

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 28

SUMMERLAND, B.C., FEBRUARY 7, 1913.

Whole No. 236

Council Holds All Day Session.

Will Oppose Granting of Further Privileges to Ok. Tel. Co.

Electric Light Matters Discussed. Many Communications Dealt With. Plans For 1913 Talked Over.

A special meeting of the Municipal Council was held on Tuesday in the Council chamber. It was not until 10.15 that the meeting was called to order. Every member was present.

Some delegates were listened to, and quite a bunch of communications read. Much of the day was taken up in discussing a policy for the current year.

Immediately after the reading of the minutes a delegation from the "morning-side" district of Ward IV. were listened to. These were J. G. Robertson, R. Pollock and W. A. Caldwell. Through their spokesman, J. G. Robertson, these gentlemen asked for the construction of a road across Giant's Head, or more properly speaking, immediately south of Giant's Head proper. The site had been gone over, and the grades considered, and measurements taken, and the gentlemen themselves were surprised to find the road could be built with such easy grade.

A NEW ROAD.

The deputation's proposition was to start the road at the shale pit, going through the property of Messrs. Page, Robertson, Pollock, Ritchie, etc., coming down to Peach Valley, connecting with the road allowance next to Mr. James' property. They pointed out that construction also would be easy, much of the road, particularly that across the top of the hill, would be level, and would cost little for construction. If proceeded with at an early date they could practically assure the Council that the right-of-way would not cost anything. They claimed that this would be a saving of two miles for the people in that vicinity who wished to go to the railway station, or points in that vicinity. They claimed a similar saving for townspeople going in that direction or to Paradise Flat. It was now too far to go either way around the mountain. This they believed would be the most travelled road in the district and would be less than three-quarters of a mile long. The delegates were given a careful hearing by the Council who realized that at an early date this work must be undertaken. This proposition they promised would have consideration when other road matters were being arranged.

Granville Morgan again came before the Council asking for settlement for building a road at Trout Creek point, and wanted to know why the Superintendent had not passed the job. Supt. Mitchell was called in and he stated that he had gone over the job with the contractor and pointed out two or three small matters that needed to be made right, and upon this being done he would pass the job, otherwise he felt that he would not be justified in doing so. There were a few warm words over the affair, but the Council were unanimous in their declaration that they should stand behind the Superintendent, particularly since the contract required that the work must be done to the satisfaction of that official. Mr. Morgan claimed to have done work that was not called for in the contract, and felt that he was being unfairly dealt with. To this the Superintendent replied by saying that he would be glad to take any or all of the Council over the job and abide by their decision. Mr. Morgan was asked to make the finishing touches required by the Superintendent, upon completion of which cheque would be issued.

OIL ENGINE PLANT.

H. B. Taylor of Vancouver, whose firm submitted a proposition some months ago for the installing of a Diesel oil engine, and lighting plant, asked the Council to give him a hearing while he pointed out the advantages of the engine he was offering. Mr. Taylor was prepared to adhere to his company's previous offer, which was several thousands

of dollars below any other quotation. Mr. Taylor was given a good hearing and promised that if he were given the contract the plant would be all installed and completed within the contract period, either October 1st or November 1st, as the Council might specify. It was pointed out to Mr. Taylor that the Council could do nothing until the bonds authorized for this expenditure were marketed, whereupon Mr. Taylor said that it was not improbable that his company would take Municipal bonds in payment of their account. He left with a promise to furnish further particulars, and would let the Council know shortly if it were possible to take bonds in payment.

COMMUNICATIONS.

Communications were then read. These included a telegram advising that the Telephone Co.'s bill would come up for discussion at Victoria next Tuesday; a letter from Hon. Price Ellison acknowledging receipt of a communication from the Council in reference to the Okanagan Telephone Co.'s bill, and a similar letter from the Premier. Another letter from the Minister referred to the alleged shortage on last year's road grant, which letter was accompanied by another from Supt. Hamilton Lang. Several matters in reference to health matters were embodied in a letter from Dr. Smith. A legal firm at the Coast wrote demanding payment at the rate of \$400 per acre for a roadway which they alleged had been taken from a lot in Prairie Valley, the property of Mr. Hespeler. H. H. Elsey wrote asking for water on two different properties he had purchased. E. R. Simpson asked that some pine trees on the roadside adjoining his property be removed at an early date as he wished to build a fence as soon as possible. S. T. Elliott, Kelowna, objected to a bill for domestic water against a property in town which had not been used for the nine months for which he had been billed.

OKANAGAN TELEPHONE CO.

The telegram from Mr. McDermid, who was appointed by the B.C. Union of Municipalities to watch legislature, advised the Council that the Okanagan Telephone bill would come before the committee at Victoria on Tuesday the 11th, and urged that a representative be sent from here. It was stated that representatives would go from Penticton and Kelowna to oppose the proposed bill, and the Council were unanimous in their opinion that representatives should be sent from here to oppose the proposed legislation. Secretary Logie was appointed, and will leave here on Saturday morning.

Coun. Lewes thought that some action should be taken on the Medical Health Officer's letters, rather than simply reading and filing them. He suggested the appointing of a Health Committee. In reference to the Hespeler claim the Secretary informed the Board that the road mentioned was put through by the Province, and this was done previous to the buying of the property by the present owner.

It was decided that S. T. Elliott should pay one quarter's water rate, which would be equivalent to his giving the usual notice to disconnect.

At a previous meeting a letter from W. C. Kelley was read asking for a different arrangement with the Council for his services, suggesting an annual fee. This was considered more satisfactory by the Board, provided a satisfactory figure could be arranged. This matter was left with the Reeve.

Another hold-over letter, from F. A. C. Wright, will be replied to the effect that there is no engineering work in sight at present. It was generally conceded that where possible local men should be given preference.

[Continued on Page 6.]

College Faculty Recital.

The people of Summerland look forward with a great deal of pleasure to the various entertainments given by members of the College, throughout the year. Those who were present at the Recital given by members of the Faculty on Thursday evening of last week were well repaid for attending. Every item on the program was thoroughly enjoyable. To praise one of the performers, and be fair, would mean to praise all.

Miss Higgin, as always, showed herself to be an artist. Her rendering, however, of the Bach "Aria" surprised, perhaps, even those who knew how well she always plays. It was par excellence. Her second selection, the Brahms Hungarian Dance, was seemingly more enjoyed by the audience, and in response to an encore she played Gounod's "Sing, Smile, Slumber." The College is to be congratulated in having secured Miss Higgin as teacher.

Miss Hurschmann played for the first time in public since coming to Summerland. She proved herself an excellent pianist. Her playing of the Prelude and Fugue by Mendelssohn deserves special mention. To bring out the different voices requires not only technique but concentrated thought and understanding. Miss Hurschmann played it with clearness and distinctness.

Prof. Moore's singing is always enjoyed. He is familiar to us all, yet never have we heard him so pleasingly, as in the Songs from Elliland. These songs are part of the story of a monk who so pities a young nun, forced to take the veil, that he falls in love with her, and composes songs for her until compelled by his Abbot to stop his foolish song-writing. They are full of dramatic action as well as pathos. "Wie bist du meine Koenigin" by Brahms, while perhaps a finer song was not so well understood as the songs in English.

Miss Colwell was excellent. The selection from Dickens was much enjoyed by all. The reader showed her versatility by interpreting so excellently two such diverse selections as this and "Pippa Passes." If we praise the former, what have we left to say of her rendering of the latter? It was a masterpiece, and one of the best things ever heard here.

The College Orchestra has made great improvement since its last appearance in June. Of the selections perhaps the Minuet from Handel was the best played, though the Adagio from Richard Strauss's Sonata is also deserving of praise.

Altogether the concert was one of which Summerland might well be proud, and we hope, for the benefit of those who missed it, it may soon be repeated or a similar one given.

MEN'S MASS MEETING NEXT SUNDAY.

Word has just been received that Rev. H. G. Estabrook, who was expected to speak at a men's mass meeting on Sunday afternoon, under the auspices of the Brotherhood, and also at the College the same evening, will not be able to attend, he having received a hurried call to Prince Rupert. However, the men's meeting for Sunday afternoon has not been cancelled, and an equally interesting address is promised. This will be given by one of our citizens who shrinks from publicity, but who is well capable of giving an interesting and impressive talk. His will be a man's message for men, the subject being Jesus Christ. The meeting will be in the West Summerland Baptist Church, Sunday, at 4 p.m.

Rev. F. W. Hardy was not able to conduct the services in his church last Sunday, being confined to his home with a severe cold. Mr. A. C. Riley, one of the students of Okanagan College, conducted the services both morning and evening.

The Grumbler—"Look, here, mister, I ain't complainin', but this 'ere moose-stool you sold to my wife, we've twisted it round till we've twisted off its 'ead, and not a ha'p'orth o' toon can we get out of it."

Fruit Growers Talk Marketing.

A most successful meeting of the fruit growers was held in Campbell's Hall last Monday evening when Mr. R. M. Winslow, Secretary of the Farmers' Institutes for the Province, addressed the growers. Much of the evening was given over to a general discussion, principally on the question of marketing. Mr. Winslow went fully into the reasons for the unsatisfactory prices which have prevailed this fall and winter. Many of our growers are disposed to put all the blame on the local selling agencies, but it was pointed out that there was, with the exception of Australia, a universally large crop of apples, which tended to hold prices down, but worst of all for the B.C. fruit grower was the disorganized condition of the growers of the western states, where much fruit was sold for less than the freight charges. Instances were quoted, one being that of a Washington grower who took several carloads of apples to Chicago, where he finally sold them for half of the freight charges. As a result of this disorganized condition, and in an effort to hold up their own markets, many carloads of fruit were dumped into the Canadian markets. It was the general opinion of those present that something should be done to prevent this practice.

What were the best plans for the future were considered, and a number of suggestions made. Several were disposed to appeal to the Provincial Government to establish a central selling agency, with warehouse and cold storage facilities. Mr. Winslow would not hold out much encouragement, but thought the growers should organize, not only locally but the local organizations should co-operate and establish one channel for the disposal of their fruit. It was learned at this meeting that the Government have been asked to make amendments to the Agricultural Act whereby much greater assistance will be given to the fruit industry. One amendment proposed is, that the Government loan to the extent of 85 per cent. instead of 50 per cent. of the subscribed capital of co-operative associations.

W.C.T.U. MEETING.

The W.C.T.U. met at West Summerland on Monday afternoon, at the home of Mrs. Phinney. Some items of business were dealt with, after which Mrs. D. H. Watson gave a talk on the legal status of women, in this province more particularly, which called forth a lively discussion. The legal disabilities under which women are placed in this country are to a great extent the same as in England and other countries.

The facts presented by the speaker called forth the question "Why have these unfair laws been made?" This brings us to the pivotal point. Probably if women had always had the monopoly of government the tables would be turned, and men would find themselves handicapped legally. The proper adjustment of affairs will no doubt be found in the political equality of the sexes, when matters of government will receive a more balanced treatment. The 17th of February is Frances Willard Day, one of the red letter days in the W.C.T.U. calendar, and the union purposes holding a meeting for ladies in general in the West Summerland Baptist Church, with a program suited to the occasion. All ladies are requested to make a special effort to attend this meeting. Further particulars concerning the program will be announced next week.

SCHOOL REPORT.

Following are the names of the pupils obtaining the highest marks for the month of January:

CLASS I.

Eva Watson, Jean Caldwell, Bob Hatfield, Carol Graham, Russell Munn.

CLASS II.

Leonard Whitfield, Gertrude Angwin, Eva Smith, Hugh McIntyre, Alex. Smith, Lily Simpson.

Add a few minced dates to fudge as it comes from the stove. It will give it a novel and delicious flavor.

Garnett Valley Wants School

Building Only This Year For Manual Training.

Change in Route 5. Estimates for the Year.

The Board of School Trustees held its regular monthly session on Monday morning with all present except Dr. McIntyre. Much of the morning was taken up in the discussion of the relation of the Central School to the outlying districts, and the advisability of using the ward schools for primary work. The occasion of this discussion was a petition from Garnett Valley asking that the school there be re-opened. Conveyance came in for some discussion, and considerable time was devoted to Manual Training.

GARNETT VALLEY SCHOOL.

Immediately after the reading of the minutes a petition, supported by the presence of four ratepayers from Garnett Valley, asking that the school there be re-opened, was read. This petition was signed by W. R. Ely, W. E. Ward, H. Dunsdon, W. J. Smith, J. Dunsdon, H. S. Gallagher, J. R. Campbell, Mrs. Merrihew, Wm. Atkinson, S. H. Adams, R. F. Theid, A. Stewart, F. A. C. Wright and J. Thompson. The reasons given in support of the petition were substantially as follows:

First, that the children are not receiving the better education it was claimed they would receive by a consolidation of local schools.

Second, that it is detrimental to the health of young children—they having to make long journeys in all weathers in order to attend the consolidated school.

Third, that the school is overcrowded, it being impossible for the teachers to give sufficient attention to the proper up-bringing of children as regards behaviour, morals, etc.

The petitioners held other reasons which they preferred stating directly to the Inspector, and asked that the Board arrange for them to meet that official.

S. H. Adams, J. Dunsdon, W. J. Smith and H. S. Gallagher were present to give the petition personal support. Mr. Dunsdon said that a sufficient number of children could be gathered to warrant the opening of the school, and with a school there, others would come in to reside.

Secretary Logie reviewed the history of the opening of the Central School, and explained to the petitioners present what would be required before the Department of Education would grant permission to re-open the ward school.

MAJORITY RULIES.

Chairman Robinson said the Board had done its best to get an expression of opinion from the people, and while not in accord with its ideas, the majority had expressed themselves as in favor of the Central, and the majority must rule. He believed it was a mistake to build the Central where it was, and thought it should have been nearer town. However, since it is established the Board will do its best to build up a good Central School, as this is the desire of the majority. Had the people decided otherwise he would have worked to open the ward schools.

Mr. Dunsdon did not think it fair for Garnett Valley to be over-ruled by the majority.

In reply Chairman Robinson said he sympathized with them, but could not open the school now. He was in favor of giving them a school, and would suggest that a proposition be made to the Government to take off the Garnett Valley district and provide a teacher for that district.

The Secretary said that he thought the petitioners were laboring under a misunderstanding. He believed that trustees, and electors as well, were not opposed to Garnett Valley having a school if they preferred that to having a conveyance to the Central School.

Mr. Adams complained of the lack of comfort in the rigs and said that his girl was now at home with sore feet caused by lack of protection in the conveyance, which, he

said, the Trustees won't make the contractors fix nor fix themselves.

The Chairman promised that this petition would be used with the Department with a view to opening the school next fall. His idea of the Central School was that it should be second to the ward schools, where the primary grades should be taught.

Trustee Shields, promised to do all he could to have the Garnett Valley School open, and said that he believed that if the people had understood what they were voting for they would not have voted for the present school system.

SUNDRY COMPLAINTS.

At the last meeting Trustees McIntyre and Shields were appointed to see Mr. Ritchie in reference to the completing of the last conveyance purchased from him. Mr. Adams wanted to know what had been done about it.

Trustee Shields said that the rig was away when he and Dr. McIntyre went to see it, but that Mr. Ritchie had promised to have it made right.

The same Trustee complained of lack of rugs for the town rig.

Mr. Adams again referred to the moral standing of the Central School, and remarked that the children learned too much "devilment."

Complaint was again made of the teachers forbidding the younger pupils to use the main hall of the Consolidated School where a stove had been put up.

Mr. Adams again referred to the unsatisfactory heating of that school. He said he had gone there one day last year while he was a Trustee and "fired" all one morning and at noon he could only get a temperature of 48.

MANUAL TRAINING.

Trustee Shields complained that full report had not been made by the press of his remarks at the last meeting. He claimed to have stated at that meeting that he was in favor of Manual Training, but "not this year." This topic then occupied some time, and it was pointed out that the ratepayers had instructed the Trustees to proceed, provided the total school rate did not exceed 4 mills.

J. Dunsdon, who was still present, contended that the people had not expressed their opinion on the question.

The Chairman said he did not know what more could be done. A special meeting called by the Trustees to discuss this question was advertised, the Trustees having pronounced themselves in favor of the new course. At that meeting only twelve citizens made an appearance, and the Trustees would infer that the matter was left by the ratepayers with the Board. However, they were not satisfied and advertised that this matter would be discussed at the general public meeting. There, warning was given that if any were opposed, that was their opportunity to state their views. At that meeting the Trustees were instructed to go ahead if not over 4 mills would be required. The question was now with the Board. Estimates would be made to-day, and with the instructions they had received, they must act on their own judgment.

Trustee Shields said that several citizens had expressed themselves to him as opposed to the Manual Training this year, and he thought another vote should be taken.

The question of getting a satisfactory teacher came up, and Secretary Logie said that he had inquired of this while with the Minister of Education at the Coast, and he had advised that the Municipality make preparations for the opening of the school, assuring him that a good teacher would be provided, but probably not before the beginning of 1914.

T. J. Garnett reported that at a recent meeting in Ward IV. all had expressed the opinion that

CONSERVATIVE ASSOCIATION ENDORSES BORDEN POLICY.

Other Resolutions.

At a recent meeting of the local Liberal Conservative Association the constitution and by-laws, which were ordered revised and brought up-to-date, were adopted. The following resolution, endorsing the administration of the Rt. Hon. R. L. Borden, was adopted:

"That this meeting of the Liberal-Conservative Association of Summerland is in full accord with the policy of the Government at Ottawa. That the principles embodied in the naval bill now before the house meet with our hearty approval. That the emergency contribution towards the defence of the Empire which it provides for, showing, as it does, that Canadians are ready to stand shoulder to shoulder with the rest of the Empire in times of trouble as well as in prosperity, is a fit and proper recognition by Canadians of their responsibilities as members of the British Empire. And that we hereby express our loyalty to our leader, the Right Hon. R. L. Borden, who, as Sir Richard McBride said, has so ably shown himself equal to the great trust given to him by the Canadian people."

Other resolutions were one endorsing the policy of Sir Richard McBride and the Conservative administration of B.C. Another expressing the interest taken in this community with the efforts of the Hon. Martin Burrell to advance the interests of Agriculture, and approving of the Agricultural Bill introduced by him.

Yet another urged the extension of the Government Telephone Service, upon similar lines as recently recommended by the Board of Trade.

The erection of a Government wharf at Summerland was also asked through resolution.

A CHILD'S TROUBLES.

Little troubles which no one has time to soothe or explain make a demand upon the sensitive system of a child which we cannot calculate. To avoid this we must train the child to regard little troubles as little. We must throw a light of peace and strength on disturbing happenings, and the child will unconsciously form the same habit. Observation will show that children often reflect the nervous condition of those about them, the nervous attitudes and habits.

[Continued from Page 1.] would not be advisable to introduce Manual Training this year.

It was pointed out by the Chairman that after all the opposition was only one of finance, and the plan he would propose, while preferring that the school be ready to open next fall, would be that full estimates be obtained, and a building erected next fall ready to be equipped; and the opening of classes at the beginning of 1914.

The Secretary said he had only received one report from any of the schools, and that was from the Town School.

Trustee Shields pointed out that for some distance both the Giant's Head and Trout Creek rigs were travelling the same route to and from school, and suggested that one of them go by the road passing Mr. Hatfield's. The matter was talked over with T. J. Garnett, one of the contractors, who was present, and this change, together with lengthening his route to the corner of the Munro lot, was made, for which he will be paid 90 cents per day extra.

Trustee Shields reported that the water in the town school was frozen, and that more seats and a map were needed.

1913 ESTIMATES.

Following are the estimates made for the current year.

Salaries, Board's proportion	\$2760.00
Conveyance, Board's proportion	1390.00
Fuel	400.00
Caretaking	400.00
Buildings, repairs, etc.	100.00
Furniture, etc.	100.00
Incidentals	225.00
Total	\$5375.00

These, together with some initial expenses in connection with the Manual Training Department, will necessitate a school rate of 4 mills, and a motion was carried asking the Council to strike this rate for school purposes. There will be a slight saving if the rig is taken off the Garnett Valley route.

The Secretary made a short verbal report of his interview with the Minister of Education, the latter suggested that the board wait for a new map which will be gotten out shortly rather than order any more of the old. The Minister of Education stated that it had been found by experience that those children which took the Manual Training course are the ones who make the highest marks in their general studies, thus proving conclusively one of the benefits to be derived therefrom. He suggested that haste here would be inadvisable, and thought if this year the building were got in readiness that would be sufficient.

In reference to the opening of the outlying schools he would try to meet the Board, and when the latter deemed it advisable he would send the Inspector to make a report.

The following accounts were ordered paid:

Teachers' Salaries	\$520.00
W. J. Taylor	35.00
J. L. Logie, Secy.	10.00
J. Lacy	3.15
Review Pub. Co.	2.25
Gordon Blewitt	8.00
Darkis and Whitfield	7.25
Vernon News	1.00
Men's Club	5.00
S'land Supply Co.	23.80
Total	\$615.45

It was decided to make the regular meeting of the Board the first Monday in each month.

CHURCH NOTICES.

Methodist Church — Services every Sunday morning at 10.30. Sunday School at 11.30. Fortnightly evening service at 7, alternating with Presbyterian Church, West Summerland. Frank W. Hardy, Pastor.

St. Stephen's Church (Anglican). — Holy Communion every Sunday at 8 a.m. except on the first Sunday in the month. First Sunday in the month. Holy Communion at 12 noon. Matins 11, Evensong 7, each Sunday. Rev. H. A. Solly, B.A., Rector.

Baptist Church — At West Summerland every Sunday at 10.30 a.m. Sunday School at 11.45 a.m. At the Lakeshore Church 7 p.m. Sunday School at 11.30 a.m. F. W. Pattison, Pastor.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30 a.m., Sunday School, 11.30 a.m. Evening, Fortnightly at 7 p.m., alternating with the Methodist Church. Rev. C. H. Daly, Pastor.

Can't Buy Okanagan Apples

Reasons Given by Retailers of Vancouver Why They Cannot Satisfy Demand Created For Our Fruit.

The reputed difficulty consumers of apples in Vancouver find in obtaining the Okanagan product has recently been investigated by the Vancouver Sun. That journal lays the blame principally on the wholesale houses. We furnish below a full report of the Sun's finding. This question is a very important one to our fruit growers, and they are entitled to know the reason why the people of the Coast cities are unable to get the Okanagan apple when they ask for it. Seemingly, that market is demanding our fruit but the wholesaler finds it to his advantage to substitute. Following is the Sun's report in full:

"Okanagan apples — where do they come from?"

Although it sounds like fiction, it was the answer of a Vancouver retailer when asked if he had apples from the Okanagan district for sale. As a matter of fact he knew where the Okanagan apples came from, but explained that it might as well be in distant Borneo as far as Vancouver was concerned. On a diligent search through the retail fruit stores of the city the same story was told by seventy-five per cent. of the dealers. In some of the other cases alleged Okanagan apples were sold to the investigator, but they were not guaranteed, and seemed unlike the real article in many respects.

The Okanagan district is in British Columbia. There are plenty of people in Vancouver who have begun to doubt it when trying to purchase British Columbia fruit, but the map shows it to be a fact. Yet in spite of that fact the retailers agree that it is impossible for them to arrange for any fair supply of Okanagan apples here.

"Sometimes we can get Okanagan apples," stated a Granville Street merchant, "but more often we cannot. Right now I have a few Winesaps on sale, but they are very small."

He was asked if there was no demand for the fruit, that it was not brought here.

"Demand for it," he said, "there is a regular rush for it. Every day we have customers asking for Okanagan apples and we cannot possibly keep up with them. They are very popular, and I guess it is because they are the best apples sold in Vancouver, when they are sold."

"You are not the only one who wants to know why British Columbia fruit is almost impossible to get in the city. I have been trying to find out myself. Personally, I believe that the main reason is because the wholesalers are able to bring in Washington fruit and undersell the Okanagan variety. They tell me that all the Okanagan fruit goes to the Middle West, where a better price can be obtained, but that is where the Ontario fruit goes to, according to the papers recently."

That the exorbitant railway rates had a great deal to do with the shortage of Okanagan fruit in Vancouver, was the opinion expressed by another dealer. Besides that, however, he held the commission men responsible.

"The wholesale people can make good money out of the fruit from the other side, because it is of inferior quality, but sells for the same price as the Okanagan fruit," he said. "The retailers are helpless. They have to take what they can get and be satisfied."

"I have seen apples brought into Canada that were not fit to eat, and we get them foisted on us because

we have to have apples. The fruit from Washington and Oregon is fine-looking on the outside, but is mealy instead of firm, as a good apple should be."

He agreed that Okanagan apples were the most popular with his customers, but regretted that it was so hard to keep a supply on hand. He intimated, too, that many unscrupulous dealers had a habit of selling imported fruit under the guise of "Okanagan apples."

Several dealers were decidedly abrupt when asked as to Okanagan apples. One seemed to consider it a joke, and said that he had heard the question too often to laugh any more.

"Where is the Okanagan?" he asked.

"I am almost tired of telling people that we haven't any Okanagan apples just now, and don't know when I will have any. I have been trying for two weeks to get them, and have been promised a supply. That is all I know about it," and he dismissed the subject.

A well-known fruit dealer of New Westminster, in speaking on the demand for Okanagan fruit, said that the product from Oregon was received by the merchants of British Columbia, and sold by them for the reason that better profits could be made on the imported fruit, even after the duty had been paid. The matter of the purchase of different fruits was not looked on in any sentimental way, but on a purely business basis.

"When a good quality of fruit can be purchased for a better price than the Canadian product," he said, "we naturally take advantage of the conditions that allow of this and simply buy so that our profits may be greater."

"The two best varieties of fruit purchased in the Okanagan country are the Spies and the Winesaps. These varieties are the only ones which we can depend on that will keep in storage for the length of time necessary to have them when the time comes to put them on the market."

"It has been said," remarked one well-known merchant, "that storage facilities in Vancouver do not fill the requirements that are necessary to keep in the proper quantities, nor in the proper condition, the apples that come into the city. This is not a correct statement. The storage conditions are of the best, although in some cases I will say that we have difficulty in getting the amount of storage facilities necessary. This condition, however, will be found in any place and is not the only case in Vancouver."

Speaking of the conditions that govern the fruit market this year, one well-known merchant said that conditions had taken on a different aspect owing to the smallness of the amount of fruit shipped to Vancouver from the valleys of the Okanagan. The demand for the British Columbia fruit on the prairie provinces has been greater than ever, which accounts in some degree for the lessening of the size of the shipments to Vancouver.

Fruit growers realize that as good prices can be got in the Middle West, and that the cost of shipping their products there is less so they take advantage of this condition. The movement towards the prairies by the Okanagan growers has never been so great, and, if it keeps increasing, will tend to make this fruit even scarcer on the Coast.

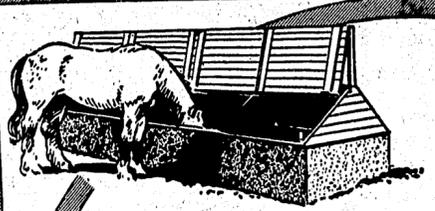

The New York State College of Forestry at Syracuse University, designated and established by the Legislature for the educational work in Forestry in New York, has sent a letter to the principals of all the high and preparatory schools of the State offering to give illustrated lectures and demonstrations upon Forestry before the schools, so that every child in the State may understand what Forestry is and may learn to love the trees and forests.

An order issued by the Customs department forbids the importation of all kinds of trees with the bark on originating in the New England States. An order from the New England forestry authorities stating that there is no danger from the gypsy moth will, however, admit the trees, if such order is attached to them. The regulations are to prevent the spread of the troublesome gypsy moth.

The man who keeps his eyes on the face of the clock will never see the wheels go round.

"Shiloh costs so little and does so much!"

Why shouldn't women have suffrage? We let men vote who can't talk the English language and refuse the ballot to women who can talk enough for all of us!

Ask for this book, it is free.

CONCRETE watering-troughs and feeding-floors help to keep your live-stock healthy.

HORSES and cattle watered from a concrete trough are less likely to contract disease. Concrete is sanitary, easily cleaned — does not rot or leak. Once built, a concrete watering-trough will last forever. You need never waste time "patching it up." Like all concrete improvements, its first cost is its final cost.

MANY diseases of hogs are directly due to feeding from the filthy, unwholesome mud of the barn-yard. This manner of feeding is also wasteful, because the grain is trampled into the ground, in such a condition that not even a hog will eat it. Concrete feeding-floors, with concrete swill-troughs are clean, sanitary. They keep hogs in better health and save feed.

WATERING-TROUGHs and feeding-floors are only two of scores of valuable, every-day improvements that may be made of concrete. All are fully described in our 160-page, illustrated book,

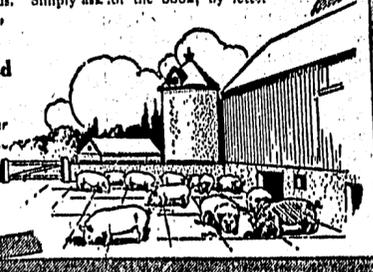

"WHAT THE FARMER CAN DO WITH CONCRETE"

sent free to any farmer upon request. This book has shown thousands of Canadian farmers how to make their farms more profitable. In asking for it, you do not place yourself under the slightest obligation to buy cement, or to do anything else for us. Simply ask for the book, by letter or post card, and it will be mailed at once. Address,

Publicity Manager
Canada Cement Company Limited
514 Herald Building, Montreal

Be sure that this label is on every bag.

REMEMBER, when in doubt, that our Farmers' Free Information Bureau will answer any questions on the use of concrete that you desire to ask. This service is free of charge.

Crude Thoughts From the Editorial Pen.

SUCCESS ONLY THROUGH TOIL.

Our young readers of this column—especially the young men—should remember that success is found most often in the path of toil. There is no way to genuine success except through toil—either by head or hand. At the battle of Crecy in 1346, the Prince of Wales, finding himself heavily pressed by the enemy, sent word to his father for help. The father, watching the battle from a windmill, and seeing his son was not wounded and could gain the day if he would, sent word, "No, I will not come. Let the boy win his spurs, for, if God wills, I desire this day to be his with all its honors." Young man, fight your own battles all through, and you will have the victory. Two monarchs of old fought a duel, Charles V. and Francis, and stakes were kingdoms, Milan and Burgundy. You fight with sin, and the stake is heaven or hell.

Do not get the fatal idea that you are a genius, and that, therefore in no need of close application. It is here that multitudes fail. The curse of the age is the geniuses; men with enormous self-conceit and egotism, and nothing else. We had rather be an ox than an eagle; plain and plod, dim and useful, rather than high-flying and good for nothing but to pick out the eyes of carcasses. Extraordinary capacity without work is extraordinary failure. There is no hope for the person who begins life resolved to live by his wits, for the probability is that he has not any. It was not safe for Adam, even in his unfallen state, to have nothing to do, and therefore God commanded him to be a farmer and horticulturist. He was to dress the garden and keep it, and had he and his wife obeyed the divine injunction and been at work they would not have been sauntering under the trees, and hankering after the fruit that destroyed them and their posterity; a proof positive for all ages to come that those who do not attend to their business are sure to get into mischief.

IF you wish to rise with the sun, do not sit up too late with the daughter.

VALENTINES are provided for all. Like the rain, they must descend upon the just and upon the unjust.

THE fourteenth of February is a day sacred to St. Valentine. It was a very odd notion, alluded to by Shakespeare, that on this day birds begin to couple; hence perhaps arose the custom of sending on this date letters containing confessions of love and affection.

PERHAPS you have heard the legend of St. Valentine, but if you have not, here it is in as small a nutshell as such a saint could be well condensed: St. Valentine lived long ago. An emperor ruled him, and the emperor, whose name was Claudius, became very jealous of St. Valentine, or Fr. Valerine as he was then called. And one day Claudius cut Friar Valentine's head off, and banished his remains, so that nobody should know that he had been beheaded. "Now why did Claudius do this?" you ask. Well, he did this because Fr. Valentine was such a great favorite with the young people that Claudius was not in their affections at all.

THE boys and girls look at the older people and see what they do. They watch the words of the father and mothers and the friends, and take their cue quickly. Even the little ones are ever watchful to see just how closely father and mother adhere to the truth.

YOUR body is your best friend while you inhabit it, therefore take the best possible care of it. Only a simpleton is ashamed of bestowing care on it—of keeping teeth, hands, feet, hair, and skin in the best possible condition. It takes but a little while, when the day's toil is over to sit down before a mirror and bathe in warm water, neck, face, and hands, drying them with a soft towel, and rubbing every part thoroughly, including teeth and nails. A touch of sweet cream rubbed on where needed is very good. One feels so refreshed and respectable after the operation that the habit, when formed, is hard to give over when circumstances do not admit of it.

A WORD IN SEASON.

IF you would have your boys pure, make comrades of them, and then live as you would wish them to live. There are few things more fruitful than example, either good or bad. What do you know of the associates of your boys? With what sort of companions is the most of their time spent? Do you wish your boys to associate with those whose language is interlarded with profanity; with one whose language is vulgar, and one whose thoughts, words and deeds are immoral? Are you sure your boy is free from these defects? We trust that every parent who sees this article will take time to carefully think about the matter, and consider whether he or she has been doing his or her own duty. There is little danger of being too careful (we do not say strict), the great danger lies in being too careless. Keep your boys home as much as possible, and do make it possible to do so at night at least. Do your utmost to provide suitable employment and amusement for them at home, and assist them in their choice of friends and companions. Exercise care in the matter, and it can be done without making your boy suspicious of you, or without irritating him, but it will instead, delight him to see the interest you have displayed.

A BOY'S FRIEND.

COUNTRY life has its drawbacks, but it has its great advantages which overcome them. True, those who live in the country are "Rubes" and "Farmers" and "Hayseeds" to the cigarette smokers in town, but the boast of the business men in the world to-day is that they were born on the farm. Take away the surrounding evils that beset the young men or women on the threshold of life's journey in the city, and substitute the helpful influences of nature, and you fortify them for the sterner walks of life.

As fresh as summer roses in early dew.

Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or 'phone, and a messenger will call.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED, RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method, customers are charged each week for just the amount of space used.

FRIDAY, FEBRUARY 7, 1913.

MONOPOLY vs. PUBLIC OWNERSHIP.

Much has been written and more has been said in opposition to the putting of the telephone and telegraph business of this valley into the hands of a monopoly. Once more it becomes necessary for the people of the Okanagan to express themselves in no uncertain terms as emphatically opposed to a surrender to present conditions or to the legalizing of an attempt to get a yet firmer grip on the business of the valley. We refer to the recent application of the Okanagan Telephone Company to Victoria for a further increase of their charter privileges by granting them permission to enter into the telegraph business, and which request, we are glad to note, will be opposed by the councils and Boards of Trade of the lake towns.

That the Okanagan Telephone Company is wholly unworthy of this public trust is shown by a cursory review of telephone matters in the South Okanagan since its invasion by that unpopular concern. That the directors started out with the intention of securing a monopoly of the whole valley was early made evident by the prices paid to buy up the local exchanges. Had they any expectations of having to meet competition they would have gone about the business in quite a different and more businesslike manner. But being impatient to scoop all the business, and feeling that they could recoup by fixing the rentals and tolls to suit themselves, they paid in one instance, at least, and without bartering, a price fixed for the purpose and with the expectation of putting an end to negotiations, or else making the purchasing company pay well for goodwill. In this deal three exchanges were acquired at practically 100 per cent. in advance of all capital expenditure. That the rates were not immediately increased in accordance with the plans of the company was only because of a general rebellion of telephone subscribers, who at once took steps to organize for the purposes of building and operating systems of their own. No doubt this latter more than anything else helped the directors of the Okanagan company to decide to postpone increasing the rates until a more opportune time when the opposition would become disorganized and off its guard.

The company has deservedly lost to itself all confidence of the people, who have long since seen through their artless double-dealing. When the storm was raised against the proposed increases, and the discourteous treatment meted out to the public by their manager, several members of the directorate immediately came around meekly apologizing for the actions of the manager, whom they denounced as having a "swelled head," and whose "highhandedness" was bringing ruin to many innocent investors, widows and orphans who had put their money in what was represented to them as a good thing. Nothing was too investive to say against the manager, whom they represented as having been deposed. Perhaps he was dismissed. There were those who said they did not believe this. In any event he was soon back "on the job."

To clear themselves Mr. Dobie was made the scapegoat, and upon him was all the blame put. He was loaded with more than any man could bear without resentment, and he is known to have vigorously denied some of their accusations. The directors declared he had deceived them as to conditions here, and had induced them to buy the Lakeshore Telephone Company. Mr. Dobie's version is that they bought against his advice. He was accused of raising rates without instructions while Mr. Dobie stated at Penticton that in doing this he was simply carrying out instructions, and that he had told them that with such prices as they proposed he knew of no better place than the Okanagan in which to go into the telephone business. Before a representative gathering of business men here last spring Dr. Holmes denied that his company were trying to get the government line. But upon being further pressed it was admitted that the idea was suggested by Mr. Dobie so that the valley might be given a better service at lower rates, and it was further admitted that there had been correspondence with a view to acquiring the government system in the Okanagan, but they declared negotiations were withdrawn when they heard of the public's opposition, and the directorate had passed a resolution receding from any move towards the acquiring of the government line. It would now seem that this was only to deceive the people and put them off their guard, as it was but recently that negotiations were brought to an end by the government giving the company a final answer that the people's line was not for sale. Immediately upon receipt of this answer the company proceeded to connect up its various exchanges by paralleling the government wire and this has now been done. Again those same directors, while here grovellingly pleading for mercy, and expressing themselves as willing to do almost anything if only they were left alone in the field, promised to submit a definite proposition that would be satisfactory to telephone users here, and under which they would work. Nothing further was heard of this. Evidently they concluded to do nothing but wait till the opposition cooled down, when they hoped to be masters of the situation.

The weakness of the company's case was again made evident by Mr. Hanky's embarrassment at the meeting of the associated Boards of Trade held recently at Vernon, when his remarks and answers "were very vacillatory, it being a difficult matter to get a concrete statement from him."

Their disregard of the public's interests is made apparent in many ways, none more so than in their treatment of new subscribers. Instances have come to our attention where citizens found it necessary to have a 'phone. After signing a contract the instrument is installed,

but not for months after does that 'phone become of full value to the subscriber. True he has the 'phone, but others don't know he has it, and the company makes no effort to make the fact known. That would add to their expense of doing business.

The first resentment shown by the public was when the company made it known that they had been successful in obtaining a charter giving them unusual powers, even overriding municipalities, towns and cities, in which they wished to do business. Feeling this independence of the public they proceeded to carry out their plans without due consideration of the feelings or moral rights of the people. From that time to the present matters have been getting worse and worse. Rates have been raised in nearly all the towns. An unsuccessful attempt made to corral the valley by acquiring the government lines, another line built to cut out the government toll line, and finally, and perhaps worst of all, refusal to permit subscribers to talk through the company 'phones over the government wires. Not satisfied with all these, and seeing that they are driving telephone business to the government's new telegraph line, they are now attempting to kill that—the people's last resort.

During all this time the company have worked to give our representatives at Victoria the impression that everything was going smoothly here, and that the people welcomed the change.

We cannot believe that when all the facts are made known to our representatives they will grant the company's plea for further privileges and furthermore the experience of the Okanagan will no doubt impress upon our busy legislators the need of early legislation to establish either municipal or provincial telephones. It is to this that the people are looking, and they will resent any move in the opposite direction.

"CHOICE" IS NUMBER THREE.

This editorial, taken from the columns of the Vancouver Sun, some weeks ago, is now as timely as when written, and backs up that paper's story on market conditions for Okanagan apples as published elsewhere in this issue of the Review:

"Okanagan fruit growers have taken steps to market their products in Vancouver independently of the present wholesale houses. This is just in line with what the Sun represented some weeks ago the growers would be forced to do. The growers of fruit and vegetables in this province, up to the present, have never had a square deal from the Vancouver fruit ring. Their products have been misrepresented as being inferior in pack, uniformity and quality to American goods. Further, the Vancouver wholesale ring has persistently maintained that the rate of transportation favored the American products and kept the Okanagan goods out of this market. It is noteworthy that no such contention was put forward by the Vancouver wholesalers in their remarks to the Okanagan growers at Vernon, for the simple reason there is no truth in the claim. Also it was noticeable that the Vancouver wholesalers dared not accuse the Okanagan packers with inferiority in putting up their goods. Both these claims have been strenuously advanced by the wholesalers in Vancouver, and by their apologetic mouthpiece, the News-Advertiser.

"The fact is, the wholesalers of this city see in a co-operative movement of the growers of British Columbia a menace to the grinding monopoly they have enjoyed. This monopoly has been made possible by the unfair rating accorded American fruit in this market. American fruit is dishonestly marked. What is marked "choice," is really only third-class or culled. Yet this stuff is put in competition with number one Canadian, and the wholesalers in Vancouver have taken full advantage of it.

"Obviously third-class American fruit can be bought for less than first-class Okanagan, but its marking as "choice" enables the unscrupulous middleman to put it off as first-class fruit.

"The marking of American fruit, not the tariff, is the main grievance of the growers.

"It is to be hoped not only the Okanagan producers will get together on a basis that will enable their products to reach coast consumers on a reasonable basis, but that producers all over the province will join in their movement, both for their own protection, and that of the consumers."

BRITISH TRADE.

Still the Motherland prospers and her trade continues to expand in very satisfactory proportions. British trade broke all world's records in 1912, attaining the surprising total of, in round numbers, £1,350,000,000. This is an increase of £107,000,000 over 1911, also a record year. In view of the serious industrial strikes this must be extremely gratifying.

The imports for 1912 were £744,897,000, while the exports (which includes about £100,000,000 of re-exports of colonial and foreign goods) was £599,272,000.

CIGARETTE smoking causes shortness of breath, and so impairs the efficiency of men as to render them unfit for work requiring endurance. This is the verdict of the chief of the Ottawa fire department, who has, after due investigation, forbidden cigarette smoking among his men.

THE new French Cabinet is taking what it considers a long step in the direction of ideal government. It has long been recognized by statesmen that the system of representation now generally in use is not ideal in that the minority, no matter how strong, is not proportionally represented in the government. Legislation is about to be submitted providing for the giving of proportional representation to minorities in France.

Our Philosopher

THE "back to the farm" cry is no longer a joke, it is a wall on the part of those who have seen the error of their ways and would be glad to get back and find that the farm has not gone ahead of them.

TRY as hard as you please, you can never get the knocker to believe his home town is anything but a modern Nazareth. Nothing good can come from it. Even when some bit of successful hustling or unusual generosity sets the outside world talking, he finds some flaw, some man-

ner in which the deed would have been better had it happened elsewhere. Personally, his brains if changed to water would not be sufficient to dampen the dust on a gnat's whiskers, but he considers himself capable of giving advice to old man Solomon.

THE PEACEMAKER.

Village Grocer—What are you running for, sonny?

Boy—I'm tryin' to keep two fellers from fightin'.

Village Grocer—Who are the fellows?

Boy—Bill Perkins and me!

Puck.

"The sins of the fathers shall be visited upon the children, even unto the third and fourth generations," so we are told—and some people will leave enough to go around.

SERIOUS MATTER.

Griggs—I saw the doctor's carriage at your door yesterday. Anything serious?

Briggs—I should say so! He wanted to collect his bill.—Boston Transcript.

The Prodigal had returned. "Father," he said, "are you going to kill the fatted calf?" "No," responded the Old Man, looking the youth over carefully. "No; I'll let you live. But I'll put you to work and train some of the fat off you."

TERMS STRICTLY CASH

A CHANCE for YOU!

The Okanagan Lake Boat Co. desire to secure an appropriate name for their new boat, and to this end are asking the co-operation of the public.

CAN YOU SUGGEST ONE.

To the first person suggesting the name finally approved by the judges, will be given a free pass for one year on all regular trips between Naramata, Summerland and Penticton. The persons suggesting respectively the second and third most appropriate name will be awarded a six month's and a three month's pass on all regular trips of the company's boats.

RULES OF CONTEST.

One name only is to be submitted by each contestant. Each letter in this contest will be numbered in the order of its receipt, and in the event of the name finally selected as the best being submitted by more than one contestant, the prize will be given to that contestant whose communication was first received.

Mail your suggestions promptly, and write plainly your name and address.

Address suggestions to The Okanagan Lake Boat Co., care of the Summerland Review, and mark "Contest" on the envelope.

Contest will close at noon of Saturday, February 15th. No executive or employee of the Boat Co., or their relations, are eligible in this contest.

Names of winners and their selections will be published in this paper one week after close of contest.

Okanagan Lake Boat Co., Naramata, B.C.

Local News Items

W. J. Robinson spent Wednesday at Peachland, going and coming by Str. Okanagan.

Mrs. Chas. Hatfield of Kaleden is visiting at the home of her son, B. L. Hatfield.

A carload of apples was shipped from the local packing house to Edmonton this week.

Excavations have been made preparatory to the building of a bungalow for S. Angove, on his lot next to Dr. Smith's.

C. A. Marshall spent much of this week with friends at Kelowna. Mr. Marshall is no longer connected with the local meat market.

Mrs. Fred Baker came in on the boat on Thursday night. It is understood that Mr. Baker has rented the Elliott cottage near Mr. Hayes, and will reside here permanently.

W. R. Shields, who has been running a branch blacksmith shop at Naramata, has recently sold that part of his business, a blacksmith from one of the railway camps being the purchaser.

Some forty friends surprised Fred Anderson at his home in Peach Orchard on Thursday night. The ladies went well supplied with provisions, and a pleasant evening was spent in dancing and games.

The anniversary service of St. Andrew's Presbyterian Church, West Summerland, will be held on Sunday, March 23rd. Rev. Principal Mackay, D.D., of Westminster Hall, Vancouver, will conduct the service.

The annual Young People's Day service of the Presbyterian church will be observed in St. Andrew's Church, West Summerland, next Sunday evening. The printed service prepared by the Assembly's Committee will be used that evening.

A. L. Moreland left for Kelowna on Monday morning where he has accepted a position. Whether Mr. Moreland will permanently reside in Kelowna could not be learned, but it is understood that his family will not remove there for the present at least.

The first of the railway camps in this part of the construction work to close is No. 17, which completed its section and closed last week. No. 5, operating from Trout Creek toward the station site is expected to finish next week. It is probable that all road-bed work will be completed in April, when the laying of ties and steel will commence.

A most exciting game of basketball is promised for to-morrow (Saturday) night. These games are being played for the Rowley Cup, and up to the present the two games played have been won by Summerland. The College boys, however, are confident of victory, and will do their utmost on Saturday night in the College Gymnasium to turn the score.

The third cold spell of the winter came down upon us early this week bringing the mercury down to the zero point again. The cold weather was accompanied by a strong north wind which made navigation on the lake very unpleasant. The seas were running so high at Naramata that the ferry found it impossible to make her moorings and stayed at Summerland overnight instead.

A meeting of the local shareholders of the Okanagan Fruit Union was held on Tuesday afternoon. The meeting was a private one, but it is understood that the management came in for much criticism. A long list of pertinent questions were prepared and forwarded to the head office, with the request that the manager and directors, who are expected to visit here shortly, would come prepared to answer the questions submitted.

The Okanagan Telephone Company is making a most determined effort to gain support to its application for increased powers from the Board of Trade of the upper Valley. Manager Dobie addressed the Boards of Trade at Salmon Arm, Enderby and Armstrong, and the company have been successful in getting a resolution through the Vernon Board of Trade, supporting its telegraph project. The meeting, held on Wednesday afternoon of last week, was a hurried one, and the resolution was championed by Mr. Hankoy. How representative a gathering was present has not been learned.

Miss Jean Harvey of Kelowna is visiting Mrs. Jack Conway.

BORN—At Summerland Hospital on Wednesday, February 5th, to the wife of R. G. Tait, a daughter.

Mrs. M. Campbell has again come back to her usual good health after an attack of the grippe.

Two inspectors of the Canadian Bank of Commerce paid the local branch an official visit this week.

Mr. and Mrs. Alex. Grieve, and two children, of Penticton, spent Sunday last at the home of Mr. Grieve's mother here.

Miss M. Spencer, who has been confined to the house for several weeks, suffering from blood poisoning, is now quite well.

Mr. Jas. Ritchie has just cabled that he will be detained in London for some little time yet. He mentions that in London he bought a box of Kelowna apples for \$4.00.

Miss Jean Bannon, who left for Calgary early in the year, was married on January 31st to Mr. McCann, who recently arrived in that city from Glasgow, Scotland.

Reeve Thomson went out again on Wednesday morning, and will be away from home until Saturday night. His business takes him to Salmon Arm, and possibly further.

Mr. and Mrs. P. S. Wood, who have been occupying Mr. Stark's new cottage on Beach Avenue, have taken rooms at Hotel Summerland. Mr. and Mrs. Stark have been occupying the house since the first of February.

D. P. Simpson of Simpson & Grieve has sold his interests in the business to H. H. Elsey. Mr. Simpson arranged last fall to go to one of the towns in the upper Okanagan this spring, and will leave here shortly to take up his new duties. Mr. Elsey was at one time engaged in the meat business in Ontario.

An article in last week's Review was inadvertently headed "Overseas Ambulance Society." While the text of the article was clear yet this caption might be wrongly interpreted. While the Overseas Club with others is instrumental in organizing a "centre" here of the St. John Ambulance Association, it should in no way be inferred that the membership of the Association is to be confined to the membership of the Overseas Club.

Miss Gertrude Angwin was the cheerful little hostess of twenty youthful guests on Saturday. Her company of little folks enjoyed a sleigh drive up Prairie Valley, chaperoned by Misses Hurschmann and E. H. Sawyer. They had quite an exciting time when the traces became loosened and the horses ran into a tree. None were hurt, however, and the jolly crowd returned home in time to enjoy a hearty supper, and spent the evening in games.

Another rough game of hockey was played last Tuesday evening at the Giant's Head rink, this time between Penticton and Summerland. The score was 3-3. There were three 20 minute games, and as the playing advanced and neither side gained an advantage the playing became pretty rough, keeping the referee busy. At one time no less than four men were on the fence, three of the Penticton team and one of Summerland's. One member of the visiting team suffered a broken nose.

The regular monthly meeting of the Brotherhood will be held next Tuesday evening at eight o'clock in the West Summerland Baptist Church. The subject of the evening will be "Temporance—A Challenge to Men," opened by an address from Principal Sawyer. This will be followed by an open discussion. Refreshments will be served. While the weekly meetings of the Brotherhood are not largely attended the monthly meetings have become quite popular, and a large attendance is looked for.

Our readers will be glad to learn that the Hon. Price Ellison, who was reported to have been suffering from an attack of appendicitis, has recovered without the necessity of an operation. The Minister of Finance and Agriculture is again able to attend to his parliamentary duties. Evidently his illness was not as serious as was first reported.

SHILOH
quickly stops coughs, cures colds, and heals the throat and lungs. 11 25 cents.

SUMMERLAND SKATING CLUB CARNIVAL.

A most enjoyable evening was spent by the large crowd which attended the Summerland Skating Club's Fancy Dress Carnival, held at the open air rink, West Summerland, on Saturday evening last. Weather conditions were ideal, the night being perfectly still, with just enough frost to maintain the ice in good condition.

About fifty skaters were present in fancy costume, the winners of the first prizes being Miss M. Higgin as "Minnehaha," and Mr. W. Sauter as "Tramp." The prizes were awarded by popular vote and presented by Mrs. C. J. Thomson. Other costumes greatly appreciated by the voters were Miss Cartwright as "Pierette," Mr. and Mrs. May as "Bulgarian Peasants," Mr. Neve as "Farmer Brown," Miss D. Cooper as "Teddy Bear," and the Misses Thomson as "Gipsy Queens" and "Highland Lassie."

The matter of lighting was entrusted to Messrs. W. H. Milligan and R. V. Agur, and much of the success of the evening can be attributed to the good results of their able management; a dozen flares and three powerful gas lights supplying ample illumination. Refreshments were served throughout the evening to well over one hundred people. Gramophone music added greatly to the pleasure of those present.

Great credit is due Mr. W. H. Snow for his untiring efforts to build up and keep the club rink in first-class condition during the skating season.

We would point out that this rink is 200 ft. long by over 100 ft. wide, and one would probably seek in vain for a better and larger sheet of ice elsewhere in the Okanagan Valley.

Kaleden Comments

Miss McLaughlin is staying for a time at the home of Mrs. T. C. Preston.

Mr. Russel Grant has returned from Marron Lake, and is teaming for Mr. Corbett.

The frame of the Baptist Church is completed, and it is hoped before long to have it ready for the opening services.

The Women's Mission Circle was held at the home of Mrs. Louis Kerr on Wednesday, the fifth, Mrs. O. E. Tomlin in the chair.

Mrs. Wm. Simpson has been sick for the past three weeks, but we are glad to report favorably, and to see her back again in our midst.

Mr. and Mrs. Rourke, with their son Carl, have removed into the cottage that has been recently erected by Mr. James Harrison.

A bungalow is being built on the benches by Mr. Foss, who is at present in the East, but whom we hope to welcome back again shortly, with his bride.

There is a great deal of ice being cut here this year. The lake presents quite a busy scene with the different operations going on, and many are enjoying very good skating, which helps the cold season to pass pleasantly.

A third and lower road is being built between here and Penticton which will cut off the very long and steep hill on the upper road, and will make travelling much easier for all who journey that way. It is said also to shorten the distance.

The Young People had an enjoyable sleigh ride on Tuesday, the 4th, after which about twenty assembled at the hotel, where an excellent hot dinner was served. Everyone was in excellent spirits, and a very happy time was spent.

The annual meeting of the Woman's Club was held at the home of Mrs. Rourke on Wednesday, Jan. 29th, when the election of officers for the ensuing year took place. To the regret of all the members, Mrs. D. D. Lapsley retires as president, and a new president was elected. In future the meetings will be held on the third Wednesday in each month.

Fruit picking is recommended as a pleasant and healthful exercise for women. It is a vocation that should not be undertaken without a thorough knowledge of the different varieties. The original woman got this poor old world into a whole lot of trouble by insisting on picking a forbidden apple in the Garden of Eden.—Province.

Time is ours to make what use of it we will—but it bows not to our will.

ST. ANDREW'S SOCIETY OF SUMMERLAND.

A meeting of the above society was held in Campbell's Hall, West Summerland, on Friday, January 31st. The business transacted being chiefly in connection with the final organization of the society and forming by-laws for the working of the same.

In addition to the officers already appointed Wm. Ritchie was elected as second Vice-President; Dr. McIntyre and G. W. McLaren, Auditors; John Steuart, Financial Secretary; J. J. Mitchell, Standard Bearer; and L. C. Quipp, Warden.

It was agreed to alter the age limit for joining the society from 18 to 16 years of age. It was also decided that meetings be held twice monthly, first and third Monday of each month. All Scotsmen, or men of Scotch descent, are invited to become members and send in their names to the secretary, or, better still, come to the next meeting of the society which is to be held on Monday, the 17th inst., in Campbell's Hall, West Summerland; when the members plan having a social evening. There are now over fifty members enrolled.

Alex. Smith, secretary.

Peachland Notes.

Rumors are afloat that Mr. F. Calendar has exchanged his property here for a house and lot in Vancouver.

Mr. and Mrs. Jas. L. Elliott are receiving congratulations on the advent of a fine little baby daughter, which event occurred on Monday.

A number of the young friends of Miss Olive Gummow, learning that Saturday was her birthday, gathered in her house that evening, armed with all the requisites for a surprise party, and after a few hours enjoyably spent, dispersed with best wishes for many returns of the day.

Mr. H. Hardy, following the precedent established by the former reeves of Peachland entertained the present and former Councils, the present and former school boards, and other town officers, at a banquet held in the home of Mrs. A. D. Ferguson, who catered for the occasion.

PEOPLE'S TRUST COMPANY.

Makes Assignment.

The People's Trust Co., with headquarters in Vancouver, to which city they were recently removed from New Westminster, has assigned. This financial institution has ten branches established throughout the Province, the Okanagan branch being at Penticton. The Trust Co. did a general banking business, receiving deposits. It is reported that depositors will not suffer other than inconvenience caused by their funds being tied up awaiting the winding up of the business. To what extent the shareholders will lose is not known, but it is said that their loss, if any, will not be great.

THE WORST CALAMITY.

The very worst calamity, I should say, which could befall any human being would be this—to have his own way from his cradle to his grave; to have everything he liked for the asking or even for the buying; never forced to say: "I should like that, but I can't afford it; I should like this, but I must not do it." Never to deny himself, never to exert himself, never to work and never to want. That man's soul would be in as great danger as if he were committing great crimes.—Charles Kingsley.

MARRIAGE ANNIVERSARIES.

The celebration at the expiration of the first year is called the cotton wedding; two years, paper; three years, leather; five years, wooden; seven years, woolen; ten years, tin; twelve years, silk and fine linen; fifteen years, crystal; twenty years, china; twenty-five years, silver; thirtieth year, pearls; fortieth year, rubies; fiftieth year, golden; seventy-fifth year, diamond wedding.

"See here!" exclaimed the angry man, "I wish you would muzzle that dog of yours at night. His barking keeps my baby awake." "I was just going to request you to muzzle your baby," rejoined the neighbor, "His nightly howling annoys my dog."

BUSINESS LICENSES.

Business licenses were discussed, and there was apparently a majority in favor of doing away with it entirely, it being found hard to treat all alike, and that the outside man who really should pay was getting off free. The outside salesman should be charged \$50, but the constable had not yet been able to get any of them. They came in, gathered up their orders, and were away before discovered. However, when it was shown how much this meant in lessening the revenue, it was decided to retain the trade license and the dog tax as well. Speaking on this Coun. Robinson claimed the idea of the business license was that of protection to the regular business house. It offered no protection, however, neither against the outsider nor the man living on his lot doing a casual business. He urged that the constable get after the outsider.

The Keeve thought it advisable to do away with impounding of cattle, and instead fine the owners for infringement of the by-law.

E. C. Graham was appointed Municipal constable and Sanitary Inspector, to which duties he will give all his time. He will be paid a regular monthly salary of \$75. He will attend to the enforcing of the dog tax, business license, etc. In addition to his regular duties it was also decided to require from the constable, and from the Police Magistrate a monthly report, and that all fines and costs should be handed over each month.

RATES AND TAXES.

The question of tax rates came in for much consideration. The Reeve thought that depreciation should be charged against the electric light plant instead of general rates.

The electric light rate will probably be left as it is. Coun. Robinson, who is probably the biggest user, advised holding to the present rate until the installing of the auxiliary plant, when, if it were found more than self-sustaining, a reduction in rates might be made.

It was pointed out by Coun. Lewes that as, unless the debentures were marketed, there would be no extension work this year, all the overhead charges, such as Superintendent's salary, office expenses, etc., would be added to the current expenses, making a greater demand on the general rate.

LIGHTING PLANT.

The hours of running the electric light plant were considered, and a schedule which had been drawn up by the office on similar lines as last year were considerably revised, making the starting time earlier and continuing later in the mornings, as well as giving all night service later in the spring than had been arranged. A proposition which will be submitted to Mr. Thornber by the Superintendent, gives him less broken hours of service than during the past year.

Coun. Lewes said that he would like it made known through the press that the Council would like to have any complaints to them made in writing and sent to the Municipal Office. As Chairman of the Public Works Committee he proposes that that committee meet once a week, and these letters could then be taken up by that committee, and all information bearing on the subject obtained, and the whole matter could be placed before the Council. Heretofore these complaints were held until the Council met and were then referred frequently to the Public Works or other committee, causing unnecessary delay.

The tax rate for the current year was not struck, and probably will not be for some time. The School Board will require 4 mills, and debenture interest and sinking fund 4 mills. Further details will be worked out before deciding on the general rate.

The Council will have little money to spend until May, when taxes will be due.

The Superintendent, with the Public Works Committee will go over the roads etc., to ascertain what will be needed. Chairman Lewes of that committee will have the Superintendent prepare a report of work done, and the next month's needs. He had already had a record book prepared in which all work ordered by the Council will be recorded. This will show the date, the authority, description of work ordered, date due, etc.

The Superintendent was ordered to have the trees mentioned by Mr. Simpson cut down.

It was reported that a harness room had been added to the Municipal stables.

Coun. Lewes was appointed to act as Reeve during any absence of Reeve Thomson.

It was decided to hold the regular meeting of the Council on the second Tuesday in each month. As the Clerk will be absent next Tuesday the regular meeting will be held, for this month, on this (Friday) afternoon for passing of accounts, etc. After sitting all day, with only a short interval for lunch, the Council adjourned.

APPLES GOOD.

The following testimonials on the quality and pack of apples sent to England by private citizens of Summerland have been received:

"The apples arrived safely before Christmas, but we were very busy and I did not look over them till after Christmas. They arrived in splendid condition, and were very well packed. This year has been an exceptionally good one for English apples, which makes apples cheaper than is generally the case. The market price of these is 6s. 6d. per case. These are what they call Winesap, they are only a second-class apple, but in an ordinary year they would fetch 7s. to 8s. a case."

"This will be the first letter to you this year to congratulate you on the success of the apples, the packing especially, as I don't think there was one damaged one in the two cases we opened, and I have now seen Mr. Bayliss and he says the packing and condition of the fruit was good, and is sorry the market was so bad for them this year, owing to the glut of English apples. He told me the price he sent was a bit over the market price, but he was very pleased with the fruit. He only got them on Christmas Eve so did not have time to open them for Xmas, and he tells me they are not the best apples in this market, the New towns fetch the most money. I am sending you the market list and his letter so that you may see what he says about them."

EQUALLY APPLICABLE HERE.

The report of the Sheffield (Eng.) Shelter for Lost Cats has some very sensible suggestions, which, slightly rearranged, could be made for dogs as well, and are worthy of consideration. The second paragraph if applied to the dog would bring comfort and relief to many a neighbor:

"Unless your cat be of value, never keep more than one kitten out of each litter. The supply of cats far exceeds the demand."

"Try to keep your cat in at night—if not in the house, in a shed or stable with some warm bedding. It is better for the cat, and certainly much more considerate to your neighbors."

"Do not keep your cat short of food in the hope that it will catch more mice if hungry. A well-fed, happy cat makes the best 'mouser.'"

"If you have a cat or a dog, or indeed any animal, be sure there is always some fresh water which it can get at easily. Great misery is often caused by thirst."

"When you leave home always make arrangements for your cat to be fed and housed during your absence, and never be so cruel as to deliberately abandon it."

WORKING UP TO IT.

Sandy and his lass had been sitting together about half-an-hour in silence.

"Maggie," he said at length, "wasna I here on the Sawbath night?"

"Ay, Sandy, I daur say you were."

"An' I was here on Tuesday night, an' Wednesday night, an' Thursday night, an' Friday night?"

"Ay, I'm thinkin' that's so."

"An' this is Saturday night, an' I'm here again?"

"Well, what for no? I'm sure ye're very welcome."

"Maggie, woman," said Sandy in desperation, "D'ye no begin to smell a rat?"

HAPPY THOUGHT.

A boy under six years of age was bemoaning to his mother the escape of one of his white mice, which had disappeared in a hole in the floor of his nursery, but a happy thought struck him, and he seemed reconciled to his loss, as he remarked quite cheerily to her: "Oh, mamma, won't it go amongst the black mice just like a missionary to the black men?"

SYNOPSIS OF COAL MINING
REGULATIONS.

COAL MINING RIGHTS of the
Dominion, in Manitoba, Sas-
katchewan and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the
Province of British Columbia, may
be leased for a term of twenty-one
years at an annual rental of \$1 an
acre. Not more than 2,560 acres
will be leased to one applicant.
Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.

In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.
Each application must be accom-
panied by a fee of \$5 which will be
refunded if the rights applied for
are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.

The lease will include the coal
mining rights only, but the lessee
may be permitted to purchase what-
ever available surface rights may be
considered necessary for the work-
ing of the mine at the rate of
\$10 an acre.

For full information application
should be made to the Secretary of
the Department of the Interior,
Ottawa, or to any Agent or Sub-
Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this adver-
tisement will not be paid for.

*Scribbling Pads may be obtained
cheap at the Review office; made
from sheets of good paper.*

HUGE PRESBYTERIAN ASSEMBLY.

Plans Under Way For Biggest Event
in Religious Life of Continent.

Winnipeg, Feb. 3.—Provided
that the remaining details can be
satisfactorily arranged, the Presby-
terian Church in Canada will hold
a General Assembly in 1913; to
which there has been no parallel in
the religious history of this conti-
nent. Each year the church has
held an Annual Assembly at which
there have been gathered about 15
per cent. of the ministers of the
country, and a few laymen. This
year it is proposed to bring
together in the City of Toronto
every minister in Canada, from the
Atlantic to the Pacific. Every
Presbytery from Nova Scotia to
British Columbia will be transported
in its entirety to Toronto, and the
members will meet in that city.
The ministers of every city church,
and every home missionary in the
service of the denomination, will
make the journey. In addition to
the ministers, the wife of every
minister in Canada will accompany
her husband to Toronto, and will
join in the meetings held there
under the auspices of the Women's
Home Mission Society and the
Women's Foreign Missionary
Society. Incidental to the gather-
ing there will probably occur a
merging of these two women's
organizations in one body. In
addition to the ministers and their
wives, there will be taken to
Toronto a representative from
every city congregation, country
congregation and mission field in
the Dominion from coast to coast.

VARIETY ENTERTAINMENT.

(Crowded out of last issue).

In spite of the somewhat inclem-
ent weather a large crowd turned
out to the variety entertainment
in the Empire Hall on Thursday
evening, 23rd ult. Both parts of
the program opened with an
instrumental quartette by the
Misses Higgin and Mr. Thomas,
which were much enjoyed. Mr.
Bentley who followed was loudly
encored, and Mr. T. F. Knox con-
vulsed the house both before
and after the interval with his
amusing impersonations. The first
part closed with a short play
entitled "Waterloo," in which Mr.
Sauter took the part of Corporal
Brewster, an old Waterloo veteran.
We have seen Mr. Sauter in many
different roles and we may safely
say that he surpassed himself in the
representation of the old childish
soldier, at one moment crying over
a broken pipe and at another carried
away with military ardour while
describing the battle to the colonel.
The final scene when he lived over
again the heroic action which had
made his name famous, and then
died, was especially realistic. The
minor parts were excellently
played by Miss Higgin, Mr. Hook-
ham and Mr. Fosbery.

During the half hour interval
coffee and cakes were served by
the ladies of the Anglican Church. In
the second part Mr. Milligan was
encored for his song, "I Fear no
Foe in Shining Armour," especi-
ally as at the end of the song, the
"Foe in Shining Armour" appeared
in the shape of Edward Logie, who
speedily reduced him to a cowardly
craven, and draws him trembling
off the stage. A short musical
sketch sung by Mr. Bentley caused
much amusement. The Three Fair
Maids of Lee were charmingly
represented by the Misses Cart-
wright, Cooper and Young; but
when they turned round and showed
their appalling ugliness, as the
"Three Old Maids," the epithet
"charming" was no longer appro-
priate! Mr. Stanley was unfortu-
nately absent owing to a bad cold.
Mrs. Fetherstonhaugh and Mrs.
May gave an amusing little dialogue
entitled "The Geese," evidently
meant to show the evils of cherry
brandy. The entertainment was
brought to a close with the "Camp
Fire Scene," in which Mr. Sauter
gave two excellent readings, and
Messrs. Fisher, Smith, and Hook-
ham sang some charming quartettes.
Miss Barthen Mason kindly accom-
panied some of the songs. God
Save the King brought a most
enjoyable evening to a close.
The proceeds amounting to over
\$100 will be a great help towards
purchasing the piano.

HE ADVERTISED AT LAST.

There was a man in our town,
And he was wondrous wise;
He swore (it was his policy)
He would not advertise.
But one sad day he advertised,
And thereby hangs a tale,
The ad. was set in quite small type,
And headed, "Short's Sale."

BARGAINS
FOR
Review Subscribers

REALIZING that the Home Paper cannot fill all the
need for Reading Matter, we have compiled a
List of [in our opinion] the most helpful and practical
Publications which we are offering our Subscribers in
clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1

Vancouver Daily Province	- \$3.00
Better Fruit	- 1.00
The Review	- 2.00—6.00
The three for \$5.00	

BARGAIN No. 2

Canadian Courier	- \$3.00
Canadian Horticulturist	- .60
The Review	- 2.00—5.60
The three for \$4.60	

BARGAIN No. 3

Vancouver Daily Sun	- \$3.00
Country Life in America	- 5.00
The Review	- 2.00—10.00
The three for \$8.00	

BARGAIN No. 4

Canadian Horticulturist	- .60
Canadian Poultry Review	- .50
The Review	- 2.00—3.10
The three for \$2.70	

BARGAIN No. 5

The Busy Man's Canada	- \$1.00
World's Work	- 3.60
The News-Advertiser, Daily	3.00
The Review	- 2.00—9.60
The four for \$7.00	

BARGAIN No. 6

Winnipeg Telegram	- \$2.00
(or Free Press)	
B.C. Saturday Sunset	- 2.00
Canadian Magazine	- 2.50
The Review	- 2.00—8.50
All four only \$6.60	

BARGAIN No. 7

World Wide	- \$1.50
Farmers' Advocate	- 1.50
Free Press, Weekly	- 1.00
The Review	- 2.00—6.00
The four for \$4.75	

BARGAIN No. 8

British Columbia Magazine	- \$1.50
Toronto Mail and Empire	- 1.00
Farmers' Advocate	- 1.50
The Review	- 2.00—6.00
All four for \$4.50	

BARGAIN No. 9

Calgary Herald	- \$3.00
Collier's (Canadian Ed.)	- 5.50
The Review	- 2.00—10.50
The three for \$8.90	

BARGAIN No. 10

Vernon News	- \$2.00
Toronto Saturday Night	- 3.00
The Review	- 2.00—7.00
The three for \$5.85	

BARGAIN No. 11

Canadian Pictorial	- \$1.00
Windsor Magazine (13 mos.)	3.25
The Delineator	- 2.00
The Review	- 2.00—8.25
The four for \$5.75	

BARGAIN No. 12

Rod and Gun	- \$1.00
Poultry Review	- .50
Nor'-West Farmer	- 1.00
The Review	- 2.00—4.50
All four for \$3.90	

BARGAIN No. 13

The Garden Magazine	- \$1.85
Canadian Courier	- 3.00
The Review	- 2.00—6.85
The three for \$5.75	

BARGAIN No. 14

Weekly Edition of either—

The Province	-
Calgary Herald	-
Winnipeg Telegram	-
Winnipeg Free Press	-
Family Herald and Weekly Star	-
Toronto Mail and Empire (and Borden Picture) or	-
Montreal Witness	- 1.00
Canadian Sportsman	- 2.00
McLean's Magazine	- 2.00
The Review	- 2.00—7.00
The four for \$5.40	

If none of these combinations suit you, make up one to your liking, and we will quote you a price on the selection.

We are also Subscription Agents for—

The Ladies' Home Journal	- \$2.00	Country Gentleman	- \$2.25
Saturday Evening Post	- 1.50	The Fruit Magazine	- 1.50
Successful Poultryman	- .50		

These Offers are for old or new Subscribers. If present Subscribers are in arrears it will be necessary to pay to date before these Bargains become available.

THEN SHE WAS MAD.

"John, you never listen to half
the things I say to you," she com-
plained. "Well, dear," he replied,
"I have to work part of the time."
—Chicago Record-Herald.

Mrs. Youngbride—I've come to
complain of that flour you sent me,
Grocer—What was the matter with
it? Mrs. Youngbride—It was
tough. I made a pie with it, and
it was as much as my husband
could do to eat it.

"Do you have any trouble in
keeping your boys on the farm?"
"No," replied Farmer Corntossel.
"They're willin' to stay. The only
difficulty is that they all want to
net like boarders."

Snaggsey—"Beg pardon, mister;
I'm a stranger in dese parts—"
Farmer Harrow—"Well, I dunno
of anybody that wants to git
acquainted with ya." (Turns
away).

In the Bahama Islands, which
were settled more than 200 years
ago by Londoners, the Cockney
dialect is said to be as strong as it
is in Chopside.

College Notes.

Next Sunday evening Superinten-
dent Estabrook will give the
address at the evening service in
the College chapel at 7 p.m.

The hockey match reported last
week between College juniors and
Penticton should read Summerland
v. Penticton. The juniors are quite
indignant for they are of the
opinion that they are a match for
the southern team.

A change has taken place in the
Y.M.C.A. W. M. Armstrong, who
proved himself an able president,
has left our midst to work in the
mission field in Alberta. He is
succeeded by J. Marshall. The
meeting on Tuesday was addressed
by the new president.

The basket-ball match announced
for to-night between Summerland
and College will be played in the
College Gymnasium to-morrow
(Saturday). The score of the last
match reported as 13-8 in favor
of the College should be 13-8 in
favor of the Town team.

The usual Sunday evening service
was held in the College Chapel.
The program took the form of a
sacred concert. Prof. W. H. A.
Moore and Miss E. H. Sawyer were
the soloists. Miss G. Hurschmann
presided at the piano, while Prof.
R. P. Baker gave a selection on the
violin.

The academic students are now
all suffering from the grip. The
technical name for this malady is
mid-year exams. It is a pitiful
sight to see so many young fore-
heads furrowed with worry. The
cause of the worry undoubtedly is
the fact that the ice is reported to
be in good shape and students are
not allowed out at nights.

BASKET-BALL.

This great indoor game, had its
origin in the fertile brain of Dr.
James Naismith of Montreal, who
was a classmate of Physical Director
McLeod at the Physical Training
School in Springfield, Mass. The
game won instant popularity, which
it has retained through the years.

It is played all around the world.
Many fast and exciting contests
have been played in Summerland
between the Town and College
teams in which the latter has
generally proved victorious. This
year a fine cup has been donated
by Mr. Rowley. The reorganized
Town team is making a determined
bid for the honors, the score at
present standing 2-0 in their
favor. It must be remembered,
however, that both games were
played in the Town gymnasium, and
therefore affords no criterion as to
the final result. Both teams seem
confident of final victory. The
game on Saturday night in the
College gymnasium will no doubt
be a hummer. "Frenchy" Dupont
and "Punch" Elliott will captain
teams representing the "bean-
eaters" and "hill-climbers." The
senior teams will be as follows,
viz.: College—Alex. McDougall,
centre; Jasper Wolverson and Ed.
Armstrong, guards; F. Hayward
and Nicholson, forwards; J. Reece,
spare. Town—Cliff McWilliams,
centre; J. McLeod and Ralph
Brown, forwards; Fred Baker and
J. F. Glenn, guards; E. Fitten,
spare. The junior game will begin
at 7.30 and the senior at 8 o'clock.

SUMMERLAND HOSPITAL.

Following are the donations
received at the Hospital last
month:

Mrs. F. A. C. Wright—mince
meat, eggs, and old linen.
Masonic at Home—cakes.
Mrs. Downton—preserved fruit.
Mrs. R. H. Steuart—tea towels
and preserved fruit.
Allan Agur—box apples.
R. G. Tait—box apples.
Mrs. R. M. Ross—jam.
Mrs. McLellan—bottled fruit.
The Jap who lost his hand in the
Garnett Valley Mill is still in the
hospital. His condition is reported
as satisfactory.

THE DEAR, DEAR PAST.

Wife—"I came across some of
your old love letters to-day. How
you loved me, Harry!
Husband—"Yes. Is supper
ready? I'm awfully hungry."
Brooklyn Citizen.

An afternoon tea was held at the
home of Mrs. E. B. May on Tuesday
afternoon. The receipts go toward
the organ fund of St. Stephen's
Church.

Naramata Notes.

The Mesdames Manchester spent
last Friday in Penticton.

Mr. George Nuttall, who has been
working at Blair's Camp, is home
for a short time.

Miss Gordon will be able to move
into her small home on her fruit lot
the end of this week.

Mr. and Mrs. I. T. Woodley of
Moose Jaw have been spending a few
days with their niece, Mrs. Davies.

The school children were dis-
missed on Wednesday because it
was impossible to heat the school
building sufficiently.

Mrs. Dean Walters is improving
rapidly, and expects to assist Mr.
Walters in giving the music for the
next dance of Feb. 14th.

Mr. C. R. McDonald, who has
been appointed as Police of Nara-
mata, arrived last Saturday night,
and has rooms with Mrs. Davies.

Mrs. J. R. Wells will be pleased
to receive the ladies of Naramata
on Wednesday afternoon, February
the 12th, from three to six o'clock.

Mrs. Robert King is on the sick
list. Miss Gordon, who has done
considerable nursing, was called in
last Friday. Mrs. King was report-
ed better the first of the week, but
later suffered a slight relapse.

The Unity Club will hold its next
meeting in the Club building on
Thursday, February 13th, in order
not to conflict with the arrange-
ments to be made for the dance of
the 14th, under the club's super-
vision.

Naramata citizens are glad to
welcome the new blacksmithing
establishment. Mr. Danoldson, who
has been employed at Hildebrand's
construction camp to do the black-
smithing there, has bought out the
business of Mr. Shields who used
to come occasionally from Summer-
land to do that work. Mr. Danold-
son is efficient in his line, and local
men are glad to have a shop that is
open every day of the week.

A committee, appointed at the
meeting of the Ladies' Aid last
week, is now busy collecting old
magazines and papers to be sent
up to the railroad camps. The men
greatly appreciate the reading mat-
ter, and the committee will endeavor
to collect each week and try to
visit each home. A sick committee
was appointed at the same time,
and twice each week will visit the
men who are sick in the Kettle
Valley Hospital, besides visits to
friends who may be sick.

A PLEA FOR THE FARMER.

Hon. Martin Burrell's speech
when introducing his bill to
appropriate \$10,000,000 for educa-
tional work along agricultural lines
shows much of the character of the
man.

"On this side of the House and
on that there are many men who
either know by experience the
farm life of our country, or whose
fathers or forefathers have toiled on
the land. It is well for all to keep
in vision that solitary figure in the
distant furrow, that stooped form
tending the hearth of the isolated
home—symbols and types of our
national necessities; our national
virtues and our national strength.
Here between these four walls we
sit year by year making the laws
of our country. We do it, sometimes
well, too often attaching impor-
tance and permanence to that which
is neither permanent nor impor-
tant. Our laws would be better—
there would be less bitterness in
our strife, if we were oftener
moved by a sincere desire to lighten
the lives of those who, in the
silence and solitude of the fields
and woods, are doing the foundation
work of our common country."

Don't traduce your enemies. It
won't help you any—and then you
may want to use them to-morrow.

Despite the latest invention of
smokeless and noiseless powder,
Cupid still sticks to the bow and
arrow.

Mary had a little lamb
But when she heard the price,
She sent the waiter back again
And took a bowl of rice.

"Our college won." "They did?
Rah! Rah! Rah! What did they
win?" "The debate." "Oh,
pshaw!" — Louisville Courier-
Journal.

If men want to beat women's
suffrage, they should put a provision
in the law that in order to exercise
the privilege of voting the women
must take oath to being over 25.

WE are now busy with our annual
stocktaking, but our customers
may expect during this month of January
GREAT BARGAINS

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 29

SUMMERLAND, B.C., FEBRUARY 14, 1913.

Whole No. 237

Man Drowned at C.P.R. Wharf.

Fell Between Steamer and Dock.

Was In Water Twenty Minutes. Large Crowd Witnessed Fatality.

A most distressing accident occurred at the C.P.R. dock on Wednesday night, immediately after the arrival of the Okanagan. There was quite a large crowd at the wharf to meet the boat and among them a Norwegian railway navvy, who was considerably under the influence of liquor, but in care of some friends. Some of the latter, who had been guiding him, released their hold, and in staggering about the wharf he suddenly reeled toward the front, and stumbling over the cap went down between the wharf and steamer, about midway between her bow and gang plank. This occurred about 6.45. The deceased, Martin Bartness, a former Norwegian fisherman, was, according to his friends, an excellent swimmer. Immediately the cry of a man overboard was raised, a life buoy was thrown to him from the steamer, and poles and other appliances reached down to his assistance. Some of the citizens on the wharf volunteered to jump over with a rope about them but were pushed back by the steamer crew. After it was found that the methods being used were of no avail Constable Graham hurried along the shore and got a boat and went under the wharf, where he was closely followed by a boat lowered by the steamer. In the meantime C.P.R. Agent Ross had telephoned for Dr. Andrew.

found on the bottom, almost under the opposite edge of the wharf. Dr. Ker of the K.V. Railway, who was on the steamer, assisted in giving first aid, and work of resuscitation was continued for two and-a-half hours. Liquor was no doubt directly the cause of his death. Though a good swimmer, he seemed incapable of taking care of himself, and the physicians say that had he been sober he could have been revived after being recovered from the water. The accident points out the need of having life-saving appliances at the dock ready for immediate use. Several circumstances hindered the quick recovery of the man from the water. It was dark, there was nothing to indicate where he was, and little room in which to work. It was thought inadvisable to remove the steamer as in so doing the water would be churned up and the body might be sent some distance from the place in which it was supposed to be. There was some considerable criticism of the apparent delay in lowering a boat, but others present say that everything possible was done.

Coroner Andrew considered an inquest unnecessary, and issued a burial permit. Interment was made this afternoon, a number of the deceased's friends contributing toward the expense.

Double Elopement Causes Sensation.

Summerland Parties Give Friends a Surprise.

Parents of One Girl, a Minor, Ask Police Assistance.

The news that a double elopement had been carried out on Thursday evening spread rapidly that night, and created no small sensation in the quiet life of Summerland. The eloping parties were A. A. Derrick, and Miss Ruby Forman; R. H. Rudd and Miss Van Hise, the adopted daughter of W. E. Van Hise. Rudd had, some weeks ago, negotiated to buy the Reo automobile from W. J. Robinson, and has had it in his possession for some time, and it was in this car that the "get-away" was made. It is said that the party left here about four o'clock in the afternoon, continuing directly to Oroville, and the first intimation of the elopement was a note left by Miss Foreman to her parents in which she stated that she would return in about fifteen days. Seemingly no immediate attempt was made to head off the runaways. Though friends heard of the elopement about six o'clock no attempt was made till nearly nine o'clock to head them off.

Constable Graham, when requested, telephoned to Penticton and learned that the party had passed through there early in the evening. The case was then put into the hands of the Provincial Police, with a request to intercept the runaways, if possible, before crossing over the line at Oroville. That elopement was pre-meditated on the part of one of the couples at least is evident from the preliminary arrangements that were made. Mr. Derrick's business affairs were put in the hands of A. W. Stanley, to whom a power-of-attorney was given. Already a number of creditors are busy entering claims, and Mr. Stanley, who has been investigating the affairs of the business, is taking stock and preparing a statement. Enquiry as to whether he expected the proprietor to return brought a rather doubtful reply. Enquiry at Mr. Robinson's office also reveals the fact that little or nothing has been paid on the car by Mr. Rudd, and naturally some uneasiness is felt as to whether it will be returned.

Dominion Canners Association, Ltd.

Big Concern With Unlimited Markets May Establish Here

Representative Coming.

All things considered, indications to date are most favorable for the establishment here of a large canning factory. A representative of the big Eastern concern, with whom negotiations have been opened, is said to be planning to visit here shortly. As with the fruit grower, so with the canner, the greatest problem is that of marketing, and it is the advantage that the large concern has in this respect that assures a practically unlimited demand for those lines which they may decide to pack here. One of the first matters which will be investigated by the representative will doubtless be that of supply. The corporation will probably not be disposed to build a cannery for peaches and apricots alone, and the representatives will need a reasonable guarantee of a large supply of other fruits and produce, particu-

larly corn and tomatoes, and it will be well for each rancher to decide what he can furnish in those lines not only this year, but for several succeeding years. At a meeting of the executive of the Board of Trade held on Tuesday afternoon a committee was appointed to learn the probable supply available to the cannery, and in as far as possible each grower will be interviewed by a member of this committee. It will be well, therefore, to have plans formulated so that definite information may be furnished. Later.—Information just furnished the Review is that a representative of the Dominion Cannery Association is now on route, and will look over the field here. Data gathered is, it is claimed, sufficient to warrant erecting a big cannery.

CENTRAL SCHOOL TEACHERS' PROTEST

The teachers of the Central School have entered a protest against the petition signed by a number of Garnett Valley residents, and which was presented to the School Board at its last meeting. Here is their letter to the Board as presented to Chairman Robinson: West Summerland, B.C. February 10, 1913.

To the Board of School Trustees, Summerland S.D., Summerland, B.C.

Dear Sirs,

We have seen the report of the Trustees' Meeting of Feb. 3, as published in the Summerland Review, and there are several charges made which we think we are justified in asking to have explained. A slur has been cast on the teachers, and on the pupils not belonging to Garnett Valley district, as well as on the judgment of the Trustees who hired the teachers. In looking over the signatures to the petition presented by the Garnett Valley ratepayers we find that there are the names of several who have no children. These men have never visited the school, so what knowledge have they of its workings?

The petition stated the "children were not receiving the better education it was claimed they would." This may sound plausible to some, because, when the school was opened, it was found that some of the children had been working in higher grades than their standing warranted, e.g., doing second class work and calling themselves "third class." Of course they had to be graded properly, and, although it appears from the name of their class that they have made no progress, still they have been doing so.

Some of the Garnett Valley children are doing Entrance Class work in this school where "no better education" is received. Dr. Robinson, in one of his reports, said that the Education Department disapproved of Entrance work being done in an ungraded school, as it was always to the detriment of the junior pupils. If the Garnett Valley school were opened these advanced pupils would either have to do without this work or walk to the Central School for it. They are not strong enough to do the latter.

The petition also stated that it was "impossible for the teachers to give sufficient attention to the upbringing of children as regards behaviour, morals, etc." Judging from the language which one of the parents is reported to have used in the meeting, it is evidently necessary that some of the children should have moral training at school to counteract home influence. During school hours the children are kept busy, and they are supervised in their free hours, from the time they come in the morning until they leave at night, before school, at recess, and at noon. If the "moral standing of the Central School" is as bad as one of the petitioners would have us believe, we think we are entitled to ask that specific charges be made, especially when he talks for publication.

The petitioners said that "they hold other reasons which they preferred stating directly to the Inspector." Isn't the Board capable of dealing with these reasons? If not, we hope you have sent for Inspector Denton.

Complaint was made that the children were not allowed to use the stove in the hall. They are free to use this stove before school, at times during school hours, and at noon. Of course, two hundred

Council Meeting.

Short Session Friday Last.

Very little but routine work was done by the Council at its regular monthly meeting held last Friday instead of Tuesday of this week.

The meeting was called to order at 2.30, with Coun. Lewes in the chair, all members being present except Reeve Thomson.

An application from W. C. Kelley for electric light connection for his new stores was referred to the Public Works Committee.

The Public Works Committee recommended the filing of H. H. Elsey's application for irrigation and domestic water until the Council decides what extensions to the services are to be made this year.

A schedule of working hours and rates submitted by the Municipal Office to Messrs. Thornber and Gray for the electric light plant, and accepted by them, was approved by the board.

By-laws No. 44 and 45, the former termed "Temporary Loan By-law 1913," the latter "Water and Light Rate By-law 1913," were given their first reading. The Council then resolved itself into a committee of the whole, and these by-laws were read and reported back to the Council. The Council then gave them their third reading.

After adopting the recommendation from the Finance Committee that the following accounts be paid, the meeting adjourned at the call of the Reeve.

S'land Supply Co., supplies	\$6.42
Angove & Stinson Co. supplies	.50
John S. Ritchie, harness sundries	1.30
Taylor & Co., splicing belt	.50
A. J. Beer, horse blanket	3.75
Wm. Ritchie, lumber	9.89
A. Richardson, roadwork	9.40

Railroads Accused By Fruit Growers

Co-operation Necessary To Put Business on Good Footing

Better Inspection also Badly Needed.—Hon. Martin Burrell Discusses Situation With Agricultural Committee.

Ottawa, Ont., Feb. 10.—The agricultural committee of the House of Commons had a considerable amount of light thrown on the apple trade in general when it called Daniel Johnson, president of the Ontario Fruit Growers' Association, as a witness. Mr. Johnson was clear in his statements, and outspoken in his condemnation of certain conditions which he declared was militating equally against producer and consumer.

The lamentable conditions which prevailed last year, with one-quarter of the apples rotting in Western Ontario, while Western consumers paid exorbitant prices in an ill-supplied market, he analyzed as due to the following conditions:

TELLS OF CONDITIONS.

First—The great lack of co-operative methods among the growers except in a few counties.

Second—Discrimination of Western Railroads in favor of American fruit.

Third—Lack of a proper system of marketing fruit.

Fourth—High freight and express rates from Ontario to the West, with a slow service and no stopover provisions.

Fifth—The use of barrels instead of boxes for packing apples.

The committee was plainly impressed with the testimony of Mr. Johnson, particularly with respect to freight rates West, and it was decided to call traffic officers of the railway commission to explain the discrimination that is charged against Ontario fruit.

MUCH GOES TO WASTE.

Mr. Johnson told the committee that he believed twenty-five per cent. of the apples in Western Ontario would waste this year, while consumer would pay a high price. This, he said, was due to peculiar circumstances. The farmers, he said, got from fifty cents to one dollar a barrel, some more, some less. He instanced the case of a woman in his own country who was offered \$125 for her whole orchard.

She secured admission to a co-operative association and received \$1,035, giving her a profit of about \$700. He believed a central co-operative association would be of great benefit. He believed the central packing house was the system, far ahead of the orchard packing.

Mr. Johnson said he had never had success in shipping apples to England. He had always lost money on such schemes, and he believed the case of other dealers was the same. He believed the English market was a good one, and that something should be done to care for it. The Western market was also a good one, because the Western people were willing to pay the price. They estimated that they were buying sixty per cent. of their fruit from the United States.

POOR FRUIT SHIPPED.

He lamented the amount of poor fruit shipped West.

"I was in the West three years ago," he said, "and I was ashamed to say I was an Ontario fruit grower when I saw some of the fruit that had been shipped out there. I am in favor of inspection at the point of shipment."

Here Mr. Burrell gave warm praise to the work of the Co-operative Fruit Association.

Better transportation rates was one reason why American apples had found such a market in western Canada. For instance, American shippers had a rate of thirteen cents a barrel between Medicine Hat and Winnipeg, while Ontario shippers, paid seventy-nine cents over the same distance.

"We should have co-operative methods in the East," said Mr. Johnson, "and we should have co-operative methods of delivery in the West. American railways encourage the shipment of American fruit in the West, while we suffer from slow transportation."

STOPOVER PRIVILEGES.

Mr. Bowman of Huron thought the railway commission should look into the high rates charged on Ontario fruit in the West. The lack of stop-over privileges was also lamented by members of the commission. Mr. Johnson said thousands of barrels of Ontario apples went to waste because there were no stopover privileges.

"We, of Ontario, are losing the trade of Alberta and Saskatchewan through railway discrimination," said Mr. Johnson. The point with regard to rates which he mentioned led to a long discussion, the general opinion being that the railway commission should take action.

Express rates, said Mr. Johnson, were killing the trade in peaches, plums and tender fruit. The express rate on fruit from Sarnia to Winnipeg was \$2.90 a hundred, while from Forest to Winnipeg, 23 miles less in distance, the rate was \$4.60 a hundred. The express rate on fruit from Forest to Sarnia was 30 cents a hundred. Flour was shipped from Forest to Boston at half that rate. Fruit inspectors should be also in a position to prosecute railways that throw fruit around and make it unmarketable, he held. Good fruit was ruined continually by careless handling.

QUARTER IS WASTED.

"It all comes down to this," said Mr. Johnson: "that one-quarter of the Western Ontario apples went to waste, while the Western consumers were willing to pay high prices. The Western Ontario growers were not organized, and no dealers came to them. Meanwhile we are facing tremendously high freight rates to the West, and the railroads don't supply us with cars. The Grand Trunk actually has less refrigerator cars than a year ago; the C.P.R. has about a hundred more, but there are less refrigerator cars in Canada than ten years ago."

Pilfering, he said, was a serious problem with the express companies. They throw fruit around and smashed it recklessly. The railways were not so bad. The railway commission should be given power to deal with pilfering and with rough handling. The board should also deal with claims standing more than three months.

BURRELL AGREES.

Hon. Martin Burrell agreed with Mr. Johnson that co-operative methods and inspected transportation were the two great needs in the fruit industry. With a better system of distribution he believed that five times as much fruit could be

[Continued on Page 6.]

Job Printing

Did you ever stop to consider that you, Mr. BUSINESS MAN, are judged by the quality and get-up of your stationery? It is a mirror which reflects your character, and by which your business standing in the community is gauged. LET US DO YOUR PRINTING.

*No Job Too Small, Nor Yet
Too Large.*

The best way to impress your customers with your success, and the excellence and the variety of your goods, next to newspaper advertising, is to send them a booklet folder, or mailing card occasionally, setting forth the best selling points of your stock, a booklet prepared and printed attractively and correctly--- a booklet or folder that will inspire confidence in you and in your goods.

Crude Thoughts From the Editorial Pen.

DON'T work too hard. God meant us to work every day until we are weary, but not until we are so weary that a night's rest cannot revive and restore us to strength and vigor again. When you rise morning after morning with weary limbs and heavy heart, you may know that you are breaking the laws of health and that your punishment is, and will be, heavy. You must let go somewhere. The world, your friends and family have no right to demand from you more than you can do, and if you are a wise woman you will not give all the strength and warmth and beauty of your life to labor, and have only the dregs left for love. Keep enough strength, take enough rest to preserve a cheerful heart and a bright face, when the family gathers about the fireside after the day's work is done. Do one thing at a time. Don't hurry, don't worry. Face the issue of life fairly and squarely; do your share of the work, that is, what you can do without injuring yourself, and put the rest resolutely behind you. Take some relaxation. Every human being needs recreation and amusement of some sort. Get it from books or people with news and helpful thoughts, that will keep your ideas bright and your heart cheerful.

THE best society for the oppression of pernicious literature is the family. The best legislation that can be passed for the prevention of the sale of vile literature can be passed by the father and mother. Daily teaching to love and study good and useful things will bring the boys and girls to detest the opposite.

WHAT is needed in the training of the tots is more patience while their minds are developing. Let them see gentleness, and by and by they will adopt it. Let us act ourselves a little more as we wish them to. Example with children weighs more than advice. This holds good all along the road, from infancy to maturity. With wine on the sideboard, progressive euchre in the parlor, sensational, trashy literature on the table, and cigars on the mantle, we need not be surprised when the crop of drunkards or gamblers of diseased hearts and wishy washy minds come in. The seed has been planted, the crop must grow. Not all may fall to the lowest depths perhaps, but who can say which will be saved? It is not the will of the Creator that one of these little ones should perish; and woe is in store for him who places occasions to fall in their way.

Origin & Development of the St. John Ambulance Assoc.

The St. John Ambulance Association was founded in 1877, by the Order of the Hospital of St. John of Jerusalem in England, and the Charter granted to the Order in 1888 contains a full recognition of the St. John Ambulance Association as the Ambulance Department of the Order. The Association has for its objects:

- (a) The instruction of persons in rendering First Aid in cases of accidents or sudden illness, and in the transport of the Sick and Injured.
- (b) The instruction of persons in the elementary principles and practice of nursing, and also of hygiene and sanitation, especially of a sick room.
- (c) The manufacture and distribution, by sale or presentation, of ambulance material, and the formation of ambulance depots in mines, factories and other centres of industry and traffic.
- (d) The organization of Ambulance Corps, Invalid Transport Corps, and Nursing Corps.
- (e) And generally the promotion of instruction and carrying out works for the relief of suffering and injured in peace and war, independently of class, nationality or denomination.

During the six months ending July 31st, 1910, there have been reported by the Department of Labor, as happening in Canada, no less than 2,033 industrial accidents, that is, accidents occurring to workmen in the course of their employment, and in 655 instances, results were fatal. These figures do not represent the many accidents happening to citizens generally, of which there is no definite information. On an average in Canada, there are annually over 3,000 deaths from accidents, 40 per cent. of these being males, of between the ages of 15 and 44 years. Of the total number of deaths, only 28 are from freezing, and 49 from sunstroke, while the drowning accidents total over 700. Deaths from accidents nearly double the deaths from typhoid fever, and if, as is contended, there are six accidents to each death, then there are over 20,000 accidents each year in

the Dominion. It is for the purpose of reducing suffering that this Association has been formed.

Since the institution of the movement in 1877, many thousands of "detached" classes, and nearly 300 centres have been formed in all parts of the world, and three-quarters of a million certificates of proficiency have been awarded.

Wenatchee Looks to Canada for Peach Market.

Americ Fruit Growers Lose Heavily.

The Wenatchee Valley Fruit Growers' Association, according to Spokane reports, is planning to work the Canadian markets the coming season, for the soft fruit growers of their district. Brokers will be placed in Vancouver, Victoria and Prince Rupert, and also in Calgary, Lethbridge and Edmonton. The claim that "that district is the natural market of this valley with the exception of a freight rate of 20 cents which we hope can be overcome." It is also the intention of the association to have an officer make a personal visit to all the principal points in Western Canada and establish agencies similar to those they now have throughout the United States. This, it is contemplated, will be a more satisfactory way of handling the soft fruits than consigning or selling f.o.b., as handling through an agency system the exact proceeds are returned to the Association.

This preparation for the coming season is possible only through organization. Sections of Washington's fruit growing territory are in an unenviable position.

A Spokane business man says: "If the fruit growers and owners of orchard tracts in Spokane district are not spurred into effective organization by the lesson of 1912-13, I do not know what could arouse them to self-preservation. Thorough organization and central selling agency is their only salvation." Instances are given in the Spokane Spokesman-Review of the unsatisfactory returns to growers. A whole carload of apples sent from Garfield to Milwaukee, owners realized \$2.37 net, less than a cent a box. Another district consigned apples to Seattle where they

As fresh as summer roses in early dew.

Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or 'phone, and a messenger will call.

GOVERNMENT TELEGRAPH SERVICE.

The Government Telegraph Service was first established in 1879. The primary purpose was to aid navigation and to establish telegraph connection with remote points along the Gulf of St. Lawrence and Atlantic coast. When the West was opened up lines were run across for the purposes of the

Mounted Police. Then the opening up of the Yukon in 1896 led to the construction of several thousand miles of line. There are now under this service 8,383 miles of wire strung on 7,883 miles of poles. In addition there are 256 miles of submarine cable. It was not primarily intended that the Government Telegraph Service should be used for commercial purposes, but year by year it is being made use of for this purpose in a greater degree. In 1912 the revenue was over \$200,000.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—50 words, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, FEBRUARY 14, 1913.

METHODS OF FRUIT MARKETING.

THE more the question is studied the more it becomes evident that in order to attain the best results the fruit growers of this province must become thoroughly organized, particularly in the marketing of fruit, and a careful consideration also leads to the conclusion that local organizations, with one central marketing organization for the province, will give the best results. Just how local the primary organizations should be will largely depend on local conditions. Whether the Okanagan should be organized into one local association or whether each district should have its own society, related only to the central agency, we have not yet decided.

What methods should be adopted by the central marketing agency is also an important question to which careful consideration must be given. There are many arguments for and against eliminating the jobber. At least one district organization in the interior of B.C. has this year met with remarkable success by adopting this plan. We believe every grower of the district is included in this co-operative concern, and further, it has the confidence and support of all. Its plan of marketing has been to go direct to the retailer, and during the marketing season a salesman personally visited retailers in the prairie towns, carefully avoiding the large centres. This scheme, of course, would not be so successful if each district worked on this plan, as competition would necessarily result. But while the larger districts were consigning train loads of fruit to the large distributing centres this exchange quietly sought out and distributed among the smaller towns some 49 carloads of fruit and vegetables, with the result that good prices were obtained and every grower was satisfied with his net returns. We are informed that 75 cents net for prunes, and 90 cents to \$1 for apples were paid the grower, while the lowest obtained for cherries was \$2.25 f.o.b. shipping point. Further, that while there was a general complaint that there was no market for crabs, the salesman of this organization found crabs selling on the branch lines at \$4.50 per box. As these people do not grow peaches arrangement was made to supply their peach orders from Peachland, and 75 cents per box f.o.b. Peachland was paid.

We have before us the annual statement of the organization which attained these results, namely, the Salmon Arm Farmers' Exchange, Ltd. With a paid-up capital of \$3,500 they showed a net profit for 1912 of over \$1,500, and an eight per cent. dividend will be declared. Their expense account totalled about \$30,00, and they paid \$25,00 in freight and express. Were this same method of marketing adopted by one agency through which the produce of the province was sold it is quite possible that the consumer would pay less and therefore buy more fruit, the producers sell more fruit and get more per package net for his product.

WAKING UP.

Those conservative members of the House of Commons who are farmers or interested in agricultural problems have determined to make the Agricultural Committee of more practical value. In the past this committee which should be one of the most important has done little real work. Some members of the agricultural branch have testified before the committee. Evidence has been printed and the several thousand reports sent to favored constituents. This has been the end of the committee's work.

The present government has decided to make the committee of some real use. Under the chairmanship of J. A. Sexsmith, it will take up various agricultural problems, and make a thorough investigation with a view to some practical reforms. The whole question was discussed at the opening meeting of the committee, when it was decided as a starter to inquire into the problem of the production and marketing of fruit. It was pointed out that at present the farmer as a rule gets low prices for his fruit and the consumer pays very high prices.

Witnesses will be summoned and an exhaustive inquiry will be undertaken. Hon. Martin Burrell, Minister of Agriculture, who was present at the opening meeting, stated that the department would lend every assistance in solving the problem. A report of the first sessions of the committee are published in this issue.

THAT Canada will receive greater benefits in the return to power at Washington of the Democratic Party than she would have received under reciprocity becomes more and more probable. A consideration of the work which the Ways and Means Committee at Washington has about completed, gives added assurance of the wisdom of Canada's choice in September, 1911. Almost every one of the important reductions made by the Reciprocity Act is undercut in the schedules which that committee will present to Congress at its extra session in March. Thus Canada, without changing an item in her moderate tariff or without entering into any obligation whatever, stands to obtain greater benefit by reason of this downward revision of which the Democratic Party is pledged, than she would have obtained by granting reduced rates under the Reciprocity Act.

INDUSTRY and thrift are two subjects being taught in Canadian schools to an extent not heretofore thought of. Manual Training and Domestic Science are perhaps the two greatest means for the teaching of industry, while the adoption of the Penny Bank system is doing much

toward encouraging thrift among the school children. The Penny Bank, with its head office in Toronto, now has 188 branches in the schools of 26 Canadian towns and cities, from Prince Albert east to St. John. In the latter city, after a three months' trial in four of the schools, more than 1,000 accounts were opened, and in that time \$2,463.95 had been accumulated by the school children. The Penny Bank receives the cordial endorsement of the chartered banks to which it is becoming an important feeder. A report just issued by the directors shows that in the last two years 820 accounts, aggregating \$18,814.32 have been transferred to branches of chartered banks by pupils leaving school. It is hoped by the directors of the Penny Bank to extend its operation into the public schools of many more towns and cities this year.

THE Liberal papers throughout Canada are making much of a recent statement made by the Hon. H. R. Emmerson in the House of Commons a few days since. In opposing the Government's new Bank Act Mr. Emmerson endeavored to make it appear that the new act would favor the capitalist as against the general citizen, and in his argument stated that twenty-three men were now in practical control of Canadian transportation, financial and industrial institutions. Since this list was compiled by the former Minister of Railways three of these have died. Following are the twenty whom Mr. Emmerson would have us believe are in control of our public institutions and finances, being directors or holding other positions of control in various companies, controlling four billions of capital: Senator G. A. Cox, Toronto, in 28 companies; W. D. Matthews, Toronto, in 17 companies; F. Nicholls, Toronto, in 20 companies; Senator Robert Mackay, Toronto, in 16 companies; R. B. Angus, Montreal, in 6 companies; Sir H. M. Pellatt, Montreal, in 24 companies; Sir Wm. McKenzie, in 15 companies; Sir Wm. Van Horne, in 20 companies; Sir E. B. Osler, in 14 companies; Z. A. Lash, K.C., in 12 companies; Sir Thos. Shaughnessy, in 4 companies; Sir Donald Mann, in 2 companies; Lord Strathcona, in 8 companies; C. R. Hosmer, in 20 companies; Sir Rudolphe Forget, in 14 companies; H. M. Molson, in 8 companies; D. B. Hanna, in 10 companies; E. B. Greenshields, in 5 companies; W. Wainwright, in 2 companies; Sir Hugh Allen in 19 companies.

THE TROUT CREEK BRIDGE.

Ready For Steel In Five Weeks.

Everything will be in readiness five weeks hence for the placing of the big steel bridge on the K.V.R. crossing Trout Creek. As already reported, the approach on the Indian Reserve side has been completed, and work trains are close up to the bridge site. On the north bank the earth filling has been completed, and from this, out to the pier, a huge trestle is rapidly nearing completion. A steam derrick has been placed on the trestle, and as each bent is completed it is lifted into place with this apparatus and firmly secured. Each bent becomes higher and higher until the concrete pier is reached, when the track level on top of the approach will be 75 ft. above ground. The pier, which is of re-enforced concrete, has a total height of 48 ft., including a base of 10 ft. below the surface. The approach from the earth embankment to the pier will be 540 ft. long. When this trestle is completed the big steel span only will be needed to enable the continuing of track laying through into Peach Valley. The placing of the bridge will be quite an engineering feat, particularly to the uninitiated. The distance from pier to pier is 250 ft., and the steel structure must be built out into space, as it would be impossible to put up any temporary supports from beneath, as the chasm over which it will stretch extends some hundreds of feet below. At present there is no means of crossing from one side to the other of this deep canyon.

The road from the south approaches the canyon at about right angles, but immediately after crossing the bridge the track swings around quickly to the westward, following in that direction for a short distance before turning northward into Peach Valley.

Minister—Is your poor father any better, my dear? Little Girl—Oh, yes. He's so much better now that muvver's stopped prayin' for him and gone to jawin' him again.—Puck.

The new Chinese alphabet of 42 letters which is to supplant the one of 8,000 characters that for many centuries has been employed by the orientals, ought to make it possible for the youth in the primary grades of that country to get to their studies fifteen minutes later and return home a half hour earlier and still accomplish as much as they have been doing heretofore.—Christian Science Monitor.

MANAGER WOOD TRANSFERRED.

P. S. Wood, manager of the local branch of the Canadian Bank of Commerce, has received instructions to be in readiness to remove to Vancouver where he will be manager of the South Hill branch in that city. Mr. Wood will be succeeded by a Mr. Hannington who was manager at Stewart, north of Prince Rupert.

TELEPHONE DELEGATION.

Messrs. J. M. Sutherland, R. H. English and J. L. Logie, who went down to Victoria last Saturday, returned on Thursday night. All three represented the Board of Trade, and Mr. Logie also went as representative of the Council, to oppose the application of the Okanagan Telephone Co. for increased powers. The bill came before the private bills committee on Tuesday, and the Okanagan delegates were given a hearing both during the day and evening, and the committee was to announce its decision on Thursday. The representatives were given a good hearing, and believe they have made a strong case against the Telephone Co., and hope to have word to-day that the bill has been thrown out.

LADIES, ATTENTION!

On Monday next, the 17th inst., in the afternoon at three o'clock, at the West Summerland Baptist Church, the W.C.T.U. will hold their Frances Willard Anniversary, to which all ladies are most cordially invited.

Part of the program will be devoted to the study of our temperance work in foreign lands. As the ships which carry out missionaries also carry out large quantities of intoxicating liquors, and as most countries have some form of intoxicant of home manufacture to which the natives are addicted, the result is the need of temperance missionaries.

An offering will be taken for the work of our W.C.T.U. workers in the foreign field as is our custom on this date.

CAMP CONCERT.

700 cookies, 200 fried cakes, 8 layer cakes, 2 huge block cakes, besides an innumerable quantity of ham sandwiches and other eatables were quickly consumed by the six sleigh loads of townspeople who visited the railway camp above the reservoir last Friday night, when Mr. Sauter and his company gave a performance on an improvised stage for the benefit of the men at the request of the committee in charge of the work in the railway camps. The committee is delighted with the response they are receiving from the men. In this instance some fifty-seven out of sixty from the bunk-houses attended the performance, and many of them joined in the second part of the program, and on Sunday last an equally good turn-out were at the service held in the same camp. Many good words of praise and appreciation are heard of the camp cook who did so much towards making the evening a success.

AGITATORS BUSY.

For some little time past representatives of the I.W.W. have been endeavoring to make trouble in the railway construction camps of the Okanagan. Some weeks ago rumors of an attempt to create discontent in the camps in the vicinity of Summerland were current, but being unsuccessful the agitators moved on. More recently attempts to get the men to quit work have been made on the other side, especially in the vicinity of Naramata. Notwithstanding that the men are well paid, well fed, and comfortably housed, some fifteen were induced to leave one of the camps and came down to Naramata. Realizing their mistake, however, most of them soon returned to work. The alleged trouble-makers, said to be delegates of the I.W.W. from across the line, were arrested on the charge of attempting to create a disturbance, and these two are now lodged in jail awaiting trial. With what success these men have met in their endeavors is not apparent, but rumors of a proposed strike, to be called within a month, are heard among the men.

ST. JOHN AMBULANCE ASSOCIATION.

Summerland Centre.

The committee of the Overseas Club met at Campbell's Hall, West Summerland, on Monday evening and decided to proceed with the organization of a local centre of the St. John Ambulance Association, the aims and objects of which are set forth elsewhere in this issue.

Classes will be formed with a minimum number of 25 members, who will be entitled to a course of five lectures on, and illustrations of, First Aid, Home Nursing and Hygiene and Sanitation; the fee for membership having been placed at \$3, a premium of \$1 being allowed by the Overseas Club to its members.

All those interested, including ladies, are cordially invited to attend the general meeting in Campbell's Hall on Friday, 21st inst., at 8 p.m., when applications for membership will be received and separate classes formed for men and women.

Another meeting will be held later, in Elloit's Hall to accommodate lake-shore residents.

Football, hockey and basket-ball players, as well as builders, contractors, mill-owners and employees should make a "big push" to aid this worthy movement in our midst.

Rev. H. A. Solly held service in the Methodist Church at Naramata last Sunday afternoon.

LOCALS.

Dr. Andrew gave a lecture on hygiene to the pupils of the Naramata school last week.

The Ladies' Hospital Auxiliary meets next Tuesday at three o'clock at the home of Mrs. F. W. Andrew.

Mr. MacDonald, the Provincial constable recently appointed to Naramata, was a visitor in town on Thursday.

The first packing school for this district will be held in the Campbell Hall, West Summerland, beginning next Monday.

Rev. H. G. Estabrook will preach next Sunday evening at Vernon, and on Monday evening will give an illustrated lecture on B.C. Mountain Scenery.

L. C. Woodworth has purchased more property on the side of Giant's Head, between the Steven cottage and Steuart property, and purposes building there immediately.

Mr. and Mrs. Shouldice will be leaving for the East shortly. It is understood that Mrs. Shouldice's father has made Mr. Shouldice a business offer which he will accept.

Another ice carnival, probably the last of the season, will be held on the open air rink on Saturday evening the 15th inst. It is expected that this will be an even greater success than the last.

Considerable ice has formed in the coves along the shore and at the upper end of the lake during the recent protracted cold spell. At one time it was reported that ice had formed from shore to shore at Kelowna, where the lake is narrow and more shallow than further south.

Many more magazines can be used by the committee in charge of that branch of the work in the railway camps. The committee has also met with a generous response from outside in their request for books. Several libraries have been supplied and are kept in circulation among the camps. The fifth library is now en route from the Eastern States.

A party of about thirty young people—and old—were entertained to a pleasant social gathering at the home of Mrs. T. J. McAlpin, Beach Avenue, on Thursday evening. Music, contests and amusement akin to the occasion sped the hours along till after midnight, when light refreshments, ice cream and coffee brought the time for "Auld Lang Syne" before the ever-wakers were ready for it.

Our local authorities are continuing activities in their endeavor to keep the Municipality clean, and a careful watch is kept by the constable on all doubtful characters. Recently two strangers, who were under suspicion, were arrested for vagrancy, and their tent, near the Lakeshore Baptist Church, raided. There a number of bottles of liquor were found. The men were very glad to get clear with a fine of \$25 each and costs, and have quit the place.

TERMS STRICTLY CASH

A CHANCE for YOU!

The Okanagan Lake Boat Co. desire to secure an appropriate name for their new boat, and to this end are asking the co-operation of the public.

CAN YOU SUGGEST ONE.

To the first person suggesting the name finally approved by the judges, will be given a free pass for one year on all regular trips between Naramata, Summerland and Penticton. The persons suggesting respectively the second and third most appropriate name will be awarded a six month's and a three month's pass on all regular trips of the company's boats.

RULES OF CONTEST.

One name only is to be submitted by each contestant. Each letter in this contest will be numbered in the order of its receipt, and in the event of the name finally selected as the best being submitted by more than one contestant, the prize will be given to that contestant whose communication was first received.

Mail your suggestions promptly, and write plainly your name and address.

Address suggestions to The Okanagan Lake Boat Co., care of the Summerland Review, and mark "Contest" on the envelope.

Contest will close at noon of Saturday, February 15th. No executive or employee of the Boat Co., or their relations, are eligible in this contest.

Names of winners and their selections will be published in this paper one week after close of contest.

Okanagan Lake Boat Co., Naramata, B.C.

VISITING CARDS

"REVIEW" Offices.

Local News Items

Mrs. and Miss Fargy of La Riviere, Man., are visiting with Mr. and Mrs. W. Ritchie.

S. D. Snider and family expect to leave Vancouver on March 15th to take up their residence on their fruit lot here.

Mr. and Mrs. Docking of Swan Lake, Man., are visiting Mrs. Adams, Mrs. Docking's sister, on their wedding tour.

During Mr. A. E. Walker's absence from home at the Garnett Valley Mill his house had a narrow escape of being burned down. Owing to an over-heated stovepipe the walls of the upper flat caught fire but was soon overpowered by the timely and heroic work of Mr. Weaver.

Although the mercury had dropped unusually low for this glorious climate on Friday the 7th inst., a goodly company drove out to Camp 8, beyond the reservoir. Mr. Sauter presented "David Garrick" to a very appreciative audience. The program closed, as is usual with those camp concerts, with a selection from the cook.

News has been received that Messrs. Ernest Lock and Findlay McWilliams, who left here last fall to continue their studies in McMaster University, are proving themselves worthy sons of Okanagan. Erny was awarded first-class pass in all subjects, while Findlay has all second-class, except in one subject, which brought him a third-class pass.

L. C. Woodworth, who is joint owner with his brother in the orchard property on which he is living, is selling his interest to his brother. Mr. Woodworth owns orchard property in Garnett Valley and another near the lake. These, together with his other business interests, make it necessary to engage help or else drop some of the work. This is given as his reason for selling his interests in the home orchard.

The home of Mr. and Mrs. A. Moyes was the scene of a surprise party on Thursday night. A number of lakeshore friends, as well as a contingent from West Summerland, combined in making it one of the best "real good times" of this season of festivities. Games, cards, music and other sources of amusement seemed to make "time fly," and the hour of parting came all too soon. Light refreshments, which were daintily served, was also a conspicuous item of the evening's program.

Clark & Thomson's camp was visited by members of the B.Y.P.C., who gave the men an interesting concert. The men, who were mostly Italians, were completely conquered by the selections from Miss D. Harrington on the violin. The cornet solos from Mr. J. Loveday, one of the railroaders, also commanded their attention. After the program was finished the visitors were loaded with the good cheer of Chris, the "Dough-nut King."

The Young People's Guild of St. Andrew's Presbyterian Church held its monthly missionary meeting in the church on Tuesday evening, Feb. 15th. The subject of the evening was "Missionary Work in British Columbia." Half a dozen excellent readings were given by members of the guild illustrating missionary work in the pioneer days, work among the Indians, among the logging camps, in the mining towns and railway construction camps, and the work of the deaconess in new centres, interspersed with appropriate musical selections. This high-class program is typical of the monthly missionary programs which the guild has carried out this winter.

L. C. Woodworth returned on Wednesday from a visit to Kermeos.

The Presbyterian service next Sunday evening will be held in the Methodist Church down town.

Mr. and Mrs. Jack Conway entertained a number of friends at a card party at their home last Tuesday evening.

Mr. and Mrs. N. F. Tunbridge spent last week-end here at the home of Mrs. Tunbridge's parents, Mr. and Mrs. Neye.

A carload of apples of mixed varieties was loaded on Thursday and shipped on the barge that night for transshipment to the prairies.

Rev. and Mrs. James Hood, formerly of Summerland, now of Cumberland, B.C., came down the lake on Tuesday's boat, getting off at Peachland. Miss M. E. Urquhart, sister of Mrs. Hood, died at her home on Thursday.

Mr. Sharp of the staff of the Canadian Bank of Commerce, Penticton, spent last week-end here with Mr. Fitten of the local branch of the same institution.

The Ladies' Aid of the Methodist Church are preparing for a sale of aprons and other useful household notions. The sale will take place during the week following Easter.

A social night, confined to members or intending members of the local St. Andrew's Society will be held in Campbell's Hall, West Summerland, on Monday evening next at eight o'clock.

The freezing of the water in the pipe leading up the hillside to the Giant's Head Rink has put a stop to all skating there. It is just doubtful if the rink will be open again this season.

Martin Beavis returned home early this week from his former home in Crystal City, Man. Mr. Beavis accompanied the body of his mother from Armstrong to the old home where interment was made.

A telephone line now connects the towns on the east side of the lake, the connecting link being recently extended from Naramata to Kelowna in connection with the construction of the Kettle Valley Railway.

The Women's Institute will hold the regular monthly meeting on Friday, February 21st, at three o'clock, in the parlor of the Men's Club. Program—Cooking demonstration. Sunday dinners simply served, and recipes for puddings. Members are requested to bring pencil and paper.

Much interest has been taken in the contest for a name for the Okanagan Lake Boat Company's new boat. As advertised, these are being received at the Review Office, opened and numbered, and a list of names with their numbers only will be furnished the directors from which to make their choice. Already three score or more suggestions have been submitted, and before the contest closes to-morrow (Saturday), a number more will, no doubt, be received.

The annual Young People's Service was held in St. Andrew's Presbyterian Church, West Summerland, last Sunday evening. Illustrated programs, prepared by the church's Young People's Committee, were distributed and used during the service. The subject of the service was "David Livingstone the Torch-bearer." Printed maps on the small programs gave the congregation an opportunity to follow him in his missionary journeys in opening up the "Dark Continent." Missionary hymns were sung. The pastor, Rev. C. H. Daly, gave an interesting and inspiring address on "The Character and Work of David Livingstone," whom he characterized as one of Scotland's illustrious sons.

The Review Publishing Co., Ltd.

(Continued from page 1.)

marketed in the West. He suggested that the committee continue its work by calling practical fruit growers from Nova Scotia and British Columbia.

This will be done at once, and officers of the railway commission will also be called to explain freight rates in the West. The minister emphasized the value of an education of inspection. The farmers should be shown the proper way to pack fruit, as well as punished when they packed fruit dishonestly or improperly. He thought that organization all through was the only way of dealing with all the different problems that faced the fruit growers. There was also a need of a system of diverting cars of fruit, as is done in the California fruit trade.

In regard to the exorbitant rates of freight and express, the minister expressed surprise there should have been the delay in hearing from the railway commission, and in the commission acting, that were complained of by Mr. Johnson and the members of the committee. He strongly recommended the arguments that had been made by Mr. Johnson, and believed that continuation of the investigation so as to take in all the fruit-growing sections of the Dominion would be most decidedly beneficial.

J. A. Ruddick, dairy and cold storage commissioner, gave some interesting evidence before the committee.

Mr. Ruddick said that growers of apples should study the reasonable time for shipping and marketing of the various classes of fruit. Much had been lost this year to the producer and consumer by putting apples on the market in green condition and before they were matured. Mr. Bowman of Huron, stated that under the present shipping law, it was possible for the shipper to take a barrel of apples marked "rejected" by the inspector and sell that barrel to any retail dealer in the district. The retail dealer could put those on sale and the public had no means of finding out whether the apples were third or fourth class quality or not.

Mr. Ruddick said that this could not be denied.

THE WEST IS SOAKED.

Chairman Sexsmith asked for an explanation of the report that last fall farmers sold their apples on the tree for 75 cents a barrel, while the consumer in the West paid as high as \$5.00 and over.

Mr. Ruddick said he believed that the price averaged from \$1 to \$1.50 a barrel on the tree.

"You have been misinformed," said J. E. Armstrong of Lambton. "That is away above the figure. Mr. Ruddick has not been informed of conditions. We have been encouraging the farmers to improve but we do not seem to be able to get our own market or any outside market."

Mr. Thornton of Durham said that in his district many apples had rotted for lack of a market.

WHAT THEY SHOULD COST.

Mr. Ruddick calculated the cost of laying down a barrel to the consumer in Winnipeg as follows: \$1 a barrel for the apple off the tree; 45 cents for the barrel; 17 cents a barrel for picking and packing; 10 cents for commission to the buyer; 80 cents for freight to Winnipeg; 12 cents to the broker on a five per cent. basis, 50 cents to the retailer, making a total cost to the consumer of \$3.25 a barrel.

Dr. Schaffner said that the cost of a barrel from the car at Winni-

peg to the consumer was \$2.90 a barrel, while the producer got 70 cents a barrel.

"The whole trouble," said Dr. Schaffner, "is the middleman. He is responsible more than anyone else for the high cost of living."

Mr. Thornton found fault with the packing, and said it was necessary that the growers here should realize that honesty was the best policy, else the Ontario trade in the West would be killed. A question which should be considered was to get rid of the profits which four or five middlemen get and bring the producer and consumer closer together.

EVERY PROVINCE IMPORTED.

Mr. Ruddick said that 33,100 barrels had this year been shipped from Nova Scotia to Winnipeg and points West; 300,000 barrels from Ontario, while the importations from the United States to the West were 239,728 barrels. Every province in the Dominion had this year imported apples.

In Chicago, said Mr. Ruddick, apples had been sold as low as 71 cents a box. Out of that the grower found the boxes, etc.

J. E. Armstrong doubted whether Mr. Ruddick had time to devote to both dairy and fruit branches of the department of agriculture.

Hon. Martin Burrell did not consider that there had been any suffering by the fruit industry. The matter of separation of the two branches had been under consideration for some time. It was still under consideration. The orchards of the Dominion represented an outlay of \$150,000,000, and it was realized that there should be an extension of the care taken of the industry.

Mr. Thornton was of the opinion that the experience of successful growers and shippers should be given to the public. There were men whose very name on the barrels sold their apples in the Old Country and elsewhere.

David Marshall of Elgin, president of the Dominion Cannery, was of the opinion that improvement should begin at home. The government should not be expected to do everything.

FEBRUARY "ROD AND GUN."

Piercing the Northern Barrier is the title of a story by R. J. Fraser, which occupies the premier position in the February issue of Rod and Gun, published by W. J. Taylor, Limited, Woodstock, Ontario. This story, which is appropriately illustrated, describes graphically the dangers of a voyage through the ice floes encountered en route from Sydney to Ft. Churchill, on Hudson Bay. Two Pioneer Trips Through a Playground of To-morrow (Jasper Park, Canadian Rockies), comes next, and Frank Houghton contributes another Western tale, The Kid's Luck. Of special interest to followers of the trap line is the first of a series of articles on Small Furbearers and How to Take Them. The Diary of a Canoe Trip in 1854 from Orillia, Ont., to Ottawa, is of more than passing interest, while a Week's Moose Hunt in New Brunswick, Winter Duck Shooting in the Okanagan, Hunting and Fishing in British Columbia, A Qualifying Climb on Mount Storm, The Vanishing Wild Turkey and other stories make up an interesting mid-winter number.

When ironing, the strain on the feet can be relieved if a thick pad is made of old flannel garments sewed together. Stand on the pad and you will find yourself less tired.

If people were as careful about their religion as they were about the clothes they wear to church, what a pleasant place this old earth would be.

In cleaning painted woodwork it is better to use a strong kerosene water than any kind of soap.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Scribbling Pads may be obtained cheap at the Review office; made from scraps of good paper.

Peachland Notes.

We are pleased to be able to report a marked improvement in the health of Mr. Wm. Logan.

A Valentine social and toffee-pull will be held at Mrs. D. J. White's home on Friday evening in aid of the Methodist Church.

Since the return of Rev. C. W. Whyte from the Coast, he has been confined to his room with a relapse of the grip, from which he suffered before going away.

Rev. and Mrs. James Hood of Cumberland, B.C., came in on Tuesday evening, called thither by the serious illness of the latter's sister, Miss M. E. Urquhart.

Tuesday, Feb. 11th, being the anniversary of Mr. Hugh Ferguson's birth, a number of his young friends called to wish him many happy years to come, and to spend a few jolly hours with him at his father's home.

The Bachelors' Ball on Friday night last was a complete success. Several couples attended from Westbank and Rutland. The music was furnished by Mr. Wm. Lupton and assistants, and was decidedly fine. About forty couples kept the floor filled until about three o'clock in the morning. A dainty luncheon was served by Mr. J. H. Clements, and everything passed off well.

Mr. L. D. McColl had a narrow escape from a chilly bath in the lake on Monday evening. Going on to the boat to interview some friends, he delayed leaving it until it had drawn away from the wharf some feet. He thought he could easily make it but was encumbered by a heavy overcoat, and so succeeded only in being able to lay hold on one of the posts, where he clung until relief came.

CHEAP LANDS FOR SETTLERS.

Victoria, Feb. 11.—A new departure in government policy which may be confidently regarded as certain to very greatly stimulate settlement and colonization activity in British Columbia is the outstanding feature of an extra important bill for the amendment of the Land Act, which Hon. W. R. Ross has introduced in the Legislature. The striking feature of this measure is its provision for the granting hereafter of free pre-emptions of surveyed crown lands from and after March 31, proximo; pre-emptors henceforward being permitted to take up land upon payment only of \$2 for the pre-emption record, and \$10 as crown grant fee. The land and the cost of survey are given without charge.

The policy of the past has been to sell such pre-empted lands at a price of \$1 per acre, 25 per cent. of such cost being payable within two years from the issuance of record, with further annual payments of 25 cents per acre until the purchase price of \$1 per acre be paid, and 6 per cent. interest being collectable upon arrears.

RATE CASE EXPERT.

Jean Paul Muller Retained by the Dominion Government.

Ottawa, Feb. 10.—The latest development in the Western rates enquiry is the employment by the Dominion Government of Jean Paul Muller, the United States rate case expert. Mr. Muller has been retained to assist Mr. Bicknell of Toronto, and will leave New York in a few days, and take up his residence in Toronto, where he will go over the remarkable set of exhibits in the case, which was prepared by the traffic department of the C.P.R., and which formed the basis of defence of the Western roads. He will devote himself to an analysis of the exhibits with a view to attacking the reasonableness of the Western rates generally regardless of the question of discrimination.

BARGAINS

FOR

Review Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1

Vancouver Daily Province - \$3.00
Better Fruit - - - 1.00
The Review - - - 2.00—6.00
The three for \$5.00

BARGAIN No. 2

Canadian Courier - - \$3.00
Canadian Horticulturist - .60
The Review - - - 2.00—5.60
The three for \$4.60

BARGAIN No. 3

Vancouver Daily Sun - - \$3.00
Country Life in America - 5.00
The Review - - - 2.00—10.00
The three for \$8.00

BARGAIN No. 4

Canadian Horticulturist - .60
Canadian Poultry Review - .50
The Review - - - 2.00—3.10
The three for \$2.70

BARGAIN No. 5

The Busy Man's Canada - \$1.00
World's Work - - - 3.60
The News-Advertiser, Daily 3.00
The Review - - - 2.00—9.60
The four for \$7.00

BARGAIN No. 6

Winnipeg Telegram - - \$2.00
(or Free Press)
B.C. Saturday Sunset - - 2.00
Canadian Magazine - - 2.50
The Review - - - 2.00—8.50
All four only \$6.60

BARGAIN No. 7

World Wide - - - \$1.50
Farmers' Advocate - - 1.50
Free Press, Weekly - - 1.00
The Review - - - 2.00—6.00
The four for \$4.75

BARGAIN No. 8

British Columbia Magazine - \$1.50
Toronto Mail and Empire - 1.00
Farmers' Advocate - - 1.50
The Review - - - 2.00—6.00
four for \$4.50

BARGAIN No. 9

Calgary Herald - - - \$3.00
Collier's (Canadian Ed.) - 5.50
The Review - - - 2.00—10.50
The three for \$8.90

BARGAIN No. 10

Vernon News - - - \$2.00
Toronto Saturday Night - 3.00
The Review - - - 2.00—7.00
The three for \$5.85

BARGAIN No. 11

Canadian Pictorial - - \$1.00
Windsor Magazine (13 mos.) 3.25
The Delineator - - - 2.00
The Review - - - 2.00—8.25
The four for \$5.75

BARGAIN No. 12

Rod and Gun - - - \$1.00
Poultry Review - - - .50
Nor'-West Farmer - - 1.00
The Review - - - 2.00—4.50
All four for \$3.90

BARGAIN No. 13

The Garden Magazine - \$1.85
Canadian Courier - - 3.00
The Review - - - 2.00—6.85
The three for \$5.75

BARGAIN No. 14

Weekly Edition of either—
The Province - - -
Calgary Herald - - -
Winnipeg Telegram - -
Winnipeg Free Press - -
Family Herald and Weekly Star
Toronto Mail and Empire (and Borden Picture)
or
Montreal Witness - - 1.00
Canadian Sportsman - - 2.00
McLean's Magazine - - 2.00
The Review - - - 2.00—7.00
The four for \$5.40

If none of these combinations suit you, make up one to your liking, and we will quote you a price on the selection.

We are also Subscription Agents for—

The Ladies' Home Journal - \$2.00 | Country Gentleman - - - \$2.25
Saturday Evening Post - - 1.50 | The Fruit Magazine - - - 1.50
Successful Poultryman - - .50

These Offers are for old or new Subscribers. If present Subscribers are in arrears it will be necessary to pay to date before these Bargains become available.

ward. t.f.

POUND NOTICE.

There has been impounded a bay
golding about two years old, with
both hind feet white above fetlocks,
left front foot white, branded O-
(hayhook brand) on right shoulder.
Unless previously claimed will be
sold at the Summerland Pound on
Saturday, February 22nd, at two
o'clock, in accordance with the
provisions of the by-law governing
stray animals.

JOHN DALE,
Pound-Keeper.

West Summerland,
February 7th, 1913.

Basket-ball

Notes on Sporting Events.

For the second time in three
years the basket-ball team repre-
senting Okanagan College has been
beaten in the College gymnasium,
and the speedy Summerland team
took the College men into camp in
a fast game played on Saturday
night. The game was not so one-
sided as the score would indicate,
but, excepting the centre, where
McDougall and McWilliams were
evenly matched, the College boys
were outplayed in every depart-
ment, the score standing 21-7 in
favor of the Town. Brilliant team
combination, and deadly shooting
by the Town forwards did the
trick. Baker played a great de-
fence game. Glenn—a new man at
the game—surprised everybody by
his cool, steady play, and will do
better in the future. McLeod and
Brown are a great brace of for-
wards.

The College boys worked hard,
but were away below form, and
were especially off their shooting.
Wolverton and Armstrong on the
defence are good steady players,
but showed too much anxiety to
get rid of the ball, and their long
passes were generally nabbed by
Baker or Glenn. Nicholson was
covered too closely to do much, but
accepted all the chances that came
his way in good style. Hayward's
place is on the defence, where he
is unbeatable.

The score is now 3-0 in favor
of the Town, but they have not yet
won the cup. With Morlock play-
ing forward and Hayward on the
defence the College team may yet
show their heels to the speedy
Town bunch. It is going to be a
great race.

The old rivals—the Bean-eaters
and the Hill-climbers—mixed again
in the preliminary game on Satur-
day night, victory going to the
latter team by the score of 11 to 2.
Leighton McLeod was responsible
for eight of the points. These two
teams generally play a close game,
but the fates were against the
Ritchie Hall boys on Saturday
night.

The New Westminster Hockey
team is practically out of the game
so far as the Paterson Shield is
concerned. Vancouver and Victoria
are making a strong bid for it,
with the chances in favor of the
latter team.

The case of James Thorpe who
won signal honors at the recent
Olympic Games—a strictly amateur
event—is attracting much atten-
tion in the world of sport. It tran-
spires that Thorpe played profes-
sional baseball when a student at
the Carlisle Indian School, and was
therefore ineligible. The Ameri-
can Amateur Athletic Union ex-
pelled him, and ordered the return
of the trophies won by him. In
this the Union showed itself alive
to the interests of true sport, and
deserves much credit for standing
by its guns in face of the protest of
some of the leading papers in the
United States, notably the Port-
land-Oregonian. Professionalism is
the bane of true sport.

College Notes.

Principal Sawyer was the speaker
in Hou of Mr. Estabrook at the
Sunday evening service. He gave
an inspiring address on the "Lord's
Prayer." Everybody is welcome in
the Collogo Chapel next Sunday at
7 p.m.

The girls have been disturbed at
their studies one or two evenings
of late by a series of groanings
issuing from one of the reception
rooms. They have not yet had
their curiosity satisfied as to what
this means, but it is rumored that
some of the boys are going to sing
at the Literary meeting to-morrow
(Saturday) night. Mr. W. C. Kelley
is also going to oblige the meeting
by giving an interesting lecture.
Everybody welcome!

Everybody, except the Freshmen,
Sophs., and Cupid are buried in
exams. Cupid has appeared in the
form of 1st year Academic Class.
The members of this class will give
a Valentine Reception to all mem-
bers of the faculty and student body
to-night (Friday). A jolly time
is anticipated.

Naramata Notes.

Frozen water pipes are the order
of the day.

Mr. H. W. Endacott has pur-
chased a fine new saddle horse.

Another Whist Drive in charge
of the Unity Club is due on Febru-
ary 28th.

Miss Lois Wells has been confined
at home for a few days with
severe headaches.

Mr. D. McKay spent Wednesday
night in Penticton returning on
Thursday morning.

Mrs. Ellen Simpson will leave on
Monday for Vernon to visit her
daughter, Dorothy, of that place.

We are glad to note Mrs. Robert
King's continued improvement, and
that Miss Gordon is able to leave
her.

Mr. Saulting began on Thurs-
day to make much needed additions
and alterations to the out-buildings
of the Lakeside Hotel.

Mr. Huntley of Penticton took
charge of the services in the Nara-
mata Church last Sunday in the
place of Rev. Mr. Fallis.

Miss Mayda Williams is numbered
among those who are sick. Dr.
Andrew was called last Thursday.
Miss Williams is improving we are
glad to hear.

Mr. and Mrs. J. S. Gillespie will
start on their return trip from
England on March 1st. Mr. and
Mrs. J. M. Robinson will be
returning at a later date.

Mr. Griffin of the Grant-Smith
Co. made a business trip here this
week, also Dr. Kear, who is the
head of the hospital corps of the
company. Our local hospital was
inspected.

The Armstrong Concert Co. of
juvenile players gave its entertain-
ment in the Opera House last
Thursday night. The concert was
well patronized considering the
slight advertising that was done.

The Unity Club has its meeting
at the home of Mrs. Mitchell on
Thursday. The guest of honor is
Mrs. McCulough, who is one of the
club's oldest members and is now
leaving to reside in Penticton, for
a time at least.

The telephone line which the
K.V.R. Construction Co. have been
constructing to connect Kelowna,
Naramata and the various camps,
is now completed. It follows the
new road built by the company
between Kelowna and Naramata.

Mrs. Russell Wells received on
Wednesday of this week. The day
chosen was very pleasant and thus
enabled nearly every lady of our
little community to meet and help
welcome Mrs. Wells. The refresh-
ments were very nicely served by
Mrs. George Wolstoncroft, assisted
by Mrs. Dean.

The Maude Moore made the trip
to Kelowna on Thursday, taking a
crowd of enthusiastic rooters of
the Penticton Hockey team to
attend a game played there, Pentic-
ton vs. Kelowna. We are interested
to note that Reg. Bootho very
creditably keeps goal for the Pen-
tiction team.

Our liveryman is meeting the
demand for more conveyances by
starting stage accommodation be-
tween this town and Penticton.
Trips will be made three times each
week, probably on the days when
ferry does not make its regular
trip. The vehicle is being made
by our local blacksmith.

Opening This Week:

Our Spring Stock Men's Felt Hats for the Easter Trade;

and to arrive in a few days, a

Spring Stock of Eclipse Whitewear

Summerland Supply Co.

West Summerland. Limited

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

PLAN to take a Trip to the

Okanagan this summer and stop at
NARAMATA. Get acquainted with this lovely
Canadian Summer Resort. A splendid Tourist
Hotel with every convenience overlooking the Lake
is at your service. One summer spent in Naramata
means every summer spent there until you finally
conclude there is no real living anywhere else.

Then a nice 5 or 10 acre Fruit Farm on the
benches solves the question, and makes you inde-
pendent for ever afterwards.

Communicate with
THE HOTEL NARAMATA
for rates, and information regarding
accommodation, amusements, etc.

OR THE OKANAGAN TRUST CO., Ltd.
J. M. ROBINSON,
Manager,
NARAMATA, B.C.

Usually cold weather and a very
unusual amount of ice. For details
ask ferryman Roe. Being "stuck"
in the middle of the lake, and
breaking ice in front with boards
to allow the boat's passage, land-
ing passengers at Penticton 50 feet
from shore, a punctured boat, and
galvanized protections on the scow,
and all-night trips are some of his
many trials.

The "doings" of this week have
been added to by two runaways,
but neither were disastrous. A
four-horse team, with a heavy load,
destined for the construction work,
charged up Robinson Avenue, but
lost its inclination when reaching
the grade. On Sunday the harness
and cutter of some Penticton
visitors suffered from the struggle
to conquer an unruly horse.

The Roe Brothers have made a
contract with Penticton parties for
a large quantity of ice. They are
now to build an ice-house, and
will use the Maude Moore to bring
the ice to the building. The
location selected for the building is
either on the lot between the store
and the express office, or on the lot
beside the bottling works. Mr.
McKay has the building of it.

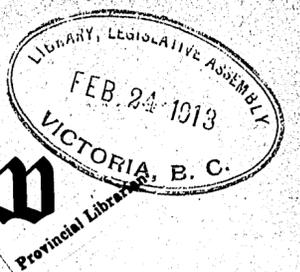

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 30

SUMMERLAND, B.C., FEBRUARY 21, 1913.

Whole No. 238

Municipal Council

In Extra Session.

Morning of Routine Business.

Water and Light Rates Fixed.

A special session of the Municipal Council was held on Thursday morning with all members present. Some communications were dealt with, two citizens with requests listened to, the Reeve's arrangement for a solicitor confirmed, one by-law considered and carried, another referred back for amendments, water rates fixed for quarter and half acre lots, the latter causing a long and unusually warm discussion.

A list of proposed amendments to the Municipalities Act was submitted by the Union of B.C. Municipalities.

E. R. Simpson asked for improvement in roads on Paradise Flat. This will be considered by the Public Works Committee.

A telephone message had been received from Reeve Foley-Bennett, of Penticton, Chairman of the Okanagan delegation to Victoria, of a telegram offering congratulations from Solicitor McDairmid on the throwing out of the Telephone Company's bill.

A firm of engineers with head office at Vernon wrote offering their services, stating their aim was to act as Municipal Engineers throughout the valley. Their letter was filed.

The Westinghouse Company have now offered to repair the armature sent them some time ago for \$45, the former price from a machinist was \$60 while a new one costs \$65.

R. Clouston asked the Council what they proposed doing with horses and cattle running at large. He complained that two cows and eight horses had been about his place for some days. He had spoken to the constable but was told by the latter that he had received no instruction. The Council concluded to at once instruct the constable to report the owners of any animals running at large.

R. H. English asked the Council to fill in at the end of the lane running back of his property from Beach Avenue, so that teams going through could continue around on to the road end in front of the Garnett lot, now Mr. Cordy's property. It was contended by Coun. Robinson that this was beyond the right of the Council as they would thereby be building in front of private property. Mr. English's request for use of the street end beside his grain-house at a nominal annual rental of \$5 was granted. Mr. English applied for this for the purpose of erecting a platform thereon for the purpose of storing wagons, etc.

A motion that W. C. Kelley be retained as Municipal solicitor at an annual fee of \$185, was carried unanimously.

By-law No. 44, pertaining to a Bank of Montreal loan, which had been given three readings, was not in the form to suit the bank's solicitors. It was therefore referred to the Clerk for amendment.

By-law No. 45, fixing the water and light rates, was carried, the rates being the same as last year, with the exception that quarter acre lots, such as those recently laid out in Victoria Gardens, will be considered the same as three town lots, and half acre lots as six. This latter clause opened up a long discussion. A general rate of \$7.20 gross was fixed for a quarter acre lot, and Clerk Logie stated that he wished it definitely understood that this rate would cover irrigation charges as well. To this Coun. Lewis took exception, claiming that there was nothing in the by-law to indicate such intention. Mr. Logie claimed that he had always interpreted the by-law referring to town lots as entitling each lot to water for irrigation for the \$2 general rate, no further charge being made unless water used for domestic purposes. In this he was supported by Coun. Robinson, but the by-law was finally carried without amendment other than that it was stated in the new clause that the rate mentioned provided irrigation water.

Telephone Co's Bill Thrown Out

Fight When Carried To Victoria Results In Victory For The People.

Minister of Agriculture Solving Big Problem.

Hon. Martin Burrell Scoring Signal Success in Genuine Effort to Make Farming Worth While in Canada.

(By Mail from our Ottawa Correspondent).

Ottawa, Feb. 17.—The scheme of the Hon. Martin Burrell, Minister of Agriculture, by which he proposes to encourage the national industry of the Dominion on a scale hitherto unattempted by any of his predecessors in office, has elicited praise from all parts of the country. Political opponents have joined in recognizing the foresight of the minister, who proposes to spend so that the country can afterwards save.

SOLVE GREAT PROBLEMS.

Mr. Burrell exhibited his strong grasp of the needs of the agricultural community when he said: "To increase the farmers' output, to improve the conditions of rural life, to swell the number of those who till the fields—to do these things we are going to solve the greatest problem and avert many of the manifold evils that face us in modern life."

COST OF LIVING.

He also showed true conception of the needs of the great population of the city when he said: "Two problems especially confront us to-day, as they confront other nations, the ever-increasing cost of living with its heavy burdens, and the increase of urban as against rural population."

It is plain that Mr. Burrell has set himself to the task of solving these great questions of national import, and he is beginning by safeguarding the interests of the productive classes of the country. He believes that a happy rural community is a fount of strength to the state.

RESULT OF STUDY.

The Minister of Agriculture in his new scheme has shown deep study of the advances made in agriculture in the principal countries of the world. In his speech he showed special enthusiasm for Belgium, and pointed out that in that country marvellous results had followed the fostering care of scientific government legislation. He pointed out that in the year 1885 the depletion of soil and the emigration of rural population had become so serious that the Government of Belgium had decided to appoint agricultural supervisors or district agricultural instructors. The following has been the result:

RESULT IN BELGIUM.

"Belgium farms now produce £10,000,000 more annually than they did twenty-five years ago at a cost for every kind of agricultural education of not more than £40,000 a year. What is now the densest population in Europe is almost supported by the product of its own farms, which yield an average of £20 per annum per acre as compared with less than half from British land."

The Minister argued from this that Canada also can make gigantic strides.

SCHEME IS COMPREHENSIVE.

A few feature points of Mr. Burrell's scheme show what a wide

Chairman Foley-Bennett of the Okanagan delegation to Victoria has received a telegram from solicitor McDairmid, legal representative for the B.C. Union of Municipalities, congratulating the Okanagan delegation upon the throwing out by the Private Bills Committee of the Okanagan Telephone Company's bill, which, had they been successful in getting it through the Provincial House, would have given them a complete monopoly of the southern Okanagan telephone and telegraph business. The struggle which has been going on for some time has at times been exciting, and, in

view of the well-arranged campaign of the company and the difficulty in keeping posted on different moves of the company's management, the people are indeed to be congratulated upon the victory they have achieved.

This is the first time in which the cause of the people as against the company, in the championing of which the Review has been happy in taking a share in the fight, has been brought fairly before "the powers that be," and the victory, in itself no small achievement, is a proof positive that our Government will not tolerate the overriding of the public by would-be monopolists.

Western Cannery, Ltd., Wish to Establish Here. Representatives Visit Town.

No Definite Action, as Negotiations Are Now Being Made With Eastern Concern.

About one year ago a proposition was made by the Kelowna Canning Co. to establish a cannery here if \$20,000 of capital stock were subscribed for the local concern. Another provision of the proposition was that the parent company receive \$5,000 of capital stock as a bonus. This latter, together with the difficulty in getting the necessary stock, killed the proposition. Nothing more was heard from these people except that recently their plant, together with the one established at Penticton upon similar conditions as was proposed to Summerland, was under option to the Dominion Cannery Association, and later that the latter had allowed these options to lapse.

Upon their return from Victoria Messrs. Sutherland, Logie and English were approached by those interested in the Kelowna and Penticton Canneries, which are now being merged into one concern, the Western Cannery, Ltd., and they were advised to come to Summerland and submit their proposition.

When it became known here that the Kelowna Company were disposed to make a proposition it was generally felt that negotiations could not be opened with them at the present moment because Summerland was morally committed to a proposition which had been made to the Dominion Cannery. There is a feeling, too, that it is because the canneries at Kelowna and Penticton were not purchased by the Dominion Association that these people are so desirous of getting a foothold here, either to head off the Dominion Association or to hold them up with the object of bringing them to terms. This feeling probably accounts for the fact that there was not a larger number present to listen to the representatives from Kelowna and Penticton, Messrs. Frazer and Foley-Bennett, and those present were disappointed in not hearing a definite proposition from these people, as had been anticipated.

Mr. Frazer, who was introduced by Reeve Thomson, reminded his hearers of the proposition of a year ago, and said they had come to hear any proposition that Summerland had to make.

Mr. Foley-Bennett expressed satisfaction with the results at Penticton last year, except that he regretted that a larger cannery had not been established. That, however, would be remedied this year.

Mr. G. J. C. White said that the Kelowna company's proposition had been talked over last year and it had been found impossible to meet the conditions. He did not think circumstances had changed any, and he saw no use of talking further along those lines.

Mr. Frazer then said they did not come to talk the old proposition but wanted to know what the people would pay toward the purchasing of the cannery on the wharf, provided his company would operate it.

H. C. Mellor declared that now Mr. Frazer had made an apparently reasonable proposition and this could be considered. The meeting was not a representative one however, and a proper meeting would have to be called.

Mr. Frazer urged that if anything was to be done it must be done at once. He said the fact was now history that the Western Cannery were under option to the Dominion Cannery but this had fallen through, and he supposed it would also be off with Summerland. In reply to the latter the speaker was told that a representative of the eastern concern was now on the way to treat with Summerland.

Mr. Frazer said that for the \$10,000 which he proposed should be raised here, stock in the Western Cannery, Ltd., would be issued, and he promised a dividend on this. No straight proposition or promise could be drawn from Mr. Frazer as to what they would do this season, provided they took over the local cannery, or for the future.

Mr. Foley-Bennett endeavored to impress on those present that the Western Cannery would pay more for fruit than the Dominion Cannery, and cautioned the people against taking up with the larger concern.

A vote of thanks to the visiting gentlemen was moved by H. C. Mellor, and in seconding this motion Mr. White said he did not want to seem antagonistic, but wanted to learn just what their proposition was.

BREAKS ARM.

While climbing a pole at Kelowna, Harry McLeod, now in the employ of the Okanagan Telephone Company, fell to the ground, breaking his arm. A message conveying news of the accident to his parents here was received, and Harry is expected home Saturday night.

The Fruit Union.

Special Meeting of Shareholders Called This Week.

The local shareholders of the Okanagan Fruit Union, Ltd., met in Campbell's Hall on Monday afternoon. The meeting was called because of a notice from the head office that an "extraordinary" meeting of shareholders would be held on Thursday afternoon of this week at Vernon. The question of representation at that meeting was considered, and it was decided to send five representatives with proxies, but without definite instructions. It was felt that the five appointed, Messrs. Mellor, Cordy, Hespeler, Allan Agur and G. J. C. White, knew the mind of the meeting, and if sent without explicit instructions could best work for the interests of the local shareholders. The five delegates will leave on Thursday morning's boat, and the shareholders meeting will be held at Vernon at 2.30 that afternoon.

It is not known here just what will be the nature of the business transacted. Re-organization is talked of, and there is also a plan on foot to organize the various marketing concerns of the valley into one selling agency.

Late information from Vernon has been received to the effect that a re-organization of the Okanagan Fruit Union is being made. At a meeting of the shareholders he directors, with six others, three of whom are Messrs. White, Mellor and Agur from here, were appointed to arrange for re-organization, and they are meeting to-day. It is understood that some working agreement or perhaps amalgamation with the Fruit Union and Kelowna Farmers' Exchange will be consummated.

The "Skookum."

The ferry company's new boat is to be named "Skookum," and curiously enough B. L. Hatfield is winner of the first prize, this name being his suggestion. The word, according to Mr. Hatfield, is Siwash for "good." She is, of course, a skookum boat, being built in the Boat Works of Hatfield & Clark. L. J. Block of Naramata wins the second prize with the suggestion, "Rowena," W. R. Shields third, "The Ottawa." Another coincidence in the selection is that these names were Nos. 28, 8 and 88 on the list submitted to the directors.

Some fifty-eight names in all were submitted by as many contestants. The envelopes were numbered as they were received, and finally opened, and a list of the names made, each bearing a number corresponding to the envelope. The directors, last Monday night went through the names and selected those most favored, and it was not until a good deal of selecting and voting that the number considered was brought down to five, and later to three on Tuesday night, the manager being outvoted, his choice being the name which took second prize. On Thursday names and numbers of first, second and third choice were returned to the Review Office, and not till then were the names of the winners known to anyone.

There were many names submitted that were most decidedly original, and we regret space will not permit publishing them in this issue.

Mrs. Sinclair, of Spokane, is visiting here at the home of her daughter, Mrs. Robbins.

Board of Trade.

Well Attended Meeting of Executive Hears Reports.

Committees Named—Much Work Outlined.

An interesting meeting of the executive of the Board of Trade was held on Tuesday afternoon, quite a number of the members of the board being present. The meeting was called primarily to receive the report of the committee recently named to learn what acreage of tomatoes and corn could be promised the canning company. Promises to plant nearly two hundred acres have already been received. This was considered very satisfactory by the president. Considerably more will be available next year, as much as already been planted to clover.

The report of the delegation to Victoria was given by Messrs. J. M. Sutherland and R. H. English. A good case was made, and some points brought out by the delegates were of such importance that the private bills committee deemed it advisable to lay them before the Government. Our own member, Hon. Price Ellison, gave the delegation assurance of his hearty co-operation.

Manager Dobie and Director Holmes of the Telephone Company were both present in the committee room. At times the discussion was rather heated, especially over the unfair treatment of the lower Okanagan by the company, particularly since the opening of its long distance service. The company intimated its willingness to change its long distance rates from a three minute to a one minute basis provided opposition was withdrawn. The delegates came away feeling that they had accomplished much, and are anticipating a favorable decision from the Government.

Another matter reflecting discredit on the Telephone Company was learned, showing the attitude of the company toward the public. On January 22nd it was stated by the company before the Associated Boards that their schedule of rates had not been filed, but that this would be attended to. Upon enquiry at Victoria the delegates learned that a schedule of rates had been filed, and were approved on January 21st. They were surprised that they were so misinformed by the company, and this was another of the arguments used before the private bills committee.

The C.P.R. has asked Ottawa for a five-year extension of time for the building of the road between Nelson and Procter. This will be the connecting link for the K.V.R. with the Crows Nest Line, and, until built, through trains from Winnipeg to Vancouver must be handled by ferry between those points. Our representatives took this up with the Boards of Trade at Victoria and Vancouver, and all will urge the completing of that link at an earlier date.

President Mellor complimented the Board on the quality of its delegation to Victoria, and of the work done.

The following committees were named:

Civic Improvement—R. H. English, Dr. Andrew, J. E. Phinney.

Finance—J. M. Sutherland, C. N. Borton, C. Fetherstonhaugh.

Immigration and Advertising—A. Stark, W. A. Caldwell and A. Steven.

Transportation—W. H. Hayes, James Ritchie and R. V. Agur.

C. H. Cordy was appointed local correspondent to the Calgary Herald.

It was learned that the former secretary had not written the Divisional Superintendent of the C.P.R. asking for an appointment to discuss with him an improvement to terminal facilities here. Accordingly another motion was carried instructing the secretary to take this up with the C.P.R. officials at once.

J. M. Sutherland called the attention of the Board to the difference in recorded temperatures at Penticton and Summerland meteorological stations, and suggested that as the

Crude Thoughts From the Editorial Pen.

MOTHER.

To the young ladies who weekly read this column, we are moved by the good spirit to write a few words concerning their duties to their mothers. It may be you have noticed a careworn look upon her face lately. Of course it has not been brought there by any act of yours; still it is your duty to chase it away. Would it not be a happy surprise to her if you should occasionally bid her sit down and rest while you performed the arduous duties in hand? And how a tender kiss on her mouth will cause her dear face to brighten. Anyway you owe her a kiss or two. Away back, when you were a little bit of a girl she kissed you when no one else was tempted by your fever-tainted breath and swollen face. You were not so attractive then as you are now. And through those years of childish sunshine and shadows, she was always ready to care by the magic of mother's kiss, your little, dirty, chubby hands whenever they were injured in the first skirmishes with the rough old world.

And then the midnight kiss with which she routed so many bad dreams as she leaned above your restless pillow, have all been of interest these long, long years.

Of course she is not so pretty and kissable as you are; but if you had done your share of the work during the last ten years, the contrast would not be so marked.

Her face has more wrinkles than yours, and yet if you were sick that face would appear far more beautiful than an angel's as it hovered over you watching every opportunity to minister to your comfort, and every one of these wrinkles seem to be bright wavelets of sunshine chasing each other over the dear face.

She will leave you one of these days. These burdens, if not lifted from her shoulders, will break her down. Those rough, hard hands, that have done so many necessary things for you, will be crossed upon her lifeless breast.

Those neglected lips that gave you your first baby kiss will be for ever closed, and those sad, tired eyes will have opened on eternity, and then you will appreciate your mother; but it will be too late.

MAKE TASKS INTERESTING FOR KIDDIES.

There is nothing, perhaps, more productive of great results as the little household tasks, which are first explained and then practised by children. The best way is that which makes the doing a pleasure. The tiniest child will wipe a dish for the mere novelty of it, but the novelty will wear off as the dishes increase.

Begin by telling a little story as the dishes are being washed, and how many things are to be told of pottery. How the ancient people made their dishes, and what strange pieces are found yet. Indian pottery and all the new and wonderful creations in china, may be woven into stories. Study corn on the cob, in the meal and its other secondary products and read to them from Hiawatha, the rhythm alone has a charm for children.

Let the child plant some grains of wheat and oats and care for the little plantlets. Tell them about milling, then they will be ready to do a little baking, and what fun as mother tells them the why of each step. It is true there may be a little more mess to clean up, than if mother did the work herself, but girlie is learning a valuable lesson, and the duty should be a pleasure for mother.

And there is sweeping and dusting and darning and mending, each with their histories to be told and their ways to be explained. Oh, who would not be glad to be a child again if mother would teach like that?

She hasn't done so very much of it yet—the average mother, but her babies are bringing her to it gradually, and before long the child and the mother will have revolutionary ideas regarding household drudgery. The one child is a much simpler problem than two or more children, for each child is a distinct entity; it cannot see as the others see; it will not think as do they; nor will even the physical activities be like theirs. The word of admonition that does ripple the placid disposition of one child will fret another to exasperation and still not correct the original fault. For each there must be at least some alteration in the methods of disciplinary training and education. Yet this will not be difficult for the resourceful, sympathetic mother. She will instinctively feel what each child needs. She will be daily providing plays and means of employment, really of culture, which will not only satisfy the needs of each child, but also promote her own life interest.—Exchange.

Better Returns From Apples

Nova Scotia Growers Have Found Ready Markets—No Farm Complete Without An Orchard.

"If British Columbia only knew it, it is Nova Scotia—not Oregon and Washington—that is her competitor in the choice prairie markets."

Such was the statement made by Mr. Alex. McNeill, head of the fruit branch at Ottawa, says an exchange. The Nova Scotia Gravensteins, he claims, are second to no other variety or even to the same variety grown elsewhere, so far as the fall varieties of apples are concerned. Co-operation has put the apple growing industry in Nova Scotia on a basis whereby the apple growers of that province can find ready markets at high prices for all the apples they can produce. Distance matters nothing with the Nova Scotians. Freight rates are the consideration and the present rates do not prohibit apples being shipped even from the extreme eastern part of the Dominion to the prairies at a profit. Incidentally Mr. McNeill is one of the most ardent co-operative workers in the broad Dominion. He does not limit

himself to the mere outskirts of the fruit-growing industry, but anything in the line of co-operation is of interest to him. He is in sympathy with any movement that will make a shortcut from the producer to the consumer. He cannot see, he says, any necessity for certain kinds of produce going a round-about way to the consumer. Every middleman must pare off his commission, and in many cases the middleman is unnecessary. It means that the consumer must pay all the more, but in spite of that fact the producer's returns are not increased.

Co-operation has done a great deal for the apple industry in Ontario. A few years ago the farm orchard was regarded only as a place for children to play, and incidentally as a means of furnishing apples enough for the family. If there chanced to be any surplus, over and above what the enterprising and other insects and diseases left, someone from the town or village would invariably call round and make an offer for them. The offer was usually taken for money from apples was always regarded as money found. Co-operation commercialized the apple industry, he said.

The apple crop used to be regarded more in the light as a gift of

As fresh as summer roses in early dew.

Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or 'phone, and a messenger will call.

Providence and not as a source of revenue. Year by year more and more land is being devoted to orcharding, and with intelligent management orchards all over the country are proving very remunerative.

ADVANTAGES OF ALFALFA.

The qualities which recommend alfalfa as a hay crop may be summed up as follows:
1. Alfalfa is a legume and by virtue of its root structure it has power to take nitrogen from the air and fix it in the soil.
2. Alfalfa adds much organic or vegetable matter to the soil on account of its many roots. The

organic matter binds together loose soil, giving it body and capacity to hold moisture. It opens up and gives aeration to heavy clay soils.
3. Alfalfa is a deep-rooted plant. It therefore, makes use of the plant food at lower depths in the soil than do small cereals and grass.
4. Alfalfa grows rapidly, producing abundant crops. From two to four cuttings per season are obtained.
5. Alfalfa, when well established, stands from three to five years and even longer on suitable land.
6. Alfalfa hay is a rich, nutritious, palatable stock food.

Transient Advertisements payable in advance.
Rates for Contract Advertisements furnished on application.
Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.
In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, FEBRUARY 21, 1913.

OUR INDIANS.

The total number of Indians in all Canada is about 105,000. The United States has some 300,000, about three to one of our Indians. For 1912 parliament voted \$164,566 for hospitals, medicine and medical attention for our wards, practically \$1.50 per head, while congress granted only \$90,000 for similar purposes for the Indians of that country—thirty cents per head.

On the moral effect of this an exchange says: "This is only one instance of the means of which the government of Canada avails itself to secure the devoted allegiance of the Indian population. The Indians respect and trust the authorities and the authorities respect and trust them. According to the Indian Rights Association of the United States, the Indians there have very little confidence in the government. Their conditions are contrasted with that of the Canadian Indians, much to the disadvantage of the former."

THE PRICE OF MONEY.

THAT this Municipality, along with other cities, towns and municipalities of Canada, must plan on paying a higher rate of interest henceforth on all bond issues, is very evident. Canada, with its marvelously rapid development, is evidently creating a greater demand for ready cash than the world's money markets can supply. It is simply a case of supply and demand, and as the demand exceeds the supply the price of the commodity goes up. Not long ago such cities as Toronto and Montreal could have marketed 4 per cent. debentures at par. Recently Toronto sold its last 4 per cent.'s at a nett price of 89, while Montreal, which proposes to issue about fourteen millions, has been given power to increase the rate of interest to 4½. Western cities are paying 4½ to 5, and at 5 per cent. Saskatoon realized 99½, and Moose Jaw only 98.

WHY THE NEWSPAPER?

Frontier newspapers have a strenuous time making "ends meet," and many an editor-proprietor knows that he is simply wasting his time. It is all right to have an eye on the future and "stay with it," but what could be more disheartening than hope deferred along with a meagre dole of subscribers, and advertising or jobbing patronage that would make the proverbial church mouse weep. Of course it is a mistake to commence a newspaper in a town of less than fifteen hundred population. It requires that many people for a field or base, because, of that number, there will always be a certain disgruntled class who send away their printing and prefer to subscribe for an outside paper rather than the one printed at home. No matter how loyal the paper may be to the town and district and use its poor ability to forward each individual's welfare, there is an element who never cease to decry and knock every effort toward improving conditions. They will offer a dozen whining excuses if asked to subscribe and thus help in the very necessary encouragement required to promote general advancement and prosperity.

Newsgathering in a small town is one of the most difficult problems confronting an editor. How to avoid being commonplace in publishing trivial affairs, how to clothe sentences in such garb that no one can take reasonable offence, how to courageously stand for certain political, moral and social principles without losing the confidence and support of a single reader or patron, how to lead opinions of a mixed, sensitive community to a common end, and how to make the paper a clean and creditable medium for obtaining rights and redress of grievances. Those are some of the cares that give the editorial brain exercise. Ask a man for an interview which would be of public interest, and often will he give an evasive answer or make a promise he never intends to fulfil, and the men who never give an item of news to the reporter are generally first to criticize. Advertisers pay less on the country weekly than any other publication, and although they should furnish copy for their ads. promptly and regularly to freshen and brighten the space, they seem to think that the hard-working compositors should write their copy as well. Every newspaper reader watches the advertisements and the fresh ad. always brings good results to the buyer and seller.

The distant reader sizes up a town by the quality of the reading matter and ads. in a newspaper. To that extent every citizen has a duty to perform. He may, by friendly converse and suggestion to the editor, if not by subscription or advertisement, help to make the paper a credit and energizing force in building up the town. A live newspaper must represent the thought and progress of the times, must be a true reflection of the constituency it represents. It has been truly said that certain newspapers have built up cities. In this age, publicity backed by truth, is one of the greatest, if not the greatest, elements in attracting the attention of the multitude. No other means has been so successfully devised to induce people to assemble and invest. The newspaper reaches the nethermost parts of earth and people follow its trail, take stock in its articles, and are guided by its reports. A live, healthy newspaper is one of the best assets a town can have. To make it such the population must be there, and a generous support given. Some newspapers are in advance of the town and are only making time until citizens catch up and catch on—The Similkameen Star.

Miraculous Escape.

An accident which, but for the presence of a pine tree near by, must surely have resulted in serious injury, if not a fatality, occurred on Monday night. The result, however, was nothing worse than slight damage to harness, and probably \$10 damages to buggy.

A single rig occupied by the driver only had stopped at the top of the hill in front of the Clark cottage. The horse was impatient and began backing, and though the animal was turned completely around it was still unruly and continued to back, sending the buggy backward down over the steep hillside opposite the packing house. Turning sidewise as it backed it came to a place in the bank which was perpendicular, and there horse, buggy and all rolled over and over until brought to a standstill by a big pine tree, probably some fifty feet below, but still practically suspended fully that distance above the road below. The driver was thrown out, and upon regaining his feet found his horse turned end for end lying between the shafts. By cutting the harness the horse was soon released, and it continued to slide down until the road below was reached. Other than being considerably unnerved the driver was also none the worse of the accident.

PENTICTON BOARD OF TRADE

Talks Transportation and Telephone.

That Penticton is as greatly dissatisfied with the attitude of the Okanagan Telephone Company as is Summerland was shown by a discussion by that town's Board of Trade last week. Much regret was expressed with the attitude of the company to the Government line. The company's rates were found higher in many cases than the Government rates, and the Board has decided to ask for a Government investigation looking toward a remedy.

The attention of the Board was called by the Saskatoon Board of Trade to the ruinous waste of time occupied in transportation of Okanagan fruit to prairie towns. Last year perishable fruit was from eight to ten days in reaching Saskatoon from this valley. The Board will appoint a committee to take the matter up with the Saskatoon Board with a view to procuring a better service.

Information has been laid before Magistrate English by Constable Graham in which Thomas Figgis of the Victoria Cafe is accused of dispensing intoxicating liquor. The date of the offence is stated as February 11. The case came up before Magistrates English and Thomson on Tuesday afternoon when the accused pleaded "not guilty." The Reeve cautioned the accused to be careful in his pleading, as, if proven guilty, his pleading otherwise would be against him. He, however, maintained the plea, stating that he had taken bottles from drunks, later returning them, but had never sold any liquor. As Constable Graham had not been able to summons his witness, W. C. Kelley, who appeared for the prosecution, asked for an adjournment until Friday at 2 p.m. Constable Graham was instructed to, in the meantime, serve a summons on the desired witnesses.

[Continued from Page 1.] range the proposals cover. They include:—

(1) Development of the direct work of the Federal Department by assisting and developing the livestock, dairying, fruit-growing and other industries, along lines of investigation, research and improvement in transportation.

(2) The strengthening of all lines of instruction and educational work, in the belief that this will not only mean better farms and happier men and women. This will embrace the increasing of the efficiency and equipment of the agricultural colleges, the establishment of agricultural schools, of dairying and horticultural schools, of short courses in agriculture. It will also include invaluable work of domestic science.

IT'S NOT TOO MUCH.

While the Minister states that he believes the ten million appropriation may seem large, yet it is none too large for the work to be done, and he expressed the hope that perhaps the appropriation would still be supplemented in years to come, so that effective and lasting development along right lines of the country's national asset could be secured.

Short Courses in Fruit and Vegetable Growing.

Under the direction of the Horticultural Branch of the Department of Agriculture short courses will be held this week and the week following in the Southern Okanagan. Friday evening and Saturday afternoon, February 21 and 22, at Peachland; Monday afternoon and evening, February 24, at Naramata; Monday afternoon and evening and Tuesday afternoon and evening in Summerland. Monday's lectures will be given down town, Tuesday's at West Summerland. The program is as follows:

PEACHLAND.

Friday and Saturday, February 21st and 22nd.
Friday evening, 8.00, Management of the Soil—Ben Hoy. 8.45, Pruning Orchard Trees (Illustrated Lecture)—M. S. Middleton.
Saturday Afternoon, 2.00, Orchard Pests, with special reference to Fireblight—W. H. Brittain. 2.45, Handling Peaches in the Okanagan Valley—Edwin Smith. 3.30, Prospects in the Prairie Markets for 1913—J. Forsyth Smith.

NARAMATA.

Monday, February 24th.
Monday afternoon, 2.0, Practical Tomato Culture—B. Hoy. 2.45, Orchard Pests with special reference to Pear-blight—W. H. Brittain. 3.30, Pruning (Orchard Demonstration)—M. S. Middleton.
Monday evening, 8.00, Improving the Shipping and Keeping Qualities of our Fruit—Edwin Smith. 8.45, Okanagan Fruit in the Prairie Markets—J. Forsyth Smith.

SUMMERLAND.

Monday, February 24th.
Monday afternoon, 2.00, Value of Precooling and Cold-storage for the Okanagan—Edwin Smith. 3.00, Marketing the Okanagan Peach—J. Forsyth Smith.
Monday evening, 8.00, Orchard Cultivation and its relation to Cost of Production—Ben Hoy. 8.45, Control of Orchard Insects and Diseases in Summerland—W. H. Brittain. 9.30, Pruning (Illustrated Lecture)—M. S. Middleton.

WEST SUMMERLAND.

Tuesday, February 25th.
Tuesday afternoon, 2.00, Orchard Pests with special reference to Fireblight—W. H. Brittain. 2.45, Cultivation and Cover-cropping of the Orchard—Ben Hoy. 3.30, Pruning (Orchard Demonstration)—M. S. Middleton.
Tuesday evening, 8.00, Improving the Keeping and Shipping Qualities of our Fruit—Edwin Smith. 8.45, Marketing Fruit on the Canadian Prairies—J. Forsyth Smith. The public is cordially invited to attend all lectures. Men in all branches of farming will find the lectures of value to them. The courses are free. Come and be prepared to ask questions.

BUSINESS CHANGES.

That there is to be a gents' furnishing store opened in the Campbell building, West Summerland, is the information furnished the Review. The new store will be opened by a man who is expected to arrive here shortly, and will occupy that part of the building now in the possession of T. E. Moore. Mr. Moore has not been adding much to his stock of late, his purpose being to retire from the grocery business. He will probably quit at the end of February, A. B. Elliott taking over the stock then remaining.

LOCALS.

The Angove Mercantile Company, Limited, is now the correct title of the concern formerly the Angove & Stinson Co., Ltd.

A. C. and F. Riley, the former a College student, the latter of the Review staff, rode to Peachland last Sunday morning. The former preached at the morning service of the Baptist Church there.

Nothing has been heard from A. A. Derrick or party as far as can be learned except a short message stating that they had arrived in Spokane. The current report last week that Miss Foreman had left a note for her parents has not been confirmed by the latter. It was not until after Mr. Foreman returned home from work, later than usual, that night that their suspicions were aroused. Immediately enquiry was made and preliminary steps taken to intercept the party, which, however, was without success.

Co-operative Plan for Apple Growers.

System is Explained by Nova Scotian.

Feels American Competition.

The question of the high cost of apples to the people of the prairies, and the poor pay for the produce was the subject of further enquiry by the committee on agriculture at Ottawa last week. S. B. Chute, Berwick, N.S., president of the United Fruit Company of Nova Scotia, gave evidence.
He contended that the apple shippers of Nova Scotia were suffering under most unjust rates on the railway, and were unable to secure clean bills of lading so that they could make no claims for shortage. They were also badly treated in the way of rolling stock. The trade in Montreal, he said, had been particularly injured.

Mr. Chute thought that acid phosphate should not be dutiable. It was used largely by the orchardists, and was part of their raw material. To retain the duty was a direct tax on farming.

SYSTEM IS EXPLAINED.

Mr. Chute explained at length the system of co-operation in vogue in the Annapolis valley. He pointed out that it cuts out all unnecessary expenditure and gives both producer and consumer full value. Local companies are formed, consisting of 40 to 80 members, all of whom bring in the total of their product to be packed. The central office of the co-operative association makes all sales. All apples are packed in packing houses, there being two and sometimes three grades. He thought no third grade should be exported.

The association sent a man to England this year and got fine results. There was a market in England for No. 3 grade apples, he said, but they were not branded by the association.

"The actual cost of raising a barrel of apples is one dollar," said Mr. Chute, in answer to a question.

LOSS TO PRODUCER.

"Therefore, selling No. 3 grade at 80 cents is a direct loss to the farmer. It is an argument in favor of spraying."

He thought Nova Scotia farmers were getting a fair price for their apples, but in comparison with what the farmers received the consumers were paying an enormous price. "We sometimes wish that we had a share of the larger price," he added.

He thought the Western Canada market was the best, though the British market was also good. The freight on the apples from Nova Scotia to Winnipeg was \$1.24 a barrel, as against 90 cents to England. To Edmonton the rate was \$2.04. Thus the association laid its apples down in Winnipeg for

\$3.24. The West was demanding its fruit in boxes, but in England barrels were more popular.

SMALL COMPETITION.

In 1912 there was practically no competition in Winnipeg except from Ontario apples, but this year there was severe competition from American fruit sold at 70 cents a box f.o.b. shipping point. Mr. Chute said only about three per cent. of Nova Scotia apples went west, 80 per cent. went to Great Britain. Two years ago 200,000 barrels went to Germany, and it was a most satisfactory trade. Apples were sent from Nova Scotia over to South Africa. "But in the end he thought the Western Canada market would be the greatest market of the future."

The shipping time to the West shortened this year, some of it going in five to seven days, as compared with seven to fourteen days last year.

A SUCCESSFUL MEETING.

The special meeting of the W.C.T.U. at West Summerland on Monday afternoon was well attended, notwithstanding the bad condition of the roads.

Mrs. Estabrook took charge of the devotional exercises, after which Mrs. Kelley gave a paper on Frances Willard, a subject old, yet always new. "Mrs. Kelley's paper showed careful preparation, and cast about us the spell of the influence of that noble woman who had such clear visions of the world's need, and "who always did her best."

Mrs. McIntyre gave an interesting reading on "Another Link in the Chain of the World's W.C.T.U.," which was forged somewhat recently in Corea.

Mrs. Daly gave an excellent address on the work of our temperance missionaries among the foreigners at home and abroad, chiefly among the mothers and children, which latter, to quote the speaker, are the most valuable asset of a nation.

Summerland is to be congratulated on having ladies of such spirit and ability among her citizens.

A pleasing feature was the singing of the Misses Brown, with which the program was interspersed. Another pleasing feature was the offering of seven dollars and ten cents for missionary work.

Still another pleasing feature was the addition of five new names to the membership roll.

The regular meeting of the union will be held at the home of Mrs. D. H. Watson, the first Monday in March, being a week from next Monday. It is to be a mother's meeting, and mothers will be particularly welcome.

Contractor Harvey is building a cottage at West Summerland for G. R. Hookham.

Rev. J. P. Westman, Secretary for the Methodist Sunday Schools of B.C. and Alberta, paid Summerland an official visit last week.

Local News Items

Mrs. C. M. Smith has been visiting friends in Peachland.

Mrs. Lipsett will not receive on the fourth Friday of February.

A cable has been received from Jas. Ritchie announcing his sailing from England to-day, Friday, 21st February.

Mr. Carter, plumber with C. N. Borton, is building a story and a half cottage on one of the lots above the Hospital.

Harvey Phinney entertained four College boys at a joint birthday party one evening this week, their birthdays all falling on the same day.

Mrs. Adam Stark will receive for the first time on Tuesday afternoon and evening, February 25th. Afterwards on the first and third Wednesday.

The Over-seas Club has taken a short term lease of Campbell's Hall, West Summerland. During the term of the lease anyone wishing to use it will engage the hall from the Club.

Mrs. Pattison's many friends will learn with pleasure that she is steadily improving. The ankle which is causing her so much trouble is not sprained as was at first thought.

Remember the date of visit of Dr. Taube, Eye Sight Specialist of the Taube Optical Company of Calgary and Vancouver, who will be at Summerland Drug Co., Summerland, on Tuesday, March 4th.

W. Simpson this week moved his household effects and family to Naramata. Mr. Simpson, who is now in charge of the orchards of the Aikins estate, will live on the point beside Mr. Aikins's summer house.

Principal Sawyer occupied the pulpit of the Penticton Baptist Church both morning and evening last Sunday. Rev. Mr. Britain, Pastor of the Penticton Church, spoke to the College students here that evening.

Mrs. Schacht, wife of one of the railway contractors at Naramata, and her sister-in-law, Mrs. Hoff of St Paul paid Mrs. J. E. Phinney a visit this week. Mrs. Schacht, a former New Brunswicker, is a cousin of Mrs. Phinney.

J. R. Knight, of Edmonton, organizer for the Socialist Party of Canada, will lecture on Socialism in Empire Hall, Tuesday, February 25th, at 8 p.m. He will also lecture at Naramata on Wednesday evening, February 26th. All are invited to attend these meetings.

When returning to work on Wednesday afternoon Miss Conway met with an accident resulting in the breaking of a bone in her wrist. Miss Conway was coming down the hill when she slipped and fell heavily on one hand. We learn that though serious enough the break is fortunately only a minor one.

Miss Evelyn Brown returned home by Tuesday night's boat. Miss Brown, who has been teaching at Lower Nicola, suffered a severe attack of appendicitis some weeks ago, and has had to resign her position. As soon as she recovers sufficient strength Miss Brown purposes undergoing an operation.

A number of young people at West Summerland took advantage of the sleighing yet to be had in the hills, and enjoyed a sleigh drive to Meadow Valley last Wednesday night. Upon their return they repaired to the home of Mrs. Phinney, where refreshments were served and a good time continued until early morning hours.

The members of the local St. Andrew's Society met last Monday night in Campbell's Hall, West Summerland, the occasion being a social night. A varied program was carried through, including songs, duet, recitation, readings, and several fine gramophone selections. Next regular business meeting takes place on Monday, 3rd March.

Mr. Elvigton of Carlson & Company's local office staff was taken suddenly ill on Monday about 11 o'clock, suffering most intense agony. A doctor was hurriedly summoned, and he found it necessary to administer chloroform before the patient was removed to the hospital. Mr. Elvigton's trouble has been diagnosed as gall stones. We are glad to report that he is much improved, and is again on the street, though not feeling very strong.

Mr. T. N. Ritchie came in from Peachland on Wednesday night's boat.

Mr. and Mrs. Walter Shouldice left for Ottawa, their former home, on Thursday.

Mr. and Mrs. Reg. Tait enjoyed a visit last week-end by Mr. Harrison of Kaleden, Mrs. Tait's father.

If there is anything wrong with your Eye Sight don't fail to consult Dr. Taube. All work absolutely guaranteed as tested.

W. H. Mallett, jeweler, of Brandon, a property owner here, and well-known to many of our business men, came west to Vancouver this week where he will permanently reside.

The Young People's Society of the Presbyterian Church held a very successful Valentine party last Tuesday evening in Campbell's Hall, West Summerland, some sixty or more being present.

Dr. and Mrs. R. C. Lipsett plan on starting for a two weeks' visit to the Coast cities next Wednesday. Mrs. A. L. Moreland goes to Kelowna on Monday morning, and on Wednesday will join Dr. and Mrs. Lipsett on their trip to the Coast.

The two men who were arrested in the railway camps at Naramata for attempting to organize a strike, were tried and found guilty. The principal agitator was sentenced to a term at Kamloops, while the other was allowed to go on suspended sentence.

While cutting wood last Saturday T. C. Orr received a nasty cut across the top of the instep, with which he is likely to be indisposed for sometime. Medical aid was immediately summoned and the doctor found it necessary to put two stitches in the wound.

W. P. Morton, for some time a resident of West Summerland, and who has been assisting in the Post Office there, and a student of Okanagan College, went to Vernon early this week. Mr. Morton does not expect to return until the opening of the College next fall.

The packing school which is being conducted this week in Campbell's Hall, West Summerland, is well patronized, there being twenty pupils. Much satisfaction is expressed of the instruction received. Next week packing will be taught in the Fruit Union building down town.

According to advice received by friends here all the members of Mr. J. M. Robinson's family now in Toronto, with the exception of Will, are to leave in March to join their parents in England, where they will probably remain for a year. After taking his degree of M.D., Will will return to Naramata.

CORRECTION.—We are glad to correct a misstatement inadvertently made last week regarding the standing made by E. H. Lock and T. F. McWilliams at McMaster University for the half year. The former passed first-class in all subjects but one, and the latter also passed first-class in all subjects but three, not as was stated last week, all second-class.

For some days a crew of men have been at work removing a quantity of earth from the shore road north of T. P. Thornber's home, quite a large land slide having occurred there last Monday. The slide, it is stated, is a direct result of an unusually heavy explosion near or at the tunnel above Naramata, the slide following immediately after the heavy blast.

A joint meeting of fruit growers was held on Wednesday evening to receive the reports from Reeve Thomson, delegate to the Farmers' Institute, and Mr. Logie to the Agricultural Association. During the general discussion President Hilborn of the Farmers' Institute struck a happy note on the subject of cleaning up. He urged that special effort be made to free the streets and roads of weeds, and suggested that the members of the Institute set the example by each putting the roadway in front of his lot in good condition. Mr. Hilborn also favored a Summerland Association for fruit marketing, and in this he had many supporters.

Average price of eggs, 45 cents per dozen. Pen temperatures, highest 60 degrees, lowest 20 degrees, mean 39.53 degrees: Rain fell on 8 days, and 2 inches of snow recorded.

The following pens in Class I. laid the largest number of eggs during the month: 15 (115 eggs), 17 (110), 18 (109), 4, 16 (96), 14 (94), 12, 2 (93), 1 and 3 (85). The following also laid 6 eggs on one day—Pens 12 and 14.

The leading six pens in Class I. are as follows: Pens 17, 15, 16, 18, 14 and 4. Pen 16 displaces Pen 6; 14 ousts Pen 7 and 4 moves up to sixth position. Pen 8 still remains the wooden spoonist.

The fight between Pens 17 and 15, from present appearances would look as if it is to be a matter of stamina, as both Pens are of the same strain. Pens 2, 10 and 19 are also of related blood.

The following are the star performers in Class II.: Pens 32 (107 eggs), 34 (98), 29 (94), 27 (93), 39 (90), 35 and 24 (89), 37 (88).

The leading six pens are as follows: 22, 29., 27, 35, 32 and 25; and the following contestants laid 6 eggs on one or more days: 32 (twice), 37, 29, 25.

Broodies: Pens 34 (2 birds), 33 and 27 (one each). Pen 36 commenced laying on January 21st, Pen 40 on 10th, and Pen 28 on February 1st and 2nd.

Pen 34 produce eggs of a deep brown color, and are closely followed in this particular by Pen 37.

Owing to the abundance of natural animal food, the proposition of milk albumen has been reduced five per cent. The yards have been heavily manured for several years past, and worms are present in abundance.

On February 2nd, the largest daily total was recorded—112 eggs. W. Stroyan, Poultryman. J. R. Terry, Secretary.

EXPLAINED.

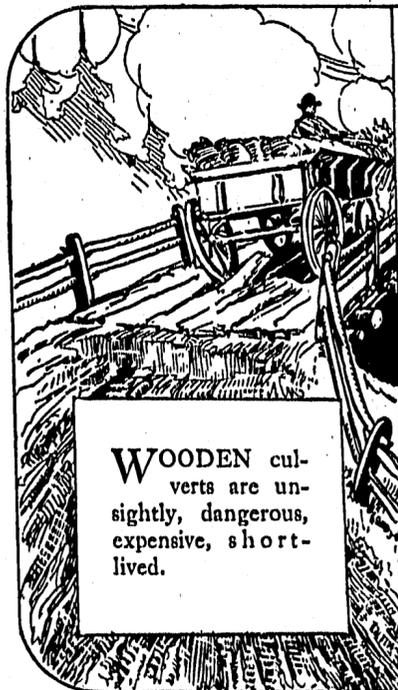

"I saw you in the library last evening, and you appeared to be in a brown study."

"No, It was a Browning study. I was trying to study out the meaning of one of his poems."—Christian Science Monitor.

There's a reason for everything—except women.

... You can SELL IT if You Offer It in The ...

Review "For Sale" Column.

WOODEN culverts are unsightly, dangerous, expensive, short-lived.

Which kind of a culvert does your waggon cross?

DOES the road you use pass over rickety, dangerous wooden culverts, that are constantly in need of repairs and often washed away entirely? Or is it carried safely across the low places by modern, everlasting culverts? Build your CULVERTS OF CONCRETE

which not only cannot be washed away, but actually grow stronger with age and use.

Every farmer owes it to himself to insist that the money he pays for road-taxes be spent to the best advantage. As a ratepayer, he is entitled to the best roads that can be made with that money. When culverts are washed out, and the road rendered impassable, he not only suffers inconvenience but may also be caused financial loss by inability to get necessary supplies in time for spring planting. And at best, with wooden culverts, part of the money that should be used to make better roads must be spent every year for repairs.

Insist upon Concrete Culverts

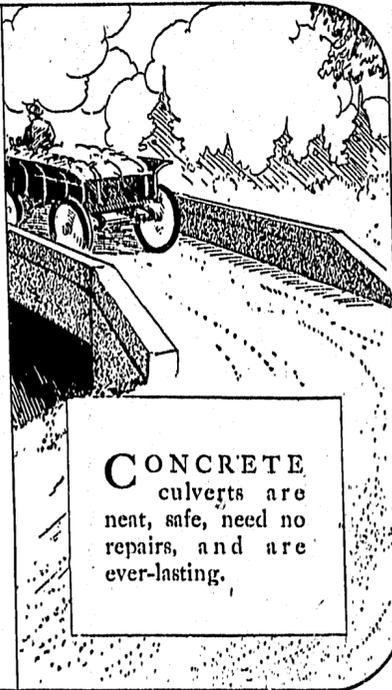

It will pay you and everybody else in your county.

Canada Cement Company Limited
505 Herald Building, Montreal

LET us send you a copy of our free book, "What the Farmer Can Do With Concrete."

IF you want to know more about Concrete Culverts, write our Information Department.

CONCRETE culverts are neat, safe, need no repairs, and are ever-lasting.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Scrubbing Pads may be obtained cheap at the Review office; made from offcuts of good paper.

Naramata Notes.

Miss Mayda Williams is improving we are glad to report.

Mr. T. H. Boothe was in Kelowna the latter part of last week.

Mr. C. G. Griffin spent the first part of the week in Naramata.

Mrs. Davies and Mrs. Pushman spent Wednesday in Summerland.

Mrs. Jas. Hayward went to Peachland on Wednesday night to make a short visit with her daughter.

The bottling works has begun its work for the season, making a small quantity of excellent pop the first of this week.

The two ladies who have been cooking at the camp of Davenport & Grey left for their home at Spokane, Wash., on Tuesday night.

Mr. and Mrs. George Wolstencroft entertained a few friends at their home on Wednesday night. The evening was very pleasantly spent with music and whist playing.

Mr. Guy Brock of Hartford City, Indiana, arrived on Tuesday night to spend an indefinite time in our community. He will stay at the home of his aunt, Mrs. George Cook.

Mr. D. McKay was taken sick last Saturday, and we are sorry to report that his illness has developed into pneumonia. Miss Gordon has been called and Mr. McKay is doing as nicely as can be expected.

The Ladies' Aid will have its second meeting in the church basement on Feb. 26th. These ladies have started a good work and would be very glad to welcome any who do not now attend.

Work is under way for the erection of an eating-house to accommodate the office men and teamsters of the Grant-Smith Co. Carpenter J. C. Williams is at the head of the work. The building will be located on Mark Manchester's lot on the corner of Third Street.

On Tuesday Mr. Wm. Simpson of Summerland moved to our town. He is to take charge of the work of converting the point owned by Mr. Carroll Aikins, into a rose garden. A shack has been built for him on the point, and his goods were brought over on the scow and landed there.

Mr. Westman, the Methodist Sunday School Secretary for British Columbia and Alberta addressed a public meeting in the church last Friday evening. The attendance was not as large as was wished for, but those present enjoyed his address and vote him a very well-informed and capable man.

The eighth dance of the popular series Mr. Dean Walters is managing, the Valentine Party, was given under the auspices of the Unity Club. It was the best attended one of the season. The hall was appropriately decorated, and the Club ladies served refreshments very much enjoyed by all. The ladies were well pleased with the success, both socially and financially. The next dance of the series has been changed from the magazine advertising party, as was planned, to something appropriate to the date, Feb. 22nd.

HILDA'S BROTHERS.

Not long since a gentleman was passing through a certain town in which his only child, an attractive girl well advanced in her teens, was finishing her education. Having a little time on his hands, he decided to have some conversation with the principal of the school. He was received with great cordiality, and his daughter's attainments were duly described.

"I think," said the lady principal to the proud parent, just as he was about to take his departure, "that you ought to be very happy, my dear sir, to be the father of such a large family, all the members of which appear to be perfectly devoted to one another. I think it is most charming that it should be so."

"Large family? Devoted to one another!" gasped the visitor in undisguised amazement. "What can you possibly mean, madame?"

"Oh, but I am sure they are devoted to one another," responded the principal, beaming through her glasses. "Why, no less than seven of Hilda's brothers have been here during the term to take her out, and she tells me she expects the tall one with the dark blue eyes again to-morrow."

Shiloh
The family remedy for Coughs and Colds.
Shiloh costs so little and does so much!

BARGAINS

FOR

Review Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1
Vancouver Daily Province - \$3.00
Better Fruit - 1.00
The Review - 2.00-6.00
The three for \$5.00

BARGAIN No. 2
Canadian Courier - \$3.00
Canadian Horticulturist - .60
The Review - 2.00-5.60
The three for \$4.60

BARGAIN No. 3
Vancouver Daily Sun - \$3.00
Country Life in America - 5.00
The Review - 2.00-10.00
The three for \$8.00

BARGAIN No. 4
Canadian Horticulturist - .60
Canadian Poultry Review - .50
The Review - 2.00-3.10
The three for \$2.70

BARGAIN No. 5
The Busy Man's Canada - \$1.00
World's Work - 3.60
The News-Advertiser, Daily 3.00
The Review - 2.00-9.60
The four for \$7.00

BARGAIN No. 6
Winnipeg Telegram - \$2.00
(or Free Press)
B.C. Saturday Sunset - 2.00
Canadian Magazine - 2.50
The Review - 2.00-8.50
All four only \$6.60

BARGAIN No. 7
World Wide - \$1.50
Farmers' Advocate - 1.50
Free Press, Weekly - 1.00
The Review - 2.00-6.00
The four for \$4.75

BARGAIN No. 8
British Columbia Magazine - \$1.50
Toronto Mail and Empire - 1.00
Farmers' Advocate - 1.50
The Review - 2.00-6.00
four for \$4.50

BARGAIN No. 9
Calgary Herald - \$3.00
Collier's (Canadian Ed.) - 5.50
The Review - 2.00-10.50
The three for \$8.90

BARGAIN No. 10
Vernon News - \$2.00
Toronto Saturday Night - 3.00
The Review - 2.00-7.00
The three for \$5.85

BARGAIN No. 11
Canadian Pictorial - \$1.00
Windsor Magazine (13 mos.) 3.25
The Delineator - 2.00
The Review - 2.00-8.25
The four for \$5.75

BARGAIN No. 12
Rod and Gun - \$1.00
Poultry Review - .50
Nor-West Farmer - 1.00
The Review - 2.00-4.50
All four for \$3.90

BARGAIN No. 13
The Garden Magazine - \$1.85
Canadian Courier - 3.00
The Review - 2.00-6.85
The three for \$5.75

BARGAIN No. 14
Weekly Edition of either—
The Province - .
Calgary Herald - .
Winnipeg Telegram - .
Winnipeg Free Press - .
Family Herald and Weekly Star
Toronto Mail and Empire
(on Picture)
or
Montreal Witness - 1.00
Canadian Sportsman - 2.00
McLean's Magazine - 2.00
The Review - 2.00-7.00
The four for \$5.40

If none of these combinations suit you, make up one to your liking, and we will quote you a price on the selection.

We are also Subscription Agents for—

The Ladies' Home Journal - \$2.00 | Country Gentleman - \$2.25
Saturday Evening Post - 1.50 | The Fruit Magazine - 1.50
Successful Poultryman - .50

These Offers are for old or new Subscribers. If present Subscribers are in arrears it will be necessary to pay to date before these Bargains become available.

 Judge.

Notes on Sporting Events.

The Duke of Wellington, watch-
 ing a game of football on one occa-
 sion, made the significant state-
 ment that the Battle of Waterloo
 was won on the football fields of
 Britain. This was a great tribute
 from a great man to the value of
 athletics in building manhood.
 Notwithstanding this, many men
 regard interest in athletic sports
 as a strong argument in favor of
 the doctrine of total depravity.
 And so it has come to pass that
 in many cases undesirable elements
 have been allowed to capture that
 which should be of great advantage
 to the young men of our country.
 Professionalism—the commercial-
 izing of sport—has been allowed to
 do its deadly work. The gambling
 element fixes the contests and
 fleeces the unwary. In the past
 many out-door sports have been
 fraught with danger, being carried
 on amid every species of evil
 environment, including drinking,
 gambling and profanity. The
 splendid work of the Y.M.C.A.'s in
 encouraging true amateur sport is
 worthy of all praise. The B.C.
 Amateur Athletic Union is also
 worthy of honorable mention, and
 athletic clubs and athletes of the
 Okanagan Valley should seek affilia-
 tion with it. Here chaos reigns,
 and professionals and amateurs are
 playing together in the same teams.
 This matter of affiliation with the
 Amateur Athletic Union is of vital
 importance. Here in Summerland
 it cannot be said that undue inter-
 est is taken in athletics. In fact a
 revival of interest in football, bas-
 ket ball, base-ball, hockey, tennis,
 lacrosse, etc., would be a good
 thing. The Town and College
 teams are playing fast, clean basket-
 ball with meagre encouragement
 from the public at large. The next
 game in the series will be played
 on Saturday night in the Town
 Gymnasium. Let us encourage the
 boys by giving them a bumper
 house.

The Victoria Hockey team has
 virtually won the championship of
 B.C. and Lester Patrick is prepar-
 ing to take the senators back east
 to play for the Stanley Cup.

OKANAGAN DISTRICT.

**FERRY, SUMMERLAND—EAST
 SUMMERLAND, OKANAGAN
 LAKE.**

IN ACCORDANCE with chapter
 78, R.S.B.C., 1897, "Ferries Act,"
 the Government of British Columbia
 invite applications for a charter for
 a ferry to ply between Summerland
 and a point on the opposite side of
 Okanagan Lake known as East Sum-
 merland, a distance of about two
 miles and three-quarters.

Applications will be received up
 to 12 o'clock noon, Tuesday, 4th
 March, 1913.

The charter will cover a period
 expiring on the 31st March, 1915.

The ferry shall make two trips
 each way every day, weather per-
 mitting.

Applications shall give a descrip-
 tion of the vessel or vessels it is
 proposed to use, which must con-
 form in all respects to the require-
 ments of the "Canada Shipping
 Act" and amending Act.

Applications shall state the tolls
 it is proposed to ask for—

Each adult passenger.
 Each child (not in arms) under
 13 years.

Each head of cattle, horse, mule,
 or donkey, etc.

Each calf, sheep, goat, or swine,
 etc.

Each vehicle with one horse and
 driver.

Each cart or wagon with one horse
 and driver, loaded.

Each vehicle with two horses and
 driver, unloaded.

Each vehicle with two horses and
 driver, loaded.

Each parcel of 25 lb. and under,
 Freight, per 100 lb. and under,
 non-perishable goods.

Freight, per 100 lb. and under,
 perishable goods.

To the successful applicant the
 Government of British Columbia
 will pay at the expiration of every
 three months of satisfactory service
 the sum of two hundred and fifty
 (\$250) dollars.

The Government of British Colum-
 bia is not necessarily bound to
 accept any application submitted.

J. E. GRIFFITH,
 Public Works Engineer,
 Department of Public Works,
 Victoria, B.C.,
 11th February, 1913. f 21-28

emblematic of the championship of
 Canada.

Lorne Morlock will be back on
 the line-up of the College team on
 Saturday night. Hayward will
 take his old position at guard.
 This should improve the team con-
 siderably. As far as known the
 personnel of the Town team will
 remain unchanged.

(Continued from page 1.)

local records were made at an
 elevation of 700 ft. above the lake,
 records should also be made and
 published of the temperature in
 town. No definite action was taken
 as it is believed that the Govern-
 ment will remove the station to the
 experimental farm, which, it is
 anticipated will be established here
 shortly.

R. V. Agur called the attention
 of the executive to the fact that
 Summerland was not sufficiently
 advertised at Sicamous. The presi-
 dent said he had taken this matter
 up with the hotel manager there,
 and was promised wall space for
 local views. It would cost about
 \$25 to purchase and mount the
 views, and the matter was left with
 the advertising committee.

The secretary was instructed to
 write our member at Ottawa in
 reference to the Experimental Farm.
 The Finance Committee was re-
 quested to lookabout for a perman-
 ent board-room, and will report to
 the executive at its next meeting.

College Notes.

The Y.M.C.A. held its usual
 meeting on Tuesday, the Vice-
 President Mr. Ed. Armstrong,
 occupying the chair. The speaker,
 Mr. A. C. Riley, gave an address
 which could be well acted upon by
 all present.

On Sunday evening the chapel
 was filled to its limits by the
 audience gathered to listen to Rev.
 Mr. Britain of Penticton. These
 Sunday evening services are always
 favored by splendid addresses, and
 Sunday's was no exception, unless
 it is said it was better than usual
 and all who attended went away
 feeling better for having come.

The gymnasium has been the
 scene of much basket-ball practice
 of late, the College team being
 anxious to wipe three defeats off
 the slate in the cup contest. We
 venture to think that if there is a
 huge difference in the scores in the
 next game with the Town, which
 takes place this week-end, the
 College will not be in the minority.

The junior hockey team journeyed
 to Penticton on Saturday to play a
 team of that town, but found the
 ice in very poor condition, which
 rendered good play impossible.
 The result, 0—0, was a fair indica-
 tion of the play. Perhaps the
 juniors enjoyed the journey better
 than the game, but they arrived
 back in good spirits, glad to have
 proved themselves quite a match
 for Penticton.

The secretary of the Literary
 Society has to record another suc-
 cessful meeting which was held on
 Saturday last. An address on
 "How to Study" by Mr. W. C.
 Kelley, was the principal item of
 the evening, and those who had the
 privilege of attending were given
 much food for thought in his
 excellent talk. A quartette, and a
 unison song by male voices were
 added, and assisted in making the
 evening pleasant.

It was a merry party of boys that
 gathered in the dining room at
 10.15 on Saturday night to do honor
 to two of their number who were
 departing on Monday—Messrs. B.
 Finnis and C. Johnson. The chair
 was occupied by Frank Williams,
 and a hearty supper was partaken
 of. After supper speeches were
 called. With the singing of "Auld
 Lang Syne" and the O.K.C. Doxo-
 logy, one would think the gathering
 was over, but the favored ones must
 need wake up their peacefully-
 sleeping fellows with the College
 Yell.

There was excitement in the air
 on the evening of Friday, Feb.
 14th, when the First Year (Ac-
 ademic) gave a Valentine Reception
 in Morton Hall. The rooms were
 tastefully decorated with hearts
 and emblems suitable to the occa-
 sion, and practically the whole of
 the members of the faculty and
 student body assembled there at
 7.30 p.m. to enjoy each other's
 company and the supper prepared
 by their hosts. Prizes for the
 contests were won by Miss Hursch-
 mann and Roscoe McWilliams and
 Miss M. Williams and Chris. Riley.
 The First Year are to be congrat-
 ulated on the splendid success of the
 evening.

Opening This Week:

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 31

SUMMERLAND, B.C., FEBRUARY 28, 1913.

Whole No. 239

Liquor Act Materially Amended.

Action of Legislature Will Greatly Aid the Cause of Temperance and Morality.

A bill to amend the Liquor Act, which will doubtless be very effective in advancing the cause of temperance in B.C., is being put through the Provincial House.

The amendments, the necessity of which has been dictated by the experience of the past year or so, will, it is expected, meet with the approbation of the people generally, and will appeal particularly to those directly interested in the advancement of temperance in British Columbia. The amending bill fixes a uniform closing hour for all hotels in the province for every week day. Under the provisions of the act as it has stood till the present time, the only restriction as to hours has been on Saturday nights, when closing at eleven o'clock has been compulsory.

Taking advantage of the fact that there was no regulation of closing save on Saturday night, the proprietors of hotels at many points have kept their houses open all night during the major portion of every week of the year. Mr. Bowser and his colleagues of the ministry arrived at the conclusion that the hours during which liquor might be sold must be restricted as much as possible, and so the powers of regulation as to hours of closing hotels are, by the bill now before the house, taken away from municipalities, and uniform closing hours established for the whole province. These hours are 11 o'clock on all week day nights, save Saturday, when 10 o'clock is the hour. These are the hours which prevail in the City of Vancouver, where they were established some time ago by city law. The closing of all hotels at uniform hours will do much to kill the practice of joy riding in the neighborhoods of large centres of population, the hotels on the outlying sections of which have made a business of keeping open all night to cater to this class of custom.

IMPOSE NEW RESTRICTIONS.

Under the act as at present constituted, it is possible for chemists to furnish liquor on permits granted by medical practitioners or Justices of the Peace, and while the amending bill does not interfere with this privilege, it surrounds it with cast-iron restrictions, so that if permits are furnished without the very best of cause, those granting them will be subject to a stiff penalty.

The amending bill also straightens out, for the benefit of city and rural municipalities, all sections of the act which cover pleadings in court in the event of prosecutions for the illegal sale of liquor. Under the act these sections only applied to unorganized districts of the province. For instance, so far as unorganized districts were concerned, the finding of large quantities of liquor or utensils connected with the sale of liquor, was, under the original act, prima facie evidence that the sale of liquor was being carried on.

Henceforth, as soon as the bill becomes law, such evidence will be accepted as making out a prima facie case against accused persons in cities and rural municipalities as well as in unorganized districts. The amendment will do much to kill off the blind-pig industry—an evil which it is very difficult to eradicate. Police officers are also given the right to destroy liquor where no one claims it.

Any person found in possession of any compound, extract or mixture which can be used in the manufacture of intoxicating liquor, may, under the provisions of the amending bill, be prosecuted, and, on conviction, instead of being fined, may be sentenced to a maximum of twenty-one months' imprisonment. No fine is provided—conviction means jail. Hereafter keepers of blind-pigs, when convicted, will be sent to jail, the offence not being a finable one, even in a minor instance.

The amending bill also provides that in case of appeal from convictions under the act no appeal will

(Continued on page 6.)

ANNUAL SHORT COURSES.

Considerable interest was shown in the short courses in fruit and vegetable growing lecture which were given on Monday and Tuesday of this week. On Monday Mr. Edwin Smith talked on "Pre-cooling and Cold Storage for the Okanagan." That evening a live topic, "Marketing the Okanagan Peach," was dealt with very ably by Market Commissioner J. Forst Smith Ben Hoy, who is an expert in orchard cultivation, never gets far from that topic, and gave another of his able talks on Monday evening. On Monday evening, and again on Tuesday afternoon, W. H. Brittain dealt fully with orchard insects, diseases, etc. Monday evening Mr. Middleton, who spoke on "Pruning," was handicapped by a mishap to his stereotypical outfit, but this was fully offset by an able demonstration in the Phinney orchard on Tuesday afternoon. On Tuesday evening Mr. Edwin Smith spoke on "Improving the Keeping and Shipping Qualities of our Fruit," and was followed by J. Forst Smith, who, having spent the past season on the prairies, occasionally visiting the American fruit centres, gave a talk on the problem of marketing that received the closest attention. Mr. Smith's hearers were soon convinced that he has the marketing question well in hand, and they are hoping much from the result of his work, during the coming season.

WEDDING.

ATKINSON-SKEET.

A pretty wedding took place on Wednesday last at St. Stephen's Church, the contracting parties being Miss Gwendoline Skeet of Beckingham, Notts, England, and Mr. Robert H. Atkinson of West Summerland. Rev. H. A. Solly, rector of St. Stephen's, officiated. The bridesmaid was Miss Atkinson, sister of the bridegroom, and Mr. Will Atkinson acted as best man.

The bride, who was given away by the bridegroom's father, was attired in a pretty dress of cream voile, with panel of heavy cream lace, and a white picture hat with ostrich plumes; she carried a bouquet of white carnations. The bridesmaid was dressed in mauve silk, trimmed with satin and cream lace, with a large white hat, and carried a bouquet of narcissi.

After the ceremony a reception was held in Garnett Valley, at the residence of the bridegroom's father, at which nearly fifty guests assembled. Many beautiful and valuable presents were received.

POST-NUPTIAL RECEPTION.

One of the biggest social events of the season occurred on Tuesday of this week when Mrs. Stark received for the first time since her marriage.

About seventy visitors were welcomed. The rooms were tastefully decorated with daffodils and ferns.

Mrs. Stark was assisted in receiving by her mother, Mrs. Hayes, and sister, Miss Anna.

Coffee was poured by Mrs. Korr and Mrs. George Gartroll.

Refreshments were served by Mrs. Edgar, Miss Korr, Miss Limmer, Miss White, and Miss McLeod.

The classes of the St. John's Ambulance Association will start on Tuesday, March 4th, in Campbell's Hall, West Summerland, at eight o'clock. All those who wish to join are requested to be in attendance on that night, and the fee of \$3 must be paid before commencing the course of five lectures.

S. Bartholomew, a former resident of Summerland, returned last Monday night. Mr. Bartholomew was accompanied by Mr. and Mrs. George Johnson and son of St. Albans, who will probably permanently reside here, and by Miss Skeet, who this week became the bride of Robert Atkinson. Since leaving here Mr. Bartholomew has made a journey of probably 25,000 miles, having visited South America, South Africa and England, returning from the latter direct to Summerland.

MARKETING OUR FRUIT

Plans For Complete Re-Organization of Valley.

Local Organizations With Central Selling Agency Favored.

Practically every shareholder of the Okanagan Fruit Union was present at the shareholders meeting held on Thursday evening to listen to the report of Manager Garroway and Directors Ricardo and Kidston, who had arrived on Thursday's boat, together with Mr. Heggie, Manager of the Belgium syndicate at Vernon, and Mr. J. D. Godwin of Short's Point, also an extensive fruit grower. The work of the past year was thoroughly reviewed, and the action of the manager and directors was approved by unanimous vote. The situation in the fruit industry has so changed within the last two years that the directors realize that as at present organized the Fruit Union is not in the best position to satisfactorily serve the valley, and a suggestion of a complete re-organization was made.

About eight o'clock the shareholders meeting was resolved into a public meeting, a number of citizens, not shareholders, then taking part in the proceedings. It was shown by the manager that about 20 per cent. of the turnover was shipped from this point. Another fact, which was received with general surprise, was that only about 10 per cent. of the total fruit handled by the Union was shipped on consignment, practically all being sold straight at prevailing market prices. About thirty cars of perishable fruit were consigned during the period when American fruit was glutting the market.

President Ricardo reviewed the history of the Union and stated that a re-arrangement of the marketing system was now desirable. He also emphasized the fact that the time had now arrived when it was necessary to work up by-products. He declared that the prairie market was controlled by a ring of wholesalers, and that all our trouble was due to the dumping of American fruit into our markets.

Mr. G. J. C. White suggested that a committee be appointed to interview local fruit growers along the line of organizing a local association. He emphasized the fact that it would be essential that all come into such organization, as if some sold independently, others to Stirling & Pitcairn, and a few others bunched together to market their fruit it would not be worth while forming an organization. Since he had heard the full particulars of the Fruit Union and its method of handling the crop he was sorry it was not continuing. He took it for granted that the proposed local organization would take over the lease of the local building as well as the goodwill of the Union. It would be necessary to learn if, with only leased buildings, the organization could obtain the loan offered under the Agricultural Associations' Act.

The discussion was continued by Messrs. Logie, Ricardo, Kidston, Bentley, Robinson, Higgin, McLaren, Garroway and others.

Mr. Logie criticized the methods adopted by the Union, declaring there were too many men between the producer and the consumer. He favored co-operation for the valley.

In speaking of the future Mr. Ricardo pointed out the work being done at Ottawa by the Commission investigating the situation of the fruit industry. A delegation from the B.C. Fruit Growers' Association are now giving evidence before that Commission.

Hon. Mr. Foster, before leaving for New Zealand, had been asked to arrange for reciprocity with that dominion. This would give Canada an advantage of 25 cents per box over American fruit. Three propositions had been made with reference to re-organizing in the Okanagan. One that the present Union re-organize, and borrow capital from the province. Another that each district organize, and then jointly form a central board for marketing purposes. The success of this would depend on whether the rest of the valley would come in. The third proposal was to wind up the Union and distribute the unimpaired capital. This he thought would be disastrous unless another organization was ready to take its place. The second proposal was the one favored. This proposition had been put to shareholders at Vernon and at Summerland, and had been approved. He urged this as a forward movement rather than disorganization, and thought if the other places would not come in, Summerland and Vernon should work together.

Reeve Thomson said he had assurance that Pentiction would be in line for any organization for the valley.

Coun. Robinson approved of the suggestion, saying that he was satisfied a mistake had been made in organization. Instead of at present, organization should be from the bottom up. With district associations, a central selling agency in control of warehouses, and a selling staff, it would be possible and necessary to go beyond the present market combination.

Mr. Kidston pointed out that the Union's trouble was all due to the American fruit, there being seven cars of American fruit to every two of B.C. put into the prairie markets. The Union's organization at no time fell down nor was it swamped by the big crop.

A committee comprised of Messrs. Thomson, White, Mellor, Agur, Higgin and Logie were appointed to do the preliminary work toward local organization, and to report at a meeting to be called by the committee.

The discussion was continued by Messrs. Logie, Ricardo, Kidston, Bentley, Robinson, Higgin, McLaren, Garroway and others.

Mr. Logie criticized the methods adopted by the Union, declaring there were too many men between the producer and the consumer. He favored co-operation for the valley.

In speaking of the future Mr. Ricardo pointed out the work being done at Ottawa by the Commission investigating the situation of the fruit industry. A delegation from the B.C. Fruit Growers' Association are now giving evidence before that Commission.

Hon. Mr. Foster, before leaving for New Zealand, had been asked to arrange for reciprocity with that dominion. This would give Canada an advantage of 25 cents per box over American fruit. Three propositions had been made with reference to re-organizing in the Okanagan. One that the present Union re-organize, and borrow capital from the province. Another that each district organize, and then jointly form a central board for marketing purposes. The success of this would depend on whether the rest of the valley would come in. The third proposal was to wind up the Union and distribute the unimpaired capital. This he thought would be disastrous unless another organization was ready to take its place. The second proposal was the one favored. This proposition had been put to shareholders at Vernon and at Summerland, and had been approved. He urged this as a forward movement rather than disorganization, and thought if the other places would not come in, Summerland and Vernon should work together.

Reeve Thomson said he had assurance that Pentiction would be in line for any organization for the valley.

Coun. Robinson approved of the suggestion, saying that he was satisfied a mistake had been made in organization. Instead of at present, organization should be from the bottom up. With district associations, a central selling agency in control of warehouses, and a selling staff, it would be possible and necessary to go beyond the present market combination.

Mr. Kidston pointed out that the Union's trouble was all due to the American fruit, there being seven cars of American fruit to every two of B.C. put into the prairie markets. The Union's organization at no time fell down nor was it swamped by the big crop.

A committee comprised of Messrs. Thomson, White, Mellor, Agur, Higgin and Logie were appointed to do the preliminary work toward local organization, and to report at a meeting to be called by the committee.

The discussion was continued by Messrs. Logie, Ricardo, Kidston, Bentley, Robinson, Higgin, McLaren, Garroway and others.

Mr. Logie criticized the methods adopted by the Union, declaring there were too many men between the producer and the consumer. He favored co-operation for the valley.

In speaking of the future Mr. Ricardo pointed out the work being done at Ottawa by the Commission investigating the situation of the fruit industry. A delegation from the B.C. Fruit Growers' Association are now giving evidence before that Commission.

Hon. Mr. Foster, before leaving for New Zealand, had been asked to arrange for reciprocity with that dominion. This would give Canada an advantage of 25 cents per box over American fruit. Three propositions had been made with reference to re-organizing in the Okanagan. One that the present Union re-organize, and borrow capital from the province. Another that each district organize, and then jointly form a central board for marketing purposes. The success of this would depend on whether the rest of the valley would come in. The third proposal was to wind up the Union and distribute the unimpaired capital. This he thought would be disastrous unless another organization was ready to take its place. The second proposal was the one favored. This proposition had been put to shareholders at Vernon and at Summerland, and had been approved. He urged this as a forward movement rather than disorganization, and thought if the other places would not come in, Summerland and Vernon should work together.

Reeve Thomson said he had assurance that Pentiction would be in line for any organization for the valley.

Coun. Robinson approved of the suggestion, saying that he was satisfied a mistake had been made in organization. Instead of at present, organization should be from the bottom up. With district associations, a central selling agency in control of warehouses, and a selling staff, it would be possible and necessary to go beyond the present market combination.

Mr. Kidston pointed out that the Union's trouble was all due to the American fruit, there being seven cars of American fruit to every two of B.C. put into the prairie markets. The Union's organization at no time fell down nor was it swamped by the big crop.

A committee comprised of Messrs. Thomson, White, Mellor, Agur, Higgin and Logie were appointed to do the preliminary work toward local organization, and to report at a meeting to be called by the committee.

SUMMERLAND SUITS HIM.

Got Satisfactory Prices.

One of our subscribers, this winter a resident of Vancouver, and who is looking forward to again taking up work on his fruit lot, writes as follows:

"My family were so delighted with our summer there last year that they are looking forward with great anticipation to the coming season.

"I had 250 boxes of peaches last year, the most of which I marketed direct to the retailers of Vancouver, and realized very satisfactory results. I was my own 'middle man' and consequently reaped the double benefit. It is all rot about the Vancouver jobbers not favoring U. S. fruit. They only buy Okanagan fruit when the demand absolutely forces them to do so. What the Okanagan needs is a solid, united Fruit Growers' Association to not only grow but pack, sell, can, and otherwise dispose of ALL the fruit grown in the Valley."

As he did not in his letter, a business one to this office, grant us the favor of publishing his name, we refrain from taking further liberty than publishing that part as quoted above.

Pleads Guilty

To Charge Of Abduction

Sent Up For Trial

R. H. Rudd has pleaded guilty and has been sent up for trial. The preliminary hearing was made before Magistrates Thomson and English on Tuesday, and a number of citizens who had gathered in anticipation of some rather sensational evidence were disappointed when the prisoner pleaded "guilty."

Police information was forwarded here last Saturday from Fairview that two people tallying with the description of Rudd and his companion had arrived in Fairview, walking in from the south, and continuing toward Keremeos. Immediately instructions were telephoned to the Provincial Police at Keremeos to apprehend the couple and hold them for the arrival of the local officer. Instructions were either misunderstood or ignored as the officer from Keremeos who went out and met the two walking toward that town brought them to Pentiction, and from there to Summerland by ferry. Constable Graham had, in the meantime, received word that they were being brought to Pentiction and went to that town to meet them. They, however, arrived here before his return, Rudd being escorted from the dock to the jail, while his young companion was taken to the hotel. This was on Monday afternoon.

The hearing was set for Tuesday, at two o'clock, when the small court room was crowded with spectators. After the charge of abduction had been read by Magistrate English the prisoner pleaded "guilty."

As a case of this kind cannot be tried before a stipendiary magistrate the prisoner was sent up to the higher court for trial. In the meantime he is lodged in the penitentiary at Kamloops, being conducted there by Constable Graham on Wednesday.

The auto in which the party left town is reported to have broken down south of Fairview, and Mr. Robinson sent instructions to the Oroville garage to take it into Oroville and make the necessary repairs.

Another amendment that the Attorney-General introduced when the House went into committee has to do with the disposal by tax sale of land improperly. At present, when a man's land has been sold illegally, and the innocent purchaser has acquired an indefeasible title, the original owner has no right of action against the municipality for damages for illegal and improper sale of his property. This he is now to be given. On the other hand, where the original owner redeems his land within the term, or otherwise recovers it, power is given to the judge who makes the order in the case to charge up against him the value of any improvements made by the later purchaser.

Mr. W. H. Hayward (Cowichan), at the request of the Minister of Finance and Agriculture, who was unable to be present, moved the second reading of the Government bill to amend the Agricultural Associations' Act. For himself, as a practical farmer, he congratulated the Government on introducing the measure, which would largely assist co-operation among farmers. The House would realize that there was no one way more than another in which agriculture could be assisted than by the development of co-operation.

The Hill sub-division, which was put on the market late last week and advertised by both Cordy & Higgin and G. A. McWilliams, has been meeting with a ready sale. It is anticipated by those interested that about half the lots will have been sold to-day.

RE-ORGANIZATION.

The company, proprietors of the Peachland Cannery, are proposing a re-organization under the Agricultural Association's Act, as recently amended. Mr. W. M. Urquhart of that town was a visitor to Summerland on Thursday on business in connection with the proposed re-organization.

The Hill sub-division, which was put on the market late last week and advertised by both Cordy & Higgin and G. A. McWilliams, has been meeting with a ready sale. It is anticipated by those interested that about half the lots will have been sold to-day.

Amendments to Municipal Act.

Attorney-General Introduces Bill to Bring About More Effective Working of Law.

Some very important amendments to the Municipal Act are being made by the Provincial Legislature. The bill has already been dealt with by the Municipal Committee and returned to the house with the unanimous approval of its members.

Speaking on the measure, the Attorney-General briefly summarized the changes proposed. One of the amendments that will appeal to many is that restoring to the holders of agreements of sale of the right to vote. As a result of the present state of the law, the Attorney-General said, in many cases there was no exercise of the franchise in respect to the property affected. The amendment made providing for a waiver by the registered owner in favor of the holder of a registered agreement of sale had been found to be unworkable because of the absence of the owners in some cases and the fact that the congestion in the land registry offices prevented the registration of agreements of sale for some time after they were filed.

JUSTICES TO ADMINISTER OATHS.

Owing to the difficulty experienced in rural districts where people desiring to be placed on the list cannot find a Justice of the Peace to take their sworn statement, the clerks of municipalities are to be empowered to administer the oath in matters of this kind.

Authority is given to municipalities by this bill to enter into special agreements with persons or corporations in respect to taxation, provided that the by-law embodying this agreement has been approved by a majority of the rateayers, and has had the approval of the lieutenant-governor-in-council.

POWER GIVEN MUNICIPALITIES.

To prevent what the Attorney-General described as an abuse that is found in some cases, where a municipality fines a man all it can get out of him, if he can pay, but sends him to jail instead of fining him if he has no money, they will hereafter have to pay the province fifty cents a day for each prisoner sent to the provincial jails.

At present the land registry offices have the duty cast upon them of supplying certain information to assessors in order to make up the rolls. On account of the congestion in the offices this is to be stopped, and, instead, municipalities will be allowed to place a clerk of their own in the offices, with the consent of the department, of course, to secure such information as may be necessary.

Another amendment that the Attorney-General introduced when the House went into committee has to do with the disposal by tax sale of land improperly. At present, when a man's land has been sold illegally, and the innocent purchaser has acquired an indefeasible title, the original owner has no right of action against the municipality for damages for illegal and improper sale of his property. This he is now to be given. On the other hand, where the original owner redeems his land within the term, or otherwise recovers it, power is given to the judge who makes the order in the case to charge up against him the value of any improvements made by the later purchaser.

Mr. W. H. Hayward (Cowichan), at the request of the Minister of Finance and Agriculture, who was unable to be present, moved the second reading of the Government bill to amend the Agricultural Associations' Act. For himself, as a practical farmer, he congratulated the Government on introducing the measure, which would largely assist co-operation among farmers. The House would realize that there was no one way more than another in which agriculture could be assisted than by the development of co-operation.

FIVE THOUSAND FACTS ABOUT CANADA.

The public will welcome the 1913 edition of "5,000 Facts About Canada," compiled by Frank Yeigh, the acknowledged authority on things Canadian, and the author of "Through the Heart of Canada." Ten thousand copies are now sold annually, which find their way all over Canada and the Empire, indeed the world.

"The Facts booklet is stuffed as full of information as a sausage is of meat," is the happy and true way an English journal puts it, and the new issue, which includes many new features and improvements, such as a colored map of the Dominion, presents a striking story of the wonderful advance of Canada in a single year. We now talk in billions.

The booklet is issued at 25 cents a copy, by the Canadian Facts Pub. Co., 588 Huron Street Toronto, and is sold by all the leading news-dealers.

A young lady who tries to keep house on her musical education will find married life rather flat and out of tune. A poorly fed man isn't in a position to enjoy the best music, while a well-fed one will listen to most any kind without kicking.

A CURE FOR SCANDAL.

To whom this may concern: Take of "Good Nature" an ounce; of an herb called by the Indians "Mind Your Own Business" one ounce; mix this with a little "Charity for Others" and two or three sprigs of "Keep Your Tongue between Your Teeth." Simmer them together in a vessel called "Circumspection" for a short time, and then it will be fit for use.

Application: The symptoms are a violent itching in the tongue and roof of the mouth, which invariably takes place when you are in company with a species of animals called gossips. When you feel a fit of the disorder coming on, take a teaspoonful of the mixture; hold it in your mouth, which you will keep closely shut till you get home, and you will find a complete cure.

Should you apprehend a relapse, keep a small bottleful about you, and on the slightest symptom repeat the dose.

EXACTLY.

Hoax—"I thought you said he was a settlement worker?"

Joax—"He is."

Hoax—"Why, he tells me he's a bill collector."

Joax—"Well?"—Philadelphia Record.

FERRY NAMING CONTEST.

Complete List of Names Submitted.

Much interest has been shown in the contest for naming the new ferry boat, and several requests have been made for a list of the names proposed. Following is the complete list:

- Supena—made up of the two first letters of the names of towns, Summerland, Penticton, and Naramata.
- Robinson Crusoe.
- Connaught.
- Narapensum—made up of names of towns, Naramata, Summerland and Penticton.
- La Salle.
- Excelsior.
- Narpensum.
- Chee Canium—Chee means, in Indian, swift or ever ready, Canium, Indian for boat.
- Courier.
- Arrawana.
- The Connaught.
- Rowena.
- The Fairy Queen.
- The Lady of the Lake.
- Pride of the West.
- The Lady of the Lake.
- OLBCO.
- Roesallo.
- Pensumatta.
- Pippin.
- Transport.
- Oklaboco.
- Robert Low.
- Robinson Crusoe.
- Irmgard—meaning a public benefactor.
- Naranawna.
- The Right of Way.
- Patricia.
- Olaboco.
- Cocilla.
- Oweonoo—The youngest daughter of the Evening Star; means "faithful."
- Skookum—Slwash for good.
- Naranton—Naramata, Summerland and Penticton.
- Tawnsentha—Manico-Indian name for a green fertile valley.
- Nawadaha—Indian name for sweet singer.

Nenemoosha—Indian, meaning sweetheart.

Matantac—made from words Naramata, Summerland, Penticton.

Wenonah—the beautiful.

Ishkoodah—Indian meaning a comet Lady of the Lake.

The Electra.

The Patricia.

Pride of the Lake.

The Arrow.

Watersprite.

United Shores.

The Ottawa.

Brittania—Because she will carry so many of Great Britain's subjects.

The Rose.

Penaraland.

The Trinity Belle—Trinity standing for three towns in one trip.

Pen-Na-Suma.

Valentine.

Duchess of Okanagan.

Busy Bee.

Royal Princess Patricia.

Mehrmaid.

Ophalia.

Nautilus.

No-Ark.

Persimal—Persian, a peach; Malus, an apple.

Ottawa.

Napensum—Na is a Greek form meaning "to float easily"; pen-, sum meaning something to be greatly prized for esteemed.

Mermaid.

Patricia.

Perdita.

Princess Roe.

Sunbeam.

Majestic.

Exilda—to make good or excell.

Speed Well.

A TREAT COMING.

Son—"Say, mamma, father broke this vase before he went out."

Mother—"My beautiful majolica vase! Wait till he comes back, that's all."

Son—"May I stay up till he does?"

The troubles that trouble the most are the ones that never arrive.

As fresh as summer roses in early dew.

Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or 'phone, and a messenger will call.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED,
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 15c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, FEBRUARY 28, 1913.

WHAT WILL THE TAX RATE BE?

Summerland enjoys the distinction of having the lowest or one of the lowest tax rates of any municipality in the province, and it is naturally the desire of every ratepayer that this reputation be maintained. A careful examination of the financial statement for 1912, recently published, leads one to conclude that there must either be a material change in the municipal affairs or a marked advance made in the tax rate.

Let us look first at the amounts required for 1913. We will, for convenience, quote figures in round numbers. Debenture interest will absorb \$14,500. The School Board will require \$6,500 from the municipality. More than \$6,000 was paid last year for sinking fund, and a fund must also be provided against the \$145,000 of bonds recently authorized. This latter will take \$3,200 per year from the general taxes until marketed and the proceeds expended when the investment would naturally be expected to provide for the sinking fund. The operating and up-keep of the public utilities, on the basis of 1912 (allowing nothing for improvements or extensions) will absorb another \$7,500. This year opened with a bank overdraft and temporary loan against taxes of practically \$13,000. These items alone total more than \$50,000.

Now what will be available to pay this total? Last year the receipts from taxes and rates (water and light) both current and arrears, totalled a little over \$43,000, adding to this the two mills additional taxes which the board is contemplating striking in addition to last year's rate of 12 mills, will make a total of possibly \$47,000, showing a deficit of practically \$4,000.

It will be noted that in the above no provision is made for salaries and other overhead expenses, the former alone totalling \$5,380 in 1912, which, if continued in 1913, will make the deficit between \$9,000 and \$10,000. We have not considered in the probable receipts the comparatively small amounts from trade licenses, dog taxes, etc., but neither have we in the expense items considered the expenses of administering justice, solicitors fee, and sundry other small items.

How is this shortage to be met? It would not be correct practice to pay this balance out of proceeds of debentures, provided any portion of those now in the treasury were marketed. In the event of sale of debentures it would be correct to transfer some of these overhead expenses to the utilities to which the debenture funds were applied, thus relieving the general rate to that extent. But as the debenture market is still depressed a sale is not probable. This deficit, therefore, must be met either by another bank loan or the expenditure in some way reduced, or the tax rate increased even beyond the proposed 14 mills. Wages in connection with the public utilities and the item of salaries are the only ones within the control of the board. Just how far operating expenses may be judiciously reduced we do not know. Upon looking back over previous years it will be remembered that instead of a salary list of over \$5,000, during a year when there was no capital expenditure, the municipal business was practically all handled by one official, and while we do not presume to dictate to the board we believe we are reflecting the feeling of the ratepayers in humbly suggesting a curtailment.

"GREATER LOVE HATH NO MAN THAN THIS."

To find a parallel to the tragedy of the Scott Antarctic expedition one must turn back to the ill-fated Jeannette. In the Lena Delta the late Rear-Admiral George W. Melville found the bodies of his shipmates, headed by Commander De Long, together with their journals written up until the pencils slipped from their dying hands. But nothing in those journals was so infinitely touching and moving as that brief statement of Captain Scott's, entitled "Message to the Public." If Captain Scott had done nothing else to win for himself immortality, this should assure it. One may search the literature of daring and achievement for a document so thrilling, or one so pathetic. Certainly, every man must feel the noble and heroic character of the man who penned those lines with death staring him in the face, knowing that on top of his disappointment in arriving second at the South Pole was to be added complete disaster; that "these rough notes and our dead bodies must tell the tale."

Yet there is no complaint and no whining—merely a setting forth why disaster was inevitable. They knew the risk; they had done their best. But a combination of bad weather, intense cold, and the illness and disability of two of the five cost the lives of the others. Probably, if Evans and Oates had lasted like their comrades, they would all be safe to-day. But Scott did not say this; his last thoughts were of others—of that heroic officer of dragoons, Capt. Oates. He hoped every night that he might awake no more, and then when death refused to come, declined any longer to be a burden and a menace to comrades, stumbling out into the blizzard to die with but the words, "I am just going outside and may be some time." Eternity is some time! But if Englishmen are what we think they are, these words will find their way into Westminster Abbey. That was a farewell to surpass those on the Titanic, where death came not by days but hours—another inostimably precious proof of the innate nobility of man. The ever-unselfish commander preserved the record of this Anglo-Saxon parting for his countrymen, and in the final moment wrote: "Had we lived, I should have had a tale to tell of the hardihood, endurance, and courage of my

companions which would have stirred the heart of every Englishman." Not a word of himself, as he lay there facing the end, tortured by starvation, with a body racking by a month of hardships such as, he wrote, "I don't think human beings ever came through." Finally, these thoughts of this gallant and noble man turned to home: "Surely, surely, a great, rich country like ours will see that those dependent on us are properly provided for." R. Scott."

There we have the one touch of emotion this iron-hearted man permitted himself before lying down to die. What country could resist such an appeal? Not England, certainly, or any other where men still revere the heroic virtues, self-abnegation, devotion to duty till the end, and serenity of spirit when all is lost and the inevitable at hand. There is no defeat here, but victory of the most lasting kind, of which the recognition will be world-wide.—N. Y. Evening Post.

CO-OPERATION IN DISTRIBUTION.

The plan of the Vegetable Growers' Association to distribute the output of the members directly to the retailers as a means of eliminating some of the "middlemen" corresponds in nature with the intention of the Niagara Fruit Growers' Association to establish a direct distributing agency in Toronto for their fruit. Both of these endeavors to introduce co-operation in the marketing of food to the city consumer ought to receive a thorough trial. It may be that the movement will not have the success usually predicted for co-operative distribution. In fact it is more than likely that the practical working out of an enduring system of getting foodstuffs from the farm/or orchard to the consumer will develop many factors unsuspected in connection with such enterprise. But the effort will pay handsomely, in a public sense, since it will establish concrete facts about a matter that abounds in theory.

The co-operative distribution of vegetables differs from the marketing of the tender fruits, in that vegetables are less perishable, and are grown on nearly every farm. The fruit-growing districts of Ontario are a small part of the total agricultural area, and therefore good markets for fruit exist in sections noted for general farming, and producing a surplus of vegetables. From this it would follow that the vegetable growers will find the chief need for co-operative distribution in large consuming centres like Toronto, whereas the fruit growers will be able to spread a system of co-operative marketing into many of the smaller towns and cities of the province. Unquestionably there is a very general conviction that the difference between the price the producer receives for food stuffs and the price the consumer pays is excessive. Efforts by the Ontario producers to lessen this difference will, it is hoped, have large success.—Toronto Mail and Empire.

A bill to amend the Agricultural Act has been introduced in the Legislative Assembly. Some very material amendments, which will be of great assistance to co-operation among agriculturists are proposed. Under the new act any twenty-five or more persons who desire to associate themselves together for any or all of a varied number of named industries, which seemly include everything that agriculturists might wish to engage in, may receive certificate of incorporation when the usual conditions are complied with. The paid up stock must be at least 20 per cent. of the subscribed capital, and under the new act the Department may loan up to 80 per cent. of the subscribed capital, instead of half as formerly. A new section is substituted for section 47 of the old act relating to loans. Every loan shall be repayable within twenty years, shall bear interest at 4 per cent., payable yearly. In addition the Association must pay to the Minister, concurrently with such interest, a sum for the purpose of creating a sinking fund. Each association to which a loan is made shall be required to issue a bond to cover such loan. This bond will be as a first charge and mortgage upon all the property and assets of the Association, including the unpaid amount of the capital stock, whether subscribed before or after obtaining the loan.

Yet another amendment to the act gives inspectors and agents power to enter premises and inspect, reject and destroy trees plants, fruits, etc., which have been damaged by frost or otherwise injured.

Hon. Price Ellison, Minister of Finance, brought down the 1913 budget in the House on Monday afternoon. Both outlay and estimated revenue will exceed that of any previous year. Very gratifying increase over estimated revenue for the last year was shown. Before proceeding to discuss the estimates of receipts and expenditures for the current year the Minister dealt with the public accounts for the year ending March 31st, 1912. In the original estimate for that year a deficit of \$2,843,000 was anticipated. This was to be met from the surplus on hand. Instead of a deficit of nearly three million the actual deficit was only \$445,000, while including interest on sinking fund, etc., it totalled only \$623,000. There was an excess of revenue over estimates of two and one half millions. Last year's original appropriations were \$11,035,390, this was exceeded by \$333,377.

The Minister estimates a total revenue slightly less than that of 1911-12. In expenditures there will be an increase for civil service, for administration of justice, legislation, maintenance of public institutions. Aid to hospitals and charities increase from \$426,000 to \$704,000. Education is increased by \$202,516, practically all devoted to the per capita grants to municipalities and rural schools.

The Public Works Department receives \$9,657,600, an increase of nearly one million and a half. Rapid development of the province, especially in the parts being opened by railways, is the cause given for this unusual demand. Quarter of a million goes towards the erection of a Provincial Government building in London. Much of the Public Works' increased appropriation is for roads, bridges and wharves, totalling nearly \$6,000,000 or \$600,000 greater than last year. Various votes for agriculture amount to over one quarter of a million, the largest sum yet voted to that end. Three quarters of a million is devoted to carrying on the enormous work involved in the surveying of the province. Speaking of the various increased expenditure the Minister said:

"Our expenditure for the ensuing year will be the largest on record—almost unthinkable ten years ago—and will be much in excess of the estimated revenue; but we are building for the future, and the government deems it wiser to anticipate the requirements of rapid development in the way of public improvements than to wait and impede progress of settlement. Thousands are coming now and many thousands more will come each year, spending themselves over the province to assist in turning our natural resources into wealth and making it a great heritage.

"The big undertakings now in hand—railway building and road making the erection of a provincial university, and improved educational facilities of all kinds, and the making of extensive surveys—will, to a large extent, satisfy future requirements, and we shall have a million or a million and a half within ten years to help bear the burden and create revenues to balance the large expenditures of to-day, which, if we had sufficient revenues in the lean years of the past, would not have been necessary now to anything like the same extent."

MORE than \$1,000,000 revenue from royalty on crown timber will be expected annually, after the enactment of the bill to increase the royalty, as proposed by the Provincial Government. At present the royalty on crown timber is 50 cents per 1000 ft. board measurement. It is proposed to increase this to \$1 per 1000, beginning January 1st, 1916. The present income from that source is half a million dollars. With the increased volume of business which is anticipated by that time the revenue will be more than doubled.

PEOPLE who cease their social activities with the arrival of Lent need only to consult the church calendar to be reminded that this winter the "social season" will be one of the shortest on record, due to the fact that Lent began on February 12, the earliest since 1818. The reason for this early arrival of that season of the year when the members of the social whirl are forced to lay aside their activities is that the ideal or ecclesiastical moon adopted by the churches hundreds of years ago, determines the date for Easter, which this year will fall on March 23, one date later than the earliest possible date upon which Easter may fall, March 22. The custom established by the churches decrees that Easter shall fall "on the first Sunday after the first full moon after March 21."

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Edmonton, Alta.,

January 29th, 1913.

The Editor, Summerland Review.

Dear Sir,

Will you allow me, through the columns of the Review, to return my belated thanks for the kindly mention of my name by the attendants at the Annual Bachelor's Dinner held on New Year's night.

A private letter just received informs me that such was the case, and that a telegram was ordered sent me. As the report in the Review did not mention it, and the telegram has not yet arrived, this private letter is the first intimation I have had of such action being taken, hence my desire to return my hearty thanks in this public way.

As the telegram is only out twenty-nine days doubtless it will yet arrive, since the Okanagan now has two telegraph lines.

Faithfully yours,

C. S. Stevens.

FOGGED.

The Editor, Summerland Review.

Dear Sir,

From the proceedings of last night's meeting held in connection with the Fruit Union's future policy, amid a great deal of doubt and uncertainty, I gathered the following information:

1st. For the future each local district will form its own association and handle this end of the fruit business of the district.

2nd. From each local association will be formed a Central Selling Agency—that is each local body will furnish one or more representatives on the selling board—to control the sale and distribution of the fruit of the Okanagan.

Now, if this is the idea, may I ask where does the Fruit Union or its reorganized successor fit in?

Yours very truly,

J. M. Sutherland.

ONE BILLION BACTERIA A WEEK.

As soon as the roots of a leguminous crop begin to grow, if the soil is sweet—that is, does not lack lime—tiny bacteria, so small that it takes a powerful glass to see them, attach themselves to the roots of the pea or other leguminous crop and start to housekeeping, building a little nodule, as it is called. It takes only about twenty minutes to complete the growth of one of these entities, but they do not die. They simply divide themselves into two, each starting a new nodule or adding to the one already begun, and dividing again in twenty minutes and so on, ad infinitum, multiplying at such a wonderful rate that it has been estimated that if there was one in good condition here a week ago, there are a billion now. These little houses, or nodules, grow into great hives until soon they are as large as walnuts on the roots of the plants. Their functions are peculiar and wonderfully interesting, as well as profitable.

The air, as you know, is four-fifths nitrogen. Nitrogen is the most expensive fertilizer that you can buy, and it is positively essential to plant life. Now, these little entities suck air into the earth and aerate the soil. It is just as necessary for a plant to have air as it is for an animal to breathe it. They therefore do the splendid service of bringing the air into the soil, and in bringing it in they digest the nitrogen that is in the air and convert it into mineral nitrates that are soluble in water and immediately available for plant food. It is estimated that under favorable conditions where an acre of land is well inoculated the bacteria will bring \$20 worth of nitrogen to the acre within the year; that is, it would cost \$20 and more to buy and put upon the land the nitrogen that these little entities have drawn from the atmosphere into the soil.—Col. Henry Exall, in February Dry-Farming.

Local News Items

BORN—To the wife of Ernest Mountford, on Wednesday, February 26th, a son.

Miss Neve, who has been visiting her brother in Calgary, returned home last week.

The Misses Mason spent last week-end at the home of Mrs. R. C. Robinson, Naramata.

Dr. Kergin, M.D., and Mrs. Kergin of Prince Rupert, are the guests of Dr. Kergin's sister, Mrs. F. W. Hardy.

Mrs. Lloyd-Jones of Kelowna is a guest at the home of her brother Mr. George Gartrell, Peach Orchard.

Contractor J. A. Darke has been confined to his bed for a week and is suffering from a serious attack of la grippe.

The regular monthly meeting of the W.C.T.U. will be held at the home of Mrs. D. H. Watson on Monday afternoon at three o'clock.

A "surprise" party of about forty young people gathered at the home of James Clark on Thursday evening, spending, the evening in dancing, games, etc.

Elsley & Grieve, the new proprietors of the west end market, have moved into the new building in the Kelley block adjoining the west branch of the Bank of Montreal.

Beginning on Monday the public schools adopt the summer schedule, opening at 9 and closing at 3.30. During the winter the opening and closing hours are 9.30 and 3.

In accordance with the promise of the government, made some months ago, the poll tax of \$3 per head on all male inhabitants of age in the province is abolished.

Keep the evening of Saturday, March 22nd, free. On that date the Ladies' Aid of St. Andrew's Presbyterian Church intend holding a Talent Sale. Particulars later.

This week's game in the basketball schedule is played to-night at the College Gymnasium. Another match will be played next week on Thursday evening in the Men's Club Gymnasium.

Remember the date of visit of Dr. Taube, Eye Sight Specialist of the Taube Optical Company of Calgary and Vancouver, who will be at Summerland Drug Co., Summerland, on Tuesday, March 4th.

The Spokane Daily Press of the 18th inst. announced, among a number of others, the issuance of a marriage license to Albert A. Derrick, aged 38, of Summerland, B.C., and Ruby Foreman, aged 19, of the same place.

Rev. H. G. Estabrook, Superintendent of Home Missions will address a Men's Mass Meeting next Sunday at four o'clock, in the Baptist Church at West Summerland, his subject being "The Call of the West."

A special meeting of the Farmers' Institute will be held next Thursday evening at 7.30 in Campbell's Hall, West Summerland. J. L. Hilborn, the president, will give a talk on vegetable and tomato growing, this by special request, due to the interest aroused in this branch of the industry because of the probable establishment of a cannery here.

Another afternoon tea in aid of the Anglican Church organ fund was given last Tuesday afternoon, this time by Mrs. Downton. About forty-five ladies were present and \$20 for the fund was realized. All the ladies present, besides a number of gentlemen, have given their autographs which will be worked into a bedspread by Mrs. Downton and given to the hospital.

Mr. and Mrs. K. S. Hogg entertained a number of friends in a very enjoyable manner last Friday evening, the entertainment consisting of juvenile games. The guests being expected to conduct themselves as though they were at the tender age of ten years and to have a roaring good time. They ably met the demands of the occasion, and heartily enjoyed the novelty.

L. C. Woodworth has purchased from James Gaffney, now of Vancouver, through his solicitor, W. C. Kelley, two acres adjoining his Giant's Head property. This, we believe, gives Mr. Woodworth ownership of all the property between C. S. Stevens's and the Stewart property. It is understood that Mr. Woodworth proposes subdividing this property and building cottages thereon.

The new ferry boat has been moved out of the Boat Works preparatory to launching.

Dr. W. H. Gaddes and wife of Kelowna registered at the hotel on Saturday last.

Mrs. McMillan and daughter of Kelowna arrived here on Monday. Miss McMillan came to study at Okanagan College.

A special invitation is issued to the ladies to be present next Thursday evening to hear Mr. Hilborn's address on gardening.

If there is anything wrong with your Eye Sight don't fail to consult Dr. Taube. All work absolutely guaranteed as tested.

Mr. and Mrs. G. W. Baker of Winnipeg registered at the hotel on Wednesday. While here they were guests at the home of Mrs. R. H. Agur.

The Ladies' Aid of the Methodist Church are preparing for a sale of aprons and other useful household notions. The sale will take place during the week following Easter.

Peachland Notes.

Mr. Oscar Holden of A. Town's store, visited Kelowna on Tuesday.

Mrs. Ed. Lang and Miss Given were visitors to Kelowna on Wednesday.

Miss Edith Hayward of Naramata is the guest of her sister, Mrs. Jas. Elliott.

Rev. Jas. Hood left for his home in Cumberland, Vancouver Island, on Thursday morning.

The short course in fruit culture conducted here last Friday evening and Saturday was not so well attended as the importance of the subject deserved.

Mr. and Mrs. Wingate are rejoicing over the birth of a baby boy, which event took place on Tuesday morning. Miss Pollock of Summerland, who arrived that morning, is nurse in charge.

A party of shooters, armed with cameras, were out deer hunting on Wednesday. We do not know whether they secured any shots or not, but, almost any morning now, droves may be seen leaving the orchards, especially those on the upper benches.

The Valentine Social and toffee pull, held at Mrs. D. J. White's on Thursday night, under the auspices of the Women's Circle of the Methodist Church, was well attended. A very enjoyable time was spent by all. The ladies are made richer by about \$20.

Dr. Whyte of Winnipeg arrived last Thursday evening, and Bryson White of Vancouver came in on Wednesday night. Rev. C. W. Whyte, who was on the high road to recovery, suffered a complete paralysis of the right side on Monday afternoon, and lies in a serious condition.

Miss Kate Miller, who went to the general hospital in Kamloops last Monday, had a novel experience while en route. She was mistaken for one of the recent elopers, and was shadowed for a time by a policeman, whose chagrin at finding his mistake may be better imagined than told.

FAST HOCKEY.

The Hockey game which was played in Giant's Head rink on Thursday night between Kelowna and Summerland was a fast, clean game, and resulted in an easy win for Summerland. Mr. W. Conn of Vernon, a member of the Vernon Hockey team, was referee, and by his strict impartial rulings kept the game clean. Only three penalties were handed out and these for minor offences. Mr. Conn was surprised at the speed shown by the Summerland team, which lined up as follows: goal, Rutherford; point, Wolvorton; cover point, Howls; rover, Jack Craig; centro, Morlock; right wing, Jack Conway; left wing, Ross Rae. Where all played so well special mention may seem invidious, but it was generally agreed that Wolvorton was the bright particular star of the Summerland aggregation. Morlock scored two goals, Conway two, Rae three, and Craig one. The result was 8-3.

ASK RAISING OF APPLE TARIFF.

Fruit Growers of B.C. Request Government to Increase Duty.

Ottawa, Feb. 26.—The fruit growers of British Columbia, through the president and secretary of the British Columbia Fruit Growers' Association, will ask the government to consider raising the duty on American apples from 15 cents a box to at least 25 cents, the latter being the United States tariff against Canadian apples.

There are other requests to be made to the government. The British Columbia growers want more protection than the tariff affords, and so will ask that the inspection and sales act be amended so that American shippers will be obliged to mark their fruit before it enters Canada, as American shippers are not under Canadian jurisdiction, and as the average producer has nothing to do with the final destination of his fruit, this being handled by the co-operative associations.

PRESIDENT OF BRITISH COLUMBIA UNIVERSITY.

Dr. Wesbrook, whose appointment to the presidency of the University of British Columbia has been announced, has attained his standing in a high profession, and as an educationalist. Since 1895 he has been a member of the faculty of the University of Minnesota. In that year he became pathological professor of that seat of learning, and in 1906 he became dean of the college of medicine and surgery of the university.

Dr. Wesbrook is a native of the township of Oakland, Brant County, Ontario, born on July 12, 1868. His father was Henry Shaver Wesbrook. Dr. Wesbrook received his early education in the public and high schools of Brant County and the City of Winnipeg. Entering the University of Manitoba, he graduated with the degree of Bachelor of Arts in 1887. He then took the medical course at McGill University, Montreal, graduating in 1889. He returned to the West and became an interne in Winnipeg hospital, and late in 1889 was attached to the service of the C.P.R. as surgeon, with headquarters at Banff.

Dr. Wesbrook did not remain long at Banff, having decided on taking a post-graduate course at Cambridge. Following his work at that university he attached himself to the staffs of several hospitals in England and Ireland, and finally, when he returned from the Old Country, he was offered and accepted the position of pathological professor at the University of Minnesota.

It is stated that Dr. Wesbrook is possessed of true western ideals, and it is prophesied that his efforts as the directing spirit of the University of British Columbia will crown the work of that institution with success from the start.

AMENDMENTS TO MUNICIPAL ACT.

(Continued from page 1.)

DOESN'T WORK WELL.

It would also be a great help to them to have it made possible for two-thirds of the members present at a meeting, either personally or by proxy, decide on an extension of their activities instead of the present arrangement, which had not been found to work out well. It was a step forward, too, that the Government was going to increase its assistance to these bodies from the present fifty per cent. of their subscribed stock to eighty per cent., and to lengthen the period of repayment from eight to twenty years.

Mr. Hayward dealt with the success of co-operation in Denmark, Germany and Australia as indicative of the value of this movement to the farmer and the country at large and again congratulated the Government and the Minister of Agriculture on the forward steps being taken all the time in the assistance and encouragement of agriculture in this province.

To keep in a healthy condition charity needs to be exercised daily, but it need not be done in public.

HON. GEORGE FOSTER AWAY ON TRADE MISSION.

Will Visit China and Japan.

Goes First to New Zealand and Australia as Delegate on Dominion's Royal Commission.

Hon. George E. Foster left last week for a six months' trip of more than ordinary importance to Canada. He will visit New Zealand, Australia and the Far East. The immediate object of the trip is to attend the sessions of the Imperial Trade Commission, a body appointed by the British government to make a thorough inquiry into the whole question of trade within the Empire. The commission will hold a month's sitting in New Zealand and a two month's sitting in Australia. While in Australia Mr. Foster will complete negotiations for closer trade relations with the commonwealth.

On his return trip Mr. Foster will visit both China and Japan. He will spend three weeks in China and two in Japan in order to make a first hand study of the commercial questions with a view to developing trade between Canada and the Orient. Mr. Foster feels that with the marvellous development which is taking place in China and the growing commercial possibilities of the new republic there is room for tremendous trade expansion for Canadian products.

LIQUOR ACT MATERIALLY AMENDED.

(Continued from Page 1.)

lie unless the appellant files with the judge of the court to which he is appealing an affidavit stating that he has not, either by himself or by any agreement, committed an offence under the act, and this affidavit must further declare that no breach of the act has been committed in the case in point with the knowledge or consent of the appellant. This amendment is made to cover appeals taken in the ordinary way or by means of certiorari proceedings.

In the past it has been found that a number of persons convicted under the act—persons whose cases have been dealt with by magistrates and Justices of the Peace in outlying districts—have escaped punishment through the quashing of convictions on appeal owing to technical defects in the proceedings leading up to conviction. Under the new order of things a man who may be found guilty in fact, and yet be in a position to escape through the quashing of a conviction on technical grounds, will hesitate a long time before swearing in an affidavit to statements which endanger his liberty on a charge of perjury.

Coast time applies as to closing hours throughout the province.

THE ROSARY.

Rowland and Clifford's play, "The Rosary," is repeating this season with remarkable success. This play, as everybody remembers, was the hit of last season, when it broke many house records for big audiences. The play was written by Edward E. Rose, author of "The Prisoner of Zenda," and many other successes and has become as much a favorite with theatre-goers throughout the country as any of Mr. Rose's former dramas. The play from the start tells how Bruce Wilton has amassed a fortune which he lavishes upon his wife, Vera. Their home is a happy one until there creeps into it a note of menace. No one hears of it at first except Fr. Kelly, a priest, the former tutor of Bruce. Quietly he goes to work to find the person who is causing the adverse influence in the household. Almost on the verge of discovering the cause, calamity descends upon the Wilton house. Bruce's fortune is swept away, and in such a way that he believes his wife the cause of his ruin. Husband and wife are separated, the home is destroyed, and yet the cause of all this disaster is unknown. Fr. Kelly, however, with resolute zeal, perseveres in his work to fathom the mystery, and finally succeeds in his undertaking. He finds the one who has caused all the misery and eventually restores the home. The scenic environments of the play are extremely attractive, and place much credit on Rowland and Clifford's efforts. The play will be seen at the Empire Hall to-morrow night.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights, only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Scribbling Pads may be obtained cheap at the Review office; made from scraps of good paper.

Naramata Notes.

Mr. Howard Rounds of Kelowna spent Sunday in town.

The Ladies' Aid are planning to give a social in the near future. Watch for the date.

We are glad to hear that Daniel McKay has passed the crisis in his illness, and is now on the recovering list.

Harold Mitchell is learning to run the engine on the ferry, and expects soon to be a full-fledged ferryman.

Mrs. Edgar was in Summerland on Tuesday to assist in serving at the post-nuptial reception given by Mrs. Stark.

A large consignment of mules and horses was landed here on Saturday night to be used in the construction work.

A little daughter was born to Mr. and Mrs. J. C. Williams on Sunday morning. Both mother and child are doing nicely.

Edward, son of Mr. and Mrs. Morsch, had a bad fall which resulted in a severe cut on his head. Four stitches were taken in the wound.

Peter Roe has found the demand of transporting freight more than he can easily manage with his present accommodation, so he will soon add another scow to his equipment.

Mr. Thomas Kenyon, who, for the last few months, has been with the survey on the line here and then at Merritt, is expected back the first part of March to take up his usual work on the fruit lots.

The dance of the 22nd was a great success, and will be followed by the Dixie Party on March 4th. As this date is the date of the American Inauguration Day the American ladies have offered to furnish and serve the refreshments for the evening.

Mrs. Young and Mrs. Schreck, while driving near the latter lady's home, had a bad accident which might have proved more disastrous had it not been for timely aid. The horse became frightened and jumped over the bank with carriage, ladies and all. The ladies were not injured but the carriage was damaged, and luckily Mr. Young was near to extricate the horse.

On Monday afternoon the fruit growers had the privilege of hearing a very good lecture on tomato culture by Mr. Hoy, and a brief pruning demonstration by Mr. Middleton. In the evening the Messrs. Smith gave lectures on Picking and Handling of Fruit, and Marketing of Fruit, which were both very instructive. The evening attendance did not do justice to the worth of the addresses.

ALFALFA FOR RAW LAND.

As a virgin crop for raw sage brush land, alfalfa stands foremost among the legumes because of its marked influence upon the growth and productiveness of succeeding crops. Sage brush land is usually rich in potash and phosphoric acid and poor in nitrogen (organic matter). Alfalfa appears to correct the lack of nitrogen by the cultivating effect of its wonderful root system, but the belief that it adds large amounts of nitrogen to the soil for other crops is erroneous. Exhaustive studies have shown that although it is capable of manufacturing its own nitrogen when this element is lacking in the soil, it is also a great feeder on nitrogen and deposits very little excess of soluble nitrates. Therefore the beneficial effect of alfalfa seems due, not so much to the addition of nitrates, but rather to the loosening and penetrating effect of its roots, and to what ever organic matter may remain in the roots.

It should be borne in mind that while it can supply its own nitrogen, it must, as do other crops, get its potash and phosphoric acid from the soil.—H. P. Fishburn, Assistant Chemist, Idaho Experiment Station.

RETORT.

"Could you support my daughter in the style to which she has been accustomed?"
"I have never tried such rigid economy, sir."—Lifo.

BARGAINS

FOR

Review Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1

Vancouver Daily Province - \$3.00
Better Fruit - 1.00
The Review - 2.00-6.00
The three for \$5.00

BARGAIN No. 2

Canadian Courier - \$3.00
Canadian Horticulturist - .60
The Review - 2.00-5.60
The three for \$4.60

BARGAIN No. 3

Vancouver Daily Sun - \$3.00
Country Life in America - 5.00
The Review - 2.00-10.00
The three for \$8.00

BARGAIN No. 4

Canadian Horticulturist - .60
Canadian Poultry Review - .50
The Review - 2.00-3.10
three for \$2.70

BARGAIN No. 5

Lost and Found.

LOST—Express package marked
"S. Nelson, Box 86, Summerland,
B.C." Return to Review. f 28 pLOST—Brooch, on Shaughnessy
Avenue. Mrs. J. A. Darko. t.f.An exchange tells the story of a
boy who was sent to market with
a sack full of rabbits, lingering
around town all day and coming
back without selling them. When
asked by his mother why he had
not sold the rabbits, he said no one
asked him what was in the sack.
How many of our merchants are
like this little boy. They have
plenty of goods for sale but fail to
tell the people what is in the sack.
If you expect to sell goods in this
day and age, you must open your
sack and keep shouting the merits
of your stock in trade.Suffragette—If you come to our
meetings you'd hear some plain
things.
Male Thing—Ah! And see 'em,
no doubt!—London Opinton.**Kaleden Comments Notes on Sporting Events.**Mrs. T. C. Preston is staying in
Penticton with her daughter, Mrs.
Baker.Mr. and Mrs. Seaman Hatfield
are away at their ranch, Sleeping
Water, having a delightful time
under primitive conditions.Mr. W. Atkinson is in Summer-
land attending the marriage of his
brother, Mr. Robert Atkinson,
which takes place this week.Mr. Hartley Simpson has been
sick in the hospital at Edmonton
with pleurisy, but we are pleased
to say he is recovering, and hopes
soon to return home.The Woman's Club met at Hotel
Kaleden on Wednesday afternoon
the 19th. There was a full atten-
dance and a very pleasant time was
spent by the Ladies. Afternoon
tea was served in the parlor.Mr. Whitaker gave a lecture on
Thursday evening, the 27th, on
"The History of Church Music." Special
pieces of old music were
rendered by the choir. The pro-
ceeds are for the building fund of
the Baptist Church.The young people of the Chris-
tian Endeavor Society had a pleas-
ant evening at the Gillespie Ranch
on the evening of Wednesday, the
19th. About twenty enjoyed the
moonlight drive, and had a happy
time together with games and
social intercourse. Refreshments
were served at the close.

Phone White 7, or Box 200 Penticton.

OKANAGAN DISTRICT.

FERRY, SUMMERLAND—EAST
SUMMERLAND, OKANAGAN
LAKE.IN ACCORDANCE with chapter
78, R.S.B.C., 1897, "Ferries Act,"
the Government of British Columbia
invite applications for a charter for
a ferry to ply between Summerland
and a point on the opposite side of
Okanagan Lake known as East Sum-
merland, a distance of about two
miles and three-quarters.Applications will be received up
to 12 o'clock noon, Tuesday, 4th
March, 1913.The charter will cover a period
expiring on the 31st March, 1915.
The ferry shall make two trips
each way every day, weather per-
mitting.Applications shall give a descrip-
tion of the vessel or vessels it is
proposed to use, which must con-
form in all respects to the require-
ments of the "Canada Shipping
Act" and amending Act.Applications shall state the tolls
it is proposed to ask for—
Each adult passenger.Each child (not in arms) under
13 years.Each head of cattle, horse, mule,
or donkey, etc.Each calf, sheep, goat, or swine,
etc.Each vehicle with one horse and
driver.Each cart or wagon with one horse
and driver, loaded.Each vehicle with two horses and
driver, unloaded.Each vehicle with two horses and
driver, loaded.

Each parcel of 25 lb. and under.

Freight, per 100 lb. and under,
non-perishable goods.Freight, per 100 lb. and under,
perishable goods.To the successful applicant the
Government of British Columbia
will pay at the expiration of every
three months of satisfactory service
the sum of two hundred and fifty
(\$250) dollars.The Government of British Colum-
bia is not necessarily bound to
accept any application submitted.

J. E. GRIFFITH,

Public Works Engineer,

Department of Public Works,
Victoria, B.C.,
11th February, 1913. f 21-28A large attendance, one of the
fastest games ever seen in Summer-
land, and a win for the Town team
by the score of 15-4 were features
of the Basket-ball game on Satur-
day night, when the Town and Col-
lege teams fought for supremacy in
the Town Gymnasium. In the
junior game the Bean-eaters had
a comfortable margin over their
rivals, the Hill-climbers.The senior game was fast from
start to finish. The College team
showed improved form, but the
forwards could not locate the bas-
ket, and one of the guards was
suffering from an acute attack of
the "shooting sickness," a malady
that has sent many promising
guards to the scrap heap. Baker,
with the exception of a little
roughness, never played a better
game. Glenn was effective, and
will make a great guard when he
recovers from a tendency to carry
the ball when hard pressed. Mor-
lock and Nicholson played hard and
fast, but up against Baker and
Glenn were held pretty closely the
most of the time, and when the
opportunity came their way, they
were away off in their shooting.At centre McWilliams and Wol-
verton had a hard tussle, the for-
mer having a shade, the best of the
argument. Wolverton substituted
for McDougall, who was disabled in
a practice game, and under the
circumstances played well. At the
other end of the gym, something
happened—a young man, worthily
wearing the Hebrew name of Riley
stuck to McLeod as if he was his
long-lost and recently-found
brother, and was so embarrassing
in his attentions that John only
made a single tally. At the other
side of the room Hayward refused
to associate with Brown, and Ralph
resented that kind of ostracism by
piling up a big score. The way
that youngster popped the ball into
the basket brought howls of delight
from the townsfolk, and caused
"weeping and gnashing of teeth"
among the mountaineers. Any-
where in the vicinity of Morton
Hall will be a very unsafe place
for Mr. Brown or his violin until
the memory of that game fades
away. The next game will be
played on Thursday night, March
6th, in the Town Gymnasium.Quebec won the Hockey Cham-
pionship and the Stanley Cup for
the second year in succession when
the ancient city took the measure
of Newey Lalondes Canadiens on
Saturday night by the close score
of seven goals to six. After the
game, which was played on Mon-
treal ice, Senator Choquette, presi-
dent of the Quebec Hockey Club,
announced that if the challenge of
the Victoria Hockey Club was
accepted, one game would, in all
probability, be played in Montreal.A visit to the Coast by an all-star
Eastern hockey team is mooted.
If they come this is the team that
will be pitted against them: Bert
Lindsay, Victoria, goal; Lester
Patrick, Victoria, point; Ernie
Johnston, Westminster, cover
point; Fred Taylor, Vancouver,
rover; Eddie Oatmen, Westminster,
right wing; Tommy Dunderdale,
Victoria, centre; Skinner Poulin,
Victoria, left wing.It is proposed to organize a
Lacrosse Club in Summerland.
This is a move in the right direc-
tion. The national game is all
right.Where is the war canoe? Why
not get into line with Kelowna and
Peachland and organize a strong
crew this summer?The game which will be played
in the near future between the
College and Public School ladies
basket-ball teams will be worth
going miles to see. The physical
director has placed a large order
for arnica and witch hazel.Farm names and farm stationery
are becoming quite common
throughout the country in these
days, and their use is to be
heartily encouraged. Nothing in-
dicates the progressiveness and
reliability of the modern farmer in
all his many dealings by mail than
the use of a farm letterhead, while
a well-chosen name on an attractive
signboard at the side of the road
or over the main entrance gate
immediately marks that farm to
the favorable notice of every
passerby.—Dry-Farming.If more folks were producing a
living, the cost of living wouldn't
be so blamed high.
