Council Retains Solicitor To Fight Law Suit

Case Will Be Heard In Summerland.

The serving of a writ on the Municipal authorities last Friday by Messrs Clayton & Abercrombie, Barristers, of Penticton, on behalf of their client, T. J. McAlpine, was the occasion of a special session of the Council on Tuesday morning this week, to consider what steps should be taken in the matter, and the appointment of a legal representative to handle the case of the Municipality. The meeting was held at 9 a.m., the Reeve and a full Board being present.

A total sum of \$765.00 is claimed by Mr McAlpine for damage to his residential property at the corner of Beach Avenue and Fourteenth Street, alleged to result from a defective water pipe along the latter thoroughfare. The necessary notice of dispute repudiating the claim, and announcing the intention of the Council to contest the suit, will be forwarded forthwith. By a resolution put through, Mr A. O. Cochran, of the legal firm of Billings & Cochran, Vernon, was entrusted with the conduct of the Council's case. The Reeve was given the power to authorize a trip to Vernon of someone to confer with Mr Cochran on the case, if this is necessary. The case will be tried in Summerland in due course.

With this important item of business placed on its proper course, the Council turned its attention for a short time to matters of lesser import.

A letter from Engineer Latimer was received and read, and from it was gathered that there is a possibility he may not be able to place his services at the disposal of the Council in the immediate future, to do the work on the south main that is necessary, in the way of preparing specifications and plans, to enable the work of putting that ditch into proper condition to be proceeded with. The Clerk is to write Mr Latimer and ascertain if he can do the work about the close of the irrigation season, the 15th inst. If he is not able to, another engineer will be employed. John Stewart waited on the Council to complain of the flooding of

the cellar under his house lately from a leaky flume. About two feet of water had found its way in and caused the concrete walls to cave in. Coun. Johnston pointed out in this connection how the flumes seemed liable to leak more than usual at this time of year, there being little sediment in the water coming from the creeks, and what sediment was in the joints of the flumes was getting washed out. The Board of Works was to go to the spot and look into the matter immediately.

W. J. Beattie was also before the Council with a vigorous complaint of irrigation water shortage in his section of Siwash Flat. He claimed that every year his district was promised relief, but what was done did not amount to anything. He also thought that what water there was available was not distributed as evenly as it might be. The Reeve and Council were unanimous in the opinion that improvements needed to be effected in that district. Mr Beattie's complaint provoked a general discussion on the subject, and the Clerk made the suggestion that if it were possible the old Dunsdon dam should be replaced, to allow the storage of more water on Eneas Creek. Coun. Johnston was of the opinion that if the money could possibly be found, improvements should certainly be carried out; while Coun. Simpson suggested that there might be some men in that section who would contribute labor, or possibly cash, to be applied on future taxes, enabling what work was needed to be done. Mr Beattie was sure there would be many men who would work on such terms. Finally the complaint was left with Coun. Johnston, to be adjusted if possible between the superintendent and the ditchman.

On the recommendation of its chairman, the Board of Works was authorized to get estimates of the cost of the renewal of a considerable length of fluming in that vicinity.

The Council adjourned shortly before 10 o'clock, when the tax sale was to take place. The next meeting will be the regular monthly session on Monday, September 13th.

Fruit Shippers Should Note This

Fruit Package Must Show Variety And Grade Of Contents. Also Name & Address Of Packer.

Dominion Fruit Inspector Boies called on the Review this week, to ask this paper to make clear some provisions of the "Fruit Inspection and Sale Act" that are not being complied with by some local fruit shippers. Small express shippers, he says, are the worst offenders with their peaches. It may not be generally known just what is required of the packer and shipper.

Section 320 of the Act requires that the person who owns the fruit when it is packed in closed barrels or boxes must mark plainly on each package:—

1. His name and post office address, preceded by the words "Packed by".

2. The name of the variety of the fruit.

3. The grade of the fruit, whether it is "Fancy," "No. 1," "No. 2," or "No. 3."

If he marks the package "Fancy," the fruit must be practically perfect, as described in section 321 (b) (i).

On reading subsections (b) (i) carefully, it will be seen that the packer should aim in packing grade No. 1 to discard every injured or defective fruit, and not to deliberately include ten per cent. of inferior specimens. This margin is meant to make the work of grading easier and more rapid than if absolute perfection were exacted. Ten per cent. is presumed to be the margin within which an honest packer can do rapid work, using every endeavor to make each specimen conform to the general standard for the grade.

Even the twenty per cent. margin in grade No. 2 must be composed of specimens not less than nearly medium size, including no culls.

The Act makes no restriction to the quality of the fruit which is marked "No. 3."

The Packer is responsible if the face of each package of fruit which is marked "No. 3" does not represent the contents as required by section 321, subsection (c). Offending is an offence against the Act, which is most severely dealt with by the courts.

BIRTHS.

McNAUGHTON—At the Summerland Hospital, on Wednesday, September 1st, to Rev. and Mrs. N. McNaughton, a son.

WESTWOOD—To Mr and Mrs Robert J. Westwood, on Friday, August 27th, at the Summerland Hospital, a son.

The Patriotic Fund.

We have been asked by a correspondent who signs herself "A Soldier's Wife," to make a statement regarding the benefits which the Patriotic Funds in different parts of the country undertake to pay out to the dependents of enlisted soldiers. To quote her letter in part:

"I have seen it stated in the Province that the Fund pays each adult dependent \$17.50, and \$3 a month for each child, but on making enquiries here I've been told that the Fund will not give it each month, only in special cases, and then only if one can get two of the committee to sign a statement. It is rather perplexing, and several others would like to know exactly how one stands."

In conversation with members of the local Patriotic Fund Committee, the Review has not been able to learn much more than the enquirer states in her letter. It seems that in the past, especially in the cities, aid from the Patriotic Funds has been dispensed on a scale larger than the income now warrants. For this reason it has been found necessary to cut down existing allowances in some cases, and to look into all applications more thoroughly than was done in the past. This may seem to work hardship in some cases, but it can readily be seen that strict investigation is necessary into applications to prevent ab-

Will Finish New Line In November

Hope-Coquihalla Section Of The Kettle Valley Railway Nearing Completion.

Construction on the Hope-Coquihalla section of the Kettle Valley Railway is now approaching the final stages. The line is expected to be completed by the middle of November, according to the latest reports. Track is being laid, and the system of snowsheds designed to protect the tracks is almost finished.

The completion of the Kettle Valley Railway from Hope to Coquihalla Summit will open up a new route to the Coast for both the C.P.R. and the G.N.R. At present a service is being operated by the K.V.R. in conjunction with the C.P.R. from Midway, via Merritt and the Nicola Valley branch, to Spence's Bridge. Under the terms of a joint agreement between the Kettle Valley and the Great Northern the Coquihalla portion of the new Hope Mountain route will be used by the latter road as well. At Hope the G.N.R. will link up with the Canadian Northern Pacific Railway, and over that company's lines run into Vancouver. The completion of the line will furnish the G.N.R. with a direct route through the Boundary, Similkameen districts, and the Interior, to Vancouver.

The Kettle Valley Railway will join the C.P.R. main line near the station of Hope, on the north side of the Fraser River. A bridge has been built across the river and connecting tracks have been laid in readiness for the inauguration of service when the Hope-Coquihalla section has been finished. The Okanagan Valley and the districts served by the K.V. will be afforded direct transportation facilities to the Coast, the distance being materially reduced by the new route.

The section of the Hope Mountain route between Coalmont and Otter Summit, built and operated by the G.N.R., is used by the K.V.R. in accordance with a traffic agreement similar to that which will obtain over the Hope-Coquihalla portion of the line.

Prin. Everton Gets Leave of Absence.

Will Spend Winter At Chicago University.

Principal S. Everton of the College returned last Friday evening from a trip that covered various points of the province, and he left again this morning on his way out to the Coast, with several stops at points between. During his week here, Mr Everton has been busy working in College interests, attending several Board of Management meetings, and also visiting Kelowna and Penticton. Mr Everton, with Mrs Everton and family, will proceed east to Chicago about the middle of September, and it is Mr Everton's intention to pursue post-graduate studies at the great university there.

In the meantime the College Board have declined to accept Principal Everton's resignation, preferring to give him a temporary leave of absence. The Board are hoping that there will be some way of overcoming their present financial troubles, and that the College will not be closed for more than a year.

An Ottawa dispatch dated last Friday says that the Canadian Pacific Railway Company seeks the approval of the Railway Board and the Privy Council of a lease of the lines of the Shuswap and Okanagan Railway, which is the stretch running down from Slenamus Junction to Okanagan Landing.

Use of public generosity. The members of the committee spoken to thought that \$20 per month was the allowance made to soldiers' wives, but the figure stated in the Province maybe the result of retrenchment that has been found necessary.

Fuller information could probably be had from the provincial Patriotic Fund headquarters at Victoria.

Tax Sale on Tuesday Elicits Seven Bids

Much Land Passes To Municipality.

There were possibly a dozen in attendance at the Council Chamber at 10 a.m. on Tuesday morning, when Collector F. J. Nixon commenced the sale of lands by public auction, on which rates and taxes have become delinquent. He read first the statutory declaration of the sale as advertised, and afterwards the conditions of the sale. Replying to a question, he said the Council had no power to prevent bidding on property belonging to men now on war service, but if no bids were offered, such properties would pass into the hands of the Municipality along with any other lots which likewise called for no bids.

A number of properties advertised were not offered for sale, having been redeemed in the meantime. The seven bids made during the course of the sale were not for large amounts, the highest being \$83.39, this being the amount owing on the College Gymnasium property. W. C. Kelley bid this in. W. J. Gibbons made "upset" price bids on four small lots in District Lots 454 and 673, amounting in all to \$13.50. A. B. Williams offered the outstanding amount of \$30.19 on lots 2 and 3, Block 5, D. L. 455, and C. Napier Higgin with the remaining bidder with \$25.26 on D. Clark's Balcom property, the portion above the ditch.

The purchasers were allowed till 6 o'clock on the same day to make their payments, and the sale was adjourned till the following morning, when any lands on which the payments offered had not been made good would be put up for sale again.

Without making an accurate total, the amounts due on the lands which were sold to the Municipality of Summerland, as the Collector's announcement went, must have figured up into a very considerable sum, and it is clear that the assessments would amount to many thousands of dollars. While the rates and taxes on these lands are ultimately recovered, it means of course that the levies on them are not available for immediate or current purposes. The percentage of such delinquencies in this district, however, is not alarming when compared with other parts.

For those who found the heat of last week-end unusually oppressive, with the added discomfort of so much smoke in the air, there should have been cooling thought in the knowledge that just about the same time there were frosts in different parts of the prairies. Points in Manitoba and Saskatchewan had as much as three, four and five degrees of frost recorded, with formations of ice three-quarters of an inch thick.

"Tag Day" Wholly A Success.

Citizens Continue Liberal Support To Cause Of Empire.

One hundred and sixty-eight dollars has been forwarded from here as a contribution in aid of the 5th General Hospital, C.E.F. to be established "somewhere in France" for the purpose of caring for our wounded soldiers. This sum is the result of the Tag Day held last Saturday by the ladies of the Ambulance League, with which result the ladies are well pleased. Booths were set up early in the morning at a number of convenient points throughout the district, and these were augmented by autos which called at homes in the outlying sections as well as by some good work done by Boy Scouts. The ladies of the Naramata Branch also did good work. The amount collected by them, \$15.77, was sent to the Summerland branch, and is included in the above amount sent out early in the week. The movement to gather funds here was a part of the province-wide effort to collect sufficient cash to equip with the most modern appliances for the alleviation of suffering in the base hospital to be opened soon on the continent.

Members of the Ambulance League are specially asked to take notice that the next meeting for Red Cross work will be held in the Men's Club, Thursday afternoon next, September 9th, at 2:30 p.m., when bundles of old linen will be most acceptable.

Prohibition By 1917 Or Earlier If Legally Possible.

Committee Of One Hundred To Organize Campaign.

Principal Everton Tells Of Big Convention Of Business Men.

Principal S. Everton, Summerland's delegate to the big business men's prohibition convention last week at Vancouver, reported the proceedings of the convention at a gathering held on Wednesday evening in Parkdale Baptist Church.

Reviewing the steps which led up to this convention, and of the discussions for prohibition by the provinces of Manitoba, Saskatchewan and Alberta to the east, and the State of Washington to the south, Mr Everton showed that the psychological moment for B.C. to clean up had arrived. All Canada has eyes on B.C., hoping she will take her stand beside her sister provinces against the curse of alcohol. Quoting some of the convention speakers he declared Canada is to be known as the land of the Fair Deal. The liquor traffic has been an economic blunder, a social wrong and moral disaster. With B.C. in line all Canada may decide to bring about prohibition.

It was the unanimous decision of the convention that a demand be made of the provincial government that a bill similar to the Alberta measure for prohibiting the liquor traffic be submitted to the electors, the same if approved, to go into effect not later than January 1, 1917.

A strong organization of business men, headed by Jonathan Rogers,

President of the Vancouver Board of Trade was authorized to form a committee of 100 men to organize a campaign for prohibition, \$2,500 to start a fund was subscribed at the convention.

The request of the convention was that the plebiscite be taken quite apart from any political questions and the campaign will be quite distinct from party politics. As an instance of this, both Mr Jones and Mr Rogers, opposing aspirants for the representation of the South Okanagan, are active in this movement.

Much is looked for from the press to further the movement. The chairman of the convention was John Nelson, the proprietor-editor of the Vancouver World.

The provincial government has granted the request that a plebiscite on this question be taken.

For a town of less than 400 souls to raise within a few weeks the sum of \$2,500 for patriotic purposes is surely an unique record, and one which might be interpreted to give the impression that conditions there are "good." The town of Hedley, B.C., including the staff of the Nickel Plate Mine, lately raised \$3,000 for machine guns, and \$500 for the use of the joint Red Cross and St John Ambulance Societies.

Is This Another Effort To Obtain Monopoly?

Okanagan Telephone Company Cutting Toll Rates.

Value Of Government System Again Demonstrated.

The value of the people's telephone line to the Okanagan Valley has been again effectively demonstrated. By the maintaining of the trunk line through the Valley thousands of dollars have been saved and will continue to be saved to telephone users. The history of the Okanagan Telephone Company and of their attempt to get a monopoly of the business of the Valley, as well as their efforts to increase rates are too well-known to require reviewing. Failing to cost the people's trunk line and hoping to be able to get the business that was being done by the Government Telephone Service, because of their holding all the local exchanges in the Valley except in Summerland, the company built its own trunk line and refused its subscribers connection with the government system.

The people, however, have, as a rule, remained loyal to their own system, with the result the government service is still doing business in spite of the efforts of the Okanagan Telephone Company. Now the company announces a new move, which announcement is a tacit admission of defeat as well as a further effort to corral all the toll line business of the Valley. This announcement is that beginning with September 1st a flat rate of twenty-five cents for connections between any two points on the company's system will prevail for con-

versation not extending over three minutes. The former prices were as high as 95c. The Government Service rates are 10c. per minute with a minimum charge of 20c.

If this new move is made for the purpose of "scaring" the management of the government service or discouraging the continuance of the service the company is sure to meet with disappointment for even if the public patronized the company almost exclusively the maintaining of the other system would be well worth while as a guarantee against excessive rates.

Manager Jackson At The Coast.

Mr F. T. Jackson, Manager of the Okanagan United Growers, has lately been making a tour of the Coast cities, in the interests of that organization. He stated that the growers of the Okanagan Valley expect to get fairly good prices for their fruit this year. All the packing houses in the Valley are working to their full capacity at present, and are shipping many cars of fruit daily. The Okanagan United Growers, Limited, which is the selling agency for the nine local unions, will this year ship more than 1,200 cars of fruit, vegetables and grains, he said.

FRIDAY, SEPTEMBER 3, 1915.

WANTED—AN ISSUER OF LICENSES.

THE HUNTING SEASON has opened, and there is no one in Summerland invested with the necessary power to issue gun licenses to hunters. The mildest thing that can be said about this state of affairs is that it constitutes a rank injustice to the district. The value of the licenses issued locally is probably between five and six hundred dollars annually, and to have no one at this point empowered to do this volume of business for the government is a reproach to the place and a grave lapse on the part of the Chief Game Warden's office and the Attorney-General's department.

Two reasons might account for the peculiar situation. One, that the appointment in Penticton was made with the idea that the territory in this district could also be adequately served from the neighboring town. This is not so, it being unreasonable to expect local hunters to go to the inconvenience of a special trip to that town, or to obtain the license they need by proxy. Another reason suggested is that in such matters the Provincial Government is in the habit of making such appointments on the recommendation or at the request of any local body that has the interest to take such matters up. This may not have been done here, and so the matter may be resting till such representation is made to Victoria.

However that may be, it should not be allowed to continue that Summerland is without an issuer of hunters licenses, and the sooner such an appointment is made the more use it will be, and the more fully will the needs of the district be met.

LEARN TO SWIM.

THE LAW does not require anyone to learn to swim, neither does it force people who are swimmers to risk their lives on the water. But as long as there are rivers, lakes and seas on this earth, people will continue to avail themselves of the pleasures they offer. Therefore common sense requires that every man, woman and child who goes on the water or who ever expect to go on the water, should learn the art of swimming at least to a degree where they could, in a case of necessity, keep themselves afloat for a short period, says an exchange.

Inability to swim is suicidal in many cases; sometimes it is even murderous. What of the man, who, being unable to swim, grabs hold of a swimmer and drags him down to a watery grave? Did not the inability of the first man to swim result in the murder of the swimmer?

But, leaving out of consideration every law but the first law of nature, does not the desire for self-preservation demand of everyone the ability to swim? It does unless one is sure that he will never get near

enough to deep water to make swimming necessary to save his life. Even then he may fall into a well.

If people would only learn at least to keep themselves afloat in the water for a few minutes, thousands upon thousands of lives would be saved every year.

THE AVERAGE CITIZEN.

THE COMMUNITY is as progressive as its average citizen—no more and no less.

Every individual is reckoned with in arriving at the average. No one is exempt.

You are responsible for the spirit of your community. You are, whether you know it or not. You cannot place yourself outside of the calculation.

You either stand above or below the average I don't know which. I do know that where you stand affects the average. If below, you are a community liability; if above, a community asset.

In one case you are pulling down, retarding the advancement and progress of the community. In the other you are pulling up and promoting advancement and progress.

The surest way to improve your community is to improve yourself!—The Citizen.

THE PLACE that gives a man his living is entitled to his best efforts to advance everything calculated to benefit the place and the community. No man has a right to live in any community who seeks to enrich himself and not actively identify himself with its interests. To be classed as a drone or chronic kicker, and opposed to every measure believed to be for the good of the citizens is a stigma that should attach itself to no man in the district.

WE TEACH CHILDREN grammar that they may know how to speak correctly; arithmetic that they may know how to calculate correctly in their business transactions; but more important to them than either is a knowledge of the laws of life and health, that they may know how to avoid disease, and eat, drink, sleep, bathe, breathe—in short to live correctly. This knowledge does not come by instinct any more than a knowledge of grammar does.

Will Allow Sale Of Venison For Six Weeks.

The recent order-in-council which allows the sale of venison throughout British Columbia for the six weeks from September 1 till October 15, is said by the Game Warden to have been inaugurated this year as part of the government policy of helping settlers and others living in the country districts.

This year it is pointed out, not only are the deer more numerous, but the number of men applying for licenses is much less than usual. Hundreds of the men who usually go hunting deer in British Columbia are now hunting Germans in Flanders. The question was considered by the government whether to prohibit the entire sale all over the province, but the view was taken that as there are many men short of money this year, the sale of venison for six weeks all over the province would enable many of these to pick up a few dollars.

LOCALS.

Mrs Newick of Hazelton, arrived on the "Sicamous" on Thursday, on a visit with her sister, Mrs R. W. Lee.

Mr Langlands of Calgary, a brother of Mrs Lee, is visiting at the parsonage, having reached here on Thursday evening.

Save time and postage by having the newspaper office mail your absent friend a copy of the Review regularly. For a short time subscriptions of this nature will be taken from local subscribers at half regular price, viz., \$1 per year.

Have you a soldier friend whom you would like to keep informed on home news? If so the Review will be glad to help you, and in order to do so has decided to forward a copy weekly to the address of friends of subscribers at half price, or practically what it would cost a subscriber to wrap and mail his copy after reading it. Come in and leave the present address of your relative or friend, and thus do him a good turn.

A friend at our elbow suggests the best way to head off the mail order houses is for the local merchants to advertise liberally and get the trade themselves. It does look reasonable. All of the successful mail order houses are heavy advertisers, and if they can make it pay why not the local merchant?

Wherein does the fruit inspector resemble the schoolboy preparing to go fishing? Both are looking for worms.

What the harvest shall be will depend mainly on what we plant and sow.

TO AN ANXIOUS SUBSCRIBER.

Mark Twain said: "When I was editing the Virginia City Enterprise, writing copy one day and minding the next, a superstitious subscriber once wrote and said he had found a spider in his paper. Was this good or bad luck? I replied to him in our "Answers to Correspondents" Column as follows: "Old Subscriber: The finding of a spider in your copy of the Enterprise was neither good luck nor bad. The spider was merely looking over our pages to find out what merchant was not advertising, so that it could spin its web across his door, and lead a free and undisturbed existence ever after."

Life is short—too short to get everything. Choose you must, and as you choose, choose only the best—in friends, in books, in recreation, in everything.

There is always some one to smile at, some one to give your chair to, some one to whom a book, a flower, or even an old paper will be a boon.

State your needs in 'THE REVIEW' 'WANT' Column.

JAM CANS

AT

COST PRICE.

I have now on sale a large supply of jam tins placed with me by the assignee of the Okanagan Jam Co., to be rushed off at cost. This is your opportunity. Stock up now for present and future needs.

2 lb. Tins - 3 cents each

5 lb. Tins - 5 cents each

Just the thing for shipping jam to the soldiers—or to any one.

Every Home in Canada should have A UNION JACK

There are not enough Union Jacks in Canada

In other countries on days of rejoicing or National Anniversaries flags are unfurled from almost every housetop or window. Canadians are just as loyal, but unfortunately they find themselves short of flags.

In almost every place in Canada there is a movement on foot now to see that the Old Flag is floating from every Canadian home. The newspapers have been asked to assist in the distribution.

The Review has agreed to undertake the distribution in this district, and our readers can secure a real good Union Jack, in fast colors, size 5 x 3, for only

== \$1.10 ==

At this price there is no reason why every home in the district should not have a Union Jack floating on all occasions in future.

LET THE OLD FLAG BE SEEN EVERYWHERE
Every Home in Canada Should Have A UNION JACK.

A 5 ft. by 3 ft. Union Jack, in guaranteed fast colors, for \$1.10. Now ready at

First C.N.R. Train Crosses Canada.
The first Canadian Northern Railway transcontinental train arrived in Vancouver last Friday morning, after making the run from Toronto via Winnipeg and Edmonton in a few hours less than five days. Sir William McKenzie, President of the C.N.R., personally piloted the first train through, and accompanying him were a number of prominent officials of the line.
This is a preliminary to the opening for traffic of a third transcontinental railway in Canada, a railway that will connect the capitals of all the provinces from Quebec to Victoria. This auspicious event synchronizes with the harvesting of the greatest grain crop ever grown in the region from which the new railway, as well as the other transcontinental lines, will draw traffic. Under normal conditions there would undoubtedly be great public enthusiasm over the opening of traffic of two such new railways in Canada within a twelvemonth.
It is expected that the announcement of a through train service from Quebec to Vancouver will be made very shortly.
With the construction of their main line practically completed, it is thought possible that the C.N.R. may turn their attention to the system of branch lines that have been planned, and in some cases actually started. The line from Kamloops to Vernon and on to Kelowna is one of these, and with the completion of this the people in the Okanagan will have the choice of three alternative routes from the Valley to the Coast.

The advertising merchant is the one who does the business in these days of push and enterprise. There are more newspaper readers to-day than ever before in the history of the world. The newspaper places your business under the eyes of the buyer. He sees what he wants, and knowing where to find it, looks up the wide-awake merchant who asked him to come and see him. Success in these days of sharp competition calls for eternal vigilance. You can't keep a hustler down.

Wanted
To trade a choice 10 ac. Lot for an Acre Lot near some town in the Valley.

Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.
PRUNE! SPRAY!! THIN!!!
Lake View Ranch,
Summerland, B.C.,
31st August, 1915.

The Editor,
Summerland Review.
Dear Sir,
I have read the urgent appeal from Inspector Cunningham, under the above heading in your issue of 27th August. Prune; Spray; Thin; and after the grower has carefully carried out this advice, at considerable expense, and probably working from dawn till dusk what does he get for his peaches? 1 1/2 cents, and if extremely lucky 2 cents, per lb. Better grow potatoes which require neither pruning, spraying, or thinning.
I do not wish in any way to depreciate Inspector Cunningham's advice, which I know is sound, but the point is, can the owner of an average peach orchard carry out this advice, and come out with a fair margin of profit on the sale of his fruit? I should be very glad if anyone can advise me on this point, and if profits on these lines can be made, instead of deficits, how the trick is done, for from my experience it means a heavy loss every year.

I am looking after five 10 acre lots, comprising about 45 acres, half planted with peaches, the other half chiefly apples, with some plums, pears, cherries, and apricots. Last year I shipped about 49,000 lbs. of fruit through our local union, for which I received a net amount of \$526.83, which works out at an average return of 1.075 cents per pound of fruit. The total general and water taxes on the above property amount yearly to \$445.80 without the discount, and if I reckon only 5 per cent. interest on capital invested, on the assessment value of \$300 per acre, this comes to \$755 per annum, making a total expense of \$1,200.80. Against this my only credit is \$526.83 and \$90.90 from the cannery, making a total of \$617.73; i.e., expenses \$1,200.80, return \$617.73, and then I have not even included one cent for working expenses, which it may be understood run into a considerable figure on 45 acres of orchards.

As regards the pests and diseases, against which Inspector Cunningham so urgently advises us to spray, I may say that I last year lost a considerable part of my peach crop through worms. This year the whole property was sprayed with lime-sulphur and arsenate of lead. The worms are not quite so numerous, but the loss is more than equalled through split stones and mildew, and I have more than half my peach crop on the ground again. There is in my opinion little use in spraying, when all the surrounding orchards, with one exception, namely that of Mr Simpson, have neither pruned, sprayed, or thinned, for the worms will always attack the healthiest trees. The only remedy for peach trees if neglected seems to pull them out, particularly on the neglected orchards, in order to stop the further spread of the many pests and diseases the peach tree is subject to. If the government would either help or compel those who have made up their mind to let their peach orchards go, to remove the trees, it might give the grower, who is prepared to fight this peach question to the finish, a chance. Under present conditions however, a properly looked after orchard, surrounded by neglected ones, does not stand a chance, and I for one do not intend spending any more money on spraying, until this matter is remedied.

As regards taxation I consider most of the properties in Summerland are altogether over-assessed. They are assessed on boom values, which unfortunately do not hold good any more now. I represent a lot up on the cliff above the Fruit Union building (Lot 455 Block 27). It is rough, uneven ground, comprising nine-tenths of an acre, and is assessed at \$800! I am quite sure the owner would be only too glad to accept \$200 for this lot, and on what basis an assessment value of \$800 is placed on it, is beyond all comprehension.
The earning increment, which is the only correct one on which properties should be assessed, would certainly not make it worth \$800.
We are of course told that if the assessment values are reduced, the tax rate would have to be increased, which would of course serve no advantage.

Apple Yield Generally Is Light.
Unfavorable Conditions Tend To Reduce Crops.

A late report on the fruit crop issued by the Federal Department of Agriculture says:
While we have a feeling of perfect optimism regarding the fruit market prospects for 1915, yet we realize that conditions will not be normal and that certain features will have to be taken into consideration. The most important of these will be the quality of the fruit marketed. There has been a satisfactory demand for early fruits, but it has been a demand for high quality, and where fruit of low grade has been shipped the growers have, in practically all cases, been disappointed in the returns.
The most distinct feature in the apple situation is the change which has taken place in the Annapolis Valley since our last report was published. The May report from Nova Scotia indicated a crop approaching two million barrels, and even one month ago this report was sustained. Since then, however, the fruit has dropped heavily. This, in conjunction with unfavorable weather, the development of apple scab, and the ravages of the canker worm have so reduced the total crop that it is not now expected to greatly exceed one million barrels.

The Ontario crop is uniformly light, particularly in western Ontario, and on the later varieties. East of Toronto, conditions are fairly satisfactory, and it is particularly noticeable that the crop in this district, while not a heavy one, is reported to be generally clean and of good quality.
In British Columbia the yield will be somewhat less than last year, with a considerable quantity of No. 3 fruit, on account of apple scab and aphid in the Okanagan Valley.

Relowna's Crops Are Good.
Mr J. W. Jones, Mayor of Kelowna, and Conservative nominee for the next Provincial election in the riding of South Okanagan, while recently at the Coast, conferred with the provincial ministers in respect to some matters affecting the interests of this constituency.

Mr Jones gave out the statement that Kelowna district has enjoyed this year an abundant fruit crop, the yield of apples, prunes and pears promising to be very large. Outside of the agricultural and horticultural activity, conditions in the district are quiet in common with the rest of the province.
Mr Jones was sent down from Kelowna as a delegate to the prohibition convention at Vancouver.

Some people never hand in an item of news for publication, but if we happen to miss an item in which they are interested they are sure to hand us a north pole stare that would freeze the liver of a polar bear.

The whole matter seems to me a most complicated one of vital importance to Summerland, and the only possible solution that might relieve the situation would be a combination of two things, namely, a rigorous retrenchment of all municipal expenditures to relieve the heavy taxation, combined with better prices for produce through closer co-operation. We have only to look at the long list of properties up for tax sale to see how impossible people find it to pay their taxes, and this is chiefly on what may be termed agricultural property, which should produce sufficiently to enable the owner to pay his taxes. Out of well over 100 properties up for tax sale all but about half a dozen have fallen back on the municipality. All this property, I presume, will be a white elephant to the municipality, without returning any tax revenue, unless they manage to sell it, and in order to meet the amount that is doomed necessary to meet municipal expenses, I suppose the remainder of the Summerland property owners will have their taxes increased accordingly. The result will probably be, unless some satisfactory solution is found, that next year there will be a further long list of properties up for tax sale, and finally a complete retrenchment of municipal expenditures will become imperative, to avoid a municipal bankruptcy, if it is not then already too late. Would it not be better to retrench in time to save such a catastrophe?

Yours truly,
P. G. KOOP.

A Clubbing Service
FOR
Review Subscribers.

Desiring to be of as much service as possible to our subscribers, we have, at a good deal of trouble, arranged with a large number of publishers to obtain their publications for Review Subscribers at lowest possible prices. Herewith is a very full list from which selections may be made.

Make your choices, then call, 'phone or write us, and special price will be quoted.

Transpiring in South Okanagan's Newest Town

Interest In Water Petition.

A citizens' meeting was held at Syndica House on Tuesday afternoon from five to six to complete final arrangements for forwarding the petition to the Water Rights branch of Public Works Department at Victoria. It was found necessary to have a standing committee appointed by the citizens to take the place of the ther existing committee consisting of Messrs Cash, Pushman, and Boothe, appointed over a year ago by the Farmers' Institute.

The new committee elected consists of Messrs Geo. Wolstencroft, E. H. Hancock, S. B. Cash, T. H. Boothe, and J. H. Pushman. The meeting was attended by a representative gathering of citizens, indicating the really live interest that is being taken in the proposal to take over the running of the water and electric light systems.

Mr Norrington, District Engineer, from Penticton, was present, and assisted materially in the furthering of the project. T. H. Boothe acted as chairman, and J. H. Pushman as secretary.

It is understood that the Naramata School Board are having anything but a flowery road to travel as a result it is said of delinquent tax payers—or non-payers. The Department of Education points out that the district is considerably in arrears at the treasury department because of arrears in taxes. If this is so, it is a serious state of affairs indeed, and would appear to indicate that there is something weak or lax in any collection department which would allow any considerable portion of the ratepayers to neglect or refuse to pay their just dues.

There are too many poor cream separators in this country. Let a pan of skim milk stand over night and see the cream on it in the morning.

'ROUGH ON RATS' clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only; but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Current Events — OF — Town & District

Mr J. A. Noyes has recently passed his examination as captain.

Mrs Willans went out on Thursday morning en route to her home in London, England.

Mr H. K. Bowes of Ottawa has decided to remove his furniture to Toronto where he purposes going into business.

Rev. R. M. Thompson of Penticton, the regular pastor of the local church, was back in the pulpit again last Sunday after three weeks' holiday.

Mr and Mrs C. C. Atkins went out on the K.V.R. en route east as far as Toronto. From this point their trip, which will extend over a couple of months, will include a visit of some length in New York, Boston and Ottawa.

A number of hunting parties got busy on Wednesday, September 1st, and woe betide the unlucky deer that stumble across their paths. Messrs Bruce and Hayman; Messrs J. H. Rounds and Guy Brock, are amongst these earlier hunting parties.

Mr and Mrs J. M. Robinson and family have established a summer camp back east of town on what has been popularly known as the McKay pre-emption, but which has since been bought by Mr John Firstbrooke of Toronto and Dr W. L. Robinson. The spot selected is in the vicinity of Mill Creek.

The secretary of the local branch of the Red Cross Society, Miss Gwen Robinson, reports that the sum of \$15.77 was collected here on Tag Day, Saturday August 28th. The chief collectors were Misses Ina Ireland, Kathleen Mulford, Margaret Mitchell, and Dorothy Robinson.

The Unity Club ladies held their regular meeting last Friday afternoon. The ladies turned out in good numbers and showed by their enthusiasm that a reversion to the bi-monthly meetings will soon be resumed. Mrs F. H. Rounds and her daughter-in-law, Mrs J. H. Rounds, were the hostesses for the occasion.

Mrs E. B. Reesor and Mrs H. P. Davies have been selected as delegates to attend the Women's Institute Convention at Salmon Arm next week. Mrs Reesor, who is a member of the Summerland Institute, is being sent by the women of that town in place of Mrs Hayes, who found it impossible to attend. Mrs Davies is going in place of Mrs Atkins, who has been unable to keep the engagement, having gone on an extended trip east. On her return from Salmon Arm, Mrs Davies has been asked by the Kelowna ladies to stay off for a day and give them a demonstration on the doing up of different lines of pickles.

H. J. Dinnett of Vancouver, representing the Mainland Fire Underwriters' surveyor, spent Tuesday in Naramata, when he completed the long promised survey of the town. The survey—so called—was made with a view of having on file at the central office certain data as regards the location and general structure of the main buildings in the central part of the town; as well as a record of the special preparations on hand and in readiness for fire fighting. In regard to the possibility of any reduction in the rates, on account of the present meagre fire fighting apparatus, Mr Dinnett gave it as his opinion that there was no immediate prospect of such.

Naramata Current Events (Continued).

The packing house was busy this week on a heavy shipment of musk melons.

Frank Hughes has accepted a position in the printing office of the Penticton Herald.

Are your taxes paid? That is the question just now. Just now there is a very great necessity that all arrears should be turned in to the treasury department at Vernon.

The cool weather of the last few days has been a great relief to the people of the Valley, after so long a spell of particularly hot and close conditions.

Stewart Allen assumed charge of the Scouts on Tuesday evening, in the absence of assistant Scoutmaster Frank Hughes, and it is not unlikely that Stewart will be formally offered the position.

Miss Edna Noyes and Miss Vera Roe have accepted temporary positions in King's store, Penticton, during the progress of the special sale being at this time inaugurated.

On Wednesday the town was all but deserted. It would appear that all the men who paid their gun licenses had gone a hunting the deer, while all the women who could get away in time went to Penticton, hunting the cheap bargains.

A cannery? Not yet you say, but soon. How soon? Owing to the dissatisfaction expressed by several of our local shippers of fruit to canneries situated in other towns, it is not at all improbable that a canning plant may be run here locally in the near future.

Mrs Dean Walters, with her three children left on Thursday morning's boat en route to Atascadero, California, where she goes to join her husband. Mrs Walters will be missed very keenly in musical circles especially, and in social circles in general, where she has filled a prominent part ever since coming to town some five years ago.

54th Soon Going To England.

Announcement was made this week at Ottawa by the Acting Minister of Militia, that twelve complete battalions are about to be sent over to England. The battalions selected from the various military districts are those, as a rule, whose recruiting was started earliest.

In British Columbia the 54th Kootenay Battalion, formerly commanded by Col. Malhoun Davies, has been selected. In the Vernon camp, it is thought that the battalion will move out about the end of this month.

The official announcement states that "with a view to providing an uninterrupted supply of reinforcements, it has been decided to increase by twelve the number of battalions now serving in England in infantry depots."

It is expected that on the return of Sir Sam Hughes, the number of men under arms will be increased by recruiting another 50,000.

Spraying Don'ts For Fruit Growers.

Don't think a week earlier or later than the date recommended is just as good.

Don't think that spraying alone will insure good fruit; pruning and cultivation are equally important.

Don't apply Bordeaux mixture in wet weather, for it is liable to rust the fruit.

Don't overspray. An even coating should be left on the fruit and foliage, any material which runs off does no good.

Don't expect results if the work is not thoroughly done.

Don't apply lime-sulphur and arsenate of lead in a spell of extremely hot, bright weather, for it is liable to cause serious burning.

Don't try to get along with a machine which is worn out or too small to do good work; if the work is worth doing, it is worth doing well.

Don't fail to clean the machine thoroughly after each spraying; it saves much trouble when the time comes for the next application.

It takes very little brains and much less poity to constitute a first class grumbler.

MONTH OF THE STOMACH ACHE.

This being pre-eminently the month of the stomach, it behoves us all to beware.

Beware drinking iced water when overheated.

Beware of eating unripe fruit.

Beware omitting the bed covering at night, for while Old Sol is pretty energetic at mid-day you have no license to suppose that the wee hours of the morning may not any day show up with a drop too much.

Beware of an excess of alcohol; and, if in doubt as to what constitutes excess, better lean toward the side of safety and cut it out.

Beware of excesses of all kinds; beware of an excess of grumbling about the weather, beware of the thermometer, beware of the fellow who disturbs your serenity by asking you how you manage to stand it.

Be moderate, temperate, good humored, philosophical; in short, be happy, in which event you won't have any need to know that this is the month of the stomach ache.

The farming business is now coming to a point where it is generally recognized as the most prosperous business going, offering the best future and the brightest prospects. That being so there will be no trouble about keeping the boy on the farm for he will be keen to see that it is the best place to make money, gain the respect of his fellow-men, and obtain that standing among men, which is the ambition of every right-minded boy. It is to gain these things that he has heretofore gone to the city; it is to gain these things that he will hereafter stay on the farm, and that will send the youths of the cities to join him.

The merchants of Vernon, it has been stated, realize so well what the nearness of the military camp means to their city in cold dollars, that they have made an offer to the Militia Department to provide whatever wooden buildings there would be need of to convert the camp from a summer one into proper winter quarters, instead of removing entirely to the Coast.

An exchange remarks that the most powerful king is working; laziest, shir-king; the leanest, thin-king; the most thirsty, drin-king; the slyest, win-king; the best liked by all ladies, tal-king; the most humiliating, sin-king; the most scorn, span-king; the most necessary, ba-king; the most lovely, spar-king; the most optical, look-king; the most vibrating, sha-king; and the most despised, shen-king.

Ltut.-Col. Kirkpatrick, officer commanding the 11th C.M.R., encamped at Vernon, stated recently at the Coast that his unit has now been brought up to full strength.

Passing Events: Social, Personal, &c.

F. F. Hanington was a passenger outward bound to the Coast on Tuesday morning's boat.

The sad news of the death of her youngest sister, who resided in Massachusetts, was received last week by Mrs H. D. Bentley.

Mr and Mrs Thorne, of Stone-wall, Manitoba, arrived on Wednesday evening's boat, stopping off on a visit down the Valley. They are guests at Hotel Summerland during their stay here.

St Stephen's branch of the Women's Auxiliary met again last Wednesday afternoon after a vacation of two months. Meetings will be held in future every Wednesday at 2.30 in the Parish Hall.

Is there to be another alien internment camp established in the Okanagan, and no farther away from Summerland than across the lake, in the vicinity of Paradise Ranch? This has been stated in some quarters to be the case, but in view of the fact that there has been no announcement of the Vernon internment camp and the other camps in that vicinity having reached their capacity of inmates, the story cannot yet be accepted.

Having been duly accepted into the ranks of the Army Medical Corps, Keith Elliott went up the lake on Wednesday morning this week to take his place in camp at Vernon. It is camp talk that following the draft of Medicals that may leave this week, there will be still another batch go forward during the first few days of October. The Medicals are the only ones that move, is what the other units in camp enviously say to each other.

J. DOWNTON

announces that for the convenience of his customers,

A Delivery Service

throughout the district in connection with his meat store will be put into operation on and after

TUESDAY NEXT,

SEPTEMBER 7th,

by Mr L. C. Woodworth. Regular deliveries to every part of this district will be arranged for, and the best of service for all customers will then be possible.

STALLION—French Coach Stallion, weight 1,400 lbs., stands at barn. \$5 for season. Thos. B. Young.

Mr and Mrs Bloomfield are enjoying a visit from their son, who arrived a few days ago from Winnipeg.

Thos. B. Young is now the possessor of the five-passenger McLaughlin-Buick automobile lately owned by G. R. Hookham.

Visiting at the home of Mrs E. A. Jones, Beach Avenue, are her sister, Mrs C. J. Chapman, with son and daughter from Kamloops, and her mother, Mrs Cartwright.

Methodist services will be conducted in the Methodist Church on Sunday next at 10.30 a.m., and 7 p.m. by Rev R. W. Lee. A hearty invitation is extended to all.

Presbyterian services will be held in St Andrew's Church next Sunday, morning and evening, and in the Methodist Church at 3 p.m. Rev C. H. Daly will conduct all services.

Three little ones, children of Mr and Mrs A. McLachlan were operated on last Friday for adenoids. The operations were entirely successful and all three kiddies are making good recovery.

The Jap employee of the Summerland Lumber Co. has left the Hospital. His thumb, which was nearly severed by a saw a short time ago has been saved, but the use of one joint is lost.

W. J. Beattie made a business trip last week-end to Grand Forks, making the journey to that city over the K.V.R. last Saturday, and returning by Monday's train, reaching here again on Tuesday morning.

Several of our Italian citizens left this week for their homeland. They were all army reservists, and had received the call to come for service. Transportation was furnished by the Italian consul at Vancouver.

Snow Mountain is always the first to give warning of an approaching winter. Four or five weeks during the summer the mountain is bare of snow. Those who looked in that direction on Wednesday, September 1st were surprised to see the big dome covered in white. It has since been surrounded in mist.

Rev. R. W. Lee's Bible Class in the Methodist Sunday School were entertained by him on Monday evening this week to a launch ride. Two motor boats were put into service, and the party cruised down to Trout Creek where a landing was made and supper enjoyed by the cheery light of a bonfire. The outing was productive of a thoroughly merry time.

Will Angove, of the Army Medical Corps, Vernon, came down on Sunday evening for a short home furlough. It will be his last for some time, for he returned to camp on Tuesday morning with instructions to be ready the following day to entrain with about seventy of his Medical comrades for the east en route to England, where they expect to take training for some time.

The regular monthly meeting of the West Summerland Women's Institute will be held one week later this month than usual. The change in date is made because of the district meeting to be held at Salmon Arm, at which the Institute will be represented by Mrs Cartwright, Mrs Hilborn and Miss Spencer. At the postponed meeting to be held in St Stephen's Hall on Friday the 17th these ladies will report the work done at the district meeting.

The war will end on March 2nd, 1916. This was what the sealed envelope contained, deposited by A. J. Beer with the Review for safe keeping, in connection with the contest which has been running through the month of August at the Leather Store. Purchasers there were allowed one guess for every dollar spent, as to what date the war would end, the nearest to the date made out by the proprietor to receive a \$5 pair of shoes free. There were a good number of guesses submitted and two were found to be equally close to the pre-arranged date. Those prophesies were those of Mrs O. F. Zimmerman, March 1st, 1916, and Mrs Hawthorne, March 3rd, 1916. Mr Beer had fixed an hour on his date, and gave those two contestants another equal chance. The hour set was 4 p.m., and Mrs Zimmerman in guessing again at the hour of 2 p.m., beat by three hours Mrs Hawthorne, who fixed on 11 a.m. The former was therefore declared the winner of the contest.

Mr Wm. Hespeler arrived by the "Sicamous" on Thursday on a visit to his son.

Miss Lister, of the nursing staff of the Jubilee Hospital, Vernon, spent several days here last week with her family.

Mr H. Cascadden and family are moving down from the Sam Scott house to A. Seaman Hatfield's cottage on Beach Avenue.

Mr and Mrs R. V. Agur and child came down from Vernon on Thursday's boat. Mr Agur looks none the worse for his recent serious illness and operation.

Henry Brewer, a rancher of the Meadow Valley district, enlisted this week with Recruiting Officer Borton, and went up the lake to Vernon on Wednesday morning's boat.

The carload of horses sent to Calgary recently in charge of Mr William Ritchie by the assignee of the Woodworth estate, has brought good returns, fully justifying the venture.

Mr and Mrs Jos. Morsch and family of Naramata removed to this side of the lake last week-end, and are now residing in the Anderson house on the corner above the Telephone Company building.

L. Hatfield and Roy White expect to leave soon for the Vernon Camp. The former's position with Mr O. Vaughan will be filled by George Needham, of Peachland, who came down from that town last Tuesday.

"A Good Little Devil" was the alluring title of a moving picture show in Penticton on Monday night, which drew about fifty Summerlanders down to the neighboring town, the journey being made both by ferry and road.

Mrs T. E. Pares, who went up to Vernon a short time ago returned in but a few days owing to the illness of her mother, Mrs K. Bentley, who is suffering from an attack of typhoid. She is being cared for at Mrs Pares' home, and is making satisfactory progress.

After a camping holiday of about three weeks in the vicinity of Long Lake and Vernon, Mr and Mrs O. Atkins and family returned in their car on Monday, with Miss Edna English, who accompanied them. After a day here Mr and Mrs Atkins continued south with their car, this time accompanied by Mr and Mrs J. Rowley and Mrs P. Roe. Two days were spent in visiting the Similkameen.

Alex. McDonald, for years mate of the "Okanagan" and later the "Sicamous," is no longer seen directing the handling of cargo when the big boat is docked at the wharf. Few of those who have wondered what has become of him have thought to look skyward. The fact is he has received a deserving promotion, and is now the pilot and shares the work of navigating the ship with Captain Kirby.

Mr and Mrs L. C. Woodworth and family came in from Calgary on Friday evening last week, and are settling down in Summerland once more in Mr Woodworth's bungalow on College Hill, formerly occupied by J. R. Conway. It is understood to be Mr Woodworth's intention to operate again in the cattle line, and already he is seeking to make up a carload of horses to take to the prairies for disposal, intending to bring back a carload of cattle.

The Prize List of the Armstrong Fall Fair, held by the Armstrong and Spallumcheon Agricultural Society is to hand this week. The dates set are Tuesday and Wednesday, September 28th and 29th. Twelve divisions of exhibits are set forth, consisting of horses, cattle, swine, sheep, poultry, dairy produce, vegetables, field produce, fruit, floral and fine arts, fancy work, and household arts. To anyone interested, the secretary of the Fair, Mr Mat. Hassen, Armstrong, will forward a copy of the prize list on application. Entries close September 25th.

Our advertisers are your friends, and they want you to know it. They are trying to help you in buying the best material at the very lowest price. That is the way they advertise, and they are all honest and truthful men. By patronizing them you cannot lose, but our paper and our community will gain.

Miss Mary Hatt, who has been visiting for some weeks at Salmon Arm, returned on Tuesday.

Mrs R. W. Deans, whose husband is under canvas at Vernon, has decided to remove to the Coast, and is preparing to leave next week.

Mr R. F. Theed suffered an unusually severe illness early this week, the result of a wasp sting. It was found necessary to call in the doctor.

Mrs Chas. J. Thomson and daughter Miss Madge, started last Monday morning on the journey to Australia, where they will visit with relatives and friends.

Miss Jean MacLeod, who left here some weeks ago to visit her parents in Chilliwack, has decided not to return, but instead has entered the Normal School at Vancouver to train for teaching. Her position here with the Okanagan Telephone Company has been taken by her sister, Miss Edna MacLeod.

The party of ladies and children who were camping out on Bald Range have returned home. While up there, they held an ice cream social, to which they invited the few men camping in the vicinity. A collection was made in aid of the Ambulance League, and \$1.50 was taken, which the treasurer acknowledges with thanks.

WINDOW ENVELOPES

Our new prices make it practical to use these for all ordinary purposes in which envelopes are used.

WINDOW ENVELOPES have a glazed opening through which the address of the enclosed letter or bill shows, when folded. Their advantages are numerous, and some of them may be quoted:

1. Great saving of time and labor, all tedious copying of addresses from the account, ledger or letter to the envelope being done away with.
2. Total elimination of wrongly addressed envelopes. It is impossible to put a piece of mail in the wrong envelope.
3. As complete privacy as with the use of an ordinary envelope. Only the address shows through the window.
4. Very slight difference in cost, as compared with the average business envelope.

Our New Prices.

Some kinds of window envelopes are expensive, but we have obtained a supply of good quality direct from the Canadian makers at a reasonable price, and can quote you for neatly printed stock:

\$5 for 1,000; \$8.85 for 2,000; \$19.50 for 5,000

Newsy Paragraphs from PEACHLAND

After a visit of about two weeks to the Lumby district, Miss Ethel House has returned to town.

Returning from a trip east as far as Winnipeg, Mr A. Town and son arrived back last Friday evening.

Mr and Mrs W. J. Robinson were recent visitors in town from Summerland driving up and returning the same day.

George Needham went down to Summerland this week, where he takes a position with O. Vaughan driving his delivery rig.

L. D. McCall spent a day at the end of last week at Gellatly, inspecting the progress being made of the wharf work at that point.

Mrs Wm. Lupton and family have returned to Kelowna, and with them went Mrs Aitkins and child, on a visit that will last some time, it is expected.

H. Morrison is down from the Vernon camp for a few days' leave, and as far as can be judged from his healthy appearance, the military life certainly agrees with him.

Mr F. Fraser of Kelowna, was a visitor in town for a short while recently, in the interests of the Occidental Fruit Co., for which concern he was seeking to purchase fruit.

After a stay of some time in the Kelowna Hospital, Mrs Lang was able to return home on Tuesday of this week. She is not completely restored to health, but her friends are hoping that she will now make a rapid recovery.

Mr George Lang returned to Peachland last Sunday from Calgary. With him were Major Robey and his son, from the same city. The journey to Peachland was made by automobile, and in fairly easy stages, occupied about seven days.

Rev A. Henderson came in on Saturday night from Vancouver, where he attended the big prohibition convention. He reports a splendid and enthusiastic gathering there, and is very optimistic as to the outcome of the prohibition issue in this province.

Although this town has already contributed a large portion of its eligible young men for war service, the list of local recruits is by no means complete. Roy Davidson is said to be contemplating joining the ranks, and made a trip to Kelowna the end of last week to make inquiries.

Of the \$35 or thereabouts raised some time back at a lawn social held by Mesdames G. Lang and A.

Town, it has been decided that about \$10 shall be retained by the local Ambulance League to help in carrying on its work, while a donation of \$25 is to be made to the Red Cross Society.

Mrs George Phillips and family left this morning, Friday, on their way to Calgary to join her husband again after a stay here. On Wednesday of this week a number of her Peachland friends engineered an outing in her honor, and despite the fact that the weather was not as bright as it had been for a long time previously, a very enjoyable time was nevertheless spent at the Keyes' pre-emption, some way up Deep Creek.

Tag Day in Peachland, to aid in the outfitting of the field hospital which the province of British Columbia is donating to the militia authorities, brought in the sum of \$41.20. In view of the generous response which all patriotic demands on the purses of Peachland people have had, this result of last Saturday's efforts is considered satisfactory. The young ladies in charge of the day's operations took a good hold on their work, and seemed to cover the district very thoroughly.

Thanks to a scheme suggested in the Summerland Review not long since, a cow of good value belonging to Mrs Seaton, was lately rid of an attack of "bloating." The cow made her way in to a field of clover one night, and partook too freely of the rich green feed. Consequently the animal presented a very sorry appearance the following morning. Someone thought of the "chip cure" advocated in the Review for cases of the kind, and with some trouble a piece of wood was fastened in the cow's mouth. The remedy proved all that had ever been said for it, for in fifteen minutes the cow had rid herself of all the offending gas.

The last half dozen recruits who went from Peachland last week had a royal send-off by the people of the town. There was a big crowd of people at the wharf when the boat left and the boys were made to feel how highly their friends think of them for showing their patriotism in this practical way. There were cheers as the boat moved away, and even the siren of the "Sicamous" did its part, joining in with the demonstration. The evening before they left, the boys were made the guests of honor at a dinner and concert given by Mrs White at the Peachland Hotel. Flags played a prominent part in the decorations in the Hotel, and after a most enjoyable meal, a veritable banquet in truth, a program of toasts and songs, mostly of a patriotic nature, was gone through. Reeve M. N. Morrison made a splendid chairman for the function, while a hearty vote of thanks was given Mrs White for her pleasant entertainment.

KEEN DEMAND IN ENGLAND FOR CANADIAN APPLES.

Canadian trade commissioners in England report a big demand for Canadian apples because it is generally believed that large quantities will probably find their way to the troops in the several theatres of the war. As a result of this, they state that a severe stiffening of retail and wholesale prices is certain. Owing, however, to shipping difficulties and the shortage of vessels, the prospects of there being large Canadian imports are not bright. While some experts think that eighty million barrels will go over from Canada and the United States, others calculate on only half that amount reaching Britain.

It is said that dancing makes girls foot large. It is also said that ice cream makes freckles. Doctors are of the opinion that hanging on the front gate produces rheumatism. A few more opinions like these and the girls won't have any fun left them.

JUDICIOUS ADVERTISING

Creates many a new business;
Enlarges many an old business;
Preserves many a large business;
Revives many a dull business;
Rescues many a lost business;
Saves many a failing business;
Secures success in any business.

Many a man falls, not from lack of merit, but from lack of appreciation by his fellow men. Failure in life is loss of confidence in one's character. When you see a man faltering, take him by the hand and help him up; when you see him climbing, cheer him on, that he may reach the top and stand on the summit of success—providing you believe the man to be honest and not too much of a hog.

Advertising

Advertising is the education of the public as to who you are, where you are, and what you have to offer in the way of skill, talent or commodity. The only man who should not advertise is the man who has nothing to offer the world in the way of commodity or service.—Elbert Hubbard.

NO SUGAR

We have received the following Fruit Preserving Recipe from a reliable source, and reprint same for the benefit of those of our customers who may have decided to curtail the making of preserves this season on account of the high market price of sugar.

Our Motive

in publishing it, is to encourage bottling fruit, and suggesting that the money usually expended in sugar be used for what might be termed

Absolute Necessities.

Sugar will eventually have to be used in preparing the fruit for the table, but much less will be required to sweeten to taste.

Authorities all agree that fruit put up without sugar retains its delicate and distinctive flavor.

To put up fruits without sugar, simply prepare them in the ordinary way; see that the jars are perfectly clean, thoroughly scalded with boiling water, filled to the top and left in them a considerable time; boil the rubbers and covers, and see that the rubbers are soft and free from grooves or cracks, place the fruit in the jars, fill with cold water, place them in a boiler filled with cold water, heat to the boiling point. Berries will do if removed when the boiling point is reached. Large fruits, such as peaches, pears, plums, cherries, and the like should get 20 to 30 minutes boiling.

A board should be placed in the bottom of the boiler to keep the jars from the direct heat of the stove. Fruit thus prepared will be found excellent for pies, delicious for eating with cream, and generally superior to the sugar-syrup preserves. In properly air-tight jars they will also keep quite as long.

We carry in stock "Perfect Seal" and
"Economy" Jars.

The Summerland Supply Co., Ltd.

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 6. Whole No. 371.

SUMMERLAND, B.C., SEPTEMBER 10, 1915.

\$2.00, payable in advance.

Case of McAlpine versus Summerland on Next Week.

Judge Swanson Holds Court Tuesday. Jury Being Called.

The suit for damages entered by Thos. J. McAlpine against the Corporation of the District of Summerland will be tried next Tuesday morning before Judge Swanson. The plaintiff's claim is for \$675 alleged damages to property and the health of himself and family from the flooding of his cellar due, according to the charge made by the plaintiff to be a leaky water main on Fourteenth Street, adjoining his home.

The Court will sit in Elliott's Hall, opening at 10 a.m.

The case will be decided by a jury of five citizens, empaneled from a list of ten who are being summoned to-day by Provincial Constable McDonald.

The list as nearly as could be learned is made up as follows:— Wm. Atkinson; H. Bristow; R. Clouston; Jas. Doherty; Jas. Dundon; Geo. Gartrell; Wm. MacKay; H. Sutherland; C. J. Thomson; O. Vaughan.

The fixing of this case for so early a date has rather upset some of the plans of the councillors. The date set for the regular meeting of the Council was Monday next, Sept. 13, but it was thought best to have a meeting immediately the Clerk returns from his interview with the Council's solicitor at Vernon. Accordingly the session will be held to-morrow, Saturday, instead of Monday. The change of date has made it impossible for the two Councillors and Clerk to attend the Union of Municipalities' Convention at Chilliwack as had been arranged.

As one of the Municipal Council members in connection with the McAlpine case and may have a further hearing in the case. It is the privilege of the plaintiffs to subpoena and examine so that they may prepare their case for court. Mr Logie went up the lake this morning at the request of the Council's solicitor, Mr A. O. Cochran, Vernon. He expects to return this evening.

The great demand for cheese in the war zone has induced many butter factories in New Zealand to change to the manufacture of cheese. It is claimed that it takes 2 1/2 gallons of milk to produce a pound of butter, while one gallon of milk will produce a pound of cheese, and the former wholesales at 8 cents per pound and the latter at 18 cents per pound. One company has opened 22 cheese factories.

Dried loganberries from Oregon are becoming popular in New England. A Boston firm has sent an order for 20,000 pounds.

Example for British Columbia Orchardists.

W. P. Paulhamus, president of the Fruit Growers' Council of the American Northwest, reports the success of the new market guaranteeing plan in the maintenance of the prices of peaches. The guarantee credit of \$30,000, raised by the pledges of 111 responsible men who promised to give \$100 to buy all peaches offered at less than 25 cents a box, had an immediate effect, says Mr Paulhamus, and the price went up to 30 cents in two hours. It is estimated that the confidence stimulated by the guarantee sent out 350 cars of fruit that would have otherwise gone to waste in the Yakima Valley.

Who Owns The Aeroplane?

To mention aeroplane is to provoke an incredulous smile. There have been so many aeroplane stories, some of them, at least, seemingly so impossible that little attention has been paid to them. This time the story seems to be sufficiently authentic to receive credence.

At midnight on Thursday of last week an aeroplane was seen over the lake directly in front of Summerland, and not only seen, but the unmistakable voice of its motor was recognized by one familiar with the peculiar sound of such motors.

At ten after twelve last Friday morning, as Mr Wright, of the Dominion Express Company, had just completed his work and was taking his papers across to the C.P.R. office, he heard a peculiar sound which at once arrested his attention. Thinking it was something in the freight shed, he started to investigate, but soon located the source when he unmistakably saw travelling almost directly towards him from across the lake, an aeroplane. It was not long before the firing machine had dropped

hidden in the shadow of the hills, but the sound of the motor was heard as it came nearer and nearer. Then it began to move northwards and just then the moon made its appearance over the mountains. Mr Wright went back to the Express Office platform where he had a good view over the C.P.R. office, and did not have long to wait before he again saw the air machine passing above the skyline in the depression of the hills east of Chute Creek. This time the extending tail of the machine, indicating its northern direction, was plainly seen. Continuing north it was again hidden in the shadow of the hills. Mr Wright, who has been here but a short time, did not know of the earlier aeroplane stories, but the sight of this one did not give him great surprise, as he inferred that it was a machine from the Vernon military camp.

The only other person of whom we have learned, that knew anything of the mysterious night flyer,

Calgary Visitors Will Not Give This District Go-By.

Prairie Trippers To Spend Most of Week in the Valley.

Both Peachland and Summerland are to be included in the itinerary of the trip of the Calgary business men, who are to visit the Okanagan in early October. In a recent outline of how the week was to be spent by these men, these two important fruit districts, the pioneers in the soft fruit industry, were not mentioned, and naturally a protest was made by the Review. Mr Fee, who came directly from Calgary, says it is the intention of the Board of Trade representatives from his city to spend a day in Summerland and a day in Peachland.

While details have not been worked out, it is understood that the party will come west over the K.V.R., and after spending a day in the Pentiction district, will board a C.P.R. boat which will be at their service during their visits to Summerland, Peachland and Kelowna. One day each will be devoted also to Kelowna and Vernon. Mr Fee says that they are endeavoring to get about three hundred business men to make the trip, and he feels quite confident that at least close to one-half of that number will decide to make the visit.

Mrs Newhall, president of the Consumers' League, Calgary, a lady who has taken a very active part in the home products campaign, will probably be among the number.

The party leaves Calgary on Saturday, October 2nd, and according to the above plan will spend Monday in Pentiction, Tuesday in Summerland, Wednesday in Peachland, Thursday in Kelowna, and Friday at Vernon.

To Supply Cows On Easy Terms.

Perhaps one of the greatest needs of the district at the present moment is for more dairy cows, that sure standby of all real farming.

It might be getting nearer to first causes' though to say that the greatest need is for ready money to buy them with, for there are scores of farmers eager to add to their stock if they could only raise the money. This is unfortunate, for a good cow properly cared for does not take long to return her purchase price.

Several schemes have been mooted to relieve this state of things, but as yet none have sufficiently matured to bring practical results. It is therefore pleasing to learn that Mr Alan Wilson has so far interested himself in the matter as to form a small local company for the purpose of bringing in dairy cows to turn over to the farmer on the easy payment plan. Mr Wilson is leaving shortly for the East to gather the first carload.—Kelowna Record.

Extending Telephone System.

To encourage fruit and vegetable raising and to show a practical method of caring for over production and waste two canning "school" trains have been making their way over a considerable portion of Oregon, Washington and Idaho, under the joint auspices of the Oregon Agricultural College at Corvallis, The Southern Pacific, the Oregon and Washington Railroad and Navigation Company.

was C.P.R. Agent G. M. Ross, who, though he had retired and was sleeping, was awakened by the quick, sharp reports of the unmuffled motor, which at the time suggested to him the noise of a boy drawing a stick along a picket fence.

Is some modest inventor working out some supposed improvement for the flying machine, or have we a citizen of the Valley who resorts to midnight flights for recreation? Or, as some suggest, are we being visited by aviators from south of the international line?

Says Calgary Hungers For Our Peaches.

Mr S. J. Fee, manager of the Vernon Fruit Company, with headquarters at Calgary, was about the district for two or three days this week arriving here Monday evening. Mr Fee says that the Calgary market is hungry for peaches, and he was astonished on going over the district, to find tons and tons of peaches being left on the trees to mature and drop. Practically the only peaches that had been reaching Calgary had come from the American side. While here, Mr Fee arranged with A. H. Steven for a consignment of one carload of peaches, which went forward on Wednesday.

Mr Fee protests against the practice of the Okanagan United Growers in selling their output to one concern, namely, the Nash houses. He says that his and other firms should have an equal chance to buy Okanagan fruit.

New Prairie Markets Commissioner Takes Up Work.

W. E. McTaggart, the recently appointed British Columbia Fruit Markets Commissioner, with headquarters in Calgary, has gone to that city and has taken up his duties. He is succeeding J. Forsyth Smith, who has gone to England to stimulate the consumption of Canadian grains and fruits in the British Isles.

Mr McTaggart was for two years commercial editor of the Vancouver Daily Province, and has done considerable writing on the fruit industry of this province.

"The tour of the seventy-five or more Calgary and prairie business men, which is planned for October, and which will include the fertile Okanagan Valley as well as the Kootenays, will do much to increase the demand for our fruit," said the new official in an interview.

"The growers are already planning a number of arrangements for the visitors, and will show them all the scenic spots of the Valley. The apple crop will be being picked in October, and the prairie people will then see how apples are gathered, packed and shipped."

Mr McTaggart has his office at 322a Eighth Avenue West.

R. M. Winslow, the Provincial Horticulturist of the B.C. Department of Agriculture is in Calgary with Mr McTaggart, and expects to remain there for the next three weeks.

Scaly Peaches Rejected At Coast.

A car of Washington peaches condemned a few days ago by the provincial fruit inspectors for San Jose scale, is said to have been one of the worst cases of infection ever seen by the inspectors. Even the stems of the fruit were covered by the deadly scale which was breeding fast. "There is no excuse for the American growers to ship this sort of infected fruit here," said Inspector Cunningham, who said that the trees were evidently so badly infected that they should be destroyed.

Oranges & Lemons in Exchange For Apples & Pears.

Brisk Fruit Trade Between B.C. and the Antipodes.

Inspector Cunningham has been busy signing certificates for large shipments of British Columbia apples which are going to Australia. All of them are choice shipments, and not an apple was rejected. Some shipments of apples which arrived from Wenatchee, Washington, had to be culled before shipping. Many of them were Rome Beauties and other winter varieties which will not be in proper shipping condition for another thirty days.

On her last outward trip from the Coast ports, the Canadian-Australian liner "Makura" carried a total of 2,707 boxes of Okanagan apples for Australia, and other British Columbia products shipped by the liner were 28 tons of British Columbia potatoes for Australia, 5 tons of onions and 200 boxes of apples for Suva, Fiji, and 45 boxes of pears for New Zealand.

There are immense possibilities, Mr Cunningham states, in the fruit trade between Canada and Australia. The semi-tropical fruits grown in the Antipodes would find a ready market here, and there should be a large demand across the Pacific for the harder fruits produced so abundantly in British Columbia. A shipment of 205 cases of oranges and lemons recently arrived from Australia, and Mr Cunningham pronounced the fruit as good as the finest grown in Spain or California, popularly supposed to be the banner citrus fruit countries.

Carloads of Epsom salts are being shipped from Oroville to New York. Some cars go all rail, and some via the Panama Canal.

More Orders For Peaches Than They Can Fill.

The outlook for the fruit growers of British Columbia was never better than as at present, declares Fruit Inspector Cunningham. This is largely due to the attention given during the past two years to the problem of marketing. In other years certain towns became glutted with fruit. Now, through a system of advance reports from agents, the fruit shipments are regulated and distributed.

"The United Growers of the Okanagan," said Mr Cunningham, "are short thirty cars of peaches to fill their orders for the prairies. There have only been enough apricots to fill about 25 per cent of the orders received. We could have filled orders for twice as many peaches."

B.C.'s Apple Crop Well Over Half Million Boxes.

According to a bulletin issued by the Department of Agriculture at Ottawa, the total apple production in British Columbia for this year is now estimated at 600,000 boxes. This is a considerable drop from the 1914 yield, which was estimated at 684,800 boxes. During last month, according to the bulletin, the weather conditions in British Columbia were favorable for all fruits. There were few complaints of recent scab development on account of excessive rains; heavy winds were conspicuously absent, and injury from hail was reported from two small sections only.

Italy exports a large quantity of canned tomatoes. Nothing is wasted in the packing. The skins are used for stock feed and the seeds for oil, both edible and for soap-making.

Home Canning Of Tomatoes.

Issued by B.C. Fruit Markets Commissioner's Office, Calgary, Alberta.

Tomatoes are surely a most important and most valuable fruit because they enter into some dish at nearly every dinner.

They are used in soups, entrees and sauces, and are used whole for baking made overs and for salads. They are most useful in giving a tasty touch to left over meat dishes. In the making of pickles, chowchow, etc., green tomatoes are indispensable. The housewife may readily have her own supply of tomatoes and home made tomato stock for winter use, as well as some tomatoes ready to serve at any time with lettuce as a salad. Macaroni baked with tomato sauce is gradually displacing macaroni baked with cheese, being much more tasty and digestible.

The following general directions on tomato canning and recipes have been prepared by Mrs R. J. Deachman, who has the reputation in Calgary of an expert on home canning:

Canned goods keep because they are properly sterilized and properly sealed. Tomatoes may be canned, and will keep indefinitely by the following method:

1—An ordinary wash boiler with a tight fitting lid, and a false bottom put in of wire netting or a piece of board to fit the boiler, will answer the purpose of a cooker.

2—Sterilize jars, tops and rubbers thoroughly by boiling them.

3—Choose sound, firm, but not over ripe stock.

4—Blanch the tomatoes by placing them in a muslin bag, boiling water poured over them to entirely cover, and allowing them to boil a minute. Then plunge in cold water to loosen the skins and harden the pulp.

5—Peel at once, and pack in the jars, adding tomato juice to fill the jars, and a level teaspoon of salt to each quart. Do not add any water as tomatoes are themselves 94 per cent water.

6—Place rubbers and tops in place, partially tighten tops and sterilize the given time.

7—Remove from boiler, tightening the tops as you lift each one, and stand the jar upside down to cool.

CANNING WHOLE TOMATOES.

Preparing the liquid:

After blanching and removing skins from some tomatoes, cut up and boil in a preserving kettle for 25 minutes. Rub through a sieve to remove seeds and to make smooth. Return to the kettle and reheat. While the strained liquid is heating, select some small, firm, ripe tomatoes just big enough to slip into the jars. Place these in boiling water for a moment, core and peel. Pack carefully into the jars without crowding or spilling their shape. Add a level teaspoonful of salt to each quart and fill up the jars with the strained hot liquid. Put on rubbers and tops, partially tighten tops, and place in the boiler on the false bottom. Have the water in the boiler rather hot, to prevent the already hot jars from breaking. Sterilize for half an hour, tighten tops, remove from boiler and cool.

Tomatoes canned in this way are available for serving in any way where fresh whole tomatoes are used, such as in salads, breading or baking and the strained juice is the basis of many soups.

CANNED TOMATOES FOR GENERAL USE.

Blanch and peel the tomatoes and pack in jars as nearly whole as possible, filling the jars completely. Add a level teaspoonful of salt to each quart. Place rubbers and tops in place, partially tighten, put in boiler on false bottom, with water sufficient to come about half way up the jars. Bring to the boil and sterilize for one hour. Tighten tops, remove from boiler and stand jars upside down to cool.

THICK CANNED TOMATOES.

Prepare tomatoes as usual, place in a preserving kettle, without adding any water, boil until the desired thickness. Fill the jars immediately, add a little salt, put on rubbers and tops and partially tighten. Place in boiler and sterilize 25 minutes. Tighten the tops and remove from the boiler—stand jars upside down to cool.

FRIDAY, SEPTEMBER 3, 1915.

THE ANNUAL FAIR.

SUMMERLAND did not have its usual summer flower and fancy work show. The time fixed by the Department, October 27th and 28th, for the fall fair of the Summerland Agricultural Association is fast approaching, but we hear no sound of the show as yet. Is this, too, to be passed by? The fact that the country is at war is if anything an additional reason why every effort to develop and encourage agriculture in all branches should be put forth. To encourage production of food-products is to encourage the production of munitions of war. The product of the farm is the most important of all munitions.

We hear much of mixed farming and the desirability and in fact the necessity for more diversified farming in this district. Why not have a show this fall that will include every line of endeavor on and about the farm, the prize list to cover not only the usual list of fruits and vegetables but live stock and fodder crops as well? Bringing together for comparison the best specimens of live stock now owned in this district would be a revelation and an education to many. Let's think it over.

LOCALS.

T. N. Ritchie went out over the K.V.R. on Thursday morning on a week's visit to Vancouver.

Latest news received at this office of the condition of Henry Hewitt is that he is failing rapidly, and the end is expected at any time.

Mr A. E. Shaw, one of our newer citizens, has purchased the property of Mrs Merriew in Garnett Valley, and has entered into possession. He is just now having a house built on his new property.

The members of the West Summerland Women's Institute are reminded of the regular meeting to be held on Friday afternoon next, at 3 o'clock at St Stephen's Hall. A large attendance is particularly requested.

Mrs Elder of Kamloops is visiting at the home of her brother, Mr J. L. Logie. Accompanying her here last Saturday were her son and his wife of Ottawa, and also her daughter, Mrs Callan and her husband of Vancouver. All left again on Wednesday morning with the exception of Mrs Elder, who will remain for a month.

John Steven, in a very interesting letter to Rev. C. H. Daly under date of August 20 at Shorncliff, says there were encamped there 42,000 Canadians. They are only seven miles from Dover, and perhaps 85 from the fighting line. At night the deep boom of the cannon is heard across the Channel. The camp is protected by a strong air fleet circling round and round day and night, while out in the Channel patrol boats are constantly on guard.

Prohibition Hot Shots

"There is only one liberty in this world, and that is the liberty to do right. Other liberty is simply license.

"Those men who talk about their own individual liberties when the welfare of their brothers is at stake are exemplifying the spirit of selfishness which is directly opposed to the spirit of Christianity.

"We bear no ill will against the hotelman. Instead of being his bitterest enemy we are his best friends. After the operation that is going to be performed the hotelman will be just as respectable a citizen as the business or professional man.

"While from the economic point of view, the consequences of the liquor traffic are appalling, I prefer to look at the matter from another point of view. I believe God made man before he made his pocket, and that no man with a sense of justice or with a heart can need more to convince him than the decision of St Paul that he would not eat meat if it were to be a stumbling block to his brother."

—Rev Principal Lloyd.

"We women have had nothing to do with the liquor traffic except to pay the price.

"We have a figure of speech now in which to refer to the liquor traffic. We women owe the same debt to the liquor traffic that Belgium owes to Germany.

"There is no such thing as individual liberty as opposed to the interest of the state. As individuals we are responsible for our community life.

"In the middle ages when a plague swept the city owing to unsanitary conditions the people clasped their hands and said: 'Thy will be done, O Lord.' They were resigned when they should have been cleaning up."

—Mrs Nellie McClung.

THINGS WORTH REMEMBERING

That your neighbors are good people.

That good neighbors are the result of good neighbors.

That no community can rise higher than the average level of its people.

That discussion, publicity and education will raise the average level of any community.

That the strongest community is the best organized one.

Childish laughter is the echo of heavenly music.

Stirring up bitterness in a neighbor's heart is never profitable or pleasant.

The present should be loaded down neither with trouble of tomorrow nor with the grievances of yesterday.

We are doing a great deal toward making ourselves look old and ugly when we give way to worry and fretfulness.—Ruskin.

Young man, remember this: All the friends who can gather about you can never make your life a success; neither can your enemies make it a failure.

Never believe anything bad about anyone unless you positively know it is true; never tell even that unless you feel that it is absolutely necessary, and that God is listening while you tell it.

Judge no man by his relations, whatever criticism you pay upon his companions. Relations, like features, are thrust upon us; companions, like clothes, are more or less our own selection.

She thought to herself how delightful it would be to live in a house where everybody understood and loved and thought about every one else. She did not know that her wish was just for the Kingdom of Heaven.—F. W. Farrar.

THE REVIEW

Every Home
in Canada
should have
A
UNION
JACK

There are not enough Union Jacks in Canada

In other countries on days of rejoicing or National Anniversaries flags are unfurled from almost every housetop or window. Canadians are just as loyal, but unfortunately they find themselves short of flags.

In almost every place in Canada there is a movement on foot now to see that the Old Flag is floating from every Canadian home. The newspapers have been asked to assist in the distribution.

The Review has agreed to undertake the distribution in this district, and our readers can secure a real good Union Jack, in fast colors, size 5 x 3, for only

== \$1.10 ==

At this price there is no reason why every home in the district should not have a Union Jack floating on all occasions in future.

LET THE OLD FLAG BE SEEN EVERYWHERE

Every Home In Canada Should Have A UNION JACK.

A 5 ft. by 3 ft. Union Jack, in guaranteed fast colors, for \$1.10. Now ready at

LETTERS TO THE EDITOR.
The Columns of THE REVIEW are open to
the public for the discussion of matters of
general interest. No notice can be taken of anony-
mous communications. Letters intended for in-
sertion must be authenticated by the name and
address of the writer, not necessarily for publica-
tion. The opinions of correspondents are not
necessarily those of the Review.

THE PROBLEM OF THE PEACH
ORCHARD.
West Summerland,
September 7th, 1915.
The Editor, Summerland Review.

Dear Sir:
Mr Koop's excellent letter in
your latest issue deserves commen-
dation. He is to be congratulated
on the clear way he has tabulated
his peach growing results. His re-
marks on our farcical and fraudu-
lent assessments are extremely per-
tinent. It is to be hoped more of
our citizens will interest themselves
in assessments, taxation, irriga-
tion and other municipal matters
which have been left altogether too
much to a few.

My experience with peaches is
the same as Mr Koop's. Some years
ago I became owner of a large
orchard having, among other
fruits, some 800 peach trees. The
first year I worked the lot on usual
lines followed here. The resulting
dent in my bank account gave me a
shock. I then studied peach grow-
ing where it was a success so I could
contrast our position. I concluded
there were three classes of peach
growing. 1st—Bonanza farming,
or growing them on a very large
scale. 2nd—Moderate sized peach
orchards, such as are on many
Summerland farms. 3rd—Small
peach orchards. The farms of J.
H. Hale in the Eastern States are
fine examples of Bonanza farming.
They are handled much as a general
handles an army. Every detail is
carefully considered and every ad-
vantage taken of market conditions,
cheap labor, etc. New York is
his chief market and its value is
seen when we consider its popula-
tion exceeds ours west of Lake Super-
ior. We have no such peach or-
chards in Summerland, and mar-
kets, freight and other costs are
such we are unlikely to have.

The second class has been pretty
well tried out here. I have yet to
learn of anyone in this class in
Summerland making any margin of
profit out of peaches over a period
of years. Some in the third class
have made money in odd years.
The owner with their families do
all the labor and pay out no money
in production.

Peach trees, like a fellow's best
girl, require lots of attention, and
employers of labor cannot always
get intelligent labor. While cur-
rent wages are not a whit too high
for the wage earner, it is impos-
sible for employers to pay current
wages along with taxes and other
charges and meet current prices at

a profit. Last week peaches sold
retail at Vancouver at 75 cents and
at Calgary 99 cents. The freight
rate to Vancouver, a distance of
440 miles is 30 cents per 100
pounds, while to Calgary a distance
of 417 miles, it is 85 cents per
100 pounds. Thus for a distance
of 23 miles less the C.P.R. charges
a rate of 55 cents more, or nearly
three times as much. In express
rates the difference is equally glar-
ing and the express rates to small
towns on the prairie are outrageous
and prohibitive. The C.P.R. claims
to be in strong sympathy with the
fruit industry, but it has not learn-
ed its A B C as to helping it, com-
pared with American roads. The
K.V.R. promises much, but so far
there is little to encourage one
when we have to pay 24 cents to ex-
press a 20 pound case of peaches to
Merritt, a few miles distant.

Co-operation among growers
merely will never make a success of
peach growing here. The co-opera-
tion must be much more extensive.
So far, the C.P.R. and Express
Company completely fail to develop
the traffic this Valley should and
would produce, if they co-operated
positively and intelligently. My
final conclusion has been that only
some specially well located orchards
here can grow peaches of certain
varieties and make money. But
very few of our orchards had the
right varieties in the first place,
and this has cost us a lot.

We have here some natural ad-
vantages of a high order and I think
our future will be best assured by
honest efforts to ascertain those
lines in which we have the greatest
natural advantages.

Our district is only a few years
old, and we have no need to be
discouraged, but I think it a mis-
take for us to specialize in peaches.
For my own part I have quit and
the most of my 800 trees were made
into a fine bonfire.

Yours truly,
W. C. KELLEY.

PRUNE! SPRAY!! THIN!!!
Summerland, B.C.,
Sept. 7, 1915.

Editor of The Summerland Review.

Under the above suggestive head-
ing, Mr P. G. Koop's letter to the
Review last week went deeper than
the branch of industry referred to.
As a message from Mr Cunning-
ham, this advice comes from one
who stands where the stream em-
pties into the ocean of commerce.
He looks, when, lo and behold the
stream is polluted; it is not clear and
beautiful as in times past. Mr
Cunningham says we must restore
the stream to its original state, or
— well, the ocean of commerce
will not receive it. "We can buy
"Just as Good" from the State of
Washington, where they don't care
whether we pay for it or not."

Under the circumstances, Mr Ed-
itor, it seems to me that it would
be much easier for us, who are try-
ing to realize on or save our capital
invested, to dry up the stream
than to try and to purify it, i.e.,
to discontinue growing peaches un-
til the Coast people are willing to
pay for a good article.

But then comes our invested capi-
tal. As one of the earlier investors
in property in Summerland, and as
an agriculturist, I would like to
state what was my first, and what
is my present impression of farm-
ing in the dry belt of the Okanagan
Valley. That word "farming" is
not much used in this district, yet
farming is our vocation. About
eleven years ago, when I first met
Mr J. M. Robinson in Winnipeg,
just prior to my investment in Sum-
merland lands he made this state-
ment: "We want people who un-
derstand intensive methods of farm-
ing."

Even then, you see, when Mr
Robinson was telling his winter-
chilled friends of the prairies
where peaches could be grown, and
when our neighbours to the South
were making fortunes in this
branch of farming, even then Mr
Robinson saw that the possibility of
growing peaches was only a proof
of an exceptional climate in our
northern zone.

I wanted to engage in agricul-
tural pursuits, in whatever branch
I found circumstances might per-
mit me to do profitably, and I pro-
ferred this climate and intensive
methods aided by irrigation.

Now, coming down to the pro-
sent. It seems to me that any of
the more recent investors in the
Okanagan have a great advantage
over the investors of ten years ago,
inasmuch as they can learn without
loss of time and money what has
cost many of us so much.

Mr Koop represents invested capi-
tal, and unless the investment pro-
duces a revenue, he naturally as a
business man, seeks a change. As

a business man, too, Mr Koop will
understand that the lowering of the
value of anything in which his
money is invested, will lessen his
chance of redeeming his investment.
As an agriculturist, my aim is
always to enhance the value of my
land by soil improvement, greater
production of what I find I can un-
der my circumstances produce with
profit on labor, and which, again,
adds to the value or productive
power of my soil, which in turn
represents the stock in which my
money is invested.

There are various ways of do-
ing this, and I do not expect
everyone to adopt my methods.
Some of our neighbors seem to be
making a success of that line of
farming for which they have a
fancy, and although they purchased
their land when values were high
in general, I do not think they
would now sell at a reduction.

And now, if I may as a farmer,
suggest a way in which Mr Koop's
investment might prove profitable,
as a revenue producer, and at the
same time not lower, but double
the present valuation of his land, I
would say that the peach trees be
cleared from the land entirely and
the 45 acres, which have been un-
dergoing depletion without return-
ing a dividend, be cultivated as a
livestock farm under intensive meth-
ods. At the same time the acre-
age devoted to apple orchard could
be enriched and made more produc-
tive and profitable by means of the
livestock on the cleared portion.

I know of a number of small
acreage farms built up in this way
and at the same time become good
sources of revenue, but the follow-
ing account which has come quite
recently to my notice will serve to
illustrate in a small way what can
be done.

A farm of 48 acres, with house
and barn, was bought in Ontario
seventeen years ago for \$1,600.
The price was considered all the
place was worth. The land was
unproductive. This man had no
capital.

The following figures for 1914
show how his investment has
grown:

	Income.
Milk cheques	\$1,500
Hogs	300
Fruit	100
Poultry	100
Veal calves	65
Oats for seed	150
Stock sold	450
Sundries	40
Total	\$2,705
	Expenses.
Feed	\$400
Labor	40
Silo filling and threshing	25
Seed purchased	25
Taxes	26
Insurance	6
Odd items	100
Interest on investment (pre- sent valuation) \$8,000 at 6 per cent.	480
Depreciation	300
Total debit account	\$1,402
His net labor income	1,303

Please note the difference be-
tween original and present valua-
tion.

This gentleman keeps ten cows
and sells the milk to a condensory
at \$1.10 to \$1.60 per cwt. They
are GOOD cows.

Although he does all the farm
work himself, this man enjoys life,
and takes his wife for pleasure
spins in his motor car.

Under our intensive methods
here, I would expect to keep one
cow per acre after a short time,
and with breeding up good stock
a most satisfactory revenue could
be earned. Instead of soil deple-
tion with its accompanying lower-
ing of land values, there would be
soil improvement and enhanced
value of property.

Let us have progress to the best
of our individual ability and cir-
cumstances.

Yours truly,
A. A. DERRICK.

P.S.—I would like to add that in
this climate we have an asset which
is just as valuable for rearing good,
healthy live stock as it is for grow-
ing fruit. We should have very
little trouble with tuberculosis in
cattle.
A. A. D.

DECLINE SUBSTITUTES

Women's Institute Meeting.

The Women's Institute held their regular meeting on Tuesday afternoon of this week. In the absence of the president, Mrs. Davies, who was in attendance at the big convention at Salmon Arm, Mrs. Cash wielded the gavel, while the duties of secretary were performed by Mrs. Hancock, in the absence of the regular secretary, Mrs. C. C. Aikins. Although the number in attendance was relatively small, a very profitable hour was passed. The acting secretary read a comprehensive article on current events. Miss O'Calligan appeared for the first time locally, as a vocalist, with Miss Edith Roe as accompanist, while a comprehensive and instructive paper on children's games, read by Mrs. Hughes, has been reserved for future publication.

Literary & Debating Society.

The Literary and Debating Society will hardly open on schedule time, October 1st, owing to the pressure of outside work. The society has suffered severe losses through the removal from town of a number of its most ardent supporters, but possibly some new and really good if not excellent material may be unearthed by the time we begin to organize.

"ROUGH ON RATS" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself. Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton. The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

Current Events — OF — Town & District

Miss O'Calligan spent the week end visiting friends at Penticton.

Miss Bessie Mitchell is spending a few days under the parental roof at Naramata.

Mrs O. H. Hughes spent the past week with her cousin, Mrs McDougall of Penticton.

F. Lorne Roe of the Penticton Herald staff was in town over the holiday on Monday.

Frank Hughes of Penticton Herald staff spent the week-end at his home here, returning on Monday afternoon.

The tug "Castlegar" made a call here on Sunday morning and took away a carload of furniture for Mr H. K. Bowes.

The passenger traffic on the local ferry has apparently taken on the usual fall spurt, to judge from the present heavy traffic.

Mr. H. K. Bowes left on Monday morning's boat for Toronto, where, as announced previously, he purposes engaging in the brokerage business.

Miss Gladys Robinson and sister, Kathleen, went up to Vernon on Thursday morning to spend the week-end as guests of Miss Elizabeth Ellison.

Postmaster Bartlett made his usual semi-annual visit of inspection of his Peachland property. He was accompanied on this short jaunt by Mr G. W. Wolstencroft.

Mr W. Dobie of Banff, Alta., who recently made an exchange for the Loudon ranch south of town, came in on Monday's boat, accompanied by his wife and child.

Mr and Mrs Fred Manchester are expected to return to town tomorrow, after a week or ten days outdoor life up among the higher altitudes of the tunnel camp ground.

Mr Geo. Wolstencroft and Gardner Aveson appear to keep the Fruit Union men busy a good share of each day in packing great shipments of musk melons, peppers, and egg plants.

It is expected that Mr J. M. Robinson and party, after about 10 days camp life east of town at the famous (locally) tunnel camp will lift his tent pegs to-morrow and return to civilization.

Mr Fred Anderson of Summerland must be some sportsman to be able to get twice enough venison in one day to more than satisfy some of our local aspiring marksmen for a whole season.

The local troop of Scouts, under the leadership of their recently chosen leader, Stewart Allen, appears to be making fine progress, as judged from the earnest way they apply themselves to the Scout studies.

To miss the boat by but a few seconds on a morning when you knew that a whole convention of ladies would be expecting you to appear before them at a stated hour was the annoying experience of one of our prominent lady citizens on Monday of this week.

Needful repairs to the sidewalks in front of Mr J. H. Pushman's residence have at last been completed, as well as the crossing near Syndea House, not to mention the fact that said crossing has left a drain underneath to prevent the water lodging and creating a miniature lake.

Mrs H. T. Davies, who went out last Friday morning on route to Kelowna where she addressed the Women's Institute on Saturday afternoon, and to Salmon Arm where she attended the annual convention composed of representatives from the different provincial branches, returned on this evening's boat.

'Comforts, Ready Constantly'

The Red Cross Society met last Saturday afternoon and put up quite a number of articles for the needs of the wounded soldiers. The secretary, Miss Robinson, is in receipt of a very interesting report on the progress of the work from all over the province. In this report are a number of extracts from the matrons of foreign hospitals giving evidence of the good work being done by the Red Cross Society. For example: The matron of No. 2 Canadian General Hospital at La Treport Hospital says, "Liberal as the ordinance is, I can safely say that without the Red Cross stores, we would often times not know where to turn, especially where a large convoy of sick and wounded arrives, and I wish the women at home who are busy making all these supplies could fully realize how much their work means to us."

Still another, the matron of No. 1 Canadian Hospital, Himereux, speaking of Red Cross supplies which she had received says: "The supplies have been our treasures, and already the initials of our Canadian Red Cross flag mean to each sister, "Comforts Ready Constantly."

The Naramata branch of the Summerland Ambulance League shipped its first bale to the provincial society at Vancouver on Friday. The bale contained: 4 prs. socks, 18 sheets, 7 shirts, 2 laundry bags, 9 towels, 2 prs. pyjamas, 1 bed spread, 10 bundles mouthwipes (1000), 7 bundles handkerchiefs (70), 33 pillow slips, 28 nurses pockets, 2 bundles face cloths, 10 table napkins, 15 tray cloths, 17 slings, 4 bandages, 4 stoup wringers, 19 bundles cup covers, 18 colored handkerchiefs, 8 bundles plate covers, 100 face rags.

In view of this does it not behoove every lady of Naramata to give of her time and energy, a liberal and earnest share? Certainly the work being done is a splendid example of applied Christianity.

Naramata Current Events (Continued)

Miss Lois Wells was a visitor to Penticton on Tuesday of this week.

Miss Edna Noyes returned on Saturday from a short stay at Penticton.

Next Sunday Anglican service will be conducted by Rev. H. A. Solly, Summerland.

Miss Vera Roe, having completed her duties as saleslady at the big rush sale on in Penticton, returned home on Monday.

From the number of inquiries for fruit lands coming in of late one could imagine that the demand is becoming keener than at any time since the outbreak of the war.

Rev R. M. Thompson spent Wednesday afternoon visiting at the homes of a number of benchers, and in the evening conducted the regular meeting for prayer and praise.

Messrs D. H. Watson and J. Lawler came over by auto on Tuesday of this week, the former, to pay us all a long deferred visit, the latter on a trip of inspection to the local branch of the Fruit Union.

Messrs Hayman and Geo. Craig haven't hung up a challenge to row against the "Skookum" or even the "Siemous", from Summerland to Naramata, but if any two able bodied aspirants can beat their time of 18 minutes with one oar and one cigarette apiece, they can send in their names to the Review Office at once. Jokes aside, does anyone know of a better record in a heavy rowboat, with an oar each for two men?

"Fruit Union Row" could cough up a whole lot of complaints. Complaints of the growers—about lack of sufficient orchard boxes with which to handle their output; complaints about packers who buck good and hard when it comes to working all day, and half the night; complaints by the packers about fruit growers bringing in small stuff and wormy; complaints by the manager who has had to buckle on the armour of self defence, and fight manfully for enough time to eat a square meal. Fact is, it's like the classic ballad of the Light Brigade—There are complaints to right of us, and complaints to left of us, and a number of good sized ones in the front. However, it was to be expected. Naramata has just begun

to realize that she has a good sized young giant of a crop to handle and was next to impossible to properly gauge the volume of output, and another year will probably see us running on a bigger scale, and better facilities for handling the crop.

APPLES.

(Victoria Colonist)

"A well-known fruit tree of the genus pyrus." "The fruit of the apple tree," declares the dictionary coldly, as a definition of apple. If we had the compiling of the dictionary we should be inclined to add in a note: "The most famous, most tempting, most cheering of fruits." No one will dispute that it is the most famous, and there are very few who will not acknowledge in the light of mythological, Biblical and modern, not to say contemporaneous, history that it is the most tempting. As for being the most cheering, we defy anybody to eat an apple and not be cheerful.

Of course there are different ways of eating an apple, and when we say that apple is synonymous or synchronous with cheerfulness, of course we mean when it is really eaten, not, as one might say, delicately partaken of. Anybody, even the bitterest misanthrope in existence may partake of an apple, and of all sad sights one of the saddest is to see a proper-faced individual select a fine, red, juicy sample of this fruit, carefully pare it, quarter it, remove the seeds, and, then nibble it. A man may eat in this way, his apple to the end, and never for an instant be less of a pessimist or a cynic or a dyspeptic. But go out, into an orchard, preferably your own or your friend's, choose half a dozen McIntosh Reds, Duchesses or Yellow Transparents, pick out the biggest of them; look at it for a moment; select the most inviting mellow spot, and then bite. Eat it all, skin, core, and stem if you like, it's all good when you take it this way, and it's the surest banisher of the blues in the world.

It would be easy to write columns in praise of the apple, or upon topics suggested by the apple, but we refrain. Only, if you are one of those unfortunate individuals who have been brought up to look askance upon this most delicious fruit on God's earth, take the advice of those who know, who know absolutely and positively, that there is nothing better for the health and the spirits under the sun than a good, ripe apple; go out and get some and eat them, out them as the old farmer says, "from the hand," and the apple will prove its own merit, its own priceless worth.

Having brought this panegyric to an end, we would like to ask if there is any way possible by which we could send some British Columbia apples to the boys at the front. They would appreciate them just now, as much as they would tobacco, or sweets, and probably a great deal more.

Passing Events: Social, Personal, &c.

The Ambulance League meets next Monday at 3 p.m., in St Stephen's Hall.

Rev C. H. Daly is conducting a pre-communion class on Wednesday evenings from 7.30 to 8.30. The attendance has been most encouraging.

A car of horses was loaded here last Friday night by L. C. Woodworth who went along with them to Calgary, where he will offer them for sale.

Lieut. C. E. Bentley was a passenger homeward on the "Sicamous" last Saturday night being called home because of the illness of his mother.

Presbyterian services will be held next Sunday morning in St Andrew's Church, and in the Methodist Church at 8 p.m. Rev C. H. Daly will conduct both services.

Mr Thomas Dale is again with us, looking much better for his stay of several months at the Coast. His many friends are glad to see him back and hope that he may continue to improve in health.

C.P.R. Agent George M. Ross is now among the steadily increasing number of our citizen motorists. Mr Ross has purchased the Ford car formerly owned by Mr Buckland, of Kelowna, and proprietor of Highland Farm, Shingle Creek.

The regular monthly meeting of the Summerland Women's Institute will be held in the Men's Club Parlor, on Friday, September 17th, at 3 o'clock. The roll call is to be answered with quotations from Tennyson. Mrs H. A. Solly is to give a paper on "What Children Should Read," and Mrs F. W. Andrew one on "Invalid Cookery." The ladies are looking for a full attendance. Everyone is welcome.

H. W. Corbett, of Kaleden, was about town on Tuesday.

Miss Bena Logie spent Wednesday with Mrs George Lang, Peachland.

Dr F. W. Andrew and Mr A. Stark motored to Hedley on Monday returning the same day.

Private C. W. Haddrell came down on the boat last Saturday night to visit with his family.

Mrs O. Vaughan left for the Coast early this week, and was accompanied as far as Vernon by Mr Vaughan.

After a stay in Summerland of over a year, Miss Agnes Fisher went out to the Coast this week to a position she had obtained.

Miss Dancer and Miss Chapman were passengers eastward bound on last Saturday morning's K.V.R. train from Penticton.

Mr W. H. A. Moore expects to resume teaching next week. He intends having music studios both in Summerland and in West Summerland.

Mrs E. W. Sawyer and Mrs W. Estabrook went down to Kaleden on Tuesday, going with Mr Ritchie in his car. They are guests there of Mrs J. Lock.

Feeling much improved since undergoing a serious operation at the Summerland Hospital, Mrs J. W. Wheeler was taken home on Wednesday in Mr O. Atkins' car.

Methodist Church services will be held on Sunday next, at 10.30 a.m. and 7 p.m., to be conducted by Rev. R. W. Lee. The evening service will be held in St Andrew's Church. All are heartily invited.

Donald Ross has been a sufferer this week from typhoid fever. The case is fortunately not considered a very serious one. It is not known exactly where it originated, although it must have been developing for some days prior to showing itself.

E. C. Graham has been at the Coast for several days this week, a patient for the New Westminster Home being sent down in his charge. For some time during his absence, Mrs Graham and son were guests at the home of Mr and Mrs George Graham, Jones Flat.

The tomato shipping season is almost over. There will no doubt for some days be a few shipments of ripe, and a few green tomatoes. The last car to the Cannery at Vernon was loaded on Tuesday, while two other carloads of tomatoes for the Cannery went up the day before.

An advertisement is a beckoning hand, a token of invitation, a sign of welcome. A business serving the public should most certainly advertise—beckon, welcome, and show an eagerness to serve. The attitude of a business serving the public, yet which does not advertise, is not one of courtesy or appreciation.

Mr and Mrs G. Thorne and family of Stonewall, Man. have fixed upon Summerland as the community that suits them best as a place of residence. At present they are occupying the Agur cottage on the lakeshore, but it is understood that Mr Thorne has taken the McWilliams cottage, and that they will move up on the hill shortly.

A party of four, Miss Anna Hayes, Mr and Mrs F. A. Williams and Mr C. W. Lees, spent the Labor Day week-end camping at Hydraulic Summit, on the shores of Haynes Lake, one of the Kelowna irrigation headwater reservoirs. The journey up was made on Saturday over the K.V.R. to McCulloch station, and the scenery from the railway as the climb is made to an altitude of over four thousand feet can almost be said to rival that experienced in the Selkirk and Rockies. The party returned to Penticton on Monday evening, coming up to Summerland the following morning.

Character is like bells which ring out sweet music and which, when touched accidentally even resound with sweet music.—Phillips Brooks.

"A couple," said Mrs Simpkins, "got married a few days ago after a courtship which lasted fifty years." "I suppose," replied Mr Simpkins, "the poor old man had become too feeble to hold out any longer."

H. Reynolds has sold his motor car to W. C. Kelley.

Robert Barkwill has gone up to Kamloops to join the 102nd now encamped there.

Ptes. Brind, Smith and Marson, who have been home on harvest leave returned to Vernon camp this morning.

Miss Elsey, who is now a resident of Peachland, spent Sunday and Monday here at the home of her parents.

C. W. Lamb, one of our newer citizens, is just now in Alberta, where he went to do residence duty on his homestead.

Friends here have learned of the intention of Mr F. LeRoy Black to enlist. Mr Black will probably try for a commission.

A considerable decrease in consumption of liquor, tobacco, cigars and cigarettes in Canada is reported for the last fiscal year.

The Stovall Bill, prohibiting the sale of alcoholic liquor in Georgia, was passed by the State Senate on August 3, the vote being 35 to 3.

Lawrence Hatfield, Roy White and Roy Watson went up to Vernon on Thursday where they had already enlisted into the Army Service Corps.

Probably the first deer to be shot in this district was brought down by Louis Guide. It was about nine o'clock on the first day of the season that Louis got this first prize.

The Fruit Growers' Association of New South Wales, at its recent meetings is considering methods of keeping out of Australia imports of lemon juice from America, Italy and Japan.

A good catch of fish rewarded A. McLachlan for the day's efforts in the hills beyond Bathfield last Monday. Though Mr McLachlan went out prepared for deer, none were to be found.

Dr Jackson, Dentist, will pay his regular monthly visit to Summerland next Tuesday, September 14th, occupying Dr Andrew's West Summerland office, and remaining until the end of the week.

A Whist Drive, particulars of which are given in our advertising columns, will be given next Friday evening by Mrs Marshall of Hotel Summerland, the total proceeds to be donated to the Red Cross Society.

William Steven, brother of A. H. Steven, arrived here Sunday evening from New Zealand, via Vancouver. The two brothers had not seen each other for about fourteen years. When the elder left the homeland, he went first to South Africa, and then to New Zealand, while his brother came to Canada. Immediately Mr Steven landed in Vancouver, he enlisted with the Royal Engineers, and will return immediately to go into training at the Coast.

When a man owns his dollar he is reputable and happy. When the dollar owns him he is despicable and unhappy.

He is the best teacher of others who is best taught himself. That which we know and love we cannot help but communicate.—Dr Arnold.

What you possess in the world will be found at the day of your death to belong to somebody else, but what you are will be yours forever.

It is not wealth that gives the true zest to life, but reflection, appreciation, taste, culture. Labor and toil may be associated with the highest thoughts and the purest tastes.—Samuel Smiles.

Remember you are at the door of eternity, and have other work to do than to trifle away precious time.—Dr Horatio Bonar.

Resolutions for the future are all very well. But decisions for the day are of tenfold more value as regards real growth.

One of the worst things in the world is a disposition to cherish grievances. The one who does this is sure to be loaded down with trouble.

Worry makes life untrue and distorted and out of focus. When we get right views of life we will discover that there is nothing in life over which one need to worry.

Woman Doing Police Duty.

In these war times women are finding places in many vocations looked upon as fit for men exclusively.

SUMMERLAND.

WINDOW ENVELOPES

Our new prices make it practical to use these for all ordinary purposes in which envelopes are used.

- WINDOW ENVELOPES have a glazed opening through which the address of the enclosed letter or bill shows, when folded. Their advantages are numerous, and some of them may be quoted:
1. Great saving of time and labor, all tedious copying of addresses from the account, ledger or letter to the envelope being done away with.
 2. Total elimination of wrongly addressed envelopes. It is impossible to put a piece of mail in the wrong envelope.
 3. As complete privacy as with the use of an ordinary envelope. Only the address shows through the window.
 4. Very slight difference in cost, as compared with the average business envelope.

Our New Prices.
Some kinds of window envelopes are expensive, but we have obtained a supply of good quality direct from the Canadian makers at a reasonable price, and can quote you for neatly printed stock:

\$5 for 1,000; \$8.85 for 2,000; \$19.50 for 5,000

Newsy Paragraphs from PEACHLAND

An addition is being made to his house by Mr Howell.

After a short visit to the Coast, Mr A. McKay returned home last Friday.

Miss Logie, Summerland, was on Wednesday a guest of Mrs George Lang.

George Needham, now with O. Vaughan, Summerland, spent Sunday at his home here.

William Logan spent Sunday and Monday here, returning to Kelowna Tuesday morning.

Mrs N. S. Davidson returned last Saturday from a visit with Miss Dancer in Summerland.

The Misses Gummow and their brother Ben, all spent the holidays at home here with their parents.

Mrs George Phillips and her two daughters left here last Friday to join Mr Phillips in Calgary, where they will reside.

Howard Morrison returned to Vernon camp Tuesday morning, after what is probably his last visit home before leaving for England.

Miss Elsey went down to Summerland Saturday night, where two enjoyable days were spent at home. She returned on Tuesday morning.

Friends in the home town will be glad to learn that Ted Smith, one of our soldier boys writes that he is getting along well in the fighting line. He has had one turn in the trenches. Jack Wilson, another Peachlander, is in the same camp with Smith, whilst another, Douglas Henderson, is mentioned in his letter.

More Water Available.

A visit to the hills by Messrs Wright, McKinnon and McGirrha resulted not only in providing enough water to carry us through the present irrigation season, but also in finding storage dams, the water from which may easily be diverted to feed our water system. Going beyond Deep Creek headwaters, the party, which had been sent out by water users, opened up enough beaver dams to meet present needs, and investigating farther, they report that with comparatively little expense the present annual supply could be considerably increased.

New Zealand fruit growers suffered heavy losses from the freezing of fruit last season. Many saved their crops by burning oil in the ordinary oilcan cut in two.

Fall Freshening Of Dairy Cows.

There are so many advantages in having dairy cows come fresh in the fall, while the disadvantages are very few, if any, that one wonders why so little progress is made in that direction. Those who have silos, and no one can afford to dairy without a silo in these days of high priced land, should be especially anxious to have at least two-thirds of their cows calve in the fall of the year.

September is a good month to have the cows freshen. If grass is short at that time it can be supplemented with silage and the necessary grain, and thus the flow of milk brought up to the largest amount possible. Later with an abundance of succulent feed at hand, the milk flow can easily be maintained throughout the winter months. Then, by the time grass comes and the cows have given milk for seven or eight months, and the flow tends to diminish, it will be revived when the cows are turned on good pasture, while in July and August, when the flies are bad, and conditions are against a liberal flow of milk, the cows are either dry or very soon will be.

In other words, the cow that calves in the fall has a much better opportunity to produce a large amount of milk and butter fat in a season than the one that freshens in the spring. This is readily appreciated upon a little reflection. Suppose a cow freshens in May when pastures are good. She gives a large flow of milk during May and June, first because feed is abundant and second because she has recently freshened. But no sooner has she started than the hot months of July and August with flies and perhaps dried up pastures are upon her, and the milk flow immediately drops. When cooler weather returns and grass revives there will be a slight increase in the yield of milk, but a full flow normal for that period cannot be obtained till the cow has calved again. This means that a herd of low-producing cows must be carried through the winter months, with profits greatly reduced, but the labor remaining practically the same. It does not take quite so long to milk a cow giving a small amount of milk as one producing a large flow, but it requires just as much labor to feed and care for a low producer as for the highest producer in the world, and the task of doing the other chores is the same for all kinds of cows.

It is safe to say that a given cow will produce 20 per cent more milk and butter fat when she calves in the fall than when she comes fresh in the spring. This increase in production should in itself be enough to cause any dairyman to have at least the majority of his cows freshen in the fall, but there are more factors favoring the practice. One of these is the higher price which dairy products command in winter than in summer. Another is cheap labor. Labor is cheapest during the period when milk and butter bring the highest prices on the market. Then, too, the farmer himself can devote more time to the cows in winter when farm work is reduced to a minimum and his time is not so valuable. The first three months after spring opens are the busiest in the whole year for the farmer, just when cows that calve in the spring need the most attention. The inevitable result is more or less neglect, and neglect early in the lactation period is mighty expensive business.

When it comes to raising skim milk calves, those born in the fall soon learn to eat grain and therefore grow faster than those that are dropped just as grass comes and do not learn to eat grain before extreme heat and millions of flies begin to make life miserable for them. Then, too, fall calves, if intended for the dairy, can be bred to drop their first calves in the fall as two-year-olds. Finally, because fall calves make more rapid gains, the heifers will be larger as two-year-olds than they would be if born in the spring. Changing from spring to fall calving should be brought about as rapidly as possible, for it means more milk per cow and consequently larger profits.—Successful Farming.

Sell all you can and buy all you can at home. Every dollar that is sent or carried away from home makes the town that much poorer. If you have the means invest in something that will give somebody employment. Do not kick at a proposed improvement simply because it is not at your door.

Advertising

Advertising is the education of the public as to who you are, where you are, and what you have to offer in the way of skill, talent or commodity. The only man who should not advertise is the man who has nothing to offer the world in the way of commodity or service.—Elbert Hubbard.

NO SUGAR

We have received the following Fruit Preserving Recipe from a reliable source, and reprint same for the benefit of those of our customers who may have decided to curtail the making of preserves this season on account of the high market price of sugar.

Our Motive

in publishing it, is to encourage bottling fruit, and suggesting that the money usually expended in sugar be used for what might be termed

Absolute Necessities.

Sugar will eventually have to be used in preparing the fruit for the table, but much less will be required to sweeten to taste.

Authorities all agree that fruit put up without sugar retains its delicate and distinctive flavor.

To put up fruits without sugar, simply prepare them in the ordinary way; see that the jars are perfectly clean, thoroughly scalded with boiling water, filled to the top and left in them a considerable time; boil the rubbers and covers, and see that the rubbers are soft and free from grooves or cracks, place the fruit in the jars, fill with cold water, place them in a boiler filled with cold water, heat to the boiling point. Berries will do if removed when the boiling point is reached. Large fruits, such as peaches, pears, plums, cherries, and the like should get 20 to 30 minutes boiling.

A board should be placed in the bottom of the boiler to keep the jars from the direct heat of the stove. Fruit thus prepared will be found excellent for pies, delicious for eating with cream, and generally superior to the sugar-syrup preserves. In properly air-tight jars they will also keep quite as long.

We carry in stock "Perfect Seal" and "Economy" Jars.

The Summerland Supply Co., Ltd.

WANTED: Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

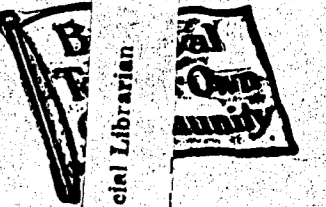

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.

Vol. 8, No. 7. Whole No. 372.

SUMMERLAND, B.C., SEPTEMBER 17, 1915.

\$2.00, payable in advance.

McAlpine Law-suit Is One For Supreme Court.

Defendants' Counsel Has Case Sent To Higher Court On Technicality.

Though the citizens who attended the court to hear the trial of the case of McAlpine vs. Municipality of Summerland derived considerable amusement from the sparring of the opposing counsels, there was general disappointment that the merits of the case did not come up for discussion. Mr Buckingham of the firm of Buckingham & Cochrane, Vernon, representing the Corporation of the District of Summerland, brought before the court the question of the title of the property involved in the dispute, and as it was admitted to be of greater value than \$2,500, which is the limit of value for properties on which disputes of this nature can be considered in a county court, the Judge, though expressing regret that the defendants took this action thereby to force the case into the supreme court, dismissed the case without costs.

There was some little time occupied immediately court opened in "clearing the decks for action," as the Judge termed it, when some amendments were requested and granted. Defendants' counsel in these preliminary moves, argued that the case was not one for a jury. This was not opposed by the plaintiff's counsel, Mr Clayton, of the firm of Clayton & Abercrombie, Penticton, but the case at no time got properly into court. Mr Buckingham asked that the evidence be taken, subject to his claim that the case was beyond the jurisdiction of the court, as the title of ownership was disputed by the defendants, the plaintiff admitting the property to have a greater value than \$2,500. This brought matters to a deadlock, and Judge Swanson adjourned court at 11 o'clock, after sitting less than an hour, until 2 o'clock to give plaintiff's counsel time to look into the precedents cited by Mr Buckingham, hinting that the defendants' counsel might in the meantime conclude to waive his objection.

Mr Clayton in the afternoon session made some attempt to upset the argument of Mr Buckingham, but the latter had the law on his side, and the case was pronounced beyond the jurisdiction of the court. In giving his decision Judge Swanson said that he had thought over the situation carefully during the interval, and much to his regret must give effect to the request of the defendant, who disputed the power of the county court to deal with the case. The Judge expressed regret that the defendant had pressed this point in defence, and gave it as his opinion that the supreme court will order the case to be tried in the county court. He thereupon dismissed the plaintiff's action without costs.

It has been said that the reason for the action of the defendants in having the case sent to the supreme court is to gain time, it being the opinion of at least some of the municipal officials that time will prove their contention that the water appearing in Mr McAlpine's cellar was not from the domestic pipe.

Mr McAlpine states that it is his intention to have the case entered in the supreme court, but believes that it will be ordered back to the county court for trial.

Mustn't Expect To Replace Good Fruit With Poor.

Mr Randall, local fruit posts inspector, this morning received information from his chief, Inspector Cunningham, that two cars of Washington apples and pears have just been condemned at Vancouver for codling moth and San Jose scale. In conversation with the Review Mr Randall pointed out the necessity of our own shippers maintaining a high standard, shipping only clean fruit. His department will not permit the transportation of infected fruit even if it should originate within our own boundaries. Then, too, if inferior fruit is offered in place of the American fruit of better quality, though infected with scale and moth, there is the danger of protest from dealers and consumers.

Can Get The Fruit If He'll Pay The Price.

United Growers Not Doing a Consignment Business.

Refutations of the statements of Mr S. J. Fee, manager at Calgary of the Vernon Fruit Company, were made this week by Mr G. J. C. White of the Okanagan United Growers executive. Mr White calls attention to an article appearing on the front page of the Review of last week, in which Mr Fee's remarks also appeared, as being a direct contradiction of Mr Fee's inferences, in referring to the tons of ungathered peaches, that our present marketing facilities could not take care of all the fruit offered. This article states that the Okanagan United Growers could not get enough peaches to fill their orders. Mr White says further that the reason that all peaches were not sold was due to the fact that many were unfit to sell because of their undersize, which he attributes to lack of thinning, and to cool weather during the early summer, or because of mildew.

"It is not true that we are selling only through the Nash houses or the Mutual Brokers," continued Mr White, "We have sold through the Mutual Brokers, and are under contract to them for a part of the output, but we have been selling to other concerns, and Mr Fee or anyone else who will pay our price can get United Growers fruit. Mr Fee is a man who advertises to sell on consignment, but we are not doing a consignment business. My reason for replying to Mr Fee's remarks is that we do not wish any wrong impressions to go out. The United Growers cannot get enough suitable peaches to fill their orders, and Mr Fee's statement to the contrary, he can buy United Growers products if he will pay the price, but he cannot have them on consignment."

Review Makes A Friendship.

We take some pride in learning that this paper had a prominent part in a pleasing incident which lately took place in one of the Canadian Hospitals not far from London, England. Messrs J. Graham and Alf. Vanderburg, who not long since crossed the Atlantic with their medical contingent, are doing duty in this hospital. In the course of their work one of them was somewhat surprised—and very pleasantly—to notice a copy of the Summerland Review lying about. This naturally gave rise to the feeling that there might be some one at the Hospital who at least must have some interest in their own far-away home town. Their pleasure must have been greatly intensified to learn that the reason of the paper being there was that Elmer Johnston, son of Coun. and Mrs. R. Johnston, was a patient at the hospital, with his wounded leg. Although the boys had never previously met, this incident made the way easy for acquaintance. In this case the Review, in addition to performing its mission of sending home town news away, also accomplished a second and somewhat unusual mission.

Word from Elmer Johnston during the past week makes it clear that he will be confined to hospital two or three months yet before he is invalided back to Canada. Great interest is taken, he says, in the Canadian troops. This hospital has received royal visitors, Queen Mary herself honoring the wounded soldiers with her presence on one occasion.

A Reminder.

Are you, dear reader, one of those who have been intending to pay your subscription but have neglected to do so? Please do not put it off longer. Prompt payment of accounts due us is essential. In fact, in these times of shortened credits when every line of business is being put on a cash basis we are finding it absolutely necessary to follow suit, and will be forced to cut off all subscriptions that remain unpaid.

Regular Session Proves All Day Sitting for Council.

Several Important Matters Among Accumulation of Business. Applicants for Position of Electrician Number No Less Than Fifty-Four.

The Council put in about eight hours on Saturday last deliberating on municipal matters. The meeting was the regular monthly session, and the morning was occupied entirely in hearing requests presented personally, and disposing of a pile of communications. After lunch came the consideration of the McAlpine lawsuit, arranging for the vacant superintendency, and the selection of a municipal electrician from the host of applications for the position. Immediately following the approval of the minutes of previous meetings the full Council went to work.

PERSONAL REQUESTS.

On account of a sale of the property which he said was now pending, G. A. McWilliams asked for an extension of the time allowed for redemption of the Garnett Valley property of Mrs. Merriew, sold for arrears of taxes. Money would be available to clear up the outstanding amount early in the new year, and to insist on it earlier would entail considerable sacrifice on the part of the purchaser. The Council decided to grant an extension till the end of their term of office.

W. H. A. Moore appeared before the Council protesting against being deprived of water by a ditchman in his section apparently without good reason. He said that an arrangement made two or three years ago gave him water on two days a week from the upper flume passing his lot, as well as from the ditch, in order to irrigate a corner that could not be conveniently reached from the latter. This arrangement, Mr Moore said, was to hold good so long as there was the water to spare. Of late he had only been able to obtain water from the upper flume for one half day per week, this being the ditchman's orders. Mr Moore felt he was being unfairly discriminated against because he knew the water was available but he was not getting it, while others in the neighborhood were.

Coun. Johnston explained that a complaint had come to him that Mr Moore was getting too much water, and in justice to others his supply had been curtailed. The whole matter will be looked into and a satisfactory adjustment found if possible, for the short part of the season now remaining.

Bert Harvey complained to the Council of the poor condition of old ditch and fluming through his lot, through which there was a great deal of leakage and seepage. The piece of fluming in question is one of the oldest in the district, and will have to be given attention before another season. Mr Harvey also asked for domestic water connection to his house. In previous winters he has obtained water from his neighbors, but this coming winter he did not see how he could continue in his house unless domestic water was available close at hand. He submitted a plan to the Council for bringing the water to the house that seemed reasonable, and it was left to the Board of Works to look into both these matters.

Some questions regarding the strip of road at Trout Creek recently purchased by the Council from J. R. Brown, brought Magnus Tait before the Council. There was some doubt as to the real ownership of this road allowance, but the Roeve said that Mr Brown had produced the deed, and so his ownership was proven. Mr Tait pointed out that public money had been spent on the road, and during the discussion it developed that no taxes had been collected on this piece of land, in the belief that it was a municipal road allowance.

INSPECTORS' REPORT ON NEW DAM.

District Engineer O. F. D. Norrington, appointed by the Provincial Government to inspect the dam

at Trout Creek headwaters, the capacity of which was so much increased by work done last fall, submitted his report on the undertaking. He suggested some structural improvements that can be carried out with not a great outlay, and the Board of Works was instructed to have this put in hand at once, in order that the government's approval may be had of the whole work. R. Mitchell, the original contractor, will likely take this work in hand. Two other suggestions put forward by Mr Norrington were not considered practical, namely, to have a man kept constantly at the dam in the summer season, and to put telephone connection through.

Most of the communications were of lesser importance.

The Clerk will reply to a complaint from Miss Ballantyne of shortage of irrigation water during the past season.

Acting as agent for the owner, Jno. Tait, was granted an electric light connection for the house occupied by Mr. K. S. Hogg on Beach Avenue. The Board of Works also recommended granting the application of Miss Dancer made at the last meeting of the Council.

On a favorable report from the Dairy Inspector, Messrs Watson and Borton were granted a milk license.

A letter was received from W. R. Shields asking for an extension of time in which to redeem property sold for arrears of taxes. It was decided to ask what proposition for payment Mr Shields could make. Several other requests of a similar nature were dealt with from outside owners.

Notice was received that the date of the Convention of B.C. Municipalities at Chilliwack has been changed. This is to be held on September 23rd and 24th, and the local delegates, Couns. Simpson and Johnston, with the Clerk, will now be enabled to attend, which would not have been possible if the former date had been adhered to.

T. B. Young wrote the Council offering to pay the delinquent taxes on some lots on the Giant's Head in which he is interested, if he could get the title. If the amount delinquency is wiped out, the Council will grant a tax sale deed.

W. C. Kelley sent a bill of \$25 to the Council for services rendered in 1912, before his appointment as municipal solicitor, in connection with the proper conveyancing of the Balcombe Reservoir site from the Summerland Development Company to the Municipality. The Council were not altogether in favor of paying this bill, and it was decided to get from Mr Kelley a statement of any other indebtedness the Municipality has with him.

J. R. Brown submitted the agreement of sale covering the road allowance at Trout Creek which he is turning over to the Municipality. The price is \$900, to be applied against taxes.

The Collector submitted a list of properties sold at the recent tax sale. Cheques were forthcoming for all the bids made excepting for the amount against the College Gymnasium. In this connection the Council made it clear that tax certificates can be bought on any property held by the Municipality for unpaid taxes, for the amount owing and interest to date.

The question was raised as to whether interest on locally held debentures due this fall can be applied this month to taxes in order to secure the full discount. The Council decided in the affirmative, but the interest on the debentures will be considered to run only to the date of payment.

IMPROVEMENTS FOR SIWASH FLAT IRRIGATION.

J. J. Mitchell submitted estimates on the cost of renewing Siwash Flat fluming to cover the district near Garnett Valley. This estimate totalled \$5,882.42, including (Continued on page 2).

Hospital Completes First Year Of Usefulness.

Much Better Equipped Than a Year Ago.

A year ago to-day, September 17th, the Hospital was given its formal opening. Unlike a purely commercial institution, a hospital does not altogether measure its success from its balance sheet, but justifies its existence rather from the necessary service in the preservation of health it performs to the district. During the past year, 365 operating days, 115 patients received 1,983 days of treatment, and there have been as well 8 outpatients. The total earnings for the year are as follows:

Amount charged for Treatment	\$3,824.55
Government Grant	913.00
Municipal Grant	200.00
Contributions in Kind	1,185.74
Donations in Cash	474.99
Other Sources	92.50
Total	\$6,690.78
Daily Average Earnings	\$18.33

Numerous additions to the working plant have been made, many by gift, and notable improvements to the building itself have also been done. Through the efforts of the Ladies' Auxiliary an X-ray apparatus has been installed and paid for, a wheel stretcher and a refrigerator provided. Dr. F. W. Andrew has lately provided a sink in the sterilizing room for the cleansing of instruments and apparatus, to the value of about \$75, which has been a very pressing need from the surgical point of view. Another great need has been met by the donation of a medicine chest by Mr R. Langlands, while some of the building improvements for which the Hospital Society has been responsible have been the cementing of the basement floor, securing an ice house, equipping the sunny windows with awnings, and making a beginning on the beautification of the grounds. The Society has also established itself on a more business-like basis by the adoption of governing by-laws and regulations. A measure of municipal recognition has also been obtained in the shape of a grant.

From this outline it can be seen that the first year of work shows that in spite of the difficult conditions obtaining generally, the new Hospital has found a place in the district, and fills a very definite need. It has been very far from proving the "expensive white elephant" that some of its opponents predicted it would at the time of its erection.

The Matron wishes it known that a Hospital Library is in process of formation, and to this end donations of books would be very gratefully received. There must be volumes that can well be spared from many bookshelves, and these same books would find a new usefulness in service at the Hospital.

Miss Aitchison also informs the Review that there are still a number of empty fruit sealers at the Hospital awaiting the call of their owners. If it is now too late to refill these jars with preserves there is ample opportunity and need to exchange some of them for full ones.

The Treasurer acknowledges with thanks the receipt of \$1 anonymous donation left at the Review Office.

A detailed list of donations received at the Hospital during the month of August is held over till next week's paper.

Record Apple Deal.

The biggest deal in apples ever made was announced by the North Pacific Fruit Distributors' Association last week at Portland, Oregon. Every box available of "C" grade apples controlled by the association has been sold at a contract price of 85 cents a box.

It is estimated that the apples will make four hundred carloads. The amount involved in the deal is \$214,000. A number of Middle Western firms compose the pool of purchasers. The total purchase is said to be destined for New York.

Money In Peaches

All a Matter of Proper and Intelligent Management.

So Says a Citizen Who Is Producing Results.

There has been for the past two or three weeks some interesting discussions of the peach question in these columns by several correspondents. Desiring to learn more of the subject the Review took the matter up with Mr A. Moyes, who was reported to have made the statement that if he were planting an orchard to-day he would plant peaches as readily as any other fruit.

Mr Moyes, while admitting that there are a number of varieties now grown here which should be discarded, says that such standard early varieties as the Alexander, Triumph, and Champion should by no means be sacrificed, mentioning the Triumph particularly as hardy, a sure cropper, and sufficiently early. All white flesh, while good eating, are not good shippers. There are a good many mistakes made, beginning with the planting. Peaches should not be used as fillers, but should be planted in solid blocks about 16 feet apart.

Mr Moyes gives a very conservative estimate of \$300 per acre as average yearly returns from an orchard of Triumphs, being only \$2. per tree with trees planted 150 to the acre. The cost of production on a ten acre orchard of such trees would not exceed \$1,500, leaving \$1,500 to provide for interest and profits on investment. Mr Moyes objected to Crawford's as being too liable to split stone, and uncertain cropper, while he had found Yellow St John hard to handle. He also condemned the practice of sowing alfalfa amongst peach trees, which he said, was a detriment to all stone fruits. It is little wonder that many of the peach orchards are unprofitable. It is essential that the trees be fed, and that has not been the practice here. With proper pruning, thorough spraying, and intelligent thinning, Mr Moyes is confident a profitable crop of peaches can be produced every year. He describes peaches as one of the best assets of Summerland. Care in irrigation and picking the fruit when just in the proper condition are all essential to success.

Mr Moyes, who has had many years of experience in the Old Country, where he was a member of the Royal Horticultural Society, as well as thirteen years in the Okanagan, gave some very interesting and conclusive figures from memory, showing that if a price of \$30 to \$40 per ton could be realized, peaches are one of the best crops to grow. As these figures were given from memory the Review was asked to withhold them, and was promised complete data of the results of the present season.

Money For The Man Who Has The Birds.

The Okanagan Valley has this year a larger wheat crop than the Valley is likely to consume in the next twelve months. This is the information reaching the local Fruit Union through the United Growers. As a result prices are likely to rule fairly low, and an immediate and decided drop will result. The Fruit Union are announcing in their regular advertising space a reduction in grain prices next week.

The man who had the courage last spring to put the usual quantity of eggs under hens or in the incubator is likely to not a good profit as a result. Very many of the older birds, the country over, have been killed off, and fewer chicks were hatched. Cheap food and few hens will mean big prices and good profits for eggs.

The Council room at the Municipal Building presented an unusually spick and span appearance last week when the Council met in session. The plaster ceiling, which in times past has shown a propensity to drop in places at untimely seasons, has been replaced by neatly panelled beaver board. The furniture, too, has had renovating touches applied to it, and now shines almost like new.

MORE HUMUS NEEDED.

CONSIDERABLE has been said of late of the unprofitableness of peach growing. No doubt one of the causes of the unsatisfactory results is the continued cropping without returning to the soil the ingredients taken from it by the trees. In other words, year after year of continued cropping is impoverishing the soil. To bring the soil back to or keep it in prime condition, fertilizers with abundance of humus rather than the common commercial fertilizers are best. On but few of our ranches is there enough live stock kept for this purpose. It has been suggested that this need might be supplied by the bringing in of barnyard manure in carload lots from some of the larger centres of population where stock is kept in large numbers, and that it would be a good business venture for the C.P.R. to transport this manure at a nominal rate. There is no doubt that if barnyard manure could be sold here at a reasonable price there would be plenty of buyers. We pass this suggestion along for what it is worth. It may be worthy of the consideration of the Farmers' Institute or Board of Trade.

DEVELOPING EXPORTS.

THERE HAS COME to the editorial desk a neatly printed and attractive illustrated pamphlet published under the direction of the Hon. the Minister of Lands, entitled "British Columbia Timber," which has been prepared for distribution among the buyers in overseas markets. It is intended to draw the attention of importers overseas to the forest products of the province, and especially to the facilities for exporting British Columbia lumber. Consisting of nearly forty pages and containing nearly thirty illustrations, the pamphlet treats of the principal exportable woods, their qualities and uses, together with information concerning their strength values and suitability for various uses.

IS SUMMERLAND to be represented on the walls of the new B.C. building, now nearing completion in London? Agent-General Turner is being furnished with some high class photos of a number of sections of this province, which he has asked the Boards of Trade to contribute. It is known that at least some of the Valley centres are making a special effort to send over some striking views to be displayed on the walls of the new provincial structure in the Empire's capital. What are we going to do? Where is our Board of Trade?

SPEAKING of Board of Trade, since that body apparently has done nothing toward having a resident issuer of gun licenses appointed, are we to sit still under the injustice? Is it only to round up voters and votes that our political organizations exist? Might they not also see to it that the needs of the community receive attention, and that Summerland at least gets a square deal? We need and must have an issuer of licenses here in Summerland.

"Versatiles" Coming.

F. Stuart Whyte, the English author-manager, whose royal entertainers, "The Versatiles," are so well and favorably known in Summerland, will present the big musical comedy success, "The Girl From Nowhere," at the Empire Hall on Tuesday, Sept. 21.

In the cast are Zara Clinton, Harry Hoyland, Billy Oswald, and a company of eighteen. This is the largest company and biggest

BILLY OSWALD with "The Versatiles."

production that has ever been seen in Summerland, and they will no doubt play to a packed house. The scenes in the piece are laid in San Francisco during the 1915 Fair, and various portions of that great exhibition are reproduced in the stage settings, including a panorama of the grounds with the famous Tower of Jewels illuminated.

Mr Frederick R. Faulkner, son of Mr and Mrs J. F. Faulkner, has recently been appointed to the chair of civil engineering at Nova Scotia Technical Institution, Halifax, and, accompanied by his wife, has left for the eastern city. Mr Faulkner had a brilliant career at Acadia University, graduating in both arts and science. For the past few years he has held an important position with the Kettle Valley Railway. He was recently married to Miss Anna Simpson, an accomplished musician, of Boston, Mass., and the young couple have been spending some time with their parents in this city.—Vancouver Province.

God gives us always strength and sense enough for what he wants us to do; if we either tire ourselves or puzzle ourselves, it is our own fault.—Ruskin.

Human happiness is produced, not so much by great pieces of good fortune that seldom happen, as by little advantages that occur every day.—Benjamin Franklin.

We all wish to be loved. We may not confess it but it is true, and it is nothing to be ashamed of. Well, then, let us be worthy of being loved, and let us love.

COUNCIL IN REGULAR SESSION

(Continued from page 1).

ing a length of cement lining as well. No definite action was taken on this report, it being thought that a special meeting might be called later to discuss the whole situation, and get any suggestions from people in the district. The Council is alive to the needs of that section, and there is a strong feeling that something must be done. It is thought that the rebuilding of the old Dunsdon dam will help the situation a great deal in providing more storage on Eneas Creek. The cost of rebuilding this dam is estimated at from \$1,500 to \$2,000. The matter was finally left with the Clerk to look into.

E. W. Markoe was awarded \$5 compensation for damages to his crops from water, this amount to be applied on arrears of taxes.

TRADE LICENSE QUERIES.

Immediately after resuming business after luncheon, the Council took up with a number of questions in connection with the payment of trade licenses. The objections of several who are taxed were touched upon, but only in one case, that of J. Arkell, who is no longer liable on account of confining his business to goods of his own manufacture was an exception made. The license is to be collected from all others who are liable. During the first half of the year the Collector's statement showed that \$160 was collected, and in the second half year, not yet ended, \$135, a total of \$295.

LAWSUIT CONSIDERED.

The Council then took up with the McAlpine lawsuit. The Clerk reported on his subpoenaed examination of discovery at the hands of Mr McAlpine's lawyers, and also on the result of his conference with the Council's solicitors at Vernon. Mr McAlpine, as plaintiff, was to pass through his examination of discovery with the opposing solicitors on Monday evening of this week. Mr Logie indicated the grounds upon which the Council's defence would be based, and showed technical points which would be raised by the defence in an endeavor to show the invalidity of the case. Witnesses were arranged for, and if expert evidence as to the origin of the offending water were needed, it was to be given by Engineers Latimer, Norrington and Barton. Among possible local witnesses to strengthen the Council's case were mentioned Reeve Blair, Coun. Johnston, and J. J. Mitchell, Municipal Superintendent at the time the new pipeline was laid. The provisional list of jurymen was also discussed, and objections registered against two whose opinions might naturally be expected to lean possibly more one way than the other. Mr Buckingham, who was to conduct the Council's case in court was expected to arrive on the boat on Monday evening, and it was arranged for some of the Council to meet with him in the evening and be present at the examination of the plaintiff which he was to conduct.

A telegram from Engineer Latimer during the afternoon announced that he would arrive here over the K.V.R. on Monday afternoon. Advantage of his presence was to be taken for three purposes—as a witness in the damage suit; to go over the portion of the south main ditch that needed repairing in order to draw up plans and specifications for that work; and also to look into the matter of the seepage on the property of J. R. Brown at Trout Creek. In regard to this last-named matter, a phone message from Mr Brown in the course of the afternoon asked what the Council intended to do. Although the Municipal authorities are by no means convinced that they are liable for this seepage, they intended taking advantage of the engineer's presence to make this point clear.

THE VACANT SUPERINTENDENCY.

A considerable time was devoted to a discussion of the best way of coping with the situation created by the resignation of the Superintendent. The appointment of a successor immediately was never suggested. There is not a great deal of outside work on hand, and it is not likely that a new Superintendent will be appointed in the term of the present Council. For what little time remains of the irrigation season there was talk of dividing up the responsibility for the system among several ditchmen. The whole matter was left in the hands of the Public Works Committee to arrange for. During the

morning this subject was touched upon, and a suggestion was made then that the care of the domestic water pipe-lines be put in the hands of D. Dixon, flumes and suchlike in charge of D. Keen, and road work considered necessary be given to J. Arkell. This arrangement seemed to meet with general approval.

ELECTRICIAN APPOINTED.

When the time came to consider the appointment of a municipal electrician, it was necessary to start in on a pile of fifty-four applications. Most of these came from the Coast district, and the entire stack was divided into two classes; those asking a salary of \$100 per month or less, and those asking more. The latter were not considered at all. The only strictly local application was that of T. P. Thornber, who formerly held the position. Other applicants in the Valley wrote from Kelowna, Vernon, and Sicamous. Mr Thornber submitted three proposals under which he was to give varying proportions of his time to the work, and the salaries he named under these schemes were \$70, \$45, and \$90 per month respectively. Coun. Borton asked what the attitude of the Council was going to be towards this application. The Reeve and remaining members of the Board declined to give it any favor over others received. The choice from those applications read finally narrowed down to about half a dozen, and three selections were made. C. H. James of Kelowna, was the first choice with a salary of \$85 per month. As a second, a Mr Potter, now of Battleford, Alta., was to be offered the position at \$90, and a Mr Smith, an applicant from Vancouver, was the third choice at \$85 per month.

POSSIBLE NEW RESERVOIR SITE.

An Indian named Paul is reported to have discovered a large lake back in the hills some miles, on the north side of Trout Creek. He put in an appearance at the Municipal Building on Saturday, and offered to act as a guide to the newly discovered sheet of water, provided that in the event of the lake proving of any use for reservoir purposes he be paid \$50 for its discovery and for cutting out a road already done. There may be something worth while in what he purports to have found, for it has been mentioned in other quarters that there is a lake in that district not generally known about. Couns. Johnston and Borton are going to make a trip with the Indian this week out to the lake. They left on Thursday morning, and expect to return the following day. If the discovery the Indian reports does not amount to anything, the Council will not pay out the \$50 promised.

Presenting a letter of recommendation from Engineer Norrington, Mr Sismay of Penticton, appeared before the Council, in regard to the possibility of securing a position here, giving him charge of the irrigation water in the season. He was informed that there would be no such opening in the immediate future, the work having already been provided for during the rest of the season.

At the suggestion of Coun. Borton an electric light committee was established. He said that just now the Public Works Committee was pretty hard pressed, and his idea of the use of the new committee would be to guide the new electrician into his duties, and to provide a body to whom such a man might look for instructions. The Reeve said it should be made clear that that all purchases for the plant should go through the office, as well as any sales of material, fixtures, etc. He named this committee to consist of Couns. Borton and Johnston. The Reeve is a member ex-officio as a matter of course.

A proposal from the Clerk to have a cupboard made in which the band instruments on hand at the Municipal Building could be given better storage was improved upon by the Reeve who said that the spare room should be fitted out with a little furniture so that it could be used as a room for special committee meetings where greater privacy could be had than is possible at the public sessions. It was close upon six o'clock when the Council adjourned. The next regular meeting was fixed for Saturday, October 9th, but a meeting to consider ways and means of undertaking work which will give the Siwash Flat section relief from their shortage of irrigation water, may be held before that time.

ACCOUNTS PASSED.

On the recommendation of the Finance Committee, the following

JAM CANS

AT
COST PRICE.

I have now on sale a large supply of jam tins placed with me by the assignee of the Okanagan Jam Co., to be rushed off at cost. This is your opportunity. Stock up now for present and future needs.

Soldier Goes Wrong

There arrived in Summerland last Saturday noon a young soldier who gave his name as Corporal John Ward of the Vernon camp, having ridden down from Kelowna in which city he had hired a horse with which to make the trip. For about two days Ward was a guest at Hotel Summerland, and kept the horse at the Pioneer Livery Stable, using it on two or three occasions during his stay here. As he did not come in for lunch at noon on Monday nor go to the stable for the horse some inquiries were made, and the last that could be learned of him was that he had been seen by Mr English going down the street on Monday morning. On Tuesday it was learned that he had somehow reached Penticton where he had been arrested on Monday night for passing a worthless cheque. His hotel bill, and that of the livery stable are of course yet unsettled.

Miss Olga Tunstall, who has been visiting at the home of Mrs A. C. Stournt, returned to Armstrong on Thursday.

OUR NARAMATA SECTION :

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Shortage of Orchard Boxes.

"Fruit Union Row" are busy this week running off the balance of the season's output of peaches and musk melons, and have made a good start in on apples—the Wealthy and the Jonathans are in evidence. A few cookers are coming in as the result of the recent wind storm which resulted in a fair amount of wind-falls. The outstanding grievance, however, is the lack of a sufficient number of orchard boxes in which to convey the fruit from the orchards to the Fruit Union packing sheds. This is, however, a grievance for which there is a remedy—which cannot be put, at least not wisely just yet—which will doubtless be applied next year. If the owners were charged up with these boxes and credited with them upon their return, there would be a whole lot more care taken of the boxes for one thing.

Taxes Paid Yet?

That reminds me! Have you paid your taxes? The School Board are informed by the Education Department of an over-draft of over \$600 as a result of certain property owners here failing or neglecting to come up to the chalk mark on pay day with their little quota of government funds. The result is pretty "hard sledding" for the trustees. It therefore behoves every citizen, and absentee citizen too, "don't you know," to dig down after the needful—at least the school tax—and improve the financial "sledding" for the coming and the present year. Yes, sir. Pay your taxes.

Is Pentiction assuming the place in our business life that Summerland formerly held? The indications are that the great bulk of the outside shopping is going that direction.

"ROUGH ON RATS" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Current Events — OF — Town & District

Mr Percy Thornber of Summerland spent a few hours in town on Wednesday.

Mrs H. Nuttall was amongst the number of shoppers who took in Pentiction on Wednesday.

Mr Helmer, manager of the Dominion Experimental Farm, Summerland, was a business visitor to town on Saturday last.

Miss Gladys Robinson and sister Kathleen returned on Wednesday from a week's visit at Vernon, where they were guests of Miss Margaret Ellison.

Mr G. R. Schreck of Buffalo, who has been here for a two-weeks' visit with his brother, Mr John Schreck of Keystone Ranch, left for his home on Thursday morning.

Frank Hughes of the Pentiction Herald staff found himself left on Sunday evening when the "Sicamous" gave the town the "go-by" on the course of its return trip south. Better luck next trip, Frank.

Miss Alice Myers met with a rather painful accident whilst busy making up peach boxes for her father last Saturday morning, when the hammer hit more than a nail-head, causing an ugly gash in her left hand.

Miss Emma Davies, who has had considerable preliminary training this season for hospital duties, has received definite instructions to report for duties at the Vancouver General Hospital on the 31st of October.

Kickinies are all the go at present, and fishing parties returning from Chute Creek report very good catches. Amongst the recent ones to report are Guy Ireland and Willie Mitchell who returned on Tuesday with a cartload of the rare and popular fish.

T. H. Boothe is in receipt this week of a letter from his eldest son, Reg. L. Boothe who is now in training in Shorncliffe, in which he states that he expects to complete training and to be transferred to "somewhere in France" about the end of the month.

During their stay in Vernon this week Miss Gladys and Miss Kathleen Robinson witnessed the review of the troops upon the occasion of the visit of the Duke of Connaught. Both girls speak in highest terms of praise of the excellent class of music furnished by the military bands.

A whist drive under Red Cross auspices is being announced for next Thursday evening at the home of Mrs Cash, who has so kindly offered to throw her doors open for the occasion. The details are being arranged by Mrs Cash and Mrs Languedoc. Doubtless an enjoyable evening is in store for all the neighbors next Thursday at eight o'clock.

Squire Hill, a well-known Naramatian has returned to town after about ten months spent chiefly in Montreal. The squire appears to be genuinely glad to be back again, declaring that he was determined enough in his resolve to walk back, if the C.P.R. had suddenly decided to go out of business and melt the rails of their system to make shells to fire at our enemies. Welcome back.

Travellers joke us about our climate, saying that we have but two kinds: the usual and the unusual. Would they joke if they were told that we have also two kinds of fruit trees? The usual kind which blossom in the spring and yield fruit in summer or fall; and the unusual, those trees that blossom twice, both in spring and also in fall, when the rest of the tree is loaded down. There are a number of apples trees in Naramata right now bearing fruit and blossoms too! Is this "usual" or "unusual"?

The Old England
JULIUS W. A. BLOK,
NARAMATA, B.C.

Gentlemen's Outfitter, etc.
Chiefly British Goods Imported Direct.

Naramata Current Events (Continued).

Rev. H. A. Solly of Summerland conducted the service in the church on Sunday last.

Snow at the tunnel camp fell in a considerable quantity on Monday of this week. This is sure getting close home.

Mr Gordon Hayman is the lucky sportsman so far this week, capturing a fine young doe a little north of Mill Creek.

So far most of the hunting parties have returned more weighted down by loads of experience than with the much coveted carcasses of deer.

Word has been received from Ottawa of the safe arrival home of Mrs E. P. Poe, who is now enjoying herself as a guest in the home of her son.

The next meeting of the Women's Institute promises to be one of unusual interest as upon this occasion reports from delegates to the recent convention, Mesdames Reesor and Davies, will be read.

The free trips on the "Skookum" to Pentiction have of late been freely taken advantage of by at least those who wished to benefit by such a chance to see the shows put on the boards at the theatre.

Another recruit from Naramata, Mr W. D. Mackie, who has seen thirteen years service in India, left on Monday's boat for Vernon, where he has caught a place in Kitchen-er's army as a member of the Army Medical Corps.

"Booser," the faithful airedale dog belonging to Mr W. D. Mackie has been given in charge of Mr Wolstencroft, but the dog prefers to lie on the outside step of the now deserted cottage—doubtless awaiting the return of his old master.

Mr Will R. Bartlett has quite excelled himself as a holiday taker, as last week he managed to squeeze out two whole, real holidays, the one spent at Peachland, and another spent as a guest of Mr Robinson at the summer camp east of town. After such periods of dissipation our postmaster will once more settle down to the really serious business of being an efficient public servant.

Interest in Red Cross work is now in evidence, and it is a good sign—a sign of a healthy interest being taken in the welfare of the fellows at the front, who have had to run the gauntlet of pain and suffering. The women of Naramata have a reputation as trail breakers to maintain, and in Red Cross work will at least keep their part of the trail well and truly blazed. The next meeting of the society is to-morrow afternoon. Let every member who can, attend this meeting.

The regular monthly meeting of the W.C.T.U. was held on Tuesday afternoon at the home of Mrs W. W. Mitchell. Only a representative number turned out, but those of the community who are given to under-estimating the work actually in hand by this really big concern—a society of serious women—should bear in mind that the women realize that the time to strike for prohibition in this province is at hand, and the gathering on Tuesday would seem to echo the sound now in the air of "Banish the Bar."

Mr J. M. Robinson, while camping at the Tunnel Heights, in the very heart of a magnificent pine and fir forest, became possessed with the idea of turning at least a portion of his pre-emption—or at least the timber standing on the same—into lumber, and while not definitely decided, he has actually under contemplation the establishment of a lumber camp, a camp equipped with a portable mill, and run by a good sized gang of men. If this dream should take form there will sure be things doing round Naramata this coming season.

What is being done by the Town Fathers—the Farmers' Institute—to see that the visitors from Calgary, representing wholesale fruit distributors and others—who are to tour the Valley in October, are given a chance to see Naramata? An opportunity such as this should not be allowed to slip by us unimproved. No use in morose talking. What we need is definite action. If our town and district is to maintain its name as a live, progressive and thoroughly up-to-date little community, we've got to get together and work and boost for our town.

The Naramata Supply Co., Ltd.

Naramata Current Events (Continued.)

Rev. R. M. Thompson will conduct the service in the church next Sunday afternoon.

Mr Tom Kenyon is expected home on a week's furlough from camp duties at Vernon.

Mr John Noyes reports that he has been successful in producing a fine sample of vinegar from ripe tomatoes. What next? Shall we start a vinegar factory?

Mrs Fred Simpson reports from her poultry yard a number of spring pullets sufficiently developed to have already begun to think of the "clucking" stage. The birds in question are not yet seven months old. The first eggs were laid before fully five months old.

Mr and Mrs James Wells purpose leaving for Calgary early next month, where they expect to figure as the principals at a golden wedding celebration. The family gathering will be held at Calgary at the home of one of the daughters, Mrs Hy. Price, thus making it comparatively easy for the other members of the family to congregate.

Next Friday afternoon, Sept. 24th, the parents are invited by the School Board and teachers to be present upon the occasion of the presentation of the Governor-General's medal to Master Stanley Stiff, in recognition of all round proficiency in his studies. The teachers and scholars are preparing a short program for the last half hour—that is from three till three-thirty. All who intend to come should try to be prompt—not too early—not a little bit late, so as not to interfere with the working hours of the school.

The government are determined to get after the "short change artist" who in the fruit business employs many and various means of giving the buying public the short end of everything, such as improper packing, lack of uniformity, improper grading, calling No. 8's No. 1's, and reducing the size of the package. Notices are being posted this month throughout the province wherever fruit is being shipped, and warning dealers against creating offences, and naming the no-inconsiderable punishments to be in readiness to pass out to any unlucky offender. Probably even we here in sunny Naramata would do well to read the notice from A to Z.

Wanted

To trade a choice 10 ac. Lot for an Acre Lot near some town in the Valley.

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

DAIRYING OR PEACH GROWING?

Lake View Ranch, Summerland, B.C. 16th Sept. 1915.

The Editor, Summerland Review.

Dear Sir, Mr A. A. Derrick's letter in your issue of 10th inst. no doubt contains a lot of useful information and advice, but to me it seems very questionable whether stock raising and dairying would pay on land valued, assessed, and taxed as high as the average orchard land in Summerland.

Were I to go in for this class of farming I would go back 12 miles from Summerland, to Meadow Valley, where I represent 180 acres, admirably adapted for this purpose, and the taxes are only \$30.15 per annum for the 180 acres, compared with \$445.80 for 45 acres here. Furthermore the capital required to launch out on such an enterprise here would be quite considerable, as it would mean removing the greater part of the fruit trees, sowing the feed, fencing, building a large cow shed with all the necessary accessories, and last, but not least, purchasing GOOD cows.

I note that the taxes on the 48 acre farm in Ontario, of which Mr Derrick gives us the profit and loss account, only amount to \$26 per annum, which is a very different figure to what we have to pay here.

On the front page of your last issue I note two articles, one concerning Vancouver from Inspector Cunningham, the other Calgary, both pointing out the tremendous shortage of peaches this year.

If this is truly the case, why, as with all produce of which there is a greater demand than supply, do not the prices go up? Mr S. J. Fee informs us that the Calgary market is hungry for peaches, and that he was astonished on going over this district to find tons and tons of peaches being left on the trees to rot and drop. Let Mr Fee place his orders direct with the Summerland growers and pay them a price that will leave them a small profit for their work, and he will doubtless be able to get all the peaches he wants to fill the hungry Calgary market.

For my part I cannot help but come to the conclusion that there must be something radically wrong in the marketing and distributing of our fruit, and the sooner the flaw is found the better for the whole community.

Yours truly, P. G. KOOP.

Mr W. C. Kelley motored to Penticton on Wednesday to attend to some court business.

William Steven brother of A. H. Steven, who enlisted at Vancouver into the Royal Engineers on his arrival from New Zealand, had expected to return to the Coast last week end, when his leave expired. He has now received an extension of his furlough, and will be here for yet another three weeks or thereabouts.

Roy Darkis has enlisted in the 54th, and went up to Vernon on Thursday morning.

Mr R. A. Barton and bride of Penticton were registered at Hotel Summerland early this week.

Mr James, our new municipal electrician, is expected here to enter upon his new duties on Monday next.

Mr and Mrs Magnus Tait and family are enjoying a camping holiday at Bathfield, west of Summerland, for a time.

Thirty-seven cars of fruit and vegetables started rolling from Vernon on Sunday last making a record shipment.

Mrs Lipsett and Miss Barracough, who have been recuperating at Halcyon Hot Springs returned home on Tuesday.

Mrs F. A. C. Wright boarded the boat last night for Vernon where she is taking her two boys to put them in the boys' school there.

Mr W. H. A. Moore expects to resume teaching next week. He intends having music studios both in Summerland and in West Summerland.

At the evening service in St. Andrew's Church next Sunday, the subject of Rev C. H. Daly's address will be "Our Schools." Parents and Trustees are cordially invited.

Mr T. N. Ritchie, who has been at the Coast on a business trip, is expected to return this week-end. During his absence his business is being looked after by Mr Will Ritchie.

Several gangs of men are shortly to be sent out along the K.V.R., between Osprey Lake and Princeton, to put that, the newest portion of the line, in good shape by trueing up and rebalasting.

Mrs Rivington and her sister, Miss Willan, are leaving this week end, the latter for the purpose of entering as a nurse in a hospital in San Francisco, while Mrs Rivington, who will accompany her sister as far as Seattle, will visit for a time with friends at Vancouver and Victoria before returning.

Though the building season has been a quiet one, yet one local contractor, Bert Harvey, seems to have been kept on the hustle. Mr Harvey is the only one who uses the local press to advertise his business, which probably accounts for the fact that he is getting the big share of the work that is to be done.

A cablegram was received last week by Mrs F. W. Andrew advising her of the safe arrival at Plymouth of her sister Miss Blott, who is one of the B.C. Hospital staff. The party landed at Plymouth on Sunday, the 5th inst. George Fisher and Elwood Bent are two other Summerland citizens on the same staff.

The small boys—and some of the larger ones too—are getting excited now that the kikaninnie season has started. The fish are not very plentiful as yet, though more numerous in some of the creeks than in others. By-the-way, something of the life history of this fish which makes its presence known but little more than a month each fall would be interesting.

A party of school teachers and friends, nine in all, made a driving excursion to Fish Lake last Saturday, and in spite of the fact that the lake did not live up to its name, a very pleasant outing was enjoyed. The party included Mrs Lister, Miss Mary Lister, Miss J. Rothwell, Miss Annie Dale, Miss Bateman, Messrs R. B. Forsyth, D. H. McIntosh, J. O. Smith, and David, Ernest, and Fraser Lister.

A very serviceable fixture, and in fact an almost indispensable necessity, in the form of a sink of special design has recently been installed in the sterilizing room at the hospital. The sink, which is of the very best adamant of English make, together with the fixtures and the cost of installation, is the gift of Dr Andrew. Water is served from one outlet, and the temperature of the water, as well as the pressure is regulated by pedal cocks conveniently arranged to be operated by pressure of the toe. Needless to say the Matron and her assistants are delighted with this new addition to the Hospital equipment, and the operating surgeons will no doubt find it a great convenience.

A. H. Steven shipped out another carload of fruit to Calgary last Wednesday night.

Robert Callan and George McLeod came down from the Vernon camp on Thursday's boat.

Mr G. J. C. White went up to Vernon this morning to attend a meeting of the executive of the United Growers.

After a visit of about six weeks to relatives at Victoria, Mrs John Tait is expected to return home this week-end.

L. C. Woodworth has leased his former slaughter house from the assignee of the estate, and is again entering into the wholesale meat business.

Mrs Hilborn came in on Tuesday evening's boat having stopped off for a day's visit at Kelowna on the return trip from the Institute convention at Salmon Arm.

The considerably worn decking of the C.P.R. carslip has recently been replaced by some very substantial 4 in. planking, which will no doubt stand much hard wear.

Mr F. H. Latimer, consulting engineer for the municipality, was about in the district early this week attending to some business in connection with our civic public works.

Mrs Kate Bentley, who has been ill at the home of her daughter, Mrs Pares, has so far improved as to be able to return to her home. Her speedy recovery gives great satisfaction to her many friends.

The Duke of Connaught's car was supplied before it pulled out of Vernon on Wednesday with a quantity of fine peaches from Summerland, furnished through the thoughtfulness of Col. Cartwright.

Mrs Bateman of Vancouver, who is visiting with her daughter, Mrs G. L. McWilliams, was the soloist at the Baptist Church service last Sunday morning when she sang a beautiful solo, "My Task."

Services will be held in the Methodist Church on Sunday next at 10.30 a.m. and 7 p.m., to be conducted by Rev. R. W. Lee. In the evening, the anniversary of the Order of Rebekah will be duly recognized. Special music will be rendered by a united choir. All are heartily invited.

Mr J. S. Emerson, owner of the Fulton property, Peach Orchard, came in on Monday night and has been a guest at Hotel Summerland. Mr Emerson was joined here last night by his daughter-in-law and children and maid. It is probable that they will remain here for a considerable time.

Mrs H. A. Solly, one of the delegates to the Women's Institute Convention at Salmon Arm, returned last night. After the convention Mrs Solly came back as far as Kelowna, where she was joined early in the week by Mr Solly, and from there they went to Vernon to witness the review during the Duke of Connaught's visit. Mr Solly is officiating at a funeral at Westbank, and is expected home today.

Mr and Mrs May, and Mr and Mrs Theed were visitors to Princeton on Sunday and Monday of last week. Engaging an auto the trip was made to the mining town by way of Shingle Creek, Kermeos and Hedley. With the exception of a short piece between Trout Creek and Shingle Creek, the road was described by Mr May as being in excellent condition. At Princeton the party were shown about the district by Mr E. Waterman, Manager of the Princeton Coal and Land Company, with whom Mr May has had many years of acquaintance. The return trip was made over the K.V.R.

Miss Beatrice Anderson, who is visiting at the home of her aunt, Mrs Anderson of Peach Orchard, was in Bruges, Belgium, when that country was overrun by the Germans. With her sister she went over from Toronto to attend the marriage of another sister to a lace manufacturer of Bruges, expecting to be gone but a short time. It was not until after an absence of thirteen months that the sisters again reached Toronto, minus much of their luggage. The business of her sister's husband has since been completely destroyed, and he has gone to Ottawa as an interpreter. It is understood that he has been offered the position of Belgian Consul at Ottawa, which he may accept, although he prefers re-engaging in lace manufacturing.

Mrs A. C. Stuart was a passenger to Kelowna on Thursday morning's boat.

Miss Helen Phinney leaves tomorrow morning for a visit with friends in Portland, Oregon.

The Ambulance League will meet next week on Thursday at 2.30 in the Men's Club. More old linen is urgently needed.

Mr Archie McNee of the Windsor Evening Record, an ex-president of the Canadian Press Association, is on a visit to his nephew, Dr J. P. McIntyre.

T. J. Garnett shipped a car of mixed fruit, mostly apples last Saturday to his brother, Ed. Garnett at Nanton, Alberta. The fruit was mostly from the Gartrell and Garnett orchards.

Mr Lavis, teller in the Bank of Montreal has obtained leave of absence and expects to go into camp at Vernon where he has already enlisted. His place in the bank has been taken by J. M. Ward, Vancouver.

For some months past the mail at the down town post office has been made up in the morning just before the arrival of the boat from Naramata. Henceforth it is the intention of Postmaster Hayes to revert to the former practice of closing the mail at 9 o'clock each evening.

Reeve Blair brought to the Council meeting last Saturday two horticultural curiosities which a few other fruit growers may be able to duplicate, but not many. They were a cluster of second crop strawberries, showing some fine red berries that looked the more appetizing being out of season, and a spray of apple blossom, which is a fall phenomena a little more common.

Mr and Mrs Frank Marshall, of Hotel Summerland, are building up for themselves a good reputation as entertainers, and this may be one reason why it is expected that the Whist Drive to be held this evening Friday, at the Hotel, will be largely attended. Another very good reason is that all the proceeds from the 25 cent admission charge are to be donated towards the local Red Cross funds.

The operators of the three local telephone offices had a very pleasant outing yesterday at Okanagan Falls. The party were taken down by motor by Mr Atkins, of the Summerland Telephone Company, and included Miss Conway, Miss Watson of the Government Telephone and Miss McLeod of the Okanagan Telephone Company. At Penticton they were joined by Miss Clark, a former operator in the Summerland Company's office.

The Okanagan Valley Sunday School Association will hold its annual convention at Summerland on October 20 and 21, instead of the dates originally named, the change being made to have lighter nights. One day at St. Andrew's Church, and one day at the Lakeside Baptist Church. The people will be asked to open their homes for the entertainment of the delegates. It is expected there will be an interesting and profitable program.

Sir Richard McBride has announced that the period of redemption for tax sales will be extended from one to two years in municipalities all through the province.

Mr and Mrs J. F. Faulkner, 2618 Ontario Street, announce the engagement of their youngest daughter, Frances Elizabeth, to Mr Ralph Harding Young, the marriage to take place in October.

The editor of this paper has a warm place in his heart for the friends who bring or send in news items. It is the desire of this paper to give all the news of the time, and those who lend us their assistance to that end have our unbounded gratitude.

E. Garnett, who left Summerland about two weeks ago to make the journey to Calgary by automobile, made the trip in five days. He experienced some minor car troubles, owing mainly to bad roads, but was fortunate in escaping tire troubles—the motorists' chief bane. His route was via Oroville, Grand Forks and the Kootenay Valley. When nearing Calgary he encountered a fall of soft snow.

NOTICE.
Present financial conditions make prompt collections a necessity. I am therefore compelled to refuse further credit to customers whose back accounts are not paid and to make it a fixed rule to insist on payment of each month's account on or before the 15th of the month following, when, if not paid, no further credit can be given until the account is settled.

Newsy Paragraphs
from
PEACHLAND

Mr Biggar of Kelowna was a guest at the Gummow home this week.

Roy Davidson, who has been visiting at Phoenix, returned home on Tuesday.

Harry Urquhart has enlisted at Vancouver. It is probable that he will enter the Vernon camp.

Mrs J. McLaughlin returned home on Tuesday from a visit with her daughter, Mrs Kirby of Penticton.

There was a fair attendance at the regular monthly meeting of the Women's Institute held on Tuesday afternoon.

Miss Bessie Geddes of Kelowna, who was for a few days the guest of the Misses Henderson here, returned home on Wednesday.

The Liberal-Conservatives held their regular monthly meeting on Saturday night. Little more than routine business came up for attention.

Bert Keating and Archie Seaton, who have been in the employ of the Westminster Trust Orchard, under Manager J. T. Long, reached home on Saturday.

The local park is to be cleared and cleaned up, funds for this purpose having been appropriated. The Council are just now asking for tenders for the necessary work.

Norman Pope is enjoying life in England, according to a recent letter received by his father, A. N. Pope. Norman had just had a short leave of absence, and the time was spent in London.

Miss Dancer and Miss Chapman of Summerland have been spending a week here, the guests of Mrs E. House. They are greatly enjoying their visit here, renewing old acquaintances of former visits.

A porcupine was captured on our main street this week by Emmet Shaw of the packing house. The animal was walking along the side walk when seen by Mr Shaw who caught it by clapping a fruit box down over it.

Mr and Mrs A. E. McGraw started out the other morning for a tramp among the hills in search of game. It was no surprise to their neighbors when they returned the same evening with a large brown bear and a coyote.

Fire Warden Hogg returned on Tuesday after a week's trip in the hills. This ends his work for the season, which closed on September 15th. Fortunately there have been no bad fires in Mr Hogg's district this season.

Mr Grant Lang of our local School Board left for Chilliwack last Saturday to attend the session of the B.C. Trustee Association, of which he is Secretary. Trustee Williams went out on Sunday to represent the Peachland Board at the convention.

Roy White and L. Hatfield of Summerland came up from that town by motor on Wednesday night of last week and spent the night with Roy's people before continuing to Vernon, where both have enlisted. H. Reynolds and George Needham accompanied them from Summerland.

AUCTION PROPOSED.

The Ambulance League are finding themselves a little low in funds, and just at present are devising ways and means to augment the same to enable them to carry on their work through the winter. Not only do they need money to buy wool for socks, and warm material for hospital garments, but they are particularly anxious to raise \$50 with which to buy the necessary material for making surgical dressings at their Red Cross meetings. To do this they are contemplating holding an "Auction Sale" at a near future date. Everybody is asked to look through their personal or household effects and send something from among them to be auctioned off for good of the cause. Fruit, vegetables or poultry or farm produce would be equally acceptable, in fact anything at all likely to sell. Further particulars will be given next week; this is only a preliminary notice to give everyone plenty of time to look through their possessions and decide what they will send to the Red Cross Auction Sale.

WANTED:
Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

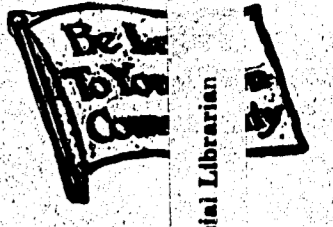

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 8. Whole No. 373.

SUMMERLAND, B.C. SEPTEMBER 24, 1915.

\$2.00, payable in advance.

Building Getting Brisk.

It is said that the condition of the building business is a sure barometer of business conditions generally. This being so, it is evident that Summerland cannot reasonably complain, especially when conditions here are compared with the general situation throughout the West.

Just at this time there are several buildings under course of construction, and if all plans mature there will be others erected as soon as the flush of the shipping season has subsided.

Of the work that has come to the attention of the Review, the large house now being built for Mrs. J. M. Harrison is perhaps the most important. This, it is said, will be a large two-storey building, with full size basement. Another home under construction is that of S. B. Snider, on the Triangle Ranch, east of Giant's Head. In Garnett Valley, A. E. Shaw, a late arrival, is building a small cottage on property recently purchased, while S. G. Rand of the same district is also putting up a good sized house. Yet another house now being built is that of J. C. Brown, already mentioned in these columns. Here and there one will find additions and alterations being made, all adding to the comfort of the occupants and the appearance of the properties.

Among those mentioned as soon to be undertaken are the two houses to replace those burned this summer, namely the homes of the Wright brothers and of H. C. Mellor. Yet a number of others are likely soon to be placing orders for the necessary material for the building of houses, barns, etc. There are not many places of its size the province over that can show a better building record during these times of temporary depression.

THE WOMEN'S INSTITUTES.

The regular monthly meeting of the Summerland Women's Institute was held in the Men's Club on Friday last, Sept. 17th. The roll-call was answered with quotations from Tennyson, and any present who could not reply in this way were fined five cents in aid of the Red Cross. The motto was "To speak no slander, no, nor listen to it," from Tennyson's "Guinevere."

Mrs. Solly gave the month's current events, and a most interesting account of the Institute Conference held at Salmon Arm. One of the suggestions made at the conference was that more scrap books be made for the soldiers, that each one would cut out the most particular home news, etc. and have it all pasted in a book and sent to the interested soldiers. It was thought a good plan to send for some of Miss Livingstone's charts on the values of foods for the use of members.

Mrs. Andrew gave a very instructive and interesting paper on Invalid Cooking, giving also some very good recipes of dishes suitable to invalids. It was a great pity there were not more ladies present to hear the two excellent papers of Mrs. Andrew and Mrs. Solly. Mrs. Solly's was "What our Children Should Read." The subject was dealt with very fully, and Mrs. Solly is of the belief that if young children were properly taught to appreciate and read the right kind of literature, and also taught to avoid of poetry, that in later years they would not have the desire for cheap novels. A hearty vote of thanks was extended to Mrs. Andrew and Mrs. Solly for their splendid papers.

It was decided that the jam for the Belgians and soldiers from the Institute members be sent through the Red Cross, as in that case the transportation will be free. Will any of the members who wish to send jam either leave it at the Paalish Hall or at Mr. Vaughan's store, and be sure to let the secretary know just what you are giving so an account of it can be kept and sent in to Mr. Scott, the Superintendent of Institutes.

Will those who still have "Allied for Right" Buttons kindly send in the returns as soon as possible.

Okanagan Apples For Hospitals and the Front.

A Project Worthy Of Support From Every Orchardist.

It has occurred to not a few people that the luscious apple product of this Valley would be something assured of a warm welcome at the front, if it were possible to arrange a concerted scheme for gathering and shipping such a donation. Mr. George Wolstencroft, of Naramata, has had the idea in mind and more than that, he has gone to the trouble of putting a plan to this end actually on foot. After communication with Victoria and also with Ottawa, he got in touch with the national headquarters of the Red Cross work, who were quick to see what great possibilities the suggestion had. This body has undertaken to take care of any cars as soon as they are ready to start rolling, and to ensure their proper distribution not only among the hospitals in Britain and on the Continent, but also right into the trenches, where the fighting men will likely give the fine fruit a royal welcome.

Mr. Wolstencroft is now in touch with the various local unions affiliated with the United Growers with a view to ascertaining what quantities of fruit could be had from members and others in the form of donation; and also with the different local Red Cross branches, who will take the matter up with individual growers and shippers. It is felt that there are many people who find themselves not able to contribute to the Red Cross work in funds as freely as they would like. Here is an opportunity to contribute in kind, and in a way that will be no less appreciated than hard cash.

For some years past carloads of apples have gone from this Valley to the Old Country, as gifts to friends from Okanagan residents. In times like these when sacrifices are called for, could not this lot of fruit be diverted into a Red Cross shipment?

It is felt that up and down the Valley there should be little trouble in making up a total of four or five cars of apples of suitable varieties. A little later, when it can be seen with reasonable certainty what the extent of the shipment will be, the Okanagan United Growers will be approached to assemble the fruit, making the cars ready to start out on their journey, when the Red Cross Society will take care of them.

There will not likely be any holding back from a project of this nature, and Mr. Wolstencroft, as the first one to put into crystallized form an idea that was in many minds, deserves commendation. He will probably be amply rewarded when he sees the response to the plan, and when the commending words come from the front and from the hospitals, the only regret of the generously minded apple growers who contribute will be that they did not contribute even more heavily.

Will Sell Okanagan Fruit.

The citizens of Maple Creek, Sask., intend holding a picnic on Wednesday, October 6th, in aid of the Red Cross Fund at which they propose to sell Okanagan Fruit, from 35 to 40 cases. It has been locally suggested that there may be some in this district who would be glad to contribute fruit for this estimable purpose, making, for the expenditure of a few cents a dollar or more for the Fund. The committee in charge of the picnic will gladly pay all express charges on good fruit, and the plan is worth consideration from the advertiser's viewpoint, if from no other. Late peaches, plums, grapes, and tomatoes, either in basket crates containing from one to four varieties or in boxes would be welcome. Also good eating apples, pears, and cantaloupes. Anyone who will be so kind as to help with this shipment is asked to communicate with Mrs. Wm. C. Fosbery, telephone 975, or with Mrs. Kate Bentley, Summerland.

Majority of Troops Will Move From Vernon.

Announcement has been made lately by the District Officer Commanding that the majority of the troops now in training at the central mobilization base at Vernon will be returned to the Coast for their winter training. No definite date has been set for transferring the troops to their winter training quarters, but it is thought that no move will be undertaken before the end of next month. Weather conditions will probably be the deciding factor in arriving at a date for demobilizing the camp. The 11th C.M.R., it is expected, will go into billets for the winter at the exhibition park in New Westminster. The 54th Kootenay Battalion is to be sent overseas as a unit as already announced, and therefore will not go to the Coast with the other units. Other regiments now encamped at Vernon will be estab-

C. N. Borton Authorized To Issue Gun Licenses.

It was too much to expect that this town should be for long without an authorized issuer of gun licenses. The three weeks Summerland has been without such an appointee has been long enough to put a good many hunters to the inconvenience of either seeking a licence at Penticton, or having their gun permit obtained by proxy through the kind offices of some friend. Representations were made to the authorities at Victoria, and as a result C. N. Borton has been duly invested with the necessary power to issue gun licenses. This will be welcome news to the majority of our people, who felt that there was some injustice in not giving this district such an official.

lished in Hastings Park, Vancouver, and at Victoria for the winter.

Ambulance League Auction Sale.

Reserve Next Thursday Afternoon For This Unique Event.

The Men's Club next Thursday afternoon, September 30th, is likely to present the appearance of a city auction room. The occasion will be the Auction Sale which the Okanagan Ambulance League announced last week was in course of arrangement. The business of the afternoon will commence at three o'clock, and the auctioneer's hammer will be in the hands of D. E. Hatt, who has already in functions of this kind proved his gift not only for disposing of the goods, but also for regaling the buyers with a continual flow of original humor.

Already many donations have been promised for the sale and more are solicited. The articles already donated show considerable diversity, but all can be said to be of utility. They include a pair of ducks, some books, an article or more of furniture and a camera, among other things. Gifts of standard articles of food are asked for, and also provisions, vegetables, and such articles of personal apparel that are likely to prove saleable.

It should be borne in mind that at this sale there will be bargains appealing to every one, and this, together with the thought that proceeds are for a worthy charitable work, should be sufficient to draw a very large attendance. There is another attraction in the personality of the auctioneer. The announcement that Mr. Hatt is to officiate as auctioneer allows it to be taken for granted that there will be an abundance of amusement during the course of the afternoon.

Those who have gifts which they wish to donate for the sale should leave them at St. Stephen's Hall by next Wednesday evening or have them brought to the Men's Club sometime before the commencement of the sale.

During the afternoon a ten cent tea will be served by ladies of the League, in the parlors downstairs from the hall.

Warning Coast Merchants Against Washington Fruit.

No Reason Under the Sun for Importing, Anyway, Says Inspector Cunningham.

A warning to Vancouver merchants of the risk they run in purchasing shipments of fruit in Washington, and of his intention to rigorously enforce the laws against the admission of infected fruit, has been made by Fruit Inspector Thomas Cunningham. Mr. Cunningham last week condemned two whole carloads of apples and pears from Washington there being 1,800 boxes of fruit thus dealt with. The entire shipment was affected with codling moth and San Jose scale.

"This proves to the hilt that my opinion of the state of the orchards south of the boundary line is correct," said Mr. Cunningham. "The growers there seem to be making no headway in the suppression of these diseases, from both of which our own orchards are, happily, free. This condition can only be maintained by the strict enforcement of inspection regulations. This is being done with a firm hand, and will be continued."

"There is no reason under the sun," said the inspector, "why we should be importing so heavily from abroad this year, for the province is full of good, wholesome fruit, free from scale or moth. It is a surprise to me that our merchants will take the risk of sending their orders to a foreign country, where infection is so rife, and neglect the sale of our own clean, wholesome fruit. I would caution them against investing their money in foreign fruit before they are sure it will pass inspection. If they take such risk, the fault will be with

themselves should the fruit fail to pass inspection."

A third whole carload of apples and pears from Wenatchee most of it beautiful, extra grade fruit, was condemned by the provincial fruit inspectors last week-end. In spite of the fine quality of the fruit it was badly infected with the larvae of codling moth, having evidently been repacked fruit from an infected orchard. It would have menaced the orchards of British Columbia to have permitted the infected fruit to be distributed here and accordingly, after being sealed up again, the consignment of 588 cases of apples and 34 cases of pears, were shipped back again to Wenatchee.

REGISTER NOW, OR YOU WILL BE TOO LATE.

On account of the prohibition plebiscite, which is thought to be considerable activity, both among those who favor it and the "antis," in connection with getting all the names possible on to the new voters lists. These will come before the next Provincial Court of Revision on November 15th.

It is pointed out that the last day for getting on the voter's list is October 4, not October 10, as is frequently supposed. Some misunderstanding has been occasioned by overlooking a new amendment to the election act, which suspends the list of applicants for registration

Ford People Recognize Value of Local Field.

B. L. Hatfield Named as Ford Dealer for Summerland and Peachland.

It will be gratifying to the local pride of many to learn that in a recent redistribution of territory Summerland has been made a centre for the sale of the Ford automobile. The increasing number of cars of that popular make and the growing needs of the community for a Ford centre where parts could be had and necessary repairs promptly attended to, have made a local representative a necessity. The wonder has been why the Ford people have not gotten in here before, instead of depending on dealers in other places to take care of their Peachland-Summerland territory. With the recent division, B. L. Hatfield, the newly appointed Ford dealer, will have practically all the territory on the west of the lake, and the Kelowna dealer the east side, north of Naramata, while the Penticton dealer keeps the south country.

The establishing of such a distributing centre here is sure to greatly encourage the sale of Ford cars in this district, and will be of great value and service to Ford users.

Mr. Hatfield says he will now be able to get all parts and supplies at the most favorable prices, and purposes keeping a necessary stock of such, thus enabling users to get parts at lowest prices and without the annoying delay heretofore necessary.

Donations to Hospital during August.

Donations made to the Hospital during the month of August are gratefully acknowledged by the Matron as follows:

VEGETABLES, FLOWERS AND FRUIT.

Mrs. G. Marshall, Mrs. H. A. Solly, Mrs. W. J. Robinson, A. Friend, Mr. C. Noel Higgin, Mrs. A. Fraser, Dr. R. C. Lipssett, Mrs. W. E. Rines, Mrs. W. Arnett, Mr. C. Napier Higgin, Mr. H. C. Mellor, Mrs. W. Limmer, Mrs. L. B. Ottley, Mrs. J. W. Angwin, A. Friend, Mrs. G. Gray, Fruit Union, Mrs. W. H. Treffry, Dr. F. W. Andrew, Mrs. A. McLachlan, Rev. C. H. Daly, Mr. S. M. Young, Mrs. J. E. Phinney, Mrs. J. P. McIntyre, Mr. John Tait, Mrs. H. Bristow, Mrs. R. E. White, Mrs. W. Estabrook, A. Friend, Mr. F. Marshall, Mrs. H. Rivington, Mrs. R. Atkinson.

MISCELLANEOUS.

Ladies of St. Stephen's Church, chicken broth; Mrs. R. Atkinson, currant jelly; Mrs. S. Phillips, honey; Mrs. S. Angove, old linen; Mrs. R. C. Lipssett, spiced cake, eggs; Mrs. T. Washington, jelly, cakes; Mrs. W. Limmer, drinking glass; Mrs. J. E. Phinney, bread; Mrs. A. E. Hespoler, books; Msnster Kirk Sutherland, literature; Mr. R. Langlands, fittings for medicine cabinet; Mrs. S. Everton, vase.

The date of Thanksgiving Day, fixed every year by the Federal Government, has been announced for Monday, October 11, or two weeks next Monday.

On the first Monday in October, namely October 4, or six weeks before the list is considered by the Court of Revision. Under the old act it was possible to register up till thirty days before the Court of Revision. The amendment is said to be for the purpose of allowing objections to be filed within the thirty days. Persons who do not get their applications in before October 4 will not have them considered until the following May court.

Local electors should bestir themselves to ascertain if they are now on the voters' list, or whether by some peculiar process they have been removed. Such things do happen, and after the lists have been closed is a poor time to discover that one is not a voter.

It is understood that the councillors, postmasters, notaries and a few commissioners besides are qualified to take names for the voters' list.

"Our Schools."

"Train up a child in the way he should go, and when he is old he will not depart from it." With this well-known proverb of Solomon as his text, Rev. C. H. Daly delivered a sermon which he entitled as above, of interest equally to teachers, parents and trustees, in St. Andrew's Church, last Sunday evening.

There were, he showed, many different views as to what the schools should strive for to accomplish the best work. The scholarly man, the zealous churchman, and the average man on the street, all had their own ideas, but they were all lacking in one essential particular: What the schools should seek after above all else is the moulding of character. This should be their objective, to train the faculties of the boys and girls, but at the same time point them to high ideals of life, to the attainment of a character true and lasting.

To carry out this aim, Mr. Daly said, the schools of this province lacked the greatest help—the Bible. Morality is based upon religion, and how could the schools teach the children the highest standards of morality without the Bible, the great textbook of religion?

Mr. Daly passed on to show how this aim could best be attained. Parents did not always do their full share of a child's training, being too much inclined to place the burden of the responsibility upon the teachers and school authorities, during the school years. Co-operation with the school trustees and with the teachers should be practiced constantly. The way to do this is not to make one's self known only when there is a grievance to be aired, but by displaying a continual interest in the work that is being done. Mr. Daly also laid heavy emphasis upon the need of parents co-operating with their children. He dwelt very effectively upon this point. Parents should strive to keep their children's confidence always; this is an important factor in proper training, and one tending greatly to honor and uprightness.

Reverting again to the need of the Bible in the schools, Mr. Daly mentioned that before long the local Board of Trustees are to be approached with a view to allowing the introduction of Bible reading once a day into the schools here. The school law simply states that teachers shall endeavor to inculcate high moral standards into the minds of their scholars, and while refusing to sanction sectarian teaching, it does not expressly forbid the introduction of the reading of the Bible.

Teaming Accident.

Suffering a somewhat peculiar accident last Friday afternoon, Alex. Smith has this week been able to do little else than get around the house stiff and sore. It was a mishap from which he was fortunate to emerge with nothing more serious and complicated than a broken rib. He had loaded a wagon with wood on the pre-emption of G. R. Hookham at the upper end of Peach Valley, and with a good load on, was proceeding down a sidehill, seated on the top of the load. The ground covered with pine needles, did not offer a gripping surface to the rear wheels of the wagon, with the result that the rear part gradually slid round till one side of the wood rack was hard on to the lower front wheel. The rack broke, and the load collapsed, throwing the driver down, almost burying him beneath. It seems fortunate that the horses did not take fright, or the damage would surely have been more serious. Alex. Smith extricated himself with some difficulty, and though hurt, could not ascertain to what extent. Suffering considerable pain he nevertheless unhesitatingly got up, and proceeded to make his way as best he could, for assistance. He reached the K. V. R. station before he met Mr. Thos. Dale, by whom he was driven home. Medical attention was secured as soon as possible, and a broken rib was all the injury that could be found. With plaster and bandages he has been made fairly comfortable, but it will be some days yet before he is able to attempt any vigorous work.

FRIDAY, SEPTEMBER 24, 1915.

SHALL WE HAVE THE HONOR?

FROM A LOCAL PULPIT last Sunday it was learned that the Board of School Trustees are to be asked to allow a daily Bible reading to be introduced into the daily curriculum. This would be in the nature of an innovation, and as such, however good it may be in itself, it is not likely to be generally and warmly welcomed. The attitude may be taken that it is beyond the power of the local board to grant such a privilege. This cannot altogether be admitted, for it is understood that the Department of Education at Victoria has been communicated with by those favoring the project, and the reply was distinctly non-committal. The precise wording of the law was recited, but without any attempt at an interpretation in regard to the point at issue. This would almost lead one to the conclusion that it is up to the local board to decide. If the idea had been repugnant to the provincial authorities, they would surely have said so.

Taking the question on its merits, what is to be said against a simple daily Bible reading in the schools? Let it be without comment, and let suitable portions be laid out to aid in the selection of the daily passage. Let those portions of the Scripture be left alone, that mature minds have difficulty and controversy in wrestling with. Could the influence such a reading might effect be for anything but the best? Would the atmosphere such a step might help to create, be at all detrimental to the school work? It is hard to see how such a beginning to the school day could be amiss. Teachers and scholars would be brought into a new relationship tending toward better results.

Keep religious controversy and prejudice out of the schools by all means, but how can we withhold from our children contact with the Book of Books that forms the code of human morals, and measures the standard of conduct to-day as it has for centuries past?

Let the question stand on its merits, aloof of all petty feeling and jealousy. It was well termed an honor that Summerland might have in being the first place in the province to have the open Bible in its schools.

THE PARTY of Calgary merchants and business men who are going to make a trip through the Okanagan early next month are showing a practical form of patriotism. They are going out of their way considerably and incurring personal expense to make themselves acquainted with the British Columbia fruit districts. These men have been interested in the "Canada First" movement, and the Okanagan owes a debt of gratitude to whoever is responsible for getting this interest to take form in a trip through the Valley.

Summerland should meet these men in a manner worthy of her

position as the premier soft fruit shipping centre of the Okanagan. Other towns will without doubt take pains to treat the visitors with the utmost hospitality, and naturally enough, it is to be expected that the party will carry away with them best impressions of the towns that greet them most heartily. The town that ignores them is likely to gain no benefit from their visit. When it is considered that the fruit business of the city of Calgray is almost large enough to affect just of itself the well-being of the Okanagan, and further, that these men are representative of the largest commercial interests of the city, it becomes apparent that it is up to us to offer the glad hand to them when they come to Summerland.

ANOTHER AMERICAN STATE to line up in the "dry" column is South Carolina. In the elections held last week forty-four counties in the state indicated a majority of twenty thousand votes for state-wide prohibition. The new law will become effective on January 1st next. It will prevent the sale of beers and wines as well as of liquors. In our own country, Perth County, Ontario, has just voted to put the Canada Temperance Act into force, within its boundaries, which means prohibition. As a result of the vote, a proclamation has been issued that prohibition shall be in effect in the county from and after the date of the next licensing sessions, if that date is not less than ninety days from September 1st. The population of Perth County at the last census was just under fifty thousand.

"VOTES FOR WOMEN" now seem assured for the Province of Alberta. Writing recently to the President of the United Farmers of Alberta, Premier Sifton said:

"Your letter in regard to woman suffrage received. This matter has the serious consideration of the government, and I have given instructions for the preparation of a statute placing men and women in Alberta on a basis of absolute equality as far as provincial matters are concerned. The bill will be presented at the next session of the Legislature as a government measure."

OUR OWN BRITISH COLUMBIA is to have a war contracts probe next week, following the arrival in the west of Sir Charles Davidson, who has been appointed by the Federal Government to enquire into war contracts. The chief inquiry will be at Victoria, where Sir Charles' commission will investigate the purchase of the two submarines bought just before the beginning of the war.

THE ANNOUNCEMENT that the Canadian Northern Railway will, early in October, commence a tri-weekly through train service from Montreal to Vancouver, marks another milestone in the transportation history of the country. It is anticipated that it will not be long before the business of the new line warrants at least a daily service. In this province the Canadian Northern taps a section of country that is expected will prove remarkably productive, and whose development is now going to be very greatly accelerated. Not only British Columbia, but the entire country is going to derive benefit from the operation of a third competitive transcontinental line.

HEDLEY MINES ARE GILT-EDGED INVESTMENT.

The Hedley Gold Mining Company, operating the Nickel Plate-Sunnyside group of gold mines and a forty-stamp mill and cyanide plant in Camp Hedley, Similkameen, will, at the end of this month, pay its customary 5 per cent on its issued capital of \$1,200,000, or a total for the quarter of \$60,000. It is the rule of

this company to pay a similar amount at the close of each of three quarters of each year, and then at the end of the fourth quarter make a larger distribution. Last year, owing to war conditions, the directors deemed it wise to maintain a cash surplus in hand of at least \$100,000, consequently, the dividend for the final quarter was ten per cent., making the year's total of dividend disbursements to shareholders \$300,000, instead of fifteen per cent. for the last quarter, with a total of \$360,000 for the year, as was paid in in both 1913 and 1912. When the company's general superintendent was in Victoria a few weeks ago he stated that so much ore of good grade had been opened in the mine that this year's total of dividends may confidently be expected to be similar to those of 1913 and 1913.

The home paper is the mirror in which those at a distance see us.

JAM CANS

Gathering of Delegates From Okanagan District at Salmon Arm. Far-Reaching Resolutions Passed.

Salmon Arm was highly honored on Tuesday and Wednesday, Sept. 7th and 8th, when that city was visited by the delegates to the Second Annual Conference of the Okanagan District Women's Institutes.

Mrs M. S. Davies of Chilliwack, Secretary of the the Advisory Board occupied the chair. In a few appropriate words she extended a hearty welcome from the Institute to all the delegates, also from the Hon. W. E. Scott, who regretted his inability to attend the conference. Sorrow was expressed that ill health prevented Mrs R. C. Lipsett's presence, but she had sent her wishes that the conference would meet with every success. Patriotic work had held the principal place in the year's labors, and the Institute had risen nobly to do its part. Much real help had been given the Red Cross societies, and funds had been devoted to relief and patriotic work at home and abroad.

A paper on "The Privileges of Women in the 20th Century," by Mrs Lang of Peachland, was read, and Mrs Solly opened the discussion on the paper, calling attention to the difference between a duty and a privilege.

A paper by Mrs Fosbery on "The Opportunities for Women in the 20th Century" was next read by Mrs Solly. Mrs Staunton opened the discussion, stating that many callings had been entered into by women, but at this time of national stress, women must be ready to take up men's work in every way possible, using brain and brawn to their utmost.

Mrs Solly then addressed the convention on the work of the Red Cross Society. She gave a concise history from its inception at Genoa, 1864, the origin of the emblem of the society, and its aims, principally for aiding the sick and wounded.

FOR SALE.

Fire Wood, 18 inches and 4 feet.

BALCOMO RANCH. R. V. Agur, Mgr.

and to create international laws to safeguard the work of the Red Cross among prisoners and wounded.

The motto of the society is "Brothers All," and the same care is given to all irrespective of nationality. She said the nation is passing through the most trying time in its history. We have to sacrifice our time, our money, and our personal inclinations. The soldiers in the trenches labor under many disabilities, why not we?

Mrs Davies asked the delegates to report on the Red Cross work in their various districts, to which all replied, some having previously prepared the report in detail.

Mrs McGregor of Penticton, a vivacious speaker, was one of the latter, and for the encouragement of those who had labored last year, and that they might know exactly what happened to the many bales sent out by them, she gave Miss Arnold's personal account of how these parcels and comforts were distributed among the soldiers.

A paper on "Recreation for Young People in Rural Districts" spoke of the responsibility of parents in supervising the recreation of children, for the choice of diversions in future years would depend on those inculcated in childhood.

It was suggested that music, calisthenics, and drill were healthy recreations, and that the Women's Institute could not better utilize some of its funds than by arranging for systematic instruction in these branches in our schools.

This ending the business of the first day, the conference adjourned until Wednesday morning.

The second day of the conference was called to order by the chairman, Mrs M. S. Davies, at 9:30 a.m., and Mrs H. F. Smith of Salmon River Valley was called upon to read her paper on "Study Courses for Women's Institutes."

At the conclusion of the paper the chairman remarked that she was pleased to hear the many interesting points raised in the paper, and asked the conference whether the members had carefully followed Miss Livingstone's tuition given at her cooking classes, and not merely followed the recipes.

One of the delegates remarked that there were many members who were quite willing and able to help in a practical way, and thought much good might be done by encouraging these members to give demonstrations of practical utility.

A paper on "Eugenics" was then read by Mrs H. McGregor, of Penticton. The writer gave a short description of the meaning of Eugenics, and the cause which had made necessary its existence. Figures were given showing the alarmingly huge increase in the number of insane in this country, and pointed out that it was an established fact that the race was being replenished from the lower levels of society.

A very interesting discussion was caused by this paper, many of the delegates entirely disagreeing with some of the views held by the writer of the paper.

A delegate introduced a new device for canning fruit and vegetables which could be so arranged that it could be used outdoors. The outfit, complete with soldering tools, cost \$6, and the express and duty amounted to a further \$6.20. It was said that hundreds of women and girls were making good money in the United States by canning vegetables.

The following questions were then read out by Mrs Davies:
How can we interest our young girls in the work of the Institute?

The chairman suggested that this might be done by giving the girls the privileges of the older members and making them feel that they were a part of the Institute. Many other suggestions were put forward by the delegates.

Who should be chosen as delegates for the convention?

Mrs Davies thought that they ought to be the president and secretary.

Would it be possible at the next conference for the secretaries and officers of each Institute to send a report?

The chairman remarked that the reports could be greatly reduced in length so that they would not take longer than five or ten minutes, also she would look to each Institute to supply a paper or lead in discussions.

How to overcome the opposition to the election of women on the Board of School Trustees?

Some of the delegates reported that there was no opposition expounded, but a delegate from Vernon said that they had one lady as trustee for a term, but the opposition was so strong that she had to resign.

Mrs Davies asked why it was that the women had not backed her

up. They needed a lesson on loyalty, and must stand by one another as the men do.

What are the qualifications for membership?

Mrs Solly of Summerland said she asked this question because they had had about 50 join the institute for the purpose of attending the cooking classes but had never attended a meeting since. This pulled down their average and prevented them from obtaining the prize for attendance.

The chairman did not think that anything could be done to prevent this from happening.

A question was raised regarding the funds collected for the Red Cross, as it was said that there were misgivings as to the use of them.

Mrs Solly was called upon to answer this query, and said that there was absolutely no foundation for any fear that the money was being used for any other purpose than for that for which it was donated. The Red Cross expenses were very small, as all services are rendered freely as well as their office rents.

Mrs Resor read an interesting paper on "Home Industries in B.C." After a brief discussion had been held another paper by Mrs McCallum of Keremeos, on the "Parents' Responsibility Towards the Child's Education" was read. This was an extremely interesting paper and advised the judicious use of corporal punishment.

The report of the resolution committee was then read, and the following resolutions received the endorsement of the conference:—

1. Resolved that this conference endorse the aims of the B.C. Consumers' League, and urge the members of the Institute to pledge their support. Adopted.

2. Resolved, that as merchants claim that the demands of the consumers make the purchasing of foreign goods and produce a necessity, therefore, be it resolved that in future the members of all institutes shall refuse to purchase such articles as are not produced in Canada or the British Empire, unless at a season when not procurable from either. Adopted.

3. That whereas our markets are flooded with American fruit whilst B.C. fruit of fine quality may be secured, the fault in this case being laid at the door of the wholesaler. Resolved that the Women's Institute earnestly request that the matter be thoroughly investigated and the parties at fault consistently dealt with. Adopted.

4. Resolved that we, the members of the Okanagan Women's Institute now assembled at our Annual Conference appeal to our local representatives at the Provincial Legislature for a revision of the laws of B.C. regarding women and children with a view to their settlement. Adopted.

5. Resolved that the Okanagan Women's Institute request the Department to revise Sec. 14 of the rules and regulations so that the election of officers, president, vice-president, secretary, treasurer, as well as the directors, may be by ballot at the annual meeting. Adopted.

6. Resolved that individual members take remarkable interest in the school affairs and work to have one of their number on the school board whenever feasible. Adopted.

7. Resolved that each institute obtain a travelling library; try to have school libraries placed in butyling districts and supply isolated families with reading matter. Adopted.

8. Resolved that in the opinion of the Conference there should be action taken in every district by the Women's Institute to see that there is proper supervision of the school children during the noon hour. Adopted.

9. Resolved that the Institutes endeavor to induce the government to enforce laws that tend to Sabbath observance.

10. Resolved that vote of thanks be tendered to Mayor Lacey for his kindly words of welcome; the elders of the Presbyterian Church for the use of their building; to the Women's Institute, especially the president of the Salmon Arm Institute, for their kind arrangement for our entertainment and hospitality; to send a letter of sympathy and regret to Mrs R. L. Lipsatt for her illness and inability to be present at our conference; also a vote of thanks for her untiring work during the year, and especially during conference week; to those giving papers and otherwise assisting in our excellent program. Adopted.

At the conclusion of the conference the visitors were taken for a trip round the surrounding country in automobiles, kindly placed at their disposal by the owners.

A Clubbing Service
FOR
Review Subscribers.

Desiring to be of as much service as possible to our subscribers, we have, at a good deal of trouble, arranged with a large number of publishers to obtain their publications for Review Subscribers at lowest possible prices. Herewith is a very full list from which selections may be made.

Make your choices, then call, 'phone or write us, and special price will be quoted.

GILLETTS' LYE EATS DIRT

WOMEN AND PUBLIC NEEDS.

Judging from the resolutions passed at the recent convention at Salmon Arm, attended by two of our Women's Institute members, Mrs Reesor and Mrs Davies, it is apparent that the women have a keen insight into the outstanding needs of our country. One of these resolutions points to the wisdom of dealing AT HOME. It reads as follows:—"Resolved that this conference endorse the aims of the British Columbia Consumers' League, and urge the members of the Institute to pledge their support."

Another resolution hits the fruit situation pretty squarely. It reads: Whereas our markets are flooded with American fruit whilst B.C. fruit of fine quality may be secured, the fault in this case, being laid at the door of the wholesaler, Resolved that the Women's Institute earnestly request that the matter be thoroughly investigated, and the parties at fault consistently dealt with."

While resolution No. seven would point to the time when we may look forward to a parliament composed of representatives of both sexes. The resolution advises the Institutes throughout the Okanagan generally to aim to have at least one woman as a member of the School Board.

"Resolved that individual members take a remarkable interest in the school affairs and work to have one of their number on the School Board whenever feasible."

"ROUGH ON RATS" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Current Events — OF — Town & District

Mr Fred L. Roe, of Penticton, was a visitor here on Sunday last.

Mr J. C. Lyons is having his down town cottage re-sided and re-roofed and painted throughout.

The Boy Scouts held a special session on Tuesday evening in honor of a visit by former Scoutmaster Harry Pitman.

Master Frank Hughes has now fully entered upon his duties as "printer's devil" at the Herald Office, Penticton.

An account of the whist drive given on Thursday evening at the home of Mrs Cash is necessarily held over till next issue.

Mr Harry Pitman came in last Saturday evening to spend a few days on furlough from military duties at the Vernon camp.

A number of the juvenile fishermen who discarded shoes and stockings in order to the better pursue the finny tribe, are now laid up with colds, and doctor's drugs and nurses are working overtime.

Mr Russell Wells went out to Calgary and other Alberta points with a carload of apples which he is placing on the market. He expects to be absent for some weeks and will likely sell several more cars before he comes back.

Fruit Union Row has gotten down to the serious business of packing apples, about the only fruit now left in the orchards to pick, and it looks as though manager Jack Lawler's estimate of three cars of apples will be well below the mark to be reached.

Mr Tom Kenyon, of the 54th Kootenay Battalion band, Vernon, came off the boat on Thursday evening to spend a short furlough at his home here. Had Tom been to Europe and through a couple of campaigns his welcome could hardly have been more enthusiastic.

After a period of practically a month of idleness, the electric light plant has again been started up in charge of Mr Fred Manchester. The period of darkness was not at all welcome, and it is to be hoped that such a "tie-up" may not be experienced for many summers to come.

Have you read the story of the thrill of joy given a wounded Canadian who discovered his home paper lying on his table when he opened his eyes to consciousness for the first time? It was a recent copy of the Review from far away Summerland. Better mail an extra copy to the boys at the front.

Mrs H. T. Davies has received word that her son, Sherwood, of the K.V.R. engineering staff, is about to face about for home, after an absence under canvas for a little over two years. Sherwood is one of the very, very few who have "stayed with the game" till the work is actually completed. He has evidently got "sticking" qualities.

Mr J. M. Robinson is in receipt of another very encouraging mine report from his son, R. C. Robinson, of Silver City, Idaho. Of all the really famous mines in the state—and there are several—the claim now being worked by Mr Robinson's syndicate is declared to be "the daddy of them all." This will prove most gratifying news to the small coterie of friends who have staked their chances in the venture.

Anyone who has driven to Chute Creek lately and has experienced the numerous thrills—or worse—resulting from the rough condition of the road will know what it is to drive upon or over the bumpety bumps. It does seem too bad that such a really excellent drive should be spoiled for the sake of a few dollars spent in removing the stones that will persist in getting in the way of the wheels!

The Old England

JULIUS W. A. BLOK,
NARAMATA, B.C.

Gentlemen's Outfitter, etc.
Chiefly British Goods Imported Direct.

Naramata Current Events (Continued).

An immense flock of wild geese, en route for "somewhere south," flew over the town on Wednesday.

Mr John McLean of Summerland was in town on Sunday and Monday as guest of Mr J. M. Robinson.

Miss Gladys and Miss Kathleen Robinson returned on Monday of this week from a holiday spent with friends in Vernon.

Mr Harold Steers is the fortunate hunter this week so far, capturing a fine big buck in one of his rambles in the hills.

A number of our citizens report having picked a limited second crop of strawberries and raspberries during this week and last.

Miss O'Calligan is amongst the fortunate guessers who took part in King's guessing contest. The prize she got was the fourth, a bread mixer.

Mr H. T. Davies has decided upon having a lawn at the front of his bungalow, and has made a good start towards levelling the ground for the same, prior to sowing the seed.

Mr R. T. Buxton, a grocery traveller, well-known locally, is in the Vernon hospital, suffering from the effects of a broken wrist. The accident happened at Salmon Arm during an exciting game of tennis.

Mr J. H. Pushman has followed Mr Bartlett in the matter of taking a holiday. Mr Pushman, like a good many more, caught the fishing fever and, also like a good many others, failed to catch the required—or expected number of fish.

A letter from Mrs Walters from California, whither the family have recently removed, states that the fruit there cannot begin to compare with the quality of our home product, and that the cost of living is greatly in excess of what it is here in British Columbia.

Mr Low, of Sicamous, spent a day in town this week after a few days' trip through the Valley looking up exhibits for the Kiosk maintained by the C.P.R. at the junction on the main line. He stated that the cantaloupes for the Royal Train of the Connaught party were grown at Naramata.

How really little some prairie people know about the season for certain fruit can be gathered from the fact that a Calgary lady writes to a local shipper only this week asking for apricots. Got any suitable 'cots on you trees yet? If you have any, speak up, for that Calgary lady may be offended.

Speaking of shipping fruit reminds one of what a really easy-going, generous class of shippers we are. Ever look closely at the labels on the fruit packages being shipped from Naramata? Will anybody tell us how it is that NARAMATA, B.C. finds no place on that label? Naramata is surely entitled to her share of the advertising. If we send a poor box of fruit out we stand here to take the blame—and believe me, all the bad stuff that get by our packers can be put in a box. But when we know that we send out A1 stuff, we should be credited with the honor. However, it is probable that the omission of "Naramata" from this year's labels was an oversight that another year will be corrected.

Mr and Mrs So-and-so, and So-and-so and So-and-so, took a trip some time this week, or the latter part of last week to Chute Creek to catch "kickaninnies." This summarizes a great deal of the excitement round Naramata this week. But the fish are in such shoals that old and young cannot help but be enthusiastic fishermen. Fact is, it is the sport of the hour. Better take an hour off and catch fish!

Mr George Partridge reports the loss from his orchard of his entire lot of pears. The loss is attributed to the handiwork of some local light-fingered artist whose whereabouts is at present an interesting study for our local Sherlock Holmes. Where is the Farmers' Institute? Have they not hung out a ten dollar bill to the party who will produce the necessary evidence to bring home justice in any case of fruit thefts. The offer is said to be open still.

The Naramata Supply Co., Ltd.

Naramata Current Events (Continued.)

The special ferry to Summerland on Tuesday evening carried a large number of Naramatans to the show.

Mrs T. H. Boothe has quite recovered from her recent illness, and is again able to attend to her household duties.

Mr Alfred Young of Edmonton has recently paid a visit to his people's home at Naramata. He is a son of Mr James Young.

It is probable that a number of orchardists intend to commence pruning their peach trees early this fall in order to greatly reduce the danger of having wormy peaches.

A poem by Mr Carroll Aikins of Naramata, entitled "The Hermit of Whispering Creek," published in a recent issue of the Canadian Magazine, is attracting a good deal of attention.

The exposition of the Book of Daniel by Rev. R. M. Thompson was greatly appreciated last Sunday. There appears to be a steady increase in attendance. It is felt, however, if the subjects were announced previously more would attend.

The Boat Company took a party of "fish hunters" to Chute Creek on Saturday evening, but owing to the large number of fishing parties at work recently, the poor Creek begins to pout and cry for a day's rest. For even Sunday there was no let up to the merry game.

The erstwhile Literary and Debating Society that has flourished now for the past two seasons, has but such a limited number of the Old Guard left that one has to look twice to be able to locate an even dozen of the workers. If this club does not operate it is not unlikely that we may revert to the old and original whist club that met fortnightly at the homes, in turn, of the married couples.

An old friend of Mr Bartlett's—Mr Chas. Reid, representative of the Vancouver World—was in town for a while this week. Mr Reid and his paper is out square for Prohibition, and says that the Okanagan will likely have a central committee in order to further the good cause. The paper has become independent in politics, as seen by the special Prohibition number recently published.

After a stay of about three months in Vancouver Mr and Mrs G. W. McLaren are expected home this week-end.

Miss Dimock and Mrs Dorland of Peachland came down on Tuesday's boat, and are guests of Mr and Mrs T. N. Ritchie.

By a deal which he made with the Cordy estate, Mr A. Stark has become the owner of the McLaughlin-Buick car of C. H. Cordy.

A. H. Steven loaded another two cars of export apples this week, and starts them on their long journey to Australia to-morrow, Saturday.

Sergeant A. E. Nelson, of the 11th C.M.R., Vernon, after a week's furlough from his military duties, went up the lake again this morning.

J. J. Calder, who has been for two or three years resident in Peach Valley purposes leaving early in October for Edmonton, where Mrs Calder now is.

H. Rivington, who left last fall to take up military service in England, crossed the Channel for the front "somewhere in France" on the last day in August, according to word received by Mrs Rivington.

Couns. Johnston and Simpson are representing Summerland at the Union of B.C. Municipalities Convention at Chilliwack this week. They went out over the K.V.R. on Tuesday morning, and expect to return on Monday.

Unable to get back to his native Italy where he was formerly a member of the 77th Battalion of Infantry, to fight against the Teutonic allies, Antonio Pilato, now of Summerland, has lately enlisted with Recruiting Officer Borton, for service overseas with any battalion in which there may be a vacancy.

After suffering something of a relapse about the middle of this week, Donald Ross now seems to be getting a little the better of his illness. At times his condition during the last few days was such as to cause some anxiety, but his temperature has been dropping down again lately nearer to a normal level.

If any of our readers are wondering what they could give that would be most acceptable just now at the Hospital, we can assure them that potatoes, onions or apples will be equally welcome. The Matron says the institution is very short on these standard commodities just at present.

The annual Thanksgiving services in connection with St Andrew's Church are being planned for Sunday and Monday, October 17th and 18th. Rev. A. Dunn, of Kelowna, one of the brilliant preachers of the West, has been secured for the occasion. It is hoped that Mr Dunn, in addition to conducting the Sunday services, will contribute to the entertainment on Monday evening.

With a number of men, Robert Mitchell went up to the dam at the Trout Creek headwaters at the first of the week to undertake the work prescribed by Government Engineer O. F. D. Norrington, in the way of slight improvements and alterations to the new structure of the dam constructed last fall. Government approval of the entire work will be forthcoming when this has been done.

Morrison Sutherland, an elder brother of Messrs Hector and J. M. Sutherland, of this place, died suddenly on Tuesday of last week at his home, Kildonan, Winnipeg. He was the second oldest of the family, and had reached the age of 64 or 65 years.

Rebekah and Oddfellows paraded to divine service last Sunday evening at the Methodist Church. Revs. R. W. Lee and N. McNaughton had been announced to officiate, but Rev. A. Henderson arriving from Peachland during the day, he was induced to take a prominent part in the evening's services.

Miss Florence Warner of Lumby is visiting with her aunt, Mrs E. A. Jones.

Mrs John Tait arrived back in Summerland last week-end after a visit to the Coast.

Lance Corporal Callan and Private George McLeod, of the 54th, returned to the Vernon Camp after a week-end furlough, on Tuesday.

A large horned owl is a prized trophy of a few days spent last week at Fish Lake by Mr Dodwell, his sister, Mrs S. Thomson, and Miss Dodwell.

Local contractors, it will be seen from an advertisement in this issue, are invited to submit tenders on the erection of a small school building at Poplar Grove, near Penticton.

As a result of an outbreak of whooping-cough among some of the children, sessions in Mrs Lister's department of the Central School have been suspended for a few days.

Jack Lawler is expecting his two sisters in to-night to make a visit. One of the young ladies was here a year ago, and is looking forward with delight to many happy times in the Okanagan.

Messrs Frank Marshall, A. Moyes and J. F. Bindley were a hunting party who went up to E. N. Rowley's pre-emption on last Saturday morning's westbound K.V.R. train, returning on Monday evening.

Automobiling to Okanagan Falls on Thursday and intending to return to-day, Messrs J. J. Mitchell, Scott Darkis, T. H. Ramsay, and D. Dickson have been enjoying salmon fishing this week.

It is said that E. T. Mountford, a veteran of the South African war, in which he saw service in the Army Medical Corps is about to enlist in similar service in the Canadian Expeditionary Force.

Ed. Sawyer, who with a young neighbor, Mr Cooper, staying with Mr and Mrs G. J. C. White, has been studying wireless telegraphy during the summer expects to go to the Coast in about three weeks to take a two month's finishing course after which he is assured of a position as a wireless operator.

Mr A. G. Campbell, known here as Prof. Campbell, reached Summerland by Wednesday's boat to spend a few days with his father and brother in Garnett Valley. Mr Campbell, senior, has been seriously ill for some days, but is now reported somewhat better.

The Whist Drive held last Friday evening at Hotel Summerland proved the complete success expected of the function, both financially and socially. Play was carried on at a number of tables, and refreshments provided by Mr and Mrs Marshall were also an enjoyable part of the evening's entertainment.

The lake visited last week by Couns. Johnston and Borton, in company with an Indian guide is said to be about a half mile long and perhaps about half that width. It empties into a creek which again flows into a branch of Trout Creek; and though rather hard to get at offers considerable storage capacity, which can be considerably enlarged if dammed.

Owing to restrictions imposed by recent legislation enacted by the Provincial Government, a number of corporations throughout British Columbia have decided to relinquish the trust feature of their businesses, and many are in addition changing their titles where this word has been a part of their incorporated name.

The treasurer of the Ambulance League acknowledges with thanks the donation of \$21.50 from Mr and Mrs Frank Marshall, of Hotel Summerland, the proceeds of the Whist Drive held last Friday evening. The League feels grateful to Mr and Mrs Marshall for the trouble they went to on this occasion, resulting in this handsome donation. A cash gift of \$1 from Master Allan Estabrook and his sister, little Miss Margaret, is also acknowledged with thanks.

C. H. James, the recently appointed municipal electrician entered upon his new duties on Monday last.

Mrs E. W. Sawyer and Mrs W. Estabrook returned last Saturday evening from a visit with Mrs J. Lock at Kaleden.

A threshing machine labelled for Mr Jas. Ritchie arrived here over the C.P.R. Is this not the first one in the district?

The next meeting of the Ambulance League will be held on Monday afternoon, September 27, at the Parish Hall.

Presbyterian services will be conducted in St Andrew's Church at 10.30 a.m., and in the Methodist Church at 3 p.m., on Sunday next.

The regular monthly meeting of the Women's Christian Temperance Union will be held in the Parlor of the Men's Club on Friday afternoon, October 1st, at 3 o'clock.

Winesap apples, picked eleven months ago in the Jas. Gartrell orchard, and since kept in a cellar, have been brought to the Review Office. They were found still firm, sound, and pleasant eating.

Mrs Muir Stuart, with her little daughter, was a visitor to Penticton last Saturday and Sunday, at the home of sister, Mrs C. C. Chittenden. Mr Stuart also went down to Penticton on Saturday evening.

Accompanying Mr T. N. Ritchie on his return from the Coast last Friday evening was Mrs Babbit, who returns to Summerland after an absence of four or five years. She is residing with her mother, Mrs Grieve, in the house on Ninth Street, above the Drug Store Block.

Mr and Mrs B. L. Hatfield made a two days' hunting expedition back into the hills in the Fish Lake district early this week. They were not able to return with any big game among their bag. From the stories of various hunters, deer are not plentiful this year as the men with the guns could wish for.

Next Sunday morning the annual Rally Day service will be conducted in St Andrew's Church. The young people and children are especially invited to be present. An attractive program has been provided along the general lines of the printed program being distributed for use in all Presbyterian churches.

The Kelowna Furniture Company, in connection with their big furniture sale announced in a page ad. last week, desire to make it clear that they are prepared to prepay freight charges on all goods purchased, and, when purchases amount to \$50 or over, they will also refund any transportation expenses.

It was by no means a "hard times" house that greeted the "Versatiles" in Empire Hall on Tuesday evening this week. "The Girl from Nowhere," their presentation, proved a vivacious and clean musical comedy, with plenty of bright songs. Elaborate scenery and costumes were noticeable, adding great effect to the really good acting of the entire company of eighteen or twenty.

For the benefit of the Okanagan Ambulance League, to which body the entire proceeds will be turned over, the Summerland St Andrew's and Caledonian Society are arranging a concert, to be presented on the evening of Tuesday, October 5th, in St Stephen's Parish Hall. Local talent will compose the program, and while there will be some names well and favorably known to local concert goers; there are also artists secured who have not yet made any local appearance, but who are known to be possessed of undoubted talent.

A royal send-off was given Harvey Phinney, Walter Mumm, and Charles Lavia yesterday evening, before they went into camp at Vernon. The first two went up the lake this morning, and the last-named is to go up on Monday. A party consisting mainly of the Union packing house staff, gathered at the home of Mangor J. Lawler, Peach Orchard, and in the course of the evening's jollities, Harvey Phinney was made the recipient of a presentation pipe and pouch, with an address. A supper followed the playing of games, and in the morning, when the "Sicamous" left the wharf, the send-off was completed.

LETTERS TO THE EDITOR.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C., Sept. 24th, 1915.

The Editor, Summerland Review. Dear Sir,

I saw the other day a load of apples on the road to point of shipment with Kelowna Apples stamped on the end of each box, and on inquiry I find that several loads of fruit have been shipped branded as above. Surely this is not Patriotism to our own community, when we have a box factory in our own district ready to furnish boxes to dealers, and we also have men who can make a stencil to mark our boxes, and show to the outside world that we don't have to borrow a neighboring town's stencil to sell our fruit. It seems to me that our dealers ought to be more patriotic to our own community, and sacrifice a little to keep the good name we have already won for our fruit, instead of allowing any other town to reap the benefit of our good name as fruit prize takers.

Thanking you for giving this a place in your valuable paper, I am, yours sincerely, A SUBSCRIBER.

ATTORNEY-GENERAL & MINISTER OF LANDS ARRIVE HERE TO-DAY

Hon. W. J. Bowser, and Hon. W. R. Ross who are on a motoring tour of the Okanagan, Boundary, and Kootenay districts are expected to reach here from Kelowna this afternoon. With them are expected Mayor Jones of Kelowna and Road Supt. Hamilton Lang. After a short stay here they party will continue to Penticton, and the ministers will leave Saturday morning for the south.

ORGANIZER FOR THE PROHIBITION CAMPAIGN.

For the purpose of stimulating organization amongst prohibitionists Mr Chas. E. Reed of the Vancouver World is making a tour of the Interior. Mr Reed's work is preliminary to that of Dr McGuire, M.P.P. of Vancouver, the recently appointed provincial organizer for the prohibition movement. Dr McGuire, who, it is stated, is dropping out of party politics to lead in the new campaign, will visit each of the electoral districts as soon as possible. Kelowna will be visited next week when organization for the South Okanagan will be furthered. While here on Tuesday Mr Reed arranged that a meeting be held in the Lakeside Baptist Church on Monday evening next to get into line with the province-wide movement, and to appoint delegates to the Kelowna conference.

Miss Dancer and Miss Chapman are again home after a short visit at Peachland.

The Gaffney cottage near Prairie Valley is now being occupied by G. Secret and family.

After a visit with her husband Col. R. Cartwright, at the Vernon Camp, Mrs Cartwright has again returned.

Mr and Mrs Wm. Brent have taken to the hills fully equipped for a stay in comfort, prepared and ready for anything in the way of game that comes in their way.

Roy Darkis no doubt considers himself most fortunate. Though only enlisting last week he has been accepted into the 54th, which leaves very shortly for further training in England.

After a lapse of a year it seems that Summerland may possibly restore its Fall Fair and Fruit Exhibition. The directors of the Agricultural Association are now looking round locally to ascertain what amount might be forthcoming in the way of donations to the prize list. The sum of \$500 is also said to be forthcoming from the Provincial Government for this purpose.

State your needs in 'THE REVIEW' 'WANT' Column.

BIRTHS.

MARTIN—At the Summerland Hospital, on Sunday, September 19th, to Mr and Mrs A. Martin, Victoria Gardens, a son.

On Sunday, October 3rd the sacrament of the Lord's Supper will be observed in St Andrew's Church at the regular morning service. The preparatory service will take place on the previous Friday evening, at 8 o'clock.

Mill adjacent to K.V.R. Ready to quote on car lots.

Summerland Lumber Co., Ltd. Post Office, West Summerland. J. W. WIEDELER, MANAGER.

From a recent decision of the College Board, it is probable that the College buildings may be put into a service distinctly useful, and at the same time productive of some revenue. The Board has offered the buildings to the Provincial Government to be rented and utilized as convalescent homes housing wounded and convalescent soldiers who may be invalided home to Canada from time to time from Europe.

Dr A. W. Vining and Mrs Vining of Brandon were last week guests of Mr and Mrs T. N. Ritchie. Dr Vining is a professor and house master at Brandon College. He has a ranch at Robson in the Kootenay district, but this was his first visit to Summerland, with which he unhesitatingly expressed very much delight, and his comparisons with his previous knowledge of this province was all flattering to Summerland.

Instructions For Knitting Red Cross Socks.

We have been asked by the Okanagan Ambulance League to present to the ladies who are interested in the work of knitting socks for the Red Cross Society, the following suggestions that will help in bringing their work into conformity with the specifications which the Canadian Red Cross Society have laid out for this knitting work.

Day Sock—Measurements of finished sock: Length from top of sock to bottom of heel, 14½ inches; length of foot, 11½ inches; length of ribbing, 4½ inches; length of leg to commencement of heel, 12 inches.

Materials required—Six to seven ounce 3 ply Wheeling or 4 ply Fingering, 36 or 37 strands; four steel knitting needles, No. 13. This makes a large sock.

Socks need not have a seamstitch. Socks must not have a ridge under the heel nor at the end of the toe.

Do not knit coarse yarn on fine needles.

NEVER finish a toe by placing stitches on two needles and casting off from both needles together. NEVER do this under heel.

Always wash socks before giving them in.

Second Canadian Contingent Now in France.

It was announced from Ottawa this week that the second contingent of the Canadian Expeditionary Force has been transferred entirely to France. In this division are a number of soldier citizens from Summerland, Naramata, and Peachland. The various brigades made the passage across from Shorncliffe without mishap between Tuesday and Friday of last week.

A certificate of incorporation under the "Agricultural Associations Act" has been granted to the Kelowna Agricultural and Trades Association, which will have its head offices at Kelowna.

William Sauter returned on Thursday from Calgary, where the Follies of 1915, with which he was connected, terminated their existence as a travelling show.—Vernon News.

Notice to Contractors.

POPLAR GROVE SCHOOL.

SEALED TENDERS, superscribed "Tender for Poplar Grove School," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Tuesday, the 5th day of October, 1915, for the erection and completion of a small one-room schoolhouse at Poplar Grove, in the Municipality of Penticton and the Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 20th day of September, 1915, at the office of J. Norris, Government Agent, Vernon; W. A. McKenzie, Secretary of School Board, Box 215, Penticton; and the Department of Public Works, Victoria.

By application to the undersigned, contractors can obtain a copy of the plans and specifications for the sum of ten dollars (\$10) or a certified cheque, which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to 20 per cent. of tender, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelope furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Deputy Minister and Public Works Engineer.

WANTED:

Farm Produce.

THIS is the substance of a call that is being made by our Canadian Government, a call that will be heard from the Atlantic to the Pacific within a few weeks.

NEVER in the history of Canada has there been such a demand for the fruits of the soil as is expected next season.

Money for the Farmer

IS what this unusual demand will mean. Prepare now to take advantage of it. Giving steady employment, with at least a living at any time, Farming, for years to come, is going to be the most satisfactory and happiest of occupations.

START RIGHT by buying rich, fertile soil at right prices. I have many acres of the richest of soil in the wonderfully fertile Okanagan Valley, just ready for the plow, at war prices. Old prices have been quite forgotten, and terms are fixed to suit the buyer.

GET A PIECE OF LAND NOW. GET IT UNDER CROP, AND REWARD WILL BE YOURS.

JAS. RITCHIE,
WEST SUMMERLAND.
