

TOWN SCHOOL CLOSING.

About forty parents and interested friends gathered at the Town School on Friday afternoon last and with the forty children enjoyed a happy "breaking up" party before the long summer holiday. A number of the grown-ups arrived at the school shortly after the noon recess and saw the children at work for about an hour.

When lessons were over, children and adults adjourned to the lawn of Mr. and Mrs. R. E. White. Here the teacher, Miss A. E. Williams, gave out the prizes which the Department of Education gives for punctuality, conduct and proficiency, and also the special prizes.

At the close of the prize-giving two surprises awaited Miss Williams. On behalf of the children, Hilda Arnett presented her with a beautiful silver card case, subscribed for among the children themselves, and intended to mark their appreciation of the work Miss Williams has been doing among them for the last two and a half years, and their regret that she has now severed her connection with their school. Helen White then came forward and presented Miss Williams with a beautiful bouquet of roses, unusually large, and flowing with streamers, also of flowers. Most of the parents had sent up roses to form part of the bouquet, and these were arranged into a beautiful posy by Mrs. Arnett. Though completely taken by surprise Miss Williams made a brief reply to the presentations.

Refreshments in plenty, which had been provided by the mothers, were then partaken of, and needless to say were heartily enjoyed by all the large gathering, especially the children.

Following is a list of the winners of the special prizes awarded by the Department and by Miss Williams:

HONOR ROLLS — Punctuality, Doris Rines; Conduct, Marion Beavis; Proficiency, Ronald White.

SPELLING PRIZES — Second Reader, Carleton Clay; First Reader, Hilda Arnett; Second Primer, Lily Everton; First Primer, Mildred Shields.

PROGRESS PRIZES — Second Reader, Gordon Blewett and Doris Rines, equal; First Reader, Hilda Arnett; Second Primer, Lily Everton; First Primer, Laura McLachlan.

Top Boy—Ronald White.

PRIZES FOR CHILDREN'S GARDENS

The Town School gardens were judged last Saturday, the 27th, for the prizes offered by the Women's Institute. The judges were Mrs. A. G. Simms and Mrs. John Tait. These two ladies made a thorough tour of inspection, and finally decided in favor of those children whose names are given below. The work of preparation, digging and arranging was done by the little gardeners themselves. Interest has been steadily maintained, and a good beginning is made in the work that could be profitably developed and easily maintained.

Mrs. Simms generously awarded a special prize to Gordon Blewett whose garden, in her opinion, showed promise of constructive ability.

Many thanks are due to the Women's Institute for the added impetus their prizes will give this work, also to the two judges for the trouble taken in judging.

The flower seeds for these gardens are given by the Government. The judging has taken place early on account of the schools closing, and the prizes will be awarded at the earliest date possible.

READERS—Hilda Arnett, Arthur Gartrell, Lottie Sculthorpe.

PRIMER—Mildred Shields, Lillian Hunt.

COMMENDED—Doris Rines, Eileen Male.

Charles and Harold, sons of Prof. W. T. Broad of Calgary, came in on Thursday evening's boat, and will spend most of the summer on their father's orchard on Jones Flat.

A reliable thermometer, and not in an extraordinarily exposed position either, registered 116 degrees in the sun on Wednesday of this week. Grand weather for the fruit it may be, but apart from that consideration, it seems a trifle too hot for the comfort of most of us. Some hot as our neighbours to the south would say.

C.N.R. Boats For Okanagan Lake

Announcement Is Made That Kamloops-Okanagan Work Will Be Rushed.

Definite announcement that the Canadian Northern Railway Company will rush work this summer on its Kamloops-Okanagan line was made at Vernon last week, following the arrival and departure of W. W. Evans, of Toronto, Assistant Collector of the Company, who came to secure the signature of the Hon. Price Ellison, Minister of Finance, to the bond guarantee of \$10,000 per mile granted by the last Provincial Legislature in addition to the previous guarantee of \$35,000 per mile.

Sir William McKenzie is already in possession of the signed guarantee of the Dominion Government for \$45,000,000, and having obtained the British Columbia guarantee, totalling \$5,110,000, will sail to England to market the securities, thus releasing \$50,000,000 for the completion of the transcontinental line and the branch line from Kamloops to Okanagan, which will be 148 miles in length. The line will run from Kamloops to Vernon, eighty-one miles, then three other ways from Vernon. One branch four miles long will be built to Okanagan Landing, where docks and steamers will be built to handle Okanagan Lake traffic, one from Vernon to Kelowna, a distance of forty-eight miles, and from Vernon to Lumby and Shuswap Falls, a distance of twenty-seven miles. At Shuswap Falls 60,000 horsepower is to be developed to electrify the branch.

Scouts Camping at Crescent Beach

The Summerland Troop of Boy Scouts went into their annual camp this morning at Crescent Beach. Boys to the number of nearly thirty will be under canvas for a week.

At a meeting of the Scout Council held on Tuesday evening at the home of Scout Master Jno. Tait, it was decided to make a wide-spread appeal throughout the community, particularly to the parents of the scouts encamped, for help, either financial or in provender, that the success of the camp may not be impaired for lack of support. The estimated expense of the week under canvas is about \$100, and towards this the sum of \$35 is available as proceeds of the recent concert, leaving about \$65 to be raised by public subscription. Without wishing to be a burden on any, the Scout Council desire that the parents and friends be reminded that nearly thirty healthy boys are being given a week's outing and board, and towards this good work any help will be very gratefully accepted. Money contributions will be received by any of the officers of the troop, and donations of food may be left at any of the town stores.

Hitherto, it has been the practice to engage a cook for the camp week, but this year the boys themselves will cook. Culinary mistakes—if indeed there are any—will probably pass unnoticed in the demands of thirty healthy and unusually hungry appetites. Different officers of the troop and Council are dividing the responsibility of being in charge of the camp.

On Sunday afternoon at three o'clock the customary church parade service will be held, participated in by local ministers. The public are cordially invited to take the opportunity of visiting the camp and seeing for themselves the enjoyment the boys get from their scout vacation. The ferry company will run special boats up to the camp for this service, and will also put on excursions every evening for the intending visitors. On Thursday afternoon and evening a special "open day" for the public will be celebrated with sports and the customary camp festivities. Keep this date open and visit the camp.

Continual exercises keep the boys busy during the day, but the camp is not all work, there being found ample opportunity for pleasure and relaxation. Water sports form a great attraction for the boys, and the troop has a worthy boast in the fact that every scout is a swimmer, some of very high proficiency.

PUBLIC MEETING WILL DISCUSS CONVEYANCES

Provisional Scheme Drafted To Reduce Heavy Expense of School Rigs.

The regular monthly session of the Board of School Trustees held on Thursday afternoon was long and of considerable importance. In view of the fact that the school conveyance contracts must soon be renewed for another year, it is necessary that the Trustees formulate a definite policy on which to base the new contracts. The consideration of this question was the principal topic of discussion, at times more than usually lively.

The engagement of a teacher for the Garnett-Valley School was the first matter to be brought up. Several names were considered, and finally the choice of the Trustees fell upon Miss Olive Gummow of Peachland, whose salary will be \$65 per month.

The usual monthly sheaf of accounts, for rig contracts, salaries, and sundries was passed.

TRANSPORTATION QUESTION.

Chairman J. P. McIntyre opened the discussion on the question of conveying the children to school. He pointed out that the number of children on some of the routes having changed since the beginning of the last school year, some corresponding modifications of the contracts were called for. If an additional High School teacher was found to be necessary it was absolutely essential that the half salary that would fall on the municipality be carried out of the conveyance expenditure. He pointed out also that even if this second teacher were not required the money should be saved to the ratepayers if any saving he effected.

There was a general discussion as to the manner in which alterations could be made to effect a saving. Trustee Shields was opposed to making any changes, particularly to the Town route, without first endeavoring to learn the feeling of the ratepayers at a public meeting. On account of its extreme length, it was felt that the Trout Creek route was entitled to some extra consideration, and it is not proposed to curtail that route in any way. Out of the discussion there arose a provisional scheme from which the contracts could be remodelled. The Trout Creek route was left as at present. For the Town route, it was suggested that the children be conveyed both ways between the 15th of November and the 15th of April, and for the remainder of the year just one way. For the short Giant's Head route, an arrangement similar to the Town route if there are sufficient children to warrant it, and if not, the route will be amalgamated with the Trout Creek route. For Prairie Valley it is proposed to run a single horse rig, as there are not a great number of children in that district. The saving which this re-arrangement would effect is estimated at about \$900, half of which would be the share of the Municipality. This would go a long way towards the additional salary which it seems will be called for next fall.

PUBLIC MEETING.

The proposal for a public meeting received general support from the Board, and accordingly the ratepayers are asked to meet at the Central School on the evening of Thursday next, July 9th, at 7.30, to meet the Board for the purpose of discussing the whole question. The Trustees will present their views, and the ratepayers are particularly asked to be present and ready to express their opinion in order that the Board may be guided in making out their policy. If the scheme which has been drawn up tentatively meets with the approval of the ratepayers, they are asked to be present at the meeting and show it. In any case there should be a large response to the call of the Trustees next Thursday. An announcement by the Board appears on page 6.

A very fine sample of early cabbage was left at the Review Office this week, taken from a lot brought down for shipment by Mr. J. G. Robertson. For some time the local market has been supplied by our gardeners.

PEACH PRICES LOOK PROMISING.

Interesting Data Gleaned From Market Commissioner's Fifth Weekly Report.

Coming along regularly each week the reports sent to all the fruit growers of this province by B.C. Market Commissioner J. Forsyth Smith, is keeping the growers thoroughly posted on prairie market conditions as well as on conditions at all the chief producing points that would directly or indirectly bear on the prairie markets. Readers who are not yet getting the report will be interested in the following excerpts from the Commissioner's report of June 27th:

GENERAL SUMMARY.—AMERICAN FRUIT CROP PROSPECTS.

Present prospects are for a large apple crop in the United States and Canada; the outlook in the Eastern States, especially, being very promising. Ontario will have a good crop, in the western part of the province, the best for many years. Nova Scotia's early promise of a record crop has been seriously affected by early June frosts. The north-western states will have a good crop, though early bumper crop estimates have been considerably reduced.

Discouragement with adverse market conditions in 1913 and 1912 has led to heavy cutting out of peach trees, both in Yakima and in Wenatchee. In the Yakima Valley, also, there has been considerable injury by aphid and by mildew. This district, therefore, will have several hundred cars less than last year, and the estimated output in Wenatchee is only 60 per cent. of what it was in 1913.

As these two districts are our principal competitors on the prairie market, and as, further, their supply is certain to be drawn upon, more or less, to supply shortage created by the complete failure of the peach crop of New York, and the eastern states generally, the 50 per cent. crop of Michigan, and the exceedingly light crop of the Southern States, Texas, Oklahoma, and Arkansas, the peach prices outlook is very promising. In the United States, the only peach growing states with good crops are Georgia—very early, June 15 to August 1—which will have 3500 cars as compared with 1200 in 1913, and Colorado—season same as Yakima—which will have a bumper output, 2000 cars as compared with 600 to 700 last year.

Pears in Washington and Oregon, affected by blight in some districts, and by frost in others, will be a fair yield, and new acreage should increase the total output. The 60 per cent. crop in California, their principal competitor in the eastern markets, will tend to draw larger quantities to such points as Chicago, Minneapolis, and New York, and thus offers satisfactory price prospects.

Prunes are light in the dry prairie districts, and, as a result, a fair proportion of the Milton prunes will be dried this year, thus reducing the output of our most active prune competitor on the prairie market. Apart from this, the estimates for prunes in the green-shipping districts in Washington fully equal those of last year, but southern Idaho, a very large producer, will have some three hundred and fifty cars less. The eastern market demand, a more or less constant quantity, should therefore insure good prices.

Apricots are a good normal crop everywhere.

Cherries are very light, not more than a 50 per cent. crop.

NEW APPLE GRADE RULES.

Modified rules not out yet, but changes will be in the direction of raising the color standard of the Fancy Grade, and lowering the bar against bluishness. Forty per cent. color will be required on red apples instead of 33 and one-third per cent. Bluishness including russeting and leaf scratches, will be allowed, not to exceed one inch in diameter on 4 tier and larger, 2 inch on 4½ tier, and 3 inch on 5 tier, aggregate of limb rubs not to exceed ¼ of this aggregate of bluishness. Extra Fancy will be practically unchanged. The Standard Grade, combined Fancy and the better C Grade apples will be

Inspector Cunningham Visits Washington.

Finds Reasons For Gratitude And Optimism Here.

A number of the most important fruit producing centres of Washington had been visited by Inspector Cunningham just previous to his last visit here, among those being Wenatchee, Spokane, Yakima, Sunny Side, Grand View and Cashmere, visited in the order named. Wenatchee was reached over the new line between that point and Oroville. The principal occasion of his visit to the adjoining state was for the purpose of learning of orchard conditions, more particularly of the fire blight, which is very bad in a number of places, and of the method of combating same. As an instance of how the disease has gained a foothold, and the rapidity with which it is spreading, Mr. Cunningham mentioned Yakima County which last year lost \$75,000 through blight, while this year it is estimated that 200,000 fruit trees will be destroyed and the crop reduced by 1000 cars of fruit. Mr. Cunningham saw one lot of 18 year old pear trees, numbering from two to three hundred, loaded with fruit, which were being rooted out by a road engine, while the adjoining orchard will lose 50 per cent. of its Spitz.

Most rigorous methods are now being adopted to stamp out the disease. They have quit the "scraping" of diseased limbs and now resort to severe cutting as the only remedy. Protective associations have been formed, and members are hardly permitted to cut out their own blight, it being realized that few, if any, will cut their own trees sufficiently to remove the disease. Each member acts as detective, and the situation is being attacked with grim determination to stamp out the disease. In some cases cutting "bees" are organized and the growers are hopeful that co-operation will be so thorough as to clean out their orchards this year. Down there they are working under a financial handicap, which B.C. growers do not have to contend with. Following along the lines of the B.C. Government the State Legislative Assembly had made an appropriation in aid of agriculture a goodly portion of which was to be expended in helping the fruit growers, but such a fuss was made by farmers engaged in other branches of agriculture that the men were called off. This, and the inefficient work done last year is given as the reason for the rapid and very serious spread of the blight this season, and Inspector Cunningham is confident that we should have fared no better had it not been for the vigilance of our Provincial authorities.

Spokane district as well as Cashmere is also heavily hit. While at Wenatchee, Inspector Cunningham was invited to address a gathering of some three hundred growers, as fine a gathering of men as he had ever met, serious, earnest, intelligent and determined to win out.

Mr. and Mrs. Downton have been enjoying a few days vacation, during the past week, camping in the hills back of Summerland.

The Sacrament of the Lord's Supper will be celebrated in St. Andrew's Church next Sunday morning. The service preparatory to the sacrament will take place tonight (Friday) at eight o'clock. Mr. Daly's Sunday evening service will be held in the Methodist Church, subject, "Our Lord's Newspapers and Ours."

dropped, and the three grades, Extra Fancy, Fancy, and C will be retained.

Calgary prices on June 27th, 1914: Consigned cherries have overloaded market. B.C. early varieties especially moving very slowly. Governor Wood, Early Richmond, 4 b. \$1.25 to \$1.50, Black Tartarian, Royal Anne, \$2, American Blings, 10 lbs., \$1.50, 24 pts., \$3.50. Prices should be higher for Interior cherries, as American districts cleaning up. California fruits, Hales Early and Triumph peaches \$2.50, Climax and Burbank plums \$2.50, Clymans, \$2, Apricots, 4b, \$2. Texas tomatoes, \$3, coast hot-house tomatoes, \$4.

OBITUARY.

WILLIAM RITCHIE.

Within eight days of his eighty-fourth birthday, Mr. William Ritchie, senior, passed away on Thursday morning, the 2nd inst., at about 7.30. He is thought to have contracted a slight cold some time back, and on account of his age, complications developed which a younger person might have shaken off. For the past two weeks Mr. Ritchie had been suffering somewhat, though not constantly, and as late as Wednesday suffered considerably. But as the end approached, the pain left him, and death finally came quite peacefully.

Mr. Ritchie was born in the year 1830 in Paisley, Scotland. He first crossed the Atlantic to Canada in 1852, settling in Lanark County, Ontario. Twenty-seven years later, in 1879, he left the East for the little known prairie country of what is now Manitoba. It was eleven years ago, in 1903, that Mr. Ritchie came to the Okanagan country.

He survived his wife, Eliza, seven years, and leaves three sons, Messrs. William, James and Thomas, who are all widely known. Mr. Ritchie at the time of his death was within a few days of attaining the same age as his wife.

His long residence in this district made him a very well-known figure, especially among the older residents. He had many friends, old and young alike being attracted to him by the interesting stories of his long life. A large circle will miss him, for until recently he was comparatively active.

The funeral was held this morning at ten o'clock. Service was held at "Parkdale," the home of Mr. and Mrs. James Ritchie, at which Rev. N. McNaughton of the Baptist Church officiated. The late Mr. Ritchie was a respected member of long standing of that denomination. Interment was made in the cemetery at Peach Orchard.

It was with general regret and sympathy that the news of the death of little Maxwell, infant son of Mr. and Mrs. O. Vaughan, spread among the townsfolk on Monday evening. The baby was apparently well until early in the afternoon, after which life seemed gradually to grow more languished, and finally became extinct about 6.30. The baby was just six weeks old.

The funeral was held the following afternoon. A service in St. Stephen's Church, at which Rev. H. A. Solly officiated, was attended by a good number of sympathetic friends, and interment was made later in the Anglican Cemetery.

A pathetic feature of the parents' bereavement lies in the fact that unknowing of what the day would bring forth, the baby was baptized only on the morning of its death. Many friends condole with Mr. and Mrs. Vaughan in their sudden grief.

After ailing for a considerable time the infant son of Mr. and Mrs. George Williams, of Trout Creek, died on Sunday morning last, at the age of about two months.

Rev. R. W. Lee conducted a brief service at the house in the afternoon, and interment was made in the Peach Orchard cemetery. Much sympathy is felt for Mr. and Mrs. Williams in the loss of their little one.

CARD OF THANKS.

Mr. and Mrs. O. Vaughan desire to thank all those friends who showed sympathy for them in their recent bereavement.

Contrary to the expectations of many the Government Telegraph office continues to do a considerable amount of telegraph business; in fact, there has been no apparent falling off in the number of incoming nor outgoing messages, according to the local agent. That the Government has no thought of withdrawing from the field is apparent from the fact that negotiations are now nearly consummated whereby Summerland will have closer telegraphic connection with many points not now easily reached. The matter of rates is also being given consideration, and it is anticipated that a new tariff will shortly be announced that will effect quite a saving to local telegraph users.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JULY 3, 1914.

THE SCHOOL BOARD PUBLIC MEETING.

IF THE RATEPAYERS do not turn out in force to the meeting of next Thursday evening called by the Board of School Trustees they will lose their right to protest against any course which the Board may afterwards adopt. The opinion of the people on the question as to whether any saving can be effected on the transportation contracts is being sought because the Trustees desire to have their own judgments regulated by the feeling of the ratepayers. When a public body goes to the trouble of seeking an inkling of opinion from the people, it should be given. There is no justification for absenting oneself because of an opposite opinion cherished in apparent opposition to the Board for that body desires to hear all sides and carry out the wishes of the majority. If there is manifest a spirit of willingness to sacrifice a little of one's personal opinion, when it becomes obvious that others are also willing to follow that course, there should be little difficulty in reaching a solution of the problem satisfactorily to all. Go to the meeting and be prepared to give expression to your judgment for the guidance of the Trustees.

DEATH TO THE MIDDLEMAN.

AN AMERICAN express company has devised for itself a new sphere of useful activity. Finding itself pushed by the recently established parcels post system, the Adams Express Company sought a means of strengthening itself in the custom of patrons, and as a result is trying out a novel experiment vital alike to farmers, market gardeners, fruit growers and consumers of their products.

The company has established what it calls an "Order and Food Products Bureau." The purpose of this new departure, as the company has stated, is to promote more intimate relations between producer and consumer. It plans to become a clearing house for excess production, disposing of fruits, berries, butter, eggs, poultry, fish, meats and other food articles at a minimum of expense to seller and buyer. The company is responsible to both, delivering the commodities to the buyer's door and the money to the seller, without any intervening agency. The rate on the class of merchandise for which the bureau is designed is no higher than parcel post charges. To the cost of carrying must be added the money order charge, ranging from three cents for \$2.50 to 15 cents for \$40. A feature of the new system will be the prompt delivery service, so that perishable goods will be in the hands of consumers the same day they are shipped from points two hundred miles distant.

According to authorities who have looked into the express company's new department in detail, it offers a practical solution of the problem offered to the producer and consumer alike by the expensive middleman. Hitherto when the consumer has been able to deal directly with the producer, neither of whom was satisfied of the responsibility of the other, it has not been of much benefit to the public at large. Now, with an express company to act as the agent of each, charging for its services only the cost of transportation and money order, the situation is at once simplified. If the scheme is energetically and intelligently pushed it should prove a great success. It affords a wide field to the express companies to create new and profitable business of which they all are in need, and at the same time is of distinct financial benefit to both producer and consumer.

Only one possible stumbling block can be seen in the way of the successful prosecution of this novel scheme. If the farmers believe they should always get the tip-top fancy prices from the city consumers, it will bring failure and disappointment. If on the other hand, they are willing to sell their goods in this new way at a reasonable advance on what commission men have previously offered, city dwellers will gladly give them the business, for it means advantage to them. Used rightly by the people at both ends, and managed and developed along progressive lines by the express company, the establishment of the "Order and Food Products Bureau" looks like a hard hit at the high cost of living. As such the working of it will be watched with the closest of interest. On the face of it, there seems reason to believe that Canadian companies could well investigate, if they are ambitious of extending their usefulness.

"THE OLD COUNTRYMAN" is the name of a new publication which has just made its appearance at Vancouver. The new periodical, the first copy of which has just come to hand, is to be a weekly, combining the features of a newspaper with those of a magazine, and in its news articles will aim to keep the men and women from Overseas posted in all the more important happenings in "politics, sport, business, society and art" that are going on "at home." Opening up a new field for itself, "The Old Countryman," which has every appearance of being in experienced hands, should meet with a large and immediate success.

The question of securing government assistance for orchardists, whose orchards have been damaged by froblight, which was recently bronched by the Board of Trade, is being taken up with the Provincial authorities, and something definite in this regard is expected to be announced at the next meeting of the Board.—Penticton Herald.

PATTERN FOR HENS.

Farmer's wife, to visitor—Now Johnny, will you go and collect the eggs, and don't take the china ones. I suppose you know what they're for?
Johnny—Oh yes, they're for a pattern to show them how to make the others.—Punch.

WEDDING.

Agur - Nicholls.

A very largely attended wedding of exceptional brilliance and prettiness, and of much local interest, was that which took place in Vernon on Tuesday last, June 30th, when Miss Lillian Nicholls became the bride of Mr. Robert Van Allen Agur. The bride is the daughter of the late Commander J. Nicholls, R.N., and Mrs. Coutts Marjoribanks, of Vernon, and step daughter of the Hon. Coutts Marjoribanks. The groom is widely known in Summerland and elsewhere as one of the most prominent citizens of this community. He is the eldest son of the late Mr. R. H. Agur and Mrs. Agur, of Balcomo Lodge, Prairie Valley.

The ceremony took place in All Saints' Church, Veronn, at one o'clock. The officiating clergy were Rev. Comyn Ching, Rev. A. V. Despard, and Rev. Mr. Baxter. A scheme of decoration in which white shasta daisies, blue Canterbury bells and other fresh June flowers and foliage, and much white ribbon had been used, made the church look unusually beautiful, large floral arches surmounting the pews. The ceremony was performed in the presence of a great number of invited guests.

As she walked down the aisle on the arm of her step-father, the bride made a charming picture, gowned in white brocaded crepe de chine, over white satin crepe. She wore a bridal veil of white tulle, and a long looped train. The beautiful bouquet she carried was of orange blossom. The bridesmaids were four in number, the bride's step-sister, Miss J. Marjoribanks, Miss Eleanor Cossitt, Miss Van Allen, and Miss Margaret Kerr. They made a very pretty group, wearing shepherdess dresses of pink crepe de chine, carrying gaily be-ribboned crooks with roses at the top, and large picture hats. Little Miss Isabel Helmer, in a pretty white dress carried a large basket of flowers. Mrs. R. H. Agur, mother of the groom, gowned in white crepe with black trimmings, was prominent among the guests. The groom was supported by his brother, Mr. Eric R. Agur, as best man.

At the conclusion of the ceremony, the party proceeded to "Invercraig," the home of the bride, where on the spacious lawns overlooking the waters of Long Lake, a most successful garden reception was held, to which there were many guests. The weather was the pleasantest and the lawns were gay with the bright dresses of the ladies. The large number of beautiful gifts testified to the wide circle of friends in which the bride and groom moved.

The happy couple left Vernon in the course of the afternoon by automobile, being profusely showered. They will spend the honeymoon in the seclusion of Mr. Agur's pre-emption, at Bathfield, about twelve miles west of Summerland, returning after a time to take up residence in Balcomo Lodge.

The Summerland guests who motored up to Vernon and were present at the ceremony were Mrs. R. H. Agur, Miss Cartwright, Miss Kerr, Mrs. and Miss Van Allen, Miss Bell of Toronto, Messrs. Eric Agur, Marsden Van Allen, Ed. Bentley, and Gordon Kerr.

GOLD FOUND NEAR KELOWNA.

A gold mine, the discovery of which has been kept secret, has been opened up at a point near Kelowna, and is now, according to the Kelowna Record, being equipped with a stamp mill which the owners hope will be working within a couple of months.

The property is controlled by Mr. Rember Hall of Kelowna, and with him are associated two other Kelowna citizens, Messrs. Angus Woods and E. D. McDaniel, while Mr. J. H. Harrigan of Hedley has been engaged as working manager at the mine. Mr. Paul, who is an octogenarian with plenty of means, told the Record that there was no stock for sale, and that he and his associates were working the mine for themselves. The vein is four feet wide and is now known to extend for a little over a mile. The average so far has shown \$73.92 to the ton. Based at only \$50 to the ton the owners claim to have an ore body worth more than two and one-half millions in sight. Recently specimens which were taken at random, and are said to be by no means the best, were submitted to assays in Calgary, and their report shows \$177.60 to the ton.

When this information, which has been kept secret for months, gets abroad Kelowna very naturally expects a rush of prospectors and others to the district.

IMPRESSED WITH SUMMERLAND.

After a stay in Summerland of about three weeks, Mr. and Mrs. A.A. Wright boarded the "Okanagan" on Monday evening on their return trip to Renfrew, Ontario. They have been with their sons, Messrs. Walter and Wallace, during their visit here. Mr. Wright has had his first glimpse of the Okanagan country, and in spite of all the eulogies which he had heard, he was surprised and delighted with what he saw here. Two conditions especially appealed to him, the continued Okanagan sunshine, giving settled weather conditions, and the excellent state in which he found the roads, not only within the municipal limits, but also the highways in the adjoining country. Mrs. Wright has already visited here twice before, and each time is impressed with the signs of sturdy growth and permanent development which are noticeable. One line of horticulture, the possibilities of which particularly impressed Mr. Wright, was that of commercial rose growing for the Coast markets. With the Kettle Valley line to be operating through to that district shortly, blooms of the morning's plucking could be on sale in Vancouver the same evening, and there is good profit in roses, he says. That the coming of the railway into Summerland must bring great changes, Mr. Wright is also firmly convinced.

ESTIMATE OF BOUNDARY FRUIT.

Fifty-nine thousand boxes, or over 100 carloads of apples is the estimate of the output this season for Kootenay and Boundary, prepared by M. S. Middleton, assistant provincial horticulturist. This is about double the output of the district last year, and within the next five years over 500 cars of apples will be the production, says Mr. Middleton. The output of the Boundary district will be about 45 carloads of apples this season.

Of strawberries there are approximately 309 acres under cultivation in the district, of which the yield will be close to 1,090,000 pounds. Of raspberries the estimated yield of 72 acres under cultivation is 308,000 pounds; of sweet cherries there are over 200 acres of trees in bearing, which will yield about 54,000 pounds; of sour cherries there are twelve acres, which will yield about 37,000 pounds, and of other small fruits which include gooseberries and currants there are about 57 acres which will yield about 173,000 pounds of fruit.

To be armed with truth assures victory in every struggle.

Sinning Against Your Home Town.

PART II.

"Your Property: What Is Its True Value?"

Your town lot or country home—
What is its true value?—in dollars and cents?
If a man came to you and said, "This is just the lot I want," or, "This orchard of yours just suits me. What do you want for it?" And if you said "\$1000 for the lot," or "\$10,000 for the orchard," on what would you base the figures? How would you arrive at the particular sums?
Of course, the value of the land next to yours would have a great deal to do with it—but—
Wouldn't you figure as your biggest asset the prosperity of your home town—the fact that it is growing and is going to keep on growing and that in five years the value of your property will be double that of to-day—

IF YOUR HOME TOWN CONTINUES TO GROW AND PROSPER.

You bet you would—you would play up that point to beat the band—you would paint a beautiful picture of how Summerland has grown up from nothing in only ten years, and how it is going to continue to grow into a large and prosperous community.

In other words—YOU CAPITALIZE THE GROWTH OF YOUR HOME TOWN.

If that man bought your town lot or country home—he would be paying more than the actual value—the intrinsic value of the land itself. He would be investing in the future of Summerland, and if Summerland does not continue to grow and prosper, that man is going to lose some money.

So you can see that the true value of your property DEPENDS on the progressiveness of your home town and that if you want your property to increase in value—it is up to you to help Summerland grow—

And the only way to help your home town to grow is to encourage more business and social activity by participating in it yourself.

We must keep our money in Summerland. We can't afford to let any of it get out because when we do, it has gone for ever.

Let's stop "sinning against our home town" and go back to first principles—let's do the way our forefathers did. If they could not get the things they wanted at home—they either did without them or made them.

Our merchants are just as progressive as merchants found in any other town. The goods they have for our selection are just as up-to-date and full of value as the goods found in other towns. And we will find that their prices are just about the same as the prices in other towns. Our merchants are here to stay and grow up with the place and they will enlarge and expand just as soon as their business warrants. By patronizing them we are helping ourselves—we are helping our property to increase in value. Don't forget that the farms of to-day are the city lots of to-morrow—if the town next door KEEPS GROWING.

Every town has to have a beginning. The settlers of Yesterday are the City Fathers of to-day. With the growth of Summerland their holdings naturally increased. And as the values increased, their taxes increased and so it goes.

That is the way you should recognize the value of your property—on the PROGRESSIVENESS OF THE PEOPLE OF YOUR HOME TOWN.

A community expands only as its business expands. New business enterprises are attracted only if the business is here. By trading at home—you cause more business—because the trade that goes out of town is lost for ever.

The next instalment of "Sinning Against Your Home Town" will appear July 10th. In it "A Town of a Thousand Managers" will appear. Don't fail to read it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Drill Hall, Kamloops, B.C.," will be received at this office until 4.00 p.m., on Friday, July 24, 1914, for the construction of the aforesaid building.
Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. Wm. Henderson, Resident Architect, Victoria, B.C., on application to the caretaker of Public Building, Kamloops, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.
Each tender must be accompanied by an accepted cheque on a char-

tered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

CONTRACT

Persons contracting with the Union may eat all the fruit they like, give away all they care to, sell to the cannery, sell to local merchants and others for home consumption, and ship to private customers (consumers) 10 per cent. of any kind of fruit. Other special arrangements may be made with the directors.

This does not mean that growers may sell to others to ship to consumers, the Union can do that for them, and will be pleased to ship fruit where directed by patrons at their risk.

Wm. RITCHIE.

"Can"

ADVERTISING is the public expression of a master's will and wish—his word of power.

We want to say this to the merchants of this community:

You CAN make the public of this community buy more goods from you.

You CAN teach the public new customs, new tastes, new habits. You CAN make the public do what it is not in the habit of doing. Powerful and persistent advertising has revolutionized modern life. It sends people travelling. It has made them photographers. It has made the motor-car a necessity. It makes women change the fashion of their apparel twice or thrice a year. It selects the very food we eat.

A NOTE TO THE PUBLIC.

Does not the publicly expressed will and wish of the merchants of this community influence you in your shopping? Do you not go where you are guided? Are you not very attentive and responsive to the advertisements which appear each week in the columns of the REVIEW?

Shop Where You Are Invited to Shop

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full

quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

OUR NARAMATA SECTION

NO ALUM MAGIC READ THE LABEL BAKING POWDER

The Unity Club ladies held an interesting session at their club room parlor last Friday afternoon. The hostesses on the occasion were Mrs. Mitchell and her daughter, Mrs. W. Nuttall. A feature of interest to the citizens was a decision to hold their annual outing in a month's time. The exact date set is Thursday, July 30th. The picnics hitherto organized by the Naramata ladies have been huge successes, and naturally we may look forward with pleasurable anticipation to this new date, July 30.

 Any order for not less than \$3, and not weighing above 11 lbs. sent by Parcel Post inside the 20 mile radius FREE.

Current Events — OF — Town & District

T. H. Boothe was a business visitor to Vernon on Saturday.

J. A. Noyes has purchased a handsome saddle horse from Fred. Dennison.

Mrs. Block spent three or four days this week visiting at Mrs. Cash's summer home on the benches.

Mr. and Mrs. A. L. Moreland of Kelowna renewed acquaintances in the course of a holiday spent here on Wednesday.

J. E. Kerr, a well-known Peachlander, paid his first visit to Naramata on July 1st, and registered at Syndica House.

Mr. Fred Roe has issued the second number of his unique publication known as "Pop." It is certainly quite a creditable number.

Guy Brock and Bert Lipsett figured prominently in the Summerland line-up in the ball game at Pentiction when our sister town played the Peachland twirlers.

A few lines of Shoes as Specials will be offered at HALF Price during the big sale at the Leather Store, Summerland. See A. J. Beer's ad. on page 2. Here is where you get the profit and he loses. ad

Roy Boothe accompanied the Pentiction Band to Oroville where the organization is spending the "glorious 4th."

D. H. Walters was absent from town for a few days this week, filling an important engagement as drummer for the Pentiction Band.

Mrs. E. B. Reesor of Summerland and her son, Hedley spent the week-end in town the guests of Mrs. H. P. Davies, Syndica House.

The task of thinning the fruit on the various absentee owners fruit lots is causing no small degree of "rush" work on the part of the different orchardists concerned.

Dominion Day was celebrated by our citizens in large numbers in Pentiction. The ferry service for the day was specially timed to suit the convenience of the crowd.

Mr. K. S. Hogg and merry party of ten more Summerlanders were across for dinner on July 1st, testifying to the popularity of Naramata as a place to pass an enjoyable holiday.

Contractors working on the new school are losing no time. With such expedition is the work proceeding that by July 10th, the building will be all roofed in and the interior ready for the plasterers.

The Fruit Union have arranged for space in the warehouse formerly occupied by the Grant Smith Co. and with a few alterations have now commodious and airy quarters in which to pack the season's output of fruit.

Amongst the home people visiting across the lake on Wednesday were Mr. and Mrs. Geo. Wolstencroft and the latter's sister, Mrs. Cunliffe and son. The party were guests of Mr. and Mrs. Percy Thornber, Trout Creek.

The unusually hot weather is having quite an appreciable effect in the volume of water coming down the various local creeks. Mr. Cash, who this year is in sole charge of the irrigation system, has consequently started on a policy of conservation.

The marriage of Miss Alice McDougald of Peachland drew by special ferry quite a crowd of relations from Naramata. Amongst the list were: Mr. and Mrs. J. M. Robinson, Dr. and Mrs. W. L. Robinson, Miss Gwen Robinson and sisters, Misses Gladys, Kathleen, Dorothy and Marguerite.

Amongst the other delighted visitors to town on Wednesday, guests at Syndica House, were Mrs. W. H. Fasridge, Mrs. G. Kellington and Mrs. D. F. Brewer, all of West Summerland. The ladies spent the day taking in the sights of Naramata. They expressed themselves as especially delighted with the beautiful flowers round town.

The Boy Scouts, under the efficient direction of their new Scout-Master, Mr. Harry Pitman, are making fine progress in their drills—drills which, if persistently followed up, cannot fail to have a decidedly beneficial effect not physically alone, but morally as well. Boys who are trained to move in unison and harmony cannot readily shake off the good habits thus early acquired.

An occasional afternoon tea at Hotel Naramata is one which the patron's are enjoying from time to time. At least such was the experience of a party of Summerlanders last Thursday. Amongst the number noticed were Mrs. Hayes, Mrs. R. M. Ross, Mrs. Mason and Miss Mason from Webster City, Mrs. A. L. Moreland, now of Kelowna, Mr. and Mrs. Hogg, Dr. Kennedy, Mr. and Mrs. D. H. Watson.

Owing to the big inducements held out by the promoters of 1st of July sports held at the ambitious little city at the south of us, the large number of visitors was unexpected. Fact is both hotels enjoyed a most liberal patronage. Every town on the lake was represented. A special feature of the day's amusements was a tennis tournament run chiefly by local and Summerland devotees of the game. The games were at times fast and furious and funny judging from the frequent peals of laughter of the fun-possessed crowd. All the games were played on the spacious grounds of Hotel Naramata.

D. H. Watson and C. N. Borton of Summerland were business visitors here on Tuesday, guests of Mr. J. M. Robinson.

Amongst the visitors to town, holidaying for a few hours enjoying the sights—altogether surprising and delightful—was a boatload hailing from Kelowna. Their launch was an open one, and none too fast, as the tired and sunburnt group had been five hours in making the trip. However after a couple of hours rest and relaxation the merry lot set out to make the return in the cool of the evening.

From Saturday, June 27th, to Saturday, July 11, inclusive, A. J. Beer will offer at the Leather Store, Summerland, a 20 per cent. Sale discount for cash on all lines of Shoes, Gloves, Trunks, Bags and Valises. Those who patronized Mr. Beer's sale last December will remember the up-to-date shoes and genuine bargains they received; you just take your choice. A ticket will be given with every pair of shoes over \$1, and the winning number, drawn by raffle, will entitle the holder to a \$5 pair of shoes free. Come early before your style and size are sold. ad

Kaleden Comments

The Kaleden friends of Mrs. T. C. Preston are distressed that at the time of writing she is not making a good recovery from her illness.

Work on the government roads in this district closed down last week. A number of men who had employment there are now engaged in haymaking operations.

Miss Ida McAloney returned to Summerland on Saturday of last week after a visit to Captain and Mrs. Chas. Hatfield. She made the journey with Mrs. Lock.

Mr. and Mrs. William King returned on Monday from their honeymoon spent at "Sleeping Water," and they have now taken up housekeeping in the bungalow on Mr. King's orchard lot.

The Mission Band, under the presidency of Mrs. O. E. Tomlin, organized and carried out last week a most successful picnic, held on the lakeshore, immediately south of the town. A good number were present to participate in the enjoyment of the afternoon, and the time sped quickly in various games, and a picnic tea, which was no small part of the pleasure of the outing.

School closed for the summer on Friday afternoon last, and the teacher, Mr. J. F. Tupper, left for his home in Pentiction, to return again in the fall, it is hoped, with the opening of school. Mr. Tupper left for the Coast on Monday morning with his wife and little daughter, Margaret. While he attends the summer schools of the Department of Education, held at Victoria, Mrs. Tupper will visit friends in New Westminster.

THE SUMMER CAMP.

A joyous time in wood and copse,
 To wander free from morn till night;
 O'er grassy vales and mountain tops,
 And back to camp a welcome sight:
 With the purling brook hard by.

The forest bids with open arms,
 To nature seekers one and all;
 Partake in full of all her charms,
 So rich in life that ne'er can pall:
 And the babbling brook hard by.

Does not a scene so bright and free,
 Bespoken a meed of thought and care;
 A constant call to you and me,
 To breed no devastation there:
 With the babbling brook hard by?

A careless fire, the smoker's match,
 The growth of centuries is doomed;
 With slcken'g haste the giants' catch,
 The plensing view's for aye entombed:
 And the brooklet now is dry.

We have a duty, sacred trust,
 The young and old, the small and great;
 For each one may, he can, he must,
 Protect our woods from such a fate:
 And the babbling brook hard by.

R. F. CHILD,
 Victoria,
 June 15, 1914.

One cow was killed and two others mutilated at Vernon by a woman who had become angered at the constant tinkling of the bells on her neighbor's cows.

The Breakfast

COPYRIGHT 1910 BY C. F. ZIMMERMAN CO.

Breakfast is the most important meal of your life, for on it depends the enjoyment of each day---and the bodily and mental condition you take to your work.

A good breakfast requires Good groceries—cereals, eggs, bacon, coffee, and other enjoyable parts of a satisfying meal. But see that they are Good. Unsatisfactory food brings dyspepsia, our temper and a disagreeable day.

Be sure of YOUR day. Use our groceries---the kind that is eaten by the best business men and women in this town.

TRADE FOR FIRST-CLASS RANCHES IN THE NORTH-WEST

Let us have particulars, as we
have one or two such Properties
to offer, especially one the owner
of which is looking for about five
acres of orchard with ten acres
of meadow-land adjoining.

CORDY & HIGGIN
Real Estate & Insurance Agents
SUMMERLAND
Phone 42.

Some striking photographs of
excellent execution have been placed
in the Post Office, neatly framed,
by Mr. C. P. Nelson, whose land-
scape work is well-known all
through the district. The two
views in the Post Office are large
prints, hand tinted in the natural
colors, giving the views an un-
usual realism. It is Mr. Nelson's in-
tention to continually change the
photographs. In their prominent
position they will serve at the same
time to advertise Mr. Nelson's
work and the picturesqueness of
Summerland. One is a striking
view of the Trout Creek railway
bridge, taken from the bottom of
the canyon, and the other shows
the "Okanagan" at the wharf,
taken from the hills above.

Can be acquired by
Consulting

Mr. F. D. COOPER,
Peach Orchard, Summerland

Passing Events: Social, Personal, &c.

After a visit of some length
with relatives in Kamloops Mrs.
H. Sutherland returned on Thurs-
day.

Messrs. G. N. Gartrell and E. J.
Rowley returned at the beginning
of the week from an auto trip to
Hedley and district.

The regular monthly meeting of
the W.C.T.U. will be held in the
parlor at the Methodist club rooms
on Monday at three p.m.

Miss Evelyn Brown came in from
Port Moody on Monday evening of
this week, and will be at the Trout
Creek home during the summer.

Guests with Mr. and Mrs. T. P.
Thornber for the holiday were Mr.
and Mrs. Geo. Wolstencroft of
Naramata and Mrs. Cunliff, Mrs.
Wolstencroft's sister.

The current British Columbia
Gazette contains confirmation of the
appointment of Mr. W. A. Lang,
of Peachland, as Provincial Exhi-
bition Commissioner.

After somewhat extensive travel,
Mr. S. Batholomew returned to
Summerland at the end of last week
and will be here at least for the
summer, caring for his Garnett
Valley orchard.

Dr. Andrew who has been enjoy-
ing a well-earned vacation in Van-
couver and Victoria is expected to
return on Monday. It is reported
that he will henceforth use a motor
car on his daily rounds.

It is better to be safe than sorry.
Do not be amongst those who will
find out when it is too late, that
they have lost a golden opportunity.
Remember only one more week of
unequaled bargains in shoes at the
Leather Store. ad

Mrs. T. P. Thornber and son,
Willie, are leaving on Monday of
next week on a visit to the Old
Country. Mrs. Thornber has been
away from her homeland now for
about five years, and her visit will
probably be of some months' dura-
tion.

Inspector Cunningham crossed
over to Naramata to-day and will
spend a few days about Penticton.
Mr. R. H. Helmer has been called
here by Mr. Cunningham to assist
Mr. Simms. Each and every or-
chard is being visited and every
trace of blight removed.

Pots and Pans are constantly
wearing out, and must be replaced.
An unusual opportunity for local
housekeepers to replenish and add
to their kitchen equipment is being
offered by Borton Plumbing and
Heating Co. during their special
removal sale. See ad. p. 3. j3

Principal R. B. Forsyth of the
High School, who has been at Ver-
non as presiding examiner during
the High School examinations
there, is proceeding direct to Vic-
toria without returning to Sum-
merland, to attend the summer
schools of the Department of Ed-
ucation.

Delegates from the local Baptist
Church to the annual British Colum-
bia Convention being held at the
Coast next week are Dr. E. W.
Sawyer and Rev. S. Everton. They
carried with them a cordial invita-
tion to the Convention to make
Summerland the meeting place for
1915. The delegates went out on
Wednesday morning.

Mr. R. McGeorge, authorized
plano tuner and regulator for
Mason & Risch, Limited, expects
to reach here this week-end, and
will be prepared for the next few
days to attend to the needs of his
patrons. Parties requiring his ser-
vices for tuning, etc., will kindly
leave their address with the Review
Office.

A number of families from West
Summerland combined on Dominion
Day and formed a large picnic party.
Nearly forty in number, they
drove in six rigs about ten miles
back to near the site of the Men-
ow Valley sawmill on Trout Creek.
A delightfully cool picnic spot was
chosen, none of the extreme heat
of the lakelike country being ex-
perienced, and there was also
noticed a singular freedom from the
annoyances of the "peaky mos-
quito." Young and old spent most
of the time dabbling in the deef-
edly cool waters of Trout Creek,
which provided an abundance of
fun, and at the same time was
novel and refreshing. Tea with
ice cream was partaken of on a
bountiful scale before the party
drove home.

Rev. D. E. D. Robertson went
out on this morning's boat, Fri-
day, for the Coast.

Mr. John Black of Calgary ar-
rived here on Tuesday, and is a
guest at the home of his uncle, Mr.
H. Sutherland.

Mr. A. L. Moreland came down
from Kelowna over Dominion Day,
to be with Mrs. Moreland and fam-
ily who have been visiting with
Dr. and Mrs. R. C. Lipsett.

A few lines of Shoes as Specials
will be offered at HALF PRICE
during the big sale at the Leather
Store. See A. J. Beer's ad on
page 2, here is where you get the
profit and he loses. ad

The public generally will be
interested in the invitation exten-
ded by the Felix Hotel in their reg-
ular space on page 2. Mr. Cordy
is making every preparation for a
large crowd and says everyone will
be welcome to afternoon tea and
to take the opportunity of inspec-
ting the new hotel. j3

Mrs. J. Lock came up from Kaled-
eden on Saturday last by the ferry,
and has been spending the past
week with Mr. and Mrs. A. B.
Williams, in Peach Orchard. Her
son, E. H. Lock, came up on Sun-
day morning, and returned home
on Monday evening by the "Okan-
agan."

With the ferry launch "Tilli-
cum" Mr. and Mrs. B. L. Hat-
field and family enjoyed a picnic on
Saturday last with the pleasantest
of weather conditions. They went
first across the lake, later crossing
again to Trout Creek, where a pic-
nic luncheon was partaken of before
the return home about eight
o'clock.

Borton is moving, but he is not
taking his stock with him. He
has decided to practically give it
away rather than move it. Per-
haps he is foolish, but you need
have no hesitation about taking ad-
vantage of his predicament. True,
it is his loss, but it's your gain.
He wants the money rather than
the trouble of moving, and is will-
ing to make the sacrifice as offered
in his ad. on p. 3. j3

Mr. H. V. Acland, who has been
appointed a Provincial Inspector of
Noxious Weeds, is making Okana-
gan Mission his headquarters, as
most central for his district, which
extends from Mara through the
Valley to Okanagan Falls. Mrs.
Acland spent Saturday at the Mis-
sion with her husband selecting a
suitable house, and went up the
lake again on Tuesday morning
with her family to take up resi-
dence there.

The members of the Methodist
Church Choir, to the number of
about twenty were entertained by
Rev. R. W. Lee, pastor of the
church, and Mrs. Lee, to a dinner
party on Thursday evening. A
long table was spread in the cool
parlor of the Men's Club, and the
diners were a very merry party.
Mr. and Mrs. Lee are excellent en-
tertainers, and there was a hearti-
ness about the piteous spread that
was a large part of its enjoyment.
Ice cream, seasonable to the warm
evening, was visibly appreciated.
Music was also enjoyed during the
evening.

Campers and camp equipment
were taken to the camping grounds
of the Boy Scouts this morning by
kindness of the Okanagan Lake Boat
Co. The company have also prom-
ised nightly excursions to the camp
at only a nominal fare, the boat
leaving Naramata each night at
7.30 and Summerland at 8 o'clock.
Those wishing to attend the church
service on Sunday may do so by
boarding the boat leaving Nara-
mata at 2 and Summerland at 2.30.
On Thursday the hours of depart-
ure are 1.30 and 2.00. This will
give all an opportunity to attend
the sports.

The anniversary services of the
Methodist Church will be held on
Sunday next, July 5th. The spec-
ial preacher for the day will be
Rev. J. C. Switzer, B.A., of Kel-
owna. Mr. Switzer is one of the
most prominent preachers in the
province. Some years ago he ac-
cepted the pastorate of the Wesley-
Church, Vancouver, leaving there
to become pastor at Kelowna in
1913. Mr. Switzer will preach in
the Methodist Church at 10.30 a.m.
At this service Mrs. George Ross
will sing. The evening service will
be held in the Presbyterian Church,
the soloists being Miss Evelyn
Brown, Mr. T. G. Beavis and
others. The presence and support
of the public is requested at
either service.

Mrs. S. Angove is spending a
few days' vacation back on the
benches, a guest at the home of
Mrs. R. Neve.

Messrs. E. J. Cochran and James
Taylor, Inspectors, from Vancouver,
were here for a few days this week
at the Bank of Montreal and branch.

The half of Summerland that re-
mained at home on Dominion Day
found themselves in a very quiet
town. Many found the lake allur-
ing for bathing, and picnic parties
of various numbers took the oppor-
tunity for a day's outing on the
lakeshore and other inviting spots.

Messrs. Wright Brothers are er-
ecting a commodious and service-
able packing house on their orchard
property which will greatly facili-
tate the shipping of fruit and pro-
duce. The building has been con-
structed along the most approved
lines and will soon be ready for
use. Messrs. Wright Bros. are
members of the Fruit Union and
will be furnished with packers by
the Union, thus making a great
saving in cartage.

Mr. C. F. Hanington was in Sum-
merland over last week-end, and
remained for two or three days vis-
iting his wife and son. Mr. Han-
ington is a construction engineer
with the Canadian Northern, being
stationed at Spence's Bridge until
camp was closed there a few days
back. He went out about the mid-
dle of the week bound for Vancou-
ver, but plans to go East immedi-
ately almost for a visit of about a
month.

DIV. II. PROMOTION LIST.

The following is the list of pupils
of Division II., Central School, ar-
ranged in order of merit, who have
been successful in their promotion
exams.

SENIOR III. to JUNIOR IV—
Leonard Whitfield, Joe Gayton,
Gertrude Angwin, Lillie Simpson,
Bernard Taylor, Cecil Ritchie, Lucy
Hargraves, Melvin Monro, Blan-
chard Munn, Gwen Harris, Alex.
Smith, Hazel Steuart, Muriel Phin-
ney, Charles Daly.

INTERMEDIATE III. to SENIOR
III.—James Marshall, Hugh McIn-
tyre, Alva Garnett, Frank Calder,
Delmer Dunham, Moses Marshall,
May Harrison, Minnie Ritchie,
Charles Denike, Herbert Riley,
Jack Harris, Levi Johnson, Laurence
Beavis, Ronald Phinney.

JUNIOR III. to SENIOR III.—
Jean Caldwell, Russell Munn, Louis
Smith, Stuart Daly, Robert Hat-
field, John Denike, Milton Phillips,
Carol Graham, Wilson Morfit,
Llewellyn Bowering, Allan Steuart.

The following pupils obtained
the diplomas: Leonard Whitfield
for Proficiency; Charles Daly for
Regular Attendance; Laurence Bea-
vis for Deportment.

Special Notice to Summerland

People, re. Dominion Day Sports at Penticton!

All who attended above and neglected to leave their clothes
behind to be laundered, kindly telephone us
to call for same. YOU enjoyed the day off
at Penticton; why not give your clothes
the same chance?

Penticton Steam Laundry Thos. H. Riley, Agent
Telephones 7 and 625
All goods received at the office by 10 a.m. Tuesday, are returned same week

TOWN SCHOOL.

The following is the Promotion List for the Town School. Names are in order of merit:

TO THIRD READER—Ronald White, Carleton Clay, Gordon Blewett, Ernest Riley, Earle Wilson, Doris Rines.

TO SECOND READER—Hilda Arnett, Mabel Shields, Margery Merrill, Helen White, Marion Beavis, Arthur Gartrell, Thorold Borton, Lily Everton, Eileen Male, Harold Sculthorpe, Jean Blewett, Lottie Sculthorpe, Alice Limmer.

TO FIRST READER—Alvin Wilson, Isabel Hogg.

TO SECOND PRIMER—Mildred Shields, Venney Johnson, Laura McLachlan, Eustace Lee, Gordon Sculthorpe, Lillian Hunt.

Miss Olga Watson, who has been teaching in Rossland has severed her connection with the teaching staff of that city. She is expected home in about three weeks.

PREFER WHITE LABOR.

Kelowna Cannery Propose Novel Plan To Encourage White Labor.

To emphasize the fact that they prefer white labor to yellow if they can obtain it, the Western Cannery Limited of Kelowna are advertising that they will run a kindergarten establishment in connection with their factory. This kindergarten, which will take good care of children belonging to women employed in the factory, will enable many married women to work in their cannery who otherwise would be prevented from coming. The cannery company hopes that this will provide them with sufficient white labor for their requirements.

The section house adjoining the station site in Peach Valley is now nearly finished. Some other necessary work is also being carried out previous to the erecting of the station building proper.

Peachland Notes.

Mr. and Mrs. C. Will Aitkens spent the beginning of the week at Kelowna with friends.

Mr. George Lang received a handsome new, and commodious car, "Chalmers 6" last week.

Miss Gertrude Gummow of the Penticton Public School came up to her home here on Saturday morning.

On Friday morning Mrs. Buchanan and daughter, Miss Betty, returned from a lengthy visit to Penticton.

The Okanagan Telephone Company completed the re-installation of phones in this district and left the end of last week.

Rev. A. Henderson left last week for the Coast to meet his daughter, Miss May, who is to arrive shortly from California, where she spent the winter.

The examinations held here last week under the supervision of Prof. McIntosh of Okanagan College were concluded on Friday, and those from outside points left for their homes afterwards.

Miss Muriel Harrington who was engaged teaching languages in a college in the East came in on Wednesday to her home here. She was accompanied by her uncle, Mr. W. H. Harrington of Ottawa.

Mrs. John Mitchell (Kathleen Lang) and her cousin, Mrs. Graham of Calgary came in on Thursday evening and will occupy Bryson Whyte's house for the summer. They will be joined later on by their husbands.

Considerable interest was taken in the public examination of the school here on Friday afternoon, about twenty visitors being present. The Trepanier school closed on Thursday to allow those who wished to attend the town examinations. The Honor Rolls are as follows: Miss Pentland's room—Regularity and Punctuality, Essie Winger; Department, Elsie Law. Mrs. W. Aitken's room—Regularity and Punctuality, Ronald Elliott; Department, George Topham; Proficiency, Albert Town. Miss Seaton's room in the Trepanier district—Regularity and Punctuality, Herbert Drought; Department, Doris Charleton; Proficiency, Alice Cousins. The roll for proficiency in Miss Pentland's room is held over until results from the Entrance are out.

WEDDING.

MAR—McDOUGALL.

Peachland, July 1.—A pretty home wedding was quietly solemnized on Monday at two o'clock in the afternoon, at the residence of Mrs. M. E. McDougald, when her daughter, Miss Alice, was married to Mr. Jno. Mar, B.A., of Chilliwack, B.C. Rev. J. Ferguson Miller, pastor of the Presbyterian Church, Penticton, officiated, and the wedding music was played by Miss Olive Ferguson. In the drawing room where the ceremony took place beneath a floral bell, quantities of flowers were used in decoration. The bride's gown was of cream satin with slit effect opening over an underskirt covered with brilliants and pearls. The bride was attended by her sister, Miss Candace McDougald, who was gowned in silk shadow lace over pale pink.

After the ceremony a buffet luncheon was served. Mr. and Mrs. Mar left the same evening for a trip to California, the bride traveling in a grey costume with a mediet collar and hat to match, trimmed with pale blue baby roses. A pretty feature of their departure was a shower of rose petals falling on them as they boarded the boat. The many friends of the happy couple here, join in extending heartfelt congratulations.

Out of town guests were, J. M. Robinson's family of Naramata, Dr. and Mrs. Lipsett, and W. J. Robinson, Mrs. M. Robinson and daughter, Mrs. Gray, of Summerland.

A substantial, commodious and attractive bathing house is to be erected on the shore at Penticton if present plans carry. Piling are now being driven on the site, and at a recent meeting of the council Councillor Huntly gave notice of motion for a by-law to raise the necessary money. The cost, according to the Herald, will be about \$2000.

He profits most who serves best.

KELOWNA MEETS SUMMERLAND.

Orchard City Wins In Tennis Tournament.

Nine members of the Kelowna Tennis Club journeyed down the lake by launch last Saturday, and met the Summerland Tennis Club in tournament, on the courts near the mouth of Garnett Valley. The visitors had been delayed in starting on their trip and did not arrive here until about midday, instead of earlier in the morning, as was expected. They were met at the wharf and driven up to the courts, where luncheon was served before play commenced. Weather conditions were very propitious, and the courts proved to be in such good condition that the visitors were very favorably surprised, expressing themselves after the games as being most pleased with the grounds.

On the afternoon's play the Kelowna Club took the laurels by a total score of 14 matches to 5. More in detail the play was as follows: Mixed Doubles 6-3; Men's Doubles 7-2; Ladies' Doubles 1-0; all in favor of the visiting players.

The Kelowna standard of play is good, and was very evenly maintained in Saturday's play. Their team has exceptional strength in the presence of two Cambridge half-blues, who as partners in men's doubles are almost invincible throughout the Valley. Mrs. E. B. May and Mr. P. G. Dodwell put up good games for Summerland in the mixed doubles and won all their matches.

Ton was served on the grounds during the afternoon, and the visitors left on the homeward trip about eight o'clock. The local club considers Saturday's tournament the most important that has been played here for a number of years.

The Okanagan Valley Lawn Tennis Association holds its annual tournament at Kelowna next month. A strong representation from the Summerland Club will be selected to play at that time.

A late telegram from Mr. R. C. Robinson, Silver City, Idaho, brings good news to Mr. J. M. Robinson. The ore body which has been looked for daily has been struck and is panning gold freely.

DOMINION DAY AT PENTICTON.

By steamer and launch, by automobile, rig, horseback and bicycle, all the lake towns joined Penticton in celebrating Dominion Day last Wednesday. Summerland sent a strong contingent, as many going by every kind of road conveyance as by water. The "York" took a party down about eight o'clock, and the ferry company's special trips were also well patronized. About ten o'clock the new C.P.R. boat "Sicamous" passed down the lake on a special journey from upper lake towns, and seemingly was crowded with holiday makers.

Penticton was all en fete for its two days' celebration. Crowds flocked in from the surrounding country, and not for many a day have the streets been so thronged with visitors. The day was scorching hot—it seemed as though the sun was more than usually intense with its heat—and all places of refreshment, harmless and intoxicating alike, experienced the greatest business rush they have known for a while.

All the sports were watched with the closest interest by great crowds. Athletic events and horse races of endless variety were put on. In the \$100 baseball match, Peachland met Summerland in spite of somewhat peculiar means which were said to have been adopted to keep the stake prize in Penticton. The Peachland boys got away with the game by a long score. Summerland was victorious in the football contest against Penticton, however, and won a vigorous game under the hot sun by a score of 3-1.

The day ended with a dance, which was largely attended. Not very many went down to the second day's celebrations which was carried on yesterday. Penticton beat Oroville at baseball, but Peachland were once more victors in the final tie.

The work of installing the ice chute down across the street from the ice crusher to the pro-cooling rooms in the Fruit Union's warehouse has been taken in hand this week by the Borton Plumbing and Heating Co. Special provision was made by the Okanagan Telephone Co. in putting in their new pole line by raising the wires to give the chute a free and unnumbered slant.

Whole No. 310

Dry Spell Brings Irrigation Shortage

South Main Users Make Strong Complaint To Council.

One matter loomed up large at yesterday's Council meeting—the insufficient irrigation service which orchardists south of Giant's Head are called upon to suffer. There were a number present to support a petition which had been sent in from this section, and the first business which a full Council took in hand was to hear the delegations present.

W. A. Caldwell made complaint of the intermittent domestic water service he gets at his house which, it appears, being a little higher in elevation than surrounding residences, suffers when others on the same line lower down use the domestic supply for irrigation purposes. Although this is not the purpose of this line, many find themselves forced to use this means to help eke out the scanty irrigation service. Mr. Caldwell asked the Council for a ruling on this point, that he might get a satisfactory service for purely domestic purposes. Later in the afternoon he was given assurance that the Board of Works would look into the question with other matters in that district which demand their attention.

Out of the discussion on this question came the bigger problem of the irrigation shortage which south main users are suffering. Messrs. R. W. Nelson, O. F. Zimmerman, C. D. Denton, D. H. McIntosh and J. S. Campbell were in attendance personally to press home the distressing needs of the district. They put the case strongly to the Council, whose difficulty is not an inability to see the need, but means to fully satisfy it. Several suggestions were forthcoming from the delegation that would contribute in smaller or greater degree to a better irrigation supply for the suffering orchards. Mr. Zimmerman, among other things, suggested that an additional ditchman be put on for the district to lessen the large territory which the man at present in charge must cover, to ensure a greater degree of fairness in dividing up what water was available. This suggestion was later acted upon by the Council. Mr. Campbell advocated letting the ditch run during the night and Sundays, and also urged greater vigilance in supervising the south main in Prairie Valley.

There was a very general discussion on the whole vexatious question. The view of the Superintendent is that the south main is already carrying all the water that can be safely entrusted to it as far as the Peach Valley syphon, but in his opinion the big ditch is not of sufficient capacity for its purpose. Mr. Mitchell cleared up some misconceptions existing in the minds

of some, and showed that all is being done that can possibly give relief to the situation.

As the outcome of the whole discussion, the Board of Works with the Reeve and Superintendent will go over the south main, and if the volume of water conveyed through it can be increased in any way, it will be done. With a view to allowing greater demands to be made on the Reservoir, Reeve Ritchie advocated the completion of the work of laying the new steel pipe from Trout Creek, and it is understood that this will be undertaken immediately. The delay in laying this pipe has apparently been unavoidable, though it was to have been laid in the spring. To complete the pipeline it will be necessary to interfere with the railway track, but it is hoped to arrange this with the K.V.R., so that the work can be pushed with the utmost expedition.

As a further help it was decided to cut down the hours of operating the electric light plant to four hours per day, from 7 to 11 p.m., excepting on Saturday night when the hour for shutting down will be 12 o'clock. This will hold till further notice. Thus for twenty hours per day the water will be kept running in the ditch that skirts Giant's Head on the north. In further connection with Mrs. H. Rivington's claim for a rebate on account of the pipe laid last winter, which the municipal pipe later put out of service, the Council agree to take the pipe from Mrs. Rivington at the market price.

Two applications for domestic water were received and will be reported on by the Board of Works. The claim of Mr. W. H. Hayes in connection with last year's irrigation service was further considered, and though the Council feel they have no jurisdiction to reverse the decision of last year's Council on the matter, they are willing to investigate any claim of unjust treatment that Mr. Hayes can personally bring forward.

A number of communications were dealt with, most of them unimportant.

The Clerk was authorized to hold the annual sale of land for the redemption of unpaid taxes on August 18th at 10 a.m. The arrears on these lands total about \$5,000.

By-law No. 61, fixing the tax rate at 15 mills for this year was authorized to be signed and sealed. The municipal cemetery will be re-staked and a new tracing, in compliance with a request from E. C. Graham, who told of difficulty in locating individual plots.

Accounts totalling \$4,812.08 were passed.

Adjournment was made about 6.30.

Dinghy In Difficulties.

An accident on the lake just as the steamer "Okanagan" was approaching the dock last night caused much excitement, and for a time anxious suspense among nearby townspeople. As the "Okanagan" came into sight a dinghy was noticed to the leeward of her, heading towards the C.P.R. wharf, keeping close to the wind, the steamer's course being directly across the bow of the sailing craft. When quite close to the little boat the steamer turned to make her landing, and in doing so the stern swung round, and hitting the mast of the dinghy turned it over on its side. The accident was witnessed by quite a number, and for a time the worst was feared. As quickly as possible lifeboats were lowered and the steamer brought to a standstill. At the same time the accident was noticed by Mr. K. S. Hogg, who was returning from Crescent Beach in the launch "Calgary," and he was the first to reach the spot. The only occupant of the dinghy, Phillip Agur, fortunately escaped with nothing more than a wetting. Being a good swimmer he quickly came to the surface and seized the bottom of the overturned boat. After being landed and getting a change of clothing, Mr. Agur returned to the dinghy in a motor boat and towed

METHODIST CHURCH FLOWER SERVICES.

Special Flower Services will be held in the Methodist Church on Sunday next at 10.30 a.m. and 7 p.m. In the morning at 10.30 Rev. C. H. Daly will be the preacher, and will also give an address to the children. The evening service at 7 p.m. will be conducted by the pastor, Rev. R. W. Lee. Special appropriate music will be rendered at both services. The church will be specially decorated under the supervision of Mr. Martin Bonvis, this being the last occasion on which he will assist in this way, owing to his leaving the district for the prairie.

There is nothing so powerful as truth—and often nothing so strange.

It is, spending the rest of the evening sailing about as though nothing had happened.

In giving the Review an account of the accident, an officer of the steamer stated that Mr. Agur had a very narrow escape from being battered up in the propeller of the steamer. Had it not been that the boat was turned outward and the occupant thrown to considerable depth in the water, it would seem impossible to have escaped the oncoming wheel before it was brought to a standstill.

Local Importations Of Hay Has Ceased

New Policy Of Orchardists Results In Large Saving.

From \$25 to \$10 per ton is a big drop in the price of hay but this has occurred in the past year as a result of the more general growing of alfalfa and other hay crops by our orchardists. Up to within a year \$25 per ton in the field had been a common price for locally grown hay, and imported baled hay has sold from \$26 to \$28 and even higher. A large part of this price was made up of freight charges from distant prairie points and the exceedingly high price was a serious handicap to the development because of the heavy cost of maintaining horses.

The scarcity of local feed and the high price of the imported article made the cost of keeping cows so excessive that few cared to undertake the expense. In addition, therefore, to the large annual outlay for hay there was also a considerable sum sent out each year for canned milk and cream and a much larger sum for butter.

The general change of policy adopted by our growers whereby in the aggregate a large tonnage of fodder crops are now grown is already having a very beneficial result in the keeping at home of many thousands of dollars formerly spent for horse feed and dairy products. Enquiry made of dealers who formerly imported hay, etc., reveals the fact that importation has practically ceased, and that enough locally grown fodder is now available for home needs. Mr. R. H. English, who has a baler, says that he has not been importing hay since the first crop of alfalfa was gathered in May, and that he yet has a month's supply on hand with the second crop now being gathered, of which he has contracted for about 50 tons for his stable use.

Within the last year there have been probably fifty head of milch cows imported, making that many more animals to be kept up than there were a year ago. Within that period several orchardists have taken up the dairy business, wholly supplanting canned milk, and several are selling butter in small quantities, while many others are making butter for their own use where formerly they were supplied by the imported article. With the still further increase of fodder which will be produced at each succeeding cutting, and the more general use of cows the time seems close at hand when this district can supply a model creamery, thereby saving many thousands of dollars yet being sent out for butter.

Delighted With Showing.

Mr. A. Leitch, Okanagan Manager for the Dominion Cannery, Ltd., has returned to the Valley after spending the winter in the East, and has been occupied much of this week contracting with local growers for peaches, apricots, and tomatoes. In addition to the Summerland cannery Mr. Leitch's company also operates the cannery at Vernon.

It was not until last season that the Dominion Cannery did any packing in the west, and their work here last year was largely experimental. Their particular aim was to test out our fruit and to ascertain how it would compare with similar products from California. Mr. Leitch now states that they are highly satisfied with the fruit canned here last season, and that it compares very favorably with the best produced in California. The tomatoes grown in the Okanagan he pronounced as particularly fine, being monty, of excellent flavor, fine color, and with an unusually small amount of seed. Having satisfied themselves that they can compete with California canneries whose products are delivered to our Coast cities by water the Dominion Cannery will very largely increase their output this season. Some additional equipment for the Summerland Cannery has already arrived, and operations will begin just as soon as peaches are available, which will probably be towards the latter part of the month.

Rev. S. Everton To Be New College Principal

Stirring Appeal For Local Institution At Coast Convention.

At the Saturday session of the Baptist Convention of British Columbia, which met in Vancouver for a few days over last week-end, the salient feature of the day's proceedings was a stirring appeal by Dr. Everett W. Sawyer, of Okanagan College, on behalf of that institution, pointing out the responsibility of the denomination to its own educational institution.

Preceding the address announcement was made that Dr. Sawyer has retired from his position of principal, and that Rev. S. Everton, former vice-principal, has been appointed to the vacated office. The factor that influenced Dr. Sawyer's resignation was the failing condition of his eyesight; he will, however, continue his labors in the college as Forward Movement Secretary. At the May meeting of the college board Dr. Sawyer expressed his desire to be relieved of the burden of administration, and in view of the circumstances the board decided to accede to his request, and accepted his resignation.

In announcing their decision the board expressed its unqualified appreciation and gratitude for the splendid work done by Dr. Sawyer in the past seven years, his unwavering faith and unswerving fidelity amidst many difficulties. He had led in the establishment of their educational work—having come out from Nova Scotia to assume the leadership of the work at its inception—in a way that had won the utmost confidence and affectionate esteem.

After reviewing the work of the College during the year just closed, Dr. Sawyer proceeded to speak upon the financial standing of the institution.

The past year, he said, has been by far the most distressing year the college has known in financial matters. Returns from sustenance and the pledges have been slow in coming in, and in many instances have entirely failed. Although the total enrollment showed but one less than last year, the number of students in residence has been much below those of previous years. The income from the Union has been reduced by one-sixth. In addition collections on current bills have been hard to make. All these causes, together with the strong pressure brought to bear upon the college from its creditors, have given the board a year of exceptional stress and anxiety. As it is, in the providence of God the work of the year has been completed, and conditions are such now that the board feel that it is possible to continue the work. Every consideration, pro and con, has been carefully weighed, and it seems that the way of prudence and service lies in continuance. Receipts for the year totalled \$15,248, while expenditures amounted to \$19,449. The deficit therefore is \$4,205.

"The time is come when our people should consider in a serious way their responsibility in connection with their educational work," continued Dr. Sawyer. "They should in a substantial fashion put themselves behind it in a sympathetic co-operation, in prayerful solicitude for the success of the work, and in liberal contributions for the support and endowment of their institution.

The college is just as poor as the Baptists of B.C. have made it; it is just as good as the overruling hand of God has made possible in spite of all our mistakes. For a denomination to enter upon educational work is business of a most serious kind, and once the undertaking is well under way it is still more serious business to discontinue operations. The need of educational work becomes more evident with the passing year. The board of management is more than ever convinced of the necessity and worth of this work, and feels that the denomination should rally strongly to its support just now. If less than two thousand Baptists who eight years ago amid prayerful rejoicing inaugurated this educational work had confidence and faith enough in themselves to launch the enterprise, then, surely, now that their numbers have been increased nearly

Proposed Reversion To Ward Schools

In Meantime Conveyances To Be Maintained.

The suggested amendments to the school transportation system, by which the Board of Trustees hoped to effect a saving of about \$425 to the people was not accepted by the public meeting held at the Central School on Thursday evening of this week. There was an attendance of about fifty, with one or two ladies, all districts, excepting the town being well represented. The proposals of the Trustees as presented by Dr. J. P. McIntyre and Mr. J. L. Logie did not appear to meet with a large measure of approval, and the discussion at times became decidedly acrid and not altogether dispassionate.

A counter proposal arising out of a suggestion made by A. G. Munn for a new school for the Trout Creek benches, upper and lower, was made in the form of a motion moved by H. Dunsdon and seconded by T. J. Garnett, that ward schools be opened as soon as practicable for the different districts, and in the meantime, the conveyance contracts stand as at present. As the needs of the different districts are satisfied, the conveyances will automatically cease. The feeling of the meeting was that all routes should be treated alike in any amending scheme, and on this score there were objections made to every proposed alteration to the transportation routes. W. A. Caldwell was voted to the chair, and after Dr. McIntyre and Mr. Logie had explained the position of the Board, the meeting was thrown open for discussion.

H. Dunsdon was prominent in the debate which ensued, declaring himself an advocate of equal treatment for all the routes, if they must be altered. He strongly favored the re-institution of the ward schools to take the children as far as the entrance class.

Others to express their views were H. Bristow, A. G. Munn, W. M. Wright, T. J. Garnett, R. S. Monro, W. A. Caldwell, R. Johnston, J. H. Bowering, S. Beggs, Rev. C. H. Daly; and some few whose remarks were confined to questions or short explanations.

There was considerable misunderstanding at first as to the scope of Mr. Dunsdon's motion, and a great deal of laborious explanations were necessary to fix clearly what was to be voted on. Not all present recorded themselves in favor, but

none showed in opposition when the negative vote was called for.

The proposal for a new school building at Trout Creek seemed to receive the general support of the people of that district. The site suggested was in the vicinity of Mr. Zimmerman's lot, which would be central for both the far sections and the upper benches. More than thirty children would be available from these two districts. The Trout Creek people are to hold a meeting to further discuss the proposal at the home of Mr. T. J. Garnett next Thursday evening, July 16.

Just how the Town School will be affected is left an open question, though if it is desired to cut off the rig altogether, it seems that a second room will be necessary. Whether the Prairie Valley school is to be re-opened will rest with the number of children that district can show.

It is felt that if the new school is sanctioned by the government, considerable aid would be forthcoming financially. It was also shown by Mr. Logie to be cheaper to re-open the ward schools than to convey the children to the Central School.

Mr. Dunsdon stood strongly for his assertion that the ward schools should teach up to the entrance class, but this was not understood to be included in his motion.

The question of an additional high school teacher was not touched upon extensively. It is certain that if the conveyance expenses remain as at present, however necessary another teacher may become, the finances of the Board will not be able to meet the demand until after Christmas.

The saving to the municipality from a curtailment of the transportation did not seem to appeal to the meeting, there being the idea that it was false economy. It was felt that the ward school would effect a greater saving to the municipal purse, and towards this goal the Trustees must now push, if they follow up the expression of the meeting.

It is probable that the Trustees will meet early next week to frame the tenders for the renewal of the contracts.

The meeting broke up about 10.15, though one or two groups continued in informal discussion for a short time after that hour.

Scout Camp.

With ideal weather the Scouts encamped at Crescent Beach have been enjoying themselves to the fullest extent, although it is not all play.

The boys have been made to assume more of the responsibility this year than ever before, and though supplies are none too plentiful, they are doing famously.

On Sunday afternoon service was conducted by Rev. C. H. Daly, a troop of some twenty Scouts from Naramata joining the Summerland Scouts at the service.

Visitors to the camp have not been as numerous each night as anticipated, but there was a fair crowd in attendance at the sports yesterday, when swimming, diving, running and similar competitions were engaged in. An official list of the winnings which is crowded out of this issue, will be announced next week.

threefold, and their resources multiplied many times, it ought not to be beyond the powers of our people to free the institution from debt and provide sufficient endowment for its support. Summerland and Okanagan will do their parts, and have already spoken in a strong way. It remains for the rest of B.C., to show whether when they speak they speak with a man-like consideration of obligations and consequences." At a later session of the convention a resolution was passed endorsing the policy of the College Board, and the Baptist Churches of this province will be asked to clear off the indebtedness, about \$50,000 and raise an additional fund of \$100,000.

Rifle Association.

The event for decision on Saturday last was the third shoot in the series of the Canadian Rifle League, and also the corresponding shoot for the Dominion Salver. Conditions were fairly good, and the following are the leading scores:

	200	300	400	500	600	FT.
H. Dunsdon, league	32	34	32	32	98	
salver	32	34	32	98		
W. Nelson, league	32	32	31	95		
salver	32	32	30	94		
J. Dunsdon league,	32	29	33	94		
salver	32	29	33	94		
G. Barkwill, league	30	32	32	94		
salver	30	32	32	94		
O. Smith league	32	31	29	92		
salver	32	31	29	92		
F. Nixon, league	28	28	33	89		
salver	28	28	31	87		
W. J. Smith, league	30	26	24	80		
salver	30	26	24	77		

To-morrow, Saturday, the final of the above competitions will take place, and every member is requested to turn out.

The Hospital Board this week very gladly accepted the offer of Messrs S. Bartholomew and George Ross to finish the operating room in the most approved and latest sanitary manner. Mr Bartholomew has just finished one hundred rooms in the Winnipeg General Hospital in similar style. About nine coats of special alkstone paint is used in the finishing. In this instance the corners will be rounded and every inch of surface finished so that it can be washed down at any time.

Truth conquers and prevails by its own momentum.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED, RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES Etc.—25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JULY 10, 1914.

CITIZEN OWNERSHIP IN THE ANTIPODES.

GOVERNMENT COMPETITION as a means to right wrongs, to relieve its citizens of the oppression of monopolists, to assure a supply of pure food, and to reduce the cost of living is being largely adopted by the "labor" government of the State of West Australia. Industries are also established for the purpose of becoming revenue producers. Owing extensive timber forests it seemed but a natural sequence that the government should establish mills to manufacture lumber. Already the labor party has erected such a mill and claim a profit of \$10,000 from a few months operation. A number of well-conducted state hotels have been established, and also state dairies, saving much mortality that existed in child life. Their establishment was brought about owing to a request for pure milk, there having been a heavy mortality in the children's hospital at Perth, the capital of the state. The hospital committee asked the government to take over the milk supply to save the innocent lives, and it did so. State milk farms were established, and milk is supplied daily and certified pure by the government analyst. There is a profit in the industry, and there is a great saving in child life. The state also owns the ferries plying between Perth and South Perth, and recently the labor government purchased the tramway service at Perth, and these are also run at a profit. A large power house is now in course of construction. It is expected on completion that the fares will be further reduced, without cutting into the profit. From the same power the government intend to sell lighting power to the various municipalities around the capital city.

An instance of the intolerance shown monopolists is the competition just put up against an alleged shipping combine by the labor government. Before they came into power the shipping on the West Australian coast was in the hands of a few monopolists who were backed up by the large cattle kings of that state. The public had no say in the matter, and boats were only run to suit the landed proprietors who arranged with the shipping companies to charge what they liked on freight. If an outsider wished to ship produce or cattle outside the ring he could not do so. When the labor government got the reins of office they set to work to put an end to this kind of thing, and bring about a regular service of steamship communication with lower fares and freights. They purchased two steamers which entered at once into the cattle trade. These boats also secured the subsidy for carrying the mails for the federal government. The price of fares and freights was cut down 25 per cent. to the consternation of the monopolists.

DECLARING that he thought Jack Kong, the Chinese servant who killed his white mistress in Vancouver two or three months ago, dismembering and burning her body, was guilty of murder instead of the lesser crime of manslaughter which the jury had decided upon, the judge emphasized his feeling last week by sentencing the seventeen-year-old criminal to spend the rest of his life in the penitentiary. Usually a life sentence means twenty-one years, but Kong, under the sentence, must spend all his years within prison walls. His lordship declared he was unable to see one redeeming feature, for he regarded the crime as one of peculiar cunning and ferocity.

A NOTABLE FIGURE is removed from the arena of British politics by the death of the Right Hon. Joseph Chamberlain, which occurred on Thursday night of last week in London, at the age of 78. Although for a number of years he had not been able to attend the sessions of the House of Commons, his name was far from forgotten in political circles. His death from paralysis came in the nature of a shock as somewhat unexpected. Mr. Chamberlain is best known as the strongest supporter of Tariff Reform that cause has known. He broke away from the Liberal party under Gladstone on the same question that is now convulsing the nation—Home Rule for Ireland, and later held the trying position of Colonial Secretary during the South African war. As a parliamentarian his brilliant and lucid debate made him popular in the House, and a close intimacy with his constituents held for "Joey" the constant surety of his seat.

THAT MYSTERY—SLEEP.

No scientist can explain what sleep really is; and the subject is attracting considerable attention among men of science.

The modes of repose are very strange. Elephants sleep standing up, and so do horses. Bats sleep head downwards, suspended by their hind legs. Ducks sleep on the open water, paddling with one foot, thereby describing a circle, and so avoid drifting shoreward. Hares, snakes, and fishes sleep with their eyes open. Man is the only animal that sleeps on his back.

Now, what is sleep's function? Professor O. Koelsch propounds a theory thus: In his view, sleep is what might be termed a sort of infection which the body carries on against itself to get rid of waste products before they are injurious.

Burning an object leaves ashes. In like manner the combustion which produces heat and energy in the body results in a waste which, unless speedily removed, becomes deleterious to health.

It must be arrested occasionally, or disease is certain to ensue. According to the professor, the function of sleep is to prevent nerve exhaustion before it seriously injures the organism.

Animals, he asserts, who are endowed with sight choose to sleep at night, because many of the stimuli which govern their vital action are cut off by darkness. In other instances Nature produces a substance which enters the nerve paths and temporarily deadens sensibility.

In either case, if the professor is correct, the purpose is not to get rid of fatigue, but to prevent nervous exhaustion by the waste products of combustion.

Okanagan Exhibit at Sicamous.

C.P.R. Will Provide Site.

J. Forsyth Smith, Provincial Markets Commissioner, spent a day in Revelstoke recently on his way to Calgary.

Mr. Smith was, says the Mail-Herald, much interested in a project brought to his attention by R. L. Lowe, assistant commissary for the Canadian Pacific Railway, at Sicamous, for the erection of a kiosk at Sicamous for the advertisement of Okanagan fruit and products.

Mr. Lowe proposes to erect a kiosk 16x16, about 90 ft. from the west end of the platform at Sicamous, the Valley Junction. There would be a plate glass display frontage on two sides, of a total length of 32 feet, fitted with a slanting surface, rising to a height of 4 feet, and capable of holding 48 trays for the display of fruit, besides shelving for panoramic views, decorative ornamentation, etc. The Canadian Pacific Railway will donate the site, and the Publicity branch of the Department of Natural Resources will arrange for a special issue of advertising pamphlets describing the various sections of the Okanagan, and will also supply attractive placards for the displays. Mr. Lowe has taken the matter up with W. E. Scott, Deputy Minister of Agriculture, who has promised to let him have the use of a large number of jars of preserved Okanagan fruits for the display. The various shipping organizations in the Valley will be asked to supply fresh fruits in season, and, if the scheme is carried out no effort will be spared to make the kiosk windows as attractive as possible, and to keep the fruits and products renewed as often as may seem desirable. Mr. Lowe himself proposes, personally, to supervise all arrangements.

The idea is that all the various districts of the Okanagan be represented in the displays, and the Boards of Trade throughout the Valley will be asked to contribute to the erection and upkeep of the building.

"The strongest point about the scheme to my mind," said Mr. Smith, "is the fact that Mr. Lowe, who is regularly stationed at Sicamous, offers to take charge of all details, while the amount of thought and energy he has already devoted to the matter makes it certain that nothing that he can contribute to success will be lacking. Too many such buildings, erected for advertising purposes, retain the original exhibit unchanged from month to month, a stale and unattractive monument to the unprogressive spirit of those responsible for it. Such a kiosk is not worth two cents to the district it is fondly expected to advertise. But an up-to-date exhibit, arranged and maintained in the best possible manner, placed where it may command the attention of thousands of the travelling public in the course of the year, and the effect of which is supplemented by the judicious distribution of literature, provides one of the best of all means of advertising the possibilities of a district."

HOSPITAL DAY.

At Reynolds' Ice Cream Parlor.

Through the generosity of Mr. and Mrs. Reynolds one day's proceeds of their ice cream parlor will go for the benefit of the new hospital. Tuesday next, July 14th has been chosen as Hospital Day. It is hoped that as the cause is a good one the ice cream parlor will be well patronized throughout the day.

The second crop of alfalfa is now being gathered and is a good yield. The first crop which was also a heavy one was harvested in May.

The regular monthly meeting of the Women's Institute will be held as usual in the Men's Club on Friday, July 17, at 3 p.m. An interesting program is being prepared. Mrs. Schreck of Naramata, will give a talk on canning vegetables. Come and bring pencils and paper.

QUITE LIKELY.

Jack Goodfellow: "Well, old man, I'm going to save my money now. And what do you think I'm going to do with my first hundred dollars?" Tom Tightwad: "Pay your entrance fee to a home for old men."

Summoned For Taking Water.

Orchardist Finds Himself in Trouble.

From time to time during the irrigation season, complaints have been registered with the authorities alleging the virtual theft of water in varying amounts from flumes and ditches, after the ditchman had left the gates regulated according to his judgment. Up to the present the Council has taken no action on such complaints, beyond cautioning the offenders that were known. In some cases this has been efficacious, and in others it has proven inadequate.

James Corner, who has charge of the irrigation main skirting the south face of Giants Head, has had reason for some time past to suspect that certain lot holders on his portion of ditch had been helping themselves to water. Particularly on Sunday mornings was this noticed, when the culprit may have had the idea that few others would be needing water. On account of his vigilance one lot holder of that district now finds himself in the unenviable position of facing a summons for unlawfully taking irrigation water from a municipal flume on Sunday last, when not authorized to do so by the man in charge of the water.

Thinking to catch the offender in the act, Mr. Corner hid himself in some bushes near the flume gate early on Sunday morning, and had his suspicions verified by seeing the orchardist himself come out before very long and raise the flume gate to his own liking, releasing a liberal supply of water on to his lot. Mr. Corner then completed his coup by making his presence known, and the chagrin of the culprit can well be imagined.

The outcome was a summons served on the water thief the following day, on information laid before Magistrate English by James Corner. The case will be tried on Saturday.

The provincial law on the matter is very explicit. It provides for a fine, upon conviction, of an amount not to exceed two hundred dollars. In this particular instance it is not desired to inflict the maximum penalty, but the case is being brought before the judiciary in order to make clear the powers of the Municipality in dealing with offences of similar nature. If the warning which this summons contains to others who are in the habit of helping themselves promiscuously to water which belongs to others, the magistrate may be called upon to deal with them also. The lot holder complained of in this case had, it is claimed, been getting all the water, which he could reasonably expect which deprives him of an excuse he might otherwise have had. Being questioned, he is said to have admitted taking water on other occasions than that cited in the summons.

The hearing of the case on Saturday will probably excite considerable interest.

PROMOTIONS—DIVISION III.

FIRST TO SECOND READER.—Sam Darkis, Grace Garnett, Irene Harris, Allan Ritchie, Ethel Phinney, Maud Darkis, Eva Johnston, Joan Ritchie, Zanda Garnett, George Garnett, James Smith, Edgar Walker, Vera Walker.

SECOND TO THIRD.—Roland Reid, Alfred Johnston, Ruth Graham, Tom Washington, Richard Holding.

FIRE AT MILL.

Some anxiety and much hard work was caused the owners and employees of the Garnett Valley Mill on Wednesday afternoon and evening by a brush fire close by. The fire started about 3 o'clock in the afternoon presumably from sparks, and being close by, probably 150 feet from the mill, among some slashings, the fire soon reached such proportions as to cause alarm. A telephone message was sent in and Mr. James Ritchie with three additional men and a supply of shovels motored out. Fortunately the wind was drawing away from the mill and at no time was there any immediate danger. Fearing lest the wind would change or the fire extend into the surrounding bush all possible haste was made to stamp out the blaze which was well under control by eight or nine in the evening and so far checked that at midnight all but three or four men were called off. None of the buildings or lumber were damaged.

CARD OF THANKS.

Mrs. Bentley and family desire to thank their friends for all their kindness and sympathy which has been a great help to them during their term of sorrow.

OBITUARY.

CHARLES J. BENTLEY.

On the morning of Tuesday, July 7th, Charles J. Bentley passed away at his home on the lakeshore, north of Peach Orchard. Mr. Bentley was in his 63rd year. He had been suffering from gout for some time, but it was only lately that it developed in an acute form. Early in the week it was seen that death was imminent, and he passed away as stated above.

Mr. Bentley was born in Birmingham, England, and was later at Woking, London and Richmond. He came to Summerland about six years ago, and was held in the highest esteem and respect by all with whom he came into business relationships. He took a keen interest in municipal affairs, and was often heard championing the cause of civic betterment.

He leaves to mourn him in immediate family his widow, Mrs. K. Bentley, three daughters, Mrs. C. Noel Higgin and Mrs. T. E. Pares of Summerland, and Mrs. Shuffrey of London, England, and three sons, Edmund of Penticton, William, at home, and David, now in London.

The funeral took place on Wednesday afternoon. A service was held in St. Stephen's Church by Rev. H. A. Solly, who afterwards read the words of committal in the Anglican cemetery, where interment was made in the presence of a number of sorrowing friends of the family.

Another Slash!

Throwing away all profits and shutting our eyes to the losses that will result, we have cut our bargain prices by an

Additional 10 per cent.

This extra reduction applies to all our Stock of Kitchen Utensils, Tinware, Enamelware, &c., included in our REMOVAL SALE.

"REVIEW" Offices.

Sinning Against Your Home Town.

PART III.

"A Town of a Thousand Managers."

The pair of shoes you buy by mail cost just as much to make as the shoes bought in your home town. The difference in price is found ONLY in the difference in materials and workmanship.

This is not an age of philanthropy.

It's much easier to get nothing for something than something for nothing. A city or town is a huge corporation. People are recognizing that fact more and more. It can't make good unless everybody jumps in and helps. Of late the office of "City Manager" has attracted much attention. It is his duty to manage the business departments of his city as he would a business of his own—stop the leaks and put it on a paying basis. But you, in your small way, can do more for Summerland—your home town—than any city manager.

You can stop more vital leaks than he can—the leaks that silently undermine the health of your home town—the leaks that are slowly forcing DOWN the real value of your property.

The fascination of the mail-order catalogue is akin to hypnotism. It's a beautiful dream while you are asleep. Its multi-colored pages conceal the dreariness of shoddy goods—brightened up for the time being by artist and word painter for temporary use—

For which is given true coin of the realm—one hundred per cent. efficient. Your home town needs that coin far worse than you need the alien goods. Your merchants and business men have enough confidence in the future of Summerland to invest heavily in goods for your comfort.

And by their decision in attaching themselves to the growth of your home town, they have added heavily to the value of YOUR PROPERTY.

It's an endless chain—strong only as its weakest link.

You buy your supplies at home—the money goes for more goods, larger stores, bigger bank clearings, more taxes—that means more improvements to property and adds to the attractiveness of your home town to outsiders. DON'T BREAK THE CHAIN by showing your unfaithfulness in sending money out of town, because the rebound will hit YOU in the end.

The labors and work of years can be easily lost, if one continues to sin against one's home town.

Appoint yourself one of your home town's city managers—a silent partner—a protector of your home town's present prosperity and future growth. Suppose every reader of The Review would do this—is it very hard to see what would happen?—The Elimination of the weak links in the Chain of Success—the Repairing of Leaks in the Channels of Trade—a Living Guarantee of Summerland standing on its own feet and striding forward by leaps and bounds into Prosperity. Put your home town on a business basis by putting yourself there first.

Don't forget that when you buy anything—price is fixed according to value, and that it is just as possible to get one dollar value for 50 cents as it is to fly to the moon or take a stroll through Mars on a sunny afternoon.

There is reason for everything. When your local merchants offer goods at greatly reduced prices—they generally want to realize something quick on the money they have invested right in your home town—

And you are justified in taking advantage of these bargains BECAUSE THEY WERE NOT ORIGINALLY PURCHASED TO SELL AT REDUCED PRICES.

Read that last paragraph over again. It has a double meaning when you buy such goods by mail.

So give your local merchants a chance—that is all they want. Appoint yourself a city manager of your own little world—let's make Summerland a "City of a Thousand Managers." It's up to you.

The next instalment of "Sinning Against Your Home Town" will appear July 17. In it "Told in the Strictest Confidence" will appear.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Drill Hall, Kamloops, B.C." will be received at this office until 4.00 p.m., on Friday, July 24, 1914, for the construction of the aforesaid building.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. Wm. Henderson, Resident Architect, Victoria, B.C., on application to the caretaker of Public Building, Kamloops, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so or fail to complete the work contracted for. If the tender be not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, June 27, 1914.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—68742. 35-12

Where envy, malice and impurity are allowed lodgment there will be disease, gloom and despair.

CONTRACT

Persons contracting with the Union may eat all the fruit they like, give away all they care to, sell to the cannery, sell to local merchants and others for home consumption, and ship to private customers (consumers) 10 per cent. of any kind of fruit. Other special arrangements may be made with the directors.

This does not mean that growers may sell to others to ship to consumers, the Union can do that for them, and will be pleased to ship fruit where directed by patrons at their risk.

Warehouse Open Every Day.

Wm. RITCHIE.

"Can"

ADVERTISING is the public expression of a master's will and wish—his word of power.

We want to say this to the merchants of this community:

You CAN make the public of this community buy more goods from you.

You CAN teach the public new customs, new tastes, new habits. You CAN make the public do what it is not in the habit of doing. Powerful and persistent advertising has revolutionized modern life. It sends people travelling. It has made them photographers. It has made the motor-car a necessity. It makes women change the fashion of their apparel twice or thrice a year. It selects the very food we eat.

A NOTE TO THE PUBLIC.

Does not the publicly expressed will and wish of the merchants of this community influence you in your shopping? Do you not go where you are guided? Are you not very attentive and responsive to the advertisements which appear each week in the columns of the REVIEW?

Shop Where You Are Invited to Shop

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full

quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

Subscribe for the Review.

Peter Roe is this week suffering from the effects of a severe gash in the palm of his left hand caused by a pike pole.

Now that the glorious First is past and likewise the glorious Fourth, let us reserve a cheer or two for the glorious Twelfth of Ireland.

Mammoth specimens of lettuce heads grown in Fred Manchester's garden on exhibit in a local store attracted considerable interest this week.

B. Thomson of Pentiction came in with a force of men to commence the dismantling of a couple of the old railway construction camps. These camps belonged to the Grant Smith Co. The present intention is to load the outfit on flat cars and move it to Pentiction. According to local rumor this company may shortly be working on the Kamloops-Okanagan extension of the C.N.R.

To have their auto stalled for over an hour on the one and only sand hill in the whole of Naramata district was the somewhat disconcerting experience of two Pentiction gentlemen last Saturday afternoon. Finally with the aid of a "jack," a couple of planks, and a single horse, (named "Jack" too, by the way), belonging to James Wells, the machine was pulled across the divide where it was soon spinning along at a regular "catch-up" speed.

The three local bandmen, Dean Walters, Walter Talbot, and Roy Boothe, who played with the Pentiction organization during the latter's four day's engagement at Pentiction and Oroville returned on Sunday morning. The trio speak in glowing terms of the hospitality of the citizens across the border. The auto trip to Oroville was made without a mishap, and though the dust was something to remember the experience was on the whole most delightful.

THE BOY SCOUTS RE-ORGANIZE.

With a burst of fresh enthusiasm the Boy Scouts re-organized—after almost a year of more or less spasmodic effort. The meeting of parents and friends of the movement held in the church basement on Tuesday evening resulted in almost a complete change of officials, who for the next twelve months will direct the progress of the movement locally.

Amongst those present who advocated the continuance and maintenance of a local troop of Boy Scouts were Lewis Block, J. H. Pushman, Peter Roe, W. S. Kent of Summerland, T. H. Boothe, and Rev. W. P. Willan.

Mr. Block, the retiring president, was in the chair, and spoke of the possibilities in the way of physical and moral uplift by the presence of a trained body of scouts.

The chief speakers of the evening were W. S. Kent, Assistant Scout Master of Summerland, who very kindly came over the lake and assisted very materially, and Scout Master Harry Pitman, a young fellow who has had several years practical experience in just such work, run on almost precisely similar lines in connection with church work. Mr. Pitman, although a new resident in Naramata has gained the confidence of the boys, and has already taught them several useful exercises, and before the season is over we may look forward to having a really excellently trained troop.

The officials selected from among the grown-ups, as a governing body, were: President, T. H. Boothe; Vice-President, Lewis Block; Secretary-Treasurer, O. Hughes. With a standing committee of three, consisting of J. H. Pushman, Fred Roe, and Mr. Bruce, with the officers, will constitute the governing body.

Mr. Harry Pitman was re-elected Scout Master amidst enthusiastic cheers from the boys. Altogether the boys movement is well on the road to success, and with the hearty co-operation of the parents there is really nothing but all-round good can result. Hurrah for the Boy Scouts and Harry Pitman.

BASEBALL IN NARAMATA.

In response to an invitation posted up for a few days previously quite a large number of the baseball fans, turned out to a practice on the athletic grounds on Monday evening and enjoyed an hour's sport.

At an informal meeting held on the grounds after the game Guy Brock was chosen secretary and B&T Lipsett captain and manager of the Naramata Baseball Club.

A subscription list is now being opened and before many days we may hope to see a full fledged team of Naramatans stumping the various teams in the Valley for friendly games. There appears to be some very fine material in town for this live form of sport. For the present Monday and Friday-evenings are set apart for practice. To these every fan, young and old, whether he's a "has been" or a "going to be" is urged to attend. Hurrah for the grand old game!

BUSH FIRE.

Owing to the prompt and energetic action on the part of road foreman William Nuttall, who acts also in the dual capacity of district fire warden, what might otherwise have proved a disastrous fire, was averted on Tuesday afternoon.

The fire started in some brush about an hour's climb east and south of town—some little distance from the John Robinson pre-emption, and had gained a considerable headway before its presence was noticed. Mr. Nuttall hastily gathered together all the available help he could muster and by hard fighting, succeeded by about ten o'clock that night in checking the flames. The immediate and special danger was that the fire if allowed to spread might reach some valuable timber belonging to the Pentiction Lumber Co.

CULTIVATING CURRANTS.

For success with currants have the ground perfectly free from grass and weeds, and keep it clean. This will require cultivating about once every week or ten days, according to the weather. The ground should never be cultivated when too wet or too damp.

This cultivation must be kept up, if a perfect state of good results are to be obtained; for once let the grass and the weeds get the control, the chances are ten to one that the plantation is ruined. When the grass and weeds become masters there is no probability that the plantation can be properly restored to a first-class condition. The aim should be to destroy the weeds before they come above ground.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Merritt, B.C.," will be received at this office until 4.00 p.m., on Tuesday, July 28, 1914, for the construction of a Public Building at Merritt, B.C.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. W. Henderson, Resident Architect, Victoria, B.C., at the Post Office, Merritt, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, June 20, 1914.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department—52586. July 10-17

COPYRIGHT 1910 BY C. E. ZIMMERMANN CO.

Breakfast is the most important meal of your life, for on it depends the enjoyment of each day—and the bodily and mental condition you take to your work.

A good breakfast requires Good groceries—cereals, eggs, bacon, coffee, and other enjoyable parts of a satisfying meal. But see that they are Good. Unsatisfactory food brings dyspepsia, our temper and a disagreeable day.

Be sure of YOUR day. Use our groceries—the kind that is eaten by the best business men and women in this town.

O. VAUGHAN

GROCER & COMMISSION MERCHANT

Mr. J. M. Robinson left on Tuesday for Spokane on a short business visit in connection with his mining interests. He is expected back early next week.

Next Sunday promises to be an important date in church circles. The occasion being an anniversary in the history of the local edifice, special services are being held both morning and evening. The speaker for the occasion is Rev. J. W. Hedley of Enderby, B.C. It is understood that on Monday evening also attention will be again drawn to the event in a unique entertainment in which representations of several nations will take part each in their own appropriate garb. It is expected that these special services will be accorded a wide measure of patronage.

NOTICE TO SWIMMERS

At the Kelowna Annual Regatta to be held on Wednesday and Thursday, 12th and 13th August, no person, who is not a registered member of some swimming club, affiliated with the Canadian Amateur Swimming Association, will be eligible to compete in the B.C. Championship events, namely, the one mile swimming and the diving competitions. As the Kelowna Swimming Club is the only registered Swimming Club in the Okanagan, application can be made to the Secretary, H. Goodie. The fee is \$1.50, including registered badge. Kelowna Aquatic Assn., Ltd., G. A. CHALLENGER, Secy.

Some EXTRAORDINARILY LOW PRICED

Meadow and Orchard Land

Can be acquired by Consulting

Mr. F. D. COOPER, Peach Orchard, Summerland

Mr. and Mrs. F. W. Fraser, also Mr. H. B. Burtch, all of Kelowna, were guests at the Felix Hotel on Friday last.

Passing Events: Social, Personal, &c.

C. A. Marshall was a visitor to Kelowna on Monday.

Mrs. D. Lloyd-Jones is visiting with her parents, Mr. and Mrs. James Gartrell.

To-morrow is the last day of the shoe sale at the leather store, and somebody will get a pair of \$5 shoes free. Why not you?

Some ripe apricots were picked on his lot on Tuesday by George Sinclair. This is an unusually early date, and as far as we can learn creates a new record.

Mr. and Mrs. Bert McLellan and family have gone to Penticton, where they will make their home. Their furniture and effects were taken down by road during the week.

Harry Munn of New Westminster, an experienced express man, has taken a position at the wharf, as extra help during the fruit shipping season. It is probable that yet another assistant will be needed in the height of the season.

Mr. and Mrs. J. Downton have returned from a week's vacation spent on their Bathfield pre-emption. Mr. Downton says it is much cooler on that elevation and a fire was necessary to comfort every evening.

It is mighty mean to patronize a merchant who will trust you until you get so far in debt to him that you are ashamed to see him, and then go and spend your cash somewhere else where you could not get credit; but there are people who do it.

Each succeeding year seems to bring forth a new record in fruit shipments from Summerland. In spite of the predictions of many that the local cherry crop would not amount to very much in the aggregate, express shipments to date are said to be in advance of any previous year.

Summerland friends received announcement last week-end of the marriage of Miss A. Etoile Fulton, eldest daughter of Mr. and Mrs. I. B. Fulton, formerly of Summerland, but now residing in Vancouver, to Mr. Frank L. Neiley. The ceremony was performed on Monday the 29th of June in the terminal city.

If a town does not reach after the trade, it will come only as fast as it has to, and it will grow as it is forced to. But if the merchants go after business, advertising in every possible way, and making good every word of their advertising, trade will come from an ever-increasing radius, the town will gain a reputation for being awake, and it will forge to the front.

We are pleased to note an increasing desire on the part of our readers to secure at the first possible moment a copy of this paper, and some call at the office to get a copy as it falls from the press. The reason is we publish all the news all the time. We want you to help us make it still better by notifying us of the death, marriage or important transactions in which anyone from this district is concerned.

Baptist churches in Vancouver were well supplied with special preachers at the services on Sunday last in the ministers and prominent laity of the denomination who were attending the convention in the city early this week. Rev. S. Everton preached in the morning at the Ruth Morton Memorial Church, and in the evening at the Mount Pleasant Church, one of his former pastors. Dr. E. W. Sawyer conducted the evening service at the Grandview Church. Rev. A. W. McLeod was also among the preachers who filled city pulpits.

After he had looked over the district for a couple of days Mr. Leitch of the Dominion Cannons was interviewed by the Review and when questioned as to how he found crop conditions he expressed himself as delighted and was sure that our orchardists were doing the right thing in taking up the growing of early vegetables. Tomatoes particularly were in fine shape and Mr. Leitch says that Summerland is most admirably situated for the growing of early tomatoes for which a big price may be had. Later when other places are producing heavily and the price consequently drops he hopes to be furnished with large quantities for canneroy purposes. That the farmers of Summerland are to be congratulated on the excellent showing they are making this season is the declaration of Mr. Leitch.

Hamilton Lang of Vernon registered at Hotel Summerland on Sunday.

Dr. F. W. Andrew who has been spending a vacation at the Coast cities returned on Wednesday night accompanied by Mrs. Andrew's sister, Miss Blott.

T. Sanderson of Vancouver and W. H. Hayes of Kelowna, both of the Provincial Horticultural Department were visitors here this week, registering at the Felix Hotel.

Miss Willans who has been attending the Halliburton College for ladies at Victoria has rejoined her sister Mrs. Rvington, Halcyon Orchards. We understand that Miss Willans will remain here.

Mrs. J. Hood who has for some years conducted a dry goods and ladies' furnishings business on Shaughnessy Avenue has sold her entire stock and trade to W. A. Wagenhauser, proprietor of a Penticton departmental store.

Mr. and Mrs. Scott of Victoria, the former a nephew of Dr. Lipsitt, are expected to arrive here to-day. Mr. and Mrs. Scott are enjoying a honeymoon trip by motor through the Okanagan Valley. They are coming south from Kamloops.

An expert piano tuner, Mr. R. McGeorge, authorized tuner and regulator for Mason & Risch, Ltd., who was expected here last week-end will be in Summerland and district early next week. Telephone your needs to the Review Office. ad

It is not improbable that Summerland may be favored within the next few days with a visit from the Hon. Martin Burrell, Minister of Agriculture and representative of this constituency at Ottawa. At present the minister is at his home in Grand Forks.

Miss Amy Barnett, a nurse in the Princeton Hospital spent several days this week at the home of Mr. and Mrs. Hector Sutherland. Miss Barnett with her parents and sister were among the early citizens of Summerland but left here about eight years ago. While here they were residents of Peach Orchard.

Magistrate English continues from time to time to issue gun licenses under the new act. The fee is \$2.50, \$5 or \$10, according to the nature of the license granted. A free license is also issued permitting farmers to shoot animals on their own property and under certain conditions on land contiguous to their farms.

Ripe peaches on the 2nd of July! For several years Mr Magnus Tait has been the first to report to the Review the opening of the peach season, substantiating his report with a number of samples of beautiful ripe Mayflower peaches. He gathered his first this year on July 2nd, unusually early. Mr. A. G. Munn also left several samples of ripened Alexanders gathered by J. Lawler.

Returns for cherries are now coming in to the Fruit Union office. This is a marked contrast over previous seasons, and is the happy result of the improved methods adopted by the Central. Heretofore to ship through the Union has meant a long wait for information as to prices and usually a longer wait for the cash. It now looks as though shipping through the Union will be almost a cash transaction.

The large concrete block which is to be used as an anchor at the upper end of the ice chut between the ice-house and pre-cooling plant has been moulded this week by C. N. Borton, and the necessary poles have been erected. The engines and other equipment necessary to change the motive power of the plant from electricity to gasoline has arrived and is being installed this week by B. L. Hatfield.

A new company is being organized this week at Spokane to take over the mining proposition at Silver City, Idaho, in which Mr. J. M. Robinson has a half interest. Mr. Robinson this week joined his son Mr. J. O. Robinson at Spokane for the purpose of completing the organization and transfer of the property. Very glowing accounts continue to come in from the mine, the latest news being that the original ore body has been rediscovers and is opening up into a large vein of heavy gold bearing ore. There is every indication that Mr. Robinson and his associates have struck a really good thing.

Mrs. E. E. Hutton went down to Victoria last week end.

Mrs. Hamilton Lang and children are guests of Mrs. R. H. Helmer.

Miss Eileen Male is spending a few weeks with friends at Penticton.

Mr. and Mrs. George H. Dobie of Vernon were in town on Monday, guests at Hotel Summerland.

W. G. Thomas, now of Penticton and formerly of the K.V.R. Engineering staff here, was about town on Saturday.

Miss Male and the little Misses Walters of Naramata spent the week end with Mr. and Mrs. T. G. Male of Peach Orchard.

The regular monthly general meeting of the Board of Trade will be held next Tuesday at 3.30 p.m. in the rear of the Summerland Supply Co.'s store.

A few lines of Shoes as Specials will be offered at HALF PRICE during the big sale at the Leather Store. See A. J. Beer's adv. on page 2. Here is where you get the profit and he loses. ad

Mr. and Mrs. A.H. Hall and family arrived here on Wednesday from Castor, Alta, and have already taken up their residence on the property recently purchased from Mrs. A. B. Elliott.

Remember the date of S. L. Taube's visit to Summerland and if there is anything wrong with your eyesight do not fail to consult him at Summerland Drug Co. Store, on Saturday, July 18th.

The public reception being tendered by the Felix Hotel which was to have been held on Wednesday of this week has been postponed to Wednesday afternoon, July 15th, notwithstanding several posted notices bearing date of Thursday the 16th. See regular ad.

Mrs. J. Weeks and two children went out on this morning's boat on a trip to the Old Country. She will spend a holiday with her parents at Oxford, and it is uncertain whether she will return before her husband proceeds to Australia, or whether she will join him there.

The W.C.T.U. met in the parlor of the Men's Club rooms on Monday afternoon. After the transaction of business Mrs. Roe read a report of the Provincial Convention recently held in Victoria. It was decided that the Union would not meet again until September.

At a meeting of the Hospital Society held on Tuesday in the Men's Club Messrs. James Ritchie, H. C. Mellor, and Dr. R. C. Lipsitt were elected a board of trustees, and to these the deed of the lot will be granted by the Summerland Development Company.

If the price can do it the Borton Plumbing and Heating Company will not move any of their kitchen utensils and other tin and enamel ware to their new quarters in the Empire Hall Block. To shove off the goods in the shortest possible time a further reduction of 10 per cent off the sale price will be given. See advt. on page 3. jy10

The first bush fire in this vicinity of any noticeable magnitude was noticed from the Summerland side of the lake on Tuesday morning, when smoke was seen to be rising on the uplands about two miles south of Naramata. After night-fall the fire could be seen clearly, but the flames never really gained an extensive hold on the hillside timber.

At the home of Mrs. Wellington Watson on Thursday afternoon, about fifteen ladies gathered at her invitation for a tea party, in honor of Mrs. Merrill, mother of the hostess, who terminates a visit of about two months to Summerland on the 20th inst. The very pleasantest of afternoons was enjoyed by the ladies in the shade of the verandah and the cool of the lawn.

Mrs. David Sheriff and her sister, Miss E. L. Sinclair, came in on Saturday evening's boat and were visiting their brother, Mr. G. F. Sinclair, at the home of Mr. and Mrs. J. Lawler, until Wednesday morning of this week. Miss Sinclair has been engaged in missionary work in India, and is now home on furlough. She was met at Victoria by Mrs. Sheriff, whose home is in Brandon, and the trip east to the Manitoba city was broken at Steamtown in order to make the trip down the Valley.

LOCALS.

Mrs. G. D. Shuldice of Calgary is the guest of Mrs. G. W. Morfitt at West Summerland.

Dr. Sawyer returned last night from Vancouver, where he had been attending the Baptist Convention.

Mr. Spraggin, teller at the Bank of Montreal, returned on Thursday night from a vacation visit to the Coast.

George Craig is to be in charge of the Naramata warehouse of the Summerland Fruit Union, which will be opened for the season next week.

Mr William Cross, of Winnipeg and Summerland, has returned from the prairie city and is again in residence on his orchard near the K.V.R. as it enters Prairie Valley.

Tomatoes, cucumbers and early vegetables are now being shipped in considerable quantities. Good prices are being obtained, tomatoes bringing about \$3.00 per crate and cucumbers \$2.00 per box of 2 1/2 dozen.

The Review was shown some particularly fine Royal Anne cherries by Mr. A. A. Derrick, who is shipping them to private customers. The cherries were placed in even rows and being very large and uniform were particularly attractive.

Mrs T. P. Thornber and son Willie left on Monday morning for an extended visit with relatives in Lancashire, England. After spending some days at the home of Mrs Thornber's brother in New York, they will sail from that port on the new Cunard liner "Aquatoria."

District Deputy Grand Master Rogers of Kelowna and Grand Treasurer Glass of Penticton, paid an official visit to the local Oddfellows last Friday evening, the occasion being the installation of officers. A number of pleasing addresses on the work and benefits of the Order were listened to after the completion of the routine business of the evening. Later ice cream and cool drinks were enjoyed. On Monday evening a number of the members of the local lodge attended a similar function at Penticton.

"The Universal Brotherhood of Man" was the subject of a very forceful address given by Rev. J. C. Switzer, of Kelowna, in the local Methodist Church last Sunday morning. Mr Switzer, who had exchanged pulpits with Rev. R. W. Lee, preached again in the evening. Sunday being the anniversary of the establishment of the Methodist Church here, special and appropriate music had been prepared by the choir. During the morning service Mrs. George Ross sang a solo, and at the evening service the soloists were Miss Evelyn Brown and Mr. T. G. Beavis.

Build Concrete Crib Floors and Supports

THEY keep the rats, squirrels and other rodents from carrying away your profits. Millions of dollars are lost to farmers each year through the ravages of rodents in cribs and granaries. Part of this loss is paid by every farmer whose crib floor isn't built of concrete.

Concrete crib floors and supports stop the waste because

They Protect Your Grain

Concrete is strong, durable and clean. It never wears out and needs practically no repairs. It is the cheapest of all materials for cribs and granaries. Write for this free book "What the Farmer can do with Concrete." It tells all about the uses of concrete and will help every farmer to have better buildings and save money.

Farmer's Information Bureau
Canada Cement Company Limited
533 Herald Building, Montreal

Market Report.

Issued by B.C. Market Commissioner.

Cherry market glutted with consigned cherries, Lewiston and B.C.'s. A number of excellent Bings, 10's sold today for \$1.00, and impossible to get higher than \$1.25, Yakima 30 lb. lug pack, Bings, \$3.75, Annes, \$3.50. Very fine B.C. Annes, 4b, \$2.50 to \$3. Sour, B.C. and Spokanes, from stawberry cars, scarcely moving at all. Number of Spokanes, 24's good stock sold to-day at \$1.

WHOLESALE PRICES.

Cal. Triumph Peaches, \$1.75, plums, Clyman, \$1.90 to \$2; Tragedy, \$2.50; Miss tomatoes, \$2.40; Yakima E. F. Winesaps, brought in to fill half car with cherries, \$3.25; Hammond tomatoes, \$4.50.

RETAIL PRICES.

B.C. gooseberries, pts., 15c. a cup; B.C. red currants, pts., 15c. \$3.50; Bings, 25c. a lb; B.C. Annes, 20c. a lb, 75 c. a basket; Cal. peaches 2 lbs. 25c.; strawberries 2 for 25c.; B.C. sour cherries 70 c. a b.; Cal. plums 15c. a lb, 50 c. a b.; apricots, 35c. a b.

Interviewed Market Superintendent D. Robison. New building 66 ft. by 150 ft., cost \$60,000, to be complete about September 1. Eleven booths besides temporary counter space. Ladies League will endeavor to popularize, following Calgary example. Superintendent anxious for B.C. to arrange to operate booth, under guarantee of lowering cost of fruit to consumer. Says that ladies, themselves, may run a booth, handling B.C. fruit and produce. Facilities not good till new building in operation, though not impossible to arrange for space now.

Red Deer, July 2nd.—Little B.C. fruit here this season.

Vancouver.— Wholesale, cherries, 10's, \$1 to \$1.25; Hales Early, Triumph, St. John, \$1.50; Cal. plums, \$1.25 to \$1.50. Cal. quotes Hales Early, Triumph, 50c., St. John, 55c., Crawford's, 60c., Bartlett's, \$2. Few Washington apricots arrived by express, \$1 f.o.b. Seattle, selling here \$1.50.

Regina.— All preserving fruits moving very slowly. Public not consuming quantities formerly handled regardless lower prices. Cherries glut on market. Independent growers and handlers have forced the market down to \$1.75, 4b crate, this combined with sluggish demand. Expect preserving cherry demand strengthen later, say in a week's time.

Moosejaw.— B.C. sour cherries moving, but demand almost nil. Fancy Washington Bings arriving in good condition, 24 pts., \$4.25. California peaches, plums, and apricots arriving. Demand very slight. Potatoes practically cleaned up, and active demand for new.

Winnipeg.—Market for cherries fair. B.C.'s in 4b crate very poor stuff, almost impossible to sell. Eight lb. cartons, \$1.50 to \$1.75. Ontario gooseberries arriving fine condition, 11 qt. b \$1.50 to \$2. Ontario cherries, 8 qt., 60c. to 90c.; 16 qts. \$1.50 to \$2. Cal. cantaloupes, \$4 to \$5, Cal. peaches, 80c. to \$1.50, plums \$1.75 to \$2.25, pears, \$4 to \$5, tomatoes \$1.25 to \$1.50, Cabbage \$3 per 100 lbs. Potatoes, 3 1/2 to 4 1/2 c. per lb. Fruit movement light.

Calgary, July 4th.—The Dominion Express have not granted as favorable a rate as was hoped for, \$2 to Calgary, Regina and Saskatoon. Gooseberries and Red Currants moving very slowly. Some of both arriving in 4b. crate. This is not a satisfactory pack, and renders selling still more difficult. B.C. cherries arriving in considerable quantities, Royal Annes, Montmoreneys, Windsors, and Bings, but demand not satisfactory. Clean-up of Americans should help out.

Delivered prices on California fruit, Calgary.—Crawfords and St. John, \$1.20, plums, Tragedy, Climax, Wickson, \$1.45, Red June, \$1.25; Red Astrachan apples \$1.75; Bartlett pears \$2.08. Wholesale—California peaches, Triumphs, \$1.50 to \$1.75, Tragedy and Climax plums, \$2.25; apricots, \$1.75, B.C. cherries, Montmorency, 4b \$1.50, Royal Anne, 4b \$2.50 to \$1.75, some very fine Pontifrons at the first figure, Black Tartarian, 4b \$2, Bings, 8 cartons, \$1.25, Eltons, Nelson, 18 lb. package, \$1.25, Yellow Spanish 4b, \$1.50, potatoes, 4c. to 4 1/2c.; cabbage, 4c.

Possible Boarder—"I enjoyed my dinner very much, and if it was a fair sample of your meals I would like to come to terms." Farmer—"First of all, mister, was that a fair sample of your appetite?"

WOULD YOU LIVE TO BE A HUNDRED?

Famous British Physician Thinks it is by no Means Difficult.

The decrease in the death rate during the last century has been remarkable, but, as every well-informed physician will tell you, it has been brought about chiefly by lessening the number of deaths among infants and persons under 35 years of age. After the latter age the danger of death is greater than ever, in spite of all that medicine and surgery can do.

The famous British physician, Sir James Sawyer, believes it is by no means a difficult matter for any human being to live to be 100 years old. He has recently declared that anybody can attain this age, unless killed by accident, if he or she will religiously observe the following eighteen "commandments of health:"

1. Eight hours sleep every night.
2. Sleep on your right side.
3. Keep your bedroom window open.
4. Have a mat at your bedroom door.
5. Keep your bed away from the wall.
6. No cold bath in the morning but a bath at the temperature of the body.
7. Exercise before breakfast.
8. Eat little meat, and be sure that it is well cooked.
9. Drink no milk. This applies to adults only.
10. Eat plenty of fat to feed the cells which destroy disease germs.
11. Avoid intoxicants, which destroy the cells that combat disease.
12. Allow no pet animals in your living rooms, for they carry disease germs.
13. Live in the country if you can.
14. Watch the three D's—drink-ing water, damp and drains.
15. Have change of occupation.
16. Take frequent and short holidays.
17. Limit your ambition.
18. Keep your temper.

Never be afraid of catching cold from a shower of curls.

TO ASSIST SMALL SHIPPERS.

The Department desires that the work of the Market Commissioner shall, as far as possible, meet the need of the individual shipper and smaller selling organizations for a prompt and more timely report upon the points of special interest to such shippers than is possible in the most punctually issued weekly report covering the whole field. It is felt, also, the work of the Market Commissioner would be more efficient if he were placed in a more confidential relation to the shipper, and kept as fully informed of fruit prospects, movement, anticipated prices, selling plans, etc., as if he were a regular sales representative. This definite information at his command would give his inquiries and investigations a more specific goal, and should make his reports correspondingly more valuable. It is proposed, then, that the Market Commissioner shall announce his probable itinerary two weeks ahead, and any interested shipper or group of shippers, may, in view of this itinerary, write the Market Commissioner, and arrange for daily, tri-weekly, or other tele-graphic (collect) report., upon general market conditions, or upon certain specific points of interest to them at points visited. Such requests should contain full details as to information desired, and, also, as to the fruit or vegetables that will be moving, dates of movement, prices expected, etc., and should be mailed to reach Calgary the Saturday previous to the beginning of the proposed trip. If it is not desired to incur the expense of lettergrams, the special points will be dealt with in the regular reports, or by special letter to inquirer. Such special inquiries will, of course, be kept strictly subservient to the efficiency of the general report, but, if properly handled, it is thought the service will be of considerable use to the shipper.

ITINERARY—Week ending July 11, Swift Current, Moosejaw, Regina. Week ending July 18, Brandon, Regina, Saskatoon, Lacombe.

SHE COULD.

"They say women have no sense of humor," he remarked. "Toll me, can you see a joke?" "Oh, very plainly," she replied, looking straight at him.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JULY 17, 1914.

A MATTER OF PRINCIPLE.

THAT PRINCIPLES are only of service to us when they cost something is an axiom laid down by a noted moralist. One of the guiding principles of community life that the Review has consistently preached as vital to growth and progress is that which is voiced in the slogan "Trade at Home." Holding firmly to this principle we recently refused an advertisement offered for publication by an outside departmental store. The space desired by this firm was much more than that at present occupied in our columns by any local store, and would have been permanent, so that the mercenary consideration was not lightly to be passed by.

We tell this not expecting any commendation, but to drive a point home to our local merchants. The department store manager referred to became convinced, after a visit here and a look into conditions, that there was room for business in Summerland, and desired to reach out after it by the logical means of advertising. Some may think that the local stores are already handling all the business that can be attracted in Summerland, but that this is not the case is clearly shown by this instance of a concern seeing an opening for the thin edge of a wedge by which a good business could later be worked in. We believe it to be the case—have proven it to be so in a number of instances—that local merchants can equal and come under the prices offered by out of town merchants in a great many lines, on the same terms. But the reason a great many of the townspeople do not see the same way with us is because they seldom have presented to them by the local merchants the bargain opportunities which can be had here, with the same insistent force which the mail order houses advertise to their customers. An illusion is presented by some of the big catalogues by presenting with compelling force a few extraordinary bargains, which gives rise in the mind of the reader to the fallacy that every item is a like bargain.

There is more business in Summerland for the local merchants if they will reach out for it. It is for them to show the buying public that they can meet the city mail order store in the matter of price and quality. If the business men of Summerland would meet their outside competitors in the field of advertising to anything approaching the same extent, still less money would go out of town, and "Trading at Home" would become, for economic reasons, a stronger feature of the business life of this community.

AN UNDERESTIMATED FOE.

IF ten terrible monsters came every spring to this country and all summer long devoured the people, chewing babies as we eat blackberries, biting off the heads of young men, goring the aged to death, and stalking about among us as a lion among the martyrs of the Coliseum, we should be up and doing, militia would march forth to give them battle, colonels would wave swords, guns would belch, and no enthusiasm would be lacking.

But when the monster is small and playful and common we let him ravage. He doesn't somehow appeal to our imagination, says the Ottumwa Courier.

Yet he does more harm, being 10,000,000,000 or so, than any ten minotaurs, polyphemuses or dragons that ever posed in the pages of tradition.

He is the common house fly.

Although much has been said about him and his deadliness, the people are not yet alive to the enormity of his crimes. There are thousands of kitchens where flies still swarm and infect the food, thousands of babies over whose faces and upon whose lips flies spread their poison, thousands of restaurants and lunch counters where flies are busy at the work of thinning out the human race.

RESPONSIBILITY has been fixed for the calamitous collision in the St. Lawrence on May 29 last, when the Norwegian collier "Storstadt" rammed and sunk the C.P.R. liner "Empress of Ireland" with the loss of over one thousand lives, passengers and crew. The third officer of the coal boat is censured for changing his ship's course without advising the first officer, who was navigator in charge. The first officer in turn comes in for some blame for not calling his captain to the bridge when fog appeared. On the other hand, the wreck commissioners report avers Captain Kendall of the Empress would have been better advised had he given the oncoming steamer a wider berth, and his action in bringing his ship to a standstill when the rules of seamanship only called for slowing down, is said to have caused some misunderstanding as to its position on the part of the collier. C.P.R. officials express satisfaction with the judgment, but the representatives of the "Storstadt" have announced their intention of bringing actions in both British and Canadian admiralty courts, in an endeavor to throw further light on the disaster, and thus, as they hold, shift the onus of responsibility on to the liner.

THE FEW CENTS that can sometimes be saved by buying goods away from home is injuring your community to the extent of many dollars by retarding progress and the increased valuation of all kinds of property, including your own. Stand together and together all will prosper. Divide and prosperity will flee. You know what the Bible says, that "a house divided against itself cannot stand."

THE PROVINCIAL ELECTIONS in Manitoba furnished something of a surprise in the gains which the Liberals made. The newly laid out confines of the province allow for forty-nine seats. Of these the Roblin Conservative government has secured twenty-five, and the Liberals, under the leadership of Mr. T. C. Norris, twenty-one. Three elections in extreme northern districts have been deferred. The Government made seven gains, including five newly defined districts, and the Liberal opposition thirteen gains, including seven new districts. One member of the cabinet lost his seat, Hon. Hugh Armstrong, Provincial Treasurer, who met defeat in Portage la Prairie. In other seats the first returns are so close that recounts are inevitable. One of these is held by Dr. W. H. Montague, Minister of Public Works, by a majority of four. Premier Roblin's own majority was greatly reduced. On the big issues of temperance and the Catholic-Protestant education question the Orangemen of the province went against Sir Rodmond, but the French Catholic vote went for the government.

A NEW CLUB.

Some seventeen Summerland men last night at Borton's Store organized the Summerland Gun Club. The prime object of the club is to engage in trap shooting. One thousand pigeons have already been ordered, and the first shoot is to be held next Thursday afternoon off Peach Orchard point. E. C. Graham was elected President; E. R. Butler, Secretary-Treasurer; and George Gartrell, Field Captain. The membership fee is \$2.

MYRTLE REBEKAH LODGE.

The regular semi-monthly meeting on Monday of the Myrtle Rebekah Lodge No. 32 was of more than usual interest, the occasion being the installation of officers for the next half yearly term, following which refreshments and social intercourse were enjoyed. Dr. F. W. Andrew, who was recently appointed District Deputy by the Rebekah Assembly at Victoria, installed the officers, who are as follows: Noble Grand—Mrs. K. S. Hogg. Vice-Grand—Mrs. G. N. Gartrell. Recording Secretary—Amy Brown. Financial Secretary—Jean McLeod. Treasurer—Grace Logie.

TO BUILD CREAMERY.

A creamery is to be installed at Kelowna, according to the unanimous resolution of the Farmers' Institute of that district. It is proposed to organize under the Agricultural Act, and to operate along similar lines as is the Cowichan Creamery Association at Duncan, Vancouver Island. The average net returns to members of the Island association for cream is given as follows:

In 1911—39.36c. per lb. of butter.
In 1912—39.90c. per lb. of butter.
In 1913—38.01c. per lb. of butter.
The current year will not show anything like so good a return owing to the competition of New Zealand butter.

The annual picnic of the Methodist Sunday School was held on Thursday afternoon, and by "Skookum," small boat and road, a good sized crowd found their way to Crescent Beach, where in the best of weather the customary picnic good time was had. Adults joined with the children in making the afternoon a merry one, and the picnic luncheon served in the open air was not the least enjoyable feature of the outing. The ferry brought a big load back as dusk was gathering.

UNEXPECTED MEETING.

Mr J. M. Robinson, accompanied by his son, J. O. Robinson, returned yesterday from Spokane where preliminary arrangements were completed for the floating of the company to operate the mine at Silver City in which they are interested.

By a happy and most unexpected co-incidence Mr. Robinson met his brother, Rev. A. T. Robinson and his wife at Spokane. They, in company with a number of others, were lecturing at the Chataqua School there. Mr. Robinson's theory for developing a higher moral life among the young, which is described in his recent publication, "Why They Fail," so impressed the Chataqua leaders that he was asked to join a lecture party which annually tours the country lecturing before the various Chataqua schools.

KELOWNA'S TAX RATE.

Kelowna tax rate this year is 24 mills, apportioned as follows:—
Debutenture interest and sinking fund - 11 mills
Schools - 6 mills
General - 7 mills.
Rebate of one-sixth for payment on or before September 15th will be allowed on the general tax, or one tenth if before November 1st.

A meeting of the Ladies' Hospital Auxiliary is called for Tuesday afternoon of next week in the parlor of the Men's Club, at three o'clock.

Presbyterian services will be held next Sunday morning in St. Andrew's Church and in the evening in the Methodist Church.

Mr. A. H. Flack, Dominion Fruit Inspector, who was formerly manager of the Penticton Fruit Union, has been appointed Chief Fruit Inspector of Manitoba, Saskatchewan and Alberta, with headquarters at Winnipeg.

Mr James M. Wright, proprietor of the Similkameen Star, has disposed of his plant to Col. Lowery, owner of the Greenwood Ledge. Mr Wright has been in business at Princeton for a number of years, and is highly respected there.

A rumor that the Canadian Northern Railway will extend its line from Kelowna to Princeton has been given currency by a high railway official, says the Similkameen Star. What the route of the proposed extension would be is not suggested.

Weather Report

Abstract from weather records for June, 1914, kept at the Government Station, Balcombo Ranch, Summerland, B.C.

June	Maximum	Minimum	Readings	Sunshine hr. min.	Rainfall (Inches)
1	1014

Sinning Against Your Home Town.

PART IV.

Told In The Strictest Confidence.

To succeed in the mail-order business— One has to know the ropes.

Here's one that never fails to bring the business—

Offer some commodity at a very special price and the public will take the bait. If our reader has in his or her possession a mail-order catalogue, there will be on one page, at least, a commodity marked down at a ridiculously low price. This is to impress you with the great illusion that all the goods in the catalogue are priced in the same ratio. If you didn't know this you would feel justified in buying everything by mail, just as it was intended you to do. But now that we know it, we will get fooled no more. Of course ALL mail-order houses don't do this!

His name doesn't matter. He is a fruitgrower—an agricultural business man," who looks to the growth of the community to add value to his property.

One day he came to town. He wanted a pair of shoes. After selecting a pair he asked the price. "Two dollars," said the retailer. "What, two dollars for that pair of shoes? I can buy the same looking shoes for \$1.75 by mail. Why should I pay two dollars?"

The dealer told him he had excellent shoes for \$1.75, but the pair that he was looking at were \$2.00 shoes. Our farmer friend could not see the difference and took out of circulation in his home town \$1.75.

Perhaps it would interest you just how our friend's order was filled by the mail-order house. He would have to first picture in his mind a large building, housing hundreds of clerks and huge stocks. His order would be dumped among thousands of others on the desk of the receiving clerk where it is opened. The order read, a slip is made out, attached to his order and filed in a particular box, where a second clerk takes it to the order department, where a third clerk reads the order and attached slip and passes it to a fourth clerk who secures the shoes from thousands of other pairs. A fifth clerk takes the shoes and the order to a sixth clerk who verifies the order and shoes and passes them on to the seventh clerk in the shipping room. And so it goes until by the time the shoes reach our farmer friend, a dozen pairs of hands at least have handled his shoes, nearly enough to wear them out before delivery.

How much of our friend's \$1.75 went for the shoes and how much for the hands that carried out his order? Figure it up yourself and stack the result against what would have happened if our friend had purchased his shoes in his home town.

Our local merchants sell reputable goods. They cannot afford to sell any other kind and keep our business very long.

If our farmer friend had purchased his shoes at home, he would have received good shoes, made by a reputable maker, and he would have kept his money at home—a little help towards making his dream of a larger Summerland coming true.

Says a prominent Western merchant (name on request) who is also president of the local business men's league, "There seems to be a kind of feeling of self pride among the people that they are doing the right thing when they send away for their goods, even if they do not get them any cheaper. I do not think it is done because of any malice or illwill towards the home merchants, but more for the feeling that it shows business—that one has prominent affairs, going to the post office and buying a money order and in a few days get a big package by mail or express. Is that the way you feel? Don't you think we would feel better and have more pride if that new post office or station or courthouse was rising rapidly for visitors to see and say to themselves, 'I guess Summerland is some town.'"

Isn't that the way you want people to talk about Summerland—your home town?

Then let's get together and give our merchants a square deal. They've done their share towards building up our home town by coming here, and going into business.

The next instalment of "Sinning Against Your Home Town" will appear on July 24. In it "It's a Poor Bird that Spoils It's Own Nest" will appear.

Market Commissioner's Advice To Shippers of Early Tree-Ripened Peaches.

It is very difficult, if not impossible, to induce wholesalers to handle our early peaches, as, unless specially tree-ripened, they are lacking in flavor and quality, and, unless they are got to the consumer with the least possible delay, they go down so rapidly as to entail considerable risk of loss.

Some eminently successful direct-to-retailer shipments of specially ripened fruit, however, were made last year, and there seems little doubt but that, if early peaches are handled properly, and special efforts made to deliver luscious, ripe, well-flavored fruit, direct, our peaches, 30 to 48 hours in transit by express, will readily outclass for dessert purposes, California and Washington peaches. For the nearest of these competitive shipping points is five or six days away from the market by freight, the 20c. duty is practically prohibitive to express shipments, and its peaches must necessarily be picked green, and, consequently, in a large measure dry and flavorless, in order to carry.

Success will not come, however, without much planning and attention to detail, and the necessity for selecting fruit at differing stages of ripeness to correspond to the distance travelled, the special care required in picking, handling, and packing, etc. make it clear that this special branch of fruit-selling can only be handled to the best advantage by the individual grower who will make a serious study of the subject, and who is prepared to devote more time and attention to each particular shipment than is possible when doing business on a large scale. One Okanagan shipper, I know, has had pre-eminent success with

his peaches handled in this way, and has realized returns considerably above the average level of the market. His fruit regularly secures a quality premium, but only as the result of an amount of thought, study, and careful attention that many shippers would consider excessive.

Growers generally are urged to test the possibilities of this specially tree-ripened, express-shipped peach proposition. Offer your peaches by letter or circular, at a delivered price, if possible. The retailer, as a rule, is not familiar with rates, and an offer F.O.B. far-away B.C. will not appeal to him as definitely and concretely as the delivered price which will certainly be quoted to him two or three times a week by the wholesale representative. All shippers should have copies of the Dominion Express Tariff, and quote rates in their circulars. Note, however, that a general rate of \$2.10 per 100 lbs. applies, this year, from Okanagan to all Alberta points except Calgary, Canmore, Bankhead, Cochrano, Exshaw, and Morely, to which the rate is \$2, and Banff to which it is \$1.00. In your circulars, also, emphasize the juicy, ripe quality possible in the express-shipped B.C. peach. If you get the right quality into them, the first peaches might be quoted out at \$1.30 which lays down at \$1.72, allowing the retailer to sell 06's at 30 c. a dozen, and make a profit of 68c. a box. California's, however, will be laying down at the same time at \$1.55 to \$1.00. The Market Commissioner wishes especially to be kept in touch by the shipper with the movement of these peaches, points shipped to, prices asked, etc.

P. P. JOHNSON, Summerland, B.C.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Merritt, B.C.," will be received at this office until 4.00 p.m., on Tuesday, July 28, 1914, for the construction of a Public Building at Merritt, B.C.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. W. Henderson, Resident Architect, Victoria, B.C., at the Post Office, Merritt, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of

each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, June 29, 1914.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—52586. jy 17-1914

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full

quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

OUR NARAMATA SECTION

LADIES' AID TEA AND SOCIAL.

The Ladies Aid didn't altogether surprise us on Monday, as from past experience we know what they can do. They certainly pleased and delighted all who were privileged to attend the Raspberry Social held in the church basement on Monday afternoon and evening, which afterwards was followed by a fine program in the Opera House, at which latter entertainment the local Boy Scouts ably assisted. Features of the program were solos by Mrs. Dean Walters and Mr. Ben Newton, and the really high-class interpretations from Drummond, and "The Little Minister" by Miss Clyne, teacher of elocution in Mt. Royal College, Calgary. The camp fire song, "We are Tenting Tonight," staged by the Boy Scouts, led by Mr. Harry Pitman, Scoutmaster, added a fitting rounding out to what was indeed an enjoyable evening's program, which is here appended:

Chairman's Remarks—Rev. R. W. Lee of Summerland.
 Drill—Boy Scouts.
 Reading—Miss Clyne.
 Solo—Mr. Ben Newton.
 Address—Rev. J. W. Hedley.
 Drill—Boy Scouts.
 Song—Mrs. Walters.
 Recitation—Mrs. J. R. Wells.
 Song—Mr. Ben Newton.

Reading—Miss Clyne.
 Song—"We are Tenting Tonight," Mr. Pitman, assisted by the boys.
 Chorus—"The Maple Leaf,"
 God Save The King.

Aside from the satisfaction which naturally follows as a result of doing something having an educational value is the fact that the community is none the poorer, and that the financial obligations of the society under whose auspices the event was staged, are very substantially reduced.

J. M. Robinson and son J. O. Robinson, returned from Spokane where the necessary steps were taken in floating the mining company now operating so successfully near Silver City, Idaho.

Current Events — OF — Town & District

Mrs. E. B. Reesor with her son have taken the Wilkinson Ranch cottage for the summer months.

Mrs. J. S. Gillespie is expected in shortly from an extensive lecture tour through Michigan.

D. F. Broome formerly of the K.V.R. engineering staff of town was a week-end visitor.

Mr. Frank Firstbrook of Toronto came in on Wednesday to enjoy for a season the outdoor life of the Okanagan.

T. H. Broad and brother C. N. Broad, sons of Dr. Broad of Calgary, were in town on Monday having a look round our favorite resort.

Mr. and Mrs. Firstbrook of Toronto, parents of Mrs. W. L. Robinson, are now in Naramata to pass a pleasant holiday.

Mr. J. H. Pushman has been confined to his bed since Monday suffering from what would appear to be an attack of malaria.

Others reported to have succumbed to the effects of hot weather are Dr. W. L. Robinson and "Billy" Robinson, present manager of Hotel Naramata.

Among the week's list of tourists registered at Hotel Naramata from outside points were Mr. and Mrs. J. A. Nolan and two daughters from Calgary.

Miss Orca Williams, a former local school teacher, returned on Monday from Fernie, B.C. Miss Williams has been re-engaged at an increased salary in Fernie.

Rev. W. P. Willan, our local pastor goes to Kelowna next Tuesday to enter the church workers training school being conducted there for a full week. It is probable that Mr. Willan remain only till Saturday in order to be here for the usual church services on Sunday, July 26th.

The special feature about our 12th of July celebration was more the nature of a church anniversary—and incidentally there were three services held in the local edifice: Rev. J. W. Hedley, B.A., of Enderby, B.C., preaching to good audiences at 11 a.m. and also at 7.30 p.m., while Rev. H. A. Solly conducted the regular monthly Anglican service at 8 in the afternoon.

An effort will be made to have the annual district meeting of the Methodist churches of the Valley held in Naramata. Naramata is certainly in a position with two such excellent hotels to accommodate a gathering of such modest numbers, and as all the other towns have had their turn in the entertainment of the annual church delegates it would appear to be about up to us to get busy. By all means let Naramata extend an invitation.

FRUIT UNION ACTIVE.

The Naramata branch of the Summerland Fruit Union opened out in real earnest on Monday morning with Geo. Craig of Summerland and Norman Alexander of town in charge. The Union is situated in airy apartments formerly used as a house by Grant Smith & Co. There is already on hand a big supply of box material, part of the big order upon which Manager Robertson netted such a big saving to the fruit growers. In regard to orchard boxes it is the intention of the management to institute a system of checking in order to show where these boxes are. Hitherto this has not been done, and consequently many of these useful boxes have disappeared. Altogether the fruit growers of Naramata are approaching the busy season with confident hopes of a successful season's output.

Has Naramata No Camping Ground?

This week this question came up. It's a question that is likely to trouble itself upon our notice from year to year. And each time we return a negative we are turning people away from our town. Here is a case where a party numbering twenty-five or more had to turn away because of the fact there is no easily available, close-in camp ground.

FARMERS' INSTITUTE MEETING.

The regular monthly meeting of the Farmers' Institute—which as far as we are concerned would be more appropriately named "Fruit Growers' Institute"—was held on Friday evening, July 10. Vice-President Cook was in charge, with T. H. Boothe acting secretary, owing to the unavoidable absence of J. H. Pushman the secretary-treasurer. Chief among the features of the evening's findings was the adoption of the tentative report of the special committee appointed in April to take the necessary steps toward the establishment, through government assistance, of a more adequate supply of water for irrigation and domestic purposes. The report showed that a party of engineers were already here and looking over the ground, and were at present in camp on the site of the Okanagan Trust Company's dam; that it was anticipated that the plans about to be submitted for adoption would involve a very inconsiderable expenditure of cash, as the engineers are of the opinion that by enlarging the wall of the existing dam a really fine reservoir will be created.

Later in the evening President H. J. Wells came in for some hot criticism for his policy as director of the local fruit union in dealing with non-members in the matter of the purchase of supplies. The critic, Mr. F. H. Rounds, claimed that in his opinion it would be a long way better to adopt a spirit of conciliation toward non-members in the hope that we would stand a solid organization of fruit growers.

Mr. Wells defended his position by claiming that the experience of other similar organizations had amply proved that the only really effective way of forcing upon the minds of the non-members of the union the benefits accruing from year to year, was to shut down hard and fast, hand out no plums in the hope that eventually they would join.

On the whole the discussion was like a thunder shower after a hot stuffy spell of weather—it cleared the atmosphere, and everyone felt better after both sides of the question had been thus thoroughly aired.

SCHOOL MEETING.

The annual meeting of ratepayers summoned by usual ten days' notice resulted after a half hour's wait past the hour appointed in a bare quorum turning out on Saturday morning, July 11th. Owing, however, to the very important nature of the business to be transacted it was felt that it would be a shame not to make one more effort to assemble a larger representation of citizens. Hence it transpired that the meeting was adjourned to meet on Tuesday evening at eight o'clock.

The public meeting on Tuesday evening was well attended as school meetings go. James C. Williams was voted to the chair. The secretary, C. B. Cash, read quite an exhaustive report on the business transacted throughout the year, and in the estimates outlined the plans for the year to come. In this report the item of especial importance to the taxpayers was that of appropriation. In this matter the board suggested our acting on the plan as outlined by the Department of Education, a plan which, if followed, will give the trustees a bank account to carry them along while the current year's taxes are being paid. The suggestion was to call for just twice the needed amount this year, and a year from now call for a year's expenditure to be raised, and so on from year to year. Hitherto it has been the practice of school boards throughout the country when they ran shy in the bank to draw on the treasury department—a privilege that became abused.

The Naramata School will not, however, be required to make a double assessment this year. Last year sufficient funds had been put in the estimates in anticipation of having to pay for an additional teacher—but as there was a delay in getting the school under construction till this season, part of last year's assessment is still good. In the course of election of officers for 1915, Mrs. Allen was re-elected as school trustee for a period of three years, and Mr. Geo. Wolstencroft auditor for this year.

Hon. Martin Burrell, who with Mrs. Burrell contemplates spending a portion of the holiday season at Naramata, the guests of the latter's sister, Mr. Cash, have been delayed through a change of plans, and are now expected to arrive here early next week.

How To "Get By."

Canadian Quarantine Described By Portland Man.

Portland, July 14. — Secretary Prince of the North-western Fruit Exchange has been making a personal canvass of the Canadian markets, and is strongly impressed with the fact that there is every indication that the Canadian quarantine law is going to be enforced more rigidly than ever from now forward. The newspapers have been agitating "Buy British Columbia Products," and much pressure has been brought to bear on the government that the law shall be administered in its full technical requirements. Mr. Prince makes the following deliberate recommendations: 1. Inspection of all fruit intended for Canadian destination should be unusually rigid, and every single box bearing even the slightest trace

of Codlin moth or any disease should be excluded. 2. Before loading the fruit in railway cars the cars should be swept thoroughly. 3. Fumigate each car before loading. 4. Leave the utensils used for fumigation in the car, as evidence thereof. It is stated that the Sebastopol Apple Growers' Union, California, have used this method with such success that not a single car of their fruit has ever been condemned.

A fox hospital has been established at Charlottetown, P.E.I. A staff of veterinary surgeons will be connected with the hospital to study fox ailments, and to treat any of the animals that become sick or injured. This is an indication of the marvellous growth of the fox industry in the Gulf Province.

Apple Pollination In The Spokane Valley

The Experiment Station at Pullman has been engaged for several seasons in a study of orchard pollination to determine which varieties of apples are self sterile and need to be planted near other varieties in order to be fruitful, and which, if any, can successfully pollinate their own blossoms. Tests have also been made with a number of the more important varieties to show what combinations give the best results in cross pollination. Most of these studies have been carried on at Pullman, but this spring considerable work was done in several orchards at Opportunity, Washington, and the results may be of interest. Nineteen varieties were tested for self sterility. Rome Beauty and Baldwin were the only varieties tested which gave any promise of being able to produce a crop without cross pollination, and these set much less fruit than when crossed. Ben Davis, Wealthy, and Yellow Newtown were slightly self fertile. King David, Delicious, Jonathan, Wagener, Winter Banana, Maiden Blush, Twenty Ounce, Lawyer, Northern Spy, Tompkins King, Spitzenburg, Yellow Transparent, Rhode Island Greening, and Winesap failed to produce any fruit from self pollinated blossoms. Rome Beauty, McIntosh, Delicious, Spitzenburg, Ben Davis and Wagener all gave good results as pollinizers of Jonathan. Winter Banana and Yellow Newtown were also crossed successfully with Jonathan, but gave fewer fruits than the other varieties. Jonathan, Delicious and Ben Davis crossed most readily with Wagener, and Rome also gave some fruit. Wagener, Delicious, Jonathan and Winter Banana gave the best results with Spitzenburg, while Yellow Newtown and Ben Davis gave quite good results, and Rome, McIntosh, and Winesap were found to cross pollinate the Spitzenburg successfully. Rome Beauty was most successfully pollinated by the Wagener, though this is not a very desirable combination in orchard practice, as the Wagener is an early bloomer and the Rome blossoms rather late. Jonathan, Delicious, Ben Davis, and Spitzenburg all gave very good results as pollinizers for the Rome.

In most cases it has been found that varieties which blossom at the same time will cross pollinate successfully, and, as a rule, set more fruit than the same varieties when self pollinated. Winesap and Stayman Winesap, however, have failed to give good results as pollinizers on any of the varieties tested. The Experiment Station has a bulletin in preparation giving the results in detail of this and other pollination tests.

W. J. YOUNG, Assistant Horticulturist. RASPBERRY SOUP. Recommended As An Excellent Hot Weather Dish. Raspberry soup is a delicious appetizer and cooler on a warm day. Fruit soups are used as foods in many countries. They are not so common in the United States, but they undoubtedly possess food value when thickened with sago or tapioca. They may be served hot or cold. Raspberry soup, however, should be served cold. Use one pound of granulated sugar, two quarts of red raspberries, one tablespoonful of corn starch, one half pint of sherry. Look the berries over thoroughly and mash them. Let them stand an hour, and put through a sieve. Heat gradually, and when the boiling point is reached add a tablespoonful of cornstarch which has been moistened in water. When clear, smooth and thickened add the wine; remove at once and let cool. Serve at the beginning of the meal, poured over shaved ice in glasses.

Those of our fruit growers who are not now receiving Market Commissioner J. Forsyth Smith's regular weekly market report may do so by becoming members of the B.C. Fruit Growers Association. The annual fee is \$1. Application should be made to Mr R. M. Winslow, Secretary of the B.C. F.G.A., Department of Agriculture, Victoria.

NARAMATA LOCAL.

Dr. J. E. Black, a Vancouver dentist now practicing in Summerland, will be at Hotel Syndien, Naramata, on Monday, Tuesday and Wednesday. Make your appointments promptly.

Peachland Notes.

Wm. Logan of Kelowna spent the week-end in town.

Mr. and Mrs. John McGregor are rejoicing over the birth of a baby boy which event occurred in Kelowna on Sunday, July 6th.

On Friday evening Rev. A. Henderson and daughter, Miss Henderson, who has spent the winter in California, came in from the Coast.

Miss Dancer, who has been staying near Ewing's Landing all summer, came down on Friday evening and will stay some time at the hotel here.

Mrs. W. Lupton of Kelowna, who is just out of the Kelowna Hospital, came over on Monday evening, and will stay with her mother, Mrs. Aitkens, for a couple of weeks.

On Thursday the family of Rev. A. Henderson were surprised and delighted by the arrival of Douglas, the eldest of the family, who has been in Seattle for a time.

Messrs. Ernie McKay and Bryson Whyte left for Calgary and other eastern points on Tuesday morning, to look around them, to see if the prairie would suit them better than the mountains.

On Wednesday Lionel Aitkens, an old Peachlander, came in from Winnipeg where he has been doing office work, and will spend a few days renewing acquaintance with his old friends.

Mr. and Mrs. Bert Smith with their five children motored over from Morritt on Wednesday. They made the trip in one day, covering the whole distance, 188 miles, before eight o'clock in the evening.

Work has again begun on the Inke shore road, Jas. Michael, with a gang of men, are in camp near Dan. McLaughlin's ranch, from which operations will be carried on.

Mrs. D. Kirkby of Penticton and Mrs. McLean (Margaret Warnick) of Winnipeg, with their children, came up on Tuesday morning and are the guests of Mr. and Mrs. John McLaughlin.

The recent change in the temperature has been welcomed by everybody here. The storm on Saturday afternoon was accompanied by some very heavy cannonading by the artillery of heaven, while the electrical display was magnificent. No damage is reported as resulting from it.

Penticton baseball players played one of a series of games with the Peachland team here on Thursday. A prize of seventy-five dollars is being competed for by the teams which have each won one game by one run. The game on Thursday was the home team's, for which they were given a present of five dollars by Mrs. A. Town. The final game is to be played in Penticton on the 27th.

The Women's Institute held its last meeting of the half year on Mrs. Town's lawn on Tuesday afternoon. Notwithstanding the threatening appearance of the weather a fair number turned out. Mrs. R. J. Hogg was unable to be present but sent her recipe for brown bread and also a couple of loaves of the same. Miss Mary White gave a recipe for candy, and passed around her sample. Miss Bina McLaughlin gave her recipe for Scotch shortbread. Her sample and Mrs. Hogg's formed part of the refreshments. Miss Dorothy Harrington, who was there with her violin, on which and the piano, several selections enlivened the afternoon. The gathering dispersed with the singing of the National Anthem.

A HEINOUS CRIME.

A gentleman visiting a jail notified a colored man of his acquaintance whom he had never known to be guilty of wrong-doing.

"Why, Jim, what are you here for?" he asked.

"I don't know, suh," replied the negro.

"Well, what have you been doing?"

"Nothin' 'tall, suh — nothin' 'tall."

"What made 'em put you in here, then?"

"Well, dey sez, boss, I wuz sent up for fragrancy." — Chicago Daily News.

Poultry Association Meeting.

There was not a very large number of poultry enthusiasts at the meeting of the local association which was held on Saturday evening last in C. N. Borton's store. Included in the business up for consideration was the question of securing feed for association members, some adjustments in the arrangements for the annual show, and the appointment of a delegate to the provincial association meeting at the Coast. The feed question evoked considerable discussion, and the first steps of a plan were decided upon which will bring grain feed from the prairie farms direct to the poultry men, effecting, a saving not inconsiderable. One of the association members, Mr. Weldon, of Jones Flat, is taking a trip to the prairies in the future, and he will obtain samples of grain and carload rates to this point. On his report the association will take suitable action. The question of the appointment of a delegate to the Coast meeting was left in the hands of the secretary, C. N. Borton. Desiring to become a strong factor in the local egg situation, the Poultry Association is out after new members. The custom of unorganized poultry men in the past has been to dispose of all spring eggs at prevailing prices, usually quite low. Later in the year this necessitates the importation of eggs into Summerland. The association, however, is endeavoring to unite the poultry men into an intelligent treatment of the situation. The new policy is to allow no more eggs to go on to the spring market than are actually called for. Members are advised to keep back, under preservation, what eggs they can to satisfy the later demands of the local market when prices are better. To a certain extent this has been done this year, but not on the large scale it might have been. A reliable computation made not long ago shows that Summerland has been importing eggs to the value of about \$1700 annually. Every cent of this could be saved to the local poultry men if they would follow the policy of co-operation in marketing their produce. The membership fee of \$1 could be saved many times over in the increased egg prices. And this takes no reckoning of the saving which will be effected in the purchase of feed, if the egg-men of Summerland will stand together in this move also.

WOMEN'S INSTITUTE.

The regular monthly meeting of the Women's Institute was held on July 17th in the Men's Club. Owing to the hot weather and it being a busy time there was not as good an attendance as there should have been, however, those present enjoyed very much the talk by Mrs. Shreck of Naramata on canning vegetables. The canning of peas, beans, corn, and tomatoes was taken up very fully, and several good recipes given of dishes requiring some of the canned vegetables in them. Delegates were elected to represent the Summerland Institute at the conference to be held here in September, and arrangements discussed for entertaining the visitors. Committees were appointed to look after the different departments of the Flower Show to be held the 3rd Friday in August. The following donations have been added to the General Prize List of the Flower Show: Mrs Hillborn gives for best work apron made by girl under 14, work only to count, 1st, Pair of Scissors; 2nd, Sterling Thimble. Mrs Cartwright gives for Best Collection of Canned Vegetables in Bottles, 1st Prize, \$2. Mr Hogg gives \$5. Supt. Mitchell has had a number of men at work this week placing the new water main that will connect the Shaugnessay Avenue domestic water pipe with the spring. This is a 6 in. pipe, and is expected to deliver an abundance of water for domestic purposes, lawn sprinklers, etc., and will be a great convenience in case of fire.

ST. STEPHEN'S CHURCH.

A Lawn Social will be held at the Rectory on Thursday, July 30, from 5 to 9 p.m. During the course of the evening there will be some music and singing, and also readings by Mr W. Sauter. The ladies of the congregation who are instrumental in arranging this social are very anxious that everyone interested in these gatherings should be able to come, and have therefore arranged the time to suit both those who would be taking their fruit into town and could thus include the social in their trip and also those who would be working and unable to get away until later. Particulars in ad. on page 2.

SUMMERLAND FRUIT FOR CALGARY CITY MARKET.

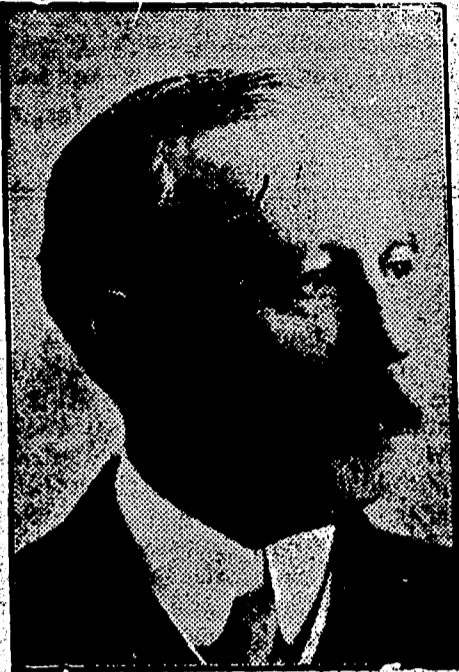

T. E. Clay left on Thursday morning for Calgary where he is arranging to engage in the fruit and produce business, making a specialty of that grown in Summerland. Mr. Clay decided on this step at first for the purpose of disposing of his own fruit and produce grown on the several lots under his control, but so urgent was the demand from others to handle their crops, that he has decided on accepting consignments from a number of other growers who have promised to ship the required quantity and standard. His idea is to make a big bid for the Calgary retail trade with tree-ripened fruit. The shipping distance is so short that the fruit handled by him can be packed in a much more advanced condition than where it is required to be held in transportation and storage as is the case with so much of our fruit. He expects to do a big trade in all vine vegetables such as cucumbers, squash, pumpkins, etc., and would be glad to purchase or have shipped on consignments vegetables of this class. His son, Carlyle, who remains in charge of the work here will have daily reports of the market at Calgary, and will be able to give the best possible prices. The Market Commissioner is urging the wisdom, particularly with our early fruit, of putting it on the market in a tree-ripened condition, and this move of Mr. Clay's appeals to us as a step in the right direction. We expect Summerland fruit will receive considerable advertising in Calgary as a result of Mr. Clay being there.

MR. BEN HOY ON THE BLIGHT.

The attendance at the meeting called by the Farmers' Institute for Thursday evening was disappointing in point of numbers. The importance of Mr. Hoy's address should have gathered a great many more at the High School building, but probably the urgency of fruit picking and shipping kept many orchardists busy in the evening who might otherwise have attended. Mr. Hoy dealt mainly with the blight question. He spoke forcibly and directly, and if nothing new on the situation was brought out, the subject had a very able and interesting recapitulation from Mr. Hoy. He rightly considers that the blight is under much better control in Summerland than it ever has been, but on this account orchardists should not relax their vigilance. The infection must still be followed up if it is to be completely headed off. However, just at this time, the inspectors are not insisting that it be severely cut out, except in extreme cases, on account of loss of crop which might result. The great preventive measure was cutting out the cankers which should be effectively and thoroughly carried out while the tree is still dormant. He characterized as poor cutters those orchardists who being careless with their tools, or not cutting far enough back, had their work made worse than futile. The tomato or "western" blight was also touched upon by Mr. Hoy. Little is yet known of this infection, which has made itself apparent in some isolated instances but which fortunately does not seem to be contagious. In the opinion of some it is a physiological condition of the plant rather than a contracted affection.

Gets Hurried Call To Vancouver

HON. MARTIN BURRELL,

Minister of Agriculture and Member for Yale Cariboo.

GUN CLUB'S FIRST SHOOT.

The newly organized Gun Club held a very enthusiastic initial shoot on Thursday afternoon off Peach Orchard point. The membership of the club has already risen to twenty-five, and the sixteen who participated in Thursday's shoot enjoyed an afternoon of good sport. The highest scores were recorded by Messrs. Fred Anderson and G. N. Gartrell. There were also a good number of spectators present who followed the proceedings with interest. After the shoot the members of the Club were entertained at the home of the captain, Mr. E. C. Graham, where cool drinks and light refreshments were served by Mrs. Graham on the lawn. Prospects for the future of the Club seem exceedingly bright. It is intended to carry on the shooting according to the recognized rules, copies of which will soon be available. Much interest is being manifested in the Club's activities. Three cups and trophies are in sight for competition, and are certain to greatly stimulate interest in the shoots. Mr. A. Stark has generously promised to donate a gold watch as a prize, and cups from Messrs. G. N. Gartrell and E. N. Rowley may also be forthcoming. Trap shooting is a sport somewhat new to this section, and few are quite familiar with the way it is carried on. The clay birds are released from a strong spring trap at an angle and velocity unknown to the man with the gun, and no shot is allowed until the bird is at least ten feet from the trap. It will thus be seen that the trained trap shot would develop into a veritable sharpshooter, a remarkable quickness of sighting and judgment being a requisite strictly necessary.

McGILL MATRICULATION RESULTS

The results of the McGill Matriculation examinations were made public at the end of last week. Nine hundred and fifty-five candidates all over Canada presented themselves for examination, of which more than half, or five hundred and forty-seven to be precise, were in British Columbia. This may be accounted for by the fact that in this province the high schools took the McGill examination instead of the one procrud by the Department of Education. The pass standard was raised from forty to fifty per cent. in each subject. Two hundred and eight candidates from this province were successful, or about forty-one per cent. A successful Summerland candidate is Miss Marjorie Tingley, who passed in all subjects. William H. Hall, of the Colloco, who had previously qualified in part, completed his standing in applied science. Thirteenth in order of merit for the whole of western Canada is the name of Miss Ruth V. Fulton, formerly of the Central School, and now of Vancouver.

Miss Myrtle Clay was a week-end visitor to Ponticton last Saturday.

Hindu Muddle Spoils Minister's Vacation

The Hon. Martin Burrell who with Mrs Burrell reached Naramata last Saturday with the intention of spending several weeks in the Okanagan, making Naramata his headquarters, where each week-end would be spent, had scarcely reached the little town across the lake when he received an urgent request from Ottawa to go to Vancouver to represent the Cabinet during the Hindu trouble. Just how seriously this matter is looked upon by the government may be judged from this and from the fact that Sir Robert Borden who intended to leave for the south on Monday for a fortnight's holiday, decided to remain at Ottawa owing to the delicate situation at Vancouver regarding the Hindus. Hon. C. J. Doherty, Minister of Justice, was requested to return to Ottawa as his advice might be required. It was hoped to arrange for a public meeting here at an early date to enable Mr. Burrell's friends to meet him again. Our Minister of Agriculture is not looked upon as a politician even by those of the opposition. His excellent work in the interests of agriculture and horticulture since his elevation to the Cabinet has won for him the esteem of all, and marked him as a true statesman. It is yet quite possible that Mr. Burrell may have the opportunity while in the province to talk with the electors of this and other portions of the Okanagan section of his huge riding of Yale-Cariboo. Mr. Burrell is expected to return to Naramata on this evening's boat.

SUMMERLAND CAN RAISE GOOD GRAIN CROPS.

In this land of orchards and fruit a field of grain is a most unusual sight, and would at any time attract notice. The excellent and uniform stand on a twenty acre plot on Mr. Thos. Dale's farm would, however, be a delight to the eye, and arrest the attention of the passer-by almost anywhere. It is not, however, until one walks around and through the field of grain that the beauty of its uniformity and its great growth of stem and heavy yield of grain is fully appreciated. As one stands at the edge of the field and looks across it the grain is just level with the eye, and at times a man walking through it is almost wholly lost to view. Mr. Dale has this week commenced harvesting the oats which he will use for hay and expects the crop will yield four tons to the acre. Another crop close by, grown by Mr. Dale, and which is a close second to the oat field in its pleasing uniformity and excellent growth is a field of potatoes planted on the 23rd of May. Between the two is the plot of corn which Mr. Dale is growing for the Department of Agriculture. A good crop of timothy and clover has just been harvested. The land on which these various crops were grown was until recently covered with a heavy growth of bush and shrubs, and was purchased by Mr. Dale from the Development Company about eight years ago. At that time such land was in little demand, and the Development Company probably congratulated themselves when they disposed of the land at \$100 per acre. This property and the adjoining meadow properties of Messrs. Mellor, Agur and others has been greatly improved by the lowering of the ditch conveying Prairie Creek across these lots. The water level was previously so close to the surface that much of the land was unworkable during the early months.

Miss Bloomfield has been engaged as spare operator at the Telephone Exchange.

The daily car-bargo service promised by the C.P.R. has been put on the lake for the fruit season. The call on the up journey is made about 6 p.m.

FORESTERS' CHURCH SERVICE.

On Sunday evening, July 26th, Court Summerland, No. 1053, Canadian Order of Foresters, will participate in their first annual church service in St. Andrew's Presbyterian Church. Rev. C. H. Daly will conduct the service, preaching appropriate to the occasion. Special music will be rendered, including an anthem by the choir, and solos by Mrs G. W. Morfitt and Mrs G. N. Gartrell. Everyone is invited to attend this service. It is the desire of the Chief Ranger that as far as possible every member of the Court be present, and it is hoped that almost the entire strength of the order will respond. The Foresters are asked to gather at the High School building not later than 6:30, from which point they will parade to the church.

ICE CHUTE INSTALLED.

Will the ice slide down the chute or will it not? On this question a number of wagers have been made and the recent test of the chute, which has been erected to convey the crushed ice from the ice house to the pre-cooling plant, has decided the question in favor of the negatives. When the crusher was started up last Friday the larger pieces of ice tumbled down the tube rapidly enough but it was not long before the slush and flat shavings of ice formed an obstruction which prevented further operation. Mr. F. L. Goodman of the Horticultural Department, in charge of the pre-cooling experimental work here stated to the Review that in the original plan it was the intention to move the ice down by a conveyor through the tube but the slope was so great that it looked quite possible that the ice would slide through, hence the experiment. The chute, which is a large galvanized iron tube, is suspended between two wire cables, drawn as taut as possible by turnbuckles. The span, however, is so great that there is a considerable sag in the pipe notwithstanding the tautness of the cables. Before installing the conveyor it has been deemed worth while to make a further experiment by stretching two other cables above the tube for the purpose of placing the tube in a perfectly straight line. In the meantime the ice is being conveyed to the pre-cooler by truck.

ADOPTS DAGO METHODS.

Somebody has been trying the "black hand" method of obtaining money from a resident of the upper end of Prairie Valley. The same citizen has also suffered loss by theft of eggs, poultry, money, etc., at the hands of the same person or persons from time to time, the first noted instance of which occurred last May. Since then the barn, chicken house and home of Mr. and Mrs. L. B. Ottley has been visited on several occasions by the sneak thieves, and on the last occasion they got away with \$15 in cash, besides sundry other articles. After one of these visits a note was found demanding, under threat, the deposit of \$10 at a certain hour at a point near the Mountain House. On the last occasion another note was left intimating that had this request been complied with later losses would not have occurred, and that as the thief or thieves would soon be in the United States they would not be further troubled. This latter intimation is supposed to be for the purpose of putting the authorities, in whose hands the matter has been placed, off the scent. The handwriting, grammar and composition of the note would indicate that they were written by someone with a better education than the usual tramp. In each case the stealing was done while Mr. Ottley, accompanied by his wife, was in the cow yard some distance from the house. The Ford runabout purchased by Dr. F. W. Andrew during his recent visit to the Coast arrived on Tuesday. With a few hours instruction the doctor was running the car before evening of Wednesday without assistance.

Result of High School & Entrance Exams.

The Department of Education has announced the results of the examinations conducted at the close of the last school year, about a month ago, for the preliminary and advanced courses of the high school and the entrance examination. The percentage of high school successes in Summerland is very commendable, eleven candidates being successful out of a total of fourteen who wrote. One candidate took the examination from private study, so that the percentage of successes actually from the High School is nearly eighty-five per cent. Following are the results in detail: Preliminary Course, junior grade: maximum marks, 1,000; number of candidates, 11; passed 10; Joseph A. Harris, 628; Kenneth M. Elliott, 605; George E. M. Logie, 587; Joseph E. Morsch, 586; Margaret M. Ritchie, 581; Belle Vanderburg, 546; Kathleen M. Elliott, 527; Margaret Harrison, 524; Roy C. Eisey, 519; Donald M. McIntyre, 500. Advanced Course, junior grade: maximum marks, 1,000; number of candidates, 2; passed, 1; Edith A. Bristow, 526. Private Study—Full Course, junior grade; number of candidates, 1; passed, 0. Peachland High School—Preliminary Course, junior grade; maximum marks, 1,000. Number of candidates, 3; passed, 1; William L. Seaton, 531. Advanced Course, junior grade; maximum marks, 1,000 Number of candidates, 1; passed, 0. One candidate was also successful from Woods Lake.

How these results compare with other Valley schools may be seen as under:

Table with 3 columns: Candidates, No., Passed. Lists results for Armstrong, Enderby, Kelowna, Peachland, Summerland, Ponticton, and Vernon.

In the entrance examination the local results are detailed as follows: Summerland—Number of candidates, 19; passed, 8: Hedley H B Reesor, 698; William D. Smith, 620; Bertha M Bristow, 613; Dora K Stuart, 606; Susie Wallack, 596; Ernest J Lister, 590; Kathleen W Brown, 566; Dwight C Ritchie, 563. Naramata—Number of candidates, 1; passed, 0. Peachland—Number of Candidates, 7; passed, 5; Charles Morrison, 616; Beatrice Lang, 612; William Buchanan, 607; John Lang, 591; Kathleen L Henderson, 590. Candidates from Westbank and Woods Lake also sat at Peachland. Kaleden—Number of candidates, 3; passed, 1; Vernon Simpson, 641. Myers Flat—Number of candidates, 2; passed, 1: Coral Travies, 588. Okanagan Falls—Number of candidates, 5; passed, 1: James G. F. McLellan, 558. For schools up and down the Valley the figures are:

Table with 3 columns: Candidates, No., Passed. Lists results for Armstrong, Enderby, Kelowna, Peachland, Ponticton, Summerland, and Vernon.

Hon. Martin Burrell Will Attend Convention.

Hon. Martin Burrell, Minister of Agriculture, has announced that he will attend the convention of the Western Canada Irrigation Association, which is this year held in Ponticton. This is the first time for some years that the congress has been attended by the Dominion Minister of Agriculture.

In the recent examinations conducted by the Department of Education for the granting of certificates to teachers, Miss Olive B. Gummow, who has been engaged to teach at the Garnett Valley School commencing with the forthcoming fall term, was successful in obtaining a second class.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JULY 24, 1914.

TEN DOLLAR CAPITALISTS.

ANY citizen of St. Paul, Minn., who has ten dollars to invest can go to the city hall and buy a municipal bond. He can keep it as long as he desires, drawing four per cent. interest on the investment. If the grocer gets too pressing he can return to the city hall, cash in the bond and receive his ten dollars back, plus the accrued interest due to date. His investment is more convenient than a savings bank deposit, inasmuch as savings banks commonly compound interest on deposits only twice a year, while a man with a St. Paul municipal bond can draw his principal and interest on any business day in the year.

St. Paul's ten dollar bond issues are in charge of a sinking fund committee, which buys in municipal bonds, either new or old, and of "participating certificates." They are being sold at the rate of about \$5,000 worth each day, and 2,000 citizens, including many working people, are now bondholders. Despite the ease with which they may be redeemed the percentage of redemptions is relatively small.

The plan is a good one for any other city to follow. Its primary merit is, not that it is economical and keeps money at home, but that it checks the arrogance of financiers, and will build up in time a democratic body of small bondholders with a quickened interest in the civic welfare.

A TERRITORIAL reconstruction of the representation of this province at its Legislature will be undertaken before another election is called, according to the word of Premier McBride. This step is rendered necessary by the heavy increase in population which British Columbia has gathered during the last few years, and the opening up of settlement of large areas of land. The customary proceeding in such cases is to appoint a committee from the Legislature, comprised of both parties, to decide the new boundaries of the ridings, but the present composition of the government precludes the satisfactory working of this arrangement. A royal commission has therefore been appointed, composed of two members of the British Columbia judiciary, to report on the basis of a redistribution measure. Their findings will be presented to the next session of the Legislature.

FARMERS in the counties of Oxford and Brant, Ontario, have been busy fighting the approach of a force of army worms, which for two days worked havoc in pastures, hay and corn crops. The army worms, which are of a kind notoriously destructive, numbered in the millions. They appeared to be following the "course" of a creek, and for a considerable distance on each side the ground was thick with the pests. The worms were about two inches in length. Farmers prepared for their reception by digging trenches and spreading molasses and Paris green. In Brant County, not merely in thousands, or millions, but in billions, the army worm has been marching through the country, laying bare a path several miles wide, and doing damage the extent of which is hard to estimate. More than one farmer has lost his entire crop for the season. Pasture fields have been stripped as though swept by a prairie fire, and livestock is suffering as a result, with little prospect of conditions becoming any better during the present season.

Lawn Social

The Rectory

Thursday, July 30, 5 to 9

Under direction of the Ladies of St. Stephen's Church.

Music - Readings - Singing

Tea, Coffee, Lemonade and other Refreshments will be served at 25c. a head

Ice Creams extra.

The Ladies have been working hard to make the Evening a success. It is for YOU to see they are not disappointed.

EVERYBODY COME!

OUR TOWN is simply one big family. When this is discorded there is little progress. When there is a united pull for anything its accomplishment is made easy.

THE FARMERS have just as much to do in building up and improving their town as do the citizens of the town. It is to their interests to have up-to-date merchants, machinists and mechanics. How can they expect these conveniences if they send to all the large cities for merchandise that should be bought of the home dealer?

STRONG DRINK, bad housing and poverty are the strongholds of man's greatest enemy—disease, according to Sir William Osler. The world famous Canadian physician says that through sciences unceasing warfare against disease mortality has been reduced by half in the past fifty years. Sir William says that tuberculosis remains the most powerful of man's innumerable enemies. Before us is a long, slow hundred years of war. But co-operation and enterprise will win out, just as surely as they have against typhus and typhoid.

VALLEY TENNIS TOURNAMENT.

Summerland took second place in the annual tournament of the Okanagan Valley Lawn Tennis Association held at Kelowna on the 13th and 17th insts.

The fact that the games in the tournament were arranged on a slightly different plan from previous years, and no notice being given of the re-arrangement, put the contingent of local players at somewhat of a disadvantage. The fact that all the finals were played off within two days incurred some especially strenuous work on the part of the Summerland players.

The conclusion of the tournament showed Kelowna to be in the first place, followed by Summerland second and Vernon third. The results of the finals were as follows:

Men's Singles—Vernon vs Kelowna, won for Kelowna by R. J. Stone and J. E. Seon, jr.

Ladies' Doubles—Summerland vs Okanagan Mission, won for Summerland by Mrs E. B. May and Mrs E. R. Simpson.

Men's Doubles—Kelowna vs Vernon, won by Kelowna.

Mixed Doubles—Kelowna vs Summerland, won for Kelowna by Mrs Seon, junr., and Mr Stone from Mrs E. B. May and Mr P. G. Dodwell.

Ladies' Singles—Kelowna vs Summerland, won for Summerland by Mrs E. R. Simpson, from Miss Seon.

All the visitors speak in the highest terms of the entertainment which the home team tendered them during their stay in Kelowna.

Fruit Growing In B.C.

Annual Report of Association Records Progress.

The twenty-fourth annual report of the work of the B.C. Fruit Growers' Association has been issued from the Department of Agriculture. It contains the proceedings of the convention held in Victoria in January, and full report of the speech on "Growing and Marketing Bartlett Pears," delivered there by Mr W. P. Sawyer, at one time President of the Washington State Horticultural Society. Also a report of Mr H.C. Sampson's address on co-operative marketing, which, coming from the Secretary of the North Pacific Fruit Distributors, made a great impression on those who heard it. Resolutions were passed regarding Asiatic labor, express fruit trains and pre-cooling experiments, and a vote of thanks passed to the C.P.R. for the way in which fruit has been protected and handled, especially at Summerland and Peachland.

Mr. W. E. Scott, Deputy Minister of Agriculture, reviewed the year's work and the needs of the future in a speech which is also printed in this report.

TALKS TO POULTRYMEN.

H. E. Upton, assistant instructor in poultry raising in connection with the provincial department of agriculture, has returned to Victoria from a tour of Farmers' Institutes on the mainland and the Gulf Islands. At Armstrong a farmer brought to his notice the fact that on turning his fowl out into a field of alfalfa they had begun to lay eggs which were black inside. This was due, Mr. Upton explained to the body he was addressing, to the lack of a balanced ration, the succulent green food requiring other foods to balance it.

The fly's attack is insidious and therefore the more to be guarded against. He buzzes into the house, drops his deadly disease germs where they will fertilize, and buzzes out again to pick up a fresh cargo. Swat him, he is your enemy.

NOXIOUS WEEDS.

Mr. W. E. Scott, Deputy Minister of Agriculture, draws the attention of farmers and land owners generally to the necessity of waging a campaign against the noxious weeds which are becoming prevalent in many good farming districts. He warns those concerned that the department will use every legitimate effort to enforce the act relating to these pests, and is issuing a pamphlet giving instructions and advice as to their eradication.

All Provincial Constables and Forest Guards have been again appointed as agents of this department toward the enforcement of the provisions of the Noxious Weeds Act. In addition, Noxious Weed Inspectors have been appointed in different districts of the province, whose duties will be to carefully go over their districts, see that farmers and land owners are taking the necessary steps to destroy the weeds growing on their lands, and in the event of non-compliance with notices served on them to institute proceedings against them.

The department is determined to use every legitimate effort to have the provisions of the Act strictly enforced, and look for the whole-hearted co-operation of the farmers themselves in this most important matter.

Permanent supports for ladders, to be erected in ground close to trees to permit fruit to be picked without endangering the tree branches, have been patented by a Californian.

Put down the number of your living brothers. Multiply by two. Add three. Multiply the result by five. Add the number of living sisters. Multiply the results by ten. Add the number of dead brothers and sisters. Subtract one hundred and fifty from the result. The right hand figure will be the number of deaths. The middle figure will be the number of living sisters. The left hand figure will be the number of living brothers.

Wanted, an editor who can read, write and argue politics, and at the same time be religious, funny, scientific and historical at will, write to please everybody, know everything without asking or being told, always have something good to say about everybody else, live on wind and make more money than enemies. For such a man a good opening will be made (in the graveyard).

British Columbia Exhibits at Winnipeg.

This interesting description of British Columbia's exhibit at the Winnipeg Annual Fair is taken from the "Official Daily Bulletin," published by the Exhibition Association:

The British Columbia Government exhibit is this year even better and more worth while a visit than usual. A very complete and representative display of the four principal industries of the province has been most tastefully arranged in the main building owned by the British Columbia Government at the west end of the Colonnade and facing on the road from the main entrance.

One of the finest displays of cherries and small fruits ever seen at Winnipeg is the attraction which draws the crowd to the far end of the room. In the line of cherries British Columbia defies competition, and their display this year seems to justify their challenge. This variety of fruit farming is for the parental purposes of the market, only in its infancy in the province, but as year after year young orchards come into bearing and fresh areas are planted, it is one which from the perfection of the fruit produced, must become of considerable importance. Other small fruits shown are late strawberries, currants, red, white and black raspberries and gooseberries, of which the big sweet English variety is an unending object of interest and admiration.

Last year's apple crop is represented by several boxes, which have been in cold storage all winter, without any apparent loss of firmness or flavor. The exhibit is completed by a handsome pyramid of bottled fruit in large glass vases, in which a special preparation preserves the fruit in its natural condition for an unlimited period. Every variety of fruit known to a temperate climate can be inspected on this stand, and the beauty of this special exhibit calls forth an unending tribute of compliment from its visitors.

The products of the vast forest regions of the province, the most extensive and valuable stand of timber in existence on the continent, are well illustrated at the opposite end of the building. Spruce and cedar and hemlock are all represented, and especially the fir, with its hard wood and exquisite grain, the monarch of the western woods. Panels and doors of the fashionable, unshrinkable, unwarpage, unbulgeable, three-ply veneer, manufactured from fir, give an excellent idea of what can be done with this wood in the way of interior decoration, while a

striking exhibit of a section of roof, shows off the famous B.C. cedar shingle, the perfection of exterior finish. Large blocks of the raw material arranged outside the east door and on the floor of the building, give some notion, though an imperfect one, of the giant of the forest, from which these articles are carved in the saw mills of the province. The annual cut averages two billion, and one mill alone near New Westminster, holds the record of a million feet in three eight-hour shifts.

A small but very complete collection of mineral specimens, selected from the working mines of British Columbia, illustrates the third of her great industries, mining. Gold, silver, lead, copper, iron and zinc are shown in their native ores, while asbestos from the Tulameen and gypsum from Spatsum on the C.P.R., mark some fresh departures, which are meeting with much success. The yearly output has reached the thirty million mark, and reports show a greater activity and promise for 1914 than in any other year in the history of British Columbia mining, which, having left the stage of stampedes and sensations and settled down to business, perhaps somewhat escapes popular notice, just when it is scoring an unqualified success.

Last, but not least, the fisheries are represented by exquisitely colored casts of the various food fishes found in the teeming waters, both salt and fresh, of this favored province. Every variety of salmon, tyeo, coho, sockeye, humpback and dog are shown as they appear—as natural as before the can claims their attention, while a fine tyeo or spring salmon, fresh from the fisherman's nets, displays his ample proportions in a block of ice.

Beautiful photographs adorn the walls and illustrate various industrial and social phases of life in the Pacific Province, and these again are brought to the notice of visitors to the exhibit in the moving pictures and colored views, shown four times a day in the lecture room of the B.C. building, at 2.30, 4.30, 7 and 9 o'clock p.m., accompanied by a running comment delivered by the Commissioner of the B.C. Government exhibit, Mr. W. A. Lang, who gives the audience the benefit of his thorough and extensive acquaintance with every section of country and phase of life in the great and richly endowed province down by the ever-rolling Pacific, where our people are even now only just beginning to realize how goodly is the heritage in which their lives are cast, and how great the opportunities offered in their fair land to enterprise and industry.

Important to Growers.

OUR NARAMATA SECTION

NO ALUM

THE NARAMATA SCOUTS.

The Boy Scouts under the direction of Scout Master Pitman conducted an interesting exercise in signalling with flags, using the naval code. So enthused did the crowd become that one man proposed an all-round treat to the boys for successfully sending and receiving a message which he himself wrote out. Accordingly the message was signalled by one boy to a group of three stationed on a hill about 500 yards distant, and "I think the Boy Scouts are fine" was read in reply. The boys are making splendid progress and if certain plans for the winter's campaign work out, Naramata will probably have in the course of a year one of the best trained troops in the interior of B.C.

ACCIDENT AT FOUR MILE CREEK.

What appears to be the first accident on the railway occurred at Four Mile Creek last Saturday afternoon when a hand car with four men, returning to Penticton, collided with an engine and freight cars coming north.

It appears that the brakes on the hand car refused to work and the only wonder is that the whole party escaped with their lives.

The Boy Scouts are getting a correspondent from their number to write up from week to week the doings of the Scouts. That's right, boys, get busy and boost your club.

Current Events — OF — Town & District

Mr and Mrs Prowse spent the week-end in Penticton.

Mr McLean of Summerland spent the week-end in town, registering at Hotel Naramata.

A full account of the Unity Club gathering held this afternoon at the ladies' parlor is withheld till next issue.

Captain P. S. Roe ran an enjoyable excursion party up the lake as far as Greta's calling at Dunrobin's ranch.

Mr and Mrs V. L. Watson moved their effects on the "Skookum" on Monday to Penticton, where they have taken up residence.

Mr. W. Gammon, better known as Bob Gammon's brother, after several months' residence in town has decided upon moving back to Montreal.

A largely signed petition of ratepayers calling upon the government to establish a district pound law in Naramata has been forwarded to Victoria.

Miss Lillington of Ascot, England, and her friend Miss Stirling of Belfast, Ireland, after a pleasant holiday at Naramata, left on Friday on their return trip.

Mr P. S. Roe is now a full fledged captain, having recently been given full standing. The Okanagan Lake Boat Co. are now in a position to man an additional boat.

Next Thursday, July 30th promises to be a gala day with the ladies of the Unity Club. Judging from the preparations in progress there promises to be "things doing."

Pastor W. P. Willan spent the week at Kelowna in attendance at the annual church school for church and Sunday School workers. It is Mr. Willan's intention while there to make an effort to have the district church meeting held in Naramata.

Hon. Martin Burrell, Minister of Agriculture for the Dominion, spent the week-end here with his wife, who is at present on a visit with her sister, Mrs. Cash. He went out on Monday's boat in response to a message from headquarters that his presence was needed in Vancouver on account of Saturday's trouble with the Hindus.

A jolly party of Summerlanders came over on Monday to see Naramata, so much having been heard of the growth and up-to-dateness of our town. And they were not disappointed. Amongst those of the group registered that day at Syndica House were Prof. Everton, of Okanagan College, Mr and Mrs G. J. C. White and daughters.

Mr and Mrs V. Beck and daughter, after an enjoyable week at our popular tourist hotel, returned to their home in Vancouver on Thursday morning. Mr Beck who is present solicitor for the B.C. Electric Railway, and one of Vancouver's prominent lawyers, was at one time a resident of Portage la Prairie, Man., where he was associated with Mr. Robinson in the old boom days of the prairie town.

One of the most charming outings on the lake is the trip from Naramata to Okanagan Falls, provided always that your craft is not too heavy for the shallow spots in the Penticton River, which connects Okanagan with Dog Lake to the south. A party consisting of Messrs. M. M. Wilson, G. Roe, H. Pearce, Fred Anderson and Dave Good, who enjoyed such an experience, report most favorably on their last Sunday's outing.

Progress on the new school is very satisfactory. The exterior painting is now well under way, and the work of plastering is well ahead. The Kamloops firm who are responsible for the plumbing and heating are hard at work. T. E. Crowell, the building inspector from Vernon, looked over the work carefully again on Thursday morning and was apparently satisfied with the quality of work put up. There appears now to be no doubt that the building will be ready for the opening day in August.

Current Events.

(Continued)

Mr Frank Firstbrook, a brother of the young fellow of the same name who made so many friends here last year, is enjoying a season at Hotel Naramata, and appears to be entering into all the sport that's going.

The railway engineering staff have been doing considerable shuffling about lately. Mr. Brooks, the chief, is moving to Osprey Lake taking with him Mr Burk and Mr Bake, while Frank Hayward returns to Mr Alexander's camp at the tunnel.

Mr George Brodie is boasting of a heavier crop of oats this year than the prairies ever grew. However this may be, the yield was something enormous. And it goes without saying that the herd law if put into immediate operation need cause no alarm to the man with a good fodder crop.

On Monday a big picnic party consisting of Mr and Mrs J. M. Robinson and family and several of their friends, at present guests at the hotel, had a delightful outing to North Naramata. The jolly party after several hours of pastime at this favorite camping ground, returned just in time to escape a really heavy squall that made landing at the hotel wharf difficult if not dangerous.

Mr S. Bignoll, who has the contract for painting the school, met with a painful accident on Saturday evening while on a ferry trip to Penticton. It seems that on the return trip he, with a number of fellows, was sitting outside with his feet hanging over the stern and as the boat swung round leaving Summerland the boat struck a pile, crushing the young man's ankle.

W. D. Mackie got quite a start one morning this week upon going to one of the lots he had been irrigating. The water is delivered by means of a pipe, and a big flow had been allowed to run for some hours. This time a great deep hole was formed underneath the spout, and for a while it looked as though the bottomless pit had been discovered. However, a half day's work with a couple of vigorous shovellers had the space again levelled off.

FERRY BOAT EXCURSION.

On Sunday Captain Roe took an excursion party of sixteen up the lake in the "Trepannier" going as far as Gellatly's with a stop off for luncheon at Greta's. The party report having had a most enjoyable time. At Gellatly they were shown through the immense grounds of Mr David Gellatly, who is in fact the "king of tomato growers" since he ships more than any other single grower in the world. At Greta a 55 acre orchard, twelve years old, kept in the pink

of condition, with superb flower gardens and grassy lawns surrounding attractive buildings was a regular eye-opener to the Summerlanders of the party who, perchance, had been wondering if anything really so good in the orchard line existed outside their own home district. Captain Roe has expressed his willingness to run trips to lake points for small parties.

Prove This for Self.

Christy Oil Company, Ltd.

NON-PERSONAL LIABILITY.

CAPITAL - - - - - **\$500,000**
in 5,000,000 Shares of par value of 10 cents each.

Treasury Stock to be used for development is \$3,169,000 shares. Company owns leases for Oil and Gas on 2080 Acres near and on Jumping Pound Creek, about 25 miles west of Calgary, on the anticline pointed out by Dominion Geologists as a good location to drill.

This is an oil Company on a sound financial basis, in which you may invest without fear, and a Company directed by business men and financiers, and men of sterling integrity as well as ability. On its Directorate are:

- PROFESSOR W. T. BROAD, LL.B., President, and President also of the Dome Oil Co., and the Los Alto Oil Co.
- MR. M. JANSE, the great Railroad Contractor of the G.P.R.
- MR. L. W. CHRISTY, Oil Expert Driller.
- MR. F. ASPINALL, M.E., Inspector of Mines.
- MR. J. ROBERTSON, M.E.

Oil has been found in commercial quantities in Alberta, and those who have followed developments in Oil Fields know that a proven field is a mine of untold wealth for investors.

High grade oil has been found in the same anticline farther south in the Dingman Well. Directly north of it is the Monarch Oil Company, which has also found oil. The holdings of the Christy Oil Company were carefully selected years ago by men skilled in such matters. Oil men from California state that the Company has some of the choicest locations in the whole field.

The Company is now financed sufficiently to drill the first well, having already sold \$89,611 worth of shares. Mr. L. W. Christy, our oil driller, has drilled oil wells in all the oil fields of the States. He has charge of the field work. Some weeks ago he purchased all the necessary machinery at Pittsburgh, and it is expected drilling of the first well will be well on the way during this month. The company is free of debt.

A limited amount of stock is on the market at 10 cents per share. This may rise to 15 cents any day without notice. Those who buy now get in on the ground floor and have a chance of profiting equally with the promoters of the Company. At present persons with little spare cash can get a good showing, but when shares advance much in price the one who has the long purse gets the best chance. We advise, therefore, speedy action if you desire to purchase shares in an excellent Company at a low figure.

Peachland Notes.

Mrs. Thompson Elliott and Miss Irene visited Kelowna on Friday.

Mrs. John Mitchell and Mrs. Wayman visited Kelowna early last week.

Mrs. E. Lang and Miss Hattie McDonald were guests in Kelowna on Friday.

John Hyde, of the mill, was in Penticton on Monday night on business.

Archie Seaton, one of the star baseball players was a week-end visitor at Penticton.

Mrs. William Dryden and Miss Jean were up to Vernon on Friday, and returned the same evening.

Mr and Mrs Thomas Robinson of Vancouver are guests of Mrs Seaton their sister, for a short time.

Mr and Mrs. Breeze, who were engaged at the mill, left town on Tuesday morning for the Kootenay.

Mr and Mrs R. J. Hogg took a holiday on the "Sicamous" last week, making the round trip of the lake.

On Monday morning Horace Ames said good-bye to his Peachland friends and went to join his brother Arthur in the Peace River country.

Mr and Mrs Baldock and family motored up from Penticton on Saturday to visit Mr Thomas Robinson, Mrs Baldock's brother, at Mrs Seaton's.

Notwithstanding the extremely hot weather of Friday, about fifteen couples met in the Orange Hall and spent a very pleasant evening dancing.

Mr McLean of Winnipeg, came through on Saturday night on his way to Penticton. He was joined at the boat here by his wife and Mrs Kirkby, who went down the lake with him.

Mrs B. S. Brown sent a case of cherries of the Bing variety to her mother at Belleville, Ontario, and in order to send more cherries she removed the stems, but nevertheless they arrived at their destination in excellent condition and are pronounced by the recipient and many others who tasted them as a little the best thing in cherries they ever came across.

In 1866 Canadians were subjected to a Fenian scare. Troops were in camp at several of the frontier towns, but the enemy only gave a glimpse of itself to the defenders. Our townsman, Mr John Robinson was one of those who came into contact with them near Niagara. In commemoration of this service, he last week received a medal made of bronze from Nelson's battleship "Victory."

Mr and Mrs Fred Young were in Kelowna on Friday attending the marriage of their niece, Miss Olive Young to Mr John Sutherland, chief engineer on the C.P.R. tug "Naramata." Rev. Fergusson Miller, of Penticton, tied the nuptial knot in the presence of only the near relatives. Mr and Mrs Sutherland left at one o'clock by motor for Vernon, and will sail this week for the Old Land, where their honeymoon is to be spent. We wish them bon voyage, and a happy and prosperous life.

Results of the school examinations are to hand. In the high school only one pupil succeeded in getting through. Lyle Seaton passed his preliminary with 531 marks to his credit. For entrance to the high school, Charlie Morrison, 616; Beatrice Lang 612; William Buchanan, 607; John Long, 591; and Cathleen Henderson 590. The Westbank pupils who wrote here passed as follows: Halpin Moffat, 717; Gerald Carruthers, 608; Doris Rayner, 597; and from Woods Lake Rita Richards, 557. Miss Smith also had one high school pupil who tried the full course and passed with 656 marks, Miss Hazel D. Jones.

CANADIAN IMMIGRATION SHOWS BIG DROP.

The main feature of the immigration returns just issued is the remarkable drop in the Canadian figure during June, and for the first six months of the year. The figures for June last year was 26,202, and last month it dropped to 7,852. During the first six months of this year the number of immigrants to Canada totalled 53,200, as against 128,406 in the corresponding period of 1918.

Concrete Fence Posts Last Forever

THEY never rot away in the ground. They stand the hardest knocks and never have to be replaced, for they are practically everlasting. They are easily and cheaply made and are the most satisfactory of all fence posts.

Concrete Drain Tile Cannot Decay

Concrete drains do not decay and are cheaper, because they do not crumble and stop up drains, hence they need no digging up or relaying.

Let us send you this free book, "What the Farmer can do with Concrete." It shows you how to make concrete fence posts and will save you many dollars when doing other building 'round the farm.

Discusses Valley Problems.

Semi-Annual Session of Executive of Associated Boards of Trade Held in Summerland.

The executive of the Associated Boards of Trade held an interim session here last Monday evening. It is the custom for the executive to meet some time between the annual gatherings of the Associated Boards to further any business and attend to correspondence and other accumulated matters needing immediate attention.

There were present at Monday's meeting: President, J. F. Pringle of Armstrong; Secretary, C. Creed of the same town; J. C. Dufresne and E. W. Dynes of Penticton; S. T. Elliott of Kelowna, beside a number of members of the local Board which was officially represented by its President and Secretary, Messrs. R. H. English and C. A. McWilliams.

Much of the evening was occupied with following up resolutions that had been made at the annual session and the accumulated correspondence dealing with them. It would seem that so far many of these resolutions had failed to bring the desired results, but a number of the most important ones had either been effective or satisfactory progress was reported.

A resolution emanating from Penticton had asked that a royal commission be appointed to settle the question as to whether there existed on the prairies a combine in restraint of trade as pertained to the marketing of fruit. This will now be taken up with the recently appointed Fruit Commissioner.

The Oriental question had been taken up with the Provincial authorities, who advised that they felt they were unable to take action as this was a matter for Ottawa to deal with.

A request from the Associated Boards asking that legislation be brought before the Provincial House making it compulsory for one telephone system to give connection with another brought forth the information that the Provincial statutes already provided for the enforcement of such connection, and that the situation was also dealt with in chapter 61 of the Statutes of Canada 1908. It would seem from the report given at Monday's meeting that it were only necessary for the company or telephone system requiring connection to state its case to the railway commission when connection would be ordered.

The long standing question of the building of the railway link between Proctor and Kootenay Landing which would give complete connection with the prairie via Crow's Nest, was again considered. It will be remembered by those following this subject that a further two years' extension for the commencement of the building of this line had been given by the C.P.R. This extension expires within a few months and it is intended to unite forces with other Boards of Trade of the province to demand the building of this very important link, necessary to an all rail run across Southern B.C.

A discussion of the Canadian Northern Pacific tax exemptions in the northern towns revealed the fact that taxes had been collected in at least one city, while in another they had not yet been successful in collecting the levy.

But little progress has yet been made toward bringing about the daylight saving movement in this province. It was proposed to keep this subject alive until the desired object is realized.

D. H. Watson asked and was given permission to suggest a resolution to the effect that the provincial authorities be requested to establish a quarantine against the importation of live hogs into this province. The introduction of this subject caused much discussion, and resulted in a request that a carefully prepared resolution be submitted by the Summerland Board of Trade at the next annual meeting of the Associated Boards, which no doubt will be done.

Before the meeting was brought to a close Mr H. C. Mellor treated all present to some delicious ripe peaches, which were greatly enjoyed

C. O. F. CHURCH SERVICE.

"Brotherhood" was the strong keynote of an eloquent sermon delivered with telling force by Rev. C. H. Daly in St. Andrew's Presbyterian Church on Sunday evening last. The occasion was a service attended by the local court of the Canadian Order of Foresters. More than a score of members were led into the church by Chief Ranger W. C. W. Fosbery, occupying the front pews in the centre of the church body. There was also in attendance an unusually large congregation, who participated heartily in the evening's worship.

The service was made bright with special music, consisting of a solo by Mrs G. W. Morfitt, entitled, "The Children's Home," one also from Mrs G. N. Gartrell, "One Sweetly Solemn Thought," and an anthem, "Come Unto Me," by the choir.

Message To Fruit Growers.

Growers are urgently requested to exercise the greatest care during the process of packing apricots, peaches or plums, that no wormy fruit gets into the boxes.

You cannot afford to risk the reputation of Okanagan fruit on the open market, which you certainly will do if you include wormy apricots, peaches or plums in the product you have to offer the public.

If you expect good money for your fruit you must supply good fruit for the money, or the customer will refuse to take it, and turn a willing ear to your competitor. Another risk is the fact that one wormy peach will often cause the whole contents of the box to rot before or very soon after it gets to its destination.

For these reasons the government inspectors have received instructions to carefully inspect fruit going out, and if the boxes contain wormy fruit, the shipper must be compelled to repack before he can be allowed to send it out.

The fruit is liable also to be seized by inspectors at its destination if it should escape inspection before leaving the shipping point.

W. H. LYNE,
Assistant Inspector of Fruit Pests.

FOURTH DOMINION CONFERENCE OF FRUIT GROWERS.

The Minister of Agriculture has called a conference composed of delegates from the various provincial fruit growers' associations to meet in Grimsby, September 2nd, 3rd and 4th, to discuss subjects of vital interest to the fruit growing industry of Canada. It is expected that certain standards of packages, grades of fruit and methods of transportation, etc., will be recommended for adoption for the whole country. The object of the conference is largely that the Minister may come in direct contact with the representatives of the fruit growers and shippers, and discuss with them methods whereby the fruit growing industry may be developed in the best possible way.

Delegates have been appointed from this province as follows: W. C. Ricardo, Vernon; W. S. Foggo, Vernon; Jas. Rooke, Grand Forks; R. M. Winslow, Victoria; John E. Reekie, Kelowna; J. C. Metcalfe, Hammond; Thos. Abriel, Nakusp; Representative of Okanagan United Growers (not yet named).

ed by all, particularly the visitors from the more northern towns, following which Secretary Creed moved a vote of thanks to their hosts and to the Secretary and others who entertained several of the party during the day, which entertainment included a drive over the district. Mr Creed expressed himself as surprised with the scope of country included in this district. This motion was seconded by President Pringle, who supported Mr Creed's remarks and declared his delight with what he had seen here. The visitors had taken the opportunity to inspect the local telephone plant, and congratulated Summerland on its perseverance in the establishing of such an excellent telephone system as they had seen here.

Mr R. H. English, President of the Summerland Board, replied in a few appropriate remarks.

What The Government Is Doing For Agriculture.

Hon. Martin Burrell, Minister Of Agriculture, Explains To Constituents Work of His Department. Touches Upon Great National Questions.

Refreshingly free from any political significance, not being inspired by the fervid heat of an election campaign, the address of Hon. Martin Burrell to his constituents of this district, delivered in Empire Hall on Wednesday evening, was nevertheless illuminating not only in respect to the work of Mr. Burrell's own federal portfolio of Agriculture since it has been under his direction, but also on several issues of national importance. The Minister did not speak at any great length, confining his remarks to about an hour, but it is safe to say that he could have spoken for a great deal longer, and still held the closest attention of his hearers, so seldom it is that we are afforded such a clear-cut, authoritative and yet unbiassed outline of the progress of national affairs.

Empire Hall was by no means crowded, though the biggest part of the building was occupied. The presence of a good number of ladies scattered through the audience was a pleasing feature of the gathering which some of the speakers commented on.

CHAIRMAN'S REMARKS.

Mr. J. A. Kirk, president of the local Liberal-Conservative Association, occupied the chair, and with him on the platform were Messrs: J. M. Robinson, Hector Sutherland, Chas. H. Cordy and John Tait.

Mr. Kirk introduced Mr. Burrell in an able speech. He recalled the origin of the Liberal-Conservative party at the time of Confederation, and submitted that the party stood true to-day, in power, to its best traditions. Mr. Kirk also made reference to the number of ladies present, indicative of the interest the women of the country were taking in the conduct of the nation's affairs.

The chairman welcomed the Liberals present, assuring them that the benefit of their criticism of the government's actions was appreciated. This was the first time that the people of Summerland had the honor of a visit from their representative since he was elected in 1911. The Borden government was the first in Canada to recognize fully the value of the Department of Agriculture, and in so doing had fallen in line with a world-wide movement. Mr. Borden had selected Mr. Burrell as the best man to head that department. It was a case of the office seeking the man, and political friend and foe alike agreed that he has made good.

The speaker mentioned the Hill-born demonstration station and the experimental farm soon to be established at Trout Creek as results of the Minister's efforts. Mr. Kirk suggested that now the minister was with us it would be a good time to state some of the district's needs, suggesting a bulletin from the Department on the drying of fruit and urged the importance of extending the government telephone service to Carmi, thus giving connection with the Boundary and Kootenay districts, and with the Alberta system through Crow's Nest.

MINISTER WELL RECEIVED.

Hon. Martin Burrell was greeted with prolonged applause when he arose to speak, and expressed gratitude for the kind words of the chairman, and pleasure at again being in the Okanagan and meeting his friends, whether his political supporters or not. As there was no political campaign before them he was not looking for votes now, and had no desire to make a political speech. The Minister felt that he was representing the whole of the people of his constituency, whether his supporters or not, and that all, irrespective of party should state their needs.

THE C.N.R. DEAL.

In a few concise and well chosen phrases the Minister laid before his hearers a clear statement of the

railway question which recently occupied so much attention of Parliament and people. As was well known, business conditions have resulted in a shrinkage of revenues, causing need to curtail expenditures; and when Parliament was wrestling with matters of ordinary expenditure and revenue, along came this great question of assisting the completion of the Canadian Northern Railway. The question was whether to assist or to let the heads "paddle their own canoe." There would not have been as much objection to assisting had not the C.N.R. been linked with the names of two men. It was, however, a national institution, and if allowed to go into default, there would have been a suspension of all work, and a black eye would have been given all Canada, because of tremendous losses to bond holders.

Mr. Burrell contended that the Government had struck the hardest bargain ever made by any Canadian government, and had fully safeguarded the people's interests. Some outstanding features of this were the cutting down of the common stock held by Mackenzie & Mann, Ltd., from one hundred and sixty millions to one hundred millions, of which forty millions had been passed over to the people of Canada. Further Mackenzie & Mann had been required to put every available security against the Government's guarantee of the railway bonds. If there was now a default the Government was in a position to dismiss the directors, appoint new directors and run the railway for the people. To have the railroad taken over would have caused a serious interruption, and would have been a tremendous undertaking to finance. It was deemed better to give the promoters the chance to succeed. If they don't, then the Government can take it over and the people will have forty million dollars of common stock, and will be in every way in a much better position than had the property been taken over now. Mr. Burrell was confident that as trustees of the people the Government had handled a difficult matter in a satisfactory manner.

HOW AGRICULTURE HAS BEEN FOSTERED.

Of perhaps greatest interest were the Minister's remarks bearing more directly on his department. He felt that he might fairly claim that the present Government, as stated by Mr. Kirk, was the first to fully recognize the Department of Agriculture. Its value was in a peculiar way recognized by Mr. Borden, who had announced that if elected, material assistance would be given to the various provinces. The pledge had been fulfilled in a manner somewhat novel. When Mr. Borden attained power he immediately began to make his promise good, and asked the speaker to bring down a bill to further agriculture. Mr. Burrell felt it would be impossible to form a bill until he knew more of the conditions throughout the country, and proposed that he be permitted to appoint an expert to make a careful investigation, and that in the meantime half a million dollars annually be apportioned to the provinces in aid of agriculture. Mr. Burrell stated that he took time to look around to find the needed man, and found him at last in the person of Dr. C. C. James. In selecting Dr. James, the Minister stated that he had come in for some severe criticism even from his own colleagues, as Dr. James was said to be a Liberal. He did not think this was a matter of politics, and knew that Dr. James' heart was in the work. He had proven the wisdom of the Minister's choice and has the respect of all from coast to coast. Dr. James finally brought in a lengthy report which was carefully discussed from time to time resulting in the "Agricultural Instructions Act," an expenditure of ten million dollars spread over a period of ten years. This

(Continued on page 2.)

INSTITUTE FLOWER SHOW.

A meeting of the executive of the Women's Institute was held at the home of the president, Mrs. W. H. Hayes, on Tuesday July 28th. It had been decided at a previous meeting that the Directors would make arrangements for the Flower Show to be held August 21st, and appoint their own committees.

These were appointed: The Decorating Committee, whose duty will be to look after the decorations and see that tables are in place for the exhibits is Mrs. G. Gartrell and Mrs. J. Tait.

Fancy Work Committee—Mrs. Angwin, Mrs. G. Ross.

Committee for Flowers—Mrs. R. M. Ross, Mrs. F. Williams, Mrs. S. F. Sharp.

Food and Fruit Committee—Mrs. English, Mrs. W. Watson, Miss Munn.

Refreshments Committee—Mrs. G. J. C. White as convener, and the usual ones to assist in looking after the tea things.

Donations from Mr. A. J. Beer \$3, and Mr. R. C. Robinson \$2, were overlooked in last week's report. In the Flower Show Prize List in Section I, No. 16, it is desired that roses be excluded from the Three Vases of Flowers.

Telephone Company Declares Dividend.

Excellent Showing For First Four Months' Operations.

A dividend at the rate of 1 per cent. per month on paid up capital was declared at the annual meeting of the shareholders of the Summerland Telephone Company held yesterday afternoon. A statement of the affairs of the company as at June 30th was presented showing that a really excellent plant had been provided at a moderate cost, and that since operations began earnings had shown a satisfactory margin. Reports covering every phase of the business were presented by President Mellor and Vice-President Andrew, and the financial statement read by Secretary Hogg.

The earnings for four months were \$1966.70 and expenses \$776.85. Of this margin \$650 will be set aside for depreciation and a part of the balance placed to the credit of the shareholders as dividend.

The only unsatisfactory feature of the report was that showing the large amount of unpaid calls on capital account resulting in a serious handicap and placing the directors in an unenviable position. In order to carry on the business the directors personally have become surety for some \$7,000, much of which is maturing during the next few weeks.

An urgent appeal was made to shareholders to pay all unpaid balances or to make every effort toward this end. The directors are very confident that the stock will pay from 10 to 12 per cent. annually and some shares are now being offered at 105. Monthly rentals now total nearly \$500. Being the earnings of a local company this money is kept in the community. Thus another unnecessary drain on community finances has been cut off.

Visitors with Mr and Mrs G. N. Gartrell this week have been Mr. D. Lloyd Jones and daughter, Miss K. Lloyd-Jones, from Kelowna.

Great improvement has been manifest in the pressure behind the town water system since the laying of the large pipe. Lawn sprinklers that formerly just revolved now move rapidly, taps that formerly flowed are now gushing. There has been a corresponding benefit to the houses situated on the higher points of the system.

It was thought by the officers of the local Scout Troop that it would be necessary to discontinue the meetings during the summer months. When the question was put to the boys, however, they voted strongly to continue meeting, and accordingly they still meet every Friday evening. Some additions have been made to the ranks, and it is pleasing to see that the enthusiasm of the boys themselves will hold the troop together during the busy summer months.

Local Cannery Will Not Operate.

Failure To Agree on Terms of Lease Brings This Decision.

The Dominion Cannery, Ltd., will not operate in Summerland this year, and herein is one of the greatest surprises that has come to the people of this district in a long time. Through the columns of the Review the company announced to the growers many weeks ago that they would again operate here, and this was followed up with a recent visit by the local manager to the various growers who contracted for a supply of fruit and tomatoes, and continued his preparations to begin canning as soon as sufficient fruit offered. Other contracts were signed with growers at various lake points.

On Monday the report was circulated that Mr Leitch, local manager, had hurriedly decided to withdraw and have his contracted stuff sent to the company's cannery at Vernon. When seen by the Review Mr Leitch said that he had practically decided on this move, but there was a bare possibility of his yet remaining. When asked the reason for this seeming hurried change in plans Mr Leitch stated that he had been held up for rent. He claimed that he had been unable to learn who the actual owners were, and when on Saturday he had called on Mr J. M. Robinson the latter had demanded a rental of \$300, the company to make whatever needed repairs to the wharf. This Mr Leitch considered excessive.

The matter came to the attention of the Board of Trade and a special meeting of the executive was called and both Mr Leitch and Mr Robinson interviewed. The latter while stating that capital outlay considered, the rent was not excessive, readily consented to amend his terms, and at the request of the Board wrote Mr Leitch offering the property free of rental upon consideration of the Cannery repairing the wharf. This did not seem to satisfy the Cannery's representative, though when asked later by the Review if he had any counter proposition the reply was in the negative. Every effort was brought to bear on Mr Leitch to have him reconsider his decision but without avail. To questions put by the Review Mr Leitch stated that there was a good supply of produce available, that our season was long, and produced the earliest tomatoes in the Valley and of the highest quality, and that the Cannery were not finally quitting Summerland, and further that this year's crop would be taken care of. He declared further that his only reason for leaving was failure to make satisfactory arrangements for leasing the cannery.

The Board of Trade people on the other hand seem quite satisfied with the offer made by Mr Robinson, and are disposed to look upon the matter as an unduly hasty move on the part of the local manager which will later be regretted. Mr Warren, President of the Development Company, and Mr J. M. Robinson visited Summerland on Monday, but seemingly were unable to satisfy Mr Leitch.

Rifle Association.

Saturday last was set down for the first shoot in the Special Competition which the Association have arranged. A tricky flash-tail wind at the 600 yards brought the scoring down some.

Leading:

	200	500	600	Tl.
O. Smith	30	33	28	01
H. Dunson	30	33	28	01
W. Nelson	33	32	26	01
J. Dunson	33	32	25	00
F. Nixon	27	29	27	83
G. Loomer	31	30	21	82

The above resulted in a tie for first place between the two first scores, (the third score being counted out on the 600) and in the shoot off O. Smith won out by one point after five shots being fired.

The second stage of this competition will be shot off on Saturday, 8th August.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JULY 31, 1914.

THE NEWSPAPER AND THE DISTRICT.

The value of a live, energetic newspaper to any town or district is absolutely impossible of estimation. There are so many ways that the newspaper promotes the interest of the community and the individual citizen where it is published that it would be like trying to number the sands of the sea to enumerate them. It is the true friend of town and district, and every resident thereof, and stands ready to fight the battles even of individual citizens in a way that no other agency has either the nerve or the courage to do. It stands as a great bulwark of defence for the community and for the people.

"But this is only one feature," says the Publishers' Auxiliary.

"There's another that is seldom given much thought and that is that the newspapers of any town or city are a paying investment for such place as industrial institutions. People welcome with open arms and loud acclaim any factory costing a few thousand dollars and they think the town is wonderfully fortunate in securing a plant that will give employment to a number of people. Sometimes they even put up a bonus to secure such a plant. There are many newspapers which give employment to a number of people, and nothing is thought of it. The money that comes to the paper is spent in the town or city where it is published. None of it goes away except for ink and paper and some other small supplies that cannot be bought at home. The newspaper is essentially a home institution. It works day and night to build up its home town and spends its money freely with home people. It is published on strict business principles these days and that is the reason for the growth and prosperity that has come to many papers during the past few years.

"As a business enterprise, a good newspaper is about the best industry that any town has, and its publishers ask nothing but a square deal."

An exchange that has been figuring on the hard times has come to the conclusion that they are caused by the fact that most people buy more than they produce. It says: "We let our timber rot and buy fencing; we throw away our ashes and buy soap; we give away our hides and buy rope; we raise dogs and buy hogs; we let our manure go to waste and buy guano; we grow weeds and buy vegetables and brooms, we catch five cent fish with a \$4 rod, we build school houses and send our children off to be educated, and lastly we send our boys out with a \$40 gun and a \$10 dog to hunt for ten cent birds." The first lesson from this is, make your farm as self-sustaining as practicable, and then second endeavor to make the home community self-supporting by using home products and encouraging local industries.

WEDDING.

Archibald-Hadley.

From The Canso News, N.S.

St. Paul's Methodist Church was the scene of an interesting event on Tuesday morning, July 14th, when Miss Charlotte Renton, daughter of the late Mr Thomas Hadley, was united in marriage to Edward Archibald, formerly of Truro, and now of Nelson, B.C. The church was artistically decorated for the occasion, the ceremony being performed under an arch of lilacs by Rev Harold Tompkins.

The bride, who was given away by her brother-in-law, Mr J. Duguid, was charmingly gowned in white charmeuse satin with pearl trimming and applique lace, and wore the conventional veil and orange blossoms. She was attended by her sister, Miss Marion, wearing butercup satin with Alice blue trimming, while Mr A. McAllister supported the groom.

After a delicious wedding breakfast had been partaken of the happy

couple left on the steamer "Robert Cann," en route to Nelson, B.C., where they will reside. The bride's travelling costume was of navy blue with hat of gold and burnt orange.

Mrs. Archibald was one of Canso's most popular young ladies, and the numerous gifts received testify to the esteem in which she is held.

Previous to her marriage she was guest of honor at a linen shower at the home of Mrs J. J. Whitman, and at a novelty shower given by Mrs A. Perry. The groom's gift to the bride was a pearl brooch, to the bridesmaid, a gold bracelet set with pearls, to the organist a cameo ring, and to the best man a pearl tiepin. The wedding march was played by Mrs A. Perry.

Mrs Archibald is known to a good many Summerland people as the niece of Mrs S. Angove. She has visited here on several occasions, spending some time here as recently as last summer, when she was the guest of Mr and Mrs Angove.

A LITERARY VISITOR.

Mr and Mrs Robert J. C. Stead and their two little ones who were passengers on the "Sicamous" on Wednesday night, are guests at the home of Mrs. Mary Campbell. Mr Stead is with the Publicity Branch of the Department of Natural Resources of the C.P.R., with headquarters at Calgary, and was for some time engaged in newspaper work.

Though treated in the nature of a hobby by Mr Stead, some of his recent writings are bringing him notoriety as an author. The books of verse, "Empire Builders," "Songs of the Prairie," and "Prairie Born" from his pen are now in circulation. His latest, a novel, "The Bail Jumper," a story of western life, has just appeared in England, and is receiving very favorable comment with the English and Scottish press.

RAILWAY BUILDING IN THE BOUNDARY.

That railway construction is active in the Boundary district of British Columbia is evidenced from the following, taken from the Similkameen Star:

The tracklaying equipment is being assembled on the V.V. & E., and a forward move with steel will shortly be made from Coalmont west.

All the contractors on the Kettle Valley Construction between East Princeton and Osprey Lake are making good progress, and grading will be completed about the middle fall.

Kettle Valley surveyors are running a line in Princeton which crosses the Tulameen just above the forks of the two rivers, and parallels the V.V. & E. from the bridge across the Similkameen River to the station. It is stated that a joint station will be used by the two roads.

A fatal accident occurred last week, when Henry Mathieson, a workman engaged on a trestle bridge which spans the canyon in the Kettle Valley, was knocked from the structure. His remains, badly mutilated, were recovered shortly after.

Thursday afternoon saw the annual picnic of the Baptist Sunday Schools held at Crescent Beach. More people drove than went by the "Skookum," which made two trips, and the whole made a crowd of about a hundred. The weather was perfect, slightly inclined to be warm, but this did not interfere much with the zest of the boys and girls for sports of various kinds. The picnic tea was as bountiful and enjoyable as usual, and the crowd turned homewards in the cool of the evening.

WHAT THE GOVT. IS DOING FOR AGRICULTURE.

[Continued from Page 1.]

money will be available without the vote of Parliament, no matter which party is in power. In order to afford greater assistance to the lesser developed provinces, each province is allotted \$20,000 annually, and the balance is then divided according to population. The Government had also approved a further expenditure of \$3,000,000 in departmental work. This meant that a huge sum was being spent annually in the interests of agriculture. Experimental farms were being extended and new ones established, agricultural institutions were being strengthened and yet others opened. Thus something more real was being done than simply the shouting of the phrase "Back to the soil." The great national need of furthering this movement, coupled with the question of the unemployed was dealt with at some length by the speaker.

ORIENTAL IMMIGRATION.

While mindful of the fact that he was the representative of this constituency, he was also a Minister of the Crown, and as such was with other ministers, confronted with many problems. One of such was the Oriental question. The last stage of the Vancouver episode was reviewed by Mr Burrill, who fully appreciates the seriousness of the Hindu question. Canada has been facing this problem for a long time. The speaker stated that he had come to this province some years ago with an open mind on this question, and from a humanitarian point of view it seemed but right to admit the Orientals so that they might be christianized and given the modern civilization, but in process of time he began to realize the tremendous national problem, and learned from the example of other nations which had allowed the question to drift. When one

looked across the Pacific upon the teeming millions of the Orient, one realized there was no hope of assimilation. The door must be kept fairly well closed lest the country be flooded. It does not follow that the people of the east with their older civilization are despised by Canadians. It was perhaps well for Canada that the question had been brought to a crisis. The people of the east have now a broader sympathy with British Columbia. If it is bad for B.C. to admit the Oriental it is equally bad for eastern Canada. The people of all Canada must decide for themselves and their children.

He had heard remarks of disappointment because of hard times, but the Minister assured his hearers that we here in Southern B.C. are in a much better position than in many parts of the country. He had felt hopeful that the crisis had been passed, but a declaration of war between Austria and Serbia was likely to involve all Europe, and may further tighten the strings. This opened the question of defence of Canada, and the late bitter political fight on this subject was touched upon and the Minister laid his views on the subject before his constituents. He wanted to show the world that Britain's prestige was going to be maintained by all the Dominions. (Prolonged applause). He felt that the question should not have been made one of party politics, and felt that the Liberals themselves must now realize the bad moral effect of Canada's failure to come to the aid of the mother country. If Canada is brought to face a national danger he is hopeful of united action. This danger may or may not now be upon us.

At the conclusion of Mr Burrill's address, Mr Hector Sutherland moved a vote of thanks from the meeting to the speaker in a short speech. He recalled a prophecy that he had made at the Kamloops Convention which nominated Mr Burrill, that their candidate would be the future Minister of Agriculture. That Mr Burrill had used his portfolio to the greatest of benefit to agriculture, he was sure was the opinion of all people, of whatever political persuasion.

The vote of thanks was seconded by Mr J. M. Robinson, who, speaking in a humorous vein, told of his contact with Mr Burrill in this district and also in the Old Country, which all brought to him the conviction that Mr Burrill was the right man for his position and described him as the most unassuming man of his size he ever saw. His colleagues, too, were getting on to him, and the important matters of

state were being thrust upon him. Mr Burrill was laying a new foundation for agriculture in Canada. He was dignifying the calling of the tiller of the soil. He had grappled with a big question in a big way and had landed it. "We do not get many men of this man's size," stated Mr Robinson, "take care of him."

Mr Kirk requested the audience express their feelings by applause, and the hearty response must have been gratifying to the speaker of the evening.

Mr Burrill briefly replied, expressing appreciation for his splendid reception, and the meeting dispersed shortly after ten o'clock with the National Anthem.

What to Eat?

YOUR daily problem of what to eat is very easily solved -

pass it on to us. It is not what you eat that has alone to be considered—it is the quality of what you eat. It is easy to say, "Let's have some special dish for dinner," but the mere buying of the materials for that dish does not make your dinner a success. You must have the best of everything to get the fullest enjoyment from the meal

Our reputation is built on selling the best of groceries. We have studied the "what to eat" problem for OUR OWN SAKE as well as YOURS. Come in and let us talk it over.

Sinning Against Your Home Town.

PART V.

"It's a Poor Bird That Spoils It's Own Nest."

Now let us get down to first principles in this "Sinning Against Our Home Town."

Let us, like a practical physician, diagnose it like a deadly malady, and proceed to cut out the growth that threatens the future of Summerland.

In this and the next articles we go to the merchant—the source where a demand is satisfied. Then we will go to the source of the demand—the public—you, our readers, and find out the trouble, whatever it may be.

"No, ma'am, we do not carry that piece of goods."

"No, I do not believe you can get it in town."

Not one word about the merchant sending out of town himself for the goods, thereby accommodating his inquirer and making a customer. In this particular instance, which we believe is duplicated many times in Summerland, the shopper desired a certain piece of goods with which to make a spring dress. She heard of the goods through a letter written her by a friend, in a distant city.

What more natural for this woman, who had given her local merchant an opportunity of getting the piece of goods for her, than to sit down and write her friend, asking if she would not mind doing her shopping for her, as she could not get it at home, and she wanted it so badly. It was a natural thing to do under the circumstances.

A few days later, along came the goods and she was glad enough to mail her cheque for the bill.

A few days later her cheque came through the exchange to her bank, where it was discounted and the bank in the distant city was credited with the money—money that should have stayed in her home town and gone to the merchant who did not have the goods, or COULD NOT HAVE SECURED THEM FOR HER.

But wait, that is not all the damage this particular nest suffered. It was not long before the new dress was finished and worn at a local function—a dress made of goods purchased out of town.

It evoked admiration and praise.

The goods were new—never before seen in this town.

"What pretty material?" "Where did you get it?" "How much did it cost?" etc.

"I simply could not get it down town. Nobody seemed to have it or know anything about it. So I sent to ———, where a friend of mine purchased it for me."

Thus the seeds of incompleteness—of doubt in the merchants of their home town was sown in the minds of this woman's friends—people who had money to spend, homes to supply and pleasures to satisfy.

A willingness to accommodate one's customers in every possible way will do much toward keeping the local trade at home, and it is a duty every merchant owes his home town to do this very thing.

The next instalment of "Sinning Against Your Home Town" will appear August 7. In it "But Here is Something Just as Good." Be sure and read it.

PLAGUE OF GRASSHOPPERS.

A migration of grasshoppers, almost approaching the magnitude of a plague, is reported from Quilchena Commonage, to the Hon. W. R. Ross, Minister of Lands. Quilchena Commonage is the site in the Nicola country where the Provincial Government is carrying out extensive demonstration work on semi-arid lands. According to the reports, no inconsiderable damage has been done by the grasshoppers to all the root crops in the district

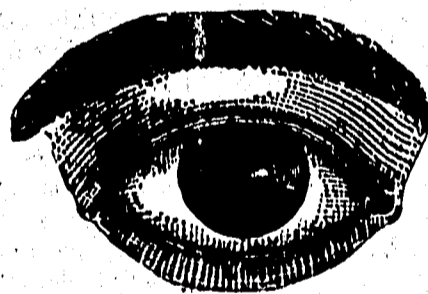

and to the hay, but they have not attacked the alfalfa, which is regarded as the chief crop in that section. The problem of combating the ravages of the strange pest, which is said to have come in clouds, is engaging the attention of the superintendent and staff.

CLOSER THAN A BROTHER.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

OUR NARAMATA SECTION

CANOE ACCIDENT.

Mr Prowse, C.E., narrowly escaped being drowned last Friday evening but for the presence of mind and strong swimming ability of his companion, Mr Harold Mitchell, after the capsizing of their canoe.

It appears that the two had started out for a little practice, with a possible view to entering the canoe races at Kelowna, but had gotten only a short distance from the little wharf when a strong gust of wind caught the bow of their racing craft and in a twinkling both of the occupants were in the lake, which at the time was a little rough. The distance from shore was too much for Mr Prowse, and for a while it looked serious, but with the assistance of the upturned canoe, which Mr Mitchell managed to grab before it got beyond his reach, the distressed swimmer was rescued in the nick of time.

The meetings of the Unity Club ladies will be continued for another month or so before taking their usual respite. This move has found favor owing to the presence in town of so many visitors, including the president, Mrs Gillespie, who will have to leave early in September to take up her duties in Battle Creek.

It will be gratifying news to the lovers of this charming pastime that the management of Naramata Hotel court have thrown Saturday afternoon open for tournaments which may easily be arranged for previously. It will be interesting to know that Hon. Martin Burrell upon the occasion of his recent visit here last week, fully demonstrated his ability to deliver the goods on a lawn tennis court. In a game of two sets of 6-3 and 6-4 Mr Burrell and Miss Gwen Robinson defeated Mr Bruce Cash and Miss Gladys Robinson. At times the game was featured by some very fine counter plays.

Next Saturday afternoon and thereafter through the season we may expect to see some interesting tennis tournaments.

Current Events — OF — Town & District

Squire Hill leaves shortly for the Coast where he purposes consulting a throat specialist.

Rev. W. P. Willan returned on Saturday last from attendance at the summer school at Kelowna.

Dr. J. E. Black of Vancouver, after two weeks in the Valley, returned on Thursday to his home.

Mr and Mrs Dean leave shortly for Montreal where they contemplate taking up permanent residence.

Mrs Hunt of Summerland with a brother and sister spent last Friday in town, the guests of Mrs J. H. Pushman.

Mr Oliver Wells of Senlac, Saek., a brother of J. Russell Wells, with his wife and family, are in town for a short holiday.

Mrs E. P. Roe, with her young grandson Master Stewart Pushman, spent the week-end at Peachland, the guests of her sister, Mrs Mc Dougall.

Mr W. H. Harrington, a brother of Prof. Harrington of Okanagan College, with his two nieces, the Misses Harrington of Summerland, were week-end visitors in town.

Mrs D. H. Watson and daughter Miss Olga Watson, and Mrs Cornish and Mr P. W. Racey of Rossland, B.C., were in town on Monday as guests of Mr J. M. Robinson at the hotel.

Dr and Mrs Mathison of Kelowna with their sister-in-law Mrs Katherine Mathison of Winnipeg, enjoyed a short holiday in town this week, and were registered at Hotel Naramata.

Full details of the anniversary picnic conducted by the Unity Club ladies on Thursday is unavoidably held over till next issue. Some of these details will be interesting to every reader of the Review.

Mrs Julius Block, who visited with Mrs Mason on Thursday, reports that Mr Mason is slowly improving in strength, and that the family hope to be able to make their return trip to England in September.

So the district meeting was held at Naramata this year, and this week. To-night (Friday) is to be an open meeting to which the general public are cordially invited. Two addresses will be given. One of these addresses is by Rev. J. C. Switzer of Kelowna, and the other by Rev. N. White.

Mr G. Burnett, the well-known civil engineer, after a residence of about two years in town, during railway construction work, has been transferred to Rock Creek. During his stay in town both he and Mrs Burnett have formed quite a circle of friends who regret their departure from town.

The service in the church on Sunday was featured by an illustrated lecture for the special benefit of the Boy Scouts who attended in a body. Pastor Willan can certainly talk quite interestingly to both young and old, and it is to be hoped that he may make a departure any once a month and repeat the performance in so far as illustrating his talk is concerned.

Hotel Syndica having now had its front and back verandahs decorated with appropriate tints from their own painter's brush, presents a very handsome appearance, and the moving spirits back of the undertaking are to be congratulated for their enterprise and shall we say nerve to erect at a very considerable layout of cash in a second hotel for a town of our modest proportions.

If there be in anyone's mind the notion that fruit trees won't thrive anywhere but on the high and dry bench land—land that since the days of Noah has never known a really good soaking—let him visit Mr D. McKay's place and view with wide open eyes the excellent crop of pears now assuming full growth. Mr McKay, though apparently averse to handling fruit on a large scale, bears the palm as the pioneer fruit man of this locality, having planted—for a demonstration—years ago on his pre-emption north-east of the town.

THE UNITY CLUB WELCOMES BACK THEIR PRESIDENT.

At the last session of the Unity Club a most hearty address of welcome was extended by the vice-president, Mrs W. W. Mitchell, to Mrs Gillespie, who for a little over a year has been conspicuous by her absence, as this talented lady has spent much of her time in England. Mrs Gillespie replied in fitting terms, complimenting the ladies for their good management and for the steady maintenance of the general spirit of the organization.

Mrs Firstbrook of Toronto spoke briefly to the ladies, expressing herself in favorable terms upon the unique nature of the club and the work it evidently was doing.

Another prominent visitor in attendance on the occasion was Mrs Burrell, who was in on a short visit with her sister, Mrs Cash.

Current Events.

(Continued)

Mr Ronald Smith of Penticton was in town on Sunday.

By the way, have you subscribed for the Review—if not, why not?

Mrs Carroll C. Aikins received at the tea hour on Monday a number of her Hotel Naramata friends.

Mr Harry Birnie of Vernon was in town on Wednesday renewing his acquaintance with a former classmate, Dr W. L. Robinson.

Mrs Reesor, who has taken up summer residence at the Wilkinson ranch, had luncheon in town on Wednesday with Mrs Robinson.

Miss M. Gordon came across from Summerland on Wednesday for a few hours to look after the welfare of her orchard property here.

The full particulars of a contest in baseball between "The Cubs" of Penticton and "The Big Bears" of Naramata has necessarily had to be held over till next issue.

Miss Orr, a teacher from Grandview, Man., after a pleasant holiday in town the guest of a former schoolmate, Mrs Russell Wells, returned to her home on Wednesday.

Mr Broom, the popular young engineer now residing at "Chute Creek City," (his residency is in the wilds, 16 miles back in the mountains), was in town for luncheon on Sunday.

The special ferry on Wednesday evening to Summerland to hear Hon. Martin Burrell, Minister of Agriculture, bore a large crowd and had the occasion been one anyway near an election the crowd would have been an enthusiastic one.

The electric light plant was shut down on Wednesday. For the first time in the history of town it was deemed advisable to conserve the water for irrigation purposes. Had the plant been located above the intake, this cut-off would not have been found necessary.

By the way there is nothing like keeping the ball rolling! And that is what we purpose doing. The next great big HIT will be a gipsy carnival—a great big, jolly bunch of fun loving people, all sworn natives of Naramata, are preparing to give us an evening's entertainment—way on in August. Nuf said now.

On Sunday evening next, August 2nd, at 7.30, Mrs Gillespie, in response to the urgent request of a number of her friends, will lecture in the Opera House on the subject "A New Earth." All of us who have lived here for years know how extremely interesting a speaker Mrs Gillespie is and will want to hear her again. The doors are open and everyone is welcome.

A trip to the tunnel camp now that the big engineering feat has been completed, still possesses a charm all its own. Such, at all events, is the evidence of a small party composed of Messrs. J. O. Robinson, J. S. Gillespie, John Firstbrook, Toronto, and son Frank, who spent last Thursday in the hills, and who were guests for a few hours with Mr Burnett at the Alexander Residency.

Another excellent outing trip is the climb to the higher lake levels where the Okanagan Trust Co. have their storage dam for irrigation purposes. This week a party consisting of Mr and Mrs E. H. Hancock and daughter Mary, and Mrs Percy Hancock from England, who is spending the summer at "Lakeview Ranch, made this higher lake their rendezvous for lunch on Monday, following the old trail, by horseback of course.

BOY SCOUTS' DOINGS.

Last Thursday week the first of a series of talks was given to the Scouts by Dr. W. L. Robinson. The doctor's idea is along the line of First Aid to the Injured. The idea is that every man should know how to help himself or his fellow in critical occasions.

In the course of the week two of the boys, Joseph Morsch and Arnold Stiff, passed their Tenderfoot test, and next week it is expected that a few more will be ready to qualify.

Other contests in signalling have been conducted from which it is apparent that before long a big percentage of the organization will be able to both receive and send with facility.

An effort is being made for the boys to get suitable quarters in which a start could be made by way of a gymnasium.

That person lives in an impregnable fortress who heeds not the smiles nor the slanders of the double faced.

The directors of the Summerland Development Company headed by the President, Mr J. J. Warren, of Penticton, held a special meeting in the company's office at Naramata on Tuesday evening.

"Pound District Act, 1912, and Pound District Amendment Act, 1914.

WHEREAS notice has been duly given of the intention to constitute the following district as a pound district, under the provisions of section 3 of the "Pound District Act," namely that portion of the County of Osoyoos comprised in the Naramata District and within the following boundaries:— On the south by Four Mile Creek, on the north by a coulee running from the base of the rock through which the Kettle Valley Railway has made a tunnel on their lower grade, to the Okanagan Lake, on the east by the lower grade of the Kettle Valley Railway line and on the west by the Okanagan Lake.

And whereas objection to the constitution of such proposed pound district has been received from eight proprietors of land within such proposed district:

Therefore notice is hereby given that the majority of the proprietors of land within the above-mentioned district must within thirty days from the posting and publishing of this notice, forward to the Hon. Minister of Finance and Agriculture their petition in the form required by section 5 of the Act, or otherwise such pound district will not be constituted.

Dated this 27th day of June, A.D., 1914.

Noticed the Difference?

There was a time when the product of the GARNETT VALLEY MILL was not of the Best.

There's a Difference Now.

Home-made Building Material as good as the imported article is being turned out at the local mill.

Prove This for Self.

Peachland Notes.

Mrs E. Lang is a visitor on the hill this week.

Archie Seaton and Bert Elliott visited Kelowna on Tuesday.

Miss Bina McLaughlan went down to Penticton on Tuesday evening.

Mr and Mrs Hugh Williams and family spent Tuesday in Kelowna.

Mrs. Roe of Naramata was the guest of Mrs. McDougall over Sunday.

Mr Wm. Douglas has been confined to his bed for a week with a strained back.

Mr Harry Slater was in Summerland the week-end looking after the cold storage fruit.

Mr Pound of Vernon occupied the pulpit of the Methodist Church on Sunday morning.

Mrs W. A. Lang left on Saturday morning for Manitoba, where she will join her husband.

Dr Hirschberg, manager for the Toric Optical Co. of Vancouver, will be in town professionally on Saturday.

Rev. and Miss Henderson attended the summer school for Sunday School workers held at Kelowna last week.

Mr and Mrs J. R. Brown were guests of Mr and Mrs J. B. Robinson over Sunday, returning to Summerland on Monday evening.

Mr and Mrs McLean, who were week-end guests at the home of the Misses McLaughlan, left for their home in Winnipeg on Monday morning.

Mr and Mrs McLaughlan went to Penticton the latter part of the week, called there by the serious illness of Mr D. Kirkby, their son-in-law.

Misses Essie and Lulu Brown, who have been visiting their uncle at Naramata, came up on Tuesday morning and are guests of Mrs A. D. Ferguson.

Mrs Seaton spent the week-end in Vernon, going there with her brother, Mr T. Robinson and his wife, on Thursday, when they returned to the Coast after a two week's visit spent in the Valley.

Kaleden Comments

Miss Burchall is staying with her sister, Mrs. Rourke, during the school vacation.

Miss Hawthorne, who has been staying with Mrs. A. S. Hatfield for the past two weeks has returned home to her parents in the country.

Miss Mary McGraw returned home from West Summerland last week and Miss Lizzie McGraw went back to Mrs James Ritchie at Parkdale.

Congratulations are due to Master Carl Rourke, who successfully passed the entrance examination recently held in Penticton. He plans to enter the High School at Penticton next term.

Rev. Norman McNaughton, pastor of the Summerland Baptist Church, spent the latter part of last week with Mr and Mrs H. H. Elsey as their guest returning to Summerland with them on Saturday.

Mr and Mrs H. H. Elsey with their daughter Madeline, spent last week on their bench lot giving attention to the large crop of apricots which are now ready for shipping. They returned to Summerland last Saturday.

Mr and Mrs Scott of Macleod, Alberta, are visiting with Mr and Mrs T. C. Preston on the bench. Mrs Scott is a sister of Mrs T. C. Preston, and came to assist in nursing her during her long and painful illness.

A large congregation gathered in the Baptist Church last Sunday afternoon for the service, when Rev. Chas. Britton said farewell to the congregation and while his departure is greatly regretted by all, the best wishes of his many friends go with him in his future work.

Universal sympathy is felt with Mrs T. C. Preston on account of the long period of suffering she is passing through. Latest news speaks of some improvement, and although she is still very ill, there is hope that she may recover. She is now in the care of Dr. Pears, of Penticton.

Passing Events: Social, Personal, &c.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Dr. J. E. Black, who has been practising dentistry at West Summerland during a short visit, returned to Vancouver on Wednesday morning of this week.

Some very fine Triumph peaches were brought to the Review Office this week by Mr Magnus Tait. They have been on view in the window and have been greatly admired by passers-by.

J. N. Merrill has severed his connection with the Summerland Supply Co. having taken a position with Messrs. Johnston & Nicholson of Penticton, and will commence his new duties on August 15th.

Mrs Cornish, Miss Olga Watson, and Mr Racey, went down on the Thursday noon ferry to Penticton. Mr Racey continued his journey from that point home to Rossland, through the Boundary Country.

Friendships of former days were renewed on Wednesday of this week, when Mr and Mrs Firstbrook, who are summer visitors from Toronto to Naramata, spent the day in Summerland with Principal S. Everton of the College, and Mrs Everton.

Messrs. Stirling & Pitcairn, big growers and shippers of Kelowna, have received several large orders for New Zealand and Australia. These people have also been shipping to the Old Country, and will again do so this year on a larger scale than before.

Aided by the strength of her constitution, Mrs. W. Estabrook has been making splendid recovery from the effects of her recent accident, and is now far on the road to recovery. She is slowly regaining the use of her shoulder and arm, though the bones are not yet as firmly knit as it is hoped they will become.

We try to print all the items that are news, or that will encourage, help or cheer any of our citizens along life's rugged road. We all doubtless would enjoy reading all the news when it's about the other fellow, but our policy is to turn over to the gossips the spreading of scandals that only leave sorrows in their trail.

The "Skookum" was chartered for a special trip to Penticton on Saturday evening last by a party of ladies who numbered thirty-two. A few merry hours were whiled away in the town at the foot of the lake, such mild dissipations being indulged in as the moving picture show and ice cream refreshments. They reached Summerland on the return trip about midnight.

The great volume of fruit shipped by express from Summerland last year will easily be passed in the aggregate by this season's shipments. The quantity of cherries sent out is a good deal in excess of last season's shipment, and there is now leaving by the morning boat a daily aggregate which in weight must total nearly 18,000 pounds. This is attributable not only to the unquestionably larger volume of fruit available for shipment, but also to the fact that weather conditions have been such as to make this season at least two weeks ahead of last. Two fruit cars are now required on the Okanagan Landing-Sicamous passenger train to care for the Valley daily express output.

A spectacular dash down Shaughnessy Avenue by a pair of horses, gave rise to a good many misgivings in the minds of the people whose attention was arrested by the sight on Monday afternoon. There was a considerable volume of traffic on the main street at the time, and the practically harmless outcome of the runaway's escapade was very fortunate. They were the team of horses belonging to Mr C. Napier Higgin, and were started on their run from outside the Fruit Union building from no other apparent reason than the approach of another team behind them at a very moderate rate. They kept up their gallop until opposite the blacksmith shop, where they had sidled over to the side of the road, and were brought to a somewhat sudden standstill by placing themselves one each side of an old stump which stands at that point. An investigation of the damage revealed little harm done except to some of the front attachments of the democrat, and a scratch sustained by one of the horses.

The effects of Rev. D. E. D. Robertson, late of St. Stephen's Church, were shipped at the end of last week to Fernie, B.C.

On Wednesday the switchboard of the Okanagan Telephone Company was moved downstairs to the capacious front office of the building.

Kenneth W. Kinnard, formerly of West Summerland, and now with the Vernon Fruit Union, came down the lake on Saturday to spend the week-end here.

The name of Raymond Bent was, according to Principal R. B. Forsyth, of the High School, who writes from Victoria, omitted from the list of those students who succeeded in passing the McGill Matriculation examination.

Dr and Mrs Mathison of Kelowna, accompanied by Mrs Mathison of Winnipeg, spent last week-end in Summerland and Naramata. They were for a short time on Saturday evening and again on Monday with Mrs. R. M. Ross.

A fall from a tree last week resulted in Mr J. Carter sustaining painful injuries to one of his ankles. The injured joint is now confined to a plaster cast, and at least for another week Mr Carter will be unable to move around at all freely.

Rev. Chas. A. Britten has resigned the pastorate of Penticton Baptist Church and will go east where he will take a course in theology. Rev. Mr Britten's parents reside in Summerland. He preaches in Penticton next Sunday for the last time.

If you should undertake to write a letter to an absent friend every week telling him all the news, you would get a faint idea of the task in preparing a newspaper. Many of our townspeople recognize this and take pleasure in giving items of news. It helps us and is appreciated.

Mr and Mrs D. Watson sr., went up to Westbank last Saturday to visit Mr and Mrs Courtland Watson for about a month. Miss Myrtle Watson, who has been visiting here for a few days accompanied them. Friends of Mrs Watson will be glad to learn that she has recovered from her recent injuries, and was able to take this journey with little inconvenience.

Dr F. W. Andrew will, after August 1st, have associated with him in his medical practice here, Dr W. W. Kennedy, who took care of Dr Andrew's practice during the latter's recent visit to the Coast. Dr Kennedy obtained his M.D., C.M. degree from Kingston University, and until coming here was house surgeon at the Vancouver General Hospital, to which city he returned about two weeks ago. Dr Kennedy, who came in last Saturday evening, will reside at West Summerland, taking over Dr Andrew's office there.

In establishing a daily car barge service on this lake, the C.P.R. has put into operation an improvement to the fruit transportation service which is of untold benefit to growers and shippers. The barge calls at Summerland on the down trip early in the afternoon, and leaves Penticton at six p.m. on the up journey, calling here about an hour later. Thus the fruit gets the full benefit of the cool night breezes in transit up the lake, and by losing its high orchard temperature, arrives at its destination in correspondingly better condition. At the Landing the cars are attached to a daily freight train, and by noon of the following day the cars are on their way east or west of Sicamous.

An incident which shows up boy pluck and also the usefulness in emergencies of Boy Scout knowledge was the accident which befel young Ivor Harris, son of Mr and Mrs John W. Harris, on Wednesday. It seems that Ivor was riding his father's horse, and when some distance from home, the horse by coming to a sudden halt, pitched its young rider forward over its shoulder. In the fall Ivor came down on his arm, and both bones in the forearm were broken. Though the pain must have been considerable, he pluckily got up and led the horse home. There his elder brother realizing the extent of the injury applied bandages, according to his Scout practice, greatly alleviating the suffering of his brother. Ivor was then brought down to the doctor for further attention.

Miss Neve has been visiting for a few days at the home of Mrs. S. Angove.

Penticton's tax rate this year is 24 mills, made up of General Rate 12 mills, School Rate 5 mills, and Debenture Rate 7 mills.

Inspector W. H. Lyne is again with us, and is busy with other members of the staff on a constant watch for insects or disease injurious to fruit culture.

It pays to read the advertisements of enterprising home merchants. They are the people who make it possible to have conveniences right at your door, so to speak.

Presbyterian service will be held in St Andrew's Church next Sunday morning and in the Methodist Church in the evening. Rev. C. H. Daly will conduct both services.

A party of about thirty-six from Summerland and Naramata, dined on Wednesday evening at the Felix Hotel, with Hon. and Mrs. Martin Burrell, who are spending a vacation at Naramata.

Government Road Superintendent H. Lang was in Summerland over the week-end. Mrs. Lang and family are the guests for a while at the Peach Orchard home of Mr. and Mrs. R. H. Helmer.

Mr and Mrs James Heys and family of Vancouver arrived here on Tuesday night and are the guests of Mr and Mrs Riley. Later they will go to Peachland to reside where they have bought a five acre orchard known as the Hicks lot.

Eighteen trap shooting enthusiasts participated in yesterday's meet of the Gun Club. Highest scores were made by Messrs G. N. Gartrell and G. Barkwill. Mrs Gartrell afterwards entertained the members of the club at her home close by.

The Fruit Union has made good use of the daily car barge service since its inception at the beginning of the week. The Union has sent a car out every day this week, a good record, considering that the height of the season is still a few days off.

The de-hydrating plant at Penticton is getting a large portion of its apricot supply from Summerland, according to the Herald, which states that the plant will handle two tons daily until the rush season when its fullest capacity will be seven tons in twenty-four hours.

Mr Edwin Smith, who was in charge of the pre-cooling experimental work here last year, and is now similarly employed with the Dominion Government, came in on Wednesday night. Mr Smith still takes a keen interest in the work here, and will remain for a time getting statistics and watching results.

A show staged on Tuesday evening in Empire Hall by a pair of "duskers" drew between thirty and forty people as an audience. The performers are driving through their circuit, coming up from the south on Tuesday afternoon, and going north on Wednesday. There were some fairly good musical novelty turns on their program and the rubber faced man may be said to be "the limit."

An injury sustained about two weeks ago by Thos. Ramsay, when a section of steel pipe fell on the lower part of his leg, during the course of his work for the Municipality, was thought at the time to be of little consequence, though it necessitated his resting for a day or two. Of late the wound has been paling him somewhat, however, and examination revealed a splinter of the bone. Mr. Ramsay has had his leg in plaster for a few days, and it is hoped that the fragment may be induced to unite with the bone.

Lambert cherries from "Pleasant View Ranch," S. A. Denlke's Prairie Valley orchard, were lately shipped by Mr. Scott Darkis to New Brunswick friends. Word has come back that the fruit arrived in the best of condition, a revelation to size and quality. The fact that the cherries excited such admiration after the long journey across the continent, is certainly proof positive as to the quality of the fruit. All Mr Denlke's Lambert and Royal Anna cherries were bought by the provincial government for show purposes in the recent Winnipeg Exhibition.

B.C. GOVERNMENT EXHIBITION.

(Brandon Daily Sun)
The British Columbia Provincial Government this year is putting on an exhibit of the resources of the Pacific province fuller and more representative than ever before. The exhibit is located immediately in front of the main door of the display building, where an attractive pyramid of bottled fruits is the first object which meets the eye. Behind is ranked a beautiful display of fresh fruits and vegetables gathered up from all the chief centres of industry in the province. Here late strawberries meet early peaches and apricots, while cherries of every variety challenge competition for size and flavor. The apples of the crop of 1913, as firm and sound as the day they went into cold storage, bear eloquent testimony to the keeping qualities of the main product of the B.C. fruit farms. An exhibit of fresh celery gives a sample of another form of culture now being pursued with great and ever increasing results in the province.

A large spring salmon in a block of ice represents another famous industry of the maritime parts of British Columbia, supported by artistic casts of almost every food fish taken in her teeming waters. Opposite are ranged cases of carefully selected specimens of ore from working mines in the various mining camps. Gold, silver, copper, lead, zinc, asbestos, gypsum can be seen in their native condition, together with products of the smelter, marble quarries and lead works. This industry is now on a proven basis, with an output which has already reached the thirty million dollar mark, and promises to exceed all previous records during the season of 1914.

Last, but by no means least, the timber of the forests, the last great stand of timber on this continent, is adequately represented by specimens of doors, mouldings, siding, panelling, and especially of the three-ply veneer which is coming into such extensive use for interior decoration. Under the grand stand are several enormous blocks of B.C. fir, cedar and other monarchs of the bush, which give some idea of the vast size attained by these giant trees, and are well worth a visit.

A highly popular adjunct to the exhibit this year is a course of talks on the life and industries of the province given by Mr W. A. Lang, the commissioner of the provincial government, and illustrated by colored slides and moving pictures. These lectures are given in the black tent pitched across the lawn to the left of the display building, four times a day, at 2.30, 4.30, 7.30 and 9.30 p.m. They are free, and everybody is invited to take them in. The films showing the logging camps, saw mills, fisheries and canneries are the head liners of the entertainment, and everybody should pay a visit to the tent and see them.

Mr Lang is a former Brandon resident, living here seventeen years ago. For the past fifteen years he has been in the Okanagan Valley, and his headquarters as exhibition commissioner of the B.C. Government, are now at Victoria. Along with Mr Lang at the fair are a staff of capable and most courteous assistants, and a visit to this section of the big fair is well worth the time expended.

SUMMERLAND SCHOOL BOARD

Tenders for School Conveyance.

Tenders for the conveyance of school children to and from the Central School, morning and evening, will be received by the undersigned up to August 5th, 1914, on the following routes, stating the price per single trip:
Route No. 1.—Block 9, District Lot 20 G. 1. to Central School.
Route No. 2.—Town to Central School.
Route No. 3.—Block 10, District Lot 411, to Central School.
Route No. 4.—Block 92, District Lot 476, to Central School.
On routes Nos. 1, 2, and 3 the rigs will be provided by the School Board. On Route No. 4 the Contractor will furnish his own rig.
Robes or rugs required in the cold weather to be furnished by Contractor.
The successful tenderer to sign the contract agreement and furnish a satisfactory bond for the due fulfillment of same.
J. L. LOGIE,
Secretary, School Board. j24-31

CHAS. H. CORDY, Proprietor.

T. E. Clay On Calgary Marketing Conditions

My first few days in Calgary have been spent largely in taking notes of conditions and gaining impressions, and as both are of some interest to you at home I wish to pass them along.

Conditions are both favorable and unfavorable. Favorable because on the whole the consumer is in sympathy with us and wants our fruit. Unfavorable because of many blunders in both packing and shipping, and the somewhat lukewarmness of the big dealers toward us.

In conversation with leaders of the Consumers' League I gather that they want our fruit, and are willing to pay for it, but they want quality. From these same people and others I learn of blunders and conditions against us.

This spring the League was asked to give B.C. fruit the preference. When strawberries began the public was asked to wait for the B.C. berry. They waited, the B.C. berry never came, and many here are without their usual winter supply.

When cherries were in, the Central organization at Vernon shipped cherries to the Market Supt. for sale among the dealers in that building and quoted \$1 per crate Vernon, making them \$1.40 here. One of these dealers was able to buy these same cherries, packed and shipped by the Union, from the Scott Fruit Co. at Calgary for \$1.30 per crate. Why and how is not explained. This week the Central has shipped to the Supt. of the Market apricots, quoting \$1 per crate Vernon, making again \$1.40 to the dealer here, and up bobs an independent grower of Summerland and writes to the Consumers League and offers them apricots at 85 cents at Summerland, or \$1.25 to the League, the consumer, at Calgary. How can we ever expect to get decent consideration when the grower will ship to the consumer at 15 cents a crate less than the Union is offering to the dealer, who has to make a profit in turn from the same consumer.

If a large quantity of American fruit hit us and knocked the market end ways these very same growers would be the first to howl.

If the grower is going to ship direct to the consumer let him at least keep close to Union prices and not make it look like a big game on the Union's part to beat the public.

I am an independent grower and shipper and have no connection at present with the Union, but as I am not in the business for my health alone, any more than any of the rest of the growers are, I want to see the fellow who ships through the Union get a fair deal from those who from reasons of their own are not Union members.

As to impressions: My first applies to vegetables, and I am convinced that there is a big opening for us even in the early root varieties, such as beets, carrots, parsnips, etc., but they must be early, and to get them early enough means that we want water on our land April 1st instead of May 1st. The prairie stuff is now coming in, and from now on excepting corn, tomatoes, cucumbers and such we have not much show. If we had water on April 1st we could supply this market for from four to six weeks in small stuff such as I have named, as well as in those we now supply, and it would mean thousands of dollars every year. The water need only be supplied to those growing vegetables, and in proportion to the land under crop.

My impression on fruit is this: Give us the quality required and we can grab this whole western market. For appearances the American fruit has most of ours beaten four different ways. Don't get mad or blue about it, but facts are facts.

There is fruit on this market right now that makes the heart glad to gaze upon, but it ends there, the beauty is only skin deep.

I had some peaches and cream for breakfast this morning, and before I got enough sugar on to be able to eat them, I was eating sugar and cream, the peaches were entirely lost. Sour? Yes, and then some.

I saw peaches from a carload of early Crawfords that arrived this week; they had been a little too ripe and took six days to reach here, and were sold cheap, and they never should have been sold at all.

There is a mistaken idea held of the western prairie consumer. He doesn't want cheap stuff, he wants quality. Show him once the difference, and he'll buy the best irrespective of price.

TURTLES KILL DUCKS.

Penticton residents have been complaining recently of the mysterious disappearance of ducklings from this year's broods. Until recently there was no explanation of the phenomena, and the losers were racking their heads in the endeavor to find an explanation. The thief, however, has been discovered. He is the big mud turtle which summers in the Arrowsooke Park Lake, and at points along the creek in the neighborhood. The casual observations of a pedestrian resulted in the laying bare of the identity of the marauder. As a duck was leaving the water at the Penticton Creek bridge, according to the Herald, a turtle was seen to snap at its webbed foot. Securing a hold he drew the squawking bird beneath the water. In this case, however, a rescue was effected, the turtle making off for deep water when attacked. Some of these creatures, it is said, may be seen any day sunning themselves on the driftwood of the lake. They are reported to be quite formidable in size, many measuring eighteen inches across the shell.

He doesn't want fruit that gets ripe in the car six or seven days after picking, he wants the nearest thing to the best thing that he can get.

We have Okanagan apricots on our market to-day that make me blush every time I pass them, and I'm glad I have none of them. I have already talked to a number of consumers, and the whole cry is give us your best and we'll pay the price.

These are my impressions, and with the review of conditions may help some.

Painting and Decorating.

I have taken over the business recently carried on by Mr. MARTIN BEAVIS, and am now in a position to undertake Painting and Decorating of all kinds, interior or exterior. Close attention to all jobs, large or small.
