

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 7, No. 9

SUMMERLAND, B.C., OCTOBER 2, 1914.

Whole No. 322

A Deplorable Waste.

Seen just before his departure from Summerland with Dr. Westbrook and Professor Klinck, Inspector Cunningham was asked what had struck Professor Klinck most forcibly, he being the man to whom agricultural communities will look for suggestions and advice. Prof. Klinck's expressions of surprise at the deplorable waste of our natural wild grass was probably the most pronounced of several comments on points wherein local conditions might be bettered. Our hillsides and creek slopes are producing fodder of the highest quality for the economical raising of sheep, while at the same time our province is spending a huge amount annually in the importation of mutton and sheep by-products. The party were also greatly surprised to find imported coal being so largely used, and especially at finding Pennsylvania coal on sale in this Valley while the province has mountains of coal all around us. Mr. Cunningham fears that we are a most improvident people with a disposition to import everything instead of producing it ourselves.

Very naturally Mr. Cunningham immediately reverted to the fruit industry, sharply criticizing peach growers for their seeming indifference in not properly spraying for peach worm, which this year had caused heavy losses in peach districts. Lime sulphur was now to be had at a low price, as was also arsenate of lead, which should be more generally used on cherry trees. The defoliating of the latter, which had been noted in many orchards, would result in light or no crop next year because of the inability of the trees to produce fruit spurs during this year's growing season.

MORE LOCAL VOLUNTEERS FOR SERVICE.

Corporal T. E. Pares of the 30th B.C. Horse, who with other members of that corps came down from Vernon last week on a furlough, was recalled to headquarters about the middle of the week, and went up the lake on Wednesday morning's boat. During the short time he was back in Summerland, Corporal Pares carried on some recruiting work for his regiment to good purpose. It is regarded almost as certain that now the major portion of the first contingent of Canadian troops has been sent forward from Valcartier, the B.C. Horse, with other regiments, will be recruited up to the full war strength. The cry from the seat of war is still for more men, and as soon as the men now in waiting at Vernon have been sent forward to Valcartier, the men whose names Corporal Pares secured may be called upon to go into preliminary training in the north Valley town. The names of those enrolled, it will be seen, include several well-known throughout the community. They are Messrs H. J. Collas, R. W. Deans, Wm. Sauter, F. C. Naper, Thos. Whitfield, Jones, Darrach, Bindley, B. Newton, Wall, S. Peters, J. C. Kennedy, and D. Heron.

C.P.R. WILL EMPLOY 6,000 EXTRA LABORERS.

Montreal, Sept. 29. — Canadian Pacific Railway headquarters announced to-day that the road's officials have been authorized to employ a total of six thousand extra laborers at current wages during the next two months. The headquarters state that this has been done, in a measure, to relieve distress caused from the war. Special employment for between 450 and 500 has already been provided on the B.C. division. These are in addition to the several hundred men at work in the C.P.R.'s double tracking and the Rogor's Pass tunnel.

Beginning yesterday, October 1st, the Summerland-Naramata ferry will use the new public wharf instead of the cannery wharf.

Mr. O. Atkins of the Summerland Telephone Co. was taken ill on Tuesday and was removed to the hospital the next morning. Mr. Atkins' symptoms indicate typhoid.

Another Driving Accident.

Almost A Catastrophe.

The Peachland road was the scene of another accident last Saturday morning, during the pouring rain, and though on this occasion a team of horses were most prominent, an automobile was also directly concerned.

In a democrat laden with various supplies, driven by George Henry, and drawn by a team one of which, by a coincidence, was the mare that was in the Peach Valley mishap reported last week, Municipal Superintendent J. J. Mitchell was being driven up to the headwater reservoir on Trout Creek, to inspect the progress being made in the raising of the dam there. When on the Peachland road, near the Greta ranch, a Kelowna automobile was seen approaching, and knowing the averseness of the mare in his team to motor cars, Mr. Henry had the democrat drawn up close to a fence with the mare away from the approaching vehicle. The animal became restive, however, and after one of her plunges landed on the other side of the fence. The other horse was also dragged over, and the fence must have given way when the democrat was pulled over. On the other side of the fence was a bank of considerable angle down towards the lake, but though the democrat was tilted at an alarming degree, it did not at first overturn. The driver was thrown out, however, when one wheel struck a big boulder, but still pluckily held on to the lines, and was dragged for some distance along the ground before being compelled to lose his hold, when he remembers at least one wheel passing over his body. In the meantime Mr. Mitchell was unable to help control the horses, the lines being on the ground, and being encumbered with a heavy coat he was wearing, and a gun between his knees, decided to jump, seeing no other alternative. This he did after Mr. Henry had loosened his hold on the reins.

Under the circumstances it seems almost miraculous that there were no broken bones, for the frightened horses had been dragging their load over boulder-strewn land, and in addition along a steep incline. Robt. Callan was riding some distance behind, and after meeting the two shaken passengers, went forward to find the runaway. They had found the road again, but coming to a sharp turn, had overturned the democrat and dragged it some distance. About a mile from the start of their escapade the horses had come to a standstill, on a slight grade, completely blown, and still drawing the inverted democrat, somewhat badly battered and smashed.

The automobile which had quite inadvertently alarmed the horses, brought Mr. Mitchell back to Summerland, and the team was led in by Mr. Henry. That no one suffered any serious hurt beyond a little stiffness and soreness, and the horses no harm whatsoever, is indeed remarkable, and had it not been for the broken democrat, absolutely no damage would have resulted.

The three returned in the afternoon with another team and brought back the democrat bearing obvious signs of its mistreatment.

St. Andrew's Young People's Guild.

The Young People's Guild of St. Andrew's Church was re-organized for the winter season last Wednesday evening. There was a good attendance, and a good deal of enthusiasm manifested. The following are the officers for the current year:—

President—H. W. Treffroy.
Vice-President—Miss Zolla Brown.
Secretary—Miss McLaren.
Treasurer—Miss Lister.

The meetings will be held this year on Wednesday evenings. A competition is under way between slides led by Miss Jessie Mitchell and Miss Annie Stewart for the securing of the largest number of members. Next Wednesday evening's meeting is a social evening.

We can't just see why the war interferes with the sugar industry. The Germans have neglected their sugar beet culture and gone to raising "Cain."

LITTLE BUSINESS FOR SCHOOL MEETING.

The School Board held its regular monthly meeting on Thursday afternoon with Chairman McIntyre presiding, and Trustees Phinney and Johnson present.

The usual reports were received and the purchasing of a car of coal was authorized.

The following accounts were passed for payment:—
Teachers' salaries - \$625.00
Secretary - 10.00
Janitors - 31.20
Conveyances—
G. R. Hookham - 63.00
D. C. Thompson - 50.40
T. J. Garnett - 50.40
J. H. Bowering - 42.00

Public School Reports.

Following are the reports of the different departments of the Public School for the month of September, as furnished by the various teachers:

DIVISION I. Senior.
In order of merit.
Jean Ritchie, Irene Carefoot, Margery Hatfield, Edward Arkell, Pearl Darkis.
Junior.—Leonard Whitfield, Joe Gayton, Bernard Taylor, Mary Hatt, Melvin Monro.

DIVISION II.
The following is the report of the examinations held in Division II. of Central School during September, only the standing of first five pupils being given:
Senior III.—Frank Calder, Moses Marshall, James Marshall, Minnie Ritchie, Jean Caldwell.
Junior III.—Lizzie Walker, Ruth Graham, Thomas Washington, Carleton Clay, Betty Barnes.

DIVISION III.
Third Reader—W. Gayton, A. Munn, W. Yule, W. Caldwell, W. Keen.
Second Reader—Grace Garnett, R. Purves, Jean Ritchie, Geo. Garnett, F. Washington.

DIVISION IV.
The following children have been promoted from Second Primer to First Reader:
Arthur Holding, Archibald Scott, Cyril Taylor, Orville Dunham, Sing Ging, Ewart Bowering, Fred Holding, Margaret Ramsay, Thelma Howell, Dorothy Tomlin, Margaret Munn, Christina Pollock, Marion Hatfield, Anne Caldwell, Josephine Pentland.

Promoted from First Primer to Second Primer:
George Dewar, George Graham, Laura McLachlan, Mary Snow, Edith James.

September Examination Results—Second Primer Class—
First, Dorothy Tomlin; Second, Sing Ging; Third, Thelma Howell; Fourth, Ewart Bowering; Fifth, Christina Pollock.

First Primer A—First, Mary Snow; Second, Laura McLachlan; Third, George Graham.
First Primer B—First, Mary Ritchie; Second, Myrtle Dunham; Third, William Ritchie; Fourth, Betty Caldwell; Fifth, Eric Johnston.

TOWN SCHOOL.
September Examination Results.
Second Reader—1. Hilda Arnett; 2. Mabel Shields; 3. Marion Beavis; 4. Eileen Male; 5. Arthur Gartrell.
First Reader—1. Alvin Wilson.
Second Primer—1. Mildred Shield; 2. Lillian Hunt.
First Primer—1. Harvey Wilson; 2. Violet Atkins; 3. Campbell McAlpine.

CIVILIANS DRILLING.
With one hundred and fifty men enrolled in the two drilling classes now being conducted here Summerland is certainly making preparations for possible emergencies. The second class met for the first time on Tuesday evening last in Ellison Hall under the instruction of Capt. C. H. Cordy. Much interest was taken by those present, and a very promising drill was held. Capt. Cordy would like to have all who have enrolled and who possibly can be present at next Tuesday's drill. The earlier the practice is entered the more interesting for those participating.

"THE WORLD WE ARE LIVING IN."

First of Series of Two Lectures by Mr. J. McLean.

Although there was a fair audience, the attendance was disappointing to those who had arranged for the lecture given by Mr. J. McLean on Tuesday evening in St. Andrew's Church. Other attractions, no doubt, were responsible for the absence of a number who would otherwise have been present. The lecture being given under the auspices of the Hospital Society Mr. W. J. Robinson, President of that organization was asked to take the chair. In introducing the lecturer Mr. Robinson described Mr. McLean as a historian and a student with very advanced ideas. Mr. McLean was known to some of the audience at least as Prof. Oizmund.

Mr. McLean's subject was "The World We Are Now Living In." The speaker described religion as a sea of many shipwrecks, citing the rise and fall of the ancient nations of Assyria, of Egypt, Greece and Rome. Every student of history is impressed with the instability of religion and institutions. He described man's progress as a constant upward movement under the guidance of an ever active Providence, who was working out His plans. The downfall of each of the ancient nations was succeeded later by another further advanced in civilization. The history of England he described as a history of progress, particularly a progress of thought. Though down through the ages there had been apparent checks or reverses in man's progress he described these as only temporary ebbs in an onflowing tide, or as cataracts on the river of time. One of these great cataracts which opened up into a new condition of things was the French revolution which was followed by a new church, new laws and new institutions, and was an instance of some of the rapid changes man has experienced.

Mr. McLean described three different phases of the world's history, beginning with the time of Christ; Christ's coming, the 16th century, and the present day. Long before the introduction of the Christian religion the world was preparing for it. Grecian civilization had resulted in a world of materialism ready for a new religion which told of a brighter and better world beyond, a few hope for those who existed in a world of slavery.

The second phase or great cataract over which humanity had passed was opened up by Luther in the 16th century, when he made his appeal to human reason in all things human and divine, advising all to read and see for themselves. This appeal had resulted in far more than Luther could ever have realized, and had not the future been veiled from him he would have hesitated. There had sprung from this freedom of thought many varied doctrines and leaders of thought, not excluding the atheist. The Reformation had fought for us the battle of religious and civil liberty. Having attained religious and political liberties we were now about to enter a new phase, that of social liberty. Mr. McLean then pictured something of the inequality and conditions of man at the present time. Whether the great war now in progress will result in social liberty it was difficult to tell, but the industrial development of the last few years was a preparation for social liberty. The making of wealth was the first stage and was necessary to higher achievement as there could be no development without the freedom from struggle for existence which wealth gave the scientists and other students.

The lecturer could see in the immediate future the opening of a new day, the dawn of which was now breaking in which social liberty and the equality of man would be enjoyed to the full. Following the lecture a collection was taken in aid of the Hospital totalling \$8.35.

A second lecture will be given by Mr. McLean next Thursday evening in Empire Hall on the subject "The World We Are Going To."

The Daily News in New Westminster has suspended publication, and the company has made an assignment.

To Promote Demand For Canadian Apples.

Dept. Of Trade and Commerce To Take Active Steps At Once.

Ottawa, Sept. 28.—The Department of Trade and Commerce, under the direction of Sir George E. Foster, will conduct a Dominion-wide campaign to increase the consumption of Canadian apples through Canada.

Although the finest apples in the world are produced in this country, many Canadians have had to content themselves in previous years with apples imported from the United States. This was due to the fact that Europe, appreciating the quality of Canadian apples, imported them in very considerable quantities. The exports of Canadian apples to the United Kingdom have been running to 1,500,000 barrels a year. In addition, 75 per cent. of all the apples evaporated have been exported to Germany, Austria-Hungary, and other countries in continental Europe.

MARKET CURTAILED.

The war has resulted in a curtailment of the market for Canadian apples in Great Britain. It has also resulted in jeopardizing for this year the trade in evaporated apples, with continental Europe, for Germany was the clearing house for most of that trade.

In view of these conditions the Department of Trade and Commerce, as a general effort to assist in creating new sources of demand to replace those cut off by the war, has been seeking to devise some means of assisting Canadian apple growers in quickly changing the market for Canadian apples from export to domestic channels. In order to effect the change in the quickest possible way, the Minister of Trade and Commerce, Sir George E. Foster, has decided to advertise Canadian apples to the people of Canada, in order to increase the demand for them in the home market. All that is necessary in order to secure the increased consumption of Canadian apples in Canada, is to let the Canadians know the food and other values of the Canadian apples, and that instead of using imported fruits they may have this year the products of Canadian apple orchards that in previous years have graced the tables of Europe's nobility.

WELCOME TO GROWERS.

As the apple crop is now ready for harvesting, the announcement of Sir George Foster will be welcome to the apple growers throughout Canada. As the messages to the public had to follow immediately, and the preparation and

LECTURE AND LITERARY COURSE

An interesting series of lectures and other gatherings of a high order are being arranged by the Methodist Church to be held in the Men's Club during the coming winter. It is the desire of Mr. Lee, the pastor, to offer to the public generally a series of gatherings that will be educational, literary and social. No pains are being spared to make the series of great value and interest to the community. The lecturers and speakers are all well known, and the fact together with the subject chosen will be sure to create interest. Among others may be mentioned Rev. Dr. Crummy of Vancouver, who will lecture on "The Mythology of The Poets;" G. R. B. Kinno, B.A., F.R.G.S., the celebrated mountain climber, will give an illustrated lecture on "Mountain Climbing in Canada."

Rev. Dr. S. Lipprell of Vancouver will give a lecture on "Germany and the Germans." Dr. S. Lipprell spent nearly two years in Europe, and is quite an authority on his subject. This lecture will also be illustrated. Among the other lecturers will be Rev. Dr. Chown, General Superintendent of the Methodist Church of Canada; Rev. Mr. Hatt, will give an eloquent oration of Dr. Drummond's works; Rev. W. L. Hall and Mrs. L. Hall. Two or three other first class evenings are being arranged. Several leading citizens have already signed up as patrons of the series.

The Leak Stopped.

The cause of the continuous land sliding which has been giving so much trouble along the lake shore drive near the C.P.R. wharf was removed early this week by the replacing of old pipe with new in the domestic line on the hill above. There was on Monday some 600 ft. of old 2 in. pipe replaced by 4 in. closely wound wood stave pipe along the south of the Shields and Moreland lots. Supt. Mitchell, while positive that the cause of the slide has been removed, does not anticipate an immediate cessation of the trouble, and says that the earth may continue to come down for perhaps two months.

SHORT SESSION OF MUNICIPAL COUNCIL.

The Council met in extra session last Friday afternoon primarily for the purpose of receiving the report of the Public Works Committee as to just what work they would recommend being done for the \$3,000 to be expended on that ditch by contract with T. J. McAlpine.

Coun. Blair as Chairman of the committee reported laying out those portions of the ditch which they considered should have first attention. He also submitted a recommendation of his committee that all the proposed cement lining of the ditch be done at the present time, provided the contractor would take the balance of his payments, over and above the \$3,000, in municipal debentures, and do the work at the same rate. This recommendation was favorably received, and the matter will be taken up with Mr. McAlpine.

D. L. Sutherland, present in person, asked for electric light connection in his house near the high flume, and also that repairs be made to the flume on his father's lot at Trout Creek. Both these requests were referred to the Public Works Committee.

CIVIC WORKS NOW RECEIVING MUCH ATTENTION.

Such activity as now prevails under the Council's control, chiefly in connection with the municipal water systems, has had no parallel for a long time past. Reservoir, ditches, pipeline and electric light line are alike receiving attention, and being carried on simultaneously are providing work for a considerable number, who are largely ratepayers.

Robert Mitchell has his men busy on the project of raising the dam at Trout Creek headwaters, which is going to provide so much additional storage water against another dry summer such as 1914.

Contractor T. J. McAlpine has had men busy since the first of the week preparing parts of the south main for cement lining, and on the arrival of the cement that work will be put in full swing.

Superintendent Mitchell will soon be commencing similar work on the Jones Flat main, and in the meantime, the domestic pipeline near W. R. Shields' lot, which has been leaking freely to the great detriment of the lakeshore road beneath, near the C.P.R. wharf, is being replaced over a considerable length.

Electric lights are to be provided up the Gulch Road, and at the Union ice-houses, which will be an inestimable boon for all traffic, pedestrian and vehicular, on the dark nights of the coming winter. The poles for this extension are now being put in place.

Servian and Montenegrin troops now occupy the capital of Bosnia, a Balkan State seized by Austria some years ago.

handling of the campaign involved a great deal of work that had to be crowded into a short period, the Department of Trade and Commerce decided to entrust the whole campaign to an advertising specialist. Expert advertising men are now in consultation with Sir George Foster, Hon. Martin Burroll, Minister of Agriculture, and other officials of the Department of Agriculture, and the advertisements in the campaign will commence in a few days in publications throughout Canada, from the Atlantic to the Pacific.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.
LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 90 days.
WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.
THEATRICAL, ETC.—60c. per inch for first insertion, and 25c per inch each subsequent insertion.
LOCAL NOTICES or Readers, immediately following regular locale, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

Transient Advertisements payable in advance.
Rates for Contract Advertisements furnished on application.
Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

Current Comments

Timely Paragraphs by Other Editors.

EXIT TURKEY.

(London Daily News).

"Perhaps Turkey may be able to stir up some trouble in Egypt, but that peril is slight. The only certainty about the intervention of Turkey would be the disappearance of that blot from the map of the world."

RELYING ON BRITAIN.

(Echo de Paris.)

"We have never doubted the decisions taken in London. They mark one of the greatest events of history. Rarely has Great Britain been seen to interfere with all her forces in a war between the peoples of the Continent. That only happens about once a century, and when she has intervened the conflict has never terminated until the power which she was fighting for supremacy has been beaten and the equilibrium of Europe restored."

JUST FOR A WORD.

(Chicago Herald.)

"Without words, and faith in them, and keeping of faith to them, there could be no order, no security, no property, no sanctity of the home, no revered law, no culture, no civilization. There could be only disorder, anarchy; only the law of tooth and claw; nothing but chaos. The sanctity of the written or spoken word that man gives to his fellow-man is the most vital, the most sacred, of all the conceptions of the human mind."

"And yet 'just for a word,' or rather for the different moral values that the ruling minds of nations placed on that word, we see a continent plunged into a world-wide war, with all its unspeakable cruelties and all its immeasurable miseries."

A SYMBOLIC COSTUME.

(New York Sun)

War is declared: and in Berlin the Emperor of Germany rides in an open motor car down Unter den Linden; he is in full uniform, sworded, erect, heiratic; at his side sits the Empress—she, the good mother, the housewife, the fond grandmother—garmented from head to foot in cloth the color of blood.

Theatricalism? No. The symbolism is more significant. The symbol bears a savage significance. It marks, as a red sunset, the going down of civilization, and the coming of the dark barbarism of war.

"OUR SIDE" AND "GOD'S SIDE."

(Toronto Sunday World)

What a contrast the Kaiser's state of mind presents to that of Abraham Lincoln during the darkest days of the United States' civil war. On March 29, 1901, the Kaiser said at Berlin: "We shall be everywhere victorious, even if we are surrounded by enemies on all sides, and even if we have to fight superior numbers, for our most powerful ally is God, who since the time of the Great Elector and great king, has always been on our side." From the seat of this war, in August, he despatched this message: "With God's gracious assistance, Duke Albrecht and his army have gained a glorious victory."

Very different was the remark by Lincoln, in answer to the question whether he was sure that God was on "our side." "I do not know," he replied; "I have not thought about that. But I am very anxious to know whether we are on God's side." Vast is the chasm that separates these viewpoints. "God our ally" thinks and says the Kaiser, "and therefore committed to support every horrible barbarity we think fit to commit in his name." But what concerned Lincoln was whether he was on God's side, animated by motives and authorizing actions which, with all their imperfections, were yet in accordance with His will.

Summary Of The Week's War News.

For the past ten days the story of the European war has centred around the battle of the Aisne. The Germans have been strongly entrenched in a long line on the heights overlooking the river, and up the slopes the Allies have been exerting every effort to dislodge the invaders and overcome what must be their last stand on French soil. Warfare has never known such an artillery duel as has been carried on without ceasing for days and nights. Men have fought from their rain-flooded trenches, and chilled from their continuous exposure, must surely soon reach the limit of human endurance. In this respect the superior field organization of the Allies has meant much for their armies, who have outlasted the German invaders in an unflinching strength and vigor, and slowly but surely the enemy has been pushed back, paying a tremendous toll in human life for their resistance. The tone of the most recent telegrams seems to show that this great battle is entering upon its last chapter. A day or two now, and the news of the complete retirement of the German forces from the Aisne may be expected. Germany is fast reaching the final limit of her numerical resources. Her last line of reserves, male inhabitants over forty-five years of age, are now in the battle lines, and against the flower of the Allied army, cannot show the same fierce spirit that brought the Germans their early successes.

The naval side of the war still lacks the great sea battles by which Britain was expected to show her command of the seas. The German navy are still confined to the Kiel Canal, blockaded by the British ships. The sinking of the three British cruisers "Creamy," "Abou-

kir," and "Hogue," with the loss of over one thousand lives, may shortly bring forth a counter loss among the German ships, and may also lead to some move on the part of the British navy to force Admiral Von Tirpitz to fight his losing battle.

British commerce, and that of her allies, continues with little interruption beyond desultory captures by the "Leipzig" and "Emden" in the Pacific and Indian Oceans.

German New Guinea has been occupied by Australasian troops, and if the Japanese efforts to capture the German naval port of Kiau Chau on the Tsing Tau peninsula in China, is successful, the last German Pacific possession will have been wrested from her. British troops are reported to have been sent from India to assist the Japanese at Kiau Chau.

Turkey still wavers between neutrality and a partiality for Germany, apparently not realizing that to enter the war allied to the Kaiser will be to throw her very national existence into what is now visibly the weaker side of the scale. It is said significantly that Germany desires the release of her cruisers the "Goeben" and the "Breslau," and is urging Turkey to seek some pretext for war, thus allowing those ships again to enter hostilities in the Mediterranean.

In some quarters it is predicted that the height of the whole struggle will only be reached when the fighting ground shifts into Germany. This assertion time only can prove, but more tenacious, protracted, blood-spilling battles than have now been fought are hard to conceive.

FREE WAR MAPS

Every Reader of the Review May Have a War Map Free

A Map 3 1-3 x 2 1-2 feet, showing clearly every boundary, every city, every town, village, hamlet and river in the whole European War area. Each map in a neat folder of convenient size.

The Family Herald and Weekly Star of Montreal has secured exclusive rights for the War Map prepared by the celebrated map firm of G. W. Bacon & Co., Ltd., of London, Eng. It is beyond question the most comprehensive map printed.

The Review has completed arrangements by which our readers can secure a copy of this excellent map free of charge.

Here is Our Offer - good for 30 days only.

The price of the Family Herald and Weekly Star, Canada's wonderful newspaper-magazine, is one dollar a year.

The price of the Review is two dollars a year.

Such a map as we are now offering could not be purchased at retail for less than \$1.50.

I.e., the three are worth \$4.50.

We now offer both papers for one year each, including a copy of the War Map, size 30 x 40 inches, in a neat folder of convenient size, for only \$2.50, to all who pay their subscriptions for a year in advance inside the next 30 days from this date.

To follow the war situation intelligently the Family Herald War Map is necessary. It should be in every Canadian home.

ORDER AT ONCE.

Review Publishing Co. Ltd.

FRIDAY, OCTOBER 2, 1914.

BRITISH COLUMBIA is to have another mounted corps at the front. The Minister of Militia, Colonel the Hon. Sam Hughes, has authorized Colonel James McDonell, a Vancouver contractor, to proceed at once with the organization of a mounted corps of some five hundred men, all of whom will be expert riders and crack shots. They will be recruited chiefly from the interior of the province, and will follow the first contingent to England. Colonel McDonnell, who has been at Ottawa and Valcartier in connection with the matter, has arranged with a few associates to bear the whole cost of equipment. A prominent citizen of Vancouver, whose name is not divulged, has donated a number of machine guns, which will be taken with the regiment.

THAT MAN has not forgotten all the softening effects of civilization while at war in Europe was demonstrated when English officials undertook to get word through the United States to Grand Admiral Von Tirpitz of the German Navy, advising the leader of the enemy that his son, though captured by the English, was not wounded, and is safe. It is not many years since the son's head would have been sent instead of the news of his safety.

THE BELGIAN RELIEF MOVEMENT now being organized in all sections of the country has received generous aid from the province of Alberta in the shape of a donation of five thousand bags of flour. The object of this worthy movement is to provide some help to that heroic little country whose forces at the beginning of the war so bravely withstood the onrushes of the German hordes. The check the forces of the Kaiser suffered before the town of Liege has undoubtedly had a great influence on the present favorable tide of war for the Allies, in enabling them to perfect their lines of communication, and bring up reinforcements. But Belgium's resistance has cost her dearly. The country is completely decimated, not only in respect to her industrial and agricultural resources, which can in a measure be replaced, but more seriously in her manhood, which can be built up again but slowly. It is fitting that the world should aid stricken Belgium, and generously, for the debt of the world to Belgium is one that cannot properly be estimated. Another noteworthy gift is that of forty thousand sacks of flour from the Mormon Church in Alberta.

JAMES PLINY WHITNEY, Premier of Ontario, died suddenly in Toronto at noontime last Friday. His serious illness a short time ago will be remembered, when he lay at death's door in New York for some days, but it was thought that to a great extent he had recovered from the effects of that attack, and his death came in the nature of a shock. He had held the reins of government in Ontario since 1907, still holding his position at the time of his death. A notable preface to the premiership was his able leadership of the Liberal-Conservative Opposition in the Ontario Legislature, which Sir James held from 1896 to 1905.

KEEP ON SCRATCHING! No need to sit back and wait till the war is over! To do so would be fatal. Our opportunity is now. From various interviews given by Canadians returning from England one would judge that there is less indication of uncertainty there and waiting for developments than in Canada. One Canadian just back from England says that conditions of trade in Britain have now assumed their normal aspect, and in fact people were not so panic-stricken as they appeared to be in Canada. Both home and foreign markets will now begin to look to Canadian producers to supply them with the products of farm and factory that were formerly supplied by peoples now cut off by the war.

British Columbia Needs More Industries

Support those we have and others will come.

B.C. MILK is produced in our own Province, is always FRESH on the Grocers' shelves, and is much superior to Eastern brands, packed, no one knows how long ago.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

If you want to sell you must advertise.

Annual Report On Women's Institute Work.

A very good idea of the aims of the Women's Institute organization throughout the province of British Columbia, and how the different district Institutes are fulfilling their purpose, is conveyed in Bulletin No. 54, issued by the Provincial Department of Agriculture, and officially styled "Handbook of Women's Institutes, with the Report of the Advisory Board." It embodies the complete activities for the year 1913, of Institutes all over the province. The bulletin makes in the whole a comprehensive book of some two hundred pages. It was distributed to Institute members at the end of last week. Every phase of the many-sided Institute work is touched upon, many practical papers are reprinted, typical programs are reproduced, and a number of illustrations further brighten up the volume.

There is a good deal of interest in the report for Summerland readers outside of its general nature. A full page illustration shows the home of Mr and Mrs George Wolstencroft at Naramata, with part of its surrounding flower garden, known to all as a picture of loveliness every summer time. In a section dealing particularly with the reports of secretaries, attention is called to the reports of the meetings of the Summerland Institute, which is characterized by the way as a "business-like and enterprising Institute." These were sent forward by Mrs George Anderson, in accordance with the requirements of the Department of Agriculture, and are reprinted as being especially what is desired in this line.

Two papers prepared by members of the Summerland Institute appear in full, one by Mrs R. E. White, on "Labor Saving Devices in the Home," and a prize paper by Miss L. V. Mills on "The Advantages to a Community of Having an Institute," which gained the first award in the whole province.

The report of Mrs R. C. Lipsitt as Okanagan District Organizer also has due space.

The bulletin is one that might well be read by every woman in the community, whether an Institute member or not. It makes the ablest of advocates for Women's Institute work.

ACTIVITY in PAPER-BOX INDUSTRY

Indicates Increased Activity in Other Industries.

The paper box business is a good barometer of business conditions generally because it quickly feels any marked increase or falling off in the shipping orders of the many articles that are packed in paper boxes. It is, therefore, most encouraging to learn that the paper box manufacturers throughout the country are experiencing increased activity since the war began. The Rudd Paper-Box Company, for example, has increased its staff about 20 per cent, since the breaking out of hostilities, and in addition the employees in some departments are working overtime several nights a week. This company reports that the orders from manufacturers since the war began show a decided increase over the run during the previous six months. One customer, a manufacturer of a food product, has more than doubled his standing order of 200,000 boxes a month. Another customer has ordered 65,000 canisters as a three months' supply instead of his regular order of 7,500 canisters a month. Still another customer has placed an initial order of 50,000 boxes for a Mado-in-Canada article that is to replace a similar article that was imported from Germany before the war began.

The significant and encouraging fact in connection with the increased activities in the plants of the Rudd Paper Box Company, Limited, and other paper box manufacturers is not so much the increased activity in those plants in itself, as the great increase in the packing and shipping of orders by manufacturers generally that is indicated by the increased demand for paper boxes.

A tumultuous noise of the kingdoms of nations gather together, for the Lord must overthrow the host of battle. Howl ye, for the day of the Lord is at hand; and they shall be afraid. Pangs and sorrow shall take hold of them. They shall be amazed at one another. And I will punish the world for their evil, and I will cause the arrogance of the proud to cease, and will lay low the haughtiness of the terrible.—Isaiah 13: 4-12.

Getting Ready For Basket Ball.

Other meetings of various kind conflicted with that held on Tuesday evening in the office of C. A. McWilliams to consider the chances of successfully launching the Summerland Basketball Club into another season of organized activity. Plans in regard to the formation of an inter-town league were discussed informally, and the possibility of forming a local league with two or three teams was also mooted. Complete organization was not attempted, though Hilton Snider was elected captain pro tem. At the first practice to be held on Monday evening, the 5th inst., in the Men's Club, further steps in connection with the election of regular officers will be taken, together with other business left over for a larger meeting.

All the young men interested in basketball are urged to be present at the first practice on Monday, and help to put the sport on a thoroughly sound basis numerically, as well as otherwise. There will be the best of opportunities for those who do not yet know the game to "break in" this winter.

The Great War Map.

The great War Map advertised in the last issue of the Review is now being distributed to those entitled to a copy, and is proving far beyond expectations. The Map is the most comprehensive obtainable. It clearly and distinctly shows every City, Town and Village, River and Mountain, in the entire war area. With this map one has no trouble in following the progress of the war, and the positions of the several armies engaged. Being 3 and one-third x 2 and one-half feet in size, it affords ample space to give all the information desired. It is done up in a very neat folder in convenient form. The Map cannot be obtained except through The Family Herald and Weekly Star, but the Review has made very satisfactory arrangements with that great paper, by which our readers may secure a copy free of charge. The price of The Family Herald and Weekly Star is one dollar a year, the price of the Review is two dollars a year. We now offer, both papers for a full year each for only \$2.50, and to each person taking advantage of this offer inside of 30 days. The Family Herald will send free of charge a copy of their great War Map, which should be in every home in Canada. Remember there is a time limit to this offer, and no time should be lost. Renewal subscriptions will be extended for a year from present expiration date.

Tightening The Censorship.

It has been known that ever since the outbreak of the war the censorship maintained by the British Government over all despatches from the seat of action has been rigid to an unprecedented degree. From the standpoint of all loyal British subjects for any news of the war, this has made the despatches of the best news services seem unsatisfactory. Only vague details of some happenings of world moment have been allowed to filter through to the outside world, and in many cases even the location of the battle grounds has been veiled. It has led one to the reflection that the world will never know the whole story of this war till after peace is signed, and there is as yet no sign of the dove with the olive branch on the horizon.

It will therefore be learned with mixed feelings that the Imperial government has decided to lay down even stricter regulations than those which have held in the past. Yet, realizing that this means that the war news will be even more fragmentary, no one will dare raise a protesting voice if the success of the allied arms is to be more assured.

"It has been decided by the government," says a London despatch, "to allow no reports of movements of troops and no correspondents are to be allowed within 25 miles of the front. No reports of fighting are allowed until five days after the action has taken place, and none of the changes of positions of troops until seven days later. This practically amounts to a prohibition of cable service."

A voluminous "blue book" has just been issued from the press of the King's Printer, Ottawa, containing the complete report and evidence of the Commission of Inquiry into the loss of the "Empress of Ireland."

Fruit Ladders

J. E. PHINNEY

OUR NARAMATA SECTION

GILLETT'S LYE EATS DIRT

BOY SCOUT DOINGS.

Tuesday evening was given over to practical demonstration of ambulance work, such as making a stretcher, the firemen's lift, dragging an insensible man with ropes, methods of artificial respiration to resuscitate drowned, bandaging, splinting of fractures, and work of a like nature. The boys are very much interested in this work, and we hope to have soon a number of Ambulance Proficiency Badges in the troop. A visitor entering the church basement where the boys were at work, would have thought

The Old England

JULIUS W. A. BLOCK, NARAMATA, B.C.
Just Arrived direct from England:
ART SERGE—54 to 56 inches wide 50c. per yard. In Crimson, Green, Brown and Peacock Blue. Suitable for Curtains, Portieres, Table and Cushion Covers.
ALL WOOL SCOTCH, IRISH AND YORKSHIRE FANCY TWEEDS in Homespun Effects, suitable for Ladies' Skirts and Coats, 54 to 56 in. wide. \$1.50 per yd. Patterns of the above sent on application.
TARTAN RUGS, all wool \$2.25 and \$3.50 each.
TWEED HATS for Ladies, \$1.25 each.
 Any order for not less than \$3, and not weighing above 11 lbs. sent by Parcel Post inside the 20 mile radius FREE.

he had stumbled into a field hospital after a battle. Here was one boy with his jaw bandaged up, here another with an arm or a leg in splints, one on stretcher, one being brought to from drowning, one being pulled along the floor by a rope, and many other similar things taking place all over the room.

We are pleased to be able to announce that Dr Robinson has again started on his course of First Aid for the Scouts, and Thursday evening a large number of the boys listened to his talk on fractures, and showed by their many questions how eager they were to gain a good working knowledge of First Aid. After a hasty review of the last course of lessons on the arterial and ventricle system, the doctor went on to explain how to diagnose and splint simple fractures. There will be a meeting of this kind every Thursday from now on, and Naramata will soon have a goodly number of amateur doctors, eager to put their knowledge to some practical use. So, Naramattans, beware.

Friday afternoon a number of Scouts contracted to do a piece of work for Mr Fred Roe, the pay for which is to go into the Scout fund. The same evening a meeting was held by the Scout Governing Board, to consider the question of procuring a club room for the use of the Scouts. A report was also read of the doings at camp, and was approved.

In spite of the wet weather and muddy roads, the boys turned out in full strength for the Saturday evening meeting. The time was devoted to physical drill and exercises of various kinds.

A song service in the church last Sunday evening proved quite an attractive feature of the day. Mr W. D. Mackie presided at the organ most acceptably. The singing was confined to the old favorite hymns. Mr Harry Pitman sang the only solo of the evening, "The Holy City." There will be a similar service next Sunday commencing at 7.30, to which all are invited and it is expected that Mr Mackie will again preside at the organ.

Current Events — OF — Town & District

Mrs Simpson, sen., was a visitor to Pentiction, on Wednesday of this week.

Mrs W. Nuttall spent the week at Pentiction, the guest of her sister, Miss Bessie Mitchell.

Mr W. A. Robinson of Peachland spent the week-end in town the guest of his friends at Hotel Naramata.

Messrs Heid and Murray, of Summerland, spent last Thursday in the district on business for their respective departments.

The new schedule got out by the C.P.R. for the winter months leaves us without a boat service on Sunday, thus depriving us of one mail each week.

The Okanagan Trust Company have secured commodious quarters in the Supply Company's building and made the change on Tuesday of this week.

Mr James Wells has an apple tree in his orchard upon which a number of apples have but recently formed. The blossoms first appeared in August.

The force of men working on the dam was slightly increased this week and it is probable that by next week a call will be made for a still stronger force.

A number of our fruit ranchers are busy unearthing their crop of 'spuds', otherwise potatoes, but in most cases the reports speak of the yield being unusually light.

Hunting for mushrooms which have sprung up here and there in considerable quantities as a result of the excessive rains is proving an interesting pastime for both old and young.

Mr Hickey and his party who are spending a short while in camp near the Alexander residency report "progress," and hope to surprise their "down town" friends soon with some evidence of their good marksmanship.

Judging from the number of our youths seen striding up and down the streets on stilts of varying heights might lead the uninitiated to suppose that the population were being trained to anticipate another of Noah's floods.

Since the return of Mrs R. C. Robinson from the scene of the mining operations of her husband, where such favorable results are forthcoming, quite a wave of interest in mining and mining stock has spread through the town.

The Boat Co. have placed a very neat little bulletin board on the end of the first warehouse on the wharf. This is filling a long felt want. Uncle Fred, as some of his friends call Mr F. L. Roe, the designer, is responsible for the artistic workmanship.

Mr Clion Ireland, a son of Mr J. B. Ireland of town, landed in town last week with one of his string of fast racers, the "Senator," who won the half mile at Kelowna fair, and having several other creditable records. The animal is stabled here probably for the winter.

To camp for a night at Chute Creek and incidentally fish for klickaninnos appears to be among the youthful sports of town a popular pastime at present, but recent catches have been rather light, pointing to a considerable falling off in the size of the "runs."

The Sunday evening boat service to Summerland is being maintained as long as there appears to be anything like a demand. As this is a purely voluntary trip and run at the trifling fare of ten cents it behoves all who wish to see the boat run to turn out whenever it is at all convenient.

Mrs Raymond, who has spent the summer here as a guest of her daughter, Mrs Salting, contemplates returning in the course of a couple of weeks to her home at Battle Creek, Mich. It is probable that another lady from the same town, Mrs Campbell, who has been spending a year or so here with her daughter, Mrs Rounds, will return to her American home at the same time.

MAKING GOOD PROGRESS.

Advices to the Hon. Thos. Taylor, Minister of Railways, are to the effect that more than half of the track on the twenty-mile section of the Victoria, Vancouver & Eastern Railway, between Coalmont and Otter Summit, has been laid. This section is part of that to be used jointly by the Kettle Valley line and the V.V. & E. There remain but ten miles of steel to be laid. Ballasting has been done on a portion of the finished route, and track-laying is expected to be completed within a month at the present rate of progress.

Current Events. (Continued)

It is said that the last of the big list of railway bridges on the K.V.R. section between here and Carmi is being hurried to completion this week, and if so, we may shortly look for the appearance of the first passenger train. The other morning a lengthy train of box cars coming down from the summit, created for a while the impression that the road was already open.

Prominent among the visitors to Naramata this week were Fruit Inspector Thomas Cunningham, of the Department of Agriculture, accompanied by Professor L. S. Klink, head of the Agricultural Branch of the B.C. University, who are touring the province, getting information first hand as regards local conditions in order to be the better prepared to assist in the direction of furthering the cause of scientific agriculture in the province. Mr Carroll Aikins took the visitors over the district in his auto.

Next Sunday promises to be a red letter day in Sunday School circles, as the annual Rally Day services are being the feature of the morning's proceedings. The usual preaching service is therefore being withdrawn, and a special program of music by the school and choir will be the feature. Interspersed will be the reports from the heads of the different branches of church and Sunday School organizations. It is, in fact, such a service to which all, young and old, who are at all interested in church life and growth should attend.

In connection with the successes of Mr J. Aldridge of town, who won such a conspicuous success or series of successes at the poultry exhibit at the Kelowna fair last week, it might be well to add that everyone of the exhibits were home grown birds, and not imported fowl as at one time reported. In addition to winning, as the paper stated last issue, twelve firsts, seven seconds and two thirds, he was credited with a second and a third for Silver Pencilled Hamburgs—which latter were not of his own raising, but birds purchased in Summerland last spring.

Postmaster Bartlett has announced a schedule of post office hours which should meet with the approval of all unselfish citizens. The selfish one—if such there be, and where is the community without at least one sample copy—would expect the postmaster to remain on deck 24 hours and no time off on Sunday. The chief change is the shortening of the hours from 8 a.m. to 6 p.m., instead of till 10 p.m. In the evening the mail for the north closes at 9 instead of 10 o'clock as formerly. Miss Lois Wells has been chosen assistant postmistress. The changes both in the location of the office and in the hours are going to work out all right after the community once becomes accustomed to the alterations.

The Ladies' Aid meeting on Wednesday afternoon at the home of Mrs Cook drew a large and fully representative body of the church workers. The ladies spent a profitable two hours busy with their needles in preparation for the annual bazaar. The dainty luncheon served toward the close by Mesdames Allen and Booth was featured by a wedding cake prepared in honor of the twelfth anniversary of the marriage of one of the society's oldest members, Mrs Myers—Mr Myers, shy man that he is, did not appear on the scene to partake of the refreshments, but rest assured the ladies did not forget to send that gentleman a big healthy slice. The next monthly meeting is to gather at the home of Mrs Noyes on the corner of Third Street and Ritchie Avenue.

An American paper remarks:—"It is not too much to say that had the British failed at any single point the Germans would by this time have invested Paris."

Passing Events: Social, Personal, &c.

After a short visit up the lake, Miss O. M. Watson returned home on Tuesday evening's boat.

Dominion Fruit Inspector Clark spent Tuesday about the district, leaving for the south that evening.

Mrs R. C. Lipsett reached home on Tuesday evening after a stay of one week with her sister, Mrs J. B. Robinson, at Peachland.

Mrs Wm. Ritchie and son, "Jimmie," who have been in Manitoba and Saskatchewan for several weeks, reached home on Saturday.

Mrs L. R. Williams, after accompanying Miss Churchill and Dr Zella Clark to Peachland and Kelowna returned on Tuesday evening's boat.

About fifty head of grade cows, Hereford and Shorthorn, purchased by S. R. Darke during a recent visit to Alberta, are now on his range in Appledale.

Miss Gladys Limmer, now of Penticton, came up on Saturday to spend the week-end with her parents here, returning again on Monday evening's boat.

The C.P.R. pile-driver with its accompanying work crew and cabooses, having completed the work of replacing piles about the wharf here, was taken on down the lake on Tuesday morning.

Mr Gordon, who has been visiting here with his daughter, Mrs J. J. Blewitt, went out on Monday morning's boat for Vancouver. Later he will return to his home in Ontario.

Frank Whitfield, who has been operating the Shields blacksmith shop under a six months' option of purchase, has turned the business over to Mr Shields who is again in charge.

O. F. Zimmerman who has been carrying on a dairy business during the past few months as an adjunct to his orchard at Trout Creek, disposed of his cows this week, and has discontinued vending milk.

Word has been received here of the death of Mr Jos. Wells on the 22nd inst. at Victoria. Mr Wells was known to a number of our citizens, and spent some time here last year at the home of his daughter, Mrs J. N. Merrill.

Mr R. H. Helmer went out on last Saturday morning's boat bound for Ottawa, business calling him to the capital city for about two or three weeks. Mrs Helmer and children went up to Peachland at the same time, where they purpose remaining till Mr Helmer's return.

Dr Zella Clark and Miss E. M. Churchill, the lady missionaries from India who spent some days here last week, were prevented by the unsettled weather from carrying out their scheduled trip to Peachland last Sunday morning, and went up the following morning on the "Sicamous."

Two carloads of McIntosh Red and Jonathan apples were loaded at the Union warehouse last week-end for consignment to Sydney, Australia. These were for part of the order booked by the United Growers last spring for shipment to Australia. The price fixed at that time was a very satisfactory one.

Mr Harvey Thornber, one of the provincial horticultural staff, and a brother of Professor Thornber, spent several days here last week and this, gathering fruit for experimental work he is to undertake to ascertain the effects of cold storage on fruit, and the behavior of the latter under various cold storage conditions.

Mrs Augustus Derrick of Morriceville, Ont., arrived here last Monday on a short visit at the home of her nephew, A. A. Derrick. Mr Derrick's mother, who has been with him for some weeks, and his aunt leave again this week and will visit Seattle before returning to Ontario.

A week or two ago there were on display in the Review Office window two huge apples from the Woodworth orchards, for which we could not get a name, though a number of authorities were asked to name the variety. This week two more big apples from a tree bearing many more in Mr J. Rowley's orchard are shown, and are awaiting their variety name. One of these apples weighs 1 lb. 5 oz., the other an ounce less. With these is a pear from another local orchard of the King Karl variety and weighing 1 1/2 lbs.

The home paper is the mirror in which those at a distance see us.

A car of box shooks was shipped to Kelowna early this week by the Summerland Lumber Company.

Kenneth Kinnaird, accountant for the Vernon Fruit Union, spent Sunday last here with his wife and little one.

Take big papers if you are interested in Central Africa, but if you want your own biography take your home paper.

Mr and Mrs L. C. Woodworth returned from Princeton by automobile on Monday with Cyril and their infant daughter.

Postponing his departure for two days Mr J. E. Weldon went out on Monday morning's boat on his extensive trip to Ablers, Illinois and Florida.

Everyone is interested in an item of local news. If you know of any local happening that is not generally known, communicate the fact to this office.

Drs. Paxton and Illsley, veterinary surgeons, were passengers on Thursday evening's boat. Dr Paxton came in to raise the last quarantine imposed some time ago because of hog cholera. Dr Illsley is Provincial Inspector of dairies.

W. E. Rines, who has for several years been manager at "The Maples" Ranch, is moving to Peach Orchard this week, where he will erect a glass house and engage in gardening on his own account. Mr Rines and family will reside in the Raincock cottage.

Divine service will be conducted in the Methodist Church on Sunday next by the pastor, Rev. R. W. Lee. At the morning service at 10.30 a.m. the subject of address will be "What is Revelation?" The evening service will be held in the church at 7 p.m.

An editor should not be expected to know the names and residences of all your uncles, aunts and cousins, even if he should see them get on or off the boat. Tell us about it. It's news that makes the newspaper, and every man, woman and child can be associate editor if they only will.

The West Summerland Women's Institute meets next Friday afternoon at 3 p.m. in the High School building. A lecture on First Aid was expected by Dr Andrew, but as he will be out of town Mrs A. McLachlan has consented to give a paper on "Thanksgiving Dinner: How to Prepare and Whom to Invite." All the members are asked to bring recipes suitable to Thanksgiving. Rev. N. McNaughton will also give a paper on "The Sunny Side of Life."

Dr Andrew, G. N. Gartrell, E. C. Graham, and Jack Conway left early this morning by auto on a trip to the Hope Mountain district. They expect to be in the same vicinity where Mr and Mrs Behan are now residing, and some of the party purpose hunting for mountain goat. Mr Conway took the opportunity to reach Merritt, where he was going on business, in this quicker and more direct way. The party will probably be away about a week.

Mr J. M. Hadley of Nevada City, California, was a week-end visitor to Summerland, staying at the Felix Hotel. Mr Hadley is in Canada settling the affairs of his late brother, G. W. Hadley, who recently met his death in an automobile accident at Brandon, and included in whose many properties was a ten-acre orchard at Prairie Valley. One characteristic of Summerland fruit by which Mr Hadley was particularly impressed during his short visit here, was its unusual size.

It is your home paper that records your birth, publishes your marriage, and chronicles your death. To these journals, the forty page compendiums of the daily happenings in the world, you are not even a cipher. To get the least notice from them you must stand \$100,000, commit an atrocious murder, or have half-a-dozen living wives. But your local paper watches over you with loving solicitude all the time. If you are sick, it is sorry, and hopes you will soon be well. It tells when you come and when you go; when your house burns down and when you build a new one; when your Johnnie has the measles, and when your Mary has the mumps, and how much little Peto weighs on his arrival.

The Municipal Council will hold its regular monthly meeting next Thursday.

The electric light current is now turned on at four o'clock, and continues throughout the night.

Mrs J. P. Sharp, who has been visiting her daughter, Mrs Bentley, at Nanaimo, returned home on Saturday.

Mr and Mrs Gerald McLaine, of Vernon spent last week-end at the home of Mrs McLaine's parents, Mr and Mrs J. R. Brown, Trout Creek.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Mr and Mrs Hargreaves, accompanied by their daughter and nephew left on Tuesday for a six month's visit to their old home in Yorkshire, England.

Mrs C. H. Daly went to Penticton this morning to address the High School students and the senior grades of the Public School in the interests of the W.C.T.U. work.

It is reported that a tri-weekly train service between the Boundary country and the Okanagan will probably be inaugurated in the immediate future by the K.V.R. The matter is now under consideration by the railway authorities.

Some two or three weeks ago Mr F. J. Nixon received an injury to his foot by its being run over with a wagon wheel. It was improving very satisfactorily, but over-exercise during drills has necessitated its being put in plaster.

Beginning Sunday, October 4th, the Presbyterian service will be held in the Methodist Church every Sunday at three o'clock. At the evening service in St Andrew's Church next Sunday Rev. C. H. Daly's subject will be "Watchman Watchman, What of the Night?"

The ministers of the various churches in the district have had under consideration a "Go-to-Church Campaign." After much deliberation they have agreed to go forward with the enterprise. To this end, a thorough system of visitation of the whole district will be organized with a view of everybody attending church on Sunday, October 18.

Dr Wallace, a medical missionary to India now on furlough, and who upon the outbreak of hostilities went east to offer her services for the front has returned to Summerland and is staying with her sister, Mrs Wismer, Garnett Valley. Dr Wallace, when she reached Toronto found so many experienced volunteers ahead of her that there was no possibility of her being accepted.

Cherries in October! Yes, and good ones too. A quantity of fine big black, or rather dark wine colored cherries brought to this office by Jno. Tait have been the wonder and admiration of many. They are about the size of the Black Tartarian though scarcely as dark, and classed as semi-sour, though these specimens just gathered from the trees are not at all sour and very pleasant eating. They were said to be of the Olivet variety.

T. J. McAlpine now has several men at work in the south main ditch brushing out and widening it preparatory to putting in the cement lining. As soon as Mr McAlpine knows just how much work he is to do he purposes putting rails in the canal, beginning at the west end of operations where the cement and sand will be mixed and conveyed to place on cars. This plan does away with the building of a road along the upper side of the canal, which could be done only at great expense.

Mr J. L. Logie was a passenger homeward bound, on Wednesday's boat, returning from the Coast cities where he had been attending to some right-of-way business for the K.V.R. While in Victoria Mr Logie interviewed government officials with reference to the raising of the Trout Creek dam. The government engineers were not disposed to approve of the plan, but finally after an interview with Dr Young Mr Logie got his consent for the Municipality to proceed with the work, after promising that one or two minor changes would be made in the method of construction.

F. F. HANINGTON, Manager Summerland Branch.

THE OKANAGAN AMBULANCE LEAGUE.

(Contributed).

The League wish to acknowledge two further donations, one of \$1.45 from the High School and one of \$4.90 from the Garnett Valley School. Considering the size of the latter school we think this is a splendid contribution. The children in Garnett Valley must have worked well for the League to have attained the above results, and are learning already early in life to put their duty to their country before love of self.

The ladies have collected a large bundle of warm clothing at the Rectory all ready to send away. It consists of: 4 knitted cholera belts; 9 gay shirts; 17 pair socks; 15 woollen jackets for convalescents; eight hospital shirts for helpless cases, besides more work still to come in. Donations of pocket handkerchiefs to enclose in the above parcel will be most acceptable.

The women are doing their share, small though it may be, but they cannot continue for long without funds wherewith to buy material. It is for the men in Summerland, who, for various reasons, cannot offer their services to their country, but are living here in peace and comfort, to see that this work is still carried on. The League are not asking for much; 10 cents a week put into the Collection Box from every man would go a long way in supplying wool and material; shall it be said that we let this work drop because we were too selfish or too indifferent?

All individual donations will be gratefully received by Mrs. Solly, Hon. Treasurer, and for the benefit of those who have not noticed them, there is an ambulance collection box in each of the churches, one in the post office, West Summerland, and one in the Bank of Commerce.

A general meeting of all members of the League will be held in the Campbell Hall next Wednesday afternoon, immediately after the ambulance class, when the reports of the work done by the other branches in the Valley will be read.

Anyone interested in hearing these are asked to attend, especially members of the different committees, as fresh ideas and suggestions as to work may be so gained.

STUDY B.C. METHODS.

Summerland was recently visited by a large number of fruit growers from the State of Washington, who desired to get first-hand information of the methods whereby fire blight, which has been causing so much damage in their State, has been successfully controlled in this province. This gives gratification to Mr. Thomas Cunningham and his staff of the Insect Post Department, who have been waging an energetic war against fire blight in British Columbia—Victoria Colonist.

NEIGHBORLY ACTS.

One morning Jenkins looked over his garden wall and said to his neighbor:
"Hey, what are you burying in that hole?"
"Oh," he said, "I am just replanting some of my seeds; that's all."
"Seeds!" shouted Jenkins angrily. "It looks like one of my hens."
"That's all right. The seeds are inside."
—Christian Work and Evangelist.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 7, No. 10

SUMMERLAND, B.C., OCTOBER 9, 1914.

Whole No. 323

SEASON'S FIRST DANCE.

The hosts at the first dance of the season in Empire Hall on Thursday evening are to be congratulated in providing a most enjoyable program for their guests. Invitations had been sent out in the names of Messrs F. C. Edgar, J. C. Kennedy and E. N. Rowley, and in addition to the twenty-five or thirty couples who held the floor, there must have been present another twenty-five who sat out the dances or occupied the card tables on the stage.

In addition to the local guests there were also a number present from Naramata and a party from Penticton who autored up.

Dancing commenced shortly before nine o'clock, and continued through a varied program until about eleven thirty, when an interlude for refreshments also provided an opportunity for pleasant social intercourse. The light refreshments, coffee, sandwiches and cake were handed round by the hosts and a few masculine helpers. Dancing was resumed about midnight and again held sway until about two o'clock, when the party broke up after a very enjoyable evening.

The excellence of the music provided by Mr. and Mrs. Walters of Naramata, in itself added not a little to the satisfaction of the dances.

Donations To Hospital.

The Matron of the Summerland Hospital gratefully acknowledges receipt of donations between the opening of the institution and October 1st, as follows:

Mrs. L. B. Otley, rubber sheet; Mrs. R. C. Lipsitt, vase; Mr. T. P. Thornber, electric water heater; Miss Miriam White, 1 doz. gem tins; Miss Myrtle Ritchie, cake and raw fruit; Mrs. Hespeler, 2 enamel pitchers; Mrs. W. C. Kelley, grapes; Miss Aitchison, grapes; Master Phinney, fish; Mr. J. Downton, quarter of mutton; Mrs. Geo. Ross, 1 pr. blankets; Mrs. Tullet, bread; Mrs. R. E. White, 1 pr. chickens; apple jelly; Mrs. W. H. Hayes, measuring cup, 2 gravy strainers; Mrs. Geo. Graham, fruit; Mrs. R. W. Deans, fruit; Miss Hipsley, bread knife; Mr. and Mrs. J. L. Hilborn, 1 doz. tea knives, 1 doz. tea spoons, 1 doz. tea forks, 1 doz. dessert spoons, 1 doz. table spoons; Miss M. S. Aitchison, 14 bottles tomato juice; Mrs. R. Atkinson, vegetables and bread.

There is yet need for white enamel wash basins, cups and saucers, old linen and blankets.

PATIENTS DURING SEPTEMBER

Patients treated 6; number of days treatment 20; operation 1; confinement 1.

SCHOOL REPORT.

Following is the report of Garnett Valley School for the month of September:

SENIOR III.—Eva Smith.

JUNIOR III.—William Smith.

SECOND READER.—Dorothy Dundson, Florence Campbell, Noel Wright, Mason Merrihow, Arthur Wismer.

SECOND PRIMER.—Marjorie Atkinson, Arthur Dundson, Rupert Wright, Harry Dundson.

FIRST PRIMER.—James Dundson, Janet Wismer.

A GREAT WAR MAP.

We would gladly distribute free of charge to every Review reader a War Map, but an indiscriminate distribution of the Map we are offering is impossible. It is the best War Map issued beyond question. It is 3-1/2 x 2-1/2 feet, and shows every city, town, village, and hamlet, every river and mountain in the whole war area.

We offer the Review and that great weekly, the Family Herald and Weekly Star for one year each for \$2.50, and every person taking advantage of this offer will receive from the Family Herald a copy of the War Map Free of Charge. The offer means that you are practically getting one of the papers for a year free of charge. The offer is good for 80 days only.

LOCALS.

Monday next, October 12th, is Thanksgiving Day, a holiday being observed all over the country.

Mr. David Lister, now stationed at Okanagan Landing, arrived on Monday evening for a short visit with his family here.

Principal S. Everton of Okanagan College, preached in the Kelowna Baptist Church on Sunday last, returning home on Monday evening.

The Poultry Association are now making weekly shipments of eggs. The members are requested to bring their eggs to the Secretary not later than noon each Monday.

Matt. G. Wilson of Paradise Ranch appeared in town early this week with a dislocated shoulder for medical care. He had been up the mountains on horseback, and returning on foot to a tree where he had left his horse tied, proceeded to mount. The saddle slipped round, however, and Mr. Wilson was thrown to the ground, with injury to his shoulder.

At the Okanagan Ambulance League ton cent ton and exhibition of work already completed, held yesterday in the Men's Club, the sum of \$22.20 was taken in, made up as follows:

Ambulance League ton	\$12.70
New membership fees	2.00
Donations to the League	6.50
Total	\$22.20

The Fruit Markets.

Cleanings From B.C. Market Commissioner's Latest Report.

REGINA, SASK., Sept. 30.—Peaches practically cleaned up, a few very fine. Summerland Elbertas wholesaling at 95c to \$1; retailing, \$1.15 to \$1.25. Prunes just about cleaned up at 75c wholesale, retailing at \$1. Some inferior and soft B.C. French prunes were being jobbed off. Okanagan consigned Pond's Seedlings had unfortunate effect on sales of F.O.B. Ponds to wholesalers. The Ponds are of splendid quality but there is a glut on the market and large quantities were sold, wholesale at 75c to 80c, and retailing at 90c. Golden Drops, Yellow Eggs, Silver Prunes, Green-gages, selling at 80c to 85c wholesale. Some fine Columbia Flemish Beauty pears are on sale at \$2.50 wholesale. Though not soft, they are somewhat too fully ripe to meet the requirements of the trade. They retail \$2.90 to \$3. B. D'Anjon same prices. Ont. baskets retail 85c. Hyslop crabs seem to be moving readily into consumption, their quality being frequently highly commended by the trade, wholesale \$1.50. Ripe tomatoes cleaning up at 75c wholesale, some particularly fine ones securing \$1.

The low prices of Ontario apples have resulted in purchases by many retailers. Ontario shippers have been very active in this territory by circular and representative. One retailer will handle 8 cars of Ontario barrel winter apples. Another has arranged for 3 cars of winter apples, one from B.C., one from Ontario, and one from Washington. Others again will pursue a hand-to-mouth buying policy. A car of Ontario Longfields, Haas, Greenings, etc., now on sale, was purchased direct by the retailer at \$1.60 F.O.B. He is retailing them as low as \$3.95, and \$4.35 for the best. Wholesalers have been offered best varieties Ontarios, on consignment, on basis of \$1.50 guarantee.

Some very fine Washington Extra Fancy Jonathans are now on sale at \$1.75. B.C. Wealthys and McIntosh Reds, No. 1, very popular, are moving at \$1.50 to \$1.75. The crate pack is selling readily at \$1.95 to \$1.50. Wealthy No. 3, standard box, selling wholesale \$1 to \$1.15, retailing \$1.50. McIntosh No. 3, retailing \$1.50. Peewaukees very difficult to sell. Most box apples are from Okanagan, but saw some very fine Jeffries, Wealthys, Wolf Rivers, etc., from Columbia.

Many cars of B.C. potatoes have been sold at \$1.10 per bus, wholesale, but we shall have to meet competition both from Ontario and from Minnesota. Alberta potatoes can be laid down by the wholesaler for 82¢ per bushel, Ontarios (it is claimed) as low as 75¢ to 78¢, and a Minneapolis quotation offers them at \$1 delivered.

The Regina Public Market has just been re-opened, owing to the efforts of ladies clubs. Some 8 or 9 stalls are open, but many are vacant, public patronage is apparently weak, and there is no present indication that the Calgary success will be duplicated here. The ladies themselves are managing it, and Mrs. C. Fraser, 1320 15th Ave., the chairman of the committee, will undertake to see that B.C. fruits are sold on a commission basis.

The Dominion Fruit Commissioner furnishes information as follows, Sept. 30: Aberdeen—Excellent demand for colored varieties. Prospects much better, Glasgow—Nova Scotia apples, No. 1, 16s. to 18s.; No. 2, 18s. to 15s. London—Barrelled American apples selling to-day: Wealthy, 15s.; Kings, 14s.; Greenings, 10s., by auction. American Bartlett pears, 40s. per bbl. Manchester—American pears, 14s. to 21s. per bbl. King apples, 20s. to 21s. Liverpool—Canadian apples, No. 1, 17s. to 23s.; No. 2, 15s. to 10s. Nova Scotia—S.S. Numidian, cargo to Glasgow, netted the United Fruit Growers, Ltd., \$1.00 per bbl. for No. 1 and No. 2 Gravensteins. British Columbia—Twenty-five cars B.C. apples exported to Australia. Apples going out as fast as can be packed, mostly consigned. Eight cars of American apples in Vancouver last week. Six condemned on account of Codlin moth.

EDMONTON—Three or four cars of Nova Scotia Gravensteins have

The Council Meeting

Long Session Largely Devoted To Discussion Of Water Question.

At the regular monthly session of the Municipal Council held yesterday afternoon and which extended well into the evening, the water system occupied much of the time, with general discussion on the various phases of the work. At times there developed marked differences of opinion on the method of procedure, both for construction and financing. Particularly was this noted when the lining of Jones Flat ditch was introduced by the Reeve, who urged that the work be started at once, and be done by the municipal staff, and only stopped if it were found impossible to sell sufficient debentures to complete the work. Councillor Stark maintained that the Council had already decided to call for tenders for that work. It was now too late to call for tenders, even if specifications were ready, was the Reeve's claim, and the Engineer had not been able to get them ready. On the other hand the Reeve said no specifications were needed if done under the Superintendent. A majority vote decided in favor of "day's work."

It was also decided to only raise the Trout Creek dam the 3 ft. 4 in. now being done by R. Mitchell, and expend all further energies on the distribution systems.

With the exception of Council Johnson, who is acting as inspector for the Municipality on the Trout Creek dam, all members were present.

SUNDRY REQUESTS.

Miss Clouston was promised that the flow of water along the siphon pipeline crossing her orchard would be stopped, and also that the road near her father's home would be ditched to carry off water accumulating there.

G. R. Hookham for the Home Guards was promised lighting for a triangular parade ground in front of the Municipal Offices.

E. O. James' request for domestic water was referred to the Public Works committee.

P. Thornber was granted leave of absence.

On the motion of Councillors Stark and Blair the lights will be extended yet further up the Gulch Road, the road from the

(Continued on page 5).

been shipped to this market. Wholesale, \$4.50 to \$4.75. Ontarios have been offered for \$1 guarantee shipping point. Not many Washington apples on market. B.C. No. 1, \$1.30 to \$1.50, crates, \$1.20 to \$1.85.

MEDICINE HAT.—Wh. Wash. Italian prunes, 90c; Yakima Salway peaches, \$1; B.C. Ponds, 75c; B.C. Wealthy, \$1.30; McIntosh, \$1.50; pears, \$2 to \$2.50; crabs, \$1.50; Ontario grapes, 30c a basket, 6 qts. Fruit trade brisk. Most fruit from B.C. wholesalers seem to be holding back on winter apples. By what I can hear, they expect to handle on consignment. Ontario apples will be handled.

OITAWA.—Demand for apples fairly good in Great Britain. American apples sold in Glasgow yesterday, 13s. to 20s. Regular sailings from Montreal. Rate only 12c advance on previous years. Very little fruit reported wasted in Ontario. Ontario winter apples selling \$2.10 to \$2.25 at shipping point. Very few sales so far. Apples being consigned freely.

CALGARY.—Oct. 8.—Very few peaches on the market. A few late Yellow Freestone peaches from Yakima now wholesaling for \$1.40 retailing 30c to 35c a doz. Yakima Salway peaches, now rolling, have been bought at 85c (laid down 20c duty, 20c 1/2, 4c leo, total, 79c) and may sell, wholesale as high as \$1.25. A few prunes are still on hand, wholesale, 65c to 75c and the Pond's Seedlings, Grand Dukes are cleaning up at about the same price, retailing at 85c. Good demand for Hyslops, the price remaining at \$1.35 to \$1.50, wholesale, retail, \$1.60. Ripe tomatoes practically off. Green tomatoes are offered, retail, at 95c. Local and Victoria hot-house tomatoes retailing 15c to 20c a lb. B.C. McIntosh apples are arriving in considerable quantities. Wholesalers have been trying to hold prices at \$1.65 to \$1.75, which is the

Summerland Basketball Club

There must have been more than twenty-five young fellows at the Men's Club gymnasium on Monday evening, when the basketball season for the coming winter was thoroughly inaugurated. It was only to be expected that some of the tyros would show short-windedness, and that combination and shooting would not be of the best. Nevertheless, there promises to be enough talent to run at least two teams for practice purposes, and from these could be chosen a squad of five that is sure to make a smart showing in any league that is formed.

Penticton is organizing a home-league of its own, but there will probably be exhibition games from time to time during the coming winter between that town and our own. If the College boys get their team into shape, however, and Naramata and West Summerland are able also to form teams, a four-team league should cater thoroughly to the desires of all basketball enthusiasts.

After some preliminary practice on Monday evening, a meeting was held to organize for the season.

Officers were elected as follows:

Hon. President,	Mr A Stark
President,	Mr E. B. May
Vice-Presidents,	C. N. Borton,
	G. N. Gartrell,
Secretary-Treasurer,	C. Lavis,
Captain,	H. Snider,
Vice-Captain,	J. Craig,
Manager,	J. Lawler.

To a committee of three, consisting of the captain, vice-captain, and manager, was entrusted the work of making arrangements with the Men's Club management for the use of the gymnasium, and also a practice campaign. The membership fee was re-established at \$1, and a committee of three named to collect this amount from members, to ensure that all are paid in. It was suggested at one time that the scope of the club be widened to embrace such exercises as punching the bag, boxing, and possibly some gymnastic work, but this was finally left in the hands of the committee of management.

A West Summerland team is already something more than talked of. A captain has been appointed in Arthur Pentland, and practices are held every Tuesday evening in the College Gymnasium. The College also having formally reorganized their Athletic Association, there are at least three teams awaiting the formation of a home league.

Reorganization of the ladies' club is being talked of, and will likely be effected in the near future.

least these fine apples should move at, but cars bought direct by retailers have enabled the latter to sell No. 1's at \$1.65 and crate-packed McIntoshes at \$1.30 to the consumer. As a result, the wholesale price of No. 1's is \$1.50, and of crates, \$1 to \$1.10. These crate-packed McIntoshes are very good, indeed, of their class, being practically an orchard-run jumble pack, from which it is possible to pick out many No. 1 apples. Wealthy No. 1, selling wholesale, \$1.35, retail, \$1.55, orchard run, \$1.25, No. 3, \$1. Ponds, Howells and Flemish Beauty, \$2.25. A few Okanagan grapes, inferior to Ontarios now on the market sell, wholesale, \$1 per box. Nova Scotia Gravensteins have proved here, as elsewhere, a disappointment to the trade. Some six cars were distributed between Calgary and Edmonton. In Calgary prices opened at \$5.00 for No. 1's, but have now dropped to \$4, without having the desired effect in moving the fruit. Potatoes sell, wholesale, \$35; onions, the same, though demand is not good.

Calgary public market fever has become epidemic. Another privately owned market will open Oct. 7, the fifth counting the original municipal market.

British Columbia fruit is high in public favor this year, so much so, that a Greek in one of the Central Market stalls, was impelled by motives of self-interest to assume the name, Vernon Fruit Company. When legal measures had persuaded him that he could not thus appropriate the name of an existing firm, he was still bound to stay with B.C., and his sign now reads Kelowna Fruit Co.

J. FORSYTH SMITH, B.C. Market Commissioner.

NOTED MISSIONARY COMING.

In connection with the Methodist Church, two events of great interest will be held next week.

On Tuesday evening the Rev. Gordon Tanner, B.A., of Kelowna will visit Summerland and give a stereotypical lecture on "The Life of Christ." Mr. Tanner has some most excellent pictures, which always win great favor. The gathering will be held in St. Andrew's Church at 8 p.m., and an offertory will be taken.

On Thursday night a very special gathering will be held in the Methodist Church. The Rev. W. H. Pierce, for thirty years a missionary among the natives of B.C., will tell his life story. Mr. Pierce is native born, and is a man of remarkable talent. As a ready speaker, full of wit and humor, he has few superiors. This meeting will commence at 8, and an offertory will be taken.

PEACHLAND NOTES.

Mrs. A. E. Young is suffering from a tedious attack of a gripple.

Rev. Mr. Evans of Kelowna occupied the pulpit of the Baptist Church on Sunday evening.

Mr. Leah, representing the Vernon News, was in town during the early part of the week, taking subscriptions for his paper.

Private Laidlaw returned to Vernon this morning. Privates Henderson and Morrison have had their leave extended for two weeks longer.

The Women's Institute will hold its regular meeting next Tuesday afternoon in the usual place. An interesting program is prepared for the occasion.

Miss Bessie Seaton gave a party to her young friends on Tuesday evening in honor of Miss Jean Polard. Cards and dancing proved very enjoyable to all.

Mr. Samuel McGirr is suffering from an attack of low fever, of the typhoid class, and had to come home from the road camp where he was working.

Mrs. Somerville, who has been confined to the house for a couple of weeks, suffering with erysipelas, is, we are pleased to note, now making rapid progress on the road to recovery.

A movement is on foot in our midst towards preparing a box of clothing, blankets, etc., to forward to the destitute Belgian people whose country has been devastated in the present war.

Mrs. Hayward left for her home in Naramata on Monday evening. Mr. Hayward preceded her the previous Monday. Both had spent the summer months with their daughter, Mrs. John Wright.

Mrs. Herbert Logan, who is enjoying a visit from her mother and sister, Mrs. and Miss McDonald of Regina, entertained at a thimble tea on Monday afternoon in their honor, the visiting ladies at the same time paying their respects, and welcoming Master Kenneth McDonald Logan, who arrived recently to make his home here. A very enjoyable afternoon was spent by all.

Robert McDougall, late city editor of the Vancouver Province, has resigned his position on that paper and has purchased the plant of the Penticton paper, which he proposes to run in an up-to-date way, making it second-to-none in the Valley. Mrs. McDougall accompanied him as far as Vernon on his way back, but stayed there for a time to visit her parents, Mr and Mrs. Jas. Silver.

A large number of Maags paraded to the Methodist Church on Sunday morning. Rev. A. Henderson spoke on the text "Am I my brother's keeper." Miss Jean Rollard, of Winnipeg sang very sweetly and clearly "The Lord is mindful of His own." Miss Dorothy Harrington accompanied her on the violin. At the close of the impressive service the Maags marched out while the organist played "Onward, Christian Soldiers." The congregation then dispersed.

No man ever led his son astray by leading him to church.

in numbers equal to the army from within her own shores, and in food supplies an inexhaustible store.

NOT WITHOUT BLOODSHED after all, will the history of the "Komagata Maru" incident be written. The boatload of truculent Sikhs who sought to establish a right as British subjects to enter Canada a few weeks ago, were treated at Vancouver with the utmost patience and tact by the Dominion Immigration authorities, who sought to turn them back, but without a sharp conflict. Indeed, so patiently was the threatening behavior of the Sikhs borne, that it became exasperating, and some openly counselled recourse to violent measures to get the ship's stem pointed back to the Orient. But the mild firmness of the officials had its way, and in due course the "trouble ship" sailed back across the Pacific, without landing its passengers. A dispatch from Calcutta tells the end of the story: "The Sikhs, passengers on the steamer 'Komagata Maru,' who were refused permission to land at Vancouver, B.C., arrived at Bajbaj last Saturday. Some of them refused to board a train for the Punjab, and opened fire with their revolvers. One European was killed, and several others, including the police were wounded. A Punjab policeman was killed and several were wounded. The troops were compelled to fire to check the rushes of the Sikhs, and 16 of the rioters were killed. The remainder were scattered to surrounding villages and later were rounded up."

Timely Paragraphs by Other Editors.

PRACTICAL PATRIOTISM. (Hamilton Herald.)

An excellent way for Canadians to exercise patriotism at this time is to give effect to the "Made-in-Canada" movement. Let us buy Canadian-made products in preference to those made abroad, and thus help to provide employment for Canadian workers.

THE CANADIAN ACTION. (Rochester, N. Y., Herald.)

There is no legal process by which Great Britain can command a single Canadian soldier to enter the field in her aid or even in her most needful defence. Great Britain cannot legally take a dollar of Canada's money for this or any other war without Canada's consent. All must be given voluntarily if it be given at all. Yet men and dollars are given to the limit of Canada's power to give, just as if Great Britain had both physical and legal power to exact them. Indeed, it is possible that they are given more freely in this way, for what a man gives because he wants to give is likely to be greater than what he gives under force.

All in all it is a noble picture of devotion to her motherland which Canada offers to the gaze of her admiring neighbor.

THE STRONGEST LINK. (London Times.)

The men who are hurrying to our shores from across the seas, or who are arming to safeguard the Empire where they dwell, can scarce realize themselves the strength of the feeling they have stirred in us at home. They are welcome for the great and valuable addition they make to our forces in the field. They are more welcome far for the proof their presence brings that the Empire enters upon the greatest of all wars, one in mind and heart. We know what that means to us for the moment. We have a dim but settled sense of what much greater things it promises for the future. It repeats the good augury it spoke in the Boer war, and by repeating that glad presage in new and louder tones it brings the realization nearer. If the Empire issues victoriously from the war, as by the blessing of Heaven we trust and believe it will, it will be different from the Empire which goes into the conflict. Common effort, common labors and sufferings, common sorrows, and, as we hope, common triumphs will have confirmed and strengthened all the ties which unite the several peoples. To all the old memories and the old sense of kinship will be added the new memories of what they have done and undergone together. The tie of blood is strong always, but it is strongest of all when it has been consecrated and cemented by war on the same battlefields for the same just cause.

CAST DOWN THE WAR GOD. (British Weekly.)

We had to take arms against the German Emperor, and against as many as have been baptised into the same communion of corruption. He has revealed himself as a tyrant whose whole life has been a lie. We have endured as well as we might his brutal arrogance, his egotism carried to a degree hardly compatible with sanity. He has led his people to this pass through a long train of villainous intrigues and years of deliberate calculation and falsity. Of all poisons mingled in the cup of national death, the ambition for universal authority is most deadly. The German Emperor has cast out of his people the spirit of liberty. A nation cannot hold other nations in subjection and remain free. He and his colleagues have treated their adversaries as dust under their feet. They have looked upon the world as a Gehenna redeemed only by their presence. Though the course of the war has been brief, its significance has been unexampled. We will not dwell on the frightful outbreaks of sanguinary vindictiveness which have struck the civilized world with horror. Those outbreaks were all the more frightful because sanguinary passion affected the language of righteousness and even of religion. At all costs we have to cast down the war god from his column. The life work of the German Emperor is now tried by fire, and is already shrivelling in the flame. That many good and true hearts among the German people condemn as sternly as any of us what has been and what is to-day we do not doubt. They are in such a plight that they dare not express their dissent, and even if they took their life in their hands and expressed it we should never hear a word.

FILL THE CHURCHES BY ADVERTISING.

"A MODERN WAY of going out into the highways and hedges, would perhaps be to go out and put an 'ad' in the paper" says the Literary Digest. The economy of this method, and the effectiveness of the appeal that cannot be made as universal in any other way has had, whenever tried, surprisingly good results. One instance of such an appeal made to the citizens of an Eastern city, and its success is instanced by the Literary Digest: Sunday, September 21, was selected as "Everybody at Church Day." The pastors of twenty churches inserted a full-page advertisement in the Saturday edition of one of the most widely circulated dailies. The first half of the advertisement was an appeal to the public on the social duty of churchgoing, and it began in these words: "The man who stays away from the polls on election day fails in a duty to society. Good citizens call him unpatriotic, and rightly. Every man should take his stand one way or another at the polls.

"It does not occur to most people that staying away from church is a kindred failure in duty to society. Men must vote for or against the Church. It does not occur to most persons that non-attendance upon religious services is really nothing more or less than a vote against religious services—a vote to remove them from society.

"Go to almost anyone who is not a church attendant, and say, 'I see you do not believe in God.' He will answer indignantly that he does believe in God, even if he does not think it necessary to express that belief in Him by attending church and doing him reverence. But how is the world to know his sentiment if he does not cast his vote? The world knows that by the mere action of going to church a man says 'I believe in God.'

The lower half of the page was given to a display announcement of the services of each church. But the real interest in such means lies in the way the end is attained. And according to the Christian Advocate, the ministers were satisfied of this score:

"The outcome of this first attack of the united church forces on the lukewarm, the backslidden, the easygoing, was a notable increase, in every instance, at both the morning and evening services, though the day was somewhat lowering, and in the afternoon and evening there was a steady rain. The ministers expressed themselves very freely as highly pleased with the experiment, and entirely hopeful of the future."

On Sunday, October the eighteenth, special services will be held in all of Summerland's four churches, and an especial appeal is made to everybody to attend church on that day and to continue regular attendants. The Churches' "ad" appears elsewhere in this issue.

HELPING BRITAIN TO WIN.

AT THIS TIME when England's hitherto unquestioned world supremacy is being challenged, the loyalty of every true British subject pulsates faster in his veins as from time to time, incidents come to light showing how the Mother Country's stress brings solidarity to the entire empire. Two more such incidents have come to light during the week, small in themselves, perhaps, but still fraught with significance, involving two classes of British subjects, sharply in contrast in almost every particular excepting their common citizenship.

From the other end of our own country comes the news that a purely French-Canadian contingent is to be organized immediately for service abroad. To be recruited from the provinces of Quebec and Ontario, this military unit is planned to number five thousand men in four regiments. French-Canadian money will finance the undertaking, which has the backing of legislations in both provincial and dominion governments. Premier Borden and Minister of Militia Col. Sam Hughes have approved the formation of these loyal French-Canadians into a distinct division, and when a second Canadian contingent is mobilized this five thousand will be ready.

Just as loyal is the heart of the veteran Boer General, Francois Joubert-Pionar, who is now in France, offering his sword to the Allied armies. "I fought against General French in South Africa, now I am going to fight for him," says this metamorphosed Boer fighter. "I commanded an army opposed to him at Elandsbaagte. I have offered my services unconditionally, and do not know as yet how I will be employed, but expect that it will be in an advisory capacity, and that I will be attached in this manner to General French's staff. The war will be long and fierce. The German army, which I know well, is the finest fighting machine in the world, but we shall beat it in the end, because our armies are something better than a machine.

This is why Britain and her Allies will win—because her empire, without exception, brushing aside any internal differences or grievances, has rallied united under the Union Jack. "When Britain is at war the empire is at war," and so from all over the world Britain can draw

Mrs Chas. Hatfield of Kaleden has been in town this week visiting friends and relatives.

Monday next, Thanksgiving Day, has a big attraction for those having interest in the Gun Club activities. On the afternoon of that day members will shoot for the special prize list already announced.

If all the men in Summerland will say on Sunday, October 18th, to their families, "We will go to church to-day," the church will overflow and pack the streets with the crowds that cannot be accommodated.

Myrtle Rebekah Lodge No. 82 had the honor last week-end of entertaining the president of its provincial organization, Mrs. M. J. Grant of Victoria, who was traveling down the Valley on through to the Similkameen. A special session of the Rebekahs was convened for Saturday night to meet Mrs. Grant, and after lodge business was put through, social amenities were in order for an hour or so.

In the current issue of "Fruit and Farm," a monthly publication issued at the Coast in the interests of this province, appears an article entitled "Embryo Industries in the Okanagan," from the pen of Mrs. E. B. Reesor, well known to a number in Summerland and Naramata. It describes in an interesting manner three fruit-by-product industries, two of which, though not yet operated on a commercial basis, have proven decidedly successful carried on privately. The third is the jam and marmalade making, and fruit and vegetable evaporating process, now carried on and contemplated by the Okanagan Jam Co. Ltd. This enterprise may almost be said to have outgrown the embryo stage of its existence. The other two undertakings whose beginnings and possibilities are made clear are the manufacture of Mrs. Wm. C. Fosbury's home confection, "Okanagan Sugared Sunbonnets," and Mr. R. G. Tait's new condiment, "Peach Chutney." Thus the article has a particular interest for Summerland, as the home of all these promising ventures.

C. C. Heid, late of the Provincial Fruit Inspection staff in Summerland, has severed his connection with that department, and went out on last Friday morning's boat bound for Portland, Oregon.

J. Major, late of Summerland, who is now at Steamons in charge of a squad on guard duty, was recently offered a change of duty, to return here and direct the drilling of civilians now in progress.

Returning about the end of last week from Regina, Sask., Ben Blair is now at home again, with his father and sisters in Peach Orchard. Miss Georgie Blair has also arrived back from the Coast, reaching Summerland on the evening following her brother's arrival.

Mr and Mrs J. M. Sutherland and family arriving back in Summerland this week have been receiving the welcomes of their friends after their long absence in England. They are again residing in their Peach Orchard home. Mr Sutherland, who has been in Winnipeg since about June arrived on Monday evening's boat, Mrs Sutherland, Miss Shella and little Kirk and Allanah returning direct from England, reaching here on Wednesday. A Mr Powell, an English medical student, is staying with Mr and Mrs Sutherland. He arrived on Friday evening of last week.

BOY SCOUTS.

Approaching winter time is going to bring no diminution of scout activities apparently. In the wind for the very near future is a paper chase to be arranged at to-night's meeting, and a shooting competition for a prize list and cup. In more than one way the Boy Scouts have proven their usefulness to the community a good many times in their history, and now comes a fresh evidence of their willingness and eagerness to live up to their obligations of helpfulness to those around them by their offer to undertake the chore work of the new Hospital, chiefly in regard to the fuel, until the services of a paid employee can be secured. The boys deserve every commendation for this good-hearted work.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department, of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

War Will Create Demand For Live Stock.

Canadian Farmers Should Increase Live Stock Production.

The outbreak of the war in Europe and the subsequent demand which is naturally to be expected for increased exports of meat, finds Canada in a very much denuded condition as regards livestock.

As a result of the removal of the American tariff on cattle a heavy export trade developed to the south. In some districts in Eastern Canada, nearly everything has been shipped out of the country, except dairy cows. This export trade, together with many farmers' selling their calves for veal, can have but one result in Canada, viz: a greater scarcity of meat than at present exists, even in a normal market.

The meat industry in Canada should not be allowed to dwindle—rather, the production of hogs, sheep and cattle on Canadian farms should be greatly increased. To obtain this increase does not mean that farmers should devote their whole attention to live stock. The majority of farmers will admit that with very little extra effort and expense they could increase by several head the livestock on their farms without in any way interfering with their present system of farming.

From reports to the Commission of Conservation, present conditions indicate a world-wide scarcity of live stock, with little likelihood of an overcrowded market for many years to come. The opportunity for Canadian farmers is therefore apparent. To take advantage of this, farmers should save their heifer calves to produce more cattle, while the others may be turned off, not as veal but as beef.

Expert stockmen advise that there are good times ahead for those raising sheep. The high price of mutton and of wool, and the comparative ease with which a flock of sheep may be sustained upon land which is otherwise unsuitable for agriculture, should suggest a great increase in the number of sheep raised by Canadian farmers.

Increased production in hogs can be brought about more quickly than in any other class of live stock, and consequently should receive immediate attention.

Animal production on the farm is desirable because it increases the fertility and crop-raising ability of the soil. Good prices are sure to be obtained for any surplus which farmers will have to sell on account of the inevitable shortage of supply resulting from war conditions in Europe. These two conditions should be an incentive to Canadian farmers to increase their livestock production. A little foresight now, with modern methods of feeding, will make increased production easily possible.—F.C.N.

Canadian Apples For Our Troops.

Government Will Make Large Purchases Of Evaporated Fruit.

The government is taking steps to turn at least a part of Canada's immense apple crop of some 20,000,000 barrels this year to advantage in supplying the Canadian and British troops with a very necessary item of fruit diet during the coming winter campaign, says an Ottawa message. Incidentally, the conjunction of a large apple crop with limited markets and transportation facilities has emphasized a great opportunity which Canada has been missing in neglecting to develop an extremely profitable trade in evaporated apples, both at home and abroad.

With an eye to both patriotism and profit, the Fruit Branch of the Agriculture Department is now investigating ways and means of securing a large supply of evaporated apples as a part of the British commissary, and also of stimulating the fruit evaporating industry in Canada on a permanent basis. A circular to all evaporating factories in Canada has been sent out by Donald Johnson, Dominion Fruit Commissioner, asking for information as to factory output, and intimating that the government may require evaporated apples in large quantities. It has been pointed out in a recent letter to the press by Dr. P. H. Bryce, Chief Medical Officer of the Department of the Interior, that if scurvy, the scourge of armies, is to be avoided, a small ration of dried fruit or vegetables must be supplied daily to the troops.

Canada has the raw material this year in almost unlimited quantities. The apple crop, the largest in years, is being harvested, but because of market and transportation conditions apparently much of this crop will have to be wasted, with a consequent loss of many millions to the growers. The government has seen a way out of the difficulty in the suggestion that a considerable proportion of the crop can be preserved in evaporated form and used by the War Office to give the troops a needed amount of fruit diet.

The Germans are already doing this, and have developed a most thorough system of fruit evaporation for army purposes. The German standard allows only 20 per cent of moisture in the evaporated product. In Canada and the United States inadequate methods of evaporating gives a much larger percentage of moisture, and consequently the food value and keeping qualities are greatly lessened. It is because of this, the industry has not thrived as it should have done in Canada.

If present intentions are carried out the government, in purchasing supplies this autumn, will see to it that the apples are evaporated according to the best standards of cleanliness, and moisture content. The start once made, owing to the exigencies of the present war situation, and of a crop, the lower grades of which will otherwise go to waste, it is hoped that the industry may be developed in succeeding years to its real economic possibilities.

The present production of evaporated apples in Canada is about 4,000,000 pounds. This production could profitably be trebled or quadrupled. The Prairie Provinces and Europe will supply a constant market for the right article.

"CANADIAN PICTORIAL"

Canada's Most Artistic And Popular Magazine.

Its pictures pertaining to the war are alone worth the money.

This elegant magazine delights the eye while it instructs; the mind concerning the picturesque doings of an interesting and highly entertaining world.

Each issue is literally crowded with the highest quality of photographs, many of them worth framing.

It is the most popular "Plek-me-up" in the waiting room tables of the leading doctors throughout the Dominion, and in the big public libraries it is literally "used up" by the many who are attracted by its entertaining and beautiful pages.

It's a "love at sight" publication, and it has departmental features of great interest to the young woman and the home-maker.

Of it—just to quote one man's praise from among thousands—the late Rt. Hon. Lord Strathcona, wrote:

"The 'Canadian Pictorial' is a publication which, if I may be permitted to say so, is a credit to Canada." (Signed) Strathcona.

On trial to now subscribers—Twelve months for only 65 cents.

The "Canadian Pictorial" is published by THE "PICTORIAL" PUBLISHING CO., "Witness" Block, Montreal, Canada. Try it for a year.

WAR MAPS.

Every home should have a war map. We offer the best to our readers Free of Charge. Read announcement on page 2 of this paper.

APPLE DAY AT VANCOUVER MARKET.

Exhibition of B.C. Fruit Will Take Place Saturday, Oct. 31.

In accordance with the decision of the Vancouver civic market and industries committee to hold a special exhibit of British Columbia apples, the city market is making arrangements for an "Apple Day" on October 31. The purpose is to educate the public and show them that the fruit of this province takes second place to no imported fruit.

Market Clerk McMillan is calling for applications for space in the market building for that day, when no charge will be made. Besides fruit sold at the stalls, consignments to the market will be sold on the usual 10 per cent. commission.

There have been unusually heavy snowfalls in Southern Alberta. At Calgary where the fall was heavy on Monday, considerable damage was done, while McLeod reports the heaviest early fall snowstorm ever experienced, with a fall of over two feet of snow. Electric light, telephone wires, and traffic generally suffered.

BRITISH COLUMBIA MILK

B.C. MILK has the largest sale because it pleases the housewife. It has the LIGHT, NATURAL COLOR and TASTE of FRESH RICH, CREAM, and is much superior to old fashioned condensed milk for the table and for cooking.

IT HAS THE NATURAL FLAVOR.

The Government test shows it to be of the HIGHEST STANDARD.

OUR NARAMATA SECTION

RE-ORGANIZED.

The Literary and Debating Club met last Monday evening for the first time this season in the church basement. The one chief item of business was the election of officers for the ensuing year. Owing, however, to lack of sufficient publicity there was not a fully representative gathering of members present, and for this reason there was a disposition mooted to postpone organizing till another night. But as this postponing has not been a feature of our previous methods it was decided best not to create a precedent and proceed with the election, resulting as follows:

- President, Rev. J. I. Beatty.
- Vice-President, Mr Peter Roe.
- 2nd Vice-Pres. Mr H. P. Salting.
- Secretary, Miss Foster.
- Treasurer, Mr Bartlett.

The next meeting will be Monday October 19th.

The report of the meeting of the Farmers' Institute this evening is necessarily being held over till next week.

The Old England

JULIUS W. A. BLOCK,
NARAMATA, B.C.

Just Arrived direct from England.

ART SERGE—54 to 56 inches wide 50c. per yard. In Crimson, Green, Brown and Peacock Blue. Suitable for Curtains, Portieres, Table and Cushion Covers.

TARTAN RUGS, all wool \$2.25 and \$3.50 each.

TWEED HATS for Ladies, \$1.25 each.

Any order for not less than \$3, and not weighing above 11 lbs. sent by Parcel Post inside the 20 mile radius FREE.

BOY SCOUT DOINGS.

On Tuesday evening an outdoor game of attack and defence was the program, the Eagle Patrol taking the part of attackers under the Scoutmaster, and the Wolves that of defenders under their patrol leader. The grandstand at the baseball grounds served as the defender's base and the object of the attack. The rules laid down were as follows: (1) the defenders must be at least one hundred yards apart, and the same distance from the grandstand, (2) the defenders alone had the privilege of capturing. The idea of the attacking force was to attack in extended order, and three Scouts were sent out by them, and given signals to inform the remainder of the location of the enemy. So accurate, however, was the defence that the attacking force was all captured with the exception of its scouts, the leader of the attackers, we are sorry to say, being the first to be captured within the picket lines by the smallest of the defenders.

The First Aid meeting, held on Thursday evening, was, as usual, a success. The lesson was on bandages and bandaging, and some very useful tips were picked up as to how to make and adjust a neat bandage. Several of the Scouts volunteered to sell tickets for the Thanksgiving Entertainment, and tickets were distributed to them for this purpose.

An enjoyable as well as profitable afternoon was spent by the Second Class Scouts at Dr Robinson's cottage on Saturday, Oct. 3rd. After a short lesson on the art of bandaging, a talk was given on poisons and their antidotes, and some very interesting experiments were conducted by the doctor with the aid of his test tubes. After having partaken of light refreshments, and accepted an invitation to come again, the boys left, expressing, unanimously, the opinion that the doctor was "a jolly good sport."

On Saturday evening the meeting was of a purely athletic kind, and many interesting boxing and wrestling bouts took place between the troops "White Hopes" and would be champions.

A SCOUT.

Current Events — OF — Town & District

Dr and Mrs Lipsett spent a few hours in town on Monday.

Mr Clive Ireland was a business visitor to Penticton on Monday.

Mr and Mrs James Hayward have returned to town after quite a lengthy stay in Peachland.

Mr. H. T. Davies, who has been somewhat indisposed as the result of a heavy cold has quite recovered.

Miss Lula Brown of Kelowna was in town for a few weeks as a guest of her cousin, Miss Clara Palmer.

Mr J. M. Robinson returned on Wednesday from a week's stay at the Coast, where he visited both Victoria and Vancouver.

The condition of Mr Gillespie, who is still very low, is reported to be rather fluctuating. At times he appears to rally, only to lapse back.

Mrs McDougall of Peachland, with her young protegee, little Miss Gwynn Lang, were recent visitors in town for a week or so as guests of Mrs E. P. Roe.

Mr Harold Mitchell is off duty this week owing to a painful boil on his right hand. He hopes to be able to resume his duties with the Fruit Union next week.

Mr N. Alexander has been in charge of the local packing house this week attending to the rather heavy shipments of apples from the young orchards now only coming into bearing.

Mr Ben Newton who was reported to have caught a place in the ranks of local troops shipping for Valcartier, has received the intelligence that for the present no further enlistments will be made.

"The Church and Patriotism" is the subject for next Sunday morning's address at the church by Pastor Beatty. Special music appropriate to the Thanksgiving season is to be a feature of the service.

The flag on the new eighty-foot pole at the school grounds has in some way become fastened in the pulley at the top, and will probably have to be allowed to remain swinging in the breeze night and day indefinitely for the pole, though a beautiful looking piece of timber, appears rather too slender at the top for any youth, no matter how daring, to attempt to climb.

The force of men at work on the water supply project have completed the work at the upper dam and have removed down to the company's lake where they are now hard at work at an important improvement. The very satisfaction of knowing that there is abundance of water for all purposes will more than repay the community for the present outlay of time labor and money.

One of the Trust Company's horses, familiarly known round town as "Bob," created some excitement for a few minutes last Friday, when he dashed up the street with a couple of "two by fours," the last of a considerable pack which the frightened animal had just succeeded in bucking off. At one place the two pieces of scantling struck the sidewalk, and instantly shot into the air to the full length of the rope, and then came plump down on the pack saddle, only to send the startled beast forward at renewed speed. However, after a little speeding along the lakeshore, he was finally captured and obliged to submit—through unwillingly—to carry his load.

Those people who are looking for a quiet, dull, uninteresting time in Naramata this season, will have themselves to blame for such a state of affairs—if half the plans for entertainment now on foot are decently carried out. Already the Literary and Debating Society have organized and are planning for a repetition of the series of profitable evenings of last January and February. The Boy Scouts have no notion of hibernating like the bears. The young ladies have started a class in calligraphy, and may add dramatic recitals to their program under the direction of Mrs W. L. Robinson, herself an enthusiastic supporter of this form of expression. The first of these classes was held this week, and bids fair to becoming one of the most popular forms of enjoyment.

AT THE UNITY CLUB.

The meeting of the Unity Club last Friday afternoon was featured by an interesting paper by Mrs Reesor, a prominent journalist at present making Naramata her place of residence. Mrs Reesor's paper was most interesting, dealing with that lady's personal experiences in "breaking into the game" at first as a mere pastime, but which afterwards became a settled and serious line of business. It is earnestly hoped by the club ladies that they may again be favored with such another half hour's entertainment.

In the course of the discussion of ways and means of doing some useful work, Mrs Carroll Aikins made a proposal to club members on behalf of Mr Aikins' mother, Mrs J. S. Aikins, of Winnipeg. This latter lady, also a member of the local organization, offers to provide the club with all the wool the ladies would care to use for the purpose of knitting socks, mittens, sleevelettes, etc., for the soldiers now at the front, or about to go to the scene of conflict. The proposal was most opportune, and consequently the future meeting hours will be devoted partly to this beneficent work.

In regard to the winter's program of social events, it was decided to continue along the line of previous seasons by providing at regular intervals a series of whist drives alternating with dancing parties on alternate weeks.

SUNDAY SCHOOL RALLY DAY.

The annual Sunday School Rally Day services conducted on October 4th proved fully up to expectation, both in point of attendance and interest. The special program as outlined for the guidance and assistance of the officers was followed fairly closely—substituting here and there familiar hymns for the unfamiliar ones on the program.

Superintendent Mr J. H. Pushman in the course of a brief address, while dealing with the purpose of the Sunday School and its relation to the home, made an appeal for a more general support in the way of co-operation on the part of the parents.

The pastor, Rev. Irwin Beatty, spoke entertainingly on the history of the transition stages of secular and religious teaching, hinting at a probable weakness which at present militates against the growth of religious teaching of the 20th century.

An especial feature of the singing was the presence of a choir of young girls, members of different classes. These constituted a number of special selections—leading one to suggest that such a course might be made a regular, or at least, a periodic occurrence.

At the close a special offering in aid of the general Sunday School fund was taken.

FORMAL SCHOOL OPENING.

At a special meeting of the School Board on Tuesday evening, it was decided to set apart a portion of Friday afternoon, October 16th, for a formal opening of the new public school. The parents and residents generally who care to inspect the new premises set apart for educational work in Naramata are asked to come at 2 p.m. on that date—next Friday, October 16th. The visitors will have an opportunity to watch the regular school work in progress, with possibly a short entertainment.

Mr Adam Schmidt, for some time barber in Syndica House has gone into business on his own hook in a cosy shop right across the street, the quarters formerly used by the Dominion Express Company. During his stay in town Mr Schmidt has become quite generally and favorably known.

The second of the series of Sunday evening song services proved an attractive and inspiring feature of the day—none too full of instructive entertainment of any kind. Mr W. D. Mackie again presided at the organ. Mrs Allen sang "Nearer My Home," as a solo, and with Mr Harry Pitman rendered "Jesus, Savior, Pilot Me," in a pleasing style.

The men at work at the dam, after completing the work as for the present outlined on the upper reservoir, took this week off to enable some of their number to overtake the work on the fruit lots. Next week it is proposed to resume construction at the company's dam, which is not nearly so far from town. In anticipation of a cold spell somewhat permanent shelters have been erected not only for the fallows, but also for the horses.

COPYRIGHT 1910 BY C. E. ZIMMERMAN CO.

There can be only one best—the Tip Top of excellence. We both aim to get it. You, the clever and successful housewife, want the groceries that give the greatest results in your food—that please your family and visitors.

WE sell only tip top quality in groceries so that we may get your trade—and retain it. Every item we send out is an advertisement of the quality of the others. If we did not maintain tip top value always, our business would not continue to grow as rapidly as it does. Inspect our extensive stock—or telephone a trial order.

Passing Events: Social, Personal, &c.

The service in St Andrew's Church next Sunday morning will be a Thanksgiving service.

Rev. R. W. Lee will conduct the Harvest Thanksgiving service in the Penticton Methodist Church on Sunday.

Mr J. M. Robinson was a passenger homeward bound from the provincial capital on Wednesday evening's boat.

Miss Gummow of Garnett Valley is spending Thanksgiving at the home of her parents, Mr. and Mrs. J. Gummow of Peachland.

Dr C. A. Jackson, dentist, will be in Dr Andrew's office, West Summerland, for two days, beginning on Tuesday, October 13th.

Miss Margaret Lawler was a passenger homeward bound for Vancouver on Monday morning's boat, after a visit here of a few weeks, spent at the home of her brother, Mr. J. Lawler.

G. Darroch, unable to satisfy his patriotic impulses in this country, being unable to secure enlistment, left by Wednesday morning's boat bound for England, where he intends to serve under the colors.

Mr H. J. Collas, sub-agent of the Bank of Montreal branch at West Summerland, went up to Vernon last Friday, and enlisting with the B.C. Horse, is now ranked as quartermaster-sergeant of A squadron.

T. E. Pares, of the B.C. Horse, Vernon, whose furlough from headquarters at Vernon was recently cut short by an order recalling him, has received promotion from the rank of corporal to that of sergeant-major, of A squadron.

85 per cent of headaches are the result of eye strain. If you are troubled that way consult S. L. Taube, Eyesight Specialist, at Summerland Drug Co., Summerland, on Tuesday, October 20th. 09-16

Mr C. T. O. Rush of the Bank of Montreal, who has for some time been at Lumby, returned on Tuesday evening's boat, bringing his pony with him. Mr Rash will be sub-agent at West Summerland, relieving Mr H. J. Collas.

Mr and Mrs W. H. A. Moore and family arrived back in Summerland on Friday evening last after a summer's stay in Scotland. Mr Moore is again taking charge of the Music Department of the College, and is now busy organizing the coming winter's work.

The ladies of the Methodist Church will hold a Sale of Work on Thursday, October 29th, in the Men's Club. Afternoon tea will be served from three to five o'clock, and a twenty-five cent bean supper from six to eight. Come and get the worth of your money, and have a peep at our bargain counter. 0916

The condition of Mr A. O. Atkins, who has been confined to the Hospital with a mild attack of typhoid, has been very satisfactory, especially since the middle of the week. An injection of antitoxine has warded off the possibility of any serious developments. From a temporary telephone installed near his bed, Mr Atkins is now in some measure able to direct his work in a somewhat novel manner.

The address at the Sunday evening service in St Andrew's Presbyterian Church last week was delivered by Miss Margaret Wallace, sister of Mrs Wismer, Garnett Valley, and a medical missionary of many years' service, mostly at Bonares, the "holy city" of the Punjab, on the Ganges. Miss Wallace, who is now home on furlough, gave to her hearers a great deal that was new in regard to the customs and superstitions holding in that country, and her address being based on personal experience, was the most interesting of missionary lessons.

Mr J. J. Dougan of Vancouver, best known here through the personal interest he manifests in our public schools, and as Secretary of the provincial organization of school trustees, was a visitor to Summerland this week. Visiting all parts of the province, as his regular business requires, Mr Dougan is able to keep posted not only on the progress of school matters, but with general business conditions, and has expressed much satisfaction with the comparatively prosperous condition of Summerland. This place, and a few others, such as Hadley, Trail, were largely escaping the severe business depression now being suffered by centres, whose chief industries are coal and lumber.

Mrs R. H. Steuart was an outbound passenger on this morning's boat, Friday, en route to the Coast.

Mr and Mrs A. Fraser were up the lake for a day or two this week, returning on Thursday evening.

Trooper Mark Fetherstonhaugh, 30th B.C. Horse, came down the lake by yesterday evening's boat to spend a short time in Summerland.

John McLeod returned last weekend to resume his study at the College and to take up again the direction of the physical exercises in the Gymnasium.

If each of us would abstain from throwing tin cans and waste paper in the alleys and empty lots, the appearance of the neighborhood would be greatly improved.

The Methodist Church will hold divine service on Sunday next at 10.30 a.m. and 7 p.m. The evening service will be held in St Andrew's Church, West Summerland.

The Presbyterian service will be held in the Methodist Church on Sunday afternoon at three o'clock. This regular weekly afternoon service takes the place of the fortnightly service.

Remember the date of S. L. Taube's visit to Summerland, and if there is anything wrong with your eyesight do not fail to consult him at Summerland Drug Co., on Tuesday, October 20th. 09-16

Mr E. C. Howard, Piano Tuner of Vernon, B.C., will be in Summerland during the week of Nov. 13th, attending to the work of the late Mr W. J. Curtis. Orders received at the Summerland Drug Store.

Professor Moore of the Music Department of the College commenced work on Monday of this week. He will be assisted in this department by Miss Edna McLeod. Prof. Moore will be at the College in Ritchie Hall on Monday and Tuesday afternoons next week from 4 to 5 o'clock to enrol music pupils.

Rev. D. J. Welsh, pastor of the Kelowna Baptist Church for the past five years, has resigned his pastorate in the Orchard City, and last week removed with his family to Vancouver. Mr. Welsh was known to many here, principally as a lecturer, and was also a member of the Board of Governors of Okanagan College.

With unabated enthusiasm the drilling of civilians is being carried on in both sections. The West Summerland contingent is maintaining its numbers, and equipped with dummy rifles is now being given musketry drill. Last Saturday they took a march out along the Giant's Head road. The town squad numbered forty at the last drill, and is now taking up section work. These men are also to be equipped with dummy rifles made from lumber donated by Wm. Ritchie, and cut out by the use of a hand-saw allowed by B. L. Hatfield.

Almost perennial it seems that an agitation to obtain a liquor license in one form or another has become in Summerland. For the past week or ten days a petition seeking this privilege for the Felix Hotel has been in active circulation, and equally active have been the temperance workers in soliciting signatures for their counter petition. An increase in population does not seem to have wrought any great change in Summerland's public sentiment from its one-time adamant no-license attitude. If the people were given an opportunity to declare by ballot on the question, it might be settled decisively enough to be made a dead issue for at least a few years.

The regular monthly meeting of the Summerland Women's Institute will be held on Friday afternoon, October 10, in the Men's Club, and the members are looking forward to hearing the paper "A Woman's Duty to her Home," by Mrs R. M. Ross, also there will be a demonstration by Mrs G. Gartroll on the "Dressing of Fowl," which ought to be very useful to many at this time of year. Instead of the exchange of ideas on making of Christmas gifts as given on the program the ladies are asked to bring their scissors, needle and thread to do some sewing for the wounded soldiers. The roll call to be responded to by names beginning with A to K by current events, and the rest quotations from Tennyson.

Mrs R. M. Ross and son Donald were passengers up the lake on Thursday morning's boat bound for Vancouver on a short visit.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty. tf

Word that has come to his family here brings the news that Mr T. E. Clay has recently been suffering from recurring attacks of appendicitis at Calgary.

Miss Marjorie Limmer has given up her position as operator for the local telephone company, and her position has been taken by Miss Helen Phinney.

Since the beginning of the month the time of delivery of mail on the rural route has been put back one hour. The carrier now leaves the post office at 8 a.m. instead of seven as during the summer months.

On Thursday afternoon next, October 15th, the ladies of the College Auxiliary will be At Home to the ladies of the community at large in Morton Hall, Okanagan College, from three until six o'clock. A large attendance is hoped for, and all ladies are urged to attend if at all possible. Conveyances will probably be provided to take the visitors up the College Drive to Morton Hall from the foot of the hill.

In their first social of the winter season of 1914-5, the Young People's Guild of St Andrew's Church were quite successful in providing a good time for all. Members and friends to the number of between sixty and seventy gathered at the Campbell Hall on Wednesday evening, and a well-arranged program of music and games gave pleasure to all in participation or looking on. Refreshments were also served as the evening drew to a close.

THE COUNCIL MEETING.

[Continued from Page 1.]

Fruit Union icehouse to the Hospital will be lighted, and D. L. Sutherland will be given electric current.

Mr Hespeler again brought up the question of road repairs, and the Reeve promised to personally inspect the place, the Public Works committee having reported the cost too great to undertake now.

Geo. Craig asked for appointment to the temporary vacancy at the power plant made by Mr Thornber's going to England on a three months' visit.

Rev. H. G. Estabrook's request for payment of medical expenses for his mother due to the accident in Peach Orchard when his rig ran against a stump, was laid over till next session.

At the request of the Union's Secretary the Reeve and Clerk were appointed delegates to the meeting at Kamloops, Oct. 22-23, of the Union of B.C. Municipalities.

EXPERIMENTAL FARM WANTS WATER.

The Reeve read some telegraphic correspondence between the Hon. Martin Burrell and himself with reference to water for the Experimental Farm. The Minister had wired offering \$5,000 for enlarging ditches and dams, provided the Municipality would deliver water free of charge to a point near the railway bridge. After investigation the Reeve replied that \$9,000 would be required on ditches and flumes, and \$2,500 on dams to provide the extra service, and offered to serve the farm if \$10,000 were advanced for this work, in addition to the usual rate to cover administration.

By-laws formally reducing last year's money bylaws to comply with the law, were advanced and the new money by-law permitting the issuance of debentures to the extent of \$10,000 given necessary readings. A poll will be held on Oct. 27th to vote on these bylaws. Adjournment was made to Tuesday next at 4 p.m.

Xmas. Presentation APPLES for the Old Country.

We will deliver to any part of Ireland, Wales, Scotland or England, a box of FANCY EXPORT APPLES for \$3.25. Orders must be received by us not later than October 28th, and accompanied by Express Money Order or marked check. WRITE THE ADDRESS PLAINLY, so as to avoid mistakes.

SPECIAL COUNCIL SESSION.

Arranging to Supply Water to the Experimental Farm.

The Municipal Council held a special meeting on Tuesday, all members being present with the exception of Coun. Johnson, who is Municipal Inspector on the work being done on Trout Creek headwaters.

The principal business of the session was the final readings of the new money by-law for \$10,000 to finance the extensions and improvements being made to the irrigation distribution system within the Municipality.

The Reeve reported further telegraphic correspondence with the Federal Minister of Agriculture on the question of supplying water to the experimental farm, and informed the Council that the further the matter was looked into the more he was satisfied the Council had made the best possible offer. This would mean a payment of \$10,000 for the necessary enlargement of the system, and \$500 per annum for administration. It is stated that a similar proposal was made some years ago by the late Mr. Agur, then Reeve, his proposition being a payment of \$10,000 as above, and another \$10,000 which would yield in interest \$500 per annum in perpetuity. Ottawa was asked that the Council meet Mr. R. H. Helmer on Wednesday evening when he returned from Ottawa. It is inferred from this latter that Mr. Helmer has not already received the appointment of Superintendent of the Experimental Farm that he is in a fair way to receive it, and is now at least acting as the government's agent with respect to the farm. A voucher for \$500 for payment on the Trout Creek dam was passed.

The Estabrook claim was laid over again awaiting the receipt of further legal advice. The Superintendent was instructed to look about for a larger pump with which to provide Paradise Flat with domestic water during the winter.

To a question put to the Reeve as to how much of the cement work would be done this fall, the reply was that the ditch near T. J. Garnett's was nearing completion, and it was hoped to complete the lining of the Jones Flat ditch, and possibly the ditch above the Kirk lot. An open season would permit of the cement work in Garnett Valley as well. Otherwise these two latter jobs could be done in the spring.

MUNICIPAL ACCOUNTS FOR SEPT.

The following is a list of the accounts recommended for payment by the finance committee at the regular monthly meeting of the Municipal Council on Thursday of last week, and passed by that body:

Pay Roll	\$1878.91
Summerland Supply Co.	117.40
Wm. Ritchie, lumber and cement	556.10
Summerland telephone Co., rental and tolls	84.80
G. R. Hookham & Co.	24.20
T. B. Young	21.10
Scott Darkie	81.00
T. P. Thornber	20.82
W. C. Kelley	48.25
Canadian Pipe Co., pipe	178.00
Robertson-Godson Co., pipe	48.00
F. L. Smith, office furniture	45.00
A. Faulkner, poles	189.00
F. H. Lattimer	95.00
J. J. Mitchell, horse hire	26.00
C.P.R., freight	58.00
Bank of Montreal, interest	92.45
Municipal School Board	872.00
R. Tingley	84.85
Street lighting	30.00
Sundries	70.98
Total	\$4,049.90

The first train from Midway to Ponticton, consisting of an engine and three ballast cars, made the run last week, thus marking another stage in the progress of railway construction across southern British Columbia.

Wherever shown Okanagan apples always lead. Several exhibits were sent to the International Irrigation Congress at Calgary where keenest competition from across the line was met. Ponticton took first prize, Kelowna second, with Spokane third. There was no exhibit from Summerland.

Ladies' College Auxiliary At Home.

The reception rooms of Morton Hall held a throng of ladies yesterday afternoon, when the ladies of the College Auxiliary were at home to the ladies of the community, between the hours of three and six. There were close upon a hundred ladies in attendance during the course of the afternoon.

Welcoming the visitors as they entered was a committee of five ladies, Mrs. J. W. Angwin, Mrs. E. W. Sawyer, Mrs. S. Everton, Miss K. C. McLeod, and Mrs. N. McNaughton. Many of the ladies availed themselves of the opportunity afforded for an inspection of the girls' residence building of the College. The underlying purpose of the gathering was made clear in the course of a lucid address by Mrs. T. N. Ritchie, explaining the position of the College, and desiring to enlist the sympathies and interest of all the ladies of the community in the work of the College, and so in the Auxiliary. Mrs. Ritchie paid glowing tribute to the men who had but for such strenuous endeavors to further and deepen the College interests, often with scant encouragement, and even in the face of criticism, but still shouldering the burden.

Tea was poured by Mrs. H. G. Estabrook and Mrs. W. H. A. Moore, and served to the visitors with light refreshments.

Music was provided by Mrs. Thos. Dale and Mr. W. H. A. Moore in the shape of pianoforte solos, and the song rendered by Mr. J. O. Smith was one that has many patriotic associations just at this time. "It's a Long, Long Way to Tipperary."

GUN CLUB WINDS UP SEASON.

What will, in all probability be the final trap shoot of the season was held by the Gun Club on Thursday afternoon at the customary venue on the lakeshore at Peach Orchard. It was originally intended to hold this shoot on Thanksgiving Day, but a combination of circumstances made it advisable to postpone the event, which was finally pulled off yesterday afternoon, when about 15 members were present. Scoring was not very high owing to the gusty wind.

The interest of the afternoon centred in a tournament of 25 shots apiece for five prizes. The special prize of a gold watch donated by Mr. A. Stark for the best average made during the season was also finally awarded, being won by E. C. Graham, who also headed the list of winners in the tournament competition of the afternoon with a score of 17. The list of winners and their prizes was as follows:

- 1st Prize, E. N. Rowley Cup and 100 cartridges, E. C. Graham;
- 2nd Prize, shooting jacket, F. C. Edgar;
- 3rd Prize, 50 cartridges, L. Hatfield;
- 4th Prize, shooting vest, Roy White;
- 5th Prize, recoil pad, H. Grant;
- Consolation Prize, E. R. Butler.

The Young People's Guild of St. Andrew's Church drew an attendance of seventy-five to the regular meeting on Wednesday evening, indicating a deepening interest in the work of the Guild on all sides. The program laid out put the thought of the meeting along missionary lines, and hearing on the "Everybody at Church Sunday" movement now on foot locally. Two papers were read, one by Mr. G. McLeod, entitled "The Church of Our Fathers," outlining the history of the old Scottish Church, and another by Mr. Wm. Kerr, "The Value of the Church to the Community." Both were greatly appreciated for the thoroughness of their preparation. Special musical items and readings were also enjoyed as part of the program. Next Wednesday evening the meeting is to be of a literary nature, when the main feature will be of great topical interest. A series of lantern slides will show views of the country now the seat of war in Europe, about the Franco-Belgian frontier. These were collected by Miss J. Rothwell during the course of her recent European tour. A collection is to be taken on this occasion to swell the funds of the Belgian Relief Movement in this province.

Fire Destroys Balcom Home.

Newcomer to District Suffers Loss Last Week-End. Effects Are Saved.

To be a settler in the district but a few weeks and then to suffer the loss of his newly-acquired home by fire, has been the unfortunate experience of Mr. H. M. Lumsden. In May last Mr. Lumsden exchanged some farm property near Cochrane, Alberta, for Mr. J. A. Darke's orchard home in Prairie Valley, and with Mrs. Lumsden and young boy has thus been in possession of the new home but a short time. In the early hours of Sunday morning last the house was burnt to the ground, though fortunately with no loss of life, and with little loss in the way of furniture and effects.

The origin of the blaze seems veiled deep in mystery. Quite recently Mr. Lumsden has had an open stone fireplace and brick chimney built into this house, and it is possible that the fire may be traced to this medium, though no big fire had as yet been built in the hearth. Moreover, the destruction seemed to originate in the floor of a room at the rear of the house where there had certainly been no fire of any description as yet, which fact seems to obscure the seat of the trouble.

For two or three days previously Mr. Lumsden reports noticing a faint smell of smoke pervading the house, but thorough searches had failed to locate any signs of burning. This would indicate that smouldering had been going on at least for that time, but had it been very extensive it must surely have been discovered. It was this same smell that roused Mr. Lumsden shortly after midnight, making him suspicious that something was seriously wrong. Even at this time after a thorough inspection he was unable to locate the incipient fire. It was not until Mrs. Lumsden, who had also been roused, happened to step outside, that smoke was noticed

curling up from the side of the house between the two storeys. Mr. Lumsden quickly got to work, after finding the lurking fire, and by hacking away some of the outside sheathing opened up a hole into which he poured some pails of water. It was thought that this might have extinguished the blaze, but signs to the contrary were soon forthcoming. Fearing the worst Mr. Lumsden sought to get aid over the telephone. By tearing a larger hole in the side of the house he endeavored to get more water on to the flames, but the outside air was now making a draft, and the fire was not to be checked. Efforts were then put forward to save the contents of the house, and with the aid of neighbors and others on the spot who had been attracted to the scene by the flare, or warned by telephone, the house was emptied; and had there been a constant supply of water close at hand, or some hose to attach to the pump near by, or even help at hand early enough to have formed an efficacious bucket line the house might still have been saved.

As it was, however, little could be done, and soon the entire building was wrapped in a mantle of flame. The night was still, lessening the risk of the barn nearly also catching from flying sparks. By three o'clock the flames had done their fell work, and where the house had stood was a smoking heap of ashes. At the outer edge stood the new fireplace and brick chimney, smoked, but unharmed, a gaunt monument amid the desolation.

Mr. and Mrs. Lumsden and their boy spent the remainder of the night at the home of Mr. and Mrs. Chew on a neighboring lot. In their loss they have the sympathy of the community. The loss is partially covered by insurance.

Pushing Construction on Lakeshore Drive.

With a dozen men and a number of teams at work on the Lakeshore Drive near Crescent Beach under the direction of Mr. H. C. Mellor an effort is being made to push the road through to meet the extension being made from Peachland by a crew in charge of Mr. Michael.

Mr. Mellor is putting the road to Crescent Beach in good repair beside pushing forward with the new work. Practically all of the rock work between the two points has been done, and if the money is forthcoming it is hoped to complete the road before winter.

HELP FOR THE BELGIANS.

In response to an appeal which was received on Wednesday night for aid for destitute Belgians, a number of citizens immediately banded themselves in this cause. The Women's Institute perhaps has been taking the lead, although Messrs. R. H. English and J. M. Sutherland have both been active. The latter have asked that any material be left either at Stewart's Packing House, or English's warehouse. The Women's Institute have arranged to receive goods for shipment at the Empire Block during Monday next, where the goods will be prepared for shipment, which must be made that afternoon. It is probable that all the clothing, etc., will be made into one shipment. All kinds of clothing will be very acceptable, such as woollen underwear, socks, gloves, mitts, sweaters, new and old garments suitable for winter wear for men, women and children. Blankets are particularly needed. Food and provisions that may be transported without danger of freezing are also required.

Later, the ladies have arranged with Mr. J. E. Phinney to receive parcels at his store, and also to have someone at the Empire Block to receive goods both Saturday and Monday. The C.P.R. agent has been instructed to accept shipments for the Belgian cause free of freight charges.

"COMPANY, 'SHUN!"

The place of drill for the West Summerland citizens who are gaining a knowledge of military exercises and tactics, under Sergeant-Instructor Weldon, has been changed from the College Gymnasium. Last night's drill was held in the open air, in front of the Municipal Office, where lights have been placed temporarily by permission of the Council.

The drills under Captain Cordy in Ellison Hall, have been continued with vigor and sustained interest. On Tuesday marching exercises were practiced, and "on the double" introduced for the first time. A supplementary drill was held last night, and from henceforth drills will be held twice a week, on Tuesday and Thursday evenings. It has been felt that a larger attendance could be secured if the drills were held in the town. Accordingly the offer of the use of the hall over Barton's store, in the Empire Building, has been made and accepted, and next Tuesday's drill will be held there. The room is quite unencumbered by pillars and so is even better adapted to drill purposes than Ellison Hall. The dummy rifles will soon be distributed, when musketry drill will be instituted.

Twenty-seven thousand cases of fruit were packed during the season by the Ponticton plant of the Western Cannors Ltd., according to the Ponticton Herald. Last year's pack was approximately ten thousand cases. The Kelowna plant will probably turn out seventy thousand cases this season. It is stated that the output of both plants has been sold. The Ponticton factory consumed about 700 tons of soft fruits. Quite a quantity of apples were put up at Kelowna, the remainder of the pack being tomatoes.

Returning from a short visit to the Coast, Mrs. R. M. Ross and son Donald arrived back in Summerland by yesterday evening's boat.

BASKETBALL

W. SUMMERLAND NOW HAS CLUB.

This popular winter sport seems to have taken a firm hold on the young men at West Summerland. Following a regular practice held at the College Gymnasium on Tuesday evening last regular organization has been effected. Considerable enthusiasm has been manifested at the practices, and Tuesday's meeting was good both in point of numbers and interest. Officers were elected as follows:

- Hon. President, C. T. O. Rush;
- President, A. B. Elliott;
- Vice-Presidents, J. E. Phinney, S. R. Fraser, E. R. Butler;
- Secretary, E. Hall;
- Treasurer, C. Elsay;
- Manager, Ed. A. C. Sawyer.

A captain had already been elected in the person of A. Pentland, and a vice-captain was appointed in Ross Rae. It was decided to approach Mr. C. D. Denton with a view to secure his services as coach. The manager was authorized to interview Mr. Denton in an endeavor to enlist his services to that end.

The membership fee was placed at the popular price of one dollar per year. A committee of three named to see the collection of dues consists of Messrs. Pentland, Sawyer, and Elsay.

Practices are held in the College Gymnasium every Tuesday and Friday evenings. At the conclusion of the practice this evening another meeting will be called to make some preliminary arrangements in regard to the selection of a team.

A tentative selection of distinctive colors for the West Summerland Club has been made, and the scheme decided upon promises to provide a striking uniform. The team will play in sweaters of royal blue and pants of red. Across the sweater will be a red band in which the letters "W.S." will appear.

There is no lack of material for the makings of a team of more than usual strength. Practice on the large gymnasium floor should roundout a combination that will count heavily in games.

LADIES' CLUB RE-ORGANIZED.

The Ladies' Club has again been called into being, a meeting held last Saturday evening at the home of Mrs. T. J. McAlpine bringing this about. Enthusiasm has apparently not waned among the active young women in Summerland who are numbered among the devotees of basketball. Some new talent will make its strength felt this season, and if more interest can be stirred up, so that a number of fresh members are drawn into the game, there is every promise that the success of last season will be eclipsed.

There was an attendance of about a dozen on Saturday evening and officers were duly elected.

President, Mrs. F. W. Andrew;
Secretary-Treasurer, Miss Jean McLeod;
Manager, Mrs. J. Lawler;
Captain, Miss Stella Brown;
Vice-Captain, Miss K. Babbitt.

Among other business transacted the membership fee was fixed at 50 cents for the season. If it is possible John McLeod, the College basketball star will coach the ladies at their practice games. Arrangements for these games will be made later when it is known on what evenings the town gymnasium will be available.

COLLEGE TRY-OUTS.

The College boys have been working on basketball during the week, and a quintette up to the strength of last year's cup-winners will probably be evolved. A strong nucleus from last year's team is available, and some promising recruits are being worked up to fill the front ranks.

Although no arrangements have as yet been put in hand for the formation of a league locally there is no doubt but that this could be brought about. With three teams running in the district a domestic league could surely be worked up successfully, even if the suggested

MODERN SPIRITUALISM.

Interesting Address By Mr. J. McLean

"The World We Are Going To" was the subject of an interesting lecture by Mr. J. McLean given under the auspices of the Hospital Society last Friday evening in Empire Hall, the sequel of his first lecture, "The World we are Now Living In," recently reported in these columns.

Mr. H. C. Mellor was chairman, and in introducing the speaker, dwelt on the spirit of helpfulness as shown by our citizens in their making possible the establishment of the Hospital, and he thanked Mr. McLean for augmenting his substantial cheque with these two lectures, the proceeds of which would be added to the hospital fund.

Mr. McLean first gave his hearers a description of the borderland of the spiritual world, dwelling later on glimpses of the world beyond as revealed by departed spirits through sympathetic mediums. We are living in a trinity of conditions: a world of material, a world of forces and a world of mind; and we know least of the world of matter, the speaker declaring that many things were not as they seem. Of the world of forces he mentioned gravity, electric energy, magnetism, etc., interlocking the world of mind with the world of matter. The mind, consciousness of spirit of man was compared to a person living in one room with five windows, the five senses. In the room was a shelf of memory, balances called reason, and another strange thing called feelings. The mind is all in all. The word soul he disliked, because its clerical origin and spirit pertained too much of the world beyond. The mind must be guided by and obey certain fixed laws.

The speaker ridiculed the idea of an instant change from misery in this world to bliss in the next as a grotesque heritage left by a superstitious age, claiming that as we are in this world so we would be in the next. The spirit of a child superintended the building of its form, which ultimately became a man, and the spirit could truthfully say that it had made a man. There was spirit in every living thing, guiding its growth and development, and this was a spiritual world, not a material world. Until now people had been disposed to accept the doctrines of their church as sufficient authority. We were now passing out of the age of authority to the age of reason.

After quoting a number of well-known authors, showing the close relation of the present existence with the world of spirit just over the borderland, the lecturer went on to tell of the origin of modern spiritualism, which he described as the basis of every system of religion. He told of a number of demonstrations of the spirits from his own personal experience, including table rapping, table rocking, flickering of lights, slate writing and other methods of intercourse between the world of spirit and the world of matter. These phenomena, the speaker said, convinced him of the open door of the next world. These phenomena also included that of materialization, whereby a spirit took on a body of flesh, also clairvoyance and dreaming. Descriptions in rather minute detail of conditions in the world of spirit were re-told by the lecturer who had received the descriptions from a girl of seventeen, a medium in Montreal. Both the exterior and interior of a massive throned of beautiful design were outlined, as also the hospitals, whose occupants were imbeciles, people of weak minds. This girl went into one of the hospitals and described the interior, and visited the bedside of one of the patients who said he had known Mr. McLean and that he would soon be well.

Before closing, the lecturer made a further appeal for funds for the Summerland hospital. While the collection was being taken, the speaker was tendered a vote of thanks on motion of Mr. W. J. Robinson, seconded by Mr. C. T. O. Rush.

FRIDAY, OCTOBER 16, 1914.

Because of continued drought the prairie provinces will this year have a lower yield per acre of grain than in any year since 1910.

Mr and Mrs Massey of Kelowna, formerly of Leamington, Ont., arrived by boat on Saturday to spend a few days with former Ontario neighbors, Mr and Mrs A. McLachlan.

Mr Harold Rivington was a passenger on Wednesday morning's boat returning to England to offer his services in defence of the Empire and hopes to soon be in the fighting line at the front.

Two beautifully formed, large, golden apples, gathered by Mr R. H. Steuart from a tree in Mr F. W. Clingan's orchard, are now on display in the Review window. The variety of these apples is not known at time of writing.

Rev. H. G. Estabrook drove up to Peachland on Sunday last, conducting service there.

The hunting party consisting of Messrs Gartrell, Graham, Conway and Dr Andrew returned at different times during the week from their expedition in the Similkameen country. The bag is reported as three mountain goats. They proceeded from Merritt to the railway summit, and from there to the Coquihalla Pass, where the base of their operations was established in Behan's construction camp. There the party were entertained royally by Mrs Behan, who will be remembered as Miss Mae Conway. The unusual altitude appears to have affected some of the hunters during their trip, some of whom were unable to make the fullest use of the time in camp on this account. They returned by way of Kamloops and Kelowna.

HAVE YOU FARM LANDS IN ALBERTA?

Our attention has been drawn by Mr W. C. Kelley, Barrister, to the Unearned Increment Tax Act of Alberta, which no doubt affects many citizens of Summerland owning farm lands in Alberta.

Under this Act, on each sale of farm land the Alberta Government collects five per cent of the unearned increment, that is, the increased value of the land over the value of the prior sale, except where land is actually farmed by the owner.

The important point to British Columbians owning Alberta lands is that if they do not satisfy the Land Registrar of the exact value of their land by October 25th, 1914, he fixes the value at \$15.00 per acre and when future sales are made the Increment Tax is charged on the full difference between the sale price and \$15 per acre.

It is essential where values exceed \$15 per acre that evidence be filed with Registrars before October 25th next.

D. H. Watson returned last night from up the lake.

Will Grieves was a Thanksgiving visitor from Princeton to his home in Summerland.

Mrs Lockhart reached home at the end of last week from a visit to her parents near Armstrong.

Mr and Mrs John R. Conway were down from Vernon over last week-end with their relatives here.

Mr and Mrs H. McCall of Peachland spent the holiday at the beginning of the week with Mr and Mrs Fred Gartrell, at Trout Creek.

Miss Hall, formerly of West Summerland and now at Kelowna, spent last week-end here with Miss J. Rothwell at the home of Miss Annie Dale.

The evening service in St Andrew's Church next Sunday will be a Young People's service. The newly elected officers of the Young People's Guild will be formally installed into office.

Mr and Mrs R. V. Agur were at Vernon for the week-end, the guests of Hon. and Mrs. Coultas Marjoribanks, Mrs Agur's parents, of "Invercaig," Long Lake. They returned on Tuesday evening's boat.

WEST SUMMERLAND WOMEN'S INSTITUTE.

The regular monthly meeting of the West Summerland Womens Institute was held in the High School Room on October 8 at three o'clock. After the opening exercises and the business transacted, Rev. N. McNaughton gave an address on "The Sunny Side of Life," which was interesting and instructive. It will be sent forward to the Department at Victoria. Mrs A. McLachlan gave a paper on Thanksgiving dinners, "How to Prepare, and Whom to Invite," a very practical paper. The recipes were given for all the dishes, and it suggested that as Thanksgiving Day is largely a family day, are there not a few friends in all communities who are lonely, whom we could invite to our dinner? How many are sad and lonely who would not have a Thanksgiving dinner if some kind friend did not ask them in. The absent members missed a treat in the two papers given. The meeting was well attended.

The West Summerland Institute will entertain the Summerland Institute at the home of Mrs Wm. Ritchie on the afternoon of Thursday the 22nd inst. All members of both Institutes are cordially invited.

Mrs H. C. E. Anderson of Vancouver is making her sister here, Mrs O. Atkins, a visit.

Mr G. J. C. White returned last night from attending an executive meeting of the Okanagan United Growers at Kelowna.

Mr R. H. Helmer returned from Ottawa by Wednesday's boat and following a short conference with the executive of the Liberal-Conservative Association, met the Councillors to discuss with them the government's proposition to the Municipality for a water service for the Experimental Farm. Practically the only difference is on the amount of the annual fee. Mr Helmer was authorized to arrange to pay an annual fee of \$200, while the Council had asked \$500. Finally, as a compromise, \$300 was agreed upon, and Mr Helmer has asked Ottawa for authority to accept.

Peachland Notes

W. J. Robinson of Summerland spent Wednesday in town.

Mr and Mrs Wingate welcomed a little daughter to their home last week.

Misses Mary White and Irene Elliott rode to Garnett Valley on Sunday.

Mr Wm. Garroway and Miss Jean Pollard drove to Summerland on Tuesday.

Miss Carlston of the Primary Department spent Thanksgiving at her home in Enderby.

On Monday evening Miss Alice Elliott left for Fairview where she intends teaching.

Mrs Helmer and children of Summerland are the guests of Mr A. Pope this week.

Mr Fleming and his protege, Harry Reynolds, have moved into Mrs Elliott's house on Beach Avenue.

Miss Olive Gummow of Garnett Valley and Miss Gertrude Gummow of Penticton spent the week-end at their home here.

Mrs and Miss McDonald of Regina, who were guests of Mrs Herbert Logan for some time, left on Thursday on their return home.

Mrs J. Mitchell of Prairie Valley and her friend, Mrs Carnegie of Carleton Place, Ontario, were the guests of Mrs Wm. Douglas in the beginning of the week.

In response to a request for aid for the destitute Belgians a large consignment of clothing, blankets, etc., was sent off on Thursday evening by Mrs J. B. Robinson, who had charge of the work here.

Mr Samuel McGirr, who has been under the weather for a few days, left on Thursday morning for the hospital in Kelowna, suffering with enteric fever. Mr Shalla accompanied him over, returning the same night.

Miss Olive Ferguson entertained in honor of Miss Joan Pollard, Winnipeg, and Miss Esso Brown, Vancouver, who were summer guests in town. On this afternoon a movement was set on foot to hold a Patriotic Concert on Friday night. The work is entered into very en-

thusiasm, and everything promises well for the success of the entertainment.

Mrs Lang, secretary of Zenana work in town received a letter from Miss Campbell bringing the Peachland bad to the memories of the subscribers. As Mrs Lang has been unable through poor health to do much collecting this summer, she would be much obliged if any who feel disposed to give would hand the money to her son. There are so many calls on the benevolence of the people this year, coupled with the hard times, that they are unable to do as much as they would wish in this line.

On Tuesday afternoon the regular meeting of the Women's Institute was given over to the Ambulance League, and the room was converted into a regular work room, several tables were being used for cutting out purposes, some were busy knitting belts, caps, and socks, others rolling yarn, two or three sewing machines were kept running steadily. The soldiers both at home and abroad are very near to the hearts of the people who feel that they are not able to do enough at this time for their comfort and well-being.

DISTRICT MUNICIPALITY OF SUMMERLAND.

BY-LAW NO. 64.

A By-law to alter and repeal in part By-law No. 42 of the District Municipality of Summerland.

WHEREAS it has become unnecessary to expend the whole of the moneys authorized to be raised by way of Debentures on the credit of the Municipality under By-law No. 42, to wit, \$55,000 and \$12,000 only will now be required:

AND WHEREAS it is deemed advisable to alter and repeal the said By-law accordingly:

BE IT, THEREFORE, ENACTED by the Reeve and Council of the District Municipality of Summerland, in open meeting assembled, as follows:—

1.—That the said By-law No. 42 be altered and repealed in part as follows:

(a) That the figures "\$55,000.00" wherever they occur in the name and second recital, be struck out and that the figures "\$12,000.00" be inserted in lieu thereof;

(b) That the figures "\$3,730.65" be struck out in the third recital and the figures "\$813.96" be inserted in lieu thereof;

(c) That the figures "\$55,000.00" wherever they occur in paragraphs numbered 1 and 2, be struck out and the figures "\$12,000.00" be inserted in lieu thereof;

(d) That the figures "\$2,750.00" be struck out in paragraph numbered 6 and the figures "\$600.00" be inserted in lieu thereof;

(e) That the figures "\$930.65" be struck out in paragraph numbered 7 and the figures "\$213.96" be inserted in lieu thereof.

This By-law shall have no force or effect until the consent of the Lieutenant-Governor in Council is first had and received hereto.

3.—This By-law may be cited for all purposes as the "Irrigation Amending Loan By-Law, 1914."

Received the assent of the Electors, this day of October, 1914.

Reconsidered and finally passed by the Municipal Council the day of October, 1914.

Reeve, Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which a vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Tuesday, October 27th, 1914, between the hours of 9 a.m. and 7 p.m.
J. L. LOGIE,
Municipal Clerk.

DISTRICT MUNICIPALITY OF SUMMERLAND.

BY-LAW NO. 65.

A By-law to alter and repeal in part By-law No. 43 of the District Municipality of Summerland.

WHEREAS it has become unnecessary to expend the whole of the moneys authorized to be raised by way of debentures on the credit of the Municipality under By-law No. 43, to wit, \$85,000 and \$2,000 only will now be required:

AND WHEREAS it is deemed advisable to alter and repeal the said By-law accordingly:

BE IT, THEREFORE, ENACTED by the Reeve and Council of the District Municipality of Summerland, in open meeting assembled, as follows:—

1.—That the said By-law No. 43 be altered and repealed in part as follows:—

(a) That the figures "\$85,000.00" wherever they occur in the name and second recital, be struck out and that the figures "\$2,000.00" be inserted in lieu thereof;

(b) That the figures "\$2,025.37" be struck out in the third recital and the figures "\$167.16" be inserted in lieu thereof;

(c) That the figures "\$35,000.00" wherever they occur in paragraphs numbered 1 and 2 be struck out and the figures "\$2,000.00" be inserted in lieu thereof;

(d) That the figures "\$1,750.00" be struck out in paragraph numbered 6 and the figures "\$100.00" be inserted in lieu thereof;

(e) That the figures "\$1,175.37" be struck out in paragraph numbered 7 and the figures "\$67.16" be inserted in lieu thereof.

2.—This By-law shall have no force or effect until the consent of the Lieutenant-Governor in Council is first had and received hereto.

3.—This By-law may be cited for all purposes as the "Electric Light Amending Loan By-law, 1914."

Passed by the Municipal Council the 8th day of October, 1914.

Received the assent of the Electors this day of October, 1914.

Reconsidered and finally passed by the Municipal Council the day of October, 1914.

Reeve, Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which a vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Tuesday, October 27th, 1914, between the hours of 9 a.m. and 7 p.m.
J. L. LOGIE,
Municipal Clerk.

DISTRICT MUNICIPALITY OF SUMMERLAND.

BY-LAW NO. 66.

A By-law to raise \$10,000.00 to enlarge, improve and extend the Irrigation System and Plant of the District Municipality of Summerland.

WHEREAS it is deemed advisable to repair, enlarge, extend and improve the irrigation system and plant of the District Municipality of Summerland,

AND WHEREAS it is necessary for the said purposes, to raise, by way of loan, upon the credit of the said District Municipality of Summerland, the sum of \$10,000.00, payable

\$2,000 on the first day of November, 1915,

\$2,000 on the first day of November, 1916,

\$2,000 on the first day of November, 1917,

\$2,000 on the first day of November, 1918,

\$2,000 on the first day of November, 1919,

bearing interest in the meantime, payable half yearly at the rate of eight per cent per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of

\$2,800 by rate in the year 1915,

\$2,640 by rate in the year 1916,

\$2,480 by rate in the year 1917,

\$2,320 by rate in the year 1918,

\$2,160 by rate in the year 1919.

AND WHEREAS the whole rateable property of the said District Municipality of Summerland, according to the latest revised assessment roll is \$2,926,280.00,

AND WHEREAS the total amount of debenture debt of the said District Municipality of Summerland is \$324,000.00 of which none of the principal or interest is in arrears,

NOW, THEREFORE, the Reeve and Council of the said District Municipality of Summerland, in open Council assembled, enact as follows:—

1.—It shall be lawful for the Reeve of the said District Municipality of Summerland to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$10,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinbefore recited.

2.—It shall be lawful for the Reeve to cause any number of Debentures to be made, for a sum not exceeding \$1,000.00 each, bearing interest at the rate of eight per cent per annum, not exceeding in the whole the sum of \$10,000.00, and all such Debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3.—The said Debentures shall bear date the first day of November, 1914, and shall be made payable

\$2,000 in one year,

\$2,000 in two years,

\$2,000 in three years,

\$2,000 in four years,

\$2,000 in five years,

from the date hereinafter named for this By-law to take effect, at the agency of the Bank of Montreal, in the said Municipality of Summerland.

4.—The said Debentures shall have coupons attached for the payment of interest at the rate of eight per cent per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the first days of May and November, in each and every year, and the signatures to such coupons may either by written, stamped, printed or lithographed.

5.—A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6.—The sum of \$800 in the year 1915,

\$640 in the year 1916,

\$480 in the year 1917,

\$320 in the year 1918,

\$160 in the year 1919,

shall be raised and levied by a rate on all the rateable property in the said Municipality, in addition to all other rates in said years, for the payment of the interest on the said Debentures.

7.—The sum of \$2,000 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all other rates for the payment of the debt hereby created when due.

8.—It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon, and no re-issue of any Debenture or Debentures shall be made in consequence of any such repurchase.

9.—This By-law shall, before the final passage thereof, receive the assent of the Electors of the said District Municipality of Summerland, in the manner provided for by the "Municipal Act," 1914.

10.—This By-law shall come into force and take effect on the first day of November, 1914.

11.—This By-law may be cited for all purposes as the "Irrigation Loan By-law, No. 2, 1914."

Passed by the Municipal Council this thirteenth day of October, 1914.

Received the assent of the Electors of the said District Municipality of Summerland the day of October, 1914.

Reconsidered and finally passed by the Municipal Council the day of October, 1914.

Reeve, Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which a vote of the Municipality will be taken at the Men's Club, Summerland, for Wards one and Four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Tuesday, October 27th, 1914, between the hours of 9 a.m. and 7 p.m.

Thanksgiving Day services on Sunday last were markedly well attended, and were characterized by special music and earnest and appropriate addresses at both services. That conducted by Pastor Beatty at 11 a.m. had for the topic "The Church and Patriotism," while in the afternoon Rev. H. A. Solly, Summerland (Anglican) conducted a service. A quartette composed of Mesdames Williams and Allen, and Messrs Mulford and Pitman rendered "Lord of the Harvest," and "Count Your Blessings" in an effective manner.

BOY SCOUT DOINGS.

At a business meeting held on Tuesday, Oct. 6th, it was decided to adopt a new weekly schedule of meetings. The First Aid meeting on Thursday evenings is to be held on Saturday-afternoon instead, and Physical Drill meeting is to be held on Friday instead of Saturday evening. The new schedule is as follows:—

Tuesday evening—Scout work.
Friday evening—Physical and athletic work.
Saturday afternoon—First Aid.

Owing to the efforts of the Scout Governing Board a Club Room and Gymnasium has been procured for the use of the Naramata Scouts. The building is situated on Robinson Ave., next to the meat market, and the Board has promised to guarantee that the rent is paid every month without making any inroads on the Scout Fund. (Cheers for the Scout Governing Board). Friday evening was occupied in the work of cleaning and airing the building, and moving our mattresses, and other paraphernalia from the church basement into the new place. A carpet, some pictures, chairs, books, etc., have transformed the room into a very cosy club room, and we expect to accomplish a good deal of work there during the coming winter months.

The First Aid meeting was again held at Dr Robinson's cottage on Saturday afternoon and an interesting as well as appropriate talk was given on bullet wounds and their treatment. After the doctor had finished talking on this subject the boys were shown some slides with portions of arteries, etc., on them through the microscope, and were invited to come to his cottage one or two at a time any evening during the week and have more of this work. The greatest compliment that could be paid to Dr Robinson's ability as a teacher is to state that he makes his lessons so interesting that though the lesson lasts two hours, yet at the end of that time the boys are reluctant to leave, and declare that they don't believe that they have been there over fifteen minutes.

A BOY SCOUT.

Current Events — OF — Town & District

Mr and Mrs Carroll Aikins and Mr and Mrs Geo. Ross of Summerland were guests on Thanksgiving Day of Mr and Mrs J. M. Robinson.

A party of Summerlanders came across by special ferry on Monday and spent the day at the now popular fishing ground at the mouth of Chute Creek.

Mr S. B. Cash is planning now for the construction of a comfortable and commodious dwelling on his fruit ranch north of town, and contiguous to that of Capt. Languedoc.

After a week's respite from the heavy task of reservoir construction the work was again resumed but this time on the old and existing site belonging to the Trust Co., and which dam is situated some three hours climb almost due north-east from town.

Miss Edna Noyes has returned from a whole season's visit at Victoria where she was a guest of her married brother, Mr Ernie Noyes. During her protracted stay at the provincial capital Miss Noyes took advantage of the opportunity thus afforded her to improve her musical talents.

Mr and Mrs V. Watson spent the holiday season in town as guests of the latter's parents, Mr and Mrs H. J. Wells. During his visit here Mr Watson made good use of his spare time working on his lot where he has a large plot of "spuds", a somewhat valuable asset in these times when foodstuffs are playing the aviators stunt of soaring aloft.

Mrs Allen had a few minutes exciting experience on Sunday night when her horse became frightened and dashed at an angle across the lot near that of Mr Russell Wells, and on which is situated the Grant Smith & Co's mess hall. With several in the rig the frightened animal tore through one fence only to come pell mell into another where she fell down and lay for some little while in quite a helpless condition, till extricated by the Messrs Aldridge Bros., who fortunately happened along at the time. The miracle of it all is that though the occupants were thrown out through the bumping of the rig over the uneven ground, nobody was hurt at all seriously, so that a few minutes afterwards the whole party drove off as though nothing in particular had happened.

A VISITOR FROM CALIFORNIA GROVES.

Mr Taylor of Lindsay, California, an old friend of Mrs Mark-Manchester's folks, dropped off here for a few days in the course of an extended trip through Canada. Mr Taylor, though for 23 years a resident of United States is a native of Scotland, and spent several years in Ontario, Guelph being his actual place of residence, and near which he owned and operated a farm. Since going to California he has become a successful and enthusiastic fruit grower, being now the proprietor of a 30 acre orange grove, 10 acres of which this year netted him considerably over \$4,000, and the trees are but 7 and 8 years old.

When questioned as to the value of improved tracts such as he spoke of he replied that anywhere from two to four thousand dollars was a common price, but some of the groves were actually worth, according to official returns, a great deal more. For years, however, it was not so, as until the formation of a live aggressive fruit selling and distributing organization such as the one we have only recently got under way, fruit growers had a very hard time to make ends meet. In California there are still a few independent growers, but were it not for the California Fruit Growers' Exchange the problem of finding a profitable market for their immense crop would be an utter impossibility.

The lesson to be learned from an interview is that the people of the Okanagan Valley have every reason to believe that theirs is a goodly land, and that before many years our Valley will become as rich and as popular as the now famous orange groves of California.

Current Events. (Continued)

T. H. Boothe spent Wednesday of this week in Penticton.

Messrs Dennison and Bruce returned from a fairly successful trip to the hills in pursuit of game.

The opening of the new school is postponed till Friday October 23rd, in order to make fuller arrangements and to give everybody sufficient notice.

Mr A. W. McCullough, formerly of Naramata, has accepted an engineering position at Coalmont. His wife and family are remaining in Penticton.

Mrs Languedoc's mother and sister, Mrs and Miss Mason, after a year's residence in Naramata have returned to England, going out on this morning's boat.

Mr and Mrs Armour were recently favored with a brief visit from friends of their folks in Scotland. The gentleman in question; a Mr Gardner of Glasgow, is the owner of the big estate at Vernon, the Scottish-Canadian Ranch, which is visited officially every few years.

Amongst the list of names of the prize-winners at the recent poultry show held at Armstrong, appear those of Mr Mulford, who had a few of his choice Single Comb White Leghorns on exhibit, and Mr Aldridge, who is credited with several winning scores on his entries of Orpingtons.

The recent rains and the subsequent muddy condition of the highway leading toward the new school would apparently suggest almost absolute necessity of a sidewalk from at least Fourth Street on Robinson Avenue east as far as Eighth Street at the corner of which the new school is situated.

The regular Wednesday evening service was dispensed with this week in order to afford a unique visitor in the person of Rev. Pierce, a regularly ordained Indian home missionary preacher, an opportunity to make an appeal for his people—the Siwash of the Coast, who this year appear to be in extra hard straits.

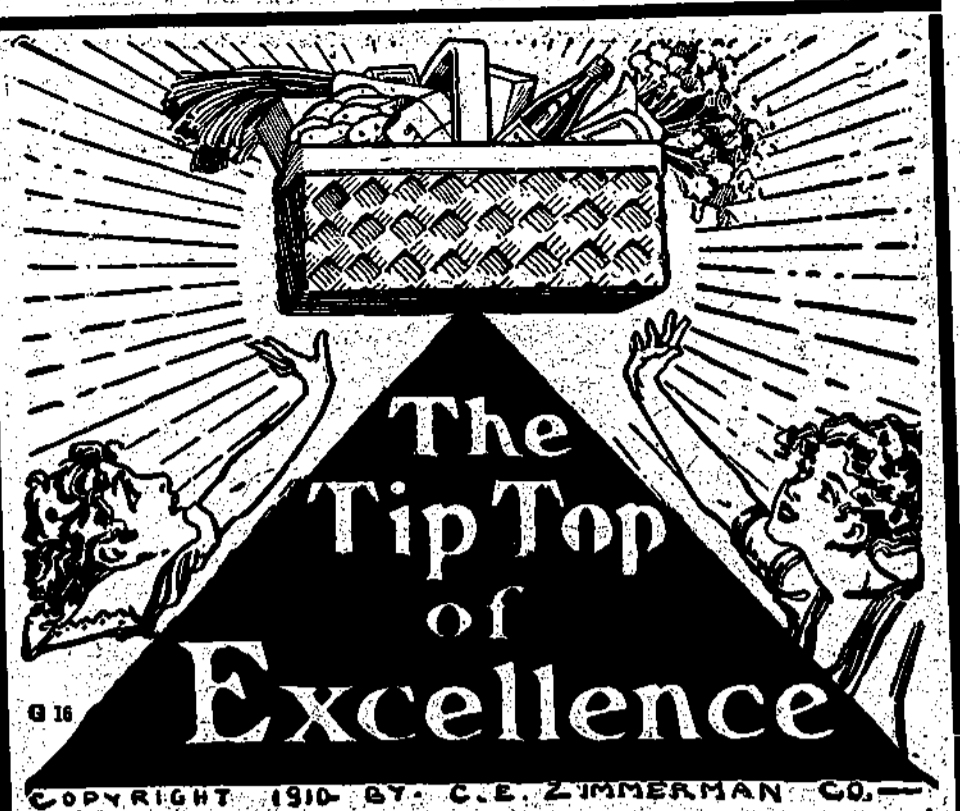

The report that Columbia River salmon had made their way up stream as far as Dog Lake, and that this favorite fish was as plentiful at Okanagan Falls as the kickinnies were a few weeks ago in our local creeks, roused the ambition of a party of Nimrods of Naramata to join in the chase. The results appear to have been not without an element of disappointment, as but a very limited catch is reported, though the fish that were caught certainly were good—yet scarcely worth the trouble of the long journey.

The Chicken Shoot on Thanksgiving Day attracted quite a number of the local marksmen, and also a representative crowd from Summerland. The shooting while at times erratic was on the whole up to average. In all there were nine tournaments of eight targets each. Mr Fred Anderson of Summerland won out in the first, fourth and fifth, capturing in all six birds. The other winners were Roy Boothe, Frank Edgar, N. Alexander, A. H. Mulford, Roy White, and Gerald Roe. Others who scored high were Mr Hancock, Mr Gumnow and Ben Newton.

The regular meeting of the Farmers' Institute on Friday evening last was not particularly "newsworthy." The matter of establishing a herd law is still up for discussion. While no actual word had as yet been received by the secretary it was thought best to secure suitable quarters for a proper pound and engage some one to look after the same. A committee consisting of Messrs Cash and Salting were entrusted with this question. The secretary read a communication from the Hon. the Minister of Agriculture relating to the Patriotic Relief Fund, and it was felt that this was so largely a personal matter that it should be left with a committee to see the members and citizens and solicit at least a nominal contribution from each, even if it were the modest two bits. Messrs Cash, Boothe and P. Williams were named as the solicitors. Money so collected will be turned over to the secretary, and through that channel to the Department of Agriculture.

SEPTEMBER SCHOOL REPORT. Honor List.

SENIOR GRADES,
DIVISION I.—Stanley Stiff; Edmund Boothe; Varn Salting; Harold Allen.

There can be only one best—the Tip Top of excellence. We both aim to get it. You, the clever and successful housewife, want the groceries that give the greatest results in your food—that please your family and visitors.

WE sell only tip top quality in groceries so that we may get your trade—and retain it. Every item we send out is an advertisement of the quality of the others. If we did not maintain tip top value always, our business would not continue to grow as rapidly as it does. Inspect our extensive stock—or telephone a trial order.

Speaking on Life Insurance

WINSTON CHURCHILL said:

"If I had my way I would write the word 'INSURE' over the door of every cottage and upon the blotting pad of every public man, because for sacrifices which are inconceivably small, families can be secured against catastrophes which otherwise would smash them up forever."

The Mutual Life of Canada

is the ONE company that is in a position to get you this insurance at actual cost—if you apply in time—and if you are insurable.

It will pay you to look into their plans as presented by the Company's special Agent:

T. H. BOOTHE, Real Estate and Insurance Broker,
NARAMATA, B.C.

This is a pretty good advertisement for the

Syndica House,

Roe Bros.] Naramata, [Proprietors.

but the Hotel itself is a better one.

What do You think?

The Okanagan Lake Boat Company,

Starbucka, B.C. D. G. Roe, Manager. Limited

- No. 65. A By-law to alter and repeal in part By-law No 43.
- No. 66. Irrigation Loan By-law, No. 2, 1914.

Such Poll will be opened on

Tuesday, the 27th day of October, 1914
between the hours of 9 a.m. and 7 p.m.

AT THE MEN'S CLUB, SUMMERLAND, for Wards One and Four,

and at —

THE MUNICIPAL OFFICES, WEST SUMMERLAND,
for Wards Two and Three.

Given under my hand at Summerland, this 13th day of October, 1914.

J. L. LOGIE, Returning Officer.

Passing Events: Social, Personal, &c.

SUNDAY, October 18th. Everybody go to church.

Come to the big Chicken Shoot next Thursday at Peach Orchard. Shot guns and 22.

Miss Lillian Brown visited at Vernon with her sister, Mrs G. A. McLaine, over Thanksgiving.

Mr W. P. Racey of Rosslund was a visitor to town over the holiday week-end, the guest of Mr and Mrs D. H. Watson.

Mr. O. Atkins, for some days a patient at the hospital, has so far recovered as to be able to be on the street again. He left the hospital on Tuesday.

An eight-year old gray Percheron mare, the property of Mr J. E. Weldon, valued at not less than \$1,000, died last Sunday from disorders induced by change of diet.

Miss Eula Watson and Miss Myrtle Conway spent last week-end with friends at Kelowna. Miss Watson returned on Monday evening, while Miss Conway is remaining there for a short vacation.

85 per cent of headaches are the result of eye strain. If you are troubled that way consult S. L. Taube, Eyesight Specialist, at Summerland Drug Co., Summerland, on Tuesday, October 20th. 09-16

Miss Watson, who has been here for some months with her sister, Mrs A. McLachlan, left on Wednesday's boat to return to her home at Leamington, Ont. Miss Watson will visit Calgary and Edmonton en route.

Apples, as a result of the government's advertising campaign, are being given much prominence just now in Vancouver stores. B.C. apples are well to the front, and the British Columbia label is seen everywhere.

A break in the domestic water main just north of Mr A. Moyes' property necessitated the shutting off of the service above that point at noon on Thursday. Supt. Mitchell has men at work to-day making necessary repairs.

The United Growers have been advised that no increase will be made at present in the freight rates of B.C. fruit to Australia and New Zealand. It was feared that on account of the war there would be an increase in the rates.

The Thanksgiving service of the Baptist Mission Circle was held in the Lakefront Church on Tuesday afternoon last. An interesting program was prepared and a fair audience was present. The treasury was enriched by an offering of \$22.50, which will probably be increased somewhat by those who were unable to be present.

The annual Thanksgiving services in connection with St. Andrew's Church will be held on Sunday and Monday, November 1st and 2nd. Rev. Ferguson Miller of Pentiction will conduct the service Sunday morning and evening. On Monday evening there will be a concert and social in the church. The choir, assisted by excellent local talent, will furnish the program. The Ladies Aid Society will have charge of the refreshments.

On Sunday next special services in connection with the "Go-to-Church" campaign will be held in the Methodist Church, to be conducted by the pastor, Rev. R. W. Leo. In the morning at 10.30 a.m. Mr Leo will give the second of a series of addresses on the "Book of Revelation." At the evening service at 7 p.m. the subject will be "Universal Religion: Its Place and Power." By special request Miss Price of Naramata has consented to sing, and will render the two well-known pieces "Angels Ever Bright and Fair," and "Oh for the Wings of a Dove." The Harvest Festival services will be held on Sunday October 25th.

The first reception of the College year held on Friday evening of last week drew a large number of students and friends to Morton Hall, the ladies' residence building. At the door welcoming the guests were Miss K. C. McLeod, Lady Principal, and Mrs. S. Everton. College receptions have gained the reputation of giving all who attend a merry, social time, and Friday evening's gathering was very far from being an exception. The program was mainly games and contests of a novel and amusing nature, interspersed with several pronouncements. Rev D. E. Hatt gave an eloquent selection during the course of the evening.

Miss Bessie Clark was at home in Pentiction for the Thanksgiving holiday.

Miss Bernice Baker of Pentiction was the guest of Miss Myrtle Clay for a day or two at the beginning of the week.

The regular monthly meeting of the Ladies' Hospital Auxiliary will be held at the Hospital next Tuesday, October 20th.

A visitor from Kelowna for the Thanksgiving holiday was Mr Gordon Dinning, who was a guest at the Trout Creek home of Mr and Mrs J. R. Brown.

Invitations are being sent out bidding guests to the first social gathering of the season held by the St. Andrew's and Caledonian Society, in the Campbell Hall, on Friday evening next, October 23rd.

Is it not a fact that the churchgoer is in the way of being reminded; week by week, that he is not a mere animal living a little while, but that he is an immortal, living for ever?

Remember the date of S. L. Taube's visit to Summerland, and if there is anything wrong with your eyesight do not fail to consult him at Summerland Drug Co., on Tuesday, October 20th. 09-16

Mr J. Taylor of Lindsay, Cal., who has been spending a few days with friends in Naramata, spent last week-end with Mr and Mrs A. G. Simms, former Californian acquaintances.

Two mammoth Alexander apples, beautiful both in color and form, have been admired by many this week while on display in the Review Office window. These apples were grown in the orchard of Mr C. Napier Higgin.

Mr E. C. Howard, Piano Tuner of Vernon, B.C., will be in Summerland during the week of Nov. 13th, attending to the work of the late Mr W. J. Curtis. Orders received at the Summerland Drug Store.

The first bale of garments from the Okanagan Ambulance League for the soldiers was sent off to the Red Cross Society last week. It included—12 bed jackets, 18 hospital night shirts, 18 pr. socks, 6 chelera belts, 12 shirts, 1 pr. mitts.

Mrs Carscad and son, who have spent the last three or four years in a tour of the world, were in Summerland this week, the guests of Mr and Mrs A. G. Simms. While resident in New Zealand Mr and Mrs Simms enjoyed a visit from the same party, earlier in their world tour. The two families were at one time neighbors at Riverside, California.

Is it not a fact that the world's best and happiest and most helpful people are, as a rule, churchgoers, honoring their Father's House and their Father's Day? Is it not a fact that nearly all the world's "down and outers," the criminals, the underworld, the wreckage floating on life's sea are those who have not been churchgoers?

Mr W. E. Moore, brother of Prof W. H. A. Moore, of Okanagan College, has been about Summerland for some days, and will cover the Valley in the interests of his company, the Monarch Life. It is very probable that Mr Moore will locate in the Okanagan, making Summerland his headquarters. He is now a resident of Vancouver.

A new switchboard has been installed in the local office of the Government Telephone Service, which is proving a great convenience and will much facilitate the work, making it possible for simultaneous conversations to be carried on over the trunk line both north and south. The Fruit Union will be given direct connection with the United Growers' office at Vernon, instead of through the Summerland Telephone Exchange.

Although the recent wet weather interfered somewhat with the common work, good progress is being made with the lining of the main southwest of T. J. Garnott's. Superintendent Mitchell has men at work preparing the Jones Flat ditch for cementing. There is also a gang of men placing steel fluming in the big main ditch between Trout Creek and the Reservoir. The fluming has been on hand for a considerable time. No actual work has yet been done on the lining of the south main by contractor McAlpine. The cement has arrived, however, and in the meantime much preparatory work has been done.

Everybody go to church on Sunday, October 18th.

Miss Connie Neve was a passenger out on Thursday morning's boat Coastward bound.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work especially.

Dr and Mrs R. C. Lipsett boarded the "Sicamous" on Monday morning bound for Kelowna to spend Thanksgiving Day there with Mr and Mrs A. L. Moreland. They returned on Tuesday evening.

A number of town folk enjoyed a dance on the afternoon of Thanksgiving Day, something in the way of an impromptu affair, in Empire Hall, whiling away an hour or two of the holiday very pleasantly in this manner.

Mr George Hampshire has rented a seven acre orchard across from Victoria Gardens for a term of years from Mr W. C. Kelley, and will have a new house erected thereon at once. Mr Hampshire intends to pull out a number of peach trees and grow early vegetables.

Enderby is enjoying the distinction of having the first alfalfa mill in the province. The plant is for the purpose of grinding alfalfa hay to meal which is largely used, where obtainable, in mash and similar feeds for stock. Established in the centre of a large alfalfa district with excellent market all round, the success of the new industry seems assured.

Very appropriate to the movement now on foot to induce a large attendance at all the local churches next Sunday, October 18, "Everybody-At-Church Sunday," are the pen and ink sketches displayed this week in various places of prominence throughout the district. They are the work of Mr Wm. Kerr, and most effective and striking from their originality. The one displayed in the Review window has attracted much attention from passers-by.

Mining Venture Now Promising Great Success.

J. M. Robinson and Associates in Idaho Enterprise Due to Reap Rich Return Immediately.

Mr J. M. Robinson and his associates have met with most unusual good fortune in the acquiring and developing of a mining proposition near Silver City, Idaho, which now seems a certainty. Since entering upon the venture Mr Robinson, though perhaps most largely interested, has been the least enthusiastic, and even now with reports coming in that would fire the ordinary speculator to the extreme height of optimism, Mr Robinson still takes the reports of good fortune as a matter of course, and has been all along reticent to give out any news, preferring to wait for more definite results.

On Friday last a telegram was received bringing the news of the striking of ore of paying qualities, and this information having been passed around from month to month Mr Robinson has given a Review representative the privilege of reading some of his latest reports and also permission to publish a story of the mine as it recently appeared in a paper published in the vicinity. Mr Fred A. Gerling, a mining engineer who is associated with Mr Robinson, has with him at the mine Mr R. C. Robinson, and it was from him that the good news was received last Friday telling of the striking of ore, which telegram was confirmed by the following letter:

Silver City, October 15, 1914.—We have been having good indications in the last six or eight feet, and I couldn't wait any longer, so had to wire. It is proved beyond a doubt that we have the ore, for the copper never exists in rhyolite without there is lots of gold close by. The rock we have now is just full of copper pyrite, which itself carries gold, and would be worth about \$1,000 per ton. Then, besides, there is some silver and gold in it. Every indication, from the quartz coming in and the general stratification of the rock, shows we are just getting into it where it is sure going to be rich. We should get the mill in shape next month, and have money to buy ore sacks and other supplies. This mine is no chance game now.

Just preceding this Mr Gerling had written:—"We surely feel good over the strike, as I did not think we would have it looking so good all at once. Now I can say this to you, we shall have a mine, and one that will pay us all the money we will ever need, for the formation shows it one of the biggest as we go deeper into the formation and the minerals. These conditions do not exist without a big body of higher grade ore, and I will stake my life that the shaft down fifty feet more and one hundred feet cross-cut, will give us all the money to handle ourselves and keep the mine going in a big way, and by spring we should be taking out forty or fifty thousand dollars to the good. If I were not sure I would not work the way I am doing."

Something of the history of the property may be gleaned from the following taken from "Owyhee Avalanche," Silver City.

It is not often that a miner will return to the scene of a discovery sixteen years after setting discovery

stakes and begin active operations in developing the property with more enthusiasm and a firmer belief as to its value than on the day of discovery. Such is the case of Fred Gerling who has been operating for the past ten months on the Mammoth claims in Sawpit Gulch.

Some of the richest float ever found in this district was picked up in this gulch in early days in the vicinity of the present workings, and Messrs. Gerling & Leonard drove several hundred feet of tunnel in 1898 in an endeavor to locate ore bodies which were believed to be there in the shape of a crater but which had been covered up from the slide of the mountain. This has been proven true in the development of the present shaft, which was sunk the first thirty feet with pick and shovel.

All the work on the property until the starting of the present shaft has been of an exploratory nature in order to determine the circumference and exact location of the blow-out. Nearly 500 feet of tunnels and drifts have been run for this purpose, and now that this work is finished development will progress along permanent lines.

The shaft, located 20 feet south of the ore body, is now down 100 feet, with 50 feet more to go before drifting will begin. A large shaft house has been erected in which is located the hoisting plant, 25-horse gas engine, compressor and blacksmith shop. All the machinery is under the personal supervision of Mr Gerling, who has demonstrated his ability in that line by inventing an automatic dumping device that saves the work of one man, and also contriving several safety devices, the most prominent of which is an ignition apparatus for shooting. The shaft is 4 x 8 feet, with a compartment equipped with ladderway and piping for ventilation and air line.

It was the aim of the management to place the shaft at a sufficient distance so as not to encounter ore before the 150 foot level had been reached, but at the 100 foot station copper-stained ore has been encountered which carries silver and free gold in paying quantities. In the event the ore body encountered should prove permanent, arrangements will be made to mill at the Potosi this winter. J. M. Robinson of Naramata, B.C., is associated with Mr Gerling in the property, and until such time as they file their incorporation papers in this state, they will operate under the firm name of Gerling & Robinson.

Every Review reader will be glad to learn of the excellent prospects of Mr Robinson and of those others of our citizens who are associated with him in this venture. Next to the discovery of such a property in our own midst we know of nothing that will so directly benefit our South Okanagan communities as will the placing at the disposal of their founder the ready capital which now looks so nearly certain, and which has been the only thing needed to the establishment of several industries and the further development of the various districts in which he is so deeply interested.

"EAT B.C. FRUIT" CAMPAIGN SUCCESSFUL.

The fruit inspectors are not being kept so busy these past few days as the Province, for the receipts of American fruit have been light.

This morning but 580 boxes of apples passed inspection, and 37 boxes of pears. The "Eat B.C. Fruit" campaign is no doubt having a good effect.

Apples are to be soon everywhere in the grocery and fruit stores. Special displays of British Columbia apples are being made by many of the shopkeepers.

One down-town Granville Street store had a magnificent showing of fancy Jonathans, selling at \$1.50 a box. The boxes were shown in an attractive style.

EUROPEAN VIEWS ARE SHOWN.

Interesting Topical Feature of Wednesday Y.P.C. Meeting.

There was a church full of people at the St. Andrew's Y. P. G. meeting on Wednesday evening, in the Presbyterian Church, members and friends evincing a keenness to get acquainted with the geography of the European war zone. There were not less than two hundred in the church, very little seating accommodation being left vacant.

After the preliminary business of the Guild had been put through in a regular way, with President H. W. Trefry in the chair, the program of the evening was opened by a reading from Mr. John Steven, an article of some length setting forth clearly the beginnings of the present war conflagration, exposing the Teuton machinations in the Austro-Serbian difficulty at the commencement of hostilities. Of a little different nature was the poem read by Mr. T. B. Young, which showed how the idea of going to war for the aggrandisement of Germany was part of the patriotic code of the nation.

Of great interest were the scenes in Europe depicted by lantern slides, thrown on to a sheet around which were draped several Union Jacks. These were a collection of views gathered by Miss J. Rothwell in the course of a holiday spent in Europe. There were scenes in cities now right in the war area, as Ostende, Antwerp, Brussels, Louvain, Paris, Berlin, Rheims, and other points, as well as other cities brought into more or less prominence on account of the war. As the slides were being shown Miss Rothwell, the "lecturer," mentioned a few facts in connection with each, adding much to their interest. The patriotic feelings of the meeting found vent when the picture of King George was shown, in the singing of the National Anthem.

Two songs were on the program, the topical "It's a Long, Long Way to Tipperary," by Mr. J. O. Smith, and the martial "Boys of the Old Brigade," by Mr. Geo. Fisher.

The collection in aid of the Belgian Relief Movement was taken up during an interval, and realized the very creditable sum of \$15.65.

An announcement received with regret by members of the Guild

HOSPITAL BALL IS PLANNED.

Ladies' Auxiliary at Work to Augment Funds Now in Hand.

At Tuesday afternoon's meeting of the Ladies' Hospital Auxiliary representatives from the Hospital Society were in attendance to make clear the financial situation in regard to the building fund, and to ask the co-operation of the Ladies' Auxiliary in raising funds to make the final payments on the building. There is still outstanding a sum of a few hundred dollars. The ladies consented to do this, and have entered most earnestly and enthusiastically into plans with this good object in view. Several plans for raising funds were suggested and discussed, and after consideration of various ways and means, the ladies now wish to announce the First Annual Hospital Ball, to be given on Tuesday evening, November 10th, in Empire Hall. Everybody is asked to reserve this date and come, for it is bound to be THE event of the season.

The following committees have the affair in charge, and are asked to meet at the home of Mrs. R. M. Ross on Tuesday, October 27, at 8:

Reception—Mesdames Hespeler, Hanington, Clouston, Cartwright, Ross, and Andrew.

Decorations—Messrs J. M. Sutherland, Knox, Milligan, Mesdames May, Markoe, G. M. Ross, and Misses Cartwright and Hayes.

Finance—Mesdames Ross, Hanington and Cartwright.

Refreshment—Mesdames Clouston, Andrew, English, Gartrell, Tait, Robinson, Phinney, Angove, Angwin, Limmer, and W. Watson.

The Ladies' Hospital Auxiliary has in the past addressed itself to tasks by no means of little magnitude. Courage is the watchword of the ladies in all their work, and one can safely predict that this endeavor will be brought to no less a successful issue than anything attempted in the past.

was the impending resignation of the President. Mr. Trefry leaves very shortly to take up work in the Home Mission field of his church.

To Miss Rothwell in particular, and all who had assisted to make the evening such an unqualified success, hearty votes of thanks were tendered before the meeting broke up, after the National Anthem had again been sung.

Peachland Notes

Mr. Chas. Somerville spent Friday in Kelowna.

Mrs. D. White and daughter, Miss Mary, spent Wednesday in Kelowna.

Mr. Wm. G. Arroy and Miss Jean Pollard were visitors to Summerland on Tuesday.

Professor Harrington of Okanagan College spent the week-end with his family here.

Mr. Wm. Garway and Miss Jean Pollard left for Winnipeg this morning, after a holiday spent in Peachland and vicinity.

Preparations are being made for the usual anniversary services in the Methodist Church on Sunday, Nov. 1st, to be followed by a supper and concert on Monday night. A good program is expected.

PATRIOTIC CONCERT.

"A little the best thing that has been here for some time" is the universal verdict about the Patriotic Concert which was given by the girls of town on Friday night last. The Monday previous, at a tea given by one of their number, the suggestion was made that they give a concert, the proceeds to go towards the local Ambulance League. Mr. W. A. Lang, who had just returned from a trip east was given the honor of being chairman, none of the girls feeling quite up to that position. Miss Annie Sonton was door-keeper, Misses Bessie Sonton and Leone Morrison acted as ushers. The hall was tastefully decorated in the season's tints, conspicuous among which were the Belgian and British flags. Mr. Chas. Van Seymourtier, the only Belgian in town, was an honored guest of the evening. The program, which was as follows, was a credit to the girls:

Chorus, "Canada."
Violin Solo, Miss D. Harrington.
Vocal Solo, Miss Jean Pollard.
Recitation, Miss Irene Elliott.
Piano Duet, Misses Harrington and Lang.
Tableaux, "Britannia."
Speech, Chairman.
Chorus, "Tipperary."
Reading, Miss Mary White.
Vocal Duet, Misses Pollard and Harrington.
Recitation, Miss Olive Ferguson.
Vocal Solo, Miss Jean Pollard.
Chorus, "Tenting To-night on the Old Camp Ground."

The soldier's song, "Tipperary," brought down the house, all joining in the chorus. "Britannia," Miss Bessie Sonton, dressed in flowing white, with helmet on her head and a large shield at her left side, while in her right hand she held the trident, represented the principal figure. The other girls were the colonies and other countries bringing their offerings to her:

Gibraltar, Miss Kathleen Henderson
Australia, Miss H. Gummow
England, Miss Leone Morrison
Canada, Miss Jean Pollard
New Zealand, Miss Ethel Hoag
Scotland, Miss Edna Pontland
Ireland, Miss Beatrice Lang
Ceylon, Miss Irene Elliott
Africa, Miss Mary White
China, Miss Olive Ferguson
India, Miss Ella White
Yukon, Miss Bessie Brown.

The closing chorus was sung with the lights turned off, the girls sitting round a camp fire, with a tent in the background, and was very effective, especially the chorus of "Dying To-night," etc. The proceeds amounted to \$44.00. There is some talk of visiting other lake towns with the entertainment, and if so we can assure our sister towns of an evening entertainment. The S.S. "Abaddon" laid over on account of the storm on Friday night, and her crew was able to attend the concert.

Summerland Gives Bountifully to Help the Belgians.

Entire Community Joins in Spontaneous Gift of Twenty Cases of Goods, Mainly Apparel.

When the suggestion was first put forward that Summerland, falling into line with a nation-wide movement, should make a contribution in goods to aid in the relief of the destitute Belgian people, it was felt that perhaps two or three cases would be a reasonable expectation, taking into consideration all present conditions reigning in the community. But the local spirit of benevolence refused to be confined within such narrow limits, and so for the second time within a few weeks, the community, taking in hand a real charity, has surpassed itself in unselfish giving, without distinction as to master or man, creed or belief.

No less than twenty cases of goods and clothing of all kinds represents the sum total of what Summerland has given to the Belgian Relief Movement. That this response was unexpected goes without saying. There was a spontaneity about the unsolicited giving that was more than refreshing, and as a gift to those who are underserving sufferers, it shows that the spirit of charity cannot be quieted by talk of hard times; and also, that if everyone is not fully appreciative of the comparatively easy circumstances obtaining here, at the same time there are few who are quite dead to the dire need of fellow creatures, even though of foreign birth.

The Women's Institute had the matter in hand, and with the freest co-operation of some citizens of prominence in all sections of the district, were enabled to bring their work to such a successful conclusion. Goods were received at the Empire Block on Saturday and Monday, and in such a variety were things forthcoming, that the gifts could scarcely have been conceived more fitting to the need had the appeal been long standing before the community. Heavy clothing of all kinds were sent in profusion, topwear and underwear, for men, women and children. Many of the donations were by no means old or worn, but quite to the contrary, had a distinct air of newness. Socks, stockings, and mitts numbered many pairs, and in a large number of instances were accompanied by various kinds of underwear and shirts, coats, vests, pants, and overcoats. The boots and shoes by themselves made a substantial offering. It

was at first thought to combine all the footwear, men's, women's, and children's, into one case, but when the time for packing came, it was found necessary to devote a case of generous dimensions entirely to men's footwear. This instance the scale of giving in all lines.

From the surplus of the Hospital Ship Fund remaining at the bank \$50 was handed over for the purchase of blankets, and with this amount ten pairs of this winter necessity were added to the pile of donated goods. The sum of \$17 collected by the employees of the Garnett Valley sawmill also went for the purchase of blankets and socks. From the Fruit Union employees came another unexpected donation of \$41, which was devoted to the purchase of children's dresses and other clothes, comprising almost complete outfits for a good many young Belgians. A subscription circulated impromptu among the business places of the town realized \$25, with which ten boys suits were bought. Where purchases were made, generous discounts were allowed, on a scale that showed that the sympathies of the merchants were with the movement. Among the merchants who made additional gifts of stock were the Summerland Supply Company, blankets, underwear, shirts, blouses, etc., A. J. Beer, boots and shoes; A. B. Elliott, socks, mitts, caps, etc.

Naturally the collection of such a quantity of goods entailed a great deal of work in sorting and preparing for shipment. In this the Institute ladies were prominent, and with Mesdames R. C. Lipsett, W. H. Hayes, G. N. Gartrell, and R. H. English, among others, rests a great deal of credit for the smooth progress of these details. Male help was not lacking either when the heavier work of nailing the cases up and their actual shipment was to be done. "Help to the helpers" was the afternoon tea served by Mrs. W. J. Robinson to those busily engaged in their work around the stacks of clothing and

It is thought now that a carload of goods of all kinds can be made up from the entire Okanagan Valley, and until the arrangements for this collective shipment are completed, the twenty cases are being warehoused at the C.P.R. wharf.

Railway Progresses In Spite Of War.

Govt. Receives Gratifying Report From Mr. J. J. Warren, Pres. of K.V. Line.

A very gratifying report respecting the amount of progress being made towards the completion of the Kettle Valley Railway has reached Premier McBride in a telegram from the president of the line, Mr. J. J. Warren. Some indication of the speed with which this railway is being rushed along will be given when it is stated that nearly 275 miles of steel have been laid, and that over 90 per cent of the remaining grading has been completed. This is held to be a really excellent showing, in view of the extraordinary situation which now prevails as a result of the war. Mr. Warren's telegram, which is dated from Ponticton, says:—

"We have connected up Kettle River and Okanagan Valley, steel meeting at Mile Forty, five miles east of Ponticton.

"We now have almost 225 miles of steel laid, of which 175 miles are continuous from Midway to Osprey Lake, via Ponticton.

"Over 90 per cent of the remaining grading to be done on the entire line is completed, and all grading will be finished in another month.

"At the beginning of winter there will remain only sixty miles of track to be laid next year."

Don't be satisfied to praise public spirit where it is deserved; do serve a little yourself.

LETTER TO THE EDITOR.

WHY NOT CANADIAN APPLES?

784 Gardena Ave.,
Long Beach, California.
Oct. 10, 1914.

Editor, Summerland Review,

Dear Sir,—
In the Los Angeles "Times" of the 8th inst., a wire appears from San Jose, California, stating that the British Government has recently bought from Watson Bros., 500 carloads of apples, and have asked for quotations for several hundred carloads of prunes for the troops.

I have sent the paper in which this appears to the Winnipeg "Free Press" hoping that that paper would move in the matter.

It is difficult to believe that, in view of the magnificent donations of fruit, grain and other products made by the Canadian provinces to the British Government, the said government would pass over the Canadian fruit growers who are so much in need of a market at present, as a result of this titanic struggle of arms. I trust that the papers cognizant may protest, if the report is found to be true.

Yours truly,
W. A. DOYLE.

The Poultry Association have arranged with Mr. Terry of the Poultry Branch of the Department of Agriculture for classes in poultry killing and dressing. An afternoon class will be held at West Summerland, and an evening class at Summerland.

The Summerland Review

Rates for Contract Advertisements furnished on application.
Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

FRIDAY, OCTOBER 23, 1914.

YOUR VOTE is called for on Tuesday next. The text of the three by-laws requiring popular sanction appears for the second time this week. Two of them are the rescinding of previous debenture issues authorized, but not a practicable flotation on a lifeless money market. These are being formally reduced to the maximum of wisdom, all things considered. The third measure is authorizing "baby" debentures to the extent of \$10,000 for pressing work on the irrigation system that has now been put in hand. This issue will not only provide an opportunity for profitable local investment, but will also pay dividends to the entire community in a higher standard of efficiency from the system generally.

THE RESPONSE from the local homes and stores to the call for help for the Belgians can be regarded in no other light than most gratifying. All the world could do for the erstwhile thrifty people of that nation, in money, provisions, clothing, or whatnot, can never repay what Belgium has been compelled to sacrifice in the present war. Their lands devastated, homes broken up, family ties rudely severed—these are things that not money or anything else can replace. But while the loss of life can never be repaired, and the men who died gun in hand never be recalled, we can make the terrible lot of the helpless and mourning sufferers, mostly women and children, more tolerable.

TO US in this outpost of empire, there is little satisfaction to be found in Earl Kitchener's declaration that too much war news is being spread abroad. If this is a hint that the censorship is going to be screwed down still tighter on all news from the seat of war, information still more vague and meagre will soon be our portion. How this can be is scarcely imaginable, but Earl Kitchener's reputation is that he carries through his purposes, and if the success of the Allies depends upon it, we afar off will be content to receive one bulletin per week filled with conjecture and rumor.

BASKETBALL

The crying need of local basketball just now is an efficient coach, someone to hand out strong decisions, and lay down the law with authority. It is not that the boys are not "playing the game," but a little firmness displayed thus early in the season would weed out a few irregularities which must creep in when there are recruits "breaking in to the game," and moreover, so me judicious coaching would aid a great deal towards developing the fine art of team work. Where is the man who will thus help to further sport interests this winter?

The West Summerland Club has changed its colors from red and blue, decided upon last week, and will now appear in uniforms entirely of royal blue, with a red band having the letters "W.S." upon it, as previously fixed upon. These suits are now on order.

Recent practices show a number of players shaping promisingly, and there should be little difficulty later on in picking a quintette that will give any other local five a good run.

That the Town boys have no lack of players has already become quite clear, many of them old hands at the game. Their final team of five will likely show up in good speed, and of good average weight, if not above it. A practice game was put on last Monday night when a team from the Fruit Union were up against a combination from the rest of the town, and lost out by a score of something like 14-10. Another game is slated for next Monday night when an aggregation calling themselves "the big five"—in physical proportions—will be opposed by a team drawn from the rest of the Town.

The College boys are also hard at it, new players and old alike getting into the game. Their team will likely be fast enough, but in weight will hardly measure up to the other teams in the event of a local league combination being formed.

If you are going to live here, give here.

Stop That Cough!

At this time of year Coughs and Colds are very much in evidence.

INTER-INST. SOCIAL GATHERING.

A typical Okanagan fall afternoon induced a large number of ladies from all quarters of the district to journey to the home of Mrs Wm. Ritchie on Thursday, where the West Summerland Womens' Institute entertained the members of the sister organization of the lake-front section. Some from a distance were fortunate in saving steps by getting conveyance by rig or automobile, but those who walked got no less enjoyment from the pleasant afternoon brightness. The spacious rooms of Mrs Ritchie's home served very admirably the purpose they were put to on Thursday. There must have been not less than one hundred ladies in attendance during the afternoon. At the door receiving were Mrs J. L. Hillborn, president of the entertaining institute, Mrs. Ritchie, the hostess, and Mrs J. J. Mitchell. Interspersing the pleasant social intercourse for which the gathering gave such a unique opportunity, was a peanut contest which was entered into with zest, and several musical items by a number of ladies. The customary afternoon light refreshments, served by the West Summerland ladies to their guests were both dainty and appetizing. About dusk, after a most enjoyable two hours of sociability, the gathering regretfully broke up, every lady glad to have had a further opportunity to meet old friends and make new.

GOVT. TELEPHONE SERVICE BEING EXTENDED.

Further extensions to the southward and Boundary district are being made by the Government Telephone service, a forecast of which was noted in these columns some weeks ago. A gang of men is now at work extending the pole line to Oroville, and another line is to be built eastward from Fairview to connect with Midway and other Boundary towns. The southern will, it is understood, also include the telegraphic service, and alternative connection will be given Vancouver and other Coast cities over existing trunk lines now crossing border from the south. Through the same connection all eastern points may also be reached.

In addition to the new switchboard put in at the government's local exchange similar boards have been installed at Penticton and Kelowna. Connection with Kelowna has also been given Okanagan Mission by the Government Telephone service.

George Rose, editor of the Kelowna Courier, has secured an easier job than running a paper these times. He has gone to the war as a captain.—The Ledge.

An exhibit of 1,000 boxes of Okanagan apples is being gathered by R. G. Clark, Chief Dominion Fruit Inspector for B.C. These are for display at the Panama Exposition in San Francisco next year. It is expected that 220 boxes of the exhibit will be sent from Summerland, though part of this fruit will be gathered from near-by points.

WOMEN'S INSTITUTE.

A very interesting and well attended meeting of the Summerland Women's Institute was held on Friday last. Having read Mr Scott's letter re the disposition of the Patriotic Fund money collected, it was decided at the meeting to leave it to Mr Scott to send it where he thought best.

It was unanimously decided to accept West Summerland Institute invitation to visit them on Thursday at Mrs. Wm. Ritchie's home.

Mrs G. Ross read a most interesting and well written paper prepared by Mrs R. M. Ross on "A Woman's Duty to her Home." Everyone was delighted with it.

Mrs R. C. Lissett read a paper on Hyacinth Culture, which was very appropriate, as a number of the members intend growing bulbs this winter.

Subjects for the essay competitions conducted by the Department in connection with Institute work all over the province, were assigned to different members.

The ladies were very busy during the latter part of the afternoon preparing some of the sewing for the wounded soldiers, or rolling up yarn to do knitting for the same object.

College Notes.

Miss Edna McLeod arrived from the Coast Thursday evening to assist Prof. Moore of the Musical Department.

Dr Harrington spent last weekend in Peachland, where his family is still residing.

Mr Wm. Armstrong conducted the services of the Kelowna Baptist Church last Sunday, returning on Monday evening's boat.

The College Basketball teams have commenced systematic practice in the gymnasium. Prospects are good for both the Junior and Senior teams. There will be new material in both teams.

Prof. Moore and family have taken up residence in Ritchie Hall for the College year. The Musical Classes are now under way, and several new pupils have been enrolled this week.

Mrs Conway, who has been visiting at the home of her son, J. R. Conway, Vernon, since Thanksgiving, returned on Wednesday.

As a contribution to the Patriotic Fund Mr F. A. Miller is making and selling some very useful tables. A sample table is seen at the Summerland Supply Co's. upper store, and already a number of sales have been made.

The United States Department of Agriculture estimates this year's apple crop of the State of Washington at 7,200,000 bushels, as against 6,900,000 bushels in 1913, and 7,700,000 bushels in 1912. The forecast of this year's price to the producers of Washington apples is 78 cents per bushel, as against 95 cents in 1913, and 80 cents in 1912.

War Means Economy

SCARCITY OF MONEY is one of the first effects of war. Fortunately we in Canada are in no danger of feeling the "pinch" of hard times to any great extent, but we do feel that we must get good value for every dollar expended, and confine our food requirements largely to the realm of necessities. The following list of staples has been carefully compiled with a view to conveying valuable suggestions to the citizens of Summerland. The prices are consistent with our usual quality standards.

TEAS in Bulk and Packages

PANCAKE FLOUR	ACADIA CODFISH
GRAPE NUTS	CANNED MEATS
WHEAT FLAKES	MACARONI
ROLLED OATS	SARDINES
LYLE'S SYRUPS	SALMON
MOLASSES	COFFEE

DISTRICT MUNICIPALITY OF SUMMERLAND.

BY-LAW NO. 64.

A By-law to alter and repeal in part By-law No. 42 of the District Municipality of Summerland.

WHEREAS it has become unnecessary to expend the whole of the moneys authorized to be raised by way of Debentures on the credit of the Municipality under By-law No. 42, to wit, \$55,000 and \$12,000 only will now be required:

AND WHEREAS it is deemed advisable to alter and repeal the said By-law accordingly:

BE IT, THEREFORE, ENACTED by the Reeve and Council of the District Municipality of Summerland, in open meeting assembled, as follows:-

1.-That the said By-law No. 42 be altered and repealed in part as follows:

- (a) That the figures "\$55,000.00," wherever they occur in the name and second recital, be struck out and that the figures "\$12,000.00" be inserted in lieu thereof;
- (b) That the figures "\$3,730.65" be struck out in the third recital and the figures "\$813.96" be inserted in lieu thereof;
- (c) That the figures "\$55,000.00" wherever they occur in paragraphs numbered 1 and 2, be struck out and the figures "\$12,000.00" be inserted in lieu thereof;
- (d) That the figures "\$2,750.00" be struck out in paragraph numbered 6 and the figures "\$600.00" be inserted in lieu thereof;
- (e) That the figures "\$980.65" be struck out in paragraph numbered 7 and the figures "\$213.96" be inserted in lieu thereof.

This By-law shall have no force or effect until the consent of the Lieutenant-Governor in Council is first had and received hereto:

3.-This By-law may be cited for all purposes as the "Irrigation Amending Loan By-Law, 1914."

Received the assent of the Electors, this day of October, 1914.

Reconsidered and finally passed by the Municipal Council the day of October, 1914.

Reeve, Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which a vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Tuesday, October 27th, 1914, between the hours of 9 a.m. and 7 p.m.

J. L. LOGIE, Municipal Clerk.

DISTRICT MUNICIPALITY OF SUMMERLAND.

BY-LAW NO. 65.

A By-law to alter and repeal in part By-law No. 43 of the District Municipality of Summerland.

WHEREAS it has become unnecessary to expend the whole of the moneys authorized to be raised by way of debentures on the credit of the Municipality under By-law No. 43, to wit, \$85,000 and \$2,000 only will now be required:

AND WHEREAS it is deemed advisable to alter and repeal the said By-law accordingly:

BE IT, THEREFORE, ENACTED by the Reeve and Council of the District Municipality of Summerland, in open meeting assembled, as follows:-

1.-That the said By-law No. 43 be altered and repealed in part as follows:-

- (a) That the figures "\$85,000.00" wherever they occur in the name and second recital, be struck out and that the figures "\$2,000.00" be inserted in lieu thereof;
- (b) That the figures "\$2,025.87" be struck out in the third recital and the figures "\$107.16" be inserted in lieu thereof;
- (c) That the figures "\$85,000.00" wherever they occur in paragraphs numbered 1 and 2 be struck out and the figures "\$2,000.00" be inserted in lieu thereof;
- (d) That the figures "\$1,750.00" be struck out in paragraph numbered 6 and the figures "\$100.00" be inserted in lieu thereof;
- (e) That the figures "\$1,175.97" be struck out in paragraph numbered 7 and the figures "\$87.16" be inserted in lieu thereof.

2.-This By-law shall have no force or effect until the consent of the Lieutenant-Governor in Council is first had and received hereto.

3.-This By-law may be cited for all purposes as the "Electric Light Amending Loan By-Law, 1914."

Passed by the Municipal Council the 8th day of October, 1914.

Received the assent of the Electors this day of October, 1914.

Reconsidered and finally passed by the Municipal Council the day of October, 1914.

Reeve, Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which a vote of the Municipality will be taken at the Men's Club, Summerland, for Wards One and Four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Tuesday, October 27th, 1914, between the hours of 9 a.m. and 7 p.m.

J. L. LOGIE, Municipal Clerk.

DISTRICT MUNICIPALITY OF SUMMERLAND.

BY-LAW NO. 66.

A By-law to raise \$10,000.00 to enlarge, improve and extend the Irrigation System and Plant of the District Municipality of Summerland.

WHEREAS it is deemed advisable to repair, enlarge, extend and improve the irrigation system and plant of the District Municipality of Summerland,

AND WHEREAS it is necessary for the said purposes, to raise, by way of loan, upon the credit of the said District Municipality of Summerland, the sum of \$10,000.00, payable

- \$2,000 on the first day of November, 1915,
- \$2,000 on the first day of November, 1916,
- \$2,000 on the first day of November, 1917,
- \$2,000 on the first day of November, 1918,
- \$2,000 on the first day of November, 1919,

bearing interest in the meantime, payable half yearly at the rate of eight per cent per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of

- \$2,300 by rate in the year 1915,
- \$2,640 by rate in the year 1916,
- \$2,480 by rate in the year 1917,
- \$2,320 by rate in the year 1918,
- \$2,160 by rate in the year 1919.

AND WHEREAS the whole rateable property of the said District Municipality of Summerland, according to the latest revised assessment roll is \$2,926,280.00,

AND WHEREAS the total amount of debenture debt of the said District Municipality of Summerland is \$324,000.00 of which none of the principal or interest is in arrears,

NOW, THEREFORE, the Reeve and Council of the said District Municipality of Summerland, in open Council assembled, enact as follows:-

1.-It shall be lawful for the Reeve of the said District Municipality of Summerland to raise, by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$10,000.00, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Municipality for the purposes and with the objects hereinafter recited.

2.-It shall be lawful for the Reeve to cause any number of Debentures to be made, for a sum not exceeding \$1,000.00 each, bearing interest at the rate of eight per cent per annum, not exceeding in the whole the sum of \$10,000.00, and all such Debentures shall be sealed with the seal of the said Municipality, signed by the Reeve and countersigned by the Treasurer of the said Municipality.

3.-The said Debentures shall bear date the first day of November, 1914, and shall be made payable

- \$2,000 in one year,
- \$2,000 in two years,
- \$2,000 in three years,
- \$2,000 in four years,
- \$2,000 in five years,

from the date hereinafter named for this By-law to take effect, at the agency of the Bank of Montreal, in the said Municipality of Summerland.

4.-The said Debentures shall have coupons attached for the payment of interest at the rate of eight per cent per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the first days of May and November, in each and every year, and the signatures to such coupons may either be written, stamped, printed or lithographed.

5.-A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6.-The sum of \$800 in the year 1915,

- \$640 in the year 1916,
- \$480 in the year 1917,
- \$320 in the year 1918,
- \$160 in the year 1919,

shall be raised and levied by a rate on all the rateable property in the said Municipality, in addition to all other rates in said years, for the payment of the interest on the said Debentures.

7.-The sum of \$2,000 shall be raised and levied annually by a rate on all the rateable property in the said Municipality, in addition to all other rates for the payment of the debt hereby created when due.

8.-It shall be lawful for the said Municipality from time to time to repurchase any of the said Debentures at such price or prices as may be mutually agreed upon, and no re-issue of any Debenture or Debentures shall be made in consequence of any such repurchase.

9.-This By-law shall, before the final passage thereof, receive the assent of the Electors of the said District Municipality of Summerland, in the manner provided for by the "Municipal Act," 1914.

10.-This By-law shall come into force and take effect on the first day of November, 1914.

11.-This By-law may be cited for all purposes as the "Irrigation Loan By-law, No. 2, 1914."

Passed by the Municipal Council this thirteenth day of October, 1914.

Received the assent of the Electors of the said District Municipality of Summerland the day of October, 1914.

Reconsidered and finally passed by the Municipal Council the day of October, 1914.

Reeve, Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which a vote of the Municipality will be taken at the Men's Club, Summerland, for Wards one and four, and at the Municipal Offices, West Summerland, for Wards Two and Three, on Tuesday, October 27th, 1914, between the hours of 9 a.m. and 7 p.m.

OUR NARAMATA SECTION

BOY SCOUT DOINGS.

The first meeting in our new headquarters was held on Tuesday evening, October 13th, and the time was spent in making decorations for the room, such as a chart of the composition of the Union Jack, and one of the Scout signs, mottoes of the principle Scout Laws, and of the Scouts' Oath, and samples of knots, mounted, correctly named, and their use given. The lower storey of the building is to be used as a gymnasium, and all drills, physical exercises, boxing and wrestling bouts, and all athletic work will be conducted there on Friday evenings, while the upper storey will serve as a place for our Tuesday evening meetings, and as a general club room and den.

Friday evening, after a hard half hour at physical drill and exercises of various kinds, a number of boxing matches took place between the boys. These exciting contests were witnessed by a couple of visitors who had dropped in, to watch the Scouts at work, and some hearty laughter was afforded them to see these amateur pugilists valiantly endeavoring to punch each other.

Dr Robinson's last Saturday afternoon talk was on fractures, and some new bandages were also demonstrated. These meetings are eagerly looked forward to, and no Scout privileged to attend would voluntarily miss one on any account.

Our Scoutmaster has contracted the habit of missing the boat when he goes to Penticton on Saturday evening, and has a short stroll home each week, arriving in Naramata in time for the church service on Sunday morning.

A. SCOUT.

The Kaiser has been beaten to a finish by our tongues. But he's game and keeps on fighting.

One secret of success is to put FIRST THINGS FIRST. Hence subscribe for your home paper FIRST.

Quite a large force of men, heavily outfitted, went up to the dam on Monday morning. A four-horse team was sent up as far as Martin's camp with supplies, and from this point on up the goods would have to be carried by pack-horses. This latter work is being undertaken by H. P. Salting.

Current Events - OF - Town & District

Mr Ralph E. White of Summerland paid our town a short visit on Wednesday.

Mr Ernie Steers, one of our former citizens, has returned to town for the winter.

Miss Lois Wells spent the weekend at Penticton the guest of her sister, Mrs V. L. Watson.

Fuller particulars of the formal opening of the Public School is necessarily held till next week's issue.

Miss Lulu Brown of Peachland is spending a few days in town as a guest of her cousin, Miss Clara Palmer.

Miss Adelaide Hayward has returned to town, and will probably remain for the winter at the parental fireside.

Mr J. Russell Wells returned on Tuesday from a trip to Calgary. His reports on business conditions at outside points confirms what we have been lead right along to believe. Everywhere a policy of retrenchment is being pursued.

Messrs Carleton Brothers, who a few years ago made such a good success trapping in the long range east of town, have again outfitted, and will spend the winter following their long line of traps.

The advent of a sprinkling of hoar frost a few mornings this week is being construed as a warning of a more pronounced state of cold weather, which we all hope may not come for some little time yet.

The service next Sunday will be characterized by a special topic "Church Follies," in the morning at 11 o'clock, and the evening at 7.30 by a special service of song, to which all are invited specially.

Mr and Mrs. J. C. Lyons have again moved down from their fruit ranch and are now occupying their town cottage. Meanwhile their ranch home will be occupied by Mr Craig, who has a fruit lot in the immediate vicinity.

The Literary Society has announced a program in course of construction, and that on Monday, November 3 the members and all interested in the promotion of the literary and debating spirit are cordially invited to attend. Those of us who were here last season will remember what fine times we had, and what latent talent was unearthed. Consequently it behoves us, one and all, to make a point to come out and boost for the society. Fact is all who come out got a boost in spirit, if not in pocket, and go away immensely pleased with themselves and with their talented neighbors—Monday, Nov. 2 at eight o'clock.

Miss M. Lellan of Okanagan Falls was a visitor to town this week, the guest of Mrs W. W. Mitchell.

Amongst the probabilities of the near future in the way of pastimes is the formation of a basketball club. But of this more later.

Mr Frank Marshall of Summerland, for some time connected with the Felix Hotel, was here on a short stay on Wednesday afternoon.

A pleasant social dance at Hotel Naramata on Tuesday evening attended by most of the young folk of Naramata proved an attractive feature of the week's enjoyment. The ladies were very good in providing in turn fine volunteer music.

A lady in referring to the Ladies' Aid meeting being held at the home of Mrs Noyes next Wednesday afternoon confidentially announced that this is the day they eat. This is a case surely where the speaker didn't mean what she said. It was a polite hint that a good big turn-out will be expected.

The Unity Club ladies are planning to have a Halloween party on the ever eventful night, the night so full of mysteries to every boy and girl. This year, in Naramata, this particular night will be marked out for some fun, and it behoves all sober minded citizens to think of the years long since past and gone when they too were fond of having on Halloween a fair share in all the fun that was going. By thus reflecting there is apt to be less adverse criticism and fewer comments on the more, than ordinary frivolity of the present century. Despite the rather uninviting nature of the weather last Friday afternoon, a really fine gathering of ladies assembled at the club rooms. The organization at present is all activity owing to the demands made for help for the distressed refugees. Fact is that it is largely owing to the activity of the ladies of this club that such a creditable amount of clothing and provisions were shipped out on Monday, no less than three large boxes being gathered in the course of a short canvass. This has always been our "style," and it is to be hoped the "style" of generous giving as a town may never go out of fashion.

Mr Geo. Harmount, for so long a citizen of Naramata during his tenure of office with the Grant Smith Co., having had in common with a partner charge of the big tunnel, spent a few days in town this week. While here he took a day off to visit for the last time the scene of operations at the now deserted and dismantled but ever popular Tunnel Camp, before starting on his trip to his home in the far east.

Mrs M. Campbell, who has been visiting for over a year at the home of her youngest daughter, Mrs F. H. Rounds, left on Tuesday's boat for Battle Creek, Mich., her permanent home. Mrs Campbell was accompanied by another elderly lady from Michigan, Mrs Raymond, who likewise has been here on an extended visit to a daughter, Mrs H. P. Salting. Both ladies, though loud in their praises of Canada and the Canadians, yet feel strongly their allegiance to Uncle Sam's country, and especially for that particular spot known as the State of Michigan.

Naramata Current Events cont. on p. 6

The prohibition of Chinese immigration is to be extended another six months from Sept. 30th.

There are 66,000 head of cattle in B.C. Nicola Valley has 28,000 of them.

Passing Events: Social, Personal, &c.

The Union's car of Christmas apples for Britain leaves here on Monday. The car will be closed at 4 p.m.

About 150 boxes of apples will be sent from Summerland along with other lots totaling nearly 1,000 boxes to the big Spokane show.

T. B. Young recently purchased a sixty-foot building lot on Rosedale Avenue from W. C. Kelley, and is now excavating for the foundation of a bungalow.

"The Purpose of Temptation" is the subject of Rev. N. McNaughton's morning address next Sunday. In the evening he will deal with the question "Is Germany Christian?"

At the box social next Friday each lady is expected to bring a box containing her name with lunch for two. There will be a good short program, commencing at 8 o'clock, after which the boxes will be auctioned.

Shipments of apples from this point have been heavy for some days, the Union and A. Steuart's being the larger shippers. Many apples are also being put in storage in anticipation of better prices later.

A Hallowe'en party in the form of a box social is to be held in the College Gymnasium under the auspices of the Ladies' Auxiliary on October 30th. Each lady is expected to bring a box containing lunch for two.

The "looping-in" necessary to make the Government Telephone lines both north and south available at the same time was done this morning. Henceforth a person talking with a southern point will not prevent getting a northern connection.

Methodist Church services will be held on Sunday next at 10.30 a.m. and 7 p.m. At the morning service Mr Lee will give the third address on the "Book of Revelation—The History of Interpretation." The evening service will be held in St Andrew's Church, when Mr Lee will again speak on "Lessons from the War."

About a dozen ladies, members of the Summerland Women's Institute, gathered at the home of the president, Mrs W. H. Hayes, on Wednesday afternoon. Fingers plied busily with needles, completing some sewing being undertaken for the benefit of the wounded soldiers, under the direction of the local branch of the Okanagan Ambulance League. Afternoon tea was partaken of by the ladies when their work was laid aside.

Noted in a recent issue of the Province, the following few words will have great significance for at least one rancher of the district, well-known about town: "By the will of James Reid Wilson, Montreal, his brother, Matthew Gemmill Wilson of Summerland, B.C., receives \$5,000." The will of the late James Reid Wilson of Montreal, who died suddenly in London during the summer, has been filed for probate at Toronto. The estate totals \$1,697,807. In addition to the legacy mentioned above, a nephew and niece, children of Matthew G. Wilson, each receive \$5,000.

Young people to the number of nearly a dozen spent an enjoyable evening at cards on Wednesday at the home of Mrs K. S. Hogg.

Mr J. F. Cates, who by an exchange for his prairie farm recently acquired the Doidge property on Jones Flat, is now living on the latter property.

Presbyterian services will be held next Sunday morning in St Andrews Church, and in the afternoon at three o'clock in the Methodist Church. Rev. C. H. Daly will conduct both services.

Mr E. C. Howard, Piano Tuner of Vernon, B.C., will be in Summerland during the week of Nov. 13th, attending to the work of the late Mr W. J. Curtis. Orders received at the Summerland Drug Store.

The ladies of the Methodist Church will hold a Sale of Work on Thursday, October 29th, in the Men's Club. Afternoon tea will be served from three to five o'clock, and a twenty-five cent bean supper from six to eight. Come and get the worth of your money, and have a peep at our bargain counter.

The Reeve and Clerk of the Municipal Council are this week attending the Union of Municipalities Convention at Kamloops. Mr Logie left for Penticton on Tuesday evening, and went up the lake on Wednesday. Mr Ritchie was not able to leave until Thursday, but was in time for the Thursday evening session, and those held to-day.

"Everybody-to-Church" Sunday last week did bring a considerable number of those who do not habitually attend public worship inside the church doors. As was expected, the greatest effect from the campaign was apparent in the churches of the upper section, although at all the services the congregations were good. Hearty worship was conducted by all the local ministers, and it is hoped that many of the new faces that were welcomed on Sunday will find a permanent place in the church services.

Arthur V. Vickery, now a trooper in the B.C. Horse, Vernon, and his bride of about six weeks, have spent the past week at the Balcom home of Mrs Vickery's sister, Mrs R. Randall. Spending about eight months in Summerland before proceeding to Vernon early in the year, Mr Vickery will be remembered by some here. He enlisted in the B.C. Horse before the outbreak of war, and now expects to be included in the second contingent of men from Canada. Mr and Mrs Vickery return to Vernon by to-morrow morning's boat, Saturday.

HOTEL SUMMERLAND LEASED BY MR. MARSHALL.

Messrs Wallace and Norton, who since last summer have been operating Hotel Summerland, are not renewing their lease which expires within a few days, and it is understood they will return to Vancouver. Mr Frank Marshall, who has so efficiently managed the Felix Hotel since it was opened last spring, has taken over the larger building, and will enter into possession early in November. His initial announcement appears elsewhere in our advertising columns.

Seen with reference to his plan for the Felix Hotel, proprietor Cordy said that he had decided after the termination of Mr Marshall's term, to give the hospitality more of his personal attention, and as that with the exception of Mr Marshall there would be no other change in the staff, the comfort and convenience of patrons would be studied as heretofore.

Miss Myrtle Clay spent a few days over last week-end at Penticton.

Miss Mantle of Kelowna arrived here on Saturday evening to spend a few days with her friend, Miss Neve.

Mr and Mrs L. R. Williams are making holiday for about a week at Naramata, where they are guests of Mr and Mrs Lewis Block.

Good progress is now being made on the several municipal cement jobs. Already five cars of cement have been brought in for this work.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Naramata shipped its first car of apples on Monday. These were loaded on to the "Aberdeen" by the Summerland Union's branch warehouse at Naramata.

Dr. A. J. Holmes, a dentist of New Westminster, and who visited this district several times in his official capacity as a director of the Okanagan Telephone Co., was accidentally shot in the shoulder last week while pheasant shooting. A few shots penetrated the lung. While serious, his injuries are not necessarily dangerous.

Through the blowing over of some temporary poles during the high wind on Friday last a large part of the district was without electric light Friday afternoon and evening. The poles in question had been put up to carry wires up to the slaughter house, and were not sufficiently well secured to withstand the high wind, and the wire touching the ground caused a short circuit.

A lunch box for two, the lady who packed it and the gentleman who buys it. This is an interesting feature of next Friday's "box social." The highest bidder gets the box, contained in which will be a card with the name of the lady who donated the package, with whom it will be the purchaser's privilege to lunch. (There will be many such boxes, enough to eat at the social and plenty to take home.)

Mr. and Mrs. Frank Marshall

Xmas. Presentation APPLES for the Old Country.

We will deliver to any part of Ireland, Wales, Scotland or England, a box of FANCY EXPORT APPLES for \$5.25. Orders must be received by us not later than October 28th, and accompanied by Express Money Orders or marked check. Write THE ADDRESS PLAINLY, so as to avoid mistakes.

Okanagan United Growers, Limited, Vernon, B.C.

Prof. A. J. Perry of the Manitoba University, accompanied by Mrs Perry, visited England for five months during the summer vacation. The time was largely spent in London, where Prof. Perry was carrying on his study in middle English, in the British Museum. Some time was also spent at Cambridge University. Prof. Perry says: "It was a pleasure and an inspiration to hear Rev. John Clifford in his own church at Westbourne Park. His sermons were gems. When I told him we were members of Rev. A. N. Marshall's church, he gave us a warm welcome. Rev. F. W. Pattison, formerly of Summerland, is working overtime as assistant to Campbell Morgan. He gave us a kindly welcome at Westminster Chapel. Another great treat we had while in London was to hear our own John McNeill in the City Temple. He filled the City Temple every time he preached. England is very quiet and determined in regard to the war. England is magnificent in time of severe stress and trouble such as the present. Every gift of the Dominions is given prominence in the papers."—Outlook.

NOTICE

Municipality of the Corporation of Summerland.

To wit:

PUBLIC NOTICE is hereby given to the Electors of the Municipality aforesaid that the following By-laws have been passed by the Municipal Council and which require the assent of the Electors, viz:

- No. 64. A By-law to alter and repeal in part By-law No 42.
- No. 65. A By-law to alter and repeal in part By-law No 43.
- No. 66. Irrigation Loan By-law, No. 2, 1914.

Such Poll will be opened on

Tuesday, the 27th day of October, 1914 between the hours of 9 a.m. and 7 p.m.

AT THE MEN'S CLUB, SUMMERLAND, for Wards One and Four, and at

THE MUNICIPAL OFFICES, WEST SUMMERLAND, for Wards Two and Three.

Given under my hand at Summerland, this 18th day of October, 1914.

J. L. LOGIE, Returning Officer.

MUNICIPAL SCHOOL BOARD

WOOD TENDERS

TENDERS will be received, by the undersigned, up to November 4th, 1914, for the delivery of the following quantities of wood at the Municipal Schools:—

- CENTRAL SCHOOL, 20 cords
- GARNETT VALLEY SCHOOL 7 "
- SUMMERLAND TOWN SCHOOL 7 "

A cord to be 128 cubic feet.

Wood to be 16 in. long, good, sound pine, fir, or birch, one half to be delivered by December 1st next, or as required, and to be dry, and the balance by the first of March, 1915; and may be dry or green.

J. L. LOGIE, Secretary, Municipal School Board.

Naramata Current Events

(Continued from p. 4)

The service on Sunday morning was conducted by Rev. J. I. Beatty as usual, who had arranged with Rev. R. M. Thompson of Penticton to let the citizens of Naramata have a chance of listening to the Indian missionary, Rev. W. H. Pierce of Port Essington, B.C. Little wonder then that the service was well attended, as Mr Pierce is certainly a unique character. Converted to Christianity over 40 years ago, he has labored as an interpreter and preacher amongst the Coast Indians of B.C. for over 30 years. In his address Mr Pierce spoke most entertainingly of the various customs, many of them of heathen origin, prevailing among his people. In dealing with the education, so-called, one could not but be struck with the commonsense wisdom about the whole scheme of education amongst the Indians, for they lay themselves out to train their children to make a living for themselves along the line of practical kindergarten "work." Taken altogether the address of the reverend gentleman was decidedly interesting and instructive.

Quite a unique event in the history of our local church featured on Wednesday afternoon this week. This event took the form of a "Baby Party," coming under the Cradle Roll department. Mrs Fred J. Young, who looks after this branch of church work, and to whom all who enjoyed the afternoon's enjoyment are indebted, had left no detail of the arrangements unforseen. Invitations had been issued to the parents, who responded splendidly, bringing the little folks along with them about three o'clock. The church basement was tastefully fitted up as a reception room, and decorated with bouquets of freshly-cut flowers. At five o'clock a service of tea and cake was served by the hostess, assisted by Mrs Allen and Mrs Hughes. The pastor of the church, Rev. J. I. Beatty, was conspicuous by his absence, but along toward the last, like the missing pony, he turned up saying that he had been away looking for "Mrs Beatty," but this had to be set down as another of his drolleries for which this gentleman is noted.

SUMMERLAND, B.C., OCTOBER 30, 1914.

Whole No. 326

Tax Sale Lands

Council Makes Ruling to Establish Priority of Claim to Encumbered Lands

An evidently important session of the Municipal Council was held on Wednesday afternoon. The Review did not have the opportunity of being represented at the meeting, and what now appears herein with reference to it is given second-hand. Can it possibly be that it is the desire of anyone connected with municipal affairs to keep the public, as represented by the press, ignorant of the doings of the Council? However this may be, at other than regular or adjourned sessions it has only been by mere chance that the local press is able to be present, and quite frequently sessions are missed entirely, notwithstanding repeated requests that the Review be advised of the meetings at the same time as are the councillors.

Wednesday's session is said to have been called for the purpose of dealing with an important question brought to a focus by the approaching expiration of the year of grace allowed property holders whose lands have been sold for taxes. The Summerland Development Co., which is very largely interested in this matter, was represented by Manager J. J. Warren. To have land sold on agreement of sale pass into the hands of a third party by an absolute deed from the Municipality, would deprive the company of any further claim on the land, and would also result in a loss to the holder of all payments. After consulting the Municipal Solicitor and other similar to that of Winnipeg and other western centres was adopted, and the Development Co., or others similarly situated, will have first right to lands sold for taxes, and by payment of the tax sale price, and other charges, if any, will be given a clear title.

It is also understood that Mr. Warren defined the attitude of his company toward the late holders in that they stand ready to issue a new agreement of sale, giving credit for payments already made. Through this method the holder whose land had been sold for taxes may redeem it with only the necessary expenses connected with the sale and transfer added to the original price. In other words a company or person having a lien on a piece of property sold for taxes will have first claim on the tax sale deed, and after him the owner.

The three by-laws which had the assent of the ratapayers on Tuesday were reconsidered and finally passed.

LETTER TO THE EDITOR:

Summerland, B.C.,
Oct. 27th, 1914.

The Editor, Summerland Review.

Dear Sir,
The Bank of Montreal is authorized to receive subscriptions to the "Canadian War Contingent Association, Queen's Canadian Military Hospital," and we are to forward to our branch in Montreal all balances in hand on the 15th and last day of each month, together with lists of the names of the subscribers and the amounts subscribed by each. A circular of the "Canadian War Contingent Association" is to be seen at this branch, and it states: "The provision and maintenance for 12 months of the 'Queen's Canadian Military Hospital' of (any) 100 beds and expenses in connection with the care and supervision of the sick and wounded during convalescence, would, it is estimated, require about \$100,000, and money will be needed for general purposes mentioned in another part of the circular. The Executive Committee therefore earnestly request Canadians and others interested in the Imperial and patriotic work to be undertaken in the name of Canadians to contribute promptly and liberally to the funds of the Association."

Subscriptions of any amount, large or small, will be welcomed, and may be spread over the next six or twelve months.

Yours truly,
E. B. MAY,
Manager.

Buying at home is an investment; buying away is a speculation.

PRUNING SCHOOL.

Dept. Of Agriculture Will Again Provide Instructors. — Last Year's Schools Very Helpful.

During the spring of 1914 the Horticultural Branch of the Department of Agriculture conducted pruning schools, twenty-five in number, at a number of points in the Province. As these schools proved to be very helpful to the fruit growers, the department has decided to offer them again.

The Department of Agriculture will provide a competent instructor and pay his expenses. The local administration of the pruning schools will be placed in the hands of a responsible local body, such as the Farmers' Institute, the Fruit Growers' Association or the Board of Trade, which will be responsible for the guarantee of a minimum of eight pupils, but not more than twelve, with the proper qualifications, at a fee of \$2.00 each, to take ten lessons of three hours a lesson, the school extending over five days. Where the number of pupils in a district justifies, two pruning schools may be arranged for, in which the minimum guarantee will be sixteen pupils and not over twenty-four. The local organization will also provide an orchard or orchards, where the instructor may hold the pruning classes, and a hall or room in which the lectures may be held.

Besides the actual practice in the orchard, of which the course will consist chiefly, where the pupils will prune trees under the supervision of the instructor, there will be lectures on the theory of pruning, which will include talks on pruning as related to the formation of fruit buds and to plant growth, also the subject of top-grafting undesirable varieties will be dealt with, along with many other points of interest.

The pupils will provide their own pruning tools, the necessary tools being a pair of pruning shears, a saw and a pocket whetstone. A pruning pole and a light ladder may also be necessary for large trees.

Pruning is one of the important operations in the production of first class fruit, and one on which the orchardist cannot have too much information.

CAMPAIGN TO CAPTURE COAST MARKETS FOR B.C. FRUIT.

An "Apple Week" instead of an "Apple Day," as first suggested, has been fixed by the citizens of Vancouver for November 2nd to 8th inclusive. The object is to boost British Columbia apples, and introduce the product of our orchards into many homes which have for years been supplied with the product of Washington, and also to show the householder the superior qualities of B.C. apples over those of imported apples.

During that week B.C. apples will be boosted by wholesaler and retailer, producer and consumer, and to insure the fullest success several strong committees have been formed. Beside a number of well-known influential citizens these committees include John McMillan, Manager of Vancouver City Market; R. Robertson, Manager of United Fruit Growers, and Mrs. Perry, representing the Women's Council.

This method of placing the claims of the B.C. apple properly before the consumers in our largest local market is largely the outcome of a meeting of fruit growers held at Vernon in July, when it was decided to make an impressive display this fall in Vancouver. Promises of shipments, enough to make the campaign a success, have been already received. To promote publicity large window displays of apples will be made.

GREAT APPLE CROP.

Ottawa, Oct. 28.—The Dominion Department of Agriculture reports that the apple crop of 1914 is one of the largest that Canada has ever produced. It is also a fact that many of the former avenues of trade are cut off, with the result that hundreds of carloads of apples will waste in the orchards of Ontario.

Three By-Laws Pass

No Opposition In A Light Poll.

It cannot be said that a large number of ratapayers gave their sign of sanction to the three by-laws for which the Council sought public approval on Tuesday. Those who did vote were unanimous, but a larger number preferred to allow their absence from the polling stations be interpreted as tacit consent. The import of all the by-laws to be voted upon was quite well-known. Nos. 64 and 65 were the reductions of debenture issues previously sanctioned in By-laws Nos. 42 and 43, the full issues not being possible owing to upset financial conditions generally. By-law No. 66 authorized the issuance of short-term debentures of small denomination, to the extent of \$10,000, which will be applied to improvement work on the irrigation system, increasing the storage capacity of reservoirs, and cement lining long stretches of main ditches. The details of Tuesday's vote were:

	For	Against
By-law No. 64	74	0
By-law No. 65	73	0
(One spoiled ballot)		
By-law No. 66	74	0

The majority of the votes were recorded at the Municipal Office, where 55 ratapayers put in an appearance, as against only 19 at the Men's Club polling station. The majority of resident property holders must apparently either be charged with harboring the belief their vote was not required, or else with forgetfulness. Every polling day seems to show up the apparent lack of interest in much the same way, and those who refrain from expressing their opinion when it is sought should by the same reasoning withhold criticism when it is not sought.

An addition to the Okanagan Ambulance League Fund of \$3.85 has been made by the children of the Town School.

Scotch Concert is Pronounced Success

Caledonian Fraternity Inaugurates Social Season with Large Gathering.

Numbers always go a long way towards making any social gathering a success, and with the Campbell Hall crowded to the doors, it could be foreseen that the Scotch Concert last Friday evening was not going to be any less successful than similar gatherings last winter. No doubt many recalled the good times the St. Andrew's and Caledonian Society had provided then, and so the invitations which had been sent round very generously to all who could make any pretension of Scotch extraction, were responded to just as fully.

Very appropriate flag decorations had been arranged on the walls of the hall about the platform. St. Andrew's Cross and Union Jacks had the central position of honor, and on either side were the flags of Britain's allies, France, Russia, and Belgium, which had been made especially for the occasion by Mrs. J. G. Robertson. They made a striking display, serving as a reminder—if any were needed—of the struggle Britain is now waging for the Empire.

A long concert program had been carefully drawn up, and on it figured some names well-known, and a few who appeared for the first time. From the program submitted it will be seen that the numbers furnished a considerable diversity, and there was not a single item that was not accorded due appreciation by the audience. Rev. D. E. Hatt's inimitable oration elicited an encore, and Mrs. J. D. Woods created a very favorable impression from her first appearance in Summerland as a soloist, singing very sweetly and sympathetically. Another singer new to a local audience, Mr. H. Grant, made such an appeal with his songs as to be recalled three times. A young performer, Fraser Lister, also sang very takingly, and

EFFORTS OF METHODIST LADIES WELL REWARDED.

There was a splendid response to the labors of the Ladies' Aid of the Methodist Church in organizing the Sale of Work and Bean Supper, held yesterday afternoon and evening in the Men's Club Rooms. During the afternoon a good number of ladies attended, and considerable business was done at the tables where articles of fancy and utility sewing of many kinds were displayed, and candy, tasty and enticing to the eye. Afternoon tea was served for about a couple of hours, and enjoyed by most of those who visited the sale. About supper time people began to appear in real force, and the rooms could scarcely contain the crowd that jostled around the tables. The popular bean supper was a strong attraction, and everyone who sat down enjoyed a hearty repast from appetizing baked beans in plenty; and an unstinted profusion of bread, sandwiches, pies and cakes.

The attendance must have been gratifying to the ladies responsible for the work of the sale, for fortunately the weather, though slightly damp, did not seriously interfere. That the actual financial results measured up to appearance transpires from the fact that the treasury of the Ladies' Aid was enriched by the respectable amount of about \$85.

THE APPLE MARKET.

Advices to the Provincial Department of Agriculture from various points throughout the province are to the effect that, since the inauguration of the advertising campaign on behalf of apples, the consumption of the fruit has grown considerably in the cities in British Columbia. Provincial growers are reported to be finding a steadily increasing demand for apples from the Prairie Provinces.

was rewarded with hearty applause. Miss Myrtle Clay's song was also well received. Miss Lister proved an efficient accompanist throughout the program.

Mr. J. G. Robertson, President of the St. Andrew's Society, presided with his customary cordiality. He opened the evening with a brief speech along patriotic lines. During the interval he made some further remarks, urging as many as were eligible to affiliate themselves with the society, and pointing out its aims and objects, which were distinctly not self-centred. R. J. Milne, a member who has lately returned to Scotland was also called upon to make a few remarks during the interval.

At the conclusion of the program refreshments were served, and the company "mixed" for social purposes, and it seemed that everyone was drawn into the big Scotch family.

About eleven o'clock the floor was cleared, and dancing was carried on with evident enjoyment for about a couple of hours, to music, piano and instrumental, provided by volunteers from the company.

The musical program was as follows:

- Gramophone Selections.
- Song, "Robin Adair," Mr. G. Fisher.
- Song, "The King's Own," Miss Myrtle Clay.
- Song, "An Awful Little Scrub," Master Fraser Lister.
- Readings, "The Snore," "Empire Day," Rev. D. E. Hatt.
- Song, "Better Bide a Wee," Mrs. J. D. Wood.
- Melodeon Selections, Mr. T. Ramsay.
- Songs, "Jonnie Mino," "Thora," Mr. H. B. Grant.
- Patriotic Reading, Mr. J. G. Robertson.
- Song, "Come Ye By Athol," Mr. G. Fisher.
- Song, "It's a Long, Long Way to Tipperary," Mr. J. O. Smith.
- Melodeon Selections, Mr. T. Ramsay.
- Song, "The Old Country," Mrs. J. D. Wood.
- Songs, "The Veteran's Song," "Tobermory," "Potted Poetry," Mr. H. B. Grant.
- Miss Mary Lister, Accompanist.

Home Defence Corps

Both Corps Continuing Steady Work.

The civilians who have been busy drilling during the past few weeks, acquiring a knowledge of military procedure, have this week in both corps entered upon new phases of their work.

The West Summerland squad under Captain Coode, executed a route march yesterday afternoon, covering a distance of ten or twelve miles. Armed with their carbines, the men to the number of about 35 fell in at the parade ground about two o'clock, and marched out through Prairie Valley to the ranch of R. W. Deans. Martial music was provided for the civilian soldiers by Buglers Harris and Smith and Drummer Bindley, and the march-out was not made entirely without incident. Just beyond Prairie Valley, in the flat county, the company extended as a skirmishing squad. Farther along the route near the Upper Trout Creek School they fell into an ambush, and had the enemy been Germans instead of school children, few would have returned to tell the tale. Behind the fallen trees the children had disposed themselves very effectively with an ample supply of pine-cone ammunition. They used their shot very tellingly, and the squadron got in some realistic battle practice. The destination was reached about four o'clock, and during a rest of about forty-five minutes enjoyed refreshments served by Mr. and Mrs. Deans. On the return march another surprise awaited the company in Prairie Valley, when the cannon standing in front of "Balcom Lodge" thundered forth four shots in salute to the marching men. The home quarters were reached about 6:30.

The men under Instructor Cordy have been diligently drilling over Borton's store, and on Tuesday of this week handled the wooden carbines of the upper corps for the first time. Good progress was made in mastering the movements of the "shoulder" and "trail," though the room was found too small for extended drill. The attendance has been keeping up, though there are still a few from down town who might be expected to take part.

United Growers Doing Export Trade.

Despite the war British Columbia will do an export trade this fall. Already forty carloads of Okanagan apples have been sent to New Zealand and Australia. The forwarding concerns were the Okanagan United Growers, Ltd., Stirling & Pitcairn, and the B.C. Fruit Growers. Prior to loading, all the fruit was examined by the regular government inspectors. Most of it was found to be well packed. By examining fruit leaving, as well as entering the province, the inspection division is

WATER PRACTICALLY ASSURED FOR EXPERIMENTAL FARM.

Agreements covering the arrangement between the Municipality and the Dominion Government with reference to the storage and conveyance of water to the Trout Creek bridge for the Experimental Farm, particulars of which have already been given in these columns for some days have been in the hands of the Ottawa authorities for signature, and it is confidently anticipated that as soon as the legal men to whom the agreement has been submitted for approval are made acquainted with local practice with reference to water, the agreements will receive the signature of the government officials. In fact the Municipality has been advised to proceed at once with the necessary work for storage and the enlarging of the ditches. When the agreements are completed a cheque for \$10,000 to cover the cost of this work will be forthcoming, and on the strength of this Contractor Mitchell was instructed to complete the dam at Trout Creek headwaters, giving a total additional storage capacity of over 600 acre feet over that of last year. The dam will probably be finished this week, and Government Engineer Norrington has been asked to inspect the new work, and give it his approval.

Methodist Church Lecture Course.

The arrangements for the lecture course are now well in hand. The first evening will be on Thursday, November 12th, when Rev. D. E. Hatt will give an eloquent recital, assisted by a program of vocal and instrumental music.

On Tuesday, Nov. 24th, the Rev. Dr. Sippell, Vancouver, will give an illustrated lecture on "Germany and the Germans."

On Tuesday, December 8th, the Rev. G. R. B. Kinney, B.A., F.R.G.S., of Vancouver, will give an illustrated lecture on "Mountain Climbing in the Rockies," while on Tuesday, Dec. 22nd, the Rev. R. W. Lee will give an eloquent recital of Dickens' "Christmas Carol."

MAKING OUR OWN "GOOD TIMES."

"Canadian factories are busy with a few exceptions. The bug-bear of unemployment has gone with the scare that put up the price of groceries in August. And the reason is not far to seek. Canada's factories must supply Canada.

"In the good old days when the price of everything was soaring out of reach, and paper certificates were passing as real money, Canada was buying about \$300,000,000 of goods more than Canada was selling. Those luxuries and necessities were being paid for annually by borrowings from abroad. Now the borrowings have stopped, and Canada cannot buy more than Canada sells. There is no gold available for out-of-the-country purchases.

"This then being the case, Canada must buy more of Canada's own goods. Because of this, Canada's factories, warehouses, and farms are busy. It is a new variety of boom, but one to which we will get accustomed within a year."

This excellent and sound logic of the "Canadian Courier" is equally applicable to British Columbia and to Summerland. We are importing what we ourselves should be producing. And for those things we do produce no preference is given. We have even seen some of our business men, for the sake of a possible small saving or commission, take employment out of the hands of their own customers by sending work to a distant city, as the result of which that much money is put forever out of local circulation, and beyond the reach of the till of the merchant or his fellow tradesman.

THE DOMINION Minister of Militia, Hon. Sam Hughes, no longer prefixes his name with his military rank as Colonel, but Major-General. To give him the seniority of all Canada, consistent with his office, the necessary Order-in-Council antedated the appointment two and a half years.

AN OLD PROJECT being revived as a result of the European war is the possibility of a union of Newfoundland with Canada, now receiving renewed attention from political leaders of both governments concerned. Advocates of the idea show the danger to Newfoundland of a separate existence as a crown colony if misfortune should come to the Allies in the present struggle, and they emphasize also the strategic advantage to Canada of the possession of Newfoundland, at the mouth of the St Lawrence River.

THE PARCELS POST in the United States seems to be organizing itself up to the very maximum of usefulness. One of the latest branches put into operation is what is known as the "farm-to-the-table" service. Twelve cities in different parts of the country were first put on to the list to receive this service. Farmers and truck growers in the territory contiguous to those cities may furnish to the postmasters lists of the articles which they can send to customers by parcels post. The postmasters, in turn, have printed lists of farmers and of the articles they can supply. These lists are distributed in the cities by mail carriers. Prospective customers then may order directly from the

producers. The Postmaster-General has announced that the first experimental service is working so satisfactorily that he has ordered the cities of Seattle, Denver, Los Angeles and Portland, Ore., to be added to the list. This is one way whereby the Canadian parcels post might become a greater boon alike to ultimate consumer and producer of all kinds of farm produce.

"BUSINESS AS USUAL." (Grand Rapids Press.)

"War has its slogans no less than peace. Here are the latest from the front:

- "Germany—As in 1870.
- "Russia—On to Berlin.
- "Belgium—Hold the forts.
- "France—Alsace-Lorraine.
- "Britain—Business as usual."

NOT PAPER TREATY, SURELY? (Boston Transcript.)

"But if they sign a treaty with Germany what sort of a substitute for paper will they use, reinforced concrete on a Harveyized steel tablet?"

Mr Glenn, formerly of the staff of the local branch of the Canadian Bank of Commerce, and now of Penticton, is relieving Mr Simey here, during the latter's vacation.

A strongly patriotic poem urging all men to offer themselves for service in the army appears on page three. This poem was written by a lady who was a resident of Summerland for several years, but is now in England. It is taken from one of the English papers.

Much interest has been manifested in the box social to be given in the College Gymnasium to-night. There is likely to be keen bidding on at least a number of the boxes that will be put up, and this part of the evening's promising program will not be the least interesting.

The breaking of glass in vacant houses and greenhouses is assuming such proportions that the matter is now receiving the attention of the local authorities. Damage, which represents a good many dollars, has been done lately, and is no doubt largely due to thoughtlessness, but nevertheless is as positive a loss to the owner as though the boy or boys had stolen so much cash.

Members of the Presbyterian Ladies' Aid numbering twenty-six, gathered for a meeting on Thursday afternoon at the home of Mrs John Tait.

Trooper Barkwill and one or two other Summerlanders now in the B.C. Horse were recalled from furlough this week, and went up to Vernon on Thursday morning.

Another break occurred on Sunday in the domestic water pipe on the brow of the hill in Peach Orchard, near Mr G. Gartrell's home, causing quite a wash-out, and necessitating the cutting off of the service for repairs.

Miss Nellie M. Postill, a student at Okanagan College a year or two ago, has a number of friends here who will be interested to learn of her marriage in Vernon on Wednesday the 21st inst. to Mr L. Carswell of that city.

Mrs Ker, at present a guest with her relative, Mrs Burton L. Hatfield, is a visitor from the prairies, who arrived in Summerland last week. About three years ago Mrs Kerr spent some time in the Okanagan, being at Kaleden for a while.

CONVENTION OF UNION OF B.C. MUNICIPALITIES.

Nearly one hundred delegates from all parts of the province were in attendance at the Tenth Annual Convention of the Union of B.C. Municipalities held last week at Kamloops.

Reeve Ritchie and Clerk Logie represented the local Council.

The delegates were welcomed by Mr J. T. Robinson, president, and Mayor Crawford of Kamloops. An acrimonious discussion arose on the report issued by Mr McDiarmid, solicitor of the Union, who strongly condemned the principle of the powers given to the Lieutenant-Governor in the new Municipal Act.

After the discussion the report was adopted. Mr McQuarrie spoke strongly in opposition, and moved practically a vote of non-confidence in the solicitor.

Mr Woodside read a capable paper on buying made-in-Canada goods. Exception was taken by Clerk Logie of Summerland, who said that Vancouver manufacturers pleaded for buying made-in-Canada goods, but would not buy British Columbia fruit in preference to Washington.

Mr Enright replied, advancing the high freight rates as the principal cause of this.

Mr Woodside's paper was ordered printed.

Inspector Baird outlined the duties of his office. There was some

criticism about the power of the inspector to turn down a by-law already passed by the people, but Mr Baird made personally a great impression.

Dr Vrooman, the doctor in charge of Tranquille Sanatorium, read a paper giving full reports, with figures and charts, of the work, urging the Union to plead with the government for larger appropriations.

Mr Dutcher, Vancouver, consulting engineer of the Kamloops hydro-electric system, read a valuable paper on the economics of municipal power plants. High praise was awarded to this.

Mayor Gray of New Westminster is president for next year, and Chilliwack will be the next place of meeting.

Mr J. T. Robinson, ex-Mayor of Kamloops, was elected delegate to the next Canadian Municipalities Convention.

A resolution by Alderman Winram, South Vancouver, demanding that the government abolish the sale of liquor during the progress of the war, was defeated by a somewhat sharp discussion by a vote of twenty-seven to twenty-four.

Alderman Woodside said an investigation was being made by the Vancouver City Council with regard to the Water Street commission men forming a trust to buy only Washington fruit for the coming winter.

Mr Robinson said he had opposed the government taking off the poll tax.

BASKETBALL

The College Gymnasium will be the scene of a basketball game that should provide some good sport on Saturday night, when the West Summerland team will try conclusions with the College boys. The latter have a squad of seasoned players who show speed, combination, and an ability to find the basket, but the assiduous practice the Wests have been carrying on will also show itself, resulting in a fast, level game. The team may line up as follows:

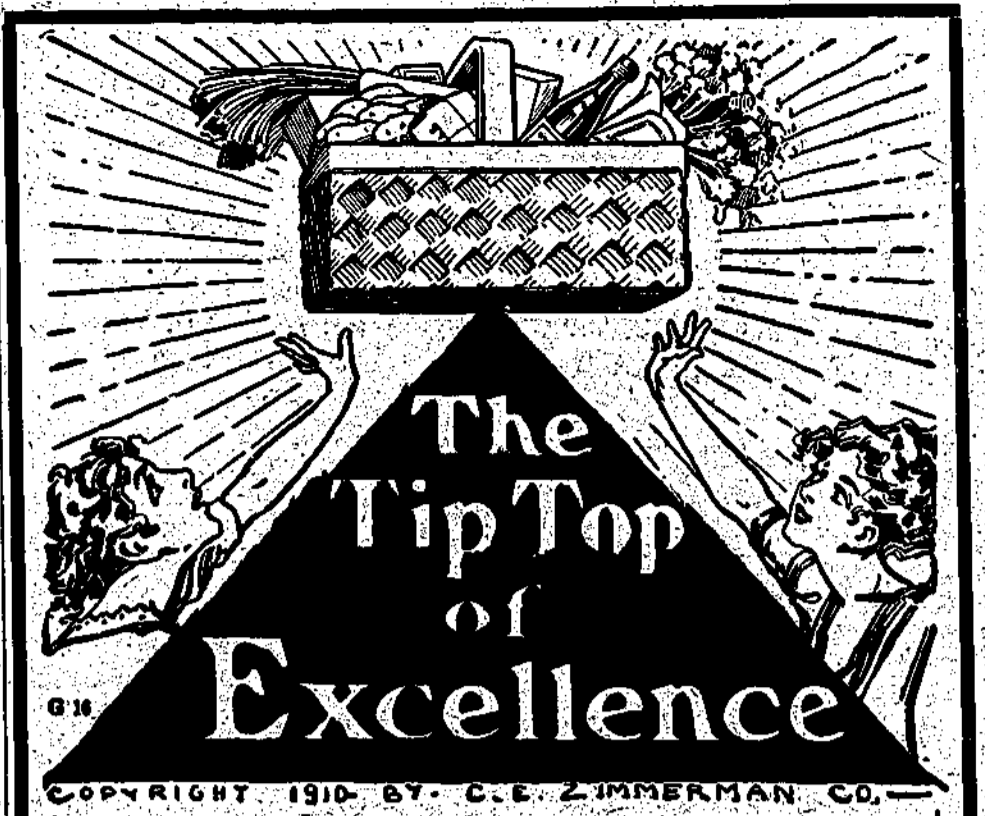

College	Wests
Riley	Fisher
Dalo	Pentland
Morlock	Rae
McLeod	D. Stuart
Cochrane	C. Stuart.

"The Big Five" who lined up against a team chosen from the remainder of the town in a basketball game on Monday night at the Men's Club, failed to get the big end of the score, and retired defeated with the score at about

18-10. The game showed plenty of vigor, and referee John McLeod of the College was compelled, in the interests of good basketball, to keep his whistle sounding frequently, especially in the first half. The frequency of fouls became a little tiresome, but to persist in penalizing the "rough stuff" will later give a purified basketball of greater pleasure to players and spectators alike. F. C. Edgar was the victim of a painful mishap, when he turned his ankle during the game, and has since been laid up unable to get around very much. The teams were:

Big Five.	Town
Craig	Lawler
Lavis	Snider
Hickey	Angovo
Kennedy	Slamay
Edgar	McWilliams.

The "Big Five" and the Town are up for another game on Monday night, when there will likely be another fast game.

There can be only one best—the Tip Top of excellence. We both aim to get it. You, the clever and successful housewife, want the groceries that give the greatest results in your food—that please your family and visitors.

WE sell only tip top quality in groceries so that we may get your trade—and retain it. Every item we send out is an advertisement of the quality of the others. If we did not maintain tip top value always, our business would not continue to grow as rapidly as it does. Inspect our extensive stock—or telephone a trial order.

War Means Economy

SCARCITY OF MONEY is one of the first effects of war. Fortunately we in Canada are in no danger of feeling the "pinch" of hard times to any great extent, but we do feel that we must get good value for every dollar expended, and confine our food requirements largely to the realm of necessities. The following list of staples has been carefully compiled with a view to conveying valuable suggestions to the citizens of Summerland. The prices are consistent with our usual quality standards.

Hospital Rules And Regulations.

The following rules and regulations have recently been drawn up by the Directors of the Hospital, and printed copies will be displayed in each of the wards.

No. 1—The Charges to be paid by patients shall be:
Public Ward 2.00
Private Ward 2.50
Special Ward 3.00
(called Oddfellows' Ward)

In maternity cases under treatment 50 cents extra per day, with extras for dressings, stimulants, and doctor's prescriptions. Operating Room \$5.00 for major operations. \$3.00 for minor operations.

In computing charges in Hospital, time not exceeding half a day shall be charged as half a day, time over half a day and under one day shall be charged as one day.

No. 2—All monies and valuables should be given up to the nurse in charge. Patients retaining such do so at their own risk.

No. 3—All applications for admission to the Hospital be signed by a Director and countersigned by a medical man as to the nature of complaint. Emergency cases at discretion of the matron until a doctor can be called.

No. 4—Any complaint to be made to the Board of Directors or to the Secretary.

No. 5—That any person using profane or abusive language or guilty of improper conduct or using spirituous liquors or other articles prohibited by the attending medical man shall be liable to expulsion.

No. 6—No smoking allowed in the Hospital Building except by consent of the Matron.

No. 7—Visitors must not supply fruit or provisions to the patients without the permission of the Matron.

No. 8—Visitors may see patients only with the consent of the attending nurse or physician in charge on any day during visiting hours which are from 2.30 to 5 p.m. and 7 to 9 p.m.

No. 9—That all visitors to the Hospital record their names in a book kept for that purpose.

No. 10—The diet for each patient will be supplied by the nurse in charge as directed by the physician in attendance.

No. 11—At all hours free access be accorded to the Clergy of any religious denomination to impart religious consolation to the patients.

No. 12—Any patient leaving the Hospital without the permission of the attending medical man or the Matron, does so at his or her risk.

No. 13—HOSPITAL FEES ARE PAYABLE WEEKLY IN ADVANCE.

HILL SELECTING OF POTATOES FOR SEED.

Hills Showing Vigorous Growth Should Be Marked—Seed Of Strong Vitality Thus Secured.

Good seed is worth all of its cost of production; poor, weak seed is dear at any price. Seed of great vitality is of the utmost importance to the grower, and the losses due to poor seed would be staggering if fully realized. There is a widespread practice among farmers, of planting second size potatoes, regardless of whether they come from vigorous hills or not. This is a serious mistake which can have only one result, i.e., the early running out of the variety. The practice of hill selection should be carried out, for, although it involves some extra labor, it is worth many times its cost.

If the seed has been planted one seed piece in a place, uniformity of selection can be secured by confining the choice to the one-stalk hills in the field. This method can be varied, however, by setting a standard in the ratio of not less than four good, marketable potatoes to a one-stalk hill, seven to a two-stalk hill, and ten to a three-stalk hill. When the crop is half or two-thirds ripened, the grower, with a bundle of twigs or sticks, goes over the field and marks a number of the hills showing exceptional vigor, for next year's seed. When the crop is ready for digging, these marked hills can be dug by hand. All of the marked plants have shown vigor, but all may not produce desirable tubers. Any marked hill which produces fewer tubers than we have set for the standard, or is undesirable in other respects, should be discarded. Selection in this manner secures vigor, which is of prime importance in enabling the crop to withstand insects and diseases. Moreover, the grower is obtaining all of his seed stock from hills that have produced a fair number of marketable tubers, thus insuring an increased yield.—F.C.N. in "Conservation."

DEADLY NEW FRENCH GUN.

Remarkable tales of novel engines of war are appearing in all parts of Europe, but nothing has yet equalled the reports concerning new guns used by the French which fire turpentine, a substance said to produce instantaneous and painless death for every living thing within its reach.

Although it is so deadly in its work turpentine cannot be objected to on the ground that it violates humane principles of war. In fact, it is so humane that it must not be confused with lyddite and other explosives which have deadly fumes. English correspondents have reported that entire lines of German soldiers stood dead in their trenches as a result of the fumes from the mysterious turpentine discharged by the French in engagements along the Marne. The dead Germans are reported to have maintained a standing posture, and retained

"THE REASON"

"There are thousands already on land and sea Fighting our battles, so why ask me To join His Majesty's Army?"

Yes, there are thousands, and still they come From East and West to the sound of the drum, The drum of the British Army;

Yet—shut your eyes to it if you will—

There's one gap which only your self can fill In the ranks of the British Army.

Must I chuck my business and lose my pay For the sake of a shilling and tuppence a day, Which is all I shall get in the Army?"

Where will your business be, my son, If victory rests with the German Hun, And defeat with the British Army?

Are you willing to wait till England feel The cruel weight of the iron heel, The heel of the Kaiser's Army?

Must you wait for others to coax and plead Ere you rouse to the sense of your country's need And join His Majesty's Army?

"How do I know I shall see any fun? They may make me guard-spies till the war is done; They serve some so in the Army!"

Doubtless there'll be dull work to do; Someone must do it, and why not you? It's all the work of the Army.

It's not your business to choose your post; You'll be put wherever you're wanted most To serve His Majesty's Army.

You've a priceless privilege—can you bear— To lose your birthright and shirk your share Of the work of the British Army?"

"Shan't I feel, when I lie in the bitter rain, Wounded and dying in mortal pain, I'm a fool to have joined the Army?"

Yes, a glorious fool, whose name shall find; When pain and death have been left behind, A place in the Deathless Army.

When the sin of the Eagle which would not spare Is avenged by the Lion, the Cock, and the Bear, Won't you be sorry you had no share In the work of His Majesty's Army? Islander.

OUR NARAMATA SECTION

NEW SCHOOL OPENING.

The formal opening on Friday afternoon last of the new two-roomed public school situated on the spacious grounds comprising in all some two acres of level land was an event of historic importance in Naramata.

The school management, with the co-operation of the teachers, Miss Whitworth and Miss Foster, and the pupils, had prepared a program which afforded all an opportunity to see the school at work and at play, and no better or more suitable plan under the circumstances could have been chosen.

The first half hour was spent in observing the classes at work. In the Primary room Miss Foster's method of handling phonetic reading could not but have impressed the visitors with the sound sense of it all. The excellent class management too was a noticeable feature. In the senior class room, where Miss Whitworth has charge of the Entrance classes and those immediately preceding, the visitors listened to a history lesson dealing with early period of discovery and colonization, of which the youngsters appeared to have a good grasp. Another class was being taught the intricacies of the phrase and the clause following closely along strictly pedagogical methods. Here also the visitors were impressed with the excellence of the class management, and in fact throughout the school the pervading spirit is one of system and good order a feature which is the most difficult to maintain.

Here followed an intermission of ten minutes, during which time visitors had an opportunity to examine the building throughout, and each in turn was given an opportunity to sign the visitor's register found in each class room.

After this short recess the whole school, with the visitors, were comfortably seated in one of the class-rooms, and a fine program of songs, readings, recitations, interspersed with extempore speeches concluded the exercises of the day.

The deferred meeting of the Summerland Development Co. at Pentiction on Thursday evening was attended by a number of local members of the organization, amongst whom were: J. M. Robinson and son, J. O. Robinson and Dr. W. L. Robinson. The party went down in the "Naramata," Mr. Robinson's private launch.

The inauguration of a regular train service between Pentiction and Naramata to Carmi, and all points east, is now an established fact. On Monday morning the first regular passed here going east, and returned the following morning. This certainly is a red letter week in the history of the Okanagan in general and of Naramata in particular.

A local branch of the Epworth League has been organized through the kind encouragement and aid of the pastor, Rev. J. Irwin Beatty, and last Friday evening conducted its first social. The social proper was precluded by a display of a series of lantern slides, showing views from London chiefly, with a number from the Continent. This part of the program was conducted by the young vice-president, Miss Dorothy Robinson, who was able to give an intelligent and interesting talk on each view as it was presented. This plan of discovering the latent talent in the league is one very much to be commended for reasons which should be apparent to all.

Miss Edna Noyes, assisted by her mother, entertained at her home on Wednesday afternoon from three to six in honor of the Ladies' Aid. The occasion was marked by a full attendance, and a more than passing interest in the sewing in order to be ready for the annual bazaar which has been set for December 8th. Four new members Mrs. Jas. Young and her daughter, Mrs. R. H. King, and Mrs. Finzal, and Mrs. Rogers, new residents of town had their names added to the already splendid list of members. In view of certain local calls upon their generosity it was decided for a while to meet weekly to do special work for charitable purposes. In regard to the Belgian Relief it was found necessary to correct the false impression that there was an end to the matter when the recent shipment via Summerland to Vernon was made. As a result the ladies are planning to maintain, at least for the present, the work of assembling clothing for the Belgians Relief. Thus it will be seen what an important work is being accomplished by this organization, which had its local inception a couple of years back.

Current Events - OF - Town & District

Hurrah for Hallowe'en!
Mr. W. J. Robinson was a guest for luncheon at Hotel Naramata on Monday.

Mr. J. C. Lyons and wife were visitors over Sunday with friends in Pentiction.

Rev. and Mrs. N. McNaughton of Summerland were visitors in town for a few hours on Thursday last.

Patrons of the moving picture films at Pentiction find the bi-weekly evening service a fine convenience indeed.

A fuller report of the Unity Club gathering held this afternoon at which Mrs. Julius Block entertained, is of necessity held over till next issue.

Mr and Mrs Geo. Dempsey of Pentiction spent the week-end under the latter's paternal roof, meaning the home of Mr. James Young, Naramata.

Mr P. B. Cash is having material put in position on his fruit lot preparatory to beginning the construction of a commodious residence.

Mr and Mrs Henry R. Hall, who for the past year have been residents of Summerland, spent a few hours in town on Tuesday, guests of Mr and Mrs J. M. Robinson.

Mr L. R. Williams of the Review staff, accompanied by his wife, were visitors here for a few days this week, guests at the home of Mr and Mrs Louis Block.

Mrs. Clay of Summerland paid Mrs. Reesor a visit on Wednesday, and incidentally attended in company with her hostess the animated gathering of Ladies' Aid members.

Local stock holders in the now famous gold mine in Idaho, in which Mr. Robinson is so heavily interested, have been wearing the smile that won't wear off since the news of the big strike.

Mrs W. Steel, formerly of our town, but for the past year a resident of Garnett Valley, Summerland, was a guest for a few days this week of Mrs. J. H. Rounds, nee Miss Ruth Chambers.

The service of song and praise in the Methodist Church on Sunday evenings is proving a more attractive feature than at first anticipated, and consequently will be continued just as long as there appears to be evidence of such appreciation.

Mrs. Gillespie, who was taken down quite suddenly a week ago suffering from heart trouble, has so far regained her strength as to be able to be again about her usual duties. The condition of Mr. Gillespie is very considerably improved.

Reports from the workers at the dam are most favorable. It is hoped to complete the work this week, and we can now face another season with the hopeful assurance of their being an abundance of water stored for the dry months of July and August.

Mrs T. I. Williams is in receipt of encouraging news from Toronto where her daughter, Miss Maida Williams, has entered upon her final year's course in the National Deaconesses Training School, having completed most creditably the previous years' examinations.

Dr. Robinson accompanied a patient, Mrs. Stiff, across to the hospital in Summerland on Tuesday suffering from a nervous breakdown. For a time it looked as though the lady's mind was being unsettled, but it is hoped that the case will not assume any such serious proportions.

Mr and Mrs Priest and son of Pentiction were in town for a few hours on Saturday last, guests of Mr and Mrs T. H. Boothe. The visitors, recent arrivals from Merritt, B.C., are much impressed with the Okanagan Valley, especially the southern end, and may decide to locate permanently. Mrs. Priest is the mother of Mrs. W. H. Frowae, who with her husband occupied the Hayward cottage during the latter's tenure of office as resident engineer in the Kettle Valley Railway.

UNITY CLUB.

Last Tuesday afternoon an interesting scene might have been observed at Hotel Naramata when the ladies of the Unity Club, or at least a very good number of them had assembled to wind the 30 odd pounds of yarn in large balls, preparatory to the knitting of socks and mitts for the soldiers. Anyone who has held skein after skein of yarn whilst another person winds, knows how tiring and monotonous such a task may become.

Abundant evidence there was too that the rising generation knows but little of this erstwhile common occupation. It was plain that the elderly ladies had had the practice one time in their lives, and could wind two balls while their daughters were getting well started on the first.

The afternoon thus busily spent passed all too quickly, and now the ladies are occupying their spare time at home in knitting their several allotments of yarn. As previously mentioned the donation of material was made by Mrs. Aikins of Winnipeg.

The big chief sitting in their midst, such grave matters as Hallowe'en pranks, route marches, splicing ropes, night attacks, proficiency badges, first aid work, and matters of like nature were solemnly discussed.

Friday morning three of the Scouts not attending school were given an opportunity of doing their daily good turn, which opportunity, of course, was eagerly grasped. They were asked to take a load of chairs and benches from the church to the new school, in preparation for the formal opening to be held that afternoon, and, with the aid of their trek cart, this work was soon accomplished.

The First Aid meeting on Saturday afternoon was an exceptionally good one, the lesson being on the St. John Ambulance Corps bandages, and also a stretcher drill was practised. Dr. Robinson had prepared a couple of the triangular bandages used by this corps, and after a number of demonstrations on how to use them the boys were taken out on the lawn, and one fellow taking the part of an injured man, the remainder were given the task of bandaging him up, manufacturing a stretcher, and lifting the injured person on in the correct manner, taking the stretcher over a fence and carrying it into the house, and lifting its burden into the bed. The 2nd class boys are getting a thorough good training in this work, and although they now know more than is necessary for the ambulance badge, yet they have no desire to discontinue the lessons, and will be glad to keep on learning First Aid work as long as Dr. Robinson agrees to teach them.

A. SCOUT.

Don't paint the town, paint your house.

WHEN BUYING YEAST INSIST ON HAVING THIS PACKAGE

DECLINE SUBSTITUTES

NARAMATA SCOUT DOINGS.

Last week, owing to some unforeseen happenings, our brand new schedule was turned topsy-turvy, and nothing came off as planned. Tuesday evening, Oct. 20th several young fellows from town dropped in to headquarters and expressed a desire to challenge the Scoutmaster and some of the Scouts to boxing matches, and as we couldn't very well disappoint them we agreed, on the stipulation that they would have to pay their own doctor's bill. So, instead of our regular evening of Scout work, the time was passed in a more exciting, though less progressive way. On account of the decision of the Naramata Junior Epworth League to hold their meetings on Friday evenings, it was decided to change our physical drill meetings to Thursdays, so as to prevent any clash on account of the two meetings being held on the same evening.

As our Scout meeting on Tuesday had been turned into an athletic meeting, the regular physical drill night on Thursday, Oct. 22nd, was mostly devoted to Scout work. After a half hour of physical exercises, the braves all proceeded upstairs to hold a secret council fire meeting. After all were seated in a semi-circle, with

 Chorus, "Six Girls of the Primary Grade."
 Recitation, "Slumber Song."
 Reading, "Sellin' Eggs."

BACK FROM THE YUKON.
 Mr M. D. Manchester returned last Thursday from a six months' absence in the Yukon, where he was engaged as electrical engineer with Yukon Gold Co.
 Mr Manchester has much of interest to say of that decidedly interesting country. Mechanics demand \$15. per hour for their skilled labor. The grocers complacently quote 75 cents for two eggs, at a specially low price, ordinarily the price is \$1 each. On the other hand it can be as truthfully said that many things are quite equitable. One particularly noticeable fact was that there is no discrimination as to sex, and as a consequence the waitresses for example draw a man's pay, nor is there any discrimination in passing out cheques to lady teachers.
 The journey home was made all the more arduous owing to the fact that the last 150 miles by dog train had to be walked, owing to the fact that the snow had melted and left the trail bare.
 Mr Manchester purposes returning to the north once the severest of the cold weather is past as he has been offered a substantial increase, accompanied by a well deserved promotion.

Passing Events: Social, Personal, &c.

Mrs S. Angove will be At Home on the first Thursday afternoon of each month.

A. McCutcheon spent part of Wednesday afternoon and evening at Peachland at his business.

Buy your rubbers now to get a ticket that may win you one of three pairs of \$5 boots which A. J. Beer is giving away free.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Further additions to the number of milch cows now kept in the community will be made this week by Dr Lipsett, who went up the Valley on Wednesday on a buying trip.

Prof. Terry, who was to have held classes yesterday afternoon and evening under the auspices of the Poultry Association, missed the boat at Victoria and is consequently a day late. Classes are being held this afternoon and evening.

Receiving news by wire of the precarious condition of her mother at St Thomas, Ontario, Mrs J. L. Hilborn went out on last Saturday morning's boat to make the long journey across the continent, hoping to reach her mother's bedside before the end, which was expected before long.

After a stay of over four years in Summerland Robert J. Milne went out last Saturday morning bound for his highland home in Aberdeen, Scotland. "Bob" has made a good many friends here, especially among his fellow Caledonians, and he gave a goodbye to most of them at the Scotch Concert last Friday.

Services will be conducted in the Methodist Church on Sunday next at 10.30 a.m. and 7 p.m. by the pastor, Rev. R. W. Lee. At the morning service the subject will be "Further Light on the Revelations," while at the evening service the pastor will speak on "A Message for the Time." A hearty invitation is accorded to all.

The committee promoting the Hospital Ball to be given on November 10th, are making every effort to make the event a success, and are preparing for a large gathering not only of local citizens, but friends from Naramata and Penticton as well. The tickets are now on sale at both Drug Stores, here and may also be had from Miss Robinson at Naramata.

There is a movement now on foot to forward a car of Okanagan apples for the Belgian refugees in England. The idea was first suggested by Mr G. J. C. White, and the matter is now having the attention of the United Growers. An effort will be made to have the C.P.R. carry the car free, and each district will be allotted a portion of the car. The privilege of donating apples will of course not be confined to Union members.

BIRTHS

DERRICK—On Saturday, October 24th, to Mr and Mrs A. A. Derrick, a son.

Mrs. F. Williams will be At Home the first Tuesday of every month.

MUNICIPAL SCHOOL BOARD

WOOD TENDERS

TENDERS will be received, by the undersigned, up to November 4th, 1914, for the delivery of the following quantities of wood at the Municipal Schools:—

- CENTRAL SCHOOL, 20 cords
- GARNETT VALLEY SCHOOL, 7 "
- SUMMERLAND TOWN SCHOOL, 7 "

A cord to be 128 cubic feet. Wood to be 16 in. long, good, sound, pine, fir, or birch, one half to be delivered by December 1st next, or as required, and to be dry, and the balance by the first of March, 1915, and may be dry or green.

J. L. LOGIE, Secretary, Municipal School Board.

H. Dunham returned last night from a trip to Alberta and Saskatchewan.

The St Andrew's and Caledonian Society has again taken a lease on the Campbell Hall for the winter months where all their gatherings will be held.

Messrs A. A. Derrick, E. W. Mountford, George Fosbery, and A. Brewer were among those from Summerland who were on juries at the Vernon Assizes held last week.

On Monday evening Mrs John Tait was the hostess at a dinner party of about ten young people at her home. The guests of honor were Miss Marjorie Limmer and Mr Muir Stuart.

Mrs J. L. Logie came in from the Coast last Saturday evening. Miss Grace remains there at least for a few weeks, during which time it is expected that she will benefit greatly in health.

Rev. C. H. Daly will occupy the pulpit of the Penticton Presbyterian Church at both services next Sunday, exchanging with Rev. Ferguson Miller, who will be in charge of the St Andrew's Church services here.

As holder of the lucky ticket No. 62, James Mitchell, Jr., has become owner of the roan horse recently raffled off by Arthur Pentland. The drawing took place on Wednesday night, and for the third or fourth time recently "Jimmy" held the right ticket for a prize.

The Dominion Director of Experimental Farms, Mr J. H. Grisdale, Ottawa, arrived in Summerland last night, and in company with Mr Helmer is attending to various matters of business relating to the local farm. Mr Grisdale is a former Ottawa friend of Postmaster Hayes, with whom he is luncheoning to-day.

There is a large quantity of timber suitable for fuel all along the line of the K.V.R. west from here, and the wood industry as a result of the building of the railway will likely have an extended lease of life. Already cutting is being done along the line, and from at least one point, Mile 15, fuel is being shipped in carload lots to Penticton.

Already Summerland's new hospital is being taxed to its present limit, and an increase of the nursing staff has become necessary. There are now seven patients in the new building. The nursing staff has been at least temporarily increased by two, Miss Margaret White and Miss Warner, a relative of Mrs Jas. Ritchie, and a Vancouver nurse, who will be leaving on Monday.

Mr James McMartin, manager of the Office Specialty Co., Vancouver, was an arrival in Summerland last Saturday evening to spend the week-end. Mr McMartin hails originally from Renfrew, Ontario, and made use of the opportunity to renew the acquaintance of two school mates of former days at Renfrew, Messrs Wallace and Walter Wright, at whose home he visited during his short stay here.

The coming of the fall season sets a good many thinking about a trip to the Old Country, and an indication that travel across the Atlantic promises soon to take on its customary volume at this time of year, is seen in the reappearance of a schedule of sailings, both from Canadian and American ports, in an advertisement on page 4 of this issue. Incidentally it is also an evidence of just what it means for Britain to be "mistress of the seas." At the outbreak of the war, ocean sailings were more or less demoralized, but now it is apparent that little interruption is to be feared from hostile ships.

Vice-President George Bury, of the C.P.R., with headquarters at Winnipeg, spent about half an hour in Summerland on Tuesday in the early afternoon. Mr Bury came from Midway during the morning, and travelling over the new Kettle Valley track to Penticton in his private car, the "Manitoba," arrived at the foot of the lake about noon. The car was put aboard the barge, and taken up the lake to Okanagan Landing on the regular trip of the tug. During his stop here, Mr Bury evinced considerable interest in conditions, and halted the intimation that mixed farming was being taken more extensively in this district as another step in the right direction.

L. C. Woodworth was a visitor to Calgary this week, returning on Thursday evening.

There are still a few lines left at less than half price at A. J. Beer's Shoe Sale. Hurry or you will be too late.

Mrs Robt. H. Stuart and Mrs Downton reached home again at the end of last week, after about two weeks spent at the Coast.

All parties bringing apples to A. Stuart's Packing House are requested to have them in not later than Wednesday, November 4th. ad

Rev. Ferguson Miller of Penticton will conduct the Thanksgiving services in St Andrew's Church next Sunday morning and evening, and in the Methodist Church at three o'clock.

Don't miss the Annual Thanksgiving Concert and Tea in St Andrew's Church next Monday evening. The choir and excellent local talent will furnish the program. Refreshments will be served. Admission 25 cents. ad

Mr F. F. Hanington, manager of the local branch of the Canadian Bank of Commerce leaves to-morrow morning for Ottawa on a six week's vacation. He is being relieved by Mr J. D. Lewis of Victoria.

The St Andrew's Y.P. Guild meeting on Wednesday night was of a devotional character, Wm. Armstrong of the College being the main speaker. Next Wednesday has been set apart for a Masquerade Social to be held in the Campbell Hall.

Perhaps it is superfluous to remind the youth of the community that Halloween is again with us, the season when the spirit of mischief enters into the scooped-out pumpkin head, causing endless amusement to the perpetrators, but not uncommonly annoyance and inconvenience to those perpetrated upon.

William Sauter, well-known here, has gone to Vernon with the idea of organizing a dramatic class, to put on different plays during the winter for the benefit of the Canadian Patriotic Fund and other similar benefits. Mr Sauter's ability as an actor and stage manager is too well-known to need comment, and it will be fortunate for Vernon theatre goers, as well as for those in the city interested in dramatic work, if his class can be organized.

Hyacinth bulbs have been distributed this week to members of the Summerland Women's Institute for culture at home during the next few weeks. Yesterday was the appointed day for planting, and the bulbs will thus come to maturity about the same time. Later on when they begin to bloom, the Women's Institute intend holding an afternoon tea and social, when the plants will be put on sale. This novel plan gives members the opportunity of having one or two bright flowers about the house during the otherwise flowerless season; and also brings in profit to the Institute. If bulb culture is made more popular by this means, a great deal of good will have been accomplished in still another direction.

If you are willing to

ADVERTISING B.C. FRUIT.

In pursuance of the policy of making known the excellent qualities of B.C. fruit in markets, British Columbia Fruit Growers' Association has just issued an attractive eight-page booklet.

One hundred thousand (100,000) copies were printed, so as to cover a large part of our Canadian markets.

Already sample copies have been sent to cover 2,500 retailers of fruit, and secretaries of farmers' organizations in the Prairie Provinces inviting them to ask for quantities to distribute to customers. It is expected that this demand will make excellent advertising.

Consumers of fruit in Alberta and Saskatchewan are responding in numbers to advertisements in their papers, inviting them to secure copies.

The booklet contains much valuable information about B.C. fruit, and will be popular among fruit users. On this account, the large number was printed so that copies may be inserted in each box of B.C. apples sent out by members of the association.

Rev. N. McNaughton, pastor of the Baptist Church, begins next Sunday evening a series of sermons of which the general theme is "Sunshine and Shadow in Human Life." The Sunday evening sermon being on "The Uses of Adversity." The other subjects and dates are as follows:— Nov. 8, "The Uses of Amusements;" Nov. 15, "Failure in Success;" Nov. 22, "Success through Failure;" Nov. 29, "The Shadow of Doubt;" Dec. 6, "The Light of Faith;" Dec. 13, "The Soul's Eclipse;" Dec. 20, "The New Day." (Christmas). The subject of next Sunday morning's address is: "The Power of Personal Touch."
