

Municipal Situation Is Laid Before Ratepayers

Council Presents Statement and Financial Outlook.

Discussion Centres On Improvements To Irrigation System.

At the annual public meeting of municipal ratepayers, convened by the Council, and held in Empire Hall on Saturday afternoon last, the discussion was anything but acrimonious. From the tone of the remarks of those who spoke, an acceptance of the financial stringency as the great handicap on local progress was evident. There were a few insinuations, veiled and implied, of present and past maladministration, but more suggestions were forthcoming as to how the most pressing improvement to the irrigation system might be carried on in spite of financial difficulties.

There was not a large attendance when Reeve C. J. Thomson opened the meeting shortly after two o'clock, but the hall filled gradually, till most of the seating accommodation provided was occupied.

The Reeve outlined the work of the retiring Council. He pointed out that the debenture debt overhanging the municipality was already too large when considered per capita to encourage raising further sums by that means. The money market was not free enough even for the most favorably placed municipal authorities. A great deal had been accomplished for the water systems by the work which had been done on the headwater reservoirs on Eneas and Trout Creeks, and also by the pipeline recently laid from Trout Creek to the Balcomie reservoir.

J. L. Logie, Municipal Clerk, read the financial statement for the past year. These figures were not final, since the municipal books were not closed until the 30th inst. Some particulars of this statement are found elsewhere in this issue.

J. A. Kirk questioned the Clerk on various phases of the financial report, suggesting, among other improvements in its form, a more rigid segregation of the composite items. Generally speaking the municipal balance sheet did not arouse the same degree of interest manifested as the discussion fastened on the problem of the irrigation system.

Coun. H. S. Lewes, Chairman of the Works Committee, spoke briefly, showing how his department had been hampered by lack of funds. It had been found necessary to cut down expenses closely, and there had been difficulty in deciding which work was absolutely essential. There was much work that should be done, but the money to cover the necessary expenditures had not been forthcoming.

Coun. Robinson of the Finance Committee prefaced a speech of some length by the announcement that he could not accept nomination for the coming year. He professed unbounded faith in Summerland's future. In face of the difficult situation that the new Council will be called upon to meet, he urged upon the electors to put into authority men of proven ability. The past year had been strenuous financially, collectively, and individually, but he looked for better times in the future. Coun. Robinson brought up the matter of the condition of the south irrigation main by advocating, as he has previously done, that it be cement lined or converted into an open metal lined ditch. The wooden fluming now in such wide use should also be replaced by metal structures. For these immediate requirements of the irrigation system, \$50,000 should be raised this coming year. The Council had done the best possible for the general welfare, but had been grievously tied up by lack of money.

C. Napier Higgin was prominent in discussion throughout the afternoon. One of the points he raised was the possibility of putting the municipal ditchmen to work improving the roads by attending to irrigation overflows, and such other work as their ditch duties would permit. Mr. Higgin cited instances to substantiate his point. Coun. Lewes quoted particulars showing that the ditchmen had been employed on roadwork extensively in the early part of the season.

C. J. Bentley described irrigation water as Summerland's most vital asset.

(Continued on page 8.)

Fourth Annual Poultry Show

Most Successful Yet.

This week has witnessed the most successful poultry and pet stock exhibition that has yet been held in Summerland, if not in the whole Okanagan. In all, there were about four hundred entries, and the specimens shown, according to Judge Coates, were much in advance as regards quality of those seen at previous shows.

The exhibition was formally opened by Hon. Price Ellison, Minister of Agriculture, on the evening of Tuesday, the first day of the exhibition. Mr. Ellison was introduced by President C. N. Borton, who made an excellent plea for a more general support of the association from our citizens. Hon. Price Ellison delighted his hearers in a speech given in his usual happy style. He complimented the Poultry Association on the size and quality of their exhibition, and urged a continuance of the good work. Speaking of the markets, the minister said that as soon as the Kettle Valley Railway was completed, refrigerator cars would be leaving here every night arriving in Vancouver the next morning, where there would always be an excellent market. At present British Columbia produces six eggs per capita, and is consuming six dozen. Eggs were now seventy cents in Victoria. The province is importing over two million dollars' worth of eggs annually. Mr. Ellison said he was pleased to note a marked improvement in the live stock situation. Statistics showing the quantity of livestock in the province, and the increase would soon be issued. In poultry it was estimated that there were three hundred thousand more birds in 1913 than in the previous year.

The minister was tendered a hearty vote of thanks on the motion of Reeve Thomson seconded by H. C. Mellor.

Following is the list of prize-winners as submitted by the secretary of the Association:

PLYMOUTH ROCKS, WHITE.
Hen, 1—H. Bristow; cockerel, 3—Mrs. O. B. Holden, Vernon.

BARRED PLYMOUTH ROCKS.
Pullet, 1 and 2—P. Lanaway, Armstrong; 3—H. C. Mellor, Cockerel, 2—A. W. Weddell.

WHITE WYANDOTTES.
Cock, 1—J. R. Conway, 2—D. Thompson, 3—J. S. Ritchie. Hen, 1 and 2—H. Bristow, 3—J. R.

(Continued on Page 8.)

Christmas Cantata, The Shepherd King

Sung By Methodist Choir.

A choral treat all too rare was the rendition of "The Shepherd King," in the Men's Club on Sunday evening last. The choir of the Methodist Church, augmented by other local talent to a total strength of about eighteen voices, gave this sacred Christmas cantata, by Lincoln Hall, to as large an audience as the hall could accommodate comfortably, including a contingent from Naramata, brought over for the occasion by the "Rowena."

Apart from hymns at the opening and closing, prayer and a few introductory words from Rev. R. W. Lee, the evening service was given over entirely to the choir. The same cantata was rendered some years ago in the Methodist Church, but there were few ears upon which it did not fall with an inspiring freshness. The ministry of music has an accepted place in all worship, and the story of the first Christmas could scarcely have been retold in song of more appropriateness.

The principals were vocalists of local celebrity: Mrs. G. M. Ross, soprano; Miss Evelyn Brown, contralto; Mr. T. G. Beavis, tenor; and Mr. J. O. Smith, bass. Mr. S. F. Sharpe sang tenor in the quartettes, where mutual part sympathy, inducing the balance and precision that gives highest effect, was heard to best advantage in the first vocal number, "Over the Silent, Shadowed Plains."

Upon Miss Evelyn Brown fell the heaviest solo and recitative work. Hers was a welcome reappearance before an audience which values its privilege. In a sustained performance of uniform excellence, Miss Brown's solo, "Sleep, Sweetly, Little Child of Mine," may be ventured as carrying the widest appeal.

Mrs. George Ross carried the leading part throughout inimitably. Her admirable solo, "And Lo, the Angel," came to her listeners with the finesse of exceptional training and experience that makes music an enhanced interpretation of words.

Messrs. T. G. Beavis and J. O. Smith are known sufficiently to make unnecessary any comment on their efforts, beyond that their respective reputations as accomplished vocalists were most ably sustained.

The white clad ladies resolved into a trio for "Judean Shepherds, Lift Your Eyes," gave an outstanding item. In the full chorus, only in the final "Hallelujah Amen" was there lacking the requisite volume of bass.

To Mrs. E. R. Butler as an untiring accompanist, and Mr. T. G. Beavis as musical director, must be given the credit for the success of the cantata.

DEATH.

IRVINE HOUSTON.

A gloom was cast over the town immediately after the Christmas festivities by the death of Mr. Irvine Houston, whom we very much regret to announce, passed away at his residence in the early hours of Monday morning. Mr. Houston has been a sufferer for some years, and though for a time his stay in Summerland during the past few months greatly benefited him, it was unfortunately impossible to much prolong his life. The greatest sympathy is felt for Mrs. Houston, the widow, and Elizabeth, his only child, and other relatives, including a sister, temporarily resident here, whom the deceased gentleman has left to mourn his loss.

On Tuesday the remains were taken on board the "Okanagan" for transit to Vancouver for interment, the widow, Mrs. Clubb, sister, and Miss Elizabeth going also.

At the special wish of the congregation of the Methodist Church, Rev. R. W. Lee accompanied the relatives on their sad journey, and such sympathy and thoughtfulness on the part of the Church and its pastor were deeply appreciated.

Miss Evelyn Brown left this morning, Friday, to resume her duties at the Port Moody school.

Okanagan Telephone Co. Will Fight For Existence

That People Remain Firm Is Shown At Public Meeting.

"Bargains In Telephone Service" Monopoly's Bribe.

That the Okanagan Telephone Company does not intend to withdraw from Summerland without making at least some effort to maintain its existence here, is evidenced by the fact that Manager George Dobie has arrived on the scene, and is now personally conducting the campaign.

For some time rumor has been current to the effect that the Okanagan Company was to rebuild its system, and would offer greatly reduced rates in an effort to kill the local company. Little credence has been given the report, the general impression being that the directors of that concern would not permit the throwing away to save a lost investment. However, material arrived at the wharf some days ago, and early this week Manager Dobie and a crew of men arrived from up the lake.

When seen by a Review representative on Wednesday, Mr. Dobie was at first disposed to denounce the Review, and its method of dealing with the local telephone situation, but when told that we were simply looking for any news that he might give, Mr. Dobie replied, "You can tell the people that we are going to offer great big bargains in local telephone service." To a question from the Review, asking if he would be offering any bargains in telephone systems, his reply was a positive negative.

Review—"We understand you have brought in a crew of men. What do you purpose doing?"

Mr. Dobie—"Yes, we have a lot of men and material here and will begin at once to rebuild our system, putting business phones on separate lines, and thoroughly remodeling the whole plant."

"You are going to offer some genuine bargains; how long will these apply?"

"We are here to stay, and it will be a case of the survival of the fittest. You can say the bargains will be good for twelve months at least."

"If you win, what then?"

"We shall then charge the same rate as is being paid elsewhere in the Valley."

Mr. Dobie had been intercepted on his way to fulfill an appointment and could give no more time to the Review.

Just how far the Okanagan Company, in its dilemma, will go in quoting low prices is yet a matter for speculation. Business phones at two dollars "or less if necessary," is reported to have been quoted by Mr. Dobie, and at least one private phone has been offered, according to report, at fifty cents. There are those who believe that before he will accept defeat, the Okanagan Telephone Company's manager will be offering free phones and even paying some business houses for the privilege of installing instruments. Of a total of about one hundred and eighty subscribers to the local exchange early in the history of the company, there are now only some thirty odd phones that have not been ordered out. Most of these are on unexpired contracts which will be terminated as soon as their year is up.

Previous to the wholesale termination of this service as announced two weeks ago, there were about

a hundred and twenty subscribers. It is said that every merchant in the community has ordered his phone removed.

The Summerland Telephone Company is placing instruments at various points ready for emergency calls, and the rapid progress that has been made on the line work is being maintained. The doctor, the post offices and nearly all the stores and some other business places will have instruments at once, so that we shall not be entirely without telephone service. Naramata may have communication with Summerland by telegraph. It should be a matter of only a few days before the actual installation of new phones begins.

DISCUSSED AT PUBLIC MEETING

Seizing the opportunity afforded by the representative gathering of ratepayers at the municipal meeting on Saturday afternoon last, the directors of the Summerland Telephone Company urged a firm and united attitude on the part of the people at this critical juncture in the telephone situation. The system of the Okanagan Company in Summerland will be effectively disrupted; if the notices to discontinue the use of the service beginning with the first of the year are strictly adhered to.

Jas. Ritchie drew the attention of the meeting to the reported activity of the Okanagan Company. An eleventh hour effort is apparently to be made to improve the antiquated equipment, with an hallucinatory view to giving an unexcelled service to the mere handful of remaining subscribers, now only waiting the expiration of contracts to join themselves to the great majority of telephone users who are going to support the local company through to its triumph.

Equipment arrived for the big corporation early in the week. It comes too late, however, to seriously influence public opinion to their side.

Mr. Ritchie pointed out the danger in accepting service from the Okanagan Company after an instrument had been ordered out. To answer a call will constitute "use" of an instrument, since the receiver of messages is liable for rental as well as the sender. The safest and most effectual method will be to notify central that no further use of the company's instrument is desired, and that no calls will be answered. No loophole will then be left for the Okanagan Company. They further lay themselves open to liability for storage charges if the instruments are not removed within a reasonable time.

It was confidently expected, according to Mr. Ritchie, that the Kellogg Company would deliver the order of switchboard and instruments to contract date. Indications are, therefore, that there will be no tiresome delay of indefinite duration between the end of the old service and the commencement of the new. In the meantime, installations are to be made as soon as possible in the residence of Dr. F. W. Andrew, and at central points in Prairie and Garnet Valleys, so that emergency medical

(Continued on page 5.)

England's Champion Oarswoman.

Miss Lucy Pocock, holder of the woman's single scull championship of England, is now teaching the women students of the University of Washington, at Seattle, how to row the Eaton stroke, and if rumors are to be believed, is making great progress.

Miss Pocock is twenty-four years of age and was born at Peddington-on-the-Thames, where she learned to row from her brothers, Dick and George, both champion single scullers. Miss Pocock now has four eight-oared crews under her instruction, and an inter-class race has been planned for the

spring. Coach Conbear, who is whipping the regular varsity into shape for the regatta at Poughkeepsie next spring, also acts as advisory coach for the women's crews, and says that Miss Pocock is making remarkable progress with her charges.

Some Tricks Of The Trade

**Interesting Report On Marketing Condi-
tions in Great Britain.**

Result of Investigation by J. S. Gillespie, Commissioned by J. M. Robinson.

COMPETITION.

A careful study is made of all competitor's goods, as to quality,
quantity, package brand. The trade is canvassed if necessary for
opinions or suggestions with the object of securing

- (1) The most attractive package.
- (2) The most uniform and reliable quality.
- (3) The best size, shape, etc.
- (4) The most distinctive brand possible.
- (5) The proper price to ask where the goods are standard as in the case of wines, canned fruits, etc.

When this information is in hand the producers are advised and this generally results in the adoption of a package which compares most favorably with any in the market, and in turn becomes a potent advertising medium for the country or province from which the goods are shipped.

DISTRIBUTION.

This is a most important item, as it frequently happens that Glas-
gow, Liverpool, etc., are much better markets for certain goods than
London or vice versa. If goods are not shipped to est port of entry it
necessitates re-handling cartage, freight, etc., which may eat up the
margin of profit or a large percentage of the profit. With care this
may be eliminated to a great extent.

In closing this report I desire to give some actual figures obtained
from Major Norton bearing on his operations, and which speaks vol-
umes for the success he has obtained.

APPLES.—Former average price per 40 lb. box, 6s. 6d. to 10s.;
present average price, 10s.; shipments, 40,000 boxes annually, value
£20,000; commission, £1,000. Government only handled approximat-
ely 10 per cent. of shipments. Increased price (estimated) to grower at
1s. per box, £2,000 (\$10,000).

CURRENTS.—Former price, 26s. per cwt.; present price, 30s.
to 33s. per cwt.

HONEY.—Former price, 12s. per cwt.; present price 32s. to 35s.
per cwt. Now bottling a large proportion here in England. Entire
crop shipped to Trade Commissioner in bulk. Bottles sell at 5s. 6d. per
doz. (14 oz. each). Worth annually £10,000; commission, 2½ per
cent., £250.

TALLOW.—Government handles entire production of 38,000 tons.
BUTTER.—Government handles about 10 per cent. of shipments.
Increase in price, estimated, 10 to 15 per cent.

FLOUR.—Shipments increasing rapidly, at present has no iden-
tity in English market. Steps are being taken by the Government
to remedy this condition and they propose to establish mills here, and
market in such a way that their No. 1 Hard Wheat Flour will be known
by the consumer as the finest in the world, which is their claim. Here-
tofore it has been used by millers to mix with inferior flours to raise
their standard. Not only by increased price but by valuable publicity
will the South Australian producers and government be largely ben-
efited.

WINE.—Business growing fast, is now rivalling the French and
Californian products.

In addition to the products mentioned above Canned Meats, Eggs,
Eucalyptus Oil, Sauces, tomato chiefly, are shipped and marketed,
and results compare favorably with those given.

Without markets nothing over the requirements of the farmer will
be produced. It should not be the business of the farmer to fight for
fair markets.

The farmer's business is to grow the crops, and provided there is a
good market he will have the only incentive, profit, necessary to make
him supply the demand.

The government by assisting the farmer in securing a fair market
is benefiting not only the farmer but all the people, with the exception
of the non-producing—generally unnecessary—rapidly multiplying—
very frequently extortionate—middleman, who in most cases only ben-
efits himself, and taxes excessively everyone with whom he comes in
contact.

Co-operation with the assistance of the government is a sure
remedy for the farmer's and producer's troubles, as well as being a
protection to the consumer.

This report is rather longer than I intended, yet it does not more
than touch many most important points.

Peachland Notes.

Miss Ethel House visited Kelow-
na on Tuesday.

Mr. Wm. Logan is spending
part of this week in Kelowna.

Mr. Roy Smith of Westbank oc-
cupied Rev. A. Henderson's pulpit
on Sunday morning.

Mr. Graham Kincaid is spending
a few days in town, the guest of
Mr. Hugh Ferguson.

On Sunday evening Mr. and Mrs.
Herbert Logan returned from a
holiday spent in Regina.

Mr. R. Forsyth of Summerland
came up on Tuesday morning to
spend part of his holidays here.

Mr. W. J. Robinson of Summer-
land spent Tuesday in town. Rum-
or says that he will take up his
residence here in the near future.

This season seems a return of the
early days, as the tables bore do-
cations of roses and chrysanthe-
mums gathered from the gardens.

Miss Bessie Seaton was the host-
ess at a pleasant gathering on
Monday evening in honor of Miss
Irene Elliott, who left the follow-
ing morning for Vernon.

On Tuesday morning Miss Irene
Elliott left for Vernon where she
begins her probation in the train-
ing school for nurses on January
1st, 1914. Her mother accompan-
ied her to the city where she spent
a few days.

The Sunday School at Tropannier
celebrated their Christmas festival
on Saturday evening. An im-

prompt program was given by the
children, after which gifts, can-
dies, oranges and other varieties
of Christmas fruit were distrib-
uted to everybody. Mr. Marshall
conducted the entertainment.

B.C. APPLES GIVE SATISFACTION

Ottawa, Dec. 29.—W. A. Beddoe,
Canadian Trade Commissioner in
New Zealand, in a report to the
Department of Trade and Com-
merce, says that the steamer
"Makura," which arrived about
the middle of November, had on
board 11,070 cases of British Col-
umbia apples. He adds:

"The apples were much better
than the last shipment. Last
month the apples were too green,
and but for the fact that there
were no others on the market the
sales would all have been unsatis-
factory, but those arriving on
the "Makura" have given every
satisfaction.

This office has been notified
that British Columbia growers will
make an exhibit at the Auckland
Exhibition in December.

SELLS ORCHARD FOR \$115,000.

D. D. McLennon of Fruitvale, a
suburb of North Yakima, recently
sold his 40 acre orchard to H. J.
Madill of Calgary for \$115,000.
Mr. McLennon realized \$80,000
from his crop this year.

The editor of a newspaper may
blow his town sky high; it may
soar in rhapsodical flight to the
stars, but if it is without adver-
tisers, people say it is no good,
and they are about right.

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

West Summerland, B.C.
 December 29, 1913.

The Editor,
 Summerland Review.

Dear Sir,
 I must admit that I accepted Mr. Gillespie's recent letter re the high prices obtained in the Old Country for Okanagan apples with a certain reluctance until I received a letter from a friend to whom I despatched a box. I sent this to him as a present to a society in which we are both interested, telling him to sell them to the members for the benefit of a special fund. His letter gives such good information that I feel sure you will find space in your columns for a few extracts from it. He says: "The box duly arrived in splendid condition. I sold all at 1d. (2 cents) each, but sold them too cheap, so they realized 12s. 6d. (\$3). I could have sold 500 more at same price, but as I say, I sold them at 1d. each, under value I am sure. I doled them out a few to each, but all wanted to know if I could let them have more. I guess they will be wanting to come out and join you soon. I have the very best commendation of them as being delicious, and there are no two words about it, why even I who hardly ever touch fruit enjoyed them immensely, and wished we could have kept more for ourselves. I don't think many of them will be kept for Christmas, they all say they look too good and tempting to keep. The McIntosh Reds were lovely, and arrived in first-rate condition. The Spitzenberg would do with keeping. They are still a bit woody, the juices not having matured sufficiently, but even now they are fine eating. The Winter Bananas are pictures indeed, and are in splendid condition for eating now, so I don't know what they would be if kept for another three weeks."

My correspondent goes on to ask for full information as to cost of freight, etc., so he can arrive at a proper selling price, as he feels sure they were sold at half price. We hear oftentimes of the cheapness of apples in England, but this letter proves conclusively that the people over there appreciate the superior article, and are willing to pay a high price for our apples. With the completion of our railway to the Coast and the opening of the Panama Canal I firmly believe that a splendid market will open up in England for our fruit, and we can confidently look for an era of prosperity in the Valley.

Yours truly,
 W. G. RABY.

A DISCLAIMER.

West Summerland, B.C.,
 December 31, 1913.

The Editor, Summerland Review.

Dear Sir:
 I have been informed that my name is being used by the Okanagan Telephone Company as one who intends to retain and keep in use their telephones.

This is a mistake, as I have not advised anyone to this effect, and I also think that the community should stand behind our local company and assist them in every way they can.

Yours truly,
 J. E. PHINNEY.

TELEPHONE MATTERS.

West Summerland, B.C.,
 December 30, 1913.

The Editor, Summerland Review.

Dear Sir:
 If I am correctly informed, the manager of the Okanagan Telephone Company is in Summerland offering 'phone service for one dollar per month for residences, and two dollars per month for business houses, guaranteeing that rate for twelve months.

Unless, however, the residents of this municipality are a much simpler folk than they are generally credited with being, Mr. Doble's efforts will be altogether in vain. For it surely is as clear as noonday that this latest move of the overbearing corporation in whose grasp we have hitherto been, is solely with a view to smashing the local company which has just been formed by some of our most respected and public spirited citizens to further our interests. Is it possible to doubt that if the Okanagan Telephone Company were to accomplish that object, thereby securely fastening their monopoly upon us, their rates would again be raised to their present exorbitant figure,

ST. STEPHEN'S SUNDAY SCHOOL CHILDREN'S CHRISTMAS TREE.

A pretty and well-laden Christmas Tree for the little ones of St. Stephen's Church made gay the interior of the Campbell Hall on Tuesday afternoon, and the occasion was also made one for an informal conversation for the members of the congregation.

Rev. H. A. Solly, who is spending a week here, and Rev. D. E. D. Robertson were both present, and the room was crowded with a very cheerful party. The glittering tree on the platform had been decorated by Mrs. Robertson, Mrs. Clouston, Mrs. Gallagher, and Mrs. Fosbery, and there were candies and pretty trifles for every child and presents and prizes for the members of the Sunday School. Mr. F. A. C. Wright, making an excellent Father Christmas, distributed the fruit of the big tree to the delighted youngsters, and afterwards a very bountiful tea of iced cakes and other dainties provided by the Women's Auxiliary was served.

A pleasant item on the afternoon's program was the presentation of a purse of gold to Miss Bena Logie, the honorary organist of St. Stephen's. Rev. H. A. Solly in handing the purse to Miss Logie in the name of the clergy and congregation, expressed in a few appropriate words their hearty appreciation of her valuable and willing services to the church.

The carol services held at St. Stephen's Church on Sunday last were very successful, and the choir rendered some old and favorite songs of Christmas in which the congregation joined.

To us it looks as though the trade of the country is so scattered that the town which puts forth the most effort in that direction will eventually succeed in landing far more than her legitimate share of business. At present, while time hangs on the hands of the average man, he takes time to look around and then spends his money where it will go the farthest, and to us it seems that the merchant who offers him good values for his money will eventually reap golden rewards in the way of his future trade. This fact we would impress upon the minds of the people, and we would also ask them to aid us in establishing the fact that in our town can be found as good bargains as in any other in this section.

The first grand ice carnival of the season is advertised on page 2 by the Summerland Skating Club. Weather permitting, there will be a large sheet of ice, 195 feet by 115 feet, well lighted ready for the skaters. A good number of costumes are already assured.

or possibly to an even higher one when they once more allowed their cupidity to outrun their discretion?

It will in the long run pay the people of Summerland far better to stand by their local company, which is going to give a service better and cheaper than that which the Okanagan Telephone Company has seen fit to provide for us. The latter have all along treated us in a most overbearing way, and if the people of Summerland were to allow themselves to be gulled at this juncture, tempted by the bait of a temporary cut under our local company's rate, they would make themselves the laughing stock of the Valley, and would richly deserve the fate which would be in store for them at the hands of the Okanagan Telephone Company.

Yours truly,
 C. NAPIER HIGGIN.

UNPAID RATES AND TAXES.

Rural Route 1, Summerland, B.C.,
 December 13, 1913.

The Editor, Summerland Review.

Dear Sir:
 In view of the coming elections do you not think it would be advisable to publish a list of those who owe money to the municipality, as a guide to the people in electing the Council for the coming year?

Surely Summerland is not going to put men on the Council again who delight in living here on the fat of the land at other people's expense?

If so, what will be the result? Is the paying of taxes to remain optional, and are water and light to be supplied to those who pay, or don't pay, as they wish? Does the Municipality intend standing by its water agreements?

Let us hope the new Council we appoint will be in a position to take matters in hand.

Yours truly,
 L. R. C. DOUGLAS-HAMILTON.

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—20 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JANUARY 2, 1914.

A FUTILE EFFORT.

THE OKANAGAN TELEPHONE COMPANY is making the only possible move that it could make with the least hope of success, but in this move the same overrating of its power and cunning and discounting of the strength of, if not the same disposition to disregard, public sentiment, is shown. The fight is now a clearly defined one between the Okanagan Telephone Company and the people of Summerland represented by the Summerland Telephone Company, with some one hundred and thirty subscribers. The foreign company's plan of campaign is to bribe the people of Summerland to aid in defeating themselves by temporarily accepting telephone service at absurdly low rates. In this we look for complete failure on the part of the would-be monopolists. We may be a simple country folk, but not quite simple enough to be so easily entrapped. Had the same solicitation been shown two years ago and had there then or since been any manifestation of a disposition to give a "square deal" the Okanagan Company would not have found itself in its present awkward position in Summerland. Our advice to Mr. Dobie would be to accept the defeat which is now inevitable, withdraw his imported labor and save his company any further loss by wasting the livings of Westminster's "widows and orphans."

HOLD FAST.

THE ROPE is now stretched taut in the tug-of-war between the Summerland Telephone Company and the Okanagan corporation. The steady pull of a united local opinion, backed by financial co-operation, has so far prevailed against the disjointed jerks of the big company's movement. Now that the actual transfer of the telephone patronage from one concern to another has begun, and as the violated public trust is handed over for safer keeping to the local company, the necessity of a united front, with an unhesitating refusal of all compromise is greater than ever.

Fourteen thousand dollars of hard local cash is the first price Summerland is paying to make the Okanagan Telephone Company swallow its mortification. It was threatened more than a year ago, when shallow measures of reconciliation were proffered with scarcely concealed contempt, that sharp and complete reprisal from local enterprise would follow. It has; and the Okanagan Telephone Company has brought upon itself the severe lesson that the people of this province are their own rulers, and are not under the power of monopoly-seekers.

ECHOES OF THE PUBLIC MEETING.

Some months ago the suggestion was made by D. H. Watson that, in view of the difficulty experienced by the Municipality in marketing debentures, a number of citizens volunteer to do construction work on the south main for which they would be given credit on the municipal books, payment to be made at a time when money was easier, or to be offset by taxes, rates, etc. E. R. Simpson offers perhaps a more practical method of payment to such volunteers in suggesting the issuing of baby debentures. This latter deserves consideration as a practical means to provide necessary capital without going afield.

"Bear and Forbear," a slogan advanced by a retiring councillor, would admirably suit the situation in these tight times if everyone was called upon to exercise both these feelings. But when one section of the community is called upon to bear continually, and the forbearance falls upon others, the slogan is worked out not in the way its originator had in view.

The suggestion that the Municipality should employ an engineer with a practical knowledge of hydraulics sounds plausible. A squad of engineers has been employed in the past and it is difficult for the man in the street to reconcile their respective reports. But the constant salary of a hydraulic engineer may be beyond the reach of Summerland, great as would be the accruing advantages.

The danger of a slide in Prairie Valley again brought to notice by Coun. Robinson, is something that should not be overlooked. The ditch line runs the whole length of the Valley above the track, but only high enough to make the movement of loose seepage-soaked soil probable from the vibration of passing trains. This is a danger that competent lining would avert. Its neglect might let the Municipality in for a greater amount of damages than the work would cost.

In the round criticism of orchardists who flood adjacent property during irrigation operations, the fact was overlooked that many orchards are so placed in regard to situation and slope that a certain overflow is inevitable. But this, of course, does not licence carelessness on the part of the water user as to what becomes of the surplus leaving his confines.

Opposing views on the question of intensive farming for this district were advanced by Coun. Robinson and Mr. H. Sutherland. The former spoke of the encouraging results he had obtained, and expressed the opinion that all expenses of the ranch could be met by this method, leaving fruit returns for clear profit. Mr. Sutherland was equally emphatic in his declaration that the small acreage of many orchards precluded its wide adoption. He predicted wholesale removals from the district if the necessity for mixed farming ever became clearly apparent.

The unwelcome alternative to straitened municipal circumstances

was stated to be higher taxation. This would merely swell the already appalling aggregate of delinquent rates and taxes. Rigid economy is the most bearable of the two discomforts.

A laugh was raised when a frank admission of being on the list of municipal debtors was followed by earnest advice not to force payment from those taxpayers in arrears.

Two and a half acre feet is the measure the Water Commission is contemplating allowing this municipality. This is said to be sufficient for the needs of every variety of soil found in the district.

LEGISLATION will be brought in during the coming session at Ottawa to deal with cold storage plants. By this legislation it is contemplated that cold storage plants shall be prevented from keeping goods longer than a certain time. According to the opinion of A. Ruddick, dairy and cold storage commissioner, however, the cold storage plants are in no wise responsible for the high cost of living. Mr. Ruddick does not consider that Canadian plants are guilty of holding food for extreme lengths of time.

A POPULAR ENQUIRY.

THE DOMINION GOVERNMENT has been stirred to action as the cost of living continues its upward climb year by year. A commission of three has been appointed to seek the basic principle which is so persistently pushing the price of life upwards. The Departments of Agriculture, Labor, and Customs each have representation on the Commission, which will thus work in close collaboration with that portion of the government most directly concerned.

The appointment of this body is the result of national representations from boards of trade and other public bodies, as well as much weight of individual influence. The delvings of the Commission into this vital question will be followed with the keenest interest by the thousands whose margin of safety within their incomes has been encroached upon during the past years.

Data will be gathered in regard to the correlated questions of agricultural production, the marketing of the products, the part played by middlemen, cold storage, warehouses, etc., in increasing prices, comparative food prices in Canada and foreign countries, etc.

While the general level of prices increased 46 per cent. between 1897 and 1912, the actual cost of living increased about 60 per cent. This estimate is made by allowing for the greater importance of certain groups of articles in which the rise has been very rapid. The rise in the cost of living has struck at the standard of comfort, often with serious results to many whose incomes have not similarly advanced, while business in many instances, notwithstanding a widespread prosperity, has been unsettled if not embarrassed by the unstable condition of values.

The investigation is intended to be thorough in its character, but it will determine itself how best to accomplish the end in view. It will be necessary to take some evidence, but there are those who think that to throw wide open the door to all and sundry will cause all sorts of theories to be advanced and unduly prolong the proceedings, when both the desire and the specific instructions are to expedite as much as possible the finding in the case. It is also a question yet to be determined as to whether, and to what extent the hearings will be open.

As to general prices which prevail throughout the country there is already a great deal of information in the proper hands at Ottawa. What will be necessary to inquire about especially are the prices paid to the producers and those paid by the ultimate consumer, and to determine to what interest goes the big measure of the profits.

REPORTS from both Vernon and Penticton are current to the effect that the Okanagan Telephone Company is about to sell out to the British Columbia Telephone Company, a large corporation which holds the monopoly of the telephone business of the Coast and other portions of the province and of which the Okanagan Company is said to be an offshoot. To make their goodwill as valuable as possible and perhaps to prevent the deal from falling through altogether, may be the reason of the Okanagan Company's activity in Summerland at the present moment.

SIMPLY ANOTHER CASE of patronizing a home industry. Other than a few thousand dollars for material, the Summerland Telephone

Company's plant is being built and will be maintained by local labor. Salaries, wages and profits will be distributed locally. The foreign company does its work with imported labor and has but a very small local wage list, and has been taking hundreds of dollars every month out of Summerland.

IF the Okanagan Telephone Company is justified in offering business telephones for two dollars "or less if necessary," and residence phones at one dollar per month or less to the people of Summerland, how about the other towns? Because they have been less rebellious shall they be required to pay more? Should not a uniform rate be maintained and the rates dropped simultaneously throughout the Valley?

MEADOWLAND

will some day be a household word throughout British Columbia and Western Canada.

This is our dream which we intend to make real.

Some day you will be sorry for not buying in 1913 and securing the best choice.

MEADOWLAND is going to grow.

Passing Events: Social, Personal, &c.

Principal Forsyth, of the High School, went up to Peachland on Tuesday.

Miss Marjory Limmer left this morning, Friday, for a visit with relatives in Vancouver.

Mrs. Clubb, sen., and Miss Clubb left on this morning's boat, Friday, for the journey to Vancouver.

Notice of the assignment of the Peachland Canning Company appears in our advertising columns of this number.

Mrs. J. Lock returned to her home at Kaleden today—Friday. She journeyed to Penticton by the "Rowena."

The annual congregational meeting of St. Stephen's Church will be held on Tuesday next, January 6th, at eight p.m., instead of Monday, the 5th inst., as previously announced.

The Southern Okanagan Poultry Association requests that all accounts be sent in at once. The Association is desirous of closing its books for the past year without delay.

Rev. S. Everton will conduct the Baptist services on Sunday next, the 4th inst., at the west church at 10.30 a.m., followed by Sunday School at 11.45, and at the Lakefront Church at 3.30 p.m. preceded by Sunday School at 2.15.

Copies of the photographs taken at the unveiling of the Scott Memorial Fountains have been sent to the Review by the Overseas Club. The negatives have been left with Mr. C. P. Nelson, and anyone who wishes to obtain copies may procure them from him. Arrangements have been made with Mr. J. S. Ritchie to supply the members at a reduced rate.

There ought to be some little interest in an informal debate at the next meeting of the W.C.T.U. at the Men's Club on Monday next, at half past two. The ladies are going to have a little Woman Suffrage discussion, and Mrs. D. H. Watson and Mrs. Buchan Reesor will uphold the suffrage question and be opposed by Miss L. V. Mills, of the National League For Opposing Woman Suffrage, London, England, and Mrs. H. J. Fenner.

The Secretary of the Farmers' Institute, John Tait, has been informed by the Department of Agriculture that Packing Schools will be opened in West Summerland on Monday the 2nd day of February, 1914, and will continue for the week. The week following, 9th to 14th February, a school will be opened in Summerland. In view of the adoption of the American box by the Okanagan United Growers, it is the intention to teach the use of said box. Intending pupils should hand in their names at once to John Tait and avoid disappointment by no getting a place in the school.

Hockey Meeting.

A meeting of hockey enthusiasts was held at the Parkdale Skating Rink on Monday evening last, and an organization formed for the season. Officers were elected as follows:

- Hon. Pres. Col. Cartwright
- Hon. Vice-Pres. James Ritchie
- President Dr. Andrew
- Vice-Pres. R. V. Agur
- Manager R. Tingley
- Sec.-Treas. H. C. Howis
- G. L. McWilliams, Hilton Snider and the Captain, yet to be appointed, are also to be on the executive committee.

The club membership fee is 75 cents, and practice nights are Tuesdays and Fridays. Arrangements with the rink management are very encouraging. New players will greatly strengthen the team and altogether a very bright season is anticipated.

A league for the Southern Okanagan will be formed of Kelowna, Summerland and Penticton teams. The best team of this trio will play off with the winners of the Northern Valley League for the championship of the Okanagan.

The meeting expressed itself as greatly appreciative of those who are showing their interest in hockey in such a practical way. It is confidently expected, now that the rink is so conveniently situated, that the game will receive the support of the public generally.

Miss Olga Watson leaves on Saturday morning to resume teaching.

The Quadrille Club celebrated New Year's eve by a card party for "Five Hundred," which was very largely attended.

The Municipal School Board are holding their annual public meeting to-morrow afternoon, Saturday, the 3rd inst., in the Men's Club.

Mr. A. G. Simms went out on Thursday morning's boat travelling to Vancouver en route to California where he intends to spend the next two months or so.

Among the many enjoyable little social parties given in our sociable town to mark New Year's Day was a very pleasant supper party at Mrs. D. H. Watson's.

The organization meeting of the Women's Institute for the West Summerland district will be held on Friday next, January 9th, at 2.30 p.m., in the High School Building. All ladies interested are urged to be present.

If you have ordered your 'phone out remember that many others have done likewise, and it may be some days before your instrument is removed. Remember also that if you use it even once the company may hold you liable for a month's rental.

There are but a few days remaining before the closing of the Piano Contest. Are you as a contestant or a supporter of one of the contestants doing your best to secure the piano? Remember ten thousand votes are given for a year's new subscription and large votes for renewals as well.

The Watch Night service conducted by Rev. C. H. Daly, on Wednesday night at the Methodist Church, in the absence of Rev. R. W. Lee, was a very solemn and impressive occasion. A large number of worshippers assembled to watch the passing of 1913 and greet the New Year of promise quietly and hopefully.

Mr. J. McLean, who during last season was associated with Mr. R. Clouston, writing from Montreal to a friend here, says that it is his purpose to enter into the marketing of fruit next season, and that he will buy outright from growers. Mr. McLean denounces the methods used by the Union and says he is coming to the relief of the fruit grower.

The method of procedure observed in the building of the new wharf on Beach Avenue, reminds one of the legend of the English plumber who works five minutes and goes away for an hour! A great gap was torn up in the sidewalk of the Avenue just after Christmas and is left lying there for the past week, a debris of timber, which is dangerous and most uncomfortable for foot and horse traffic.

Service will be conducted in the Methodist Church on Sunday morning at 10.30 a.m. The pastor, Rev. R. W. Lee will preach, and will give a special address on "Another Milestone." In the afternoon at 3.30 Mr. Lee will preach in the Prairie Valley Schoolhouse. The evening service will be held in St. Andrew's Church at 7 p.m. Mr. Lee will take as his subject, "Looking Ahead," a New Year's address.

The annual Christmas gatherings of the Baptist Sunday Schools were held at the beginning of the week. The worst church was exceedingly well filled on Monday evening when the Sunday School of that section presented a program of appropriate and well-effected items, consisting of action songs, recitations and drills. A motto of new year greetings was above the platform, upon which a tall, prettily decorated Christmas tree was erected. Rewards earned throughout the year were distributed by the superintendent, Mr. G. J. C. White. Father Christmas made a welcome appearance and gave a seasonable remembrance to every member of the school. The Lakefront School met early on Tuesday evening. An excellent tea provided by the ladies was done thorough justice by children and adults alike, and after a brief program given mainly by the younger children Father Christmas made a further appearance and gave out lesson calendars and candy to the school and others. A collection taken up for Negro mission work in Vancouver realized nearly five dollars.

HELMER—To the wife of R. H. Helmer, on December 30th, a son.

Presbyterian services will be held in St. Andrew's Church next Sunday morning and in the Methodist Church in the evening. Rev. C. H. Daly will conduct both services. George Fisher will sing at the evening service.

Miss Maud McLaughlin, who was in charge of the Kaleden School for the year ending last summer, left his (Friday) morning for Vancouver, to attend the Provincial Normal School. Miss McLaughlin has spent the past few months with her parents here.

Dr. E. W. Sawyer delivered two strong and scholarly messages in the Baptist Churches on Sunday last, his line of thought being Christmas Peace. The West Summerland choir rendered as special and appropriate music at both services, two anthems, "Glad Tidings," (Hugg), and "Proclaim Ye His Name," (Judson), as well as a duet by Miss Ruth Dale and Mr. Wallace Wright, "The Coming of Jesus," (Mann). Thoughtful remembrance on the part of the church's recently resigned pastor, Rev. F. W. Pattison, was evidenced by his presentation to each church of a large handsomely bound pulpit Bible, used last Sunday for the first time. Suitable recognition of the gifts will be sent to Mr. and Mrs. Pattison. The singing of the hymn, "For those in Peril on the Sea" kept in mind thoughts of Mr. and Mrs. Pattison as they crossed the Atlantic to their new field of work in London.

METHODIST SCHOOL CONCERT AND CHRISTMAS TREE.

The Methodist Sunday Schools had their gala day on Saturday when a Christmas Tree was given to the children, who in their turn entertained their elders with a charming rendering of a pretty operetta, "Cinderella and The Prince."

The dear old nursery story was capably sung and acted by a radiant little crowd of boys and girls, who thoroughly enjoyed themselves, the girls making a delightful picture in their picturesque costumes.

The principals all did well; Doris Williams was a very dainty Cinderella, and Edna English was a spirited figure as the Prince; Kathleen Brown thoroughly entered into the character of the Fairy God mother, and was well supported by Eva Shields and Kathleen Merrill as the "Ugly Sisters," while W. Smith and A. Smith did really well as the Baron and a Herald respectively. Choruses of fairies, pages and soldiers went with a swing that everyone enjoyed, and particularly pretty was a chorus by seven tiny girls garbed in white, "How'd You Like to be a Baby Girl?"

Mr. S. Sharpe as musical director, Miss Clubb as stage manager, and Mrs. D. Williams as pianist, worked hard, and were responsible for much of the success of a very delightful entertainment. Thanks are also due to Mrs. Sharpe and Miss Edith Sharpe, as well as to Messrs. H. Thornthwaite and H. Smith, who gave their assistance.

The Christmas Tree which followed was a very fine specimen of its kind, and Mr. Martin Beavis's scheme of decoration was beautiful and effective. Behind the stage, a picture of the Madonna and Child was surrounded with a host of tiny green trees, each hung with a gift, the former given by Mr. Beavis, one for every member of the Primary Class. The presents and prizes were distributed by Mr. Harold Smith, who made a very jolly Santa Claus.

PROTECTING SMALL FRUITS.

When winter protection is necessary the strawberry bed should be mulched with long straw stable manure, after the ground freezes, but before severe weather. Cover the plants two inches deep, and two or three between the rows.

Systematic effort is now being made to place British Columbia canned fruit on the English market. Little attention as yet has been paid to this phase of fruit marketing by the English fruit brokers and wholesale dealers. By the time that the canning industry has been well established in this province, it is hoped that interest will have been awakened in the Old Country.

TELEPHONE COMPANY

(Continued from p. 1.)

cal assistance can be summoned from these points, as well as from the Post Office at West Summerland.

Mr. H. C. Mellor counselled allowing the receiver to hang down if the Okanagan Company persisted in sending calls to instruments ordered out. It was pointed out, however, that this course, pursued by only one instrument on the lock-out lines would put the entire line out of commission.

Mr. Mellor also invited further additions to the subscription list Applications for single shares at one hundred dollars each are still welcomed, all of which need no be forthcoming immediately. He further intimated that this opportunity to buy shares in the local company would be withdrawn in perhaps a month. The motives of the directors were explained to be not dividend-hunting, but rather the establishment of an up-to-date and efficient telephone system. It is now foreseen, however, that the venture will be as successful a commercial venture as a retaliation to corporation "big stick" methods. The initial expenditure to put the new system into working order was estimated by Mr. Mellor at fourteen thousand dollars.

During some discussion Mr. G. J. C. White enquired if there was any possibility of legal entanglements being spread by the Okanagan Company in the path of the local effort. Were any rights in the possession of the corporation that would impair the scope of the Summerland company?

D. H. Watson gave emphatic answer to this enquiry by quoting an extract from the charter of the Okanagan Company. This showed that as far as Summerland is concerned the company has been forced to climb astride of an uncomfortable fence, from the top of which two equally discomfiting positions of check are apparent. On the one hand, municipal authorities are empowered by the charter to permit or refuse the continuance of telephone works along the public roads; on the other hand if the company admitted the franchise of the former Lakeshore Telephone Company had been assumed, it could be immediately cancelled, the conditions not having been kept inviolable.

Mr. H. Sutherland, another director, spoke briefly of the careful consideration the new organization had been given. The hearty support of the community was now needed to carry the issue to a successful culmination.

The attitude of the meeting was voiced in unanimous support of the action of the Summerland Telephone Company, by the passing of the following motion, proposed and seconded by Messrs. C. Napier Higgin and D. H. Watson:

"Resolved that this meeting express their dissatisfaction with the telephone service given, and the generally unsatisfactory treatment given to Summerland by the Okanagan Telephone Co., and hereby tender to the Summerland Telephone Co. their unanimous approval, and pledge their support and assistance in the giving to Summerland an independent telephone service, and request the Municipal Council to give to the local company all the encouragement and help in their power, should the Okanagan Telephone Co. endeavor in any way to oppose them."

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

The Christmas Mail.

The postmaster, Mr. Bartlett, reports a record Christmas mail. While much heavier than last year, the mail arrived in batches spread over a longer time owing to winter weather delays enroute. Letters, parcels, and cards poured in from every quarter of Europe; the Old Country, Italy, Austria, Norway and Sweden, Servia and Montenegro, Russia, France, Germany and Belgium, and though some of the parcels were slightly damaged in the vicissitudes of their long journey, there was nothing actually undeliverable. A large number of plum puddings and mince pies came from addresses in Scotland and the North of England to Old Country residents in Naramata.

44 ACRE ORCHARD CUT DOWN.

Every apple tree in a forty-four acre orchard near Portland, Oregon—2800 in all—has been cut down by the state fruit inspector and a force of men. The owner stood by protesting, but was unable to stop the destruction of his orchard. Neighbors claimed the trees had every disease known to apples. The owner was given a month in which to comply with the law requiring annual spraying, and failing to do so the trees were cut down and burned.

IF YOU NEED COAL

We are distributors of TAVOR COAL, which we are able to highly recommend. A Carload is due in a few days, and it will be to your advantage to place your ORDER NOW.
You will save money by doing so.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

Current Events — OF — Town & District

Mr. Collins has been spending the holidays at Vernon.

Mr. Brooks of the K.V.R. is spending the holiday season at the Coast.

A small cottage in the southern portion of the town is being built by Mr. Norman Alexander.

The Unity Club meeting which was fixed for to-day has been postponed until next Friday, January 9th.

Captain and Mrs. Languedoc dined on Christmas Day with the parents of the latter, Mr. and Mrs. Mason.

The holiday has been spent here by Mr. and Mrs. V. L. Watson, who stayed with Mrs. Watson's parents, Mr. and Mrs. H. J. Wells.

There was an informal little dance for the festive season in the Opera House, the music being furnished by Tony Manzini with the Victrola.

Walter Land has just re-purchased the property with residence situated north-east of Mr. George Wolstencroft's lot, that he sold to Mr. G. J. Johnson last spring.

Quite a large party of townfolk crossed to Summerland on Tuesday and Wednesday to attend the Poultry Show, which attracted a good deal of interest from our poultry keepers.

Mr. and Mrs. Schacht, with their little daughter, who have been resident at the Hotel Naramata for some little time, went down to Pentiction on Friday, and after a few days stay there are removing to the Coast.

Mr. G. H. Burnett's party of engineers left the cottage of Hotel Naramata, where they have been living for some time, on Monday, and proceeded to W. H. Prowse's Camp, some two or three miles from town.

The Naramata Church Christmas service was held on Sunday, a very large congregation attending. Rev. W. P. Bunt preached, and Mr. Ben Newton gave a very fine rendering of the solo, "If with all Your Hearts."

The street illuminations are certainly very bright this winter, and improvements still go on. Several new and fine lights have just been put on Robinson Avenue, and are much needed these dark nights on this road leading out of town.

A party of between twenty five and thirty went over to Summerland Methodist Church on Sunday night (the ferry running a special trip) to attend the sacred cantata "The Shepherd King," and thoroughly enjoyed the music and a bright service.

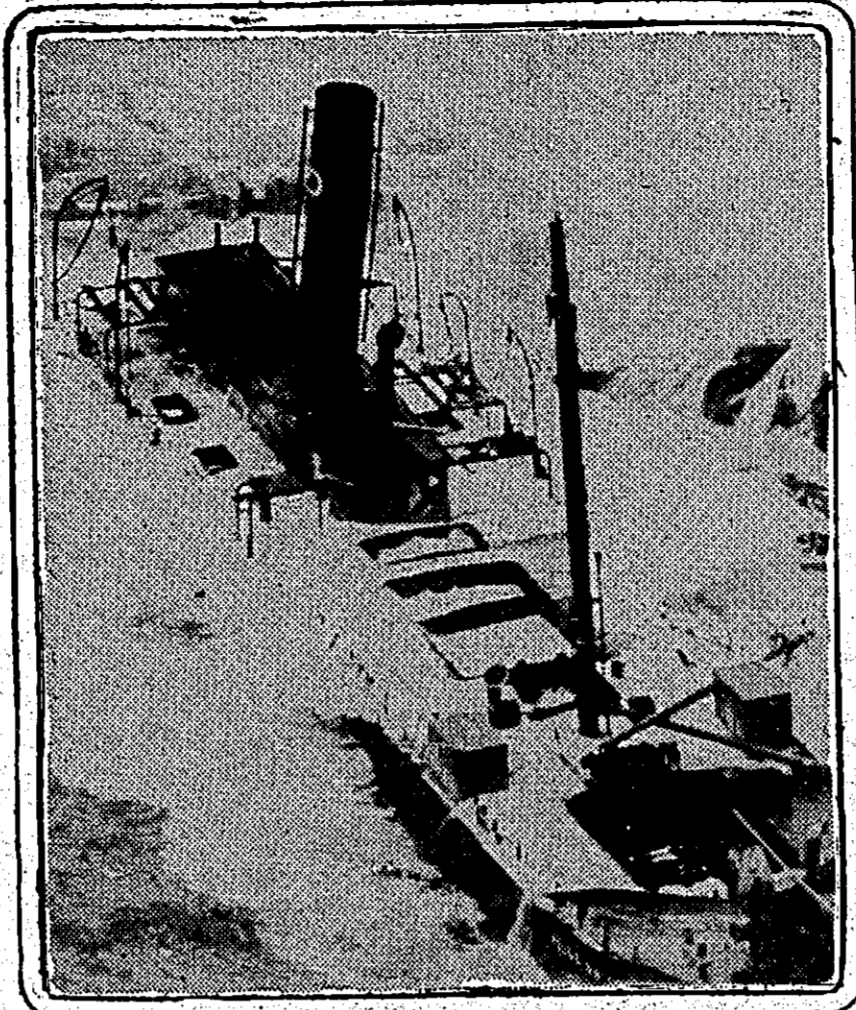

A "bachelor's banquet," given by Messrs. W. Land and W. D. Mackie on Saturday night was attended by several of our married citizens who thoroughly enjoyed the Christmas hospitality of their hosts. A very large party report having had a delightful evening.

The McKay pre-emption, which consists of about 820 acres, has been bought from T. W. Boddie of Windsor, Ont., by Mr. John Firstbrook of Toronto and Dr. W. L. Robinson. Improvements will begin here soon, and the immediate work is the cutting of timber.

Among the guests at the Hotel Naramata this week was Mr. J. W. Anderson, who has stayed before in Naramata. A world wide traveller in his particular business, Mr. Anderson has a great opinion of the Valley, and declares that for climate and future prospects the Southern Okanagan is one of the most favored parts of B.C.

Visitors are in and out of our town all the time, and the interchange of calls between relatives from up and down the lake make a pleasant little feature in social life. Mr. and Mrs. G. R. King and their two little boys were the guests of Mrs. King's parents, Mr. and Mrs. Young, this week, and Miss Freda Mitchell spent Friday in Pentiction with her sister, Miss Bessie Mitchell.

Wrecked French Steamer Breaks In Half

Notwithstanding the many improvements which have marked modern ship building, 1913 has been a year filled with ship disasters. While it is true that the effort has produced many safety devices, yet nature seems to find new ways of combating them. Many times during the year the wireless has sent floating through the air tales of terrible sea tragedies. One of the most recent disasters was when the French steamer "Ville du Temple" ran ashore at Land's End on November 30, in a fog. Photographs of the "Ville du Temple" have just arrived and they depict her terrible plight as can be seen from the accompanying illustration which shows the steamer broken in half, from the funnel aft, with heavy seas lashing over it.

Mr. H. H. Whitaker, of Kaladen, has been spending the holiday season here with friends.

Their wedding anniversary was observed by Mr. and Mrs. Lewis Block last Sunday, who celebrated the occasion by entertaining friends at dinner.

Mr. J. W. Loudon, of Calgary, has acquired the fruit lot formerly owned by Mr. Price, also of that city, and will probably come into residence here with his family some time in March next.

Among hosts and hostesses who observed the true spirit of the season and bid guests to Christmas dinner at their tables were Mr. and Mrs. E. Hancock, Mr. and Mrs. George Cook, Mr. and Mrs. George Wolstencroft, Mr. and Mrs. Lewis Block and others.

The Naramata Church gave the children their Christmas Tree and Treat on Tuesday night and Mrs. M. M. Allen, Miss Orca Williams, and Miss Edna Noyes worked hard to give the little ones a thoroughly good time. A fine tree laden with toys and useful presents was erected and lit up in the church basement, and after it had been stripped of its glittering burden the children were regaled with fruit and seasonable good fare.

One of the most wonderfully mild of Christmas seasons has now been put on record. Some beautiful roses were cut by Mr. Carrol Atkins in his garden on Christmas Eve, and early this week ploughing was still going on up on the benches. Spring bulbs are in a splendid state of advancement, and a successful flower grower in the town expects his hyacinths and daffodils to be in full bloom within the next ten days.

A blank has been left in the social life of our town by the departure this week of Mrs. Logie. Mrs. J. W. S. Logie is a general favorite, and will be very greatly missed by her many friends both here and on the other side of the lake. Mrs. Logie went up to Kelowna on New Year's morning, and after a short stay there will proceed to Seattle to meet her brother. Mr. Logie expects to join his wife later on in the spring, when they will take up their residence in Texas.

Naramata Apples.

The acknowledgements of a number of boxes of apples which were sent to the Old Country are coming in now, and many are the compliments and praises of Naramata fruit from delighted recipients. "Received safely in perfect condition—not a speck or a spot." "Never saw such apples

in my life, perfect pictures of beauty." "Gorgeous to look at, and such a flavor," are three sample extracts from letters of thanks. Several boxes of Winter Bananas were sent to Mr. J. M. Robinson's residence at Kew, and the English gardener there (who had never seen an Okanagan apple before) picked up one and, exclaiming at its beauty, thought it was a wonderful piece of art in wax. A perfect specimen of a Winter Banana was taken across to Kew Gardens, and later served as an object illustrating a lecture given to some of the horticultural students there.

New Year's Ball At Hotel Naramata.

The New Year's Ball at the Hotel Naramata, arranged by the Unity Club, was a brilliant success, and for numbers and a delightful program, certainly created a record in the history of the many enjoyable functions for which the Hotel is now famous. The gay and beautifully dressed crowd who assembled to dance in 1914 and bid farewell to 1913, came from Naramata, Summerland, Pentiction and Kelowna, about twenty-five travelling down the lake from the orchard city and a boat load of Summerland residents coming across by special ferry.

Ball room and rotunda were beautifully decorated with flowers and evergreens, and the conservatory twinkled with colored lights, heightening the pretty effect of the scene in the long white room when the dancing was in full swing. The Robinson apartments were opened, and the sitting out arrangements were very cozy. Refreshments served at a daintily set out buffet were all of the festive season menu, and there was certainly nothing lacking in all the arrangements for the comfort and enjoyment of the throng of guests.

A very pretty scene opened the ball, all the dancers promenading in slow procession around the great room and then in obedience to the call of the soft, melodious music, whirling into the centre of the floor in the first waltz of the program.

The passing moments of 1913 were marked and the dawn of the New Year heralded with due ceremony. When the mirth was at the height, the music suddenly ceased and twelve heavy strokes of the drum announced midnight, a pause, and then a hurra of greetings and "Happy New Years" was exchanged.

The new year was very young when the guests dispersed congratulating one another on the thoroughly enjoyable time they had had.

Serious Accident.

A serious accident befel Mr. Duncan Munroe last week, and has resulted in somewhat grave consequences. Mr. Munroe was working on the new Wilson barn, Paradise Ranch, when he fell from the top, breaking a rib and injuring his head. He refused to have the doctor called, but his condition growing steadily worse, Dr. Andrew was summoned in a hurry across the lake, a special ferry being run on Saturday midnight. In addition to the broken rib and injuries to the head, Mr. Munroe, it is feared, is suffering internally, and has also developed a touch of pleurisy. He is at present lying at the Wilson residence.

The figures published in the reports of the international egg-laying contest in Victoria show that with a yield of about ten dozen eggs per bird, a good profit can be

secured over cost of feed. The leading pen of Leghorns cleared a profit per bird of \$3.98 over the cost of feed. With present prices for feed, eggs should be produced at an average price for the whole year of from 12 to 14 cents per dozen. There is some disparity between that and 75 cents per dozen.

B.C. Apples Again Win Important Awards.

Hon. J. H. Turner, Agent-General in London for B.C., cabled Sir Richard McBride on the 14th November that the biggest awards offered had been won by British Columbia, in open competition at Sheffield and Edinburgh, for display of apples.

Mr. Cunningham, B.C. Fruit Inspector, states that B.C. apples are in big demand, and that 100 carloads could have been sold now, had they been obtainable.

The United States fruit growers filled the orders. B.C. fruit growers and prospective fruit growers, act promptly, and enlarge your orchard plans.

We can supply you with all kinds of fruit tree stock to suit the special climatic conditions of each district.

Our prices for fruit tree stock this year are cheaper by nearly one-half, than heretofore offered to B.C. fruit growers, viz., \$8 to \$12 per 100; all grown in our own province, such as Jonathan, Spitzenberg, Baldwin, Northern Spy, and more than 20 other choice varieties.

Patronize home production, and make our province the fruit granary of the West.

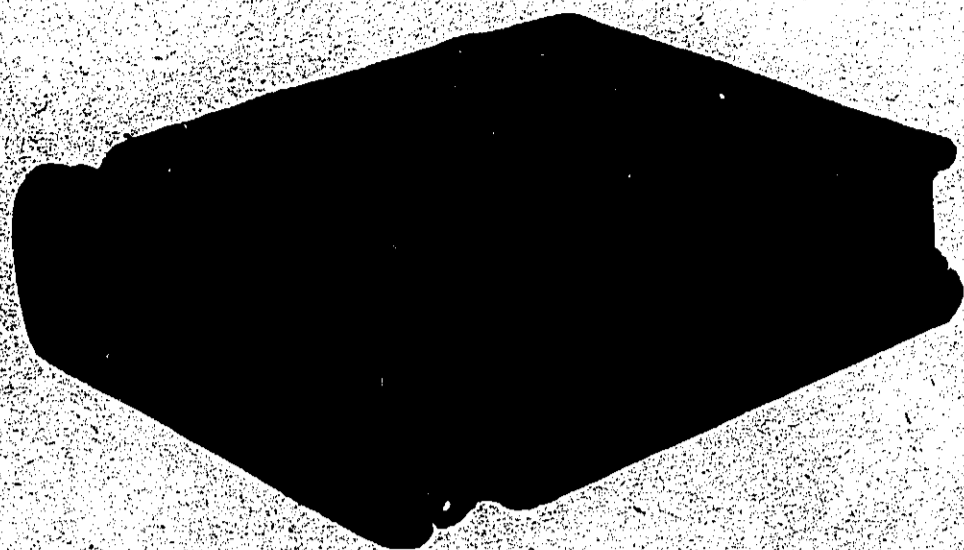

Don't forget the beautifying of your home plot. In our stock of over \$100,000 we can meet the most cultured and esthetic taste, to make home environments a centre of beauty. Evergreen stock, shade trees, roses, flowering shrubbery, bulbs, flowering plants etc. Catalogues mailed free on application.

Holly for Hedges, up to 12 inches, \$20 per 100; Privet, 2 1/2 ins., \$30 per 1,000; Laurel, 2 to 2 1/2 ins., \$20 to \$30 per 100.

ORDER YOUR FLORAL DESIGN WORK FROM US.

High School Report.

Following is the report of the Summerland High School for the term ending December 31. The names are arranged in order of merit:

PRELIMINARY CLASS—Passed.
Edward Logie, Margaret Ritchie, (equal); Allan Harris; James Ritchie; Kenneth Elliott; Belle Vanderburg; Volney Merrill; Joseph Morsch; Donald McIntyre; Margaret Harrison; Roy Elsey.

ADVANCED CLASS—Passed.
Jean McIntyre; Myrtle Ritchie; Edith Bristow; Gordon Ritchie; Howell Harris.

MATRICULATION.
Lloyd Bent; Raymond Bent; Margery Tingley.

Telephone Dissatisfaction At Okanagan Mission.

A delegation from the Okanagan Mission Progress Club has asked the Kelowna Board of Trade to take up the matter of "the atrocious telephone service at the Okanagan Mission, and try and secure a call office in the post office, and further private 'phones." They also introduced a resolution at the board meeting that the government be asked to extend its telegraph service to the Mission. This was endorsed, and it was also decided to endeavor to have Mr. Dobie of the Okanagan Telephone Co., down to meet the executive and representatives from the Mission and see what could be done.

Discussion on the matter drifted on to the question of the C.P.R. extending their telegraph line to Kelowna to avoid relaying from the government line, and it was decided to secure, if possible, an interview with Superintendent McKay on the matter.

Soft Rot of Vegetables.

(Canadian Horticulturist).

That the soft rots of our common garden vegetables are mostly caused by bacteria is a fact not always realized by gardeners. Research work carried on during recent years has proved this to a certainty.

The bacteria generally gain an entrance through an injured portion of the plant, such as an insect bite. The most common result from an attack is a soft dark rot of the affected parts. All plants are composed of cells, each cell being enclosed in a cell wall. In the early stages of the disease the bacteria live between the cells. They produce substances which have the power of destroying the cell wall. After the cell wall has been thus broken down, the organisms infest the whole tissues, which become a soft, pulpy mass.

A wet season is much more favorable to the spread of the disease than is a dry one. When storing vegetables care should be exercised in sorting as the rot will spread from a diseased specimen to a healthy one if they be touching.

A most important control measure is to keep insects in check. Caterpillars are largely responsible for the spread of rot in cabbages. One part of Paris green to fifteen parts of flour, sprinkled on the cabbages, will keep them down. It is possible for the bacteria to live in the soil for several years. It is difficult for them, however, to gain access to an uninjured plant. Care then should be taken in cultivating the plants so as not to injure them in any way.

All diseased plants or parts should be removed and burned as soon as noticed; should the disease become general it is best to harvest the good specimens and burn the rest. Practically the same organisms cause soft rot in cabbage, cauliflower, radish, carrot, mangol, turnip, parsnip, potato, celery, onion, asparagus and rhubarb.

Too much stress cannot be put upon careful handling of any crop to be stored and during storage. Each bruise or cut gives the proper conditions for the development of disease, and if rough handling is permitted we are sure to find decay starting from such places, eventually infecting the whole crop.

Mrs. Hen was in tears; one of her little ones had been sacrificed to make up a rosnat for a visiting clergyman. "Cheer up, madam," said the rooster comfortingly. "You should rejoice that your son is entering the ministry. He was poorly qualified for a lay member anyhow."

DEMONSTRATION OR EXPERIMENTAL FARMS?

That the provincial government should establish a system of demonstration farms, having a large one centrally located on which the more exhaustive tests could be carried out, is the assertion of Mr. Samuel O. Cronie, who has made an exhaustive study of land conditions of the interior.

"The Dominion government is considering the establishment of an experimental farm in the interior. This is a splendid thing, but it does not go far enough, and my suggestion is that the provincial government should establish a system of demonstration farms, having a large one centrally located on which the more exhaustive tests could be experimented with, under tests which would be a system of smaller ones scattered through the province and ran more on the practical lines of an up-to-date farm.

"This would not prove an expensive system, as after the initial cost they should pay for themselves with interest on the money invested.

"These farms would not consist of more than 320 acres, on which would be erected a good, substantial house and outbuildings, which would furnish good models for those contemplating the erection of permanent residences.

In the dry belt are encountered the principles of dry farming, which would be demonstrated.

"It was with much interest that

I noted recently the statement that the government was contemplating the establishment of investigation stations in various parts of the province. I would like to suggest a plan which I believe from personal experience and conditions as I have found them, would be of great assistance to the agricultural industry.

"In each district an information bureau would demonstrate what could be grown, the variety adapted to the locality, and a deep interest created by being able to see actual results.

"The trouble with our experimental farms is that they are not within easy reach of the average farmer, and the information sent out is usually so complicated with percentage results and tests that very few take time to study them.

"One practical demonstration with the fattening of a bunch of feeder steers, a litter of young pigs, the cultivation of a plot of alfalfa, or a crop grown under dry farming methods, will do more to create an interest, disseminate practical knowledge, develop, intensify and promote the advancement of agriculture generally, than any compilation of results or tests that might be put out in printed form.

The fruits of a good deed, like the kernel of wheat, multiply, replenish and prosper. The fruits of an evil deed, like poor seed, result in sickly growth, starved life, and consequent unhappiness.

Municipality of Summerland.

NOTICE IS HEREBY GIVEN to the Electors of the Municipality of Summerland that I require the presence of the said Electors at Empire Hall, Summerland, on the Twelfth (12th) day of January, 1914, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Reeve and Councillors, and in the Municipal School Board as Trustees.

The mode of nomination of candidates shall be as follows:—

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and 2 p.m. of the day of nomination, and, in the event of a poll being necessary, such poll will be opened on the seventeenth (17th) day of January, 1914, at the Council Chamber, West Summerland, for Wards Two (2) and Three (3), and at the Men's Club Rooms, Summerland, for Wards One (1) and Four (4), of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for Reeve, Councillor and Trustee are as follows:

The qualification for Reeve shall be his being a male British subject, and having been for the last three months next preceding the day of nomination, the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll of Five Hundred Dollars, or more, over and above any registered judgment or charge, and being otherwise duly qualified as a voter.

The qualification for Councillor shall be his being a male British subject and having been for the three months next preceding the day of his nomination the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll of Two Hundred and Fifty Dollars, or more, over and above any registered judgment or charge, or being a homesteader, lessee from the crown or pre-emptor, who has resided within the Municipality for the space of one year or more immediately preceding the nomination, or who, being a homesteader, lessee from the crown or pre-emptor, who has resided within the Municipality for a portion of the year immediately preceding the nomination, and who during the remainder of the said year has been the owner of said land of which he formerly was a homesteader, lessee from the crown or pre-emptor and who is assessed for Five Hundred Dollars, or more, on the last Municipal or Provincial Assessment Roll, over and above any registered judgment or charge, and being otherwise qualified as a voter.

The qualification for Trustee being any person being a homesteader, in the School District and being a British subject of the full age of twenty-one years and otherwise qualified to vote at an election of School Trustees in the said school district, shall be eligible to be elected or to serve as a School Trustee.

Given under my hand at Summerland, this second day of January, 1914.

j2-9

J. L. LOGIE,
Returning Officer.

Notice of Assignment.

NOTICE IS HEREBY GIVEN that the Peachland Canning Company, Limited, of Peachland, in the County of Yale, a Canning Company, has by deed of assignment, made in pursuance of the "Creditors Trust Deeds Act" and amending Acts, dated the 20th day of December, A.D. 1913, assigned all its personal property, real estate, credits and effects which may be seized and sold under execution, to R. J. Hogg, of Peachland, in the said County, for the general benefit of its creditors.

A meeting of the creditors will be held in the Orange Hall at Peachland aforesaid, at seven o'clock in the afternoon of the 15th day of January 1914, for the giving of directions with reference to the disposal of the estate.

And notice is hereby further given that all creditors and others having claims against the estate are required to file the same with the Assignee on or before the 12th day of January 1914, with full particulars of their claims duly verified, and the nature of the securities, if any, held by them. All parties indebted to the said estate are required to pay the amounts of their indebtedness forthwith to the Assignee.

And notice is further given that after the 12th day of February, A.D. 1914, the Assignee will proceed to distribute the assets amongst the creditors of whose debts or claims he shall then have had notice, and he will not be responsible for the assets or any part thereof so distributed, to any creditors of whose debt or claim he shall not then have received notice.

Dated at Peachland, B.C., this 20th day of December, A.D. 1913.

MUNICIPAL SITUATION

[Continued from Page 1.] interest. While some orchardists appeared to have sufficient water to pour streams on to the roads others were suffering loss from its scarcity. Constant supervision was needed to ensure every orchard getting its apportioned water supply, and those who put the water to improper use should be proceeded against.

The contention of D. H. Watson was that the local problem lay in the distribution of the irrigation water. There was an ample supply available, but much was lost in conveying to the lots. Much improvement along this line was needed, and how was the money to be raised?

Mr. H. Sutherland advised keeping expense down to the lowest possible minimum during the coming year. Since the financial stringency could not be averted, it should be met by incurring no expense beyond that which was absolutely necessary.

The Reeve estimated the cost of cementing the south main at \$18,000. Coun. Robinson's estimate for cement lining or iron fluming was \$1 to \$1.25 per foot, which would perhaps total a little more.

E. R. Simpson brought forward a suggestion that would enable this work to be undertaken immediately in a way so that the monetary outlay would not be felt to so great an extent. His plan was for ratepayers to do the work, and take out their pay in "baby" debentures.

In reply to a question the Reeve said that cement lining the north main had vastly improved its carrying qualities.

G. J. C. White asked whether some of the delinquent taxpayers could not be induced to give the equivalent of their arrears in work. Regarding municipal expenditures, he thought money had been handed out too freely in the past.

James Ritchie called the attention of the meeting to a hitherto unconsidered phase of the water situation, which he commended to the new Council for their close attention. It concerned the new policy of the Provincial Government, following up the work of the Water Commission.

The Clerk assured the meeting in this connection that no records would be surrendered without the Municipality first receiving a guarantee that the amount of water the records called for would be forthcoming.

Mrs. A. E. Hospeler, W. A. Caldwell, W. M. Wright, R. H. English and J. L. Hilborn also participated in the discussion of the afternoon.

The directors of the Summerland Telephone Company took advantage of the gathering of ratepayers to make public the telephone situation.

To Open K.V.R. by Next Autumn.

Route via Merritt Will be Ready For Traffic Late This Year.

Direct railway connection between the Kootenay, Boundary and Okanagan districts and Vancouver will probably be established next autumn, according to a statement made last week by Mr. J. J. Warren, president of the Kettle Valley Railway. The contractors expect to be able to inaugurate a coast service via Merritt and Spences Bridge late in 1914, and that the short line via Hope will be ready for operation the year following.

A portion of the Kettle Valley line is already in service and another extensive section will be finished at an early date. From Midway, the present western terminus of the Kettle Valley Railway, seventy-five miles of steel have been laid to the summit between the Kettle River and the Okanagan Valleys, and will be continued an additional ten miles as soon as a bridge at that point has been completed. Grading has been finished through to Pentiction with the exception of a few gaps where tunnelling and extensive excavations have been found necessary. This work is expected to be completed by March 1st next.

OKANAGAN SECTION.

A fifteen mile section of track will be laid in the Naramata district this month, it is estimated, leaving a gap of less than thirty-five miles to be linked up between Pentiction and Midway. West of Okanagan Lake the forty mile portion to Osprey Lake is entirely completed. The contract for the section west of Osprey Lake to Otter Summit, sixty-five miles from Pentiction, is expected to be let at an early date, and will be rushed to completion in order to have it ready to afford the connect-

ing links by the autumn. From Otter Summit, thirty miles to Merritt, the southern terminus of the Nicola Branch of the C.P.R. from Spences Bridge, the Kettle Valley Railway has its line already in operation.

Work is progressing well on the Coquihalla section, which is being built jointly by the Kettle Valley and the V.V. & E. railways. On the 39 mile portion to be reconstructed between Coldwater Junction, about twenty-five miles south of Merritt, thirteen miles of grading have been done, and eleven miles of steel have been laid. The contractors have more than one thousand men at work and have promised completion of the section by November 1st next.

Operations on substructure of the bridge which will afford connections between the Hope Mountain route and the main line of the C.P.R. near Hope are well advanced, and the structure is expected to be finished before the end of the year. On the different sections of the Kettle Valley line no less than one hundred and eighty-two miles of track have been laid altogether.

TERMINAL IMPROVEMENTS.

In conjunction with the C.P.R. the Kettle Valley has greatly improved the terminal facilities at Grand Forks. The provincial government has arranged to establish a demonstration farm at Carmi in order to assist in settling up the rich and productive territory which is being opened up by the new line.

Tracks and spurs to afford connection with the mines at Merritt, where the Kettle Valley joins the C.P.R., and it is anticipated that large quantities of coal will be shipped to the Coast via Coldwater Junction and Hope on the short route.

The Summerland Telephone Co.

Good Work by Construction Gang.

To many of our readers it will be a pleasant surprise to learn that the construction work on the various pole lines of the Summerland Telephone Company is rapidly nearing completion. As has already been stated in these columns the cable lines have been run, and most of the joints have now been made. The piling and wiring on Jones Flat is complete, as is also that at West Summerland, and the line to the head of Garnett Valley was finished on Wednesday. Poles and wires have been stretched to Trout Creek and around Giant's Head. Practically the only sections now remaining to be built are those of Prairie Valley and Peach Valley, which will be completed in a few days. The company is confident of having all its linework finished by the time the switchboard arrives, and while the Kellogg Company's engineers are installing the switchboard, instruments will be put in the homes, stores and offices of subscribers, and connections made with the trunk line and laterals.

The exchange building is now in the hands of the carpenters and other artisans who are busily preparing the interior of the building for its new use. Many favorable comments are heard of the excellency of the newly constructed lines. Material used throughout has been of the best. The poles have been treated with carbolinum, and have been well set, and those who should be in a position to know, pronounce it an excellent job, and one which is likely to last for some years with but small maintenance expense.

Sale Centre for Canadian Apples.

Shippers of B.C., Ontario and N.B. to Establish One in London.

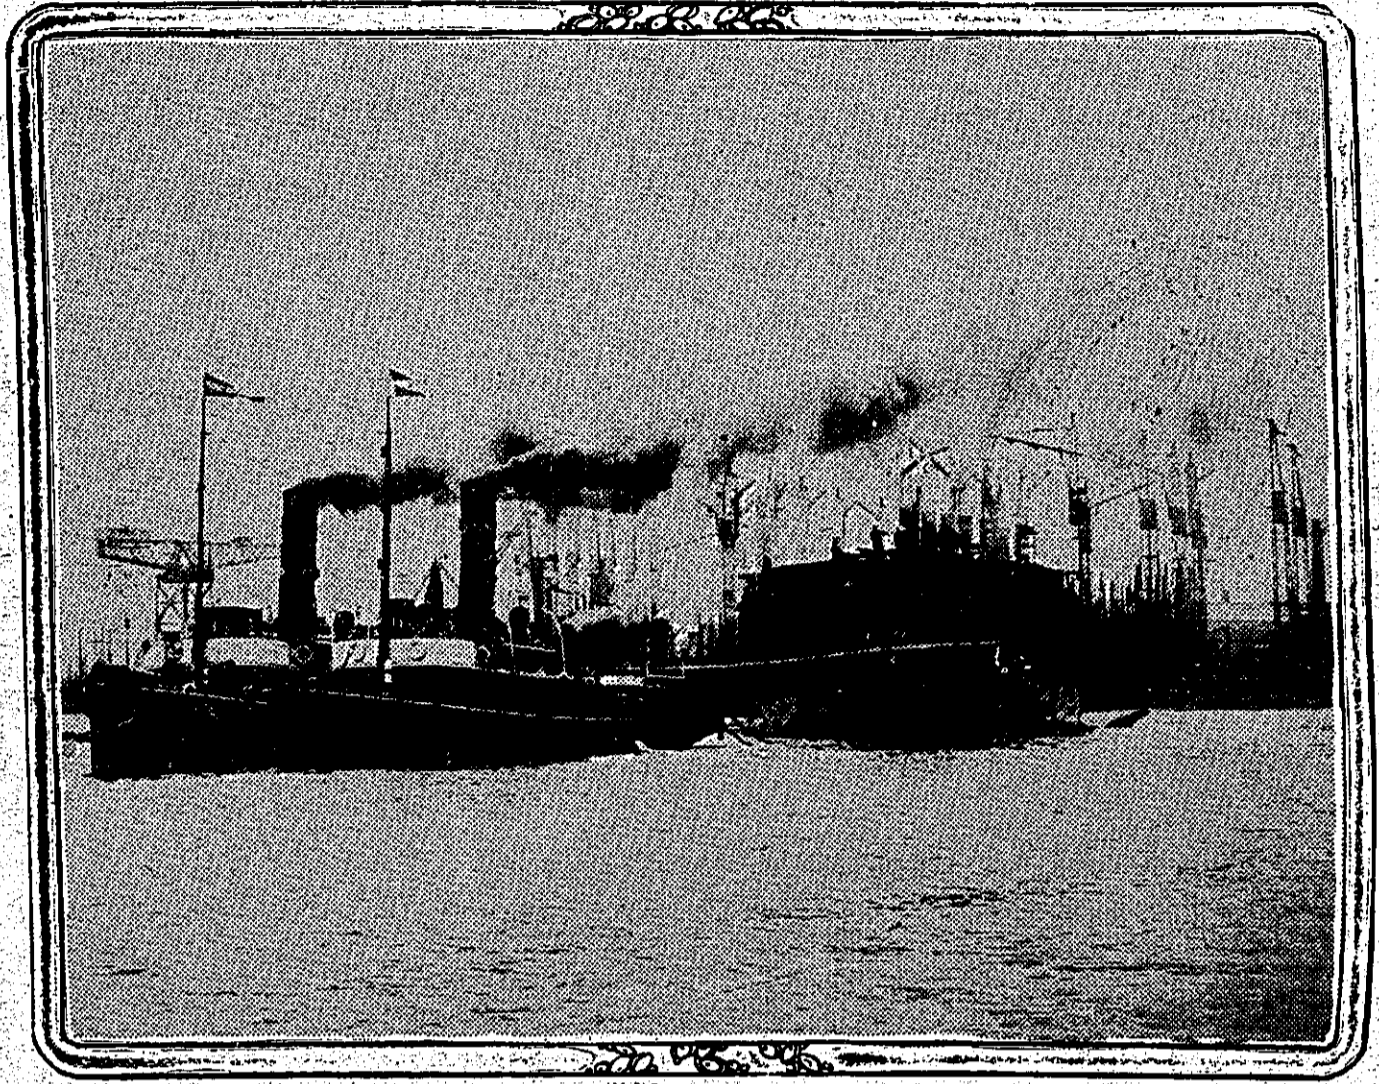

A London press despatch of January 7 says:—It is stated that a movement is on foot among those concerned with the sale of Canadian apples in the London market to break down the combine which exists among London dealers under which Canadian apples are sold practically at any price the combine chooses to fix. Arrangements are being made on behalf of the apple shippers of New Brunswick, Ontario, and British Columbia to institute an independent sale centre in London, solely for Canadian apples. Investigations also are being made into the allegations that recent consignments of apples have been tampered with, wholesale, at the port of entry, inferior apples of English growth being mixed in large numbers with the genuine Canadian apples.

The directors of the Summerland Telephone Company hold a rather long meeting last night, and a good deal of routine business was dealt with. Everything is progressing to the satisfaction of the board, and pleasure and satisfaction were expressed with the unanimous cooperation they, as the people's servants, are receiving from Summerland users.

The local I.O.O.F. Lodge is to hold a joint installation for the South Okanagan to-night in Empire Hall. Brother E. L. Webster, P.G.M., of New Westminster, and Brother J. H. Glass, D.D.G.M. of Pentiction will be present. After the ceremonies there will be a banquet, and it is probable that the session will be nearly an all night one.

At a recent meeting of the Kelowna Board of Kelowna Trade it was announced that the Canadian Northern would commence construction work on the Kamloops-Kelowna line during the coming spring. Right-of-way has been secured, and station sites purchased.

Launching of "The Mystery Ship."

It does not seem possible in this day of alert espionage for a nation to design and completely build a fighting vessel without the fact becoming known to the war departments of all nations. It also seems impossible that such

a feat should escape the notice of some of our sleuthful newspaper correspondents. Yet this very thing has happened. This picture shows H.M.S. "Tiger" just after she had slid off her ways at Clydebank. The "Tiger" has gained

the name of "mystery ship" owing to the secrecy with which the work was surrounded. No one was allowed to visit it, and not until it was launched did it become known that England had constructed the largest and swiftest cruiser in the world.

Civic Nominations and Elections.

On Monday next, the 12th inst., nominations for the civic offices of Reeve, Councillor, and School Trustee are called for. The ratepayers will meet in Empire Hall at twelve o'clock noon, when nominations, filed in due order, will be received by the Returning Officer, J. L. Logie.

So far as can be foreseen there will be few elections necessary. A petition has been circulating requesting Mr. Jas. Ritchie to accept nomination for the reeveship. This is extensively signed throughout the municipality, and unless further nominations are sprung upon the public at the meeting on Monday, Mr. Ritchie will, by acclamation, be elected to the head of the Council. He relinquished the same position two years ago.

Petitions have also gone the rounds seeking to place R. H. English on the Council to represent Ward III, and Mr. Adam Stark for Ward I. Mr. I. Blair has also been approached to allow his name to come before the electors. Some new faces round the Council table are thus assured. Coun. Dale has not made any public statement regarding Ward II, though the general feeling is that he will run if nominated. E. R. Simpson, who contested this Ward with Coun. Dale twelve months ago, has again been mentioned as a possible candidate. Messrs. H. S. Lewis and H. Dunston, retiring Councillors for Wards III and IV, respectively, have not expressed any views beyond that they entertained no special desire to seek re-election. It is said that Councillor Lewis is willing to accept nomination for reeve, but that he would not oppose Mr. Ritchie.

Three members retire from the Board of School Trustees, viz., Messrs. W. J. Robinson, W. J. Docking, and Dr. J. P. McIntyre. Mr. Robinson has definitely given out that he cannot seek office again for business reasons, and Mr. Docking has expressed a preference not to be placed in office again. Dr. McIntyre has signified a willingness to serve a further two-year term, so that there will probably be two new Trustees.

Any elections that are necessary will be held on Saturday, the 17th inst. Polling stations will be as in former years, at the Men's Club for Wards I and III, and at the Municipal Offices for Wards II and IV.

Rev. S. Everton will again conduct the Baptist services on Sunday next, the 11th inst.

Manual Training This Fall Seemingly Not Widely Favored.

Feeling of School Board Public Meeting Opposes Any Increase of Expenditure.

The attendance was far from satisfactory at the annual meeting called by the Board of School Trustees for the public discussion of local educational problems, in the Men's Club, on Saturday afternoon last. Scarcely two dozen ratepayers were present. There was opportunity for learning future policy, gathering public opinion, and of enlightenment generally on school matters, that warranted as large an attendance as at the municipal meeting of a week previous.

The discussion centred chiefly about manual training, which it is proposed to incorporate into the curriculum at the commencement of the approaching fall term. Divergent views upon this subject were advanced and the varying trend of the discussion pointed clearly to the necessity for obtaining a more representative pronouncement from the ratepayers before final arrangements are made. The conveyance system in operation here, and the imposition of homework upon the school children were also brought up more or less cursorily during the afternoon.

W. J. Robinson, retiring chairman of the School Board, spoke frequently throughout the meeting. He showed that the expenditure of the Board had been kept within the proceeds of the tax of four mills. Complete harmony prevailed in all the circles of school work, a state of affairs eminently satisfactory. He had received excellent support from the Board during his year of chairmanship. After referring briefly to the work which had been accomplished during the past year Mr. Robinson dwelt at some length upon manual training. Its cost to the municipality, he said, would be about seven hundred dollars for initial equipment, and the yearly maintenance thereafter would also equal that amount. This sum was only twenty-five per cent. of the total cost of the innovation, the remaining seventy-five per cent. being found by the Provincial Department of Education. The opportunity for the establishment of manual training this coming fall was unique, in that by mutual arrangement with Kelowna, the services of an instructor could be divided between the two towns, three days

at the orchard city and two days here. It was confidently expected that the Fruit Union Warehouse near the Central School could be rented reasonably, and adapted to suit the needs of manual training. The estimated initial cost included the adaptation of a portion of this building to the purpose. The amount was the minimum upon which the experiment could be tried out. Mr. Robinson strongly favored the introduction of manual training as a great factor in the all-round development of the child mind. Its chief value would be as conducive to thought on the part of the scholar. In addition, it trained to a practical end. He thought manual training advisable for the sake of the men of tomorrow—the children of to-day.

Trustee W. R. Shields placed himself on record as opposing the introduction of the scheme at present, contending that the finances of the municipality were not in the best shape to bear the additional expenditure. This had been his attitude whenever the question had come up.

Messrs. W. M. Wright, T. J. Garnett, C. J. Thomson, H. Sutherland, H. Bristow, and W. A. Wright also spoke during the afternoon supporting the contention that the time was not financially opportune to increase the municipal burden.

Trustee W. A. Caldwell said that though he had not himself taken manual training during his school days, nor had he any children who would benefit from its introduction at the present time, he favored it as a practical counterpart of the heavy theoretical education which the schools gave at present. The training would add a more permanent value to the school work.

G. J. C. White advocated manual training also for the value of its thought stimulation. The main object was to train action through the application of thought. In this community there was not apparent the same necessity for domestic science in the schools as for manual training.

Jas. Ritchie questioned the practical value of such a course for the

[Continued on Page 8.]

"Rowena" Is Now Tied Up.

The Okanagan Lake Boat Company received the surprise of their lives last night when, on the arrival of the "Okanagan" at Naramata a Customs authority stepped off and announced that he was authorized to tie up their ferry boat.

The only excuse or explanation forthcoming was that this action was due to the fact that it had been reported by someone that the "Rowena" had made some part of its daily run without the captain being on board. It can be easily understood how unfair such action seemed to the Boat Company. They had that afternoon received a telegram from the Customs simply stating that their boat was to be at the wharf, on the arrival of the "Okanagan," which had in no wise prepared them for this bolt from the blue.

The Boat Company have for some time past been making every effort to catch up with and fulfil every requirement and were congratulating themselves that this had been done to the last letter. The "Rowena" has been running for some time fully equipped and with qualified captain and engineer on board. Captain Languedoc, who holds the highest class master's papers, is at a loss to understand this action on the part of the authorities, and during a lifetime on the water as mate and master never heard of such stringent measures under the circumstances.

The Boat Company feel sure that the affair can be rectified at once and are going into the matter thoroughly. In the meantime they will give the best service possible with the "Tillieum."

Presbyterian services will be held in St. Andrew's Church next Sunday morning and evening. At the evening service Alexander's hymn book will be used. Friends who have this book will kindly bring it to the service. Mr. Daly's evening subject will be "Unconscious Loss."

Debenture By-Law Slightly Altered.

Council In Final Session.

The Municipal Council held a short session on Monday to finally deal with the cancelling of debentures, and attend to any other necessary business, and also to sit as Court of Revision.

Only one name was added to the list of voters, he being a resident of Ward III.

E. R. Simpson personally supported his claim made some time ago that the Municipality should not charge his foreman for domestic water service. After quite a discussion of the question the charge was rebated.

Coun. W. J. Robinson has been similarly situated, and for some years there has been a double charge to his ranch, one for supplying Mr. Robinson's house and the other for supplying Mr. Rines. When this ruling in favor of Mr. Simpson was given Mr. Robinson accordingly demanded like treatment. He was, however, only granted a rebate for the amount unpaid.

When finally considering the debenture question the by-law was amended so that all the domestic water debentures were cancelled and double the amount of the proposed irrigation debentures were left in the treasury.

The Reeve was instructed by motion of the Council to get legal advice on the relation of the Municipality to the Okanagan Telephone Company.

A DISCLAIMER.

Rev. R. W. Leo wishes to deny the suggestion that he has in any way shown any sympathy with the Okanagan Telephone Company. He has ordered the removal of the phone from his residence and become a subscriber to the Summerland Telephone Co.

JOHNSON—On Wednesday, January 7th, to Mr. and Mrs. P. P. Johnson, a daughter.

West Summerland MEAT MARKET

Messrs. Cockett & Jackman beg to announce to the residents of Summerland and district that they will open

A First-Class Cash Meat Market

at the above address on or about Thursday, January 8th, and hope by supplying the best quality meat at the lowest possible market price to merit a share of public support.

Families waited on daily for orders and prompt attention given.

Pickled Beef and Ox Tongues a Specialty.

Your Patronage Solicited and Satisfaction Guaranteed. Special Prices Quoted for Hotels, Restaurants and Public Institutions.

The Summerland Development Company

Has a few CHOICE LOTS left in their great Closing Out Sale. These are offered at the original price, in spite of the fact that the value of the land has been greatly enhanced through the activities of the District.

NOW is your chance to invest in additional Holdings; or, if you do not own an Orchard, to establish a Home in the Okanagan.

Both Improved and unimproved lands are offered. Those interested will be shown over the District at any time to suit their convenience.

"REVIEW" Offices.

A Spray Calendar

Prepared by a Member of the B.C. Horticultural Staff.

Why do we Spray?

In the first place to prevent SPORES of fungi born within the plant cells ENTERING OTHER PARTS OF THE PLANT.

Secondly to KILL FUNGI BORN UPON THE SURFACE of the plant tissues.

Then again to KILL BITING AND SUCKING INSECTS either by contact, poison, or suffocation.

INDIRECTLY TO CHECK THE SPREAD OF THE FIRE BLIGHT by doing away with the larvae of Aphids, adult Ants, Bees and Wasps, and the forms of any other insects most easily killed.

Finally it is a SPLENDID SPRING TONIC FOR THE TREE, given even, that nothing (fungous, insect or bacterium) affects the tree.

WHEN? The following is a simple Spray Calendar:—

FIRST APPLICATION	Kind of Trees	For Fungi (Preventative)	For Insects
Shortly before the buds burst.	Apple	Scab	Bud Moth
	Pear	Black Rot	Woolly Aphid
	Cherry	Canker	Eggs:
	Plum	Plum Pockets	Tussock Moths
Before buds begin to swell.	Peach	Mildew	Peach Tree and Fruit Borer
	Apricot	Peach Leaf Curl	Leaf Blister Mite
		Silver Leaf	

Use a contact spray for above such as Home Made Concentrated Lime Sulphur, Specific Gravity 1.032 or 1.030 or Old Home Boiled Lime Sulphur; Lime 20 lbs., Sulphur 15 lbs., Water 40 gal.

SECOND APPLICATION	Kind of Trees	For Fungi	For Insects
Just before the blossoms open or at blossoming time, for ants, bees, wasps (blight carriers)	Apple	Black Rot	Larvae—Tussock Moths
	Pear	Bitter Rot	Aphids, green
		Baldwin Spot	Do. Woolly
Just after fruit is set	Plum	or any remaining fungi and spores	Tent Caterpillars
	Cherry		Canker Worms
	Peach		Leaf Rollers

Use concentrated Lime-Sulphur s.g. 1.009 or 1.008 and Arsenate of Lead 4 lbs. or 2 to 3 lbs. Bordeaux—Lime 4 lbs., Bluestone 4 lbs., Water 40 gals., and Paris Green 4 ounces.

THIRD APPLICATION	Kind of Trees	For Fungi	For Insects
Immediately after the petals fall	Apple		If necessary for Blight Carriers
	Pear		
About two weeks later than second application	Plum		Aphids
	Cherry		Wasps
About four weeks later than second application	Plum		Ants
	Apricot		

Use Concentrated Lime Sulphur, s.g. 1.008 Arsenate of Lead, 2 to 3 lbs. Bordeaux Mixture and Paris Green as for 2nd application.

PREPARATION OF HOME MADE CONCENTRATED, LIME SULPHUR.

Into a large tank or iron pan which holds about sixty gallons put in a bag of flowers of sulphur or flour of sulphur. This weighs about 110 lbs. Add about 40 to 50 gallons of water, hard or soft, and bring to a boil. Then add 55 lbs. of stone lime nearly free from magnesium and other impurities, one half by weight of sulphur, and continue to boil briskly for one hour. Stir constantly—a hoe is convenient for the purpose—keeping the sediment in suspension and aiding all the sulphur to go into solution. When boiling is completed pour off the clear solution into a barrel. This solution is the stock solution which may be diluted at will.

For the winter wash dilute one part with about six parts of water, or if a hydrometer is used dilute until the specific gravity or reading thereon registers 1.032 or 1.030. For the summer washes dilute one part with from twenty to twenty-five parts of water, until the hydrometer reading is from 1.009 to 1.008. Growers can reduce the cost of spraying considerably by clubbing together and making this concentrated wash at a central point.

ASSURANCE AGAINST FIRE BLIGHT.

Cut out all cankered limbs whether the cankers are "hold over" or not. They will run in the spring whatever kind these cankers may be; and the results are disastrous.

When the leaves are off the trees the cankers are more readily seen. Winter patrols are therefore advisable.

Burn all blight in sight and at sight. Do not seal any limbs except the very large ones and the trunk. In nine cases out of ten such a tree must eventually come out.

Do not forget to disinfect all cuts, wounds, seals and "hoof cankers" with one part of corrosive sublimate to one thousand parts of water. Late infection results from neglect of this precaution.

Rigid obedience to the rules results in complete annihilation of the Fire Blight.

Continual neglect results in complete annihilation of all the apple, pear, and quince trees in the orchard.

Canada's Egg Imports	1903	7,404,100	550,288
	1904	5,780,916	972,242
	1905	8,601,427	306,567
Provinces of Western Canada Make Increasingly Heavy Importations from United States.	1906	2,021,725	402,660
	1907	2,591,205	661,104
	1908	1,805,890	1,149,086
	1909	552,850	1,180,120
	1910	100,650	884,078
	1911	92,164	2,378,040
	1912	203,281	7,577,826
	1913	120,854	13,240,111

Canada, an agricultural country, is obliged to import eggs for home consumption. Canada once exported eggs. Ten years ago between ten and twelve million dozens were exported to England, and previous to 1900 even greater quantities were shipped annually to the United States. The following table gives the exports and imports of eggs since 1900:

	Exports Doz.	Imports Doz.
1900	10,187,006	709,829
1901	11,363,064	951,745
1902	11,685,064	772,572

WOMEN'S INSTITUTE.

The annual meeting of the Summerland Women's Institute will be held on Friday, Jan. 15th, at three o'clock, in the parlor of the Men's Club.

A good attendance at the meeting is requested. Reading of reports and election of officers for 1914 will be part of the afternoon's business, and any suggestions and ideas which are likely to be of use to Institute work will be heartily welcomed. As all subscriptions (excepting those paid in the last quarter of 1913) lapse on December 31st of each year, the secretary earnestly requests that all old members and intending new members pay in their subscription of 50 cents at an early date, so as to avoid having their names cut off the mailing list, and in consequence missing some of the useful and instructive bulletins issued to all Institute members by the Department of Agriculture of B.C.

Peachland Notes.

Mr. Wm. Logan visited Kelowna on Wednesday.

The Masons are giving an "At Home" in the Orange Hall on Friday evening.

It is rumored that considerable real estate has changed hands recently in Peachland.

Miss Olive Gummow left for Vancouver on Monday morning, where she will resume her studies at Normal.

Mrs. Wm. Logan left this (Wednesday) morning for Vancouver, where she will spend some time with her son.

The annual meeting of the Women's Institute will be held on Tuesday the 13th day of January. Election of officers and other business.

Miss Gertrude Gummow of Penticton, Miss Smith of Woods Lake, and Miss Elliott of Pleasant Valley have this week begun their duties again in their several schools.

It may be pleasant to be able to plow right through the winter, but we would rather have the snow and a moderate amount of frost. The year 1914 is certainly beginning in an exceptional manner.

The senior and preliminary departments of the public school began their year's work on Monday morning, but the board has been unable to secure the services of a High School teacher up to the present.

Mr. and Mrs. John Baldock and children arrived from Calgary on Tuesday evening, and are at present visiting Mrs. Baldock's sister, Mrs. Seaton. We understand that it is their purpose to live in Penticton for a while.

Kaleden Comments

Mrs. Geo. Purvis returned home from Seattle on Christmas Day, after a visit of some weeks.

Two boxes of warm clothing are being despatched to Vancouver this week for distribution amongst the poor there.

Mr. and Mrs. J. C. Findlay spent Christmas Day with Mr. and Mrs. Jas. Ritchie at Parkdale, West Summerland.

Mr. T. C. Preston has been very sick for the past week or two. We hope he is now a little better, although still very weak.

Mr. and Mrs. T. C. Preston had a family gathering for Christmas, when Mrs. Baker, their daughter, with her husband and family, were down from Penticton.

Captain and Mrs. Hatfield entertained a large family party for Christmas Day, when Mr. and Mrs. Burton Hatfield were down with their family for Christmas Day.

A special meeting of the Mission Circle was held at the home of Mrs. W. P. Simpson on Dec. 31st, when arrangements were made to contribute clothing for the Central Mission in Vancouver.

The Christmas Entertainment was held on the Saturday before Christmas, December 20th. Mrs. Rourke had trained the children very carefully, and a very enjoyable program was given, consisting of songs, recitations and drills. Mr. Harry Knight again acted as Father Christmas, and distributed candy and presents to all the children. The evening was a great success.

College Notes.

Work started this term on the appointed day with almost full attendance. There is a good spirit among the students, and a successful term is anticipated.

The College freshmen are writing the McMaster mid-year examinations. They commenced on Tuesday, and will continue until Wednesday of next week.

Mrs. Thomas Dale entertained a number of the Faculty and student body on Monday evening. Various games were enjoyed, and a delicious supper was served at 10.30.

There will be a number of new students for the ensuing term. Miss Leone Morrison from Peachland, and Miss Edna Schofield, Willis Tierney, and Leslie Walrod from Alberta have already registered.

On the evening of New Year's Day, Miss Kathryn C. McLeod entertained the Faculty at dinner in Morton Hall. Covers were laid for eighteen guests. The table was effectively decorated with fruit and flowers, and a most delectable repast was enjoyed by all. After dinner the company gathered in the drawing-room where they were most enjoyably entertained until a late hour. Dr. and Mrs. Montgomery were guests of honor. Those also present were: Dr. and Mrs. E. W. Sawyer, Dr. and Mrs. F. H. Harrington, Prof. and Mrs. W. H. A. Moore, Prof. and Mrs. S. Everton, Miss Phyllis Higgin, Miss Grace Hurschmann, Miss Melita H. Skillen, Miss Edna McLeod, Prof. D. H. McIntosh, Prof. Montgomery, Prof. W. M. Wright, Mr. W. A. Wright.

DEBATE ON WOMEN SUFFRAGE AT W.C.T.U. MEETING.

Much interest was taken by local ladies in a debate on the much vexed question of Woman Suffrage, held in the Men's Club Room on Monday afternoon, organized by the W.C.T.U.

There was a crowded attendance, and as many of the audience and two of the debaters were not members of the Union, there was a rather wider interest than usual attached to the meeting.

Mrs. Fenner was in the chair, and presided with admirable impartiality. Mrs. D. H. Watson and Mrs. Buchan Reesor delivered the familiar case for Woman Suffrage while Miss L. V. Mills of the National League for Opposing Woman Suffrage made known the opinions held by a large force of women and by the great organization in London and New York opposed to the extension of the Parliamentary Franchise to Women.

The three speakers were very cordially received, but no vote was taken, and in the open discussion which followed Mrs. M. M. Robinson, Mrs. W. J. Robinson, Mrs. Lipsett, and Mrs. T. N. Ritchie took part.

The Square Grocery Store
 BEST QUALITY
 BEST MEASURE
 COPY RIGHT 1910 BY C. E. ZIMMERMAN CO.

To be "on the square" is so essential in our life that only those who practice it can hope to win out. Squareness means friendship between a store and its customers.

ON this rock of honesty has our growing business been built. You find sixteen ounces to the pound or four quarts to the peck, in your purchases—the quality and value of our groceries are as sure as the rising sun. The high standard of our customers is a safe guide to our methods.

It is nice to know with whom you deal, isn't it? We are always the same—the Square Deal Grocery.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JANUARY 9, 1914.

A UNITED SUMMERLAND.

TELEPHONE MATTERS are this week the chief topic of discussion throughout the district. The complete turn-down given the Okanagan Telephone Company, the rushing of construction work by the Summerland Company, and the arrival on the scene of Mr. R. W. Millikan, sent here by the Okanagan Company for the purpose of making an attempt to break into the solid front put forward by the people of Summerland, have all tended to keep the subject a live one. The unanimous cancelling of telephone service at the end of the year evidently surprised the Okanagan Telephone people, and has put them quite on the defensive. It is stated that of the 182 'phones which were here at one time less than 30 remain that have not been ordered out, most of which are on contracts. It is said too a number of others will go out within a few days. For the first time in the local history of the company a determined, if belated, effort is now being made by a personal canvass and offers of cheap telephone and messenger service and other means, to obtain the good will of Summerland's citizens. The admitted purpose of these efforts is to save the investment made by the company in purchasing the plant of the Lakeshore Telephone Company, and in later improvements.

Due warning was given the directors at Westminster by one of our prominent citizens that if it came to a fight to get justice Summerland would stand united as one man. This is one of Summerland's characteristics to which she is again fully adhering in this instance. Mr. Millikan has been given a respectful hearing by all on whom he has called, but sincere though he may be (and he is no doubt one of the best men that could be sent to grapple with the situation) he has arrived on the scene altogether too late even if he could now furnish Summerland with the guarantees she would require.

It was not from any desire to engage in the telephone business that the Summerland Telephone Company was organized and has now actively engaged in construction work. It was organized under force of circumstances, and the persistent policy of oppression adopted by the Okanagan Telephone Company forced the local company to put in a plant to properly serve the district. It was with reluctance that the new venture was taken up, but of late there is with many a feeling of gladness that the situation made the move necessary, and a general feeling that the policy of the Okanagan Company will have been a blessing to Summerland in thus forcing local action.

The larger company has maintained a constant drain on Summerland's finances to the tune of several hundred dollars a month. Practically the only local expenditure being for operators.

With the new company, of course, all rentals earned will remain in the community, and payments for salaries and various requisites will be put into local circulation. In this one move Summerland will reduce its annual expenses by a tidy amount.

"A SOFT ANSWER turneth away wrath," said sage Solomon, but that was before telephone systems became bones of contention. It is safe to predict that the mollifying measures which the Okanagan Company has resorted to during the past week will be no more successful as oil upon the troubled waters than the less popular tactics of the manager last week. Smooth talk comes too late to retrieve the situation. How next will the Okanagan Company seek to heal the breach? It is beyond the power of the corporation to do so, and to persist in the attempt is only a prodigal waste of valuable energy that would be better spent in improving systems in neighboring towns, thus lessening the likelihood of similar calamities overtaking the interests of monopoly.

The rebuilding and extension of the existing system which the Okanagan Company gave out so freely was to be pushed ahead immediately, has not yet commenced. Supplies and equipment were sent down from Vernon with a gang of men, perhaps to heighten the illusion. Some minor work has been carried out, such as renewing old poles, and staking out lines, but so long as local feeling remains adamant to all compromise, the corporation themselves recognize the futility of further expenditure in vainly striving to mend their lost fortunes. The Okanagan Telephone Company should not now be worrying how to save their Summerland investment, their concern should be for the least ignominious extinction.

Upon the Summerland Telephone Company now rests the responsibility of making good. As a private profit-seeking concern it can expect no undue discrimination from the Council over the Okanagan Company. The local company must stand on its own merits. The inconvenience of a disrupted telephone service has been undergone on their behalf, and as compensation the community demands an efficient service for a reasonable rental. Nothing is so wearing upon public patience and forbearance as delay, and the sooner the new local system is put into operation the less danger there will be of defection. Public sympathy has been with the local company in its establishment, but public sympathy does not work unrewarded. The action of the Okanagan Company in instituting a messenger service to connect the business houses with the few remaining subscribers through the medium of the exchange indicates a reluctance to loosen their all hold altogether, and so long as the big company retains any footing whatsoever in this community there is always a possibility, remote it may be, of recovering at least some lost ground.

CANADIAN PARCEL POST SYSTEM.

OFFICIALS of the post office department are hard at work arranging the details of the parcels post system provided for in the bill passed by parliament last session. Although there still remains a good deal to be done they are confident that the system will be inaugurated before the end of January.

The arrangement with the railways has not yet been made, but it is stated that the department and the railways are getting closer together every day. The railways want their allowance of approximately \$2,000,000 for the carriage of the mails increased to \$6,000,000. Their demand amounts to compensation for the loss of the express business. It is probable that the railways will have to accept a considerably smaller amount. The companies will be liberally paid for the service, and, while there is no official statement about it, there is much doubt of them getting all they ask. Once the arrangement has been made with the railways the rates to be charged will be fixed.

The interesting announcement has been made by the Postmaster-General that intoxicating liquors will not be received for transmission by parcels post. This is in accordance with the practice in other countries.

BRITISH COLUMBIA will not be affected by quarantine regulations just promulgated forbidding the importation into the United States of common or Irish potatoes from Canada, Newfoundland and the French islands of St. Pierre and Miquelon, which adjoin Newfoundland. This order which will remain in effect until such time as the countries specified have cleared the product affected by the order of powdery scab and black wart diseases. The new regulation is already effective. In view of the fact that no potatoes are exported from British Columbia the quarantine will not affect the products of this province. Large quantities of potatoes, however, are shipped over the border to American points from Ontario, New Brunswick and other eastern provinces. Exporters in these provinces advanced the claim when the quarantine against Canadian potatoes was mooted, that it was designed to curtail the trade that was being built up between eastern parts of the Dominion and the United States, and was not on account of the reasons specified by the United States Department of Agriculture. The demand for potatoes grown in British Columbia far exceeds the supply, and a big increase in the price of the product has taken place on this account.

HAVE COURAGE.

AT the beginning of a glad new year, instead of making many resolutions, try to increase your store of courage.

Have the courage to tell a man why you will not lend him your money.

Have the courage to wear your old clothes until you can pay for new ones.

Have the courage to prefer comfort and prosperity to fashion in all things.

Have the courage to obey your Maker at the risk of being ridiculed by men.

Have the courage to discharge a debt while you have the money in your pocket.

Have the courage to do without what you do not need, however much your eyes may covet it.

Have the courage to provide for the entertainment of your friends within your means, not beyond them.

Have the courage to acknowledge your ignorance, rather than to seek credit for knowledge under false pretences.

Have the courage to speak your mind when it is necessary you should do so, and to hold your tongue when it is prudent to do so.

Have the courage to show that you respect honesty in whatever guise it appears, and your contempt for dishonest duplicity by whomsoever exhibited.

Have the courage to cut the most agreeable acquaintance you have when convinced he lacks principle. "A friend should bear with a friend's infirmities," but not his vices.

Have the courage to pay your subscription to your home paper. Don't let it run for three or four years and then kick because you get a dun, and get "huffy" and order your name off the list. Have the courage to be manly about it, remembering that the editor has expenses which you know nothing about.

Current Events OF Town & District

Mr. D. F. Broome has just purchased a fine horse from Mr. Tom Doswell.

Mrs. E. P. Roe was visiting her sister, Mrs. McDougald at Peachland this week.

Mr. J. W. S. Logie spent the week-end with his parents at their ranch on the other side of the lake.

Dr. R. C. Lipsett came over on Tuesday to attend Mr. D. F. Broome's valuable horse, "Brownie."

Fruit Packing Classes.

The fruit packing lectures will be held in the basement of the Naramata Church from Monday next, January 12th, to Saturday, January 17th, conducted by Mr. Buchanan the fruit expert of Vernon.

Some twelve to fifteen students have already signified their intention of taking advantage of these classes, which certainly are of great value to the fruit growers of our neighborhood.

A branch of the famous Yarrow shipyards on the banks of the Clyde in Scotland will be established at Esquimalt. This announcement means much for the province, and promises the development of a large shipbuilding industry there in future. It is understood the new plant will be equipped to construct war vessels as well as all other classes of steamships.

You will save money by doing so.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

OUR BEAUTIFUL WEATHER

JUNE IN JANUARY.

The most beautiful Riviera weather which continues to prevail is the topic of universal comment, and we are certainly establishing a record of June in January which should be forever written in the weather book of the South Okanagan. The chinook swept down on the mantle of snow which lay under alternate sunny and grey skies last week, and now only fast-disappearing white patches here and there remain of the Christmas and New Year snow fall. A soft, warm rainfall on Monday and Tuesday brought in mild and gentle airs which lent the Southern Valley the aspect of early spring and then the golden sunshine further coaxed the soil. On Sunday last, near Indian Rock, Mr. Fred Manchester gathered a bouquet of several delicate varieties of wild flowers growing along the road to North Naramata. Already a faint pinkish flush is showing on the tender twigs of the peach trees, and the sap is rising strongly in the apple boughs. A sprig of small green apple leaves of last year's growth was plucked, untouched by the frost.

Snowdrops, frail and timid, but still snowdrops full blown, are blossoming this week in the garden of Mr. George Wolstencroft, who also cut a bunch of crimson, cream and white rosebuds from his bushes.

Mark and Fred Manchester on Monday, sowed and raked clover on their lot above the Naramata Park on Monday, a proceeding which is sufficiently unusual to be noted in the farmer's diary.

Between two and three on Tuesday afternoon the thermometer registered forty-eight degrees in the shade, and in the sun on Wednesday wraps and hats were uncomfortably warm.

Little open launches have been used for crossing the quiet lake several times lately by owners who at this time of year count on having their boats snugly tucked up for the winter.

Canada's progress in railway building during 1913 exceeded by far any former year's record. The three transcontinental railways have been working steadily in extending their systems, and great gains have been made in the transportation lines both east and west. During the past year the railway board approved at least 7250 miles of new track which has come into operation. Besides, construction has proceeded in several thousand additional miles. At least \$100,000,000 was spent on capital account by Canadian railways last year.

Wonderful Snapshot of the U.S. Battleship Vermont in a Storm.

This picture was taken by a snail or on one of the vessels conveying the damaged warship after she broke her shaft at sea in a gale and had to be towed to Norfolk, Va. It shows the stupendous force of the waves, even where a 16,000 ton battleship is concerned. The ship will be placed in dry-dock for repairs, and it will be some time before the real extent of her damage has been ascertained. Several of her compartments were flooded, but the others remained intact. At the time of the accident the "Vermont" was returning with the other American battleships that visited Italy and the south of France.

Alleged Illicit Liquor Selling.

A subject of much conversation in the town during the past week has been the case of the Svea Hotel which was raided by the police on suspicion of the illicit sale of liquor. The premises have been under observation for some time, and last week a private detective under order of Chief of Police Fraser, of Vernon, gave information, with the result that Augustine and Green, proprietors of the Svea were arrested and taken to Penticton on the charge alluded to. Charged at the police court, the defendants pleaded not guilty, and the evidence showed that bottles of whisky had been found concealed in the straw of the stable at the rear of the hotel. It was stated for the defence that the whiskey was the property of another man, and was there without the knowledge of the defendants. There was no evidence to show that the proprietors of the Svea had any connection with the liquor found on their premises, and the case was therefore dismissed "for lack of proper evidence."

"CANADIAN PICTORIAL"

Canada's Most Artistic and Popular Magazine.

This elegant magazine delights the eye while it instructs the mind concerning the picturesque doings of an interesting and highly entertaining world.

Each issue is literally crowded with the highest quality of photographs, many of them worth framing.

It is the most popular "Pick-me-up" on the waiting room tables of the leading doctors throughout the Dominion, and in the big public libraries is it literally "used up" by the many who are attracted by its entertaining and beautiful pages.

It's a "love at sight" publication, and it has departmental features of great interest to the young woman and the home-maker.

Of it—just to quote one man's praise from among thousands—the Canadian High Commissioner in London—the Right Hon. Lord Strathcona, wrote: "The Canadian Pictorial is a publication which, if I may be permitted to say so, is a credit to Canada." (Signed) STRATHCONA.

On trial to new subscribers—Twelve months for only 65 cents.

The Canadian Pictorial is published by the PICTORIAL PUBLISHING CO., Witness Block, Montreal, Canada. Try it for a year.

Subscriptions taken at Review Office.

APPLES GET GOOD PRICES.

There is a great deal of excitement going on among the sporting element of our male population this week regarding an amateur wrestling match which takes place tomorrow, (Saturday) night, at the Empire Theatre, Penticton. The match has been arranged between Max Muller, the Dutch porter at the Syndica Hotel, and Rudolph Halma, an Italian, who is well known in the neighborhood. The men are well matched, for Halma is held to be a clever tackler by those who know, while Muller, who has fought bulls in Mexico, threw a bull with his bare hands in 1910, at Juarez. The "Rowena" is running a special trip tomorrow for the occasion.

Education in the province during the past year entailed the expenditure of \$4,658,894 by the Provincial Government and the various municipalities and school districts. There was a large increase in enrolment over former years.

B.C. Apples Again Win Important Awards.

Hon. J. H. Turner, Agent-General in London for B.C., enabled Sir Richard McBride on the 14th November that the biggest awards offered had been won by British Columbia, in open competition at Sheffield and Edinburgh, for display of apples.

Mr. Cunningham, B.C. Fruit Inspector, states that B.C. apples are in big demand, and that 100 carloads could have been sold now, had they been obtainable.

The United States fruit growers filled the orders. B.C. fruit growers and prospective fruit growers, act promptly, and enlarge your orchard plans.

We can supply you with all kinds of fruit tree stock to suit the special climatic conditions of each district.

Our prices for fruit tree stock this year are cheaper by nearly one-half, than heretofore offered to B.C. fruit growers, viz., \$8 to \$12 per 100; all grown in our own province, such as Jonathan, Spitzenberg, Baldwin, Northern Spy, and more than 20 other choice varieties.

Patronize home production, and make our province the fruit granary of the West.

Don't forget the beautifying of your home plot. In our stock of over \$100,000 we can meet the most cultured and aesthetic taste, to make home environments a centre of beauty. Evergreen stock, shade trees, roses, flowering shrubbery, bulbs, flowering plants etc. Catalogues mailed free on application.

Holly for Hedges, up to 12 inches, \$20 per 100; Privet, 2 1/2 ins., \$30 per 1,000; Laurel, 2 to 2 1/2 ins., \$20 to \$30 per 100.

Notice of Assignment.

NOTICE IS HEREBY GIVEN that the Peachland Canning Company, Limited, of Peachland, in the County of Yale, a Canning Company, has by deed of assignment, made in pursuance of the "Creditors' Trust Deed Act" and amending Acts, dated the 20th day of December, A.D. 1913, assigned all its personal property, real estate, credits and effects which may be seized and sold under execution, to R. J. Hogg, of Peachland, in the said County, for the general benefit of its creditors.

A meeting of the creditors will be held in the Orange Hall at Peachland aforesaid, at seven o'clock in the afternoon of the 15th day of January, 1914, for the giving of directions with reference to the disposal of the estate.

And notice is hereby further given that all creditors and others having claims against the estate are required to file the same with the Assignee on or before the 12th day of January 1914, with full particulars of their claims duly verified, and the nature of the securities, if any, held by them. All parties indebted to the said estate are required to pay the amounts of their indebtedness forthwith to the Assignee.

And notice is further given that after the 12th day of February, A.D. 1914, the Assignee will proceed to distribute the assets amongst the creditors of whose debts or claims he shall then have had notice, and he will not be responsible for the assets or any part thereof so distributed, to any creditors of whose debt or claim he shall not then have received notice.

Dated at Peachland, B.C., this 20th day of December, A.D. 1913.
R. J. HOGG,
Assignee.

Cheaper Fence Posts

As a result of the many inquiries in regard to the preservative treatment of fence posts, the Forestry Branch, Ottawa, has now issued a circular on this subject which can be had by applying to the Director of Forestry. The various methods described of treating the posts with the preservatives are all illustrated by diagrams, and the apparatus required is simple and costs little.

The great advantage of these treatments is that they keep even cheap woods free from decay for from ten to fifteen years. Many kinds of wood found in farmers' woodlots will last, when used as posts, only four years or thereabouts; after treatment, such as described, they last twice or three times, even four times, as long.

Cresote, which costs in Canada, from ten to twenty-five cents a gallon, is the best preservative. When boiling hot cresote is applied liberally with a brush—a paint brush or whitewash brush, for instance,—to the butts of well-

seasoned posts from which the bark has been removed, it sinks into the wood for a distance of about a quarter of an inch. This should add at least ten years to the life of a post made from a non-durable wood, such as poplar, balsam, fir, or spruce. This is not the best method, but it is the simplest and, on a small scale, probably the cheapest. Other methods require that the posts be kept covered in tanks of hot cresote for a longer or shorter period.

Besides lengthening the life of the post, the preservative treatment also tends to reduce the cost of the posts in another way, for, as cheap local woods can be used, the first cost and the cost of transportation are usually much lower than for cedar, oak or tamarack. Moreover, as posts will need to be set less often, the proportionate cost of setting the post will be less. Taking into account all the items that go to make up the cost of the post, and comparing this with the number of years it will last, it will be found, in the majority of cases, to be much less for treated posts.

"The Missouri Girl"

Coming January 13th.

"The Missouri Girl," which will be the offering at Empire Hall, on Tuesday January 13th, has been on the road continuously for fifteen years and for the past six years two companies have been presenting this ever popular play. It has been seen in every state and territory in the American Union, with possibly two exceptions, and last season one company toured Canada, where the play met with the same remarkable reception that has characterized its tours of the United States. The popularity of the play is not limited to any particular section. Wherever it goes it is the same story, crowded houses and delighted audiences.

Other plays that have been before the public deteriorate, and frequently managers foist inferior companies on the public with low salaried actors in the principal roles. Fred Raymond has always kept his companies up to standard and that is probably the reason for his remarkable success with this sterling comedy.

Year after year the companies visit the various cities fortunate enough to be on their routes, and invariably the companies are equal to those of previous years, and from time to time improvements are being made that strengthen the organization.

This season the vaudeville portion of the show has received Mr. Raymond's careful attention, and the country "birthday party" offers an opportunity for specialties that has been taken advantage of. Five first-class vaudeville numbers add great strength to the performance.

One pretty girl will inspire more feminine envy than a dozen clever ones.

W.C.T.U. Meeting.

There was a good attendance of the membership, as well as a large number of visiting ladies, at the meeting of the Union on Monday afternoon, in the parlor of the Men's Club.

Business matters were lightly passed over, to receive fuller attention at the February meeting, in order to devote more time to the suffrage debate, which was conducted without the formality of judges.

Mrs. Reesor led the discussion in favor of granting the franchise to women on the same terms as it is given to men, and gave many good reasons for doing so.

Miss L. V. Mills followed, cleverly supporting the anti-suffrage cause. Mrs. D. H. Watson, in a fluent little speech, proved an able second to Mrs. Reesor.

Mrs. Fenner had inadvertently been billed to support the anti-suffrage movement, but her "stock" arguments had deserted her. However, Miss L. V. Mills kindly came to the rescue and all went well.

Then followed a general discussion, in which quite a number of ladies participated, good interest being sustained throughout.

The women of the Union appreciate the kindness of the visiting ladies who assisted with the program.

The next meeting is due at West Summerland.

One syllable of woman's speech can dissolve more of love than a man's heart can hold.—Oliver Wendell Holmes.

Municipality of Summerland.

NOTICE IS HEREBY GIVEN to the Electors of the Municipality of Summerland that I require the presence of the said Electors at Empire Hall, Summerland, on the Twelfth (12th) day of January, 1914, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Reeve and Councillors, and in the Municipal School Board as Trustees.

The mode of nomination of candidates shall be as follows:—

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and 2 p.m. of the day of nomination, and, in the event of a poll being necessary, such poll will be opened on the seventeenth (17th) day of January, 1914, at the Council Chamber, West Summerland, for Wards Two (2) and Three (3), and at the Men's Club Rooms, Summerland, for Wards One (1) and Four (4), of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for Reeve, Councillor and Trustee are as follows:

The qualification for Reeve shall be his being a male British subject, and having been for the last three months next preceding the day of nomination, the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll of Five Hundred Dollars, or more, over and above any registered judgment or charge, and being otherwise duly qualified as a voter.

The qualification for Councillor shall be his being a male British subject and having been for the three months next preceding the day of his nomination the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll of Two Hundred and Fifty Dollars, or more, over and above any registered judgment or charge, or being a homesteader, lessee from the crown or pre-emptor, who has resided within the Municipality for the space of one year or more immediately preceding the nomination, or who, being a homesteader, lessee from the crown or pre-emptor, who has resided within the Municipality for a portion of the year immediately preceding the nomination, and who during the remainder of the said year has been the owner of said land of which he formerly was a homesteader, lessee from the crown or pre-emptor and who is assessed for Five Hundred Dollars, or more, on the last Municipal or Provincial Assessment Roll, over and above any registered judgment or charge, and being otherwise qualified as a voter.

The qualification for Trustee being any person being a homesteader in the School District and being a British subject of the full age of twenty-one years and otherwise qualified to vote at an election of School Trustees in the said school district, shall be eligible to be elected or to serve as a School Trustee.

Given under my hand at Summerland, this second day of January, 1914.

The Orchard Players

A British Columbian Organization.

"Out on the roads" in the merry days of April next. A new, talented and strong company of artists of British Columbia's own, are now being selected, got in form and marching order.

"The Orchard Players" of British Columbia come as the result of a long thought of and carefully planned organization, and the scheme is one of the happiest that has ever emanated from the fruitful lands of our beautiful province. To take art seriously and life healthfully, with the motive force of native patriotism, to tour and entertain with a fine repertoire of good plays, to possess and cultivate their own orchard lands in due season; this is, in brief, the program of "The Orchard Players," and their fellowship should prove one of the most successful and noteworthy of ideas yet born on British Columbian soil. The glare of the footlights and the strain of stage life has too often been the destruction of a splendid art, and here is the scheme for a dual existence that should lead to the realization of an ideal.

The Company as it stands consists of a band of actors and actresses, with an English stage reputation already made—Mrs. A. L. Soames, who has played at His Majesty's with Sir Herbert Tree, and Mr. Soames, associated with comedy fame in the immortal "Charley's Aunt." Mr. W. Sauter, associated with Sir Johnston Forbes Robertson, with E. S. Willard for some years, and with James K. Hackett and Eleanor Robson. Mr. L. Race Dunrobin, who has played with Sir Henry Irving, Eleanor Robson and Mme. Nazimova and with Fred Terry in "The Scarlet Pimpernel." It is hoped to secure also Mr. and Mrs. Legge Willes, who are so well known in the world of histrionic art. Thus the company already selected with the exception of several minor parts.

The first play which will be produced in the tour starting in April will be Sydney Grundy's "Marriage of Convenience," the brilliant costume play which was so phenomenal a success at the Haymarket Theatre, London, England.

"The Orchard Players" will carry all their own stage furniture, properties and electric fittings, and special scenery is being built and painted by a well-known Liverpool artist, Mr. McKay, who is now a British Columbian.

The growth of this country has been so phenomenal during the last decade or so, and our citizens have been so engrossed in "business," that little attention has been given to the Arts, which, in consequence have suffered severely.

But the old order changeth. We are feeling the need of good music, good paintings, and sound plays well presented, and (if they are up to the standard of the good imported productions)—we should prefer them native born.

It would seem that to "The Orchard Players" must be awarded the distinction of making the first step in the right direction, and we shall look forward with great interest to the work of an organization that has for its aim the development of a native drama.

A certain newspaper advertisement reads as follows: "Full blooded cow for sale, giving milk, three tons of hay, a lot of chickens, and several stoves." That is a cow worth having.

SCHOOL BOARD PUBLIC MEETING.

[Continued from Page 1.]

school children, suggesting the introduction of a feature more in keeping with the agricultural activities of the district.

Trustee J. P. McIntyre was of the opinion that if manual training was not thought advisable at this stage, perhaps some work along agricultural lines or horticultural might be introduced, the cost of which would be considerably less.

The feeling of those present was finally expressed later in the afternoon by a motion proposed by H. Sutherland and seconded by S. A. Denike, that it be not advisable to take up manual training this present year. This resolution was carried unanimously, though several present abstained from voting.

The suggestion was made that the question be submitted to a municipal plebiscite at the coming elections. Certainly the feelings of the ratepayers should be sought more representatively than was given expression at Saturday's meeting.

The annual financial statement of the Board was read by Secretary J. L. Logie. The receipts from all sources totalled \$11,536.55, and the disbursements \$11,532.34. Equipment to the school buildings had been added during the past year to the amount of \$319.08. After depreciation had been written off, the valuation of the school buildings and equipment was placed in the auditor's report at \$23,000.

Some enquiries regarding the number of pupils being conveyed by contract No. 5, held by A. H. Reid, from B. L. Hatfield's residence to the Central School gave rise to remarks regarding the system of conveyance.

The secretary pointed out that the government inspector had laid down the ruling that no pupils within one mile from the schools should be conveyed.

Trustee McIntyre thought that if the original intention of conveyance was adhered to, many difficulties would be avoided. It had been intended at first to convey to the Central School only such children as would otherwise have been attending their respective ward schools.

G. J. C. White voiced the general sentiments when he said it was apparent that some modifications in the system of conveyance were needed, though its total abolition would be unwise. He knew the increased average of regularity and punctuality which had been promoted, and which could not otherwise be attained. It was urged upon the new trustees that on the expiration of existing contracts, some changes be made.

Mr. H. Sutherland expressed a more extreme view when he said he failed to see the need for any conveyance system at all, when the climatic conditions here made walking both more desirable and satisfactory.

Jas. Ritchie advanced a suggestion which might reasonably stand investigation. It was that the outlying children be conveyed to within a fixed distance of the school, and then be required to walk for the remainder of the journey. This method would unquestionably reduce the cost of the conveyance contracts, and might tend to work out more equitably.

The home work question was brought up by C. J. Thomson, who instanced cases where far too much study at home was called for. He did not advocate the abolition of all home work, but desired to see more reasonable assignments.

J. L. Logie showed that in this matter the teachers were scarcely responsible. The Department of Education laid out the yearly progress of the school children, and the teachers had to follow that schedule, apportioning the daily work accordingly. In the higher grades a considerable amount of homework was necessary and could not be avoided, but in the lower grades the school law prohibited homework.

The meeting closed with a vote of thanks tendered the Trustees for their services throughout the past year.

TURPENTINE INDUSTRY.

There is promise of a large turpentine industry in the west. The raw product is supplied by the resinous gum of western yellow pine.

The new year will be what we make it, so far as our individual lives are concerned, and the man or woman who resolves to be happy in a healthful, unselfish way, is taking the first road toward happiness.

INVESTMENTS

From a business standpoint it is generally granted that money invested in Stocks returning 7 or 8 per cent. interest is considered good. We are offering a much higher percentage on money spent in merchandise in our CASH STORES.

COUPON BOOKS, to facilitate buying, are issued in prices ranging from \$5.00 to \$50.00 and sold at TEN PER CENT. CASH DISCOUNT, thus a \$50.00 book sells for \$45.00, being equivalent to over ELEVEN PER CENT. interest on the Cash Investment.

Only a CASH SYSTEM in a business can accomplish such a good return, because bad debts are eliminated, and Customers will not have to pay towards the cost of running a Credit System with its accompanying expenses.

Did you ever stop to figure out what you are paying interest for NOTE accommodation, or what you lose in discounts by having your accounts charged? **THINK IT OVER. IT IS WELL WORTH WHILE.**

NOT TOO BAD.

Vancouver, B.C., Jan. 7 (Special)—In a business review of the past year, conditions appear more favorable than many people imagine. Vancouver, whose condition reflects fairly well that of the province as a whole, had about the same trade through the custom house in 1918 as in 1912. Inland revenue returns were but slightly decreased. Building permits fell off somewhat, but \$10,000,000 is still a splendid record for a city of this class. The mineral yield of the province is said to be the second largest on record. The fisheries set a new

mark, and this is believed true of the orchard and farm crops. School attendance shows a gain of 13 per cent, indicating an increase in the permanent population. On the whole, British Columbia may well start the New Year in an optimistic frame of mind.

British Columbia again leads the Dominion in the value of her fishery products. During the past year this item reached almost \$14,500,000, an increase of \$778,000 over the same total for 1912. Nearly all the increase comes from growing deep sea fisheries, chiefly halibut.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 6, No. 25

SUMMERLAND, B.C., JANUARY 16, 1914.

Whole No. 285

Provincial Librarian

The Cruelties and Hardships of War.

One of the phases and hardships of warfare is depicted in the above picture, which shows citizens of Ojinaga, Mexico, women and children rushing to the American side of the Rio Grande, in order to escape the bullets of the Rebel and Federal armies. It will be noted they are taking with them such scant belongings as they were able to muster on short notice.

Most of their valuable belongings such as lands, household goods and other properties have been left behind. In many instances the women and children have been widowed and orphaned by the fatalities of battle. Some are leaving behind the dead bodies of those who have been shot as traitors. In one instance a brother was shot in the presence of another brother as

an example because he refused to give up his gold. The one brother stood by and wept as he saw his brother fall, riddled with bullets. A few moments later, when he, too, refused to disgorge, he was stood on the same spot where his brother had been slaughtered and at the command to fire, fell headlong over the prostrate form.

Possibilities of Jam Factory Placed Before Growers.

C. F. Garnett Speaks Convincingly to the Farmers' Institute.

Declares Small Fruits and Vegetables Grown on More Extensive Scale Would Be Salvation of Local Market Situation.

There was a fairly good attendance at the meeting of the Farmers' Institute held in Campbell's Hall on Tuesday evening for the purpose of listening to an address on "Orchard Waste and the Utilization of By-Products" by C. F. Garnett of the Okanagan Jam Company, Ltd.

President Hilborn was in the chair and introduced the speaker who had the closest attention of his hearers throughout the evening. His remarks, which created much favorable comment, and brought forth a general discussion at the close, contained many valuable suggestions and showed the possibility of larger profits from our orchards. Mr. Garnett's remarks so thoroughly corroborate the Review's contention that a greater variety of crops should be raised than specializing solely on tree fruits, that we publish his address nearly in full, with the hope that those of our readers who were not able to be present at the meeting, may be benefited.

MR. GARNETT'S ADDRESS.

Several weeks ago in the course of a conversation with Mr. Hilborn, in which we discussed various points connected with the fruit industry generally, I pointed out to him the desirability from our point of view of knowing to what extent the growers were going to support the Jam Factory, and grow the small fruits and various things we should be requiring. He suggested that I should come to one of your meetings and lay the matter before you. Your secretary having asked me to come tonight, I am here to say a few words about our future plans.

Before doing so I should like to make a few remarks concerning the fruit industry in Summerland. In a manufacturing business there is always a main or straight line, but if that business has any

pretensions to being a success, you will always find that it has side lines or by-products. Take gasworks, there is the gas, but there is also the coke, and even the cinder dust, which is used for sidewalks. Again, a flour mill has its flour, but it has its shorts, middlings, bran, etc. Come a little nearer home, the pineapple industry. Many are sold fresh, but many are canned. That is not all, the parings are made into pineapple juice, still further, the cores are made into chunks. In all these examples, one point stands out clear—there is NO WASTE. In its stead stand the BY-PRODUCTS. Now let us apply this at home. Is it WASTE OR BY-PRODUCTS? The fruit industry here is every bit as much a business as the examples I have given you. I am afraid, gentlemen, the answer is very much—WASTE. What is the present system? To ship the No. 1 and let the rest waste. Any packing house will take your best, but what of the rest? They will have none of it. Yet the waste costs as much to produce as the best, and pays nothing towards your expenses. Now how are we to wipe out that waste, and turn it into cash? There is only one answer—

BY-PRODUCTS.

You must look to institutions which can handle waste and turn it into other markets than the fresh fruit one.

Now what have we in Summerland in this way?

There is the cannery, that helps in certain lines, but from what I hear they want practically picked fruit only.

What else. We hear of a new but untried process, extracting the air, and replacing by carbonic acid gas. That may be good, but I venture to suggest that it will only be a fancy pack.

Still I ask what else is there? Gentlemen, we have a jam factory, with an evaporator. What can that do for you?

SMALL FRUITS.

It can handle all. There is not sufficient by tons.

STONE FRUITS.

It can use any of them that are useable. When I use that word I do not mean that we want to deprive our friend, Mr. Pig, of his bit, there is plenty of worm eaten, and very small fruit for him. He is a valuable asset, and every grower ought to keep him.

APPLES AND PEARS.

Well, at present, most of these are shipped fresh, but as orchards grow there will be plenty of waste. Anyhow, what about the windfalls? They are waste, and most of them can be dealt with by the jam factory.

A vinegar or cider plant can always be added later, but remember it is always easier to add to an existing business than to start several small ones. It is run cheaper, and there is less chance of any waste. Now I have, I think, fairly covered the ground as regards fruit.

But we will still dwell on that little word WASTE.

What else has it appropriated to itself?

WASTE LAND

and plenty of it. But why should this be?

It has cost as much to buy and prepare. It requires cultivating. It grows weeds, which you have to spend your time in clearing. Why not STRAWBERRIES instead? There is money in them. You can market them all, and moreover by growing them you are enabling us to sell more of your stone fruits, for the following reason—strawberry jam is the principal seller in the jam trade, and whether or not we secure an order for jam, more often largely depends on the amount of strawberry jam we are able to supply. It carries, so to speak, the other jams with it.

Again, there are Raspberries and Black Currants, and what I have just said applies equally to these. Another point, they are not affected by frost to the same extent as peaches.

The picking question may have a good deal to say to it. But if between you, you could get acreage, say five acres as a beginning,

(Continued on page 8.)

New Switchboard Here Any Day

Kellogg Company Assures Completion Within Contract Time.

Such excellent work has been done on the poles, cabling and wiring by the local telephone company's construction crew that the directors were beginning to feel that there might be some unpleasant interval or interruption because of the fact that they had not been advised of the shipment of the switchboard, instruments, etc. Accordingly an enquiry was sent by wire, the reply to which brought the information that the equipment had been shipped nearly two weeks ago, and assured the directors that the company would have the switchboard installed and the whole plant completed, ready to hand over to the company, within the contract date, February 15th.

Mr. Millikan and Supt. of Construction Webster of the Okanagan Company, and the latter's staff quit here last Saturday, and there was a general feeling, that, finding that our people could not be induced to betray the home company, they had quietly retired from the field. Only one man was left to gather in the unused instruments. The Okanagan Telephone Company's announcement on page 4 indicates, however, that they have not yet given up the fight. The boast is still made that they are little governed by the Municipality, and that their charter gives them privileges over which the Council has no control.

Even granting this, say their opponents, of what use are such advantages if they can get no subscribers, and, as far as can be learned, though every effort has been made to retain a foothold, the company has not been successful.

Freemasons' Ball and At Home

Charming Scene in Empire Hall.

Brilliant and successful are certainly the proper adjectives to apply to the occasion of the Ball and At Home given in Empire Hall last night by the Brethren of Summerland Lodge, A.F. & A.M. With the hospitality which is one of the most cherished traditions of the craft, it would seem that everybody had been invited and accepted invitations. To those who know, "the Masons' Ball" is one of the events of the Summerland year, and the charming scene of last night added fresh laurels to the social history of the local fraternity. The decorations of the large hall were simple but effective. Delicate drapings of pale blue and white were looped up all around and above the windows, the glare of the electric lights being pleasantly subdued with shades of the same hue, and set in a framework of red Oregon grape.

There was no formal reception of the guests, but everyone on entering was asked to sign the register of guests, an artistic little souvenir, which reflects great credit on the talent of Mr. Bert Harvey (I.G.). To enter the hall and begin to dance seemed the order of the evening, and there was a crowd on the floor before the grand march, the picturesque procession of all who danced. The scene when the ball was at its height was a pretty picture, viewed as a bright and "moving" one; some of the tolls of the ladies were quite charming and there was in them infinite variety.

At brief intervals in the dancing vocal solos were given by Mrs. G. M. Ross, Miss Clay, and Messrs. W. S. Kent and Alex. Smith, Miss MacLeod accompanying Mrs. Ross, nor must mention be omitted of the brief and witty little "address of welcome" given by the genial chairman, Dr. F. W. Andrew, W.M., Mr. K. S. Hogg, I.P.M., Mr. George M. Ross, treasurer, Mr. C. N. Borton, S.D., and Mr. J. Tait, S.S., were active in their attention to the guests.

Refreshments were served about midnight in the large room beside

Results Of Nominations

Messrs. Stark, Blair and Simpson Councillors By Acclamation.

Contests for Reeve and In Ward 4.

Four Candidates for the Three Vacancies on School Board.

All indications point to an entirely new Council for 1914. Of the old Board of five members, including the Reeve, only one Councillor is in the running. Reeve Thomson, Councillors Robinson and Dale all refused to serve again. Coun. Lewes, who during 1913 was Chairman of the Works Committee, is opposing Ex-Reeve James Ritchie for the Reeveship.

Nomination day passed quietly with a fair number of electors present at the nominations, and to listen to the speeches which followed. Adam Stark, Isaac Blair, and E. R. Simpson were all elected by acclamation. James Ritchie and H. S. Lewes were each nominated as candidates for the position of Chief Magistrate, and R. H. English and Robert Johnson are rivals in Ward IV.

There were four names for the three vacancies on the School Board. These were Dr. J. P. McIntyre, who has been on the Board for the past two years, J. E. Phinney, Robert Johnson, and James Dunsdon, Returning Officer, J. L. Logie, after pronouncing the three candidates who were unopposed as duly elected, announced that elections would be held on Saturday the 17th for Reeve, and Councillor for Ward IV., and for three School Trustees.

The assembly then called for speeches from the candidates and new members. The first to be called was Mr. Lewes, who, however, was not present.

Mr. Ritchie in response to a call said that before consenting to nomination he had given the matter a good deal of thought, and though at first refusing had finally consented, not wishing to withhold if he could be of any use to the people. He realized that there would be a good deal of work to do, and there would not be much money available. In some way means must be devised to provide a larger volume of water. Mr. Ritchie said he had left the Council two years ago thinking he was then through with it. However, if again elected he would use his best efforts which would principally be along the line of providing better water facilities, and he thought that with his ten years experience with water and irrigation systems he could carry through this work if it can be done with a reasonable amount of money.

Robert Johnson, candidate for Ward IV., was next called. He said that he was not wanting the job, and did not consider himself any too well qualified, but if elected would do his best, and would be willing to work even though not a speaker.

R. H. English, Mr. Johnson's opponent, then followed. Mr. English, who has made considerable sacrifice to become a candidate, said he had given the matter serious consideration before consenting. He has much at stake, and if he could do anything to better things he was willing to make the sacrifice. He had plenty to do at home, but with the hope of being of service to the community he had consented to take up the work, and there was some careful work needed. He would look upon remedying the water shortage, especially in Ward IV., as his special duty. There would not be much money available, but he believed if a concentrated effort by a united Council was made much could be done. It was for the electors to decide which of the two candidates, Mr. Johnson or himself, could better serve the public.

Gratification for the honor conferred on him by his appointment to the Council was expressed by E. R. Simpson, the new Councillor

the hall, at tables deftly provided and with effective floral decorations arranged by Miss Hopkins, who also was the excellent supper center, assisted by a number of the ladies.

for Ward III. The Council will have much to do, and if giving of his time and effort will accomplish anything Mr. Simpson pronounced himself ready to make this sacrifice for the good of the Municipality.

Neither Mr. Stark nor Mr. Blair were present to respond to a call for speeches from them.

Only one candidate for the School Board spoke, Mr. James Dunsdon, who said he was running because of the Garnett Valley School, which, he said, had not been getting a fair deal from the School Board. Only one member, the chairman, had visited the school since it was opened last fall. Mr. Dunsdon declared himself against this Manual Training business, and another thing I would like to see shut down is these rigs." Mr. Dunsdon gave the impression that he was wholly opposed to the consolidated school system, and would revert to the old order of things, and again adopt the small ungraded district schools.

Repeated calls from the assembly brought the retiring Reeve, C. J. Thomson, to his feet. Mr. Thomson, who has been a member of the Council since its inception, thanked all for the honor done him and for the support he had received while Chief Magistrate. He bespoke the support of the citizens for the members of the new Council, whom he pronounced good men, and who would find much hard work before them.

Mr. H. Sutherland addressed the meeting on behalf of the directors of the Summerland Telephone Company, saying, "You have taken two men from the company's board." He very much regretted to see them go, and took the opportunity to impress upon the people the necessity of giving their directors their fullest support and sympathy, and asked that no one forget his responsibilities. Other members would be selected to fill the positions on the directorate made vacant by the resignation of Messrs. Ritchie and Stark.

Mr. Logie, in explaining the reason why it was necessary for these gentlemen to retire from the Telephone Board said that they could not legally vote on matters relative to either telephone company, or be in a position to decide between the two companies should any dispute come before the Council while they held stock or were directors in one of the companies.

DEATH.

JAMES WILMOT ANGIN.

The slender thread which has held Dr. J. W. Angwin to this life for some days past was severed on Thursday night, when the brave sufferer passed away. His condition had been grave for some time, and the end though not unexpected, was still the shock that death ever is.

The funeral will be held from his residence to-morrow (Saturday) at two o'clock. Rev. R. W. Leo will conduct the services, assisted by Rev. S. Everton.

Rev. H. G. Estabrook came in from Vancouver on Thursday evening, and was with his brother-in-law, Dr. J. W. Angwin, at the last. Mr. Estabrook is returning to Vancouver on Monday morning.

OUR CLIMATE.

Under the heading of "California Climate," in a Const contemporary, recent temperatures at Arrowhead Hot Springs for three days after Christmas are quoted as maximum, 59.42; minimum, 46.28; mean, 52.85. We have not any Hot Springs here, but recent readings on the lakeshore are quite up to the proud boast of Arrowhead. How does 48 in the shade at three o'clock in the afternoon of January 6th compare with the figures quoted? Quite nicely we think!

NOTICE

Municipality of the Corporation of Summerland

TO WIT:

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Municipality aforesaid that a poll has become necessary at the Election now pending for the same, and that I have granted such poll; and further that the persons duly nominated as Candidates at the said Election, and for whom only votes will be received, are:

Surname	Other Name	Whether Reeve, Councillor or Trustee	For what ward	Abode	Rank, Profession or Occupation
Lewes	H. S. James	Reeve	—	Summerland	Fruit Grower Do.
Ritchie	R. H. Johnston	Councillor	4	W. S'merland	Livery Man
English	Robert Dunsdon	Do.	—	W. S'merland	Fruit Grower Do.
Johnston	James Johnston	Trustee	—	Summerland	Do.
Dunsdon	Robert McIntyre	—	—	W. S'merland	Do.
Johnston	J. P. Phinney	—	—	—	Merchant

Such poll will be opened on SATURDAY, the 17th day of January, 1914, at the Men's Club Rooms, Summerland for Wards I. and IV., and at the Council Chamber, West Summerland, for Wards II. and III., between the hours of 9 a.m. and 7 p.m., of which all persons are hereby required to take notice and govern themselves accordingly.

Given under my hand at Summerland, this 12th day of January, 1914.

J.L. LOGIE,

Returning Officer.

The Summerland Development Company

Has a few CHOICE LOTS left in their great Closing Out Sale. These are offered at the original price, in spite of the fact that the value of the land has been greatly enhanced through the activities of the District.

NOW is your chance to invest in additional Holdings; or, if you do not own an Orchard, to establish a Home in the Okanagan.

Both Improved and unimproved lands are offered. Those interested will be shown over the District at any time to suit their convenience.

Call on or Write:

The Summerland Development Co.
NARAMATA - B.C.

B.C. Fruit Growers' Association

Announcement of General Meeting.

The twenty-fourth annual meeting of the B.C. Fruit Growers' Association will be held at Victoria, January 21, 22 and 23.

Addresses will be given by the following prominent speakers:—

R. Robertson, Manager of the Okanagan United Growers, Ltd., Vernon, on "The Organization and Results of the Okanagan United Growers."

H. F. Sampson, Secretary of the North Pacific Fruit Distributors, Spokane, Wash., on "The Organization and Work of the North Pacific Fruit Distributors."

Worrall Wilson, General Council, North-Western Fruit Exchange, Seattle, Wash., on "Marketing North-Western Apples through the Organization of the North-Western Fruit Exchange."

W. P. Sawyer, Ex-President, Washington State Horticultural Society, Yakima, Wash., on "Growing and Marketing Fruit in the Yakima Valley."

The business before the Association is also of a highly interesting character. Resolutions have been received from various affiliated societies and from independent members calling for action by the Association, on the following, besides other questions:

Ownership of Land by Asiatics

Transportation Conditions.

Loans to Settlers for Agricultural and Horticultural purposes.

Control of Fire Blight.

Government Aid to Co-operative Buying and Selling Organizations.

Advertising B.C. Fruit in the Prairies.

Marketing Fruit in Carloads by Express.

Standardization of Box Packages.

In addition the various committees of the association will make reports of progress and results on many matters affecting the Fruit Industry dealt with during the past year.

All Directors, delegates, members and others attending the Annual Meeting are requested to purchase a single First-Class Ticket from the nearest C.P.R. Agent, and ask for a Standard Certificate. This entitles you to a Free Return Ticket.

All interested in B. C. fruit growing are cordially invited to attend the sessions, which will be held in the Convention Hall of the Empress Hotel, Victoria.

A religion that is not demonstrable is not founded on truth. Primitive religion healed the sick, cast out devils. "The works that I do shall ye do," said the Master, and do them in the way He did.

Rogers' Pass Tunnel Is Making Progress

Big C.P.R. Undertaking.

The C.P.R. are making rapid progress in their huge tunnel through Mount MacDonald in the Selkirk range. A pioneer tunnel was started in August last, and is now eight hundred and fifty feet in solid rock.

At the present time a temporary compressor is installed, but a new compressor house and machine shop is under construction and nearly finished. There will be three compressors, one with a high pressure. Everything will be run with air, trains, shovels, and drilling machines. D. C. Rose, superintendent at the east portal, expects there will be daylight seen through the tunnel within three years.

The tunnel will be a trifle under five miles long, and will have a 1,700 ft. approach on the west side, and a 2,600 ft. approach on the east side. It will lower the grade of the road 545 ft., will shorten the distance by nearly four miles, and will practically do away with dangers from snow slides. The portal of the tunnel will be 150 ft. wide by 40 ft., and it will be necessary to excavate 50 ft. before reaching tunnel grade. Before work can be started on the main tunnel the course of the Illecillewaet river for nearly a mile will have to be diverted some 900 ft. to the left of its present course. Over 20,000 cubic yards of concrete will be required for tunnel approaches and the tunnel proper.

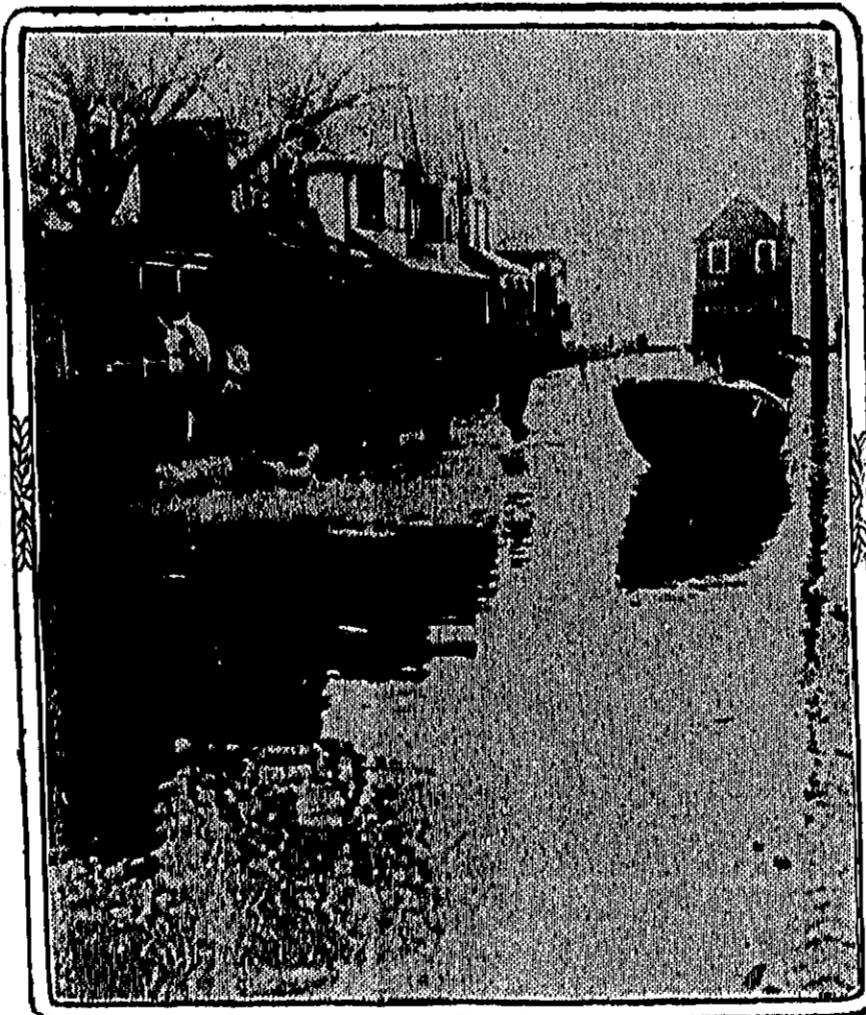

The camp is the finest on construction, with everything up-to-date like a modern hotel. The buildings have electric light, steam heat, hot and cold water and baths. The bunk houses are of two stories, with single rooms, which are all numbered, and this number the men are known by. On both ends, and floors are reading and writing rooms for use of the men. In spring it is the intention of the contractors to keep in these rooms daily papers as well as all up-to-date reading matter.

On the boarding house side is everything heart can wish for. A modern kitchen is built with a bakery. This has a concrete floor. On either side are the dinner rooms, and nothing is missed to add to the comfort here.

Wealth accumulated by other than honorable methods can never benefit the owner. Honest money begets true prosperity and happiness.

SHILOH CURES COUGHS & COLDS

Seabright, N.J., Suffering from Atlantic Storm

Italy alone is not the possessor of a Venice. At Seabright, New Jersey, the streets are literally filled with water.

Seabright became a veritable Venice when the terrible storm drove the waters of the Atlantic upon her. As soon in the photograph, boats were used for communication in the streets. In the background at the end of the street can be seen observed a house floating down the Shrewsbury River out to sea. The giant waves ate away the edge of the land, destroying hotels, magnificent residences with their fine lawns, and many miles of cement walks, before its fury was spent.

When the waters invaded Seabright, as shown above, it was that little city's second experience within a week. A week previous, a storm struck the city and did considerable damage. The citizens soon recovered themselves, and were industriously engaged in re-building the damaged sections when they received a second visitation.

Those whom the world agrees to call great are those who have done or produce something of permanent value to humanity.—Proude.

Peachland Notes.

We understand that preparations for a Scotch Concert to be given soon are under way.

Mrs. Roe of Naramata spent part of last week with her sister, Mrs. H. McDougall.

Mrs. Wm. Lupton of Kelowna was in town on Friday night for the Masons' At Home.

Mrs. John McLaughlan spent the week-end in Penticton with her daughter, Mrs. D. Kirkby, whom she accompanied home.

Mrs. Carson, wife of the Holiness preacher of Penticton, with her little daughter, spent last week in town with Mrs. J. Elliott, Senr.

Miss Dorothy Harrington of Summerland has been the guest of her uncle here for a week. She assisted with her violin at the At Home.

Mr. and Mrs. Featherstonhaugh of Westbank, and Mr. and Mrs. G. W. Lang of Summerland were in town for the At Home on Friday night.

A sale of some of the effects lately owned by Mrs. Dr. Robertson, was held on Monday afternoon, Mr. A. E. McKenzie acting as auctioneer. A good price was realized on everything sold, but there were several reserve bids.

Mr. John McLaughlan has been appointed a delegate to attend the Provincial Farmers' Institute, and Mr. Thos. Powell represents the local union at the Fruit Growers' Convention, both of which will be held at the Coast in the near future.

Nominations for the new Council took place on Monday, the members all being elected by acclamation. They are: Reeve, H. Hardy. Ward I., Councillor, Oct. Pope. Ward II., Councillor, Chas. Somerville. Ward III., Councillor, J. L. Vicary. Ward IV., Councillor, Geo. Keyes. No change on the School Board except that John Drought has taken the place of J. H. Clements.

The Women's Institute held its first meeting for the year on Tuesday afternoon in the Baptist Sunday School room. The chief business of the day was the election of officers, and the reports of the Secretary - Treasurer. A directorate of five members was elected by ballot, and these in turn appointed the officers for the year, who are as follows: President, Mrs. A. Town; Vice-Presidents, Mrs. J. L. Vicary and Mrs. Wm. Dryden; Secretary - Treasurer, Mrs. J. B. Robinson. The social committee remains the same except that Mrs. Miller has been appointed to fill Mrs. H. McDougall's place, she having resigned.

The Freemasons At Home and Dance on Friday evening was without exception the most important function of the season. The Orange Hall, where it was held, had been converted into a perfect hower of beauty. Dr. Buchanan, Mr. A. W. Miller, and Mr. A. Pope received the guests on entering, and extended to them the freedom of the hall. W. M., W. A. Lang occupied the chair in his usual witty manner. Music of a superior quality was furnished by the Kelowna Orchestra. The program was long and varied. We would like to mention especially the violin playing of Miss Dorothy Harrington, and Miss Olive Ferguson's recitation, "An Indian Maiden's Sacrifice," but the whole program was much enjoyed by all, only that considerable disappointment was felt when "the fourth degree, just as given in lodge" proved to be only supper, when so many hoped that some of the secrets of that most secret society were to be divulged. Nevertheless, this did not prevent their enjoying to the full the dainty and delectable refreshments served. At the close of the concert the hall was cleared for dancing in a remarkably short time, and the lovers of the "light fantastic" tripped it until morning. The Masons make excellent hosts, and we wish them one and all a long and happy life.

British Columbia's exhibit at the recent Chicago Land Show was so complete and interesting, any those who saw it, that it drew crowds of people who learned much about the Province and its possibilities. Lectures and moving pictures, in connection with the exhibits, did much to spread the fame of British Columbia.

College Notes.

Dr. E. W. Sawyer returned on Sunday from a trip to the Coast.

Last Saturday morning a number of students walked to Sandpiper lake, and spent a most enjoyable time skating. A fire was made and lunch served on the lake shore.

Last Sunday Henry C. Packham supplied in the place of John Marshall in the Peachland Baptist Church. William Armstrong journeyed to Vernon and conducted the Baptist services there.

The first meeting of the Y.M.C.A. for this year was held in the Chapel on Tuesday evening. Vice-Principal S. Everton gave a most interesting address on "The Four-Fold Standard of Efficiency." Two male quartettes were much enjoyed. Miss K. C. McLeod will speak next Tuesday evening.

Last Saturday night a game of basketball was played between a team composed of former students and the present College team, in the Gymnasium. The old students had had little chance to get together, and sorely lacked practice. They could not break the combination of good fast passing of the College team, who won with a score 27-8.

There are two basketball games scheduled for this week. On Friday night there will be a Penticton team up to play the College in the Gymnasium. The first league game between the Town and College will also be played in the College Gymnasium on Saturday night. In addition, on the latter evening there will be a game between the Town and College juniors.

VIGOROUS JOURNALISM OF THE OUT & OUT INDEPENDENT KIND.

People who really want a sturdily independent but frankly liberal newspaper, will appreciate Mr. Dougall's paper, the Montreal Weekly Witness. While some papers are notoriously and obviously at the beck and call of predatory interests, there are others that have maintained their independence, and notably that great national paper, the Montreal Weekly Witness, is a striking example. It has never been "under the thumb" of any person, or party or clique. It has never grovelled. It has never tatted. It has never pandered. The Witness is its unique self, loved by its friends, hated by its enemies.

Founded some sixty-eight years ago by the late John Dougall, the Witness has always been, and the Weekly Witness still continues to be, exclusively owned and edited by Dougalls.

During the past three generations it has conscientiously, devotedly, and very efficiently, served its country in many ways, notably its campaigns for Temperance, Righteousness, Religious Liberty, Education, and Lower Tariffs, looking towards lower cost and higher plane of living. If Canada is not yet enjoying to the full the benefits of these things, it is far ahead of many other countries in most of them, and this is due in no small measure to the stand, or, more correctly, the splendid campaigns of the Witness whenever opportunity afforded. The welfare of the Canadian farmer in particular has always been considered of prime importance by the Editor of the Witness, and the Witness has done yeoman service to agriculture.

Generations of our finest Canadian families have literally been "brought up on the Witness," as many of the most eminent Canadians will testify, and they continue its devoted admirers.

Besides the moral and political aspects of this great newspaper, it has attractive features embracing all the interests of the family, and a splendid farm and Poultry Department. Its short and serial stories are strong and fresh, and they alone are worth several times the price—one dollar a year. To bona fide New Subscribers mentioning the name of this paper, one trial year may be had for only 65 cents. The publishers are, as always, JOHN DOUGALL & SON, Witness Office, Montreal.

The Weekly Witness has now no connection with any daily newspaper, and is the healthier for it. Subscriptions taken at Review Office.

The days, weeks and years slip away like water in a running stream. Time's great clock never loses a moment. Relentlessly, surely the moments pass, and our eager hands are not able to detain them. We cannot keep back the flying years, but we can and should keep the blessings they bring.

The Square Grocery Store

COPY RIGHT 1910 BY C. ZIMMERMAN CO.

Measure

Value

To be "on the square" is so essential in our life that only those who practice it can hope to win out. Squareness means friendship between a store and its customers.

ON this rock of honesty has our growing business been built. You find sixteen ounces to the pound or four quarts to the peck, in your purchases—the quality and value of our groceries are as sure as the rising sun. The high standard of our customers is a safe guide to our methods.

It is nice to know with whom you deal, isn't it? We are always the same—the Square Deal Grocery.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JANUARY 16, 1914.

OUR ATTITUDE.

PERSONAL FEELINGS of animosity or its opposite have had no voice in dictating the policy of the Review dealing with the telephone situation. Those who make assertion to the contrary are such whose viewpoint does not allow consideration of the question purely on its merits. No individual injustice on the part of the Okanagan Telephone Company has rankled the Review to an attitude of hostility; nor does this paper hold a brief for the Summerland Company. It is a community grievance which we have been airing. When the Okanagan Company sought to exploit the telephone users of this town in order to recoup their coffers after heavy investment in a system scarcely mediocre, there was an immediate outcry. By absorbing the Lakeshore Company, the Okanagan corporation sought to get the business of the entire Valley in the palm of its hand, with a view to squeezing out larger dividends. It even attempted to hustle the government long distance lines out of business, and to grab the telegraph traffic, to further its selfish end. Southern lake towns were set by the ears when existing rates were pushed up with no improvement to service, and though apologetic promises soothed other places, at least for the time, Summerland saw their transparency.

The local telephone company was organized to champion the interests of the community, and to consolidate opposition to the palpable impositions which the big corporations rashly endeavored to foist upon this municipality. In backing the attempt to curb the grasping propensities of the Okanagan Company, the Review has simply fulfilled its function of a public mouth-piece, and champion of its readers' rights. Personal feelings play a very insignificant part in the affairs of this municipality, and certainly have been sunk altogether in this present telephone question. We refute the mendacity which seeks to insinuate narrowness of motive as a weak explanation of the nest of hornets which has been stirred up about the district head of the Okanagan Telephone Company. The Review stands, in this question, as always, for the greater community advancement. Hence it supports the Summerland Telephone Company, and hence its attitude of hostility to the Okanagan Company.

IT IS INCUMBENT upon every ratepayer to go to the polls tomorrow and record for the men who are, by the findings of independent judgment, most fitted to fill honorably and usefully the public offices which are being contested. The men who do not go near the polling stations on election days have no right to be heard in protest when municipal matters are dealt with not according to their views. The intelligent exercise of the franchise is a remedy that would overcome many of the ills that so grievously interfere with the functions of popular government. Conversely, a carelessly cast vote is worse than refraining altogether, for a man elected by such voting is in a false position. Vote early, vote conscientiously, and follow up your vote with a constant municipal interest.

NO FIGURE, after so prominent a connection with the affairs of this community as C. J. Thomson has had, should be permitted to withdraw from the public eye without some open acknowledgment of indebtedness being expressed for the unstinted gift of time spent in the common interests. Mr. Thomson was elected to the first Council that governed Summerland after its incorporation as a district municipality seven years ago. He has had a place on every council since that time, and it is fitting that his retirement should be from the chair of the reeve ship, the highest office in the gift of the municipal electorate. A more genuine and sincere record of public service no one in this town can show. The great regret is that such men must perforce sever themselves from the guardianship of the municipal welfare. May other men of similar abundant public spirit be raised up.

APPROXIMATELY the total immigration for the year ending December 31, 1913, was 417,709, against 395,804 for 1912, an increase for the past year of about 6 per cent. Of British there were 156,873, as against 145,859; of United States arrivals there were 115,805, as against 140,143, and of those from the Slavic countries and other districts, 145,031, as against 109,802. This represents for 1913 an increase of 3 per cent. in British arrivals, a decrease of 17 per cent. in United States arrivals, and an increase in arrivals from other countries of about 4 per cent.

NEW WOMENS' INSTITUTE.

A large membership characterizes the new branch of the Women's Institute which has just been organized.

At the inaugural meeting held at the High School building the officers were elected and will serve as follows:

President, - Mrs. J. L. Hillborn.
Vice-President, - Miss Spencer.
Secretary-Treasurer,
Mrs. J. J. Mitchell.
Mrs. G. W. McLaren will act with the above officers on the Board of Directors.

SEX PROBLEM SETTLED.

No collection of school howlers should be considered complete that does not contain the following gem perpetrated by a budding genius the other day in a public school not a hundred miles from Fraserburgh in Scotland:

Teacher — "How many sex are there?"
Boy — "Three."
Teacher (surprised) — "Three? Name them?"
Boy (quickly) — "Snags, pokes, and bags!" — Fraserburgh Herald.

B.C. Apples In Old Country

Gold Medals At Every Show.

For the first time since British Columbia commenced showing her banner apples at the great exhibitions of the Old Country the display from this province has received gold medals at every show where any medals at all were awarded for fruit.

This is the information Deputy Minister W. E. Scott of the Provincial Department of Agriculture brings back with him from England. Mr. Scott explains that it is the most ordinary thing, so to speak, for British Columbia to win gold, silver and bronze medals at various Old Country shows in past years, but at the close of 1913 to capture a gold medal—the premier honor—at every exhibition is a record of more than ordinary importance.

Brief despatches during November and December told of the successes of the provincial fruit exhibit, one car of which went from Okanagan Orchards, and the other car from the remainder of the province, all of the fruit being assembled at Vernon. It was not until the return of the Deputy Minister, however, with his resume of the trip that a clear idea was given of the unchecked triumph of the big red apples from British Columbia.

KEPT IN COLD STORAGE.

The cars were shipped from Vernon in October and reached Liverpool in record time. At Liverpool the apples were placed in cold storage, and from time to time shipments were sent to the various agricultural and horticultural fairs to be staged by representatives of British Columbia, sent in advance by the Deputy Minister to England.

GREAT PUBLICITY GIVEN.

"I am delighted with our success," says Mr. Scott. "Great interest was taken in the fruit, and a host of papers, including such publications as the Illustrated London News published views of the apple display. This publicity should do us a great deal of good. At the conclusion of the various shows our apples were sold to fruiterers upon condition that they made window displays. We furnished them with British Columbia literature, and probably in this way supplemented to a great extent the desirable advertising obtained at the fairs."

"It is my opinion that the results to come from staging fruit exhibits in England will be important. It is certainly quite evident that British Columbia is prominently before the people of the mother country, probably more so than any other province of the Dominion of Canada, and as soon as the money tightness is over capital will flow from Great Britain to this province in increasing quantity. The interest in British Columbia which I saw manifested everywhere is a good augury for future immigration, particularly to our agricultural sections."

APPLES FOR KING.

Six boxes of the very best apples went to King George with the compliments of the Provincial Government when the exhibition shipment was made to the Old Country last autumn, said Mr. Scott; four boxes were presented to Prince Arthur of Connaught, and gifts of apples were also made to the Duchess of Argyll and other titled and well-known personages. The apples for the King came from Summerland, Penticton, Vernon, Kelowna, Salmon Arm, and Nelson, one box from each. The King made a gracefully worded acknowledgment of the gift, and further showed particular interest in the British Columbia fruit upon the occasion when he opened the Smithfield Ialington Show.

EXPERT ADVICE ON PEAR BLIGHT.

Mr. J. G. Hall, Plant Pathologist at the Washington Experiment Station, writing on the disease known as pear blight, says, if the disease is severe in the orchard, it will be advisable to reduce the amount of water to a minimum in irrigated districts, and in case the orchard is in clean cultivation, it should be put into a sod of some sort, for a time, so that the growth will be checked and hardened.

Great care should be taken in the fall to see that there are no diseased parts left in the orchard to

Summerland Poultry at Penticton.

The success of some local poultry fanciers at the first Penticton Poultry Show, held on Tuesday and Wednesday of this week, is evidenced from the subjoined list. Most of these prize-winning birds were successfully exhibited at the Summerland Show of recent date. The enterprise of the exhibitors, which has brought dual credit upon themselves and upon this town, calls for commendation.

PURCHASE OF LIVE STOCK.

A meeting of the Pure Bred Stock Association is called for January 21st. This meeting is not only for the members of this association but for all citizens who wish to borrow money from the government, through the Fruit Union for the purchase of live stock. It is important that any one wishing to secure stock should be present at this meeting as definite plans must be made at once for the procuring of this money from the government.

Satisfactory arrangements have been made by the Union whereby twenty per cent. of the price of the stock purchased must be put up by the individual. The maximum amount allowed to each subscriber is \$500. The Union will hold a lien on the live stock to the amount of money borrowed. We hope the citizens will attend this meeting so as to learn all particulars and be prepared to state what amount of money they wish to borrow for the purchasing of the live stock.

The association will also take orders for animals for those wishing to purchase with their own money.

R. C. Lipsett, Pres.

Color In Apples

Evidence in support of the old opinion that sunlight is the chief agent in developing color in apples is afforded in a bulletin from the Pennsylvania Experiment Station, on the fertilizing of apple orchards.

Various dressings were applied to the trees in order to ascertain their respective effects upon growth of wood, yield and color of fruit. Farmyard manure and nitrogenous artificial manure alone or in combination notably increased growth and yield, but reduced color. The latter is attributed to "delayed maturity and a diminished light supply to the fruit, due to an increase in the density of the foliage. It is added that experiments proved that exposure to sunlight after picking increased redness by more than thirty-five per cent., while some of the same lot of fruit stored in darkness showed practically no deepening of color. The conclusion is that "maturity in sunlight on the trees is undoubtedly the great influence affecting redness in fruit. Phosphates, while increasing the yield, did not affect decisively either growth or color. Potash was not tried alone and in combination it showed a wonderful effect on growth, yield and color alike, the results in two similar experiments being contradictory.

produce spring infection. Frequent inspection trips should be made through the orchard during the growing season, and any signs of the disease promptly removed. These trips may be made every two weeks with good advantage.

Pear blight can be controlled if prompt, careful, and thorough attention be given it by all.

St. Andrew's and Caledonian Society

A Grand Scotch Concert

will be held in the
College Gymnasium, on Friday, Jan. 23rd,
at 8 o'clock.

Solos, Duets, Quartettes, Instrumental Music, Readings.

Among those contributing a splendid local program will be:

MRS. GEORGE M. ROSS; MRS. JAMES CLARK; MRS. G. W. LANG; MISS M. McLAREN; MRS. G. W. MORFITT; MISS BEATRICE LANG; MISS J. HEWITT; MESSRS. T. G. BEAVIS; J. G. ROBERTSON, D. MCKELLAR; G. FISHER; T. RAMSAY; ALEX. SMITH; JAS. O. SMITH.

Accompanist

MRS. D. L. SUTHERLAND.

ADMISSION 25 cents.

CHILDREN 10 cents.

Maio Hutton and The University

Major Hutton, one of Summerland's respected citizens, who is spending a few weeks in Victoria, has evidently come into considerable prominence through his discussion of what should be the ideals of the proposed B.C. University. The Week, a Victoria publication, declares that the saying that it takes a man many years to become known in a community must be consigned to oblivion, for it is possible, even in old-fashioned Victoria, for a man to become known in a day.

Thus has fame overtaken one, E. E. Hutton, a graduate of Oxford University thirty years ago and now a farmer, but assuredly no "hayseed." Mr. Hutton has sprung into fame as writer of two letters to The Colonist, the first of which the editor attempted to answer, the second of which he wisely left alone. Rarely has the editor of The Colonist shown greater discrimination, for Mr. Hutton is a man with whom it is impossible to take liberties. Moreover, you cannot silence a twelve inch gun with a four inch. In his first letter, Mr. Hutton clearly shows that the ideal of the President of the British Columbia University is the American State University, and that this is simply a glorified School of Technology. In the opinion of the editor of The Colonist, Mr. Hutton was supercilious, because he had the questionable taste to suggest that the home-making department of the University would be incomplete if it did not include a post-graduate course in the suckling of infants. If Mr. Hutton was serious, he was logical; if he was merely flippant, he was hardly supercilious. Unfortunately, the editor of The Colonist, being unable to deal with Mr. Hutton's argument, fell back on the standard Canadian method of personal abuse. This is the stock in trade of nearly every Canadian controversialist. Mr. Hutton knows it, and does not hesitate to say so. He does, however, touch the core

of his subject when he says that the weakness of President Westbrook's program is "the lack of proportion evident in the official scheme and its relegation to an entirely secondary place of what we consider the paramount function of a university." As Mr. Hutton dates his letters from the Union Club, it is obvious that Cincinnati does not always stay with the plough. Victorians will hope that so versatile a writer will visit the city a little oftener and make frequent literary contributions to the columns of the press in order to add to the gaiety of nations.

Miss Eula Watson is taking the duties of Miss Jean McLeod for a few days at the Okanagan Telephone Company's offices. Miss McLeod, we are sorry to say, being on the sick list.

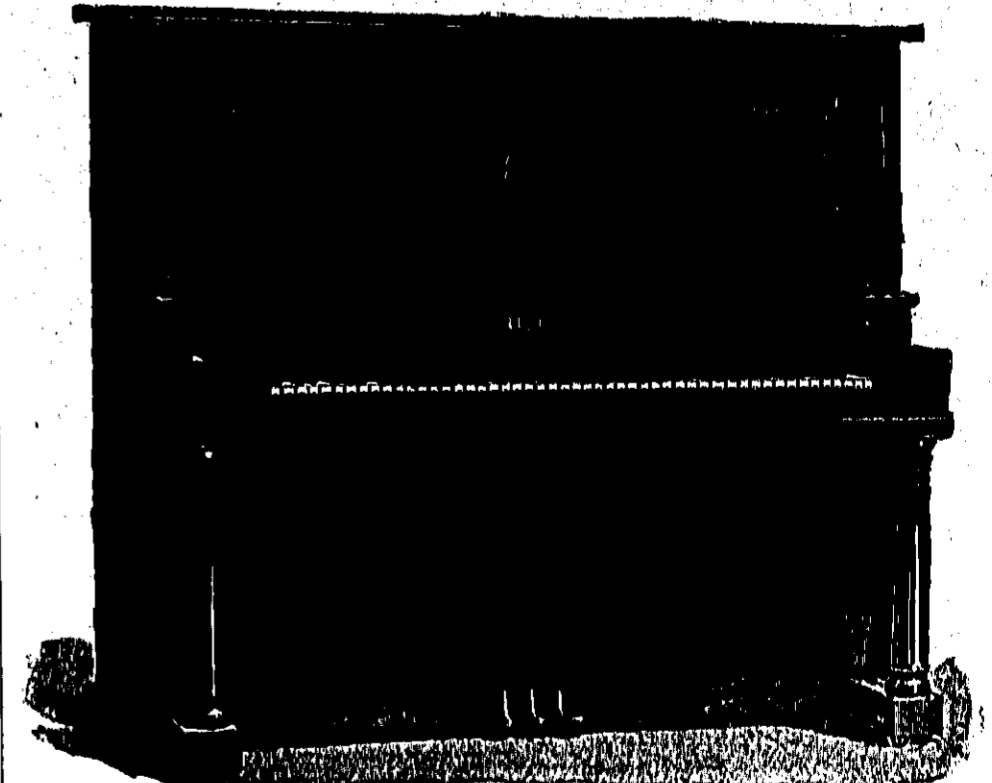

C. J. Thomson who is leaving tomorrow (Saturday) morning on his voyage to Australia is making Honolulu his first port of call, and his trip will be in every sense a "round the globe" journey.

TO THE PUBLIC

Re Okanagan Telephone Co.

No doubt before reading this item a great many of you have formed various opinions as to why we removed our force of men who have been in your city for some time on Sunday's boat. In order that the public may not be misled by different rumors or misleading statements we take this means of placing before them the facts. On account of work created such as raising crossings etc. by track laying and the rapid construction of the Kettle Valley Railway it has been necessary that we move our men temporarily to Penticton. Happening as it has at this strained moment it would appear to some as though we had intended giving up our movement in Summerland. However this not being the case we wish to announce that upon completing work in Penticton our men will again return to Summerland and carry out the work as outlined by the Company. adv.

Drug Co.'s Piano Contest Closed on Wednesday.

THE BEAUTIFUL UPTON PIANO AS PICTURED ABOVE IS IN ALL PROBABILITY THE PROPERTY OF MR. GEORGE CRAIG.

Our congratulations to George Craig! While the final count has not been made all indications are that Mr. Craig is the successful candidate for the Drug Company's \$400 piano prize. For some time there have been practically only three candidates, and up to the end there seemed some uncertainty as to the quantity of votes that would be turned in at the last moment, and friends of all three were hopeful of success. According to last week's announcement Mr. Craig was in the lead, and while the votes registered this week have not been counted we are given to understand that Mr. Craig's lead has been well maintained.

FOR SALE—Bean hand sprayer, in good condition. Will sell reasonable as I am buying a power sprayer. Isaac Blair, West Summerland.

FOR SALE—Fresh cream, butter, buttermilk and skim milk. Apply L. B. Ottley or phone White 14.

A Romance of Two Wests.

A romance in which the Old Country and that lovely corner of it, Devonshire, and British Columbia are united comes to us with the marriage of Lady Elizabeth Northcote, the beautiful daughter of Lord Northcote, of Upton Pynes, Devon, and Mr. Robert Randolph Bruce. The happy couple were married on January 6th, at Upton Pynes, and are now on their way to Canada. It is fitting that the "Last Best West" and the "Westernland" of England should be linked thus happily, and the store is a pretty one. The courtship has been a long one, for Lady Elizabeth was the daughter of a fine, old family, possessed of great wealth, her suitor an obscure young Scot. Lord Northcote in so many words long ago told his daughter's lover to "make good" first and win his wife afterwards. This Mr. R. R. Bruce has done, and the wedding bells rang out in the New Year for a happy bride and bridegroom. Mr. R. R. Bruce is the son of the Rev. Charles Bruce, for fifty years minister of the Parish Church of Glenrennes, Scotland. Robert Randolph graduated at Glasgow University. He secured an appointment on the engineering staff of the C.P.R., remaining with the company for ten years, during which time he was one of the pioneers in the West in charge of railway construction.

When the mining boom of 1895-7 broke out, he took the fever, and acquired some mining properties. It was whilst prospecting in the Selkirk that he first got into the Columbia Valley, and afterwards he became so fascinated with its beauty and prospects that he acquired vast tracts of land there for the purpose of colonization.

Randolph Bruce has played in his quiet way a considerable part in the development of the Canadian West, and in particular the Windermere district of the Columbia Valley, and he is now director of many Canadian Companies. His interests are extremely varied, and he admits to having been "very successful" in his business operations.

Lady Elizabeth Northcote is very pleased with the prospect of Canadian life, for it is the intention of the bride and bridegroom to take up their residence at Invermere, on the banks of Lake Windermere, B.C.

I.O.O.F. INSTALLATION OF OFFICERS.

Okanagan Lodge No. 58 met in Empire Hall last Friday evening, January 9th, it being the visit of the District Deputy Grand Master for this district, to hold joint installation between the Summerland and Penticton Lodges. The proceedings opened at nine o'clock with the usual business. After installation, the initiation of candidates then followed by the degree team consisting of 22 brethren of the local lodge, in the presence of Past Grand Master Webber of Vancouver who is also a member of the Penticton Lodge, who who congratulated the lodge here on having the best degree team in the Valley.

Lodge closed in due form at one o'clock a.m., retiring to Elliott's Hall, where tables, set to accommodate sixty, were amply and daintily set by Mrs. Thos. Figgis.

The toast to the King was honored by singing the national anthem, and Brother Webber, P.G.M., also responded. Bro. Glass, D.D.G.M. of Penticton made reply to the toast of the "Grand Lodge." A number of others spoke, sang or recited when being called upon by the chairman, Bro. K. S. Hogg. The meeting then broke up by singing "Auld Lang Syne."

J. H. Jackman, who has made himself quite a nuisance in the community during the last few days, and has been making every effort to establish himself here in the meat business, has been twice arrested this week on the charge of vagrancy and making himself a public nuisance. On the first occasion he was warned that he must obtain employment or get out. As he still persisted in his soliciting for loans, etc., and annoying the public generally, he was arrested on Thursday and placed in jail.

R. H. English, J.P., this morning gave him a hearing during which the prisoner was very abusive. He was ordered to be kept in jail until the arrival of the boat this evening when he must return to Penticton from where he came, or again suffer arrest.

Passing Events: Social, Personal, &c.

Rev. C. A. Britten of Penticton will preach at both Baptist services on Sunday next.

Prof. W. H. A. Moore has resumed his classes at the College, and wishes this fact made known to all his local students.

Methodist Church services will be held on Sunday next as follows: at 10.30 a.m., Rev. R. W. Lee will preach in the Methodist Church. At 3.30 p.m. Mr. Lee will preach in the Prairie Valley School house, while the evening service will be held in the St. Andrew's Church.

Dr. John and Mrs. Montgomery, who have for some weeks been living in Alex. Steven's cottage, left this morning for a visit to Victoria and other Coast cities before returning to their home in the Dakotas. Professor J. A. Montgomery, Housemaster at Okanagan College, is their son.

The Mock Parliament meets tonight (Friday) in the Campbell Hall, at eight o'clock to discuss the Asiatic Question. All are invited to attend the sessions of this institution, which are conducted along serious lines, and the arguments pro and con cannot fail to illumine most minds on this very live question.

Basket ball votaries are being especially well provided for this week-end. This evening (Friday) in the College Gymnasium a quintette from Penticton will try conclusions with the team of the College. To-morrow evening the first league struggle in the rivalry of Town and College will be played out, preceded by a game between the junior teams. Both these games take place in the College Gymnasium.

The Government Telegraph Office at Kelowna has advised the local Government office that a free messenger service has been instituted there, and that any person wishing to talk from Summerland to a Kelowna citizen may do so without extra messenger charge. As Kelowna's business district is concentrated, and all within a short distance of the telephone office, there need be but little delay in obtaining connection.

There is on view in the window of the Jewelry Store on Shaughnessy Avenue the silver trophy which Mr. J. Rowley has generously presented for competition between the basketball teams of the Town and Okanagan College. The cup is of plain silver, and has attached a miniature basketball net fashioned of silver wire, in which a ball reposes. There is every year the keenest rivalry between the two teams, and this appropriate trophy will give the hard struggles that are fought out from time to time a definite end.

Posters are out announcing the Scotch Concert, with which the Summerland St. Andrew's and Caledonian Society will commemorate the Burns Anniversary. The Concert will take place at the College Gymnasium on Friday evening next, the 23rd inst., commencing at eight o'clock. An extensive and entirely local program has been arranged for, consisting of vocal and instrumental music, and readings. A nominal admission of twenty-five cents will be charged. See advertisement on page 5.

One of our lady citizens, believing that she could be of service to our municipal schools, consented to nomination as a candidate for the School Board. It was not until the last moment that it was learned that she was ineligible because of an error which crept into the revised school laws. In stating the necessary qualifications, the law specifies that the candidate must be a male British subject. It is claimed that the word "male" was inadvertently inserted, and it is probable that this will be changed at the next session of the provincial legislature.

The next meeting of the Young People's Guild of St. Andrew's Church next Tuesday evening will consist of a literary program of a very high order. The general subject for the evening is Canadian literature. Miss Skillen of Okanagan College writes on Dr. Drummond, and gives readings from his works. Mrs. Daly will write on Canadian women in fiction. Patriotic songs and choruses will be given. The program is under the competent direction of Mr. Forsyth, the chairman of the Literary Department of the Young People's Guild.

Dr. E. W. Sawyer will leave on Monday for Vancouver, there to transact some business in the interests of the College.

Mrs. D. Lloyd-Jones arrived on Wednesday night's boat on a visit at the home of her parents, Mr. and Mrs. James Gartrell.

Mr. and Mrs. A. S. Hatfield and Mr. & Mrs. O. E. Tomlin of Kaleden came up from that town on Friday in Mr. Tomlin's auto. They expect to return on Saturday.

Will any friends who are good enough to remember us with any news items please accompany any such notes mailed us with their own signature. This is essential to acknowledge of such being bona fide.

Presbyterian services will be held in St. Andrew's Church next Sunday morning and in the Methodist Church in the evening. Mr. D. M. Kellar will sing at the evening service. Mr. J. Daly will conduct both services.

There have been rumors current for some days of the amalgamation of the two local lumber yards. Enquiry last night brought the information from Mr. Wm. Ritchie that though there was some deal pending nothing final had been arranged.

The annual meeting of the Lord's Day Alliance will be held in the Methodist Church next Monday evening, 19th inst., at eight o'clock. Rev. Dr. Huestis, the Alliance Secretary for B.C. and Alberta, will be present and speak on the important work of the Alliance.

Mr. O. Elvigion, who has been in charge of the office of Carlson & Company here, for some time, left Summerland on Monday of this week, and was driven to Penticton. Mr. Elvigion expects to proceed to Spokane after a stay of uncertain duration in the town at the foot of the lake.

J. L. King, who is at present working in Meadow Valley, has won the white horse which was put up for raffle by J. Gillis. The drawing took place on Monday evening last, and the winning ticket proved to be number seventeen. Mr. King thus secured for fifteen cents a horse worth approximately one thousand times that amount.

The First Annual Meeting of the Summerland Pure Bred Stock Association will be held in the Men's Club on Wednesday, January 21, 1914. Business—Receiving Reports. Election of officers, and consideration of buying livestock, by any who desire, from the local Fruit Union, taking advantage of the government loan policy.—C. N. Borton, Secretary.

R. V. Agur, who is a member of Executive of the B.C. Fruit Growers' Association, leaves to-morrow for Victoria to attend a meeting of the Executive. He will be followed by G. J. C. White, the local delegate, who leaves on Monday. The Convention sessions will be held on the 21st, 22nd and 23rd, to be followed by those of the Farmers' Institute and the Agricultural Association.

The Young People's Guild of St. Andrew's Church held a highly successful social gathering in the Campbell Hall on Saturday evening last. Members and friends of the Guild gathered in considerable numbers, and the evening was passed most enjoyably in music and games customary to these occasions. Dainty refreshments were provided in plenty, and capped the gathering with a happy feeling of satisfaction.

The annual meeting of the Women's Auxilliary of St. Andrew's Presbyterian Church was held at "Sunnybrae" the home of Mrs. G. W. McLaren on Thursday Jan. 8th. There was a large attendance of the ladies of the congregation. The annual reports were of a most encouraging nature and the society looks forward with hopefulness to another year of successful effort. The following officers were elected for 1914:

- Hon. Pres. - Mrs. Alex Fraser;
- President - Mrs. R. H. English;
- First Vice-President - Mrs. J. J. Mitchell;
- Second Vice-President - Mrs. J. Stewart;
- Secretary - Mrs. G. W. McLaren;
- Treasurer - Miss M. G. Mann.

Shiloh
The family remedy for Coughs and Colds.
Small dose. Small bottle. Best since 1870.

Mrs. George Gartrell is visiting relatives at Vernon.

G. A. McWilliams returned to Vancouver on Wednesday after spending a few days at his home here.

Miss J. Rothwell returned to Summerland last week-end, and has resumed her work at the Central School.

Mr. J. L. Logie returned on last night's boat from Vernon, where he has been spending two days on K.V.R. arbitration business.

The regular monthly meeting of the Baptist Women's Missionary Society was held on Wednesday at the home of Mrs. J. C. Wilson.

Mrs. George Grey entertained quite a large party of friends at a competition tea last week-end, her guests much enjoying the simple but ingenious little devices arranged for their amusement.

The theatrical company which was scheduled to play "David Harum" here last week became "stranded" at Armstrong, and finding themselves with barely sufficient funds to reach Vancouver, decided to turn back to that city.

A. F. Cotton, formerly with the Bank of Montreal here, and recently with the Albemarle branch of the same institution, is spending his vacation here. Mr. Cotton arrived last Thursday and will probably leave the first of the coming week.

The picturesque and roomy residence being built by Nelson Bros. for Mr. F. J. Nixon on its pleasant site near the College Gymnasium, is rapidly approaching completion, and by summer should be one of the most attractive of the new houses around.

We very much regret to hear that Mr. W. C. Kelley has had a slight relapse, and is again confined to his bed. Mr. Kelley had resumed his office duties after Christmas, and in the press of business has rather overtaxed his strength, and will have to take more rest.

A good basketball game was witnessed at the College Gymnasium on Friday evening when the College played a team of ex-students of town. A crowd of students and town boys turned up and applauded, and generally made things lively. The College was victor after a fair fight and good play on both sides.

News of Mr. T. E. Clay's arrival at Liverpool has been received by his family, and the traveller reports a very rough voyage and considerable suffering as the result. Mr. Clay was probably the most thankful passenger on board the "Corsican" when she pulled into the quiet waters of the Mersey.

There recently came to the Editor's desk a long communication, addressed Summerland, December 31st, which was evidently intended for publication. It was signed "One Who Lives Here And Is Well Known." As the letter was not signed by the correspondent, it cannot, of course, be published.

The affairs of the Summerland Telephone Company go ahead briskly in the outlying parts, and stress is being laid on getting all through as quickly as possible for the more distant districts. At the Agur residence in Prairie Valley the telephone is now installed, and others will soon be in. Gangs of men are busy with poles and road work.

Mr. J. M. Robinson and Mr. and Mrs. R. Campbell Robinson, travelling on the "Corsican" thoroughly enjoyed the trip, notwithstanding the fact that when leaving Halifax so severe a storm was encountered by the liner that the pilot was unable to return to land and made the complete voyage to Liverpool, an unprecedented happening in his long experience as pilot.

Miss Gladys Limmer, who has for two years served as mail clerk in the Post Office, and latterly as Government Telegraph operator as well, has accepted a position with the Government as operator at Penticton. Miss Limmer expects to assume her new duties on February 1st. The Penticton position has been vacant since the resignation of Miss Alice McDougald, who is shortly to be married. Miss Limmer, who has always been courteous and attentive in her dual capacity at the Post Office, and is a general favorite among the young people of our community, will be greatly missed.

"THE MISSOURI GIRL" IN SUMMERLAND.

There is an abundance of good laughs in "The Missouri Girl." Zeke is the rarest of country rubes, whose silence inspires mirth as well as his speech; while Daisy, "The Missouri Girl," who is "not at all green," though from the country, also provides endless fun. Together their antics move the most solemn face to smiles. On Tuesday evening, the atmosphere of humor surrounding the early part of the play made it difficult to appreciate fully the serious import of the murder of old Silas, and the melodramatic discovery of the murderer and forger, Philip Swettenham. Daisy's "mammy" was a hard working woman who talked in "blue streaks" when she got started, and, as Zeke said, she usually managed to "get started."

It was a performance of greater merit than last season, and the audience that scarcely half-filled Empire Hall had a good evening's entertainment. Two improvements might be suggested—heating the hall, and commencing earlier than nine o'clock.

Pound Notice.

The following animals have been impounded and unless previously claimed will be sold at the Summerland Pound on Saturday, January 17, at two o'clock p.m., in accordance with the by-law governing stray animals.

No. 1. Buckskin Mare, white strip in face, four white feet, brand — left shoulder.

No. 2. Black Horse Colt, one year old, no brand visible.

JOHN DALE,
Pound-keeper.

Jan. 11, 1914.

Packing Schools

The Packing School Classes will commence on the 2nd of February: Campbell's Hall first week; packing house second week. Mr. Gibbs of Kelowna will be instructor. Oregon box will be used.

Intending pupils please apply at once to

JOHN TAIT,
99-16 Secy. Farmers' Institute.

Municipality of Summerland

DOG TAX

All Owners of Dogs in the Municipality are notified that the above tax for 1914 was due and payable on the 2nd day of January.

The amount is \$2 for each dog over six months old, if paid on or before 1st January, after which date the tax is \$2.40.

Extract from By-law, Clause 8:—

Any person owning or harboring a dog over six months old, without having paid the tax, according to the provisions of this By-law, or violating any of its provisions, shall be guilty of an infraction of this By-law, and subject to the penalties contained in the Penalty By-law No. Four, upon conviction before any Justice of the Peace.

(Sgd.) F. J. NIXON,
Collector.

Municipal Offices,
West Summerland, B.C.
2nd January, 1914. j9-23-30

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

Meeting Called.

A meeting of the men and women of Naramata will be held in the basement of the church at eight o'clock on Monday evening next, the 19th inst. This meeting is called for the purpose of considering the formation of an organization which will lend itself to the advancement of the mental and intellectual life of the town. If sufficient interest is shown it is probable that one or two good debates will be held during the next two months, and the way paved for an active organization to begin work along similar lines early next autumn. Will every citizen who desires the best for his community come out on Monday evening and talk the matter over. Bring your ideas with you.

The Old England

JULIUS W. A. BLOCK,
NARAMATA, B.C.
Mackinaw Coats (black and brown), Mackinaw Shirts and Pants, English Wool Whipcord and Corduroy Pants, English Flannel and Flannellette Shirts, Dr. Neff's Underwear, Harvey's Sweaters, English Hats (hard and soft), Fox's Puttees (Ladies and Gentlemen's), Golf Caps and Aviator Pull-down Caps, White Evening Dress Waistcoats and Ties, Cecil Pipes, Pear's Soap, Fruit Salts, Glycerine Jubes.

IF YOU NEED COAL

WRITE THE
Okanagan Lake Boat Co.,
NARAMATA,
or Telephone Peach 7 Summerland.

We are distributors of TABOR COAL, which we are able to highly recommend. A Carload is due in a few days, and it will be to your advantage to place your ORDER NOW.
You will save money by doing so.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

Current Events OF Town & District

Visitors from across the lake this week were Mrs. Edgar and Mrs. Angove who spent a day with Mrs. H. J. Wells.

The manager of the Summerland Bank of Commerce, Mr. F. F. Hanington, spent Friday here on business and pleasure combined.

Miss Bessie Mitchell, of Penticton, accompanied by a friend, Miss Catherine Stewart, spent the week-end here with her parents.

After a short stay at Vancouver where she was summoned to the bedside of a sick relative, Mrs. William Armour has returned to her home here.

Arriving on the boat on Tuesday night was Miss Muriel Dunt, of Vancouver, who has taken up a position as stenographer at the Trust Company's offices.

Messrs. R. T. Buxton and Beveridge, of Vancouver, have visited the town during the week, and stayed at Hotel Naramata. The former has friends here whom he looked up.

Evensong of the Anglican Church was read at the Naramata Church on Sunday evening, by Rev. D. E. D. Robertson, who also held a celebration of Holy Communion here on Thursday.

A short holiday and rest in this health resort is being spent by Mrs. F. A. C. Wright, of Garnett Valley, with her two little sons and baby, who are guests at the Naramata Hotel.

The students of the Packing School are very busy this week and the conductor of the classes, Mr. H. C. Buchanan, a fruit expert from Vernon, has fourteen pupils. Mr. Buchanan is staying at the Hotel Naramata.

Work on the K.V.R. flourishes in the most remarkable way for this time of year; which after all is supposed to be mid-winter. It is expected that fifteen miles of the new track will be laid before the end of the month, and the camps have been working recently under the most favorable conditions.

Attractive and effective in the extreme will be the Hotel Naramata electric flash sign which is being placed in the hotel grounds. In bright white light, the letters spelling "Hotel Naramata" will flash their invitation over the water from the verge of the lake. The electric sign will be a picturesque addition to the town lights which have recently been growing steadily in number.

Is the rumor that we hear true—that the captain of the "Rowena" is seriously contemplating taking up his permanent abode aboard? If the gallant little ferry is not permitted to stray six yards from the wharf on the peaceful waters without its "mounted escort," something regarding board and residence will certainly have to be provided for the skipper and crew on the spot!

Mrs. J. W. S. Logie, who has been staying near Kelowna since New Year's Day, has now left the Valley for Seattle. Mr. Logie went up the lake to Kelowna, and accompanied his wife as far as Sicamous. The collic, "Champion," should have gone to Seattle with his beloved "missus," but distinguishing himself, we understand, by attempted cat hunting near Kelowna, was dispatched back by express to his master in disgrace!

Have you seen the latest things in watches, the Buttonhole Watch? A fortunate bachelor of our town has returned from a holiday trip, the proud possessor of the neatest and cutest little designs for telling the time we have ever seen! It came from Geneva—that is to say, originally!—and is a gunmetal stud which inserts its bright little gold face through the buttonhole of the wearer's coat for all to tell the time. The owner, of course, has to arrange his vision upside down. But that's a detail.

Shiloh 25¢
"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough

Mrs. Foster, wife of the United States Consul at Ottawa, is here on a visit to her daughter, Mrs. Carol Aikins.

Another camp has closed down this week, Davenport & Grey's having finished the work in their particular section.

Mr. Augustine, of the Svea Hotel, during his recent compulsory visit to Penticton, did a good stroke of business with Chief of Police Roche at that town by selling him a fine grey horse.

Mrs. Brons, with Miss Baker, of Penticton, was a visitor at Hotel Naramata for a few days. Now that Griffin & Hunt's camp is closed Mr. and Mrs. Brons are resident at Martin's camp.

Dan McKay is laid up at home for a few days and is quite lame as the result of a sprained knee. The accident was the result of slipping while simply stepping over some obstacle on the road. Mr. McKay falling heavily, sprained some ligatures in his knee, and has to rest entirely for a while.

Enterprise forges ahead all the time! Harold Endacott, of the Naramata Livery Stables, is installing a fine Pelton water motor machine in his store for chopping feed. Machinery always spells progress and the more machinery in a new town, the nearer that good day after to-morrow.

A preacher of promise has been discovered in Mr. A. B. Richardson, B.A., the new teacher at the Naramata School. Mr. Richardson has had some years' experience in the Mission field, and on the invitation of Rev. W. P. Bunt preached an excellent sermon at the Methodist service on Sunday which delighted his hearers. We hope to hear more from Mr. Richardson.

There was novelty and brightness about the Whist Drive given at the Unity Club on Monday night by Mrs. J. Schreck and Mrs. D. I. Walters. The tables were decorated and gay little original verses about success and failure lay on each, while previous to the beginning of serious play, cards for a guessing competition full of amusing local allusions were dealt out. Mrs. H. J. Wells and Mr. Harold Steers won first prizes, and Mrs. M. Manchester, ladies' consolation prize, similar comfort being reaped by Mr. Barkwill.

A new settler from the Old Country is setting sail for Naramata on the 29th of this month. Dr. F. J. Paton, who already possesses a lot of ten acres here, hopes to arrive early in February and will build and take up his residence on it. Dr. Paton, has, we hear, qualities which will make him an acquisition to the social life of our town.

We hear that arrangements are afoot for a very smart and delightful little affair to be given at the Hotel Naramata—a Tango Tea. Not to have been to a Tango Tea in these days is to brand yourself as quite "out of it," and our up-to-date little town has every intention of being right "in it." There is a dance expert resident in Naramata, and he will probably be able to initiate us into the mysteries of the dainty steps of this picturesque dance which has captured all Europe and is now the rage in Ottawa and Toronto. So look out for our Tango Tea. By the bye, I have just seen the Tango color. It is a splendid shade, a mysterious blend of red brown with a deep splash of orange.

Two Mishaps.

There was a bad runaway up behind the benches the other day. A four-horse team from Gilbert & Brandt's camp took fright, and started on a mad rush downhill. The wheelers fell and the wagon passed over them, inflicting rather serious injuries on one. It was a good thing in one way that the headlong flight of the horses was arrested by the wagon, as there was nothing else to stop them on their career towards town, where the entry of the four terrified and powerful animals might have resulted in very serious consequences. The driver was happily unhurt.

Another accident that occurred in the early daylight hours one morning this week was a very unpleasant experience for a teamster from one of the camps. Alighting from his wagon as he drew up on the wharf, the man did not see in the dim light how close was the edge of the wharf, and plunged headlong into the very cold water. He was able to get to land alone before assistance came, but his horses and himself had some nervous moments.

President Wilson A Poor Sailor.

The President of the United States must needs be a good sailor when it comes to being tossed on the turbulent waves of national and international developments. It does not necessarily follow, however, that he can also weather the variations of a water trip. The above

picture shows Woodrow Wilson in an attitude of "wateful waiting" on his way to meet John Lind. The President shows plainly the fact that his sixteen mile trip out into the Gulf of Mexico to meet the "Chester" is not agreeing with him.

ATLANTIC LOBSTERS FOR B.C.

Experiments in transplanting Atlantic oysters to Pacific coast waters have been sufficiently successful to encourage the Department of Marine and Fisheries to undertake similar experiments with lobsters. A number of shipments have already been made and others will follow. It will be necessary at the outset to ascertain at what points a suitable environment can

be found for lobsters, and until this has been done the success of the effort will be more or less in doubt.

As the Atlantic lobster is much superior to the California variety, their successful transplantation to the Pacific will add very markedly to the value of the fisheries of British Columbia, and will still further augment Canada's premier position in the lobster markets of the world.

Farmers' Institute.

There was a very full attendance at the meeting of the Farmers' Institute on Friday night, the crowded room being excellent testimony of the live interest taken by our citizens in local growth and progress.

Mr. H. J. Wells presided, and much interesting matter came up for discussion. It was noted that there is a general tendency to handle all questions of roads, water, feed supply, etc., in a thoroughly well organized manner on a co-operative basis.

It was recorded that a carload of hay has been purchased through the Armstrong Fruit Union, from members of that Union, and that the load of feed grain recently ordered has arrived and has already been partly distributed.

The Institute delegate to the annual Convention next week, Mr.

J. H. Pushman, is charged with several important questions concerning local matters of moment to bring up before that meeting at Victoria.

Two important new lines of steamships are to be placed in service out of Vancouver early this year. The Merchants' and Shippers' Steamship Company of San Francisco will place some big steamers in commission between Vancouver, Puget Sound, and Australian ports. Three new 10,000 ton boats will be provided. A new Japanese line is building two 16,000 ton steamships for trans-Pacific business, but pending their completion it is intended to place some smaller steamers on the Vancouver run. It is expected by the Japanese that they will obtain a share of the silk business now handled by the Canadian Pacific liners.

B.C. Apples Again Win Important Awards.
Hon. J. H. Turner, Agent-General in London for B.C., cabled Sir Richard McBride on the 14th November that the biggest awards offered had been won by British Columbia, in open competition at Sheffield and Edinburgh, for display of apples.
Mr. Cunningham, B.C. Fruit Inspector, states that B.C. apples are in big demand, and that 100 carloads could have been sold now, had they been obtainable.
The United States fruit growers filled the orders. B.C. fruit growers and prospective fruit growers, act promptly, and enlarge your orchard plans.
We can supply you with all kinds of fruit tree stock to suit the special climatic conditions of each district.
Our prices for fruit tree stock this year are cheaper by nearly one-half, than heretofore offered to B.C. fruit growers, viz., \$8 to \$12 per 100; all grown in our own province, such as Jonathan, Spitzenberg, Baldwin, Northern Spy, and more than 20 other choice varieties.
Patronize home production, and make our province the fruit granary of the West.
Don't forget the beautifying of your home plot. In our stock of over \$100,000 we can meet the most cultured and aesthetic taste, to make home environments a centre of beauty. Evergreen stock, shade trees, roses, flowering shrubbery, bulbs, flowering plants etc. Catalogues mailed free on application.
Holly for Hedges, up to 12 inches, \$20 per 100; Privet, 2 1/2 ins., \$30 per 1,000; Laurel, 2 to 2 1/2 ins., \$20 to \$30 per 100.

Pleasant Evening Reveries.

This Column is dedicated to our tired mothers as they join the family circle at the close of day.

A MIRROR OF YOURSELF.

"If you wish to see a perfect mirror of yourself," said an experienced teacher, "look at your class." And not less faithfully is every mother mirrored in the prevailing tone and temper of the family over which she presides. Let her be critical, impatient, hard to please, and how surely will the same manifestations appear around her, and discord on the music fall and darkness on the glory! The sunny face of childhood will be overcast with clouds and the ringing laughter will be silenced and the pall of gloom and sadness cover the family roof tree. On the contrary, if she is sunny and patient, you will see only beaming faces around her; if her voice is pleasant and cheery no dissonance will grate upon your ear within that charmed home circle. If perpetually she turns the cloud to find the silver lining, or soars above it to the undimmed sunlight of eternal calm in a confiding trust in the great Father of us all, her children, her husband and her friends will, unconsciously, perhaps, but none the less certainly, drink in the same blessed spirit and rejoice in the same divine warmth and brightness.

NOT FRUITLESS.

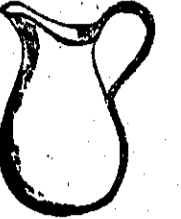

A man who had spent a busy year sat down for a little retrospect. He fell into a moody frame, and in a tone of regret said: "I have worked all the year through, but there is hardly anything to show for it; my work has no permanence." But a good spirit was beside him and she said: "My dear, do you remember those flowers that grew right out there? Those roses, petunias, heliotropes, geraniums, and most of all that beautiful *Ilium auratum*? Well, they are all gone. None of them had any permanence, you cannot even find a stem to tell that they existed. And yet they were beautiful while they lasted, filling the air with fragrance, pleasing the eye of all who saw them, and they are remembered still by many persons to whom they were messengers of gentleness." And the moody shadow seemed to break away from his brow, giving place to a smile and an air of satisfaction. But later in the day, after all the work was done, and she was weary, heaving a sigh, she said, sadly: "My life is just a round of the same duties, and seems to be wholly fruitless." "It was his time now, and looking up cheerily he said: "Not so, my dear. Do you see that tree over there, that noble oak? Well, it has stood there these many years, more than you and I can tell, and its life has been almost wholly without variety. Each summer it is crowned with foliage and then each autumn the winds sweep it all away. But the birds sit there and sing, the cattle gather under it on sultry days and children collect about it to picnic on their holidays. There is nothing of all that there now, but what a help has the old tree been, and how many pleasant things could be told about it—how noble an object it is, also, in the wintry landscape!" The parable was not without its meaning. The good mother returned the smile of the benignant father, and together they sang at their family worship of the loving kindness of the Lord.

To encourage and protect the halibut fisheries of the British Columbia coast, the Biological Board of Canada decided at its annual meeting just held to conduct a scientific investigation into the habits, food supply, and complete life history of the halibut. Following the completion of this work a plan will be adopted to conserve the supply of this food fish in the North Pacific.

It's up to you either to take things as they come, or turn your back and let them moulder by.

Some wives feel the need of an excuse for being married, and some spinsters for not being.

TIMELY ADVICE

MR. W. E. SCOTT, the Deputy Minister of Agriculture, who has been in England in connection with the various exhibitions of British Columbia fruit, has given some interesting advice to intending settlers in this province. Here is what he says to a father who wishes to send his son to British Columbia to farm:

"I should first of all tell him not to think of buying a farm for the boy without having seen it. I would advise the boy to go to an Agricultural College for either a one year's course, or, preferably, for three years. He would then be fit to go on the land. The cost of such training is very cheap. After a three years' course at the college a young fellow will not only have acquired a good knowledge of the practice and theory of agriculture, but he will have acquired a knowledge of local conditions and local methods. If he will take a four years' course, he can take a degree and may be sure then of employment by the government as an expert. Premiums to farmers are bad business. A boy if good for anything, even if inexperienced, is worth his board. If a man buys forty acres, I would recommend that five be planted with fruit trees, and thirty-five be given up to mixed farming. Let him keep some cows and poultry, and grow seed and root crops and small fruits. He will in this way be more sure of success. If his fruit fails he can turn to his other produce and will be able to bear the loss. I cannot say too emphatically or too often—'mixed farming.'"

FROM LOWRY'S LEDGE.

The Kettle Valley Railway owns no townsites along its line.

Princeton will soon have electric lights.

New Zealand exports domestic products to the amount of \$111 per capita, and Canada only \$40.

In November there were 26 cases in the police court at Kelowna.

In this world not only well wishing but well doing is a colossal virtue.

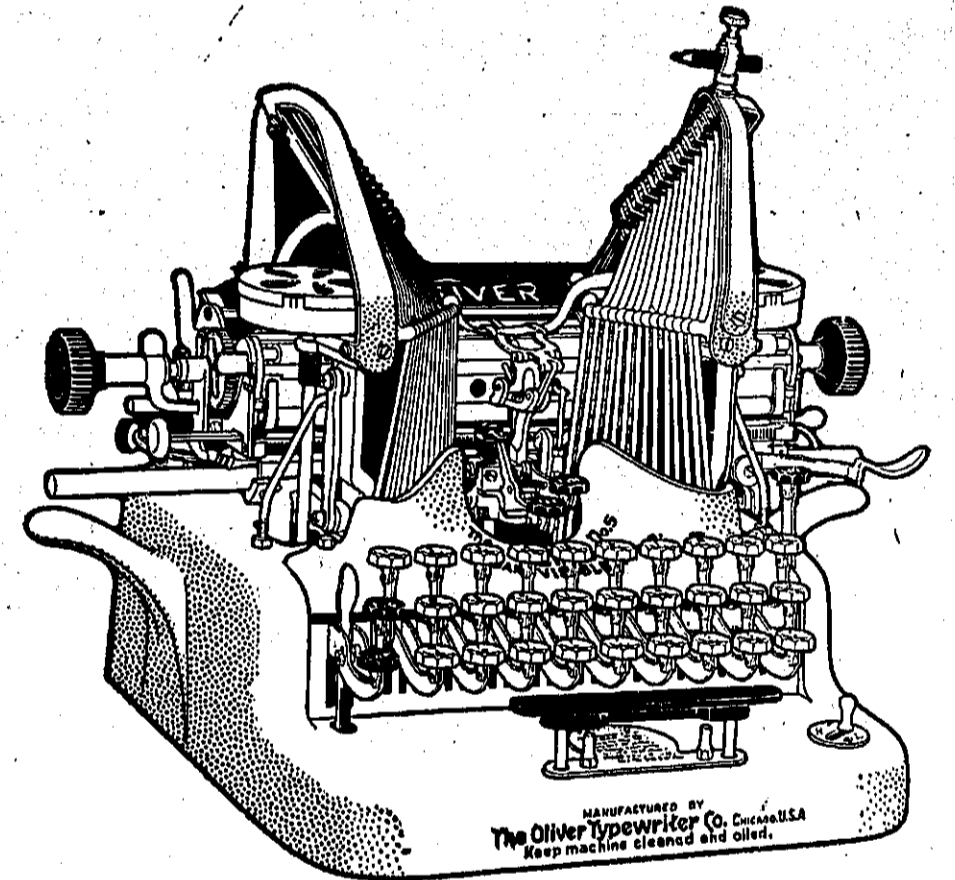

The cement works at Princeton have been closed down for want of coal. The *Chesaw News* remarks that this is a queer predicament for a \$3,000,000 industry in a coal camp.

Four men and two dog teams have left Edmonton for Fort McPherson with several sacks of mail. It is the longest overland mail route in the world, as Fort McPherson is 2,100 miles north of Edmonton.

YAKIMA FRUIT GROWERS TAKE UP MIXED FARMING.

The apple growers of the Yakima Valley are preparing to engage in the production of beef, pork, and butter as side lines. They have been advised by the Pullman State College and the U.S. Agricultural Department experts to adopt the new plan of orchard management known as the sod system, and are sowing their orchards to alfalfa and clover, instead of following the dust mulch system as heretofore. The scientists claim that the sod surface retains soil moisture better than the dust mulch, and also increases the humus. As a result, the apple lands have been producing heavy crops of hay for the last two seasons. The orchardists must use this hay, and a boom in cattle and hog raising is the result.—Fruit and Farm.

C. J. GARNETT SPEAKS.

[Continued from Page 1.]

the factory would organize the picking. It is easier for us to do it from a centre, than for individual growers to arrange for small lots separately.

ABOUT VEGETABLES.

But a little further; if you can't all grow strawberries, what about vegetables? We will take these. I will give you a rough list: TOMATOES in small quantities. The cannery can take most of these, also green corn, cucumbers, peppers, squash, rhubarb, especially the last. Then there are potatoes, onions, cabbages, cauliflower, carrots, turnips, beans, horseradish, celery, parsley and mint. Surely you can grow some of these? I do not want you to go in for all necessarily, some can take one, others take another. I may mention here that I recommend anyone intending to go in for vegetables to come and see me first, I can then arrange so that equal proportions are grown, and you do not overlap each other.

It appears to me that in the case of young orchards a lot of this could be done, and a grower who has otherwise to wait several years for his orchard to come into bearing, and consequently having many outgoings and no incomings, could do much better staying at home and attending to his orchard, at the same time making some money by growing small fruits and vegetables rather than working out, and neglecting his own land.

Again apple trees are planted 30 ft. between rows, and it is often the case that a row of peaches are planted as fillers between them. Personally, I believe this is a bad plan, peach trees require different treatment to apples, they are rank growers, and I believe do the apple trees harm, besides at the best the peach crop is a very uncertain one, and do peaches pay? I am firmly of the opinion that if those were taken out and vegetables, small fruits, and cover crops were grown in their place, you would find it paid far better.

A GOOD FRUIT.

There is one other fruit which I have not mentioned and which I want to bring to your notice. The loganberry is easy to grow. When once planted it will last many years, is a good cropper, four tons to the acre being an average yield. There is a good market for them, they can be sold fresh, dried, or as jam, and I have had a big demand for them. They cost less to pick than raspberries, being a much larger berry, and consequently more weight is picked in the time. This last remark also applies to strawberries for the same reason.

Now, gentlemen, if you think over what I have said to-night, don't you feel that possibly the factory which I represent is just such an institution as you require, and will require more and more as time goes on. Is it not worth supporting, not by resolutions and words, but by deeds.

CASH PRODUCERS.

If we can turn waste fruit and waste land into cash producers are we not worth more than a mere glance? You will ask, well, what do you want of us? We want this, we want you to look on us as more than the dump heap for what you can't sell elsewhere. We want you to grow small fruits and vegetables for us, to give us the handling of your No. 1 fruit as well, then we will take your No. 2 fruit, which is at present waste and absolutely lost to you. As regards price we will give you at least as good a price for No. 1 as any packing house in Summerland, in addition we will give a fair price according to the dried fruit market for No. 2. Mind, we do not want all the fruit in Summerland, that would be ridiculous, but at all events we want a share, and we want the good with the inferior, that is only fair. Please forget the idea that just any rubbish does for a jam factory, because it is not so. Of course it is impossible at this date to give definite prices, but our principle will be a good market price for the best, and a proportionately lower figure for No. 2. This is only fair to the grower who takes more care with his fruit.

Remember the points about all this are that fruit too ripe to ship and which is now lost will bring in cash, but that we cannot guarantee to take No. 2 when No. 1 is not brought.

THE QUESTION OF FINANCE.

I might here touch on the question of finance. Up to now we have been running on small capital for the simple reason that we did not want to launch out till we had

experimented and seen what was the best way of dealing with the question of handling fruit generally. We shall, I expect, from information received, be up to our limit of authorized capital in the spring, namely \$25,000, and we intend to increase the authorized limit very considerably, so that if we find the support from the growers is likely to exceed our present capacity, we can increase to meet the demand. This is one of my objects in laying our future plans before you, as neither plant or capital can be assembled in a moment, and therefore if there are any growers who have decided to give us a trial this season I should take it as a personal favor if they would tell me so, or come and see me, as it will help me very considerably. This is not a very entertaining topic to speak on but I have tried to make it as interesting as I can. If any grower wishes to know more, or I can be of any service to anyone, I hope they will come and see me at my office, and I shall be only too pleased to give what information I can. Remember one little thing, WASTE NEVER PAYS.

Mr. Garnett's reference to loganberries caused P. P. Johnson to give his experience in growing this fruit in Washington. He found them very prolific and steady producers, and in great demand at profitable prices. The plants are set out in rows six feet apart and fifteen feet apart in the rows, with six canes to a hill. They do not bear the first year.

After a general and informal discussion on a number of points pertaining to fruit crops the assembly resolved to hold a meeting at an early date to discuss what varieties to select in top-grafting during the coming spring.

"WORLD WIDE."

Canada's Leading Literary Review.

World Wide is a choice selection of articles and cartoons reproduced from leading Journals and Reviews reflecting the current thought of the Old and New World.

To the busy man who wishes to keep in touch with the world's great events World Wide is invaluable. Trained experts select for him the really best articles of the week from the world's best publications. Almost every article you wish to keep or send to a friend.

World Wide, started twelve years ago, has found its place on the study table. Preachers, teachers, writers, and thinkers generally hail it as a most welcome companion. As a pleasant tonic—a stimulant to the mind—World Wide has no peer at the price, no equal among the journals of the day.

As someone has said, "World Wide is a feast of reason—an intellectual treat."

Principal Peterson, LL.D., McGill University, Montreal, says: "I am sure World Wide ought to have a highly prosperous career before it."

President Trotter, D.D., of Acadia University, N.B., says:

"I look eagerly for your weekly collection of good things, and recommend the paper warmly to my friends."

Professor H. Rhodes, West River, N.B., says:

"World Wide is a delight to me. Read every word."

S. E. Dawson, Litt.D., Ottawa, says:

"I take a good many papers, but World Wide is the only one which I read without skipping."

"World Wide is wonderfully well edited."—Joseph Ryan, Notary, Cranbrook, B.C.

"Almost every article in almost every issue you feel you would like to put away among your treasures."—Editor, Telegraph, Welland, Ont.

"Permit me to add one more appreciation from the Far West. World Wide is a mine of information. Good to have, hard to do without."—John Nicholls, Editor Sun, Granfell, Sask.

On trial to New Subscribers—Three months for only 25 cents; Twelve months for only \$1. Regular rate, \$1.50.

World Wide is published by JOHN DOUGALL & SON, Witness Block, Montreal, Canada. Try it for a year.

Subscriptions taken at Review Office.

THEY WERE WILD.

"Yes," said the cynical old sea captain, "when I was shipwrecked in South America I came across a tribe of wild women who had no tongues."

"Good gracious!" exclaimed a listener, "how could they talk?"

"They couldn't," was the reply, "that was what made them wild."

INVESTMENTS

From a business standpoint it is generally granted that money invested in Stocks returning 7 or 8 per cent. interest is considered good. We are offering a much higher percentage on money spent in merchandise in our CASH STORES.

COUPON BOOKS, to facilitate buying, are issued in prices ranging from \$5.00 to \$50.00 and sold at TEN PER CENT. CASH DISCOUNT, thus a \$50.00 book sells for \$45.00, being equivalent to over ELEVEN PER CENT. Interest on the Cash Investment.

Only a CASH SYSTEM in a business can accomplish such a good return, because bad debts are eliminated, and Customers will not have to pay towards the cost of running a Credit System with its accompanying expenses.

Did you ever stop to figure out what you are paying interest for NOTE accommodation, or what you lose in discounts by having your accounts charged? THINK IT OVER. IT IS WELL WORTH WHILE.

CO-OPERATION WILL HELP FARMERS.

Speaking the other day at the closing session of the Corn Exchange National Bank's corn show and agricultural conference at Philadelphia, Mr. Gifford Pinchot made a forceful and progressive plea for co-operation on the part of the American farmer in the distribution and sale of farm products. He is well qualified to give advice on the matter, being recognized as a leading authority on agricultural economics and thoroughly conversant with agriculture in the United States and in Europe. In

his opinion the great waste of food stuffs on this continent was due almost entirely to a defective system of distribution. That waste can only be eliminated and the high cost of living lowered through organization on the part of both farmers and consumers. The reason, said Mr. Pinchot, why the farmer is getting about one-half of what the consumer pays is because he is not organized, and the farmer will remain at the mercy of who ever chooses to use him until he unites with other farmers in his community in a plan of co-operation for the proper marketing and delivery of his products.—Toronto World.

Election Results

Close Contest In Ward Four.
Entire New Council.

Other than the contest for Councillor for Ward IV., the voting for which was held at the Men's Club, there was not at any time on Saturday last what might be termed a keen fight for either the Council or School Board.

Ex-Councillor Lewes' supporters for his election to the Reeveship put up a good fight, and got out every possible vote, but at no time during the day was there any doubt as to the result. Throughout the day it was an even guess as to whether R. H. English or Robt. Johnson would win in Ward IV. Just before the close of the balloting Mr. English announced himself beaten by a very narrow majority. The count showed 34-32 in favor of Mr. Johnson.

Down town the balloting for Reeve was 116 for Ritchie, 40 for Lewes. At the Municipal Office, 100 to 26, making the total ballots cast for James Ritchie 216, for H. S. Lewes 66, a majority for Ritchie of 150.

The members of the new Council are therefore as follows: Reeve, James Ritchie; Councillors, Adam Stark, E. R. Simpson, Isaac Blair, Robert Johnson.

SCHOOL TRUSTEES.

But little interest was taken in the voting for School Trustees. Dr. McIntyre was returned with a substantial majority, leading the polls, followed by R. Johnson and J. E. Phinney. James Dunsdon's total ballot was considerably below Mr. Phinney's. The newly elected Trustees, McIntyre, Johnson and Phinney, together with Trustees Shields and Caldwell, will comprise the new School Board.

THE BAPTIST PULPIT.

On Sunday morning and afternoon an interesting preacher will occupy the Baptist pulpits, Mr. S. V. Ware, the Okanagan Agent for the Bible Society. Mr. Ware is a young English evangelist of attractive personality, and a splendid record of work, and it is hoped he may be able to remain here for a month or so. With Mrs. Ware, who is not very strong and anxious to test the healing qualities of our beautiful climate, he is occupying Mr. Kelley's cottage near the Presbyterian manse.

Council Holds Two Sessions.

Much Business Transacted Monday Morning and Thursday Afternoon.

Reeve Appoints Committees. — Present Staff All Re-Appointed.
Supt. Mitchell Considered Best Man For Superintendent.

All the members of the new Council, with the exception of Mr. Blair, were promptly sworn in on Monday morning by Municipal Clerk Logie, and the first meeting called to order by Reeve Ritchie. Coun. Blair, for some unlearned reason was not present.

The first business in order was the naming of committees and appointment of officers for the year. Couns. Stark and Simpson were appointed to the Finance Committee, and Couns. Blair and Johnson the Works Committee, the first named on each being chairman. The Reeve is ex officio a member of both. J. L. Logie was re-appointed Clerk and Treasurer, F. J. Nixon, Accountant and Collector, and Miss Pollock, Stenographer, all at their present salaries. Dr. Andrew was appointed Medical Health Officer at a fee of \$25, and R. H. English, Police Magistrate, also at \$25. In addition to this, Mr. English receives the usual fee charged against each case heard. The appointment of a superintendent and police constable was deferred until the Council had determined on what its policy would be.

Constable Graham reported that a complaint had been made to him that wood was being cut on a road allowance in the Woodlands townsite.

Communications were then read. C. J. Bentley, who was present to speak to his letter, complained of the serious lack of water at his orchard near the northern limits of the municipality. He informed the Council that some 3000 feet of 3 inch pipe which at one time supplied a good volume of water for his and adjoining properties, had become practically useless, and urged that a new pipe be put in before the water was turned on in the spring. An appointment was made for the Reeve and one or both members of the Works Committee to inspect that district with Mr. Bentley.

George Hampshire asked permission to remove some peach and apple trees on the street allowance in

front of his Hillpark Gardens lot, which was granted.

Clarence E. Craig applied for water connection for the west half of block 25 lot 472, which he stated he had rented, and purposes building greenhouses thereon. The connection was granted.

FINANCIAL OUTLOOK.

The condition of municipal finances as left by the previous Council, was then looked into, and will have further attention before a policy is outlined. At the end of 1912 there was a balance of \$13,000 due the Bank of Montreal. This limited the borrowing capacity in 1913 to an additional amount of \$6,557, these loans being made against unpaid taxes. During 1913 the \$13,000 was reduced to \$4,100, and would have been reduced by \$2,000 more had it not been for the expenditure on the dams at head waters. This balance of \$4,100, together with last year's borrowing, makes a total loan of \$10,657 which the new Council must assume, and a communication was read from Mr. May asking the Council to pass the necessary motion assuming this liability. Legally the Council are permitted to borrow \$22,000 against unpaid taxes, but this is cut down by the amount carried over with the bank from last year, thus limiting the new Council's borrowing powers to about \$11,000.

The auditor's report which was attached to the financial statement was received and adopted. The figures were not analysed but the statement will be looked into in detail at a later meeting. The Reeve was requested to arrange for the publication of the statement.

J. J. Blewitt, D. L. Sutherland and the Telephone Company each made application for electric light. These were all referred to the Board of Works.

TELEPHONE CO.'S FRANCHISE.

An agreement, drawn up by Mr. W. C. Kelley on the lines of the

First Session Of New School Board

Dr. J. P. McIntyre Appointed Chairman

The new Board of School Trustees as constituted for the current year met in an initial session on Tuesday morning last at the Municipal Offices. Dr. McIntyre continues his connection with the Board by a further two-year term, and Messrs. R. Johnson and J. E. Phinney took their places in virtue of the polls on Saturday last which gave them respectively second and third positions for the three vacancies on the Board. Trustees Shields and Caldwell were also present at Tuesday's meeting.

After the newly elected members had been sworn in, the appointment of a chairman was made. By a unanimous vote Dr. J. P. McIntyre was accorded this honor, and assumed his position at the head of the table.

Mr. J. L. Logie was re-appointed Secretary at a salary of \$10 per month as heretofore.

Mr. J. L. Hilborn, president of the Farmers' Institute, was in attendance, and tendered a request to the Board that the Institute be permitted the use of the spare room in the High School building for regular meetings. He mentioned the possibility of an arrangement with the Women's Institute of that section whereby chairs might be provided for the room. It could not be seen by the Board that such use of the room would interfere in any way with the school arrangements, and permission was accordingly given by motion to both Institutes to make provision for their own lighting and heating.

(Continued on page 8.)

American Red Cross Vaccinating Refugees.

The Mexican War, and its ravages, its hardships and its cruelties are being accentuated by that other engine of death—disease. The Mexicans have already suffered from every conceivable condition and now the much dreaded smallpox has made its appearance. The above picture shows a scene at Presidio, Texas, across from Ojima, the Mexican city recently captured by the rebels. The picture shows the American Red Cross vaccinating a refugee, owing to the discovery of smallpox in the federal camp. All refugees, federal and rebels, women and children are given an injection of the serum as soon as they make their appearance in the American settlement.

franchise granted the Lakeshore Telephone Company was presented for the consideration of the Council. After being adjusted to suit both parties this will be presented as a by-law to be voted on by the ratepayers. Messrs. Andrew, Melior, and Sutherland were present in the interests of the Telephone Company, and after the agreement had been read through it was then taken up clause by clause and carefully considered. Having learned by experience, the Council was particularly cautious in guarding the interests of the Municipality, and at no time was the possibility lost sight of—though an admitted improbability—of the local company getting into control of a few rather than the citizens as a whole as at present. Reeve Ritchie watched each clause carefully, and Clerk Logie was equally vigilant in the interests of the Municipality. In considering a penalty clause for unsatisfactory service, which read the same as that for the Lakeshore Company, that under certain conditions the plant would be taken over by the Municipality at a valuation, the Council demanded that a further penalty be stipulated. It was decided to insert also that the Company's franchise might be cancelled, the Reeve remarking that he would have given a good deal had this same penalty been included in the Lakeshore franchise. The new franchise includes arrangements for arbitrating disputes, and as finally revised by the Council would seem to protect public interest as fully as would be necessary in granting a franchise to a close corporation entering upon the telephone business for the purpose of making money on its investment. Practically the only concession and probably the only clause that will be much criticized is the granting of free electrical power for charging the company's storage batteries. According to the original, if granted, the Municipality would be compelled to supply this power during the ten years' life of the agreement. As revised, this arrangement can be terminated at the end of every year on the Council giving three months notice.

TO WORK ON SOUTH MAIN.

Reeve Ritchie informed the Council that he had gone over the south main ditch, and believed that with a team and side-hill plow for two or three days a practical road could be graded on the other side of the ditch from one end to the other, along which, after a fall of snow,

sand and gravel could be drawn from a gravel pit at the western end. This could be done easily, provided the ground did not freeze, and the Reeve asked permission to have this work undertaken at once. With a snowfall the required quantity of material could be distributed along the length of the ditch for use in early spring. Permission was granted to do this work. The date of the regular monthly meetings of the Council was then fixed for the afternoon of the second Thursday in each month. The meetings were fixed at this time to suit Coun. Stark, who said that it would be a great inconvenience to attend meetings on any other time than Thursday afternoon. The Review had pointed out the fact that the meetings held so late in the week could not be properly published, and that at times it would be almost if not quite impossible to be represented at the meetings if held on the afternoon before publication. The Reeve regretted that he had overlooked this when promising Mr. Stark that if he would accept nomination an endeavor would be made to make the meetings convenient to him. The meeting then adjourned until Thursday the 22nd, at 2 p.m.

THURSDAY'S MEETING.

Promptly at two o'clock the Council resumed business with all present except Coun. Blair.

Several citizens were there to interview the Council. Mr. Henry K. Hall, now owner of the Fulton lot, near Crescent Beach, asked for a guarantee of water so that he might outline his plans for the season. Without this guarantee it would be impossible for him to do anything with the property. This will be looked into at the same time as Mr. Bentley's complaint made on Monday.

An order was issued to the constable instructing him to release some wood which had been cut on a road allowance at Trout Creek by Sydney Sharp, only upon payment of 25 cents per rick, and the burning of the cuttings. Strict enforcement of the rule not to permit the cutting of any trees on the public roads will be enforced.

W. J. Ross and Walter Verity asked that a ditch be put along a road running to Trout Creek point, so that irrigation water which comes from the benches might be carried to the lake instead of soaking the adjoining lots as at present. The Board of Works was permitted to do the work at an expense not to exceed \$125. Mr. Ross also com-

plained of the spread of thistles, and asked that the noxious weed laws be enforced. He was advised to take this matter up with the provincial authorities.

The Clerk reported that there was on the books a charge of \$568.98 against the Hotel for domestic water, electric light and power. Of this \$50.70 was contracted since the property had been taken by Wallace and Norton, and Mr. Robinson had written asking that the new proprietors have the privilege of paying the municipality direct, and receive the advantages of the discount. This was granted.

Granville Morgan again brought up the matter of the missing plow, and this again took up quite a portion of the Council's time. After a thorough enquiry the Reeve said that the matter would be settled at once.

J. S. Campbell asked that some public work be done in Hillpark Gardens district on roads and water service.

The agreements between the Municipality and Summerland Telephone Co., and between the Municipality and Kettle Valley Railway had been put in the form of by-laws, and were given their first, second, and third readings, and after being advertised for two weeks electors will be asked to vote on them. This will probably be on February 7th. Three-fifths of the votes cast is required to make them law.

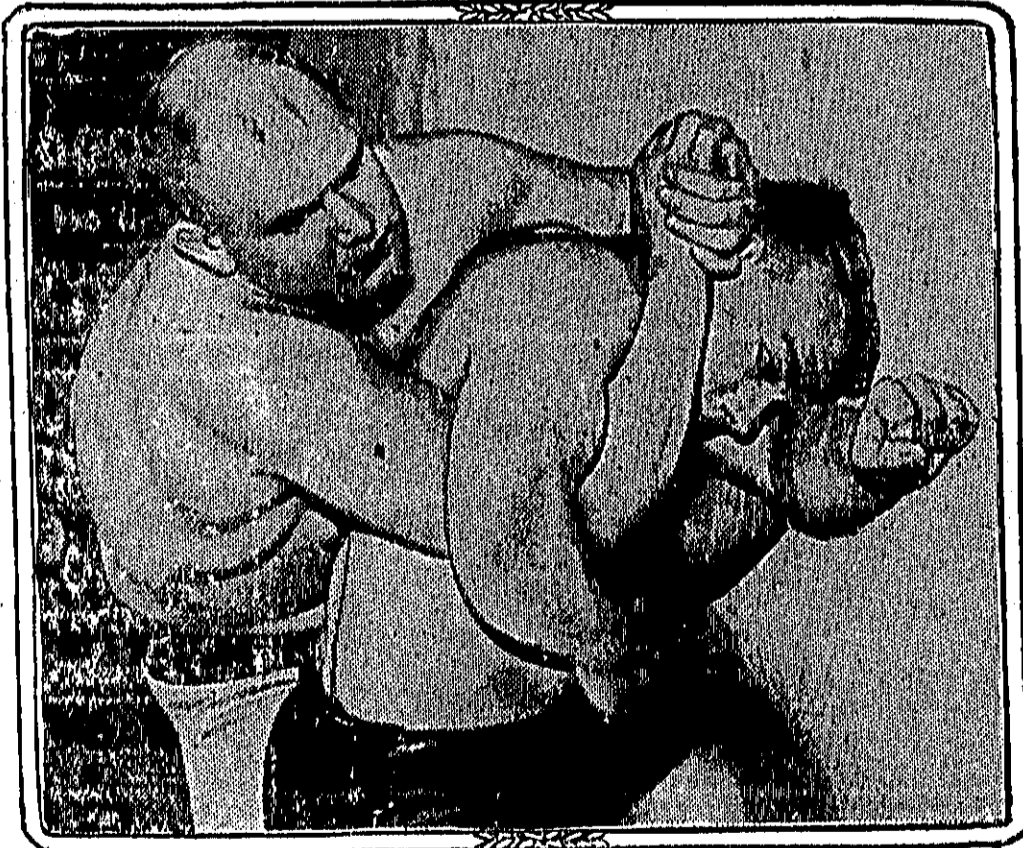

The question of trade licenses caused considerable discussion, and last year's by-law having been declared out of order the Clerk was instructed to prepare a new one along certain general lines, and this by-law will be dealt with later, and any necessary amendments made.

By motion the assessor was instructed to start the assessment roll on February 2nd and return same to Council on the 1st of April.

The question of Superintendent was again discussed, and after the Works Committee had consulted with Mr. Mitchell a recommendation was made that he be re-appointed at \$150 per month, an allowance of \$1 per day to be made him whenever he used a horse, and payment for oil and gasoline consumed allowed while he used his auto. It was shown conclusively that this was of much advantage to the Municipality. The Reeve, who told something of his experience with his Klodon proposition, said that he had made careful enquiries in a number of other instances, and was satisfied that there was no

(Continued on Page 8.)

Wrestling Champion of Europe Who Seeks Gotch's Laurels.

Eighteen of the world's greatest professional wrestlers participated in the elimination trial at Madison Square Gardens, New York. They were tried out with a view of selecting a suitable challenger to the world's title held by Frank Gotch, the Humboldt, Iowa, farmer. The class which was shown by some of these wrestlers was such that even the redoubtable Gotch has been stirred into activity. Since Gotch reached the heyday of his career, no one has ever been able to extend him to the limit of his capabilities. The one with which he disposed of the wonderful Hackenschmidt proved that, but in the meantime other men have developed, and Gotch will have to look to his laurels.

The above photograph shows Alexandra Aborg, the wrestling champion of Europe, employing his favorite holds during a match. This picture shows him subduing a rival with a half-Nelson. Aborg's pretensions to the title are seriously considered.

Home Portraiture.

PORTRAITS made in your own homes assure you of the best possible results. Most natural and pleasing expressions. Sittings will be made by appointment only AT YOUR OWN HOMES. APPOINTMENTS may be made with MR. ROWLEY, Summerland or West Summerland. Late Patrons: LADY MONTAGU ALLAN, Montreal, Que. PRESIDENT WILSON, Washington, D.C., U.S.A.

Resolutions From Summerland.

Local Farmers' Institute Forwards Good Sheaf To Provincial Government.

The Summerland Farmers' Institute is recognized as one of the most progressive in the province. Proof that this distinction is well earned is forthcoming from the following resolutions which have been framed by the local Institute, and which will come up for discussion at the impending convention to be held at the provincial capital. It will be seen that these resolutions are fraught with a significance in most cases province-wide. Only one, that bearing on the ownership of land by Asiatics, has been duplicated in thought by other Institutes. Support for this resolution, it will be remembered, was sought throughout the Valley. Considerable credit is therefore due to the local organization for their keen insight into the needs of the varied farming interests of this province. Following is the text of the resolutions:

1. Whereas in some parts of this Valley Asiatics are extensively engaged in market-gardening and truck-farming and growing of fruit and vegetables for export, both leasing and buying land; and whereas their presence lessens the value of neighboring lands and makes the locality less desirable for homes for our own people;

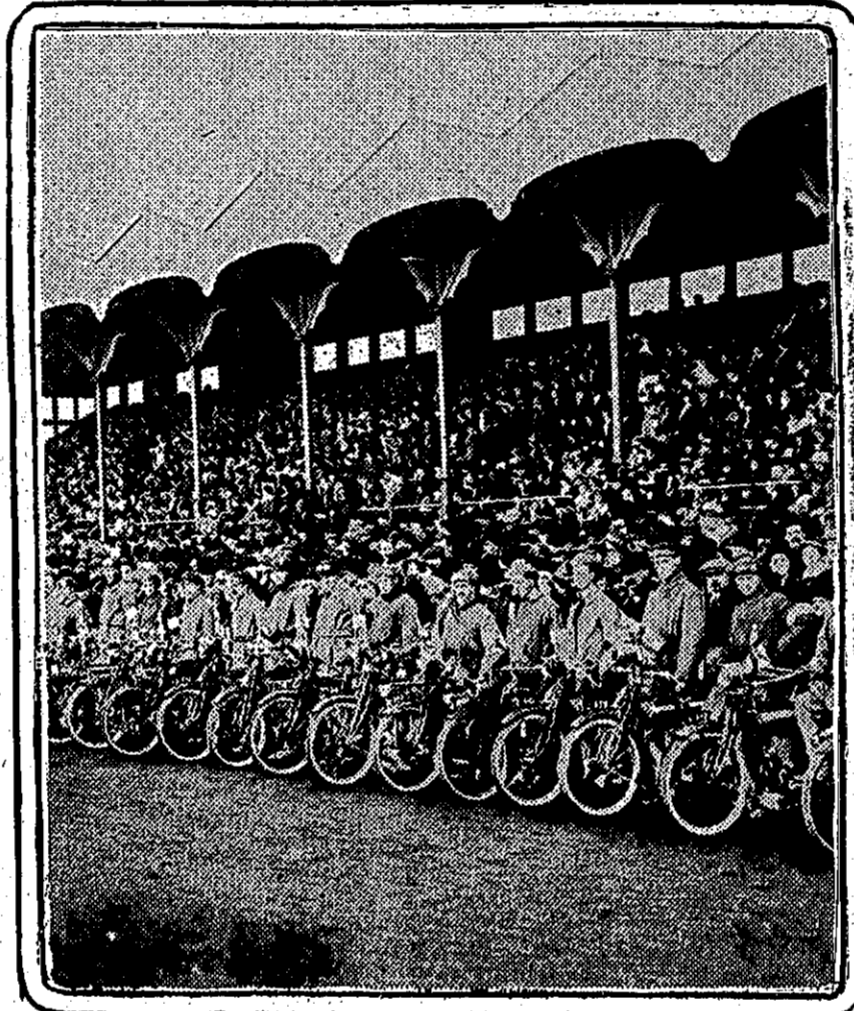

4. Resolved, that the government be urged to afford some assistance to growers to compensate them for the loss occasioned in their orchards by fruit diseases and pests where such injury does not arise from neglect on the part of the grower.

5. Resolved, that we express our appreciation of the response to last year's resolution asking the Canadian Pacific Railway for better accommodation for the protection and handling of fruit, in that they have erected good buildings at Summerland, Peachland, etc.

6. Resolved, that we express our thanks for the government's response to our request that they erect a pre-cooling plant, and our appreciation of the painstaking experiments of Mr. Edwin Smith, who was in charge. As we believe that the experimental stage is hardly past, we express the hope that the government will continue to take charge of it for another year, so that when other plants are established they may have reliable data on which to start a right.

7. Resolved, that we express our thanks to the government for its prompt and energetic action in promoting the establishment of a co-operative marketing system,

The Motorcycle Dispatch Riders Of The Orange Army.

This picture shows a review of the men training to carry war dispatches, who will be used in case Sir Edward Carson and his army of men from the North of Ireland are called upon to resist the enforcement of the proposed Home Rule Bill. They are equipped with fast motorcycles, and many of them come from the best families of Belfast. Their wives, mothers, and sweethearts are looking from the grandstand.

and whereas their style of living, ideals of life, and the fact that they make no permanent stake in the country causes an unfair competition with our own people; and whereas the affected neighborhoods are seeking for some relief; and whereas all parts of the Valley are in a measure affected and may have to face the problem more closely;

2. Resolved, that we express our appreciation of the advertising of British Columbia fruit during the past season, and we ask that a yet more extensive publicity and advertising campaign be undertaken by the Department till our fruit gets the place it is entitled to and deserves in the Coast and prairie markets.

3. Resolved that representations be made to the Dominion Government calling attention to the desirability of a vigorous campaign in all provinces to stamp out fruit pests, and that no pestiferous fruit be allowed to be imported into any part of the Dominion, and that such legislation as may be necessary to carry out the same be brought forward.

and, while appreciating what has been accomplished, would express the earnest desire that a further effort be made to seek means whereby soft fruits at least may be more quickly and in better condition gotten from the grower to the consumer.

8. Resolved, that we affirm the resolution of last year: "That the time has arrived when express fruit trains or cars attached to express trains should be run for the rapid handling of perishable fruit."

9. Resolved, that we have heard with pleasure that the Agricultural Commission are likely to recommend that loans be made at low rates of interest direct to farmers for the introduction of live stock and improvement of farms, and would suggest that this ought to be beneficial to consumers by lessening the cost of living by means of a larger supply, while at the same time proving of great advantage in improving the agricultural condition of our country. We hope that the matter may be brought about.

10. Whereas industrial by-products have often proved a very valuable part of an output; and whereas quite a percentage of the produce of our farms and orchards is of small value as now utilized; Be it therefore resolved, that a committee be appointed to gather information as to the most profitable ways by-products of fruit and

vegetables may be used, and to furnish such information to such localities as desire it, as to the expense of establishing and running such business, probable profit, requirements as to amount of raw material, probable consumption, etc.

11. Resolved, that we heard with regret of the retirement of Mr. Brittain from the position of Plant Pathologist for the province, and hope that the government will be able to appoint another competent man to study obscure diseases and conditions of our trees and plants.

12. Resolved, that we have heard that the Australian Government has specified a box in which apples must be imported in that country, which differs from the one our government specifies for export, and would suggest that the proper executive of this association take the matter up and endeavor to have a reconciliation made, and at the same time secure the legalizing of a box for apples to which other fruit boxes may be made to conform in their principal dimensions, preferably the apple box 10 x 10 1/2 x 11 1/2 x 18, inside measurement.

13. Resolved, that the Transportation Committee endeavor to get the Canadian Pacific Railway to

put heated fruit-cars on the line from Sicamous to Vernon for certain specified days on which fruit in less than carload lots can be shipped during the fall and winter.

What a blessed thing it would be if one could run a newspaper and never ask some of its subscribers to pay up. As long as the paper goes on week after week and no statement is sent for arrears, everything goes like clockwork and you are one of the best and most accommodating editors on earth; your paper is the best in the country; your items are highly polished; your advice followed; your sayings gladden the hearts of the household and happiness reigns supreme. But oh! what a brute you are after sending a paper two or three years for nothing, if you politely send in your bill and ask what is due or a portion of it. Your ratty old paper is not any account I just took it to accommodate you; no one in the family reads it; we can get all the free reading matter we want—and hundreds of other mean and contemptible things are hurled at the editor and his paper. If we were rich we would not ask anyone to pay for his paper—we would not print one.

It's difficult for a newly married man to generate much enthusiasm over his bride's beautiful hair after he has seen her pile it on the bureau for the night.

ONE BLOCK EAST of MAIN ST.

Occasionally an editor gets rich, as witness the case of one of the craft in a neighboring town. This editor started in business about five years ago with 22 cents. To-day he is worth \$5,000. His accumulation has been due to his strict attention to business, frugality and the fact that a rich uncle died and left him \$4,999.

A liberal-minded person is one who thinks the same as you.

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

The Editor, Summerland Review.

Dear Sir,

May I touch upon a statement in an article which appeared in your last issue under the heading "Major Hutton and the University." The words which invite the comment of a Canadian born and bred are these: "the standard Canadian method of personal abuse. This is the stock-in-trade of nearly every Canadian controversialist." We shall require clearer proof than the article furnishes, to convince us that the gentleman to whom reference is made, would so far forget himself and his duty to his hostess as to "unhesitatingly say so." To speak of any characteristic, agreeable or otherwise, as "standard" or typical of a nationality, implies a very wide and varied knowledge of that nation. Even with the widest and most varied knowledge, an authoritative statement borders on presumption.

Mother Canada is a very large-hearted and very busy woman. At the first offence against her hospitality she smiles indulgently, saying:

"My little friend will learn."
At the second offence she reflects, still smiling cheerfully, though she feels the additional burden:

"I must try to teach my little friend."

But at the third, she raises her eyebrows a trifle, and with a tiny shrug which we must call typically universal, she murmurs:

"Dear me. I hope my little friend is not stupid."

Then, accompanied by her sons and daughters, and those among her guests who are gifted with the grace of adaptability, she goes back to her work, finding time, however, to look up occasionally and watch with interest, not unmixed with amusement, the development of the less fortunate visitor.

In all sincerity,
A MIDDLE DAUGHTER.

Peachland Notes.

Mrs. Jas. Elliott spent the weekend in Kelowna.

Mrs. Seaton is spending the week in Penticton to which place she accompanied the Baldock children on Friday evening last.

Mrs. R. C. Lipsitt came up from Summerland on Wednesday morning, and is the guest of her sister, Mrs. J. B. Robinson, for a few days.

Word of the death of Mrs. R. H. Hueston, which took place in San Diego, California, about two weeks ago, was received here a few days ago. Much sympathy is felt with her bereaved husband who was unable to be with her at the last.

Mr. and Mrs. Jas. Elliott entertained a number of their friends on Tuesday evening, in honor of their mother, Mrs. Elliott, who leaves on Thursday morning for Edmonton, where she will spend some months with her son, C. G. Elliott.

The Reading Room was formally again opened on Saturday afternoon by Miss Annie McBean, who has taken charge of it and the library. Several books are missing from both the B.C. and the McGill Travelling Libraries, which should be returned soon, so that the librarian may be able to have those libraries exchanged for fresh ones. Miss McBean has also received a gift of one hundred books from a friend at the Coast, so those patronizing the Public Library may be assured of having a large stock from which to make selections.

One of our exchanges most truthfully says that the telephone girl sits in her chair and listens to voices from everywhere. She knows who is happy and who has the blues; she knows all our sorrows; she knows all our joys; she knows every girl that is chasing the boys; she knows of our troubles; she knows of our strife; she knows every man who is mean to his wife; she knows every time we are out with the boys; she hears the excuses each fellow employs; in fact there's a secret

SHILOH
quickly cures coughs, croup, colds and heals the throat and lungs. 11 11 25 cents.

College Notes.

Mr. Wm. Armstrong went to Vernon last week-end to conduct the Baptist services there.

On Thursday of last week a number of the students walked to Sandpiper Lake for a skate. A little "feed" was indulged in on their return.

Dr. Sawyer, who is this week at the Coast, will be going to Regina in a few days to the Convention of the Baptist Union of Western Canada to be held there.

On Tuesday afternoon the boys of Ritchie Hall and almost all the day male students listened to a very interesting and forceful address given by Dr. F. W. Andrew on "The Care of the Body." It was certainly a valuable talk and much enjoyed by all. In the evening Miss K. C. McLeod addressed the regular joint weekly meeting of the Y.W. and Y.M.C.A. Miss McLeod spoke on "The Relation of Character to Physical Conditions." Rev. R. W. Lee will speak at next week's meeting.

Last Friday night the basketball team came up from Penticton and played the College in the College Gymnasium. On the whole the play was very slow in comparison to the usual games seen in Summerland. The College won, score 16-10. The game between the Juniors of the College and Town was fast, but the College has too much advantage in weight, which enabled them to win with a score of 20-3. On Saturday night the game between the Town and College was of the usual type served us by these teams. The game was very fast throughout. Again the College got the better of a 16-10 score. The College Juniors again beat the light, but plucky, fast opponents to the tune of 12-2.

Kaledon Comments

Mr. and Mrs. O. E. Tomlin returned from their trip to Summerland last Sunday.

Mr. Prentice is now plastering the house that has been built for Mr. Jas. Beddall.

Mr. T. C. Preston is slowly recovering from his late illness, although he is not able to be about yet.

Miss Kathleen and Miss Vera King were down from Penticton to spend last Sunday with their parents.

Mr. and Mrs. O. E. Tomlin made a trip to Farview on Sunday, Jan. 11, in their auto, returning the same day.

Mr. and Mrs. A. S. Hatfield returned from Summerland last Monday evening, making the return trip by the "Cygnets."

Mr. and Mrs. Caroll L. Foss are in from Sleeping Water ranch this week. Mrs. Foss is the guest of Mrs. D. D. Lapsley.

Rev. Dr. Huestis, secretary of Lord's Day Alliance for B.C., officiated at the service in the Baptist Church last Sunday afternoon.

Rev. Chas. Britten of Penticton was down for a special meeting of the Baptist Church on Jan. 12, when it was decided that he should in future take charge of the church here.

On Wednesday, Jan. 14th, the members of the Woman's Club met in the afternoon at the home of Mrs. J. Lock. A large number were present, and a good meeting was held.

Mr. H. C. Buchannan of Vernon is here this week conducting classes for apple packing in Mr. Purley Simpson's store. There are fourteen who are taking the opportunity to learn fruit packing.

nonth each sneaky girl of that quiet, demure looking telephone girl. If the telephone girl would tell all she knows it would turn all our friends into bitterest foes; she would sow a small wind that would soon be a gale, engulf us in trouble and land us in jail; she would let go her story which (gaining in force) would cause half our wives to sue for divorce; she would get all the churches mixed up in a fight, and turn all days into sorrow and night; in fact, she could keep the whole town in a stew if she told the tenth of the things that she knew. Now don't it set your head in a whirl when you think what you owe the telephone girl?

Weight Quality

The Square Grocery Store

Measure Value

COPYRIGHT 1910 BY C. E. ZIMMERMAN CO.

To be "on the square" is so essential in our life that only those who practice it can hope to win out. Squareness means friendship between a store and its customers.

ON this rock of honesty has our growing business been built. You find sixteen ounces to the pound or four quarts to the peck, in your purchases—the quality and value of our groceries are as sure as the rising sun. The high standard of our customers is a safe guide to our methods.

It is nice to know with whom you deal, isn't it? We are always the same—the Square Deal Grocery.

ARE YOUR LETTERS GOING ASTRAY?

A number of citizens, particularly storekeepers, will be wondering why a number of their letters or similar mail matter addressed to persons within the municipal limits have not reached their destination.

The trouble is greatly increased since the inauguration of the rural route, all letters for which must bear a two cent stamp.

Moral—Have your address printed on the corner or back of your envelope.

DEATH OF MISS E. HAMILTON.

The many Summerland friends of Miss Eva Hamilton, who, together with her brother, Clayton, and sister, Edith, were for some time residents of this community, will learn with sorrow and feelings of sympathy for the bereaved family, that Miss Eva died suddenly last week at the home of her father in Winnipeg.

Miss Eva K. Hamilton, eldest daughter of Mr. and Mrs. John W. Hamilton, died suddenly last evening at the family residence, 453 Cumberland Avenue. Although Miss Hamilton had been in poor health for some time, she had been able to go about every day, and yesterday was as cheerful as usual, so that her death came as a great shock to her family and friends.

The funeral took place on Saturday afternoon, Jan. 17th.

CLOSE VOTE AT MOCK PARLIAMENT.

The Mock Parliament, conducted under the auspices of the Summerland St. Andrew's Society, met in regular bi-monthly session at the Campbell Hall, on Friday evening last.

Mr. T. B. Young was the leader of the Government, and introduced the resolution on which the discussion was based. It prohibited the ownership of land by Orientals, and provided for the repurchase of lands, already so held, by the Provincial Government.

A fair audience was present, and followed the debate with interest, deriving much information and profit therefrom.

Passing Events: Social, Personal, &c.

Mr. C. H. Cordy has gone to the Coast and will spend a few days at Victoria.

Muir Stewart, who has been spending a few weeks in Vancouver and Victoria, returned on Wednesday's boat.

Mr. Harold Rivington has named his homestead, which is situated above Trout Creek Canyon, Halcyon Orchard.

Some 22 cows were imported by L. C. Woodworth this week. They are mostly Holstein and Ayrshire, and grades of these breeds.

Mr. and Mrs. E. Hunt and family, who have been visiting relatives on the prairies for some weeks, returned on Wednesday night's boat.

There has been quite a good deal of fishing going on recently, and the quiet waters of our lake have yielded some capital catches to local sportsmen.

Miss Bena Logie who has been suffering from a bad cold, and was unable to preside at the organ at St. Stephen's Church last Sunday as usual, is well again.

This week has seen the first rush of commercial travellers for the season in the Valley. A great number have been in and out of town here and the Hotel has been very busy.

Mr. J. Tait went out on yesterday's (Thursday) boat to proceed to Victoria where he will represent the Summerland Farmers' Institute at the Annual Convention in that city.

Owing to business being slack on the lake the steamer "Aberdeen" has been withdrawn from the service, and all Sunday trips have been cancelled.

Rev. C. H. Daly is the preacher at both morning and evening service at the Presbyterian Church on Sunday. Alexander's hymn book will be used, and the subject of Mr. Daly's evening sermon will be "The Treasury of the Snow."

The men who are to build the new government wharf have arrived on the scene, and have their tents erected on the beach. The piling is being hauled in and the contractors are having them pointed ready for driving.

T. C. Orr, in a note to the Editor of the Review written from Toronto, states that at the time of writing the thermometer registered 26 below zero in that city. He naturally would like to be in Summerland, and is looking forward to his return here in the spring.

The regular monthly meeting of the Baptist Brotherhood was held in the West Summerland Church on Tuesday evening.

Owing to weather conditions and numerous requests the Summerland Skating Club have decided to change their advertised carnival into a Fancy Dress Ball, to be held in the Empire Hall on the night of 29th inst.

Miss Margery Willans, the young sister of Mrs. Harold Rivington, is entering the Haliburton College for Gentlewomen, Royal Oak, Victoria, as a student this term.

A recent visitor to Summerland was Mr. Fry, manager for Col. Macrae of Shaughnessy Heights, Vancouver, a well-known horse fancier.

Mr. W. J. Robinson spent Wednesday in Peachland.

Miss Cooper went up to Kelowna on Monday's boat to stay with her sister, Mrs. Benson.

Mrs. R. C. Lipsett went to Peachland on Wednesday morning's boat to visit her sister, Mrs. J. B. Robinson.

Mr. Dow is up in the mountains trapping, and when he left was hopeful of securing some fine pelts this season.

Mrs. Wm. C. Fosbery is going up to Kelowna on to-morrow morning's boat to spend a few days there with friends.

Mr. G. W. Wheeler, manager of the Garnett Valley Sawmill, went out on yesterday's boat to proceed to Victoria.

Mr. Kay, Boiler Inspector, of Revelstoke, came in this week to inspect the new boiler recently installed at the Garnett Valley Sawmill.

A new resident arriving shortly in Summerland will be Mr. Harry Priest, city clerk of Merritt, who has purchased from Mr. W. C. Kelley for \$5,000 the five acre orchard situated just west of Miss Spencer's property.

We are very glad to be able to report that Mr. W. C. Kelley is improving, although rather slowly. While his strength is maintained, the patient has to be very careful to avoid any exertion, and is therefore only allowed up for a short while each day.

Starting Monday, January 26th, the Summerland Fruit Union will make a circuit among the growers for the purpose of taking orders for spray material.

The usual dance held on Wednesday night by the Quadrille Club was a very enjoyable little affair, the crisp music that is now to be given by Mr. and Mrs. Walters with piano and drum, being an additional attraction.

Under the auspices of the Summerland Athletic Club an informal Turkey Supper was held on Monday evening of last week in the Campbell Hall.

Truly the road to Pentiction is a reproach to those in authority! An unpleasant experience befel Mr. W. A. Caldwell this week when motoring to Pentiction along the lakeshore.

The good example set last year by Mr. J. L. Hilborn has already borne fruit, the material evidence of which is shown in the number of hot houses that are being built or will be built this winter.

A recent visitor to Summerland was Mr. Fry, manager for Col. Macrae of Shaughnessy Heights, Vancouver, a well-known horse fancier.

Shiloh is the family remedy for Coughs and Colds.

Mr. James Ritchie took a trip to Kaleden this week by motor.

Mr. G. W. McLaren went up the lake on Monday morning's boat for Victoria.

DOSWELL—At Summerland Hospital on Wednesday to the wife of P. T. Doswell, a son.

Col. Cartwright and Mr. Alex. Steven both left on Wednesday's boat for Vernon, to attend the Liberal Convention.

Rev. H. G. Estabrook, who was here over the week-end, returned to Vancouver on Monday morning, accompanying Principal E. W. Sawyer of the College, and Mr. G. J. C. White.

It is rumored from Victoria that the government at this session will consider a scheme of further aiding the agriculturist principally along the line of advancing capital which will probably be in the form of a direct loan from the government.

Mr. D. H. Watson went out on Monday morning's boat and proceeded to Victoria where he represents the Summerland Fruit Growers' Association at the annual convention in the Empress Hotel, Victoria.

Will our friends kindly keep in mind that it is only at great inconvenience, causing serious delay in publishing, that we are able to handle any news items on Friday morning.

Miss Ida Rivington, who has been spending the last few weeks with her brother, Mr. Harold Rivington and Mrs. Rivington, at their homestead, Halcyon Orchard, leaves this week-end for Sansalito, San Francisco, to visit two of her sisters there.

Methodist Church services will be held on Sunday next as follows: 10.30 a.m., Rev. K. W. Lee, subject "A Character from Pilgrim's Progress; a short address will also be given to the boys and girls.

Ernest J. Rowley returned on Saturday afternoon from a trip down the Pacific Coast as far as San Francisco.

The Presbyterian Young People's Guild held a literary evening both pleasurable and profitable in St. Andrew's Church on Tuesday night.

Mrs. G. N. Gartrell came down the lake on Tuesday evening after a brief visit at Vernon.

The Proposed New Hospital

Meeting of Hospital Board and Citizens' Committee.

As an outcome of the public meeting held in the late autumn re the relinquishment of the present hospital establishment at Summerland next April, it will be remembered that a Citizens' Committee was appointed to consider ways and means of securing a building and premises for a new hospital.

The Citizens' Committee have since been considering and viewing several propositions with the object of acquiring new premises, and on Tuesday afternoon met the Hospital Board in the office of Mr. W. J. Robinson.

The committee reported fully the results of their investigations and stated that they considered the best building available was that offered by Mr. D. H. Watson, his residence on the lakeshore.

It has since reached the Review that Professor Moore has signified his willingness to entertain a proposition to rent his hillside residence which is situated east of Giant's Head, in the Morningside district.

Mr. H. C. Mellor, who is one of the hospital directors, will be at the capital next week, and while there will learn what assistance can be obtained from the government, and under what conditions this assistance will be given.

Municipality of Summerland

DOG TAX

All Owners of Dogs in the Municipality are notified that the above tax for 1914 was due and payable on the 2nd day of January.

The amount is \$2 for each dog over six months old, if paid on or before 1st January, after which date the tax is \$2.40.

Extract from By-law, Clause 8:—

Any person owning or harboring a dog over six months old, without having paid the tax, according to the provisions of this By-law, or violating any of its provisions, shall be guilty of an infraction of this By-law, and subject to the penalties contained in the Penalty By-law No. Four, upon conviction before any Justice of the Peace.

(Sgd.) F. J. NIXON, Collector.

OUR NARAMATA SECTION: Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

**GILLETTS LYE
EATS DIRT**

The mild weather seems to keep our town busy. Not only are we all unusually occupied on the land, and the railroad camps pushing forward spring work, but the bright weather and quiet lake tempts visitors up and down and across, and the "Rowena" does well. Social life, with our callers on every fine day, therefore flourishes.

You will save money by doing so.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

**Current Events
— OF —
Town & District**

Miss Vera Roe is at Summerland spending a few days there as the guest of Mr. and Mrs. Frank Edgar.

Mr. J. M. Myers paid a business visit to Summerland on Monday morning, and also looked up some of his friends.

Visits were paid to Summerland this week by Mrs. Roe, senr., Mrs. P. S. Roe, Mrs. Pushman, and Miss Emma Davis.

Harold Endacott's new Pelton motor came in on Monday night and is now going ahead with the work of chopping feed at his stables.

Miss Muriel Dunt, the new stenographer at the Trust Company's offices, is also assisting Mr. Bartlett, the Postmaster in his office.

A representative of the Dominion Trust Company from Vancouver, Mr. H. A. Burke, has been spending some days-in town and up on the benches.

A very pleasant week-end on the Summerland side was spent by Miss Blanchard, who was the guest of Mr. and Mrs. J. L. Logie at their ranch.

The material prosperity of a town is measured by its intellectual growth, so that the formation of a literary and debating society in Naramata-is welcomed by all the townfolk and many others who are interested in us and our development.

We are sorry to record the illness of Nurse Williams, who is suffering from a nervous breakdown, as the result of a good deal of work this winter. Mrs. Williams is ordered by the doctor to take absolute rest for some little while before resuming her professional duties.

Mrs. F. A. C. Wright of Garnett Valley and her children, who have been enjoying a holiday at the Hotel Naramata, returned home on Monday. Mrs. Wright's second boy, Basil, was taken ill while here, but was well enough to go across on the "Rowena" with his mother and brothers.

Have you noticed how the long line of twinkling lights on the shore is gradually extending? Electricity is doing a good deal for us, and at night the rounded curve of Naramata Bay is very attractive, we are told. Some eight or ten new lights have just been installed, some on Third Street and some at the southern end of the town.

Miss Freda Mitchell spent Wednesday with friends in Penticton.

Mr. Swan Benson of Grant Smith & Co., spent a busy week-end in looking over the construction works here.

Mr. Grant Smith and Mr. Hauser will be here from Vancouver this week-end, and will probably spend a few days seeing after necessary business affairs.

We hear that there was a very pleasant afternoon party at the residence of Mrs. Hancock on Thursday, and Mrs. Languedoc and Mrs. Mason were among the guests.

The hostesses at the social and business meeting of the Unity Club this afternoon were Mrs. H. Saltling and Mrs. John Schreck, and there was a good attendance of ladies. The dance organized by the club takes place to-night at the Hotel Naramata.

Mr. J. MacDonald is acting temporarily as representative of Provincial Police here, and the hospitality which is being extended to him leads to his being seen in turn with nearly every one of our bachelor residents, so that the joke of the hour is "What have you been taken along for?"

The pretty bungalow residence which has been built by Messrs. Mark and Fred Manchester, now has the glass in the windows, and rapidly approaches completion. The window lights are cunningly arranged, with large paned windows and smaller lights above in lattice shape.

The K.V.R. has begun the laying of steel from Penticton to Naramata, and at the present rate of progress this railroad construction promises well for the future. At Peterson's camp gangs are busy digging the bridge pits for the construction of a bridge at this point is ahead. Steel is expected to reach Peterson's camp about the middle of next month.

Important visitors to Naramata this week were Captain Gore, of Nelson, General Superintendent of C.P.R. Lake Traffic, and Mr. Black, Chief of Claims Department, Vancouver. They were accompanied by Captain Reed of the "Castlegar" and his assistant, Mr. Smith. The party conferred with the Okanagan Lake Boat Company, and afterwards lunched at the Hotel Syndica.

What is the story we hear of the recalcitrant barber, who took a trip to Penticton on the busiest day of the week, and found society there so interesting that he temporarily forgot his anxious customers? When the impatient "line-up" grew tired of waiting, a substitute offered to officiate, and the results (in some cases) of the amateur wielding of the gleaming steel were dire!

Farmers' Institute Annual Convention.

The local Farmers' Institute has forwarded a resolution full of significance and interest to the annual Provincial Convention of Farmers' Institutes, which is being held at Victoria, and the wording of the resolution from Naramata tells very plainly the story of the great advance and growth of this newest southern Okanagan Lake town. It was drawn up by the resolution committee, and runs as follows: "Whereas the Naramata district has of late years changed from an open cattle range to one of extensive horticulture and farming, and whereas we at present find it impossible to protect our trees and crops from cattle running at large, Be it therefore resolved that the Hon. the Minister of Agriculture be petitioned to take immediate steps to have this condition remedied."

This resolution is signed by the committee of resolutions, Messrs. S. B. Cash, J. C. Williams, and H. P. Salting.

There is much contained in this resolution in which he who runs may read, and in the sentence "changed from an open cattle range to one of extensive horticulture and farming" lies the history of Naramata's past, and the promise of her future.

Mr. John Pushman, the Naramata delegate at the Institute Convention left on yesterday (Thursday) morning's boat for Victoria, accompanied by his wife and sister, and will probably remain at the Coast for a week.

A visit to the Tunnel Camp is still one of the favorite attractions here, and the road up though rather slippery is a pleasant drive. Mr. H. G. Wells drove up on Sunday to spend the day there with his daughter, Mrs. V. L. Watson. There are about three inches of crisp snow at the tunnel, and the air is considerably colder than on the lakeshore, but tremendously exhilarating.

The fortunate students who "passed" the examination which concluded the packing school classes are enormously pleased with themselves, for the standard of efficiency was placed rather high. We regret there were several ladies among the failures. But they had not made enough attendances, for the womenfolk of Naramata have household cares of which the happy horticulturist in his outdoor life wots not! Mr. Harley Buchanan, the instructor, has gone on to Kaladen to conduct classes there.

Splendid Sport Which Is Gaining In Popularity.

Skiing is not confined to Scandinavian countries and to Switzerland. The photograph shows a merry skiing party in Wales, which has become very popular as a winter resort. It has proved convenient for many Europeans unable to reach Switzerland mountains. Skiing has also become very popular on this continent. In many of the colder sections where the bob-sled at one time held sway, you find both old and young enjoying the thrilling and exhilarating sport which is so rapidly gaining in popularity. Many have become so expert in the art, that they almost rival the Europeans. In the event of an International contest, it is conceded that Canada would make an excellent showing.

News of the sudden death of Frank Gibson at Vancouver which reached his friends at Naramata on Saturday, was a great shock to them. Following a telegram on Friday announcing his serious illness, came almost immediately the news that he had passed away. Frank had many friends in Naramata, especially among the children, with whom he was a great favorite, and his kindly disposition and big heart had made him deservedly popular during the time he was at the Hotel Naramata, first in charge of the electric plant, and later as janitor. He was a good and skilful nurse, and has, since he left Naramata about two months ago, been employed in that capacity at the General Hospital, Vancouver, and has now, in one of the wards, succumbed to an attack of typhoid fever. Frank Gibson's home was at Oxford, England, where his parents are, and a brother who is at Toronto has been communicated with.

The services of Mr. and Mrs. Walters, who provide such excellent music for dances with piano and drum, have been secured for the Summerland Quadrille Club, and so our local music makers will be on the other side of the lake every Wednesday.

A representative meeting in the church basement on Monday night was the result of the appeal to the men and women of Naramata to consider the question of organizing a debating and literary society. Rev. W. P. Bunt, Mr. A. B. Richardson, Mr. H. G. Wells, and several others are anxious to see the society in working form soon, and as the result of Monday's meeting it is likely we shall have a society that will be a benefit to the town and great interest in a growing community. On Monday next a second meeting will consider plans for the future and elect officers, etc. As many as possibly can are urged to be present.

B.C. Apples Again Win Important Awards.

Hon. J. H. Turner, Agent-General in London for B.C., cabled Sir Richard McBride on the 14th November that the biggest awards offered had been won by British Columbia, in open competition at Sheffield and Edinburgh, for display of apples.

Mr. Cunningham, B.C. Fruit Inspector, states that B.C. apples are in big demand, and that 100 carloads could have been sold now, had they been obtainable.

The United States fruit growers filled the orders. B.C. fruit growers and prospective fruit growers, act promptly, and enlarge your orchard plans.

We can supply you with all kinds of fruit tree stock to suit the special climatic conditions of each district.

Our prices for fruit tree stock this year are cheaper by nearly one-half, than heretofore offered to B.C. fruit growers, viz., \$8 to \$12 per 100; all grown in our own province, such as Jonathan, Spitzenberg, Baldwin, Northern Spy, and more than 20 other choice varieties.

Patronize home production, and make our province the fruit granary of the West.

Don't forget the beautifying of your home plot. In our stock of over \$100,000 we can meet the most cultured and esthetic taste, to make home environments a centre of beauty. Evergreen stock, shade trees, roses, flowering shrubbery, bulbs, flowering plants etc. Catalogues mailed free on application.

Holly for Hedges, up to 12 inches, \$20 per 100; Privet, 2 1/2 ins., \$30 per 1,000; Laurel, 2 to 2 1/2 ins., \$20 to \$30 per 100.

There's a Difference Now.

Home-made Building Material as good as the imported article is being turned out at the local mill.

Prove This for Self.

May Shut Out All California "Spuds"

Apple Trees and Fruit Condemned
In Vancouver.

Announcement that he had recently condemned in Vancouver 13,888 young apple trees in practically one shipment as well as a car of American oranges and one of apples from across the line, was made at Victoria by Provincial Fruit Pests Inspector Cunningham, who was in that city on departmental business last week. The apple trees came from the United States, and according to the official, had sufficient infection to infect the whole of British Columbia. "My fruit condemnations during 1913 have been very large," said Mr. Cunningham. "With so much excellent home grown stock for sale in the province. The grower who takes the chance of importing young trees deserves to suffer if they are infected, and the same applies to the American nursery man who tries to send infected trees across the line."

He stated that from correspondence which he had recently received from Ottawa there is a strong probability of Dominion legislation being passed to prevent the importation of California grown potatoes because of the prevalence of tuber moth among the "spuds" of the south. No remedy for this disease has yet been discovered and rather than have continual trouble in condemning them at the boundary line, the authorities have

Should Capture Coast Markets

Agricultural Commission Held At
Victoria.

That the fruit growers of the province should attempt to capture the home cash markets of the Coast rather than ship exclusively to the prairies is contended by Provincial Fruit Pests Inspector Cunningham, who, as an ex officio member of the Provincial Board of Horticulture, together with the other members of the Board presented their views on this subject before the Agricultural Commission, at Victoria last Saturday, in a lengthy conference at which questions relating to horticulture in British Columbia were discussed. Other members in addition to Mr. Cunningham were Messrs. W. C. Ricardo, Vernon; Thos. Metcalfe, Maple Ridge; McHardie, Kootenay; Stratfield, Saanich, and Woodward, Victoria.

"I believe that the Commission will do a great deal of good," said Inspector Cunningham, "as every member feels the necessity of encouraging a greater agricultural production in the province in order to lessen the importation of farm and fruit products. Despite advances all along the line in farm production in British Columbia, the importations are increasing year by year, possibly because the bulk of growth in population in British Columbia has been in the cities.

"It seems to me that our fruit growers should endeavor to sweep

Barred From Funeral Recluse Begs To Die.

Call it infatuation or love as you will, but the attachment which caused a young and beautiful woman to inflict self-imprisonment on herself for three years, give up her self-respect, and forsake all the pleasures of a gay world because of her devotion to an old man, shows how intense a woman's devotion can become. The above is a photograph of Adelaide M. Brance, prisoner for three years in the office of Melvin Couch, a Monticello attorney, who watched his funeral cortege from her cell, and then pleaded for poison that she might kill herself and join him in death.

reached the conclusion that they may as well be shut out altogether. "Our own people had better adopt the Scotch method of growing early potatoes and then they will not miss the early potatoes from California," suggests Inspector Cunningham. "This method is to plant in the autumn. I have tested it for several years and have found that I was able to get spring potatoes from three weeks to a month in advance of others who planted in the spring. There is nothing to prevent growers on Vancouver Island or in the upper country from having potatoes ready to harvest in the middle of June."

BETTER TAKE THE PAPER.

An exchange gives the following account of what happened to a family too stingy to take their home paper. He says:

"We once knew a man who was too stingy to take the newspaper in his home town, and always went over to borrow his neighbor's paper.

"One evening he sent his son over to borrow the paper, and while the son was on the way he ran into a large stand of bees, and in a few minutes his face looked like a summer squab.

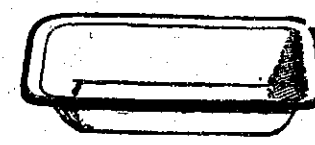

the foreign fruit out of such handy cash markets as Vancouver and Victoria, instead of sending their fruit to the prairies. One reason why it is so easy to buy American fruit in Vancouver is that the American shippers have three agents in the Terminal City who call upon the importing firms daily, take their orders after quoting prices and arrange for the shipment of the fruit. It would be a good move for the British Columbia shippers to have representatives on the Coast also. The day has gone by for the importer to seek out the shipper. When the government goes to the length it does in encouraging horticulture in the province, the consuming public in the large provincial centres ought to have an opportunity of buying fruit grown in British Columbia, the production of which they have financially encouraged."

"Hearing the agonized cries of the son, the father ran to his assistance, and in doing so ran into a barbed wire fence, cutting a handful of flesh from his anatomy and ruining a \$4 pair of trousers.

"The old cow took advantage of the hole in the fence, got into the cornfield and killed herself eating green corn. Hearing the racket, the stingy man's wife ran

FIRST SESSION OF NEW SCHOOL BOARD. (Continued from Page 1.)

The Secretary reported that the High School teacher, Mr. R. B. Forsyth, had spoken with him requesting that the Board authorize the assembly of that department at nine a.m. from the 1st of February. Mr. Forsyth finds this is necessary, owing to the fact that he now has two classes in full work under him. He has given the assurance that the earlier hour will not deprive those pupils who use the conveyances of the drive to school, the classes being arranged to meet this difficulty. All grades revert to the longer hours of schoolwork on the 1st of March. A motion was passed to authorize the change suggested by Mr. Forsyth. On and after Thursday next, therefore, the High School will assemble at 9 o'clock instead of 9.30.

Secretary Logie informed the Board that the estimates for the current year would be presented at the next meeting. He pointed out that if the school tax of four mills on the dollar was to stand for the ensuing year, the expenditures would have to be kept within the limit of six thousand dollars. A matter already some time in abeyance affecting the school discipline was introduced by Mr. E. Garnett. Dr. McIntyre will take this matter up personally with the teacher in question in an endeavor to reach an understanding.

The remainder of the brief session was taken up with discussion regarding future policy. Dr. McIntyre considered that the two big questions for the Trustees would be transportation and Manual Training. There is diversity of opinion among the Trustees regarding both. A suggestion was made that a solution of the former problem might be found in dropping all the conveyance contracts excepting the one serving the Trout Creek district. Mr. Shields intimated that he would oppose such a step, and Trustee Johnston said his opinion was that the rate-payers desired the continuance of the rigs before the introduction of Manual Training. Mr. Caldwell, in favoring some curtailment of the present conveyance system, considered such to be in the best interests of the schools.

Regarding Manual Training, the Secretary gave some further details of the provisional plans laid out by the Inspector of this department last year. There would be about forty boys included in the three classes that would be formed. One half day of actual tool work would be given each of these classes, and the remaining half day of the instructor's time in Summerland would be taken up with drawing instruction. The time and constitution of these classes would be arranged to work the least possible interference with the present program. The share of the outlay for this new feature of school work falling on the Municipality, including all initial expenses, and its maintenance for the portion of the year during which it would be in operation, would total only about seven hundred dollars. The annual cost thereafter would also approximate that amount.

Trustee Shields considered that the matter should stand for the present. He did not oppose the principle of Manual Training, but the time did not seem opportune to take up the additional financial burden. He suggested further that the voice of a public meeting, called solely to discuss the question be definitely sought. This would throw the onus of responsibility on to the ratepayers rather than on the Board. Trustee Johnston echoed these sentiments. Messrs. Phinney and Caldwell did not think the new course was sufficiently understood by the ratepayers generally. No definite conclusion was reached when the Board adjourned at 11 o'clock to meet again on the afternoon of Thursday, February 6th.

THE MAN WHO HELPS IS A COMMUNITY ASSET.

The man who has no time to help the community in its struggle for advancement is a man of only ordinary ability. It takes all his time and effort to make a living. The line between this man and that of the community charge is but faintly defined. To make the definition clear, let us say that the man who helps the town is a community asset, and the man who lends no such help is not a community help! The citizen to whom community affairs are not of grave concern is himself of grave concern to the community!—The Efficient Citizen.

COUNCIL HOLDS TWO SESSIONS. (Continued from page 1.)

place so economically run as Summerland, particularly as regards supervision. The Municipality has an investment of three or four hundred thousand dollars in its public utilities, and this requires careful and close attention. Mr. Mitchell's re-appointment was unanimous.

The constable was re-appointed upon condition that he puts in full time on public work, except when needed for constabulary duties.

The question of finances was touched upon. \$4500 will be available from two debentures sold the K.V.R., and one the Cement Pipe Company, together with a fourth put up as security against a \$900 loan from the K.V. Railway. This will pay for the new pipe put in between Trout Creek and the reservoir. The Council are legally permitted to borrow between \$21,000 and \$22,000, from which must be deducted the amount already due the bank. The Revee and Clerk were instructed to confer with the bank as to a loan to cover expenditures until receipts from rates and taxes are available.

THE LATE DR. J. W. ANGWIN.

Funeral at Peach Orchard.

On Saturday afternoon last, in the cemetery, Peach Orchard, the mortal remains of the late Dr. J. W. Angwin, who died on the night of the 15th inst., were laid to rest. A depressing forenoon of rain and sleet gave place about midday to fitful sunshine, allowing a large number of friends and sympathizers to attend the brief service at the residence of Dr. and Mrs. Angwin at the foot of College hill, and to follow the cortege to the cemetery. Rev. R. W. Lee, pastor of the Methodist Church, assisted by Rev. S. Everton, of Okanagan College, conducted a service at the home, impressive and touching in its simplicity, and later read the comforting words of committal over the open grave. The pall bearers were Messrs. J. E. Phinney, C. N. Borton, H. H. Elsey, and J. C. Wilson. The large concourse of silent mourners who attended these last rites attested the wide circle of friendship which held Dr. Angwin in high esteem. At the conclusion of the graveside service five members of the local Masonic lodge passed in file before the open grave, into which each threw a small spray of green, betokening sympathy at the passing of a brother of their fraternity.

James Wilmot Angwin was born at Dorchester, New Brunswick, in 1870, the only son of Rev. J. G. Angwin, now retired from the ministry of the Methodist Church, and still living, a widower, at Sydney Mines, Nova Scotia. Dr. Angwin came to Summerland in the spring of 1907 from Nova Scotia, answering the demands of his health. The best that the bracing qualities of this climate could do for the sufferer, however, was to prolong his life for seven years. He resisted the inroads of disease with an indomitable fortitude and habitual cheerfulness, always an inspiration to those with whom he came into contact. Although prevented by his precarious health from taking a large part in local activities, he came, nevertheless, to be widely known and respected in the district. His death on Thursday of last week brought to an end sufferings borne without murmur.

In his immediate family Dr. Angwin is survived by his wife to whom he was married in 1896; an only child, Gertrude, both of whom are well-known throughout this community; two sisters, Mrs. Cochrane, wife of Dr. F. J. A. Cochrane of Sydney Mines, and Mrs. (Rev.) Alfred Lund of Pott Riviere, Nova Scotia, as well as by his aged father. For them all widespread sympathy in their bereavement has found expression.

K.V.R. Extension To Nicola Valley Princeton To Be On Main Line.

Application is to be made at the present session of the Provincial Legislature by the K.V.R. for a charter extension to authorize the construction of a line from Otter Summit into Aspen Grove, which would tap Copper Mountain. Mr. L. W. Shatford, member for the Similkameen, has held several conferences recently with Mr. J. J. Warren, president of the

K.V.R., and is said to have endorsed a scheme that the Kettle Valley make arrangements with the V. V. & E. (Grant Northern) for the joint use of the latter's line to avoid paralleling. The proposed route would place Princeton on the main line of the K.V., and shorten the distance from the Okanagan to the Coast by forty miles. The original plan provided merely for a cut-off to Princeton. On account of the dissatisfaction expressed by residents in the Similkameen at the delay on the part of the V. V. & E. in not more energetically pressing con-

struction on its Hope Mountain route, it is stated that the change in route asked by the K.V.R. is being strongly endorsed by the settlers and merchants awaiting transportation facilities. It costs two thousand million dollars a year for the Christian nations of the earth to keep themselves in readiness to kill each other. Your family pays its share of it, but you do not know it. Got wise. Too many try to play the great game of life contrary to the rules.

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 6, No. 27

SUMMERLAND, B.C., JANUARY 30, 1914.

Whole No. 287

Wedding At Trout Creek.

BENTLEY—SHARP

A charmingly pretty wedding was celebrated at Trout Creek yesterday afternoon, the bride being Miss Edith May Sharp, third daughter of Mrs. J. P. Sharp of Summerland, and the groom, Mr. Walter Sydney Bentley of Nanaimo, son of Mr. George W. Bentley of Vancouver.

The ceremony took place at the residence of the bride's brother, Mr. S. F. Sharp, who also gave his sister away, Rev. R. W. Lee being the officiating minister.

A picturesque background for the wedding group was made by the flower-filled arch of a bay window in the pretty drawing-room. Sword fern, Oregon grape and tall white chrysanthemums were very effectively intermingled, and a wedding bell of flowers and foliage hung over the bride and groom as they stood together.

Miss Sharp made a pretty bride in her graceful gown of silken crepe de chine, in a very pale champagne tint. The slightly full overskirt was caught up here and there with sprays of orange blossom, and there were touches of soft lace. Her veil under a fillet of orange blossoms was of the dainty cap head-dress form and thrown back from her face, and she wore the bridegroom's present, a pearl and aquamarine pendant, and carried a bouquet of white carnations. The bridesmaid was Miss Lillian Brown who wore soft shell pink satin, and carried a bouquet of pink carnations to match her gown, a present from the bridegroom, and wore her souvenir gift, a pearl and emerald horseshoe brooch.

The bride's mother, Mrs. J. P. Sharp, wore a gown of pale grey cloth, and Mrs. S. F. Sharp, sister-in-law of the bride, a dainty looped gown of pale blue with bodice and petticoat of satin and tunic of pale blue chiffon veiling the gleaming material.

At the conclusion of the ceremony Mr. Percy Thornber played the Bridal March from "Lohengrin."

Mr. and Mrs. W. S. Bentley embarked on the s.s. "Okanagan" later in the evening, en route for a tour of the Coast cities, a crowd of friends and relations gathering on the wharf to bid them "bon voyage." The bride's travelling costume was a smartly cut suit of dark blue serge, with a toque of green velvet trimmed with silver grey fur.

ST. STEPHEN'S CHURCH RURI-DECANAL MEETING.

Rev. T. Greene of Kelowna, Rural Dean, was in the chair at the ruri-decanal synod convened in St. Stephen's Church last Tuesday. Revs. J. K. Smith, Okanagan Centre, J. L. Cleland, Penticton, H. A. Solly, and D. E. D. Robertson were also present. The rural dean delivered an interesting address, and discussion was led by Rev. J. K. Smith. Mr. W. Fosbery also attended as delegate of Synod. Rev. T. Greene officiated at evensong, which was held at the conclusion of the Synod meeting.

Rev. H. A. Solly will officiate and preach at matins and evensong in St. Stephen's next Sunday.

WOMEN'S INSTITUTE OF SUMMERLAND.

The officials of the Women's Institute for the ensuing year, elected by ballot at the recent meeting are as follows:

President, Mrs. W. H. Hayes. Vice-President, Mrs. S. Everton. Secretary-Treasurer, Mrs. George Anderson. Mrs. Granville Morgan. Directors, Mrs. Geo. Gartrell, Mrs. James Conway, Mrs. Angwin.

A meeting of the executive was held at the residence of Mrs. Lipsitt on Monday afternoon. The business was to consider and draw up the program for the year's work. An exceptionally interesting program has been framed and will be printed and in the hands of all the members shortly.

A NEW BOAT.

A. S. Hatfield of Kaleden has placed with the Summerland Boat Works an order for a tunnel launch, the first of its kind in the Valley, which will be used by the Southern Okanagan Transportation Company for freight and passenger traffic between Penticton and Okanagan Falls. Its light draught is the outstanding feature of this model, the propeller revolving in a "tunnel" let in from the bottom of the boat. The new craft will have a 22 h.p. motor, and is 32 feet by 7 feet, drawing 12 inches of water when loaded. With this boat the overland link between the two lakes will be eliminated.

F. J. Nixon expects in the course of the next few days to move into his new house now about completed.

Telephone Material Anxiously Awaited

All In Readiness For Installation Of New Switchboard and Instruments.

Though the Telephone Company's switchboard and equipment was shipped on January 14th, it has not yet arrived, though it is now expected daily. The shippers are keeping a tracer after it, and immediately upon arrival in the Valley men will be hurried from the factory to do the installation work. It is confidently expected that the shipment will arrive early next week. A letter received from the Kellogg Company assures the directors that all will be ready within contract time.

With the exception of Peach Orchard and Trout Creek practically all the line work has been done. There are three or four splices yet to be made on the cables and a few other small jobs. The office building has been completed ready for the plant.

The opinion of a Coast lawyer on the legal rights of the Okanagan Telephone Company within municipal limits is being made use of by that company, but the local company are not worrying, as all the rights and privileges that the Okanagan Company claim are valueless unless they have the subscribers, and these are all standing loyal to the home company.

BIRTHS.

GORDON—On Friday, January 23rd, at Toronto, to the wife of G. M. S. Gordon, a son.

BIAGIONI—On Sunday, January 25th, to the wife of Alfred Biagioni, a son.

DARKE—At Summerland Hospital on Tuesday, January 27th, to the wife of J. A. Darke, a daughter.

LOCKHART—At Trout Creek on Wednesday, January 28th, to the wife of Ross Lockhart, a daughter.

LOCALS.

Mrs. George Armstrong arrived from the north on Tuesday evening's boat.

The Public School Inspector paid the local schools an official visit this week. The Trustees met on Thursday afternoon to receive his report.

The Packing School which will be held in the vacant room of the High School building, commences on February 3rd. See official notice in advertising columns.

The ground is being broken today on the site for the ice house which is to be built on the hill directly above the packing house for the storage of ice to be used in the pre-cooling plant.

The progress of the K. V. R. track-laying outfit toward Naramata has this week been watched with interest from Summerland. Steel is now laid almost to the creek running through Naramata.

Carloads of large timber have been arriving during the week for the new wharf. Jas. Fyffe has been hauling the material down to the site. Actual construction has not yet begun. Mr. L. D. McCall of Peachland is Government Inspector.

A Basketball League game, Town v. College will be played in the College Gymnasium to-morrow, Saturday. Junior play will begin at 7 o'clock, the Seniors coming on at 7.30. This to permit all to take in the skating at the rink which will continue till 11.30.

One of Mr. Lewis' supporters in the recent election takes exception to a statement in the news item with reference to the contest as published in our last number. He says that at no time was any effort made to have Mr. Lewis elected, and that the admitted activities of his supporters were all on behalf of Mr. Johnson, who was elected to both Council and School Board. The revised returns of the school elections show that R. Johnson led the poll by a few votes.

SUMMERLAND SKATING CLUB MASQUERADE BALL.

A very picturesque and gay crowd of dancers filled the Empire Hall last night, the merry occasion being the annual Masquerade Ball organized by the Summerland Skating Club. Some sixty guests, more or less disguised in all the quaint, pretty or humorous costumes which ingenuity could devise, thoroughly enjoyed themselves, and though there were no prizes offered it was universally conceded that the designs adopted by both ladies and gentlemen were more effective and up-to-date than they have yet been. Many of the fair masqueraders made charmingly pretty pictures in gowns devised and wrought in Summerland.

Dancing began shortly after nine o'clock, and ended at two, excellent music being provided by Mr. and Mrs. Walters of Naramata.

Provincial Conservative Convention.

The convention of the Conservative Associations of the province concluded its sessions at Victoria last week-end. Mr. C. H. Cordy was the local representative. He acted on the credentials committee, and was the seconder of a vote of confidence in Sir Richard McBride which the convention passed.

Forty-two resolutions were submitted for discussion by the various local organizations, dealing with matters of varying interest, provincially or nationally. The scheme to establish telephone connection across the province from the eastern boundary to the Coast cities was endorsed. The need for more efficient policing of the unorganized districts, and the hardship worked on widowhood by the existing Dower Act, were also emphasized by resolution. The recommendation was made that some taxation be laid upon all male residents of the province who are not at present contributors to any form of provincial or municipal revenue.

Nanaimo was chosen as the meeting place for the next convention which will meet during the month of November of the present year.

The W.C.T.U. meets on Monday, February 2nd, at 2.30 p.m., at West Summerland. Mrs. A. B. Williams will give a paper on "The Condition of the Working Women of England."

Municipal Clerk Logie and his family are looking forward to occupying their new home which has been built on a commanding site in his orchard overlooking the lake. The house will be ready for occupancy next week.

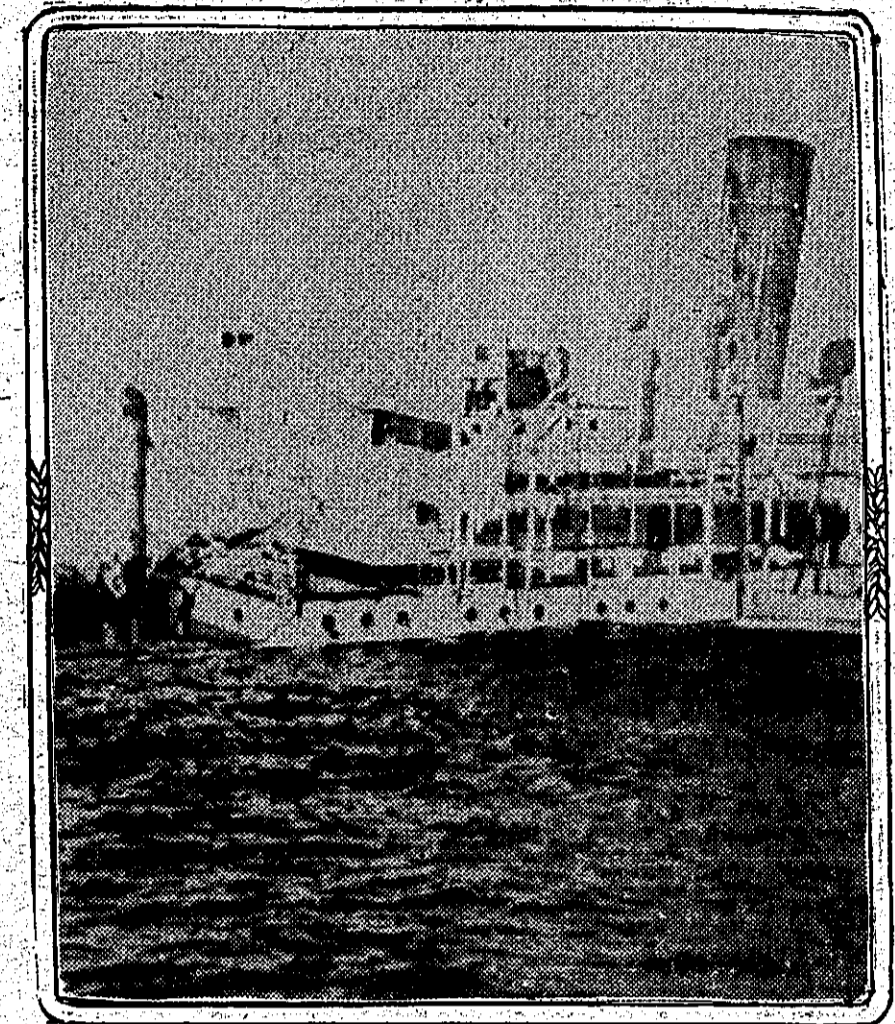

Several of the leaders of the Laymen's Missionary Movement are expected to visit the Okanagan Valley the latter part of February. Three speakers will, according to the schedule, be in Summerland on the 26th, when a men's banquet will be given.

To-morrow (Saturday) is the last day on which dog taxes may be paid and the discount obtained. Through some oversight the date named in the dog tax notice read last week as 1st of January instead of 31st. Better mail your cheque or otherwise remit not later than Saturday or the discount will be lost.

In last week's School Trustees' report the reason given for the High School Principal's request that the school be opened at 9 o'clock was that he had two classes to teach. This should have read three, the classes being understood as grades. As a matter of fact the one teacher is instructor in all the subjects of the three years High School work.

Mr. and Mrs. J. M. Robinson plan to leave England either this week or next, and will be accompanied by their two youngest daughters whom they will leave at Moulton College, Toronto. After a short stay at Toronto Mr. and Mrs. Robinson will again take up their residence in their "home on the hill" some time next month. The rest of the family will remain in England until March when they will be welcomed home in Summerland and Naramata.

The Royal Mail Liner "Cobequid" Stranded on Nova Scotian Coast.

Imagine the feelings of the passengers and crew aboard the "Cobequid" as she slowly settled in the icy waters with nothing in sight but the cold gray horizon. They had one consolation, however. Thanks to the wireless they had sent out the distress signal and had received assurances that rescuers were coming with all possible speed.

This photograph shows the steamship in the midst of an ice-decked sea, slowly breaking up under the pounding of the waves. Due to the wonders of wireless, her passengers and crew were saved to the last man. In the olden days all would have perished and perhaps their fate would have been a mystery.

Burns Anniversary Celebration.

There was a large gathering of the clans' from all portions of the community at the College Gymnasium, on Friday evening last, when the Burns Anniversary was commemorated in Summerland by a Scotch concert. The local St. Andrew's and Caledonian Society had the arrangements in hand, and there can be no question as to the success which the society achieved in the organization of a long and varied program, redolent of Burns' land in every item. The largest crowd which the spacious gymnasium has held for some time was attracted by the popular admission price of 25 cents. The program represented a well-chosen variety, and the frequent encores showed that the "Auld Scotch Songs" made their customary wide appeal.

The temporary indisposition of Mrs. G. M. Ross, who was to have sung "My Ain Folk," occasioned some disappointment, but there was much to compensate. Mrs. G. W. Morfitt's "Robin Adair" was received as that popular ballad always is. Mr. George Fisher gave to the Scotch atmosphere its finishing touches with his kilts, and received an encore for "Roamin' in the Gloamin'." His duet, sung with Mrs. G. W. Lang, "The Crookit Bawbee," also drew forth much appreciative response. Mrs. Jas. Clark and Mr. T. G. Beavis were recalled and gave as extra selections, "The Auld Scotch Songs," and "The Cameron Men," respectively.

Much of the credit for the successful evening was due to Mrs. D. L. Sutherland, who acted as an untiring and versatile accompanist throughout almost the entire program. Rev. C. H. Daly, chairman, announced the program, which was as follows:

- Gramophone Selections.
- Song, "A' the Airts," D. McKellar
 - Song, "Robin Adair," Mrs. G. W. Morfitt
 - Melodeon Selections, T. Ramany
 - Song, "A Hundred Pipers," Alex. Smith
 - Song, "Auld Robin Gray," Miss McLaren
 - Duet, "Mrs. G. Lang & G. Fisher
 - Song, "The Crookit Bawbee," T. G. Bonvis
 - Song, "Mary of Argyle,"
 - Piano Solo, Miss Beatrice Lang.
 - Song, "Roamin' in the Gloamin'," G. Fisher.
 - Song, "The Rowan Tree," Mrs. Jas. Clark

Pruning Schools.

Dept. of Agriculture To Open Such On Similar Lines As Packing Schools.

(Special to the Review.)

Victoria, B.C., January 16th.—The Department of Agriculture, in accordance with its policy of past years, of providing means whereby the fruit growers may receive special training in the more difficult branches of their work, has decided to hold Pruning Schools at a number of points during the coming winter. The Pruning Schools will be conducted along lines similar to the Packing Schools.

The Department of Agriculture will provide a competent instructor, and pay his expenses. The local administration of the Pruning Schools will be placed in the hands of a responsible body, such as the Farmers' Institute, the Fruit Growers' Association, or the Board of Trade, who will be responsible for the guarantee of a minimum of eight pupils, but not more than twelve, with the proper qualifications, at a fee of two dollars each, to take ten lessons of three hours a lesson, the school extending over five days. Where the number of pupils in a district justifies, two pruning schools may be arranged for, in which the minimum guarantee will be sixteen pupils, and not over twenty-four.

The local organization will also provide an orchard or orchards, where the instructor may hold the pruning classes, and a hall or room in which the lecture may be held.

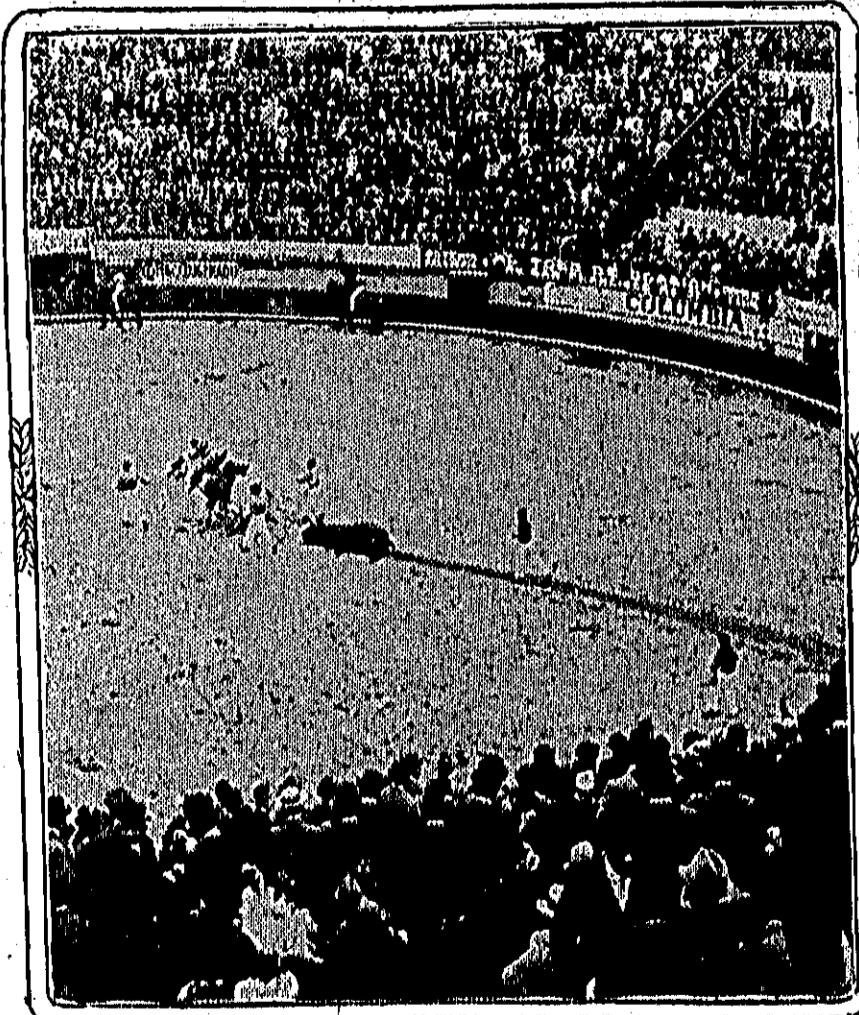

Besides the actual practice in the orchard, of which the course will consist chiefly, where the pupil will prune trees under the supervision of the instructor, there will be several lectures on the following subjects:

- 1 The theory of pruning.
- 2 Formation of fruit buds.
- 3 Pruning as related to plant growth.
- 4 Top-grafting undesirable varieties.
- 5 First aid to injured trees.

The pupils will provide their own pruning tools, the necessary tools being a pair of pruning shears, a saw, and a pocket whetstone. A pruning pole and a light ladder may also be necessary for large trees.

- Reading, J. G. Robertson
Song, "Tam o' Shanter."
Song, "Duncan Gray," J. O. Smith
Song, "Auld Lang Syne."

Bull Fight or Revolutionary Fight—Take Your Choice In Mexico.

Mexicans do love excitement. Unfortunately the free and independent citizenry of the United States of Mexico have grown rather accustomed to revolutions, especially revolutions in which they are unable to take part. Therefore, while Emiliano Zapata, bandit revolutionist and patriot, issues statements to the effect that he will raid Mexico City, shoot President Huerta, and do other terrible things to his ministers, the populace of Mexico City must have excitement. The answer is the bull fight. While battles rage miles away, while the fate of the administration and perhaps the republic, hangs in the balance, citizens of Mexico City by the thousands flock to the bull fight and cheer madly for the matador and plender. A famous Mexican matador becomes more popular with the people at large than even a successful bandit masquerading in the guise of a popular deliverer.

Corporation of the District Municipality of Summerland

AUDITORS' REPORT.

Summerland, B.C.,
January 3rd, 1914.

We have made a quarterly audit of the books of the Municipality and have found the receipts in order and vouchers for all disbursements. The books are in excellent condition.

The year under review has been a difficult one for municipalities, and, as future financial conditions are uncertain, we would urge the Council to be extremely cautious in incurring new liabilities.

Respectfully submitted,

(Sgd.) CREHAN, MOUAT & CO.,

Chartered Accountants and Municipal Auditors.

To the Reeve and Council,
District Municipality of Summerland.
Gentlemen,
Attached hereto, and forming part of this Report, find:—
(A) Statement of Receipts and Disbursements.
(B) Statement re Public Utilities.
(C) Statement of Board of School Trustees.
(D) Statement of Assets and Liabilities.

Statement of Receipts and Disbursements for the Year ending December 31st, 1913

BY-LAW No. 53
Being a By-Law to License The Summerland Telephone Company, Limited

WHEREAS the Summerland Telephone Company Limited, on the nineteenth day of January, one thousand nine hundred and fourteen, entered into an agreement with The Corporation of the District Municipality of Summerland, which said Agreement is in the words and figures following:—

MEMORANDUM OF AGREEMENT MADE THIS 19th DAY OF JANUARY, A.D. 1914.

BETWEEN
The Corporation of the District Municipality of Summerland, in the Province of British Columbia, hereinafter called the Municipality of the First Part,
AND
Summerland Telephone Company Limited, a body corporate under the laws of said Province, with its registered office at Summerland, in said Province, hereinafter called the Company of the Second Part,

WHEREAS the Company has now under construction and installation an up-to-date Telephone System, within the corporate limits of the Municipality, and has applied to the Municipality for a license or franchise to erect poles, wires, cables and other necessary apparatus, on the streets and lanes within said limits, and the Municipality has agreed to grant the same, subject to the terms hereof, and subject also to the same being ratified and assented to by the electors of the Municipality in a By-law to be submitted to them as required by the Statute Law on that behalf.

NOW THIS AGREEMENT WITNESSETH THAT, in consideration of the premises and of the sum of One Dollar (\$1.00), now paid by the Company to the Municipality, the receipt whereof is hereby acknowledged, the parties hereto each covenant, promise and agree to and with the other of them as follows:—

FIRST—That the Company shall have the right and privilege to construct, instal and complete the said telephone system and to make any extensions thereof within said limits and to carry on a general telephone business within said limits.

SECOND—That the said Company may construct, erect, operate and maintain, a line or lines of telephone along the sides of, and across and under any highways, streets, lanes, alleyways, public bridges or any such places, for the purpose of erecting, operating and maintaining its line or lines of telephones along the sides of or across or under the same, and to construct, erect and maintain such, and so many poles of standard size, and other works and devices as the said Company may deem necessary for making, completing, supporting, using, working, operating and maintaining, the system of communication by telephone, and may stretch wires thereon.

THIRD—That the Company agree that, if, in the interests of the Municipality, by reason of congestion or otherwise, the Municipality shall deem it necessary that the Company's lines should be placed underground, that it will, within a reasonable time after notice from the Municipality to that effect, remove all its overhead wires and poles within any congested district in said limits and will maintain its system within such district by underground cables.

FOURTH—That the poles, wire and cables required to instal the said telephone system shall be placed by the said Company in such places and at such distances and of such a height as shall be satisfactory to the Municipality or to the person delegated by the Municipality to oversee the placing of such poles, wire and cables.

FRIDAY, JANUARY 30, 1914.

EVERYONE SHOULD VOTE.

THE ratepayers of the municipality will be called upon to give their assent to two by-laws on the 7th of next month. The full text of these measures is published elsewhere in this issue of the Review.

Both these by-laws require a majority of three-fifths of the total votes cast to give them binding force. If this is not forthcoming, particularly in the case of the K.V.R. agreement, the Municipality will find itself awkwardly placed.

Throw Away That Makeshift

You are using for a Ledger and USE ONE LIKE THIS

Our PROGRESS LEDGER

With this you may have your Customers' ledger accounts and also the Customer's current monthly statement, entered right up to date, both before you at one opening of the book.

The last few years have witnessed a marked advance in simplifying and improving retail accounting. Much time is saved and an accurate knowledge of your business is easily obtainable at all times.

This ledger system is one of the chief factors in bringing this about.

Let us explain it.

Review Publishing Company.

BY-LAW No. 59.—(Continued from p. 3.)

FIFTH—The said system, now in operation and any extensions thereof with requisite exchanges, shall be first-class and up-to-date in every respect, and the said Company will at all times hereafter, properly and efficiently maintain, repair and operate the same.

SIXTH—In the event of the said Company allowing their telephone plant to become in a dilapidated condition, and thus failing to give a good up-to-date service, commensurate with the requirements of the Municipality, the Municipality may call upon the Company to place their system in good condition and to furnish a good service.

(A) Should the Company neglect, or fail to comply with the request of the Municipality, as laid down in the preceding section, the Municipality may call for the appointment of a Board of Arbitrators, who will have power to examine into the books and affairs of the Company.

(B) If the Board of Arbitrators find the service being supplied by the Company is faulty, they shall have the power to call upon the Company to make such changes as will bring the efficiency of the said plant up-to-date.

(C) The Company shall be allowed a reasonable length of time in which to make the necessary additions or alterations to bring about the desired result.

(D) If, after being given one month's notice, the Company fail or neglect to obey the mandate of the Board of Arbitrators, this Agreement shall become null and void, and all rights thereunder shall terminate, or the Municipality, by giving one month's notice of their intention so to do, may take over the plant of the Company at a valuation to be fixed by the Board of Arbitrators.

(E) All matters submitted to the Board of Arbitrators, by virtue of this Agreement, shall be decided by them with as little delay as possible, and their decision shall be final.

(F) The aforesaid Board of Arbitrators shall be appointed as provided for in the British Columbia Arbitration Act.

SEVENTH—The Municipality agrees to furnish the Company, free of further charge, such electricity as required to charge the instruments of the Company. Such charging is to be done at such times of the day as shall be suitable to the Municipality, not exceeding five (5) kilowatts per day.

EIGHTH—The Municipality agrees to allow the Company, during the existence of this Agreement, to use the poles of the Electric Light System, belonging to the Municipality, in so far as such use does not interfere with or injure the maintenance or efficiency of said electric light system.

NINTH—The Municipality shall forthwith pass a By-law granting to the Company the rights and privileges necessary to it to construct, install, operate and maintain the said Telephone System, and shall submit the same to the electors of the Municipality for their assent as required by law.

This Agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns for a period of ten years from the date of this Agreement.

IN WITNESS WHEREOF the Municipality has hereunto affixed its Corporate Seal, attested by the hands of its Reeve and Clerk; and the Company has hereunto affixed its Corporate Seal attested by the hands of the proper officers in that behalf.

SIGNED, SEALED AND DELIVERED in the presence of JAS. RITCHIE, Reeve of Municipality, J. L. LOGIE, Municipal Clerk, H. C. MELLOR, President, K. S. HOGG, Secretary.

AND WHEREAS in order to carry out the said Agreement, it is expedient to pass this By-law.

BE IT THEREFORE ENACTED by the Reeve and Council of the Corporation of the District of Summerland in open meeting assembled as follows:—

1. That the said, The Summerland Telephone Company, Limited, be and they are hereby licensed to install a telephone system within the Corporate limits of the Municipality of Summerland and to carry on a telephone business within such limits for a period of ten years from date of said Agreement.

2. The said Company, for the said period of ten (10) years, are hereby authorized to construct, erect, operate and maintain a line or lines of telephones along the side of, and across or under any highways, streets, lanes, alleyways, public bridges or any such places, in or throughout the corporate limits of the said Municipality of Summerland; and also to enter upon any such highways, streets, lanes, alleyways, public bridges or any such places for the purpose of erecting, operating and maintaining its line or lines of telephone along the sides of, or across or under the same and to construct, erect and maintain such and so many poles and other works and devices as the Company deem necessary for making, completing, supporting, using, working, operating and maintaining the system of communication by telephone and may stretch wires thereon.

3. The licenses and authorities hereby granted to the said Company are subject however to the terms and conditions of the Agreement above recited.

4. This By-law shall, before the final passage thereof, receive the assent of the Electors of the said Municipality of Summerland, in the manner provided by the "Municipal Clausos Act, 1911, and Amending Acts."

Done and passed by the Municipal Council this Twenty-second day of January, 1914.

Received the assent of the Electors of the District Municipality of Summerland, this day of 1914.

Reconsidered and finally passed by the Municipal Council the day of 1914.

Reeve. Clerk.

Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Office, West Summerland, for Wards Two and Three, between the hours of nine a.m. and seven p.m. on the seventh day of February, 1914. Municipal Clerk.

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

Miss Vera Roe is now in charge of the Drug Store here, which, we hear, will shortly be under entirely new management. Stock-taking is going forward busily this week and we will be in a position to make a further interesting announcement next week.

The "Skookum" has been taken up to Kelowna and put under repair at Messrs. A. J. Jones. By the courtesy of the C.P.R. the "Castlegar" was instructed to tow her up the lake in charge of Capt. P. S. Roe, and the journey was easily accomplished. Our excellent little ferry will be back in commission about the end of March, thoroughly re-constructed and re-decorated in a manner that will give us a perfectly up-to-date and comfortable means of transit across the lake.

You will save money by doing so.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Current Events — OF — Town & District

A visitor from Summerland to Mr. J. W. S. Logie this week was Mr. Nelson Cooper.

Mr. and Mrs. V. L. Watson spent the week-end with the latter's parents, Mr. and Mrs. H. J. Wells.

Mrs. Languedoc is spending a few days this week at Summerland as the guest of Mrs. W. J. Robinson.

Miss Bessie Mitchell came up from Penticton to see her parents this week, accompanied by Miss Lee.

The Svea Hotel has changed hands, having been sold by Augustin, to Won Fong, who was recently the cook there.

A billiard table license has been obtained by the Hotel Naramata. A game can now be enjoyed at the very fine table there.

The Okanagan Trust Company's warehouse on the wharf, formerly used by Grant Smith & Co., is now being rented by Mr. Harold Endacott.

Among many other merry sleighing parties was one given by Harold Mitchell, who took a large party of the younger folk to Penticton and back.

Mr. J. L. Logie of Summerland spent a while in Naramata and lunched at the Hotel Naramata one day this week-end, on his way to Penticton.

Mr. T. Doswell, with his elder little son, was a visitor to Summerland Hospital this week. Mrs. Doswell and the recently arrived son are progressing very well.

A number of Naramattans attended the Burns Banquet at the Penticton Hotel on Friday night last. We did not know we had so many ardent Scots "among us."

Walter Talbot celebrated his 20th birthday at the Hotel Naramata on Monday, and was the recipient of many congratulations. Two trips across the lake to Summerland and back constituted Walter's chosen program of enjoyment.

WHY HE REFUSED.

A young theologian named Fiddle Refused to accept his degree, "For," said he, "'Tis enough to be Fiddle, Without being Fiddle, D.D."

—Philadelphia Public Ledger.

A whist drive takes place at the Unity Club this (Friday) evening, the hostesses being Mrs. Cook and Miss Ruth Chambers.

The government has conceded a Savings Bank department in connection with the Post Office which will be open on Monday, February 2nd, for the benefit of depositors.

Mrs. Cash and Mr. Bruce Cash dined with Dr. Will and Mr. J. O. Robinson at the Hotel Naramata on Saturday night, and a pleasant little card party was afterwards enjoyed.

Mrs. Dan McKay and her daughter, Miss Clara Palmer, have gone on a visit to Hamiota, Manitoba, where they will be the guests of Mrs. John Anderson, Mrs. McKay's elder daughter.

One of the pressing needs of Naramata has been more fresh milk, and now that Mr. J. Aldridge has purchased a good cow from Mr. Woodworth of Summerland, the further supply will be forthcoming.

The school children had a glorious time one afternoon this week. Mr. Tony Manzini treating all of them to a sleigh ride up and around the benches. The "treat" went off in two merry parties, and returning gave hearty cheers for their kindly host.

Winter sports are occupying every moment of recreation here, and sleighing parties and bob-sleighing, and coasting are all the rage. The weather is perfect, and the snow in capital condition, while the bright sunshine makes a dazzling winter picture in this little Switzerland of Canada.

A hurried journey up to Tunnel Camp was taken by Dr. W. Robinson late on Monday night, the foreman of the station gang, D. C. Anderson, being taken seriously ill. The patient was brought down on a sleigh by the doctor and cared for at our little hospital and was then sent up to the Railway Hospital at Mission.

A delightful sleigh party was enjoyed by the guests at the Hotel Naramata and some friends on Sunday. A round dozen drove up to the Tunnel Camp, and after two hours' run in the lightly falling snow were ready for the excellent lunch at which Mr. Brookes of the camp was their host. The party returned later in the afternoon to the hotel where an afternoon tea enjoyed around the blazing log fire in the rotunda was a capital finish to the merry trip.

Sudden Death of Railway Camp Worker.

The sudden death of one of the workers at the Tunnel Camp at our little hospital necessitated an autopsy there this week to ascertain the exact cause of death. The man, a Finn, named John Smith, aged about forty, had apparently been suffering for some days before making any complaint, and on Saturday came into town. He was brought into the little temporary hospital about ten o'clock on Sunday morning, and in spite of the unremitting attention of Dr. Robinson and his nurse, Mr. Tony Manzini, Smith died four hours later. Dr. Robinson diagnosed the cause of death as acute peritonitis, accelerated by heart complaint of old standing.

The remains of the unfortunate man were laid to rest in the little cemetery on Monday, Rev. W. P. Bunt, reading the burial service, and some of the camp workers attending.

P. C. MacDonald has charge of deceased's effects, and is making every effort to trace the sole relative, a sister, said to be resident in Vasa, Finland, but whose complete address was not ascertained.

Our Literary Society.

The Naramata Literary Society was called into being at an enthusiastic meeting held in the church basement on Monday night, Mr. Fred L. Roe in the chair, and Mr. Harold Steers acting secretary.

At the preliminary meeting recently held, a committee consisting of Messrs. T. H. Boothe, A. B. Richardson, and W. P. Bunt, was appointed to frame a constitution and by-laws. These were presented and passed on Monday night and the program of the Literary Society will include most interesting debates on topics of general and up-to-date interest. Meetings will be held every first and third Monday in each month at eight o'clock until March, and the new session will open some time next October.

The following officers were elected to serve:

Hon. Pres., Mr. J. A. Block.
Pres., Mr. A. B. Richardson.
Vice-Pres., Mrs. Cash
and Mr. Walters.

Secretary, Miss Davies.
Treasurer, Mr. Bartlett.

Before the meeting concluded Messrs. Roe and Steers vacated the chair and secretary's position, and the newly elected 2nd Vice-President, Mr. Walters, and Miss Davies took charge.

The next meeting will be on Monday, February 2nd.

Dance at Hotel Naramata

A very bright and pretty little dance was that enjoyed by members of the Unity Club and their friends on Friday night. There were fewer dancers than usual, but that only gave those who were present more space to enjoy the excellent polished floor of the large hall, which was in perfect condition. As it was a beautiful night several guests crossed from Summerland. The program contained one or two new numbers, and Mr. and Mrs. Walters played several particularly crisp and tuneful waltzes. A pretty feature was the "hesitation waltz," and an occasional couple broke out into some of the daintier steps of the "Tango," which added gaiety and interest to the scene. The next club dance is the Valentine Masquerade Ball to be given on St. Valentine's Day, February 14th. Much fun is being anticipated.

A Horse Case.

Augustin, the late proprietor of the Svea Hotel, had to go down to Penticton this week to answer a charge brought against him by Chief of Police Roche of that place in connection with the recent sale of a horse. The purchaser, Mr. Roche, complained that the horse was lame when sold to him by Augustin, but the latter contended that the animal, a very fine one, was sound in wind and limb at the time of the purchase.

The case was finally settled out of court on Tuesday to the satisfaction of both parties.

Both Augustin and Green, lately in charge of the Svea, left Naramata on Wednesday's boat, having completed the sale of the hotel.

If you want to sell you must advertise.

B.C. Apples Again Win Important Awards.

Hon. J. H. Turner, Agent-General in London for B.C., cabled Sir Richard McBride on the 14th November that the biggest awards offered had been won by British Columbia, in open competition at Sheffield and Edinburgh, for display of apples.

Mr. Cunningham, B.C. Fruit Inspector, states that B.C. apples are in big demand, and that 100 carloads could have been sold now, had they been obtainable.

The United States fruit growers filled the orders. B.C. fruit growers and prospective fruit growers, act promptly, and enlarge your orchard plans.

We can supply you with all kinds of fruit tree stock to suit the special climatic conditions of each district.

Our prices for fruit tree stock this year are cheaper by nearly one-half, than heretofore offered to B.C. fruit growers, viz., \$8 to \$12 per 100; all grown in our own province, such as Jonathan, Spitzenberg, Baldwin, Northern Spy, and more than 20 other choice varieties.

Patronize home production, and make our province the fruit granary of the West.

Don't forget the beautifying of your home plot. In our stock of over \$100,000 we can meet the most cultured and aesthetic taste, to make home environments a centre of beauty. Evergreen stock, shade trees, roses, flowering shrubbery, bulbs, flowering plants etc. Catalogues mailed free on application.

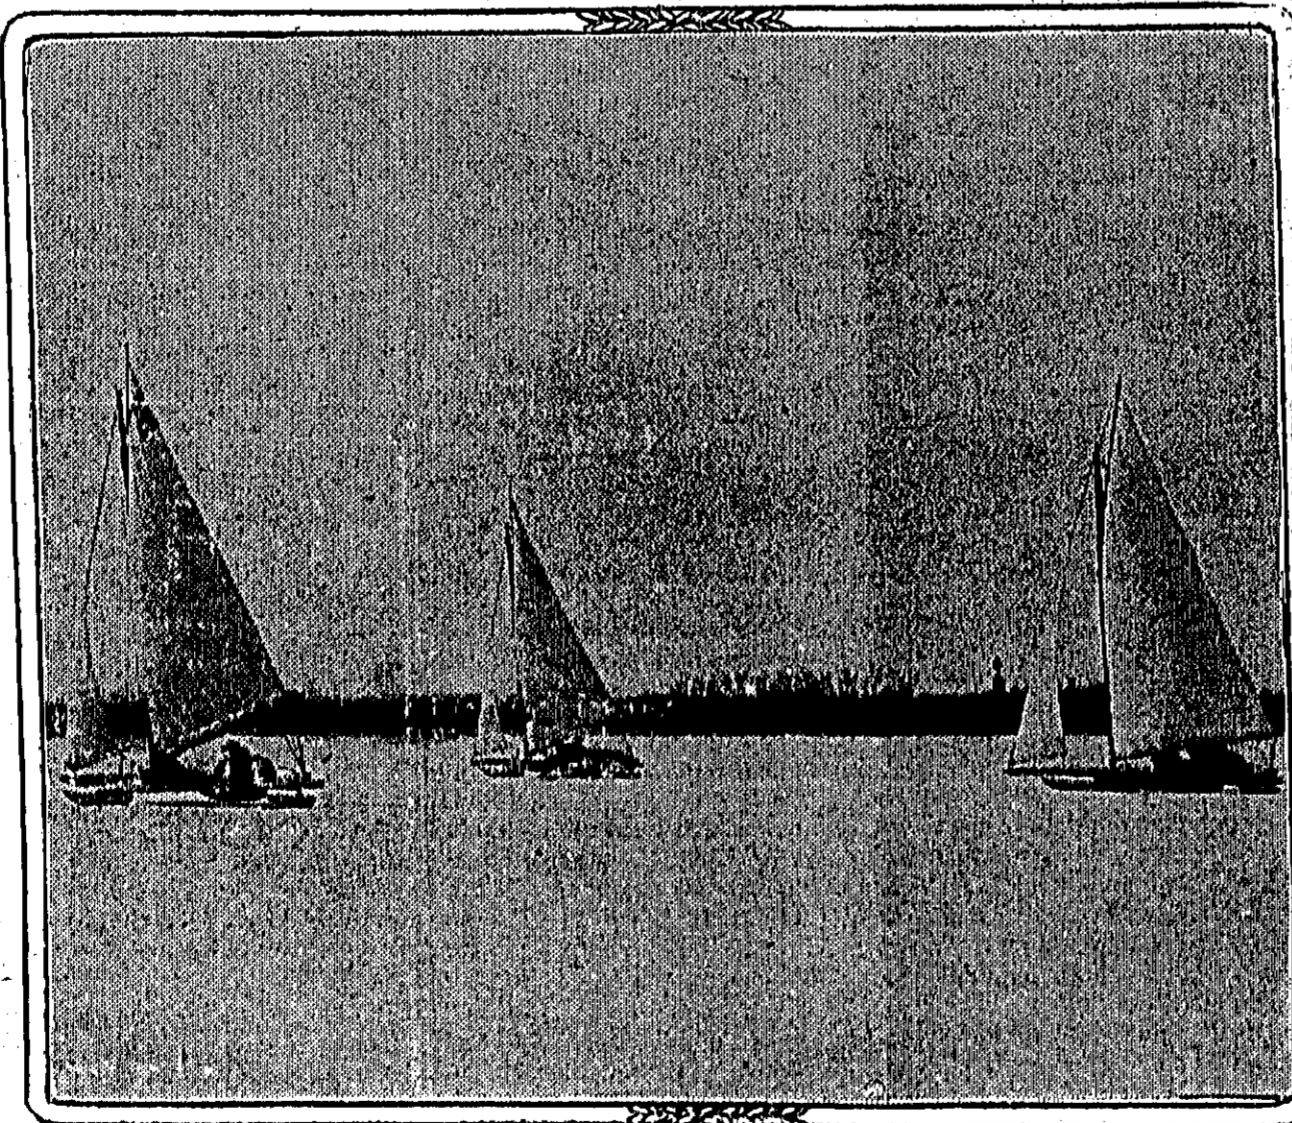

Holly for Hedges, up to 12 inches, \$20 per 100; Privat, 2 1/2 ins., \$30 per 1,000; Laurel, 2 to 2 1/2 ins., \$20 to \$30 per 100.

THE INTERNATIONAL SANITARY HOVER

THE PERFECT BROODING DEVICE

Hovers 100 Chicks, is fireproof and vermin proof. There is nothing complicated about it. It is warmest at the curtain and coolest anywhere. No crowding or smothering of chicks; no kneeling in dust and mud to get at the lamp. All one has to do to set it up, is to set it down and light the lamp. Used on many of the largest poultry farms in America.
For particulars and prices apply to—

The journey of high honor lies not in smooth ways.—Sir Philip Sidney.

The guilty are always hurt, even if no one is "after" them—a guilty conscience needs no accuser.

Adversity proves the man, and is as the storm to the tree, taking deeper root or toppling over.

Do you remember how your plans went up in smoke when you started out to set the world on fire?

Not creed nor splendid spire, classic music, motions and mummery, eloquent oratory, none of these save the sinner. "Put off the old, put on the new," old matter, new spirit.

BY-LAW No. 54

A By-Law to ratify an Agreement with The Kettle Valley Railway Company.

WHEREAS on the nineteenth day of January in the year of our Lord one thousand nine hundred and fourteen the Municipality entered into an Agreement with the Kettle Valley Railway Company to convey and sell to them at their tank near Mile Post 9 within the Municipality water from the waterworks system, which said Agreement is in the words and figures following:—

ARTICLES OF AGREEMENT
made in duplicate the Nineteenth day of January in the year of our Lord one thousand nine hundred and fourteen.
Between
THE DISTRICT MUNICIPALITY OF SUMMERLAND, in the Province of British Columbia, hereinafter called the Municipality,
OF THE FIRST PART

And
THE KETTLE VALLEY RAILWAY COMPANY, duly incorporated by an Act of the Parliament of Canada, transacting business in the said Province, hereinafter called the Railway,
OF THE SECOND PART.

WHEREAS the Municipality is possessed of a waterworks system through which it has agreed to convey and sell to the Railway water for the price and subject to the terms and conditions hereinafter mentioned; NOW THIS AGREEMENT WITNESSETH that in consideration of the premises the parties hereto each covenant and agree to and with the other of them as follows:—

1. The Municipality shall at all times during the currency of this Agreement convey through its waterworks system to a point on the outside boundary of the Railway lands near Mile Post 9 in the Municipality of Summerland from whence the Railway may take same through its own pipes to a tank and there use such water for its purposes. The water shall be clear and suitable for the purposes of the Railway and the Municipality shall always have available sufficient quantities so that the Railway may take from time to time during each day and as and when required in the aggregate Fifty thousand (50,000) gallons.
2. The Municipality shall at all times during the currency hereof keep and maintain the said waterworks system in a good state of repair and preserve the sources of supply so that the said quantities of water may be delivered. The Railway shall pay the Municipality for such water so delivered and used by it Twenty-five (\$25.00) Dollars per month, unless the daily average in any month shall exceed Twenty thousand (20,000) gallons in which event the Railway shall pay Two and one-half (2½) cents for each additional one thousand (1,000) gallons so conveyed and used, such payments shall be made monthly. The Municipality shall at its own expense provide and keep in proper running order during the currency hereof some standard make of water meter or gauge by which the water to be used by the Railway may be accurately measured.
3. The Municipality shall forthwith submit to the electors of the Municipality a by-law to ratify this Agreement in the same manner as is prescribed by the Municipal Act for obtaining their consent to by-laws authorizing the borrowing of moneys not repayable within the municipal year.
4. The Municipality shall at all times at its own expense perform all acts, matters and things necessary in the law to preserve in full force and effect all water licenses and rights now held, or hereafter to be acquired by them, which they agree to acquire if necessary, in order to enable them to have available a supply of water at the point of delivery above mentioned to meet the requirements of the Railway as above mentioned.
5. This Agreement shall have no force or effect until the same is ratified by the electors as aforesaid.
6. This Agreement shall be in full force for a period of ten years from the date hereof.

THIS AGREEMENT shall be binding upon and enure to the benefit of as well the parties hereto as their successors and assigns.

IN WITNESS WHEREOF the Municipality has caused these presents to be signed by the hands of its Reeve and Clerk and its corporate seal to be affixed hereto and the Railway has caused these presents to be signed by its Secretary and its common seal to be affixed hereto.

SIGNED, SEALED AND DELIVERED Corporation of the District Municipality of Summerland
by the Municipality in the Presence of J. L. Logie, Clerk.

SIGNED, SEALED AND DELIVERED Kettle Valley Railway Company.
by the Railway in the presence of C. B. Gordon, Secretary.

AND WHEREAS it is deemed expedient to pass this By-law ratifying the said agreement subject to the same being approved by the electors of the Municipality;

NOW THEREFORE, the Reeve and Council of the District Municipality of Summerland in open meeting assembled enact as follows:

1. That the said Agreement of the Nineteenth day of January in the year of our Lord one thousand nine hundred and fourteen made between the Municipality and The Kettle Valley Railway Company be and the same is hereby ratified and confirmed subject to the electors of the Municipality assenting thereto.
2. This By-law shall before the final passage hereof receive the assent of the electors of the Municipality in the manner provided by the Municipal Act for obtaining such assent on by-laws for borrowing moneys not repayable within the municipal year.
3. This by-law shall come into force and take effect on the day of February, A.D. 1914.
Passed by the Municipal Council the 22nd day of January, A.D. 1914.
Received the assent of the electors of the Municipality on the day of February, A.D. 1914.
Reconsidered and finally passed by the Municipal Council the day of February, A.D. 1914.

Reeve Clerk.
Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Office, West Summerland, for Wards Two and Three, between the hours of nine a.m. and seven p.m. on the seventh day of February, 1914.
Municipal Clerk.

BIG LIBERAL MEETING AT VERNON

An audience gathered from all parts of the Valley faced Messrs. H. C. Brewster and M. A. Macdonald, leaders of the provincial Liberal party, who are making a tour of this province, when they held a crowded meeting last week at Vernon in the party interests. Dr. K. C. Macdonald, who contested the constituency with Hon. Martin

Burrell at the last Federal election, presided at the meeting, which was held in the Empress Theatre.
Mr. Brewster was the principal speaker. He dwelt strongly upon what he termed the maladministration of the lands of the province by the present government, and charged also that the financial status of the province was by no means as rosy as it was usually represented.

Weight Quality Measure Value

The Square Grocery Store

COPY RIGHT 1910 BY C. ZIMMERMAN CO.

To be "on the square" is so essential in our life that only those who practice it can hope to win out. Squareness means friendship between a store and its customers.

ON this rock of honesty has our growing business been built. You find sixteen ounces to the pound or four quarts to the peck, in your purchases—the quality and value of our groceries are as sure as the rising sun. The high standard of our customers is a safe guide to our methods.

It is nice to know with whom you deal, isn't it? We are always the same—the Square Deal Grocery.

insertion must be authenticated by the name and
address of the writer, not necessarily for publica-
tion. The opinions of correspondents are not
necessarily those of the Review.

The Editor, Summerland Review.

Dear Sir,
We are often reminded of the
need of reform in laws relating to
women, by some neighbor or friend
incurring hardship through these
laws. But few have exact knowl-
edge regarding them. Thus the
following statement of some of the
more unjust laws will be of interest.

1. A man can will the whole of
his property away from his wife
and children and leave them entire-
ly destitute.

2. If a man dies without a will,
and leaves a wife and children, the
wife gets one-third of the personal
estate absolutely, but she gets
only the use of one-third of the real
estate for life. In this country
nearly all property is real estate,
and the use of one-third generally
amounts to nothing.

3. If a man dies without a will,
leaving a wife and no children, the
wife gets half of everything, and
the relatives of the husband get the
other half. If the husband has no
relatives the other half goes to the
government.

4. A woman has no right to her
own children during the life of the
husband. She may apply to the
supreme court for the custody of
the children, and the court may
give them to her if it sees fit, but
she must show that there is some
objection to the husband. In any
case, very few women have the
money to fight a case in the su-
preme court. The father and
mother should be equal guardi-
ans of the children, as in many
of the States.

5. No woman, except one who
is the head of a family (that is to
say, a widow with children) can
homestead or pre-empt land any-
where in Western Canada. In the
United States single women have
been taking up homesteads for
years.

6. There is no dower law to
prevent the husband selling the
family property without the con-
sent of the wife. In Eastern Can-
ada, and in most of the States, a
man cannot sell land without his
wife's consent, and she is entitled
to get a third out of the sale.

The legal position assigned to a
wife by the laws is so poor that a
legend has arisen that the laws
were framed for the squaw wives
of the early settlers. This oft-
repeated story is fictitious. The
B.C. law is simply the old English
law adopted in 1858, and still al-
most wholly unreformed; and hap-
pens to be worse as regards women
and children than that of other
European countries, and of Scot-
land, which was founded on Roman
law.

Yours truly,
JUSTICIA.
Kelowna, B.C.
Jan. 24, 1914.

MAJOR HUTTON AND THE
UNIVERSITY.

Victoria, B.C.,
26th Jan., 1914.
The Editor, Summerland Review.

Dear Sir,
I cannot be held responsible for
the opinion of the Editor of the
Week or any other publication with
which I have absolutely no connec-
tion; but in order to allay any
misgivings of your correspondent
'Middle Daughter,' I enclose you
a copy of the letter in question.
This will, I trust, show conclusively
that I had neither the foolishness
nor the discourtesy to allege that
the stock-in-trade of every Cana-
dian controversialist is personal
abuse.

Yours faithfully,
E. E. HUTTON.

Following is a copy of the letter
from Major Hutton to the Colonist:

The Editor of the Victoria Colonist.
Dear Sir,

As you have done me the honor
to introduce rather a personal
element into the discussion of Dr.
Westbrook's University plan, I
trust you will have the courtesy to
give me space for reply.
It is true that I am an unworthy
son of Oxford University, but,
though my Alma Mater is extreme-
ly ancient and may not have some
of the machinery for turning out
practical business men that young-
or institutions have, she is still in
the enjoyment of all her faculties
and a mighty factor in Anglo-Saxon
thought and education. Though it
is more than thirty years since I
graduated, and I have forgotten
many of her teachings, I can still

College Notes.

Dr. Sawyer is at Regina attend-
ing the meetings of the Baptist
Union of Western Canada, being
held there this week.

A black cloud has appeared on
the horizon in the form of the mid-
year academic exams. Already it
seems to have driven many of the
students to cover, as social activi-
ties are not receiving the usual
support.

The regular Sunday evening song
service was held in the boys' par-
lor instead of Ritchie Hall last Sun-
day. The boys had given their
room a special 'fixing-up' for the
occasion. Fay Walrod officiated
at the piano.

Rev. R. W. Lee addressed the
meeting of the Y.W. and Y.M.C.A.
in the chapel on Tuesday night,
and the students listened to a very
forceful and helpful talk. Miss
Clay sang a solo which was much
appreciated. One of the students
will speak at the next meeting.

Last Friday night the Commer-
cial Class gave a reception to the
students and faculty of the Col-
lege. Thanks to the diligence of
its members a most enjoyable
evening was spent. On Saturday
night a number of the students
took advantage of the ice on the
new rink and spent the evening
skating; after which a lunch was
served in the boys' parlor.

Last Thursday the College suffer-
ed its first defeat in basketball this
season from the Town, in the fast-
est and finest exhibition seen this
year. Though the Town team did
not have their regular line-up, they
fairly ran away from their oppo-
nents in the first half, and piled
up the big lead of 15 to 3
points. The College boys didn't
seem to realize what they were
up against until the last few min-
utes of play, when they made a
magnificent attempt to tie the
score, but it was too late. The
final score was 19 to 15.

Love in action will make friends
of enemies and subdue infuriate
man or beast. Love and you will
be loved in return.

If the 'cap' fits wear without a
murmur, otherwise your friends
will know you are guilty.

'Advertise' and 'Adversity'
look something alike in type; but
the type of merchant who does the
former doesn't need to fret about
the latter.

The railroad between Oroville
and Wenatchee is expected to be
completed in March or April.

Him—"Have you learned to
swim?" Her—"Not this year.
Will you teach me?"—Houston
Post.

remember that the cheap and easy
method of personal abuse in con-
ducting any discussion is anathema.
While making due allow-
ance for the characteristic timidity
with which the Colonist appears to
approach all controversial subjects
not definitely allotted to political
party lines, your readers will not
fall to notice that you carefully
avoid the point raised alike by
Messrs. Jackson, McGregor and my-
self, namely: the lack of propor-
tion evident in the official scheme,
and its relegation to an entirely
secondary place, of what we con-
sider the paramount function of
a University. No one—I, as a
practical farmer, least of all—
would question the wisdom of es-
tablishing a College of Agriculture,
or any other means of effectively
helping this great province along
the road of material prosperity,
but we do question the relative im-
portance assigned to them; and all
the platitudes and truisms in which
your three articles on this subject
abounded, do not weaken our po-
sition in the least. Coming from
the Colonist, the charge of smug
complacency is distinctly amusing,
and, if you have any dictionary
defining these terms which would
indicate their appropriate applica-
tion to my last letter, I congratula-
te you on the possession of a
valuable and unique publication.
After Dr. Young's various speech-
es on the subject, our highest
hopes were justified. But alas,
"the mountains were in labor and
brought forth a ridiculous
mouse." I have yet to learn that
even the most ardent utilitarian
would be justified in questioning
the taste of calling particular at-
tention to the absurdity of the
mouse.

Yours truly,
E. E. HUTTON.
300 Foul Bay Road,
December 30th, 1913.

The Summerland Supply Company's
Big Key Contest
HANDSOME NEW
Williams Cabinet Sewing Machine
