

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 6, No. 40

SUMMERLAND, B.C., MAY 1, 1914.

Whole No. 300

Central Marketing Plans.

Active Preparations For Operations Of Coming Season.

Vexatious delays in getting final returns which were an unpleasant feature in the marketing of last season's crops are not likely to occur this season. During the recent trip of the Manager and President of the Okanagan United Growers to the prairies the brokers definitely agreed to honor all drafts and defer claims for rebates and allowances for adjustment to a later date.

Two recent and valuable additions to the staff of the Okanagan United Growers have been made in the persons of Messrs. Thompson, who will be assistant to Manager Robertson, and second in charge, and Mr. Burton who will also be connected with the sales staff. Mr. Thompson resigned the position of manager of a California company's fruit warehouse at Regina, and the directors are congratulating themselves on securing the services of such an experienced fruit man. Mr. Burton was for five years manager of a wholesale fruit establishment in Calgary.

A marked change in the attitude of the trade in the various prairie

points toward the B.C. fruit industry is very evident, and the power of the Okanagan United Growers is receiving recognition. It will receive in future much attention from the big wholesale distributors.

The possibilities of marketing through co-operative organizations in the prairies has been greatly increased by a recent legislation of the Government of the Province of Saskatchewan. By a new act grain growers and other agriculturists are permitted to form buying associations. Already 200 of these associations have been organized under the able direction of Mr. Musselman, an expert in that line, and the movement is rapidly extending. One of the conditions prescribed by the law is that these associations must both buy and sell for cash. Mr. Musselman, in the interests of these associations, together with Mr. Fraem, acting in a somewhat similar capacity in Alberta, are expected to visit the Okanagan soon, and a working arrangement with the Okanagan United Growers is likely to then be effected.

EMPIRE DAY PLANS.

Empire Day has long been known of all the fete days of the season as belonging particularly to Summerland. Probably during the last two seasons not as extensive a program was offered nor as much outside publicity given the events as in former years, but the Citizens' Committee who have the work in hand this year are determined that Summerland's claim to that day shall be re-established, and that the program of sports and amusements shall be worthy of Summerland and of the day.

At a committee meeting held on Monday night, with Reeve Ritchie in the chair, further progress was made toward completing the plans for the day. A full band of twenty players will be brought, and will be in attendance on the College Campus during the entire day.

The committee is receiving hearty support from the citizens, and every indication is that Monday, May 25th, will be a real gala day with plenty of clean sports and healthy amusements. The program will be announced shortly.

IMPROVING SERVICE.

A change in the time of the departure of the mail for the Rural Route has been made which will be much to the advantage of citizens who are being served by that system. Beginning on Monday, May 4th, the mails will leave the distributing office at 7 a.m. instead of 8 as formerly, and the contractor, Mr. Blair, plans on completing the round by 12 noon. To do this a half hour stop at his stable for change of horses will be cut out. This latter will mean the receiving of the mails one and a half hours earlier on that part of the route beyond Mr. Blair's home. These welcome changes were suggested by Postmaster Hayes and Contractor Blair, and have just received the approval of the department.

The committee have decided to hand over all surplus funds, after the payment of actual expenses, to the Hospital Board.

Special Council Meeting.

Two By-laws Finally Passed. A Good Number of Communications.

A great deal of small business occupied the Council at the short session held on Wednesday morning. Reeve Ritchie not being present Coun. Blair was appointed to preside as Acting Reeve.

The Clerk first read the result of the previous day's voting on the money by-law, declaring the measure passed. On the motion of Couns. Stark and Simpson the Reeve and Clerk were instructed to sign and seal the same. By-law No. 58, regulating and safeguarding the sale of milk was given similar treatment on the motion of Couns. Johnson and Stark. These two measures thus pass on to the municipal statute book.

APPLICATIONS FOR WATER AND LIGHT.

John Trefry of Peach Valley sent in an application for domestic water connection, and supported his letter in person. He announced his intention of building, and also of keeping horses and cows, for which he desired the water. Supt. Mitchell estimated the cost of the connection at \$315, and other revenue would be derived from the line in general rates. The Board of Works will investigate further.

Geo. J. Johnson of Trout Creek also asked for domestic water, and J. H. Bowering applied for electric light. Ross Rae asked an irrigation service for part of his pre-emption near Paradise Flat. All were referred to the Board of Works. Casorso Bros., wholesale meat merchants of Kelowna desired quotations from the Council for power to drive a 20 h.p. motor, and an annual water supply of 150,000 gallons. It was felt that these could not be supplied, and the Clerk will reply accordingly.

T. E. Clay complained of the poor water service to the Moreland cottage which he rents, and asked for a rebate from the rates on that account. This claim will be investigated.

D. L. Sutherland's application for electric light to his new house was, on the recommendation of the Works Committee, not granted, likewise his application on behalf of Senator Kirchhoffer for a larger domestic water connection which could be used for irrigation purposes. H. Bristow was also not granted a standpipe for a high corner of his lot, the feeling being that the domestic pipeline these two connections would come from was already overloaded.

Permission was asked by Mr. Edwin Smith to construct a chute from the ice house on the hill above the C.P.R. wharf across the road, through which crushed ice could be delivered to the pre-cooling plant. It is intended to suspend the chute from a cable strung across the road. The Board of Works will look into the matter.

WANT PHOTOGRAPHS AND LITERATURE.

A letter from the office of J. H.

Turner, Agent General for British Columbia in London, Eng., was read, asking that photographs of the district be forwarded, with any literature on hand that might be used for publicity purposes, and also copies of the annual financial statement. Coun. Simpson thought that the Board of Trade should assist in a request of this nature, and the Clerk will get in touch with that body.

The Council declined to assume the responsibility for an account for \$30.00 rendered by Nurse Scott for attending the late Mrs. Dow.

Two tenders had been submitted for building an approach to the new wharf, from J. Steven for \$152, and T. J. McAlpine for \$165. The former was accepted. T. B. Young's tender for hauling pipe from the wharf to Jones' Flat was also accepted.

The quarterly report of the auditors was received and F. J. Nixon, collector, submitted an amended list of water and light delinquents showing a great decrease in arrears since notice to discontinue the services had been served on those owing. In some cases settlement had been made in full, and others had made part payment, with promises to wipe off all arrears.

The Superintendent was authorized to attend to two requests made by Councillor Stark, one for some road work that would prevent rain water from draining into the store basement, and for an additional electric light pole at the rear of his residence to lift a wire at a point where its proximity to the ground is a menace.

Mr. Mitchell will also alter two poles as requested by Mr. E. B. May.

DANGEROUS ANDERSON HILL.

Mr. W. R. Shields presented a petition asking that lights be placed at the three sharp turns on the long Anderson hill which leads down to the town from the high flume. The petition bore about a dozen signatures of residents of the vicinity. The Council were sympathetic to the petition and it is probable that at least one light will be placed at the corner opposite the Clark house. This was also referred to the Board of Works, who will also look into Coun. Stark's suggestion to put a heavy guard rail up at this dangerous turn.

A peremptory decision was made to shut off all users of the power line during the day time, in order to turn all the water available into the irrigation ditches, during the summer months if any signs of a water shortage appear. If this decision holds, water motors in the hotel, J. Downton's meat store and in the Review Office will be rendered useless during the daylight hours.

The Council adjourned about 12.15 to meet again in regular session on May 14th, at 2 p.m.

OKANAGAN DISTRICT W.C.T.U. CONVENTION

The W.C.T.U. Convention opened yesterday morning in the Presbyterian Church with the district W.C.T.U. President, Mrs. Fennor in the chair.

The church had been beautifully decorated by Miss Spencer, assisted by Mrs. McLaran, the platform being framed in boughs of peach blossom, with cream primulas and white lilies; while white bows, badge of the W.C.T.U., of crocheted paper hung below. A photograph of Frances Willard was also a prominent object.

Appropriate devotional exercises were led by Mrs. Stewart of Armstrong. The President appointed Miss Clay as Recording Secretary for the convention, and here the minutes of last year's sessions were read and approved. Mrs. R. W. Loo gave the delegates a delightfully cordial address of welcome, to which Mrs. Doherty of Vernon replied in a few appropriate words. The President's excellent and comprehensive address showed the

progress of the work throughout the world, but the further need is great.

Report of Unions by delegates was encouraging.

The following were the delegates from various points in the Valley, and all were given hospitality by our town members. A band of ladies undertook the serving of meals twice a day in the Parkdale Baptist Church to many who have been staying at more distant houses:

Enderby—Mrs. Ball, Mrs. Main, Armstrong—Mrs. Stewart, Vernon—Mrs. Doherty, Mrs. Stainton, Mrs. French, Kelowna—Mrs. Swordfager, Mrs. Millar.

Peachland—Miss Powell, Mrs. McDougald, Kamloops—Mrs. A. H. Harrison, Naramata—Mrs. Roe, Mrs. Pushman, son, Mrs. Myers, Mrs. J. H. Pushman, Mrs. Davlos, Mrs. Noyes, Mrs. Hughes, Mrs. Cash, Mrs. Wells, son, Mrs. Allan.

(Continued on page 4.)

Will Villa Remain Neutral Or Join Forces With Huerta?

The attitude of General "Pancho" Villa, conqueror and defender of Juarez and a large portion of Northern Mexico, toward the United States in the present clash with Provisional President Huerta is in doubt. He and his followers cer-

tainly have no love for the United States, and it is not improbable that they will unite with their fellow countrymen and recent enemies to fight the "Gringos." The above picture shows General Villa in the middle with a general of his army on each side of him.

Little Interest

In Money By-Law

Opposition To Debenture Issue Is Small.

Voting took place on Tuesday on By-law 57, authorizing the \$20,000 debenture issue to meet expenditures which the irrigation system most pressingly needs. Whether from apathy or ignorance the rate-payers did not turn out in any force, the poll registered being only about thirty per cent. of the resident electorate. Returning Officer Logie declared the count as follows:

For the By-law	79
Against the By-law	3
Majority For	76
Spoiled Ballots	2
Total Votes Cast	84

The necessary two-thirds majority was thus easily secured. Thirty-nine votes were cast at the Men's Club and forty-five at the Municipal Offices. Little comment was heard on the by-law throughout the day.

Irrigation Begins.

The irrigation water has been turned on for another season, and has been running in a large part of the system for several days. During the past few weeks a number of important improvements and repairs have been made to the system. Twelve hundred feet of the south main has been lined with cement, and Superintendent Mitchell's men are now engaged on lining a six hundred foot piece of ditch near Major Hutton's. A new flume has been built at the north end of the municipality. This will be extended by a considerable length of pipe so that Messrs. Bentley, Hall and others in that vicinity will be better supplied.

Rifle Association.

Shooting was resumed on Saturday, a fair number of members turning out. Leading scores:

	200	500	800	Total
J. Dunsdon	33	30	33	96
O. Smith	28	31	28	87
W. J. Smith	28	29	28	85
W. Nelson	32	30	23	85
F. Nixon	28	31	24	83
G. Loomer	26	24	31	81
G. Barkwill	30	28	22	80

Shooting dates have now been arranged for the season, and anyone interested can secure a list by applying to the secretary.

Mr. and Mrs. J. M. Robinson are expected to arrive in Naramata on May 10th. After a short stay here Mr. Robinson will proceed to California by way of Victoria.

BASEBALL.

The season is going strong, and certainly the grass on the College Campus has no chance of growing green under the feet of our enthusiasts. Peachland and our town brought off a double event on Saturday, Peachland Seniors meeting the College Seniors on our diamond, and the team of the Central and High Schools driving to Peachland to meet the juniors of that town on the home ground.

The Senior game here was a very fine one, characterized by fast and easy play. The visitors had good outfielders, who gave our boys plenty of fun, and the score of 7-5 proclaiming victory for the College gave entire satisfaction to the supporters of the home team. In the meantime the Schools team were having a good time at Peachland, but after a well-contested game victory was Peachland's by a score of 8-3.

In point of attendance and enthusiasm, yesterday afternoon's encounter with Penticon was a brilliant event, that really opened the summer season. Lady visitors from Penticon, and all the College girls, with many of our local ladies made a large crowd which encircled the campus, and all were attired in pretty summer raiment, and provided with the banners of their side. Quite an array of banner-decked motors and rigs were in the shade of the new foliaged trees, and the scene was a most exciting and picturesque one. Under a blazing sun a heated encounter came off, and though our College boys put up a splendid game, and worked hard, luck was against them from the first. Penticon's pitcher was untiring and unrelenting, though the Bean Enters overexerted all their subtlety and swiftness, the score of 12-2 in favor of the visiting team was proclaimed at the end of a brilliantly fast struggle.

NEW STEAMER "SICAMOUS" TO ENTER SERVICE JUNE 1st.

With the starting of its summer schedule on May 31st the C.P.R. will in all probability put the new passenger steamer "Sicamous" on the lake service. This fine new steel steamer is now nearing completion and the officials hope to be able to have her completed so that she may be given a trial on the holiday, May 25.

With the beginning of the summer schedule Sunday service on the line from Sicamous to the Landing will be resumed, and while nothing definite has been learned it is expected that the Sunday afternoon lake service will also be revived.

A reception is being given at the College to-night by members of the matriculation class to the faculty and students.

Municipal Electric Plant.

The particulars of all the electric light connections recently gathered by the municipal electrician, for guidance in helping the Council to arrive at the capacity of the power house plant, show that if every connection on the system was switched on at the same time—a condition quite beyond probability, be it understood—the total consumption of current would be 82.28 kilowatts. The maximum capacity of the plant, however, is said to be about 28 kilowatts. The apparent discrepancy is accounted for by two facts. About one-third of the power all the connections would consume would go for electric irons, washing machines, etc., the use of which is so irregular, and usually made as early in the day as possible, when the consumption of current for other purposes is light, that they may be disregarded. This reduces the practical maximum of all actual light connections to about 56 kilowatts. Then it is customary to estimate that at most one-half of these connections are in use at the same time, so that for every day purposes a plant may be said to serve up to twice its stated capacity. Thus it will be seen that if the local plant of 28 kilowatts capacity is now giving service to lights that demand a total of 56 kilowatts, the limit of its load has just about been reached.

Oddfellows' Service.

The Lakefront Baptist Church was well filled on Sunday afternoon last when the local lodge of Oddfellows celebrated the 95th anniversary of the founding of their fraternity by a special church service. The Oddfellows were marshalled into the four front pews by Bro. K. S. Hogg.

Rev. R. W. Leo, pastor of the Methodist Church, and chaplain to the lodge, conducted the service, and delivered a strong sermon on the fraternity ideals. He dwelt upon the virtues for which the society stands, and dated the first establishment of such orders back to the organization of the first Christian Church.

The music was led by a large choir which rendered an introit and a spirited anthem. Solos were sung effectively by Miss Ann Hayes, and Miss Myrtle Clay. Miss Dorothy Harrington's violin music was also a prominent feature of the service.

Floral decorations had been carried out with taste and originality. An arch of Oregon grape surmounted the platform, and from this was suspended a replica of the three links of the fraternity, strikingly wrought in bright yellow sunflowers. Saskatoon and peach blossoms were included in the scheme of decoration with some pot plants.

Mr. O. Vaughan has bought the furnished shack of J. Bennie.

Advertising

Advertising means directing the attention of others to that for which attention is desired. If you have a stock of which you are proud, or a service which you believe to be superior, direct attention to the fact every week in the columns of the REVIEW.

Stretch out the hand of goodwill, wear the smile of welcome, and command the business of the buyers of this community. Do these things and your business will expand and the profits from your business will be greatly increased.

A WORD TO THE PUBLIC.

Do you not feel a certain reluctance about going into shops that have not invited you to enter their doors? At the shop which advertises — which invites your custom — you know that you are welcome.

Shop Where You Are Invited To Shop

Advises Fruit Growing In South Alberta

"Southern Alberta, and by that I include the country surrounding this city, is excellently adapted to fruit growing, and I am surprised that so few have taken the opportunity to grow vegetables and fruits and supply the prairie cities with these commodities," remarked W. T. Macaun, well-known horticulturist and Dominion Government Inspector of Experimental Farms, in Calgary last week.

Mr. Macaun was on his way back to Ottawa, having just come from British Columbia. This trip of inspection is what he calls his spring tour, and he states that from the results of the experiments carried on at the experimental farm at Lethbridge, he is prepared to say that southern Alberta has wonderful possibilities as a fruit growing country. He declares that the reason why so few have looked at it in that light is because all who come to this country carry the impression that wheat is the only thing that will grow there.

The apple trees grown at the station at Lethbridge carried fruit last year, and the promise of the crop of apples for this year is good. "Another thing in which there are big possibilities is vegetable growing. These cities on the prairie which will in time become very large will ask more and more for fresh vegetables. Although I admit I have not made a careful investigation, I did not see a vegetable store in Calgary. The farmer who will grow fruit trees and vegetables under those fruit trees will make as large a fortune as the one who grows wheat and wheat only," concluded Mr. Macaun.

ALFALFA AS HOG PASTURE.

Since economical pork production depends largely upon the consumption of a large quantity of cheaply grown feed, hogs should, when possible, be pastured on some clean, tender, and palatable forage crop, such as clover, alfalfa or rape. While the cost of pork production may be materially reduced in this way, it is desirable to feed grain or other concentrated feed in addition. Mature breeding stock may be maintained on good pasture, but young and growing hogs should receive additional feed. Hog growers differ regarding the quantity of grain to be fed while on pasture, but a medium ration would be one that is equal to about 2 per cent. of the live weight of the hog while growing, and then a full grain ration when finishing. No hard and fast rule can be laid down for the supplemental grain ration, but not feeding any grain almost invariably results in a stunted hog. Mr. W. D. Lang of Indian Head, Sask., who is doing illustration work for the Commission of Conservation, obtained the following results with hogs pastured on less than one acre of alfalfa:—

Sale of hogs	\$656.60
Feed used:—	
1 ton shorts	\$11.00
150 bus. oats	45.00
400 bus. barley at 40c.	160.00
200 bus. wheat screenings at 50c.	100.00
	\$116.00
Profit	\$840.60

Theatrical Performance at Empire Hall.

A small house at the Empire Hall on Monday night passed a favorable opinion on the comedy drama "Bought and Paid For" as presented by Oliver Eckhardt's company. As a problem play it proved most interesting, and the comedy element was very well introduced by Mr. Eckhardt in the part of "Jimmy," whose entirely original humor appealed to the house from start to finish. The feminine characters, "Virginia" and "Fanny" were well played by the two ladies of the company, and the beautiful and fashionable evening gowns worn by them in the second and third acts were an attractive feature in such a very simply staged affair. The role of "Robert Stafford" was carefully sustained, but it was not until the last act that the company thoroughly gained the sympathies of the house and made the best of the possibilities of the excellent situations in the climax of the play.

A much larger house could have been expected had the entertainment been advertised outside town. Citizens, other than those in the immediate vicinity naturally depend much on announcements in the local paper when there is to be an evening's amusement in the Empire Hall.

The Badge of Sanity

The First of a Series of Four Articles on Matters of Vital Local Interest.

Not long ago I had occasion to visit a certain state hospital for the insane says C. R. Trowbridge in "The Business Philosopher."

Walking over the beautiful grounds half a mile from the main buildings, one morning, I came across an attendant in charge of 25 patients.

The attendant was a little chap, a sort of half portion. Many of the patients looked and weighed twice as much.

The comparison aroused my curiosity. I joined the attendant in his stroll and walked with him for some distance. In the course of the conversation, and naturally I was all questions, I asked:

"What is to hinder half a dozen of these big fellows behind you getting together and setting up a job on you and fleeing to the woods, if they should get at you all at once you wouldn't stand a ghost of a show. There is no help within half a mile at least and you are not armed" (this he had told me).

The attendant looked at his questioner in severe rebuke, then smiled and replied:

"You belong right here all right, friend. What is to hinder these men getting together and setting up a job on me? Why, the fact is if they could get together with anybody or anything, they would not be here. That's their trouble."

The badge of sanity is the ability to organize. Men of Summerland! We all have made mistakes, but insanity is something of which we have not been accused. Let us show our wisdom by "getting together" and, forgetting our mistakes, "set up a job" on adversity by the fullest co-operation as citizens for the advancement of our own community and as a district with our neighbors in the Valley for the greatest possible progress of the Okanagan.

Dr. Lenro Severiane Muller, Minister for Foreign Affairs, "Seeing" Washington with U.S. Secretary of State, W. J. Bryan.

The Horse's Point of View in Summer

If a horse could talk he would have many things to say when summer comes.

He would tell his driver that he feels the heat on a very warm day quite as much as if he could read a thermometer.

He would say,—"Give me a little water many times a day, when the heat is intense, but not much at a time if I am warm; if you want me to keep well don't give me any grain when you bring me warm into the stable, just a half dozen swallows of water, and some hay to eat until I am cool."

"Don't water me too soon after I have eaten my grain, wait an hour. Especially do I need watering between nine and ten at night. I am thirstier then than at almost any other time of day."

He would say,—"When the sun is hot and I am working let me breathe once in a while in the shade of some house or tree; if you have to leave me on the street leave me in the shade if possible. Anything upon my head, between my ears, to keep off the sun, is bad for me if the air cannot circulate freely underneath it, unless it is a sponge kept cool and wet. If you do not clip off my foretop and trot me as you would yourself, you need not have much fear of losing me by a sun-stroke."

"If on an extremely warm day I give evidence by panting and signs of exhaustion that I am being overcome with the heat, unharness me, take me into the shade and apply cold water or even broken ice, wrapped up in a cloth or put in a bag, to my head, sponge out my mouth, and go over my legs with a cool wet sponge."

He would tell of the luxury of a fly net and of a fly blanket when standing still in fly season, and of the boon to him of screens in the stable to keep out the insects that bite and sting.

He would plead for us cool and comfortable a stable as possible in which to rest at night after a day's work under the hot sun.

He would suggest that living through a warm night in a narrow stall neither properly cleaned nor bedded is suffering for him and poor economy for the owner.

He would say that turning the hose on him is altogether too risky a thing to do unless you are looking for a sick horse. Spraying the legs and feet when he is not too warm on a hot day, he would find agreeable.

He would say,—"Please sponge out my eyes and nose and dock when I come in tired and dusty at night, and also sponge me with clean cool water under the collar and saddle of the harness."—Our Dumb Animals.

SUMMERLAND FRUIT UNION

Members, Watch This Space Each Week, and Keep Posted.

ON HAND:

Whale Oil Soap. Arsenate of Lead.
Lime Sulphur. Black Leaf 40.
Chick Feed. Clover Seed. Feed.

BRING BACK YOUR EMPTY BARRELS.

Growers! Attention!

Having decided to operate the Summerland Cannery for another season, we will require for canning a large supply of

Tomatoes and Soft Fruits

Our plans for the future in the district will largely depend on the support given us this year by the Growers.

Dominion Cannery, Ltd.

What Bids Fair

To become the Most Popular Sub-Division yet presented to the People of Summerland is now on the Market

in Half-Acre lots

Five minutes' walk from Post Office, Store, Church, & School.

PRICE & TERMS WITHIN REACH OF EVERYBODY

The Opportunity is exceptional, and you cannot make any mistake in your selection.

All Information can be obtained at the

Real Estate Office of James Ritchie

We have the best prices on the lake on Wagons, Plows, Cultivators, Seed Drills,

and all kinds of Farm, Orchard and Haying Machinery

All Kinds of FLOUR, FEED & BREAKFAST CEREALS.

Try our Crushed Grains — crushed with our own plant out of none but the best feeds.

Wood Yard & Teaming in connection

We are here with 2,000 cords of pine, fir or mixed, in any length, to supply your wants.

Let us contract for your summer's wood, green or dry.

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 1, 1914.

THE SEASON'S OUTLOOK.

THE SEASON OF 1914 will put the co-operative principle in fruit marketing to a severe test. The operations of the Okanagan United Growers will prove conclusively that union is strength, or that union in this case is failure. It was not to be expected that an organization so hurriedly thrown together could accomplish its most effective work in the first season, and yet an analysis of the market operations of this Central Selling Agency indicates to those who are impartial that the Valley is at last coming to the kernel of its problem.

Travellers up and down the Okanagan this spring have been impressed by the magnitude of the crop that the orchardists will soon be handling. Men, whose judgment may be relied upon, state that close upon three thousand carloads of fruit, vegetables and produce will leave the Okanagan Valley this year. Last season the United Growers sent out about one thousand cars, and this year they may be expected to ship at least twice that number.

Seeing this great increase of business ahead the executive has not been idle. Arrangements for the disposal of this year's crop began to take shape last fall. Manager Robertson has freely admitted that his selling last season was not carried on to the utmost advantage, but this was obviously because of a lack of time to adequately plan the campaign. Nevertheless he succeeded in placing half the Valley crop most judiciously, and gained much valuable experience that will be converted into profit this coming season. Illustrating this is the matter of rebates. Annoyance and loss was caused last year by consignee's claims for rebates, and in consequence of not being able to properly investigate these claims, a number had to be allowed that doubtless were without just ground. This year the procedure will be different, as an article on the front page makes clear. Consignees will pay the agreed price in full and any adjustments will be made from the Vernon Office. There can be no more haphazard settlements, and some hundreds of dollars will be saved to the growers.

This is one improvement brightening the prospects for 1914, which greater executive organization has been able to effect. Another shows itself in the reduction in cost to the shippers of box and packing material. Most important of all, perhaps, are reciprocal arrangements made with brokers that promise great satisfaction. The Okanagan has been made a strong factor in the fruit situation in the north-west provinces. The United Growers will compete with the American Pacific States for the possession of that market, on a much more equitable basis than the Valley has ever worked from. All these things tend to spell success for the Central Selling Agency this season. Independent shippers watched the work of the United Growers last year with an eye clear to their own advantage, and it is a reasonable prediction to state that 1915 will see many of these "outsiders" drawn within the circle of the organization that has made co-operation much more than a name to this Valley.

ENCOURAGING FIGURES.

THE TRADE FIGURES for the twelve months of the fiscal year ending March 31 last have been issued by the Customs Department and show a grand total for the year of \$1,112,562,107, a record in Canadian history.

The total trade of the preceding year, which was up till then the highwater mark, was \$1,085,264,449.

The feature of the year recently closed is the enormous increase in exports of Canadian produce, the total being \$431,589,658, an increase of \$80,000,000 over the preceding year. Imports, on the other hand, which amounted to \$618,328,874, showed a decrease from the preceding year of a little over \$50,000,000.

The biggest increase in exports was in agriculture products, which rose \$48,000,000 over the preceding year. Manufactures jumped \$14,000,000, and fisheries showed an increase of \$4,000,000. Imports of coin and bullion amounted to over \$15,000,000, and exports of coin and bullion were over \$23,000,000.

The trade of the month of March showed a decline from the previous year, the total being \$92,887,453 as against \$106,148,252.

THE OTHER DAY we heard a man shamelessly and unjustifiably abusing Summerland and everybody in it. The reason? That was the question that came to our mind and started us looking deeper. He had

lived here for years, and his present worldly worth is largely the "unearned increment" (the result of the growth of Summerland and the settling here of its people) on holdings gotten at lowest original cost. Holding these lands for highest prices rather than turning them to productive use has made it necessary that he accept of the credit extended him by our tradesmen. Now that he is feeling this burden of debt which necessitates his disposing of some of his land holdings he growls and condemns the place and everybody in it; and that is the sole reason for his abusiveness.

Whenever a man abuses his town he owes it something. Whenever he abuses his neighbor he probably owes his neighbor. Whenever he abuses anything, a withdrawal of the mystic curtain will quite likely reveal some enmity or spite.

If you can't say a good word of your neighbor, don't say anything, and if you can't say a good word of your town, move out of it. You help to make the community in which you live, and when you curse it, you curse yourself.

Talk up your town; don't run it down. If you do not like it, leave it; but don't stay here and abuse it. As long as you choose to reside here you are a component part of the place and are very foolish to see your own disparagement. Talk up your town, write and speak in its praise, and show yourself worthy of your home and friends.

Laying Cable Monday to Naramata.

The heavily insulated wire which will be used to connect the sister towns, Summerland and Naramata, has arrived and will be laid on Monday. Just what sort of a service will be given Naramata will depend on the citizens of that town. A number of instruments may be installed in the business places there. A representative of the company will look over the territory early next week.

At yesterday's meeting of the directors it was decided to order another shipment of instruments. There are now 184 instruments connected with the exchange and at least eight more have been ordered. During the month of April fifteen new subscribers were added to the list.

The Tent Caterpillar

That tent caterpillars are to be found in this vicinity is a report received by phone this morning from a fruit grower on Jones Flat, and further enquiry reveals the fact that nests have been found at different points in the municipality. While not the serious pest that the codling moth or the brown tail moth are, yet they can cause very serious damage, particularly to apple trees, eating the leaves and fruit buds. A tree attacked by them cannot produce fruit for two years. Just now they are in the larvae state, small greenish caterpillars crawling about in their nest, which is somewhat like a cobweb, and seems to be found principally in the Olalla or Saskatoon bush. It would be well if a careful search were made everywhere for these nests, which can now with the caterpillars be easily destroyed with a piece of burning newspaper. If not thus removed each nest is capable of sending forth a large number of moths to work destruction.

FRUIT INSPECTOR ENFORCING QUARANTINE.

As the result of an alleged recent infringement of the fruit inspection regulations, Fruit Pests Inspector Thomas Cunningham has instituted proceedings against the G.N.R. Agent at Myncester and a rancher at Rock Creek. The trees were released to the rancher without having been inspected and have been planted. They must now be dug up and sent to the fumigation plant at Vancouver.

The West Summerland Branch, Women's Institute, will meet on Friday next, May 8th, at 2:30 in the High School Building.

The ladies of the Hospital Auxiliary augmented committees who are serving the Empire Day refreshments will meet at Mrs. R. M. Ross's on Tuesday to arrange more definitely their already organized plans for the day. As a great quantity of provisions will be required, the ladies undertaking the herculean task of the Refreshment Tent, hope for contributions from all who can help a little.

The orchard property near G. J. C. White, recently purchased by J. Mendham, has, the Review is informed, been purchased by W. S. Kent. Mr. Mendham, who is a bricklayer by trade, has some contracts at his former prairie city Regina, where he will go for the summer. Mrs. Mendham and her little girl will remain. It is said that Mr. Kent expects to build on his recently acquired property in the immediate future and that he expects his mother and sister to join him here.

W.C.T.U. CONVENTION.

(Continued from page 1).

Most interesting was the afternoon meeting which was fully attended. Miss Dale opened with prayer, and Mrs. Docherty of Vernon, read the morning's paper, "God's Plan for Financing His Work," written by Mrs. D. B. Hunter, of Vernon, who was not present.

An inspiring address by Mrs. Main, of Armstrong on "Our Responsibility for the Training of Young People," was warmly appreciated, and later Mrs. D. H. Watson came in with greetings from the women of the Methodist Church.

Pleasing interludes were provided by a song from Mrs. Atkins and a recitation by Miss Kathleen Brown.

The Question Drawer was conducted by Mrs. Stewart, of Armstrong, and Mrs. Stainton, of Vernon. "Does the W.C.T.U. believe in Woman Suffrage?" was a question which led to discussion.

There was a very representative assembly to hear Dr. Spencer's address in the evening at the College Gymnasium, Rev. R. W. Lee in the chair. After Dr. McIntyre had offered prayer, there was a short program of music and readings, contributed by Miss Clay, Miss Harrington, Mrs. Stewart, of Armstrong, and Miss Moke.

The discussion on Friday led by Mrs. Daly was on "How to Secure More Temperance Teaching in Schools," and Mrs. T. F. Roberts, of Lacombe, Alta., gave a most interesting address on "Work To Do."

This afternoon Mrs. H. H. Miller, of Kelowna was the speaker on "Home Attractions to Counteract Outside Attractions."

The election of officers for the ensuing year took place, but particulars had not come in before going to press, and will be given next week.

College Notes.

Prof. Everton was forced to remain at home last Monday on account of a bad cold.

Arthur Henderson, of the Peachland baseball team, spent the weekend at the College.

The College junior baseball team was defeated by the Central School boys by a score of 9-2 on Wednesday afternoon.

Monocles are quite the go this spring. Many are to be seen about the halls, worn by students.

Miss Marjorie Simpson left for her home in Vancouver on Wednesday morning's boat. Quite a crowd of students were down to see her off.

Ex-Reeve C. J. Thomson reached home on Wednesday's boat after an absence of several months. Mr. Thomson returns delighted with what he saw of Australia, where he spent most of his time.

To-night the Boy Scouts expect to have a big muster, as there is much interesting summer work in progress for the troop, which was enlarged by ten at last week's initiations. A tent raising competition is going forward, a paper chase is planned for tomorrow, and shooting for the Borton Cup will, it is hoped, soon be in progress.

Indian Agent J. R. Brown and D. H. Watson, the latter acting for the Royal Indian Commission, have completed the valuation of the Indian Reserves in the northern end of the Valley, and returned home last night. They will be similarly occupied for another three or four weeks in the south end of the Valley and west to beyond Princeton.

Presbyterian services will be held in St. Andrew's Church next Sunday morning and evening.

Mrs. A. F. Solly came in on last night's boat and will be here for a while in charge of two cases.

During May, and probably until the cherry season begins the Union warehouse will be closed on Thursday afternoons.

Methodist services will be conducted on Sunday next in the Methodist Church at 10.30 a.m. and 7 p.m. by the pastor, Rev. R. W. Lee.

The Fruit Union has received a letter from the Central offering some pure bred Yorkshire pigs at reasonable prices. Secretary Sinclair will be glad to give full information to enquirers.

Because of Summerland's being temporarily without a hospital, a patient, Mrs. Miller, of the Hotel staff was taken to the Pentiction Hospital by auto on Wednesday night of this week.

There has been somewhat of a shuffle among some of the business offices on Shaughnessy Avenue. May Day, commonly known as moving day in many places, is not so generally recognized as such here, but this week D. H. Watson moved his office furniture out of his realty office which will now be occupied by W. J. Robinson, who has moved in from next door. The office formerly occupied by him has been leased by Harry Reynolds.

Passing Events: Social, Personal, &c.

Professor A. G. Campbell and Mrs. Campbell (nee Miss Haines) are now residing in Edmonton.

Adam Blyth and Martin Joyce went down to Kaledon on Tuesday where they will work on the orchards.

Mrs. Noyes of Vancouver has arrived on a few weeks' visit to her sister, Mrs. Kinnard, at the residence of the Misses Spencer.

Mr. Geo. Graham who has been to Saskatoon and also visiting Red Deer, returned from his trip on Monday night.

No time has been lost in commencing work on the new hospital building. Excavation work was put in hand this week by Contractor Tomlin.

Mr. Harold Sutherland, after spending the winter with his relatives in Peach Orchard, left on Tuesday morning to return to his home in the prairie capital.

J. Avar Black of Amherst, N.S., is back in town on one of his periodical visits. He is with his son, F. L. Black, at the Lakeside Stock Ranch, Bulyea Point.

Geo. R. Hookham's McLaughlin touring car arrived from Pentiction on Saturday. The car is a four-passenger, and presents a very smart appearance with its gray body.

Mr. R. Carefoot is building a fine residence on his Prairie Valley property. A. H. and J. Steven who have the contract hope for a speedy completion of what will be a roomy and comfortable house.

The ladies of St. Andrew's Church will repeat their interesting and amusing entertainment, "The Ladies' Aid at Mohawk Cross Roads" next Tuesday evening in Empire Hall. Admission 50 cents.

Fluming is occupying a good many workers on the higher land this week. The Municipality is putting in several new flumes and extensively repairing some that demanded attention. In consequence there should be no faulty water service this summer.

The summer weather is putting that spirit of optimism into our citizens that finds outlet in renovating and improving homes and gardens, and quite a lot of that sort of work is going on. Scott Darkis has just finished adding a picturesque and roomy verandah to his house which looks exceedingly well, and several others are enlarging sleeping porches, etc.

Dr. W. L. Robinson was married on Monday night last at Toronto to Miss Mary Firstbrook, second daughter of Mr. John Firstbrook of that city. The ceremony took place at the residence of the bride's parents in Laurence Park, the happy couple leaving Toronto on the train immediately after the reception.

Word has come from Mr. Lewis H. Page, who recently left Summerland for Tilo, Georgia, U.S.A., mentioning his delight with his new country. He sees every prospect of a bumper crop of peaches throughout Georgia, and other southern states having short crops, predicts that good prices will reign for peaches, at least in his district.

An interesting deal in property has gone through this week between Mr. John Buchan and Mr. E. N. Rowley. The latter has bought the ranch right on the line of railroad beyond Trout Creek, about three hundred acres, which Mr. Buchan has owned for some time. Mr. Rowley intends to go in for cattle raising, and has already brought in some stock.

Miss M. Aitchison, who had planned to leave this week for Ottawa to attend her sister's wedding which is shortly to take place there, has postponed her departure till next Wednesday in order to take her part in the repeat performance of the "Old Time Ladies' Aid" in Empire Hall on Tuesday. Miss Aitchison's role of the disturbing Suffragette is one that added considerably to the fun of the pretty comedy.

Miss Gladys Rivington who has been paying a prolonged visit to her brother and sister-in-law, Mr. and Mrs. H. Rivington, at Halsey Orchard, left on Tuesday morning's boat for her home in San Salito, San Francisco, to attend the wedding of her sister there on May 14th. Mrs. H. Rivington spent Tuesday and Wednesday in Kelowna, going up with Miss Rivington by Tuesday morning's boat.

The preacher at both Baptist services on Sunday next will be Rev. Dr. Spencer.

Mrs. Conway and Miss Mae Conway left this (Friday) morning for a visit to the Coast.

E. J. Rowley was doing some photography work at Peachland last Monday.

Mr. J. F. Hinchman of Pentiction spent Sunday last with Mr. Male, Peach Orchard.

There will be a meeting for men only in the Presbyterian Church on Sunday afternoon. The speaker will be Dr. Spencer.

Rev. H. A. Solly is expected in by to-night's boat and will stay with Professor and Mrs. Moore, at their residence.

Mr. W. A. Doyle came in from Los Angeles, California, at the end of last week. He is staying with his daughter, Mrs. W. C. W. Fosbery.

Mr. John Trefry, who recently came to Summerland from Saskatoon with his family, purposes building almost immediately on his property near Paradise Flat.

Lumber has been unloaded at the new wharf prior to building the approach from the road, the contract for which was awarded by the Council to J. Steven.

Post Office Inspector John R. Greenfield, whose headquarters are in the Vancouver Post Office Building, was in Summerland on Wednesday on his annual tour of inspection of the Valley post offices.

A popular engagement which has lately become known is that of Miss Maud McLaren of "Sunnybrae Ranch," Jones Flat, to Mr. Thomas B. Young, proprietor of the West Summerland Feed and Implement Store.

Dr. Spencer will lecture this evening, Friday, in the College Gymnasium, the subject being, "Shall There be a 'Banish the Bar' Crusade in B.C.?" Miss Skillen will give a reading, and there will be some good singing. Collection at the door.

A bridge party, as a farewell to Mrs. Adamson, was given by Mrs. E. B. May on Monday night, and the number of guests spent a most delightful evening. Mrs. Adamson is leaving for Nicola Valley to join her husband there.

A riding party on Saturday, when the meet was at the residence of Mr. and Mrs. E. B. May, was a great success. The large party rode out to Kelly's mine, and returned to tea, several other guests being invited to meet them.

Another money saving opportunity is offered by the Summerland Supply Co. in Boys', Youths', Children's, and Misses' Boots and Shoes, also Boys' and Youths' Two and Three Piece Suits. Their ad on the last page of this paper is full of interest.

The news that Mrs. D. E. D. Robertson is at last much better and is making progress to recovery has considerably relieved the anxiety of her many friends. Mrs. Robertson had a relapse last week after slight improvement, and we are glad to hear now of a decided turn for the better.

Kenneth Kinnard, who has been with the Summerland Supply Company for the past year, mostly at their branch store, has received an appointment as Secretary-Treasurer with the Vernon Fruit Union. Mr. Kinnard, whose engagement with the Vernon Fruit Union begins on May 1st, is, we believe, an expert accountant, and well qualified for the important position.

CORRECTION—In justice to the Okanagan Telephone Company the Review desires to correct an error which occurred in an article appearing on the front page of last week's issue announcing that the Summerland Telephone Company has the intention of laying a wire direct across the lake to establish telephone connection with Naramata. In the course of this article it was stated that the existing rate from Summerland to Naramata over the wires of the Okanagan Telephone Company was sixty cents. This is obviously incorrect, the rate now in force being only twenty cents. Thus the saving the new wire will effect is one of fifty per cent. The error is greatly regretted, and it is hoped that this correction will dispel any false impressions which may have arisen from the statement.

Mr. and Mrs. C. Noel Higgin are now living on their lot in Garnett Valley.

Mr. and Mrs. Harrison, of Kaledon, were in Summerland this week, guests at the home of their daughter, Mrs. Reg. Tait.

B. L. Hatfield has been at Sicamous for several days overhauling the machinery of some of the boats that his company has placed with boatmen on the Shuswap Lake.

The end of another college year is close at hand. Several pupils have finished their work and left for their homes. The freshman class finished writing examinations early this week.

Mr. Grey, from Saskatchewan, who recently acquired the Docking property at Trout Creek, arrived here on Monday with stock and household effects. Mrs. Grey had reached here last week.

Mr. C. P. Nelson, whose auditing business has kept him engaged longer than usual this season, is now back at his studio. The studio will be open from 10 to 12 and from 2 to 6 daily. He will shortly have in a fresh stock of films, papers and developers for amateur use.

The usual monthly meeting of the Baptist Brotherhood was not very largely attended on Tuesday evening. The topic for the evening's discussion was "Industrial Training for the Young," and Dr. E. W. Sawyer and Mrs. G. J. C. White took different phases of this subject in addresses both interesting and instructive. Chef Pollock's refreshments were the wind-up of a pleasant evening.

A very interesting and delightful competition has been organized at the Central School for her pupils by Miss Ballantyne. The children are gathering a collection of the local wild flowers, which are now blossoming thickly, and already thirty-two varieties have been brought in and classified. A chart has been prepared, and on it is entered daily the flower, the date, and the name of the pupil discovering it. The little ones in this way will make an interesting record of the flora of the Valley, and two or three rare blossoms have been found and identified since the search began.

OUR NARAMATA SECTION

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Kaleden Comments

Mr. Lewis Kerr with Miss Macham drove in to Penticton last Sunday morning, where the latter intends to remain for a short visit.

From the appearance of the plum and cherry trees here, there will be quite a crop of both fruits this year.

The little son of Mr. and Mrs. Prentice was taken ill with a slight convulsion on Tuesday night. Prompt remedies were used, and we are pleased to see him running about again as usual.

Rev. W. P. Bunt of Naramata came down with Rev. Chas. Britten on Sunday afternoon and preached an excellent sermon in the Baptist Church, to a large and attentive congregation.

Mrs. Standen, with her daughter Alice, arrived from Toronto, and have already entered into the life of the place, Mrs. Standen being present at the meeting of the Woman's Club last Wednesday afternoon.

Mr. and Mrs. Carroll E. Foss left for the East last Friday afternoon, where Mr. Foss intends taking a position with his father. Mr. McAllister is living on their place for the present.

HOW TO CAN APPLES.

One of the problems before the apple growers is to increase the consumption of apples. One way to do this is to can apples after they have been peeled, cored, sliced thin, sweetened and baked about four hours. They compare with apple about the same as strawberries with prunes. They can be used in various ways. With the use of modern machinery for peeling, coring, and slicing, they can be prepared much more economically than by the small consumer; the fact is the consumer will not take the time to prepare them.

The advantages over evaporated apples would be: they retain their flavor; they will keep indefinitely; they are not exposed to dust and dirt.

If the factories were located in producing centres it would solve the problem of transportation, cold storage and commission men, and save the cost of boxes and packing. The grower would haul his apples to the factory as needed during the winter. I don't say that it would save all the cost of transportation, storage and commission, but they would be much more simple and less costly.

The factories now in operation would be able to keep their capital and employees busy the year round. The difference in the price now paid by the consumer and that received by the producer is too great. I advance this suggestion for the consideration of others better informed than myself.

—C. Smith, in Can. Horticulturist.

WHERE THE WEST BEGINS.

Out where the handclasp's a little stronger,
Out where a smile dwells a little longer,
That's where the West begins.

Out where the sun is a little brighter,
Where the snows that fall are a trifle whiter,
Where the bonds of home are a wee bit tighter,
That's where the West begins.

Out where the skies are a trifle bluer,
Out where friendship's a little truer
That's where the West begins.

Out where a fresher breeze is blowing,
Where there's more of reaping and less of sowing—
That's where the West begins.

Out where the world is in the making,
Where fewer hearts with despair are aching—
That's where the West begins;

Where there's more of singing and less of sighing,
Where there's more of giving and less of buying,
And a man makes friends without half trying—
That's where the West begins.

—The British Weekly.

Accident At The Tunnel.

An Italian laborer at the tunnel met with a bad accident on Wednesday afternoon through the falling from the ceiling of a heavy section of the rock which struck the unfortunate man on the head. Dr. White of Penticton was hurriedly summoned, and took the patient in his auto down to the hospital.

Dorothy Dix says the woman demands of the man she loves that he be a cash register, sweetheart, philosopher and slave. Hence the increasing number of divorces.

The Old England

TWEED HATS for Ladies, \$1.25 each.
Any order for not less than \$3, and not weighing above 11 lbs. sent by Parcel Post inside the 20 mile radius FREE.

Methodist Church Activities.

The Ladies' Aid Society met in regular session on Wednesday afternoon, followed by election of officers. Pastor Bunt, as is customary on such occasions, presided. The following officers and standing committees were selected:

President, Mrs. M. Allen
Vice-President, Mrs. Geo. Cook
Secretary, Mrs. D. O. Hughes
Treasurer, Mrs. Fred Young
Flower Committee,
Miss Edna Noyes

Convener of Refreshment Committee, Mrs. Cash
Purchasing Committee, Mrs. Salting, Mrs. Mitchell
Sick and Visiting,
Mrs. Cash, Mrs. Lyons.

The reports of officers showed a very healthy state both socially and financially in this organization. In the evening the annual congregational meeting was held.

Mr. J. H. Pushman, Superintendent of Sunday School in his report showed a very large increase in attendance during the year.

Mrs. H. P. Davies, retiring president of the Ladies' Aid, read a report which showed that the amounts contributed through the ladies' organization totalled over four hundred dollars.

Mr. Bunt gave a report of the year's operations showing that our local church is in a really enviable position from every standpoint.

Rev. R. W. Lee of Summerland, who was present at the evening session, greatly added to the pleasurable of the occasion by his encouraging remarks.

The special feature of the evening was the presentation of a beautiful silver cup to Master Kenneth Blakley Wells, being the first baby baptized in the Naramata Methodist Church. The presentation was made by Pastor Bunt on behalf of the Board of the Methodist Church.

Mr. J. Russell Wells, the father, replied in a few well chosen words.

Naramata friends attending "The Ladies' Aid at Mohawk Cross Roads" next Tuesday evening will have ferry ticket included in the admission price of 50 cents. ml

Shiloh
"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough

Current Events — OF — Town & District

Miss R. Logie of Summerland was a visitor to Naramata on Wednesday.

Messrs. Grant Smith & Co. have moved the balance of their warehouse stock to Penticton.

The bi-weekly practices for the May concert under Unity Club auspices, under the direction of Mr. Fred Manchester, are creating quite a local interest. The indications are that we shall soon have a real live operatic troop of our own.

Mr. Mark Manchester leaves on Monday or Tuesday for Alaska in response to a tempting offer for the season from the Alaska Gold Mining Co.

Mrs. R. H. English and Miss McAloney of Summerland were in town for a few hours on Wednesday in the interests of "The Quaint Old Ladies'" of their town who are putting on a show in Empire Hall, May 5th.

The post-nuptial reception of Mrs. Wm. Nuttall, nee Miss Freda Mitchell, held at the Unity Club parlors on Tuesday afternoon and evening, was the social event of the week, bringing a large attendance of the ladies of the town. Mrs. Nuttall was assisted by her mother.

Master Harry Roe, aged about seven, otherwise known as "Happy Roe" among the juvenile fraternity, is a ball enthusiast as well as a plucky youngster. Though suffering considerable pain from a broken arm, he smiled cheerily as Dr. Andrew was setting it and said in tones of self congratulation, "Ain't it lucky, doctor, it's my left? I pitch with my right."

Plan To Continue Selling Of Cattle.

The Provincial Agricultural Department proposes to continue this year its program of grade dairy stock sales in view of the greatly increased interest manifested by farmers of the province in live stock, announced Provincial Live Stock Commissioner W. T. McDonald.

During 1913 the Agricultural Department shipped in nearly 500 picked dairy cows which were sold at auction to the farmers at various provincial centres. In not a single case has there been dissatisfaction on the part of the purchasers. Although it is increasingly difficult to purchase good cattle of this type in Ontario owing to the competition of American and Alberta buyers, Mr. McDonald states that every effort will be made to find more cattle for sale to farmers for dairy breeding purposes. It is possible also that hogs will be imported for breeding purposes.

"Never before have the farmers of British Columbia taken such an interest in live stock as at the present time," said the live stock commissioner. "Nearly every farmer in the province, it would seem, is anxious to buy cattle or hogs. We have received many enquiries not only for dairy stock but also for beef cattle. It is quite apparent that the mixed farming idea is taking hold of the agriculturists of the province, who are not going to be content simply with growing crops, but will also go one step further and raise stock, fed on the products of their fields."

Mr. McDonald intimated that in order to cope with the increasing work of the department it was proposed to add a number of new officials who were being brought out from the agricultural institutions of Eastern Canada.

During the spring season the department has distributed alfalfa to 400 farmers, states Mr. McDonald, and corn to about 300. This seed distribution work is to be continued from year to year. This season the government planted a number of investigation plots at various points in the province and the live stock commissioners, under whose direction this work falls, states that indications point to considerable success from this work of investigation and demonstration, particularly in regard to root and fodder crops.

A New Department

NARAMATA is now to have a long-felt want supplied. Our lady-folk can henceforth have all their needs in the way of Staple Dry Goods,

Ladies' and Children's Underwear, Hosiery, Shirt Waists, Neckwear, &c.

supplied right at home and at reasonable prices. Goods not in stock will be gladly procured at lowest figures. Call and inspect our stock, and place a trial order.

Beginning Saturday, the 25th, ICE CREAM and a full line of SOFT DRINKS will be on sale in the Drug Department. Neilson's and other high-class Candies a specialty.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tons of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting: Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen, Anemones, single, double and variegated, Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Work Half Done On Hope Mountain Line

Making Good Progress Near Princeton

More than half the grading work on the joint section of the Hope Mountain route has been completed. With the exception of a three mile stretch, grading work is now proceeding on the entire section of the Kettle Valley Railway between Hope and Coqihalla Summit. This portion of the Hope Mountain route is to be used jointly by the V.V. & E. Railway and the K.V.R. In order to rush the construction operations on the important section so that it will be completed within the specified time, December 1, the working forces have been greatly increased lately. There are now 1800 men spread out along the line and this number is being still further augmented.

The section is thirty-eight miles in length, and was only started late last summer. Operations have been prosecuted with the utmost vigor all through the winter in the face of the most difficult physical handicaps.

Grading gangs are working on the last link of the Kettle Valley Railway, between Osprey Lake and Princeton, and nearly two-thirds of the grading has been completed on the 27 mile section of the latter line between Princeton and Otter Summit. As explained before in these columns a reciprocal arrangement has been entered into by the two companies for using portions of each other's lines. The Kettle Valley will use the section between Princeton and Otter Summit which is being built by the V.V. & E., and vice-versa with the Hope-Coqihalla portion of the route.

About 200 men are working on the V.V. & E., northwest of Princeton, and it is expected that the grading will be completed and that track-laying will be started by the middle of August. The section will most probably be ready for traffic late this autumn.

J. J. Warren, President of the K.V.R., stated at Princeton a few days ago that the road will be completed between here and the present end of steel at Osprey Lake by the first of December.

Stuart, consisting of the 6th D. C. O. R., 11th I. F., the 72nd Seaforths, and the 104th Westminsters will be under canvas. The departmental corps will also train at Vernon, as will the 6th Field Company Engineers.

The Summerland Development Co.
NARAMATA - B.C.

B.C. by Cinema.

A most satisfactory demonstration of British Columbia "movies" took place early this week at Vancouver. Mr. W. E. Scott, the Deputy Minister of Agriculture, had invited officials and members of the Board of Trade and other prominent citizens, and the auditorium was well filled. The views are the work of the provincial cinematograph expert. There is no doubt whatever as to their value as a medium through which outsiders may be given some idea of British Columbia's scenery, resources and industries.

The feature of the entertainment was a series illustrating the fishing industry of the Province. Starting with the emptying of salmon from nets into barges and following the fish from that point through the various stages which they must pass until packed into neat cans ready for shipment, those present were given an accurate insight into the character and the scope of the industry.

There was a similar series of views of the apple raising industry in the Okanagan. The magnificent orchards of the district were shown, the first view being in the early spring, when the trees were in bloom. The audience was carried along from the initial stages of the fruit-raising business to the final and most impressive sight, the packing of beautiful red apples, and the forwarding of them in ear-load lots to the market, where they are always in demand.

Shoop raising in the interior was another industry treated in the same comprehensive and illuminating fashion. A number of characteristic pictures of Victoria were also thrown on the screen.

Militia Training Camp At Vernon.

Vernon has been finally decided upon as the place where the B.C. mainland militia corps will carry out their training this year, and the infantry troops will arrive at Vernon on Sunday morning, May 24th. The camp will break up in time to allow of the men being back at work on Friday morning, May 29.

The entire 23rd Infantry Brigade, commanded by Col. J. D.

**SYNOPSIS OF COAL MINING
REGULATIONS.**

COAL MINING RIGHTS of the
Dominion, in Manitoba, Saskat-
chewan, and Alberta, the Yukon
Territory, and the North-West Terri-
tories, and in a portion of the Pro-
vince of British Columbia, may be
leased for a term of twenty-one
years at an annual rental of \$1 per
acre. Not more than 2,560 acres
will be leased to one applicant.
Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.

In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.

Each application must be accom-
panied by a fee of \$5, which will
be refunded if the rights applied
for are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.
The lease will include the coal min-
ing rights only, but the lessees may
be permitted to purchase whatever
available surface rights may be
considered necessary for the work-
ing of the mine at the rate of \$10
an acre. For full information ap-
plication should be made to the
Secretary of the Department of the
Interior, Ottawa, or to any Agent
or Sub-Agent of Dominion Lands.
W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this adver-
tisement will not be held for.

**MARKET MANAGER McMILLAN
VISITS THE VALLEY.**

The manager of the Vancouver
City Market, Mr. John McMillan,
spent last week-end and Monday
in Summerland. Mr. McMillan
has been touring the country in an
official capacity, interviewing ship-
pers and gathering data.

Some thirty of Summerland's or-
chardists shipped produce to the
Vancouver City Market with more
or less satisfactory results. It
would appear that it is difficult to
obtain good prices for cherries and
peaches at the Vancouver City Mar-
ket, while on the other hand prunes
and plums seem to bring good
prices. Apples on the whole
brought satisfactory returns. One
carload, one third of which was
cookers, brought \$1.50, while
prunes netted the growers more
than 2 cents a pound. Mr. McMil-
lan hopes for a material increase
during the coming season in the
Summerland shipments to his mar-
ket.

**NEW ZEALAND PRODUCE
FOR CANADA.**

W. A. Beddoe, Canadian trade
agent for New Zealand, in a report
to the Department of Trade and
Commerce, reports that on her last
voyage to Vancouver, the "Mak-
ura," of the Canadian-Australian
service, brought to that port
11,000 boxes of butter, 107 car-
casses of veal, 65 carcasses of lamb,
243 quarters of beef, and 130 bags
of sundries.

**RETAIL MERCHANTS TO MEET
AT VERNON.**

The retail merchants of the Val-
ley are to be invited to participate
in a district convention to be held
in Vernon on the 9th of June. A
number of the members of the Pro-
vincial Association will be in atten-
dance. An appropriate program is
being arranged, which will include
an auto tour of the Vernon district.

ADVERTISING v. PRAYING.

Here is one deserving of notice:
The small daughter of a Little Rock
family had been praying each even-
ing at bedtime for a baby sister.
The other morning her mother,
reading the paper, exclaimed: "I
see Mrs. Smith has a little daugh-
ter."

"How do you know that?"
asked the child.
"I read it in the paper."
"Read it to me."
The mother read: "Born—On
March —, to Mr. and Mrs. —
Smith, a daughter."
The child thought a moment,
then said, "I know what I am go-
ing to do. I am going to quit
praying and begin advertising!"

A New Fodder Corn.

Experimental Plot Planted Here.

A special kind of fodder corn of
an early variety, which according
to report has been perfected in the
province of Quebec and has proved
highly satisfactory, is to be experi-
mented with here. Acting for the
Live Stock Branch of the Provin-
cial Department of Agriculture,
Mr. Thomas Dale is planting three
quarters of an acre to this corn,
the seed being brought here by
Mr. Reddy, of the Crops and Soils
Branch of the Department, who
arranged with Mr. Dale to under-
take the work. His instructions
to Mr. Dale were to place three
kernels in a hill with hills 3 1/2
feet apart each way, six pounds of seed
being left for the purpose. The
crop will be allowed to go to seed,
which will be distributed among
the ranchers. Similar quantities
will be planted at Kelowna and
Penticton.

Safe Blowing at Revelstoke.
\$100 Stolen From Post Office.

What is stated to be the first
case of safe-blowing in the history
of Revelstoke occurred early on
Tuesday morning, when the post
office safe was blown open and about
\$100 stolen. The operators, three
in number, were seen by nurses
from the adjoining hospital pre-
mises, but because the robbers had
already cut the telephone connec-
tion the alarm was not given quick-
ly enough to ensure the capture of
the safe-blowers. Two of the men
entered the post office, while the
third remained on watch outside.
The safe door was shattered by
three shots of high-grade explo-
sive. So far the three men concern-
ed have not been traced. They
took, in addition to the \$100 in
cash, two watches belonging to the
postal staff.

WAR CUTS OFF SILVER SUPPLY.

The Mexican conflict is cutting
off a third of the world's supply of
silver. A third of the world's
supply comes from Mexico. The
shortage may be felt acutely if hos-
tilities continue to arrest communi-
cation by rail with Mexico City,
rendering it impossible to export
silver bars refined there.

When a man is through with his
day's work and is sitting down rest-
ing in his home, he cannot read
the advertisements on the fence and
the handbills and circulars that
were left on the doorstep during
the day and have blown away or
been destroyed. He calls for the
paper and there finds the mer-
chant's announcement, and with
nothing to bother his mind he reads
it carefully and calls his wife's
attention to it, and they decide to
go to the merchant's store and ex-
amine what is advertised.

If you can think of anything that
can be done to beautify or build up
your town, go do it. Keep your
capital at home; patronize home in-
dustry; help your merchants so
they can sell cheaper; always get
your work done at home if possi-
ble; subscribe—yes, and pay for
your home paper; don't steal or
borrow the reading of it. If you
follow these directions and your
town does not improve it is not
your fault. Try it.

DOING IT LEGALLY.

If a man were to give another an
orange, he would just simply say,
"I give you this orange;" but
when the transaction is entrusted
to the hands of a lawyer to put in
writing, he adopts this form: "I
hoteby give, and convey to you, all
and singular, my estate and inter-
est, right, title, claim and advan-
tages of and in said orange, to-
gether with all of its rind, skin,
juice, pulp and pips, and all rights
and advantages therein with full
power to bite, eat, suck, and other-
wise eat the same, or give the same
away, as fully as I, the said A. B.,
am now entitled to bite, eat, suck
or otherwise eat the same orange
or give the same away with or
without the rind, skin, juice,
pulp, or pips, anything hereinaf-
ter or hereinafter, or in any other
deed or deeds, instrument or in-
struments of what nature or kind
soever to the contrary in any wise,
notwithstanding."

ERRATUM—In our report of the
Ladies Hospital Auxiliary last week
the name "Mrs." C. P. Nelson was
a misprint for Mr. C. P. Nelson as
elected Auditor. Mrs. J. W.
Angwin was elected Convener of
the Purchasing Committee.

To-Morrow

Starts the **GREATEST BARGAIN EVENT**
during our Sale in

Boots & Shoes for Boys, Youths, Children, also Misses.

May 2nd to 9th inclusive

Regular value from \$1.50 to \$2.75.

Sale Price: 2 pairs for \$2.20 coupons, or \$2 cash

These Boots and Shoes will be placed on Tables in both our Stores
for your inspection, and will include Makes suitable for Best,
or Rough, Every-Day Wear.

EXTRA SPECIAL During the Boot and Shoe Sale, your unrestricted
choice in BOYS' and YOUTHS' two and three-
piece SUITS:

Sizes 22 to 29, Regular value \$4.50 to \$6.25,
Sale Price \$3.30 coupons, or \$3.00 cash.

Sizes 30 to 35, Regular value \$6.00 to \$8.75,
Sale Price \$5.50 coupons, or \$5.00 cash.

Telephone Co. Lays Cable Across Lake

Sister Towns Linked By Direct Wire.

Summerland and Naramata, the sister towns facing each other on Okanagan Lake, and with so much in common, have been more closely united this week through the enterprise of the Summerland Telephone Company. "Brought closer together" we said! Yes, and seemingly in more ways than one. Heretofore the distance from shore to shore has been variously stated at from nearly three to three and one half miles. Now, with the laying of the telephone cable from the new government wharf on the Summerland side to the government wharf at Naramata, they have been brought to within a distance of but little more than two miles, according to Manager Atkins of the Telephone Company.

The laying of the cable, which was successfully accomplished on Tuesday morning, marks a new era in the development of Summerland, and more particularly perhaps Naramata. Previous to the actual connecting of the two towns a telephone line had been run to the extreme outer end of the new wharf and connection with central tested. Connection was then made between this line and the cable end which was dropped overboard attached to a heavy weight.

The placing of the cable was watched with interest by most of the directors of the company and by several interested citizens, as well as a representative of the Review. An ample length of the heavily insulated copper had been placed on a mounted reel on one end of a ferry scow, while at the other was a melted pot of pitch, and through this, which was kept hot, the cable was passed over a pulley on each edge and under a third pulley submerged in the molten pitch. It was put through this process as a further precaution against short circuiting. When all was in readiness and the shore connection complete the scow was moved off under watchful control of the crew of the "Skookum," and without mishap the other side was reached in about an hour and a quarter after 12,036 feet had been "paid out." This means that due allowance is made for "sag" and deviation from the straight line, the distance is not over 11,000 feet, and from shore to shore 12,000 feet, allowing 700 and 300 feet for the two wharves.

Throughout the course the operation was watched from Secretary Hogg's motor launch by the President and several of the directors. Immediately the scow was tied to the Naramata wharf an instrument was connected to the cable end and President Mellor informally inaugurated the new service by calling up the Summerland exchange. Several other members of the party were then given connection with friends on this side, and congratulations were the order of the hour.

WOMEN'S INSTITUTE.

At the meeting of the Women's Institute this afternoon two very interesting topics are for discussion. Mrs. R. C. Lipsitt is giving an address on "The Fireless Cookstove," a very reasonable instruction, and Mrs. Latimer's (of Penticton) paper on "Hyaline Culture" will be read. Both ladies are experts in the topics individually chosen, and this is exactly filling the aims of the Institute.

Would Organize Farmers' Agency.

Co-operation of Lower Mainland Producers. Okanagan Central Agency To Invade Coast Markets This Year.

Vancouver, May 6.—Through the offices of the Vancouver Board of Trade efforts will be directed toward the establishment of a farmer's shipping and selling organization in the Lower Mainland, similar to the Okanagan United Growers. President Jonathan Rogers is at the present time taking the matter up and has had a long conference with Manager R. Robertson of the Okanagan organization. Although the co-operative shipping and selling system has only been in operation in the Okanagan for one season, it has already demonstrated its value, and agriculturists in other parts of the province are anxious to follow the lead set in the Okanagan Valley.

It is intended to have Mr. Robertson discuss the subject at length with the Vancouver Board of Trade in the near future, and he will probably also be asked to address a number of meetings of the farmers of the Lower Mainland.

"The Okanagan United Growers, which last year, during its first season, shipped most of its fruit and farm produce to the prairies, will invade the Coast market in 1914.

"There is no reason why Vancouver should not buy the fruit and garden stuffs of the Okanagan and also the farm produce of the Lower Mainland," says Mr. Rogers. "The selling efforts of the Lower Mainland farmers in the past, it appears to me, have been somewhat desultory, and as a result a good deal of garden stuffs which Vancouverites would gladly buy at home have been purchased by the wholesale from agencies across the line.

"If the Lower Mainland farmers united and arranged for large shipments into Vancouver at specified times, the wholesalers would no doubt be able to handle an increasingly large amount of their produce. If the growers were organized there as they are in the Okanagan, they would be able to sign up contracts with the merchants for the delivery of a specified amount of produce on specified days. This is the whole secret of success, it seems to me.

"Now that the Okanagan agency proposes to ship in large quantities into this city, there is no reason why some united action on the part of the Okanagan and Lower Mainland farmers could not be taken in order that the Coast consuming market here might be kept for British Columbia producers."

Mr. Rogers stated that he had received a letter from one of the milk producers' associations offering co-operation in such a united movement on the part of the farm and fruit interests. It is his intention shortly to confer with City Market Clerk McMillan on the subject with a view of ascertaining what further assistance in handling British Columbia fruit and produce can be given at the City Market. Mr. McMillan is at the present time touring the Okanagan.

Development Co. Changes.

Mr. Robinson Resigns Management. New Directors Appointed.

At a recent meeting of the Summerland Development Company, Mr. J. M. Robinson's resignation from the dual position of secretary and manager was accepted. As a director Mr. Robinson has represented in addition to his own interests in the company those of Sir Thomas Shaughnessy and others. So much of his time has been demanded of late by other matters, particularly the Hommings process which he is now introducing into Canada and the United States, and which will require that he be absent from the Valley much of the time, that Mr. J. J. Warren has been appointed to the board to represent Sir Thomas. At the annual meeting Mr. Warren was made president, G. A. Henderson vice-president, C. B. Gordon secretary, J. M. Robinson and Lieutenant-Governor Bulyea directors.

Service in the Baptist Churches on Sunday next will be conducted by Rev. S. Everton.

PAST COLLEGE STUDENT DROWNED.

Very sad news reached the many friends of David Avauche, the youngest son of Rev. F. W. Avauche, and a last year's student at the College, this week. Young Avauche, who is only just over twenty years of age, was canoeing with a friend named Thompson, on a mountain lake near Port Hammond, on Friday last, when in some way their frail craft was overturned, and both young fellows were swept away and drowned. The bodies have not yet been recovered, and search is still being made. The Rev. Avauche was well-known as a Baptist minister at Penticton, and not long ago removed with his family to Port Hammond. David was a popular student of his year, and the news of his sudden death at so early an age has been heard with profound regret both at the College and at Penticton.

Mr. John Thompson was a Port Hammond resident, aged 35, and leaves a widow and family.

School Trustees In Session.

The regular monthly meeting of the Board of School Trustees on Thursday afternoon was devoid of any matters of unusual importance. Dr. J. P. McIntyre presided over a full board.

After the minutes of the last meeting had been read and approved, the Secretary read the report of Inspector A. S. Anstey on his recent visit to the local public schools. The encouraging tone of his report was noted with satisfaction. That part of it which referred to further equipment deemed necessary for the increased efficiency of the schools was discussed in detail, and the Secretary was instructed to procure some maps, books and a little additional furniture which will be apportioned to the various schools. A special effort will be made to have three new flags here in time for Empire Day, in order that due emphasis may be laid on the meaning of this national holiday.

Trustee Shields was authorized to have several matters pertaining to the Town School attended to, including fixing an awning, adjusting windows, and repairing water connections.

A question which came up and occasioned some discussion was the interference with school hours by music lessons which some of the pupils are taking at the College. There has been some difficulty in arranging the hours of these lessons to avoid any clash, but the Board felt that there would be no difficulty in making adjustments after the College closes for the year in about two weeks. A motion was passed that after June 1st no school children be allowed to absent themselves from school during class hours on account of music lessons. This practice came to the notice of Inspector Anstey and he desired that the school work should suffer no interference.

The chairman brought up the question of the additional teacher in the High School who may be needed for next year. This was left over till the next meeting. It cannot be definitely known what the needs of this department will be until the close of the school year. If an additional teacher is found to be necessary, the Secretary intimated that the Board would need to economize on the conveyance contracts to provide for the additional salary and keep within the estimates.

The following accounts were approved:

Teachers' salaries	\$825.00
Carotaking	32.00
J. L. Logie, secretary	10.00
Conveyance Contracts:	
H. Dunham	53.00
H. Briatow	48.00
T. J. Garnett	80.20
J. H. Bowering	36.80
A. G. Munn	24.00
Drug Company	8.45
J. E. Phinney	9.00
Municipality	08.76
G. L. McWilliams	6.25
Summerland Supply Co.	7.00
Total	\$1062.06

The meeting adjourned about the middle of the afternoon till the regular June session.

SIR THOMAS SHAUGHNESSY AT THE COAST.

The President of the Canadian Pacific Railway has lately made a trip across the continent. He was at the Coast during the week-end, and was interviewed at Victoria.

Asked whether any new undertakings were contemplated by the railroad, Sir Thomas replied: "We are concentrating all our activities on finishing the extensive work already under way in British Columbia. We have a big program of improvements now proceeding, including the boring of the tunnel under the Selkirk range, the double tracking of the many miles of line through the mountains, and the terminal improvement scheme at Vancouver to complete. Work on all these is progressing very favorably."

The President said that the company hoped to be operating trains on the Hope Mountain route, the Kettle Valley line, by the middle of next year, and that it was expected that a service would be started by way of the Nicola Valley branch and Spence's Bridge early in 1915, to be utilized until the Hope Mountain cut-off is finished.

With reference to the further double-tracking on the British Columbia division, the President said that the C.P.R. would postpone additional work along that line until the Kettle Valley branch was finished. The sections which are being paralleled east and west of Kamloops and west of Revelstoke, are now nearing completion, and are expected to be ready for the heavy midsummer traffic.

"Is the C.P.R. contemplating the electrification of other sections of its line in addition to the Rogers Pass Tunnel and the Rossland-Castlegar branch?" was another question put to Sir Thomas. "We will probably electrify a few miles each side of the big tunnel, but have not yet decided on any definite policy with regard to the other portions," he answered.

Ladies' Hospital Auxiliary.

There was a good attendance of the ladies of the Refreshment Committee for Victoria Day at a meeting held in the drawing-room of Mrs. R. M. Ross on Tuesday. The ladies are working with the energy and enthusiasm which usually characterizes their methods, at their arduous and self-imposed task of providing refreshments on the sports grounds on that day. The Sports Committee are giving them all possible help in this endeavor to add to the funds for the new hospital, and will fit up the largest tent which has been very kindly promised by Mr. A. B. Elliott as a refreshment booth.

Rifle Association.

There was only a small attendance at the regular shoot last Saturday. A tricky wind helped to keep scoring down. Leading:

	200	500	600	Total
J. Dunsdon	31	32	27	90
G. Barkwill	33	30	27	90
O. Smith	30	31	27	88
G. Loomer	30	27	26	83
F. Nixon	27	28	27	82

The next shoot will be on Saturday week, the 16th inst., when the first stage of the Price Ellison Cup will be shot off.

BUSINESS TRANSFER.

The barber business of the lake-front section changed hands this week, when Mr. F. B. Tully, who has been here for more than a year, transferred the proprietorship to Mr. McCutcheon, who comes from Regina. Mr. McCutcheon entered into possession on Thursday morning. Mr. Tully has made no definite plans for the immediate future, though he may take a trip into the Similkameen soon, and possibly later to California.

Mr. and Mrs. McCutcheon and child have rented the McWilliams house above town and are in residence there.

The arrival of Mr. and Mrs. J. M. Robinson from Toronto has been unavoidably postponed by a week or two and they are not expected before the end of the month.

Okanagan Branch Line Will Be Pushed

Gen. Manager Outlines Work To Be Carried Out by Canadian Northern.

Construction work on the Okanagan-Kamloops branch of the Canadian Northern Pacific Railway system is to be started at an early date. M. H. McLeod, general manager, is now making arrangements for the season's work, which will include the building of the new line into the Okanagan, and the completion of the transcontinental line from the Alberta boundary to Port Mann.

The plans of the C.N.P.R. call for the construction of a line from Kamloops in a general southerly and easterly direction to Armstrong and thence to Vernon, with a spur to the Okanagan Lake, near Okanagan Landing, a branch from Vernon to Lumby, and an extension from Vernon south via Kalamalka Lake to Kelowna. The line at present planned will be 140 miles in length, although it is believed in some quarters that further extensions will be made later on to connect with the other portions of the company's system in the prairie provinces via Lumby, Arrow Lake, Lardeau, and the Columbia Valley to the C.N.R. branch system now under construction in Southern and Central Alberta.

Extensive hydro-electric power schemes have been formulated by the Mackenzie & Mann interests in connection with the Okanagan branch. The company has secured power rights all along the route, it is said, and is arranging to build a power plant at Shuswap Falls, near Lumby, east of Vernon. It is definitely known that the C.N.R. intends to electrify the spur lines from Vernon to Lumby and the extension to Kelowna, and it is generally understood that there is a probability of the entire branch from Kamloops to the Okanagan also being operated eventually as a traction line.

Construction on the unfinished links of the C.N.R.'s main line in British Columbia is to be rushed to completion this year, according to General Manager McLeod's announcement. A large amount of bridge building yet remains to be done at various points along the Thompson and the North Thompson Rivers, but the grading work on the sections north of Kamloops is well advanced, and the entire route is expected to be ready for the rails by the middle of August. Steel has been already laid on 269 miles of the transcontinental, leaving 230 miles yet to be finished. The company has 3000 men at work.

The Local Market.

Vegetables locally grown are now appearing in the stores in addition to potatoes, etc., carried over from last season. The retail prices this week are as follows:—

Radishes, per bunch	5 cents.
Spring onions, ..	5 "
Lettuce	5 "
Rhubarb, per lb.	5 "
Dry onions, 5 lbs.	25 "
Potatoes, per sack	\$1.80

BEATEN TO DEATH NEAR VERNON

On suspicion of brutally murdering James Berryman, one of their party whose bruised and battered body was found last Sunday morning some distance out of Vernon, five residents of the upper Valley have been arrested. The men left Lumby for a lumber camp near Cherry Creek last Thursday morning, and all were much under the influence of liquor. According to the evidence given at the inquest none of them seemed to have a very clear idea of what happened during the journey. The deceased's body bore evidence of much kicking and a very bad mauling, several ribs being broken.

Presbyterian services will be held in St. Andrew's church next Sunday morning and in the Methodist Church in the evening. Mr. Daly's morning subject will be "The First Mother," and his evening subject, "The Lovers of the Bible." At the evening service Mr. D. L. Sutherland will sing the Mother's Day Solo entitled "I'll wear a White Flower."

Promising Young Industry.

Early Vegetable Boom.

Within the last two or three months there has sprung up in our midst the nucleus of a flourishing industry promising success for the grower who will work hard and skilfully. If the "Early Vegetable" boom goes on as it has begun this year, Summerland will be looked on as the region of young and fresh and tender vegetables as well as that of luscious fruits—the combination is surely a healthful and attractive one.

Since January, glass houses have gone up on specially prepared sites with surprising rapidity, and where a while ago there were a pioneer few, there are now some eighteen or twenty, sheltering great quantities of fine healthy seedlings, which are now (about the 15th inst.) going out, sturdy young plants, to mature in the open sunshine.

The early vegetable king seems to be the tomato, and then come cabbage, cucumbers, melon, corn, peppers, and the delicate spring onions and lettuce, which last come under the heading of "small vegetables."

GOING AHEAD.

A Review representative spent a profitable hour or so this week inspecting some greenhouses full of flourishing little plants, and in the smell of the warm sweet earth, and the look of the tender fresh green there seemed an atmosphere of promise and prosperity that was most attractive.

An experienced specialist in "Early Vegetables" talked hopefully of the new industry. "Our local soil is first-rate for them," he said, eyeing the neat array of boxed plants proudly, "couldn't be better, and the climate is admirably adapted for their growth, for once planted out about May 15th, the young plants can go ahead in the sunshine without fear of further frosts. Yes, I know there are those who talk of the spring cold nights, but I have no fear of them. Once be sure your plants are far enough on in growth before planting out and chilly nights won't hurt."

In answer to a question as to the financial prospects of the industry the Early Vegetable enthusiast said emphatically: "What are they worth? All the way up from nothing to \$100 an acre. A lot depends on the grower. There's much in the early vegetable industry that you've got to be educated up to, and the amateur can't succeed all at once in it any more than in other trades."

A WORD OF CAUTION.

A word of caution note was sounded for the intending grower by the enthusiast. "Keep the acreage confined," he said, "there's too much of a tendency to crowd out with plants. Give your seedlings lots of room, don't go too strongly at it, lest you overcrowd your plants and prepare a glut for the market. Both will be very bad for the Early Vegetable!"

Discussing the prospects for tomatoes the enthusiast was hopeful. "We've got a canning factory where our surplus is well housed," he said, "Markets? Well, there's always a market for good stuff, and one of the greatest human wants is plenty of young, fresh, green foodstuff in spring."

And the Review representative came away with a backward admiring glance at the orderly rows of green ready for the fields, and hinting at a harvest that will ripen to prosperity.

MORE DIRECTORS.

For the purpose of adding to the directorate the Okanagan United Growers held a special meeting at Vernon on Tuesday. Up to the present the Board of Directors has consisted of eleven members, and the purpose of putting through the now by-law permitting this number to be increased to fifteen is to provide for new locals joining the Central having a representative on the Board. Immediately the by-law comes into force a twelfth member to represent the recent addition to the Board.

Offsetting Competition

The thing for the merchants of this community to do in their own interests is to advertise faithfully, and to make their printed announcements interesting and helpful to those whose trade and favor are desired.

The serious competitors of the retailers of this community are the big stores of the big cities—those that send out catalogues and have mail order departments.

The poorest way to offset this competition is for our local merchants to remain silent. For them not to "speak up" is to give the mail-order houses a better chance to get the business of this community.

A WORD TO THE PUBLIC.

When you send your money out of this community, you enrich the great shops and impoverish this community. Strengthen—not weaken—the merchants of this community. It will be returned to you in the form of better service and better values.

Be Loyal to Your Own Community

Criticizes Methods Of B.C. Farmers

Lecturer From Oregon Says We Are Away Behind The Times.

The following is from a recent issue of the Hillsborough, Oregon, Independent. It contains some interesting impressions by Mr. William Schulmerich of the country through which he lectured in the recent mixed farming campaign of the Farmers' Institutes of B.C.

Lectures were given by Mr. Schulmerich on the dairy industry, and his companions lectured on fruit raising and poultry. Everywhere the lecturers appeared good crowds greeted them, and the farmers seemed eager to learn new ideas. Mr. Schulmerich says he notes a great difference in this respect over that of four years ago, when he gave his first series of lectures under the auspices of the Canadian Government.

The farmers of British Columbia are far behind those of Oregon in dairying and fruit raising, but more advanced in poultry raising. The great trouble with the farmers of that country is that they are far behind in up-to-date methods of farming, and are wasteful of what they raise. At Salmon Arm dairying is well advanced, and good stock is kept, Holsteins being the principal breed.

At Mara, in the Okanagan Valley, Mr. Schulmerich saw no change for the better in farming methods since he was there four years ago. Timothy hay is the principal crop, and this has been raised for so many years in succession that the soil has been depleted. Soil and climatic conditions are good here for the raising of alfalfa, and this crop would put the nitrogen back into the soil. Practically no cattle are kept by the farmers of this section.

Vernon is a town of 3,000, and Mr. Schulmerich found land in this region given over to the raising of fruit, principally apples. Hay is never put under cover, and in consequence about one-eighth is lost by spoiling. As long as the farmers pursue such wasteful methods they will never prosper, says Mr. Schulmerich. From Penticton south the land is occupied by the Indians. This country, which extends for six miles between Okanagan Lake and Dog Lake, is the best part of the country over which Mr. Schulmerich travelled. The Indians raise nothing but a few horses, and their land lies practically idle. From Dog Lake the party of lecturers travelled 10 miles through canyons and over hills, when they came to an open valley that possessed ideal conditions for cattle raising, but only a few head were to be seen. On land that would amply support 12,000 head Mr. Schulmerich saw only about 1,000, and last year's grass was still standing.

The people of the interior districts of British Columbia have been set back many years, by the inflation of land values which obsessed the country a few years ago. Thousands of little farms were planted and sold to investors, who imagined they could plant out orchards and in a few years be rolling in wealth. People who bought this land can never realize on it, and will have to give way to others. The residents of those localities realize they have hit the toboggan, and have about reached the bottom. They are awakening from their apathy, and are eager to learn the most advanced methods of fruit raising and dairying. Mr. Schulmerich says they have a fine country, and there is no doubt but that in a few years under the stimulus of an awakening desire for better things they will prosper.

CARE OF MANURE.

Among the farmers visited in the prairie Provinces in the Agricultural Survey work in 1918, not one was found to be giving any care to prevent the waste of barnyard manure. In Ontario, so often called the "Banner Province," 98 per cent. exercise no special care to prevent waste. In the Maritime Provinces, greater care is taken, about 40 per cent. of the farmers visited having other manure sheds or collars for storing the manure. Ontario may well copy this leaf from the book of the Eastern farmer's operations.

Prevention is better than cure. Prevent loss of the manure already being produced and it will not be so necessary to buy the expensive fertilizers to build up the sick and wornout soil. Prevent the loss of the liquids by using some sort of absorbent. Prevent loss from heating by piling and mixing carefully in flat piles, not too deep, and keep tramped. —F.C.N., in Conservation.

REVIEW Publishing Compy., Ld.

Summerland To The Front.

The Second of a Series of Four Articles on Matters of Vital Local Interest.

Organization is a modern policy. The organized man is a power, he moves shoulder to shoulder with his brother; the unorganized man is merely a part of a mob, with no chart or compass to guide him.

Organization is the spirit of progress, and the spirit of progress is the greatest asset a business or an individual can have.

The more people we can work with and for, the bigger and better you and I are.

We are living in an age of organization. Commercial and industrial enterprises, cities, men are thriving upon it.

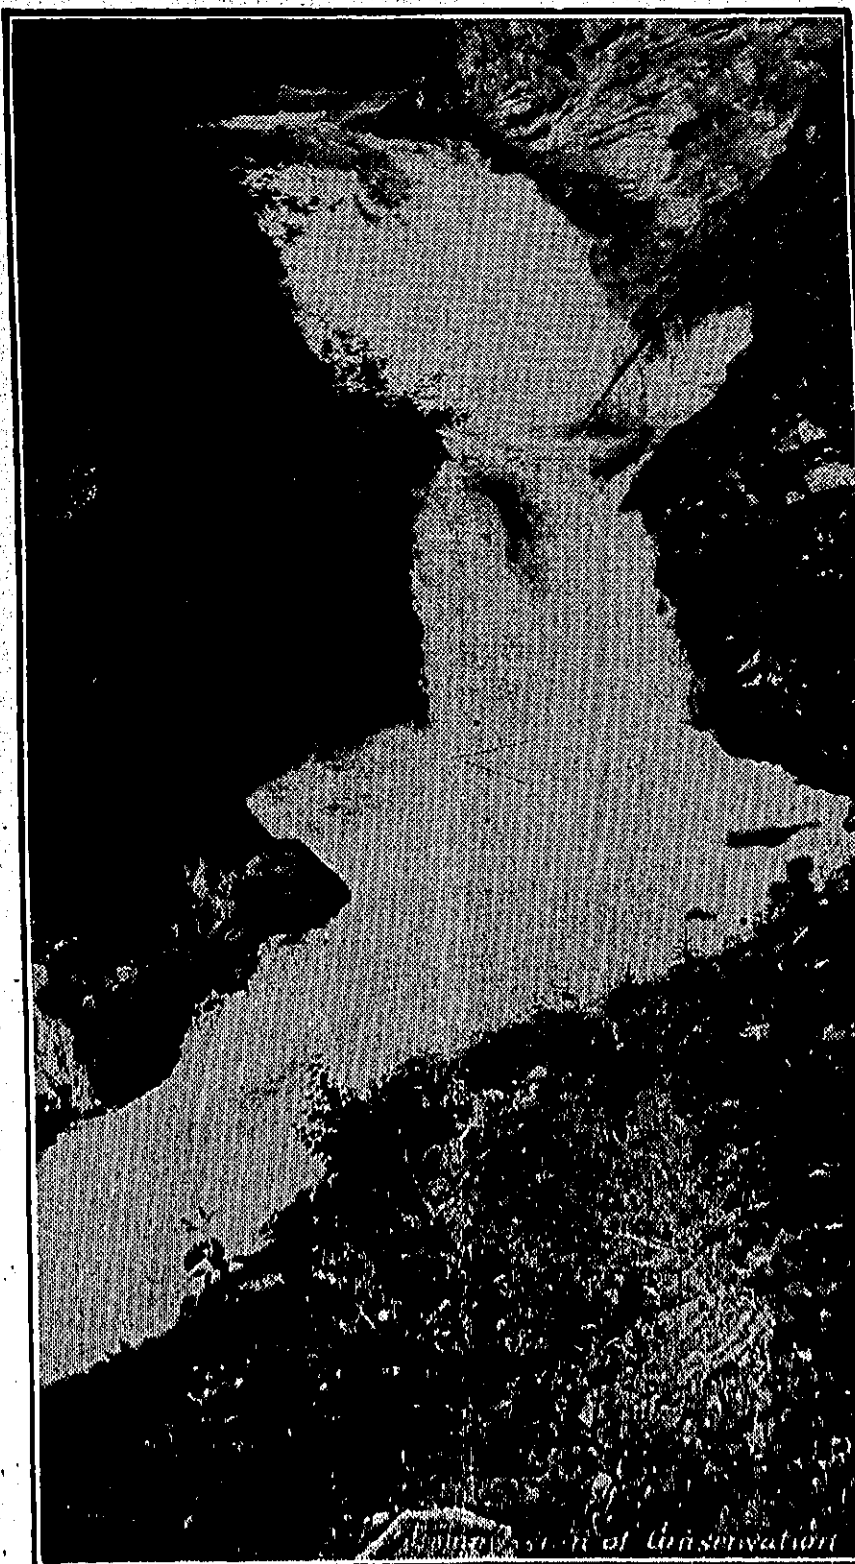

We are living in an age of organized interests. Men get together to discuss things, to better conditions. They are doing it in a spirit of progress.

Reciprocity, mutuality, co-operation are combined in this spirit, and the greatest of these is co-operation.

Competition may have been the life of trade once, but it is no longer so. Competition died when the inventive genius of modern engineers devised machines that will manufacture beyond our present economic wants. Competition, then, became suicidal and destructive, and anything that is suicidal is dying—is dead. We have passed through the savage age, the stone, the competitive, and now we are passing into the co-operative. We will not be here so very long, anyway, and soon Death, the kind old nurse, will come and rock us to sleep—and we had better help one another while we may.

Men of Summerland! We are not insane, neither have we any intention of committing suicide. Since it has been clearly shown that reciprocity, mutuality and co-operation represent the spirit of progress, let us adopt them to the full, and marvels will be accomplished in the further advancement of our beloved Summerland and the progress of our fair Valley.

B.C. Water Power Survey.

During the season of 1918 a party of engineers of the Conservation Commission examined the water power situation in the district tributary to the water-sheds of the following rivers in interior British Columbia: Skoena, Klapox, Bulkley, Morice, Telkwa, Zymoetz and Kitsumgallum Rivers.

The season was an unusually wet one, and the country traversed very rough, with consequent poor trails, that in many instances required clearing, so that progress was necessarily slow. In spite of this, twenty-six streams in all were examined and twenty-eight power sites reported upon.

ADOPT CASH SYSTEM.

Beginning May 1st all members of the Retail Merchants' Association of Salmon Arm inaugurated a straight cash system of business. "The action," says the announcement, "has been taken after careful consideration, both in their own interest and that of their customers. The curtailing of credit by wholesale houses, and loss through uncollectable accounts have forced them to this decision, they buy to advantage and sell on a cheaper basis."

RUSH OF IMMIGRANTS.

The opening of navigation on the St. Lawrence has witnessed a great rush of immigrants landing at Quebec city. No less than ten thousand arrived within the first two or three days, five thousand within a period of twenty-four hours. This is a record for the season, but it is probable that even this record will be broken before the end of the month when the Empress and Royal liners will be coming in two at a time with an average of fifteen hundred passengers each.

SUMMERLAND FRUIT UNION

PRICE OF SEEDS IS ADVANCING. Members better buy their supply at once.

Until further notice Warehouse will be closed on Thursday afternoons.

ON HAND:

Whale Oil Soap. Arsenate of Lead.
Black Leaf 40.
Chick Feed. Clover Seed. Feed.

BRING BACK YOUR EMPTY BARRELS.

Growers! Attention!

Having decided to operate the Summerland Cannery for another season, we will require for canning a large supply of

Tomatoes and Soft Fruits

Our plans for the future in the district will largely depend on the support given us this year by the Growers.

Dominion Cannery, Ld.

What Bids Fair

To become the Most Popular Sub-Division yet presented to the People of Summerland is now on the Market

in Half - Acre lots

Five minutes' walk from Post Office, Store, Church, & School.

PRICE & TERMS WITHIN REACH OF EVERYBODY

The Opportunity is exceptional, and you cannot make any mistake in your selection.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 90 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

FOR SALE Advertisements, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 8, 1914.

COWS AND BANKS.

SEEING the advantages to be gained by the introduction of milch cows of the best type among the farmers, a number of bankers in the Western States have of late been purchasing Holsteins in the East by the carload, bringing them west and distributing them among the farmers of their districts at cost. The bankers who have been following this practice are taking their payments in monthly instalments from the earnings of the cows, and according to undoubted authority, the payments are being usually promptly met.

This action upon the part of the local bankers reveals a marked difference in the banking methods in the United States and Canada, and at the same time shows perhaps the only advantage the United States' system has over the Canadian banking method. With us our financial institutions are almost invariably national in scope, and our banks are in a position to place their money wherever in this broad Canada it best suits their purpose, and they are in nowise dependent upon, and scarcely even concerned in the industrial or commercial development of any one community. On the other hand the United States banks are almost invariably purely local institutions dependent for their business, their growth, yes—their very existence, upon the development and prosperity of its community. Hence these bankers are always ready to take a venture on anything that is likely to lend itself to the advancement of its territory, whether industrial, agricultural or commercial.

PERIODICAL MEDICAL EXAMINATIONS for everybody, as a means of detecting and checking disease in its earliest stages, were earnestly advocated by Dr. Victor C. Vaughan in an address on the subject of preventive medicine before the seventh annual meeting of the Association of Presidents of Life Insurance Companies. Looking into the future, says Scientific American, the speaker told of the time when "everybody goes to a physician twice a year and undergoes a thorough examination. The result of this examination is stated in a permanent record, and no two consecutive examinations are made by the same physician, in order that a condition overlooked by one may be detected by another. Cases of doubt, or in which there is difference of opinion, are referred to special boards." Dr. Vaughan endorsed the proposal that the insurance companies offer their policy holders free medical re-examination at stated intervals; a plan that would probably benefit the companies financially through the increased longevity of the insured.

BETTER think twice before buying that cow. A London chemist has, according to the Times, perfected a process of making artificial milk, "pure wholesome, and highly nutritious, minus the dangers of the original article from the cow." The manufactured milk is based on casein obtained from the soya bean with fatty acids, sugars and salts added. Bacilli will be introduced to manufacture cheese and butter. It is asserted that the "milk" will be manufactured cheaper than the ordinary milk can be supplied to the consumer.

THE MAN who sits with expectant countenance and idle hands waiting for prosperity to jolt up against him, and ask to be taken in over night, bids fair to be disappointed again. There was never a time yet when prosperity was looking around for furnished rooms in the house of any person on record. Prosperity is not that kind of an animal, and no man should sit with his mouth open waiting for the succulent article to drop into it. He will catch nothing but a few unsatisfactory flies, and perhaps a bad cold. The man who is really desirous of cultivating the acquaintance of the illusive creature will have to put his hustling clothes on, as heretofore, and get up and dust.

A popular newspaper—the marriage certificate. A plumber's helper—Ten below zero.

"She did wrong to look back, didn't she, Bessie?" "Yes, mamma!" "And what do you think Lot did when his poor wife turned into a pillar of salt?" "I don't know, mamma; I s'pect he wondered where he could get a fresh one." Two little boys were discussing the strength of a bee. "He can pull more'n a fly," said one of them. "Well," said the other, "I dunno how much he can pull; but when he backs up to you and pushes, I guess you'll fall back every time."

Will Count Apples.

Selling Agency To Get Census Of Year's Crop.

Spokane, May 6.—To secure an accurate estimate of this year's apple crop a tree census of the four Pacific Northwestern States, Washington, Oregon, Idaho and Montana, is being made by agents of the North Pacific Distributors, the co-operative Central Selling Agency controlled by the growers, and having headquarters in Spokane.

It is the first time in the history of the North-west fruit industry that such a complete estimate of the crop has been made. Adopting the plan followed in the Yakima Valley, the distributors aim to take three censuses during the season in an effort to secure reliable and approximately correct information as to probable tonnage in the various districts. It has been estimated that the growers last year lost \$250,000 on account of the lack of reliable crop estimates, the early figures last season being chiefly guesswork, and 50 per cent. higher than the actual crop.

Every grower in the branches affiliated with sub-centrals of the distributors will make a detailed estimate on his crop, tree by tree, and variety by variety. The estimate of the growers will not be taken as final, but inspectors will visit every district and work on the basis of acreage and average in former years, and actual conditions on stated areas. These men will be experts, and by a double system of estimating fairly approximate figures can be secured. Using this system of estimating the Yakima Valley Fruit Growers' Association one season estimated within two carloads of its entire tonnage, and another season within 20 carloads.

Methodist services—Sunday being the day now generally known as "Mothers' Sunday," special sermons will be preached. The morning service will be held in the Methodist Church at 10.30 a.m., when the pastor will preach. The evening service will be held in St. Andrew's Church at 7 p.m., and Rev. R. W. Lee's subject will be "The Gentleness Which Makes Great." Solos will be sung by Mrs. George Ross and Mrs. G. W. Morrill.

We greatly regret the misinformation which chronicled the arrival of Mr. W. A. Doyle last week.

Mr. C. J. Thomson, whose return from Australia we announced last week is planning to set sail with his wife and family to make his home in that new land in the early fall.

The approach to the new government wharf has been completed in a substantial and workmanlike manner in keeping with the well-built structure. A considerable length of new sidewalk railing has also been put up there.

A meeting of the Poultry Association will be held next Thursday evening at eight o'clock at Campbell Hall. Matters of much importance to the members will be presented for consideration and it is hoped that all interested will be present.

Rod and Gun for May is out with, as usual, an attractive bill of fare for the sportsman. The Dogs of the North, A Hunting Trip to Pocologan, N.B., The History of the Canoe, Building a Sectional Boat, The Swamp Maiden, The Roughneck Fishing Club, Obnoxious Fishing in Lakes and Ponds, Ideal Trout Fishing in Ontario Waters, are some of the articles worth special mention, while the regular departments are well maintained, and the whole of interest to both Canadian and American sportsmen. W. J. Taylor, Limited, Publisher, Woodstock, Ont., issues this Canadian outdoor magazine.

For some time past illicit liquor selling has been suspected in the railway camps west of Summerland, and at the end of last week Constable Graham brought off a coup that should slacken the energies of the liquor pedlars. A man with a pack on his back came from Naramata and was followed some miles back into the country where he cached his burden of liquor at a spot evidently agreed upon beforehand. Later on a horse and rig driven by a young man from the other side of the lake came along and took up the hidden bottles with the intention of conveying them to the camps for consumption there. Constable Graham intervened, however, and made seizure of the liquor.

Court of Revision

Municipality of Summerland

NOTICE IS HEREBY GIVEN that the first sitting of the Court of Revision for the purpose of hearing complaints against the Assessment for the year 1914, will be held in the Municipal Office, West Summerland, on Thursday, May 14th, at 2 o'clock, p.m.

J. L. LOGIE,
Municipal Clerk.
West Summerland, B.C.,
April 1st, 1914.

a10-m8

Mr. Percy Greenwood returned from his trip to England last week-end.

A new tinsmith, Mr. Garbett, of Vernon, has been engaged by the Borton Heating and Plumbing Company.

A small residence building is being erected on C. W. Haddrell's lot in the Ritchie sub-division north of the Central School for Mr. and Mrs. F. G. Haddrell.

Some slight idea of the extent to which alfalfa is being sown may be gleaned from the fact that the Summerland Fruit Union has distributed among its members fully two and one half tons of alfalfa seed, this exclusive of what has been distributed by the local merchants.

Passing Events: Social, Personal, &c.

Mr. and Mrs. Pares have gone to Princeton to spend a few days.

Miss Alice McDougald of Peachland is on a short visit to her aunt, Mrs. Geo. Grey.

Miss Aitchison left for Ottawa yesterday (Thursday) morning to attend her sister's wedding.

Mr. and Mrs. W. M. Urquhart of Peachland were visitors at the home of Dr. and Mrs. Lipsett this week.

Mr. and Mrs. Bentley and nephew have built a tent house on Professor Campbell's lot for a summer residence.

The regular monthly general meeting of the Board of Trade will be held on Tuesday, May 12, at the office of Secretary McWilliams.

Mrs. A. F. Solly, who was expected in from Armstrong on Friday arrived on Monday night's boat and will be in Summerland for a few weeks.

Mr. O. Vaughan lost a somewhat valuable horse on Tuesday from lockjaw. The animal had been ailing for some time, and this rare cause of death is said to be the first case of its kind in the community.

Word has been received that the Sunday boat service on the lake will be resumed on May 31st. It is not yet definitely known whether there is to be a morning and evening call or just the one call in the evening.

The lady amateur who last Saturday had six bites in twenty minutes but failed to land the rainbow beauty who greedily gobbled all her bait, has signified her intention of camping by the creekside till that particular trout succumbs!

Rainbow trout in season! This sporting little fish is giving good fun to local devotees of the rod and line, and Garnett Valley Creeks are teeming with fine fish. Some of "the boys" who went out on Saturday and Sunday last brought home fine catches.

Dr. Spencer's sermon at the Parkdale Baptist Church on Sunday last was a particularly interesting one, and is being much discussed this week by those privileged to listen to it. Dr. Spencer's views on individualism and the community contained much valuable advice.

The arrival of the furniture belonging to the Rev. N. McNaughton, and its disposal at the parsonage indicates the coming very shortly of the new pastor of the Baptist Church. The congregations at both Parkdale and Lakefront are anxiously waiting to welcome him.

The first entire cherry orchard to be planted in Summerland has been put in by Mr. Gabriel Marshall who intends to experiment with a "straight" crop of the very finest cherries. It will be remembered that Mr. Marshall left Summerland for Chilliwack but returned before very long expressing his preference for Summerland "over and over again."

Motoring is the very latest recreation of so many of our citizens that those who are not lucky enough to possess a car are experiencing a feeling of being left! Among those who took motor trips this week were Mr. Geo. Gartrell who "did" Hedley and back in record time, and Mr. and Mrs. Jas. Ritchie who took Dr. Spencer to Kaledon and back on their motor.

E. H. Lock, who has this year completed his graduate course in arts at McMaster University, Toronto, is expected to arrive early next week. He will spend a few days in Summerland before proceeding to his home at Kaledon. Findley McWilliams, who has also completed his arts course, expects to teach at a summer school near Melville, Saskatchewan, for some months, after which he will probably enter a law office at the Coast.

An announcement included in the Ferry Company's ad. in this week's issue is indicative of that enterprising company's eagerness to be of the greatest service to its patrons. Mr. T. H. Riley has been appointed Summerland agent and as he can be found at any time at the office of W. J. Robinson, he will be able to give you any information and transact all business with customers on this side of the lake. By this arrangement parcels may be delivered to Mr. Riley instead of at the wharf end as formerly.

The Fruit Union has just received a carload of No. 1 timothy hay.

Mr. Paul R. Brown of Peachland was here on a business trip this week.

Mr. David Carefoot is building a pretty and comfortable bungalow on his lot in Prairie Valley.

Miss Myrtle Clay is spending a fortnight with friends at Penticton, and left home on Friday.

Captain M. W. Coode, who has been spending the winter in England, has returned to his home in Prairie Valley.

Mr. Sidney Lee of Toronto was the week-end guest of Mr. and Mrs. J. Rowley, leaving for home on Monday night's boat.

Carlson & Company's office and warehouse buildings on the lakeshore near the C.P.R. wharf were finally cleared out this week.

Mrs. Lang came in from Peachland on Monday in order to take part in the performance of the "Ladies Aid at Mohawk Cross Roads" on Tuesday night.

Walter and Henry Hewitt, who have been suffering a good deal all winter, are this week, we notice, living out of doors under the shade trees, and much benefitting from the gloriously sunny and warm weather.

Among several who have visited our town lately and inspected orchard property with a view to purchasing and settling here is a Mr. Latmer of Edmonton, who has a most favorable impression of our land.

The "Skookum" made a special trip to Kelowna yesterday for the baseball match in the Ball Park there, Kelowna versus Vernon. A number of our ball enthusiasts went up, and there were also some from Naramata and Penticton. A delightful trip was enjoyed.

Mr. G. Kellington, who has been occupying the Lawson house for the past year has gone out to Saskatchewan to look into business connected with his property there. He will be away until the fall. Mrs. Kellington, who enjoys the Okanagan summer so entirely, is remaining here.

A marvellous transformation has been effected by a prominent citizen with such thoroughness as to pass the knowledge of his own daughter, much less his friends. The Municipal Clerk of the latter part of the week has not been the Mr. J. L. Logie who has been in Summerland for about nine years, but the Mr. Logie of thirty-five years ago, back in Manitoba and Ontario, moustached but beardless.

Our non-resident readers should make a point to carefully analyse our weather report each month, and if possible make a comparison with their own local record. They will soon find that for average warmth, equability, and absence of cold snaps, together with total hours of sunshine and absence of rain, it cannot be equalled anywhere in this broad land.

Miss Grace Hurschman of the College Faculty, received news on Saturday morning of the critical illness of her father at her home, Claresholm, Alberta. She left hurriedly during the course of the morning, proceeding to Westbank by auto, ferrying to Kelowna, and from thence to Steamboat by auto again. A sad home-coming awaited Miss Hurschman, for her father passed away before she could have reached her journey's end.

The popular sale of boots and shoes which has been the chief attraction of the week at both the Supply Company's stores is to be continued for a few days. Though this sale has been taken advantage of by many, yet the stock is being continually replenished from the shelves, and many exceptional bargains are yet to be had. The bargain prices that have been put on the suits for small folks should by all means be taken advantage of.

Mr. L. C. Woodworth, who motored out to Princeton on business last week-end returned on Monday, expressing himself as "delighted to be back in Summerland." Mr. Woodworth's business takes him out and about a good deal lately to different B.C. towns, and he has been impressed with several of the advantages of the home town as compared to many others. His views on Summerland's "law and order" are particularly encouraging and gratifying to listen to.

Mrs. Neve has been a visitor to town this week as the guest of Mrs. Angove.

Mrs. Baker, of Winnipeg arrived on last night's boat on a visit to Mrs. W. J. Robinson.

Manager Dobie of the Okanagan Telephone Company was in Summerland on Wednesday.

Mr. Alfred McLachlan is away for two days' fishing in Garnett Valley with a party of anglers.

Inspector Cunningham is expected in any day now on a visit of inspection to Summerland and Naramata.

Mrs. Adamson, with her children and Miss Harvey, left last night for Nicola Valley to join her husband.

J. R. Conway, travelling salesman for Parkinson & Archibald, of Vancouver, is now using a motor cycle in his journeyings.

A daughter was born to Rev. and Mrs. D. E. D. Robertson yesterday morning. Both mother and child are doing well.

Mr. J. L. Logie spent Wednesday in Penticton on right-of-way business and left for Hope to-day in connection with the same duties.

The fruit crop is said by experts to be exactly a fortnight earlier this year than usual. Cherries are very forward, and apricots are already the size of a small nut.

The regular monthly meeting of the W.C.T.U. will be held in the parlor at the club rooms. Being the annual meeting election of officers will be held for the coming year.

A most successful opening of the Tennis Club for the season came off on Saturday, members turning up in full force. Tea was provided by the ladies, and the occasion was made a social one.

Mr. and Mrs. George Gartrell, Mrs. Gartrell's aunt, Mrs. French, of Vancouver, and Mr. E. J. Rowley motored over to Hedley Saturday, returning again on Tuesday accompanied by Mrs. French of Hedley. The latter is a sister-in-law of Mrs. Gartrell.

Trustee W. A. Caldwell has been limping this week from injuries he sustained in helping to extricate a neighbor's runaway horse from a wire fence in which it had become involved.

The reception given by the Matriculation Class in honor of the Faculty and "Old Students" of the College was a great success on Saturday night. Morton Hall was a scene of gaiety and a long program of music and games was thoroughly enjoyed.

Supt. Mitchell is pushing operations on the municipal irrigation system, cement lining, pipeline laying and other work, with all speed. T. J. McAlpin now has a gang of men under him also engaged on municipal work. This gang is laying a pipeline in the direction of Crescent Beach.

Another shipment was made last Saturday from the stock of the Dominion Cannery, Limited, which has been stored in the Fruit Union warehouse during the winter. This shipment of one carload which was destined for prairie points, leaves but a small quantity of last season's pack yet on hand.

Mr. R. Robertson, of the Okanagan United Growers, arrived here last night, and after attending to some routine business left on the noon ferry for Penticton, where he will attend a meeting of the local board to-night. Mrs. Robertson and their three children are accompanying Mr. Robertson.

A fine residence in the centre of Penticton and the property of the K.V.R., and occupied by a Mr. Jermyn and his family, was burnt down on Wednesday night, and everything in it entirely destroyed. The fire took place half-an-hour before mid-night while the family were out spending the evening.

The professional broncho buster of West Summerland undertook to hitch up a quiet horse—quiet as a sheep in fact—last Saturday. He went off very nicely but as soon as he started talking Scotch the horse became restive and bolted off to make his complaint at the Municipal Office. There he stopped and refused to go any further. The broncho buster had finally to unhitch and unharness this quiet horse before it would return to the stable.

Prohibition Order Applies To Chinese.

Asiatics of all races will be barred from entry into Canada under a new interpretation of Order-in-Council No. 897, details of which have been made public.

The new interpretation has made the Order-in-Council applicable to Chinese, Japanese and Hindus and will become effective on May 31st.

It will be remembered that the entry of laborers, skilled and unskilled, and artisans into British Columbia was prohibited for a period of six months. At the expiration of this time the order was extended for another six months, or until September 30. This order keeps out all labor under the heads named, both white and yellow, but there was some misapprehension as to how it would affect Chinese who were prepared to pay the head tax of five hundred dollars.

Under the new ruling Chinese will not be allowed in at all except certain classes, such as tourists, students or merchants. The bars will be rigidly enforced against Chinese, Japanese and Hindus as against white labor.

The Hindus are already barred under Order-in-Council 23 and 24, which respectively call for a direct route and the possession of \$250. The new ruling will strengthen these Orders-in-Council and a shipload of Hindus, coming on a chartered vessel direct from India and each having the money qualification, would be kept out of the country as classes of labor prohibited.

A GOOD INVESTMENT.

"No investment pays better than a purchase of space in a live local newspaper. This is another fact which has not been disputed up to date. These hard facts ought to count with sensible people. Choose a local newspaper that is wide awake, progressive, up-to-date, has a healthy circulation, and enjoys the confidence of the people. Prudent buyers are constantly on the lookout for enterprising merchants. Enterprising merchants are the ones who advertise. The ones who advertise are the ones who sell the goods. No one now on earth will dispute this fact. It is hard to get around cold facts."

New Zealand pears are now on sale in Vancouver. They run from 40 to 60 to the box, and are selling wholesale at \$2.50. They show splendid quality.

Peachland Notes.

Miss Alice McDougald was a passenger to Summerland on Monday's boat.

Mr. Jno. McLaughlan spent the week-end in Vernon, returning home on Monday evening.

Mrs. D. Kirkby and friend of Pentiction, were the guests of Mr. and Mrs. McLaughlan on Friday.

Mr. Powell, student, will conduct services in St. Margaret's church during the summer months.

Mrs. George Phillips will occupy the house of Mrs. Elliott, sen., on the lakefront during the absence of her husband as a traveller for a Const firm.

Mrs. Hugh McDougall and Miss Gertrude Powell attended the W.C.T.U. Convention in Summerland last week as delegates from the local Union.

Mrs. A. W. Miller and Mrs. Seaton attended the entertainment by the Ladies' Aid in Summerland on Tuesday evening, and report an excellent time.

Mr. James Barber, of Salmon Arm, who is owner of a fruit lot in town which has not yet reached the bearing stage, spent the greater part of last week here looking after it.

Messrs. George Phillips and Charles Somerville spent Friday in Kelowna, motoring to the ferry landing and back. The following morning Mr. and Mrs. Phillips left for the Coast.

Friday evening another surprise party was given by the young people at the home of Mr. and Mrs. Thompson Elliott, when, notwithstanding the warmth, dancing was kept up until the "wee sma' hoors ayont the twal."

On Monday evening Mrs. George Lang went down to Summerland, to be present at a rehearsal of "The Mohawk Cross Roads Ladies' Aid," in which she acted the all important part of hostess, at the repeat performance on Tuesday evening.

There are 40,000 known varieties of flies in the world. A single house fly lays 120 eggs in excrement, rotten refuse, etc. The maggots hatch in six or eight hours, and the maggots become flies in five or six days. The life cycle of a fly in midsummer is ten days. So, a single fly may have 102 children, 14,400 grandchildren, 1,728,000 great grandchildren, 207,360,000 great great grandchildren within two months. The moral is, swat the fly, and in the fourth generation you have swatted over 200 million of it.

The Unity Club.

The series of Ten Cent Teas in aid of the Club funds have been a great success, socially and financially, and the ladies of the town have taken up the idea heartily. Mrs. Fred Simpson held a Tea at her home on the benches this week, and Mrs. R. C. Robinson was another successful hostess at the Hotel Naramata. There is a business meeting this afternoon at the Club, Mrs. Julius Block being the hostess, to consider arrangements for the forthcoming concert. Mr. Fred Manchester is getting up a most promising program and this week's rehearsal betokened a great success.

The Farmers' Institute.

At tonight's meeting of the Farmers' Institute there is much interesting business to discuss, as the Institute is handling some important questions lately. Preliminary investigations are being made in the matter of the public irrigation law which is under consideration here. Local conditions are being studied with a view to localizing the operation of the law for Naramata.

Whether it will be possible to have Naramata created a Pound District is another matter being handled by the Institute, which is doing very valuable work for this community.

Work is now over for Prowse's No. 2 camp which dissolved this week. Mr. and Mrs. Prowse are in town for a few days.

One pile of garbage left undisturbed a few hours in the summer time will be a roosting place for flies that can carry disease germs into scores of homes. A few disease germs properly placed by a fly can cause illness which nets the doctor, the hospital and possibly the undertaker a big sum. A few cents expended in the first place would have prevented the infection. In sanitation is expensive all right; but sometimes a lot of people fail to realize it even when the argument is so conclusive.

Shiloh 25

"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough

Current Events — OF — Town & District

Mrs. Mitchell has been the guest of her daughter Bessie, at Pentiction during the week.

The Misses Bena and Grace Logie spent the week-end with their sister, Mrs. R. C. Robinson.

Mr. and Mrs. James Hayward have gone to Peachland and will spend the summer there.

Mr. D. F. Broome has left Mr. Brook's office and is now busy surveying up at the summit.

Two more residents who have removed lately are Mr. and Mrs. V. L. Watson, who have just gone to Hope.

Miss Maud McLaren was the guest at lunch of Mr. and Mrs. R. C. Robinson at the Hotel Naramata on Wednesday.

Miss Blanchard, who has been in Naramata for a year, leaves tomorrow morning for her home in the Old Country.

Mr. Harold Endacott went out on Wednesday morning's boat and will have a fortnight's trip to Calgary and on to Saskatchewan.

Dr. and Mrs. W. L. Robinson, who are spending their honeymoon in California are expected in at the end of this month and will reside at the Hotel Naramata.

Mrs. Bain and her two children have left for Fort George where their future home is to be, Mr. Bain coming in this week to take his family on the journey.

Quite a ferryload of churchgoers crossed the lake to Summerland on Sunday night. This pleasant little evening trip will be much appreciated during the summer months.

Mr. and Mrs. McKay have returned to their own house for the summer. Mrs. Burnett who has been renting it for some months has moved into the Hotel cottage which she occupied last year.

Tony Manzini, who came back to Naramata for a fortnight's holiday after the closing of the Mission Hospital was called at the end of two days to Glacier to assist in hospital work for the C.P.R. there.

The picnic season has begun and the sunny beach has been the scene of several very pleasant little parties lately. Mrs. and Miss D. Harrington and Mrs. Clay picnicked on our beach on Wednesday last enjoying Naramata sunshine.

An interesting and important contract has been accepted by Mr. Mark Manchester, who went out on Thursday morning's boat, for a journey to the Yukon. Mr. Manchester has the contract for six months to do all the electric repair work for the Yukon Gold Mining Company at Dawson City.

Fishing is in full swing, and judging from results there is some famous sport being enjoyed by local anglers. Very lucky was Mr. E. H. Hancock, who landed a fine ten pound salmon trout this week. The beauty had a good fight for its freedom and gave its captor quite a little trouble.

Capital promise for the fruit crops is hidden in the healthy beauty of the trees this spring, and there is every indication of an exceptional harvest. A frost on Monday night is suspected of having nipped some blossoming strawberries up on the benches, but the damage is inconsiderable, and the small fruit bushes are looking excellent.

It is possible now to drive right through the famous tunnel from end to end, and this notable piece of work is practically completed. The men are coming down, and the closing of the camp with the reputation for such splendid hospitality will be a great loss to our pleasure-loving residents, who have had such good times up there.

How did the Fire Scare originate? Hereby hangs a tale, for it was on the Summerland side that a blaze and smother was seen and hastily interpreted into "Syndica Hotel on Fire," by a Naramattan who was visiting across the Inko. A telephone message or two, and a rumor spread for which the only foundation was a patch of scrub being burnt on the Naramata Inko shore!

A New Department

NARAMATA is now to have a long-felt want supplied. Our lady-folk can henceforth have all their needs in the way of Staple Dry Goods,

Ladies' and Children's Underwear, Hosiery, Shirt Waists, Neckwear, &c.

supplied right at home and at reasonable prices. Goods not in stock will be gladly procured at lowest figures. Call and inspect our stock, and place a trial order.

Beginning Saturday, the 25th, ICE CREAM and a full line of SOFT DRINKS will be on sale in the Drug Department. Neilson's and other high-class Candies a specialty.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting: Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Given Passport But Baggage Stolen.

Nelson O'Shaughnessy On The Golf Links.

Mexicans did not even except Nelson O'Shaughnessy, former American Charge at Mexico City, in preying on American property after the fall of Vera Cruz. Nearly all of the baggage of Mr. and Mrs. O'Shaughnessy was stolen from the special train Huerta provided for the Charge and his party to transport them to Vera Cruz after he had been handed his passports. The former Charge arrived at New Orleans on the gunboat "Yankton," and early in the day he and Mrs. O'Shaughnessy began a shopping tour to replenish their wardrobes.

Good Food Makes Healthy Children

Good Food need not be dear food. Plain, healthy groceries that are one hundred per cent. pure—the only kind we find it worth while to sell—are of more value than all the fancy feeding schemes you hear so much about. Give your children the kind of groceries we keep. We love the kiddies and you may rest assured that a child may eat any food article in this store with every advantage to his health.

Good food makes healthy children. Let us show you what we have done to help along the pure food movement. Come in to-day and compare our prices and quality with any other store in this country.

Fumigation Costs Have Been Reduced

Principal Chemical Used in Fumigation Work To Be Admitted Duty Free.

Advice from Ottawa to the Fruit Inspection Department at Vancouver announces that the Minister of Customs has placed carbon bisulphide on the free list. This change has been made at the request of Hon. Martin Burrell, Minister of Agriculture, on representations made to him by Mr. Thomas Cunningham, fruit inspector. Carbon bisulphide, which is not made by any chemical manufacturer in the Dominion, is largely used for fumigation purposes. Costing about 20 cents a pound and carrying a duty of 27 1/2 per cent., the bill for the Vancouver fumigating station, where many tons of the chemical are used every year, has been very large, and no good purpose was served by maintaining the duty. Now the department will be able to use the money thus saved in extending its work for the protection of the residents of the province from insect pests.

It may not be generally known that every grain of imported rice, corn, grain and all nuts, peas and beans brought into the province undergoes treatment at the fumigating station before going to the wholesalers. The rice, which comes from Japan, China and Rangoon, is liable to harbor a very destructive weevil, and the grains a destructive moth known popularly as the grain moth. Treatment with the carbon bisulphide fumes completely kills all insect life, without in any way injuring the foodstuffs thus treated.

If the rice weevil or grain moth were to get into the stocks of any of the grain merchants or large stores, nothing but the vacation of the stores and complete fumigation of the premises could prevent it from carrying on its work of destruction.

Fruit Inspector Cunningham, with the placing of carbon bisulphide on the free list will carry on fumigation methods in all railway cars which are suspected of having insect infection as a result of carrying grain and farm produce.

The Dominion Government plans to exhibit samples of British Columbia fruit at the Panama-Pacific Exposition at San Francisco next year. Mr. W. A. Despard of the exhibition branch of the federal administration, has been directed to secure suitable specimens, and to this end will establish quarters in Vancouver where he will select the best samples as they appear on the market.

SHILOH CURES COUGHS & COLDS

The Vernon Jubilee Hospital which has been facing a deficit of \$10,000 is being given a clean slate. \$5,000 was voted by the ratepayers towards clearing up the institution's debts and a like amount is being contributed by the provincial government.

Some women agree with their husbands—in name only.

Larger Business

If the business of any retailer in this community is to grow bigger in the years to come, it will not be a matter of accident or due to an increase of population only—it will be the result of intelligence added to energy, plus **ADVERTISING**

Wherever you find a big, flourishing business you will find behind it a strong, pushing man of indomitable spirit, driven by the power of these 5 words: "I can and I will." This man advertises—he **MUST** deliver his message to those with ears to hear. Multiplied customers and larger turnovers are absolutely essential to his progress.

Summerland St. Andrew's and Caledonian Society.

Members meet FIRST MONDAY in every month in Campbell Hall. Visitors welcomed.

J. G. ROBERTSON, GEO. FISHER, Pres., Sec.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

Successful Convention.

W.C.T.U. Gathering Here Largest Ever Held in Valley.

(Contributed)

The success of the recent W.C.T.U. convention was greatly due to the hearty co-operation of all who so kindly assisted in the work. All the meetings were well attended, and there were interesting and profitable discussions throughout the day on questions financial, social and educational. Perhaps the keynote in regard to our work was sounded by Mrs. Daly on Friday morning, in her address on "Scientific Temperance Teaching in Schools." After a lengthy discussion of this subject, a resolution was passed to the effect that a letter be sent from the Convention to the Provincial Superintendent of Education, asking him to use his influence to have the teaching of scientific temperance made compulsory in all grades of the public schools, and that it be placed alongside the other subjects for examination. At present it is taught only in the entrance class, and there is no examination.

A resolution was also passed that a letter be sent to Colonel Sam Hughes, expressing our appreciation of the fact that he had used his influence to close up the bar in the armories in Vernon.

On Thursday evening an outstanding thought of Dr. Spencer's address was that men and women should co-operate in different lines of work, including religious, social and political.

On Friday evening Rev. C. H. Daly occupied the chair. After an opening hymn the chairman led in prayer. Miss Harrington then gave a delightful violin selection and Miss Skillen a very realistic reading. Miss Harrington very kindly played again in the absence of Mrs. Ross who could not be present to sing. Miss Hirschman presiding at the piano.

Dr. Spencer's lecture was very comprehensive. He appeals for a "Banish the Bar" crusade in British Columbia, such as is taking place in the eastern and prairie provinces. The speaker showed that the bar is bad for business and it is the chief hindrance to the coming of the kingdom of heaven. He states that the failure to secure temperance laws has been due to a lack of co-operation among the churches and the different temperance societies.

The district officers elected were: Mrs. Docherty, Vernon, President; Mrs. Fenner, Summerland; Vice-President; Mrs. Millie, Kelowna, Corresponding Secretary; Mrs. Ball, Armstrong, Treasurer. The recording secretary is to be secured in the town where the convention meets, which next year is to be Armstrong.

The members of the local union wish to express their gratitude for the use of the different buildings, and to all friends who so kindly helped in different ways.

Mr. F. D. COOPER,

Peach Orchard, Summerland

"Orchard Players" Making Good.

Numerous exceedingly complimentary press comments which have been appearing recently in the Coast papers show with what favor the Orchard Players are being received by the theatre goers of the cities of that section. The following is taken from the Vancouver Sun of April 30th:—

"The Truth" is not always so hard to get at as in the case of Mrs. Warder, whose love of romance, inherited from her father, and fostered by him through her girlhood, threatens in the end to ruin her married happiness. With the best intentions in the world Becky lies her way cheerfully through life, hoodwinking "without malice or evil intent" her worshipping and extremely honest husband. There are plots and counter-plots, humor and pathos; but in the end Mrs. Warder begins to believe that "The Truth" is not a thing to trifle with, and the close is a happy one.

In the Orchard Players of B.C. Co., the character of Becky is charmingly portrayed by Miss Dora Rignold; while the frank, deep-voiced Tom receives fine treatment at the hands of Mr. William Sauter. Becky's gambling, inventive old father is in the capable hands of Mr. A. L. Soames; with Mrs. Arthur Elwyn as the justly jealous Mrs. Lindon, and Mr. L. Race Dunrobin as the smiling villain, Miss Mary Dykes appealed more to the audience than to Mr. Bolond, and the minor parts are well taken. "The Truth" will be played again this evening; with "David Garrick" on Saturday. The company is a thoroughly all-round good one, and the plot is refreshingly clean.

"AT THE MOHAWK CROSS ROADS"

Repeat Performance.

The "repeated by request" performance of "The Ladies' Aid Old Time Meeting" by the ladies of St. St. Andrew's Church was most successful at the Empire Hall on Tuesday. Many who had been unable to attend the first rendering of this merry and prettily staged farce thoroughly enjoyed themselves. "At The Mohawk Cross Roads," as "put on" entirely by a band of ladies whose acquaintance with stage lore and theatrical affairs is no doubt purely academic, is a delightfully clever little affair. The stage of the Empire Hall has seldom been so daintily furnished and picturesque, and the costumes of all the many ladies taking part made a charming tableau of rich color.

Several new "quips and cranks" of local meaning have been added, and created much merriment. With diffidence, however, we beg the privilege of honest press criticism, and suggest that one or two personal "local hits" were just a little too smart to be kindly or in the best possible taste. We venture to think that the originator of at least one purely personal hit could not have been in possession of some painful facts.

The appearance of the "Old Time" ladies in their quaint hooped gowns, bonnets and curls on Shaughnessy Avenue, created quite a stir early in the afternoon, and was a pretty advertisement.

A SCHOOLBOY'S COMPOSITION ON GIRLS.

Girls is the only folks that has their own way every time. Girls is of several thousand kinds, and sometimes one girl can be like several thousand other girls if she wants to do anything. Girls is allike one way, and they are all like cats. If you rub 'em the right way of the hair they'll purr and look sweet at you, but if you rub 'em the wrong way or stop on their tails they'll claw you. So long as you let a girl have her own way she's nice and sweet, but just cross her and she'll spit at you worse nor a cat. Girls is also like mules. If a girl don't want to believe anything you can't make her. If she knows it's so she won't say so. Brother George says he doesn't like big girls but he does like little ones, and when I saw him kissing Jennie Jones last Sunday, and told him of what he'd said, he said he was biting her 'cause he didn't like her. I think he hurt her, for she hollered and run, and there was a big red spot all over both of her cheeks. This is all I know about girls, and father says the less I know about them the better off I am.

Popular Bargain SALE

will be continued a few days longer.

Boots & Shoes for Boys, Youths, Children, also Misses.

In large quantity and great variety. Regular value - from \$1.50 to \$2.75.

Women's Institutes.

Both Local Branches Held Interesting Meetings Last Friday.

An unusually interesting and full program occupied the attention of a large gathering at the monthly meeting of the Women's Institute held in the Men's Club on Friday, and members and the general public turned up in force.

Mrs. Hayes, President, was in the chair, and after the usual business was transacted, Mrs. R. M. Ross made an appeal to the ladies to do all they could to assist the "Hospital Auxiliary Refreshment Tent" on Empire Day. The matter was discussed, and the Institute members, as usual, will not be backward in sound, practical assistance in this good work.

Miss Munn read the brief, but most practical and instructive little paper by Mrs. Latimer of Penticton, on "Hyacinth Culture." At the request of the President Miss L. V. Mills read her paper on the "Advantages to a Community of having an Institute," to which the Department of Agriculture awarded the first prize in the recent government competition. Subsequently Miss Mills also read the Mission City prize paper on "Co-operation" by Mrs. Houlder of that town's Institute, which was thoroughly appreciated.

Mrs. Lipsett proposed in very kind and complimentary terms a hearty vote of thanks to Miss Mills for her paper which had brought honor to their Institute.

Mrs. Lipsett's lecture and demonstration with the "Fireless Cooker," given with her characteristic vivacity and keenness, was most enjoyable. (Equally appreciated too was the toothsome cake which our local organizer produced from the interior of this miracle of modern cookery apparatus). Mrs. Lipsett also gave a brief description of the opening of a new Institute at Oyama, which she has just recently attended, and which has commenced with twenty-three members.

Six new members were entered on the already long roll of the Women's Institute, West Summerland Branch, at the meeting last Friday. Rev. R. W. Lee spoke on "Seeds Grown in the Ground and in the Home," and the summer picnic was discussed. Mr. J. L. Hilborn has drawn up a score card for the best kept lawns, roadsides and lots, and at the end of this interesting competition prizes will be awarded. Entries are invited and should be forwarded as soon as possible to the secretary, Mrs. J. J. Mitchell. The size of the lot and the character of the buildings will have no bearing on the awards. A clean-up "Bee" took place yesterday, for which the women had rounded up the men folk with teams, and the obedient males were very busy for some hours furnishing up the roadside in the vicinity of the school grounds.

THE BOY SCOUTS AND EMPIRE DAY.

The Boy Scouts are to have a good share of their own, both in providing amusement for others and in enjoying themselves, in the Empire Day program. The Boy Scouts Banquet, to be given by Mrs. Hutton, is being anticipated with keen delight. The generous hostess has invited every Boy Scout and their leaders to be her guests on the Sports Ground on Empire Day, where decorated tables will be specially prepared, and presided over by the representative clergy of Summerland churches. The bill of fare will be in the hands of the Ladies' Hospital Auxiliary Refreshment Committee, so that the Hospital funds will also benefit.

The Scouts are anxiously anticipating the arrival of their new and smart uniforms to be worn for the first time on that occasion. At intervals the Boy Scouts Band will provide the music on the Sports Ground, and they are diligently practising. Scoutmaster Kent's new bugle just presented to the troop will no doubt be well heard!

The ferry company advertisement announces a change from winter to summer schedule.

Walking Through Canada.

Japanese Newspaper Man On The Long Trail.

We had an interesting visitor at the Review Office this week, J. Miya Gawa, a Japanese newspaper man, who is attempting the great task of walking through Canada from Coast to Coast, called in yesterday after his long walk from Vancouver, which he left on Thursday, March 26th.

Mr. Gawa, who speaks excellent English, is a former translator for the Nagasaki Press, and a member of the Northern Press Syndicate. A student of the government school under the Public Works Department, of which Prince Ito was the head, Mr. Gawa has had an exceptional education, and some of his professors came from as far east as Glasgow University.

This interesting son of Japan is paying his way on his great walk, and is selling also nursery stock of rare and interesting plants, shrubs, etc., to nurserymen, in the places he passes through. He has come via Kamloops, Sicamous, and Vernon, and yesterday went on to Naramata and Penticton, and thence to the Boundary. He intends to go East to Toronto and New York, and will publish the diary of his experiences on the long trail.

Tall and wiry, and bronzed with exposure to B.C. suns, Mr. Gawa is full of enthusiasm and enterprise, and the book of his experiences should be a bulky and unique volume.

College Closing.

Final examinations begin on May 14th and continue till the 22nd.

This year, owing to Empire Day falling on Monday, the 25th, it has been decided to combine the functions that hitherto have been held on Monday and Tuesday evenings and to place the combined function on the evening of Saturday the 23rd of May. Accordingly on the evening of the 23rd the Board of Management, the Faculty, and Students of Okanagan College will receive their friends in the College Gymnasium from 8 to 11.

A cordial invitation is extended to all friends and any interested to be present on that occasion. No formal invitations are being issued, but through the Review and special announcements in the churches it is hoped that all who desire to attend may be reached.

A short musical program will be provided, and during the course of the evening diplomas will be awarded and announcements made.

Express Co. Officials Here.

Mr. R. Helme, Superintendent Pacific Division, and Mr. A. W. Lee, Route Agent, of the Dominion Express Company at Vancouver visited town on Tuesday evening for the purpose of securing first hand information, and discussing facilities for handling the fruit crop. The company is giving careful consideration to this branch of their traffic, and while no definite statements could yet be made, it is understood that there will be important announcements shortly. The tariff is also being revised. After a short drive over the benches, visiting some of the growers, the officials left on the Wednesday morning boat.

In the absence of the pastor the Methodist service on Sunday morning will be conducted by W. M. Armstrong, of Okanagan College. The evening service will be cancelled.

In our article of last week on early vegetable growing there was a very obvious error in quoting Mr. A. McLachlan, when the profits for an acre were quoted up to \$100. Mr. McLachlan's figures were \$800.

"Enough disease in that pile to ruin the fruit districts of B.C.," was the remark of Inspector Lyne, as he watched a big bonfire at the fumigation plant in Vancouver on Wednesday. In the pile were some three thousand trees, principally fruit trees, the accumulation of the past two months, which were being destroyed by the Provincial Inspectors, because of infection with disease or insect pests.

New Process of Food Preserving.

Simple Chemical Treatment for Soft Fruits May Greatly Extend Markets.

Mr. J. M. Robinson Has Secured Canadian and United States Rights and is Organizing Companies.

While in Summerland a few months ago, Mr. J. M. Robinson mentioned a preserving process which has recently been perfected in England, and for which he was securing the patent rights for Canada and the United States. But little of the nature of the process was divulged by Mr. Robinson at that time, and up to the present very few have heard anything further of this really wonderful and surprisingly simple method of allaying decomposition and fermentation. There is no secret preservative used, the patent being for the method of impregnating the article to be preserved with that simple inert gas known as CO₂. Very extensive experiments have been made on the other side, and impartial testimonies of the most favorable nature extended after thorough tests given by scientists and others. Such influential journals as the Lancet, Daily Chronicle, Canada, Manchester News and others have given the process highest endorsement.

The process has as yet been more extensively applied in the manufacture of non-alcoholic beer than for any other commercial purpose. That it is equally applicable to the preserving of fish, dairy products, meats, fruits and vegetables requires only the perfecting of the mechanical methods for treating these products seems certain, and already some of these have been practically perfected.

Mr. Robinson plans to organize

five parent companies for all Canada, one each for fish, dairy products, meat, fruit and vegetables and hygienic beverages. Local companies, perhaps subsidiary, will use the patent under royalty with the parent company.

Hemming's milk, cream, etc., can, after the treatment with the process, be kept for a seemingly indefinite period, and when opened up and the carbonic acid gas allowed to escape is as fresh and free of bacteria as the newest of milk. The placing of fish in tin cans or drums and sealing after treatment will permit them to be transported great distances at much lower cost than under ice as at present and when opened will be as fresh as when taken from the water. Raw meats and other farm products will also be available in the freshest form.

Mr. Robinson was at first attracted by the process when he saw in it the possibilities of a simple means for the preservation of peaches and other soft fruits. In England peaches are grown under glass and retail at fabulous prices. He expects that by placing the tree ripened fruit in light air tight receptacles and replacing the air with carbon dioxide to be able to ship our luscious peaches to the English and other markets to be opened when the highest prices are being offered.

Mr. Robinson will first organize his Canadian companies, and afterwards he will promote similar companies in the United States.

Inspector of Municipalities Appointed.

New Provincial Municipal Act Soon to be Inaugurated.

Preliminary to the formal inauguration in a few weeks time of the new municipal department of the Provincial Government, authorized under the act passed at the last session of the Legislature, the heads of the department have been chosen. Mr. Robert Baird, formerly of Zealandia, Sask., has been appointed Inspector of Municipalities, and Mr. O. W. Ross, of Fernie, chief clerk.

The Municipal Act is based mainly upon the findings of the Royal Commission on Municipal Government, which made its report to the 1913 session of the Legislature.

Some of its main provisions are: Supervision of the issue of civic debentures; compulsory audit of municipal finances; restriction of referendum power; tax sales cannot be cancelled after one year; local improvements eliminated from Municipal Act; proposed by-laws to be posted to all voters; annual financial statement must be published; three-fourths of property owners can initiate town-planning scheme.

Under the Act any municipality may submit money by-laws to the Inspector for approval and before issuing debentures must submit both the by-law and the debentures to him for approval. His certificate of approval shall be considered conclusive evidence of the validity of the by-law or debentures in all courts of the province.

Another of the duties which will be imposed upon Inspector Baird will be the standardization of a system of municipal bookkeeping, especially with regard to the issuing of debentures, stock and treasury certificates. In this way it is hoped that all accounts of municipalities will be intelligible to the citizen who takes an interest in his local municipal affairs. The Inspector is also empowered to inquire into the management of sinking funds, and his duties also extend to the books and accounts of boards of school trustees.

Mr. Baird, who has been appointed Inspector, is a Canadian by birth and for some years past has

B.C. To Send Fine Exhibit.

Exhibition Commissioner of Province Makes Arrangements With Calgary Congress.

Through W. A. Lang, exhibition commissioner for British Columbia, definite arrangements have been made for an elaborate display of the products of this province at the International Irrigation Congress Exhibition at Calgary October 5 to 9, inclusive. This exhibit will include fruit, lumber, vegetables, and products of the fisheries, and those who have seen at other exhibitions what British Columbia can do in the way of an exhibit can form some estimate of the elaborate display that will be made.

The exhibit of the British Columbia Government at any of the points on the prairie provinces, will this year doubtless far surpass anything that has ever been attempted, owing to the fact that the British Columbia Government and the fruit growers of the Okanagan and other fruit districts of this province are making special efforts to secure larger co-operation between the two prairie provinces and British Columbia in the matter of trade.

Mr. Lang is very enthusiastic concerning the prospects of both the International Congress and that of Western Canada which will be held in Penticton in August.

WILL PRODUCE 2000 CARS.

Sales Manager Says This Number Will be Grown in Hood River County.

Wilmer Stog, sales manager of the North-western Fruit Growers, is reported by advices from Portland, that 2000 carloads of apples will be produced this year in the Hood River country alone. In the States of Oregon, Washington, Idaho, and Montana, he said, are 505,000 acres of apple trees. In Washington and Oregon alone are 40,000 acres of other fruits.

been manager of the Royal Bank at Zealandia. Mr. Ross, the chief clerk, has been fourteen years in the province, for the last three filling the position of city clerk at Fernie.

W.C.T.U. Annual Meeting.

(Contributed).

The following items, selected from the annual reports of the secretary and treasurer, at the meeting on Monday afternoon, show, in part, the work of the local union during the past year.

A parcel of clothing was sent to the rescue home in Vancouver, and \$6 was contributed to the W.C.T.U. Rescue Home in Victoria.

Cigarette blotters were distributed among school children and students.

Pamphlets were distributed among mothers on "How to Tell Children the Origin of Life," as we believe children's questions on this subject should be truthfully answered.

W.C.T.U. temperance quarterlies were furnished to Sunday School teachers, as an aid in preparing the temperance lessons.

Five dollars was contributed to our temperance missions; twelve dollars and seventy-five cents to the general fund of the provincial treasury; and two dollars and thirty cents to our district treasury; also eight dollars and sixty-five cents to equal franchise work, being collections from a franchise tea and a public meeting.

A number of new members were enrolled, and it is hoped that many more women will, from time to time, unite with us, and that we shall be able to do a better work than ever before. Visitors are always welcome at our meetings.

Mrs. Roe of Naramata, a former leader in this work in other places, was elected President for the new year just beginning. The other officers elected are: Vice-Presidents, Mrs. T. N. Ritchie, Mrs. Daly, and Miss White; Cor. Sec., Mrs. Fenner; Rec. Sec., Mrs. McAlpin; Treas., Mrs. Shields. Superintendents of some different departments of work which we propose to undertake were appointed. These were Mrs. Grey, Mrs. Clay, Mrs. Bent, and Mrs. Fenner.

The matter of appointing a superintendent of franchise work was overlooked, but will probably be attended to at next meeting, which will be in the Parkdale Baptist Church on the first Monday in June.

Further Precaution Against Fruit Pests.

Henceforth all consignments of potatoes from south of the international boundary must have an accompanying affidavit, stating the precise locality where they have been grown.

This affidavit will not only fix responsibility on the affiant, but will also be a valuable indication to the department in the event of the disease spreading to Oregon and Washington.

Speaking of the new ruling Inspector Cunningham says:

"The quarantine notice is not meant to hurt anyone. It is sent out in the interest of our own growers and of our own consumers. If we did not take active steps, our own potato crop might become affected. The housekeepers, too, will be saved the annoyance and loss of buying potatoes that will prove to be half rotten."

A further and, to the Okanagan, a more important order, relates to railway cars which bring in infected fruit, and thereby becoming breeding places for codling moth. It has been found several times that consignments of good fruit have been shipped in cars infected from previous shipments. The present notice advises that drastic treatment will be meted out to all such cars in the future, saying, "All cars arriving in British Columbia, containing either deciduous or citrus fruit, or other vegetation, if found to be infected with the larvae of the codling moth, 'Cydia pomonella,' either in the cocoon or pupal stages, and will be immediately closed, sealed, and ordered out of the province, whether the fruit contained therein may show infection or not." These regulations are to be strictly enforced at all ports of entry.

The Hospital Board held its regular meeting last Monday. Little but routine business came before the meeting.

A Terrible Tragedy Saddens Our Community.

Heavy gloom has been cast over our community this week by the terrible tragedy in which Mrs. Frank Whitfield, the wife of one of our hard-working and quietest citizens, met death by her own hand.

The very sad circumstances surrounding the tragedy have affected Summerland most painfully. Mr. and Mrs. Whitfield and their son, now aged twelve, have been residents here for some few years. It appears that for some time Mrs. Whitfield has been much worried by the talk of some residents in the neighborhood, and last Friday her husband received an anonymous letter. Husband and wife were on good terms, but the letter very much upset Mrs. Whitfield, and preyed on her mind to such an extent that on Monday last she bought and took carbolic acid and chloroform in sufficient quantities to cause her death.

On Monday midday her little son, Leonard returned from school to find all the doors of the house locked. He forced an entrance through a window, and seeing his mother lying on the couch, seemingly asleep, he attempted to arouse her. It was not till he noticed some bottles labelled "poison" that he felt any concern, then fearing the worst he immediately ran all the way down to the lakefront to call his father, who was at work as usual at Shields' blacksmith shop. Mr. Whitfield summoned Dr. Andrew, who proceeded at once to the house, only to pronounce that the woman had been dead some two or three hours. Beside her was an empty bottle of carbolic, two small bottles of chloroform, and two letters. One was addressed to her husband, telling him she was taking her own life, and another to a woman friend, giving directions for her funeral and the disposal of her effects, etc.

At an inquiry held by Coroner Dr. Andrew evidence showed that she had met her death by carbolic and chloroform, self-administered, while temporarily insane. The poison had been bought at different dates. On Saturday deceased had purchased a small quantity of carbolic and a small bottle of chloroform, and on Monday another small bottle of chloroform. No suspicion was aroused by the very ordinary purchase of such small quantities, nor had deceased given any idea of her terrible intentions. She was last seen alive at 10.30 on Monday morning, and was noticed to be a little peculiar and absent minded in manner.

The result of the evidence at the inquiry was such that an inquest was considered unnecessary as the cause and nature of death were clear, and the verdict as mentioned above was pronounced. The utmost sympathy is universally expressed for the husband and little son of the unfortunate woman.

On Wednesday morning the funeral took place from the house, where the Rev. C. H. Daly read a brief service, and afterwards the body was quietly interred at Peach Orchard Cemetery in the presence of a profoundly sympathetic and shocked concourse. Mr. Daly read the solemn committal services at the graveside, and those who witnessed the scene in the pretty little God's Acre, under the golden May sunshine and green with all the glorious fresh beauty of spring will not soon forget it.

BOARD OF TRADE MEETING.

The Board of Trade met in regular monthly session last Tuesday. Among the communications were some resolutions from other Valley Boards which the local Board was asked to endorse. A request from Hon. J. A. Turner, Agent General for British Columbia in London, that his office be furnished with a supply of descriptive matter for Summerland was considered at some length. For need of funds but little, if any, new matter can be supplied. It was decided to ask the Council to pay the freight on a case of pamphlets printed some years ago.

In this world joy is measured by the cup; trouble by the peck.

Offsetting Competition

The thing for the merchants of this community to do in their own interests is to advertise faithfully, and to make their printed announcements interesting and helpful to those whose trade and favor are desired.

The serious competitors of the retailers of this community are the big stores of the big cities—those that send out catalogues and have mail order departments.

The poorest way to offset this competition is for our local merchants to remain silent. For them not to "speak up" is to give the mail-order houses a better chance to get the business of this community.

A WORD TO THE PUBLIC.

When you send your money out of this community, you enrich the great shops and impoverish this community. Strengthen—not weaken—the merchants of this community. It will be returned to you in the form of better service and better values.

Be Loyal to Your Own Community

The Church Is Advertising.

A Noteworthy Ad. Which Appeared In Eastern Papers.

To advertise is to progress, and this is now becoming widely recognized even by our churches. The adoption of this means to extend the power and usefulness of the church is but very recent, but already not only the eastern churches but many of those in the west have learned the value of advertising, and weekly it is being now generally adopted.

The following "copy" was written by Mr. C. F. Higham of London for a group of men of various denominations who published the ad. in an eastern Saturday edition:

The Church has many functions. On its social side it is the most significant fellowship in the world. It is the oldest and the biggest, and in its twentieth century spirit it is as new as wireless and the Hertzian wave. The Church, in its new relationships, is as human as man. It has come through purgation of fire. It has fought—and won.

A man's own ideas may be right enough. He may be a good citizen, a theoretical optimist, a believer in humanity, in his country and in himself. Yet the strongest man needs at times a stimulus. His spiritual forces need to be reinforced with new ideas. The right man in the pulpit comes with a message of inspiration and hope. He gives new tone to the listener.

If a man goes to Church, and receives something there that sends him out with more courage, makes him feel better disposed towards his fellows, and stirs him to ambition to dignify his service to other men, he will go back to that church again. He will go because he has been benefited. Multiply that man by the million and you have an idea of the possibilities of the Church.

There are in America about one hundred million people, and fifteen times that many people in the world. Many of them are despairing. Millions need new hope. Their earth is ashes, their heavens turned to brass. They are entitled to know that by natural right they are inheritors of health, happiness and infinite love. They are entitled to be shown the way back to the Kingdom where they belong, and from which they have strayed.

As a business man I believe in the Church, because it is practical and progressive, and because it is in touch with all the new discoveries, or rather re-discoveries, regarding the power of the mind and soul. I see in the Church the scientific medium for conveying the greatest power known. It is bringing man into complete accord with the infinite. It is giving man dominion and power-dominion over himself, and power to do lasting good.

Not only is the Church addressing thousands and hundreds of thousands with the message formerly discussed by two or three gathered together in His name, but in its emphasis upon the constructive side of religion it has banished fear. It is casting out evil with good. Instead of showing man how to grope in the darkness it turns on the Light!

The Churchman is no longer a spiritual mendicant. He asserts his divine right! And the idea that to be righteous we must be miserable has passed. The anchorite in his cell and the saint on his pillar were picturesque, but their ministry is no more. The Church to-day is an institution of action. It not only preaches, it practises. The Crusades fought for ancient tombs; the Church to-day fights for life and happiness on the social plane.

The world, Montaigne said, needed simply to be reminded. The Church is reminding man of his Great Estate.

Henry Drummond rightly called love the greatest thing in the world. This the Church proclaims anew. Every one can share in the new service of Man by attending Church. It may benefit him, it may benefit his neighbor. It can do neither harm. He will become a part of a movement pledged to a spiritual quickening of mankind. The man who hears the right sermons on Sundays will likely carry the Golden Rule with him throughout the week.

If a man know a source which would double his strength, double his self-respect, double the esteem in which he was held, double his influence, and double his usefulness in the world he would find his way to it. Religion in its contemporary application shows the possibilities of incalculable increase along all these lines.

Getting back to God is getting back to the source of supply! The greater your need, the greater is the Church's opportunity to do you good. I believe in the Church because love is its new Itany. Its waters are Living Waters; its paths, the paths of peace. As a practical man I advise every business man in Baltimore to go to Church to-morrow.

SPRING TOUR ENDING.

The "Orchard Players," after a successful tour of British Columbia, which was extended into the state of Washington, have returned to the Okanagan, where a few performances will be given before the spring season closes. The company is now resting, some at Vernon, some at Kelowna, and Mr. L. Race Dunrobin here, until the next performance, which will be in "The Truth," at Vernon, on May 20. On May 25, "The Truth" will be played here.

Excellent support was accorded the company during the tour, and Mr. William Sauter expresses himself as greatly encouraged. The "Orchard Players" will soon disperse to their ranches and orchards in the Okanagan, but in the early autumn will probably begin rehearsing two new plays for presentation next fall, when a more extended tour of the province is planned.

Newspaper criticisms during the tour were without exception most complimentary, and no adverse comment was made by the press of the province. The audiences, too, were hearty in their reception of both plays in the repertoire, "The Truth," and "David Garrick."

REVIEW

Publishing Compy., Ltd.

A Hook Or A Seine, Which?

The Third of a Series of Four Articles on Matters of Vital Local Interest.

The idea of the brotherhood of man is no idle, vacuous dream, and this idea of brotherhood is coming about, not through the preaching of ethics or morality, but it is coming about as a matter of self-preservation.

The strength of unity is indisputable. Few things do more to retard the natural progress of a business or of a movement than a lack of co-operation.

The energy expended on a "tug-of-war" is not constructive. It is like one man pumping water out of a basin while another pumps it back.

There are two chief reasons for lack of co-operation; one is that men do not agree on what is best to be done. The other is that selfish motives deceive men into thinking that they can get more by going alone.

The remedy for the first is comparison of views, exchange of ideas, and the establishment of the right idea in the minds of all. The remedy for the second is the knowledge that the common good is also the real good of the individual. Selfishness is often but another name for ignorance. If a man desires to obtain the most good for himself he should know that his legitimate share of a great common good is greater than any possible good he could obtain for himself, alone. The narrow-minded mind fishes with a hook and thinks to have the whole catch for himself. The broad-minded fellow joins with others in using a seine, and his portion of the returns exceeds by far what he might get with the hook.

Co-operation is greater than competition, and we should constantly bear in mind the great fundamental laws of the universe—the laws of interdependence. There is not a thing in the world which is not dependent upon some other favorable thing or condition. We all need each other and therefore should co-operate with each other. He who loses sight of this important law is bound to become worthless timber in the life of the world.

There are bigger markets than the world ever offered and there are bigger profits for the man who can eliminate the grouch, get rid of his grab instincts and regulate his gobble and guzzle.

Summerland is rapidly discarding the hook and adopting the seine. She is manifesting the sanity of her citizens in getting away from suicidal individualism and adopting the greater and broader plan of co-operation.

Provisional President Huerta of Mexico.

This picture shows Provisional President Huerta of Mexico during his campaign with the Madero forces against President Diaz. As head of the revolutionary army Huerta was the chief factor in the coup d'etat which drove Diaz into exile, placed Madero at the head of the Mexican Government, but finally resulted in himself reaching the executive office by turning on Madero.

Penticton Post Office Robbed

Loss Of Six Thousand Dollars.

The police are scouring the country for the thieves who in the dark hours of Wednesday night entered Penticton Post Office, blew up the safe, and decamped with its contents, leaving no visible trace by which they can be identified.

The loss is \$6000, for a money package, destined for the Bank of Commerce, consisting of \$5000 has been stolen, as well as about \$1000 in post office funds.

All was secure when the staff left the office on Wednesday night, but when the assistant, Mr. Fowtroll, entered the building at nine yesterday morning he found the office wrecked, the safe blown up and its contents vanished.

The alarm was at once given, and the police are keen on the track of the robbers.

The safe of the Penticton Steam Laundry was blown up on the same night, presumably by the same band of desperadoes, but there was fortunately not much cash in it at the time.

NEW RURAL MAIL BOXES.

The Post Office Department of Canada have sent out from Ottawa circulars containing information regarding a new rural mail box, which is being put into use by the government. It has many advantages over the older patterns. The new box is the result of the installation of the parcel post system in Canada and provides for enough room to receive both parcels and letters. Owing to the fact that many have already purchased the old boxes, they will be allowed a very reasonable rebate on returning them. The new boxes will thus cost them only a small sum.

Canada's New Governor-General.

Prince Alexander of Teck, a brother to Queen Mary, is to succeed the Duke of Connaught as Governor-General of Canada. The appointment was officially announced in London last week. Prince Alexander will be forty years of age next month, and his appointment to Rideau Hall is extremely popular. He has a distinguished record as a soldier and administrator.

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c. per column line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 15, 1914.

CARLOAD SHIPMENTS BY EXPRESS.

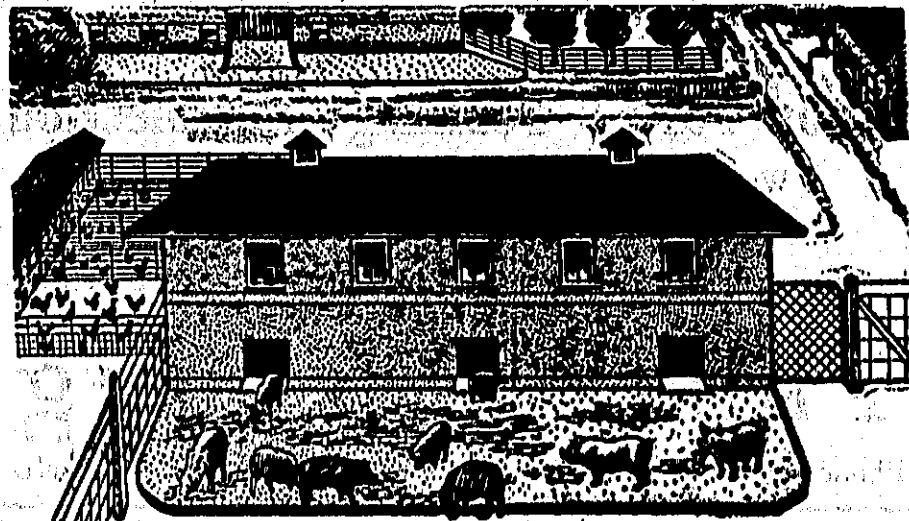

ON THE AUTHORITY of Mr. J. Forsyth Smith, B.C. Markets Commissioner in the prairie provinces, it is probable that the Dominion Express Company will this season have in operation a special carload rate for soft fruits. This has long been the need of the south Okanagan peach grower. As an aid to putting tree-ripened fruit upon the prairie markets its value can scarcely be over-estimated. The B.C. Fruit Growers' Association and the Express Company have been in conference over this matter for some time, and though no official announcement has yet been made from either body, the Market Commissioner may be presumed to have the best of knowledge to make the statement.

He predicts that the carload rate from the Okanagan to Calgary will be \$1.50 per hundred pounds. The less than carload rate in force last year was \$2, and such a reduction would go far toward the salvation of the soft fruit grower from the precarious position into which his business has placed him.

Announcement was made last year that the B.C. grower was put on an equal competitive basis with the grower across the boundary by the reduction in express rates which were made then. The new carload tariff now under advisement does more. In carload lots it will cost 30 cents to lay down a box of Summerland peaches in the Alberta city. The Washington grower has a freight charge of 20 cents to pay, and an import duty of equal amount, which make his transportation charges 10 cents per box more than the Okanagan grower will have to pay. This alone will do much to offset the advantage which the American peach has from its earlier appearance on the market, but apart from this the Okanagan product must score on flavor and quality, since it will now be possible to ship luscious tree-ripened fruit in large enough quantities to spread abroad a reputation. The express charge on peaches from across the line is prohibitive, not allowing growers to ship profitably. They must continue, therefore, to ship box-ripened fruit largely by freight. Thus it seems reasonable to hope that this summer the Okanagan peach will come more into the possession of its own logical market in the Canadian north-west.

"Pro rata" reductions are expected for other large centres. Strong efforts are being made to induce a more regular outflow of Okanagan fruit to the Coast, both by the Selling Agency and consignees there, and here again a carload express rate would give a great fillip. Definite and official announcement, which it is promised will soon be made, will be awaited with great interest.

With regard to freight rates, the only logical complaint is the fact that steady progress is being made by our American competitors towards equalization of rate to the various centres, in spite of the fact that we are several hundred miles nearer to the market.

Concrete Hog Houses and Feeding Floors

Enable you to raise bigger hogs and better pork without heavier feeding. A concrete feeding floor permits the animals to clean up all the feed without waste, and eliminates the possibility of your hogs contracting disease. To you they mean bigger profits.

Hog houses of concrete are sanitary, easily cleaned, maintain an even temperature and give plenty of light and air, which tend to better the quality of pork. Concrete will not rot or set. Never needs repairs or painting. It will outwear any other material for farm structures. Write for this beautifully illustrated free book "What the Farmer Can Do with Concrete." It shows how to build Hog Houses, Feeding Floors and many other things the farmer needs.

For more information business Canada Cement Company Limited 1200 McGill Building, Montreal

Apple rates to centres east of Moose Jaw are already equal, and last year there was a drop of twenty cents in the Yakima apple rate to Calgary, and ten cents in that to Edmonton.

THE LATEST FIGURES showing the tonnage of the merchant fleets of the principal maritime powers, prove that Great Britain still holds her commanding lead, with a tonnage nearly one-third greater than that of all the other maritime powers combined. Thus, according to Scientific American, Great Britain possesses 20,275,791 tons; Germany, 4,998,746; United States, 3,489,736 tons, the greater part of which is domestic shipping; Norway, 2,475,323 tons; France, 2,246,504 tons; Japan, 1,700,062 tons; and Italy, 1,571,761 tons.

ST. STEPHEN'S CHURCH.

It is with regret and sorrow that the congregation of St. Stephen's have heard that the Rev. D. E. D. Robertson has been offered and has accepted another charge in B.C. As priest-in-charge during the past twelve months, the Rev. Robertson has endeared himself to every member of his parish, and his splendid work for the Church of St. Stephen's will long be remembered in Summerland. The loss of Mr. and Mrs. Robertson to the social life of our community will be a very heavy one, and their departure will leave a blank that will not easily be filled. Mr. Robertson will be going at an early date in June, but Mrs. Robertson is remaining until she is a little stronger.

We are very glad to be able to say that Mrs. Robertson is slowly recovering from her recent severe illness, and is making good progress every day.

The next and last social evening of the series which has been so successful this spring, will be at the Campbell Hall on Tuesday evening next, May 19th. An interesting program has been arranged, and it is hoped that every member of the congregation will be able to attend.

The usual meeting of the W.A. was held at the home of Mrs. Nixon on Wednesday last, and tea was provided by Miss Cartwright. The members are very busy getting needlework orders finished before the closing in June of the sessions for the summer months.

People call it "putting up" at a hotel, because there is so much that they have to put up with.

A WELL MEANT CRITICISM AND ITS EFFECT.

Editor, Summerland Review.

Dear Sir: Since you have claimed the right of the press to criticize the performance given by St. Andrew's Ladies' Aid Society in Empire Hall, on May 6th, we claim the right to reply. As amateurs we were only aiming at giving a pleasant evening to our friends. Might it not be possible that twenty-five intelligent and representative women of this community have at least as much "good sense" and "good taste" as your reporter, and might we further suggest to your reporter that in small Canadian communities amateur performances are not taken seriously?

Signed by the members of the executive committee. Summerland, B.C., May 10, 1914.

Ed. Note.—The following is the paragraph in question:

"Several new 'quips and cranks' of local meaning have been added, and created much merriment. With diffidence, however, we beg the privilege of honest press criticism, and suggest that one or two personal 'local hits' were just a little too smart to be kindly or in the best possible taste. We venture to think that the originator of at least one purely personal hit could not have been in possession of some painful facts."

It will be clearly seen that our critics read more into the paragraph than was there. Any further comment is unnecessary.

Mr. E. Adams came in from the
Coast at the end of last week on a
visit to his parents, Mr. and Mrs.
S. H. Adams, of Garnett Valley.

Nearly half a million boxes, equal
to something like 26,500,000 lbs.,
of British Columbia apples were
marketed last season, according to
figures compiled by R. G. L. Clark,
Chief Inspector in British Columbia
for the Dominion Fruit Inspection
Department.

The Pacific Coast Nurserymen's
Association is to be entertained to
a convention by the British Colum-
bia Nurserymen's Association at the
headquarters of the organization of
this province in Vancouver, during
the third week in June. Guests
from all over the continent are ex-
pected, and no pains will be spared
to make the occasion a memorable
one.

The Sports Committee for Em-
pire Day would like to remind any
who intend taking part in the five-
a-side football game, to get their
entries in by Saturday, 23rd inst.
Those may be handed in to either
G. Fisher or G. F. Sinclair. The
Committee also insist that all hor-
ses and turnouts entering in com-
petitions shall be sole property of
exhibitor or driver, and must be
entered in owner's name.

Passing Events: Social, Personal, &c.

Mr. George Gartrell is, we hear,
on the sick list, and confined to the
house.

Mr. Race Dunrobin came in on
Tuesday night's boat and will be
visiting here for some time.

Miss Myrtle Clay returned at the
beginning of the of the week from a
stay of some days at Penticton.

Rattlesnakes are out for the sum-
mer. Frank Edgar killed two fine
young ones at Chute Creek on Sun-
day.

Rev. H. A. Solly who has been
paying a visit here has left for
Cranbrook and will return some
time in June.

Mr. and Mrs. W. F. Weaver
and family have removed to Winni-
peg, Manitoba, where their future
home is to be.

Mr. and Mrs. Bentley and son
who have arrived from Wetaskiwin,
Alberta, will reside permanently on
the Campbell property.

Mr. W. P. Secrest is busy re-
modelling his packing house, and
making considerable improvements
in his orchard this season.

A simply worded and sympath-
etic little letter of condolence was
sent by his classmates at the Cen-
tral school to Leonard Whitfield.

Mr. J. Avar Black left on his
return trip to Amherst, Nova Scot-
ia, on Tuesday morning, after a
stay in Summerland of about two
weeks.

Miss Jean McLeod went out on
this morning's boat to Vernon, and
will be the guest for a week of
Manager and Mrs. G. Dobie at that
town.

D. H. Watson, who is engaged
in valuation work on Indian lands
in the Valley and vicinity for the
Dominion Government, came in on
Tuesday night's boat.

Mrs. R. C. Lipsett left for Coast
points on Tuesday morning to at-
tend a meeting of the advisory
board of the Women's Institutes of
British Columbia.

We are sorry to learn of the in-
disposition of Mr. A. G. Simms,
who has been confined to his bed
for two or three days. He is now
somewhat better.

A rosy carpet has blossomed all
over the benches this week, for
the rock roses in all their frail
beauty have made their welcome
appearance in the space of a few
hours.

Mr. Travers Brewer, eldest son
of Mr. and Mrs. B. F. Brewer,
with his wife and child came in
from Bristol, New Brunswick, on
Wednesday night, and will make
his permanent home here.

A heavy fall of snow on Snow
Mountain has made that beautiful
eminence a splendid figure on the
blue range of hills behind us,
gleaming and glittering in the gol-
den sunshine of May under a cloud-
less sky.

Mr. R. B. Bredin, representing the
firm of Riddell, Stead, Hodges &
Winter, chartered accountants of
Vancouver, has been staying here
and busy auditing the books of
the Summerland Lumber Company.
Mr. Bredin went out to Vancou-
ver on Wednesday morning.

What is this really serious frac-
as upon the higher grounds of which
we hear? The vexed water question
has, we fear, permanently alienated
two excellent neighbors, both of
whom in a heated and active en-
counter—but enough said! Let us
hope after "satisfaction," honor-
ably given and taken, reconciliation
may ensue.

Furniture and household goods,
the property of Mr. P. G. Koop,
arrived on Monday night's boat.
Mr. Koop is one of the Coast par-
ties who recently acquired the Sum-
merland orchard interests of Mr. T.
J. Smith. He is expected shortly
to spend the summer looking after
the property, and will live in the
house recently vacated by H. Bris-
tow.

Two more McMaster graduates
who claim Okanagan College as
their alma mater, are E. H. Lock
and T. F. McWilliams, both of
whom have been awarded the degree
of Bachelor of Arts, with high
standing. Arthur Riley, a third
year student from Okanagan, also
did brilliantly, obtaining nine firsts
and one second. Three of his sub-
jects were extras. He also won the
Trotzler prize in Philosophy, award-
ed for the highest third year rank
in that subject.

The branch Inspectors visited the
local office of the Canadian Bank of
Commerce on Tuesday.

The Ladies' Auxiliary of the Hos-
pital will meet at Mrs. Angove's on
Tuesday, the 19th, at three o'clock.

The High School and Peachland
junior baseball teams will meet to-
morrow afternoon on the College
campus.

Miss Mae Conway, who has been
absent for a couple of weeks visit-
ing at the Coast, returned on Thurs-
day night's boat.

Presbyterian services will be held
in St. Andrew's Church next Sun-
day morning and evening. Rev. C.
H. Daly will conduct both services.

E. H. Lock came in from Tor-
onto on Monday evening. He spent
a few days here with friends and
went on to Kaledon on Thursday
morning.

Miss Helen Phinney and Miss
Myrtle Clay are recent additions to
the Telephone Company's staff.
Miss Myrtle Conway, we are in-
formed, is resigning her position.

Mr. and Mrs. W. Armstrong re-
turned on Monday evening with
their effects after a stay of a few
months in Kelowna. They are
again residing on their lot near the
Central School.

Rev. and Mrs. R. W. Lee are
at Kamloops attending the Method-
ist Conference there. Mr. Lee
preaches in the Baptist Church
there on Sunday, and returns home
about the middle of next week.

The regular classes at the College
closed on Tuesday and examina-
tions are now being held. A num-
ber of students who will take the
McGill exams, in June will pursue
their studies for some weeks fur-
ther.

That the yard sticks of the local
dry goods stores stretch to their full
length, and the grocers' pound con-
tains sixteen ounces was found by
J. W. Sutherland, Assistant Inspec-
tor of Weights and Measures dur-
ing a recent visit to the district.

A meeting of local baseball play-
ers is called for next Tuesday even-
ing at McWilliams' Pharmacy.
Summerland only needs organiza-
tion, as there is lots of baseball
material here, and with little prac-
tice could make a good showing.

The approach to the new wharf
built under contract by John Stev-
en has been completed and was in-
spected on Thursday afternoon by
Supt. Mitchell, and as soon as some
further cleaning up is done it will
be given the approval of the Super-
intendent.

The sub-contractors who have
the past week been working on the
stone foundation for the new hos-
pital, have nearly completed that
portion of their work, and Con-
tractor Tomlin will be able to
make a start on the superstructure
early next week.

But little of importance trans-
pired at the regular meeting of
the Municipal Council held yester-
day afternoon. The time was prac-
tically all taken up in a number of
appeals from the assessments made
by the assessor, the Council sitting
as a Court of Revision.

Jas. A. Darke and son are leaving
early next week with a car of
effects for the half-section farm
near Calgary which Mr. Darke re-
cently acquired by trading his or-
chard here. Mrs. Darke and the
remainder of the family will fol-
low a day or two later.

R. H. Holmer, now of Mr.
Thomas Cunningham's staff of in-
spectors, was about town early this
week. Mr. Holmer, since his ap-
pointment, has been inspecting the
orchards of Peachland, Westbank
and vicinity. He does not yet know
what the department's plans are for
his future, and until this is defini-
tely arranged his family will re-
main here.

John Marshall, a well-known stu-
dent of Okanagan College, received
the startling news by wire on Mon-
day that his brother Christopher
had met death in a drowning acci-
dent at the Coast. The telegram
did not give full particulars, and
Mr. Marshall left on Tuesday morn-
ing that his brother Christopher
Marshall was in the meat business
at West Summerland for some time,
it will be recalled, associated with
H. H. Elsey.

BIRTHS.

BORTON—On Saturday, May
9th, to Mr. and Mrs. C. N. Borton,
a son.

Mr. W. J. Robinson while assist-
ing in capturing a swarm of bees
last week received a sting that caus-
ed much suffering for several days,
necessitating medical attendance.
He is now again at his office.

A community is either what its
people make it or else what they
permit it to be. The community
that is content with being what it
is never gets very far along the
road to progress and prosperity.

OUR NARAMATA SECTION

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

The New Schoolhouse.

The fine new government schoolhouse which is to be erected on the two-acre lot at the corner of Robinson Avenue and Eighth Street, will not only be a well-equipped and modern building in every way but a very picturesque and imposing addition to the town.

Mr. B. C. Footner of Walthachin, who has secured the contract, will begin erection at once.

The building is to consist of two large class rooms, a large hall, two cloak rooms, and two recreation rooms, and will be of the best wood on a concrete basement, shingled sides, fireproofed and well supplied with windows, with cathedral glass lighting over the front door. There seems from a study of the specifications and plans to be nothing lacking for the comfort of teachers and children, from the hot air furnace to the porcelain drinking fountain. The body of the building will be light buff—with dark chocolate trimmings and red roof. It is understood that the schoolhouse will be ready for occupation at the opening of the autumn session in August.

The program for the Unity Club concert to be held under the direction of Mr. Fred Manchester on Thursday, May 28th, promises a musical treat. We have considerable musical talent in our town now, and there is nothing so conducive to sociality as the harmony which all enjoy.

Peachland Notes.

Mrs. Needham and Miss Florence were visitors to Kelowna on Monday, interviewing their dentist.

On Tuesday morning Stewart Lang, son of Mrs. E. Lang, left for Vancouver, where he intends joining a surveying company.

The baseball team plays in Summerland on May 25th. We would like to see as many as possible go down to encourage the boys.

The Handicraft Club met with Miss Irene Elliott on Thursday afternoon, and will meet at Miss Olive Ferguson's on Thursday, May 21st.

The ratepayers are asked to vote on three separate by-laws on Wednesday, May 20th, I. To raise \$2500 for purchasing a park; II. To raise \$1200 for road and bridge improvement; III. To raise \$1000 for extending the electric light system.

Mr. and Mrs. Jeffries of Edmonton spent a week in this vicinity, the guests of Mr. and Mrs. J. L. Elliott. The town and its environments so appealed to them that the desire to possess property here was too great to be resisted, and after making a selection, they returned to Edmonton to make arrangements for moving here.

The Women's Institute on Tuesday afternoon was one of the best meetings held here yet. In the absence of the president, Mrs. Vicary, Mrs. Dryden occupied the chair, and the meeting was opened by singing the "Maple Leaf." After the preliminary business had been transacted Mrs. Ferguson gave a very comprehensive paper on gardening, dealing with soil, fertilization, etc., especially rose culture. It was regretted that Mrs. Lang, who was to talk on garden pests, was not able to be present. Mrs. L. D. McColl gave recipes for various jellies, and Mrs. Murdin gave very clearly her methods of canning the different fruits. Mrs. Mitchell sang "I Know Not Why," and Miss Verna Town gave "A Little Pink Rosebud." The roll-call was answered by each one present giving a useful hint.

THREE THOUSAND CARS FOR VANCOUVER.

Mr. John McMillan, Clerk of the Vancouver City Market, who recently visited the Okanagan, has stated since his return to the Coast that three thousand cars of fruit and vegetables will be shipped from the Okanagan to Vancouver during the coming season. Last year Okanagan shipments to that city totalled only twelve hundred cars. Mr. McMillan expects to receive at the market one car a day. Of these probably two cars a week will be of tomatoes from a grower at Kelowna. This grower who had last year twenty acres of tobacco under canvas is planting the same acre to tomatoes.

Biggs: "I just got something to prevent my hair from coming out."
Diggs: "You don't say so! What is it?"
Biggs: "A divorce."

Current Events — OF — Town & District

Mr. G. S. Harmount spent two days in Kelowna on business this week.

Mrs. Carol Aikens is expecting Miss Janet Tupper, daughter of Sir Hibbert Tupper of Vancouver, to spend a few weeks here shortly.

Trips to the Tunnel have not yet ceased though the camp has broken up. Among recent visitors was Mr. J. Loudon, who rode up on Sunday.

This week's hostess for the Unity Club's series of Ten Cent Teas was Mrs. J. R. Wells, who provided a delightful afternoon for quite a number of ladies.

More preparations for the hot weather! Mr. R. C. Robinson is very busy fixing up his motor launch which will soon be out on the water for a long season.

Week-end visitors from Penticton to Mrs. Mitchell were Mr. and Mrs. Thompson, and Miss Stewart, who motored up with Miss Bessie Mitchell on Saturday afternoon.

Mr. Carol Aikens is leaving this week for New York where he will meet his mother and young sister who are returning from Paris. Mr. Aikens will be away about a fortnight.

A special baseball trip for the second match of Vernon versus Kelowna was made up the lake by the "Skookum" for the benefit of Summerland, Naramata and Penticton enthusiasts, and just the regulation number availed themselves of it.

Much to the regret of those who know him, the Rev. W. P. Bunt will at the end of this month, be severing his connection with Naramata. He will probably be going to Toronto for a while.

Penticton comes in for its share of visitors from our little town, but the day or week-end is usually the duration of stay! Mr and Mrs Burnett spent Monday there visiting friends.

Mr. Robert King and family, who have been at Penticton for the past year have returned to their pretty Naramata residence. Mr. King is very busy with his orchard, which is in good shape.

Mr. and Mrs. Morsch, who have been up on the benches for some time, have now moved into the Svea Hotel, which they had leased, and which will now become a private residence.

A neat little bathing house is being erected on the beach by young Russell Roe, and it is hoped that bathers from other points on the lake will, during the hot days, come and visit this cool little nook.

A brief two days' holiday has been taken by Mr. George Wolstencroft, who went up to Sicamous on Wednesday morning's boat to meet Mrs. Wolstencroft's sister, Mrs. Cunliffe, of Accrington, England, who is to pay a prolonged visit to the Okanagan.

Mr. B. C. Footner, of Walthachin, who has secured the contract for the new government schoolhouse has been spending a few days in town. Mrs. Footner and little daughter are now in residence at the Hotel Naramata, where Mr. Footner will join them shortly.

One of the most delightful of "beauty spots" up and down the lake at this time of year is Chute Creek, and a merry picnic party given by Mr. and Mrs. P. S. Roe went up on the "Skookum" on Sunday afternoon. The lovely falls there are just now at their best and very full, and the foaming spray amid the green can be seen easily from the Summerland side.

The baseball match of Saturday was one of the events of the week, for it had some of the elements of the unusual in it. It was billed as Juniors versus Penticton Boy Scouts, but when our little fellows turned out in the Ball Park, it was to meet adversaries some years their seniors, and many pounds their weight superiors. A fruitless struggle, and then explanations and readjustments. Two seniors were put into the Naramata team, and an interesting and well-fought game ensued. Victory was Penticton's by a fair score.

NARAMATA TELEPHONES.

A visit from the executive committee of the Summerland Telephone Company was paid to us this week. Dr. Andrew, Messrs. H. C. Mellor and S. M. Young spent some hours looking up subscribers and making arrangements for installation which will shortly be in order. In addition to the telephones in residences, there is to be a public pay station where a slot machine will be a great convenience to those not possessing the greater advantage of a private 'phone. Much interest is being taken here in the developments of the Company and residents are very keen indeed on this splendid improvement and addition to the town's advantages.

Mrs. Rounds spent a few hours in Summerland last Saturday.

Mr. Fred Roe made a business trip to Kaleden and the Falls last week-end.

Mr. Harold Mitchell of Kaleden has been on holiday here with his parents this week.

The "Trepanier" in a new and spotless coat of white paint and generally trimmed up is out on the water again.

Mr. and Mrs. Weitmann and children left for Vancouver on Monday. Mr. Weitmann has been the electrical engineer at Tunnel Camp, where work is now completed.

It is proposed to run a "church-goer's" ferry from Naramata to Summerland on Sunday evenings during the summer, leaving the Naramata wharf at 6.30. The return fare will be just a city "car fare" of ten cents.

What might well have been a fire of serious dimensions occurred in the Cash residence this week. Mrs. Cash, and her son, Mr. Bruce Cash are now out on their ranch, and the house in town is closed. Bruce Cash entering it to get some article required, accidentally dropped a lighted match, with the result of an instantaneous blaze. Mr. Cash spent a strenuous half hour extinguishing the flames; and considerable damage was done to the contents of the room.

WEDDING.

Richardson-Murphy.

A very quiet little wedding was celebrated at Mrs. F. J. Young's on Saturday evening, when Miss Winifred Murphy, of Manitoba, who has been the guest of Mrs. Young for the past fortnight, became the bride of Mr. A. B. Richardson, the popular school teacher. Rev. R. M. Thompson, of the Penticton Methodist Church, performed the simple ceremony to which no guests were bidden. Mr. Richardson was to have proceeded abroad as a missionary, and had handed in his resignation as teacher, but has recently been re-appointed as head of the new school building, and with his wife will now remain here.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tons of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting: Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Anemones, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

First Aviator To Fly Head Downward.

Since aviation became possible, aviators have been vying with each other in their flirtation with death. The main object has been to see how nearly they could approach death without actually embracing it. Some time ago the president of the "Safe and Sane Aviator's Society" took what he termed a night "joy ride" which proved fatal. Others have done the spiral, the loop-the-loop, the tango, and other sensational aerial

manoeuvres, some successfully and some unsuccessfully. The above photograph shows Charles F. Niles of New York, who, at Meadow Brook, Long Island, startled the spectators and achieved a new feat in aviation by flying for more than half a mile in a Moiesant monoplane head downward. Niles' daring deed had never before been accomplished, or ever attempted, by any aviator. He was strapped firmly to his seat, only his arms being free.

B.C. Fruit At Panama Exposition.

Carload of Bottled Fruit Will Be Sent From This Province.

Mr. A. W. Despard, of the Exhibition Branch of the Dominion Government, is now at the Coast arranging details of the preparations between the Federal and Provincial Governments for the Dominion Exhibition at the Panama Pacific Exposition at San Francisco next year. Mr. Despard brought to this province a carload of glass jars for specimens of every kind of fruit grown here. He will establish a workshop and storehouse at Vancouver, and, as each fruit comes into season, will make journeys in all directions to obtain it. He will preserve and bottle, not only the fruit itself, but branches of the trees and shrubs on which it grows, and in the case of strawberries, the whole plant. The process necessary to preserve the coloration not only of the fruit, but of the wood and the leaves, takes several weeks to accomplish, and an assistant will be lent to Mr. Despard by the Department of Agriculture to assist in the work.

The Dominion Government is building its own home at the exhibition, a building 420 feet long by 210 wide, with an average height in the main portion of 180 feet. The exhibit will include the products of every province, whether they are making separate exhibits or not.

An assistant will make a collection of photographs before going to San Francisco, and another official is already compiling a collection of minerals.

In addition to arranging for the Dominion exhibit, the Dominion officials will give every possible assistance to the Provincial Government in the preparation of any special exhibit they may be preparing, and the staff of officials on the spot at San Francisco will lay themselves out in every way to furnish all information possible to inquirers about any of the products and the provinces from which they come.

Alfalfa fills the hay mow and pays for the privilege.

Good Food
Makes
Healthy Children

Good food need not be dear food. Plain, healthy groceries that are one hundred per cent. pure—the only kind we find it worth while to sell—are of more value than all the fancy feeding schemes you hear so much about. Give your children the kind of groceries we keep. We love the kiddies and you may rest assured that a child may eat any food article in this store with every advantage to his health.

Good food makes healthy children. Let us show you what we have done to help along the pure food movement. Come in to-day and compare our prices and quality with any other store in this country.

Kaleden Comments

Miss Archina Preston is staying with her sister, Mrs. Baker, in Pentiction.

Mrs. A. S. Hatfield was in Pentiction for the day the end of last week.

Mr. Ingram, a surveyor of roads, has been staying for some days with Mrs. O. E. Tomlin.

Mr. and Mrs. Tunbridge of Pentiction were down from Pentiction this week to spend the day.

Mr. George Fraser and party were down from Pentiction on Wednesday to see Mr. T. C. Preston.

The regular meeting of the Women's Mission Circle was held in the Baptist Church on the afternoon of the 6th, when the members joined in further study of "China's New Day."

Mr. L. W. Shatford, M.L.A., made the trip in the "Mallard" through the river from Pentiction during last week, afterwards taking supper with Mr. and Mrs. A. S. Hatfield.

It has been arranged to hold an Anglican service every alternate week through the summer months. The service will be held on Sunday mornings at 11 a.m., in the Baptist Church, and will be in charge of Mr. Hughes, a student from St. Mark's Hall, Vancouver, who is residing with Mr. Green at Horn Lake, and who will have charge also of services at Okanagan Falls, Marron Lake, and other places.

B.C. INTERIOR LEAGUE.

The baseball teams of Kelowna, Vernon, Kamloops and Revelstoke are included in an organization known as the B.C. Interior League. At the annual meeting held recently at Stenopus, the election of officers resulted as follows: Dr. K. C. McDonald, Vernon, President; Dr. A. Huycke, Kelowna, Vice-President; T. W. Bradshaw, Revelstoke, Secretary-Treasurer. At the same meeting a schedule was prepared providing for twelve games at each of the four towns mentioned above. The first games of the series were on May 6th at Kamloops, when Revelstoke played against that town, and at Vernon where the local team was matched against Kelowna. On May 7th, another league game, Vernon versus Kelowna, was played on the home grounds of the latter. Yesterday, May 14th, Revelstoke played Kelowna at the orchard city. The next league game to be played in the Valley will be at Vernon, on May 20th, Vernon versus Revelstoke.

SYNOPSIS OF COAL MINING
REGULATIONS.

COAL MINING RIGHTS of the
Dominion, in Manitoba, Saskat-
chewan, and Alberta, the Yukon
Territory, the North-West Terri-
tories, and in a portion of the Pro-
vince of British Columbia, may be
leased for a term of twenty-one
years at an annual rental of \$1 per
acre. Not more than 2,560 acres
will be leased to one applicant.
Application for a lease must be
made by the applicant in person to
the Agent or Sub-Agent of the dis-
trict in which the rights applied
for are situated.

In surveyed territory the land
must be described by sections, or
legal sub-divisions of sections, and
in unsurveyed territory the tract
applied for shall be staked out by
the applicant himself.

Each application must be accom-
panied by a fee of \$5, which will
be refunded if the rights applied
for are not available, but not other-
wise. A royalty shall be paid on
the merchantable output of the
mine at the rate of five cents per
ton.

The person operating the mine
shall furnish the Agent with sworn
returns accounting for the full
quantity of merchantable coal
mined and pay the royalty thereon.
If the coal mining rights are not
being operated, such returns should
be furnished at least once a year.
The lease will include the coal min-
ing rights only, but the lessee may
be permitted to purchase whatever
available surface rights may be
considered necessary for the work-
ing of the mine at the rate of \$10
an acre. For full information ap-
plication should be made to the
Secretary of the Department of the
Interior, Ottawa, or to any Agent
or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this ad-
vertisement will not be paid for.

Importation Laws Will Be
Enforced.

Fruit Inspector Will Carry Out To
Letter Regulations Governing
Importations Into B.C.

Several important regulations
drawn up by the government gov-
erning importations into British
Columbia will be strictly enforced
by the Fruit Inspection Department
of which Mr. Thomas Cunningham
is the chief.

After May 15 no more fruit trees
or bushes, ornamental trees or
shrubs, will be allowed to enter
British Columbia until October 1.
This closed season, established by
the Dominion Department of Agri-
culture, commences May 1, and the
fifteen days grace have been allowed
to enable stock which arrived at
distant points in Canada before
May 1 to reach its destination.
This does not include soft, herba-
ceous plants, bulbs and tubers,
which will be inspected in Vancou-
ver or Victoria on the premises of
the transportation company con-
veying them.

In consequence of quarantine hav-
ing been established by a Dominion
Order-in-Council against the impor-
tation of potatoes grown in Califor-
nia, where the potato tuber moth is
found to be so widely distributed
as to constitute a real danger to
British Columbia, all shipments of
potatoes coming from south of the
international boundary must be ac-
companied by an affidavit, stating
the precise locality where such po-
tatoes have been grown, the names
of the shippers and consignees, the
date of shipment and number of
packages. Unless these details are
complied with, a certificate of in-
spection will not be issued, and
without such certificate the customs
authorities will not accept entry.
These precautions are not taken
with the view to embarrass trade
in any way, but purely in the in-
terest of protecting this province
from a very destructive pest which
threatens the potato-growing indus-
try of neighboring states. The co-
operation of shippers, consignees,
and carrying companies in the en-
forcement of these regulations is
requested.

Notice is given that all cars ar-
riving in British Columbia, con-
taining either deciduous or citrus
fruit, or other vegetation, if found
to be infected with the larvae of
the codling moth, either in the
cocoon or pupal stages, will be
immediately closed, sealed, and
ordered out of the province, whe-
ther the fruit contained therein
may show infection or not.

A change in the Ontario license
law introduced in the Legislature
by Mr. Hanna adds Good Friday to
the days on which liquor may not
be sold in Ontario. One of the
other important changes is that
giving a magistrate power to put
any person on the "Indian list"
who sells liquor to or procures it
for any person already on the list.
The law requires a person found
under the influence of liquor in a
local option district to tell from
whom he secured the liquor, under
a penalty of \$50 fine for refusing.
This provision is to be extended
so as to embrace all places where
no tavern or shop licenses are
issued, and the person who is found
under the influence of liquor in
those places will be subject to the
same penalties as if it was a local
option district.

Mr. F. D. COOPER,

Peach Orchard, Summerland

Instructions Upon
The Feeding of
Young Chicks.

The following suggestions given
by the Poultry Division, of the
Ottawa Experimental farm are
worth saving.

Do not feed too soon. When the
chick is hatched it has a sufficient
supply of nourishment in the yolk
of the egg to last it for several
days. What the chick requires for
the first few days is not feed but
warmth and rest.

A little sand or grit first: when
the chicks are removed to their
brooding quarters there should be
some coarse sand or fine chick grit
scattered where they can have free
access to it. They should then be
left until they show positive signs
of hunger which would be between
the second and third day after
hatching. They may then be given
some bread crumbs that have been
very slightly moistened with milk.
This may be scattered on clean
sand or chick grit. If being brood-
ed by a hen she will see that no
food is allowed to lie around, but
if in a brooder that part of the food
that the chicks do not pick up in
a few minutes should be removed,
as nothing in feeding causes so
much trouble as leaving food of that
nature around until it is sour.

Feed for the first 10 or 12 days:
The following daily ration of five
feeds given about two and a half
hours apart and continued from
the time the chicks are two to
three days out of the shell until 10
or 12 days of age, may be altered
or adopted to suit conditions:

First feed: Dry bread crumbs,
slightly moistened with milk.

Second feed: Finely cracked
mixed grains or commercial chick
feed.

Third feed: Rolled oats.

Fourth feed: Dry bread crumbs,
moistened with milk.

Fifth feed: Finely cracked mixed
grain.

In addition to the above give the
chicks daily a little green food
such as grass, lettuce, sprouted
oats, etc. Do not have the moist-
ened bread sloppy but in a crumbly
state, and during this period
let the chicks on to fresh soil or
grass every day if possible.

Feed after 10 or 12 days: after
the chicks are ten days to two
weeks old, coarser food may be
allowed. The infertile eggs may
be boiled and mixed with the mash
food, and the bread and milk dis-
continued. Hoppers in which are
put cracked grains and dry mash
or rolled oats may be placed where
the chicks can have free access to
them. As soon as they become ac-
customed to the hoppers, all hand
feeding except the mash may be
discontinued. If the chicks are
on range it will be found that
after a time they will get care-
less about coming when called, at
which time the mash may be
dropped and dependence placed
entirely on the hopper feeding.

Place grit and water, also a
dish of sour milk if possible where
the chicks will have free access to
them. Nothing provides animal
food in better form than does
milk, the chicks like it and
thrive on it.

It Pays To Advertise.

When the dimpled baby's hungry,
what does the baby do?
It doesn't lie serenely and merely
sweetly coo;
The hungry baby bellows with all
its little might
Till someone gives it something to
curb its appetite.
The infant with the bottle which
stills its fretful cries
A lesson plainly teaches: It pays to
advertise.
The lamb lost on the hillside when
darkness closes round
Stands not in silence trembling and
waiting to be found;
Its plaintive bleating echoes across
the vales and meads
Until the shepherd hears it, and
hearing, kindly hoeds,
And when its fens are ended, as on
its breast it lies,
The lamb has made this patent: It
pays to advertise.
The fair and gentle maiden who
loves the bashful boy,
Assumes when in his presence a
manner that is coy;
She blushes and she trembles till
he perceives at last,
And clasps her closely to him and
gladly holds her fast,
And as he bends to kiss her and as
she serenely sighs,
This fact is demonstrated: It pays
to advertise. —Exchange.

Baseball is as old as the world,
as is proven by the first line in
Genesis: "In the big inning," etc.

Exhaustive Resume of North-West Market Conditions

Commissioner Points Out B.C.'s Problems in facing American Competition.

The annual report submitted to Hon. Price Ellison, Minister of Agriculture for the province, by Mr. J. Forsyth Smith, Markets Commissioner, covering the season of 1913, has recently been published and distributed. It is a veritable mine of marketing information, not a superficial office-chair report, but first-hand knowledge gleaned by personal investigation from growers, shippers, wholesalers, jobbers, retailers, and consumers. The scope of the report is the whole fruit and vegetable industry of the province.

SMALL FRUITS.

Referring to small fruit production, a greater output of strawberries and raspberries is urged, the demand far exceeding the supply, in spite of heavy American shipments that reach the Canadian market encumbered with heavy express and duty charges. The Markets Commissioner emphasizes, however, that with the supply there must be assured sufficiency and dependability to the retailer, as well as some organized methods of passing upon and holding back for cannery or local consumption such berries as are not in condition to stand shipment. He goes on to say:

"I would urge more strongly British Columbia berry-growers to consider seriously the question of immediate action in the direction of organizing for production in car-load lots. Small express shipments without refrigeration cannot possibly reach the market in condition to meet the competition of car-load berries coming in under ice. The market for strawberries is unlimited, and that for raspberries, though not so promising, would undoubtedly expand to meet any ordinary supply that was reliable and regular. With the benefit of 48 cents a box duty and the reduced express rates for car-load lots we should have an assured demand, and an advantage of close to \$1 per case over competitors to Alberta points, 60 to 75 cents per case to Saskatchewan, and at least 50 cents per case to Winnipeg. With such advantages and the assurance of being able to lay our berries down in good condition, sales to jobbers at satisfactory prices, f.o.b. point of shipment would replace the present more or less unsatisfactory system of selling to the retailer, and British Columbia berries would drive competition from the field as fast as the needs of the territory could be supplied."

PEACH PROSPECTS.

Mr. Smith's views on peach growing echo what Manager R. Robertson of the Okanagan United Growers has said: that it would seem, with the intensity of the season as a handicap, and a higher cost of production partly counteracting freight and duty advantages, there is no escape from the conviction that peach growing on a large scale will never be satisfactory from a commercial standpoint in this province unless the present outlook for the peach industry produces very considerable reductions in Western American production. The Washington peach business does not rest on a foundation any more secure than in the Okanagan, however, it is certain. "American quotations to Canadian centres fall as low as 25 cents a box so that British Columbia f.o.b. prices of 45 to 50 cents, and higher, must therefore be considered as quite satisfactory under the circumstances. Recent pools announced by a Yakima organization of thousands of peaches sold in early September returned f.o.b. shipping point, 25 to 27 cents on Elbertas, and 20 to 30 cents f.o.b. on Crawfordas, while a Wenatchee shipper has just returned to the grower 15 to 20 cents for peaches sold about the same time, refusing

SUMMERLAND BASEBALL CLUB.

At an enthusiastic meeting held on Tuesday night the Summerland Baseball Club came into existence. Practice commenced on Wednesday night and the team showed excellent form, and there is promise of some fine encounters with competitors up and down the Valley this season.

The election of officers resulted as follows:

Hon. President, Adam Stark.
President, George Gartrell.
Vice-President, Dr. Andrew.
Sec.-Treasurer, Cliff McWilliams.
Captain, A. H. Clouston.

to take any handling commission on account of the low prices. The best authorities on the other side of the line agree that it is impossible to place a box of peaches on the cars for less than 20 cents, and many say 25 and even 30 cents.

"Peaches that have either white flesh or clingstone are as a rule unpopular among the trade, but yet the earliest and best flavored varieties of these bring in the most satisfactory returns. I am inclined to think that the solution of the difficulty is to sell the best and earliest peaches including the Triumph, as dessert fruit, shipping out by express and aiding sales by judicious advertising. With a probable 10 cent transportation advantage, and a decided superiority in flavor and ripeness there should be no difficulty in disposing of our output at good prices."

THE APPLE MARKET.

The principal feature of the apple situation on the prairies appears to be the competition of the American grade C apple, which is very largely used, not only in supplying the country trade but also much of that at the big centres. The prairie market, according to Mr. Smith, is most indiscriminating to the finer points of pack, quality and grade. It wants good, sound, well-flavored fruit at fair prices, but is unwilling to pay for frills and super excellence. As a result, the lower grade American apples is constantly hammering down the prices for B.C. No. 1. The American C grade apple is very far from being a definite quantity. In most grading rules it is merely defined as the residuum of merchantable apples after the higher grades have been taken out, and it is thus susceptible of wide variations.

Here is the Commissioner's remedy for this unfortunate condition:

"The logic of the facts points clearly to a policy of grading up our No. 2's, so that we may have a large proportion of sound, reliable, medium-grade apples to offset grade C competition, and supply 85 per cent. of the prairie demand; while, on the other hand, also raising the standard of our No. 1's, so that, for the remaining 15 per cent. of the north-west demand and for export purposes, we may have an apple fully the equal of the highest grade fruit offered in competition with it.

"I believe, also, that the policy of seeking out wider markets for our highest grade of apples should be continued and extended. Our Washington competitors are keeping this necessity in mind, even though they are so far favored by circumstances that they have a large home market for strictly fancy fruit.

"I would also urge greater activity in the direction of eliminating undesirable varieties. Last season, cases came to my notice of crabs loaded with as many as thirty-three different varieties, the majority, of course, unknown to the trade and undesirable. There can be but little profit to the owner of such fruit, even now, and the prospects for the future, when greatly increased quantities of commercial varieties are produced, are naturally even darker. Surely the simplest solution of the matter is the best and most economical in the long run—viz., the immediate roping of these nondescript varieties with others of commercial importance. From a commercial standpoint, I would emphasize that British Columbia's great need is for an increased production of the long-keeping winter apples."

Be sure and read the want ads. They are interesting and profitable.

A Big List of Prizes

\$150 in Cash and Prizes to be Distributed Among Winners At Empire Day Sports.

Full Day's Program of Interesting Events.

Final arrangements for the big field day on the College Campus were made at last Monday's meeting of the sports committee.

A valuable prize list has been assured through the generosity of our merchants. An equally liberal response on the part of a number of citizens has made it possible to procure the services of a band which will be in attendance during the whole day and evening. The prizes will range from \$25 down. A special first prize of \$25 cash has been donated for the heavy team parade event. Second and third will be likewise in cash. Prizes for all children's races will be in cash.

The first event will be pulled off promptly at 10 a.m., and the day's program will be carried through to the end without interval. The committee urge upon all to be ready in good time for the events in which they are entering, as there will be positively no waiting.

To many, the various horse events will be the principal items of the program, and it is proposed to make this the beginning of an annual Summerland Horse Show. This has been decided upon as preferable to track racing. The judges for the horse events are Dr. R. C. Lipsett, Mr. E. B. May and Dr. Paskett, of Penticton. Dr. Lipsett has also consented to act as official starter.

A full list of the events and prizes will be found in the committee's ad. on page 8.

A perusal of the program will show that a good day's sport is assured for all. The excellent music that will be provided by the Penticton band will be a great addition to the day's attractions. It will not be necessary to leave the field for lunch, as the inner man will be provided for by the Ladies' Hospital Auxiliary, who have the catering arrangements well in hand. Hot lunches, as well as sandwiches, ice cream and soft drinks will be available.

Let us again urge upon all the necessity of punctuality, otherwise the pleasure of the day will be marred.

The committee has asked the Review to extend their gratitude to the merchants and private citizens who have so generously assisted in the band fund and prize list. They feel that without this liberal support success would have been impossible.

The Boy Scouts.

A very full attendance of the troop on Friday testified to the interest our Scouts are taking in Empire Day preparations. With the exception of three, all answered the roll call and lined up smartly to greet Dr. Andrew, who came to give an address on "First Aid."

Dr. Andrew's talk was crisp and full of valuable knowledge, and he took his youthful hearers carefully through a most useful first course. The boys, under his instruction, practised on one another with bandaging, etc., and thoroughly enjoyed their lesson.

The bugle band is practising for a Boy Scout Concert which will be held in June, and the program promises to be very interesting. Tickets will be sold in aid of the fund for the Fourth Annual Camp, which will be arranged for July, and it is hoped that plenty of support of the lads' efforts will be forthcoming.

Rushing Construction.

That the K.V.R. line from Midway, the eastern end, to Osprey Lake will be completed in July is confidently expected. Now that the bore through the big tunnel has been made work trains are again busy on the east side of the lake. Less than twenty-five miles of steel remain to be laid on the eastern summit. The road between Midway and Osprey Lake, except for ballasting, is with the exception of this twenty-five miles, practically complete. A press dispatch from Montreal, under date of May 16, says that "Mr. David McNicholl, Vice-President of the C.P.R., left this afternoon for Kettle Valley railway construction to meet President Warren of the Kettle Valley road with a view to rushing construction on the line."

KELOWNA'S TAX RATE.

Kelowna will this year have a taxation of 24 mills. This will be on land values only, and is apportioned as follows:—general rate, 7 mills; school rate, 6 mills; debenture rate, 11 mills.

COLLEGE COMMENCEMENT EXERCISES.

The College year closes this week-end, and conforming to the practice of previous years, a public gathering and special Sunday service will be held to mark the occasion.

To-morrow evening, Saturday, the Board of Management, the Faculty and students will receive the friends of the College in the Gymnasium from 8 till 11. During the course of the evening diploma earned by the students in the different courses will be awarded, and announcements concerning the past year's work will be made by the Principal and others. A short program of music has also been arranged. A cordial invitation is extended to all interested.

On Sunday morning at 10.30 at the Parkdale Baptist Church the annual College Commencement service will be held. Vice-Principal S. Everton will conduct the service and his sermon subject will be "Inspiration for Commencement Days." Special music will be a feature of this large service.

The customary morning session of the Lakeside Sunday School has been withdrawn to allow as many as possible who usually attend, to be at the special College service in the Parkdale Church.

BAPTIST ANNIVERSARY SERVICE.

An unusual interest attaches to the evening service on Sunday next at the Lakeside Baptist Church. The occasion is the third anniversary of the opening of the church building. A special service will commemorate this which Rev. S. Everton, of the College will conduct. His theme is to be, "Prospect and Retrospect." Sacred solos will be rendered, lending an added impressiveness to the evening's worship. Everyone will be welcome.

Not more than one out of forty ladies can write a dainty looking visiting card. You may be that fortunate one; otherwise you had better make use of the services of the local printing office, where satisfaction is guaranteed.

STEAMER 'SICAMOUS' LAUNCHED

Interesting Event Witnessed by C.P.R. Officials and Many Valley Residents.

The new C.P.R. "Sicamous" was successfully launched at Okanagan Landing at two o'clock on Tuesday afternoon. There were present a large number of interested spectators, together with a goodly number of C.P.R. officials. Autos were very much in evidence about the yard, many people coming from distant points in the Valley to see the fine new ship take the water at 2 p.m. Including the officials some 150 to 200 people were on board at the launching, and the ship was duly christened by Mrs. Corbett of Vernon, daughter of Capt. Gore, Supt. of Lake and River Service.

The "Sicamous" is said to be the finest as well as the best appointed in the inland lake service. She is over 200 feet long, with a beam of 40 feet, and a draught of 8 feet. She makes the seventh steamer of the C.P.R. service on the lake.

It will be probably nearly a month before the new boat is running as she has yet to receive her furnishings, but it is likely that a trial trip will be made within a few days. Immediately the new steamer enters into commission the "Okanagan" will be pulled out and given a thorough overhauling. One of the features of the new craft are the cold rooms which are fitted up specially for the handling of meats and other perishable freight.

Local Market.

There is not much variety yet offering in the way of local produce, the only new feature this week being gooseberries. Perhaps it is because of the advice handed out to members at the Poultry Association meeting, at any rate, there is a slackening up of the egg supply that has been pouring into the local stores. At least one grocery man is now paying 30 cents.

Following are retail prices:

Apples, per pound	5c.
Asparagus, 3 bunches	25c.
Butter, 36c.	to 40c.
Eggs, 25c.	to 30c.
Gooseberries, 3 lbs.	25c.
Onion, green, bunch	5c.
Onions, dry, per lb.	5c.
Potatoes, per lb.	2c.
Rhubarb, 6 lbs.	25c.

HORSE DISAPPEARS.

Through the carelessness of a Sliwash in leaving open a gate, D. L. Sutherland is the loser of a mare for which he has refused \$275. Mr. Sutherland had this mare and a three year old in a pasture at Pierre's, and immediately they were missed search was instituted. The younger animal was found on the reserve opposite Penticton, but though enquiry has been made at various points, no trace of the gray pacer mare has been found. It is presumed that she headed directly south taking the young mare that far with her, she having been imported from across the line about a year ago.

CARDS OF THANKS.

Mr. Frank Whitfield, for himself and son, Leonard, desires to thank all those who showed their friendship by sympathy and thoughtful help in their recent bereavement.

Mr. and Mrs. T. P. Thornber extend sincerest thanks to the friends and neighbors who so readily showed their sympathy by kindness and helpfulness in their recent bereavement.

Ex-Roove Thomson Sells Home and Orchard.

The ten acre orchard property on which Ex-Roove Thomson and family have resided for a number of years has been purchased by Mr. Barnes who arrived here recently from England. Mr. Barnes is taking possession on June 8th. The sale was made by Mr. F.D. Cooper. The price has not been made known. Mr. Thomson's plans are yet uncertain. It is not improbable however that he may leave for Australia earlier than first planned.

Thru Fruit Trains, Okanagan To Calgary.

Quick Handling Of Fruit with Improved Lake and Rail Service Practically Assured.

That there are to be some very radical changes in the Okanagan Lake service seems a certainty. For some time C.P.R. officials have been giving much attention to the Okanagan traffic with the particular view to facilitating the handling of the fruit crop.

On Tuesday of this week General Supt. F. W. Peters of Vancouver, District Supt. J. M. McKay of Revelstoke, and Capt. J. C. Gore, Supt. of Lake and River Service, Nelson, visited the Valley, making the trip to the lower end of the lake and returning on Wednesday. They were accompanied by Mr. Robertson of the United Growers. Local Agent G. M. Ross and the Kelowna Agent were invited to join the party at the Landing and spent the day with these officials, and the local situation was thoroughly discussed.

The Review was informed upon inquiry that no definite plans had been decided on but it seems a certainty that there will be a marked change in the service resulting in much quicker handling and delivery to prairie points of carload shipments of fruit. Daily fruit trains for Calgary is, we would glean, to be one of the features of the service. A change in time of departure of the car-barges from here seems probable, as, to make the through connection without loss of time, barges should be leaving here in the late afternoon or early evening. This will mean that the fruit will be on the lake during the night only, and not until noon or after as last season.

The traffic situation was discussed at a meeting of the United Growers yesterday at Vernon, and an early announcement of the summer schedule is anticipated.

C.P.R. To Have Telegraph Office Here.

Report That Government Line Will Be Taken Over.

Summerland is soon to have a C.P.R. telegraph office. At least this is the natural conclusion to be drawn from information gleaned by the Review. When asked if he could confirm this report C.P.R. Agent Ross said that he had no direct knowledge of it.

One story, which there is no reason to doubt, is that the deal has already been consummated, and the C.P.R. at an early date will take over the government telegraph line. This, it is understood, in no way affects the government telephone service, which will be continued as heretofore.

The acquisition of the government telegraph line by the C.P.R., and the resulting extension of that company's telegraph system to southern Okanagan points will result greatly to the advantage of the Inko towns, putting these points in direct touch with the C.P.R. system to which practically all messages are now transferred. Time should also be gained by the saving of a relay at Vernon.

New Express Tariff

Reduction On Less Than Carload Lots To Alberta Points.

Confirmation of the anticipated reduction in express shipments to Alberta points other than Calgary have been received by Dominion Express Agent Ross, who has been furnished with the new express tariff covering the period between May 30th and December 1st. This period is an extension of about 40 days over last year. To practically all the principal points in Alberta the less than carload rate will be \$2.10 as against \$2.25 and \$2.40 last year. The rate to Calgary remains the same, \$2 per hundred pounds.

BARGAIN-HUNTERS

In this community are hundreds of individuals and families on the watch for an advertisement that will offer them what they want at an advantageous price.

Call them bargain-hunters if you will, but there is nothing wrong in waiting for a bargain, especially when the seller is anxious to sell at a reduced price.

One family wants a new carpet—the need is not urgent. Another family is looking forward to buying a set of dining-room furniture—it may not be for a twelve month.

One man is thinking of buying himself a watch.

One woman a shopping bag; another an umbrella.

All can be made to buy earlier—by advertising.

A NOTE TO MERCHANTS.

Stimulate business by the offer of some slow-moving lines at special prices. Brighten up business by advertising some desirable goods at reduced prices. Make advertising banish dull business. Often you can tempt the buyer who is biding his or her time, to buy from you—at a time of your naming.

Kaleden Comments

Mrs. T. C. Preston and her daughter, Miss Archina, are staying with Mrs. Baker in Penticton.

Mr. and Mrs. John Parks, of Penticton, with their two children, spent last Sunday with Mr. and Mrs. O. E. Tomlin.

Mr. H. W. Corbett made a business trip to Summerland last week, and speaks very favorably of the prospects and advance so much in evidence.

Mr. A. S. Anstey, Inspector of Schools, paid a visit to the public school last Wednesday, and spoke very favorably of the work of Mr. J. F. Tupper during the present term.

Mr. Morley Scott, a son of Mr. S. D. Scott, editor of the News-Advertiser, Vancouver, arrived last Wednesday evening, and will spend the summer working on the lots here.

Mr. and Mrs. Frank Fraser, of Penticton, with Mr. and Mrs. J. M. Fraser, of Toronto, and their daughter, Alma, were down last week to visit Mr. and Mrs. T. C. Preston, who are old friends of their prairie days.

The house recently erected by Mr. William King on his lot near Mr. J. C. Findlay's is approaching completion, and will be ready for occupation early in June, when two of Kaleden's young people plan to make it their home.

Mrs. J. B. Mills of Vancouver, was down last week staying a day or two with Mr. and Mrs. Harrison. Mrs. Mills expressed herself as very pleased with Kaleden and the surrounding country, and hopes to visit here again.

Mr. Townsley, inspector of orchards, was down here last week looking through the orchards. For the summer months he will make the Imperial Rooms, Penticton, his headquarters where he may be communicated with at any time.

A party was given by Mrs. D. D. Lapsley last Saturday afternoon, to celebrate the birthdays of her two daughters, Marie and Grace. About twenty guests were present, and spent a very happy time together, one of the pleasures being a trip to the Falls in the "Cygnet."

On Tuesday evening the Mission Band took charge of the evening service, and gave a varied and very interesting program of songs and recitations. Quite a number of people were present and great credit is reflected on those who took such pains to prepare for such a successful evening.

ST. STEPHEN'S CHURCH.

The social held in the Campbell Hall on Tuesday night was one of the most successful of the series, for the hall was crowded and everyone enjoyed the capital program provided by the entertainment committee. There were several whist tables and a progressive game was played for which two prizes were awarded. Vocal solos were rendered by Mrs. Clark and Miss Neve, and Mr. Milligan, and a laughable musical sketch arranged by Mr. W. S. Kent and a "bachelor" party proved successful. Mr. Spraggon gave a brief display of his sleight-of-hand talent, which was very much enjoyed, and a graceful recitation was the contribution of Miss Potten, of Vernon. The Rev. D. E. D. Robertson who presided expressed the hope, when the gathering dispersed, that their next meeting would be a summer outdoor social, and the suggestion was warmly applauded. Refreshments, provided by all the ladies, were served during the evening by Mrs. Cartwright, Mrs. Hanington and Mrs. May and helpers on the refreshment committee.

Yesterday being Ascension Day, there was a celebration of Holy Communion at 8 o'clock, matins at 11 o'clock and evensong and sermon at seven. Services on Sunday next will be as usual.

The Ladies' Aid met on Wednesday at the home of Mrs. Simms, Mrs. Clouston in the chair, and the members were busily occupied with an order for needlework recently received. The Aid will meet next Wednesday at Mrs. Brewer's.

Mrs. Robertson is, we are glad to record, making steady progress towards recovery, and it is hoped that all anxiety is now over.

Sutton & Sons, The King's Seedmen Reading England. A. J. Woodward, Victoria, B.C. 457 Granville St. SOLE AGENTS FOR BRITISH COLUMBIA

CHURCHES SHOULD PAY FOR THEIR PUBLICITY.

(Calgary Herald)

In Regina the ministers are finding fault with the newspapers for charging for announcement of church services and other church affairs. What's getting to be the matter with our ministerial brethren anyway?

We submit for the consideration of Regina gentlemen of the cloth the case of Lethbridge, where all the churches unite and once a week use half a page of advertising space in the local paper, drawing attention to Sunday service and the value in a community sense of church attendance and adherence.

And we might mention further for the benefit of these complainers that this way of doing business on business principles has proven

very successful in the Southern Alberta city, there being marked increase in church attendance and increased prosperity for the churches.

It pays even the churches to adopt modern business methods, using newspaper space and paying for it as other people do. In this as in other directions the church would be stronger and command greater respect if it ceased pleading special privilege.

Hon. Martin Burrell, Dominion Minister of Agriculture, has announced a new policy in the development of the livestock industry in Western Canada. The Department proposes to encourage farmers to organize Breeders' Associations to secure suitable sires, the Department to pay a proportion of the cost. The present system of giving bonuses will be discontinued.

REVIEW

Publishing Compy., Ltd.

The Spirit of Progress

The Fourth of a Series of Four Articles on Matters of Vital Local Interest.

Organization is the spirit of progress!
You must stand for progress or fall!

Let your desire be to know what constitutes true success and the willingness to take the patient steps which lead to it; the desire to correct errors, traits and tendencies which retard advancement and the willingness to receive new ideas and to act upon them; the desire to act from sound motives and the willingness to give up false and temporary success for vital and permanent growth; the eagerness to utilize every wholesome opportunity; the enthusiasm to strive for excellence for its own sake, and the energy to push on, pausing only when victory is won.

With this spirit, development into rich reward is inevitable. It is as natural as for a tree to grow!

Forget the price. Don't seek to control the action of the individual. Look rather to benefit from an exchange of experiences and be free with them. Don't be a peanut man. Little peanut men live by themselves. They imagine they have secrets and they are afraid of somebody getting the secret away from them. The fact is, we only grow as we give, and anybody who locks the world out shuts himself in.

Organization—it is the spirit of progress!

The world may furnish many opportunities, appreciation will quicken some motives, and the onward movement of the world can change some conditions, but that spark of fire—the spirit of progress must come from within, must spring up in a moment of noble resolve, must never be allowed to die, never to waver.

Organization binds men into a fraternity, which spells length of days, because it "serves" and its service is based on specific knowledge!

In Chicago one of the heads of a mail order house has confessed that he has an income of \$1,320,000 a year, and yet he is supposed to be at the head of an institution which is working and selling goods for the benefit of the poor man who has thought and been made to believe he has been oppressed by his local merchant.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon.

If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

To Stop Importation

Poultry Association to Assist in Making Summerland Self-Supporting.

That local producers have been selling eggs for export at 20 cents per dozen during the spring months, and that a few months later eggs in large quantities, possibly the same as those exported, are brought in and sold at 50 cents, and sometimes a higher price, was the statement of Robert Pollock, jr., at last Thursday's meeting of the Poultry Association.

The meeting, which was well attended, was an unusually enthusiastic one, and Mr. Pollock's report on the marketing of eggs and the outlining of plans for the purchasing feed at first cost were the principal features of the evening.

Mr. Pollock pointed out that Summerland has been importing about \$1700 worth of case eggs each fall and winter, while during a considerable period in the spring local producers are receiving 20 cents in trade for their eggs. He recommended that until organization is further completed individual members put their eggs away in waterglass, which can be done at a cost of 2 cents per dozen. These eggs, if properly cared for, can be held and sold at 40 cents, and perhaps 50 cents, a few months later. Active measures are now being taken by the association for the purchasing of grain in carload lots direct from prairie farms. This will of necessity be distributed at once, immediately upon arrival among the members of the association.

In urging upon its members the wise policy of holding eggs for better price the Association will not only be working in the right direction for the best interests of the producer but its action will also be welcomed by local dealers who just now are deluged with more eggs than they have need for, and who do not have time, or inclination to preserve or store them. The saving to the community by the adoption of the plan as outlined by Mr. Pollock will in the aggregate be considerable.

It is the purpose of the directors and officers of the Poultry Association to make this district famous for its eggs and poultry. The first essential is to largely increase the number of birds kept here, and at the same time improve the quality. The association will later assist its members in every possible way and will not only provide feeds, etc., at first cost, but plans also to attend to the marketing of the eggs. That there is good money to be made in this branch of agriculture is not doubted. Economical management and co-operation are, however, essential to the best results.

INDIVIDUAL ALONE FAILS.

Too many good and successful men are filled with the spirit of "I am for I" rather than "I am for all." The man who stands for and constantly works for the advancement of the community as a unit rather than for himself as a community unit, usually gets the best results.

The unit of the community is the individual, but the individual who thinks and works alone for self fails to promote community unity.

FRIDAY, MAY 22, 1914.

ROBERTSON'S POLICY ENDORSED.

THE MANAGER of the Okanagan United Growers has made pronouncement on several occasions to the effect that rather than combat the big American brokerage interests operating in the Canadian north-west, it would be more advisable for the Okanagan to utilize them as channels for distribution already established. Corroboration of this opinion comes from J. Forsyth Smith, in his last annual report. His view is from the market centres. Referring to the wholesale fruit companies he says:

"They are largely financed by American capital, but their attitude towards British Columbia fruit is by no means unfriendly. Though connected with fruit-producing interests, they are primarily a fruit-selling organization, in business to make a profit out of British Columbia as out of American fruit, provided they can see an equal opportunity of doing so. They have, indeed, been among the first to recognize in a practical way the fact that British Columbia fruit has a future before it and must be reckoned with; and both in 1912 and in 1913 they have been heavy handlers of our products. As heavy purchasers of American fruit, especially C grade apples, moreover, their interests are undoubtedly often opposed to ours. But, inasmuch as they, on the one hand, have built up the most effective distributing machinery on the prairie, and we, on the other, are going to be large producers, necessarily shipping right into their territory, either to them or against them, I do not think it should be impossible for producer and distributor to get together on a basis of mutual advantage and co-operation.

"The most feasible of the plans constantly suggested for going direct to the consumer is undoubtedly the scheme now being discussed for distributing a portion of our fruit through the Grain Growers Grain Company, Limited. This organization is ready to arrange for B.C. to supply a part of its fruit needs, but it has already opened up a connection with Ontario, which supplied thirty-five carloads of apples to Manitoba and Eastern Saskatchewan last year. It is clear, therefore, that we shall have to be prepared to meet active Ontario competition, and that the comparative laid-down prices of our own and the Eastern fruit will have much to do with determining the issue. Freight rates as between Ontario and British Columbia are so far in our favor that, from Brandon west, we have an advantage of 5 to 54 cents per 100 lb. It is apparent, then, that price conditions should give us decidedly the upper hand in Alberta, a reasonably fair opportunity as far east as Regina, though only a bare fighting chance beyond."

THERE IS MONEY to be made by putting fruit, vegetables, and produce upon the market judiciously. Here are current prices reigning on the Calgary Public Market, which is conducted along the same lines as the Vancouver City Market:—apples, best variety, per box, \$2.25 to \$2.50; apples, cooking, per box, \$1.75 to \$2.00; beets, per lb., 2½ cents; cabbage, per cwt., \$3.75; carrots, per cwt., \$2.25; lettuce, 3 bunches for 10 cents; onions, B.C., per lb., 8 cents; parsnips, per lb., 3 cents; potatoes, B.C., per bushel, 95 cents to \$1.05; rhubarb, per lb., 5 cents; radish, 3 for 10 cents; spinach, 3 lbs. for 25 cents; tomatoes, per lb., 15 cents to 20 cents; turnips, per lb., 1 cent; chicken, per lb., 22 cents to 25 cents; fowl, per lb., 20 cents to 23 cents; ducks, per lb., 22 cents to 25 cents; eggs, strictly fresh, 25½ cents to 25 cents. The public cries for apples that will stand winter storing and the earliest of vegetables. Why could not local growers help satisfy that big demand? Reach out and get into the exclusive market.

RETURN ENGAGEMENT

Orchard Players

MONDAY Evening, May 25th,
in EMPIRE HALL.

Finish the day of pleasure by attending the performance of

"The Truth,"

a Play in Four Acts by CLYDE FITCH.

Admission 75c. Reserved Seats, \$1

BUSINESS MEN, STAND TOGETHER.

JEALOUSY among business men is regrettably too frequently to be noted. One not infrequently notes a disposition to try to break down the supposed adversary in order to build up one's self on the opponent's downfall. This petty feeling among rivals in business is all wrong, and results only in injury to the business life of a community. The best way to build up one's community (which is the surest way to build up one's business) is to stand by every man in the place who does right. Whenever a man is doing well do not tear him down. All residents should be as partners not opponents. In all livelihoods the more business your rival does the more you will do. This is an axiom now becoming generally recognized. Every business man who places his business before his customers in a business manner, and treats them honestly, courteously and fairly will get his due share, and the more business that can be secured by united efforts the better it will be for all. Herein is one of the chief advantages of retail merchants' associations, which are being universally organized, and are now in existence in almost every town in our Valley. The co-operation of the members of these associations has resulted to the advantage of the customer as well as the merchant. It is the same old story of co-operation. The lack of co-operation among merchants is a hindrance to the growth of a community and when a community ceases to grow it begins to die and the more people try to kill each other's business the more will utter ruin come to them. Let us stand together for the advancement of every citizen. If a man shows ability to prosper do not pull him back through jealousy or weigh him down through cold indifference; rather help him along and in helping him you help your community and help yourself.

WATCH THE SPREAD of the co-operative movement. The canners of Ontario have decided that since union is strength, they had better get together. Accordingly some forty independent canners have formed a company, under the name of Canned Goods, Limited. This central company will distribute the output of the canneries, thus reducing the marketing expenses, and more nearly adjusting the supply to the demand. The plan is, in the main, similar to that which brought the Okanagan United Growers, Limited, into existence, except in the fact that it received no government assistance.

First Apricots.

Much interest was occasioned by a consignment of apricots which were received in Vancouver on Friday of last week. They are a new seedling variety from the south, and evidently very early. Wholesalers were asking \$4.50 for a six basket crate. Vancouver is now receiving tomatoes from Victoria, and local celery has made its appearance while rhubarb and cucumbers are plentiful.

Mrs. Bulyea Ill.

Mrs. Bulyea, wife of Lieut.-Governor Bulyea of Alberta, is seriously ill at the Government House, Edmonton, says a prairie exchange. Her sister, Miss Pearl Babbitt of the Royal Victoria Hospital, Montreal, is on her way to Edmonton. The many friends of Mrs. Bulyea, both here and in Peachland, where Governor and Mrs. Bulyea have a summer home, will receive this news with the greatest regrets, and all will hope for an early improvement in her condition.

MAMMOTH BLOOM.

It is not infrequent that freak growths of different kinds are heard of as being found on the fruit trees of our orchards. Yesterday while going through his orchard, Dr. McIntyre found some remarkable blossoms on crab apple trees, which had blossomed some weeks ago and whose fruit is now forming. These freaks were three large blooms each bearing sixteen petals instead of the usual five, and they were three or four times as large as the ordinary blossom, measuring three inches in diameter.

Three property holders were charged last week by Constable Graham with refusing to comply with the health regulations and when brought before Magistrate English were given three days to put their properties in the condition required by the law. It is stated that this has since been done.

Postmaster Hayes has instituted an improvement in the Post Office service that will be greatly appreciated by the public. Until now north bound mails have closed at 9 o'clock every evening except Thursday when the hour was 8 o'clock. Now it is not closed until 8 o'clock on the morning of departure.

Frequently the best local news is not to be found in the columns of local gossip, but in our advertising columns. More and more our local business men are realizing the value of advertising and are making their store news interesting and attractive. You may make an indirect loss, but a loss nevertheless, if you fail to study the store news in our advertising columns.

The man who is not loyal to his home town and country is a scrub and a traitor to his own welfare.

Ladies Hospital Auxiliary Empire Day Plans.

A very full meeting of the House, Purchasing, and Finance Committees of the Ladies' Hospital Auxiliary met in Mrs. Angove's drawing room on Tuesday to make final arrangements for their Refreshment Tent work on Empire Day. Mrs. Clouston, in the absence of Mrs. Lipsett, was in the chair, and the ladies discussed such details as quantities, qualities, and serving.

Every lady in Summerland has been asked to provide something material for the Refreshment Tent, but the executive and actual serving, etc., will be undertaken by the Auxiliary and a band of helpers. The table provided by Mrs. Hutton for her Boy Scout guests will be in charge of Mrs. George Ross and Mrs. Jno. Tait. Several new members joined the Auxiliary, and at the conclusion of the meeting Mrs. Angove entertained the ladies at tea.

The fumigation station which has been under the charge of Inspector W. H. Lyne has been closed until October.

A STOLEN BASE
In the great and glorious National Game, "a slide to base" is frequently of great advantage to the slider. Make our Store your base for
Boots & Shoes
and slide in as often as you can. You will find the Footwear right in every particular—none better obtainable, and our prices the lowest on which to base your standard of value.

Ours the Base for High Quality and Low Price

A. J. BEER

Grates are extra durable. Coal grate is duplex. Wood grate is the most modern type.

McClary's Kootenay Range

will take extra large pieces of wood—just remove back end lining. Ask the McClary dealer to show you.

Sold by Summerland Supply Co., Ltd.

Passing Events: Social, Personal, &c.

G. M. Ross went up the lake on Tuesday morning's boat returning the same night.

A load of Coast lumber for the new hospital was delivered to Wm. Ritchie on Tuesday.

John Weeks has sold his Victoria Gardens property to Thomas Figgs, proprietor of the Victoria cafe.

Mrs. W. C. Kelley and Miss Annie Dale have gone together to Halcyon Hot Springs and will stay at the hotel for a three weeks' cure.

Mr. P. G. Koop, who some time ago acquired the T. J. Smith property, arrived here a few days ago and plans to take up his residence here.

Inspector Thomas Cunningham, who left Vancouver some days ago, is now at Vernon, and will probably be here the first of the coming week.

The Lakeshore Drive between Trout Creek bridge and Okanagan River bridge has recently been regraded and is now reported to be in good condition.

Mr. and Mrs. T. E. Pares and Mr. George N. Gartrell are off on a bear hunting expedition on the mountains across the lake. They may be away about two weeks.

A very marked rise in the lake level during the last few days has resulted from the recent showers and the warm bright sunshine following. The water is now over the extreme outer end of the new wharf.

Some very fine new machinery for the season's box making has come in for Mr. J. W. Wheeler this week, and its hauling up from the lakefront to the Garnett Valley Saw Mills has been no light task for horses and men in the warm sun of the past few days.

Mr. J. M. Robinson, who had planned on visiting the Valley about this time, has found it necessary to proceed more directly to California. From the southern state he will go to Victoria before reaching here, which will probably be about the first of June.

A return visit of the "Orchard Players" is fixed for Monday night next in the Empire Hall. A fitting conclusion to the holiday fun of Empire Day should be to see the performance by this clever company of that most interesting and picturesque play "The Truth."

Talking about milk, it is embarrassing to have a whole lot of Holsteins unless you have your churns and creamery ready! "I'm just going home to have a milk bath (I hear it's good for the complexion). I've got sixty quarts to dispose of today!" said an enthusiastic cow-keeper, well-known in our midst on Monday!

A runaway with the loss of a considerable quantity of milk befel Mr. R. G. Tait one morning this week. His horse started away at a good pace down the switchback road and Mr. Tait turned it into Derrick's corner to save any more downhill, but the horse was determined to have some fun, so met a fir tree, and proceeded to climb it, turn over the rig, and empty all the milk cans.

A big red steam motor was run up from Pentiction on Tuesday with a party of twelve men to the end of the steel on the K.V.R. line near Osprey Lake. Mr. McGrofsky, who was in charge of it, realized the use of the telephone on the return journey. A breakdown occurring outside W. C. Kelley's necessitated an urgent message to Pentiction for means of repair, and via Mr. Kelley's phone, Pentiction was called, help sent and by evening the car started for home in good time.

Danger on the trail! Both pedestrians on the trails and horses on the roads have been for the past few weeks constantly tripping over long and short lengths of wire lying about half hidden in the dust of the roadside, or the undergrowth on the most used hillside trails. We do not know what wire it is, or who is responsible for its being left around, but we do know it's a pretty dangerous sort of thing to get your foot or leg in, on the edge of a gulch or halfway down a steep track, because we've just been doing it! The risk to a horseman or driver is, we fancy, rather worse.

The wheelbarrow is slow, but it gets there just the same.

Mrs. J. L. Hilborn returned on Monday evening from a visit of a few days to Kelowna.

Rev. F. W. Hardy, M.A., B.D., late Methodist pastor at Summerland, has been appointed pastor at the First Methodist Church, Nanaimo.

The Ladies' Aid of the Presbyterian church met with the President Mrs. R. H. English on Thursday afternoon at her home on Shaughnessy Avenue.

The next mail from Vancouver for Australia and New Zealand will be via the steamer "Namara" sailing June 10. There will be sailings from San Francisco on June 2nd and 16th.

Jack Craig and Tom Hickey have returned from Walhachin where they were working for some time, arriving here on Wednesday night. The former will resume his duties at the Packing House on June 1st.

Methodist services will be conducted on Sunday next by the pastor, Rev. R. W. Lee. The morning service at 10.30 will be in the Methodist Church, and the evening service at 7 p.m. in St. Andrew's Church.

Guests at the home of Mr. and Mrs. Wellington Watson this week are Mrs. Watson's mother and sister, Mrs. Merrill and Mrs. Wilson of Livingstone, Minn. The little daughter of Mrs. Wilson accompanies them.

Presbyterian services will be held next Sunday morning in St. Andrew's church and in the evening in the Methodist church; Mrs. Gartrell will sing at the evening service. Rev. Mr. Daly will conduct both services.

The most highly paid newspaper man in the world, Arthur Brisbane, whose genius is everywhere recognized, says: "The local newspaper in proportion to its circulation is, in my opinion, infinitely the most valuable advertising medium we have."

The usual morning Sunday School session at the Lakeside Baptist Church will not be held next Sunday. This is to give those who usually attend, the opportunity to be present at the College Commencement service in the Upper Church at 10.30, and it is hoped many will avail themselves of it.

The managers of the various local fruit unions affiliated with the Okanagan United Growers will meet in Vernon this afternoon to discuss details of marketing, shipping, etc., with the directors of the Central. The directors will meet tomorrow and formally adopt such policies as are decided upon.

The greatest sympathy is expressed this week with Mr. and Mrs. T. P. Thornber, whose infant son, Allan Bourn, aged just three months, died suddenly on Wednesday morning. A number of friends attended the funeral which took place yesterday. A brief service was first conducted at the house at Trout Creek by the Rev. C. H. Daly, who afterwards officiated at the cemetery in Peach Orchard.

A "baby" birthday party was given by Miss Margaret Hogg, the year old daughter of Mr. and Mrs. K. S. Hogg this afternoon, the majority of the guests being of the age attained to-day by their tiny hostess. The party was the prettiest affair imaginable, for those of the wee guests who were not quite babies, were but toddlers, and the gathering of dainty whiteclad and beribboned little ones made a picture to delight a child lover's heart. Baby Margaret received some lovely presents from her many relatives and all her guests were as good as gold.

A delightful afternoon reception was given by Mrs. Adam Stark at her residence on Beach Avenue, on Wednesday afternoon, cards having been sent to a large number of guests. A perfect summer afternoon added to the enjoyment of what was quite a social success, and Mrs. Stark's pretty rooms, gay with flowers, were full of daintily gowned ladies for several hours. Mrs. Hayes assisted her daughter to receive, and tea was served by Miss Anna Hayes, Mrs. Frank Williams, Miss Margaret Kerr, and Miss Edna McLeod, and presided over by Mrs. Wm. Kerr and Mrs. George Ross.

Rifle Association.

Under almost ideal conditions a goodly number of the members of the Rifle Association assembled at the range last Saturday afternoon for the first stage of the Price, Ellison cup shoot. There were seven shots at each distance 300, 500 and 600 yards with a possible score of five at each shot 105 in all. A starter of nine was placed to the credit of W. J. Smith who used a rack rifle instead of his own tried gun. Those making the best scores were:

- W. J. Smith - 99
- J. Dunsdon - 97
- W. Nelson - 90
- G. Barkwill - 88

To-morrow the Association Cup will be shot for. There will be no shoot on Monday, Empire Day.

Okanagan Methodist Pastorate.

The following were the appointments made to the Okanagan district by the recent Methodist Stationing Conference at Kamloops: Enderby, Rev. J. W. Hedley, B.A., B.D.; Armstrong, Rev. Jas. Wood, late of Victoria; Vernon, Rev. W. Vance, B.A.; Kelowna, Rev. Jas. C. Switzer, B.A.; Rutland, Rev. Gordon Tanner, B.A.; Peachland, Rev. A. Henderson; Summerland, Rev. R. W. Lee; Pentiction, Rev. R. M. Thompson; Keremeos, Rev. Frank Stanton, B.A.

BIRTHS.

JAMES—To Mr. and Mrs. E. O. James, on May 17th, a daughter.

SCULTHORPE—To Mr. and Mrs. Sculthorpe, on Saturday, May 16, a son.

VAUGHAN—On Monday, May 18, to Mr. and Mrs. O. Vaughan, a son.

OBITUARY.

At Trout Creek, on May 20th, Allan Bourn, infant son of Mr. and Mrs. T. Percy Thornber, aged three months.

OUR NARAMATA SECTION

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Peachland Notes.

Miss A. Seaton spent Thursday in Kelowna.

Mr. A. Town returned on Saturday evening from Conference at Kamloops.

Mrs. Angus, lately arrived from England, is staying with her son, Constable Angus.

Mr. R. J. Hogg attended a meeting of Fire Wardens in Vernon on Thursday and returned on Friday.

Mrs. Seaton has just given her house a new dress of cream with green trimmings, in which it looks very well indeed.

Mrs. Pattison and little daughter, of Winnipeg, arrived last week and are staying with Mrs. Clarence at the Bungalow.

Miss Ethel House spent the latter part of last week in Vernon, the guest of Miss Dancer, who joined her at Ewing's Landing.

Mrs. Dr. Wilson and daughter, Miss Blanch, of Montreal, are visiting Mr. and Mrs. Wingate for a short time on their way to the Coast.

Mr. Thomas Powell is adding greatly to the appearance of his cottage by the addition of a verandah on two sides. William Douglas has charge of the work.

On Tuesday afternoon the W.C. T.U. met at Mrs. Hugh McDougald's. Reports of the recent convention were given by the delegates and proved full of interest.

Rev. D. E. D. Robertson, of Summerland, conducted services in the Anglican Church on Sunday, administering the sacrament and christening the infants of the congregation.

Mrs. Thorne went up to Vernon on Friday to meet Mr. Thorne, who arrived from England that day and both came down on Saturday and are visiting their son John, at Deep Creek.

Much sympathy is felt for Mr. John Marshall who last week received a telegram that his brother Christopher had been drowned while bathing at Rock Bay, near Victoria. He left immediately for the Coast.

Mr. Roy Smith, of Westbank, occupied the pulpit of the Methodist Church on Sunday morning, during the absence of Rev. A. Henderson at Conference at Kamloops. He had been asked by Mr. John Marshall, who had been called to Vancouver by the sad drowning of his brother at Rock Bay, to preach in the Baptist Church also, so the united congregations worshipped in the Methodist Church.

On Friday, Mr. R. H. Helmer, of Summerland, gave a demonstration on Fire Blight, showing the signs by which it can be detected at the present time, and advising all to make a careful search through their orchards, cutting out everything that looks at all suspicious, and disinfecting the cut. The growers here made a valiant fight against it last year and are determined to continue it this year, and longer if need be, so that the fruit sent out from Peachland may retain the place it has won in the world by its appearance and unsurpassed quality.

Canada's Fruit Prospects.

The peach crop in Ontario, according to the Dominion Fruit Commission, to be the lightest in years. A severe frost on the 18th and 14th of January, when the temperature dropped to between 9 and 19 degrees below zero did a great deal of damage, particularly in the Niagara district. The cause of the injury was really the unusually mild weather which had immediately preceded the cold spell and had started the buds. In the Essex peninsula the prospects are that a full crop will be produced, but this section is not a large factor in the Ontario peach production. Other fruits do not seem to have suffered, although there have been reports of a probable shortage in plums. In Nova Scotia fruit trees have come through the winter in good condition, and prospects are that an exceptional apple crop will be harvested, probably the largest ever. The general prospects for B.C. are that a large crop of all varieties will be produced. The spring, says the Commissioner, has been one of the earliest experienced for many years, following a very mild winter.

Good temper wears better than a pretty face.

NARROW ESCAPE OF TUNNEL WORKERS.

A mishap that might have ended fatally for some dozen men but for the pluck of one befel the workers in the Tunnel Camp just at the close of the week. There has been lately some little difficulty with the heavy smoke of the freight engines at one point in the long tunnel, and on Friday afternoon some dozen men were working pretty far in when the smoke became very dense and a back draught blowing it caught the party and overwhelmed them in a choking volume. Though warned of the danger Mr. G. S. Harmount pluckily dashed in to the rescue and just in time assisted the half unconscious men back to safety. A doctor was wired for, but happily his services were not required. For all the men, though narrowly escaping suffocation, came back to consciousness.

The Hotel Naramata is now opening for the tourist season, and its cosy winter aspect is being transformed into cool summer freshness and brightness. The flower filled grounds are beautiful this year.

Mrs. Block has gone to Regina on a month's visit to friends there.

The Old England

JULIUS W. A. BLOCK,

Any order for not less than \$3, and not weighing above 11 lbs. sent by Parcel Post inside the 20 mile radius FREE.

Current Events - OF - Town & District

H. and N. Mitchell have been in from Kaleden spending a few days here at their home.

A trip to Kaleden was taken by Messrs. Frank and Fred Roe and Mr. Pushman on Friday.

Visitors to the Hotel Naramata and lunching with Mrs. R. C. Robinson on Monday were Mrs. Hogg and Mrs. Jones.

The building, or rather preparations for building, of the new schoolhouse have commenced, and Mr. B. C. Footner, the contractor, who has just returned to the Hotel Naramata is now very busy.

The launch party given by Mr. and Mrs. P. S. Roe on Sunday last was a delightful trip. The "Tillikum" took twelve to Kaleden and the Falls in excellent time.

Progress is being made by the Farmers' Institute with regard to the water question, and it is very likely this excellent organization will realise its plans before very long.

We owe an apology to young Mr. Prowse for inadvertently referring to "Mr. and Mrs. Prowse" in a recent issue. There is no Mrs. Prowse, junr., there never has been a Mrs. Prowse, junr., but we will not say there never will be a Mrs. Prowse!

A committee meeting of girls was held at Mrs. Pushman's on Tuesday afternoon and their pretty plotting for Miss Ruth Chambers' bridal shower occupied an afternoon very gaily, after which Mrs. Pushman entertained her young guests to tea.

A sleepy, growling bear, not too amiable yet after his long winter sleep, has visited both the Tunnel Camp and Burnett's this week, causing great excitement naturally, and though Mr. Bear was followed for some miles by a party of engineers keen on his skin, he got away, though with a shot in him somewhere.

"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough.

Mr. W. J. Robinson lunched at the Hotel Naramata on Tuesday and spent a few hours in town.

Mr. G. S. Harmount went up to Kelowna on Wednesday and expects to be there for two or three days.

Dr. R. C. Lipsett, Mr. C. J. Thomson, and Mr. K. S. Hogg spent some hours in town on Monday.

Mr. Frank Roe, who has been a visitor here for several months left for his home in Montreal on Monday morning.

Mr. Howard Rounds is building a pretty little bungalow on his property to which he intends bringing his bride in June.

Increasing interest is being taken in the establishing of the telephone service, and some new subscribers were secured by Mr. O. Atkins this week.

A most successful Ten Cent Tea was given by Mrs. Morsch this week in connection with the Unity Club series, which is being much enjoyed.

The Syndica Hotel has had screen doors and windows fitted throughout by Guy Brock, and is cool and summery of appearance this week.

Mrs. Burnett, Miss Dunt and Mr. Brooke drove up to the Tunnel Camp on Friday and enjoyed the hospitality of the few still working and living up there.

An "utility shower" is being arranged by her girl friends and will be given at the Unity Club on the 29th in honor of Miss Ruth Chambers who is to be married to Mr. Howard Rounds on June 4th.

"A Tango Tea" chorus and dance by local artists, a performance of "Box and Cox," the famous farce, a monologue by Mr. Fred Roe, readings by Mr. Stanley Wright, and "Dinah and the Dancing Girls," are among the attractions of the concert to be held on May 28th.

Tumbling into the lake and getting half drowned seems a popular amusement with our small boys just now. Stanley Allen and Ira Hughes were badly scared on Sunday by an involuntary dip, but suffered no evil consequences beyond the spoiling of white Sunday suits.

Strawberries ten days earlier than the earliest date yet known! This is the first record of a wonderful fruit year. Mr. J. C. Lyons gathered a dish of fine, ripe strawberries on his lot last Sunday. It is a sunny slope, with sandy soil, and consequently the berries are excellent.

Mrs. Baker of Winnipeg, who is the guest of Mr. and Mrs. W. J. Robinson, visited our town on Tuesday, and after lunching at the Hotel Naramata drove around the benches. Mrs. Baker, who is on her way to Victoria, is very delighted with the climate and scenery here.

The Herd Law is expected to come into effect in July, when Naramata will be incorporated as a Pound District. This will put a stop to the wandering early morning and late night cows with their bells of irritating tinkle that have been plaguing us for so long. "Welcome the Pound Law," cry the wakened citizens!

OIL STRUCK IN THE CANADIAN NORTH-WEST.

Intense excitement has been caused in Calgary by the fact that oil was struck in one of the trial drills in the Alberta oil district adjacent to that city. The oil bearing strata was struck at a depth of 2718 feet, and the fluid was forced up fifteen or twenty feet above the floor of the temporary derrick. The oil is almost pure gasoline of a bluish color, due to the drilling sediment. When allowed to settle it comes out practically pure gasoline. Immediate steps were taken for confining the flow. What this long expected discovery will mean to the country, and particularly to the West, cannot be conjectured at this early stage. The discovery has attracted the attention of the whole world, and oil experts and commercial operators are hastening to the scene of the discovery. Drilling is being carried on feverishly on other sites close by, and further strikes are regarded as imminent.

A New Department

NARAMATA is now to have a long-felt want supplied. Our lady-folk can henceforth have all their needs in the way of Staple Dry Goods,

Ladies' and Children's Underwear, Hosiery, Shirt Waists, Neckwear, &c.

supplied right at home and at reasonable prices. Goods not in stock will be gladly procured at lowest figures. Call and inspect our stock, and place a trial order.

Beginning Saturday, the 25th, ICE CREAM and a full line of SOFT DRINKS will be on sale in the Drug Department. Neilson's and other high-class Candies a specialty.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting: Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

ARSENATE OF LEAD DURING BLOSSOMING TIME.

R. M. Winslow, Provincial Horticulturist, writes to the Review, taking exception to the Spray Calendar which appeared in these columns last fall and again in the spring of this year. It was prepared by Mr. R. A. Boddy, B.S.A., of the Provincial Fruit Inspection Department, at the time when such vigorous efforts were being made last year to combat the fire blight, and was published at his request.

The particular section to which Mr. Winslow takes exception as being inaccurate is the advice given to spray fruit trees during blossoming time with arsenate of lead, to destroy the bees, in an effort to control the blight. "Obviously," says Mr. Winslow, "this would be a very unsatisfactory practice, both from the standpoint of the bee-keeper and from the standpoint of the fruit grower, for if the bees are destroyed there can be no crop of apples."

"The Fire Blight, against which this measure was recommended, can be controlled more successfully and more economically by other means which do not involve the destruction of the crop or of the bees. Cutting out the winter cankers is well proven as the great control measure. Fruit growers should make every possible effort to cut out and destroy all the cankers on their trees as early as possible."

"In view of the possible harm that may come from neglect to cut out the cankers and the application of poisonous sprays on the blossoms instead, it might perhaps be well to warn your readers of the unsoundness of the practice."

Be sure you are right, subscribe for your local paper, and then go ahead.

The Bridge Builder.

An old man, going a lone highway,
Came at the evening, cold and gray,
To a chasm fast and deep and wide.
The old man crossed in the twilight dim,
The sullen stream had no fear for him;
But he turned when safe on the other side
And built a bridge to span the tide.

"Old man," said a fellow pilgrim near,
"You are wasting your strength with building here;
Your journey will end with the ending day,
You never again will pass this way;
You've crossed the chasm deep and wide,
Why build you this bridge at evening tide?"

The builder lifted his old gray head—

"Good friend, in the path I have come," he said,
"There followeth after me to-day,
A youth whose feet must pass this way."

This chasm that has been as naught to me,
To that fair-haired youth may a pitfall be;

He, too, must cross in the twilight dim—

Good friend, I am building this bridge for him!"

—Selected.

About Advertising.

The following from the Winnipeg Commercial furnishes some arguments that every person in business should keep in mind:

"The present is an age of publicity and advertisement. The successful business firms, whether they be manufacturing concerns, wholesale distributing houses or retail stores, are invariably those that pay the greatest attention to this most important branch of modern commerce. To arrest and hold the attention of the public is the first principle of commercial progress, and while successful merchandising may not be attained by advertisement alone without business integrity to back it up, it is certain that it will not be won at all without judicious publicity.

"In this commercial age of modern business methods it is invariably the man that advertises who gets the cream of the business. The retail store which, by means of attractive advertisement in the local press of the town in which it is situated, is constantly before the eyes of the people is the one to which the best custom of the neighborhood will be attracted. Not to make use of the facilities of the public press is to be out of the swim, and is tantamount to offering a gratuitous advantage to business rivals.

The first essential of successful advertisement, and one which is entirely independent of the nature of the business to be advertised, is repetition. Single insertions at long intervals are very little use. Your public must be constantly reminded that you are there, and that you have got something to sell. Their attention must be drawn continually to your name, and riveted there by some offer that will appeal to those instincts for a bargain which are common to the bulk of humanity. Your aim must be to awake in your prospective customers a desire to buy things of which they may not be in immediate need, to get them to your store even at the sacrifice of cut prices, and, having done so, to make a point of seeing that the service accorded to them is of such a nature as to ensure their return.

"Advertisement is the strong card in the hand of the small order houses, and if the retail merchant desires to compete successfully against their rivalry he must fight with their weapons. Even if in point of price he can meet these big organizations on level terms, without advertisement his chance of a satisfactory issue is yet smaller. Only by publicity can he hope to retain his place among his customers, and hold his own against outside competition."

On May 8th eighty liquor licences were cut off in Ontario. Twenty-six of the number were given the death sentence by local option, while fifty-one were cancelled by the Canada Temperance Act. The three others were cancelled either by petitions or by the licence inspectors for nonconformity to the liquor law.

SHILOH CURES COUGHS & COLDS

B.C. FRUIT SHOULD BE ADVERTISED.

Value of Distinctive Brands.

In his capacity of Markets Commissioner for B.C. on the prairie provinces, Mr. J. Forsyth Smith has made some strong observations on the need of advertising the fruit of this province. He says:

"I would strongly urge that provision be made by our various marketing organizations for a levy for advertising purposes of, say, 1 cent a box on the apples handled by them, to be applied to building up a demand for certain distinctive brands guaranteed to be of high-grade standard and reliable pack. At the present time, organizations putting out a satisfactory pack are largely losing the credit for it, instead of giving distinctiveness to their product, and thus building up a cumulative asset that would be of immense value in a few years' time. In the letters 'O.K.' for example, the Okanagan has, ready to hand, a suggestive brand that, systematically and intelligently handled, should readily fasten itself in the mind of the consumer, and admirably serve the purposes of publicity.

"My views as to the value of distinctive brands have been greatly strengthened by observing on the prairie the splendid success of the Yakima Valley Fruit Growers' Association in establishing their blue and red 'Y' (extra fancy and fancy) brands of apples in the esteem of the trade. These distinctive labels were first used in the season of 1912, and yet, to-day, they are known from Calgary to Winnipeg, and known for quality and reliability.

"I would therefore urge our growers to immediate action along this line. Every season's delay means opportunity lost. Select distinctive brands, put out a reliable pack under those brands, and then embark upon a vigorous policy of advertising concentrated upon those brands. From its very nature this special brand advertising must, I think, be undertaken and carried out by the several organizations with funds raised by their own levies."

"Where is the ideal wife?" asks a prominent lecturer. In the backyard splitting kindling most likely.

Why Worry About Lunch?

A LOOK over our canned goods will chase away your trouble for ever. All kinds of tempting canned meats and fish are carried by this store in great variety. We sell quickly and never have old stock. Consequently you are sure of that fresh natural taste — combined with the appetizing flavor caused by canning — in every brand. Those meats are delicious — as kept and sold by us. Canned and retailed under the Government Pure Food act.

Keeping Out of the Ruts

The blood of a business which advertises regularly runs faster than the blood of a business which rarely or never opens its mouth.

Men who get in ruts grow to like ruts. There is a certain comfort and contentment in routine—which word is very close to "rutine."

Advertising compels the advertiser to bestir himself—and since he advertises to YOU, since he wants your favor and custom, you can be pretty sure that he is doing his best to deserve your favor and custom.

A WORD TO THE PUBLIC.

Give your custom to those who solicit it—who tell you they want it; who tell you what they are doing in your interests. Encourage those who serve you best and most.

Giving of third prize depends on number of entries. Make entries with Treasurer, at his stand, at entrance to Sports Ground.

All surplus funds will be turned over to the Hospital Society.

COME, HAVE A GOOD TIME, AND HELP YOUR HOME HOSPITAL.

Empire Day Celebration Is Signal Success.

Big Holiday Crowd Throngs College Campus To Witness Varied Program.

Horse Parades Make Successful New Feature. "The Truth" Closes Great Day.

Once more the annals of Summerland's Field Day, when every member of our community heartily enjoyed long holiday hours of sunshine and breeze on our beautiful College campus, celebrating Empire Day, are to be recorded. The universal opinion was expressed that Empire Day 1914 was the most successful and delightful Summerland has known.

A cool breeze blew all day over the fine sports ground, trees and grass were fresh and green, and the shadows that chased and fled over the splendid heights behind served to obscure a sun that would have been too ardent in a clear sky. The interest and attractions of the day were increased by the fact that Summerland's new Hospital was a centre of efforts, and the Ladies' Hospital Auxiliary Tent was one of the gayest and busiest corners of the big ground. The banquet given to the Boy Scouts by Major and Mrs. Hutton was another enjoyable incident.

SCENE ON THE CAMPUS.

From an early hour in the morning crowds were arriving by rig and saddle, motor, and cycle and afoot, and by midday the wide campus was alive with color and activity. Flags, bright summer dresses, gaily decked team horses, megaphone cries and the strains of the excellent Penticton Band, all contributed to the melee of excitement and gaiety in true holiday spirit.

HOSPITAL AUXILIARY TENT.

At noon the Hospital Auxiliary served an excellent counter lunch, and a most gratifying success for the Hospital Fund attended the splendid work of our indefatigable Ladies' Auxiliary and their helpers. Great quantities of provisions were cooked and served, and no praise is too high for their unselfish labors in the hospital cause. Warm thanks are due to all the stores of the community who lent free of cost cooking and serving utensils, and gave willingly all the assistance in their power.

BOY SCOUTS BANQUET.

At a long white table in a shady corner near the Auxiliary Tent, an interesting scene was enacted just after noon. The board groaned with good things, and was bright with flags, pink carnations, and piled up fruit, and here the sturdy "Summerland Troop" of Boy Scouts, neat and trim in uniform, filed up expectantly to meet their host and hostess, Major and Mrs. Hutton. The boys were in charge of Scoutmasters Jno. Tait, and W. S. Kent, and the Revs. R. W. Lee and C. H. Daly, assisted by Mr. Jas. Ritchie, Dr. Andrew, and Mr. Geo. Ross, and with appetites sharpened by the mountain air, the youthful guests fell to in a manner that delighted their hostess, who, assisted by Mrs. Aeland and a number of young ladies, headed by Mrs. George Ross and Mrs. Jno. Tait, saw that all were bountifully served.

After the stage of ice cream and fruit had been reached, Scoutmaster Jno. Tait, in the name of the Scouts, pinned on Major Hutton's Scouts' thanks badge, and the Rev. C. H. Daly in asking the Major's acceptance of the "decoration" which entitles the wearer to command any service at any time from a Scout, characterized him as the benefactor of the Summerland coat a tiny silver swastika, the Boy Scouts, who were so deeply indebted to both him and his wife.

Major Hutton in a few kindly and courteous words thanked the Scouts and assured them that the little silver badge would henceforth

be one of his most cherished decorations. He also commended to their best devotion and attention at all times, the ideals and principles of the Scout Service, which would make them manly and honorable men and good citizens. The prompt answer of the boys was three resounding cheers for "Major and Mrs. Hutton," given with all the force of their lungs.

SUCCESSFUL SPORTS.

There was no doubt at all of the success of the sports, and an excellent program organized by the Sports Committee was carried through under the direction of Messrs. G. R. Hookham, Ring Master; H. J. Collas, Treasurer; G. Sinclair and G. Fisher, Secretaries; W. C. W. Fosbery and F. A. C. Wright, Gatemen; Dr. Lipsett, Messrs. E. B. May and John Dale, Judges of Horse Events, assisted by Mr. Hardy, of Peachland; and Messrs. R. H. Helmer and Alex. Smith, Judges of Sporting Events. Dr. R. C. Lipsett was also official starter.

Much credit is also due to Mr. C. N. Borton, who looked after the band, and to the other members of the committee who were also busy.

An innovation this year was the inclusion of the various horse events in the day's program, and it created much additional interest and attraction. Only those familiar with the care of horses could possibly realize the amount of work expended by the drivers, particularly of the heavy teams. William Callan, Thomas Blaikie and Ralph Kent were mentioned in order for first, second and third prizes in the heavy team parade. George Henry was driver of G. R. Hookham's winners in the light team event.

The Peachland versus Summerland baseball match was, of course, somewhat exciting, as a number of visitors from the town up the lake were among the spectators and interests were well divided the result of 13-2 in a seven innings game, for Summerland, was but a fitting conclusion in the eyes of the community for our Empire Day match!

The children's races were very pretty to witness, and some of the little girl runners did capably. Of the others, the Victoria Cross Race, the Tug of War and Pillow Fight all contained plenty of fun and incident, and were heartily contested.

It was long past sunset before very tired and exceedingly dusty, but thoroughly well pleased and satisfied, all those who took part in the festival of Empire Day found their peaceful way home to quiet homes. The majority, it would seem, ended a crowded day of pleasure by witnessing the performance of "The Truth" by the "Orchard Players," at the Empire Hall.

It is worthy of note that the Penticton Band, who did yeoman service in entertaining with a capital program, made a collection among themselves and gave this contribution to the Ladies' Auxiliary for the Hospital. The ladies entertained the bandmen to tea during the afternoon.

Following is the official prize list:

Heavy Team Parade—R. V. Agur, 1st; T. B. Young, 2nd; G. R. Hookham, 3rd.

Boy Scouts' Relay Race—Morrell's team.

100 Yards Dash—George Craig, Penticton, 1st; L. Morlock, 2nd.

Five Aside Football—G. Fisher's team, 1st; H. Cole's team, 2nd.

Light Team Parade—G. R. Hookham, 1st; J. N. Merrill, 2nd.

Slow Bicycle Race—F. Craig, Penticton

Single Drivers' Parade—J. Lawler, 1st; R. M. H. Turner, 2nd; O. Vaughan, 3rd.

Victoria Cross Race, Mounted—D. Paul, 1st; J. Lawler, 2nd.

Pillow Fight—R. Steuart, 220 Yards Dash—F. Craig, Penticton; L. Morlock.

Tug-of-War—Garnett Valley Mill team.

Our record of the children's races is not complete, and much to our regret we are compelled to hold them over till a later issue, the official list not being available.

Empire Day celebrations did not pass altogether without accident. An auto with visitors from Penticton was rather badly damaged just outside the grounds. The steering gear of the auto, which was being driven rather rapidly, got out of hand, and in order to avert what would have been a very awkward collision with the flume outside the grounds on the left, the driver steered to the right, colliding violently with an electric light pole. The front of the machine was much damaged, and the occupants, three ladies and two men, were badly shaken and bruised, and one of the ladies sustained some nasty cuts and injuries. The auto was left for repairs at Darkis', and the occupants returned later to their homes in Penticton by the "Okanagan."

Cecil Ritchie, the twelve year old son of Mr. T. N. Ritchie, was unfortunate while taking part in the Boy Scouts' Relay race. Turning at the post to take the handkerchief, he, in his ardor, struck his head violently against the post, and before the race was finished found he had a painful cut of some inches at the back of his head. He was carried to Dr. Andrew's office for medical attention, and had to have a stitch or two put in the wound. He was, however, back at school by Wednesday, and nothing the worse.

EVENING PERFORMANCE OF "THE TRUTH."

A fitting conclusion to a good day of outdoor sport was an excellent play, and excellently put on by the "Orchard Players" in the Empire Hall. This at least was the opinion of the majority of Empire Day celebrators in our community on Monday night. An enthusiastic audience, in a very happy frame of mind appreciated to the full, the wit, humor, and touch of tragedy in Clyde Fitch's clever four-act play, "The Truth," and decided that well-done as was "David Garrick," here recently, the "Orchard Players" were seen at their very best on Monday. There was a freshness and finish, and an air of reality about the efforts of everyone of the clever little company, and not the least pleasing detail of their performance was the dainty attire of the ladies.

Miss Dora Rignold as Becky Warder was, irrefragable. She was certainly guilty of the triumphant achievement of making that feminine and hereditary untruth-teller so perfectly charming in her wickedness, that the sympathies of the house were with her even while it disapproved. Mrs. Arthur Elwyn's Eve Linden was pretty and painstaking. The part is a difficult one to play beside the sparkling "Betsy."

Miss Mary Dykes scored a distinct success as Mrs. Crespiigny, the designing widow of flaxon locks, and her comedy was ably supported by the undoubted talent of Mr. A. L. Soames. Mr. Soames was in his element, and played to his house with complete appreciation of the finest points of a rather trying role.

Mr. Sauter's Tom Warder was a very fine piece of acting. The sincerity and absolute unaffectedness with which he presented a most in-

Has 'Empress of Ireland' Sunk?

Report To This Effect Received Here.

That the C.P.R. steamship the "Empress of Ireland," which sailed from Quebec yesterday afternoon, has sunk with her 800 passengers is the report received over the telegraph wires this morning. Neither confirmation nor details are available as there is a temporary suspension in telegraphic communication with the east.

The "Empress of Ireland" is one of the C.P.R.'s biggest and best steamers, and it seems almost impossible to believe that such a magnificent steamer could be sunk before she had scarcely reached the ocean. We learn, upon enquiry at the local C.P.R. office, that there were no passengers booked from here on the ill-fated steamer.

The Calgary Market For Small Garden Stuff

Quite a number of Summerland growers, particularly those who are going in for small stuff, are more interested than usual in the Calgary Public Market, and it is said that at least two of our growers purpose taking stalls in that building.

The city of Calgary has just started the construction of a \$20,000 addition to its city market, and the manager states in a letter to one of our citizens that this addition will be ready for occupancy in six weeks, and that he is open for applications for stalls. Each stall measures 228 square feet, and the rental is 9 cents a foot per month. Tables measuring 3 x 8 are available at \$1.50 per day or \$7 per month. The movement on the part of the consumers to get into closer touch with the producer of which the Consumers' League, organized by Calgary ladies, is an indication, can result only to the advantage of the grower, and this league we are informed is looking to the city market to further that object.

Enquiry has been made of the Review on several occasions of the names of local growers who could supply small garden truck and vegetables for export, and from what can be gathered it is evident that there is a considerable demand from outside for such, and at prices that would be profitable to the producer; particularly would this be the case if enough stuff were produced to make shipments in carload lots.

Substantial Beginning For Hospital Fund.

Government Cheque Arrives.

A cheque for \$3500 was received by the Hospital Society from the Provincial Treasury on Saturday morning last. This is the amount that was promised the society by the government previous to the launching of the proposition to raise an equal amount locally for the purpose of erecting a public hospital building suitable to this locality. A thorough canvass of the municipality has since been made, and citizens have as a rule responded readily to the appeal, and already a number of the subscriptions have been paid. It has been suggested that a public acknowledgement of the amounts received be made each week in the Review, and there is every probability that this suggestion will be adopted.

Service will be held in St. Andrew's Church both morning and evening on Sunday next.

Interesting personality delighted the house. Mr. L. Race Dunrobin was not happy in his part as "the worm," Fred Linden. His "make-up" and impersonation were perfect, but truth to tell, Mr. Dunrobin does not make a good villain, and he knew it!

E. Tennison Collins as Jenks the butler had very little to do, but he did that little thoroughly well.

The Penticton Band made a good orchestra, and their attendance considerably heightened the attractions of the evening.

Okanagan College Completes Another Scholastic Year.

Customary Functions Mark End of Term. Institution Makes Good Year's Record.

A very large attendance of friends and relatives of the College students and a number of guests from town and various points in the Valley filled the Gymnasium on Saturday last for the commencement celebrations and closing of term reception. The Gymnasium was charmingly transformed into a reception salon by the means of rugs and easy chairs, and an exceedingly pretty scheme of floral decoration. Wild roses and great branches of snowy wild cherry blossom were beautifully arranged with the colors, and two little girls, daintily dressed in pale blue, Miss Gertrude Angwin and Miss Gertrude Eisey, ushered in the guests who were greeted by a reception committee, composed of Dr. and Mrs. Sawyer, Dr. and Mrs. McIntyre, Miss McLeod and Professor and Mrs. Everton.

An excellent musical program given during the evening was contributed to by Miss Edna McLeod, Miss Sawyer, Miss Clay and Miss Ruth Dale, and the presentation of diplomas and prizes occupied some considerable time.

Principal Sawyer, in his speech, made reference to the excellent work accomplished during the past year. Although the year had been most trying in many ways the academic results surpassed those of any previous one. At the commencement the various standards were raised to which there was a hearty response; however, from the student body. Reference was also made to the good work that Okanagan students have done at McMaster University and elsewhere recently. Complete reports are not yet to hand of the College classes. These will be published later in the next McMaster Bulletin.

The following students have completed the full course in the Academic Department, and were awarded diplomas by Dr. Sawyer. These are also entitled to Matriculation standing in McMaster University: W. M. Armstrong, Ralph Brown, Miss K. Butters, Marshall Cunningham, George Dale, Miss Madeline Eisey, Charles Johnson, Alex. McDougall, John McLeod, Roscoe McWilliams, Lorne Morlock, Henry Packham, Miss H. R. Sawyer, Miss M. Williams. A. K. Elliott will receive the college diploma on condition.

The highest standing in the Matriculation class was obtained by William Armstrong and Miss Margaret Williams with an average of 82 per cent for the year's work. The following also have obtained over 75 per cent—Alex. McDougall and Charles Johnson. The average for the entire Matriculation class was 70 per cent.

The following students have been successful in the work of the third year and are advanced to the fourth year:

Elwood Bent, Murray Cochrane, Miss Leone Morrison, Christopher Riley. Lloyd Gainer is advanced to the fourth year on condition.

The highest standing in the third year was obtained by Christopher Riley with an average of eighty-three per cent on the year's work. Miss Morrison obtained 79 per cent.

The following students have been successful in the work of the first year, and are advanced to the second year:

Creon Hatt, Willis Tierney, Harold Hilborn is advanced to the second year on condition. The highest standing in the first year was obtained by Creon Hatt with an average of 74 per cent. for the year's work.

The following were granted Business Diplomas:

Bain Calder, Grant Clark, Miss B. Johnson, Miss B. Leverington, A. Munro, Miss Z. Leverington, H. Phinney, Miss A. Tisdale, Fay Walrod.

The following were granted Diplomas in Typewriting and Stenography:

Miss Arkell, Miss G. Bird, Miss J. Butters, Miss Eva Patterson.

The following have been successful in the McGill University examinations in Music:

Grade 4—Miss Marjorie Hatfield. Grade 5—Miss Ida Shields (with distinction), Miss Edna English, Miss Jean McIntyre, Grade 6—Miss Gertrude Angwin, Miss Gertrude Eisey.

Twenty-seven diplomas and six certificates have been granted in all for the year's work. This is the largest number that has been granted.

The annual College Sermon was preached on Sunday morning in the Parkdale Baptist Church, by Professor Everton, Vice-Principal. Dr. Sawyer had charge of the service.

The choir assisted by College talent rendered several special items, including an anthem, "I Heard The Voice of Jesus Say," a solo by Miss Clay, "The Lord is My Life," followed by a quartette by Miss D. Harrington, Miss Ruth Dale, Messrs. Wallace Wright and Fay Walrod, "Still, Still With Thee," with a leading solo by Mr. Wright. The McMaster Hymn was sung by choir and congregation out of courtesy to McMaster University, with which Okanagan College is affiliated. Professor Everton based his message on the 11th verse of the 32nd chapter of Daniel, "But the people that know their God shall be strong and do exploits."

Most of the students went out to their respective homes during the week, but several are still in residence doing further work preparatory to the McGill examinations, which commence on June 18th, continuing for ten days.

On behalf of the Athletic Association Professor Everton presented the Collogo Athletic "O" to A. McDougall, L. Morlock, J. McLeod, J. Leach, A. Vanderburg, A. Clouston, H. Phinney, and M. Cunningham.

BARGAIN-HUNTERS

In this community are hundreds of individuals and families on the watch for an advertisement that will offer them what they want at an advantageous price.

Call them bargain-hunters if you will, but there is nothing wrong in waiting for a bargain, especially when the seller is anxious to sell at a reduced price.

One family wants a new carpet—the need is not urgent. Another family is looking forward to buying a set of dining-room furniture—it may not be for a twelve month.

One man is thinking of buying himself a watch.

One woman a shopping bag; another an umbrella.

All can be made to buy earlier—by advertising.

A NOTE TO MERCHANTS.

Stimulate business by the offer of some slow-moving lines at special prices. Brighten up business by advertising some desirable goods at reduced prices. Make advertising banish dull business. Often you can tempt the buyer who is biding his or her time, to buy from you—at a time of your naming.

Shop Where You Are Invited to Shop

Modern Irrigation System Uses Pipes Under Surface.

The citrus growers of California have adopted a modern irrigation system which, once installed, avoids the yearly ditch digging which, with repeated hoeings to keep down rank weed growths, was the bugbear of the old irrigation ditch. The system consists of a pressure box and a series of cement stations, one of which is located at the head of each row of trees. The pressure box is used to measure the water with which the orchard is irrigated. It is a cement box, 3 1/2 ft. long and 30 in. wide, rising over 4 ft. from the ground, and reaching down to the water main, some 3 1/2 ft. below the surface. Inside the box is a partition which is pierced by a hole 1 ft. square. When the pressure box is full, water is passing through this opening at a constant rate so that the rancher or orchardist knows exactly how many hour-feet of water he has used during a certain irrigating period.

From the pressure box cement pipes, 8 in. in diameter, conduct the water to the stations, which are 15 in. across, and equipped with a patent shut-off by which the flow of water from the main may be closed at any time. Thus the old basin system gives way to an underground system, which puts the water just where the feeders of the tree can reach it best, and keeps the water away from the surface, where it produced rank growths of weeds. The new system is more efficient than the old ditch or wooden flume, and needs little or no repairs or renewals. Little water is lost by evaporation, and the orchards look more sightly than under any of the older methods of irrigation.

Neglecting Advertising.

Pointers by Editor of Trade Paper.

Much is written these days to educate the business men to make use of weekly papers as advertising mediums.

The value of a local paper to the community and the duty of the merchants and citizens generally to do all in their power to build up this the best advertisement the community can have, are old and frequently reiterated arguments for "keeping the local paper going." But that more immediate and direct returns may be had by the merchant who invests in advertising space is ably pointed out by the editor of a retail trade paper who urges his readers to take full advantage of their really excellent medium, the local weekly. Here is his editorial:—

Here is the argument advanced by many merchants in the smaller towns: "Our advertising does not pay, and we just advertise to keep up the local paper."

The very fact that the local paper should be kept up is an indication that the merchant at least knows that the paper is an actual benefit to the town. A town without a local paper certainly lacks something, and a town with a good local paper certainly has an asset which the town should be proud of and which the local merchants could and should use to advantage.

Most any merchant who has a sense of pride in the town in which he lives and in which he conducts his business would be willing to pay to the local paper as much as five dollars a month just as a matter of support, even if he carried no ad. at all. But the trouble is that the average merchant looks on this newspaper space as a donation and simply means "any old thing" for an ad. and changes his copy when he happens to think of it.

The trouble lies here: the merchant neglects the advertising end of the business entirely. Then after displaying the most absolute disregard for this phase of his business, he insists that his advertising does not pay. Suppose that the merchant paid as little attention to his customers as he does his ads.; he would soon have no customers.

If your ads are not read it is the fault of your neglecting this important part of your business. If a merchant admits that he does not expect his ads. to pay, how much effort and energy is he going to give them? The same old ad. about the same old store, with nothing new from week to week and month to month, will indeed never be read.

Duncan Woods, mining inventor, was in town this week on business.—Star, Princeton.

BILL TO PROHIBIT TIPPING.

A bill to prohibit tipping in Canada recently introduced in the Senate is likely to become law. The person who receives a tip, the person employing the party who receives the tip, and the person giving the tip, are each liable to two months' imprisonment or a fine of \$200 for the act of tipping, according to the terms of the bill.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton. The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Kaleden Comments

School was closed for Monday, Mr. J. F. Tupper spending the holiday with his wife and family in Penticton.

Mr. Creswell, school teacher for Myers' Flat, was in town on Monday taking lunch with Captain and Mrs. Chas. Hatfield.

Mr. George Fraser with Mr. Groom and others were down from the cannery in Penticton on Saturday last looking at the fruit crops with a view to purchase of the fruit.

The Mission Circle of the Baptist Church in Penticton forwarded an invitation by Rev. Charles Britten to the members of the Circle here to visit them next Thursday afternoon.

A large picnic was arranged for Saturday last at White Lake. Most of the people in Kaleden went out and spent a very enjoyable day with the friends from Myers Flat and other places.

Monday being the holiday, the "Mallard" and "Cygnets" made special trips to the Falls, and had a very busy day indeed. About forty people went down from Penticton for a picnic there, and had a very good time.

On Wednesday afternoon the members of the Woman's Club met in the Clubhouse which was very prettily decorated for the occasion of a bridal shower in honor of Miss Annie B. Findlay, who is very shortly to become the bride of Mr. William King, and will remain among us in their new home. The gifts were both pretty and useful, and a very pleasant afternoon was spent in games, etc., and in expression of the heartiest wishes for the happiness of the young couple.

British Columbia Sunday School workers are now selecting delegates for the great International Sunday School Convention in Chicago on June 28-29. This province is entitled to send 22 delegates and 12 have already asked for credentials. Although none but delegates can attend the regular sessions, as the convention hall only holds 5000 persons, it is expected that there will be at least 20,000 persons in attendance at the convention. Many prominent speakers are to give addresses during the progress of the convention. Following this convention the twenty-fifth anniversary of the Epworth League of the Methodist Church is to be held at Buffalo, July 1-7, and the two great gatherings can be conveniently taken together. Rev. I. W. Williamson, provincial Sunday School secretary, is making arrangements for the delegates' trip to Chicago.

"So you have no references?" said Farmer Giles to the boy who offered himself as a farm hand. "No, sir," said the youngster. But the reason is that I left without asking for one. You see, when I had been there a month a cow died, and we had to eat it. Some weeks afterwards a pig died, and—would you believe it?—we had to eat that. Well, two days ago the old woman died, and so I hopped it!"

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 29, 1914.

DIVIDING YALE-CARIBOO.

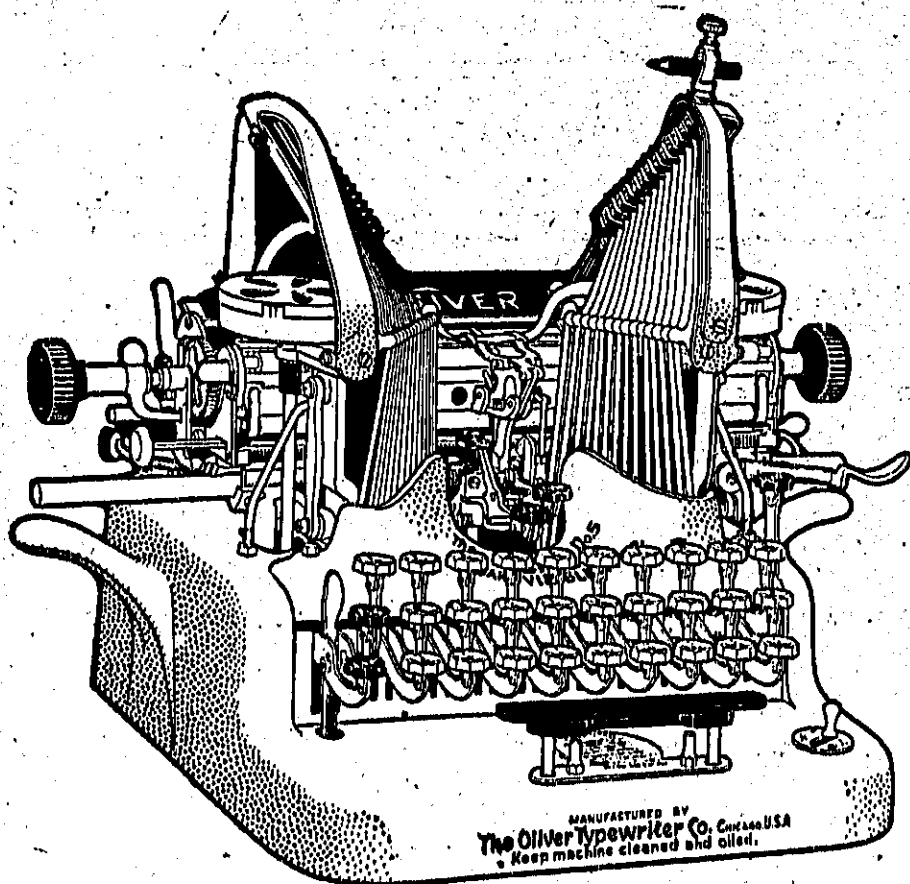

THE YALE-CARIBOO electoral district, one of the largest—if not the largest—of electoral districts in the Dominion, extending from the international border to the Yukon, and covering practically half the area of the province, is to be divided into two constituencies, as Dominion redistribution plans for this province stand. The division will be made by an east and west line running south of Kamloops but north of Vernon. This will place Kamloops, Ashcroft, Lillooet, Clinton, Fort George and the Cariboo and Peace River country in the new federal riding of Cariboo. Most of the Okanagan Valley, the Similkameen and Nicola Valleys will be in the constituency of Yale, which will also include the district near Hope, Yale and Lytton. While Yale will still be a large district, its severance from the big interior riding takes but a relatively small portion from that district.

Kootenay is to be divided by a north and south line into East and West Kootenay. Comox-Atlin, the other big division of B.C., will, like Yale Cariboo, have a portion taken off its southern end. Some of the ridings of the lower mainland and of Vancouver Island are also to be divided. Thirteen seats for B.C. as against seven at present are to be provided in the redistribution.

THAT THERE is no possibility of British Columbia's farms exceeding the demands for local consumption may be readily accepted when the volume of our province's present importation of agricultural products are considered. In one week recently importations of farm products to Vancouver totalled \$395,000. Among these importations were 666,000 dozen eggs imported from China, and 890,000 lbs. of butter brought from New Zealand.

Did you ever chance to hear a mother remark in speaking of her child, "How like its mother!" just at the moment that the dear little thing was making a grab for its father's hair?

Young Husband: "Flour, I see, is going up again." Young wife: "Never mind, George. We need not buy it. We can buy baker's bread. Besides it saves the trouble of baking."

STRICT QUARANTINE AGAINST ALL POTATOES FROM SOUTH.

That the much dreaded potato pest, the Tuber Moth, has been found at Seattle, Auburn, and in the Yakima Valley, by the United States Department of Agriculture, is the information received this morning by Inspector Cunningham. For some time there has been a quarantine against all tubers from the State of California because of the prevalence of this pest in that State.

When asked what the effect of this latter discovery would be Inspector Cunningham declared it would mean the immediate application of the strictest quarantine against all potatoes from south of the boundary line.

In speaking of the constant vigilance of the province to protect our agricultural and horticultural districts Inspector Cunningham says that at times it seems very discouraging to find that many of our own growers are not ready to take even the most elementary precautions to keep their orchards and farms free from pest and disease. He has found orchards that will suffer from the Peach Worm, which he says can be very easily kept down by lime-sulphur spray when the buds are forming.

Mr. Cunningham, who has been for some time in the Valley with several members of his staff, has been looking over the orchards of the district during the week.

TIRED.

My son, follow not in the footsteps of the loafer, and make no example of him that is born tired, for, verily I say unto you, his business is overstocked. The seats on the corner are all taken, and the whittling places are all occupied. It is better to saw wood at two-bits a cord than whittle at a whittling match and abuse the government.

—Robert J. Burdette.

Mrs. Casey—Och, Pat, whin the doctor told yez ye had something wid a Latin name to it a yar-rd long, didn't it scare yez? Casey—Shure an't it did, Norah. But whin he only charged me a dollar for it, Oi knew it didn't amount to much.

CHURCH NOTICES.

St. Stephen's Church (Anglican).—Holy Communion every Sunday at 8 a.m.; also at noon, after matins, every first Sunday in month. Matins 11 a.m.; evensong 7 p.m. each Sunday. Rev. H. A. Solly, B.A., Rector. Rev. D. E. D. Robertson, Curate.

Methodist Church. Services: Morning, every Sunday at 10.30. Sunday School at 11.30. Evening, fortnightly at 7, alternating with West Summerland.—Rev. R. W. Lee, Pastor.

Baptist Church.—At West Summerland every Sunday at 10.30 a.m., Sunday School at 11.45. At the Lakefront Church 7.00 p.m., Sunday School at 11.45.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30, Sunday School, 11.30 a.m. Evening, fortnightly at 7 p.m., alternating with the Methodist Church. Rev. C. H. Daly, Pastor.

NOT THE LEAST.

"Why do you call the baby Bill?" "Because he was born on the first of the month."—Buffalo Express.

"I am strongly inclined to think that your husband has appendicitis," said the physician. "That's just like him," answered Mrs. Cumrox. "He always waits till everything has pretty near gone out of style before he decides to get it."

The war in Colorado is caused by coal, while oil is at the bottom of the unpleasant conditions in Mexico. It is a pity that the cigar and booze fiends are without the nerve to break out in rebellion against these evils.

War makes men punctual, for to be a minute late is a serious offence in the army. One or two of our delinquent subscribers should be in the army.

Get a bit of land and raise something.

Passing Events: Social, Personal, &c.

Sheriff Brew of Vernon, passed through town on Thursday on his way to Hedley.

Miss Board went up the lake on Tuesday morning for a fortnight's holiday in Kelowna.

E. H. Lock came up from Kaleden to spend the holiday week-end here. He returned by the "Okanagan" on Monday.

Mr. Gordon Dinning of the Kelowna branch of the Bank of Commerce, spent the week-end with friends in Summerland.

Owing to our stores being closed on Wednesday, June 3rd, we will be open all day on Thursday, June 4. Summerland Supply Co.

Miss Gladys Limmer of the Government Telegraph Office, Penticton, spent last week-end and the holiday with her parents here.

Mrs. Lipsitt returned on Tuesday from Victoria where she had been attending a meeting of the Advisory Board of the Women's Institute.

D. H. Watson is utilizing for office purposes the building near the south end of Shaughnessy Avenue, formerly occupied by Dr. Mathison.

The success from a monetary point of view, of the Empire Day Sports cannot be learned until after the meeting of the finance committee to-night.

Mr. L. G. Blair and family are now occupying the Wallace cottage in Peach Orchard. They removed from the mouth of Garnett Valley early in the week.

A tea party in honor of Miss Janet Tupper who is the guest of Mrs. Carol Aikins, was given by Mrs. Cooper on Thursday afternoon at Ballycrystal, and a very large number of ladies accepted invitations.

That Mrs. Bulyea, wife of Lieut. Governor Bulyea of Alberta, is somewhat brighter, though not yet past the danger point, is the latest information furnished here. Hopes are entertained for her complete recovery.

Both Mr. Dunrobin and Mr. Wm. Sauter are back in Summerland, probably for the summer. The "Orchard Players" have now closed their tour, and it is "back to the land" with them again till the fruit harvest is well over.

Divine services will be conducted in the Methodist Church on Sunday next at 10.30 a.m. and 7 p.m. by the pastor, Rev. R. W. Lee. Sunday being "Whit-Sunday" appropriate sermons will be preached. A hearty invitation is accorded to all.

A College student, Miss Josie Butters, was taken rather seriously ill with appendicitis in the early part of the week, and her condition is occasioning a little anxiety. Mrs. Butters came in from Lumby on Wednesday night's boat to be with her daughter.

Mr. J. O. Parminter, who has been occupying the McIntyre property at Trout Creek, recently purchased seventy acres of farm land near Armstrong, and with his family and household effects left Thursday morning to engage in mixed farming in the north of the Valley.

A fine salmon trout, weighing between seven and eight lbs. was speared close in to the shore near Mr. R. H. English's on Saturday. Fish are very plentiful in the lake and creeks just now and it would take a special column to keep track of all the fishing parties and their whereabouts. Also, we regret to say, an illustrated supplement alone would do justice to the "fishing stories!"

But little has been heard for some time of the plans of the Dominion Department of Agriculture with reference to the experimental farm to be established at Trout Creek. This week, however, Mr. Gridale, Supt. of Experimental Farms, and Mr. Angus Mc Kay, Commissioner in charge of the Indian Head Farm, visited Summerland and made arrangements for the surveying of the property for which Mr. J. A. Kirk, C.E., was engaged. There is some difference between the Dominion and Provincial laws pertaining to survey work, and there arose some doubt as to which law should be adhered to in carrying out the work, and until this question has been decided there is a temporary suspension of the survey.

Mrs. Bert McLellan returned on Saturday night from an extended visit to Okanagan Falls.

Messrs. P. R. Brown and A. E. McGraw, of Peachland, both spent a few days in town this week.

Ex-Reeve Thomson who recently sold his home orchard to Mr. J. P. Barnes, will with his family occupy the Bartholomew cottage in Peach Orchard, until he leaves for Australia.

D. Lorne Sutherland received welcome word of the whereabouts of his valuable grey pacing mare, lost last week from Pierre's pasture. The animal was located near Fairview, and returned to its owner early in the week.

Mrs. F. B. Tully and family are leaving Summerland for their former home in Truro, Nova Scotia, on to-morrow's boat. Mr. Tully, who recently disposed of his barber business here, expects to go to Princeton for a while.

The C.P.R. is to run a special train and boat from Vernon on June 3rd, leaving Vernon at eight o'clock in the evening, so that any from the lower end of the lake wishing to attend the sports may be able to return home the same evening.

Mr. W. H. Mallett has been visiting this week at Summerland and Naramata. Mr. Mallett, who has orchard property here was a former resident of Brandon, but of late has been residing in Vancouver. He anticipates spending the next year in Los Angeles.

Rev. C. H. Daly went out on Tuesday's boat to attend as Commissioner, the Presbyterian Church General Assembly at Woodstock, Ontario, and will be absent until Saturday, June 13th. During his absence, his duty will be taken by Mr. A. B. Richardson, M.A., of Naramata, a divinity student.

The Ladies' Hospital Auxiliary wish to extend their hearty thanks to the public, who so generously responded to their request for donations on Empire Day. Anyone who has not received their dishes may do so by calling on A. B. Elliott's store, West Summerland, where they have been left to be claimed.

T. J. McAlpine of Summerland was a recent visitor to Princeton, coming via Keremeos. He says the outlook is fine for a big fruit crop in the Okanagan, and business is improving. He has mining interests here, and is also owner of a block of stock in the B.C. Portland Cement Co., of East Princeton, Star, Princeton.

Mr. R. G. L. Clark, Chief Dominion Fruit Inspector for B.C. is making a tour of the Valley and spent several days this week in Summerland. Mr. Clark's chief duties pertain more to the packing and marketing of fruit, but on this occasion he is sizing up the situation generally and learning crop prospects.

A dismissal with an order for each to pay his costs was the result of a dispute between two neighbors in Peach Valley brought before Magistrate English last night. The two had had a quarrel over stock which was alleged to have been allowed to run at large and of the utilization of the fence material, the property of the other, with which to build a pig sty. After declaring that there was no occasion to bring the dispute into court Magistrate English gave the disputants some good advice and dismissed the case.

The anniversary service held last Sunday evening in the Lukesdó Baptist Church was unusually impressive and worshipful both from the nature of the service and in point of numbers. Rev. S. Everton was the preacher of the evening, and with him on the platform were Rev. H. G. Estabrook and Dr. E. W. Sawyer, who both assisted in the service. The church was full almost to the limit of its capacity. Mr. Everton's sermon was an earnest and forceful effort of survey and exhortation, his subject, "Prospect and Retrospect," being broadly treated from different aspects with appropriateness to the commemoration of the occasion. Vocal music was a special feature of the service, solos being very acceptably rendered by Miss Anna Hayes, "Come Unto Me," and Miss Myrtle Clay, "The Lord is My Light." Mr. and Mrs. O. Atkins also sang a duet, "He Knows It All."

SERIOUS ACCIDENT BEFALS A SUMMERLAND MAN.

As a result of an accident last week at Penticton George Miller, who for perhaps two years or more has been with the Summerland Lumber Company, now lies in the Penticton Hospital in a critical condition.

Mr. Miller has been troubled a long while with cataract in both eyes, and these had reached a stage permitting an operation, so on Wednesday last he went down to Penticton planning to leave next morning for Vancouver. Not having completed his business matters in time he concluded to remain over until Monday, and it was while crossing the street the next day that the accident occurred. Mr. Miller, who could not see very well, heard an auto coming, and, according to one story, became confused, and ran in front of the machine, which was going at a good speed. He was knocked down and rendered unconscious, and was immediately hurried to the hospital, where he has since remained in a comatose condition.

W. H. Wheeler, Manager of the Lumber Company, has spent two nights with the patient, and upon his return this morning from a visit to him says that there is no apparent improvement in Mr. Miller's condition.

The injured man has a brother Robert in Spokane and a sister in Cripple Creek, and another in San Francisco.

ST. STEPHEN'S CHURCH.

Next Sunday being Whit Sunday, the festival will be celebrated as follows: Holy Communion at 8 a.m., matins, without music at 10:30, and Choral Eucharist at 11 o'clock. Evensong with sermon at 7 o'clock.

The Ladies' Aid met at the home of Mrs. Brewer on Wednesday last, but there was a small attendance as the result of the holiday and its activities. Next Wednesday the Aid will meet at the residence of Mrs. A. G. Simms.

The next Church Social will take the form of a farewell to the Rev. D. E. D. Robertson and will be held at the residence of Colonel and Mrs. Cartwright. The date is not yet fixed, but will be in June, immediately before Mr. Robertson's departure.

The baptism of the infant daughter of the Rev. and Mrs. Robertson took place during matins on Sunday last, the Rev. D. E. D. Robertson officiating, and the baby receiving the name of Mary Daphne Jean.

SHOWS STEADY GROWTH.

Telephone Service Increasing in Popularity.

The Summerland Telephone Company some weeks ago passed the highest record attained by the old company, in the number of telephones on the local exchange, and there is every probability that the prediction of the Review that the local company would have 250 'phones before next winter will be realized. When the new service was opened there were about 125 phones, and this number has steadily increased until the 200 mark has been passed. A new directory is now in the hands of the printers, and it is urged that all who contemplate installing a 'phone place their orders at once so that their name and number may be included in the new directory.

Several new lines have recently been erected, including one on Siwash Flat, which was necessary to relieve the congestion there. A second line has been run down to Trout Creek from the benches near Mr. Zimmerman's, and this, as well as a new line that is being built through Garnett Valley, will be put on the common battery.

Several new subscribers have been obtained since the laying of the wire to Naramata. This extension has not only proved a great convenience to the business people of Naramata but of Summerland as well.

Another shipment of instruments ordered some time ago is expected at any time.

SUMMER LAKE SERVICE.

The C.P.R.'s summer time table comes into effect on Sunday. Full particulars are not available, but we learn that while on the north bound trip the boat leaves here at the same hour, namely 6.30 a.m., she leaves the Landing half an hour later than at present, and Summerland twenty-five minutes later, namely 6.40. There is, we understand, quite a change in the train service.

CARD OF THANKS.

To all the friends and neighbors whose sympathy and services were so kindly tendered during the sickness and death of my dear father, and especially to his brother Masons we desire to extend our sincere thanks.

BRIDAL SHOWER

A charming ceremony was carried out this (Friday) afternoon at the Unity Club, when an "Utility Shower" was given by all the members to Miss Ruth Chambers, who becomes Mrs. Howard Rounds on Thursday next. Into a room filled with white flowers, the bride was invited to enter alone. She was received by the hostesses and passed down an aisle lined with girls clad in white, and holding streamers of white crepe paper. Every girl had a remark to make concerning an enormous pie which occupied a corner of the room. When Miss Chambers finally reached the pie, the crust of which was white and yellow crepe paper, she found it full of "utilities" for her future home, and extricating the contents of this surprising pie occupied a merry half hour. Tea was served at a table decked with the "stars and stripes" whose folds also draped the walls in honor of the bride and bridegroom, who are both natives of Michigan. A charming musical program was also rendered during the afternoon.

GILLETTS LYE EATS DIRT

Strawberries and cream on May 26! Here is a record for even the sunny Okanagan! A happy luncheon at the Hotel Naramata enjoyed this delicacy on Tuesday, and the fruit, though small, was deliciously flavoured and sweet.

Great fun with the cow that balked! Six men and a rope were doing their level best to induce a cow to move on Robinson Avenue on Saturday. There were several minor accidents and a great deal of laughter, which reached its climax when a man with a meat saw came out and operated on the animal's tail, with a view to its getting a move on! But not the cow! She was finally left standing, and in her own good time ambled homeward!

Mrs. Cash and Mr. Bruce Cash had a small supper party at their home on the benches on Sunday.

A delightful little picnic party of fourteen was taken to Chute Creek by Mr. Walter Land on Empire Day, the services of the "Trepannier" being requisitioned.
Empire Day, while not celebrated in public fashion, was nevertheless duly observed by all good citizens as an imperial holiday. The British Flag fluttered bravely in the wind from the hotels, stores, many homes and many a tree. The entertaining of friends, picnics, fishing and boating parties and little trips up the lake occupied gaily the merry hours of the popular holiday, and while a few went out for the week-end, others had week-end guests to enjoy a May day or two in Naramata.

Miss Emma Davies was the hostess at a bridal tea given to Miss Ruth Chambers at the home of Mrs. Pushman. The bride-elect's friends gathered in great numbers and tea was served in a room wreathed with snowy spirea and guelder roses. A wedding bell wrought of spirea and guelder roses hung over the tea table over which Mrs. Davies presided. A guessing contest caused much fun, and a quaintly useful idea was carried out in a fortune telling game, by which fortune slips for everyone were pinned to the garden bushes by clothes pins, and these latter when gathered in were presented to Miss Chambers as an utility gift!

Nine power sprayers belonging to the Provincial Government are, according to Inspector Lyne, now at work in the various fruit districts, spraying the orchards of the smaller growers. Many of the larger fruit growers have installed gasoline driven power sprayers at their own expense after seeing the benefits produced by the government sprayers.

There is but one rule of conduct for a man—to do the right thing. The cost may be dear in money, in friends, in influence, in labor, in a prolonged and painful sacrifice, but the cost not to do right is far more dear; you pay in the integrity of your manhood, in honor, in truth, in character. You forfeit your soul's content, and for a timely gain you barter the infinities.

The way to hell is paved with cigarettes.

Current Events OF Town & District

Mrs. Roe and Miss Edith Roe spent Tuesday in Penticton.

Visitors to Summerland on Tuesday were Mrs. F. C. Manchester and Mrs. William Nuttall.

Mr. G. S. Harmount and Mr. Martin went up to Kelowna on business on Wednesday.

Mr. Carol Aikens left on Monday morning's boat for Vancouver where he intends spending a week or ten days.

Mrs. E. Graham and her little boy were lunch guests at the Hotel Naramata with Mrs. R. C. Robinson this week.

The latest Ten Cent Tea of the Unity Club series was given by Mrs. Peter Roe, who was a very successful hostess.

Dr. and Mrs. W. L. Robinson are expected in from Vancouver next Tuesday or Wednesday after a Californian honeymoon.

Mr. and Mrs. J. M. Robinson left Los Angeles for Vancouver on Wednesday, and will arrive in Naramata after a short stay at the Coast.

Mr. W. H. Mallett, a business man of Vancouver, spent a day in Naramata this week, and crossed to Summerland to visit his orchard property there.

Mr. J. H. Grisdale, of Ottawa, and Mr. Angus MacKay, of Indian Head, were visitors in town this week and left for Summerland after a brief stay.

Several Naramattans enjoyed the trip to Kaledon on the "Trepannier" last Sunday, among them being Mrs. Burnett, Mr. Brooks and Miss Dunt.

A student of two years' experience, the Rev. W. B. Willan, of Moyie, B.C., will succeed Mr. Bunt as pastor at Naramata, and is expected in shortly.

Ripe cherries on May 25! Postmaster Bartlett spent Empire Day on a visit of inspection to his fruit orchard at Peachland. He was surprised and delighted to find some ripe cherries on his trees!

Tennis broke out with violence on Monday among several enthusiasts. The beautifully kept green of the Naramata Hotel was the scene of a continuous tournament during the week-end.

A farewell sermon is to be preached at the Methodist Church on Sunday next by the Rev. W. P. Bunt, as he is leaving next week for Vancouver where he will spend a short time visiting relatives before proceeding east to Ontario.

Fishing is particularly the vogue these days. There is some fun in the ancient sport when there is a lovely stretch of water, full of rainbow trout, which are merry dodgers, and the most perfect scenery to contemplate from the end of one's rod.

Some of our young folk are developing into great pedestrians. Something of a feat was Miss Vera Roo's walk of last Sunday with a friend to Penticton. With a short rest for lunch, it took just three hours, and Miss Roo is enthusiastic about the road, which is in excellent form just now, and winds through some very picturesque points.

A good deal of entertaining has been going on for Miss Ruth Chambers this week, who is to be a bride on June 4th. Mrs. Lewis Block gave a tea for her on Saturday, and a novel element was introduced by the hiding of presents in the garden for which the bride-elect had to hunt. On one parcel was written a word, and when six were accumulated a sentence of good wishes was found to be formed.

A cable was received this week from Mr. Mark Manchester by his relatives announcing his safe arrival in Dawson City. Mr. Manchester has had a rather rough though thoroughly enjoyable and novel journey to the North. The sea trip to Skagway was through bad weather, and as the land tracks were all washed away by the melting snow which is in full career just now, the rapids on route to Dawson had to be shot in a small boat.

A New Department

NARAMATA is now to have a long-felt want supplied. Our lady-folk can henceforth have all their needs in the way of Staple Dry Goods,

Ladies' and Children's Underwear, Hosiery, Shirt Waists, Neckwear, &c.

supplied right at home and at reasonable prices. Goods not in stock will be gladly procured at lowest figures. Call and inspect our stock, and place a trial order.

Beginning Saturday, the 25th, ICE CREAM and a full line of SOFT DRINKS will be on sale in the Drug Department. Neilson's and other high-class Candies a specialty.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting:
Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias; Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Concrete Grain Elevators

Are the best grain insurance that you can have against fire or damage of any sort. They are proof against rodents that gnaw their way into ordinary buildings and carry away the farmer's profits. They save storage charges by enabling you to store your own grain until you can obtain better prices.

Obtain Better Prices

Elevators built of concrete maintain a dry, even temperature. They cannot rot, rust or burn and require no repairs or paint—in short, they are the cheapest kind of elevators the grain farmer can build.

Let us send you the free book "What the Farmer can do with Concrete". It tells all about concrete farm buildings and how to build them, and about dozens of other things that the farmer can build of concrete.

Sound Advice To Small Town Merchants.

(From "Store News")

Suppose five of the big department stores of Chicago should adopt the method of some country merchants, cut off their advertising in the papers, discontinue soliciting orders by mail, refuse to send out samples and all the proprietors should sit quietly down and wait for customers to happen along, as is usually done in the country store. Can anyone doubt the result? Contrast the difference between the two methods and the remedy is as plain as the sun in the sky.

Of course the answer is, that the small store in the country town cannot afford high-priced advertisements costing \$5,000 to \$10,000 per day, neither can he afford to issue a catalogue or have a mail order department. That's perfectly true, and nobody will try to dispute it, but he has his local paper and its working force at his disposal, and it is the greatest and best working force in the whole world.

Let us repeat that country newspapers, if properly used, are positively the best advertising mediums in the world for the money.

Mr Merchant just keep this thought under your hat — every country town that has a daily or weekly newspaper is missing a harvest if its merchants do not make it their mail order catalogue. Every inch of it should be used. It is a gold mine. Mind you, it should be the cut price catalogue, with a good illustration and a catchy description of every article of merchandise carried in stock in your town, no matter whether it be a package of onion seeds, a gas engine, hay scale, or a flannel shirt, and every article shown should be quoted at a price in the advertisements of the city concerns.

There is not a country town in America where three or four pages of this class of advertising would not boom the local trade and put the city stores out of business as far as orders from that locality are concerned. Their advertisements should resemble a catalogue, not bill posters efforts. Every merchant should make it a point to advertise his goods and prices, instead of his name.

DIRECTOR OF AGRICULTURE.

A new provincial office recently created and which will be under the Provincial Department of Education is that of Director of Agriculture. This position is part of a scheme for the furthering of agricultural education instituted by the Dominion Government under the Dominion Educational Act of 1912, whereby a grant of \$10,000,000 was given in annual payments to the Departments of Education of the various provinces.

The appointee to the new position is Mr. W. J. Gibson, M.A., who comes to this province from the Provincial Normal School, Ottawa, and his long educational career has well fitted him for the position.

He is an experienced rural school teacher, a graduate Master of Arts and Medallist in Botany and Animal Biology, and has taken special courses in Agriculture at Columbia, Cornell and Clark Universities, and the Ontario College of Agriculture, and a post graduate course in the University of Chicago. For three years he was travelling instructor in Agriculture and School Gardening in the McDonald Rural Schools movement, and later instructor in Agriculture in the Kingston Model School. Mr. Gibson's particular duties in B.C. will be the encouraging, organizing and establishing of instruction in agriculture in the schools of the province, with headquarters in Victoria.

HEALTH OF POULTRY.

A bulletin has been issued from the Livestock Branch of the Department of Agriculture on "Keeping Poultry Free From Lice." The author, Mr. H. E. Upton, gives recipes for vermin killers, the methods of application, and outlines a profitable working routine which will improve the breeder's chances of a good return from his flock. A chapter is added on the value, preservation and economical use of that rich fertilizer, hen manure. The bulletin may be obtained on application to the Livestock Branch.

Alfalfa with a fair chance always makes good.

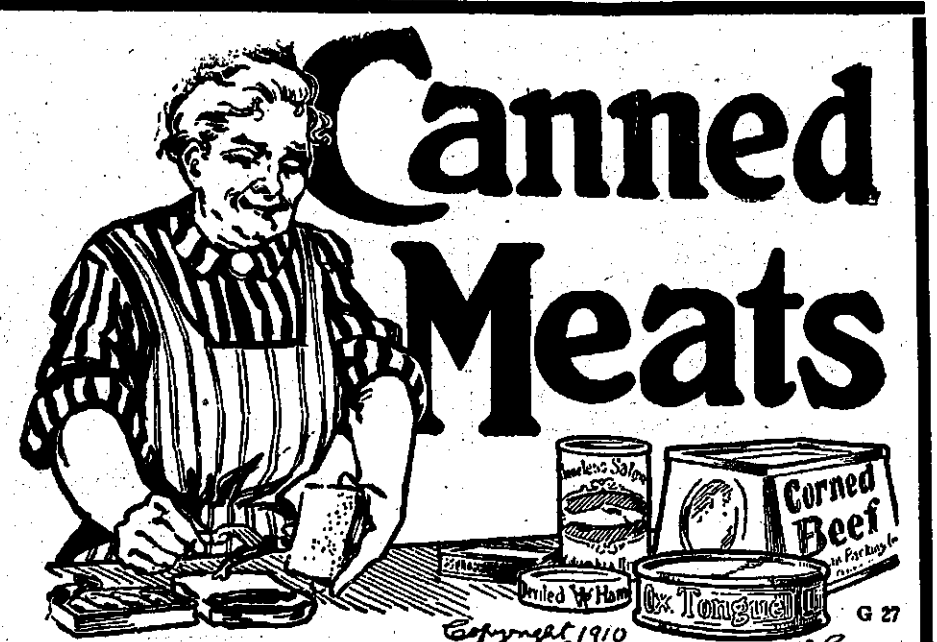

ORIENTAL PROBLEM IN PUBLIC SCHOOLS.

A resolution advocating the segregation of Oriental from white children in public schools was passed at a meeting of the Vancouver Juvenile Protection Association last week. The opinion was expressed that the Oriental children were imparting to white children lower ideals in life than were the Western standard. Mr. J. J. Dougan, school trustee, and a man active in all school work, being secretary of the Union of B.C. School Trustees, intimated that the board was doing what it could to cope with the problem, and had three rooms in the Central School set apart for Orientals. Dr. Curry agreed that the segregation was an economic as well as a moral question. After passing the resolution it was decided to send a copy to the Vancouver representatives in the Provincial Legislature, to the Minister of Education, the Attorney-General of the province, and to Mr. H. H. Stevens, M. P. A public meeting will be arranged with other organizations in the interests of moral hygiene.

ALFALFA PROVERBS.

By Charles M. Carroll.

- Alfalfa enriches the ground.
- Alfalfa is a drouth resister.
- Alfalfa is the best soil doctor.
- Alfalfa increases the milk flow.
- Alfalfa is high in feeding value.
- Alfalfa balances the corn ration.
- Grow your protein—don't buy it.
- Alfalfa sod grows larger corn crops.
- Alfalfa is the greatest of all sub-soilers.
- Alfalfa keeps stock in good condition.
- Alfalfa should be grown on every farm.
- An alfalfa field is a hog's idea of heaven.
- Fox tail is the greatest enemy of alfalfa.
- Growing alfalfa is good business farming.
- Alfalfa means more money and better homes.
- Raise what you feed and feed what you raise.
- Alfalfa does things and never loafs on the job.

Why Worry About Lunch?

A LOOK over our canned goods will chase away your trouble for ever. All kinds of tempting canned meats and fish are carried by this store in great variety. We sell quickly and never have old stock. Consequently you are sure of that fresh natural taste — combined with the appetizing flavor caused by canning — in every brand. Those meats are delicious — as kept and sold by us. Canned and retailed under the Government Pure Food act.

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the SUMMERLAND REVIEW is to leave your business unprotected.

A WORD TO THE PUBLIC.

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will, you need have no compunctions of conscience.

PROPERTY EXCHANGE.

Mr. and Mrs. H. M. Lumsdon,
who have arrived from Cochrane,
Alta., have taken over the home
and orchard property of Mr. J. A.
Darke, who has in turn acquired
the Lumsdon property in Cochrane,
Alta.

Mr. and Mrs. J. A. Darke and
family, who are going out on Sat-
urday's boat for their new home in
Cochrane, will be missed by a large
circle of friends and townfolk
here. Mr. Darke was one of our
pioneers and has been a resident
for ten years. He was formerly a
Superintendent of Irrigation,
and has been contracting here for
a number of years now. He was
also prominent in the Men's Bro-
therhood of the Baptist Church.

RELIGION WORTH ADVERTISING.

"Religion is the only thing worth
advertising," declared Father Bern-
ard Vaughan in an address to an
audience of advertising specialists
in London, England, recently.

Discussing the question: "Ought
religion to be advertised," he said
that advertising was at once a sci-
ence and an art. It was science in-
asmuch as it was a study of psy-
chology with a view of discovering
the needs of the human race, and
it was an art, expressing itself in
pictorial painting and literature.
He defined advertising propaganda
as the art of arresting the attention
of the public; telling the public
where best to find what was most
wanted. It was waste of money to
advertise what was cheap and nasty,
because it was not wanted; it was
useless to advertise what was ex-
pensive and rare, because there was
no demand for it. The article to
advertise was the one which was in
universal request, such as flour,
footwear, clothes, or soap.

There was quite an array of
highly educated men pursuing the
profession of advertising—special-
ists whose mission it was to get
their message home by telling the
public, through type or pictures,
the story of their real wants and
where they could at once be fully
supplied and satisfied.

It is remarkable how much more
religious a person can be in a well-
fitting dress and a love of a bonnet
than in a lot of dowdy old duds.

Rifle Association.

**Good Shooting at R.A. Cup Shoot
Last Saturday.**

The association cup was down
for competition last Saturday, and
was won by W. J. Smith, Garnett
Valley. In the account of the pre-
vious week's shoot an error crept
into the report, it being satted that
Mr W. J. Smith had discarded his
usual rifle and used a rack rifle.
This was not so, Mr. Smith having
shot with a "rack" or government
issued rifle right along. In ex-
planation of the start shown below
it should be stated that this is for
those members who, for various
reasons, use the government rifle,
and who not shoot with a special or
private rifle.

ASSOCIATION CUP, 10 shots and
a sighter at 300 and 600 yards.
Highest possible scores, 100.

	300	600	Total
*W. J. Smith	38	43	81
J. Dunsdon	42	48	90
W. Nelson	44	43	87
O. Smith	42	39	81

*Start 10.

A special feature of the shoot
was the splendid score of J. Duns-
don at 600 yards, where, including
his sighting shot, he put on 10
bulls with 11 shots.

This week commences the Can-
adian Rifle League and Dominion
Salver Competitions, and all mem-
bers are particularly requested to
attend these shoots.

OBITUARY.

ARTHUR DOIDGE.

The death of Mr. A. Doidge took
place at the home of Mr and Mrs
Martin Beavis, on Sunday morning
last. Mr. Doidge, who was sixty-
six years old, came here from Sel-
kirk, Manitoba, some seven or
eight years ago, and has been ill
for the last six months, suffering
from an affection of the heart. It
is only about twelve months since
the death of Mrs Doidge, and dur-
ing his illness Mr. Doidge has been
with his daughter, Mrs Martin
Beavis.

The funeral took place on Tues-
day at Peach Orchard, the Rev. R.
W. Lee officiating at a brief ser-
vice held at the house and after-
wards at the graveside. A number
of friends attended, for the late
Mr. Doidge was one of the earliest
residents in our community, and
was very much liked and respected.

GERALD NESBIT JOHNSTON.

With a suddenness that came as
a terrible shock to his relatives and
friends death overtook Gerald Nes-
bit Johnston, on Tuesday the 19th
inst. at the home of a neighbor at
Shandleigh, Alta. The young man,
who was homesteading there, was
taken ill on Saturday the 16th with
an acute attack of appendicitis.
Feeling better on Tuesday he got
up and had been out of bed but
twenty minutes when death occur-
red.

The deceased, who was just
twenty-four, was the only son of
John D. Johnston, now of High
River, Alta., and until a year ago
resident in Prairie Valley for a
number of years. Gerald was a
student at Okanagan College, and
had many friends here, for he was
popular and well liked. A healthy
young sportsman, he was one of
our crack team of baseballers, and
a member of the Canadian Order
of Foresters. Besides his parents
he leaves three sisters who are with
their parents at High River, Alta.,
where the funeral was held on
Thursday, the 21st. The greatest
sympathy is expressed in town with
the family, especially with the be-
beaved mother who is prostrate
with grief.

The world's tallest flag staff will
be erected shortly in Kew Gardens,
England, by British Columbia.
The pole will be a 250 foot Douglas
fir. There has been some difficulty
in finding a shipping company who
would undertake the task of deliv-
ering this huge stick to English
port.

The opening of the Vernon Assi-
zes has been adjourned until June
2nd. This was necessary because
of the unexpected length of the
Kamloops Assizes presided over by
Mr. Justice Murphy, who will also
preside at Vernon.

Why does a young man embrac-
ing his girl at the garden gate,
just as the old man approaches,
remind you of a love scene at the
theatre? Because he is hugging
his girl before the foot lights.
