Markets Last Year & This

Market-Commissioner Forsyth Smith Shows That Okanagan Growers Fared Better Than Others.

Must Increase The Yield Per Tree

Says Provincial Horticulturist Winslow Organize To Keep Out Blight.

Mr R. M. Winslow, Provincial Horticulturist, and Mr J. Forsyth Smith, Market Commissioner for B.C., addressed a fair sized and appreciative audience on Tuesday evening last in the High School building. Mr Smith dealt in an interesting and instructive way with the market situation, both as regards the past season and the outlook for the future, while Mr Winslow spoke on spraying and orchard management, and in his usual pleasing and thorough manner gave much good advice and practical information on many matters pertaining to orcharding.

While admitting that market conditions had been unsatisfactory to Okanagan growers, Mr Smith was satisfied that the people of this Valley do not realize how bad they have been for others than themselves. Disorganization among the selling organizations of the various peach producing districts had early resulted disastrously. One of Wenatchee's big shipping organizations had but recently made returns on two hundred cars of peaches at 23c. f.o.b. Wenatchee. Deducting packing charges as here, 18c., and 5c. for handling, there was nothing left for the grower. The Yakima Horticultural Union, which has heretofore been very successful in its sales, made a similar return. Wenatchee produced 150 cars of apricots. On 73 cars the recent returns gave 47c. Deducting 25c. packing charges and 5c. handling, left but 17c. for the Wenatchee grower.

APPLE PRICES.

There were various reasons for unsatisfactory apple prices, the principal perhaps being a universally heavy crop. The U.S.A. crop was estimated at from 70 to 86 million barrels, about one-half million cars, whereas 200,000 cars would have been ample for their needs. The financial depression which existed prior to the war, and later the uncertainty due to the war, hindered the marketing of the crop. Up to February 1st, however, U.S.A.'s exports have exceeded those of the year before. Some of the American prices were given by Commissioner Smith. The Yakima Horticultural Union have made returns on 64 cars of Jonathans, fancy and extra fancy, at 72c., netting the grower 32 or 37c., according to whether the packing charge is 25 or 30c. Their "C" grade Jonathans brought 52c. f.o.b., and other "C" grades 57c. Cashmere Fruit Growers Union, whose brand has a splendid reputation and always brings highest prices, sold 324 cars averaging 68c. including their famous "Skookum" brand, of which they sold 35,000 boxes at \$1. f.o.b. This latter was pointed out by Mr Smith as a conclusive evidence of the result of advertising an established brand, backed by quality. According to Commissioner Smith there were on February 1st, 26,000 cars of apples in storage in U.S.A., twice the quantity of a year ago. Of these 4,166 are boxed apples. In the Eastern States present prices are, for Spitz \$1.10, and Rome Beauty \$1.52. After deducting freight and other charges the f.o.b. price would be 28 c. for Spitz, leaving nothing for the growers. Eastern prices for Delicious, range from \$1.75 to \$2.

THE HOME MARKET.

Conditions in our home market have not been the best. Drought over an extensive area; depressed financial conditions, resulting in a small demand for fruit, and later the outbreak of war, knocked prices downward. From the first there had been a slow demand for preserving fruits, the war and higher price of sugar made this condition worse. Slow business, and the tightening up of the banks, early resulted in the jobbers accepting

fruit only on consignment basis, the worst thing possible for the producer. Price cutting resulted, and part of our fruit was put in competition with Okanagan fruit shipped by others. Calgary had five competing houses. Probably consigning could not have been wholly prevented, but Mr Smith was confident that if there had been union among our distributors, matters would have been much better, especially if the distribution had been under one man directing operations.

B.C. fruit men had Alberta practically to themselves, sales from May to December being as follows: from Nova Scotia 1 car, Ontario 7, B.C. 224, U.S.A. 30, twelve of the last named being early stuff, getting in before our fruit was moving. However, B.C. only secured predominance by submitting to the low price. The trade did not want Ontario apples, but some farmers bought the barrels. In Saskatchewan there were more American apples consumed, returns being: U.S.A. 155 cars, Ontario 251, B.C. 174, Nova Scotia 32 cars.

THAT REGINA STORY.

Here Commissioner Smith took the opportunity of replying to an article appearing in the Penticon Herald, crediting Governor Brown of Saskatchewan as stating that there had been no B.C. apples sold in his province, making special reference to Regina as a centre in which Okanagan fruit was unobtainable. Mr Smith declared that there was no point on the prairies outside of Calgary, where there was as much B.C. fruit handled, and where there were as many houses distributing our apples as Regina, mentioning A. Steuart of Summerland, Mr Garroway, representing Daykin & Jackson; Jackson & Co., and Mutual Brokers, the last distributing for the Okanagan United Growers, as all having warehouses in that city. The Okanagan United Growers alone placed 181 cars of fruit and 46 cars of vegetables in Regina. Mr Smith described as very unfortunate the disposition of some public men to talk on subjects in which they were not conversant.

(Continued on page 2.)

New Bill Providing Aid For Farmers

An Act of Greatest Importance to Man on the Land to Become Law at Once.

TO REGULATE AND PROTECT FRUIT INDUSTRY, and Re-constitute Existing Organizations.

A government bill of much importance to farmers was introduced in the Provincial House on Wednesday by the Premier. It is along the lines recommended by the Royal Commission, as an aid to agriculture, and is very comprehensive in its scope. Provision is made for loans of three kinds, single season loans, loans of three to ten years, and of twenty to thirty-six and one-half years, the rate of interest will be approximately 1 per cent. over what it costs the government.

Under the new act Farmers' Institutes will be reconstituted. Provision is made for co-operative associations, and for formation of central exchanges, this latter being a reconstruction of the present system. Provision is also made for the appointment of inspectors of creameries and dairies, with power to enforce rules.

Lower Wages For The Farm Laborer

Pacific Coast Districts Drop 30 p.c. Oriental Labor Offered at \$1.

The labor question is just now receiving an unusual amount of attention throughout the Valley, more so at some points than in Summerland. The Kelowna Courier has the following to say of a meeting held in that district recently:

"The labor question was discussed at some length, but it was decided not to pass any resolutions in regard to setting the price of white labor, the general opinion being that as the large employers had decided to pay \$35 a month and board for good teamsters, and \$30 a month and board for ordinary labor, it would likely set the price throughout the Valley, and in the face of present conditions it was considered impossible for employers to pay more and leave a margin of profit. It was generally considered that Oriental labor should be paid at the rate of about \$1.25 a day, but there were no definite resolutions passed or agreements made by the owners to that effect."

Some of our local employers, when asked what wages they would be paying, stated that \$50 to \$55 would be the maximum, with less for the ordinary laborer. Nothing positive on the day wage could be obtained. It will be largely a case of supply and demand, and may be governed somewhat by the wage paid by the Experimental Farm. With small profits, and the competition of lower wages in other districts, our growers feel that they are forced to make a reduction on former wages.

It would appear that wages in the Okanagan Valley have not yet experienced the cutting prevalent elsewhere. Mr Winslow, in speaking of this question, said that all up and down the Coast there had already been a drop of 30 per cent. Statistics just to hand give the average wages paid in each of the

Shipments In 1914 Show Big Increase

Vegetables Bulk Up For First Time. Also Heavier Tonnage Of Apples.

According to recently compiled statistics, Summerland's exports of fruit and vegetables for last season exceeded those of the year previous by practically 600 tons. One-half of this increase is credited to vegetables, exports of which were practically nil the year before. Most of the other half is made up of apples with fifty tons of mixed fruit and vegetables shipped by express.

The first three items in the following table cover freight shipments, the last line express shipments, and the figures state in tons the shipment made in 1913 and 1914:

	1913	1914
Apples	665	918
Other Fruits	520	500
Vegetables	nil	310
Express Shipments	364½	414½
Totals	1,549½	2,141½

In the 1915-16 Budget introduced at the end of last week to the Provincial Legislature by Hon. Price Ellison, Minister of Finance and Agriculture, the appropriation made for roads, streets, bridges, wharves, etc., was \$2,459,000. Of this amount the Okanagan Valley's share is \$79,000, a slight reduction over that of last year.

provinces for farm labor during the summer of 1914, and are as follows: Prince Edward Island, \$24.71; Nova Scotia, \$31.20; New Brunswick \$31.93; Quebec, \$33.56; Ontario, \$32.09; Manitoba, \$39.13; Saskatchewan, \$40.51; Alberta, \$40.26; British Columbia, \$47.85. In 1910 this last was \$57.40.

The Oriental has apparently already concluded that the supply will exceed the demand, as it is stated that in the Vernon district such labor is being freely offered at \$1 per day.

Work of Okanagan College Before Convention.

Recognition Of Faithful Service.

The report presented to the convention of the Baptist Union of Western Canada, which met recently at Brandon, by the Board of Management of Okanagan College, showed that 91 students were in attendance during the year 1913-14. The statement of receipts and expenditures for the year ending September 20th, 1914, showed total receipts of \$16,377.17 and total expenditures of \$21,383.19, a deficit on the year's work of \$5,006.02. In August, the Board of Management, realizing the seriousness of the financial situation, took steps to reduce expenditure. This reduction was equivalent to the deficit of the work of the preceding year, and had the student body for the first term of 1914-15 remained at its former strength, there would have been no deficit on this term's work. The number of students decreased by slightly over one-third, however; the amount paid to Sustentation Fund fell off; so that even with the reduced expenditure, the deficit for 1914-15 to December 31st was \$1,810.11.

Principal Everton emphasized some facts in connection with the report. The record of the students who had gone to McMaster University compared favorably with that of the other McMaster students; several Okanagan students had already graduated from the University with honors. Attention was called to the immediate possibility of enlarging the College constituency through the early completion of the Kettle Valley railroad. This would bring Summerland within 250 miles of Vancouver, and within easy reach of all Southern British Columbia. Those who know the Okanagan Valley best believed

The Board of Horticulture will be re-constituted, and very complete provisions made for the regulation and protection of the fruit industry.

in the site of the College as ideal for permanent work.

The seriousness of the financial problem was pointed out. Appreciation of the help of all who had contributed to the funds of the institution, and of the work of the Ladies' Auxiliary, was expressed, but a much more general interest was essential to the well-being of the College. Deeper than the financial problem was the fundamental need of developing a passion for education.

Recognition was made of the faithful and sacrificial work done under most trying conditions by members of the faculty. Dr. E. W. Sawyer, who for seven years was the loved and efficient principal, was compelled because of failing eyesight to resign in May last. It was felt that his earnest Christian spirit, his devotion to his task, the efficiency of his teaching, and the sacrificial character of his relationship to the College could not soon be forgotten. The following resolution voicing these sentiments was passed:

"Resolved, that this Union express its appreciation of the worth and work of Dr. E. W. Sawyer, who, owing to failing eyesight, retired during the year, from the Principalship of Okanagan College. His patience, courage and devotion to his task have won for him a large place in the esteem and affection of all who know him—and his name must always be inseparably connected with educational work in British Columbia."

The work of the sister institution at Brandon was also reported upon. The enrolment for the year 1913-14 was 340, or 5 per cent. higher than the previous year. Financially the year was one of testing. The Board reported that Brandon College closed its year with a deficit of \$6,145.87. But upon carefully prepared estimates, it is expected that the deficit for 1914-15 will be \$2,280.00, a substantial reduction upon that of former years.

Grow Fruit & More Of It

Nothing Will So Reduce The Cost Of Production Or Increase The Output As Livestock In The Orchard.

Patriotism To Country & Community

Loyalty To Neighbor Means Also Profit To Producer.

Three prominent and well-known citizens of the province visited this district on Monday under the auspices of the Federal Department of Agriculture, to talk 'Patriotism and Production' with our growers, this being one of the many conferences being held at this time throughout all Canada for the purpose of urging and encouraging increased production in all lines, not only of agriculture, but of manufacture as well.

The first speaker was Mr Herbert Cuthbert, of Victoria, known best, perhaps, as promoter of the Victoria Market, and as an active advocate of the "back to the land" movement. This was Mr Cuthbert's first visit to the Valley. Realizing that the fruit industry is not all it might be, he anticipated finding quite a little pessimism in the Okanagan. However, the optimism was astonishing. The people realize that it is best not to have all their eggs in one basket and are planning accordingly. From Salmon Arm to Summerland a spirit of optimism prevails.

GOOD TIMES SOON.

The present cloud has a silver lining. Prospects on the prairies are excellent, the farmers are very optimistic, the soil and climatic conditions are ideal, there being more moisture in the soil now than at any time in the last fifteen years. There are, therefore, reasonable expectations of a good crop, which it is estimated will yield 350 million dollars. This will have a very great influence on B.C. Immediately the war ends there will be an immense demand for construction material, lumber, copper, iron, etc. There is no reason to be pessimistic—the worst has already happened, and soon our mines and all industries will be flourishing. Mr Cuthbert stated that one of the reasons why these meetings were called was to explain why Britain was at war, and he occupied some time in reviewing the situation prior to the outbreak of war, explaining why Britain was compelled to take up arms.

WORLD-WIDE COLLEGE SUNDAY.

Last Sunday evening a world-wide College Sunday was given due observance in the Lakeside Baptist Church, by a fitting service. With Rev. N. McNaughton on the platform, was Principal S. Everton of Okanagan College. Very few vacant seats were to be seen, and the heartiness of the service was apparent in the singing of the well known hymns. Special music was provided in the rendering by a College octette, of the Okanagan's hymn, composed by Dr. E. W. Sawyer, and put to music by Prof. W. H. A. Moore, "Per Aspera ad Altiora," freely translated by the first line, "Over rugged places up to heights above." These singers were, Misses Sawyer and Wilson, soprano; Misses Egston and Dale, contralto; Messrs W. M. Wright and G. Dale, tenor; and Messrs F. Walrod and J. McLeod, bass. Another musical treat was a splendidly effective rendering of that Sabbath evening classic, "Sun of My Soul Thou Saviour Dear," sung by Mrs Wilson of Vancouver, choir leader of the Mount Pleasant Baptist, who was visiting her daughter at the College. Rev. N. McNaughton's sermon was not lengthy, but right in line with the thought of the evening. "The place of the College in Human Life" was his theme. After showing how some of the great men of history had taken some of their training at the feet of the great learned men of the time, he went on to point out the pitfalls that learning might bring to students and teachers alike, as well as its great advantages.

CANADA'S DUTY.

The duty of Canada lay not only in helping the Mother Country at the front, but in producing food as well. It is also the duty of Canadian manufacturers to get a portion of the former export trade of Germany and Austria, estimated at over two billions of dollars annually. The consumer also had a duty to perform in insisting on being furnished with "made in Canada" goods. It had been ascertained that six hundred million dollars is sent out of the country yearly to purchase goods that can be made just as well in Canada. The speaker urged that we buy not only "made in Canada" goods, but preferably those made in B.C., or for us—the products of our own Valley and community. (In other words, "Be loyal to your own community.")

—Ed.) The duty of the business man was to sell only Canadian goods. He gets his custom from people who have something to sell, that is, agricultural produce, etc., and unless he buys Canadian goods there are fewer people employed who can buy farm products. Western Canada must have industries to take the place of construction work, and the more consumers the bigger the prices for the farmer. Four things were essential to the success of the man on the land. First, co-operation should extend between communities. Each Valley centre, for instance, would like to have a creamery, but if all combined for one big creamery centre, then we would soon have butter to shun off the New Zealand creamery article.

Again, farmers should grow their own feed, and feed only good stock. Then cheap money was necessary. There is no more reason why the business man could go to the banks and obtain money than that the farmer should do so. Lastly, low freight rates were essential.

LIVESTOCK.

Prof. W. T. McDonald, Live Stock Commissioner for B.C., said that the outcome of the war depends largely on the Empire's food supply, and that Britain depends on Canada to produce as much as possible. In this was Canada's opportunity. The live stock countries of Europe are not likely to recover for years. Live stock was the basis of all prosperity, and it was a mistake for the farmer and especially for a community to have all eggs in one basket. In live stock, dairying is the most profitable. With it production is more economical. The most progressive countries are those which have taken up the dairy industry. However, this requires lots of attention and all the ability one can put into it. Throughout the Okanagan Valley people are talking dairying. He urged, however, that they should not be governed by temporary market conditions. Each branch had its ups and downs and it was the man who stayed with it that won out. Just now hogs were being killed off, and in some parts of the prairies they were being shot. In a few months there will be a big demand and high prices.

Mr McDonald knew nothing of orcharding, and did not wish to be understood that dairying should supplant horticulture, but augment it, and anything he might recommend as best for live stock should be considered in its relation to fruit growing as well.

The climatic situation here was good, alfalfa grow like a weed and was the best food on earth for the dairy cow.

Some years ago he made his first trip up the Yakima Valley to talk on live stock. He could scarcely get a hearing, but told them that some day the Yakima Valley would be as well-known for dairying as

(Continued on page 2.)

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

FRIDAY, MARCH 5, 1915.

B.C.'s BUDGET.

A GOOD MANY FACTS of interest are to be noted in connection with the estimates of provincial government revenue and expenditure for the fiscal year just entered upon, made by Hon. Price Ellison in the Victoria House a few days ago. The speech accompanying the presentation of the budget was a review of the past year's experiences, and an outline of anticipated conditions for the coming year. It was only to be expected that world-wide disturbances would affect very materially the revenue of the province. On a very conservative basis it has been computed by the Minister that for the ensuing twelve months, the revenue of the province will reach \$7,034,615.13, which totals some three million dollars less than the year now closing. The estimated expenditures proposed likewise show some drastic cutting down, making an aggregate of \$11,163,056.11, or something under four million dollars under the previous year's figure. This decrease of expenditure is spread over the various departments generally, but most naturally public works bear the brunt of it.

Although generally spoken of as a year of depression, there are some figures of which the province has every reason to be proud. Agricultural production, for instance, increased not less than \$500,000 in value in the one year. New conditions which financial disturbances are creating are to be met courageously. The sum of \$50,000 is to be spent in an endeavor to develop to a large scale an export lumber business, the property destruction in Europe making in particular a market for this product which the province is going to seek.

Mr. Ellison has estimated the needs of his Department of Agriculture for the coming year at \$229,000. Included in this sum is \$50,000 to aid agricultural associations, and \$22,500 for farmers' institutes. The sum of \$79,000 has been provided for roads, bridges, etc., in the Okanagan.

The Minister held out much encouragement for the influx of a great number of settlers at a very early date, due not only to the almost certain migration of large numbers from Europe owing to the war, but to the intrinsic merits of the province as a land of opportunity. He mentioned that during the last ten years railway projects were undertaken which, when fully completed, would total 10,000 miles; and this, taken in conjunction with the opening of the Panama Canal, presented a situation in respect to transportation facilities which could not easily be overestimated when attempting to forecast what future lay before British Columbia.

WITH ALL DUE DEFERENCE to His Honor Lieutenant-Governor Brown of Saskatchewan, we are sure that a statement he gave out during a recent trip through the Okanagan was not according to the real facts. His assertion was to the effect that at no time last season were apples from this Valley at all in evidence at Regina, his gubernatorial seat. On the face of it, this appears to be a somewhat extraordinary assertion, for it implies that the United Growers, and all the independent shippers of Okanagan apples did not go near Regina in their marketing efforts—which is not so. One shipper in Summerland, whose operations are by no means inextensive, makes Regina his headquarters, and sends almost his entire output, which last year was nearly 40,000 packages, to that point. On top of this comes the assertion of Mr. J. Forsyth Smith, Market Commissioner for B.C., in the prairie provinces—and so surely in a position to know, whereof he speaks—that the United Growers, Daykin & Jackson and other Okanagan firms did a considerable business in that city. If Mr. Brown meant that Valley apples had not been given due prominence in the displays of the big retail stores, this was telling a very different story, and one in which most of us will concur. It is strange that the Penticon Herald, which had the honor of an interview with Lieut.-Gov. Brown, did not see the statement of His Honor in this light, since it has been so energetic in taking up the cudgel on behalf of the fruit grower and swinging it very energetically, but, unfortunately, somewhat blindly, with the result that it once more fell on the wrong head.

GROW FRUIT AND MORE OF IT.

[Continued from Page 1.]

for fruit growing, and then they would be growing better fruit. He persuaded a man to experiment with alfalfa and his predictions were now coming true.

MUST REPLENISH.

A full bearing orchard takes as much from the soil as a 35 bushel wheat crop. The tendency here has been to pump out the soil, just because of the fact that when water was applied to our soil it yielded up the nourishment readily.

He then took up the question of cows, the necessity of buying only good cows and those free from disease. It has been shown conclusively that bovine tuberculosis is transmitted readily to other animals and may be communicated to man. Sixty-five out of seventy-two consecutive tests of diseased glands of children in an Edinburgh hospital showed bovine tuberculosis. B.C. herds were most free of the disease of any place outside Jersey Island. Records of production were necessary and community breeding essential to the highest success. Select one line of good grade or thoroughbred cows and a pure bred sire of that breed. Just here Mr. McDonald complimented Summerland on the quality of the pure bred Holstein sire held here, having just returned from inspecting him. He was a good animal from a good herd, his dam was a cow of good record and his sire the best in the country, "Butterball."

Mr. McDonald told something of his early life on the farm and showed why the boys and girls should be given an interest, and commended the boys and girls competition events.

CROPPING METHODS.

Mr. P. H. Moore, Superintendent of the Experimental Farm at Agassiz, pointed out a timely opportu-

ity to demonstrate local patriotism by suggesting the chasing of the Russian thistle and other noxious weeds. If Summerland is to have live stock it must grow feed in the orchards. Everywhere in the province farmers are now getting down to producing economically. They can't have as easy a time, but they must produce. He suggested that if the orchardist did not go more into live stock, he would be less into fruit. He must have the fertility to keep up the soil. Under conditions here he would recommend a three year rotation crop except where alfalfa is grown, when six would be better.

Mr. Moore expressed much surprise and delight at the quality and quantity of mangels that can be grown on an acre here. He saw no reason why we should now be talking silos when alfalfa and mangels could be grown in such abundance. Later when the need arises, we can get together on the silo question, as it is going to come. Another fodder that can be grown here in huge quantities is corn. The natural conditions are certainly excellent. Throughout his remarks Mr. Moore gave many facts and figures from his farm records, and pointed out where in many respects Summerland growers had the advantage.

The rotation of crops suggested was one for hood crops, sowing next spring to grain and clover, taking off a clover crop the third year plowing under stubble, and a hood crop again on the fourth year.

Many questions were put to Mr. Moore from all over the audience, and later there were many expressions of regret that the "conference" proper had been cut into by the lengthy review on the outbreak of the war. Mr. Moore also had nothing but praise for the Holstein bull purchased by Dr. Tolmie for the Summerland Purebred Stock Association.

MARKETS LAST YEAR AND THIS.

(Continued from page 1.)

Manitoba bought largely U.S. and Ontario apples. B.C.'s business with the grain growers was small. Lower prices and their prejudice in favor of Ontario's brands, particularly the Spy was the explanation. This is because they do not know our fruit and varieties. If we are going to undertake to get a share of that business, we must start an aggressive campaign. Salesmen with samples should call on the local unions. One Kelowna shipper had found this variety difficult, but when he showed his samples it was easy to make sales. 10c. a box better price would yield \$60 a car to cover this extra expense.

WOMEN'S INSTITUTES.

Mr. Smith dealt quite fully with the marketing plan as proposed by the Women's Institutes, suggesting certain lines of operation. He believed their best success would be with the earlier fruits, before carlots began to move, and the resulting publicity would be good work done.

Something of the advertising already done, and of "Apple Week" was told by Mr. Smith, who again emphasized the wisdom of having a distinctive brand and advertising it.

As long as the war lasts Commissioner Smith could not say definitely what market prospects would be. Some things of promise to this district were that last year's universal big crop of apples will not be repeated, and export is likely to be much better. Prairie wheat acreage is heavy and though cash may be late, there is much optimism. Further, there is a possibility of better protection against dumping. He advised a close scrutiny of the costs of production, and better co-operation, mentioning the recent appointment of three men as an Umpire Board, not affiliated with any shipping organization, to watch the marketing of the American North West crop.

MORE CO-OPERATION.

The Yakima peach growers had learned a lesson which they were taking to heart, and are now getting together and are likely to handle 85 per cent of the peach crop. Their purpose is to establish a zone extending east to Chicago, including Western Canada, in which peaches will be sold on an f.o.b. basis only, and if they cannot be so sold will be passed through this zone to the Eastern centres.

In reply to a question Mr. Smith said that all Canada was now producing apples in sufficient quantity to satisfy her markets.

SUMMERLAND HOLDS RECORD.

Mr. Winslow in opening his remarks said that one thing that pleased him greatly was to see Summerland come ahead in vegetable production, having shipped 310 tons or 28 cars last season. Summerland, he said, holds the record for the greatest express shipments, being 41½ tons, compared with Penticon's 6 tons, and Peachland's 30, the latter mostly citron and squash. He was glad that Summerland's efforts had made such progress. There is much yet to be desired, but much to encourage to go ahead. He expressed pleasure in co-operating with Mr. Hilborn, and noted with satisfaction the interest being taken all round in Mr. Hilborn's work on our Demonstration Farm. Summerland has got a year's start in this work, and should lead.

COAST MARKETS.

Mr. Winslow believes that with the opening of the K.V.R. Vancouver will be an excellent market. She is importing large quantities of apricots, plums, cantaloupes and head lettuce, and it is a shame that this money is all going south. He was doing his utmost to have the C.P.R. give us a low short line rate immediately upon the opening of traffic over the K.V.R.

An interesting discussion, in which many participated, followed Mr. Winslow's introduction of the question of growing beans. He thought it possible to grow from 30 to 35 bushels to the acre, and they were now worth from \$2.60 to \$2.85 per bushel. Mr. Hilborn would this year test a few of the different varieties.

FIGHTING BLIGHT.

Mr. Winslow has been to no little concern that blight was not being fought as strongly as it might be. He warned his hearers what the result of indifference would be, at the same time assuring that an aggressive co-operative campaign would result very satisfactorily. He suggested organizing the district into a number of volunteer

corps, each covering certain sections, all working under the direction of the Inspector, who would then cover a large area effectively. In Yakima the absentee lot owners holders property was cleaned up by volunteer crews. Down there even the business men turned out to help, working from 5 o'clock to 9, and by systematically helping themselves they were conquering the disease. Indications are now that we will have three weeks less in which to cut, as the season is much earlier.

An interesting discussion then followed on the question of spraying. Mr. Winslow recommending spraying as a most effective agent in controlling blight, provided the spraying is done thoroughly and at just the right time to kill the aphides. He was also positive that a single application of lime-sulphur just before the buds burst would control the peach twig borer, the solution to be 1 in 10 or 12. Cherry slugs should be sprayed for whenever seen. They are easily killed, and there was no excuse for the condition of many cherry trees caused by slugs. Arsenate of lead, 1 lb. to 40 gallons is effective, and will not injure the fruit. It would avail but little to destroy bees, as night insects are the principal carriers of blight.

DOING GOOD WORK.

Some of the good work of the B.C. Fruit Growers' Association was told by Mr. Winslow, who urged that every fruit grower become a member, as their strength is in direct ratio to their membership. The Association is now working with considerable encouragement for the better protection of our fruit industry against the dumping of American fruit, which has the approval of the Provincial House in a recent resolution forwarded to Ottawa. The only reason protection has not been granted by Ottawa is the fear of public opinion on the prairies. Mr. Winslow showed conclusively that with B.C. lies the credit of giving the prairies cheap fruit. If withdrawn from any point and the market left in control of the Americans, prices immediately went up. Without our fruit they would be at the mercy of the wholesalers, just as they now are for their supply of oranges, for which they pay a high price and get only the poorer quality. The Ontario Fruit Growers' Association has passed a resolution for an adequate increase in duty, and Nova Scotia now favors an increase. In fact 90 p.c. of the fruit growers of the Dominion supported, and are only opposed by the grain districts. The speaker believed that this opposition would be withdrawn when the grain growers were made acquainted with the facts. Some years ago Mr. R. Robertson visited the prairies and got the consent of the people to a bounty in lead. He had recently taken up the subject of protection for our orchards, at a big grain growers' convention. Mr. Winslow would favor a bounty for fruit if protection could not be obtained. It was now a case of fighting unfair competition, and the dumping clause had been found inadequate.

BIGGER CROPS, LOWER COSTS.

The speaker promised a Market Commissioner for Vancouver, and an effort would be made to send out weekly reports, especially if satisfactory rates can be gotten over the K.V.R. He urged that every effort be made to further increase the peach yield per tree, in order to make the industry profitable. He believed that if the consignment evil was stopped, peaches would bring good prices. He told of a new method of pruning being adopted in Yakima, where peach pruning has been done when the crop has set. Peaches among apple trees were unprofitable, and are stopping the production of apples, the average yield being altogether too low. Keep your eye, said the speaker, on the yield per tree and production per acre, and reduce costs as much as possible. There was really little intensive farming being done which, when adopted, will work down the cost of production. Mr. Winslow favors alfalfa in the orchards, using from 3 to 5 lbs. of seed per acre; and pigs running on the alfalfa; but wholly condemns the removal of the crop unless manure in abundance is returned.

Cheaper packages for ordinary grades, the question of export package, the compelling of imported fruit to comply with our Fruit Marks Act, an inspection fee on each imported car, and other matters of importance were touched upon. It was after 11 o'clock when a most interesting meeting was terminated by a hearty vote of thanks to Messrs Winslow and Smith.

LIFE would be flat and colorless for both young and old without some pleasure to give it piquancy. So with food. A relish creates pleasure and appetite for your meals. It is oft-times as much of a tonic as the best prescription handed out by a physician. It is your duty as a careful housewife to get the best in relishes. Bad relishes spoil good food.

WE aim to keep the best in these as in everything else—delicious jams and Jellies that are made with pure sugar, and keep the natural flavor of the berries. Pickles preserved in the finest malt vinegar. Sauces of the best brand—all the hundred and one delicacies that help to make your daily meals more pleasing.

If you want any Relish we have it. Come in and look over stock.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

BASKETBALL

LEAGUE STANDING.

Seniors.		Per- cen- -	Points
Played	Won		
Town	16	10	62.5 328 225
College	15	8	53.5 268 239
West	15	5	33.3 217 325
Intermediates.		Per- cen- -	Points
Played	Won		
Town	16	10	62.5 257 176
College	15	7	46.6 196 190
West	15	7	46.6 210 291

College seniors and juniors both failed to stand up against the Town teams last Friday. The boys from the hill went down to double defeat in their own gymnasium, and as far as league standings go, they could ill afford to lose these games. Perhaps in the case of the College seniors, like the famous old Biblical strong man, their strength lay in their hair, for it was indeed a shorn quintette that took the floor in the second game.

The intermediates put up their customary lively game, not bristling with scientific plays, nor yet showing off good combination plentifully, but still a lively scrap. The College boys did not net the ball at all in the first half, but it must be said for them that poor shooting luck had almost as much to do with that as the checking of the opposing guards. All the luck that was going in that game went to the Town boys. They got into the scoring early, and at half time, with 16 points up for the visitors, it could be seen where the game was going, unless something miraculous happened—which did not. Angove had piled in four baskets, White three, and Simey one to make up the Town total thus far. After the interval the College seemed to be able to keep the ball out of their basket a little more, with the result that the Town only netted two more baskets from the field, both from Simey. It was not till about halfway through this half that the first point was registered for the College, this being a foul converted by K. Elliott. Then two field baskets came for them, from Jennings and Bent, and another point from Elliott gave the College 6 points against 20 for the Town. Referee John McLeod ruled off one of the Town guards in the second half, for handing out some gratuitous advice, but with only a minute and a half to play, nothing resulted from it. The teams were made up as follows:

Town	College
C. H. Simey	for. L. Bent
R. White	cen. B. Elliott
W. Angove	cen. H. Jennings
F. Williams	gd. K. Elliott
C. Clay	gd. J. Anderson

When the senior game came on the spectators were fairly numer-

ous, and they, as well as the players, seemed to realize that the game was of some importance in the league, for the rooting on both sides was unusually vociferous. Once in a while the whistle of Referee Logie rose above the din, but usually not. Town and College games are mostly stubbornly fought out contests, and this one was certainly no exception. From start to finish there was not a slow moment. Everyone seemed to be playing as if the league championship depended on the result. Guards on both sides did great work all through, and it was largely by their efforts that the scoring was not at all frequent. 13—8 was the closing score in the Town's favor, and the first half saw most of the points obtained for both sides. Phinney did the first of the scoring, but McLeod soon replied for the College. Before the interval was reached, Phinney had sent two more in, McWilliams had found the basket once, and Glenn twice on penalty shots. For the College only two baskets had been recorded, both by McLeod. Half time, Town 10, College 4. After changing over, the game became even more closely contested, and a score of three points for the Town and four against them in this half shows that there was more checking than shooting. McLeod again scored from the field for the College, and he and Cochrane were successful to the extent of one each on fouls. For the Town Lavis and Glenn netted a basket and a foul respectively, which accounted for all the scoring. When the last whistle blew, it drew the curtain down on what seemed to be one of the most gruelling battles these old warriors have put up. The teams:

Town	College
H. Phinney	forward M. Cochrane
C. Lavis	G. Dale
C. McWilliams	centre J. McLeod
J. F. Glenn	guard C. Riley
H. Snider	A. Vanderburg

Is it too early to venture league championship prognostications? After the game of to-night, when the College and Wests meet, each team will have but four more fixtures. If the Wests are able to emerge from this contest on the top side of the score, the Town team will be able to look on the Rowley trophy with something of a proprietary expression. If the game goes otherwise, however, the College will still be decidedly in the running. Next week the Town teams are down for two games, both in the Men's Club, Tuesday against the Wests, and Saturday against the College. If they are able to maintain their winning streak, these two games will put the Town at the top to stay.

Public Schools Honor List for February.

Just What Was It About?

Government Officials Talk In Naramata.

There was a general feeling of disappointment after the much looked forward to meeting of last Saturday night when Mr Forsyth Smith and Mr R. M. Winslow spoke upon the subject of agriculture, so vital to dwellers in the Okanagan.

Mr Hilborn, Government Demonstrator from Summerland, gave promise of a live evening when he told the orchardists many things they wanted to know, gave detailed information in regard to times and depths of seed sowings, explained how to make and to manage hot houses, and put down in actual figures his gain from money invested and time given to his vegetables. His answers to questions were facts, tested and found workable, and his talk was both interesting and informing.

Then Mr Forsyth Smith of Calgary, spoke. Mr Smith's methods of advertising Okanagan fruits was fully rehearsed. He told his audience how they might advertise, but without time or money to expend upon publicity, his hearers were not exactly keen about following his advice. "Mr Winslow," as one woman-rancher put it, "gave us such a rating! And the dear knows we have worked hard and earnestly enough in our orchards to deserve a little encouragement from the government: every bit of our experience goes to help British Columbia along, even though we have gained nothing material from it ourselves. Anyway, I was told that the Okanagan was not a vegetable proposition before I came here—there is not sufficient water. The meeting was a real disappointment."

A Literary Treat.

At Monday evening's literary club Mrs Ogden Hughes talked of Queen Victoria, Mrs Howard Rounds of Abraham Lincoln, Miss Margaret Gordon of Oliver Cromwell, and Mrs Morsch of That Man in every walk of life who gives of the best that is in him to those with whom he comes in contact, and by so doing makes life happy, wholesome and uplifting. Each speaker was well up in her subject, and brought out the true worth of the characters of whom she spoke. It was an evening well spent by the many members who attended the meeting, and so enthused were the listeners that they decided to continue the meetings until the end of May, instead of ending them after the second meeting in March, according to constitution.

Mrs Mark, with Mrs Fred Manchester and Miss Minnie Block played the instrumental musical numbers, and Mr Mulford delighted the townspeople by his songs. A general chorus of Tipperary was sung by the audience before the roll call, and expressions of pleasure were heard on all sides after the meeting was over.

SCOUTMASTER PITMAN HONORED

Between curtain risings last Thursday evening Mr John Park Bruce, late of Bristol, England, was asked to say something about scout work, a movement in which he is greatly interested. His remarks took the unexpected form of a presentation to Scoutmaster Harry Pitman from the Scout boys and other enthusiastic admirers of the good work he is doing for Naramata through his interest in the town lads. Mr Pitman had known nothing of this "number," and came casually from the wings to the floor of the house when called. He did not understand at first, but with a set of leather-cased military brushes in his hands, he looked around for words and expressed most surprised thanks for and pleasure in his gifts, while all the boys chorussed "For He's a Jolly Good Fellow."

Current Events — OF — Town & District

Mr John Noyes has returned from Princeton Crossing.

Mrs Languedoc and Mrs D. Ogden Hughes were the hostesses at the Unity Club tea this afternoon.

The Misses Robinson of "The Naramata" spent Saturday, Sunday and Monday with Dr and Mrs Lipsitt of Summerland.

To-night the Boy Scouts of Naramata are taking part in a concert for the benefit of the Patriotic Fund in the Empire Theatre, Penticton.

Mrs Cook entertained the members of the Ladies' Aid at their last meeting, when it was decided that a concert should be given under their auspices early in April.

Mrs George Ross of Summerland sang at the Boy Scout Concert last week in place of Miss Anna Hayes, whose name appeared on the program, but who was prevented from attending by indisposition.

Mr Frank Hayward, of the Third Contingent, was a passenger on the same boat as his sister, Miss Adelaide, on Monday morning, having come up from Penticton en route to Vancouver to train for the battle front. Miss Adelaide (now Mrs E. P. Thorne) was on her way to the same city where she was married on Tuesday morning.

Mrs H. T. Davies saw Miss Livingstone when in Penticton last Saturday, and Miss Livingstone told her that she could make arrangements to give a course of cooking lessons in Naramata this spring if the Naramata Women's Institute will ask permission of the Hon. W. E. Scott, Superintendent of Institutes.

COCKERELS of QUALITY.

I have a few White Leghorn Cockerels from hens of the famous TANCRED STRAIN, mated to TOM BARRON males, which I am offering at \$3 each.

Sisters of these have proved wonderful layers. In December, 22 out of 26 pullets averaged 19 eggs each in one month! QUALITY all right!

Limited number of Settings at \$2.50.
JOHN M. SCHRECK,
Naramata.

f26m5

SUMMERLANDERS TOOK PART.

Mrs George Ross and Mr T. G. Beavis of Summerland sang for the Boy Scouts at their concert last week, much to the pleasure of the Naramatians and joy of the lads themselves. Mr John Tait, Scoutmaster of the Summerland troop, spoke a few words, and Mr T. H. Boothe was chairman. Mrs Languedoc and Mrs Dean Walters were piano duettists. Mr Tom Kenyon played cornet solos, and Mr Will Nuttall exhibited his skill in club swinging during the evening.

The Naramata Drug and Stationery store closed against further business on March 1st.

Mrs J. R. Mitchell of Penticton, with her daughter, Jean, spent part of last week with Captain and Mrs Languedoc at their orchard on the north benches.

The "Skookum will leave Naramata at 6.15 this evening for Penticton, calling at Summerland at 6.30. The Rocky Mountain Rangers, the Veteran corps and the Penticton Boy Scouts will meet the boat at the Penticton wharf.

Mrs F. J. Young has received the sad news of the death of her brother, Joseph Davidson, of West Templeton, Ottawa, who succumbed to an attack of pneumonia, after one short week's illness. Besides Mrs Young, two other sisters and five brothers will miss him and mourn his passing.

Mrs Peter S. Roe entertained at luncheon on Thursday of last week in honor of Mrs Rowley and Miss Amy Brown of Summerland. During the afternoon a number of friends dropped in for a chat around the cosy tea table, and in the evening the guests accompanied Mr and Mrs Roe to the Boy Scout entertainment.

Mrs E. P. Roe had sufficiently recovered from her recent illness to venture out during the sunny hours of Monday, and spend the day with her daughter, Mrs John H. Pushman. Among those who called to see her during the afternoon were Mrs Noyes and her daughter, Miss Edna, Mrs Simpson, Mrs Salting, Mrs Mark and Mrs Fred Manchester.

Mr and Mrs George Partridge with four children, arrived on Tuesday evening from northern Saskatchewan to make their home in Naramata. Just now they are living at the Syndica, but Mr Partridge will start building on his lot at once, and expects to be domiciled in his own home within a short time.

Rev. J. Irwin Beatty will preach in the Methodist Church, Penticton, next Sunday, March 7th, and Rev. R. Thomson of Penticton will occupy the pulpit of the Union church here, when, after the morning service the sacrament of Holy Communion will be observed, the members of all different denominations being asked to join in the celebration.

On Wednesday evening last Mr W. A. Wagenhauser, a veteran soldier of Great Britain, entertained Captain and Mrs Languedoc, Scoutmaster Harry Pitman, and sixteen lads from Naramata at supper at his home in Naramata. The lads thus honored were Frank Hughes, Stewart Allen, Arthur Stiff, James Bruce, Wm. Mitchell, Hedley Ross, Stanley and Arnold Stiff, Harold Allen, Earle and Ira Hughes, Edmund and Ralph Boothe, Gordon Williams, Wesley Rounds and Clifton Roe.

The regular monthly meeting of the West Summerland Women's Institute will be held on Friday afternoon next, March 12th, in the High School Building. A good program has been drawn up, meriting a large attendance.

Our old friend Duncan Wood of Hedley has attained to unexpected honors. The Vancouver Province of recent date, in noting his arrival in that city, refers to him as "Dr" Wood, a prominent mining magnate.—Vernon News

The local branch of the Okanagan Ambulance League have this week been handed a sum of \$20 from the ladies of the congregation of the Methodist Church, the proceeds of the bean supper held on Tuesday evening in the Men's Club.

Mrs Frank Wilson of Vancouver, who is now visiting her daughter, at Okanagan College, and whose singing at the Baptist Churches last Sunday was so much appreciated, will sing again at both the morning and evening services on Sunday next.

Mrs R. M. Duncan and family arrived in Summerland in Monday evening of this week to join Mr Duncan on his newly leased "Crag Hill" orchard property. As a commencement for his poultry operations, Mr Duncan recently acquired a flock 150 head.

Divine service will be conducted in the Methodist Church on Sunday next by Rev. R. W. Lee. In the morning at 10.30 a.m. the subject of address will be "Christianity's Object Lesson." Mrs George Ross will sing at this service. In the evening the pastor will again preach, when the soloist will be Mrs Gerald McLaine. A hearty invitation is extended to all.

Next Sunday evening Rev. N. McNaughton commences a series of sermons upon the general theme of "The Shadow of the Cross." The first phase of this subject touched upon will be "The Cross on the Horizon." There is at Penticton a somewhat famous painting which has been brought from Toronto, entitled "The Shadow of the Cross." Its owner has kindly consented that it be brought to Summerland for a short time, and about the end of the month it will be used by Mr McNaughton in connection with his series of sermons.

Everyone rejoices at the lengthening of the days the past week or two has made so apparent. There are few who do not feel optimism running strong in their veins in the spring time, when nature's recurring and never failing revival seems to speak promise of abundant harvest, especially to the people on the land. The first to enter upon enlarged spring and summer activities are the school children and teachers, who began their longer school days this week. They are now in session from 9 till 3.30, half an hour at each end being added to the short day of the winter months.

Boskoop Giant Black Currants

Earliest - Largest - Best. Very Fine Bushes For Sale by F. D. COOPER, Real Estate Broker, PEACH ORCHARD. NEW GOODS arriving

Make your selections while Stock is complete. We will lay aside any Article until you require it, on payment of small deposit

J. Rowley Jeweler and Optician, Summerland and West Summerland.

Miss Bessie Clark spent last week-end with her parents in Penticton.

A carload of feed reached here on Wednesday for the Poultry Association.

Mr A. B. Elliott returned on Monday evening's boat from a business trip to Vancouver.

Dr C. A. Jackson will pay his regular monthly visit to West Summerland next Tuesday, March 9th, occupying Dr Andrew's office as usual, and he will remain till the end of the week. m5

Thirty-eight ladies of the upper Women's Institute took the full course at the cooking classes recently concluded, and the average attendance for the entire ten days works out at the very creditable figure of seventy-eight.

H. W. Agar will this season have charge of "The Maples" ranch and greenhouses, W. J. Robinson's property. Mr and Mrs Agar and family moved down from Victoria Gardens this week, and are occupying the small cottage on the ranch.

A number of Boy Scouts from Summerland are planning to go to Penticton with the Naramata Scouts this evening, Friday, to take in the Scout Concert at that place. Mr T. G. Beavis is a local soloist whose name appears on the program. The ferry leaves Summerland about 6.30.

Another of the popular semi-monthly Quadrille Club dances drew a good company of dancers to Empire Hall on Thursday evening. The happy time which usually characterizes these dances was well marked on this occasion also, admirable music and a splendid floor helping to make the dancing very pleasant.

W. J. Goard, of the firm of Goard Bros., piano tuners and repairers of Vancouver, is in town for a few days. Mr Goard is making these trips here every six months. Any parties wishing work done in this line will leave their orders with Mr McWilliams, or at the Felix Hotel. m5

An evening of song and story with Franny J. Crosby will be given in St Andrew's Church next Sunday evening at 7 p.m. This renowned hymn writer, who gave a large number of popular hymns to the world, died recently at a great age. The service will consist of her life story, illustrated by Miss Crosby's familiar hymns.

Miss Miriam White was given a most complete surprise during the bean supper in the Men's Club last Tuesday evening, the occasion being the anniversary of her birthday. Besides a beautiful birthday cake, which she later divided among the friends present, Miss White was the recipient of a pair of gloves as a token of appreciation by the ladies of the Methodist congregation of her untiring services.

At their Beach Avenue home on Tuesday evening this week, Mr and Mrs E. A. Jones entertained very enjoyably at a Five Hundred party. Play was carried on at four tables, in a room set off by a quaintly contrived decorative effect, arrived at by the use of greenery and miniature Japanese parasols. Prizes for the highest scores made by a lady and gentleman went to Miss Eula Watson and Mr K. S. Hogg, respectively. The refreshments served were the last word in daintiness, making a climax to the evening's pleasure, quite in keeping with the social enjoyment of the earlier hours.

A second W.C.T.U. silver medal oratorical contest has been arranged to take place next Monday evening, March 8th, in the Men's Club. Successful as the first contest was three or four weeks ago, it seems likely that the one next Monday will not in any respect be less so. A very attractive program has been arranged, to commence at eight o'clock. Among the items especially noteworthy, in addition to the recitations of the six contestants, will be a flag drill carried out by sixteen girls representing the Allies at present engaged in the war against Germany, and good musical numbers, solos, etc. A cordial invitation is extended to everyone to attend. Admission will be free, and an offering will be taken during the program.

Railway Grade Is Completed.

Laying of Steel Said To Begin By March 15 And Finish By End Of April.

Long blasts from the whistles on the steam shovels and donkey engines last Wednesday morning told the people of Princeton that the railway grading on the Kettle Valley line was completed so far as the work by heavy machinery was concerned. It is stated on good authority that the track-laying outfit will begin operations about March 15th, and that all the steel will be laid by the end of April. C.P.R. officials state that trains will be running over the Kettle Valley Railway by the latter part of June.—Star, Princeton.

FORTHCOMING CONCERT.

Those who attended the services of the Baptist Church last Sunday morning and evening were much delighted with the singing of Mrs Frank Wilson, of Vancouver, now visiting here. Many who heard Mrs Wilson expressed the desire for an opportunity to hear her again. There will be such an opportunity next Tuesday evening at a concert, announced elsewhere in our advertising columns, to be given in the College Gymnasium.

Others mentioned on the program are Miss Higgin, violinist, whose beautiful playing is always appreciated by a Summerland audience, and Mr W. H. A. Moore, equally acceptable, as pianist. The admission has been placed at only 25 cents, and as the object is a worthy one, there will be additional reasons why the attendance should be a large one.

ACKNOWLEDGMENT.

Summerland, B.C., March 3rd, 1915. The Editor, Summerland Review.

Dear Sir, Permit me to acknowledge through your columns, receipt of a cheque for \$45, proceeds of the St Andrew's Society Concert and Dance, which has just come to hand, and is immensely appreciated.

At the next meeting of the Board it will be discussed whether this sum can be spared towards the putting in shape of the grounds round the building, which, now summer is approaching, should have something done to them to produce a more finished appearance, or whether it will be better to apply it to current expenditure. Yours truly, E. B. MAY, Treasurer.

CONTRIBUTIONS TO HOSPITAL DURING FEBRUARY.

Dr Sawyer, 1 pt. cream; Mrs Geo. Gray, 1 doz. eggs; Mrs A. B. Williams, 2 qts. canned fruit, 1 doz. eggs; Mrs W. H. Hayes, biscuits; Mrs Darkis, 2 qts. canned fruit; Mrs Lipsett, doughnuts, chicken, baked beans; Mrs Hutton, old linen; Mrs Solly, literature; Mr Higgin, 1 doz. eggs and vegetables; Mrs Milne, 1 lb. butter; Summerland Women's Institute, cake and bulbs; West Summerland Women's Institute, cake; Mrs Robt. Monro, 2 qts. canned fruit; Mr Downton, pr. chickens; Mr Borton, basin; W. J. Robinson, 1 doz. tungsten lights.

Mrs F. W. Andrew is making a splendid recovery from her recent operation.

On Sunday, March 14th, the quarterly communion service of the Presbyterian Church will be held in the Methodist Church at 3.30 o'clock.

Sulphur-soda sprays do not evolve much commondation from the Pullman Experimental Station. Quite exhaustive tests have been carried out in different orchard districts, and the conclusion arrived at is that sulphur-lime is the better.

Casey—Phwat did yu namo your little gurl? Mooney—Hazel. Casey—Howly amokol Ye had 223 saints to chooso from an' yu went an' named her after a nut!

SHINGLE CREEK CHECKER PLAYERS NARROWLY BEATEN.

The White Cafe was the scene of the checker tournament last Friday evening, and the five bold challengers of the prowess of the West Summerland players were from Shingle Creek, Messrs W. J., and R. Brent; R. McIntosh, and W. Duckett. R. Brent, though young in years, proved himself a redoubtable player, acquitting himself very creditably. The play was very close, and neither team at any time got more than one point in the lead. After the first five games, Shingle Creek were ahead with two wins to one, but after the next five West Summerland had evened up the wins at 4-4. The third round saw the score still level at 6-6, and in the fourth, Shingle Creek again got ahead, 8-7. West Summerland turned the tables in the last five games, however, and came out victorious, making the score 10-9. One game in this series, between J. Brent and R. B. Forsyth, lasted out well beyond the others, and for some time it looked as though the Shingle Creek player might keep things even by making a win. It resulted in a draw, however, and by the narrowest possible margin the honors of the evening went to the home players. The individual scores were as follows:

Table with columns: Player, Shingle Creek, West Summerland, Won, Lost, Drawn. Includes players like W. Brent, J. Brent, R. Brent, R. McIntosh, W. Duckett, S. B. Snider, W. R. Thomson, J. L. Hilborn, Wm. Ritchie, R. B. Forsyth.

At the conclusion of the play, the two teams and the handful of spectators partook of light refreshments, served by Mr W. H. Fasridge, proprietor of the White Cafe.

When a fellow is in a hole don't rub it in by looking down on him.

Municipality of Summerland.

Ditch Tenders.

TENDERS will be received by the undersigned up to 6 o'clock, March 9th, for the making of a ditch from the main highway along the street to the lakefront, in District Lot No. 508, Subdivision No. 2, known as the George Gartrell property. Specifications can be seen at the Municipal Office. J. L. LOGIE, Municipal Clerk.

Municipality Of Summerland.

By-Law No. 58.

Sec. 5. It shall be unlawful for any person to sell or deal in milk or cream by wholesale or retail in the Municipality without first having obtained a license so to do.

Sec. 7. Any person desiring to sell or deal in milk or cream by retail, shall make application for same in writing to the Municipal Collector, who shall issue a license only after the Sanitary Inspector has inspected the premises of the applicant and reported favorably thereupon.

Sec. 8. The fee for any license granted under this By-law shall be fifty cents for each cow owned or controlled by the license holder, and each license shall terminate on the thirty-first day of December in each year.

The above sections of By-law No. 58 are to be strictly enforced by the Sanitary Inspector, and any parties selling milk or cream without a license will be liable to summary conviction unless the above sections of said By-law are at once complied with. J. L. LOGIE, Municipal Clerk.

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.

Nutritious Lenten Dishes

Those who abstain from eating meats during Lent are looking for wholesome foods to take their places. We have selected the following lines which we can offer as the very best of substitutes.

Codfish (Boneless).

Tasty and nutritious, this brand was used by Miss Livingstone at her recent cooking demonstrations—40 cents per 2 lb. box.

Canned Salmon.

One of the most nourishing of all fish foods. Can be served in many tasty ways. We carry the finest Sockeye Salmon on the market. Try a tin. 15 cents and 25 cents per tin.

Baked Beans.

No better substitute for meat. Place the can in boiling water a few minutes and you have a deliciously warm wholesome food. 10, 15 and 25 cent tins.

Canned Vegetables.

It's a long way to harvest time. Our goods are fresh and best quality. Tomatoes and Peas, 3 cans 50c. Corn and Beans, 3 cans 45c.

Macaroni.

A food of high value. Boiled alone or with cheese makes a wholesome dish. Two packages 25 cents.

Rice.

A staple, nutritious food. Eat plenty of it. 3 lbs. 25 cents.

Don't Forget Pancakes.

We carry the best brands of Pancake Flour in 25 cent and 35 cent packages. Order a package and a bottle or can of our pure Maple Syrup at 65 cents.

Also in Stock: Sardines, Finnan Haddie, Lobster, Crab Meat and Fish Pastes.
ORANGES — GRAPEFRUIT — LEMONS

The Summerland Supply Co., Ltd.

NARAMATA SECTION, Cont. fr. p. 4

Naramata Current Events

Mr. Dean Walters has severed his connection with the Naramata Supply Company, and expects to undertake his new musical work in San Francisco in April.

Mr. James Hayward, accompanied by his daughter, Mrs. Elliott, returned from Peachland last Saturday evening. Mrs. Elliott's was a week-end farewell visit to her sister, Miss Adelaide.

Mr. H. J. Wells has retired from the management of the Naramata Supply Company's stores on March 1st, and will give his whole attention to market gardening and fruit raising. His new greenhouses promise early supplies of vegetables for quite a large market.

New sugar has advanced in price, so say Naramata merchants, and fruit preserving for 1915 will take the form of sun-dried in a greater quantity than heretofore. Remember, there is a big market in France awaiting Okanagan sun-dried fruits. Merchants there are looking for samples.

NARAMATA SCOUT DOINGS

Boy Scouts Surprise Naramatians. Work Accomplished in Eight Months.

It was the unexpectedness that took the audience by surprise at the Scout Concert last Thursday evening when they watched the curtain rise time and again, and no two numbers resembled each other in more than the orthodox uniforming of the lads. What they were capable of doing was known only to Scoutmaster Harry Pitman and the boys themselves, for so unconsciously had they emerged from the tenderfoot stage of eight months ago to that of second classers now, that they were unaware of their own progress, and only realized that they were performing unexpected "stunts" when the applause of the audience resounded after each number.

It was a splendid programme! The Boy Scout troop from Summerland were the guests of our Boy Scouts for the evening, and occupied the front rows of chairs in the auditorium. At once, upon the entrance of their guests, the curtains were drawn back and the uniformed lads marched to the front of the stage, saluted their comrades from across the water, and with-

drew. They were a martial-like lot of lads, and those by whom they are known week-days and Sundays, sat up, leaned forward and looked keenly and critically on. "These embryo soldiers! Were they the town lads who play about the streets, lend a helping hand, get into mischief, and are never without sight of the grown folks of the village?" Yes, they were, for they carried the same faces as the ordinary boys, but were so alert that they jumped pegs higher in the estimation of the grown-ups. Gymnastic exercises followed the second curtain raising, when like trained india rubber balls in human shape they bounced on head or heels, as lines or wheels in perfect unison and sublime rhythm, forward and back across the stage. Then came physical drill, Scoutmaster Pitman keen to their every motion, and Mrs. Languedoc playing marching airs true to each movement. Next they appeared as pyramids, piled as high as five stories, forming the base, the column and the apex of a monument, each part taking his place as though carved by a sculptor, and given the knowledge to fit himself in. Applause after applause greeted these human edifices, but the curtain was lowered, and when seen again the lads stood as a background at attention. From around at the rear solemnly marched the huge, handsome collie dog, "Coney," known to every youngster in town, drawing a gipsy cart with the Red Cross insignia on its spotlessly white sides. There was silence, then a cheer sounded, and halting at the front of the stage "Coney" looked enquiringly around. A tiny Red Cross nurse scrambled over the back of the cart, dressed in striped nurse's garb, apron, kerchief, cap—complete, and the insignia of the order in those places where nursing sisters at the war front wear them. Little Alce Walters, not yet five years old, and she was there to sing Tipperary! The cheer subsided, but with the ending of her first chorus it rang again and again through the hall, while Alce and Coney looked questioningly at one another, wondering what they should do next. Nothing was said so the wee maiden scrambled over the cart back, under the canopy, and Coney trotted towards the wings. Of course they had to come back, for the Boy Scouts stood at once and clapped and cheered with the crowd. Again the cur-

tain went back, and there was a camp scene, early morning, a sentry on duty, the reveille, the fire-makers and breakfast preparers, and, gradually finishing their dressing as they appeared, came the rest of the campers. The evening scenes with songs, wrestlings and stories around the camp fire was a genuine bit of real life. When tents were sought, lights out, and the Scoutmaster lay reading by the fire, a hurried message was brought that men were injured in an accident not far from the camp. That introduced the next and last scene, exhibitions of First Aid work. Dr. W. L. Robinson, now Pathologist in the Toronto General Hospital, had instructed and drilled the Scouts in this work during the fall and winter months, and so far as anyone could see (and there were those in the audience who had been trained in the same work in Great Britain and in Eastern Canada) the exhibition was perfect. A welcome, by flag signals, was extended to the Summerland guests, and the Boy Scouts had made their first platform bows to the public.

Newsy Paragraphs from PEACHLAND

Mr. Kendall of Revelstoke was in town early in the week.

We are pleased to record an improvement in the case of Mr. W. Douglas.

Messrs. J. A. Miller, M. N. Morrison and son, Howard, were in Kelowna on Monday.

The Women's Institute will meet on Tuesday afternoon next. A good program will be given.

George Needham has secured a position with R. H. English in Summerland, and has gone to fill it.

Mrs. Seaton went up to Westbank on Tuesday morning to nurse Walter Cossar, who is suffering from a general breakdown.

Mr. Jas. Hayward and Mrs. Jas. L. Elliott were week-end visitors in Naramata, returning on Monday morning with Frank, who was on his way to Victoria, and Adelaide, who was married on the arrival of the train in Vancouver on Tuesday morning to Mr. E. P. Thorne, steam fitter and plumber of that city.

Mrs. Kenneth Hogg and little daughter, of Summerland, were guests of Mrs. George Lang for a few days last week.

Leonard Bell was in Vernon during the early part of last week trying his examination in engineering, which he was successful in passing.

The steamer "Sicamous" had some difficulty making port on Tuesday morning on account of the fog, which hung very heavy over the lake.

On March 1st the store changed hands, Messrs. Thompson and McCall taking over the business from A. Town. We wish the new firm success.

The Acquatic-Athletic Club will give an entertainment on the evening of March 26th. Proceeds to be used in purchasing supplies for the club room.

While Jas. L. Elliott was repairing a pulley on a gasoline engine on Tuesday last, it burst and part flew in his face, bruising and cutting him severely. After his wounds had been attended to he went on with his work, although suffering a good deal. We trust his injuries may be only skin deep.

The distance from Summerland to the Coast, over the Kettle Valley Railway, via Hope, is 245 miles. Via Sicamous it is 445 miles.

Whole No. 345

Road Camps Make Generous Grant to X-Ray Fund.

The fund being raised by the Ladies' Hospital Auxiliary was increased to the extent of \$54 on Thursday, and the ladies made the happier to that extent. It happened in this way:

Reading in the Review that the Summerland Ladies' Hospital Auxiliary purposed raising a fund with which to purchase an X-Ray outfit for the hospital, and, with his men wishing to help in this good work Mr. Jas. Michael the genial superintendent in charge of road construction between Summerland and Peachland invited the Auxiliary to send representatives to visit his camps to solicit for the above fund. The invitation was promptly accepted and two of the ladies drove out on Thursday morning, returning after lunching at the camp, which lunch was greatly enjoyed. The ladies were most enthusiastic over their reception which they pronounced as most courteous, and the liberal contributions of Mr. Michael and his men totalled the handsome sum of \$54.

THE WOMEN'S INSTITUTES.

The Summerland Women's Institute is very much gratified with the success of two of its members in the essay competition conducted last winter under the direction of Mr. W. E. Scott, Superintendent of Institutes, Victoria. This competition is carried on annually, and members of Women's Institutes are required to submit essays on prescribed subjects, which are judged at Victoria. In the last competition five subjects were offered and attracted in all 37 entries from all over the province. Mrs. E. H. Lock, now of Ladner, B.C., wrote on "Hot Lunches for School Children," and was awarded the first prize of \$10. On the subject, "How may the Problems of the Homemaker and the Newcomer be met by the Women's Institute?" Mrs. F. A. Williams gained the second prize of \$5. In each subject two prizes were awarded, and both these Summerland essays come in for some commendatory remarks by the judge. One other prize comes to the Okanagan, Mrs. W. H. Martin of Salmon Arm being ranked second to Mrs. Lock.

In the attendance competition, for which books valued at \$30 and \$20 are awarded to the two Institutes showing the highest average of attendance throughout the year, the Summerland Institute ranked seventh, with a percentage of 49.6 on a 1914 enrolment of 65. Salmon Arm is placed sixth with a percentage of 49.7, and Similkameen fourth with 52.5. This competition was won by the Summerland Institute last year. Of the first eleven Institutes in this competition, no less than seven are Kootenay and Boundary Institutes. To the two Institutes having the best programs, book prizes of \$20 and \$10 are also given. In this competition Salmon Arm ranked second to Chilliwack, first.

The regular monthly meeting of the Summerland Women's Institute will be held in the parlor of the Men's Club at three o'clock on Friday, March 19th. The roll call will be answered with quotations from Browning. Mrs. Reesor has kindly consented to give a paper on "Women's Rights and Privileges under the Law of B.C." Music will be furnished. The public are invited to attend. The second sale of bulbs, daffodils, narcissus, etc., will also take place, and members who have been growing these are asked to bring the plants to this meeting.

MAIL FOR THE FRONT.

In order to facilitate the handling of mail at the front, and to insure prompt delivery, the Post Office department are requesting that all mail be addressed as follows:—Rank; Name; Regimental Number; Company, squadron, battery, or other unit; Battalion; Brigade; 1st (or 2nd) Contingent; British Expeditionary Force, Army Post Office, London, England.

New Trade License And Milk By-Laws.

COUNCIL HOLDS REGULAR SESSION

Fixes On \$300 As Charge For Street Lighting.

It did not take the Council long to deal with the business placed before it at the regular monthly session held on Wednesday morning. Communications were light, and there were fewer citizens waiting on the Council than is customary.

Two tenders for ditching at Trout Creek point were received from two citizens of that section, and the contract awarded to John Smith for \$19.

A letter was read from the Hospital Society, advising the Council as to who had entered the Hospital as patients recently. This letter was interpreted as an intimation that the Hospital Society proposed looking to the Council for payment of all fees not paid within a reasonable time by the patients themselves, and by some of the Councillors at least, that the Council's offer of \$300 as a grant for the year had not been accepted. The letter evidently named every patient whether a probable indigent or otherwise.

Representatives of the cement pipe works at Peachland and of the Ingot Iron Flume Company waited on the Council in the interests of their companies.

The Treasurer was instructed to pay Mrs. F. A. C. Wright \$5 for damages to her rig caused by driving into an opening in a road.

Repairs to the road running from the Peach Orchard Gulch road toward Mr. Kerr's, were ordered.

It was decided in an informal way that the electric light department charge \$75 per quarter for street lighting, this being 5 cents per kilowatt on the current consumed from sunset to 1 a.m., deducting moonlight nights. This does not mean that the streets will not be lighted after 1 a.m., or during moonlight nights, but that the plant gets no credit for current used at that time. This charge is practically 50 cents per month, or \$6 per year per lamp. The lamps are sixty watts. Peachland pays 50 cents for thirty-two candle power lights. Penticton's rate for service extending from one hour after sunset to one hour before sunrise is \$30 per year per lamp of 100 watts. Kelowna pays 8 cents per kilowatt on the total amount of current consumed; current being supplied through a meter; street lights running from sunset to 1 a.m.

The Trade License By-law and the Milk By-law were each given their final reading, and adopted as finally enacted. The Milk By-law does not require the 50 cents fee per cow as at first advertised. The Trade License By-law is a thoroughly comprehensive one, and, while not imposing any heavy tax on local tradesmen or professional men, should yield a fair revenue and protect these against transient dealer, hawk or peddler. The license fees are payable every six months, and as follows:

Liquor retail, \$200; Restaurants supplying liquors with meals, \$100; Bowling Alley, Rifle Gallery, Skating and Roller Rink, \$2; Wholesale Merchant, \$25; Retail business exceeding \$100,000 annually, \$20; Exceeding \$50,000, \$10; Less than \$50,000, \$5.

A license does not cover two places of business. Hawker or peddler other than a resident farmer selling his own produce \$50.

Any person who sells, solicits or takes orders for sale by retail, goods, wares or merchandise, to be supplied by any person or firm outside municipality, \$50; laundry \$5; pawnbroker, \$125; automobile for hire, \$5; livery stable, \$5; bank, \$40; auctioneer, \$10; transient trader, \$200; circus, etc., \$50; sleight of hand, etc., \$5; transient real estate or land agent, \$100.

When taken out in advance a discount of 50 per cent is given off above fees.

The Ladies' Hospital Auxiliary meet next Tuesday afternoon at 3 p.m., at the home of Mrs. W. H. Hayes. After the regular business meeting the ladies will spend an hour or two at sewing for the hospital.

Summerland Fruit Union Ends Its Second Successful Year.

New Naramata Director and Successor to Mr. Logie Only Changes In Directors.

Important Addresses From Central Officials.

President and Manager of United Growers Talk on Vital Subjects.

The fact that the 1914 Board of Directors was re-elected for 1915 will no doubt be justifiably interpreted by the Directors of the Summerland Fruit Union as a vote of confidence. There were eighteen names in all originally posted as nominees. Seven of these withdrew, however, one being Mr. J. L. Logie, one of last year's Directors. As a result of the voting Mr. D. H. Watson succeeds Mr. Logie, and at the request of Naramata shareholders Mr. J. H. Pushman was put on the Board as their representative, succeeding Mr. H. J. Wells.

The fruitgrowers were in session from shortly after 2 o'clock Wednesday afternoon until 11 o'clock or later, with a short intermission for lunch between 6.30 and 7.30, which was supplied in the building by a number of ladies at the request of the Directors.

The afternoon session was occupied by the President's address, consideration of the financial statement, presentation and discussion of resolutions and considering future policy.

After disposing of some business carried over from the afternoon, the evening was devoted to addresses from Mr. J. E. Reekie and Mr. R. Robertson, President and Manager respectively, of the Okanagan United Growers.

PRESIDENT'S SPEECH.

In submitting the statement of the second year's business, President G. J. C. White gave a capable and lengthy address, which displayed his grip on the fruit business in all its phases.

Dealing first with the disappointing results of last year's marketing, and some of the reasons for the low prices, Mr. White pointed out some of the more encouraging features. Apricots, small fruits and early vegetables had brought better prices, and though prices later were not so satisfactory, practically all the crop had been marketed and the growers had gotten either goods or money in good time. Pre-cooling experiments had resulted satisfactorily, the fruit carrying to Revelstoke or even Calgary before needing ice. He intimated that the Union had saved to its members \$1,163 in reduced packing charges, \$500 in seed, and \$1,400 or more in the purchase of feed, etc., besides saving a good sum in the cost of spray and fertilizer; the total saving on these being equal to 7 cents per box on all fruit handled. The Directors had recommended that one-half the amount retained for operating charges be refunded to the growers.

With a further reduction in the price of packages and expenses both at central and local, Mr. White hoped that business could be done even more cheaply next year. An increase in business would help to accomplish this; the larger the volume, the less proportionate overhead charges.

SHIPPING BY K.V.R.

The upper warehouse had been sub-let last year, but the Union will this year probably have to have the warehouse to handle fruit going by the K.V.R. The Board had under negotiation the building of a spur from the railway towards West Summerland, and the moving of the warehouse to a site beside it, placing it over a frost proof collar.

A pleasing tribute was paid to Jack Craig, a member of the staff, who is now across the sea in the service of his country.

The opening of another packing and shipping house, the question of by-products, and whether the import business should be extended will be problems for the new Board to deal with. Mr. White predicted

the necessity of employing an inspector and instructor to supervise growing, gathering and shipping of early and tender vegetables, and recommended advertising special lines and the circulation of leaflets describing them and telling how they may best be used. He recommended that the railway be asked to supply a man to check cars in loading, as a precaution against mistakes and claims for shortage. It was hard to say what the future has in store, but the United Growers are getting more and more of a hold on their natural market. New and good markets are also being opened in Australia, South Africa and Great Britain, with the possibility of getting to South America, where apple prices are high. The Union hopes to meet low prices with cheaper packages and reduced expenses. Buyers are enquiring for our fruit, showing that it is appreciated and that they expect a market for it, and as the coming season should be an "off" year in the older orchards across the line, there should be less competition.

LESS LIQUOR, MORE FRUIT.

It order to make it possible for people in our own markets to buy larger quantities of fruit, Mr. White suggested that it would be well to advocate prohibition of the liquor traffic. "The nations are awakening to the great waste this business entails, and are calling for restraint. The agitation is on all over Europe as well as in America. Our rivals in the fruit business to the South are fast getting rid of it. Our own country could afford to buy more fruit and would have a better appetite for it if the whisky was gotten rid of. For business reasons if for no other, every fruit grower should be a prohibitionist. Why should we not take a stand in this question? Our neighbours in the co-operative movement, the grain growers, have given a definite pronouncement of their stand."

The disastrous results of internal competition, and how this was being eliminated by the American grower were dealt with by the President. With further words of encouragement Mr. White urged that the fruit grower stick to his business and make it a success, even if all cannot see eye to eye in the methods of co-operative marketing.

FOR MEMBERS ONLY.

After many questions had been put and given, the financial report was adopted, which showed a profit of practically \$2,000 in the year's operations.

A motion, proposed by H. J. Wells, seconded by Jas. Ritchie, that the Association deal only with members caused a good deal of discussion. Mr. Wells pointed out certain abuses, and how true co-operation was being hindered by providing non-members with material, and shipping their fruit. Mr. Ritchie was surprised when he learned that the Union was dealing with any but members. Granted these privileges there was little inducement for growers to become members. After being again discussed at the evening session this motion was virtually adopted, the directors being given discretion in exceptional cases.

A motion was carried asking the C.P.R. to grant the via Hope rate to the Coast at once, though goods will be shipped for a time via Spence's Bridge.

As an appreciation of the good work being done by the B.C. Fruit Growers' Association, and to strengthen their hands, the directors were instructed to make every member of the Union a member of the Association.

In reply to a question from G. R. Hookham, the Chairman stated that

(Continued on page 2.)

Local Elections Saturday, April 10.

LEGISLATURE DISSOLVED MONDAY

Possible Candidates For South Okanagan.

After a comparatively short session, the Provincial House was dissolved on Monday. Premier McBride will appeal to the electorate to support his railway and other policies, and the date for election has been fixed at Saturday, April 10th.

Our former representative, Hon. Price Ellison, has retired from the Cabinet, but intends to go before the convention in Northern Okanagan. Who the candidates for and against in our new Southern Okanagan district will be, is not yet known, although certain prominent citizens have been mentioned.

The northern boundary of the district is an east and west line about midway between Kelowna and Vernon. Kelowna will thus be the largest centre in the district, and it would seem that the candidates will be selected from among the residents of that place.

LATER—The local Conservative Association, as announced elsewhere in these columns, will meet on Monday afternoon to select delegates to a convention to choose a candidate for this riding. No definite move has been made by the Liberals, although it is expected similar action will be taken shortly. The names of Mayor Jones of Kelowna and W. A. Lang of Peachland are mentioned as possible Conservative nominees. For the Opposition, Mr. Rogers, Principal of the Kelowna High School, who was heard here in a lecture this winter, Mr. Sutherland, and Mr. de Hart, all of Kelowna, are talked of as possible candidates.

Second W. C. T. U. Contest.

Very Successful Entertainment Last Monday.

The Men's Club was the scene of the second silver medal oratorical contest, under the auspices of the W.C.T.U., on Monday evening, and as was predicted, this entertainment was no less successful than its predecessor. There were six contestants, but who had prepared recitations, but No. 3, Miss Pearl Darkis, was prevented by a cold at the last moment from participating. The remaining five contestants gave very good accounts of themselves, and some of the recitations seemed so uniformly excellent, that the judges, Mesdames Frank Wilson and A. H. Steven, and Mr. C. W. Lees, must have found their task by no means a simple one. The medal was finally awarded to the last contestant, Miss Gertrude Angwin.

A very acceptable program had been arranged, and to this vocal solos were contributed by Miss Anna Hayes, Mrs. F. Wilson, Mr. T. G. Benvis, and Master Fraser Lister, while Miss Edna McLeod rendered an instrumental selection.

A most effectively carried out item was a flag drill, in which sixteen girls took part, and for which the ladies of the W.C.T.U. feel much indebted to Mr. S. F. Sharp, for the careful training he gave the participants. The four Allied nations of Britain, France, Russia, and Belgium were represented, and each group sang the national anthem of their respective nation, after which a pretty flag drill was carried out very precisely. It made a most appropriate and strikingly patriotic number.

Rev. C. H. Daly was chairman for the evening, and as such presented the medal to the successful elocutionist. The collection taken up during the course of the entertainment amounted to over \$11.

The program was made up as follows:

- Maple Leaf
- Chairman's Remarks
- Song, Fraser Lister
- Contestants Nos. 1 and 2, Misses Belle Vandenburg and Ida Shields
- Solo, Miss A. Hayes
- Contestant No. 4, Miss Lizzie McGraw
- Solo, Mr. T. G. Benvis
- Contestants Nos. 5 and 6, Misses Hazel Stewart and Gertrude Angwin

Musical Treat Put On By College Auxiliary.

Good music never goes unappreciated in Summerland, and the concert on Tuesday night in the College Gymnasium gave the good crowd of music lovers who attended something of the best. The seats in the big hall were well filled, so that the audience could not have been less than about two hundred and fifty in number.

The three artistes of the evening were Mrs. F. Wilson of Vancouver, soprano soloist, Miss Phyllis Higgin, violinist, and Prof. W. H. A. Moore, pianist. Mrs. Wilson had been visiting Summerland for about two weeks, and earlier in her visit had sung on several occasions, greatly to the delight of those able to hear her. Neither those who had been so favored or those who had not were at all disappointed on Tuesday evening. Her four appearances on the platform gave eleven songs, and in addition she responded three times to calls for an encore. If it is possible to pick out one song above another when all were so admirable, it may be said that her Irish song, "The Kerry Dance," and the well-known "Rosary" by Nevin, were extremely popular. Other of her songs that carried great appeal were "Just Awearying for You," and "Forgotten."

Two violin selections from Miss Higgin seemed scarcely enough to the audience on Tuesday. Miss Higgin maintained her high reputation for finished playing, and the reception she had showed that her contributions to the program were highly appreciated. Her sister, Mrs. H. J. Collas, accompanied her on each occasion.

Mr. Moore is known enough locally for his audiences to expect a great deal of pleasure from his pianoforte selections. He played twice on Tuesday, in addition to most of the accompaniments, and in such a manner as left no doubt in the minds of his hearers as to the high place he holds in the plethora of local musical talent.

Principal Everton of the College acted as chairman, making a few brief introductory remarks announcing the numbers, and voicing the feelings of the entire attendance at the close when he spoke again on the thorough enjoyment of the concert had provided. The ladies of the College Auxiliary are to be congratulated on their enterprise in taking advantage of the visit of such an accomplished vocalist as Mrs. Wilson, and also on the success with which their enterprise was carried through. The proceeds of the evening, \$65, must have been gratifying indeed to the Auxiliary.

PROGRAM.

- Piano Solo, Valse in E major, Moszkowski
- Songs, The Swallows, Cowan
- Just a Wearying For You, Shadows, Carrie J. Bond
- Violin Solo, Sonata, Grieg
- Songs, The Fairies Lullaby, Allea Needham
- Two Eyes of Grey, Daisy McGeouch
- The Rosary, Nevin
- Piano Solo, Scherzo in B flat minor, Chopin
- Songs, I Hear You Calling Me, Marshall
- If I Built a World For You, Liza Lehmann
- Forgotten, Cowles
- Violin Solo, Two French Songs, 17th Century, Couperin
- Songs, When All Is Still, Croome
- The Kerry Dance, Molloy

HOSPITAL ACCEPTS GRANT.

The Hospital Board met in regular monthly session on Monday. Among other matters of business dealt with, a motion to accept the Municipal Council's offer of a \$300 grant in lieu of payment for indigents entering the Hospital was carried.

It was decided to have a Garden Day for the purpose of grading and preparing the grounds about the Hospital, and to ask for volunteers, men and teams, for this purpose. This work will be done next Tuesday and Wednesday.

- Flag Drill by 16 Girls
- Chorus, "Tenting To-night"
- Piano Selection, Miss E. McLeod
- Presentation of Medal
- Solo, Mrs. F. Wilson

PROVINCIAL ELECTION AND REDISTRIBUTION.

THE PROVINCIAL LEGISLATURE was prorogued on Saturday of last week, and formally dissolved on Monday, the 8th inst. In making the important announcement at Victoria, Sir Richard McBride also stated that there might possibly be some minor changes in the Cabinet. Sir Richard will appeal to the electors mainly on a program for the early completion of all the railway projects now under construction in the province. The election will occur on Saturday, April 10th.

Hon. Price Ellison, present member for the Okanagan and Minister of Finance and Agriculture, is one who will be missed in the new Cabinet. He is getting well on in years, and is likely soon to be elevated to the Senate. His resignation was made public during the past week. No selection has yet been made of a successor in his portfolio.

The new Legislative Assembly of the province will consist of forty-seven members, as compared with forty-two at the present time. Legislation was introduced at Victoria last week authorizing this change, embodying on the whole the findings of the Commission on Redistribution which recently presented its findings to the government.

The new districts are made up by the following changes and additions: Vancouver City will have six members, as compared with five at present. New electoral districts, known as North and South Vancouver, are created, and will each return one member. Cariboo, which has heretofore returned under that title two members, is now divided into two electoral districts, to be known as Fort George and Cariboo, each of which will return a member. A new district, to be known as Omenica, is created to return one member. The Okanagan will be split into two constituencies, North and South. In the former is Vernon and the contiguous area. The principal centre of population in the South electoral district is given as Kelowna.

This redistribution bill came into force automatically on the dissolution of the Legislature.

NELSON, B.C., took a good stride in the right direction when it caused copper one cent coins to be introduced into the city at the first of the month. The pennies were issued from the banks and needless to say they were in strong demand. Their introduction all over the province would materially assist British Columbians in the eternal race with the high cost of living.

HEREAFTER the leader of the Opposition in the Provincial House at Victoria will receive a special salary of \$1,500 annually, in addition to the regular sessional allowance. This becomes effective immediately, in accordance with a measure introduced a few days ago. In adopting this policy the McBride government falls into line with the practice at Ottawa. Mr Parker Williams, Socialist member for Nanaimo, will be the first recipient of this newly authorized salary, as opposition leader for the past session.

LIEUTENANT GOVERNOR BROWN of Saskatchewan is credited by the Penticon Herald with the astounding statement that nearly all the apples used at Government House were from Indiana. This is not the kind of loyalty that is being preached throughout the country at the "patriotism and production" conferences, and emphasized by one of the speakers at the conference here last week. We should expect better at least from those holding prominent public positions, such as does the Honorable Mr Brown.

THE MAN who edits the average country newspaper cannot well avoid treading on somebody's toes occasionally; must expect to be censured often for unintentional failures; must expect hard work and little thanks; must expect to be called a coward because he does not "pitch into" everything that somebody thinks is wrong, and a fool if he speaks out too plainly on public evils; he must expect to grind other people's axes—and turn the grindstone himself. Still we think it is one of the noblest professions on earth; the one in which the earnest man can do the most good to his fellow man, and one in which an honorable man can wield power for good.

Town	17	11	64.7 259 176
College	16	8	50.0 224 197
West	17	7	41.1 240 298

The College seniors are making a strong bid for the Rowley trophy, and if they are not successful in landing the shield, it is certain they will lose it only by a very small margin. Both their teams won out against the Wests last Friday, and by good margins. The Wests are unfortunate in having difficulties in keeping their two teams up to strength, having to draw upon other teams for men.

The intermediate game was all in the College favor, and the final score of 28-7 showed how completely the Wests were discomfited. The College forwards seemed to be in good shooting trim, and put the baskets in pretty freely. To make up their team the Wests had to enlist the services of a Town man, and they never seemed able to settle down to any thing like the combination they have showed at times.

In the senior encounter following the College again had the better of the argument. They went ahead in both halves, and worked up a long score, 30 to their opponent's 10. One of the Town guards, J. F. Glenn, was doing duty for the Wests, but the team did not hang together very well, and the College were able to get in a good deal of successful passing, especially among their forwards, and very often these streaks of good combination found just rewards in a basket.

SUMMERLAND FRUIT UNION ENDS 2nd SUCCESSFUL YEAR.

[Continued from Page 1.]

one share was enough to give a man the privilege of buying feed, but if he were a land owner, and wished to buy boxes or other orchard material, or ship his fruit through the Union, he must have one share for each five acres.

Mr J. L. Logie, in withdrawing his name from nomination, stated that the 10 per cent. clause had forced him to market his fruit through other channels, as he had always sold more than 10 per cent. of his crop privately. He believes in co-operation, but did not favor selling through the brokers.

A motion was made by Mr J. A. Kirk to the effect that a grower have control of his fruit until sold, and that Central keep the growers fully informed as to market conditions. He complained of slow returns, which was explained by the Chairman as being due to the slow closing of pools of consigned fruit. He stated that he had not gotten cost of production, and had he known the prices he would not have shipped. H. J. Wells, speaking to this motion, urged that the growers elect the very best men from among themselves to do their business, and then get out on the fruit lots and grow the best possible stuff. This motion would make it more difficult for Union and Central. Mr Hayes asked Mr Kirk if, having grown his tomatoes, he would not rather ship and get cost of handling, than allow them to rot. There was a good deal more discussion on the subject, and it was finally left to be taken up with other motions later.

At the opening of the evening session Mr Hespeler asked if a member would be privileged to ship the fruit from an adjoining lot without additional shares, the answer being in the negative.

PRESIDENT REEKIE.

After the disposal of some further business Mr J. E. Reekie, President of the Okanagan United Growers, was asked to speak. Among other things he touched on the marketing problem, which was giving him and his associates a great deal of worry, and was occupying much of the minds of the directors and general manager. New conditions had caused changes of mind and certain revisions of policy.

The reason why they had sold through the Mutual Brokers had already been explained, and a comparison of results in Canada and Western States were favorable to our Central. However, these are not satisfactory, and changes are needed. The question was whether

Morelock reappeared on the College line-up, and signalized the event by donating 10 points to the score in the first half from field baskets and two fouls. McLeod and Cochrane backed this up with two baskets apiece, making the College half time total 18. For the Wests Darkis and D. Steuart had scored from the field and Glenn also, with two fouls as well, making their interval score 8. In the second half the Wests were only able to get one basket, Darkis being the scorer. The College were again strongly in evidence, but not to the same extent as in the first period. McLeod was the second half star with three baskets from the field, Cochrane made another, and Morelock one and two points on fouls, raising the College to the high end of the 30-10 score. The teams:

College	for.	Wests
L. Morelock	for.	R. Darkis
M. Cochrane	..	D. Steuart
J. McLeod	cen.	W. Mumm
A. Vanderburg	gd.	G. D. Fisher
C. Riley	..	J. F. Glenn

The game scheduled for Tuesday of this week was not played, the Wests preferring to default to the Town, rather than bring down their two teams. The league table therefore shows these two games credited to the Town teams with a 2-0 score in each case.

To-night's game in the Men's Club, when the College and Town come together, is going to be "some game," if indications are anything to go by. For the College this game will decide if they are still to have a look in for the championship or not. The Town team is also likely to do its "darndest" to clinch its hold on that trophy, and it is likely that a good crowd of rooters will be in evidence to do their share, and watch the fortunes of the league.

er the Growers should be their own wholesalers or at least sell to the wholesale direct. He had found that those who were recommending these changes were outside the Union, and refused to come in and help. Personally he did not favor passing the wholesalers, and the cost of selling through travellers would be so great that the results would be disappointing. On the other hand, the travellers might give them a better outlook on market conditions. Again, if the Mutual Brokers were cut out, this would mean cutting off 75 per cent. of the market. Mr Reekie gave instances of how this would result. To go direct to the retail trade would be a grave move indeed. There would be a huge expense, and he thought the returns would be even less than now.

In recent conversation with the brokers, he had told them that unless they could do better the growers would be forced to go on to the market themselves, and that the result would be that both would suffer. He was satisfied the Mutual Brokers would rather buy at an f.o.b. Valley price, and they claimed to be in a position to give as good prices as the growers can get in any other way. Though admitting some weak points, and the possibility of the growers getting the worst of the bargain, Mr Reekie seemed to favor making a proposition to the brokers to buy the entire crop at a price, rather than ignore them, and attempt to fight them in the open market. With this method the growers would know what they were getting, and the expenses of pooling, etc., would be reduced. There are many reasons why the brokers would be disposed to give the best price they could stand. They would figure that if the growers went into the market they, as well as the grower, would lose money, and to prevent this they should be prepared to give a price that would give fair satisfaction. They possibly handle five times as much as the Growers' total output will be, and would therefore stand to lose five times as much. He believed they were disposed to handle the stuff that must go on to the prairie market. Under this method there will be less tendency for price cutting at week-ends. Eventually the growers may be forced on to the market with their own salesmen.

Mr Reekie said the market for main crop vegetables did not look good, the prairies were growing more and more vegetables, and this year would probably show big increase. However, this does not apply to early vegetables, of which a specialty is being made here.

Mr White said that in speaking with brokers who had recently visited (Continued on page 6.)

LIFE would be flat and colorless for both young and old without some pleasure to give it piquancy.

So with food. A relish creates pleasure and appetite for your meals. It is oft-times as much of a tonic as the best prescription handed out by a physician. It is your duty as a careful housewife to get the best in relishes. Bad relishes spoil good food.

WE aim to keep the best in these as in everything else—delicious Jams and Jellies that are made with pure sugar, and keep the natural flavor of the berries. Pickles preserved in the finest malt vinegar. Sauces of the best brand—all the hundred and one delicacies that help to make your daily meals more pleasing.

If you want any Relish we have it. Come in and look over stock.

Early Vegetables : How To Grow Them

Equipment Necessary. Transplanting.

The Editor, Summerland Review.
Dear Sir,

While attending the various Farmers' Institute meetings throughout the southern portion of the Valley, in company with Messrs. Winslow and Smith, I explained somewhat my method of growing early vegetable plants. At the conclusion of several of the meetings, we received urgent requests to have the information given in printed form. Therefore, Mr. Winslow urged that I should offer it to the various papers of the southern portion of the Valley for publication.

As it is already too late for the starting of the seeds for the earliest crop, I will not take up space by giving directions for this portion of the work, but will assume that those who will be growing such crops already have them started in hothed or greenhouse.

I find that I get best results by keeping a night temperature of 55 to 65 degrees, and, during daylight, 10 to 15 degrees warmer. It should always be remembered that they will stand a much warmer temperature during a sunny day, if some ventilation is given, than if confined in a close atmosphere. The watering of the plants while confined in whatever inside quarters, is always of extreme importance. Too much water causes soft tender plants. It is, therefore, much better to give only sufficient water to keep the plants growing healthy, and it is better to let the soil dry fairly well before applying water, and to give a fairly good watering when it is applied. This produces much better results than applying it little and often. Plants usually keep healthier if watered in the morning so that it is thoroughly dried off before the following night.

My plants are all grown in flats or shallow boxes, being 12in. wide by 24in. long and 4in. deep. I have been able to produce much more satisfactory plants by growing them in this way.

With the tomatoes, three transplantings are made; the first as soon as the first two rough leaves are pushing out fairly well. At this time we give them about 2 in. of space. They are transplanted again when they begin to crowd too much. To secure the largest and earliest plants, there should not be more than eight plants in a flat at the last transplanting. As the majority of growers are limited as to space, ten or possibly more plants might be grown in a box with a fair degree of success. At the last transplanting, the boxes are filled about full of soil. Only about 2 inches of soil is used at the first transplanting. For this late transplanting many will be obliged to use cold frames, covered simply with cotton as a protection. However, much better plants can be grown if cold frames, covered with glass, can be erected to give sufficient space under which to keep the plants until going to the field.

The best style of cotton cold frame which I have used is made by having the length of the bed running east and west. A warm location should be chosen for this. If on the south side of a building, or other protection, much better

plants may be expected. I make this frame by building a north wall of boards, 2ft. high, and a south wall, 1 1/2 ft. distant, and about 15 in. high. These are connected by using rafters made of 1in. x 4in. boards, placed about 4 ft. apart. These frames can be made any length to suit the requirements of the grower. I usually get cotton 1 yard in width, sewing four pieces together and fastening to the north edge of this frame by extending it over the north wall sufficient to receive a row of ordinary house laths. By using three or four nails to each of these the cotton is made secure. By using strips of lumber 1in. x 2in., in size, and nailing two of these together in such a manner as to break the joint, one can make a pole any desired length. The cotton is made fast to these, hence it is easily rolled up, exposing the plants at any time for watering or to give additional ventilation. This cotton covering should extend over either end of the bed 6in. to 8in., where it should be secured. This class of cold frame does fairly well for the last transplanting, giving considerable protection during cold windy weather. If frost threatens, sprinkle this cotton with water, when it will full up and freeze, which makes it quite sufficient to keep off a considerable amount of frost, if fairly heavy cotton is used, and this is always advisable.

In all cases and with all varieties of vegetable plants, when they are about to be transplanted, it is very important that they should receive a good watering three or four hours before disturbing them, giving them time to drink up all the water they can contain, as, after the roots are disturbed, they cannot again feed themselves until they push out small rootlets.

As quite a number of people are attempting the growth of sweet peppers, I might state that my method of growing these is to start the seed nearly as early as the tomatoes, making two transplantings instead of three, as with the tomatoes. These do not require nearly so much space as tomatoes, even for the last transplanting. We grow about 28 plants to a box. For both of these crops I attempt to get the plants hardened off, in good shape to go to the field, as soon as it is considered safe from frost, as the earlier they are put in their permanent quarters the earlier the crop will be, provided the plants escape injury from severe weather.

As we have received many inquiries regarding the growth of cucumbers and cantaloupes, I will undertake to give directions for these crops within a week or so, as the seeds for these, even if abundance of hothouse space is available, should not be started until late in April. To anyone wishing to secure seeds for these crops, I would suggest to use for cucumbers, Arlington White Spine, and for cantaloupes I have had best success with Hoodoo. Burpee's Fordhook is also a very good variety.

Yours faithfully,

J. L. HILBORN,
Manager, Provincial Southern Okanagan Fruit and Vegetable Experimental Station.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

OKANAGAN DISTRICT.

FERRY—SUMMERLAND-NARAMATA, OKANAGAN LAKE.

In accordance with chapter 85, R.S.B.C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as Naramata, a distance of about two miles and three-quarters.

Applications will be received up to 12 o'clock noon, Monday, 22nd March, 1915.

The charter will cover a period expiring on the 31st March, 1916. The ferry shall make two trips each way every day, weather permitting.

Applicants shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of the "Canada Shipping Act" and amending Act.

Applicants shall state the tolls they propose to ask for—

Each adult passenger.
Each child (not in arms) under thirteen years.

Each head of cattle, horse, mule, or donkey, etc.

Each calf, sheep, goat, or swine, etc.

Each vehicle with one horse and driver.

Each cart or wagon with one horse and driver, loaded.

Each vehicle with two horses and driver, unloaded.

Each vehicle, with two horses and driver, loaded.

Each automobile and driver.

Each parcel of 25 lb. and under.

Freight, per 100 lb. and under, non-perishable goods.

Freight, per 100 lb. and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of two hundred and fifty dollars (\$250).

The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.

J. E. GRIFFITH,
Deputy Minister and Public Works Engineer.

BRITISH COLUMBIA AT THE PANAMA EXHIBITION.

You certainly get the main gate entrance fee in visiting Canada's British Columbian exhibit alone, wrote a resident of San Francisco to a Naramatian. There are thousands of Canadians here, and all will go to the grounds and take a friend, for they cannot help being proud of their own nation for what it has sent to the exhibition, and no Canadian, however Americanized, can go through the building without feeling a thrill and a question arising within him as to why he ever left home.

A SATURDAY NIGHT SURPRISE.

North Crescent Bungalow, the home of Mr and Mrs. D. Ogden Hughes, was invaded on Saturday last by friends bent upon spending a happy evening. Musicians were in the majority, and songs, games, more songs and instrumental music whiled away the hours until the surprise supper was served, after which Auld Lang Syne and the National Anthem sped the guests upon their homeward ways. Among those who arranged the pleasures of the evening and took part in them were Mrs Allen, Mr and Mrs T. I. Williams, Mr and Mrs Bruce, Mr and Mrs King, Mr Pitman, Mr Mackie, and Mr Gerald Williams.

A personal letter from San Francisco, California, reads, "This being a great fruit and fruit canning country the growers and distributors are trying to get the British trade, and would like publicity in the English and Scotch papers. Great Britain is the market we are trying to cater to. Since the Panama Canal has been opened the exportation of our canned fruit has been enormous. I think the growers will get great prices from now on, and the canneries will have to enlarge." This letter goes on to say: "Okanagan apples are certainly away ahead of any grown in California, and I have no doubt that your small fruits have more flavor than ours."

Anglican service will be conducted in the union church building at 8 p.m. on Sunday next, 14th March, by the Rev. H. A. Solly of Summerland. A ferry will leave Naramata for across the water about 2 o'clock, making a second trip from this side after the service.

Current Events
— OF —
Town & District

Mr R. Dunrobin of Dunrobin pre-emption spent Thursday of last week in Naramata.

Mrs Languedoc went down to Penticton on Tuesday to spend a few days with friends there.

This is citizen's night at the Epworth League meeting in the assembly hall at eight o'clock.

Dr and Mrs R. C. Lipsett spent last Thursday at the Hotel Naramata with the Misses Robinson.

Mrs Campbell Robinson with her little daughter came over from Summerland with the Misses Robinson last week and remained for a visit.

H. W. Endacott went away on Thursday morning to Three Hills, Alberta, where he has 100 acres ready for wheat raising, besides going extensively into stock.

Miss May Foster, teacher of the primary division of the public school suffered from a severe attack of la grippe last week, and was unable to instruct her classes on Thursday and Friday.

Scoutmaster Pitman has been entertaining the members of the Boy Scout corps at dinner on successive Sundays for some time, Harold Allen and Hedley Reesor being his guests this week.

Mr Ireland and family have moved to a house near by the Brown cottage in which they spent the winter; Mr Partridge having purchased that part of the McKay property for a temporary home for his family.

Mr and Mrs Finzel have vacated the Deans cottage, and are again in their summer home. Mr and Mrs Deans are returning from Montreal immediately and will occupy their cottage. Mr Deans will assist Mr H. J. Wells on his ranch during the growing season.

Needlework, tea chat, and an account of conditions in and around Belgium read by Mrs Cash made the two hours meeting of the Unity Club pass pleasantly last Friday afternoon, when Mrs Languedoc and Mrs O. Houghes entertained the members. At the next meeting on Friday, March 19th, Mrs Mitchell and her daughters will be the hostesses.

Word has been received by Mrs Carroll Aikins from Mr W. E. Scott, Superintendent of Institutes, that the inaugural meeting of the Women's Institute is called for Tuesday, 6th April next. It is expected that Mrs R. C. Lipsett, member of the Government Advisory Board, will be present at this meeting in the Unity Club building. Regular officers will then be appointed, and the business of this branch begun in earnest.

Accompanying the Naramata Boy Scout troop to Penticton last Friday night from Summerland were Scoutmaster Tait, Scouts Wm. Smith, D. McIntyre, and H. Harris, also Mr T. G. Beavis; Mrs Dean Walters and little Miss Alice, Captain and Mrs Languedoc, Mr and Mrs Peter Roe (Mrs Rowley of Summerland and Miss Edith with them), Mrs Allen, Mrs O. Hughes, Miss Violet Mitchell, Messrs Bruce, Boothe, Gerald Roe, Alex. Noyes, G. Reesor, and Norman Mitchell from Naramata.

Naramata Current Events

Mrs J. H. Pushman and little Miss Grace spent part of last Friday in Summerland.

Mr Fred Lorne Roe came up to Naramata from Penticton with the Boy Scouts last Friday night.

Mr Norman Mitchell went to Three Hills, Alberta, with Mr Endacott on Thursday morning.

Many young people of Naramata attended the dance in Summerland on Thursday evening of last week.

Mrs Ogden Hughes is spending a few days with her cousins, Mr and Mrs Robert McDougal of Penticton.

Mr John Noyes will return to Princeton Crossing to finish the wood milling work for Mr Chapman.

On Friday afternoon of last week a landslide partially blocked the Allen line road leading to the north benches.

Mrs John Noyes and her daughter, Miss Edna, were "At Home" to a number of friends on Thursday afternoon of last week.

The return of Mr Burnett to Penticton has caused the question to be asked—"Is it in connection with the proposed lake shore railway line?"

Rev. T. Irwin Beatty preached in the Methodist Church, Penticton, both morning and evening on Sunday, and remained a guest at the parsonage until Monday afternoon.

At next Monday night's Literary Club meeting Mrs Buchan Reesor will read a paper on Journalism. There will be recitations, general choruses, and instrumental music as well.

Mrs Mitchell received with her daughter, Mrs Nuttall, last Tuesday afternoon, in the cosy Lake Drive cottage, when many visitors took advantage of the spring-like day to spend a longer time than usual with their popular hostesses.

Rev. R. Thompson drove up with Mr Dempsey from Penticton last Sunday morning, and was the house guest of Mr and Mrs Russell Wells until Monday noon. The sermon preached by the Rev. gentleman, was a rare one, and following the morning service was the celebration of the Holy Communion.

Mr and Mrs Partridge, with their four children, moved into the Brown bungalow, purchased from Mr Daniel McKay, on Tuesday. Mr Partridge's farm in Alberta was divided into town building lots upon the advent of different railway lines near it, and sold. In coming to the Okanagan he sees great possibilities, and expects to go into the business of fruit producing, buying and marketing, with a keen eye to the money making end of it.

[Other Naramata news on page 6.]

BY-PRODUCTS.

"Many of the by-products of the banana are rapidly coming to the front, the principal ones being a flour, from which an excellent bread is made; an oil for furniture polish; a rough cloth from the fibre of the plant; a vinegar, and superior sugar."

WHAT ARE WE DOING WITH APPLES?—Marketer.

Dancing Master—You must mind your feet carefully if you want to learn the new dances. Student—Never mind the feet, professor; what I want to get is the holds.

SUMMERLAND FRUIT UNION ENDS 2nd SUCCESSFUL YEAR.

(Continued from page 2).

ed the Valley, they advised that it would be better to pull out apple rather than peach trees, as they believed the outlook for yellow flesh peaches was good. McIntosh apples were also recommended as being much in demand. Mr White also reminded the meeting of the action of Commissioner Smith in recommending the Hartzle small fruit growers to sell their car lots through the Mutual Brokers. The reason being that as they already controlled a large part of the fruit entering the prairie markets, they would prefer to give a decent price rather than let it go by them to demolish their market.

In a speech of two or three minutes Mr Hilborn said that he had heard a good deal of criticism of Central, but the more he learned the more he was in sympathy with the movement. Mr Hilborn made some suggestions and recommendations as to the growing and marketing of early vegetables, and approved of the proposed method of sending salesmen to the retailer for early vegetables by express. The biggest difficulty in this industry is that many do not grow the best varieties, or know when to pick, and he believed there was an unlimited market for early vegetables, melons, etc., if properly grown and handled. To a question, he stated that one salesman should be enough at present.

Passing Events: Social, Personal, &c.

Mr John Steuart returned last night from a visit to the prairies.

The regular quarterly communion service in connection with the Presbyterian Church will be held in the Methodist Church next Sunday afternoon at 3.30 o'clock.

F. C. Edgar, who up until the first of the month was with the Supply Company, boards the boat to-night en route for Ottawa. He plans on making several stops on the way.

The next meeting of the Young People's Guild will be a celebration of St. Patrick's Day in the St Andrew's Church next Wednesday evening. Irish readings and songs and a brief address on St Patrick.

Mr and Mrs Muir Steuart returned to Summerland on Wednesday evening from Regina, Sask. where they have made their home since their marriage last November. Mr and Mrs Steuart have been receiving a warm welcome back from their many friends here.

Methodist Church services will be conducted on Sunday next by the Rev. R. W. Lee. In the morning at 10.30 a.m. the subject of address will be "Christians in the Stocks." Mr. T. G. Beavis will sing. The evening service at 7 p.m. will be held in St Andrew's Church, the subject of discourse being "Making the Most of Time."

Spring work is proceeding very briskly at the Experimental Farm, the open season permitting of work on the land being taken up in real earnest. The land is being cleared of stumps, brush, etc., and a number of local men have lately found employment in this and other work which is now being undertaken. New machinery has been purchased, including ploughs, harrows, pulverizer, and such like implements, in readiness to treat the soil, when that work is put in hand. Superintendent Helmer is now in residence at the farm, moving down from Peach Orchard with Mrs Helmer and family last week, and occupying temporary quarters that will serve until the substantial residence is put up during the coming summer.

That the co-operative movement has made progress in the last two years, and too, people are beginning to realize if they are going to stay in the business, they must get closer to Mother Earth, was the declaration of Manager Robertson, who, continuing, said, "you think you know all about co-operation, and two years ago I thought I knew about it too, but I am just beginning to realize what it really means. It is like the other and the larger true Gospel, hard to put into real practice even those things we know to be right. The principle of co-operation cannot be killed; it is an everlasting principle. A man can not do co-operative work who is selfish." Similar pointed remarks were directed to the men who stayed outside and criticised, and would not modify their views in the least for the benefit of their fellowmen. In Saskatchewan, grain growers pledge themselves to abide by the majority rule, whether they individually agree with it or not. The contract would bind members together, later to become knit together in a common interest. While working along sound business principles, they were yet a long way from attaining perfection, but there is no need to be discouraged. Mr Robertson does not blame the war as being the cause of low prices, but rather the general financial conditions. The West had been aeroplaning, and suddenly found that it had not renewed its gasoline. A reaction from real estate speculation had to come. This, the anticipated large crops, causing the buyers to hold back, and the whole uncertainty led to a consignee market. Internal competition had caused a loss to the Valley estimated at from \$100,000 to \$200,000.

Across the line they are wrestling with the problem of marketing and had been holding three sessions a day for three weeks. They have finally gotten all their large shipping companies to bind themselves in a contract to abide by the policy of a Growers' League, which League appoints a board of ten, and they a committee of three to direct marketing operations along one established line of action. Mr Robertson declared this would mean 75 cents a box to us on peaches if they maintained control of their market. Some of the results accomplished

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Mr Gordon Dinning was a visitor down from Kelowna over last week-end.

Under the Okanagan Ambulance League, the Treasurer acknowledges with thanks the \$23 donated by the St Andrew's Church.

Our readers will be pleased to learn that there is a marked improvement in the condition of Mr G. W. McLaren, who has been ill for some time.

An Athletic Concert is announced to be held on the evening of Friday, March 26th, in the College Gymnasium. An excellent program, both in gymnastics and music is being prepared.

His Lordship the Bishop of Kootenay will pay his first visit to Summerland on Wednesday the 24th. He will arrive by the morning's boat, and will hold confirmation at St Stephen's in the evening.

A carload of apples was shipped last week to Regina by A. Steuart, and another was started rolling for the same destination on Wednesday of this week. Mr Steuart still has about three carloads of apples in storage.

On Thursday afternoon, March 18th, under the auspices of the Ladies' College Auxiliary, there will be a sale of bulbs for Easter blooming, also a ten cent tea, at the residence of the Misses Spencer, West Summerland.

Mrs Jas. Ritchie entertained very largely to a reception last Friday afternoon, at her home, "Parkdale," in honor of Mrs Frank Wilson of Vancouver, who was visiting her daughter, now in attendance at the College. During the afternoon Mrs Wilson gave the ladies the pleasure of some songs. She went out on her return to Vancouver on Thursday morning of this week.

by the United Growers were reduced cost of supplies; a big saving last year, and a further saving of double that his year in box material. A uniform pack has been established, and O.K. brand stands second to none, which is indeed something to have accomplished. There have been no serious complaints, and many compliments on the brand. Exports have been extended, Australia has pronounced our fruit and pack as excellent, and could scarcely be improved. South Africa says it is undoubtedly the best ever imported there, with perfect pack and better than imports from Washington. Plans are now under way to give United Growers a very satisfactory hold on the South African market. Mr Robertson is confident of being able to get the Coast market, and last year had dominated in Alberta for the first time. They were getting the trade, and hoped that the returns would be satisfactory.

He was taking a share in the campaign for increased production, and mentioned having addressed a meeting of 1,500 at the Grain Growers Convention in Regina, asking for their co-operation.

As to the future, before better results can be obtained, there must be a better working arrangement among Valley shippers. A banker had come to him recently, saying that this must be worked out, and offered assistance. He declared if any shipper would not enter such an arrangement, the public should know who he is. They are getting together better across the line than we are, and we do not want to be ridiculed as being at the lag end of the movement. Of the policy for the future Mr Robertson said the growers were forcing the Central into a position the most dangerous yet, but the temper of the people seemed to justify taking the risk as outlined before the meeting. He had no fear of the Coast market, or of any other market not in control of a combine doing 60 per cent. of the business. The Mutual Brokers are in business, and are going to stay in business for the Nash houses. If they cannot get our fruit they will deal with someone else in the Okanagan or across the line. Not to sell through the Mutual Brokers practically means that we could not sell to the Nash houses. Without them where are we going to get distribution for our soft fruits? The Mutual Brokers could send to the Val-

L. P. Borton, more familiarly known as "Pat," was an arrival in town by Wednesday evening's boat.

Mr David Lister was an arrival on Monday's boat from Okanagan Landing to spend a few days with his family here.

Mr Moyle, living with Mr Brewer, Junr., in the Richardson cottage, is among the few of our citizens on the sick list.

It is with regret that we chronicle the fact that there has been no improvement in the condition of Mr R. Steuart, who is confined to his bed.

Mrs E. C. Graham went out early in the week, bound for Los Angeles, California, taking with her also her little son. Mr Graham accompanied her up to the main line.

Harry McLeod has enlisted with the B.C. Horse, leaving to-day for Vernon. From there he will proceed with others to Victoria for drill, preparatory to going to Europe, where so many other loyal Canadian citizens are going to fight the Empire's battles.

To give fitting commemoration to their first wedding anniversary, about a score of friends were invited to the home of Mr and Mrs F. A. Williams on Wednesday evening, and a few hours were passed in pleasant social occupation. Midnight seemed to come all too quickly, when a very dainty light supper was served by the hostess and her helpers before the company broke up.

Tuesday and Wednesday of next week have been fixed upon by the Hospital Society as "Garden Day." Volunteers are asked to present themselves, both for work with teams and hand labor, for the purpose of putting the grounds into shape for the coming summer. It is hoped that there will be a generous response to this call, in order that the hospital grounds may be given an appearance fitting to the neat and trim building.

Myrtle Rebekah Lodge, No. 32, after putting through its regular business session on Monday, resolved itself into a social gathering. With its numbers augmented by the addition of a few invited friends, cards and dancing were taken up, and the evening hours soon slipped away. This enjoyable function was arranged in honor of Miss Amy Brown, recording secretary of the lodge since its inception, who will shortly be severing her connection by leaving town for the East.

SISTER TOWNS SOON UNITED.

Excellent progress is being made by Supt. Michael on the gap necessary to complete the lake shore drive between Summerland and Peachland. The rock work has nearly all been finished, and a good deal of grading has been done within the last few weeks. It is anticipated that within a month it will be possible to drive over the new road, which is pronounced an excellent one, and while following the edge of the lake is sufficiently above water level to be a good dry road.

The opening of the road to traffic will give much satisfaction to citizens of both towns, and will be a great convenience to travelers up and down the Valley, besides being one of the most picturesque drives to be found.

ley and buy for cash, and if they put in \$10,000 extra cash, where would we be? He advised against tying the hands of the directors up solid on any policy, as then something might easily happen with which they would not be able to grapple. If we could enter a fight and win out we would have better control than before. This would mean we would have to establish our own warehouses, which he thought was doubtful policy. Why did not California with a staple product adopt this method? Yakima had dealt with the retailer last year and found it a complete failure. In face of the experience of others he thought the Growers had better be sure of their footing. During the last weeks he had been studying the situation, interviewing the consumer, retailer, and jobber. Mr Robertson asked for expressions of opinion, for guidance of Okanagan United Growers, as, with all due respect to a writer in a Valley paper to the contrary, he failed to see that the growers had lost control.

OBITUARY.

HENRY CROSS.

The funeral of Mr Henry Cross was held this afternoon at three o'clock from the home of Mr T. R. Harwood. Mr Cross, who is a native of Ontario, came here with his family from the prairies some weeks ago, and has been living on the Robson sub-division. Although not in good health, the end came with unexpected suddenness yesterday afternoon.

FOR BOYS AND GIRLS.

How many boys and girls in Summerland are ready to enter into the Potato Competition? These competitions are being held all over the province under the Department of Agriculture, and the secretary of the Summerland Farmers' Institute will start one here, provided not less than six competitors enter. These competitors must not be under twelve or over eighteen years of age on May 10th, 1915. The plots must be one-tenth of an acre—sixteen square rods. Of course there will be a good many boys and girls to enter. It will be great fun, and the winning of the prizes and selling of the crop will mean a lot of pocket money. Better tell Mr Tait right away that you wish to enter the competition.

For quite a number of those who attended the concert last Tuesday evening in the College Gymnasium, the pleasure of the evening was marred by what has been described by those so disturbed as rowdyism, and if the Review were to publish some of the things that have been said of the thoughtless young people accused of making the disturbance, it would not be pleasant reading. It surely should not be necessary that a policeman be on duty on such occasions, and the Review cannot believe that it was other than thoughtlessness on the part of those responsible, that made the evening an unhappy one for those who occupied the seats near them.

Municipality Of Summerland.

By-Law No. 58.

Sec. 5. It shall be unlawful for any person to sell or deal in milk or cream by wholesale or retail in the Municipality without first having obtained a license so to do.

Sec. 7. Any person desiring to sell or deal in milk or cream by retail, shall make application for same in writing to the Municipal Collector, who shall issue a license only after the Sanitary Inspector has inspected the premises of the applicant and reported favorably thereupon.

The above sections of By-law No. 58 are to be strictly enforced by the Sanitary Inspector, and any parties selling milk or cream without a license will be liable to summary conviction unless the above sections of said By-law are at once complied with.

J. L. LOGIE, Municipal Clerk.

WANTED:

Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.

Nutritious Lenten Dishes

Those who abstain from eating meats during Lent are looking for wholesome foods to take their places. We have selected the following lines which we can offer as the very best of substitutes.

Codfish (Boneless).

Tasty and nutritious, this brand was used by Miss Livingstone at her recent cooking demonstrations—
40 cents per 2 lb. box.

Canned Salmon.

One of the most nourishing of all fish foods. Can be served in many tasty ways. We carry the finest Sockeye Salmon on the market. Try a tin.
15 cents and 25 cents per tin.

Baked Beans.

No better substitute for meat. Place the can in boiling water a few minutes and you have a deliciously warm wholesome food.
10, 15, and 25 cent tins.

Canned Vegetables.

It's a long way to harvest time. Our goods are fresh and best quality.
Tomatoes and Peas, 3 cans 50c.
Corn and Beans, 3 cans 45c.

Macaroni.

A food of high value. Boiled alone or with cheese makes a wholesome dish.
Two packages 25 cents.

Rice.

A staple, nutritious food. Eat plenty of it.
3 lbs. 25 cents.

Don't Forget Pancakes.

We carry the best brands of Pancake Flour in 25 cent and 35 cent packages. Order a package and a bottle or can of our pure Maple Syrup at 65 cents.

Also in Stock: Sardines, Finnan Haddie, Lobster, Crab Meat and Fish Pastes.

NARAMATA SECTION, Cont. fr. p. 4

Naramata Scouts At Pentiction.

Patriotic Concert Under The Auspices Of Mr. W. A. Wagenhauser.

"Every seat sold and more tickets asked for," was the answer given to the query, "Will Pentiction people turn out to see our Boy Scouts?"

Empire Theatre was filled, seats and aisles, and overflowed with humans beyond the doors right on to the road last Friday evening when Scoutmaster Harry Pitman and his troop from Naramata gave their entertainment in Pentiction. The numbers were similar to those given in the Opera House here the week before, and interspersed, were selections given by Summerland and Pentiction talent as well.

Little Miss Alice Walters took the house by storm when she backed out of her gypsy cart, service bag in hand, and sang her song of Tipperary with the dog "Coney" as waiting charger. Her encore was "What's the Matter With Boy Scouts—They're All Right," and in response to a second encore she was carried upon a first-aid hand chair, to the front of the stage, where a box of bon-bons tied with red, white and blue ribbons was handed to her.

Mr W. Wagenhauser was an host in himself, and entered most heartily into every part of the evening's performance, whether on or off the stage.

For three full hours the entertainment went on, and not until one o'clock did the ferry land the Boy Scouts at their home wharf. Others who took part in the concert were: Roove Conklin, Mrs W. A. McKenzic, Mrs T. R. Mitchell, Mrs H. McGregor, Miss H. Mutch, Miss S. Thompson, Mr H. Hinton, Mr Jack Henlos, Mr W. A. Wagenhauser, and Mr N. F. Tunbridge of Pentiction, Scoutmaster Tait and Mr T. G. Beavis of Summerland, Mrs Langudoc and Mrs Donn Walters of Naramata.

"WANT" Column.

LETTER TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Naramata, B.C.
March 2, 1915.

The Editor, Summerland Review:
Dear Sir,

Some time ago I observed a paragraph in the columns of the Pentiction Herald announcing I had received \$3 bounty for killing a coyote. As the matter of bounty was then a question pending I did not contradict it, but now, for the benefit of your readers, let me give the unvarnished facts of the case.

At the time in question I happened to be coming home one forenoon, and saw a coyote that, judging from its manoeuvres, was apparently suffering from the effects of poison. I went up to it and despatched it with a club, hauling the body beneath one of the bridges on the road, being a canny enough Scot for that part of the business. Next day I procured in triumph its head and proceeded to Summerland where I handed the same to the magistrate, Mr English, at the same time signing a declaration and a receipt for \$3, which were forwarded to Vernon. A few days afterwards Mr Norris sent me a note saying I was not entitled to any bounty as I did not possess a gun license. Referring the matter to Mr Ellison at Victoria, and pointing out that such a clause in the firearms regulations was only an incentive to dishonesty, as it was very easy for a person killing a coyote in the manner I had done to hand it over to a person in possession of a license, that distinguished gentleman forwarded my communication to the Provincial Game Warden. That official in reply sent me an extract from the firearms regulations pointing out that I could not draw the bounty, not possessing a license, and that he had no power to alter the regulations. I never for a single moment supposed he had (although some strange things occasionally do happen), but I did, and still do think it a most extraordinary piece of legislation to deprive a man from any bounty for ridding the country of a pest on the frivolous excuse of his not having a license. This information may

prove useful to those if ever similarly situated.

Now comes the most interesting, at least to me, part of the affair. Instead of being the gainer by \$3, I was the loser by first, my time in killing and returning for the animal, second, my ferry fare, 25 cents, and last but not least, 25 cents to the magistrate as his fee, and all for what, for the sake of a coyote, not a very profitable undertaking, and certainly one that no person would care to repeat in these hard times. The sooner there are some sensible people in the Legislative Assembly the better it will be for all.

Yours faithfully,
W. D. MACKIE.

Newsy Paragraphs from PEACHLAND

Mrs George Lang spent part of last week in Vernon.

On Thursday H. Thompson and D. Sutherland visited Kelowna.

Mr Robertson of Vernon was the guest of Mr Vicary while he was in town.

Cleaning up yards and planting early vegetables keep the farmers hustling these days.

Thomas Smith of Westbank spent the early part of the week the guest of Rev. A. Henderson.

Mrs Seaton returned on Thursday from Westbank, where she had been assisting in nursing Mr Walter Cossar.

The Aquatic Athletic Club will give an entertainment in the hall on March 20th, the proceeds to go towards furnishing the club room.

On March 1st the general store was transferred from A. Town to the firm of Thompson and McCall, with H. E. McCall as manager. Stock taking has been going on since.

The tenth anniversary of the opening of the Presbyterian Church, the first in Peachland, will be celebrated appropriately on Sunday, March 28th, with a social entertainment on the following evening.

The rock work on the drive between Peachland and Summerland is almost completed, there being only a few shots necessary now as the need arises. It is expected that it will be ready for traffic in about a month.

The regular meeting of the Women's Institute was held in the Institute room on Tuesday afternoon. Mr J. L. Vicary, who was to tell "What Women Should Know About Banking," was unable to be present, on account of another meeting, so this had to be left over for another day. "Dishpan Science" was dealt with by Mrs Buchanan in the absence of Dr Buchanan, who had been called away. "Current Events" proved very interesting, as did also the "Roll Call," when instead of simply saying "present," a hint on dishpan science was given. A few articles were offered for sale which brought about \$2 for the Ambulance League. The next meeting (April 18th) will be an open one, held in the evening, at which refreshments will be served. An admission of 10 cents will be charged.

The annual meeting of the Fruit Growers' Association was held in the Orange Hall on Tuesday evening. Mr Robertson of the Central Selling Agency, Vernon, was present. The growers turned out in force and filled the hall. Several ladies were also present. The whole evening was taken up in listening to Mr Robertson's explanations of the past and plans for the future. Those present could not help but feel that the fruit industry of the district was looked after much more efficiently than it could be done by individuals, who might sell a few boxes to greater advantage, but would be at a loss to dispose of the bulk of the crop. The meeting adjourned owing to the lateness of the hour, before the local business had been disposed of, but will meet again on Saturday night to complete its work.

Why is a newspaper like a pretty woman? To be perfect it must be the embodiment of many typos. Its form is made up. It is always chased, though inclined to be giddy. It enjoys a good press; the more rapid the better. It has a weakness for gossip. Talks a good deal. Can stand some praise, and is awfully fond of a new dress.

FERRY—KELOWNA, OKANAGAN LAKE.

In accordance with chapter 85, R.S.B.C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Kelowna and a point on the opposite side of Okanagan Lake known as Westbank Ferry Slip.

Applications, endorsed "Tender for Ferry, Kelowna, Okanagan Lake," will be received by the Honorable Minister of Public Works up to 12 o'clock noon of Monday, the 22nd day of March, 1915.

The charter will cover a period expiring on the 31st March, 1916. The ferry shall make two trips each way every day, weather permitting.

The time of departure from and arrival at Kelowna shall be arranged so that connection can be made with the Canadian Pacific Railway Company's steamers.

Applicant shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Canada Shipping Act, 1906," and Amending Act.

All children who are travelling to

and from school shall be carried free of charge.

Applicants shall state the tolls they propose to ask for—

Each adult passenger.

Each child (not in arms) under thirteen years.

Each head of cattle, horse, mule, or donkey, etc.

Each calf, sheep, goat, or swine, etc.

Each vehicle with one horse and driver.

Each cart or wagon with one horse and driver, loaded.

Each vehicle with two horses and driver, unloaded.

Each vehicle with two horses and driver, loaded.

Each automobile and driver.

Each parcel of 25 lb. and under.

Freight, per 100 lb. and under, non-perishable goods.

Freight, per 100 lb. and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of \$250.

The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.

J. E. GRIFFITH,
Deputy Minister and Public Works Engineer.

Department of Public Works,
Victoria, B.C., 4th March, 1915.

SUMMERLAND, B.C., MARCH 19, 1915.

Whole No. 346

Dissatisfied With Concrete Work

Committee Session of Council in Camera Discusses South Main Contract.

Electric Light Extension Mooted.

The members of the Council have been covering the district pretty thoroughly of late, inspecting public works, particularly the irrigation system. The south main has again been inspected and was the occasion of a special session held on Tuesday afternoon. Much of the time the Council sat in committee, press and public being excluded.

Following this, a short Council meeting was held, with all Councilors present, Collector Nixon acting as Clerk. The Public Works Committee reported that they were not satisfied with the concrete work on the south main, and it was decided to have a committee see the contractor to learn what he proposed doing to make the work satisfactory, this committee to report back to the Council.

Upon the recommendation of the Public Works Committee the Council passed a motion authorizing the purchase of 200 feet of galvanized iron fluming, 5 ft. in diameter, for the purpose of replacing a section of wooden fluming in the south main, between two stretches of concrete.

Coun. Borton urged the necessity of prompt action to increase the earnings of the electric light plant. Many of the large users of current had cut their consumption by half, by adopting the new lamps, and he thought the suggested extension toward Garnett Valley should be made without delay. That this extension was desirable was the opinion of all, but how best to finance it was the problem. From \$1,000 to \$1,200 would be needed to make the proposed extension, which will put current within reach of all the houses in the district from the Municipal Office to J. J. Mitchell's, and W. Harvey's to W. Ritchie's. It is anticipated that this extension would be a profitable investment, besides making an outlet for surplus power. Two means of financing were suggested, one that the residents of that neighborhood advance the money, they to be repaid in current, another, and more approved, that these people be asked to purchase debentures to the amount necessary to cover the capital outlay. The matter was left with the Reeve to consult the people of the neighborhood.

With the Boy Scouts

The regular weekly meetings of the local Scout Troop were resumed on Friday evening last, when about twenty boys gathered, at the Scout Headquarters, Peach Orchard. Under the direction of Scoutmaster Tait some detail work in connection with the forthcoming Scout Concert was undertaken. This concert it is planned will take place about the end of April, the exact date to be announced a little later. The Scouts themselves will probably present some athletic numbers, and a playlet entitled "Winning Recruits," which is being prepared under the direction of a senior Scout, will be the headliner on the program. Local talent will also assist with songs and recitations, so that the concert promises to be something unusually good, and worthy of the widest local support. As guests of the local troop, the Scouts of Naramata and Penticton will be invited to attend.

The boys are transforming the upstairs of their headquarters in Ellison Hall into a den. The walls are being adorned with pictures of all kinds, and it is to be expected that the boys will make a very comfortable room for themselves. Another meeting of the troop is being held to-night, Friday.

The books which it is intended shall be the nucleus of the Boy Scout library are now at the Rowley Office, and may be had by the Scouts. Other donations of books would be very acceptable, and will be received gladly by the Scout officers or at the Rowley Office.

DECISIVE WIN FOR SHINGLE CREEK CHECKER MEN.

The Town exponents of the game of checkers were decidedly off color last week, when they met a team from Shingle Creek in a tournament. The match took place at the home of Mr and Mrs G. N. Gartrell, Peach Orchard. Shingle Creek had only four men to meet the five from the Town, and to meet this condition, four men on each side played simultaneous games and afterwards the fifth Town man played the Shingle Creek men. Thus the Town players had four games each and the Shingle Creek men five. The visitors from the country were in good form and made away with the tournament with a healthy margin, 12 wins to 5 being the score. At the close of play delightful refreshments were served by Mrs Gartrell, greatly to the enjoyment of the players.

The scores were as follows:

Shingle Creek		Won	Lost	Drawn
W. Brent	4	0	1	
J. Brent	2	2	1	
R. Brent	3	2	0	
R. McIntosh	3	1	1	
Total	12	5	3	

Town Players		Won	Lost	Drawn
G. N. Gartrell	0	4	0	
W. H. Treffry	0	4	0	
A. Moyes	0	1	3	
C. E. McCutcheon	2	2	0	
A. J. Beer	3	1	0	
Total	5	12	3	

What may be the last series of games this season are dated for to-night, when the West Summerland Club will again pit a team of its players against men from Shingle Creek. This tournament will be conducted in the White Cafe. Thirty-six games will be played, with six men aside. The Shingle Creek players will be W. Brent, J. C. Brent, F. Brent, R. Brent, R. McIntosh and R. Duckett. Five of the West Summerland players will be W. Ritchie, R. B. Forsyth, J. L. Hilborn, S. B. Snider and Dr. Thomson, and the sixth player has not yet been decided upon.

An item on our Naramata page chronicles the formation of a checker club in that town. Is it too late in the season for the Summerland clubs to extend their sphere of play and arrange for a tournament—or perhaps more than one—with the new club?

Irish Concert On St. Patrick's Night.

The anniversary of St. Patrick, the patron saint of Old Ireland, Wednesday, March 17th, was not allowed to pass unobserved, a very successful Irish Concert given by the St. Andrew's Young People's Guild in the Presbyterian Church that evening signaling the event.

The Guild president, H. W. Treffry, was in the chair, and after the preliminary business of the regular meetings had been gone through, a splendidly varied program of entertainment was introduced, greatly to the enjoyment of the audience, which numbered possibly a hundred. Interspersed through the program postcard views of Ireland were projected on to the screen from the lantern operated by Mr. Collin W. Lees. Additional interest was lent to these pictures from the explanations, notes of interest and anecdotes, given by Miss J. Rothwell. The concert program was made up of the following items:

- Paper on "Life History of St. Patrick," George McLeod
- Song, "Dear Little Shamrock," G. D. Fisher
- Song, "Come Back to Erin," Mrs. J. D. Wood
- Reading, "Erin Go Bragh," Miss Pearl Darkis
- Song, "Father O'Flynn," J. O. Smith
- Duet, "Just a Sprig of Shamrock," Misses Stella Brown and Isabel Stewart
- Song, "Off to Philadelphia," J. O. Smith
- Song, "When Irish Eyes Are Smiling," G. Fisher
- Miss M. Lister, Accompanist

Mayor Jones, of Kelowna, Conservative Choice for Southern Okanagan.

Unanimous Choice Of Large Convention Held Yesterday.

At the Liberal-Conservative District Convention held on Thursday at Kelowna, Mr J. W. Jones, Mayor of that city was unanimously chosen as the party candidate, and will immediately take up the work of the campaign. About eighty delegates met for the purposes of selecting a candidate, and the formation of a Central Conservative Association.

Mr Jones was the unanimous choice of the convention, no other name being brought before the delegates. The names of Messrs J. M. Robinson and W. A. Lang were two that had been previously mentioned as possible nominees, but neither name was advanced on Thursday, so that Mr Jones was alone in the field.

The Central Association recently organized for the newly defined Southern Okanagan District, has for its chief officials the following: President, J. F. Burne, Kelowna; Vice-President, J. A. Kirk, Summerland; Secretary, A. D. Weddell, Kelowna; Treasurer, L. D. McCall, Peachland. On the executive for Summerland, Messrs J. M. Sutherland and H. C. Mellor will act.

The representatives of this town and district who were up at Kelowna for the convention were Messrs J. A. Kirk, H. Sutherland, J. M. Sutherland, A. Hespeler, P. G. Dodwell, W. C. Fosbery, H. C. Mellor and J. E. Phinney. From Naramata Messrs T. H. Boothe and J. O. Noyes were the delegates, and from Peachland, Dr. Buchanan, J. L. Vicary, N. M. Morrison and L. D. McCall.

THE WOMEN'S INSTITUTES.

The regular monthly meeting of the West Summerland Women's Institute, held last Friday afternoon, was a somewhat noteworthy one. Dr. A. A. Goldsmith, a recent settler from the Alberta prairie, gave a lecture on the subject of "Poultry," and his remarks were voted by the ladies as eminently practical and timely. Dr. Goldsmith is an ardent advocate of poultry raising, as well as other branches of mixed farming, as adjuncts to orcharding, and his talk to the ladies had the finest of foundations, since it was evidently based on his own experience. He dealt with the whole subject exhaustively, touching on the egg producing as well as the general utility phases of the industry. In the matter of varieties, Dr. Goldsmith favors the White Leghorn as the prolific egg layer, while for all-round purposes he made mention of the Wyandottes, Barred Rocks, Dorkings, and Rhode Island Reds. He strongly advocated maintaining a high quality in the strain, emphasizing the fact that poorly bred birds will never pay for their keep. Touching on the matter of housing, Dr. Goldsmith said that a good deal of attention needed to be paid to this, as well as to the care and feeding of the flock. The ladies, many of whom are poultry enthusiasts, were naturally keen listeners to Dr. Goldsmith, who has the happy faculty of presenting his knowledge in a very understandable way.

Mrs W. C. Fosbery brought to the Institute news of how the fruit marketing scheme was being received by the Institutes with which she is getting into touch. Of the replies so far received, all, with only one or two exceptions, are favorable to the scheme. It has been decided to prosecute the proposition during the coming season, so that a good number of cases of peaches are likely to be placed direct with consumers as a result of Mrs. Fosbery's ingenious idea. A second letter is being sent out shortly to sister Institutes, and the matter of policy in proceeding with the scheme is now in the hands of a committee of about a dozen who were appointed last Friday.

"Vegetable and Flower Cultivation" was Mrs. R. Cartwright's subject, and one in which a good measure of interest was displayed. Still another paper which was to have been read by Mrs. H. D. Bentley was of necessity held over till more adequate time could be taken for its consideration.

The cannery at Grand Forks is to receive financial aid from the province in the form of a \$10,000 loan.

The Poet Of The Habitant.

The 6th of April will mark the eighth anniversary of the death of Dr. W. H. Drummond, the Poet of the Habitant, and "Pathfinder of a new land of song." Of Irish birth and blood he came to Canada in early youth and spent practically all his life side by side with the French Canadian people in the province of Quebec. First as telegraphist and later as a medical practitioner he came into intimate contact with the people whom he loved as his own kith and kin, and whose interpreter he became, making them known to their English-speaking fellow citizens as none of their own people had ever dreamed of doing.

Dr. Drummond's poems are in four volumes, "The Habitant," "Johnnie Corbeau and Other Poems," "The Voyageur," and "The Great Fight," and last year an edition was published which included the four volumes in one. In the opinion of many well qualified to give a careful judgment, Dr. Drummond is one of our greatest Canadian poets, and his writings will long continue to provoke laughter and tears in an ever-widening circle of admirers and lovers of his quaint dialect poems.

The Ladies College Auxiliary will give a Drummond memorial concert in the College Gymnasium on the anniversary of the poet's death, April 6th, when Rev. D. E. Hatt, well-known as an interpreter of the poet, will give select readings from the various volumes.

Hope Bridge Practically Completed.

Mr James J. Warren, President of the Kettle Valley Railway, conferred lately with Sir Richard McBride relative to the progress on that undertaking. He reports that the big bridge at Hope, on the Hope cut-off of the line, is sufficiently completed to allow of the passage of work trains. It is expected that the route over the Hope cut-off will be entirely completed for traffic by the fall of this year. Traffic between Kootenay-Boundary and the Coast via the Okanagan, Merritt and Spence's Bridge over the Kettle Valley Railway will be opened early in June.

British Columbia has an area of 395,000 square miles; a coast line of 7,000 miles; 20,000,000 acres of wheat land; 5,000,000 acres of fruit land; 15,000,000 acres of standing timber; largest coal areas in North America; its mines have produced \$400,000,000; its fisheries \$185,000,000; the finest and safest harbors on the Pacific Coast; the best all-year climate, by the records; the banner Province of Canada.

"GARDEN DAY" IN HOSPITAL GROUNDS.

A good beginning on the beautification of the Hospital grounds was made on Tuesday and Wednesday, although the number of volunteers for the work was disappointing. The Hospital Society had hoped to have quite a number of teams for grading, but on each of the three days only three teams were on the job. Mr H. C. Mellor, who was on the work part, if not all of the time, had a man and team there both days. Mr S. M. Young worked all day Tuesday with his team, and also on Wednesday. Messrs H. Howis and R. H. English each had teams there for one half day, and H. Bristow for a day. Others who were on the work for all or part of the time, either in person or by proxy, were: Dr. Lipsett, W. J. Robinson, A. E. Hespeler, T. H. Riley, J. E. Phinney, and Harvey Phinney. The roadway in front of the building was graded down considerably, and the municipality has put the road in good shape around the west and north of the lot, with an approach into the new road. The lawn has been built up in front of the building, and a start made on a driveway around it. Considerable grading has been done all around the building. This will permit of sowing of grass seed, setting out of flowers and shrubbery. There is yet a great deal of work to be done before the property can be put into anything like the condition desired by the Society, but when the work of grading and laying out is completed, the lot will be well in keeping with the beauty of the building, and will make a pleasing and attractive property.

MAJOR HUTTON ACCEPTS COMMISSION.

Will be Second in Command of 11th Regiment C.M.R.

Major Hutton of this place has been offered two important commissions in the Third Contingent, and, we understand, has accepted that of second in command of the 11th Regiment, Canadian Mounted Rifles, now being mobilized at Vancouver. This regiment is a part of the Third Canadian Contingent. Major Hutton boarded the boat on Wednesday evening, en route to Vancouver.

IN THE SERVICE OF THEIR COUNTRY.

Six more of Summerland's sturdy young citizens have enlisted in the service of the Empire, and will form part of the Third Contingent, now mobilizing at the Coast. The boys boarded the "Steamer" on Monday morning, and enlisted at Vernon, continuing from there on Wednesday. This last group of our citizens to respond to the call of the Empire are: Fred Brind, C. W. Haddrell, Douglas Marsden, Harry McLeod, Bert Nelson, and Ernest Smith. Summerland will wish for them, as for the others who have joined the earlier contingents, an early and safe return.

Another of Summerland's well-known citizens who has left for the front is H. S. Lewes, Mr Lewes, hoping to get into active service earlier, left on Thursday morning, going directly to England, where he will offer for service on the continent.

Bishop Of Kootenay Here Next Week.

The newly elected Bishop of Kootenay will arrive in Summerland on Wednesday morning of next week. There will be a celebration of Holy Communion in St. Stephen's Church, at 7.30 a.m., when the Bishop will be the celebrant, and in the evening at 8 o'clock he will hold a Confirmation Service. In the afternoon the Women's Auxiliary are giving a reception in the new Parish Hall. No special invitations will be issued, but all members of the congregation are asked to accept this notice as a general invitation, and to avail themselves of this opportunity to meet their bishop.

Cent Coins In Local Circulation

Copper Currency Will Likely Soon Spread Itself Over District.

Twenty Dollars In Newly-Minted Cents Reaches Summerland.

B.C. has been invaded by the copper coin, and it seems likely that this province can no longer look down with a feeling of contempt on the eastern provinces, which have been dubbed as "the cent belt." B.C. is the last province to adopt the copper as a medium of exchange. The City Market, and some of the large stores in Vancouver have been using cents for some time, and gradually the different banking institutions have distributed quantities of the coin among their branches throughout the province. A Vancouver Superintendent, writing to the various branch managers, stated that the Vancouver clearing house had adopted the principle of making payment in copper coins, and had found the practice useful. He saw no particular reason why this coin should not be similarly used throughout the province, and stated that its use had some palpable advantages.

\$20 in bright new copper cent coins arrived here last week-end at one of our banks, the other bank taking half the importation. Already some of these coins have been put in circulation, the Express Office and banks finding them useful in making sales of money orders, etc. The advent of the copper is not looked upon with any particular enthusiasm by the merchants, as they fear they will become more of a nuisance than a convenience either to themselves or to their patrons; but is generally conceded that they are here to stay, and that it is necessary to become accustomed to their use. Probably it will not be long till we shall be reading advertisements of 79c. bargains. The parent will find the red cent an economy in providing the children with candy, and no doubt the youngsters will be more frequent visitors to the candy counter as a result. The only institutions likely to suffer will be the churches, whose plates will now receive the mean man's cent instead of the nickel, the smallest contribution he has been able to make heretofore. After all the copper is a thing that is never discarded once it is introduced, and we may soon find it so useful as to forget to despise it. However, here is the opinion of an old-time Westerner, who evidently does not look with favor upon the invasion of the copper coin:

"It is now about time for the old trail blazers to cash in, and climb the shaft to the new Jerusalem, where the dealer only pays in gold, the music is free, and the angels dance on the clouds. The poor little cent! Bless his red face! He must feel like an orphan in a strange land, and will rob many a collection plate and bargain counter."

FRUIT UNION DIRECTORS MEET.

Following the annual meeting of the Summerland Fruit Union, held the middle of last week, the directors appointed on that occasion met last Saturday afternoon at the Fruit Union building, in the first session of their new year.

The officers of the directorate for the ensuing year were re-affirmed without any changes from the previous year. Mr G. J. C. White thus retains the presidency, with Mr H. C. Mellor vice president. The Summerland representatives to the Central Board were named as Messrs G. J. C. White and E. R. Simpson, who are the Union's vested stock holders.

The date and time of the regular periodical directors' meeting was fixed for the second Wednesday of each month at 9 a.m. Any shareholder of the Union who may desire to meet the directors in session for any purpose will therefore have a set opportunity for doing so.

BIRTHS.

ARMOUR—To Mr and Mrs Wm Armour of Naramata on Saturday, the 13th inst., a daughter.

FRIDAY, MARCH 19, 1915.

The date of the annual meeting of the Okanagan United Growers has been set for Tuesday, March 30th, at Vernon. This decision was arrived at during the course of a meeting of the Central executive, held last Monday at Kelowna. Mr. G. J. C. White, who attended, reports that to judge from the personnel of the executive the outlook for the Central Selling Agency for the coming year is bright. The majority of the affiliated Unions have changed their representation from that of last year, but the co-operative spirit in the workings of the Okanagan United Growers that is going to make that body united more than merely in name, is present in a stronger measure than it has yet been.

The Conservatives of Summerland will open their election campaign on the evening of Thursday the 25th inst., by a public meeting in Campbell's Hall, West Summerland. Mr. J. W. Jones, the party standard bearer, will be introduced to the electors, and will discuss questions of live interest to our people. Mr. Jones is a pleasing speaker and has a full and keen knowledge of the wants of the Okanagan. He has been Mayor of Kelowna for successive years which indicates that he has qualities fitting him for public life. A special invitation is extended to the ladies of Summerland to attend this meeting, when reserved seats will be provided, and it is hoped that a full attendance of the electors will be present. Later on it is expected that Sir Richard McBride and the Hon. W. R. Ross, Minister of Lands, will be invited to address at least one meeting here before election day.

As announced in the advertising columns of this number, the Okanagan College Athletic Association are giving an exhibition and concert next Friday in the College Gymnasium. Some particularly good numbers are included in the program, gymnastical as well as musical. Presentation of the Rowley Shield to the Town Basketball team, winners of the league matches which have been held during the winter, will also be made.

If you want to sell you must advertise.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

College	17	9	52.9 313 266
West's	17	5	29.4 227 357
Intermediates.		Per-	Points
Played	Won	centage	For
Town	18	12	66.6 279 189
College	17	8	47.0 237 217
West's	17	7	41.1 240 298

The Town seniors finally established their claim to the title of league champions, when they overcame the College team, runners-up in the league, by the narrowest of margins last Friday night. The game proved the most exciting the Men's Club has seen this season, and the crowd of spectators the largest. There could not have been less than about 150 people in the gallery, and the unanimous verdict of them all was that the battle royal fought out on the floor was a fitting conclusion to the season's basketball. It was a somewhat crucial fixture, since the laurels of the league were practically hanging on to it, and this fact must have had a great deal to do with the high key of enthusiasm to which players and spectators alike seemed keyed up to.

In the first game of the evening, the intermediates of the Town and College showed themselves to be in good fighting trim, whether that is the same as being in good basketball trim or not. Energy was never lacking at any time in this game, on the contrary, it was used sometimes with great prodigality, bringing in an element of seeming roughness. In the first half the scoring was very even, although the College got in the lead at the start, and were 5-1 ahead at one time. But the Town boys pulled up, and at the interval the score recorded was 10 each. Cochrane, B. Elliott and K. Elliott had been the basket-getters for the College, while on the Town scoring list Angove, Sismey and White figured. In the last half the play was more in the neighborhood of the College basket than Town territory, and the home boys were successful in adding another 10 points to their total, while holding the College down to 3, all obtained on penalty shots. The same three were again in evidence for the Town in the scoring. Final score, 20-13 for the Town. J. F. Glenn refereed, and the two teams faced off with the following line-up:

Town	College
C. H. Sismey	for. M. Cochrane
R. White	" B. Elliott
W. Angove	cen. H. Jennings
F. Williams	gd. K. Elliott
C. Clay	" J. Anderson

When the seniors took the floor they put up the closest and most stubbornly contested game imaginable. The game opened in an atmosphere of unusual expectancy, which developed as the play progressed, till in the last few minutes the feelings of the spectators were at a fever heat of excitement, manifested in a tremendous and sustained roaring. The game opened very auspiciously for the College. McLeod got first blood for them, and by the customary fast combined College game, Dale and Morlock had also been enabled to find the basket. With a foul converted by McLeod, they had seven points up in the first 10 or 12 minutes, in which time the Town had only been successful in making three points, two from their first basket by Phinney, and a foul made good use of by Glenn. But after this the Town seemed to pick up, and while the College could not and another basket from the field during this half, though Morlock and McLeod each made two more points on fouls, the home boys drew right up level by the aid of two baskets from McWilliams, one from Lavis, and two more free shots sent through the ring by Glenn's good eye. Thus at half time the score in this game was also a tie, 11 points apiece. The second half was every bit as close as the first, but the hearts of the Town rooters were quaking when the College score was seen to rise a little faster than that of their opponents. Morlock did all of the scoring for the College in this half, being responsible for one basket from the field and 3 points made on fouls. Snider recorded a basket for the Town about five minutes from the start, but in spite of the fact that the College were kept more on the defensive than earlier in the game, the Town were not able apparently to turn their advantage into baskets. With about three minutes to play the score

showed 16-13 for the College, and even the most sanguine Townites began to look blue. But the crowning excitement was still to come, and when Phinney got a basket at this stage, bringing the Town score to within one of the College, there was a tremendous outburst from the gallery. But there was still greater yet when less than a minute from the close of play, Phinney got another basket, turning defeat into twelfth hour victory for the Town, and snatching from the College boys what seemed a certain victory. Referee E. Logie made an eminently satisfactory official for this important game, handing out his decisions very impartially and without hesitancy. The redoubtable teams were:

Town	College
H. Phinney	forward L. Morlock
C. Lavis	" G. Dale
C. McWilliams	centre J. McLeod
J. F. Glenn	guard C. Riley
H. Snider	" A. Vanderburg

There are still four more games remaining on the schedule yet to be played, but in view of the fact that they have only the remotest possibility of affecting the league standing at all, it has been decided to close the season without playing further games. The Rowley trophy goes to the Town seniors, and the intermediates of that club have also upheld their end well by heading their division. The Town seniors did not open the season very promisingly, remaining in the cellar for a number of weeks, but of late they have played winning basketball very consistently. The College boys have put up good games all through the season, and up to last Friday's game were in the running for the top position. The West's started out well, and had they been able to sustain their first of the season form, they would have made a great deal better showing. For the first season of an organized league, it has been an eminently successful one. During the past winter basketball has enjoyed a popularity locally far greater than it has previously known, and with one season's experience to be guided by, next year's league should be even more successful. It is not out of place to make acknowledgement once more of the generosity of Mr J. Rowley, whose donation of a silver shield, the second trophy he has given, made the fight for supremacy something more than a battle just for honors, and has put an incentive before the teams all through the season.

Just what is the matter with Penticton's sporting ardor, it seems hard to say. The fact remains, however, that something ails the sporting spirit of that town. For about three weeks the local Town team has been trying to get a date arranged for a Penticton game, and as challengers have been prepared to make the trip down there. The proposition has had only a very lukewarm reception in our sister town, and all efforts to stir up any enthusiasm have not been very well received. The Penticton league season has not yet ended, and it may be that when they have finished their fixture list they will offer a game. But had the sports been at all anxious to meet Summerland a date could surely have been arranged before now.

The presentation of the Rowley Shield to the Town team as winners is announced as a number on the program of the athletic concert the College boys are announcing elsewhere in this issue.

There is talk in the air of a banquet to be held some time in the near future, to be attended by the basketball teams. It is proposed that this function shall fittingly mark the close of the basketball season, and it is likely that the idea will find enthusiastic endorsement among those concerned, young people usually having a partiality toward functions of this nature.

A Holstein cow at the Colony Farm near New Westminster has broken all former records for milk production, and established a new world's record for a period of 86 successive days, producing in that period 9,376 lbs. of milk. She gave 3,415 lbs. of milk and 98 lbs. of butter fat in 30 days. Another cow gave 27,888 lbs. of milk in 350 days. There are ten cows in the Colony herd that have each given 100 lbs. or more of milk in a single day. Dr Tolmie has a cow, "Ladysmith Daisy," at Victoria, whose record for one year is 25,506 lbs. of milk and 721 lbs. of butter fat.

Transpiring in South Okanagan's Newest Town

A SUNDAY RUN-AWAY.

Mrs. Cash Thrown Over Embankment:

Mrs Cash and her son, Mr Bruce Cash, were driving down the North Cut above the crescent embankment on their way to the Anglican church service last Sunday afternoon, when their horse took fright and bolted. In trying to check its speed Mr Cash leaned against the dashboard which gave way, and a sudden turn of the short corner, leading to the level, threw the occupants clear over the cliff, a distance of from fifteen to twenty feet, into a boulder-filled gully below. The horse, dashing at full speed through the town, was a cause of great excitement, and when it became known that the Cashes had met with an accident, great and general alarm was felt.

Mr Ogden Hughes and his three boys were in their home, just across the road from where Mrs Cash fell, and the younger lads, with their cousin Harry Roe, saw the horse bolt, and were terror stricken when Mrs and Mr Cash came tumbling with terrific force over the cliffs. They rushed in to tell their elders, and Mr Hughes and Frank hurried out, Frank giving the order, as a Patrol Scout Leader, to administer First Aid. Fortunately, First Aid was not needed, for Mr Cash had been able to recover his footing at once after his fall, and, running to his mother, found that she was sitting up quite conscious. Mrs Cash was at once taken to the Hughes' home, and by that time a number of the townsfolk had arrived, Captain and Mrs Languedoc being first there, they having driven down a few minutes earlier and had just entered the church when the runaway was seen. The Rev. H. A. Solly went straight from the ferry to the scene of the accident, upon his arrival, and as the members of the congregation came for the service they were told by Mr Lewis Block what had happened.

A very subdued and wondering congregation stood upon the church steps waiting for news that they prayed would be the best, and upon Mr Solly's return to the church and announcement that Mrs Cash, while badly shaken and bruised, had, as far as was known, received no serious injury, a feeling of genuine thankfulness was evidenced.

Mr George Cook hurried over with a comfortable vehicle to take Mrs Cash home, and Mrs Languedoc accompanied her. Miss Minnie Block taking Mrs Languedoc's place at the organ during the service.

Dr Andrew came over from Summerland as quickly as a ferry could bring him, and pronounced professionally that Mrs Cash had miraculously escaped alarming injury, but was very much bruised, and would be compelled to rest in bed for a week at least. Mrs Languedoc is staying with her.

Mr and Mrs Deans are expected from Montreal within the next two weeks.

Current Events - OF - Town & District

A Checker Club is in process of formation.

Photographs of the Boy Scouts were taken last Saturday afternoon.

Miss Edna Noyes spent the weekend with Mrs McDougal, Penticton.

Mrs Mitchell and her daughters are entertaining at the Unity Club this afternoon.

Mrs H. W. Endacott, and her little son Richard, are staying with Mrs George Wolstencroft.

Mr Henry Hall, manager of the Naramata Supply Company's business, spent Thursday in Summerland overlooking his orchard above Crescent Beach.

Mrs James Hayward has received letters from her daughter, Mrs E. P. Thorne, nee Adelaide Hayward, telling of her cosy home and outlook in Vancouver.

Gardening is very general this week. Onions are planted outside. Hotbeds are made or are in the course of making. Sweet peas are in and many other flower seeds.

Mrs Robert McDougal of Penticton is visiting her aunt, Mrs E. P. Roe, at the Syndica. A number of family entertainments are being given in Mrs McDougall's honor.

Word has been received by Mr and Mrs T. H. Boothe that their son Roy has received promotion in the work he volunteered to do for his country, having left Vernon for Vancouver, where he has been appointed to a secretarial position in the office of the Militia Department.

There was a small attendance at the Literary Meeting on Monday evening, when a paper on Journalism was read. Frank Hughes and Joseph Morsch recited, Mrs Allen sang the pretty Scotch song, "Bide a Wee," and the audience sang as choruses, "Annie Laurie," "The Battle Hymn of the Republic," and Auld Lang Syne.

A meeting of local Conservatives was held on Wednesday evening this week. Besides a discussion of the general situation it was decided to organize completely, and this will be undertaken at a later date. Two delegates, Mr T. H. Boothe and Mr Noyes were appointed to attend the Kelowna convention representing Naramata.

The organization of a Liberal Association was effected this week for activities in connection with the approaching election. Officers were elected as follows: President, Mr D. Mackay; Vice-President, Mr J. W. A. Block; Secretary, Mr W. D. Mackie. With these, Messrs R. H. King and G. H. Partridge will act by forming an executive. A delegate to the forthcoming district Liberal convention was named in the person of Mr Dan McKay.

A runaway on Saturday afternoon, very near the spot where Mrs and Mr Cash met with their accident, was caused by the breaking of the buggy shaft as Mrs Hancock and her daughter, Marie were coming into town. Both Mrs Hancock and Marie were thrown out, but the horse remained standing, and there was no fall over the embankment. A wheel passed over Marie's foot, but otherwise there was no injury, beyond the nervous shock received by both.

KALEDEN RED CROSS WORKERS ACTIVE.

(Contributed.)

On the 16th inst. another case of goods for the Canadian Red Cross Society left the Kaleden Auxiliary branch. This consignment consisted of one hundred and fifteen articles, all of good quality and well made. During the past five months the Kaleden branch of the Red Cross has contributed five hundred and twelve articles of clothing and hospital necessities.

Mrs O. E. Tomlin was At Home on Wednesday, the 10th inst., to the Red Cross workers, of whom there was a good attendance. A very pleasant afternoon was spent, quite a number of hot water bottle covers were completed, and liberal contributions made to the Red Cross collecting box, which Mrs Tomlin placed at the disposal of the gathering.

The Kelowna Farmers' Institute are making active preparations for the early construction of a creamery in that district.

Naramata Current Events

Miss May Foster had sufficiently recovered to be able to instruct her school classes this week. In her absence from the Literary Club on Monday night, of which she is secretary, Mrs Fred Manchester read the minutes.

An impromptu dance was given at the Naramata on Thursday evening, March 11th, for the young people of the town, its raison d'etre being the anniversary of Miss Gwendoline Robinson's birthday. The same date is Mrs Shaw Gillespie's birthday, and, notwithstanding her absence from Naramata, it was fittingly celebrated by Mrs Mark and Mrs Fred Manchester in the new Mark Manchester cottage on Lily Street, by a happy afternoon gathering of Mrs Gillespie's friends.

On account of the meeting of the Farmers' Institute being held in the assembly hall on Friday evening last, the members of the Epworth League were forced to postpone their monthly meeting until Saturday. It was a most interesting meeting when it did take place, Earle Hughes and Arthur Stiff showing and explaining different views of war scenes, battle ships and European cities. Frank Hughes, the president, was in the chair. Harold Allen and Joseph Morsch read interesting selections, and the general audience joined in singing. The next meeting of the League will be held on Friday, March 26th, under the direction of Miss Edna Noyes.

The first meeting of the Farmers' Institute, under its 1915 directorate, was held on Friday evening last in the church assembly hall, Mr George Cook, president, in the chair. Mr J. H. Pushman, Secretary and Treasurer, and Messrs Matthew Wilson, Paradise, T. H. Boothe, and Hans Salting, directors, were also present. There was a large and interested gathering of the ranchers, and the meeting took an informal character which drew the men together, and got them to express their opinions upon the questions they had most at heart. Some subjects were brought up that are not yet ready for publicity, but will make interesting reading when they are made public; some things that will benefit the community and the country at large.

NOTICE

The Okanagan Lake Boat Company, Ltd.

Appreciating the temporary financial stringency, and desirous of being consistent in their efforts to meet the public need, are making a REDUCTION in the FARE between Summerland, Naramata and Penticton

Single Fare, 50c. Return Fare, 75c.

(Return Ticket good for One Month.)

SUMMERLAND

Successful Bulb Sale.

The home of the Misses Spencer was the scene of a very bright function yesterday afternoon, when a bulb sale was held in aid of the funds of the Ladies College Auxiliary. All quarters of the community seemed to be represented in the attendance of about fifty ladies who were present. The bulbs that were put on sale were donated by the Misses Spencer, who also planted and tended them, and yesterday placed them on sale for the benefit of the Auxiliary, the ladies of which naturally feel obligated for such material assistance. The plants are mostly for Easter blooming, and they found a ready sale as the proceeds of \$18 show. The rooms in which the plants were arranged were very tastefully decorated with dwarf buttercups and soft willow catkins, which made an extremely pretty effect mingling with daffodil and hyacinth blossoms. Music was provided during the afternoon by Miss Edna McLeod, who gave the ladies much pleasure with her piano selections.

A ten cent tea provided by the ladies of the Auxiliary was another enjoyable feature of the afternoon, and it realized in proceeds about \$4.50.

Classified Advs.

2 cents per word first insertion. 1 cent per word subsequent insertions. Minimum weekly charge, 10c.

Passing Events: Social, Personal, &c.

Don't miss the athletic concert in the College Gymnasium next Friday night.

Principal Everton of the College conducted services in the Presbyterian Church at Kelowna last Sunday.

Miss Ballantine of the Central School staff was incapacitated from her work for a couple of days at the end of last week.

Mr J. L. Logie is at the Coast this week on K.V.R. business, leaving here on Monday morning at the call of President Warren.

R. E. White of the Review was a passenger to Vernon on Thursday morning's boat, expecting to return to-morrow evening, Saturday.

Mr and Mrs G. N. Gartrell were passengers outward bound to the Coast early this week, on a trip they expect will extend over about three or four weeks.

A number of Summerlanders drove down to Penticton on Wednesday evening of this week to take in the St. Patrick's Night dance held in that town.

Some twenty-two head of cattle were rounded up in Prairie Valley on Tuesday morning and impounded. They are said to have come in from Meadow Valley district.

Mr R. McGeorge, the well-known piano tuner and repairer will be in this district shortly. Any one wishing his services is asked to write or telephone the Review Office. m19-26

Miss Amy Brown boarded the "Sicamous" on Thursday morning on her way to Toronto, where she enters the Toronto General Hospital at the first of next month as a probationer.

L. P. Borton, formerly in the Canadian navy on the cruiser "Rainbow," and now of the Canadian Royal Engineers, returned to headquarters at Esquimalt on Monday, after a few days on furlough spent here.

A few alterations and additions are being effected to the house on the orchard property of Mr Muir Steuart, east of Victoria Gardens, preparatory to its occupation by Mr and Mrs Steuart, who will shortly take up residence there.

Among our social notes of last week a reception at the home of Mrs Jas. Ritchie for Mrs Frank Wilson of Vancouver was inadvertently reported as being given by Mrs Ritchie. We learn that the reception was given Mrs Wilson by the ladies of the College Auxiliary, Mrs Ritchie kindly offering her parlors for the purpose.

Mr T. R. Wellband, who is well-known in this district, and was for some time a resident of Naramata, has joined the 47th Highlanders for service in the Third Canadian Contingent. His son, Wilbur, also expects to leave for the front in April. The latter was with the Canadian cadets who visited Australia some time ago.

The daily war bulletin service furnished by the Government Telegraph Service, is greatly appreciated by the public generally, who are always anxious for up-to-the-minute war news. The service comes to the local Government Telegraph office, and the bulletins are posted in the Review Office window, at the Supply Company's branch store, and at Naramata.

Messrs Clifford and Cyrus Duncan are newly arrived settlers in the community, reaching here from Vancouver towards the end of last week. They have purchased the Smith orchard property west of "Eberstein," and during the past few days they have been busy erecting a small house thereon, in the anticipation of the arrival of Mrs. Clifford Duncan and possibly her brother, who may arrive next Tuesday evening. The brothers are now in residence on their newly acquired property, previous to which they occupied the Tully house in town for a few days. A third brother, Ward, will be remembered as a student at the College for a number of years, and a singer of unusual talent.

MISJUDGED.

People with vivid imaginations and a penchant for free newspaper publicity, says an Exchange, can easily make Zops and other mysterious air craft out of floating clouds on a moonlight night—particularly if they live in the vicinity of the dry bolt on Okanagan Lake.

See you at the College Gymnasium next Friday. We'll all be there.

A carload of apples was shipped out to the Coast this week by Mr J. J. Mitchell.

Rev. C. H. Daly will be at Okanagan Landing over next Sunday, where he will conduct service and administer the sacrament.

Mr Jas. Ritchie was a passenger homeward on the "Sicamous" on Thursday evening, after a trip to the north end of the Valley.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

The treasurer of the Okanagan Ambulance League acknowledges receipt of twenty dollars from the Methodist ladies for League purposes.

An addition of two rooms is being built on to the north side of the Telephone Company's building to give further residence accommodation for Mr and Mrs O. Atkins and family.

Presbyterian services will be conducted on Sunday next in St Andrew's Church, morning and evening, and in the Methodist Church at 3 p.m. Mr David Lister will conduct all services.

Mr David Lister, who has been in charge of the Presbyterian mission field at Okanagan Landing leaves next week for Vancouver, where he will enter upon the final term of his course at Westminster Hall. He will spend next week here with his family.

Miss Pearl Babbit, sister of the wife of Lieut.-Gov. Bulyea of Alberta, and who has visited with relatives here, has been undergoing special training in Quebec City, and expects to leave soon with forty other nurses for service at the front. These forty were selected from some hundreds of applicants.

Miss Crowe of Winnipeg, who is known to quite a number of Summerland citizens, and who at one time visited here with her aunt, Mrs. Lipsett, was married on the 10th to Capt. W. H. Collum of Winnipeg. Capt. Collum is now serving in the Canadian army, and when his regiment is ordered to the front his bride will accompany him to England.

A change is announced this week in the lumber business carried on at West Summerland by the Ritchie Brothers. Wm. Ritchie, under whose name the firm is known, disposes of his interest to his brother, T. N. Ritchie, who will continue the business at the old stand. In keeping with many other lines, the business will be conducted on a cash basis only. Customers owing accounts are kindly asked to arrange a settlement of same as soon as possible.

A very largely attended meeting of the Ladies' Hospital Auxiliary was that held on Tuesday afternoon at the home of Mrs W. H. Hayes. Business occupied the ladies during the first part of their meeting, but later this gave way to the work of sewing sheets for the hospital. With so many nimble fingers busy with needle and thread, a good deal was accomplished in this direction. Refreshments were served towards the close of the afternoon, and social intercourse was enjoyed for some time before the ladies broke up their gathering.

A meeting of the local Liberal-Conservative Association was held in the Men's Club on Monday afternoon this week, with Mr J. A. Kirk, president, in the chair. A letter from the district association was read asking that delegates to the South Okanagan convention be appointed to the number of one delegate for every twenty-five voters in the district. This convention was held yesterday morning at Kelowna. Those named as Summerland delegates were Messrs H. Sutherland, J. A. Kirk, Dr F. W. Andrew, J. M. Sutherland, H. C. Mellor, A. Hespeler, D. H. Watson, A. B. Elliott, E. R. Simpson, C. N. Borton, W. C. Fosbery, R. C. Lipsett, P. G. Dodwell, and J. E. Phinney. Committees were organized for campaign work in connection with the pending election, and a campaign secretary was appointed in the person of Mr J. M. Sutherland. A discussion as to the selection of a candidate for this constituency revealed an unanimous choice for Mr J. M. Robinson, with Mr W. A. Lang of Penticton as second choice.

Of course you will be at the College Gymnasium next Friday night.

Mr and Mrs Clark Wilson and family are now residing on their Trout Creek property, removing from town last week.

Mr and Mrs Vanderburg removed last week-end to the house they have recently erected on their property on Steuart Avenue.

The Okanagan Lake Boat Co. will make a special trip to Penticton to-morrow evening, Saturday, leaving Summerland at 7 o'clock. ad

F. C. Edgar was a passenger on Monday's boat bound for Ottawa, with several stopovers en route. At the capital city he will join Mrs Edgar, who has been there for about eighteen months.

After a stay in Summerland of about four or five months, Mr and Mrs Oddie have left for the Saskatchewan prairies, where Mr Oddie will engage in farming, dairying especially being the branch that will have his particular attention.

The usual Quadrille Club fortnightly dance in Empire Hall on Thursday evening drew a fair gathering from the votaries of that pastime. The customary good music from the Walters orchestra did a good deal to ensure the success of the affair, and the catering of Mr and Mrs Frank Marshall was also contributory to the evening's pleasure. A good program of dances was enjoyed, and it was after midnight before the break-up of the party.

Mr and Mrs H. F. Anderson of Winnipeg have been in town for a few days this week, guests at Hotel Summerland. Mrs Anderson has made two or three visits to the Okanagan, but this is Mr Anderson's first glimpse of the Valley. They are making a tour of the West, and leave this afternoon for Penticton. Mr and Mrs Anderson met life-long friends here in Mr and Mrs J. M. Sutherland, and this morning enjoyed with them a drive round the district.

An unique anniversary was that which Mr and Mrs James Garnett commemorated on Monday of this week in their golden wedding. The celebration was made the occasion for a family gathering at the home of Mr and Mrs Thos. J. Garnett. After a happy repast at midday, the afternoon was passed in the manner of a reception, many friends calling to offer congratulations to Mr and Mrs Garnett, on their attainment of half a century of marital bliss. From their family they received the gift of a substantial purse of gold, and from other friends remembrances in varied form betokened the fact that the auspicious date was far from being forgotten.

The Corporation of the District of Summerland.

SANITATION.

NOTICE IS HEREBY GIVEN that all residents of the Municipality of Summerland are required to have all premises and out-buildings cleaned up and put into sanitary condition before April 1st, 1915.

Adjacent highways, roads and lanes should be cleared of filth, litter and all unsightliness.

Dairies are to especially observe the Milk By-Law.

By order of the Local Board of Health.

OKANAGAN DISTRICT.

FERRY—SUMMERLAND-NARAMATA, OKANAGAN LAKE.

In accordance with chapter 85, R.S.B.C. 1911, "Ferry Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as Naramata, a distance of about two miles and three-quarters.

Applications will be received up to 12 o'clock noon, Monday, 22nd March, 1915.

The charter will cover a period expiring on the 31st March, 1916. The ferry shall make two trips each way every day, weather permitting.

Applicants shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of the "Canada Shipping Act" and amending Act.

Applicants shall state the tolls they propose to ask for—

Each adult passenger.

Each child (not in arms) under thirteen years.

Each head of cattle, horse, mule, or donkey, etc.

Each calf, sheep, goat, or swine, etc.

Each vehicle with one horse and driver.

Each cart or wagon with one horse and driver, loaded.

Each vehicle with two horses and driver, unloaded.

Each vehicle, with two horses and driver, loaded.

Each automobile and driver.

Each parcel of 25 lb. and under.

Freight, per 100 lb. and under, non-perishable goods.

Freight, per 100 lb. and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of two hundred and fifty dollars (\$250).

The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted. J. E. GRIFFITH, Deputy Minister and Public Works Engineer. Department of Public Works, Victoria, B.C. 4th March, 1915. m12-19

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and they are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP. AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.

Nutritious Lenten Dishes

Those who abstain from eating meats during Lent are looking for wholesome foods to take their places. We have selected the following lines which we can offer as the very best of substitutes.

Codfish (Boneless).

Tasty and nutritious, this brand was used by Miss Livingstone at her recent cooking demonstrations—40 cents per 2 lb. box.

Canned Salmon.

One of the most nourishing of all fish foods. Can be served in many tasty ways. We carry the finest Sockeye Salmon on the market. Try a tin. 15 cents and 25 cents per tin.

Baked Beans.

No better substitute for meat. Place the can in boiling water a few minutes and you have a deliciously warm wholesome food. 10, 15 and 25 cent tins.

Canned Vegetables.

It's a long way to harvest time. Our goods are fresh and best quality.

Tomatoes and Peas, 3 cans 50c.
Corn and Beans, 3 cans 45c.

Macaroni.

A food of high value. Boiled alone or with cheese makes a wholesome dish.

Two packages 25 cents.

Rice.

A staple, nutritious food. Eat plenty of it. 3 lbs. 25 cents.

Don't Forget Pancakes.

We carry the best brands of Pancake Flour in 25 cent and 35 cent packages. Order a package and a bottle or can of our pure Maple Syrup at 65 cents.

Also in Stock: Sardines, Finnan Haddie, Lobster, Crab Meat and Fish Pastes.

ORANGES — GRAPEFRUIT — LEMONS

The Summerland Supply Co., Ltd.

Newsy Paragraphs from PEACHLAND

J. Wright visited Kelowna on Saturday.

Mr and Mrs Wm. Douglas spent Tuesday in Kelowna.

Leonard Bell returned on Thursday from a visit to Summerland and other towns.

Miss Ethel House returned on Thursday from a visit with friends at Lumby and Vernon.

Mr Crehan of Victoria spent some time in town last week auditing the books of the Municipality.

Messrs L. D. McCall and M. N. Morrison were delegates to the Conservative convention in Kelowna this week.

Alex. McKay of the cement works spent a couple of days in Kelowna last week, and went out on Saturday morning to Vancouver.

Voting on a by-law to raise \$8,000 for the erection of a school building on the hill took place today, and was defeated by a majority of 3 or 4 votes.

Mr Ferdinand Aitkens, who has just returned from England on a flying visit, spent the week-end in town, the guest of his brother and his wife, Mr and Mrs Clement Aitkens.

Mr and Mrs Wm. Coldham are moving to the lot of Mr Walter Wingate, Mr Coldham being engaged to look after it this year. Mr Wingate is on the "Rainbow," doing patrol duty along the Coast.

Word has been received in town that Mr Bachelor, who went to the front with the Patricia, was killed in action recently. Mr. Ward was seriously wounded. Both gentlemen at one time were in the real estate business here.

A Liberal meeting was held in the office of the Irrigation Co. on Tuesday night, when new officers were elected. So far as we can learn they are: President, Thos. Powell; Secretary, J. H. Clements; A. Town and J. L. Elliott were ap-

pointed delegates to the convention to be held shortly in Kelowna.

The adjourned Fruit Growers meeting was completed on Friday night, when a rather stormy session was held. The farmers are beginning to think that it is about time they were getting some wages for their work. The directors for the year were appointed, and are as follows: Thos. Powell, Wm. Douglas, J. L. Vicary, J. McKinnon, and Rev. A. Henderson.

The main topic of conversation this Thursday morning is not war, nor election, but the play which was presented in the Orange Hall last evening, St. Patrick's Day. The threatening appearance of the night did not prevent a full house. Many visitors from Kelowna and Westbank were present, and none went away dissatisfied. In order to prevent impatience while the people were gathering, Mrs J. Hyde gave several piano selections. Mr H. Slater acted as chairman, and enlivened the proceedings with a number of Irish anecdotes, told in a way that would do credit to Pat himself. Those who assisted while changes were made between acts were:

Mr Geo. Lang, solo, "The Dear Little Shamrock."
Mrs Haman, solos, "Och, The Dear Little Girl," "Why Don't You Ask Me?"
Mrs J. S. Elliott, solo, "Told in the Twilight."
Mrs Mitchell, solo, "There's Nothing Too Good For the Irish."
Mr Haman, solo, "When Drunk Went West."
Mr Dobbie, recitation, "East is East, and West is West."

The play "A Scrap of Paper," is a three-act dramatic one, occupying over two hours, and was done entirely by local talent. The leading parts—that of Prosper Couramont and Suzanne de Russeville, were ably sustained by Alfred Hueston and Olive Ferguson. E. McKay as Baron de la Glaciere acted the role of the jealous husband, while Edna Pentland, the Baroness, was very interesting in her fear of and devotion to him. J. McLaughlin, Brisemouche, was equally zealous in his search for beetles, and his desire to get his old maid sister off his hands. The part of the old maid was taken by Mne Henderson, who was extremely proper, and did her

The Peach Worm.

Something of Its Life History and How Easily Controlled.

In view of the increasing prevalence of the "Peach Twig Borer" or Peach Worm? in local orchards some notes on the life history and control of this pest will not be out of place now that spraying time is coming round again.

The life history of the insect is not too well known in B.C. but the following notes are fairly well established.

The injury caused by this insect is two-fold, both the young shoots and fruit being attacked, the former in early spring, the latter towards ripening time, and a very considerable loss of fruit may occur. Another danger rises from small worms escaping the vigilance of packers, and continuing to develop during transit, the fruit arrives on the market in an unsavory condition, and at least lend a poor reputation to local peaches if they escape the vigilance of the inspectors.

The mature insect of this worm is a small dark gray moth about 8 millimeters long, which is on the wing during parts of May and June, and lay their eggs on or near the young shoots. Upon the young worms hatching, they feed on the shoots and probably also on the leaves, being restless and constantly on the move; later they enter the fruit, usually at the stem end and feed around, generally near the surface. Many fruits may be wormed by one insect. Upon the worms

utmost to keep the youthful lovers apart. Bryson Whyte and Dorothy Harrington as Anatole and Mathilde were very interesting in their love making. The parts of housekeeper, maid, and man-servant were acted by Mrs Mitchell, Rene Elliott, and Leonard Bell respectively. Much credit is due Mrs Mitchell, whose careful management brought the performance to a successful termination. The performers wish to thank all those who so kindly and willingly gave dress, articles of furniture, rugs and curtains to help. The sum of \$80.50 was taken in at the door, which will be spent, after the deduction of expenses, in helping to furnish the gymnasium.

being full fed they will pupate amongst the leaves and emerge as moths again shortly after. Eggs are again laid, and some feeding probably is done by the young worms before going into winter quarters, which consist of a small tunnel in the bark, near the crotch of a young growth. The worms when in hibernation are very small, generally about 3 millimeters long. Upon the opening of spring, when the buds are bursting, the young worms emerge and bite their way into the young growth, and feeding often down the center of young shoots cause the familiar dying back of the young twigs, and, in this manner, becoming full-fed and pupating, emerge as moths, and so carry on the cycle.

The vulnerable time in the life of the insect is the winter and early spring, and it can be controlled by spraying with lime-sulphur 1 to 12, to which may be added arsenate of lead (neutral) 1 lb. to 25 gallons of dilute lime-sulphur. If the spraying is done efficiently, and good pressure is used, most of the worms will be reached and destroyed by the lime-sulphur in their hibernating burrows, and if the lead-arsenate is added, of what worms escape the attention of the lime-sulphur a goodly number will be poisoned by eating their way into the swelling buds a little later on.

WENATCHEE RETURNS.

The Wenatchee Produce Company, operating in the Wenatchee district, have announced their pool averages on all summer fruit shipped by them up to September 16th, 73,699 crates apricots averaged 47; 17,251 boxes early export apples 80; 88,687 boxes summer apples 58; 245,051 boxes peaches 28; 67,388 boxes pears 72; 7,708 boxes crab apples 70.

These averages represent net prices to the Wenatchee Produce Company on all grades and varieties, from which should be deducted their handling charge of 7 cents on apples, 10 cents on extra fancy, and 7 cents upon other grades of pears, 5 cents on peaches and apricots.

All pools were settled prior to December 1st.—Marketer.

"A merchant never knows what he loses by not advertising in the local papers."

FERRY—KELOWNA, OKANAGAN LAKE.

In accordance with chapter 85, R.S.B.C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Kelowna and a point on the opposite side of Okanagan Lake known as Westbank Ferry Slip.

Applications, endorsed "Tender for Ferry, Kelowna, Okanagan Lake," will be received by the Honorable Minister of Public Works up to 12 o'clock noon of Monday, the 22nd day of March, 1915.

The charter will cover a period expiring on the 31st March, 1916.

The ferry shall make two trips each way every day, weather permitting.

The time of departure from and arrival at Kelowna shall be arranged so that connection can be made with the Canadian Pacific Railway Company's steamers.

Applicant shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Canada Shipping Act, 1906," and Amending Act.

All children who are travelling to

and from school shall be carried free of charge.

Applicants shall state the tolls they propose to ask for—

Each adult passenger.
Each child (not in arms) under thirteen years.

Each head of cattle, horse, mule, or donkey, etc.

Each calf, sheep, goat, or swine, etc.

Each vehicle with one horse and driver.

Each cart or wagon with one horse and driver, loaded.

Each vehicle with two horses and driver, unloaded.

Each vehicle with two horses and driver, loaded.

Each automobile and driver.

Each parcel of 25 lb. and under.

Freight, per 100 lb. and under, non-perishable goods.

Freight, per 100 lb. and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of \$250.

The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.

J. E. GRIFFITH,
Deputy Minister and Public Works Engineer.

Department of Public Works,
Victoria, B.C., 4th March, 1915.

SUMMERLAND, B.C., MARCH 26, 1915.

Whole No. 347

THE WOMEN'S INSTITUTE.

The regular monthly meeting of the Summerland Women's Institute was held in the Men's Club on Friday, March 19th, at three o'clock, with a very good attendance. Mrs. R. M. Ross gave the motto for the day, and the roll call was answered to with quotations from Browning. Mrs. H. A. Solly then gave the principal current events for the month, and also read an interesting letter from the Red Cross Society. The subject of doing sewing for Queen Mary's Guild was dealt with, and it was decided that this be placed in the hands of a committee, and sewing be commenced at once.

A letter was read from Mr. W. E. Scott, Superintendent of Institutes, re the recent essay competitions. It was most gratifying to find that Summerland had secured two prizes. Mrs. E. B. Reesor then read an exceedingly interesting paper on Rights and Privileges of Women under the Laws of B.C.

After the first part of the meeting had been brought to a close by the singing of "God Save The King," there was a sale of "daffodils and narcissus." These flowers were very tastefully arranged on a table at the front of the room, and soon found ready sale.

Bear in mind that the third Friday in April is Talent afternoon, and let everyone do their best.

WOULD BRAND IMPORTED EGGS.

An agitation is on foot among the Coast poultry districts demanding legislation that will foster the egg industry of the province, in the shape of an Egg Mark Act. It is asked that this act make it compulsory for all imported eggs to be stamped with the place of origin, such as China, Petaluma, etc.; also that "cold storage" eggs shall be stamped to this effect. Such regulations, it is claimed, would work for the benefit of poultryman and consumer alike.

Would Have Unions. Consign Fruit Direct.

S. J. Fee, of Vernon Fruit Co., Calgary, Condemns Present Policy, At Small Gathering Of Growers.

Under the auspices of the Farmers' Institute Mr. S. J. Fee, manager of the Vernon Fruit Company spoke to a group of about fifteen fruit growers last Tuesday in the High School Building. Mr. Fee stopped off here on Saturday night on his way to Penticton, where he was to address a meeting of the Penticton Fruit Growers' Union, and while here arranged with the Farmers' Institute to discuss marketing with them.

While declaring himself in hearty sympathy with co-operation he advised that the Central be kept in existence. Mr. Fee's plans, as far as disclosed, would mean putting the various locals on an independent basis, if not in actual competition. He declared, however, that association would not control prices which would be regulated by supply and demand.

In expressing his good feeling for the Valley fruit growers, Mr. Fee offered to assist them in any possible way, but would have nothing to do with Mr. Robertson. He urged that the locals must get into the markets themselves, and suggested that each local consign to the various fruit houses distributing their shipments, and increase the volume to that house giving the best returns. While intimating that he would like to have a share of this business, he did not claim to be in a position to market the Valley's output.

He condemned the consigning methods adopted last year by the United Growers, and gave instances of where Scott and Nash houses were competing against each other with Okanagan fruit. Mr. Fee referred to the whoops consigning to retailers in Calgary during apple week, stating that while the goods were consigned by Plunkett & Savago, it was conditionally. The retailers were to pay \$1.30 per box as sold, while the open market price was \$1.25. He claimed the American houses handling Okanagan fruit sold lower than they needed to, giving instances of this

Prov. Govt. Buy Seed Grain For Farmers.

Credit Will Be Given Those Farmers Who Cannot Pay Cash At Present.

Speaking as the Minister of Agriculture in the Provincial Cabinet, Hon. W. J. Bowser recently announced the details of a plan for immediate supply of seed grain to farmers in British Columbia.

Wheat and oats are now exceedingly scarce here, and what few can be obtained are held at prices around \$50 per ton and even higher, while in some parts of British Columbia they cannot be obtained at all.

"We have decided to buy in Alberta for immediate shipment to points in British Columbia several carloads of seed which will be sold to farmers at the price we pay in Alberta," said the Minister of Agriculture. "The government proposes to contribute to the plan whatever the freight charges happen to be, our idea being to encourage the putting in of the largest possible crops of cereals in this province this season. We shall sell to the farmers at the actual cost in Alberta, in order to induce payment in cash, but for those farmers through the country who have no funds at present for the purchase of seed, and yet have available land broken for crop, we shall have five extra carloads of seed immediately following the first. For men unable to pay cash the government will take notes for the cost of the grain, together with the freight charges, and payment of these may be deferred until the farmer sells his crop in the fall. These five carloads which will be sold on credit, will be distributed from various centres, one probably from Nelson, another from Kamloops, and others from Vancouver and Victoria. The distribution will be made through government agents, who are sufficiently in touch with the responsible people of their respective communities."

That the best man available has been selected to contest the constituency for the McBride Government was the unanimous expression of opinion following the able address given by the candidate, Mr. J. W. Jones, in Campbell's Hall last night. Equal approval is given the government policy as revealed in the recently enacted Agricultural Aids Act, whereby money will be loaned to the farmers on easy terms and at low rates. Even the Liberals present expressed satisfaction with this measure, their only fear being that it might not be put into operation early enough. Mr. Jones, though Mayor of Kelowna for six years, five of which he was elected without opposition, made his appearance before a Summerland audience for the first time, and created a decidedly favorable impression. He has been a resident of the Valley for many years, and has large interests at stake. In fact his interests are linked inseparably with those of the farmer, and naturally he was particularly enthusiastic in dealing with the new Loan Act, and looks upon it as the one thing necessary to put agriculture in this province on a sound business footing, as a similar act has done in New Zealand.

Mr. J. A. Kirk was chairman, and in introducing Mr. Jones described him as a man of strong personality, and one ready to criticize, and while he would go to Victoria as a supporter of the McBride Government, the interests of the agriculturist would always be foremost with him.

Mr. Jones congratulated Summerland on having solved some of the problems yet troubling other districts in this constituency, citing the excellent locally owned telephone system and the municipal irrigation system which had proved a success. New conditions had put before us serious problems which must be faced, and he questioned if those people who are going about the country crying "ruin" were of the calibre to grapple with and solve these problems. British blood is not so easily put down.

PROVINCE'S FINANCES.

Mr. Jones reviewed the financial history of the province from the time when the McBride Government was formed, when, as is generally known, the province was in wretched financial condition. Not long after there was a surplus of \$9,000,000. This brought forth a demand for expenditure, and the opening of the country for settlement. No doubt mistakes have been made, but a vast amount of public work has been done in the way of building roads, bridges, and wharfs in a difficult country. Mr. Jones compared the provincial debt with that of the municipalities and various cities, declaring that it was a mere bagatelle, particularly when assets were considered; Vancouver's per capita debt is \$175, Victoria's \$285, Vernon's \$225, Kelowna's \$184, while the provincial debt is \$30,000,000 there is a sinking fund of two and one-half million, and fifteen million due for lands, etc., sold. Those alone would almost wipe off the debt. Large expenditures have been necessary on public works and education, the magnificent school buildings throughout the province alone requiring of orchard run in crates was recommended.

In closing, Mr. Fee again assured the local Union that they could have his fullest support, but that Mr. Robertson could not, because he had no faith in him or his schemes.

Campaign Opened By Strong Address from Candidate

J. W. Jones.

As Representing the Fruit Grower, Makes Strong Plea for Endorsement of Agricultural Aids Act.

Able and Lucid Statement of Government Policy.—All Persuasions Favor Early Application of Act Granting Long Term Loans to Farmers.

quiring a large and justifiable outlay. Critics of public expenditure forget the expense of development. None were more insistent than the Liberals in spending the Government's money. Last year nearly a quarter of a million was expended in the Okanagan for public works, while the constituency only paid \$82,000 to the government. Large sums were also spent here for teachers and other necessary expenses. It is true the government have shown a deficit this year, but every other province in Canada was in the same position.

LANDS FOR SETTLERS.
The speaker referred to the splendid annual revenue from timber of two and one-half million, which reflected great credit upon Hon. W. R. Ross. His policy had been highly complimented by experts. Mr. Jones took up the question of lands, which is being used by the government's opponents, who claimed that land has been sold for speculation instead of being kept open for the settler. Mr. Jones declared that ninety-one million acres were still reserved for the settler, as compared with the five million acres disposed of since the McBride Government came into power. These sales had all been made previous to the last election, yet there was no cry at that time. These sales brought \$12,500,000 to the province. There was still 25 million acres of unsold land along the three lines of railway.

RAILWAY POLICY.

While the Liberals condemned the government's railway policy, and were crying, "smash the machine," Mr. Jones asked what they were going to give us, as the electors wanted a clear cut policy. The government has not granted bonuses to the railways, having only guaranteed their bonds. This permitted of the opening up of the country and the expending of large sums of money throughout the province, which had helped business of every kind, and what has it cost the province? The government had not been called upon to put up \$1 of its guarantees, nor is it likely to be. The speaker compared the Liberal policy to that of the Liberals at the time of Sir John A. McDonald announced his policy in respect to the C.P.R.

AID FOR FARMERS.

Back to the land was now the cry. These settlers must have capital to become established on the land. Mr. Jones described the land settlement question an all important one, and did not think that any sensible man would oppose any policy to improve conditions and make settlement possible. He then told of the forming of the Royal Agricultural Commission, and of its world-wide investigations. The new act, formed along the lines proposed by the Royal Commission, was largely based on the New Zealand Act, which has worked such a transformation in that country. Mr. Jones declared the new Act the most democratic and socialistic piece of legislation ever put on the books of any province in Canada, even socialistic members had nothing to say against it. Many Liberals have said it was the very thing needed, and was going to save the situation. The speaker could already see the great changes that will be effected in this district by the new Act. Under this act the ranchers can borrow at one-half the rate they are paying to-day, and Mr. Jones felt sure that the people would not turn down a government that was doing so much for the farmer. It has provided cheap lands, is opening the country with railways, giving

New Steel Flume Thru K.V.R. Cut.

Public Works Dept. Rushing Preparations For Early Turning In Of Water.

Permission has been given the municipality by the Kettle Valley Railway Company to place a steel flume along the side of the track running through the gravel cutting near the reservoir. This is a matter which has been hanging for some months, and has seemingly been impossible to adjust until President Warren's return from his winter's visit in the East.

This concession permits of straightening out the ditch which has made a sweep of over 900 feet in order to get around the hill now cut by the railway, and saves about 600 feet in the straightening. For this work Supt. Mitchell purposes using some of the 6ft. 4in. fluming now on hand similar to that used on the Trout Creek main.

There is just now unusual activity in the Public Works Department. All over the district gangs of men are at work cleaning ditches and repairing flumes in readiness for another season. Gangs of men are this week busy at ditch work on Paradise Flat, in the Victoria Gardens district, out towards Crescent Beach and in the Trout Creek main. Another gang is repairing the Garnett Valley flume and the finishing touches are being put on the Jones Flat ditch.

Much work has been done in the south district, particularly in preparation for serving the Experimental Farm. This work included the building of some 1,600 feet more fluming, and the cleaning and widening of other sections of the south main. This latter is now ready for concrete lining, which Supt. Mitchell will do as soon as the completion of the McAlpin contract will permit the running of the water down for concrete mixing. The Public Works Department have recently unloaded a car of cement, and a car of wood pipe is now being unloaded.

CARD OF THANKS.

To all those friends who have done so much towards helping to alleviate the sorrow of their bereavement, Mrs. R. H. Steuart and family desire to express their sincerest thanks.

Liberal Nominee for Riding is L. V. Rogers

Three-cornered Fight Possible In North End Of Valley. W. T. Shatford Again For Similkameen.

The Liberals of the South Okanagan, in convention at Kelowna last Saturday, picked on Mr. Leslie V. Rogers, High School Principal, of Kelowna, as the party candidate to contest the constituency with Mr. J. W. Jones, Conservative, also of the Orchard City. The choice of Mr. Rogers was made with one accord, the nomination being made by Mr. Jas. Ritchie and Mr. F. R. E. De Hart. No other name was brought forward.

The organization of a district association to cover the whole constituency was effected. Mr. James Ritchie was made president, Mr. F. De Hart, vice-president, and Mr. Jackson, also of Kelowna, secretary. The presidents and secretaries of the local associations will be ex-officio members of the district, and will also have direction of the local campaign.

Ten delegates from Summerland attended the Kelowna Convention last Saturday, among these being Messrs James and William Ritchie,

ing excellent educational facilities, and magnificent aid to agriculture.

Mr. Thomas Bulman of Rutland, who accompanied Mr. Jones, followed him in a strong and earnest plea for the endorsement of the farmers by their vote of the Agricultural Aids Act, and for their support of Mr. Jones as one who is vitally interested in the success of the orchardist and farmer of this constituency. Mr. Bulman spoke as a farmer, claiming no party responsibility, stating that when the gov-

OBITUARY.

ROBERT HENDERSON STEUART.

In the death of Mr. R. H. Steuart the entire community mourns the removal of one whose length of residence here had made him very widely known and just as widely respected. For some three months past Mr. Steuart had been confined to his home on Jones Flat, and lately his condition was such as to indicate that the end could not be far off for long. He lapsed into unconsciousness about the end of last week, and gradually after that time the spark of life became fainter and fainter, till on Monday afternoon at twenty minutes to four it finally expired.

Born in Lanarkshire, Scotland, in November, 1857, Mr. Steuart was now in his fifty-eighth year. As one of a family of eleven, and in company with them, he left the land of his birth in 1882, and came to this country, settling at Miniota, Manitoba, where he remained till coming farther west to the Okanagan, about seven years ago.

In his immediate family, a widow and three children, Basil, Winona and Frank are left to mourn the passing of husband and father, and to them at this time, the sympathy of many friends is extended in their irreparable loss. Other relatives here are a sister, Mrs. C. J. Thomson, and two brothers, Messrs Alex. and John Steuart, all of whom are well-known. Two other brothers are in Miniota, and yet another in Vancouver.

The funeral took place on Wednesday afternoon from St. Stephen's Church. A service was held at two o'clock, at which Rev. H. A. Solly, Rector, officiated. There was a large attendance of friends at the church whose mute sympathy testified to the high place Mr. Steuart held in the esteem of his fellow citizens. The cortege proceeded to the Peach Orchard cemetery where Rev. C. H. Daly of the Presbyterian Church conducted the last rites at the graveside, and the interment was made. The pall-bearers were Messrs O. Vaughan, A. Stark, J. Downton, J. D. Wood, R. Purvis and Capt. Webb. Many beautiful floral tributes in the form of wreaths and sprays were in evidence from relatives and friends, among these being some from Mrs. Steuart and family, Mr. and Mrs. Vernon, Mr. and Mrs. J. Downton, Mr. and Mrs. J. D. Wood, Mr. and Mrs. Peabody, Mr. H. Liddell.

ernment had come forward with such a policy as embodied in the Aids Act, he had become so enthused that he had offered to help Mr. Jones. Not only was he directly concerned in the operation of this act, but having been instrumental in bringing in many settlers, he was also anxious that this legislation necessary to their success become law. He warned his hearers against the possibility of the opposition drawing a red herring across the track, in their attempt to

FRIDAY, MARCH 26, 1915.

SASKATCHEWAN BANISHES THE BAR.

SASKATCHEWAN will be the first province in Canada to completely abolish the bar. On July 1 next not only will the retail sale of all intoxicating liquors come to an end, but the wholesale trade will be taken over by the government, and operated by a government monopoly under a system of dispensaries. Later even these dispensaries may be abolished by a referendum vote of the province to decide.

This, in brief, is the effect of a recent announcement made by Premier Scott. The government's proposals anent this liquor question put in brief and concrete form are the following:

1—To at once issue proclamations curtailing the hours of retail liquor sale to 7 o'clock in the evening, beginning April 1.

2—To submit to the Legislature a measure of which the outstanding features will be the abolition of all bar and club licenses from July 1, 1915, until the end of the war, and the taking over by the government of the wholesale liquor business throughout the province immediately.

3—Provide in the measure that, following the ending of the war, the bar and club licenses shall not be revived, except as the result of a referendum on the question, to be taken at the time of municipal elections held after peace is declared, but not earlier than December, 1916, a majority vote to decide, and the provincial franchise to be adopted for the referendum; the government to provide most carefully framed safeguards against any irregularities.

4—Provide in the measure for the maintenance by the government under a commissioner having status similar to that of the provincial auditor, of a liquor dispensary or dispensaries in each city or town where at present wholesale licenses exist, to be known as Saskatchewan dispensaries for sale of liquors, which must not be consumed on the premises, and under strict regulations as to quantities, size of package, etc., the question of establishing such dispensaries in towns and villages where at present wholesale licenses do not exist, to be determined by a referendum of the municipal electors, to be taken at the time of the municipal elections.

5—Provided that in the year 1919, or any subsequent year, on presentation of a petition signed by 25 per cent of the number of electors, a provincial referendum shall be taken to decide the continuance or abolition of the proposed dispensaries. All dispensaries taken over or opened to remain in operation until aforesaid referendum decides.

The premier added that careful consideration had been given to the question of compensation to license holders, but the decision reached was that inasmuch as such compensation would have to be paid by the province, in other words, come out of the pockets of the people, and as the people did not owe the license-holders anything, it was not possible to grant compensation.

THE ELECTIONS.

POSTPONEMENT of the provincial elections, which were to have been held on Saturday, April 10th, has been found necessary by the new situation created by redistribution. The government has found it impossible to get proclamations and accurate voters lists in the hands of authorized agents in the outlying constituencies in time for the earlier date. It is now understood that a new election date early in May will soon be fixed. In the meantime all parties are oiling up the machinery of their organizations, and in every constituency conventions are being held or have been held to select candidates. Every riding is likely to be contested. Everywhere expressions of confidence are heard among Conservatives that the McBride government will be returned to power, and even prominent Liberals are heard to admit the likelihood of this, claiming however, that they will give the government a hard chase, and at least put up a strong opposition in the House. The Conservative party as a whole seem quite willing that the opposition leaders should have a larger following, but in no constituency are the government's supporters willing to give way to make this possible.

SATISFIED WITH PROSPECTS.

THE sudden termination of the constant flow of money that has been pouring into Canada from the Motherland in increasing volume, has been the one serious effect on business in this country. Its suddenness came with a shock that for a time nearly paralyzed business. That development may be continued, it is necessary that Canada borrow from abroad, and recent statistics would indicate that a new source of supply is being developed. A New York financial journal in a recent edition, points out that vast amounts of American money are now being invested in Canadian securities, and enumerates certain items totalling over \$38,000,000 within the last three months. This capital has been spread all across Canada from coast to coast. Some of these borrowings are: Province of British Columbia, \$2,700,000; Alberta, \$1,000,000; Saskatchewan, \$2,500,000; Manitoba, \$5,475,000. A subsidiary company of the C.P.R. got nearly \$18,000,000. These heavy investments in Canada by financial men of the United States are the best evidence of the solidity of our institutions, and the fact that Western Canada has shared so largely in these borrowings shows that the men of finance must be satisfied with the prospects for the future of our great west.

LITTLE CAUSE FOR PESSIMISM.

THE TRADE FIGURES for the last eleven months of the fiscal year lately issued, show that despite the war the total trade of the Dominion for the year will be well over a billion dollars. The total for the eleven

months is \$967,632,242, or only \$82,000,000 short of the billion mark. The statement is the most favorable for many months.

The feature of the statement is the enormous increase in the exports of manufacturers, showing that the business men of Canada are rapidly adjusting themselves to the world conditions, and capturing their share of Germany's vanished commerce. Manufactured exports for the month reached \$8,982,630, as against \$4,674,709 for the same month last year. For the eleven months there is an increase in manufactured exports of no less than \$18,000,000, the total for the eleven months being \$69,938,711.

A striking feature of the trade figures is the rapid disappearance of the balance of trade against Canada. A year ago for the eleven months the balance of trade against Canada was \$160,000,000. This year for the same period the total is only \$50,000,000.

ADVERTISE YOUR BUSINESS.

DON'T IMAGINE for a moment that advertising will not bring you results in your immediate field. That's an error that many merchants make, when they assure themselves that their store is so well-known that it doesn't require newspaper advertising—that the trade will naturally drift his way, anyhow. There isn't a store anywhere in the world that has so secure a footing as that—not a single store—and you are not doing business in a field but that your sales can be increased by careful newspaper advertising. If this is not true, why is it that a stream of mail orders is constantly going out of your town to catalogue houses?

And are not these sales made by these catalogue houses the result of persistent advertising in the very field you feel that you have cultivated to the limit? Whenever you get such an idea fixed in your mind, and really believe that there's nothing more to conquer, you are simply turning over ready money to the man that does possess the broader vision—you are ceding territory and rights to others that careful newspaper advertising would retain in your possession.

THE recently published statement of the Dominion Cannery, Limited, show profits for the year 1914 totalling \$330,852, being \$135,563 less than in 1913. From these profits interest on bonds was paid, and also dividends on preferred stock, and a dividend of 1 1/2 p.c. on common stock, leaving a balance of \$27,770 to be carried forward.

THE Port of Montreal was in 1914 the largest exporter of wheat of any port on the continent, this notwithstanding that it was only open for seven months of the year. Montreal's wheat exportations totalled over 75,000,000 bush., as against New York's 64,500,000, and Baltimore's 45,000,000.

J. DOWNTON, Proprietor.
Fresh and Cured Meats always on hand. Fish and Game in Season.

TERMS STRICTLY CASH

While ordering the daily groceries, customers often send us a message like this:—"You are always so prompt and understand my needs so well, that it is a pleasure to deal with you."

A compliment, yes, but that's what they all say. We specialize not only in the quality of our goods, but in the service we render you. Whether you order over the phone or call in at the store, you will find the same courteous attention and desire to please you—it's part of our business system, just as much as is our prompt delivery and painstaking attention to your every order—no matter how small.

You are respectfully invited to give it a trial.

MAKE YOUR ORCHARDS GREATER and YOUR HOMES MORE BEAUTIFUL

The British Columbia apples, in a world competition with the best, have taken the Gold Medal Prize.

This means that B.C. orchards, if developed, will lead the world. A word to the wise is sufficient.

We are offering choice varieties of one year apple tree stock, such as Grimes Golden, McIntosh Red, Winesap, etc., at \$10 nett per 100, f.o.b. Vancouver, and 30 per cent off all other fruit tree and nursery stock allowed in additional stock. Cash to accompany order. Place your orders quickly and take advantage of these prices.

We have a large stock of flowering and evergreen shrubbery, holly, laurel, and privet hedge stock, rose and shade tree stock, foliage and flowering plants, on which we also give 30 per cent discount. Cash terms. In short, in our stock of over \$100,000 we have all you want to make your garden beautiful, or orchard greater.

Catalogues will be mailed free on application.

Time Now To Preserve Eggs.

Will Be Scarce And Dear Shortly.

The appended timely advice to the reading public, and specially the housekeeper, has been received from J. R. Terry, the well-known poultry expert of the B.C. Poultry Association:

"I am instructed by the executive of the B.C. Poultry Association to respectfully draw your readers' attention to the fact that the season for preserving eggs is now here. The present low price of eggs offers householders a splendid opportunity to secure good reliable eggs for this purpose. In packing the eggs the housewife keeps down the expenses, and also aids in supporting the poultry industry when conditions are far from satisfactory.

When buying, the purchaser should insist on getting fresh infertile eggs. Water-glass is the best medium for preservation. Wooden or earthenware receptacles are used to hold the eggs, and care should be taken to see that the former are clean and free from odors. Directions as to use of water-glass are given with the liquid. Cracked or dirty eggs should not be packed. When taken out of the preservative the eggs should be pricked with a needle before being used.

In conclusion, permit me to mention that, owing to the high cost of poultry feed stuffs, large numbers are being killed in the province. The number of chicks raised this year will also be materially curtailed. Both these facts point to the possibility of a more than usual scarcity of eggs next winter, hence the advice to preserve eggs now, when they are at their cheapest.

In Hands Of His Employers.

They Direct And Fix Salary Of Central Manager.

Speaking at Enderby in reply to the criticism which had been levelled at him, and particularly with regard to the salary which he has been getting as manager of the Selling Agency, Mr Robertson said he felt it incumbent upon him to explain: "I want to say frankly that much of this criticism has been most unkind and uncalled for. Don't criticise me too much. The Board of Management of the United Growers have kept me here; they asked me to take the management of the first year, and I consented in the hope of being able to assist in putting the fruit growing industry on a better basis. I have done my best to accomplish the most possible in this direction. We have met many obstacles, and we have overcome them. We have made progress. If the Central desires me to take up the work this year, I have told them they may have my services at their own terms. I shall have nothing whatever to say about the salary to be paid me. I want to say that my reason for taking this stand is my determination to make this thing a success. In fairness to myself, I feel that I ought to make this statement."

SUMMERLAND v. PENTICTON NEXT MONDAY.

About a dozen basketball sports chartered the "Skookum" on Wednesday night and journeyed to Penticton to see the game that decided the league championship in that town. The teams contending for the blue ribbon were the Bankers and the Ramblers, and after a hard and stubborn game, the Bankers landed the trophy by having the high end of the score of 27-11.

The opportunity was taken by representatives of the Town club to make arrangements for the long-looked for double-header between Summerland and Penticton. The date for this fixture is Monday next, March 29th. The Town seniors will be up against a picked combination from the Penticton Bankers and Ramblers, while the local intermediate champions will play a team made up from the K.V.R. and High School. A boat will leave the Summerland wharf probably about 6.30, at special fare. It is expected that there will be a capacity cargo of basketball enthusiasts on hand to make the trip, who can be relied on to give the local boys full-throated support in the way of rooting.

DECISIVE CHECKER WIN FOR WEST SUMMERLAND.

The White Cafe was the scene of the second checker tournament between players from West Summerland and Shingle Creek, on Friday evening last week. In the previous set of games, Shingle Creek had given the West players a very close fight for the honors, and were hoping last Friday that they might go a little farther and vanquish the champions. There were six men aside, this being one more than usual, and giving thirty-six games for the evening, instead of twenty-five. Dr Thomson, for West Summerland, proved to be in great form, and created a local checker record by winning his six games outright. Victory finally went to the home club, though not by a very large margin, 18 wins to 14 being recorded in favor of West Summerland.

The individual scoring was:—

West Summerland.			
	Won	Lost	Drawn
W. R. Thomson	6	0	0
Mr McKenzie	3	2	1
Wm. Ritchie	3	2	1
S. B. Snider	3	3	0
J. L. Hillborn	2	4	0
T. B. Young	1	3	2
Totals	18	14	4

Shingle Creek.

Shingle Creek.			
	Won	Lost	Drawn
W. Bront	4	2	0
R. Bront	3	1	2
W. Duckott	3	2	1
R. McIntosh	2	3	1
J. Bront	2	4	0
E. Houghton	0	6	0
Total	14	18	4

Refreshments were partaken of after the play by the two teams and a few friends, terminating a first-class time.

Live stock is the foundation of permanently successful farming today, as it has always been.

Rescued From Lake.

A young doe, evidently alarmed at finding itself amidst human habitation on Saturday morning last took to the lake in its attempt to escape, and it is thought would have perished in the cold water had it not been rescued. The deer was first seen near W. R. Shields' home, and took to the water shortly after, near the C.P.R. wharf. Believing that it would attempt to cross the lake, and fearing it would perish in the attempt, some young men with boat and canoe turned it shoreward, and when in shallow water between the C.P.R. and Smith's wharf, it was put into the canoe, where it lay, feet in the air, quite exhausted.

By this time a large crowd had gathered and cheered the boys as they pulled the animal from the water. Upon landing the deer was carefully carried to the Union feed warehouse, where it was buried in a bed of hay, given a mild dose of strychnine and allowed to rest and recover. That evening it was released, and was last seen going hillwards through Garnet Valley.

Deer are reported very plentiful close in, and several have been seen within the municipal limits, whether chased in by coyotes or tempted by the early spring growth of the lower levels.

A WARNING.

We hope the growers will not try to play ostrich and allow the marketing problem to take all their time, or consider it the cause of all their woes.

Profit is the difference between the selling price of all that is grown and the cost of producing it.

We mean to ask the grower if he is sure that there is no way that he can cut down his producing cost. We feel sure that he could look over the fence on their neighbor's land and see where his neighbor is wasting time or money.

Would it not be a good plan to visit your own ranch, consider that it does not belong to you, look at it as you do your neighbor's. Look around and see how much material, labor and money you have allowed to go to waste. Consider these things, and consider them well.

If you have produced at the minimum cost, then you have earned the privilege of accusing your marketing agency of wasting, and may honestly try to help them save their waste—and you will.—Marketer.

Kelowna has established a new schedule for electric current greatly reducing the charge for power. While the former rate for lighting, 15c., stands, the rate for motors ranges from 9c. to 3c., according to the amount used. These charges are all subject to a discount of one-third for prompt payment.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

**GILLETT'S LYE
EATS DIRT**

**Grand Rally Of
Conservatives.**

**Spirited Meeting On Tuesday Night.
R. H. Hall Elected President.**

With high enthusiasm and according to regular parliamentary rules, the Naramata Conservative Association was organized on Tuesday evening, 23rd March, in the Opera House.

Mr R. H. Hall was elected to the chair, and Mr J. O. Robinson undertook the secretarial duties pending the election of regular officers. Most spirited nominations were in order, and the ballot was cast and counted with keenest interest, the results being: R. H. Hall, President. J. O. Noyes, Vice President. Committee, T. H. Boothe, J. P. Bruce, H. T. Davies, Wm. Nuttall. J. O. Robinson, Secretary.

The three hours' meeting was filled with superlatives. Everyone was in the highest feather and plans were discussed and made for the carrying on of the Conservative party work here in great shape. The voters' list is under supervision now.

Mr J. W. Jones, parliamentary nominee for this riding, will speak in the Opera House in the near future. Sir Richard McBride and the Hon. Martin Burrell will be asked to stop off at Naramata on their speech making tours. That their party will sweep the province and carry the honors to Victoria thrilled the members of the association to a certainty of concentrated action. They are out to win, and know not the word defeat.

Correspondence from Mayor Jones of Kelowna and the secretary of the Central Okanagan Organization was on the table. Every association in the riding will stand in unbendable pact with Naramata. Naramata in her place stands firm with them, all together making one grand unit for the casting of the decisive vote. The next meeting will be held upon a call from the chair. The Opera House is the Conservative committee room.

**Boy Scouts Planning Central
Summer Camp.**

Scoutmaster Harry Pitman and heads of other Southern Okanagan troops are trying to arrange a central summer camp at Mission for two weeks during July. The next meeting of the Boy Scouts will be held in the Scout Hall on Tuesday evening, 18th April. Full particulars of the work and the outcome of the planning for the summer camp will be given later.

This is Consecration Night for the Epworth League. Mr Harry Pitman will speak upon "The Fall of Emperors." Stanley Stiff's paper will tell of the Life and Work of Joshua. Frank Hughes is to read, and there will be special music.

Mr and Mrs J. O. Noyes received an official card from their son Bert this week, upon which everything was crossed out but "I am quite well. Letter will follow first opportunity." A letter came by next mail, very short, stamped, marked and bearing many indications of having passed the line of censor.

Current Events — OF — Town & District

Mr J. O. Noyes returned to Princeton on Wednesday morning.

Mrs D. Ogden Hughes will remain in Pentiction until after the Eastertide.

Miss Bessie Mitchell returned from an extended visit to the Coast last Monday evening.

Mrs Cash is recovering nicely from the effects of the runaway accident of Sunday the 14th.

The inaugural meeting of the Naramata Women's Institute, has been postponed from April 6th until April 20th.

Mrs T. H. Boothe, Miss May Foster, Miss Ethel Whitworth, and Miss Emma Davies spent Saturday afternoon in Pentiction.

Mr George Melrose of the Forestry Department B.C. Government, spent some days here this week looking over timbers on the mountains away back.

Mrs Mitchell and her daughters were the hospitable entertainers at the Unity Club last Friday afternoon. Mesdames Mark and Fred Manchester will be Unity hostesses on April 2nd.

Letters of congratulation to Scoutmaster Pitman have been received from Rev. and Hon. T. R. Heneage, assistant commissioner B. C. Scouts, and from Ex-Assistant Scoutmaster Kent, Summerland, about the success of the boys' concert.

Prior to Mr Walter's departure to California, the Walters family have been dinner guests at the following homes: Mr and Mrs Hugh Davies, Mrs M. M. Allen, Mr and Mrs Salting, Mr and Mrs Fred Simpson. Those enjoying the hospitality of Allomac Ranch recently are: Mr F. Lorne Roe, Miss Foster, Miss Whitworth, Mr and Mrs Mulford and family, Mr H. J. Wells, Miss Lois Wells, Mr and Mrs John Schreck, Mr Bartlett.

THE MIDDLEMAN.

If you call a Frenchman a "camel" you have almost gone the limit in cussing. He would rather be called anything on the list but a "camel."

In this country, North-western States, and day, about the most disagreeable name a grower can think of is a "middleman."

Mr Grower, what is the middleman doing? He is not taking the clothes off your back and robbing you of the profits of your labor. He is making it possible for you to have a shirt and a profit. He is finding someone who will buy your wares. He is seeing that it is delivered to someone that will consume. He is finishing your work for you. He is doing something you cannot do.

Do you realize that you are a middleman? Do you realize that every line of endeavor has its necessary middleman? You are growing fruit for the consumers. You are doing work for them that they might do themselves. You are the middleman between the land and the fruit on the tree. Yes, necessary, and just as necessary as the middleman between the tree and the table.

We would all like to have the profits that go to the people who serve us. You would like to grow

Naramata Current Events (Continued).

Mrs Noyes and Mrs J. H. Pushman were in Pentiction on Tuesday.

Invitations are out for a dance in "The Naramata" on Saturday evening, March 27th.

Preparations are under way for making the Ladies' Aid Concert of April 8th a huge success.

Mrs P. S. Roe will hereafter be At Home to her friends on the first Wednesday of every month.

Mr Dan McKay has bought the fruit lot at Four Mile from Mr Duncan Munroe, and is working it.

The next meeting of the Ladies' Aid will be held at Mrs R. H. King's on Wednesday next, March 31st.

Miss McLaren, T. B. Young, R. E. White and W. J. Robinson were Tuesday visitors in town from Summerland.

Mrs E. P. Roe is visiting her sister Mrs McDougal in Peachland, and is not expected home until after Easter.

Miss Edith Hayward is enjoying her brother Frank's stay in Vancouver, where he is a member of the Third Contingent, making ready for the European battle lines.

Mr and Mrs Bowes, from the Maritime Provinces, are expected in Naramata shortly. It is said that they will occupy the Cash cottage on the south beach during the summer.

Miss Margaret Gordon entertained three visitors from Pentiction in her cosy home, Ruthven Lodge, from Saturday until Monday. The guests, ladies all, walked the distance from the southern town and back again.

A farewell party was given by the members of the Unity Club for Mr and Mrs Dean Walters on Wednesday evening, to which all grown Naramatians were invited. An account of the festivity will appear in next week's issue of the Review.

Mr J. P. Bruce, who came from Bristol, England, last spring to undertake special work for Mr J. M. Robinson, has leased Kenwood, the 35 acre Niblock ranch on the upper benches near the new K.V.R. station. In partnership with Mr Russell Wells Mr Bruce will cultivate early marketing vegetables as well as the famed fruit of Kenwood. The down town greenhouses are now being used for propagating by Mr Bruce, and he and his family will move up to Kenwood just as soon as plants are ready for the open.

your fruits without the needs of sprays, cultivators, pruners and labor. The railroads would like to deliver your fruits without the need of so much expensive equipment and labor. The dealer would like to deliver that fruit to the consumer without the need of store-rooms, salesmen, trucking and handling. We would all like to have the profits of the middleman who serves us.

It is just an endless chain of someone serving some other, and all serving all.

It is not the fault of the middleman if some are dishonest. It is not the fault of the community if some growers' packs are dishonest. It is all regrettable and needs correction, but it certainly does not warrant destruction.—Marketer.

Armstrong has decided to hold its usual celebration on Dominion Day, July 1st, this year.

PATRIOTISM and PRODUCTION

Pin Your Faith to Live Stock

The one outstanding feature of the world's farming is that there will soon be a great shortage of meat supplies. Save your breeding stock. They are to-day Canada's most valuable asset. If you sacrifice your breeding stock now, you will regret it in the near future. Plan to increase your live stock. Europe and the United States, as well as Canada, will pay higher prices for beef, mutton, and bacon, in the very near future. Remember that live stock is the only true basis of economic and profitable farming. The more grain you grow, the more stock you can carry. The more stock you keep, the more fertilizer for your fields. Mixed farming is real farming, not speculating.

BEEF

Country	Population Increase Since 1900	Cattle Increase Since 1900	Decrease Since 1900
	per cent	per cent	per cent
France	2	2	...
Germany	16	4	...
United Kingdom	10	4	...
Austria-Hungary	10	2	...
European Russia	14	...	12
Canada	34	17	...
Argentina	40	...	6
Australia	18	40	...
New Zealand	30	16	...
United States	24	...	30

Study this table, which was prepared before the war. Only one country increased its cattle more than its people in the past ten years. And, in it (Australia) in 1914 there was a tremendous loss of live stock through unprecedented drought—a fact which the table does not show. Do you need any stronger argument than this table that there is bound to be an increasing demand for beef? Add to this con-

dition, the destruction of live stock of all kinds, breeding and young stock included, in the war zones. The war has merely hastened the meat shortage of the world. When it is over, the farmer with livestock will continue to profit in the world's markets, and in addition to having helped feed our soldiers at the front, will be in a position to reap a further reward for having stayed with the live stock industry.

SHEEP. Canadian farmers have been losing great opportunities in sheep raising and sheep feeding. Hundreds of thousands of sheep have been slaughtered to provide winter clothing for the soldiers of the different armies. Australia's losses, through drought in 1914, were very heavy. Canada has been importing frozen mutton from New Zealand. In view of these conditions, wool and mutton should prove very profitable for Canadian sheep raisers during the next few years.

year in and year out, make money. Those who rush in and rush out, generally lose money. "Buy when others are selling, sell when others are buying," applies to live stock as well as to Wall Street stocks.

DAIRY. Milch cows increased in Canada from 2,408,677 in 1901 to 2,504,179 in 1911. This increase did not amount to 8 p.c., and was less than one-quarter of the population increase of Canada. At the same time, the per capita consumption of milk by Canadians increased 30 p.c. Is there any wonder we had to import 7,000,000 lbs. of butter from New Zealand?

The exports of Canadian cheese have been steadily declining for ten years. Look at the market prices to-day. Do they not suggest the advantage of increased production? Through cow-testing, selection and better feeding, the average annual production per

cow in Canada did increase from 2,850 lbs. per cow in 1901 to 3,805 lbs. in 1911, but this is only a beginning. Last year one cow in Canada produced 26,000 lbs.

The dairymen of Denmark who supply Great Britain with butter and bacon are not satisfied unless the herds average 10,000 lbs. per cow. Let Canadian dairymen work to increase the productivity of the milch cow. Breed for milk. Test your cows. Save your calves. Select your milkers. Feed for yield. Read the agricultural papers and Government reports and bulletins on dairying.

CONFERENCES.

Now that you have attended the Conferences, or have read about them, get together and talk things over. Also write to the Publications Branch, Canadian Department of Agriculture, Ottawa, for bulletins and reports on live stock and dairying.

Canadian Department of Agriculture
Ottawa, Canada

MUSIANS LEAGUE.

Passing Events: Social, Personal, &c.

...time the thoughts of naturally turn to base- the "plunk" of the ball- mitt has been a familiar sound upon the campus for some time past. The diamonds have been kept constantly in use, and last Saturday a team from the College met a nine picked from the High School and West Summerland in a second game. The laurels went to the latter with an 11-7 score.

The organized club to cover the whole of Summerland, and intended to embrace all the diamond-dusters of the district, has been revived, and a strong squad of officers installed.

Hon. President, E. R. Butler. President, S. R. Fraser. First Vice-President, G. L. McWilliams. Second Vice-President, G. N. Gartrell. Secretary-Treasurer, C. Elsey. Captain, R. Rae. Manager, C. A. McWilliams.

It is likely that in addition to arranging for games with neighboring towns against a picked Summerland team, an effort will be made to get at least three teams locally to form something in the shape of a local league. Already the College and High School have organized teams, and it should be easy to pick up a third aggregation of ball players from among the two town sections.

The first game with an outside team takes place on Good Friday, when the Penticon Cubs will make the trip up, and meet the College nine, and another line-up in a double-header.

Since the opening of the rural mail delivery route a good many changes have occurred in the list of those served in this way, mostly in the form of additions. Those who have occasion to send out any quantity of local letters would do well to make themselves acquainted with a list revised up to date.

Rev. N. McNaughton is a visitor to Armstrong this week-end where he will conduct services.

By a deal which went through this week, Mrs J. Lawler becomes the owner of the cottage and lot of E. C. Graham, Peach Orchard.

John McDougald, of the Government Telephone and Telegraph Service, has been in town this week after a long absence on his work.

Advertisers and others affected are asked to bear in mind that next week the Review will appear on Thursday, the following day being Good Friday.

Mr R. McGeorge arrived in town on Wednesday evening, and is spending the remainder of the week tuning pianos. Anyone wishing his services should phone the Review Office at once. m26

Through a mishap which occurred whilst riding his bicycle at the early part of the week, Mr G. M. Ross suffered a sprain in his right wrist, severe enough to make it necessary to have a relieving agent at the C.P.R. wharf for a few days.

That Hon. W. J. Bowser is a very busy man is apparent from the fact that in addition to his regular cabinet duties as attorney-general, he is acting premier in the absence of Sir Richard McBride, and also acting minister of finance and agriculture, vice Mr Price Ellison, who has laid down those portfolios.

The Bishop of Kootenay was unable to fulfil his engagement in Summerland last Wednesday owing to illness. He is suffering from an abscess in the ear, but it is hoped he will be sufficiently recovered to be here soon after Easter, when the Confirmation service in St Stephen's Church, which had to be postponed, will be held.

A number of tennis enthusiasts met on Wednesday evening at Mc Williams' Pharmacy to formulate plans for the coming season. Officers were elected, resulting in G. L. McWilliams being made president, Miss Gertie Blair, vice-president, and Keith Elliott, secretary. With these Miss J. Rothwell and Mr R. B. Forsyth will act as an executive. The matter of a site for courts was left with a committee to deal with. The membership fee is \$2 per year.

It seems rather futile to make a trip to a neighboring town to purchase something produced in your own home town. This was the experience of a lady shopper this week, who brought back from her shopping excursion some early vegetable produce that had accompanied her down from Summerland earlier in the day. This could surely have been purchased at home, and had the shopper known it she would probably not have gone to the trouble of buying ten or twelve miles away. It is a new story with an old moral—if you have anything to sell, make it known.

Miss Warnes, of Vancouver, is a guest at the home of her sister, Mrs J. Lawler, arriving last week-end.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Mrs T. J. McAlpin was a passenger up the lake about the middle of the week, as far as Peachland, where she is spending a visit of about two weeks.

Mr and Mrs Hargreaves and daughter returned on Monday evening from a visit to the Old Country, whither they went last fall. They are again residing at their home in the Morningside district.

The name of Mr J. Tait was inadvertently omitted from the list of names in last week's issue of those who gave their services on the hospital grounds, helping the "Garden Day" enterprise along, having for its object putting the grounds of the hospital into shape.

The latest enlistment into the Canadian Expeditionary Forces to be recorded from Summerland, is that of Philip Agur, of the Bank of Montreal staff, who has joined the Canadian Mounted Rifles, and went out on Thursday morning on his way to the Coast to join that regiment.

Mrs W. H. Fasridge of the White Cafe is assuming charge of the kitchen at the Felix Hotel immediately, and from her recognized culinary abilities the reputation of the Felix dining room is likely to be well sustained. Miss Milner and Miss Godwin, who have been at the Felix, are leaving this week-end together for California.

Among the newer citizens of Summerland are Mr and Mrs R. O. Blacklock and child, who arrived here on Tuesday from Olds, Alberta. Some weeks ago Mr Blacklock made an exchange with H. Dunham, the latter becoming owner of his Olds quarter section, while Mr Blacklock acquires a lot in Peach Valley owned by Mr Dunham, near Mr Monro's. Until living accommodations are provided, the new comers will be guests of Mr and Mrs Dunham at Trout Creek point.

An evidence of the interest that certain sections at least of the Old Country have in matters pertaining to the Okanagan and the province generally is seen in the fact that at least one daily paper there published a news item relating to the first alleged appearance of aeroplanes in the Valley early in February. The Evening Argus of Brighton, Sussex, under date of February 19th, has a short article in its columns headed "Aviators Over British Columbia." The dispatch is dated from Victoria, B.C., and it reads, "Excitement has been caused here by the reported flight of two aeroplanes over the Kamloops and Okanagan districts."

B.C. FRUIT SUPERIOR.

Mr W. E. Scott, Deputy Minister of Agriculture, recently received a letter from the Hon. J. H. Turner, Agent-General for British Columbia in London, stating that he had received a letter from the firm of Messrs Simons, Jacobs & Co., of Glasgow, informing him that the quality of British Columbia apples for the past year had been "most excellent, and so far as he had seen, the B.C. fruit had excelled that of the states of Oregon and Washington." B.C. fruit growers will be interested to hear of so high an opinion of their produce from such a reliable authority.

A profit of \$175.79 for 1914 as against a deficit of \$108.70 in 1913 is shown in a recently published statement of the Enderby Growers Association, whose annual shareholders' meeting was held on Saturday, March 13th. The business of the association, though not large, is said to have been economically managed.

The Okanagan Telephone Company Ltd., had in 1914 a total of 1502 telephones in use. The revenue for that year was \$61,493.76, and operating expenses \$34,479.72, just over \$22 per phone. They employed a staff of fifty with an average yearly remuneration of \$501.31. In round figures the company's wire mileage is 2,770 urban, and 720 rural. These statistics are gleaned from the 1914 Blue Book.

Mr Lewis H. Puge, who left here with his family about a year ago for Georgia, is returning to England early in April.

Mr Leonard Harkness, B.A., who left Winnipeg as a private with the First Contingent, has had two promotions, to sergeant and to quartermaster-sergeant.—Ex.

Mr J. L. Hilborn boarded the boat Thursday night en route to Keremeos, where he and Messrs Winslow and Smith hold what is probably their last meeting of the season.

Okanagan Lake is soon to have a lighthouse. Squally Point, on the east side of the lake opposite Peachland, which point can be seen for miles in either direction, will be the site of the new mariners' guide.

Mr and Mrs Geo. Kellington are leaving for Wauchope, Sask., next week, where they will go to live again on their farm, which has been leased for the last two years, during which time they have been residing in Summerland.

Rev. Francis W. Pattison, assistant of Dr G. Campbell Morgan at Westminster Chapel, London, is giving his spare time to Y.M.C.A. work in the camps near London. He, and Mrs Pattison, who has suffered from the dampness of the English climate for the last five months, expect to be in America this coming summer.—Outlook.

About eighty recruits gathered throughout the Valley, and including the last quota from Summerland, left Vernon last Thursday for the Coast, where they are being drafted into the Canadian Mounted Rifles. It has been estimated that from the Okanagan Valley there are now about 800 men who have gone into the service of the Empire in various regiments. Of this number Summerland is said to have provided not less than about fifty.

If the fine weather continues till Easter, a good many gardens will present a spick and span appearance to the eye of the passer-by at the time of that holiday. The beautifully mild and balmy days have lured many folks out into their gardens, and shovels, rakes, forks and hoes have worked transformations in not a few cases. In some extremely laudable instances this spring time spurt of energy has actually extended to lanes and adjacent road allowances, with great results as far as appearances are concerned. If everyone realized the value to the community of neatness and tidiness in their own and adjacent properties, little urging would be needed toward cleaning up.

An interesting exhibit in the Review Office window is one of the posters which have been very generally distributed over the British Isles by the military authorities, seeking to enlighten the public as to the difference in the appearance of British and German airships and aeroplanes. The outlines of the aircraft of the two nations are placed side by side for comparison, and some explanations are made. The poster shows that the aeroplane terror in Britain is very real indeed. Directions are given in case hostile airships are recognized: "Should hostile aircraft be seen, take shelter immediately in the nearest house, preferably in the basement, and remain there until the aircraft have left the vicinity; do not stand about in crowds, and do not touch unexploded bombs." We may have seen Zepps in the Valley, or we may have been merely "seeing things" on moonlight nights, as some exchanges are unkind enough to suggest, but we have certainly not come to the stage where we have to shelter in the nearest cellar from a possible rain of bombs.

Hatching EGGS.

SEVEN SETTINGS ONLY. This season we selected a pen of seven earliest and best laying of all our White Lophorns. Hatched it with a male that twice won second.

FIVE SETTINGS ONLY from pen of four earliest and best layers of all our White Wyandottes, headed by a Lewis male. All these laid in January, \$2 per 13. Here's a chance to get layers.

Wright Bros.

The Athletic Concert being put on to-night, Friday, by the Athletic Society of Okanagan College, promises to be an entire success, and the big gymnasium should be very well filled. The sale of tickets has been pushed energetically, and it is not likely that those who attend will experience anything of disappointment.

The invitation Concert and Dance which the St Andrew's and Caledonian Society was to have held this evening in the Campbell Hall has been postponed for one week in order to avoid a clash with the College Athletic Concert. The Scotch fraternity are holding their concert on the evening of Good Friday, April 2nd, in their usual venue, Campbell Hall.

Everybody's Doing It

Spring Cleaning Everywhere is made easy or hard, according to the tools, &c., used.

LETTER TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for publication must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

THE SANITARY REGULATIONS.

West Summerland, March 24th, 1915.

The Editor, Summerland Review.

Dear Sir: Can you or any reader inform me why we should be summoned to remove toilet 36 feet from the Creek, whilst on the opposite side of the road there are two, and two stables much closer?

Also, is it legal to charge \$3.00 horse hire fee for delivering same summons? It seems about time the ratonpayers elected a Sanitary Inspector that was capable of walking such a short distance, and that would acquaint folks as to the regulations regarding such offices when being erected not eleven months afterwards. Times are too hard for one to pay for an Inspector's joy rides without protest.

Yours truly, L. N. HADDRELL.

A fruit grower, writing in the Country Gentleman, finds that if apples are picked a little under-ripe, they will keep in storage better than if ripe.

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.

Nutritious Dishes

Those who abstain from eating meats during Lent are looking for wholesome foods to take their places. We have selected the following lines which we can offer as the very best of substitutes.

Codfish (Boneless).

Tasty and nutritious, this brand was used by Miss Livingstone at her recent cooking demonstrations—
40 cents per 2 lb. box.

Canned Vegetables.

It's a long way to harvest time. Our goods are fresh and best quality.
Tomatoes and Peas, 3 cans 50c.
Corn and Beans, 3 cans 45c.

Canned Salmon.

One of the most nourishing of all fish foods. Can be served in many tasty ways. We carry the finest Sockeye Salmon on the market. Try a tin.
15 cents and 25 cents per tin.

Macaroni.

A food of high value. Boiled alone or with cheese makes a wholesome dish.
Two packages 25 cents.

Baked Beans.

No better substitute for meat. Place the can in boiling water a few minutes and you have a deliciously warm wholesome food.
10, 15 and 25 cent tins.

Rice.

A staple, nutritious food. Eat plenty of it.
3 lbs. 25 cents.

Don't Forget Pancakes.

We carry the best brands of Pancake Flour in 25 cent and 35 cent packages. Order a package and a bottle or can of our pure Maple Syrup at 65 cents.

Also in Stock: Sardines, Finnan Haddie, Lobster, Crab Meat and Fish Pastes.

ORANGES — GRAPEFRUIT — LEMONS

Newsy Paragraphs

from PEACHLAND

Mrs Robert McDougal of Penticton is the guest of Mrs P. Dorland at present.

Mrs E. P. Roe of Naramata is the guest of her sister, Mrs Hugh McDougall this week.

The Conservative candidate, Mr J. W. Jones of Kelowna, addressed a meeting here on Wednesday evening.

The lighthouse on Squally Point has at last been commenced and shortly the lower light will send its rays up and down the lake from that dangerous point.

We beg leave to correct an error which appeared in last week's correspondence. Instead of the by-law calling for \$8,000 as appeared in the paper, it was only for \$800.

Mr Robert Houston, who has spent the past year with his sister, Mrs William Douglas, left for his home in Carleton Place on Wednesday morning. He was accompanied as far as Steamous by Mr Douglas, who returned on Friday.

A social gathering was held at the home of Mrs A. Town on Tuesday evening for the purpose of organizing a Young People's Class in connection with the Union Sunday School. After the election of officers some hours were spent in amusement.

The Ambulance League tea at the home of Mrs William Dryden on Wednesday afternoon was well attended. A comforter which was donated brought \$2.00, and refreshments over \$10. The secretary gave a list of the articles already sent away, and the money used. These lists do not include the shipment which goes away the end of this month. A large quantity of old linen came in that afternoon which will be sent with the next box. Contents of 4 boxes—101 handkerchiefs, 11 helmets, 46 hospital shirts, 37 pairs of bedsocks, 14 pyjamas, 11 nightshirts, 7 dressing gowns, 14 doz. handkerchiefs, 19

Drummond Memorial Concert

In view of the forthcoming Drummond Recital to be given under the auspices of the Ladies' College Auxiliary, on Tuesday evening, April 6th, marking the eighth anniversary of the poet's death, the following lines will be of interest. They were written while Dr Drummond lay sick at Cobalt, where he died a few days later:

DR. W. H. DRUMMOND.
Jus'w'en de Spring she's coming,
An' leetle bird is gay,
An' Winter storm an' hiee an' snow
Has no excuse to stay;
Jus' w'en de whole worl' lookin'
So you can't find no fault—
Dat's when de bad news she'll arrive,
De bad news on Cobalt!

No; dat has nothin' tall for do
Wit' news of silver mine;
De prospec' for get monee dare
It's mebbe seem ver' fine;
I spik not of such subject, me,
But bow it down my head,
For Poet of de Habitant
Dat's lyin' sick on bed.

De man w'at mak' some leetle book
Wit' verse 'bout Papineau,
De Julie Plante de Roussignol,
An' Jean Baptiste Trudeau,
An' many more—de man w'at writs
De sam' way lak wo spik;
De bad news comes on Cobalt,
Our frien' is now ver' sick.

Some verse 'e writs for mak de fame
An' some for bring de tear;
But Drummond, 'e is our good frien'
Always for plantee year;
E's Protestant but all de sam'
At Mass, w'on wo 'av kneel,
Do Cyre 'e will pray, Bon Dieu
For sure to mak' him well.

—J. W. Bengough.
At the recital on the 6th of next month, Rev. D. E. Hatt, the well-known Drummond interpreter will present a program representative of the poet's works. It will include the same selections as were heard at a recital in the Men's Club last fall. In addition to this splendid program, several good musical numbers are also to be included.

pairs pillow cases, 10 cholera belts, 33 pairs socks, 20 scarves, 33 pairs wristlet mitts. \$221.80 has been collected which with \$12 from the tea will make \$233.80.

CAMPAIGN OPENED BY STRONG ADDRESS.

[Continued from Page 1.]

prove that the Aids Act was not an issue. Time will not permit publishing Mr Bulman's speech more fully.

The latter part of the evening was enlivened by a number of good humored party thrusts. Col. Cartwright, as Liberal spokesman, stated that he was in favor of the Aids Act, and asked Mr Jones if he would pledge himself to have it put into operation immediately. This pledge was readily given, and Col. Cartwright stated that they would take care that Mr Rogers made a similar pledge. Mr Jones assured his hearers that the government was already taking steps to put the act into operation, and is at this moment looking about for money at reasonable rates, and said that when elected he would press for the immediate application of the act, and would see that that money came to the Okanagan, or there would be trouble in the camp. Mr Jones was confident that the McBride Government would be returned, and advised that the South Okanagan send a man to Victoria that would have some influence with that government.

Mr Jones is spending to-day in this district making the acquaintance of the electors, and familiarizing himself with local conditions and problems.

The House of Commons on Wednesday authorized the vote of \$100,000,000 for war purposes.

Early last week Mr G. N. Gartrell accompanied by Mrs Gartrell went to the Coast to consult a specialist, anticipating the necessity of undergoing a serious operation. Friends here have been advised that the operation has been performed and was successful.

The Board of Trade at Kelowna and the people at Westbank are negotiating for a free ferry service between those places. The Deputy Minister of Public Works, acknowledging the request, stated that owing to the financial depression the government could not act in the matter at the present time.

LOCALS.

A fine team of Clydesdale draft horses was brought down from Kelowna by R. H. English this week.

J. L. Logie came in on Saturday of last week from a trip to the Coast mainly in the interests of the K.V.R.

After a short trip to Alberta points, Ed. Garnett returned to Summerland at the end of last week.

Promotion has come to George Barkwill, who joined the B.C. Horse last fall, he now taking the rank of corporal.

Thos. Dale has leased five acres of his farm to Japs for market garden purposes. They will plant largely to onions.

Messrs T. E. Pares and E. C. Bentley, who are now with the Canadian Mounted Rifles, have both qualified for the rank of lieutenant. They were successful in recent examinations, and both will now take commissions. Lieutenant Bentley came in on last Friday's boat to spend a short furlough with his mother, Mrs C. J. Bentley.

Methodist Church services will be conducted on Sunday next by the Rev. R. W. Lee. The morning service will be in the Methodist Church at 10.30 a.m., the subject of discourse being "The Uplifted Christ." The evening service at 7 p.m. will be in St Andrew's Church, when the subject will be "The Quilter." A hearty invitation is extended to all.

In view of the provincial elections that are now pending, it behooves every citizen who is eligible to see that his name is on the voters list. It is not yet too late to register, and the officials of both local party organizations stand ready to inform any enquirers, and also to supply the necessary form for those who find their names are not on the list. A few years ago the existing list was cancelled, and the voters of the province were called upon to register their names afresh. Those who neglected to do so will find their names are missing.

Weather Report

Abstract from weather records for February, 1915, kept at the Government Station, Balcom Ranch, Summerland, B.C.

Alberta Farm Lands

Are you thinking of going into grain or diversified farming? If so, you will be thinking of Alberta farm lands. There is no better land in that vast province than along the Calgary-Edmonton line, which includes such famous districts as Red Deer, Didsbury, Innisfail, etc.

The C.P.R. lands department has large holdings in that district, extending 40 miles on each side of the Calgary-Edmonton line. Now railways are running a network through this country, opening land for settlement. Now is the time to buy.

Anyone interested can get full information upon application to

JOHN DONOVAN, West Summerland
Agent C.P.R. Lands.
At Incola Hotel, Penticton,
Saturday Afternoon and Evening.
