

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 6, No. 32

SUMMERLAND, B.C., MARCH 6, 1914.

Whole No. 292

Refund of Seventy Per Cent. of Local Charges

Proposed By Directors of Summerland Fruit Union.

For some time the office staff and auditor of the Summerland Fruit Union have been busy closing up the year's business and preparing a statement to be presented at the annual meeting. It is reported that this statement will be such as to give the shareholders much satisfaction. The directors, after reviewing the work of the season, which has resulted in a substantial profit, have decided to refund the growers the handsome proportion of 70 per cent. of the local charges. This, coming on the top of the news of the refund of 50 per cent. from the Central,

must indeed be gratifying to all interested in the success of co-operation, and definitely establish the movement in the Okanagan. Copies of the financial statement are being prepared for distribution among the shareholders.

The shareholders of the Summerland Fruit Union hold their annual meeting on the 20th, and, according to a by-law, it is necessary that all nominations for the directorate must be in the hands of the secretary at least ten days before the annual general meeting; furthermore the nominations must be signed by two shareholders.

W.C.T.U. Meeting.

An interesting meeting of the W.C.T.U. was held at the home of Mrs. Gray on Monday afternoon, and considerable business was disposed of. The fact of the Women's Franchise Bill having been defeated in the Provincial Parliament was commented on quite generally, in strong terms of disapproval.

An example of the practical Christianity of the Union was demonstrated by the taking up this week by its members, of the case of a girl who came from Kelowna to town seeking a situation as "help." The members had decided to look after her by receiving her at their homes until she could find work. She has, happily, secured a post at once with a local family. The April meeting of the Union will be held in the Presbyterian Church and in the meantime the members are asked to consider where it would be best to hold the district convention which is to meet here about the last of April.

WEDDING.

WILLIAMS—SCARFE.

There will take place at Vancouver on Sunday evening next a wedding to which considerable local interest attaches, when at eight-thirty, Miss Ethel L. Scarfe becomes the bride of Mr. Francis A. Williams of Summerland. The ceremony will be performed by Rev. H. G. Estabrook, at the home of Mr. and Mrs. Estabrook, on Davie Street.

The bride is the only daughter of Mr. George E. Scarfe of Nevada City, California, mining and electrical engineer, and divisional superintendent of the Pacific Gas & Electric Company. She made an extended visit to Summerland during the spring and summer months of last year, returning to her home in September. Miss Scarfe came up from California to Vancouver early this week, and has since been the guest of Mr. and Mrs. Estabrook.

The groom is the youngest son of Mr. and Mrs. A. B. Williams of Peach Orchard. He has been resident in Summerland for about seven years, and during most of this time has been connected with the Review. He left for Vancouver on Thursday morning.

Upon their return to Summerland from the Coast, Mr. and Mrs. Williams will take up residence in the R. H. English cottage on Thirteenth Street, which they have rented and are furnishing.

The annual meeting of the Women's Auxiliary of St. Stephen's Church was held in the rectory on Wednesday afternoon. The treasurer's and secretary's reports were read and approved, and officers for the ensuing year elected as follows: President, Mrs. Clouston; Vice-Pres. Mrs. A. G. Simms; Treas. Miss Cartwright; Secy. and Corresponding Sec. (on behalf of Mrs. Solly) Mrs. Robertson. The president will be glad to welcome new members. The branch of the church's work carried on by the women is useful and necessary, and there is wide scope for it this year.

The Summerland Hospital.

Activities Of Committee.

If the citizens of Summerland respond as heartily as it is hoped the new hospital should be an accomplished fact with us before so very long. A vigorous plan of campaign is being carried out by the energetic committee, and a thorough canvass of the community has begun. The board of directors has been appointed as follows: Messrs. W. J. Robinson, chairman; Messrs. R. Clouston, E. B. May, H. C. Mellor, Jas. Ritchie, G. J. Coulter White, and Mrs. R. C. Lipsett. The committee who will work with them are Messrs. C. Napier Higgin, F. A. C. Wright; Mrs. R. M. Ross and Mrs. W. H. Hayes.

A meeting of the Board was held at the Men's Club on Tuesday afternoon, Mr. W. J. Robinson in the chair. It was decided to start at once on a canvass of the entire district for funds and all promises of help. Prairie Valley and Peach Valley will be canvassed by Messrs. C. N. Higgin and R. Clouston; Garrett Valley, Jones Flat and West Summerland, Messrs. Mellor and Wright; Peach Orchard and Gartrell Point, Mrs. Lipsett and Mrs. R. M. Ross; upper part of Ward III, Mrs. Hayes and Mr. W. J. Robinson; town, Messrs. E. B. May and W. J. Robinson. The canvass will be completed and a meeting of directors is to take place next Thursday, March 12th, at 10 a.m. at Mr. W. J. Robinson's office. Arrangements will be then made for the holding of the annual meeting, the date of which will be announced later.

Our local Oddfellows have come forward generously in the matter of the Hospital, and if all such bodies emulate their example, the comfortable establishment of the institution should be an assured thing. Okanagan Lodge, No. 58, decided at its usual meeting on Friday night to completely furnish a large ward at a cost of not less than \$200. They wish to have the corner ward for this purpose, and intend it to be thoroughly well fitted up.

CURFEW TO RING.

The new curfew bell ordinance, one of the most important pieces of legislation considered by Penitton's new council, was finally passed last week. The by-law provides that at the ringing of the curfew (which is also the fire bell), all boys under the age of fourteen and all girls under the age of sixteen, who are unattended by parents or guardians, shall immediately betake themselves to their homes, and if after fifteen minutes has passed they are still found wandering, the police are authorized to escort them. In the winter time the bell will be rung eight times at 7.45 p.m., and in the summer the ringing will be one hour later.

Where parents do not take any action in preventing their children from becoming habitual "stayers out," a clause is inserted in the by-law which provides for a fine.

Supt. J. J. Mitchell spent Wednesday in Penitton on business.

Route Practically Settled.

To Go Via Princeton.

That the approval of the Dominion authorities has been given to the revised plans of the K.V.R. whereby the route is deflected to run through Princeton and up the Tulameen and Otter instead of going via Aspen Grove is the substance of a report from Victoria. It is also stated that the Provincial Government has given its consent to the change of route, and that the Aspen Grove country will be served by a branch line running east from Otter Summit. It is further stated that a spur will be built south from Princeton to serve the Copper Mountain mining camps. The Kettle Valley Railway Company will of course not receive any subsidy from the mileage from which it is being relieved from building.

PROGRESS OF WORK.

About \$10,000,000 has also been expended on the Kettle Valley road. Steel has been laid on nearly one hundred miles of the one hundred and thirty between Midway and Okanagan Lake, and that section should be finished by early autumn, giving direct connection with Nelson. It is predicted that the portion between Osprey Lake and Princeton will also be completed this year. From Princeton west to Coldwater Summit the K.V.R. will use V.V. & E. rails. A branch of the C.P.R. now runs from Spence's Bridge south to Coldwater Summit which will be used until the completion of the Coquihalla section through the Hope Mountains. This will probably be a little more than a year hence.

Local Sunday School Workers

Hold Interesting Meeting.

Most interesting was the day's program of Summerland Sunday School workers and others on Tuesday in St. Andrew's Church. Excellent speeches and a great deal of sound knowledge from experts in Sunday School work were enjoyed by the large gathering who listened to Mr. I. W. Williamson and Miss S. E. Spencer. At the afternoon meeting in the church, which was not so well attended as it might have been, Mr. Williamson gave an address on various aspects of Sunday School work, and Miss Spencer dealt with primary work, conducting a model lesson in that section with great ability and fluency of thought.

The evening meeting was well attended when Mr. Williamson gave a thoroughly interesting account of the World's Convention held in Zurich last summer. A description of this unique gathering from one who had taken part in it proved fascinating to his hearers. Miss Spencer spoke briefly on graded helps, and conducted an imaginary junior class in a most attractive manner.

At mid-day Mr. Williamson addressed a meeting of the older boys in the Central School, when he unfolded a scheme of the Provincial Sunday School Association for direct instruction in the sports and studies of growing boys. A "Boys' Convention" of three days is expected to take place next August here. The plans now being laid by which the physical and spiritual welfare of the boys are to be directed by the organization will then be in action, and a great deal of good is expected from the working of this Sunday School scheme for our boys.

Dominion Experimental Farm Site Outlined This Week

By New Inspector of Indian Agencies, Major Megraw.

Of late those of our citizens particularly interested in the establishment of an experimental farm here have been restive because of the seeming delay on the part of the Department of Agriculture. It would seem from recent developments that this delay was due to the fact that there has not been an Inspector of Indian Agencies in the district. This important position has been offered to and accepted by Major Megraw, editor of the Hedley Gazette, and though he does not assume office until March 16th, he

has been urged to inspect the site of the proposed experimental farm and report at once. The Major arrived on Tuesday and went over the ground, with Indian Agent Brown that afternoon and with Messrs. Mellor and Watson and Indian Agent Brown again on Wednesday. The Agricultural Department are now asking the Department of Indian Affairs for two hundred acres below the railway and two hundred acres of range land above the railway, and it is not improbable that more than the two hundred acres of bench land will be acquired.

Central Selling Agency.

Better Prices For Growers.

Vernon, B.C., March 3 (special).—Substantial reductions in the packing and handling charges at the Vernon Fruit Union, and a big saving in the price of boxes for all kinds of fruit this year were two of the important points brought out at a meeting of the Oyama growers held at the Oyama public hall last Friday afternoon.

R. Robertson, Manager of the Okanagan United Growers, and W. Scott Allen and J. W. Hayward went from Vernon to address the meeting, which lasted from 3 o'clock in the afternoon until nearly 7.30 in the evening. The meeting was held under the auspices of the Oyama Board of Trade.

"There are some problems in connection with the Central which I wish to explain to you," said Mr. Robertson. "You have all heard rumors of various kinds, and I am here to give you the facts, and answer all questions to the best of my ability."

Mr. Robertson then rehearsed briefly the history of the Central, and reminded his auditors, that when the Central began operation it had practically no capital, that some of the Unions were not formed, and many of the growers had not signed contracts—a fact which made proper estimates of the amount of the crop to be handled practically impossible.

The existing wholesale and brokerage organizations in the prairie provinces were then explained by the speaker, who gave reasons for his firm convictions that the only feasible way to work last year was through the existing channels of trade. "It is my firm conviction," he said, "that the brokerage charges cost us nothing, though we paid out more than \$8,000 in brokerage fees, for the brokers did give us distribution. We handled fruit, vegetables and hay worth \$448,391, and the charges of the Central's entire operations were only 4.4 per cent. of the whole."

"One reason for dissatisfaction has been that many growers have looked for net returns to themselves to be the same as the figures published of net returns to the Central, forgetting entirely that the handling charges of the Central had to be deducted, as well as the packing and overhead charges of the locals. There has also been a certain confusion in the minds of the growers as to the proper functions of the locals and the Central. The local Unions receive, grade and pack the fruit and produce, whereas the Central merely assembles and markets the shipments."

William Hayward of Oyama then queried the speaker concerning certain alleged contracts for the delivery of 100 carloads of apples.

Mr. Robertson denied the existence of such a contract, but told of two contracts, one for 20 cars and one for 75, and then explained the conditions leading up to each deal. Questioned concerning the rumors that many growers had broken their contracts with the locals, Mr. Robertson gave actual figures showing the reports to be unfounded. Only four or five growers have cancelled their contracts with the Vernon Union, one

Over-Seas Club.

The annual general meeting of the Over-seas Club was held on March 2nd at Mr. George Sinclair's house, and the officers elected for the year 1914 are as follows:

President, G. R. Hookham
First Vice-Pres. John S. Ritchie
Second " W. C. W. Fosbery
Sec.-Treas. Chas. A. Marshall
Committee—R. H. Helmer, T. Ramsay, J. Mutton, H. Collas, E. R. Simpson, F. A. Miller, R. W. Deans.

Finance Committee—H. Collas, W. C. W. Fosbery.

There is to be a meeting of the Club on Tuesday, March 10th at 8 o'clock at Mr. R. H. Helmer's home. The principal object of the meeting is to discuss the Imperial Naturalization Bill which will shortly be introduced before Parliament, and if thought fit to pass the subscribed resolution which the secretary has received. Mr. G. R. Hookham will take the chair.

PEACHES IN LONDON.

Peaches, ripe and delicate of flavor, and in perfect condition, were on sale for four cents each a fortnight ago on the fruit stalls of the London "costers" in Farringdon Street, London, England. They were from Cape Town, South Africa, which is a three weeks' voyage from the Old Country! What would not many a wealthy resident of London's West End give for a ripe Okanagan peach during the coming summer? When luscious South African peaches can be eaten in England in March by anyone possessing four cents, it sounds as if the problem of soft fruits export from our Eden of glorious fruit must be tackled at once and solved! There are rumours that it is to be! It should be no miracle, in the face of the South African peach episode, for the Okanagan peach to appear in all its perfection on the breakfast tables of Mayfair, London, England.

at Penitton, four or five at Armstrong, and none at Salmon Arm, Enderby, Peachland nor Summerland. All of the Kelowna growers cancelled the old contracts because of a legal technicality, and are now signing a new form of agreement.

Mr. Robertson, at the request of G. M. Watts, explained thoroughly the principle of the co-operative movement, and made clear the organization of the locals and the Central in the Okanagan Association. He showed the necessity, from the point of view of the Central, of growers signing contracts with the locals.

"We must have contracts and approximate estimates, in order to judge of our trade prospects," he said. "Suppose, for instance, that from a given district we expect only 10 tons of apples, and get instead 50 tons; or suppose we expect 50 tons from a man who has promised to sell through our organization, but who finally sells only 10 tons through us. In the one case we would have an over-supply, and in the other case we might have a shortage, and might have oversold beyond our power of delivery. If we can know approximately

(Continued on page 2.)

Finest Telephone System In Okanagan Valley

Is Now Summerland's Proud Boast.

Antiquated System of Okanagan Company Completely Supplanted by Most Excellent Plant of Summerland Company.

Many of Summerland's citizens are renewing their acquaintances this week over the telephone. Quietly and without fuss most of the 175 instruments have been installed, and as quickly as possible connection with central "tested out." The system was given life early in the week by a due charge of the electric "fluid" into the large storage batteries in the exchange building, and this energy is now permeating practically the whole system.

What a marked improvement this system is over the old makeshift which Summerland tolerated so long.

Summerland is to be congratulated upon its foresight in taking the initiative in introducing the central energy telephone system into Okanagan Valley, and thus bringing in a new era in telephony. Already citizens are commenting on the alacrity with which messages are handled. We now have here without doubt by long odds the best telephone system in the Okanagan, if not in the interior of B.C.

Since Tuesday afternoon when the first few connections were made the new exchange has been in operation and by the end of this week probably all of the 175 subscribers will be on the call. For a few days there are likely to be a number of calls for the "trouble man" but Supt. Atkins is delighted with the way the new system is working, and has pronounced it all that could be desired.

That the new service is going to be a popular one and will soon have 250 subscribers, or perhaps more seems certain. New applications are coming in daily and the directors find it necessary to make a third order for instruments. The list of subscribers as at the first of the week with their telephone numbers was as closely as could be ascertained as follows. This list is subject to a few corrections and already quite a few additions, which it is the intention of the Company to announce immediately. Applications should be made either to Mr. Atkins the Superintendent, or to the Secretary, Mr. K. S. Hogg.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—60c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MARCH 6, 1914.

PROVINCIAL ESTIMATES.

THE FINANCIAL ESTIMATES for the year 1914 were introduced before the Legislature at Victoria last week. The appropriation for road work throughout the province totals \$2,861,000. The grant for the Okanagan district is to be \$88,000. Aid will be given the various Farmers' Institutes to the extent of \$20,000. For the suppression of fruit diseases the appropriation is \$15,000, while \$40,000 is set aside for fruit exhibitions and general publicity work. For the inspection of nursery stock, trees, fruit, plants, etc., \$30,000 will be expended. Agricultural associations are to be aided to the extent of \$70,000.

One feature of interest in the estimates is the new municipal department which is provided for in the bill now before the Legislature. Financial provision has been made for the appointment of an Inspector of Municipalities, whose salary will be \$3,000 per year, a clerk and a stenographer.

PUBLIC SCHOOLS ACT.

AMONG the many important enactments of the Legislature now sitting at Victoria is a new bill amending the public schools act. The definition of "Trustee," by some mistake in last year's amendment, shut out women in rural school districts, but by the new act they will now have the same privilege of serving on school boards as women in cities now enjoy.

Just previous to our last municipal election it is said that one of our leading lady citizens consented to run as a candidate for school trustee, but later it was learned that, through an error in the act, no women were eligible. Now we shall in all probability have one or more representatives of the gentler sex sitting at the school board meetings.

The new bill also restricts the number of pupils that may be in any one room to forty.

THE PANAMA CANAL will be opened for merchant ships on July 1st, according to Col. Goethals, provided of course there are no unforeseen accidents. Col. Goethals, who has been in charge of the construction, says he has always been opposed to the exemption of American shipping from the payment of canal tolls.

DENMARK, Belgium, Holland, and more recently Ireland, have all experienced great revivals of agriculture and a largely increased material prosperity through co-operative organizations. Our own government is now attempting to foster similar organizations in this country. Prince Edward Island is one of the chief sources of egg supply for Eastern Canada. There egg-selling associations, fostered by the government, have multiplied in number, and steadily increased in usefulness. It is predicted that their success will lead to the development of similar organizations in the other provinces for the grading and distribution of all good products.

"THE CANADIAN LURE" begins to alarm the placid legislators of the United States at Washington. Much perturbation has been aroused by the ever-increasing emigration of successful American farmers to the Canadian north-west. A senate lobby committee has been investigating the question and made the discovery that no small source of Canada's magnetic attraction lay in the judicious use made of rural newspapers in an annual advertising campaign which this country undertakes at a cost of sixty thousand dollars. In the last ten years eight hundred thousand farmers have left American soil for the land of the Maple Leaf, and before the passing of 1914, it is expected the number will exceed one million.

CENTRAL SELLING AGENCY

(Continued from page 1).

imately, what we shall have to sell, we can then prepare intelligently to market the produce.

Mr Robertson then made the declaration, which he supported by reading a large number of letters and telegrams received during the marketing season, that the Central last year had been the main factor in maintaining and sustaining prices, and had enabled individual buyers to pay good prices. Mr. Robertson gave numerous instances in which the Central had held out for, and received, higher prices than its competitors.

The proposed plan to borrow money on growers' contracts in order to make advances to growers was explained, and Mr. Robertson declared that the Central would borrow solely for that purpose, and for no other. Asked why the Central did not borrow on the contracts in order to get a fund with which to fight the brokerage

houses on the prairies, he retorted by asking if any one would think it sound business to risk the entire crop of the Valley for one year in such a fight.

A saving of many thousand dollars on boxes this year was declared probable by the speaker, basing his calculations on contracts for boxes, etc., already closed. Substantial savings on nails and paper were also forecasted.

W. Scott Allan, in a brief address, promised a marked reduction in packing charges at the Vernon Union this year.

Mr. Hayward, in a short address, outlined the activities and plans of the Vernon Union and Central, and declared his belief that after two years more the co-operative marketing of fruit and produce from the Okanagan would more than have made good the claims and promises of the supporters of the movement. After a unanimous resolution of thanks to the three speakers, the meeting was adjourned.

THE TEN BEST VARIETIES.

What are the best varieties of apples to grow here and to how few varieties should the output be limited? This was the substance of a very helpful discussion at the Farmers' Institute meeting last Tuesday evening.

It was the intention to discuss top grafting, but in view of the coming of lecturers who will deal with this subject the discussion was changed as above.

Mr. R. H. Helmer, who led the

discussion, named what he believed to be the best ten varieties. He thought five enough, but did not know which of the ten to eliminate. His selection was as follows: Yellow Transparent, Wealthy, McIntosh Red, Gravenstein, Jonathan, Rome Beauty, Wagener, Grimes Golden, Winter Banana, and Yellow Newtown.

The fixing upon these as the best for the district will greatly aid in the selection of varieties to which the less desirable trees may be grafted.

Alfalfa In Mature Irrigated Orchards

Clean cultivation of orchards and citrus groves was initiated, and is still practised, in California. Clean cultivation, continued over a period of years, sooner or later exhausts the fertility of the soil, particularly the organic matter; this is especially true in dry belt sections where the amount of decayed vegetable matter, on which soil fertility largely depends, is relatively small. In Oregon and Washington, the fruit growers, who have followed the clean cultivation system almost religiously, have found their soil depleted of fertility, harder to work, and the trees suffering in vitality and producing smaller yields of fruit.

Cover crops, sown in the fall and ploughed down in the spring, have been used quite largely and have given encouraging results, though the method is rather costly. The difficulties of clean cultivation, as well as its high costs, have compelled fruit growers of the south to ask whether some other method of cultivation could not be devised, that would restore fertility, and increase the health of the trees and the yields per acre.

After a great deal of experimenting, much of which I have watched with interest on my visits there, it has proved been very decidedly that, under many conditions, it is quite practicable and very beneficial to keep mature orchards in alfalfa for years. The extensive trials given the "alfalfa sod" culture in Wenatchee and Yakima have now gained general approval, and very many of the orchards in the irrigated sections are now being sown to alfalfa.

In the Yakima Valley, Mr. W. P. Sawyer, Ex-President of the Washington State Horticultural Society, has had remarkable results with a Bartlett Pear orchard of five and three-fifth acres, now twenty years old, in which he sowed alfalfa 15 years ago. The soil is a very deep volcanic ash. The alfalfa has never been ploughed since it was planted in 1898, and the yields of fruit for the 616 Bartletts on the five and three-fifth acres are as follows:

6th Year	-	240 Boxes.
8th "	-	1687 "
11th "	-	1888 "
13th "	-	2350 "
16th "	-	3822 "
18th "	-	2926 "
20th "	(1913)	5000 "

Other years, not stated, gave similar yields: the total production from the fifth to the twentieth year, inclusive, being 43,637 boxes. The orchard was irrigated three times a year, and the alfalfa, which was sown very thinly, is cut three times, and the crop is left on the ground. The trees are in very healthy condition, and the orchard is one of the most productive in the country.

A block of fifty-two Winesap apple trees, near Mr. Sawyer's place, also in alfalfa, gave, in its sixth year, 460 boxes; in its seventh year, 650 boxes; in its eighth year, 1913, 700 boxes. These trees show, however, the results of very heavy bearing. I quote these trees to show that it is quite possible to have very great productiveness in orchards under alfalfa.

A block of one hundred trees of Staymen Winesaps, seven years old, near North Yakima, produced approximately 1000 boxes this year. This also is in alfalfa, and the trees look very fresh and healthy.

The most observant and progressive fruit growers in Yakima and Wenatchee stated to me that mature orchards in alfalfa were producing more fruit, better fruit, and were more healthy than those under clean cultivation, even where the clean cultivated orchards were manured heavily.

In the Hood River Valley, which is normally non-irrigated and where clean cultivation has produced an undesirable soil condition, resulting in some unhealthiness to the trees and lessened yields, they are using red clover and use irrigation water on it. The result has been eminently favorable; the trees have improved in condition very noticeably. Two years ago, Hood River imported \$20,000 worth of hay a year; now they import none, and yet the orchards from which the clover-hay was cut are in better shape than they were.

I strongly believe that many of our dry belt orchards can be sown to alfalfa successfully. The trees should be, at least, six years old, and the soil must be sufficiently deep. Orchards on gravelly or light, or shallow, soils would probably suffer sown to alfalfa. There must also be sufficient irrigation water available, though many observations in Yakima and Wenatchee would seem to show that very little more water is required for orchards in alfalfa than when they are clean cultivated. This is especially the case if the alfalfa is sown thinly; three or four lbs. of seed per acre is sufficient.

Alfalfa sown thinly in mature orchards in our dry belt would restore fertility to the soil and improve the vigor of the trees. It would help to check excessive growth and promote fruitfulness; fruit would be a better quality and color, and there would be less Water Core and Fruit Pit; the trees would also be more resistant to blight; incidentally, the cost of cultivation would be considerably lessened, and there would be a certain amount of feed provided for chickens, hogs, cows and horses.

The most important objections to putting orchards in alfalfa are as follows:—

- (1) Gophers, mice and moles are always more injurious in sod than under clean cultivation.
- (2) Alfalfa certainly requires SOME more water.
- (3) Growers would be tempted to overdo it, sow too heavily, and run the alfalfa primarily for hay, possibly to the detriment of the trees.
- (4) A sod crop keeps the soil cool. This would result in less plant food being available in the early spring, when much is desired to help in the setting of the fruit. This objection does not hold in Yakima and Wenatchee, where both soil and air temperatures are higher than with us.

Everything considered, alfalfa is worth experimenting with in dry belt orchards.

To promote a better knowledge of the matter, the Agricultural Department has secured Mr. P. S. Darlington, State Horticulturist for Wenatchee, to talk on "Alfalfa in Mature Orchards" at Farmers' Institute meetings as follows:—

Vernon,	Saturday,	March 7,	2.30 p.m.
Okanagan Centre	Monday,	" 9,	8.00 "
Westbank.	Tuesday,	" 10,	8.00 "
Rutland	Wednesday	" 11	2.30 "
K. L. O. Bonch	"	" 11	8.00 "
Pencland	Friday,	" 13	2.30 "
Summerland	Saturday	" 14	8.00 "
Naramata	Monday,	" 16	2.30 "
Penticton,	"	" 16	8.00 "
Keremoos,	Tuesday	" 17	2.00 "

The importance of the subject and Mr. Darlington's intimate practical acquaintance with it will make his lectures extremely interesting to fruit growers, generally.

R. M. WINSLOW, Horticulturist.

It is said that during the past season Ontario apple growers sold over 30,000 barrels of apples to various prairie farmers' associations. It is probable that a quantity of B.C. apples will be disposed of to some of these farmers' organizations this year.

Living well beats dying rich.

Kaleden Comments

We are pleased to know that Mrs. Harrison is on the road to recovery after her recent illness.

Miss Archina Preston returned from Penticton last Saturday where she has been visiting her sister, Mrs. Baker.

Mr. and Mrs. Geo. Purvis left last week for the Red Deer district, Alta., where they hope to be able to find land on which they can settle and commence farming.

Mr. and Mrs. Jas. Beddall moved into their new house on the bench during last week, and are expecting a large consignment of furniture and effects from the Old Country.

A meeting of the Women's Mission Circle was held at the home of Mrs. A. S. Hatfield on Wednesday, the 4th of March. "China's New Day" was the subject for study.

Mr. and Mrs. O. E. Tomlin, with Captain and Mrs. Hatfield, went up to Penticton on Tuesday in their automobile, Captain Hatfield going on to Naramata to visit his daughter Mrs. Lewis Block.

Plans are being made by the Woman's Club for a concert to be held in the schoolroom during Easter week. Further details will be given later, but Mr. A. S. Hatfield plans to run a special trip down through the river with the new boat which is now being built in Summerland.

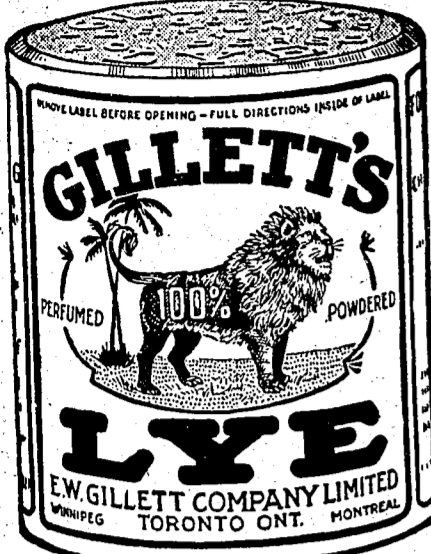

Arrangements have been made for a week evening service in connection with the Baptist Church. Rev. Chas. Britten was down from Penticton last Tuesday evening for the first gathering, and gave a very stirring address, taking for his text, "I am the Way, the Truth, and the Life."

A special meeting of the Woman's Club was called for last Wednesday afternoon in the Reading Room, when it was decided to accept Mr. A. S. Hatfield's offer to enlarge that room, and use it as a meeting place for the club in future. The library will still be maintained and kept there by the members of the Club.

According to a new bill before the Provincial House authorizing further financial aid to the Canadian Northern Railway, the branch line, Kamloops to Kelowna, must be commenced by July 1st next and completed within two years.

The cannery at Penticton is to be operated by the Penticton shareholders. At a recent meeting of the Western Cannery, Ltd., at Kelowna it was definitely announced that the Penticton shareholders will make an effort to secede from the company. About one year ago this company endeavored to get Summerland to go in with them as Penticton had done.

GILLETTS' LYE EATS DIRT

Monday, March 16th, is the date set for the demonstration lecture by Mr. H. F. Upton on the proper method of "Killing and Dressing Poultry." Other speakers will be Wm. Schulmerich, P. S. Darlington and J. L. Hilborn.

The vacancy in the School Board caused by the resignation of J. C. Williams has been filled by the appointment of Mr. S. B. Cash. This appointment was made in the regular way at a meeting called for the purpose at the school on Monday evening.

Current Events - OF - Town & District

Mr. V. L. Watson of Residency No. 1 spent the week-end in town the guest of Mr. H. J. Wells.

One of the local high school pupils, Master Joe Morsch, is laid up this week as the result of a sprained ankle.

Many of the orchardists are seen these days working amongst their trees, busy most of them with the usual spring pruning operations. This coming season promises to be a record crop breaker for Naramata.

Mrs. Morsch made a rather unexpected stay in Summerland on Thursday of last week—the day the lake was so rough that even the "Okanagan" refused to attempt a landing at Naramata wharf in the evening. Mrs. Morsch went across on the usual morning ferry, intending to return on the afternoon trip at 5.30, but as there was no boat she was perforce obliged to remain overnight.

Socialists' "At Home."

On Friday evening of last week our friends the Socialists were At Home to the people of Naramata. The meeting, as hinted in last week's issue, was the outcome of the debate of some two or three weeks ago. The special feature of the evening was an address by Mr. H. J. Wells, manager of Naramata Supply Co.'s Store, covering much of the history, growth and aims of the Socialistic movement.

Mr. Wells is an excellent public speaker, ready, clear, forcible, with sufficient incisiveness to make much of what he says "stick." At the close of the address an open discussion revealed a considerable local interest.

Mrs. Dean Walters, an ardent Socialist, occupied the chair for the evening very acceptably. Two musical numbers filled interludes in the evening's program. One was an alto solo, played by Mr. Harry Mulford on his horn to Mrs. Walters' accompaniment. The other was a ladies quartette by Mesdames Williams, Languedoc, Walters, and Mrs. Cash, who played the accompaniment. Toward the close refreshments were served by the ladies.

Shiloh

"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough

Naramata Literary and Debating Society

The debate on Monday evening on the subject: "Resolved that the country offers more advantages for the upbringing of a family than does the city," conducted entirely by lady members, drew the most crowded house of the series so far. The evening throughout was most enjoyable, the best of good feeling prevailing. The ladies of Naramata, if we can judge from the calibre of the mental development displayed on this occasion are at least worthy of the ballot and a whole lot of praise.

Of the ten ladies called upon to officiate not one caused disappointment. Mrs. Cash, one of the Vice-Presidents, occupied the chair and displayed the familiarity of an old hand at the game. Mrs. Hughes, Mrs. Allen, and Mrs. Salt- ing ably sustained the arguments in favor of the country reared family, while Mrs. Dean Walters, Mrs. J. H. Pushman, and Mrs. F. H. Rounds, the leaders in the negative, were certainly there with the goods. The leaders in both cases especially showed marked ability as public speakers and debaters.

While the judges, Mesdames Davies, Languedoc, and Miss Ruth Chambers were ferreting out their decision, which later was announced to be in favor of the negative, Mrs. Hayward held the attention of the audience with one of her humorous readings, which was well received.

The next evening's entertainment promised by the committee will be a "hummer." Though the details are only now being worked out, and cannot be announced till next week, this much may be said that the "feature" will be a mock trial, with—plaintiff, defendant, judge, jury, and all the paraphernalia and red tapeism of a modern court of law.

Topical Farmers' Institute Meetings

The complete itinerary for the series of spring lectures to be given under the of the Provincial Live-stock and Horticultural Branches in connection with the Farmers' Institutes, preliminary announcement of which was made in last week's Review, has now been distributed. A squad of eleven qualified lecturers will cover the Okanagan and Kootenay districts, five of whom will be heard in this neighborhood. These are Wm. Schulmerich, stock expert, Hillsboro, Oregon; J. F. Smith, Market Commissioner, Victoria; P. S. Darlington, Chief Horticulturist, Wenatchee, Wash.; H. E. Upton, Poultry Instructor, Victoria; and J. L. Hilborn, Vegetable Specialist, Summerland. Ernest Smith, Cold Storage Investigator, who was in charge of the pre-cooling plant here last summer, lectures in the north end of the Valley upon the handling of fruit, cold storage, and the kindred phases of his department.

Following are the particulars of the local meetings:—

Peachland, Orange Hall, Thursday, March 12, 8 p.m., Wm. Schulmerich, "Hogs and Dairy Cattle;" J. F. Smith, "Markets;" J. L. Hilborn, "Growing Early Vegetables." Friday, March 13, 2.30 p.m., P. S. Darlington, "Alfalfa in Mature Orchards;" H. E. Upton, "Demonstration Killing and Plucking."

Summerland, Campbell Hall, Friday, March 13, 8 p.m., Wm. Schulmerich, "Hogs and Dairy Cattle;" J. F. Smith, "Fruit Marketing in 1913;" Saturday, March 14, 2.30 p.m., P. S. Darlington, "Budding and Grafting Demonstration;" 8 p.m., P. S. Darlington, "Alfalfa in Mature Orchards."

Naramata, Methodist Church Basement, Monday, March 16, 10 a.m., H. E. Upton, "Demonstration Killing and Plucking;" Monday, March 16, 2.30 p.m., Wm. Schulmerich, "Hogs and Dairy Cattle;" P. S. Darlington, "Alfalfa in Mature Orchards;" J. L. Hilborn, "Growing Early Vegetables."

As further explanation of the profitable adjunct work to orcharding which is being so consistently advocated for the "dry belt," by prominent authorities, these meetings should be welcomed by all fruit growers who are desirous of getting maximum results from their acreage. Large attendances are looked for.

Important Auction Sale NARAMATA, B.C.

Horses, Cattle, Implements and General Effects.

B.C. Apples Again Win Important Awards.

Hon. J. H. Turner, Agent-General in London for B.C., cabled Sir Riehard McBride on the 14th November that the biggest awards offered had been won by British Columbia, in open competition at Sheffield and Edinburgh, for display of apples.

Mr. Cunningham, B.C. Fruit Inspector, states that B.C. apples are in big demand, and that 100 carloads could have been sold now, had they been obtainable.

The United States fruit growers filled the orders. B.C. fruit growers and prospective fruit growers, act promptly, and enlarge your orchard plans.

We can supply you with all kinds of fruit tree stock to suit the special climatic conditions of each district.

Our prices for fruit tree stock this year are cheaper by nearly one-half, than heretofore offered to B.C. fruit growers, viz., \$8 to \$12 per 100; all grown in our own province, such as Jonathan, Spitzenberg, Baldwin, Northern Spy, and more than 20 other choice varieties.

Patronize home production, and make our province the fruit granary of the West.

Don't forget the beautifying of your home plot. In our stock of over \$100,000 we can meet the most cultured and aesthetic taste, to make home environments a centre of beauty. Evergreen stock, shade trees, roses, flowering shrubbery, bulbs, flowering plants etc. Catalogues mailed free on application.

Holly for Hedges, up to 12 inches, \$20 per 100; Privet, 2 1/2 ins., \$30 per 1,000; Laurel, 2 to 2 1/2 ins., \$20 to \$30 per 100.

NOTE.—Watch this space every week for a Saturday Special. It will pay you.

TEL. 11

Passing Events: Social, Personal, &c.

Mr. and Mrs. Gibson of Carr's Landing spent a day, or two in Summerland this week.

Mr. Carrol C. Aikins of Naramata crossed the lake on Wednesday and spent the day in Summerland.

Miss Isabel Steuart, who has been on a visit of three months' duration to the Coast, returned home this week.

Rev. W. P. Bunt conducted the Methodist services here on Sunday last in the absence of the Rev. R. W. Lee at Penticton.

A General Meeting of the Board of Trade will be held on Tuesday afternoon next at 3 p.m. in the office of D. H. Watson.

Mr. and Mrs. A. F. Solly are spending a while in Armstrong, Mr. Solly driving there on Saturday last and Mrs. Solly joining him later.

Mrs. R. M. Ross and Mrs. George Ross spent Wednesday in Penticton. Mrs. Shields and Mrs. Conway also went down on Wednesday's ferry to visit that town.

Mrs. Elder of Kamloops, a sister of Mr. J. L. Logie, who has been with Mr. and Mrs. Logie on a short visit, left for home on Monday's boat.

Rev. D. E. D. Robertson paid his monthly parochial visit to Trout Creek on Wednesday holding Anglican service there on Thursday morning.

Mr. W. C. W. Fosbery was a passenger to Peachland on Thursday morning in connection with the statistical work he is undertaking for the Provincial Government.

At St. Andrew's Presbyterian Church on Sunday morning the Communion service will take place. Rev. C. H. Daly conducted a preparatory service on Thursday evening.

Mr. E. A. Jones, a qualified druggist from Victoria, is now the dispenser at the Summerland Drug Company. He came in on Monday night to take up his residence in our town.

Some good play will be seen at the basketball match at the College Gymnasium between the Town and College teams on Saturday night. Interest in basketball does not flag and this game promises good fun.

Miss S. E. Spencer and Mr. I. W. Williamson of the Provincial Sunday School Association, who are conducting conference gatherings through the Valley this week, went up the lake to Peachland on Thursday morning.

The blue birds have arrived and with them the golden days of spring. The first of these sapphire feathered symbols of happiness have been fluttering about and when we welcome them we know we have said good-bye to winter.

Mr. O. Elvigion came up from Spokane on Saturday morning last and is spending a while in Summerland on business, and we believe pleasure also, as so many leaving us and returning, appreciate Summerland all over again.

The ordinary meeting of the Ladies' Guild of St. Stephen's Church meets this week (to-day) at the residence of Mrs. A. G. Simms. It will be remembered that Mr. and Mrs. Simms are living in the Conway cottage next the Gymnasium.

A passenger on Monday's boat up the lake was Mr. J. W. S. Logie, who has said good-bye to Summerland, and whom we shall miss. Mr. Logie joins his wife in Seattle, and after a week's stay there they are proceeding to Los Angeles, where they will make their home.

Mr. and Mrs. L. H. Page and their two children went out on Monday morning's boat to their new home in Georgia. Mr. Page was fortunate in finding ready purchasers for his stock of furniture, and disposed of practically everything which he did not desire to take with him.

Bursting buds everywhere, and flocks of every variety of birds arriving daily. By these signs we know that the lovely spring of the Okanagan is again with us. A tiny army of golden-winged finches were roosting one sunny morning this week in the trees on Shaughnessy Avenue, and the song of the little brown lark begins at daybreak, heralding with its sweet notes the most beautiful sunrises.

Mr. J. Downton, was up to Kelowna on Thursday.

L. R. C. Douglas-Hamilton was a passenger to Kelowna on Thursday morning's boat.

Mr. T. J. McAlpine paid a visit on Wednesday to the railway construction camp at Naramata.

The Misses Lloyd-Jones of Kelowna have been the guests of Mr. and Mrs. George Gartrell for the past week.

Mr. T. H. Riley spent a day or two in Peachland this week looking over a business proposition in our sister town.

Two carloads of stock, cattle and hogs, arrived in from Calgary on Monday for L. C. Woodworth, who is expecting a very active summer.

Mr. J. McLean, who was here last summer is expected in about the middle of the month to take up his residence on his lot in Peach Valley.

Mr. G. L. McWilliams is this week announcing in his advertisement an innovation in creating sales, a plan that is too often left to the retail stores of the larger centres.

Rev. C. H. Daly preached at the Presbyterian service held in the Methodist Church on Sunday evening. Miss Anna Hayes sang the solo "Come Unto Me" with feeling and expression.

Miss Margaret T. White, daughter of Mr. and Mrs. G. J. C. White, left on Monday morning for Victoria to enter upon the course of training for nursing in the Jubilee Hospital.

Mr. and Mrs. Jas. Ritchie motored to Kaleden in glorious weather on Wednesday, returning yesterday. The roads are rapidly getting into better shape now for autos, though still heavy in places.

Mrs. Bateman who has been staying with her brother and sister, Mr. and Mrs. Dale, during Miss Annie Dale's indisposition, returned to her home in Vancouver yesterday (Thursday).

Miss S. E. Spencer and Mr. I. W. Williamson, who have been in Summerland for the Provincial Sunday School Convention paid a visit to Naramata on Wednesday and were delighted with the trip.

Mr. R. McGeorge, only authorized tuner and regulator for Mason & Risch, Limited, in the Okanagan Valley is at present in this district, parties wishing his services for tuning, etc., will kindly leave their order at Review Office.

Mr. G. A. McWilliams has, we understand, disposed of his home property here to Mr. J. Williamson of South Vancouver. It is said that Mr. Williamson will shortly remove here with his family; this fact, however, has not been confirmed.

Mr. H. G. S. R. Pattinson, City Tax Collector of Winnipeg, has been a visitor in town this week, staying at the Hotel Summerland. Mr. Pattinson is taking a tour in B.C. for his health, and is much benefitting by the bright spring days in our Valley.

Evangelism and sermon will be every Thursday at eight o'clock during Lent in St. Stephen's Church, the first service being held last night. Rev. H. A. Solly was here for the week-end and conducted the services morning and evening at St. Stephen's. He left on Wednesday morning's boat.

Development and expansion of our business community come with the spring. Mr. J. W. Wheeler of the Garnett Valley Sawmills is installing some more machinery to meet the demands of the large contract he has just closed with the Okanagan United Growers to supply the season's fruit boxes. Mr. Wheeler is at the Coast this week securing the machinery.

Rev. A. L. Burch of New Westminster, secretary treasurer of Westminster Hall, occupied the pulpit of St. Andrew's Church on Sunday morning last. He was here in the interests of the Laymen's Missionary Movement, and ably followed up the thought of the church's responsibility to the missionary needs of the world, which the big gathering of last week emphasized.

SHILOH CURES COUGHS & COLDS

Mr. W. A. Lang of Peachland spent the early part of the week in town.

To-night! (Friday) "The Gipsy Queen," by the Presbyterian Choir, in St. Andrew's Church, at eight o'clock prompt.

For quick sale one horse, one cow, harrow, tools, shotgun, harness, seed corn. P. P. Johnson, West Summerland. m6

Mrs. Dell from Qu'Appelle and Miss Needham of Peachland are visitors this week at the home of Mr. and Mrs. T. J. McAlpine.

Rev. D. E. D. Robertson visited Peachland and Westbank for the week-end, holding services at the former on Sunday and at the latter place on Monday.

Mr. and Mrs. J. M. Sutherland, the Misses Sheila and Allannah and Master Kirk are expected back in Summerland within a short time from London, England, where they have been since last fall.

The position of Inspector of Indian Agencies for this district made vacant by the death of T. J. Cumiskey has been filled by the appointment of Major Megraw of the Hedley Gazette. Major Megraw will assume office on March 16th.

Indications of a splendid crop of every fruit are to be observed this month. Pruners say the trees are in fine condition and that the mild winter has agreed with them and the fruit bushes. Small fruit is expected to be of excellent quality.

We hear so much of the Scotch being "close", but what do you know about a local Irishman, with an "English" accent, putting a third of a farthing in the collection plate and then having the nerve to request that it be returned to him!

The story of summer flowers in the sunny spring is being told every day now. Buttercups and rock roses were found blossoming this week, and it looks as if the most radiant and early spring will mark the first quarter of 1914 in the Okanagan Valley.

A deal is going through between Mr. W. Ritchie and the Greenhow Lumber Company by which Mr. Ritchie is acquiring this business, which he will amalgamate with his own. Mr. G. M. S. Gordon of the Greenhow Lumber Co., is leaving Summerland shortly and will probably return to Ontario.

Methodist Services on Sunday will be held at 10.30 in the morning as usual and in the afternoon at 8.30 at Prairie Valley, Rev. R. W. Lee conducting both services. In the evening at seven o'clock Rev. R. W. Lee will give the third of his series of sermons on Mr. Winston Churchill's book, "The Inside of the Cup."

Picturesque and quaint should be the novel entertainment being planned by the ladies of St. Andrew's congregation to take place on April 6th. A band of ladies will masquerade in a tableaux, "An old time business meeting of Ladies' Aid at the Mohawk Cross roads," and the acting will lend itself to some humorous situations.

On Tuesday Miss Helen Alice Parker, adopted daughter of Mr. and Mrs. Van Hise, was married to Mr. Philip Werle of Tonasket, Washington. Rev. R. W. Lee officiated at the ceremony which took place very quietly at the Van Hise residence. Mr. and Mrs. Werle left for Tonasket, which is to be their home, on Wednesday morning's boat.

MANY SETTLERS COMING TO CANADA.

Reports received at C.P.R. headquarters at Montreal indicate that there will be a tremendous influx of immigrants from central and southern Europe. From Great Britain comes word that many thousands will be coming out, particularly people with some means, to take up fruit farming in British Columbia. Applications are so numerous that it would be impossible to respond to half of them. A large number of these farms are in process of preparation in the west, but the supply cannot meet the demand.

A queen bee lays from two to three thousand eggs in twenty-four hours. The man who will discover how to cross a queen bee with a hen will soon have money enough to buy an automobile for himself and all his poor relatives.

Pansies blooming all winter under the snow on the benches of Summerland and revealed when the snow vanished, raising their frail heads to the spring sunshine! This is one of our Okanagan miracles of growth. A perfect little purple and white blossom was brought into us from Mr. J. L. Hilborn's lot this week which was picked after the melting of the snow.

 ject of entering into a contract to
 supply that city with electric power
 from an hydro-electric plant to be
 erected on Mission Creek.

College Notes.

Dr. Sawyer left on Monday morn-
 ing's boat for the Coast.

Prof. Moore expects to be able to
 take up his classes again soon. He
 is recovering from his illness with
 the advent of the warmer weather.

The regular meeting of the Y.W.
 and Y.M.C.A. was postponed this
 week until Wednesday night. Mrs.
 Watson, from the lake-front, ad-
 dressed the meeting.

Horace Grandall, who has been
 taking a business course at the Col-
 lege since last September, left for
 his home in Vancouver on Wednes-
 day morning. He is going to take
 a position in his father's hardware
 business there.

The College boys turned out en
 masse on Wednesday afternoon and
 skinned the baseball diamond on
 the College campus. The prospects
 for a baseball team this year are
 good, and it is to be hoped that a
 series of games will be started
 early.

The basketball game between the
 College and Town seniors, which
 was to be held last Saturday was
 called off on account of some of
 the Town team being laid up.
 Instead, a team made up wholly of
 West Summerland boys played the
 College day students. The Town
 boys played very well, considering
 they were almost all new to the
 game and beat the "Hill-climbers"
 with a score of 7 to 6. The Col-
 lege juniors won from the Town
 juniors with a score of 6 to 1.

**SYNOPSIS OF COAL MINING
 REGULATIONS.**

COAL MINING RIGHTS of the
 Dominion, in Manitoba, Saskat-
 chewan, and Alberta, the Yukon
 Territory, the North-West Terri-
 tories, and in a portion of the Pro-
 vince of British Columbia, may be
 leased for a term of twenty-one
 years at an annual rental of \$1 per
 acre. Not more than 2,560 acres
 will be leased to one applicant.
 Application for a lease must be
 made by the applicant in person to
 the Agent or Sub-Agent of the dis-
 trict in which the rights applied
 for are situated.

In surveyed territory the land
 must be described by sections, or
 legal sub-divisions of sections, and
 in unsurveyed territory the tract
 applied for shall be staked out by
 the applicant himself.

Each application must be accom-
 panied by a fee of \$5, which will
 be refunded if the rights applied
 for are not available, but not other-
 wise. A royalty shall be paid on
 the merchantable output of the
 mine at the rate of five cents per
 ton.

The person operating the mine
 shall furnish the Agent with sworn
 returns accounting for the full
 quantity of merchantable coal
 mined and pay the royalty thereon.
 If the coal mining rights are not
 being operated, such returns should
 be furnished at least once a year.

The lease will include the coal min-
 ing rights only, but the lessee may
 be permitted to purchase whatever
 available surface rights may be
 considered necessary for the work-
 ing of the mine at the rate of \$10
 an acre. For full information ap-
 plication should be made to the
 Secretary of the Department of the
 Interior, Ottawa, or to any Agent
 or Sub-Agent of Dominion Lands.

W. W. CORY,
 Deputy Minister of the Interior.

N.B.—Unauthorized publication of this adver-
 tisement will not be paid for.

**Inspector Cunningham
 Asks For Quarantine**

Mr. Thomas Cunningham, Inspec-
 tor of Fruit Pests, is in communi-
 cation with the authorities at
 Ottawa regarding the establishing
 of a quarantine preventing Cali-
 fornia growers from shipping pota-
 toes into this province. Diseased
 potatoes are being shipped into this
 province by the growers in Califor-
 nia, according to Mr. Cunningham,
 but all the shipments are condemned
 as soon as they are found to be
 faulty. Realizing the danger of
 allowing diseased potatoes to come
 into the province, where nearly
 every settler grows potatoes, Mr.
 Cunningham is urging the Domi-
 nion Government to establish this
 quarantine. At a recent convention
 of all the fruit growers, stock
 breeders and farmers were in favor
 of the government taking this step.
 Mr. Cunningham explained that
 the United States have quarantined
 Canadian potatoes, besides those
 from Great Britain, Ireland, Ger-
 many, and Austria; and he is of
 the opinion that British Columbia
 should not have diseased potatoes
 sent here from California.

**Exceeding Purpose
 Of Loan Act**

That the legislation passed by
 the House last year which gave
 authority to farmers' co-operative
 associations to borrow money from
 the government at 4 per cent.,
 with which to aid the fruit indus-
 try by installing cooling plants,
 etc., is being carried too far, was
 the complaint made by a delegation
 from the B.C. Retail Merchants'
 Association to Attorney-General
 Bowser.

The delegation members said that
 the farmers' associations were now
 using government funds for the
 establishment and operation of sev-
 eral co-operative stores. Thus they
 were competing with ordinary mer-
 chants, who had to pay a great
 deal more than 4 per cent. for
 money, and in addition paid a
 heavy revenue and personal prop-
 erty tax from which farmers' co-
 operative concerns were exempt.

Mr. Bowser is taking the subject
 up with his colleagues.

'SPRING'S KEYNOTE.

"Getting ready for bigger and
 better efforts than last season,"
 was the optimistic keynote of the
 words of one of Summerland's most
 prominent orchardists, in speaking
 of his preparations for the season
 of 1914 during the week. This is
 the spirit in which the people "on
 the land" are generally facing
 their summer's work. Summer-
 land will come into prominence as
 an early vegetable centre this year
 if the sanguine expectations of the
 glass house specialists are realized
 in any considerable measure. Signs
 of an awakening to the needs of
 the district are seen in these plans
 to depart from straight peach and
 apple raising, and embrace also
 vegetable and small fruit culture,
 poultry and hog raising, and to a
 lesser extent, dairying.

**B.C. APPLES LEAD LONDON
 MARKET.**

During the week ending January
 10 British Columbia apples in boxes
 were in fair demand on the London
 market, according to the market
 report of R. W. Davidson, Limited,
 and medium size and good colored
 fruit was in demand, but it was
 found difficult to sell large and
 green fruit. Current prices were
 from 10s. to 14s. per box for Brit-
 ish Columbia fruit. Oregon New-
 owns were quoted at from 9s. to
 13s., and California Newtowns at
 from 8s. 6d to 9s. 6d per box.
 British Columbia apples again
 headed the price list in the follow-
 ing week, California and Oregon
 fruit having fallen slightly in price,
 while apples from this province re-
 mained firm at the top figure

**VANGUARD OF AMERICAN
 SETTLERS PASS BOUNDARY.**

The vanguard of 1914 American
 settlers in Canada, passed through
 North Portal, Saskatchewan last
 week. Forty-four cars crossed the
 boundary. Six cars were from
 Missouri and the remainder from
 Ohio and Nebraska and their des-
 tinations were Standard, Coronation,
 Sedgwick and Swastika,
 Alta., and Shannovan, Sask. Most
 of these settlers have sold their
 land in the United States at from
 \$65 to \$100 per acre, and are go-
 ing to homestead along the new
 line of railway, their families
 coming later.

David Herron Takes Own Life

Domestic Trouble Too Much For Him

The Result Of The Coroner's Inquest.

"Death, the result of a gun-shot wound, self-inflicted while temporarily insane," was the verdict of the jury on the death of David Herron whose body was found in the woods at Upper Trout Creek on Friday noon last. In his death the district loses one of the most respected descendants of the aborigines.

David Herron, a half-breed Indian and native of Washington State, where his parents yet live, has been a resident of the municipality or vicinity for a number of years, for a long time working as teamster for Wm. Ritchie, while latterly he has been similarly employed with G. R. Hookham & Co., and has been a faithful and industrious employee. For some weeks Herron was not in his usual happy mood. Debt and domestic trouble telling on him heavily, especially since his wife left him early in the winter, taking the youngest of three children with her, leaving Herron and two boys, about 12 and 9 years, alone at home in Victoria Gardens. Herron's burden became greater than he could bear when he learned recently that his wife was living with another man near Vernon. Though very despondent, suicidal intent was not suspected till Friday morning about daybreak when he called at the home of Johnny Pierre, and with much feeling bade them goodbye. After telling Pierre that he was going away he asked him to request Mr. Hookham to take care of his two boys, and that his wife be sent for to come home and look after them. Leaving Pierre's he started off toward the hills, and Pierre was disposed to follow and persuade him to return but was prevented by his wife who urged that he deliver the requested message to Mr. Hookham.

That he contemplated suicide was the belief of both Hookham and Pierre, who hurriedly requested Constable Graham to follow and bring back Herron. The three

started in saddles, and his trail was picked up at Pierre's, some seven miles back, and followed for two or three miles further when Herron's body was found under a pine tree with a bullet wound in the left breast.

Coroner Andrew was immediately notified, and the body brought in (across a saddle for part of the distance).

On Saturday morning an inquest was held by Coroner Andrew in Elliott's Hall with the following jury:—C. H. Cordy, Chief, A. J. Harris, A. F. Solly, W. R. Shields, Thos. Figgis, and L. McLaughlin. The witnesses examined were Dr. W. L. Robinson, Constable Graham, G. R. Hookham and Johnny Pierre. Dr. Robinson gave the result of an autopsy showing that death resulted from a gun wound from close range, apparently by a soft-nosed bullet. Several ribs were shattered, and the lower portion of the lung badly lacerated, there was a wound also in the back where the bullet passed out.

Constable Graham gave what he knew of the case from the time he was called on by Mr. Hookham to trace Herron. The only tracks in the snow near the body were those of Herron, and beside him was a rifle with a freshly exploded shell in the barrel.

G. R. Hookham said that the deceased had confided in him, and frequently sought his advice. His evidence corroborated much of what has been stated above. He described Herron as being of good character, steady and a teetotaler. He last saw him on the evening of March 5th. Mr. Hookham identified the rifle as his property, usually kept in the office of his stable.

Pierre said that he had known "Dave" for twenty years, and that he was a nice fellow, and did not touch liquor. Herron had told him something of his troubles.

The jury, after but a few moments in retirement, gave the verdict as stated above.

Hon. Price Ellison Coming.

A telegram was received last night from the Hon. Price Ellison, Okanagan's representative in the Provincial House, and Minister of Finance and Agriculture, that he will be present at the Fruit Union meeting to be held on Friday evening next.

It was at first planned that Deputy-Minister Scott would attend.

THE TELEPHONES.

The home company's new system is now practically complete. Saturday or Monday at latest should see all of the subscribers connected with central, leaving only minor adjustments to be made. Each week, though, is expected to witness further additions to the already healthfully long subscription list.

Connection has been made with the government toll lines, and long distance messages both outgoing and incoming are being handled.

An employee of the Okanagan Telephone Company has this week been removing a number of the few remaining phones on the old exchange.

"The Gypsy Queen."

Cantata by St. Andrew's Choir.

Exceedingly creditable for the unaided talent of a church choir, relying solely on their own numbers, without any outside help was the performance of the cantata, "The Gypsy Queen," by the choir of St. Andrew's Church on Friday night last. The choir of St. Andrew's is a large and enthusiastic one; and it had put in many hours of loyal work to make this concert in aid of the funds a success. A large audience filled the church on Friday, there being not a vacant seat after the hour of commencement, and it speaks well for the popularity of the performers that visitors came from far and near to attend, some driving long distances. Mr. Alex. Smith, an excellent organist, and had his chorus well under control, the voices making the most of the somewhat uninteresting music. "The Gypsy Queen" is not altogether the most tuneful and gayest of music, the notes failing to interpret truthfully the charming little story, which suggests all the abandon and picturesque quality of a gypsy romance.

Among the choruses, that which supported Mr. J. O. Smith's "Hark, Hark, They Go," and "Over the Horses the Saddles we Fling," were noticeably the best, being rendered crisply and with force. The music of "We are Merry Courtiers," and "Oh, Gay is the Life of a Gypsy," fails so to express the spirit of the words that the choir had a very difficult task, but they acquitted themselves pluckily. "Merrily now the Past Forgetting," the final chorus, went with a verve and strength that was lacking in some of the earlier items.

The soloists did well with the material at their disposal. Miss Lister in "Once in Lowly Gladness," and Mrs. D. L. Sutherland in "The Hours are Quickly Flying," were both well received, while Mrs. Morfitt and Mrs. Lang sang tunefully in the duet, "From the Highways." Mrs. Morfitt's solos "Though Banished by the King's Decree," and "Sire, be not Angry," were much appreciated. Mr. J. O. Smith has a pleasing bass which he uses with ease and control, and for "Raise High the Song," "Noblesse Oblige," and others he was accorded a hearty reception that was well deserved. Mr. G. Fisher and Mr. Alex. Smith were responsible for the tenor work (with Mr. J. Stuart singing also a tenor solo), and their mellow but light tones were heard to excellent effect, especially in "Shadowland of Dreaming," and "Within the Borders of a State." One of the best items on the long program was the quartette, "Sleep, for the Dream World is Fair," by Mrs. D. L. Sutherland, Miss Grace Logie, and Messrs D. McKellar and H. Sutherland.

Miss Robina Logie, as accompanist, played with her accustomed vigor and sympathy, and her no light task was splendidly accomplished.

RETURNS TO SUMMERLAND.

Mr. G. Marshall, who left here some weeks ago to fill an important position at Chilliwack, has returned to Summerland. Mr. Marshall found the Coast climate did not agree with his health hence his early return. For some years Mr. Marshall suffered from asthma, which, however, entirely disappeared during his residence in our healthful climate. The Chilliwack offer was such a tempting one that he determined to make the change believing that he was entirely cured. His suffering, however, was great almost from the time he left here, his malady compelling him to remain in a sitting posture throughout the nights. After the first night here he has been enjoying his usual good health.

for a dance immediately on the conclusion of play.

Arrested At Sicamous.

Sam. Peters is now a prisoner in charge of the Provincial Police, and is being held at Vernon awaiting the arrival there to-day of Constable Graham who has a warrant for his arrest.

Peters, it is alleged, is an absconding debtor. For some time he has been boarding at the home of Mrs. Mary Campbell, and it is said, owes about \$50 for board. It is further stated that he borrowed \$100 from Mrs. Campbell's invalid son, with the understanding that the sums would be paid when he received his cheque from the Municipality, for which he had done some work. When he received the cheque he, according to report, cashed it, and disappeared without paying the above amounts, nor sundry other accounts.

Mrs. Campbell complained to Constable Graham, and a formal charge was entered against him on Wednesday evening. Before nine o'clock that night he was located at Sicamous by the assistance of the Provincial Police of Vernon, and Constable Graham went up the lake this morning to bring the prisoner back for arraignment.

Mr. Cunningham Injured.

Veteran Fruit Inspector Sustains Painful Injuries.

News of a serious accident to Fruit Inspector Thomas Cunningham has been received from Victoria, where Mr. Cunningham is confined in St. Joseph's Hospital with a broken shoulder and injuries to his head, received while travelling from Vancouver to Victoria on Thursday on the Princess Alice.

While the vessel was half way between Vancouver and Victoria, Mr. Cunningham in some unexplained manner fell down a companion way on his head and shoulder, receiving painful injuries. A passenger doctor attended to the injuries, and the captain by means of wireless telegraph communicated with the Deputy Minister of Agriculture. On the arrival of the vessel at Victoria an ambulance and doctor were in waiting, and the patient was conveyed to St. Joseph's Hospital.

Board Of Trade

A general meeting of the Board of Trade was held at Watson's Realty on Tuesday afternoon with President English in the chair.

There was much general discussion on topics of more or less importance, and some progress was made toward the carrying out of plans for the material advancement of the community.

It was decided to ask the Council to install lights on the new wharf. The question of advertising by pictures at Sicamous was again discussed and a committee appointed to select and arrange for several pictures. The need of improving the general appearance of the streets and roads by cleaning up the roadsides and the planting of ornamental trees was generally recognized and a number of suggestions submitted as to how best this could be done, the most definite action being to ask the Council to set aside April 2nd as general clean up day.

The Board expressed itself in favor of lowering the level of Okanagan Lake by three feet.

The question of canning fruit and of making jellies, jams and pickles as a part of the work of the Fruit Union was fully discussed. This idea did not meet with unanimous approval although supported by many.

The need of a resident dentist was also brought up but as some private citizens had been working toward this end no definite action was taken.

enjoyed, Mr. D. L. Sutherland's "Bells of St. Mary's," the humorous quartette, "Pro Phundo Basso," by Madama G. W. Lang and G. W. Morfitt and Messrs. Alex and J. O. Smith, also the old favorite, "A Perfect Day," a contralto solo by Miss Maud McLaron.

The choir is to be congratulated on their musical evening, and at an early date might repeat it, but choosing a work which would display their talents and ability to much better advantage.

Special Attention To Water

Reeve Says This Is Council's First Duty

The Usual Monthly Routine Business.

The regular monthly meeting of the Council was held yesterday with all members present.

There were the usual number of citizens in attendance to make petitions to the Council, who were listened to after the reading of the minutes and communications. Most of these were for domestic water or electric light connection. Mr. R. S. Monro supported his brother's request that his property be protected from inundation by water from a higher level which together with the other request was referred to the Board of Works.

A. E. Hespeler advised the Council that he had the deeds, etc., of the road allowance, so long in dispute, ready and would place them in the hands of Mr. Kelley for delivery upon receipt of the municipal cheque. Upon the motion of Councillors Blair and Simpson an order was passed for \$219.48 in settlement for the right-of-way.

Mr. D. Sutherland complained bitterly of lack of water on his lot near Trout Creek, which lot has been in the care of his son, D. L. Sutherland. Mr. Sutherland said he had come here with the intention of building on his property, but certainly would not do so until matters were remedied.

WATER MATTERS.

Mr. Sutherland's complaint started a long discussion over water matters. The Reeve stated that it was the special duty of the present Council to provide water, as it was largely for this that they were elected. He wished, however, that the people would avail themselves of water as early in the season as possible. While no definite action was taken at yesterday's meeting it is very evident that the Council will tolerate no interference with the water service, and that the first person caught stealing water, or changing the position of the gates will be severely dealt with. It is also probable that some measuring boxes will be installed to ascertain the amount of water supplied to certain lots.

HEALTH REPORT.

Two reports were received from the Medical Health Officer, one pertaining to the slaughter house and the other to sanitary conditions principally about the townsite of West Summerland. The inspection of the slaughter house showed that conditions were satisfactory. The sole complaint being because of the burning of refuse, and the very disagreeable odor resulting. Mr. Woodworth had concluded to dispose of the offal by another method, and had already ordered a steam

THE WOMEN'S INSTITUTE.

Results of Competitions for 1913.

Summerland shows up well in the announcement just made from the Department of Agriculture on the result of the Women's Institute Competitions for British Columbia for 1913. The first prize in the first competition for the "Best Average Attendance based on Membership" comes to Summerland, being books to the value of \$30. The attendance was 40.3 per cent., Nankus won second with 44.1. The only other Institute in the Valley mentioned is Penticton with 39.7 per cent. Salmon Arm won in the second competition, "The Best Program for the Year," with Chilliwack second, Penticton third, Summerland seventh. The third competition was for the best papers on four specified subjects. On only two of these four subjects was a treatise submitted by members of the local Institute.

Miss L. V. Mills has been awarded the first prize of \$10.00 for her paper on "The Advantages to a Community of Having an Institute." This subject attracted the largest number of competitors in B.C., and, commenting on the winning paper the judge, Mr. W. E. Scott, Deputy Minister of Agri-

apparatus for that purpose. This has since arrived, and the heads, feet, and other refuse are now being cooked under steam pressure.

To prevent outbreak of disease recommendations were made by the Medical Health Officer for the improvement of conditions in the townsites, which recommendations were adopted and will be enforced. The Clerk reported the receipt of the signed agreement with the K.V.R., and of cheque for \$2,700 for debentures, placed with that company.

Several enquiries and offers were received for Municipal debentures. 90 per cent. has been offered, but it is hoped that a higher price will soon be possible.

The Reeve introduced the question of re-engaging Constable Graham, and it was the unanimous opinion of the Board that his services were necessary. Objection was made, however, to his giving any time to other than municipal duties, and particularly to his serving papers for the small debts court. It was practically decided to re-appoint Constable Graham, he to be under the direction of the Superintendent when not employed in the capacity of Municipal Constable. Just what other duties he might be permitted to perform was left for decision at the next meeting.

The extension of Trout Creek water project was dealt with; but this is likely to be left in abeyance for another year.

POOL ROOMS.

A by-law to license and regulate pool rooms was given its first, second and third readings, and will be finally considered next meeting.

The following accounts were, upon recommendation of the Finance Committee, passed for payment:—

Pay Roll	\$ 813.30
Can. Westinghouse Co.	61.60
T. B. Young	38.50
Review Publishing Co.	69.00
W. J. Robinson, Insurance	
Power House	40.35
J. L. Logie, Returning Officer	15.00
J. J. Mitchell, horse hire	26.25
Postage	20.00
Bank Interest	45.46
School Board	916.81
Sundries	74.80

\$2,120.57

Bills in connection with the new Trout Creek pipe, to the amount of \$18.80 were also approved for payment.

It will be the policy of the new Council to discontinue service of domestic water and electric light to those who are more than three months in arrears.

culture, says: "The ideas were sound and practical, with good literary style." A number of the essays that did not win prizes were also reported. "Excellent, but in some cases were somewhat narrow in scope."

On Friday afternoon, March 20, the ladies of the Women's Institute are looking forward to an enjoyable afternoon. Mrs. Reesor has consented to give a paper on "Endowment of Motherhood," also it is to be a "Talent Afternoon." Each member is to bring some of whatever she can make best, either in cooking or in sewing, to be disposed of during the afternoon, and the proceeds to go to the Institute.

In the response to the roll call the names commencing with A B C D E will respond with some current event, and the rest to give a quotation from Longfellow. The meeting to be held in the Men's Club at three o'clock as usual.

INCREASED WEIGHT LIMIT.

The Post Office Department has not waited the three months to raise the weight limit of packages for parcels post from 0 to 11 lbs. Postmaster-General Pelletier finds the new system already working so smoothly that the larger weight limit has already been put into effect.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, ETC., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MARCH 13, 1914.

PREMIUM ON WORTH.

Canada's biggest corporation is working on a scheme that was possibly suggested by the system adopted by all the major league baseball clubs. These clubs send out scouts over all the country to witness the games of the different baseball leagues. The scouts go secretly for the purpose of picking out the men who will later on be the star players. This scout idea will be used in a system which is being inaugurated by Vice-President Bury to discover the giant corporation's most capable employees for the openings higher up which are continually occurring. Mr. Bury also recognizes the value of public opinion and goodwill of the private citizen, and his scheme of promotion has a close relation to this recognition.

In large organizations many deserving employees remain practically stationary because of environment or their not coming under the purview of those who recommend men for promotions. With a view to bringing the management in closer personal touch with the employees, officers will be required to make reports on the service rendered by every officer and employee under his immediate jurisdiction. An account will be given of each man's disposition, attention to business, loyalty, zeal and more particularly of the tactful and courteous manner (or otherwise) with which he deals with the patrons of the company. Greater stress will be laid on the degree in which these latter qualifications are possessed. Due precaution will be taken to guard against adverse reports of any employee.

Of the scout idea an official of the Vice-President's office says:—"In addition to these reports a gentleman who is a good judge of human nature, of kindly disposition, whose name has not been divulged to the staff, has been selected who will travel over the road as a passenger, and in that capacity, or as a shipper or consignee will come into continual contact with the various employees, and his instructions are to look for the good points in employees, and to draw attention to, and send in the names of any of the staff whose courtesy, zeal, loyalty, ambition and knowledge mark them out as above the ordinary, and likely material for advancement."

ALCOHOLIC POISONS.

CIVILIZATION continues steadily to progress, and what a few years ago would have been looked upon as the product of the minds of fanatics is now considered seriously, and often adopted by the public generally.

We in Canada, with so many matters pertaining to material development and progress, have perhaps on the whole been a little behind our cousins to the south in the adoption of legislation bearing on social progress.

In the New York State Legislature a bill drawn as an amendment to the penal code, and which would never have gotten through the committee stage in earlier days, is now receiving serious consideration, and may become law. The same legislation will be proposed in other states as opportunity offers.

The measure provides that bottles of beer, whisky, and other beverages containing more than two per cent. of alcohol shall, before being offered for sale, be labelled "Alcohol" and "Poison" in bold face capitals, with the traditional skull and crossbones printed in red. For the label the following is proposed:—"This preparation contains alcohol, which is a habit-forming, irritant, narcotic poison." This statement was suggested by the National Scientific Temperance Federation, and is vouched for as scientifically accurate.

The argument is that a man who drinks should at least do so with his eyes open, with a knowledge of the nature of what he takes. The bill is only an attempt to apply the spirit of the pure food and drugs act to the liquor traffic.

OBITUARY.

HENRY W. KNIGHT.

To his many friends throughout Okanagan Valley the news of the sudden and wholly unexpected death of Henry W. Knight of Kaleden came as a rude shock that for a moment seemed unbelievable.

Mr. Knight was assisting a neighbor at Kaleden in rounding up some cattle, and was reaching from his saddle to open a gate when suddenly he was seen to fall from his saddle, and when friends reached his side life had departed.

Mr. Knight was a young man of 26 years, and a native of St. John, N.B., the youngest son of the late Joshua Knight, a well-known lumberman. He came west eight or ten years ago, and has been a resident of Okanagan Valley for five years or more, at first at Vernon, and for the last two years at Kaleden. Interment was made at Kaleden on Wednesday.

Those left to mourn include his mother and sister in St. John, and another sister, Mrs. Carroll Foss of Kaleden, and one brother, Ernest, a commercial man, well-known throughout the Valley.

We have to express our sympathy to-day with Mrs. S. Angove, who, returning last night from Armstrong, found in the mail a letter informing her of the sudden death of her brother, Mr. John Myers, in Guysboro, Nova Scotia. The news was a great shock to Mrs. Angove who had no idea that her brother was even ill.

Mr. W. J. Robinson went up to Vernon on this morning's boat and will stay a day or two.

Advertising inspires confidence in the man on the move. He knows the town that advertises is no one-horse affair, but is alive and progressive, and a good place to go to.

Penticton is negotiating for the purchase of some culled water pipes held by the City of Vancouver. The sizes are four, six and eight inch, and if secured will be used for irrigation purposes.

HOW PAT WOULD EVADE IT.

Two Irishmen, on their way home from a funeral, were conversing about the uncertainty of life. Says Pat:

"Sure and I'd give a thousand dollars, Moike, if I knew th' place where I was goin' t' die."

"Faith, Pat, and phwat good would thot do yez?"

"Begorra, I'd niver go near th' place at all, at all," says Pat.

IMPRESSIVE BAPTISMAL SERVICE.

An impressive baptismal service, attended by a crowded congregation, took place on Sunday afternoon at the Lakefront Baptist Church. Three female and one male candidate, all from Kaleden, were admitted into the church by Rev. C. Britten of Penticton, and the service was conducted by Rev. D. J. Welsh of Kelowna, who preached an eloquent sermon.

Suitable hymns were sung by the choir, and the beautiful solo, "The Plains of Peace" was well rendered by Miss Myrtle Clay.

A Tip To You

"Business with me has increased very much since I began advertising in the Review, and I am satisfied that my sales are fully 30 per cent. greater since I began advertising, than they would otherwise have been." Such is the unsolicited testimonial of one of our advertisers, and we pass it along as a hint to any who may wish to increase or extend their business.

WHY LIVING IS HIGH.

The story of the adventures of a head of cabbage in New York is told by the New York Press. It casts illumination upon the much discussed high cost of living. The cabbage is raised by a farmer in Connecticut. The comparatively small farmer will send 1800 to 2000 heads of cabbage to New York. For one head he receives a cent and a half. Then the head goes to the commission merchant. He lives on Riverside Drive and pays \$2,000 a year for his apartment, and keeps an automobile. He spends \$7,000 a year to live. Next the cabbage is sent to the wholesaler. He lives on West End Avenue. He pays \$1,800 for his apartment and keeps an automobile. His living expenses are \$6,000 a year. He sends the cabbage to the jobber who lives in an apartment which costs him \$1,500 a year—on Broadway, keeps an automobile and spends \$5,000 a year. From him the cabbage goes to the retailer, who lives in a \$700 apartment on a side street, has a corner store for which he pays \$125 a month rent, keeps two delivery wagons at a cost of \$140 a month, and spends \$2,500 a year on his living. Finally the cabbage gets to the consumer. He lives in an apartment for which he pays \$40 a month. He rides in the trolley car or the subway, he spends all he can make or a little more to live, and he pays 13 cents for that head of cabbage.

B.C. And The Ballot. The Lesson of the Locomotive

When J. J. Hill crossed the line from Canada into the United States he had to wait five years before he was allowed to vote even for constable. To-day he would have to pass, at the expiration of the incubation period, an examination in the principles of American government, and produce witnesses vouching for his probity.

Over the line in British Columbia the Hon. H. H. Stevens, M.P., is loudly complaining of the laxity in the administration of the naturalization laws. Hundreds of Japanese, he avers, cast ballots even though they have never been naturalized. Canneries, loggers, and mine operators, he asserts, keep a supply of used but otherwise perfectly good naturalization certificates on hand and pass them around among the newly arrived Asiatics they employ.

Why not? British Columbia has no educational standard to measure applicants for citizenship; it requires a residence of only three years; it does not insist upon knowledge of the English language; the franchise may have as little meaning to the applicant as Sanskrit and the cheering effect of distilled grape juice have to Mr. Bryan, still British Columbia confers the privilege. What difference does it make, under these circumstances, whether the certificate is conferred by a magistrate or by the boss of a salmon cannery?—Sunset Magazine, San Francisco.

Marketed Half Million Boxes Of B.C. Apples.

Exports To Australia Made New Record Last Year.

Nearly half a million boxes equal to something like 26,500,000 pounds, of B.C. apples were marketed last season according to figures compiled by Mr. R. G. L. Clark, chief inspector in British Columbia for the Dominion Fruit Inspection Department, and his assistant, Inspector A. H. Flack. The greater proportion of the fruit was grown in the Okanagan, with the Kamloops district next in point of production, and the Grand Forks section taking third place. Here are the returns from each district: Vancouver Island and the Gulf Islands, 15,560 boxes; lower mainland, 3,000; Kamloops district, 35,750; Okanagan, 371,000; Kere-meos, 7,000; Grand Forks, 33,000; Nelson, 10,000; Creston, 13,500; Arrow Lakes, 1500. Total, 499,310 boxes for entire province.

As indicating the extent of the fruit growing industry, Mr. Clark states that about 80,000 cases of peaches, 85,000 crates of plums and prunes, 12,000 crates of cherries, 8,500 cases of apricots, 8,000 crates of pears, were shipped out from the various districts last year.

The shipments of British Columbia grown apples from Vancouver to Australia and New Zealand last year established a new record, 31,127 cases being consigned over seas as compared with 37,127 sent from the United States to the Antipodes.

The High Cost Of Living

At the present time possibly no other subject is receiving quite as much attention in Canada as this one. It will be a surprise to most readers to know that during the fiscal year which ended March 31st, 1913, Canada paid \$11,500,000 in duty on food, and all of this large sum is virtually a direct tax on the consumer.

In glancing over the list it is easy to understand that the buying public are themselves largely to blame in many instances, for there are articles of food produced in Canada that are equal in every respect to those made in any country in the world.

In the baking powder line alone there were 667,904 lbs. imported into Canada, and this means the consumer paid in duty the enormous sum of \$67,000. There are no better goods in the world in this line than magic baking powder, and it is made in a model sanitary up-to-date factory, and can be procured in any first class store at one-half the price the imported article sells for.

Such articles as raisins, currants, and many other things, which do not grow in Canada, or are not produced here, have of necessity to be imported, and the duty paid.

If the consumer would devote a little thought and attention to this subject a large amount of money could and would be saved.—(Canadian Home Journal).

The puffing and snorting of the construction trains on the K.V.R. line above Naramata is an early morning sound over here that is quite exhilarating to some of us who have been long away from the city's noise. But it conveys no nerve racking worry to our minds—it is rather a mental tonic. As we look across the still blue waters of the lake and note the snowy drift of smoke floating over the quiet benches into the radiantly clear air of an Okanagan morning, we recognize progress. We see a picture of the prosperous future which lies ahead of us, when our fruitlands shall be linked right up to the marts of the world beyond. Of the days when "freight" shall no longer perplex us. When our peaches, dewy and fresh from our sun-kissed orchards, will decorate, before the warm bloom has left their delicate skins, the breakfast tables of Vancouver. Who, in Vancouver will ask for peaches from Oregon when the glowing luscious peaches of Summerland and Naramata are so easily obtainable. Who will wish for California pears when the juicy globes of Summerland Bartlett's lie near at hand, fresh from the bough?

Extracts From The New "Game Act."

A new "Game Act" comes into force throughout this province on the first day of April, 1914. Its provisions are not essentially different from the requirements of the existing act, however. Following are some regulations compiled from the text of the new act:

The open season regulations shall apply to big game, bear and game birds.

Farmers, resident Indians, prospectors and surveyors are allowed under certain conditions to kill game and deer for food.

Hunting at night, and over cleared or enclosed land is prohibited.

The use of pump, repeating or automatic shotguns of any description is prohibited.

Three deer of any one species, or more than four in all, and two hundred and fifty ducks are two items on the bag limit list.

Resident hunters are required to take out licences, good for one year, as follows: Game birds and deer, \$2.50; big game and birds, \$5.00; big game, birds and trapping, \$100. For non-residents the fees will be: fishing, big game and birds, \$100; game birds, \$50, or \$5 per week; bear hunting, \$25; fishing, \$5.

Licences are not transferable.

No license will be granted to any boy under sixteen years of age, excepting at the written request of parents or guardians, who must undertake to see that such a license is under constant supervision.

KELOWNA GETS NEW INDUSTRY.

Calgary Company to Locate There.

That a prominent and wealthy canning company, with headquarters in Calgary, would start within a week or two the construction of a large canning factory in Kelowna, was the important announcement made last week by publicity commissioner, Mr. W. Beaver-Jones, of that city.

Mr. Beaver-Jones said the principals of the firm had been there, and had decided to proceed at once with the erection of a building, and had already secured options on two suitable sites.

It was not their intention continued Mr. Jones to come in as competitors of the existing cannery, as their business was really in a different line, more of the nature of Heinz, of "fifty-seven varieties" fame. The advantage to Kelowna in this was that their work-people, of whom they expected to need at least 100, would be employed all the year round.

The arrangement was so far advanced that contracts had already been made with growers in the district for sufficient tomatoes to cover the next season's output.

They had declared that they were quite ready to pay the farmer \$14 per ton for tomatoes, which was as small a price as the farmer could accept and make any thing out of it.

Norman Hill, Penticton, has assigned for the benefit of his creditors.

Shiloh 25
The family remedy for Coughs and Colds. Small dose. Small bottle. Used since 1870

THERE is a difference between fresh can'd goods and old stock. Only the newest is best -- having that delicate natural flavor of the fruit or vegetables. Knowing this, we buy only from factories which can their goods IMMEDIATELY AFTER THEY ARE PICKED OR GROWN --- factories which are known to work under conditions of perfect cleanliness.

You may rely absolutely on our goods. We keep a large variety rather than an extensive stock---constant renewal being our policy. Next time you use our canned goods note the fresh, natural taste---the character of them all.

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Peachland Notes.

Miss Rena Elliott returned from Vernon on Monday afternoon.

Miss Marion Cossar of Penticton was the guest of Miss Olive Ferguson last week.

Mrs. W. Wheeler spent the week-end at Rainbow Ranch, near Okanagan Centre, returning to town on Monday.

Mrs. C. W. Whyte left for Calgary again last week, having spent a couple of weeks with friends in the Valley.

Mrs. J. B. Robinson and Miss Olive Ferguson are delegates to the Sunday School Convention at Armstrong.

A baseball match on Saturday between the High School and Town teams resulted in a victory for Town of one run.

Mrs. R. C. Lipsett spent the week-end with her sister Mrs. Robinson and returned to her home in Summerland on Monday.

Mr. and Mrs. Aides and child of Merritt, spent the week-end in town visiting Mrs. Aides' father, Mr. R. H. Hueston and other friends.

Rev. I. W. Williamson and Miss R. Spencer of the B.C. Sunday School Association were in town on Thursday and addressed two meetings on Sunday School work, which were fairly well attended.

Mrs. John Gummow returned on Monday from Ontario, where she spent the winter at her old home in Hagarville, near Hamilton. She enjoyed her visit very much, yet is very glad to be home again.

Word was received in town on Saturday that Mr. Edward Lang and his wife, who left here about a year ago for Paradise, in the Annapolis Valley, N.S. were both dead. Mr. Lang has been an invalid for almost six months and his death was followed by that of his wife, who survived him only two days.

On Friday evening a number of the young people drove to Westbank to a dance in the schoolhouse. The Westbank people failed to materialize and some others thought the evening too beautiful to spend indoors, and so took moonlight drives. Nevertheless those who went there had a jolly time.

Miss McBean, librarian, who has charge of the Reading Room informs us that she is doing very well at the work. All but three of the books missing from the library have been returned. "Little Folks of 1911," "Mary Jane's Pa," and "Dorinda's Birthday" are still missing. Afternoon tea is served every afternoon, and any cookery ordered is supplied.

Some 80,000 rabbit skins have been shipped from one point in Washington State to Paris. They were done up in small packages and sent by parcel post. This is an experiment, and if successful will largely solve the rabbit nuisance problem of that and adjoining states. The new enterprise has created no small amount of interest. Even the Agricultural Department is watching the experiment hoping that they may be able to assist in making a market for that which is a pest in many parts of the west.

Kelowna will have a baseball team this summer.

Sixty carloads of machinery have been ordered for the new refinery to be built near Port Moody by the Imperial Oil Co.

Unity Club Whist Drive.

Mrs. H. P. Salting and Mrs. Fred Simpson conducted a whist drive under Unity Club auspices on Thursday evening, March 6th, at the club room parlors. While the number in attendance was not as large as on similar occasions during the season those who sat round the six tables appeared to thoroughly enjoy themselves. The scoring was remarkably low, the leading score card amongst the gentlemen, that of Mr. Salting, being 168. Three gentlemen tied for the cellar position. These were Mr. Cook, Harold Steers, and Roy Boothe, the latter of whom—through cutting the lowest—drew the dainty little souvenir. Mrs. Hancock and Mrs. Mitchell tied for first honors amongst the ladies. Mrs. Mark Manchester being awarded the consolation.

Our local greenhouse man, Mr. A. Aveson, is making preparations for a big season's work. He is planning to have for sale at least 50,000 tomato plants. The number of those who are going in strong on vegetables is not a few.

The local union of Fruit Growers brought in another carload of hay and feed this week. This is a forehanded action on the part of the orchardists who soon will be too engrossed in orchard duties to attend to these little extras.

Mr. Carrol Aikins took down quite a large party to Kaleden and the Falls in his car last Sunday, Mrs. Foster, Dr. W. L. Robinson, Mr. J. O. and W. Robinson, and all thoroughly enjoyed the trip over a good road in glorious sunshine.

Mr. Richardson, the local teacher, has seen fit to re-consider his resignation on account of further developments in his plans for entering upon foreign missionary work, and will therefore remain with us till the close of the school term.

Mrs. H. J. Wells was the hostess on Friday afternoon last at the Unity Club parlors, the occasion being the usual bi-monthly gathering of the organization that has done so much socially for the town of Naramata. The ladies have decided upon the purchase of a piano in the near future.

Manager P. S. Roe of the Okanagan Boat Co. spent the week at Kelowna installing the engine in the "Skookum," the favorite craft, which is now ship-shape, and ready for the water. All that remains is the signing of the clearance papers when, like a released greyhound, we may expect soon to see her skimming her way toward the local wharf.

Mr. Max Wasserman of Calgary was in town on Thursday in the interests of his late father's estate. It will be recollected that about a year ago the father bought the Dagg property situated east of town. His son is now arranging to have some responsible local person take charge of the orchard for the season and look after the shipping of the fruit.

Master Wesley Rounds was at home to his numerous boy and girl friends on Saturday afternoon. The occasion was that of Wesley's tenth birthday anniversary. The little folks were assisted in their sports by Mrs. Rounds and Miss Ruth Chambers. During the serving of the luncheon a birthday cake was the centre of attraction.

SOUND ADVICE.

Here are some words of good advice to the man who is in business to stay and to make money: "No matter what business you are in, advertise. Don't try it a week or a month, but give it a fair trial. Put in a good, big ad and change it—yes, change it often, spice it, say something, be clear, pointed, attract, excite. Give it thoughtful study and as careful attention as any department. Don't advertise everything at once, but special things—drives, bargains on particular goods, and keep something moving lively all the while. Select a good advertising medium; papers sought and read by the people, and by the families in particular—papers of live, newsworthy and home reading. And don't get the idea into your head that you are simply helping the newspaper man along, or giving him something for nothing. ADVERTISE, it will pay you full value received and more."

Current Events — OF — Town & District

Mrs. Myers and Mrs. Hughes attended the district Sunday School Convention held at Armstrong this week.

Anglican service here on Sunday afternoon, conducted by Rev. D. E. D. Robertson of Summerland, was well attended.

Considerable local interest is centering on the mammoth auction sale of stock and implements of Mr. H. W. Endacott on April 1st.

Mr. Howard Rounds, having completed his duties in the Grant Smith Co's. Kelowna office, returned home for good on Saturday night's boat.

Mrs. Dan McKay and daughter Clara have returned from an extended visit to Hamiota, Man., where Mrs. McKay has a son, and also a daughter living.

Track-laying north of Mill Creek has been in progress all week. We can't last see the long trains emerging from the short tunnel just north of town, truly a picturesque sight.

Mr. Cash and his mother, Mrs. Cash, purpose occupying Captain Languedoc's home on the benches for the summer months, in order to be a little nearer their own orchard property.

Rev. R. W. Lee of Summerland delivered to a packed house on March 5th a highly entertaining lecture illustrated by views on "The Life and History of the Indians of the Interior of B.C."

Mr. and Mrs. A. P. Wilson and child, former Naramata residents, but recently Vancouver citizens, came in on Friday night's boat. It is their intention to take up residence here at least for the summer.

Next Monday, the 16th inst., is to be a red letter day for the local orchardists, and members of the Farmers' Institute who will be favored with addresses on horticultural subjects both morning and afternoon.

Grant Smith & Co. have closed their Naramata office. The whole of their immense contract will be wound up probably by the end of April. The last piece of work, that of the big tunnel being the last to finish.

Shiloh

"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough

ROYAL YEAST

MAKES PERFECT BREAD

The Tennis Club are beginning to show signs of life again after several months of enforced idleness. A preliminary meeting was held on Monday evening at the home of Mrs. P. S. Roe, and it looks as though we were going to have a real good summer's sport amongst the lovers of "the racket and net."

B.C. Apples Again Win Important Awards.

Hon. J. H. Turner, Agent-General in London for B.C., cabled Sir Richard McBride on the 14th November that the biggest awards offered had been won by British Columbia, in open competition at Sheffield and Edinburgh, for display of apples.

Mr. Cunningham, B.C. Fruit Inspector, states that B.C. apples are in big demand, and that 100 carloads could have been sold now, had they been obtainable.

The United States fruit growers filled the orders. B.C. fruit growers and prospective fruit growers, act promptly, and enlarge your orchard plans.

We can supply you with all kinds of fruit tree stock to suit the special climatic conditions of each district.

Our prices for fruit tree stock this year are cheaper by nearly one-half, than heretofore offered to B.C. fruit growers, viz., \$8 to \$12 per 100; all grown in our own province, such as Jonathan, Spitzenberg, Baldwin, Northern Spy, and more than 20 other choice varieties.

Patronize home production, and make our province the fruit granary of the West.

Don't forget the beautifying of your home plot. In our stock of over \$100,000 we can meet the most cultured and aesthetic taste, to make home environments a centre of beauty. Evergreen stock, shade trees, roses, flowering shrubbery, bulbs, flowering plants etc. Catalogues mailed free on application.

Holly for Hedges, up to 12 inches, \$20 per 100; Privet, 2 1/2 ins., \$30 per 1,000; Laurel, 2 to 2 1/2 ins., \$20 to \$30 per 100.

Passing Events: Social, Personal, &c.

Mrs. George Gartrell is visiting friends and relations in Kelowna this week.

Mr. and Mrs. Pares and Geo. Gartrell spent Friday last at Kaleden.

Mr. George Robertson was another Kaleden visitor to our town on Sunday.

Mr. Fred Anderson who has been spending a few days with a brother in Kelowna returned on Saturday night.

Mr. and Mrs. King, with Misses Vera and Kathleen and Mr. W. King of Kaleden, all spent Sunday last in Summerland.

Norman Phinney has come down from Vernon to visit his home here this week, and is accompanied by a friend, Mr. Walter Marble.

A lone "drunk" was a guest over night at the municipal jail on Monday, and was brought before Magistrate English next morning.

The Baptist Brotherhood will hold their regular monthly meeting in the West Summerland Church on Tuesday evening, March 17th. A good discussion is in sight.

Mr. H. G. Pattinson, of Winnipeg, who has been staying in Summerland has gone up to Peachland to visit friends there. He finds his health much benefitted by the Valley climate.

Mr. G. J. W. Wheeler, manager of Garnett Valley Sawmill, returned from Vancouver on Saturday, having completed his business in connection with the new machinery which he will be shortly installing.

No regular station agent may be removed and station closed, according to a recent commission ruling, without the railway notifying the local authorities and getting permission from the commission.

Mr. G. M. S. Gordon, for some time manager of the Greenhow Lumber Company, left for his home in Toronto on Tuesday. His former business is now incorporated with that of Mr. Wm. Ritchie.

Confirmation classes for the candidates for the forthcoming confirmation to be held in St. Stephen's Church by the Bishop of the Diocese are being held every Wednesday afternoon in the Rectory by the Rev. D. E. D. Robertson.

The Department of Agriculture has decided to discontinue the distribution of flower and vegetable seeds for school gardens. Although some thousands of packets were distributed last season through the various Women's Institutes scarcely any reports as to results were received by the Department.

Rev. D. E. D. Robertson on Sunday last expressed the hope that in the coming longer evenings the increasingly large congregation would sometimes remain after evensong for short practices of the church music, so that congregational singing might be a feature of their services. A number of the unusually large congregation on Sunday night complied with Mr. Robertson's request.

The match at the College Gymnasium, Town v. College on Saturday night, ended badly for Town, that team being handicapped even before taking the floor by several unexpected incidents. College won by the score of 7-28. An unfortunate accident knocked out a member of the Town team, Hilton Snider, early in the evening, and the game was played out a man short on either side.

Methodist Church services will be conducted on Sunday next as follows: Morning service will be held in the Methodist Church and will be conducted by the pastor, Rev. R. W. Lee. Service in the Prairie Valley Schoolhouse at 3.30. At 7 p.m. Rev. R. W. Lee will conduct service in St. Andrew's Church, and will give his fourth address on "The Inside of the Cup." Mr. T. G. Bonvis will be the soloist.

The Young People's Guild of St. Andrew's Church held an interesting Missionary Meeting on Tuesday night, the subject being the Korean. Several very good papers were read, Miss Lister choosing "The Land and the People" for her subject, Mrs. C. H. Daly, "Some Old Beliefs and Pioneer Missionary Work," Mr. MacLeod, "The Response of the Korean," Miss Isabel Stewart and Miss Roth well gave two interesting readings, and vocal solos were rendered by Mr. D. McKellar and Mr. George Fisher.

Mr Douglas Hamilton spent the day in Kelowna on Wednesday.

Mrs. Moore with her little daughter spent Wednesday in Kelowna.

Miss Robina Logie went up the lake on Wednesday's boat to Kelowna.

Mrs. C. N. Higgin, Jr., went up to Kelowna last Saturday, returning the same evening.

Mr Gilbert Thornber has returned from the Old Country, arriving on Tuesday night's boat.

If you have not ordered your trees and shrubs telephone No. 672. See our ad. on page 6. W. Beattie.

The regular monthly meeting of the Ladies' Hospital Auxiliary will be held on Monday, the 16th at 3 p.m. in the Hospital building.

Mr. Harry Bristow, who has been for some time occupying Mr. T. J. Smith's house, is building a residence for himself on his lot.

The St. Andrew's Young People's Guild are holding a social evening next Tuesday, and a number are expected as there has not been a social for some little time.

Other local residents who are attending the Sunday School Convention in Armstrong this week are Mrs. Munn, Mr. Coulter White, Mrs. Allan Stewart and Miss Watson.

The season's logging operations by the Garnett Valley Mill Company was brought to an end on Monday. Active preparations are now being made for commencing this season's cut at the mills.

Anniversary services will be held in St. Andrew's Church on Sunday, April 5. Rev. Alex. Dunn of Kelowna will be the preacher on that occasion. Mr. Dunn is recognized as one of the best preachers in the West.

The proprietors of the White Cafe, Mr. and Mrs. Fasridge, are opening a restaurant "up town." A building for the purpose is being re-constructed by Mr. Harry Coles opposite Mr. Wm. Ritchie's lumber office.

W. Callan, a teamster employed by Mr. Agur at Balcom, had his foot badly crushed on Monday, a loaded wagon passing over it. Fortunately there are no serious injuries, and Mr Callan hopes to be up and about again in a few days.

Mr. G. J. C. White went up on Tuesday to Armstrong to attend the Sunday School Convention being held there. He will also attend, before his return, a meeting at Vernon of the directors of the Okanagan United Growers.

Two firm skinned and good coloured specimens of Cox's Orange Pippins which have lain under the trees in the snow all winter were brought into our office by J. Tait this week. Many such little wonders of our climate are worth note and have made an interesting record this year.

Mr. and Mrs. Campbell Robinson and infant daughter returned on Wednesday night's boat looking very well after their trip to the Old Country, where they have enjoyed a very pleasant winter, and a thoroughly good time. They proceeded to Naramata, but spent yesterday on this side of the lake with Mrs. Robinson's relatives.

Representatives of our local Sunday Schools went up to Armstrong to attend the Sunday School Convention which is being held there this week. Mrs. Everton and Miss Ruth Dale were representing the upper Baptist School, and Mrs. Estabrook the Lakefront Baptists, Mrs. Angove the Methodist Sunday School. The Presbyterian delegate was Miss Jessie Steuart.

The West Summerland Women's Institute held their monthly meeting on Friday the 6th inst., one week earlier than usual, on account of Mr. Hillborn's engagements. There was a large attendance of members. Mr. Hillborn gave a very interesting and instructive talk on the growing of vegetables for the home, showing one way of solving the problem of the high cost of living. There was also a button-hole making contest, in which a number of ladies took part, Mrs. Cartwright acting as judge. Mrs. Bentley carried off the prize. Next month there will be a darning contest.

SHILOH CURES COUGHS & COLDS

Mr. James Ritchie was at Kaleden this week.

Mr. W. J. Robinson spent Wednesday at Peachland.

Miss Findlay of Kaleden is the guest this week of her sister, Mrs. Jas. Ritchie.

There is a bad leak in the water main near McAlpine's corner on the Lakeshore Drive.

Miss Gladys Limmer came up from Penticton and spent Sunday with her parents here.

Mrs. J. Conway went up to Kelowna on this morning's boat and will remain there for a time.

D. L. Sutherland expects to move into his new house near the high flume within the next few days.

Mr. William Sauter paid a brief two days' visit to Summerland this week, returning to Kelowna to-day.

Mr. T. E. Clay had the honor of being the week-end guest of Sir Charles Tupper in London a fortnight ago.

Mrs. T. N. Ritchie entertained a small party of her friends at a most enjoyable social afternoon at her residence on Monday.

At a meeting of the directors of the Summerland Telephone Company on Thursday afternoon, Mr. O. Atkins was appointed to the position of manager.

Milk delivery by motor car! Here is indeed progress in our town. Mr. Harry Reynolds is now delivering milk on a fine car which he has purchased from Mr. W. G. Kelley.

Presbyterian services will be held in St. Andrew's Church on Sunday morning, and in the Methodist Church in the evening. At the latter service the Misses Clay and Harrington will sing a duet.

The Women's Missionary Society of the Methodist Church held their usual meeting yesterday at the residence of Mrs. W. J. Robinson, and the ladies attending were afterwards entertained to tea by their hostess.

Local talent from this side was well represented at the concert which was such a great success at Naramata last night, Mrs. George Ross, Miss Hurschmann, Miss Dorothy Harrington and Mr. W. S. Kent all contributing to the program.

There is a good deal of complaining about "our neighbours' hens" going forward. A general request is about to be issued that chickens be kept penned, or at least at home, during the time when our laws are being coaxed by the sowing of fresh seed towards the refreshing greenness we like to see later.

Birds and beasts and flowers are all mistaking the gloriously warm March sunshine for May days, and brown butterflies, and the glittering tiny green beetles are out this week, imparting the atmosphere of midsummer to Summerland, as they bask under the cloudless skies. A white line of snowdrops is making a pretty bordering in some of our gardens. Not that snowdrops are May flowers, but they do not bloom so perfectly under the chill winds of the orthodox, calendar, March.

Mr. R. H. Steuart met with what might have been a most serious accident while driving home up the worst part of Peach Orchard hill on Tuesday. In some way the harness became entangled and caught the horse around the neck. The terrified animal reared violently, and falling dragged the wagon with him on the edge of the gulch. Mr. Steuart had a very narrow escape from being seriously injured, but has sustained no worse ill than a badly cut right hand.

A large party of local residents went down to Penticton on Monday night to attend the performance of "An Old Time Women's Aid Meeting at Mohawk Cross Roads," given by the Women's Aid of the Penticton Presbyterian Church, in the Stuart Hall. Mrs. George Gartrell, Mrs. R. H. English, Mrs. Noble, and Mrs. Milne went down by the "Okanagan" and several others drove down. A most enjoyable evening was spent, and the lady members of our Presbyterian Church gleaned valuable hints from the picturesque costumes and pretty play, for their own representation of the same entertainment to be held on April 6th.

OPEN FOR TRAFFIC

By a recent order of the Board of Railway Commissioners for Canada that part of the Kettle Valley Railway adjacent to Summerland has been authorized for traffic. Traffic may be carried over the seventeen miles westerly from Penticton wharf. Another section north from Carmi has also been similarly authorized.

WATER AT 40 CENTS PER POUND

A protest has been made to Premier Borden by Rt. Hon. W. F. Massey, Prime Minister of New Zealand against alleged adulteration of New Zealand butter by Vancouver merchants. The communication said in part: "It seems evident that the manipulation of New Zealand butter by the addition of water is fairly extensively practiced in Vancouver. It is stated that up to 28 per cent. of water is incorporated, which far exceeds the limit imposed in your Dominion. This faked butter is sold as New Zealand butter and this tends to damage the reputation of our shippers of dairy produce."

The reply from Hon. Martin Burrell, Canadian Minister of Agriculture, informed the New Zealanders that two firms in Vancouver were convicted and fined for selling butter containing water in excess of the legal limit of 16 per cent.

SHILOH
quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

College Notes.

Prof. Moore is recovering from his illness and has been able to take his classes at the College this week.

Dr. Harrington was confined to his bed with an attack of lumbago last week, but has recovered and is attending his classes again.

Mr. W. E. Armstrong went to Kelowna last week-end and took charge of the Baptist Church services there, Rev. D. J. Welsh being in Summerland.

The regular weekly meeting of the Y.W. and Y.M.C.A. was postponed to Thursday night when Rev. C. H. Daly spoke on "What's the Good of Religion?"

Quite a number of the College students went to the reception given by the Young People's Bible Class in Parkdale Baptist Church on Tuesday night. All report a most enjoyable evening.

The basketball game in the College Gymnasium between the College and Town teams was too one-sided to be interesting. The Town team was handicapped by the new members of the team not having had a chance to practise together. The College boys were shooting much better than usual and got the long end of the 28-7 score. The Summerland "Stiffs" again beat the "Hill Climbers" by 4 to 2, and the College Juniors beat their opponents by 8 to 3 in a good game, full of fast combination and good team work.

THE ORCHARD PLAYERS.

Tour Opens At Easter.

The touring party which was organized, principally from Summerland and in whose preparations we have all been much interested, begins rehearsing on Monday next and opens its tour on Easter Monday, April 13th, at Kelowna, with presentations of the famous plays, "David Garrick," and "The Truth." The Players will next visit Summerland, giving a performance at the Empire Hall on Thursday, April 16th. Mrs. Soames has just returned from London, England, with the costumes, wigs, etc., designed in the best houses in the capital, and the beautiful scenery, specially painted, has already arrived. It will be remembered that Mr. Race Dunrobin, Mr. Sauter and Mr. and Mrs. Soames are all to be in the cast, with several other actors and actresses whose names are associated with the best traditions of the English stage.

Canadian Fruit Not Well Enough Packed.

Ontario Authority Says There Are Few Whose Work is Good

Interviewed by the Canadian Associated Press last week on the subject of alleged discrimination against Canadian apples among the Covent Garden brokers, and the proposed establishment of a Canadian sale centre in London, Mr. Smith, a Niagara fruit magnate, who has been in close touch with Covent Garden, believes the charge is made against London brokers without the slightest foundation. "No such discrimination against Canadian apples as such exists," Mr. Smith says. "On the contrary, Canadian exporters themselves are responsible for any fall in the demand for their fruit. Their packing, in some cases, is deplorable, and in a small number of cases positively dishonest."

There are only a few shippers, in fact, whose packing can be described as good, and it is therefore small wonder the London brokers prefer to have their fruit from Oregon and other centres who guarantee packing, and whose goods on arrival are up to the standard.

Describing the Ontario apple as one of the finest, Mr. Smith is convinced that it has a great future in the London markets, if exporters will only co-operate and give a guarantee of packing.

Failing such co-operation, he feels it is a matter of sufficient importance for the Ontario Government to take in hand. This guarantee must be forthcoming. "Let them also see," he added, "that the apples are promptly shipped, and that a man shall be appointed to meet the boat on the other side who will see they are taken to London without the delay that too frequently takes place, and thus obviate as much deterioration as possible."

New Hospital In Sight

Board To Proceed With Work Of Erection.

Though the attendance of citizens at the public meeting held on Wednesday was not nearly as large as might have been expected, the Board and Canvassing Committee had an interesting story of progress to relate, and as matters stand now, it is a case of "go on and conquer," and though the Board is facing a lot of hard collar work, the public may now reasonably look forward to the erection of a hospital at an early date that shall do credit not only to our community but to the Valley. Chairman W. J. Robinson said that the canvassers report the subscription to the total of \$2,173, as well as promises in kind, such as supplies, and in work and furnishing to the amount of \$225.

The treasurer of the fund is Mr. E. B. May, and additional amounts that will meet the expenses of the whole erection and equipment are being confidently hoped for in the future.

The principal business of the afternoon was the election of the new Board, and after the ballot had been taken the result was declared as follows: Major E. E. Hutton, Messrs. R. C. Lipsett, E. B. May, H. C. Mellor, W. J. Robinson, C. N. Higgin, and W. H. Hayes, with Reeve Jas. Ritchie and Mrs. R. C. Lipsett as ex-officio members. Auditor, Mr. F. Nixon. It was moved by Rev. R. W. Lee, and seconded by K. S. Hogg, that in view of the fact that the government had promised \$3,500, and that a satisfactory sum was now guaranteed by the public, the Board should proceed forthwith with preparations for the erection of the hospital. This resolution was carried unanimously, and the meeting adjourned.

The newly elected Board then proceeded to business and the following were elected to serve as officers:

President - W. J. Robinson
Vice-Presidents - H. C. Mellor and C. N. Higgin
Secretary - F. A. C. Wright
Treasurer - E. B. May

Mr. Mellor was asked to state a price for plans and specifications for the new building and to inspect work of building. He replied that the regular price was 5 per cent. on the cost of building, but that he would quote 4 per cent. with a donation of one half to the hospital.

This was agreed to and accepted. The President was requested to appoint a building committee, to get plans and specifications and call for tenders, said tenders to be opened before the whole Board at a meeting to be called by the President. The President promised to attend to the matter at once.

At a special meeting of the Ladies' Auxiliary held in the Hospital on Monday afternoon, Mrs. R. C. Lipsett in the chair, it was decided that in view of the fact that there were no cases now in the hospital nor any rooms booked for the next month, that Mrs. Solly should be released from her duties, and the Hospital closed now instead of on April 1st. If any urgent cases should require attention, the Hospital would be opened specially, and a nurse engaged for it.

Mrs. Solly is busy this week closing up matters with the House Committee of the Auxiliary, and leaves here on Monday or Tuesday for Armstrong.

ONE-THIRD B.C. CROP SHIPPED BY UNITED GROWERS.

Vernon, March 18.—According to official estimates of last year's apple crop for the Province of British Columbia, the Okanagan United Growers, Ltd., which market the crop of the eight local fruit unions members of the Valley, sold 34 per cent. of the entire apple crop of the province.

The estimate of the production of the province, as given out by Inspector R. G. L. Clark at Vancouver, is 449,310 boxes. The annual report of the United Growers shows a total of 169,508 boxes of apples marketed by that organization.

Wharf Completed

The Inland Waterways Construction Company, Limited, has completed the fine new government wharf, and the structure was taken over by a government engineer on Thursday. The wharf, which is 700 feet long and 40 feet wide, has a gradual slope from the shore to the outer end with the inner end 5 feet six inches above low water level and the outer end down almost to the low water level. On Thursday a number of members of the Board of Trade, together with Messrs. McConnell and Cameron, of the Construction Company, and Mr. W. E. Keyt, of the office staff of Mr. Aylmer, Government Engineer, of Chase, inspected the new wharf, which was then formally taken off the contractors' hands by the government representative. The wharf is said to be one of the finest built by the government on any inland waters in British Columbia.

It is reported that beginning on Monday next, the ferry will use the new wharf.

The Okanagan's Folly

Importing Farm Products That Might Better Be Produced Here.

Vernon, B.C. March 17.—The necessity of paying more attention to mixed farming in the Okanagan Valley was clearly brought out at the annual meeting of the shareholders of the Enderby Growers' Association at Enderby last Thursday evening by R. Robertson, manager, of the Okanagan United Growers, Ltd., who declared it to be criminal economics for the Okanagan points to be importing meats from Australia and butter from New Zealand.

"We should ship out carloads of beef, eggs and pigs, instead of importing these commodities," declared Mr. Robertson, during a discussion of the marketing situation in general, and the hay market in particular, as it affects Enderby this year.

The speaker pointed out that a solid basis of prosperity would never be attained by great specialization, that no district should devote itself entirely to apples, or entirely to peaches, or entirely to hay, because the prosperity of a specializing district would be threatened during any year in which the market in the specialized produce might go wrong.

Mr. Robertson urged upon the growers the production of quality rather than quantity, as one of the certain ways to success.

"Some people claim that the co-operative movement does away with the individuality of men and districts," he said, "and in a measure that is true, but it is also true that the man who grows No. 1 apples gets a No. 1 price, and if any man can grow anything which is of such a fancy quality that it can command an extra price, we shall gladly give the grower a pool by himself, and individual returns on his product. We do take care of the man who is capable of producing goods of high quality."

During a discussion of the present situation of the hay market Mr. Robertson denied emphatically the report that some Alberta hay had been shipped into the Okanagan and sold at Valley points. He advised against a lowering of the price of hay, and stated that in his opinion price cutting would not increase consumption or demand.

"We have had some exceedingly difficult propositions to handle during the past season," said the speaker, "both in the Local and in the Central, but I believe that the principles we are working on are sound, and, subject to modification to meet changing conditions, will ultimately lead to unqualified success."

"There should be no difficulty so great that we cannot solve it, if we stand together. That is the point. Let us urge you to stick together through thick and thin—especially the thin."

"This year we must have crop estimates, and the directors of the Central have decided, beginning June 1, to handle the crop of no member who does not sign a contract. In case of over-production, however, we take care of our shipper by assuring them that they will

GROWING ALFALFA IN ORCHARDS

Fruit Growers Hear Much Sound Advice on Cover Crops and Live Stock.

Market-Com'r. J. Forsyth Smith Gives in Interesting Address a Resume of Prairie Marketing Conditions.

A feast of helpful and instructive lectures was enjoyed last week-end by the fruit growers of Summerland. Sessions were held on Friday evening and on Saturday afternoon and evening, addressed by the Provincial Market Commissioner, and by experts in dairying, alfalfa growing, and poultry.

There were a fair number of growers assembled in the High School building on Friday evening to listen to Wm. Schulmerich, who spoke on dairying, and to Market Commissioner J. Forsyth Smith. The boat was late that evening, and it was well after nine o'clock before the speakers reached the building, and the first lecturer, Mr. Schulmerich introduced by President Hilborn of the Farmers' Institute.

The speaker, who kept his audience in the best of humour and watchful anticipation by humorous illustrations, entered immediately upon his subject. He thought it strange that B.C. should import such an enormous amount of dairy products when these might well be produced here. To make a success of dairying the speaker emphasized the need of keeping only those cows which produced enough milk to yield a good margin of profit above the cost of feed, etc. In this day of specialties blood in cattle counted, and the speaker illustrated the difference between the ordinary scrub animal and the cow bred to a standard.

COMMUNITY BREEDING.

The speaker did not particularly recommend one breed more than another but said that if we had outside pasture and wished to raise a few steers the Ayshire was the best. He emphasized the wisdom of community breeding. Any community which specialized in the one breed could get better prices, and it would be easier in this way to head the herds with only first-class sires. The day of cheap cattle is past, and there are not now enough good dairy cattle on this continent to supply the demand. New districts are taking up the industry, and men are scouring the country for the best animals. The fact that only one quarter of the characteristics of the parent was manifest in the offspring, the other portion coming from earlier generations, showed the need of breeding only those animals who had good pedigrees.

Mr. Schulmerich recommended cover crop for the orchards, and advised using the crop to feed one or two good cows. If it was not desirable to cut the crop the cows could be tethered between the rows by a simple method which gave them range and yet protected the trees. This could be done by placing two stakes some distance apart between which a wire was stretched, and to which the cow could be chained with a ring around the wire permitting the cow to go from end to end of the wire without being able to reach the trees.

All be paid their portion of the sales made, whether or not their individual produce has been disposed of. Payments will be made at the average market price for the grade delivered.

"I fail to see the basis for the objections to the contracts. The Central will in every case give liberal consideration to the request of any member who, for any valid reason, wishes to be released, in whole or part, from his contract."

"For instance, if a hay grower wishes to be released from his contract in order to feed his hay to his own stock, the Central will be delighted. On only one point do we insist, and that is that members must not try to sell part of their

TESTING ESSENTIAL.

The necessity of testing cows individually was shown. Not only the daily quantity of milk but the amount of butter fat produced should be known. Here Mr. Schulmerich gave his own experience in entering the dairy business, how he had kept the average cow and made no progress until he obtained a high-priced sire.

The speaker then told his hearers how to care for the young calf, and the best method of feeding, emphasizing the need of patient and gentle treatment. Whole milk should be first used, making later a gradual change. Very rich milk should be diluted. Skimmed milk should be warm. If milk has been set one should be very careful of its condition when feeding, separator milk being the safest. Feeding three times per day was best, but do not feed too much at one time.

How and when to use oats, alfalfa, oil meal, bran, flax seed meal, etc., was told by the speaker.

Heifers should freshen in two years, and be milked for ten months to help them form the milking habit. They should be fed liberally, and if of the dairy temperament 40 per cent. of the feed will be transformed into milk. There is no better hay for dairy animals than alfalfa. Timothy on the other hand is little better than oat straw. Here Mr. Schulmerich went into details in the matter of feeding alfalfa, both to cattle and horses. The chief trouble from feeding alfalfa was that too much was given at one time. A little food strong in carbohydrates and some succulent material such as mangels to aid digestion should be given with alfalfa hay.

CARE AND STABLING.

The need of abundance of sunlight and good ventilation in the stables were emphasized. The speaker had found that when he had dispensed with rigid stanchions in his stables he had gotten one-seventh more milk and had clean cows. Persons using the former method should be prosecuted for cruelty to animals. Mr. Schulmerich said the Department of Agriculture would shortly distribute a bulletin describing his cow and stall.

Rough handling spoils the production in dairy animals. They must be milked at regular hours, should not feed when milking, putting all their attention on the milking. Milk secretion stops when the cow is frightened, excited or angry. To yield the largest amount the animal must be in a good state of mind. The milk should be quickly removed from the stable and separated or set at once. Churn with the milk at a temperature of 62 in winter and 56 in summer, and stop churning when the granules are the size of wheat.

(Continued on page 3.)

crops in competition with us in our markets.

Mr. Reekie of Kelowna then addressed the meeting, and spoke reminiscently of his experience years ago on the Manitoba prairies, when wheat was selling at 37 cents per bushel. "The grain growers lived through those times," he said, "and many of them are now comfortably rich. We, in the Okanagan, will live through our times of trial as well, and succeed largely."

"After all the criticism that has been heard this year of the Locals, the Directors, the Central, the Executive, and the Manager, I find that once the growers are brought to understand our situation, our

(Continued on page 2.)

Sentence Suspended Some Fruit Statistics

Freedom on suspended sentence was given Sam Peters by Magistrate English, on Saturday afternoon, with instructions to get employment and make good his declaration that he had no intention of defrauding his creditors. Peters' plea when the charge was made against him was "guilty, but not intentionally." He will be required to report weekly to the Court and pay in his earnings to be applied against his indebtedness.

Methodist Church Sale of Work.

The small but successful Sale of Work held in the Club Rooms by the Ladies' Aid of the Methodist Church on Tuesday paid due observance to the festival of the patron saint of Ireland, for the "wearing o' the green" was general, and the shamrock figured conspicuously in the decorations. The lady stallholders wore tiny bows of emerald green ribbon, and pots of shamrock were the effective little centre pieces of the afternoon tea tables. The Mission Band stall had been arranged by the young folk in charge as a Shamrock Stall, with a garland of the trefoil hanging over it. Erin, as represented in Summerland, thoroughly appreciates the pretty compliment paid to their Emerald Isle. Brisk business was done during the afternoon and the well stocked stalls of fancy and useful articles were as follows: Apron Stall—Mrs. D. H. Watson. Fancy Stall—Mrs. F. B. Tully. Cakes and Candies—Mrs. Clark Wilson and Miss Tisdale. Young People's Mission Band—Kathleen Brown, Edna English, Kathleen Merrill, Eva Shields and Bertha Bristow. The tea room, which was very well patronized was in charge of Mrs. J. R. Brown, Mrs. S. F. Sharp, Miss White, Mrs. Dunham and Miss Holder.

St. Stephen's Church.

Rev. D. E. D. Robertson preached to large congregations at both matins and evensong on Sunday last, and at the conclusion of morning service the baptism of the infant daughter of Mr. and Mrs. Purves took place, the baby receiving the name of Margaret Elizabeth.

In view of the longer days and bright weather when the members of the church, who are scattered over such a large area, can attend the services more regularly, practices of the church music for the united choir and congregation are now being held every Sunday at the conclusion of evensong. This will give everyone a chance of preparation for the beautiful music of the Easter festival which is now close at hand.

Any adult candidates for the forthcoming confirmation to be held by the Bishop of this diocese are requested to send in their names to the Rev. D. E. D. Robertson. Confirmation classes are being held every Wednesday afternoon in the Rectory.

Mr. W. S. Kent is acting as honorary organist at the Sunday evening services now, and the congregational musical practices which take place after evensong benefit by his assistance.

The Women's Auxiliary held their ordinary meeting at the Rectory on Wednesday afternoon under the presidency of Mrs. R. Clouston. The members are now very busy in preparation for the sale of work which will be held in Easter week.

Services next Sunday will be as usual. Holy Communion, 8 a.m.; Matins, 11 a.m.; Evensong, 7 p.m.

The next mail for Australia, etc., closes at San Francisco on April 7th, followed on April 15th by a mail from Vancouver.

Some places are born dead, some achieve death, and some have slow death thrust upon them by their live neighbors, who sleep with one eye open, rise betimes, advertise, and work like sixty for population, six days a week, and one more.

Shipments Of Locals Through Central Agency.

Vernon, March 16.—A comparative statement of shipments of the fruit and produce shipped up to December 31 last, by the Okanagan United Growers, Ltd., has been made public. The statement shows in detail the total shipments from each local Union in the Valley, the quantity and percentage and grade of each fruit and vegetable, and the average price of each grade, net to the Central.

The apple table shows Vernon as the largest shipper of that fruit with a total of 83,332 boxes out of the Valley total of 169,508. Only 30.9 per cent. of Vernon's apples, however, graded No. 1, while 53.1 were No. 2, and 16 per cent. per cent. were No. 3.

Peachland had the highest local average of No. 1 apples with a percentage 69.6, and Kelowna was a close second with 63.3. Local averages of No. 1 apples for the rest of the Unions are given as follows:—Salmon Arm, 35.5; Enderby, 55.6; Armstrong, 34.8; Summerland, 23.4; Penticton, 55.2. The low percentage of No. 1 fruit shown by some of the districts was in every case due largely to hail markings, and not to defects of size, shape, or color.

The average price of No. 1 apples for the season, net to the Central, was \$1.28½, No. 2 \$1.07½, No. 3 \$0.69, total average for all grades \$1.09½.

Vernon was also the largest shipper of pears 74.9 per cent. of which were No. 1, while Armstrong, one of the smallest pear shippers, sent out 100 per cent. No. 1 fruit. The percentages of the other points for No. 1 pears are as follows:—Salmon Arm 37.5; Kelowna 98.2; Peachland 86.3; Summerland 35.7; and Penticton 98.4. The average prices during the season follow:—No. 1, \$1.80½; No. 2, \$1.62½; No. 3, \$1.37.

Vernon and Kelowna districts produced two-thirds of the crabs shipped last year. The averages of No. 1 crabs were as follows:—Salmon Arm 82.7; Enderby 93; Armstrong 75; Vernon 38.2; Kelowna 87.5; Peachland 87.3; Summerland 49.2; Penticton 47.1. No. 1 crabs brought an average price for the season of \$1.21; No. 2, 95½; No. 3, \$0.52½.

No. 1 peaches brought an average price during the season of \$0.47½, while No. 2 averaged \$0.42½ per box. In the matter of No. 1 peaches Peachland was in the lead last year with 96.8 per cent., Penticton a close second with 95.5, Kelowna 89, Vernon 83.6, and Summerland 82.5.

In tomato production Kelowna far outclasses all rivals in the matter of quantity, having shipped 13,491 crates, out of a total of 21,142, while Peachland lead in the matter of quality, having shipped 99.4 No. 1 tomatoes. The percentage of No. 1 grade shipped by the other points is as follows:—Armstrong 55.6, Vernon 62.6, Kelowna 63.4, Summerland 52.9, and Penticton 64. No. 1 tomatoes averaged in price during the season \$0.78½ per crate, and No. 2 grade averaged \$0.48½.

With the exception of onions, in the shipment of which Kelowna leads with 1,856,355 pounds, Armstrong is credited with the heaviest vegetable shipments having produced, for instance, 930,590 pounds of cabbage out of the total shipment of 1,002,839, and more than 3,000,000 pounds of potatoes out of the 5,200,884 pounds shipped.

Cigarettes are this year barred by the San Francisco baseball club.

By a recent issue of the British Columbia Gazette, the formation of a Farmers' Institute at Kaledon is authorized.

Efforts are being made to change the name of the new C.P.R. passenger boat now in the finishing stages of construction at Okanagan Landing from "Sicamous" to "Summerland."

The affairs of the British North American Tobacco Company, of Kelowna, are now being wound up. W. Guinlock Benson, of the Bank of Montreal in that city, has been appointed provisional liquidator.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MARCH 20, 1914.

College Notes.

At the joint meeting of the Y.W. and Y.M.C.A. on Tuesday evening, Mr. W. M. Armstrong gave a strong, forceful address on "Inspiration." It was much appreciated by all.

The Literary Society of the College plans on having Rev. D. J. Welsh down from Kelowna to give an illustrated lantern lecture on "The Panama Canal," in the College Gymnasium. The plans have not yet been definitely made, but they hope to have it next Tuesday evening. Announcement will be made later.

Captain McDougall, of the College baseball team, believes he has a bunch of men from whom he can pick a team which will more than surpass last year's nine. It would be interesting to have a game arranged for with their old opponent's, Peachland, soon.

Friday night, after the basketball game, the boys were entertained by the co-eds in Morton Hall at a surprise party given in honor of Miss Madge Dickson, who left for her home in Vernon on Saturday morning. Miss Dickson was a leader in Y.W.C.A. circles, and will be much missed by all. Quite a crowd was down to the boat to see her off and give the College yell.

A Penticton basketball team was up and played the College team in the gymnasium last Friday night. The College boys had much the better of the play throughout, being quite at home on the big floor. At times their passing and combination were beautiful, but the shooting was poor. However, they managed to get the better of the visitors by the score of 17-9. The College juniors were given quite a

chase by their little opponents, and overtime had to be played to decide, in which the College boys scored a basket. The score was 10-8. These were probably the closing games of the season.

A little tragedy. Mother tells child that an angel is beautiful, has wings, and flies. Child tells mother that father called the hired girl an angel. The hired girl flew at once.

A certain newspaper has a report from a fellow who can drink or let it alone to the effect that he is still drinking.

There may be a better country than the one in which you are now located. But you are not very apt to find it through the florid representations of the exploiters of real estate schemes.

THE OKANAGAN'S FOLLY

[Continued from Page 1.]

difficulties, and, our results there is a different spirit prevalent in the Valley, and a reasonable spirit of support from Salmon Arm on the north to Penticton on the south.

"Pooling, as I understand it, is simply a system whereby the different districts help to bear each other's burdens. A No. 1 apple, whether grown at Enderby or Penticton, if put on the market at a certain time brings a No. 1 price."

Mr. Reekine then cited the case of a dealer from Alberta who had told him that in 1913 for the first time the grade and pack of Okanagan fruit had equalled and even excelled that of the fruit shipped by American competitors.

Mr. Robertson then rose to inform the members present that the director had decided to adopt a system whereby vegetables and hay may be standardized.

"Certain districts raise onions which bring a higher price than onions grown in other districts," said the speaker, "and in future these onions will be graded No. 1, and will bring the growers the higher price at which they sell. Timothy can also be similarly graded and handled, as can every other form of produce." Mr. Robertson then outlined the system being worked out this year whereby the Central is saving money for the growers by the purchase of seed supplies.

A. Fowler, Vice-President of the Armstrong Local, pointed out that only by co-operation could the growers help themselves and help others. "Do not condemn the co-operative movement because of mistakes of individuals or directing boards," he counselled. "Though last season in some cases growers who were not in the co-operative associations may have been paid more for their produce than members received, the members of Locals certainly received better prices than they would have obtained under the old system, when each man was competing with his neighbor's and with every other growers in the Valley."

The Summerland Telephone Co.

Limited.

How to Use the Common Battery 'Phone.

1. Lifting the receiver signals Central. Do not hang up until through.
2. Speak distinctly in a moderate tone about 6 inches from the transmitter.
3. If wanting a subscriber on your own party line you MUST hang up the receiver for a moment while Central makes the call.
4. Regular service is given throughout the week from 8 a.m. until 10 p.m., on Sundays 9 to 11 a.m., and 4 to 6 p.m. Emergency service at all other times.

Concrete Fence Posts Last Forever

THEY never rot away in the ground. They stand the hardest knocks and never have to be replaced, for they are practically everlasting. They are easily and cheaply made and are the most satisfactory of all fence posts.

Concrete Drain Tile Cannot Decay

Concrete drains do not decay and are cheaper, because they do not crumble and stop up drains, hence they need no digging up or relaying.

Let us send you this free book, "What the Farmer can do with Concrete." It shows you how to make concrete fence posts and will save you many dollars when doing other building 'round the farm.

Current Events — OF — Town & District

BORN—To Mr. and Mrs. V. L. Watson, on Monday, the 16th inst., a son, stillborn.

Dr. Paton has had the honor for this season to break the first sod on the fresh acreage to be planted in fruit trees.

Mr. H. T. Davies, formerly of the Naramata Supply Company, has opened up a grocery store in the rear of the Syndica.

Mr. J. B. Ireland, the restaurant man, has started another house on the line of railway construction back of Summerland.

Messrs. Schreck and Cook have purchased a neat and serviceable spraying outfit for use on the orchards in their charge.

Mr. and Mrs. Dean Walters report having had an enjoyable time at the Quadrille Club in Summerland on Wednesday evening.

Mr. R. King has decided to occupy his home on the benches of Naramata after a little over a year's residence in Penticton.

Patrons of the ferry service will please note that the Boat Company are now using the new government wharf on the Summerland side.

Mr. Walter Land has moved into his lakeshore cottage as Mr. Dossell has taken up residence in the Bartlett cottage on the south shore.

Mr. G. Brodie has purchased a large amount of lumber from the big railway camp known as Camp Hildebrand. It is Mr. Brodie's intention to go extensively into the chicken raising business.

Mr. and Mrs. Bruce, from Bristol, England, have taken up residence in one of the Hotel cottages. Mr. Bruce is an expert gardener and will take charge of the greenhouse run in connection with the Hotel Naramata.

A NOVEL SHOW.

That Naramata made a discovery—a real "find"—last Thursday night, when Mr. F. Roe as "Mrs. Jarley," put on the wax works, goes without saying. We are not going to say that Mr. Roe is a mere

Shiloh 25¢
The Family Friend for 40 years. A never failing relief for Croup, and Whooping Cough.

Mixed Farming Gets Big Boost

Fruit growers and others had a splendid opportunity on Monday, March 16th, to learn how, without additional expense to their orchards they may very largely increase the yields of fruit, and at the same time reduce not only the amount of actual labor of cultivation but the cost of living as well.

Mr. Wm. Schulmerich of Portland, Oregon, spoke in the afternoon of keeping a few hogs and cows on each plot. Proyed the advisability of getting and keeping high grade stock.

Mr. P. S. Darlington of Wenatchee, Washington, spoke on the wisdom of growing alfalfa in the orchards. The points brought out were (1) Not to sow alfalfa within five feet of the trees during the early years.

(2) That later, as the orchards get older, and as the alfalfa roots extend deeper and deeper the grass may be allowed to cover the whole orchard without injury.

(3) That it has already been proved without the shadow of doubt that the life and health of an old orchard, to a very large degree depends upon the giving back to the soil what the soil is annually giving to the support of the trees, and that this can best be done by the growing of alfalfa.

In the morning a demonstration on the two best methods of killing and dressing of fowl for the table and market by Mr. H. E. Upton, proved both interesting and profitable.

Mr. J. L. Hilborn of Summerland spoke in the afternoon giving some of his experience in the growing of small fruits and vegetables.

Taken as a whole the lectures were well attended, and delivered as they were by practical and successful men each in his line should prove a source of profit to the communities which have a chance to hear them.

TALK ORGANIZING AND CONSERVE WATER.

At a meeting of the above organization on Friday, March 13, the discussion on the water question resulted in a decision to devote a whole evening in the near future to this one subject.

It was learned that the new act by the government makes it possible for any ten land owners in a district to conduct an investigation with the assistance of competent enquirers with the view of floating bonds extending over a period of years at 4 per cent. to construct reservoirs, to conserve the water in times of freshets for use in the dry season. That in case these men after such investigation do not see fit to undertake the project the expense would not have to be charged to their private account.

From this, and from the fact that it is only a matter of a few years when Naramata as a town will be called upon in any case to do this very thing it would appear to be the voice of wisdom to at once "get busy."

hot air artist—though at times it would appear that he can handle the "brush" with becoming facility. In saying this we do not wish to detract from the merits of the preliminary program, provided by our talented Summerland friends, of whom mention was made in last week's issue, Mrs. Ross and Mr. Ben Newton as soloists, Miss D. Harrington as violinist and Mr. Kent as reader. What we must say is that the local artists who posed as part of the original and only Mrs. Jarley's wax works—under the guiding hand of our inimitable Fred Roe—came in for the credit of providing an evening's splendid entertainment. The person of the "show people" is as under:

- Mrs. Jarley Mr. Fred Roe.
- Showman Mr. James.
- Chinese Giant Mr. Bruce Cash.
- The Witch of Endor Mrs. Ruth Chambers.
- The Siamese Twins Mrs. Langueodoc and Miss Mason.
- Mary Queen of Scots Mrs. Hughes.
- Executioner Mr. A. H. Mulford.
- Mechanical Doll Miss Emma Davies.
- Little Jack Horner Stewart Allen.
- Casablanca Frank Hughes.
- Blue Board and Wife Mr. Guy Brock and Mary Hancock.
- Little Red Riding Hood Cathy Hancock.
- Little Miss Muffet Laura Pushman.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting:
Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

The Halcyon Sanitarium

ANALYSIS OF WATER.

Chlorine	8.14
Sulphuric Acid	368.43
Silica	74.20
Lime	84.57
Alkalies as Soda	5.01
Magnesia	232.00
Lithia	.82
Sulphuretted Hydrogen	32.00

Has recently been thoroughly renovated and re-furnished, and is now the greatest health resort upon the continent. Natural hot water in baths, 124 degrees of heat. A course of baths at Halcyon will cure nervous and muscular diseases and eliminate rheumatism and metallic poisons from the system. The water heals liver, kidney and stomach complaints. The rates are \$2 a day up; or \$12 weekly up. Postoffice, express and telegraph offices in connection.

William Boyd, Proprietor; Halcyon, B.C.

IN accordance with chapter 85, R.S.B.C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Kelowna and a point on the opposite side of Okanagan Lake, known as West-bank Ferry Slip.

Applications, endorsed "Tender for Ferry, Okanagan Lake, at Kelowna," will be received by the Hon. Minister of Public Works up to 12 o'clock noon of Tuesday, the 31st day of March, 1914.

The charter will cover a period expiring on the 31st March, 1915. The ferry shall make two trips each way every day, weather permitting.

The time of departure from and arrival at Kelowna shall be arranged so that connection can be made with the Canadian Pacific Railway Company's steamers.

Applicant shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Canada Shipping Act, 1906," and amending Act.

All children who are travelling to and from school shall be carried free of charge.

Applicants shall state the tolls it is proposed to ask for—

- Each adult passenger.
- Each child (not in arms) under 13 years.
- Each head of cattle, horse, mule, or donkey, etc.
- Each calf, sheep, goat, or swine, etc.

Each vehicle with one horse and driver.

Each cart or wagon with one horse and driver, loaded.

Each vehicle with two horses and driver, unloaded.

Each vehicle with two horses and driver, loaded.

Each parcel of 25 pounds and under.

Freight, per 100 lbs. and under, non-perishable goods.

Freight, per 100 lbs. and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of \$250.
The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.

ALFALFA IN ORCHARDS

(Continued from page 1).

PROFIT IN HOGS.

Mr. Schulmerich then took up the subject of hogs for which he said there was no better feed than alfalfa. Young hogs would do excellently on alfalfa with a little skim milk. Pigs weighing 200 lbs. in seven months could be produced at a cost of 4 1/2 cents a lb. on alfalfa and 1 lb. of crushed grain. The best methods of raising and caring for pigs were given by Mr. Schulmerich, who recommended using one lb. of tankage when fattening pigs. A statement that was received with much surprise was that from Mr. Schulmerich that alfalfa roots had been known to go down 127 feet.

MARKET COMMISSIONER.

Mr. J. Forsyth Smith, Market Commissioner for B. C. with headquarters at Calgary, who followed Mr. Schulmerich, spoke until nearly midnight with his hearers giving the closest attention. He outlined his duties as Market Commissioner, which was to get all information possible on prices and possible competition. For this purpose a large staff of correspondents is maintained some of these being in the American districts. Periodical visits are also made to American points. A new feature is the gathering of statistical information such as the cost of production, etc., and the amount of fruit consumed at the various prairie points. Very complete tables of the prices returned to American growers have also been compiled, and comparisons made of wholesale prices, freight and express rates. A full report is to be published soon.

Methods of marketing were entered into in detail, Mr. Smith declaring that the government was not encouraging dealing directly with retailers. He, however, purposed calling on the retailers for the special purpose of making direct connection for the marketing of small fruits in less than carload lots. The American "C" grade apple, what it was, its effect in hammering down prices, and how it compared with Canadian grades were told by Commissioner Smith.

The "C" grade varies from season to season, and compares closely with the Canadian No. 2. There is a good demand for a medium grade apple, and limited demand for a fancy apple. Commissioner Smith suggested that our No. 2 be put in competition with the American "C" grade, and our No. 1 made to meet their fancy or extra fancy. B. C. is at a disadvantage with the American growers, the latter having a large home market in their big cities for the high-class apples, while they regard their own and the Canadian prairies as a market for their "C" grade.

PEACH QUESTION.

Going quite fully into the peach question Commissioner Smith said he was not wholly in favor of growing peaches in the Okanagan, quoting peach prices in Calgary as they prevailed from time to time throughout the peach season, showing that the market had been largely satisfied and prices were declining when B.C. peaches came in. The white flesh and clingstone peaches were unpopular among the wholesale merchants, but if these could be gotten to the retailer as special tree-ripened dessert peaches he believed a good price could be had. The distinction between these and the preserving varieties should be emphasized, and they should be sent by express. Okanagan has the advantage over Yakima in the time consumed in transit, fast freight from the latter requiring six or seven days and from the Okanagan from two to three days. By adopting the suggested plan for the dessert peaches they could be delivered in twenty-four hours.

The Dominion Express Company have, said the speaker, offered a flat rate of \$2.10 to all Alberta points for peaches in less than carload lots. This puts them practically on a par with freight shipments from Yakima, the figures being 42 cents per box by express from Okanagan, and 44 cents freight, duty, etc., from Yakima, giving B.C. the advantage of quality and time.

An interesting review of the advertising methods adopted by a number of American organizations as well as the marketing methods adopted by those organizations was given by the speaker. Last year our government had advertised B.C. fruit in some of the leading

prairie papers, and the commissioner would recommend to the department further newspaper advertising. He also suggested periodical circulars to the retail trade.

An apple display car on the Alberta mixed farming exhibition train had been practically arranged for. The weakness in government advertising is that the government does not now control the quality. Commissioner Smith suggested that the Okanagan establish a brand with absolute guarantee of pack, instancing the marvelous success of Yakima's brand, established only two years.

GROWER TO CONSUMER.

Means whereby the grower might be brought in more direct touch with the consumer were discussed, and to questions from his hearers along this line Commissioner Smith said that he would not advise dispensing with the splendid organization now maintained by the wholesalers for distribution, collection, etc., but at the same time he did not think it necessary to submit to any coercion from brokers or wholesalers. That Calgary's public market would be valuable for the disposal of ripe fruit; that B.C. supplies 20 to 25 per cent. of all the apples consumed in the three prairie provinces, and 35 to 40 per cent. of Alberta's consumption; that while 1914's crop is likely to be an immense one there is not a likelihood of the disorganization of 1912, were a few of the other points brought out by Commissioner Smith in his strong and very interesting address.

On Saturday afternoon the poultry enthusiasts met to listen to Mr. H. E. Upton, the government poultry specialist. Upon the occasion of Mr. Upton's last visit here he had not been very well received, and probably had not any too good feeling toward Summerland. He was, however, taken around the place during the morning and introduced to a number of "the boys" and when he boarded the boat that night had nothing but good to say of Summerland's fanciers.

CLEAN CULTIVATION OR COVER CROP?

Following Mr. Upton's lecture demonstrations were given by Mr. P. S. Darlington, particularly in pruning, the Wright Brothers' orchard being used for this purpose. Mr. Darlington's lecture that evening was, though not largely attended; considered by those who heard him to be one of the best ever given here, his subject being "Alfalfa in the Orchard." The speaker dealt with the theory of clean cultivation, which has been practised for a long time, and which is now being proved a mistaken practise. Orchards in Wenatchee district are now, as a result of this method, showing signs of starvation. One method of repairing the damage was to add barnyard manure, but this was too expensive, and the results only temporary. A cover crop was found the best remedy. Clover was good but not as good as alfalfa because the roots of the former were all near the surface competing with the roots of the apple trees. Alfalfa, on the other hand, goes down far below the tree roots and brings up nourishment from unused soil.

SOLID ALFALFA.

Contrary to the usual advice handed out to our growers the speaker recommended the growing of alfalfa solidly over the orchard as the best practice, not in strips between the rows, except in the case of trees under five or six years of age. He would allow the crop to grow unmolested and to fall on the ground, there being no need of incurring the expense of cutting it but simply allow it to fall over and rot, discing it in the spring. Crops may be cut and gathered but this will not be so good for the trees.

The lecturer then gave the output for six consecutive years of two orchards close together in Wenatchee having the same soil, same variety of trees, of the same age, the one cleanly cultivated and the other solidly sown to alfalfa. The cleanly cultivated orchard averaged 10.2 boxes per tree per year while the alfalfa orchard averaged 10 boxes per tree per year.

Mr. Darlington recommended sowing from 4 to 6 lbs. alfalfa seed to the acre. It was useless, however, to sow alfalfa on ground which had water near the surface, the speaker repented the common saying that "alfalfa cannot stand wet feet."

Shiloh 25¢
The family remedy for Coughs and Colds.
Small dose. Small bottle. Dated since 1870

THERE is a difference between fresh can'd goods and old stock. Only the newest is best -- having that delicate natural flavor of the fruit or vegetables. Knowing this, we buy only from factories which can their goods IMMEDIATELY AFTER THEY ARE PICKED OR GROWN -- factories which are known to work under conditions of perfect cleanliness.

You may rely absolutely on our goods. We keep a large variety rather than an extensive stock -- constant renewal being our policy. Next time you use our canned goods note the fresh natural taste -- the character of them all.

Mrs. A. G. Simms is, we regret to hear, confined to the house as a result of a chill.

Mr T. E. Clay returned home on Wednesday night's boat. He has been on an extended tour in the Old Country.

Adam Blyth and Martin Joyce returned on Tuesday evening from a four months' visit to friends and relatives in their native Scotland.

Henry C Packham, of the College, will conduct the usual services in both the Baptist Churches on Sunday next.

Mrs. John Tait, who has been visiting most of the winter at her former home in Scotland, sailed for home on Saturday.

An interesting letter from A A Derrick on the subject of dairy cows, though in type, has for lack of space been held over until next week

Mrs Hockins, of Penticton, and her son, came up on the ferry on Thursday and are the guests for the week-end of Mr. and Mrs. Isaac Blair.

In preparation of the irrigation season now so close at hand, Superintendent James Mitchell now has a gang of men at work cleaning out the municipal ditches and flumes.

Mr Frank Edgar, Miss Gladys Stuart, Mr C. Lavis and Mr Will Robinson crossed the lake on Tuesday to attend the successful St Patrick's Day dance at the Hotel Naramata.

Bring your keys TO-MORROW, Saturday, to the Summerland Supply Company's branch store, West Summerland, and try them in the lock of the new Singer Sewing Machine. ad

Mr and Mrs F A Williams came in from the Coast at the end of last week, and are now occupying their new home in the lakefront section, where they will be in readiness to receive friends after the 1st of April.

Mrs. H. Foreman of Victoria Gardens wishes to thank the many enquirers after her health. She has so far recovered as to be able to spend this week with her daughter, Mrs. A. A. Derrick, at her residence in Peach Orchard.

There was a good congregation at the Presbyterian service held in the Methodist Church on Sunday evening. Rev. C. H. Daly preached, and a pleasant interlude was the singing of the melodious duet, "I know My Sheep," by Miss Myrtle Clay and Miss Dorothy Harrington.

Jas. Clark, who formerly worked the boat factory here in partnership with B. L. Hatfield, and who has recently been at Okanagan Landing doing interior finishing work on the new C.P.R. craft, is now seeking to establish himself in the boat building business on Vancouver Island.

A concrete evidence of the marvellous growth that is made annually by our fruit trees in irrigated orchards was brought this week by J. Tait to the Review office in the form of a cutting from an Italian prune tree. This cutting measured 9 1/2 feet, all produced in last summer's growing season.

The Boy Scouts are having good rallies every Friday night now, and Scoutmaster Tait is asking all our lads who intend joining the troop to do so before April 10th, so that they will be ready for the recruits' examinations on April 17th, and so be eligible for all the business and fun of the summer outdoor scouting.

The ladies of St Andrew's Church, following their anniversary service, will give on Monday evening, April 6th, a quaint and novel entertainment entitled, "An Old Times Ladies' Aid Meeting at Mohawk Cross Roads." Twenty-five ladies in old time costumes will present this interesting and amusing entertainment. Admission 50 cents, children, 25 cents. m2027

The tent occupied by the young sons of Mr G W Morfitt was quite destroyed by fire on Wednesday night. The boys had made up a fire, and in some way the flap of the tent caught alight, and by the time Mr Morfitt was aroused the fire had a good hold, with the result that the tent was quite burnt out, the only thing saved being some of the bedclothes that the boys carried out

Mr George Ross spent Thursday in Vernon on business.

Mr R H English went up the lake on Monday to Kelowna.

Mr and Mrs Ross Lockhart have removed from Trout Creek to reside on the Parker lot, of which Mr Lockhart will have charge

A number of cases of chicken Pox have been reported during the last few days. The disease is fortunately of an unusually mild type.

The directors of the Fruit Union, at a recent meeting, approved of loans for livestock purposes to the extent of about \$4,000.

Messrs. A. S. Hatfield and O. E. Tomlin of Kaleden spent Tuesday about town. They motored up to Naramata on Monday evening, coming from there by ferry.

Miss Hopkins wishes to tender her thanks to those who have so kindly contributed and made up the fund in compensation for her loss of personal belongings in the recent fire.

A silver cream pitcher and sugar bowl of particularly graceful design have been presented to Mr and Mrs Frank Williams as a wedding gift from the Lakefront Baptist Sunday School.

The Inspector of Government Telephone and Telegraph lines, Mr J. A. House, together with Mr Layton, local representative, is to-day going over the lines of the government system in this vicinity.

Many New Brunswick friendships of former years are being renewed by Mrs Campbell, of Sackville, who arrived in Summerland on Thursday evening from California. Mrs Campbell is at present the guest of Mr and Mrs J E Phinney.

Mr D J Welsh of Kelowna will give an illustrated lecture on the Panama Canal in the College Gymnasium on Tuesday night at eight o'clock. The Rowley Basketball Cup will also be presented to the winning team during the evening.

On Good Friday, April 17th, the Methodist Choir, augmented by friends, will render the Oratorio, "From Olivet to Calvary," by Maunder, in the Empire Hall. The soloists will be Mrs. G. Ross, Messrs. Ben Newton, T. G. Beavis, and J. O. Smith.

A. F. Solly went out on Tuesday morning's boat to Armstrong, taking with him ten head of cattle and household effects to the farm which he and Mrs. Solly have taken up some way out of that town. Mrs. Solly is following on Monday or Tuesday next.

Mr. and Mrs. H. G. Estabrook and two children arrived in Summerland from Vancouver on Monday evening, after spending Sunday at North Bend. They will sojourn here for possibly a year, taking up residence on their ten acre property above Peach Orchard.

The announcement made by the Summerland Telephone Company last week that they are prepared to handle long distance business has resulted in a very marked increase in the volume of business both outward and inward on the government long distance lines.

Methodist Church services will be conducted on Sunday next as follows: 10.30 a.m. Divine Service conducted by the pastor; 3.30 p.m. service in Prairie Valley School-house; 7 p.m. Divine service in the Methodist Church, conducted by Rev. R. W. Lee, who will give the last of his series of addresses on the wonderful book, "The Inside of the Cup," his subject being "Priest or Prophet."

On Sunday evening next in St. Andrew's Church Mr. S. Victor Ware will speak for the last time in Canada. He leaves for England on Monday evening to resume his evangelistic work there at the urgent request of his old associates. Mr. Ware's many friends in Summerland will learn with regret of his approaching departure, but all are glad to know that he is sufficiently recovered to resume the work which lies nearest his heart.

Mr and Mrs G W Morfitt entertained friends to the number of about twenty to an enjoyable card party at their Jones Flat home on Monday evening. There were four tables, and the highest scorers in the whist drive proved to be Mrs Alex Smith and Mr Morfitt. As host of the evening, however, Mr Morfitt resigned his prize in favor of Mr J R Tait. Refreshments daintily served capped the evening's pleasure.

Second Key Contest closed; see Summerland Supply Company ad on last page.

Mr. George Gartrell returned on Wednesday night's boat from a visit to Kelowna.

Mrs. R. H. Steuart, who has been visiting at Kelowna, returned to her home on Friday night.

Miss Cooper and Miss M. Cartwright were the guests of Mr. and Mrs. Carrol Atkins on Tuesday last.

T. B. Young has installed a 10,000 lb. weigh scales by his Feed and Implement Store, West Summerland.

Mrs. Harold Rivington and Miss Neve rode to Penticton on Wednesday to lunch with the latter's sister there, Mrs. Tunbridge.

The Telephone Company is running a line out to the Garnett Valley Saw Mill, and another to F. Munro's ranch in Meadow Valley.

T. Hickey, who has been resident here for some years, went out on Wednesday morning's boat for Walthachin, where he has secured a position.

The demand for the acquirement of livestock continues. Mr L C Woodworth went up to Calgary on Monday with the intention of buying more stock there.

The camp of Carlson & Co. has gone out this week and all business closed up, twenty-four fine horses being taken out to Oroville on Tuesday night.

We are to have a resident dentist here shortly. Dr. R. P. Carter, a fully qualified one, is expected to arrive here on May 1, and will take up a permanent location.

Mr. J. L. Logie, as Right-of-Way Agent for the Kettle Valley Railway, went out to Princeton on Monday to attend to some railway business. He returned on Thursday night.

Second Key Contest Closed; bring your keys to-morrow, Saturday, to the Summerland Supply Company's branch store, West Summerland, and try them in the lock of the new Singer Sewing Machine. ad

Mr. O. Elvigion after a fortnight's visit here has returned to Spokane, driving down to Oroville from here on Wednesday morning to superintend the removal of Carlson & Co.'s stock from thence.

The Women's Institute is busy to-day, as after their own full afternoon, they are supplying suppers this evening to a great number of men who are attending the Fruit Growers' important meeting.

Rev. R. W. Lee, J. R. Brown, and C. N. Borton crossed the lake on Tuesday for the climb to the tunnel camp, which they visited, and inspected the wonders of the tunnel which has reached a most interesting stage in its growth.

Mr W C Cameron, contractor in charge of the recently completed government wharf left for Chase on this morning's boat. He is so delighted with Summerland and the Summerland climate that he speaks of returning shortly with his wife, to spend the summer here.

A very pleasant little afternoon tea party was given by Mrs. Hayes at her residence on Sunday to some College girls and teachers. The tea table was prettily decorated with spring flowers, and the young people thoroughly enjoyed the quiet hour or two with their kindly hostess.

Mr. and Mrs. S. V. Ware, who have been in Summerland for some little time past, are leaving one day early next week, and will return to their home in the Old Country. Mr. Ware has been very helpful to the Baptist Church here during his stay, and Mrs Ware has benefited greatly in health from our beautiful climate.

Miss Margory Willans, Mrs. Rivington's young sister, who is studying Domestic Science at the Haldiburton College, Royal Oaks, won the prize for the best loaf of bread in a recent bread-making competition in connection with the Women's Institute there. Miss Willans, an English school-girl of sixteen, has been in Canada only six months, and we congratulate her on so rapidly qualifying for western life.

Notice to Creditors

IN THE MATTER OF THE Estate of Archibald Montford late of the County of Snohomish in the State of Washington, U.S.A. deceased.

Notice is hereby given that all persons having any claims or demands against the late Archibald Montford who died on or about the 28th day of July, A.D. 1913 at Summerland, in the Province of British Columbia, are required to send by post prepaid or to deliver to the undersigned solicitors herein for the Title & Trust Company, Administrator of the Estate of the said Archibald Montford, their names and addresses and full particulars of their claims and statements of their accounts and the nature of the security (if any) held by them.

AND TAKE NOTICE that after the 31st day of March, A.D. 1914, the said Title & Trust Company will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which they then have had notice, and that the said Title & Trust Company will not be liable for the said assets or any part thereof to any person of whose claim they shall not then have received notice.

Tenders are to be invited immediately by the Provincial Department of Public Works for the erection of a two-room schoolhouse at Naramata. Tenders must be submitted by the 8th of April.

Peachland Notes.

Mr. James Michael was a visitor to Kelowna on Monday.

Mr. N. Shaw and family moved to their lot in the townsite on Monday, the 16th.

The regular meeting of the W.C.T.U. was held at Mrs. McDougald's home on Tuesday afternoon.

In the absence of Rev. A. Henderson, Mr. Roy Smith, of Westbank, conducted services in the Methodist Church on Sunday evening.

Considerable horror was felt by the ladies who attended the Friday afternoon poultry demonstration, as they were convinced in their own minds that the chicken was plucked while still alive.

The delegates to the Sunday School Convention at Armstrong returned to town on Tuesday evening. They were Mrs. Williams, Mrs. Murdin, Mrs. J. B. Robinson, Miss Olive Ferguson and Mr. H. McCall.

Since the Farmers' Institute meetings held last week and addressed by experts on different subjects, we hear of an increased acreage being devoted to alfalfa. More of the growers are enquiring about cows and every farm yard is getting ready its corner for the pig.

Color is beginning to show in the cherry and plum blossoms, but we hope it will be a week or so later before the full blossom appears, because Jack Frost might take a fancy to call again, and then the delicate bloom might suffer disastrously.

SHILOH quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre.

Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

The Women's Institute held its regular meeting last Tuesday afternoon. Mr. J. L. Vicary was elected to the president's chair in place of Mrs. Town who resigned. Practical hints on house cleaning were given by Mrs. Brown and Mrs. White, which were much appreciated. Mrs. Buchanan, who was not able to be present on account of sickness, sent her paper on "Dust and Its Dangers" which was read by Mrs. Clarence, after which Mrs. A. W. Miller demonstrated team-making, passing a sample of the finished article to each one present. A vote of thanks was given to each one of the speakers, and the adjournment then took place with the singing of the Canadian National Anthem.

St. Patrick's Day dawned bright and fair, harbinger of a fine evening for the Irish play in the Orange Hall. The hall was suitably decorated for the occasion. The chair was taken by Mr. W. A. Lang, who in his usual happy manner introduced and commented on the various parts. Solos were sung by Miss Alice McDougald, Mrs. H. Logan, Mrs. Mitchell, Mrs. W. Dryden and Mr. Ted Smith. Mrs. E. Lang and her son Stewart were accompanists. Eight characters took place in the two and a half hour play, "When a Man is Single." The hall was filled to its utmost capacity. Much credit is due Mrs. Mitchell, who was untiring in her efforts to make the play a success.

Kaleden Comments

(Received too late for insertion last week)

Mrs. Gillespie, of Penticton, is the guest of her cousin, Mrs. T. C. Preston, for a short time.

Activities are commencing on the lots here, and the birds and flowers which are now with us have brought the evidences of Spring.

Mr. A. S. Hatfield motored up to Summerland with Mr. O. E. Tomlin on Monday morning, returning on Tuesday evening.

Tuesday, the 17th, was observed here as "Clean-up Day" and a great improvement has been made in the appearance of the town.

Mr. and Mrs. Carroll E. Foss, who have been spending the winter at Sleeping Water, returned to their own ranch on Tuesday last.

Mr. and Mrs. Paull with their four children, have arrived this week from Ashcroft, and will live for the present in the cook house.

Mr. Wilson, of Penticton, supplied the pulpit of the Baptist Church on Sunday afternoon, March 8th, when Rev. Chas. Britten was in Summerland.

Mr. H. H. Whitaker, who has been staying at the Hotel during the winter, has removed to his own ranch, where he plans to be very busy this summer.

The regular meeting of the Woman's Club was held on Wednesday afternoon in the new Club Room, Mrs. W. P. Simpson being the hostess on that occasion.

School is progressing very satisfactorily under the able direction of Mr. J. F. Tupper. More pupils are attending, and several new seats have been fixed this week.

Mrs. J. F. Tupper, with her daughter Margaret, drove down from Penticton on Friday, the 6th, lunching with Mrs. J. Lock, who returned as their guest until Sunday.

The annual business meeting of the Conservative Association was held in the Club Room on Saturday evening last, when Mr. L. W. Shatford, M.L.A. was elected as Honorary President, the remaining officers being elected by acclamation.

Mr. T. C. Preston, who has been sick for some time past, went up to the Penticton Hospital for an operation last Tuesday. We are glad to know that so far the operation has been successful, and we hope to see him home again in about two weeks.

Vernon, B.C., March 19.—A ninth local Fruit Union has become affiliated with the Okanagan United Growers, Ltd., and will, this year, have its produce marketed by the "Central." The new member of the big co-operative association is the Farmers' Exchange Association of Tappan, B.C., the first station west of Salmon Arm on the C.P.R. main line.

The produce shipped from Tappan last season consisted principally of hay and vegetables, with some fruit.

Annual Meeting of Summerland Fruit Union.

Hon. Price Ellison, Mgr. Robertson and G. J. C. White Speak of Progress, Predicting Better Yet. Strong Directorate Elected.

"Divided, we have small influence; together we will be looked up to, respected, listened to and helped. Divided, a few will rise to the top; the mass be kept poor. United, we will share more evenly; divided we will be in one another's way and striving to snatch the crust one from the other. United, we will each get a slice—maybe a loaf. Let us stand together for the good of all and make your business a success, and not be impatient if the ideal is not reached at once. We are on the right road, let us travel it." These and many other expressions of like nature were heard by a large gathering of shareholders who listened with the closest interest to President White's address at the annual general meeting of the Summerland Fruit Union held last Friday afternoon.

President White congratulated the members on the success of the season's operations. He believed the co-operative organization of the Valley was the right thing, though it had problems yet to solve. With the Central marketing agency and a general system of inspection an improved and more uniform pack had resulted. Union had given strength to negotiate arrangements with the railway, government and such institutions.

Pre-cooling was touched upon by the speaker. The outcome of the next season's experiments will be awaited with interest.

Mr. White was not at all pessimistic with regard to the future of the peach industry. Many trees are being removed, and already it is said 60 per cent. of peach trees in this vicinity have been pulled out largely because they had only been grown as fillers. Improved methods of growing, handling and marketing will not only cheapen the cost of production but increase the demand.

The speaker looked forward with confidence to the next season. A large sale of apples had already been effected. Improved methods of handling, eliminating of rebates, better arrangement of pools, improved handling facilities would all result to the benefit of the grower. "I believe we can look forward with confidence," declared Mr. White. "It will be necessary, though, that all should do their part. We must weed out or work over unprofitable varieties both of apples and peaches. We must prune and spray so as to obtain the best fruit; thin thoroughly; pick and handle carefully."

The financial statement of the year closing January 31st was submitted to the shareholders, reference to the most important features of which has already been made in these columns. That it would be reasonable to look forward to the declaration of a small dividend on the next season's operations was the opinion of the president.

Before bringing his thoughtful address to a close President White made another strong appeal for adherence to the principles of co-operation, "working together for the good of all."

The financial report was unanimously adopted on motions of Messrs. White and Higgin.

The chairman pointed out that 70 per cent. of the charges made during the packing season against the fruit handled was returned to the growers, proving that the business had been economically handled. The local had this year also refunded to the growers the 3 per cent. retained by the Central for the purpose of establishing a working capital. Central had covered the amount retained by giving the local a three years note bearing interest at 4 per cent., but the local having some funds in the bank concluded to settle with the growers in cash rather than individual notes.

The matter of binding grower, local and central by a contract, came in for considerable discussion. The Central will insist that every member sign the contract and also submit an estimate of his crop. Chairman White in explaining the contract and its necessity said

that it was not intended to be a chattel mortgage, and that no undue pressure to enforce the contract would be attempted, rather the Union would prefer cancelling contracts than using any legal process. The agreement in its new form will not require the grower to assign, etc., his entire crop but he simply agrees to market it through the organization. Last year failure on the part of a few to live up to their contract had caused financial loss to the Central.

Mr. Logie said that he had objected to the contract and suggested rather that members be put on their honor. He advocated permitting every member finding a private market.

Mr. Hespeler thought it would be very nice for some of the members to have private customers for their choicest fruit and use the Union to market second grade, but this would work to the disadvantage of the other members.

A motion was then made that the members proceed with the election of officers, this was followed by a suggestion from Reeve Ritchie that each of the nominees be asked to express their views on the marketing policy of the Central. Mr. Ritchie claimed that there were only two matters to discuss, whether our Local should pull out from the Central or recommend that the Central deal direct with the retailer. Mr. Ritchie said that it was not his intention to criticize the present management but he would like to have a thorough discussion of the question.

Then followed a long discussion participated in by many of the shareholders, and which discussion showed a great diversity of opinion. It would seem, however, that the majority look upon direct connection with the consumer, or at least retailer, as the ideal method. President White thought it would not be wise for the growers to dictate a policy, but that they should trust the men appointed to manage.

Before calling on the candidates a vote of thanks to the retiring board, proposed by G. W. McLaren and seconded by E. R. Simpson, was unanimously carried, and was responded to by President White.

Mr. Mellor, during his remarks, referred to Manager Robertson, and of the very high esteem in which he is held by those who knew him best in business life. One large fruit dealer with whom Mr. Robertson had done much business, and with whom he had come in direct competition, said that he held a unique place among fruit men, and knew the business as well as any man on the continent of America. That he was strictly honest and could not be made to do a wrong thing was the statement made by this fruit-man, who also said that he knew for a fact that if Mr. Robertson would forsake his own flag he could get a very much larger salary in Washington State.

On motion of Messrs. McLaren and English the members decided to have the directors appoint from their number two shareholders in the Central and Summerland's member on the directorate of the United Growers.

As a result of the polling the following were elected as directors of the Fruit Union for 1914:—G. J. C. White, H. J. Wells, E. R. Simpson, H. C. Mellor, C. N. Higgin, J. L. Logie, and R. V. Agur.

Shortly after six o'clock recess was declared and lunch was served by the ladies of the Women's Institute, who received a hearty vote of thanks.

EVENING SESSION.

Upon resuming business Mr. R. Robertson, who with the Hon. Price Ellison was present, addressed the meeting. Mr. Robertson had just come from Armstrong where co-operation had, during the past year, been put to the severest trial, and he brought a message of hope, cheerfulness and determination to continue the good work at Armstrong. He offered his congratulations to the chairman and directors

for the results of the Local's last seasons operations which had shown a satisfactory margin of profit of nearly \$2000. Mr. Robertson urged caution, saying "you cannot build surely unless you build slowly." Reviewing the work in this Valley during the past season Mr. Robertson said that the results were better than he had anticipated. There is a peculiar brooding spirit that has come over our Valley, and let the difficulties be what they will the people will stand together.

The question had been asked why not murder the brokers and cut out the wholesalers and retailers? "When we get thoroughly organized we can do it; we can do what we will when solidly organized; but even then we will market our fruit through established channels.

In the Old Country, where co-operation is now thoroughly established, being built up from the consumer's end, it has been found not feasible to do away with the middleman, but the co-operators are their own middlemen. We can be our own wholesalers and retailers, but we have several things to do first. The wholesalers have huge bank accounts. When we are ready we can begin by buying some wholesale man out, probably appointing him as manager and taking advantage of his expert knowledge, but first we must be sure we have capital enough to carry this through. The time is coming when the man on the land will be king. We won't be in the retail business yet for four or five years, then we can go to the retailers and say to them we want you to come in with us. Some of our locals are venturing into the retail business, and I am watching them with interest. We want them to win on fair lines."

Mr. Robertson said further "Beware of the man who is extreme in everything," and advised "steering a safe middle course, and then the victory will be ours." Speaking of the constructive policy of the co-operative movement Mr. Robertson said that "progress can be made only in so far as we can take the bulk of the people with us. This co-operative movement means one thing if anything, we've got to be loyal one to another, willing to submit to the judgment of the majority of our fellow-men." Dealing with the necessity of the contract the speaker said "If you don't intend to be loyal don't sign the contract. If you do, don't let anything come in to interfere. We had some traitors last season. They showed no moral courage or backbone. We are better without them for a time."

Mr. Robertson then went on to show how the constructive force of the movement was bringing in others who were former opponents, and said, "You have some splendid men here, specialists, and you want to angle for them. We are fishing for men to line up with us to get their experience and get them to help us to help ourselves. Stand by your association, and by your directors, and by the end of 1914 you will have had better results than 1913."

The likelihood of largely extending our markets was touched upon. In South America apples were selling at \$15 per box. South Africa, China, as well as Australia and New Zealand offered great possibilities.

Mr. Robertson warned his hearers that the standard of pack must be raised, and the fruit more severely graded. A record must be established. With fruit of good quality we can fight to the last ditch for the price. One instance of this was while the market for Spitz was \$1.00, Central had gotten \$1.85, because it was able to guarantee a superior grade. Mr. Robertson said he hoped to get all in line to get the full market price.

The question of ponches, their marketing, etc., was also lengthily discussed. Mr. Robertson favored thinning and pruning so as to get only No. 1's, and advised shipping nothing else.

Trustees Turn Down Manual Training.

Government's Further Liberal Offer Refused on Plea of Lack of Funds.

Neither manual training nor domestic science will be introduced into the Summerland Schools this coming fall. The Board of School Trustees reached this decision at a special meeting held on Monday morning last at the Municipal Offices. There were present Chairman Dr. J. P. McIntyre, Messrs. W. R. Shields, J. E. Phinney, and Robert Johnson.

The meeting was called to discuss the proposition from the Department of Education brought by Mr. Dunnell, Inspector of Manual Training in B.C. Schools, during his brief visit to Summerland last week. Mr. Dunnell made clear the desire of the government to establish a manual training and domestic science centre in the Okanagan, preferably between Summerland and Kelowna. In an endeavor to accomplish this the authorities at Victoria are prepared to go beyond the previous offer of financial assistance, which was to pay seventy-five per cent. of the teachers' salaries, and a like proportion of the cost of the tool equipment. Recognizing that civic finances were far from easy at the present time, the further offer was made by the government to pay the teachers' salaries and travelling expenses in full, leaving the municipality to pay, besides one quarter of the equipment cost as before, only the local charges for rent, heating and the alteration of a building to meet the requirements. This cost had been estimated at about \$500, representing the expense of manual training to the local ratepayers for one school year from August 1914.

Chairman J. P. McIntyre laid these facts before the Board as Mr. Dunnell had informed him. The urgency of the matter arose from the recent decision of the Kelowna School Board to accept the offer of the Department. That city only awaited the assurance of co-operation from Summerland, to begin making preliminary arrangements. The general feeling of the Board at Monday's meeting was that local financial conditions did not warrant assuming the additional expense that the establishment of manual training would involve, especially in view of the probability of another High School teacher being needed next year. While recognizing the difficulty there might be financially Dr. McIntyre gave his own opinion that if the proper idea of the educational value of manual training were grasped, its introduction would appear as necessary as an additional High School teacher. It should be made clear that the Trustees as a body do not condemn the idea of manual training, but do not regard the present as an opportune time for its establishment. The question was finally disposed of in the following motion made by Trustees Shields and Johnson:

"That we cannot at present see our way clear to accept the very liberal offer of the Education Department re manual training, owing to the amount of money at our disposal being limited."

Trustee Shields was instructed to obtain a new stove for use in the Town School, to replace the present heater there which has worn out. One or minor matters came up for some discussion, but it was decided to make an early adjournment at 10.30, till Thursday April 2nd, when a regular monthly session will be held.

At a short session of the executive of the Board of Trade held on Tuesday a resolution from Kelowna that the government make the necessary provision for maintaining the lake at a uniform level was approved. A request will also go from our Board of Trade to the government that a special effort be made to complete the Summerland-Peachland shore road this summer.

The Central had done 60 per cent. of the business of the Valley last year, and expected to do 65 per cent. next year. The most California's big organization had ever handled was 62 per cent.

WANT ROAD FINISHED.

At a short session of the executive of the Board of Trade held on Tuesday a resolution from Kelowna that the government make the necessary provision for maintaining the lake at a uniform level was approved. A request will also go from our Board of Trade to the government that a special effort be made to complete the Summerland-Peachland shore road this summer.

The Central had done 60 per cent. of the business of the Valley last year, and expected to do 65 per cent. next year. The most California's big organization had ever handled was 62 per cent.

ANNIVERSARY SERVICES.

Arrangements have been completed for the anniversary services in connection with St. Andrew's Church on Sunday and Monday, April 6th and 7th. Rev. Alex. Dunn of Kelowna will be the preacher for the Sunday services. Special music is being prepared. On Monday evening the ladies of the congregation will give in the College Gymnasium their novel and amusing entertainment, "The Ladies Aid of Mohawk Cross Roads."

Market Found For Municipal Debentures

Toronto Firm Makes Good Offer.

A special session of the Municipal Council was held on Saturday afternoon last when consideration was given to the offer of a Toronto financial concern, Stimson & Co., to take \$20,000 worth of municipal twenty year debentures at 95. This was felt to be very advantageous in view of conditions now ruling in the money market. A debenture issue of this amount will accordingly be floated in the immediate future, and money will thus be provided for very pressing work on the public utilities. The irrigation system will, of course, call for the greatest share of expenditure. On the strength of this debenture probability, the Public Works Department were instructed to have as much of the work specified in Engineer Latimer's recent report on needs of the public utilities commenced at once, where necessary calling for tenders on same.

The Works Department was also instructed to effect repairs to the Lakeshore road, and to build an approach to the new government wharf on Beach Avenue.

A motion was also passed placing Constable Graham under the Superintendent to do any work for which necessity arises, he also to be notified to take instructions, in future, as to his constabulary duties from Supt. Mitchell.

It is not expected that the Council will meet again before their regular monthly session on Thursday, April 9th.

INTERESTING LECTURE.

A lecture of special interest was given in the College Gymnasium on Tuesday night the 24th inst., when Rev. Duncan J. Welsh of Kelowna, on the invitation of the College Literary Society, lectured on "The Panama Canal." The hall was well filled by an appreciative audience. Excellent lantern slides were shown illustrating the different phases in the construction of this "most stupendous engineering feat ever accomplished by man."

The speaker, after a brief introduction by H. C. Packham, President of the Literary Society, emphasized the fact that though he had never visited the Canal yet the information given and slides shown were obtained from one who had actually visited the scene of operations.

After the lecture the Rowley Cup, offered by Mr. J. Rowley to the winning basketball team of the league was presented by the donor.

Mr. Rowley expressed himself as willing to do anything in his power to promote the interests of true, clean sport. He suggested that next year the form of the trophy be changed to that of a silver shield. The captain, Lorne Morlock, on receiving the cup on behalf of the College team, suitably responded. The evening concluded with the National Anthem and the College Yell.

APPOINTS OFFICERS.

The directors of the Summerland Fruit Union, who were elected at last Friday's annual meeting, met on Saturday to elect the executive. Mr. G. J. C. White was again the unanimous choice for the presidency, thus continuing at the head of the local union for another year. H. C. Mellor was elected vice-president, and J. L. Logie becomes recording secretary, to keep record of the procedure at the various meetings, and perform similar duties. The office of secretary-treasurer, the duties pertaining to which will be more of an executive nature, was not filled on Saturday. This appointment will probably be made at the next meeting of the directorate.

LOCAL BASKETBALL.

Two Summerland Wins.

A complete and brilliant defeat of the Pentleton Girls' Basketball players was the result of a fast, sharp and enthusiastic game put up by our local ladies' team in the Men's Club last night. Our team was only organized early in the New Year, when some of the members were complete novices, so that their clever overthrow of the longer organized and harder players of the Pentleton club was all the more a triumph. Two to one was scored in the very hard fought first half, and in the second our girls captured basket after basket so that victory stood for Summerland at the finish as 12-1, a result received with great excitement by the large crowd of spectators.

A match between our Junior Boys and Pentleton Juniors came off immediately after, and a capital game was witnessed. Excellent play was shown by Summerland, and Pentleton fought gallantly, but defeat again met our neighbors, and the score 16-6 was declared.

S. O. Poultry Assoc. Annual Meeting.

Earnest Co-Operative Effort Being Made To Help The Industry.

The annual meeting of the Southern Okanagan Poultry Association held on Thursday evening was not largely attended, but steps were taken that cannot fail to give great impetus to commercialized poultry-raising in this district.

C. N. Borton occupied the chair, and first briefly explained the annual financial statement, which was read and adopted.

Before the election of officers Mr. Borton, who has faithfully and efficiently presided over the association for the five years of its existence, gave a short report on its past work. He pointed to the growth of the annual show—from ninety entries in the first year to nearly five hundred at the last show. He estimated that there was not less than 25,000 head of poultry in Summerland and he endorsed the recent remark of a government expert that this town could show more pure bred poultry per capita than any other place in the province.

The election of officers resulted as follows:

Hon. President Hon. Price Ellison
Hon. Vice-Presidents, Messrs. Weldon and W. A. Lang
President, H. Bristow

First Vice-President, J. R. Conway
Second Vice-President, F. Neve
Show Secretary and Treasurer, R. W. Pollock

Directors—P. Holder, Thos. Garnett, D. Thompson, Roy Phinney, and Jas. Bennie.
Supt. of Show, Wm. Beattie.

A resolution was passed expressing regret at Mr. Borton's decision not to take any office this year, and appreciating all he has done in the past on behalf of the association.

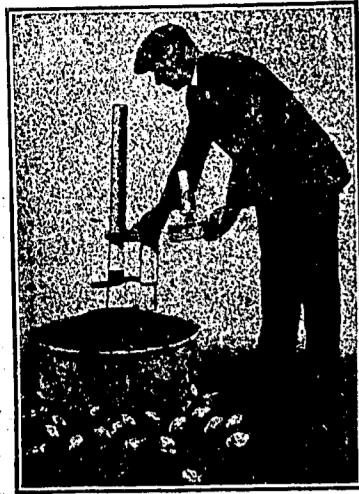

It was decided to hold the sixth annual show next winter, the date to be decided upon later. The show will probably closely follow the Provincial Exhibition to be held at Vernon, and strong efforts will be made to attract entries from that show, bringing Summerland poultry into competition with the best in the province.

The question of marketing eggs was given thorough discussion, and a considerable spirit of co-operation was manifested throughout. It was felt that in view of the heavy local importation of case eggs during the winter months that there was a profitable market right here for all the eggs now produced, if proper storage methods were adopted. To this end the secretary was instructed to place an order for a quantity of water glass which will be distributed to individuals at cost, plus two per cent. Orders, accompanied by cash, must be with the secretary, R. Pollock, before Friday, April 10th. With this material poultry men will be enabled to store their plentiful spring and summer eggs, till the winter shortage, when it is hoped to market them locally.

The feed problem was again investigated. The possibility of obtaining poultry supplies through the Fruit Union was considered.

(Continued on page 2).

Provincial Librarian

THE INTERNATIONAL SANITARY HOVER

THE PERFECT BROODING DEVICE

Hovers 100 Chicks, is fireproof and vermin proof. There is nothing complicated about it. It is warmest at the curtain and usable anywhere. No crowding or smothering of chicks; no kneeling in dust and mud to get at the lamp. All one has to do to set it up, is to set it down and light the lamp. Used on many of the largest poultry farms in America.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MARCH 27, 1914.

MAY 24TH, EMPIRE DAY, is no further away than eight weeks. It is gratifying to know that even at this busy season there are citizens sufficiently imbued with patriotic ardor as to look ahead and plan for a fitting celebration of that national holiday. An advertisement on page 5 calls a meeting for Monday evening next, when a representative attendance of those from whom support for such a movement may be expected is reasonably looked for. It has been suggested that any surplus of subscriptions over the cost of prizes, if a Field Sports Day is decided upon, shall be devoted to the Hospital Fund. With this laudatory end in view, strong support should be given to any effort made to hold a Summerland Celebration to commemorate Empire Day. A musical entertainment to complete the day's festivities is also being spoken of in such quarters that can promise something worth while. Plan to be at Monday's meeting and help a worthy cause along.

College Notes.

Mr. H. C. Paekham preached at both the Baptist services last Sunday.

Last Saturday a party of thirteen from the College crossed to Naramata and walked up to the tunnel, while three rode around by way of Pentiction. Through the courtesy of the men in charge the party was shown the working of the big job. All enjoyed the trip.

On Tuesday morning Miss McConnell left for her home in Kamloops. She will be much missed by all, being a leader in all affairs on the hill. Miss McConnell motored home to Kamloops with her brother. They were accompanied as far as Kelowna by Miss Hurschmann and Alex. McDougall.

On Tuesday evening Rev. D. J. Welsh of Kelowna gave a lecture on "The Panama Canal," under the auspices of the College Literary Society. After the lecture Mr. Rowley presented the College basketball team with his trophy, won by them this winter. Mr. Rowley congratulated the team on the improvement in their play, and promised that next year another trophy would be put up by him. Mr. Morlock, captain of the team, thanked Mr. Rowley and expressed the hope that an Okanagan Valley league be formed next winter.

S. O. POULTRY ASSOCIATION ANNUAL MEETING.

(Continued from page 1).

and the secretary will endeavor to make an arrangement that will tend to greatly reduce the cost of poultry raising. The Pentiction association is already effecting great saving for its members in this way.

The next meeting will be held at the call of the secretary at West Summerland.

All interested in poultry, whether on a large or small scale would

The family remedy for Coughs and Colds. Small dose. Small bottle. Best since 1870.

ST. STEPHEN'S CHURCH.

Some fine climbing roses and young Virginian creeper plants have been presented by Mr. E. B. May to be planted outside the church, and will be a very pretty decoration for its walls a little later on.

A Ten Cent Tea organized by the Women's Auxiliary is to be held at Mrs. Cartwright's residence the week after Easter, and it is hoped that there will be a very large congregational gathering then.

The choir will practise next Sunday morning for the music of the Choral Eucharist on Easter Day. The congregational Sunday evening practices are proving most successful and popular.

It is hoped to resume the church's social evenings after Easter, and the next gathering will probably be held on Easter Tuesday, April 14th.

The usual W.A. meeting will be at the rectory on Wednesday next, when Mrs. Brewer is providing the tea.

A very quiet and simple wedding took place at St. Stephen's yesterday, when Miss Dorothy Carter of Sydenham, London, England, became the wife of Mr. Walter Greensted of Kelowna. The bride had just arrived from England to be married at Kelowna, and in the absence of Rev. T. Greene of St. Michael and All Angels, a small wedding party came down on the boat, and the quiet ceremony was performed last night by Rev. D. E. D. Robertson in our Anglican Church.

find affiliation with the S. O. Poultry Association to their benefit. The annual membership fee is one dollar. Besides receiving much valuable information from government bulletins, which are distributed from time to time, a strong association could do much to help the poultry keepers in the judicious marketing of eggs, and lessening the cost of feed and supplies.

R. E. White went up the lake to Vernon on Thursday morning, expecting to return on Saturday night.

The nifty kind that will mark the young man as being particular in dress. The new weaves and colors. Why pay \$9 to \$10 elsewhere.

PUBLIC SALE PRICE \$5.40
Less an extra 10 per cent. for Cash.

Explanation In Brief

We deem a few lines of further explanation here necessary so the people of this vicinity may know and fully appreciate the importance of this Sale. CIRCUMSTANCES COMPEL US TO RAISE \$12,400 CASH in the quickest possible time, and we fully realize that only the most drastic reductions, such as have never been presented to the trade of the Okanagan can accomplish the desired end for us. Having been established for years in Summerland everyone in this vicinity is familiar with the high-class merchandise carried by us, and will know our conservative methods. We have never inaugurated a Sale, never made any assertion without strictly stating the truth, and during this sale as heretofore we will zealously live up to our reputation. Our avenue to success is dependent on how we treat the public.

A FORCED SALE

with no time limit - \$12,400

Cash is the amount we must raise within the short period of a few days. The moment we do this off comes the colored tickets and this great saving event will end without notice! Read this announcement carefully, then frankly ask yourself if you can afford to pass this saving chance. No matter how low the price every article is backed by the fairest guarantee.

OUR NARAMATA SECTION

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Peachland Notes.

Work on the irrigation ditches began last week.

Rev. A. Henderson left last week for a lengthy visit to the eastern provinces.

Roy Smith of Westbank will preach in the Baptist Church next Sunday morning.

Mrs. Seaton and daughters were hostesses at a delightful dancing party on Friday evening last.

Messrs. Powell and Vicary of the local Union are in Penticton attending a meeting of the directors of the Central Union this week.

Mr. Elliott of Vernon occupied the pulpit of the Methodist Church last Sunday. He was accompanied by Mrs. Elliott, who, with him, was the guest of friends in town.

Mrs. Dell of Qu'Appelle, Sask., who has been visiting her mother, Mrs. Needham, for some weeks, left for her home on Wednesday morning. She was accompanied by her brother, Osborne, who goes to join the great army of prairie farmers.

The young people gathered at the home of Osborne Needham on Thursday evening last to spend some time with him before his departure for the prairies. Before separating a circle was formed and "Auld Lang Syne" and "He's a Jolly Good Fellow" issued from the lusty youthful throats with a vim.

Alex. and Archie Seaton entertained on Monday evening in honor of their fellow baseball player, Osborne Needham. Several hours were spent in games of various kinds, after which the usual send-off was given Osborne, coupled with hearty good wishes for his success.

FERRY—OKANAGAN LAKE AT KELOWNA.

IN accordance with chapter 85, R.S.B.C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Kelowna and a point on the opposite side of Okanagan Lake, known as Westbank Ferry Slip.

Applications, endorsed "Tender for Ferry, Okanagan Lake, at Kelowna," will be received by the Hon. Minister of Public Works up to 12 o'clock noon of Tuesday, the 31st day of March, 1914.

The charter will cover a period expiring on the 31st March, 1915. The ferry shall make two trips each way every day, weather permitting.

The time of departure from and arrival at Kelowna shall be arranged so that connection can be made with the Canadian Pacific Railway Company's steamers.

* Applicant shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Canada Shipping Act, 1906," and amending Act.

All children who are travelling to and from school shall be carried free of charge.

Applicants shall state the tolls it is proposed to ask for—

Each adult passenger.

Each child (not in arms) under 13 years.

Each head of cattle, horse, mule, or donkey, etc.

Each calf, sheep, goat, or swine, etc.

Each vehicle with one horse and driver.

Each cart or wagon with one horse and driver, loaded.

Each vehicle with two horses and driver, unloaded.

Each vehicle with two horses and driver, loaded.

Each parcel of 25 pounds and under.

Freight, per 100 lbs. and under, non-perishable goods

Freight, per 100 lbs. and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of \$250.

The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.

J. E. GRIFFITH,

Deputy Minister and Public Works Engineer.

Department of Public Works, Victoria, B.C., 12th March, 1914.

is open for accommodation.

Bright, sunny rooms.

Special winter rates still in force.

Dinner Dance parties catered to by arrangement.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting: Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Royal Nurseries, Limited

OFFICE—710 Dominion Building, 207 Hastings Street W., Vancouver. Phone Sey. 5555. Store—2410 Granville St., Phone Bayview 1926. Greenhouses and Nurseries at Royal, on B.C. Elec. Ry., Eburne Line, about two miles south of the city limits. Phone, Eburne 43.

employed by Manager Robertson. Peachland thus falls into line with the other Valley towns in endorsing the efforts being made to place co-operative marketing of Okanagan fruit on a sound basis. "Will you please discontinue my For Sale ad. as I already have more orders than I can fill." This from one of our advertisers who was soon swamped with orders as the result of a Review Want Ad.

Current Events — OF — Town & District

The work of track-laying has progressed so well that in the course of another two or three weeks the outfit will reach the big tunnel, and when the ballasting is completed on this section the work of excavating will cease.

A good representation of local stockholders in the Summerland Fruit Union were present at the annual meeting held in the Men's Club on Friday last. It is a matter of congratulation that the result of the poll for directorship, Mr. H. J. Wells of Naramata stood second in point of numbers.

The "Skookum," the ferry launch belonging to the Okanagan Lake Boat Co., was brought down the lake from Kelowna on Saturday, where she has been undergoing repairs. As there are yet certain finishing touches to be added it will probably be another week or ten days before the boat is again in commission.

Messrs. A. Noyes and G. Roe returned on Monday afternoon from a three day's trip to Osprey Lake, some 30 miles west from Summerland. Both are emphatic in their praise of the extensive areas of really excellent land to be seen along the line of the new railway, which will shortly open up this territory for settlement.

To-morrow afternoon (Saturday) at 2 o'clock there is to be a meeting in Summerland at which Manager Robertson of the United Growers will speak on the subject of co-operative selling, and discuss with the growers topics of vital interest. A special ferry will doubtless be arranged for to carry the Naramata contingent across.

The next and concluding series of concerts to be put on the boards by the Literary Society is billed for next Monday evening. The debate is to take the form of a Mock Trial, as previously hinted. The case before the court will be in the nature of a breach of promise. The briefs are being prepared by the contending lawyers, and the judge has been appointed, as well as the other officials usually seen round a modern court room. The jury will be empaneled on Monday evening.

Shiloh

The Family Friend for 40 years. A never failing relief for Croup and Whooping Cough

The "hike" to view the sights at Tunnel Camp appears to be a very popular one judging from the number of picnic parties that have made the tunnel their rendezvous. Tunnel Camp is situated about two miles as the crow flies back of Naramata, but a good hour's climb from town. As Sunday is the only day in the week when the machinery shuts down at all it is the only really safe day to have a satisfactory view of the workings of the shaft. The latest visitors were a number of Collegians from Summerland who came over by special ferry on Saturday last and picnicked on the heights above the town, and took in the sights of the tunnel at the men's noon hour.

The tunnel camp was invaded last Sunday by twelve visitors from the Syndica House in charge of F. L. Roe, and the entertainment provided by Messrs. Bacher & Har-mount was such as to lead one to suppose that the reception and care of visitors was an important and necessary detail of railroad construction. The banquet prepared by Chef Fowler left nothing to be desired on the part of the visitors. After dinner the visitors were escorted over the camp, and were shown the entire workings of the tunnel operations. Under the personal guidance of Lou. Bacher and assisted by Messrs. Lentz, Mason and Morgan, the visitors were enabled to gain a great deal of the most interesting information, and enjoy a very unique experience.

The "Tillicum," the small open gasoline launch belonging to the Boat Co. is high and dry on the ways at Naramata, where she has been placed for repairs. The little craft is responsible for about a half hour's excitement last Thursday afternoon. During the time of the severe squall on the lake when she broke from her moorings and drifted into the shore. F. L. Roe and Frank Edgar before succeeding in getting the boat into harbour got drifted out pretty far into the lake before they succeeded in getting the engine to respond. The boat was scooping water right along and kept Mr. Edgar busy baling. Just as the anxious watchers ashore were beginning to fear that the craft would get swamped before the company's other launch, just returning from Penticton, could get to the rescue, Mr. Roe succeeded in getting the engine to respond, and in short while the thoroughly weary, soaking "crew" succeeded in making a safe landing at the dock.

Kaleden Comments

Mr. H. H. Elsey is down from Summerland looking after his lot here.

Reeve Conklin was down from Penticton last week working on his lot here.

Mrs. Leonard Preston and Mrs. Prentice drove up to Penticton on Tuesday last remaining until Wednesday.

We are glad to report an improvement in the health of Mr. T. C. Preston who is gaining strength after his operation.

Mr. Huntley of Penticton supplied the pulpit of the Baptist Church last Sunday afternoon in the absence of Rev. Chas. Britten.

Mr. McAllister, who left here for Calgary about two years ago, has returned, and intends to spend the summer here helping Mr. H. Corbett on the lots.

The "Cygnat" made her first trip down the lake for this season last Friday evening, bringing down lumber for Mr. W. King, who is planning to build on the lot next to Mr. J. C. Findlay.

Mr. and Mrs. Phillips from Penticton came down in their automobile last Thursday. Mr. Phillips went on to Fairview with Mr. A. S. Hatfield, Mrs. Phillips being the guest of Mrs. A. S. Hatfield until Friday.

STRONG ENDORSEMENT.

A meeting of the Peachland Fruit Union called by early in the week discussed the policy pursued by the Okanagan United Growers in marketing the 1913 fruit crop. There was an attendance well up to the average at the meeting, and there was heard but one dissentient voice against the methods

Mrs. J. C. Lyons entertained a few of her friends on Tuesday evening at an enjoyable flitch party.

On Thursday evening last, March 19th, Mrs. W. Steele opened her home, giving a general and informal invitation to neighbors and friends to come and enjoy themselves, and they certainly did. The folks seemed to come from all directions at once. The crowd was both good-humoured and entertaining, and thus the evening passed all too quickly. The early part of the evening was spent in amusing games, and later on the floor was cleared for dancing, and with Mrs. Dean Walters at the piano, who kindly volunteered her services, the merry group found midnight approaching very rapidly. The jolly group broke up, all voting Mr. and Mrs. Steele responsible for providing a very pleasant evening's entertainment.

of Residents of Summerland
and District is called for

Monday, March 30th
in the

CAMPBELL HALL, at 8 p.m.

Business: To appoint officers and
transact other competent business for
holding a CITIZENS' FIELD DAY OF
SPORTS on 24th of MAY on the Col-
lege Campus. Proceeds to go to the

**Summerland Hospital
Building Fund.**

Summerland Fruit Union.

PUBLIC MEETING

A Meeting will be held under the
auspices of the Fruit Union,

TO-MORROW,

Saturday Afternoon,
at 2 p.m.,

in the MEN'S CLUB,
to further discuss with

Mr. R. Robertson

the Question of

'Marketing.'

All interested are urged to attend

Passing Events: Social, Personal, &c.

Mr. John Marshall is to conduct
both Baptist services on Sunday
next, the 29th inst.

D. L. Sutherland went out on
Tuesday morning on a brief busi-
ness trip to Alberta points about
Calgary.

Mr. E. Vanderburgh has pur-
chased a homesite of an acre on
Rosedale Avenue, and will build
there this summer.

Mr. and Mrs. Bert Bryant have
leased W. R. Ely's ranch in Prairie
Valley and intend going in for
poultry and mixed farming.

Mr. and Mrs. S. V. Ware left
on Tuesday morning's boat for the
Old Country, where Mr. Ware is
taking up Caravan Mission work in
Wiltshire.

Mr. L. C. Woodworth returned
on Tuesday from his business trip
to Calgary, where he has been pur-
chasing live stock, and brought a
carload of fine cattle with him.

Mr. David Lister is spending a
week's holiday here, and is pro-
ceeding later to Vancouver to take
up his studies at Westminster Hall.
Mr. Lister is preaching at St. An-
drew's morning service on Sunday.

Subscribers of the Summerland
Telephone Company Ltd., may pay
their rentals and obtain the re-
bate to the end of this month.
START RIGHT. All payments
made to the Secretary at the Drug
Store. ad

Mrs. and Miss Irving of Bran-
don came in from that city on
Tuesday night's boat and are stay-
ing at the Hotel Summerland. They
intend spending a week or two
here as Mrs. Irving owns a ten
acre lot near Mr. Coulter White's
property, and is negotiating a sale.

ERRATUM.—By an error in our
report last week of the Hospital
Meeting, the name of Mr. Wm.
Ritchie was omitted from the new-
ly elected Board. Mr. Wm. Rit-
chie was elected to serve on the
Board, and Mr. Jas. Ritchie as
Reeve, was elected an ex-officio
member.

Owing to unforeseen and imper-
ative calls on our columns this
week, we are again compelled to
withhold from publication A. A.
Derrick's letter regarding the mer-
its of different grade dairy cows;
also some timely spraying advice
from R. M. Winslow, which will
appear next week.

A large riding party was given
by Colonel and Mrs. Cartwright last
Saturday, and as the twenty horse-
men and horsewomen left the house
and wended their way up the hill,
quite a gay and animated picture
was presented. After a long after-
noon of up and down the hill
tracks, the party returned to tea at
the homestead.

The ladies of St Andrew's
Church, following their anniver-
sary service, will give on Monday
evening, April 6th, a quaint and
novel entertainment entitled, "An
Old Times Ladies' Aid Meeting at
Mohawk Cross Roads" Twenty-five
ladies in old time costumes will
present this interesting and amus-
ing entertainment. Admission 50
cents, children, 25 cents. m2027

PROPERTY EXCHANGE.

Mr. W. J. Docking of Trout
Creek has effected an exchange of
properties with Mr. David Gray
of Grenfel, Saskatchewan, and has
traded his Trout Creek property,
house and furniture for Mr. Gray's
at Grenfel. The latter, who was
at Trout Creek in the beginning of
the week, left on Wednesday morn-
ing's boat, but will return shortly
to take up his residence here. Mr.
and Mrs. Docking will, a little
later on, leave for their new home
in Grenfel.

Notice

W. R. SHIELDS

Having disposed of my busi-
ness, which will take effect
April first, I would deem it a
favor for all outstanding ac-
counts to be settled at once,
I here take the opportunity of
thanking my numerous custom-
ers for their liberal patronage
in the past, and hope they will
still continue at the old stand
with my successor,
FRANK WHITFIELD.

Notice

Having taken over the Black-
smith Business formerly car-
ried on by Mr. W. R. Shields,
I shall be open to do all kinds
of General Smithing, Shoeing,
Carriage and Wagon Repairs
and new work, starting from
April 1st, on a strictly cash
basis.

Yours Respectfully
Frank Whitfield

The White Cafe, West Summer-
land, will be open Monday next,
March 23rd for business. m20a3

The postponed College music stu-
dents' recital will be held on Fri-
day evening, April 3rd. Watch for
posters.

J. E. Phinney intends removing
with his family from Parkdale to
his residence near town, about the
first of April.

Apricot blossom and snow! We
have the two pretty frailties to-
gether on March 27th, and the
blossom just brought in from a hill
orchard smiling unharmed from the
frost of Wednesday night.

Remember the Auction Sale at
the premises of Mr. H. Bristow
on Saturday afternoon, to-morrow,
commencing at 1.30 sharp. Near-
ly fifty lots of household effects,
implements, horses, etc. Cordy &
Higgin, Auctioneers. ad

Rev. H. G. Estabrook spent two
days in Penticton at the first of the
week. Mr. and Mrs. Estabrook and
family are now occupying their
orchard home above Peach Orchard,
taking up residence there about the
middle of the week.

Mr. Allan Steuart and his sister,
Miss Jessie Steuart, went out on
Thursday morning's boat to return
to their former home in Ontario.
They will be very much missed
here, especially in Presbyterian
circles, for they were very popular
young people, and had many
friends.

Presbyterian services will be held
in St. Andrew's Church next Sun-
day morning and in the Methodist
Church in the evening. At the
morning service Mr. David Lister
will preach, at the evening service
Mrs. G. N. Gartrell will sing. Mr.
Daly will conduct the evening ser-
vice.

Elsewhere in this issue are no-
tices published announcing that Mr.
W. R. Shields is transferring the
blacksmithing business which he
has carried on so long on Shaugh-
nessy Avenue to Mr. Frank Whit-
field, who is already well-known in
both sections of the town. Mr.
Shields intends to devote most of
his time this summer to orchard
work.

The Cold Spell.

March is justifying its reputa-
tion and, abandoning the lamb-
like attitude of its early days,
seemingly intends to depart in
wrath. After the very warm and
sunny days lately enjoyed, the cold
snap took us unawares, and is be-
ing resented by man and beast
alike.

A northerly gale that tore up
the lake in the early hours of Wed-
nesday morning brought bitter
blasts with it, and the "Okana-
gan" was obliged to abandon her
call at Naramata on Wednesday
morning. Both morning and af-
ternoon ferry trips were also can-
celled. Hail on Tuesday was fol-
lowed by icy sleet on Wednesday,
and snow was falling heavily on
the mountains. At Balcom 14
degrees of frost were registered
on Tuesday night, the thermometer
falling to 18. Other records are
16 degrees of frost. On Wednesday
midnight 22 degrees of frost were
registered on the flat. On the high-
er lands the trees are not advanced
enough for the consequence to be
serious, but some of the peaches
on the lower level may have suffer-
ed.

Bees that had come out and start-
ed their honey quest hurried back
to their hives, and numbers of
wasps that were haunting the pol-
len laden pussy willows have for-
tunately for our future, been des-
troyed. The cold snap was, how-
ever, as brief as it was unexpected.

Miss Edna Baker of Penticton
was the guest for a few days this
week of Miss Clay.

Mrs. A. F. Solly, with her little
son left for Armstrong on Monday
morning's boat, and the hospital is
now closed.

Miss Neve was the guest of Mr.
and Mrs. H. Rivington for lunch
on Sunday at Halyon Orchard on
the occasion of Mrs. Rivington's
birthday.

Mr. and Mrs. D. L. Sutherland
expect to be in occupation of their
new home on the former Colwell
orchard about the first of next
month.

On Sunday next Rev. R. W. Lee
will conduct Methodist services in
the Methodist Church at 10.30
a.m., at Prairie Valley Schoolhouse
at 3.30, and in St. Andrew's
Church, West Summerland, at 7
p.m.

A pleasant and informal little
tea party was given on Sunday
afternoon by Miss Neve as a joint
celebration of her own and Mrs.
H. Rivington's birthday. Mr. and
Mrs. Rivington and Miss Gladys
Rivington were among the guests,
and the birthday cake was decora-
ted with two names.

A farewell tea and reception was
given yesterday afternoon by Mrs.
Wellington Watson for the Misses
Sutherland, daughters of Mr. Don-
ald Sutherland. The family is re-
moving to Winnipeg, and their
many Summerland friends are say-
ing good-bye regretfully.

FRED S. NEVE

THERE is a difference between fresh can'd goods and old stock. Only the newest is best -- having that delicate natural flavor of the fruit or vegetables. Knowing this, we buy only from factories which can their goods IMMEDIATELY AFTER THEY ARE PICKED OR GROWN -- factories which are known to work under conditions of perfect cleanliness.

You may rely absolutely on our goods. We keep a large variety rather than an extensive stock--constant renewal being our policy. Next time you use our canned goods note the fresh natural taste--the character of them all.

ANNUAL MEETING OF SUMMERLAND FRUIT UNION.
(Continued from Page 1.)

Reeve Ritchie informed Mr. Robertson that if the Central would do the wholesaling all would go in with the Local, and whether this was feasible or not was what the people wanted to know. As a result of the discussion which followed Mr. Robertson was asked to come back and further discuss the question with the growers on Saturday, and a meeting will be held tomorrow in the Men's Club for that purpose.

Hon. Price Ellison was given enthusiastic welcome when, following Mr. Robertson, he rose to address the gathering. He, as Minister of Agriculture, was responsible for this co-operative movement, and he was very glad to have started it. He was here to back up co-operation. There are now \$20,000,000 invested in the fruit industry of the Okanagan, and we cannot afford to let it go for lack of co-operation, and it was for that reason the government was giving it so much support. There were difficulties in getting established and finding a market. For the first time in the history of the Valley the growers had thus got their money for what they had sold.

The Honorable Minister urged upon his hearers to grow alfalfa, and keep some good dairy cows as well as hogs. He also favored the holding of winter apples for higher prices, and told his hearers not to be afraid to borrow, and that the farmers, if united, could get anything they wanted. The government would advance them \$500,000 if the farmers would put up the necessary guarantee. Some time in the near future the government will wake up to the necessity of building warehouses, etc., to further the interests of the farmer. That the K.V.R. will establish a ten hour service between here and Vancouver, leaving here at night and having our tree-ripened peaches ready for the breakfast tables next morning, was the assurance given by Mr. Ellison. Already it is a common saying in that market that the Okanagan peach is the best that can be had.

As a result of the findings of the Royal Commission on farming the province is likely to offer much greater financial assistance to the farmer. In New Zealand the government had loaned sixty-six million dollars to farmers, and had already gotten thirty-one million back. Mr. Ellison considered it a safe investment for the government to loan to the farmer. The Minister also expressed himself as in favor of further protection by the establishment of quarantines

against districts shipping infected fruit. The Minister urged that the people give Mr. Robertson their fullest support. "He has his whole heart and soul in this work, and has his reputation at stake."

615 Fort St. Vancouver
627 Granville St. SOLE AGENTS FOR BRITISH COLUMBIA

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.
W. W. CORY,
Deputy Minister of the Interior.
