DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 6, No. 45

SUMMERLAND, B.C., JUNE 5, 1914.

Whole No. 305

Special Council Session on Monday

Pressing Water Matters Are Up For Consideration.

A special meeting of the Municipal Council was held on Monday afternoon of this week to consider some matters almost exclusively in connection with the water systems. Reeve Jas. Ritchie presided over Counc. Stark, Blair, and Johnson. The meeting was called to order about 4.45.

KEEPING CLEAR OF A DANGEROUS PRECEDENT.

Mr. P. G. Koop was in attendance to speak with the Council regarding domestic water connection for the house in which he is living, on the recently acquired T. J. Smith property. This connection necessitates an expenditure of about \$1,000, and towards this Mr. Koop and his associates were willing to advance about \$500, to be applied against water rates on the property. At their last meeting the Council had agreed to put in the pipe, but question arose as to the necessity for a four inch pipe or a six inch. The whole question was thrashed out on Monday, and from the standpoint of an investment it was shown that the extension would not bring in returns large enough to provide for debenture interest and sinking fund. In view of this the Reeve pointed out that to undertake such a proposition would be creating a precedent which would place the Council in an awkward position if similar propositions perhaps equally or more attractive arose.

A satisfactory solution was found when it was discovered that for about the same cost Mr. Koop could make a small connection for his own use from the end of the existing pipeline. This Mr. Koop agreed to do.

Several smaller matters were then disposed of. C. J. Thompson was granted domestic water connection in the Bartholomew house, Peach Orchard, rates payable in advance. J. Rowley must pay one half of last year's rates on the Rowley and Orr orchard before he can secure a discount on this year's rates on the subdivided lot. Complaints from W. H. Hayes and W. C. Kelley of insufficient water service for irrigation went to the Board of Works and the Superintendent. A letter from R. V. Agur asking immunity from irrigation rate on an uncleared lot in Prairie Valley was referred to the Board of Works. An application for electric light was filed.

ENFORCEMENT OF NOXIOUS WEEDS ACT.

After a short discussion it was decided that the provisions of the provincial law respecting noxious weeds be enforced within the municipality. A motion was passed authorizing Constable Graham to put the law into effect. This means that henceforth every property owner becomes responsible for the removal of noxious weeds not only from his own land but also from adjacent road allowances. This question has hitherto been left in abeyance between the provincial and municipal authorities.

Tenders for a long stretch of fluming, about 1,000 feet, were received from about a dozen contractors, but none was accepted. Supt. Mitchell will undertake this work at the earliest moment.

Complaints of a poor domestic water service having been received from two of the houses highest in situation on the Town low pressure system, investigations have been made, and the real trouble traced to lack of "head." The effect of shutting off a continuous waste at the extreme north end of the system will be tried, and later it is proposed to replace the present four inch intake at the big spring source by a twelve inch, which will be gradually reduced to meet the existing four inch main. This step should certainly bring the needed greater pressure.

The Council adjourned at about 6.45 to meet again in the regular monthly session on Thursday afternoon, June 11.

Direct rail connection between Oroville and Wenatchee is to be established on July 1st over a new branch of the G.N.R. just completed.

Lack Of Pressure Explained.

Section Of 6in. Pipe Would Give Whole Town Water In Abundance.

A discovery was made this week by Supt. Mitchell that will enable the Council to remedy the lack of pressure in the domestic water pipes in town. Practically all the homes and business places of the lakeside are supplied from a large spring flowing out of the side of the hill above the laundry, and from there piped down past the laundry to Shaughnessy Avenue. The intake has been a 4 in. pipe main, and along Shaughnessy Avenue the pipe is of the same dimension, but between the two Mr. Mitchell finds there is quite a stretch of the old 2 in. pipe originally laid, which explains why a greater pressure has not been had. Having some spare pipe on hand Supt. Mitchell was instructed to put in a larger intake, and some 45 ft. was laid below the spring beginning with 12 in. and tapering down to 6 in. It does not seem probable that this will make any appreciable difference in the domestic pressure as the piece of 2 in. pipe will not permit sufficient flow, and satisfactory pressure is not likely to be had until the 6 in. pipe is continued to the corner of Shaughnessy Avenue and Ninth St. There is an abundance of water going to waste from the overflow, and not to put in the necessary pipe to give every householder an abundant supply, particularly since so much of the work has now been done, would be a mistake.

Pushing Coastward.

An early through connection with the Coast by the K.V.R. seems assured, judging from the progress now being made in all parts of the construction work.

All indications point to the early completion of the thirty, or so, miles of railway, necessary to give the Okanagan rail connection with Princeton. From that point the K.V.R. will have running rights over the V.V. & E., which is now completed to Coalmont. Of the 27 mile section between Coalmont and Otter Summit, 18 1/2 miles has been graded and is nearly all ready for the rails. It is at the western end of this section that connection will be had with the C.P.R. branch giving access to their main line at Spence's Bridge. Over this route the K.V.R. trains will be run till the joint section being built by the K.V.R. through the Hope Mountains is finished.

More than two-thirds of the grading on the joint section of the Hope Mountain route between Hope and Coquihalla has been completed, it is reported. Ballasting is proceeding on the eastern side of the summit on the section on which rails have been laid.

The joint section being built by the V.V. & E. from Coalmont to Otter Summit is expected to be ready for operation this autumn, and the joint section being constructed by the Kettle Valley Railway is due for completion by December 1.

ACADIA COLLEGE FIRE.

Summerland graduates of Acadia University, Wolfville, N.S., and friends of that celebrated institution, will regret the disastrous fire which devastated the college on the morning of May 26. Chipman Hall, the college residence, and the college gymnasium were destroyed in the blaze. Most of the belongings of the inmates were recovered, but some of the residents lost heavily. Chipman Hall was built about forty years ago. A great deal of the loss is said to be covered by insurance.

For several days Messrs. Henry and Fred Moyle, of Didsbury, Alberta, have been looking over the district, both Summerland and Naramata, with a view to purchasing. A piece of raw land containing fifteen acres, lying between the properties of O. E. Tomlin and W. H. A. Moore, has been purchased by Mr. Henry Moyle from Mr. James Ritchie. It is understood that both brothers are likely to come here to reside.

College Planning Strongly For Future

Three meetings of the Board of Management of Okanagan College have been held in the course of the last week or so, and a further meeting is planned for next Tuesday. Matters of vital importance to the conduct of the institution are up for consideration calling for careful discussion.

Plans regarding future policy, particularly in regard to what few changes are called for in the personnel of the staff of instruction, have not yet matured sufficiently to allow of full and authenticated announcement being made, but it is hoped that these may be given out next week.

A vigorous effort will be made by thorough canvass to make the next scholastic year the most successful in the history of the College, both in point of numbers and scholarship attainment.

The services of Rev. Dr. Spencer, the well-known temperance and moral reform advocate, who recently visited Summerland, have been enlisted in behalf of the College, and for the next six months at least, Dr. Spencer will make his immense personal influence felt, gathering students from all likely quarters, and laying the needs of the College, financial and otherwise, before those from whom help may be looked for. The territory which Dr. Spencer expects to cover is that portion of B.C. east of the Okanagan, particularly the east and west Kootenay country, and reaching out even into points in Alberta. Dr. Sawyer expects to spend a good deal of the summer vacation at Coast points and other centres west of the Valley, also in College interests. Some members of the Faculty will also spend some time engaged in this campaign, as well as a number of responsible and enthusiastic students.

It is hoped to fill the buildings to their capacity next year. This desirable condition would not only do much to ease the financial strain which is entailed in years of light attendance, but it would give the institution a greater opportunity to prove its usefulness, which, particularly from its record of last year, cannot be doubted.

Miss Williams Resigns.

School Board Holds Regular Monthly Session.

At the regular monthly meeting of the School Board held on Thursday afternoon the resignation of Miss A. E. Williams, teacher of the Town School, was received and reluctantly accepted. The Secretary was instructed to write Miss Williams a letter expressing the Board's appreciation of her excellent service during the two and a half years she has been in charge of the Town School. Her successor will be Miss Lister, who is now teaching in Garnett Valley School, who received the appointment at a salary of \$70. This was the only vacancy reported on the teaching staff, and the Secretary was instructed to advertise for a teacher for the Garnett Valley School.

The appointing of an assistant teacher for the High School came up for discussion but this was left in abeyance until results of entrance examinations are learned.

If the anticipated number of students are graded up from the Central to the High School a second teacher will be necessary. The question of salaries was also left over until a later meeting. The matter of reducing the conveyance expenses was discussed at some length, but no definite action taken. After the passing of the usual monthly accounts the Board adjourned.

SEVENTY-FIVE CARS TOMATOES.

Summerland's tomato crop this year will be many times larger than any previous season. According to a recent estimate there have been 175,000 tomato plants set out in Summerland. Provided these plants reach maturity, of which there is no reason to doubt, their yield should total 75 carloads. Last season about 7,000 crates or six carloads was the total shipment exclusive of what was supplied the cannery, of which the Union shipped about 4,000.

Demonstration Station To Be Established Here

Some time ago, as announced in these columns, the Provincial Department of Agriculture adopted the policy of establishing stations at various points throughout the province for the purpose of demonstration and experimentation along the particular lines of agriculture and horticulture to which the various districts are adapted. It was naturally to be expected that one of these model plots would be in Summerland.

The Review has been informed that arrangements have practically been completed by the Department with Mr. J. L. Hilborn, whereby his orchard will be used for this purpose. Mr. Hilborn is at present away from home and confirmation of this could not be had from him. This arrangement does not mean the transfer of title of the property but simply that for a consideration this work will be carried on for the benefit of local fruit growers.

A careful detailed record of all costs of production, the results of different varieties, and other careful records, are required to be kept, and much other needed and valuable information will be made available.

NEW PASTOR.

Rev. Norman McNaughton is expected to arrive this evening, Friday, with Mrs. McNaughton and infant child. The friends of the Baptist cause will give their new pastor a warm welcome. Mr. McNaughton will conduct his inaugural services in the Baptist churches on Sunday next, at the usual hours, Parkdale 10.30 a.m., and at the Lakeside at 7 p.m.

Mr. and Mrs. McNaughton will stay for a day or two at the home of Mr. and Mrs. J. C. Wilson before taking up their residence at the parsonage.

Okanagan Canned Fruit.

Product Compares With California's Canned Goods.

Local wholesale houses have received during the past week some exceptionally fine canned apricots and peaches from the Okanagan country. The fruit is well packed, has a heavy syrup and compares with any similar product seen in the city. The buyers of the larger houses say the upper country's canned fruit is equally as good as that which is received from the states to the south.—Vancouver Province.

B.C. OIL.

While Calgary and vicinity are at present the scene of much excitement over the finding of oil, yet it is not the only place in the West that claims to have struck oil. Several parts in our own province are confident that they have oil in paying quantities.

While not much of late has been heard of the Coquitlam borings, yet promoters claim great possibilities for that section. Second only to the oil excitement at Calgary is that at Arrowhead, where fourteen miles of oil prospects have been staked for a syndicate by two Revelstoke men, and others are on the ground marking out their claims. The land staked is in the vicinity of the mouth of the Columbia River at Arrowhead and at Galena Bay. It is said that there are plenty of oil and gas indications at both places. If the reports received from samples sent to analysts prove up to expectation, the Revelstoke syndicate proposes organizing a company to begin drilling at once. Merritt papers have recently been talking of an oil find in the Nicola Valley.

Mr. J. M. Sutherland landed at Montreal a few days ago and is expected here probably the latter part of the month. Mr. Sutherland, who is travelling alone, will spend a few days in Montreal and Ottawa, and a longer time in Winnipeg.

Express Office Prepares For Annual Fruit Rush.

Will Form Separate Department.

C.P.R. carpenters were in Summerland last week-end carrying out alterations which are to make even more efficient than last year the services of the Dominion Express Company to Summerland fruit growers.

Such proportions is the summer rush of express fruit shipping expected to assume this season, that it has been deemed advisable to separate it, as much as possible from the other business at the wharf. To this end the former office and warehouse on the right of the wharf will be utilized. The building has been specially ventilated for holding fruit, not only with slatted doors, but also from underneath, sections of the floor having been opened in such a way as to admit liberal currents of cool air, that will keep fruit standing for the morning boat in the best of condition.

Nothing but express fruit will be handled from the building. By this provision the staff will be enabled to give undivided attention to receiving the shippers' fruit, and this cannot fail to give the maximum amount of satisfaction to all concerned.

Other arrangements will be much the same as in previous years. It will be necessary in order to give the best service to stipulate that nothing but fruit and produce be received after an hour possibly fixed soon after five o'clock. Further, it is not to be expected that the express department will be open to receive fruit until all hours of the night, a limit being necessary in order to allow of the clerical work being done.

The shipping season cannot be said to have commenced yet, though the first crate of strawberries has been sent out this week, but it is expected that next week will see fruit packages leave Summerland, in some quantity, the forerunners of thousands of boxes that the large crop is going to provide.

Ladies' Basketball Club.

A Successful Social.

A very pleasant little party, with a surprise in the middle of it for one of the guests, was held at the residence of Mrs. Jack Lawler on Friday evening by the members of the Ladies' Basketball Club. A most enjoyable evening was arranged by the hostess, who invited a number of friends to meet the members of the club, the latter contributing dainty light refreshments in abundance.

Dancing, music, cards and games occupied the greater part of a very merry program, and half way through the evening the captain of the team, Miss Phinney, called Mr. Cliff McWilliams, who has acted as manager and coach throughout the season, into the parlor, where a pleasing little ceremony took place.

Miss L. V. Mills, president, in the name of the club members presented Mr. McWilliams with a pair of gold cuff links with his engraved initials. The club, said Miss Mills, owed much of its success to Mr. McWilliams' excellent training and enthusiasm, for though the team was only formed at New Year, some capital games had been played, and a strong team pulled together. They could not have had a better coach, and as a little token of their great appreciation for his ever ready services, as a souvenir of the first season of the Summerland Ladies' Basketball Club, she would ask Mr. McWilliams to accept the cuff links with their best wishes.

Mr. McWilliams confessed himself "taken all aback." He would always value the handsome present the ladies had just given him, but as for his services he desired no better thanks than the splendid results obtained last season by this team. There was fine material for capital play in the club. It had afforded him the keenest pleasure to work with them, and he was looking forward to a most successful season next year. In thanking Miss Mills for her cordial speech, he had to regret that she was leaving Summerland and would not play with them again.

More Railways For Okanagan

C.P.R. Will Gridiron The Valley Shortly, Says Vice-President.

"On every hand throughout Okanagan Valley there is evidence of great development in fruit farming." Such was the statement of Mr. David McNicoll, vice-president of the C.P.R. to a Winnipeg paper as he was passing eastward through that city after spending a week in the Valley. Continuing, Mr. McNicoll said: "I was struck with the number of new orchards which are dotted all over the district. Prospects are for a splendid crop this year. I motored from Kelowna to Vernon, and everywhere found farmers very optimistic. Market for British Columbia fruit is increasing every year in sympathy with the settlement and development of prairie provinces. The quality of produce, in my opinion, compares very favorably with the fruit of Nova Scotia and Ontario, and is ahead of the California article.

Transportation facilities for fruit from British Columbia have often been criticized, but the fact remains that the fruit is there, and it has to be got out of there. The Valley is tapped by different Canadian railways at various suitable points, and sufficient means for the shipment of the fruit are already at the command of the railways, but there is little doubt but that they will be dealt with as they arise, to the best interests of growers and public alike. The C.P.R. will spend much money in the Okanagan this year and next, and we will gridiron it with railways before long."

Commenting on the above the Vancouver News-Advertiser says:—"The visit of Mr. McNicoll to the Okanagan Valley was a timely journey. This is destined to become a greater traffic producing district than any other farming region of equal extent in Canada. Last year's freight business was a revelation to the Canadian Pacific head office. Now the vice-president and general manager has motored over part of the orchard area to discover that only a small portion of the available land has yet been planted, and but an insignificant fraction of the part planted is in full bearing. The statement, 'We will gridiron this country with railways,' is the result of this discovery. Other companies besides the Canadian Pacific are reaching for this traffic, and the prospects are that there will be much business for all."

Local Market.

Grocers are daily expecting local strawberries. Up to the present any of this fruit that has ripened has not reached the stores in any quantity. Ripe cherries are also beginning to make their appearance, of the Governor Wood variety. There is an upward tendency in the price of eggs, which are now retailing at from 30 cents to 35 cents. The increase in the number of milch cows now being kept in the district is having some effect on the importation of butter. The great variety in quality of the dairy article, and the short time in which much of it will remain sweet will have a tendency to keep the price below the imported creamery product. Already talk of the early necessity of establishing a creamery is being heard. Asparagus is becoming somewhat scoddy, and the supply is falling off. Gooseberries are not yet very plentiful.

Following are retail prices:—

Apples, per pound	5c.
Asparagus, 3 bunches	25c.
Butter	35c. to 40c.
Cherries	2 lbs. 25c.
Eggs, doz.	30c. to 35c.
Gooseberries, per lb.	10c.
Onion, green, bunch	5c.
Onions, dry, per lb.	5c.
Potatoes, per lb.	2c.
Rhubarb, 6 lbs.	25c.
Strawberries, per lb.	25c.

Messrs. Walter and Wallace Wright are anticipating a visit from their parents, residents of Renfrew, Ontario. Mr. and Mrs. Wright were to leave home to-day.

FOOLISH SAVING

A penny saved is not always a penny earned. Sometimes it is two pennies lost. The merchant who spends nothing on advertising loses much more than he saves.

The money spent for plate glass windows is not looked upon as lost; nor is the money spent on better interior lighting.

Anything that increases favor, that adds to sales that multiplies customers is very properly regarded as a good investment.

Advertising is a good investment—just as plate glass windows are. Advertising sells more goods to more persons than shop windows do.

A WORD TO THE PUBLIC

Do you resent having a merchant address his message to you in the form of an advertisement in our columns? On the contrary, is not your impulse to respond to his friendly overtures?

Feeding Of Poultry.

Cost Of Egg Production Of Various Breeds, And Of Feed Per Hen.

Some valuable data as to the cost of feeding the various varieties of fowls for egg production has been obtained at the Second B.C. Egg-Laying Contest, recently concluded. The breeds used were Mediterranean varieties, 120 birds; general purpose varieties, 120 birds.

At the conclusion of the contest it was found that the Mediterranean varieties had laid 3067 eggs more than the general purpose class. During the high-priced egg month their majority was 941 eggs.

The profits secured by the lightweight fowls were \$99.35 greater than their rivals. The average cost to produce a dozen eggs during the year was Mediterranean, 11.56c; general purpose, 14.54c. For the winter months the same ration held, the lightweights' figure being 14.07c, general purpose, 17.09c.

Coming to the cost of feeding, it was found that it cost an average of 15.02c a month for Mediterraneans, and 16.01c a month for the heavier birds.

The following is the average total weight of feed consumed per bird: Mediterranean, whole grain, 45.8 lbs.; ground grain, 418 lbs.; grit and shell, 7.9 lbs.; total weight, 95.5 lbs.; General purpose breeds: whole grain, 43.5 lbs.; ground grain, 49.3 lbs.; grit and shell, 7.29 lbs.; total weight, 100.9 lbs.

BIG PASSENGER LIST.

The S.S. "Olympic" sailing last Saturday from New York took six hundred first, six hundred second, and eleven hundred third class passengers. These included four hundred Salvationists in second and three hundred in third class, going to the great International Congress, to be held in London early this month. In addition to the 2,300 passengers, there is a crew of 880.

SKIM MILK FOR HENS.

At the poultry department of Purdue University an experiment has been conducted for three years on the value of feeding sour skim milk to laying pullets. The regular grain ration was thrown in a scratching litter, and bran and shorts were fed in a hopper. One pen of birds was fed such a ration as this, but to another a liberal supply of skim milk was added. Both pens had a good range in a cultivated young orchard, and were housed alike.

As a result, the birds fed skim milk in addition to their grain and dry mash ration laid on an average of 133.5 eggs per bird, and the others 86 eggs per bird. One pen made \$1.40 profit per hen, and the other \$0.48 loss per fowl. The milk brought about these results, for everything else was the same. The milk-fed birds laid a lot of winter eggs when prices were high. In November and December of 1913 the production in the milk pen was over 50 per cent., a remarkable production for that time of the year.

"Farmers, feed your skim milk to hens, and buy tankage for the hogs," is the advice of the Purdue men. "The feeding value of milk is \$1.78 for hens and 45 cents for hogs."

The experiment is interesting, but scarcely conclusive. There must have been something more than the mere difference in rations to account for such a wide difference in the egg production.—Fruit and Farm.

You'd scarce expect one of my age in merchandising to engage and hope to get a paying trade without the local paper's aid. And yet I did that very thing; I opened up a store last spring—this month the sheriff took my stock and sold it at the auction block. Don't view me with a scornful eye, but simply say as I pass by, "thoro goes a fool who seemed to think he had no use for printers' ink." There is a truth as broad as earth and business men should know its worth; 'tis simply this, the public buys its goods from those who advertise.

One of our citizens who occasionally wipes the dishes for his wife, became tired of the job and refused, saying that "it is not a man's work." Not feeling disposed to lose his help she brought the Bible out to convince him of his error and read as follows from II. Kings, 21:13: "And will wipe Jerusalem as a man wipeth a dish, wiping it and turning it upside down." It is needless to say that he is still doing his occasional stunt.

HoneyBeesIncreaseFruitCrop

Pollenization Of Blossoms Must Be Properly Effected To Ensure Good Yield.

Many remarkable facts have been noticed by fruit inspectors, while on their regular tours of inspection, regarding the importance of bees in orchards in spring during the apple-blossoming period. In the county of Middlesex, Ontario, there were comparatively few apples one season. Practically the only exception was an orchard of 12 or 14 acres, the proprietor of which was also an extensive bee-keeper. The explanation given was that, as the bees were kept in the orchard, they were able during even the short periods of sunshine, to fertilize the blossoms fairly well.

Bee-keeping is a paying and profitable occupation; one that should receive much more attention than is given to this very important industry. Fruit blossoms of nearly all kinds depend almost exclusively upon insects for their pollenization. The wild bees include about 50 per cent. of the insects useful to the fruit grower for this purpose, but in large plantations, such as orchards, plantations of strawberries or bush fruits, etc., the large number of blossoms coming in at the same time overtax the usual number of wild bees in the neighborhood so that it is advisable to have a special stock of honey bees to supplement them. More than this, tame bees being kept in the immediate neighborhood, or directly in the fruit plantations, are more useful than the wild bees which may in many cases have to fly long distances, and cannot reach the orchards during the mild spells between showers.

Every growing ambitious town is composed of three elements. Those who work patriotically, vigorously and intelligently for its advancement; those who are in a state of apathy or indifference, and those who take a curious delight in discouraging the efforts of others by ridicule, and by a persistent denial that any progress can or has been accomplished, and by boasts of every other town besides their own. The last class are called croakers, but they are really something worse, for their opposition does not arise simply from despondency but from that unenviable spirit that will neither act itself nor suffer others to act.

To keep a cigar lighted one must not talk too much. This is one reason why women do not smoke.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Live Stock Must Be Kept.

Or Soil Will Be Impoverished. Crop Rotation And Growing Legumes Not Sufficient.

In any scheme to maintain or build up soil fertility, crop rotation, including the growing of legumes, is vital but not sufficient. Clovers put the soil in better physical condition, so that the plant food in it becomes quickly available to the next crop. There is a danger then that we may mistake a more productive soil for a more fertile soil and be inclined to give too much credit to the growing of the clover and not enough to the feeding of it to farm animals. No matter what crops are grown, if they are all sold away from the farm, the soil will become exhausted. Live stock must be kept. Nature has provided a balance between animal and plant life, and man cannot long disobey nature's decrees.

When every particle of manure is saved and applied to the land, there is money in live stock; in dairy products, in beef, in the annual increase, and most of all in the next year's crop. According to figures of the United States Department of Agriculture the yield per acre of corn in Kansas dropped from 34.3 bushels in the decade 1870-79 to 21.3 in the decade 1890-99. Kansas has also grown large quantities of alfalfa, but the corn and alfalfa have both been sold away from the farms and decreased yields have resulted. In Illinois, which is a stock-raising and stock-keeping state, the yields have actually increased. It is a significant fact that the stock states show the smallest losses in crop yields. This is true of a state and the same principle applies to the individual farmer.

The Kicker.

As a rule, man's a fool;
When it's hot, he wants it cool;
When he's cool, he wants it hot—
Always wanting what is not,
As a rule, man's a fool.

The kicker is a person who wouldn't be satisfied in heaven, unless he could regulate the climate and lead the band.

Some people never kick, except at epochal periods, like house-cleaning time, while others start before breakfast and kick on everything from the texture of the pancake to the way their bed is made up.

It is impossible to please the kicker who is impelled by a high sense of duty and a dark yellow grouch. This kind always wants a soapstone in his bed on cold nights, and if he burns his feet on it he will declare that it was slipped in between the sheets when he wasn't looking.

It is an established historical fact that William Cullen Bryant wrote "The Melancholy Days Have Come" immediately after he had pawed several bushels of autumn leaves out of the eavespout with a whisk-broom.

The kicker never admits that there will be more than one-third of a fruit crop until along about Christmas time. If the new minister chooses a text from II. Kings, he will "wonder why" our new preacher can't get one out of the New Testament once a year." If the sermon produces an original thought or two, he will sigh for the old fashioned preaching which you could follow without a guide-book or a set of Emerson's essays.

The kicker is at his best during the summer solstice. He is then able to kick in long, sustained, high notes about the warm weather, and every change in temperature causes him to get off a sour snicker. During the cold weather he is prepared to show that the heavy winter of 1857 was a hot wave compared with what is just ahead.

The kicker never speaks well of his town or many of his townsmen. He never wants any improvements. He does not care if the town never grows. He never wants to see a better Board of Trade. He always says: "Let well enough alone, you will make it worse. He is always kicking about every movement that will make the town bigger, better and busier, because it may cost him a few dollars.

The kicker teaches us that some people are never truly happy until they have made everybody about them miserable.

Summerland cannot grow by kicks! It's time to boost—don't kick!
A husband on being told that his wife had lost her temper, replied that he was glad of it, for it was a very bad one.

Mr. Fruit Grower:

NOW is the time to contract for your season's crop. You'd better come in with us and have a share in the benefits of co-operative buying and selling.

Estimate as nearly as you can what you will have to sell and let us know, so we can secure a market.

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JUNE 5, 1914.

OUR EDUCATIONAL INSTITUTIONS.

Summerland has little ambition as a manufacturing centre. There is here a vast amount of enterprise, but it manifests itself not so much in promoting "wild-cat" plunges as in developing the many attractions that make this a model home town. The concerns and interests that centre in the home, the circumstances and influences that constitute a desirable environment for the home—these are the elements that should be most assiduously cared for by those who have the future growth of the place at heart.

Certainly, adequate and varied provision for education is a prime requisite from the point of view of the home. The home means children, and children demand schools. And a town which claims to offer unique advantages to home-lovers must possess not average but superlative facilities. Whatever else is stunted, the schools must be well cared for. Those who to-day have the schools in charge cannot exactly see the form that will be assumed a quarter of a century hence, but they have it in their power to hasten or seriously impede the brilliant educational future. The highest development of the schools of Summerland in the years ahead is largely conditioned by those in authority doing their whole duty by the schools to-day. Illiberality, sordid gains, ignoble standards, picayunish policy, will cramp the work and delay, perhaps prevent, the future development that is within the range of possibility. Let the officers and directors, trustees and others continue to build with their best wisdom and liberality, and the historian of the future will look well after the records.

A saying of Confucius bids us take the future as our counsellor and do to-day's duty in the light of future possibilities. Those who to-day direct the destinies of the schools of Summerland and the people whose wishes they execute, will do well to ask themselves what these institutions will be ten, twenty, thirty years from now. Even if the question can be answered but vaguely, hints may be obtained as to the probable lines of development, which will make present duty the clearer.

CUT OUT YOUR WEEDS.

EVERYONE will commend the decision of the Council to put the Noxious Weeds Act into full force. Lots and roadsides free from weeds make one of the strongest community advertisements any town could have. No stranger is attracted to thistle-encumbered property, nor are weed-lined roads likely to induce favorable impressions. Though much has been done by individuals to keep back the growth of weeds, these efforts have been largely made of no account by the ignorance or dilatoriness of absent lot owners, around whose properties the noxious growths have flourished like bay trees. If the ill-effects of weed growths could be confined to their own particular locality, stringent measures would be less necessary, but winds, flumes and birds spread the seeds abroad widely, to the great detriment of the whole community.

Under the act, lot owners are made responsible for the removal of weeds inside their own boundaries and on the adjoining road allowances. Out-of-town owners are given fourteen days notice to have their properties cleaned up, and the municipal authorities are then empowered to do the work and charge the cost against the land similar to rates and taxes.

Some eye-aching spots can now be attacked and cleaned up, and with some vigilance on the part of the authorities the thistle, whose many various varieties constitute the commonest pest, can be exterminated so much, at least, as to become something of a rarity instead of too common a sight.

Some citizens with right ideas of utility combined with attractiveness, have gone so far as to sow their roadsides down to alfalfa or clover. What a transformation there would be if we all followed the example!

THE LOSS OF THE EMPRESS.

THE MEAGRE REPORTS of disaster to the "Empress of Ireland" which came through last Friday morning proved only too true. The ocean leviathan was rammed before daybreak by the Norwegian collier "Storstadt," laden with ten thousand tons of coal. Although there was but little headway on either vessel, the impact was terrific. The steel nose of the "Storstadt" tore into the vitals of the "Empress," killing and maiming many in their borths, and in a few minutes the giant C.P.R. liner heeled over and sank to the bottom of the St. Lawrence River.

In many of the harrowing details the disaster eclipses even the horrors of the "Titanic" sinking. That boat floated for more than four hours after its collision; but only fourteen minutes elapsed before the "Empress" took her plunge.

The collision occurred under somewhat remarkable circumstances. The two vessels sighted each other at a distance of two miles. Signals were exchanged and understood. Then a St. Lawrence fog enveloped both ships. Speeds were greatly reduced and more signals were sired through the mist. Slowly the vessels crept toward one another, but it was not until scarcely more than a ship's length lay between them that lights were again seen—too late to avoid collision.

The exact loss of life will never be known. Official statements from the Montreal headquarters of the C.P.R. place the figures at but little less than one thousand. Blame cannot be apportioned until the official

enquiry begins, and in the meantime conjecture is useless and unjust. No perfection of shipbuilding could have saved the "Empress" from such a shattering wound, nor any lifeboat provision save fourteen hundred souls in so short a time under such circumstances.

High and low, rich and poor, young and old, perished alike, hurled from apparent serenity into eternity. Man has not conquered the ocean with his ships, for disaster has more cloaks than one, and it is doubtful whether man ever will completely subjugate the restless sea.

PROTECTING OUR FORESTS.

There is not a more active department in our Provincial Government than is the Lands Department, and particularly the forest branch of that department. A campaign of publicity has been conducted for some time, directed by Chief Forester McMillan particularly toward the protection of the province's forest wealth against fire. Now that the dry season is approaching particular emphasis is being put on the necessity of using extra precaution. One of the latest educational features is a picture entitled "Putting Out The Camp Fire," which, together with a clock poster, dividing the forester's year into several fixed periods, have just been distributed to country banks, hotels, stores, etc., and a large number of copies are being distributed among school children. School teachers are being asked to give a short talk about the relation of the forest to the prosperity of the province; a life history of a forest, emphasizing the great length of time required, and the way it is threatened from youth to old age by fire; and finally the necessity on the part of everyone to be careful that they do not through carelessness set a forest fire which may destroy homes and property as well as valuable forests.

A neat little pocket whetstone with celluloid back bearing the inscription, "When you are in the woods keep your axe and knife sharp and be careful not to start forest fires" is also being distributed among woodsmen as another means to emphasize the lesson the forest branch desires to impart.

"HOW TO TREAT YOUR TOWN" is the heading found on the front page of an exchange. The advice is good enough to be passed on to Summerland or anywhere else. This is the treatment:

- Praise it.
- Improve it.
- Talk about it.
- Trade at home.
- Be public spirited.
- Take a home pride in it.
- Tell of its business men.
- Remember it is your home.
- Tell of its natural advantages.
- Trade and induce others to trade here.
- When strangers come to town use them well.
- Don't call your best citizens frauds and imposters.
- Support your local institutions that benefit your town.
- Look ahead of self when all the town is to be considered.
- Help the public officers do the most good for the most people.
- Don't advertise in the local paper "to help the editor," but advertise to help yourself.

Peach Orchard, Summerland

ADVICE TO POULTRY KEEPERS.

A bulletin issued from the poultry branch at Ottawa by the Dominion Livestock Commissioner last week, impresses on all poultry keepers the advisability of getting rid of their male birds, now that the brooding season is over. Infertile eggs keep longest and fetch accordingly higher prices. By selling now higher prices may be obtained for roosters than later on in the summer. From June 1, these birds are non-producers, and feeding them is an unnecessary expense.

"Aunt, did you marry an Indian?" said Freddy. "Why do you ask such silly questions, Freddy?" "Well, I saw some scripps on your dressing table."

HOG BULLETIN.

While hog cholera is far from being the grave menace in Canada which it is in the United States, still its increase during the last year or so has been such as to occasion careful enquiry and watchfulness. Every hog-raiser in the province should read carefully the bulletin on "Hog Cholera," issued by the Department of Agriculture, Ottawa. If it were for no other reason than to secure the compensation which, in case of infected animals being destroyed, is granted to those owners who have observed the official rules, and have been guilty of no neglect or infraction of the law, every man who owns hogs should be thoroughly posted as to the rules which he should follow. These bulletins can be obtained without delay from the Dominion Veterinary Office, Health of Animals Branch, 249 Hastings E., Vancouver, B.C.

Farmer: "See here, boy, what yer doin' up there?" Boy: "One of your pears fell off the tree and I'm trying to put it back."

Passing Events: Social, Personal, &c.

Mr. V. Dynes, from Penticton was registered at the Hotel this week.

Geo. Fisher went out on Tuesday morning for Calgary for an indefinite stay.

Miss Leone Morrison, a student at Okanagan College, returned to her home in Peachland on Wednesday.

Mr. F. M. Buckland of Kelowna who owns a ranch at Shingle Creek, registered at Hotel Summerland this week.

John McLeod, athletic instructor at Okanagan College, left on Monday morning on a visit to his parents at Chilliwack.

Mr. and Mrs. J. L. Hilborn went out on Thursday morning's boat for a visit of two or three weeks to various prairie points.

Mr. and Mrs. Alfred McLachlan drove down to Kaleden and thence on to Okanagan Falls on Tuesday, returning the same evening.

Charles Johnston, a student at Okanagan College, who has made many friends about town, has gone to Revelstoke where he will remain during vacation.

Mrs. W. G. Benson and little son of Kelowna are visiting at the home of Mrs. Benson's parents, Mr. and Mrs. F. D. Cooper. They arrived here on Wednesday evening.

Among visitors from Coast points to the Hotel Summerland this week were H. Neville Wright, Victoria; L. R. Newnam, H. M. Gibb, and R. D. Kenny of Vancouver.

J. Fraser Campbell, skipper of the lower Okanagan lake boat "Cygnets," came up from Penticton on this morning's boat, and registered at the Hotel Summerland.

Mrs. and Miss Harrington left last Saturday for Peachland where they will be joined later by Dr. Harrington who is still at Okanagan College. They will occupy the Bulyea cottage at Peachland for the summer.

Summerland friends of Mr. George Miller who was so severely injured in an auto accident at Penticton some days ago, will be glad to learn that he is somewhat better, and hopes are now entertained for his recovery.

Mr. and Mrs. W. R. Rourke of Kaleden were registered at Hotel Summerland last Sunday. Guests with them were Miss Skillen of the College staff and her mother, former townspeople with Mr. and Mrs. Rourke in New Brunswick.

The name of Ralph Brown was in some manner omitted from the list of College students named in our last issue who were presented by Prof. Everton with the College athletic "O" at the Commencement exercises held recently in the College Gymnasium.

The following, from one of our citizens, now on the rural mail route may contain a valuable hint for you: "Please discontinue my ad., as I have sold the outfit, thanks to the ad in your paper." If there exists a possible purchaser a Review want ad. will find him.

A new telephone directory is now being distributed among subscribers by the Summerland Telephone Company. There is a marked increase in the number of names as compared with the directory gotten out three months ago. The later directory contains 207 names.

Mr. C. H. Cordy, while at the Coast recently, completed arrangements with Mr. and Mrs. Frank Marshall, experienced hotel people of Vancouver, to operate his new hotel. Furniture and furnishings are now on order, and as soon as received the house will be made ready as quickly as possible.

Miss Josie Butters of Lumby who has been studying at Okanagan College, and who was reported to be seriously ill at that institution, has so far recovered from her recent severe attack of appendicitis to be able to return to her home in company with her mother and sister, this (Friday) morning.

Methodist Church services will be held on Sunday at 10.30 a.m. and 7 p.m. At the morning service the pastor's subject will be "The Greatest Thing in the World." An address will also be given to the boys and girls. The evening service will be held in St. Andrew's Church, and the pastor's subject will be "Visions and their Tasks." A hearty invitation to all.

Rev. C. H. Daly is expected back at the end of next week from Woodstock, Ontario.

Miss Kathleen Babbit has been spending this week on a visit with friends at Penticton.

Mrs. F. B. Tully and children, Roy, Freda and Carl, left on Monday morning's boat for Nova Scotia.

Mrs. D. H. Watson went up to Kelowna at the end of last week, paying a visit of about a week in the Orchard City.

The regular monthly meeting of the Board of Trade will be held on Tuesday at 3.30 p.m., at the Summerland Supply Company's store.

Thos. Darkis left at the end of last week for Calgary. Mrs. Darkis and family are remaining in the house at the Richardson lumber yard.

Mrs. R. C. Robinson came over from Naramata on Wednesday afternoon and will spend some weeks with her parents, Mr. and Mrs. J. L. Logie.

Mr. and Mrs. C. C. Hale, a lately married couple from Penticton, spent a night this week at Hotel Summerland on their way to the new C.N.R. line, along which they intend to locate.

The Women's Institute meeting which was announced to be held next Friday, the 12th, at the home of Mrs. J. L. Hilborn, will be held instead at the High School building at 2.30 in the afternoon.

Mr. and Mrs. Jas. Clark, who recently left Summerland for Penticton, are expected to return very shortly with their family, and will again reside here. They may occupy the O. E. Tomlin house above town.

Mr. and Mrs. W. M. Little, with their son and daughter, from Wenatchee, Wash., stayed over Tuesday night at Hotel Summerland. They proceeded on to Peachland, where they plan to spend at least a month, having rented the Lang house for that time.

Miss Edna McLeod and Miss Anna Hayes went out on Monday morning's boat for the Coast. Miss Hayes will spend a short time with Miss McLeod at Chilliwack, with Rev. and Mrs. A. W. McLeod, and will also visit friends at other Coast points before returning home.

Carlson & Co.'s old warehouse, which is now being utilized by the Summerland Fruit Union for storing feed, has been receiving repairs to its foundations this week, the floor having sunk to an alarming extent in some places from the effects of the lake on its foundations.

A second Lawn Tennis Club has been organized with Miss Rothwell, President; R. B. Forsyth, Secretary-Treasurer; T. B. Young, G. L. McWilliams and Joseph Graham, committee. The skating rink on the College campus has been converted into tennis grounds, with two courts. The first game was played last night.

That quite a number of new members have recently joined the Fruit Union, is the statement made to the Review at the Union office. The officials expect to handle a very much larger output than last year, as not only are last year's shippers anticipating larger crops, but quite a number of additional growers will market their produce through that channel.

Mr. and Mrs. A. B. Elliott, Mr. and Mrs. W. E. Rines, and Geo. Loomer made an early start from Summerland on Wednesday morning, driving to Okanagan Falls for a day's outing. They called at Penticton where Mr. Loomer's sister was added to the party. Delightful weather smiled upon the excursion, making the day's enjoyment complete. They returned the same evening.

Other than receiving the telegraph office equipment C.P.R. Agent Ross knows nothing of the extension of the C.P.R. telegraph line down through the Valley. It is the opinion of at least some of our citizens that the line which the C.P.R. is acquiring is that of the Okanagan Telephone Company, but the Review can learn nothing that would substantiate this. On the other hand, though it is said that none of the district officials of the government have been advised of any change, there is much to substantiate the story as told by the Review two weeks ago.

Miss Myrtle Conway went up to Vernon on Wednesday to visit for a while.

J. L. Logie returned last Saturday from a business visit of several days at Vernon.

Visitors with Mrs. Mary Campbell and daughters are Mr. and Mrs. Horne of Weyburn, Sask.

A number of her school friends were entertained at a birthday party last Saturday by little Miss Lily Everton.

Mrs. J. A. Darke left on Thursday morning for Cochrane, Alberta, Mr. Darke having preceded her some days.

Mr. and Mrs. Martin Beavis went up to Armstrong on Wednesday where they will spend a week or so with Mr. Beavis's sister.

Lloyd McWilliams, E. R. Butler, Frank Edgar, R. Milne and George Gartrell comprised an auto party who motored to Vernon on Wednesday.

Mr. and Mrs. Gerald A. MacLaine arrived on Thursday night from Waltham, and are now at the home of Mr. and Mrs. J. R. Brown, Trout Creek.

A church reception for Rev. and Mrs. McNaughton, who are expected to arrive to-night, will be held next Friday evening in the Lakeside Baptist Church.

Mrs. L. C. Woodworth started on Wednesday morning on journey to her former home in Nova Scotia, where she will visit with relatives for four or five months.

W. Henry of Kelowna, buyer for Stirling & Pitcairn of that city, spent several days in this district recently, leaving here on Monday last. It is stated locally that this firm will ship less from here than last year.

"Beware of magpies," this is the warning given the Review by one of our readers to be passed on to his fellow chicken raisers. No less than sixty of his young chicks were taken from his back yard by these bold and cunning birds.

The Southern Okanagan Transportation Co.'s new tunnel launch, "Mallard," which was specially designed for navigating the shallows of the Okanagan River, has been up at Summerland this week, in the hands of its builder, Mr. B. L. Hatfield, at the Boat Works.

The Summerland Telephone Company requests the Review to ask subscribers to refrain from using telephones during an electric storm. The operator who continues at the board is taking some risk, but the greatest danger is to the person talking at the telephone instrument. The manager has instructed operators to leave the board during thunder storms.

A letter of condolence has been sent by Chief Ranger, Wm. C. Fosbery, on behalf of Court Summerland, No. 1053, Canadian Order of Foresters, to Mr. and Mrs. J. Johnston, of High River, Alberta, on the death of their son, Gerald Nesbit, who was an old and esteemed member of the local court, and who till the time of his death retained his membership.

Miss Rust left on Thursday morning for Brandon.

Mr. and Mrs. J. M. Robinson are expected to arrive from Victoria, to-morrow night.

J. E. Seaton of Peachland was a guest at the Hotel Summerland for a short time this week.

Several important changes will be noted in our Traveller's Guide published on page 4 of this issue.

Mr. C. J. Thomson and family are now in occupation of the Bartholomew cottage in Peach Orchard.

Baron de Thoren of the Okanagan Jam Company returned last Saturday from a visit to the Coast cities.

Rev. Duncan J. Welsh, of Kelowna, visited Summerland this week, and was a guest at the home of Mr. and Mrs. T. N. Ritchie.

The Summerland baseball nine met defeat from the Peachland diamond dusters when the two teams played on Wednesday last at Peachland. The score was 13—2.

Dr. and Mrs. W. L. Robinson arrived at Naramata last night. After their marriage at Toronto they visited California, and returned here by way of our Coast cities.

E. C. Graham leaves on Sunday morning to attend at Victoria the celebration of the Fiftieth Anniversary of the establishing of the Independent Order of Oddfellows in B.C.

Miss Annie Dale, who has been taking treatment at the Halcyon Hot Springs, returned last night. Mrs. W. C. Kelley, who went with her, is remaining at the Springs for another week.

The initial fruit shipment for the season was made on Thursday, being a package of strawberries. These were grown on the lot of a non-resident owner who was desirous of having the first fruit from his vines.

The municipal team, with a hired team and Thos. Ramsay have been up at the Garnett Valley dam all this week strengthening and raising the head against the increasing volume of water being held back.

Presbyterian services will again be conducted on Sunday next by Mr. A. B. Richardson, B.A., of Naramata. Service will be held in the morning in St. Andrew's Church and in the evening in the Methodist Church.

Dr. F. W. Andrew and Mr. K. S. Hogg are delegates of the local Masonic Lodge to the Grand Lodge which meets at Prince Rupert about the middle of this month. Dr. Andrew expects to leave early next week, and will spend a few days at the Coast before going north.

Sunday evening delivery of the mails at lake points was resumed last Sunday. The boat will call at all the principal points on Sunday evening on the south trip, adhering to the daily schedule. On the north bound Sunday morning trip the boat will call at Summerland and Kelowna if flagged. She is likely to be somewhat ahead of schedule on that morning because of fewer stops.

For PIC-NIC PARTIES.

Useful and inexpensive Articles, which will add much to your pleasure and comfort:

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Peachland Notes.

J. McLaughlan, junr., spent Saturday in Kelowna.

Miss Ethel House had the misfortune to strain her ankle a few days ago, and is accordingly taking an enforced holiday.

The Women's Circle of the Methodist Church will give an ice cream social on the boarding-house lawn on Wednesday evening, June 10th.

Miss Annie McBean left on Tuesday morning for Edmonton, Alberta, where she has secured a position with a law firm as stenographer.

Miss Alice McDougald returned on Wednesday evening from Vernon to which place she accompanied her brother John by auto early in the week.

Dr. and Mrs. Harrington of Okanagan College, with their family are occupying Hon. G. H. V. Bulyear's house on the lake for the summer months.

The Ladies' Aid Society of the Presbyterian Church will meet next Wednesday at Mrs. J. McLaughlan's, instead of Wednesday 3rd, which is given up to sports.

Mrs. Wm. Buchanan and daughter, Miss Nancy were the guests of Mrs. Buchanan's brother, Mr. Geo. McDonald, and her son Tom, at Penticton the latter part of last week.

Mr. Harry Slater, who managed the packing house for the last two seasons, returned on Thursday night, and will again have the position this year, his duties beginning June 1st.

Shipments of cherries were sent out early last week. Strawberries are ready, but not enough are grown to supply the home demand. Thinning is now the order of the day, so peaches and early apples are receiving attention.

The Women's Institute will meet on Tuesday afternoon, June 9th, at 2.30. The program is as follows: music; table demonstration, Mrs. W. A. Lang and Mrs. A. Smalls; home nursing, Mrs. Aitkens and Mrs. Seaton; demonstration, Dr. Buchanan.

Miss Leone Morrison is to be congratulated on the standing she took in the recent Okanagan College examinations. Although a student there for only half of the year, she came out fourth in her class, and is now taking a well-earned rest at her home here.

AS AN ADVERTISING MEDIUM.

Arthur Brisbane, who is said to be the most highly paid newspaper man in the world and whose genius is everywhere recognized, understood the truth of this statement when he said:

"The local newspaper in proportion to its circulation is, in my opinion, infinitely the most valuable advertising medium we have. The value of the country newspaper is based largely upon the fact that the man who reads it looks upon it as a neighbor and a friend, a personal acquaintance, and attaches to the printed statements and advertisements of the country newspaper far greater importance than the big city attaches to the statements and advertisements in the big city newspapers. As a friend talking to another about a certain kind of goods can influence a friend more than a stranger, so a country newspaper, standing on a footing of friendship with its readers can talk to them about goods for sale or any other topic and impress upon them more strongly than the big metropolitan newspaper, which is really a stranger."

The appeal to the housewives of the Coast cities to wait for the arrival of local fruit is being revived again this season. Already some of the Coast city dailies have published a call by the officials of the Provincial Fruit Department urging the housekeeper to wait until the local crop of strawberries comes in, urging that, though later, the local berries will be bigger, better and cheaper than the imported article.

The farmer and his family who cultivate a desire for all that is beautiful and comfortable are doing much to dispel worry and trouble. And it is worry and trouble that kills. Flowers, lawns, pictures, books, magazines, easy chairs, hammocks—these all favor longevity and make you happier while you do live, and cause your children to be contented with farm life—the most independent and happy life on earth.

Work On The K.V.R.

The laying of steel since the big tunnel permitted the passing of trains has proceeded rapidly until now it has been extended northeastward to Saw Mill Creek, within fifteen miles of rail head coming from Carmi, which has now reached Canyon Creek and numerous other creeks and ravines between, a number of wooden trestles must be thrown before the steel ends can be linked up, probably three months hence. The laying of rails to these points now enables the contractors to place the lumber at the bridge sites and the work of constructing the bridges will be carried on with all possible haste. Upon completion of this fifteen mile link there will be a continuous track from Osprey Lake, west of Summerland, to the boundary and Arrow Lake district. At a point southeast of Kelowna, where the summit is crossed, the line reaches an elevation of 4,200 feet above sea level, or 3,100 feet above the lake. A drop to lake level is made in fifty-eight miles, that being the distance by rail between Summit and Penticton.

The Old England

JULIUS W. A. BLOCK,
NARAMATA, B.C.

TWEED HATS for Ladies, \$1.25 each.
Any order for not less than \$3, and not weighing above 11 lbs. sent by Parcel Post inside the 20 mile radius FREE.

Tourist Season Begins.

The management of the Hotel Naramata are making every preparation for a busy tourist season. The large dining-room was reopened on Tuesday. During the winter the tea-room was used as a dining-room. Additions to the staff include a French chef and two dining-room waitresses. The grounds are now being put in fine condition by J. P. Bruce, a gardener and florist of marked ability, who recently arrived from England. It is scarcely necessary to add that the hotel itself is in excellent order and as inviting as ever.

Pastor Farewelled.

Rev. W. P. Bunt who, for some months, has been in charge of the Methodist Church here, and who has resigned to continue his college studies, left this (Friday) morning. With the desire of expressing in a measure their appreciation of his good work while among us, a number of church members and friends assembled in the church on Tuesday evening. Speeches, including remarks from Mr. Bunt's co-workers, Revs. Lee and Thompson of Summerland and Penticton, presentations and refreshments were part of the evening's program. Mr. Bunt will take away with him a neat travelling bag as a souvenir of his stay in Naramata, while a pulpit bible, presented to the church by the departing pastor, will be a cherished reminder of one who will be greatly missed by all. From here Mr. Bunt goes to Victoria for a short visit, thence to Collingwood, Ontario, his former home, where he will be busy until studies are resumed. Mr. Bunt's successor, Mr. Willan, is expected to occupy the pulpit on Sunday.

Local strawberries have now been offered here for some days and they are excellent in color, flavor, and texture. Speaking of small fruits one of our business men remarked the other day that it was a pity we had not near by us a large centre of population from which to draw berry pickers as he was confident that there was good money in growing strawberries. Those who have experimented with them have had good yields of early fruit of the highest quality.

Current Events OF Town & District

Mr. G. H. Burnett of the K.V.R. staff went to Kamloops on Monday for a few days.

Tony Manzini, who since leaving here has been at the Railway Hospital, Kelowna, was seen around town on Tuesday.

Mrs. Carroll Aikins and her friend, Miss Tupper, were guests of Mr. and Mrs. R. C. Robinson at lunch on Tuesday.

Miss Edna Noyes left on Monday morning to visit relatives at Victoria. She will probably be absent for about three months.

The tunnel contractors, who have completed their work, broke camp early this week, their outfit being brought down to lake level on cars.

Mr. R. C. Robinson has had his motor launch made ready for the water. Under a new coat of paint the neat little craft looks as good as new.

Mr. and Mrs. H. Wolstencroft left on Wednesday morning's boat to sail from Montreal on the "Victorian" for their former home in England.

The Summerland Fruit Union has secured the Grant-Smith warehouse on the public wharf and will use it this season as a packing house for locally grown fruit and vegetables.

Mr. Warrington Strong who, since his arrival here, has been living at Hotel Naramata, has decided to try "batching," and together with W. Short has already entered upon the new life.

A pretty little tea party was given last Saturday afternoon at the home of Mrs. H. J. Wells in honor of Miss Ruth Chambers, who before this item is published will have become Mrs. Howard Rounds.

Mr. Fred Moyle of Didsbury, Alberta, in company with Cliff McWilliams of Summerland spent part of Monday here looking over orchard properties. It is understood that Mr. Moyle and a brother who accompanied him to the Valley, are contemplating engaging in fruit growing in the Okanagan.

Nine miles of onions! This is the total length of the row after Gardener Aveson. Estimated at only four onions to the foot Mr. Aveson will have a crop of 190,000 onions, which, if averaged as four to the pound, will weigh 47,500 lbs. practically 24 tons. Many other of our growers have planted more than their usual area to onions, which should be an important item in the season's output. Already green onions are being exported.

Some strawberry plants of a most unusual variety were imported about seven weeks ago by Fred Manchester and the plants are now heavily laden with fruit. This particular variety is guaranteed to be a constant producer, and it certainly gives every indication of maintaining its reputation. Equally unique is Mr. Manchester's method of planting. A barrel, after being pierced with holes 1 1/2 inches or more in diameter all about it, was filled with earth and the strawberry plants planted about the barrel through these holes. This method has the advantage of giving the plants more sunshine, making the fruit more accessible for picking, and, planted in this way, Mr. Manchester expects to have Christmas strawberries from his new variety by simply transferring the barrel to proper shelter.

Unity Club Concert.

Another of the Unity Club's invariably popular entertainments was given last Thursday in the Opera House. This time it took the form of a variety concert under the capable direction of Mr. F. C. Manchester.

The attendance was good, the house being practically full, quite a number of friends coming from Summerland.

The net results, financially, have not yet been determined, but it seems certain that the club will be the richer by at least fifty dollars.

Domestic Water Service.

A marked improvement in the domestic water pressure has been noted for some days. Practically ever since the system was put in an unevenness of pressure, more or less annoying, has prevailed, despite the fact of frequent attention to and adjustment of the regulating valve. Last week the company put in a Foster pressure regulator which steps the pressure from 200 down to 60 lbs., and it has since been held steadily at the latter under all conditions. Another improvement is the straining of the water as it passes from the high pressure pipe.

W. H. Trowse of the K.V.R. Engineer Brook's staff, left for Penticton on Monday stating that he would be absent for two weeks. It is currently reported that when he returns he will bring a life partner with him, and that the Hayward cottage here will be their residence for the summer.

Second Wharf Seems Assured

Naramata's public wharf is in such constant use resulting at times in inconvenience and delay that citizens have concluded that the time had arrived when a second wharf should be provided, leaving the older one practically clear for the C.P.R. steamers. Accordingly a petition, signed by a large number of citizens, was last December forwarded to Hon. Martin Burrell. This week Mr. J. H. Richardson of Chase, in the employ of the Public Works Department, visited Naramata and made the necessary surveys for a new ferry wharf and breakwater.

Because of the more strict enforcement of the laws pertaining to water-craft it is probable that the launch "Naramata" will not be afloat this season. It is understood that it would be necessary to man the launch with certified Captain and Engineer before she may be used even as a family boat.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tons of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting:
Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

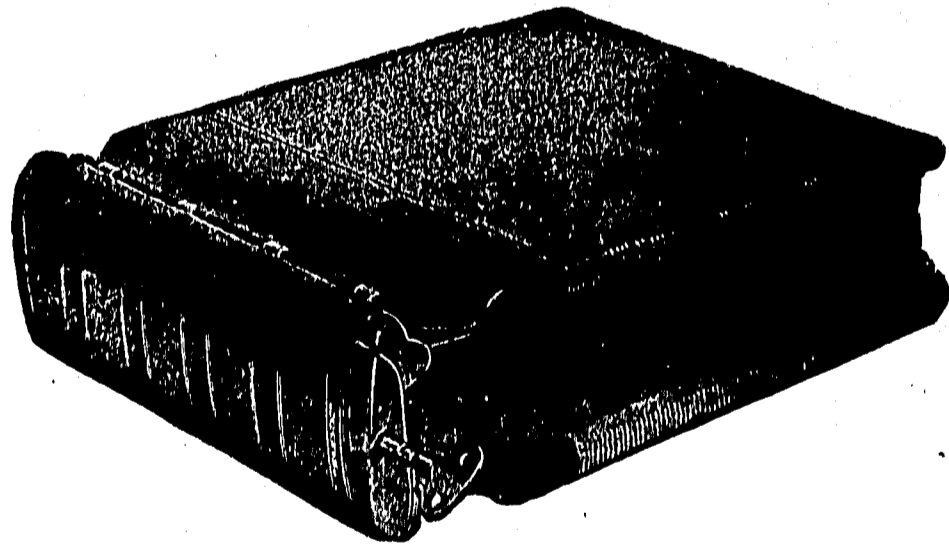

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Preparing Potatoes For Planting

Commission of Conservation

Cutting the "seed" for the season's potato crop is to many an unpleasant and arduous task. Much of the unpleasantness is due to the placing of the potatoes and the receptacles and the necessary uncomfortable position of the operator. The above cut shows a plan suggested in "Conservation," the official publication of the Commission of Conservation. Across the top of the barrel is fixed a board up through which a sharp blade has been extended, and conveniently placed on a table within reach is the box or basket of seed. This method eliminates the back-ache, and the operator can cut a great deal more seed with much less exertion.

Rifle Association.

The first shoot of the series of four for the Canadian Rifle League, and the Dominion Salver was held last Saturday, the following scores leading:

	Rifle League	Salver
G. M. Loomer	94	93
J. Dunsdon	93	92
O. Smith	91	91
W. Nelson	89	89
G. Barkwill	88	88
S. A. Liddell	87	87
W. J. Smith	83	82

The conditions were 7 shots and a sighter at 200, 500 and 600 yards, and the competitions were shot concurrently. The afternoon's proceedings were enlivened by the barring out (with a club) of a seven-button rattler, which was endeavoring to take part in the sport at 200 yards firing point.

The next shoot of the series will be held on Saturday of this week, and a good attendance is asked for.

W. C. T. U.

(Contributed)

The Monday afternoon meeting being the first of the official year, considerable time was devoted to devotional exercises.

In response to the convention call Mrs. J. L. Hilborn was appointed delegate to the provincial convention, which is to meet in Victoria, June 15th to 19th.

There was a request before the meeting from the newly organized Pentecost union, that someone, a lady or gentleman, go down from Summerland to give a temperance talk to their school children. Mrs. C. H. Daly kindly consented to undertake this task.

Mrs. Hughes of Naranata gave an interesting paper dealing with the cigarette evil, emphasizing the importance of women and girls using their influence to discourage the smoking habit among their friends.

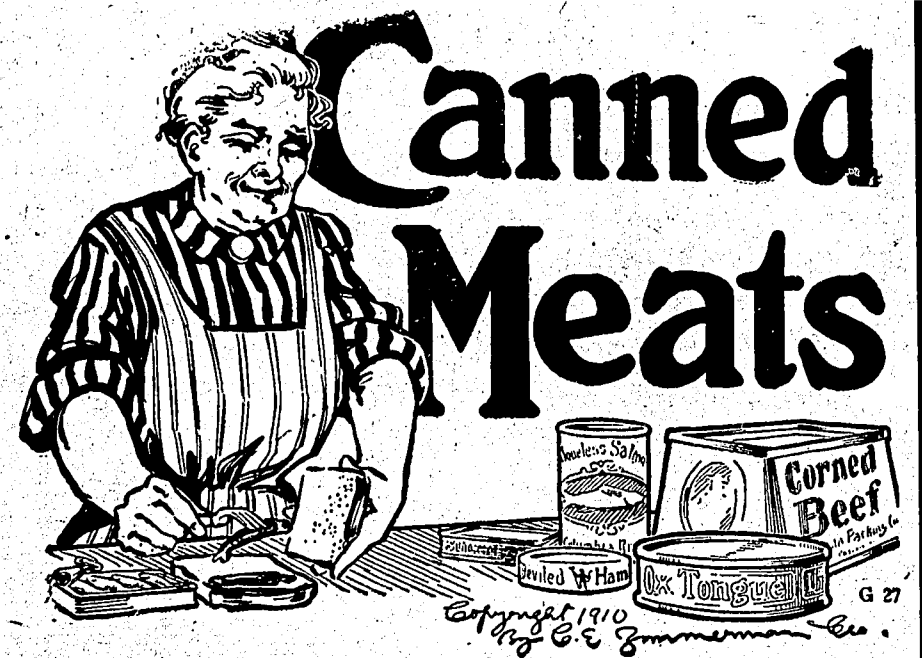

Our present anti-tobacco law regarding the sale of tobacco and cigarettes to minors is proving ineffective to a great extent, and the consumption of cigarettes is increasing at an alarming rate. A better law is now under consideration by a committee of the House at Ottawa, and important results hang in the balance of their decision.

A MODERN VERSION.

Wilt thou take her for thy "pard," for better or for worse; to have, to hold, to fondly guard, till hauled off in the hoarse? Wilt thou let her have her way, consult her many wishes, make the fires up every day, and help her with the dishes? Wilt thou give her all the "stuff" her little purse will pack, buy her a monkey, bon and muff, a little seal skin sacque? Wilt thou comfort and support her father, mother, Aunt Jemima, Uncle John, thirteen sisters, and a brother? And his face grow pale and blank, it was too late to jilt; as through the chapel floor he sank he sadly said, "I wilt."

CAPITAL AND LABOR.

When a young man sits in the parlor talking nonsense to his best girl—that's capital. But when he has to stay in of evenings after they're married—that's labor.

Why Worry About Lunch?

A LOOK over our canned goods will chase away your trouble for ever. All kinds of tempting canned meats and fish are carried by this store in great variety. We sell quickly and never have old stock. Consequently you are sure of that fresh natural taste—combined with the appetizing flavor caused by canning—in every brand. Those meats are delicious—as kept and sold by us. Canned and retailed under the Government Pure Food act.

O. VAUGHAN

GROCER & COMMISSION MERCHANT

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the SUMMERLAND REVIEW is to leave your business unprotected.

A WORD TO THE PUBLIC.

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will, you need have no compunctions of conscience.

Church. Rev. C. H. Daly, Pastor.

ONE-ON HIM.

A well-known lawyer is telling a
good story about himself and his
efforts to correct the manners of
his office boy. One morning not
long ago, the young autocrat blew
into his office and tossing his cap
at a hook, exclaimed: "Say, Mr.
Blank, there's a ball game at the
park to-day and I'm going."

Now the attorney is not a hard-
hearted man, and was willing the
boy should go, but thought he
would teach him a little lesson in
good manners.

"Jimmie," he said, "that isn't
the way to ask a favor. Now you
come over here and sit down and
I'll show you how to do it."

The boy took the office chair and
his employer picked up his cap and
stepped outside. He then opened
the door softly and holding the cap
in his hand said quietly to the
small boy in the big chair:

"Please, sir, there is a ball game
at the park to-day; if you can
spare me I would like to get away
for the afternoon."

In a flash the boy responded:
"Why certainly, Jimmie, and here
is fifty cents to pay your way in."

It won't do for a married man
to say to his wife, "Never mind."
She's apt to take him at his word.

Whole 1 306

Three Council Meetings Within a Week

1914 Tax Rate Foreshadowed. Accounts Totalling Nearly \$10,000 Passed. Six-inch Water Pipe For Town Main.

Such unusually heavy demands have lately been made on the time of the Municipal Council that few can show a busier record than our civic rulers for the past week or two. No less than three meetings have been held in the course of the past week, and another will probably be called by the Reeve within the next few days.

At a full session held on Saturday afternoon last, the chief business was the preliminary reading three times of two new by-laws. No 59 regulates the erection of poles, telephone, telegraph, etc., along public highways. Matters of this nature have previously been dealt with from time to time as they arose by motion, and the by-law has been framed to cover all cases. By-law No 60 is the Noxious Weeds By-law which the Council decided to put into force at a recent meeting.

Some further developments transpired in the matter of P G Koop's domestic water connection, and an application from the Citizen's Hospital Committee seeking the continuation of the former grant from the Council to the Hospital of an amount equal to the water and light rates, was given sanction.

A further meeting on Monday afternoon cleared up an accumulated pile of correspondence. The P G Koop water matter received its final adjustment, and the two by-laws mentioned above were finally read and approved, duly passing on to the books of the law. Among other communications, a letter from the Board of Trade complained of the condition of some sidewalks down town.

The regular monthly meeting was convened yesterday early in the afternoon, with all the Councilors in attendance.

special meetings were then read by the Clerk and approved by the Reeve. Coun. Stark reported improvement in the water service to the highly situated houses in the Town section, since the enlargement to the intake at the big spring had been carried out. He also advised the laying of a six-inch pipe down to the hydrant connection on Shaughnessy Avenue, to replace an inadequate stretch of two inch. Coun. Stark emphasized the value of this improvement as providing greater fire protection for the business section and as a means for meeting the domestic water needs for a long time to come. A little later a letter was read from the Board of Trade asking for the laying of this six inch pipe, and this letter was supported by the presence of Mr. R. H. English, who reviewed the inconvenience the lack of pressure caused last year, and pointed to the advantages of a stronger supply of water and better fire protection. The length of pipe required is nearly nine hundred feet, the cost of installing it being roughly estimated by the Reeve at about \$450. For its short length there are few stretches of pipe in the municipality which produce such a large revenue. On the motion of Coun. Blair the Council decided to put in the larger pipe.

An account from the Pentiction Hospital for attendance on Mrs. Miller, at one time connected with the hotel, was assumed by the Council, and an effort will be made to collect this later from Mr and Mrs Miller.

ENCOURAGEMENT FOR BEAUTIFYING ROADS.

Letters from Messrs. W. J. Ross and S. F. Sharp, requesting permission to use the grass on the road allowances, will be answered, allowing the grass to be cut. Out of this arose a commendable suggestion emanating from Coun. Stark that the Council encourage property owners to improve their road sides. A motion was passed to the effect that if property owners clear their adjacent road allowances of weeds, seed them down to clover, alfalfa, or such like, caring for the crop in the proper manner, they be entitled to the exclusive right to whatever can be raised in that way, always provided there is no obstruction to any traffic. It was not felt advisable, however, to allow the general tethering of cattle on the roads throughout the community.

Application for electric light connection to the new Hospital building was granted, and also for Thos. Carter, at the foot of the Gulch Road.

P. G. Koop wrote drawing attention to the bad state of a lot adjoining his own, which has grown up to weeds, and he asked that the Noxious Weeds Act be enforced in this instance.

W. H. Hayes is making a strong protest against an irrigation service last year which he claims was quite inadequate, and through which he suffered considerable loss. Mr. Hayes is withholding payment of his irrigation rates in full until he obtains some guarantee for the future. There are discrepancies between the complaints made by Mr. Hayes and the Works Committee report on the same, and at the next meeting the matter will be straightened out by the presence of Mr. Hayes and the ditchman, if this can be arranged.

The report of Constable Graham for the month of May was received and filed.

Re-building and Extending Valley Line

New Telegraphic System over K.V.R.

That the C.P.R. is to extend its telegraphic system down through the Valley is practically a certainty. The means they will take to make this extension is not so material though full of interest, more so, perhaps, because of general interest that was taken by the public not long since in questions pertaining to telephone and telegraphic lines in the Okanagan.

At first it was stated that the C.P.R. telegraph would reach the southern towns over the Government telegraph line which it was said the Company was acquiring. There were those who doubted this and claimed to have information which would indicate that the Okanagan Telephone Company was desirous of disposing of its trunk telephone line and an announcement to the effect that a deal between these two had been made would soon be forthcoming. On the other hand, knowledge of the earlier history of the movement, and more recent declarations from those believed to be in a position to know that the Okanagan Telephone Company positively had no intention of selling, strengthened the belief that the C.P.R. would take over the Government Telegraph. The fact that the Government's telegraph line is now practically only an extension of the C.P.R. system and would be almost wholly put out of business if the Company extended its system down the lake, supported this view.

A news item appearing in the Vancouver Province indicates that temporary access will be had to Kelowna by leasing the telephone company's line and that later the C.P.R. line from Sicamous to Okanagan Landing which is being re-built, will be extended down the lake. The news that the C.P.R. would also have an east and west telegraph system through here will be learned with satisfaction. The Province's story is published here-
Direct telegraphic service to points in the Okanagan from Vancouver will be furnished within the next two weeks by the C.P.R. in line with arrangements recently completed for extending its wire system south of Vernon to Kelowna. The company has leased a wire from the Okanagan Telephone Company, which will obviate the relaying of messages over the Dominion Government's line.

Mr. James F. Richardson, superintendent of telegraphs for the British Columbia division, stated this morning that with the new rail connections afforded, between the Boundary districts and the Okanagan via the Kettle Valley Railway, the need of a direct service has been made imperative.

He announced that the leasing of a wire was only a temporary arrangement as the C.P.R. intended to build a new line later on south of Vernon, along the shores of Okanagan Lake to Pentiction. While the new toll schedules have not yet been prepared, he said that a reduction in the charges would no doubt become effective when the new service was placed in operation. At present an extra levy of 25 cents is made for relaying messages from Vernon to points south.

In pursuance of its policy of extension and improvement the C.P.R. telegraph department is rebuilding the telegraph line between Sicamous and Okanagan Landing.

The C.P.R. will install a complete east and west telegraph system along the Kettle Valley line, making junctions with other parts of its system at Hope and Midway. This will give the company a third alternative line through the interior of British Columbia. At present messages from the East and West, and vice versa, may be transmitted around by the Crow's Nest, Nelson, Revelstoke route, as well as by the main line. The extension of the Okanagan telegraph service will give still another alternative route for a portion of the same territory.

With reference to the east and west telegraph line following the K.V.R. route it may be stated that already the work of constructing this line is well advanced. A great many poles have been placed along the right-of-way and the building

C.P.R. Pushing For Early Finish of K.V.R.

Vice-President Bury To Visit Valley.

That the C.P.R. is anxious to have the K.V. Railway completed at the earliest possible moment seems very evident, not only from stories gleaned all along the line of the work in every division being hurried, but frequent press despatches show that C.P.R. officials are watching the work and urging every possible haste. Until recently there seemed but little promise of the linking up of the Okanagan with the Coast until next spring, but more recent developments point to the determination to have the line ready for traffic before the end of 1914.

A despatch emanating from Winnipeg last week stated that Mr. George Bury, vice-president of the Canadian Pacific left this morning for Vancouver on his first regular inspection trip of the company's lines this year. He will pay particular attention to the Okanagan and the Weyburn-Lethbridge lines, and will inspect the Kettle Valley Railway progress with a view to rushing the line to completion this summer or in the early autumn. Mr. Bury will visit Pentiction to confer with President Warren.

Further substantiation of this haste is seen in the following from Tuesday's issue of the Vancouver Province:
Rail connections between the Okanagan sections of the Kettle Valley Railway, now in course of construction along the entire route from Midway to Hope, are expected to be made within the next three months.

Upon completion of a fifteen-mile link between Carmi and Pentiction the entire line from Midway to Osprey Lake will be ready for service. Bridge building is proceeding briskly east of Pentiction, and steel has been laid to Osprey Lake, from which point a section of line is being built to Princeton.

Reports already published of the progress being made with the other sections of the Kettle Valley and the section of the V.V. & E. which is to be used jointly by the two roads, indicate that rail connection between the boundary and Okanagan points and Merritt will be established this autumn.

HOSPITAL AUXILIARY.

The Ladies' Hospital Auxiliary will hold its regular monthly meeting next Tuesday afternoon at three o'clock in the parlor of the Men's Club. Matters of moment will be presented for consideration. The ladies have assumed much responsibility in connection with the equipping of the new hospital, and there is much to be done between now and the time of the completion of the building.

Local Market.

Strawberries and cherries are now coming in in better quantities, and enquiry among the stores reveals a tendency of sag in prices. It is doubtful, however, if there are yet enough strawberries grown in the district to supply the local demand. Now white turnips and cauliflower are now being offered. Asparagus is now off the market.

- Following are retail prices:
- Apples, per pound 5c.
 - Butter, 35c. to 40c.
 - Cauliflower, ca. 10 to 15c.
 - Cherries, per lb. 10c.
 - Eggs, per doz. 85c.
 - Gooseberries, per lb. 10c.
 - Onions, green, bunch 5c.
 - Onions, dry, per lb. 5c.
 - Potatoes, per lb. 2c.
 - Radishes, per bunch, 5c.
 - Rhubarb, 6 lbs. 25c.
 - Spinach, per lb. 5c.
 - Strawberries, 2 lb. 35c.
 - Turnips, new, per lb. 5c.

of the telegraph line is following closely the extension of steel. The fencing of the railroad property is also being carried on.

Change In Pooling By United Growers

Means Material Saving In Overhead Expenses And Quicker Returns. New Standard Of Packing And Marking.

A number of very important changes in the rules and regulations covering the grading, packing and standardizing of Okanagan fruit have been proposed by the Central, and have had the approval of the various locals affiliated with the Okanagan United Growers. These are being printed in booklet form and will soon be ready for distribution among the members of the local organization.

The most important change is perhaps in the method of pooling which has been one of the most difficult problems with which the management have had to deal, and a careful consideration of the new method would indicate that much of the unwieldiness of the former method has been disposed of.

POOLING SYSTEM.

Up to now it has been the practice to open a separate pool for each variety of fruit, and last season for apples alone there were more than 140 pools. This year there will probably be less than 50 pools for apples, thus greatly reducing the expenses of operating and bookkeeping.

This will be brought about by the adoption of list of standard varieties, which will be known as the "Main Crop List." The other hundred or more varieties will be handled as an orchard run pack, graded as "No. 2 Special."

This same plan is to be followed in the handling of other fruits as well as apples.

APPLES IN THREE CLASSES.

The "Main Crop List" of apples which is divided into three general classes: summer, early fall, and fall and winter, will be graded into Nos. 1 and 2 and include the following varieties:—

SUMMER: Red, White and Striped Astrachan, Yellow Transparent, Early Harvest, Early Colton, Sweet Bough, Tetofsky and Liveland Raspberry.

CHANGES IN PRE-COOLING PLANT

Owing to the inability to obtain electrical power during the daylight hours, the motive power for the government pre-cooling plant in the Fruit Union building near the wharf will be changed from electricity to gasoline engine.

J. L. Goodman, who succeeds Mr. Edwin Smith in the management of the plant, was here over the week-end and made full arrangements for the changes.

A small gasoline engine of about 2 horse power will be installed on the hill at the new ice-house, to drive the crusher, and the ice to bring the temperature down in the cooling rooms will be dropped across the road into the warehouse through a chute, according to the original plan.

The fans to circulate the cold air round the fruit will be driven by a motor of 6 horse power, to be placed nearly in the same position as the electric dynamo which was used last year.

All the contracts for the work the changes necessitate have been let locally. B. L. Hatfield will install the engines, R. W. Nelson will make the structural alterations and additions necessary, and C. N. Borton will put in the metal ice chute. The work is to be put in hand immediately, and it is planned to have the plant operating in the smoothest possible manner by the time the stone fruit crops come in.

It will be seen that the government is going to considerable additional expense in fitting up and continuing this unique plant. The results obtained last year were scarcely such as could be taken as a test of the worth of the pre-cooling treatment, since Mr. Smith was hampered by many difficulties. On that account the working of the plant this year will be watched with greater interest.

EARLY FALL: Duchess, Wealthy, Gravenstein, Jeffries and Maiden Blush.

FALL AND WINTER: Arkansas Black, Baldwin, Canada Baldwin, Canada Red, Cox's Orange, Delicious, Fameuse, Gano, Grimes Golden, Hubbardson's Nonsuch, Jonathan, Kaihn of Spitz, King David, Mackintosh Red, New York Wine, Northern Spy, Ontario, Rawls Jettette, Ribston Pippin, Rome Beauty, Snow, Seek-No-Further, Spitzbergen, Stamen Winesap, Sutton Beauty, Wagener, Winesap, Winter Banana, W. W. Permain and Yellow Newtown.

PLUMS, which will be graded into Nos. 1 and 2 and standardized, will be: Black Diamond, Bradshaw, Burbank, Columbia, Coe's Golden Drop, Damson, Green Gage, Imperial Gage, Lombard, Peach, Pond's Seedling, Sugar, Tragedy and Yellow Egg. Other plums will be treated as orchard run packs, not pooled according to variety, but will be graded Nos. 1 and 2.

PEACH GROUPING.

Several of the most popular varieties of peaches will be pooled in groups according to season. Hale's Early, Brigg's Ren May and the Alexanders will be pooled together, as will the Dewey and Triumph. A third pool will include Fitzgerald, Foster and Early Crawfords. Late Crawfords, Elbertas, Yellow St. Johns and yellow free stones will each have separate pools, while all of the peaches will be graded No. 1 and No. 2.

MINIMUM WEIGHTS.

Another important ruling relates to the weight of the packages of the different fruits all of which have varied, some not a great deal, others considerably.

As an instance the minimum gross weight of a box of apples must be 49 lbs. If a package does not come up to this weight it will be re-graded No. 2.

DISPOSES OF U.S. RIGHTS.

Mr J M Robinson, who controlled both Canadian and American rights in the Hemmings Process, mention of which has been made on more than one occasion in these columns, informs the Review that he has disposed of the American rights to a syndicate of Los Angeles capitalists, who will at once proceed to organize parent companies along similar lines as Mr Robinson has proposed for Canada. Each of the five companies will be capitalized at \$400,000, \$200,000 of which is common stock, and will be held by Mr Robinson and his English associates, \$200,000 of preferred stock will be offered to the public. A substantial amount in cash will be paid by each of the five companies for the American patent rights in the preservative process. Each company will control the right for all the United States in one of the following lines:—fruit and vegetables; dairy products, including milk; non-alcoholic beers, wines, etc; fish; meat, etc.

Various local subsidiary companies will acquire the privilege of using the process from the particular parent company controlling the right for that line of business.

Mr and Mrs J. J. Mitchell with Miss Myrtle Ritchie made an unusual automobile trip last week-end, which gave them a most enjoyable and novel short holiday. They left on Saturday morning and motored to Grand Forks, B.C., going by way of Osoyoos Lake and the steep mountainous grade to the east of the lake, encountering a snow storm on the high elevations. They reached the boundary city Saturday evening, spent Sunday and Monday there, and returned by the same route on Tuesday. The McLaughlin "four" behaved admirably throughout the two hundred mile trip.

(Continued on page 8.)

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$5.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion. LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, ETC.—25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JUNE 12, 1914.

ELIMINATING THE GROUCHER.

THE GROUCHER is a derelict of human kind found in every city, town, or village. No matter how hopeful may be a community's outlook, industrially and socially, there always appears the man with a grouch to darken the bright horizon with his black pessimism. Summerland has a few such—very few, we say it thankfully—and it might be good for them, as well as for those of us who are fortunate enough to have escaped acquiring the grouch habit, to pause and consider just what our town does possess in the way of community assets. "Counting our blessings" we might call it, for anything that tends to benefit the place in any way should be considered in that light, as something to be thankful for.

As affecting the fruit growing interests, which make the very heart of our community life, there is a long list of concessions and advantages which show that things are beginning "to come our way." The local co-operative marketing organization is making good, this being evidenced by the fact that there are being drawn within its fold a number who have previously held aloof, but who now see the germ of successful marketing in the co-operative idea. Then an experimental farm and demonstration orchard are being established to point an easier way to successful horticulture. The value of these will depend on how much use growers make of them. The pre-cooling plant is an agency that increases the market value of our fruit by improving its keeping qualities, and as such, must soon be recognized as something not to be reckoned last of our community assets. The cannery is not looked upon altogether as the most profitable channel for the disposal of produce, but if "half a loaf is better than none," we should be glad the cannery is here. Perhaps the most important of all is the pending improvement in the transportation arrangements. Just what the completed Kettle Valley Railway will mean to Summerland no one can quite foresee, but all are agreed that it will bring advantages very numerous. Another phase of the transportation question takes on new light in the concessions which the Express Company is granting to Okanagan growers.

Socially, our town has much to boast of that many a place much larger is still without. The free delivery of rural mail brings the post office to the gate of the outlying orchard, saving a good many miles of drive and walk, not to mention time. An efficient and locally owned telephone system reaches out into all quarters and annihilates the distances that would tend to isolation, bringing stores and shoppers, and friends and neighbors within the closest of touch. A telegraph wire gives us connection with the world at large, and brings in news from afar off as quickly as though we were in the midst of sky-scrapers and street cars. For our children we have educational facilities that cities well might envy. Public school, high school, university, business, music—even the most ultra-modern parents could scarcely desire more for their children. And this says nothing of a new public hospital for such sickness and accident as calls for nursing and doctoring, or a splendidly built public wharf, which ornaments the waterfront, a pleasant promenade for pedestrians, a boon to water craft, as well as an attractive centre for regattas and water carnivals, when we branch out into that line of relaxation again.

Summerland's civic dignity as a district municipality also gives to us a dual water service and electric light system—things some of us do not always feel disposed to consider unmixed blessings. Our two public municipal bodies are conscientious and capable, and disagreements with their policies can never lessen any appreciation of their straightforwardness and high motives.

This is but a partial enumeration of a few facilities that Summerland enjoys. It could be enlarged, but as it stands, there is surely enough to turn the groucher's knock into a word of praise. If none of these directly affect you, your neighbor is probably thankful for a good many of them. Let him tell you about them. It seems that after all, Summerland has much to be thankful for, and if temporary conditions and circumstances are allowed to offset its many advantages, the people, not the place, will be to blame.

CO-OPERATION IN B.C. AND NOVA SCOTIA.

BACK IN NOVA SCOTIA, in the famous Annapolis Valley, co-operation among the fruit growers has been thoroughly tried out. The United Fruit Companies, as the central association is called, is much larger in scope than the Okanagan United Growers, and its difficulties have been correspondingly greater. It was not until a large number of small co-operative companies which had been formed independently were found to be cutting each other's throats in marketing, thus reverting to the original and unorganized order of things, that the United Fruit Companies was formed. The chaos made by a multiplicity of small individual associations gave place to an all-embracing central agency, and instead of wholesale and jobbing speculators practically dictating ruinous prices to the growers, the process was reversed, so that the profit from the huge crop of apples began to find its way to where it belonged—to the producers.

It took several seasons to bring this about in Nova Scotia. The Okanagan United Growers are accomplishing it more quickly, and no less surely. The maritime organization at first applied itself solely to the selling problems of its members, and only comparatively recently did it make its strength felt in obtaining supplies for its various subordinate associations at reduced prices. To this phase of co-operation the United Growers has applied itself vigorously at the outset, and with no less

success than attended its selling operations. Great benefit has come to the Okanagan fruit grower at both ends of his difficulty. Buying and selling are each carried out to better advantage, and the growers are becoming the real power in the fruit situation they should be.

There is an interesting similarity in the difficulties which both selling agencies encountered. Lack of knowledge even among the membership has caused misunderstandings. Few seem to have the realization that they are themselves the central selling agency. They speak of letting the Union take their fruit as though it were some speculative firm buying it. They speak of buying their feed, spray, and seeds from the Union "if the price is right." They do not seem to realize that they are themselves through their own tremendous buying power, obtaining their supplies lower than any that can be supplied by middlemen. It shows the situation is not clearly understood. The Unions do not sell an ounce of anything to members, they simply buy what their members have authorized them to buy. But this misconception is passing, though it has caused a great deal of uneasiness, besides greatly retarding the progress of the co-operative movement, and it is still a great hindrance in the Annapolis Valley.

The United Growers have not suffered to a great extent from deliberate underselling on the part of private opposition concerns, in many cases at a loss, for the sole purpose of disrupting and discrediting the movement. Nova Scotia has met this difficulty hard, and is still working round it. Particularly has it been encountered in the buying of fertilizer, the price of which has been brought down five or six dollars per ton. But underselling has lured away some of the members, and kept a good many companies out of the central.

Straight opposition to the principle of co-operative selling has been found both in Nova Scotia and the Okanagan. The objections come from those who imagine that by continuing operations in their own individuality, they get better returns, suffering no deductions for handling, reserve, etc. They remain immutable to argument, however conclusive, and it seems that only time will bring conviction to these folk.

For its age and progress, the Okanagan has moved faster than Nova Scotia in solving the problem of marketing fruit in strongly competitive centres. Its people are realizing, as never before, that

"Co-operation—not strife—
Is the divine law of life."

ON THE INITIATIVE of Hon. Martin Burrell, Dominion Minister of Agriculture, an Entomological Division is to be created as a separate branch of that department. Previously entomological research work has been carried on in conjunction with the experimental farms, but Mr. Burrell, responding to representations made by horticultural interests, has now seen the necessity for segregating it. The work of the division is largely concerned with pests and diseases affecting fruit, vegetables, grains, and all kinds of produce. The new division is charged with the responsibility of preventing the introduction and spread in Canada of injurious insects, the investigation of insect pests affecting agriculture, horticulture, forestry, and the health of domestic animals and man, and the imparting of the information so obtained to the public by means of bulletins, press notices, addresses, and in other similar ways. Its chief, Dr. C. Gordon Hewitt, is well qualified for the position he holds. He may be expected to take full advantage of the increased opportunities he will now have for public service.

PULL TOGETHER, brethren. We are all here for the same purpose. Then live and let live. The best way to build up a town is for each and every man to pull together and not strive to rend and tear down.

WE OWE it to the community in which we live to do everything in every way possible that will be to its advantage. Our neighbor's prosperity means a great deal more to us than someone's who lives elsewhere. We should bear this in mind in buying our goods.

DISTRICT CONVENTION OF WOMEN'S INSTITUTES.

Summerland has been selected as the meeting place for the first convention of Women's Institutes of the Okanagan Valley and vicinity. The gathering will be in session here for two days, September 2nd and 3rd, and delegates from eight Institutes, from Salmon Arm to Keremeos, will be in attendance. Three Institutes in this district have been but comparatively recently organized, namely those at West Summerland, Oyama and Peachland.

Mrs. W. V. Davies of Chilliwack, President of the Provincial Advisory Board, is expected to be present and may preside over the sessions. Hon. Wm. E. Scott, Deputy Minister of Agriculture, is also scheduled to be a speaker at a session which will be open to public attendance. The object of the convention is to provide opportunity for discussion on mutual Institute problems, and the interchange and development of ideas in connection with the work.

The Department of Agriculture has undertaken to pay the transportation and other expenses of one delegate from each Institute, and if other delegates are sent the expense must be borne by the local body.

The convention should accomplish much good in bringing closer together the Institutes of the Valley, and giving the movement some unity of aim and object, and consequently more solidarity.

Irate Parent—"No, sirree. You can't have her. I won't have a son-in-law who has no more brains than want to marry a girl with no more sense than my daughter has shown in allowing you to think you could have her."

DISAPPOINTED TROBADORS.

A travelling troupe of vaudeville performers are not likely to cherish any dear memories of their visit to the South Okanagan early this week. They came down the lake on the "Okanagan" on Sunday, and disembarked at Peachland, intending to put on a show there the following evening. They were unable to make arrangements, however, not being able to find a suitable hall, and decided to abandon their purpose.

The next idea was a show at Summerland, but feeling that to wait a day for the boat would mean that much time wasted the troupe—all men—decided to walk the distance. They reached here at such an early hour on Monday morning, that the proprietor of a local hostelry did not feel justified in welcoming them so long before dawn.

Some promiscuous twelfth-hour advertising was done during the day in an effort to stage a show at Empire Hall in the evening, but less than ten people presented themselves for the entertainment, and it was declared off.

The troupe has been following the practice of giving short notice performances at picture houses in towns along the main line, and the rebuff they suffered was in no wise because of a questionable program.

The regular monthly meeting of the Summerland Women's Institute will be held in the Men's Club on Friday, June 19th, at 8 p.m. The subject will be canning, preserving and pickling. Mrs. Davies of Nanaima will give a talk on pickling. Members will kindly respond to the roll call by giving a recipe such as: cold dishes for summer use, or for pickles, etc. The public in general are cordially invited to attend.

Accident On K.V.R.

At Mile Sixteen.

Five Men Suffer Injuries.

A Kettle Valley work train consisting of an engine, tender and caboose, became derailed on Tuesday afternoon shortly before five o'clock at Mile 16, near E. R. Faulder's pre-emption. The accident occurred while the train was backing down to Summerland at a point where the track has been scooped out of a hillside, and when the caboose and tender jumped the track they fell to one side, broke their couplings, and rolled down the steep embankment, though the engine was moving but slowly at the time.

There were twenty-six men in the caboose at the time, but fortunately only one, Morris Ferguson, was injured at all seriously. He jumped from the caboose when it left the rails, and sustained scalp and body wounds from the impact with the track. Four other workers suffered minor injuries, such as sprains and bruises. They were Charles Peterson, W. Patterson, Alex. Bazuff and Mike Czerik. The five men were removed to the Upper Trout Creek schoolhouse, which is close at hand.

Urgent telephone messages were sent first to Penticton to obtain medical aid for the sufferers, but the doctors in that town could not be located. Dr. Andrew was finally communicated with, and went out to care for the injured, who are all making the best of recoveries.

Rifle Association.

The second shoot for the Canadian Rifle League and Dominion Valver was held last Saturday, following scores leading:

	Rifle League	Salver
H. Dunsdon	96	95
G. Barkwill	93	93
O. Smith	91	90
G. M. Loomer	91	90
W. Nelson	89	88
J. Dunsdon	89	87
F. Nixon	84	84
M. Steuart	83	82
W. J. Smith	81	81

Conditions, 7 shots and a sighter at 200, 500 and 600 yds. There will be no shoot to-morrow, the next meeting being on 20th June, when the second stage of the Price Ellison Cup will be decided.

Concentrated effort back of the proper punch generally does the work.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

CHURCH NOTICES.

St. Stephen's Church (Anglican).—Holy Communion every Sunday at 8 a.m.; also at noon, after matins, every first Sunday in month. Matins 11 a.m.; evensong 7 p.m. each Sunday. Rev. H. A. Solly, B.A., Rector. Rev. D. E. D. Robertson, Curate.

Methodist Church.—Services: Morning, every Sunday at 10.30. Sunday School at 11.30. Evening, fortnightly at 7, alternating with West Summerland.—Rev. R. W. Lee, Pastor.

Baptist Church.—At West Summerland every Sunday at 10.30 a.m., Sunday School at 11.45. At the Lakefront Church 7.00 p.m., Sunday School at 11.45.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30, Sunday School, 11.30 a.m. Evening, fortnightly at 7 p.m., alternating with the Methodist Church. Rev. C. H. Daly, Pastor.

FEEL BETTER FILLED.

"Mamma, I've got a stomach ache," said Nellie Bly, aged six. "That's because you've been without lunch. Your stomach is empty. You would feel better if you had something in it." That afternoon the minister called, and in the course of conversation remarked that he had been suffering all day with a severe headache. "That's because it's empty," said Nellie. "You'd feel better if you had something in it."—Chicago News.

Summerland Fruit Growers' Association.

There has just been issued by J. Forsyth Smith, the Market Commissioner, a copy of which I would strongly advise all fruit growers to obtain.

This bulletin analyzes the prairie market, and gives complete lists of dealers in each section, the probable needs of each, in different kinds of fruit, and even the best way to take advantage of express and railway facilities. Join the Fruit Growers' Association and get these bulletins which are issued weekly during the shipping season. Membership fee \$1, payable to the Secretary, JNO. TAIT.

Express shippers can't be without them. Join at once.

Mr. Fruit Grower:

NOW is the time to contract for your season's crop. You'd better come in with us and have a share in the benefits of co-operative buying and selling.

Estimate as nearly as you can what you will have to sell and let us know, so we can secure a market.

OUR NARAMATA SECTION

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

MR. MASON BETTER.

The latest information of the condition of Mr. W. M. Mason who has been seriously ill, we are glad to state is that he is slowly improving. Mr. Mason who was in his usual health on Sunday, retired as usual but was seized with convulsions about 1:30 on Monday morning, and all day little hope was entertained of his recovery; each recurring convulsion seeming to be more than even his strong constitution could stand. Of these he suffered between fifty and sixty, but in the evening he rested easier and since then there has been an apparent improvement though he is yet scarcely conscious. Mr. and Mrs. Mason and daughter, Miss Emmie Mason, arrived here a little more than a year ago to visit their sons and daughters here. These are Mrs. Languedoc, Mrs. Ronald Smith and Messrs. Everard and Harold, and they have lately been making their home with the boys at their ranch near the railway line. The three have been planning returning to their home in the Old Country on August 9th.

NO ALUM

WEDDING.

ROUNDS—CHAMBERS.

The marriage of Mr. Howard Rounds and Miss Ruth Chambers was solemnized on the evening of Thursday, June 4th, at the home of the bride's mother, Mrs. George Cook. The ceremony which was conducted by Rev. J. F. Miller of Penticton, was very simple but impressive. After the ceremony a wedding dinner was served, following which the happy young couple proceeded to their new home just completed on Mr. Rounds' orchard property. Only relatives and immediate friends were in attendance. The sincerest good wishes of all Naramatans is extended to our young citizens.

 - TWEED HATS for Ladies, \$1.25 each.
- Any order for not less than \$3, and not weighing above 11 lbs. sent by Parcel Post inside the 20 mile radius FREE.

More Telephones.

Four more instruments were installed on Monday and Tuesday of this week by Messrs. Atkins and Thornber for the Summerland Telephone Company. The new subscribers are Hotel Naramata, Okanagan Trust Co., A. H. Mulford and Naramata Supply Co. The Okanagan Lake Boat Co. is also on the exchange. That this is only the beginning of what will soon be a considerable list of local telephone users seems evident from the attitude of a number of our bench citizens. Already several of these are enquiring as to when they can have telephone connection, and one man was heard the other day to express willingness to take a share of stock in the company if he might have telephone connection. He believed there were others who were willing to do likewise.

There is a certain demand which may take form in a proposition to the Trust Company that the electric light service be extended to the benches in the immediate vicinity of town, in which event there would be greater hope of having the telephone as well, as the poles might be utilized for both services.

In Real Estate Circles.

One of the most important real estate transfers that has been made locally for some time as the sale of the orchard commonly known as the Dagg property, and more recently the property of Mr. Max Wasserman of Winnipeg. The new owner is Mr. Schadek, of Campbell & Schadek, also of Winnipeg. Mr. Schadek visited Naramata a short time ago and inspected this and other properties. T. H. Boothe was the local agent for the vendor. The consideration is said to have been close to \$9,000.

The quarter acre home lot of H. Wolstencroft which he has occupied for some time was sold this week to A. Jacobson, a native of Norway. Mr. Jacobson and family who have been camping on the shore nearby will enter into possession of their new property at once. The price is said to have been \$850. T. H. Boothe made the transfer.

Paterfamilias, (reading doctor's bill): "Well, doctor, I have no objection to pay you for the medicine, but I will return the visits."

Current Events — OF — Town & District

Mrs. Dean Walters who has been quite ill is able to be out again.

Mrs. P. S. Roe and Miss Rose spent Tuesday afternoon in Penticton.

Mr. C. N. Martin of the K. V. R. construction was in town over last week-end.

Mrs. George Wolstencroft and her sister, Mrs. Cunliffe, were visitors to Summerland last Friday.

Mr. P. T. Doswell left for Victoria on Thursday where he has accepted a position. He will be joined later by his wife.

Dr. and Mrs. Lipsett of Summerland were the guests of Mr. and Mrs. J. M. Robinson at Hotel Naramata on Tuesday.

Walter Talbot, Tom Kenyon, and Roy Boothe, three of our young citizens, assisted the Penticton Band at Vernon on June 3rd.

Mr. Carroll Aikins returned from the Coast last week where he went to undergo a minor operation, which we hear was in every way successful.

Receiving news of the serious illness of her mother in Dewey, Montana, Mrs. W. E. Morsch, with her two youngest children, left for that city last week-end.

A number of evening trips were made last week by the ferry to Penticton to convey theatre-goers who wished to attend the performances of the Allen Players.

Mr. Stanley Wright, who for some time has been with Mr. Burnett's survey party, is now in Penticton and after a few days there leaves for Kamloops on Monday.

A carload of box-shooks was landed here on Wednesday by the tug "Castlegar" and barge. The shooks are for use in the local warehouse of the Summerland Fruit Union.

The blacksmith shop which has been vacant for a time, has been leased by Mike Finzel, who opened the shop for business on Tuesday. It is pleasant to again hear the ring of the anvil.

The concrete foundation for the new school house is now being formed, and the work is to be pushed so that the building may be ready for occupancy at the opening of the fall term.

The local Tennis Club, recently re-organized, have had their grounds put in good shape, and playing has been resumed. A successful dance was held in the hall last Tuesday evening, the proceeds of which were for the club.

As an evidence of the esteem in which he was held by our local Boy Scouts Rev. W. P. Bunt, who organized the troop and acted as Scout Master, was tendered a presentation by the boys immediately before his departure for the East.

Mr. and Mrs. J. M. Robinson, who have been staying at Hotel Naramata since their arrival in the Valley, and who will be joined later by their daughters, now in Toronto, plan on moving over to Summerland where they will spend the summer.

Five pounds of delicious wild strawberries were gathered on Monday by the Mesdames Manchester but a short distance beyond the site of the new school building. The berries, though small, were well ripened and of delightful flavor.

Rev. W. P. Willan, who succeeds Rev. W. P. Bunt as pastor of the Methodist Church, preached to fair sized audiences for the first time here on Sunday last. Mr. Willan's messages were very favorably received, and the church is hoping to derive much benefit from his ministry.

The junior baseball team played a return game at Penticton last Saturday with the Boy Scouts of that town. It was unfortunate that Naramata's catcher and one of the fielders were unable to play with their team and substitutes were necessary. A good game was played but our boys lost to Penticton with a score of 6-4. The team that same evening occupied the gallery at a performance of the Allen Players.

Mr. A. B. Richardson conducted both Presbyterian services at Summerland last Sunday.

Mr. Norman Alexander has been placed in charge of the Summerland Fruit Union's local warehouse for the season.

Special Saturday night excursions will be run fortnightly between here and Penticton for 50c the round trip, leaving here 7.15, going via Summerland. j21

Mr. and Mrs. R. C. Robinson and little daughter, Catherine, left this, Friday, morning for Silver City, Idaho. Mr. Robinson will there represent his father in a mining proposition which has every indication of being a remarkably successful venture. While at the mining camp Mr. Robinson will study mining engineering under the engineer in charge of the mine.

Concrete walks need no repairs

THEY are not only best at first but are cheaper in the end than any other kind of walk. They are clean, permanent and safe. There is nothing to become loose nor are they slippery. They improve the general appearance of a house and are a source of great satisfaction to every housewife because they keep children out of the mud, prevent colds from wet feet and prevent dirt from being "tracked in" on floors and carpets. Equally important is the fact that they never wear out and never need repairs.

This free book "What the Farmer can do with Concrete" tells all about concrete walks and how to build them, and a score of other things needed on every farm. Write for it to-day.

B.C.'s 1914 Fruit Crop Will Show Good Increase

R. M. Winslow Says Satisfactory Harvests Await Fruit Districts.

"The fruit crop for British Columbia for the year 1914 is now practically certain to exceed in quantity that of 1913 by about 25 per cent. Fruit crops generally will be heavy," declares Mr. R. M. Winslow, the head of the horticultural branch of the British Columbia Department of Agriculture. Mr. Winslow's statement is based on confidential reports from officials throughout the various fruit districts of the province.

Last year's fruit crop in the province weighed 27,760,000 pounds, and brought the growers a sum of \$1,033,000. This year's crop should mean that the fruit growers of the Okanagan particularly will have at least \$250,000 more to divide up than they did last year without in any way increasing the cost of the fruit to the consumer. Better marketing facilities to prevent wastage and dumping, and the reduction of freight rates under the recent order of the Dominion Board in its Western freight rates decision are also expected this year to bring benefit to the grower as well as to the consuming public.

Apples promise from a good to a very heavy crop throughout the province, says Mr. Winslow. A few varieties are more or less off-crop, but the total production will probably be 35 per cent. over last year. Pears are variable, but on the whole a medium crop. Peaches in the Southern Okanagan will be a fair crop, and medium to heavy crop in interior sections. Crab apples a heavy crop everywhere. Apricots will show a large increase over last year in the Southern Okanagan. Cherries are a medium to heavy crop throughout the interior. Preserving cherries will be a good crop on the Coast, but sweet cherries will be rather light here.

Marketing facilities are, on the whole, in good shape. The Coast cities will consume the great bulk of the Coast production at prices remunerative to the grower, and this year will see much larger shipments than any previous year from the interior to the Coast cities. In the interior marketing organization has been greatly strengthened, especially by the successful launching of the Okanagan United Growers a year ago. This organization will have more than 60 per cent. of the Okanagan crops, and is aiming at a very wide distribution. In other parts of the interior co-operative organizations are working with more or less success, though many growers feel that the time is ready for some such organization for the Kootenay as the Okanagan United Growers is for the Okanagan.

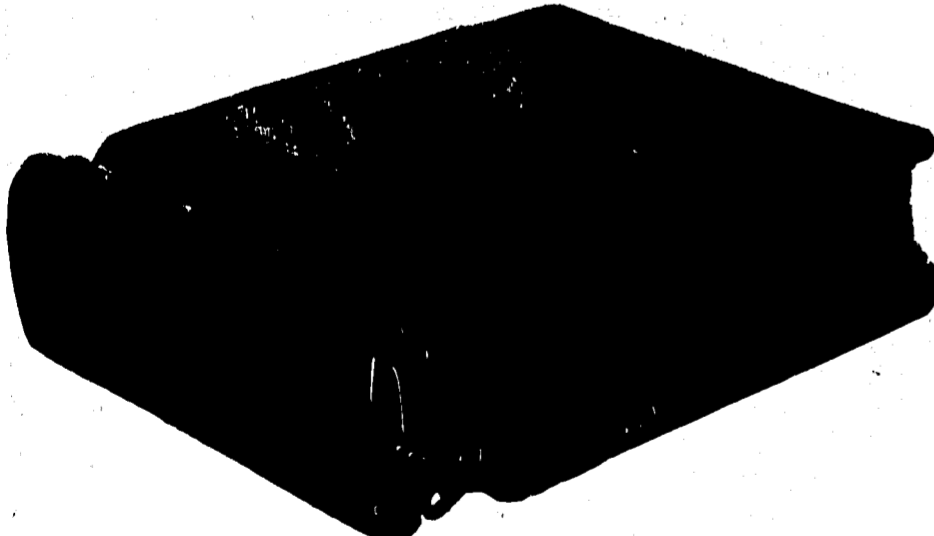

"Jimmy, your face is dirty again this morning," exclaimed the teacher. "What would you say if I came to school each day with a dirty face?" "I would be too polite to say anything about it."

A little city chap was offered a chance to spend a week in the country but refused. Conking, pleading, arguing, promises of untold wonders alike brought from him nothing but the stubborn ultimatum: "No country for me!" "Because," he responded, "they have thrashin' machines out there, an' it's bad enough here, where it's done by hand."

Throw Away That Makeshift

Passing Events: Social, Personal, &c.

Mrs. Geo. Ross and Miss Bena
Logie spent a day in Kelowna at
the end of last week.

Mrs. Chas. Hatfield of Kaledon
is spending a few days here at the
home of her son, B. L. Hatfield.

Mrs. Walker of Vancouver arri-
ved here on Wednesday evening's
boat and will spend some time
with her daughter, Mrs. R. W.
Deans, Upper Trout Creek.

The tap-tapping of hammers in
the Fruit Union building this week
tells of box-making activities now
going forward in preparation for
the big season's pack the Union
will be called upon to handle.

T. B. Turner, D.D.S., will on
Monday and Tuesday be at the
Dental Rooms formerly occupied by
Dr. Matheson. Appointments may
be made by addressing him at Post
Office Box 133 Summerland. j12

In the absence of her husband at
Victoria at provincial celebrations
of the B.C. Grand Lodge, I.O.O.F.,
Mrs. E. C. Graham and infant son
are visiting at the home of Mrs.
K. S. Kogg. Mr. Graham left at
the first of the week.

"Speak close into the 'phone
when talking to Naramata" is the
request of the telephone people.
While we may hear Naramata
clearly they cannot hear us unless
we talk much closer than is advis-
able when talking locally.

A beautiful, large, red, ripe
tomato was brought to the Review
Office on Monday by Prof. McIntosh
of the College. Mr. McIntosh and
Mr. Denton are growing early
vegetables under glass, and this is
a sample of their production. They
also made a shipment of cucumbers
to Vancouver on Monday.

Dr. F. W. Andrew left on Thurs-
day morning for Prince Rupert, to
attend Masonic Grand Lodge ses-
sions, travelling via the Coast cit-
ies, where he plans to stop off for
a short time. In his absence, his
practice will be cared for by Dr.
W. Kennedy of the Vancouver Gen-
eral Hospital, who came in on
Wednesday evening.

Two prominent C.P.R. officials,
Mr. W. B. Harris of Vancouver,
Car Service Agent, and Mr. O. C.
Walker, Inspector of Refrigerator
Service, have been visiting the
Okanagan, looking over the situa-
tion on the lake, particularly in
regard to the requirements for car
service which the fruit crop will
call for. They came in on Monday
night and left for Penticton on the
Tuesday noon ferry. The summer
car barge schedule has not yet been
definitely arranged.

On Thursday evening next, June
18th, a congregational Social Even-
ing will be held by St. Andrew's
Presbyterian Church. If the
weather is warm and pleasant this
will take place on the lawn at the
residence of R. H. English, other-
wise, in Elliott's Hall. No admis-
sion or collection will be charged,
but all the members and adherents,
of all ages, of the congregation are
cordially invited to come at eight
o'clock, and are expected to make
of it a thoroughly enjoyable even-
ing.

Mr. and Mrs. J. M. Robinson
who arrived in the Valley a few
days ago, have decided to remain
for the summer. The first breath
of Okanagan air and glimpse of
our wonderfully blue sky compelled
Mr. Robinson to re-adjust his plans
somewhat so that he might enjoy
the summer in what he considers
the fairest spot on earth. Later he
will be compelled to return to Tor-
onto to attend to his business there.
Already Mr. Robinson has sent for
his daughters to join them here
and the family will occupy the
ranch home once more.

The river boat "Mallard," owned
by the Southern Okanagan Naviga-
tion Co., after having a few minor
adjustments made to her machinery,
returned to the lower lake. It is
probable that the "Mallard" will
not be able to come above the rail-
way bridge which crosses the river
at Penticton until the water lowers.
The bridge has been placed at a
lower level than was anticipated,
and though special provision was
made in the superstructure of the
boat so that it might be lowered to
pass under the bridge, there has
been such difficulty experienced in
the last two or three trips that it is
probable another boat will be used
to make the trip to the bridge and
that the "Mallard" will continue
the trip from there to the Falls and
return.

Reeve Ritchie was at Vernon on
Wednesday.

Miss Miriam White has been
visiting friends in Peachland this
week.

Two car loads of cattle were
landed here this week for L. C.
Woodworth.

Mrs. A. L. Moreland and chil-
dren, now of Kelowna, are plan-
ning to come to Summerland next
week for a two weeks vacation.

After a visit of about two or
three weeks at Haleyon Hot Springs,
B.C., Mrs. W. C. Kelley returned
home on yesterday evening's
boat.

The Misses Babbitt returned
from Penticton at the first of the
week, after a visit there, Miss
Kathleen of about a week and a
half, and Miss Blanche over the
week-end.

Mr. Alex Bentley, formerly of
the Bank of Montreal here, came in
at the end of last week from Van-
couver to spend a vacation of about
two weeks renewing friendships in
Summerland.

Mr. Wallace with his daughter,
Mrs. Wismer and family are now
residing on their Garnett Valley
property. They came in from Van-
couver at the end of last week,
bringing some effects.

Mr and Mrs R. C. Robinson of
Naramata were about town on
Thursday bidding good-bye to
friends here before their departure
for Silver City, Idaho, where they
will reside for a time at least.

The Upper packing house has
been leased for the season from the
Summerland Fruit Union by Mr
Alex Stewart. Mr. Stewart and
his men are already at work mak-
ing boxes for the season's ship-
ments.

Presbyterian services will be
held both morning and evening in
St Andrew's Church. Professor S.
Everton of Okanagan College will
lead in the absence of the Pastor
who is expected to return next
week from the east.

Summerland and all the Okana-
gan were shocked upon hearing of
the sudden death of Mr. William
J. Curtis, who has been an ever-
welcome visitor among the towns
of the Valley for many years. Par-
ticulars of his death are contained
in our Peachland notes of this
number.

Mr. and Mrs. A. A. Wright arri-
ved from Renfrew, Ontario, on
Wednesday evening and are staying
with their sons, Wallace and Wal-
ter. Mrs. Wright visited Summer-
land some years ago, but Mr.
Wright has not been here before,
and expresses delight at his first
impressions of this locality.

Dr. T. B. Turner, a dentist, who
has been practising in Vancouver,
arrived here on Tuesday, and made
arrangements towards opening a
permanent dental office here. Dr.
Turner is hoping to find practise
enough here to keep him perma-
nently employed. As announced
elsewhere in these columns his office
which at present will be open two
days in the week, will be that
formerly occupied by Dr. Matheson.

Mr J. W. Eastham of Vernon,
pathologist for the Provincial Hor-
ticultural Department, spent Wed-
nesday and a part of Thursday here.
Mr Eastham also looked over the
district with Mr Cunningham about
two weeks ago. Interviewed by
the Review Mr Eastham said he
found practically all of the or-
chards of the district which he had
visited in a healthy condition. In
some of them there was some twig
blight, but in nearly every case
this seemed dormant. He had also
found a few cases of "dying back"
or winter killing which might be
due to one or more of a number
of causes.

The home of Mr. and Mrs. Wel-
lington Watson was the scene of a
very gay gathering on Wednesday
evening, when they were host and
hostess at a pleasant card party,
held in honor of Mrs. Watson's
sister, Mrs. Wilson, who leaves
next week with her daughter, re-
turning to her home in Montana.
Twenty guests played animated pro-
gressive whist games at five tables,
till shortly before midnight, when
the play gave way to the relaxa-
tion of dainty light refreshments
and social chat. Little Miss Lor-
one Wilson outlived the close of
the evening with two songs, and
the party broke up before midnight,
after a very happy time.

Mr and Mrs W. J. Robinson are
going to Vancouver where Mr Rob-
inson will be busy for the summer
months.

Divine services will be conducted
in the Methodist Church on Sunday
next at 10:30 a.m. and 7 p.m. by
the Pastor, Rev. R. W. Lee. A
hearty invitation is accorded to all.

Rev H. A. Solly arrived here on
Wednesday night, and is the guest
of Mr and Mrs Cooper, Ballycrystal,
Peach Orchard. Mr Solly will take
the services in St. Stephen's Church
on Sunday.

The annual recurrence of stories
of fruit stealing has commenced.
A resident of Jones Flat while not
begudging a few cherries does
most vigorously protest to the
wholesale stripping of the trees,
and also of their mutilation by
bark injury and breaking of
branches.

FOOLISH SAVING

A penny saved is not always a penny earned. Sometimes it is two pennies lost. The merchant who spends nothing on advertising loses much more than he saves.

The money spent for plate glass windows is not looked upon as lost; nor is the money spent on better interior lighting.

Anything that increases favor, that adds to sales that multiplies customers is very properly regarded as a good investment.

Advertising is a good investment—just as plate glass windows are. Advertising sells more goods to more persons than shop windows do.

A WORD TO THE PUBLIC

Do you resent having a merchant address his message to you in the form of an advertisement in our columns? On the contrary, is not your impulse to respond to his friendly overtures?

Shop Where You Are Invited to Shop

Peach Crop Injured.

The reports that the peach crop of the Niagara district had been seriously injured by the cold weather last winter led the Dominion Fruit Commissioner to send a representative to the Niagara district to investigate conditions. It was found that throughout the Niagara district the situation is a serious one. It is safe to predict that the crop of commercial peaches will be the lightest that has been harvested in twenty-five years.

The January frost was the cause of most of the injury, since a number of the buds had swollen during the previous six weeks. The cold spell in February also did damage. Throughout the Niagara peninsula the peach buds were greatly injured. In some orchards not a live bud could be found, and where there were any live buds they were on trees of no commercial value, or trees which had been protected to some extent from frost by proximity to water.

In the Essex peninsula the prospect is that a full crop of all varieties will be produced, though the acreage under peaches is as yet comparatively small. Planting is being extensively done, however, and in a few years the Essex peach crop will have an appreciable effect upon the market.

Alfalfa As Hog Pasture

Since economical pork production depends largely upon the consumption of a large quantity of cheaply grown feed, hogs should, when possible, be pastured on some clean, tender, and palatable forage crop, such as clover, alfalfa or rape. While the cost of pork production may be materially reduced in this way, it is desirable to feed grain or other concentrated feed in addition. Mature breeding stock may be maintained on good pasture, but young and growing hogs should receive additional food. Hog growers differ regarding the quantity of grain to be fed while on pasture, but a medium ration would be one that is equal to about 2 per cent. of the live weight of the hog while growing, and then a full grain ration when finishing. No hard and fast rule can be laid down for the supplemental grain ration, but not feeding any grain almost invariably results in a stunted hog. Mr. W. D. Lang, of Indian Head, Sask., who is doing illustration work for the Commission of Conservation, obtained the following results with hogs pastured on less than one acre of alfalfa:—

Sale of hogs	\$656.60
1/2 ton shorts	\$11.00
150 bus. oats	45.00
400 bus. barley at 40c	160.00
200 bus. wheat screenings at 50c.	100.00
	\$316.00
Profits	\$340.60

GROWING MELONS.

The most suitable soil for melons is a rich, warm, deep, sandy loam, having a southern or south-western exposure. The latter is to be preferred, as it gets the last rays of the sun, and the soil is thus warmed up for the night, and being sheltered from the northern and eastern winds, holds the warmth until the morning. This makes several days' difference in the ripening of the fruit, which may be equivalent to quite a sum per acre in the value of the crop.—John Gall, Inglewood, Ont.

A chimney sweep's boy went into the baker's shop for a two-penny loaf, and conceiving it to be small, remarked to the baker that he did not believe it was weight.

"Never mind that," said the man of dough. "You will have the less to carry."

"True," replied the lad, and throwing three half pence on the counter, left the shop. The baker called after him that he had not left enough money.

"Never mind that," said the sooty, "you will have the less to count."

Teacher: "You must not come to my school any more, Tommy, until your mother has recovered from the smallpox."

Tommy: "There ain't a bit of danger. She ain't going to give me the smallpox." "Why, how is that?" "She's my step-mother; she never gives me anything."

A physician has discovered that the gall of a rattlesnake will cure its bite. Pity the same thing isn't true of a book agent.

Kill The Roosters.

Eggs which have been fertilized constitute the greatest proportion of the inferior stock which, when examined, proves unfit for food. It is not necessary that these shall have remained for a time under a broody hen, a temperature of seventy degrees being, in itself, sufficient to cause the germ to commence to grow. If the heat is constant the development of the chick will continue, but if it ceases, or is intermittent, putrefaction at once sets in and the egg becomes bad. On the other hand infertile eggs which are free from the active germ cell, do not, under ordinary conditions, deteriorate seriously.

Few farmers seem to realize these facts, and consequently very few make any effort to insure infertility.

The impression prevails among many, that the presence of the male bird in the flock is essential to the production of a maximum number of eggs. This assumption has been proven, time and time again, to be absolutely without foundation.

Farmers and others selling eggs for market are recommended to kill off or dispose of the male birds after the breeding season. As a result of their remaining with the flock after June 1st, Canadian farmers lose each year at least a million dollars, through the presence of partially incubated eggs in the produce which is marketed. The fact that the best trade in many cities in Canada now offers the premium of from one to five cents per dozen, for non-fertilized eggs, suggests an additional financial consideration which but few can afford to overlook.

ONE OF MARK'S JOKES.

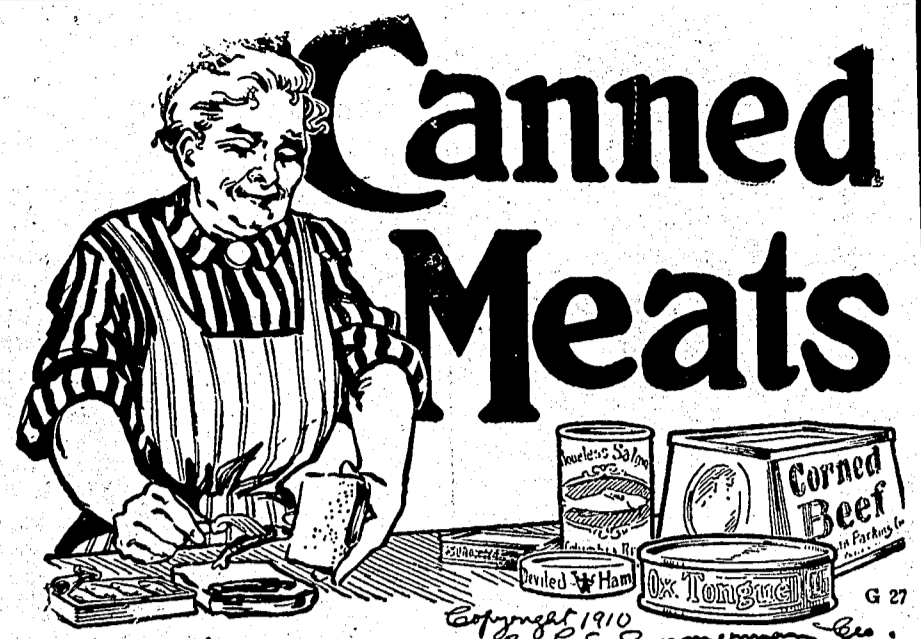

"I enjoyed your sermon very much this morning," said Mark Twain to a clergyman of his acquaintance. "I welcomed it like an old friend. I have, you know, a book at home containing every word of it."

"You have not," said the preacher.

"I have, indeed," returned the humorist.

"Well, send that book to me. I'd like to see it."

"You shall," Mark Twain replied. And he sent next morning an unabridged dictionary to the minister.

Why Worry About Lunch?

A LOOK over our canned goods will chase away your trouble for ever. All kinds of tempting canned meats and fish are carried by this store in great variety. We sell quickly and never have old stock. Consequently you are sure of that fresh natural taste - combined with the appetizing flavor caused by canning - in every brand. Those meats are delicious - as kept and sold by us. Canned and retailed under the Government Pure Food act.

O. VAUGHAN

GROCEER & COMMISSION MERCHANT

Debts and Debtors

If we give a merchant our custom, we have a right to expect him to advertise--to tell us weekly in the columns of the REVIEW what he has for us. Advertising is shop news, designed to inform us, save our time, and bring to our attention desirable merchandise.

Every retailer who is alive to the interests of his customers has a message--often many messages--for his customers concerning new goods, special offerings, and things that we ought to know about. Customers and non-customers will be attentive and responsive to these messages, if they are delivered every week in the form of advertisements in the REVIEW. The way to get more business is to ask for it.

A NOTE TO MERCHANTS

Would YOU buy much or regularly from firms that never solicit your trade? Do you not say - "The firm that wants my business must come after it?"

Yet some of you say, in effect, to your customers--"We're here. If you want our goods, come and get them, but don't expect us to go after you." It's a poor rule that doesn't work both ways.

**THREE COUNCIL MEETINGS
WITHIN A WEEK.**

[Continued from Page 1.]

**A FORECAST OF THE
TAX RATE.**

By-law No. 61, to fix the tax rate
for 1914 was given its preliminary
three readings, but full discussion
as to the tax levies will be given at
the next Council meeting. Fifteen
mills on the dollar was the rate
suggested in the preliminary read-
ing of the by-law, the additional
mill over last year being necessitat-
ed in the debenture tax which must
be raised to five mills. The Reeve
pointed out the necessity of keep-
ing the tax rate down to the lowest
possible minimum, but it is a ques-
tion whether the municipal tax at
six mills will cover all the expendi-
tures that seem essential under
that head. This will transpire at
the next meeting. Coun. Stark
expressed the opinion that work
was necessary on some of the main
roads before the hauling of fruit
began. The Town pipeline im-
provement may also call for some
special provision.

A number of domestic water ap-
plications were dealt with.

ACCOUNTS PASSED.

A heavy list of accounts, approv-
ed by the Finance Committee, were
passed totalling \$9350.79, details
of which will be published next
week.

**400 ACRE BLOCK FOR
EXPERIMENTAL FARM.**

The laws and rules governing the
surveying of lands in the Indian
Reserves having been decided upon
to the satisfaction of all, the work
on that portion of the Reserve
which the Federal Government is
acquiring has been again resumed.
Since Tuesday morning Mr. J. A.
Kirk, B.C.L.S., has been busy lay-
ing out the 400 acres of Indian
Reserve immediately south of Trout
Creek for the Dominion Experi-
mental Farm. There will be 200
acres of choice land between the
K.V.R. and the lake which will be
put under irrigation. The other
200 acres above the track will be
utilized for grazing purposes. The
Department has asked Mr. Kirk to
hurry the work as, though it is too
late to do any planting this year,
they are desirous of having the
buildings erected at the earliest
possible date and to have every
thing in readiness for the laying
out of the plots and preparing the
ground as far as possible this fall.
The north boundary of the farm
will not follow Trout Creek as at
first supposed rather the lot will
be placed so as to contain the lar-
gest possible amount of desirable
ground.

BOY SCOUT CONCERT.

An entertainment is to be put on
at Empire Hall next Friday even-
ing, June 19th, which deserves the
widest local support. Few local
movements deserve the encourage-
ment that the Boy Scouts should
have, and the concert next Friday
in aid of the Scout Camp Fund
should draw a crowded house. The
boys are putting on several attrac-
tive items, including an attack on
a camp at night in miniature, and
special physical drills. Music and
recitations, provided by local talent
will also be a feature of the pro-
gram. Admission will be at the
popular prices of 50 cents and 25
cents. The program commences at
8 p.m. It is probable that for the
annual camp week usually held in
July, the local troop will be joined
by the Kelowna troop, giving ex-
ceptional interest to the week un-
der canvas. Fuller particulars of
the camp will be announced later.

OBITUARY.

WALTER HEWITT.

Although a sufferer for more
than two years from the inroads of
tubercular disease, it was not antici-
pated that death would so soon
claim Walter Hewitt, the fourteen
year old son of Mr. and Mrs. J.
Hewitt, of Jones Flat. The young
sufferer passed away on Monday
afternoon. The family came here
from Vancouver last year hoping to
prolong his life, and though it
seemed at one time that the change
brought some benefit, it was not to
be lasting.
The funeral was held on Tuesday,
Rev. Norman McNaughton conduct-
ing the services. Interment was
made in the secluded God's Acre in
Peach Orchard.

Mrs M. M. Robinson, Mrs Gray,
Miss Alice McDougall and Miss
Lillian Robinson spent Thursday
afternoon at Hotel Naramata.

Kaleden Comments

On Wednesday, June 3rd, a son
was born to Mr. and Mrs. Leonard
Preston, only living a few hours.

School was closed on the 3rd,
and Mr. J. F. Tupper spent the
day with his wife and family in
Penticton.

Mrs. Chas. Hatfield went up to
Summerland on Saturday last vis-
iting her son, Mr. Burton Hat-
field, and other friends.

The meetings in connection with
the Baptist Church which were held
on Tuesday evenings have been dis-
continued for the summer months.

The meeting of the Women's Mis-
sion Circle of the Baptist Church
was held in the church on Wednes-
day afternoon, June 10th, at three
p.m.

Strawberries are coming in, and
other small fruits beginning to
ripen of different sorts which will
give a good supply to the people
living here.

A service for the members of
the Anglican Church was held last
Sunday morning at 11 a.m., Mr.
Hughes, the student in charge,
officiating.

An excursion was made by the
"Mallard" to the Falls on the 3rd,
when sports of various kinds took
place, and there was a good at-
tendance from northern points.

Peachland Notes.

Misses Annie and Bessie Seaton
spent Sunday in Kelowna.

Thompson Elliot spent the latter
part of last week in Vernon, called
thither on the petty jury.

Reeve Hardy took in the King's
birthday celebration at Vernon on
Wednesday, and visited Kelowna
and Summerland on the way home
returning here on Saturday morn-
ing.

Mr. and Mrs. Leakey of Duncan,
Vancouver Island, who have been
travelling in England for almost a
year are now on their way home
and are visiting Mr. and Mrs.
Thorne at Deep Creek.

The Women's Institute held its
regular meeting on Tuesday after-
noon, Mrs. Aikins and Mrs. Seaton
showed how to handle a helpless
patient and gave several hints
about clothing and other things.
Dr. Buchanan also assisted in the
demonstration.

On Wednesday Mr. and Mrs. W.
M. Little, with their son and
daughter Miss Kathleen and Master
Wilbur, arrived in their motor
from Wenatchee, Wash., and are
occupying the W. A. Lang house
for a couple of weeks. Peach-
landers are always pleased to wel-
come Mr. and Mrs. Little back as
they were general favorites when
they lived here eight years ago.

The sudden death of Mr. W. L.
Curtis of Vancouver on Friday came
with a shock to his friends here.
He had been in town for a few
days tuning pianos and had gone
to spend the evening with Mr. Seth
Davidson, an old Winnipeg friend.
Shortly after getting there he fell
dead on the floor. Assistance was
at once given but his spirit had
fled. His daughter came in on
Sunday evening from Vancouver,
where the body, which had been
embalmed, was taken on Monday
morning. Mr. Curtis had gone
about for 30 years practising his
profession, and made friends every-
where he went. His wife and
daughters have the sympathy of all
in their bereavement.

In spite of the rain on Wednes-
day the program of sports was car-
ried out successfully, the young
people entering each competition
with zest. The tug of war between
two teams captained by A. Town
and S. Michael caused a great deal
of merriment, and was won after
a hard pull by A. Town's team.
About four o'clock the College base-
ball team arrived and all repaired
to the diamond, where some lively
playing was done; but from the
beginning the visitors showed that
they were like wax in the hands of
the "Jibs" the euphonious title by
which our town team is known.
We presume that they met their
"Waterloo" on the 3rd. The score
was 13-2 in favor of Peachland.
Fruit of the finest quality is not
the only thing Peachland can lend in;
climate, environment, sport, etc.,
are all of the very best. The
day wound up with a concert in the
hall, followed by a dance which
was kept up until daylight.

The railway commission sits on
Tuesday of next week at Penticton,

INCEPTION OF PASTORATE.

Rev. Norman McNaughton com-
menced his pastorate of the Baptist
Church very auspiciously on Sunday
last, by preaching two eloquent and
practical sermons to large congrega-
tions. The day made a striking
inauguration to what it is hoped
may be a long and successful pas-
torate here.

This evening—Friday—a social
gathering in the Lakefront Baptist
Church will take the form of a
congregational welcome to Rev. and
Mrs. McNaughton. This gathering
is to embrace both sections of the
field, and all are cordially invited
to be present.

FOR SALE—Horse, weighing
1050 lbs. T. B. Young.

Mrs. Thompson of Kelowna is
visiting at the home of her moth-
er, Mrs. D. Watson, Senr., com-
ing down on Thursday evening.

While watering the lawn yester-
day afternoon Mrs. D. Watson,
Senr., had the misfortune to trip
and fall, breaking three ribs. Her
many friends will wish her a speedy
recovery.

A motor party from Kelowna,
including Miss Thompson and Miss
Watson until recently residents
here were guests at the home of
Mr. and Mrs. D. H. Watson's last
Sunday.

Mrs. Bruun of North Vancouver,
is registered at Hotel Summerland.
Miss Bruun is, we are informed,
looking over the district for the
purpose of making a choice from
among several properties offered
her. If suited Mrs. Bruun will
come here to reside.

B. A. Moorhouse, C.E., of Pen-
ticton, has been advised to go to
England for a complete change and
rest. Many of his Summerland
friends will know of his accident
last November from which he has
not yet recovered. Complete rest
for his leg is essential this summer.
Mr. and Mrs. Moorhouse leave the
Okanagan on the 20th Inst. and sail
by the White Star Liner "Tou-
tonic" from Montreal on the 27th.
They expect to return about March,
1915. Mr. Moorhouse asks his
clients to refer to Messrs. Dufrosno
& Barton of Penticton, who are
attending to his business during his
absence.

LOCALS.

Beginning to-morrow, Saturday,
night the Okanagan Lake Boat Co.
propose running fortnightly Satur-
day night excursions direct to Pen-
ticton, leaving here at 7.30, re-
turning about 11 o'clock. A spe-
cial fare of 50c. should make this
trip popular. j12

Right-of-way Agent Logie of the
K.V. Railway was in this section
interviewing owners of land along
the route. The railway company
has not yet settled for the land
used in construction, and the own-
ers feel that they should be paid.—
Star, Princeton.

Four double teams conveying
supplies and other material to the
McDougall railway construction
camps in the vicinity of Princeton,
made quite an animated scene on
Shaughnessy Avenue at Thursday
noon-time, when they made a brief
break in their long trek from Pen-
ticton.

The new Canadian Pacific steel
passenger steamer, "Seamouse,"
is making its initial trip down the
lake to-day. The boat was at Kel-
owna shortly after noon, and later
called at Peachland. She was ex-
pected to call here about three
o'clock this afternoon, but as rain
was coming down heavily just then
she continued on by.

It is now possible to get a good
idea of the imposing form the new
Hospital building will take. The
framework is up, the chimneys have
been built, and shingles are now
being laid on the roof. Contractor
Tomlin is pushing his work with
all speed, and there is little ques-
tion but that the building will be
ready for occupancy in August.

Not a single day in the month of
May was there when Old Sol did
not shine forth some rays into the
sunshine registering apparatus in
Prairie Valley. During the entire
month the total sunshine amounted
to as much as 272 hours, an aver-
age of but very little less than nine
hours per day for the entire thirty-
one days. This gives another evi-
dence of the constancy and regular-
ity of the Okanagan climate. In
spite of the warm days the Weather
Report on page 7 shows that the
nights were, without exception, cool
and refreshing. The report is well
worth a deal of study.

Trading Summerland orchard
property for prairie farm land is
an active form of real estate busi-
ness just now. The latest transac-
tion will probably reach consum-
mation very soon in the exchange
of the ten acre orchard of the late
Arthur Doldge on Jones Flat for a
480 acre farm near Qu'Appelle,
Sask. If the deal goes through,
John Doldge and Mr. and Mrs.
Martin Bonavia may remove thence
and the Saskatchewan farmer would
come to Summerland to reside.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

SUMMERLAND, B.C., JUNE 19, 1914.

Whole No. 307

Nearly A Drowning Accident.

Scout Gallantry Averts Fatality.

But for the persevering bravery of a Summerland Boy Scout, a young life would have been lost by drowning on Sunday afternoon last. Little Ralph Sculthorpe, about four years old, was playing on the government wharf with other children, including his brothers and sister, being at the time of the occurrence around the scow belonging to the Okanagan Lake Boat Co., which is moored to the wharf. It is said the children were pushing the scow as far away from the wharf as the rope would allow, and enjoying the swing back. After a time in the course of this amusement little Ralph fell between the scow and the wharf. Scout William Snow was in his bathing suit on the scow with a number of others, mostly dressed, and he pluckily dived down in an effort to save the child. His first attempt was not successful, but urged on by Scout Master Jno. Tait, Snow made a second dive, and located the drowning child who had by this time drifted about half way under the wharf. The little boy had evidently made some child-like efforts to keep afloat, for although he was in the water for nearly five minutes, Dr. Kennedy, who was brought to the scene, had little difficulty in expelling the water from the little fellow's lungs and soon he was walking home again, perhaps a little more soberly than usual.

Steps are being taken among the officers of the local Boy Scout Troop to have the official recognition of the Provincial parent body given the bravery of Scout Snow, by awarding him the silver medal for life-saving. Assistant Commissioner Heneage while in town this week gathered particulars of the occurrence and these will be given due consideration.

It is interesting to note that Scout Snow was first taught to swim at the annual camp of the troop two or three years ago. This concrete evidence of the usefulness of scout training should convince many of the good work which the movement is accomplishing not only for the boys themselves but for the community at large, in making them equal to the emergencies which are constantly springing up in life.

Railway Notes.

There are now one thousand men working on the grade between Oprey Lake and Princeton. With this force of men, together with six steam shovels, good progress is being made, and it is stated that more than one-third of the grade of this 80 mile stretch has already been done.

Now that part of the K.V.R. route between here and the Coast will be over V.V. & E. steel, equal interest in the progress being made by both lines in their westward march will be maintained here. The K.V.R. will run on to V.V. & E. steel at Princeton through which the Hill line now extends westward to Coalmont. Much of the grading between Coalmont and Otter Summit has already been done, and steel is now moving up to Coalmont for laying along that section. As has been before stated in these columns it is near the end of this part of the work, namely, at Coldwater Summit, that access to the C.P.R.'s branch connecting at Spence's Bridge will be had.

Good progress on the grading of the joint line through the Coquihalla Pass is being made, the weather having been very favorable. According to the statement of one of the contractors, however, grading will not be all complete till January, and with two large bridges to be built, one at Ladnor Creek, the other at Boston Bar, track laying will be delayed till midsummer of next year. This, of course, does not mean that there will be no train connection with the Coast till then as in the meantime the Spence's Bridge route may be used.

Composure under provocation is the best weapon with which to keep an enemy at bay.

LADIES' HOSPITAL AUXILIARY.

Now that the hospital is soon to be re-opened in a new and regulation hospital building the ladies of the Hospital Auxiliary who have always been most active in matters pertaining to the institution, have taken new heart, and a much more general interest in hospital matters is apparent.

The regular monthly meeting of the Auxiliary was held at the home of the President, Mrs. Lipsett, where considerable business was transacted and plans for the future considered.

Returns showing a net profit of \$105 from the refreshment booth operated by the ladies on Empire Day was received with general satisfaction, and arrangements were made for the purchasing of linen and similar hospital requisites.

The ladies will reassemble on the 30th at the home of Mrs. Hanington for the purpose of hemming and doing other necessary sewing.

The resignation of Mrs. Angwin from the House Committee was accepted with regret. Mrs. E. B. May was elected to fill the vacancy.

The ladies visited the new hospital building during the afternoon and were delighted with both the site selected and the promising appearance of the building which is now in such shape as to show the general lay-out.

A Peculiar Mishap.

Mrs. W. Estabrook Sustains Painful Injuries.

On account of advancing years her many friends were greatly perturbed at the news of the accident which befel Mrs. W. Estabrook late on Friday night of last week, while returning from the social gathering held at the Lakeside Baptist Church.

She was being driven home in company with Mrs. J. J. Blewitt, by her son, Mr. H. G. Estabrook, and the mishap took place close to her own gate. The rig had been driven past "Brookdale" to Mrs. Blewitt's home, and the horse was turned and drawn in to the side of the road. Mrs. Blewitt had safely alighted, when the automobile of Mr. Jas. Ritchie with several passengers was seen approaching at a fair speed. Mr. Estabrook gave his attention to the horse, but the animal was not disturbed by the glare of the headlights. Just when the car was passing, however, the horse took a few steps forward, and brought the axle in contact with a stump not seen in the darkness. The rig was brought to a standstill, but from the horse's continual pull the shafts and cross-piece gave way, sending Mr. Estabrook forward into an extremely precarious position, and jerking Mrs. Estabrook sideways from the rig between the wheels. Had the horse not remained quiet and obedient at this critical time, there would probably have been one, if not two, fatalities to chronicle. Mr. Ritchie had seen something was wrong, and held the horse's head while Mr. Estabrook extricated himself, and went to the assistance of his mother. It was apparent that she was somewhat severely hurt, and she was assisted at once into Mrs. Blewitt's home. Dr. Kennedy was summoned, arriving after some time in Mr. G. N. Gattrell's automobile. He pronounced the injuries to be a fractured shoulder bone and broken wrist. Opiates were administered, and the following morning the bones were set under anaesthetics, with the assistance of Dr. W. I. Robinson of Naramata. On Saturday evening the patient was removed to her own home, where she has since been resting quietly. Mrs. Estabrook's strong constitution has stood her in good stead in withstanding the shock, and with no seeming danger from complications, she is making as good a recovery as can be expected.

Mrs. Wilson and daughter brought a pleasant visit of about a month in Summerland to a close on Tuesday morning, when they left on the return journey to Livingston, Montana. Mrs. Wilson has been visiting at the home of her sister, Mrs. Wellington Watson. Several small tea parties were given during the week-end in honor of Mrs. Wilson.

Learns Workings of United Growers.

Deputy Minister Scott Accompanies Manager Robertson Through Valley. Pleased With Orchard Conditions.

The general condition of the orchards of the Okanagan are as a whole very satisfactory, according to the Hon. W. E. Scott, Deputy Minister of Agriculture, who has been touring the Valley.

Mr. Scott finds the orchards generally in good condition, practically free from pests with but little disease. Fire blight, which did considerable damage last year to trees and fruit, is not nearly so prevalent this season, due, the Deputy Minister attributes, to the thorough way in which the orchards were cleaned up last year. Where blight has shown this season it has been confined almost wholly to blossoms or twigs.

Hon. Mr. Scott in contrasting the condition of the orchards of the Okanagan with those to the south of the boundary line, where in some sections great havoc is being done by fire blight, is naturally disposed to congratulate himself and his department on their vigorous campaign last year against this serious tree disease, and he is confident that if all orchardists will do their duty in keeping their orchards clean and removing any trace of

blight immediately upon its first appearance that our Valley need have no great fear of this disease so dreaded in many parts.

When asked of crop conditions throughout the Valley the Deputy Minister said that they varied considerably between different localities. While the cherry crop was rather light in the southern end of the Valley, it was good at the northern end, improving gradually as one proceeded northward. Plums, prunes, etc., are also bearing heavily in many sections. An all round good crop is anticipated in practically all lines of fruit and vegetables.

The purpose of Hon. Mr. Scott's visit to the Valley is to get first hand knowledge of the working of the United Growers and all the affiliated local unions that are now working under the financial assistance of his department. Mr. Scott was in a very optimistic mood regarding the co-operative movement, and looks for increased and continued prosperity for our Valley. Mr. Scott was accompanied on his round of visits by Mr. Robertson, Manager of the United Growers.

Good Market For Sun Dried Fruits.

Will Start New Industry, Says Official.

(From Vancouver Province).

As an outcome of the successful experiments made last summer in drying fruit, and of the bumper crop this year, a new industry has been added to the province. This year, preparations have been made to inaugurate in the fruit districts the production of dried apricots and peaches, large quantities of which have hitherto been imported from California to take the place of fresh fruit in the winter months.

Under the supervision of Inspector W. H. Lyne, who has had extensive experience in the production of dried fruit, the experiment was tried last summer of sun-drying a quantity of ripe peaches and apricots in the Okanagan Valley. The fruit, which was then in the pink of ripeness, would have been overripe by the time it could reach a Coast market. The experiment turned out a complete success, the product being equal to the finest dried fruit produced in California. To ensure a complete test, the fruit was boxed and has been allowed to remain untouched in the fruit inspector's office at the courthouse until last Saturday, when it was opened up for inspection. It turned out as good as the day it was put in, and would remain so for years.

RETURNS FROM PRAIRIE VISIT.

When asked just what the selecting of his orchard by the Provincial Government as a demonstration plot meant, Mr. J. L. Hilborn explained to the Review that any person may at any time go and inspect his work, and if any information is required of him he is expected to impart it. He is also required to be ready to give any advice and aid that is reasonably within his power. Accurate records of all costs must be kept, and he is to ascertain which crops are most profitable.

Mr. Hilborn, who has just returned from a trip to Edmonton and Saskatoon, which cities he visited for the purpose of concluding marketing arrangements, brings back news of excellent crop conditions all over the prairies. The season is within a very few days of being as early as last year, which was a very early season, and rain has been more general, resulting in a better average crop condition. Although business in the cities is very dull, Mr. Hilborn says there is a big demand for all lines of orchard products, and he looks forward to a constantly increasing market for early vegetables, and fruit. The first ship-

ment of the growers this year," said Mr. Lyne, "to sun-dry the fruit which has ripened on the trees, and which would over-ripen if shipped to the Coast. They will also be able to dry their fruit in the event of congestion on the fresh fruit markets and a drop in prices to the growers."

The process is a simple and inexpensive one, and the market for dried fruit is a steadily growing and remunerative one for the grower.

The process requires that the fruit fully ripen on the trees in order to develop all the sugar qualities. The fruit is split and stoned, exposed to sulphur fumes for a short period, and then dried out by the rays of the sun.

Hitherto the growers of peaches and apricots have had to face the fear that their crop might ripen at a time when a bad market condition had been brought about, in which event they had no alternative to the risk of shipping except to allow the fruit to rot on the trees. The enormous importation of Californian dried fruit into the province show that there is a good market at home for all the dried fruit that the fruit growers of this province can produce.

LOCAL MARKET.

This week has seen the height of the strawberry season, but at no time has the supply been equal to the demand. Quite a quantity have been imported from other Valley points. The last of the strawberry crop is likely to be overlapped by the raspberries which are now ripening rapidly.

Currants are also making their appearance, while green peas and early cabbage are about due. New potatoes are being used from a few gardens, but none are yet being offered at the stores.

Neither veal nor spring lamb are to be had at anything like reasonable prices. Eighteen cents is the carcass price of the first, while lamb is said to retail in some of the large centres at 40 to 50 cents per lb.

Both radishes and spinach are now practically off the market. Apples, scarce, per lb. 5c. Cabbage, per bunch 5c. Peas, green, per lb. 15c.

Most of the season are being made from his ranch to-day, including cauliflower, cabbage, peppers and cucumbers.

WOMEN'S INSTITUTE PICNIC.

The opportunity for a pleasant afternoon outing and a trip on the enticingly calm lake afforded by the invitation of the Penticton Women's Institute to picnic on the shore of their town, induced about thirty-five ladies of the two Summerland Institutes to take the trip by the "Skookum" on Thursday afternoon, and in addition about ten others drove down.

The boat left Summerland shortly after one o'clock, and the trip to the foot of the lake was all too short under a sun that shone forth with full June zeal. Representatives of the Penticton Institute met the visitors at the end of their journey, and the party was conducted to very pleasant picnic grounds on the beach. The afternoon was whittled away by some games, telling stories, and exchanging confidences. A visit was also paid to the new Aquatic Club building. Tea was a delightful a fresco meal which did the entertaining Institute very great credit, and the visiting ladies at the same time did full justice to the dainty fare. The "Skookum" reached the home wharf on the return trip soon after seven o'clock.

BOY SCOUTS.

Special interest attached itself to the Monday evening gathering of the Boy Scouts in Ellison Hall, Peach Orchard, by the presence of the Provincial Secretary and Assistant Commissioner of the Boy Scout Movement in B.C., Mr. Heneage. Arriving on Monday evening's boat, Mr. Heneage was driven round to the Scout headquarters by officers. He is touring the province in Scout interests, and though he has already visited Summerland two or three years ago, he did not at that time have the opportunity of reviewing the local troop on parade, in uniform.

The boys went through their usual drills very smartly, and also practiced some gymnastic turns for the Scout Concert on Friday evening.

After an inspection Mr. Heneage was given the opportunity of addressing the troop. He piled the boys with questions on Scout aims and law, and tested them on their practical knowledge of knots, ambulance work, and other features of training. The troop, as a whole, stood the tests very satisfactorily, giving themselves a good standing. Mr. Heneage also mentioned the instance of bravery shown by Scout Snow on Sunday last, which had come to his notice, showing how credit was reflected on the whole troop. He promised that he would personally investigate the facts, and see that the deed of the young life-saver was given due prominence. Responding to his call, the troop gave three ringing cheers for Scout Snow.

They met on Wednesday and Thursday evenings to put in further practice for their concert. A good performance may be looked for from the troop, and a goodly nucleus for the camp fund should result if the entertainment gets the support it merits.

LAWN SOCIAL.

Bright with electric lights specially strung for the occasion, the large lawn of Mr. and Mrs. R. H. English was the gathering ground for a large party of about sixty members of the Presbyterian church and congregation, for an outdoor social gathering on Thursday evening of this week. The more active occupied the centre of the lawn with various games, while others lined the edges of the grass, enjoying the coolness and freshness of the evening breezes after a hot day. Very tasty refreshments were provided, adding much to the enjoyment of the gathering. An evening of unmixed pleasure passed quickly, and the company dispersed after Mr. Hector Sutherland had voiced their sentiments of indebtedness to the host and hostess for a delightful evening, to which Mr. English made suitable reply. Rev. C. H. Daly also spoke briefly, expressing the hope that there might be instituted a monthly gathering of similar kind during the summer months. Formed into a large circle the guests sang "Auld Lang Syne" before parting.

Rev. N. McNaughton Given Warm Welcome.

Cordial Gathering Greets New Pastor.

If the warm atmosphere of heartiness which was manifest at the congregational gathering last Friday evening in the Lakeside Baptist Church to welcome Rev. and Mrs. Norman McNaughton and little Douglas, may be taken as an augury of Mr. McNaughton's coming ministry here, success will certainly attend his pastorate. Representatives of the sister churches in Summerland were present, and a large contingent of Naramata folk also formed part of an audience that well filled the spacious building.

The ladies had been busy with flowers, and made most pretty and effective decorations around the platform. Clusters of cut roses, the green of the wild rose, and other blooms gave at once color and fragrance to the church.

Friends were greeted at the door, introduced to the new pastor and his wife by ladies of the church, and an informal hour of sociability was enjoyed until about nine o'clock. Rev. S. Everton called the gathering together for the more formal portion of the evening's program, which consisted of some short speeches and music, opened by prayer offered by Rev. W. P. Willan of the Naramata Methodist Church.

Mr. Everton made a genial chairman, and called upon the various speakers, after a few words of introduction and explanation.

Mr. R. H. English first spoke on behalf of the Presbyterian Church, regretting that the pastor of his church could not be present in person to welcome his brother minister. Rev. R. W. Lee conveyed the greetings of the Methodist Church to Mr. McNaughton in a hearty speech, assuring him that the two churches were not so far separated as to be unable to give each other co-operation. On behalf of Mr. McNaughton's own church representing the deaconate and the Parkdale and Lakeside sections respectively, Dr. J. P. McIntyre and Mr. F. A. Williams also briefly extended a welcome to their pastor. Mrs. T. N. Ritchie, in an able speech, gave Mr. McNaughton the greetings of the Women's Mission Circle of the Baptist Church. Dr. Sawyer, for the College, welcomed Mr. McNaughton to the great opportunity for work among the student body, and Mr. G. J. C. White spoke for the Parkdale Sunday School.

Mr. McNaughton was unfortunately hampered by a heavy cold, but in a few well-chosen phrases he thanked the gathering for the many kind expressions of welcome.

Interspersed among the speeches were three well-rendered solos, "Face to Face," by Miss Helen Sawyer, "A Perfect Day," by Miss Myrtle Clay, and "The Gift," by Mrs. Geo. Ross.

Bountiful refreshments had been provided by the ladies, and with tea and coffee were served at numerous tables scattered around the church. The opportunity for pleasant social intercourse was taken full advantage of and greatly enjoyed by everyone. The gathering dispersed about half past ten after a very happy evening.

MRS. HILBORN RECOVERING.

Friends of Mrs. J. L. Hilborn were somewhat distressed to hear of the end of last week that she was lying in the Calgary Hospital stricken with diphtheria. Mr. and Mrs. Hilborn left here about two weeks ago for a prairie trip, Mr. Hilborn leaving his wife with friends in Calgary while he went on to Edmonton and Saskatoon for a few days, and it was in the meantime that Mrs. Hilborn developed the throat affliction, and was removed to the hospital. Mr. Hilborn returned to Summerland last Saturday with the assurance from the Calgary doctors that his wife is not dangerously ill, and is making good recovery from the slight attack.

A very satisfactory report of Mrs. Hilborn was received on Thursday night from her physician, who states that she will be released from the hospital probably to-day, and is likely to be home a week later.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LOGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JUNE 19, 1914.

BEAUTIFYING THE ROADS.

THERE IS A GREAT OPPORTUNITY for thrifty citizens to gain the use of a small additional acreage by making use of the road allowances adjoining their properties. The Council has placed itself on record as encouraging this step, and road allowances can now be made to look green and fresh, rid of unsightly weeds, and at the same time making profit by their beautification. It is not all road allowances that are suited to this purpose, but many are, and though the area adjoining each individual lot may be small, yet bearing in mind the fact that from some crops two and three cuttings can be had, it can be seen that there is some value in the privilege of exclusive right to such crops granted by the Council. One need not be afraid of having their efforts discounted by the neglect of adjoining roadsides, for the Noxious Weed By-law recently enacted provides for all cases of neglect in this regard.

THE PRICE OF WOODPECKERS.

"EACH WOODPECKER is worth \$20 to this country according to the Department of Agriculture," says the Editor of Scientific American. And why should not a value be put on the woodpecker and every other one of man's God-given assistants and benefactors? A price might at the same time be put on the head of each of man's natural enemies, according to their destructiveness.

Scientific American states that the United States farmers suffer an annual loss of \$800,000,000 from the ravages of pernicious insects, and proves this figure by official statistics. So rapidly do these insects multiply that man in all his ingenuity could not keep them down. It is stated that most insects like green leaf louse or aphid, "reproduce their kind at the rate of ten sextillion to the pair in one season," while "the natural increase of gypsy moths would defoliate the United States in eight years. The apple tree is subject to the attack of one hundred and seventy-six species of insects. Many other trees are as liable to attack.

Single species of fly or other insect are credited with annual destructiveness totalling \$50,000,000, \$100,000,000, and, in one year the Rocky Mountain locust caused a loss to the North-West States of more than \$150,000,000. Notwithstanding the increased activity of agriculturist and horticulturist, and the multiplication of insecticides the loss caused by insect life seems to be on the increase rather than decrease. The rapid destruction, if not actual extermination, of water fowl and insectivorous birds, the natural enemies of insect life, is the reason for the increasing activity of the latter. Scientific American puts up a strong and convincing plea for national protection of bird life, pointing out that while huge sums are spent annually to prevent the adulteration of insecticides, to fight the gypsy and brown-tail moths and other insects, but little effective work is done toward the protection of birds—the nation's best assurance against crop losses.

Concluding Scientific American says:—

"The Canadian Government has prohibited the shooting of wild fowl in all its great provinces, and it expects this government to do likewise. Neither country is concerned about the State or provincial laws, regulating the shooting of local birds in the home district of their neighbor, but much interested in proper laws for the preservation of game in which each has an interest and a duty. Fully 75 per cent. of the migratory birds are raised in Canada; yet American game butchers, immediately beyond the Canadian border line and along the passage of migratory flight, claim the legal right of exterminating birds as they see fit.

"Thanks to the activities of the American Game Protective Association, there is every prospect that a treaty will be enacted between the United States and Great Britain which will stop the reckless slaughter of migratory birds that has gone unchecked for generations on the North American continent. When that treaty is ratified migratory birds will be protected during nearly the complete line of their flight."

FURTHER INSTANCE of the danger, which lurks on our roadsides after dark in the shape of tree stumps and similar obstructions is furnished by the accident in Pench Orchard last week. The same auto might have overtaken any vehicle drawn up to the side of the road, whether automobiles were present or not. The stump was not seen in the darkness or it could easily have been avoided. There seems to be danger enough in our tortuous, hilly roads without adding thereto by leaving removable stumps standing. This is not the first instance of accident from this cause nor will it be the last if nothing is done to remove the obstructions.

THE CURRENT ISSUE of the British Columbia Gazette contains a proclamation by His Honor the Lieutenant-Governor-in-Council bringing into effect on June 15th part 22 of the Municipal Act passed at the last session of the Legislature. This section of the act makes it obligatory for all municipalities in the province to comply with all the provisions of the act on and after that date. The appointment of an Inspector of Municipalities and his assistant are also gazetted, and these officials have already taken up their important work.

By the unusual means of heaving pieces of cordwood Mrs. T. H. Riley recently killed a bull snake, which measured three and a half feet in length. The reptile was seen quite near the house, and a chunk of wood luckily falling on its head despatched it.

DRIVING ACCIDENT.

While driving down the Fenner gulch road towards town on Wednesday afternoon, Mrs. R. S. Monro and Mrs. D. F. Brewer met with a decidedly unpleasant experience, due seemingly to the contrariness of the horse hitched to the buggy which Mrs. Monro was driving. At the top of the horseshoe bend below Mr. Hespeler's, the ladies saw the delivery rig of the Summerland Supply Company, driven by James Kean, some distance away, coming up, and decided to wait at the top till it passed. So far as can be learned Mrs. Monro's horse would not stand, and commenced a little prancing in the course of which the hind wheels of the buggy got over the edge of the bank. Mrs. Brewer managed to scramble out before the rig went over, and did not suffer much beyond slight shock. Mrs. Monro was almost as fortunate though she stayed in the rig a while longer. Horse and buggy rolled right down to the bottom of the gulch, the horse coming to rest on its back on top of the overturned rig, and entangled in the harness. The ladies were driven home from the scene of the accident by Mr. Harvey, who happened along, and shortly afterwards help came from town and extricated the horse, which was also found to have escaped serious injury, though it was cut somewhat extensively. The damaged buggy was also recovered and taken to the blacksmith shop.

BIRTHS.

SMITH—On Sunday, June 14th, to Mr. and Mrs. W. J. Smith, Garnett Valley, a son.

About twenty-five friends were entertained last Wednesday afternoon by Mrs. Hanington at a bathing party.

Mr. Spraggon, teller in the Bank of Montreal, leaves for Vancouver to-morrow morning where he will spend his vacation.

The Boy Scouts have been rehearsing nearly every night this week, and have an excellent program well in hand for to-night's concert. It is confidently hoped that the boys will be encouraged by a large audience to-night in Empire Hall.

Mr. Basil Steuart with his wife and son are visiting Mr. Steuart's brothers here. Mr. Steuart, whose home is in Vancouver, is the youngest brother of Messrs. Alex., John and Robert. They motored by way of Seattle and Wenatchee, and are so pleased with Summerland that they are likely to stay for the summer at least.

In but a few days the second crop of alfalfa will be ready for harvesting. This fodder crop, which will soon be a large item in the annual production is already assuming considerable proportions, and is having the result of greatly reducing importations of hay, etc. The first crop, gathered in May, from last year's seeding, was a good one.

"Little boy, is that your mamma over there with the beautiful set of furs?" "Yes sir." "Well, do you know what poor animal it is that had to suffer in order that your mamma might have the furs with which she adorns herself so proudly?" "Yes sir, my papa."

There is talk of lynching the man who evolved this toast: "Our fire engines, may they be like old maids—ever ready, but never wanted."

Preservation of Eggs

In view of the expressed determination of many local poultry men to treat the plentiful spring and early summer eggs with preservatives and hold them for better prices in the fall and winter, some simple hints on the various methods which can be employed may be useful. Not only the man with the large flock of hens, but also the poultry keeper who does not plan on making any commercial effort will find it profitable to preserve the surplus eggs. June eggs are largely used for this purpose.

The methods adopted are simple and the expense attendant on the preservation very small. There are many ways in which the freshness can be ensured even at the end of six or nine months. Lime water until recent years was a favorite method, the pickle being made by mixing a pint of unslaked lime with a gallon of water. The eggs were placed in layers in stone jars and the lime solution poured over them and hilled up from time to time. Many eggs are preserved each year in layers of salt, and others buttered so as to fill up the pores of the shells.

Waterglass or silicate of soda, which is largely used, maintains the quality of the contents of the eggs for a considerable period. There are, however, important considerations no matter what pickle is used, the chief being that as far as possible the eggs shall be absolutely new laid. All eggs should be collected from pen or flocks of hens kept without a male bird, as experience teaches that infertile eggs keep fresh longer than those which contain a living germ. Cleanliness is most essential, so that the pores of the shells may be able to receive whatever solution is there. The stone vessels should be stored in a cellar or cool place not less than 33 degrees or more than 45 degrees.

TO HELP THE HOSPITAL.

Flowers from the beautiful garden of Mr. W. Arnett are now being sold for the benefit of the new Summerland Hospital. Perennials and other flowers are in season, and can be obtained at the premises. Mr. and Mrs. Arnett are wonderfully skilled flower gardeners. They have some sixty odd varieties of blooms planted, and in the height of the season their garden will be a veritable picture of varied blossom. Lovers of flowers are invited to go and see for themselves the extent and variety of flowers that can be obtained from Mr. Arnett.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Encouragement Of Pure Bred Stock

Dominion Dept. of Agriculture Ships Pure Bred Sires To Different Points In Interior.

Dr. S. F. Tolmie, the Dominion Livestock Commissioner in this province announces that a shipment of pure bred sires left Vancouver this week for points in the Interior, and that another carload would shortly be dispatched to the Okanagan, the Kootenay and the Ootsa Lake districts. This is part of the work being prosecuted by the Dominion Department of Agriculture in encouraging the keeping of better bred stock in new and often unorganized districts. All sires distributed, whether bulls, stallions, rams or boars, are bought from breeders, and are Canadian bred. The original cost is borne by the Dominion Government, and the animals remain the property of the government. Local associations are responsible for their proper maintenance and management under the general supervision of officers of the Dominion Livestock branch. In the case of stallions the members of the associations will also be required to pay a fee covering the annual insurance premium. By this system not only will this plan encourage Canadian breeders and increase their market, but will, indirectly, through the emphasis placed throughout the country on pure bred sires, add to the value of thoroughbred stock.

Districts will be picked where there is an absence of good sires owned by individuals. Animals after being used for some time in a district, may be changed to another, and fresh blood brought in as deemed advisable. The local board of management will make all regulations relating to the use of these sires, and they will only be available to members of the local association.

The export movement of fruit is beginning to brisk up, though it has not yet reached the stage where extra help is needed in the express or freight offices. The Fruit Union is packing between thirty and forty boxes per day, almost all cherries. Private shippers are sending out all told perhaps a few more cases; making the total daily shipment well under a ton. Several shipments of cherries were sent to Penticton last week by the Summerland Fruit Union.

CONTRACT

Persons contracting with the Union may eat all the fruit they like, give away all they care to, sell to the cannery, sell to local merchants and others for home consumption, and ship to private customers (consumers) 10 per cent. of any kind of fruit. Other special arrangements may be made with the directors.

This does not mean that growers may sell to others to ship to consumers, the Union can do that for them, and will be pleased to ship fruit where directed by patrons at their risk.

Warehouse Open Every Day.

T. B. YOUNG

OUR NARAMATA SECTION

WEDDING.

PRIEST—PROWSE.

A wedding of considerable interest locally was solemnized at Merritt, B.C., on Tuesday, June 9th, when Miss Mary L. Priest, only daughter of Mr. Thos. Priest, accountant for the Nicola Coal and Coke Co., and Mr. Wilfred Prowse, resident engineer of the Kettle Valley Railway, became man and wife. Among the numerous costly presents received upon the occasion, one of special consideration is a cabinet of silver given by the engineering staff.

Mr. and Mr. Prowse have taken up temporary residence in Mr. Hayward's furnished cottage.

Mr. G. Burnett, resident engineer, has received notice that he and his staff will be transferred to Carmi at the end of the present month. During their protracted residence in town Mr. and Mrs. Burnett have formed quite a circle of friends who will regret their removal from Naramata.

The Old England

JULIUS W. A. BLOCK,
NARAMATA, B.C.

Just Arrived direct from England.

ART SERGE—54 to 66 inches wide 50c. per yard. In Crimson, Green, Brown and Peacock Blue. Suitable for Curtains, Portieres, Table and Cushion Covers.

TARTAN RUGS, all wool \$2.25 and \$3.50 each.

TWEED HATS for Ladies, \$1.25 each.

Any order for not less than \$3., and not weighing above 11 lbs. sent by Parcel Post inside the 20 mile radius FREE.

Current Events — OF — Town & District

Mr. Robinson's launch "Naramata," is being fitted up for another season's outing.

The Unity Club held its regular bi-monthly meeting on Friday last, the guests of Mrs. Cash and Mrs. Block.

Miss Block, after a delightful holiday visit with friends in Regina, arrived on Wednesday evening's boat.

Hotel Naramata, in anticipation of the holiday season's guests, is fitting up extra accommodation in the annex. The more the merrier.

Miss E. L. Clive, a teacher from the Methodist College, Calgary, arrived on Wednesday at Hotel Naramata as special guest of Mrs. W. L. Robinson.

A wire from Silver City, Idaho, from Mr. R. C. Robinson, announces his arrival in the southern city. Both he and his wife are delighted with their new — if temporary — home.

The first shipments of Naramata grown cherries in any considerable quantities are being sent out this year. The Niblock orchard is probably the heaviest orchard producer so far.

The special ferry trips to Pentiction on Wednesday's appear to meet with considerable favor to judge from the number of passengers being booked from week to week.

Mrs. M. Morsch who left for Montana on the 4th inst., to see her mother who was seriously ill, arrived too late as her mother had died several hours before her daughter's arrival.

Friends of Mr. W. Mason are rejoicing in the recovery from the effects of his recent and sudden illness, a recovery due to the prompt and effective medical treatment, supported by a sound constitution.

In Real Estate Circles.

Two real estate transfers of local interest are reported this week, Mr. H. F. Binlap being the purchaser of a very choice acreage on what is known as the central division, while Mr. Strong is the new owner of a desirable two acres in the vicinity of the sports ground.

Miss Janet Tupper of Vancouver, who has for some weeks been visiting with Mr. and Mrs. Carroll Aikins, left for her home last week.

The Farmers' Institute are publishing a notice of their willingness to give \$10 as a reward for information that will lead to the conviction of the parties who are responsible for certain local orchard deceptions.

Four delighted young ladies, Miss Gwen Robinson and her three sisters, the Misses Gladys, Kathleen, and Marguerite, arrived home after an absence of nearly two years. Miss Dorothy is expected in on Sunday or Monday night.

Mr. Bert Lipssett of Holland has arrived in town to take a position in the Naramata Supply Co's store. Mr. Lipssett has had several years' practical experience in the store business, and will doubtless be quite an acquisition to the local organization.

So well patronized was the Ferry Company's special Saturday night round trip to Pentiction last week that the company have decided to run weekly excursions instead of fortnightly. The boat will leave here at 7.15, going via Summerland.

Syndica House has been given much attention by their own brush swingers, having been tastefully decorated, both roof and walls. The new sign, the work of Mr. Fred Roe himself, is quite unique, and adds the necessary finishing touch to the new hostelry.

The arrival of the rich cherry crop has so far proved too great a temptation, according to a local report, for a number of the youths of town. It is earnestly hoped that the threatened assistance of police surveillance may not have to be summoned to the aid of the orchardists.

Deputy-Minister Scott, accompanied by Manager Robertson of the United Growers, were the guests of Mr. Carroll Aikins on Tuesday to luncheon. Mr. Robertson speaks optimistically in regard to the peach prices for 1914. It is earnestly hoped his predictions materialize.

A certain gentleman reports the theft of quite a tidy sum of money from the pockets of his clothing left hanging in his shack while he was away at his work on Monday. The fact that a small quantity of silver in another pocket was untouched, points to the work of a juvenile.

The local troop of Boy Scouts, under the leadership of their new Scout master, Rev. W. P. Willan, are the guests this (Friday) evening of the Summerland organization at a concert in Empire Hall. Not the least part of the enjoyment will be the delightful trip by moonlight after the evening's pleasant outing.

Early Potatoes.

Insp. Cunningham Advises Okanagan Farmers To Plant Them In The Fall.

Vancouver, June 18.—That the orchards and farms of the Okanagan and Similkameen can supply the Vancouver market with new potatoes almost as early as California by the simple expedient of planting the seed potatoes in the fall, is one of the most important items contained in a report-letter which Fruit Inspector Thos. Cunningham has sent in from the Similkameen to his office staff.

Mr. Cunningham, who had been inspecting the famous Cawson orchard, six miles south of Kamloops, had been entertained by Mr. Cawson a week ago to a meal at which fall-planted potatoes formed a dish. "They were delicious," says Mr. Cunningham, "and proved the accuracy of my contention that if potato growers would plant in the fall the following year's crop, they will be able to put the new potatoes on the market early in June."

Peachland Notes.

Mr. Robertson of the Fruit Union visited the local union on Tuesday.

Miss Bernice Cousins is enjoying a short visit from her sister of Vancouver.

The Girls' Handicraft Club will serve ice cream and tea on Thursday afternoon and evening.

Pentiction plays the home team a game of baseball on the grounds here on Thursday afternoon.

Mrs. Jas. Kincaid of Kelowna, and her daughter Maudie, spent the week-end at Mrs. A. D. Ferguson's.

The Baptist brethren will give a farewell picnic for Mr. J. Marshall on the beach on Thursday afternoon. Mr. Marshall will give his parting message next Sunday morning.

On Sunday morning Mr. Paul Brown and son Cecil left for the Peace River country. Arthur Ames went out on Saturday morning with the same destination in view.

Inspector Anstey is examining the entrance pupils of the district in reading this week. The examinations will be held on Monday, Tuesday, and Wednesday of next week, with the High School teacher as examiner.

Large shipments of Black Tartarian, Early Richmond, Yellow Spanish, and Governor Wood cherries are being sent out every day from the packing house. These cherries are of the finest quality, and are all carefully packed.

Kaleden Comments

We are pleased to report good news of Mr. Leonard Preston, who is now recovered and about as usual.

Mrs. Skillen, mother of Miss Melita Skillen of Okanagan College, is the guest of Mr. and Mrs. W. R. Rourke.

Mr. and Mrs. Beddall, with their family, took lunch on Sunday last with Mr. and Mrs. Wilson of Paradise at their camp.

Miss Hall of Port Haney who is staying in Summerland, drove down with Mr. H. H. Elsey last week, returning the following day.

Several of the pupils from the school are going up to Pentiction to take the examination for entrance, which commences on Monday morning.

Mr. and Mrs. A. S. Hatfield with a party of friends went out in the "Mallard" for Sunday evening, partaking of supper by the lake shore.

Mr. and Mrs. Wilson of Paradise, with a party of friends, are camping on the lake shore, and enjoying the boating and fishing, with other country pleasures.

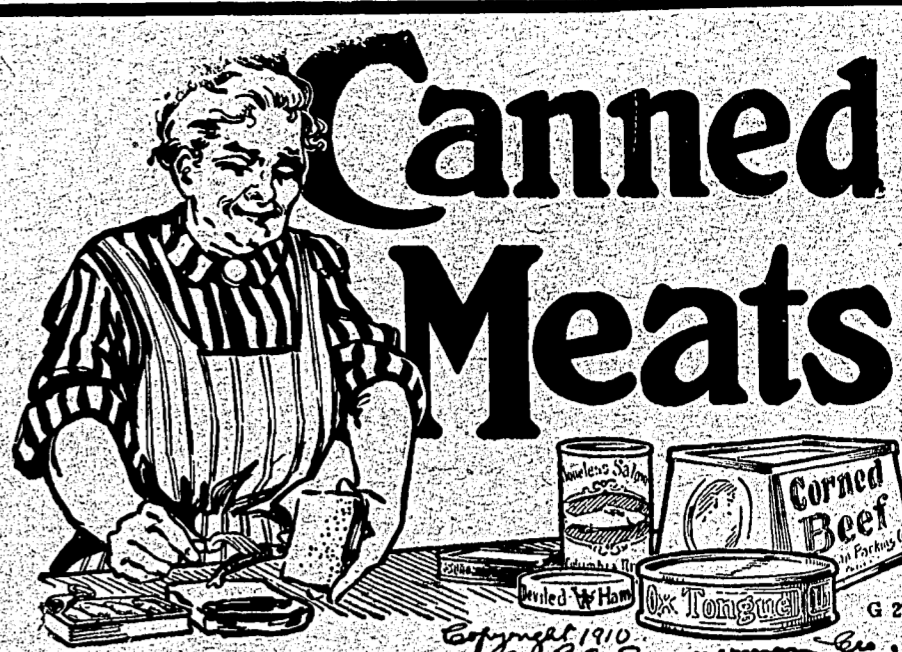

A meeting of the Woman's Club was held in the club room on Wednesday afternoon, June 17th, when Mrs. A. S. Hatfield was the hostess for the afternoon.

There has been quite an epidemic of grippe during the last week or two, several having been laid up for a few days, but are now better and able to be out again.

Mr. John Standon has been very unfortunate in losing several turkeys through the visits of a coyote, and a hen and brood of chicks about the same time were taken by a skunk.

The regular meeting of the Women's Mission Circle met in the Baptist Church last Wednesday afternoon, June 10th. Mrs. Paul gave a very interesting Bible reading in which the members took part.

The Oroville Gazette records the opening of the Wenatchee branch as follows. For all purposes requisite to the running of trains through from one end to the other the Oroville-Wenatchee branch was completed on Monday of this week. The closing of the last gap took place at Pateros on that date. There is now an unbroken stretch of steel between Oroville, on the north, and Wenatchee, on the south, over which trains can be, and have already run. The formal and official driving of the golden spike, the sentimental finishing touches to the work, by President Louis W. Hill, followed by the inauguration of regular train service, is not to be until the first of July.

Why Worry About Lunch?

A LOOK over our canned goods will chase away your trouble for ever. All kinds of tempting canned meats and fish are carried by this store in great variety. We sell quickly and never have old stock. Consequently you are sure of that fresh natural taste — combined with the appetizing flavor caused by canning — in every brand. Those meats are delicious — as kept and sold by us. Canned and retailed under the Government Pure Food act.

acting.

Passing Events: Social, Personal, &c.

Mr. Hector Sutherland returned
home from a visit to Winnipeg last
week-end.

Dr T. B. Turner will spend Mon-
day and Tuesday of each week in
Summerland. Crown, bridge and
gold inlay work a specialty. ad

Constable Graham returned home
on Tuesday night from a few days
stay in Victoria, when he attended
the sessions of the Grand Lodge
I.O.O.F.

Don't go abroad to buy some-
thing when you have a few dollars
to spend and then ask your home
merchant to sell to you on time
when you are broke.

The piano which was won by
Messrs. George Craig and H. Ever-
ett in the Drug Co's contest,
has been disposed of by raffle,
ticket No. 1, held by F. C. Edgar,
taking the piano.

The few structural alterations to
the end of the Fruit Union ware-
house, made necessary by the al-
teration in motive power for the
circulating fans in the pre-cooling
plant, have been put in hand this
week by Nelson Bros.

Mrs. J. J. Mitchell went out on
Monday morning's boat to spend
a vacation of some weeks with re-
latives and friends in the East. She
goes directly to Toronto, her former
home, and may not return to the
Valley till October.

Until the season's rush begins
and a larger staff put on the ex-
press office is not open for receiving
shipments after 7 p.m. Since the
first of the month, when the boat
schedule changed the C.P.R. offices
are closed between 5.30 and 6.30
p.m.

The Scout Movement is on its
firmest basis since the rush of
1910," were the words of Provin-
cial Secretary and Assistant Com-
missioner Heneage, who is touring
the province on a periodical trip of
inspection, and who spent Tuesday
in Summerland.

There will be a Children's Day
Flower Service next Sunday morn-
ing in the Parkdale Baptist Church.
This being more particularly for
the younger folk the regular
church service and Sunday School
will be united, the service begin-
ning at 10.30 a.m.

The Summerland Women's In-
stitute are holding their regular
monthly session this afternoon.
Canning, preserving and pickling
are being discussed, and as each
lady is expected to submit a recipe
for cold dishes for hot days the
men folk may expect to be served
with a great variety of new con-
coctions for many days to come.

The initial Saturday night ex-
cursion which was run last Saturday
will be repeated again this week.
The Okanagan Lake Boat Co. had
contemplated making these trips
fortnightly; but they have been
urged to make the trip each week,
and are therefore announcing the
change. The boat will leave here
at 7.30, running direct to Pentic-
ton. ad

A head-tax of \$2.40 does not ap-
pear to affect the liking of some
dogs for harmless chickens. Tak-
ing advantage of the absence from
home of the entire family on Sun-
day last, a dog whose identity is
not so far known invaded a chicken
pen belonging to Mr. T. H. Riley
on the Dr. More property, and put
four birds out of existence. The
same night the dog paid a second
visit and took further prey.

Methodist services will be con-
ducted on Sunday next by the pas-
tor, Rev. R. W. Lee. The morn-
ing subject at 10.30 will be "Cur
Deus Homo." An address will
also be given to the children. Sol-
oist, Mrs. Gerald MacLaine. The
evening service will be held in St.
Andrew's Church at 7 p.m., the
pastor's subject being "The Win-
ning of a Soul." Soloist, Mrs.
G. W. Morfitt. A hearty invitation
is given to all.

The West Summerland Women's
Institute held their regular month-
ly meeting in the High School
building last Friday afternoon.
Two good papers were read by
members, one with the suggestive
title of "Dollars and Sense in the
Household," by Mrs. S. B. Snider,
and the other by Miss Spencer, on
"The Care of Cut Flowers." Miss
Spencer illustrated her paper by
showing how different kinds of
flowers, which she brought with
her, should be cared for, to keep
fresh the longest possible time.

Mrs. R. W. Deans, of Upper
Trout Creek, was a passenger Coast-
ward bound on Friday's boat.

Rev. and Mrs. D. E. D. Robert-
son are now occupying the tent
house on the Adamson property.

Miss Maud McLaughlan, a stu-
dent for the last term at the Provin-
cial Normal School, Vancouver,
returned on Saturday last.

During the approaching term
Rev. and Mrs. S. Everton will
occupy the cottage on College Hill,
rented for the past few months by
Dr. and Mrs. F. G. Harrington.

Miss Mary Day of Kelowna, who
has been visiting here at the
home of her grandparents, Mr.
and Mrs. James Gartrell, returned
to the Orchard City on Saturday
last.

After an absence of about two
weeks attending the Presbyterian
General Assembly in session at
Woodstock, Ont., Rev. C. H. Daly
arrived back in Summerland on
Monday evening's boat.

Miss Thornthwaite, sister of Mrs.
S. Sharp and Mr. Harry Thorn-
thwaite, is expected here from Eng-
land shortly. She was to have
sailed from Liverpool on the 12th
by the "Empress of Ireland."

Mr. and Mrs. Jones, who have
been occupying one of the Stark
boat houses, are now making their
home in the Anderson house recent-
ly vacated by Mr. and Mrs. F. C.
Edgar, removing there this week.

Rev. H. A. Solly went up to Sic-
amous this week to meet Mrs. Solly
and family who are returning from
a year's visit to England. They
are expected to reach here to-night,
and will again occupy the rectory.

This paper is anxious each week
to issue a spicy and interesting
local page. If each of our sub-
scribers would hand us in one news
item, what a newsy paper we could
issue. Try it for a few weeks and
mark the change.

All stone fruits must be deliv-
ered at the packing house by 2 p.m.
each day for shipment the same eve-
ning is the statement of those in
charge at the big warehouse. This
hour is fixed because of the hours
of closing at the freight office.

A mysterious visitor came into
town last Friday whose movements
caused much curiosity. Judging
from his reputed vocation it would
seem that a site is being searched
for in this vicinity, that would be
suitable for a cavalry or similar
camping ground.

Mr. J. L. Logie was in Pentic-
ton for two days this week atten-
ding what is said to have been
the final session of the Arbitra-
tion Board that has been adjust-
ing the disputes between the
K.V.R. and various property hold-
ers whose lands were crossed by
the railway.

Presbyterian services will be held
in St. Andrew's church next Sun-
day morning and in the Method-
ist Church in the evening. Rev.
C. H. Daly's morning subject will
be "The Work of the General As-
sembly. His evening subject will
be "Robertson of Erromanga." Miss
McLaren will sing at the eve-
ning service.

The fine new house being erect-
ed at Paradise Ranch by the pro-
prietor, Mr. Matt. G. Wilson, is
now nearly finished, and will be a
source of joy and comfort to the
owner. Mr. Wilson is looking for-
ward to the arrival of his daughter
from Scotland this summer, and is
yet hopeful that his wife and son
may also join him here. This de-
pends on the condition of health of
the latter who has been advised up
to the present not to undertake the
journey.

The Sunday evening calm which
gathers and envelops the upper
town after service was rudely dis-
turbed last week, when two star-
warts, after an altercation said to
have arisen over some slighting
words uttered hastily and irrespon-
sibly, proceeded to the campus and
engaged in a bout of fistuffs,
with considerably more energy and
obvious thirst for gore than would
characterize a friendly battle. A
crowd soon gathered, and the com-
batants were separated unreconcil-
ed, and breathing threats of "go-
ing at it" again. They "went at
it" again on Monday evening in
more secluded surroundings near
the school grounds, but it is said
that on this occasion satisfaction
was reached without the medium
of blows.

A visitor to town last week-end
was Mr. Courtland Watson of Kel-
owna.

Mr. Frank Edgar was the guest
of Mr. and Mrs. Peter Roe last
week-end.

Mr. and Mrs. George Ross spent
Sunday afternoon last with friends
in Naramata.

please apply to Steuart's packing
house, West Summerland. ad

Rev. H. A. Solly held Anglican
service in Naramata Methodist
Church last Sunday evening, going
across by special ferry.

Mrs. D. Watson, Senr., whose
accident was recorded in last
week's Review, is we are glad to
state, making very satisfactory pro-
gress.

The new tennis court on the Col-
lege campus is proving a very pop-
ular place of recreation. Practic-
ally every afternoon and evening
the court is occupied by players.
The new club is increasing in mem-
bership.

Such excellent reports are being
received from his mining propo-
sition at Silver City, Idaho, by Mr.
J. M. Robinson that he has decided
to withdraw the treasury stock
from the market. Shares which
were recently selling at 10 cents
have been advanced to 25 cents.

Mr. K. S. Hogg, who is attend-
ing the Masonic Grand Lodge at
Prince Rupert, as delegate from
the Summerland Lodge, is expected
home on Thursday next. Mr.
Hogg and Dr. Andrew are both
at Prince Rupert on the same er-
rand, having left here last Thurs-
day together.

A FINE ANIMAL.

For many weeks Dr. Tolmie, Dominion Live Stock Commissioner for B.C., has been searching the country over for a really high-class Dairy Shorthorn Bull for the Meadow Valley Pure Bred Stock Association. He finally found the animal he wanted in Ontario, and had him shipped at once to the association here. The bull, a fine 2 year-old, arrived here last weekend, and was for some days at English's livery, where he was greatly admired by numerous visitors. The association has now completed arrangements to have the animal kept at the Lakefield Ranch. Government stipulations make it available for members only, but by communicating with either the secretary of the association or F. Munro, in whose care the animal has been placed admission to membership may be arranged. See advertisement on this page.

"So you want to marry my daughter? What are your expectations?" "We expect to elope if you refuse your consent to our marriage, and we expect forgiveness when we get back. Then we expect you to make us an allowance."

"Your dog has bitten chunks out of my leg twice now." "Do not be angry," urged the girl. "I am in hopes that he will like you." "How many samples does he need before he makes up his mind?"

When the donkey saw the zebra He began to switch his tail; "Well, I never," was his comment; "There's a mule that's been in jail."

CHURCH NOTICES.

St Stephen's Church (Anglican) — Holy Communion every Sunday at 8 o'clock; also at noon, after matins, every first Sunday in month; matins 11 o'clock; evensong seven o'clock each Sunday. Rev H. A. Solly, B.A., Rector.

Methodist Church services — morning, every Sunday at 10.30; Sunday School at 11.30; evening, fortnightly at 7 o'clock, alternating with West Summerland. Rev R. W. Lee, Pastor.

Baptist Church — At West Summerland every Sunday at 10.30; Sunday School at 11.45. At the Lakeside Church, 7 o'clock; Sunday School at 11.45. Rev N. McNaughton, Pastor.

Presbyterian Church services — St Andrew's Church, West Summerland, every Sunday morning, 10.30; Sunday School, 11.30; evening, fortnightly at 7 o'clock, alternating with the Methodist Church. Rev C. H. Daly, Pastor.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 6, No. 48

SUMMERLAND, B.C., JUNE 26, 1914.

Whole No. 308

Summerland Women's Inst.

Very timely in topics and demonstrations, and of unusual interest in its business program, the regular monthly session of the Women's Institute, held in the Men's Club on Friday afternoon last, was of more than ordinary importance. About twenty-five ladies answered the roll-call by giving recipes for cold summer dishes and cool drinks, a good many useful and practical additions to the housekeeper's recipe book thus being made.

An enlightening paper read by Miss Melita Skillen dealt with a phase of New York slum life. Mrs. A. G. Simms and Mrs. J. Tait were appointed a committee to judge the Children's Gardens at the Town School grounds, for the best of which the Institute annually gives prizes. Mrs. W. H. Hayes was appointed the official delegate of the Institute to the Valley Convention, which meets here in a few weeks' time. Great enthusiasm was apparent when Mrs. G. J. C. White read a letter from the Department of Agriculture presenting a good sized Union Jack to the Summerland Institute. As Mrs. White unfolded the flag the ladies showed their appreciation of the gift by singing a verse of The National Anthem.

The two typical subjects for the afternoon were a talk on "Pickling," by Mrs. Davies of Naramata, and a demonstration talk on the canning of strawberries by Mrs. J. W. Angwin.

Mrs. Davies gave out much useful information on the making of vinegar and pickling in general, as well as supplying some very good pickle recipes. Mrs. Angwin demonstrated the preserving of strawberries without cooking; some of which were crushed and others placed in the bottles in slices, all looking very appetizing.

Mrs. Hayes had kindly supplied a lemon drink and wafers, which were passed around, and proved very refreshing on a warm afternoon.

READY FOR STEEL.

That tracklaying on the Coalmont section of the V.V. & E. line through the Similkameen is to be started early next month is the statement made by Mr. J. H. Kennedy, assistant chief engineer of the line, at Vancouver early this week. This portion of the railway is to be used jointly by the Kettle Valley Railway and the V.V. & E., in accordance with an arrangement between the two companies.

The V.V. & E. portion of the line between Coalmont and Otter Summit is expected to be ready for traffic this summer. In order that structural work may be started at an early date on the bridge across the Fraser River near Hope, grading is being rushed on the connecting link between the C.P.R. and the bridge on the north side. The substructure of the bridge has already been completed, and as soon as the mile and a half section of track which will be required to furnish the connection has been built, steel for the bridge will be transported to the scene. It is planned to start the erection of the structure within a month. Rails for the Hope-Coquihalla joint section will also be shipped via the C.P.R. and over the new bridge to Hope.

OBSERVATORY TIME BY TELEGRAPH.

The tick of the telegraph instrument is now to be heard in the C.P.R. office. Connection with the telephone company's trunk line was made on Tuesday, and C.P.R. business has been transacted over the line since that date. This puts Summerland and the other lake towns in direct connection at Revelstoke with the C.P.R.'s lines running east and west.

McGill observatory time is now being announced daily over the telegraph line, being ticked off at Montreal at five minutes of 12 noon, or 8.55 Pacific time.

The extending of the C.P.R. wire to this point reduces costs of telegrams to practically all points; for instance a message to Vancouver formerly costing 75 cents will be transmitted for 60 cents. Public business will be handled on and after to-morrow.

Council and Telephone Co. Reach Amicable Settlement

Mutual Give and Take Sets Dispute At Rest.

At a special session of the Council held on Thursday afternoon, the all-absorbing piece of business was the difficulty which had arisen during the past few days with the Okanagan Telephone Company. All the Councillors were present, and in the absence of Mr. J. L. Logie, who is at present in the Similkameen, F. J. Nixon was acting clerk.

In the matter of the Okanagan Company's new line along Shaughnessy and Beach Avenues, the question for the Council to settle was whether they would still adhere to their former attitude demanding a cable to be laid underground instead of a pole line. In view of the fact that it is understood that the new poles will not carry nearly as many wires as those now standing, the Reeve thought it advisable for the Municipality to recede from this position, and hold the Telephone Company to the position of their present line. The plans for the new line, however, changed the course of the line between the Post Office and the C.P.R. wharf, keeping the wires all on the east side of the street. This would necessitate poles in front of the Fruit Union building, which was strenuously opposed by H. C. Mellor, on the ground that there would be great interference with the congestion of traffic at that point in the fruit season.

Several other citizens were in attendance, watching the proceedings from various angles. After considerable discussion the Council agreed that efforts should be made to induce the Okanagan Company to follow the course of the existing poles in putting up the new line, and also to make some provision for the protection of shade trees on Beach Avenue.

Manager G. H. Dobie made a special trip down from Vernon to meet the Council, arriving at about six o'clock. His conference with the Council was brief, friendly and very satisfactory. Mr. Dobie was amenable to all the suggestions which the Council put forth, and accordingly the new line along Shaughnessy and Beach Avenues will merely be a replacement of the existing one. Mr. Dobie also agreed to look into the suggestion offered to use an alternative route up the Clark hill, dropping down to the lakeshore road through the road allowance near the pre-cooling plant's ice house. Special provision will be made for avoiding damage to shade trees on Beach Avenue by putting the poles outside the sidewalk and placing all the wires on the side of the poles farthest away from the trees.

The settlement was rightly considered eminently satisfactory to all concerned. Two or three other matters were also considered by the Council, though not at great length. Among them was an agreement reached by the Council to strike the tax rate for 1914 at fifteen mills on the dollar. This step was necessary in order to allow Collector Nixon to take preliminary steps preparing the tax notices.

CHANGES IN GOVT. WIRES.

On Tuesday of this week Mr. W. H. Stevens, Superintendent of Government Telegraph and Telephones, with headquarters at Kamloops, visited Summerland for the first time. Here he met Mr. Fred Layton in charge of the lines of this district, and arranged for the transferring of the Government's telegraph line from the poles on Shaughnessy Avenue to those running along the street behind. From the high slum to the Gainer cottage the local telephone poles will be used, and from that point to the Thornbor cottage they use their own poles. Ultimately the line to Peachland will follow the new telephone pole line along the lake instead of through Garnett Valley and over the divide.

While here Mr. Stevens took the opportunity to inspect the Summerland Telephone Co.'s exchange, with which he expressed much delight, pronouncing it one of the very best.

PLEASED WITH DISTRICT.

A group of Vancouver business men who have been touring the Okanagan, spent some time here this week, the guests of Mr. and Mrs. S. B. Snider. The visitors were Mr. George J. Telfer, Vice-Pres. of the National Finance Company, Mr. James C. McPherson, Manager of Real Estate of the above company, and Mr. Sherley Blakemore, Manager North American Securities.

The party motored down from Vernon via Kelowna and are on an inspection tour, and all expressed themselves as highly delighted and greatly surprised at the development made in the Okanagan, especially at Summerland, which they found very much better than they anticipated, notwithstanding the glowing accounts they had had of it. Mr. Telfer is confident that when the K.V.R. trains are running through to the Coast many of Vancouver's business men will come here to locate either for a portion of the year or to make their permanent homes. Summerland particularly will appeal to this class of men, he said, for a number of reasons, one being the great variety of fruit which may be grown here.

LOCALS.

Mr. Robertson of the United Growers is in Calgary this week.

Mrs. A. B. Elliott has exchanged her property, lots No. 18 and 19 in Block 675, with a Mrs. Hall, a prairie resident, for some prairie city lots.

It is understood that a special boat has been chartered to convey a party of relatives and friends from here and Naramata to Peachland on Monday to attend Miss McDougald's wedding.

Miss Muriel Harrington, who has been teaching in the East, joined her family, now at Peachland, on Wednesday. She was accompanied by her uncle, Mr. W. H. Harrington, of Ottawa, Supt. of Post Office Savings Banks.

Divine service will be conducted in the Methodist Church on Sunday next by the pastor, Rev. R. W. Lee. At the morning service at 10.30 the subject will be "Nobility," while the evening subject will be "The Dimming of the Gold."

Mr. W. J. McDowell, Sec.-Treas. of the United Growers, and Mr. Casner, their chief inspector, came in on Thursday evening's boat, and went on to Pentiction this afternoon. Mr. McDowell is conferring with the accountants of the different affiliated Unions for the purpose of further simplifying that part of the work.

Next Sunday morning St. Andrew's Church will hold a patriotic service. A specially printed program will be used. The Sunday School will attend, and the children will take part in the service. Mr. Daly's evening subject is "God and Calamities." There will be special music at the evening service.

Mrs. C. G. Harvey of Hazelton, who with her infant son has been staying with her parents, Mr. and Mrs. G. Raby, left on Wednesday's boat for Vancouver to join her husband who is coming down the Coast to meet her. She was accompanied by her father to Vernon. Although owing to her recent loss, she was unable to visit much during her stay, Mrs. Harvey expressed delight with the Summerland district, and often mentioned the hope that she could induce her husband to locate here, when he has transferred his interests north.

At the convocation of Harvard University on June 10th, a Summerland boy, Gilbert V. White, was one of a class of ten to receive the degree of B.S.A. (Master of Business Administration). Mr. White had previously earned the degrees of B.S. and M.A. During the summer Mr. White will be with the Bureau of Industry, a University department, working out the details and introducing to the shoe trade a method which he has evolved to simplify the grading or marking of the products of the shoe factories, and which has already had the approval of his university.

WILL BE BIG SAVING.

The various local unions affiliated with the United Growers are to have telephone connection with the Central Selling Agency at Vernon over the government trunk line. Laterals are being run to the Vernon office as well as to the Pentiction Union and other packing houses. Summerland already has the connection through the local exchange. A large sum of money was paid last year to the Okanagan Telephone Co., and the increased business would at the company's rates have meant a yet larger sum this year. The much lower cost resulting from the change will result in a tidy sum saved to the growers. It is said that at Pentiction, and probably other points, any citizen may obtain connection with the government line.

Telephone Business Constantly Expanding

Not to be "on" the telephone in Summerland is fast becoming the exception rather than the rule, and one who is not now a subscriber to the home telephone company is isolated in contrast to the large group now so closely united by the continuous excellent and reliable telephone service now being furnished by the citizens' system.

That those who are not now on the exchange are realizing their disadvantages and are making haste to remedy it is apparent from the manner in which each new consignment of instruments are placed almost as soon as received from the makers.

The third lot, of some twenty-five instruments, received a few days ago have nearly all been installed, and the company find themselves in a position where they will need to order more right away. Already this month eighteen phones have been added to the exchange and more applications are being received. With two hundred and eighteen or more instruments now connected to the switchboard the predicted two hundred and fifty looks within reach well within the time.

To give subscribers in Garnett Valley the same excellent service as others on the central energy system are receiving some reconstruction to the pole line has recently been made and additional wire put up. Only those a long way out are now on the magneto system. A number of new laterals have also been put up in Prairie Valley.

TOMATO SEASON BEGINS.

The first case of out-door ripened tomatoes were shipped to-day by Mr. A. Steuart. The fruit was of excellent quality and grown in the open on Mr. Steuart's home lot.

With a shipping season for tomatoes covering a period of nearly four months, the possibilities of the early vegetable business in this favored sunny locality may be appreciated. Tomatoes are now worth about \$5 per crate. A natural inducement to produce early stuff.

LOCALS.

Mrs. Hector Sutherland is spending a few weeks with her sister in Kamloops.

Miss Thornthwaite will arrive tonight, Friday, from the Old Country, on a visit to her sister, Mrs. S. F. Sharp.

Mr. Thos. Cunningham was in town during Wednesday and Thursday, going to Pentiction on Thursday night.

Mr. K. S. Hogg returned on Thursday night from Prince Rupert, where the Masonic Grand Lodge has been in session.

The building on Shaughnessy Avenue occupied by the Okanagan Telephone Company is to be brightened with a coat of paint if the desire of Manager Dobie is carried out.

Mr. and Mrs. Gerald A. McLain, who have been visiting here for the past three or four weeks, went up the lake on Thursday morning's boat, bound for Vernon, where Mr. McLain has taken a position with Messrs. Strling & Pitcairn.

Reconstruction Work Suspended While Lawyers Dispute

Case Against Employees Withdrawn. Opposing Forces Adjust Differences.

The dispute between the Municipality and Okanagan Telephone Company reached a climax this week and resulted in the bringing together of the company and its solicitor and the municipal officials, who before separating had come to an understanding and arranged an agreement satisfactory to both parties.

Some months ago the company had asked the Council to approve of its plans of re-construction. These plans, particularly that portion pertaining to Shaughnessy and Beach Avenues, met with disfavor, the Municipality demanding that the wires be placed underground. The company was so advised, and the manager was asked to meet with the Council. Though dates were fixed the manager did not attend and the question has remained unsettled.

Recently the Department of Agriculture asked that a change be made in the telephone line opposite the Fruit Union which will enable the placing of the ice chute from ice-house to pre-cooler. The company sent its line gang to make this change, and at the same time undertook to rebuild its trunk line through town, and objection was at once made by a number of citizens to the position selected for the poles and to the larger question of their breaking the street without Municipal permission. This was on Saturday, and that evening the Reeve consulted the Municipal Solicitor and asked that a plan of action be outlined for Monday morning. Early Monday the Reeve and Clerk called on the solicitor when a plan of action was outlined. The company's crew, refusing to cease work were reported, and a summons was issued for the foreman. The constable was at the same time instructed to arrest the men if they refused to move off the street. As a result they all were marched to the jail on Monday afternoon. At two o'clock on the same day the foreman was given a hearing before Magistrate English and, he pleading not guilty to the charge of loitering and breaking up the street, the case was postponed until Wednesday. No charge being preferred against the others of the crew they were released.

When the case was resumed on Wednesday, again before Magistrate English, Mr. Fred Billings of Vernon appeared for the Telephone Co.'s foreman, and Mr. W. C. Kelley for the Municipality. Manager Dobie as well as the Reeve and other municipal officials were in attendance. Witnesses for the Municipality were Constable Graham and Reeve Ritchie, and though there was a good deal of questioning the case centred around the charge contained in the information, that of loitering on and breaking up the street. Mr. Billings did not bring on any evidence, claiming that the Municipality had not made a case, citing legal authority to prove his contention, that the two charges of loitering and breaking up a street could not be combined, claiming in his argument that, as a charge of vagrancy had not been proven, the case should be dismissed. After a short interim to give the Magistrate time to consider the case, and during which the opposing forces got together and talked over their differences, Mr. Kelley acting for the Municipality, consented to have the case dismissed, he stating that at no time was it the intention of the Municipality to cast any reflection on the character of the company's foreman.

As learned from the Reeve and Solicitor later Mr. Billings, with the approval of Manager Dobie, undertook that the Telephone Company should henceforth respect the Municipal by-law pertaining to the placing of poles, wires, etc., and would be guided in the placing of poles by the Municipal Superintendent.

The Municipality's demand that the wires be buried was withdrawn, as it was declared by the company that as it was now doing but little business here nearly all the wires would come down, and the few remaining would not be a monnce. The underground cable

Wins Price Ellison Cup.

The final for the Price Ellison Cup was shot off on Saturday last, under poor weather conditions, the scoring being somewhat affected thereby. The competition is under class firing conditions, and is shot in two stages, the whole shoot covering the following ranges:— 7 shots and a sighter at 200, 300, 500, and 600 yards. 14 shots and a sighter at 200 yards, kneeling. 7 shots in one minute, 200 yards. Highest Possible Score, 245.

The winner turned out to be the Captain of the Association, H. Dunsdon who, with good shooting in the second stage, overhauled previous leaders, and won out with the safe margin of 14 points, putting on the highest score yet in this competition. This being the second time in succession that Mr. H. Dunsdon has won this Cup, it now becomes his property, under the conditions imposed when first put up for competition, nine years ago. Leading scores:—

	First Stage	Second Stage	Total
H. Dunsdon (Cup)	95	121	216
J. Dunsdon	97	105	202
W. Nelson	90	111	201
W. J. Smith	99	101	200

There will be no shoot this week; Saturday, 4th July, being the date for the next practice.

DELEGATES COMING BY K.V.R. TRAINS.

Delegates coming from the East to attend the Western Canada Irrigation Association gathering to be held in Pentiction on Aug. 17, 18 and 19, will, according to the Pentiction Herald, be brought in over the K.V.R. line. A special train will be operated from Nelson on the morning of the 16th, and will go from that city to Summit, back of Kelowna, whence the passengers will be transferred to Kelowna by auto, making the balance of the journey down the lake by boat. This will not only give the delegates a better idea of the geographical points of the entire Valley, but it will obviate any delay that might occur from bridges as yet uncompleted on the line between the Summit and Pentiction.

WITHOUT FOOD.

An early morning prowler visited the camp of the road gang now working in the new government road from Darke's to Fish Lake, last Sunday morning, and left the crew on very short rations, which were not replenished till noon on Monday. Upon awaking one of the party found the camp in a disarranged condition, and upon further investigation found that, with the exception of some bread, practically all of the food had been stolen. Later the tracks of a small bear were noticed and the mystery solved.

The friends of the Boy Scouts are respectfully reminded that the boys go into camp next week, and that funds for supplies for this good cause will be gratefully received. The following gentlemen will receive contributions:

Mr. Jno. Tait, Scout Master,
Mr. W. S. Kent, Assistant Scout Master,
Mr. G. M. Ross, Secy.-Treas.

Kelowna is clamoring for a continuous telephone service and the Okanagan Telephone Company have agreed to accede to the demands of the Board of Trade provided the business firms were agreeable to pay 50 cents per month extra for business phones. Mr. Dobie contended that the extra service would probably more than absorb the extra rentals. The Record states that: Mr. F. R. E. DeHart characterized the suggestion of increased rates as a hold-up. At Summerland, he said, about 200 residents there used the municipal system which had recently been installed. They had a continuous service and the rate was only about half that of the Okanagan Telephone Company. The matter was referred for further discussion to the next Board of Trade meeting.

would have caused the municipality further undesired expense.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JUNE 26, 1914.

IF AN unnecessary blunder was made this week in the method adopted to assert the municipality's right to its streets the ratepayers should in no way lay it upon the shoulders of the Reeve and Council, who have moved always with caution and never without advice, always having before them the protection of the citizens' rights and the avoidance of involving the Municipality in an expensive suit-at-law with its attendant heavy expenses. However, perhaps the saying "All's well that ends well" is applicable in this case, for out of it has sprung an understanding by each of the attitude of the other, and a recognition of the other's rights, resulting in an agreement on the part of the Okanagan Telephone Company to respect the municipal by-laws, and to henceforth place its poles only in positions approved of by the municipal superintendent.

FOLLOWING CLOSELY upon the loss of the "Empress of Ireland" comes another disaster of appalling magnitude, an industrial catastrophe. From an explosion which occurred at the end of last week in the Hillcrest coal mine, at Hillcrest, near Frank, Alberta, nearly two hundred miners lost their lives. The cause of the explosion cannot be ascertained. Some who escaped the terrible blast survived it only to be consumed in the fire which raged afterwards, shutting off many who might otherwise have reached the surface alive, or to be caught in the deadly after-damp—the silent death of coal mines. Rescuers worked bravely, but to little purpose in the blinding smoke and flame. The Hillcrest Collieries are subsidiary to the Canadian Pacific Company, which thus suffers disaster to another of its varied undertakings.

SOMETHING of an innovation in the business world is being tried out in many Western towns and cities. It is known as "Dollar Day." All the merchants in a town by concerted and pre-arranged effort give to the public the greatest possible range of bargains in all lines for one dollar. It is, in effect, a bargain sale in every store in the town, though the greatest emphasis is laid on the "dollar bargain." In the Coast cities the movement has met with the greatest success, and the merchants are loud in praise of the experiment. Smaller towns in the interior are planning to test it also. The idea is good, but a strong spirit of co-operation between the merchants is one of the first essentials.

HONOR HAS COME from the King to Canada's first statesman. The premier is prominent in the list upon whom birthday honors have been bestowed. He is plain Mr. Borden no longer, his full and mellifluous title extending to the dignity of Right Honorable Sir Robert Laird Borden, P.C., G.C.M.G. No one disputes the worthiness of the premier for his new honor, even the doughtiest of his political opponents extending congratulations to him.

Boy Scouts Concert.

Local Troop Prove Good Entertainers.

The excellent program of the Boy Scout Concert given in Empire Hall last Friday evening was worthy of a much larger audience, and we can very truthfully say that those who refrained from attending missed a pleasant surprise. A good portion of the evening's entertainment was provided by the boys themselves in camp scenes, gymnastic exercises and drills that reflected great credit on both the boys and their instructor, Assistant Scout Master W. S. Kent.

Honorary President, Major Hutton, occupied the chair, and in a few very appropriate and pleasing remarks commended the excellent features of the Boy Scout movement, and urged that all Summerland boys of sufficient age join the local troop. He advised the parents to give the movement every encouragement, as it meant making better citizens of our boys.

The opening number was a camp raid by night, followed by a demonstration of first aid, both of which were watched with the closest interest by the audience. Stave drill, various forms of pyramid exercises, hopping, rolling, vaulting, and similar gymnastic performances were carried through with a zest and swing by the Scouts that showed the keenest interest in their work. Perhaps the most pleasing feature of the evening was the closing one, a camp scene by night, in which the boys were gathered round their camp-fire telling stories and singing songs. As an advertising feature for the summer's camp it was very effective and appropriate.

A dialogue carried on by two Scouts, H. Harris and W. Smith was very cleverly given. The two were dressed as old farmers, one of whom declaimed the Scout movement, while the other opposed his arguments by citing several instances where the Scouts' "good turn" had helped him considerably, showing how the Scouts made themselves a benefit to the community generally. A short humorous recitation by Scout Allen Harris was also well received.

The musical portion of the program was provided by well-known local talent, and the persistent demands for encores telling of their hearty reception. Songs were rendered by Mrs. Geo. Ross, Mrs. G. N. Gartrell, Miss Myrtle Clay, and Mr. Ben Newton, to the accompaniment of Miss Logie and Mr. W. S. Kent. After Mrs. Ross had responded to an encore, she was presented with a beautiful bouquet.

At the invitation of the local troop the Naramata Scouts were in attendance in charge of their Scout Master, Rev. W. P. Willan. When the program had been completed Rev. C. H. Daly, on behalf of the Scout Council, tendered the thanks of the troop to Major Hutton for his chairmanship, and to all who had assisted in the evening's entertainment. For the visitors from across the lake one of the Naramata Scouts expressed thanks to the local troop for the evening of enjoyment.

The proceeds will probably amount to about \$40, which will be devoted to the fund from which is defrayed the expenses of the annual camp.

Mr. W. J. Robinson has been at Peachland for the last two days.

Felix Hotel Opens.

Well-Appointed Building Does Credit To Summerland.

Unostentatiously, with no great flourish, the Hotel Felix, under the proprietorship of Mr. C. H. Cordy, opened its doors for business on Wednesday of this week. By the close of the day five guests had registered, and without exception all were loud in their praise of the appointment and service of the new hotel. Naturally, as may be expected, all arrangements are not working as smoothly yet as may be expected a little later, for there are still some details of lighting, fittings, and furnishing to be worked out.

To a representative of the Review Mr. Frank Marshall, the manager, extended the courtesy of a complete inspection of the hotel. The building is furnished throughout with elegance and good taste. No comfort has seemingly been sacrificed on account of expense.

The gentlemen's writing and smoking room on the left of the entrance hall is provided with comfortable leather upholstered chairs, and writing tables. Opening from this is the dining room, in which twenty-four guests can be accommodated at once at six tables. The table appointments are in good style, and with the excellent cuisine which the management promise, the dining room will give a service complete and satisfactory in every way. In the roomy kitchen the customary hotel culinary provision has been made, to be in the charge of Mrs. Marshall.

The available bedrooms are twelve in number, eight double rooms on the first floor, and four single rooms on the second floor. All are nicely carpeted, and have massive-looking brass bedsteads, with Restmore mattresses and immaculate bed linen and blankets. Two large front rooms, which are especially well furnished, are each provided with a large double washstand, dresser, cheffonier, three chairs and a rocker, all of good appearance as well as the bed, comparing favorably with any city hotel furnishing, and especially attractive to married couples. The other double rooms are almost as well appointed, but not quite as large, and all, single and double, are light, airy and well finished.

At the west end of the corridors, on the first and second floors are pleasant verandahs, overlooking Shaughnessy Avenue, on which afternoon tea may be served. Rustic furniture in hickory wood has been provided, and it is a safe prediction that these verandahs will be popular with the hotel guests. A ladies writing and sewing room is at the west end of the first floor, and commands a sweeping and uninterrupted panorama of lake and hills. It is being furnished in the same quiet taste as the remainder of the hotel, with a mahogany upholstered suite, writing and sewing table, and is designed to make a room conducive of rest for the lady guests. Bath room and toilet are also on the first floor. Four single rooms and one double room are on the second floor, with a small room used for storing linen, etc.

Believing that good service is the best hotel advertisement Mr. Marshall aims at giving Felix Hotel guests every satisfaction, and if the hostelry continues on the same lines of comfort, neatness and good taste that characterized its opening, there is every certainty of its becoming favorably known far and wide among travelling people, making yet another attraction of which Summerland can boast among its many others.

SPRAINED HIS ANKLE.

Mr. W. C. Kelley was confined to his bed for a time this week suffering from a sprained ankle. While driving down to Penticton on Tuesday to attend to some court duties his horse began to behave badly. Mrs. Kelley, who accompanied him, jumped clear of the rig, and at the same time Mr. Kelley jumped and caught the horse by the head. In doing so Mr. Kelley twisted his ankle, but thought little of it at the time, and, after quieting the horse, continued the journey. By evening, however, when he reached home, he was scarcely able to walk, and was suffering considerably.

Good prices are being offered for early potatoes, according to advice received from the United Growers. Just what the price will be depends on quality and time received. Forty-two dollars per ton is being offered at Vernon for old potatoes.

Telephone Pointers.

Some Important Helps For Yet Better Service.

Owing to the increased business on the telephone switchboard the operator is often required to answer as many as 30 to 40 calls per minute, and is unable to listen to any conversation other than the number wanted. In the event of conversations regarding telephone matters call up 13 or 17, or ask for the Manager.

All telephone troubles should be reported to the Manager and not to the operator on duty. It is the policy of the Telephone Co. to give the best possible service. Kindly report any trouble or dissatisfaction promptly so that it may receive prompt attention.

It will enable the operator to give quicker service if the telephone users ask for their parties by number and not by name. If you have no directory ask for one. Any new telephones that are not on the directory will be published in the Review, or may be obtained from operator.

Kindly look up the number you want before taking the receiver off the hook, so as not to keep Central waiting. Also answer your 'phone promptly, as it will add considerably to the efficiency of the service.

The Company would also ask that subscribers limit their conversations, as far as possible, to three minutes. We have no hard and fast rule to this effect, yet it is much appreciated by the party who is waiting for the line.

If you are pleased with the service tell others. If not, tell the Manager, not the operator.

Yours, for efficiency,
Summerland Telephone Company,
Limited,
O. ATKINS, Manager.

Sinning Against Your Home Town.

PART I

It's a big subject—this of one's home town, because it means dealing with the present generation and the generation that is to come.

The Review considers this subject so vital—so important and all bearing on the present and future of Summerland, that it will open its columns weekly to its discussion.

This series of articles, "Sinning Against Your Home Town," will deal with the subject in a big way—they will be written concisely and straight from the shoulder to make it clear to everyone. The points brought out will be facts as found by over 500 of the leading merchants and business men in the West. The message they bring will be of personal interest to every man, woman and child in this municipality. They will show what will happen if we all continue to "Sin against our home town."

WHAT AND WHY IS SUMMERLAND?

It is a growing community of 2500 people. Its future growth and prosperity depends on these people, as we will show.

Why should a man bring his family to Summerland? Because Summerland offers him opportunities to provide for them—whether in a business way or farming, Summerland offers his family social and pleasure attractions. It is very pleasant to live in Summerland.

When this man brings his family here, he has in mind making it his home for good. He is going to spend all his efforts and time to build up that home. He is investing his labor to provide for his family. A place built by men like this will always grow and prosper.

The more attractive he makes his home, the more valuable it becomes. In ten years, his original investment will double and triple if Summerland, as a whole, keeps pace with him.

The merchant coming to Summerland to go into business, sees at a glance that it is a live and busy community. Its people work and are always improving. This gives him confidence—he sees his way of investing in a stock of goods and opens up to serve the people with the necessities or luxuries of life. He secures the best goods made. He wants to give to the people of Summerland the best possible at a reasonable cost to them and a reasonable profit to himself. Thereby, one more store is added to the business district of Summerland. And so it keeps going, more and more people locating in Summerland, and more and more business concerns investing money in goods and in the present and future prosperity of Summerland.

And so we have a district going forward of its own volition—building itself up—getting more prosperous and offering more opportunities to outsiders. This is what happens when we are "helping forward our home town." The local business man is patronized—he takes your dollar and puts it in a Summerland bank. He pays his rent with it to a local landlord—uses it in buying his personal necessities and those of his family, part of it goes for local amusements, or invests it in a lot for his home. And so the dollar stays in Summerland and accomplishes a great deal towards the building of Summerland. One can easily see by that dollar going out of Summerland, a good many things would not happen—the landlord might not get all his rent—last year's suit would have to do for this year—the new addition to the home would have to go, etc. All because that dollar went out of Summerland when it might have stayed at home.

WEBSTER DEFINES SINNING AS "VIOLATING DUTY."

It is the duty of every man, woman and child in Summerland to help build up the community—to make it prosperous and make it grow—to encourage outsiders to come in. When you send East or to the Coast to "replenish your wardrobe"—to purchase "new furniture for your home"—when you send your money to mail order houses—do you realize that you are SINNING AGAINST YOUR HOME TOWN—that you are VIOLATING YOUR DUTY TO SUMMERLAND? Well, you are. You are laughing at your local merchants—prolonging the needed municipal improvements—decreasing the value of Okanagan soil—discouraging the most worthy efforts to cater to your every wish—fooling yourself by sending that dollar out of Summerland. It is natural for every person living in Summerland to desire to purchase the best of all that makes life worth living. From a personal standpoint—clothing, hats, underwear, food, confectionery and the innumerable pleasures and recreations so necessary to balance one's existence—

Or, from your home standpoint, timber, hardware and cement to build your home with—plumbing, flooring, moulding, etc., to finish it off properly—furniture, appliances, furnishings to make living comfortable—

No one gainsays you this privilege—but would it not be better for you to buy these things in Summerland? By doing this—by keeping that dollar in Summerland you encourage the development of your home town.

By this action of yours in recognizing merit—you warrant the entrance of new industries, the expenditure of huge sums to start them. Such improvements attract attention to this town of yours—it attracts investments in its possibilities and its future probabilities. You are hurrying forward the time when Summerland will come into its own—when the province and country will recognize its advantages. By keeping this dollar at home you are helping yourself—the coming generation and the future recognition of Summerland. We believe it is your duty to give this subject serious consideration. We ourselves believe it is so serious that the following articles on this subject will contain the experiences, ideas and suggestions of over 500 merchants and business men in the West, as to what they think the result will be when we are no longer "SINNING AGAINST OUR HOME TOWN."

Read them. The second instalment of "SINNING AGAINST YOUR HOME TOWN" will appear in our next issue. In it the true value of your town lot or fruit farm will be shown.

Concrete Tanks and Troughs Never Rot or Leak

THE most practical tanks, whether for water or sewage, are built of concrete. They never rust, rot, dry out or leak. They never need new hoops or paint. They last a lifetime and seldom require repairing, which makes them the cheapest tanks that can be built.

Clean, Sanitary Watering Troughs

are just as necessary as the animals that drink from them. The farmer's best interests are being served when his stock is insured a plentiful supply of clear, clean water from a trough that is permanent and sanitary.

"What the Farmer can do with Concrete" is the name of a handsome free book that tells all about concrete tanks, watering troughs and other uses of concrete that will save every farmer many dollars. Write for it to-day.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full

quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

W. Cameron of Kelowna is registered for the week at Hotel Naramata.

Master Jos. Morsch wrote on his High School examinations at Summerland this week.

One lone candidate for the Entrance Examination, Edmund Boothe, represented the Naramata School at Summerland this week.

Mrs. M. Allen has purchased a new driver this week. The animal is certainly a handsome beast and well deserves the name of "Dandy II."

Mr. Bert Lipsett of Holland, Man., has accepted a position with the Naramata Supply Co., and entered upon his new duties on Monday morning.

School closed on Thursday in order to allow our teacher to write off his academic examination for B.C. Mr. Richardson wrote his papers in Summerland.

A few lines of Shoes as Specials will be offered at HALF Price during the big sale at the Leather Store, Summerland. See A. J. Beer's ad. on page 2. Here is where you get the profit and he loses.

The raspberry season is now on, and quite a number of shipments to outside points have been reported. Fact is, a number of our citizens are already boasting that Naramata is the earliest spot on the lake. That's the way for a booster to talk and who wouldn't a booster be?

The recent destruction of a small western town through one night's fire would suggest to our citizens the advisability of using every precaution to prevent the possibility of a repetition of such a calamity in our town. Apparently ample provision has been made by at least the business section for fire fighting but an occasional practice by the local volunteer brigade would not be amiss.

PREPARING FOR BIGGER THINGS.

As a direct result of the agitation started some months ago by the members of the Farmers' Institute in regard to the necessity of looking after the water supply, a staff of engineers, headed by Mr. Norrington, C.E., of Pentiction are this week busy looking over the hills back of town, having in mind the selection of a suitable site for a reservoir in which to store a supply in case of a pinch, and to enable the district to very substantially extend the scope of the electric light plant.

The plan, as outlined before, appears to be to borrow money on a long term at extremely low rates and buy out any existing plant and own and control the water and plant as a community, only under government supervision. It is commendable indeed to see the active way in which the government authorities are responding.

The work of surveying, preparations of plans, will probably occupy the greater part of the summer, according to Mr. Norrington.

PROMOTION LIST OF NARAMATA PUBLIC SCHOOL.

Our local school closed on Thursday of this week for the summer holidays, and both teacher and pupils are now entering upon a well-earned period of relaxation.

Following is the promotion list:

II. PRIMER to I. READER—Stanley Allen; Malcolm Walters.

I. READER to II. READER—Donald Manchester; Margaret Mitchell; Donald Salting; Gordon Williams.

PRIMARY to INTERMEDIATE—II. Reader to III. Reader—Margaret Allen; Ralph Boothe; James Bruce; Ira Hughes; Clifton Roe.

INTERMEDIATE to SENIOR GRADE—III. Reader to Junior IV.—Ina Ireland; Willie Mitchell; Edward Morsch; Alice Myers; Dora Williams.

JUNIOR IV. to SENIOR IV.—Marion Bruce; Catharine Hancock; Marie Hancock; Earle Hughes; Edith Roe; Arnold Stiff.

BORN—On Wednesday, June 24, to Mr. and Mrs. T. H. Boothe, a daughter.

R. V. Gordon of Victoria has come to spend a few months at Naramata.

O. F. D. Norrington, C.E., of Pentiction, was a business visitor to town on Tuesday of this week.

Mrs. O. F. Oxley of Kelowna arrived in town on Monday evening's boat to pass a short holiday season.

This week the cherry crop is at its best, and more beautifully attractive sight it would be difficult to find than the rows upon rows of cherry trees laden with their bright colored clusters.

The honor list of the Naramata School, as submitted by the teacher, Mr. A. B. Richardson, is as follows:—Department—Vera Salting. Punctuality and Regularity—Clifton Roe. Proficiency—Alice Myers.

Mr. Holde, fruit pest inspector, was in the district again this week. He reports that the fire blight has so far gained but little headway at this point in the Valley, but that though the disease is pretty well stamped out, still cautions the lot owners to remember that eternal vigilance is the price of victory.

Naramata is facing a new problem this season—the problem of handling her first real crop of fruit. This year's crop will be, when one considers the available local help, a heavy one, and if the picking of the cherries has necessitated calling upon the young ladies for their co-operation the necessity will be doubly emphasized when the peach crop is ready.

From Saturday, June 27th, to Saturday, July 11, inclusive, A. J. Beer will offer at the Leather Store, Summerland, a 20 per cent. sale discount for cash on all lines of Shoes, Gloves, Trunks, Bags and Valises. Those who patronized Mr. Beer's sale last December will remember the up-to-date shoes and genuine bargains they received; you just take your choice. A ticket will be given with every pair of shoes over \$1, and the winning number, drawn by raffle, will entitle the holder to a \$5 pair of shoes free. Come early before your style and size are sold.

The recent showers of rain have very materially increased the possibilities of a well-developed sample of fruit.

The Ladies' Aid of the Naramata Church are preparing to give a concert and supper on July 13th, the date of the church anniversary.

Mr. and Mrs. J. M. Robinson held an informal afternoon tea on the balcony of Hotel Naramata on Monday, June 22, in honor of the thirty-second anniversary of their wedding. Only the immediate family circle of friends were present.

Four round trips daily between here and Pentiction for the 1st and 2nd of July is announced in the Okanagan Lake Boat Company's ad. An excellent service is promised for both days. With frequent trips between points this route should be a popular one with those attending the sports.

Peachland Notes.

Mr. A. Town was in Kelowna on Saturday.

Miss Bessie Seaton was in Kelowna on Saturday.

Mr. B. Gummow lost a valuable horse on Sunday.

Mrs. Jno. McGregor spent part of last week in Kelowna.

Mrs. Andrew and child of Summerland spent Thursday with Mrs. D. White.

Miss Grace Logie of Summerland was a week-end visitor of Miss Beatrice Lang.

Miss Olive Cousins, having spent a week here, left on Monday morning for her home in Vancouver.

Mr. Gordon McDougald of the Eburne branch of the N. C. Bank, came home on Saturday to spend his holidays.

Mr. Little and family left for their home in Wenatchee, Wash., at noon on Saturday, having spent three weeks here.

The storm on Saturday played havoc with part of the government lake road, and a number of men, under Jas. Michael, are engaged repairing the damage.

Pentiction played a game of baseball here on Thursday, and suffered defeat at the hands of the town team. A return match will be played on the 1st in Pentiction.

Mr. and Mrs. Thorne left last week on their return to England. They are both pleased with Peachland and its surroundings, but had to be back in England for the holidays.

On Thursday afternoon and evening the Girls' Handicraft Club served ice cream and tea. We understand that they added considerably to their funds. A dance was given in the hall to finish up with.

A ripple of excitement passed over town on Friday when it became known that Miss Bernice Cousin and Mr. Wm. Aitkens had been quietly married in Vernon on Wednesday by the Methodist minister.

The Entrance and High School examinations are being conducted in the High School rooms this week. Professor McIntosh of Okanagan College is the Presiding Examiner. Several pupils from Miss Smith's school at Wood's Lake are among the writers, as also five from Mr. B. Gummow's school at Westbank.

A miscellaneous shower was given Miss Alice McDougald at the home of Mrs. A. Town on Friday night, when Mrs. Town and Mrs. Ferguson entertained in her honor. The many gifts were graciously acknowledged by Miss McDougald.

There are still some thoughtless people in the world, yea and in Peachland too. We allude to the fact that so much fruit is taken into the packing house about six o'clock, thus keeping the staff busy until midnight many nights. As cherries are perishable, they are all conscientiously packed before closing.

The new line to be opened for traffic between Oroville and Wenatchee on July 1st, will be served with mixed trains, leaving both ends every morning and arriving in the evening, the distance being 121 miles. Slow as this time is, if it will only eliminate that horrible layover at Oroville much satisfaction will be given the public. —Star, Princeton.

Canned Meats

Copyright 1910 by G. & S. Zimmerman Co.

Why Worry About Lunch?

A LOOK over our canned goods will chase away your trouble for ever. All kinds of tempting canned meats and fish are carried by this store in great variety. We sell quickly and never have old stock. Consequently you are sure of that fresh natural taste — combined with the appetizing flavor caused by canning — in every brand. Those meats are delicious — as kept and sold by us. Canned and retailed under the Government Pure Food act.

Mr. F. D. COOPER,

Peach Orchard, Summerland

Passing Events: Social, Personal, &c.

Mrs. A. L. Moreland and family came down from Kelowna at the end of last week, and are visiting with Dr. and Mrs. R. C. Lipsett.

Mr. J. L. Logie was called to Princeton early this week on business in connection with his duties as right-of-way agent for the K.V.R.

Mr. and Mrs. T. J. McAlpine left to-day, Friday, for a stay in Princeton for about three weeks. They drove over, 'breaking' the journey at Hedley.

Efforts have been made to secure the promotion lists of the public schools for publication this week, but without success. It is hoped these may appear next week.

Miss Anna Lister, who has been visiting at the home of her parents is returning to her duties in the Vernon Hospital next week. She will probably journey up the lake with her sister, Miss Mary Lister.

E. H. Lock came up from Kaledon on Saturday last and visited over the week-end with friends in Summerland. He spent Monday in Peachland on business, and returned home on the Tuesday noon ferry.

Mrs. A. H. Steven returned to Summerland on Sunday evening with her infant daughter, after spending the winter in Scotland, her homeland. Mr. Steven went east as far as Revelstoke to meet her.

The Summerland tennis club will play the Kelowna team on the home courts to-morrow, both morning and afternoon. Mixed doubles will occupy the three courts during the morning and in the afternoon men's doubles will be played.

Mr. H. V. Acland, Provincial Noxious Weeds Inspector, came into town early in the week, and spent a day or two going over the municipality in search of noxious weed growths.

The Penticton Dehydrating Co. is being organized under the Agricultural Act, with a capital of \$10,000. The company has acquired the right to use a new evaporating process and expect to be ready to handle a portion of this season's crop.

The best man we have in our town for the general good of the town is the one who you will always see on the front seat of the progressive band wagon. He is the first one to extend an open and warm hand to greet the stranger and welcome him to the best town in the province.

Miss Melita Skillen of the College went down to Kaledon on Saturday last, where she joined her mother, who has been visiting for a time with Mr. and Mrs. W. R. Rourke. Mrs. and Miss Skillen returned to Summerland by the Tuesday afternoon trip of the ferry.

On Sunday morning next, at the Lakeside Baptist Church, the Sunday School session will vary from its usual form, to commemorate "Children's Day." After the customary lesson period, some appropriate exercises will be given, mainly by the younger children, and the pastor, Rev. N. McNaughton, will give a brief address. All are welcome.

Miss Mary Lister, who has been in charge of the Garnett Valley School for the past year, and who will next fall be teaching at the Town School, is leaving for Vancouver towards the end of next week where she will attend the sessions of the summer schools which the Department of Education holds annually, giving short specialist courses to school teachers. Miss Lister will take up a course which will specially fit her for giving some vocal training to the children. The course will take about four weeks, and at its conclusion Miss Lister will visit friends at the Coast for a short time.

From Saturday, June 27th, to Saturday, July 11, inclusive, A. J. Beer will offer at the Leather Store a 20 per cent. Sale Discount for Cash on all lines of Shoes, Gloves, Trunks, Bags and Valises. Those who patronized Mr. Beer's Sale last December will remember the up-to-date shoes and genuine bargains they received; you just take your choice. A ticket will be given with every pair of shoes over \$1, and the winning number, drawn by raffle, will entitle the holder to a \$5 pair of shoes free. Come early before your style and size are sold.

Mr. G. J. C. White returned from Vernon on Wednesday's boat. A meeting of the executive of the United Growers was the occasion of his visit to that city.

Harry McLeod came up from Penticton on Thursday morning, and is now working with the Okanagan Telephone Company on their line reconstruction within the municipality.

After a short visit to various prairie points on business connected with the marketing of part of his fruit crop, Mr. John Steuart returned home on Thursday evening's boat.

Mrs. G. M. Ross, Treasurer of the Hospital Auxiliary, wishes to gratefully acknowledge the receipt of \$17.75 from the Summerland Quadrille Club.

Arrivals on Monday evening's boat to visit at the home of Mrs. R. M. Ross, were her mother and sister, Mrs. Mason and Miss Mason from Webster City, Iowa, who will probably be here for about six weeks.

A few lines of Shoes as Specials will be offered at HALF PRICE during the big sale at the Leather Store. See A. J. Beer's ad on page 2, here is where you get the profit and he loses.

Principal R. B. Forsyth of the High School purposes taking in the summer schools at the Coast, taking a course in Rural Science. Miss Ballantyne of the Central School is also said to be contemplating a Coast visit in the same interests.

Miss Clark, who was formerly an operator for the Okanagan Telephone Co., has been engaged by the Summerland Telephone Co. in a like capacity and will enter upon her duties on July first, succeeding Miss Clay, whose engagement terminates on the same date.

There has just come to the editorial desk an excellent series of maps showing the geological formation of the land from Alberta to the Coast, along the International Boundary line. These maps, which are issued by the Department of the Interior, may be seen by any interested, by calling at the Review Office.

Miss Janet Rothwell of the Central School staff, will spend the summer vacation at her home in Regina, Sask. She plans to board the "Okanagan" on Saturday night. Leaving the main line at Revelstoke, Miss Rothwell will journey down the Arrow Lakes, and through the Crow's Nest Pass, making a short stopover en route.

The Baptist Church has under consideration a proposal to invite the Baptist Convention of British Columbia to Summerland next year. If the proposal is affirmed, the invitation will be extended to the convention which meets at the Coast, commencing at the end of next week. It will be recalled by some that this church body has previously met here in convention some seven years ago.

Mr. John D. Woods and his bride came in on Tuesday night's boat. Mrs. Woods came from her home in Perth, Scotland, with Mrs. A. H. Steven, and met Mr. Woods in Revelstoke, where the wedding took place quietly on Saturday last. Mr. and Mrs. Wood have taken up residence on their Jones Flat orchard, and their many friends join in extending hearty congratulations and best wishes for a long and happy married life.

From to-day onwards till the fourth Monday in August the children of the community will be freed of their school cares. The long summer vacation is hailed with delight by most of the young folk, for there are many strong counter attractions at this time of year that seem to make school work something of a hardship. All grades, public and high school, have been busy with promotion examinations, which finished about the middle of the week.

Very much benefitted in health from a nine months' stay in Summerland, Miss L. V. Mills went up the lake on Wednesday morning's boat of this week. Miss Mills proceeded to the Coast, and after visiting there, will go east, stopping off possibly to see Niagara Falls and Toronto. She sails from Montreal by the "Teutonic," in time to resume her work with the National Press Agency about the beginning of August, after a year's vacation, called for by the demands of health.

Bert McLellan with his wife and little ones drove up from Okanagan Falls on Monday and are again occupying their former home.

Mr. B. H. Waymire, representing Messrs. Stirling & Pitcairn, is again in town preparing his packing house for the season's activities.

Kenneth W. Kinnard, late of the Summerland Supply Company's store, and now with the Vernon Fruit Union, was down over the week-end.

The Okanagan Telephone Co. are making some changes in their building which will permit putting their toll office on the street level instead of upstairs as at present.

Will the ladies of the Hospital Auxiliary please remember the first sewing meeting to be held on Friday, July 3rd at the home of Mrs. Hanington, at 2.30. A full attendance is requested.

The north store in the Empire Hall block has been leased by Mr. C. N. Borton, and will be remodelled to suit the needs of his plumbing and heating business. Mr. Borton will move into the new quarters next month.

After a visit of about a year at home in the Old Country, Mrs. H. A. Solly has been welcomed back to Summerland by her many friends here. With her family of little ones she arrived back on Friday evening's boat with Mr. Solly, who met her at Sicamous.

Summerland's cows are absolutely free from tuberculosis. This is the report of Dr. Ilsley, Provincial Veterinary Inspector, who put some forty cows, including the dairy herds and all privately owned animals from which milk was being sold, under the tuberculin test. Dr. Ilsley spent Tuesday and Wednesday in the district.

Another deal, involving the exchange of orchard land for prairie farm property, has brought to Summerland to reside Mr. Brown from near Lethbridge. He arrived on Monday bringing with him a complete household and farm effects, including horses, cows, and poultry. Mr. Brown has traded his Alberta farm for the orchard lot of Mr. P. P. Johnson, near the Captain Ramsay orchard.

At Thursday's meeting of the Council, Mr. C. N. Borton was in attendance on behalf of the government pre-cooling plant, asking that provision be made by changing some telephone wires so that the eight inch galvanized ice chute across the road down into the end of the fruit warehouse, could be put in before the first of next month. He was informed that it was a matter between the government and the telephone company. Later it was learned that Mr. Dobie had agreed to make immediate arrangements, altering the wires so that the work may proceed.

Kaleden Comments

Miss McAloney came down on Tuesday evening from Summerland and is the guest of Mrs. Chas. Hatfield.

Miss Vera King came down from Penticton for the week-end, remaining for her brother, Mr. William King's wedding.

Miss Yuill of Penticton, with other friends, drove down from Penticton on Sunday afternoon with the Rev. Chas. Britten, remaining for the afternoon service.

Several of the pupils from the Public School went to Penticton last Saturday ready for the entrance examinations, which commenced on Monday morning.

Mrs. J. F. Tupper, with her daughter, Margaret, and her sister, Miss Bowell, drove down from Penticton last Saturday morning, spending the day with Mrs. J. Lock.

Mr. Cummings, from the prairie, who is in the Valley for a visit, and is negotiating for orchard land at Westbank, drove down from Penticton with Mr. McKenzie last Sunday morning, remaining for lunch with Mr. and Mrs. T. C. Preston.

FINDLAY-KING.

An interesting wedding took place on Monday afternoon at 3 p.m., at Aldersyde, the home of Mr. and Mrs. J. C. Findlay, when their daughter Annie was united in marriage to Mr. William King, also of Kaleden. The guests were limited to the immediate relatives of the bride and groom, and a small circle of friends. In the evening the happy couple motored out to Sleeping Water where the honeymoon will be spent. On their return they will take up their residence in Kaleden.

COLDSTREAM UNDER NEW MANAGEMENT.

Mr. T. W. Stirling of Kelowna is now the commissioner of the Coldstream Ranch, commonly known as Lord Aberdeen's property. While Mr. Stirling will be the B.C. representative of the English owners, it is understood that he will appoint a resident manager. Mr. Ricardo, who has been in charge of the Coldstream estate for 19 years, has extensive holdings of his own in the same district, and is also manager of Earl Grey's estate near by.

The change of management is one that materially affects the United Growers, as it is understood that Mr. Stirling desires to market the 100 cars or more of fruit and vegetables that will be harvested on the Coldstream Ranch through his own company, Stirling & Pitcairn.

The Coldstream estate are members of the Vernon Fruit Union, but Mr. Stirling is asking that they be released, and it is probable that, upon certain conditions, his request will be granted.

PENTICTON PETITION FOR CUSTOMS HOUSE.

That the establishment of a customs house at Penticton is being seriously considered by the Ottawa authorities, as the result of the petition recently sent from Penticton at the instigation of Mr. Eustace Holden, is evidenced by a letter received last week by Mr. W. T. Shatford from the Hon. Martin Burrell.

In the letter to Mr. Shatford, the Minister states that he has personally taken the matter of making Penticton a customs port, up with Dr. Reid, which seems to ensure that it will receive favorable consideration.

The establishment of a customs house here will be of great convenience to residents, as at the present time all clearances are made through Kelowna, which necessitates considerable delay.—Penticton Herald.

"Twas only a small thing, nothing more than a neatly printed business card, a local product, but it opened up possibilities for business for more than the one who bought it. Seeing on the counter of an hotel in a neighboring town the neat little card of the Felix Hotel, a traveller determined to accept the invitation it conveyed and see what business could be done here. He came. The hotel thus obtained a guest, and the salesman before leaving expressed delight with the volume of business he had booked, and is sure to come again. Advertising pays all round.
