or even destroys its use for agricultural purposes.

Sixth.—Water has a value the same as any other material. No man has a right to more than he uses properly.

If he uses more than he needs or wastes it he is using up something that does not belong to him.

A paint manufacturer recently received the following letter: "Gentlemen—Will you please send us some of your striped paint. We want just enough for one barber pole."
