Transient Advertisements payable in advance.  
Rates for Contract Advertisements furnished on application.  
Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, MAY 7, 1935.

### WHAT IS YOUR DIET?

**CANADIANS EAT TOO MUCH MEAT.** They are one of the three greatest meat eating peoples in the world, Australia and the United States being the other two. High prices for meat are coming. The cost of food as well as its nutritive value should be considered.

Prof. James Long, the eminent British authority, recently addressed the following advice to the War Office:

"Jam has three and a half times the energy value of butter. Its value lies in its richness in sugar—of which one-half its weight consists—in the minerals present in the skins of fruits, in its laxative character and its mechanical aid to digestion.

"The sugar of fruit has a remarkable effect on nutrition. Commercial sugar, if eaten too freely, causes irritation, acidity and other freaks of indigestion.

"The most nutritious and useful varieties of jam are those made from plum, apricot, gooseberry, and currant, but a mixture of plum and apple stand at the head of the list. Jam should not be considered as a dainty, but as an article of food."

Dr Frank T. Shutt of Ottawa, Dominion Chemist, gives us the following authoritative statement as to the great importance of vegetables, especially fresh or home grown. The importance in connection with small gardens in towns and cities is very apparent, and the subject is opportune at this time of the year. It may be that a small garden will keep down the doctor's bills.

"That many of the ills that flesh is heir to arise from indiscretions in diet is a fact that more of us should realize—and the earlier in life the better. Many of us, and perhaps this applies especially to those who live in the city, eat too much. As a result, we get too stout as life advances, and, what is still more serious, an extraordinary strain is put on certain of the organs of the system in nature's effort to get rid of the waste. Further, we who live more or less sedentary lives, eat too much meat; the man who sits at a desk all day long or stands behind a counter may work as hard as the navy or ploughman, but it is a different kind of work. It does not call for the same amount of strong food. There is no necessity to diet ourselves by formula or to weigh out what we should eat, but we ought to be guided to a certain extent in our eating by common sense and the knowledge which science furnishes respecting the requirements of the body for the maintenance of the vital heat, the development of energy and the repair of tissue.

"As city people we might keep in better health and live more cheaply if we eat less meat and concentrated foods and use more vegetables and fruit. And this advice might especially be emphasized for the summer diet, when there is not the same call for the system for the stronger foods.

"Fresh vegetables are wholesome, palatable, and productive of good health. Though in direct food value vegetables yield a first place to meats, it must not be supposed they are destitute of those nutrients which build up the body tissue and keep the machinery going. It would be possible, though not desirable, to live exclusively on vegetable foods. But vegetables, and especially fresh vegetables, are not to be regarded merely from the standpoint of maintenance—though we assert that now-a-days they would make a very good showing on the ground of economy. Nor need we urge their extensive use on the grounds simply that they are appetizing and furnish variety to the diet. They, in addition to those excellent qualities, possess a medicinal value; they are aids to digestion, and afford that bulk or volume to the food necessary for the right distention of the alimentary tract. Many vegetables contain salts which are gently laxative, relieving constipation, that scourge that is the forerunner of so many dangerous and not infrequently fatal, diseases. And, again, many vegetables, especially those used in salads, have a special value in cooling the blood, and are, therefore, most wholesome, especially in the summer season.

"Fresh vegetables are vastly superior to those that are wilted from keeping a day or two, in succulence, crispness, and palatability. To be enjoyed at their best, vegetables must be eaten strictly fresh."

## "Lusitania" Torpedoed.

The monster liner "Lusitania" with 1,800 passengers and crew of 800 was torpedoed by a German submarine of Old Head, Kinsale, south coast of Ireland, at 2.30 this afternoon. More than 50 anonymous telegrams to passengers predicting this were sent on board just before the liner sailed from New York. Latest reports are that the crew were successful in beaching the ship and that no lives were lost.

A spinster may live to congratulate herself on the number of times she did not marry.

John McLeod, Physical Director at the College, and Lorne Morlock, a student from Vancouver, went down to the Coast, leaving here on Wednesday morning.

Miss Aitchison Matron of the Hospital, who has been ailing for some time, has returned to her duties after three or four days convalescence at the Aitchison ranch.

The ladies of St Stephen's Church were the successful tenderers for the privilege of selling lunches at the Victoria Day Sports at Crescent Beach. No tenders have yet been awarded for the refreshment booth.

It's a wife's sense that saves her husband's dollars.

"In America the money spent on such luxuries as tea, coffee, tobacco, and liquor would buy ham and eggs, three times a day, for everyone on this continent. Eliminate those things and there would be no more poverty or soup kitchens."

### ASSESSMENT APPEALS.

(Continued from page 1.)

tion, and the possibility of subdividing. Mr Kelley maintained that when the land was subdivided and price paid was the time to raise the assessment. He insisted that all lands should be on a flat rate, corner lots only being assessed higher. Replying to Mr Kelley's arguments, Assessor Logie resented the attack on his personal reputation, declaring that he may have erred in valuation, but that he had dealt with each lot on its merits, irrespective of who was the owner. He had faith in Summerland, and had never yet taken "cold feet," and believed Mr Kelley had no right to say that properties are not worth the value put upon them. West Summerland was holding its own, in fact property had been recently sold at the former rates, and these prices were paid because of location.

Mr Kelley also appealed against the assessment of the land on the east side of the road passing his property, arguing that this should be assessed at the same rate.

Asking that he might be heard, Mr Ritchie, the owner of this and other properties on which Mr Kelley had entered appeals, stated that he had never examined his assessment notices until this dispute came up. He had never known of any favors, and now asked that he be allowed to appeal on all his lands. He believed the Council's only desire was to equitably raise the necessary monies. Upon investigating his assessment he found that the ten acre lot opposite Mr Kelley's home and another in front of the stores, were assessed low, while the assessment on his home lot and some other properties was too high. He had been under the impression that he was not paying taxes on what is generally known as the sports ground; it being used by the public, but now finds that he has been paying, though on a somewhat reduced valuation. When elected as Reeve, he had told the Assessor to tax him on the sports ground. Mr Ritchie claimed that he had for years been paying more taxes than he should have paid, because of over assessment on certain lots. Here Mr Kelley accused the Assessor, as Clerk of the Council, of not having informed that body that the sports grounds were assessed on a low valuation, when a recent grant was given to a sports committee leasing that property. This he termed as improper procedure, to which the Reeve made prompt reply that this was less improper than for him, Mr Kelley, to closet the members of the Council individually, before the Court convened.

### AFTERNOON SESSION.

Resuming the discussion after the noon recess, Mr Kelley stated that he would agree to an assessment of \$100 per acre over the adjoining lots, suggesting that the Gunning, Elsey, and Bowering lots be valued at \$300 per acre, and his own at \$400 instead of \$600 as at present. Coun. Simpson did not think the present assessment too high, although there might be too great a discrepancy, and believed the others should be raised. The Kelley lot was very favorably situated, even not considering speculative value. Coun. Borton believed the Kelley lot should remain assessed as it is, and the others brought up. Coun. Campbell expressed himself as of the same opinion, stating that Mr Bowering was not objecting to his present rate, but thought some properties near him might be raised. Dr McIntyre, anticipating a proposal that his assessment be increased, suggested that his should be governed by the value put on the Ritchie property opposite him. He thought the Bowering rate too high because of limited frontage, and believed it unjust to rate property on a possible future value. On motion of Couns. Simpson and Johnson, the Kelley assessment was sustained. A slight reduction from \$600 to \$550 per acre was made on the Elsey property, and the Bowering assessment at \$400 was sustained and the Gunning property immediately west of Bowering. Elsey lots was raised from \$300 to \$400.

Mr Kelley also appealed against the assessment on his home property, four and one-half acres, at \$400 per acre. He understood that the Ritchie lot used as a school playground was to be increased to \$400, if so he would be satisfied with his assessment. Sustained.

Okanagan College Board appointed against the assessment on the College property. Speaking for the Board Mr Kelley stated that 12 acres of the 20 was waste land, while the value of the 8 acres was problematical. The land was of

no use for other than its present purpose, and another consideration should be the fact that the College is not a money-making institution. He asked that the assessment of \$2,000 be cut in half. Coun. Simpson said that if one disconnected the fact that the College was on the property, the value seemed too high, and on motion of Couns. Borton and Simpson, the assessment was lowered to \$1,000, and that on the gymnasium building site from \$150 to \$100.

Mr Kelley also appealed against the assessment on all the Woodworth estate lots near Giants Head. Each lot was considered individually and compared with contiguous properties, and the assessments all sustained.

### BUSINESS LOTS SUSTAINED.

Town lots 1, 2, and 3, occupied by the Fraser Barber Shop, and adjacent buildings, were also overvalued, according to the owner, W. C. Kelley. He considered \$500 for 25 foot lots excessive. The Assessor stated that the corner lot, which was a small one, was assessed at \$300, and the other lots \$500, the same as all other front lots in that block. Front lots in the next block to the east were assessed at \$400. Mr Kelley contended that there was actually no difference in value. These assessments were all sustained. The McIntyre orchard was again considered, and raised from \$300 to \$400.

Assessment on the C. M. Woodworth orchard, now in charge of J. C. Wilson was sustained. The owner was represented by W. C. Kelley, who also represented the assignee of the T. E. Moore property, a five acre lot assessed at \$1,500. The assignee claimed there was one acre of waste land in the lot. Assessment sustained.

Mr Kelley wanted the Ritchie lots running north from the Municipal Office to T. N. Ritchie's, assessed the same as Mrs. Kelley's lot. He also appealed against the assessment on his orchard lot north of Victoria Gardens, claiming considerable waste land, and mentioned the Hilborn and Muir Stewart properties as much of the same nature, the Hilborn property only having been given a reduction. Decision on these lots and several of the Ritchie properties was left over until the following day to be personally inspected by the Court, Mr Ritchie having asked the Councilors to inspect his properties in person. There had been a good deal said of late of his assessments, and he felt satisfied that he could convince the Court that he was over assessed if they visited the grounds. A number of other appeals were disposed of as follows:

H. M. Lumsden, who bought the Darke property, appealed on the income basis, and also wanted a share of the municipal work. Assessment sustained. T. J. Garnett on two town lots, the property of his father, and adjoining Elliott's store down town. A brook crossed these two lots diagonally. Slight reduction made. F. G. Barnard appealed against general water rate. The pipe line serving his property was a private one. Rebated. C. J. Thomson property overlooking Peach Orchard, two lots, reduced \$300 because of gulches. Lots 61 and 62, the Hespeler property, referred to the Clerk for further information. J. R. Brown objected to an assessment of \$1,500 on a town lot opposite the Review Building. He withdrew his objection when told that adjacent properties were similarly assessed. The same action was taken with reference to his town house property on Beach Avenue. He also withdrew appeals on his Trout Creek property when shown that the contiguous properties were similarly valued. The Stevon Thomson orchard assessed at \$8,200 had a piece of waste side hill and the Assessor suggested in reply to an appeal that it be valued at \$8,000. William Cross's assessment sustained. The Trefry property of ten acres on Paradise Flat was reduced from \$8,000 to \$2,200.

### INSPECT RITCHIE LOTS.

The Court convened again on Tuesday morning, and motored to the Kelley, Hilborn and Stuart orchards, then inspected lots 1, 2, 3, 4, 5, 6, 7, 8, in the block north of West Summerland town site. This block includes the school properties as well as that occupied by T. N. Ritchie. Mr Ritchie's home property, also the bench north and south of Alex. Stevon's home were inspected. The assessment on that portion of block number 1 on the Ritchie lot, not included in the school property, was sustained. Lots 2, 3, 4, running north from this were reduced \$50 per acre.

While ordering the daily groceries, customers often send us a message like this:—"You are always so prompt and understand my needs so well, that it is a pleasure to deal with you."

A compliment, yes, but that's what they all say. We specialize not only in the quality of our goods, but in the service we render you. Whether you order over the phone or call in at the store, you will find the same courteous attention and desire to please you—it's part of our business system, just as much as is our prompt delivery and painstaking attention to your every order—no matter how small.

You are respectfully invited to give it a trial.

Lot 5 (T. N. Ritchie) was fixed at \$800, 6 and 7 at \$350, and \$450 per acre respectively, and lot 8 and 61, also Mr Ritchie's property, south of the schools, part of which is used for play ground, was put at \$600. The Assessor had put a flat valuation on all of this block. After treating the lots individually, the total assessment was somewhat higher. The result of the visit to blocks 56 and 57, surrounding the Stevon home, was a reduction for Mr Ritchie from \$4,000 to \$3,000. Lots 64, 65, 66, 67, in which the sports ground is included were also considered individually, and some increases made, while the assessment on Mr Ritchie's home property was cut in half. Lots 60 and 61, also Mr Ritchie's property, south of the schools, part of which is used for play ground, was put at \$400. The net result on all these will be a slight increase in taxes for Mr Ritchie. The Hilborn assessment was sustained, as was also that on Mr Kelley's property north of Victoria Gardens, while Muir Stewart's orchard was reduced by \$200. The Court adjourned at noon on Tuesday until 10 a.m. on Monday the 10th.

**SYNOPSIS OF COAL MINING REGULATIONS.**

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, and the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1. per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

**RIGHTING OUR ECONOMIC POSITION.**

Editor, "The Summerland Review."

Dear Sir: My attention has lately been drawn to a new method of dealing with the troublesome problem of packing our flumes where they require to be made close and tight to prevent leakage and loss of water. Mr Brewer, who has charge of our irrigation district showed me the new ingredient called "elasticum," a combination of tar and asbestos with perhaps some other materials. Superintendent Mitchell told me that it costs the Municipality 8 cents per pound and that he thought to consumers of smaller quantities it could be sold at 10 cents per pound. My surprise and regret was great to find that while by barrel or half barrel quantities it could be had at 9 and 10 cents respectively, in small quantities it is priced at 30 cents per 1 pound tin or 25 cents per pound in 5 pound tins. I refused to take it at such a price, saying I would rather let the Municipality lose some of its valuable water by leakage than to pay so high a price. I also called at the Municipal Office and urged upon Mr. Logie the wisdom of the Municipality buying it in quantity and supplying individuals at a nominal increase to cover cost of waste, etc. Mr. Logie at first objected that the Municipality could not so engage in business, but upon my representation that it would really be part of a reasonable system of protecting its own property, agreed this might be a legitimate part of its municipal service or system. For myself, at a small cost of factory cotton bought in Toronto and a few hours' work added to some waste of water to our Municipality, I have, I hope, for this season, met my own personal needs in this direction. I would urge, however, the urgent necessity of our people being enabled to reduce the high cost of production which has pressed all too heavily upon their energies and upon their pocketbooks, if we are to make good in the sphere of our economic activities.

At a meeting held about two months ago, Mr Estabrook, speaking to the situation in which we are placed, stated that he felt that it has to be dealt with "from the bottom up." In other words, so serious is the position in which we are placed, that only severe and far reaching methods can properly deal with them. May I state an incident to illustrate my thought?

Last month I bought some fertilizer, the freight charge on which was \$18 per ton, or 90 cents per 100 pounds from Victoria for this raw material of the farmer, which by every principle of sound economics ought to be made easy of access by low freight and profit charges.

The export rate upon grain from Calgary to Vancouver is 19 cents per 100 pounds, or \$3.80 per ton, that from Calgary to Fort William is 25 cents per 100 pounds or \$5.00 per ton, or together 44 cents per 100 pounds, which is but \$8.80 per ton for two shipments two-thirds way across the continent, while for our raw material over double the rate is charged from the Coast to our lake port here. I wrote the C.P.R. general freight agent who did not even show me the courtesy of a reply. I have since written the Toronto "Daily Globe," and the Montreal "Weekly Witness," protesting against this extortionate abuse of the charter powers given to the railway companies.

As an individual I desire to do my humble part to change our economic situation "from the bottom up" until a fair share of the profit which we labor for rewards our earnest endeavors. If quiet efforts be without result, then I trust we will follow the example of our prairie brethren and organize to fight for our rights. The large results which they have obtained should encourage us to resolve that we also will demand these rights from those who fatten upon the products of our hard work.

Not alone in Germany is the German spirit active and injurious. It is influential and aggressive in all lands, and one benefit we look for from its defeat in Germany is that its reactionary influence shall be weakened in all civilized countries. HENRY MOYLE.

West Summerland, May 3rd, 1916.

**Boy Scout Column**

**SUMMERLAND TROOP BOY SCOUTS**

Scoutmaster J. Tait.

Headquarters—ELLISON HALL. Meets every Friday evening 7.30. Scouts—Cubs—Ages 11—18 Ages 9—11 Recruits should apply personally at any meeting. Visitors cordially invited to attend.

WANTED—Recruits for Summerland Boy Scouts. Must be between ages 9—11, or 11—18. Apply personally at any meeting.

The route march which we had planned for last Friday did not take place, owing to the muddy condition of the roads. A good number of Scouts and Cubs turned up at the Hall for scout practice. The boys were immediately summoned to the Den and the summer camp was planned. There were two alternatives: a fixed camp, or a travelling camp. The latter seemed to be the most approved of by the Scouts. In case we should have this camp, the route had to be decided on. The following seemed to be about the best one. The Scouts would start off in the morning and march to Penticton so as to arrive there about noon. Camp would be pitched there and preparations made for spending the night. Next morning the camp would be struck and the march continued to Kaleden. Here permanent camp would be pitched, thus giving the boys a chance to study the landscape of the Falls. The return trip would be made in the same stages as the going trip. Naramata Troop would most probably join us at Penticton on the way down.

It was decided that the Cubs would contribute one item on the program of our concert.

The Scouts were then dismissed by the Scoutmaster for the time being, while he drilled the Cubs. The Scouts found lots to amuse themselves with during that period, both in games and in reading.

There was a good number of visitors to see the Scouts at work on Friday, including Scoutmaster Leonard, from the prairies, who is staying for the present in this town.

The meeting broke up as soon as the Scoutmaster had finished drilling the Cubs, and the boys went home.

The troop has been presented by Mr H. Foreman with a large red, white and blue shield, with the Scout badge on a background of green in the centre. Around the shield appear the words "Summerland Boy Scouts" and on a scroll in the centre the Scout motto, "Be Prepared." We wish to thank Mr Foreman for the splendid gift, and it now occupies a prominent place in the clubroom.

The Scouts have been kindly invited by Mr and Mrs F. A. Miller, of Upper Trout Creek, to march in a body and spend Saturday afternoon with them. The invitation was gratefully accepted.

We wish to thank Mrs Pineo for a donation of several books for the library. Our library is now getting to be of a good size.

Thanks, Naramata Scouts, for your good wishes regarding our concert. We hope to see a good representation of Naramata over.

**A SUMMERLAND BOY SCOUT.**

**Foreign Eggs To Be Stamped With Origin**

The persistent efforts made lately by the British Columbia Poultry Association, assisted by its thirty-two local affiliated associations and the provincial government, have resulted in partial success. The association has been endeavoring for the past few months to secure legislation dealing with measures that could be adopted to combat the invasion of Chinese eggs, which have for some time been very detrimental to the local market. Hon. Martin Barrall, Federal Minister of Agriculture, has wired the Department of Agriculture at Victoria to the effect that by an order-in-council a customs regulation has been issued requiring that all packages of eggs entering the Dominion be labelled with the name of the country of origin. It was originally hoped that the Dominion authorities would make the regulations more effective by ordering that all imported eggs be stamped separately, thereby showing to the buyer of eggs in any quantity where the produce came from. The order will be effective from now on, but it will probably take a week or so before shippers and wholesalers become acquainted with the reg-

**For Sale**

??

If So,

**You Will Need Butter Wrappers.**

The new Dominion regulations require all farmers who sell butter to the stores or privately, to have it properly covered with a printed wrapper with the words "DAIRY BUTTER" appearing in prominent letters upon it.

The Review Office can supply neatly printed wrappers of good quality vegetable parchment specially made for butter wrapping, printed with a special ink, any wording desired, for the following prices:

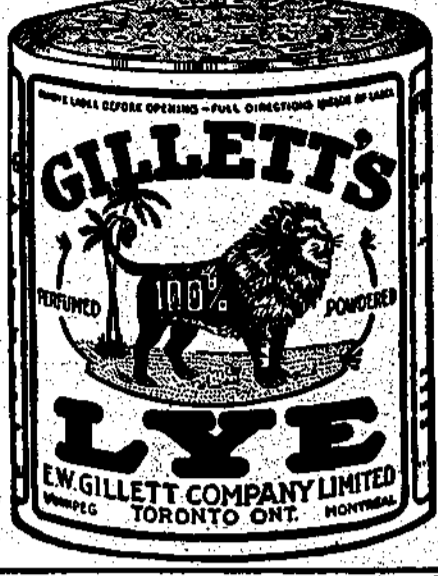

100	-	\$1.50
200	-	2.00
500	-	2.75
1000	-	3.75

**The Review Publishing Co., Limited.**

The measure put in force should be of great benefit to the poultry industry, as it will prevent the consumer from purchasing foreign eggs thought to be of local origin.

# OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

## GILLETTS LYE EATS DIRT

### WOMEN'S INSTITUTE MEETING.

#### Marketing of Orchard Products.

The first regular meeting of the Women's Institute was held in the Unity Club Building on Tuesday afternoon at three o'clock with Mrs. H. T. Davies in the chair. The room was arranged for business and from roll call to National Anthem everything moved along with a spirited swing. The president was in capital form and had the constitution right at her fingers' ends. Some splendid bits of ranch information were repeated in answer to the roll call. Much to the disappointment of the forty or more members, Mrs. W. C. W. Fosbery was unable, on account of illness, to be present, and Mrs. Reesor was asked to tell in a few words what Mrs. Fosbery's marketing-through-prairie-institutes idea was. Mrs. Margaret Allen followed with an excellent and practical talk about her personal methods of marketing fruit. She went into details giving prices, modes of picking and packing, shipping and drying her orchard products. Many questions were asked and a general and live discussion followed. Mrs. Langueod gave her experience of marketing through the Union and sending to canneries. This was an excellent paper, and while the results in a financial way had not equalled Mrs. Allen's returns, still Mrs. Langueod believed that the Union would be the best medium in future. Many of the members added fresh data to the facts given by the two speakers. Mrs. Cash was called upon to give the current events of the month of April. It was an excellent review listened to with deep attention.

Before the meeting adjourned the president told of Miss Livingstone's coming next week, and the session was brought to a close by the singing of God Save The King.

### NARAMATA SCOUT DOINGS.

As a number of Tenderfoot Scouts are desirous of trying for their Second Class badge, it has been decided to set aside a certain portion of time every evening in which the Second Class boys will take turns to explain to the younger ones the different tests. Last Tuesday evening P. L. Hughes gave a short talk on the Arterial System, and other boys were requested to review different phases of the work for future meetings. This way of teaching serves a double purpose. First it makes the work interesting and instructive for the Tenderfoots, and secondly it serves to freshen the memories of the instructors. Physical drill is also a regular feature of our weekly meetings, and the Scouts are becoming quite proud of their muscular development.

A notification has been received from the Provincial Headquarters to the effect that Mr. Honenge, the Assistant Commissioner for B.C., will pay a visit of inspection to our troop on May 27th.

The Naramata boys have been looking with envious eyes on the Summerland Troop's weekly call for recruits. They thought they would try some such stunt here, and made all arrangements for same until someone pointed out that every available boy was already a member of the Troop. Upon which the project fell to the ground.

### MARKET FOR DRIED FRUIT.

Referring to the discussion about dried fruit at the meeting of the Women's Institute on Tuesday and the question asked — "Is there a market for it?"

Following the publication in B.C. Fruit and Farm of an article about Okanagan Dried Fruit, the Editor of the magazine wrote to the writer of the article saying that it had come to the notice of Mr. R. Grigg, Commissioner of Commerce for Great Britain, and he (Mr. Grigg) had written to the Editor saying, "There is a good market in France for dried apricots, and the firm of Potin & Co., 103 Bd-de-Sebastopol, Paris, would like to receive samples."

### Current Events OF Town & District

Mrs. Ogden Hughes spent the week in Penticton.

Mrs. Robert McDougal and children, of Penticton, spent Tuesday with Mrs. Roe, sen.

Mrs. Rowley of Summerland, has been the guest of Mrs. Peter Roe for the past two weeks.

Mr. George Partridge and his family moved to their lot on the centre benches on Monday last.

Bottle scouring matinees have been held daily at the carbonated drinks factory for some days past.

Mr. J. H. Pushman was re-elected superintendent of the Sunday School at the annual meeting of the officers.

Rev. J. Irwin Beattie was in Vernon this week attending the W.C.T.U. convention at which he was one of the speakers.

A reorganization of the Junior League will take place this evening in the Assembly Hall to which the general public is invited.

Anglican Church service will be held on Sunday afternoon at 3 o'clock, Rev. H. A. Solly, of St. Stephen's, Summerland, officiating.

Mrs. James Hayward went to Peachland on Thursday morning and will stay with her daughter, Mrs. Wright during the summer months.

The sewing meeting of the Ladies' Aid, which was called for on Wednesday, the 12th, will be postponed on account of Miss Livingstone's cookery classes in connection with the Women's Institute.

Miss Livingstone, government demonstrator of cookery, will arrive on Saturday evening and open her classes in connection with the Women's Institute on Tuesday, 11th May, at 8 p.m. in the Unity Club Building.

The bright weather has attracted many picnickers to Naramata during the past week, when the old mill, both north and south benches and the big and little tunnels have been the objective resting places and luncheon grounds.

Mrs. Carroll Atkins is expecting her father, U.S. Consul General at Ottawa, to spend at short time at Rekadom Ranch during this month. Mrs. Foster, who has been visiting her daughter, will return to Ottawa with Mr. Foster.

At the last meeting of the Unity Club it was decided that the use of the Club building be offered to the members of the Women's Institute for their meetings and demonstrations for 50 cents each time of using. This sum to include light and wood, but not the caretaking. At the meeting of the Women's Institute it was decided to accept the offer of the Unity Club members.

On Friday afternoon of last week, Mrs. J. H. Pushman entertained the members of the Unity Club following their usual fortnightly business session. A short program had been arranged in which Mrs. Morsch was to have taken part. Mrs. Reesor read a short story of "Romance," and Miss Gladys Robinson sang. Spring wild flowers, purple and white lilac and velvety wall flowers adorned the mantel and tea-cup tables. Mrs. Pushman was assisted in serving by her nieces, Miss Emma Davies and Miss Edna Noyes and also by the Misses Robinson.

### Naramata Current Events (Continued)

Mrs. Mark Manchester will be at Home next Monday afternoon, 10th May.

Mrs. John O. Noyes received yesterday (Thursday) afternoon for the last time this season.

A ferry load of Naramatians went down to Penticton on Wednesday evening to see the picture show.

A steady drizzle of rain for four days moistened the earth and gave growing impetus to the seeds last week.

On account of shortage of water the electric light plant was out of working order for a short time last Monday evening.

The wonder of the wild flowers grows apace. This week there are exquisite varieties of purple, mauve and pink blossoms everywhere, and feathery white flowers tipping long stems.

Mrs. Peter Roe received on Wednesday afternoon, assisted by her house guest, Mrs. Rowley of Summerland. The weather was perfect, and a number drove down from the benches and met with the lakeside visitors who were enjoying Mrs. Roe's hospitality.

Mr. Thomas Acheson, of Winnipeg, Agricultural Agent for the C.P.R., accompanied by Messrs. W. A. Jackson, Charles Greer, and J. Kirkpatrick of Penticton, motored from the south end of the lake on Tuesday, lunched at the "Syndica," and spent some hours looking into agricultural and industrial conditions here.

Though not yet officially announced it is expected that a Jam Show for the benefit of the many in Europe who are in need of food and have no way of getting it will be a feature of the next Women's Institute meeting. Miss Margaret Stewart Gordon suggested the idea after Tuesday's Women's Institute meeting, and met with hearty response by those to whom she spoke of it.

A pleasing program followed the discussion of socialistic talks last Monday evening, Malcolm Walters being the first one called upon to take part. His piano solo, a nocturne, was well and carefully played, and then Mrs. Hans Salting read a graphic poetic description of prairie life entitled, "Whistling in Heaven." Mrs. Fred and Mrs. Mark Manchester were recalled after playing a spirited Russian mazurka as a duet, and responded with a dreamy waltz. Joseph Morsch chose a humorous reading for his contribution, and so amused his hearers that he was asked for more. A fair sized audience greeted the speakers, and Mrs. Dean Walters, as chairman, gave an excellent opening address.

### REVOLT OF DAKOTA FARMERS.

#### Mr. Bartlett's Presentation of the Case.

With the lights waning in the Assembly Hall on Monday evening Mr. Bartlett held the close attention of the townspeople when he told them why North Dakota wheat farmers had revolted. His remarks, based on an article written by Charles Edward Russell, were right to the point, convincing and authoritative.

"Whenever the increasing pinch of the cost of living causes a new protest, a vociferous chorus, led by Mr. James J. Hill, the famous philanthropist of the north-west, assures us that the remedy for our trouble lies in multiplying the number of farmers. 'Back to the farm' shouts Mr. Hill, 'Production is far short of the normal! Men go back to the land. In a short time farms are deserted. Why? Because land was mortgaged to pay for itself. Machines with which to work the land were mortgaged. Homes were mortgaged to get seed. Wash tubs were mortgaged to get fodder. When the bumper crop came it was under valued by inspectors, sold for less than it was worth. Went into elevators as low grade or no grade at all, came out and was sold as high No. 1 grade. Railway company got a rake off; bank took a whack at what remained; elevator trust secured a big slice; those were legitimate commissions—and the farmer—where was he? Down and out. Land all right—what all right—difference between price paid to the farmer and that paid for flour by the people all wrong.

## General Merchants.

It takes 75 cents to grow a bushel of wheat in North Dakota. The farmer gives his money, thoughts, time, labor to producing it and receives, on an average, 72 cents a bushel. Farmers have got together. Co-operation is coming their way. Operations will be in daylight. Dealings in futures will not be tolerated. Prices for raw wheat will go up; prices for flour will come down. Not so many people will be hungry. With no outside graft farmers will be able to keep their farms and agriculture will be made a paying profession.

### GIST OF MR. SALTING'S ADDRESS AT PROGRESSIVE ECONOMICS CLUB.

In reviewing the present stand of the government re the proposed agricultural loan act, looking at it from a Socialist's standpoint, "I maintain that if the people of any nation consider the farmers of their nation in need of and entitled to assistance, and decide through their government to assist those farmers with a loan, then it is entirely unnecessary for that government to sit down with folded hands until the money market is in a more favorable condition, because, first the government has the power to call in the necessary funds through the avenue of taxation, second, they have the power to directly create a circulating medium sufficiently good for the purpose, that could be recalled in a given length of time, or at various periods through taxation and cancelled. Furthermore, I maintain that if money is loaned to the farmers, say for a period of 10 years, at say 5 per cent. interest, a \$1,000 loan would have to be repaid with \$1,500 or \$1,600 principal and interest. The benefit would not accrue to the farmer, but to the money lender who would get \$500 to \$600 more than he had before. What the Socialists would do under such circumstances, if in power, I cannot predict, because the Socialist political machinery is so arranged that the majority must rule, and when the majority of a nation votes the Socialists into power some time in the future, they may decide differently from the way the smaller number of Socialists would decide on now. But one thing is certain—we would not sit down and play a waiting game because the money market was not just right."

### Postal Rates To U.S.A.

The Post Office Department has decided that owing to the high rate of exchange on New York it has been found necessary to restrict to \$5 the total value of postal notes which may be sold to one person on the same day for remittance to the United States.

Postmasters are instructed not to sell more than \$5 worth of postal notes to any person unless he receives an assurance from the applicant that the notes will not be sent to the United States.

## A Lesson From the Aeroplane

THE force that makes the aeroplane—a heavier-than-air machine—overcome the law of gravity is the propulsive power of the motor. Stop the engine and gravity exhibits its law.

In much the same way the propulsive power of advertising makes a business triumph over dragging-down tendencies, personal inertia, quiet times and general business depression.

Advertising is the propellor. The merchant is the pilot. His business is the machine. His community is this sustaining medium. If you want business to soar, start the motor of advertising.

### To the People In and About Summerland

The pilots of every dominant and progressive business in Summerland are using the propelling force of advertising in some form or other. The most powerful form of advertising is newspaper publicity.

### Advertisements Save Your Time and Money

#### PUBLIC SCHOOL HONOR LISTS FOR APRIL

The following lists furnished by the respective teachers, show the highest standings accomplished in the various departments of the Summerland Public Schools. The names are in order of merit.

##### DIVISION ONE

Senior Fourth — Jean Babbit, Jean Ritchie, Olive Bristow, Fraser Lister, Grace Bowering.

Junior Fourth — Lily Simpson, Bernard Taylor, Mary Hatt, Joseph Gayton, Hazel Steuart and Alex Smith equal.

##### DIVISION TWO

Senior Third — James Marshall and Louis Smith, equal, Frank Calder, Hugh McIntyre and Minnie Ritchie equal, Steuart Daly, Levi Johnston.

Intermediate Third — Ruth Graham, Thomas Washington, Helen Shuffrey, Gordon Blewett, Carleton Clay.

##### DIVISION THREE

Third Reader — Alex Munn, W. Gayton, W. Yule.

Second Reader — Jean Ritchie, Grace Garnett, A. Phillips, E. Watson, L. Everton.

First Reader — A. Holding, S. Ging, M. Hatfield, D. Tomlin, M. Munn.

##### DIVISION FOUR

Second Primer A — Dorothy Garnett, Josephine Pentland, Leicester Arkell, Mary Snow, Laura McLachlan.

Second Primer B — Betty Caldwell, Eric Johnston, Charles Tullett, Jessie Rutherford, Nellie Thompson.

First Primer — Joe Garnett, Ella Bowering, Harvey Wilson, Kathleen Munro, Arthur Morgan.

##### DIVISION FIVE

Second Reader — Florence Campbell, Mason Merrihew, Noel Wright, Dorothy Dunsdon, Arthur Wismer.

First Reader — Fred Holding, Marjorie Atkinson, Rupert Wright, Arthur Dunsdon, Harry E. Dunsdon.

First Primer A — James Dunsdon, Janet Wismer, Isabel Holding.

First Primer B — Harry H. Dunsdon, Wilma Lamb, Bruce Lamb, Percy Rand.

##### DIVISION SIX. Town School.

Second Reader — Marlon Beavis, Hilda Arnett, Harry Brown, Mabel Shields, Arthur Gartrell, Harold Sculthorpe.

First Reader — Isabel Hogg, Second Primer — Eustace Leo.

First Primer A — Campbell McAlpino.

First Primer B — Judith Hassoll.

Perfect Attendance — Marlon Beavis, Jenn Blowett, Lillian Hunt, Gordon Sculthorpe, Harold Sculthorpe, Eustace Leo.

Wouldst thou be wretched? 'Tis an easy way, Think but of self, and self alone all day— Think of thy pain, thy grief, thy loss, thy care, All that thou hast to do, or feel, or bear, Think of thy good, thy pleasure, or thy gain, Think only of thy self. It will not be in vain.

#### COLLEGE RECEPTION

(Continued from page 1.)

Christian ideals around which the whole institution revolved were carried right into the class rooms. He spoke, too, of the work of the Y.M.C.A. and also of the social life of the College. Just now was the most critical time in its history, and the Board deeply appreciated the help of citizens particularly of the Ladies' Auxiliary. This body had placed between \$400 and \$500 in the College treasury, besides providing many enjoyable social functions, and the Board felt deeply indebted to the Auxiliary in more ways than could be expressed.

Mr Robertson, when called upon, expressed a reluctance to say very much, but when pressed to take the platform, he acquiesced, and warming up to his subject, his address was admirably suited to the occasion, enthusiastic and encouraging. He first mentioned, apologetically, that he was not accustomed to speaking at gatherings of this kind, but his later remarks showed that if the College has made a friend of Mr Robertson, it has indeed made a friend of great value. Speaking of the value of the institution, particularly in the lives of the students, he recalled his days at Woodstock College. If he had made any success in life, it should be attributed to Woodstock. To the students present Mr Robertson emphasized the necessity of having a crystallized aim in life, pointing out that there was never anything accomplished without a clear cut purpose. "If any man draws the contempt of his Creator upon himself, it is the man who drifts without a purpose," was a trite re-

#### OUR LIFE A CLOCK.

Our life is like the dial of a clock, the hands are God's hands passing over and over again. The short hand the hand of discipline, the long hand the hand of mercy. Slowly and surely the hand of discipline must pass, and God speaks at each stroke, but over and over again passes the hand of mercy, showering down sixty fold of blessings for each stroke of discipline or trial, and both hands are fastened to one secure pivot, the great unchangeable heart of a God of Love.—Selected.

mark of Mr Robertson's. He illustrated this point by showing how such a definite purpose in the minds of Christian missionaries had done much to change the conditions of heathendom; and told how this had been driven home in his own mind by an incident encountered at the Fiji Islands. Students at the College could not help but be benefitted from being in constant contact with such men as Principal Everton and Ex-Principal Sawyer, was a sterling tribute paid to two men to whom the College owes much. Reverting again to his point of setting up a purpose in one's life, Mr Robertson closed by urging the young students to have a right aim in life, and to let nothing deviate from that — it would make a life worth while.

Refreshments were served by lady friends of the College, and the company mixed up very socially to enjoy the daintily prepared eatables. Promenades also tended to get the guests more fully acquainted one with another.

## WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

## Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,  
WEST SUMMERLAND.

FRIDAY, MAY 14, 1915.

TO THEIR RESCUE.

THE Superintendent and Public Works Committee particularly, and the Council in general, doubtless feel very grateful toward Jupiter Pluvius, more properly known as the weather man, for having come to their rescue. Doubtless are all feeling more comfortable because of the gracious downpour of last night, and the relief that has intermittently fallen during the past week, and continue to come. The mountain sides will be saturated, creeks filled, and the chances look good for a filling to overflowing of all the reservoirs.

## FAVORED DISTRICT.

STRANGE as it may seem the Okanagan suffers much less from late frosts than does California. As a matter of fact injury from late frost is very rare here. Mr W. H. Lyne, assistant to Inspector Cunningham, recently instanced an evidence of this when he stated that the Moorepark apricot, regarded as the king of apricots, which in California will only bear heavily for about one crop in four seasons, will in the Okanagan yield good crops with regularity each year. He states further that the Moorepark apricot grows to perfection in the Okanagan.

## A USEFUL BODY.

IT IS SAID that women do nine-tenths of the shopping of the world. This being so it is for the Okanagan fruit grower a most hopeful sign that the women of British Columbia have organized themselves into the British Columbia Consumers' League, which is now branching out all over the province, and within reasonable time will have, it is anticipated, an enrollment of 35,000 members. The objects of the League are to encourage the buying of provincial, Canadian and British goods in the order named. To bring the producer, consumer and retailer together for the betterment of all, and to conduct an educational campaign to acquaint the members of the public with food values and methods of production, and best of all to the Okanagan orchardists, to urge the housewife to wait the arrival on the market of home grown fruit and produce. The centre of the League is at Vancouver, and already much effective work has been accomplished there.

In 1914 British Columbia imported \$97,000,000 worth of goods. It is estimated that at least \$25,000,000 of this sum might have been kept in circulation at home where it is not only greatly needed, but would have materially increased the purchasing power of our own people.

Coming as they have from every quarter of the globe, our people have not yet learned the lesson that practical patriotism produces local prosperity. The British Columbia Consumers' League has come to remedy the evil. Let us give it every encouragement.

GRAFTERS have brought about the downfall of the Roblin Government in Manitoba, and thereby to some extent have defeated their own ends. Charges have been made, and a departmental investigation instituted by the government revealed the fact that there had been some irregularities. In announcing his resignation, Premier Roblin stated that adjustment between the government and the contractors would be necessary, and he believed a new government had better deal with the matter. In resigning, he also took into consideration the small majority supporting him. Premier Roblin and all his Cabinet have not only resigned their portfolios but their seats in the legislature as well. Grafters are the politician's or statesman's worst enemies.

BOOM YOUR TOWN. If you don't who will? Make all the newcomers and prospective residents think it is going to be a metropolis of this part of the country, and it soon will be. Get in live and energetic men and the place cannot help but prosper, go forward and grow. You never saw a community amount to anything where business men and citizens were always engaged in telling how dead it was—lifeless and that all the powers that be could not start it moving, building up and endowing it with new life.

H. S. Lowes, who left here some weeks ago for England, has joined the Middlesex Regiment. Mr Lowes, who had a special commission requiring his calling on the Rev. F. W. and Mrs. Pattison, lunched with them at their home in London.

There are many hearts that would be greatly benefited and cheered by more praise than they get in this life.

To feed the mind on evil thoughts is an indulgence which is sure to deform the character and produce villainy in life.

# Perfection of Service

While ordering the daily groceries, customers often send us a message like this:—"You are always so prompt and understand my needs so well, that it is a pleasure to deal with you."

A compliment, yes, but that's what they all say. We specialize not only in the quality of our goods, but in the service we render you. Whether you order over the phone or call in at the store, you will find the same courteous attention and desire to please you—it's part of our business system, just as much as is our prompt delivery and painstaking attention to your every order—no matter how small.

You are respectfully invited to give it a trial.

### APPLE GRADING in THREE BRANDS

A considerable change in the method of grading apples has been decided on by the executive of the United Growers, the difference being confined to the main crop. Summer and fall varieties will be each in their own group. The O.K. brand of the main crop has been cut down to twelve varieties, graded in Nos. 1, 2, and 3. The other varieties formerly marketed under this brand and the best varieties marketed last year under No. 2 special will form another brand similarly graded into Nos. 1, 2, and 3. All others will be shipped as orchard run under a third brand, probably "Economy," as suggested by Manager Jackson. After further consideration, the veneer box is not to be used as extensively as earlier contemplated. However, it is probable that a veneer box with solid ends will be used for No. 3 apples, and a slat crate for orchard run.

### BRITISH COLUMBIA AT THE FAIR.

That the outfitting and maintenance of the British Columbia exhibits at the Panama-Pacific Exposition by the government has been one of the soundest investments ever made, and that the province will receive good returns for the money expended, is the opinion of Mr. Scott Blackwood, a Westbank resident, who was a recent visitor to the San Francisco fair.

According to Mr. Blackwood, there is something unique in connection with the C.P.R. building in which the British Columbia exhibits are displayed, and it offers more attraction to the visitors than any other establishment on the grounds. The exhibits are displayed attractively, and the motion pictures, which depict some of the leading industries of the province, are an added feature which is attracting a great deal of attention.

### Kootenay Fruit Union Will Sell Direct.

In a circular issued by Dr. N. Wolverson, president and manager of the Kootenay Fruit Growers' Association, to members, it is stated that arrangements are being made to "sell directly to thoroughly reliable retailers on the prairies and thus cut out at least two middlemen," and that no efforts shall be spared to get "good prices and prompt returns."

The circular asks growers to report carefully what part of their crops they intend shipping through the Union. Good returns can be had, the circular states, if growers provide good fruit, well picked, well graded, well packed and carefully marked.

The fruit will be sold on a commission of 12 1/2 per cent.

### LIME IN AGRICULTURE.

One of the principal functions of the Chemical Division of the Dominion Experimental Farms is to attempt the solution of problems connected with the maintenance and upbuilding of soil fertility.

Among the many valuable results so far obtained in these investigations is the demonstration of the vital part played by lime in the increase of a soil's productivity.

The subject is treated in an interesting and practical way in Bulletin No. 80 of the Experimental Farms' regular series, by the Dominion Chemist, Dr. Frank T. Shutt, who discusses it under the following heads:—

The nature of lime and limestone; The agricultural functions of lime and its compounds.

Comparative values of lime compounds. The application of lime compounds.

The use and misuse of lime. Those interested may obtain a copy of this bulletin by applying to the Publications Branch, Department of Agriculture, Ottawa.

During 1915 we want to make our paper more interesting to its readers, and to this end we ask for the co-operation of our friends. We invite our readers to send in news items of every description. If you have company, or there is someone visiting at your neighbor's, tell us about it. We want all the short, newsy, local items we can get, and invite everyone to make himself or herself our correspondent. If it should happen that a news item which interests you is not found in this newspaper it is because we did not know about it.

### Boy Scout Column

#### SUMMERLAND TROOP BOY SCOUTS

Scoutmaster J. Tait.

Headquarters — ELLISON HALL. Meets every Friday evening 7.30.

Scouts — Cubs — Ages 11—18 Ages 9—11

Recruits should apply personally at any meeting.

Visitors cordially invited to attend.

WANTED—Recruits for Summerland Boy Scouts. Must be between ages 9—11, or 11—18. Apply personally at any meeting.

The concert which was to have been held on May 20 unfortunately had to be postponed until June 2nd. However, it will give the boys a better chance of practicing for it.

Last Friday night the first two scenes of the play, "Winning Recruits," were gone through, and the boys were instructed as to the acting. Next Friday we hope to have a thorough practice of the whole play.

The tumbling mats were brought down to the hall by one of the Scouts, and a tumbling squad was chosen. The boys chosen then had a good practice of several series of tumbling, diving, etc.

The Scoutmaster has received communication from the Assistant Commissioner for B.C. saying that he will be here for general inspection of the troop on May 25. The Scouts are all busy now looking up their various tests, etc.

More recruits were enrolled on Friday, both for the Scouts and Cubs. Ten Cubs are now enrolled.

Donations of books from Mr. F. Williams and Scout F. Steuart were received this week, and games from Scouts G. and H. Miller.

On Saturday afternoon about twenty Scouts met on the Flat, and about one thirty o'clock set off on the march to Upper Trout Creek. Though the sun was shining brightly the heat did not affect the spirits of the boys. Travelling partly at the double and partly at Scouts pace, with the bugles playing at intervals, the boys struck off from the Flat, and turned their footsteps towards Upper Trout Creek.

Though a good part of the way led up a steep sand hill the boys kept up the pace and landed at their destination about three fifteen. Here the boys found a fine spread laid out on a long table on the verandah, with Mr and Mrs Miller and other residents of Upper Trout Creek ready to serve them.

After tea the table was cleared, and then games were brought out, and the boys had two hours of enjoyment. They were then lined up, and after giving three hearty cheers for their host and hostess, and another three for the kind helpers, set out for home. Homes were reached by tired but happy boys, who were well pleased with the outing.

#### A SUMMERLAND BOY SCOUT.

#### USE BRITISH COLUMBIA PRODUCTS.

The Provincial Department of Agriculture will this year make a determined effort to persuade the housewives of British Columbia to wait until the home-grown strawberries are plentiful before purchasing their supplies for preserving purposes, according to an announcement by Mr R. M. Winslow, Provincial Horticulturist, who has been investigating market conditions. Last year Vancouver alone imported 43,500 crates of strawberries, including 25,000 crates before the British Columbia berries were on the market. A very large proportion of these imports must have been used for preserving purposes, and, as each crate represents a drain on the community to the extent of \$2, it means that a little forethought and patriotism on the part of the consumers would provide an excellent market for British Columbia strawberries, and keep a lot of money at home. The Okanagan, which could produce an abundance of the finest strawberries in the province, should be interested in the movement which the Department of Agriculture has just initiated. It might well be extended to other fruits.

#### THE ROAD TO AMBITION.

The road ambition travels is too narrow for friendship, too crooked for love, too rugged for honesty, too dark for science.

One should fear lost ambition may be a veil for conceit; one should fear also lost modesty be a pretext for laziness.—Julius Simon.

# OUR NARAMATA SECTION:

Everything of Business and Social Importance  
Transpiring in South Okanagan's Newest Town

### Institute Cookery Classes.

Miss Livingstone arrived in town on Monday evening, and on Tuesday afternoon opened the series of lectures and demonstrations of a practical nature before the Women's Institute. The meetings are being held in the Ladies' Club rooms on the lakeshore, and are being very largely attended.

Though this is Miss Livingstone's first visit to Naramata, this popular demonstrator is no stranger, as many of the ladies attended her cooking school when first established years ago in Manitoba. The big lesson of the cooking demonstrations is the necessity for the teaching to be introduced into the every day life of the girl's education at school. Undoubtedly part of a girl's education should be a practical as well as theoretical knowledge of domestic science. The teaching of the married women looks as if it were better to learn late than never to learn at all.

### Died Of Wounds.

#### Naramata's First Sacrifice.

Word reached Mr John Noyes on Sunday from the militia department that his son, Bert Noyes, had died from wounds received in action. The young fellow was a promising engineer—a member of the first contingent—one of the earliest recruits, and a member of the 7th battalion. He was well-known in Summerland when he was engineer of the cannery for the Dominion Canners during the season of 1913.

### NARAMATA SCOUT DOINGS.

The second in the series of First Aid lectures was given by Patrol Leader Allen last Tuesday evening, and the ambulance work of the previous week was reviewed. The Tenderfoot Scouts are progressing rapidly in this and in the various other tests for their second class, and it is expected that they will soon be able to take their tests for this badge. It has been decided to hold a meeting every Saturday afternoon for outside work. Each alternate Saturday will be devoted to signalling, and the others for tracking, judging distances, and other work connected with the first class tests, to obtain which is the main ambition of every Second Class Scout at present.

A letter has been received from the Scoutmaster at Kelowna, in answer to one sent him by our secretary, in which the subject of a Concentration Scout Camp of the Summerland, Penticton, Kelowna and Naramata troops was broached. He states that personally he is in favor of the idea, and suggests that a conference of the Scoutmasters and Leaders in the troops concerned be arranged for to thoroughly discuss the question. Though no definite arrangements have been made as yet, it is likely that this suggestion will be carried out, and it has been suggested that Naramata would be the handiest place to hold the meeting at.

Our scout headquarters are being thoroughly house-cleaned and redecorated in honor of Mr Henegge's expected visit, and each boy has had a portion of the work assigned to him.

Efforts are being made to have the Scout Library reorganized and enlarged, and Scout Hedley Reesor has been appointed Librarian with full control of this department. Any donations of books or magazines will be thankfully received.

—A SCOUT.

A fool squanders a lot of money for experience and then proceeds to give it to those who do not want it free of charge.

**The Old England**

NARAMATA, B.C.

Gentlemen's Outfitter, etc.  
Chiefly British Goods Imported Direct.

### Current Events — OF — Town & District

Mr George Partridge is preparing to build a commodious house on his recently purchased fruit ranch.

Mr J. C. Lyons is again in the market with fresh ripe strawberries. His crop is said to be a heavy one.

"Trotting for trout" is a popular and profitable amusement at present—if one is to give credence to stories of lucky hauls made by our local anglers.

Mr H. T. Davies has greatly added to the attractiveness of his bungalow by the completion of an eight foot verandah on the west and south sides.

A picnic to Chute Creek last Saturday chaperoned by a few of the more advanced members of the Epworth League proved an enjoyable outing for one and all and participants.

Despite the rather threatening weather conditions prevailing last Sunday afternoon the ferry made the trip to Summerland for Rev H. A. Solly, who conducted the regular service at 3 p.m.

Mr Bowes who recently arrived from Ottawa with the intention of assuming the management of the Naramata Supply Co. has decided to relinquish his purpose and to leave shortly for the East.

Mr J. M. Robinson was in Peachland last Friday and Saturday on business connected with the Townsite. Mr Robinson's holdings in Peachland mount up to quite a considerable figure, to judge from the assessment roll.

This is the season of the year for an enjoyable trip to the falls immediately east of town, and on about a level with the railway grade. A favorite walk is that which follows the creek from Camp Creek bridge. This trail leads one right to the falls.

The Kettle Valley Railway buildings at the Naramata siding have been treated to several regular doses of paint of the standard color and quality. As a result another touch of color has been added to these prominent landmarks at the foot of the hills overlooking the town.

Mrs M. D. Manchester has received word from Dawson City that her husband has received an important promotion, being now electrical superintendent of the Yukon Gold Mining Co. It is highly probable that it will mean, however, the removal of the family in the near future.

The local school teachers are busy now fitting their various classes for the trying ordeal of the midsummer examinations. Particularly is this the spirit of push and polish evident in the senior and more advanced grades, and more especially in the Entrance Class—the largest in the history of the town and school.

That Naramata is getting down to "housekeeping" is evident from the change in policy from the clean cultivation in vogue in previous years to the practise of growing vegetables or some form of grass crop between the trees. It is highly probable that this year will be the last year that a ton of hay need be shipped into Naramata. The motto apparently is now "Produce."

Mr H. J. Wells, former manager of the Naramata Supply Co., is now completely absorbed for about eighteen hours a day in the pursuit of his mammoth greenhouse idea. With commendable energy and skill he has produced in his splendidly equipped hothouses, several thousand plants—chiefly tomatoes and cucumbers—which are now being hardened preparatory to being set out on the open bench land.

A serious break in the dam that holds the water back in the hills till needed in the dry summer months, occurred some time last week, causing a very considerable increase in the volume of the water rolling and tumbling down Mill Creek. Mr Cash found upon visiting the upper reaches that the washout was not a very serious one, and that a force of a few men for a week or less would be able to restore it to a sufficient height.

### Naramata Current Events (Continued).

Now that the cow nuisance has been removed as a result of the inauguration of the district pound law, it behoves the citizens to make a concerted raid on the streets and side lanes. Formerly the excuse for not planting trees or for not giving any special care to the lanes and streets was—"what's the use?" So that a regular "clean-up" mandate should go forth from every resident Naramattan. Naramata has the name of being the tidiest little town on the lake—but it is possible to lose one's good name.

Mr H. Hodson, who recently returned to town from Kelowna, has set to work on his ranch with renewed energy and splendid enthusiasm. He has already planted quite a truck garden, has erected three fine chicken houses with the purpose of going more or less extensively into the poultry business, and this week is adding a substantial three-strand barbed wire fence to his property. Evidently Mr Hodson has heeded the "back to the land" summons that is being listened to by not a few families.

Mr Fred Manchester contemplates entering upon a new venture which should prove popular to the lovers of good wholesome amusement during the summer months, announcements of which will shortly appear in the advertising columns of this paper. The dance hall in connection with the pavilion on the lakeshore in the immediate vicinity of Hotel Naramata is about to be fitted up for entertainment purposes, where weekly dances will be held—music furnished, with all needful refreshments. Arrangements are to be made whereby excursion parties from outside points can be given an opportunity to come here for an evening's outing under most favorable terms and conditions.

At a meeting of citizens last Thursday, evening in the Syndica House a resolution was drawn up and signed for presentation to the powers that be, praying that immediate attention be given to the need of road improvement in and around Naramata. It is the feeling of the people here that a certain amount of discrimination that adversely affects our district is responsible for the lack of public improvements. The need of an immediate opening up and completion of certain pieces of road was urged upon the government as dire necessity. That the people are thoroughly alive to the situation was evidenced by the number that are acting on their own initiative in this matter by writing their private griefs.

### LET YOUR WIFE BE BOSS.

The greatest loss of "1912" was not in the cents per box the growers lost on their crop. That in itself was a blow to the North-west. The loss of 1913-14 and the years to come, from neglected orchards following the low prices of 1912, is the real dangerous loss. Following "1912" the growers, big and small, figured that one less cultivation, one less spray, and less efficient spraying, less building up of the soils from natural and commercial fertilizers—neglect of all the things they had been doing—these things the growers considered as the way to overcome the difference between the high and low values. As a result the general efficiency of the North-western orchards were reduced. Pests increased, quality decreased. It was this same thing that put the Eastern orchards on a low plane. It is the one thing the West cannot afford to do.

Spray, and spray thoroughly, but hold a nozzle yourself without hiring it done. Cultivate, irrigate, and prune, thoroughly and carefully, but do some of the work yourself. There is no boss on a 20-acre ranch. The owner is the hired hand. Let your wife or daughter be the boss. You work for your \$2.50 a day, but be sure your work is thoroughly and completely done. The way for the West to go out of the apple business is to neglect the orchards. Then the man that really wants to give the proper care has no chance, he cannot fight the community and his own battle.—Marketer.

There are 78,000 people in Iceland, and one policeman. There are no courts, jails or saloons in that sober country.

### COMMUNITY INTEREST.

Experience has demonstrated that many men are inclined to purchase their building materials outside of their own community, not realizing that the local lumber dealer stands his proportion of the expense of maintaining the local government, that he employs men whose salaries or wages are spent in the community, and who in all ways conducts his business as a model citizen should.

A community is dependent for general success on the units comprising it, and this is made effective by the aforesaid units giving each other the benefit of business transactions, whenever and wherever possible.

These units should remember and follow the apostolic command: to "love one another," and in addition they should paraphrase that rule for happiness and peace by resolving to "purchase from each other," and likewise should adhere as religiously to the latter as to the former.

This will develop a community of interest, whereby all contribute to and participate in the improvement and betterment of the home town and a compliance with the spirit of this progressive step would mean the purchasing of one's requirements in the home town whenever possible to do so.

The citizens of any community, from a country village to a metropolis, maintain themselves, figuratively speaking, by swapping jack-knives, and the man who swaps with his neighbor, benefits himself as well as his neighbor, while the one who goes to another town to make a trade, injures his community, as the profit from the transaction goes elsewhere, also injures himself, as he would have shared in the community profit, and doubly injures himself, as he has permitted what seemed to be a personal profit in order to gain his selfish ends.

It is the old, old story of the "smart Alec," who thinks he can get along without his community, also that the good Lord has endowed him with rights and privileges above and beyond his fellows.

He is forever and eternally seeking an advantage over his fellowmen, which acts as a boomerang, from the reason that one receives what they give, and the one who defrauds his community and his neighbors of their rightful dues, will find on the day of reckoning, that he alone will be the greatest loser.—Ex.

At a Scottish watering place one summer, Mnepherston was found stretched in a contented mood on the sands puffing his old pipe. "Come on, Mac," said his companion, who has just come from town, "let's go for a sail." "No, no," replied Mnepherston, slowly shaking his head, "I had a good dinner at the cost of three and sixpence, an' I'm taking no risks."

## A Lesson From the Aeroplane

THE force that makes the aeroplane—a heavier-than-air machine—overcome the law of gravity is the propulsive power of the motor. Stop the engine and gravity exhibits its law.

In much the same way the propulsive power of advertising makes a business triumph over dragging-down tendencies, personal inertia, quiet times and general business depression.

Advertising is the propellor. The merchant is the pilot. His business is the machine. His community is this sustaining medium. If you want business to soar, start the motor of advertising.

### To the People In and About Summerland

The pilots of every dominant and progressive business in Summerland are using the propelling force of advertising in some form or other. The most powerful form of advertising is newspaper publicity.

### Advertisements Save Your Time and Money

#### Delivery Of Bills.

#### Rules For Guidance Of Public Issued.

As repeated enquiries have been addressed to the Post Office Department concerning the right of merchants and other persons to deliver their bills, accounts, etc., through their personal messengers, the following rules have been issued to serve as guides for postmasters and the public.

1. Bills, accounts, or invoices, whether enclosed or addressed envelope, are "letters" not exempt from the exclusive privilege of the postmaster general and, therefore, must be transmitted through the mails.

2. However, any merchant or person may, by himself or his messengers, deliver any bills, etc., of which he is sender, or any letters concerning his private affairs.

3. But no person may make a business of delivering such bills, etc., whether on behalf of one merchant or several.

4. Bills, etc., not enclosed in envelopes do not cease to be letters if in fact addressed to persons or delivered according to some pre-arranged plan.

It is pointed out with emphasis at the department that a merchant is free to utilize his regular employees in delivering bills, etc., but he must not "hire" anyone to do so specially, even if the engagement be only temporary.

#### To Advertise Province.

In conjunction with the Grand Trunk Pacific Rly., arrangements are being made by the Provincial Government to place displays demonstrating the resources of British Columbia at the Toronto Fair, which starts on August 28. This Fair is the greatest in the whole of Canada, and is attended by many thousands of visitors, not only from Canada, but from points in the United States adjacent to Toronto.

#### PREACHERS AND EDITORS.

An editor is supposed to be the most criticised man on earth but a person has just been putting in a word for the clergymen, claiming that they are the most miserable of the sons of men. He says: "The preacher has a hard time. If his hair is gray he is old. If he has ten children he has too many. If he has none he should have and isn't setting a good example. If his wife sings in the choir she is presuming. If she doesn't she isn't interested in her husband's work. If a preacher reads from his notes he is a bore. If he speaks extemporaneously he is not deep enough. If he stays at home in his study he doesn't mix enough with the people. If he is seen around the streets he ought to be at home getting up a good sermon. If he calls on some poor family he is playing to the gallery. If he calls at the home of the rich he is an aristocrat. Whatever he does, some one could have told him how to do it better. He has a fine time living off donations that never come in and promises that never mature." Next to being an editor the preacher's life is an awful snap.

#### THIS PLAN IS EVOLVED BY AN AGGRESSIVE WOMAN.

It has remained for a girl to startle students of good roads with a plan of interesting youngsters in the upbuilding and encouragement of highways. Miss Goldie Van Biber, school supervisor of the Siuslaw district in Lane County, Oregon, evolved the plan of making road building a course of study for rural schools. The school children in each school district will be taught to build and maintain a strip of county road near the school building. The road strip which stands the strain of winter weather, and is found in best condition will be named the winner of a unique contest. The county officials immediately favored the proposition, and agreed to provide all materials necessary. Later laboratory work will be added to the school curriculum, and the fundamentals of good road building will be carefully studied by all the children. Miss Van Biber has jurisdiction over seven hundred square miles of territory in Lincoln, Lane, and Douglas counties, and is the idol of her district.

The larger the investment the greater the profits. This is the experience of those merchants who make their advertising a business proposition. Marshall Field Company, the great Chicago departmental concern, knows the truth of this. Last year it paid the newspapers of that city \$354,442 for advertising, more than any other store in the Windy City, and yet in proportion to the results its advertising cost was the lowest.

Speaking of the value of the calendar as a "business getter," a writer says: "We haven't anything against calendar advertising. It may be good enough in its way, but it is the most expensive advertising a business man can indulge in for the returns it gives. Any man can realize this. The name on a pretty card hung upon the kitchen wall or behind the door means nothing as a "business getter." It is really an expense that most business houses are now reducing to a whisper. The cost of such "advertising" is about double what would be paid to the home paper for fifty-two insertions of a five-inch ad in its columns. Any merchant that could not say something in fifty-two messages to the readers of his home paper that would bring him one hundred fold more business than his name stuck on a calendar, is not in business to-day, in this or any other man's town."

The average Canadian newspaper reader is a queer creature. He is the most critical fellow imaginable. He picks up his local paper and scans it carefully to see if there is any personal mention of himself. If there is not he denounces personally in a newspaper, and yet all he reads it for is personal items. Everything an enterprising editor can make an item of, is legitimate booty for him. There is nothing in the papers of the present day so greedily devoured as the little personal, family and society items. It is therefore a matter of policy and business to the publisher of a newspaper to furnish for his readers as far as lies in his power, that which will best satisfy the tastes of the majority of newspaper readers.

## WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

## Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, farming for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,  
WEST SUMMERLAND.

\$2.00 payable in advance.

# Summerland's Big Field Day

## Monday Next, at Crescent Beach.

### Desert Okanagan Valley.

#### Dominion Cannery Will Not Operate Here, Nor At Vernon.

The Dominion Cannery Ltd., who for one year operated the local cannery, and last year put up a large quantity of tomatoes and fruits at the cannery at Vernon purchased by them, will, it now seems likely, operate at neither point this season. In reply to a recent inquiry made by H. C. Mellor, one of the chief officials of the company stated that the company would not operate in Summerland, and probably not in Vernon either.

### THE WOMEN'S INSTITUTES.

The attendance at the West Summerland Women's Institute on Friday last was not large on account of the rain. There was a circular letter read from Mrs. A. Ravenhill, secretary for Shawnigan Women's Institute, advocating petitioning the Minister of Education to have the hours of school children under nine years of age shortened, especially those enforced from March to October; also that a suitably graded scheme of manual training adapted to boys and girls from seven to fourteen years of age be framed for and introduced into the public schools of this province. The resolutions were supported. Mrs. Livingston, Organizer for the W.C.T.U., being present, was invited to speak, and she said that she hoped the resolutions would be carried out, as they meant so much to the children. In some parts of California it had been tried and was satisfactory.

The time has come when all those who intend to ship their fruit through the sister Institutes on the prairies, hand their names in to Mrs. W. C. W. Fosbery, not later than May 30th. This is important. A circular letter will be sent out giving prices and asking the strength of each Institute. Any member of Summerland and West Summerland Women's Institute may ship their fruit this way.

The score card for the competition, "Best Kept Home Surroundings," is not yet ready as Mr. Hillborn will be away from home for a few days. There are a number entering, and some good prizes will be given. Any member of the Institute may compete, and should send in their name to the secretary as soon as possible.

Miss Dale led a discussion on "High Cost of Living," in which several took part. The President gave Miss Livingston's suggestion that buying groceries in bulk instead of packages was more economical, and a committee was appointed to interview our storekeepers and ask them to co-operate in this. A number of ladies brought eggs, and a basketful was donated to the hospital.—Contributed.

The steamer "Sicamous" has again been put into service, making the trip on Wednesday for the first time since she has been receiving some overhauling. One improvement, it is said, has been overcoming the vibration from the engines which was somewhat uncomfortable.

### On Inspection Tour

J. M. Cameron, Asst. Gen. Supt. of the B.C. Division of the C.P.R.

J. M. Cameron, recently appointed assistant to General Superintendent Peppers, visited the Okanagan this week on a tour of inspection, and was accompanied by Divisional Superintendent McKay. The Assistant General Superintendent is giving particular attention on this trip to fruit traffic and the forming of an estimate of the fruit crop. He manifested particular interest in the water situation, and states that this is not as serious as a short time ago, the recent continued showers having been of untold benefit. Mr. Cameron, who was accompanied by his wife and little daughter, is one of the C.P.R. officials who have risen from the ranks, and his future is described as most promising. His ability was first developed in the train service, he having been brakeman, conductor, and trainman, and prior to going to Vancouver as Assistant General Superintendent of this division, he was for a time, District Superintendent at Medicine Hat. He is in charge of operations in this division.

### Ready To Contract

#### For Large Supply Of Eggs.

At a special meeting of the Poultry Association the Secretary was authorized to continue negotiations for the closing of a contract for a large supply of eggs, estimated at 12,000 dozen per year. The specifications as mentioned in those columns last week, have in the meantime been modified, permitting the supplying of brown shelled eggs instead of white only as at first stipulated. A schedule of prices covering the year as compiled by the Secretary, met with approval of the members assembled. If secured, this contract will not supplant any existing contracts the association now carries, but will be an additional outside market for Summerland's increasing egg output. The buyers in this proposed contract are arranging for next year's supply, although it is intimated that first shipments may be required before many weeks.

Success grows out of struggles to overcome difficulties.—Smiles.

### Arrangements All Completed For a Full Day of Sports.

Weather permitting, all indications promise that Summerland field day on Monday next at Crescent Beach will be one of the best of its kind, and the weather man having given us so much of the other thing, is confidently counted on to do his share in providing the desired atmospheric conditions. All the committees have been active, and everything to make the day an unequalled success has been arranged. A liberal prize list has been provided, and is sure to attract a large number of entries. There will be plenty of music furnished by the Penticon band, and lunch and refreshments will be on sale on the grounds.

The Ferry Company are making ample provision for the citizens

of both Summerland and Naramata to reach Crescent Beach, and return at their convenience. The first boat leaves Summerland at 9.30 a.m., followed by another at 10.30, and a third trip at 1 p.m. Two trips will be made from Naramata, one at 9 a.m., the other at 12.30 noon. Return trips from Crescent Beach will be made leaving there at 11.30 a.m., 4.30 p.m., 5 p.m. and 6 p.m. An early trip will be made from Peachland, leaving that town at 7.30 a.m. The hour for the return trip has not yet been fixed. There will also be an evening trip from Naramata in time for citizens of that town to attend the show in Empire Hall.

Following is a list of the events and prizes:

	1st	2nd	3rd
Heavy Draft Team	10 a.m.	\$15	\$10 \$5
Single Driving	11 a.m.	10	5
Double Driving	11.30 a.m.	10	5

220-yard Dash		3	2
Ladies' Race (local)	Complimentary Cup	1 doz. Rogers	Knives & Forks
Broad Jump		3	2
Pony Race (open)		10	5
100 yards Foot Race		3	2
Cow Boy Race		10	5
Children's Races			
Men's Relay Race			Four Prizes

The Foot Races will be called between Horse Race Heats

### Abundance of Water

#### Recent Rains Filling Reservoirs Rapidly.

The rainfall which has been a source of much relief and satisfaction, has been equally heavy or heavier in the mountains. All the creeks are running full, and the lakes and reservoirs are filling up to their usual spring level. The two municipal employees, Tom Bustard and Alex. McLean, who have been for some weeks at the headwaters, report heavy rains, and a most promising outlook for the season's water supply.

The upper dam on Trout Creek has filled, and is now overflowing, making another source of supply for the big lake below. This had filled 8 1/2 feet when the men left, and still has 6 1/2 feet more to fill before overflowing. With the increased supply coming from the lake above and the swollen creeks all around, the Superintendent has every confidence that this will fill before there is any need to tap it.

The dam at the head of Eanes Creek is expected to fill by Sunday or Monday, when the overflow from it will be coming down to the Gannett Valley dam. This, too, will be nearly if not quite full before the ditchmen commence to draw from

### FREEZING A MOTHER-IN-LAW.

#### Entertainment and Dance for Monday.

A good evening's entertainment is now assured for Monday, May 24th, Empire Day. For years past it has been the custom for Summerland to celebrate this holiday, and every year the day has been brought to a successful close by one of the best and most largely attended programs of the year, given in Empire Hall. The ladies of the Ambulance League have undertaken to provide for the evening's entertainment; the proceeds of which will be used for ambulance purposes. As announced in our advertising columns, the ladies have been so fortunate as to secure the services of a group of Pontleton amateurs, who recently put on the delightful farce, "Freezing a Mother-in-Law." The program will be rounded out by several musical selections by some of our best local talent, and will be followed by a dance. Ice cream and refreshments will be on sale during the latter.

It for irrigation purposes. Canyon Creek dam was visited recently, and the gate closed, and that dam, too, will be filled to overflowing.

### Apple Prices Good

#### United Growers Negotiating for Large Sales at Satisfactory Prices.

Prospects are good for some large apple sales at very satisfactory prices, according to G. J. C. White, who returned on Tuesday from attending a meeting of the executive of the Okanagan United Growers. On the other hand Mr. White said that he learned that some of the Growers' competitors were offering low prices.

The Central is expecting a visit from Mr. Duffy, the Australian buyer, with whom the late manager made a deal for the sale of apples up to 40,000 boxes. Mr. Duffy is expected to stand by the deal, with perhaps some slight amendments. The Growers are now negotiating for some sales in New Zealand. They expect to send 10,000 boxes to South Africa, and will make a trial shipment of one car to South America.

Mr. White spoke very favorably of the new manager, Mr. Jackson, who he says is no longer interested in his old firm of Daykin & Jackson. Some slight amendment has been made in the contract with Mr. Jackson which is very acceptable to both the executive and the manager. The latter's salary has been fixed at \$4,000. The former deal whereby the United Growers were to act as Daykin & Jackson's brokers has been cancelled.

When asked if he was aware that the Dominion Cannery would not operate in the Valley this year, Mr. White replied in the affirmative, saying that the Growers might go into the cannery business this year in their own interests, realizing that without a cannery to absorb a large portion of the soft fruits, the extra quantity put on the market might effect a depreciation in the price. The Growers would enter into this business only in case of private interests failing to arrange to carry on the canneries.

### Bloated Cows.

#### Saved by Old Fashioned Homely Cure.

The next time your cow gets an over-feed of alfalfa, and this may be at any time while there is a superabundance of moisture, try feeding her chips as a remedy. Not many days ago one of our citizens had a cow affected in this way, and she was lying stretched out on the ground, as the owner thought, about dead. He expected to find her quite so when he returned in a few minutes. In the meantime a neighbor had put a chip in the cow's mouth, and immediately there was an improvement. Yet another citizen using the same idea, bridled his cow, putting a very large rubber bit in her mouth (the suggested instrument being a stick about one inch in diameter, fastened as a bit in the cow's mouth). In five minutes the rubber bit remedy mentioned above had brought the cow back to about normal condition. This is vouched for by the citizen himself, one whose statement can be relied upon. The theory is this: the cow most decidedly objects to the foreign object, and does her best to eject it with her tongue, and in doing so seemingly pumps or releases the gases which are causing the trouble, and the pressure of which, if not relieved, speedily brings about death.

### New C.P.R. Time Table.

#### Summer Schedule of Boat and Train Service.

As announced in these columns last week there is to be a marked change in the schedule of sailings of the C.P.R. express boat on the Okanagan. The summer time table which goes into effect on May 31st has now been completed, and copies furnished ticket agents. The trip from Summerland to Vancouver will require 24 hours and 15 minutes as compared with practically 30 hours at present. The boat leaves Summerland an hour and 15 minutes later, while the north-bound train gets away from Vernon 35 minutes earlier, and reaches Sicamous in time to connect with No. 1 westbound, which arrives at Vancouver at 8 a.m. While the boat leaves here at 7.45 the train is scheduled to leave the Landing at 14.40, and Vernon at 14.55. No doubt, as heretofore, passengers can get into Vernon earlier by a special leaving the Landing immediately the boat arrives.

On the southbound trip the boat is scheduled to leave Summerland at 6.40 p.m. Passengers from Vancouver can make the trip to Summerland in 22 hours, leaving Vancouver at 8.30 in the evening, leaving Sicamous at 10.40 the following morning and the Landing at 18.45, arriving here at 18.40.

### CLOSE OF OKANAGAN COLLEGE YEAR.

The College session closes on Friday next, May 28th. The Closing Exercises will take place this year in the afternoon in the College Chapel, commencing at 3.30 p.m. The public are cordially invited to be present on this occasion.

There will be a short musical program under the direction of Prof. Moore; diplomas will be presented and announcements made of the results of the year's work by the Principal; and Dr. Sawyer will give an address. A social hour will be spent at the close.

### Lieut. C. E. Bentley Now Recruiting Officer

Lieut. Bentley, more popularly known as "Ned," returned last night from Kamloops where he received his official appointment as recruiting officer. He proceeds from here to Princeton, and later will visit other centres. He has been authorized to promise recruits that they will be put on the pay roll immediately they sign on, and also that they will be paid 75 cents per day sustenance, until they reach camp. The regular pay is \$1.10 per day. A recruiting office is being opened at Pontleton in charge of Capt. Mitchell.

Mr and Mrs S. B. Snider, who have been anxiously waiting for some news from their son, Ronald, who was reported wounded in action, have this morning received an official printed card signed by him, dated April 20th, on which the following sentences are checked: "Have been admitted into hospital wounded, and am going on well, and hope to be discharged soon." "I am down at the base." "I have received your letter." "Letter will follow at first opportunity."

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, MAY 21, 1915.

### BRICKS THAT BELONG AT HOME.

THE MAIL ORDER PATRON does not lack patriotism so much as he lacks foresight. He probably has never thought very much about it. He has thought only of his individual case. It didn't seem to make very much difference to him if he spent ten dollars or a hundred dollars, or two hundred dollars, away from home. But ten two hundreds are two thousand; and a hundred two hundreds are twenty thousand; and twenty thousand dollars taken out of the pockets of his town would hit it fairly hard. The mail order patron knows if he will look at the front page of his catalogue, that great buildings are built in Chicago and elsewhere out of the great profits of these concerns. He knows, also, if he will stop to think, that every brick in these structures is a brick taken out of the upbuilding of his town and other towns like it.

These great buildings were not built by selling below cost. They were built by selling at a good round profit. They were built not at the expense of the men who built them, but at the expense of the small towns of this country. They were paid for with money that otherwise might have been employed in building up the business houses in his own town.—American Lumberman.

### YOUR PRIDE IN YOUR TOWN.

YOUR PRIDE in your town is about the best kind of pride you can have. It is an unselfish pride. It is pride in your neighbors, and what they have done. For they made the town—not only paid for the pavements and built the school houses, but planted the trees and showed their faith in the place by making it their home. But pride in your home town requires something besides pride. You ought to help it to grow and to improve. You ought to do your share by aiding in movements for the town's good; and by voting good men into office who will best look after its interests.

Then, and not until then, will a citizen have a real right to speak of his town with pride. It will be a town in the making of which he had a part. Not only will he be proud of the town, but the town also will be proud of him.—Banker-Farmer.

OCCASIONALLY one will hear the remark, "I wish I was out of this town," and then one feels like saying, "I wish you were," for a man who stands on the street corners, perhaps chewing and spitting, cursing the town, finding fault with his grandmother because she was a woman, claiming that merchants are a lot of thieves, that the tradesmen and newspaper men would skin a man to a finish, and a whole lot more, is a nuisance and an abomination.

### A Good Performance.

The theatre goes of Enderby forgot the sting of the Henderson horns—the Wrong Mr Wright—and turned out well on Tuesday to hear the "1915 Follies," and there was not a person in the audience who was not heartily pleased with himself or herself for having attended. In every detail "The Follies" made good, and sustained the good name that had preceded them. The performance throughout was one of the cleanest, brightest and cleverest we have had the good fortune to see in Enderby. Every member of "The Follies" company is an artist in his or her particular line, and each won the heart of a most appreciative audience.—Enderby Press.

The death of Everett C. Graham occurred on Tuesday at the Penticton Hospital after a severe attack of typhoid. The deceased was well known to many in Summerland, and previous to his joining the K.V.R. staff at Penticton spent two or three years here, coming west from Ottawa to the Aitchison Ranch on Paradise Flat. Since going to Penticton he has been joined by his widowed mother. The funeral will be held on Saturday from St Andrew's Church, Penticton.

The management of the Felix have decided to temporarily close the hotel. For some months travel has been very light, and as a consequence guests have been few. However, a hostelry must always be in readiness to entertain when guests arrive, and when business is light this makes the dining room service a proportionately heavy item of expense. Finding that owing to these conditions the hotel has not been paying its way, the proprietor has decided to close the house, at least until conditions improve.

Censure and criticism never hurt anybody.—Gladstone.

### Valley Growing Big Grain Crop.

It is stated on good authority that fully 2,000 acres in the Vernon district alone have been sown to wheat and oats. This does not include extensive areas sown to grain in the Armstrong-Enderby district, nor at Kelowna. Thus another leak in the Valley's money bag is being stopped, to a considerable extent at least.

Anticipating that a large grain tonnage will be put in their care for marketing, the Okanagan United Growers are considering putting in a crusher for the purpose of crushing oats for the Valley markets. Those locals affiliated with the Central and located in other sections of the Valley not growing grain so extensively, will doubtless take the whole output marketed from the Central.

Miss Myrtle Conway has returned from a visit with her sister, Mrs Bohan, on the K.V.R. line in Coquit-halla Pass.

### Municipal School Board.

TENDERS will be received by the undersigned for the levelling of the Lakofront School Grounds, up till 6 p.m. on Saturday, May 22nd, 1915. Specifications can be seen either at J. E. Phinney's or at the Municipal Office.

J. L. LOGIE,  
Secretary,  
M14-21 Municipal School Board.

**For Pies and Cakes**

**SUCCESS** is what you aim at. You want your pies, cakes and other kitchen creations to be as delicious as any woman can bake in this town. They have a right to be. ALL depends on the material you use.

ALL your skill in pastry making, icing, frosting, blending, filling and baking will not help you if your mince meat, raisins and other material are not exactly as they should be—absolutely the best for their purpose.

We have gained much knowledge from our customers on this delicate matter and have stocked only the most successful articles in the line. An inspection of our stock is invited before you again buy those goods—that inspection will surely make you a regular customer.

**O. VAUGHAN**  
GROCER & COMMISSION MERCHANT

The Annual General Meeting  
OF THE  
**Summerland Hospital Society**  
will be held in the MEN'S CLUB,  
On THURSDAY, MAY 27th, 1915,  
at 3 p.m. SHARP

To receive the reports and accounts of the Board of Directors for the expired year. To appoint a Board of Directors and Auditor for the coming year; and to consider the position and prospects of the Society.

All those interested in our Hospital and its management, owe it to the community to be in attendance and learn how our money (and the Government's) has been spent. Friendly criticism challenged.

(Signed), W. J. ROBINSON, President.  
T. H. RILEY, Secretary.

#### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by section or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

#### LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

#### FRUIT PRICES.

West Summerland, B.C., May 17, 1915.

The Editor, Summerland Review, Dear Sir,

Your reference a week or two ago to the use of your columns for discussing subjects of community interest persuades me to address another letter to you on one which is of vital importance to those of us who at present are shipping our own produce.

During the early spring many comments were made with reference to fixing minimum prices for all kinds of fruit, and it was rumored that the Union were to take this matter up and fix such prices in an endeavor to avoid the senseless cutting which has occurred in previous years. The time is going on, and we will soon be in the midst of the shipping season, but still, so far as I have ascertained, no definite move has been made in this direction. Failing any action of the Union, the obvious course would be to call a meeting of the independent shippers at an early date to go into the matter thoroughly and base the prices on the cost of production. We should really have appointed a "cost of production committee" some time ago who could have obtained statistics on the cost of producing and handling the different crops, and be in a position to furnish details for the guidance of the shippers. However, the matter would probably be met and a fair average obtained if at the meeting several of the older growers came prepared with particulars of their own operations in previous years. Mr. Hilborn's assistance would be invaluable in this respect, as he, I understand, has regularly kept records. We would call such a meeting ourselves, but think it advisable that the call should come from the older shippers, as it would likely be better attended, which would be absolutely essential to the success of any such arrangement. Once the prices were fixed they should in some way be brought to the notice of every shipper in Summerland, and an endeavor made to get them to adhere to the prices. Only in this way will we be able to get at least a fair return for our produce. I do hope something will be done right away, and if no shipper feels it his duty to call such a meeting perhaps it could be arranged by the Farmers' Institute. I know very many of the growers endorse this opinion, as I have discussed it with several, but no private discussion will avail anything unless some definite move is made, and in this someone must step out and take the lead.

W. G. RABY.

#### ANOTHER ORCHARD MENACE.

Summerland, B.C., 18th May, 1915.

The Editor, Summerland Review, Dear Sir,

A vast amount of good has now been accomplished by the "Prairie Valley Blight Fighting Association" in the way of cleaning up infected orchards from one of their greatest pests, but another, and just as important menace, now stares us all in this district, in the face, namely weeds, many of a noxious variety. Cutting out blight is a most important factor, as regards making an orchard productive of good and marketable fruit, but it does not make the lot look any better to the casual visitor or passer by, who may be here as a buyer of property. Weeds are seen by all, and are an eyesore and disgrace to many orchards all over Summerland. What is largely accountable for Root Blight? Weeds. What saps up moisture from trees? Weeds. What makes land valueless in Alberta? Stink Wood, which is to be seen here also. There may be a Weed Inspector here, such a question I could not answer.

Yours truly,  
"ONE INTERESTED."

The farmer who expects a crop without planting seed is a brother to the dead one who tried to run a store without advertising.

That the Provincial Department of Agriculture is prepared to supply barn plans free is the subject of a circular to the secretaries of the Farmers' Institutes. These are furnished by the Soil and Crop Division, Live Stock Branch, Department of Agriculture, Victoria, B.C.

### Boy Scout Column

#### SUMMERLAND TROOP BOY SCOUTS

Scoutmaster J. Tait.

Headquarters — ELLISON HALL. Meets every Friday evening 7.30.

Scouts — Cubs — Ages 11—18 Ages 9—11. Recruits should apply personally at any meeting.

Visitors cordially invited to attend.

WANTED—Recruits for Summerland Boy Scouts. Must be between ages 9—11, or 11—18. Apply personally at any meeting.

The boys turned up in force to the meeting on Friday night, 43 Scouts and Cubs being present, besides the Scoutmaster and two assistants. The boys were called up at 7.30, sharp, and marching and manoeuvring were taken by the Scoutmaster. When a good time had been taken up by this, the boys were lined up to form three sides of a square to listen to an interesting talk by Scoutmaster Leonard. The boys then went upstairs, two patrols at a time and Scoutmaster Leonard's thoroughly explained the Scout Law, and the use and misuse of the "Jack." The other flags and emblems were also explained. Next week he will take up the different knots and other parts of the Scout work.

The Cubs have been enrolling so fast that it has been found necessary to make two patrols out of them. Frank Stewart was appointed Cub Leader for the second patrol of Cubs. There are now six patrols in the troop.

#### SCOUT CONCERT.

The tickets for the Scout Concert fixed for June 2nd were distributed amongst their boys. Tickets may be had from any Scout or Cub, or Mr. A. B. Elliott's. Later reserved seats may be booked at the Drug Store. The prices are within the reach of all: Reserved Seats, 50c.; Rush Seat, 25c.; children under 12, 15c. Buy a ticket and you will help the home troop to have a successful camp. As the concert is to be held on the eve before the king's birthday it was decided to make it into a Patriotic Concert, so do not fail to be present.

The pyramid and tumbling squad had a good practice on Friday, and everything is progressing favorably.

#### A SUMMERLAND BOY SCOUT.

### C.M.R. May Leave As Dismounted Unit.

Regiment Agrees to Suggestion Received From Ottawa. Men Eager For Action.

The 2nd Canadian Mounted Rifles, now encamped at the Coast, and in whose ranks are a number of local men, may go to the front as a dismounted unit. This intimation has been received by Lieut.-Col. Bott, the commanding officer, from Ottawa, in the shape of an inquiry as to whether he, his officers and men, would have any objection to such a proposal. As soon as the telegram was delivered the regiment was paraded, and the O. C. explained the situation. He asked all who were ready to go on active service on the basis indicated to signify it, and those who were disinclined to do so, to frankly give expression to their disapproval. The response was so generally in favor of falling in with the implied wish of the authorities that it may almost be said to have been unanimous.

This does not mean that the regiment will go to the Old Country as Infantry. There is a marked difference between the term "dismounted unit" and "Infantry." The change of plan merely involves the departure of the force without horses. It would take its place on the firing line as "mounted rifles" and, when the occasion offered, would be mounted and take the same part in military activities as provided for under present conditions.

The inquiry from the capital, coupled with the fact that no instructions have been received by the C. M. R. to proceed to Sowell, Manitoba, for concentration, is taken as indicating that the disposition of the regiment is being given serious consideration.

Supply the birds with nesting boxes and they will become annual visitors. The birds will well repay any attention given them.

## NO ALUM

CANADIAN CASUALTIES.

Figures issued from Ottawa at the end of last week show the total number of casualties sustained by the Canadians in the fighting on the Continent to be 2,754 of all ranks. Officers killed number 59, wounded 210; non-commissioned officers and men killed 379, wounded 2,106. Two western battalions, the 7th and the 16th, have suffered somewhat severely, the former losing 7 officers killed and 17 wounded, as well as 10 N.C.O.'s killed and 126 wounded. The 16th Battalion has fared worse, losing 4 officers killed and 11 wounded, and 13 N.C.O.'s killed and 165 wounded. The Princess Patricias have lost of their officers 5 killed and 6 wounded, as well as 47 N.C.O.'s killed and 165 wounded. Since these figures were issued the Canadians have been into hard fighting, and their losses are accordingly heavy as the lists published in the daily press show.

### OKANAGAN'S FRUIT CROP.

Mr Thomas Cunningham, now on a trip of inspection and campaigning for orchard cleansing throughout the fruit districts of the Interior, is giving out very confidently that the fruit prospects in the Okanagan are full of promise for a big crop this year. This report, he says, is subject of course to the "June drop," which, if not excessive, has a beneficial effect on the crop by reducing the number and increasing the quality of the fruit.

### Water Notice.

Take notice that the Department of Agriculture whose address is Ottawa, Ont., will apply for a license for storage of one hundred acre feet of water out of Trout Creek which flows south-easterly and drains into Okanagan Lake about two miles from Summerland Post Office. The storage dam will be an addition to Summerland municipal dam No. 1 which is situated at the head of Trout Creek. The capacity of the addition is one hundred acre feet and flood about two hundred and fifty acres of land. The water will be diverted from the stream at a point one mile from S.W. Corner of lot 476 and will be used for irrigation purposes upon the land described as Experimental Station, being part of Penticton Indian Reserve No. 1. The license applied for is to supplement a right to take and use water as per license No. 576. This notice was posted on the ground on the sixth day of May 1915. A copy of this notice and an application pursuant thereto and to the water act 1914 will be filed in the office of the water recorder at Vernon. Objections to the application may be filed with the said water recorder or with the comptroller of water rights Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is May 14th, 1915.

R. H. Helmer, Superintendent, Summerland Experimental Station, for Department of Agriculture, Ottawa, applicant. my14-1915

## Current Events — OF — Town & District

Mrs R. C. Robinson and daughter are spending the week in town.

Miss M. Gordon, our local nurse, is spending a short period in Penticton on professional duties.

Mr J. H. Pushman was incapacitated for a couple of days this week as a result of a fall on Saturday last.

Mr H. K. Bowes, having decided against settling in Naramata, has returned to Ottawa, accompanied by his wife.

Mr Harold Mason has obtained a position on the government survey, and left on Monday for Kamloops to enter upon his new duties.

Owing to the recent heavy showers the creeks with their increased volumes of water possess more than ordinary fascination. Particularly is this so at the falls immediately above the railway bridge, east of town.

Local poultrymen who are members of the Summerland Association speak enthusiastically of the success of the organization. Another evidence to prove the wisdom of the old proverb, "In union there is strength."

In a recent letter to his parents, Roy Boothe of the Second C. M. R., Vancouver, states that it is current camp talk that the whole bunch are to be moved shortly to Vernon, to the big camp now in course of preparation.

Syndica House entertained on Sunday two unique personages—both clever women—both of the same name—both comparative strangers in the Okanagan. Each had been taken for the other time and again. Miss Livingstone, demonstrator before Women's Institutes, and Mrs Livingstone, organizer for the W.C.T.U.

The large pool of water on Front Street, near Syndica House, has apparently taken up permanent residence. This is owing in some measure to the encouragements offered by the weather man, who appears to be in tears, from day to day. Nevertheless this same pool could and should be drained off.

### Naramata Farmers' Institute.

The regular monthly gathering of the Farmers' Institute on Friday evening last, attended by a few more than a bare quorum, proved fruitful of discussion, and some disagreement. A letter from the Penticton Herald pointed out advantages that would ensue to a certain amount of judicious advertising of the town, and called attention to the Herald's forthcoming edition to mark the advent of the first railway train to the town. The wisdom of having Naramata represented in this special number was admitted, but that the Institute could use its funds for that purpose was not conceded, accordingly a special committee was empowered to lay the matter before the local business men, with the hope that they would endorse the idea.

Mrs M. Allen appeared on behalf of the Womens' Institute with a request that the men provide boxes in which to pack the hundred or more jars of jam the women folk are planning to prepare for shipment as a Belgian Relief fund. It was decided to have the work of box-making a purely voluntary and individual affair. In the course of the discussion on this topic a few of the members took occasion to express opinions on the wisdom of furnishing food for fighters, in the struggle now going on in Europe; whereupon Secretary Pushman rose and in a few well chosen, earnest and forcible words placed the position, as Britishers, hold in this matter.

In this connection it would do no harm for us one and all to bear in mind that we as a nation are at war—that a state of war exists—that we as part of the British Empire—Canadians—are fighting not only for our honor but for our very existence. And also, those of us who are citizens by birth of other countries, should be prepared to support by our every word and deed the flag that to-day protects us.

## Naramata Current Events (Continued).

Mr R. J. McDougall of Penticton spent a part of Sunday in town.

Mrs Hayes of Summerland spent Wednesday in town, and attended the cooking demonstration conducted by Miss Livingstone.

Contractor Footner is spending a day or two in town on business in connection with his late contract for building the new public school.

Rev. J. Irwin Beatty has returned from Kelowna where he was supplying during the absence of the pastor, who was at the annual conference.

Miss Emma Davies has been accepted as a probationer at the Vancouver General Hospital. She will probably enter upon her new duties on July 1st.

Rekadom Ranch now can point with more or less pardonable pride to 40 acres of alfalfa, which under the present favorable weather conditions is making good growth.

The turbulent creek has broken loose in real earnest this week, its banks swollen to an unprecedented height by the heavy showers. There isn't a bridge left in town now except the one near the Cash cottage.

Dame Wonder is asking why should there be a local branch of the W.C.T.U. started in Naramata, a town without a saloon or night policeman. We refer her to the women of this now full-fledged organization.

Mr John A. James, well-known here as book-keeper for the Valley Construction Co. during 1912 and 1913, intimates in a letter to a friend that he has returned from the United States, and has enlisted for active service abroad.

Probably the most distinguished visitor to our shores for some time stepped off the boat on Monday evening. We refer to United States Consul-General Foster, who, en route to the Panama Exposition, joined his wife here. Mrs Foster has been visiting her daughter, Mrs Carroll Aikins, for the past six weeks.

### Miss Livingstone's Classes.

Of the visit of Miss Livingstone to town as demonstrator of Domestic Science, it can be said that her work here was an unqualified success. In the ten days' course, before a class of enthusiastic and earnest housewives, the principles of cooking were presented in a clear, logical and vital, taking manner. Many women are apt to think and often to say, "Anyone can cook if they've got the stuff to cook with." Whereas, Miss Livingstone showed time and again where the average housekeeper is wasteful and extravagant, and doesn't know it.

### Local W.C.T.U. Fomed.

May 16th, Sunday, must go down as a red letter day in Naramata, because it witnessed the organization of a local branch of the Women's Christian Temperance Union. The prime mover in this was Mrs Livingstone, dominion organizer. This talented lady was present at all the church services of the day. In the morning in the absence of Pastor Beatty, who was at Kelowna, Mrs Livingstone gave an instruction address, conducted an afternoon service for women only, and in the evening presided at the organization of the local union. The following officers were duly elected:

- President, Mrs E. P. Roe
- Rec. Secretary, Mrs M. M. Allen
- Cor. Secretary, Mrs R. Wells
- Treasurer, Mrs J. M. Myers
- Flower Mission Supt., Mrs D. O. Hughes
- Supt. of Mother's Meeting, Mrs P. Roe
- Supt. of Franchise, Mrs H. P. Davies
- Supt. of Moral Contest Work (To be elected by executive)
- Supt. of Parlor Meetings (To be appointed)

The meetings are to be held the 2nd Tuesday of each month, the first meeting to be held at the home of Mrs Hughes.

In B.C. 69 per cent. of the copper produced is mined within a few miles of Greenwood, and 31 per cent. at the Coast. The Sloan produces 98 per cent. of the provincial zinc output.

### A New Fruit Package

It is felt by some that the apple and pear packages at present in use for shipping fruit do not meet the market requirements. The box not only adds to the expense of packing but greatly increases the cost of handling in transportation. The ordinary barrel is also unsuitable as the fruit does not arrive at its destination in good condition owing largely to the slackening and bruising of the fruit. It is to obviate these difficulties, and at the same time to supply the above mentioned want, that Mr Clement Aikens of Peachland, B.C., has brought out a new apple barrel, a patent for which has been applied for both in Canada and the United States. It consists of an ordinary barrel divided into two equal parts by two partitions dividing the centre.

These partitions are so adjusted as to admit of the barrels being readily sawn in two by the retailer, thus making two half barrels. In this way cheapness and facility in handling are preserved. The chief advantages claimed for this patent barrel are as follows:

It can be made of pine and put together at any packing house, as the material can be shipped in the knocked down state, and the method of putting together is simple. That the fruit can travel unwrapped owing to the firmness imparted by the central partition thus saving the cost per box in wrapping and paper.

That the fruit will arrive in sound condition, and with the convenience afforded by the sawing of the barrels in two should fetch better prices. Many consumers would prefer to buy half a barrel to a whole one.

It will also enable a buyer to purchase half a barrel of culinary apples and half a barrel of dessert. That this barrel is much easier to load in cars than are boxes and with the firmness imparted by central partitions rides well in transit, and arriving on the market in a satisfactory condition would ensure better prices.

And further, that the auction markets and brokers of Great Britain don't take to the boxes, and no doubt in Australia and Africa it is the same. In the case of No. 2 and No. 3 grades a larger quantity than the boxes is preferred for the prairie.

The insect we now call the "house fly" should in future be termed the "typhoid fly" in order to call direct attention to the danger of allowing it to breed unchecked.—L. O. Howard, Chief, U.S. Bureau of Entomology.

A number of Irish soldiers were burying German dead. Suddenly out of the trench came a voice, "I voss not dead!" The soldiers stopped shovelling and looked to the sergeant. "Yez can't bollaive a word those bloomin' Germans say."—Ex.

ADVERTISE IN "The Review."

### PRESBYTERIAN CHURCH ANNIVERSARY.

St. Andrew's Church celebrated its fifth anniversary last Sunday and Monday, May 16th and 17th. Rev. R. G. McBeth, M. A., of Vancouver, was the anniversary preacher. As was anticipated Mr. McBeth conducted three strong and acceptable services. Friends of old Manitoba days were glad to welcome Mr. McBeth, and to renew old associations. The good sized audience which gathered on Monday evening to enjoy the lecture and concert, despite the bad weather, made it clear that if conditions had been favorable, the capacity of the building would have been taxed. Mr. McBeth's lecture was a graphic, informing and interesting description of the Second Reil Rebellion. Mr. McBeth's visit had a heartening effect on the congregation, and will long be remembered by those who had the privilege of hearing his services here.

During his stay here Mr. McBeth was a guest at the home of Mr and Mrs. H. Sutherland.

### GOOD WORK BEING DONE.

The Deputy Minister of Agriculture and other officials of the Provincial Department met last week with the members of the Advisory Board of Womens' Institutes of British Columbia. Much discussion was devoted to various matters of importance to the agricultural welfare of rural communities. The Institutes, which are scattered throughout the province, are accomplishing a great deal of good in conjunction with the Department of Agriculture, one of their recent and most useful spheres of activity being the preparation of material to be sent to the soldiers at the front.

### KELOWNA HOSPITAL MAY CLOSE.

At the regular meeting of the Kelowna Hospital Board last week, the question of closing the hospital at the end of May was very carefully gone into, according to the Kelowna Courier, and the directors feel that although there has been a fair amount of inquiry, the public generally have not taken the matter as seriously as they should. It would appear that the hospital earnings are sufficient to pay expenses, the trouble being that all the patients cannot or do not pay their accounts. The directors deferred their action for a month, and will be guided in their decision by the support the hospital will receive in the meantime.

Pay as you go. This is golden advice that will keep the business world moving, the wheels of industry from rusting out, and the money will surely come back to you. It should not be forgotten that the world is round. Stand the people all in line and they will reach around the world, the last touching the first. Now pay your neighbor on the right the dollar you owe him, and he will pay his neighbor on the right, and so the dollar will travel until it will come around again to your hand from your neighbor to the left. Try it. We make no extra charge for this receipt for the hard times.

# SPECIAL Clearance SALE

FOR ONE WEEK, COMMENCING  
**SATURDAY, MAY 22nd.**

ENCOURAGED BY OUR SALE LAST YEAR OF BOOTS AND SHOES, WE WILL OFFER FOR ONE WEEK EXCEPTIONAL VALUES IN LADIES' AND GENTS' OXFORDS.

Every man and woman in Summerland and vicinity will need a pair, and we invite them to take advantage of this remarkable opportunity to purchase at unusual prices.

This is not a sale of old stock, but practically new goods, of celebrated makes.

Ladies' Black and Tan Oxfords, sizes 2 to 5½,  
Regular \$3.75 to \$5 - **Cash Sale Price \$2.85**

Gents' Black and Tan Oxfords, sizes 5½ to 10,  
Regular \$4.50 to \$5.75 - **Cash Sale Price \$3.75**

This opportunity is one that merits your careful consideration.  
AN OPPORTUNITY TO SAVE YOU MONEY.

**The Summerland Supply Co., Ltd.**

# WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

## Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

**JAS. RITCHIE,**  
WEST SUMMERLAND.

### Suing K.V. Railway. McMaster Exam. Results.

**Litigation Over Naramata Section Of Newly-Constructed Line.**

Claiming that \$699,608.99 is due them on account of the construction of a section of the Kettle Valley railroad, east of Penticton, and that the amount is the unpaid balance of the price for the work, Grant, Smith & Company, contractors, have taken out a supreme court writ against the Kettle Valley Railroad Company, and sue for the amount named.

The claim is for work and materials provided by the plaintiff who had the contract to construct the road. The statement setting out the accounts between the firm and the railroad company is as follows:

July 12, 1912, construction of a single track railway from Penticton to Hydraulic-Summit.	
Net cost of work	\$2,804,168.73
Contractors' profit at 10 per cent	280,416.87
	\$3,084,585.60
Paid on account.	2,384,976.61
Balance due	\$699,608.99

Plaintiff also claims interest on balance due from October 21, 1914, until payment of the judgment.

### IS NOW A MINE.

Mr J. M. Robinson, who is spending the day in Summerland, was interviewed this morning by the Review with reference to his Idaho mining proposition. Already a body of ore, 20 feet wide, 100 feet long, and 85 feet deep, has been opened, and this ore has an average value of \$13 a ton. All the time the men are following promising veins, and expect any day to break into a chamber of rich ore such as has been found in many of the claims of that district. The large body of low grade ore already laid bare warrants putting in a stamp mill, but the engineer in charge is confident of striking the rich ore, which geological conditions indicate is present in the claim. If the anticipated high grade ore is reached, a larger mill would be needed, and it is probable that the search will be continued for a time at least before undertaking to mill the ore already exposed.

### SCHOOL BOARD.

At a special meeting of the School Board on Thursday afternoon a large number of applications for the position of assistant teacher in the High School were received and considered, but no decision was reached. Three complaints from Prairie Valley of the irregularity of the school conveyance serving that district were also received. This and the matter of a second teacher for the High School will be brought up again at the regular meeting next Tuesday.

### A NEW MUNICIPALITY.

The people of Naramata are about to organize themselves into a water and light municipality. For the present they believe this will serve their purpose better than organizing as a municipal district. The proposition is now ready to be submitted to the government for approval, following which bonds will be tendered to the Okanagan Trust Company for its water distribution system and franchise, and electric light system.

### BIRTHS.

Other Tickets from any Scout.  
**GOD SAVE THE KING.**

**WILL SHIP 10,000 BOXES APPLES TO S. AFRICA.**

**Promised Good Prices.**

Between 8,000 and 9,000 boxes of Okanagan apples, or about 14 carloads, according to present plans, will be shipped to South Africa this fall by the Okanagan United Growers. Space on the Canada-Cape line has been arranged for, and in all about 10,000 boxes will be sent to that market by our Valley organization. As it is practically a certainty that sufficient local apples cannot be gathered up

for the September shipment, about 1,000 boxes will be procured elsewhere.

The members furnishing apples for the South African market will be guaranteed a minimum of \$1.05 net per box. Last year the average net return from the South African sales was \$1.29, and had not one car been sent as an experiment to an unsatisfactory market, returns would have netted \$1.50. In fact the United Growers are hoping to realize \$1.75 net per box this year for their members. The guarantee, of course, will only be given for apples of the right variety and quality.

**For Pies and Cakes**

**SUCCESS is what you aim at.**  
You want your pies, cakes and other kitchen creations to be as delicious as any woman can bake in this town. They have a right to be. ALL depends on the material you use.

ALL your skill in pastry making, icing, frosting, blending, filling and baking will not help you if your mince meat, raisins and other material are not exactly as they should be—absolutely the best for their purpose.

We have gained much knowledge from our customers on this delicate matter and have stocked only the most successful articles in the line. An inspection of our stock is invited before you again buy those goods—that inspection will surely make you a regular customer.

\$5,914.60	

To the Board of Directors,  
of the Summerland Hospital.

Gentlemen,  
I beg to report that, commencing with the Assets approved by your Board on 8th December, 1914, I have audited the books of the Summerland Hospital for the year ending 30th April, 1915, including the Balance Sheet, and Income and Expenditure Account prepared by your Secretary, and attached hereto.

Nothing has been written off the Building for Depreciation, in consequence, I presume, of its having been so recently built, but I should advise that a fair annual rate be determined by the Board and charged each year.

Subject to these remarks, in my opinion the Balance Sheet attached hereto represents the correct financial position of the Hospital as shown by the Books at the date thereof.

I would also state that these Books have been kept in a very careful manner by your Secretary.

(Signed) F. J. NIXON,  
Auditor.  
West Summerland,  
17th May, 1915.

#### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

### Letter from A Wounded Soldier

Pte. Ronald Snider, 16th Bat.,  
Tells of Great Ypres Fight.

Convalescent Depot,  
Rouen, France.

Dear Mother,

Here I am alive and well after the most horrible Battle of Ypres. Some time I will try and describe our experiences but I hate to think of it, much less write about it now. Whenever I think about our charge, the sight of all my chums lying dead in that wood that you probably have read about, comes up before me. There were only about fifteen thousand of us, supported by only one or two batteries of light artillery, against about what is estimated at one hundred and fifty thousand Germans for two days. I was knocked out by their mean gas, while with the East Yorks in St Julien on Saturday, April 24th. We came too, after a bit, and I stayed in the trenches until Tuesday, 27th. On that morning I was carrying a wounded man when a shell (a big 17-inch) burst right among a party of men on the road, knocking out the lot. I dropped flat, but a flying piece of rock hit me in the back of the foot, and rendered me completely useless for the time. I was shipped through the various clearing hospitals, first to the Australian Hospital (a fine golf hotel) in Boulogne, but as they were over-crowded I was re-shipped to No. 5 General Hospital, Rouen. I was there six days, and am now in the Convalescent Depot all right, but still bad in the eyes and head from the gas. I never want to see another fight like that, although we shall all go back with a good heart.

I might mention that Captain Rae is safe, although Coy. Sgt. Maj. Ramsay is killed. Our casualties are heavy, but we did our work, and the battalion has had many special articles in the English papers on its charge to retake the four 7 in. guns, which by the way were French not English. It was us and the 10th Battalion that made the charge.

I wish you would send me another Bible as the one you gave me which I have kept so long is now in German hands, along with the rest of my kit, also Mrs. socks. I was wearing the pair you knit. Will close now.

RONNIE

### Building Silos.

Livestock Branch of Dept. of Agriculture Will Demonstrate Advantages of Using Silage.

For the purpose of showing farmers throughout the province the advantage of using silage for the winter feeding of farm animals, the Livestock Branch of the Department of Agriculture will superintend the construction of silos in a number of agricultural centres of British Columbia during the next few weeks. The places that will be visited are Burton, Arrow Lakes, Revelstoke, Kelowna, Ladysmith, Summerland, Pentiction, Salt Spring Island, Armstrong, Dennison Station and Ladner.

The purpose of this work is to introduce the silo to various districts of the province where it may prove profitable, and to demonstrate to the farmers that a serviceable silo may be constructed at comparatively low cost. The use of silos in many parts of the continent has proved to be not only an admirable, but an indispensable factor to the modern farm for storing green food and fodder.

During the fall of the year silo-filling demonstrations will be conducted at a number of points in British Columbia by a staff of the Livestock Branch for the purpose of illustrating the proper methods of filling.

Latest developments make it appear doubtful if a silo will be erected here this season. One of the requirements is that the farm on which the proposed silo would be built grow five acres of fodder corn. Watson Heights Ranch had undertaken to do this, but the early dry weather discouraged the planting of the corn, hence the building of the silo now seems doubtful.

An Indian boo fancier has succeeded in breeding a race of stinging boos. They are a cross between Cyprus drones and Italian queens. The boos gather more and finer honey than their armed cousins and also resist disease better.

### LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

### THE HORSE EVENTS AT THE SPORTS.

West Summerland,  
May 25, 1915.

The Editor, Summerland Review.

Dear Sir:

With reference to the recent show at Crescent Beach, there were some peculiar episodes occurred as follows:

Entry fee for draft teams was exorbitant at \$1.50. At real Fairs throughout the Dominion where good prizes are offered, this is always 50 cents. The Judge having awarded ribbons said he was not aware of decorations called for any attention, as in any way affecting his decision; also he said he was not an authority on heavy horses.

The Government showed team and driver; was this sporting or fair? The ordinary exhibitor cannot afford to provide new harness, wagon and fixtures. By all means let the Government exhibit, but not compete.

In the ladies' race, which developed into a match, one rider having lost her lines and come off, and the race being flat and hardly started, usual procedure in such cases was for her opponent to have pulled up and made fresh start.

The horse relay race should have been run with two mounts; such as took place was a farce and no test of anything.

Yours truly,  
"KITCHENER."

### \$58,000 To Be Spent In B.C.

Agreement as to Work to be Carried Out Under Agriculture Instruction Act.

Agreements just entered into between the Dominion Department of Agriculture and two of the Provincial Governments provide for important advances in agricultural instruction under the "Agriculture Instruction Act." Ontario and British Columbia are the two provinces with which agreements have been made so far, but agreements with the other provinces are on the way, and probably will be completed in the near future.

The Ontario agreement provides for an expenditure of \$266,013.05. Much of this amount will be spent on extension work already under way. The British Columbia program provides for an outlay of \$58,265.94. With part of this the usual demonstration work will be carried on, and \$15,000 will be used for agricultural instruction in the public and high schools of the province.

### Cow Breaks Record.

All records made by Canadian cows of any breed or any age for the annual production of butter fat have been broken by a three-year-old Holstein cow, bred and owned by Mr. J. M. Steves, of Steveston, B.C., who is the senior Holstein breeder of the province. Her yield amounted to no less than 998.99 lbs. of fat, with 24,149.3 lbs. of milk. But for the recent sensational record of the Holstein junior three-year-old Fenderne Hollings Fayne, which secured the world's championship with 1,116.5 lbs. butter fat, the world's junior record three-year-old class could be led by this British Columbia cow. This Canadian champion already holds in the Holstein register of merit records for butter fat production in seven and thirty days, and as a two-year-old stood third for yearly production in the Canadian record of performance with 604 lbs. of butter fat.

### Tomato and Pepper Plants

I have a surplus of about 500 of each of the above, all first class plants, which I will sell to the first comers.

Everything of Business and Social Importance  
Transpiring in South Okanagan's Newest Town

### Naramata Current Events.

Mrs Languedoc is spending a short period in Summerland as guest of Mrs W. J. Robinson.

Never since the old regatta days have so many boats been seen careering round near shore—most of them followed by trolling hooks searching for the more or less elusive trout.

A local youth has evolved a suggestive conundrum. Take it for what it is worth—Which is the most important letter in the English language? Answer: Y, because it is the end of Germany.

It looked like old times again to see Captain Languedoc in charge of the Boat Company's extra craft when on Monday, in order to meet the public's demand for specials, both the "Skookum" and the "Trep-pannier" were kept on the go all day—and indeed, all night.

William Nuttall, government road foreman, has certainly had his hands full this past week looking to the interests of the community as a result of the threatened havoc to the bridges and the adjacent properties near town. Never in the history of the place have there been such torrents of water tearing down the creeks as there has been lately. For a while three of the bridges were threatened. Two have been undermined and must be rebuilt.

### Canadians Hard Hit.

That the Canadians have lately been in the thick of hot fighting recently is very obvious from the extensive casualty lists issued from Ottawa. Two weeks ago Canadian losses totalled 2,754 of all ranks, 59 officers killed, 210 wounded 379 non-commissioned officers and men killed, and 2,106 wounded. How stupendously this total has grown is seen in figures issued from Ottawa covering all losses up till noon of May 20. Casualties in all ranks number 5,181, killed 714, wounded 3,351, missing 1,116.

### Water Notice:

Take notice that the Department of Agriculture whose address is Ottawa, Ont., will apply for a license for storage of one hundred acre feet of water out of Trout Creek which flows south-easterly and drains into Okanagan Lake about two miles from Summerland Post Office. The storage dam will be an addition to Summerland municipal dam No. 1 which is situated at the head of Trout Creek. The capacity of the addition is one hundred acre feet and flood about two hundred and fifty acres of land. The water will be diverted from the stream at a point one mile from S.W. Corner of lot 476 and will be used for irrigation purposes upon the land described as Experimental Station, being part of Pentiction Indian Reserve No. 1. The license applied for is to supplement a right to take and use water as per license No. 576. This notice was posted on the ground on the sixth day of May 1915. A copy of this notice and an application pursuant thereto and to the water act 1914 will be filed in the office of the water recorder at Vernon. Objections to the application may be filed with the said water recorder or with the comptroller of water rights Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is May 14th, 1915.

R. H. Helmer, Superintendent, Summerland Experimental Station, for Department of Agriculture, Ottawa, applicant. my14-1915

### Current Events — OF — Town & District

"Billy" Robinson was one of the week-enders in town who on account of the showery nature of the "glorious 24th" remained here till the evening ferry.

Miss Foster and Miss Emma Davies were week-end visitors at Pentiction, returning by Monday's afternoon ferry. They were guests at the home of Mrs R. J. McDougall.

The service in the Methodist Church on Sunday morning, in the absence of Pastor J. Irwin Beatty who was at the Conference, was conducted by Mr T. H. Wilson, of Pentiction.

Mr Stanley Wright, the popular engineer, passed through town on Monday evening en route to Summerland to fill a special place on the evening's program. Mr Wright is a comedian of deserving merit.

Mrs R. C. Robinson accompanied by her pretty little baby girl, Catherine, has gone to Silver City, Idaho, where her husband is busy with the now famous gold mine. The stay in the south may extend till well on into the fall or early winter.

Since the report of the death of Mr Bert Noyes, a member of the 7th Battalion which was subjected to such a tight pinch at the now memorable battle of Ypres, a letter written prior to the fatal hour has been received by the family at Naramata. The letter in common with all previous ones was one of cheer.

Mrs T. H. Boothe accompanied by her little baby daughter Gwendoline, is en route to Markham, Ont. Mrs Boothe's somewhat hasty decision to go east is on account of the poor condition of her mother's health, and the visit may be a protracted one, in which case, it is quite probable that Mrs Fenton, a widowed sister of Mr Boothe may come west to assume the management of the home here.

Probably on account of Monday being a holiday there were more than usual of week-end visitors. Most of our visitors remained to enjoy a quiet day with the stay-at-homes. Amongst these were Mr and Mrs V. L. Watson of Pentiction, who were entertained at the latter's parental roof. Mr Clarence E. Craig and wife remained over as guests at the home of Mr and Mrs R. H. King. Another Pentiction couple, Mr George Dempsey and wife, spent an enjoyable holiday at the now enviable home of Mr James Young. During his short stay here Mr Dempsey renewed acquaintances with a former Prairie friend, Mr George Partridge, who is now busily engaged erecting a residence on his newly acquired ranch property.

### Naramata Current Events (Continued).

Mr Charles E. Stiff spent a few days at his home here this week.

The local troop of Boy Scouts are expected to parade in full uniform next Sunday morning.

Mr W. J. Robinson wife and daughter paid friends in town a short visit on Monday, the 24th.

Master Guy Ireland spent an enjoyable outing over the 24th as guest of Mr M. Wilson at Paradise Ranch.

A full account of the visit of Rev T. R. Heneage, head of the Scout movement in B.C. is necessarily held over for next issue.

The unusually long spell of cloudy, rainy weather is resulting in a more or less prolific crop of mushrooms.

Two prominent Scouts, Master W. Mitchell and Patrol Leader Frank Hughes have been recommended for boatmen's badges.

Miss Livingstone during her stay over in town was a guest for a few hours on Sunday at "Outlook" ranch, the home of Mrs H. T. Davies.

The baseball diamond is being cleared of its annual crop of weeds in order to give the local Ty Cobbs an opportunity to develop their local talent.

The Manchester orchestra journeyed to Summerland by special ferry Monday evening where they furnished music for the dance held after the show.

The first of the season's output of ripe cherries has been reported from "Fairmont" ranch. Prospects of a fine output of fruit from Naramata are excellent and the orchardists are now engaged in thinning the peaches and apricots.

Wild strawberries are now so plentiful and of such attractive quality as to make a day in the hills, in search of this delicious fruit a pleasing, profitable and enjoyable way to spend a day's picnicing. Better try it.

Enlist! Enlist!! Enlist!!! In response to another call for recruits to fill gaps in Kitchener's army from the West, posters are conspicuously placed in town. Already Naramata is proportionately well represented in Canada's vast host of heroes—both living and dead. Yet probably a few more may don the khaki before long.

The meeting of the "Progressives in Economics" in the church basement promises to be full of interest to judge from the list of speakers and topics on the program now in the hands of Mrs M. D. Manchester. Looks now as though nothing but the weather man is going to keep the house from being packed. Better decide rain or shower to show up.

### A Boating Episode.

A boating party on Monday after taking in the sports at Crescent Beach came near being "taken in" by the treacherous waters of the lake on the occasion of the return trip to Naramata in the afternoon or early evening. This is the rumor, at least. The adventurers themselves disclaim having had any narrow escape. "The lake was not found at all rough," say the ladies. The sturdy youth who manfully plied the oars feels, however, that as a member of the local Scout troop, he has rowed unaided seven miles at a stretch and is entitled to a boatman's badge. He'll get it. He deserves it. The facts of the case are these: Mrs Hughes and Mrs Allen and son Stewart, rowed across the lake to the Crescent Beach sports in the early part of Monday afternoon, and while well on their way home were being rapidly overhauled by the squall that for a half hour or so whipped the waves into an uncanny state of unrest. Then instead of attempting to face the storm they very wisely struck north east and landed at Agate Beach. Here they waited for the storm to abate which it did in no great while, whereupon they again embarked and keeping close to shore reached home in time to quiet the natural anxiety of the watchers at the shore. Never again!

Enderby's tax rate for 1915 has been fixed at 20 mills.

## The Habit of Reading Advertisements

NEWSPAPERS would be much less enjoyable, instructive and valuable than they are if they contained no advertisements. Many persons read the advertisements quite as thoroughly as they read the news matter. This is just as it should be.

The more advertising, the more buying. The more buying, the greater the consumption of the goods or service advertised.

More business would be done by the merchants of Summerland if

they advertised more, and if more of them advertised. Much business goes to the big city mail-order houses because they advertise. These houses would cease to draw business from this community if they ceased to advertise.

### To the Merchants of Summerland

Advertise more, and more of you advertise, and the big city mail order houses will get less and less business from this community, and you will get more.

## Advertisement Reading is Worth While

# First Train Monday

For those who wish to attend the formal opening of the Kettle Valley Railway, Monday next, May 31st, at Pentiction, special trips will be run as follows:

Leave Naramata 1.30 p.m.	Leave Naramata 7.00 p.m.	For Banquet
" Summerland 2.00 p.m.	" Summerland 7.30 p.m.	
" Pentiction 6.00 p.m.	" Pentiction after the Banquet	

This cancels regular afternoon and evening trips.

FARE, Pentiction and Return, 75 cents.

## The Right Idea in Business

THE modern merchant filled with the modern spirit carries his business to his customers' homes; that is, he doesn't wait to be found out or risk the danger of not being found out.

The best carrier of business to customers' homes is the newspaper. The Review can carry every business in Summerland to the homes of this community with ease and without confusion, the businesses of

grocers, dry goods men, hardware dealers, clothiers, stationers, boot and shoe houses, druggists, jewelers, furniture dealers, butcher, grain and feed stores, implement dealers, and every other class of business.

### To the Merchants of Summerland

Get your business into the home and you'll sell goods there. The Review can carry your business into more homes than you are now serving. Ask us about the cost of advertising.

### BUY FROM ADVERTISERS

### Newsy Paragraphs from PEACHLAND

Miss Olive Ferguson spent part of the past week in Kelowna.

Mr and Mrs Harold McCall and children spent Thursday in Kelowna.

Mr and Mrs Town attended the Methodist Conference in New Westminster last week.

Rev. H. A. Solly of Summerland conducted a baptismal service in town on Wednesday.

Mrs Buchanan is the guest of her brother, Mr McDonald, in Penticton for a short time.

At a recent meeting of the Athletic and Aquatic Club, \$10 was voted to the Ambulance League.

Miss Louise Gibb who has been staying with Miss Irene Elliot for a month, returned on Wednesday to Armstrong.

Mr Clement Aikens and sons William and Ernie, accompanied by William Sanderson, drove to Penticton on Tuesday returning the same day.

Miss Grace Logie, who has been the guest of Miss Beatrice Lang for a couple of weeks, returned to Summerland on Friday evening, accompanied by Miss Lang who spent the 24th there.

Many of our citizens, despite the rain, spent Monday at Crescent Beach taking in the sports. The home baseball teams succeeded in defeating their opponents and returned to town with the prize money.

Another Red Cross box was shipped away from here on Monday.

It contained 10 suits of pyjamas, 11 hospital shirts, 40 towels, 6 sheets, 9 1/2 dozen handkerchiefs, 4 1/2 dozen dish cloths, 6 pairs of socks, 500 mouth wipes, 68 bandages, 6 medicine glass cloths and one parcel of old linen.

### WORK OF HOSPITAL (Continued from page 1).

tainly got the interests of the Hospital at heart. If the latter, the credit belongs to Dr Andrew, who has been able to treat any medical case, meet any emergency, and who has, with only the assistance of the nurse, performed several difficult operations such as, I understand, were sent formerly to other towns or to the Coast for treatment, with consequent greater expense to the patient.

Now, nearly all such work can be done at home in our own Hospital. Yours respectfully,

(Signed) MAYSIE AITCHISON, Matron.

Summerland, B.C.  
30th April, 1915.

To the Board of Directors and Members of the Summerland Hospital Society,

Mr President, Ladies and Gentlemen,

In presenting for your inspection the Balance Sheet and Auditor's Report for the year ending 30th April, 1915, I wish to emphasize the necessity of considering it in the light of the unusual circumstances connected with the Hospital.

I refer particularly to the fact of the Hospital being so entirely new in every respect that there has been practically no wear and tear on the property of the Society, either on the Building or the Furnishings. Also the unprecedented enthusiasm of the citizens at the opening ceremony took such a practical form of expression that our larder and some other departments

did not require replenishing for some time.

I do not refer to the generosity of the public in continuing to donate in kind each month, for we have every reason to hope that these WILL continue, but we cannot at least expect another Opening Day, though we may look forward to an anniversary of this event.

The Hospital Building, which has cost to date \$6,500.93, was opened to receive patients on the 17th September, 1914, giving us 226 operating days to the end of the financial year. During this time 68 patients were given 1170 days treatment, or an average of 5.17 per operating day. Twenty operations were successfully conducted, and seventeen children were born, all of whom are doing well to-day.

For the 7 1/2 months we have been operating our receipts from contributions in kind were as varied as they were useful, comprising the following:—Fuel, \$70; groceries, \$126.95; light and water, \$108.58; drugs, \$25; meat, chickens, etc., \$18.50; and furnishings and equipments, \$144.50, making a total of \$488.53. In addition we received from the Ladies' Hospital Auxiliary, furnishings and equipment to the value of \$324.91 over and above the amount of \$317.50 which they gave towards the building.

It has been our policy to reckon these contributions at their true value, that is, at the price we should have to pay for them in the local stores, and this amount has been charged up to the Hospital just as though we had had to pay for the goods. We have therefore been able to arrive at the exact cost of running the place, which works out at \$2.40 per day's treatment. This is much below the published costs of other Hospitals in the Valley, and indeed, as far as it has been possible to learn, in B.C. This figure determines the degree of economy in the management.

In addition to the above we have received donations to the total amount of \$424.49.

You will notice that the sum of \$304.50 has been transferred to a Suspense Account, and does not appear as an asset. This amount represents certain accounts owing by patients which the Board have considered doubtful of collection. The balance of \$615.75 owing by patients, the Board consider to be worth 100 cents on the dollar.

The present Board of Directors consists of the following eight gentlemen:—Messrs W. J. Robinson (President), E. B. May (Treasurer), H. C. Moller and J. McLean (all elected to serve till the end of the coming year), and Messrs W. H. Hayes, C. Napier Higgin, R. C. Lipsott, and W. Ritchie, whose term of office terminates to-day. Messrs J. A. Kirk and S. McM. Young were appointed to the Board by the Provincial Government as their representatives. The Rev. and the President of the Ladies' Hospital Auxiliary are members ex-officio. The average attendance at meetings has been 8.2.

Our new by-laws and regulations, which are to be submitted for your approval, call for the election of five new members to take the place of the four who retire.

I have the honor to be,  
Yours respectfully,  
THOS. H. RILEY,  
Secretary.

### Weather Report

AN OPPORTUNITY TO SAVE YOU MONEY.

### The Summerland Supply Co., Ltd.

# WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

## Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

### JAS. RITCHIE, WEST SUMMERLAND.
