DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 7, No. 27

SUMMERLAND, B.C., FEBRUARY 5, 1915.

Whole No. 340

Municipal Council Holds Special Session.

Also Sits As Board Of Health. Dominion Government Agreement By-Law Passes On To Statute Book.

On Thursday morning of this week the Municipal Council held a special session, and at 10 o'clock Reeve Blair called a full meeting to order. Later on the Council resolved itself into a Board of Health, and continued in session until after the noon hour.

The first matter to come up after the minutes of the last meeting had been read, and declared approved by the Reeve, was the request of Capt. Webb for permission to put an overflow tank from a septic tank on a road allowance. This request had been previously understood by the Board of Works to be to place the entire septic tank on the road, but on being assured to the contrary, the permission asked for was granted, Capt. Webb to be held responsible for any possible damage for seepage, though none is anticipated.

Mr J. A. Kirk drew the attention of the Council to the condition of two flumes near his property, which became choked up very easily at the foot of a sharp incline, very materially interfering with the flow of the water. The Board of Works will look into this a little later on.

Communications were then taken up, and the first was a letter from Mr E. B. May, with an enclosure from Sir F. W. Taylor, general manager of the Bank of Montreal. These asked for information as to what municipal work was being undertaken in the light of the present tightened financial conditions, and making a suggestion as to the disposition of the \$10,000 grant coming from the Dominion Government. To these letters Mr Logie will give the information asked for.

From the Kelowna Board of Trade was forwarded a copy of a resolution, asking for government assistance in aid for some of the irrigation companies in other parts of the Valley, who are finding themselves hard hit by the stringent conditions now reigning. The Council were apparently asked to endorse this resolution, but they did not see fit to do so, on the wise ground that it might compromise their present satisfactory relations with the financial houses.

Mrs F. A. C. Wright sent in a claim for \$10 damages, on account of a hole left unguarded in the road at West Summerland, which she encountered while driving recently. This was also referred to the Board of Works.

The yearly estimates of the School Board were laid on the table and discussed for a few moments.

Two by-laws, No. 67, ratifying the agreement with the Dominion Government for the supply of water to the Experimental Farm, which was passed on Wednesday, and by-law No. 68, the annual rate by-law, were finally considered and passed, and the Reeve and Clerk were authorized to duly sign and seal the same.

James Pyffe asked for some satisfaction from the Council in respect of damage amounting to about \$40 which had been done in past seasons to the cellar of his house, from the overflow of the Peach Valley siphon pipe. He was asked to send in a detailed bill at the next meeting.

Tenders for about forty or fifty thousand feet of lumber necessary for the spring fluming work were received from F. Demuth and the Summerland Lumber Co. These will not be acted upon till the next meeting.

The 1915 estimates came in for some preliminary discussion, and will receive fuller attention at the next Council session. It seems inevitable that the estimates must be a little above those for last year.

It was when Dr Andrew's report for 1914 as Medical Health Officer was presented, that the Council resolved itself into a Board of Health, the first of what will probably be quarterly sessions in this capacity. During the morning Dr Andrew was present to discuss the report, and the Constable and Sanitary Inspector was also present. The salient features of this report urged a

revival of the spring cleaning-up activities, not only in the town sections, but along roadsides, etc.; urging also a periodical inspection of all septic tanks; care as to the use of the water from Eneas Creek for domestic purposes; and a more rigorous inspection and enforcing of the regulations pertaining to local dairies. In regard to the septic tanks, Dr Andrew suggested that permits be required to sanction the building of these, so that some responsible person could see that they were properly designed and built, so as to give the maximum of satisfaction. At the next meeting of the Board Dr Andrew will present interesting data which he has collected from all over the continent in connection with septic tanks, with a view to drawing up such regulations as may be deemed best in the interests of the public health. The question of the inspection and licensing of dairy properties came up for consideration, and it was decided that the local regulations governing these be more strictly enforced in the future. A resolution was passed ordering the publication of extracts from these regulations, with a view to their enforcement.

The next meeting of the Council will be its regular monthly session on Wednesday morning, February 10th at 9 o'clock.

THE WOMEN'S INSTITUTES.

The ladies of the Summerland Women's Institute have had their afternoons of the past week very much occupied in attending the Cookery Demonstration Course that Miss Bertha Livingstone, government demonstrator, has had in charge. The course commenced on Tuesday, and is being conducted in the parlors of the Men's Club. That the local women appreciate the useful and thoroughly practical help that Miss Livingstone furnishes in her lessons, is evidenced in the turn-out of members that has greeted her, not less than forty women being present on any afternoon this week. The largest part of Miss Livingstone's work consists in actual demonstration, which gives a double value to the recipes as they are put down on the blackboard. Moreover, the dishes she has been experimenting with are not expensive and non-satisfying concoctions, but economical and highly nutritious dishes that would satisfy the everyday needs of the normal family. The demonstrator has proved herself extremely capable, a past-mistress in her gentle art, in fact, and her knowledge, coupled with a willingness and a readiness to answer any questions, has made the course more than ordinarily helpful to the women.

Tuesday afternoon, when the course opened, some time was spent discussing relative food values, the needs of the body, and other basic knowledge that every cook should have. Charts made Miss Livingstone's talks much clearer, and helped to drive her conclusions home. The preparation of raw and cooked fruits in different forms, hot beverages, sweets, and soup was also dealt with. Wednesday was devoted to the consideration of cheese, milk and egg dishes, and also foundation sauces. Thursday was an important afternoon, when various ways of cooking meats were gone into, also the making of stock, trying out fat for cooking purposes, and puddings, etc. This afternoon, Friday, fish dishes will be demonstrated.

The monthly meeting of the West Summerland Women's Institute will be held in the High School Room on Friday, February 12 at 2.30. A full meeting is requested. There is a good program arranged.

Miss Livingstone will begin her cookery class on Monday, the 15th inst. Any ladies wishing to take this course must be members of the Institute.

Next Sunday evening in St Andrew's Church, Rev. C. H. Daly's subject will be "A Hundred Years of Peace Between the British Empire and the United States."

Only One Voter Opposed Experimental Farm Agreement.

Question Fully Discussed at Saturday's Public Meeting, as was also Hospital's Request for Half-Mill Levy.

Hospital Referendum Withdrawn.

Confident That South Main Users Will Not Lack Water This Season.

One hundred and twenty-nine to one was the result of the voting on the by-law ratifying the council's agreement with the Department of Agriculture, Ottawa. The lone opposing vote was cast in the Wards 1 and 4 section, where 71 ratepayers declared themselves in favor. In Wards 2 and 3, 58 ballots were cast.

With the Reeve on the platform at the public meeting last Saturday afternoon were all the Councillors and the Municipal Clerk, Mr J. L. Logie. When Mr Blair opened the meeting at 2.30 the attendance in the Campbell Hall seemed to be somewhat sparse, like at a number of other ratepayers' meetings, but men continued to drop in until there were perhaps fifty or sixty present, on a generous estimate.

The meeting had been called by the Council to lay before the ratepayers the advantages to be gained by ratifying the agreement with the Dominion Government for supplying water to the Experimental Farm at Trout Creek, but after this had been gone into, other things were brought up that took up just as much time, so that before an adjournment was reached dusk had arrived.

Reeve Blair spoke very briefly at the opening of the meeting before he called upon Mr Logie to explain the terms of the agreement. Mr Logie spoke at some length upon the agreement, in regard to which he said there seemed to be a great deal of difference of opinion. Referring to the irrigation system generally, he had always contended that the pipes and flumes were too small as a rule. From the shortage of water last summer in the south main district, the Council had realized that the real trouble lay in the smallness of the ditch, since during the worst months there was an abundance of water in Trout Creek. But there was great difficulty in the way of raising money to do any work to remedy this condition. Then the offer from the Experimental Farm had come along, first \$5,000 to put the flumes and ditches into shape for the extra load, then \$10,000, but with each of these offers there had been the stipulation for free water supply afterwards. The Council had stood out, however, and had finally secured the promise of a grant of \$10,000 cash for the necessary enlargement work, and a further sum of \$300 per year for the water supplied, or at the rate of \$1 1/2 per acre. Since the \$10,000 invested in the irrigation system might be said to give an annual interest at 5 per cent, of \$500, in one way it could be said that the Municipality was getting \$800 per year from the government money.

After touching upon the satisfactory financial position of the irrigation system, Mr Logie quoted figures of his own computation, relative to the carrying capacity of the south main under its enlarged

condition, and these, he said, were calculated on an extremely conservative basis, erring on the side of under estimation rather than over. These figures, in terms of cubic feet of flow, showed clearly that the south main ditch has been increased to carry more than the Experimental Farm demands, with a good amount over. This deal the Council were making was not taking water from the people of that district, on the contrary, it was giving them more. Of the \$10,000 that was promised from the government, \$2,500 had been spent in storage work, and it was proposed to expend the remaining \$7,500 on various ditch and flume work, a good deal of which has already been done. The amount stored in the Trout Creek headwater dam was greatly in excess of the required additional 200 acre feet, and altogether, with the greatly enlarged flumes and ditches, and the length of cement lining, the whole system was in a better position than ever before to fulfil the requirements demanded of it. The water for the farm needed no distribution, the saving of a man's wages during the summer being effected in this way. He considered that the deal was good in every way and from every viewpoint.

Various questions were asked, to which Mr Logie and the Reeve gave explanation, and bearing on the trend of the questions, Coun. Johnston read a list of the work to be done in the spring on that part of the irrigation system affected by the agreement with the Farm. After other questionings and explanations had been gone into, Reeve Blair called upon Mr Jas. Ritchie, who, as the retiring Reeve, had a great deal to do with the negotiations.

Mr Ritchie, in showing how the work on the ditches and flumes was going to give a greater volume of water for the vicinity of Trout Creek, said that Engineer Latimer had based his estimates for this work on the government's suggestion of the needs of that particular district, 2,000 acre feet for the 800 acres during the season. He was quite confident that the ditches would carry enough water in the coming season. Referring to the work done on the storage dam, Mr Ritchie said that altogether 600 acre feet had been stored at a cost of \$5,500, and of this amount \$2,500 would be taken from the government grant to take care of the additional water needed under the agreement, which was a very generous allowance. It was hard to say what would have been done if this offer had not come along, and he thought that a great deal of thanks was due to Mr Helmer for the way he had worked for the interests of the district. As to the distribution there would be no more expense than usual, so that he characterized the \$300 per year as "found money."

An unpleasant possibility was touched upon, when a criticism was

License Commission Named Also Police Commission.

Lib.-Cons. Assoc. Executive Suggests Four Citizens for Consideration of Government.—Not Yet Officially Appointed.

It seems within the bounds of possibility that Summerland will soon have a Liquor License Commission and a Police Commission. Reports that the executive of the local Liberal-Conservative Association have recommended certain citizens for these commissions have been current for the last few days, and when spoken of by the Review the association's secretary, Mr C.

H. Cordy, said that the provincial government had asked the local association to recommend two people for each commission. At a meeting of the party executive held last week Mr J. A. Kirk, President of the association, and Coun. Simpson, were selected for the License Commission, and Coun. Barton and Mr H. Sutherland for the Police Commission. Whether this means

advanced on the ground that the Council had laid out a good part of the money before the agreement had been ratified. To this Mr Ritchie replied that everything had been done to hasten things along, and the money could not have been obtained any earlier. No opposition to the agreement was expected—there was no room for any from those who had studied the question. Water had been allowed to run down Trout Creek for want of larger ditches, which have now been provided. Mr Ritchie pointed out also the extreme urgency of the south main work which had been done, and also how disastrous it would be to the district if the by-law was turned down. It was worth a lot to Summerland to get the Experimental Farm.

Coun. Johnston also emphasized the fact that the work had been absolutely necessary, and by carrying out the enlargement to the dam at Trout Creek headwaters last fall, on the strength of the government assistance promised, considerable economy had been effected.

(Continued on page 3.)

W.C.T.U. Medal Contest.

The Presbyterian Church was very satisfactorily filled on Monday night, when the annual elocutionary silver medal contest was held, under the auspices of the W.C.T.U. This contest may be entered into by boys and girls who make recitations usually along temperance lines, and to the best reciter a silver medal is awarded.

There were six young ladies competing in this contest, and all gave excellent renderings of the several pieces selected. The high excellence of the deliveries made the task of the judges very difficult. Their judgment awarded the medal to Miss Kathleen Brown, who has, by the way, attained this distinction before. Each of the others were presented with a book as an appreciation of their splendid efforts.

A number of items on the program by young local talent were heartily applauded by the large audience. Summerland is to be congratulated on possessing so much splendid talent among its young people, and we hope more will be done to encourage its development. Mr G. J. C. White acted as chairman for the evening, and the full program of the proceedings was as below:

- Hymn "Onward Christian Soldiers"
- Chairman's Remarks
- Chorus "Men of the North," By a Company of Boys
- Contestant No. 1, Miss Marjorie Tingley
- Contestant No. 2, Miss Pearl Darkis
- Song, "Come, Birdie, Come," Master James Smith
- Contestant No. 3, Miss Kathleen Brown
- Contestant No. 4, Miss Marion Harwood
- Song, "Fraser Lister"
- "It's a Long Way to Prohibition," Winnie Yule
- Song, "It's a Long Way to Woman Suffrage"
- Contestant No. 5, Miss Ida Shields
- Contestant No. 6, Miss Belle Vanderburg
- Solos, "The Veteran's Song," Mr H. Grant
- "Jenny Mine"
- Collection
- Presentation of Medal and Books
- Chorus, "God Save Our Boys,"
- GOD SAVE THE KING

Another medal contest under the same auspices is announced for March 1st in the Men's Club.

ACADEMY RESIDENCE BURNS.

Acadia Collegiate Academy residence building at Wolfville, N.S., was destroyed by fire on Wednesday morning this week. The loss is estimated at \$30,000, with insurance amounting to \$22,000. Many graduates and friends of Acadia here will regret this disaster to the well-known institution.

that another effort is being made to get a liquor license for this place could not be learned. It is not known that the commissions have been officially formed. If appointed the Reeve becomes a member ex-officio.

Poultry Association Is Doing Good Business.

Will Result In Putting Much Cash Into Circulation.—Already Has Orders Totaling \$100.00 Weekly.

A hurriedly called meeting of the Summerland Poultry Association was held on Wednesday evening in the office of the secretary, C. N. Borton. The object of the meeting was principally to deal with several matters pertaining to the shipping of eggs. The association has contracted to make regular shipments, but recent experience has shown that the method of gathering for shipment is not the best and needs improving, to get all eggs available for export. Another matter needing immediate attention was the appointing of a successor to Mr E. Garnett, whose private affairs would no longer permit his acting as buyer and shipper for the association.

There was a good representation of poultrymen present, and after a thorough discussion of the business in hand, Mr W. J. Beattie was appointed to succeed Mr Garnett, and he will also attend to the bringing of the eggs from the benches down to the shipping point, the eggs to be left with him at his home.

The association now has orders for eggs that will total more than \$100.00 per week, and at the suggestion of some of the members a plan to pay members promptly at the first of each month is being worked out. Financed in this way the association will make it easier for members to pay cash for their feed, and the prompt cash settlement will be an inducement for members to put all their eggs through the association as well as to draw new members.

LIBERAL-CONSERVATIVE ANNUAL MEETING.

The call of the secretary of the local Liberal-Conservative Association drew between twenty and thirty to the annual meeting in the Campbell Hall on Monday evening, at eight o'clock.

The election of officers was the main business up before the meeting, and this resulted in the under-mentioned men going into office:

- President - J. A. Kirk
- First Vice-President - E. R. Simpson
- Second Vice-President - R. V. Agur
- Secretary - Chas. H. Cordy
- Treasurer - A. B. Elliott
- Executive:
 - Ward 1 - C. N. Borton
 - Ward 2 - W. C. W. Fosbery
 - Ward 3 - P. G. Dodwell
 - Ward 4 - J. M. Sutherland
- Auditor - W. C. W. Fosbery

The association voted to send to Hon. Martin Burrell, Dominion Minister of Agriculture, an acknowledgment of his good offices in placing the new Experimental Farm in Summerland.

On Thursday afternoon in the Methodist Church, Rev. G. C. Pidgeon, D.D., of Vancouver, who is making a trip to the Valley, addressed a mass meeting of men in the interests of the Social Service Union, a provincial interdenominational organization. Though the attendance was not large, the meeting was nevertheless very helpful, and in his able address, Dr Pidgeon showed up a great deal that seems to be wanting in the legislation of this province bearing on social conditions. He pointed out the need for co-operative work on the part of temperance sentiment in approaching the license by-laws, and urged that another great need was to get local option legislation within municipal control. The slackness of conditions bearing on the land question, whereby speculators were able to obtain large holdings, came in for some criticism from Dr Pidgeon, and also the flagrant violations of the spirit of the laws in regard to elections. The voters' lists needed tightening up, he said, so that the resident electorates become solely responsible for their own affairs. That the moral forces must challenge local conditions in need of remedy, was another strong declaration of Dr Pidgeon.

FRIDAY, FEBRUARY 5, 1915.

A PRACTICAL POULTRY ASSOCIATION.

THE ENTERPRISE shown by the Poultry Association in finding a cash market for eggs is most gratifying, and the possibilities they have opened up for a steady inflow of money in exchange for an important by-product of orcharding, are large. Already nearly a hundred poultry men, including several from Naramata, have identified themselves with the Association, which up to now has existed solely for show purposes, and it is confidently expected that in a few months exports will total several thousand dozens per month.

A good start has been made, and highest attainment of success now depends on the members. Co-operation, and supplying only strictly fresh, non-fertile eggs, as stipulated by the buyers is of course essential.

Those seeds you will soon be buying! Are they going to be seeds, good seeds or the very best seeds? And are they going to be of the very best varieties for your particular purpose? It is stated on good authority that the use of poor seed and seed of wrong varieties last season resulted in a loss of many hundred dollars to Summerland alone, and to no small sum, even to individual growers. One had better pay ten dollars for the best seed than ten cents for something that is going to produce either a small crop or a variety of produce that is unsalable. In the one case the plot of ground may give a crop fetching fifty dollars, and in the other one hundred and fifty dollars for the same outlay in time and material, with the exception of seed.

BE SURE YOU BUY ONLY THE BEST.

WHICH is the best way to do public work, by contract or by day work under municipal supervision? This is an open question, and each side has many supporters. One method may be better in one instance, the other in another, but by a very simple method a decision in each instance may be arrived at, especially as to the relative cost, a method that is coming into use in many places. When it is decided to do a certain piece of public work, the plans are carefully prepared and specifications drawn up. Tenders are then called, and the civic engineer or similar official is required to put in his tender as well. These are all sealed, and the bidders' figures are not known to the engineering department. If a worthy bidder offers to do the work cheaper than the city or town bid it goes to him, if the engineer's figures are lowest he gets the work, and is expected to come within his bid.

IT IS FELT to be a matter of regret that the Municipal Council did not see its way to follow out the practice of former years and give the annual financial statement the publicity of these columns. The more one compares the figures with those on the balance sheets of other municipal corporations, the more convinced one must become in the opinion that Summerland's financial position is not only as sound as any city or town in the Dominion, but a great deal sounder than most in the West. In such times as these, when the ordinary channels of capital are very much curtailed, and when investors are making trebly sure of the standing and legitimacy of enterprises before they sink their capital, such a balance sheet as ours would form the best and most effective form of publicity. There is nothing to hide, and nothing that could not stand the full light of the most searching criticism. It is the best answer to the natural question as to whether the affairs of the community have been in capable hands, and as it would, through the medium of this paper, have come under the notice of the majority of those interested in the district in one way or another, the figures would have given the best and most conclusive answer to baseless criticisms, at the same time building up the confidence of the people here, who are already convinced as to the future of Summerland.

PRAISE FOR THE ENGLISH SPARROW.

The English sparrow has his faults, and to some folk is quite annoying; but give him credit for the good he does, urges the Philadelphia North American.

Thousands of cabbage worms are caught each year by the English sparrows which frequent gardens and fields where cabbage is grown. The sparrows will dive down amid the leaves and quickly clean up a good-sized cabbage patch.

The little chirping sparrow devours the cabbage worm, and the English sparrow, being a great imitator, learned the trick by observation, and soon became very proficient in the worm-catching business.

She—"Merely to think of that Persian lamb coat you promised me gives me a glow of warmth." He—"And merely to think of what it will cost gives me cold shivers down the back."

BASKETBALL

LEAGUE STANDING.

Seniors.		Per-	Points
Played	Won	centage	For Agst
College	11	6	54.5 214 174
Town	12	6	50.0 240 179
West	11	5	45.4 153 252
Intermediates.			
Town	12	8	66.6 182 124
West	11	5	45.4 149 206
College	11	4	36.3 141 186

The Town seniors were fated not to remain league leaders for long, it seems. On Friday of last week in the College Gymnasium, their star of destiny waned very decidedly, and when the College boys doubled the score on them, first place in the league went with the victory.

The intermediate game that precluded the meeting of the seniors went to the boys from the Town. Though the scoring opened for the College, the visitors soon warmed up to their work, and at half time 11 points were recorded in their favor as against 5 for the College. Angove at centre starred for the Town, and monopolized their scoring by securing four baskets. Sismey was also a scorer with one basket, and a foul made up the Town's total. For the College K. Elliott and Jennings found the basket, and one foul shot was likewise converted to their account. For the second half Dale appeared for the College in place of B. Elliott, but even so the College had to be content with but six points this half, two from Dale, two from Elliott, and two from fouls. The Town aggregated another 11 points, Angove again being very much to the fore, securing 3 more baskets. White seemed to have success in putting fouls to good account this half, helping the Town points to pile up. The College guards had their hands full all through the game, their opposing forwards seeming to be in good fettle. A Pentland had charge of this game, and the two teams were:

Town	College
C. H. Sismey	for. K. Elliott
R. White	" B. Elliott
	and G. Dale
W. Angove,	cen. H. Jennings
F. Williams	gd. E. Armstrong
C. Clay	" Anderson

The way in which the College trimmed the Town in the senior

game can only be accounted for by the high-class, consistent basketball which the former showed in contrast to the less brilliant showing of the latter. In the first half especially, the College combination and their seeming ability in breaking most of the Town efforts along that line, made the game look to be theirs almost all the time. The College guards were particularly strong in their defence, and with Dale, McLeod and Cochrane working finely together, they had amassed 17 points by the time the whistle blew half time, while the Town had been able to do no better than 8. McLeod and Dale each had three baskets, and Cochrane two, and McLeod had also been able to convert one foul for the College, and among the Town boys Phinney with two, McWilliams and Hayward with one apiece, were the scorers. The visitors were not able to settle down into any kind of combined work, and though they worked hard to turn the tide of defeat, the College were a match for them, and always held their own. In the second half the scoring was less prolific, but still in favor of the boys from the hilltop, who, though without Morlock, did not seem much at sea on that account. Cochrane, Dale and McLeod were again the College basket finders, the first-named securing another point on a foul, while for the losers, Phinney and Lavis found the net. College rooters were much elated over the victory of their boys, and showed their pleasure by the customary manifestations. E. Logie had the whistle, through this game, and the teams were:

Town	College
H. Phinney	forward M. Cochrane
C. Lavis	" G. Dale
C. McWilliams	centre J. McLeod
J. F. Glenn	guard C. Riley
F. Hayward	" A. Vanderburg

The place of the College at the head of the league is none too secure, and if in the game scheduled to-night, Friday, between the Wests and the College, the former are able to duplicate their feat of two weeks ago, when they vanquished the College boys, the somewhat peculiar result will follow of all three teams standing equal, with six wins apiece. But this may not be, in which case the College will take a good stride up. The next game, on Monday, will be in the Men's Club, the Town and Wests being the contenders.

ONLY ONE VOTER OPPOSED.

[Continued from Page 1.]

Further questions elicited from Mr Ritchie the opinion that while all the work now done could be paid for, even if the \$10,000, payment were not forthcoming, it would be a bad day for Summerland if Wednesday saw the by-law voted down. It would leave the south main orchardists practically in the same position as last year.

Just when this phase of the situation was having consideration, and after it had been stated that it would be the south main users who would feel the bad effects—most if the agreement was not ratified, Coun. Borton gave out some figures showing just what it meant to Summerland in hard cash to have the Farm. In the few weeks of the fall when work was being carried on there, not less than \$4,000 had been paid out in wages, and for the coming year between \$15,000 and \$20,000 would be paid out in a similar way. Mr Borton thought that this was a consideration not to be lost sight of.

Among those who had taken part in the discussion and questioning up to this point were Messrs W. A. Caldwell, R. W. Nelson, W. A. Wright, C. D. Denton, Jno. Tait, and Coun. Simpson.

Branching off into another subject, the Reeve announced that F. J. Nixon had figures to read regarding the relative cost of the cement lining of the ditches by contract, and by day work under Superintendent Mitchell. These figures had been brought up before the Council at its meeting about two weeks ago, and as reproduced in the Review appeared to give rise to wrong impressions, since the specifications to which they referred had not appeared. Arising from this and a comparison of the two methods of work, an animated discussion sprang up for a few moments between Messrs Nixon and McAlpin.

Nothing more was said about the agreement with the Dominion Government, and the meeting passed on to the consideration of another topic brought up by Mr Logie. This was the appointment of a Patriotic Committee to deal with local applications for aid from the treasury of the Patriotic Fund of the province, it was explained. There were several suggestions as to how this committee should be constituted, and finally, on the advice of Mr Logie, two ladies and three men were named, these being Mesdames H. A. Solly and R. Cartwright, and Messrs Jas. Ritchie, F. W. Andrew and J. L. Hilborn. Still another matter was to come before the meeting for consideration, and this was stated by the Reeve to be the matter of municipal aid for the Hospital. He called upon Mr W. J. Robinson, chairman of the Hospital Board, to speak on this matter.

Mr Robinson laid the case for the Hospital before the ratepayers. He pointed out that the Hospital Board had not called upon the Council in connection with the erection of the new building, and now it was all completed and paid for, they felt that the Municipality should take a share in the maintenance, rather than to continue calling upon the people as individuals. A tax levy of 1/2 mill on a ten acre orchard assessed at \$3,000 would only mean \$1.50, and he was sure there were people who would not object to paying that. It was proposed to run the new building as economically as possible, and so far as regards earnings and expenses went, the institution had about pulled even since last fall. He felt it was the voice of a good many people that they should go to the Council, and further, other towns in the Valley were aiding their hospitals to varying extents. A tax levy of 1/2 mill was suggested by the Board to meet the needs of the situation.

Dr Andrew, then called upon, spoke on the question from the standpoint of the physician. After explaining the changed attitude now adopted towards hospitals generally, he dwelt upon the local institution and its work. The minimum staff for the building, he said, was four, a matron, night and day nurses, a cook, and in addition, a janitor for what little work was necessary in that line. Although the Hospital received some help from the government in the shape of a grant of \$1 per day on all accepting maternity cases, this was not enough, and if the Council would not help, the Hospital Board would have to come on to the people again sooner or later. He thought the better way would be to take a little on every man's property, as the institution was an indirect benefit to the whole community. Mr H. C. Moller, a director of the Hospital Board, also spoke in

the interests of the Hospital. He gave a resume of what had been done since the fall of 1913, when the former building used for hospital purposes had been condemned, and recalled the circumstances that led to the erection of an entirely new building with government help. Now they were entering upon a new phase of the problem—the maintenance, and in connection with this, they would either have to beg from the people, or secure help from the Council. The ruling of the government in regard to the grant made something of a hardship, and it was thought to be only fair that a little of the expense be spread over all the district.

After the Reeve, in reply to a question, had said that the Council at their last meeting had made a grant, of \$300 and free light and water, Mr Mellor read from the statutes showing that the Council had a certain liability for indigent patients admitted to the Hospital. He explained further that what the Board desired from the Council was the proceeds from a tax levy of half a mill on the dollar and light and water in preference to the grant offered. In consideration of this the Board would not look to the Council for any reimbursements on account of indigents. As to the interpretation of the term "indigent" there was considerable difference of opinion, and also as to the liability of the Municipality in this respect. Figures read by Secretary Riley showed that up to date the Hospital had outstanding accounts due totalling more than \$520, including the government money due, which might amount to between two and three hundred dollars.

Mr P. G. Dodwell voiced the sentiment in the meeting that did not favor this taxation. He said that he did not see that compulsion in this regard was called for; it was the wrong way to finance, and it would drive the willing ones away. He suggested that the Council and the Hospital Board get together on this question, and that the latter ought to accept the Council's offer, which seemed very reasonable in the present circumstances.

Mr Logie explained the reading of the law respecting the Council's liability in certain cases, according to his conception, stating that they were in no instance liable for more than \$1 per day. Everyone was agreed that the Hospital should be helped along, and he was also of the opinion that the Council's grant had seemed very reasonable. Compulsion was the wrong principle to start on in this case, and it would result in the Hospital getting less than by willing and voluntary giving. Moreover it was shifting the financial responsibility on to the Council. The proposed levy of 1/2 mill would realize about \$800, less one-sixth discount, and unless the Council were to be expected to advance the money before the taxes were paid in, it would be some time before the Hospital ever saw the proceeds of the levy. He was not speaking against the Hospital, but against that method of financing, and he advised the Board to accept the grant offered.

Mr Ritchie did not agree with the referendum proposed, since if the proposal was turned down, an awkward situation would be created. He thought that the Board should take the assistance offered, and then at the end of the year come to the Council again if the grant had proved inadequate. Mr Hilborn echoed this view, saying that the people should and will support the Hospital, but taxation would prove the wrong way to go about it.

Mr Robinson again advocated the tax levy as the most satisfactory for the Hospital, and Mr J. McLenn, another member of the Hospital Board, also spoke, saying that it was not the desire of the Board to add to the burdens of the Council, or in any way to suggest compulsion in the payment of any money. If the \$800 from tax levy was thought to be too much, then the Hospital only asked that the Council do all that was possible for them.

From the trend of the opinions expressed Mr Robinson thought that perhaps it might be better for the Hospital to accept the proffered grant of \$300 and not go to the people with a referendum. A motion that the referendum be withdrawn from the voting was made by Mr Ritchie, and duly seconded, but just what standing the resolution had was not to be gathered, as the meeting was already breaking up.

Before the citizens dispersed, the Reeve urged all ratepayers to get out and vote on Wednesday, and not allow themselves to think that they could show their sympathy for the by-law by staying away from the poll.

OUR NARAMATA SECTION

NARAMATA SCOUT DOINGS.

On Tuesday evening Mr. W. Nuttall came over to our gymnasium and showed us some new athletic stunts for our concert. Mr Nuttall is quite an athlete, and we are very grateful to him for his valued help.

Only second class scouts who had obtained their Ambulance Badge were present at the meeting on Thursday evening, and a rehearsal of our First Aid sketch took place.

Saturday afternoon a contest of dispatch running took place between the Eagle and Wolf Patrols. The rules were as follows: The Eagles chose one of their number for dispatch runner, and it was his duty to carry a written message from the Scout headquarters up to Capt. Languedoc's ranch, have it countersigned there, and fetch it back to the starting point, without being caught if possible, or at any rate without having his message captured by the enemy, who in this case were the members of the Wolf Patrol.

The Wolf runner was supposed to carry his dispatch from the headquarters up to Mr Schreck's home, and after having it countersigned by him, to fetch it back without having it captured by the Eagles, who were on the look-out for him. The runner must be touched before he was considered as having been captured, and if his dispatch could not be found by his captor after a reasonable time, he must be allowed to go his way. Once a messenger was captured he must allow himself to be searched, and put no obstacle in the way of the searchers, although he was allowed to hide his dispatch wherever he desired. The interceptors were not allowed to be concealed within a quarter of a mile of either the starting point or the destination. At the end of the day the honors were found to be about even.

The Eagle runner, Arthur Stiff, second of that patrol, was captured by Scout Harold Allen, but was released after a thorough search without his message having been discovered, while the Wolf runner, Scout Earle Hughes, was captured by patrol leader Frank Hughes of the Eagles, and was also released with his dispatch intact. This latter messenger also had another narrow escape from being captured, and was chased from Aikens's point right up to the door of the scout hall by another Eagle, Scout Edmund Boothe. Scoutmaster Pitman, who was aiding the Wolves, chased the Eagle runner for some distance, but owing to the latter's lightness of foot, and the rough nature of the ground, the Eagle made a successful getaway.

The hiding places for the dispatches in both cases were very ingenious, but for obvious strategical purposes they will not be revealed here.

We are very grateful to the Summerland Troop for their kindness in loaning us two of their bugles for use in our approaching concert. At present we have no bugles of our own, but we are living in hopes of obtaining a couple some time.

A. SCOUT.

"They say that young rounder Spenditt has committed suicide." "Yes, The doctor says he swallowed enough poison to kill fifty men." "Just like him! Extravagant to the last."

Current Events - OF - Town & District

Mr Fred Manchester is preparing a new home for his family on Lily Street.

Mrs Languedoc spent part of the week with Mrs Solly at the Rectory, West Summerland.

Mr and Mrs Dean Walters went over to the Quadrille Club dance in Summerland on Thursday evening.

Mr Fred Lorne Roe has gone to Penticton to live, but expects to spend the week-ends with his mother at "The Syndica."

Miss Dorothy Robinson is studying hard at Moulton College, Toronto, trying to get up her year's matriculation work during half term.

Mr and Mrs John Schreck were guests of Mr and Mrs Davies at "The Outlook" on Thursday of last week, and of Captain and Mrs Languedoc early this week.

Mr Glen of the Canadian Bank of Commerce, Summerland, accompanied Mr W. A. Robinson on his usual week-end visit to his cousins at "The Naramata" last Saturday.

The Misses Gladys and Kathleen Robinson and Miss Emma Davies were house guests of Dr and Mrs Lipsett this week while attending Miss Livingstone's course of cookery lessons.

The Ski-ing Club were driven five miles back in the mountains last Friday by Mr Norman Mitchell, and had great fun on their ski home, the last tramp of the winter, perhaps, as every vestige of snow had disappeared by Sunday.

Mrs E. P. Roe has received word from her daughter, Mrs George I. Gray, Montreal, that her only son has enlisted for service at the war front. This is the fourth of Mrs Roe's young grandsons who will serve his country on the battle line.

Mr Mark Manchester took the boat on Thursday morning en route for Dawson City, Yukon, where he will remain until the closing of the out-door working season next fall. During his winter stay in Naramata he finished his bungalow, made most of the artistic furniture for it, and has left Mrs Manchester and the two little lads comfortably and prettily housed while he trips north again.

The importance of a "week-end visit" to a small folk was evidenced when Master Stewart Pushman received an invitation to spend Sunday at the cottage in Outlook Orchard. Had he been going to the moon no greater preparation could have been made nor more pleasurable excitement felt; and his return on Monday savored of the home-coming of one long absent and much travelled. The great big treat to the small boy eclipsing any event that can come in after years, told solemnly as worthy a place in the public press! Bless him, and the place is his: Stewart went, and Stewart came back.

PARTIES FOR ALL NARAMATIANS

Three large indoor parties were given during the week, the first, specially for the married people, at the Unity Club House on Thursday evening. Nearly all the residents on the lakeside peninsula attended, and games of all sorts were played until the lights went out at midnight. A real gay old-fashioned time was spent, the hostesses being Mrs J. H. Pushman, Mrs Fred Manchester, Mrs Howard Rounds and Miss Gwendoline Robinson. Those from the benches, who came down to the party, were Mrs Rounds, sen., Mr and Mrs H. Rounds, Mrs Allen, Mr and Mrs Hugh Davies, Mr and Mrs Myers, Mr and Mrs John M. Schreck.

The Saturday night party was given by Miss Gwendoline Robinson and her sisters at "The Naramata," Mrs Campbell Robinson coming over from Summerland as one of the hostesses. This party was for the young people, when dancing was the chief amusement. Those who attended were Mr and Mrs Fred Manchester, Mr and Mrs Mark Manchester, and Mr and Mrs Howard Rounds, Miss Emma Davies, Miss Lois Wells, Miss Vera Roe, Miss Adelaide Hayward, Miss Edna Noyes, Miss Whitworth, Miss Foster, Messrs Harold and Norman Mitchell, Mr Glenn, Summerland, Mr Guy Brock, Mr Alex. Noyes, Mr Gerald Roe, Mr J. O. Robinson, and W. A. Robinson from Summerland.

Tuesday was Mr Thomas Williams' birthday, and his celebration was also a party given in Mr and Mrs Williams' cosy new bungalow on the crescent of the inlet. The list of guests was long and the evening was spent delightfully in music, games and meeting of many old timers.

Naramata Current Events

Mrs James Hayward and Mrs Lyons are hostesses at the Unity Club tea this afternoon.

Not a skate, not a sleigh! And bean suppers, bon-fire teas, and snow parties arranged for by the half score!

This, Friday, evening, the Epworth League will be presided over by Stewart Allen, chairman of Missionary Night.

The subject for discussion at the Literary Society of 15th February will be "One Hundred Years Peace Between Canada and the United States." The names of the speakers have not been officially announced.

While no flying machines were observed from Naramata on the evening of January 27th, there was a vision seen over the mountains behind Summerland that vied in beauty with the world famed Fujiyama of the picture land of Japan. Snow Mountain was dazzling through a mesh of cobweb mist, yet no sun shone, and only a rimmed outline of ice-cold blue-grey was about it. Its whiteness so intense that it appeared living, so awful that it seemed dead—was offset by a mass of purple-black clouds to the north, and floating dun-hued mists below. A sunset, as it were, without color, yet more impressive in its sombreness than brilliancy could ever be.

NOT WHAT SHE ORDERED.

"Ma'am, here's a man at the door with a parcel for you." "What is it Bridget?" "It's a fish, ma'am, and it's marked C.O.D." "Then make the man take it back to the dealer. I ordered trout."

AN EVENING WITH AUTHORS.

Sixteen new members answered to the roll call at the Literary Society's meeting last Monday evening, and afterwards expressed their gratification that they had joined so delightful an association. The program was exceptionally good, every literary number being a visit to the home of an author, with illuminating glances through the writings. Mrs James Hayward was the first to take part, and she went away to the thoughts of that delightful writer of humor, B. C. V. Myers, and kept the audience convulsed with laughter while she told how "Mr Burton put up the curtain." Mrs Hans Salting talked of Ella Wheeler Wilcox, and read some pointed rhymes of that gifted author after telling something of her life and various writings. "Which are you, the one who stands and works or the one who leans and rests?" was the query of her last selection. Mrs Morsch took everyone away to the Southland. In simple language, exquisitely worded, she described the home village of John D. Wells, "just like hundreds of southern villages, lanes, flowers, church spires—with homes and business places all jumbled together; but of his own, John Wells made this difference, he told of the everyday happenings in rhyme, and his rhymes touch the heart to eternal remembrance.

Miss Margaret Gordon of Scotch forebears, went back to the home of Robert Louis Stevenson. She seemed to know him, had been in his haunts and then crossed the water, in imagination, with him. Among his wonderful words, strung into books she but dipped her thoughts, as a hand dips into a treasure chest, and brought up, without thought of sorting, gems of unmatched worth. She knew her Stevenson, and the members of the "Literary" met him and loved him too.

Then Mr Fred Lorne Roe spoke of Shakespeare of whom libraries have been written, and brought out the idea that although the most gifted writer of the world had lived so long ago, yet what he had written then was as applicable to the present day as though it had been written now. The farewell of Polonius to his son Laertes (Hamlet) was his apt quotation in bringing the literary part of the program to a close.

Mr Mackie played at different times during the evening, old fashioned medleys of all nations that set the feet keeping time, and the voices to singing, and Mr Harry Pitman gave the vocal numbers.

No Miss Livingstone and her cookery classes for Naramata until a Women's Institute is organized here. Few were able to go across the lake more than once or twice to see the making of, hear the instructions, and taste the delicacies, that were made this week, at the Summerland Institute, yet all who went, and many who could not go, would like to have attended every class. On Monday evening, before the opening of the literary program, Mr H. J. Wells, past president of the Farmers' Institute, issued an invitation to the wives of the ranchers hereabout to join the Farmers' Institute instead of trying to organize a Women's Institute here. Women are considering. They wonder just what personal advantage it will be to them. The question is worthy of thought; but a Women's Institute is for women, backed by the government, and granted special privileges.

NOTICE

Pound District Act AND Pound District Act Amendment Act.

PURSUANT to the provisions of Section 11 of the above Act, notice is hereby given of the appointment of Mr. W. W. MITCHELL, of Naramata, B.C., as Poundkeeper of the Pound established within the Naramata Pound District, as specified by Order-in-Council No. 1117, September 28rd, 1914,

PRICE ELLISON, Minister of Finance and Agriculture, Department of Agriculture, Victoria, B.C., January 6th, 1915.

Relishes

Jellies Jams

LIFE would be flat and colorless for both young and old without some pleasure to give it piquancy.

So with food. A relish creates pleasure and appetite for your meals. It is oft-times as much of a tonic as the best prescription handed out by a physician. It is your duty as a careful housewife to get the best in relishes. Bad relishes spoil good food.

WE aim to keep the best in these as in everything else—delicious Jams and Jellies that are made with pure sugar, and keep the natural flavor of the berries. Pickles preserved in the finest malt vinegar. Sauces of the best brand—all the hundred and one delicacies that help to make your daily meals more pleasing.

If you want any Relish we have it. Come in and look over stock.

LETTER TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications.

Summerland, B.C., 2nd Feb., 1915.

Editor, Summerland Review.

Dear Sir, The question of contract work, or having the work done by the Municipal staff appears to have become a rather live one during the last few months in connection with the improvements and additions to our Municipal irrigation system.

It is not my intention at the present time to engage in a discussion as to the relative value of the two plans, it is a subject that is being given a great deal of attention in other places besides Summerland.

In my opinion where a city or a municipality has a well qualified engineering staff capable of properly laying out and carrying on such work, and with the time for the same at their disposal, there is much to be said in favor of it.

The statement compares Supt. Mitchell's lining 1209 feet of the south main at \$1.05, with T. J. McAlpine's bid for "similar" at \$1.15. Now what does "similar" mean, and what is it intended to convey?

The case in respect to the Garnett ditch is even worse. While the work as completed at a cost of 71 cents per foot is given as 2 ft. x 1 ft. 9, the tenders for which the prices are given were called for were at 2 ft. x 2 ft.

What do the ratepayers of Summerland think of this for fair play? PRO BONO PUBLICO.

BOY SCOUTS.

The Naramata Boy Scouts are giving a concert across the lake on the evening of Thursday, February 18th. The Summerland Scouts are invited to attend in a body as guests of the Naramata troop.

All local Scouts who desire to attend are requested to gather in the High School room on Friday night, February 12th, at 7.30, when a meeting will be held. There will be a small ferry charge on the trip to Naramata, but the boys will have free admission to the concert being arranged for by their brother Scouts.

VISIT OF PROMINENT LADY LECTURER.

In connection with the lecture course, an event of great interest is scheduled for Tuesday night next in the Men's Club. The lecturer for the evening will be Mrs Lashley Hall, ex-president of the Women's Equality League of B.C.

Let the wealthy and great Seek splendour and state; I envy them not, I declare it. I grow my own lamb, My chickens and ham; I shear my own wool, And I wear it.

Passing Events: Social, Personal, &c.

Mrs Thos. Behan came down the lake last Saturday evening from Vernon after a two weeks' visit at Vernon.

I am now prepared to quote prices on vegetable plants. Please see me soon if wanting any of same. A. McLachlan. f5-12

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Mr Carscaden, who has been spending the winter here, was joined by his wife and two sons who came in on Thursday night from the prairies.

Mr R. M. Duncan of Stettler, Alberta, was a visitor in Summerland on Tuesday, staying at the Felix. Mr Duncan expressed himself as more impressed with Summerland than by any other Valley town he had yet seen.

The match to be played yesterday between Kelowna and local hockey-ists was made an impossibility by the mild weather. The boys are hoping, however, to have the visitors here for Saturday or next Thursday at the latest.

Arrangements have been made whereby the ordinary rate of two cents per ounce, applicable to all letters sent from Canada to the United Kingdom, will apply to letters addressed to British and Canadian troops on the continent.

An exchange of property lately effected brought Mr and Mrs C. W. Lamb and little one to Summerland on Tuesday evening's boat of this week, from Willdun, Alberta.

Boys is men that have got as big as their papas, and girls is young women that will be young ladies by-and-by. Man was made before woman. When God looked at Adam he said to himself: "Well, I guess I can do better than that if I tried again," and then he made Eve so much better than he did Adam that there has been more women than men in the world ever since.

"Don't forget that it is your advertising that puts you on the map. Keep at your advertising. Don't give a big splash followed by a lot of silence."

Mrs F. R. Gartrell came off the boat on Saturday night of last week after visiting Kelowna relatives for a week or so.

Are your plows, cultivators and harrows ready for spring work? If not, better bring them in now for repairs. W. R. Shields. f5-26

Mr Frank Whitfield has disposed of his West Summerland property to Mr Scott Darkis, and with his son, is leaving for England on the 18th inst.

The regular monthly meeting of the Board of Trade will be held next Tuesday afternoon at 3.30 in the Summerland Supply Co.'s building. C. A. McWilliams, Secy.

Methodist Church services will be conducted in the Methodist Church on Sunday next at 10.30 a.m. and 7 p.m. by the pastor, Rev. R. W. Lee. All are heartily invited.

Mr G. J. C. White went up the lake on Wednesday morning to fulfil two engagements. He gave an illustrated lecture, bearing on his visit to Palestine, on Wednesday, and the following day attended a meeting of the directors of the Okanagan United Growers.

WANTED—Summerland property in exchange for the following Kelowna residential property at once: House and Lot assessed \$6,600.00 Lot assessed 3,600.00 3 Lots, assessed 1,200.00 Write Mr. Stewart, Kings Warehouse, Regina. f29f5

The Municipal debenture issue recently floated and taken up at par has been finally arranged in every detail, and the bonds are now on their way to Messrs G. A. Stimson & Co., Toronto, who took up the issue. The proceeds can thus be expected very shortly to find their way into the Municipal treasury, relieving an unpleasant but quite unavoidable stringency.

A GIRLS' COMPOSITION ON BOYS.

Boys is men that have got as big as their papas, and girls is young women that will be young ladies by-and-by. Man was made before woman. When God looked at Adam he said to himself: "Well, I guess I can do better than that if I tried again," and then he made Eve so much better than he did Adam that there has been more women than men in the world ever since.

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

PUBLIC SCHOOL HONOR ROLLS FOR JANUARY.

The names detailed below constitute the honor rolls in the various divisions of the Summerland public school, for the month of January. The names are in order of merit:

DIVISION I.

Senior Fourth—Gavin Spalding, Olive Bristow, Leonard Whitfield, Jean Ritchie, Dorothy Tingley.

Junior Fourth—Bernard Taylor, Hazel Steuart, Lily Simpson, Alex. Smith, Mary Hatt.

DIVISION II.

Senior Third—Frank Calder, Minnie Ritchie, May Harrison, Louis Smith, John Denike, Betty Barnes.

Intermediate Third—Ruth Graham, Thomas Washington, Helen Shuffrey, Alfred Johnston, Lizzie Walker.

DIVISION III.

Third Reader—W. Gayton, A. Munn, W. Caldwell, W. Yule, J. Monro.

Second Reader—Grace Garnett, Jean Ritchie, A. Phillips, E. Johnston, Z. Garnett.

First Reader—S. Ging, A. Holding, D. Tomlin, E. Bowering, M. Munn.

DIVISION IV.

Second Primer A—Laura Mc Lachlan, Adrian Howell, George Graham, Leicester Arkell.

Second Primer B—Dorothy Garnett, May Ritchie, Bettie Caldwell, William Ritchie.

First Primer A—Arthur Morgan, Kathleen Monro, Muriel Simpson, Joe Garnett.

First Primer B—Ella Bowering, May Hale.

DIVISION V. (Town School)

Second Reader—Marion Beavis, Mabel Shields, Arthur Gartell and Kirk Sutherland, equal, Alice Limmer.

First Reader—Alvin Wilson.

Second Primer—Lillian Hunt, Gordon Southorne.

First Primer A—Campbell McAlpine, Harvey Wilson, Violet Atkins.

Perfect Attendance—Jonn Blowett, Arthur Gartrell, Lillian Hunt, Alice Limmer, Campbell McAlpine, Alvin Wilson, Archibald Brown.

Promoted to First Primer A—Violet Atkins, Kenneth Gartrell, Campbell McAlpine, Harvey Wilson.

How To Prepare a Hotbed.

Collect unheated manure from the horse barns and mix with the pure manure an equal amount of straw that has been used for bedding. Fork this over well and pile in a heap and let stand for about two days. If it does not start to heat in this time moisten the entire pile with warm water.

Prepare a pit for the manure bed. This should be located on the south side of buildings with a good exposure to the sun. The pit should be about two feet deep, not over six feet wide and as long as desired. It is preferable to have the long measure east and west. As soon as the manure has started to heat well, it should be placed in the pit and carefully trampled. This is the best method of packing the manure evenly in all parts of the bed. If it seems dry, add enough water to dampen, but do not apply enough to saturate the bed. Let the bed stand until it is heating well throughout, then cover with five or six inches of good garden loam. Let this stand for three or four days and then work down the surface with a rake and the bed is ready for seeding.

A broad frame, 10 or 12 inches high on the south and double that on the north, should be placed about the bed when the pit is prepared. The glass sash or cloth covering used should be placed on as soon as the manure is packed in.

A bed prepared in this way will furnish heat about six weeks. The temperature will run high at the start and gradually go down. At the end of six weeks the hot bed becomes a cold frame and will protect plants from frosts but not hard frozes.

DIVISION VI.

Senior Third—Eva Smith.

Junior Third—Wm. Smith.

Second Reader—Noel Wright, Dorothy Dunsdon, Mason Merrihow, Florence Campbell, Arthur Wismer.

Second Primer—Marjorie Atkinson, Rupert Wright, Arthur Dunsdon, Harry Dunsdon.

First Primer—Janet Wismer, James Dunsdon.

Promoted to First Reader—Marjorie Atkinson, Rupert Wright, Arthur Dunsdon, Harry Dunsdon.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working

Newsy Faragaphs from PEACHLAND

Wm. Douglas was a visitor to Kelowna on Friday.

Mr and Mrs Joe Fleming and Miss Bishop returned on Friday from a visit to Osprey Lake.

Alvin McLennan of the C.P.R., Edmonton, who spent a month here holidaying, left for home again on Monday morning.

The Women's Institute will meet on Tuesday, February 9th. Mr Fleming of the High School will give a talk on the war, after which a sale of home-made cookery will take place.

Ted Smith left on Thursday morning for Calgary to join the colors. Good bye, Ted, we are sorry to think that we will lose you for a while, but we hope and trust that you will return safe and sound.

A farewell dance to Mr and Mrs F. Toloman, Mr and Mrs J. Fleming, and Miss Bishop will be given on Friday night in the Orange Hall by the citizens. Miss Bishop leaves on Wednesday morning for Calgary, and the others leave on the same day en route for their old homes in the Motherland.

A number of pleasure seekers journeyed to Gellatly on Saturday and departed themselves for several hours on the rink there, afterwards repairing to the home of Mr Gellatly, where they were right royally entertained. Before leaving, a vote of thanks for their kindness, etc., was given the family by the visitors. The return trip was made lively by song and laughter.

Miss Livingstone completed her demonstrations in cookery before the Institute here, on Friday last. Much interest in those demonstrations was evinced throughout the whole course, which was both instructive and helpful. Miss Livingstone's pleasing personality, thoroughness, and untiring efforts have won for her a host of friends here, who will all be much pleased to welcome her, should she return at any future time. Our Institute

membership has been increased by seventeen, owing to her demonstrations.

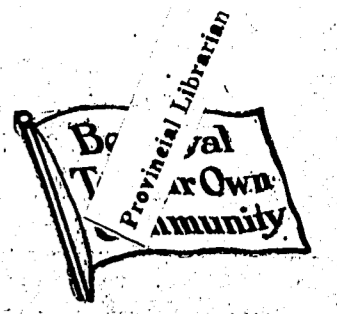

The Ambulance League will send away another lot of comforts for the soldiers, early next week. As rumors that some of the supplies sent have fallen into the hands of the enemy and were being used by the German Red Cross Society, have found their way into some of the papers, the Canadian Red Cross Society wishes to make it known that all supplies sent by them to England, have been sent by British vessels from Quebec and Halifax, and that none of the articles shipped have fallen into the hands of the enemy.

On Tuesday evening Mr and Mrs Jno. McLaughlan gave an entertainment and social in aid of the Ambulance Fund. A large number attended, and enjoyed to the full the excellent program furnished, so much so that their enthusiasm found vent by joining in the choruses wherever possible. The numbers comprised several patriotic songs which went with a royal swing. Those beside the family who assisted in making the evening a success were Mrs George Lang, Mrs Mitchell, Mrs Hyde, and the Misses Muriel and Dorothy Harrington, Beatrice Lang, Nancy Buchanan and Rene Elliott, and Messrs Fisher and Sutherland. Refreshments were served, after which a vote of thanks to Mr and Mrs McLaughlan was proposed by Dr Buchanan, and fittingly replied to by Mr McLaughlan, then the company broke into "For they are Jolly Good Fellows." The room was cleared for dancing and cards, which were kept up until the manager of the lighting system thought it was time to stop, and accordingly turned off the current. The sum of sixteen dollars and thirty-five cents was realized. For the same purpose a play is being prepared, and will be ready for presentation about the middle of March. The name, "A Scrap of Paper," is very interesting at the present time, but we will not promise that it has anything to do with war.

State your needs in 'THE REVIEW' 'WANT' Column.

TOWN PLAYERS WIN CHECKER MATCH.

"Ye olde game of draughts" provided an evening's entertainment outside the usual run of things last Friday night, when five players representing the West section met an equal number of Town champions. The tournament was played off in the comfortable dining room of Hotel Summerland. A few onlookers watched the play, though checkers is scarcely what one could term a spectacular game. Each man played one game with each opponent, making 25 games in all. Eight games were drawn, 1-1, 2-2, 3-3, being so considered. Of the remaining games the Town players won 11 and their opponents 6. The individual scores are given below. At the conclusion of the tournament refreshments were enjoyed by the participants in the hotel rotunda.

Town Players.	Won	Lost	Drawn
C. E. McCutcheon	3	1	0
H. Grant	3	2	0
H. F. Treffry	1	1	3
A. J. Beer	2	1	2
A. Moyes	2	1	2
Total	11	6	8

West Summerland Players.	Won	Lost	Drawn
S. B. Snider	3	2	0
J. L. Hilborn	0	2	3
J. S. Ritchie	0	5	0
R. B. Forsyth	1	1	3
Dr A. Thomson	2	1	2
Total	6	11	8

PREFERS SUMMERLAND.

Mr R. M. Duncan of Stettler, Alberta, whose visit to Summerland was chronicled last week, when he was a guest at the Felix Hotel, has been taking a further look round the Valley during the past few days, and this district is still his first choice as regards desirability from a settler's point of view. Through the instrumentality of Mr C. H. Cordy, Mr Duncan has leased the "Craghill" property of Mr W. C. Fosbery, comprising 18 acres, in the vicinity of Crescent Beach. Mr Duncan has already entered into possession, and purposes going into mixed farming, the property he has leased being well adapted to this use.

ROADWORK RESUMED.

Provincial road foreman James Michael, of Peachland, who under the direction of Supt. Hamilton Lang, has already done much work on the Summerland-Peachland Lakeshore Drive, has again resumed operations with a full gang. Much of the small remaining portion to be done is along a rocky part of the shore, and on this a small gang of rock drillers have been busy for some time. Before many weeks it should be possible to drive or motor between the two sister towns over a comfortably safe, level and picturesque road.

COMMISSIONERS ARE APPOINTED.

Under date of February 3rd, notice of the appointment by the Lieutenant-Governor in Council of Coun. C. N. Borton and Mr Hector Sutherland to be members of the Board of Commissioners of Police for this municipality, appeared in the current British Columbia Gazette. The appointment of Councillor E. R. Simpson and Mr J. A. Kirk to be members of the Board of License Commissioners is similarly gazetted.

A good deal of misunderstanding seems to have arisen on account of the figures which appeared in the Review of two weeks past, bearing on the comparative cost of day work and contract work. The feeling seems to have arisen in some quarters that the figures were misquoted, or not fully quoted, as brought up in the Council meeting. This is not the case. The figures were copied carefully from the identical sheet that was presented to the Councillors, and subsequent examination has revealed no error in them. Some who thought it to have been a case of misreporting have since been shown that it was not so, and have so admitted.

THE WOMEN'S INSTITUTES.

With even larger attendances this week than last, the Women's Institute cooking demonstrations have been continued by Miss Bertha Livingstone in the Men's Club this week. A record attendance at one of the meetings early this week was fifty-six, which shows that Summerland housewives, accomplished though most of them are in the culinary art, are still anxious to get new knowledge. Much useful work has been demonstrated during the last few days of the course this week, and the ladies attending have still the same high opinion of Miss Livingstone as an instructor. She has shown a great deal that is new, and what is just as valuable, fresh methods have been learned in regard to the essential staple cooking that every home must have. In the nine or ten days that the lessons have been in progress, enough dishes have been demonstrated to satisfy the needs of any household with a full variety of food. The practical results from the instructor's methods and recipes have been amply demonstrated in the delicious things she has brought out of the oven. Cakes, bread, biscuits, puddings, and a score of other good things proved her skill, and the remarks of the ladies who had the privilege of sampling, showed that the results left little indeed to complain of. In many homes this week new dishes have found their way on to the table, and if the pupils had anything like the success of their instructor, there are now to be found many new and staunch believers in Women's Institute work—and they are of the male sex.

The regular monthly meeting of the Summerland Women's Institute will be held on Friday, February 19th, at 8 p.m., in the parlor of the Men's Club. The hyacinths the ladies have been growing will be on sale at that meeting. There will also be a ten cent tea, the proceeds of which are to go to the Ambulance League. The replies to the roll call will be by quotations from Byron. A feature of the afternoon program will be an address on "Causes of the Present War," by Rev. H. A. Solly.

The cooking classes with the Summerland Institute terminate with the session this afternoon. On Monday afternoon Miss Livingstone commences a similar course in connection with the West Summerland Institute. These classes will be held in the High School Building, commencing at 2 o'clock, every afternoon, for ten days. Ladies in that district intending to take advantage of these demonstrations should at once take out Institute membership, the fee for which is 50 cents per year.

POPULAR DANCE.

Devotees of the dance surely cannot say this season that good dances have been few and far between. Each week for some time past there has been a function of this nature held under some auspices or other, and altogether this seems to have been a gay dancing season. Empire Hall on Wednesday evening held another happy crowd of dancers, when the host and hostesses were the members of the dancing class which has been carried on for some weeks past under the instruction of Miss Dorothea Cooper. More than a hundred guests had been invited, so that the floor was very comfortably filled, though never crowded. The music was in the capable hands of Mr and Mrs Denn Walters of Naramata till some time after midnight, and as usual, nothing better could have been desired. Afterwards volunteer music was found from among the guests, and in this way the dance was carried on for another hour or two. The long program of dances, two-steps, three-steps and four-steps, was gone through with obvious enjoyment, and the "home waltz" seemed to come a little too soon for most. Refreshments were put on sale during the evening by Mr and Mrs L. Marshall, of Hotel Summerland, and these were thoroughly appreciated by their many patrons.

Council Places Order For Quantity of Flume Lumber

Adopts Public Works Committee's Recommendation For Change In Power Plant Operations.

On Wednesday the 10th the Council met in regular monthly session, with all the members present. There were not the usual number of delegations, and the business of the session was completed after the noon hour.

Following the reading and approval of the minutes of the previous meeting, communications were taken up. These included a letter from Victoria advising the Council that Coun. E. R. Simpson and Mr J. A. Kirk had been appointed to the local License Board, and Coun. Borton and Mr H. Sutherland Police Commissioners. A letter from the Kelowna Board of Trade advising the Council of a meeting of Valley representatives at Penticton this, Friday, evening, when the serious financial situation of some of the irrigation systems of the north will be considered and government aid proposed, resulted in the appointment of Mr Logie as our delegate to that meeting. As Summerland's system is in better condition than ever, and this district's idea of government aid is that the province should only store water, leaving the distribution to the municipalities, Mr Logie is not likely to support the anticipated proposal that the province finance the distribution systems. It is stated that in dealing with this subject some time ago the Summerland system was named with others as being in bad condition. The Council's delegate at to-night's meeting will no doubt take the first opportunity to refute that misstatement. Summerland's enviable position in respect to public utilities is likely to show conclusively the wisdom of municipal ownership of these, and especially of the irrigation systems.

The tender of the Summerland Lumber Co. for flume lumber, including small lots needed during the season, as well as the larger amount required soon for the enlarging of mains, was, after much consideration, accepted. It was stated that, while Mr Demuth, the only other bidder, gave a price amounting to about a dollar per thousand, delivered, less, the higher price that would be paid for later needs would offset the gain on the earlier and larger lot. Some information necessary before the order could be placed with Mr Demuth had not been received, and the fact that lumber will be wanted almost immediately also helped to decide the matter in favor of the Summerland Lumber Co. Another argument advanced was that the

latter was a purely local concern, employing home labor largely and buying all its supplies here.

As permission to place the big steel flume along the K.V.R., above the reservoir, had not yet been obtained the Reeve and Clerk were asked to wait on President Warren of the K.V.R., who is expected to return from the east at any time.

The Public Works committee brought in a schedule for the electric light plant for the year, which amounted to a material reduction in the hours of service. After listening to some protests against the shorter hours, and being told that the users now found the hours too short, the 1914 schedule was adopted for the current year.

It is the purpose of the Council to enforce the dog tax. The tax was due and payable on January 15th, when \$2 would have sufficed.

Summary action will be taken against all dog owners whose tax is not paid before March 15th. Mr R. W. Nelson, who was present, remarked that those who paid the tax should be protected against dog poisoners.

The accountant submitted a statement showing that when the few additions to the street lighting service are connected the electric plant will be supplying 12,102 watts, and asked that he be given a price on which to base his charge for street lighting. Last year the total charge was \$180. Figured at 8c., the lowest rate on the schedule, the street service should credit the plant with \$968.16. The matter was left over till a later meeting, when further information will be placed before the Board.

Another statement showed that there was due for electric light rates up to the end of the year over \$1,000, and a like amount for domestic water, and the collector asked for instructions. Just what action will be taken to collect these past due rates will be decided later.

That the men now operating the power plant be kept on permanently, and that the line work be done by the superintendent's men, and that when an electrician is needed, the telephone company be asked to do the work, was a recommendation from the Public Works Committee. This was seemingly received with some surprise by some of the Board, and brought out much discussion. After hearing from the Superintendent, all supported the recommendation. Coun. Borton qualifying his consent by saying it must be only a temporary arrangement.

Pressing For Building Of Only Gap In Railway

The Penticton Board of Trade has again taken up the question of the early building of the railway between Kootenay Landing and Proctor, which piece of C.P.R. is necessary to give an all rail connection across southern B.C. The charter and subsidies for this piece of road have been renewed from time to time for many years. It is a difficult piece to build, and for years the gap has been filled in by a car barge service.

In view of the early completion of the Kettle Valley Railway, the need of bridging the gap in rail communication is increasingly evident, in order to do away with the slow system of car transfer now required between Kootenay Landing and Proctor, and the Penticton Board is pressing the Minister of Railways to compel the C.P.R. to carry out the necessary work. The Board takes the position that both the charter and subsidy for the section of the Crow's Nest in the Kootenay district cover a much larger piece of line, or proposed line, than the link between the two points mentioned. Therefore, contends the Board, if the C.P.R. has built over portions of that section under that particular charter, it must build this link too, as the railway legislation of the Dominion Government does not contemplate the construction of a piece of a line here and a piece there, with vacant stretches wherever the railway may consider the engineering and construction difficulties too great.

An all rail connection between the prairies and the Coast via the Crow's Nest and Kettle Valley will practically mean placing Southern British Columbia on an alternative main line of the C.P.R.

HOSPITAL DONATIONS.

Mrs O. F. Zimmerman, 1 pint cream; Mrs G. Noble, biscuits and prunes; Mr J. Borton, care; Mr C. N. Higgin, doz. eggs, apples; Mrs G. Marshall, 2 qts. apple jelly; Mr J. Downton, 4 heads celery; Mrs R. C. Lipsett, pt. cream, buttermilk; Mrs Phinney, loaf brown bread; Mr R. F. Theed, bag carrots, qt. fruit; Mrs R. E. White, pt. canned strawberries, pt. plums, pt. crab apples, pt. jelly, 2 qts. marmalade; 1 1/2 cords wood from A. Friend; Aitchison Ranch, bag potatoes; Mrs R. H. Stewart, roasting pan; Mrs H. Rivington, tablecloth and groceries; Rev. R. W. Lee, pr. chickens; Mrs H. A. Solly, 2 qt. milk and pt. cream; Mrs F. W. Andrew, bedspread; Hospital Auxiliary, tea cake; Mrs J. L. Logie, 2 doz. qts. apricots; Mrs H. Tomlin, chicken; Mr E. Graham, 2 ducks, qt. maple syrup.

Will our friends please conform to the necessary regulations re visiting, the hours for which are 2.30 to 5, and 7 to 9 p.m., daily.

—The Matron.

ANGLICAN CHURCH SOCIAL.

There was a very good turnout of members and friends of the Anglican congregation to enjoy a social evening in the Campbell Hall on Tuesday evening this week. The Rector, Rev. H. A. Solly, was in the chair presiding, and besides a good program of music made up by local talent, which gave a great deal of pleasure to the company, there were also tables for cards. Those contributing to the program of the evening were Mrs G. M. Ross, Mrs J. W. Clark, songs, Mrs C. Craig, song and mandoline selections, Miss Higgin and Mrs H. J. Collas, violin and piano selections, Mr H. M. Lumsdon, song, Mr T. F. Knox, monologue, Rev. D. E. Hatt, readings. Accompanists during the evening were Mrs R. H. Stewart, Mrs I. P. Barnes, Miss Higgin, and Miss G. Limmer.

Among the details of the main estimates for the coming fiscal year presented to the House of Commons at Ottawa this week, are found items of \$30,000 and \$15,000 for public buildings at Kelowna and Penticton respectively. Included in the harbor and river votes is \$5,000 to be expended on the Okanagan River, for protecting and improving the navigable channel.

GOVT. LECTURERS COMING ON IMPORTANT MISSION.

A message of importance direct from the Dominion Government will be delivered to the agriculturists and stock-breeders of this district on the afternoon of Monday, March 1st.

"Patriotism and Production" is the title applied to the theme which the representatives of the Department of Agriculture are going to discuss. The visitors, whose stay will be of just sufficient length to enable them to appear before the residents to give the information with which they have been entrusted, will be Professor W. T. McDonald, Provincial Livestock Commissioner; Mr P. H. Moore, Superintendent of the Dominion Experimental Farm at Agassiz; and Mr H. Cuthbert, Industrial Commissioner for Victoria. They have been commissioned by the authorities to take up with the farmers and others the question of Canada's production in 1915. Owing to the war which is raging in Europe, and the fact that millions of men who heretofore have been producers have become consumers, there is going to be a heavy demand on the country's resources. In view of Canada's responsibility as a part of the Empire to see that as much is done as is possible to aid in the maintenance of the Empire's armies and the people of the Motherland, and because of the exceptional opportunity which has developed for the tiller of the soil, the Department has felt that it should do something to directly help those affected make the very best of the chance. Accurate information has been obtained as to what forms of produce will be most in demand as a result of the changed conditions, and the speakers named, instructed by the government, have made a special study of the situation. Their conferences with the farmers will be informal, being merely practical talks in which hints of value will be given as to how to direct the cultivation of the soil this spring. The object is merely to show those in doubt how they may best serve themselves and the Empire in the present crisis.

LIGHTS WHICH LOOKED LIKE AEROPLANES.

More aircraft in the Okanagan? Nothing less, if the eyes of half a dozen Naramatians did not deceive their owners on Wednesday night this week. Some Boy Scouts going home from their headquarters first noticed something very strange travelling south in the heavens, and after watching for some time, they went down to the power house, and informed Mr F. C. Manchester. He also perceived the phenomena, which appeared in the form of two lights. One was a strong penetrating bluish white light, such as a powerful searchlight throws out, and the other smaller, and more yellow in its rays. They moved together regularly, and the only explanation that seemed to satisfy all the conditions was that they were the searchlight and a tail light of some kind of aircraft. As far as its position could be described by the watchers, it seemed to be well back from Summerland, and high up, well above the line of the hills shown in the sky, which precludes the possibility of it being any object on land. The lights were seen to be performing strange evolutions, and continued to do so for nearly an hour. It looked as if they were circling round and round, and they were constantly interrupted, perhaps by cloud or mist. The strange sight was witnessed by quite half a dozen different people across the lake. What could it have been? It is on a par with the first aeroplane mystery in the Valley, two weeks back.

W. A. Dorrick, brother of Mr A. A. Dorrick of Summerland, and vice-president of the American Association of Commerce and Trade at Berlin, Germany, was interned at the Ruhleben Detention Camp on February 4th, on account of being a Canadian by birth. He was released on the evening of the 7th, as soon as his plight was brought to the notice of the higher authorities. Mr Dorrick was assured that he might continue his business unmolested.

John Oliver Speaks To Local Electors

Prominent Liberal On Tour Of Valley Here Last Wednesday.

John Oliver, a prominent Liberal ex-member of the Provincial House, and dubbed "Honest John" by his party friends, at his meeting here on Wednesday last, made a scathing arraignment of the McBride government, not its personality, but its policy. There were not many in the audience who had heard Mr Oliver on any previous occasion, and he seemed to make a good impression with his honors.

There were perhaps fifty men present in the Campbell Hall on Wednesday when the meeting opened. It was under the auspices of the Okanagan District Liberal Association, and the intension of the "Sicamous" in its arrival here probably had a good deal to do with the comparative allmness of the attendance. It was after nine o'clock before the speaking commenced, and about 11.30 when the meeting broke up.

Col. R. Cartwright, president of the local Liberal Association, was presiding, and after a few remarks of an introductory nature, he gave place to Mr Oliver.

The erstwhile Liberal M.L.A., of Coast fame, is a very convincing speaker. Although he scored the provincial administration on almost every prominent line of their policy, it was always in carefully weighed words never descending to vituperative levels. Prima facie he made out a strong case of maladministration. The land question was the first to engage Mr Oliver's attention. In this connection he charged that thousands of acres of the province's best land had now passed into the hands of purely speculative syndicates, to the great detriment of the country. The procedure by which this had been brought about in contravention of the law had been but thinly veiled. It was the greatest hindrance to the agricultural development of B.C., said Mr Oliver. He claimed that this was not in accordance with the government's pledge to aid and encourage the settlement of the province. The Liberal remedy was either the re-purchase of such land or raising their assessment to a normal level, and so make land

(Continued on page 6.)

GLIMPSE OF MEN.

ONCE in a while someone with knowledge of the situation and an insight into the other fellow's job, gets a proper glimpse of the newspaper man. Elber H. Gary, chairman of the Board of Directors of the United States Steel corporation, is a big man who realizes the value of proper relationship between men of his position and newspaper representatives. At a banquet recently given in his honor by a newspaper club, Gary says:

"I have been obliged to come in contact with the newspaper fraternity for the last fifteen years, and from my experience I can say that if business men treat newspaper men right, they are always truthful and faithful. My experience has been that if you will treat the newspaper man fairly—will be frank and honest, and give him the truth and the opportunity to publish the truth—he will do it honestly. If you are untruthful and unfair you may expect to take the consequences."

The general public should give some consideration to this statement. It gives the newspaper man his due. No other fellow is required to know so much and get little credit for his knowledge. No other man can do so much harm or so much good. Accurate, fair-minded intelligence is always demanded of the newspaper worker. His labors are constructive. The popular demand is that they be so.

No community can attain the greatest success unless it has and supports a good newspaper. Its newspaper is its criterion of progress or sluggishness. The importance of the newspaper too often is overlooked, as is the importance of the newspaper man. Both deserve fair-minded, open treatment the very things which are demanded of them, and which they give.

GIVE THE BOY A CHANCE.

THE world's record for corn raising belongs to Walter L. Deenson, an American boy, yet in his early teens. Last year this boy raised 232 bushels of corn on a single acre of land, which is the largest yield per acre ever recorded. This remarkable record was made by an ordinary boy, and on ordinary land. He became interested in corn raising, and studied into the matter of the kind and proper use of fertilizers and proper cultivation. As a result of putting his knowledge to practical use he raised 232 bushels of corn on one acre of land, thereby winning the championship of the world. What Walter L. Deenson has done serves to show what a common everyday, out and out boy can do if he is given the chance. There are thousands of ambitious boys on the rich farms of this Valley who never know what it is to be encouraged to take an interest in fruit growing, agriculture or stock raising. If these boys were given a small plot of ground and some seed to plant and cultivate, a circus would not be able to turn their thoughts very far away from the enchanted spot, where a wonderful harvest will be theirs to reap. A boy may not be able to raise 232 bushels of corn on an acre of his father's land, but he can do well enough to make his efforts worth while. What boy in this district is going after a world's championship record this year?

DO your city papers say anything in regard to your locality? Do they contain notices of your schools, lodges, churches, and hundreds of local matters of interest which your home paper publishes? Not an item. Do they say a word calculated to draw attention to your town and district and aid your enterprises? Not a line. And yet there are men who take contracted views in this matter, who think that unless they are getting as many square inches of reading matter in their home paper, they are not getting the worth of their money. Take the city paper if you want one, but don't show such a lack of wisdom as to crowd out the local paper from your home.

Town	13	9	69.2	217 137
College	12	5	41.6	161 153
West	13	5	38.4	179 261

The Wests went under in both senior and intermediate games against the College last Friday. They played basketball that was good to watch, and both games had streaks when it seemed that the College might go under. But the Boys from the hilltop revived after each relapse, and finally got away with both.

The intermediate game did not open at all promisingly. From the first the College seemed to have things all their own way. What shots the Wests did have did not go for anything, and the consequence was that whereas the College had 14 recorded by half time, the Wests had only one solitary point. B. Elliott and K. Elliott were the scorers for the College, with 3 baskets apiece, and the latter was also successful in getting two fouls in. But in the second half the character of the game changed, and the Wests played as though they were going to pull round on to the winning end of the score after all. In about ten minutes they had the score tied up with 14 points apiece, and it was only then that the College woke up to the fact that they had better get moving to win the game. In this half the Wests got a total of 16 points, and the College only 6. B. Stewart with 4 baskets, Logie with 2 and 2 fouls, and Elsey with 1, were the Wests shooters, and B. Elliott, K. Elliott and L. Bent for the College. The final score showed 20-17 for the College. The teams faced off:

College	for.	West
B. Elliott	for.	E. Logie
L. Bent	"	C. Elsey
K. Elliott	cen.	B. Stewart
E. Armstrong	gd.	G. Higgs
Anderson	"	E. Bent

The subsequent senior game was a well-matched and always keenly contested game that made real excitement. During the first twenty minutes the points were run up pretty evenly on both sides, and there seemed little to choose. When the whistle blew it left the score at 13-11 for the College. For that team McLeod had been in great shooting vein, and netted 4 baskets, Cochrane and Dale had also one each, and the former one foul. On the Wests' side every one had shared in the honors excepting D. Stewart. C. Stewart, Fisher and Mumm had singles, and Darkis a couple, two fouls also adding to their total. After the interval the Wests made strong exertions to get on top, and twice they brought the score up level, but each time the College drew away, and finally got the game with 24-18 showing up. McLeod was again to the fore with the scoring, with three baskets, and Cochrane added another two. For the Wests Fisher got the only two field goals; good ones from long range. The two teams were:

College	for.	West
G. Dale	for.	C. Stewart
M. Cochrane	"	R. Darkis

J. McLeod cen. W. Mumm
C. Riley gd. D. Stewart
A. Vanderburg " G. D. Fisher

On Monday in the Town Gymnasium the Wests went down twice again, and their league chances begin to look a little slim. Both Town teams seemed to be in good trim, and they deserved their wins. The first half of the intermediate game was not much to look at, and its main feature was bad shooting by the Town, though they managed to get 10 points up against the Wests 7. Angove was the Town's main source of points with 3 baskets, White had a single, and there were also two fouls. In the second half the Town seemed to be determined to make up for all their missed chances, and the points stacked up in wonderful style. Angove was the instrument through which this state of affairs was brought about, and he made a new record for himself by adding eight more baskets this half to his previous three. As if this were not enough Sismey put in 2 and a foul, and White and Clay one each. This ran their total up to 35, and while the one basket had been in such constant use, the Wests had only been able to make six points in the other, one basket from B. Stewart, and four more fouls from Logie, their score closing at 13. J. F. Glenn was the man with the whistle for this game, and the players lined up:

Town	for.	West
C. H. Sismey	for.	E. Logie
R. White	"	C. Elsey
W. Angove	cen.	B. Stewart
C. Clay	gd.	E. Bent
F. Williams	"	G. Higgs

When the seniors of the same teams met later, there was another strenuously contested game, but the Town got into the lead from the first and kept there, despite hard work from the West guards. Lavis opened the Town count, and others to follow suit were McWilliams with four baskets, Glenn with one and a foul, and Phinney with four fouls. There was only one field basket for the Wests, from Mumm, but C. Stewart ran quite a score up with seven fouls. This made the half time figures 17-9 for the home boys. After the interval the scoring was not so free and the game was kept fairly level on the run of the play. Each side only secured one basket in play, McWilliams for the one side and Darkis for the other. Phinney and Lavis scored on fouls for the Town, and Stewart and Darkis for the Wests. The play at times showed plenty of vigor, and on this account a sharp decision by Referee McLeod sent Phinney off, and he was replaced by Hayward. 24-15 was the victory for the Town at the last whistle blow. The teams were:

Town	for.	West
C. Lavis	for.	C. Stewart
H. Phinney	"	R. Darkis
and F. Hayward	"	"
C. McWilliams	cen.	W. Mumm
H. Snider	guard	G. Fisher.
J. F. Glenn	"	D. Stewart

This evening, Friday, the Town and College meet in the Men's Club. If the College go under, they lose the league leadership. The intermediate game will commence at 7 o'clock, in order that other attractions may be taken in after the games. On Tuesday night the Town make a trip up to the big gymnasium, where they will go up against the Wests.

Relishes
Jellies Jams

Copyright 1910
J. E. Summerland & Co.

LIFE would be flat and colorless for both young and old without some pleasure to give it piquancy. So with food. A relish creates pleasure and appetite for your meals. It is oft-times as much of a tonic as the best prescription handed out by a physician. It is your duty as a careful housewife to get the best in relishes. Bad relishes spoil good food.

WE aim to keep the best in these as in everything else—delicious Jams and Jellies that are made with pure sugar, and keep the natural flavor of the berries. Pickles preserved in the finest malt vinegar. Sauces of the best brand—all the hundred and one delicacies that help to make your daily meals more pleasing.

If you want any Relish we have it. Come in and look over stock.

Agriculture to be Taught in Schools

Sensible Innovation Planned to Great Benefit of Province.

The Department of Education for this province has decided to include agriculture as an optional subject in the high schools, thereby making it possible for boys to pursue this branch of study after leaving the public schools. Competent teachers, with special qualifications as instructors in the various branches of agriculture, will be appointed in these high schools, which will be chosen from those schools situated in the best agricultural districts. These agricultural specialists, in addition to the teaching of agriculture proper, will also assist in the teaching of some of the regular science work of the high school, especially the biological part. They will also spend a part of each week supervising the work in elementary agriculture and school gardening in the public schools of the districts or municipalities in which the high schools are situated. Extension classes in agriculture will be opened in these particular high schools for boys and young men who are not regular students in the high school and who can give only a portion of their time to such studies. These classes will be held either during the day or in the evening, as may be found convenient or desirable.

In addition to the organizing of elementary agriculture, nature study and school gardening, the Director is giving his attention to the general improvement of school grounds. As a rule, the school grounds throughout the province are not in keeping with the school buildings, which certainly are second to none in the Dominion of Canada. In many cases the grounds are too small or are in such a rough state as to be of little use for recreation or for study. Some grounds need draining, many grading and levelling, practically all need planting and beautification. Hereafter the school grounds and gardens will be regarded as a part of the school equipment, and grants will be made toward their improvement and upkeep. These departmental grants will be made consequent upon grants for a similar purpose being made by the school boards themselves. To help in this, plans are now under way for the establishing of a provincial nursery.

There can be no doubt as to the many benefits and the far-reaching influences that are bound to result from the carrying out of such an advanced policy in education and in school improvement. Anything and everything that makes for the better training of children and that fits them to take their places in the world of affairs as well as of letters, is bound to be a good investment at the present time in this province. Through the introduction of agriculture in the course of study for boys and girls in our public and high schools, the Department of Education has begun that which cannot but produce an awakening of interest amongst the young people of the province in scientific agriculture. If this interest can be fostered and maintained through the combined efforts of the Department of Education, the Department of Agriculture, with its various branches for instruction and demonstration, and through the Provincial College of Agriculture, with its facilities for scientific instruction and agricultural research, it will not be long until British Columbia will be in possession of the greatest bulwark of strength and stability of which any nation can boast—a prosperous and contented rural population.

DIVIDING OKANAGAN ELECTORAL DISTRICT.

The Okanagan is to have two representatives in the Legislative Assembly. At least such seems a certainty, as both Judge Morrison and Judge Macdonald, redistribution commissioners, so recommend. Each submitted recommendations differing in many respects. Regarding the Okanagan district, both suggest its division into two ridings, north and south. Judge Morrison favors a change in boundaries, giving that portion south of an imaginary line running east and west, and touching Trout Creek, just south of Summerland, to the Similkameen. Under the same recommendation, Salmon Arm and Steamboat would be added to the north of the Okanagan, and the new district divided into two by an east and west line at Coldstream River.

Newsy Paragraphs from PEACHLAND

BORN—On Sunday morning, to Mr and Mrs Daniel White, a son.

Mr G. McGregor spent Wednesday in Kelowna.

Mr Gore of Westbank was a visitor in town on Monday night.

Mr Tanner of Rutland exchanged services with Rev. A. Henderson on Sunday last.

Mr and Mrs A. Town and little Miss Eleanor were visitors to Kelowna on Wednesday.

Mr John Gummow and daughter, Miss Henrietta, entertained a few friends at supper on Monday evening.

Mrs Neil, who has been nursing in town for some time, returned to her home in Kelowna on Tuesday morning.

Road work began again in earnest on Monday morning. For some time only the drillers were at work, but a full gang is now employed.

Another shipment of Red Cross articles goes forward this week. Interest in the work keeps up, and meetings are held regularly, on the hill, in town, and the Trepanier district.

Miss Adelaide Hayward came up on Saturday morning from her home in Naramata, to wait on her sister, Mrs John Wright, who is suffering from an attack of erysipelas in her foot.

We beg leave to rectify the mistake made in regard to the funds resulting from the ambulance social at Mr John McLaughlan's last Tuesday night. It should have been \$20, instead of \$16.35

Visiting Scotland.

Mr and Mrs Joe Fleming left on Wednesday morning for Vernon, where they will spend a day or so before leaving for St John, N.B., from which place they have taken passage on the "Misanabie" to cross the "Herring Pond." Their destination is Glasgow, Scotland. We wish for them a safe and pleasant journey and a safe return.

A Farewell Dance.

On Friday evening last a farewell dance was given in the hall by the citizens, in honor of Mr and Mrs Toleman, Mr and Mrs Fleming, and Miss Bishop, who all leave here for other parts this week. Mr and Mrs Toleman go to London, England, Mr and Mrs Fleming to Glasgow, Scotland, and Miss Bishop to Calgary. About twenty-five couples were present, and spent a very enjoyable time. The music was furnished by the string band composed of R. Houston, violin, A. Smalls, banjo, and many volunteers on the piano. Many regrets were expressed at losing so many good citizens, and good wishes for the future prosperity and happiness of all.

DOING NOBLE WORK.

Kaleden.—The Kaleden branch of the Canadian Red Cross Society has this week sent a consignment of 167 articles to the central depot at Vancouver, for use in the hospitals and at the front. This is the largest consignment sent so far from this branch, and with the three previous, brings the number of articles made and sent away from this place to the very satisfactory total of 397.

The committee are now giving out to be made up, the last materials they have in hand, and unless substantial support is given them, the great assistance they have so far been able to render to the Red Cross Society will almost, or entirely cease. For a small country district with few inhabitants, and those scattered far and wide, the amount of money collected, and still more, the quantity and quality of the garments and comforts made and sent away, is most gratifying, and speaks well for the loyalty of the people; and the committee do hope that those who have already done so much, will not allow this good work to cease, for want of funds to carry it on.

Newspaper advertising rightly used is the most profitable investment any business can make. Newspaper readers patronize advertisers because experience has taught them that it pays to trade with daylight men.

OUR NARAMATA SECTION : Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

A COMING SHOWER.

The approaching marriage of Miss Adelaide Hayward, which will take place in Vancouver on March 2nd, is the raison d'être of a bridal shower to be given at the Unity Building on Friday, February 19th, by the members of the Club. Mrs. George Wolstencroft will be matron of honor, and take charge of the arrangements.

COOKERY DEMONSTRATION.

Mrs. Mark Manchester showed the members of the Unity Club the Italian mode of preparing spaghetti for the table at the last Friday afternoon session. The preparation and cooking of the ingredients took about an hour and a quarter's time, and the different steps were carefully watched, commented upon, and copied on to recipe slips. A teeming platter of the savory dish was served as a culmination of an enjoyable and instructive afternoon.

RECIPE.

(Copied from an onlooker's notebook)

Into a deep-sided iron pan put a tablespoonful of dripping, lard or crisco. When bubbling, toss in a saucerful of chopped fine onions. When the onions are browned pour over them a can of tomatoes, flavor with salt, pepper, paticka, dried mushrooms or parsley, or whatever your pantry shelves hold of that kind, and use your own taste in regard to amount of flavor. Let the tomatoes and onions simmer for an hour. Take half a package of spaghetti, break into inch long pieces, put into a saucepan of salted boiling water and leave it to boil steadily for half an hour, or longer if it seems to need it. Grate half a pound of cheese, and wait until the tomatoes and spaghetti are cooked. Drain the spaghetti through a colander. Each piece should be soft but unbroken. Have a meat platter well heated, place platter, spaghetti, tomatoes and cheese on a table, spoon out the tomatoes and put as a trimming around the dish. Lift spaghetti with a large fork and spread over, sprinkle liberally with the grated cheese, then more tomatoes, more spaghetti, more cheese, in layers until the platter is piled high. Garnish with green and serve at once.

It is safe to say that the appetizing dish was served at Naramatian supper tables very generally that evening.

Current Events OF Town & District

Dr R. C. Lipsett was with Mr Endacott in town on Monday.

Two Valentine parties are on the tapis tomorrow, Saturday evening.

Mrs E. P. Roe spent the weekend with her son, Mr. Horne Roe, in Penticton.

Mr Frank Hayward spent the week in Summerland, the guest of Mr McWilliams.

Mrs Hayward and Mrs Lyons were gracious hostesses to the members of the Unity Club last Friday afternoon.

Messrs Gerald Roe and Alex. Noyes are preparing to return to their preemption, and set to earnest work almost immediately.

Mr and Mrs Dean Walters and a number of our young folk went over to the Summerland dance on Wednesday evening.

An early week home dinner party was given by Mrs Boothe, with Mr and Mrs D. O. Hughes and Mr and Mrs Lyons as guests.

Arthur Finzel has gone with his mother-in-law, Mrs Shurman, to Signite, a prairie town of the United States North-West.

At the meeting on Monday evening, called to appoint a director for the Fruit Union, Mr J. H. Pushman was the unanimous choice.

Miss Adelaide Hayward has been staying with her sister, Mrs Wright, in Peachland, all week. Mrs Wright is suffering from an attack of erysipelas.

The Misses Gladys and Kathleen Robinson have been house guests of their aunt, Mrs R. C. Lipsett, for the past two weeks. They returned to Naramata this evening.

Word from Mr and Mrs Alexander, who, with their two children went to Winnipeg in January, is to the effect that they "wish they were back in the Okanagan again."

The Literary Society will meet on Monday evening in the church assembly hall. The subject of word and of song will be "The 100 Years Peace Between Canada and the United States."

A meeting of the women of Naramata is called for next Tuesday afternoon, 16th February, at three o'clock in the Unity Club building for the purpose of organizing a branch of the Women's Institute.

Mr and Mrs Walters expect to move to California with their three children early in April. Mr Walters has a ranch there, and has also been offered an excellent position where his musical talent will be in demand, and even further cultivated.

Mrs Carroll Aikins is looking forward to a visit from her mother Mrs Foster, wife of the United States Consul at Ottawa, early in the spring. Mrs Somerset Aikins and Miss Mary are expected at "Rekadom" in May, for a visit of five months.

Mrs Carroll Aikins received an appreciative letter from Lady Tupper, Vancouver, in which was conveyed sincere thanks to the ladies of Naramata for the woolen garments knitted and sent to her for our soldiers in battle line. This was read by Mrs Aikins at the Unity Club meeting on Friday afternoon.

Naramata Current Events

There will be no party at the Unity Building next Thursday evening.

Mrs Languedoc returned to Naramata on Saturday evening, after a week's visit with Mrs Solly, The Rectory, West Summerland.

Mrs Anna Gillespie writes that her husband is quite well again, and that their life in Battle Creek, Michigan, is filled with activity and interest.

Mrs Davies, Mrs Pushman and Miss Emma Davies were among those who attended Miss Livingstone's cookery classes in Summerland during the week.

The members of the Epworth League invite their elders to a supper and entertainment to be given in the church assembly hall on the evening of Friday, the 19th February.

Word has been received that Dr W. L. Robinson has been appointed pathologist in the Toronto General Hospital. There is a possibility of Miss Gwendoline Robinson joining the family in Toronto in March.

Mr Melrose of the Forest Department, British Columbia Government, has been staying at the Syndica this week with two assistants. Trees on all lands have been inspected, and an estimate of their value as timber, and in other ways, taken.

A Sunday night supper party at The Cottage in Outlook Orchard was presided over by Mr and Mrs Hugh T. Davies. Miss Foster, Miss Whitworth, Miss Emma Davies, Mr Gerald Roe and Mr Alex. Noyes were the young people who enjoyed the evening.

Next Sunday, the 14th February Rev. H. A. Solly will hold a Anglican service in the Naramata Church at three in the afternoon. A special ferry leaves Naramata for Summerland every second Sunday in the month at 2.30 p.m., and at 4.15 p.m., returning from Summerland at 2.45 and at 4.30 p.m.

A letter from Mr Alick Pushman, who spent December with his brother, Mr J. H. Pushman, says that "The people of Naramata are well off. Suffering and other distresses are terrible in the large Canadian and northern United States cities. The cold is unprecedented, and there is a scarcity of food. Money is hard to get, and the amount in circulation buys little when prices are exorbitant."

Mrs W. C. W. Fosbery, whose making of "Okanagan Sunbeams" has brought knowledge of this Valley to many manufacturers, spent Wednesday in Naramata. An order for her confection was received from the Dominion Government, for showing at the Panama Exposition, and a fine exhibit has been prepared and shipped. An original by-product of Okanagan fruit, that is bound to be followed by good results.

A topic interesting to Naramatians will be discussed fully at the next meeting of the Summerland Women's Institute, February 19th. This is a plan whereby the members of the Women's Institutes of the Southern Okanagan might co-operate with the members of Women's Institutes in the Prairie Provinces in regard to disposal and distribution of the fruit crop. It is desired that every objection be raised against as well as every suggestion put forward in favor of the plan be brought up and discussed. This is also the "Bulb Tea" meeting.

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Editor, Summerland Review.

Dear Sir,
In a recent issue of the Country Gentleman there appeared an article by J. Russell Smith on nitrogen supplying plants. In the course of his discussion he touches upon alfalfa, and mentions it in this way: "When you stop to examine them, some of the things that people kick about are funny." Here are two objections that people raise when Mr. C. Ross tries to get them to grow alfalfa—"What are you going to do when you have to plough the stuff out?" They all think they are going to have a lot of trouble, and some of them do have trouble. Many a one of the scores Mr. Ross has started growing alfalfa has tried to plow it up, and has quit after going a round or two. The next man objects to alfalfa because the Kentucky Blue Grass kills it out. He says it isn't worth while to bother with alfalfa, because the Blue Grass will get it in a few years. Isn't it too bad—this calamity of having a cracking fine pasture establish itself in your field while you are doing something else that is profitable?

Mr. Ross wants to turn this dilemma into a new land of green pastures and full barns. He points out the widely-known practice of harrowing alfalfa to keep the Blue Grass out. He advises that when you finally get mad at alfalfa and want to kill it—though why should you?—give an extra good harrowing some August or September and sow \$1.50 worth of Kentucky Blue Grass. Good-bye Alfalfa! Greeting Blue Grass! You cut the alfalfa next May and turn on the stock.

It is not easy to say just how much there is in this, but if it works it may mean the saving of some of the pear orchards that alfalfa has been injuring, and it may be an easy way to prepare some pieces of orchard for intercrops of vegetables.

Yours truly,
WALTER M. WRIGHT.
Summerland, B.C.
6th February 1915.

The Editor, Summerland Review.
Dear Sir,
The following extract from Attorney-General Bowser's speech in introducing the bill amending the Municipal Clauses Act last February—as given in the Vernon News of the 12th of February, 1914—may be of interest to those who read your remarks respecting motives in connection with the proposed Police and Licence Commissioners in your issue of yesterday:

"All police and licensing boards will in future be made to consist of the Reeve and two others, of whom one shall be a member of the Council, and they are to be appointed by the government. The system of constituting such boards will therefore be the same in the district municipalities as in the cities, where the government has for some time appointed magistrates and police and license boards."

His remarks on the same occasion as quoted may also be of interest: "With reference to the power of the provincial police the situation hitherto has been that the superintendent of provincial police practically had no power in the municipalities, unless the police board consented to his taking control."

"Unfortunately there had been cases, one during the last year, in which it was found imperative that the provincial authorities should interfere in two or three municipalities. The police boards had only been too anxious to have the assistance of the provincial police, but to simplify matters it was believed desirable to permit the superintendent of police to enter municipalities and exert his authority, even without invitation from these boards."

"The government did not wish to have any interference in such cases from police boards that might wish to offer obstruction to what the government considered to be its duty. He explained that the idea that wherever public peace was disturbed the superintendent of provincial police might at once go in with his own force to assist the local authorities. In such cases the superintendent would have the power to close the hotels and prevent the sale of liquor."

Yours truly,
J. A. KIRK.
Review Want and Sale ads. give Good Results.

Passing Events: Social, Personal, &c.

Mr and Mrs Henry Taylor returned to their home in Vancouver early in the week.

I am now prepared to quote prices on vegetable plants. Please see me soon if wanting any of same. A. McLachlan. f5-12

Public School Inspector A. Anstey has been here for a few days this week, on an official visit. He has been a guest at the Felix.

Miss Bertha Johnston was a homeward bound passenger on the boat on Tuesday evening, after a visit of about six months to prairie points.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Mr and Mrs Cascadden and two sons are now comfortably settled in the cottage of Mr and Mrs S. Scott, who are at present away visiting in England.

Mr and Mrs Cross, who have been occupying the Heron house in Victoria Gardens for some time past, have removed to a newly erected cottage on their lot on Stuart Avenue.

The little son of Mr and Mrs E. C. Graham met with a painful accident this week, when he tripped and fell on a coal-oil tin resulting in a nasty gash on the chin requiring several stitches.

S. L. Taube the well-known Optical Specialist will be at the Summerland Drug Co. Store on Friday, February 26th. If your eyes are not right be sure to consult him. f1219

Miss Amy Brown boarded the boat on Monday evening on her way up to Vernon, where she will spend about two weeks on a visit with her sister, Mrs G. A. McLaine.

There will be a dance in Empire Hall on the evening of Tuesday next, February 16th, for the benefit of the Hospital. An admission of 50 cents will be charged to the gentlemen, and the ladies are asked to provide the refreshments.

The Farmers' Institute will hold a meeting in the Men's Club tomorrow, Saturday, evening when lectures on Livestock and Horticulture will be given by Messrs Hopkins and Hilborn. Another meeting under the same auspices will be held on Monday evening, 15th, in the High School room, to discuss the Labor Question.

The Okanagan United Growers have evidently found a new, large and profitable market for Okanagan apples in the British South African colonies. As an experiment a carload of apples was shipped to that market last fall. Reports from the consignees as well as the Canadian Trade Commissioner, are very flattering. Wenatchee apples have established a high reputation there, but the Okanagan consignment is described as rather superior in pack and quality to the Washington product, and the Growers are urged to make large and regular shipments.

Mr and Mrs Chas. Hatfield of Kaleden have been visitors this week at the home of Mrs and Mrs B. L. Hatfield.

Telephone subscribers please note the additions to directory advertised in another column, and mark these on their card.

By erecting a commodious kitchen, Mr L. W. Pacey has just completed a splendid addition to his house in Victoria Gardens.

Are your plows, cultivators and harrows ready for spring work? If not, better bring them in now for repairs. W. R. Shields. f5-26

Mr J. L. Hilborn boarded the "Sicamous" on Thursday night bound for Kaleden where he is a speaker at an agricultural meeting.

Manager R. Robertson of the Okanagan United Growers is now at Regina, where he will come before the Grain Growers delegation now in convention there.

Subscribers wishing to get information about the C.P.R. boats will please call up the C.P.R. office. Central is too busy to answer questions. f12 O. Atkins, Manager.

Principal Everton of the College and Mr T. N. Ritchie, who attended the Baptist Convention of Western Canada held a few days back in Brandon, Manitoba, returned on Monday night's boat.

Miss Anna Hayes returned home on Saturday evening of last week, after making a short visit at the home of Mr and Mrs Trask, Oyama. Mrs Trask accompanied her, and is a guest for a few days with Mr and Mrs W. H. Hayes.

It has just been learned here that Mr T. P. Thornber, now in England, has offered his services for ambulance duty, his two brothers-in-law have enlisted in an English ambulance corps. Mr Thornber hopes to get on the same staff.

The building which was formerly used for office purposes in connection with the Richardson Lumber Yard, and which was partially destroyed by fire last year, has been purchased by Mr Harwood, and was removed to his lot at the end of last week.

After almost getting accustomed to have the evening boat make its call here at a respectable time, between half-past five and six, we had an experience of former times on Wednesday evening this week, when the "Sicamous" appeared off the dock about 8.30. A slide on the main line was the cause of the delay.

The Young People's Guild of St Andrew's Presbyterian Church at their regular meeting Wednesday evening enjoyed a night with Charles M. Alexander, the great singer-evangelist, among the soldiers at Salisbury Plain. Some of his most successful songs were sung, and an interesting story of his work among the soldiers was heard. Next Wednesday evening will be a literary evening, and a fine program is being prepared.

The ladies of the Hospital Auxiliary meet at the home of Mrs George Ross next Tuesday afternoon, at 3 o'clock.

At the Presbyterian service next Sunday afternoon, Rev. C. H. Daly's subject will be "Our One Hundred Years of Peace."

The W.C.T.U. annual Frances Willard memorial meeting will be held next Wednesday at three p.m. in St Andrew's Church.

Mr Hamilton Lang, provincial road superintendent in the Okanagan has been elected chairman of the Vernon School Board.

District Supt. McKay of the C.P.R., with headquarters at Revelstoke, was a passenger on the "Sicamous" on Tuesday evening.

After spending more than a year in Summerland, Miss Josie Moke boarded the "Sicamous" on Thursday morning, en route for Calgary.

The electric light line from the Fenner Gulch Road to W. H. Hayes' has been completed, and six lamps now make the road much more comfortable for travel.

Methodist services will be conducted on Sunday next by the pastor, Rev R. W. Lee. The morning service at 10.30 will be in the Methodist Church, and the evening service at 7 in St Andrew's Church.

Mr Herbert Grant went out on Tuesday morning's boat bound for Nevada City, California. Mr Grant has been in Summerland for about nine months at the home of Mr and Mrs A. B. Williams, Peach Orchard.

Any person finding a gold watch chain and pendant with the owner's name on the back of the pendant will be rewarded for returning same to the Review Office. The chain is valued by the owner as a family heirloom. f12

Vision changes like everything else. If your present glasses are not giving you satisfaction make it a point to see S. L. Taube the well-known EYESIGHT Specialist. He will be at the Summerland Drug Co. Store on Friday, February 26. f1219

By some mysterious depredations in his chicken house last Friday night, Mr H. Sutherland was the loser of about a dozen fine pullets, just coming into laying. Dogs were at first suspected, but no traces could be found, beyond a few feathers inside the house, so that the dog theory was later changed into the belief that the mean job was the work of a chicken thief.

A good many arguments have been heard on the subject of Woman Suffrage, but few have been more logically and forcefully presented than those contained in the address delivered by Mrs Lashley Hall, of Vancouver, who was in Summerland for a day or two this week, and spoke in the Men's Club on Tuesday evening. The lecture was the fifth in the course which has been put on by the Methodist Church. The size of the audience was not commensurate with the importance of the subject, but those who were present heard something well worth listening to. A speaker of ability distinctly above the average, Mrs Hall showed up very strikingly the shortcomings of the British Columbia law as it relates to women, and she gave some instances which had come to her own notice of how hardship had been wrought through these deficiencies.

To bring that pleasure and contentment into every life we can is the best way to fill our own with beauty.

Jinks—"He's so fond of prophesying you might think he was an augur." Blinks—"Well, he's next thing to it. He's a bore."

Someone has advanced the opinion that the letter "o" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt never out of danger, and in hell all the time. For some reason, he overlooked the fortunes of the letter, as we call his attention to the fact "o" is never in war and always in peace. It is the beginning of existence, the commencement of onset and the end of trouble. Without it there would be no man, no life and no heaven. It is the centre of honesty, makes love perfect, and without it there could be no editors, devils nor nows. — Fourth Estate.

Waste of Manures.

The manure problem is a fundamental problem for the farmers of to-day and to-morrow. One of the most important lessons for them to learn is how to obtain good barnyard manure; and then, to care for it, and use it intelligently.

In many parts of Canada, the manure is simply thrown away. In Ontario, 186 farmers out of 200 visited exercised no care to prevent waste, and in Quebec conditions are nearly as bad. In other places, notably in the west, it is burned; and, in places where the manure has accumulated, the stables have been moved away, instead of making use of the manure. This means a great annual loss. At the present price of plant food, the amount of manure produced in the United States every year is worth nearly \$2,500,000,000. In 1908, the value of the whole corn crop in the United States was only \$1,601,000,000. These figures show the enormous importance of manure production. The greatest sources of loss are from allowing the liquid portion to drain off, from leaching by rain, and from heating and fermentation.

The liquid is much more valuable in plant food per pound than the solid. In cow manure the total liquid portion is about the same as the total solid portion. Yet many farmers arrange their stable to drain off the liquid. Don't do it. In this way from \$10 to \$15 worth of fertility, per cow, can be lost annually.

Where possible, the manure should be spread on the field as made. It saves handling twice, and there is a greater tonnage than at any other time. This can be done provided the land is not so hilly as to cause the manure to be carried away by rain or melting snow. The effect of green manure will be seen for a longer time than that of rotted manure on account of the decomposition taking place in the soil. If this cannot be done, by all means have a covered shed where the manure can be stored, where it will be packed by stock tramping on it, and where it will be kept moist. If it is kept tramped and moist, and if the shed has a cement floor, there will be very little loss.

Experiments in the west have shown that a very light application of barnyard manure in the spring after sowing, as a top dressing on soils having a tendency to blow, gives excellent results, not only preventing blowing but giving increased yields from the added plant food.—F.C.N.

WANTED:

Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government; a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

NARAMATA SECTION, Cont. fr. p. 4

A Women's Institute Assured.

A unanimous vote was cast last Friday afternoon at a meeting of the Unity Club members in favor of organizing a branch of the Women's Institute. Mrs Mitchell consented to write to Mrs R. C. Lipsett, member of the government Advisory Board of Women's Institutes, and ask her to appoint a time when it would be convenient for her to come to Naramata and set in motion official proceedings necessary to carry on the Institute work.

Tourists For Naramata.

The K.V.R. line will be operating next May. Naramatians are awakening to the fact that they have much to offer sight-seers, pleasure seekers, rest-needers, and business men looking for newer interests. They are telling about the bright prospects ahead, will make them known and join with other towns of the lower Okanagan in getting and keeping the people most desirable for the prosperity of the Valley.

Blazing Sawdust.

For nearly three weeks sawdust has been steadily burning near the mill, owned by Smith & Company, Pentleton, to the north of Naramata inlet. Men went to gather sawdust, found it frozen. Collected shavings. Lit a fire. Left it burning. Other men came along. Tried to extinguish the fire, failed. Boy Scouts went over. Worked hard. Accomplished little. Mr D. O. Hughes turned Mill Creek into it by flume. Still unquenched. Pentleton company offer \$10 reward for putting fire out. Still burning.

Epworth League Missionary Night.

On account of the absence of Stewart Allen, Frank Hughes occupied the chair at the Epworth League Missionary meeting last Friday night. The sponsors for the evening were Mr Harry Pitman and Hodley Reesor. Harold Allen recited and Miss Edna Noyes sang. The other numbers were well-known hymn choruses. A business meeting followed the general one.

Why This Discrimination?

Three Naramata lads attend the Ilige School classes in Summerland. The return fare per day is 20 cents. The government pays for one lad but "accepts no responsibility" for the fare of the other two. School rates were not included in the Okanagan Company's contract for last year, but will be next June. In the meantime the cost of sending scholars is charged up to two parents—why not the third? Have names on the government voters list anything to do with it?

NOTICE

Pound District Act AND Pound District Act Amendment Act.

PURSUANT to the provisions of Section 11 of the above Act, notice is hereby given of the appointment of Mr. W. W. MITCHELL, of Naramata, B.C., as Poundkeeper of the Pound established within the Naramata Pound District, as specified by Order-in-Council No. 1117, September 23rd, 1914.

PRICE ELLISON,
Minister of Finance and Agriculture,
Department of Agriculture,
Victoria, B.C.,
January 6th, 1915.

In a recent issue the Review published a letter written by Mr H. M. Lumsden to Cochrane Advocate and the editorial comment thereon. The important part of the matter discussed dealt with the merits and demerits of citizens buying supplies in their home town and outside. We learn Mr Lumsden greatly resents the personal reflections contained in above reprinted editorial comment, and we regret our contemporary's argument on above subject was not confined to the subject itself. We wish to assure Mr Lumsden that the Review had no intention of passing on any personal reflections, and regret such being published.

JOHN OLIVER SPEAKS

[Continued from Page 1.]

speculation unprofitable. The McBride railway policy also came in for Mr Oliver's criticism, on the ground that the province had been saddled with huge liabilities on the guaranteed bonds. While it might not be so, Mr Oliver said that under the existing contracts the province could be called upon for every cent of the guarantee—and if the land was not settled up to make business for the new railways, the people would have to stand good by their guarantees. Far from effecting government ownership of the railways, Mr Oliver characterized the situation as the railway ownership of the government. Touching upon the matter of the Dominion Trust failure, the Liberal leader asserted that their criticism of Hon. W. J. Bowser, Attorney-General, in this connection, lay not in the connection of his firm as solicitors to the corporation, so much as in the fact that he had allowed the unconstitutional legislation to pass that gave the Dominion Trust banking powers, and when this had been repealed in still allowing them to continue taking money from the people in the form of deposits. Other minor issues were also touched upon, among them a good many items figuring in the public accounts as expenditure, which, said

the speaker, showed where the government should start in the economy that Mr McBride said was becoming necessary on account of shrinking revenues. Mr Oliver closed with an appeal to the electors of the province to break away from party fetish, and when the election came do their duty, or the responsibility would rest upon the people themselves.

Although it was late when Mr Oliver ceased speaking, the meeting voted to hear from Mr F. R. E. De Hart of Kelowna, and Capt. T. H. Worsnop of Kamloops, who are accompanying Mr Oliver through the Valley. Neither spoke at any length. Mr De Hart pointed out among other things that several years ago the Liberal party had predicted the government's railway policy would land the province into difficulties, and they still held that view, if immediate steps were not taken to remedy the conditions. Capt. Worsnop gave instances of what he believed the assumed government liability meant per capita to the people of the province, and cited concrete examples of how the settlement of the province had not been aided but actually retarded.

The party held a meeting at Peachland on Wednesday afternoon, and crossed to Naramata on Thursday morning, where another meeting was held. Afterwards they proceeded on to Pentleton.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 7, No. 29

SUMMERLAND, B.C., FEBRUARY 19, 1915.

Whole No. 342

THE WOMEN'S INSTITUTES.

The ladies of the West Summerland Institute who have been attending the Cooking Demonstrations of Miss Bertha Livingstone, in the High School building, have formed the same high opinion of their instructress as those who took her course in the Men's Club. The classes commenced on Monday this week, and continue until next Thursday. The attendances have been extremely gratifying, starting out with 71, and reaching a high water mark at yesterday's class when 83 were present. From Trout Creek point to Upper Trout Creek the ladies have been attending, and from south of Giant's Head to Peach Orchard. Miss Livingstone's methods and lucid explanations command everyone's admiration, and stamp her work as eminently practical. She has been following out a similar course to that which she gave to the Summerland Institute during the previous two weeks.

Any person, by paying the Institute membership fee of 50 cents can take advantage of these classes. There have been enquiries as to whether bachelors may attend, and it is ascertained that there is no hindrance to their doing so, provided the 50 cents is forthcoming.

Two outstanding features of the regular meeting of the West Summerland Institute held last Friday, were a talk from Mrs J. L. Hilborn on the live subject, "How to Make a Success of Our Institute," and a proposal to branch out into a new line of work and engage in the shipping of soft fruits direct from the orchards to the consumers.

Mrs Hilborn's paper was greatly appreciated, and if her ideas were put into operation there would be little question as to the successful carrying out of Institute work. She brought out the thought that there is responsibility alike on officers and members of the Institute, and to do its work effectively, all must have the interests of the organization at heart. She also said that the scope of the Institute should be made as wide as possible.

Mrs W. C. W. Fosbery and Mrs Hilborn have been the prime movers in making the fruit shipping idea crystallize into a practical undertaking. The idea is to utilize the Institute organizations in other parts of B.C. and in the prairie provinces to establish a retail connection for some of our plentiful soft fruits. They have been in communication with Deputy Minister of Agriculture, W. E. Scott at Victoria, who has endorsed the idea, and also with Manager Robertson of the United Growers, who does not see that it will encroach at all upon the scope of the co-operative marketing organization of the Valley. Details are in a fair way to being worked out, and though there are still some arrangements to be laid out, and some difficulties to be overcome, it seems likely that something will come out of it. The development of this original enterprise will be watched with interest, as any movement

Livestock Discussed at Farmers' Inst. Meeting

Messrs S. H. Hopkins and J. L. Hilborn were the two speakers announced for the meeting last Saturday evening in the Men's Club, under the auspices of the Farmers' Institute, their respective subjects being given out under the general headings of "Livestock," and "Horticulture." Similar lectures are being delivered in different parts of the province under the direction of the Provincial Government. At the meeting on Saturday, Mr R. M. Winslow, Deputy Minister of Agriculture was an eminent listener.

Most of the evening was taken up by Mr Hopkins, who dealt very exhaustively with the livestock question. He explained what the government is doing through the Department of Agriculture for this important branch of farming, which is rapidly coming into the prominence it deserves in this province. By means of stereopticon pictures, clear illustrations were made of the different points of the dairy cow and the beef cow, and also hogs raised for bacon or lard. Mr Hopkins very strongly encouraged the mixed farming idea for this district, and in this connection recommended another phase of this work which has not yet been taken up very extensively locally, namely, keeping a few sheep on the ranches.

A good deal of time was taken up by Mr Hilborn, and the discussion following his talk, so that Mr Hilborn did not speak at any great length upon any phase of horticulture.

Quadrille Club dances are coming to be thought of synonymously with the idea of a completely happy time. The last dance under these auspices, on Thursday evening of this week, did a great deal towards the establishment of this enviable reputation. About forty or fifty couples were on the Empire Hall floor, which proved to be in good shape. The Walters orchestra dispensed music of the kind that invited dancing and made it easy, and in every way the enjoyment of the occasion was complete. Refreshments were on sale by Mr and Mrs Marshall of the Hotel Summerland during the evening.

should be that affects the vital industry of the district.

Some time was also taken up at the meeting in arranging for the details of the cooking classes due to commence the following Monday.

A good many homes have been made pretty during the last week or two by the blossoming hyacinths which members of the Summerland Institute have been growing. Some of the fragrant blossoms seem perfect specimens, and at the meeting this afternoon in the Men's Club, where the plants are to be brought in and sold, there is going to be a scene of loveliness, as the various shades of bloom mingle together. There is also to be something in the nature of a social afternoon tea, as well as more serious business.

Hot and Turbulent Session Of Municipal Fathers.

Refusal of Contractor To Comply With Demands of Municipal Clerk Made Extra Meeting Necessary.

Demands Resented By Mr. McAlpine

Dispute Finally Adjusted By His Submitting To Clause Of Contract.

It is not often that our Municipal Council meetings are enlivened by the passage of heated words or displays of temper. On Monday last a special meeting of Council was quite the exception to the rule, and being called to straighten out a deadlock, proved most contentious.

At the regular meeting of the 1914 Council held on December 10th, a second payment on progress to T. J. McAlpine was authorized, totaling about \$1,300. The delay in receiving the money from Ottawa resulted in Mr McAlpine's not getting the cheque until this week, when he was notified by phone that his cheque was ready, and would be handed over upon his making a satisfactory statement showing that wages and material bills had been paid. This message was from Treasurer Logie. This statement Mr McAlpine declined to give, and demanded payment. This being refused, the matter was laid before the Reeve, who called on the Clerk for an explanation, and also saw the councillors individually. The outcome was the calling of a special meeting of the Council on Monday at 5 p.m.

Mr Logie, after explaining the situation from his point of view, and stating that he was asking for nothing more than he had asked of R. Mitchell, and other contractors read the following extract from the contract signed by Mr McAlpin, and said that in view of the fact that a number of enquiries for wages had been received at the office, he felt justified in making the request for a statement, claiming that the Municipality was legally liable for any unpaid claims against the work, and that without a declaration from the contractor with respect to these he did not care to personally assume the responsibility of turning over the cheque. These are the clauses bearing on the subject:

"Subject always to a deduction of 25 per cent. from the value of work done, which percentage may be retained by the Council till the lapse of 32 days from the full completion of the contract work as a guarantee, or provision for payment of claims for wages or materials unpaid by the Contractor and for due completion of the work.

"Further, the Treasurer of the Corporation may demand exhibit of wages bills and material bills, duly attested, and vouchers for payment of the same, before paying over the amount passed by the Council, and he may pay any wages, or bills for materials, that may be found due,

as a first charge on such funds so passed by the Council, without any further or other warrant or authority, and that notwithstanding any orders or assignments that may be issued by the Contractor."

The Reeve was not in good humor, claiming that the calling of the meeting was wholly unnecessary, and that previous to it he had been forced to do a lot of driving just because of the contractor's stubbornness in refusing to comply with the terms of the contract.

Coun. Johnston also expressed himself in no uncertain tones in a reply to Mr McAlpin that there was only a small amount yet due from him, saying, "You could have saved us all a trip up here if you had told the Treasurer that only a small amount was due for wages and material."

Whereupon the Reeve declared he would not sign the cheque until the terms of the contract were complied with. The cheque was already signed, however, by the former Reeve.

Mr McAlpin evidently looked upon the demand as a personal insult, claiming that he had always paid his men, and defied anyone to challenge his reputation. He said the first cheque had been paid out without any questioning, and that the cheque now in question was authorized by the old Council, who expected it to be paid over in a few days, and no statement was asked for by them.

When further questioned he admitted that only about \$200 was due on wages and some \$80 for cement, and he considered the holding of the cheque as a matter of personal enmity.

Coun. Borton also termed the affair as a personal matter, and saw no reason why a man of Mr McAlpin's reputation should be so treated, and now that he had said he only owed \$200 for wages, why hold him up longer?

The Treasurer expressed himself as satisfied with this, and said he would have assumed the responsibility had such a statement been forthcoming before.

At times during the discussion the flushed faces and sharp retorts of the members showed plainly the decided approval or disapproval of the individual councillors, personalities coming at times to breaking point, in fact so acute did the situation become at one time that Mr McAlpin left the room. Finally upon Mr McAlpin giving a written declaration as to the amount due for wages and material the Treasurer was instructed to hand over the cheque.

Crops and Buildings For Experimental Farm

According to Supt. R. H. Helmer, most of the newly broken land at the Experimental Farm will be seeded down to grass crops of various kinds this coming season. In caring for these cover crops a full acquaintance with the irrigation condition can be had, and the most advantageous points from which to apply the water found by actual experiment. When necessary information of this nature has been found, the land will be given over to diversified crops, as on other experimental farms.

Questioned as to what buildings will be erected on the farm, Mr Helmer said that it was probable that these would at first consist of two residences, one for the Superintendent, and the other for the foreman, and a barn for the horses and stock. Further details of these buildings will be had when Mr J. H. Grisdale, Director of the Dominion Government Experimental Farms, visits Summerland, as he is expected to do some time in March.

The Provincial Government is going to make access to the farm easier by constructing a road of seven per cent grade, diverging from the present road at the foot of the hill.

ENTERTAINMENT FOR AMBULANCE LEAGUE.

The Young People's Guild of St Andrew's Church made a great success of the entertainment carried out on Wednesday evening in the church. The popular admission of 10 cents was not begrudged by those who attended, on the contrary, those present would not have minded paying a little more for the enjoyment of the evening's program provided. The entertainment had been organized in aid of the Ambulance League Fund, and the proceeds from Wednesday's efforts realized the very creditable sum of \$11.55. A skating carnival held a short time back realized about a like amount, so that the Guild now has well over \$20 in hand for this worthy object.

The customary business of the regular meetings of the Guild was put through before the concert program was entered upon. Mr H. W. Treffry, president, occupied the chair during these proceedings. The program went through without a hitch of any kind, and revealed a good deal of ability among some of the young performers. Sixteen ladies, arrayed in white dresses, gave a good account of themselves as a chorus. The items were as follows: Opening Chorus, "Kentucky Home;" Recitation, Pearl Danks; Duet, "The Crooked Bowbe;" Mrs J. D. Wood and Master Frank Steuart; Reading, Miss Rothwell; Dialogue, "Mr Smith's Day;" Intermission; Dialogue, "Trapped;" Trio, "The Three Maids of Lee;" Recitation, Mrs A. H. Steven, "Amen Corner;" Chorus, "Speed Away;" Indian Club Swinging, Miss Edna McLeod; Chorus, "Hymn for Army and Navy;" Accompanist, Miss M. Lister; God Save The King.

Notes From College Hill

Last Friday evening in the Men's Club the College quintette went down to defeat at the hands of the husky Town team. The small quarters, and the rough and tumble play, were not consistent with good basketball, and the result was a bad trimming. The table will undoubtedly be turned when the teams meet at an early date in the College Gymnasium.

The same evening the Ladies' College Auxiliary held a successful Valentine Social in the gymnasium. There was an attendance of about one hundred, and this number was augmented by the two basketball teams toward the close of the program, but in time, however, for the excellent refreshments provided by the Auxiliary. The program was under the direction of Miss M. White and Mr W. M. Wright. The most interesting item was a Valentine Competition, in which great originality was displayed by many of the contestants. Miss I. Steuart and Mr C. Elsey were the winners of the first prize, and the consolation prize was awarded to Miss L. Elliot and Mr Ed. Sawyer. Mr K. Thomas and Mr H. Parkinson provided several musical items. The solo "Spring," by Miss A. Hayes was much appreciated. On behalf of those present Principal Everton spoke briefly, and thanked the ladies for the excellent help they are rendering all the time to the College work. The students immediately endorsed the remarks of Principal Everton with the College yell. The Auxiliary expects in the near future to hold another social gathering in the interest of the College.

The First Year Arts class wrote their mid-year French examination on Monday morning. The original exam. papers were lost in transit, making it necessary for McMaster University to set a special paper, which arrived safely last week.

SUMMERLAND IMPORTS RARE COMMODITY.

The sum of \$17,000 came into the community at the end of last week, passing through the hands of the Municipal Treasurer, Mr J. L. Logie. Few knew of it at the time, but more of less benefit is being felt throughout the community following the distribution of cheques that had been awaiting the arrival of this money. \$10,000 was from the Dominion Government on account of the Experimental Farm Water Agreement, and \$7,000 proceeds from the sale of debentures in Toronto. Certainly the worries of the municipal financiers are now relaxed a little since the beginning-of-the-year difficulties are being surmounted, but there are still hard points ahead of them yet that will have to be wrestled with before the year ends.

Special Horticultural Meetings.

Prov. Dept. Officials Will Discuss Production and Market Problems.

From February 27th till March 6th, a series of meetings will be held under the auspices of the Horticultural branch of the Provincial Department of Agriculture and of the B.C. Fruit Growers' Association, at some of the principal points in the Okanagan Valley.

These meetings will be addressed by R. M. Winslow, Horticulturist, and by J. Forsyth Smith, Market Commissioner, on topics connected with the present fruit marketing situation, general competitive conditions, the reduction of the costs of production, and of distribution, the prairie market during the season of 1914, the outlook for the industry in the future, and kindred subjects of special importance to everyone interested in

fruit growing. In view of the paramount importance, at the present time, of the fullest investigation and scrutiny into every feature of our present production, marketing and distribution methods, these meetings should call out a large and interested attendance, offer an opportunity for the fullest and freest discussion, and result in giving our growers a much clearer and more definite conception of the main factors of the problems before them.

The dates set for the meetings in this district are as follows: Naramata, Feb. 27, 2 p.m.; Kaleden, March 1, 2 p.m.; Penticton, March 1, 8 p.m.; Peachland, March 2, 2 p.m.; Summerland, March 2, 8 p.m.

HOSPITAL WORK IN JANUARY.

Sixteen patients received a total of one hundred and eighty-four days of treatment at the Summerland Hospital during the month of January. The earnings averaged \$16.20 per day, totalling \$502.20. Of this amount there was received in cash \$148. At the first of February, there was outstanding in earnings the sum of \$1,046.79, about \$600 of this being due from the Provincial Government. It is clear from even such cursory figures as those that the institution would make good if its earnings were forthcoming with reasonable promptitude.

There is an especial need of vegetables at the Hospital just now, potatoes especially being a required requisite. There could not be a better use for any superfluous sacks that may be lying in the cellar just now than as a donation to the hospital.

SECOND CONTINGENT MOVES OFF

A short time ago the 30th battalion of the Canadian Expeditionary Force at Victoria were instructed to hold themselves in readiness to leave at short notice for some scene of activity, and ever since the Willows Camp has been on the qui vive. The expected orders came to the soldiers at the end of last week, and on Sunday last the entire battalion, numbering about 1,150 men left for a destination that is not generally known. In accordance with instructions from Ottawa nothing had been published regarding the plans made for the departure of the troops, but nevertheless the news had circulated generally in Victoria, and a big crowd watched the troops march through the streets, and embark for Vancouver. Summerland has its quota of boys in the 30th, and now that they have started out on their mission, of which no one can quite foresee the end, everyone will join in wishing them Godspeed and a safe return.

Summerland Telephone Compy.

Annual Report Shows Excellent Profits on 10 Months' Operation.

The Summerland Telephone Company Ltd., held its first annual meeting on Thursday, with a fairly representative number of shareholders present.

President Mellor in opening the meeting presented a very happy report of the business of the company for the past ten months, showing very satisfactory returns on the capital invested, besides having given subscribers a highly efficient and continuous day-and-night seven-day-a-week service. The only element of disappointment in the whole situation was the fact that quite a proportion of shares were not yet fully paid, resulting in making financial difficult for the directors. Though the earnings were excellent, and he recommended a divi-

dend of 5 per cent for the 6 months, it would not now be practical to pay this out in cash, the money being needed to pay off bills chargeable to capital account. This was made necessary because of the fact that a number of shareholders had not paid in full for their shares. Had they done so an annual cash dividend would be certain beside putting a tidy sum into the reserve account.

The earnings from rentals for the 10 months of operation total \$4,775.95, while the operating expenses were \$2,324.13 for the same period, the net profit being \$2,451.82, or an average of \$245.18 per month on a capital of \$12,000. The balance due on shares is practi-

FRIDAY, FEBRUARY 19, 1915.

LOCALS.

Mrs Simms, widow of the late Mr A. G. Simms, sailed from California for New Zealand on the 16th.

Mr Cox, of Miniota, Manitoba, was a visitor to Summerland this week. He has been prospecting in the Valley, and may locate here with his family.

George Higgs, boarded the "Siamous" on Thursday morning this week, bound for the prairies, where he will endeavor to get some farm employment.

Mr R. M. Winslow, Provincial Horticulturist, and S. H. Hopkins, provincial government lecturer, were in Summerland over last week-end, guests at the Felix Hotel.

Methodist Church services will be conducted in the Methodist Church on Sunday next at 10.30 a.m. and 7 p.m. by the Rev R. W. Lee. A hearty invitation is extended to all.

Mr J. R. Sutherland, a brother of Mr D. L. Sutherland of this place, is now at the fighting front with a motor battery of quick-firing guns. The battery was donated to the authorities by a group of eastern capitalists. Mr Sutherland was selected as the first driver and third gunner in the battery.

A party of five Masons came down from Peachland last night in the expectation of attending a Masonic function in connection with the local Lodge. The party consisted of Messrs G. W. and Grant Lang, A. and E. McKay and B. M. Whyte. They spent the night at the Felix, but it transpired that they had made an unfortunate miscalculation in regard to the week in which their function was to be held.

Mr Gordon Kerr, who left here a short time ago hoping to get back with his former company in the Artillery at St John, N.B., has been given a commission, and latest advice was that he was stationed on Partridge Island at the mouth of the national winter port, where a large number of the Canadian militia are guarding that channel of commerce, and keeping in trim for further possible service.

There has recently been installed at the Trout Creek home of Mr G. Thornber, by Mr O. Atkins, manager of the Telephone Co., a small electric light system for lighting the entire house. A small dynamo is driven by a gasoline engine, and connected to a storage battery. By running the dynamo for about four hours twice a week sufficient current can be had to furnish the illumination desired, and it seems that the operation of the plant is very economical indeed. Mr Atkins has the local agency for those outfits and is ready to furnish any information and quote prices.

BIG CROWD AT FARMERS' INST. MEETING.

Probably never in the history of the Farmers' Institute has there been such a turn out as at the meeting held last Monday evening in the High School building. The meeting had been announced as one at which the labor question would be discussed, and it would seem that many who earn their livelihood by, orchard work, etc., expected a general concerted effort to reduce the wage rate, and turned out in force to protest.

Farm line, community problems, and many other topics, perhaps more or less bearing on the subject, were introduced by the numerous speakers, but other than airing both sides of the labor question, which should result in a disposition to "give and take," nothing was really accomplished.

As described by the president, Mr J. L. Hilborn, it was more along the line of an educative rather than a legislative meeting. The gathering did not break up until after eleven o'clock and among those who spoke were Messrs J. L. Hilborn, R. H. Helmer, T. J. Washington, H. Moyal, C. J. Thomson, G. J. C. White, H. G. Etabrook, R. V. Agur, W. M. Wright, A. McLachlan, C. W. Haddrell, P. G. Dodwell, W. J. Beattie, G. R. Hookham, E. J. Weldon, C. H. Tate and J. L. Logie.

Space will not permit our giving a resume of the many speeches, but we hope to be able at a later date to publish at least a few of them, with possibly comment thereon.

BIRTHS.

ROBINSON—To Mr and Mrs W. J. Robinson, on Saturday, February 13th, at the Summerland Hospital, a son.

SHANNON—To Mr and Mrs Robert Shannon, Garnett Valley, on Tuesday, February 16, a son.

His fellow class mates surprised Leonard Whitfield last night at the home of his uncle, Mr Thomas Whitfield, when they called to give him a party as a farewell expression. Leonard leaves to-morrow with his father, Mr Frank Whitfield, on the return journey to England.

BASKETBALL

LEAGUE STANDING.

Seniors.		Per-	Points
Played	Won	cent	For Agst
Town	15	9	60.0 315 216
College	13	7	53.8 247 219
West	14	5	35.7 210 313

Intermediates.		Per-	Points
Played	Won	cent	For Agst
Town	15	9	60.0 237 170
College	13	6	46.1 174 159
West	14	6	43.8 199 275

The Town seniors seem to have struck a winning streak, and their victories of the past week have deposed the College from the head of the league, and carried their own standing up. Whether this condition is to be temporary or otherwise, the next Town v. College game will determine.

The teams from the College and Town clashed last Friday evening in the Men's Club, and while by losing, the Town intermediates did not set their seniors a very bright example, the fortunes were reversed in the senior game. The College second team put up a good enough game to get ahead and keep ahead of the Town boys. It was a somewhat surprising result, to judge from previous games; but the laurels went where they were earned. The Town could not seem to settle down to good team work, due in a great measure to close checking from the College boys. The half time showed 5-3 for the visitors, and the final score was 13-6 for the Collegians. Jennings was the chief collector of field baskets for the College, with help from Bent, and K. Elliott came through with the fouls. Only two field baskets were scored for the Town by White and Angove, and two fouls completed their score. The teams were:

Town	College
C. H. Sismey for.	L. Bent
R. White "	B. Elliott
W. Angove cen.	H. Jennings
F. Williams gd.	K. Elliott
H. Bristow "	Anderson

The senior Town and College game was one of the snappiest encounters of the season. To use a spectator's expression there was lots of "ginger" in the play. The rooters in the gallery did not have to watch long before the baskets came into use. Lavis opened for the Town, and McWilliams put in one as well before the College registered anything, their first count being a basket by Dale. The Town seemed to have the better of things at the beginning, and the scoring in the first half told the story of the game true to the play. 12-9 was the half time score in favor of Town. Lavis had put in another, McWilliams two more, and Glenn had broken into the scoring to make up the Town total, and Dale had most College points to his credit with three baskets. Cochrane also got one, and McLeod secured one point on a foul. In the second half the Town monopolized the scoring. They played a shut-out game, the College being unable to find the basket once, however near some shots did come. They were always game, though, and never let the rising score demoralize them. Their guards worked like heroes, but the Town had their eyes "in right," and when they shot, something usually counted. All the home team helped with the score, McWilliams continuing his good work with three more baskets, Phinney, Lavis and Snider each got one, and Glenn made three fouls, making the final score 27-9 for the Town. McLeod did not have his usual luck with fouls this half, not getting a single point. E. Logie blew the whistle, and the teams were:

"Patriotism and Production." AN AGRICULTURAL CONFERENCE

Under the auspices of
The Dominion Department of Agriculture,
Will be held at
The Men's Club, Summerland,
at 2.30 p.m.

On Monday, March 1st.
Mr. C. H. CORDY will occupy the chair.

Agricultural conditions as affected by the war and the duty and opportunity of Canadian farmers will be fully discussed.
A cordial invitation is extended to all. Ladies welcome.

Town College
H. Phinney forward M. Cochrane
C. Lavis " G. Dale
C. McWilliams centre J. McLeod
J. F. Glenn guard C. Riley
H. Snider " A. Vanderburg

In the upper gymnasium on Tuesday this week, the games went the same way against the Wests. The Town intermediates went down, and their seniors kept up. In the junior game the Town were unable to connect with the basket with any freeness, though they had more shots than the Wests. Logie opened the count for the home team with a foul point, and added a basket and another foul before the Town had anything recorded. They pulled up though, and at half time had the score 6-5 in their favor. Sismey and White were responsible for the Town points with a basket and a foul apiece. In the second half B. Stuart came into prominence for the Wests, and got the ball into the net three times. Logie charmed seven more fouls in, and also got another field basket. For the Town White made one basket, and Angove six points from fouls. Free shots from the penalty ring were awarded very freely this half, and broke the game up. 20-14 was the score by which the Wests finally got the game. The two teams:

Town	Wests
C. H. Sismey for.	E. Logie
R. White "	B. Stuart
W. Angove cen.	C. Elsey
C. Clay gd.	E. Bent and D. Stuart
F. Williams "	G. Higgs

When the seniors came on there was another good game for the spectators to watch. In both halves the Town did better scoring than the Wests, and in the first they got baskets pretty frequently, good combination being largely responsible. The Wests played together well, too, which made the game an interesting one. Stuart opened for the Wests with a foul, but Phinney replied likewise for the Town, and then the visitors started in to get the lead they were going to keep. Lavis was well to the fore, and made three pretty baskets in the first half, McWilliams made a good second with two; Phinney got one basket and a foul, and Glenn three fouls. This made the Town count 17 to 8 by the Wests, made up of two baskets from Darkis, both made on long passes, right under the basket, and a single basket from Stuart, the last named the best of the whole game, a long shot following some fast passing among the Wests. The baskets were not in use so much in the second half, only one on each side being credited with shots from the field, Lavis for the Town and Fisher, with one of his long range shots, for the Wests. Five foul points completed the Town count, three from Phinney, and two from Glenn, and Darkis put in three for the home team. Referee Jennings was in charge of this game, and the players were:

Town	Wests
C. Lavis for.	C. Stuart and E. Bent
H. Phinney "	R. Darkis
C. McWilliams cen.	W. Mumm
H. Snider guard	G. Fisher.
J. F. Glenn "	D. Stuart

Games in the league schedule for the next few days are somewhat few and far between. To-night, Friday, the College and Wests meet, and there is no other game till the following Friday. To-night's game is of considerable moment for the Town. If the College lose, the Town's position as league leaders is considerably strengthened, but if the Wests go down to defeat, it not only makes that team pretty certain of the collar, but puts the College up very close to the top once more.

LIFE would be flat and colorless for both young and old without some pleasure to give it piquancy. So with food. A relish creates pleasure and appetite for your meals. It is oft-times as much of a tonic as the best prescription handed out by a physician. It is your duty as a careful housewife to get the best in relishes. Bad relishes spoil good food.

WE aim to keep the best in these as in everything else—delicious Jams and Jellies that are made with pure sugar, and keep the natural flavor of the berries. Pickles preserved in the finest malt vinegar. Sauces of the best brand—all the hundred and one delicacies that help to make your daily meals more pleasing.

If you want any Relish we have it. Come in and look over stock.

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Trout Creek Mill, Princeton Crossing, B.C., February 15, 1915.

The Editor, Summerland Review.

Dear Sir, I would consider it a great favor if you would publish this letter in your next issue, as I wish to make a few comments regarding the letting of the contract for flume lumber, as published in your paper of the 12th inst.

Now we note that you say there was only about a dollar difference between my bid and Summerland Lumber Co's. bid. On Wednesday Mr James Fyffe came up to our mill and said that we had the contract, and that our bid was \$4.00 under the other people. On Thursday I went into Summerland and met the Reeve, and he asked me if our price covered a continuous supply for the whole season, and not just one or two car lots. He said that a letter had been posted to me regarding this, so I went to the Post Office and got the letter, and I told him that our price would cover the supply for the season, also the tongue and groove specifications, but that we could only deliver car or half car lots. Later on I explained that if they would let us know the different specifications of flume lumber that they would need, we could ship down a car lot at a time, and pile it at West Summerland siding, and the Municipality could pay for it as they used it. We might say that our price was asked delivered at West Summerland station, and Mr Fyffe put in a price of \$1.40 per M for moving the lumber from the station to wherever the Municipality needed it. As we have lots of idle teams here we could easily have done it for this price. This would still leave a difference of \$2.60 in our favor, with the lumber delivered to wherever it was needed.

After going down to the Municipal Building with Mr Blair, where he talked with Mr Johnston for a short time, he came out and told me that the contract had already been let.

We also note that there was considerable argument in favor of the Summerland Lumber Co., being a local concern. We might say that after moving in here in August, 1913, and since that time, we have spent over \$15,000.00 in Summerland and West Summerland, besides the benefit the Municipality derived from our pay roll of between \$3,500.00 and \$4,000.00 monthly.

Thanking you for your kindness in giving this matter space in your valuable paper,

I am Yours very truly, FRED DEMUTH.

West Summerland, B.C. February 17th, 1915.

Editor, Summerland Review.

Dear Sir, Your latest issue informs the public Messrs J. A. Kirk and E. R. Simpson have been appointed License Commissioners for Summerland. You also print a letter from Mr Kirk quoting a year old speech of Attorney-General Bowser defending his amendments of Municipal Act which took from the people the power to appoint their own Commissioners and virtually gave it to Mr Bowser.

The McBride Government has arrogated to itself more than one power properly exercisable by local municipalities and have worked and acted on the principle of centralizing power in the Cabinet at Victoria. Students of sound democracy regret this policy has been followed so extremely. The principle is pernicious and will in time seriously injure any party practicing it.

The Roblin Government has appointed License Commissioners for years in the same way as Mr Bowser now does, and has been so bitterly assailed for so doing it is now abandoning the practice.

But whatever defence may be offered for Mr Bowser I protest as a citizen of Summerland against the appointment of the President and Vice-President of the local Conservative Association as the majority members of our License Board. I submit it is contrary to sound public policy and to good politics.

For those gentlemen personally I have only respect and esteem, but I am amazed at the poor judgment and bad taste shown in their being recommended. Politics and liquor matters make bad bedfellows, and Summerland has no bed for such quality.

Newsy Paragraphs from PEACHLAND

Mr Jas. Fleming of the High School spent Saturday in Kelowna.

R. H. Hueston of the Hermitage left for Revelstoke last week on a visit to his daughter.

Miss Bishop left for Calgary on Thursday morning last. She may return here when the packing season begins.

Mrs Clem. Aitkens was a visitor to Kelowna last week, returning on Saturday evening, accompanied by Mrs Wm. Aitkens and her little daughter.

Miss Adelaide Hayward returned to her home in Naramata last week. We hear that she is to be the principal guest at an important social event on Friday.

Mr and Mrs F. Toleman left on Thursday morning en route for London, England. They purpose sailing from St. John, N.B., by the "Misanabie," with Mr and Mrs Joe Fleming, who go to Scotland. Bon voyage, and a safe passage through the waters in the war zone.

Another lot of articles was sent out last Thursday morning by the Ambulance League here. This shipment comprised: 5 dressing gowns, 24 hospital shirts, 13 scarves, 14 pr. socks, 11 pr. mitts, 2 belts, 2 Balacava caps, 44 bandages 10 pr. bed socks, and 24 packages cigarettes.

At the last regular meeting of the Women's Institute it was reported that the trustees would allow one hour each week to the teaching of sewing in the public school rooms. After some discussion it was decided to appoint Mrs Clarence as instructor in the Town School, and Mrs Buchanan in the Trepanier department.

Unlike the Liberal meetings held here of late years, the one on Wednesday last was well attended, the people being anxious to hear John Oliver, Ex-M.P.P. of the Delta, whose side of the question was stated in a straightforward manner, not descending to personalities. Mr DeHart of Kelowna and Captain Worsnop of Kamloops also spoke a short time. Mr Thos. Powell occupied the chair.

These gentlemen cannot afford to act as License Commissioners if they look to any future in public life. Their motives and intentions may be those of angels, but however impartial they may try to be their political status is bound to be considered by the public as affecting their official acts.

The foregoing is written without my having personal knowledge of the personal views of Messrs Kirk and Simpson about Liquor Licenses. That is not the point. I have the fullest confidence in their integrity and ability, but I am sure I am voicing the views of many citizens when I say the Conservative Association, of which they are the leading members, made a huge blunder in recommending these appointments.

Yours, etc., W. C. KELLEY.

OUR NARAMATA SECTION :

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

A Women's Institute At Last.

Thirty-three Members Enrolled.

The forming of a Women's Institute in Naramata was an event! Three times, in as many years, Mrs R. C. Lipsett, member of the Government Advisory Board for Women's Institutes, has come to Naramata with the object of forming a branch here. More than 30 members enrolled on Tuesday afternoon; Mrs Carroll Aikins, secretary-treasurer pro tem, taking the names to be sent to Victoria.

The early proceedings were enlivened by the presence of three delegates from the Farmers' Institute, Mr J. H. Pushman, Mr H. J. Wells, and Mr Hans Salting, who were appointed to find out whether the women of Naramata might not join their Institute and be granted the special privileges of the Women's Institute without organizing a separate body.

Mrs Lipsett's reply was to the point, backed by governmental laws, that no such question could be considered. Mrs Carroll Aikins aptly asked if the Farmer's Institute was not open to women farmers as members? Quite a spirited discussion took place, and through the various remarks made by the men delegates, the reason why they especially wanted the women to join was—because the men did not turn up at the meetings and it was thought that if women did, why, they could carry the news of what was talked about home to their husbands.

Mrs Lipsett, Mrs Carroll Aikins, Mrs Allen, Mrs Hughes, Mrs Hall, Mrs Languedoc, Mrs Pushman, Mrs Pushman, Mr Wells and Mr Salting all took part in the bright discussion, and finally Mrs Aikins moved that a Women's Institute be formed in Naramata, seconded by Mrs D. O. Hughes, and carried unanimously. Mrs Aikins was elected secretary-treasurer pro tem. The men disappeared, the initial work of forming an institute was proceeded with. There will be a President, two Vice-Presidents, Secretary-Treasurer, and a Director for every ten members. Over 30 names have been sent in to the Hon. W. E. Scott, Deputy Minister of Agriculture and Superintendent of Institutes. With the approval of the Hon. Price Ellison, followed by four weeks' advertising in the British Columbia Gazette, the Secretary will be informed of the lawful standing of the Institute and the election of officers will take place at the inaugural meeting.

It was the unanimous expression of the women of the meeting that the Farmers' Institute would benefit by the addition of a Women's Institute in the Naramata district. The women would do all in their power to help in the upbuilding and uplift of the town, a Board of Trade work that the members of the Farmers' Institute have had to embody within their regular institute work.

Current Events — OF — Town & District

Mrs Russell Wells spent Tuesday in Summerland.

Miss Margaret Gordon was a Summerland visitor on Monday.

Mrs O. Vaughan of Summerland spent Tuesday with Mrs Mark Manchester.

Mrs T. H. Boothe was the guest of Mr and Mrs James Young on Sunday last.

The Rev. J. Irwin Beatty, pastor of the union denominational congregation of Naramata, preached at Poplar Grove last Sunday afternoon.

Mr and Mrs T. H. Boothe are looking forward to a visit from their son, Reginald, who has been living in the Cariboo district for some time.

A shorthand class for adults opened in the School for Writers on Thursday afternoon. The evening classes are attended principally by scholars in their teens.

The Rev. H. A. Solly, Rector of St Stephen's, Summerland, came over by ferry last Sunday afternoon and conducted service in the chapel building here.

Joining the family party of Mr and Mrs Pushman, senr., and Mr and Mrs J. H. Pushman, for Sunday night supper were Captain and Mrs Languedoc, the Messrs Mason, Mr Gerald Roe, and Mr Alex. Noyes.

Mr Fred Lorne Roe is cosily domiciled in Penticton, but spends an occasional evening in Naramata looking after his interests here. His mother and sisters are frequent visitors with him in his newer surroundings.

Mr and Mrs Dean Walters provided the music for both the Tuesday and the Thursday evening dances in Summerland this week, and a number of Naramata's younger folk crossed the lake with them to take part in the jollities.

St. Valentine's day in Naramata with robins and chickadees chirping, buttercups blooming, rhubarb showing, and poppies peeping above ground! Toadstools and pussy willows are in evidence, too, and mushrooms are being hunted though not yet found.

The earliest pioneer of hereabouts Mr John Robinson, spent Monday in town much to the gratification of the many who enjoy a chat with him. Snow has pretty well disappeared from the higher up-lands where he ranches, and Mr Robinson experienced no difficulty in walking down.

Mrs E. P. Roe is expecting her daughter, Mrs George Gray of Montreal, to visit her shortly. Mr Gray, who holds an enviable position as a stock buyer in Quebec Province, wishes to look into possibilities in the Okanagan with a view to taking up land and operating a cattle ranch on a large scale.

Mrs Raymond of Marshall, Michigan, who spent a year with her daughter, Mrs Hans Salting, in Naramata writes that the Michigan winter has been very severe. Snow, slush, and piercing winds are taking turn about to assure the people that Spring is not yet contemplated. Mrs Raymond is very well, and feels her eighty odd years as anything but a burden.

Naramata Current Events

Mr and Mrs Carroll Aikins spent part of the past week in Vernon.

Mr and Mrs Peter Roe spent Sunday with Mr and Mrs Rowley, Summerland.

This afternoon the members of the Unity Club are giving a utility shower for Miss Adelaide Hayward.

Mrs J. H. Pushman, with her little daughter, Grace, spent part of the week with her sister, Mrs H. T. Davies, of the Outlook Orchard.

Mr John Noyes has taken his wood sawing mill to Osprey, near Princeton Crossing, to cut up a couple of hundred cords for Mr Chapman.

Mr and Mrs Hugh T. Davies, accompanied by Miss Emma Davies, were dinner guests at Keystone Ranch with Mr and Mrs John M. Schreck, last Sunday.

Dr and Mrs R. C. Lipsett of Summerland were guests of their nieces, the Misses Robinson, at "The Naramata" on Tuesday. They were accompanied by Mr George Robinson of Peachland, a nephew of Mrs Lipsett.

A lakeshore railway line from Kelowna to Penticton, touching at Dunrobin pre-emption, Paradise Ranch, Naramata, and Lower Rekdome, is being talked of in Naramata as if it were assured, and to be built this coming summer.

The Naramata Supply Company, under its new management, is awake. Alterations to the premises and changes in charges have been made. The half page advertisement in last week's Review was the first intimation had by Naramatian benches that a different business policy prevailed. Subsequent advertising news will tell the tales of arrival of goods, snaps in prices, and store news in general.

This Friday evening the members of the Epworth League have invited their elders to enjoy a social evening with them in the assembly hall of the church at eight o'clock. The leaguers have prepared a program after which there will be games, followed by a supper. Mrs Margaret Allen and Mrs D. Ogden Hughes, who always have the interests of the growing lads at heart, are helping the members with the supper, and sharing the responsibilities of the evening in other ways.

Mr Wm. Mitchell and his sons are to be thanked for their gratuitous spreading of sawdust and gravel sidewalks about town. The long muddy path up to the school house has been made dry and solid. Various hitherto impassable places on the side streets have been made easy of passage, and not only may pedestrians discard rubbers and return home dry shod, but the tidy appearance of the streets is a wonderful improvement.

AUCTION SALE, NARAMATA, B.C.

H. W. ENDACOTT, who is leaving the district, will sell by auction on Thursday, March 4th next:

Implements, wagons, buggies, quantity small tools, and general effects; also three head of horses, set of harness, and heavy spring wagon.

Sale to commence at 1 p.m., sharp.

Terms: Cash. Particulars in posters.

THE SUMMERLAND TELEPHONE COMPANY.

(Continued from page 1.)

cally \$6,500, and were this paid there would be a saving in interest charges and dividends that could be distributed regularly.

Dr. Andrew, vice-president, emphasized these statements and pointed out the enviable position of the company as a money earning proposition, while at the same time giving the community an excellent service. Another advantage was that a large sum that was formerly paid annually to a foreign company is now kept at home. The speaker pointed out the immediate advantage of increasing the paid-up capital, as the company would then be in a position to pay regular dividends, make desired extensions and lay aside a substantial reserve.

The retiring directors were Messrs S. M. Young and R. H. English. Messrs Isaac Blair and S. M. Young were elected to the board, their term of office being three years, Mr. English declining to consider re-nomination. The shareholders approved of a proposition to arrange with Coun. Simpson to build a line to his ranch.

The question of a free phone to the Hospital was fully discussed and finally voted down, several of the Hospital Society directors not favoring the request at this time.

The problem of how best to clear up liabilities without detracting from the prospects of future dividends occupied much time, and was

Important

Public Meeting

ON Monday, 3 p.m., February 22nd, IN Men's Club.

It has been proposed to put all of the Okanagan south of Summerland in the Similkameen electoral district, and the above meeting is called to obtain an expression of opinion from the public as to whether Summerland should be a part of the Similkameen electoral district, or remain a part of the reduced Okanagan District.

Every voter is urged to be present.

THE SUMMERLAND BOARD OF TRADE,

R. H. ENGLISH, President.

again left with the directors to solve.

There seemed to be a general demand from shareholders that information of the arrival of the boat be given by central. After an explanation from the manager of how central was beset with questions of all kinds respecting the boat's movements, and how listening to and answering these questions impaired the efficiency of the regular service, it was arranged that central should simply reply by stating the time the boat left Kelowna or Peachland.

R. W. Nelson asked what arrangement the Company had made with the Municipality for doing technical work for the electric light department, and was told that the arrangement was only a temporary one to terminate upon Mr Thornber's return. It was 6.30 when the meeting adjourned.

Passing Events: Social, Personal, &c.

Mr and Mrs George Hampshire occupied their newly erected cottage on Rosedale Avenue this week moving in on Tuesday.

Presbyterian services will be held in St. Andrew's Church next Sunday morning and evening, and in the Methodist Church at 3 p.m. Rev. C. H. Daly will preach.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty. f19p

S. L. Taube the well-known Optical Specialist will be at the Summerland Drug Co. Store on Friday, February 26th. If your eyes are not right be sure to consult him. f1219

Harry McLeod, who has been on K.V.R. survey work since the end of last summer, came into town at the first of the week. He has been at work mainly in the vicinity of Princeton.

"The Value of Hertz Acre," a short story by a Naramata author, Mrs E. B. Reesor, which recently appeared in "East and West," was reproduced in the Winnipeg Free Press News Bulletin of last Friday's date, February 12th, as "the Evening's Short Story."

The post offices are again selling money orders on Great Britain and Ireland at the normal rate of exchange. This in itself comparatively small bit of news carries with it a message of wonderful moment, depicting as it does the soundness of the Empire's financial condition after months of struggle in the world's greatest war.

A few more nights of frost last week-end made the hopes of skating enthusiasts rise, but after a few nights the thermometer readings rose also. There was skating for a night or two, but the continued mildness of the past few days is leading the skaters to the conclusion that they must hang up their skates once more till another winter.

Rev. N. McNaughton of the Baptist Church here was a speaker at a Valley Social Service Convention, held in Vernon, at the end of last week. He took as his subject, "The Church and Modern Life." A Social Service Council was organized in the course of the meetings, of which Mr McNaughton was made a vice-president, and Mr Henry Moyle chairman of the Rural Problem Committee.

At the regular monthly meeting of the Ladies Hospital Auxiliary, at the home of Mrs G. M. Ross the outstanding business dealt with was the need of an X-ray apparatus for the local hospital. A decision was finally arrived at that the Auxiliary undertake to procure an outfit. In the light of the past achievements of the Auxiliary there can be little doubt entertained but that this modern surgical appliance will soon be on hand and installed in the hospital. With this additional equipment the institution will be entitled more than ever before to lay just claim to up-to-dateness.

Are your plows, cultivators and harrows ready for spring work? If not, better bring them in now for repairs. W. R. Shields. f5-26

The seventh annual meeting of the Summerland Poultry Association will be held at the office of the secretary, Mr C. N. Borton, next Tuesday, February 23rd, at 8 p.m. f19p

Mrs G. W. D. Anderson reached Summerland last Saturday evening, after visiting for some weeks at Kelowna, following her return from a stay of about eleven months in the Old Country.

Mr and Mrs James Thompson vacated the Dow cottage on Rosedale Avenue last Saturday, where they have been living for some time, removing to the Heron cottage, Victoria Gardens.

The Summerland Fruit Union will probably hold its annual meeting early in March, the exact date to be announced shortly. Nominations for new directors must, according to the Articles of Association, be in the hands of the secretary two weeks before the date of the meeting.

TELEPHONE SUBSCRIBERS please note that Central may be asked at what time the Boat left Kelowna or Peachland, as the case may be. PLEASE REMEMBER that Central is busy towards six o'clock, and cannot answer other questions or give explanations. O. ATKINS, Manager. f19-26

Several new street lights at West Summerland have been recently placed along the road running north from the Supply Company's branch store beyond Wm. Ritchie's lumber yard. This illumination on a road that is coming to be used more and more, needless to say, is greatly appreciated by residents in that vicinity.

Rev. C. H. Daly and Mr John Steuart left on Tuesday morning for Revelstoke, to attend the semi-annual meeting of the Kamloops Presbytery, which convened on Wednesday afternoon. Special interest attached to the session of the Presbytery on Thursday evening, from the presence of Dr Herdridge of Ottawa, Moderator of the General Assembly of Canada, who delivered an address.

Between thirty and forty couples took part in the dance in Empire Hall on Tuesday night of this week, organized in aid of the Hospital. More than half of the dancers were in fancy dress, and all the costumes seemed very effective, some showing as well a very commendable originality and ingenuity. Perhaps the attendance was not quite as large as had been anticipated, but the customary gaiety of the fancy dress ball was present nevertheless, and the dancing was carried on to everyone's enjoyment. The Walters orchestra from Naramata provided the music in accordance with their customary par excellence standard. Refreshments provided by the lady guests came into evidence about midnight.

Mr J. J. Mitchell went out to Vancouver early this week on a visit that will last a few days.

George Robinson of Peachland has been a guest this week at the home of his aunt, Mrs R. C. Lipsett.

The ladies of the Methodist Church are planning to give a 25 cent bean supper on March 2nd in the Men's Club. Proceeds in aid of the Ambulance League. f19-26

Mr and Mrs R. H. King, and their two little boys of Naramata made a brief but very enjoyable visit at the home of Mr and Mrs C. E. Craig of Jones Flat on Tuesday last.

Mr F. C. Edgar is leaving the employment of the Summerland Supply Company about the end of the month, after several years connection with that firm. He is leaving for Ottawa about the 10th of March.

Vision changes like everything else. If your present glasses are not giving you satisfaction make it a point to see S. L. Taube the well-known EYESIGHT Specialist. He will be at the Summerland Drug Co. Store on Friday, February 26. f1219

J. C. Kennedy, who left Summerland last fall to join the second Canadian contingent, was among the one hundred and fifty men selected at Victoria to join with other companies selected from other military camps through the country, to form a reinforcement for the Princess Patricia Light Infantry, who are now on the actual firing line.

In the list of donations to the Hospital during the month of January, published in last week's Review, two items need a little further explanation. Mr J. Borton's donation, it transpires, was "cake," not "care," and the last donation listed, consisting of two ducks and a quart of maple syrup came from the generosity of a Penticton friend, Mr Everett Graham.

The Ladies' College Auxiliary may very deservedly be congratulated on the success that has always resulted from the various social functions for which they have been responsible this winter. The Valentine Social organized by the Auxiliary, in the College Gymnasium last Friday evening, was largely attended, and in every way a complete success. A fuller account of the affair from the pen of our College reporter, will be found in the column devoted to the doings of that institution. The proceeds of the social amounted to about \$20.

A party of about twenty-five crossed from Summerland to Naramata last Saturday evening and with a few friends from that town shared in the pleasure of a Valentine "surprise" party at Hotel Naramata. Mr J. O. Robinson and the Misses Robinson, as host and hostesses, proved themselves well equal to the occasion, and provided very enjoyably for the entertainment of their guests. Dancing was carried on under the most pleasurable conditions in the spacious dining room until midnight, to music provided by pianists from among the company. A dainty light supper was partaken of very informally in the rotunda during an interlude in the program of dances.

Not to have seen the lights of an airship hovering about at night here some time or other will soon be an experience lacking in but very few of us, if the present rate of the mysterious luminary visitations is kept up. Another sight of lights high up in the sky, apparently similar to those seen from Naramata last week, was reported by a citizen on Monday evening. What would correspond to the searchlight and a tail light of an aeroplane were distinctly visible up above the College, back in the heavens, careering northwards. Summerland is by no means the only place in Canada enjoying airship excitement at this time. Even at Ottawa it has been deemed advisable to curtail the brilliant lighting of the government buildings, on account of an airship scare, and in Alberta, between Edmonton and Calgary, there has been something of a similar mysterious nature. What the phenomena is, or what explanation there can be, no one seems very sure, and in the meantime we are entitled to hold to and cherish the airship idon, as being most fitting at this time when the country is in a state of war.

VOLUNTEER FIRE BRIGADE ORGANIZED.

Further protection against the possible ravages of the fire fiend are being assured for the front section of the district following a meeting held in Borton's store yesterday afternoon. The need for some organized body to take operations in charge in case a conflagration should visit the town was evidenced last Sunday evening when a building on Shaugnassy Avenue seemed in some danger for a time while a chimney was "burning out." Flames were seen belching out, and sparks rained down on the shingles rather alarmingly. A telephone call to central asked that word be sent out to have the hose reel run down as quickly as possible. A number of citizens were soon on to the job, and the hose ready at the nearest hydrant with good speed. Fortunately it was not called into use. At the meeting, preliminary steps were taken to organize a volunteer corps of fire fighters. C. H. Cordy was appointed chief, and J. Lawler his deputy. A practice was afterwards held, running the hose out and coupling it up, and further practices are to be carried out immediately, and the organization steps completed.

CHECKER TOURNAMENT.

A second checker tournament between teams of five representing the two sections of the community is to be played off to-night, Friday at the home of Mr and Mrs J. L. Hilborn. There is likely to be at least one change on each team. The Town quintette will probably consist of Messrs A. Moyes, A. J. Beer, C. E. McCutcheon, H. W. Treffry and G. N. Gartrell. The West Summerland players are likely to strive hard to reverse the fortunes of two weeks ago, and a strenuously contested series of games is likely to result.

The Packing School opens next week. Whether it will be in the Summerland Fruit Union packing house or somewhere at West Summerland has not been decided when we last heard from the secretary of the Farmers' Institute.

Municipality Of Summerland.

By-Law No. 58.

Sec. 5. It shall be unlawful for any person to sell or deal in milk or cream by wholesale or retail in the Municipality without first having obtained a license so to do.

Sec. 7. Any person desiring to sell or deal in milk or cream by retail, shall make application for same in writing to the Municipal Collector, who shall issue a license only after the Sanitary Inspector has inspected the premises of the applicant and reported favorably thereupon.

Sec. 8. The fee for any license granted under this By-law shall be fifty cents for each cow owned or controlled by the license holder, and each license shall terminate on the thirty-first day of December in each year.

The above sections of By-law No. 58 are to be strictly enforced by the Sanitary Inspector, and any parties selling milk or cream without a license will be liable to summary conviction unless the above sections of said By-law are at once complied with.

J. L. LOGIE, Municipal Clerk.

The Literary Society will meet on Monday evening, March 1st (St. David's Day) when six members will speak each upon a famous Anglo-Saxon personage.

Valentine Surprise Dance.

Mr and Mrs George Ross of Summerland planned a delightful surprise party for the Misses Robinson on St. Valentine's Eve, and arranged with Miss Emma Davies of Naramata to invite guests on this side of the water. A special ferry brought the Summerlanders across about eight o'clock, when they were welcomed by those of Naramata, and the surprisants entered the Robinson home to the number of 40 or more. A jolly evening was spent. Decorations still adorned the walls of the large unused dining room, the floor was quickly waxed, piano wheeled in and players volunteered, Miss Gladys Limmer, Miss Bona Logie, Mrs Fred Manchester, and Miss Kathleen Robinson being chief musicians.

Supper was prepared in the smaller dining room, and just before it was announced, a supply of sliced cardboard hearts was brought from somewhere and upon each gentleman's right shoulder one was pinned. To the ladies were given the slices. The heart and the piece that fitted became supper partners. Afterwards dancing continued until next day was nearing. From Summerland there came Mr and Mrs George Ross, Mr and Mrs H. Howell, Mr and Mrs Granville Morgan, Mr and Mrs Frank Williams, Mr and Mrs Jones, Mr and Mrs Wellington Watson, Mrs George Gartrell, Miss Lillian Brown, Miss Anna Hayes, Miss Gladys Limmer, Miss Bona Logie, Messrs W. A. Robinson, Fred Neve, Croeso, G. Craig, Roy Black, J. F. Glenn, H. Vandenburg, E. Logie, and G. de Renzy. Those from Naramata included Mr and Mrs Fred Manchester, Mr and Mrs Howard Rounds, Miss May Foster, Miss Emma Davies, Miss Vera Roe, Miss Adelaide Hayward, Miss Lois Wells, Miss Edna Noyes, Messrs Norman and Harold Mitchell, Gerald Roe, Alex. Noyes, Guy Brock, and the Misses Gwendoline, Gladys, and Kathleen Robinson, with their brother Mr John O.

Two Peace Days.

From Sunday morning, February 14th, until the Monday evening following, Naramata talked of and listened to 100 Years Peace. That most of the talkers slipped on to war was inevitable at such a time, and the cause of the American Revolution as well as the facts leading up to the present war were given in detail. The war from 1812-1815, with its battlefields along our Niagara river, and the treaty that was the forerunner of the Monroe Doctrine (the peace starter for the 100 years), seemed lost somewhere, dropped likely between the Revolution and the Present, but we observed its anniversary—the great St. Valentine Day of 1915.

The church and Sunday School were draped with the Red, White and Blue, and the Union Jack was entwined with the Stars and Stripes in a gracefully dignified pedestal upon the preaching platform. The Sunday School children engaged in a special Peace session early in the morning, and marched with flags of the two nations into the church proper for the 11 o'clock service.

The Rev. J. Irwin Beatty spoke with eloquence and deep feeling upon the peoples of the Anglo-Saxon race, impressing upon his congregation the fact that it was the duty and privilege of the Anglo-Saxons as one people to bring about Peace, guard and strengthen it, and become missionaries carrying the tidings of Peace on Earth, Goodwill to Men throughout the earth.

There was a special choir, excellent music, and the verses of the British and the American National Anthems sung at the close of the service. The church building was filled to overflowing.

The Rev. H. A. Solly preached in the afternoon upon the second lesson of the Sunday before Lent. "Faith, Hope and Charity, and the greatest of these is—Love." A newer view of St. Paul's character was wonderfully brought out, "Was it a yearning for something he himself was deficient in that made him write so tenderly of Love?" It was a suggestion to think about, and when attention was once more with the speaker himself, lo, he had turned the question over the Boundary, as it were, and was saying something about Over 100 Years Peace.

At the Monday night Literary the subject was continued. Mr Pushman said the War of the American Revolution was brought about by an attack of gout in Prime Minister Pitt's foot. He led splendidly up to the war of 1812, and there left it for his follower, Mr H. J. Wells, to pick up and finish. Mr Wells first assured his audience that he knew (in his heart) no difference between flags of any nations and then, pell-mell, he started into his favorite topic, Socialism, swirled it around with words of force or de-force, and finished by observing that he had once heard something of the War of 1812, but was not interested.

So the evening's special subject was left dangling and no one had the heart to pick it up and sharpen it to a point of historical enlightenment for presentation to the expectant and patient audience.

A quartette, "Sweet and Low," sung by Mesdames Lyons and Williams, Messrs Pitman and Mackie, was appreciated, Mrs Fred Manchester playing the accompaniment. Mr Mackie also played some well-known selections, the audience joining in the choruses.

NARAMATA SCOUT DOINGS.

Just at present we are much occupied with the various things to be done in connection with our approaching concert. Both Tuesday and Thursday evenings we are either practicing gymnastics or rehearsing sketches or scenes. Saturday afternoon we had a dress rehearsal at the Opera House, and we are fast getting our various numbers into shape for the big show.

Promises have been obtained from various members of local talent, and also from some of the Summerland talent to aid us in making our program an interesting one, and we are very grateful to those people for their valued assistance.

Tickets have been distributed to all the local scouts to dispose of, and there is a deal of keen rivalry going on as to which boy can sell the greatest number. We would very much like to see every resident of Naramata present, and also a good number from across the lake. The Summerland troop has been extended a complimentary invitation to attend as an organiza-

tion, and in return they have kindly agreed to sell tickets for us in that town.

On Friday evening a very enjoyable time was spent at the home of Mrs T. H. Boothe, wife of the president of the local association. The Scouts arrived about 8 p.m., and after a couple of hours spent in playing games, listening to gramophone and piano selections, and ending up with refreshments, the boys, after thanking their hostesses for her invitation and hospitality, dispersed to their various homes. Mrs M. M. Allen and Mrs D. O. Hughes assisted Mrs Boothe in keeping her visitors entertained.

Owing to last Sunday being set aside to celebrate the 100 years of peace between Canada and the United States, the Scouts here, as a peace organization were requested to attend church in uniform. The Sunday School service was enlivened by a unique patriotic tableau. Three Scouts were chosen, one an American with the Stars and Stripes, one a Canadian with the Red Ensign, and the third an English boy with the Union Jack, to represent the countries concerned. The American first explained the origin and composition of "Old Glory," then the English boy did the same for his flag, and last but not least the Canadian representative explained the meanings of the several coats of arms and marks on the Canadian Ensign. It was all very interesting and instructive, and the boys chosen to represent their respective countries certainly acquitted themselves very creditably.

Right Idea Of Citizenship.

Mr R. H. Hall, who has taken over the management of the Naramata Supply Company's business, has the right idea of citizenship, and has turned his mind towards many phases of betterment for this town of less than 50 homes. There is not only the whole of the Lower Okanagan to draw upon, but Canada at large, other parts of the Americas, besides desirable portions of other continents. Mr Hall thinks deeply, long and well upon questions of the day and the morrow. For one year and five months he has been weighing the advantages and disadvantages of life in the Okanagan, both mentally and by physical work. In October last he began to study the mercantile outlook from the Naramata point of view, and it is with no little satisfaction that Naramatians learn that he sees big things ahead, not only in a business way, but also by attracting people heretofore when the town promises are made sanitary and beautiful; in encouraging the highest mental development through observation, range

Small Fry And The Cattle.

Since the impounding of stray beasts has become law, and a reward of fifty cents per head to finders of wandering ones is offered, the small fry of Naramata have become mighty busy, and woe betide a cow or horse who dares nibble without its lawful enclosure.

Upon occasions a cow has overstepped its limits, and with laudable promptness the small fry have coaxed, driven—yes, shoved the beast hopefully towards the pound gate only to be stopped by a hurrying owner e'er the goal was reached. Horses no longer trample unheeded over front walks, nor do cows browse in other people's back yards. To the grown-ups the change gives a feeling of hope for unspoiled gardens and beautiful streets during the coming summer, but with the small fry the one wish is paramount "That some beasties would break loose when school hours are over, and their owners would be none the wiser until the reward has been accredited."

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

SUMMERLAND, B.C., FEBRUARY 26, 1915.

Vol. 7, No. 30

Whole No. 343

Something In a Name: Summerland, Okanagan

Proposal To Apply For Inclusion With Penticton In Proposed New Similkameen Electoral District Not Favored.

Little Gained, Much Might Be Lost.

Unusual Development At Meeting Caused By Introduction Of New Resolution For Adoption.

At a public meeting held in the Men's Club on Monday afternoon it was shown conclusively that Summerland has no desire to sever its connection with the Okanagan as an electoral district.

The meeting was called by the Board of Trade upon the suggestion of some members, it having been suggested that it might be to Summerland's advantage to be included within the boundaries of the proposed newly-defined Similkameen, which extends across the southern part of the Okanagan. The suggested northern boundary runs east and west between Penticton and Summerland.

There was a representative gathering of citizens present, and to open the debate two resolutions were submitted, one that we ask to be included in the Similkameen, and the other that we remain a part of the proposed Southern Okanagan district, which, as it is understood, will be divided through the northern district by an east and west line near the Landing.

At first the proposition to be included in the Similkameen seemed to meet with more favor, but the more the question was discussed, the more problematic the suggested advantage became, and the debate was, finally brought to a close by a unanimous vote that Summerland remain within the bounds of the Okanagan district.

Through many of the speeches there was a general feeling of regret that the Okanagan Valley, with a common interest, should have any part taken from it, to be included with what is otherwise largely a mining district. Could the whole Okanagan Valley proper have been made into two districts, with the division somewhere between Kelowna and Peachland, it would have met with universal approval. If, however, Penticton and the south country must go in with the Similkameen, Summerland, while regretting this separation from Penticton, preferred adherence to its old relations.

One of the advantages of the change first suggested was that with the co-operation of Summerland, Penticton would soon become a judicial centre, with a land registry office as well; in other words it would hope to become a county seat which, being so close to Summerland, would be an advantage to our citizens. It was argued, however, that judicial and electoral districts would have quite different boundaries, and these advantages might be had without the proposed change in the latter.

Another danger, pointed out by Mr J. L. Logie, was that Princeton already had its Court House and Land Registry Offices, etc., and that it was within the bounds of possibility with the impetus given mining, cement manufacturing, etc., that Princeton should become the chief centre of the Similkameen, and that it would be to the detriment of the fruit district to be tied to an overbalancing mining section.

Mr H. C. Mellor thought the prestige of the Okanagan would be balanced any possible advantage to be had by going in with Penticton.

Among those present who took part in the discussion were: Messrs R. H. English, chairman; J. M. Sutherland, secretary; C. H. Cordy; C. J. Thomson; A. E. Hespeler; E. R. Simpson; H. C. Mellor; J. L. Logie; Jas. Ritchie; J. A. Kirk and others.

When the above question was finally disposed of a very unfortunate situation developed when Mr H. Sutherland submitted a resolution asking an endorsement from the meeting as being a representative

one of the district. The substance of this was an endorsement of the resolution now being forwarded from Victoria to the Federal House at Ottawa urging an increase in the duty on fruit. Mr Sutherland's resolution also asked that an effort be made to reduce freight rates, and for a quicker and more efficient means of reaching our natural markets. As far as the discussion was allowed to go, it would seem that the resolution had the endorsement of the meeting.

The chairman had announced that Mr Creese wished to address the gathering on an important subject, and some were impatient to hear what he had to say. On some points of parliamentary procedure Mr Sutherland's motion was ruled out of order, but not until an appeal to the house had been made from the chairman's ruling. When they later realized the result, some of the younger men, who were principally responsible for the strict adherence to parliamentary usage, expressed regret at having insisted. Mr Creese's message was in the form of a private communication from his superior, Inspector Cunningham, which Mr Creese took the liberty of reading to the gathering, and leaving it with them, asked that action be taken at a later date.

Mr Cunningham wrote as follows: "You will be surprised to hear that although February is only half gone, we have had some twenty-four cars of American fruit imported into Vancouver already this month, and that this fruit is being jobbed at from \$1.50 to \$2 a box. This shows that there is a demand here, and that if our people were wise, they would store their fruit and send it on as the market requires it, instead of rushing it all into the market and making a glut in the fall of the year, when prices are lowest. Unless we devise some means of storing our fruit at the point of origin, and carrying it over, to be shipped to the Coast, as the market demands, we will never get satisfactory prices. The policy in 1914 was to rush it off within a couple of weeks, and now there is no local fruit offering for sale. This is a problem that needs solution."

Horticultural Questions To Be Discussed Here.

Prov. Horticulturist Winslow and Market-Com'r Smith Here. Next Tuesday.

Next week opens with two important meetings for our orchardists. Following the "Patriotism and Production" conference on Monday, there will be a meeting in the High School building on Tuesday at 8 p.m., when Messrs R. M. Winslow and J. Forsyth Smith will be the speakers. "Spraying and Orchard Managing" will be Mr Winslow's subject, while Market Commissioner Smith will deal with "Competitive Conditions."

At 2 p.m. on Tuesday these two gentlemen will speak in the Orange Hall at Peachland, Mr Winslow on "Efficient Production," and Mr Smith on "Marketing Machinery." The third speaker will be Mr J. L. Hilborn on "Growing Early Vegetables."

Mr Winslow, as a result of many visits to the Northwest States, and observations made through our own province, has gathered many valuable points as to efficiency in production. It is understood that he will also discuss the work of the horticultural branch and that of the B.C. Fruit Growers' Association in their efforts to improve fruit growing and marketing conditions.

McMASTER UNIVERSITY EXAMINATION RESULTS.

The results of the mid-term examinations written last month by the university students at Okanagan College, seem to be in a good many cases of an encouraging nature. The searching character of the McMaster examinations is well known, and to achieve success at this distance from Toronto may usually be taken as an assurance of greater success if studies are pursued later under the roof of McMaster. All the mid-year results are appended below, with the exception of the French. These papers went astray while being forwarded to Toronto, and the examination had to be rewritten a week or two ago. The Roman numerals indicate the class of pass obtained, I., II., or III.

Notes From College Hill

Mr C. R. Sayer, general secretary of the Baptist Union of Western Canada, arrived at the College on Monday evening. Mr Sayer is making an inspection of the College in the interest of the Union. There was a record attendance at the chapel service on Tuesday morning when Mr Sayer addressed the student body on the subject, "The glory of young men is their strength."

A special College service will be held in the Lakefront Baptist Church on Sunday evening next. This day is set apart by the International Council of Y.M.C.A.'s as a universal day of prayer for students. The service will be under the direction of the Rev. N. McNaughton and Principal Everton. A quartette from the College will render "Per Aspera Ad Altiora," the words of which were composed by Dr Sawyer, and the music by Prof. Moore, for the closing exercises of 1914. A large attendance of present and past students is anticipated.

The College basketball team were again successful last Friday evening, although the Wosts put up a stubborn fight the College team eventually won by a decided score. It was perhaps one of the best games of the season, but was marred to some extent by occasional rough play. The College team will meet the Town team in the College Gymnasium to-night.

While the Canadian contingent is doing its part at the front, and the Canadian business man is doing his part at home, it remains for the Canadian citizen also to do his part. It is patriotic, and it is good business to buy goods, first, that are made in our own town, second, in our own country, and third, in our own British Empire.

It takes a rich man to draw a check, a pretty girl to draw attention, a horse to draw a cart, a porous plaster to draw the skin, and a well-displayed advertisement in this paper to draw trade.

FARMERS' INSTITUTE SEED DISTRIBUTION.

The complete program of seed distribution announced some time ago from Victoria among members of the Farmer's Institute throughout the province has just been made known. Seed will be distributed for two purposes, namely, co-operative tests and general seeding.

Under the former heading one pound of each of three varieties of corn and five pounds of alfalfa seed will be sent to any eight members of an Institute who make application through their secretary. It is expected that the seed will be so used that the various soil conditions of the district are met with. The corn will be provided, but a charge of ten cents a pound will be made for the alfalfa seed. Official reports on the results from the use of these seeds will be required from those who receive them.

For general seeding purposes quantities of mangel, oats and corn have been procured, and these will be distributed through the medium of the Institute. The prices are, corn, 6 cents per pound; mangels, 28 cents per pound; oats, 3 cents per pound, all prepaid, cash in advance.

THE WOMEN'S INSTITUTES.

The regular monthly meeting of the Summerland Women's Institute was held in the parlor of the Men's Club on Friday, February 19th, at three o'clock, with an attendance of 49. The motto for the month was given by Mrs R. M. Ross, being taken from Van Dyke's "Footpath to Peace," namely: "To be satisfied with our possessions but not content with ourselves till we have made the best of them." Mrs Solly kindly gave a list of the recent events for the month.

The matter of distributing our fruit through prairie Institutes was brought before the members by Mrs Fosbery, and it was thought a good plan, and will be further dealt with when Mrs Fosbery hears from the different prairie Institutes, with which she is now in communication.

Rev. H. A. Solly gave a very interesting address on "The Causes of the Present War." He explained clearly how the different nations had been drawn into it. Mr Solly had a very attentive audience, as the subject is one that appeals to all. He was given a very hearty vote of thanks at the conclusion of his address.

Quite a pretty display of hyacinths were on view, and during the afternoon these were disposed of among the ladies, bringing in the sum of \$7.20. Afternoon tea was served, for which each paid ten cents, the returns for which were handed over to the Ambulance Society.

Yesterday brought the conclusion of the cooking classes which Miss Bertha Livingstone has been conducting in connection with the two Women's Institutes for the past three weeks. The West Summerland ladies have been attending in very good numbers at the High School building, "Broad Day," this week drawing an exceptional attendance. The ladies were not disappointed in any way, for Miss Livingstone drew out from the oven the most appetizing looking loaves of life's staff. At the closing session yesterday afternoon, the proceedings took the nature of a tea and social gathering after the work of the demonstration had been gone through. A hearty vote of thanks was accorded Miss Livingstone for her painstaking and thorough instruction, and another resolution of thanks to the government was also passed. Members of the Central and High School teaching staffs were invited to join the Institute for the social hour, at the close of which Miss Livingstone left for Penticton, where she continues her work.

It is safe to say that the majority of the homes at all accessible to these classes have been represented, and there are few indeed who have not benefited. With household commodities steadily rising in price, a thorough and extensive know-

(Continued on page 5.)

Poultry Association Holds Annual Meeting

Large And Enthusiastic Gathering Of Members Discuss Future Policy.

Now a Mercantile Concern.

Exporting Eggs In Encouraging Quantity, And Buying Feed In Car-lots For Members.

There is not a more live organization in our community to-day than the Summerland Poultry Association. Along toward the end of each year for some years that organization has spasmodically manifested a good deal of energy in putting up its annual show, and it has the credit of being one of the best local poultry shows in the province. Later, however, the organization is taking a more practical form, and has entered quite extensively into the exporting of eggs, thus meeting the wishes of the utility man as well as the fancier. This has resulted in a very much larger membership, and a vigorous wide-awake association that gives every indication of permanency.

At the annual meeting of the association, held on Tuesday evening in the office of the Secretary, Mr C. N. Borton, the commercial side of the poultry business occupied most of the time, though the show was not overlooked. Present were a large number of poultry men, with President Bristow in the chair. The auditor's report, accompanying the financial statement, recommended engaging a paid secretary-treasurer, as with the present prospect of exporting eggs and importing feed, the clerical work involved would be considerable. This recommendation was adopted, and upon W. J. Beattie offering to handle the feed at a 4 per cent. basis instead of 5 per cent., it was agreed that the secretary be paid on the basis of 1 per cent. of the business done.

Elections resulted as follows: Honorary President, Hon. Price Ellison, Minister of Agriculture, Hon. Vice-President, Mr R. H. Helmer, Supt. of Experimental Farm. President, Mr H. Bristow. Vice-President, Mr J. Aldridge.

Sec.-Treas., Mr C. N. Borton. Executive, Messrs A. H. Mulford, C. J. Thomson, J. H. Bowering, R. Johnston, and P. Holder. Show Supt., H. Bristow.

Upon motion carried unanimously, the directors were authorized to borrow such money as would be required to pay those members preferring prompt payment for their eggs, it being understood that a smaller price would be paid to cover the expense involved.

Called upon, Supt Helmer of the Experimental Farm stated that his plans for poultry were not yet complete, but he proposed getting into that line as soon as possible. He took the opportunity of congratulating the association on the good work it had already done. He looked upon poultry as an excellent adjunct of fruit growing, giving as it does, practically an all the year round cash income.

Mr C. J. Thomson, questioning an item of \$85 paid last year for Show Judge, said that on more than one occasion he had been promised by the Minister of Agriculture that the Poultry Association would be provided with a Judge free of charge as are other exhibitions, and proposed a strong resolution urging that the department henceforth provide the Judge. This was promptly seconded and carried unanimously.

The necessity of bringing in only clean, strictly fresh, non-fertile eggs was emphasized, and resulted in a discussion as to what could be done with good fresh eggs, the surplus from breeding pen. It was finally decided that the strictly high-standard be maintained in the association's first quality grade, and that the secretary look about for a market for good eggs of the more ordinary quality.

Central Agency Proposes Some Changes of Policy

More Direct Selling, Reduced Cost Of Package, And Smaller Central Expenses.

A HINT TO LOCALS.

Fortunately Not Particularly Applicable Here.

Shareholders of the various local associations affiliated with the Okanagan United Growers have been furnished with a copy of a circular outlining certain proposals for their consideration, pertaining to future policy and other matters affecting 1915 business.

Cheaper packages, advance agents for direct selling of soft fruits, working arrangements with shippers not affiliated with the Central, efforts to bring producer and consumer into closer contact, are recommendations from the directors of the various locals who met at Vernon.

The matter of future policy was left with the Central Board, which has prepared the following outline:

1. That earnest efforts be made to arrange a working basis with our competitors as to selling policy and prices.
2. That we have our own offices located at Vancouver, Calgary and Regina.
3. That we sell our own goods.
4. That garden truck and early soft fruits be placed direct with the retail trade by our own salesman so far as possible.
5. That we sell our main earload crop to the regular wholesale

trade on an f.o.b. shipping point basis.

6. That no goods unsold be shipped out except to our own salesman.

7. That cheaper packages be used especially in handling "orchard run" or "off" varieties of apples. Baskets will also be used in making experiment shipments of sour cherries, small plums, early apples and crabapples.

8. That our export markets be extended.

9. That expenses in the Central be reduced to the lowest possible consistent with efficiency.

10. That the local associations be required to exercise such supervision over expenses as will ensure the maximum of efficiency for the minimum of cost.

The above policy will not go as far as some would like, and further than others think we should go. We have recently received prices on box material which are much lower than last year. With reduced cost of operations, in local and central the future looks fair for better returns to you than you have yet had. Increased volume will materially assist, let each one do their part to build by helpful criticism.

FRIDAY, FEBRUARY 26, 1915.

"PATRIOTISM AND PRODUCTION."

WITH the very laudable object of opening the eyes of Canadian farmers to the enlarged markets for their produce the Dominion Government has opened a nation-wide campaign of conferences between farming experts and the men actually on the land. Preliminary announcements of the meeting to be held in Summerland appeared in our issue of two weeks ago. Last week and this the official advertisement of the Department of Agriculture occupies space in our advertising columns.

The war in Europe has taken millions of men from the ranks of agricultural producers and made them heavy consumers. This is going to tax the resources of the acres of unembroidered countries of the world, and the Canadian Government rightly feels that this country has something coming to it from this unique position.

"Patriotism and Production" is the slogan of the campaign, and pithily explains the aims of the meetings. By thus taking up the question with the farmers it is hoped to make it plain that the farmer and Canada as a whole will be greatly benefitted by increased agricultural productions just at this time.

This district is just beginning to take up seriously with mixed farming, and those who are interested—and that should be everyone—should not fail to meet the speakers at the conference announced.

APPLE PRICES.

INSPECTOR CUNNINGHAM, in a recent communication to his local representative, Mr H. H. Creese, states that apples have been coming in from Washington to Vancouver during the month of February at the rate of more than a car per day. This statement is substantiated by Vancouver market reports. Mr Cunningham states further that these imported apples are bringing from \$1.50 to \$2 per box, and uses this as an argument supporting his contention that apples should be stored at the point of production, and released only as the market requires and prices warrant. This method is doubtless the proper one, and as far as the Vancouver market is concerned will no doubt be more generally practised here when more direct communication with the Coast is opened up.

An entirely different story of the prices being paid is given by Mr J. J. Mitchell, who has just returned from Vancouver, from an unsuccessful visit to that city for the purpose of disposing of a car or two of high grade apples. Mr Mitchell offered his apples at 95c. f.o.b. here, which is equal to \$1.15 f.o.b. Vancouver. Whether it was because his brand was unknown and that he might have obtained a higher price if sold under the "O.K." label is a question. Mr Mitchell confirms Mr Cunningham's statement that only American apples are to be had there, but he was told that these are being imported at a cost to the buyers of about 85c. This figure is considerably below that of published market quotations for car lots.

Whether it is because the price does not tempt, or Vancouver buyers prefer American apples, we learn that there are in the hands of the Okanagan United Growers some 10 or 12 carloads of apples to be sold. These are possibly being held with the anticipation of placing them on the prairies, where better prices seem to prevail, as according to a recent communication from a Calgary subscriber, No. 2 American apples are bringing \$1.50. This is probably the retail price. \$1.25 to \$1.35 is the retail price at Vancouver as reported by Mr Mitchell.

THE COST OF STREET LIGHTING.

AT THE last regular meeting of the Municipal Council the Accountant asked that the Council fix a rate at which the electric light plant would be credited for current consumed for street lighting. The figures submitted reveal a need for the revision.

With the present number of lights, and allowing nothing for wastage in transmission, over 12,000 watts are required for street lighting purposes. For all the current consumed during 1914 for street lighting the plant received a credit of only \$180. Were this same charge to be made for 1915 it would work out at a rate of 1 1/2c. per watt, as against 15 gross charged to the public.

It should not be difficult to arrive at a more equitable method of charging than that which has heretofore existed. It would appear that the present street lighting is consuming one-tenth of the possible output of the 30 kilowatt dynamo now in use. The net cost of production last year totalled \$3,095.59. One-tenth of this, in round numbers, would show a cost for street lighting of \$309.56. Had this amount been credited to the plant last year, instead of the \$180, there would have been a net profit of \$539 in the year's operations, earned from rates charged private consumers; which works out at a rate of practically 20 per cent. profit on the current sold to the public. The charge of \$300 per annum would be at rate of 2 1/2c. on the 12,000 watts used for street lighting. The net retail price for current has been 12 1/2c. It would seem but fair, in justice to that public utility, and to keep the true condition of its earnings and expenses before the people, that the cost of production per unit be ascertained and the plant be given credit, at cost at least, for the current used, for municipal purposes. Only in this way will it be known when and how far extensions may profitably be made.

IT HAS BEEN estimated by a competent official of the Grain Growers' Grain Company that with an average good crop the province of Alberta will realize in 1915 the sum of one hundred million dollars for their efforts of the season. This will be much the largest income for any year in Alberta's history, and with the great expansion of pur-

chasing power of farmers which will result, promises increased activity in all lines of business. What is good for Alberta in this connection will also make itself felt in British Columbia, and so in the Okanagan. A larger income in that province means a larger sale in that market for our fruit, and a reasonable hope of getting a firmer hold on the farmers for the product of this Valley in preference to American produce.

SPEAKING at the 1915 annual meeting of the Canadian Commission of Conservation, Dr C. C. James said in referring to the "Patriotism and Production" campaign:—

"The call is for more food. . . . What we want to understand is that it is millions of bushels, not millions of acres, that are called for; more milk and butter and cheese, rather than more cows. It is a day when the economized use of labor will tell. . . . Let us remember that it is more bushels per acre, more pounds of milk per cow, more pounds of meat per animal, that will count, and that will mean more food per farm. Let us in 1915 make good on the farmer's fighting line with "MORE THAN USUAL." These words are equally applicable to Okanagan's fruit growing industry. It does not seem possible to very materially reduce the cost per acre of production, but there is yet a great opportunity to very much increase the yield, thus greatly reducing the cost of production per package or ton. This will be brought about by a rigorous weeding out of unprofitable trees and varieties, and bringing to a higher state of production those that remain, making use of every inch of soil as well as making the farm more self-sustaining by producing milk, cream and butter (and the raw materials from which to produce these) as well as the feeding of a few pigs and chickens on what would otherwise be largely waste material. An output of more dollars per acre can be brought about more rapidly and surely by increased efficiency than by an effort to obtain better prices, which, by-the-way, are likely to come too through various efforts now being exerted.

BASKETBALL

LEAGUE STANDING.

Seniors.				
	Played	Won	Per-centage	Points For Agst
Town	15	9	60.0	315 216
College	14	8	57.1	259 226
West	15	5	33.3	217 325
Intermediates.				
Town	15	9	60.0	237 170
College	14	7	50.0	190 170
West	15	7	46.6	210 291

Both College teams made good in the games last Friday, their opponents being the Wests, who are thus left further behind still in the league tables.

The College intermediates won out with a score of 16-11. They did most of their point-getting work in the first stretch, when they got in 11 points to count, while for the Wests, Logie did all the scoring, which consisted of but three points collected on fouls. The College scorers thus far had been L. Bent with two fields and a foul, Jennings one field and three fouls, and K. Elliott with one foul. In the second half, the Wests revived considerably, strengthened by the presence of D. Stewart, who appeared at guard. They did more scoring than the College, but not enough to change a defeat into a victory. Logie did most of the good work by getting in three baskets from the field, and B. Steuart was successful once. For the College boys, Bent made one more field basket, and Jennings also one and another foul, accounting for the entire score. These teams were:

College	for.	Wests
B. Elliott	for.	E. Logie
L. Bent	..	C. Elsey
H. Jennings	cen.	B. Steuart
K. Elliott	gd.	Ken Elliott
Anderson	..	and D. Steuart
		E. Bent

In the senior game, the boys seemed to have difficulty in locating the net. By half time each team had only been able to put the ball in from the field once. Rae broke into the game again after being out of it for some time on account of his foot, and though he showed up well, he did not shoot as earlier in the season. He made the first basket for the Wests on Friday, their only one in the first twenty minutes. McLeod made a penalty shot go right for the College, but

the Wests held a 2-1 lead for about twelve or fifteen minutes before McLeod made two more points count for the College. All through this half the Wests seemed to have a shade the better of the play, but apparently they were not in shooting trim. After the interval the College team livened up and gave the spectators something a little faster to look at, and the Wests were also able to make a little better showing, though the tables were turned on them as far as having most of the play went. McLeod with two baskets, Dale and Cochran with one apiece, and the latter one foul point, took the College total up to 12, while for the Wests Darkis and Rae shot in from the field, and Rae also made one point on a free shot. 12-7 was thus the end of the scoring. The teams:

College	for.	Wests
G. Dale	for.	R. Rae
M. Cochran	..	R. Darkis
J. McLeod	cen.	W. Mumm
C. Riley	gd.	D. Steuart
A. Vanderburg	..	G. D. Fisher

Only one game is on this week, College and Town being the contenders, in the College Gymnasium this evening. A good deal depends on it, since at present the College boys, with a game in hand, have one win less than the Town chalked up. If they let the Town get the game to-night, it will need some pretty constant winning for them afterwards to make any change in the league table. West Summerland, although it seems that their championship chances have now faded almost to vanishing, are still a factor to be reckoned with, and may make the position of the Town and College very uncertain by recording some wins in their remaining games.

A challenge recently sent to Pentiction from the Town club will probably result in a game being played some time next week, when the two Town teams will journey down to that city and try conclusions. The intermediates will meet the High School team, and the seniors will be up against the Bankers. This is the first outside away from home fixture this season, and it is to be hoped that the Town boys will do themselves credit, though the Aquatic Club floor is said to present some conditions that the visitors may find something of a handicap.

Public Meeting

Under the auspices of the Farmers' Institute, will be held in the HIGH SCHOOL ROOM, on

Tuesday Evening, March 2, at 8 p.m.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C., February 23, 1915.

The Editor, Summerland Review.

Dear Sir,

While I am always glad to see municipal matters fully reported, I object to the account of the special Council Meeting, as reported by you in your last week's issue, as grossly unfair to me. You are profuse in explaining the position and demands of Mr Logie, but make no mention of my reply to that gentleman, that, whereas the Council was holding back 25 per cent., as per contract, and the time within which any claims for wages and materials could affect the Municipality had long since passed, it was not concerned about my wage or material lists.

As a contractor I am aware that liens for wages may be filed within 30 days, and for materials within 10 days, and I explained this fully to Mr Logie and the Council. The enquiries at the Municipal Hall, mentioned by Mr Logie, were in no sense claims for liens, but were merely a result of the waiting which a lot of people have had to do because of the Council having no money for some time, with which to pay its debts.

Mr Logie made no requests for pay sheets or statements in November, when my work was in full blast and considerable sums were owing, but after I had had the burden of waiting months for my money, and been forced to finance my expenses independently of the Municipality, he then springs a new demand, in a peremptory way, when he had no legal right to do so, as the works were closed down at the first of December, and no notice for any liens for wages or materials has ever been given the Municipality.

The idea of fairness, conceived by Mr Logie, is that I should be kept out of my money for months and then be put to all the bother he could think of, whether he has any legal basis or not for his attitude.

I am sorry the Reeve had the extra trouble of calling a special meeting merely to oblige Mr Logie, but his doing so was due to the stubbornness of Mr Logie and not of myself.

The underlying cause of such incidents is because Mr Logie is intoxicated with the wine of his own conceit and vanity, and his consequent desire to run nearly everything and everybody in the Council of 1915, as he has tried, and pretty well succeeded in doing, for years. We are all aware that Mr Logie is a wise man, and when he is gone all wisdom will have vanished from off the face of the earth, but still, it is just possible, that the Municipality may survive the shock.

As a contractor I have always tried to live up to my full obligations, and my record along that line in Summerland can stand on its own merits.

Yours truly, T. J. M'ALPIN.

Summerland, B.C., February 25, 1915.

The Editor, Summerland Review.

Dear Sir,

I want to give a suggestion to those interested in the quality of live stock, particularly of the cows of this district.

We are soon to have call upon us again in his official capacity Dr Tolmie, who, I understand has charge of the distribution of breeding stock from the government to Live-stock Associations.

We have standing here for service an animal which any good breeder of holstein cattle would class as common to inferior, and whose dam gave milk testing only 8 per cent. fat.

This animal was Dr Tolmie's selection to stand in a community where it is known that cows of only first-class capacity can profitably be kept. The breeders have no option. He must be used; which means that all his offspring, in other words, all, or nearly all, the young cows two years hence will be of that unprofitable type which are an expense to keep rather than a benefit to Summerland. The breed is all right, but if the government selection is no better than our present specimen, 'twere better we should buy for ourselves, or interest a good breeder in our case.

Dr Tolmie should be asked to make a change, and unless a bull of good standing be guaranteed, better take some other steps to supply the demand.

Yours truly, OBSERVER.

Checker Honors Went To Wests.

When the return checker tournament between the team of five players representing the Town and West Summerland sections was played off last Friday evening, the West players were successful in reversing the result of the first set of games. The tournament took place at the home of Mr and Mrs. J. L. Hilborn, and the games, as a whole, were better contested. The reckoning after each man had played his five games, showed 11 wins for West Summerland, as against 9 for the Town. Only five games of the twenty-five were drawn, and two men, Messrs S. B. Snider and C. E. McCutcheon, succeeded in escaping defeat during the evening. The former also took the additional honor of making the greatest number of individual wins recorded, getting the better in four of his five games.

At the close of the play the teams, with the few spectators who were present, were royally entertained by Mr and Mrs Hilborn, and a vote of thanks was endorsed very heartily, recording the appreciation of the kindness of their host and hostess that was felt.

A detailed result of the games played appears below:

West Summerland Players.			
	Won	Lost	Drawn
S. B. Snider	4	0	1
W. R. Thomson	2	2	1
J. L. Hilborn	2	2	1
Wm. Ritchie	2	2	1
R. B. Forsyth	1	3	1
Total	11	9	5

Town Players.			
	Won	Lost	Drawn
A. J. Beer	3	1	1
C. E. McCutcheon	2	0	3
G. N. Gartrell	2	3	0
A. Moyes	1	3	1
W. H. Treffry	1	4	0
Total	9	11	5

AMBULANCE ASSOCIATION OPENING BIG HOSPITAL.

The St John Ambulance Brigade Hospital is the proposed name of a hospital of 525 beds being established by the St John Ambulance Association, with the approval of the Army Council.

An extra effort is now being made to finance this undertaking. It is estimated that each bed will cost £100 for the year, and members and friends of the association are now being circularized. Any person contributing \$500 will have a bed bearing his or her name. Similarly any town or city or province as a whole may contribute sufficient to have a bed or beds dedicated to them.

The appeal states further that if each one of the two thousand members contribute \$1 or more they would have the privilege, at a very small cost, of contributing to the welfare of those who have bravely gone to the front.

No doubt many of our Canadians will be wounded, and it will be a satisfaction to know that we are helping in no small way to relieve their suffering.

The B.C. Council hope that all contributions will be in by the end of this month. Mr C. A. Marshall is the Honorary Secretary of the local branch.

A GIFT BASKET FOR A BRIDE-TO-BE.

The approaching marriage of Miss Adelaide, youngest daughter of Mr and Mrs James Hayward of Naramata, to Mr E. P. Thorne of Vancouver, was the raison d'etre for a special party at the Unity Club last Friday afternoon. Mrs George Wolstencroft, as matron of arrangements, planned a novel and picturesque setting of the bride-to-be in the handsome club room. Several decorations of pink and white, showing Valentine hearts among peaceful foliage, added to the beauty of the scene, and a floral throne upon a draped dais, reached by a flower-screened path, was prepared for the guest of honor. As Miss Hayward entered the room a marching chorus was sung by her girl companions, with original verses suitable to the occasion. Following her were two little maids, Margaret Mitchell and Kathleen Mulford, dressed in dainty white frocks, decked with hearts, carrying between them a huge clothes basket filled with gifts. After an exchange of poetic greetings, it became the pleasure of the two wee maidens to take the gifts from their hiding place and present them to the bride-elect. A choice array of those home possessions—cherished alike by maid and married—were received and admired, and a gracious word of acceptance spoken by the recipient. High tea of salads, sandwiches and sweets, was served from small tables, Mrs Hayward, the matron of honor, presiding at the tea tray over all; and farewelled with words of congratulation and wishes for happiness and prosperity, Miss Hayward waved adieu as evening drew near, and the party dispersed.

Mrs H. B. Burtch of Peachland spent part of last week with her mother, Mrs James Hayward.

At the meeting of the Summerland Women's Institute, held on Friday the 19th, Mrs Lipsett, member of the Government Advisory Board, reported that word had been received from the Hon. W. E. Scott, Superintendent of Institutes, that it was not out of order for a woman to be a member of more than one branch of the Women's Institute in B.C. A motion was carried unanimously that Naramatians who had paid their fees to the Summerland Institute for this year should be refunded their money if they desired membership only with the Naramata Institute, now in process of organization.

NEXT TUESDAY'S LITERARY.

The meeting of the Literary Club next Monday evening promises great interest. Short talks on outstanding characters of Anglo-Saxon history will be given by Miss Margaret Stewart Gordon, Mrs Morsch, Mrs D. Ogden Hughes, Mrs Howard Rounds, Mr Peter Roe, and Mr Dean Walters. Mesdames Mark and Fred Manchester and Miss Minnie Block will give piano selections, and Mr Mulford will play upon the trombone. The executive and program committee will meet at half past seven in Mr Beatty's study adjoining the assembly hall, and the meeting proper will begin promptly at eight o'clock.

Current Events — OF — Town & District

The marriage of Miss Adelaide Hayward and Mr E. P. Thorne will be solemnized in Vancouver on the morning of Tuesday, the 2nd day of March.

The illness of Mrs E. P. Roe during the latter part of the week past, and on until within the last day or two, caused much anxiety to her immediate family connection, and to the members of the Naramata community at large.

The Boy Scouts printed their own tickets, and type-wrote their own programmes for their last night's entertainment, an account of which will appear in next week's paper. Miss Anna Hayes and Mr T. G. Beavis of Summerland were soloists, and Mrs J. R. Mitchell of Penticton, sang.

Mrs T. E. Clay of Summerland spent last Thursday with friends in Naramata, and was one of the guests at a bright afternoon tea party given by Mrs H. T. Davis of the Outlook Orchard. Other guests who enjoyed Mrs Davies' hospitality were Mrs Pushman, Mrs Hughes, and Miss Margaret Gordon.

Talking of nuts that will grow in the Okanagan—why not try Filberts? There are Filbert plantations in Oregon and Washington, and they grow plentifully in Eastern Canada. The Lambert, Casford and Du Chilly are considered the best for this climate, and can be obtained from British Columbia nurserymen.

Mr T. H. Boothe is at home again after an absence of more than a month, during which time he travelled extensively over British Columbia, and, along with his business successes, picked up the nucleus of some thrilling life stories which we may expect to read over his signature before very long. Mr Boothe's homing is, for the present, only a visit. He expects to leave on further travellings within a few days.

COCKERELS of QUALITY.

I have a few White Leghorn Cockerels from hens of the famous TANCRED STRAIN, mated to TOM BARRON males, which I am offering at \$3 each.

Sisters of these have proved wonderful layers. In December, 22 out of 26 pullets averaged 19 eggs each in one month! QUALITY all right!

Limited number of Settings at \$2.50.

"PEARLS FOR THE THIRTIETH."

Quiet Celebration Of Wedding Anniversary.

The celebration of Mr and Mrs John Noyes' pearl wedding anniversary had been a looked-forward-to event for some weeks by their many relatives in Naramata, but Mr Noyes' unexpected absence from home, together with the anxiety caused by Mrs E. P. Roe's illness, brought a day of unusual quietness for February 21st. But on Tuesday Mrs Roe, mother of Mrs Noyes, had sufficiently recovered to take part in a surprise giving to Mrs Noyes, and, early in the evening, members of the connection gathered in Mrs Roe's apartments at the Syndica where the presentation of a handsome pearl ring and pearl cuff links were made to the 30th celebrants, Mrs Noyes having to accept and give thanks for her husband as well as for herself. A characteristic address was written for the occasion by Mr Fred Lorne Roe of Penticton, and relatives of both Mr and Mrs Noyes from many places on the continent sent gifts of pearl and words of greeting. A fun-filled evening was spent with a supper of home-made delicacies prepared by Mrs Noyes' sisters.

ROBINSON AVENUE BEAUTIFIED.

Mr T. H. Boothe has been wood-fencing and clearing his lot on Robinson Avenue, preparatory to making a garden of it for summer beauty and use. Mr Mulford has planned a screen of sweet peas for shading and color, and will plant shrubs and flowers about his premises. The ex-K.V.R. building and adjoining nurses' home are to be planted about with vines and flowers, and the vacant grounds adjoining the two will be gay with blossoms. These are the first indications of the advantages of the recently passed Herd law.

The members of the Epworth League were entertainers last Friday evening, when they invited the grown people of Naramata to supper, a bright program and games in the church assembly hall.

Every morning this week special meetings for prayer have been held in the church building from ten until eleven o'clock. These meetings will continue during the coming week and may extend to evening services of song, intercession and praise.

Much interest has been expressed by women who live on ranches on this side of the water in Mrs W. C. W. Fosbery's idea of marketing fruit through the co-operation of the Women's Institutes of the Southern Okanagan with the Women's Institutes of the Prairie Provinces. This question will likely be the first to be discussed following the inauguration of the Naramata Women's Institute.

AUCTION SALE, NARAMATA, B.C.

H. W. ENDACOTT, who is leaving the district, will sell by auction on Thursday, March 4th next:

Passing Events: Social, Personal, &c.

Mr W. J. Gerbracht of Nelson, C.P.R. auditor, paid Summerland one of his periodical visits, being registered at the Felix.

After a visit of about two months in Rossland, B.C., Miss Olga Watson returned to her home here on Thursday of this week.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work specialty. tf

The services in the Baptist Church will be held as usual at 10.30 a.m. and 7 p.m. In the evening the pastor will speak on "The Place of the College in Human Life."

Mrs F. W. Andrew has been a patient at the hospital since last week-end. On Sunday last she underwent an operation for appendicitis, from which she has since been making a splendid recovery.

Mr F. V. Stuart, Mrs H. C. Watson and Miss Watson were a party here from Calgary for a day or two at the first of the week, guests at the Felix. While here they looked over a few orchard propositions.

Friends of Mr J. R. Tate have been greatly distressed this week over the spell of aberration from which he is now suffering. It has developed possibly from over worry, and all join in wishing for him the speediest of recoveries.

Mr and Mrs Frank Marshall of Hotel Summerland invited a few friends on Monday evening to a small card party arranged to signalize the birthday of Mr G. L. Sinclair. The evening was passed very enjoyably, Mr and Mrs Marshall well maintaining their high reputation as entertainers.

A start has been made in establishing the permanent equipment of the Experimental Farm. Supt. Helmer has this week purchased three teams, harness and wagon, for use on the Farm, and temporary buildings for their accommodation have been put up. This mild weather will probably soon allow work to recommence on the land in earnest.

Recruiting has been going on this week in Penticton for the Third Canadian Contingent. Something over twenty men have been enrolled at that point, of the one hundred called for from the Valley. Several went down from Summerland to make enlistment, but none were successful for various reasons. Frank H. Hayward was a Naramata boy who got through, and he will leave with the rest of the company for Victoria early next week.

Messrs. Simington, Stockton and Thomas, prominent members of the Mutual Brokerage Company, the extensive fruit operators in the Canadian North-west, have been through the Valley this week, on what they termed a trip of explanation, to make clear their position in the fruit marketing situation. They were very guarded in all their statements respecting past operations, and gave out nothing of importance in regard to plans for the coming season.

Mr S. A. Denike, of Balcom, has now almost recovered from his recent mishap from which he sustained a somewhat severe cut behind the ear, besides bruises and minor sprains to his chest, shoulder and back. He had reached home with a load of logs on a sleigh, when from some unexplained reason the load of logs tipped over and threw him off. Mr Denike was able to unhitch the team and put the horses in the barn, and then went into the house and laid down. It was not till then that his injuries became apparent. From the time of the accident and during the time of unhitching, Mr Denike was in a semi-conscious condition, and can now remember nothing of what transpired for some three hours or more.

Two prominent Jones Flat orchardists whose illnesses have been causing a good deal of anxiety of late are Messrs G. W. McLaren and R. H. Stewart. Mr McLaren has fortunately shown a decided improvement during the last few days, but Mr Stewart still remains in a low state of health. Another invalid also making a fair way to recovery is Mr W. H. Milligan, who has been lying ill at the home of Mr and Mrs Fosbery for some days.

Any newspaper is the companion and friend of the family, but the local paper is the one identified with the interests of the home. It is conducted by those whom you know, its columns are filled with what is of special value to you. In its prosperity you have a vital interest, and to its prosperity you can best contribute by giving your support and patronage. It is your neighbor. Your duty is first to know your wants. Its interests are your interests. It is your friend in preference to any and all others. No outside or foreign paper can possibly have claims upon you until your duty is discharged to the local journal.

Homeliness is a virtue that only pretty girls can appreciate.

Dr Knox of Kelowna was in town for a day or two over the week-end.

Mr J. J. Mitchell returned at the first of the week from a trip of about a week to the Coast.

The Misses Robinson and Mr J. O. Robinson of Naramata will be guests of Dr and Mrs R. C. Lipssett over this week-end.

Are your plows, cultivators and harrows ready for spring work? If not, better bring them in now for repairs. W. K. Shields. f5-26

A professional visit brought Dr H. McGregor up from Penticton last Sunday. Mrs McGregor and family accompanied him, and they made a stay at the Felix.

Miss M. Blott was an arrival on the "Sicamous" last Friday evening. She is making a stay for two or three weeks at the home of her sister, Mrs F. W. Andrew.

Work has been commenced this week by Mr Bert Harvey on the new Anglican Parish Hall, which is being erected on the church property a few feet east of St Stephen's.

Mr S. Angove has not been in the grocery department of the Supply Company's Town store this week, indisposition enforcing a rest on his part for a few days. He expects to be about again next week.

Mrs T. H. Behan and her sister, Miss M. Conway are leaving on Monday on their way to Mr Behan's camp in the Hope Mountains. They leave the C.P.R. main line at Hope to approach the camp, and the last stage of their journey will be an eight mile tramp over the snow.

TELEPHONE SUBSCRIBERS please note that Central may be asked at what time the Boat left Kelowna or Peachland, as the case may be. PLEASE REMEMBER that Central is busy towards six o'clock, and cannot answer other questions or give explanations. O. ATKINS, Manager. f19-26

Methodist Church services will be conducted on Sunday next by the Rev. R. W. Lee. At the morning service the subject of discourse will be "Perfect Through Suffering." The evening service will be held in St Andrew's Church, the subject of address being "The Tragedy of the Ten Talent Men, and their Recovery." All are invited.

The revival of the popular game of checkers as a community recreation shows no sign of abatement; on the contrary, it is spreading. Another tournament has been arranged to be played off to-night at West Summerland, when a squad of players from that club will respond to a challenge from Upper Trout Creek, and play a tournament encounter of twenty-five games.

A tragic coincidence was made known to Mr John Stark this week in a letter from Scotland, which told of the death of two of his sisters, who died within a week of each other. A third sister, the late Mrs J. Steven, passed away here at the hospital a few weeks back, it will be recalled. The relatives here will have the sympathy of a good many friends in their fresh and dual bereavement.

FITTING MEMORIAL SERVICE For Founder of W.C.T.U.

The "Frances Willard Memorial Day" was observed by the local W.C.T.U. on Sunday afternoon in St Andrew's Church. In the absence of the President, Mrs Roe of Naramata, Mrs C. H. Daly presided at the meeting.

Mrs Coulter White and Mrs T. N. Ritchie assisted in the devotional exercises. Mrs White gave a helpful Bible reading on Deborah, emphasizing the thought that God is always preparing someone for leadership in the great crises of life.

A paper on "Madame Willard," read by Miss Ballantine, showed the great part played by heredity and early training in the formation of character.

The Life and Work of Frances Willard was the subject of an interesting paper read by Mrs W. C. Kelley, and another paper "Some Lessons from a Wonderful Life" was read by Mrs Shields.

Variety was given the program by two very pleasing solos given by Miss Clay and Miss Hayes.

The closing paper, which was very interesting and instructive, was given by Mrs N. McNaughton on "The Progress of the Temperance Movement," showing what had been accomplished by the forces set in motion during the lifetime of Frances Willard, and what we owe to one who spent her life for the uplift of humanity.

The regular monthly meeting of the W.C.T.U. will be held in the Men's Club on Monday, March 1st, at three o'clock. As it is a mother's meeting, a cordial invitation is extended to all ladies.

With a good enrolment the Packing School conducted annually by the Provincial Government, under the auspices of the Farmers' Institute, will commence to-day, Friday, in the High School building. The instructor is J. Lawler, of the Summerland Fruit Union.

Miss Amy Brown reached home again at the end of last week after about two weeks spent at Vernon with her sister, Mrs G. A. McLaine. Miss Brown is leaving shortly for the East, where she intends to pay some visits before she enters upon her work in the Toronto General Hospital about the first of April.

A medicine cabinet for the dispensary at the new hospital is greatly needed. The Review, in making this simple announcement, does so in the hope that some generously disposed cabinet maker will offer to satisfy the need of our worthy public institution, which is doing so much to alleviate suffering and provide comfortable surroundings for those who are laid aside for a time by sickness.

A notoriously difficult turn for any vehicle to negotiate has been that at the lower end of the road which drops off Jones Flat to the lower road opposite the W. C. W. Fosbery orchard. This turn has been greatly improved during the past week by the work of municipal men who have widened the lower road at this spot about ten or twelve feet, by building it up, and scooping out the bank, thus permitting a wider and altogether easier turn for rigs of all kinds.

The Review has been asked by Mr C. H. Cordy to explain just why he consented to act as chairman at the farming conference to be held next Monday. When the meeting was being arranged for, Mr Cordy says, an effort was made by the officials, who were guests at the Felix, to get in connection by phone with certain suggested agriculturists, but without success.

It was suggested to the officials that the meeting be held under the auspices of some of the societies, but it seemed difficult for them to decide on any one society, and fearing dissatisfaction, it was urged upon Mr Cordy as an outside man to preside.

How Much Water?

Official Statistics On Quantity Of Water Required To Produce Various Crops.

A government station in Colorado has been making some interesting experiments in respect to the amount of water, in pounds, required to mature one pound of crop. There has been considerable discussion locally as to the relatively increased amount of water required to produce alfalfa and other crops in our orchards. Unfortunately the investigation did not include tree fruits; however, some of the results will be found extremely interesting. To produce 1 lb. of Corn, from 315 to 413 lbs. of water was required, according to variety of seed used. Wheat, 478 to 550 lbs. Oats, 559 to 622 lbs. Potatoes, 554 lbs. Water Melon, 600 lbs. Cantaloupe, 621 lbs. Cucumber, 713 lbs. Sweet Clover, 770 lbs. Field Peas, 775 lbs. Navy Beans, 682 lbs. Hairy Vetch, 600 lbs. Red Clover, 780 lbs. Alfalfa, 844 lbs. These figures refer to the amount of water required to produce a unit amount of dried or cured crop. It was shown that 3 lbs. of Millet or Sorghum can be produced with the same amount of water as 1 lb. of Alfalfa.

The Washington Agriculture Experiment Station at Pullman has just issued a bulletin on Fireblight in poster form. In this, blight is described as the greatest danger of the fruit industry, and its "great white plague." In the United States it causes the loss of twenty-five million dollars annually. The disease is pronounced a preventable one, and can be controlled. Inspection is necessary, give the inspectors your support. Cleaning up the hold-over blight is the best means of prevention. The only known way to control blight is by surgery. Combat the insects. Protect the birds. Insects are carriers of blight, birds are the natural enemies of insects. Avoid excessive watering of trees. Blight fighting is a community matter. Organize and go after it. Winter is the best time to fight the disease. Eternal vigilance is the price of clean orchards."

Municipality Of Summerland.

By-Law No. 58.

Sec. 5. It shall be unlawful for any person to sell or deal in milk or cream by wholesale or retail in the Municipality without first having obtained a license so to do.

Sec. 7. Any person desiring to sell or deal in milk or cream by retail, shall make application for same in writing to the Municipal Collector, who shall issue a license only after the Sanitary Inspector has inspected the premises of the applicant and reported favorably thereupon.

Sec. 8. The fee for any license granted under this By-law shall be fifty cents for each cow owned or controlled by the license holder, and each license shall terminate on the thirty-first day of December in each year.

The above sections of By-law No. 58 are to be strictly enforced by the Sanitary Inspector, and any parties selling milk or cream without a license will be liable to summary conviction unless the above sections of said By-law are at once complied with.

J. L. LOGIE, Municipal Clerk.

Bargains Bargains

As Assignee of Woodworth Estate, and as Solicitor for other Estates, I have some fine bargains in Horses, Wagons and Harness; also Cadillac Automobile for sale. Some choice Orchard Lands and Town Property.

Low Prices and Easy Terms. W. C. KELLEY, Barrister, West Summerland.

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.

Nutritious Lenten Dishes

Those who abstain from eating meats during Lent are looking for wholesome foods to take their places. We have selected the following lines which we can offer as the very best of substitutes.

Codfish (Boneless).

Tasty and nutritious, this brand was used by Miss Livingstone at her recent cooking demonstrations—
40 cents per 2 lb. box.

Canned Salmon.

One of the most nourishing of all fish foods. Can be served in many tasty ways. We carry the finest Sockeye Salmon on the market. Try a tin.
15 cents and 25 cents per tin.

Baked Beans.

No better substitute for meat. Place the can in boiling water a few minutes and you have a deliciously warm wholesome food.
10, 15 and 25 cent tins.

Canned Vegetables.

It's a long way to harvest time. Our goods are fresh and best quality.
Tomatoes and Peas, 3 cans 50c.
Corn and Beans, 3 cans 45c.

Macaroni.

A food of high value. Boiled alone or with cheese makes a wholesome dish.
Two packages 25 cents.

Rice.

A staple, nutritious food. Eat plenty of it.
3 lbs. 25 cents.

Don't Forget Pancakes.

We carry the best brands of Pancake Flour in 25 cent and 35 cent packages. Order a package and a bottle or can of our pure Maple Syrup at 65 cents.

Also in Stock: Sardines, Finnan Haddie, Lobster, Crab Meat and Fish Pastes.
ORANGES — GRAPEFRUIT — LEMONS

The Summerland Supply Co., Ltd.

"Patriotism and Production."
AN AGRICULTURAL CONFERENCE
Under the auspices of
The Dominion Department of Agriculture,
Will be held at
The Men's Club, Summerland,
at 2.30 p.m.
On Monday, March 1st.
Mr. C. H. CORDY will occupy the chair.
Agricultural conditions as affected by the war and the duty and opportunity of Canadian farmers will be fully discussed.
A cordial invitation is extended to all. Ladies welcome.

Newsy Paragraphs from PEACHLAND

Mr. Wm. Douglas is on the sick list at present.

W. J. Robinson of Summerland was in town on Friday.

Mrs. John McGregor was a visitor to Kelowna last Wednesday.

Mr. Huycke of Penticton was the guest of Chas. Somerville last week.

Alex. Seaton went to Penticton on Monday evening, returning on Tuesday morning.

Roy Smith of Westbank occupied the pulpit of the Baptist Church on Sunday evening last.

The Ambulance League has been preparing work this week for the regular meetings next week.

George Robinson returned on Thursday from a visit to his aunt, Mrs. R. C. Lipssett of Summerland.

Thos. Lawson of Victoria, late of Kelowna, addressed the fruit growers on marketing last Thursday.

Miss Adelaide Hayward's Naramata friends entertained her to a utility shower on Friday afternoon last.

Mrs. Wm. Logan, who spent the winter with her son, H. T., in town, left for Kelowna on Thursday morning.

The proceeds of the play, "A Scrap of Paper," being prepared for presentation on March 17th, are to be donated to the Athletic Club.

Rev. A. Henderson preached on "Poverty, its Causes and Cure," on Sunday morning in the Methodist Church. Mrs. George Lang sang "I Know He Watches Me."

Jas. Elliott and Thompson Elliott went to Westbank on Monday to bring down an engine to use with a circular saw in filling several wood orders which Jas. Elliott has on hand.

R. M. Winalow, Provincial Horticulturist, and J. Forsyth Smith, Market Commissioner, will address the fruit growers on Production

TO THE PUBLIC:

As there is apparent of late a marked prejudice against the name "Taube" because of the use by the Germans of an airship of that name, an explanation is perhaps not out of place just now. The word taube means in German a pigeon or dove, and it is because of the peculiar shape of that particular aeroplane that it bears the name taube.

Because of my name I have discovered a movement to deprive me of business, and in justice to myself let me give the following personal facts.

I am Swiss by birth, but a British subject by choice, having been a citizen of Canada since 1870, and my children and grandchildren are all natives of the city of Toronto. Further, I never was in Germany only when passing through to this country.

There is no more loyal citizen in Canada, even among the native born, than myself, and my fullest sympathies are certainly all and wholly with Britain and her Allies, as are all my former fellow countrymen in Switzerland, who at this moment are forced to keep constantly on guard lest they be "gobbled up" by the aggressive nation to the north.

Thanking all for past patronage, and hoping to continue to merit the same,

I remain,
Respectfully Yours,
S. L. TAUBE, O.D.
700 First St. West,
Calgary.

When the people do not see stores in the local papers, they read catalogues and send east for their goods.

Times are not too bad, for we were able last month to let a contract for the washing of our office towel. The work will be completed in the spring. The by-products should not be a handsome profit.—Greenwood Lodge.

and Marketing on Tuesday, March 2nd, at 2 p.m. An opportunity will be given for asking questions, and free discussion is desired.

Messrs Bryson Whyte, Thos. Powell, Earnest McKay, Alex. McKay, Grant Lang and George Lang went to Summerland on Thursday night to attend a function in the lodge there.

Lowest Prices quoted f.o.b.
Summerland siding.

F. DEMUTH, Princeton Crossing

GOOD BUSINESS and WITHOUT CASH.

Have you anything about the ranch you would like to dispose of, possibly not for cash, but for some other commodity or commodities of which you are in need? Experienced on the part of some of our citizens of late have shown the wisdom of offering those things of which you wish to dispose in exchange for something of which you are in need. The offers were made by inexpensive Want Ads. Your neighbor has an abundance of something of which you are in

need, and would be glad to give it in exchange for something you have that he needs. Now that the usual medium of exchange, cash, is so hard to obtain, why not institute a direct exchange of commodities? It costs but little to state your offer or your needs in the Review "Want" or "For Exchange" columns.

Charity covers a multitude of sins that might better be exposed.

Student A—"How can I keep my toes from going to sleep?" Student B—"Don't let them turn in."
