

Fruit Union Members May Ship 10 p.c. to Private Customers.

Welcome Privilege to Growers who Have Established a Market Connection.

Manager Robertson Speaks on Market Conditions. Meeting Endorses His Policy.

Saturday's meeting in connection with the Fruit Union was concerned chiefly with the soft fruit market conditions in the north-west provinces, the efforts of the Central Selling Agency to meet these conditions, and the possibility of creating a new process of marketing to satisfy the cry, "direct from producer to consumer."

G. J. C. White, president of the Summerland Fruit Union, called the meeting to order about a quarter before three o'clock. There was only a small attendance of fruit growers when the meeting opened, but before it had been in progress very long, possibly sixty orchardists had gathered.

Mr. White mentioned the efforts which were being made to solve the problems of the soft fruit market. Referring to the difficulty of reconciling the binding principle of a Central contract and the liberty of the grower to provide for his own private customers, Mr. White told of the step the Peachland Union had taken in allowing each orchardist to market ten per cent. of any varieties to private consumers, but not less than about ninety per cent. must be handled by the Union. This is the main provision of a comprehensive resolution passed at Peachland last week.

Mr. White also expressed the opinion that sooner or later the utilization of fruit for by-products would become a factor in the question. He further urged consideration of the interests of the whole Valley in seeking to modify the existing marketing system, and spoke of his confidence in the manager of the Central to handle the situation.

Mr. R. Robertson, manager of the Central Selling Agency, did not speak at great length, desiring to leave the meeting open for questions, discussion and suggestions. His opinion was that at the present time it would be possible to market successfully only a small percentage of the Okanagan fruit crop direct to the retailer or consumer. The wisest course at present was to take advantage of the knowledge and experience of the fruit men already in possession of the north-west market. No apparent prospect of changing the existing system could be seen in the immediate future.

Some critics had questioned what tangible advance the United Growers organization had to show at this time. To these he pointed out an organization from Salmon Arm to Penticton, which was now beginning to feel its strength. He showed how the standard of grading and packing both fruit and vegetables had been raised; and he drew attention to the concessions that had been obtained for all in the purchase of feed and supplies. For the coming season there would be a further saving of ten per cent. on all boxes, nails and paper over last year.

Mr. Robertson confidently prophesied that rebates this year would amount to scarcely one quarter of the sum allowed last season, which meant a corresponding increase in returns to the grower.

In the matter of reaching the consumer more directly, Mr. Robertson said that the time had not come when the United Growers could operate their own wholesale houses, nor yet deal altogether with retailers and consumers. Progress must be made slowly and surely, as last year, to gain strength and capital in order to attempt what larger organizations had tried, but failed to accomplish.

Following some general discussion, Dr. F. W. Andrew spoke briefly, advocating the manufacture of soft fruits into by-products on a large scale, suggesting trials with evaporation as the cheapest process. Could not the Fruit Union take up the question? Mr. White said the work could be extended to the manufacture of fruit syrups and vinegars, besides canning and jam mak-

ing. Mr. Robertson informed the meeting that the Central had already inquired into the method of fruit disposal, and when convinced of its commercial possibility for their steps would be taken.

W. M. Wright introduced the important mail order business question. Replying to various questions and suggestions in regard to this Mr. Robertson showed the different methods of handling that would need to be employed in handling tree-ripened fruit extensively and selling to consumers. A smaller box would be needed, and there would be a tremendous increase in detail clerical work. High tribute to the C.P.R. was paid by Mr. Robertson, not only as the largest individual consuming customer of the United Growers, but also for its willingness to arrange boat and train services to meet the needs of the Valley.

G. W. McLaren asked if it would not be possible for a separate mail order department to be organized in connection with the Central, to take care of the private connections which different orchardists had worked up. Mr. Robertson's reply was that he did not think they were yet prepared to undertake that work. It was a bigger problem to handle than it appeared casually, and something was already being done in that direction by getting into touch with such bodies as the Grain Growers' Association.

A question as to whether a grower would have to relinquish his mail order connection to be loyal to the Union precipitated the consideration of a resolution similar to that already passed by the Peachland Union. Mr. Robertson did not think it was necessary for any orchardist to sacrifice to that extent, and though favoring a limit to private crop disposal, would never advocate a hard and fast line. After a great deal of talk, the following motion, moved by C. Napier Higgin and seconded by W. H. Milligan, was passed with one or two dissenting voices. A number did not vote at all.

"That any shareholder have the privilege of shipping privately to consumers any variety of his fruit or produce, provided the quantity of any such variety shall not exceed 10 per cent., but, if he ships privately over 10 per cent., he shall not have the right to bring the balance of such variety to the packing house; and that, in connection with the above, the directors be empowered to make such charge per box towards cost of overhead expenses as they may decide."

When the discussion of the meeting veered round to the actual marketing difficulties, chiefly centering on the regretful necessity of having the fruit pass through so many hands, Reeve Jas. Ritchie, H. Sutherland, D. H. Watson, C. Napier Higgin, Dr. Andrew, W. J. Robinson and others all spoke, realizing the complexity of the problem, and suggesting means that might ease the situation. There was a strong tendency to favor the United Growers establishing a wholesale distributing system of its own, as soon as such a step is deemed timely. A resolution asking that this step be taken was framed, and discussed, but later withdrawn for political reasons. There was a resolution passed unanimously, however, on the motion of Messrs. Jas. Ritchie and S. M. Young, heartily supporting the Central Selling Agency in its proposed policy for the coming season.

Mr. Robertson thanked the meeting for its expression of confidence in his methods, and assured his hearers that when the time came to depart from the accepted methods and channels of marketing he would not hesitate to do so. In the meantime he would continue to shape a conservative course, not taking undue risks, but at the same time making sure progress.

The meeting then adjourned at about 5.30

Empire Day Activities.

The attendance at the Monday evening meeting in the Campbell Hall to consider holding a fitting commemoration of Empire Day, May 24th, in Summerland, was somewhat disappointing in numbers, though enthusiasm was not lacking.

Mr. R. H. Helmer was voted to the chair, and explained the object of the meeting. It was decided after some talk to hold a day of Field Sports on the College Campus, on Monday, May 26. An executive to have charge of the day's arrangements was forthwith elected, subject to their consent.

President, Reeve Jas. Ritchie
Vice-President, G. R. Hookham
Secretaries, Geo. Sinclair, and Geo. Fisher
H. J. Collas.

Treasurer, With these officers the following will be asked to form a committee: H. Bristow, W. C. W. Fosbery, David Thompson, Alex. Smith, T. Ramsay, H. Coles, and L. Morlock. No definite plan for raising funds for a prize list was decided upon, but it is probable that public subscriptions will shortly be solicited. A small charge will be made to witness the sports, and any surplus of funds will go towards the building fund for the new Summerland Hospital.

Press Representatives Will Visit The Okanagan.

About 200 guests, mostly citizens of Alberta, will be entertained this summer by the Okanagan Press Guild. There will be several days of sessions in Vernon, and one full day and night will be spent touring the lake on the Str. "Okanagan." Stops will be made at Kelowna, Summerland, and Penticton, where they will be entertained.

The coming of these newspaper men and their wives from every corner of Alberta affords the Okanagan a valuable and unusual opportunity of acquainting our neighboring province with our fruit industry and the quality of the product of our orchards. The convention will be held late in August or early September.

Oratorio On Good Friday.

A musical treat is offered to the people of Summerland on Good Friday. A large augmented choir will render the sacred oratorio "From Olivet to Calvary," by Maunder. The soloists need no introduction to this district, Mrs. Geo. Ross being the soprano, Mr. Ben Newton, the possessor of a rich voice, being the tenor, and Mr. T. G. Beavis and Mr. J. O. Smith being baritone and bass respectively. No effort has been spared in order to render the oratorio in a perfect manner, and to give the audience a treat of the first order. Formal announcement appears on page 5.

ST. STEPHEN'S CHURCH.

The Bishop of New Westminster, Right Rev. A. U. De Penier, D.D., will hold a confirmation in St. Stephen's in June, at a date to be announced later.

The W.A. held a business meeting at the rectory on Wednesday, and the invitation to send a delegate to the Annual Diocesan Meeting at Nelson on May 7th and 8th was considered, but no member of the local W.A. will be able to attend. Full reports of the meeting will, however, be sent out to branches.

Next Sunday, Palm Sunday, services will be as usual, Holy Communion 8 a.m., Matins 11, and Evensong and sermon at 7. There will be no celebration at 12 o'clock.

The next Social Gathering of the congregation will be held on Easter Tuesday evening in the Campbell Hall.

Congregational practices are being held with the help of a special conductor after evensong every Sunday, and next Sunday the Easter music will be especially considered.

Winnipeg to Coast via South Okanagan.

Work to be Pushed on Similkameen and Hope Sections.

That transcontinental trains of the C. P. R. will be running through the Okanagan next year is practically assured. A recent order issued from the Montreal office for the early completion of the Weyburn-Lethbridge line confirms this. With the completion of this link and of the remaining portions of the K.V.R., the giant railway corporation will have an alternative and shorter route between Winnipeg and Vancouver.

The statement has already been made that the proposed double tracking of the C.P.R. through the mountains would not be prosecuted until the completion of the K.V.R., when the through trains could be diverted so that the work might not be handicapped by frequent passing of trains. All of the South Okanagan will be sure to benefit from the using of the new railway for transcontinental traffic.

For a number of days equipment, horses and supplies have been arriving at Princeton for Messrs. Guthrie, McDougall & Co., the contractors who have the building of the K.V.R. road bed between Osprey Lake and Princeton. The route has finally been fixed, and connection with the V.V. & E. will be made at Princeton, the route crossing from Five Mile to One Mile some distance north of the V.V. & E., and joining the latter close to Princeton, instead of at the mouth of Five Mile Creek as at first contemplated. Engineer Burns is revising the line between Five Mile and One Mile Creeks. G. G. McCarthy is resident engineer in charge of the new work, with headquarters camp on One Mile Creek. J. L. Logie, Right-of-Way Agent, made a recent visit to the Similkameen and obtained the consent of the owners of land on the routes to permit clearing and grading to begin as soon as the contractors are ready. Excellent progress is reported with the work on the Hope Mountain section.

Anniversary services are to be held in St. Andrew's Church next Sunday, the preacher at both morning and evening services will be Rev. Alex. Dunn of Kelowna, whose fame as a preacher has preceded him here.

Scottish Society Social.

The invitations sent out by the St. Andrew's and Caledonian Society to their last indoor social function of the season brought a large response to the Campbell Hall last Friday evening. The crowd was in a good social humor, and much enjoyment was found in the evening's program. Chairman John G. Robertson presided over the gathering, and announced the musical numbers. After this part of the program refreshments provided by the ladies were handed round by the gentlemen, following which dancing held the floor till well past midnight, to the music provided by J. Secrest and T. Ramsay. R. Callan was an able master of ceremonies. The concert program, it will be seen, introduced some local talent which has hitherto been allowed to remain in obscurity. Following were the items: Gramophone Selections; Song, "Come ye by Atholl," Alex. Smith; Reading, "The Fireman's Wedding," Mrs. J. Arkell; Song, "The Village Pump," Jas. Hamling; Trio, "The Motor King," Bain Calder, Fay Walrod, Joe Graham; Melodeon Selections, T. Ramsay; Song, "M'Gregor's Gathering," D. McKellar; Violin Selections, D. Sutherland; Song, "On the Banks of the Wabash Far Away," Mrs. J. Arkell; Reading, Selection from "Wee McGregor," Dr. J. P. McIntyre; Piano Duet, Mrs. D. L. and Miss N. Sutherland; Song, "Just Like Bein' at Home," J. O. Smith; Melodeon Selection, T. Ramsay.

After the slight expenses have been deducted the balance of the collection taken up will be given to the Hospital building fund.

School Trustees Meeting.

At the usual monthly meeting of the School Trustees yesterday the report of Inspector E. N. MacLaulan was received. Mr. MacLaulan's report is highly satisfactory. "Very good work is being done, and progress is in every way excellent" is the sum of his opinion, and the Trustees received this with gratification. The usual monthly accounts were passed for payment, and this business concluded the meeting.

The widest possible distribution is given your wares by advertising.

Evading Discussion

Manager of Okanagan Telephone Company Fails to Keep Appointment.

That it is difficult to deal with the Okanagan Telephone Co., and Manager Dobie in particular, was again demonstrated this week. A special meeting of the Council was called for 10 a.m. on Tuesday morning to meet by appointment Manager Dobie and confer on the subject of the proposed cable to be laid between the Fruit Union and the point by Mr. D. H. Watson's house on Beach Avenue. Mr. Dobie was duly notified of time and place, but while our Council—some attending from a distance and at personal inconvenience—waited at the Municipal Offices, Manager Dobie failed to attend. The meeting was therefore adjourned, and the officer for whom it was convened, after spending the morning about Penticton, put in a nonchalant appearance at a late hour in the afternoon, coming in his auto. Clerk Logie had a short personal interview with Mr. Dobie, but as yet the legal points on the subject of the Okanagan's unapproved lines remain unadjusted.

Fruit Union

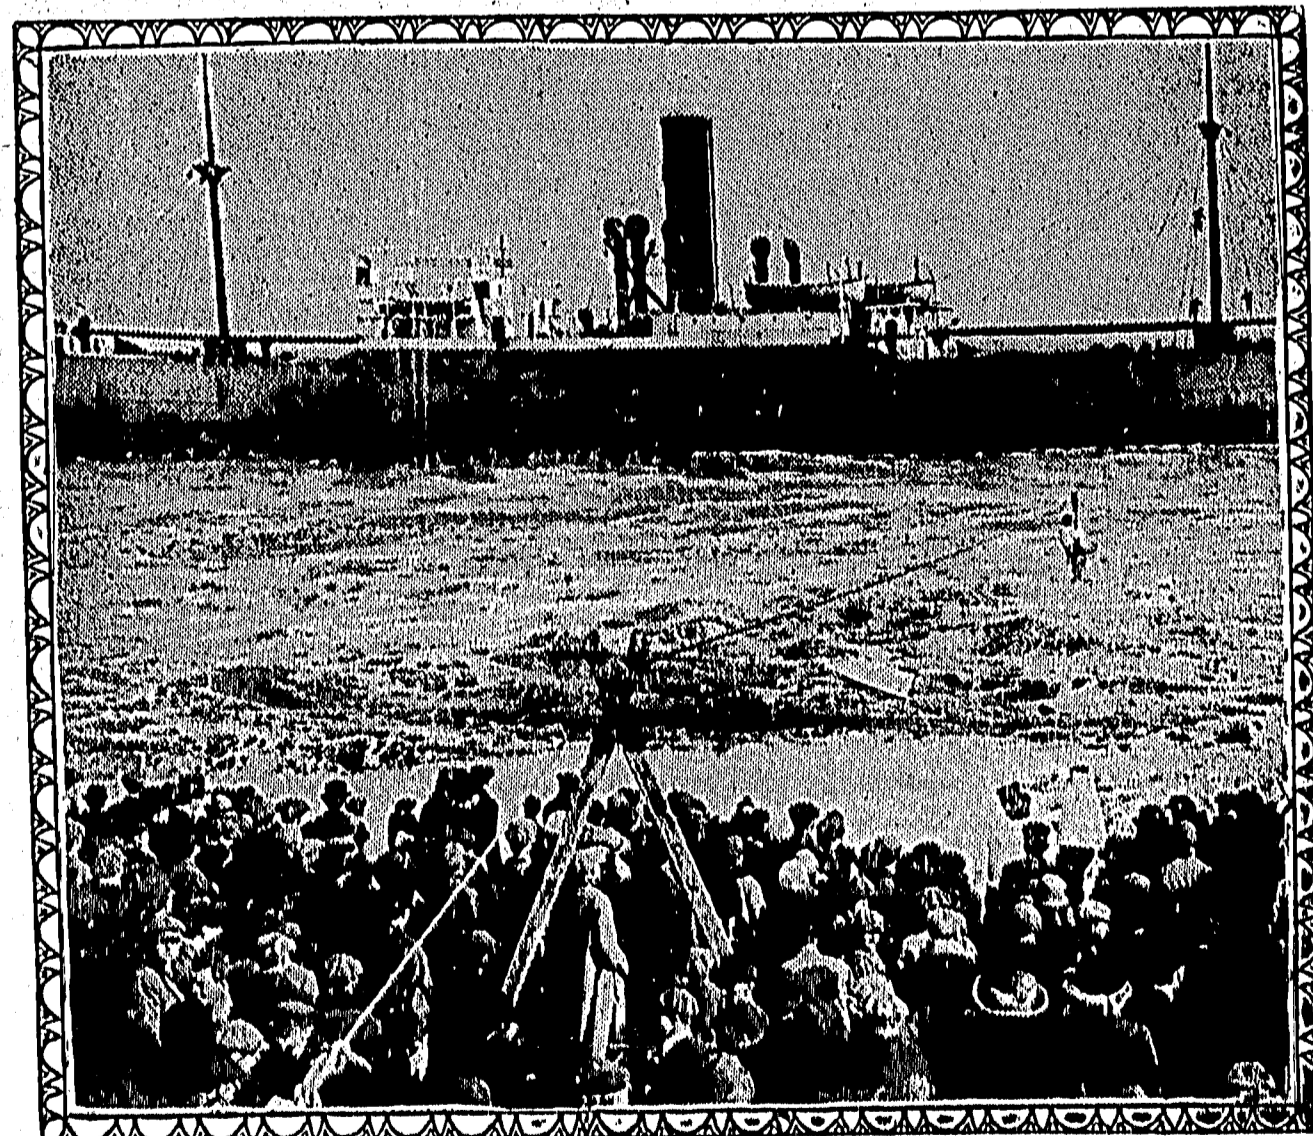

At a meeting of the directors of the Fruit Union last Monday Messrs. White and Simpson were appointed shareholders in the Okanagan United Growers, Ltd., President White being re-appointed director on the Board of that organization. Arrangements were also made for the holding of a pro forma annual meeting.

H. C. Mellor was appointed on a committee to arrange for the development of live stock, and J. Lawler was re-engaged for another year.

Special Notice.

Next week the Review will appear on Thursday, Good Friday necessitating publication one day earlier than customary. Will advertisers and others please bear this in mind, and send in any copy for next week's issue at least ONE DAY earlier than usual.

Remarkable Photograph of Rescue by Breeches Buoy.

Just at the time when we were congratulating ourselves that modern shipbuilding, wireless and other means of safeguarding life from sea disasters, the "Monroe" was rammed, and sank within thirty minutes, thus defeating all precautionary methods. Now, however, the breeches buoy has come back into prominence as a life saver. The unusual picture was made as a cabin boy of the British steamer "Queen Louise" was being whisked to shore and safety, when his ship ran aground of a shoal a half mile north of Mannsquam, N.J. Because of the heavy sea running it was impossible to get a lifeboat to the big freighter, so the U. S. Life Saving Corps resorted to the life line and breeches buoys, which was operated without any trouble. The ship was carrying a cargo of block tin from Cardiff, Wales, to the Standard Oil Company, New York.

The Folly of Spraying Too Well

Okanagan Orchards Need More Judicious Treatment, Says Provincial Expert.

By R. M. WINSLOW, Provincial Horticulturist.

As there has been some misunderstanding of the recommendations I have made from time to time as to the spraying of fruit trees in Dry Belt sections, I desire to put before your readers a brief statement, which I hope will serve not only to correct wrong impressions, but as a guide in some measure to more efficient and economical pest control.

At a meeting in Summerland a year ago I pointed out that much unprofitable spraying had been done, because often there was little or nothing to spray for. At that time I had reference to the use of winter sprays, particularly on apple trees. In addressing the summer meeting of the B.C. Entomological Society at Vernon last July, I gave an address on "The Economic Side of Pest Control," since published by the society, copies of which can be had from this office.

On both occasions I pointed out, and I wish to emphasize it further: That the problem of successful fruit culture is strictly an economic one. Fruit must be produced and sold at a price that provides a margin of profit to the grower. Marketing organization has been provided for the purpose of securing as high a price as possible, and at the lowest cost for packing and marketing; and the perfection of marketing organization should ensure the highest selling price combined with low costs for packing and selling. Nevertheless, I am convinced from the many observations in this province and elsewhere, which I have had considerable opportunity of making, that the grower himself must strive to reduce the costs of production. Among the principal elements in the cost of production is the cost of spraying.

My idea is this: Fruit growing is not profitable unless everything is done both cheaply and well; every unnecessary expense in growing and marketing should be avoided, but, on the other hand, nothing should be excluded that will increase the profits. Our cost of producing a box of fruit is high, and compared with our competitors it is far too high. Why it is so high is quite a long story:—We pay our labor well for one thing; all the materials and equipment we use are expensive; and living is high; I believe we have been doing a little too clean cultivation; and much of our pruning has been so severe as to prevent the trees from bearing what they should; the cost of marketing is a large item, which could perhaps be reduced. I have

studied many of these questions as thoroughly as I could, and may have some recommendations to make, but with regard to the control of pests, the question we should ask ourselves is: "Can it be done any cheaper and still be done well?" Some misunderstanding arose because I said I believed it could be done both cheaper and better.

Many growers have told me, when asked, that they did not know what they were spraying for. They should know. Until a grower does know the pests which affect his orchard, or are liable to affect it, he cannot fight them either cheaply or well.

Comparing the Okanagan and the district of Wenatchee, which are comparable, except that Wenatchee has San Jose Scale and the Okanagan has not, I found that in 1913 Wenatchee used for winter spraying one barrel of Lime Sulphur for every 25 acres of orchard, and the Okanagan used one barrel for 20 acres; yet, the Okanagan trees are, on the average, much younger and smaller than the Wenatchee trees, and there is no San Jose Scale to control either, and, moreover, Wenatchee produces very clean fruit. It is extremely rare to find Scale on the fruit in their orchards; certainly hardly ever in orchards that are given average care. In Wenatchee, Inspector Darlington stated to me that only about 50 per cent. of the bearing orchards get Lime Sulphur every year; the balance are winter-sprayed once in two or once in three years; non-bearing orchards are sprayed even less.

The great majority of the apple orchards of the Okanagan, in my opinion, require a very limited amount of spraying at present; the Black Leaf-40 sprays, applied according to the Department's authorized Spray Calendar, which will be issued shortly, should be entirely effective, and additional sprayings may be made if necessary. If chewing insects affects the leaves or fruit, they can be controlled with Arsenate of Lead—2 lbs. to 40 gals. of water, applied as soon as the injury is noticed. Apple Scab is not a normal thing in the Dry Belt, though some was present last year, due to the very heavy precipitation in May and June. It would not pay to spray for Apple Scab, except in low-lying and very sheltered orchards where air circulation is very poor; and there are very few such orchards.

It is conclusively demonstrated that Lime Sulphur at any possible strength does not destroy all the Aphis eggs, nor is it noticeably a tonic to the tree. Because Lime Sulphur has such a limited use, the total consumption throughout the Dry Belt districts of the Northwestern States and B.C. is decreasing rapidly. It is only fair to say that in the non-irrigated sections, more is being used each year.

Peach orchards should be sprayed with Lime Sulphur each year just before the terminal buds burst; this spray, at ordinary winter strength, thoroughly applied, will control 95 to 98 per cent. of Leaf Curl and Peach Worm without further application, and ordinarily this is all the spraying peach trees need.

Pear trees ordinarily require very little spraying. The Pear Leaf Slug can be controlled with Arsenate of Lead—2 lbs. to 40 gals. of water, or even weaker, applied any time after the leaves are fully out. The same spray controls the cherry leaf slug, and may usually be applied on cherry trees after the crop is removed.

Where blight of the pear and apple is prevalent or feared, the sprays for both sucking and biting insects should be used as required. In Okanagan papers of recent date, I see a Spray Calendar purporting to be issued by a member of the Horticultural Branch, which recommends spraying the blossoms of trees with Arsenate of Lead to kill the bees and other insects to prevent them carrying blight. This would be a questionable practice and advisable only in the most extreme cases. There are no records to show that it has ever been tried in practice, either in America or elsewhere, so that its value is theoretical. I might say that the Spray Calendar mentioned was not published by any member of the Horticultural Branch of this Department.

In preparing this letter for publication in the Dry Belt sections it has been my object to assist in forming public opinion in favor of the rational use of spraying. The recommendation of needless spraying is bound to create a reaction against the practice. Many growers will go to the opposite extreme and fail to do the necessary spraying, to the injury of themselves and all their neighbors.

Rifle Association.

The first shoot of the season was held on Saturday last on the Garnett Valley range. Shooting conditions were fair, and the following scores leading:—

	200	500	600	Total
O. Smith	28	34	30	92
G. Barkwill	27	31	32	90
H. Dunsdon	29	29	31	89
W. J. Smith	28	29	27	84
W. Nelson	27	25	29	81

To-morrow, Saturday, the use of the two special rifles for this season will be decided by a shoot off. A rig leaves the High Flume at 12.30.

An Appreciation.

To our many friends in Summerland and West Summerland:

As we are leaving your neighborhood for England, we wish to express our deep appreciation of the sincere friendship we have experienced amongst you, and heartfelt gratitude for the many kindnesses that have been shown to us.

We have greatly enjoyed our visit and Christian fellowship here, and shall leave these parts with many sweet memories that will long remain with us.

E. and S. VICTOR WARE.
West Summerland,
March 24, 1914.

Insp. Cunningham Making Recovery.

We are very glad to hear that Mr. Thomas Cunningham has so far recovered from his recent accident as to leave St. Joseph's Hospital, Victoria, and return last week-end to his home in Vancouver. It is hoped that the veteran Fruit Inspector will be out and about again quite soon.

Raise a Pig

If you wish to own an auto that will travel fast and far—
Raise a pig.

If you have a dear desire for a splendid private car—
Raise a pig.

If your daughter yearns for jewels that will make a lurid haze, and your wife would leader be where some other matron sways,
If you wish to give up toiling and in comfort spend your days,
There's a way—don't overlook it—
Raise a pig.

If you're sick of serving others and are looking for a chance—
Raise a pig.

If your son would like to spend some money on a neighbor's girl;
If you yearn to own a castle having walls inlaid with pearl—
Raise a pig.

If within a senate chamber you would like to hold a seat,
If you wish to be untroubled by the raising price of meat—
Raise a pig.

If you wish to get from under the big burdens that you bear,
If you want to go to Wall Street and create a furore there,
If, in short, you have a longing to become a millionaire—
There's a way—don't overlook it—
Raise a pig. —Ex.

EXPLANATION ENOUGH.

"Well," said Smith, "I hear that old Jones, editor of the Trumpet, was found dead in his office last night."

"Yes, so I hear," answered Brown. "Foul play is suspected, of course," he added. "That's the police theory. But why should anybody kill him? Had he been making any enemies?"

"None at all, as I can hear. You know he had stopped all sensationalism and was printing a pure, modest, highly moral family paper."

"Aha! That explains it!"

"Who could have killed him?"

"He wasn't murdered, man. He was starved to death!"

Proper spraying with the right materials, at the right time, and properly done, is an approved and efficient method of controlling certain pests. It is to some extent an insurance, but in many cases the premium has been too high for the protection secured.

Groceries for Easter

Copyright 1914 by C. E. Zimmerman Co.

Holy Easter-tide and its grocery requirements have received the closest attention from this store. All the delicacies of the season have been carefully taken into stock.

A great variety of Easter eggs and favors will be found here to choose from. As usual we have had in mind and paid closest attention to the nature of the season. Ladies of all beliefs will find on visiting this store that their tastes and desires are fully catered to.

PUBLIC SALE PRICE \$4.80 Less an extra 10 per cent. for Cash.

The nifty kind that will mark the young man as being particular in dress. The new weaves and colors. Why pay \$9 to \$10 elsewhere.

PUBLIC SALE PRICE \$5.40 Less an extra 10 per cent. for Cash.

TRUTH IS MIGHTY

and the word "bargain" never carried a truer, stronger, meaning than you'll find exemplified at this great forced-on, money-raising movement. It pays to advertise, but it is necessary to deliver the goods. We dare not misrepresent or make any exaggerated statements. We believe it pays to be frank, and for this reason we have stated our case clearly. The test of our promises and assertions is honest judgment.

Remember - This event is NEARING THE FINISH

A FORCED SALE with no time limit - \$12,400

Cash is the amount we must raise within the short period of a few days. The moment we do this off comes the colored tickets and this great saving event will end without notice. Read this announcement carefully, then frankly ask yourself if you can afford to pass this saving chance. No matter how low the price every article is backed by the fairest guarantee.

Shoes & Oxfords

For Men and Women. Tan, Black and Patent. Carry style and distinction. Real value \$4 to \$5.50.

PUBLIC SALE PRICE \$3.40 Less an extra 10 per cent. for Cash.

Shoes & Oxfords

For Men and Women. Mostly hand welt made. Blucher and lace effects. All leathers. Why pay \$5.50 to \$6.50 elsewhere.

PUBLIC SALE PRICE \$4.40 Less an extra 10 per cent. for Cash.

Trousers for Men

Who appreciate service and style combined. Mostly Stripes. Real Value \$3.50 to \$4.

PUBLIC SALE PRICE \$2.65 Less an extra 10 per cent. for Cash.

Long on Merchandise Hence short of cash

Explains the situation. Never before in our history have we made such sacrifices. Necessity forces us to employ the most drastic methods in order to raise immediate cash.

SPECIAL NOTICE.—Settlement of all past due accounts will be appreciated and greatly assist in relieving our critical situation.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, APRIL 3, 1914.

BE VIGILANT.

TO ALLOW the bright prospects of the approaching fruit season to be marred from a lack of thoroughness in giving the orchards their spring attentions, would mean a loss to this community of some thousands of dollars it cannot afford. The fire blight which gained a hold locally last year, chiefly in untenanted orchards, was by no means eradicated, even by the combined energies of government men and private individuals. There are old cankers and infected limbs left undisturbed from last year, that harbor enough bacillus of the insidious blight to infect every healthy fruit tree in the place. Constant vigilance is the price demanded for clean orchards, and this is necessary at this spring time as it never has been before. Indifference and carelessness will court disaster, and now that a better era of marketing seems to be dawning for the Okanagan in general no measures to ensure immunity from pest and disease should be left unpracticed. The government is preparing to continue its vigorous campaign of last summer, even more vigorously this year, and unoccupied orchards will not be allowed to continue to act as disease carriers. See that your orchard is clean and help your neighbor in his hunt for danger signs.

A DECISION TO BE REGRETTED.

WE DO NOT THINK that the question of manual training and domestic science for Summerland should suffer final summary dismissal as it received from the Trustees last week. The obstacle in the way of the institution of this up-to-date educational feature is always "lack of funds." The municipal balance sheet recently published in these columns showed a healthy surplus of assets over liabilities. Should there be then, such hesitation in assuming an additional expenditure of five hundred dollars? The City of Kelowna has taken up with the latest offer of the government and was looking to Summerland to cooperate. The Review heartily concurs with the statement of the Chairman of the School Board that if the real educational value of manual training were thoroughly grasped it would be deemed as necessary as an addition to the High School staff now appears to be. Further, if the ratepayers who have asserted that they are in agreement with the principle of this new branch of school work were called upon to record in favor of its inauguration, we believe the decision of the Trustees would have been otherwise. So favorable an opportunity to introduce manual training can scarcely be expected again, for Kelowna intimated that if Summerland did not enter into the proposed arrangement other towns would be approached. To keep from our schools the best feature that could be put into their program for the sake of five hundred dollars is false economy, and a step greatly to be regretted. Will the matter rest?

NOXIOUS WEED LAW.

AN AMENDMENT to the "Noxious Weed Act" made at the last session of the Legislature, after defining the method of procedure whereby neighboring properties may be protected from weeds permitted to grow on adjoining lands by having same destroyed, states that where the offending land lies in an incorporated municipality, that expenses and costs of and attending the destruction of the weeds shall be entered upon the assessment roll of the municipality in which the land lies by the assessor for such municipality, and be a charge of the same force and be recovered in the same manner as are the taxes of such municipality.

Noxious weeds are defined as thistle, perennial thistle, sow thistle, bull thistle, Russian, thistle, wild mustard or charlock, tumbling mustard, ball mustard, stinkweed, ragweed, blue burr or stickseed, dodder, and such other weeds as may be specified by Order in Council published in two consecutive issues of the Gazette.

THE REDISTRIBUTION plan for British Columbia has practically been decided by the special committee of the commons. Vancouver is to have three seats and Victoria one. Nanaimo riding will comprise the balance of Vancouver Island, and Comox-Atlin will be restricted to the mainland. The remaining constituencies will be given two members each. These are New Westminster, Yale-Cariboo and Kootenay. This makes twelve seats in all for the province.

The man who hesitates is bossed.

None but the brave observe the fair.

It's up to every man either to be a headpin or a pinhead.

Men who talk so much talk so much that is so much talk.

When one makes a hit then is just the time to start going.

It is as necessary that we enrich the mind as that we fertilize the soil.

HE DOES NOT ADVERTISE.

Breathes there a man with soul so dead

Who never to himself has said: "My trade of late is getting bad, I'll try another ten-inch ad!"

If there be, go mark him well, For him no bank account shall swell,

No angels watch the golden stair, To welcome home the millionaire.

The man who never asks for trade, By local line, or ad. displayed, Cares more for rest than worldly gain,

And patronage but gives him pain.

Tread lightly, friends; let no rude sound

Disturb his solitude profound,

Here let him lie in calm repose, Unsought except by men he owes.

And when he dies, go plant him deep

That nothing may disturb his sleep, Where no rude clamor may dispel That quiet that he loved so well.

And that the world may know its loss

Place on a stone a wreath of moss, And on a stone above "Here lies A fossil, who did not advertise."

Passing Events: Social, Personal, &c.

Mr G A McWilliams came in
from Vancouver on Tuesday night's
boat.

A car of extra McIntosh Red
Nursery Stock is expected any day.
Order from 'phone 672. a3

Mr. J. E. Weldon went out on
Thursday morning to Alberta, and
will return with a carload of high
breed horses.

Mr H. A. Smythe of Vancouver,
who came in on Wednesday night's
boat with Mr G. A. McWilliams,
is spending a few days here.

Mr R. H. Helmer, who has se-
cured a government position in the
Horticultural Department, is ex-
pecting at a later date to remove to
Vancouver.

Mrs J. E. Phinney entertained a
number of friends at an afternoon
tea on Wednesday as a compliment
to her New Brunswick guest, Mrs
Campbell.

Some septic tanks along the lake-
shore have this week been receiving
some attention following a recent
inspection by the Medical Officer
of Health and the Sanitary Inspec-
tor.

The two acre lot between the
properties of Messrs. Pares and Mil-
ligan has been purchased from Ira
Law by Mr Harwood, who has just
arrived with his family from Al-
berta.

St. Stephen's Church.—A Ten
Cent Tea and Sale of Work will be
held (by kind permission) at the
residence of Mrs. Cartwright on
Wednesday, April 22nd, from three
to six o'clock. a3-10

Early on Monday morning a fine
grouse, flying across the street
from the lake, dashed through the
glass of Mr. Tully's shop, was be-
wildered for a moment by the bar-
ber's paraphernalia, and then
escaped as rapidly. A good dinner
was missed by the fact that the
shop was empty.

A riding party which met at
Mrs. O. F. Zimmerman's and was
joined by several who rode up from
the residence of Colonel and Mrs.
Cartwright had a most enjoyable
expedition on the hills on Saturday
afternoon. After some hours in
the saddle the party were enter-
tained at tea by Mr. and Mrs. Zim-
merman.

The "Mallard," the new tunnel
boat built here by Messrs Hatfield,
was launched on Saturday afternoon
from the lakeshore and took to the
water like her namesake. Her
owners took her down to Penticton
and down the river she is to nav-
igate, on Monday, and the trial trip
was perfect in every way, the
"Mallard" making good speed and
beautifully smooth going.

An important meeting of the W.
C.T.U., the last regular meeting of
the official year, will be held at
West Summerland, in the Presby-
terian Church on Monday after-
noon at three o'clock. Mrs. Bent
will give a talk about "Cider."
There will be a discussion of mat-
ters concerning the district con-
vention which is to meet here about
the close of April. Rev. Dr. Spen-
cer, Superintendent of Social Ser-
vice for Western Canada, is to be
the convention speaker, and will
give two public lectures.

The many local friends of Mr.
and Mrs. S. B. Snider and fam-
ily are welcoming them back to
Summerland this week. They ar-
rived by boat on Monday even-
ing, and Mr. Snider said their
arrival here seemed like a home
coming. Mr. Snider told the Re-
view that he was delighted with
the returns from his fruit crop
last year, and although he mar-
keted his crop, which was a small
one, with private customers, he
heartily endorses the cooperative
movement, and approves of the
policy adopted by Manager Rob-
ertson.

The eagerness with which local
theatre goers are looking forward
to the coming engagement of Mr.
Wm. Sauter, supported by that
splendid company "The Orchard
Players," in "David Garrick,"
disapproves the old saying that
"A prophet is not without honor
save in his own country." It is
useless to attempt any praise of
Mr. Sauter, for his ability as an
actor is so well-known as to ren-
der any comment unnecessary,
suffice it to say that Mr. Sauter's
support in "David Garrick" will
be absolutely above reproach,
while the stage settings and cos-
tuming will be on a most elabo-
rate scale.

G. W. Lang of Calgary is spend-
ing a few days with his family
here.

The White Cafe, West Summer-
land, will be open Monday next,
March 23rd for business. m20a3

We very much regret to hear
that Mrs W C Kelley is suffering
from a sharp attack of tonsillitis,
and is confined to bed.

Mr. W. M. Johnson of the
C.P.R. at Nicola, came in on Tues-
day night's boat for a few days'
stay, and to have a look at the
fruit lot which he owns on Jones
Flat.

Mr. and Mrs. Harwood and fam-
ily of Stettler, Alberta, are new
settlers who intend to make their
home here. They are at present
occupying H. H. Elsey's house
near the Municipal Offices.

Quite a number of the members
of Myrtle Rebekah Lodge are con-
templating a visit to the lodge at
Kelowna. The trip will be made
by the "Skookum" or "Rowena,"
leaving here late Monday after-
noon.

Mrs. Edgar is going out on Mon-
day's boat to return to her home in
Ottawa for a long visit. Mrs.
Edgar will be accompanied as far
as Calgary by Miss Stewart, who
has been her guest here for some
weeks past.

A piece of good fortune has be-
fallen Mr. L. C. Woodworth, who
has secured the contract for supply-
ing meat to the railway construc-
tion camps shortly coming in be-
tween Osprey Lake and Princeton.
The animals will be butchered at
rail head.

A demonstration in methods of
top-working apple trees will be
given by Mr. R. H. Helmer in Mr.
J. L. Hilborn's orchard to-mor-
row, Saturday, April 4th, at 2
p.m. Mr. Helmer will also dem-
onstrate in the making of graft-
ing wax. a3

The orchard known as the Far-
ley property, close to the Para-
dise Flat district, has been ac-
quired by exchange by a Mr Treffy
of Saskatoon. Mr Treffy and fam-
ily will occupy the property at
once. It is said that they are ex-
perienced fruit growers.

Last Tuesday was Burns' night
for the Young People's Guild of St
Andrew's. Mr J. G. Robertson
gave an interesting analogy on the
life and work of Burns, and Burns'
songs were rendered by Miss
McLaren, Messrs. J. Steuart, D.
McKellar and G. Fisher. Next
Tuesday's is a devotional meeting.

Most artistic and prettily attrac-
tive are the picture advertisements
of the entertainment to be given
by the Ladies' Aid of St. Andrew's
Church on Monday in the Gymna-
sium. The Old Time Meeting of
the Ladies' Aid should prove a de-
lightful little entertainment. "The
Mohawk Cross Road" ladies will be
presided over by Miss Rothwell, and
Mrs. Lang will act as hostess.

The publicity given the genuine
bargains to be had at the Supply
Co's stores has resulted in large
and satisfactory sales. The public
fully realizing the advantages to
be had during the special sale,
are availing themselves of the op-
portunity to buy at exceedingly
low prices. Following the offers
announced in this issue another
record is anticipated for Saturday.

Mrs. John Tait returned on Tues-
day night from a six month's trip
to the Old Country and visit to
relatives in Scotland. Mrs. Tait has
very much benefited in health by
her journeyings, and has had a
thoroughly enjoyable time, but is
glad to be home in Summerland
again. Mr. and Mrs. Mendum,
who have been occupying Mr.
Tait's house during the winter have
now removed to rooms in the Gar-
troll Block.

As an evidence of the rapid
growth made by our apple trees a
cross section from the trunk of a
King of Tompkins was brought to
the Review lately by Mr S. M.
Young. The tree, which was plant-
ed eight years ago, measured 28
in. in circumference near the base
of the trunk. Like many another
who had trees of this variety he
found it necessary to cut them out
because of their susceptibility to
fire blight.

SHILOH CURES
COUGHS & COLDS

TWO MONTH'S IMPRISONMENT

Sentence For Supplying Liquor to Indians

The arrest was made here on Sat-
urday morning of William McDani-
els, a railroad laborer, who has for
some time been under suspicion of
supplying whisky to Indians in this
part of the Valley. He was traced
in Penticton last week, and two In-
dians of the reserve near there had
a supply of whisky from him.
McDaniels got up here on the boat
on Friday night and was arrested
early the next morning on Shaugh-
nessy Avenue by Constable Gra-
ham, who took him back to Pen-
ticton. Charged there, McDani-
els was sentenced to two months im-
prisonment and was conveyed to
Kamloops prison.

WEDDING.

STEWART—FIGGIS

The marriage of Miss Amy Figgis
and Mr. Joseph Stewart of Pentic-
ton took place quietly at that town
on March 25th, the Rev. M. Thomp-
son officiating. The happy couple
after spending a few days at Ver-
non returned to Summerland last
Monday.

Methodist services will be held
in the Methodist Church on Sunday
next, the morning subject at 10.30
a.m. will be "Lights and Shadows
of the Cross," while the evening
subject will be "The Crucifixion."
Service at Prairie Valley at 3.30
p.m.

The local office of the Okana-
gan Telephone Company was
much dismantled this week by the
removal of equipment, including
pole changers, batteries, etc. A
number of the few remaining in-
struments about the district were
also removed.

D. L. Sutherland returned on
Monday morning from a short trip
to the prairies. He called on
Mr. J. Johnson at High River,
where he has taken up mixed
farming. Mr. Sutherland said he
encountered a temperature of 22
below zero at Calgary, which seems
to an Okanagan resident "exceed-
ingly cold."

The Methodist Church will hold
special services on Easter Sunday.
At the morning service Easter car-
ols will be sung by the Junior
Choir, while the evening service
will be largely a musical service.
On this day special offertories will
be taken to meet pressing obliga-
tions upon the church.

The regular monthly meeting of
the Women's Institute of the Park-
dale section will be held on Good
Friday afternoon, next week. The
two chief features of the meeting
promise to be a talk on "The Prop-
agation of Flowers" by Mr John
Tait, and "Poultry Raising for
Winter Profit," an address by Wal-
ter M. Wright. The Institute will
meet as usual at two-thirty in the
High School Building.

It has recently been thoroughly renovated and re-furnished, and is now the greatest health resort upon the continent. Natural hot water in baths, 124 degrees of heat. A course of baths at Halcyon will cure nervous and muscular diseases and eliminate rheumatism and metallic poisons from the system. The water heals liver, kidney and stomach complaints. The rates are \$2 a day up; or \$12 weekly up. Postoffice, express and telegraph offices in connection.
William Boyd, Proprietor ; ; Halcyon, B.C.

Current Events — OF — Town & District

Mr. J. S. Gillespie, formerly general superintendent of the Okanagan Trust Co., returned on April 1st, after an absence of considerably over a year in England.

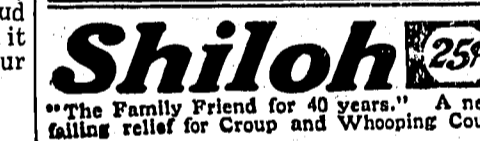

A full account of the pre-nuptial shower held at the Unity Club parlors this afternoon (Friday) in honor of Miss Freda Mitchell, whose marriage to Mr. W. Nuttall is announced for April 15th, is held over till next issue.

A quiet wedding was solemnized at Ireland's Restaurant on Wednesday evening of this week by Rev. M. Thompson of Penticton. The contracting parties were Miss Roadhouse and Mr. Rex Ireland of Tofield, Alberta. The happy couple left on Thursday morning's boat for their home in the rising prairie town.

The auction sale on April 1st of the stock and outfit belonging to Mr. H. W. Endacott, drew to Naramata the largest crowd seen on our streets for some months. The weather conditions were ideal throughout. The bidding was, on the whole, fairly brisk, but confined to a somewhat limited number of buyers. The prices paid for horses when one considers the demand which at present is none too brisk, was good. One team of bay geldings bringing \$500. The herd of 14 head of cattle, big and little, young and old, was sold at an all round average price of \$67.50 each. Mat. Wilson of Paradise Ranch being the purchaser.

Mr. and Mrs. Dean Walters conducted a card party last Thursday week in aid of the piano fund for the Unity Club, which organization has purchased a fine instrument for use in their rooms. Prior to the cards a short musical program added greatly to the pleasure of the evening, and it is to be hoped that the example set by Mr. and Mrs. Walters may be followed by others. Here is the program: Piano duet, Mrs. Languedoc and Mrs. Walters; Vocal solo, Mr. Fred Manchester; Piano solo, Mrs. Walters; Vocal solo, Mrs. Walters; Vocal solo, Mr. Newton; Mrs. Languedoc accompanist.

If a man is willing to admit it when he is wrong he is all right.

Literary Society.

The debate put on the boards by the Literary Society on Monday evening took the form of a "Mock Trial," in which a certain "Miss Chance" took action through the able instrumentality of her counsel, to recover the munificent sum of \$64.20, being the amount this young aspirant after matrimonial honors had paid for her trousseau, believing—dear, simple, trusting maiden—that the defendant, "Mr. John Wise," was quite sincere in his intentions, and who, though he had never made a formal avowal of his wish or intention to marry her, had implied as much in his attitude toward her.

The defendant was ably supported in his claims of "Not Guilty" by W. P. Parson, K.C.,—C.Q.D. "Miss Scratch," a distinguished typist of remarkable speed, played the part of court stenographer. The judge was a distinguished gentleman named "J. H. Pump," who handed down some decisions remarkable for their originality. After hearing the evidence of the contending parties the jury men (each counted as two, being all married men) brought in an unanimous verdict of "Guilty, as Charged," the jury, however, recommending to the court that the damages claims be not allowed except in the sum of the odd 20 cents, being cost of valentine purchased by plaintiff and not used. Jury asked to be excused from further service for a period of ten years.

The attendance at this, the concluding debate for the season, was a record-breaker, and the crowd that left the basement of the church was certainly a good-humored one. They all felt that the Literary Society had provided a genuine flourish for their wind-up concert for the season of 1913-14.

Naramata To Have Fine New School.

At last, after considerably over a year of speculation and talk, the construction of the new two roomed public school is to be proceeded with. The plans and specifications are now in the hands of the secretary. The tenders are being called for to close April 7th, and it looks as though we were going to have a long felt want gratified.

To judge by the plans as laid before us there is no doubt that Naramata will soon have a school building that we will have every reason to be proud of. The building will be a frame structure, resting on a solid cement basement, which will consist of two large recreation rooms provided with modern plumbing facilities, and heated throughout with hot air furnaces.

Baseball Season Opens.

"Baseball! Babies v. Benedicks." At the Naramata Ball Ground, April 2nd, 1914. Reserved seats free. Bleachers, half price.

Such ran one announcement of an event which took place in town yesterday, and if your correspondent, who managed to catch a place in the side of the latter aggregation, recovers sufficiently, an attempt will be made to depict next week all its glory, the chief features of the first battle royal between the "rising" generation and the "other fellows."

A demonstration in top-grafting will be given by Mr. R. H. Helmer, under instructions of the Horticultural Branch of the Provincial Agricultural Department on Tuesday, April 7th, at 2.30 p.m., in Mr. J. S. Gillespie's orchard.

PEACHES AND HUSBANDS.

Husbands, like peaches, will not keep the year round unless they are well preserved. First, select one carefully. Be sure he is not too green; neither should he be overripe. He might look very tempting and mellow in the market, but if he is too old he will not stand the test of the preserving process, but will expose his hard, stony heart. Husbands grown in the tropics of pleasure look very fine, but are usually insipid. The home grown are the best. Select your husband, if possible, from a family tree growing on the sunny side of a church. You will be sure then that he is sound at heart. Unsound husbands, like unsound peaches, often have to be sorrowfully cast away.

Top Working Fruit Trees

By R. M. WINSLOW,
Provincial Horticulturist.

The fruit growers of the Okanagan Valley have shown a great increase of interest in making remunerative unsuitable varieties of trees by working them over to the best commercial kinds. Enquiries and requests to the Horticultural Branch of the Department of Agriculture have been far more numerous than in any previous year.

While top-working fruit trees, especially apples, is often justifiable by the increased returns after the new top is well established, there are certain conditions under

which it is not advisable. I refer particularly to the top-working of black-hearted trees, or those which have been badly affected by fire blight. The wood of a black-hearted tree is brittle, and much of it is dead; decay starts very readily in the cuts made for grafting, and the scions either fail to grow, or if they grow, make a poor union, and eventually break off.

The appearance of a tree severely cut back in the effort to control an attack of blight naturally suggests top-working to a blight resistant kind. If blight were quiescent or absent from the district, top-working might be feasible, but when blight is active, the inevitable crop of water sprouts furnish the best possible conditions for blight, and effort to save the blighted stock on which to build a

new tree is likely to meet entirely with failure.

Aside from blight or black-hearted trees, there is a large number of sound, healthy, vigorous trees, of non-remunerative or non-productive varieties; these may be grafted over to the better commercial kinds; in fact, it is highly desirable that they should be so treated.

The Department of Agriculture has secured a competent instructor, Mr. R. H. Helmer, late of the Balcom Ranch, Summerland, to give a series of top-working demonstrations, under the auspices of the local Farmers' Institutes, at the following places:—

Summerland April 6, at 2.30 p.m.	
Naramata	7th
Penticton	8th
Rutland	9th
K. L. O. Bench	10th at 10 a.m.

Kaleden Comments

The daily mail service commenced on April 1st, and the extra service is greatly appreciated by the residents.

The regular meeting of the Women's Mission Circle of the Baptist Church was held at the home of Mrs. J. Lock on Wednesday last.

Miss Mary Hawthorne, who has been staying with Mrs. A. S. Hatfield for the past two weeks, has returned to her home in the country, below Okanagan Falls.

The anniversary services of the Baptist Church will be held on Sunday, April 4th. Rev. D. J. Welsh of Kelowna will preach in the afternoon at 3 p.m., and again in the evening at 7.30 p.m.

It is expected the new boat "The Mallard," specially built for service through the river, will be down this week, and will make regular trips up and down the lake to and from Penticton.

Mr. T. C. Preston returned from Penticton last Friday afternoon, and though still very weak, he bore the journey better than was expected. Mr. Cossar of Penticton brought him down in his automobile.

The Farmers' Institute for Kaleden has been organized and incorporated quite recently. A special meeting for the election of officers is being held, and interesting programs arranged for the year's work.

Mr. and Mrs. W. A. McDonald, who have been in charge of the hotel for the past year, are leaving this week for their home in Penticton. The community generally regret their departure, and they will leave many friends behind who give them their best wishes for the future.

The Woman's Club is making arrangements for a concert to be held in the schoolroom on Thursday, April 16th. A good program is in course of preparation, several friends from Penticton are very kindly taking part, and the evening will close with a farce by Mrs. Fraser Campbell of South Penticton. Admission will be by ticket at 50 cents each.

To extend its lighting system all over the municipality is the proposal of Penticton's Council. A by-law to raise \$48,000 for this purpose is soon to be submitted to the voters.

A conference was held at Penticton on Tuesday evening among fruit growers to discuss plans for the more efficient handling of the soft fruit crop during this coming season. Manager Robertson of the United Growers was in attendance, and Mr. G. J. C. White went down from Summerland. The Penticton Union held its annual meeting on Wednesday evening, when directors were elected, and the financial statement for 1913 operations presented.

If a doctor makes a mistake, he buries it; if a merchant makes a mistake, he never tells it; but if an editor makes a mistake, he puts it on a large sheet of paper for the world to look at, and all the cranks in the country have something to wag their jaws about for a month.

It takes hard work, foresight, frugality, and some other solid virtues to produce success anywhere in the world. No doubt the exercises of these virtues right where you are would richly repay.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting:
Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Build Concrete Barns and Barnyards

YOU will find that they are best at first and cheapest in the end. Concrete buildings cannot burn and many dollars are saved in lower insurance rates. They need practically no repairs and never need painting.

Concrete barnyards make the best kind of a feeding-floor and save many dollars in feed bills, as your stock gets every particle that you feed to them.

Send for this free book "What the Farmer Can do With Concrete." It shows just how to build your own concrete barn, feeding-floor or any other building that you may need.

LETTER TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C.,
March 17, 1914.

Editor, Summerland Review.

Dear Sir,
Following up the lecture given last Friday evening on the subject of live stock, and the discussion of the same subject on Saturday afternoon, I ask your permission to make some remarks which may be of general interest.

The lecturer gave evidence of a good knowledge of that part of his subject relating to the care and feeding of the animals; his talk on which, I am sure, everyone present enjoyed.

I am, however, British enough to ask for fair play, and must challenge the reflections made on the qualities of those noble cows, the "Black and Whites."

The reflection I refer to is on the quality of Holstein milk. It is quite unfair to take the poorest cow of the breed and hold her up as a fair sample against the best to hand of another. I admit there are quite a number of Holstein cows whose milk tests from 3 per cent. to 3 1/2 per cent. fat, but as a rule they are yielding large quantities, which is the natural tendency but not essential result with all breeds.

There are a number of large Holstein herds comprised of cows whose milk tests 4 per cent. and 5 per cent. fat. I know of one herd in Ontario numbering 75 to 100 head, not one of which gives milk with an average test below 4 per cent. fat, and none below 8,000 lbs. of milk per year.

The Chicago Medical Association demands that only Holstein cows' milk be used in their hospitals, because it has been found to be the most wholesome and easily digested, test 4 per cent. fat.

Now the value of milk is based on the total solids it contains, and people generally want the cow which will produce the greatest quantity of solids every year.

The old, old remark which I have heard made so often in Summerland with reference to Jerseys, by their owners, is, "She doesn't give much, but it's awfully rich," is somewhat misleading. What does it mean? Is she a good cow? Would she pay for her keeping? I have had opportunity to test the milk of many such cows and how often have found the owner badly fooled! The fat globules have been large and bobbed quickly to the top, therefore, the milk was thought to be rich. In some cases the milk tested very little over 3 per cent. fat. The dear little things may be DEAR enough if the truth is known.

The following figures may give some idea of the value of a cow as determined by the fat in the milk:

A cow's yearly yield of milk	Test	Butter
2,000 lbs.	5 p.c. fat	about 118 lbs
3,000 "	4 1/2 "	" 158 "
4,000 "	4 1/2 "	" 212 "
5,000 "	4 1/2 "	" 265 "
8,000 "	4 "	" 376 1/2 "
8,000 "	3 1/2 "	" 329 "
8,000 "	3 "	" 282 "
10,000 "	3 "	" 353 "
10,000 "	3 1/2 "	" 412 "
10,000 "	4 "	" 470 1/2 "

It will be seen by above figures that a fairly large quantity of milk, even with a low test of 3 per cent. is better in total returns than the general flow with the higher test.

Some years ago I was connected with a dairy farm on which Jersey cows were kept and one of my duties was to make up the yearly records of the herd. There were about eleven hundred head altogether. It was controlled by the New York Medical Society. There was plenty of money to back it up, but during my stay it was not paying expenses.

My own records in Summerland show plainly what cows paid their way and what cows did not. I had three pure bred Jerseys sent to me from one of the largest Jersey herds in Canada. This firm advertises "Family Cows." I will hunt up their records if anyone wishes to see them. I had Ayrshire and Holstein grades at the same time that gave better milk and almost double the quantity and the same food, on trial.

Why not Ayrshires instead of Holsteins? It would take too long to go into this comparison, but I should give Ayrshires preference over Jerseys because of their better constitution and vigor. But the successful family cow must be the successful commercial cow, and the leading one to-day is the

Holstein. The Holstein calf makes best of all veal; the cow is strong and disease-resisting; quiet and easy to milk. She will milk from rough food and less grain; she belongs to the oldest breed in existence, and produces a greater percentage of profitable milkers in her offspring.

Thanking you for allowing me so much space.

Respectfully yours,
A. A. DERRICK.

New B.C. Timber Law

Victoria, B.C., Mar. 30.—Many are the compliments received by the Hon. William R. Ross, Minister of Lands, for the Timber Royalty Bill in which the principle of profit-sharing in the timber resource was a feature. Prominent Canadians and residents of the United States, including members of the cabinet of that country, have sent letters warmly commending the new act.

Hon. Clifford Sifton, President of the Canadian Commission of Conservation, writes, congratulating the Minister of Lands and says: "I have repeatedly said during the last year that British Columbia was the most advanced province in the Dominion so far as attention to the question of forest protection was concerned, and I may now say the same thing in regard to the question of disposition of timber belonging to the province."

Henry S. Graves, Chief Forester of the United States, writes: "I have just learned of the recent action by British Columbia with reference to the royalty on public timber. I want to express my pleasure at the great progress which has been made in your country, and to extend my heartiest congratulations. The recognition of the right of the public to share in the increasing value of public timber is, in my opinion, a vital one."

The Secretary of the Department of Agriculture of the United States writes: "The plan of readjusting stumpage values of timber at stated intervals in sales from public lands whereby the public will derive a fair share of the increase in lumber values is one with which I am in hearty accord. You will doubtless be interested in learning that a provision of this character is included in the new law."

Shiloh

**SYNOPSIS OF COAL MINING
REGULATIONS.**

COAL MINING RIGHTS of the
Dominion, in Manitoba, Saskat-
chewan, and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the Pro-
vince of British Columbia, may be
leased for a term of twenty-one
years at an annual rental of \$1 per
acre. Not more than 2,560 acres
will be leased to one applicant.
Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.

In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.

Each application must be accom-
panied by a fee of \$5, which will
be refunded if the rights applied
for are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.
The lease will include the coal min-
ing rights only, but the lessee may
be permitted to purchase whatever
available surface rights may be
considered necessary for the work-
ing of the mine at the rate of \$10
an acre. For full information ap-
plication should be made to the
Secretary of the Department of the
Interior, Ottawa, or to any Agent
or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this adver-
tisement will not be paid for.

**How To Grow
Alfalfa.**

The idea is very common that
alfalfa enriches the soil. This is
true with regard to just one ele-
ment, namely, nitrogen. Alfalfa
takes nitrogen out of the air and
puts it in the soil just as clover
and the other legumes do, but it
takes out of the soil all the other
plant foods, and because it is a
heavier yielder it takes these plant
foods out rather faster than some
of the other crops. It is necessary
then that the ground should be
reasonably rich and frequently top-
dressed if your alfalfa is going to
be a marked success. The top-
dressing used should be well rotted
manure, and your personal know-
ledge of the land will determine
how thick it should be spread.
Seeding should be done at the rate
of about ten to twelve pounds per
acre, and with regard to the choice
of seed, there is little question
that the "Grimm" is the hardiest
for this section. If not able to se-
cure the "Grimm" get some guar-
anteed "Montana" as alfalfa seed
coming from the South belongs to
strains that are not hardy in this
climate. Sow as soon as the ground
has warmed up well in the spring
after you have stirred your land
and got it worked down into the
best possible condition.

Do not use a nurse crop. The
chances are, especially on soil such
as indicated, that the nurse crop
will take so much moisture out of
the ground that the mid-summer
drouth will catch the young alfalfa
plants and kill them.

**HANDLING THE
FIRST YEAR.**

When the young alfalfa is about
a foot high, run the mower over it
and clip off the heads, setting the
mower about four to six inches
from the ground. Leave the clipp-
ings on the ground. Do this a
second time, in late August or
early September. The object of
leaving the clippings on the ground
is to provide as much of a mulch
as possible and prevent the drying
out of the surface. After the sec-
ond clipping, let the crop grow up
to the time of frost, and by this
time there should be sufficient
stand to make a good catch for the
snow. It should be remembered
that the bare spots are those likely
to kill out, but a fair snow cover-
ing is a reasonably good protection.

**WHEN TO CUT
THE CROP.**

The second season the alfalfa
should be well enough rooted so
that there will be no particular
danger. Watch the crowns of the
plants and when you see little
shoots coming out around the
crown, the beginnings of new
stems, it is time for the first cut-
ting. This will be just about when
a third of the blossoms are out,
but it is better to time the cutting
by the shoots on crown than by the
blossoms. The second and possibly
a third cutting can be secured in
this way. Remember to let the
cover grow up in the fall so that
the snow will hold as in the former
year.

**USE CARE IN
PASTURING.**

Alfalfa makes a good pasture for
hogs, and cattle may be pastured
on it if care is taken not to let
them run too long, otherwise they
are apt to bloat. They should be
turned out a few minutes a day to
begin with, and the time may be
gradually lengthened as they get
accustomed to the feed and your
experience shows you they can
safely be trusted on the field.

A reasonable return for an alfalfa
field is from three to four tons per
acre. This has an approximate
feeding value of \$15 per ton when
bran is sold at \$22, and in the
ration it serves the same purpose.

**BEST TO INOCULATE
THE SOIL.**

With regard to the inoculation
of the soil the chances are that on
sandy loam inoculation will be
especially desirable. This may be
secured by taking from one to two
hundred pounds per acre from a
well-established alfalfa field, scat-
tering it over the surface and har-
rowing it in immediately at a time
when the sun is not shining. The
bacteria that we want to get in
doing this are very easily killed by
coming into contact with the direct
sunlight. A cloudy day should be
chosen, both for digging the soil
and for sowing it. It may be
sneaked up and stored away for some

Shipping Arms for the Mexican Rebels.

Since President Wilson raised the embargo on the ship-
ment of arms into Mexico, rifle, revolver, powder and big
gun manufacturers in all parts of the United States are
busily engaged in shipping weapons to the Mexican rebels.
Large quantities of arms held at New Orleans, El Paso,
Presidio, Texas, and other points convenient to Mexico, are
being released from warehouses. The photograph shows arms
being packed in New Orleans for shipment to the Constitu-
tionalists.

College Notes.

John Marshall conducted both
services in the Baptist Church here
last Sunday.

Ed. W. Armstrong conducted the
services in the Methodist Church
at Peachland last Sunday.

The basketball team were the
guests of Prof. and Mrs. Everton to
dinner on Monday evening.

The young ladies and members of
the Faculty of Morton Hall were
the guests of Mrs. Wilson at after-
noon tea on Friday.

George Clingan from Salmon
Arm, and one of last year's sopho-
more class is in town. He spent
Sunday at the College, renewing
old acquaintances.

Now that the warm weather has
come again the boys are out prac-
ticing baseball. Captain McDou-
gall plans to have some practice
games held very soon.

Two more of the Commercial
Class have finished and left for
their homes within the last few
days. Saturday morning Miss Zella
Leverington left for her home at
Armstrong, and on Tuesday morn-
ing Grant Clark left for his home
at Claresholm, Alta.

On Tuesday evening the regular
meeting of the Y.W. and Y.M.C.A.
was held, with John McLeod lead-
ing. Ed. Armstrong gave a good
address on the verse: "Where-
withal shall a young man cleanse
his ways." Miss Leone Morrison
and Fay Walrod sang a duet, which
was good.

few days without any loss of value
so far as the bacteria are con-
cerned. Land that is sandy prob-
ably needs an application of lime.
From two to four tons per acre of
the pulverized limestone will be a
safe investment. Whether or not
rock phosphate can be used can best
be decided by sowing a small strip
across the field and noting the re-
sult during the first year. The
lime and rock phosphate can be ap-
plied as top dressing in after years,
but these are not complete fertil-
izers, and common barnyard man-
ure is your best standby.

GROWERS, ATTENTION!

The Okanagan Jam Co. Ltd.
would be obliged if the growers
will send in lists of the approxi-
mate amount of each fruit and
vegetable they expect to have at
their disposal during the forthcom-
ing season, as this will greatly fa-
cilitate operations such as the arrang-
ing of contracts, etc. Lists
should be forwarded to the com-
pany's office as early as possible.

College Music Recital.

There was not a large attendance at the College Gymnasium on Friday evening last, when the Music Department of Okanagan College gave their postponed public recital. The program, though largely instrumental, was quite varied in character, and great credit is reflected on Prof. W. H. A. Moore and his assistants in the Music Department for the plainly apparent progress of the students.

A number of the performers made their first public appearance, and all acquitted themselves in a manner distinctly promising. These were the Misses Marjorie Hatfield, Jean McIntyre, Edna English, and Ida Shields, who gave piano solos, and the Misses Shields and Misses Angwin and Elsey, who rendered duets.

Of the older performers, Miss Beatrice Lang, Miss Edith Thomson, and Miss Ruth Dale are already known in Summerland, and their efforts on Friday evening enhanced their growing reputations. Miss Eva Patterson, a resident of Morton Hall, gave a finished rendering of "The Chapel in the Mountain" that greatly appealed to the audience. Miss Edna McLeod concluded the program with a brilliance which she has seldom surpassed in any of her frequent local appearances. Her selection was a Rondo Capriccioso by Mendelssohn.

But three vocal numbers were given. Miss Myrtle Clay gave two short songs, and was heard to better advantage in Chaminade's well-known "Rosary." Miss Helen Sawyer and Miss Ruth Dale were the other vocalists, and both deserve no less credit.

An addition to the program might be suggested—that the instructors of the Music Department also add their names. Opportunities to hear them come too seldom, and these recitals furnish fitting occasions which the public would certainly welcome.

W.C.T.U. Meeting.

(Contributed)

The Union met in the Presbyterian Church on Monday afternoon. Miss Dale gave an impressive Bible reading, taking passages from the gospel by Mark, bringing out the thought of service, as our Lord himself came not to be ministered unto but to minister.

After transacting the business on hand, Mrs. Bent dealt with the subject of "Cider," revealing some surprising facts, not very commonly known. Cider is somewhat generally believed to be a harmless drink, but is, in reality, a dangerous one, creating an appetite for something stronger. At the right temperature alcohol very soon forms in cider, so that there is practically very little "sweet cider."

The Presbyterian Church was chosen as the meeting place for the coming convention, and it was decided to adjourn to the Baptist Church for luncheon each day.

The dates for the convention are Thursday, April 30th, and Friday, May 1st. Dr. Spencer will lecture each evening. On Thursday evening his subject will be "The Women of the World and Their Work;" on Friday evening, "Shall There Be a Banish the Bar" Crusade in B.C."

FIENDISH CRIME.

Jack Kong, a seventeen year old Chinese boy, has confessed to the murder of his mistress in her Vancouver home. The victim, Mrs. Millard, wife of a C.P.R. ticket agent, had angered the boy, who has been an inmate of the home for four years, by scolding him for burning the porridge, and ordering him to make more. The lad, who attended the school across the street, refused because it was near school time, and Mrs. Millard, according to the story, threatened to cut off his ear in order to enforce obedience. The Chinaman thereupon struck Mrs. Millard with a chair, causing her death. To hide his crime the body was taken to the basement, cut in pieces and burned in the furnace, and every means possible were used to persuade the husband that the woman had gone out and had not returned. Later a full confession was obtained.

PRICE ELLISON PREDICTS BIGGEST VALLEY CROP YET.

"Everything points to a tremendous fruit crop in the Okanagan this year—the greatest in the history of the province. This is expected for a variety of reasons—climatic conditions have been all that could be desired, more acreage is being utilized, and young orchards are constantly coming into the bearing stage. And I may add that this happy situation will find the producers in a better position than ever to reap the reward which is justly theirs."

Such is the opinion made by Hon. Price Ellison, who has just returned to Victoria from a tour of his constituency, the Okanagan Valley.

BAPTIST SERVICES.

Easter Sunday will be observed at the Baptist Churches in the true spirit of this great festival of all Christianity, and to congregations at Parkdale and the Lakeside Churches the beautiful Easter message will be delivered at morning and evening services by Rev. S. Everton.

In the morning at the Parkdale Church there will be a devotional service of especial character, and the Sunday School will attend in a body, adding their fresh young voices to the singing of the Easter hymns, while Rev. S. Everton will consider them too, in the course of his sermon.

At the evening service at the Lakeside there is to be a baptismal service, conducted by Rev. S. Everton. Special music and hymns will be rendered, with Mrs. George Ross, Miss Anna Hayes and others among the singers and soloists.

ST. STEPHEN'S CHURCH.

The usual meeting of the W. A. was held at the rectory yesterday (Wednesday). The members are all now very busy for the sale of work which will be held with a Ten Cent Tea at the residence of Mrs. Cartwright on Wednesday, April 22nd.

To-morrow being Good Friday, there will be the usual three hours' service of devotion and vigil from twelve noon to three p.m., with brief addresses on the "Seven Words from the Cross," by Rev. D. E. D. Robertson.

On Tuesday, Wednesday, and today there has been Holy Communion at 8 a.m., and to-night there is a short evensong and address at 8 o'clock.

All who are willing to assist in the decorating of the church for Easter Day, are asked to come in on Saturday afternoon to meet Mrs. Robertson and her helpers.

So ready a response was made in the raising of a fund to purchase some white flowers for the altar that it has been found possible to obtain some for the window decoration.

A brief service of preparation for the Easter Communion will be held in the church on Saturday evening at 8 o'clock.

The Easter Day services will commence with Holy Communion at 8 a.m., and again at nine a.m. Said matins will be at 10:30 o'clock, and Choral Eucharist at 11 o'clock. Special Easter music, chanting and hymns, which have been all rehearsed by the congregation and choir will make this service a very attractive and beautiful one. Evensong will be as usual at 7 p.m., with Easter music.

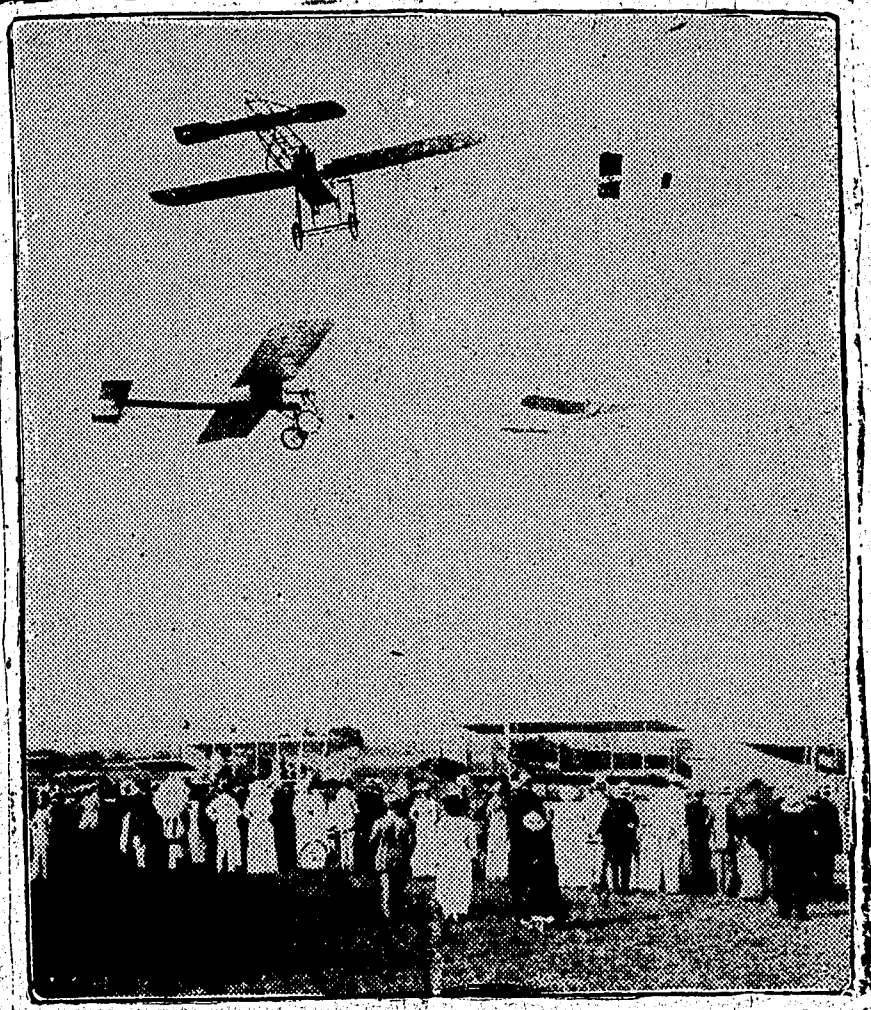

INSP. CUNNINGHAM IS HOME AGAIN.

Inspector of Fruit Posts, Thomas Cunningham had so far recovered from his accident that he was able to return to his home in Vancouver last week-end. The veteran official was injured while travelling to Victoria three weeks ago, suffering a broken shoulder and wounds on the head through falling down a companionway on the steamer "Princess Sophia."

Mr Cunningham is likely to come to Summerland shortly, so that he may the more rapidly fully recover his wonted vigor.

When the tree crop is ripe it should be harvested.

Scene at an U.S. Navy Aviation Meet.

The simultaneous flight of eight aeroplanes above the aviation field at Garden City, Long Island, was considered the crowning feature of the Navy Day Meet.

ORCHARD PLAYERS VISIT SUMMERLAND.

PLAYING "DAVID GARRICK."

To commemorate the fiftieth anniversary of the masterpiece of that sterling English dramatist, "Tom" Robertson, the "Orchard Players" have decided to present this season an elaborate revival of "David Garrick." It was with this play that Robertson made his first success as a dramatist in 1864, and owing to the excellence of its construction and stage craft, its light and merry humor, its wholesome, healthy tone, and happy contrasts, and the sunny spirit that shines through it, it has held the boards almost continuously for the last half century.

The plot of the piece is so well-known to theatregoers as to require no comment. A young girl, the daughter of a wealthy London merchant, falls in love with the famous actor, David Garrick; whom she has seen act several times. In order to cure her of her passion, that he may wed her to a rich young man whom he favors, her father invites Garrick to dine at his house, secretly persuading him to feign intoxication in order that Ada may be disgusted with her idol. The dinner scene abounds in humorous touches, and the plot bids fair to succeed, until mere chance reveals to Ada the deception which has been practiced upon her and thus intensifies her love for Garrick. In the last act every-thing comes out well, and the rich merchant begs Garrick to "do me the honor of accepting my daughter's hand."

In producing this play the "Orchard Players" have given a great deal of thought and study to costumes, scenery, and properties, in order that the atmosphere of London in 1750 may be faithfully preserved.

The title role, which was one of the great parts of the older Southern, and which has been essayed by many, will be in the hands of William Sauter, who has won his theatrical spurs with such notables as Sir J. Forbes Robertson, E. S. Willard, James K. Jackson, Eleanor Robson and William Gerriss, and may therefore be expected to give an interesting performance.

Miss Dora Rignold, who will be remembered for her engagement with Sir Herbert Tree at His Majesty's Theatre, London, in "Pinkie" and "The Fairies," will play "Ada," and prominent in the supporting company will be Arthur L. Scaimes and L. Race Dunrobin.

The "Orchard Players" will appear at the Empire Hall next Thursday, April 16th.

Spouting is almost completed in this district. There is a magnificent showing of fruit this year.

"MYRTLE REBEKAH" LODGE.

ENJOYS TRIP TO KELOWNA.

A most delightful lake excursion, followed by pleasant hospitality at the Orchard City, characterized the journey of fifteen members of Myrtle Rebekah Lodge No. 32 on Monday to Kelowna, where the institution of a new lodge for that town took place.

The merry party embarked in almost June weather on the "Skookum" shortly before five o'clock, and the stout little lake boat, trim, snowy white and wonderfully improved as she has emerged from the hands of her rebuilders, received a hearty welcome. All the chief officers and many members of our local lodge comprised the party, and with them was Mrs. Adelaide E. Parker of Cranbrook, President of the Rebekah Assembly, who made an official visit to Summerland over the week-end.

Good time up the lake was made in sunshine and later through a beautiful sunset, everyone thoroughly enjoying themselves, and Kelowna was reached at a quarter to eight. On the wharf a small party of local residents and intending members, headed by Miss Gamble, Noble Grand, and Mrs. Clarke, Vice-Grand, of Sunset Lodge, Armstrong (Instituting Officers) accorded a hearty welcome to Myrtle Lodge members, and escorted them to the lodge room of the Kelowna Oddfellows. Here the business of the evening took place. Some thirty men and women were initiated, and the Kelowna Lodge No. 36 came into being, the ceremonies of initiation being undertaken by Mrs. Adelaide E. Parker, and Mrs. Gamble, assisted by Miss Myrtle Conway. A good deal of time was occupied by the institution business, and it was growing late when supper was served. A most beautiful and dainty menu had been prepared, and was served buffet fashion by the hosts and hostesses of Kelowna, and at its conclusion an informal dance took place. The Summerland party after enjoying a few numbers realized that home had to be reached, and at 2 a.m. bid farewell to their hospitable entertainers and embarked for the homeward journey. It was five o'clock on an exquisitely fresh, bright spring morning, when the sleepy but happy excursionists landed at the wharf, after a trip that will be well inscribed in Lodge annals.

A thoroughly enjoyable tea party was given on Tuesday afternoon by Mrs. R. C. Lipsott, who is the host of hostesses, the College Faculty and students being largely represented among the guests. Games and music occupied very delightfully an hour or two of the time.

ST. ANDREW'S LADIES' AID PICTURESQUE ENTERTAINMENT

One of the most amusing and certainly vividly picturesque little affairs in the way of entertainment which we have seen for some time was presented on Monday night by the Ladies' Aid of St Andrew's Church. The ladies must have worked indefatigably to produce the finished and bright little farce which was staged in the College Gymnasium, and the mirth which, with a crowded audience, greeted the "Old Time Ladies' Aid at Mohawk Cross Roads," was the best criticism that actors and acting could ask.

In all the glory of flower garlands, poke bonnets, hoops and ringlets the Early Victorian Ladies' Aid invaded the Gymnasium, and brought an old-world atmosphere into an April evening of our commonplace modern time, that was delightfully refreshing. Our stately little great grandmothers took tickets at the door, and ushered us into our seats, with old world grace and dignity, while we did not so much as dare smile at panner, poke or sandalled shoe.

Then when the "Business Meeting" in all its pomp and panoply blossomed on the stage, we applauded vigorously, for a treat in store. The scene was an Early Victorian drawing-room, and here Mrs. G. W. Lang, in silken-hooped gown and white curls presided as hostess with a charming grace and dignity, and greeted Miss Maud McLaren and Mrs. G. W. Morfitt, who filled the parts of smart and exclusive Boston ladies with admirable air. The Boston ladies sang for their hostess and the company, but none listened! Alas for "business" when the ladies got into full swing!

Nothing of more serious import than "how many pieces should a pie be cut into?" came out of the lady-like clamour! The inevitable suffragette appeared to add disorder and break up the meeting, and Miss Aitchison and Mrs. A. Milne, as representatives of the Militant Sisterhood, broke cups and saucers, distributed leaflets, and shrieked "Votes for Women" with a vivacity and energy that delighted everyone. Miss Lister was a clever "Mrs. Growler," and her rendering of the "Mohawk Waltz" was one of the interesting interludes of the meeting.

Miss Rothwell as "Madam President" had a very strenuous task in keeping order, and filled her difficult role capably, being well assisted by Miss Munn, "Secretary-Treasurer," whose minutes were of course drowned in the uproar. Another quaint figure was "Mrs. Roberts," a tiresome deaf old lady with ear trumpet and eyeglasses, interpreted excellently by Mrs. English. A gentle peacemaker in her quaint attire, who patiently strove to bring order out of chaos was played prettily by Mrs. A. B. Elliott.

Two hours' hearty laughter and interest indeed was the merry meeting which, by the by, was spiced with many sly local hits that took well. Many were the compliments paid to the talented band of actresses by a pleased audience. Mrs. C. H. Daly's task as prompter was light, for seldom was a cue missed. The Ladies' Aid have handed over a considerable sum to the Church funds as a result of their most admirable effort.

We are requested to state on behalf of the Chairman and other members of the School Board that the item in our last issue referring to the recent report of the High School Inspector was unauthorized, and that the report was, as usual, confidential.

Editorial Note—Being held so close to the time of our going to press the Review was, we regret, unable to be represented at the meeting referred to above, but a report of same was obtained by phone shortly after from an authoritative source.

All the Valley was represented socially, and many invitations were received in Summerland at the large dance given by the K.V.R. and Grant Smith's Companies at Kelowna on Friday night.

Railway Construction.

Information brought from the construction camps at and beyond Osprey Lake is to the effect that every effort is being made to complete at the earliest moment the section which will link the K.V.R. with the V.V. & E. at East Princeton. Some 130 men with steam shovels and donkey locomotives are at the camp at Osprey Lake and grading is already under way. Other sub-contractors, coming in from Princeton, are taking up the work as quickly as possible and it is said that several steam shovels are now en route for these contractors.

Messrs Guthrie McDougall & Co. who had established their headquarters camp at Osprey Lake are removing to a point near East Princeton. It is said the change has been made because of its being easier to get in supplies from that end.

On the east side of Okanagan Lake excellent progress is being made with the ballasting, steel having been laid for some distance beyond the big tunnel. The necessity of building a large number of bridges near the summit is delaying the connecting up of Carmi with the Okanagan. In one section in that vicinity there are 18 bridges, in 6 miles.

Between Hope and Coquihalla Summit half the grading is completed. 2000 men are employed there and improved weather conditions permit of better progress. This section, offering a short cut with the Coast district, will be open for traffic early in 1915.

LOCALS.

Mr. and Mrs. J. R. Conway of Vernon are expected here for the holidays.

Miss Gladys Limmer comes in to-night from Penticton, and will spend the Easter holiday with her parents here.

Mr. and Mrs. J. R. Brown purpose spending Easter at Walhachin, B.C., with their daughter, Mrs. G. A. McLaine.

Mr. George H. Bent has rented from Mr. W. C. Kelley, representing the assignees, the T. E. Moore orchard for the season of 1914.

Miss Dorothy Harrington went out on this morning's boat with Miss Leone Morrison with whom she will spend the Easter holidays at Peachland.

Mrs. J. Downton, who spent last week-end with her sister, Mrs. Vernon at Kelowna, brought her niece back with her on a few days' visit.

Major and Mrs. Hutton returned from the Coast where they have been spending the winter on Wednesday night's boat. They are in time to see the Valley in all the fresh beauty of spring.

Mr. J. O. Kennedy of the Canadian Bank of Commerce begins his holiday on Monday next, and will spend part of the time at Princeton. He is being relieved by Mr. J. Hunter, of Penticton.

Mrs. Skillen, mother of Miss Skillen of Okanagan College, arrived here on Saturday's boat, and will remain for some weeks with her daughter. Miss Skillen met her mother at the Landing.

Final rehearsals indicate that the rendering of the sacred oratorio "From Olivet to Calvary," the Eastertide story in song, on Good Friday evening in Empire Hall will be exceedingly creditable. Tickets, 50 cents. Commence at eight o'clock.

The regular monthly meeting of the Summerland Women's Institute will be held in the Men's Club on Friday, April 17th, at three o'clock. The subjects will be "Hyacinth Culture," by Mrs. Latimer, and "How Best to Beautify our Home Grounds," by Miss Spencer. The Institute hopes to entertain the Penticton and West Summerland Institutes, also some of the Naramata friends. There will be the question drawer and music. In answer to the roll call names beginning with F, G, and H will answer with current events, and the rest with some quotation from Tennyson.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 80 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, APRIL 10, 1914.

EASTER THOUGHTS.

BEAUTIFUL EASTER TIDE! Had not that Roman seal been broken, and the powers of darkness thwarted, there would have been no light at Easter tide. But the Son of Righteousness has risen with healing in his wings, and now His glory is the light of Easter Day.

There are many superstitions connected with Easter Sunday which are significant of the season, and are almost as imperative as laws. One of these is the necessity of having something new to wear on this day in order to insure happiness for the coming year. Hence the Easter bonnet. Another one is that on that day the sun dances.

The word Easter is almost synonymous with happiness; but happiest of all are those who have the Easter vision, which is the vision of a living Christ. Easter Day is the celebration of the Resurrection of our Lord, "who liveth and was dead, and is alive for evermore." That is the old, yet ever new, the precious Easter truth, "a living Christ," to give new life through the hope of immortality. Where is the sting of death or the victory of the grave, with the expectation of a perfect world beyond?

There is a wonderful charm and fascination in this queen festival of the year, which dominates the whole world with its wonderful lessons of returning life. Not only is the deep religious significance of the occasion illustrated in the most attractive and beautiful form as a lesson to the eye, and through that to the heart, but the joyful features of Easter, the upspringing of hope and the miracle of returning life, inspire a condition of joy and happiness in the lives of young and old, and the most insensible object becomes a part of the carnival of joy.

Easter Sunday, which for centuries was observed only by certain churches is now almost universally kept as a day of days, all evangelical churches symbolizing it as the anniversary commemorative of the resurrection of Christ, a festival which in the early Christian era was distinguished as the Sunday of joy, and which Gregory Nazianzen 1,500 years ago called the "Queen of days that excels all others as far as the sun exceeds the other stars, and which is still known in the East as the 'bright day.'" Another typical name of Easter is the "Holiday of Hope."

Peachland Notes.

Mr Achley and family of Glen Rosa moved into Dr. Crompton's house on Wednesday the 1st of April.

Mr Alex. Ferguson and family who for the last three years has been living in town has moved out to his ranch.

The Women's Institute will hold their regular meeting in the basement of the Baptist Church on April 14th. A good program has been arranged.

Mrs Baine of Naramata is here bidding good-bye to her sisters Mrs J. Wright and Mrs. J. L. Elliott, before leaving for her home in Fort George.

A birthday marriage anniversary social will be held by the Presbyterian Ladies Aid at the home of Mrs Thompson Elliott on Tuesday, April 21st.

Rev. J. Knox Wright, travelling for the Bible Society, will preach in the Baptist Church on Sunday morning and in the Methodist Church in the evening.

The "Hunks," juniors, played Westbank juniors on Saturday in a lively game of baseball, which resulted in a big score for our home boys. Our little ones have great prospects of being professional players some day.

A still more exciting game took place at Summerland on Saturday, when our town team played the Collego, winning by six runs. It was the first game of the season for our boys, and we feel proud of them. It is expected that a game will be played with Pentleton on Good Friday, and one on Monday with the Collego on the home ground.

It is easy for a girl to have a good time if she has a healthy imagination.

If you want to sell you must advertise.

It is better for a girl to be given in marriage than it is for a man to be sold.

TO OUR MANY FRIENDS AND GENERAL PUBLIC.

This great event has converted an emergency into a phenomenal business triumph for us, and has most certainly been beneficial to all who have taken advantage. When we found it necessary to raise immediate cash it was not a question of our not having abundance of assets, but a question of converting a portion into cash at the earliest moment. Our ware-room reserve stock was very large, much exceeding the demand at this particular season. We wish to sincerely thank the public who have so generously responded by extending their patronage, thereby aiding us. In the future, as in the past, we will do all within our power to make these two Stores worthy of your patronage and every confidence.

Tuesday will be too late
Why not supply future wants for the next 6 months at these prices?

"Babies" versus Benedicts.

The baseball game on Thursday afternoon last between the young boys and married men, "The Babies v. The Benedicts," as the notice ran, was full of all sorts of genuine fun, and marred to some extent by an accident to Mr Mulford, who as catcher ventured too close up without the mask behind the batter, and received an ugly gash over his left eye.

The scoring for a league game would be considered quite high enough for a whole series of games, but let us look upon it as a mark of our superior "batsmanship." It's a shame to have to confess it but it is true that the boys won out a 14-16 score on a seven-innings game.

But it must be taken into consideration that there was a conspicuous lack of practice, and some of the rules were new—having changed somewhat in the last 20 years when the Benedicts played on back lots with pump handle bats and old yarn balls.

The following was the personnel of the teams:

"Babies"	Benedicts
Harold Mitchell c	A. Mulford
Guy Brock p	M. Manchester
Roy Boothe 1st b	F. Roe
Guy Ireland 2nd b	T. Boothe
Wm. Mitchell 3rd b	J. Noyes
Earl Hughes, s s	J. Pushman
Stanley Stiff r	f. Manchester
Edmund Boothe, c f	W. Armour
Arthur Stiff 1 f	D. Walters
Umpire, Mr. N. Mitchell.

Current Events — OF — Town & District.

Mr S. D. Evans of Penticton was a business visitor to town on Monday afternoon.

The grounds in the vicinity of the Syndica are being graded up preparatory to being turned into a lawn.

R. H. King of Penticton was a visitor to town on Thursday last. Mr King contemplates removing to Naramata shortly.

W. Simms, government fruit pest inspector, paid an official visit to our community this week, looking over most of the lots of absentee owners. In a few cases it was found advisable and necessary to cut out whole trees.

A number of the fruit ranchers following out the advice of the recent lecturers on horticulture in regard to live stock on the farm and orchard plot, have purchased cows with which to provide milk and butter for home consumption.

Mr Fred Roe reports quite a demand for the product of the carbonating works, and with the increased space used for advertising it is highly probable that this demand may attain in the course of the season, the capacity of the present plant.

The "Rowena" has been renamed the "Trepianier" after the Boat Co. submitting all lists of names totalling over thirty in number. This naming of the craft was a necessary condition to the obtaining of a government charter to lawfully engage in the ferry service.

The "Skookum" is running temporarily in place of the "Trepianier" which has been or is being hauled up for repairs. After the regular trip of the government inspector, when the official inspection will take place, the now speedy and altogether finely equipped vessel will become a part of the Boat Co.'s fully fledged fleet.

Messrs Helmer and Simms of the Provincial Horticultural Department, gave a practical demonstration of top-grafting on the Gillespie orchard on Tuesday afternoon. The demonstration was witnessed by only a small number of ranchers, owing doubtless to the fact that everyone is too busy to attend. However, the representative growers who did attend were well pleased with the exhibition.

Mr O. Hughes, who has resided in the ranch cottage all winter, has removed with his wife and family to the Mulford lakeshore bungalow.

The school children are to enjoy a whole week's respite from the routine of school life, the holiday extending till Monday, April 20th.

Master Joseph Morsch, after a full month's absence from school as a result of a sprained ankle, resumed his studies at the High School, Summerland, this week.

Mr N. Mitchell, who has been incapacitated from duty for several days owing to injuries received from the bite of a horse on his right hand, will soon be able to "hold the ribbons" once more.

There died on Monday afternoon at Ireland's Restaurant, a Swede named John Dahlstrom, after a long period of suffering as the result of cancer of the liver. The funeral was on Wednesday afternoon, the arrangements for which were delegated to Mr. Cook. Rev. W. P. Bunt, the local pastor, officiated.

The Okanagan Trust Co. are again busy putting the ditches and flumes of their irrigation system in shape for the season's operations. With the additional acreage brought under cultivation during the last six years, there is need to take every precaution to conserve every inch of water coming down the creeks, especially along toward July and August.

The program for a concert under Unity Club auspices is being prepared under the direction of Mr. Fred Manchester. While possibly a little premature to say much, if anything, in detail as yet, it would be just as well to bear this fact in mind; that sometime along in May we shall have the opportunity of hearing from local talent a really good evening's entertainment.

Mr Geo. Wolstencroft is making quite an alteration on his five acre peach orchard south of town. About two hundred trees are being dynamited out, their places to be filled by pear trees. About a third of a stick of dynamite, inserted in an augur hole 12 inches in depth when set off leaves the soil within a radius of four feet, and two to three feet deep, thoroughly mulched. The plan, by no means new in other places is an innovation in Naramata, the results from which are being watched with interest.

SIR RICHARD TO LONDON.

To Succeed Lord Strathcona.

Sir Richard McBride, according to Ottawa despatches, is to be offered the Canadian High Commissionership. If Sir Richard will accept the position he will therefore be Lord Strathcona's successor in Canada's London office. It was generally agreed at the capital that the choice of Sir Richard would be a wise one, and that while our province would, in a measure, lose his services, the Dominion as a whole would stand to benefit by his presence in London.

Sir Richard, who was at Ottawa a few days ago, went to Washington where he called on President Wilson and Hon. Franklin K. Lane. These interviews were presumably in connection with the proposed railway to connect Yukon and Alaska with Southern B.C. and United States.

B.N.A. TOBACCO.

An application to wind up the British North America Tobacco Company, familiarly known as the B-nat-co, has been made by creditors of the company. Most of the shareholders are said to reside in England. Mr. Benson, manager of a trust company at Kelowna, was appointed interim liquidator under a bond of \$10,000, with authority to sell the horses and farm equipment on the company's ranches at Vernon and Kelowna. The court consented to his accepting notes for a part of the payments from farmers whose credit was considered good.

The way to easier and larger sales is paved by advertising.

Shiloh 25¢
"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough.

A BRIDAL SHOWER.

The special feature at the meeting of the Unity Club ladies last Friday afternoon was a shower in honor of Miss Freda Mitchell, daughter of the President of this live organization. The "shower," as intimated in last week's issue, given in anticipation of Miss Mitchell's approaching marriage, scheduled for Wednesday next, April 15th, was accompanied by quite a unique "marriage" ceremony. To the strains of the familiar wedding march, as played by Mrs. Languedoc, the bridal procession moved to the entrance of the ladies parlor, where under an imposing archway the ceremony took place.

The bride who was becomingly gowned in white organdie, and

who carried a bouquet of spring violets, was supported by a galaxy of five pretty maids of honor. These were the Misses Chambers, Davies, Noyes, Roe, and a younger sister, Violet Mitchell.

The bride was given away by her "father," Miss Lois Wells, while the "mother," Mrs. Fred Manchester showed becoming sorrow. The most imposing personage of the occasion, however, was the "parson," Mrs. Lewis Block, who wore a tall silk hat, and who read with exaggerated solemnity the ceremony of the bride elect to the Easter Egg, which consisted of a basket of appropriate gifts, cleverly concealed by a covering of the Easter egg formation.

The Lord helps those who help themselves—and the lord help those who do not!

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting: Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen: Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Danishes, Violas, Pansies, Perennial Candytufts, Armerias, Dorotheums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

GROWERS, ATTENTION!

The Okanagan Jam Co., Ltd. would be obliged if the growers will send in lists of the approximate amount of each fruit and vegetable they expect to have at their disposal during the forthcoming season, as this will greatly facilitate operations such as the arranging of contracts, etc. Lists should be forwarded to the company's office as early as possible.

de THOREN,
Acting Manager
Okanagan Jam Co., Ltd.

THE EASTER MESSAGE.

One of the most eloquent of pulpit orators, in his Easter message to his congregation most fittingly remarked that something happened nineteen hundred years ago in the grey light of the first Easter morning which transformed and transfigured the face of the earth. History began again. The world's heart beat with new and gladder thrill. Henceforth and forever, beneath the all-beholding sun, there is nothing which is "too good to be true." It has entered into the heart of man to conceive a good which is better than the reality of things. But we are afraid of imagination. It is a vain thing, and must be yoked to a servile mass of matter lest it soar upward and outward, into the blue sky, above the mountain tops, toward the glorious sun, and lose itself in the eternal light and eternal truth of God.

O brother-man or sister-woman, are you afraid of your own prayers? He is God. He is the Father-God, the Mother-God, the God of the buttercups and the daisies, of sunshine and spring, the God who cares for the sparrows and clothes the lilies, who spreads out the heavens as a curtain, and calls all the stars by name, who longs for you as the child of His heart, and loves you with an everlasting love, so that sin and death cannot separate you from the might of His affection nor quench His hope in you. Morning light shames our midnight fears. And the shame is that in the darkness you were not sure of the coming dawn. You ought to have known that after midnight comes the morning—in the blackest night of the year you ought to have kept God's sunshine in your soul. Angels have rolled the stone away from the grave of your ascending Lord. Clouds turn to solid rock beneath your feet. And Christ is risen indeed.

The Halcyon Sanitarium

ANALYSIS OF WATER.

Chlorine	8.14
Sulphuric Acid	363.43
Silica	74.20
Lime	84.57
Alkalies as Soda	5.91
Magnesia	232.00
Lithia	.82
Sulphurated Hydrogen	32.00

Has recently been thoroughly renovated and re-furnished, and is now the greatest health resort upon the continent. Natural hot water in baths, 124 degrees of heat. A course of baths at Halcyon will cure nervous and muscular diseases and eliminate rheumatism and metallic poisons from the system. The water heals liver, kidney and stomach complaints. The rates are \$2 a day up; or \$12 weekly up. Postoffice, express and telegraph offices in connection.

Notice

W. R. SHIELDS

Having disposed of my busi-
ness, which will take effect
April first, I would deem it a
favor for all outstanding ac-
counts to be settled at once.
I here take the opportunity of
thanking my numerous custom-
ers for their liberal patronage
in the past, and hope they will
still continue at the old stand
with my successor,

FRANK WHITFIELD.

Frank Whitfield

Passing Events: Social, Personal, &c.

Mr J. Rowley went up to Kelow-
na on business yesterday.

Mrs Noble and Mrs Milne are
spending the Easter holidays in
Kelowna.

Mr A. Anstey of Vernon, Public
School Inspector, who has been
here for a few days, went out on
last night's boat.

A. J. Beer has a good selection
of Tents in stock, for sale and for
rent. Now is the time to attend
to your needs in this line. a9

Telephone subscribers are noti-
fied that telephone rentals must be
paid by the 18th of each month if
rebate is wanted. ad

The Case car purchased by Harry
Reynolds from W. C. Kelley has
received a thorough overhauling,
and we understand it is now run-
ning better than ever.

Mr J. D. Paxton, Veterinary In-
spector, of Kamloops, who has been
busy here in connection with the
outbreak of hog cholera in three
local pens left on Tuesday night.

Mr. R. B. Berks of Victoria
spent the day here yesterday on one
of his business trips, and his bril-
liant gifts as a pianist gave de-
light to some of his friends again.

Any person owning good orchard
property and willing to trade for
A1: Saskatoon property or Saskat-
chewan farm please send in value,
location and particulars to Box 77
Summerland Review.

Some twenty-five new telephone
instruments ordered by the Sum-
merland Telephone Company from
the Kellogg Company arrived this
week, and quite a number of them
will be used at once to fill orders
already booked for new subscribers.

Special Easter services, led by
Rev. C. H. Daly, will be held in
St. Andrew's Church Sunday morn-
ing and in the Methodist Church in
the evening. At both services
there will be special Easter music
led by the choir.

A DOLLAR spent at home reacts
in its benefits with unceasing gen-
eral profit. Sent out of town its
life is ended. Kept with the home
merchants it is a messenger of con-
tinuous benefit. Business men
should awake to the importance of
keeping this dollar at home, and
make a bid for it by judicious ad-
vertising.

The Mission Circle of the Park-
dale Baptist Church met yesterday
afternoon at the residence of Mrs
H H Elsey. According to the good
and hospitable custom of seeing
that the College students revel in
eggs on Easter morning, every
lady of the Circle brought a gift
of new laid eggs which were sent
up for the Easter morning break-
fasts at the College.

Rev. Alex. Dunn of Kelowna
occupied the pulpit of St. Andrew's
Church at both morning and even-
ing services. These services were
of a special nature appropriate to
the anniversary of the Church.
Two strong and forceful addresses
were given by Rev. Mr. Dunn who
is a man of much originality and
power. There was a good congrega-
tion at the morning service
while in the evening the Church
was filled to its capacity. Special
music was rendered by the choir.

Just before the chorus rose for
the last rehearsal of "Olivet to
Calvary" in the Empire Hall last
night, Rev. R. W. Lee quietly
handed to Mr. I. Beavis, the con-
ductor, a pretty ebony and silver
baton. This unexpected little gift
is a very graceful appreciation of
Mr. Beavis' untiring work for the
Methodist Choir. The choir will,
at the hearty invitation of Rev.
R. W. and Mrs Lee, enjoy the hos-
pitality of the parsonage for supper
at the conclusion of the cantata
performance to-morrow night.

Special services will be held by
the Methodist Church on Sunday
next, Easter Sunday. The morn-
ing service will be at 11 a.m., in-
stead of 10.30, at which Easter
carols, recitations, etc., will be
given by the Sunday School, the
pastor being the preacher. The
evening service at 7 p.m. will be
in St. Andrew's Church, the preach-
er being Rev. R. W. Lee. A special
musical service is being arrang-
ed, the following soloists assist-
ing: Mrs G. W. Morfitt, Mrs Geo.
Gartrell, Mr T. G. Beavis, and
probably Mr Ben Newton. Offer-
ings will be taken at each service
towards the special appeal being
made by the church.

Seth Davidson of Peachland came
in on Tuesday night's boat for a
brief visit on business here.

S. Fraser, J Forsyth and R Cal-
lan did a tramp on Sunday after-
noon up to the Tom Kelly mine.

Mrs EA Jones with her little one,
have come in this week from Vic-
toria, to join her husband and take
up her residence here.

Two hundred McIntosh Red apple
trees now due to arrive are being
offered for sale by W. J. Beattie. ad

We are very glad to know that
Mrs W. C. Kelley has quite recov-
ered from her sharp attack of ton-
sillitis and is now out again.

Thos. H. Hocking, who spent
the winter with relatives in Corn-
wall, England, his former home, has
returned to his fruit lot at Upper
Trout Creek.

Mrs. Edgar left on Monday morn-
ing's boat for her former home in
Ottawa, where she expects to stay
for a year. Miss Jessie Stewart
accompanied her as far as Calgary.]

St. Stephen's Church.—A Ten
Cent Tea and Sale of Work will
be held (by kind permission) at the
residence of Mrs. Cartwright on
Wednesday, April 22nd, from three
to six o'clock. a3-10

Rev. C. H. Daly who occupied
the pulpit of Rev. Alex. Dunn at
Kelowna, proceeded from there on
Monday morning to Vancouver
where he is attending the Synod.
He is expected to return Friday or
Saturday.

Ben Scott, a former resident
here, has returned and has engaged
with the Summerland Lumber Co.
as engineer. During his two year's
absence Mr. Scott has been simi-
larly employed with the S. C. Smith
Lumber Co., Vernon.

Rifle Association.

The following are the leading
scores at the weekly shoot at the
range. It will be seen that pretty
good averages are being main-
tained. There is, as yet, nothing
definite settled in connection with
the new range which it is hoped to
acquire later on.

	200	500	600	Total
G. Loomer	30	33	31	94
W. Nelson	34	32	28	94
O. Smith	32	31	30	93
H. Dunsdon	30	33	28	91
W. J. Smith	32	31	28	91
J. Dunsdon	31	31	27	89
G. Barkwill	32	27	26	85

The Baseball Season.

Slowly our local teams are get-
ting into good form, and while the
opening matches as yet played have
not been any great display of seri-
ous work, there is great promise
shown, and every intimation of an
excellent season by some really
good players.

At the College diamond on Sat-
urday there was an encounter be-
tween Peachland and the Bean-
Eaters, as the gallant Collegers
dub themselves. The game was
rather disappointing to both sides,
and play was rather slow, though
the Bean-Eaters put up a good
game and did their best to put
spirit into what was somewhat
uninspiring as sport. The result
was a score of 6-1 in favor of
Peachland.

Under a brilliant sky and in hot
April sunshine on Wednesday, the
Hillelmbers (the town team) and
the Bean-Eaters met in contest that
was friendly rivalry, and a keen
desire on either side to beat the
other nicely adjusted! Play was
fairly well "evened" up, both sides
showing excellent condition, and
the progress of the game from
start to finish showed that the
teams were just getting into fine
trim. Victory was for the Bean-
Eaters at a score of 3-2 in their
favor.

To-morrow, Good Friday, the
Bean-Eaters go up to Kelowna by a
special "Skookum" trip to play the
Kelowna team on their home
ground.

Too much punch in a man takes
all the punch out of a man.

The man who makes his own job
big is the one most likely to find
a bigger.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the
Dominion, in Manitoba, Saskat-
chewan, and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the Pro-
vince of British Columbia, may be
leased for a term of twenty-one
years at an annual rental of \$1 per
acre. Not more than 2,560 acres
will be leased to one applicant.
Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.

In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.

Each application must be accom-
panied by a fee of \$5, which will
be refunded if the rights applied
for are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.
The lease will include the coal min-
ing rights only, but the lessee may
be permitted to purchase whatever
available surface rights may be
considered necessary for the work-
ing of the mine at the rate of \$10
an acre. For full information ap-
plication should be made to the
Secretary of the Department of the
Interior, Ottawa, or to any Agent
or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this adver-
tisement will not be paid for.

Kaleden Comments

Mrs James Beddall went up to
Vernon on Monday evening.

Mr James Ritchie has been down
for some days arranging for the
season's work.

Mr Robert Melville has returned
from the Coast, and expects to
spend the summer working on his
lot.

Mrs Lewis Block of Naramata
has been visiting her parents, Cap-
tain and Mrs Charles Hatfield for a
few days.

The cherry blossoms are out, and
peach and apricot are showing
color. Everything promises to be
very early.

Mr and Mrs Charles Burtch and
family of Penticton, were down
to visit Mr and Mrs T. C. Preston
last Sunday.

Mr T. C. Preston is gaining
strength very slowly, and although
he is now getting around a little
he is still very weak.

Mr H. H. Whitaker has been en-
gaged recently in spraying the
different orchards, as a preventive
of disease, on the trees.

A timetable is being printed
giving the time of service by the
new boat, the "Mallard," and will
soon be in circulation. She will
connect directly with the "Skook-
um" three times a week at least.

IT CERTAINLY PAYS TO
ADVERTISE IN "The Review."

Mr J. F. Tupper has partially
closed the school until Monday, the
20th, except for special work that
he will take on some of the days
with the entrance class.

Mr Louis Kerr met with an acci-
dent the other day, being kicked by
one of his own horses on the head
and face. We are pleased to re-
port his recovery from what might
have been a serious injury.

Mr Paul has brought in from
Ashcroft some very fine pens of
Rhode Island Red chickens and
White Wyandottes. Some of the
birds have taken many prizes at
different exhibitions, and are very
fine specimens indeed.

Miss Christina Rondhouse was
married to Mr Rex Ireland on the
evening of the 1st at the Parson-
age, Penticton, by Rev. A. W.
Thompson. The happy couple left
by the next morning's boat for
their new home at Lafield, Alberta.

We are pleased to state that al-
though Mr. and Mrs. W. A.
McDonald had made arrangements
to return to their home in Pentle-
ton they have finally consented to
remain in charge of the hotel, and
will continue in our midst. Their
very able management will be a
source of great satisfaction to all
visitors.

The anniversary services of the
Baptist Church were held on Sun-
day, April 5th, when Rev. D. J.
Welsh from Kelowna preached in
the afternoon, his subject being
"Love, one for another," and
again in the evening at 7.30 p.m.
when his address was evangelistic
in character, and was on "Paul
before Agrippa." The congrega-
tions were good, and very attentive
at both services.

SUMMERLAND, B.C., APRIL 17, 1914.

Whole No. 298

Dominion Cannery Will Again Operate Here This Summer.

Assurance Given If Sufficient Produce Is Forthcoming.

Hurried Visit of Cannery Representatives Has This Result

All uncertainties regarding the plans of the Dominion Cannery for their Summerland plant during the coming season were dispelled early on Thursday morning, when telegraphic word was received from representatives of the concern announcing that the cannery here would be put into operation soon after the first of July, if sufficient produce is available from local growers.

This announcement is a direct result of a hurried visit to Summerland last week of Messrs. Dryman and Robert Innes, a director and the secretary respectively of the Dominion Cannery, Limited. The time at the disposal of these two officials of the company during their visit here was strictly limited, and they were not able at that time to give any definite announcement as to the operation of their cannery this season. They made an endeavor to again secure the services of Mr. Eric R. Agur as manager, but since Mr. Agur is planning to give a good deal of his time this summer to operations at the Balcom Ranch, it is not at all certain whether he will be able to accept the

position. If this proves to be the case, Mr. Alex Leitch, who was here last summer at the commencement of operations, will be sent from Hamilton to take charge.

The company made it quite clear in their intimation that there must be the promise of sufficient fruit and vegetable produce from growers before they undertake to operate on a large scale. An advertisement on page 2 makes this plain. It is for the orchardists themselves to decide whether they will make it worth the while of this cannery, providing a channel of disposal for much produce that must otherwise remain on the growers' hands at a dead loss, to set their plant running again this summer. Rumor has it that last season's operations showed a financial loss more than inconsiderable, and the fact that the concern has sufficient faith in the place to carry on another year should bring them the support of many.

Mention has not been made of any possible prices that will be paid, but definite announcement regarding this will without doubt be made in due time.

"DAVID GARRICK"

PRESENTED BY "THE ORCHARD PLAYERS."

The long anticipated visit of "The Orchard Players" to our town with their interpretation of "David Garrick" gave delight last night to a crowded house in the Empire Hall. The presentation of the beautiful old world play, whose charms are ever-green, by a talented company, several members of whom are very well known to us, came up to our best anticipations.

Effective scenery, rich and picturesque costumes, and the fresh, irresistible gaiety of the "Players" combined in an almost unqualified success, and when the curtain fell on the pretty culmination of the sweet old-fashioned romance, the entire company were called to receive the hearty and prolonged plaudits of a delighted house.

Miss Dora Rignold played with perfect grace the restrained and dainty role of Ada Ingot, the part designed merely as a background for the central figure of David Garrick. She wore the quilted satin petticoat, powdered hair, and pretty stage struck airs with an infinite charm, and took the utmost advantage of her slight opportunities for holding the centre of the stage.

William Sauter's "David Garrick" was a very fine effort. His rich voice and dignified stage presence gave us the famous "play-actor" with all the best traditions of the splendid part. In the exciting drunken scene Mr. Sauter played with a force and fire that fairly roused the house, and his exit was a stirring bit of drama. Mr. Sauter was not at his best in the final scene, where "David," as a lover has always had an inimitable appeal to a house, and where the climax of a past century romance is perfectly reached.

For Mr. L. Race Dunrobin's "Simon Ingot," we can have nothing but praise; it was worthy of the best traditions of the stage. The devoted old father, the picturesque old time person in a Director of the East India Company, has been played with more robustness and force, but Mr. Dunrobin imbued the part with a rare chivalry and dignified ease that gave the keenest pleasure to his house. It was a conception of his own, and if he did not bluster sufficiently for an East India Company Director his parental sentiment was delightful.

Squire Chivy was excellent in the hands of Mr. A. L. Soames, who "yoicked" and "tally-ho-ed" through his part with untiring vigor and freshness, and was the rowdy young Squire with all his heart, and some capital humor.

Miss Mary Dykes, Mrs. A. Alwyn, and Miss Olive Thornhill all did well in their lesser parts, and the characters of Smith, Jones and Brown were also excellently filled by Messrs. Elwyn, Tennyson-Collins and E. J. Gardiner.

DAYLIGHT THROUGH BIG BORE.

The tunnelling crews met about midway in the big tunnel above Naramata last week-end, and a party of Sunday visitors had the pleasure of crawling through the opening on that day for the first. It is expected that the tunnel will be completed and track laying proceeded with by the middle of next month. It should then be but a matter of a few days before steel is linked up this side of Hydraulic Summit.

The Review, which was in error informed on the subject, regrets that a wrong impression was given of the progress of this work last week, when it was stated in those columns that steel had been laid to a short distance beyond the big tunnel, whereas track laying has only reached the vicinity of the tunnel.

BIRTHS.

WILLIAMS—To Mr. and Mrs. Geo. Williams on Saturday, April 11th, a son.

HADDRELL—To Mr. and Mrs. F. W. Haddrell, on Saturday, April 11th, a son.

"OLIVET TO CALVARY."

METHODIST CHORIR GIVES FINE RENDERING.

Empire Hall was fairly well filled on the evening of Good Friday, to enjoy what is all too rare an occurrence in our town, a choral interpretation of good music of the more serious character. Maunders' oratorio, "Olivet to Calvary," is rather a Passion cantata than oratorio, for it is descriptive and very tuneful and interspersed with several merely hymnal choruses. As the "Story of the Cross" it was well adapted for Good Friday, and was heartily appreciated by those who heard it.

The choir of the Methodist Church, augmented by some other local singers, had under the careful conducting of Mr. T. G. Beavis, given a great deal of time and work to this beautiful oratorio, and the result of their efforts was certainly a most gratifying success.

Some of the choruses demand a heavy vocal force, but what the choir lacked in sheer volume of sound was amply compensated for in expression and in very careful light and shade. Particularly was this noticeable in the tender chorus, "Twas Night O'er Lonely Olivet," where through melody of the sopranos the deep note of tenor and bass echoed with fine effect. There was some weakness apparent in the rather intricate chorus, "Bow Down Thine Ear, O Lord," where the blending of voices was not as smooth or finished as might be. But later in the second part this fault was brilliantly retrieved by the really fine and stirring rendering of "Crucify Him," which with the descriptive pomp and solemnity of "The March to Calvary" was given with a strength and melodious volume that might well have come from a chorus of far more imposing dimensions.

One of the most perfect numbers was the exquisitely tuneful quartet, "O Thou Whose Sweet Compassion, admirably interpreted by Mrs. George Ross, Miss Mae Conway, Mr. S. Sharp and Mr. J. O. Smith.

The tender beauty of the soprano solo and chorus, "Droop, Sacred Head," was another number whose melody lingered and haunted after the last note sounded. Mrs. George Ross in this did perfect justice to the sweetest and most restrained notes of her very pleasing soprano. Mrs. Ross did good work throughout, for her voice is peculiarly adapted to sacred music, and is unfalteringly true in tone.

The tenor solos entrusted to Mr. Ben Newton, contain some of the best of the oratorio, both in words and score. Mr. Newton was suffering from a slight cold, so could not make the best of his opportunities, but his voice, clear and sweet-toned, though somewhat lacking in expression, gave pleasure to his hearers, especially in the solo, "Not Of This World," and the lovely air, "Ye Who Sin and Ye Who Sorrow."

To Mr. J. O. Smith fell the not too easy task of some slight bass recitative, and he acquitted himself with credit.

Mr. T. G. Beavis is the possessor of a rich and sympathetic baritone, and in the admittedly awkward position of choir conductor and baritone soloist did splendidly. The fine quality of his voice was heard to best advantage in the aria, "A New Commandment Give I Unto You," and the solo, "Come Unto Him."

At the conclusion of the concert the choir and a great many other friends adjourned to the Parsonage to enjoy a bountiful supper, most hospitably served by Rev and Mrs. Lee. Some informal little speeches were made by a merry company, and Mr. Lee paid a graceful compliment to those who had helped his choir.

At the request of a number of people the augmented choir of the Methodist Church are repeating "Olivet to Calvary" in the Presbyterian Church on Tuesday next, April 21, at eight o'clock. Pentecost is to be visited to-night.

Voting On \$20,000 Debenture By-law April 28th.

Council Refuses to Sanction Improvement Plans of Okanagan Telephone Co.

By-law to Regulate Dairies and Sale of Milk Given Readings

A full Council gathered at the regular monthly meeting held on Thursday afternoon of last week, at the Municipal Offices. The session was not protracted, adjournment being made late in the afternoon. Most of the business dealt with arose out of communications and other documents presented to the Council for consideration.

APPEALS FOR MORE WATER.

A delegation consisting of Messrs. Wm. Beattie, P. Holder and Bent, representing property owners near the mouth of Garnett Valley, was in attendance at the opening of proceedings, and being given early opportunity to state their case, asked that provision be made to ensure a more adequate irrigation water supply during the approaching season. The growing needs of this district were pointed out, and the Council in referring the matter to the Board of Works, promised attention to the difficulty, realizing that the establishment and maintenance of an unrestricted irrigation service is one of its first duties.

A little later in the afternoon Mr. L. R. C. Douglas-Hamilton appeared before the Council to question them regarding the extension of the domestic water service to his property near Trout Creek. If the Council was not prepared to take any steps in this work, Mr. Hamilton proposed installing an independent system to suit his own purposes. The cost of this extension was reported by the Works Committee at about four hundred dollars, and though the revenue from it was shown to be nearly eighty dollars annually, there were no available funds to do the work. A somewhat unusual solution was ultimately found for the problem, when it was decided by motion that if Mrs. R. Neve and Mr. Hamilton, who would benefit to the greatest extent as users, would agree to advance the sum of one hundred dollars each, the Council would put in the extension, and credit these advances to their general and domestic water rates. Mr. Hamilton accepted this offer for himself, and it was left to the Clerk to ascertain the wishes of Mrs. Neve. A precedent may thus be established which will possibly be quoted in other connections later.

R. S. Monro also spoke with the Council regarding the exchange of a road allowance in Peach Valley, which Dr. A. S. Monro desired to effect. A former Council had approved of the transaction, but last year it was decided to drop the matter. Not feeling quite sure of their powers in such questions, the Council agreed to accept \$50 per acre for the present road allowance, on the condition that if it transpires that they are not empowered to finally act in such a way, they will carry out the exchange by a by-law at the expense of Dr. Monro.

After the minutes of the last meeting had been read and approved, the communications were read by the Clerk.

SANCTION OF OK. TEL. CO.'S PLANS WITHHELD.

The first was a letter from Municipal Solicitor W. C. Kelley, in reference to the application of the Okanagan Telephone Company for the approval of plans for improvement to their existing outdoor works. These include an aerial line from Bench Avenue, along Shaughnessy Avenue, as far as the Fruit Union Building. The Superintendent's recommendation is that this line should be underground. Mr. Kelley advised that the consent of the Council be not given to the plans until an assurance was forthcoming that the requirements laid down by the Superintendent would be met. The

Okanagan Company has intimated its inability to accept his recommendation, unless the Council are willing to pay the difference in cost. The Council will adopt the measures advised by Mr. Kelley.

H. J. Collas, of the Bank of Montreal, West Summerland, wrote to the Council, enclosing a letter from Stimson & Co., of Toronto, who have offered to take care of the small debenture issue now in process of flotation. The firm urged that the bonds be delivered as soon as possible, and asked that copies of the by-law and the covering provincial legislation also be forwarded to them. Mr. Collas was in attendance personally, and arrangements were made to make the debenture issue at the earliest possible date. Messrs. Stimson & Co. have also offered to take the outstanding \$3,000 of irrigation and electric light debentures on terms very similar, and on the motion of Messrs. Blair and Johnson this was accepted.

Mr. E. B. May asked that some small work changing the position of electric light wires on the Bank residence property be done by the Council. The Clerk was instructed to reply that inside the lot lines the owners carry out all necessary work.

Mr. W. C. Kelley forwarded a petition signed by the business men of West Summerland, requesting the Council to allow periodical sittings of the Summerland Small Debts Court to be held in the Municipal Offices. It was decided that it would cause inconvenience to allow this and permission was not granted.

CLEAN-UP DAY.

Letters from the Board of Trade were read desiring that the Council place lights on the new government wharf, and also the reinauguration of "Clean-Up Day." In regard to the former it is understood that the responsibility rests with the Dominion Government, this being the impression gained from the officials when the wharf was formally handed over to the Municipality.

On the resolution of Councillors Blair and Johnson, it was resolved to make Thursday, April 16th (yesterday) "Clean-Up Day," the Reeve to declare a municipal holiday. All good citizens were expected to join in a united clean-up crusade on that day, and if a little more notice had been given it is safe to say that more would have taken up with the work.

A letter from R. E. White announcing that the Alberta and Eastern B. C. Press Association would visit Summerland for a short time during a visit to the Okanagan about the end of August, pointed out that some advantageous advertising might be accomplished for Summerland from this event, and asked what the Council were prepared to do towards the entertainment of the party during their short stay in this town. The Council expressed its willingness to co-operate with other local bodies in the matter.

The Board of Works will look into the questions raised by H. J. Fennor concerning certain sanitary work he has been ordered to undertake at the late hospital premises.

A letter from Messrs. Crehan, Martin & Co., regarding the audit, and a report from the solicitor to the Union of B.C. Municipalities on the new Municipal Act were filed.

Complaints regarding flumes received from James Darke and an Italian were given to the care of the Board of Works.

DEBENTURE BY-LAW TO BE VOTED ON.

By-law No. 57, to raise the sum of \$20,000 by debentures to extend (Continued on page 3.)

Easter In The Churches.

Easter-tide in all our churches was characterized by joyous and bright services and very large congregations, the brilliant weather attracting worshippers from the very farthest points, so that the beautiful spring festival lacked nothing of its full significance.

At the Methodist Church it was Children's Day, and the combining of the Sunday School with morning worship brought a freshness and brightness into the well attended service. Children's voices led the singing in Easter hymn, and Easter verses were recited by some of the little scholars. Rev R. W. Lee gave a brief and interesting little address to the children on Easter tide, which served well for the elder folk, who found it most interesting. A profusion of cut flowers in vases decked the platform for Sunday's services.

The Parkdale Baptist Church had a full congregation in the morning, and the Sunday School children attended escorted by their teachers. Bright Easter music and spring flowers made the festival occasion apparent, and Rev S. Everton delivered an interesting sermon on the lessons of the holy season. Two anthems, "Our Mighty Lord is Risen" and Stainer's "Go to Dark Getsemene" were beautifully rendered.

A most impressive administration of the ordinance of baptism lent additional interest to the evening service at the Lakeside Church, the three candidates being College boy students. Blossoming plants, cut daffodils and ferns made the church look very attractive and Mrs. Geo. Ross, Miss Anna Hayes, Miss Myrtle Clay and Mr. W. Grievo were choir soloists, while congregational singing was hearty and tuneful. Rev S. Everton was again the preacher.

At St. Andrew's Presbyterian Church, white flowers for decoration were the gifts of some ladies of the congregation and big bowls of cut flowers made the air fragrant for a very large gathering. Rev C. H. Daly conducted the service and preached an excellent sermon. Presbyterian service was also held in the Methodist Church in the evening, Rev C. H. Daly again officiating.

The celebration of the Easter Festival began at 8 a.m. in St. Stephen's Church, when a large number of communicants gathered and again at nine, to make their Easter communion. Said matins followed at 10.30, and by eleven o'clock for the beautiful service of the Choral Eucharist, the church was thronged. Masses of white flowers adorned the altar, white lilac and Easter lilies, and a cross

Real Estate Transfer

Ben Colk Buys In Meadow Valley.

One of the most important recent transfers in real estate in our district is now about consummated, this being the purchase of an one hundred and forty acre tract in Meadow Valley by Ben Colk, formerly manager of the Aitchison Ranch.

The land is part of the thirteen hundred acres held for some time by S. R. Darke, one of our pioneers, and for years a successful stockman of that section.

Mr. Colk will, we understand, take up residence at once on his newly acquired property and engage in general farming.

HIGH SCHOOL EXAMINATIONS.

Following are the names of the pupils who have made the required aggregate. The names are arranged in order of merit. An asterisk (*) indicates a standing below requirements in one subject at least.

MATRICULATION.

Raymond Bent, Lloyd Bent, *Marjorie Tingley.

ADVANCED COURSE.

Gordon Ritchie, Howell Harris, Myrtle Ritchie, Edith Bristow. One candidate did not write.

PRELIMINARY COURSE.

Allen Harris, Margaret Ritchie, G. E. M. Logie, James R. Ritchie, Kenneth M. Elliott, Belle Vanderburg, Kathleen Elliott, *Volney M. Merrill, *Rita Harrison, Donald M. McIntyre, Joseph Morsch, Roy Elsey.

L. C. Woodworth, his son, Cyril, R. H. English, and W. A. Caldwell visited Princeton on Thursday of last week in Mr. Woodworth's car. The return trip on Friday, a distance of 87 miles, was made in five and a half hours.

of white hincinth and tulips hung over the chancel. The chancel rails were decorated with palm and daffodils; and moss, daffodils and golden sunflowers filled the windows. Choir and congregation united in the chanting and the triumphant Easter hymns. The Rev D. E. D. Robertson was the celebrant and afterwards delivered a brief Easter address. The chanting of the Magnificat brought a wonderfully impressive service to a fitting close. At evensong, Rev D. E. Robertson again preached to a large congregation. As is customary the offertory of Easter Day was presented to the priest-in-charge.

GIPSY VISITORS.

A good deal of excitement and some little anxiety was occasioned among residents on the Flat by the week-end visit of about eight caravans of gypsies, travelling from Vancouver to Calgary. About twenty adults and some thirty children with the caravans and twenty-five horses comprised the party, who were from what could be gathered Texan and Brazilian wanderers, though they were in possession of their rightful papers of Canadian citizenship. The women, with long plaits of fair hair, and others of swarthy appearance, were most picturesque in their brilliant yellow and red costumes and profusion of beads. The men were, however, by no means attractive and looked anything but peaceable citizens. Therefore, although the company was permitted to squat for Saturday night on some vacant lots, the townsfolk insisted on a watch patrol being kept, and three residents did this service for the community. Fortune telling lured some dollars out of a few of the credulous, and when the gipsy encampment moved on, wood, chickens and other things were missed

by more than several townsfolk. The cold muzzle of a gun was required before the unwelcome visitors could be persuaded to abandon their project of squatting on Trout Creek land a little later. Constable Graham's argument of force, was, however, applied with good effect, and the rough looking lot finally departed, leaving behind them no regrets.

After a most enjoyable six months' visit to the Old Country, Mrs T J Washington and her sister-in-law, Mrs D Kirstine, have returned.

Mrs G L Young, a Summerland fruit grower, will give an address on "Fruit Growing for Women," on Tuesday afternoon at 2:30 o'clock, on the twelfth floor of the World Building, Pender Street. Mrs Young is a successful fruit rancher of the Okanagan, and from her property, the Armadale Ranch, supplies fruit to the Vancouver Club. She also had the honor of supplying fruit to the ducal party when His Highness the Duke of Connaught toured British Columbia—Province.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, APRIL 17, 1914.

LOCALS.

At St. Andrew's Church on Sunday evening the subject of the Rev. C. H. Daly's sermon is "Dr. Jekyll and Mr. Hyde—a strange and interesting topic for discourse.

Fruit Inspector Thomas Cunningham is now back at his desk in the Courthouse for a few hours each day, having made a splendid recovery from the broken shoulder and other injuries he received a few weeks ago through falling down a companionway while en route to Victoria.—Province.

Services will be held in the Methodist Church on Sunday morning and evening. At the morning service at 10.30 a.m. Rev. R. W. Lee will preach, his subject being "A Character from Pilgrim's Progress. In the evening the preacher will be Rev. R. McElroy Thompson of Penticton. Mr. Thompson is one of the most prominent of the younger men in the Methodist ministry of B. C. His address at the recent Sunday School Convention at Armstrong was one of the chief features of the convention, and aroused great interest.

Rev Dr Spencer, Superintendent of Social Service for Western Canada, will lecture in the College Gymnasium, on Thursday evening, April 30th, and on Friday evening, May 1st. His subjects are, "The Women of the World and their Work," and "Shall There be a 'Banish the Bar' Crusade and British Columbia?" No mistake will be made in going to hear these lectures, as Dr Spencer is well worth hearing. There will be some good music each evening also recitations. A collection will be taken at the door to defray expenses.

W.C.T.U. DISTRICT CONVENTION.

The annual District Convention of the Women's Christian Temperance Union will meet in the Presbyterian Church, on April 30th and May 1st. An interesting program is being prepared, and the women of Summerland generally are most cordially invited to attend the meetings. The subjects to be taken up are of special interest to women. Luncheon will be served in the Parkdale Baptist Church at noon, for those who wish to remain for the afternoon and again at six for those who wish to remain for the evening to attend Dr. Spencer's lectures.

Wrestling Exhibition & Feats of Strength

As announced in their ad. on page 5 Clapham, the English champion wrestler, and Ursus The Great, the strong man, promise to put on an exhibition of professional wrestling and feats of strength and endurance that will no doubt be greatly enjoyed by a large number of our local sports.

Clapham, who has already made a name for himself in the Valley, won the North of England Championship when seventeen years old. He immediately entered the professional ranks, defeating Ravitts and Hector the Italian champion inside of five minutes. He next made an open challenge to all England, which was accepted by seven men, six of whom he defeated and drew one. In the States he was one of the few men who ever defeated Gotch. Two years ago he met Genez, the Brazilian champion, and grappled for two and a half hours to a draw, after spraining his wrist in the first hour. At an after date Clapham finally defeated the Brazilian. In all Clapham has taken part in sixty-three contests in the States, only losing four.

The marvellous strength shown by Ursus The Great, the strong man, creates wonder and surprise. In his exhibition of lifting, some of his feats are not excelled even by the great Sandow. One of his tricks, and which will probably be given here, is the placing of a heavy blacksmith's anvil, weighing 200 lbs. or more, upon his chest, and allowing two men to pound it with sledge hammers.

H G Estabrook was a visitor to the north end of the Valley on business on Monday and Tuesday of this week.

C N Borton went up to Kelowna on Tuesday morning to attend a meeting of his Valley fellow craftsmen.

Mrs Janet Lock returned to her home at Kaleden on Tuesday morning, after spending Easter in Summerland with Mr and Mrs A B Williams, of Peach Orchard. Mrs Lock was accompanied on her return by Miss A E Williams, who will remain at Kaleden until the end of the week.

The preacher at both services of the Baptist Church on Sunday next will be Rev H G Estabrook, until recently the Superintendent of Baptist Missions in British Columbia, and a former pastor of the church here. At the Parkdale Church in the morning at 10:30 Mr Estabrook's subject will be "Our Unparalleled Opportunity." In the evening in the Lakofront Church his theme will be "The Appeal of the Last West." Both sermons will have bearing on the missionary problems and needs of the Canadian West with which Mr Estabrook has been personally confronted.

Provisional Liquidator.

Luncheon will be served.

Success In Retailing

An essential factor in achieving success in a retail business is ADVERTISING—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of newspaper advertising.

A NOTE TO THE PUBLIC

Who serve you best—busy or half-busy men? busy or half-busy shops? Where is your custom most desired and appreciated? Is it not at those shops which stretch out the hand of welcome and invitation—in the form of advertisements—in the REVIEW.

COUNCIL MEETING

(Continued from Page 1.)

the irrigation system was read a first second and third time. The consent of the ratepayers to this by-law will be sought on Tuesday the 28th of April and if sanctioned it will go into effect on the 1st of May.

By-law No. 58 regulating dairies and the sale of milk was also given its three preliminary readings. It places certain restrictions upon premises used for dairy purposes, providing for a thorough inspection by the Sanitary Inspector, and the imposition of a small license fee per cow.

A motion was passed that street lights be placed on the Hospital Gulch road as the Superintendent deems necessary.

The report of the Board of Works was received, and Constable Graham's police report was read. It is probable that a new arrangement will be made providing for the police work of the municipality, and it was left with the Reeve to interview Constable Graham to this end.

A letter from the local W.C.T.U. requesting the Council to investigate the sale of cider within the municipality was referred to the Clerk to take some steps.

Prosperous Year For Salmon Arm Exchange

A remarkably prosperous season last year, an immense growth in membership, and a fine prospect for future operations were brought out on the annual meeting of the Salmon Arm Farmers' Exchange, held last week at Salmon Arm.

The financial statement and balance sheet showed the handsome profit of \$4,801.03 over and above all expenses, and after having written off more than \$650 for depreciation on buildings and plant. This added to last year's balance, makes a net surplus of \$5,459.01.

The Exchange, which is affiliated with the Okanagan United Growers, handled a total business last year worth \$98,470.40, of which fruit and produce shipped totalled \$41,313.74 and supplies handled \$57,156.67. The average cost of handling supplies was six and one-third per cent, and of handling fruit and produce eight and three-quarters per cent.

The Salmon Arm Farmers' Exchange now has four hundred and six shareholders, an increase of two hundred and twenty-two over the number on the books at the close of business last year. The Exchange was able to make for its members very material savings on such staple commodities as bran, shorts, coal oil, flour, etc., and handled a total of sixty-five carloads of supplies during the year's operations. The profit on the supplies department was \$4,751.23.

The two main objects of the Exchange, as set forth in the annual report of the manager, Mr George A Barber, are as follows:

1—To pack and market the produce of our members in such a manner as to build up a reputation for Salmon Arm produce, and thus obtain the best possible prices.

2—To carry on a general education work among the shareholders to the end that our farmers might be more directly interested and acquainted with the matters that pertain to the mercantile world, in order that the financial and social life of the community may be enlarged and benefitted.

It won't help to make a long face when you are short.

Bachelor maids are spinsters who haven't given up hope.

District Municipality of Summerland.

BY-LAW No. 57.

A By-law to raise \$20,000.00, to enlarge, improve and extend the Irrigation system and plant of the Corporation of the District Municipality of Summerland.

WHEREAS it is deemed advisable to repair, enlarge, extend and improve the irrigation system and plant of the said District Municipality of Summerland,

AND WHEREAS it is necessary for the said purposes to raise, by way of loan, upon the credit of the Corporation of the District Municipality of Summerland, the sum of \$20,000.00, payable on the first day of May, 1914, bearing interest in the meantime, payable half yearly at the rate of six per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of \$871.64 by rate in each and every year.

AND WHEREAS the whole rateable property of the said District Municipality of Summerland, according to the last revised assessment roll, is \$2,884,930.00.

AND WHEREAS the total amount of debenture debt of the said District Municipality of Summerland is \$304,000.00, of which none of the principal or interest is in arrears.

NOW, THEREFORE, the Reeve and Council of the said District Municipality of Summerland, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said District Municipality of Summerland, to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same, on the credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole, the sum of \$20,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the Reeve to cause any number of Debentures to be made, for the sum of not less than \$1,000.00 each, bearing interest at the rate of six per cent. per annum, not exceeding in the whole the sum of \$20,000.00, and all such Debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said Debentures shall bear date the first day of May, 1914, and shall be made payable in twenty years from the date hereinafter named for this By-law to take effect, at the Agency of the Bank of Montreal, in the said Municipality of Summerland, B.C. or City of Toronto, Ontario.

4. The said Debentures shall have Coupons attached for the payment of interest at the rate of six per cent. per annum on the amount of the said Debentures and such interest shall be payable half yearly on the first days of May and November in each and every year and the signatures to such coupons may

Good food need not be dear food. Plain, healthy groceries that are one hundred per cent. pure—the only kind we find it worth while to sell—are of more value than all the fancy feeding schemes you hear so much about. Give your children the kind of groceries we keep. We love the kiddies and you may rest assured that a child may eat any food article in this store with every advantage to his health.

Good food makes healthy children. Let us show you what we have done to help along the pure food movement. Come in to-day and compare our prices and quality with any other store in this country.

be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures, and to provide for the payment of the said debt when due.

6. The sum of \$1,200.00 shall be raised and levied annually by a rate on all the rateable property in the Municipality, in addition to all other rates, for the payment of the interest on the said Debentures.

7. The sum of \$871.64 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon and no re-issue of any Debenture or Debentures shall be made in consequence of such repurchase.

9. This By-law shall, before the final passage thereof, receive the assent of the Electors of the said District Municipality of Summerland, in the manner provided for by the "Municipal Act 1906" and Amending Acts.

10. This By-law shall come into force and take effect on the first day of May 1914.

11. This By-law may be cited for all purposes as the "Irrigation Loan By-law, 1914."

Passed by the Municipal Council this ninth day of April 1914.

Received the assent of the Electors of the District Municipality of Summerland the day of 1914.

Reconsidered and finally passed by the Municipal Council the day of 1914.

Reeve.

Clerk.

Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Office, West Summerland, for Wards Two and Three, between the hours of 9 a.m. and 7 p.m. on Tuesday, the 28th day of April, 1914.

J. L. LOGIE,
Municipal Clerk.

PUBLIC NOTICE IS HEREBY GIVEN that the vote of the Electors of the District Municipality of Summerland will be taken on the above-mentioned By-law at the time and place above mentioned and that J. L. Logie has been appointed Returning Officer to take the vote of such election with the usual powers on that behalf.

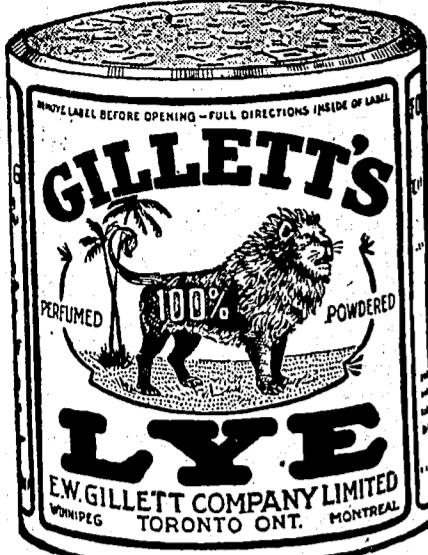

By order of the Council,
J. L. LOGIE,
Municipal Clerk.

Accident At Tunnel.

What might have proved a very disastrous explosion was averted as if by a miracle on Thursday morning at Tunnel Camp. As it is little Henry Wisman the six year old son of the night engineer is minus the thumb and forefinger of his right hand.

It appears that the little chap got access to the storage magazine and got hold of a loose stick of dynamite; but immediately getting alarmed at the possible danger he threw it down, causing it to explode with the disastrous results mentioned.

Had the magazine of dynamite gone off it is hard to predict just how much of the mountain in the vicinity would have been left.

Provincial Market Commissioner J. Forsythe Smith who has again returned to the prairies, will shortly start on a tour of investigation of orchard conditions in Washington and Oregon.

Current Events — OF — Town & District

The "Trepannier" has been hauled up to receive its annual spring attentions.

N Mitchell was down to Okanagan Falls on Tuesday where he took in the ball held there.

Dr W L Robinson leaves by this morning's boat en route to Toronto where his marriage to Miss Mary Firstbrook will take place on the 28th of this month.

The sight of the orchards now with their wealth of blossoms—harbingers of the fruitful harvest—is greatly enhanced by the delicious perfume wafted along one's path by the gentle spring breezes.

On Tuesday afternoon and evening the lake, owing to the extremely high wind blowing became so rough that the s.s. "Okanagan" gave Naramata the "go by" and the next morning landed her few passengers and the delayed mails.

WEDDING.

NUTTALL—MITCHELL.

The marriage of two of Naramata's most popular young people was solemnized on Wednesday afternoon by Rev Ferguson Miller, of Penticton, when Miss Alfreda Mitchell and Mr William Nuttall became man and wife.

The wedding was a quiet one, only the immediate relatives being present. The bride's sister, Miss Bessie Mitchell, performed the duties of bridesmaid, while Mr Norman Mitchell supported the groom. The happy couple left on the evening's boat for a short honeymoon trip and upon their return will take up residence in Naramata.

Railway Camps Removing.

Only the tunnel camp now remains in full swing on the Naramata section of the Kettle Valley Railway. On Wednesday morning two heavy work trains conveyed much complete camp paraphernalia—living quarters and work outfits to the head of construction at Osprey Lake. This equipment will be used in the new camps being established in the vicinity of Princeton.

Farmers' Institute.

That the Farmers' Institute do not purpose being a dead and alive organization was patent to even casual observers at last Friday night's regular meeting. They purpose taking immediate action to have a herd law put into full force and operation. A committee composed of Messrs J. H. Pushman, George Cook and W Armour was selected to go fully into the requirements of the Act respecting cattle, horses and such animals running at large. Their report is to be presented at a special meeting called for the purpose this Friday evening. It is understood that if a petition is sent to the government calling for the adoption of the Act locally, that there will be a counter petition. There should in any event be a full attendance at the meeting to-night.

The other live issue now under discussion by these "city fathers" is the new Water Act. It would appear from the discussions now carried on by the Institute that government engineers may shortly be called upon to make an investigation into the feasibility of establishing storage dams in the vicinity with a view toward having the people themselves take over the whole irrigation project.

PENTICTON PETITIONS.

The Penticton Board of Trade are petitioning the Dominion Government to construct a breakwater and landing place for the purpose of providing a safe mooring and landing place for small craft, which will shelter them from the strong North winds. They are sending the petition to the Penticton Muni-

cipal Council, Penticton Conservative Association, Penticton Aquatic Club, the Summerland Board of Trade, Kelowna Board of Trade, Westbank Board of Trade, and Peachland Board of Trade, for endorsement. Copies of the petition are to be forwarded to Hon. R. Rogers, Minister of Public Works, the Hon. Martin Burrell, M.P., and Mr. Aylmer, District Public Works Engineer.

The Penticton Board is also petitioning the Provincial Government to have an investigation made as to the best means of preventing the damage done to roads and property owing to the rise of water in the lake, and requesting them to arrange for obviating this damage by holding the lake at its low water level.

Yet a third petition has been drawn up, and this one is to the

Dominion Government urgently requesting them to provide an efficient and adequate equipment to perform the work of making the Okanagan River navigable, so that the produce that will require to be moved in the immediate future can be handled without the delay that is necessary at present. The petition states that the present dredging outfit is totally inadequate to obtain successful results, explains how the outlying settlements are growing, and that the Okanagan River affords the only practical means of transportation by which the large amount of produce raised thereon can be brought to Penticton.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Drill Hall, Kamloops, B.C.," will be received at this office until 4.00 p.m., on Thursday, May 7, 1914, for the construction of the aforesaid building.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. Wm. Henderson, Resident Architect, Victoria, B.C.; on application to the Caretaker of Public Building, Kamloops, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, April 8, 1914.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—59225.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all will set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting:
Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Kaleden Comments

Mr George Purvis returned last Wednesday after a sojourn of several weeks in Red Deer, Alberta.

Quite a large number of young trees have been shipped from the nurseries here during the past week.

The new boat, the "Mallard," proved herself quite able to weather the storm when she came down the lake last Tuesday, it being one of the worst trips ever made, but under the careful steering of Mr A. S. Hatfield, she came safely into port.

The concert arranged by the Woman's Club will be held on the evening of the 16th in the school room, when several friends from Penticton will take part and Mr. Fraser Campbell, of South Penticton will give a farce, assisted by others. The proceeds will be used for the benefit of the reading room and library which is maintained by the Club.

Mrs R C Lipsett will not receive next Wednesday, April 22nd.

Mr G W Hinchman of Penticton has been spending a few days with Mr G Male.

Ladies of Summerland and Naramata please read the Summerland Supply Coy's Ad. on last page of this paper, it is of unusual interest to you. a17

Mrs James Gartrell, who spent Easter with her daughter, Mrs Lloyd Jones of Kelowna, has returned accompanied by the latter and her daughter.

Will Grieve went on Tuesday afternoon to Princeton, where he is to work with L C Woodworth, who has the meat supply contract for the railroad camps.

Mr Tom Darkis, a brother of Mr Scott Darkis, and family have come up from Penticton to reside here and have taken and moved into the Richardson house.

Rev J Knox Wright, D.D., District Secretary of the B.C. Auxiliary of the Canadian Bible Society paid a visit here this week, coming in on Monday's boat and leaving on Wednesday morning.

Mr and Mrs L V Newton and Mrs Wright, now of Vancouver, and formerly citizens of Crystal City, arrived here on Tuesday night and are guests at the home of Mr and Mrs T G Beavis.

Good sport was enjoyed during the Easter holiday on the Lake. Dr Andrew was among the lucky anglers who secured some fine lake trout, and J. Beer hooked a beauty turning the scale at eight pounds.

J E Reekie of Kelowna and R Robertson, president and manager respectively of the Okanagan United Growers, Limited, are visiting Calgary and other prairie points for the purpose of concluding negotiations for the handling of this year's crop.

Mr and Mrs J E Phinney and family are again occupying the cottage on Mr Phinney's orchard lot immediately west of Dr Lipsett's. For about three years they have been living in the cottage owned by Mr Phinney's mother in the Parkdale district.

James Clark with his family has removed to Penticton, leaving here on Monday. It is said that Mr Clark has been asked to build a boat which for speed will surpass anything on the Lake. It is probable that this may be about the first work he undertakes at Penticton.

Mrs Graham of Calgary will be resident with Mrs George Graham for some weeks to come. Mrs Graham has come to seek better health in the delightful spring of our mountain climate, and is experiencing great benefit and enjoyment from the present perfect weather.

Interest was occasioned by the arrival of two steam shovels on Wednesday morning from across the lake where most of the construction work is finished. They will be used in excavation work on the pipeline being put in between Trout Creek and the Balcombe Reservoir.

A very successful and enjoyable "Surprise Party" came off at Mrs George Gartrell's on Wednesday night. A large number of her friends arrived early in the evening to greet Mrs Lloyd Jones and Miss Lloyd Jones, of Kelowna, who are her guests, and cards and a delightful little dance made the evening's program.

The Women's Institutes are distributing seeds among the schools to be used by the children in the school gardens. A special package of seeds, comprising collections of vegetable and flower seeds to make eight tiny complete gardens, was received from the Department of Education for use in the Town School grounds.

Summerland is not, we hope, narrow minded, nor is it, we trust, unduly conventional, but even in the Last West, we preserve thankfully some small sense of the fitness of things, so that a costume of pyjamas, bath robe and bedroom slippers—though not out of place on Margate Sands—for promenade purposes in the main street on Easter Monday was considered something of a spectacle, and scarcely a compliment to our community.

SHILOH CURES COUGHS & COLDS

Mr and Mrs Jack Lawler returned last Friday from a short visit to Vancouver.

J. Stevenson has gone out to the camps at Osprey Lake to work for Mr L C Woodworth.

Cliff McWilliams went down to the Falls on Wednesday and enjoyed our civic holiday there.

Mrs. H. C. Howis returned on Saturday night from a short visit to Vernon.

Miss Gladys Limmer of the Government Telegraph Office, Penticton, spent Easter with her parents here.

Mr J L Logie is in Penticton again this week busy with the arbitration question which is still going strong.

Prof. W. T. Broad of Calgary (we might add "and Summerland") is spending a few days on his orchard here.

Gordon Dinning, now of the Canadian Bank of Commerce, staff at Kelowna spent the holidays with friends here.

Mr D E Brewer is very busy building a nice little cottage on his lot just opposite the Ritchie lumber office.

Mr L R Baker of Red Deer, Alberta, has been here this week and has inspected several orchard properties with a view to purchase.

A well-known business man of Vancouver, who is spending a few days here has acquired a fruit farm of twenty acres in Garnett Valley.

Mrs Hutton, who did not after all return with Major Hutton last week, came in accompanied by Mrs Acland on Wednesday night's boat.

Dr McGregor, a well-known veterinary surgeon, of Brandon, Manitoba, has been looking over the Tully orchard property this week and is likely to acquire it.

A pretty little impromptu dance was given on Easter Monday by the management of Hotel Naramata, which was greatly enjoyed by a goodly number of guests and townspeople.

Mrs R M Ross has been one of the sufferers from illness which the changeable weather of late has induced. She has been confined to her home for the greater part of this week.

The many friends of Jack Logie will be pleased to hear that he is now located at Douglas, Arizona, where he has entered upon newspaper work with his uncle, editor and proprietor of a publication in that city.

Many picnic and fishing parties which were organized on Good Friday and Easter Monday ushered in the "open air season," and the almost perfect summer weather has made the spring holiday a delightful time for all.

Quite an event worth recording is the arrival of the first shipment of freight for Summerland via the Kettle Valley Railway which came in this week. It was a carload of cement for the Municipality brought in by Wm. Ritchie from Calgary. Another is expected in next week.

In addition to supplying fresh meat to all the railway camps from Osprey Lake to Princeton, as announced in the Review last week, L C Woodworth has secured further contracts by which he will purvey beef and pork to camps beyond Princeton as far as Tulameen, at the foot of the Hope Mountains.

Word has been received from Rev Norman McNaughton, pastor elect of the Baptist Church here, that his household effects have been shipped from his home in New Haven, Conn., to Summerland. Mr McNaughton himself is not expected to arrive here until about the middle of May, examinations in connection with his post graduate studies detaining him at the Yale School of Divinity a little longer than was at first expected.

Scores of men took advantage of the big bargains in boots and shoes at the Summerland Supply Company's stores last week. Two pairs of high-class boots or shoes for \$5.00 was an opportunity in a lifetime. Needless to say these genuine bargains were eagerly snapped up. To-morrow, Saturday, and all next week, the Supply Company offers a similar opportunity to the ladies. Two pairs of high-class boots or shoes for \$4.45, coupon price, less ten per cent. discount for cash. a17

W A Caldwell has disposed of his automobile to L C Woodworth. The car is a five seater Cadillac.

Mrs G W Morfitt and her daughter Miss Verda left on Saturday morning last on a short visit to Calgary.

John S. Ritchie received this week the sad though not altogether unexpected intelligence of the death of his aged mother in Glasgow, Scotland.

Mr. and Mrs. G. W. Lang and daughter Miss Beatrice, went up on the boat to Peachland on Saturday morning last for a stay of uncertain duration.

The annual meeting of the Ladies' Hospital Auxiliary will be held in the Men's Club on Tuesday April 21st, at 3 p.m. sharp. A full attendance is requested.

WANTED—Ladies at the Summerland Supply Company's stores to-morrow, Saturday, and next week, to purchase two pairs of high-class boots or shoes for \$4.45, coupon price, less ten per cent. for cash. a17

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

New Women's Institute.

The monthly meeting of the West Summerland Women's Institute was held in the High School Room, on Friday afternoon, April 10th. There was not a large attendance on account of the day being a holiday. Mr. Walter Wright gave a practical paper on "Poultry Raising for Winter Profit," giving his own experience, describing the best breed, also the best hen house. Mr. John Tait gave a paper on "Cultivation of Flowers." There was a number of questions asked and answered. Both papers will be sent into the Department. There was a darning contest on linen, a number of ladies entering. The work of Mrs. S. B. Snider and Mrs. W. A. Caldwell was so close that the judges decided to give two prizes. Mrs. Hilborn and Miss Spencer were the judges. Silver thimbles were the prizes. Mrs. Hilborn said that a number of local men were donating prizes through the Institute for the best kept lawn and home surroundings. Mr. Hilborn had offered to draw up a score card for the judging. The competition is for members of the Institute only.

EASTER BASEBALL.

College Team Plays Two Games.

Two excellent matches were played by the College—Bean Eaters—during the Easter holiday, that team proving itself in excellent shape.

On Good Friday, the team visited Kelowna, the "Skookum" pulling out at about eight thirty a.m., carrying its full legal capacity of passengers, so great was the local interest in the match. After a delightful run to Kelowna, the Bean Eaters and their supporters repaired to the Park, and on the Race Track a heated encounter—in more senses than one—began. It was a "grim game," and splendidly fought, both sides doing brilliant work. Lorne Morlock, as shortstop, played a star game for the Bean Eaters, and so close was the play, that the final outcome was in doubt up to the last innings, when the Bean Eaters scored all their runs in quick succession. 6-5 in favor of Kelowna was the score, greeted with tremendous excitement. The party landed at the wharf about eleven p.m., after a strenuous, but thoroughly enjoyable day.

Monday's match at Peachland occasioned such interest among the residents of Morton Hall, that all the girl students with but a single exception, boarded the "Skookum" for the trip to Peachland, to see the College score a victory on the Peachland ground that was a complete overthrow of the team of the neighboring town. There was no lack of excitement in the game, which showed some very fine play on both sides. The Bean Eaters, however, were out for triumph, and won it, and Peachland was defeated in the score 8-12.

The encounter between Kelowna and the College on the College diamond yesterday was a spirited one. The visiting team and the Bean Eaters were both as keen as mustard, and a strong hard game was fought to an untiring finish.

Threadgold and Hoy were the Kelowna battery, and Vanderberg and McDougall for the College and they were unsparing in vigor. 5-4 in favor of Kelowna was the result of a fine game that we would describe at more length if time and space permitted.

St. Stephen's Church

The series of social evenings which have been such a success in connection with St. Stephen's Church was resumed on Tuesday evening, when a fairly large gathering met in the Campbell Hall to enjoy a program of a small drive and music, and for the last hour an informal little dance. The proceedings were, however, marred by the absence of the Rev. D. E. D. Robertson, and the knowledge of the illness of Mrs. Robertson. Mr. W. C. W. Fosbery, however, delivered a message of good wishes from the Rev. Robertson and the news that Mrs. Robertson was slightly better was received with great satisfaction.

Music was contributed by Mr. F. A. C. Wright, who sang, Miss Phyllis Higgin, who gave several brilliant violin solos, and Mr. W. S. Kent rendering an amusing sketch. Miss Harvey's recitation was also much appreciated, and several ladies afterwards played for the dancers.

Refreshments were provided and served by a most energetic band of ladies of the entertainment and refreshment committees, who did a good deal to make the evening a success.

The W.A. held their meeting on Wednesday at the residence of Mrs. A. G. Simms, there being a large attendance of ladies, who were afterwards entertained to tea.

The serious illness of Mrs. D. E. D. Robertson is occasioning the deepest concern to the members of St. Stephen's Church, and much sympathy is expressed for the Rev. Robertson in his anxiety.

Presbyterian Synod of B.C.

The Synod of British Columbia met in Vancouver from Tuesday to Thursday of last week. This synod comprises the territory of B.C. and Yukon district. Rev. H. R. Grant of Vancouver, the retiring Moderator, preached the Synod sermon, and Rev. W. R. McRae, of Golden was elected the new Moderator. The Home Mission report was an important feature, and the comparatively new branch of Social Service received much attention. Two new Presbyteries will be formed in the Synod, as an indication of the growth going on in our province.

Three Thousand Carloads From Valley This Season.

Canadian Pacific Railway Official Making Inspection Trip.

"Things look most prosperous" was the comment of Mr. G. A. Staples, Travelling Freight Agent for the Canadian Pacific Railway, when asked by the Review for his impression of Valley conditions. Mr Staples has been travelling down the Valley stopping off at the different towns, getting an estimate of the fruit, vegetable and produce crop, upon which definite freight arrangements and schedules can be drawn up. He spent Wednesday in Summerland, and was driven over the benches. Mr. Staples made his first trip through the Okanagan two years ago, and is impressed with the visible growth which has taken place since that time.

When asked for an estimate of the carload output for the whole Valley, Mr. Staples after a few calculations made a confident prediction of about three thousand carloads. This estimate is based mainly on figures given him by prominent orchardists, the increase of previous years, and figures furnished from the local offices. "Everything points to a bumper crop up and down the Valley," said Mr Staples, replying to a question as to the condition of the orchards as he had seen them. "Provided there comes no interference from the elements, frost disease, etc., the Okanagan will unquestionably harvest the biggest crop in its history."

Questioned regarding the freight arrangements being framed for the lake service, Mr. Staples said that nothing had been definitely settled upon. He will make another trip through the Valley about the second week in June, being in a better position then to talk about moving the crop. That there will

be a daily car barge service for this end of the lake, however, is almost assured. The company has four eight-car barges ready for service, and with the new steel tug "Naramata" in commission will maintain a daily service between the Landing and Kelowna, and the Landing and Penticton.

Regarding his estimate of the Valley's output, Mr Staples wished it understood that three thousand carloads was possibly an outside estimate since the acreage now being planted as well as that already bearing, figured in the calculations. He spoke of four hundred and fifty acres seeded down to onions at Kelowna, instancing the difficulty of making any final crop estimate in such cases so early in the season.

"There will be more refrigerator and fruit cars available for the Valley this year than in any previous year," was the assurance Mr Staples gave against any possible car shortage. He would not make any definite statement regarding the assembling of carloads at Summerland for the lower end of the lake, spoken of by Manager Robertson of the United Growers. Operating Superintendent McKay of Revelstoke, Capt Gore of Nelson, and possibly other officials will be through the district with Mr Staples in June, and final schedules will probably be drawn up on the recommendation of this party.

R. M. Winslow, Provincial Horticulturist, has been accompanying Mr Staples on this trip, giving some assistance in reaching total crop figures, and also clearing up some business for the Department of Agriculture.

Railway Fatality.

Young Galician Overwhelmed By Slide on K.V.R. Construction.

Railway construction all through this wide country takes its toll in human lives. Fortunately progress in this district has been attended with but few fatalities. On Tuesday of this week, however, another young life was snuffed out under a heavy slide of gravel, at a gravel pit near mile 28 on the line of Kettle Valley construction, west of Summerland.

The unfortunate victim of the accident was a young Galician named Michael Borasliska, 25 years of age and unmarried. With two companions he was working with a shovel, digging in the gravel in a pit from which ballasting material is obtained. A steam shovel was also working close by and its rapid excavations had previously caused some small slides of overhanging material, a close watch being kept in consequence. On this occasion when a mass of gravel about thirty feet high began to move a shout was raised, and though his two fellow workers retreated back into safety, Borasliska failed to get clear and was buried under about two and a half feet of gravel. Ten minutes elapsed before he could be extricated, by which time life was found to be quite extinct.

The authorities were immediately communicated with, and Dr. F. W. Andrew, Provincial Coroner, was upon the scene as soon as possible. Some enquiries satisfied him that an inquest was unnecessary, and an examination of the

Will Treble Output.

Cannery Wants Large Quantities Of Tomatoes, Apricots and Peaches.

That the Dominion Cannery plan on largely increasing their output from the local cannery this year is evident from a circular letter received by a number of our growers. In this letter Mr. Leitch, the local manager, states that the company is ready to take all the tomatoes that can be grown here, and that they are anxious to secure a large acreage of this crop. Mr. Leitch hopes the growers will meet him in this as he is desirous of showing the directors the possibilities of this district. News that will be welcome to many growers is Mr. Leitch's declaration that arrangements are being made that will permit the company to treble last year's pack of peaches and apricots. Growers will be called on early in July for the purpose of signing up contracts. The Cannery's intention to so largely increase its pack of stone fruit means much for our ranchers, and makes the cannery a much more valuable asset to the community.

body showed the cause of death to be suffocation.

The corpse was brought down to Summerland on Wednesday morning and prepared for burial. Later the remains were taken on to Penticton where interment took place.

The deceased was known to have near relatives in Austria, and an examination of his effects revealed the fact that he had a respectable sum of money standing to his credit in two banks.

Naramata To Have Direct Telephone Connection With Summerland.

Submarine Wire Will Soon Be Laid.

By the enterprise of the Summerland Telephone Company, Naramata is soon to have direct telephone communication with this side of the lake without the delay and expense incurred in getting connection through the Penticton exchange of the Okanagan Company.

A heavy copper wire is to be laid across the lake, entering the water at the head of the new Government wharf at the south end of town, and emerging at the head of the Naramata wharf. For this it is estimated that about sixteen thousand feet of wire will be required, for a length of just over three miles. The material for this work has been on order for some little time, and the work will be proceeded with immediately on its arrival. The wire will be laid

from the stern of one of the Ferry Company's boats.

An automatic pay station will be installed in one of the Naramata stores, and a ten cent toll fee will give connection with the Summerland exchange. This arrangement will hold until there appear to be sufficient prospective subscribers across the lake to warrant installing an exchange. It has previously cost sixty cents to telephone from Naramata to Summerland, and the big saving which the submarine wire is going to effect is certain to induce a greater volume of business.

Another great advantage to Naramata business men will be a ten cent connection with the Government trunk lines instead of 65 cents as is now demanded by the Okanagan Telephone Company.

Tender Awarded For New Hospital Building.

A meeting of the Board of Directors of the Summerland Hospital was held in the offices of Mr. D. H. Watson on Monday, to receive tenders for the erection of the new building. There was a full attendance, and the tenders to be considered were six, all from local contractors, as had been requested. After some consideration the tender of Harry Tomlin was accepted, and construction work is to be commenced immediately.

It is hoped that the building may be completed about August first.

I.O.O.F. ANNIVERSARY.

The Anniversary Service of the Independent Order of Oddfellows will be held at the Lakeside Baptist Church on Sunday next at 8 p.m. Rev. R. W. Lee will preach, and special music will be rendered by a considerably augmented choir. A few visitors from Penticton are expected to take part, but as the Oddfellows of that town are holding their own anniversary services that evening, a large number who would otherwise have come, will be unable to attend. A collection will be taken at this service towards the cost of furnishing the ward in the new hospital which the local lodge has undertaken.

Members of the local lodge and the visiting Oddfellows will meet at Elliott's Hall at 2:30.

Important Appointment Goes To Edwin Smith

The pre-cooling plant will, it is expected, be under different management this year. Mr. Edwin Smith, under whose supervision the plant was built, and who supervised operations last season with a view to testing the practicability of the method adopted, has received an appointment under the Federal Government. Mr. Smith will be directly under Mr. J. A. Ruddle, Cold Storage and Dairy Commissioner, and while the many local friends of Mr. Smith will regret to learn that he is not likely to be in our midst during the coming season, they will all be glad to learn of his appointment to the more important position, in which he will follow along somewhat similar lines as last season here with the Provincial Department of Agriculture.

Mr. Smith, who has been busy carrying out various experiments, visited Summerland on Tuesday in company with Mr. Goodman, a student of Guelph College. Mr. Goodman, it is understood, will be Mr. Smith's successor here, and while in town arrangements were made for the establishing of a crusher at the ice-house and erecting a chute to convey the crushed ice to the pre-cooling plant.

It is just possible that the Federal Department may permit Mr. Smith to keep in touch with the work here for another season.

Light and Water Delinquents Will Be Cut Off.

Council at Saturday Session Decides To Enforce Ruling.

All the Councillors were present at a special session held on Saturday afternoon last in the Municipal Building. A small accumulation of correspondence was disposed of, and two much-discussed questions came in for incidental discussion—priority of application, and granting electric light connections, and the treatment of delinquents in rates.

The minutes of the last meeting were first confirmed. The first communication read pointed out that sanitary requirements governing outbuildings, called for by the Provincial Health Act, were not being observed, particularly in the congested local areas. Marked sections of the law in question were forwarded, and it being the general feeling of the Council that the requirements of the law should be fulfilled, it is probable that the matter will be placed in the hands of Sanitary Inspector Graham for his attention.

A letter from J. A. Kirk was received, asking for the re-approval of the Stark sub-division at Trout Creek. Last year's Council had approved of the plan, but it had not yet been signed. Mr. Kirk's request was complied with.

Superintendent Mitchell will look into the matter of altering the position of electric light wires at the Bank residence property, asked for by Mr. E. B. May.

A complaint from W. C. Kelley of insufficient irrigation service at his home lot on Rosedale Avenue was referred to the Board of Works.

A representative of the Canadian Hess Flume Company, makers of metallic fluming, interviewed the Clerk on Saturday morning with a view to introducing his goods. He was unable to meet the Council in the afternoon, but left a letter which was read, asking for an appointment, when he could explain and demonstrate metallic fluming. The Council decided, however, that the immediate needs of the Municipality were already cared for, and accordingly took no action.

D. L. Sutherland waited upon the Council with two requests. He asked for the use of the domestic water connection of Senator Kirchoffer's lot to irrigate a high spot which was being seeded down. The Superintendent will decide upon this.

From Mr. Sutherland's second proposal arose a great deal of discussion. He desired the electric light for his new house on the Colwell orchard, and was willing to have all the work of installation from the line running past the lot done at his own expense, against which his rates could be credited.

The Women's Institute.

Visit From Penticton Branch.

A most interesting and well-attended meeting of the Women's Institute was the gathering of last Friday, when about thirty members of the Penticton Institute, and nearly all the newly organized branch of West Summerland were received in the Club Rooms. The large hall was almost filled with ladies, and was bright with spring flowers, and from three o'clock until five an exceptionally interesting program was enjoyed.

The Penticton ladies, who came up on the "Skookum," were met at the wharf by Mrs. Lipssett and Mrs. Huyos and other local officials, and in the hall Mrs. R. C. Lipssett made a graceful little speech of welcome. Mrs. McGregor, President of Penticton Institute, with great charm of manner, voiced the appreciation of the visitors, and Mrs. Coulter White also spoke briefly. Clever, and full of valuable hints and instruction was the address by Miss Spencer on "How to Beautify the Home Grounds." As an artist in garden lore and floral decoration Miss Spencer spoke with enthusiasm on the possibili-

The Council was not eager to grant the connection even on these terms, the Reeve expressing the opinion that the plant must now be carrying almost its limit of lights. Coun. Blair did not think it altogether fair to disregard priority of application, and grant connection to comparatively recent applicants because of their proximity to the lines, while some whose applications had been on record for a number of years were still without, with no prospect of getting the service. Coun. Simpson pointed out the necessity of always keeping a small reserve of power for any new business places that might come into existence. It was finally left with the Board of Works to confer with the Electrician and the Superintendent, and if sufficient power is available after the lights have been placed on the Gulch Road, connection will be granted to Mr. Sutherland on the usual terms of installation.

In view of the fact that there will soon be available about eight hundred dollars for electrical extension work some possible routes were mentioned—Prairie Valley, the entrance to Garnett Valley, and south and east of Jones Flat.

The matter of providing the power for any further extension work brought up the question of discontinuing the service to delinquents of six months' arrears. There are a great many applications for light on record, and it was felt by the Council that if some of the users in arrears were cut off, there would be available much current for people who were ready to pay promptly. Drastic measures were finally decided upon. A list of current light and water delinquents was read, and it was agreed that these should be given three or four days notice to the effect that if arrears are not paid promptly the services will be discontinued. By this time these notices should be in the hands of the municipal creditors.

The Reeve reported a new provisional arrangement which he had made with the constable to hold for next month, whereby he will attend to constabulary duties, health and sanitary work and the care of the nuisance ground for \$50.

The Clerk was instructed to secure tenders from local men for the erection of the approach to the government wharf, with a view to having this work put in hand immediately.

One or two other minor matters were touched upon and dealt with before the Council rose in adjournment at about 5:30. The next session will probably be held on April the 29th, when the decision of the ratepayers on the money by-law will be acted upon.

The New Hospital.

Annual Meeting of Ladies' Auxiliary Elects Officers.

Mrs. R. C. Lipssett, President of the Ladies' Auxiliary, was in the chair at the annual meeting of the Ladies' Hospital Auxiliary, held in the Men's Club on Tuesday afternoon. In view of the important work which is now ahead, it was regretted that so few ladies of the community attended, although the Auxiliary had sent out about 190 public notices. However, those who were present made up in enthusiasm for lack of numbers, and a good deal of work was accomplished.

Mrs. Lipssett reminded the ladies that new responsibilities were before them, and there was more important work to be done in the future. It was hoped that the hospital building would be completed in three months, and therefore the Auxiliary had much to do in the way of preparing the quantities of house linen, etc., that would be required.

The secretary, Mrs. W. H. Hayes, read the report of work accomplished during the past year, including Mrs. Solly's report from May 1913 up to the date of the recent closing of the old hospital. The number of patients admitted during that time was 48, and eleven operations had been performed. In time past the Hospital had been kept going by a few women, but now a bigger effort was in hand, and a strong appeal for help to make the new Hospital a great public success and a valued asset to our community was necessary.

Mrs. Geo. Ross read the Treasurer's report which showed a cash balance in hand of \$131.86

Mrs. Lipssett announced that the Sports Committee for the public celebration of Empire Day had signified their intention of devoting the proceeds, after paying expenses, to the Hospital. It was suggested that the Ladies' Auxiliary provide and sell refreshments on that day for the same purpose. This was unanimously agreed to, and therefore on Empire Day at

the Refreshment Booth of the Ladies' Hospital Auxiliary, ample and good refreshments will be on sale all day. A committee of ladies will set to work immediately to make plans.

The election of officers for the ensuing year was as follows:

President, Mrs. R. C. Lipssett.

First Vice-President, Mrs. R. Clouston.

Second Vice-President, Mrs. R. W. Lee

Recording Secretary, Mrs. W. H. Hayes.

Corresponding Secretary, Mrs. J. W. Angwin.

Treasurer, Mrs. Geo. Ross.

Auditor, Mrs. C. P. Nelson.

Working Committees were elected as follows:

Finance—Mrs. R. M. Ross,

Mrs. R. Cartwright,

and Mrs. Hanington.

House—Mrs. F. W. Andrew,

Mrs. A. E. Hespeler,

and Mrs. S. Angove.

Purchasing—Mrs. Angove,

Mrs. Geo. Gartrell,

and Mrs. Clouston.

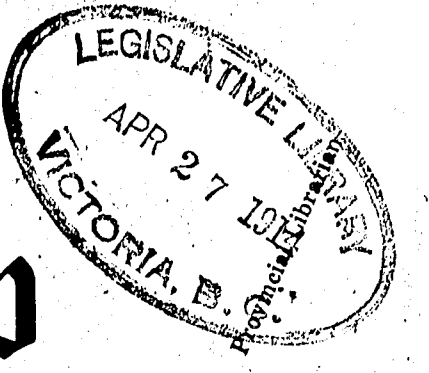

A meeting of the Refreshment Committee for Empire Day will be held at Mrs. R. M. Ross's on Tuesday, May 5th

ENGAGEMENT ANNOUNCED.

The engagement is announced of Miss Lillian Nicholls, daughter of Mrs. Coutts Marjoribanks and the late Commander Jasper Nicholls, R.N., and stepdaughter of the Hon. Coutts Marjoribanks, to Mr. Robert Van Allen Agur, oldest son of the late R. H. Agur, of Balcom Lodge, Summerland.—Vernon News

SECRETARY-TREAS. APPOINTED.

George Snelair has received the appointment of Secretary-Treasurer for the Summerland Fruit Union. The appointment was made at the director's meeting held last Friday. Last year this office was held by Mr. J. L. Logie, but the many calls on his time, and his being frequently unavailable when needed made the change necessary. Mr. Logie still retains the Secretaryship of the Board, while Mr. Snelair, who will be constantly at the office, will attend to the other duties.

Advertising

Advertising means directing the attention of others to that for which attention is desired. If you have a stock of which you are proud, or a service which you believe to be superior, direct attention to the fact every week in the columns of the REVIEW.

Stretch out the hand of goodwill, wear the smile of welcome, and command the business of the buyers of this community. Do these things and your business will expand and the profits from your business will be greatly increased.

A WORD TO THE PUBLIC.

Do you not feel a certain reluctance about going into shops that have not invited you to enter their doors? At the shop which advertises — which invites your custom — you know that you are welcome.

Shop Where You Are Invited To Shop

Good business men do not holler down a well to sell their goods. They put an ad in the paper.

You had better climb slow on a sound ladder than fast on a shaky one.

Revert To Dairying.

Wisdom Of Mixed Farming Shown.

At a meeting of ranchers of the Lumby district, held last week, a decision was reached to branch out from the exclusive raising of hay, and to take up diversified farming and dairying. Those present subscribed for one hundred and fifteen grade cows, which will be imported from Ontario this spring, and by next season it is hoped to operate the Lumby Dairy, which was a profitable going concern before the price of hay went up, and induced farmers to sell their cows, thereby decreasing the milk supply until the Dairy had to be closed.

W. Scott Allen and J. W. Hayward, directors of the Vernon Fruit Union, attended the meeting from Vernon, and made addresses on the inadvisability of specialized farming, and urging mixed farming. The advantages of the co-operative system and the Central Selling Agency were also gone into.

Some twenty Lumby growers already market their produce through the Central, and some of them told of their satisfactory returns.

A Farmers' Institute was also formed at the meeting, with a charter membership of twenty-eight. M. Gibson was chosen secretary to apply for the charter.

MY OLD HOUSE.

(Written by a lady of 94 years.)

I hail once more my natal day,
Still in my tenement of clay.

With many favors blest;
Now He who placed the structure here,
Can prop it up another year,
If He should think it best.

Long hath it stood through snows
and rains,
And braved life's fearful hurricanes
While many a stronger fell;
The reason why we cannot see,
But what to us seems mystery,
The Builder knows full well.

But now 'tis weather-worn and old,
The summer heat and winter cold
Pierce through the walls and
roof;

'Tis like a garment so worn out,
To mend there seems no where-
about,
So gone is warp and woof!

The tottering pillars are all weak,
The poor old rusty hinges creak,
The windows, too, are dim;
These slight discomforts we'll let
pass,
For looking darkly through the
glass
We catch a hopeful gleam.

Nature and Scripture tell us all,
This withered frame ere long must
fall,
When, where, or how's un-
known;
We'll leave that to the Architect,
And trust His wisdom to direct
The taking of it down.

And when you see it prostrate lie,
Let not sad tears bedim your eye,
The tenant is not there;
But just beyond time's little space,
She finds with Christ a resting
place,
No more to date her year.

So when she walks with you no
more,
The world will move just as before,
'Tis meet it should be so.
Let each his house in order set,
That he may leave without regret,
Whenever called to go.

NEW ZEALAND PEACHES.

A consignment of 200 cases of peaches from New Zealand is being held up by the fruit inspectors at Vancouver for a thorough examination, evidence of borer worm having been discovered. It is a long time since any peaches have been received here from New Zealand, which, with a climate like British Columbia, produces excellent fruit. The consignment came by way of San Francisco, and hence by the steamer Santa Cruz. It is feared the consignment may have to be condemned.

TAX OF 27 MILLS IS VERNON'S 1914 RATE.

The tax levy for the City of Vernon this year will be 27 mills over last year's rate of 62 mills. Improvements will be taxed at 80 per cent. of their valuation.

The levy will be divided as follows: 8 mills for general revenue; 12 mills for interest and sinking fund charges; 6 mills for the school district, and 1 mill for the Board of Health.

Just the Information We Need

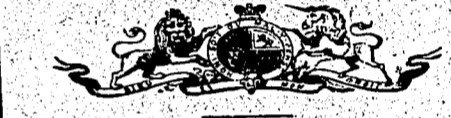

WEBSTER'S NEW INTERNATIONAL —THE MERRIAM WEBSTER

Every day in your talk and reading, on the street car, in the office, shop, and school some new question is sure to come up. You seek quick, accurate, encyclopedic, up-to-date information.

This NEW CREATION will answer all your questions with final authority. 400,000 Words Defined. 2700 Pages. 6000 Illustrations. Cost \$400,000. The only dictionary with the new divided page. A "Stroke of Genius."

Write for specimen pages, illustrations, etc. Mention this publication and receive FREE a set of pocket maps.

G. & C. MERRIAM CO.,
Springfield, Mass., U. S. A.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Drill Hall, Kamloops, B.C.," will be received at this office until 4.00 p.m., on Thursday, May 7, 1914, for the construction of the aforesaid building.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. Wm. Henderson, Resident Architect, Victoria, B.C.; on application to the Caretaker of Public Building, Kamloops, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,

Serious Runaway Accident.

Fortunately it is very seldom that such unhappy and exciting occurrences as the runaway accidents of last Saturday morning disturb our town. For a while on that morning the most painful sensation prevailed on Shaughnessy Avenue, when a good many people who were out witnessed the somewhat serious injuries sustained by one of our citizens and a young lady visitor, here for the Easter holiday. Between eleven and twelve o'clock E. O. James, tailor, was driving his nervous and spirited grey up town, when in some way the harness became detached, startling the horse, who immediately bolted. Mr. James' endeavors to check him might have been successful but that a rig driven by Mr. Harvey was just ahead, and the grey dashed into it, throwing Mr. James violently into the roadway, and smashing the rig. Continuing its wild career, the runaway next encountered the horse belonging to Mr. W. Arnett which was standing quietly with a rig outside the Empire Hall.

Miss Sadie Thompson of Kelowna was seated in the Conway rig outside the Summerland Supply, and seeing the approaching danger, Miss Thompson quickly descended to hold the horse's head. Before, however, she was able to do anything, the now frantic runaway had knocked her down and passed up the hill to the new Telephone Office at a terrific gallop, accompanied by Mr. Arnett's horse which became entangled with it. The unfortunate young lady, who was in a pitiable plight, her dress torn, bleeding profusely from injuries to her face, and unconscious, was carried into the Store, and first aid was rendered until Dr. Andrew could reach the scene.

By this time the doctor, who was fortunately in the street, was attending to Mr. James, who had been carried into A. J. Beer's Store suffering from a severe cut to his head, injuries to his shoulder and arm, and heavy bruises. With wonderful expedition Dr. Andrew had made the first patient comfortable, restoring him to consciousness, and was driven by Dr. R. C. Lipsett to the Supply. Miss Thompson was found to have had her nose broken in two places, and her lip badly cut, and suffering most painful bruises and abrasions. She was conveyed before noon to the Conway residence on a cot, and by the afternoon was sleeping quietly. Her mother, who was telephoned from Kelowna, arrived on the evening's boat.

Mr. E. O. James, after recovering consciousness, was taken to his home, and both sufferers are now doing well, though Miss Thompson is suffering considerably from shock in addition to her injuries.

ENGLAND'S PRIDE AND AMERICA'S STRONGEST MAN.

Only a fair sized audience attended the Empire Hall on Monday evening to witness the exhibition of physical strength and muscular development given by "Ursus The Great," and "Sam Clapham," but those present were highly satisfied with the performance given.

While we would hardly admit the claim of either Ursus to be the strongest man on the American continent, or Clapham as the coming champion, the physical development of both men was a revelation, and that it is possible for men to gain such wonderful control of their physical make-up, is nothing less than wonderful.

Clapham in his wrestling was not seen to advantage, as the man Lewis, who took the mat against him, was not in Clapham's class, and while he gave a fair exhibition, at no time was the result doubtful. It would have been far more interesting and entertaining to the audience to have seen Clapham perform against a man more evenly his match.

Ursus the strong man, however, was seen to better advantage, and some of his feats were above the ordinary. Tearing a pack of cards with his hands, first in halves, and then in quarters; bending a three quarter inch bar of iron across his bare neck; bending an iron spike with his hands; forming his body into a bridge, his head and feet on the floor, and while holding two heavy men on his body in this position, lifting 172 lbs. from the floor and extending to arm's length; lifting above his head two fifty-six pound weights with his little fingers; these and a number of other equally clever feats gave evidence to the fact that Ursus is certainly a man of strength.

St. Stephen's Church

"Ten Cent Tea" seems an altogether too commonplace description of the very enjoyable little affair held in connection with the W. A. at the residence of Mrs. Cartwright (by kind permission) on Wednesday afternoon. It was as much a social event as a church gathering, combining the character of both most pleasantly and successfully. The results of the work of the W. A. members were attractively displayed on tables in the hall and drawing room. Mrs. and Miss Cartwright were busy selling dainty things, Mrs. Brewer had a most attractive stock of lavender bags, lace and dolls, and Mrs. Clouston easily disposed of hand-made lingerie.

Tea was served in the dining room, Miss Cooper and Miss Blair assisting Mrs. and Miss Cartwright in their hospitable duties. Spring flowers everywhere in bright masses, helped to make the scene a very gay and pretty one, and a crowd of people were coming and going all the afternoon.

A business meeting of the W. A. will be held at Mrs. Brewer's on Wednesday next to discuss the advisability of continuing—or not—the meetings during the summer months.

We are very pleased to be able to say that Mrs. Robertson, who has been so seriously ill, is now somewhat better, and is making satisfactory progress.

BASE-BALL.

Play was more heavy than brilliant or exciting in the encounter between the College and Penticton yesterday at Penticton. With five innings, the result was 9-3 in favor of Penticton, play being called off in consequence of the heavy rain.

To-morrow there is an encounter with the Peachland team, and on Thursday, Penticton plays us a visit.

W.C.T.U. CONVENTION NEXT WEEK

The Annual District Convention of the W.C.T.U. will meet next Thursday and Friday in the Presbyterian Church. The morning meetings will open at ten o'clock and the afternoon meetings at two.

The subjects on the program are of special importance to women, and every woman in Summerland is very cordially invited to attend, and also to take part in the discussions if so inclined.

Refreshments will be served at noon for those who wish to remain for the morning for the afternoon, and again at six for those who wish to remain for the evening, to attend Dr. Spencer's lectures in the Gymnasium.

B.C. WILL EXHIBIT AT CALGARY IRRIGATION CONGRESS.

W. A. Lang of Peachland, who has been appointed exhibition commissioner for the British Columbia Government, spent some time in Calgary last week, and among other things made the arrangements for the B.C. exhibit of fruit and produce at the exhibition, which will be held in connection with the International Irrigation Congress.

It is understood that the British Columbia Government is after a large space and will exhibit part of the display which is being prepared for the world's exposition in San Francisco. The Dominion Government, through J. Bruce Walker, has also arranged for an exhibit.

The C.P.R. is now operating a direct express train service between Calgary and Spokane via the Crows Nest route and the Spokane International Line. The new service has been inaugurated in order to cope with the increased traffic between Spokane and points in Alberta.

Harry Reynolds of the Idyllwild Dairy, Garnett Valley, was mulcted the nominal fine of one dollar by Magistrate R. H. English on Thursday morning for permitting some cows and horses to roam at large in violation of the Municipal Pound Law. Complaint was laid by some residents of that section, and the constable got to work with the above result. Magistrate English also attached a caution against future offences to his penalty.

Taking it on the whole the show was well worth seeing, and an exhibition of this nature should encourage the young men in our district to take up athletic training a little more than is being done at the present time.

RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—80 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, APRIL 24, 1914.

SHIPPING TIME IS NEAR.

INDICATIONS at present are that Summerland will have this year a fruit and vegetable crop the magnitude of which its history has not equalled. This will force the ever-present problem of transportation to the fore. Not considering the larger area of trees that will come into heavier bearing, the increasing private connections that individual orchardists are working up, and the liberal ten per cent. margin which the Fruit Union is allowing its members, the immense increase of glass-houses culture of early vegetables alone makes certain heavy increases in express shipments, this being the logical method of transportation for such produce. Last season's total shipment is said to have closely approached three hundred and seventy-five tons in weight, and it would be no wild hazard to predict that there will leave Summerland this season express packages to the weight of at least five hundred tons, or about fifty carloads. Such a quantity calls for some other handling arrangement on the part of the Express Company than trucking on to the "Okanagan." The business is reaching such proportions now that the most satisfactory method of handling at the wharf is obviously to load right into fruit cars. The scattered destinations of the shipments would complicate the loading of cars, but not unreasonably so, if it were done systematically.

To give the best service to Summerland a daily barge service should be instituted on the lake, dropping an empty car off on the down trip about five o'clock, and calling for the loaded car on the up trip after midnight. This would permit loading in the cool of the evening, and the journey up the lake with open doors would have almost the effect of pre-cooling.

That the Dominion Express Company is alive to the needs of this district can safely be taken for granted, and also that the situation will be met in all requirements. Summerland was, last year, perhaps the heaviest express shipping point up and down the Valley, and is more than likely to maintain its position. As such this town is entitled to big consideration, and there is little question but that it will be given it.

CLEAN-UP DAY was instituted in somewhat of a hurry this year. The first intimation that most of the good citizens who were expected to participate received was probably the notices that adorned the town at various vantage points two days before. Most people need more than two days talking to in order to induce them to set their own back yards in order, and these same people need a great deal longer to get into the magnanimous frame of mind that will prompt them to help clean up other people's rubbish, and the debris of vacant lots and road sides. The "Clean-Up" movement, which aims to make a "spotless town," needs the talk and boost of an advertising campaign, and we are voicing others' sentiments as well as our own, when we express regret that such a municipal enterprise, which every one commends, could not have been given a little more advance notice. There is some improvement from last week's efforts; there would have been more if "Clean-Up Day" could have been "talked up" into greater enthusiasm.

DISASTER has overtaken the island of Newfoundland in the total loss of two vessels engaged in the sealing trade in Labrador waters. The two steamers were overtaken by a fierce blizzard while on the home trip, heavily laden with valuable catches of seal. One vessel was sunk after a long struggle against the elements with the loss of seventy men of the crew. Thirty were saved, but all will be seriously maimed for life from the terrible frostbites they suffered. The other sealer presumably foundered, and one hundred and seventy-three lives were engulfed into the icy sea. The Atlantic thus claims nearly two hundred and fifty lives, the breadwinners for one thousand women and children, who are now totally dependent upon charity. There is a grim co-incidence in the fact that these two vessels were lost within a week of the second anniversary of the sinking of the "Titanic."

Baby Chicks.

Dougan's "Bred-to-lay" Trap-nested Strain R.I. Reds

from large Pen, averaging 155 eggs each - \$25.00 per 100, for delivery about April 16th.

Also quantity of

Dougan's Banner Strain S.C. White Leghorns

From Pens averaging 177 eggs each.

In lots of 100 - \$20.00 per 100.

Owing to change in plans, these very fine birds are offered for sale at lowest prices.

THOS. J. GARNETT

P.S.—Bunch of 23 WYANDOTTES, one-year old Hens, and other birds, including Brown Leghorns, for sale to make room.

GET OUT AND VOTE.

IT IS THE DUTY of every ratepayer in the Municipality to register his vote on Tuesday for or against the debenture by-law which the Council is putting before the people for sanction. That the by-law will pass is almost a foregone conclusion. It seems to represent the easiest way out of complex financial difficulties. The irrigation system stands in need of much repair and renovation—this is a condition conceded in all quarters—but there is also a general unwillingness to take on any additional burdens in the shape of rates and taxes. To pick out the most pressing needs of the system and limit their cost to a sum which adds but little to the municipal indebtedness and taxation has not been the easiest of tasks.

The coming season will show the wisdom of cement lining long stretches of the big south main, in going right to the heart of the water shortage question. Our civic governing body realizes that the first need of this district is an unstinted irrigation service, and the lining of ditches is a permanent improvement to this end which should be extended as far as possible. The loss of water from seepage in earthen ditches is very considerable, and the outlying lots will benefit inestimably from the increased flow of water which is thus being conserved.

Prominent fruit growers are advocating the wider cultivation of intercrops, feed, etc., and many local orchardists, heeding this doctrine, are putting down all the available acreage of their orchards to seed of one kind or another. All these crops will need water, so that Summerland will never use less irrigation water than at present, on the contrary, more will be necessary. It is therefore imperative that the maximum of water that leaves the storage dams reach the lots. In other words the Council is greatly increasing the efficiency of the people's irrigation system by expending the major portion of the twenty thousand dollars on cement-lining some of the largest main ditches.

Get out and show your interest in what is being done to insure the fruit growers against water shortage by voting on Tuesday next. Tacit approval may be implied by the vote that is withheld, but the vote that is registered, whether for or against, shows an interest in, and an appreciation of, the work of the men who are giving up valuable time for the community weal.

Are We A Power Or A Mob?

Organization is a modern policy. The organized man is a power, he moves shoulder to shoulder with his brother; the unorganized man is merely a part of a mob, with no chart or compass to guide him.

Organization is the spirit of progress, and the spirit of progress is the greatest asset a business or an individual can have.

The more people we can work with and for, the bigger and better you and I are.

We are living in an age of organization. Commercial and industrial enterprises, cities, men are thriving upon it.

We are living in an age of organized interests. Men get together to discuss things, to better conditions. They are doing it in a spirit of progress.

Reciprocity, mutuality, co-operation are combined in this spirit, and the greatest of these is co-operation.

Competition may have been the life of trade once, but it is no longer so. Competition died when the inventive genius of modern engineers devised machines that will manufacture beyond our present economic wants. Competition, then, became suicidal and destructive, and anything that is suicidal is dying—is dead. We have passed through the savage age, the stone, the competitive, and now we are passing into the co-operative. We will not be here so very long, anyway, and soon Death, the kind old nurse, will come and rock us to sleep—and we had better help one another while we may.

Board of Trade Meeting.

The lighting of the new wharf and the putting of life guards around it were considered at a recent meeting of the Board of Trade, and it was decided to ask the Federal Government to attend to both these details. At the same meeting a letter from the C.P.R. was read regretting that the name of the new steamer could not be changed from Sicamous as had been requested.

Two motions from Penticton, one that means be taken to maintain the lake level at its low water point, and another that a wharf be built at Penticton for the accommodation of small boats received the endorsement of the local board.

A resolution asking the Council to widen and improve the Peach Orchard Gulch Road for auto purposes was unanimously carried.

The Board decided to duly entertain the Press Association when it calls at Summerland during the coming visit of the association to the Valley.

Mrs. G. W. Morfitt and daughter, Miss Verda returned on Wednesday from a visit to Calgary.

Jas. A. Darke has exchanged his 10 acre orchard lot near Prairie Valley for a 320 acre farm 20 miles west of Calgary.

During the unloading of two cars of cattle last Saturday several of the animals got into the lake and one was drowned.

G. R. Hookham has ordered a McLaughlin touring car from Ned Bentley, and is looking for its arrival at any time.

Mrs. S. Angove and Mrs. W. Limmer went down to Penticton early this week to visit a former Nova Scotia friend.

A riding party of about thirty-five horsemen and women met at the residence of Mr. and Mrs. Hector Sutherland on Saturday and enjoyed a good afternoon's gallop. Proceeding to Mr. and Mrs. Zimmerman's ranch they were reinforced by some more riders and from thence to Paradise Flat, afterwards returning to tea at the Sutherland home.

LOCALS.

Mr. G. A. Henderson was a passenger south bound on Thursday night's boat.

Duncan Woods, who has been absent for some months, is again about town.

George Gartrell this week purchased a Ford touring car from a Penticton agency.

The Misses Bateman, two nieces of Miss Dale, are visiting here at the home of the latter.

C. Nash of Vancouver, whose mother owns an orchard property in Garnett Valley, arrived here on Wednesday night accompanied by W. R. Dunn of the same city. Both young men plan on spending the summer here.

Methodist Church services will be held on Sunday as follows: at 10.30 a.m. service will be held in the Methodist Church, while the service at 7 p.m. will be in St. Andrew's Church. The pastor will conduct both services.

The baseball team of the Central and High Schools is going to drive to Peachland to-morrow to meet the junior team of that town. The Peachland seniors are due to meet the College nine on the Campus in the afternoon.

Summerland was this week highly complimented on the excellent telephone service which it is receiving from the local company. Mr. R. M. Winslow, Provincial Horticulturist, was both surprised and delighted, and without qualification pronounced it the best and quickest telephone service he had ever met with.

A surprise party comprising considerable numbers dropped in upon Mr. and Mrs. D. Lorne Sutherland at their new home near the high flume on Wednesday evening to celebrate a "house warming." Mr. and Mrs. Sutherland proved themselves well equal to the occasion as host and hostess, and not the least enjoyable part of the evening was an informal dance to which purpose the spacious rooms are admirably adapted.

Passing Events: Social, Personal, &c.

Principal E. W. Sawyer arrived last Friday from an extended business trip to the Coast.

Mark Fetherstonhaugh, who spent the winter months with his parents in England, is again seen about town.

Miss Beatrice Leverington, who has completed her studies at the College, returned to her home in Armstrong last Saturday.

J. J. Blewitt and Fred Baker, who were working on the wharf construction here, and later with the same company on Shuswap Lake, have returned.

To-morrow, Saturday the 25th, while unloading at C.P.R. dock, we will sell Portland cement at \$1.00 per sack, including sack. One day only at this price.—W. Ritchie. a24

Don't forget that the Sale of Ladies' Boots and Shoes at the Summerland Supply Co. will be continued for another week. Two pairs for \$4.45 coupons, or \$4.00 cash. a24

Presbyterian services will be held in St. Andrew's Church next Sunday morning, and in the Methodist Church in the evening. Mr. D. McKellar will sing at the latter service.

A complete census of the lamps supplied with electric current from the Municipal plant is being made this week. It is essential that the Public Works Department know just how much load the plant may be required to carry.

Mr. T. H. Walker, who has been working here for T. B. Young all winter, went up to Seacombs on Tuesday to meet his wife, who has crossed from Liverpool. Mr. and Mrs. Walker came in last night, and have taken up their residence in the T. C. Orr house.

S. L. Taube of the Taube Optical Co., Vancouver and Calgary will be at the Summerland Drug Co. Store on Friday, May 1st. If you have anything wrong with your eyes make it a point to consult him. All work guaranteed as tested.

Four very nice horses were received here this week by James Ritchie. These horses, which are all of good size, included one fine Percheron stallion, weighing 1900 lbs., and will be valuable additions to the horseflesh of the community, which is yet much in need of the infusion of better blood.

Mr. and Mrs. W. F. Barnes and family of London, who arrived at Naramata on Saturday the 11th, have removed to temporary quarters on the shore at Peach Orchard. Mr. Barnes purposes making himself familiar with horticultural work, and in the meantime will be on the look-out for a property for himself.

D. H. Watson has been appointed by the Provincial Government to assist in the valuation of Indian lands on the reserves from Enderby down to the Boundary. This is in continuance of the work of the Commission which was through the Valley last fall investigating matters pertinent to the reserves. Mr. Watson is now with Indian Agent J. R. Brown engaged on this work.

Thos. Figgis, proprietor of the Victoria Cafe, Shaughnessy Avenue, is making preparations to provide the lakefront section with one of its summertime needs—a comfortable and inviting ice cream and soft drink parlor. Part of his store is being tastefully fitted up with individual tables for this purpose, and the Victoria Cafe is likely to become one of the popular rendezvous of the town during the hot days that are coming. See his ad, on page 5.

The third performance of the oratorio, "From Olivet to Calvary," was given at the Presbyterian Church on Tuesday evening last. There was not a crowded attendance, but the performance was meritorious, the familiarity of the singers with their music plainly showing itself. Particularly in the second part of the work did the chorus acquit itself creditably. The solos were perhaps more beautifully rendered than in Empire Hall on Good Friday evening, losing none of their effect from repetition, but rather gaining. Mr. T. G. Beavis deserves much credit for his painstaking conductorship, and Miss Bonn Logie for her untiring accompaniments.

SHILOH CURES COUGHS & COLDS

L C Woodworth motored over to Princeton on Monday returning the next day.

W. J. Robinson was in Peachland on business for a day or two about the middle of this week.

The Board of Directors of the Okanagan United Growers Ltd. held a meeting at Vernon on Friday last.

George Sinclair is taking a short vacation of about three weeks from his accountancy duties at the Summerland Fruit Union.

An addition is being built to the rear of the Milne-Noble building on Shaughnessy Avenue, to provide outdoor sleeping porches.

Mr. and Mrs. C. Noel Higgin have vacated their Peach Orchard cottage and are now living at Balcom with Mr. and Mrs. Higgin, sen.

Are your eyes right? If not see S. L. Taube the well-known Optical Specialist. He will be at the Summerland Drug Co's. Store on Friday, May 1st. Make appointments at the Drug Store.

A large residence is now in course of erection on Paradise Ranch, the property of M. G. Wilson. Mr. Wilson, we understand, expects to be joined by his family who will arrive shortly from his former home in Scotland.

Mr. and Mrs. Thomas H. Riley and family removed at the end of last week from the Hewitt property in Peach Orchard, and are now in occupation of the cottage on the ten acre fruit lot of Dr. L. M. More of Brandon. Mr. Riley will care for the orchard this season.

The postponed social meeting of the Baptist Brotherhood will be held on Tuesday evening next at the Parkdale Church. There will be an "open night," and ladies are cordially invited to attend. Music and refreshments will add to the enlivening of the evening.

Mr. Herbert Grant arrived in Summerland on Tuesday evening from London, England. Mr. Grant has previously been engaged with sedentary work and seeks recuperation in the Okanagan. He is staying at present with Mr. and Mrs. A. B. Williams of Peach Orchard.

A large number of ladies have taken advantage of the Boot and Shoe Bargains offered by the Summerland Supply Co., and in order to give everybody a chance to get two pairs of excellent Boots or Shoes for \$4.45 coupons, or \$4.00 cash the sale is being continued for another week. a24

The attractions of our neighborhood are at their highest just now, with the exquisite promise of spring blossoming in the orchards and a carpet of wild flowers on every trail. It is small wonder that visitors coming for a brief stay, look about, covet, purchase and remain. This at least is the story of the recent holiday week.

Mrs. Gertrude Young came in on Friday night's boat and is now with her brother, Mr. Clarence Pineo, in residence on his ranch for the summer. Mrs. Young, during the winter in Vancouver, has been busy advertising the attractions of Summerland and the possibilities of fruit ranching for women, and last week gave an address on "Fruit Growing for Women" in the World Building in Vancouver. In a recent edition of "Society," a bright little Vancouver monthly, Mrs. G. L. Young had an interesting article on the same subject.

Addresses will be made in the Baptist Churches on Sunday next in furtherance of the plans for an "Every Member Canvass" which the church is undertaking along the lines suggested by Mr D M Rose who spoke at the recent Layman's Missionary Movement Banquet. Mr G J C White will speak about the central thought of "Stewardship." Dr E W Sawyer will take another aspect, and Mr W M Wright will explain the relationship of the canvass to the budget by which the church gorges its expenditures. The "Every Member Canvass" is not a special effort to raise an immediate fund, but an endeavor to get all the membership pledged to regular contributions both to the current expenses and the missionary undertakings of the church. Services will be held as usual on Sunday, in the Parkdale Church at 10 30 a.m., and at the Lakeside at 7 p.m.

DR. SPENCER COMING.

Rev. Dr. Spencer, now of Calgary, Superintendent Social Service for Western Canada, will give a public lecture in the College Gymnasium next Thursday evening, April 30th. The subject of the lecture will be "The Women of the World and Their Work."

There will also be a lecture on Friday evening, May 1st, on the subject "Shall There Be a 'Banish the Bar' Crusade in B.C.?"

A special program is being arranged for both occasions. It is hoped that the people of Summerland generally will embrace the opportunity to hear Dr. Spencer.

A collection will be taken at the door to defray expenses.

CHOIR VISITS PENTICTON.

The augmented Methodist Church Choir had a cordial reception at Penticton on Friday night when they rendered the oratorio, "Olivet to Calvary" in the Methodist Church there. A fairly large gathering expressed their hearty appreciation of the music, and the party, who made the trip on the "Skookum," were afterwards entertained with light refreshments in the church basement. The Rev. M. Thompson thanked Mr. T. Beavis and his choir for the musical treat afforded his church members, and the Rev. R. W. Lee briefly responded.

OUR NARAMATA SECTION

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Peachland Notes.

Mrs. John Gummow and her daughter Miss Gertrude spent Thursday in Kelowna.

W. J. Robinson of Summerland spent Tuesday in town on business in connection with the townsite.

Those who spent their Easter holidays in town have all returned to their homes or to their work in different places.

Mrs. David Kirkby of Penticton and her little daughter, Annie Margaret are the guests of Mr. and Mrs. J. McLaughlan this week.

Miss Olive Young came up from Penticton on Tuesday morning and is at present the guest of her uncle and aunt, Mr. and Mrs. Fred Young.

Mr. and Mrs. Walker Aikens and children returned to Kelowna on Monday, having spent Easter week in town, the guests of Mr. and Mrs. Ted Smith.

The Okanagan Telephone Company have agreed to re-install the phones in town at the first rates, namely \$1.50 per month, with hours from eight to eight.

Mr. and Mrs. Ted Smith to-day celebrate the anniversary of their marriage. The young people are giving them a surprise this evening by taking a dancing party to spend the evening with them.

The Ladies' Aid Society of the Presbyterian Church held a birthday anniversary social on Tuesday evening, at the home of Mrs. Thompson Elliot. The program was varied, consisting of recitations, music, songs and games. The feature of the evening was the presentation of addresses in verse, accompanied by music and dancing, to Mrs. Miller, president of the society and to Mrs. A. Smalls. Two little tots, Miss Gwendoline Lang and Annie Taylor then presented each of the honored ones with a silver thimble. The addresses were the work of home talent, and reflect great credit upon the composers.

PEACHLAND NOTES

(Too Late For Last Issue.)

Mr. Fred Davidson of Vancouver is spending a holiday with his father, Mr. S. Davidson of town.

Mr. Roy Davidson of Winnipeg is spending a few weeks with his brother, Mr. N. Davidson of Trepanier.

On Saturday evening Messrs. Robt. and Roy Houston of Carlton Place, Ont., arrived to visit their sister, Mrs. Wm. Douglas. Roy will leave shortly for Regina, but Robert will stay indefinitely.

A complaint has been made against the librarian of the Reading Room for selling home-made cookery on commission. The city fathers have reserved their decision until the next meeting of the Council.

The Okanagan Telephone Company has again opened negotiations with the citizens here re-installing the phones which were removed some time ago because of the exorbitant charges and the inconvenience of the hours. We understand that a decision is to be given at a meeting this evening as to whether or not the offer of the company will be accepted.

An interesting meeting of the Women's Institute was held in the usual place on Tuesday afternoon. Lessons in buttonhole-making were given by Mrs. Dryden and Mrs. Clarence, while various kinds of fancy work were demonstrated by Mrs. Taylor. Mrs. Hobert Logan sang very sweetly at the opening, and Miss Jenn Dryden gave "The Gipsy's Warning," after which the meeting adjourned.

"NARAMATA'S" FIRST TRIP.

The new C.P.R. steel tug "Naramata" made its first trip down the lake on Wednesday afternoon. It did not call at Summerland, but went straight to Penticton. The "Naramata" is a sister craft to the "Castlogar" which was commissioned in 1912. By the time the heavy shipping season arrives there will also be a total of four ear barges in service, two for each tug.

Naramata To Have Herd Law

The Farmer's Institute certainly touched on a live issue when at a special session held on Friday night last the report of the committee appointed at a previous meeting brought in a report favoring the adoption of a herd law for Naramata and district, naming as boundaries: Four Mile Creek in the south; railway grade at the east; the lake at the west; and the gulch immediately west and below the first tunnel, on the way to north Naramata.

As anticipated the proposal met with considerable opposition, but as most of this was from parties not as yet affiliated with the organization the motion to not accept the report of the committee was ruled out of order, and the report was finally adopted.

In order to avoid any sectional feeling on the matter it was compromised by setting the date five months ahead before the act becomes operative a far as bona-fide proprietors of Naramata are concerned.

A. Moore, after several weeks' sojourn at Naramata, left for Hope, B.C. on Monday where he again enters upon survey work.

The Old England

JULIUS W. A. BLOCK,

Current Events — OF — Town & District

N. Mitchell returned on Wednesday morning from a trip to Oroville and Princeton.

Mrs. Nuttall, nee Miss Freda Mitchell, will be at Home next Thursday afternoon.

Messrs. H. Endacott and W. Mitchell were business visitors to Penticton on Tuesday.

Miss McLennan of Okanagan Falls is a visitor in town this week, the guest of Mrs. W. Mitchell.

Mr. and Mrs. Nuttall returned on Monday evening from their recent honeymoon trip and have taken up residence in Naramata.

Reports from the hospital at Penticton indicate that little Henry Wishman, who had his hand so seriously injured as the result of the explosion of a cap at the tunnel camp last Thursday, is making good progress toward recovery.

The government ferry boats, the "Skookum" and the "Trepanier" were this week subjected to the semi-annual inspection by Inspectors Cullum and Pickard. The latter boat, now on the ways, is to be re-painted before entering on the season's operations.

The Okanagan Trust Company are making every effort to have their irrigation system in working shape ready for May, 1st, at which date the season is legally open. An effort is being made to simplify the system in a few of the lines. Particularly noticeable is the line leading down from the main south flume toward Mr. Block's. Here the line of pipe has been substituted for the old high flume which was never wholly satisfactory, and required a lot of supervision.

IN THE RIGHT.

"They are slaves who fear to speak for the fallen and the weak: They are the slaves who will not choose Hatred, scoffing and abuse, Rather than in silence shrink From the truth they needs must think. They are slaves who dare not be. In the right with two or three."

The Water Investigation.

The other matter dealt with on Friday night last at the special meeting of the Farmers' Institute was the water question. The Institute were favored with the presence of Engineer Nottingham of Vernon, who represented the Provincial Government in this matter and who answered all questions put to him by the members in a satisfactory manner. According to the new act now operative in B.C. a community such as Naramata may make application to the Minister of Lands for authority to conduct an investigation as to the feasibility of constructing storage dams to provide water to properly irrigate all tillable land and contiguous to it.

The act also provides for the floating of sufficient bonds extended over a period of years, to meet the cost, including if need be the purchase of any existing system at the time in operation.

After a full discussion pro and con, it was decided to proceed with the investigation. A committee consisting of T. H. Boothe, J. H. Pushman, and S. B. Cash was named to carry out the wishes of the meeting.

This is by long odds the most important move made by Naramata since the inception of the community and the results are being watched with no small degree of interest.

Word has been received that our former citizen Mr. R. King will remove with his family to his Naramata fruit ranch.

Mr. H. Mulford's injured eye has now about assumed its normal size, and we may expect to have him back in the ball team in another week or so.

A whist drive in aid of the piano fund, conducted by Mrs. Lewis Block on Thursday evening proved a popular source of entertainment for the week.

Mr. Hyde, horticulturist from Vancouver is in town this week assisting Mr. Simms in the work of eradicating the blight from the few infected orchards of the district.

The baseball game—Bachelors v. Benedicts—stated for Thursday afternoon, had to be called off on account of the rain. This interesting contest will likely be pulled off next week.

The Unity Club ladies are planning a series of Thimble Teas in order to swell the tidy sum already in hand toward meeting the outlay on the piano purchase. The ladies are to be commended for their enthusiasm, in a wise cause.

Another local advertisement appears for the first time this week. Slowly but steadily our business houses are expanding as is plainly evidenced by the steadily increased advertising space being used by our local merchants. Our latest advertisement will be read with interest by our lady citizens in particular.

College Notes.

Fay Walrod has quite recovered from his recent illness.

Dr Sawyer came in from the Coast last Friday night.

At the Y.W.-Y.M.C.A. Mr Estabrook gave a very interesting address on "The Call of Young Life To-day." Miss Hurschmann gave a piano solo. These meetings have been a very important part of the life at the College this year, and the students have supported it well.

On the Campus last Friday the Kelowna ball team beat the College team by a score of 5-4. Vanderburg performed on the mound for the College, and his work was most effective. He only allowed six hits. A few errors in the first inning let in some runs. Phinney's hitting and some nice catches by Morlock at short were features. The Kelowna infield was fast, and a couple of double plays cut down the hopes of the College team.

On Wednesday afternoon the junior team entered played the Central School at baseball on the Campus. The final score was 14-12 in favor of the College boys. There was a lot of heavy hitting on both sides.

A New Department

NARAMATA is now to have a long-felt want supplied. Our lady-folk can henceforth have all their needs in the way of Staple Dry Goods,

Ladies' and Children's Underwear, Hosiery, Shirt Waists, Neckwear, &c.

supplied right at home and at reasonable prices. Goods not in stock will be gladly procured at lowest figures. Call and inspect our stock, and place a trial order.

Beginning Saturday, the 25th, ICE CREAM and a full line of SOFT DRINKS will be on sale in the Drug Department. Neilson's and other high-class Candies a specialty.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting:
Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Anabls, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armaris, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Success In Retailing

An essential factor in achieving success in a retail business is **ADVERTISING**—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of newspaper advertising.

A NOTE TO THE PUBLIC

Who serve you best—busy or half-busy men? busy or half-busy shops? Where is your custom most desired and appreciated? Is it not at those shops which stretch out the hand of welcome and invitation—in the form of advertisements in the **REVIEW**.

Shop where You are Invited to Shop

The Summerland Development Co.
NARAMATA - - B.C.

First Dominion Commissioner Of Fruit Named.

Mr. Dan Johnson, of Forest, Ontario, is Appointed Head of New Branch of Agricultural Department.

Mr Dan Johnson, of Forest, Ontario, has been appointed first Commissioner of the new branch of the Dominion Agricultural Department which has been instituted by Hon. Martin Burrell, and which will have supervision of the fruit industry and all matters connected therewith. For a year past Mr Burrell has had under consideration the re-organization of the Dairy, Cold Storage and Fruit Divisions, and has now decided that the time has come for the appointment of a man to give his whole time to the fruit industry. The man he has chosen is known as one who is an expert in horticulture.

Since 1905 the Fruit Division has been under the general direction of Mr J A Ruddick, with the late Mr Alex. McNeill as head, in which capacity he did long and excellent service for the Department. Mr Ruddick's administration of the fruit industry has been marked by much successful and profitable work consisting of such matters as experimental commercial shipments of tender fruits to the United Kingdom, important exhibition work and re-organization of the fruit inspection service which he has carried out since 1912. There is abundant justification for the step which the Minister of Agriculture has now taken in the interests of fruit growers, since there are at present more than five hundred thousand acres of Canadian orchards, the capital invested being more than one hundred million dollars.

There are yet many important problems to be solved dealing with transportation, market conditions, co-operative movements, etc., and to these the new Fruit Commissioner will give his attention.

Mr Johnson is well known as one of the most successful shippers of Ontario and has done much to promote the practical improvements in the industry along co-operative and other lines.

There are phases of town-boasting that consist in keeping quiet about unpleasant facts that may hurt the place. Something novel in this line says an exchange has been evolved in Cape May. It is to have no to let or for sale signs on vacant premises. The argument is that it gives visitors an impression that business is slow when they see so many dwellings and stores placarded as empty, and that is true. These signs also seldom get tenants or buyers, who as a rule consult the newspaper advertisements or the real estate agents' lists.

AUSTRALIAN FRUIT PACKAGES.

Mr. R. M. Winslow, secretary of the B.C. Fruit Growers' Association writes to the local secretary on the question of fruit packages for the Australian market as follows:

"We are still working on this matter, and I would advise that the essential knowledge to date may be outlined as follows:—

Only the State of New South Wales has passed a Fruit Cases Act, no similar action having been taken in any other state or in New Zealand. As Sydney, one of our principal markets, is in New South Wales, their act is of importance.

The New South Wales Act permits a 1 bushel case — 20x10x11 inches: that is, 1/2 inch wider than the Canadian legal export box.

It is still uncertain whether this Fruit Cases Act will actually be enforced against imported fruit, but on this point we hope to have definite knowledge within a few weeks."

THE TELEPHONE.

Whenever mother telephones,
She talks about a lot of things,
So father only sits and groans,
Whenever anybody rings.
"The season's earlier this year."
"I haven't got my new straw hat!"

"I can't, because my child is here."
"What did her husband say to that?"

And Father only says "Hello!"
And takes the 'phone up in his hand.

"Is that you, Hawkins? This is Snow,
I wired Chicago. Understand?
I think our man intends to fight.
But we can best him if we try.
You'd better do so, then, to-night.
See you to-morrow. Well, good-by."

And Sister says, "Oh, is that you?"
And then she fixes up her hair,
'S if anybody could see through.
"Oh, I don't know. Oh, I don't care."

"I think I can, if you insist."
"And wasn't yesterday a dream?"
"There's seven on the waiting list."
"I do love strawberry ice cream!"

But what I do is just to say
To Annabel, or Lucy White,
"Can you come over here and play?"
"And then they answer me, "All right!"

Perhaps when I am really grown—
I'm only seven and a half—
I'll get my friends upon the 'phone,
And talk and talk, and laugh and laugh!

—St. Nicholas.

Yes, Alonzo, it's better to have poor relations than to be one.

District Municipality of Summerland.

BY-LAW No. 57.

A By-law to raise \$20,000.00, to enlarge, improve and extend the Irrigation system and plant of the Corporation of the District Municipality of Summerland.

WHEREAS it is deemed advisable to repair, enlarge, extend and improve the irrigation system and plant of the said District Municipality of Summerland,

AND WHEREAS it is necessary for the said purposes to raise, by way of loan, upon the credit of the Corporation of the District Municipality of Summerland, the sum of \$20,000.00, payable on the first day of May, 1914, bearing interest in the meantime, payable half yearly at the rate of six per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of \$871.64 by rate in each and every year.

AND WHEREAS the whole rateable property of the said District Municipality of Summerland, according to the last revised assessment roll, is \$2,884,980.00.

AND WHEREAS the total amount of debenture debt of the said District Municipality of Summerland is \$304,000.00, of which none of the principal or interest is in arrears.

NOW, THEREFORE, the Reeve and Council of the said District Municipality of Summerland, in open meeting assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said District Municipality of Summerland, to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same, on the credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$20,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the Reeve to cause any number of Debentures to be made, for the sum of not less than \$1,000.00 each, bearing interest at the rate of six per cent. per annum, not exceeding in the whole the sum of \$20,000.00, and all such Debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3. The said Debentures shall bear date the first day of May, 1914, and shall be made payable in twenty years from the date hereinafter named for this By-law to take effect, at the Agency of the Bank of Montreal, in the said Municipality of Summerland, B.C. or City of Toronto, Ontario.

4. The said Debentures shall have Coupons attached for the payment of interest at the rate of six per cent. per annum on the amount of the said Debentures and such interest shall be payable half yearly on the first days of May and November in each and every year and the signatures to such coupons may

Good Food
Makes
Healthy Children

Good food need not be dear food. Plain, healthy groceries that are one hundred per cent. pure—the only kind we find it worth while to sell—are of more value than all the fancy feeding schemes you hear so much about. Give your children the kind of groceries we keep. We love the kiddies and you may rest assured that a child may eat any food article in this store with every advantage to his health.

Good food makes healthy children. Let us show you what we have done to help along the pure food movement. Come in to-day and compare our prices and quality with any other store in this country.

be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures, and to provide for the payment of the said debt when due.

6. The sum of \$1,200.00 shall be raised and levied annually by a rate on all the rateable property in the Municipality, in addition to all other rates, for the payment of the interest on the said Debentures.

7. The sum of \$871.64 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all other rates, for the payment of the debt hereby created when due.

8. It shall be lawful for the said Municipality from time to time to re-purchase any of the said Debentures at such price or prices as may be mutually agreed upon and no re-issue of any Debenture or Debentures shall be made in consequence of such repurchase.

9. This By-law shall, before the final passage thereof, receive the assent of the Electors of the said District Municipality of Summerland, in the manner provided for by the "Municipal Act 1906" and Amending Acts.

10. This By-law shall come into force and take effect on the first day of May 1914.

11. This By-law may be cited for all purposes as the "Irrigation Loan By-law, 1914."

Passed by the Municipal Council this ninth day of April 1914.

Received the assent of the Electors of the District Municipality of Summerland the

day of 1914.

Reconsidered and finally passed by the Municipal Council the

day of 1914.

Reeve.

Clerk.

Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Office, West Summerland, for Wards Two and Three, between the hours of 9 a.m. and 7 p.m. on Tuesday, the 28th day of April, 1914.

J. L. LOGIE,
Municipal Clerk.

PUBLIC NOTICE IS HEREBY GIVEN that the vote of the Electors of the District Municipality of Summerland will be taken on the above-mentioned By-law at the time and place above mentioned and that J. L. Logie has been appointed Returning Officer to take the vote of such election with the usual powers on that behalf.

By order of the Council,
J. L. LOGIE,
Municipal Clerk.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

Kaleden Comments

Miss Vera King was down from Penticton for a day or two during Easter week.

Mr. and Mrs. Jas. Ritchie of Parkdale, Summerland, motored down on Wednesday afternoon.

Mr. J. F. Tupper returned for the opening of school on Monday morning after the Easter vacation.

Mr. Geo. Purvis left during the week to join Mrs. Purvis in Seattle, where he expects to be working during the summer.

Rev. J. Cleland was down from Penticton last Sunday afternoon and conducted a service for the Anglicans residing here.

The consignment of furniture and household effects for Mr. James Beddall arrived during Easter week from the Old Country.

A business meeting of the Woman's Club was held in the clubroom on Wednesday afternoon at three p.m. Mrs. O. E. Tomlin was the hostess on that day.

Mr. Paull took charge of the Tuesday evening meeting in the Baptist Church, which was arranged by the Women's Mission Circle, as a special prayer meeting.

Mr. H. H. Elsey of Summerland has been here for the past week, and with the assistance of Mr. W.

King, is building a stable and small residence on his lot for use in the summer months.

THE WOMAN'S CLUB CONCERT.

The concert organized by the Woman's Club took place in the schoolroom on the evening of the 16th, and proved in every way a great success.

The program was a very full one, but was well carried out, and gave great pleasure to a large and appreciative audience. It consisted of pianoforte solos by Mr. Battye, Kaleden, Miss DeBeck and Miss Boggs, Penticton. Vocal solos by Mrs. Mitchell, Messrs. Phillips and Hunnabell of Penticton, Mr. Ravenscroft and Master Clement Battye of Kaleden. Mrs. Rouke had carefully trained, six young girls for a fancy drill, which was splendidly given, and reflected great credit on those who had taken such pains in preparation. A minuet was danced, and recitations given by Velma Simpson and Janet McGraw, both looking very sweet and pretty in fancy dress of the early Colonial period, and who took their part in a very fine and graceful manner.

A pleasing variety was given by a humorous farce by Mrs. Fraser Campbell and Mrs. England of Penticton, in which the acting was especially good, and caused a hearty laugh.

Special thanks are due to the several friends from Penticton who came down and so gladly gave assistance, and especially to Mrs. Mitchell, whose singing of quaint Scotch songs was much appreciated. The audience numbered about 125, and friends from Penticton, Okanagan Falls, Myer's Flat, and Marron Lake were present.

The total sum realized is in the neighborhood of \$45. Mrs. D. D. Lapsley, with others, afterwards served a lunch in her home to those from a distance.

Okanagan Fruit Preferred By Prairie Trade.

Messrs. Robertson and Reekie Arrange For Season's Output.

The completion of marketing arrangements for the season's shipments of fruit and produce is announced from the Okanagan United Growers.

J. E. Reekie, President of the Central, and R. Robertson, Manager, returned on Saturday from a fortnight's trip to the various distributing centers in the prairie provinces, to which the bulk of the Okanagan fruit is sent. While away they closed arrangements which, it is confidently believed, will give an even more satisfactory distribution than that obtained last year.

An increasing interest in and satisfaction with British Columbia fruit on the prairies is reported by Mr. Robertson. This, he says, is due to the improved grade and pack of all Okanagan Valley products, which makes British Columbia fruit more satisfactory to the consumer on the prairies.

A general interest in the Okanagan, and kindly enquiries as to the district were met on all hands. "I found a disposition on the part of the trade generally to give preference to Okanagan and B.C. fruit over that offered by our competitors," said Mr. Robertson on his return.

"With the likelihood of greatly increased production this year, it behooves every grower to use the greatest care possible in the spraying, thinning and general care of his fruit, in order that we may be able to put out an even more satisfactory pack than that of last year. Quality is what will get and hold the trade for the district."

STEAM LAUNDRY AGENCY.

Thos. H. Riley, who has had the agency for the Penticton Steam Laundry is expecting to enlarge the service of his agency to patrons of this white laundry. In the near future Mr. Riley hopes to establish a collection and delivery, which should prove an inducement additional to the excellent workmanship of the laundry. Mr. Riley reports that no complaints have been registered with him during the time he has held the agency, and it is thought that many housekeepers would avail themselves of the opportunity to save themselves much hard work for a reasonable cost did they know of the excellent service which the Penticton Laundry provides. Parcels can be left with Mr. Riley at W. J. Robinson's office up to Tuesday morning for return delivery the same week. On page 2 appears the Laundry ad, which you should read.
