DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 32

SUMMERLAND, B.C., MARCH 7, 1913.

Whole No. 240

Better Service for Okanagan.

Through Sleepers Arranged for in Summer Time Table. Two Trains per Day on Valley Line.

Mr. F. W. Peters, General Superintendent of the B.C. Division announced some important changes in the C.P.R. summer schedule. Details, however, have not yet been worked out, and full particulars are not available. A fourth train will be running on the main line between Vancouver and Winnipeg. This new train, leaving Winnipeg at midnight will arrive at Vancouver at 1 p.m., leaving again at 3.30, arriving at Winnipeg at 6.45 a.m. This will mean that this train passes Sicamous going west about 10 p.m., and going east about 6 a.m. In connection with these new trains it has been decided to put on a through sleeper to Okanagan Landing, increasing the service through the Okanagan Valley to two trains a day, thus doing away with the necessity for passengers to stay over at Sicamous, as heretofore. The through sleeper will leave Vancouver on train 62, and will arrive on train 61, the new Vancouver-Winnipeg train. This will give a much improved service through the Okanagan Valley, as these two trains will connect at Sicamous with trains east and west.

Just what changes in the valley schedule this will mean is not disclosed. Coming from Vancouver and arriving at Sicamous at 6 a.m., the sleeper should arrive at the Landing by 9 a.m. or a little earlier. This would seem to indicate a change in the lake schedule. While to connect with the west-bound leaving Sicamous at about 10 p.m. to leave the Landing between 6 and 7 in the evening would give ample time. Does this mean a reversal of the present service or the putting on of another boat?

W. C. T. U. MEETING.

Ladies Discuss Timely Topics.

The spacious parlors of Mrs. D. H. Watson were filled to overflowing on the occasion of the W.C.T.U. meeting there on Monday afternoon. The program reflects great credit on Mrs. Merrill and Mrs. R. E. White, who attended to its preparation.

Mrs. McAlpine led in the devotional exercises, after which the business on hand was soon disposed of.

A paper on "Child Culture," by Mrs. Merrill, contained many excellent thoughts, on which we may enlarge at our leisure.

"Why Should Mothers Belong to the W.C.T.U.?" was the subject of an interesting talk by Mrs. McLeod, who considers our organization as one of the leaders in moral reform work. She reasons that the children are led into temptation, because the mothers are ignorant of the dangers, and therefore do not warn the children concerning them.

In our social purity work, and in other departments of our work, we aim to give that knowledge. Let us not confound innocence with ignorance, as forewarned is forearmed. The old truth "that the people perish for lack of knowledge," may be applied here.

Several musical numbers were much appreciated. These were a vocal duet by Mrs. Robins and Mrs. McAlpine, a vocal solo by Miss Hayes, and an instrumental solo by Mrs. R. E. White.

Mrs. Smith read a newspaper extract on the face of the women's franchise petition which was voted down in the "house," there being nine votes for and twenty-four against it. Our cause was nobly championed by Dr. Young and others, so we take courage and press on. It is only a matter of time when the above figures will be reversed, there being only one issue to this question, as we believe in the final triumph of righteousness.

The Union will meet again the first Monday in April at the home of Mrs. Hayes. The subject to be considered at that meeting is "Anti-narcotics," under the leadership of Mrs. J. L. Logie.—Contributed.

An Optimistic Talk

President Hilborn of Farmers' Institute Gives Most Interesting Address With Much Good Advice. Bright Future for Summerland is View of Experienced Eastern Grower.

Those who listened to the able address of J. L. Hilborn, President of the Farmers' Institute, last night, on vegetable growing came away much enthused, and in a very optimistic mood.

Mr. Hilborn reviewed the history of vegetable growing in Leamington, Ontario, his former home. When he went to that place mixed farming was the chief industry. He entered into vegetable growing as a specialty, and in this he was followed by others until practically the whole district was given over to that branch of agriculture along with fruit growing, and as the business grew and their products became more favorably known the demand increased and prices advanced. At present there are many acres in Leamington under glass, in fact one dealer alone recently imported several carloads of glass.

After further showing profits that were derived the speaker said he saw no reason why Summerland should not occupy a similar position with B.C. and part of the prairies as does Leamington in Ontario and eastern prairies. The practice was to sell to the retailers, but a considerable quantity was disposed through reputable commission houses in the larger cities where there was always a demand. The express business had assumed large proportions and several companies were competing for the traffic. These companies telegraphed market quotations from the different centres to their local office, and the growers were advised by telephone. The methods adopted were described in detail. His description of the work of gathering the seed and transplanting being particularly interesting. It was always the aim to grow the earliest varieties and to get on the market when prices were highest. Tomatoes, cucumbers, melons, and early cabbage were among the principal vegetables grown.

The speaker said he had come here with his family with the idea of living a retired life, preferring our climate to that of his former home, but a short time here revealed to him the excellent opportunities for the growing and marketing of early vegetables, and he had determined to re-engage in that industry. He strongly condemned the practice of planting orchards and not making the soil produce a living during the growing period. While a cannery would do very much toward improving the situation, opening a ready market, establishing a payroll, etc., the prices would be low, and Mr. Hilborn anticipated better results from the growing of early vegetables. The Earliana was the best variety of tomato, but of this there were several strains. He had found large profits in cucumbers, several varieties of which he named, the Arlington being probably the best of the larger varieties, and Burpee's Extra White Spine of the smaller.

Altogether the impression given by Mr. Hilborn was that he did not think it wise to depend on fruit growing alone, that as much or more money could be made with early vegetables, and that if gone about properly Summerland could soon have as good a reputation for the latter as she has for her fruit. Mr. Hilborn's undertaking will be watched with interest, and no doubt his example will be followed by others.

BRITISH COLUMBIA FRUIT PRAISED

By London Evening News.

British Columbia is performing wonders in the way of fruit production. The favorite little English apple known as Cox's Orange Pippin is their latest fancy for experiment, and they have been able to produce this variety much larger in size, more attractive in appearance, and equal in flavor to the English fruit. The earlier consignments retailed readily for 8d. per lb.

Another new and luxurious apple now on sale in Covent Garden Mar-

SCHOOL BOARD MEETING.

Women's Institute Asks For Sanitary Paper Towels.

J. Dunsdon Complains of Publishing Teachers' Letter.

Indian Children Admitted.

The Board of School Trustees met in regular monthly session on Monday morning in the Council room. A number of citizens were present to interview the Board, and immediately after the reading of the minutes these were heard.

Mrs. T. N. Ritchie and Mrs. R. E. White, representing the Women's Institute, asked that the Board adopt modern sanitary paper towels for use in the school. It was pointed out that there were now no towels available for the use of the children except that of the teacher. The towels come nine hundred in a roll at about \$2 per roll.

T. J. Garnett and W. H. Dunham, two of the school route contractors, came to discuss routes in the south-east portion of the municipality. The recent change in Garnett's route has not been found as satisfactory as had been hoped, and several other plans were suggested. It was finally left with these two to work out a plan which would be suitable to them, and at the same time best serve their respective districts. They will try the routes suggested for a time and report to the board. It is probable that Mr. Garnett will go back on his old route, serving all of the bench, but not conveying the children nearest the school. Mr. Dunham will try some plan to work in close to Mr. Hatfield's, and continue up toward the school, coming from Trout Creek via the lake road instead of the bench as at present.

James Dunsdon came to enquire about the re-opening of the Garnett Valley school. He was told that the plan of the Board to open the school in that district next fall would be carried through as permission had been granted by the Department. Mr. Dunsdon strongly objected to the teachers' letter recently published in the Review, in which the teachers replied to the charges made by the Garnett Valley delegation at the last Trustees meeting, and wanted to know why it had been published before coming before the Board. The chairman pointed out that this letter was addressed to him and that the Principal in presenting it had been given permission to publish. Dr. McIntyre approved of the action of the chairman, as he looked upon the letter as an open one to the board, while the secretary claimed that the accusations in the petition should never have been made, but since they were the teachers had the right of reply. Mr. Dunsdon continued to object on several scores, but the chairman thought it was not good policy to continue the strife. The teachers were disposed to push the matter but instead he had recommended that their reply be published and the matter allowed to drop. Mr.

Dunsdon then modified the charges made in the petition saying that the petitioners' meaning was different from the interpretation put upon the petition. He also complained of the standing of the schools at the last exams, and blamed the central system. To this the reply was that the Board had in the past been unfortunate in its teaching staff but that a marked improvement was anticipated this year.

Among the communications received was the letter from the Minister of Education permitting the opening of the Garnett Valley school, a copy of the teachers' letter, already published, which was ordered filed, and the January and February school reports.

A requisition received from the Town school was left with Trustee Shields to arrange.

The matter of towels was then taken up, and the idea met with the approval of Dr. McIntyre as there would be an assurance against spreading skin diseases and encouragement of cleanliness. As to the matter of cost he did not know how the rest of the board would look upon it. Chairman Robinson favored the idea, but thought there was no money available for such extra expenditure this year. Secretary Logie pointed out that each of the teachers had been supplied with a towel, and thought the schools could get along very well as they had been.

The Layritz Nursery Co. had offered to supply the Board free with a number of ornamental trees and a committee was appointed to select the varieties.

The Department of Indian Affairs, through Agent Brown, asked the Board to permit two Indian children from Trout Creek to ride in the conveyance and attend the Central School. For this privilege the Department would pay any reasonable charge. The request was granted, and the charge fixed at \$5 per month for the two.

The following accounts were ordered paid:

Salaries	\$520.00
W. J. Taylor	35.00
J. L. Logie	10.00
W. H. Dunham	68.00
Pares & Hookham	104.00
J. R. Campbell	50.00
T. J. Garnett	61.10
Herald Publishing Co.	2.00
Wm. Ritchie	6.34
J. G. Robertson	1.20
E. N. Moyes & Co.	9.00
W. H. Peacock (coal)	58.80
S'land Drug Co.	9.35
Gordon Blewitt	4.00
J. J. Blewitt	3.50
E. C. Graham	3.00
	\$940.29

ket is the British Columbia "Delicious" apple, a big, speckled, ruddy-colored fruit that can be retailed for 6d. per pound. It has a distinct and delightful taste of its own, and is sure to become popular as a dessert.

The supply of ordinary apples from Nova Scotia, Ontario, and the United States constitutes a record. In the opinion of one of the oldest wholesale traders in Covent Garden Market apples were never so abundant or cheap at this time of the year. Amazing value can be obtained for 2d. per lb.

LOCALS.

Miss Candace McDougald of Peachland is visiting friends here

Mrs. Lang of Peachland was visiting at the home of Mrs. T. N. Ritchie.

Rev. C. H. Daly attended a meeting of the Presbytery last week at Revelstok.

A meeting of the creditors of the T. E. Moore estate will be held next Friday at the office of W. C. Kelley.

Nurse Pollock is at present at the home of Mr. and Mrs. Wingate of Peachland, to whom a little son was born on Monday last.

While at play on Wednesday in the Central School grounds Stuart Daly, a young son of Rev. C. H. Daly, had a collar bone broken.

Another of the afternoon teas which are being given by the ladies in aid of the St. Stephen's Church organ fund was given by Mrs. Cooper at her home in Ponch Orchard.

P. P. Johnston, who recently returned to Summerland accompanied by his family, have taken their residence on Mr. Johnston's recently acquired property adjoining the Parker orchard.

According to press reports public school students and teachers will be given a week's holiday at Easter time henceforth instead of three days, as heretofore. The spring holiday period will be the four days following Easter Monday; the summer vacation period from July 1 to the fourth Sunday in August, inclusive, and the winter holiday the two weeks preceding the first Monday after New Year's.

Fruit Growing in B.C.

Summerland Fruits Lead Prize Lists at the Great World Shows.

(Family Herald and Weekly Star.)

An enthusiast from British Columbia—that province of enthusiasts—sends us the following glowing, interesting and truthful account of the wonderful development that has taken place in the Okanagan Valley. It will occur to our readers that it is somewhat curious that the choicest apples and other fruit in the whole world should grow and ripen on the East Coast of Canada in the Annapolis Valley, and on the West Coast in the Okanagan Valley.

That Okanagan fruit beats the world, and that Summerland beats the Okanagan, has again and again been demonstrated at the various exhibitions both at home and abroad. Below are the results of one exhibitor alone:

Mr. Muir Steuart of Summerland, B.C., took 52 boxes of apples to Penticton Apple Show, held at that place on October 18, 1912, and every box took a prize, all being firsts except four, and these secured seconds. With 50 boxes at the Okanagan Apple Show held at Vernon, October 23 and 24, 1912, he took 18 firsts and 2 seconds with 22 entries.

At the American National Apple Show, held at Spokane, in 1911, he had 15 entries, taking 10 firsts and 4 seconds, two seconds being second to his own firsts, and five boxes Jonathans were shown by the judges to the horticultural students as being the best packed and most perfect boxed fruit in the show, also winning both first and second in the foreign special.

At the same show in 1912, he "showed" 50 boxes, being 21 entries, and won 14 firsts and 5 seconds, two of the latter being second to his own firsts, and again winning the foreign special.

Going from Spokane to Portland, Ore., after selling his fall varieties, he took seven firsts and two seconds with 11 entries. Hood River, which claims to beat the world on apples, and especially on Spitzenbergs, had ten entries alone in the Spitz class, but again had to take second place to the Summerland Spitzenbergs, this fact causing great comment.

The greater portion, if not all, of the apples which took the gold medal at London, England, last month, were Summerland apples.

Summerland is situated on the Okanagan Lake, in what is known as the dry belt of British Columbia and acknowledged to be the most fertile in the province. It depends entirely on irrigation.

Ten years ago the only inhabitants were cattle ranchers, some of whom had a few trees round their buildings. The wonderful quality of the fruit grown on those neglected orchards being brought to the notice of Sir Thos. Shaughnessy and others of the C.P.R. directors, they at once bought the proposition and spent \$10,000 to put water on it, with the results as shown above.

Only ten years from the sage brush and bull pine, and what do we find? Thousands of acres of orchards planted out to apples, pears, plums, peaches, apricots, cherries, etc. Also, the finest grapes of Tokay and Blac Hamburg varieties.

The Okanagan College is situated at Summerland, with Everett Sawyer as Principal. Also a Girls' College, High School, Central schools, a hospital. Domestic water and telephone cover the entire district, and electric light is installed. In addition to the usual stores, there is a canning factory, a jam factory, a fruit box factory, a launch and motor boat factory, several saw mills, etc. The lake is 60 miles long, and four miles wide, with good fishing, and there is good hunting in the hills—deer, bear, and other large game. The district is deservedly termed "The California of Canada."

It isn't necessary to have an automobile to run down one's neighbors.

Hon. Price Ellison, who was expected in Vernon on Sunday last, travelled as far as Vancouver where he was forced to go to the hospital and undergo an operation for appendicitis, from which he is making satisfactory progress towards recovery.—Vernon News.

Hunters Must Have Licenses.

Men Who Trail Game in British Columbia Must Wear Badges.

Victoria, Feb. 27.—Important changes to the Game Protection Act of British Columbia are set forth in an amending measure introduced in the House by Hon. W. J. Bowser, attorney-general.

This measure provides, among other things, that it shall be unlawful for any resident of the province to hunt animals or birds or to carry firearms of any description, or air guns, or any device for the purpose of capturing any animal or bird without first taking out a licence. In addition to taking out a licence, hunters will be required to wear a badge showing the number of their licence. These licences will not be transferable. Any breach of the act involves cancellation of a hunter's licence. Licences will not be issued to boys under sixteen except at the written request of parents or guardians, who shall undertake that such boys, when carrying firearms, will always be under their supervision or that of some responsible licence holder. There are three classes of licences: an ordinary, to carry firearms and hunt birds and deer, other than moose, wapiti and caribou, costing \$2.50; a general, to hunt game, birds and animals, \$5; a special, to carry firearms and trap, \$10. Holders of general or special licence must, within fourteen days of date of expiration, return the licence to the provincial game warden with a sworn statement of the number of each species of big game or animals trapped. Prospectors having a free miner's certificate may obtain ordinary licences during the open season while actually engaged in prospecting; so may farmers and their sons hunting on the land on which they permanently reside. Any firearm found in the possession of any person not having a licence may be seized and confiscated.

It is provided that no person shall act as hunters' guide without having taken out a licence. Every guide so licenced must require every person whom he serves as guide to produce for inspection that person's firearms licence, and failure to do so constitutes a breach of the act. All licenced guides shall, within fourteen days of the expiration of their licence, furnish the provincial game warden with a statement showing the number of persons whom they have served, the number of days they were engaged in hunting, and the number of different species of big game killed.

The privilege heretofore accorded storekeepers of keeping game for sale for a period of five days after the expiration of the close season for such game is withdrawn, as is also the privilege heretofore accorded the private owners of game killed during the open season of keeping such game for a period of ten days after the expiration of the open season.

It is provided that it shall be unlawful for any person to run deer at any time with dogs or allow dogs to run after deer. The old act allowed hunting of deer with dogs by permission of the game warden. The hunting of birds with dogs between April 15 and August 1, both inclusive, is prohibited.

Various penalties of severe character are provided for any and all infractions of the act. Any fines imposed under the act must be paid forthwith, and, in default of payment, the offender shall be liable to imprisonment, with or without hard labor, for a period not exceeding six months, unless otherwise provided in the act. The old act provided for imprisonment not to exceed thirty days.

Every trader in furs is required to make a return to the game warden not later than August 1 in each year, stating the number and variety of pelts bought by him in the province during the twelve months preceding. Failure to make such return involves a penalty up to \$100, and in default of imprisonment not exceeding three months, and if the offender be a corporation it shall be liable to a fine not exceeding \$200.

These are some of the more important of the provisions of the amending bill.

Job Printing

‡ Did you ever stop to consider that you, Mr. BUSINESS MAN, are judged by the quality and get-up of your stationery? It is a mirror which reflects your character, and by which your business standing in the community is gauged. LET US DO YOUR PRINTING.

No Job Too Small, Nor Yet Too Large.

‡ The best way to impress your customers with your success, and the excellence and the variety of your goods, next to newspaper advertising, is to send them a booklet folder, or mailing card occasionally, setting forth the best selling points of your stock, a booklet prepared and printed attractively and correctly --- a booklet or folder that will inspire confidence in you and in your goods.

The Home Circle

Crude Thoughts From the Editorial Pen.

HOME AND HAPPINESS.

Many a young wife is so negligent of her husband's comfort, is so glum and blue and cheerless, that home to him is not a place to stay, he'd rather be out among the boys, there's life and fun among them, while there is nothing but fault finding and cross looks at home. The woman who cannot talk intelligently and pleasantly to her husband about business matters that concern them both, and make the home a cheery place that he will not be ashamed to invite his friends to visit, is lost. He most likely will bring his friends when she is cleaning house, or has a sick headache, or there is nothing good for dinner, but that doesn't make any difference, it doesn't excuse her for getting out of sorts about it, she must smile on and do the best she can, not forgetting that a good name is rather to be chosen than great riches, it is a priceless possession that can only be obtained by being put through the fire furnace. This is the way true metal is tested. Let the young husband and wife not grow discouraged at defects they find in one another. They are always there, but time and patience smooth our wrinkles, and adapt the pair to each other's ways.

TO twit and continually say, "I told you so," shows a lack of good breeding and kindly feeling. We would not think of using such a phrase outside the household. Are not those within the precincts of home as precious as those without?

HOLD up your heads girls! The ugliest of you may have the beauty of health and purity and innocence. The plainest may make herself so beloved that the hearts of those who know her will long for her presence, and to them she shall seem the very queen of beauty. If your lips are too thick and lacking in curves, teach them to utter sweet words of sympathy and noble words of inspiration. If your hands are large, let them ever be ready and helpful, the glad almoners of a generous heart. It will shine through and be apparent to the dullest eye, and while making the mind and heart beautiful, do not forget the body. Keep it clean, wholesome and pure, and you will be a delight to yourself and those about you. No matter how bright the eyes may be, if they reflect unkind, unlovely thoughts they are not beautiful. No matter how soft and white the hands may be, if they cannot work they are useless members, commanding no respect.

WHY are some people all smiles when their visitors are about, and all frowns when all are gone but home folks? Why not have some smiles for the family?

NO individual in the world can do a mother's work for her.

TO have a home of our own and to live distinctly and honestly within our means is essential to all married life. How many couples now in mature life and surrounded by luxury and wealth, look back to the days of early privations as among the happiest days of their life. No sensible person will deem it a hardship to begin on a moderate scale. And when we have ascended to the top steps of prosperity, we may look back on the days of small things as the golden days of our hearts if not our purses.

THOSE who are much together grow singularly alike as time goes on.

THE circle of human duties is only complete by the union of those of man and woman.

VOTERS' LISTS ALL CANCELLED.

Everyone Must Apply for Enrolment on New List.

Victoria, Mar. 3.—To-day, according to legislation passed in the Provincial House on Friday last, every provincial voters' list in British Columbia will be cancelled. To-morrow morning new lists will open and any person who fails to get his application in before the third Monday of April will not be able to vote at any Provincial or Dominion election that may take place within the following seven months. It does not matter how many years you may have been on the voters' list of the province, unless you put in an application within the next seven weeks your name will not be found on the new voters' list.

This legislation is understood to be in reply to criticisms that the voters lists of the province are in a bad condition. Efforts have been made to purge the lists of late, and in Vancouver several thousand names of voters who have moved out of the district or have died, were stricken off the rolls for the Vancouver electoral district at the last Court of Revision.

The Court of Revision is set by statute for the third Monday in May, and as it is a statutory requirement that the lists close thirty days before the opening of the Court of Revision, to enable objections to be advertised and the work of the court arranged, applications dated later than the third Monday of April cannot be considered at the Court of Revision in May.

As the provincial lists are used in the Dominion elections, it follows that all who fail to get on the

new provincial list will be debarred from voting at any Dominion election that may be held. The voters' list for the municipal elections is not affected by the new legislation, that being a separate list under the direct control of the municipality.

NEWSPAPER LAW.

1. A postmaster is required to give notice by letter (returning the paper does not answer the law) when any subscriber does not take his paper out of the post office, and state the reasons for its not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payments.

2. If any person orders his paper discontinued, he must pay all arrears, or the publishers may continue to send it until payments are made, and collect the whole amount whether the paper is taken from the office or not. There can be no legal discontinuance until payment is made.

3. Any person who takes a paper out of the post office, or whether he has subscribed or not, is responsible for the pay.

4. If a subscriber orders his paper stopped and the publisher continues to send it, the subscriber is bound to pay for it if he takes it out of the post office. This proceeds upon the ground that a man must pay for what he uses.

5. The courts have decided that refusing to take newspapers or periodicals from the post office or removing, leaving them uncalled for, is prima facie evidence of intentional fraud.

Bachelors are "women's rights," and widowers are women's lefts.

As fresh as summer roses in early dew.

Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or phone, and a messenger will call.

FRIDAY, MARCH 7, 1913.

LET'S GO AFTER IT.

ANYTHING that lends itself to the comfort and convenience of citizenship in rural communities tends directly to encourage settlement in such districts. Domestic water, electric light and other conveniences have no doubt done much toward bringing additional citizens to this community of orchards. It may not be generally known to our citizens that there is yet another very material convenience in the form of a government service which, we believe, this community may have for the asking, a service that would save in the aggregate many weeks in time and be a source of comfort to all concerned. We refer to a branch service of the Post Office Department, inaugurated some years ago, and meeting with general favor and success, namely the rural mail delivery. A number of additional postal facilities are now afforded by this service as a result of the new regulations which went into effect recently by order of the Postmaster-General, adding much to its usefulness.

Our readers are probably all familiar with the method of service. A courier, or couriers, in the employ of the Post Office Department covers the territory much as the city mail carrier, but with a much larger range of duties. Special boxes are placed by the Department at the gate of each householder, and in this mail matter is deposited. The couriers are required to carry for sale a stock of postage stamps, to take applications and accept money orders and postal notes, and to give receipts for funds so received.

For the convenience of patrons in obtaining money orders and postal notes through rural couriers the Department has issued special printed forms of application, a supply of which is placed in each mail box as well as being carried by the courier for the use of intending remitters. A patron may procure a money order or postal note by filling in the particulars on an application form and handing it with the cash to the courier, who will give a receipt for the money received. The money order or postal note, as the case may be, is purchased by the courier at the distributing post office to which he is attached, and is personally delivered on the route to the applicant or his duly authorized representative, when courier makes his next regular trip. If personal delivery is found impracticable, the order or note may be enclosed in an envelope addressed to the applicant (remitter) and deposited in his mail box. If on the other hand, the remitter so desires, the courier may, as the agent of the remitter and at his request, mail the money order or postal note to the payee thereof in an addressed envelope furnished for the purpose by the remitter.

Rural carriers are also authorized and required to accept for registration all classes of mailable matter properly prepaid, which may be tendered to them on any trip, and to issue a registry receipt for each letter or parcel accepted for registration. As regards the delivery of registered mail matter, the patron is advised by means of a card notice deposited in his mail box, that such matter has been received at the distributing office, and is requested to meet the courier at the box on the latter's next trip in order to receive delivery and give the necessary receipt therefor. If the patron fails to meet the courier at the appointed time, the patron is advised by means of a second notice that the registered mail matter has been returned to the distributing office, where it will be held until called for, or until further instructions are given as to its disposal.

That the advantages of the rural mail delivery system is appreciated by the people in British Columbia is evident by the number of applications for new routes now being dealt with by the Post Office Department.

To procure this service the first move would properly come under the offices of a Board of Trade, and from enquiries made we believe it is available to Summerland and district, and we would suggest that the matter be taken up at an early date with the Post Office Inspector, asking him to send an official to report on the district and the feasibility of establishing such a service.

NEW INDUSTRIES—AND OLD.

A great deal of attention is being paid, and rightly, to securing new industries for the Okanagan. The pages of the local press is full of dissertations on the theme "We need a pay-roll"—and some of the very men who raised the slogan send their orders for job printing out of town.

There are even civic bodies in the valley, whom the press could and if necessary would name, who have actually sent orders for municipal printing to outside firms—public money—raised by the people in the town—spent, not in swelling the local payroll and by being circulated in the locality helping to build up the town or city, but sent out of town to the detriment of that very local industry which week by week is advertising the district.

There are business men in the Okanagan who are inconsistent enough to expect the local press to refuse, as it does, the large and lucrative advertising of various mail order houses, since the local press should certainly support local business houses, and then send their orders for office stationery to some outside printing house.

And the price they set on their consistency is generally a very slight margin, and the gratification of a fact they do not give the local printer the opportunity of stating whether he can supply or not.

The local printing and publishing houses are local industries, with payrolls already established, often comparing very favorably with any other payroll in the district, employing one of the highest classes of

journeymen, and certainly doing more than any other to advertise their respective districts, and they should be regarded in that light.

There is wisdom in the saying: "Make new friends but keep the old, lest they turn again and rend you."—Vernon News.

ANOTHER DESPICABLE MOVE.

THE Review has been considering whether it might be advisable to suggest a coming together of the officials of the Okanagan Telephone Company and the representatives of this community, with a view to a better understanding and a hope for an improvement in the service. This idea was not entertained until the recent decision of the government showed the company that it could not have everything its own way, and with a hope that henceforth it will be more considerate of the public interest. But now, however, another incident has come to our notice which makes us almost despair of a "square deal" from the company. Force, rather than diplomacy, is seemingly the policy still to be pursued. The story referred to as told to the Review is this: Some time ago the "trouble" man for the people's line, who is a resident of Penticton, had the telephone company install a 'phone in his residence so that he might, through the local exchange, be promptly advised of any trouble on the lines over which he has supervision. The company seemingly in a resentful mood has now forbidden him connection with the people's line north of Penticton. What is to be gained by such tactics is not apparent. The government, no doubt, will give their man connection with their own system and the Telephone Company loses another subscriber.

PARENT AND SCHOOL.

It has often occurred to us that children would get on so much better at school if parents would only cultivate the friendship of the teacher more, and win her confidence. We are quite sure that if mothers would let the teachers see that they have an interest in them and the children too, it would stimulate the teachers and their pupils. It stands to reason that if the teacher knows that the parents are co-operating with her, the efforts which she puts forth are more likely to result in greater progress being made by the children. There is no need whatever to make a great friend of the teacher, but it would certainly help matters a great deal if, say, the teachers were asked to come and take tea, at a definite time, or spend a certain evening with the children and parents. Such little matters are worth thinking about, and we feel convinced that mothers who try what we have suggested will be pleased with the results. This was not written at the suggestion of any teacher, either.

A RECENT amendment of the Public Schools Act requires that all school trustees possess the same property qualifications as is now required for councillors, and if the bill had passed as first introduced those sitting on the boards at present, not so qualified, would have been required to resign. By a further amendment inserted in the bill it has been provided that the property qualifications shall apply only to such trustees as are elected after the passing of the act.

IN the ten months ending January 31st Canada imported 11,000,000 dozen eggs, valued at two and one-third million dollars. In the same period she imported five and three-quarter million lbs. of butter, at a valuation of one and one-half million. The exports in either line were insignificant. Only in the three staple grains and in cheese did Canada export more than she imported. There is evidently room for a great expansion in the various branches of agriculture.

Our Philosopher

MEMORIES of what we learn through bitterness and sorrow may not always be held in regret.

A FALSE friend is like a shadow on the dial; it appears in clear weather but vanishes as soon as a cloud approaches.

IT is easy to be noble among the noble. The difficult thing is to keep the nobility of one's nature unperverted among the petty and the ignoble.

"BIRTH, marriage and death are three solemn mysteries given us to study, and the second of these is the key which solves the problem of the other two, since well-born children and true wedded love will help us to bless and save this world, and send us rejoicing to receive our reward in the next."

IT is a well-known fact that the most severe critics of the public schools and the churches are the people who have never taken the trouble to enter the doors of the institutions that they criticize. They stand outside and bark instead of entering and learning for themselves the truth about matters. It is far easier to set up a hue and cry than to make a thorough investigation.

THE best capital, in nine cases out of ten, a young man can start in the world with, is robust health, sound morals, a fair intelligence, a will to work his way honestly, bravely, and if it be possible, a trade, whether he follows it for a livelihood or not. He can always fall back on a trade when other paths are closed. The path of success in business is invariably the path of common sense. Notwithstanding all that is said about "lucky hits," the best kind of success in every man's life is not that which comes by accident. The only "good time coming" we are justified in hoping for is that which we are capable of making for ourselves.

ONE great trouble with the people of to-day is that they know how to manage the business of their fellows. The old maid proffers her sister advice upon the business of her husband, and any old bachelor can give a father advice as to the rearing of his boys. The man who would starve but for the honesty and frugality of his wife, and we can tell you of several, feels competent to manage the finances of the country, and people who cannot be trusted to drive the ducks to water will explain to the world's wisest how to get to heaven. The man who

could not run a hand organ if it was tied to him will tell you just how to run your own business. Yes, and a man who cannot run anything else on earth generally knows how to run a newspaper—run it in the ground.

THE local newspaper is indispensable to any town that has any get-up about it. It is one of the necessities of the farmer and business man. It puts the ball in motion when any new enterprise is proposed that would be a benefit to the town and the community in which it is published. It keeps an eye on every move that is calculated to help the people. It keeps a record of the happenings of the town and the surrounding country, and is read a thousand miles away by persons who are hunting a home and a place to invest their money. It booms your town and gives it a name abroad that it would otherwise not have. It points out the advantages of its town and district so that the world may see it, and when a man gets mad it takes a "cussing" as coolly as anybody, but hews straight to the line just the same. There are thousands of reasons why a town should support a newspaper, but the greatest of all is because it pays well to support it.

International Egg Laying Contest

The Second International Egg-Laying Contest, held under supervision of the Provincial Department of Agriculture, at the Exhibition Grounds, Victoria, began December and will continue for ten months.

Total Eggs laid from December 2, 1912, to March 2, 1913.

CLASS I.—Non-weight Varieties.			
Pen.	Owner.	Breed.	No. of Eggs.
1	O. P. Stamer, Cowichan.	Anconas	215

39	A. E. Smith, Maywood P.O., Victoria	S.C. Reds	284
40	S. D. Evans, Box 201, Penticton	W. Orp's	74

The end of the third month of the contest shows pen No. 15, White Leghorns, owned by Messrs. Norie Brothers of Cowichan, beating the pen that has hitherto led, owned by Mr. Soole by one egg, in the lightweight class, and in the heavyweights, the sudden rise of pen No. 32, Buff Orpingtons, owned by Mr. Robbins of Chilliwack, to first place with the excellent score of 254. The monthly record of this pen, Mr. Terry believes, has never been excelled in any public contest unless among birds on free range. Its owner won the silver medal in last year's competition for its production of eggs during the winter months. The 104 eggs credited to the White Cornish Game pen in one month is remarkable as showing that these birds, hitherto prized for their meat, have now established a claim to being considered an all-round utility bird.

Weather Report

Abstract from weather records for February, 1913, kept at the Government Station, Balcombe Ranch, Summerland, B.C.

Local News Items

Mrs. Jack Conway and Miss Conway were at Naramata on Monday.

Miss Georgina Elsey spent last week at Kaleden, the guest of Miss Preston.

Mr. and Mrs. McCall of Peachland are the guests of Dr. and Mrs. Smith.

BORN—To the wife of Mr. L. C. Woodworth, at the hospital, March 6th, a daughter.

The work of erecting Mr. Angove's new cottage will be undertaken at once.

Mr. and Mrs. A. A. Derrick returned home on Monday morning, arriving on the Okanagan from Penticton.

The Okanagan Lake Boat Company is having another scow built, this time a small one, 12 x 30, for lighter work.

Gus Anderson of Kelowna is visiting here at the home of his mother. He and his brother Fred spent Tuesday at Naramata.

The last regular meeting of the Women's Institute was largely attended. A demonstration of pastry making was given by Mrs. W. McDougall.

Mrs. Anderson, who spent the winter in California, returned home last week. Her son, Fred, met her in Seattle and accompanied her home from there.

A quantity of heavy timber was landed at the C.P.R. wharf early this week, and is being hauled to the mouth of Prairie Valley where it will be used in a trestle on the K.V.R.

Mr. James Ritchie is reported to have landed at Halifax on Friday of last week. He will not, however, reach home until early next week having been called to Philadelphia from Montreal.

The Okanagan District Sunday School Convention will be held in Vernon this year on March 11th and 12th. Committees have already been appointed and the appointment of delegates from the various towns in the district is in progress. It is hoped to make this the best convention ever held in the valley.

A dispute has arisen this week between the collector on the one side and Mr. S. L. Taube the optician, and the Summerland Drug Company on the other over a question of trade license for the optician. The license was finally paid by the Drug Company under protest, and the matter will be put before the Council on Tuesday's session.

"The Summerland Review is one of the best edited country papers I know of. Every page of it is interesting and useful. The Editorials or Home Circle are either worth the subscription price. As a newspaper it is fresh and breezy." These are the kind words of appreciation from a non-resident subscriber, a man well known throughout the west. We can assure our kind reader that his words of praise and encouragement are fully appreciated.

Rev. W. M. Armstrong of Okanagan College has taken charge of the Allandale Mission in south Edmonton. Lots were secured as a gift from the Hon. A. C. Rutherford, and the Strathcona church has erected a building costing in the neighborhood of six hundred dollars. Pastor H. R. McGill opened the building and had as the first congregation about seventy-five people. The Sunday School numbering about forty has been organized.—Western Outlook.

Following are the donations to the hospital received in February:

Dr. Andrew—Family scale.
Mrs. Downton—Fruit, cakes, buns, mattress cover, one sitting-room table cover and two towels.

Mrs. R. Stenart—Mattress cover.
Mrs. J. Conway—Home-made candy.

Anon.—Two candlesticks, jar cherries.
Mrs. Chilton, Peachland—Two sheets, three babies undervests, one pillow and two pillow cases, one tray cloth, old linen, three small plates.

Miss Helen Phinney—Cream jug and sugar bowl.
Mrs. Lewis Block, Naramata—One box onions.

LOST—Small gold brooch, between Peach Orchard and C.P.R. wharf, on Sunday, March 2nd. Finder please return to Review Office.

Mr. and Mrs. W. J. Robinson have again taken up their residence at "The Maples" ranch.

Miss E. L. Scarfe of Nevada City, Cal., is the guest of her aunt, Mrs. A. B. Williams, Peach Orchard.

Mr. W. C. Kelley made a visit to Peachland early this week on legal business in connection with the re-organizing of the Peachland Canning Company.

Dr. Colthard, who some time ago relieved Dr. Andrew in his practice here, is a visitor in town. He has been practising in Kelowna, relieving a doctor there who has been ill.

J. H. Baker, formerly with the Hudson's Bay Company in Vernon, is now in the office of W. J. Robinson, Mr. Stanley having resigned his position. The latter, who is conductor of the amateur company now rehearsing "The Mikado," will remain here till after the play is put on at the end of the month.

The ferry company's new boat, the "Skookum," was successfully launched from the ferry slip on Wednesday afternoon. On Thursday it was moved over to the C.P.R. dock where the motor was loaded preparatory to installation. It is expected the new craft will be into commission in a week or ten days.

The friends here of Mr. and Mrs. M. J. Crehan with whom they have become acquainted while here in connection with municipal auditing, will learn with regret of the loss to them of their six-year-old daughter, who died last Saturday at their Vancouver home. The primary cause was a severe attack of whooping cough.

Sunday, March 23rd, is Anniversary Sunday in St. Andrew's Presbyterian Church, West Summerland. Rev. Principal Mackay, D.D., of Westminster Hall, Vancouver, is the preacher, morning and evening. On Monday evening a gathering will be held in the church. Music will be provided. Principal Mackay will speak. Refreshments will be served. All welcome. A collection will be taken.

The engagement of Prof. R. P. Baker, Vice-Principal of Okanagan College and Miss M. I. Messenger, also of the College faculty, was announced on Thursday. Miss Messenger is a graduate of Acadia University, and is a Nova Scotian by birth. Previous to joining the Okanagan College staff she taught in Vancouver which has for some time been her home. Prof. Baker has been connected with Okanagan College for several years.

The first lecture in the courses of lectures of the St. John's Ambulance Society will be given to the men next Monday evening in Campbell's Hall, and to the ladies on Tuesday at three o'clock. Dr. Andrew will give both of these lectures. It is necessary that any who contemplate taking this course begin with the first lecture, and should be ready with their fee of \$3 to enroll at once. The lectures will be given weekly, Dr. Smith alternating with Dr. Andrew.

T. E. Moore has made an assignment for the benefit of his creditors. Mr. Wollaston, of Wilson Bros., Victoria, wholesale grocers, is assignee. W. C. Kelley, representing the latter, took possession of the store on Saturday evening last. A meeting of creditors will probably be held in Vancouver at an early date, and it is expected this will be followed by another here at which the Const creditors will be represented. The total assets or liabilities have not yet been learned. The many friends of Mr. Moore will sympathize with him in his time of trouble and disappointment. He has made a most determined effort to progress against heavy odds.

NEW MANAGER.

Mr. F. F. Hannington, the now manager of the local branch of the Canadian Bank of Commerce arrived last Friday evening, and Mr. P. S. Wood, the former manager, accompanied by his wife, left on Sunday evening. Mr. Wood immediately assumes charge of the South Hill branch, Vancouver. Mr. Hannington's mother came with him, and it is understood that they have rented the Anderson cottage on Bench Avenue, and that Mr. and Mrs. Anderson will remove to Peach Orchard.

NOTICE OVER THE 'PHONE WILL BE AT ONCE ATTENDED TO BY THE CONSTABLE.

J. L. LOGIE,
Municipal Clerk.

Kaleden Comments

Mr. Whitaker has gone across to Mr. Mathison's orchard to do the pruning there.

Mr. J. R. Brown of Summerland called here last Saturday on his way home from the South.

Mr. Knight and Mr. Guild have rented Mr. D. D. Lapsley's tent, and are housekeeping there for the summer.

Miss Georgina Elsey was a visitor from Summerland for the week-end, and stayed with Miss Archina Preston on the benches.

Mr. and Mrs. A. S. Hatfield and their son Harley have returned home from their ranch after an absence of several weeks.

Mr. Ben Newton is laid up with quinzey. The last report was that he was progressing favorably, and we hope to see him about soon.

Mr. Whitaker's lecture on the "History of Church Music" was a great success, and the collection in aid of the church building fund realized \$8.40.

Mrs. Mitchell's baby boy, Donald, was taken ill on Sunday evening and has been very sick for several days. We hope to be able to give a better account of him soon.

Mr. John Marshall drove down on Saturday from Summerland. He took the services in the Baptist Church on Sunday, and gave two excellent addresses. He returned on Monday afternoon.

There is every evidence of the coming of spring, and visitors begin to avail themselves of the beautiful weather to visit this delightful part of the valley. Quite a number of people came in to the hotel last week.

Mrs. Mathison from the ranch at the lower end of the lake walked across the lake on Saturday afternoon and paid a visit to Mrs. D. D. Lapsley. She also looked over the hotel, with which she was very pleased.

There was a gathering of ladies at the home of Mrs. D. D. Lapsley on Saturday afternoon to put the finishing touches to a very handsome quilt that has been made by the "Helping Hand Club" of Kaleden. Mr. D. D. Lapsley has very kindly consented to place the quilt in his store window for exhibition, and it is for sale. The proceeds will be devoted to Dr. Grenfell's Mission in Labrador.

DID WHAT SHE COULD.

"Is your son happily married?"
"Yes, I'm afraid he is. I've done my best to convince him that she isn't worthy of him, but he won't believe me."—Chicago Record-Herald.

THE CARRIAGE OF FRUIT.

New Zealand's New Scheme Made Possible by Government Control of Transportation.

Arrangements have been made by the railway department for the through booking of New Zealand-grown fruit by rail from any station where there is a stationmaster in charge to any station (either officered or flag) in the government railways system. The scheme comes into operation on January 1.

The following particulars will convey an idea of the arrangement, which should prove an appreciable facility to the general public: Freight and other charges must in all cases be prepaid, and will be computed separately for each rail and sea journey as follows: For each rail journey—Not exceeding 56lb., 6d.; over 56lb., but not exceeding 112lb., 1s.; for every additional 56lb. or fraction thereof, 6d. For each sea journey—One-seventh of a penny per lb., with a minimum of 6d. per consignment. For each transhipment from one steamer to another—One twenty-eighth of a penny per lb., with a minimum of 3d. per consignment. Wharfage will be payable at the ordinary wharfage rates for fruit ruling at the various ports; minimum charge per consignment, 3d. Cartage between Wellington Wharf and Thorndon or Lambton railway stations, 3d. per case. Delivery from Wellington Wharf to Wellington city and suburbs (excluding Mornington and Melrose) will be—Quarter-case, 3d.; half-case, 4d.; full case, 6d. A charge of 3d. per cwt. or part of a cwt. will be made upon all fruit consigned to Auckland, Wellington, Te Aro, Christchurch, Dunedin, and Invercargill railway stations; in all other cases consignees will require to take delivery at railway stations.

Persons desirous of ordering fruit and availing themselves of this arrangement can obtain coupons from the postal department for transmission to the fruit grower, and pay to the officer in charge of the post office the full amount required to cover the price of the fruit and the freight charges from the original station to final destination station.

TAX COLLECTOR IN DIFFICULTIES

Alleged Wholesale Embezzlement of Poll Tax.

Information of a huge scandal in connection with the collection of the Revenue Tax, or "poll tax" as it was popularly known, in the Okanagan, have leaked out during the week, and it is stated that Ira Cutler well-known throughout the valley as collector of the tax before its abolition by the government, has been arrested in Chicago and brought back on a charge of embezzlement. The sum involved is said to amount to nearly \$5,000.

The fraud, which, it appears, must have been going on for some time, was accomplished by means of forged receipt books, prepared in imitation of those issued by the government. Armed with these a collector would be under no immediate obligation to make returns to his department, and would probably hope for the approaching abandonment of the tax to cover up his tracks.—Kelowna Record.

A bore is a man who will insist upon talking about himself when you want to talk about yourself.

In thanking . . . the people of Summerland for past patronage for about TEN years—I beg to announce that I am better prepared than ever to cater for all your wants. I have

SPARKLING WATER, cool and sweet, refreshes the farmer who builds a

Concrete Well or Tank

THE FARMER, above all others, appreciates good water. He drinks more water than the city man. The city-dweller is dependent upon the public water-supply for the purity of his water, while the farmer can have his own private source of water, and thus be sure that it is pure and healthful.

MAN hasn't found a better drink than cool water, properly collected and stored. But in order to keep water fresh and pure, a tank or well casing that will keep out every possible impurity must be used.

CONCRETE IS THE IDEAL MATERIAL FOR TANKS AND WELL-CASINGS.

IT is absolutely water-tight, protecting your water from seepage of all kinds. It cannot rot or crumble. It is easily cleaned inside. Time and water, instead of causing it to decay, actually make it stronger.

OUR Farmers' Information Department will help you to decide how to build anything, from a porch to a silo. The service is free—you don't even have to promise to build. When in doubt ask the Information Department.

Canada Cement Company Limited

500 HERALD BLDG., MONTREAL

THERE are scores of other uses for concrete on your farm—on every farm. If you would like to know of them, write for our book, "What the Farmer Can Do With Concrete." The book is absolutely free.

WHEN you go to buy cement be sure that this label is on every bag and barrel. Then you know you are getting the cement that the farmers of Canada have found to be the best.

Canadian Pacific Railway. Around the World by Canadian Pacific

In connection with regular train and Atlantic steamship service, the new Pacific Liner "Empress of Russia" will leave Liverpool April 1st, and "Empress of Asia" June 18th, one ship via Suez and the other via Cape of Good Hope, for the Orient, thence Vancouver, affording the unique opportunity of making this trip under Canadian Pacific Flag.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Naramata Notes.

Mr. Thomas Kenyon returned to Naramata last Sunday night.

The Unity Club will meet on March 14th at the home of Mrs. Hancock.

Mr. William Wallace of Summerland was calling on friends on Tuesday afternoon.

A Chinese laundry will soon start in the building just east of J. C. Lyons' residence.

Policeman McDonald has been removed from Naramata, leaving on Saturday morning.

Ernest Steers visited his brother, Harold, who is connected with a survey party near Summerland.

The mess-house built for the Grant-Smith Co. is now completed and meals are now being served there.

Mrs. H. J. Wells entertained a goodly number of ladies at whist at her home on Third Street, on Thursday afternoon.

Mr. Hvidt, who has been assisting in the office of Mr. Brooks, now has regular employment in a survey camp south of here at Four Mile.

Miss Mayda Williams has so far recovered as to permit a few days' visit at the home of Mrs. F. Young, while her mother is acting as nurse to Mrs. J. C. Williams.

Mr. Douglas, a teamster in the employ of the Grant-Smith Co., is expecting the arrival of his wife, daughter and grand-daughter. They will reside in Mr. Bartlett's (Walter Miller) house.

We are very glad to learn of the marked improvement in Mr. J. C. Lyons' protracted illness. He expects to fully recover when the weather permits of his moving on his fruit lot for the summer.

The Rev. Dr. Chown, the general superintendent of Methodist church work, will preach in the Naramata church on Sunday morning. It will be well worth while to hear Rev. Dr. Chown, and a good attendance is hoped for.

The Whist Drive, held on February 28th, as a Unity Club benefit, was a very enjoyable and successful event. Mrs. Saulting, Mrs. Simpson, Mrs. H. J. Wells and Mrs. Boothe were hostesses of the evening, and very delightful were the refreshments they served. The first prizes were awarded to Mrs. H. J. Wells and Mr. Edgar.

The dance of March 4th was voted the best attended and one of the most enjoyable of the season. The hall was very attractively decorated in American and Canadian flags and bunting. "Dixie," as rendered by Mr. and Mrs. Walters, received many enthusiastic encores. A large attendance was over from Summerland.

FOREST FIRES.

Forest Branch Busy With Preventative Measures.

Victoria, March 5.—Preparations are well under way at the present time for the protection of the forests in the coming fire season. Three of the officers of the Forest Branch are in the field, inspecting the various sources of danger, and consulting with the men who will have charge of the fire ranging, in all parts of the province. Rights-of-way of railroads are receiving particular attention, as it is the universal experience that new construction is the source of more fires than any other in the same area. Last year, out of 347 fires in the province, 45 occurred along railroad lines. This constitutes one to every 44 miles. The risk is so great, the possible loss so large and the relative cost so small, that it is a paying investment to keep a very active patrol along all new lines.

It is felt that the coming season will be one of the most difficult yet encountered, as colonization without adequate fire protection is going ahead at a phenomenal rate throughout the length and breadth of the province, and the witness of the past season caused a particularly luxuriant growth of grass, weeds and shrubs, which being dry during the coming months will constitute a dangerous fire hazard.

Lumbering has been general and the slash has been great, consequently there will be considerably greater danger than in the past over logging operations. It will be difficult to work without the necessary trails and telephone lines, but the Forest Branch is doing everything possible to reduce the risk and keep out the fire.

BARGAINS FOR Review Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

Care Is Needed In Planting Trees.

Causes of Failure in Planting—Points to be Observed in the Handling of Nursery Stock.

How many attempts at planting shade or ornamental trees have been failures, in whole or in part, and how many times is the tree-planter at a loss to understand the cause of his failure? The following discussion by Dr. B. E. Fernow, Dean of the Faculty of Forestry, University of Toronto, will throw much light on this problem, and should assist many who will plant trees next spring or fall.

The first cause of trouble and of death in transplanted trees is not unfrequently to be found in the ignorance and lack of care exhibited before and during transplanting. Many trees set out are dead or are doomed to death before they reach the plant hole. Transplanting a tree from one site to another is a surgical operation during which the patient needs special attention.

FEEDING SYSTEM IMPAIRED.

It is rarely, if at all, possible to take up all the fine rootlets with their root-hairs intact; these adhere closely to the soil particles, hence, in the attempt to remove them, a portion of the feeding apparatus is always mechanically destroyed. Next, the delicate root-hairs, and fibrils are apt to dry out when exposed to the air, especially in windy, sunny, dry weather, and thus another portion of the feeding apparatus is lost. Lastly, with larger specimens, the far-lying roots can practically not be reached and a third portion of the root system is cut off. Furthermore, if the plant material is shipped any distance, the vital activities are interrupted, temperature and moisture conditions may be unfavorable during transshipment, and a partial drying out of roots, buds, or foliage is the consequence.

As a result of these losses, the balance between crown and root, between consumption and supply of water, is disturbed, and, unless this balance is at once re-established by pruning at the top and by favorable conditions for replacement of lost parts at the root, a part of the crown must die.

HOW TO TRANSPLANT TREES.

This trouble may be nearly or entirely avoided by transplanting with a ball of earth, when the root system is not at all disturbed. This is usually practicable only with small trees; as a rule, transplanting is done with the naked roots. Care should then be had to take up as much as practicable of the root system, keeping it intact, using a fork rather than a spade, and keeping in mind that the root tips are the important part, then the roots should be immediately protected against drying out by covering with moist soil, wet bagging, moss, etc., and be kept moist until the tree is reset.

If it has not been possible to secure the entire root system practically intact, then a proportionate amount of the crown system should also be removed by cutting back branches, using at the same time the opportunity for correcting the form. This pruning is best done just before setting the tree, or, more conveniently, at once after setting, while the knowledge of the conditions of the root systems is still fresh in mind. If it is neglected, parts of the crown will die, and these may not be the parts we are willing to spare. It does not matter much if the pruning at the top is more severe than necessary; sparing the knife unduly matters much more.

Nursery stock, when received, should be opened at once in a shady, cool place and the root packing examined. If it is dry and hot, the chance of securing a living plant is small. Nevertheless, by proper treatment, plants may sometimes be resuscitated; some species especially will stand a good deal of maltreatment and are able to recover. "Hoeling" them in deeply in a trench under shade and in fresh soil, and drenching them thoroughly with water, keeping them drenched for a day or two, or even keeping them entirely submerged under water may restore what appeared quite hopeless material. Even if the leaves of conifers have withered, so long as the buds are still fresh looking, the case is not quite hopeless provided proper care is applied in keeping roots and tips moist, and, especially, if rainy weather sets in.—C.L.

Notes on Sporting Events.

Town Team Wins The Cup.

The people of Summerland are beginning to wake up to the fact that two of the best basket-ball teams in B.C. have been battling for supremacy for some months in this burg. Both the Town and College have the best teams they have ever had. Fast and exciting games have resulted and increasing enthusiasm and larger crowds have been encouraging features. The game played in the College gymnasium on Friday evening, February 28th, was won by the College by a score of 14-9. The winning team had a shade the better of the argument in all departments—the shooting of Lorne Morlock being particularly noticeable. McDougall at centre was very effective. Hayward prevented Ralph Brown from scoring, and McLeod tallied all the goals scored for the Town with the exception of a spectacular shot by Fred Baker.

On Thursday night in the Town gymnasium, after a close, exciting game, lightning fast from start to finish, the town team won from the College for the fifth time this season. The score was 13-7. Both teams were in fine fettle, and the score was close enough all the way through to keep the large audience worked up to a pitch of excitement seldom witnessed among the peach growers. Baker, at right guard, and McLeod, right forward, who was responsible for four field goals, played whirlwind games. All the others were effective. Close checking held that fine shot, Ralph Brown, down to one tally. Glenn and McWilliams were at their best. The College team played well. They were beaten but not disgraced. Hayward at guard played a great game. Wolverson gave McLeod too much leeway, but in all other respects played a fast, snappy game. Morlock and Nicholson were fast, but in such close quarters were too light for their checks. McDougall fought hard, and has bumps in consequence that would puzzle any phrenologist.

"The best game ever seen in Summerland" was the verdict of the bench warmers. The Rowley Cup goes to the town team, and the College congratulates them one and all on their well-earned victory. At the close of the game a bunch of enthusiasts arranged to put up five sets of gold cuff links for the winners of two out of the three remaining games of the series. The next game will be played in the College gymnasium on Friday evening, March 14th. Get ready for a cyclone.

The junior teams—the Beaneaters and the Hill-climbers—have been playing fine preliminaries. The game played in the College gymnasium on Friday, 28th Feb., resulted in a draw. On Thursday night the Hill-climbers won 10-5. The fact that the star forwards of the Town team were playing in the junior teams last year demonstrates the importance of encouraging the juniors. Some kind of a trophy should be provided for the winners of the junior games.

At a parental gathering recently a lady toasted, "The Gentlemen" as follows: Bless 'em. They share our joys, they double our sorrows, they triple our expenses, they quadruple our cares, they excite our magnanimity, they increase our self respect, awaken our affection, control our property, and out-manoeuvre us in everything. This would be a dreary word without them. In fact, I may say without respect of successful contradiction, that without them this wouldn't be much of a world anyhow. We love them and the dear things cannot help it. We control them and the precious fellows don't know it.

The man who takes no interest in public schools, good roads, religion, or politics, isn't even a satisfactory has-been.

Canada is larger in area than the United States, including Alaska, by 111,002 square miles.

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 33

SUMMERLAND, B.C., MARCH 14, 1913.

Whole No. 241

Council Holds Two Sessions Deputations Take Most Of Time Monday

Policy For 1913 Further Discussed. No Definite Program Yet.

So much of the time at the regular monthly meeting of the Council on Tuesday morning was taken up by private citizens that little of the routine business of the board was completed, making another session on Wednesday necessary. Though business was taken up promptly at 9 o'clock, scarcely had the minutes been dealt with and communications read when citizens began to arrive singly and in groups.

The first to interview the Council was R. S. Monro, who presented a petition for the residents of his section, asking for an improvement to a road beside the railway. Mr. Monro was told that the Council had this work in view and would complete it at as early a date as possible. Mr. Monro also asked that a flume crossing his property be removed enabling him to cultivate that and adjoining property. While the Board admitted the justice of his request, Mr. Monro was told that to do this would be creating a precedent, and they would be required to remove many miles of flume. He was given permission to make the alteration at his own expense.

K. S. Hogg, representing the Drug Company, presented a letter which was read by the Clerk, demanding the refund of \$10 paid as a trade license for Dr. S. L. Taube, optician. Mr. Hogg contended that Dr. Taube acted in the capacity of an employee, and should not be required to pay a trade license. A different view of the case was taken by the collector and by one or two of the board, while others seemed undecided, and the matter had already been referred to the solicitor, and his opinion, as quoted, was that Dr. Taube was liable. Coun. Robinson thought it was not a question to be settled by the Council but rather for the court to decide. Considerable argument was advanced and the Board decided to again refer the matter to the solicitor. Mr. Hogg then protested against the method of collecting the tax, which he described as neither dignified or gentlemanly. Collector Nixon's reply was that he had no trouble with Dr. Taube, who was very nice, and that any trouble was with Mr. Hogg. The collector said he considered that it was necessary that he collect the tax and suggested to Mr. Taube that he pay the amount, \$10, and leave the matter with the Council.

C. N. Borton, on behalf of the Southern Okanagan Poultry Association, asked for the usual grant. He pointed out the excellent quality of the show, claiming the work of the association worthy of the assistance of the municipality. The Reeve's reply was that there were no funds available at present for such grant.

Pres. H. C. Mellor, Vice-Pres. J. M. Sutherland, Messrs. Stark and English came before the Council representing the Board of Trade. President Mellor, the first spokesman, outlined the recent re-organization of the board, and of the work they had already accomplished, and also touched upon some plans for the future. He pointed out the benefit that accrued to all from any work of the board, claiming that all should bear a share of the expense. He had enquired of the usual method of obtaining funds to carry on this work, and found that the usual source of income is from the governing bodies of the various municipalities. Penticton last year appropriated \$800 for its Board of Trade, and will probably raise \$1,000 for that purpose this year. They were not more financially able to do this than is Summerland, but realizing the necessity of the work, they are making the effort. The local board had already incurred considerable expense, and some of the members had paid money out of their own pockets for expenses. The expense of the delegate to Victoria (the Vice-President having paid his own expenses) was fully

justified by the results accomplished. The board had been busy pressing Summerland's demands on the C.P.R., and had about accomplished excellent results, the promise of the superintendent for immediate improvement of facilities at the wharf having been received. Advertising at Sicamous should be done, as Summerland was the only place on the lake not advertised there, by views, etc. The board are receiving excellent results from the pamphlets put in the fruit boxes last fall, and they should be prepared to follow up the enquiries. They should always be in a position to send out a deputation in any case of emergency. It was not improbable that after the visit of the Dominion Cannery representative the board would need to incur some expenses. The re-organized board had started in to do good work for the public, and the public should help with the expense. Vernon, the President said, was taxing itself one mill for Board of Trade purposes. Concluding, and after enumerating some early demands on the treasury, the President asked for the modest grant of \$400.

President Mellor's request was supported by Vice-Pres. Sutherland, who said that he had recently gone over the files of the board and found there many letters of enquiry which should be followed up, and money was needed to do the work. If only a family or two were added to the community during the year this would justify the expense. He thought a live Board of Trade a most effective factor in the development of a community, and that this was a particularly critical time in the life of this community. Other places are pushing ahead, and we must do likewise.

Reeve Thomson's reply was that there would be no money till fall, and that this spring in particular the hands of the Council were greatly tied because of arrears of taxes, etc., and he could not see how the Council could help the Board of Trade.

Coun. Robinson said that he would like to see the Council do something for the Board. That organization had shown more life than ever before and their work would be a benefit to all. He would favor a grant to be payable in the fall.

Mr. Stark said he fully realized the position of the municipality. At the same time he thought, by a grant, the municipality would benefit to a much greater extent than the amount of the grant.

R. H. English also reviewed some of the work of the Board of Trade, and spoke of the probability of being able to have the present long distance tariff of the telephone company altered from a three minute to a one minute basis. He declared the Board of Trade should have the support of all the salaried and unsalaried officials of the municipality, and suggested, to begin with, each and every one become a member and support with their subscription. Their's was the only organization that reached out for municipal benefits, and they wanted the moral support of all.

Coun. Robinson, again supporting the claim of the Board, pointed out the advisability of asking the Provincial Government to build a road between Summerland and Princeton. This could be very easily done, now that practically all the way had been opened by railway construction. The Board of Trade delegation went away without a definite promise of a grant, but with the assurance of the Council that their request would be complied with if possible.

Constable Graham interviewed the Council in reference to the expenses in connection with the drowning accident at the C.P.R. wharf and of the arrest of W. H. Rudd. There has arisen doubt of the municipality's liability in the

[Continued on Page 6.]

C.P.R. Preparing For No Trains For Months

Expansion Of Business.
Greatly Improved Wharf Facilities Ordered Here.
Work Starts Immediately.

Mr. J. M. McKay, C.P.R. Divisional Superintendent, with headquarters at Revelstoke, accompanied by resident Engineer McQuarrie and General Road Master Wade, visited Summerland last Friday evening. They were met by the Board of Trade officials at the wharf, but owing to pressure of business and mild weather conditions in the mountains they were unable to stay over. In a few minutes interview, however, Supt. McKay announced some very material improvements to the terminal facilities here, including the enlarging of the wharf, building of freight shed adapted to the storage of fruit, providing new ticket office and waiting room, and also an express and baggage room. There were some other matters of importance which came under discussion, and Mr. McKay promised to look into these and advise the board later.

The Review, upon further enquiry, finds that the present wharf is to be widened about twenty-five feet to the northward. A large new building will then be erected on the middle of the dock, extending practically from end to end, with seventeen feet driveway around it. On the end nearest the street there will be a ticket office and waiting room, adjoining this an express and baggage room, and the other end will be for freight.

The plan as outlined by the C.P.R. was favorably received by the officials of the Board of Trade.

FIRST FINE IMPOSED UNDER NEW RULING.

Law Forbidding Cattle On Roads Strictly Enforced.

The first case to come under the Pound law, which the Council have decided to enforce, was that of T. B. Young, which came before Magistrate English on Monday morning. Heretofore those who were so disposed found it cheaper to let horses or cattle run at large and pay an occasional pound fee than it was to keep them stabled. Recently notice was given through the Press that the by-law would be strictly enforced and owners prosecuted instead of simply charged a pound fee, and Constable Graham was instructed to report any infringement of the law.

One of Mr. Young's horses was seen in an orchard at West Summerland and the matter was reported to the constable, who, after impounding the animal, made the charge against the owner. Mr. Young admitted that he was in the wrong, claiming, however, that he did not make a practice of letting his animals run at large. The magistrate, in imposing the fine, stated clearly his disapproval of the by-law, claiming that under the present condition the roadsides would be in much better condition, and weeds would be less likely to spread if the law were not enforced. Since it is the desire of the people to enforce the law he suggested that a tax be imposed sufficient to provide a fund for the keeping clean of the roads. Mr. Young's being the first case under the new order of things, he was fined a nominal fee of \$5 and costs.

SCHOOL REPORT.

Following are the names of the pupils obtaining the highest marks for the month of February:
Second Class—Alex. Smith, Leonard Whitfield, Charles Daly, Gertrude Angwin, George Holo, Dwight McLeod.
First Class—Helen Campbell, Bob Hatfield, Louis Smith, Carol Graham, Eva Watson.

REV. C. W. WHYTE DEAD.

It was learned from a passenger from Peachland on last night's boat that the Rev. C. W. Whyte, who has for some time been seriously ill at his home in that town, passed away yesterday afternoon.

Now Looks As If Okanagan Will Not Have K.V.R. Service For Year Or Two Yet.

For some time there have been disappointing reports of the probable date of the completion of the K. V. Railway. Judging from the program laid out by the construction men on the Naramata side they do not anticipate that the work in that vicinity will be completed in less than two or three years. On this side, while good progress is being made with the grading, there are also signs which indicate that it will be many months before trains are running, even before rails are laid in the immediate vicinity of Summerland.

Of course there is much work yet to be done west of the summit, and which will probably not be undertaken until steel is laid to Osprey Lake, when the rail-head can be made the basis of operation. As there is little probability of the Trout Creek bridge being completed until next winter, there is not much likelihood of track being laid between Trout Creek and the Summit until that time. Although the approaches are nearing completion considerable preliminary work must yet be done before the bridge itself is placed. There is to be a tower built up from the creek bed some 230 feet in height for the false work in the placing of the steel. It will be found impractical to put this up until after the river subsides, after the usual spring freshets. Many thousands of feet of lumber will be used in this false work, which must yet be got together, so that those in a position to know say that it will be good work to have the bridge ready for early winter. This will be disappointing news to many of our readers, nevertheless they seem to be the facts.

SUNDAY SCHOOL CONVENTION.

That the Ninth Annual Convention of the Okanagan District Sunday School Association, held in Vernon on Monday and Tuesday, was not only the best ever held in the valley, but outlasted any Sunday School Convention ever held in this province, is the unanimous opinion of those leaders in a position to know.

There were in all some eighty delegates present. Upon the arrival of the delegates a banquet was tendered them by the citizens of Vernon. On Monday afternoon a mammoth parade of Sunday School children and workers, headed by the Salvation Army Band, paraded the streets of Vernon.

Some very able addresses were listened to all along the line of Sunday School work. Among the speakers were Rev. I. W. Williamson, secretary of the British Columbia Association, Mr. C. W. Whittaker, a specialist in temperance teaching, Rev. W. Elliott, Vernon, Mrs. Deaver and Mrs. Bunting, both of Vernon, Mrs. A. H. Huntley, Penticton, Rev. C. O. Main, Rev. F. W. Pattison and Rev. D. J. Welsh. The address of welcome was given by his worship Mayor Mutrie, who was followed by Alderman Clement. These were responded to by A. Crowcroft of Kelowna and Dr. Sawyer.

Next year the Convention will be held in Armstrong.

NEW VOTERS' LIST.

The attention of our readers is called to the advertisement issued by the Provincial government elsewhere appearing in this edition giving notice that the voters list has been cancelled, and stating that a list of those claiming a place on the revised voters list will be suspended after the 7th day of April, and till after the sitting of the Court of Revision in May. It will therefore be necessary that every citizen who desires to exercise his franchise see that his name is placed on the revised list. Both the local Conservative and Liberal Associations are making an effort to make the local list complete. With this method the government expects to have a really revised and authentic voter's list.

Cannada contains one-third of area of British Empire.

B. C. Fruit Growers' Association

Issues Market Statement.

1912's Conditions Fully Explained. Guidance For Future.

The generally low prices received for fruit during the past season have made pertinent and proper a discussion of the fundamental considerations affecting the future of our fruit growing industry. Many different opinions are held as to the remedy for a situation which, if continued, would be intolerable. Your Directors have fully considered the facts, and have endeavored to reach proper conclusions in regard to them.

This paper outlines the principal factors which seem to underlie the present situation. It is to be hoped that those factors will be considered by you in your deliberations.

The principal condition affecting the prices of B.C. fruit was the very large crop in the United States, resulting in the importation of large quantities of American fruit at low prices, or, what is worse, shipped on consignment. All soft fruits yielded very much above the average. The figures are not yet to hand, save that we know that some 40,000 carloads of peaches were shipped commercially this year in the United States. The United States apple crop was 34.3 per cent. larger than the average of the last ten years. It was 12 per cent. larger than the 1911 crop. It totalled around 40,000,000 barrels. The quality was generally high 15 per cent. better than the ten years' average. In the North-west States, the box-apple States, about 20,000 carloads are being shipped, as against only 9,000 last year.

As a result of these extremely large crops, prices would naturally be low, supply greatly exceeding demand; 25 per cent. of the Ontario apple crop is said to have rotted on the ground. There has been a similar condition in New York State. The Western States, however, will get something for practically all their apples. British Columbia did comparatively well in the matter of prices, for our fruit brought more than in any other section of America.

Other general conditions which helped to lower the prices were:

1. Tightness of the money market of the United States and generally throughout the world.
2. The largest proportion of boxed apples to barrels ever experienced.
3. Defective methods of picking and packing, which injured fruit and lessened its keeping quality.
4. Lack of storage facilities.
5. The fruit growers require their money in the fall, and bank loans are not made on unsold apples; apples must, therefore, be sold in the fall.
6. Fruit distributing organization, both in British Columbia and in the North-West States, in the latter particularly, should be made much stronger.
7. The boxed apple business is a new one, and little is known about effective means of distributing it to the best advantage.
8. Practically no advertising is done to increase the demand for the Western boxed apple, while \$200,000 a year is spent in advertising California oranges.
9. The very large apple-handling concerns in England and in New York are working to depress prices on boxed apples.
10. British Columbia is fighting for her natural markets, which we are just beginning to adequately supply, and in which our competitors are at present strongly entrenched.
11. Because of a curious condition with regard to the Fruit Marks Act and its enforcement, British Columbia growers are discriminated against in favor of their foreign competitors.
12. Canning, preserving, and otherwise preparing fruits and vegetables, are, as yet, developed to a very limited extent in this province. In California \$28,000,000 worth of fruit by-products are produced annually.

The fruit growers of the province expect you to deal with the situation, and recommend and follow up means of securing our markets.

FUTURE PROSPECTS.

It seems pertinent at this time for us to consider what will in all likelihood be the situation in future years. There is a general assumption that in 1913 apple and other fruit crops will be larger than in 1912. People point to the increased acreage and the growth of the trees for proof. They forget the law of action and reaction which is always at work. The British Columbia fruit industry has always been especially subject to it. There was the large crop of '08, followed by a small one in '09; a big crop in 1910, with a small one in 1911, and a bumper crop in 1912. The Okanagan shipped 550 carloads of apples last year. In 1913, under normal conditions, the crop will likely be less. Other districts and other crops under normal conditions will likely be the same. This is equally true of the country as a whole.

Practically all fruit districts have had good crops this year. Many places will have a normal or average crop. The North-Western States are not likely to have more than 15,000 cars of apples. In 1909 they had 6,000; in 1910, 15,000; in 1911, 9,000; in 1912, 20,000 cars are estimated.

Plums and prunes are almost certain to be a light crop in the North-Western States next year. There is, generally speaking, no great need for concern about 1913 prices. Our present organizations will, however, require extension of staff and finances, to be effective.

1913 will be a year of at least normal prices. In meeting the situation generally, we may expect a margin of some eighteen months to make plans for our next difficult season.

The acreage in the North-Western States promises in the future some real competition. Figures collected over this territory show that in Oregon, Washington, Idaho, Montana, and British Columbia there are some 320,000 acres of what promise to be fairly successful orchards, of which over 90 per cent. is in apples. Of this figure, under 80,000 acres are in British Columbia. It is true, of course, that it is generally accepted that only 25 per cent. of apples planted will arrive at commercial bearing. At the present time, only 8 per cent. of the entire amount is in bearing, producing about 25,000 carloads this year.

In 1914 we may expect between 40,000 and 45,000 carloads of fruit in this territory, and the crop of apples may easily run to 42,000 cars. This is equal to 26,400,000 boxes, or 8,000,000 barrels, practically one-third of the entire average crop of the United States for the last seven years. If these crop predictions are correct, there is ample need for protection for us in our markets.

The economic conditions have changed. The cost of labor has increased greatly in the last five years; and so have the costs of other items of production. The exclusion of Orientals has had much to do with this. Our labor and the other items in the cost of production are higher than they are in the State of Washington. Another economic condition which affects the situation is the defective organization of our competitors. Their marketing associations were in poorer shape in 1912 than in previous years, and this, in the face of large crops, inadequate holding and storing facilities, the absence of by-product factories, and unsatisfactory financial conditions.

The present condition is only temporary. The fruit and produce business is always cyclical, and subject to periods of depression. (Continued on page 6.)

Job Printing

Did you ever stop to consider that you, Mr. BUSINESS MAN, are judged by the quality and get-up of your stationery? It is a mirror which reflects your character, and by which your business standing in the community is gauged. LET US DO YOUR PRINTING.

No Job Too Small, Nor Yet Too Large.

The best way to impress your customers with your success, and the excellence and the variety of your goods, next to newspaper advertising, is to send them a booklet folder, or mailing card occasionally, setting forth the best selling points of your stock, a booklet prepared and printed attractively and correctly --- a booklet or folder that will inspire confidence in you and in your goods.

'Phone B 39

and our representative will call on you, and he will be delighted to give such advice or suggestions as may be necessary.

RECIPE FOR MAKING GOOD HUSBANDS.

One of our lady subscribers who says she enjoys this department of our paper, hands us the following recipe for making good husbands, which she has tested, and it worked like a charm:

First. Be a good wife; in so doing you will have a good influence over hubby.

Second. Treat him to kind words, kisses and good dinners. Prepare the dishes he likes best, if your means will allow.

Third. Keep his room in order no matter how often he scatters things around; put hat and boots where he will always know where to find them.

Fourth. Never scold; no matter how wet the wood or how much the stove smokes; tell him you like it that way; smile and go on.

Fifth. Make him believe he is all the world to you, as, indeed he should be. Laugh at his jokes, no matter how stale.

And last but not least, keep all his buttons sewed on and all in their proper places, and all his socks well darned. Then, if you don't have a good husband we will say that you must have remarkably poor material to work on.

THE cheerfulness which should be one of the chief characteristics of the home life is often sadly in the minority, simply because the example of a cheerful disposition is not set by the wife and mother. One glimpse of her face as she begins the duties of the day is sufficient for the rest of the family. If it bears the illumination of a pleasant smile as she passes from room to room, if her greeting to the others is bright and cheery, if she has a pleasant word for those with whom she mingles they will catch the inspiration and the day will be bright and sunny thereby.

HOW kindness brightens and beautifies the home. As the gentle breezes, the warm showers, the sunshine of the springtime all call forth vegetable life and fruitfulness in nature, so kindness brightens, beautifies and enriches the home life, filling it with the sweetest peace and joy; memories that are more precious than the contents of an alabaster box.

A WORD OF ADVICE FOR YOUNG PEOPLE.

We are sure the following beautiful lines from Louise M. Alcott will be appreciated by the readers of this column. They were written especially for the younger members of the household, and when such a noble character as hers speak, it is of great profit to listen and heed:

"Dear young men and maids, let one, who in the capacity of teacher, nurse, friend, or author has been much behind the scenes for fifty years assure you that the secret of success lies with ourselves as men and women now and in God's good time, as the fathers and mothers in the coming generations. Boys, for such I love to call you, and such most of you are till five-and-twenty, set up a high standard and never tire of trying to reach it. Don't begin your day with a cigar and end it in a theatre, billiard room or club. Keep innocency, for in the end it shall profit thy soul much and open the way of heaven for thee. Never believe the pernicious saying that 'young men must sow wild oats.'

"Girls, don't be in a haste to wed. Build up healthy bodies by good food, plenty of exercise and sleep. Learn all the household arts before you attempt to make a home. Above all, select your friends with care. Avoid girls who live only for fashion, flirtation and enjoyment, and use the privilege all women may claim—to decline the acquaintance of young men whose eyes will not bear inspection by the innocent eyes of women. Set your standard high and live up to it, sure that the reward will come, here or hereafter, and in the form best suited to your needs."

CONTENTMENT is the only true happiness of life; and a pleasant disposition and good work will make the whole surroundings ring with cheerfulness.

RUSHING WENATCHEE BRANCH.

(Oroville Gazette.)

Hurry up seems to be the order of the day on the construction of the Oroville-Wenatchee branch of the G.N. The track-laying machine has reached a point several miles south of Tonasket and is pushing steadily forward. Supplies for the construction are being rushed here and to the front. Ten cars of rails were in the yards here on Wednesday and more on the way. The contractors have rails enough on hand now for from ten to twelve miles of track laying, and they have a plentiful supply of ties as well. It is understood that a third construction train to handle the material between Oroville and the working end of the line will be put on the first of the next week. It is evident from every indication that work on the construction of the branch is to be rushed forward as rapidly as possible, and this gives hopes of an early completion of the line.

TRUE.

Doctors as a rule make a grant deal more money out of their client's "midnight suppers" than from their burning the midnight oil."—Washington Herald.

Shiloh
The family remedy for Coughs and Colds.
Shiloh costs so little and does so much!

"THE SUMMERLAND PLAYERS."

Easter Monday is the date fixed for the next visit of the Summerland Players.

Their program will consist of two plays: "Waterloo," by Sir A. Conan Doyle, and "Good For Nothing," by J. B. Buckstone. The latter is a delightfully human little comedy, full of true, honest sentiment, with plenty of room for laughter. "The Players" will bring with them Mr. Alex Bentley, who will sing the prologue from "Pagliacci," and "Songs from the Norseland," and Mr. T. F. Knox will give his excellent imitations of Dan Leno and "How Bill Adams Won the Battle of Waterloo." This looks a really good evening's entertainment, and it is hoped that "The Players" will meet with the same cordial reception that has hitherto been extended to them.—Kolowna Record.

"Stand by your town. Not a dollar invested here but some good comes of it. There is no family like one's own family, there is no wife like one's own wife; there should be no town like one's own town, where we live, educate our children, on whose street our babies play, and where we may some day sleep. Let the newspapers stand by the town, and let the business men stand by the newspapers, and let us make our home as famous as possible."

As fresh as summer roses in early dew.

Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or phone, and a messenger will call.

P.O. Box 51. West Summerland.

PROVINCIAL ELECTIONS ACT.

NOTICE is hereby given that the List of Voters for the Okanagan Electoral District has been cancelled and that applications to be placed on the Voters' List will be received at my office at the Court House, Vernon, where printed forms of affidavit to be used in support of an application to vote will be supplied. The list of persons claiming to vote will be suspended from and after the 7th day of April, 1913, and a Court of Revision will be held on the 19th day of May following. Notice of objections to the insertion must be given to me thirty days clear before the holding of the Court of Revision.

Dated at Vernon, B.C., this 3rd day of March, 1913.

L. NORRIS,
Registrar of Voters for the Okanagan Electoral District.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED, RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MARCH 14, 1913.

FIRE PROTECTION IN BRITISH COLUMBIA.

THE organization of fire protective work in British Columbia has been much more effective during the past season than previously. The Forest Act of 1912, provides for regulating the operation of railways, removal of slash along roads and other dangerous places, the construction of fire-breaks on logged-off lands, requiring permits to burn slashings, establishing a dry season, and providing for patrol and fire-fighting forces. The patrol during the summer of 1912 consisted of 17 divisional wardens, and about 150 district wardens and patrolmen. The cost of patrolling and fire fighting amounted to about \$175,000. Funds for this purpose were obtained by a tax of one cent per acre on all timber lands in private ownership, under lease and under license, with an equal amount raised by general taxation.

During the season of 1913 the efficiency of all lines of work, including fire protection, will be materially increased by the establishment of the district system. The province will be divided into districts, with a district forester in charge of each, who will be responsible for the general supervision of all lines of work, subject to the direction of the Chief Forester, Mr. H. R. MacMillan.—C. L.

WE are always glad to get local items, just such as you, reader, would like yourself, and if you have any on hand at any time send them along. Don't sandwich an advertisement into them, for they belong to the cashier's department, and if they are not worth paying for in a legitimate way they are no good to us. If you have any friends visiting you, or you expect to go away, just say so. The latter clause may gratify your creditors, and the first your friends.

WHILE we agree with Magistrate English that the roadside should be kept clean from weeds we do not altogether approve of the method he would adopt. Formerly this was a stock country and cattle were allowed to run at large. Now, however, since it has been transformed into a community of small orchards that condition of affairs should no longer prevail. Were the practice to again become general, incessant damages to fences would result, driving accidents would be frequent, and many of the more timid women and children would be afraid to travel about the district. Now that Summerland is out-and-out a fruit-growing community it should be no more necessary to maintain fences here than it is in many older and more settled farming communities where roadside fences are almost unknown.

IT was Liebig, the great chemist, who said many years ago that the consumption of soap in a country was the measure of its civilization. Disraeli in his first budget speech referred to sulphuric acid as such a test. This was a surprise to many, but a Liberal, Lyon Playfair, came to his defence, pointing out that the increasing use of sulphuric acid in manufactures made it an important measure for the purpose. The New York Outlook has just given another. Speaking of a backward county in the United States, it says that it "has only one consolidated school," and that less than twenty-five per cent. of the roads are macadam or gravel. The comparison is significant with regard to the consolidated school. The system began in Massachusetts after the close of the civil war, when the diminished rural population in that state made this concentration of the schools a necessity. The system has spread all over the United States, east and west, with splendid results, and the consolidated rural school is now the sign of progress, as well as one of its best helps.—Montreal Witness.

Our Philosopher

There is more benefit in a good laugh than in all the hot water remedies—cold water, electric and all the other new-fangled treatments in the world, and it does not cost anything. Laugh. If you have nothing else to laugh at laugh at your neighbor. He is probably improving his health by laughing at you.

There are various ways to succeed in this life. The man who minds his own business is likely to be a success; the one who lets other people's business alone is likely to get there; the man who strictly attends to that which concerns himself alone, and leaves that which concerns others to take care of itself, will be certain to be a success; while he who neglects his own affairs and attempts to manage his those of neighbor is certain to be left behind in the race of life.

Whether you handle a pick or a pen, a wheelbarrow or a set of books; dig ditches or edit a paper, ring an auction bell or write funny things, you must work. If you look around, you will see that the men who are most able to live the rest of their lives without work are the men who work the hardest. Don't be afraid of killing yourself with work. Work gives an appetite for meals, it lends solidity to your slumbers. It gives the appreciation of a holiday. There are young men who do not work, but the world is not proud of them. It does not even know their names; it speaks of them as so-and-so's son. The great, busy world does not even know why they are here. So find out what you want to know and go in; take off your hat and make a dust in the world. The busier you are the less deviltry you will get into, the sweeter will be your sleep and the better the world will be for you.

Peachland Notes.

W. C. Kelley of Summerland was in his office here on Thursday.

Jno. McKinnon returned from Toronto on Saturday night.

Wm. Douglas has been confined to his room all week with an attack of la grippe.

Fred Young enjoyed a visit from an old friend from Caron, Sask., A. Sprinks, last week.

Mrs. Jas. Burtch and child of Kelowna are the visitors of her sister, Mrs. Jas. Elliott, at present.

A report has just reached us that Rev. C. W. Whyte had another stroke this morning and lies very seriously ill.

Miss Pollock was so much under the weather that she had to give up her patient here and return to Summerland on Thursday.

Mrs. S. Murdin, Mrs. Ed. Lang, jr., Mr. and Mrs. R. J. Hogg, Miss Florence Needham, attended the S. S. Convention held in Vernon this week.

Mr. A. E. McKenzie, who has disposed of his ten-acre lot to Mr. Thos. Powell, is moving with his family this week to Miss Minnie Smith's house.

J. L. Vicary and Thos. Powell were at Kelowna on Saturday attending the meeting of the Farmers' Exchange.

Mrs. Jas. Hood and children, accompanied by her mother, Mrs. Wm. Urquhart, left on Tuesday morning for her home in Cumberland, Vancouver Island.

The Ladies' Circle of the Methodist Church met on Wednesday at Mrs. Needham's, and elected their officers for the year, President, Mrs. Keating, Secretary, Miss Gummow, Treasurer, Mrs. Brown.

A bridge-whist tournament was held on Friday night at the home of Mr. Wm. Sanderson. The opposing clubs were the Townsite and the Town. The Townsite had a "walk-over."

On Monday A. Town left for California where Mrs. Town has been for several months. He expects to be away for two months or so. In the meantime the store is in charge of O. Holden and Miss A. Seaton.

Miss Verna Calender left for her home in Vancouver on Thursday morning. The girls of the Handicraft Club met her at Miss Florence Needham's home in a social way the night before she left. Ere bidding her good-bye they asked her acceptance of a blouse length in fancy silk, as a sight token of their love and esteem.

DR. FRIEDMANN IN CANADA.

Delivers an Address Before Canadian Society.

Ottawa, March 12.—Dr. Friedmann of Berlin discussed to-day before the Canadian Association for the Prevention of Tuberculosis his treatment for tuberculosis, the manner of its discovery and the precautions he took to ensure its harmlessness. He said he had spent twenty-three years in research work to find a tuberculin that was not toxic and virulent, and having found it, tried it first of all on himself. He discarded human tubercule bacilli he said, after many experiments, because he feared the results were too dangerous. The end of his research came, he asserted, when he found a bacillus which originated in a cold-blooded animal—the turtle. "I injected it first into myself," he said, "then into patients infected with tuberculosis then into healthy children in tubercular surroundings. I have found the remedy invariably harmless."

LOCALS.

Mrs. C. E. Ward of Penticton is about town this week.

Mrs. Stott gave an address to the members of the Baptist Church on Thursday evening.

J. H. Bowering is one of the latest arrivals here. His household effects were landed early this week.

Messrs. Hatfield & Clark are planning on giving the new ferry boat, the "Skookum," a trial run on Saturday.

John MacLean and Herbert Strachan arrived here on Tuesday, and are registered at Hotel Summerland.

Prepare to meet Royalty at the Empire Hall on Wednesday, March 26th. The Mikado and his Suite will be there.

Mr. Percy Wollaston, of Wilson Bros., Victoria, is here on business in connection with the winding up of the Moore estate.

Mrs. A. M. Ward of Garnett Valley who has been spending the winter in the Old Country, returned home a few days ago.

D. V. Mott of Fernie and George J. Fraser of Penticton registered at the hotel on Thursday. They are general agent and district agent respectively of the Studebaker motor car.

Mr. and Mrs. J. H. Cole, son and daughter, of Edmonton, are visiting friends here. Mr. Cole, a former C.P.R. employee, recently sold a hotel property in Edmonton. Mrs. Cole is a sister of T. E. Moore.

On Tuesday evening the St. Andrew's Society will hold another of its regular monthly social evenings. A good many invitations have been issued and those who will be able to attend are anticipating having a good time.

On Tuesday evening Rev. C. H. Daly gave an interesting lecture to the members of the St. Andrew's Presbyterian Church Young People's Society. The subject of the lecture was "An Ocean Trip." Several readings and vocal solos were also contributed by members and friends.

FACTS ABOUT CANADA.

The distance from Halifax to Vancouver is greater than from London to Halifax.

Canada is bounded by three oceans; its 13,000 miles of coast line nearly equals half circumference of earth.

Canada's proportion of population is 1.90 square miles; United States 21; England and Wales 558; British Empire (outside India) 4.

Canada is 3,500 miles by 1,400 in area. The United States-Canada boundary line is 3,000 miles long; 1,600 by land, 1,400 through water.

The Canadian area of the 5 great lakes of 100,000 square miles, forms only one-fifth of total area of the larger fresh water lakes of Canada.

Canada is as large as 30 United Kingdoms and 18 Germanys; twice the size of British Indies; almost as large as Europe; 18 times the size of France; 33 of Italy.

USEFUL HINTS FOR THE HOME.

When sweeping thick carpets always follow the weave of the pile.

A glass measuring cup and glass lemon squeezer should be found in every kitchen.

In house decoration the pieces of brass and copperware should be used to light up dark rooms or halls.

If a little salt is sprinkled in the frying pan before putting the fat in, the stove will not be splashed with the grease.

When you spill tea on the tablecloth cover the stain with common salt. When the cloth is washed the stain will be gone.

Apples baked with very different seasonings — cinnamon, cloves, maple sugar, lemon or orange—make a delicious change.

Before broiling ham, it should be soaked one hour in lukewarm water. Then drain, wipe and broil three minutes. The slices should be thin.

Fruit jars should be sweet and clean before they are put away. Put a pinch of soda in the jar when you give it its final rinsing. This will destroy all old flavors.

Local News Items

W. J. Robinson was a visitor in Peachland last Saturday.

Rev. H. A. Solly held service in the Naramata Church last Sunday afternoon.

Mrs. Alex. Grievé of Penticton is this week a guest at the home of Mrs. T. McAlpin.

Another organizer I. W. W. has been arrested and fined as an agitator in the camps at Naramata.

James Ritchie, who has been in the Old Country for some months, reached home last Monday evening.

Mr. James Schofield of Pincher Creek, Alta., who spent the winter here, has returned to the prairie town.

The Ladies' Hospital Auxiliary will meet next Tuesday at three o'clock at the home of Mrs. R. M. Ross.

The Ladies' Aid of the Methodist Church are preparing for a sale of aprons and other useful household notions. The sale will take place on April 4th.

A number of Summerland citizens went to Naramata last Sunday morning by special ferry to hear the address of Dr. Chown in the Methodist Church there.

There will be no meeting of the Provincial Teachers' Institute until Easter, 1914. It is announced that the government will pay the transportation of teachers to the Institute sessions.

The Transportation Committee of the Board of Trade have been advised that no change in the C.P.R. lake service is contemplated until the new steel steamer is put in commission.

The C.P.R. has provided a life-saving equipment for use at their wharf. This comprises a lifebuoy, ropes, and poles, and will be placed in a convenient position, available for an emergency.

Next week, Friday being Good Friday, the Review will be published on Thursday. Advertisers who wish to change their ads. will please bear this in mind and let us have their copy one day earlier.

Among the possible new industries for Summerland is a brick yard and pottery. The Board of Trade have, upon request, been furnishing samples of clay deposits which are believed suited to these industries.

Among those from here who attended the Sunday School Convention at Vernon this week were Mrs. Hardy, Miss Margaret White, Miss Munn, Mrs. G. W. McLaren, Mrs. J. J. Mitchell, Miss Spencer, Rev. F. W. Pattison, and Dr. Sawyer.

The last game of basket-ball to be played in town this season will be that between the Town and College teams in the Men's Club gymnasium next Thursday. Tonight the match is played in the College gymnasium. Should each side win a game in these two events a third will be necessary to decide the issue.

The regular monthly meeting of the Women's Institute will be held in the parlor of the Men's Club at three o'clock on Tuesday, March 25th, instead of Friday the 21st. After the meeting the officers and members of the Women's Institute hope to entertain the members of the Farmer's Institute and their wives to tea and social evening.

As the coming Easter season is the first time that the schools of this province have enjoyed an Easter vacation, the teachers are naturally much delighted, and some of them are planning on visits to homes or friends. One of those to go out will be Miss Rothwell, who will spend a few days at the Coast with her brother, Dr. Rothwell.

Mrs. Stott, for many years a missionary in China, is visiting at the home of Miss Dale. Mrs. Stott gave a very interesting talk on her work in China before the ladies of the Women's Baptist Mission Union, at their regular monthly meeting last Wednesday at Mrs. Graham's. Mrs. Stott will speak next Sunday at the College, and on Wednesday evening of next week at the Baptist Church, West Summerland.

Tents in all sizes can be seen at the leather store. ad m14

The creditors of the T. E. Moore estate met this afternoon at the office of W. C. Kelley.

Miss Harrington of Peachland was the guest of her cousins the Misses Harrington last week-end.

Mr. and Mrs. Mills of Peachland, who arrived here on Thursday night, are the guests of Mr. and Mrs. W. J. Robinson.

H. C. Packham, one of the theological students at the College, conducted service at Peachland Baptist Church last Sunday.

Geo. Atkins, the painter, who has been confined to his home for some time through illness, is now on the road to recovery.

Miss Evelyn Brown, who last week underwent an operation for appendicitis at the Kelowna Hospital, is making very satisfactory progress.

The St. Andrew's Society will give a Scotch Concert to-morrow evening before the College Literary Society in the College Chapel. The meeting is open to the public.

D. F. Brewer, who has recently completed his new restaurant building at West Summerland, announces elsewhere in this issue that he will be ready for business shortly.

George Craig went to Kelowna on Thursday to have an X-ray examination made of his injured leg. It is feared that the bones are not properly setting, and that another operation may be necessary.

There will be a change in the hotel management after April 1st. Beginning with that date Mr. Dunrobin assumes the responsibilities of manager. Mr. Peacock will probably return to the prairie in a month or so.

The Summerland Musical Society will present Gilbert & Sullivan's Opera "The Mikado" on Wednesday, March 26, in Empire Hall. Reserved Seats One Dollar. General Admission, Seveny-five Cents. Plan of hall at Summerland Drug Co.

Elsewhere in this issue Mrs. R. H. Steuart is advertising a last Lenten tea, another of those afternoon affairs in aid of the church piano fund which have been meeting with much success. This will be a ten cent tea given at Mrs. Steuart's home on the afternoon of Thursday, March 20th.

There's a smudge in the garden, a smoke in the air; a smell combined of burnt leather and hair. There's a girl on the lawn with a rake in her hand; There's woe and distress all over the land. There's carpets to beat and rugs to shake; enough of such work to make a man quake. There's stoves to be moved and carpets to put down, no wonder a man wants to get out of town.

According to promise, the talents of the Ladies' Aid of the St. Andrew's Church will be demonstrated in Campbell's Hall, Saturday, March 22nd. Tea will be served from 4 to 8 p.m., and cakes, home-made candy, and other culinary products and surprises will be on sale. Particularly those batching are assured of a source of supply if, for lack of time, they fail to get their Easter cooking done.

There will be a meeting of the Farmers' Institute in the Men's Club on Monday evening at eight o'clock. Besides some business that needs to be attended to there will be an address on marketing by S. J. Fee, the representative of the Vernon Fruit Co. at Calgary, and another talk on vegetable growing by Mr. Hilborn. These ought to bring a good many out as they are both live subjects by men that know their business.

I. W. W.'s, to the number of over 100 arrived in Penticton on Saturday and Sunday last, from the camps on the east side of the lake. This is understood to be the preliminary to a general strike of the men which may begin next week. Those who left Messrs. Schnecht & Co.'s camps, had received their month's pay and were only anticipating cessation of work. Practically the whole of construction is now held up on the Naramata side. On the Summerland side, as far as Osprey Lake, grading is almost completed. Only three camps are now at work, and the men are drifting out to other sections.—Herald, March 8.

REAL ESTATE & INSURANCE

OUR COUNCILLORS IN DEBATE

(Continued from page 1.)

drowning accident, it being claimed that he met death outside the municipal limits, the municipality not extending beyond the shore. Further legal advice will be obtained, and in the meantime it is understood the coroner is asking the Attorney-General for instructions. The opinion was hopelessly divided in the matter of expense in apprehending Rudd and bringing him back to justice, some claiming that this was a matter for the Provincial Police, whereas a bill has been sent the municipality by the policeman who made the arrest and returned the prisoner to Summerland. Solicitor Kelley's advice was that the municipality was not liable for that part of the account incurred in connection with Miss Van Hise, while it might be with the other, particularly if the expense was caused by the direction of municipal officials.

Immediately upon resuming business on Wednesday morning the following accounts were passed for payment:

Pay Roll	\$852.69
S'land Supply Co.	14.35
Wm. Ritchie	.43
J. S. Ritchie	2.75
W. R. Shields	4.45
Darkis & Whitfield	22.85
T. B. Young, feed	58.25
A. J. Beer	1.35
R. H. English	1.00
R. C. Lipsett, veterinary services	20.50
T. P. Thornber	8.09
Hatfield & Clark, engine and pump	263.55
Crane & Co., valves	45.95
Can. Westinghouse Co.	1.96
Can. Fairbanks-Morse	61.05
Storey & Campbell	1.52
Ok. Telephone Co.	4.25
S'land Drug Co., stationery	13.00
G. L. McWilliams, stationery	1.60

Postages	9.00

Dom. Express Co.	10.50
Mun. School Board	950.04
Bank Interest	61.16
G. Morgan, road contract	50.00
	\$2,952.79

By-law No. 44, providing for temporary loan, was finally read and approved. Some letters from engineers were read in reference to electric light plant, and this question was further considered, no definite action being taken.

The opinion of Solicitor Kelley on the Taube matter was received and read. It was his opinion that under the sub-section 13 of section 318 in the Municipal Clauses Act Dr. Taube was liable for Trade License. Following is the clause as quoted:

"From every person who, either on his own behalf or as agent for another or others, sells, solicits, or takes orders for the sale, by retail of goods, wares or merchandise, to be supplied or furnished by any person or firm doing business outside the municipality, a sum not exceeding fifty dollars for every six months."

The correctness of this interpretation was questioned by Coun. Robinson, as was also the wisdom of adopting such a policy. It was felt by the majority that the Council must be guided by the solicitor's opinion, and the matter was allowed to drop at that.

Upon the presenting of their report by the Public Works Committee the question of the policy to be followed by the Board was raised by Coun. Robinson, who took exception to some of the proposed expenditures, and also to the evident intention of continuing the irrigation system at a loss. His contention being that the expenses should either be reduced or the rate increased sufficient to meet the deficit. He argued that as there was not likely to be any capital expenditure that the same overhead expenses as last year should not be incurred.

Coun. Lewes did not see how the expenses could be greatly reduced, in fact claimed that they would this year be larger, as, whereas last year's extensions, etc., bore part of the overhead expenses, this would not be the case this year. Coun. Robinson still objected to this policy, insisting that expenses be reduced all round.

Reeve Thomson thought before a cut in the salaries was made they should see what extensions could be carried out. The reservoir at Eneas Creek was much needed, while domestic water should be

put on various sub-divisions, and would prove good revenue producers. He believed the bank would make a reasonable advance on debentures for such purposes. If money can be raised in this way at 6 per cent. the Board seemed to unanimously favor making some much-needed improvements, especially where there would be material increase in revenue from such expenditure.

Coun. Robinson again urged the immediate carrying out of revenue-producing work, as he had last year urged the extension of electric light which was yielding a profit, and he urged that the other utilities be put on a self-supporting basis, condemning the practice of charging deficits to general rates. Insufficient data was available at the meeting to conclude on any definite plan.

The Public Works Committee was asked to submit estimates on the Eneas Creek dam and the various proposed extensions of the domestic water service, and also to show the probable revenue from the latter. The Public Works Committee presented a report embodying several recommendations, among them being that the spare armature for the electric light plant, be not repaired at present; that E. R. Simpson have water at Paradise Flat, under practically the same conditions as last year; that W. C. Kelley be permitted to raise the sidewalk in front of his stores at his own expense; that two street lights be put in on the lower end of the Gulch Road, as well as the money was available for such purpose, and that certain stumps on Paradise Flat be pulled out. The Public Works Committee also presented an estimate showing that the following amounts would be required during the current year for work in connection with their department, and asked for authority to make these expenditures:

Irrigation maintenance - operation	\$1,000.00
operation	3,200.00
Domestic water maintenance and operation	600.00
Electric light maintenance	300.00
Electric light operation	1,300.00
Road construction and maintenance	4,000.00
Noxious weeds	50.00
Street lighting	120.00
Plant and tools	275.00
repaired	75.00
Fire protection	25.00
Public health	100.00
Stable expense	1,600.00
	\$12,645.00

These are exclusive of overhead charges, such as salaries, superintendence, etc. Accompanying this was an estimate, prepared by Supt. Mitchell, of work required in connection with fumes, ditches, etc., and which, including a spillway to the dairy property, at a cost of \$680, totalled \$5,359.

The Public Works Committee supplemented Mr. Mitchell's report with a request that they be authorized to expend immediately some \$1,500 on some of the work outlined by Supt. Mitchell.

The proposed expenditures as outlined were authorized, a proviso being made that the expenditure on roads be on condition that a grant was received from the provincial government for this purpose and that the \$1,500 shall not be expended until debenture money is available.

Coun. Lewes pointed out that this \$1,500 covered items that needed attention before the opening of the season and urged that provision be made for this work at an early date.

Speaking of advertising: There is no business that cannot be increased and benefited by advertising. No class of advertising pays as well as a well-written newspaper ad. There is no work you could do that would bring you as great returns as to use thirty minutes time each day in the study of advertising, if you are in business. The great trouble with most advertisers in a country town is that they write an ad, involving their stock-in-trade and expect by letting it stand week after week in the country newspaper to get direct returns from it.

Shiloh
The family remedy for Coughs and Colds.
Shiloh costs so little and does so much!

Kaleden Comments

Mr. Mitchell's little son has recovered from the illness of last week.

It has been decided to hold the opening services of the Baptist Church on Sunday, April 6th. Several ministers have been invited, and a church supper will be provided on the evening of Monday, April 7, after which a public meeting will be held in the church.

At a meeting of the ratepayers of Kaleden, held on the 8th inst., a Conservative Association was formed, and the following officers were elected: L. W. Shafford, M.L.A., Hon. President; A. S. Hatfield, President; D. D. Lapsley, Vice-President; W. R. Rourke, Secretary.

BAKED APPLE MERINGUE.

Pare and core the apples and bake them till soft but not broken. Beat the yolks of three eggs, add three tablespoons of sugar and a little salt, and stir in a pint of scalded milk. Pour over the apples, and bake till the custard is firm. Remove from the oven to cool, then cover with a meringue made from the whites of the eggs beaten stiff, three tablespoons of powdered sugar added gradually, and lemon to flavor. Brown the meringue by holding a hot stove lid over it, or by setting the dish on a board in the oven.

"Lives of poor men oft remind us
Honest toil don't stand a chance;
The more we work we leave behind us
Bigger patches on our pants.

On our pants once new and glossy
Now are patches of different hue;
All because subscribers linger
And won't pay up what is due.

Then let all be up and doing;
Send in your mite, be it e'er so small,
Or when the blasts of March shall strike us
We shall have no pants at all."

B.C. FRUIT GROWERS' STATEMENT.

[Continued from Page 1.]

followed by like periods of high prices and great prosperity. The more we can eliminate extremes, the less re-action there is. British Columbia growers are in a particularly favored position. The population of the prairies, their own particular market, is growing larger every year, and at a phenomenal rate of increase. The whole country now is being covered by a network of railroads, which will tend to give better transportation and better service. The experience which we have had, and which has, perhaps, been dearly bought, will enable us to get better distribution for our products. More knowledge in every way, in production, in packing and distribution, will better conditions; more advertising; advertising which every successful box of apples brings, through the satisfaction given to the customer, and the careful education of the general public on the subject of fruit. It is a fact often overlooked that the majority of fruit growers are getting returns from young orchards, and just now it is not so much the number of boxes to a tree, as the number of trees to a box, which obviously enhances the cost of production. These same trees are growing up, and it will not be long before we are getting far bigger tonnage per acre, at a same or a lower general cost of general production. Freight rates are lower than they formerly were; transportation conditions, although not yet ideal, are better; and it must not be forgotten that fruit prices for box fruit have steadily risen. Orchard returns and shipping returns must be taken over a period of years to enable one to arrive at an average price. Though prices may fluctuate, there is no reason why we may not look to an average of a dollar a box. Twelve years ago, the prices of box fruit were considerably lower than they are now.

There are many problems to solve in the marketing of our increasing crops; but they can all be overcome by our own efforts, ability and energy. We can all well afford to be entirely sanguine as to the ultimate and enduring success of our fruit industry.

W. CRAWLEY RICARDO,
President and Chairman
of the Directorate.
R. M. WINSLOW,

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Naramata Notes.

Tents can be bought at Taylor &
Co's., Summerland. ad m14

Miss Adelaide Hayward has dis-
continued her work at school here.

The social, planned by the Ladies'
Aid for Easter Monday, has been
cancelled.

Harold Mitchell has discontinued
his work on the Maude Moore and
Russell Roe is taking his place.

Mr. and Mrs. J. S. Gillespie are
expected to return from their stay
in England the latter part of this
month.

Mr. McDonald, who acted as
police officer here, has been replaced
by Mr. Doswell, who arrived last
Saturday.

Walter Land has recently pur-
chased two lots near the old picnic
grounds and is now erecting a small
shack and barn on it. Mr. George
Cook is the carpenter.

For the last week several of our
citizens have taken advantage of
the warmer weather and improved
roads to drive to Penticton for
shopping purposes.

The Roe brothers and sisters
were very glad to welcome back
their mother last Friday night.
Mrs. Roe has been visiting a
daughter in Victoria since the
Christmas holidays.

Both Margaret Saulting and
Wesley Rounds have had adenoid
growths removed from the nasal
passages. The operation in each
case was very simple, and each is
now getting along nicely.

The address of Rev. S. D. Chown
on Sunday last was enjoyed by an
unusually large congregation.
Several of our Summerland friends
were present. Dr. Chown later
left in an automobile for Penticton,
where he was to give another
address.

The card party given by Mrs.
H. J. Wells last Thursday afternoon
was greatly enjoyed by the twenty-
six ladies present. The first prize,
a souvenir spoon, was won by
Mrs. Frank Edgar, while the "Con-
solation" was hotly contested for
by several ladies, but Mrs. Mitchell
proved to be the proud possessor of
a fine head of lettuce and miniature
bottle of catsup. The company
broke up after partaking of the
very delicious refreshments Mrs.
Wells is known to always serve.

Rev. G. O. Fallis of Penticton
was present at the special meeting
of the Ladies' Aid on Wednesday.
His Bible Class offer, through him,
to put on a play in the Opera
House, April 14th, for the benefit
of the Aid. The play, a sketch
from "Pickwick Papers," has
recently been put on at Penticton
with great success. Over twenty
people take part in it, and great
talent was shown in portraying the
various characters. It will be well
worth while to keep the date in
mind and attend. A few solos will
be given to lengthen the evening's
enjoyment, making in all an event
that comes too seldom to our com-
munity.

WASHINGTON FRUIT SELLS IN CANADA.

Government Agent Says This Country
Furnishes Best Market.

A new angle on the fruit selling
situation is presented by J. N.
Grieve, agent of the Canadian
Government in Washington. Mr.
Grieve points out that the immi-
gration to Canada within the last
few years has reacted to the benefit
of eastern Washington and the
Spokane Country.

While grains can be grown suc-
cessfully in Alberta, Saskatchewan
and Manitoba, fruit cannot. As
a result a good market for western
fruit is provided that is closer than
the eastern market and further
away from the eastern grower—a
field where the Washington fruit
grower has practically no competi-
tion.

"Two thousand cars of fruit
were shipped last year from this
part of the country into Canada,"
said Mr. Grieve, "and it is quite
possible that the consumption of
Washington fruit up there will
double this year. A parliamentary
report recently stated that some-
thing like 75 per cent. of the fruit
consumed in the Canadian north-
west was grown in eastern Wash-
ington. The Canadian immigra-
tion, so far from being an injury
to this part of the country, is one
of its best helps."—Spokane
Spokesman-Review.

BARGAINS FOR Review Subscribers

REALIZING that the Home Paper cannot fill all the
need for Reading Matter, we have compiled a
List of [in our opinion] the most helpful and practical
Publications which we are offering our Subscribers in
clubbing combinations, at lowest possible prices.

Following is only a partial list of such combinations:

BARGAIN No. 1

Vancouver Daily Province - \$3.00
Better Fruit - - - 1.00
The Review - - - 2.00-6.00
The three for \$5.00

BARGAIN No. 2

Canadian Courier - - \$3.00
Canadian Horticulturist - .60
The Review - - - 2.00-5.60
The three for \$4.60

BARGAIN No. 3

Vancouver Daily Sun - - \$3.00
Country Life in America - 5.00
The Review - - - 2.00-10.00
The three for \$8.00

BARGAIN No. 4

Canadian Horticulturist - .60
Canadian Poultry Review - .50
The Review - - - 2.00-3.10
The three for \$2.70

BARGAIN No. 5

The Busy Man's Canada - \$1.00
World's Work - - - 3.60
The News-Advertiser, Daily - .60
The Review - - - 2.00-9.60
The four for \$7.00

BARGAIN No. 6

Winnipeg Telegram - - \$2.00
(or Free Press)
B.C. Saturday Sunset - - 2.00
Canadian Magazine - - 2.50
The Review - - - 2.00-8.50
All four only \$6.60

BARGAIN No. 7

World Wide - - - \$1.50
Farmers' Advocate - - 1.50
Free Press, Weekly - - 1.00
The Review - - - 2.00-6.00
The four for \$4.75

BARGAIN No. 8

British Columbia Magazine - \$1.50
Toronto Mail and Empire - 1.00
Farmers' Advocate - - 1.50
The Review - - - 2.00-6.00
All four for \$4.50

BARGAIN No. 9

Calgary Herald - - - \$3.00
Collier's (Canadian Ed.) - 5.50
The Review - - - 2.00-10.50
The three for \$8.90

BARGAIN No. 10

Vernon News - - - \$2.00
Toronto Saturday Night - 3.00
The Review - - - 2.00-7.00
The three for \$5.85

BARGAIN No. 11

Canadian Pictorial - - - \$1.00
Windsor Magazine (13 mos.) 3.25
The Delineator - - - 2.00
The Review - - - 2.00-8.25
The four for \$5.75

BARGAIN No. 12

Rod and Gun - - - \$1.00
Poultry Review - - - .50
Nor'-West Farmer - - - 1.00
The Review - - - 2.00-4.50
All four for \$3.90

BARGAIN No. 13

The Garden Magazine - - \$1.85
Canadian Courier - - - 3.00
The Review - - - 2.00-6.85
The three for \$5.75

BARGAIN No. 14

Weekly Edition of either—
The Province - - -
Calgary Herald - - -
Winnipeg Telegram - - -
Winnipeg Free Press - - -
Family Herald and Weekly
Star
Toronto Mail and Empire
(and Borden Picture)
or
Montreal Witness - - - 1.00
Canadian Sportsman - - 2.00
McLean's Magazine - - 2.00
The Review - - - 2.00-7.00
The four for \$5.40

If none of these combinations suit you, make up one
to your liking, and we will quote you a price on the
selection.

We are also Subscription Agents for—

The Ladies' Home Journal - \$2.00 | Country Gentleman - - - \$2.25
Saturday Evening Post - - 1.50 | The Fruit Magazine - - - 1.50
Successful Poultryman - - .50

These Offers are for old or new Subscribers. If
present Subscribers are in arrears it will be necessary
to pay to date before these Bargains become available.

Notice of Assignment.

Pursuant to the Creditors Trust
Deeds Act 1901 and Amending
Acts.

NOTICE is hereby given that
Thomas Edward Moore, carrying
on business as grocer and provision
merchant at West Summerland in
the Province of British Columbia,
has by deed dated the First day of
March A.D. 1913, assigned all his
real and personal estate, credits
and effects which may be seized,
sold or attached under execution,
to Percy Wollaston of Victoria in
said Province, Manager, for the
general benefit of his creditors.

A meeting of the creditors will
be held at the office of Wellington
C. Kelley, solicitor, at said West
Summerland on Friday the 14th
day of March, 1913, at three o'clock
in the afternoon to receive state-
ment of affairs and for the general
ordering of the estate.

And notice is hereby given that
all parties having claims against
said Thomas Edward Moore are
required to file the same with the
undersigned on or before the 15th
day of April, 1913, with full par-
ticulars of their claim, verified by
statutory declaration, and the
nature and value of the securities,
if any, held by them. All parties
indebted to the estate are requested
to pay the amounts of their in-
debtedness forthwith to the as-
signee.

And notice is hereby given that
after the 15th day of April, 1913,
the assignee will proceed to distri-
bute the assets of said Thomas
Edward Moore amongst the credi-
tors of whose claims he shall then
have had notice, and that he will

WEST SUMMERLAND,

belonging to D. F. BREWER, will be

**OPEN for the SERVING
of MEALS on March 19th.**

D. F. BREWER,
Proprietor.

**Notes on Sporting
Events.**

The College gymnasium was the
scene of a battle royal on Friday
evening, 7th inst., when the young
ladies basket-ball teams, represen-
ting the College and the Public
Schools, tried conclusions. The girls
played a fine game on both sides,
but the College team had the best
of it in reach and combination, and
won by a score of 8-3. Rooters
were very much in evidence having
invented several new kinds of
noise, and the school girls had a
bad attack of stage fright. They
will do better next time. For the
College Kate and Josie Butters
were the pick of the bunch. Hattie
Phinney for the School played a
fine game, and was ably supported
by Jean Babbitt at guard. None of
the other players in either team
were at their best, although basket-
ball experts were surprised at the
fast game the girls played.

The Athletic Concert will be held
in the College gymnasium on Fri-
day evening, April 4th. The ladies'
class will give an exhibition of
fancy marching and club swinging.
The other gymnastic features will
include class work on parallel bars,
and some clever bar work by a
special squad, tumbling and pyra-
mids. The committee in charge
expect to present the usual high
class of gymnastic, literary and
musical entertainment.

A base-ball game will probably
be played on Easter Monday be-
tween teams representing Peachland
and the College. It is hoped that
the Town will organize a strong
team this year.

That was some score when the
Academics beat the College in
basket-ball, 40-7. It is rumored
that the Highbrows will take to
golf.

The line-up for the senior basket-
ball game, which will be played
this evening in the College gym-
nasium, will be as follows: Col-
lege—McDougall, centre; Morlock
and Nicholson, forwards; Hayward
and Wolverton, guards. Town—
McWilliams, centre; McLeod and
Brown, forwards; Baker and Glenn,
guards. It will be seen that both
College and Town are represented
by the strongest teams available,
and a rattling good game may be
expected. The Bean-eaters and the
Hill-climbers will play the prelimi-
nary, beginning at 7.30.

**THINGS THAT ARE GOOD
TO TAKE.**

Take this paper.
Take comfort—if you can.
Take things easy—within reason.
Take the girl you love to be your
wife.
Take care of your health. It is
the most valuable thing you have.
Take a hint when it is intended
for you. Don't wait to be knocked
down.
Take flattery as an insult, and
an honest compliment as something
to be grateful for.
Take pains to be faithful and
conscientious in business. It will
bring you success.
Take offence only at things worth
being offended at. It is a sure
evidence of a small mind to notice
trifles.
Take hold of any work that comes
to your mind rather than be idle.
Luck always waits upon the busy.
Take time to be polite and kind
always. Rudeness never pays, the
boor may think so, but he is wrong.
Take trouble like a man. Don't
go whining about when it comes,
but shut your mouth and stand up
under it resolutely.
Take a trip now and then, and
try to see something outside of
the town you live in. Travel is
one of the best of educators.
Take pains to do your work well.
The conscientious worker is the one
who gets to the front—the one who
is never idle.

Braggs—"I am still one of those
old-fashioned people who believe
that honesty pays." Wiggs—"So
am I. And I believe just as firmly
that dishonesty gets paid."

"Patronize home institutions,"
cries the country editor from week
to week. "That is right," says
the merchant, "give it to those
who go to some other town to buy
goods." Then with his heart filled
with kindness to the loyal editor,
he sends his job work to Kalamazo,
or utilizes a piece of wrapping
paper to write an order on for
goods or send a statement to a cus-
tomer. Funny, isn't it?

I.W.W. Organizer Fined for Trespass

Refused to Leave Construction Camp When Bidden.

Prefers to go to Prison Rather Than Pay Fine.—Not Allowed to Become a Martyr.

The law prevented Walter Edgar Clark, an I.W.W. organizer, from becoming a martyr on Monday. He was fined \$5 and costs by Mr. J. R. Mitchell for trespassing in the camp of contractor Kenneth C. Griffin, Naramata, and refusing to leave when requested. Clark had \$23.80 in his possession, but said he preferred to go to prison for thirty days rather than pay. Magistrate Guernsey, who sat with Mr. Mitchell, advised distraint of the money, which was done.

When charged, Clark said he did not trespass on enclosed land. He went in to address the men. He had never before seen a man refused entrance to a railroad camp. He asked if there were any objections to him addressing the workers and was told no. He did not ask the owner of the camp. He pleaded not guilty to the charge.

Kenneth C. Griffin, contractor for the Naramata section of the Kettle Valley Railway construction said, on the evening of March 8 he was in his camp, on the Kettle Valley Railway construction grade at Naramata. He saw accused there before and after supper. He had no business in the camp. He had supper which he paid for, after which he went to No. 1 bunk house and addressed the men. As he was leaving, Griffin requested him to quit the camp, but he refused. He then went into No. 2 bunk house to speak to the men. Clark flatly refused to leave the camp when requested by prosecutor. He was then told he would be arrested if he did not go. He treated the matter with contempt. Prosecutor phoned to Naramata for Provincial Police Constable Doswell who arrived later.

Cross examined by accused, Griffin said he told Clark to leave the camp the first time he saw him, and asked him not to speak to the men.

Percy T. Doswell, Provincial Constable, said he knew the accused man Clark. On Saturday night he was called to No. 1 construction camp at Naramata. Mr. Griffin made a complaint about Clark of interfering with the men and gave him in charge. Witness arrested accused.

In giving evidence on his own behalf, Clark said he was not a Christian and refused to take oath on the Bible. He had a belief of his own. He was allowed to make affirmation. He said he did not know it was against the law to go into any public works. He had been attending camps and speaking for the past three years. It was understood that nine o'clock was the usual time for all outsiders to leave camp. He did not understand that an employer had power over a man's soul and body. He only hired him for ten hours per day. This was a free country. When Griffin took hold of him and ordered him away and said he had sent for the "Marshall," he thought his action would be misconstrued if he left then. He therefore went to bed with the men until the "Sheriff" arrived. He admitted being on the premises and that he refused to leave when requested.

Mr. C. Cayton, who appeared for Griffin, read the section of the B.C. law, bearing on the trespass, under which the action was taken.

Clark was found guilty and fined \$5 and costs or 30 days imprisonment, in lieu of payment.

Clark said he would go to jail. As he had \$23.80 in his possession a distress warrant was issued for the fine and costs by His Worship.

Interviewed later, Clark stated that the objects of the I.W.W. were to obtain better camp conditions for railway workers and better food. It was pointed out to him that a government inspector had recently visited the camps on the east side of the lake and had reported favorably on their sanitary condition. In reply Clark said there were no wash houses, and

that the men demanded that blankets should be supplied by the contractors. He contended that much of the disease was brought into camp by men who were forced to pack their blankets from place to place, thus carrying germs with them and causing contagion.

Clark has been an I.W.W. lecturer for three years, but is accredited agent only about two months.—Penticton Herald.

FREIGHT REDUCED ON POWDER.

Powder must be Ordered Through Farmers' Institute Secretary.

A circular has just been issued by the Department of Agriculture to members of farmers' institutes informing them of the correct procedure in obtaining stumping powder through their institutes at the reduced price of \$5 per case f.o.b. the factory, and at the special transportation rates obtained for them by the Government from the railway company.

This points out that the powder can only be ordered by members of institutes through respective secretaries for use in clearing and developing land. It can be obtained from the following companies, The Canadian Explosives, Ltd., Victoria; and the Giant Powder Co., Con., Vancouver, and can claim the single first-class rate, half the ordinary rate, from the C.P.R. as arranged between the government and the railway company, and 100 case orders will be prepaid by the department on the understanding that the institute ordering makes itself responsible for the payment as sales are effected to the powder company.

Institute members are also advised to order caps and sufficient fuse for their requirements when ordering powder, as arrangements are being made by the department with the powder companies whereby these may be supplied at the lowest possible cost. There is no advantage in freight rates in ordering in quantity, the freight on one case costing in proportion the same as on one carload.

CONSTRUCTION WORK DELAYED.

Deadlock Over Right-of-Way Between Naramata and Penticton.

As a result of the deadlock which has arisen between the K.V.R. and some Penticton residents over the right-of-way through their property, C. R. Schacht & Co. have broken up camp and sent their equipment to the Coast. This company had a contract for some nine and a half miles east from Penticton. Unable to proceed with the work of grading they have cancelled their contract and discharged sixty or seventy men and have sent some thirty teams and equipment to Lulu Island where they have a contract of some eight miles with the Canadian Northern Railway. About four miles of their contract has been graded south of Naramata.

ST. ANDREW'S SOCIETY AT THE COLLEGE.

On Saturday evening, March 15th, the Literary Society of the College had the pleasure of being entertained by the local "St. Andrew's Society."

That the various items of the program met with the hearty approval of the student body was evidenced by the applause and accolades that greeted each performer. Owing to the lengthy program, as well as the limited time at their disposal, the worthy President of the Literary Society, who acted as chairman, had to request the enthusiastic audience not to demand any more accolades.

At the close of their excellent entertainment a hearty vote of thanks was tendered to the visiting society, and amid the echoing strains of the O.K.C. Doxology, and the thunderous notes of the College yell, an evening was brought to a close, which, to put it in the language of one of the boys, was "the best yet."

Royalty will be in town next Wednesday and Thursday at Empire Hall. Secure your tickets early. Going fast.

EXPERT ADVICE ON MARKETING

S. J. Fee, Sales Manager of Vernon Fruit Company at Calgary, Gives Growers Much Inside Information.

Urges Local Co-Operative Societies, With One Central Agency. Easy To Complete Such Plan.

A special meeting of the Farmers' Institute was held on Monday evening in the Men's Club when a particularly interesting and instructive talk was listened to upon the question of marketing, the speaker being an experienced broker of Calgary, namely, S. J. Fee, sales manager of the Vernon Fruit Company.

Before calling on the speaker President Hilborn asked the secretary to read some communications, one, a circular from the Department of Agriculture, was acted upon, this offered free lectures on a number of subjects, and those on veterinary science, the growing of feed crops, and poultry and egg production were selected. The dates of these lectures will be fixed by the department. Another from the department offered prizes for competition in the growing of field crops. At least \$75 must be offered by the local society, \$60 of which will be furnished by the department. At least ten contestants are required. It was decided to start a competition in potato growing, half an acre being required for each contestant, and entries will also be taken for competition in the growing of one acre of fodder corn. In reference to the latter G. J. C. White said he had learned but recently that ensilage was being sold to small consumers in Ontario by owners of large silos which was proving profitable to both. He mentioned this as a suggestion which might be acted upon here, and thus save sending out a large amount of ready money for feed. The Institute was advised that the department were prepared to furnish stumping powder at cost.

President Hilborn then called on Mr. Fee, who held his audience with a very instructive and interesting talk on general marketing principals and the conditions which prevailed last season. Much of the information he imparted came as a surprise to many, while to others it was simply a first-hand confirmation in detail of the generally unsatisfactory system which they believed existed. The speaker has spent some twenty-one years in the fruit business, and started by saying that while he must necessarily be more or less personal he had no desire of "blowing his own horn" or knocking any other persons or organization. He wished to talk of the glut of the markets last fall, and how it might have been avoided. He discredited the generally-believed theory that the dumping of American fruit was the chief cause. The dealers of course early in the season bought California fruit, and later the more northern grown product of Oregon, etc., on which usually good profits were made, but care was always exercised to prevent the overlapping of supply. It was the failure of the market to absorb the amount of fruit anticipated by the dealers that caused the B.C. fruit to find an over-supplied market at the first of the season. The speaker strongly condemned the present marketing system or lack of system, as applied to B.C. fruit, especially the Okanagan products. Mr. Fee declared that the keenest competition in the prairie markets was not with American fruit, but B.C. fruit against B.C. fruit, and the system which permitted this was radically wrong. If a jobber had placed an order for a car of fruit, and because of wet weather, or for other reasons, his market had not been cleaned up before the arrival of this car he would make an effort to have the price reduced, probably by wiring that fruit was in bad condition, hoping thereby to have the car placed in his hands on sale. The California fruit exchange would not permit such practice. If a jobber attempted this trick with them they would instruct a nearby agent or dealer in whom they had faith to inspect the car and dispose of it elsewhere, and the jobber who

had tried to beat them would henceforth be a marked man.

It was B.C. fruit that gave the speaker most trouble in the way of competition. He would sell a car of apples, say at \$1.50, and shortly after would receive a wire from the dealer that he had another offer for the same varieties, grade, etc., at 5 or 10 cents less, advising him that he must meet this price or cancel the order. This price cutting would be on Okanagan fruit. He met such competition on probably fifty cars during last fall, and the man who under-quoted did not take an order from his house. He did, however, take that much from the grower. He told of other instances of our fruit being sold much below market price.

The speaker then described the organization now controlling the prairies, especially the Calgary district. There are two brokerage concerns organized to buy without competition and pinch a further commission from the grower.

Mr. Fee did not think it practical to attempt to sell direct to the retailer, believing a central agency with experienced men as essential as transportation. He recommended the organization of local co-operative societies everywhere throughout the province, these to be affiliated with a central selling agency. The local organizations, however, should be free to market their produce independently if they could get a better price. They should, however, sell only to recognized houses recommended by the central. If they could not get a better price than the selling agency could get for them then their fruit should go through that channel. In this way foolish price cutting would be eliminated.

The speaker thought that Summerland had lost three years by not marketing its fruit under its own brand. Had Summerland fruit been sold under its own trade mark it would by this time have established a market.

The slaughtering of prices must be stopped, and to do this organization is necessary. The organization must, however, be under good management. In emphasizing this the speaker said it was not his purpose to knock any association or any man, but rather the present system. California fruit, he said, was bought f.o.b. Calgary, inspected on its arrival by the local agent and delivered to the buyer and returns made at once.

There were at one time 156 cars of fruit, on a Monday morning, in the Calgary yards, probably half of this was American. Mr. Fee did not put much value on the market commissioner's work, saying that it was no use telling us of things after they had happened. He should be able to give us advance information, and thought that if he were placed in the producing centres of our keenest competitors, the Washington growers, we could be so advised as to materially benefit.

A number of questions were put to the speaker bringing out much additional valuable information. Mr. Fee claimed to be selling fruit at a cost of less than 8 per cent, and said that a central agency would not be an expensive organization, nor, as many seemed to think, was it necessary that the different local associations have their stock pooled by the central selling agency. He described the waste under the present system as enormous. Last year's waste would pay for five year's brokerage for a central agency. The speaker strongly advised the shipping of mixed cars of a large number of varieties, as the greater the variety the easier it is to sell a carload in the smaller outlying districts, which are the best markets. In this way a distinct trade is established in these smaller towns for the product of certain districts, and a demand will be created for the first of that district.

Advertising should be taken up. In this way the consumers could be advised of the available supply, when it would be best to buy, and educated to wait for the B.C. product.

President Hilborn, commenting on the speaker's advice said that he was convinced that Summerland should have a strong local organization. Mr. Fee instanced Salmon Arm, which is well organized under a good management, as having had a most successful season, due wholly to its being so organized. Stuff under their brand was in good demand, and they were able to get highest market prices, and sometimes a premium above that. Mr. Fee urged honest packing and straightforward honest dealing with the buyers. Through efficiency and good service a good business could be built up.

The information that the C.P.R. had been asked for trackage under cover so that fruit might be sold direct from the cars to the retailer was gladly received. Mr. Fee stated that under the present system it cost 30 per cent. to get produce to the retailer, whereas from 6 to 11 per cent. was all that was necessary. With a good central agency marketing would only be a question of distribution. He believed that it would only be two or three years at most before the market facilities mentioned above were given by the C.P.R. With the growers organized this might be brought about earlier. In reply to another question those present were informed that apples will not keep in storage in Calgary. It is much better to feed the market from here.

Mr. Fee said that he had spent fourteen years in the fruit business in Baltimore, but being a Canadian, he preferred Canada as a place in which to do business, and his coming back was not wholly with the object of making money.

He had put in several years very hard work in the B.C. fruit industry, and he would be very glad if he were instrumental in bettering conditions here.

The committee appointed some time ago to do the preliminary work for a local organization was asked to meet on Thursday of this week and will report to a meeting of the Institute on Thursday evening of next week. Mr. White pointed out that the committee had not been idle, and that Mr. Fee's visit was a part of their program. Those present were advised that the ladies will entertain the Farmers' Institute on Tuesday evening next, when the question of "Town Improvement" will be discussed, and they have asked that two gentlemen be appointed to lead in the debate. Messrs. Hilborn and Logie were appointed.

The speaker of the evening was given a hearty vote of thanks. He will continue his campaign by further addresses at Penticton, Kelowna and Vernon before returning to Calgary.

RINK HAS BEEN SOLD.

Giant's Head rink will henceforth be a stable, having been bought by L. C. Woodworth, who proposes fitting it up for a stock barn for cattle, sheep, etc. Mr. Woodworth is engaging quite extensively in the cattle business, and at present is supplying both retail meat stores here. It is understood that he is now negotiating for some ten carloads of cattle from the prairies, as well as several hundred head of sheep. It is his object to grow and fatten here as much beef, mutton, etc., as possible.

WILL CALL FOR TENDERS.

The creditors of the Moore estate met last Friday afternoon at the office of W. C. Kelley and a statement was submitted. The appointment of Percy Wollaston of Wilson Bros., Victoria, as assignee was approved; E. B. May and R. H. English were appointed inspectors, and W. C. Kelley, solicitor. The assignee was instructed to advertise for tenders for the stock-in-trade and fixtures on bloc or in parcels.

Some of the larger accounts were secured leaving about \$3,000 unsecured liabilities with available assets over \$1,700, showing an apparent deficit of \$1,200. The additional liabilities were secured by mortgages, etc.

Monday's Wind Storm Causes Wintry Conditions.

Okanagan a Favored Spot, Escapes Fierce Storm and Intense Cold Suffered East and South.

The "tail-end" (to use a common phrase) of a storm that has been creating havoc over a large part of the continent touched this valley early on Tuesday morning. About midnight on Monday a breeze from the northward increased greatly in velocity, and during the night blew down the valley with much force, piling up a heavy sea on the Naramata and Penticton shores. There were occasional flurries of snow from passing clouds which gave the impression of the return of winter. This, however, disappeared about as quickly as it fell, and while the wind continued during the day its force was less and gradually died away. Neither wind nor sea were sufficient to seriously interfere with the lake boats, the ferry, however, did not run all day. The captain of the Okanagan, nevertheless, considered it unwise to attempt to moor at Naramata on Tuesday morning as the seas were running high and washing completely over the wharf. The Ferry Company's property suffered more or less damage on account of the high seas. The Maude Moore, which was taken to the south shore, pounded considerably, and received some minor injuries, also shipping some water. The company's scow had its hatches torn away with the seas and sank after filling with water. The sinking probably saved the scow from serious damage. The wind again increased in force during Tuesday night, keeping up quite a sea. In attempting to dock at Naramata on Wednesday morning the Okanagan was nearly beached, and she had to steam off and make a second attempt before getting up to the wharf. The captain was heard to remark that he would not again attempt to moor in such weather. The tug Castlegar after taking a barge to Penticton on Tuesday morning returned again to Summerland where she remained in harbor until Wednesday morning when she returned to Penticton and brought back the barge, and from here continued northward.

Reports from all the Central and Southern States show the extent of the storm, which in places developed cyclonic conditions. Probably one hundred persons were killed, while many were injured, and property loss was great, especially in the Gulf and South Atlantic States. From Minnesota both Duluth and Minneapolis report a severe storm with wind, sleet and snow. Wisconsin and Montana, Dakota and even Colorado suffered with extremely high winds and cold weather. From the latter state a temperature of four below is reported. Chicago reports a damage of \$1,000,000 throughout Illinois. While the force of the storm was greatest throughout the United States, points in the Canadian prairies were also visited.

THE METHODIST COLLEGE.

As a result of the visit of the Rev. Dr. Chown, General Superintendent of Methodist Church of Canada, to Penticton last week, between \$2,500 and \$3,000 was raised there in a short time as a contribution to "Ryerson," the Methodist College to be established in connection with the British Columbia University at Point Grey. After giving a full account of the enthusiastic meeting in the Penticton Methodist Church and Dr. Chown's address on "The Educational Policy of the Methodist Church in British Columbia," the Penticton Herald says:

"Stimulated by the appeal of Dr. Chown, the pastor made a campaign of the congregation on Monday and Tuesday for Ryerson College. In spite of the fact that this congregation has raised over twelve thousand dollars in three years, the pastor found enthusiasm on every hand. In forty-eight hours two thousand five hundred were raised for Ryerson College, and the amount will very probably run up to three thousand dollars."

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED, RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—80 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MARCH 21, 1913.

THE GLORIOUS DAY.

EASTER is the Emancipation anniversary of the Christian world—the one day of all the year, next to the advent that is the most glorious and worthy of signal remembrance. It brings with it a new inspiration of faith in God and of perfect assurance in His love for the children of men.

Every swelling bud and sprouting leaf reminds us that the life which conquers death in nature's realm has its parallel in the Resurrection—that great central fact of Christianity—in which we have the assurance of our own spiritual revivification. Christ in us becomes the vitalizing force which lifts us from the darkness of sin and death into light and life everlasting.

This old world of ours needs more Easter cheer. It needs to realize that the risen Christ and the empty tomb have, for the whole race, a grander and higher significance than any other event since time began. It needs to feel that the defeat of King Death and the triumph of King Jesus over the grave, have thrown open the gates of life and happiness to all who will enter therein. It needs to grasp the imperishable truth that, when the Son of God burst the bars of death and the grave, He revealed the way of life eternal to all who accept Him and follow in His footsteps. His resurrection was the divine pledge of our own, and the soul that rests upon Him has already risen from the deadness of sin and began the life everlasting. For such, the grave is not an abiding place, but the vestibule of the greater and nobler life beyond.

Therefore, at this joyous Easter time, when all nature is rejoicing, let our own hearts join in the songs of praise and gladness. Around us we see the woods adorning themselves with the living green and the air is resonant with the song of birds. Over all the earth, wherever the name of Jesus is known, it is the glad emancipation time:

'Tis the festival of all creation.

Christ hath risen, who gave creation birth.

HONOR, OR THE BURGLAR'S KIT.

(Winnipeg Telegram).

VICE-PRESIDENT THOMAS R. MARSHALL has been somewhat overlooked in the newspaper accounts of the change of governments at Washington. Nevertheless, Mr. Marshall, whose clear-cut public utterances won him marked recognition in the recent national campaign in the United States, is again commanding attention because of the virility of his initial address to the United States Senate, over which, by virtue of his office, he will preside during the Wilson regime.

Mr. Marshall touched a variety of subjects and treated them in a manner suggesting genuine statesmanship. But of particular interest to the British world at this immediate time is his treatment of the matter of international relations. And this is what he said:

"When we enter the chancelleries of the world and submit to their judgments not only our right to be but our right to be respected we can hope to be measured in but one way; and we must be able to show that the solemn treaty obligations of this Republic will be kept with the same scrupulous honesty, both of spirit and letter, whether made with the humblest people of this continent struggling for self-government or with the mightiest monarch of the old world. This high sense of honor constitutes the panoply of the American people. Armies and battleships furnish no substitute for it. These are valuable, but the people never intended that authority should use them as accessories to a burglar's kit.

"If any one in the name of the American people, either in violation of treaty obligations or the manifest purpose of the Monroe doctrine, has taken aught while this body was deliberating, it is your duty to ascertain all facts thereto. And if wrong or injustice has been done, even to the humblest republic, let this people be brave enough and sufficiently honest to make reparation. The real greatness of this republic rests upon its unsullied honor."

It is easy to discern in this declaration the attitude of Vice-President Marshall with reference to the Panama Canal Treaty and the deliberate attempt of the late congress to read into that instrument an intent altogether foreign to either language or understanding as agreed upon by the representatives of the United States and Great Britain when the Hay-Pauncefote agreement was framed and signed and ratified.

Mr. Marshall sweeps pretense aside and strips the issue of all extraneous considerations. The plain question, as he puts it, is whether a treaty obligation is something to be kept inviolate or whether a burglar's use of his weapons is to be made use of by the United States. It is unthinkable that the American people will not endorse the position taken by Mr. Marshall, who may be presumed to speak as reflecting the position of President Wilson.

King of Greece Assassinated

Brother of Queen-Mother Alexandra the Victim.

King George of Greece was assassinated at Salonika on Tuesday afternoon, according to press dispatches.

He was the son of the late King Christian of Denmark, and therefore a brother of Dowager Queen Alexandra of Great Britain. He became King of Greece in 1893. The heir to the throne is the Crown Prince Constantine, who commanded the Greek armies during the war with Turkey.

Naramata Notes.

Mr. Ally Noyse has returned to Naramata.

Mrs. Aikins is, with her son, Carrol, at his fruit ranch, Reka-dome.

We are very glad to know of the return of Mrs. Lewis Block from Summerland, after an illness of some weeks.

There is considerable planning for a golf course for Naramata. The probable location of which will be above Mr. Hancock's residence.

Mrs. Birch and two small daughters of Kelowna, came last Friday night to spend a few days with Mrs. Jas. A. Hayward, Mrs. Birch's mother.

We are very sorry to hear that one of our oldest residents, Mr. King, is moving his family to Penticton the last of this month.

Rev. G. O. Fallis left on Tuesday morning for a business trip in Winnipeg, expecting to be absent from services here for the next two Sundays.

Mr. Douglas and family are now residing in Mr. Bartlett's house, though he expects to move to one of the construction camps in about a month.

The scow belonging to the Okanagan Lake Boat Co. was damaged in the high winds on Monday and sank, consigning a large quantity of "pop" to the lake.

We are not having the scheduled "Sunny Okanagan" weather to make welcome the various visitors and incidentally gladden the hearts "of the rest of us."

Mr. Mulford's little daughter, Bertie, has had another illness which necessitated the calling of Mrs. T. I. Williams. A case of la grippe, and the little girl is now better.

'Twas a chilly reception Mr. Pushman senr., received when he fell in the lake last week in endeavoring to board the ferry. Luckily there were no serious results.

The Shamrock Party of March 17th completed the dancing series given by Mr. and Mrs. Dean Walters. Though there were fewer present all report an exceedingly good time.

The play given by Penticton talent for the benefit of the Naramata Ladies' Aid is the Breach of Promise suit—taken from Dickens' "Pickwick Papers." It's bound to be an enjoyable evening.

Mr. Hughes and son of Ottawa arrived last Friday night. Mr. Hughes is a brother-in-law to the Roe families, and expects to reside here later. He will take up work in the carbonating works.

One more Whist Drive will be given in the Unity Club building for a club benefit. Preparations are being made for a larger crowd than usual. The hostesses for the evening are the young lady members of the club. The date set is March 24th.

Death of Rev. C. W. Whyte.

Peachland lost a highly-respected citizen when Rev. C. W. Whyte, late Pastor of Peachland Presbyterian Church, passed away on Wednesday, March 12th. Mr. Whyte had been in poor health during the winter. His many friends thought that his illness was not of a serious nature. It was a great shock to the community when it was learned that he was suddenly stricken with paralysis. Little hope was held out from that time; and when the end came it was not as a surprise.

Mr. Whyte was well known in the valley. He came to British Columbia twelve years ago, and in the early days supplied both Penticton and Peachland. He built the Presbyterian Church in Peachland, and was pastor until a short time ago.

Previous to coming to British Columbia Mr. Whyte spent ten years in Manitoba in church work. Mr. Whyte was a graduate of McGill University. His only home was near Ottawa City, where his father—also a Presbyterian minister—was pastor of Osgoode Church.

Mrs. Whyte and family have the sympathy of the whole community. Mr. Whyte's funeral was conducted by Rev. C. H. Daly of Summerland, who made the occasion very impressive. The service was conducted in the Presbyterian Church, and was largely attended.

Peachland Notes.

Benjamin Gummow of Westbank spent the week-end at his home here.

Mr. Lang returned from a business trip to Revelstoke on Friday evening.

All lovers of the patron saint of Ireland were decked in the usual colors on Monday.

A game of base-ball will be played on Good Friday between a town team and a hill team.

Mr. Wingate is enjoying a visit from his sister, Miss Daisy Wingate, who arrived from Edinburgh, Scotland, on Wednesday evening.

D. McMillan of Kelowna, and H. Lang and family of Vernon came in on Thursday evening to attend the funeral of Rev. C. W. Whyte.

L. D. McColl, with a small gang of helpers has had a busy time raising the government pile-driver scow from the bottom of the lake at the wharf.

Kenneth McLennan came in from Edmonton on Monday night. We understand that he intends taking Mrs. McLennan and Jean back with him on his return.

Rev. Mr. Davidson of Kelowna preached the missionary sermon here on Sunday in the Methodist Church. Rev. Mr. Henderson went to Kelowna in his place.

The sudden dip in temperature on Monday night cooled the ardor of the farmer as well as the early vegetables which some of our enterprising fruit growers have already in the ground.

Notwithstanding the serious character which the illness of Rev. C. W. Whyte had assumed, the news that he had passed away came as a shock to his many friends here on Wednesday evening. He took sick shortly after Christmas, but no fears were entertained of his recovery until the last few weeks, when he suffered a paralytic stroke. Particularly sad is it for his young wife who came here a bride only a few weeks ago. Only two of the boys, Bryson and Farrel, were with their father at the last, Gordon being at school in Montreal. Every household was represented in the funeral on Friday, which was one of the largest ever seen here, and was conducted by Rev. C. H. Daly of Summerland. The pulpit and organ of the church were draped in black. The pall bearers were: Messrs. R. J. Hogg, Hamilton Lang, Thos Powell, Wm. Urquhart, A. D. Ferguson and Grant Lang. It is needless to enlarge on what Mr. Whyte's death means to Peachland. All feel that they have sustained a very serious loss. Always honorable and upright in character, his fearlessness in denouncing wrong might sometimes have caused hard feelings against him, but all that is forgotten now. If the sympathy of a whole community can in a small way help to alleviate sorrow, the bereaved wife and boys may be assured of that of all the valley.

EASTER SERVICES.

There will be special services in all the churches on Easter Sunday. The Easter services in St. Stephen's Church will be a celebration of the Holy Communion at 8, Matins at 10.30, a choral celebration and sermon at 11, and evensong at 7. The services on Good Friday will be Matins and Litany at 11, devotions on "The Seven Words from the Cross" at 12, and evensong at 7.30.

In the Baptist services the Easter thought will prevail in sermon and song. There will be some special music in the evening, including an Easter anthem.

The services in the Methodist Church next Sunday will be appropriate to the Easter season. The evening service will include solos, anthems and choruses.

On Sunday next St. Andrew's Presbyterian Church will celebrate their anniversary. The services, both morning and evening, will be conducted by Rev. E. D. MacLaren, D.D., of Vancouver. Dr. MacLaren was for some years pastor of the largest church west of Winnipeg. This he gave up to take the position of Secretary of the Home Mission work in Canada; from which he had to resign, the strain being too heavy. Dr. MacLaren is a brother of G. W. MacLaren of our town.

There will be appropriate music at both services. On Monday evening the congregation will meet socially in the church. Special music has been prepared. An address will be given by Dr. MacLaren, after which refreshments will be served.

NEW BOAT READY.

The Okanagan Lake Boat Co.'s new passenger boat has been placed in commission and will make her initial trip to-morrow as she has been chartered by the Penticton Football team to Kelowna.

On Sunday the Skookum will make a special trip between Naramata and Summerland in time for church services at the latter place. Those desirous of availing themselves of this opportunity to attend Easter services in Summerland will remember that the boat will leave Naramata at 9.30 a.m. on Sunday. That the new power boat will be a very popular addition to the company's fleet is evidenced by the advance demand for her services.

"The Players," the talented aggregation of Summerland artists, have made arrangements with Mr. P. S. Roe for a special trip to Kelowna where they play on Monday, March 31st.

"Mikado" Matinee on Thursday, the 27th, at 2.30 p.m.

VITALLY important in buying a car is service—a feature sought by many but obtained by few. Consider, then, that which goes with every McLaughlin car. Through its depots, located all over the country, over \$100,000 worth of parts are carried for the purpose of giving quick, adequate and economical service to the McLaughlin motorist. You may never need this service it is true. All the same it's mighty comforting to know that it is ready when and where you want it. No other company in Canada has anything like the same amount invested for this purpose. This is what we mean by McLaughlin service. It is all embracing, speedy, convenient. It covers the country.

Crude Thoughts From the Editorial Pen.

THE HIGH TIDE OF EASTER.

Shadow and sunlight, ebb and flood, mourning and rejoicing are not more opposite than the subdued and sorrowful mood befitting Lent, and the triumphant gladness of Easter. As Good Friday in the solemn passing, recalls to us the day when the darkness of the cross made the sun ashamed to shine, so Easter Sunday, with a supreme radiance, indicates the hour that is the coronation of humanity. Jew and Roman combined in the crucifixion of Him who came to save, but they could have had no power against Him had He not willingly offered himself to atone for the sins of the world. "I am the good shepherd," He said. "I lay down my life for the sheep. I have power to lay it down and I have power to take it up again." No mere man could have made that assertion.

Well might the sun in darkness hide
And shut His glories in,
When God, the mighty maker, died
For man, the creature's sin.

Christ died and we must die. There is an hour in the unseen future known to God but unknown to us, when our friends and kindred will say of us, one by one, "He is gone." "She is not here." But Christ arose again from the dead, and so shall we. We shall live again. Not in this poor world of change and loss, but in a far more beautiful one into which death cannot enter.

Because Christ lives, we shall live. This is the joy of Easter, and this is why Lent is over and winter is past and spring has returned, Christian life reaches its highest water mark on the shores of time in an exultant alleluia that reverberates around the globe.

GERMS OF HAPPINESS.

"Our Two great Bugbears, Fear and Worry," is the title of Ralph Waldo Trine's article in Harper's Bazar for March. Among other things he says:

"The way we approach the daily problems of life will in practically every case determine their outcome. We will then inoculate our minds with the germs of happiness; it is just as easy as to have them inoculated with the germs of fear or worry or discontent—and the results are always better. Why then will we think of those things that are unpleasant? As it will do us no good in any way, why then cripple our thoughts and thereby our energies when by it there is nothing to be gained, but, on the contrary, everything to be lost?"

"Some one has said: 'The first step toward happiness is to determine to be happy.' To get up each morning determined to be happy, to take anew this attitude of mind whenever the dark or doleful thought presents itself, is to set our own conditions to the events of each day. It is thus that we condition circumstances instead of allowing ourselves to be conditioned by them.

"Wise is he who determines early to do away with the companionship of these two great filchers of the best there is in life. To determine resolutely to bid good-bye to fear and worry, opening all doors and windows to hope and faith and courage, and then coupling rightly directed effort with this, will work a complete revolution in any life. To take the attitude of cheerfulness, looking always on the bright side of things, determined to hold oneself in an optimistic, never down-in-the-mouth, but courage-always-up attitude of mind and heart, is to set into operation those silent, subtle forces that will be working continually along the lines we are going." "It is not, therefore, What are the conditions in any life?—but how one meets the conditions that are found there, that determines one's real stamina and worth, and that determines one's real success or failure."

MARVELOUS GROWTH.

C.P.R. Passenger Traffic Indicates Rapid Development of Canada.

Last year the C.P.R. set up a new passenger traffic record, the number of people buying tickets being just something over the 13,000,000 mark. Dead-heads were extra.

The railway hopes in 1913 to eclipse this figure.

The big line carried 13,593,569 passengers last year, or a trifle over 10,000,000 more than it did in 1899. The comparisons with the intervening years are interesting, and are as follows:

Year ending	June 30.
1899	3,483,843
1900	4,081,322
1901	4,245,417
1902	4,755,884
1903	5,480,306
1904	6,156,138
1905	6,800,487
1906	7,665,481
1907	8,671,438
1908	9,384,811
1909	9,675,075
1910	11,050,014
1911	11,028,043
1912	13,593,569

If men are the salt of the earth, women are undoubtedly the sugar. Salt is necessary—sugar is a luxury. Vicious men are salt-peter; stern men are rock salt; nice men are table salt. Old maids are brown sugar; good-natured matrons are loaf sugar, and pretty girls are pulverized sugar. Please pass the pulverized sugar.

ANOTHER CURE.

Ottawa, Ont., March 13.—Announcement made by Dr. Richer at last night's meeting of the Canadian Association for the Prevention of Tuberculosis that he was in touch with a scientist whose claims to the discovery of a serum for that disease, which were much greater than those of Dr. Friedmann, the German medical man now in this city, has caused much comment.

Much of the work of determining the efficiency of this new serum will be done at the Biological Laboratory of the experimental farm with the co-operation of Dr. C. H. Higgin, the government biologist. Dr. Richer states that he would remain in Ottawa for a week or so, and would initiate experiments at the biological laboratory with the new serum, a quantity of which has been placed in his hands by his anonymous friend.

There is every facility at the laboratory for such work.

CONTRACTS LET FOR KOOTENAY CENTRAL.

All Work is to be Completed by Fall of Next Year.

Winnipeg, March 14.—Contracts were let by the Canadian Pacific Railway to-day for the completion of the Kootenay Central Railway from Fort Steele to Golden, B.C., west of the Big Hill, near Field. The contracts total \$3,330,000, and the contractors are Burns and Jordan, 80 miles, and Bonnar and Hughes of Spokane, 20 miles.

The work is to be finished by the fall of next year, and it will complete the Canadian Pacific's new short line from the prairies to the Pacific coast.

As fresh as summer roses in early dew.

Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or phone, and a messenger will call.

LETTER TO THE EDITOR.

Summerland, B.C.,
19th March, 1913.

The Editor, Summerland Review.

Dear Sir,
Your reference to my protest at the last Council meeting would lead one to infer that I was finding fault with Mr. Nixon.

No doubt I expressed myself badly on that occasion, and, if you will kindly give this letter space, would now like to correct that impression.

Mr. Nixon, when declaring that he must issue summons unless fee were paid, used the words "These are my instructions."

Now, Mr. Editor, I have no quarrel with the official who is carrying out his instructions. Quite the contrary, notwithstanding the fact that in this case the official in question made it clear that his personal opinions and sentiments coincided with his instructions. I have, however, very seriously to protest against that form of justice which would first hang a man, and then inquire into the case to see if he were guilty.

In such cases there is, as a rule, only one verdict, and the reason is clear.

All lovers of British justice must ever protest against such high-handed methods, more especially, as in the present instance, where such methods were unnecessary.

Yours truly,
Kenneth S. Hogg.

Assignee's Sale

Stock of GROCERIES and PROVISIONS and FIXTURES

SEALED TENDERS will be received by the undersigned up to April 5th 1913, for the purchase at a rate on the dollar of the stock-in-trade, stores, fixtures, etc., of the estate of Thos. E. Moore, West Summerland, B.C.

W. C. KELLEY,
West Summerland, B.C.,
Solicitor for the Assignee.

Competition In Fruit.

(From the viewpoint of an Easterner).

British Columbia apple growers are not satisfied with the treatment they receive on their home market. In their opinion the only way to remedy the evil is to obtain a higher duty on apples coming into the West from the United States.

A director (Mr. W. S. Foggo), of the British Columbia Fruit Growers' Association, has recently waited on the Agricultural Committee of the House of Commons and requested that the duty on American apples be increased from 13 to 25 cents a box, and that the Fruit Marks' Act be enforced against them as vigorously and effectively as it is enforced against the Canadian apples.

The agitation has brought forward several opinions on the subject, from different view points. British Columbia is fighting hard for the apple trade of the prairie provinces, but she has to overcome the footing American fruit has got there, and also the fact that the product from across the line can be put on the market earlier than that from British Columbia.

Conflicting views are put forward by dealers in Saskatchewan, F. R. MacMillan claiming the Washington apples were not as good last year as the British Columbia fruit, and C. T. Woodsde, who handles only Washington apples says that they are away ahead of the British Columbia product.

The western provinces have been and are still a dumping ground for American "second grade" apples, that is second grade according to the Canadian Fruit Marks' Act.

The Minister of Agriculture (Hon. Martin Burrell), was able to instance cases, which had come under his personal notice, of this dumping into the Canadian West, and stated to Mr. Foggo that when the Fruit Marks' Act was passed, there was no American competition, and the object of the Act was to insure a right grading amongst our own packers.

British Columbia is rapidly rising as an apple-producing province and will soon be marketing all the apples that can be consumed in the prairie provinces.

Manager Burton, of the J. F. Cairns Co., Saskatoon, gave it as his opinion that American apples with a 25 cent duty would go up 20 cents a box. Should the duty be put on, it would mean the consumer in the West would have to pay for any increases made in the tariff. —Family Herald and Weekly Star.

SIR CHARLES TUPPER LEAVES CANADA.

Will Live With Daughter in England.

One of the Fathers of Canadian Federation.

Vancouver, B.C., March 18.—Sir Charles Tupper, Bart., now in his 92nd year, who has been living here for the last year, has decided to return to England, having completely retrieved his health. He will sail on May 2 on the Empress of Ireland, and will reside with his daughter at The Mount, Bexley Heath, England. Since coming to Vancouver Sir Charles' health has been improving, although it was not so very bad when he came here. This winter makes his second sea voyage within the year. Sir Charles is the only surviving member of the first Macdonald ministry, and one of the fathers of the Canadian federation.

DOMINION CANNERS' PROFITS.

The financial statement of the Dominion Canners, presented at the annual meeting, held at the head office in Hamilton, on March 5th, showed even better profits than was generally expected. The first dividend on the common stock was paid in January as a bonus. After providing for bond interest, profits of \$503,409 were shown, after paying preferred and common dividends and a credit of \$50,000 to Insurance Reserve, \$172,508 was added to profit and loss account. The earnings were equal to nearly 16½ per cent. on the common stock. The old board was re-elected, but the executive is slightly altered. Mr. F. R. Lalor, M.P., is president; Mr. H. W. Richardson, first vice-president; Mr. J. J. Nairn, second vice-president; R. L. Innis, secretary-treasurer; and W. R. Dryman, assistant secretary-treasurer for the current year.—Canadian Courier.

Concrete is the best building material

A BROAD statement—Yet literally true. The aim of man from the beginning has been to make his building materials as nearly like natural stone as possible. The great labor required to quarry stone led him to seek various manufactured substitutes. The only reason he ever used wood was that it was easiest to get and most convenient to use. Wood is no longer easy to get. Like most building material, its cost is increasing at an alarming rate. The cost of concrete is decreasing. So, from the standpoint of either service or economy, Concrete is the best building material. Canada's farmers are using more concrete, in proportion to their numbers, than the farmers of any other country. Why? Because they are being supplied with

Canada Cement —

a cement of the highest possible quality, which insures the success of their concrete work. The secret of concrete's popularity in Canada lies in the fact that while we have been advertising the use of concrete, we have also been producing, by scientific methods, a cement so uniformly high in quality that the concrete made with it given the complete satisfaction our advertisements promised. Concrete would not have been in such universal use today, had an inferior grade of cement been supplied. Insist upon getting Canada Cement. It is your best assurance of thoroughly satisfactory results from your concrete work. There is a Canada Cement dealer in your neighborhood.

Without this label it is not "Canada" Cement.

Write for our Free 160-page book "What The Farmer Can Do With Concrete" —No farmer can afford to be without a copy.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Notes on Sporting Events.

The Town and College basket-ball teams played the seventh game of the series on Friday night, 14th inst., in the College gymnasium, the College winning decisively by the score of 26-17. The Town team keenly felt the absence of Baker, who is easily the best man playing the game in this section of country. The first half was rather slow, the Town team having the best of the game by a comfortable margin. At half time the scene was changed. The College team woke up, and the Town team blew up. The Town forwards, usually dangerous, played like novices. At centre, Cliff got weary, and "Weary" got Cliff. Fitten at left guard, considering that he was playing his second match game, and had not touched the ball for weeks, did well, but in the second half let that speedy forward Nicholson run wild, and Nick scored 16 of the 26 points secured by his team. The only exception to the general demoralization of the Town team was at right guard, where Glenn played a whale of a game right up to the final toot of the whistle. Glenn has developed into a great guard. Brilliant combination, accurate passing, close checking, and deadly shooting won the game for the College in the second half. The conspicuous feature of the first half was the shooting of Ralph Brown from the penalty line. Ralph made a perfect record—a very unusual event in basket-ball. The outstanding features of the second half were the spectacular play of Nicholson, and the long shots of Alex. McDougall. It reminded the old timers of another distinguished member of Clan McDougall. All the other College players, Hayward, Wolverton and Morlock took an effective part in every play, the latter player showing good generalship in passing the ball to Nick and Mac who were running away from their checks. The largest audience of the season were interested spectators of the game. The Bean-eaters put it over the Hill-climbers in easy fashion—score, 14-7. Each team has won three games. What may be the final games of the season will be played in the Town gymnasium on Thursday night. The juniors will go at 7.30, and the seniors at 8.15.

The College baseball enthusiasts have put the diamond in good shape in expectation of the game with Peachland on Easter Monday.

It is regrettable that the challenge to the College from the Penticton Rugby team could not be accepted. Finishing up the basket-ball season, arranging for baseball, and getting ready for the athletic concert make a program so full that nothing more can possibly be added.

The College Athletic Association and Literary Society will combine to put on one of the greatest concerts ever given in Summerland on the evening of Friday, April 4th. Physical Director McLeod promises that the gymnastic program will not tarnish the splendid record made in the last two concerts, and the Literary Society will see to it that the Literary and musical features of the entertainment will be first class.

AN EXCEPTIONAL OFFER.

Fruit Growers To Organize

With One Accord Decide To Form Local Company.

To Co-operate With Other Like Organizations In Operating a Central Selling Agency. Adopt Committee's Recommendations In Full.

There was a good attendance at the meeting called by the Farmers' Institute on Thursday night of this week to receive the report of the committee with reference to organizing a local marketing association. The following recommendation was received:

The Fruit Market Committee appointed at a Public meeting held in the Men's Club rooms, Summerland, beg leave to report as follows:

1. That we proceed to form a local company, under the "Agricultural Fairs Act," and that steps be taken at once to have a general canvass made.

2. That this Association be started as an independent Fruit Marketing Company, under the "Agricultural Fairs Act."

3. Shares to be \$50 per share, and one share for every five acres or fraction thereof in fruit and vegetables, to be taken by each fruit grower, whose fruit or vegetables are handled by the company.

4. That we consider it necessary that at least 300 shares be sold to start on a satisfactory basis, but deem it advisable to obtain, if possible, 400 shares before starting to do business.

5. That the first call on the shares be 10 per cent., payable in thirty days and 10 per cent. payable in 60 days.

6. That we are in favor of the Okanagan Valley combining and selling their fruit and vegetables through a Central Distributing Agency.

Signed on behalf of the Committee,

G. J. C. White, Chairman.
J. L. Logie, Secretary.

Each clause was explained in detail by the chairman of the committee, and upon motion the recommendation was considered clause by clause. Clause one naturally brought forth most of the discussion in which many took part. The question evidently had been given much time and study by Chairman White, who made a most able appeal for a local organization to comprise all Summerland. It was learned during the evening that Penticton is organizing on similar lines, and invitations have been sent out to the various centres asking fruit growers to meet in that town to discuss the organizing of a central agency. Vernon, too, is organizing, and asked that representatives from Summerland be present.

WILL STRIKE ON TUESDAY.

The men on the railway construction work on the east side of the lake have determined to strike next Tuesday, April 1st. For some time rumors of a proposed strike have been current and agitators have from time to time been expelled from the camps. The gathering place has been opened at Naramata, and that town will be fortunate if it escapes serious disturbances. Just how far the I.W.W. is responsible has not been learned, the men are, however, demanding a nine-hour day instead of ten, and \$3 per day instead of \$2.75, also that bath houses be established in every camp.

MORE FINES.

Last week Fred Brind was fined \$6 and costs for allowing three of his horses at large on the highways, while a fine of \$2 and costs was imposed against James Dunsdon for a similar offence with one horse. A charge against James Gaffney, now an absentee, but who is said to own a horse found on the roads here, was remanded for a week. W. C. Kelley represented Mr. Gaffney. The cases were tried before Magistrate English and at times the proceedings were very interesting. Vigorous protests were made, and it is not improbable that these will be carried to the Council.

SPokane TO HAVE APPLE DAY.

A novel method of encouraging the use of apples as an article of diet is being tried in Spokane. Saturday, April 6, has been set apart as Apple Day, the idea being that on that day everyone who can afford to do so, and who has use for them, should buy at least a box of apples.

The primary object is to encourage the use of the apples with the object of benefiting the producer through increased consumption. But it is also pointed out and urged that the apple is one of the most healthful fruits known. For this reason alone apples might well occupy a more prominent place as an article of diet.

The idea for an Apple Day is being generally taken up. The mayor has strongly endorsed it, and the press is giving it a full measure of support.

The success of Spokane's Apple Day will be looked forward to with interest by those interested in fruit growing in British Columbia, as well as south of the international boundary.

The secretary of the Farmers' Institute wishes that those members who wish to enter the crop competition notify him not later than April 21st. Each entry must be accompanied by a fee of \$1, and at least ten entries must be received or there will be no competition.

Fatality at Naramata

Railway-man Meets Instant Death, Others Injured.

A fatal accident occurred a few days ago at Four Mile Creek, between Naramata and Penticton, resulting in the instant death of E. Lundberg, a Swede, until recently a foreman in Carlson & Co.'s camp 17 on the Summerland section. Lundberg, with a gang of men, was blasting a rock, and several charges had been put in and fired, but apparently one of the shots missed. Upon resuming work next morning Lundberg discovered this, and told his men not to go near the hole as he himself would bull-doze it. A few minutes later he was seen stooping over the spot scraping off some loose clay. Shortly after that there was an explosion with a large cloud of dust and rock flying in the air. When this cleared the men went to look for Lundberg. To their horror, they found him about sixty yards away in an unrecognizable state. His head completely blown off, chest shattered to pieces and bones broken. His right hand could not be found. From the conditions it would seem that his body was blown one hundred feet in the air and he must have been immediately over the hole when the shot went off. Four other men were more or less injured.

Lundberg was with Carlson & Co. until the latter part of February, working as foreman in Camp 17. He was reputed a very sober, respectable and industrious man. It would appear from information received that he has friends or relatives in Spokane. He is supposed to have been a member of the Oddfellows.

Strange to say a watch which Lundberg was wearing was still going when the body was found. Apparently the only damage to it was the breaking of the crystal.

A TRIAL TRIP.

Last Saturday afternoon the Okanagan Lake Boat Company entertained a number of Summerland and Naramata citizens by a special trip on the new boat the "Skookum," making a round trip from Summerland to Penticton, via Naramata. The passengers were delighted with the speed developed and the easy running of the boat, and also her comfortable cabins. The run across the lake was made in thirteen minutes, and better time is promised when the proper fuel is used, and the machinery gets in good working order. Heretofore the trip has taken from twenty minutes to half an hour. Between Naramata and Penticton forty minutes was consumed, as against one hour at the best with the Maude Moore.

The "Skookum" is now doing regular service, although there are yet a few finishing touches to be added, such as cushions, curtains, carpets, etc. Both cabins are electrically lighted and equipped with a lavatory. The machinery is so arranged that all is under the control of the steersman, and she can be rapidly and readily handled. The company are to be congratulated in their enterprise in thus meeting the needs of the rapidly-developing business of the south Okanagan.

CHURCH ANNIVERSARY.

The members of St. Andrew's Church have been celebrating the anniversary of the opening of the church. The celebration included a sale on Saturday afternoon and evening, special services on Sunday, and a social on Monday evening. The financial results were quite satisfactory. Rev. Dr. McLaren preached at both services on Sunday, and gave an address at Monday evening's social.

The attendances on Sunday were good, and the choir showed the result of excellent training. Dr. McLaren, in his sermons on Sunday, and his lecture on Monday evening, greatly pleased all who were privileged to hear him.

In our advertising columns in this paper the Kettle Valley Railway are publishing notices of application for water license on Deer Creek and Canon Creek.

To Beautify Summerland.

Women's Institute Determined to Transform Park, Shore, Streets and Roads.

We are going to have a cleaner, neater and more attractive town and municipality. The ladies have so declared and so it will be.

The members of the Women's Institute entertained the members of the Farmers' Institute at supper last Tuesday evening and took advantage of the opportunity to impress upon the men the need of immediate action.

Mrs. G. J. C. White, president of the Women's Institute, opened the discussion with a few general remarks pointing out some much needed improvements, including school gardens, clearing and beautifying the park and lake shore, cleaning the roadside of weeds, etc., and urging that each member of the Women's Institute aid in starting the good work by beautifying their home grounds and street fronts.

J. L. Hilborn followed with a speech of the after dinner nature, with the wit and humor, induced by the satisfying of the inner man. Much of this emphasized the power of woman to accomplish what she might undertake. Speaking more seriously, Mr. Hilborn pointed out the unsightly features that would be most prominent to a stranger, but might soon be passed unnoticed by a resident. Summerland had been widely advertised and people were looking this way. She should now make good, and to present a good front making the first impressions favorable was essential. He had had a long experience in fruit growing, but nowhere had he seen such marvellous growth of healthy, vigorous, sturdy fruit trees as he sees in Summerland. This was particularly true of plums, prunes, apricots and apples. The trees bear early and are capable of bearing a heavy crop. The speaker said he had looked over the country thoroughly before deciding where to settle; had visited the various valley centres a number of times, and finally concluded Summerland was the best spot in the Okanagan. But something should be done along the lines now suggested by the ladies. Strangers are disappointed upon arrival. Then, too, the speaker said many orchards were not getting the proper attention. Some were pruned far too much while there was not enough work put on others. Mr. Hilborn again took the opportunity to urge greater use of the soil between the trees. Growers of early vegetables in Ontario were making money by shipping to the prairies with an express rate one dollar higher than ours. The speaker also discouraged a movement to form a separate Institute at West Summerland, and favored a united Summerland in everything.

J. L. Logie, the next speaker, reminded those present that the Council had a landscape architect's plans for the park and lakeshore. Water would be taken to the Cemetery as soon as possible. He thought much could be accomplished if each did a share and urged each to set a good example. The next meeting of the Women's Institute will probably be held at West Summerland, and the question will be further discussed and plans formulated. Before adjourning Mesdames Jas. Ritchie and J. L. Hilborn were appointed a committee to interview the school teachers with reference to school gardens.

A suggestion from Mrs. Orr was received with favor and adopted. This was that the secretary get a list of all institutes in the western provinces, and also such societies as the Daughters of Empire, and circularize them with the request that when ordering fruit that they specify B.C. fruit.

After a vote of thanks from the men the meeting adjourned.

A fine literary and musical program has been prepared for the Gymnastic Concert in the College Gymnasium. Miss Colwell, who is in the front rank of readers and impersonators, will be heard. Solos and duets by such musical favorites as Misses Ethel and Evelyn Brown, Anna Hayes, and Messrs. A. Bentley, Jas. Smith and Alex. Smith. Violin selections by Miss Dorothy Harrington will also be interesting features of a varied program.

BIG CANNERY ASSURED

Vice-President and Expert of Dominion Canners, Ltd. Delighted With Prospects Here.

Plant To Employ 120 Hands Will Be Recommended. Present Cannery Enlarged For This Season.

Conditions fully warrant the establishment here of a large and up-to-date cannery. The promised visit of the representatives of the Dominion Canners has been made and the visitors have gone away satisfied, having promised to recommend for their directors the establishment here of a cannery to employ at least one hundred and twenty hands.

On Monday evening Vice-President Richardson, of the Dominion Canners, Ltd., and Mr. Dryden, the company's expert canning man, were met at the boat by Mr. Suckling, of the Bank of Montreal, the local representative of the company, and a number of members of the Board of Trade. That evening was spent in Mr. Suckling's apartments with him and Mr. Mellor. On Tuesday the visitors were shown over the district by Messrs. Mellor and Suckling with George Gartrell in his auto, and thus got an idea of the extent of territory that would be tributary to a cannery; visited a number of orchards and generally busied themselves gathering as much information as possible. At the Balcom ranch and other places samples of locally canned tomatoes and fruit were examined and the gentlemen were not backward in pronouncing themselves as surprised at the superior quality shown, especially of tomatoes.

After having looked over the district President Mellor was assured that the Dominion Canners would be recommended to erect a large and substantial plant here and this will probably be built of cement. It will be disappointing, however, to learn that the visiting gentlemen said that it would be impossible to have such a plant ready for this season. Upon receiving this information the gentlemen were asked to take over the cannery on the wharf and enlarge it as far as possible so that this season's crop could be taken care of. After a second visit to that plant the Board of Trade was given to understand that this would be done provided the cannery can be leased and that one hundred feet would be added to the building and further machinery installed.

Judging from remarks made from time to time it would seem that tomatoes are what the Association are most desirous of getting here. For a number of years the eastern pack of tomatoes has not been sufficient and large importations have been necessary. Frequently the tomato crops are more or less of a failure and the season shortened by inclement weather. The representatives were not long in satisfying themselves that a full crop can be relied on here and thus their shortage can be made up. The eastern fruit growers got ahead of the cannery last season, with the result that the Association is now over stocked with peaches. That line too had been short, and early last season, believing there would be another short crop the cannery contracted with all the growers they could for their peaches at 3 1/2 cents per lb. The eastern crop was an unusually heavy one, with a result that the cannery have thousands of cars of peaches yet unsold and this season will offer but 1 1/2 cents per lb. When told that that price would not be satisfactory here the representatives said that probably a higher price could be paid in this part of the country. They were given to understand that nothing less than 2 cents per lb. would be acceptable to the growers.

The Board of Trade have been given to understand that immediately upon their arrival in the east Messrs. Richardson and Dryden will recommend the running of the small cannery this season, and that a man be sent out at once to make the necessary preparations, and that in the meantime a large concrete building be erected as a permanent cannery.

Evidently negotiations with the Kelowna and Penticton cannery people have been revived as the visitors proceeded from here to Penticton, accompanied by Mr. Suckling; to inspect the property there, and on Wednesday they spent the day in Kelowna inspecting the cannery in that town. It seems, therefore, quite probable that the Dominion Cannery will establish themselves in this valley on a large scale.

LOCALS.

The Women's Institute are planning for a flower show in August.

Mr. and Mrs. J. J. Mitchell, accompanied by some friends, motored to Kaledon on Tuesday.

H. G. Strachan of Montreal, who has been spending some time here with friends, left for the east on Thursday morning.

Mrs. R. C. Robinson, who has been for some days at the home of her parents here returned to Naramata Wednesday night.

Mr. Will Robinson, who has been attending College at Toronto, will return shortly and will take charge of the Hotel restaurant.

There will be a joint meeting at Penticton next Friday evening, April 4th, of South Okanagan fruit growers to discuss organization.

Alex. Stewart left for the prairie provinces on Thursday morning. It is understood Mr. Stewart goes to look out a market for his 1913 fruit crop.

Mr. and Mrs. S. T. Bates of Winnipeg registered at Hotel Summerland on Wednesday. Mr. Bates has an orchard property at Naramata.

Mr. Cottrell, recently of Midway Islands, in the Pacific, is the guest of his sister, Mrs. Limmer. He is planning to remain here for some weeks at least.

Miss McLaughlan of Kaledon is visiting here at the home of her sister, Mrs. B. L. Hatfield. She was accompanied by Miss Preston, who returned to Kaledon on Monday.

Mr. Tom Kelly is being welcomed back to Summerland by his many friends, many of whom he surprised when he arrived at Empire Hall on Wednesday evening to attend "The Mikado."

Messrs. Thos. Greenhow and G. M. Gordon of Vancouver are spending a week or two in Summerland. It is said that these gentlemen are interested in property here.

Miss Evelyn Brown, who recently underwent an operation for appendicitis at the Kelowna Hospital, returned home last Friday. Miss Brown is making satisfactory progress toward a complete recovery.

The Okanagan Telephone Company's construction gang have completed work at Penticton, having installed a new system in that town. A few of the men have been transferred to Summerland, and some material improvements in the local system are planned.

The Okanagan Lake Boat Company wish it understood that, weather permitting, they will run free trips next Thursday afternoon between Summerland and Naramata, their object being to demonstrate their new boat to our citizens, who are cordially invited to take a trip across the lake on this occasion.

The many friends of H. B. Taylor, of Vancouver, will learn with regret of his serious illness. However, we are glad to be able to say that he is rapidly recovering normal health. Mr. Taylor has undergone an operation in the hospital for appendicitis and peritonitis. Mrs. Taylor is now here with her mother Mrs. Wm. Stevens.

Job Printing

Did you ever stop to consider that you, Mr. BUSINESS MAN, are judged by the quality and get-up of your stationery? It is a mirror which reflects your character, and by which your business standing in the community is gauged. LET US DO YOUR PRINTING.

*No Job Too Small, Nor Yet
Too Large.*

The best way to impress your customers with your success, and the excellence and the variety of your goods, next to newspaper advertising, is to send them a booklet folder, or mailing card occasionally, setting forth the best selling points of your stock, a booklet prepared and printed attractively and correctly--- a booklet or folder that will inspire confidence in you and in your goods.

'Phone B 39

and our representative will call on you, and he will be delighted to give such advice or suggestions as may be necessary.

Crude Thoughts From the Editorial Pen.

THE KIND OF MAN A WOMAN LIKES.
The kind of man a woman likes has been discussed by Mrs. Bailie Reynolds, of London. She writes in part:

"The question is as preposterous as [the question 'Is Marriage a Failure?'] It is as futile as it would be to enquire, 'Are eggs fresh?' The whole point is that some eggs are fresh and some are not, that some marriages are failures and some are not, that some women like one kind of man and some women another. It takes all sorts to make a world, and this is fortunate. If the same individual were attractive to all members of the other sex, a situation of some difficulty might result.

"So long as we use the expression 'falling in love' so long shall we fail to distinguish between love and a thing very different.

"Most people confuse the two things hopelessly. You will hear them say of some marriage which has ended in disaster, 'And it was quite a love marriage, you know.' They were simply wild about each other. They may have been; but they did not love each other.

"We find ourselves, in this twentieth-century, a nation full of nerves and fads, living for the most part lives compounded of small issues and small worries. Such a life will not stand the strain of marriage without the secret lamp of pure love to light the way—love that never fails—that hopes, believes, endures.

The man who is generally attractive is the man to be shunned by the woman who desires a happy home. Such a man is not and cannot be the friend whose steady and patient tenderness and sympathetic understanding are going to lead her safely across the shoals of 'mid-channel.'

"What a woman wants is the man who is capable of loving, and who loves her individually."

WHY GIRLS AND WOMEN ARE MORBID.

"A certain morbidness among girls and women which rests so heavily on modern life is due to lack of sun, air and sunshine," according to Professor Majon of Nice, the chief speaker at the Physical Education Congress in Paris.

Sun-bathing, air bathing and frequent physical exercise in loose garments are indispensable to good health and good temper in women," declared the lecturer.

In a later part of his address he urged that the high school girls be taught the elements of knowledge fitting themselves for motherhood.

The command to "Remember the Sabbath Day and keep it holy" is immediately followed by "Six days shalt thou labor and do all thy work." The latter is just as imperative as the former, and the Lord has as much disgust for the loafer as for the Sabbath breaker.

To Move 1914 Crop? Teachers Meet at Vernon.

Says K.V.R. To Be Completed In Eighteen Months.

Eighteen months is now authoritatively stated as the time required to complete the K.V.R., and the Trout Creek bridge may be finished by midsummer instead of late fall. These evidently are the dates set for the completion of work, and seemingly every effort is being made to finish on time. From Midway to beyond Carmi, as has already been stated in these columns, the line has been completed, and stations at Rock Creek, West-bridge, Beaverdell and Carmi erected. From Carmi to the summit L. M. Rice & Co. are pushing the work with all speed, and about 80 per cent. of the work is completed, while Grant Smith & Co., who are building the section from the summit to Penticton, have 25 per cent. of their grading done. As is generally known the line from Penticton to Summerland is finished, and from Summerland to Osprey Lake the grading is rapidly nearing completion. The laying of ties and steel on this division depends on the time of completing the Trout Creek bridge. A representative of an eastern bridge building concern recently visited the valley to arrange for material for the false work in connection with the placing of the steel for the Trout Creek bridge.

There is yet some uncertainty as to the route west of Osprey Lake. The V.V. & E., generally known as Hill's line, is pushing west from Princeton, or rather Coalmont beyond Princeton, toward the Coast, and the construction engineer of that line has stated that, as soon as spring opens, his company will continue to build on the old location line without regard to any other competing road. This would indicate that an amicable arrangement for a joint line with the K.V.R. over the Hope mountains has not yet been concluded.

Premier McBride was the principal speaker last Saturday at the anniversary of the University of California.

Of twelve countries exporting grain to England, Canada takes second place in wheat, flour, and wheat meal.

Principal Hunting of the High School and Principal Brown and Miss Lewis of the Central School attended the Teachers' Convention this week at Vernon, where matters pertaining to their work were discussed on Tuesday, Wednesday and Thursday. This is a convention of the teachers of the Okanagan and North Kootenay district, and was founded two years ago. Inspector Denton and the committee in charge arranged an excellent program as follows:

Tuesday—"The use and abuse of the Text Book"; E. H. Murphy, Esq., Provincial Normal School.

Wednesday, A.M.—Literature of the Fourth Reader; "Lady of the Lake"; B. B. Freeman, B.A., Armstrong. Arithmetic—The four single rules, a plea for more drill; D. M. Robinson, B.A., Provincial Normal School.

Wednesday, A.M.—Paper on Primary Work; Miss F. Currie, Kelowna. Methods in the teaching of writing; Miss E. H. Hooley, Revelstoke; Color Work, A Practical Demonstration; W. C. Mitchell, Esq., of Vernon. High School Section—The Botany Course; E. Wilson, B.A., of Armstrong. Reminiscences; J. Barker, B.A., Revelstoke.

Wednesday evening—Address, "India," Rev. A. Dunn, Kelowna.

Thursday, A.M.—Nature Study; W. H. Bretlain, Esq., Plant Pathologist etc., Department of Agriculture.

Needless to say the citizens of Vernon gave the visiting teachers a good time.

The Provincial Department of Agriculture has sent a circular letter to all the boards of trade and similar organizations throughout the province, notifying them that space can be rented in the Vancouver Progress Club's chambers for \$2 per foot. A recently-concluded arrangement between the Provincial Government and the club has made this low price possible. It is expected that many cities will avail themselves of the opportunity to advertise by means of exhibits the agricultural, lumbering and mineral possibilities of the districts in which they are located.

Shiloh 25¢
The family remedy for Coughs and Colds. Shiloh costs so little and does so much!

As fresh as summer roses in early dew. Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or phone, and a messenger will call.

A small boy's composition on hens reads as follows:

Hens is curious animals. They don't have no nose, nor no ears. They swallow their vittels whole, and chew it up in their crops inside 'om. The outside of hens is generally put into pillows and feather dusters. The inside of hens is sometimes filled up with marbles, shirt buttons and such. A hen is very much smaller than a good many other animals but they dig up more tomato plants than anything that haint a hen. Hens is very useful to lay eggs for plum pudding. Shiny Bates ate so much plum pudding once that it set him into the colery. Hens has got wings and can fly when they are started. I cut my Uncle William's hen's neck off and sent her to death. Hens sometimes make very fine spring chickens.

RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MARCH 28, 1913.

SUCCESSFUL CO-OPERATIVE SELLING.

HISTORY repeats. This is common belief. The history of the California citrus fruit industry will and must be repeated in the fruit industry of our northern country if satisfactory results are to be obtained.

Our principal industry is just now in much the same stage of development as was the California industry just prior to the forming there of the now famous California Fruit Exchange, the most successful producers co-operative organization known.

For some time the southern growers did not unite themselves with the association as they should have, but its sound, practical, common-sense methods "won out," and to-day it handles 85 per cent. of the crop. The grower's union has wiped out all speculators' and brokers. It deals directly with the jobber. It has its own salaried salesmen, and sells almost from farm to table, putting the fruit directly in the hands of the man who supplies the retailer; about 30 per cent., however, is sold by the union at public auction.

The United States government has freely protected the home growers against the "dumping" of foreign fruit. Without this the union would not have been the success it is. But with this protection the industry would not have succeeded without the organization. And, by the way, just now those vitally interested are quaking lest the Wilson government remove the protection and put the United States markets in the control of Italy's Fruit Trust. This refers more particularly to the lemon industry.

The striking features of the system of the California Fruit Growers organization, as set forth by an article in the April number of the Sunset Magazine, are:

It eliminates the unnecessary middleman and gives the benefit of that profit in lower prices to the consumer, in higher returns to the producer.

It provides experts to advise on all matters of growth, freight rates, law suits.

It buys all supplies needed by the grower at wholesale. Last year, the Supply Company—an organization of the growers themselves—which bought supplies at wholesale, provided nine million boxes for the growers, using 1800 carloads of lumber, or ninety trains. It also provided 120 cars of tissue paper, and twenty cars, or one train, of nails. Through buying wholesale last year, \$80,000 was saved to the members of the Supply Company. The expense of the central exchange, which markets the fruit, ordinarily runs at from four to seven cents a box, which is assessed against the price the fruit brings on open market.

Details of the citrus growers' co-operative exchange will be of interest just now. There are, first of all, producers organized in local packing-houses. The packing-houses are then grouped in shipping exchanges, the shipping exchanges, in turn, all grouped under the big central fruit exchange, which supplies market quotations from all parts of the world to the sub or shipping exchanges.

Seventeen years ago, the Sunset says, it was a toss-up whether the California orange grower would have to dig his trees up for firewood, whether citrus groves were worth the space occupied. Speculators, who formed a close ring at that time, had hammered prices down to ten cents a box. No local packing-houses existed; no local storage. The grower had to sell quick or see his fruit rot. On top of this came the hard times of the 90's. The growers had to get together or go into bankruptcy. Co-operation sprang only from desperate necessity. Yearly, the price would be artificially depressed by the sudden dumping of foreign fruit on the market. Then, the buyers went out to the orange growers. If one grower plucked up courage and refused to sell at prices that did not pay the cost of picking, he was promptly frightened by a fresh buyer offering still lower prices. What the California grower could not understand was how oranges worth only ten cents a box in the west mysteriously jumped to \$3 and \$5 and \$10 a box in the east. The explanation was so simple as not to be grasped: THE BUYERS WERE UNITED; THE SELLERS WERE NOT. These are exactly our conditions to-day. The buyers were on the spot when the market changed. The sellers were hundreds of miles from the market.

Riverside growers were the first to build a common packing-house with a general manager. Here, fruit was inspected, packed, sold and shipped. Supplies were also bought wholesale. Other districts followed Riverside's example till the most of the citrus sections had their own local packing-houses; but the citrus growers did not stop here. A carload of oranges from one packing-house might arrive, say in Denver, the same day as a carload from another packing-house, and so glut the market, while Omaha might be scarce of oranges; so the local packing-houses federated in sub-marketing exchanges. There are some 115 of those now, handling sixty per cent. of the total citrus crop; but as the industry grew, yet a wider organization was needed—a body to gather information about the markets, to handle daily quotations, to supply export information, legal, technical, scientific. A transportation department was needed; so the big central exchange was amalgamated from the district federations to furnish the facilities for the growers to market their own fruit.

Meantime, all sorts of attempts were made to break down the co-operative league. Good-for-nothing local managers were railroaded into office. One price was bid to one district; a higher price to another district. Jealousies were purposely stirred up among the federated

districts; but the fact that held the exchange together in spite of all plots was that the growers were getting better and better prices.

Every grower who is a member of a district exchange or packing-house, is also indirectly represented in the big central exchange. This exchange keeps on every big market in the country a salaried agent. No commissions and no dividends are paid. Against each box of fruit passing through the exchange is assessed the exact expense of handling; and the entire proceeds (less only cost of handling) are turned back to the grower. The local packing-house union exists solely to pick, pack, and ship; the district union exists solely to handle the local problems for the associations. The central union exists to gather and supply data on the market. Each union is a formal corporate body with a board of directors. In the districts, the growers elect the directors. In the central exchange, the district directors elect the central directors. Each league is a pure democracy—one vote a man independent of his finances; but to ensure stability, strict contracts are drawn up and signed. Any fines will be taken from proceeds to liquidate damages for violation; and this prevents petty withdrawals arising from local quarrels.

The local packing-house is financed by cash contributions up to \$15,000; or by loan from the bank with crop as collateral. The district and central unions are financed by assessments at the beginning of the year against the probable crop. This money may be borrowed from the bank or held on previous sales. The assessment is made on a basis per box. Of late years purchases have been made by a subsidiary purchasing company of growers. Nor is there any profit feature attached to this company. Picking gangs are usually arranged by the local packing house; and these picking gangs are a very essential part of the success, for the keeping quality of the fruit largely depends on the picking. Should the estimate of assessments made at the beginning of the year prove higher than needed, the money is prorated back to the members at the end of the season. The recent amendment to the B.C. Agricultural Act whereby financial aid may be obtained from the government should greatly simplify this feature for our growers.

There are no such words as "glutted market" in the Californian's vocabulary. "A glut" means too much at one point, too little at another; in a word, bad distribution; and the central exchange supplies information designed to prevent such confusion.

XL RANCH SOLD.

Mr. P. G. Koop of Vancouver, who arrived here on Wednesday, has taken over the orchard property here, formerly owned by T. J. Smith, about 45 acres in all. Mr. Koop attended the organization meeting on Thursday night, and showed much interest in the business transacted.

J. R. Campbell arrived home on Tuesday evening's boat.

The Summerland Skating Club are preparing to give a public dance next week in the Empire Hall.

Earl France of Wenatchee has been engaged as manager of the orchards of the British Columbia Orchards Company, the largest owners of Paradise Flat property.

Canada's butter exports have nearly ceased, owing to increased home consumption, only 492,955 lbs. in 1912; as against 9,180,135 lbs. in 1911.

Notes on Sporting Events.

A close and exciting game of basket-ball was played in the town gymnasium on Thursday night, 20th inst, when the Town defeated the College by the score of 18 to 13. The game was in doubt all the way through, both teams putting up a splendid article of basket-ball. For the town all the boys played like clockwork, and there was no outstanding figure, although Baker was probably the pick of the bunch. The same may be said of the College team—McDougall's shooting from centre was again in evidence. The score saw-sawed, now in favor of one team and a moment later in favor of the other, until the spectators were worked up to a high pitch of excitement, and evidently felt like getting into the game themselves.

The Hill-climbers put it all over the Bean-eaters by the score of 15 to 5. The shooting of Dale and McLeod proved very useful to the climbers. Dupont was the best man on the other side. Clingan was a close second.

The base-ball season opened auspiciously on Easter Monday when the College defeated Penchland in a ten innings game by the score of 6-5. For the first game of the season, and considering the cold weather, the game was fast. Both teams played well. The first innings netted Penchland three runs, and it looked like a walk-over for them. When Dupont went into the box in the second innings the hand-picked sluggers from the bench belt chortled with glee. Visions of home runs, three baggers, and a shut out for the College, agitated their grey matter. However, "Fronchy" fooled them, and as man after man, including the mighty Gummow, went down before the little fellow's elusive curves, the Penchlanders were soon singing that "sweetly solemn" classic, "There's a hole in my bat." The return game will be played in Penchland on Saturday, April 5th.

There will be some excitement at the Gymnastic Concert in the College Gymnasium on Friday evening, April 4th. Tommy Young will endeavor to throw Alex. McDougall

and Ed. Shaw in fifteen minutes of actual wrestling. As all three men are "huskies," those interested in the great grappling game of catch-as-catch-can are advised to be present.

The closing games of the basket-ball season were played in the College Gymnasium on Thursday night. The town team completely out-classed their opponents in checking, shooting, and combination, and won as they pleased with the score of 24-8. The game was fast in spots, but the College team was off color and had no chance. All the Town team played the game of their lives—Baker and Glenn were invincible at right and left guard—Baker's shooting from centre netted four points for the town team, Cliff broke into the scoring column with three baskets. McLeod and Brown, closely checked, were nevertheless deadly in their shooting, the former netting three baskets and the latter three field goals in addition to several from the penalty line. Riley and Wolverton played well for the College at guard. The forward division were not at their best, and McDougall, working hard every inch of the way could not hold Cliff at centre. So the cuff links go to the Town team.

The juniors agreed to settle their controversy by a sudden death game, ten minutes each way, providing the College team won the first game. This they did, though they had to play five minutes overtime to do it, with a score of 12 to 10. After the closest kind of a struggle they won the second also, 9-5. Thus ended a most successful basket-ball season as far as actual playing is concerned.

There is to be a Union Mass Meeting for Men at the Presbyterian Church, West Summerland, next Sunday afternoon at 8.30. Rev. F. W. Hardy will preside. Dr. D. Spencer will speak. Special music will be rendered. Every man in the community is earnestly invited to be present at this meeting in the interests of the higher moral life of our district. At the close of this service a brief meeting of the B.C. Alliance is called.

Professor and Mrs. Harrington and their two daughters, Misses Muriel and Dorothy, spent the Easter vacation at the home of Professor Harrington's brother in Penchland.

Material for the Improvements to be made at the C.P.R. wharf is beginning to arrive.

"The Mikado."

Record Houses Greet Local Talent At Two Performances.

Two record houses greeted the Summerland Musical Society upon its presentation of "The Mikado" on Wednesday night and Thursday afternoon. On Wednesday evening the Empire Hall was filled to overflowing while nearly as many were present at the matinee the following afternoon.

The event was the brilliantly successful culmination of a long and arduous drilling given the talented members of the society of local amateurs by Mr. A. W. Stanley as stage-manager, and Mr. Dan. Williams as musical conductor. Their success has fully justified the undertaking, for we must admit to some misgivings when we learned that the newly-formed musical society proposed staging "The Mikado."

The undoubted success of the performance in its every feature reflects great credit not only upon the instructors, but upon the principals and chorus as well.

At both performances encores were frequently called and responded to, while on Wednesday night appreciation of the audience was made manifest by a number of bouquets passed to the leading ladies, also to the accompanist.

Space will not permit of a detailed review of the opera, nor would it scarcely be necessary, so many of our local readers having seen and heard it for themselves.

The opening chorus at once captivated the audience. This was sung in a spirited and creditable manner by a harmonious chorus of a dozen male voices.

The most difficult part of Nanki Poo was ably sustained by Mr. Fred Manchester, who from the beginning made a good impression on his hearers by his spirited rendering of this trying part, in which much vigor was put by the performer. His solo work was excellent all through.

The part of Pish-Tush, taken by Jack Logie, showed careful preparation and skilful impersonation, while Mr. Arthur Solly in the role of Pooh-Bah (Lord High of Everything) maintained the multiple characters included in his office of many capacities. His singing, too, was greatly appreciated.

The work of Mr. A. W. Stanley in the difficult role of Ko-Ko, Lord High Executioner of Titi-Pu, which he admirably sustained, showed talent of considerable ability that would do him credit among a company of professionals. His interpretation of the love scene with Katisha was the crowning effort of his successful role. Special mention must be made of his song "Titwillow, which was very pleasingly rendered.

Mrs. Downton, in the role of Katisha, gained the admiration of the house when she first appeared to

claim Nanki-Poo. Right through to the finish she was a favorite with the audience, delighting them with her beautiful singing and pleasing dancing. Her spurning of the proffered love of Ko-Ko, and her final acceptance at the end was generally considered to be the piece de resistance of the evening.

The parts of three little maids, Yum-Yum, Pitti-Sing and Peep-Bo, were taken by Misses Ethel Brown, Rubae Mason and Mae Conway, and each made a distinct success. Miss Brown repeatedly captivated her audience by her delightful rendering of her solos, especially was this true in the song "The Moon" and as did also Miss Mason with the solo, "For he's Going to Marry Yum-Yum." "Three Little Maids Are We," a trio, was pleasingly rendered by these three.

The Mikado was impersonated by Mr. Alex. Bentley, whose rich bass voice was heard to advantage in "A More Humane Mikado."

Deserving of special mention are the two ladies choruses, "Comes a Train of Little Ladies," and "Braid the Raven Hair," both of which were sung exceedingly well, the voices blending with excellent effect, and was commented upon as a revelation. Such singing was not expected from a body of amateurs, many of whom had not been in chorus work before.

No small share of the successful production is due to the accompanist, Miss Thea Mason, who has most faithfully performed at the piano through all the practices, and whose playing received much favorable comment at both public performances. Rightful recognition of her services was made by the members of the society by the presentation of a beautiful pendant towards the close of Wednesday night's program. Appreciation of the untiring services to Mr. Stanley in the interests of the society was shown in a material way by the presentation of a handsome, filled travelling case.

To "the man behind the scenes," Mr. Jack Lawler, was due much of the success of the evening. His operating of the lights, scenery, etc., being all that could be desired.

A decidedly Oriental effect was made by the uniformly excellent costumes, including many beautiful and evidently costly garments, showing much individual thought and study in properly interpreting this, one of Gilbert and Sullivan's most popular operas.

Penticton is now enjoying a much improved telephone service, the remodeling of the system having been completed. Beginning April 1st there will be an increase in Penticton's telephone rates. The new rates will be as follows:—business phones, \$4; residence, \$3; rural lockout, \$4; party line residence (within one mile from exchange), \$2.50. From all these rates there will be a rebate of \$1 per month for prompt payment.

Local News Items

Only a few boxes of last season's apple crop now remain in the local packing house.

George Robinson of Peachland is visiting here at the home of his aunt, Mrs. R. C. Lipsett.

Dr. and Mrs. Lipsett, who have been at the Coast for some days, returned home last Saturday night.

Review readers will learn with sorrow of the serious illness of Miss Florence Elliott, at the home of her parents.

Ben Colk, who for some time has been manager of the Aitchison orchards, has resigned his position and will probably go to Victoria.

Mr. and Mrs. H. Douglas-Hamilton of Rock Creek, Kettle Valley, recently spent a week here with Mr. L. Douglas-Hamilton, a brother.

Miss Smith spent last week-end here at the home of her brother, Dr. C. M. Smith, and on Monday went to Vernon to attend the Teachers' Convention.

The Harkness cottage, near the home of the Misses Spencer, has been rented and will, it is reported, soon be occupied by two of West Summerland's most popular young people.

Roy Black, who for some months has been at the home of his parents, in Amherst, N.S., returned on Saturday night. Mr. Black reports business active in the maritime provinces.

G. A. McLaine, now of Victoria, is spending the Easter holidays with friends here. Mr. McLaine is associated with Mr. Egel, a former Summerland citizen, now in real estate business at Victoria.

The Ladies' Aid of the Methodist Church will hold a sale of aprons and useful articles in the Men's Club Rooms on Thursday afternoon, April 3rd. The sale will begin at three o'clock. Afternoon tea will be served.

This (Friday) evening the Brotherhood of the Baptist Church entertain the ladies of the congregation at a supper and social at West Summerland. During the evening Mr. Sauter will read the play, "The Servant in the House."

A general meeting of the Overseas Club will be held in Campbell's Hall on the evening of Thursday, April 3rd, at eight o'clock. Some musical numbers are included in the evening's program. The officers are being asked to round up all the members for this event.

Gordon Dinning, formerly of the Canadian Bank of Commerce staff here, spent last week-end with friends in Summerland. Mr. Dinning was transferred from here to Victoria, and about two months ago was transferred to the Vernon office of the same institution.

Mr. Rowley will present the cup to the Town Basket-ball team at the Gymnastic Concert in the College Gymnasium on Friday evening, April 4th. The cuff links and stick pins will be presented to the winners on the same occasion. This will fittingly close a most successful basket-ball season.

Naramata will probably have another drawing card, particularly for tourists, the coming season. Golf links are being planned which will be run in connection with the new popular tourist hotel there. The links will be on the benches near Mr. Hancock's property, and will command a most ideal view of the lake and surrounding country.

Mr. D. F. Brewer takes this opportunity of publicly thanking the tradesmen of the district who have assisted him financially and otherwise in the erection of his new Restaurant Building, as well as those who are now patronizing his new venture. He hopes by careful attention to the wants of his patrons to merit a share of their patronage at all times.

There was an exciting runaway last week at West Summerland, but fortunately it did not result as seriously as seemed evident. A team, the property of Fred. Brind, and driven by Tom Carefoot, got beyond the control of the driver, and ran from near the shale pit at Mr. Young's toward Garnett Valley. The driver was thrown out and slightly hurt, while one of the horses was somewhat scratched. Otherwise no damage was done.

SHILOH
quickly stops coughs, cures colds, and heals the throat and lungs. 11 1/2 25 cents.

Captain Scriven of Kelowna was a visitor in town this week.

Miss Ellen Lynn of Armstrong is visiting her sister at the College.

J. C. Wilson has been appointed manager of C. N. Woodworth's orchards.

Mr. and Mrs. Vernon of Kelowna are visiting at the home of Mr. and Mrs. J. Downton.

The cottage being built at West Summerland for G. R. Hookham is rapidly nearing completion.

Mr. and Mrs. Clark of Keremeos are visiting at the home of Mrs. Clark's sister, Mrs. G. W. McLaren.

James Ritchie, who has been at the Coast, having left here last Thursday, returned on Tuesday night.

Miss A. E. Williams went down to Kaledon on Wednesday where she is spending a few days with friends.

R. E. E. Harkness, who has for some time been located in Saskatoon, left that city this week to take a post graduate course at the University of Chicago.

The many friends of Laurie Hatfield will sympathize with him in the loss of his mother, who passed away some days ago at her home in Port Greville, N.S.

Those in need of rubber stamps including date stamps, account rendered stamps, etc., may have their wants quickly attended to at the Review Office.

Reward by your custom the merchant who lives to serve you, and who is doing his utmost to build up this community; who takes you into his confidence by means of advertisements in your local newspaper.

"The Players" of Summerland visited Kelowna on Monday, returning by Tuesday's boat. In that town they put on another of their popular entertainments and were received by a large and appreciative audience.

Five hundred song birds were shipped from the Old Country on March 4th for British Columbia, being taken to Victoria, where they will be let loose in the forests of Vancouver Island. The birds were conveyed in a special car, and include larks, goldfinches, linnets, tits, and robins.

A wrestling exhibition will be one of the features of the athletic concert in the College Gymnasium on the evening of April 4. T. B. Young has undertaken to, in fifteen minutes, throw two of the College athletes both heavier than himself. Mr. Young's opponents will be Ed. Shaw and Alex. McDougall.

The Ladies' Aid Society of St. Andrew's Church held a most successful sale last Saturday afternoon and evening. A large supply of cakes, preserves, etc., together with needlework, met with a ready sale. During the afternoon tea was served. The proceeds are stated to be in the vicinity of \$50.

Last week end Mrs. Foreman entertained a small circle of friends at her home in Peach Orchard to meet Mr. and Mrs. A. A. Dorrick on the occasion of their recent marriage. The reception was in the form of a supper which was much appreciated by the guests after which a short time was given to speech making, all present expressing their best wishes to bride and groom.

While the Okanagan has not been enjoying ideal spring weather, our citizens may consider themselves fortunate, as both east west, and south of us the weather has been far from ideal. Terrific storms, causing heavy loss of life and great damage to property, continue to be reported from the middle and southern states. The eastern prairies and the Great Lake country has also been visited with the worst storms of the season.

J. H. Bowering, recently of Red Willow, Alta., on the Lacombe branch, is one of Summerland's newest citizens. Mr. Bowering, who has visited this municipality several times, has been so delighted with our town and climate that he has decided to make his home here. About a year ago he bought a two and a half acre orchard opposite Dr. McIntyre's, from J. E. Phinney, and he is now living there in temporary quarters with his wife and family. Two of his children arrived on Tuesday night, having been visiting in the Kootenay country.

Kaleden Comments

Mr. Park, Sr. was down from Penticton on Tuesday, returning on Wednesday, the 26th.

Mrs Chas. Hatfield arrived home from Summerland on Wednesday, March 26th. Miss A. E. Williams also came down on a visit to Mrs. J. Lock at Hotel Kaleden.

Mr. and Mrs. Jas. Mitchell with Mrs. Wm. Ritchie and other friends motored down from Summerland on Tuesday, the 25th, to visit with Mr. Harry Mitchell.

There was a meeting held here on the 19th to commemorate the centenary of David Livingstone, when an instructive sketch of his life was given by Mr. M. C. Henderson. A collection was taken in aid of foreign missions.

Mr. and Mrs. McDonald arrived on the 26th to take over the charge of Hotel Kaleden. Mr. McDonald has been for some years past on the "Okanagan," and is well known to the travelling public. Kaleden is pleased to extend a hearty welcome to both himself and his wife.

The Young People of the Society of Christian Endeavour met at the home of Mrs. O. E. Tomlin for a social hour on Tuesday evening last. The gathering was in honor of Miss Madge Tavendale, who is leaving Kaleden Hotel on the 26th with the good wishes of all in the community.

Canada has a waterway course of 2,200 miles, from the mouth of River St. Lawrence to head of Lake Superior, equal to distance to Liverpool. Difference in levels, 600 feet. 73 miles of canals have 48 locks, overcoming 551 feet of height.

Naramata Notes.

Grant Smith was in town on Sunday on an inspection visit.

Mr. and Mrs. George Wolstencroft were in Kelowna last Thursday.

Mr. J. Turner has been recently joined by his brother coming from England.

A small jail is an assured thing for Naramata. Its location is not yet decided upon.

A deer is reported to have been seen on the north lake shore one evening of last week.

Mr. Chas. Grimaldi is home from Princeton, where he has been connected with the survey.

Miss Lelia Woodley, of Moose Jaw, has been visiting with her cousin, Mrs. H. T. Davies.

Mrs. Elwell arrived on Wednesday night. Mr. Elwell succeeds Mr. Hvidt in Mr. Brook's office.

The new boat, Skookum, is now making its regular trips between Naramata, Penticton and Summerland.

Mrs. Butler and small daughter, of Vancouver, are making a month's visit with Mrs. Cash, Mrs. Butler's aunt.

School is closed this week and Miss Orka Williams is attending the Teachers' Institute held in Vernon.

A good crowd crossed to Summerland on Wednesday night to attend "The Mikado" given in that place by local talent.

The men of the I.W.W. Association here are erecting a small building for meeting purposes opposite the Svea Hotel.

Rev. Nixon, formerly of Winnipeg, will conduct the services in Naramata Church on Sunday, in the absence of Rev. Fallis.

Good progress is being made on the Mason residence above Ritchie's lot. The family is expected to arrive the latter end of next month.

Mrs. Hatfield left for her home in Kaleden on Monday. She has been with her daughter, Mrs. Lewis Block, for the past few weeks.

Mr. J. S. Gillespie arrived on Wednesday night. Mrs. Gillespie will visit friends in Chicago and arrive in Naramata some time next month.

We are very sorry to report that Mrs. R. C. Robinson is quite sick with peritonitis. She is in Summerland with her mother, Mrs. J. L. Logie.

The whist drive on Monday of this week was enjoyed by all. The evening was spent with music and progressive whist, with an intermission for Easter refreshments.

The Ladies' Aid will have a special meeting next Wednesday, April 2nd, to arrange for the management of the play to be put on April 15th. All members must be present.

A meeting will be held on Monday evening, the 31st, at the Lakeside Hotel at 7.30, to discuss the possibility of a football team in Naramata. A large attendance is requested.

There was considerable agitation felt when it became known that a petition was being circulated to establish a saloon in town. A counter petition was soon started and at present has the major share of names of our citizens.

NEW HOUSE OF COMMONS.

Ottawa, Mar. 22.—During the consideration of the votes for the department of public works, Hon. Robert Rogers intimated that it was the intention of the government as soon as possible to build an extension to the parliament buildings. The addition would include a new house of commons, and will be in every way better suited to the needs of parliament than the present one.

Capt. G. C. L. Robertson, B.C. agent for the department of Marine and Fisheries has been recently investigating the need of the establishment of lights at dangerous spots on the Arrow and Kootenay Lakes. It is probable that several lights will be recommended. Whether this will be oil or acetylene of oil will depend on Capt. Robertson's report.

Plans for Financing Canadian Northern.

Sir Donald Mann, vice-president of Canadian Northern, has confirmed the announcement that Sir William Mackenzie's mission abroad is in connection with C.N.R. financing.

The refunding operations necessary to effect a final and definite bond and stock issue or issues covering all outstanding Canadian Northern obligations, and to provide for the completion of the great trans-continental system now nearing completion, must be on such a gigantic scale as make other Canadian financing of recent years appear insignificant, probably in excess of \$200,000,000. It is said that Sir William and his associates have all the arrangements well under way, and that contrary to expectations the bulk of the great undertaking is to be in the hands of Amsterdam bankers instead of in the hands of London bankers, although it is understood that the

British bankers and the Belgium, French and Swiss bankers, who have been partial to the Brazilian enterprises of the Mackenzie and Mann group, will probably participate in the operation.

From a recent statement it appears that the stock, bond and debenture issues of the Canadian Northern outstanding amount to \$112,709,422. This statement, however, did not include any of the Quebec and Lake St. John or other issues comprised in the Canadian Northern Quebec Railway, nor any of the issues in connection with the terminal and tunnel undertakings now under way in Montreal, nor did it include the heavy undertakings in connection with the completion of the lines in British Columbia, for which it is understood the Canadian Northern is seeking Federal guarantees of bonds to the extent of \$20,000,000.

LETTER TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

The Editor, Summerland Review,
FEEDING MACHINES WITH BRAINS.

5032 Arlington Street,
Los Angeles, Cal.
Mar. 20, 1913.

Dear Sir,
Recently 125 carloads of cabbages reached the Pittsburg market on the same day. Cabbages sold for a dollar a wagon load. In fact they were offered with no takers for the cost of the freight—as low as \$8 a car. Whereupon Farm and Fire-side comments as follows:
"Some day we must have some brains in this matter of distribution. Instead of trusting to our brainless automatic machine, we must have brains of some sort and take a peek into the trough before we spout feed into it."
"You don't catch the California orange growers sending oranges to a glutted market—not they! They feeding machine has brains. They make us eat every last orange up."
Okanagan fruit growers take notice.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Scribbling Pads may be obtained cheap at the Review office; made from scraps of good paper.

Canada has moved from 10th to 9th place among maritime nations. Registered vessels, 8,088, of 770,446 tons, employing 41,447 men and boys; 889 vessels added to list last year.

Peachland Notes.

George Robinson is the guest of Dr. and Mrs. Lipsett in Summerland.

Miss Jean Kincaid of Kelowna is the guest of her cousin, Miss Irene Elliot.

Mr. and Mrs. David Kirkby and baby, Annie Margaret, are the guests of the McLaughlans.

Rev. John Marshall of Summerland conducted service in the Baptist Church here last Sunday.

Miss Bessie Seaton and Gertrude Gummow left for Vernon on Tuesday morning to attend the Teachers' Convention held there this week.

Messrs. Powell and Vicary each gave an interesting report of the annual meeting of the Kelowna Farmers' Exchange at a meeting of the fruit growers held here on Saturday.

Last Sunday the various Sunday Schools met in the Baptist Church, where a program was given both in celebration of Easter and the centenary of Livingstone, which had been prepared under the careful supervision of Mr. and Mrs. R. J. Hogg. The little folks each did his or her part well.

"The Players" of Summerland presented a very attractive entertainment at the Kelowna Opera House last Monday. While less ambitious than some of their recent performances, the two short plays, "Good for Nothing" and "Waterloo" provide plenty of scope for good acting, and good use was made of it. "Waterloo" has been given here, and Mr. Sauter's corporal Brewster will be remembered by those who saw it as a really remarkable impersonation, it need only be said that it was as good as ever on this occasion. "Good for Nothing," a pretty little comedy of humble life, was excellently played by a cast consisting of Mrs. Harry Reynolds, Mr. Sauter, Mr. Simpson, Mr. Cordy and Mr. Hookham. In the interval between the two pieces Mr. T. Knox gave some of his very clever character sketches which were highly appreciated by the audience. The program, with possibly one or two additions, will be repeated at Penticton next week.

Dr. D. Spencer, the former secretary of the Local Option League of B.C., but recently appointed secretary of Moral and Social Reform for B.C. and Alberta, will speak at the West Summerland Baptist Church on Sunday morning, and at the Summerland Baptist Church the same evening. Dr. Spencer will deal with themes connected with the moral and social life of the province.

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

PLAN to take a Trip to the

Okanagan this summer and stop at NARAMATA. Get acquainted with this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience overlooking the Lake is at your service. One summer spent in Naramata means every summer spent there until you finally conclude there is no real living anywhere else.

Then a nice 5 or 10 acre Fruit Farm on the benches solves the question, and makes you independent for ever afterwards.

Communicate with **THE HOTEL NARAMATA** OR **THE OKANAGAN TRUST CO., Ltd.**
 for rates, and information regarding accommodation, amusements, etc.

J. M. ROBINSON,
 Manager,
 NARAMATA, B.C.

\$220,000 was the estimated cost by a government engineer for the building of the much-desired road between Naramata and Kelowna. Those most interested were not satisfied with this figure, and a committee of the Kelowna Board of Trade, with Engineer Dufresno of Vernon went over the route and have made an estimate that the road could be built for about \$70,000. It has been decided, in view of this, to have an independent survey made.

The gymnasium features of the gymnastic concert in the College Gymnasium on Friday evening, April 4th, will include dumb-bell drill by a picked boy's class, representing the College and Public School, fancy marching and Indian club drill by the Young Ladies class. Class work on parallel bars, and special bar work by a picked squad, tumbling and pyramids. An added feature of special interest will be a wrestling match.

A number of Summerland citizens are already planning to attend the dedication of the Baptist Church at Kaledon on Sunday, April 6th. The Skookum will leave here about eight o'clock that morning, and those going will be landed in Kaledon in good time for the services at eleven o'clock. Those desiring to make the trip should communicate with Post-master Hayes. The return trip will be made leaving Kaledon about three o'clock. Further particulars will be announced.
