

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

AUG 7 1915 Provincial Librarian

Vol. 8, No. 1. Whole No. 366.

SUMMERLAND, B.C., AUGUST 6, 1915.

\$2.00, payable in advance.

## Preparing For The New School Year.

### Board At Regular Monthly Meeting.

The Central School rooms are likely to be taxed to the limit of their capacity when school reopens on Monday, August 23rd. In fact, according to the report of Principal Lees there are likely to be more than can be properly cared for if former plans are adhered to. After discussing the situation with the Inspector, Mr. Lees proposed that those of the third year, whom it was proposed to send up from the Town School, be kept there for instruction for another year. No action was taken pending Mr. Lees' return to Summerland.

The new room in the High School building will require some furnishings, especially chemicals and equipment for chemistry work. The obtaining of these was delegated to the new teacher and the Secretary, with certain limits as to cost.

The condition of the Town School grounds were discussed, the feeling being that the grading done was not at all satisfactory, and while the contractor may have done all that could be expected, the Secretary was instructed to look further into the matter and arrange to have the grounds put in condition before school re-opens. The same official was also instructed to have all necessary repairs made to the school vans.

Accounts as follows were passed for payment:

Teachers salaries	\$610.00
Janitor	24.00
Secretary	10.00
Health Inspector	18.75
Sundries	17.67

Many matters pertaining to the school were discussed in a general way, and the meeting was finally adjourned till the afternoon of Saturday the 21st, when the teaching staff will be present to discuss matters with the Board.

The Department of Education during the year ending June 30th last contributed \$5,040 towards the maintenance of Summerland's schools, \$4,060 towards teachers' salaries, and \$980 for conveyances. The ratepayers of the district paid another \$980 for conveyances, \$3,410 on teachers' salaries, \$1,159.72 for incidentals and \$341.30 for furnishings and repairs, making a total yearly cost for all our schools of \$10,981.02. The total plant investment including buildings, grounds and equipment is \$28,100.

## Creditors' Meeting.

### Affairs Of Jam Company Examined Assignee And Inspectors Appointed.

At the adjourned meeting of the creditors of the Okanagan Jam Company Limited, held at W. C. Kelley's office last Saturday evening, the appointment of Mr. Kelley as assignee was approved and confirmed, and three of the creditors named as inspectors to work with him. Those so appointed were: J. L. Logie, S. M. Young, and Wm. Ritchie.

The question as to whether one of those shown by the company's statement as being a creditor was really such or a shareholder, was looked upon as a most important matter from the ordinary creditors' point of view. The committee appointed for the purpose of investigating the books and reporting, were of the opinion that this was really a shareholder. The amount involved is \$5,000, and if allowed to come in with the other liabilities will greatly reduce what dividends the creditors might otherwise expect. The committee found it difficult to prepare a definite statement due to the alleged lax methods of accounting.

Three mortgages stand against the property, one for \$9,000 to a financial house, another issued to the former manager, and a third, covering his and accounts of two creditors is held by Baron de Thron. The committee questioned the legality of this third mortgage, stating that it was at least peculiar that, when the company was practically insolvent, two directors could meet and vote to give a mortgage to one of themselves. Mr. (Continued on page 2).

## Physical Defects Will Be Remedied.

### Regulations Regarding Physical Qualifications Of Recruits Relaxed.

The Militia Council has approved of important relaxations in the regulations regarding the qualification of recruits offering for service with the colors, which are expected to add largely to enlistment.

The height requirement is changed from 5 feet 4 inches for infantry to 5 feet 2 inches, and for artillery from 5 feet 6 inches to 5 feet 4 inches. The minimum chest measurement is to be 33 inches. There will be in future only one medical examination, and that at the place of recruiting.

Men suffering from bad teeth, and otherwise medically fit, will be supplied with new sets at the expense of the government, the work being done by the dental corps.

Slight physical defects which may be removed by minor operations will be removed at the government's expense by the army medical service. It is estimated that, in the past more than fifteen thousand men have failed to secure places in the forces because of regulations which have now been relaxed.

## Efforts To Re-Open The College.

### Campaign Now On To Raise Funds.

An active campaign to raise several thousand dollars to at least materially reduce the liabilities of Okanagan College and to put its affairs in such shape that it may be reopened, has been inaugurated. For the past few weeks Principal Everton has been busy on this campaign in the interior, and finished his work for the present in the upper country by two forceful appeals on Sunday last, one in the afternoon in the Parkdale Baptist Church, and the other in the Lakeside Church in the evening. Going from here to the Coast Mr. Everton will be joined by Rev. F. W. Patterson of Edmonton, and Principal Whidden of Brandon College, both of whom are giving their vacations to this work. Field Secretary Sayer also assists in the campaign.

Mr. Everton in speaking on the aims of Okanagan College proved conclusively that the efforts of the past had been well worth while. The institution has already been of invaluable benefit to a large number of students whose outlook on life has been broadened or wholly changed, and he urged the necessity of continuing the work.

In travelling over the province, Principal Everton finds everywhere a growing optimism for the future of British Columbia. People are beginning to realize something of the vast wealth of the province, and those who have a vision of what the next ten, twenty, or thirty years contains for us, fully realize the necessity of such an institution as Okanagan College. The speaker believes that our valleys, such as the Okanagan, will soon be well populated, and quoted Mr. Bury of the C.P.R. as stating that half the wealth of this wealthy province is in its valleys. The ending of the war will bring people from Europe, and more problems for our leaders of twenty years hence than those of to-day. The means to train our young men are needed, for then men and women with clear vision and Christ-like character will be needed. Only those who are educated and trained in the west will be able to understand the cosmopolitan conditions of our social life.

Mr. Everton is strong in his belief that Summerland is the ideal place for such an institution, and also that such is an invaluable asset to the community. Acknowledgment with hearty appreciation was made of the generous support Summerland has always given the College, which unfortunately has not been so generously supported elsewhere. Pledge cards are being circulated, and while any amount will be gratefully received the managers are endeavoring to get pledges covering three years at \$10 per year. W. C. Kelley has been appointed treasurer for this fund.

## Fruit Shipments Bulk Large

### Surprising Increase In Volume Of Orchard Crops. All Records Being Broken.

Fruit in large quantity continues to flow outward. At no time in the previous history of the fruit industry here has the volume approached anywhere near the quantity being shipped this season. During the past week no less than twelve cars have been loaded here and shipped direct to the buyers. Beside these twelve cars there has been a large quantity in part cars and local freight shipments sent out for assembly into mixed cars made up at points along the route, including principally Vernon and Kelowna. This would probably average a car a day. Then there are the express shipments, no small item, hundreds of packages which average not far short of a car every day.

The largest single shipper is of course the Fruit Union, but during this week A. Stuart & Son have started rolling no less than four carloads of fruit and vegetables. Last Friday night the largest shipment in any one day was made when six carloads were put on to the barge. Stuarts had one of these and another was shipped by T. B. Young to Mr. McLaren at Vancouver. Mr. Young sent a second car to the same address this week.

What are considered fair prices, considering the "times" are being realized, and it is in the volume at moderate rather than the limited quantity at fancy figures that Summerland will become opulent.

## Clean Orchards.

### Inspector Lyne Compliments Summerland On Condition Of Apple Trees.

### A Note Of Warning. A Never-Ending Fight To Guard Against Pests.

Quite a marked improvement in the condition of our orchards is what Mr. W. H. Lyne, chief assistant to Inspector Cunningham, finds on his first visit here this season. Mr. Lyne, accompanied by Mr. Palmer, came in on Monday from the north, and are delighted to find so little evidence of fire blight and also that scab is entirely absent from our apple orchards. Summerland, Mr. Lyne says, is to be congratulated, and has much to be thankful for as there is considerable "scab" in evidence in many places.

Nobody knows the havoc fire blight can work in a short time if neglected, better than does Mr. Lyne, or more of its peculiar traits, and when he asks that our readers be warned not to permit even the apparently dead cankers or blighted portions of the trees to remain, we trust that his advice will be heeded. Mr. Lyne states that it is quite probable that insects are able to extract bacteria from these seeming dead portions and carry it to other parts. Further, there is danger of the disease spreading more than it seems possible for it to do.

Once more the old Gartrell orchard is a credit to the neighborhood, whereas for the last year or two it has been looked upon as the black sheep. Mr. Lyne says his department was accused of butchering that orchard when it became known that the dreaded orchard disease, fire blight, existed there. They were determined to make a thorough job of it, for when cutting for blight it is only wasting time and money by half doing it, and the splendid condition of the orchard to-day fully justifies the drastic methods adopted.

Since coming to the Valley, Assistant Inspector W. H. Lyne has had several telegrams from his chief, Mr. Thos. Cunningham, each tolling something of the ceaseless vigilance of their department in maintaining a strict quarantine against infection. Recently two cars of pears from Washington were condemned for codling moth, as have also been shipments of California fruit. Large shipments of Japanese rice are just now being fumigated for weevil and meal worm.

The apricot season will soon be finished, and peaches, plums, and crabs, as well as apples, are daily increasing in quantity.

The two big packing houses, that of Messrs. Steuart on the Flat and the packing house and pre-cooling plant of the Summerland Fruit Union at the wharf, are busy places these days, and give some indication of what the immediate future promises, as our rapidly maturing orchards get well into bearing.

It is stated that the tonnage of fruit and vegetables shipped from this point last month was ten times greater than that of July 1912. Further, nearly as much was shipped last month as in all the season of 1908.

## The Apple Crop Will Be Smaller.

### All Other Fruits Will Exceed The 1914 Crop.

Crop Report No. 3, issued July 20th, 1915, by the Horticultural Branch of British Columbia Department of Agriculture says the 1915 fruit crop estimates, as compared with last year's total production, are as follows:-

Fruit	1914	1915
Apples	684,840 bxs.	613,000 bxs.
Pears	28,800 "	35,000 "
Plums & Prunes	200,300 Cts.	200,000 Cts.
Peaches	113,300 "	115,000 "
Apricots	41,000 "	50,000 "
Cherries	33,400 "	35,000 "
Small		
Fruits	145,000 "	*165,000 "

\*Pint crate used in place of four-fifth and two-fifth quarts used in 1914 makes more crates for about equal production of fruit.

The June "drop," reported from normal to heavy, has not materially affected past estimates; in fact, growers state it has decreased the necessity of thinning in some cases. This should not, however, discourage further thinning where it is necessary, as there will not be much demand for No. 3's.

Due to the large amount of scab and aphid injury on the apples in many parts of the province, and to hail injury in several sections, the percentage of No. 1 apples will be below that of last year. Peach leaf curl has decreased the prospects for peaches considerably, but the production will be equal if not greater than that of 1914. The estimates for apricots and peaches show increases; but the failure of many canning factories to operate will result in an increase to be marketed fresh. Last year 40 per cent. of the 41,000 crates of apricots grown were shipped fresh, and the bulk of the balance was canned.

The crop reports from the Northwestern States show a crop about 60 per cent. of last year's production. In the Eastern States and Ontario similar decreases are reported, while Nova Scotia's crop will exceed that of 1914 by 25 per cent.

## VEGETABLE CROP CONDITIONS.

The following vegetable acreages are given as compared with 1914:-

Vegetable	1914	1915
Potato	13,350 ac.	15,000 ac.
Onions	396 "	440 "
Tomatoes	455 "	280 "
Cabbage	215 "	225 "
Beans	580 "	575 "
Colery	70 "	58 "

In general, the condition of all vegetables is reported better than at this time last year. The unirrigated uplands of the interior, owing to the heavy and continued rainfall, will give much larger yields than last year, while, in a few cases, the lowlands have been flooded causing partial loss of the crop. No insect pests or diseases of importance on the vegetables are present yet. If favorable conditions continue, the total production of vegetables should exceed last year by about 15 per cent.

## PRAISE OUR 'COTS.

### Retailing At A Dollar In Vancouver.

Vancouver has been waiting, rather impatiently of late, for the promised Okanagan apricots. Few have gone in that direction, evidently because of the higher price offered by prairie houses. Tuesday's Daily Province has this to say of arrivals in Vancouver from Summerland:

"The Okanagan Valley is famous for many fruits, but this season's apricots have brought more honors to this section of the province. From Summerland many cars of apricots have been shipped this season, but perhaps some of the finest have been received in the city during the past few days. These are now being displayed by the grocers at \$1 per crate."

Calgary Market reports for the same day quote one dollar as jobbers price for apricots in four-basket crate or peach boxes.

## WEDDING.

### Chittenden-Limmer.

Wednesday of this week saw a wedding of considerable local note solemnized at St. Stephen's Church, when Miss Gladys Edith Limmer was joined in holy matrimony to Mr. Clarence Chester Chittenden.

The bride is the eldest daughter of Mr. and Mrs. William Limmer, and from a residence here of four or five years, she has come to be widely and popularly known, especially in the acquaintance of the young people of this community.

Residing also for a time in Penticton, she can claim a good many friendships in that town. The groom is from Penticton, where he is well-known in business circles as an active partner in the druggist firm of Chittenden & McKeen. The wedding took place in the morning at eleven o'clock. Rev. H. A. Solly, Rector of St. Stephen's, officiating.

On the arm of her father, by whom she was given in marriage, the bride appeared as the strains of the Wedding March were heard, with Mrs. H. A. Solly at the organ. Joining the groom at the altar steps, the couple knelt during the impressive Episcopal service. Pretty garlands of sweet peas hung from the altar rails, and fragrant bouquets of white carnations and sweet peas were also used to advantage in the quiet but quite effective decorations. The bride's dress was of white satin with a square-cut train, and she wore also the conventional veil caught with orange blossoms and pearls. Her bouquet was a spray of white roses and asparagus fern. Little Miss Alice Limmer, youngest sister of the bride, made a pretty flower girl dressed in white and carrying a basket of sweet pea blossoms. Mrs. Limmer, the bride's mother, also wore a gown of white satin with an overdress of black shadow lace. Mrs. Muir Stewart, sister of the bride, was gown in a dress of white embroidered silk.

At the close of the ceremony the happy couple made their way to a waiting automobile and were driven to the home of the bride's parents, where a wedding luncheon was served, buffet style, to a small party comprising the immediate family and a few intimate friends. The luncheon table was prettily decorated with sweet peas and white ribbon streamers. The guests were Mr. and Mrs. Muir Stewart, Mr. and Mrs. S. Angove, and Mr. and Mrs. T. F. Ramsay, of Hazel Hill, N.S., Mrs. J. Duguid, of Canso, N.S., and Miss M. Hadley, of Rossland, B.C., Rev. and Mrs. H. A. Solly, and Miss Barracough.

Early in the afternoon Mr. and Mrs. Chittenden left for Penticton, and later started out on a trip to Kamloops by auto via the Similkameen, breaking the journey at Princeton. From Kamloops they will go on by rail to Laggan and Lake Louise in the Rockies, where they will spend a honeymoon of about two weeks, before returning to take up residence in Penticton. The bride's travelling dress was of navy blue and made in military style, with a hat to match.

The groom's gifts to the bride were a sunburst pendant of diamonds and pearls and a gold bracelet watch, which she wore at the wedding. To the flower girl the groom's present was a gold locket and chain.

## B.C. Fruit Gets Sensible Publicity.

### Co-Operation Of Growers Is Sought.

Mention was made in last week's Review of the efforts that Mr. J. Forsythe Smith, B.C. Fruit Market Commissioner is putting into force in the way of newspaper publicity, with the ultimate object of stimulating a stronger demand for B.C. fruits in the prairie provinces. The plan of campaign is an appeal to housewives by educative newspaper articles and advertisements. It is felt that probably many households have decided in view of the continually soaring price of sugar, that home canning and preserving are no longer worth while, thus tending to reduce one large channel of the retail demand for fruit. To counteract this Mr. Smith is giving prominence to a sugarless method of preserving, appealing to the economical instinct of every frugal housewife to save the expense of sugar in preserving. This new method had already been tried extensively and quite successfully. Competitions have been organized by Mr. Smith for the best samples of preserves without sugar, and dozens of jars of cherries and apricots have been sent in for judging in response. Another competition now under way calls for stories of 250 to 350 words describing experiences and results in using the sugarless method. Boxes of B.C. fruit are awarded as prizes in these competitions.

Many Summerland housewives are probably familiar with this sugarless preserving process. A popular recipe is embodied in the advertisement of the Summerland Supply Co. in this issue, and it may also be found with over two hundred other fruit recipes in a free booklet to be had on application to the B.C. Fruit Growers' Association, Victoria.

Another valuable feature in Mr. Smith's campaign is the attempt to interest both the wholesale and retail trade in special selling efforts to push B.C. fruits to the front. Dealers in Alberta and Saskatchewan were circulated to this end, and August 1st to 7th was suggested as a special "Apricot Week" when concerted displays might be used to advantage in bringing B.C. fruit to the notice of the consumer.

Writing personally to the Review from Calgary in regard to his campaign Mr. Smith says:

"Great interest is being taken in the possibility of putting up fruit without sugar, and if we can succeed in getting this idea properly started, it will mean much to us, as sales are being retarded all over the country by the high price of sugar.

"My various competitions are exciting much interest among housewives, and I believe that the competition features add 100 per cent. to the advertising value of the newspaper spaces.

"My special idea in writing you in this way is to gain the support of your paper in securing for me from the growers the fruit that I need for these competitions. I can make good and effective use of from 20 to 30 crates a week, and I know that I shall have no difficulty in getting them if the matter is put to the growers properly. There will be a publicity value of \$10 for every \$1 of fruit used in this way."

We might suggest that this is a matter which might well be brought up at the meeting of Fruit Union members called for Saturday evening of next week in Campbell's Hall, as announced in their regular advertising space.

## Belgian Relief Fund.

The leaders of the Women's Institute have been talking over the advisability of sending jam to the Belgian Relief Fund. They feel that now fruit is so plentiful no one would refuse to spend a little extra time and sugar for so excellent a purpose. Will every one set aside one quart jar of jam, and as soon as arrangements can be made, information as to where to send it for shipment will be given.

Please note that jam is wanted, not bottled fruit, as jam will travel better.

**The Summerland Review**

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.  
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, AUGUST 6, 1915.

**To Inspect And Instruct.**

Dominion Fruit Inspector Clarke, together with Mr B. T. Boies arrived here on Tuesday and have since been busy inspecting shipments. Mr Boies will be permanently located here, he being one of the new appointees to fill the position of inspector and instructor. Fruit Commissioner Johnson is of the opinion that it is more practical to instruct the various packers and shippers during the fruit season than at packing schools during the winter. Mr Boies comes therefore, to instruct and assist in raising the standard of pack.

Mrs Lipssett went over to Naramata on Tuesday where she gave the Women's Institute there an address on Parliamentary Law.

Harry Darke, a long time resident has removed to New Westminster, going over the K.V.R. on Thursday morning.

**Here In The Early Days.**

Mr James Barnett, recently of Nelson, and now in training at the Vernon camp, has been for the past few days a guest at the home of Mr J. M. Sutherland. Mr Barnett will be remembered by old timers, as for about a year he was manager for the Summerland Development Company, and superintended the laying out of a number of the orchards of this district. Mr Barnett came here from Australia, where he had a long experience in fruit growing. Of late years he has been on a ranch of his own near Nelson. He will leave here in a few days for Nelson before returning to camp.

Clarence Phinney, now secretary to the manager of the provincial office of the Royal Bank of Canada, is spending his vacation with his parents here. He came in on Monday night from Nelson where he had been relieving.

**CREDITORS' MEETING.**  
(Continued from page 1.)

Kelley informed the meeting that this claim had been reduced to \$1,000 by the mortgagee. The records, according to this report showed that the voting of \$5,000 worth of shares had later been expunged. The committee further reported that the business had come to an early death through bad business management. Other claims mentioned included \$1,200 due the Bank of Montreal, and secured by a lien on the manufactured product now consigned to a broker, and also some monies, about \$2,800, received from England, supposed to be for capital shares but of which there was little record other than of its receipt. The creditors present being largely fruit growers who had sold fruit to the company, the possibility of carrying on the business naturally came up for consideration. It was the general opinion that the jam business here offered great possibilities and several advised that an effort be made to reorganize if a satisfactory sale could not be concluded. Both Mr Kelley and Mr Logie spoke encouragingly of the possibility of selling the plant intact, and mentioned agents of eastern and British capitalists looking about for such investments.

**YOUNG SOLDIER GIVEN SURPRISE**

Young people from all sections of the district, about forty in number, made merry last Friday evening on the large lawn of Mr and Mrs R. H. English, kindly lent for the occasion. A powerful electric light had been strung overhead, and it illuminated a gay scene. The party was arranged as a surprise in honor of Will Angove, who was to leave the following Tuesday for the Vernon military camp. This object was brought about with the greatest success, the honored soldier remaining in complete ignorance of the why and wherefore of things until he was brought into the midst of the gathering and informed of what it meant. Games of various descriptions kept the crowd hilariously happy for a while, and this was followed by the serving of refreshments, which, needless to say, made a strong appeal to the young people. Attention was then given to music, and an extensive repertoire of topical and popular songs was sung with gusto. Before the party broke up, C. A. McWilliams made a few remarks voicing the general regretful feelings of his friends at the departure of one of their number who always had a strong interest in all lines of youth-

ful activities, sport and otherwise, but there was also, it was felt, a feeling of pride that it was the country's need that had called him.

A crew of fifteen men are at work in the woods near Paradise ranch, cutting fir logs for the saw mill at Penticton.

Stirling & Pitcairn's packers entertained the girls of the Union packing house to a moonlight bathing party on Wednesday evening. The water being fine and warm, a very enjoyable time was spent by all.

Miss Ruth Dale left on Thursday morning for Vancouver. She goes to the Coast to take a course in the Provincial Normal School. Accompanying her to Vancouver was Miss Myrtle Ritchie, who will visit for a time with friends in the metropolis.

Mr C. N. Lennard was a north-bound passenger on the "Sicamous" on Wednesday morning. He goes to Saskatchewan to sell fruit, confining his efforts mostly to householders in smaller communities. Tuesday was spent by Mr Lennard gathering and packing magazines, taking them with him on Wednesday for use in the Vernon camp.

**Okanagan Ambulance League.**

Members of the Ambulance League met on Wednesday afternoon of this week in St Stephen's Parish Hall, and the twenty-eight ladies who attended put in a busy afternoon.

The League meets again next Wednesday afternoon at the same place and at the same hour, 2.30. All ladies interested in the work of the League are urged to be present and give their help towards providing comforts for the wounded soldiers.

It will be of interest to the people of Summerland generally to know that the League is bearing the cost of two subscriptions of six months to the Vancouver Province. These papers are sent direct daily to Canadian Hospitals in England, and it can readily be imagined how they supply to many invalid soldiers just what they would appreciate in up-to-date news of their home country.

Miss Winona Steuart and her friend, Miss Olga Tunstall of Armstrong, went up to Vernon on Wednesday where they are visiting with friends. They will return this week-end.

**Corporation of the District of Summerland.**

Notice is hereby given that, in pursuance of the provisions of the "Municipal Act," and of a resolution of the Municipal Council of the Corporation of the District of Summerland, passed on the 16th day of July, 1915, I will, on Tuesday, the 31st day of August, 1915, at the hour of 10 o'clock a.m., at the Municipal Office, West Summerland, B.C., sell at public auction, the lands situate within the said Municipality and hereinafter described, for delinquent taxes and rates, and subsequent taxes and rates in arrears, together with interest, costs and expenses, if the total amount due is not sooner paid.

# OUR NARAMATA SECTION:

Everything of Business and Social Importance  
Transpiring in South Okanagan's Newest Town

## Drying Apricots.

The drying of fruit in a comparatively small way has been inaugurated recently by Mr Walter Morsch. Mr Morsch, after having placed the fruit, previously split open and pitted, on wide trays in tiers one above the other, with ample air spaced divisions, subjects the fruit for some time to sulphur fumes after which the fruit is set out in the sun to dry.

The work is being watched here with interest as if successful, there is by this means another way to dispose of much desirable fruit which might otherwise go to waste.

## The BUSINESS-LIKE FRUIT GROWER

The cry is heard throughout the country that farmers and agriculturists should adopt more business-like methods in their dealings with the trade. This the farmers and fruit growers of British Columbia are doing to a greater extent every year. This year, and for many seasons, a large number of the growers have mailed hundreds of circular letters to their customers on the prairies, giving full particulars about the crop, together with prices. The investment made by the growers in having this advertising literature printed has returned many dollars in profits which otherwise would not have been gathered in by the grower. Every printing office in the province is a seller of this kind of advertising, and those who would be leaders in their own particular lines would do well to consult the manager of the neighboring shop and have him outline an advertising scheme. The success which has attended the Chilliwack Producers' Exchange is attributed to a large extent to this method of securing business from a distance.—Province.

"ROUGH ON RATS" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

## SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.  
N.B.—Unauthorized publication of this advertisement will not be paid for.

## Current Events — OF — Town & District.

Miss Edna Noyes and Miss Alma Price paid Pentiction a few hours' visit on Wednesday.

Mr Henry R. Hall, manager of the Naramata Supply Co., has removed to the Scaiffe house.

Rev. H. A. Solly of Summerland will conduct Anglican service here next Sunday afternoon.

Mrs McDougall of Peachland spent a few days in town this week as guest of Mrs E. P. Roe.

Messrs J. H. Pushman and A. H. Mulford spent Sunday at Paradise Ranch, guests of Mr Mat. Wilson.

Rev. R. M. Thompson of Pentiction conducted the afternoon service in the church on Sunday, delivering a comprehensive address on love.

Nobody has carried away the crossing near the wharf, but many people would like to see this objectionable piece of firewood "disappear."

Another recruit from Naramata, Mr Morgan, better known locally as "Hop-a-long," went up the lake to Vernon, where he joined the 11th C.M.R.

Mrs M. M. Allen reports five successes in recent shipments of ripe apricots as far as Winnipeg, where the fruit attracted considerable attention.

Master Harry Roe went up to Peachland on Wednesday, accompanied by Mrs McDougall of Pentiction to put in a short holiday at his aunt's home.

The local W.C.T.U. entertained the Summerland W.C.T.U. ladies this afternoon on the lakeshore, afterwards the visitors held their regular monthly meeting in the church basement.

Mr J. H. Loudon of Calgary, who, with his son, Hibbert, has been spending several months on his fruit orchard, reports having found the market in his city really good for the fruit so far shipped in for sale.

The newly appointed principal for the school, Mr Rayner, is expected to reach Naramata some time next week. Mr Rayner, who is a Bachelor of Science, and with experience in Canada and England, will, it is hoped, meet the requirements of our community.

The School Board have their worries in common with other people. Just when both appointments on the teaching staff were settled, word was received from Vancouver that owing to family matters the junior teacher would not be able to come. An effort is being made to obtain the next choice for the position.

Dr Will Robinson in a recent letter to his folks speaks of a recent visit he made through the Niagara fruit belt. The doctor is no hot air artist, and when he speaks people are not apt to throw off any discount. He says that he was really disappointed, having heard so much about that Eastern "Garden of Canada," and that there is nothing anywhere that can compare with the Okanagan.

Officials of vast transportation companies such as operate in the Okanagan are not supposed to take even a minute off to go swimming, while on duty. But people sometimes do the opposite of what is expected, as did the truckman on the "Sleamous," who on making a spring for the wharf on Monday morning slipped and went "kerchunk" into the water. The swim was a short one, as ready hands on both wharf and boat reached down and drew the surprised young man to safety.

## Fruit Growers!

Try consigning your Fruits to  
**JOHN NICHOLLS,**  
CITY MARKET, VANCOUVER,  
and 118 WATER STREET,  
Late Market Salesman for City.

Being wholesaler and retailer can make you best of prices.  
Account Sales and cheque weekly or soon as goods sold.

## Naramata Current Events (Continued).

Mr and Mrs Geo. Cook spent the week-end in town as guests of Mr and Mrs Wolstencroft.

Miss Orca Williams and her brother Gerard spent a few days visiting friends up the lake, returning on Wednesday.

Mrs E. P. Roe journeyed to Peachland on Sunday with her son, F. L. Roe of the Pentiction Herald staff, returning on Monday evening.

Mr H. T. Davies has received word that his carload of cattle will reach here on Monday night, and that the car will be unloaded at Pentiction.

Mrs Hy. Price and her two daughters, Miss Alma and Thelma, purpose leaving next Wednesday for their Calgary home after a holiday here with Mrs. Price's parents.

A trio of young Calgary business men were in here over Sunday, Messrs Morrison, Hannah, and Osbourne. While here they were fully persuaded that Naramata is deserving of a place on the map, and that the Naramata people are a hospitable bunch and that Naramata peaches hit the right spot. Come again, boys.

## Women's Institute Meeting.

The Women's Institute met on Tuesday evening at the Club Rooms. A large number of ladies were present to hear the papers and discussions thereon. Two papers on poultry keeping were contributed by ladies having a really practical knowledge of the subject. Mrs Harry Mulford's paper dealt with the subject more from the beginner's standpoint and was full of good advice as to how to proceed. It dealt with such items as the selection of standard fowl, the style of buildings or coops, etc., and was altogether just the kind of information that every beginner needs.

Mrs Fred Young's excellent paper was along the line of feeding and care of the fowl once one has made the start in the business.

The paper by Mrs Myers on current events showed that at least one woman in Naramata has been able to keep within calling distance of the newsagent. The paper gave in outline the news of the world in condensed form.

Miss Margaret Gordon read a timely paper dealing with hygiene in the home.

A special feature of the evening was the presence of Mrs R. C. Lipsett, who dealt with the subject of parliamentary rules and modes of procedure.

The next meeting will be in September.

Mrs Carroll Aikins, secretary, reported having received word from Ottawa that the jam now prepared for the Belgians will be carried free to point of destination.

## Curing Alfalfa In Mid-Air.

Driving recently through the County of Lincoln in Ontario the writer happened to notice a field of curing hay put up in an exceptionally peculiar style. The stacks were not unlike those to be seen scattered over the marshes on the Bay of Fundy, yet they were smaller in size and consequently more numerous. They were elevated, however, as though to avoid floods, but in this conclusion we were wrong, for it is the way in which Otto Herold, of Lincoln County, cures his alfalfa even on the high uplands. Mr Herold informed us that the method is practiced in parts of the State of Illinois, in Ireland, and in Germany, and although a little preparation is necessary before cutting, after the alfalfa is thus handled, it is proof against injury during unsettled or rainy weather. In his advocacy of this system Mr Herold laid particular emphasis upon the way the leaves will cling

Final Return Limit, August 25th.

H. W. BRONIE, G. M. ROSS,  
G.P.A. Vancouver, Agent, Summerland

**Passing Events: Social, Personal, &c.**

Mr and Miss Boggs of Penticton  
and Mr Cooper, guests of Mr G. J.  
C. White, together with Edmund  
Sawyer are camping at Osprey Lake.

Union services between the Bap-  
tists and Presbyterians will be held  
next Sunday in St Andrew's Church  
morning and evening. Rev. N.  
McNaughton will conduct both ser-  
vices.

Mrs G. Lloyd McWilliams will  
receive for the first time since her  
marriage next Wednesday after-  
noon, August 11, from three to six.  
Her mother, Mrs E. W. Bateman  
of Vancouver, will receive with her.

On the verandah of her home, so  
admirably adapted for such a pur-  
pose on account of the prettiness of  
its surroundings, about twenty  
guests were entertained to after-  
noon tea last Friday afternoon by  
Mrs R. M. Ross, and a most enjoy-  
able afternoon was the experience  
of the ladies. The tea was to the  
joint honor of Miss Gladys Limmer,  
and Mrs J. Duguid with her  
sister, Miss Marion Hadley, who  
have been visitors to Summerland.

Principal and Mrs Everton and  
family left on Tuesday for Vancou-  
ver where Mr Everton will be busy  
for the month in the interests of  
Okanagan College. A large num-  
ber of friends took advantage of the  
reception at the home of Mr and  
Mrs Jas. Ritchie to extend their  
best wishes to the departing prin-  
cipal and his wife. After a pleasant  
informal intercourse, addresses  
were given by Dr E. W. Sawyer,  
the first Principal of Okanagan Col-  
lege, and Rev. N. McNaughton.  
Both speakers complimented Prin-  
cipal Everton on his splendid work,  
and expressed the hope that he  
would soon return to re-open the  
institution on the hill. Early in  
October Mr and Mrs Everton and  
family will remove to Chicago,  
where Mr Everton purposes taking  
a post-graduate course.

Going west, J. L. Logie was a  
passenger on the K.V.R. train on  
Thursday morning.

Mrs M. M. Robinson went down  
to the Coast on Wednesday for a  
visit with her daughter Mrs Mc  
Kechnie, Vancouver.

The ladies of St Stephen's Wom-  
en's Auxiliary are planning to  
hold a lawn social and supper at  
the Parish Hall on Thursday even-  
ing, August 19th.

Methodist services will be held  
in the Methodist Church on Sunday  
next at 10.30 a.m. and 7 p.m. to be  
conducted by Rev. R. W. Lee. A  
hearty invitation is extended to all.

Dr Jackson's regular monthly  
visit to Summerland is unavoidably  
postponed for one week this month.  
Dr Jackson will be in Summerland  
on Tuesday, August 17, instead of  
the 10th.

Alfred McLachlan is now seen at  
the steering wheel of the Supply  
Company's auto delivery, succeed-  
ing Will Angove who has joined the  
ranks. Mr McLachlan is renewing  
the automobile experience of his  
Ontario days.

Miss Snider, a member of the  
public school staff at the Coast,  
reached here on Wednesday after-  
noon over the K.V.R., on a visit  
to her parents. Mr and Mrs S. B.  
Snider. Since school closing Miss  
Snider has been attending the sum-  
mer school for teachers held at Victo-  
ria.

On Friday of last week the  
steamer "Sicamous" carried on its  
north bound trip more fruit than  
was ever carried before by the  
C.P.R. steamers on this lake in any  
one day. There was put off at the  
Landing and stored into cars there  
no less than 3,500 packages of  
fruit, half of which was going out  
by express.

The ceremony of opening and  
blessing the new Catholic Church  
at Penticton will be held next Sun-  
day, August 8th, at 10.30 a.m.  
His Grace, Archbishop Casey, D.D.  
of Vancouver, will officiate. This  
handsome building, which has been  
erected by McDougall & Gough,  
contractors, is the finest church  
building in the neighboring town.

**FOR SALE.**

**JOHN S. RITCHIE,**  
Harness Maker  
West Summerland.

A buggy wheel cap, picked up by  
Inspector Randall, awaits the owner  
at the Review Office.

Father Le Chesne arrived from  
Penticton on the ferry boat on  
Monday afternoon and said Mass on  
Tuesday morning at Mrs Carter's,  
with a fair number of Catholics  
present.

The patriotic service held last  
Sunday evening in St Stephen's  
Church under the joint leadership  
of Revs. H. A. Solly and R. W.  
Lee was largely attended. The ser-  
vice was a most impressive one.

Rev. G. O. Fallis, until recently  
pastor of the Kamloops Methodist  
Church, and well-known both in  
Summerland and Naramata, has  
joined the Canadian Expeditionary  
Forces as chaplain of a Kamloops  
regiment, now in training.

Since his arrival in the Valley  
Mr F. W. Rolt, the purchaser of  
the Niblock orchards at Naramata,  
has been a guest of Hotel Summer-  
land. He is making this hotel his  
headquarters till the repairs and  
improvements on the dwelling on  
this newly-acquired property is  
completed.

Good news has been received by  
his relatives from R. V. Agur, now  
in Mayo Brothers' Hospital, Ro-  
chester, Minn. Those famous spe-  
cialists have performed a successful  
operation on Mr Agur, and it is  
confidently expected that he will  
make an early and complete recov-  
ery.

Following up a request of mem-  
bers made at a meeting held last  
spring the Fruit Union will hold  
periodical shareholders' meetings  
for the purpose of discussing any  
matters relating to the marketing  
of fruit. As announced in the Un-  
ion's regular advertising space,  
such a meeting will be held in  
Campbell's Hall on Saturday even-  
ing, the 14th instant.

Terminating on Wednesday a  
pleasant visit of some weeks in  
Summerland at the home of Mrs S.  
Angove, their aunt, Mrs J. Duguid  
with her two children, and her  
sister, Miss Marion Hadley, board-  
ed the "Sicamous" that evening  
for Penticton. They travelled on  
to Nelson, B.C., over the K.V.R.  
the following day, where they will  
visit with another sister for a time.

Rev. R. W. Lee, who attended a  
session of the Okanagan District  
meeting of the Methodist Church,  
reports the financial situation sur-  
prisingly good, considering condi-  
tions generally. The requests for  
aid from the assisted churches of  
the district total \$750 less than  
last year. Mr Lee went up to  
Armstrong, where the church re-  
presentatives gathered on Tuesday,  
returning on Wednesday, and visit-  
ing the Vernon camp on the way  
home.

After spending a month of his  
vacation at Edgewood, on Lower  
Arrow Lake, J. C. Robson, prin-  
cipal of the Rossland Public School,  
reached Summerland by quite an  
unusual route. With a young man  
who wished to enlist, Mr Robson  
set out on foot from Edgewood,  
reaching Lumby the second day,  
and drove to Vernon that evening,  
Tuesday of last week. The Vernon  
camp was visited before continu-  
ing the journey to Summerland.  
Mr Robson is visiting at the home  
of his daughter, Mrs E. R. Butler.

On his way to Vernon to take up  
his duties with the Army Medical  
Corps, into which he has enlisted,  
Will Angove was a passenger up  
the lake on Tuesday morning on  
the "Sicamous." The number of  
friends who were on the wharf to  
wish him God-speed made it evi-  
dent that he left behind in his home  
town a good many who hold him  
in high opinion. On Mon-  
day evening he was presented by  
Rev. R. W. Lee, on behalf of the  
following members of his Sunday  
School class at the Methodist Sun-  
day School in which he held the  
office of librarian, with a beauti-  
fully bound pocket Bible as a fare-  
well gift.

**Distinguished Party on  
Private Car.**

Attached to the eastbound K.V.R.  
train on Wednesday was the private  
car "Nanosee." On board were  
Mr R. Marpole, C.P.R. executive  
assistant for B.C., and president of  
the E. & N. Railway, Vancouver  
Island, Sir Charles Hibbert Tupper  
and a number of C.P.R. officials,  
including right-of-way agent E. W.  
Bateman, well-known here. The  
party are on a sight-seeing tour,  
going east as far as Nelson, and  
returning, going up the lake on  
Saturday.

A late letter for publication  
received from Mr T. J. McAlpine  
has been unavoidably held over till  
next issue.

Mr and Mrs Darkis, accompanied  
by their son and daughter and  
Clarence Eley, motored to Kale-  
den last Sunday, returning the same  
evening.

Mrs Kirby, wife of Captain Kir-  
by, ss. "Sicamous," returned to  
Penticton on Tuesday night after  
a visit of a few days to Mrs Mar-  
shall at the Hotel Summerland.

Since he went down to the Coast  
some weeks ago, it is stated that  
Mr G. W. McLaren has gained 9  
pounds in weight. It will be re-  
membered that Mr McLaren suffered  
a serious illness during the past win-  
ter.

**A Car of Heifers.**

A car of cattle is due to arrive at  
Paradise Ranch within the next few  
days, according to Rev. C. H. Daly  
who was a recent guest of the gen-  
eral proprietor, Mr Matt. Wilson.  
Some forty head of Heifers purchas-  
ed at Rockland, near Ottawa, are  
now on the way. They are of sev-  
eral breeds, Shorthorn, Holstein  
and Ayrshire. The car of cattle,  
the first to come over the Crow's  
Nest and K.V.R., will be unloaded  
at Glenfir Station, just at the  
switchback near Chute Creek, and  
about two and a half miles from  
Mr Wilson's ranch. The cattle  
have been secured through the ag-  
ency of H. T. Davies of Naramata.

With all new material on the  
ground, preparations are being  
made for the building of a new  
house on Rev. J. M. Harrison's lot.

Dr F. W. Andrew has received an  
appointment to No. 1 Field Ambu-  
lance Depot C.E.F. at Vernon. His  
appointment was confirmed by tele-  
gram with a request that he report  
at an early date. The doctor has  
not yet accepted.

Some of our fruit growers are  
finding a market at various points  
along the K.V.R. both west and  
east, and small daily shipments are  
being made from the Peach Valley  
station. Express shipments are al-  
so going south by the steamer "Sic-  
amous," to be sent east over the  
K.V.R.

**We Eat to Live**

To get the best out of

## Newsy Paragraphs

from

## PEACHLAND

Reeve Morrison was a passenger out to the Coast last Thursday morning for a short visit.

On her way to join her husband at San Francisco, Mrs. W. A. Lang boarded the "Sicamous" on Thursday morning last week.

Arriving on Tuesday evening this week Mr. Blammerhasset is paying his Peachland fruit property one of his periodical visits.

Visitors to Vernon on Wednesday this week to take in the celebration organized between the city and the military camp, were Messrs Somerville and Grant Lang.

A sad errand called Mr. A. Town to Kelowna last Thursday, where he attended the funeral of a friend, Mr. Wm. Hewlett who passed away in the Kelowna Hospital.

Another establishment is now open to receive fruit for packing and marketing, a branch of Messrs Rowcliff's of Kelowna having opened here this week, with A. D. Ferguson in charge.

Some of the Peachland school teachers returned at the beginning of the week from attending the Government Summer Schools at Victoria. Among them were Miss Gummow, Miss Elliott and Miss Minnie Smith.

A recent visitor to our town from Summerland has been Miss Evelyn Brown, who has been spending a short time with Mrs. J. B. Robinson. In the Methodist Church last Sunday night Miss Brown rendered very beautifully a solo, "Just For To-day."

Miss Campbell, one of the missionaries connected with the Kinaird Hospital at Lucknow, India, was a welcome and interesting visitor to Peachland for a short time at the end of last week. Two meetings were held in connection with her missionary work, one in the Methodist Church, and the other at the home of Mrs. Lang.

Arrangements have been made to lend the Peachland war canoe to Kelowna for use at the orchard city's regatta this month. While we are sorry that there is not the use for the canoe in our town that there used to be at one time, yet we see it go gladly if it will help to make good sport at Kelowna. Here's hoping for the days when Peachland will need it back again!

Revs. C. H. Daly and H. G. Estabrook came up from Summerland last Sunday morning to conduct service here. About five miles out of Summerland they encountered evidences of the severe storm that struck the district the previous evening. Quantities of mud had been washed down gulleys and gulches, and even some trees were laid low by the storm. It is said that damage to the extent of about \$500 occurred at the Greta ranch, from the total loss of a good many tomato plants. The storm seemed to have spent its violence about midway between Peachland and Summerland. It was found necessary to send out a road gang to clear the road.

Given good weather, Sunday School picnics are usually productive of a good time for everybody. For its annual outing on Thursday of last week, the Baptist Sunday School had a good picnic day, and in the large crowd who put in an attendance it is safe to say that there was not one who did not put in a few hours of unqualified enjoyment. In the early afternoon the crowd began to assemble at the chosen grounds, at the mouth of Deep Creek, and till supper time boating, bathing and wading were extensively indulged in, and the younger children were set to racing, providing lots of fun. After the first detachment had been given a tea in the open air, they were taken out on the lake for a launch cruise while the older folks enjoyed their meal. Just about dusk people turned homewards, feeling that the picnic had been a certain success.

### BRITISH COLUMBIA APPLES.

Canadian Trade Commissioner W. A. Baddoe for New Zealand, reports that British Columbia apples are now in favor in that Dominion since more attention has been paid to the wishes of importers with regard to coloring and packing. Large orders would be given if they could be filled, he says.

# NO SUGAR

We have received the following Fruit Preserving Recipe from a reliable source, and reprint same for the benefit of those of our customers who may have decided to curtail the making of preserves this season on account of the high market price of sugar.

## Our Motive

in publishing it, is to encourage bottling fruit, and suggesting that the money usually expended in sugar be used for what might be termed

# Absolute Necessities.

Sugar will eventually have to be used in preparing the fruit for the table, but much less will be required to sweeten to taste.

Authorities all agree that fruit put up without sugar retains its delicate and distinctive flavor.

To put up fruits without sugar, simply prepare them in the ordinary way; see that the jars are perfectly clean, thoroughly scalded with boiling water, filled to the top and left in them a considerable time; boil the rubbers and covers, and see that the rubbers are soft and free from grooves or cracks, place the fruit in the jars, fill with cold water, place them in a boiler filled with cold water, heat to the boiling point. Berries will do if removed when the boiling point is reached. Large fruits, such as peaches, pears, plums, cherries, and the like should get 20 to 30 minutes boiling.

A board should be placed in the bottom of the boiler to keep the jars from the direct heat of the stove. Fruit thus prepared will be found excellent for pies, delicious for eating with cream, and generally superior to the sugar-syrup preserves. In properly air-tight jars they will also keep quite as long.

We carry in stock "Perfect Seal" and "Economy" Jars.

**The Summerland Supply Co., Ltd.**

# WANTED:

## Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

## Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

## Burned to the Ground.

Home of Wallace and Walter Wright goes up in smoke on Wednesday.

Fell work by the fire fiend caused a good deal of excitement in the late afternoon of Wednesday, this week and the few charred and blackened sticks that remained after an hour or so, showed how completely flames had brought about the destruction of the house of Wallace Wright on his orchard.

Like many another fire, its origin remains a mystery, and at best can only be conjectured. While the Wright brothers were having supper about six o'clock in the front of the house, a noise was heard at the rear, but this was thought at first to be perhaps a rig entering the yard. A little later, however, on going to investigate, Walter Wright was startled to see flames in the kitchen. He got pails of water into action immediately and quenched the lower part of the flames, but higher up, out of reach, had caught by that time. Efforts with hosepipe were seen to be futile, and energies were then directed to saving as much of the contents of the house as possible.

By this time there was a large crowd of men at hand to help in whatever way was possible. News of the fire had spread quickly, the fire alarm bell was rung, and many men on their way home after a day's work were able to hurry quickly to the scene of the conflagration. The men were successful in getting some of the furniture and household goods out of the burning building, but amongst the articles destroyed was a handsome, large piano, despite the strenuous efforts of a handful of helpers to get it outside.

It took little time for the flames to do their work. The house burned like dry tinder, and after the fire had reached its height, it took only a very short time to die down again, although embers smouldered for some hours. While the fire was raging a bucket line from an irrigation ditch was formed by the men, and efforts put forth to save the nearby buildings were fortunately successful.

The Wright Brothers feel greatly indebted to the men who worked so hard in this way, and being unable to personally thank all who helped, desire to have their gratitude known in this way. Had there not been so much help at hand, it is certain that the loss would have been a great deal heavier. Insurance carried amounts to about \$1,800, but this does not represent the full loss to the owner of house and contents.

They spent the night at the homes of neighbors, and it speaks a good deal for their determination and courage to learn that the ranch will be carried on as usual, and business will suffer little interruption. Crops in the vicinity of the

## THE HOSPITAL.

Month's Donations From Helping Friends.

White—Beets, green peas, apricots, green beans, and magazines; Mrs A. Britten—Black currants; Miss Phinney—Flowers, peaches; Mrs A. E. Traylor—Raspberries; Mr Noel Higgin—Cherries; Mr Milligan—Cabbage cauliflower, tomatoes; Mrs Hayes—Flowers; Mrs Arnett—Raspberries, carrots, lettuce, parsley, savory; Mrs Conway—Raspberries, lettuce, and flowers; Mr Hanington—Potatoes; Mrs Sculthorpe—Old linen and books; Mrs Harwood—Potatoes and cabbage; No Name—Sweet peas; No Name—Flowers; Mrs Sawyer—Cherries; Mrs Shields—Raspberries, lettuce; Dr Goldsmith—Cherries; Mrs Rines—Carrots, beets, and onions; Mrs Verity—Blackberries; Aitchison Ranch—Potatoes and raspberries; Mrs W. J. Robinson—Tomatoes; Mrs E. B. May—Apples; Mrs F. A. Williams—Jelly; Mr H. Walton—Cauliflower; Mrs M. Tait—Cabbage and vegetable marrow; Mrs R. Atkinson—Beets, vegetable marrow; Mrs E. E. Simpson—Cake and canned fruit; Mrs A. B. Williams—Eggs and canned fruit.

The staff and patients greatly appreciate the flowers left on the front porch early one morning.

## More Jam For The Soldiers.

The Secretary of the West Summerland Women's Institute has asked the Review to inform the members of that organization that the Institute has undertaken to provide jam for our soldiers, and asked that the members put up what they can for this purpose. Later the Institute will attend to the collecting and shipping of same.

Both our Institutes have now undertaken this commendable work, but we note that in both cases glass jars have been specified. May the Review humbly suggest that the use of tins instead of the much more expensive and heavier glass jars be considered. In any event the vessel is likely to be a waste. We believe that there is a large quantity of tins right here in the community to be had in any quantity desired, and that Mr O. Vaughan has the selling of them. If considered advisable each Institute, or the two co-operating, could no doubt obtain the necessary quantity at a very favorable price.

house suffered more or less from scorching, but fortunately the glass house came through the heat without damage.

## Electrical Engineer For Lighting Plant

Council Has a Busy Day.

Threatened With Suit For Damages.

## Engineer To Superintend Completion Of South Main Contract.

From nine o'clock to five, with a short intermission at noon, when lunch was taken at Hotel Summerland, the Municipal Council were busy transacting the business of the district. Business of a public nature of almost every possible variety came up for consideration and was given its due attention. There were in attendance at some time during the day the usual number of citizens, and beside these the list of communications was also a fairly long one.

Among the latter were a number of requests for rebates of discount on taxes and rates that for good reasons had not been paid before the last day fixed for discount. It was thought best to adhere strictly to the rules pertaining to discounts.

On the 18th instant those lands sold last year for taxes will be irredeemable. The Board was asked on behalf of two young men now serving in the Canadian Expeditionary Forces that they be given an extension of time. The property had been bought in by the Municipality and the request will be granted. Another man for himself and brother, the latter now in the Vernon Camp, was promised the privilege of redeeming their property by four monthly payments of \$55 each, provided the first payment is in before the above date.

The Collector was authorized by motion to withdraw from the tax sale, lands on which the 1913 taxes and costs are paid.

A resident of Upper Trout Creek had written Mr Wm. Young, the controller of water rights, asking of the safety of the enlarged dam at the headwaters of Trout Creek, and if same had been inspected. Since built up the inspector had not visited the dam, but it is being inspected by Government Engineer Norrington this week.

Complaints of the serious interruption of the water service to the Experimental Farm were received from Supt. Helmer and Mr J. H. Grisdale, Director of Experimental Farms. The Clerk had replied to the former explaining that it had been necessary to shut off the water to permit of the completing of the enlarging of the ditch, and now that this had been done no further interruptions were likely. A similar letter will be sent Mr Grisdale.

## WILL STAND SUIT.

Representing T. J. McAlpine, a firm of solicitors asked that the Municipality pay their client damages resulting from the flooding of his cellar. Having at no time acknowledged any responsibility the Council promptly refused to consider the claim, and instructed the Clerk to reply that they were prepared to defend their case if Mr McAlpine wished to enter suit.

J. R. Brown again waited on the Council, asking that a settlement be arrived at with respect to a road at Trout Creek, on his property. After a thorough enquiry the Board on motion of Couns. Borton and Campbell, agreed to pay Mr Brown \$300 for the strip, a little over two acres. His claim for compensation for damage done his orchard by flooding from the bench above was not entertained. The Board will visit the site.

Mrs Campbell will be given a domestic water connection on the high pressure pipe running around Giant's Head, as at present she is without water for days at a time.

After a wait of nine years, according to T. B. Young, G. McLaren is now likely to get a better irrigation service. The flume serving the property is too small, and Mr McLaren had been assured last spring that it would have immediate attention. The fruit was now shrivelling on the trees for want of water.

## ASKS WHY.

Coun. Simpson: It seems to me that we have not gotten around to

a lot of things we should have attended to. Citizens come here and are promised attention. A month later we find them here again. I would like to know if the Superintendent hasn't some system for looking after these things. It is not for the Board of Works to attend to the carrying out of the orders. The Superintendent is paid for that. He won't do any work unless he himself is foreman, no matter how small the job. He ought to have come to the conclusion before now that that won't do. He has men that have been long in the employ of the Municipality. Surely some of them are capable of attending to the smaller jobs.

Coun. Borton endorsed the opinion of Coun. Simpson.

Later in the day the Superintendent explained that he had been instructed last spring to use another flume to replace the small one but he had found it unfit to use. He was now instructed to order the necessary lumber at once. Coun. Campbell said the unfitness of the larger flume should have been reported.

Couns. Simpson and Johnston and Clerk Logie were appointed delegates to the Union of B.C. Municipalities Convention, September 9 and 10, at Chilliwack.

The five acre block directly in front of the Central School was offered the Municipality by Jas. Ritchie for \$3,500. Several of the Councilors thought the price too high, and Mr Ritchie was asked to make it \$3,000, when his offer would be considered. This he thought too low. Coun. Johnston said it would never be gotten so cheaply, and favored buying, as it must be had some time for school purposes. Mr Ritchie's price was \$700 for 5 years, the first payment to apply on his taxes.

The Assessor reported recommending that J. S. Campbell's property be considered as 7 acres for irrigation rates. Reduced accordingly.

G. R. Hookham, declaring himself a free trader, demanded of the Council, as they were imposing a trade license to protect existing industries, that he be given that protection. A farmer can now undertake drayage contracts and hire out his buggy without license, why should he be taxed? The subject was discussed at considerable length, and Mr Hookham was promised that it would be further looked into. In retiring, Mr Hookham asked permission to "enter one great big kick against the condition of the roads since the grader was put on." This provoked a general discussion on the poor results obtained and the methods used to improve the roads.

## A HEALTHY COMMUNITY.

The Medical Health Officer's report received was to the effect that the district is exceptionally free from contagious diseases. There has been only one mild case of typhoid in months.

The pond drained by Mr Hilborn last fall has been the subject of many discussions of late. The outlet then made has filled, and though a similar method was used by the Superintendent the water could not be lowered. A hole 9 feet deep showed 2 feet of water. Piping at a cost of about \$1,000 is believed to be the only effective remedy. Several citizens waited on the Council asking that immediate steps be taken to abate the nuisance, F. G. Barnard being the chief spokesman. More than 100 trees in the orchard under his care had been killed, and the excess of water was reaching the higher ground. Mr Barnard contended that the water was coming from a flume above. He also told the Council that the domestic water pipe running across the property was leaking. This was confirmed by T. J. Garnett who was also present. Mrs Rivington, as did also Mr Barnard, complained of the odor rising from the stagnant

(Continued on page 2).

## AMBULANCE LEAGUE

Will Have Tag Day for B.C. Hospital Needs at the Front.

The Dominion Government has accepted the generous offer of our B.C. physicians and surgeons to establish a base hospital with 1040 beds some where at the front where our own wounded, sick, and maimed soldiers can be properly treated and nursed back to health again. The hospital equipment provided does not cover all the modern surgical apparatus required, and it is proposed to provide extra surgical instruments, X-ray machine with complete attachments, motor ambulances, hot air apparatus, etc., etc. by a public canvass.

In making this purely provincial appeal it is proposed to ask the people of every city, town, and village to contribute their quota. A provincial tag day will be held, and locally this will be under the direction of the Ambulance League, the Municipal Council, and other public bodies co-operating. This subject will be taken up at the regular meeting of the League on Wednesday next at 2:30 in St Stephen's Hall. Put in the care of the ladies the campaign is sure to be a success, but every lady interested, and that must be all, is asked to attend next Wednesday's meeting if at all possible.

## Canners Start Packing Monday.

The Dominion Cannery, Ltd., will start packing on Monday next at their Vernon plant. Mr A. Leitch, who has been in charge of the company's interests since they came into this Valley two years ago, has returned from the east to superintend the season's operations. It is Mr Leitch's purpose to pack apricots and peaches as well as tomatoes. Some apples will also be canned. The stone fruits canned will be obtained from Summerland and Peachland largely, as will also a portion of the tomato pack. The price offered this year for the latter is not such as to tempt the growers, but will no doubt take some of their surplus, \$10 a ton as against \$12 the past two seasons being all that is offered.

## Penticton Wants Better Telephone Connection With Summerland.

At a recent meeting of the Penticton Board of Trade a committee appointed for the purpose of inquiry in its report recommended that a letter be sent the Okanagan Telephone Company calling their attention to the inconvenience caused their patrons by the company's refusal to connect with the Summerland Telephone Company. The committee suggested an arrangement whereby an extra charge of 10 cents be made for giving connection between the two systems. The report stated further, "we believe that the charge made for our telephones is such that it should entitle us to connection anywhere without a charge other than the regular tariff."

## Gets Important Appointment.

Previous Mechanical Experience Brings Post To Capt Roe at British Arsenal.

Capt. P. S. Roe, who some time ago offered his services to the War Office, has received instructions to start at once for England, and leaves to-morrow (Saturday) morning, to sail on the "Corsican" from Montreal, on the 21st. Capt. Roe is a mechanic of considerable experience, having been until coming to this Valley, Mechanical Superintendent of the Royal Mint at Ottawa. It was at the suggestion of the Deputy Minister of Finance with whom he came in frequent contact at the Mint that Capt. Roe sent in his application, and his relations in the past with the government officials has no doubt been the reason for his recommendation for an important position in the British Arsenal at Woolwich. During his absence Capt. Langue-dorc will be with the Okanagan Lake Boat Company.

## Manitoba Goes Liberal.

"You can fool all the people part of the time and part of the people all the time, but you cannot fool all the people all the time." This is the way the result of the Manitoba elections last week-end has been viewed in some quarters. The old Roblin regime was hopelessly buried under an avalanche of popular opinion, and for their misdeeds which two royal commissions have been unearthing, the politicians of the late government have been consigned into obloquy.

Elections were held last Friday in all the constituencies excepting three of the most outlying ridings where the elections have been deferred. Of the remaining forty-six seats, thirty-eight returned Liberals, five Conservatives, and three Independents. The reconstituted "Liberal-Conservative" party did not fare very well, its leader, Sir J. A. M. Aikins, suffering defeat in the erstwhile Tory stronghold of Brandon. Premier Norris thus gets a clear-cut mandate from the people of Manitoba, and with an opposition but of feeble strength, the Liberals should not have much difficulty in putting through their promised program of reform.

With a staff of thirty graders, packers, and handlers preparing and shipping a car of fruit and early vegetables a day there is no busier scene anywhere in the district than the warehouse of A. Steuart & Son. Practically all of this stuff is going to the firm's warehouse at Regina, or to customers in near-by centres. Mr A. Steuart is giving his personal attention to the selling and distributing, covering a considerable area around Regina by motor. Prices of fruits and tomatoes are being well maintained, but that of vegetables is falling rapidly. It is said that every back yard has a crop of vegetables this year as a result of the Patriotism and Production campaign.

## The Apple Outlook Is Promising.

Good Prospects For Local Growers.

Prices Of Other Fruits.

For our local apple growers the outlook is most encouraging, especially for those who give their orchards the attention necessary to produce fruit of the best quality. The total apple crop of the continent is much below the normal, and of the crop that will be harvested the percentage of first quality fruit will be away below the average, due largely to unfavorable weather conditions. Nowhere will the lowering of the grade be more marked than in the northern part of our own Valley, where wet weather has aided in the spread of scab, and considerable damage has been done by hail.

Summerland, Peachland, Naramata and Penticton have wholly escaped, due perhaps to the lighter rainfall and the more sunshine. Number 1 apples are therefore sure to be at a premium and some are advocating the holding of the lot for fruit for highest prices.

It will be difficult to secure all the No. 1 apples required to fill the

contracts for export trade to South Africa and Australia this fall, as the Valley's percentage of first-class fruit will not run as high this year as in former seasons.

The executive of the United Growers take a very cheerful view of the fruit situation. They have orders for 40 cars ahead, and cannot rush out shipments fast enough to supply the demand. So far results have been fairly satisfactory, prices for soft fruits being very much better than those obtained last season. Apricots have brought about 2 cents per lb. and are in good demand both on the prairie and at the Coast. Early apples have notted the grower about 2 cents, and the market for crabs is opening up well.

The vegetable market is not as satisfactory as that for fruit; but on the whole, the producer stands a good chance of receiving returns very much in excess of those obtained last season.

### PROTESTANT CO-OPERATION.

THE BROAD PRINCIPLE of co-operation is coming to be recognized in many branches of activity. It has been worked out most thoroughly in commercial enterprises, but it is applicable no less to undertakings and organizations of a non-commercial nature. The logic of co-operation's slogan, "Unity is strength" is too sound to be gainsaid, and where a movement directed by this spirit falls down, it is no weakness of the co-operative idea that is responsible, but imperfection in the machinery for working it out.

The Okanagan has one example of the work-together spirit now engaged in trying to reach a solution of problems that are vital to the fruit growers' existence. Summerland has brought about another example of co-operation in an entirely different sphere that is still interesting and noteworthy, though on a smaller scale. We refer to the decision of two of the local church bodies who have been worshipping in union services for the last three or four weeks. Mercenary considerations may or may not have been directly responsible for the union, but it is certain that the arrangement can accomplish unlimited good in broadening the outlook that denominationalism unconsciously tends to limit—always provided that it is entered into in the proper spirit. Our sister towns of Peachland and Naramata enjoy a measure of co-operation among the adherents of certain religious bodies and though in neither case all-inclusive, it is satisfactory as far as it goes.

"For two centuries," says the Canadian Courier, "the Protestant Church kept breaking off into sects—Presbyterians, Methodists, Congregationalists, and so on through a long list. A small Protestant population, scattered over a wide area finds this division into sects expensive and unsatisfactory. Now, so far as Canada is concerned, there is a movement towards re-union.

The Methodist Church, through its General Conference, has approved of the idea of co-operation. The Presbyterian Assembly recently affirmed the basis of union, and referred it to its people for a plebiscite. The Congregationalists have re-affirmed their approval. In a short time there will be a national Protestant Church organization.

The economic effect of the approaching union is apparent, but what of the spiritual effect? Will it give a new impulse to Christian work in these Protestant bodies? Will there be greater vision and greater consecration? Most people will answer in the affirmative, and it is well to note that one result of the war is to deepen the spirituality of the people generally, because it is clear that material progress is not to be compared in importance, nationally or internationally, with spiritual progress.

"The new idea of 'the Kingdom of God on Earth' is being much discussed everywhere, and no doubt the minimizing of sectarian differences by Church Union, as proposed, will help to spread that idea in Canada. Christian influences in private life have been emphasized already, but what religious reformers desire is more emphasis on Christian principles and influences in business and politics."

### THE STRONGEST KIND OF ARGUMENT.

OUR SPIRIT of easy-going satisfaction must give way, and in its place must come resolute and thorough-going determination. We must be ready to make sacrifices, to pay the price for thoroughness and efficiency. And in this connection it might not be out of place to quote from a letter received by a gentleman in Victoria, B.C., from his son, who is with the medical corps at the front in Flanders:

"And let me say in all seriousness that the poor fellows who have soddened themselves with alcohol haven't an earthly chance of recovering from the ghastly wounds caused by shrapnel; even the fellows who have been fairly temperate have a far harder fight for recovery as against abstainers. I don't know what you're doing in Canada about the drink business, but if you have any influence, for God's sake use it to suppress the cursed liquor traffic during the war. It's efficiency, efficiency all the way, and how can men be efficient if they let their systems down by the use of liquor? Let me tell you that the government did a criminal thing in allowing the liquor interests to send that rum into the trenches. Fellows who got badly frostbitten where mostly those who consumed most rum, and besides it intensified the sufferings of others; and there were some weak young fellows who imbibed that hadn't touched liquor before, naturally to their undoing. The medical superintendent did his utmost to prevent the stuff coming through to the firing line, and even the commanding officers were reluctant, for, taking them altogether, the officers are abstemious, whatever they were in the South African war. And we cannot understand how Kitchener permitted that quantity to come through to the troops. King George's example has told its tale with the men, and if Lloyd George is the man you've always told us, he surely will close down the liquor houses, for if we're to win this war our soldiers must be deprived of the power to get drunk. It may seem hard to meddle with the personal liberty of a man, but, as Carlyle said, there is no greater slave than the man who is subject to his appetite."

WHEN YOU PULL DOWN THE TOWN in which is your home, you are pulling down yourself, and when you build up you are building up yourself and your neighbor. Try and banish from your mind the mistaken idea that all good things are away off in some other locality. Give your town all the praise it can legitimately bear. It certainly will do you no harm, and will cost you nothing; and above all patronize your home institutions—including the printing office.

### COUNCIL MEETING.

[Continued from Page 4.]

water. The outcome of the discussion on this subject was the decision to take up with the proposal of Mr. Logie that the place be drained by pipe the expense to be borne co-operatively under the local improvement plan, the Council to bear half the cost and the lots benefitted the other half.

Mrs. Rivington complained that a year ago the Council had promised to take up several hundred feet of half inch pipe which she laid, and to pay her for the same. This had not been done. Coun. Simpson was confident that this had all been arranged even to the price, a year ago, and an order issued that the pipe be uncovered in places and separated into sections and drawn out. A fresh order was given that this be done at once.

### ELECTRICAL ENGINEER.

An application received from an electrician for the position of municipal electrical engineer revived this much discussed question. Coun. Borton declared that it was about time that an electrician was put in charge of the plant. The Reeve admitted that there were times when an electrician was needed, and thought that it might be better that a man with electrical training be in charge, intimating that the Superintendent would like to be relieved of that responsibility. Couns. Simpson and Borton proposed placing an advertisement for applications in the Review and Vancouver Daily Province. This was supported by motion.

Coun. Borton asked why a hydrant on Shaughnessy Avenue was allowed to remain out of commission for months. He could not believe that it took three or four months to get the necessary repair parts. The Reeve in replying explained that the matter had been overlooked by the Superintendent, but the necessary parts were now on order.

### THE SOUTH MAIN.

An engineer, preferably Mr. Latimer, is to be engaged to superintend the completing of the contract for the lining of the south main ditch. While the Reeve favored the work being completed by the Council, and Coun. Simpson thought that such had been decided on, Coun. Johnston strongly favored giving the contractor the chance to finish the job according to specifications, if he so desired. The proposal of Coun. Simpson that the engineer go over the work and draw up supplementary specifications showing just what was needed to have the job comply with specifications of the contract, was approved, as was also the recommendation that the work be all completed this fall.

Coun. Simpson reported the continued shortage of water at his and Mr. Huddleston's ranch adjoining, and suggested that an engineer go over the pipe supplying Jones Flat and equalize the supply. In the meantime a larger connection will be put in to supply these lots. The Council decided by motion to make a charge of 50 cents for turn-

### Peachland Notes

[Other Peachland news on page 6.]

Howard Morrison and Will Dryden have gone up to Vernon for the purpose of enlisting.

The local Fruit Union made its first shipment of export apples for this season on Wednesday the 11th. The fruit was destined for South Africa.

Mrs. Seaton in response to a telegram from her brother, J. Robinson of Vancouver, telling of the illness of his wife, left on Friday for that city.

Arthur Henderson having successfully passed the medical test is likely soon to go into training in the Vernon camp. A number of others of our boys are contemplating enlisting later in the season.

Mrs. A. Town entertained a number of friends on Friday last. The early part of the afternoon was spent in bathing, after which the party repaired to the lawn where Mrs. Town, in her usual hospitable manner, served a dainty afternoon tea.

A number of friends of Mr. I. Sutherland were entertained by him on Friday last. Some of the friends from the upper benches were taken up to the new townsite in Mr. Sutherland's motor boat. Both boating and bathing were greatly enjoyed.

That Ontario's apple crop this year will not average much more than one-fifth of the normal production is the opinion of one of the provincial fruit inspectors, who is on a trip of inspection. The late heavy frosts he assigned as the cause of the falling off. The quality also, he declared, would be very poor.

# We Eat to Live

To get the best out of the human machine you must have the best groceries—food that is not only pure and absolutely wholesome but which gives zest to meals by its goodness.

Groceries like we carry not only give your body all the necessary energy for your daily work, but make eating all that it should be—perfect enjoyment. If, after your coming meal, you find anything wrong, make a resolution to try us next time. One trial is all we ask.

### Union Jacks in Canada

In other countries on days of rejoicing or National Anniversaries flags are unfurled from almost every housetop or window. Canadians are just as loyal, but unfortunately they find themselves short of flags. In almost every place in Canada there is a movement on foot now to see that the Old Flag is floating from every Canadian home. The newspapers have been asked to assist in the distribution.

The Review has agreed to undertake the distribution in this district, and our readers can secure a real good Union Jack, in fast colors, size 5 x 3, for only

== \$1.10 ==

At this price there is no reason why every home in the district should not have a Union Jack floating on all occasions in future.

## LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

**HAS NOT BEEN ANSWERED,  
SAYS MR McALPINE.**

Summerland, B.C.,  
August 5th, 1915.

The Editor, Summerland Review.

Dear Sir,

I have read Mr Johnston's letter of the 30th in which he attempts to make reply to my letter of the 22nd. He appears to have made a dismal failure of it.

To quote from my previous letter: "Mr Johnston is first and last a prairie farmer, and it is unreasonable to expect him to lay aside the plow and without experience to assume the responsibility of the office of Chairman of the Board of Works." Mr Johnston would have us think that he interprets this as an attack on the prairie farmer and makes a rather lame appeal for sympathy for himself. Considering that the farmers of the West are the backbone of the country, their position is above any question. They hardly need Mr Johnston to champion their cause. He needs to

look nearer home to appreciate the point of my remarks.

He says, "Most farmers know a hole in the ground when they see it." True, and most of them know enough also not to fall into it.

He has not given a straightforward reply to any one of the definite statements made by me. Regarding the Jones Flat blunder, he merely evades the point, as he does also the question of the pipeline between the intake dam on Trout Creek and the Reservoir. Another matter, the syphon pipe in Peach Valley, which was done in Mr Johnston's time, he ignores altogether.

If my statement is inaccurate, why does not Mr Johnston defend the work? The inference is that it won't stand defending.

Mr Johnston wants to know why the 1913 Council would not take over the K.V. flumes. To answer briefly I would say because they were never asked to.

Mr Johnston tries to cast reflections on my Kaleden management, in the way of stating "it is reported." Why does he not come out above board and make his statements authentic, and not take a coward's shelter behind reports?

However, let us adhere to the questions originally raised. It is an old trick to attempt to divert attention to other questions when it is impossible to satisfactorily

answer the point under discussion. I am still waiting for a definite reply to my statements regarding blunders in municipal work.

I would like to ask Mr Johnston where the heavy seepage is coming from in the Marshall lot immediately below the cement lining done last fall, most noticeable in the garden belonging to Mr Garnett, senior?

Yours truly,  
T. J. McALPINE.

## MAJOR MORFITT SECOND IN COMMAND.

Major G. W. Morfitt, who has done such excellent work in recruiting in Calgary and district since the outbreak of the war, has been nominated second in command of the new 82nd battalion, to be raised shortly in the Calgary district, which position he has accepted subject to ratification by headquarters. Major Morfitt is at present at his fruit ranch at Summerland, B.C., but is expected back in the city within the next few days.

Major Morfitt, as all military men know, is one of the most competent officers ever connected with the 103rd, and is thoroughly qualified for his onerous post.—Calgary Herald.

## Mortgage Sale.

Under and by virtue of the Power of Sale contained in a certain Indenture of Mortgage bearing date the 31st day of May, 1911, and made by Hamilton Chalmers Cruikshank, the lands therein mentioned, that is to say, Lot numbered Eight (8), in Block lettered "D," being part of District Lot numbered Five Hundred and eight (508), Group One (1), Osoyoos Division of Yale District, according to registered Map Two hundred and sixty-eight (268), will be sold by private sale.

Tenders for the purchase thereof will be received by the undersigned up to and inclusive of the 28th day of August, 1915.

The property is situate at Summerland and the orchard thereon is stated to be planted with good varieties of apples, apricots, cherries, and other fruits, and to be in a good state of cultivation.

For further particulars and terms of sale apply to

**ARTHUR O. COCHRANE,**  
Vernon, B.C.,  
Solicitor for the Mortgagee.

### Candied Apricots.

A well-known and progressive housewife has made what appears to be a profitable and interesting experiment in the way of putting up candied apricots. The product is said to keep indefinitely, and is truly delicious. The experiment promises an avenue for a profitable disposal of fruit which might otherwise go to waste.

The volume of fruit going out of Naramata this year appears to be a surprise even to the express company, which as yet refuses to afford us the accommodation of a local agent.

A car load of heifers in charge of Mr Jack Sherriff of Rockland, Ont., was unloaded on the wharf on Tuesday morning having accomplished the long journey in eleven days, which is considered remarkably good time. The cattle numbered forty-two, and were with a very few exceptions really fine young stock. The local purchaser, Mr Mat. Wilson of Paradise Ranch, with his two able assistants, Herb. Pierce and Guy Ireland, rounded the animals up and drove them off to the big range north of town. To Mr H. P. Davies the credit is due for negotiating the transfer, which is said to have proved entirely satisfactory to all parties concerned.

"ROUGH ON RATS" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase, whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

## Current Events — OF — Town & District

Service in church next Sunday will be conducted by Rev. R. M. Thompson of Penticton.

Mrs Hayward has received word that two more of her sons, Arthur and Ed, have enlisted for service.

The regular monthly Anglican service was conducted last Sunday by Rev. H. A. Solly of Summerland.

Master Frank Morgan of Penticton, with his sister, Audrey is visiting at the Salting home this week.

Mr Jack Sherriff of Rockland, Ont., is a guest this week for a few days at the home of Mr H. P. Davies.

Mr Arthur Jenkins, brother of the well-known Calgary grocer, is spending a pleasant holiday at Naramata as guest of Mr James Myers.

Miss Narnie O'Calligan of Vancouver has been engaged by the School Board to take charge of the junior department in the local school.

Miss Edna Noyes entertained on Monday afternoon in honor of Miss Alma Price prior to her departure for Calgary, after her pleasant annual Naramata holiday.

Mrs Hy. Price of Calgary, after a month's holiday in Naramata as guest of her parents, started the return journey on Wednesday, accompanied by her two daughters. It was her purpose to stay off for a few days at Lake Louise.

The arrival in town on Wednesday of the newly appointed principal of our school, Mr Rayner, is a healthy reminder that holidays will soon be at an end. The exact date is the fourth Monday in August, which means that there is but one more week to play.

Mrs Jo. Wells of Victoria is here on a visit to her sister-in-law, Mrs James Wells. The visitor, though eighty-six years of age, appears remarkably hale for one of her years. If well enough in a year's time she contemplates making a visit to a daughter in Saskatchewan.

Another local recruit to swell the number of mechanics going to England to work in munition factories in the person of Mr James Craig, purposes leaving in the course of a few days. It is probable also that Capt. P. S. Roe may go, providing arrangements can be made with the Okanagan Lake Boat Co., of which organization he is manager.

The annual Sunday School outing in honor of all the faithful attendants is to be held next Thursday afternoon on the grounds adjoining the Unity Club. Those of us who have attended the picnics held by the local church during the last seven years know that the event is one of the most enjoyable in the whole year, and there isn't the slightest doubt as to the probable outcome of the picnic next Thursday afternoon, August 19th.

The first carload of butter to be shipped out of Saskatchewan this summer by the Dairy Branch of the Department of Agriculture of that province, was sent to Vancouver recently. At the present time the fifteen creameries under the co-operative plan of the Department of Agriculture manufacture about 30,000 pounds of butter weekly. Up to a few days ago these creameries were taxed to the utmost to produce enough butter for local consumption, despite the fact that an increase of 10 per cent over the output of last year has resulted.

No man loses anything by being true and steadfast to his convictions. He may not be popular, but what does that amount to? Conscience is, or ought to be, dearer than human favor or applause.

## Use The Garden Hose On Insects.

Where city water pressure is available the garden hose often affords the easiest way of checking the ravages of certain insects, states Dr. A. L. Melander, Entomologist of the Washington Experiment Station. Many people have the idea that strong poisons are required in controlling bugs, but this is not necessarily so. A stream of water delivered through a garden hose will most effectively serve in washing off and maiming such insects as aphids or plant lice, leaf hoppers, red spiders, young scale insects, the elm bark louse, the cottony maple scale, caterpillars, slugs, bud-worm, as well as spores of fungus diseases that have found lodgment on the plants. Not only is this treatment serviceable, but in many cases it will give better results than can be had by insecticides applied by the small spray pump. The use of certain sprays about houses is often attended by staining of painted woodwork or by the persistence of disagreeable odors which are obviated by the water cure. Even under some garden or orchard conditions, where water piped under pressure is available, it may be most advantageous to combat certain insects with plain water applied in this case by a pressure spray pump through a plain-bored nozzle. Red spiders, currant worms, and aphids call for such a recommendation, especially just before the fruit is to be picked, when spray compounds might leave a taint. When aphids have curled the leaves they cannot be reached by the usual spraying, but they must be touched by the poison to be killed. A stream of water is much more likely to wash out the aphids family from curled leaves than a misty spray is to penetrate into their midst. Many of these insects obtain their food by sucking and sit with their beak deeply inserted into the plant tissue. When struck with a forceful stream the beak is cracked, and such insects even if not killed outright, are unable to feed again. Shade trees besmeared with honey-dew from aphids moreover receive an advantageous cleaning from the hosing.

## As From The Kinnaird Hospital, Lucknow.

To the Supporters of the "Summerland" Bed,

Dear Friends,  
Once again the time has come to thank you for your continued help and sympathy, and we do thank you very much. The report you will probably be receiving from the London office, and it will give you some idea of the hospital work, amongst other things. We have cause for great thankfulness in every way, and at this time more especially because a new doctor has come to continue the work now that Dr Douglas is going on furlough. We have noticed many changes during our five years' stay in Lucknow: lots of patients come who are only slightly ill and are willing to remain as in-patients, whereas before, the majority seemed to wait until "hakin's" medicines had been tried without avail. Then again many fewer patients lately have insisted on going home for festivals if not in accordance with the doctor's wishes. But by far the most significant advance, I think, is in the literacy of the women. Nowadays hospital is never without its non-Christian readers (Christians of course practically all read), and sometimes I count as many as twelve in hospital at one time.

It is not, however, only the readers who are interested in the Bible teaching. Just a short time ago we had such a dear Mohammedan woman in your bed. She came to dispensary suffering with a very bad foot, and the doctor said she ought to remain in hospital for treatment. She came from a village, and had never been in a hospital before, so she was very frightened, especially as it would mean staying alone. We used our persuasions, and once she consented she was marched off to the ward last she should report. She settled down splendidly, and her foot grew gradually better—and several times she said to me how happy she was in hospital, and recalled laughingly her first fears. It was a treat and privilege to pay the daily visit to her, she not only listened intently

## Free Book Of Fruit Recipes.

The British Columbia Fruit Growers' Association have issued an interesting 78-page illustrated booklet containing some 225 tried and tested recipes for preparing apples, peaches, plums, strawberries, raspberries, and other fruits, information as to varieties of apples and when to use them, how to store apples, how to preserve fruits with out sugar, etc., and much other data of special interest to the housewife. The booklet is got up in very attractive style, and its contents are such as to prove of undoubted interest to a large number of our readers. An article on how to "Preserve Your Fruits Without Sugar" possesses special interest for the housewife at the present period of hard times and high cost of sugar. Copies of the booklet may be obtained free on application to R. M. Winslow, Provincial Horticulturist, Victoria.

Two hundred and twenty-five aliens are to be employed on the roads in the Canadian National Park near Revelstoke. An internment camp is now being prepared.

but remembered. She was a religious woman, one of the very few Mohammedans who openly read their prayers at sunset.

In striking contrast to her was the next patient, also a Mohammedan, but a very bigoted one. She was feigning sleep generally when the time came to read to her from the Bible, or she and her elderly relative would speak in very superior tones that all this was written in their Koran and much more besides. Even with such people though—and I am glad to say they are the exception—there are many opportunities of testifying for Christ. I cannot tell you of all the various types of people who have been your special patients, but I can assure you that healing and blessing has come to very many.

Again expressing our sincere thanks. Believe me,  
Yours sincerely  
M. WHITAKER.

WAS RESIDENT HERE.

A California subscriber sends us the following newspaper item, dated San Gabriel, Aug. 2, telling of the sudden death of a lad known to many here, and a former resident of Peach Orchard:— "Howard Fysh, youngest son of Mr and Mrs F. A. H. Fysh of Sunny Slope, died to-day. The lad, who was one of the best beloved boys of this section, graduated from the San Gabriel Schools in June, and was to have entered High School this fall. He was 15 years old, and an acknowledged leader in sports and games among the boys of the school with whom, as well as with his instructors, he was most popular. On Wednesday he was taken ill and on Friday removed to the Alhambra Hospital, where an operation was performed. The operation was considered successful, but this morning he was stricken with a paralytic stroke, from which he failed to regain consciousness. The funeral will be held at the family home in Sunny Slope tomorrow afternoon at four o'clock, Rev. John Atwill of San Gabriel and Rev. John G. Blue of Pasadena officiating. The services will be private.

Leslie Butler, a banker of Hood River, Oregon, and a close student of horticulture, makes the prediction that within a few years the Hood River Valley will be as famous for its hogs as it is now for its fancy fruit, and will at the same time ship more fruit.

Similkameen Star: At Oroville Guthrie, McDougall & Co. have been awarded the contract for the construction of a 60 mile irrigation ditch at a cost of \$600,000. The contract calls for the completion of the entire system in time for the delivery of water for the season of 1916. The water is to irrigate about 10,000 acres lying on both sides of the Okanagan River. The cost will be about \$63 per acre, to be spread over twenty years, thus giving the settler an opportunity to use his resources for the development of his lands.

Fir Ponce Posts, Fire Wood, 18 inches and 4 feet.

BALCOMO RANCH. R. V. Agur, Mgr.

A cushion picked up near the telephone office awaits the owner at the Review Office.

C. W. Lees Principal of the Central School, has reached home from a visit to the Exposition at 'Frisko.

Mr F. A. Miller has received a cable advising him of the safe arrival in England of Mrs Miller and son.

Called away by the serious illness of his brother at the Coast, Mr O. Vaughan went out bound thence on Monday morning.

Miss Robina Logie who has been spending her vacation in camp near Peachland, is again on duty at the West Summerland Post Office.

Four autos with their owners, Messrs Garnett, Atkins, Lawler, and Graham, and several passengers each visited the camp at Vernon last Sunday.

A carload of bricks manufactured at Enderby, and which are said to be of fine quality, were brought in last week by T. N. Ritchie over the C.P.R. and K.V.R.

Dr Jackson, Dentist, will pay his regular monthly visit to Summerland next Tuesday, August 17th, remaining till the end of the week, and occupying Dr Andrew's West Summerland office.

Each Sunday afternoon divine service is being held in Meadow Valley, with the saw mill as the place of worship. Mr J. J. Baker, who is summering on his pre-emption there, leads the services.

Mr Stuart Ross of Saskatchewan has purchased a five acre lot at Kaleden from Mr Jas. Ritchie. Mr Ross spent a few days in Summerland last week, and will be joined later at Kaleden by his wife, who is now visiting at her old home in Scotland.

Secretary Dynes of the Pentiction Board of Trade, according to the Pentiction Herald, is working on a proposal to establish a creamery in that district next year. His plan includes the establishing of motor car routes, covering a considerable area, including this district.

One evening last week a large black bear was seen on the north ditch near Mr C. Napier Higgin's orchard. Informed by phone, ditchman Rutherford and two neighbors, armed with rifles, went in search of the bear, but when they reached the spot he was not to be found.

The Red Cross Society are asking for home made jam to send over to the wounded in the Canadian hospitals. All those who would like to help in this way are asked to leave their gifts of jam (in quart sealers) at the Rectory. The Ambulance League will pay for the sugar used, and replace the sealers if desired.

Two aliens, one a German—the other an Austrian, the former a ranch hand, the latter night porter at the Incola Hotel, were taken up to the Vernon internment camp last Saturday from Pentiction by Chief Gale and Provincial Constable McDonald the charge being failure to report to the authorities as required by law.

The "Lil," the fast motor boat owned by E. N. Rowley of this place, is to be challenged for the championship of the lake, which it now holds as the fastest boat on those waters. G. V. Jukes of Pentiction proposes to start shortly on the construction of a fast runabout of the semi-displacement type, with an auto engine, the craft to have a speed of about 27 m.p.h.

Methodist services will be conducted on Sunday next by Rev. R. W. Lee. At the morning service at 10.30 a.m. the subject of address will be "Out of Great Tribulation." The soloist will be Miss Evelyn Brown. The evening service at 7 p.m. will be held in St Andrew's Church, West Summerland. The visit of Mr W. L. Clark of Toronto as announced last Sunday, has been postponed until some time during the fall.

While riding out toward the Garnett Valley dam last Sunday night H. Dunson was suddenly confronted by a big black bear standing in the middle of the road. It is hard to tell which was the more surprised, the man on the bicycle or the bear, when he turned to see a man rapidly and silently approaching. However, Mr Bruhn did not at all relish the manoeuvring of the stranger, and a few flying stones made him decide on a hasty retreat.

E. C. Graham is at Spokane this week, having left here on Tuesday evening.

Only one more week of holidays. The schools re-open for the fall term on Monday the 23rd.

Mr H. Lee, brother of Rev. R. W. Lee, who is now in the office of T. B. Young, has moved into the Collas cottage.

Miss Pollock has resumed her duties at the Municipal Office, having returned on Friday last from a visit to Vancouver Island and Seattle.

Government Engineer Norrington, Supt. Mitchell, and Collector Nixon are visiting the headwater lakes of Trout Creek, having left here on Wednesday.

For some nights past the people of Naramata have been doing without electric lights, and are conserving the water that would be otherwise used to generate power, for irrigation purposes.

Jack Yoshioka, for several years an employee of the Balcomo Ranch, left early this week for a visit to his native country, Japan. It is said that the chief purpose of the visit is to bring back with him a life partner.

85 per cent. of all headaches are the result of eye-strain. Are you troubled that way? If so, consult S. L. Taube the well-known Optical Specialist. He will be at the Summerland Drug Store on Friday, August 27th.

Union services of the Presbyterian and Baptist congregations will be conducted by Rev. N. McNaughton next Sunday. The morning service will be in St Andrew's Church at 10.30 and the evening service in the Lakeside Baptist Church at 7 o'clock.

Quite a number more of our young men are likely to enlist in the coming autumn. Among those who have signified their intention of doing so are: Hilton Snider, Harvey Phinney, C. H. Simey, H. Howis, G. R. Hookham, H. Reynolds, R. F. Theed, and L. B. Otley. Percy Holder has already enlisted and goes into camp at once.

A little more thoughtfulness on the part of motorists would no doubt be greatly appreciated by some of our horse owners. Frequent complaints are heard of lack of warning of cars approaching turns. This is especially bad on roads such as ours where bluffs and other obstacles obstruct the view. But a few days ago some ladies driving along one of our streets were suddenly confronted at a turn by a rapidly approaching auto, and a collision was only narrowly avoided.

Two-thirty to five, and seven to nine are the visiting hours at the hospital. Will intending visitors please remember these. Our hospital is run with a very limited staff, and every moment of the busy days must be arranged for, and to be asked to admit callers in other than the hours fixed for visitors seriously interrupts with the routine of the day's work, and perhaps causes much inconvenience to one or more of the patients. The staff are glad to welcome visitors during the above hours.

Receiving for the first time since her marriage, Mrs G. L. McWilliams was At Home to a large number of ladies at her pretty bungalow home on Wednesday afternoon. The ladies came from all sections of the district, and despite the heat of the day, the affair was thoroughly enjoyable and successful. With Mrs McWilliams receiving the guests was her mother, Mrs E. W. Bateman of Vancouver, and assisting with the serving were her two sisters, the Misses Bateman, also of Vancouver, Mrs Thos. Dalo and Miss Annie Dalo.

To keep up with their orders the Summerland Lumber Co. Ltd. are running their box factory at full capacity, turning out 3,000 fruit boxes a day. The firm has a large contract with the Okanagan United Growers, Ltd., and is also supplying a large quantity to A. Stewart & Son, and several other local shippers. Through the Okanagan United Growers, the Summerland Fruit Union gets its box supplies from the same source. With the additional machinery installed the Lumber Co. has now a very complete box manufacturing plant, employing at present a crew of more than twenty men.

Stop Press News

H. C. Mellor's House Burned

Fine Residence Goes Up In Smoke This Afternoon.

H. C. Mellor's home is in ashes. Fire, evidently starting near the chimney in the upper story or attic, quickly consumed the building. Mr Mellor had just hitched up his team preparatory to driving into town. As his housekeeper is now in the Hospital, he had just started a fire, and had gone out to the hog pen when the alarm was given by some bathers nearby.

Telephone calls for assistance quickly brought a large crowd, and a bucket brigade formed, and hose was brought into service, while others set about removing the contents of the house. So quickly did the fire spread that within half an hour the fire fighters were driven back and the fight given up. The

BIRTHS

STEUART.—On Tuesday, August 10th, at the Summerland Hospital, to Mr and Mrs Muir Stuart, a son.

Mr Wm. T. Broad, who has been seriously ill, is making satisfactory progress toward recovery.

Mr W. C. Kelley has been somewhat indisposed of late and has found it advisable to keep to his bed for the greater part of the last two weeks.

S. L. Taube, the well-known Optical Specialist, will be at the Summerland Drug Store on Friday August 27th. If there is anything wrong with your eyes make it a point to see him.

What looks like a door key a bit out of the ordinary was left at the Review Office on Wednesday. It was picked up on the street, and may be had by the owner if he or she will call at this office.

loss is estimated at \$4,500, with insurance of \$3,000.

Much sympathy will be felt for Mr Mellor for the loss he suffers, particularly at this time of year when life is so full of duties.

IT CERTAINLY PAYS to ADVERTISE in THE REVIEW

**The People In Summerland  
Want to spend Money**

**M**ONEY is for use, not for hoarding. Most of us want what money will buy more than money, so we are always spending our money. Also, most of us do not make enough money to keep or hoard it—we must spend it on necessities.

Much Summerland money is spent with firms outside of this community—with the big city mail-order houses; money that ought to be spent at home.

More money would be spent in Summerland if more of our merchants would advertise, and if those who do advertise would advertise more.

**To the People In and About Summerland**

Spend your money in Summerland. Sending money out of this community makes the community poorer for you and everybody else. Building up outside businesses won't help you any.

**Favor Goes To Those Who Woo It**

Local Recruiting Officer.

The fact that there has been no recruiting office here has been frequently complained of, and has made it necessary for our young men to go to some other valley town to enlist. Though somewhat late this is now likely to be remedied. Councillor Borton, a veteran of the South African war, has been offered the position of recruiting officer for the 54th Battalion for Summerland and district, and it is believed he will accept when the details of the office are understood. Mr Borton has also been recommended for a lieutenantancy in the same battalion.

**Newsy Paragraphs**  
from  
**PEACHLAND**

Mr and Mrs R. J. Hogg and Miss Kate Miller were recent campers in the hills back of Peachland.

Rev. Mr Henderson, pastor of the Eaton Memorial Church, Toronto is visiting here with his brother, Rev. A. E. Henderson.

Miss Dorothy Harrington, who has been enjoying a month's holiday with friends in Winnipeg, returned home on Thursday last.

Rev. J. C. Switzer, pastor of the Kelowna Methodist Church, attended the quarterly meeting of the local church of that denomination held here last week.

Deep Creek during these warm days is a popular resort. Campers and bathers, with their tents, now give that usually quiet spot an appearance of unusual animation.

The following is taken from a recent issue of the Winnipeg Free Press: "Miss Dorothy Harrington of Peachland, B.C., was the guest of honor at a tea given by Miss Jean Pollard on Wednesday afternoon, at her home 320 Oakwood Avenue. During the afternoon several musical numbers were given. Those present were: The Misses Green, Elinor Mitchell, Mary Bell, Ross Calder, Eva Calder, Irene Hardie, Frances Parlee, Rhoberta Hindley, Mrs Cecil Roberts, Mrs D. J. Wright, Mrs C. Henderson, and Mrs C. S. Wiggins."

A most impressive service of a patriotic character was held in the Methodist Church last Sunday morning. The pastor, Rev. A. E. Henderson, preaching from Judges 5: 23, emphasized the wickedness of nations attempting to remain neutral when moral questions are being combated, and showing the fate of such neutrals. The solo, "In The Marsailles," was beautifully sung by Mrs G. Mitchell; and Mrs Wallace, assisted by the choir, sang, "O Canada." Other numbers in the exceptionally fine musical part of the service were the Russian Anthem, our own National Anthem, and "Far, Far At Sea," and the "Land We Love The Most." All were sung with deep feeling. The service seemed to impress upon the congregation as never before the seriousness of the present world conflict.

**NO SUGAR**

We have received the following Fruit Preserving Recipe from a reliable source, and reprint same for the benefit of those of our customers who may have decided to curtail the making of preserves this season on account of the high market price of sugar.

**Our Motive**

in publishing it, is to encourage bottling fruit, and suggesting that the money usually expended in sugar be used for what might be termed

**Absolute Necessities.**

Sugar will eventually have to be used in preparing the fruit for the table, but much less will be required to sweeten to taste.

Authorities all agree that fruit put up without sugar retains its delicate and distinctive flavor.

To put up fruits without sugar, simply prepare them in the ordinary way; see that the jars are perfectly clean, thoroughly scalded with boiling water, filled to the top and left in them a considerable time; boil the rubbers and covers, and see that the rubbers are soft and free from grooves or cracks, place the fruit in the jars, fill with cold water, place them in a boiler filled with cold water, heat to the boiling point. Berries will do if removed when the boiling point is reached. Large fruits, such as peaches, pears, plums, cherries, and the like should get 20 to 30 minutes boiling.

A board should be placed in the bottom of the boiler to keep the jars from the direct heat of the stove. Fruit thus prepared will be found excellent for pies, delicious for eating with cream, and generally superior to the sugar-syrup preserves. In properly air-tight jars they will also keep quite as long.

We carry in stock "Perfect Seal" and  
"Economy" Jars.

**The Summerland Supply Co., Ltd.**

**WANTED:**

**Farm Produce.**

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

**Money for the Farmer**

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

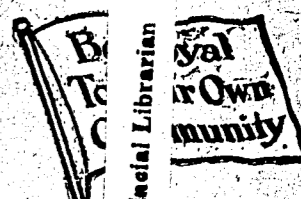

**JAS. RITCHIE,**

**WEST SUMMERLAND.**

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 3. Whole No. 368.

SUMMERLAND, B.C., AUGUST 20, 1915.

\$2.00, payable in advance.

## MAIN RESERVOIR STILL UNTOUCHED

### No General Shortage of Irrigation Water Need Now Be Feared.

Early this week there was still in reserve as much irrigation water as was available last year about the 21st of July. In other words, it has not yet been found necessary to tap the big Trout Creek headwater reservoirs, which last year was let out in the month of July. To state the case in still another form, a month's water has been saved over last year. Considering the earliness of the season, necessitating more irrigation in the late spring months, the situation should be looked upon as highly satisfactory though it cannot be estimated just how much of the credit is due to the copious summer rains that filled up the depleted reservoirs just at the time when they most needed replenishing.

The party which went up to the headwaters last week, consisting of Superintendent Mitchell, Accountant Nixon, and Engineer Norrington, did not find it necessary to open the headwater dam then, there being a good flow still in the creekbed. On Monday of this week a small dam on a north tributary to Trout Creek, emptying about a day's flow nearer than the big dams was opened up. The main headwater dam, however, has not yet been opened, which means that this expanse of water is still available for irrigation purposes. If the present dry spell continues there is no question but that it will be necessary to draw upon this supply very soon, but with the end of the irrigation season in sight, there is no question as to whether there will be sufficient. Given a normal snowfall during the winter, prospects for several seasons to come look good, as regards storage water.

## IS SUBMARINE BLOCKADE EFFECTIVE?

### Reply Of British Naval Expert.

(By Archibald Hurd, British Naval Expert.)

London.—The Germans have now been carrying out their submarine policy for six months. We have very complete detailed information from the Admiralty of the result.

In the first place, have we been starved? The answer is decidedly in the negative.

In the second place, have neutral ships been terrified into avoiding our harbors? The answer again is in the negative.

In the third place, have our merchant sailors become craven under the German threats? Again the answer is in the negative.

For the rest, the results may be tabulated as follows:

Total number of sailings and arrivals, 31,385; British merchant ships sunk, 98; percentage of loss, .31; officers and men killed 505; neutral ships sunk, 95.

## PROHIBITION MEETING TO-NIGHT.

As everybody knows a world-wide movement has set in for the prohibition of the manufacture and sale of intoxicants. There is every indication that British Columbia will not lag behind in this great movement. A convention is called by the business men of the province who believe that the total prohibition of the sale of intoxicants will in a large measure solve the economic problems confronting the people, and serve materially to hasten the return of prosperity. The convention is to be held in Vancouver on August 25 and 26. In common with the other municipalities Summerland is asked to appoint representatives at this convention. A public meeting will be held in St Andrew's Church for this purpose of organizing the district and appointing delegates. The meeting will be held, to-night Friday, at eight o'clock. At this meeting Rev. Mr Peck, of Charlsholm, Alberta, who will be one of the speakers, will give an account of how prohibition has swept Alberta.

The schools, public and high, re-open on Monday morning next for the fall term.

## AN OPTIMISTIC VISITOR.

J. D. Kennedy of the Rat Portage Lumber Co., Brandon, and now on vacation, was a visitor to this town this week. He came up from Penticton by the K.V.R. on Tuesday morning, and went out on Friday morning bound for the Coast, where he will spend a little time, possibly going down to San Francisco to attend the Exposition. Mr Kennedy was the former owner of a thirty acre block of orchard land here east of Giant's Head ten acres of which he still retains.

Commenting to the Review on conditions in the Okanagan and on the Prairies, he stated that in his opinion this Valley had left its hardest times behind, and with a little brighter general outlook, the people here seemed to be taking more to the right optimistic viewpoint. The bumper crop on the Prairies was going to do a great deal toward loosening up business conditions there, he said, and the good effect would be felt more or less all over the country.

Regarding the appearance of his own property here, Mr Kennedy thought well of it, and while confessing that he has not received value for the capital he has laid out in it, he is convinced that every year now will witness an improvement in that respect. It is about two years since his last visit to Summerland. During his stay here Mr Kennedy was registered at the Hotel Summerland, and renewed a good many friendships of former days with former Manitoba folk.

## YOU MAY NOW ENLIST HERE.

Summerland men need no longer make a trip to Penticton or Vernon when their patriotic impulses lead them to seek enlistment into the ranks of the Canadian Expeditionary forces. Coun. C. N. Borton, who it was recorded last week, had received the offer of an appointment as recruiting officer at this point, has received confirmation of this, and is now empowered to enroll recruits into the ranks of the 54th Kootenay and other Battalions.

While the response from the men of this district to the great call to arms cannot be considered in any other way than most gratifying, it is certain that if the same urgent need is held out for the next few months, the response from local men will be even more general.

## FREE OF DEBT.

A very successful lawn social was held last evening at St Stephen's Parish Hall, the object being to raise sufficient funds to pay off the debt on that building. The object was accomplished. In all the net proceeds were \$45, enough to clear off the balance of the building accounts.

Supper was served to fully 120 people, small tables being spread under the trees for the purpose. There was also an ice-cream booth, and a store of useful articles. After supper those who wished entered into the dance in the hall, while others occupied the card tables.

## EARTHQUAKE SHOCK.

Did you feel the earthquake? This is the question that was on everybody's lips on Wednesday morning. The phenomenon occurred about five minutes after six, and lasted for some seconds, and at some points at least was decidedly pronounced, though not sufficient to do any damage. A report from the provincial capital says: During the morning Mr Napier Denton who is in charge of the meteorological office here reported that the sismograph recorded a wave at 6.05. Seventeen seconds later the second and larger wave was marked, the vibration continuing for three and a half minutes. It was this second wave which was felt all over the city, the first being comparatively an insignificant tremor. Mr Denton places the origin of the disturbance somewhere in the neighborhood, 80 or 100 miles distant probably in the Mount Baker district.

The shock was felt throughout the Valley and the southwestern part of the province.

## Will Immediately Return All Cars Infected.

### Inspector Cunningham So Decides In Effort To Keep Province Clear.

A firm warning, advertised under the crest of the Government of British Columbia, has been issued by Fruit Inspector Thomas Cunningham to the effect that any cars of fruit entering the province from south of the Boundary, and found to contain the larvae of codling moth, will be at once shipped back.

This action is prompted because almost every car of fruit coming into the province from abroad is found to be infected with the larvae of the codling moth, the most destructive pest known to fruit-growers, and one from which the orchards of British Columbia have been kept free.

Hitherto, fruit in infected cars has been sorted out, and the healthy shipments admitted. Now all fruit contained in any car which has infected fruit, no matter whether from different districts or of different varieties than the infected portions, will be refused certificates of inspection.

Mr Cunningham says that the great spread of codling moth infection in Washington and California makes it unsafe to take any further risk with infected shipments.

## Red Cross Benefit.

### "Follies" Coming Saturday

At the Empire Hall for one night only "The 1915 Follies" will give a performance Saturday August 21, presenting the new "Follies" in a program which has never been equalled along these lines since this form of entertainment was instituted in Canada. The company is under the direction of Henry Anstie, and includes among others, Dora Rignold, Arthur Soames, William Sauter, Henry Anstie, B. C. Hilliam, Ann Lothead, and the program ranges from the heavily dramatic to farce comedy. During the "Follies" portion of the program, B. C. Hilliam will introduce some of his very latest musical numbers, Miss Rignold will present a patriotic recitation entitled "The Day," Ann Lothead will be heard in a new song, Mr Anstie, always droll and original, will introduce a specialty said to be a greater success than his now justly famous "Always Merry and Bright," William Sauter contributes recitations from

Dickens, while the other members will also contribute liberally. After the "Follies themselves" will come an intensely dramatic playlet entitled "The Man in the Stalls," a London production which has created great interest, and which runs the gamut of human emotions. It has to do with the working out of a love affair between a gentleman's wife and his own best friend, the triangle of which is treated in a most amazingly original manner. Miss Rignold appears as the wife, Mr Soames as the husband, and Mr Sauter as the friend who proves to be false. As a closing feature the management have selected "A Pantomime Rehearsal," which is farce comedy at its very best. Mr Sauter, Miss Rignold and Mr Soames are well-known residents of

## Resignation Tendered By Supt. Mitchell.

### To Take Effect in Thirty Days. Council Meets To-Morrow.

Immediately following the regular session of the Council on the 10th of August Supt. Mitchell put his resignation in the hands of the Municipal Clerk. The fact was kept pretty quiet for a day or two, but soon became general public knowledge. Naturally the news has been the occasion of considerable comment, and many guesses have been made as to what action the Council will take. The officials, however, are very non-committal, preferring to say nothing till the Council meets to-morrow at 4.30 p.m.

## OBITUARY.

### Rev. J. M. HARRISON.

We regret to announce the death of Rev. J. M. Harrison, which occurred at his home at West Summerland on Sunday afternoon last, after an illness of considerable duration. Though the deceased gentleman only arrived in Summerland some two months ago, yet he was well known locally, having spent several summers here on his orchard lot.

The deceased was one of the pioneer Methodist ministers in the North-West. Forty-four years ago, along with the celebrated Rev. George Young, he left Ontario and obeyed the Voice of the West. The record of his ministry is one of great interest, and also of great value to his church. Few ministers were better known than he. As an administrator of the business side of church life, he had few peers. He was a devoted pastor and a preacher who ever delivered a grand message in a grand manner. The honors of the church came to him in a wonderful manner. He was the first President of the Manitoba Conference, and has also been President of the Saskatchewan and Alberta Conferences. For many years his brethren have elected him to the chairmanship of the districts in which he was located. On four occasions he was elected by the annual Conference to attend the Quadrennial General Conference of the Methodist Church of Canada, and even in this exalted court his advice and counsel was ever willingly accepted. It was a time of great regret when at the Alberta Conference held in June last at Calgary, the deceased became superannuated. Eloquent testimonies to his sterling worth and ability were paid him by the leaders of the church.

For many years he had looked forward to making his home in Summerland, but his period of retirement was very brief. It was well known, even to himself, that he was a dying man when he came here, but with that wonderful tenacity of purpose, which was ever part of the man, he took a lively interest in the affairs of his orchard, and made his plans for the erection of his new house. For over a week it was manifest that the end was drawing near. He awaited the time with Christian patience and fortitude; and on Sunday afternoon last he passed peacefully away in the presence of his wife and daughter and brother-in-law, Mr John W. Phillip of Winnipeg. Rev. W. R. Peck of Alberta was also present with the family.

The funeral took place on Monday afternoon. A service was conducted at the home by Rev. R. W. Lee, assisted by Revs. C. H. Daly and N. McNaughton. An impressive address was delivered by Rev. W. R. Peck. The last rites at the grave were performed by Rev. R. W. Lee. The large attendance present was a testimony to the esteem held by Summerland people to the deceased.

The bearers at the funeral were Messrs. J. L. Hilborn, J. L. Logie, J. R. Brown, S. H. Adams, F. W. Clingan and G. A. McWilliams.

Summerland and the remainder of the company each is an artist.

A liberal percentage of the profits of the Summerland engagement will be turned over to the local Red Cross Society. Seats are on sale at Summerland Drug Store.

## A BIRTHDAY SURPRISE.

A very pleasing social function passed off very successfully on Monday night last. Mr and Mrs Marshall of the Hotel Summerland had organized a surprise party to invade the home of Mr and Mrs R. H. English, to celebrate in a "fit and becoming manner" the birthday of Mr English. It is needless to say that this was not Mr English's "twenty-first" birthday. The party, which was a large and representative one really took Mr and Mrs English by storm and surprise. After the usual social greetings, handshakes and little pleasant conversations, games, etc. were indulged in until another visitor made its appearance, rain coming down heavily. This necessitated the party adjourning to the house where the fun, mirth and sociability developed intensely. Everybody seemed in a good humor, and it appeared as if everybody was having a birthday at the same time.

More games were enjoyed, stories (true ones) were told, and music was rendered. Then came another welcome surprise, when an almost infinite supply of dainty refreshments came on the scene. Tea, coffee, sandwiches, cakes of an endless variety were passed around. Then Mr English was called upon to cut the birthday cake, kindly given by Mrs Marshall. Then came a stock of ice cream, also provided by Mrs Marshall, and everybody had a pleasant time in watching how the other person could make ice cream vanish into an invisible region. At a late hour the best wishes of the party were conveyed to Mr English, all rising and singing heartily, "For He's a Jolly Good Fellow." Mr English briefly responded. Then an expression of thanks was passed to Mr and Mrs Frank Marshall for their generosity, and for the part they had played in making the gathering such a success. The party sang "For They Are Jolly Good Fellows," and then Mr Marshall replied: "It was a capital night's enjoyment."

## OKANAGAN AMBULANCE LEAGUE.

A meeting of the league was held in St Stephen's Parish Hall on Wednesday, and 21 ladies were busy all the afternoon. Several interesting letters re Red Cross work, Prisoners' Relief Fund, etc., were read and much business was accomplished in regard to the jam for the soldiers, and Tag Day for the B.C. Base Hospital.

The following day the 11th bale was packed and despatched to the Red Cross headquarters in Vancouver. The bale contained:—112 bandages, 6 tablecloths, 15 tray cloths, 5 bundles mouth wipes (500), 8 pillow cases, 5 bandages (40x40), 1 bundle old flannel, 5 dusters, 220 cup covers, 100 plate covers, 50 face cloths, 1 bundle face rags (100), 16 handkerchiefs, 4 pr. pyjamas, 1 pr. socks, 1 bundle old linen, 8 triangular bandages.

## A RED CROSS MEETING.

The Ambulance League will not meet in the Parish Hall next week, but there will be a meeting in the Men's Club on Thursday afternoon, August 26th, at 8 p.m. instead. So many ladies feel they would like to help with the work for the Red Cross Society but cannot manage the long walk to the Parish Hall, that it has been thought best to organize regular Ambulance League meetings down town as well.

Will all those interested attend the meeting next Thursday afternoon. To give up a few hours each week in helping to provide comforts for those who are fighting for us is after all not very much to ask each one of us to do.

## ALL SERVING.

R. H. Atkinson has enlisted in the Army Medical Corps, and has now gone into camp at Vernon. Mrs. Wm. Atkinson of Garnett Valley, his mother, may well be proud of the fact that all her three sons are now serving the empire, as are also her two brothers. One of the sons of Mr and Mrs R. Atkinson who enlisted from here some months ago is now at Shorncliffe with the C.M.R., and as they had been supplied with their horses, it is possible he is now in France. Another son, Will, is in the War Office.

## ORDERS FOR FRUIT FOR SOUTH AMERICA

### Market for B.C. Apples and Potatoes Found by Trade Commissioner.

The first fruits of the sending of Mr H. G. White as trade commissioner to Jamaica and South America for British Columbia arrived in a somewhat extensive cable of orders for products grown in British Columbia.

The cable was received by Secretary Blair of the Vancouver Board of Trade, and was from Buenos Aires. It asks for that point 300 cases of Spitzenberg apples, 200 Northern Spys, 200 McIntosh Reds, 500 Delicious, 300 Jonathans 100 Newton Pippins, 100 Ben Davis, 300 Winter Bananas, 200 Winesaps, and 200 cases Beurre D'Anjou pears. These are to be sent via New York by the Lampton line. The cable states that this order can be duplicated for Rio Janeiro. The cable also asks for samples of potatoes in drums and states that there is a market for 1,000 tons of these with delivery commencing in October. Full particulars can be had from Secretary Blair of the Vancouver Board of Trade.

## THE FARM FOLK ARE PATRIOTIC

Robert Atkinson, successful in his third attempt to enlist, and who went up to the Vernon Camp on Thursday, is the first man to go from the Experimental Farm into the ranks. Realizing that it meant no small sacrifice for him to relinquish an established position on account of his patriotic convictions, fellow employees at the Farm made up a purse on his behalf, and this was presented to him outside the Farm office building on Wednesday evening. The purse amounted to \$25. Three hearty cheers were given Mr Atkinson as he was made the recipient of the presentation.

The men at the Farm have shown themselves to be very generously disposed towards the different objects allied to the war, for which public subscriptions have been solicited. About a month ago they subscribed very handsomely to the aircraft fund then on foot, and just lately the sum of \$18 has been collected there towards the Tobacco Fund, which aims to give to smokers at the front the means of gratifying their taste, when it is beyond their own power to do so.

## SLAT CARS FOR FRUIT.

Mr W. E. Scott, Deputy Minister of Agriculture, and Mr R. M. Winslow, Provincial Horticulturist, in conjunction with Mr J. Forsyth Smith, Prairie Markets Commissioner, recently took up with the C.P.R. the matter of insuring clean cars for the shipment of fruit and vegetables to the prairies and have received assurances from the railway company that the utmost attention will be given to cleanliness. All station agents have been authorized to side-track immediately any car which is not in a sanitary condition. The C.P.R. will this year extensively employ the new improved slatted box cars in hauling the produce of the Okanagan to the prairie market.

A Jap. working at the Mendow Valley Sawmill was brought in to the hospital on Monday morning this week with a thumb that had been almost severed from his hand. He was given proper attention and is going to make satisfactory recovery from the bad mishap.

## Memorial Service

To the late

Rev. J. M. HARRISON,

will be held in the

Methodist Church

On Sunday Evening,

at 7 o'clock.

### HANDING OURSELVES A COMPLIMENT.

IT IS NOT OFTEN an editor hands himself a compliment. But this is the exception, and that is just what we are doing, because a certain well-known citizen of this community has and is persistently recognizing the value of this paper as a reliable disseminator of local news, and has paid us this compliment in a manner which speaks volumes for his knowledge of the good things of life. He is not destitute of this world's goods, but he possesses the rare faculty of holding on to that which he gets, lest the pangs of poverty overtake him in his declining years. He possesses a wide knowledge of local affairs because he is a constant reader of this paper, and the knowledge extracted therefrom is turned to good account in his own behalf. If an important event is soon to occur, he knows of it in advance, because he has read of it in this paper. If there is a bargain to be had anywhere in the community he is promptly apprised of the fact, because of that, too, he has read in this paper. And if an acquaintance is sick, or death has overtaken some member of a family, or the stork has paid a visit to the home of some friend, he is among the first to extend his condolences or congratulations—because of these, also, he has read the paper. He is a man of wisdom—a pillar of strength—with a brain which absorbs to the utmost of the essence of life. Few things escape his notice, for he is ever on the alert. But the one thing which he never overlooks is this paper, and therein lies the compliment which we take unto ourself. It gives us a feeling that we are something more than a mere worm in human shape, that we may be even a whole cog in the community wheel. True, he is not a subscriber to the paper—his dollar never reaches this office—but he reads the paper just the same. For his neighbor is a subscriber and pays in advance, and in his generosity he lends the paper to the "pillar of strength"—by request. But it may not always be so. In time we have hopes that the "pillar" will pay us the super-compliment of permitting us to add his own name to our subscription list—paid in advance, of course. Time sometimes works wonders, even in the newspaper field. And we have hopes, strong hopes.

### DRASTIC ACTION SECURES RESULTS.

CANADA HAS FOR YEARS been trying to rid herself of some of her more prolific noxious weeds, but the work has lacked the thorough support of those whose duty it is to help in the eradication of the pests. Concerted and organized action is necessary, and until this is secured the prospects of success are not very bright. Public opinion is too apathetic, and weed inspectors are aware of this. Prosecutions for infractions of the Noxious Weeds Act are rare, and consequently the penalty clause of this act has to a great extent lost its effect. More pressure must be put upon those responsible for its enforcement. A lesson in cleaning up weeds might be taken from the action of China regarding the eradication of the poppy plant. The following, from a report of the United States attache at Nanking China, indicates the method by which results are secured in that country: "Some interest in the restriction of the cultivation of the poppy was aroused locally by the dismissal of the Nanking magistrate for having falsely reported his district clear of poppy, and the imposition of fines on a number of other district magistrates for the same reason. The authorities are making a serious effort to have the province cleared at an early date, in anticipation of the joint inspection by British and Chinese officials prior to the prohibition of the import or sale of Indian opium."

### LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

### TRY DYNAMITE.

Summerland, B.C.  
19th August 1915.

The Editor,  
Summerland Review.  
Dear Sir,—  
At the risk of offering advice where it will be unwelcome I ask space in your columns for some remarks respecting the drainage of the pot hole that was drained by Mr Hilborn last year.  
From your report of the Council meeting at which this matter was discussed I learn that the Superintendent recently tried to drain the pond by Mr Hilborn's method of last year, but could not lower the water, and that, in consequence, a drain at an estimated cost of \$1,000 is to be dug to afford the desired relief.  
What the Superintendent did was to sink a trench nearly to about the level of the bottom of the pond. The excavation was altogether in sand, and the water filtered in to the level of the surface of the pond but did not drain away as seems to have been expected. Why? Because collections of water on low ground without an outlet are due to an underlying stratum of clay or other material through which the water cannot sink. If the trench had been sunk through the impervious ground below, the experiment would have succeeded in all probability.  
Such ponds are often permanently dried up by shattering the impervious layer with a low percentage of dynamite. Such work, however, should be done in accordance with a properly prepared specification of details of procedure.  
Until an effort to drain the pond on the lines indicated has failed, there does not appear to be justification for the construction of a drain at a cost of \$1,000.  
Yours truly,  
J. A. KIRK.

### TAG DAY.

A committee has been appointed to see that Saturday, August 28th shall be kept as Tag Day in aid of the hospital for the province of British Columbia at the front. There will be stands in various parts of the locality where every passer-by will be "held-up" and asked to buy a "tag," so we would remind every citizen to be sure and carry some cash in his pockets on that day. The outlying districts will also be canvassed so that those who stay at home shall not be left out. The owners of motor cars who would offer their services for that part of the work would be most acceptable.

Mr Shaw, recently of Seven Persons, Alta., with his wife and family, have taken up residence in Victoria Gardens.

The members of the West Summerland Women's Institute may now get two pound jam tins at A. B. Elliott's for putting up jam for the soldiers.

Careful analysis of the apple crop of the United States, showing that the total yield will be approximately one-third less than that of last year, coupled with improved financial conditions, has resulted in almost every apple dealer in the Wenatchee Valley asking higher prices for the fruit. The schedule of prices generally followed now ranges from \$1.05 per box for Black Bens to \$2.25 for Bananas.

### Treating The Nurses To Fruit.

Quite a quantity of fruit is being sent from here and other Valley points to Sicamous to-morrow, Saturday, as a donation to the nurses of the 5th B.C. Hospital which passes east through Sicamous on Sunday. The fruit is contributed by the doctors and their friends of the Valley. A unit from the Vernon camp will join the hospital staff at the junction. Miss Blott and Elwood Bent of this place, and Dr A. S. Munro, a property holder here, and brother of R. S. Munro, are among those leaving Victoria to-morrow.

Pte. Sagers of the 47th, Camp Vernon, came down last night for a visit of two or three days with his sister, Mrs Webb.

George Fosbery, brother of Wm. C. W. Fosbery, is still another local man who is contemplating enlistment immediately, perhaps into the 62nd battalion. It is possible, however, that he may go to Kamloops and train with the Home Service men there, and later be drafted into an overseas service battalion. Two more recruits from Summerland, who have been accepted by the medical examiners are "Lawrie" Hatfield and D. Roy White. They are now awaiting orders to report at Vernon.

### Notice of Assignment

Pursuant to the Creditors' Trust Deeds Act 1901 and Amending Acts.

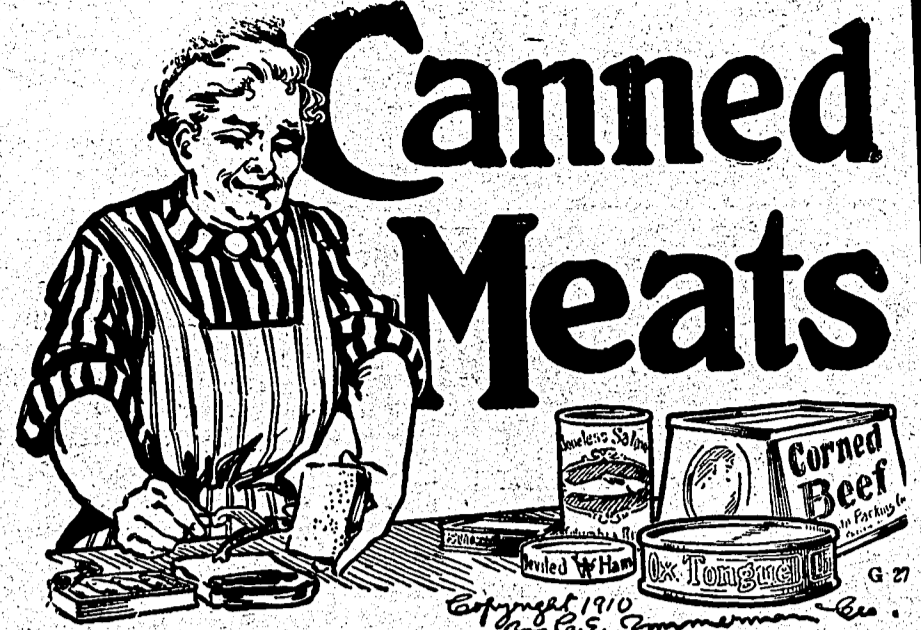

NOTICE is hereby given that Charles Henry Cordy of Summerland in the Province of British Columbia, Hotelkeeper, has by deed dated the 9th day of August A.D. 1915, assigned all his real and personal estate, credits and effects, which may be seized, sold, or attached, under execution, to Charles Peel Nelson of said Summerland, Accountant, for the general benefit of his creditors.

A meeting of the creditors will be held at the office of the Assignee at said Summerland on Monday the 23rd day of August A.D. 1915, at 3 o'clock in the afternoon, to receive statement of affairs and for the general ordering of the estate.

AND NOTICE is hereby given that all parties having claims against said Charles Henry Cordy are required to file the same with the Assignee on or before the 1st day of October, A.D. 1915, with full particulars of their claims verified by Statutory Declaration, and the nature and value of the securities, if any, held by them. All parties indebted to the estate are requested to pay the amount of their indebtedness forthwith to the Assignee.

AND NOTICE is hereby given that after the 1st day of October A.D. 1915, the Assignee will proceed to distribute the assets of the said Charles Henry Cordy amongst the creditors of whose claims he shall then have had notice, and that he will not be responsible for the assets, or any part thereof, so distributed, to any creditors of whose claims he shall not then have had notice.

DATED at Summerland, B.C., this 14th day of August A.D. 1915.  
W. C. KELLEY,  
Solicitor for the Assignee.

## Why Worry About Lunch?

A LOOK over our canned goods will chase away your trouble for ever. All kinds of tempting canned meat and fish are carried by this store in great variety. We sell quickly and never have old stock. Consequently you are sure of that fresh, natural taste—combined with the appetizing flavor caused by canning—in every brand. Those meats are delicious—as kept and sold by us. Canned and retailed under the Government Pure Food Act.

should have  
A  
**UNION JACK**

## There are not enough Union Jacks in Canada

In other countries on days of rejoicing or National Anniversaries flags are unfurled from almost every house-top or window. Canadians are just as loyal, but unfortunately they find themselves short of flags. In almost every place in Canada there is a movement on foot now to see that the Old Flag is floating from every Canadian home. The newspapers have been asked to assist in the distribution.

The Review has agreed to undertake the distribution in this district, and our readers can secure a real good Union Jack, in fast colors, size 5 x 3, for only

**\$1.10**

At this price there is no reason why every home in the district should not have a Union Jack floating on all occasions in future.

LET THE OLD FLAG BE SEEN EVERYWHERE

Every Home In Canada Should Have A UNION JACK.

A 5 ft. by 3 ft. Union Jack, in guaranteed fast colors, for \$1.10. Now ready at

**THE GARDENER'S FRIEND.**  
The toad lives from ten to forty years, and it can lay over 1,000 eggs a year. It has lived two years without food, but cannot live long under water. It never takes dead or motionless food. It captures and devours wasps, yellow-jackets, ants, beetles, worms, spiders, snails, bugs, grasshoppers, crickets, weevils, caterpillars, moths, etc. In twenty-four hours the toad consumes enough food to fill its stomach four times. A single toad will in three months devour over 10,000 insects. If every ten of these would have done one cent's worth of damage the toad has saved ten dollars. Evidently the toad is a valuable friend of the farmer, gardener, and fruit grower, and can be made especially useful in the greenhouse, garden, and berry patch.

**Yakima Growers Fix Pear Prices.**  
Backed by a guaranty fund of \$5,000 the growers council at North Yakima is forcing up the price of pears. Seven shipping firms, by an agreement with the growers, began paying \$17.50 a ton for pears. One independent buyer met their price. He had been paying \$15 a ton. Little fruit was sold at the new prices.

**AN OLD GEEZER.**  
There was an old geezer and he had a lot of sense; He started up a business on a dollar eighty cents— The dollar for stock and the eighty for an ad Brought him three lovely dollars in a day, by dad!

Well, he bought more goods and a little more space And he played that system with a smile on his face. The customers flocked to his two-by-four And soon he had to hustle for a regular store.

Upon the square where the people pass, He gobbled up a corner that was all plate glass. He fixed up the window with the best that he had Then he told them all about it in a half-page ad.

He soon had 'em coming, and he never quit And he wouldn't cut down on his ads one bit. Well he's kept things humping in the town ever since And everybody calls him the Merchant Prince.  
—Vevay Reveille.

**THINNING THE FRUIT.**  
While it is a function of the tree to produce fruit, the excessive production of fruit is a serious drain upon the health and vitality of the tree. A tree can produce only about a certain number of pounds of fruit, and it is a far greater drain upon its vigor to mature two hundred pounds of peaches comprising one thousand individual fruits, than if it produced the same weight of fruit with only 500 individual fruits concerned. Theoretically, a good orchardist should so grow and feed his trees as to fit the trees to the crop; rather than the crop to the tree. In seasons like the present one, and with certain varieties, theory must give way to practice, and we must thin not only for the sake of the health of the trees, but to get better quality. Young trees just coming into bearing may be seriously injured by allowing too many fruits to remain upon the tree and thus overtax its strength.

Envy will eat into the very center of the heart, and put an end to all growth, all joy, all freedom. As I would warn a child against the tiger's hidden den, so would I warn myself and you against this all destroying envy.—Joseph Parker.

**Mortgage Sale.**  
Under and by virtue of the Power of Sale contained in a certain Indenture of Mortgage bearing date the 31st day of May, 1911, and made by Hamilton Chalmers Cruikshank, the lands therein mentioned, that is to say, Lot numbered Eight (8), in Block lettered "D," being part of District Lot numbered Five Hundred and eight (508), Group One (1), Osoyoos Division of Yale District, according to registered Map Two hundred and sixty-eight (268), will be sold by private sale. Tenders for the purchase thereof will be received by the undersigned up to and inclusive of the 28th day of August, 1915.

The property is situate at Summerland and the orchard thereon is stated to be planted with good varieties of apples, apricots, cherries, and other fruits, and to be in a good state of cultivation. For further particulars and terms of sale apply to  
ARTHUR O. COCHRANE,  
Vernon, B.C.,  
Solicitor for the Mortgagee.

Corporation of the District of Summerland.

# OUR NARAMATA SECTION:

Everything of Business and Social Importance  
Transpiring in South Okanagan's Newest Town

### Farmers' Institute Meeting.

The regular monthly meeting of the Farmers' Institute was held on Friday evening last in the church basement. The chair was occupied by the president, Mr George Cook, and Mr J. H. Pushman was in his place as usual.

The routine business was briefly disposed of, but when it came time to close the discussion on the oft-recurring topic—the water question—the debates were long, frequent, and in some instances, fiery.

A heated crossfire occurred on the right of the absentee fruit lot owners to water in these times of scarcity. Some took the ground that all such absentees who gave no assistance either in actual cash or labor toward the construction of water storage facilities last fall, are not entitled to any special consideration; that all they are entitled to is their share of the natural flow of the creeks.

Others, more inclined to view the matter in the clear, cold light of facts—or in other words, the legal side—were just as positive that those absentees are entitled to be given at least a fair, square chance to get in on the game; that they should have been notified of the intention to construct a dam—and be given a chance to contribute their share of assistance.

At this juncture a difficulty was met. It was pointed out that the committee consisting of Messrs George Cook, William Nuttall and the late Mr H. J. Wells had been selected to carry on the construction work, and that this committee was a standing committee with one member deceased. The vacancy could only be filled at a citizens' meeting. Accordingly the Institute was declared adjourned, and instead of waiting for another week to summon the community to convene, it was resolved to declare ourselves a citizens' meeting, and

"ROUGH ON RATS" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.  
N.B.—Unauthorized publication of this advertisement will not be held.

that the same officials preside.

Mr F. H. Rounds was selected as the third member of the standing committee, with instructions to notify all absentee lot owners of our present situation, and to call upon them each and all to contribute the sum of one dollar per acre under their several water agreements, to meet the expense of securing storage facilities.

### Current Events — OF — Town & District

#### Birth.

SCHRECK — Born at Keystone Ranch, Naramata, on Saturday August 14th, to Mr and Mrs John Melvin Schreck, a son.

Mr and Mrs Carroll Aikins were passengers on Saturday morning's boat as far as Kelowna.

Mrs E. P. Roe went out on Tuesday morning's boat en route for her old home city of Ottawa.

The local branch of the Red Cross Society met as usual on Saturday afternoon at the Unity Club rooms.

Miss Emma Davies returned on Thursday from Summerland where she has been engaged as a probationary nurse.

Mrs T. H. Boothe, who has been on an extended visit to her own folks at Toronto and Markham, reached home on Monday evening.

Russell Roe, son of Captain P. S. Roe, spent a few days' furlough at his home here this week. Russell is now a member of the 47th.

Miss Naomi O'Calligan, the newly appointed primary teacher has reached town, and will enter upon her new duties on Monday morning August 23rd.

Mr Jack Sherriff of Rockland, Ont., started on his return trip on Tuesday. While here he made tentative arrangements for fetching out another car of young cattle in the near future.

Rev. C. H. Daly, Presbyterian minister from Summerland, conducted service here last Sabbath afternoon. This appears to have been Mr Daly's first appearance in a Naramata pulpit.

Captain P. S. Roe, of the Lake Boat Company, has gone to England to serve his country by working in a machine shop. The best wishes of the community follow him in this patriotic decision.

Mr Walter Land went out on Thursday's steamer en route to his old home in England. We all wish him a safe voyage and a safe return when the swallows again decide to occupy their deserted Okanagan nests.

Hibbert Loudan, son of Mr J. H. Loudan, of Calgary, returned to his native city on Saturday. During his two months' residence here on his father's fruit farm he became quite well versed in much of the fruit farm lore.

Next Friday afternoon — "and don't you forget it!" — say the ladies, is Unity Club picnic day. Seems that there was some hitch last month over the exact date. This is being obviated this time by a more generous use of printer's ink.

Roy Boothe is home from the camp at Vernon for a week's furlough. Roy appears to enjoy the life of a soldier thus far, but declares that he is about "fed up" on the home training, and is impatient to get away to England and the front.

### Naramata Current Events (Continued.)

Mr and Mrs Rayner have taken up residence in the Alexander cottage.

A full report of the Sunday School picnic is necessarily held over till next week's issue.

J. H. Hodson and wife spent Friday at Kelowna where they attended the regatta, and incidentally renewed acquaintances.

A number of residents of Naramata claim that they experienced a slight earthquake shock on Wednesday morning about six o'clock.

Mrs James Turner, of Armstrong, who has been the guest for a short holiday at the home of Mrs Languedoc, returned to her home on Saturday.

Mr R. J. McDougall, editor and manager of the Penticton Herald, accompanied by Mr F. Lorrie Roe, circulation and advertising manager, were in town for a day or so this week.

There was quite an appreciable falling off in the number of passengers booked this year from this place to attend the Kelowna Regatta. Nearly every year it was found necessary to run a special ferry for the overflow, but this extra accommodation was not required this year.

That enthusiastic workers in the Red Cross can chase up ways and means of extracting the coin from the hidden depths is being proven every day. Just the other day Miss M. S. Gordon was duly elected official Fortune Teller for the club of workers, and by charging the nominal fee of one dime created the nucleus for a really creditable sum, and provided a good deal of wholesome fun as well.

Considerable difficulty is being experienced by local fruit growers in disposing of their over ripe and surplus stock of peaches and apricots. The efforts being made for such disposal to the Penticton cannery are not up to the mark, and it is becoming evident that if ever we are to have a cannery we must dig down some after the money in order to set a local house or factory in operation.

### Wanted

To trade a choice 10 ac. Lot for an Acre Lot near some town in the Valley.

Summerland, B.C.

### Roots and Vegetables

Something of Their Peculiar Characteristics and Food Values.

Green vegetables are less nutritious than roots, and are valued chiefly for their dietetic value and for their flavor. They are largely composed of water and cellulose, which makes them useful as laxatives. They contain, as a rule, about 90 per cent. of water, and only 10 to 15 per cent. of muscle-building materials. But their value in the diet cannot be overestimated. Taken individually, we find that most of them have a medicinal value, which, if fully appreciated by the public, would do much to decrease the alarming consumption of patent medicines, which at present prevails.

ASPARAGUS is not a delicacy of recent date, but was highly valued by the Romans as long ago as 425 B.C. The green asparagus is considered the best variety, and may be grown to perfection among the vines in our maritime counties. It is only slightly nutritive, but contains a crystalline nitrogenous substance called asparagin, which produces marked physiological effects.

CABBAGE contains sulphur, and is, therefore, stultic in effect. Boiling dissipates a good deal of the sulphur compounds and softens the cellulose, but cabbage is never so digestible as when young, and eaten raw, with vinegar, as with sautée.

CAULIFLOWER is an inflores-

### USE

## DUSTOLINE, A Sanitary Sweeping Compound

Absorbs the dust  
Kills all germs  
Saves the carpet  
Has a pleasant odour  
Saves labour

45c a Large Tin

### USE CARBOLIUM, A Perfect Disinfectant

Suitable for use in the house and stable.  
Kills Mosquitoes, Bugs, Fleas, Lice and other vermin  
A disinfectant is absolutely necessary during hot weather.  
Carboliium meets all needs.  
Half gallon tin diluted makes 12 GALLONS of good disinfectant.

Price \$1.50 per tin

The Naramata Supply Co., Ltd.

### Comparative Food Value of Milk.

In the educational exhibits of the Iowa Dairy and Food Department different articles of food are on exhibition, and placards stating the cost of each as compared with one quart of milk. In one exhibit the following information was given:

A quart of milk is equal in value to any of the following:

Seven ounces of full-cream cheese.

Ten eggs.

Eleven ounces of fat round beef.

Fifteen ounces of boneless cod-fish.

Six and one-half ounces white bread.

Five ounces of cornmeal.

Nine and one-half ounces of potatoes.

Four pounds and two ounces of cabbage.

Five ounces of dried beans.

Eight oranges.

One dozen apples.

Five bananas.

Six and one-half ounces of prunes.

Four and one-half ounces of walnuts.

The American quart being approximately five-sixths of our quart, the proportionate value would be correspondingly greater.

Good to return until October 31st. Lower rates for shorter periods.

For full particulars apply to

H. W. BROADIE, G.P.A. Vancouver. G. M. ROSS, Agent, Summerland

Passing Events: Social, Personal, &c.

Mrs Bateman and Miss Bateman of Vancouver are visiting Mrs G. L. McWilliams.

Mr Harry Moyle, from near Toronto, is visiting his father here, Mr Henry Moyle.

Returning from a trip to Spokane E. C. Graham reached home again on Monday evening of this week. He made the journey in his Ford.

Misses Louise and Muriel Wilcox of Toronto, who have been teaching on the prairies have been guests of Rev and Mrs McNaughton. They left last Friday for Vancouver.

After a visit of about four weeks in Peachland, Mrs T. N. Ritchie and family, with Mrs Grieve, have returned to Summerland, being passengers down the lake on Monday evening's boat.

After a visit of about two months at the Balcomo home of his son, W. R. Secrest, Mr Thos. Secrest left on Monday morning by the K.V.R. on his way back to his home at Oakesdale, Washington, a short distance south of Spokane.

J. C. Robson returned early this week to Rossland, B.C., to take up his teaching duties again next week. He went down to Penticton on the "Sicamous," and from thence on by K.V.R., stopping a few days at his Edgewood Ranch on Lower Arrow Lake.

Visitors at the Garnett Valley home of Mr and Mrs C. W. Lamb for the past two weeks have been Mr and Mrs Gravatt of Traer, Iowa. Mrs Gravatt is a sister of Mr Lamb, and this visit to Summerland is being made on their return from a trip to the San Francisco Exposition. This is their first visit to the Okanagan, and the appearance of the Valley has made a very favorable impression upon them. They are leaving on Monday morning of next week.

Municipality of Summerland.

Applications stating salary wanted will be received by the undersigned up to September 6, 1915, for the position of manager of the municipal electric light plant. Capacity of plant 30 kw.

FOR SALE.

Five Fence Posts, Five Wood, 18 inches and 4 feet.

BALCOMO RANCH. R.V. Agur, Mgr.

Mrs R. F. Theed and family have been camping in the Agur boat house for a few days.

Sergeant French of the 102nd Regiment was in town this week for a short time in the course of a recruiting errand.

Mr and Mrs H. O. Hatt and family of Vancouver came in on Monday over the K.V.R. on a visit to Mr Hatt's brother, Rev. D. E. Hatt.

Fred Brind and Ernest Smith are down from the Vernon camp on harvest leave. They arrived in town last Saturday, and their leave extends for about three weeks.

Mr and Mrs W. F. Markoe of St Paul, Minn., who made a short visit to their son, Mr E. W. Markoe, have returned to St Paul, staying at San Francisco on their way east.

The O. E. Tomlin property occupied by Rev. A. W. McLeod previous to his removal to Chilliwack, has been sold by Jas. Ritchie to Mr Dockstader, a rancher from near Calgary.

S. L. Taube, the well-known Optical Specialist, will be at the Summerland Drug Store on Friday August 27th. If there is anything wrong with your eyes make it a point to see him.

Yet another fire! This time it was the barn on Mrs R. H. Stewart's orchard. While the cause is unknown, it is supposed to have been a case of spontaneous combustion in the manure pile.

Miss J. Rothwell and Miss Mary Lister were arrivals back to Summerland on Wednesday evening's boat from Regina, where they have spent most of the school vacation time, at Miss Rothwell's home.

Cockerels for sale from prize winning stock, white leghorns, white and black orpingtons, single and rose combeds, black minorcas, barred rocks, also mammoth pekin ducks. L. V. Newton, Keremeos, B.C. a20-27

For a two weeks' camping visit, Mr and Mrs Hugh Walton have a party out at their ranch back of Summerland, including Mrs Brewer, Mrs Haddrell, Miss Lintern, Miss Thompson, and the four children of Rev and Mrs H. A. Solly.

Miss Sue Dimock of Peachland, who has been a visitor to Summerland for a time at the home of Mrs W. Estabrook, returned to her home up the lake on Sunday morning last, accompanying Rev. H. G. Estabrook, who was driving up to conduct service there.

"Bob" Callan is amongst those of our young men who have recently enlisted, having gone up to the Vernon Camp on Tuesday morning for that purpose. His brother, George, who has been in Calgary for several months, is now en route for England, having enlisted in the prairie city early in May.

Mrs G. J. C. White is expected home either to-night or Saturday night. Since leaving here some weeks ago, primarily to attend the marriage of her son, Gilbert, Mrs White has covered much territory and visited many centres as well as the old familiar Acadia scenes. The return journey from Nova Scotia has been broken by a stay of a week in Chicago with son and daughter-in-law.

Good work is being done under the direction of George Gartrell in straightening out the road to Trout Creek where it passes the Lakeside Ranch. At present the road at that point swings in, following the side hill, making unnecessary grades and a narrow and crooked road. This will all be cut out by the straighter road across the flat. Much clearing of thick underbrush has been necessary, but the work is now about ready for plow and grader.

The movement which has for its object the raising of funds for the purpose of providing machine guns for the Canadian contingents has found a ready response in every part of the country. In this province it has been taken up very enthusiastically, and it is but natural that there are people in Summerland who think that this community should also do its part in such a movement. How it might best be put on foot has not been suggested, but it is understood there are citizens who are willing to undertake the work that the collection and forwarding of subscriptions would entail.

Mr F. A. C. Wright of Garnett Valley, is now in the British trenches in Belgium.

Mrs C. H. Daly who was operated upon at the Hospital a few days ago is, we are glad to report, making good progress towards convalescence.

Mrs W. Carberry and Miss L. McAdams, who have been visiting Mrs R. Clouston for the past two months, have returned to Cambridge, Mass.

L. R. C. Douglas-Hamilton, who left here last fall to take up military service in England, is now ranked Captain in the 7th Cameron Highlanders, now at the front.

W. A. Jackson, father of Mrs Kirby, whose husband is captain of the "Sicamous," has been a visitor registered at Hotel Summerland for the past few days.

Mr Forest of Douglas, Renfrew County, Ont., is a guest at Kalavista Resthome. A camping party including several other guests returned on Monday from Osprey Lake.

Rev. Mr Peck of Claresholme, Alta., accompanied by one of his daughters came in last week. Two of his children are already here in the care of Mrs J. M. Harrison and the other has come to join them.

Miss Beatrice Bloomfield, now of Rossland, is spending a two weeks' vacation here at the home of her parents, having reached here on Thursday morning, making the journey over the K.V.R.

85 per cent. of all headaches are the result of eye-strain. Are you troubled that way? If so, consult S. L. Taube the well-known Optical Specialist. He will be at the Summerland Drug Store on Friday, August 27th.

Allen Lister and friend, Mr Rookwood, are visitors at the home of Mr and Mrs T. R. Harwood for a few days. Mr Lister is an Alberta student who looks forward in the future to entering the Methodist ministry.

Legal notice appearing elsewhere in these columns announces that C. H. Cordy, proprietor of the Felix Hotel, has made an assignment for the benefit of his creditors. The statutory meeting for the presentation of claims against the estate is announced for next Monday evening.

Mr O. Vaughan arrived back in Summerland by last Sunday evening's boat after spending the previous week at Victoria. His brother, on account of whose illness he made the trip to the Coast, is lying in the hospital at Victoria in a precarious condition, following a serious operation.

Coming down on Friday last George Fisher spent Saturday and Sunday with friends and relatives here. With him was Mr Leslie, a camp friend. Mr Fisher is attached to the Army Medical Corps, and is delighted with having been selected as one of a draft which is leaving the Vernon camp at once for overseas.

Principal R. B. Forsyth of the High School, arrived back in town on Saturday night from Victoria. At the Department of Education's summer schools he took courses in English Literature and French, and at the conclusion of the school he enjoyed a couple of weeks camping on the east coast of Vancouver Island.

As the result of a run-off the K.V.R. train was much delayed in arriving on Monday. About 13 miles west of Osprey, according to reports, a refrigerator car jumped the rails, pulling another car with it. The engine came on to Osprey Lanko and met the west bound freight, and getting the engine went back and got the passengers. A wreck train was sent up from Penticton, and in a few hours the cars were again on the track.

Mr and Mrs E. H. Lock left by Thursday's K.V.R. westbound train, bound for Ladner, B.C., where Mr Lock will resume his High School principalship duties. He came up from Kloden and boarded the train at Penticton, while Mrs Lock, after spending about a week at the home of her parents, Mr and Mrs A. B. Williams, Peach Orchard, joined her husband at the Peach Valley station. Mrs J. Lock expects to remain at Kloden for possibly another two months, to care for the apple harvest on their orchard there.

Mrs David Keen and son Willie spent Wednesday of this week at Kelowna.

Mrs T. E. Clay entered the Hospital this week for the purpose of undergoing a surgical operation.

Miss Motion, a graduate of the Nanaimo Hospital, has joined the staff of the local hospital, coming in on Monday night.

Philip Agur is expected home from the Vernon camp next Monday to spend a few days at Balcomo Lodge, the home of his mother.

Mr and Mrs Atkins and family are taking a vacation trip in their auto, making Long Lake the camping point. Until Mr Atkins returns Creon Hatt is on duty at the central to answer any night calls.

A pleasant variation in the regular course of the Summerland Women's Institute meetings is being provided this afternoon through the invitation of Mrs R. H. English to hold the August meeting on her lawn.

Friends here will be delighted to hear of the very rapid restoration to health of R. V. Agur, who underwent an operation recently at the Mayo Brothers' Hospital, Rochester, Minn. Mr Agur is now on his way home, and has reached Vernon, where he will stay for a few days.

What might have proved another serious outbreak of fire was checked in its incipient stages last Friday evening in the tent of Mr D. F. Brewer, where the family formerly resided. As far as is known it has been unoccupied for some time, and by the merest chance two neighbors happened to enter the tent during the evening. The beginnings of a fire were at once discovered and promptly extinguished. Its origin cannot be imagined, but one shudders to think what might have happened if it had not been discovered when it was.

According to present arrangements the annual conference of Okanagan District Women's Institutes is to be held at Salmon Arm, on Tuesday and Wednesday, September 7th and 8th. Delegates appointed some time ago from the local institutes were Mesdames W. H. Hayes and H. A. Solly from the Summerland Institute, and Mesdames R. Cartwright, J. H. Hilborn, and Miss Spencer from the West Summerland body. From Naramata Mrs Carroll Aikins will be the official delegate. In her capacity as member of the Provincial Advisory Board for the Okanagan, Mrs R. C. Lipsett will also attend.

Fruit Union Members Meet.

The special meeting of the members of the Summerland Fruit Union held last Saturday night in Campbell's Hall was rather slimly attended. The president, Mr G. J. C. White, spoke at some length, giving a general review of the situation as regards marketing. With the exception of peaches, prospects generally are very satisfactory as regards the fruit market. Vegetable prices are low. By exporting potatoes it is hoped that a fair price will be obtained, and the first of these will go out soon with a shipment of apples, a carload in all, to South America. Several cars of apples will be shipped to South Africa, and a quantity to New Zealand and Australia.

One of the members found fault with the directors for leasing the upper warehouse, but it was explained that this was being done by the direction of the members according to a decision reached in open meeting.

The idea of frequent regular meetings of the growers is a good one, and the opportunity to discuss the problems and learn of true conditions should be more generally taken advantage of.

R. Langlands, father of Mrs R. W. Lee, is leaving on Sunday morning for Hazelton, B.C., where he will visit with another daughter, Mrs J. Newick.

Union services of the Presbyterian and Baptist Churches will be held both morning and evening next in St Andrew's Church, Rev. N. McNaughton will preach at both services.

Mrs A. L. Moreland and family arrived from Kelowna last Friday, and with Mr Moreland have taken up residence in the Gainer cottage, alterations and renovations to which have recently been carried out.

Methodist services will be conducted on Sunday next at 10.30 a.m. and 7 p.m. The singing at the morning service will be led by the united choir. In the evening a Memorial Service will be held to the memory of the late Rev. J. M. Harrison, to be conducted by Rev. R. W. Lee.

Mrs R. C. Lipsett, Mrs Angwin, and Mrs J. E. Phinney spent Thursday of this week in Peachland attending the Fair organized by the Women's Institute of that town. Mrs Phinney was the judge of the exhibits entered in the cookery section, while Mrs Angwin awarded the prizes in fancy and needlework.

## LOCALS.

Mrs Airlie, of Salt Lake City, is visiting her sister, Mrs R. S. Monro, Peach Valley.

After a week spent here with A. H. Steven, Mr Richardson of Admiral, Sask, left for home early this week.

William Ritchie was an outbound traveller last Saturday leaving for Calgary in charge of a carload of horses belonging to the Woodworth estate which have been ranging in this district. Mr Ritchie will dispose of the animals in the Alberta city.

Distinguished visitors to Summerland for the past week have been Sir Melbourne and Lady Tait, of Montreal, who have been visiting their son, R. G. Tait, at the Shaughnessy Ranch, arriving on Thursday evening of last week. On Tuesday last they took an automobile trip to Kaleden.

Elwood Bent of the 5th B.C. Hospital, now training at Victoria, spent last Sunday and Monday with his parents here, leaving again on Tuesday morning, expecting the hospital would be ordered to entrain at any time. He is the only man among over two hundred from the Interior. The doctors are also Coast men, but the nurses were enrolled from well over the province.

## APPLES FOR RED CROSS.

A proposal that should meet with ready response from all our fruit growers, and one that is much more certain of success than is the suggestion to raise enough cash to buy a machine gun, commendable as that object is, is that a carload of apples be made up to be sent overseas for use in the hospitals under the Canadian Red Cross Society. No doubt more of this will be heard later.

Dr White of Penticton is here today assisting Dr Andrew in some surgical work.

G. D. Marson is home on twenty days harvest leave, coming down from the Vernon Camp last night.

F. F. Hanington, late manager of the local branch of the Commerce Bank, came off the boat on Saturday evening from Vancouver. He is taking his annual vacation before embarking on his new work, the location of which he has not yet been informed.

G. L. Parker, a former citizen of Summerland and owner of the orchard just north of D. Lorne Sutherland's, has gone to England to offer his services to the Empire in any way in which they will be most acceptable. Mr Parker has been living in Vernon during the last few years.

## Newsy Paragraphs

from

## PEACHLAND

Miss Ethel House is now at Lumby, where she will be visiting for about another week.

B. Conroy is mentioned as the latest Peachland recruit to heed the call to serve king and country.

Miss Bina McLaughlan is home again after making a visit with her sister, Mrs Kirkby, at Penticton.

Dominion Fruit Inspector Boies whose headquarters are at Summerland was about this district for a short time this week.

On a visit to her sister here, Miss Gertrude Elsey is now a visitor in town, staying at the home of Mrs H. E. McCall.

R. Raickey of this place and his brother from Penticton have gone to the Prairies where they will put in the harvest season.

On Tuesday morning Mrs (Capt.) Tewart was a passenger on the "Sicamous" bound for the Coast where she will visit for some time.

Mr and Mrs Wallis, of Winnipeg left last Thursday on their return to the prairie capital. They have been the guests of Mrs J. L. Elliott.

Mrs T. E. Clay and family were visitors to Peachland on Sunday last, being brought up from Summerland by Mr E. N. Rowley in his launch the "Lil."

Peachlanders greatly regretted to learn of the death of Rev J. M. Harrison in Summerland last Sunday. Mr Harrison was a property owner here as well as in that town.

It is understood that Miss Bessie Seaton, who has lately returned from attending the government summer courses at Victoria, has taken a position in the Vernon city schools.

Mr and Mrs J. Marr and little child have returned to Chilliwack where Mr Marr again takes up his work in the schools. While here they were the guests of Mrs McDougald, Mrs Marr's mother.

The government pile driver, under the charge of Mr L. D. McCall, has again taken up its customary moorings on the waterfront after a stay of about two weeks at various upper lake points repairing sundry wharfs and landings.

There were about a dozen and a half visitors from Peachland to the annual Kelowna Regatta last week. They report a good program, but they were disappointed at having to miss the war canoe events which promised some good racing.

Mr K. S. Hogg came up from Summerland in his motor boat last Thursday afternoon and his sisters-in-law, Misses Robina and Grace Logie accompanied him on the return trip after a pleasant camping holiday at the mouth of Deep Creek.

The municipal authorities have taken up with the proposal to hold a tag day in Peachland to help raise funds for the B.C. Military Hospital equipment. The date of the tag day is August 28th, and the young ladies in charge are Miss Nancy Buchanan, Miss Beatrice Lang, Miss Rene Elliott, and Miss Mary Vicary. There is no doubt that the occasion will be a complete success in this town at any rate.

Before their return to Summerland only this week, Mrs T. N. Ritchie and Mrs Grove entertained a number of guests at the Ritchie cottage. Last week Mrs T. J. McAlpine and Mrs T. E. Clay of Summerland spent a day with them, and on Sunday a party of about eight or nine also came up from that town for the day. They included Mr T. N. Ritchie and son Dwight, the Misses Babbit, Miss Anne and Ruth Blair, and Mr Canon Wright.

It is with great regret that the departure of Dr and Mrs F. G. Harrington and Miss Dorothy from Peachland must be recorded. Mrs Harrington and daughter were passengers out to Vancouver on Tuesday of this week, and Dr Harrington will join them there at an early date. During their stay in this place they have made for themselves a big place in the community life, and entering so heartily as they did into all the activities of the place they will be sorely missed. Is it too much to hope that we may at some time in the future welcome them back to Peachland?

## NO SUGAR

We have received the following Fruit Preserving Recipe from a reliable source, and reprint same for the benefit of those of our customers who may have decided to curtail the making of preserves this season on account of the high market price of sugar.

## Our Motive

in publishing it, is to encourage bottling fruit, and suggesting that the money usually expended in sugar be used for what might be termed

## Absolute Necessities.

Sugar will eventually have to be used in preparing the fruit for the table, but much less will be required to sweeten to taste.

Authorities all agree that fruit put up without sugar retains its delicate and distinctive flavor.

To put up fruits without sugar, simply prepare them in the ordinary way; see that the jars are perfectly clean, thoroughly scalded with boiling water, filled to the top and left in them a considerable time; boil the rubbers and covers, and see that the rubbers are soft and free from grooves or cracks, place the fruit in the jars, fill with cold water, place them in a boiler filled with cold water, heat to the boiling point. Berries will do if removed when the boiling point is reached. Large fruits, such as peaches, pears, plums, cherries, and the like should get 20 to 30 minutes boiling.

A board should be placed in the bottom of the boiler to keep the jars from the direct heat of the stove. Fruit thus prepared will be found excellent for pies, delicious for eating with cream, and generally superior to the sugar-syrup preserves. In properly air-tight jars they will also keep quite as long.

We carry in stock "Perfect Seal" and "Economy" Jars.

## Calgary Merchants Accept Invitation to Visit Valley.

### Is Summerland To Be Passed By?

The invitation of British Columbia fruit growers to make an excursion to the fruit districts of this province has been accepted on behalf of business men and merchants of Calgary by the Board of Trade of that city. The excursion will start on October 2 next.

During the period from the first of October for a few weeks there is a brief lull between the marketing of summer fruit and fall fruit, and the excursion will take advantage of this interval. The Calgary business men and merchants will go via the Crow's Nest Pass inspecting the orchards of Creston, Nelson and Grand Forks, thence to the Okanagan Valley, stopping off at Kelowna, Penticton and Vernon. Returning to Calgary the excursion will go back over the main line.

The invitation to make the trip was formally extended to a recent meeting of the Calgary Board of Trade by R. M. Winslow, who presented the following letter from British Columbia Fruit Growers' Association praising the results of the recent fruit convention in Calgary as follows:

"The results of the conference are already felt in a greater demand for British Columbia fruit both on the part of the trade and of the Alberta public. Our better acquaintance with the Calgary of to-day makes more obvious than ever the great importance of Calgary as the main distributing centre for British Columbia fruit.

"The suggestion made by the consumers at the conference that the difficulties of the fruit trade should be made the subject of a special investigation by the federal government appealed to the producers. We feel that only through such an impartial investigation will the facts of the case be made sufficiently clear to bring about the desired results."

While endorsing very heartily the idea of this tour of Alberta business men, there is one weakness in the scheme that will be apparent at once to our readers. It is that Summerland and Peachland have no place on the itinerary, beyond what will probably be the usual morning calls of the north-bound boat. It could surely be very easily arranged that the touring party come up from Penticton to Summerland by the K.V.R. and spend at least a day looking over the district, proceeding up the lake on their journey the following day, stopping at Peachland, one of our most advanced fruit sections. It is a safe guess that the travellers would welcome such an amendment to their program, to be effected with so little inconvenience, and at the cost of one extra day.

The real problem in connection with the matter is who should take it in hand. One naturally thinks of the local Board of Trade, but can that body be stirred from somnolence in time to deal with it effectively? In justice to the district, such an opportunity for the right kind of publicity work in the best possible field should not be allowed to slip by, when with so little trouble and expense it could be turned to such advantage to the community.

## Pears Wanted.

"Five more shipments Washington pears rejected. No pears here. Demand excessive. Publish these facts broadest."

The above has been received by Assistant Fruit Posts Inspector Lyne from his chief, Inspector Cunningham, Vancouver.

The constant turning back of infected fruit shipped from American points is lowering the Coast market entirely bare, and making it necessary to look to the home orchards for fruit.

## TEACHING STAFF AND SCHOOL BOARD CONFER.

Practically all the teachers in the employ of the School Board, and all the Trustees were present at a special conference last Saturday afternoon when many matters pertaining to school work were discussed. Among other decisions reached was, in view of the crowded condition of the rooms in the Central School, to have three years instead of two taught in the Town School.

The Principal of the Central School was asked to supervise the school vans and to see that only those who should be conveyed. Both the Trout Creek and Giant's Head rigs are crowded to capacity, and some of the nearer ones who were carried last year will be compelled to walk.

Matters of discipline, school equipment and supplies were talked over to mutual advantage.

## Carload of Fruit Shipped Back to U.S.

### Pears From Washington Found To Contain Larvae of Codling Moth.

The first carload of American fruit to be rejected whole because of the infection of a portion of the shipment, under the recent order of Fruit Inspector Cunningham, was rejected last week. It was a car from Washington carrying 400 boxes of pears and 600 boxes of peaches. The pears were found to be infected with the larvae of the destructive codling moth, resulting in condemnation. Although codling moth do not attack peaches if pears or apples are convenient, the risk of infection at this time of year, when the young larvae penetrate through the boxes of all fruit in the car, was sufficient to result in the entire carload of pears and peaches being sealed up and sent back to Washington.

A telegraphic message from Victoria about the same time reported that a large shipment of pears from Washington had been rejected there because of codling moth infection.

"This is a serious time for the development of insect pests south of the boundary," stated Inspector Cunningham. "The orchardists there are evidently not keeping them from growing. This alarming condition will have an important effect on shipments to Australia, which have hitherto passed through Vancouver in bond. I am writing to-day to the Dominion authorities at Ottawa for authority to inspect all fruit which passes through this province. We cannot take too many precautions to keep infection from entering our own orchards at this time, when our fruit growers have every prospect of success ahead of them."

## Progress of K.V. Road.

### Steel Being Laid and Bridges Erected On Section Near Hope.—Large Snowshed Contract.

Work in connection with the laying of steel and the erection of bridges on Kettle Valley Railway goes merrily on without a hitch, says the West Yale Review.

The track is now laid to within a mile of Ladner Creek. Between the head of steel and Ladner a steel bridge with a span of a hundred feet will be erected in a few days by the Canadian Bridge Company.

Messrs Vosburgh & Carlson, who are at present busying themselves with the erection of the cement supports for the big bridge at Ladner, have put on a double shift of men, so that the steel crew may be held up for as short a term as possible.

Telegraph poles have been erected and wires attached for a distance of ten miles from Hope. Station name boards have also been erected.

Good progress is being made by Messrs Guthrie & Macdougall with the erection of snowsheds from the "summit."

Presbyterian services will be held in St Andrew's Church next Sunday morning and in the Methodist Church at three in the afternoon. Rev. C. H. Daly will conduct both services.

## Send Best Fruit Only To Coast Markets.

### Valley Shippers Run Risk of Losing That Market Now Just Opened to Them.

## Advice and Warning From Inspector Cunningham.

### "Prune! Spray!! Thin!!!" Is Urgent Appeal.

The result of years of endeavor (and just at the time when the goal is in sight) is in danger of being rendered worse than lost unless the practice of some at least of our fruit shippers is changed. This, according to our zealous veteran fruit inspector, Mr Thomas Cunningham, in referring to the inferior shipments of apricots and peaches sent from the Okanagan this year to the Coast. It has taken years of the hardest work to get that market for the B.C. fruit grower. This year particularly there has been worked up quite a sentiment in favor of home grown fruit and vegetables. The people have refused the imported stuff, confidently waiting for something at least as good, grown in the home orchards. Now their loyalty is suffering a rude shock. So great is the disappointment that the sentiment is in danger of swinging hard over the other way with the giving up of hope of having their wants supplied from B.C. orchards, and if lost this patronage, now so willingly offered, will be impossible of recovery. The danger lies in the quality of fruit being sent to Vancouver, which, Mr Cunningham says, does not compare in size, color, and pack with the imported stuff.

Last week alone there were over 500 new members added to the B.C. Consumers' League, so it may be seen how the sentiment in favor of home products is spreading. If our shippers fail the American shippers will inevitably recapture and hold the best cash market. Inspector Cunningham, in a word of warning, says if we fail this year in keeping the Coast market supplied with what they need and can buy on the American side to advantage, it will mean the entire collapse of the fruit industry.

To impress the necessity of immediately remedying the present situation and urging that nothing but the best be sent to the Vancouver markets, Assistant Inspector Lyne is making a special tour of the Valley, calling on all the principal shippers.

There is in this district, according to Mr Lyne, a lamentable lack of pruning and thinning. On many trees the fruit is not what it should be, and it is small and worthless. He urges quality, with which there will be less waste and more money. In discussing the situation further

with the Review Mr Lyne said: "In order to compete successfully with the imported fruit coming into Vancouver, it is necessary that both the growers and packers do their respective duty. The grower must properly prune, spray, and thin his fruit, without which it is impossible to obtain the grade, and having attained that, it is necessary to use discretion when picking for market, and only deliver to the packer the standard necessary for successful competition.

"The packer should insist upon maintaining the standard by refusing to pack anything below it, and attend very carefully to the many details of packing and shipping. He would be working to the best interest of all concerned if he insisted on the following grades:—

No. 1 apricots, not more than 10 to the lb.

No. 2 apricots, not more than 20 to the lb.

No. 1 peaches, not less than 2 1/2 inches diameter.

No. 2 peaches, not less than 2 inches diameter.

No. 1 pears, not less than 2 1/2 inches diameter.

No. 2 pears, not less than 2 1/4 inches, except the small varieties of pears such as Sickle, etc.

"The above fruits are those on which our packers have had the hardest work to maintain the uniform grades required in their competition with the other side.

"But we know that just as good fruit can be produced in the Okanagan as in any part of the world.

"The consumer has pledged to use home grown fruit in preference to imported, providing the margin between the grades of home grown and imported is not too great, and he has had his patriotism severely tested in the case of one or two consignments of fruit shipped to Vancouver from the Okanagan, but is still very anxious to keep his money circulating within the province if possible, instead of sending it over to our cousins on the other side.

"Much as we like them, and sympathize with their own problems in the orchard, we must remember they are our competitors, and thoroughly believe in quality rather than quantity, which is brought about by careful cutting back and thinning, and they do not aim to raise any No. 2's let alone No. 3's."

## Number of Carload Shipments Rapidly Grow.

### Movement of Local Fruit Reaching Unprecedented Volume

To Dominion Cannors, Vernon, 8 cars. Wealthy apples, for export, 2 cars. Straight peaches, to Prairies, 2 cars. Mixed car, New Westminster, 1 car. Mixed car to Prairies, 1 car. To Vernon, for transshipment, 2 cars. Total 11 cars.

The above is a summary of the main Fruit Union shipments for the first four days of the present week. This promises to be the biggest week's business that organization has handled, but it may not stand as such for very long if the present volume of local orchard output continues to increase.

In addition to the above 11 cars, A. Stewart & Son continue to ship out a carload a day, increasing the total number of cars sent out from this point from Monday to Thursday of this week to 15.

A. H. Stevon is now sending out local fruit in quantities that bulk

up to about 2 carloads per week. He dispatched a mixed car last week and to Calgary, and to-morrow, Saturday, he is sending over the K.V.R. the first carload of Summerland fruit to go by that road. It is made up of Wealthy and Gravenstein apples, destined for export to New Zealand.

In addition to the Fruit Union shipments mentioned above, the Naramata packing house is sending direct to Vernon something like 350 cases per day. Stirling & Pictorin's packing house is also well into the shipping, sending out anything from 100 to 200 cases per day just now, most of which goes to Vernon, and some to Kelowna.

The tariff rate on coal in carload lots on the Kettle Valley line from Princeton to West Summerland is \$1.30 per ton. The rate from Merritt is \$1.80 a ton.—Star, Princeton.

## LOCAL AMBULANCE LEAGUE MAKES SPLENDID SHOWING.

The Summerland Branch of the Ambulance League has now been in existence for one year, having been organized on the 17th of August, 1914.

The following items may be of interest, especially to those who have but little idea of what the league has done and is doing:

There are 176 members; many of whom, however, have recently left the place.

Money taken in by the league, \$873.65  
Money expended, \$850.71  
(\$414 cash donations to the Red Cross Society; \$436.71 paid for wool and materials.)  
Balance in hand \$22.94.

Eleven bales have been sent to the Red Cross Society containing in all 3,911 articles. Some of these articles are bundled in hundreds, each bundle of one hundred counting as 1; if numbered separately the number of articles sent would amount to 19,860.

Two copies of the Vancouver Province are sent daily by the league to the Canadian Red Cross Hospital in England, and jam is being donated now.

Further donations in cash, old linen, and cotton, are urgently needed.

The treasurer acknowledges with thanks the donation of \$10 from the "Follies Co." per Mr Anstie, also a pair of socks from Kenneth Gartrell, bought with money earned by himself for picking fruit.

A well-attended meeting was held in the Men's Club on Thursday afternoon to organize Red Cross work down town. It has been arranged that meetings should be held alternately in the Parish Hall and the Men's Club, therefore the next meeting will be held on Monday, August 30th, in the Parish Hall, and on Thursday, Sept. 9th, the following week, in the Men's Club.

The annual subscription of 25 cents to the league is now due, and members are asked to pay the same to the treasurer, Mrs Solly.

## WEDDING.

### Mellor-White.

It probably came to most of the people of Summerland as a great surprise to learn that the wedding of a most prominent and highly esteemed citizen had taken place quietly on Tuesday evening of this week, August 24th, when Miss Miriam White, also of this place, became the bride of Mr H. C. Mellor. From long terms of residence here both have come to be widely known, and it can readily be imagined that the congratulations reaching them as the fact of their marriage becomes known will be numerous.

The ceremony took place at the home of Dr and Mrs R. C. Lipssett, uncle and aunt of the bride, at eight o'clock, Rev. R. W. Lee of the Methodist Church officiating. On the arm of Dr Lipssett the bride entered the room, which was decorated freely with sweet peas and roses, as the Wedding March was being played by Miss Helen Phinney.

The guests numbered about a dozen, and included Mr and Mrs G. N. Gartrell, Mr and Mrs J. E. Phinney, Mr and Mrs J. R. Brown, Mr and Mrs R. W. Lee, Miss Barraclough, Mr G. A. McWilliams, and Mr Geo. Robinson of Peachland. After the ceremony, when congratulations were being extended, Mr J. R. Brown gave a toast to the bride and groom, and Mr G. A. McWilliams also spoke briefly.

Mr and Mrs Mellor have quietly taken up residence on Mr Mellor's lakeshore property, north of Peach Orchard.

The executive of the Okanagan United Growers are taking a very encouraging outlook as to the fruit situation this season, and feel that there is good reason to expect a very material change for the better over conditions that obtained last year. They estimate that the total apple crop of the Okanagan will bring the growers cash returns of close to \$500,000, and that the sale of other fruits will show an increase in price from 10 to 30 per cent. over the returns received in 1914.

## Council Accepts Resignation of Supt. at Special Session

### Notice of Suit For McAlpine Claim.

At a special meeting of the Council held last Saturday afternoon the resignation of Supt. Mitchell was read and accepted. Among other communications was a notice from the solicitors for T. J. McAlpine, that action at law would be taken against the Municipality to recover for alleged damages to health and property from flooding of his cellar.

When the letter came up for discussion Coun. Borton asked if the Board did not think it was about time to settle this dispute without going to court, and suggested arbitration. The majority took the ground that the Municipality had nothing to arbitrate, and if there was any such proposition to be made it should come from Mr McAlpine. Coun. Borton stated his belief that there was a larger leak found when the pipe was uncovered than was admitted by the Superintendent, and while not admitting any legal liability he was strongly opposed to allowing the case to go to court without an attempt to adjust. The Clerk advised using the court as the best way and the least expensive. The majority favored allowing the case to take its course.

None of the members of the Council had talked with the Superintendent with reference to his resignation, but all saw no other course but to accept it. Coun. Simpson, while regretting the Superintendent had not put off quitting for another month advised accepting the resignation and deciding afterward what course to take. On motion of Coun. Borton and Campbell the resignation was accepted.

Coun. Johnston suggested putting a man on the domestic water system, making another responsible for the roads, and that the irrigation be taken care of by the present staff for the remaining part of the season. Both Couns. Johnston and Campbell recommended doing without a Superintendent during the winter.

The arranging for the satisfactory carrying on of the work was left with the Public Works Committee.

The published suggestion of Mr J. A. Kirk that a charge of dynamite would probably save a cost of \$1,000 for piping the lake south of Giant's Head was discussed, and left with the Public Works Committee, with the idea that Mr Kirk might undertake the work, he to be paid if successful, but not otherwise.

There were the usual number of complaints of water distribution to consider.

The Summerland Development Company were promised the right to take over certain properties sold last year for taxes in which they were interested, and which had been bought in by the Municipality, the Company to pay all charges and costs.

Mr J. M. Sutherland was given time in which to redeem property similarly held by the Council.

Constable Graham reported damage done by cattle running at large at Trout Creek, and asked that someone be appointed to appraise the damage. A permanent board of four valuers for such purposes was named, comprised of George Gartrell, Ward 1; John Stewart, Ward 2; S. M. Young, Ward 3; D. Gray, Ward 4.

Upon the suggestion of Coun. Borton that the Council invest in two chemical fire extinguishers, the Clerk was asked to get prices.

## To Give Three Machine Guns.

With \$2,700 already subscribed, citizens of Vernon feel confident that they will be able to raise sufficient funds with which to purchase three machine guns of the latest type. The fund was promoted by Mr J. A. McColvie, editor of the Vernon News, in conjunction with Mayor Smith and others.

Preparations for the departure of hundreds of men forming overseas drafts from battalions in the central mobilization camps are being rushed.

### Quiet In Flanders Trenches.

Summerland friends this week have had word from J. A. C. Kennedy of the Princess Patricia's, who is in the front line of trenches in Flanders. He says that everything is very quiet in his vicinity, with little going on, in fact, to lead one to believe that war was on. This explains in some measure the oft-repeated telegraphic message, "No news from France." Kennedy is on fatigue duty a good deal, digging trenches and such like duties, and says he is getting well acquainted

with the pick and shovel. He wishes for one "great big battle," that would help to bring things to a conclusion, for he says that the prospect of another winter in the trenches is not as appealing as it might be.

Foxtail is the greatest enemy of alfalfa.

Calves never thrive when subject to intense heat and flies—house them comfortably during the day in a cool, darkened stable, but do not neglect to keep them clean.

### Few Vacant Seats When "Follies" Take The Stage.

Perhaps it was the good reputation that "The Follies" have established from tours, or perhaps it was the fact that Mr Wm. Sauter was announced as having a part in the program; whatever it was there is no question that it is some time since Empire Hall has given such a good audience to a travelling company of players as last Saturday evening. Miss Dora Rignold and Mr A. L. Soames are also favorably known to local playgoers, the immortal "Charlie's Aunt" being the occasion of one of their most notable appearances here.

The entertainment last Saturday was always "merry and bright," as the song has it, with very few minutes indeed when one felt like relaxing their attention. The first part of the program consisted of short individual numbers, "the Follies Themselves," the program announced. It is clear that as individual performers, this galaxy of talent is just as capable of putting on good entertainment as in concerted playlets, such as parts two and three were. "A Pantomime Rehearsal" especially was a genuine screamer," but it would be hard to say whether that or "The Man in the Stalls" was the better acted piece.

Where all the artistes seem to excel, it is difficult, and sometimes unwise to make mention of any individual name, but it occurs to us that "The Follies" owe a good deal of their success to the capableness of B. C. Hilliam at the piano. He seems to put such a spirit or "atmosphere" into his essential part of the program that must make it easier for the other members to follow in their respective parts with like excellence.

After carefully canvassing all the crops adapted to hog feeding in the West, one must turn to alfalfa as the king of all forage crops. In normal seasons it will furnish succulent feed practically the entire year along the Western slope, and if not grazed too heavily will remain uninjured by the hogs. The number of hogs pasturing on alfalfa should never be great enough to keep down the growth, and if the fields are so arranged that the hogs may be alternated, and the fields cut occasionally for hay, the value of the crop will be enhanced. Though hogs will make some gains on alfalfa alone, such gains will necessarily be slow, and in the form of bones and muscle rather than fat. An exclusive alfalfa diet contains more protein than the animal can digest, so that without at least a small, supplemental feed of a carbonaceous character, a portion of the protein will have been wasted.—H. T. Morgan, in The Country Gentleman.

### Hunting Season Opens September 1.

According to Game Regulations for the Province of British Columbia, recently authorized by an order-in-council, the season for the shooting of deer opens this year on the 1st of September, and closes on December 15th. Although very similar to the regulations passed in previous years, there are certain exceptions which must be carefully enquired about by all who intend taking part in the shooting season in any section of the province. Game Wardens are in possession of full regulations.

The limit of either killing or selling will be three deer. The sale of venison will be allowed from September 1st till October 15th, all over the province, the meat to be that of bucks of over one year of age.

### Presbytery Meeting.

The regular semi-annual meeting of the Presbytery of Kamloops was held in Penticton last Tuesday and Wednesday. Mr A. G. Munn, representative elder, and Rev. C. H. Daly attended from Summerland. A heavy docket occupied the time from Tuesday afternoon to Wednesday evening inclusive. The Home Missions work of the Presbytery is very extensive, and always calls for much attention in detail. Rev. J. F. Henderson of Vancouver, the Social Service Secretary for the Presbyterian Church in B.C. and Rev. E. L. Pidgeon of St John's Church, Vancouver in the interests of the budget, and Mr Duncanson of Vancouver, the missionary to the Chinese in B.C. were present and participated in the discussions.

The next regular meeting of the Presbytery takes place in Enderby next February.

### GOOD REASON FOR NOT ADVERTISING.

"Why don't you advertise?" asked the editor of the home paper, "don't you believe in advertising?" "I'm agin advertising," replied the proprietor of the store. "But why are you against it?" asked the editor. "It keeps a feller too durn busy" replied the proprietor. "I advertised in a paper once about ten years ago, and I never even got time to go fishing."

Exhibits of timber, fish, agriculture and minerals will shortly be forwarded to the Agent-General for British Columbia in London. The exhibits are now being carefully packed, and there will be about 15 tons altogether. Some splendid heads of the big game of British Columbia; excellent samples of the copper, gold and silver mines; beautiful species of the halibut, salmon, trout, cod and herring, and various products from the farm lands will be taken to London for exhibit in the new building of the Agent-General.

John J. Blewett of Peach Orchard has gone to the prairies where he has taken a position with an elevator company.

A kind heart is a fountain of gladness, making everything in its vicinity fresher and smile.—Irving.

There are not enough Union Jacks in Canada

Every Home in Canada should have A UNION JACK

In other countries on days of rejoicing or National Anniversaries flags are unfurled from almost every housetop or window. Canadians are just as loyal, but unfortunately they find themselves short of flags.

In almost every place in Canada there is a movement on foot now to see that the Old Flag is floating from every Canadian home. The newspapers have been asked to assist in the distribution.

The Review has agreed to undertake the distribution in this district, and our readers can secure a real good Union Jack, in fast colors, size 5 x 8, for only

**\$1.10**

At this price there is no reason why every home in the district should not have a Union Jack floating on all occasions in future.

LET THE OLD FLAG BE SEEN EVERYWHERE

Every Home in Canada Should Have A UNION JACK.

A 5 ft. by 8 ft. Union Jack, in guaranteed fast colors, for \$1.10. Now ready at

THE REVIEW OFFICE.

**MOTIVE OF CHRISTIANITY.**

President Woodrow Wilson.  
Christianity has liberated the world, not as a system of ethics, not as a philosophy of altruism, but by its revelation of the power of pure and unselfish love. Its vital principle is not its code, but its motive. Love, clear-sighted, loyal, personal, is its breath and immortality. Christ came, not to save Himself, assuredly, but to save the world. His motive, His example, are every man's key to his own gifts and happiness. The ethical code He taught may no doubt be matched, here a piece and there a piece, out of other religions other teachings and philosophies. Every

thoughtful man born with a conscience must know a code of right and of pity to which he ought to conform; but with the motive of Christianity without love, he may be the purest altruist and yet be as sad and as unsatisfied as Marcus Aurelius.

**Fruit Will Be Cheap.**

It is stated in Winnipeg that all fruits, with the exception of apples will be cheap this year. Peaches and plums are coming on the market in great numbers. The apple crop in both Canada and the United States is said to be a little below the average, and prices will likely be higher than last year.

**THE WOMEN'S INSTITUTES.**

The August meeting of the Summerland Women's Institute was held on the lawn at the home of Mrs English. The roll call was answered by each member giving the name of some distinguished man. The motto for the day was, "Never put off till to-morrow what you can do to-day." The current events for the month were given as usual.

Several letters were read, one being from the president, Mrs Hayes, stating how sorry she was not to be able to continue her work, and thanking Mrs Solly for so kindly taking her place. In the absence of Mrs W. Watson, Mrs Solly was appointed vice-president. Mrs Reesor was appointed official delegate to the conference early in September in the place of Mrs Hayes, who is unable to attend.

Replies were received from Queen Mary's Needlework Guild acknowledging the two large parcels sent by the Institute, and an official receipt from the Canadian Red Cross Society for the \$25 donated. An acknowledgment for the \$10 sent in for the 100 "Allied for Right" buttons sold was received, with the hope that the other 100 buttons will be disposed of very soon, as the soldiers are still in urgent need of socks.

Mrs Solly gave a most interesting talk on what the Ambulance League is doing, and showed the great need for all to do much more than is being done. At the conclusion of her talk she was given a very hearty clap.

It was thought best that 5 lb. jam pails be used for the jam that is to be sent to the Belgians.

The remainder of the afternoon was spent in a social way over cups of tea, during which a hearty vote of thanks was extended to Mrs English for the pleasant afternoon.

**Can Scale and Borers Be Controlled in This Way?**

An American bacteriologist as a result of his own personal experimentation has advanced a theory that certain scale insects can not only be controlled, but exterminated by poisoning the "host plant," which is the plant or tree which harbors the scale. The method which he describes is very simple, and if proved elsewhere to be practical, fruit growers in scale infested districts will have reason to be grateful to this scientist. One experiment was carried out on a twelve-year old shrub, badly scaled. Repeated sprayings and severe cuttings back failed to control the pest, and when all else had failed, he made in its stem a hole about 1/2 inch in diameter and about 3 inches in depth which he almost completely filled with crystals of cyanide of potassium and then stopped up. In two days the scale insects began to fall from the plant, and in a few more days all were dead. Others developed and attacked the plant but these only remained a short time, and the host plant was entirely freed from the parasites and again became very vigorous.

At the same time the experimenter made a similar hole in an old peach tree which seemed worn out, introducing a similar amount of cyanide of potassium. The tree regained its normal vigor and yielded a good crop of fruit. After having given some of the latter to chickens and a rabbit, which ate them with impunity, he tried some of the peaches himself without experiencing any bad results. Subsequently he introduced the same amount of cyanide of potassium into an orange tree without observing any injurious effects.

From these experiments it appears certain that it is possible, at least in the case of certain plants, to poison parasitic scale insects, and in general those insects which feed on the sap, without harming the plant. This method seems especially suitable for the destruction of many species of borers and of insects which are harbored beneath the bark of their hosts.

That Canada has a good share of the New South Wales apple import business is clear from reliable figures lately given out. The United States has the lion's share of this trade, amounting to 3,247,800 pounds, value \$166,692. Canada sent 1,407,800 pounds, valued at \$75,688. It is known that little, if any, eastern Canadian fruit finds its way to the Antipodes, and it must therefore be the products of British Columbia orchards that make this considerable total.

**LETTERS TO THE EDITOR.**

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

**THE POT HOLE PROBLEM.**

Summerland, B.C.,  
August 26, 1915.

The Editor, Summerland Review.  
Dear Sir,

In your last issue I notice another article suggesting another method of getting rid of this nuisance. While I have no doubt that in some cases the use of dynamite might prove a success, in this case I have no faith in it, neither would Mr Kirk if he had been on the ground as I was when the pond was drained last winter.

Judging from the appearance of the subsoil where my men dug the drain into this pond, it would appear that this large basin had been gradually filling for hundreds of years with the sediment accumulating from the wash from the surrounding hills. This was found to extend at least fifty or sixty feet beyond the outer edge of the water, and was of such a nature that scarcely any water would pass through it. Beneath the portion covered with water there was found to be only about one foot of soil covering a great quantity of alkali mud, which is apparently many feet in depth. Undoubtedly this would quickly fill any opening that was made by the use of dynamite.

The drain we put in was extended sixty or seventy feet through coarse sand and fine gravel beyond the limits of the close-grained soil. The drain was made very open, and filled first with a lining of hay, then with the gravel and sand, and took the water as fast as the opening would receive it, which was fast enough to completely empty the pond in a few hours, and would have continued to have taken the water as fast as it came but for the fact that the water is very strong with alkali, which very soon cements over all the pores in the open soil where it penetrates. This is the only reason why my drain failed in proving to be a permanent success. This was new to me, as previously I had never had experience with alkali water. This point was clear beyond all doubt when we made the second attempt to complete this drainage. I might state that I found even the very small quantity of alkali which our irrigation water contains has been sufficient to stop up the pores in my subirrigation which have only been in use for two years, so much that it is now necessary to take up the tiles and re-lay them.

At the time I succeeded in emptying this pond so quickly I had no doubt of its permanent success. I now think the only permanent method of draining this basin is by Mr Mitchell's plan of a drain to a lower valley. My impression is this could be done for less than \$1,000.

Yours very truly,  
J. L. HILBORN.

**YIELDS OF APPLE TREES AT DIFFERENT AGES.**

Since the year 1898 records have been kept of the yields of over 3,000 apple trees in the orchards at the Central Experimental Farm, Ottawa. From these records the following data is taken:

The McIntosh apple comes into bearing the sixth year after planting, with twenty-two quarts of fruit, and increases up to the nineteenth year in which it yields seven and one-half barrels, after which it diminishes slowly. Taking the average for nineteen years, the yield per year from one tree was about two and three-quarter barrels.

The Duchess apple begins bearing the third year after it is planted, and the maximum crop so far has been reached in the twenty-fourth year when a yield of over eight barrels was obtained from one tree. The average yield from the third to the twenty-sixth year is about two barrels per tree, and from the tenth to the twenty-sixth, three barrels.

Wealthy is one of the earliest and most productive bearers but it does not become a large tree. It begins bearing the second or third year after planting. The highest yield obtained from a Wealthy in one year was five and three-quarter barrels in the twenty-fourth year. The average yield per year from the third to the twenty-sixth year is about a barrel and a half. From the twentieth to the twenty-sixth year the average is two and three-quarter barrels per tree. This variety, as a rule, bears heavily one year and has a light crop the next.

# OUR NARAMATA SECTION :

Everything of Business and Social Importance  
Transpiring in South Okanagan's Newest Town

### S.S. SCHOLARS HAVE GOOD TIME.

The annual Sunday School picnic conducted last Thursday afternoon was pulled off without a hitch. The children turned out en masse and presented an animated scene.

The program of sporting events as prepared by Stewart Allen, Frank Hughes and Dorothy Robinson, was carried out in fine style. Most of the events were keenly contested. T. H. Boothe acted as clerk of the course, while Principal Rayner and Mr Martin carried out the judging with entire satisfaction. The several events with the names of the prize winners follows:

Foot race, 25 yards, boys and girls, 6 years and under—Alice Walters, Gracie Pushman.

Foot race, girls, 7 to 10 years—Kathleen Mulford, Verna Ireland.

Foot race, boys, 7 to 10 years—Donald Salting, S. Pushman.

Foot race, girls, 10 to 12 years—Margaret Allen, Ina Ireland.

Foot race, boys, 10 to 14 years—Stanley Stiff, Harold Allen.

Young ladies' race—Called off (ladies shy).

Young men's race—Called off (no young men).

Wheelbarrow race—Earl Hughes and Harold Allen.

Three legged race—Edmund Boothe and Earl Hughes.

Running broad jump—Stewart Allen 15 feet, Stanley Stiff 13 feet 4 inches.

Standing broad jump—Stewart Allen, Stanley Stiff.

Thread and needle race—Margaret Allen and Ina Ireland.

Candle race—Edmund Boothe and Guy Ireland.

Another amusing event was watching the merry crowd trying to eat a dry soda biscuit and whistle. This amusing event was won by Stewart Allen and Guy Ireland.

Not the least enjoyable feature of the picnic was the splendid lunch served in the shade of the trees.

"ROUGH ON RATS" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy-Minister, of the Interior.

N.B.—Unauthorized publication of this advertisement will not be considered.

### Current Events — OF — Town & District

Mr and Mrs Carroll Aikins were visitors to Penticton on Monday for a few hours.

Mr J. H. Loudon has exchanged his fruit lot here for some town property in Banff.

Lieut. Jack Norris, of the C.M.R., Vernon, spent a short holiday season at Naramata this week as guest of Mr J. O. Robinson.

Miss Orca Williams left last Thursday via K.V.R. for Fernie, in order to be on hand for the opening of school on the 23rd of August.

A large attendance of ladies turned out last Saturday to the meeting of the local branch of the Red Cross Society. At the close a dainty lunch was served by Mrs W. W. Mitchell and her daughter, Mrs William Nuttall.

Mr John McLean, of Summerland, spent the week-end here, entertained by Mr J. O. Robinson. Mr McLean's talks on Biblical history and ancient lore, if not strictly orthodox, are certainly enlightening and refreshing. He certainly would, if he could, lift people out of ruts of religious thought.

The citizens' committee having to do with the establishing of proper storage facilities for domestic and irrigation water, are making progress. The amount of work in connection with this movement would be a surprise to a whole lot of folk—who are quite ready to complain if certain things are not done in short order.

Mr and Mrs R. B. Martin, of Banff, with son Donald, after three months' residence at Naramata, returned to their home on Wednesday's boat. During their stay in town these jolly tourists became thoroughly acquainted with the town and the town folk, and it is not improbable that Naramata may before long, become their regular place of residence.

### GOVERNOR-GEN. TO VISIT WEST.

The Duke of Connaught will leave Ottawa on September 8 on a western trip. He will visit the various military training camps. It is explained that the trip will be purely a military one, and there will be no social functions. The duke will only be accompanied by his military secretary and an aide.

A walk along wholesale fruit and produce row any day will convince anyone that placing a bad apple in a box causes the spoiling of many good ones. Putting a good one in a box of spoiled ones will only result in the spoiling of the good one. As it is with the apples so it is with boys. Now that the school holidays are nearly over, some people are beginning to wonder if a vacation is a good thing for boys. Those are the people who did not exercise any supervision over companionship.—Vancouver Province.

The H. & K. Cold Storage and Trading Co., Ltd., of Penticton, has been granted a winding-up order by the Supreme Court. In petitioning for a voluntary winding-up, the company, which was incorporated in September 1918, states that it has lost money each year. Its liabilities are given as \$7,505. Starting as an ice and cold storage concern the company has branched out into carbonated waters, retail meats, bakery, confectionery and restaurant businesses. J. T. Armstrong has been appointed liquidator.

CHERRIES—Bing, Lambert, Black Tartarian, Morello and Oliver.  
PEACHES—Tuscan Cling and Yellow St. John.  
Also APPLES, PEARS, PLUMS, and Full Line of Shade Trees, Shrubs and Hedge Plants.  
W. CAMPBELL, Nurseryman,  
PENTICTON, B.C.

### SCHOOL OPENING.

Forty-three pupils turned out on Monday morning to answer to the roll call at the school, and to meet the two newly-appointed teachers, Principal Rayner, B.Sc., and Miss N. O'Callaghan.

The event of opening the new Superior School was marked by no special-ceremony, but it was an auspicious one nevertheless. After a few hours of session, during which the scholars had been duly enrolled for the season and were given certain lessons for preparation, the boys and girls were dismissed for the day.

Both teachers have taken hold with enthusiasm and a zeal born of knowledge, and good results will doubtless follow.

### CARE OF BELGIAN HARES.

To keep Belgian hares in good health they must be given roots, greens, dry feed, and warm meal mash. The proper roots to feed are beets, carrots, a few potatoes, turnips, onions, mangels. For green feeds give lettuce, celery tops, carrot tops, radish tops, cabbage, pea pods, chickweed, sow thistle, dandelions, cauliflower leaves, parsley, chicory, and all good grasses. The dry feeds may be oats, meadow hay, wheat, barley, clover hay, corn meal and alfalfa. To make the meal mashes, wheat and barley must be scalded until soft, and meal dampened with boiling water until it forms crumbly lumps. The cornmeal mash may be made with milk.

Give the hares three meals a day, at regular intervals and in uniform amounts. Give plenty of water, and occasionally fresh sweet milk. In the morning feed grain and hay; at noon, roots, greens and clover; at night, warm meal mash and clover. Chop the roots into inch squares and give no more than the hares will eat at one time; see that all food is strictly fresh, the feed dishes clean, the water pure. Give carrots one day beets the next, and so on through the week.

Whitewash the hutch inside and out every two weeks. See that the grown hares have a wire-protected run to exercise in at least twice a week. Have a separate run for the youngsters. Have a slat bottom to each hutch, to allow the moisture to drain out. Hutches should never be placed one upon another, but should rest on shelves. Give fresh bedding every day. See that there is plenty of fresh air in the shelter but no draft.

### Roots and Vegetables

Something of Their Peculiar Characteristics and Food Values.

(Continued from our last issue)

**LETTUCE** is cooling and easily digested. It is a blood purifier, and gently laxative in its action. The milky juice is somewhat narcotic and is sometimes used as a laxative.

**ONIONS.** All varieties are nutritious, and valuable as blood purifiers; also stimulate digestion, and, like celery, are useful for nervousness. "Personal equation" figures largely in the use of onions, as some persons cannot tolerate them at all, while others eat them with apparent relish.

**GOURDS** In this group of vegetables we have pumpkins, vegetable marrows, squash and egg plant—all of them being easily digested, but of low nutrient value. They have a good dietetic value, as the quantity of water they contain is so large.

**CUCUMBERS** are chiefly of value for the water they contain.

**MELONS** are also valuable for the amount of water they contain, being more of a drink than a food.

**TOMATO**, itself the "prince of salads," is never better than when eaten fresh and raw. We have no other vegetable that is capable of being cooked and served in so many ways. The tomato owes its pleasant sour taste to oxalic acid, and on that account, like rhubarb, is generally forbidden to those with gouty tendencies. Since oxalic acid forms insoluble salts with lime and magnesium, excessive use of rhubarb or tomatoes tends to thin the blood, and produce outbreaks on the skin.

**JERUSALEM ARTICHOKE.**—The tuber of a species of sunflower. This is nutritious, easily digested; makes good soup. Should be stored

### Are Picking Apples For Australia.

Wenatchee, August 14. — J. H. Dengel, representing E. Wagner & Son, announced to-day that picking for the first shipment of Wenatchee apples to Australia will begin next week. The first shipment will include 18,000 boxes, part of which will go forward from San Francisco on August 31, and the remainder of which will be shipped from Vancouver on September 1.

During the past week shipments of fruit from Wenatchee have averaged fifteen cars per day, pears being the chief product shipped. The Rock Island unit of the Growers' League will ship its first carload of Winter Bananas next Tuesday.

Give a small amount of apple twice a week. A bit of apple twig, after the leaves are stripped off, is a good tonic.—R.P. in Country Gentleman.

Read "New Styles" page 2.

Philip Agur of the 11th C.M.R., Vernon, came down the lake on Monday evening on a few days' leave.

Mr and Mrs E. B. May made a brief visit to Vernon this week, where a brother of Mr May's is in training at the camp.

Mr and Mrs Avery from near Woodstock, New Brunswick, have been visiting here with former neighbors, Mr and Mrs Gayton and Mr and Mrs Brewer.

Capt. Gore, Supt. of the C.P.R. Lake and River Service, is suffering from a serious accident which occurred at the Landing last Friday. While getting out of a car his foot slipped and he fell to the ground, breaking both bones of his leg above the ankle.

George Barkwill who since joining the B.C. Horse at Vernon last fall has risen from the rank of trooper to that of sergt.-major, recently applied to be drafted into an overseas battalion, and this was granted with the proviso that he could not carry his rank through the transfer. He accepted this condition and is now Private Barkwill of the 47th.

Dr George Clingan of Virden, Man., brother of F. W. Clingan of Summerland and Salmon Arm, has been mentioned, according to the Winnipeg Free Press, as a possible nominee for the Speakership of the newly elected Manitoba Legislature. Dr Clingan was elected in the Liberal interests to represent the constituency of which his home town is the centre. It seems hardly likely that Dr Clingan can accept the honor, since, according to the same authority, he expects to proceed shortly to the front attached to the 79th Battalion as Lieut.-Col.

Lieut. F. C. Naper who went from here some months ago to enlist was recently reported among the wounded.

F. Fox, who has been living for some time past in the Page cottage, east of Giant's Head, is said to have enlisted lately at Penticton, and now awaits transportation to the camp at Vernon.

Cockerels for sale from prize winning stock, white leghorns, white and black orpingtons, single and rose comb reds, black minorcas, barred rocks, also mammoth pekkin ducks. L. V. Newton, Keremeos, B.C. a20-27

Mrs R. C. Lipssett and Miss Baraclough were passengers south-bound on Wednesday evening to Penticton on their way to Halcyon Hot Springs, via the K.V.R., where they will remain for three or four weeks.

Mr and Mrs Kirstine have asked the Review to extend to the many friends their sincerest thanks for the willing and valuable service rendered them in the saving of their effects during the recent fire while both were absent.

George Fisher was one of the detachment from the Vernon Camp made up from men of the Ambulance Corps to join the No. 5 B.C. Hospital unit which went through from the Coast last week end en route for England. The Vernon detachment joined their main body at Sicamous Junction on Sunday and proceeded east with them.

Major G. W. Morfitt, lately appointed second in command of the 82nd Battalion, is returning to Calgary to-morrow morning, Saturday, with Mrs Morfitt and family. Recruiting for the 82nd will not be actively undertaken till after harvest time, but the commissioned officers are already selected, and a number of non-commissioned officers as well.

Rev. Norman A. Harkness of Vancouver, brother of Rev. Rueben R. E. Harkness, who with his mother and brother, Richmond, now deceased, resided here for some time, and well-known to many here, is leaving the Grand View Baptist Church in the terminal city to accept a call to the pastorate of the Wolfville Church, Nova Scotia.

Quite a distinction has come to R. Callan, who within a week of his enlistment earned promotion to the rank of Lance-Corporal. The day after joining the camp at Vernon he was picked out on parade as a promising recruit, and at the end of last week was officially attached to the 54th as Lance-Corporal. Previous military training in the Old Country may be held accountable for this rapid promotion.

Our readers will join with the Review in extending congratulations to Miss Amy Brown, a former member of the staff of this office, in having successfully passed the examination necessary to admit her into the staff of nurses in training at the Toronto General Hospital. That the examination was not an easy one, we would conclude from the fact that of 52 probationers there were only 27 beside Miss Brown who were competent to don the uniform.

Mr and Mrs C. C. Chittenden spent last week-end here at the home of Mrs Chittenden's parents, Mr and Mrs Wm. Limmer, and went on to Penticton, where they will reside, on Wednesday of this week. Following their wedding on the 4th inst., Mr and Mrs Chittenden motored to Kamloops via Penticton and the Similkameen, and proceeded on from thence by rail to Banff and Lake Louise, where most of the honeymoon was spent. Returning to Kamloops last week they motored over to Vernon, and on from there down the Valley to Summerland.

The movement to start a local fund to purchase machine guns for the Canadian contingents took definite shape this week when Mr A. J. Miller undertook to solicit subscriptions throughout the district. After canvassing for some time he had gathered between \$50 and \$100 with promises for more. Then it came to light that word had gone out from Ottawa to the effect that no more orders for machine guns could be handled by the factories for some time. The money already collected was then placed in a sealed envelope and deposited at the Bank of Montreal, where it will remain pending the wishes of the contribu-

The regular monthly meeting of the W.C.T.U. will be held in St Andrew's Church on Friday, Sept. 3rd, at three o'clock.

After a prolonged visit extending over the summer months, Mr Hector Sutherland returned to Summerland from Winnipeg last Saturday evening.

Miss Melita Skillen, acting Lady Principal of Brandon College for the past year, has been attending summer lecture courses at Chicago University during her vacation. She will return to Brandon College when the fall term begins.

Saturday, August 28th, is B.C. Tag Day, and every man, woman and child in Summerland will be asked to make their contribution towards the B.C. Base Hospital. A tag will be given all those who contribute their little to help along the good work.

Word from John Steven, now at Shorncliffe Camp, Kent, England, to his brother here, A. H. Steven, received a few days ago, says that he expected to cross to the continent in about six weeks from the time of writing. Forty thousand Canadians, he says, are encamped at that one point.

Boarding the "Sicamous" on Thursday morning, Sir Melbourne and Lady Tait commenced their return journey to Montreal, after a visit of about two weeks at the home of their son here, R. G. Tait. Mr and Mrs Tait accompanied them as far as Vernon, returning on this evening's boat.

Recruiting Officer, C. N. Borton, swore in his first recruit this week, a William Liddiment, by name, an English laborer down from the railway grades where he has been working. He went up to Vernon this morning. Mr Borton reports he has a healthy "waiting list," numbering nearly thirty, most of whom are probably waiting till their present work lets up in the fall.

Lieutenant and Paymaster A. V. Vickery, of the B.C. Horse, Vernon, with Mrs Vickery and baby daughter, were passengers down the lake last Saturday evening. Lieut. Vickery's leave extended only for four days, and he returned to Vernon on Tuesday. Mrs Vickery will probably remain for about six weeks, and is a guest at the home of her sister, Mrs R. Randall, in the Wilson Cottage near College Hill.

Though there may yet be some hope that it is otherwise, it is almost a certainty that Capt. J. L. Higgin, son of Mr and Mrs Higgin of this place, was killed in action at the Dardanelles on June 29th. The official reports told of his being wounded on the 28th, and stated that he was missing and was believed killed. Indirect information is to the effect that he was slightly wounded by shrapnel on the above date and that on the evening of the following day, the 29th, he was killed while leading his men of the 10th Gurkhas, in an attack on the Turkish trenches.

Local Sunday School workers have taken in hand preparations for the Okanagan District Sunday School Convention, which meets in Summerland some time in October. The original dates set were the 12th, 13th and 14th of that month, but an effort is being made to change these days to dates when the moonlight would be of great advantage. Representatives of the local schools met last Sunday afternoon in the Lakeside Baptist Church and discussed preliminary matters, and a further meeting is to be held next Sunday evening at the same place, at the close of the regular church service. A good attendance of Sunday School workers is urged.

The Methodist Church held a very large congregation last Sunday evening, when a service in the nature of a memorial to the late Rev. J. M. Harrison was conducted by the pastor, Rev. R. W. Lee. Appropriate and entirely effective special music was provided in a rendering of Tomnyson's beautiful "Crossing The Bar," to the well-known quartette setting by Barnby, and a solo "Into Thy Hands," sung by Mr T. G. Bouvis. Mr Lee's address was a summary of the life of the deceased minister, a life which was shown to be full of the highest kind of achievement, a life full of unremitting toil in the highest type of service, and one which cannot fail to be of inspiration and help to his fellow workers and fellow men generally.

Principal Lees is now occupying the house recently vacated by Principal Everton and family.

J. C. Brown has commenced the erection of a residence on his orchard lot near the high flume, formerly the P. P. Johnson property.

Rev. Mr Duncanson who has charge of the mission work among the Chinese of B.C. for the Presbyterian Church is in Summerland today.

Principal Everton is representing Summerland at the provincial prohibition conference being held in Vancouver this week. Principal Everton is expected here on Saturday night, and will report to the Summerland organization the doings of the conference, at a meeting to be announced on Sunday.

E. Garnett is planning to take a long and interesting trip in his car. He has a ranch of some 180 acres at Carlsland, not far from Calgary, and he purposes leaving Saturday, September 4, to be present at the harvesting of the large grain crop. While away he will also market the apple crop of the Gartrell orchard, which he has purchased, as well as other apples to be shipped by his brother. With him on the journey to the Prairies will be Bert McLellan and perhaps a third from here.

Methodist services will be conducted on Sunday next by the Rev. R. W. Lee at 10.30 a.m. and 7 p.m. The morning service will be held in the Methodist Church, while the evening service will be in St Andrew's Church. All are invited.

Mr and Mrs K. S. Hogg entertained large numbers of friends this week to very enjoyable launch parties on Wednesday and Thursday evenings. One of the Ferry Company's boats and scow were utilized, and though on both nights the lake was at its calmest, the smoky atmosphere obscured the beauty of the full moon, which otherwise would have been a very noticeable feature of the outings.

**Will Become Prairie Markets Commissioner.**

Mr W. E. McTaggart of the Vancouver Daily Province, who recently visited this Valley in the interests of his paper, has been appointed British Columbia Market Commissioner at Calgary, succeeding Mr J. Forsyth Smith, who goes to Manchester, England, as a representative of the Dominion Department of Agriculture.

If I take care of my character, my reputation will take care of itself.

You Can Still Obtain  
**BOOTS at HALF-PRICE**  
at the  
**Naramata Supply Co.'s**  
Shoe Sale,  
**Empire Hall Block**  
SUMMERLAND.

**WINDOW ENVELOPES**

Our new prices make it practical to use these for all ordinary purposes in which envelopes are used.

WINDOW ENVELOPES have a glazed opening through which the address of the enclosed letter or bill shows, when folded. Their advantages are numerous, and some of them may be quoted:

1. Great saving of time and labor, all tedious copying of addresses from the account, ledger or letter to the envelope being done away with.
2. Total elimination of wrongly addressed envelopes. It is impossible to put a piece of mail in the wrong envelope.
3. As complete privacy as with the use of an ordinary envelope. Only the address shows through the window.
4. Very slight difference in cost, as compared with the average business envelope.

**Our New Prices.**

Some kinds of window envelopes are expensive, but we have obtained a supply of good quality direct from the Canadian makers at a reasonable price, and can quote you for neatly printed stock:

\$5 for 1,000; \$8.85 for 2,000; \$19.50 for 5,000

from  
**PEACHLAND**

The Peachland Women's Institute will send two official delegates to the forthcoming Institute Conference at Salmon Arm, those appointed being Mrs G. W. Lang and Mrs Dr Buchanan.

Now that the official tags have arrived, the "tag time" planned to give Peachland people a share in furnishing the hospital which the province is providing for military purposes, with proper equipment for its merciful work, may soon be expected to be in active operation. It is not likely that the energetic young ladies who have been entrusted with the direction of the tagging will allow very many of the Peachland people to go "untagged" for long.

The latest batch of recruits that were expecting to go up to Vernon this morning, Friday, brings the total number volunteering from Peachland up to nearly two dozen. Among those who were sworn in by Recruiting Sergeant French during his last visit here were H. Miller, H. Ferguson, J. Buchanan, W. Shaw, Waldriff, E. McKay and T. McLaughlin. All honor to these young men who are giving up a

good deal for the honor of bearing arms for their country and empire!

Very welcome indeed is the money which now seems to be coming into the town from the fruit shipping concerns operating here. While it cannot be said that the returns are in every case altogether satisfactory to the growers, it is gratifying to know that under such disrupted trade conditions, the prices are proving as good as they have.

Coming from Calgary, Mr C. E. Fawcett is a late arrival who has come to settle down and make his home afresh. Mr Fawcett visited Peachland and the Valley three or four years ago, and it is as a result of what he saw then that he has now come for good. Mrs Fawcett and three boys will follow a little later, and the family will take up residence then on their fruit lot.

Rev A. Henderson has been at Vancouver this week attending the big prohibition convention. A resolution supporting the movement was heartily endorsed at the church services a week or two ago, and later it was decided that a delegate be sent. Mr Henderson will doubtless have an inspiring story of the big mass meetings of the convention to tell on his return.

Work in the local schools was taken up very smoothly this week, when after the long vacation, teachers and scholars put in an appear-

ance ready to take up the burden of their work for another ten months. Miss Moule, a new member of the staff, is to have charge of the high school, and she arrived last Sunday evening. Miss Pentland is again in charge of the public School, her assistant being Miss Reid. The former arrived back last Sunday, and the latter the previous day. Miss Whitworth, who this year will teach in the school at Trepanier also arrived on Saturday.

Five members of the teaching profession left Peachland last weekend to take up duties in various parts of the Valley. Miss A. Elliott went down to Fairview, Miss Minnie Smith went out to Wood's Lake, Miss Gertrude Gummow and her brother, Ben, went down the lake, both having positions in the Penticton School, while Miss Olive Gummow went down to Summerland where she teaches at Garnett Valley.

**WOMEN'S INSTITUTE EXHIBITION.**

The flower show and exhibition of fancy work and household craft held in this town last Thursday was nothing if it was not a success. The Women's Institute carried its plans for this event, the first of its kind here, to a very successful conclusion, and certainly deserves great credit for the completeness with which all arrangements were made, and also on the extent of the exhibits.

A decidedly novel feature of the exhibition was the baby show, in which three promising but very young citizens of Peachland were on exhibition. Miss Wilson, a visitor to this town, was the judge in this department, Mrs J. W. Angwin, of Summerland, judged the needlecraft, Mrs J. E. Phinney also of Summerland, the cooking exhibits, and Mrs H. Hardy, the fruit and flowers. A very interesting section of the show was an exhibition of war curios and souvenirs, which are the property of Miss Wilson.

The complete prize list is as under:

Collection of bulbs, Miss Ferguson. Collection of cut flowers, Mrs Ferguson. Collection of roses, Mrs Ferguson. Collection of sweet peas, Mrs Drought. Collection of pot plants; first, Mrs Needham; second Mrs Dryden. Collection of crochet work; first, Miss B. Lary; second, Miss G. Lary. Collection of embroidery; first, Mrs Town; second, Miss Logan. Collection of plain sewing; (ladies) first, Mrs B. Needham; second, Mrs Lary. Collection of plain sewing (16 and under) first Alice Cousins, Trepanier. Collection of paintings from nature; first Verna Town; second, Myrtle Keating. Collection of pickles; first, Mrs G. Lary; second, Mrs Miller. Collection of jellies; first, Mrs Dryden; second, Mrs Buchanan. Collection of home-made candy; first, Mrs Brown; second, Mrs B. Lary. Butter; first, Mrs Smith; second, Mrs Harrington. Brown bread, Mrs Needham. White bread; first, Mrs Harrington; second, Mrs J. Elliott. Plate of tomatoes; first, Mrs Douglas; second, Mrs Brown. Peaches, yellow flesh; first Mrs Brown; second, Mrs Powell. Plate of table apples; first, Mrs Mitchell; second, Mrs Powell. Cake (16 and under), first, Nora Drought; second Mary Vicary. Cake (18 and under) first, Betty Buchanan; second, Jeanne Dryden. Cake (ladies) first, Mrs Buchanan. Baby; (three entries) first, Mrs McGregor; second Mrs Logan.

**Troops At Vernon Will Likely Go To Vernon For Winter.**

To demobilize the Vernon concentration camp will be absolutely necessary as soon as the inclement weather of winter arrives. This decision has been reached by the military authorities, and the question now under consideration is what arrangements will be made for the training of the troops under arms in British Columbia during the winter.

While the details are not available, certain interesting facts are known with respect to the contemplated redistribution. They are that one battalion is to go to New Westminster, another to Vancouver, and a third to Victoria. Providing an additional unit is authorized it will be quartered also at Victoria.

Despite the fact that military officers seem unanimous as to the necessity of removing the camp to the Coast to avoid the possible inclemency of the winter, Vernon city officials are making representations to the powers that be to prevent the moving of the camp.

**Advertising**

Advertising is the education of the public as to who you are, where you are, and what you have to offer in the way of skill, talent or commodity. The only man who should not advertise is the man who has nothing to offer the world in the way of commodity or service.—Elbert Hubbard.

Phone 40.

**NO SUGAR**

We have received the following Fruit Preserving Recipe from a reliable source, and reprint same for the benefit of those of our customers who may have decided to curtail the making of preserves this season on account of the high market price of sugar.

**Our Motive**

in publishing it, is to encourage bottling fruit, and suggesting that the money usually expended in sugar be used for what might be termed

**Absolute Necessities.**

Sugar will eventually have to be used in preparing the fruit for the table, but much less will be required to sweeten to taste.

Authorities all agree that fruit put up without sugar retains its delicate and distinctive flavor.

To put up fruits without sugar, simply prepare them in the ordinary way; see that the jars are perfectly clean, thoroughly scalded with boiling water, filled to the top and left in them a considerable time; boil the rubbers and covers, and see that the rubbers are soft and free from grooves or cracks, place the fruit in the jars, fill with cold water, place them in a boiler filled with cold water, heat to the boiling point. Berries will do if removed when the boiling point is reached. Large fruits, such as peaches, pears, plums, cherries, and the like should get 20 to 30 minutes boiling.

A board should be placed in the bottom of the boiler to keep the jars from the direct heat of the stove. Fruit thus prepared will be found excellent for pies, delicious for eating with cream, and generally superior to the sugar-syrup preserves. In properly air-tight jars they will also keep quite as long.

We carry in stock "Perfect Seal" and "Economy" Jars.

**WANTED:**

**Farm Produce.**

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

**Money for the Farmer**

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

**JAS. RITCHIE,**  
WEST SUMMERLAND.
