FRIDAY, AUGUST 4, 1916.

OUR EIGHTH BIRTHDAY.

WITH THIS ISSUE the Review enters upon the ninth year of its existence. Eight years is not a long life in newspaperdom, but there is some satisfaction in looking back over even this short period and being able to note progress on every side.

It was a very different Summerland that saw the first issue of this paper from the place as the Review finds it to-day. Growth in the district may not be apparent to the eye from day to day, but going back to the Summerland of 1908, there is a very decided expansion brought to mind. It was just Summerland at that time for the whole district, although the outlying districts enjoyed the convenience of rural post offices. The upper town was in its earliest stages, in fact a name for the post office then contemplated for that district had not been fixed upon. It was subsequent to this that the business blocks and residences sprung up. In the lake section there is also a marked growth apparent. The boat made a call every day in the summer and three times a week in the winter. There was just the one long wharf—now the middle one—and where the C.P.R. wharf and car slip are now was a small landing-place where a somewhat antiquated ferry made a start for its trip across the lake. Buildings have sprung up on both sides of the main street, and the residential section south of town has also filled out wonderfully since those days. The same is true also of the outlying sections.

At that time Summerland put out about fifty carloads of fruit in the season, and that was thought to be a tremendous shipment for the place. Now that much goes out in two or three weeks. While since those times the population of the district has increased possibly fifty per cent, or even more, the output of fruit and produce has increased three or four hundred per cent., and it will be many years yet before the maximum production period is reached.

All these things mean that Summerland is growing. It is firmly founded, too firmly to go backwards, because it has its wealth in the soil.

There is going to be growth in the future no less than there has been in the past, and it is for the business men and private citizens alike to show that they are not allowing themselves to be overwhelmed completely by the war cloud; that when the clouds break we shall be ready to step forward still more briskly.

And now for our ninth year.

§ § § § §

**THE FAMOUS EVANGELIST** "Billy Sunday," or Rev. William Sunday, D.D., to give his true and more dignified name, has announced his willingness to come to British Columbia to take a hand in the fight for prohibition. He is to speak in Vancouver on Thursday of next week, but it is not likely that he will be able to undertake any speaking engagements outside of the Coast cities. Wherever he speaks, and however often, it will be without emolument of any kind. In his holiday spells—which are few considering the strenuous work he engages in—it is interesting to note that Dr Sunday busies himself on a fruit ranch which he owns at Hood River, Oregon.

§ § § § §

### ANOTHER ENDORSEMENT.

**THE EXPERIENCE** of Halifax in the matter of prohibition seems to have been a happy one, according to the Daily Herald of that city. Halifax enjoyed for a long time the doubtful distinction of being the only oasis for the drinkers in the whole province of Nova Scotia. Referring to the working of prohibition during the first two weeks it came into force in the city, the Herald has this to say:

"Prohibition came into force in Halifax just two weeks ago, and even the most sceptical are now convinced that prohibition prohibits, and that the new law is really a blessing.

The rumors which find circulation from time to time to the effect that the saloons are going to open again have no foundation in fact, and indeed, in face of existing conditions, the man who would open a saloon in Halifax to-day would be a bold man indeed.

No one wants to go back to the old days of the saloon, not even the man who patronized them. The police court records testify to the fact that Halifax to-day is almost entirely free from the liquor evil, and the people as a whole are accepting the new conditions gracefully.

Halifax has been sober for two whole weeks, the first two weeks in her history, and the people are delighted with the experience.

### LOCALS.

Mrs E. H. Lock went down to Kaledon on Thursday to join her husband on their orchard there.

The Home Comfort Club will meet at the home of Mrs Geo. Craig next Thursday, Aug. 10th.

Miss Eula Watson has received the appointment to the position of local agent and operator for the Okanagan Telephone Co.

Mrs W. Simpson and Mrs E. Simpson with their families went out this morning to Walthachin where they are joining their husbands.

Water, said to have been from the ranches above, caused the stalling of the car of Manager Dobie of the Okanagan Telephone Co. last Friday night.

Mr G. W. McLaren, who is not in good health, has been obliged to remain in bed for some days past. His many friends will wish him a speedy recovery.

### Is It Wise to Hurry Hens In Moulting?

During late summer and early fall is the natural moulting season. Some birds shed their old feathers much earlier than others, and it is generally believed that those that moult earliest are the first to commence laying in the fall, although this is not always borne out in practice. The moult usually lasts from eight to ten weeks, and during that time eggs are seldom produced. An effort is frequently made to force moulting early and then feed for the quick production of feathers. During July and August birds have been placed on about half the usual grain rations for two or three weeks. At the end of this time full rations should be resumed and a little linseed meal added to the mash has proven beneficial. As a rule yearling hens moult earlier and more quickly than older ones. Interfering with nature and hastening the moulting season by special feeding may give the birds a better show appearance in the fall, but it is doubtful if the number of eggs laid in a year is increased by this treatment.—Farmers' Advocate.

### Apples For Australia

Sixty Thousand Boxes Of Okanagan Fruit Placed

Discussing prospects for the season's pack in the Okanagan Valley, Mr W. J. Hayward, a large grower at Vernon, lately in Vancouver on business, stated that although thirty-five per cent. of the buds had been killed by frost, yet with 3,000 acres of new orchard beginning to bear this year, the 1916 output would likely be quite as great as that of last year.

"Orders have already been placed for 60,000 boxes of apples for Australia," said Mr Hayward, "but it is likely that the bulk of the crop will go to the prairies."

The fruit shipped from Okanagan last year brought to the growers more than \$1,250,000. Mr Hayward says that better marketing conditions and more scientific methods of fruit culture are combining to place the Okanagan in the forefront of fruit producing communities on this continent.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Fruit Sun Scald

Reports from various parts of the Washington State indicate an unusually large amount of injury to growing fruit caused by sun scald. It is probable that the trouble is so prevalent this season because of the sudden and extreme changes in the weather.

What to do to prevent such injury, or to reduce the loss to the minimum after the burning has taken place, is being frequently asked the Department of Horticulture of the State College at Pullman.

Since the burned apples cannot develop into good fruit, Professor R. J. Barnett recommends that they be removed from the tree by pulling or clipping as soon as possible.

Co-Operation Pays Cost of Keeping Cow

The campaign which the Provincial Department of Agriculture has been persistently carrying on in and out of season with a view to encouraging co-operation among the farmers of the province is bearing excellent fruit says the Victoria Colonist.

Another feature of the changed conditions in the agricultural life of the province has been the disposition shown by farmers to go more extensively into mixed farming and stock raising.

Predicts Cheap Feed Next Winter

Poultry keepers should hail this announcement with joy. A leading Vancouver dealer in feeds predicts cheaper prices for feed wheat next winter.

Weather Report

Abstract from weather records for June, 1916, kept at the Government Station, Balcomo Ranch, Summerland, B.C.

**Thanks From Soldiers at The Front**

Somewhere in Belgium.  
July 2, 1916.

Dear Mrs Hogg,  
During the week I received a parcel of good things from you to remind me of the good times I used to have in Summerland and the stamp of people I met there. Many of these people I learned to know, and it's wandering about away from Summerland that brings home to me a realization of what fine people they are. I want to thank the Home Comforts Club for their kindness. You can hardly imagine how interesting reading the papers were—the Reviews and the Vernon News. I think I read them with deeper interest than when right there. I finished reading the ads. to-night.

Again thanking the club for their kindness.  
I am,  
Yours Very Truly,  
**CHARLES G. JOHNSON.**

Belgium,  
July 4, 1916.

Dear Mrs Hogg,  
I want to thank you as secretary of Summerland Home Comfort Club, for the parcel which arrived several days ago, and which, I must say was very acceptable. Vermin-proof underwear is an article which well might be tried out here, for there is no doubt about it, our small friends do get very active at times, and few of us escape their visits.

The other articles were both useful and tasteful, always very welcome in the firing line. At present we are out of the trenches for a short time. Although I have only been here about three months I have had an excellent introduction to all kinds of Hun shells, been in some hot places, and seen awful sights, so I feel like an old soldier already.

Have seen several of the old college students recently, and heard of other Summerland boys being in the vicinity. It is just a year since I left Summerland, and I should indeed like to drop in now and have some real fruit. It is rather an unknown quantity over here.

Now I must stop. You know how the efforts of the Home Comfort Club are appreciated by the boys over here, so hope you will

continue the good work. With all good wishes to Club, and regards to Summerland friends.  
Sincerely yours,  
(Pte.) **F. LeROY BLACK.**  
472536

July 6th, 1916.

Dear Mrs Hogg,  
Very many thanks to the Home Comfort Club for the parcel just received. It's varied contents are admirably chosen, even unto the copy of the Review—which faithful chronicle of Summerland's peaceful and industrious life makes pleasant reading over here in this war-ridden country! Especially if one receives it up in the front line, as I did on several occasions during the winter, when the reading of your Municipal Councils' debates and deliberations was accompanied by the music of "whiz-bangs" and "pip-squeaks." But I have been attached to Divisional Headquarters for the last couple of months, and am thus unable to give you any hair-raising yarns or astonishing adventures. But please convey my appreciation of their kindness to the members of the Club, whose parcels must have brought much Real Comfort to all the Summerlanders over here.

Sincerely yours,  
(Pte.) **AUSTIN COOPER.**

**Crop Survey for B.C.**

**New Statistical Work To Be Undertaken.**

British Columbia is to have a complete and efficient annual survey of all crops with the exception of grains and fodder. Mr. R. M. Winslow, Provincial Horticulturist and Fruit Pest Inspector, deserves credit for the inauguration of this much needed and highly valuable work of compiling information as to the various crops grown in the province.

In previous years the statistical records of British Columbia crops, while fairly accurate, were never as complete as the Department of Agriculture desired. Under the new system employees of the Department will gather the information personally. This will do away with the uncertainty of relying on growers to send information to the Department.

This year's work will necessarily be the heaviest. It includes the gathering of the widest possible information such as for instance the number of trees per acre in each orchard, the owner's method of keeping a record of costs, the quality of soil, the varieties grown, etc. When this ground work of the new system is finished the work in other years will be much easier, and should require less time to complete.

The survey has been divided into four sections, including orchard, small fruits, potato, and truck crops survey.

Mr. Ben Hoy, Assistant Horticulturist, of Kelowna will cover the southern Okanagan district gathering the required information.

The new crop survey should prove of immense benefit to the province as a whole and the farmers and fruit growers in particular. It should go a long way toward solving many of the marketing problems of the past. With exact and specific knowledge available there should be no repetition of losses from over supply in certain districts, and many mistakes of the growers should be easily remedied.

Local pride is a great business builder—knocking is the surest way to wipe a place off the map. Let's all be practical boosters for the old town. Let's start to-day! And let's keep it up all the time.

**Strong Vote Expected for Prohibition**

Penticton Expects to Return 3 to 1 Majority Favoring Proposed Act.

The Prohibition forces in Penticton are lining up for battle. Determined to counteract the advertising of the Merchants' Protective Association, they are contracting for space in the local newspaper, and will use this until the day of election. Sentiment is overwhelmingly in favor of the Prohibition Bill, and only needs to be crystallized

into a vote-getting and recording organization to result in a big majority vote on September 14. It seems probable that Penticton will record a vote of about three-to-one in favor of the act.

An arrangement is being made whereby the municipality will be split up into districts and one man placed in charge of each twenty voters. It is hoped to get every possible voter to the polls.

It is said \$140,000,000 has been invested in Canadian fruit production, so that this is one of our great national industries. In a year of average production 15,000,000 bushels of Canadian apples are marketed.

Start buying at home and keep on buying at home are two good mottoes for the people of Summerland to adopt. If they live up to them in the letter and the spirit they will get better value and better service—more satisfaction every way—and they will ere long have more money with which to buy at home. Summerland should get all of the trade in its area. How about these dollars that are getting away from us? How about the dollars that are slipping through our fingers? We have the goods. We have the values. Our prices are right. And yet there is a lot of money slipping away from us constantly. The best way to get after this money is to tell the truth about the man or the system that is taking it away.

### NOW A REALITY.

IN THE EARLY DAYS it was hard to believe that talk of the time when Summerland would be on a transcontinental railway line was anything more than just talk. The men who saw the new line coming and said so were looked upon as visionaries. Even when the surveyors came, took grades and levels, and laid out two or three tentative routes through the district, one could not help but think of the many railway routes on the Prairies and elsewhere that have been surveyed out for years, but where track laying is just as far off as ever. Then the construction men came along and soon scars began to show on the face of the hills. As the line was built, then the railway that a few people believed to be mythical looked like a certainty. Even when trains commenced running months ago there were those who said that Summerland would still be without a daily train service for a long time yet. Fortunately these pessimistic views have been dispelled, and now with the reduced transportation rates in force both for passenger and freight service, much has been done to remove the drawback that the district has been laboring under in the somewhat indirect communication with outside points. If the Canadian Northern comes into the Okanagan as expeditiously as the Kettle Valley line, then it will not be very long before the Valley has its third railway line. Nevertheless it must not be forgotten that to the Canadian Pacific the Okanagan owes a great deal, for without its service but little could have been accomplished in the development of the fruit industry

### THOSE REFERENDUMS.

WHICHEVER PARTY is returned to power at Victoria next month makes no difference if the two referendums on prohibition and women suffrage receive the electors' assent at the polls. Both these questions are incorporated into Acts of Parliament, and if they receive a majority of affirmative votes the referendum must be put into effect by proclamation of the Lieutenant-Governor-in-Council within a short time afterwards. If the women's suffrage referendum draws a favorable vote, for instance, March 17th, 1917, has been fixed as the time when it shall go into effect, whether a Conservative or Liberal Government be in power. To this extent therefore the two questions are being dealt with in a non-partisan way. The suffrage bill provides for the granting to women of the electoral franchise on the same terms as it is now exercised by men, and specifically allows of the election of women to the Legislative Assembly.

IN THIS ISSUE is published the election address of Mayor Jones, Kelowna, to the electors of South Okanagan, he having been nominated last week as Conservative candidate for the riding. A few issues back the address of Mr L. V. Rogers, the Liberal candidate, was also brought before the electors, who will be called upon to express their judgment within a very short time now. In his address Mr Jones states he stands strongly in favor of government ownership of water storage reservoirs, the most pressing problem in the Okanagan, and the solution of which will undoubtedly be of the greatest benefit to the fruit, hay and fodder industry. It is hoped that when Hon. W. J. Bowser tours the Valley in the course of a week or so he may be in a position to state how soon this question will be finally dealt with.

FARMERS AND BANKERS got together in Winnipeg recently and a very helpful conference ensued. The bankers stated their desire to assist to the utmost in the development of the resources of the West, and the farmers pointed out good ways of doing it. Three of the most significant conclusions arrived at were as set out below:

Bankers are prepared to finance their former customers so as to facilitate gradual marketing of the grain, as it is recognized that with Canada now the fourth wheat-producing country, it would be detrimental to hasten the process of marketing.

Re loans to buy livestock for feeding; the banks are more than ever disposed to encourage this industry and to carry loans for the period necessary to mature the livestock. The banks are prepared to extend credit to capable and industrious farmers engaged in stock-raising.

Re co-operative credit associations, so long as they are carried out on sound lines, the banks are inclined to give their support, and a reduced rate of interest might be made available.

### GIVE LIBERAL VERSION OF ELECTION ISSUES.

(Continued from page 1.)  
would be elected in Vancouver by just as large a majority as before. During the last twelve years, said Mr Macdonald, the Government has been heaping up obligations till now heavy liabilities rest upon the province. Yet these obligations were not being assumed to promote agriculture nor for productive development. Look at the financial situation, he said, and there was no indication of economy such as one might reasonably expect. A substantial surplus of nearly nine million dollars the province had a few years ago had been converted into an even more substantial deficit. For every dollar of revenue the province was getting, two dollars of expenditure was being made. In 1914-15 there was a deficit of four millions, in 1915-16 nearly five millions, and for 1916-17 the deficit would be \$5,357,000. In the last three years the province had gone behind \$14,462,856.

### PACIFIC GREAT EASTERN SUBSIDIES.

Mr Macdonald dwelt for a time upon matters pertaining to the construction of the P.G.E. Railway. The province had paid every cent that had been put into the construction of that road, he asserted, but the company owned it, had made millions out of its construction, and now leaves it to the government to pay interest on their bonds, asking for more help to finish the line.

How can we account for the fact that a cash surplus of eight million dollars some years ago had now in its place a total deficit of twenty-four million? This was a question Mr Macdonald asked, and he proceeded to elucidate it. The cost of the civil service had risen from \$250,568 in 1904 to \$503,000 in 1910, since when it had trebled, now costing \$1,709,000. This aggregated almost one-third of the

revenue of the province at the present time, a proportion for salaries which he considered absurd. There was a vast army of officials, and in his opinion an efficient police service could be organized to perform many of the duties that now have separate services. He mentioned the outlay at Strathecona Park, the Vancouver Island strike which gained headway through government dilatoriness, and the obligations in connection with the Agent-General's office in London, and expensive and futile commissions that have been appointed as examples of extravagance. Miscellaneous expenses, consisting of sundry large and small unclassified items, totalled two million dollars annually,

far more than in any other province. There was also a waste in the expenditure on roads and bridges. In the past four years \$16,000,000 had been spent on this account alone, and so far as the northern part of the province went, he believed that the roadwork was only about fifty per cent efficient.

### THE LAND POLICY.

The government's land policy, said Mr Macdonald passing on, had created a situation that it was necessary to travel to appreciate. The sale of land as the government has been conducting it was

[Continued on Page 6, col. 1.]

### Penticton Aquatic Club.

BI-MONTHLY DANCES. Naramata Orchestra in attendance.

Summerlanders Cordially Invited.

### WEDDING.

#### BLAIKIE-McCHEYNE.

A quiet wedding was solemnized yesterday afternoon at the home of Mr and Mrs John S. Ritchie, when Miss Janet McCheyne became the bride of Mr. Thomas L. Blaikie. Both are natives of Scotland. The groom has been resident in this district for about five years, and the bride came to Summerland about two years later. The ceremony was performed by Rev N. McNaughton, and was witnessed by only a few intimate friends.

Mr and Mrs Blaikie are enjoying a few days camping honeymoon at Fish Lake before taking up their residence at West Summerland.

The C.P.R. tunnel at Rogers Pass will be finished this summer. It will be 26,400 feet long.

A young lady recently married to a farmer, one day visited the cow-houses, when she thus interrogated her milk-maid: "By the by, Mary, which of these cows is it that gives the butter-milk?"

## Orchard and Farm: Topics of Timely Interest and Helpfulness in the complex Business of Farming.

### Summer Work For The Poultry Man. Little Need Be Done, But It Is Important.

During August, September, and October the work on the poultry plant is comparatively light, but important. The success of the year's work depends to no small extent upon the ability to rear to maturity the chicks that have been hatched and brought thus far. It is also the time when mites and lice thrive best and when cleanliness is most important.

**THE CHICKS**—Every care should be given the growing chicks, not that they should be pampered, but they should be well fed and given range on "sweet soil." The feeding need not be of such a nature that it requires a great deal of work; have some system but make it simple. Use hoppers into which mixed grain may be put, and if you have milk be sure that the chicks get all they want. With milk, extra animal food will not be required. See that the hoppers are kept filled, and if you wish to give an occasional moist mash, all right; but, if the chicks are doing well and have a good start, the hopper feed will be sufficient.

**LATE CHICKS**—If chicks were hatched in June, get them on the fresh ground and give them extra care and feed. In addition to the hoppers, see that they have every day a moist mash—all that they will eat up clean in about half an hour. If it can be avoided, do not let the late chicks run with the larger chicks; see that the quarters are kept clean, and watch for head lice.

**THE OLD HENS**—Dispose of the old hens now; if they belong to the American breeds they are not likely to lay many eggs during the summer. It is a good plan to cull out from last year's pullets the birds that you do not intend to use for breeding purposes next year.

**KILL THE COCKS**—No matured male should be allowed to run with the laying hens during the summer. If they were not killed at the close of the breeding season, they should be done away with now. Do not continue to produce fertile eggs that spoil so readily this hot weather.

**GATHER EGGS FREQUENTLY**—During this warm weather, gather the eggs two or three times a day. Keep the broody hens off the nests. Break sitters by putting them in a feeding crate or swinging coop. Keep eggs in a cool place, and market two or three times a week.

**GROWING CROPS**—Get the young chicks into some growing crop that will provide shade, green food and good scratching ground. If this is not available get the chicks into the orchard, into a clump of trees, or if you have no shade, provide some. The hot sun is very disastrous to the young chicks.

**PLOUGH UP THE RUNS**—Early this month is a good time to plough up the runs and sow green feed, such as rape. This can be sown broadcast in the same manner as buckwheat, and it is splendid green feed for the chicks in the fall.

### Bulletins For The Dairyman.

In a very short time the Department of Agriculture, Victoria, will have ready for distribution two new bulletins of great interest to dairy-men.

The first of these bulletins to be ready will be one entitled "Butter Making on the Farm," by T. A. F. Wiancko, Dairy Instructor. The second one will be "The Care and Feeding of Dairy Cattle," by S. H. Hopkins, Assistant Live Stock Commissioner, which deals with the scientific care and treatment of dairy cattle.

Both these new bulletins contain a great deal of exceptionally useful information for farmers interested in dairying, even if only in a small way, and will be found to be of great assistance in overcoming the problems, both great and small, that naturally arise even on the best regulated farms.

Anyone wishing to procure copies of these bulletins should write to the Publications Branch, Department of Agriculture, Victoria, and ask for Bulletin No. 67, "The Care and Feeding of Dairy Cattle," or No. 71, "Buttermaking on the Farm," and copies will be mailed as soon as the bulletins are out of the hands of the printers.

### Fall Fair Dates.

Some of the dates arranged by the Department of Agriculture for the Fall Fairs throughout the province for the season of 1916 are given below:

- |            |                     |
|------------|---------------------|
| Vancouver  | August 14-19        |
| Enderby    | In August, if held. |
| Kelowna    | September 26-27     |
| Armstrong  | September 28-29     |
| Penticton  | (No Fair)           |
| SUMMERLAND | October 11-12       |

## W.C.T.U. Notes

The regular monthly meeting of the W.C.T.U. was held on Tuesday afternoon in the Methodist Church with a good attendance, when we consider the busy season which is here just now, with Mrs T. H. Boothe, Vice-President, presiding. After the regular routine of business was disposed of the next item was the election of a President to take the place of Mrs E. P. Roe, who is now residing in Ottawa, Ontario.

Three ladies were nominated for the office of President, namely Mrs Fred Young, nominated by Mrs Boothe, Mrs Davies, nominated by Mrs Allen, Mrs James Wells, nominated by Mrs Mitchell. The last-named withdrew before the ballots were distributed. Scrutineers were then appointed, who announced that Mrs Fred Young had been duly elected.

A short program was rendered as follows: The Temperance Glory Song, by Mrs M. M. Allen; a short Reading by Miss Alice Myers, entitled "Pessimist or Optimist," and a poem, "Just Being Happy," by Miss Margaret Allen. The gathering was then invited to the basement of the church where the hostess served very dainty refreshments from a table well decked with beautiful flowers.

A few additional Naramata Notes were received too late for this issue and will appear next week.

"Yes, advertising is a poor investment so long as you imagine you are helping the newspaper. Just as soon as you advertise to increase your business, advertising will pay—that is, give the same thought to your newspaper advertising that you do to the selection and display of your goods. We would rather run a paper without ads than one full of "dry-rot" advertising."

## SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be held for.

## Current Events — OF — Town & District

Farmers' Institute to-night.

Mr Russell Wells was a business visitor to Penticton one day last week.

Dr McGregor of Penticton was a visitor to Naramata last week on professional duty, coming through by motor car.

The output of fruit this last couple of weeks has been large. Manager Snider has everything in fine shape now for a big season's work.

In a recent letter from Pte. Reg. L. Boothe to his parents from France he states that he is back again in the firing line after two weeks spent in the hospital.

Mr and Mrs Joe Lyons spent Tuesday of last week in Penticton, then taking the ferry boat "The Mallard" and proceeding to Kaleden, returning home again the next day.

Mr and Mrs E. G. Allen, who have been visiting Mrs M. M. Allen of Fairview Ranch for the past couple of weeks, returned to their home in Medicine Hat, Alberta, on Wednesday morning's boat.

Mrs John O. Noyes left on Sunday evening's boat for Penticton, taking the K.V.R. train at ten o'clock for Vancouver where she will visit for a few weeks prior to her proposed trip to Ottawa, Ont., where she expects to spend the summer and fall.

The road on First Street under the supervision of road foreman William Nuttall has been undergoing some "needful" repairs lately. It is pleasing to note that some bad places by the bridge near the Cash cottage have been filled in, making it safe now for rigs and motor cars.

## Naramata Current Events. (Continued.)

Fine fishing in the lake these days, so say our local fishermen.

Gardener Avenson of the Experimental Farm at Summerland spent the week-end in Naramata.

Divine service was conducted by the Rev. R. M. Thompson of Penticton on Sunday afternoon last, Mr and Mrs Thompson coming up by motor.

Mr and Mrs James Wells purpose leaving Naramata some time in September to spend the winter at Calgary, and Senlock, where most of their family reside. The proposed move being on account of the continued ill-health of Mr Wells.

It is announced that the Unity Club Tea given in honor of the departing ladies spoken of in this paper last week will be on Thursday 17th instead of Friday 18th. Will the ladies please take note of this, the reason of the proposed change being on account of the Fair at Penticton on the 18th.

The annual Sunday School picnic took place on Thursday of last week at Crescent Beach, Summerland; the teachers and scholars being taken over by ferry boat Skookum at 9.30 a.m. Everyone reports a good time spent with plenty of games, races, etc. There was a big dinner for everyone present, and the trip home again at 4 o'clock was another feature of a very pleasant and profitable day spent by all who were fortunate enough to be present.

A birthday party given on the beach by Hotel Naramata afforded great enjoyment for a large number of invited guests on Monday evening last, it being the occasion of Miss Margaret Robinson's birthday. Just before the real fun commenced a box of very fine chocolates was presented to Margaret by the Naramata Boys, the presentation being made by Ralph Boothe. After a jolly evening had been spent by all, ice cream and cake were served by the hostess.

## Penticton To Have Rural Mail Delivery.

Rural mail delivery for the Penticton fruit ranchers will likely be put into effect this summer, according to information given out by Mr J. R. Greenfield, Post Office Inspector. Mr Greenfield was in Penticton last week in connection with the various departmental matters including mail service on the K.V.R., and while in that district took occasion to look into the rural mail delivery possibilities.

Some months ago local organizations asked for free mail delivery for the farmers of the municipality. Mr Greenfield stated last week that a favorable report would be made to the department at Ottawa, and as a consequence it could be expected that the service would be provided within a comparatively short time.

This will give Penticton a service that Summerland has been enjoying for a year or two, and the successful working of the system here has probably influenced Inspector Greenfield in consideration of the situation at Penticton.

### HE REALIZED IT.

"Young man," said an apostle solemnly, "do you realize when you retire at night, that you may be called before the morning dawns?" "Yes, sir," responded the young man, "I realize it fully. I am the father of a three-weeks-old baby."

Some people who are in business think that by not sticking an ad. in the local paper they are saving a few dollars every month. This is where they fool themselves. A line of business that is not worth advertising is not worth having, and the majority of the buying public certainly think it not worth patronizing.—Trail News.

Avoid argument with ladies. In spinning yarns among silks and satins a man will always be worsted and twisted and finally wound up.

## Naramata Current Events (Continued.)

Mrs James Wells spent Monday in Summerland on business.

Mrs A. Gordpn has returned to Penticton after spending a few weeks with Mr and Mrs R. H. King.

By an error in the date the Farmers' Institute spoken of in last week's issue didn't take place. It will be Friday, Aug. 11th.

## Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicality, and thoroughness, are now used in nearly 800 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

# To the Electors of South Okanagan, B.C.

Dear Sir,

No doubt you are already aware that Thursday, September 14th, has been fixed as the date of the polling in the forthcoming Provincial Election.

As you will be called upon to vote for the South Okanagan Riding, I would like, as candidate selected by Conservatives and a large body of independent business men and farmers, to draw your attention to some of the more important considerations which make it urgent and necessary that your vote and influence be used on my behalf.

The Okanagan Valley, and particularly the district of South Okanagan to which you belong, is at the present time at a stage of development which demands the greatest care and active co-operation of all concerned. Indeed, it might be said that the purely local needs and problems of the district are so important as to entirely overshadow those of a wider provincial character.

No one, I venture to say, of all those who have resided for any length of time in the district, has had the temerity to deny that, for productiveness of soil, climate and general desirability as a place to live in, our Valley stands in the front rank of all the wide Dominion.

It is obvious, however, that these things alone are not sufficient to ensure the permanent prosperity of the district, and there is no doubt that in the past too much emphasis has been laid upon the natural advantages of the Valley and too little upon the organization of necessary facilities such as transportation, extension of reliable markets for fruit and produce, and the provision of an absolutely permanent, cheap, and abundant supply of water for irrigation purposes. Given these things, which would ensure to the farmer an adequate return for his labors, the natural attractions of the Valley would compel a development out of all proportion to what has yet been achieved.

The Government of British Columbia during the past session adopted many measures of far-reaching importance to the farmers of the Valley, chief amongst which might be mentioned the Agricultural Credits Act, affording much needed financial assistance to the farmer who is struggling to put his place on a revenue-producing basis. The system is one which has worked wonders in many other countries, notably in New Zealand.

Much progress has also been made in the preliminary gathering of data leading to the government taking control of irrigation water supply, and this I regard as perhaps the most pressing of all local problems. I am strongly in favor of government provision and ownership of

storage reservoirs and main canals, leaving distribution systems to be handled by water municipalities, specially organized amongst water users themselves. This would ensure a degree of permanence which nothing else could give, and cheaper water rates to farmers.

For the first time the district of South Okanagan has been given the opportunity of direct representation in the House, and it is essential, especially at this critical time, that a representative be chosen who has thorough knowledge of local conditions, and who is in intimate touch with its needs and problems.

As you know, I have been resident in Kelowna for a number of years and all my interests, financial and otherwise, are bound up with the district. For the past ten years I have been very closely connected with almost every local movement for the benefit of the district—the Board of Trade, the Growers' Exchange, Farmers' Institute, Agricultural Association, Kelowna Creamery, Kelowna Hospital, and others. Of my work on the City Council I need say no more than that I have been a member of that body for the past seven years, five of them as Mayor of the city. In all these various activities I have had an opportunity which has fallen to few of gaining valuable experience and insight into the needs of the district, and I am willing to place this experience at your disposal in looking after your interests should I be elected to the legislature.

During the past few months the government of which the Hon. W. J. Bowser is the head, has been subjected to the most venomous and bitter attacks, and serious charges have been laid in the wildest possible manner. Happily these charges have been disproved in the most convincing manner, and in some cases have rebounded to the lasting discredit of those who laid them. The record of the past session of the House, too, is admitted on all hands to be the most remarkable in the history of the province for the number and character of the beneficial measures which have been passed.

There may be some, however, who from purely party considerations, would hesitate to vote for one who admitted Conservative leanings. To such I would say that while I certainly would support the government in the highly progressive policy which has characterized the past session, I am not a hide-bound party politician, and would at all times place the interests of the district before any party considerations.

Yours sincerely,

**J. W. JONES**

## GIVE LIBERAL VERSION OF ELECTION ISSUES.

[Continued from Page 2.]

not sound policy, since the land constituted, as it were, the capital of the province. The policy should be to increase settlers. But now much land is withheld from settlement, the land regulations were being broken, and a blight was being placed on the great north country, for the sparse settlements cannot get roads or schools. Under a Liberal regime land would not be sold for speculative purposes, and the settlements would be built up in blocks, costing less when it came to putting in roads, schools and such like facilities. But as it was now many settlers could not get produce to market. And there was the same alienation apparent in all the natural resources of the province.

This heaping up of expenses—how could it go on? It was not productive expenses that the government was borrowing for, but ordinary running expenses. The situation was affecting the credit of the province, and it was not possible for B.C. to obtain money as cheaply as other provinces.

It was to the electors' own interests to study the situation for themselves, Mr. Macdonald said in conclusion, and he thought that business considerations would lead to the support of the Liberal party.

### THE LIBERAL LEADER.

The last speaker was H. C. Brewster, the Liberal leader. He prefaced his remarks by some eulogistic references to the interest the women were taking in matters political, and said that he had no doubt as to their aptitude for making the best use of the ballot. Women suffrage had been a plank in the Liberal platform for years. The people of the province must come to realize the immensity of their

province, said Mr. Brewster. There were miles of land for settlers, but many people who had immense holdings had but one sole interest in it—dollars. They interposed themselves between the settlers and the land. There were truly distressing conditions existing in the north, and the people were leaving it, not going to it. More than that, it was breaking down the splendid pioneer manhood of the north.

### HIS REMEDY.

Regarding the land speculators, Mr. Brewster said his remedy was to make it unprofitable for the speculator to hold the land. These people are not using the land, but just hanging on to it, hoping to get profit out of the development of adjacent property. But these people would drop it if touched through their pocket books, if it were made unprofitable for them to hold the land idle. The government should not only strive to get the land cultivated, but stay with the settlers and help them. But so far there had not been a dollar given to help the man who tills the soil.

Touching upon the matter of finances, Mr. Brewster pointed out the fact that the per capita expenditure in this province works out to about \$82 per head of the population, far in excess of figures quoted for the other provinces. The province was now called upon to pay \$310,000 on P.G.E. interest semi-annually, and similar payments on behalf of the Canadian Northern are anticipated.

### THE FAMOUS WRIT.

Mr. Brewster then passed on to the consideration of his famous writ recently issued against the Premier. He said that the province having guaranteed the bonds of the P.G.E. to the extent of \$35,000 per mile, the proceeds from the sale of the bonds formed a trust fund. The violation of this trust would subject the person to whose charge the

funds were designated to proceedings under criminal law. That money was to have been paid out as the building of the road progressed. Instead of this 62 1/2 per cent of the road had been built at the present time, and 100 per cent of the trust funds paid out, and several millions more were needed to complete the road. Mr. Brewster questioned the legality of the proceeding, and asked first for an investigation and then for a judicial commission. Both were refused, and he took the only other alternative, and a decision now rests with the courts.

### THE PLUGGING EPISODE.

The wind-up of Mr. Brewster's address dealt with the famous plugging episode in connection with the recent Vancouver by-election. He discussed the unavowed matter in very minute detail, and it was only to be expected that the story of the episode by no means agrees with the version that comes from the government side. Mr. Brewster claimed that but for the investigation the Liberals themselves started right after the elections there would never have been any government probe. He said the commission was along strictly party lines, and that even in the matter of witnesses equal privileges were not awarded both parties. The final conclusion Mr. Brewster arrived at was that the return of John T. Scott that both parties desire so much could be effected by the simple expedient of withdrawing the criminal warrant against him. This the Attorney-General alone has the power to do, and he will not. Nevertheless, said Mr. Brewster, the Liberals will not rest content till they have that same Scott back in B.C. to disclose all the choice scandal he is alleged to have within his telling.

The meeting closed with the singing of the National Anthem.

## July Donations To the Hospital

The Matron gratefully acknowledges donations made to the Hospital during the month of July as listed below:

Mrs H. A. Solly, cream and magazines; Mrs R. C. Lipsett, cream, eggs and cherries; Mr I. Blair, strawberries; Mr S. M. Young, cherries and raspberries; Mr C. Wharton, fresh vegetables; Mr A. Hespeler, new potatoes; Mr G. L. McWilliams, magazines; Mrs A. Fraser, green onions; Dr R. C. Lipsett, chickens; Mr T. H. Ramsay, green peas; Mrs R. H. Helmer, sweet peas; Mrs S. Angove, magazines; Mrs G. L. Young, fresh eggs and cherries; Mrs Reid, marmalade; Mrs R. Cartwright, fresh vegetables and raspberries; Mrs D. F. Brewer, canned fruit and eggs; Mrs H. Bristow, canned fruit and eggs; Mr J. Downton, roast nut; Mrs A. Moyes, canned fruit, onions and apples; Mrs R. H. Helmer, sweet peas and fresh vegetables.

A donation that needs some special mention is that of Mr C. Wharton, who not only gave a considerable quantity of potted plants and flowers, but also went to the trouble of setting them out in the flower beds. Needless to say such a gift has given—and will continue to give—the keenest pleasure to patients and nurses alike.

Could not the children of the community be encouraged to give to the Hospital? A number of children made donations in various forms during last month, and there are doubtless others who will be glad to do so in the future, being assured that whatever they have to give will be gladly received. The following children's donations are acknowledged for last month:

Edna Heys, Elsie and Bertha Riley, Jack, Bobbie and Marguerite Moreland, Kirk Sutherland, fruit, flowers, cookies, magazines and jelly. Nor must the kindness of two Chinamen be forgotten for their donations of old linen, the donors being Lou Ding You and Leu Sing Dew.

There is a great need for fresh vegetables at the Hospital, and there are doubtless many kindly disposed people who will be thoughtful enough to give from the plenty of their gardens for the benefit of the Hospital.

## Vinegar Plant For The Valley

Mr James H. Falconer, a Vancouver manufacturer, head of the B.C. Vinegar Works, has lately been at Vernon, where he intends to open a branch of the business in the form of a cider factory, where many hundreds of tons of apples will be processed during the coming harvest. Mr Falconer will turn the cider into a splendid vinegar, which will be sold in British Columbia stores in the place of the vinegars which are at present imported from abroad.

The opening of the factory at Vernon will be a start along the lines of manufacturing many British Columbia by-products of orchard and garden by concerns who will always follow where enterprising men lead. At present nearly all the pickles, sauces, and allied products used in the Okanagan are imported, while the raw material goes to waste in orchards and gardens.

A rattlesnake never shrinks from danger. It simply recoils.

## Why Not Summerland Also?

The Provincial Department of Agriculture has had an exhibit at the Vancouver Exhibition this week and, if plans materialize, will also place exhibits at Kelowna and Kamloops. Exhibits and literature of educational value to those interested, not only in agriculture on a big scale, but to the home gardener and chicken raiser, will be a feature of the booth, while a specialist from each branch of the department will be in attendance to answer questions.

The Agricultural Association of this place should see to it that an effort is made to have the provincial government exhibit brought to the Summerland Fall Fair. It was to have been placed on show at the Penticton Fair, but it is understood that the Fair in that town will not materialize this year. If this is so, it is all the more reason why the provincial government exhibit should be seen here.

## WEDDING.

### Stanton—Clark.

On Thursday evening, at the home of the bride's parents, Penticton, with only immediate friends and relatives present, Miss Bessie Clark, formerly of this place, became the bride of Mr M. J. Stanton, of the K.V.R. engineering staff. The ceremony took place at 7.30, Rev F. Millar officiating.

The bride, who was given away by her father, was dressed in white crepe de chine with the conventional bridal veil and orange blossoms and carried a bouquet of white roses. Miss Myrtle Clay, of Summerland, was bridesmaid and wore old rose Georgette crepe with a bouquet of pink roses. Miss Margaret Clark, the little sister of the bride, was flower girl. The groom was supported by Mr A. R. Gayton, of the K.V.R. staff, also a Summerland resident.

After a buffet luncheon the happy young couple boarded the train for Brookmere, where they will make their home.

For her going away suit the bride wore Russian navy serge with a blouse of pink crepe de chine and a hat of old rose.

Mr. and Mrs Stanton are both well known to many Summerland people who will wish them every happiness.

## Ross Rae Killed In Action

### Young Summerlander Makes Supreme Sacrifice.

Casualty lists appearing in the daily papers which reached here on Thursday evening contained the name of Ross Rae as among those killed in action. Miss M. Aitchison, matron at the Hospital, his cousin, had no further information other than what appeared in the lists, but confirmed the identity of the casualty by comparing the regimental numbers. The news of Ross Rae's death will be received with the keenest regret by many in this community. He was a favorite especially among the young people, being active in all sports, indoor and outdoor. It does not seem many months ago since he enlisted, and it is certain that he was able to get to the front far quicker than others who joined before him. He has been in Summerland for a number of years, during which time he has made many friends. Further particulars of his death will be awaited with great interest.

Findley McWilliams who was invalided to England some weeks ago suffering from dropsy is steadily improving. He feared he would be discharged and sent back to Canada, but now hopes to be fit soon for light duties at least.

## Prize Winners at the Annual Flower Show.

### Women's Institute Brings Together Fine Collection of Work.

The annual Flower Show and General Exhibition organized by the Summerland Women's Institute is in progress to-day, and from all appearances, is being well attended, though it is not likely that the maximum attendance will be reached till the evening. The exhibits are well up to the high standard of previous years, though in some sections they are probably not quite as numerous as at former shows. In the floral section there is a splendid variety of blooms. An exhibit of flowers from the Experimental Station excites great admiration, and gives evidence of what a professional gardener can do with the advantages which the district offers for floriculture.

In the needlework section there is the customary display of wonderful sewing to excite the admiration of the lady visitors. Nor is it all fancy sewing and embroidery, for there are also some splendid exhibits of useful every day needlework, knitting, and such like work.

The classes in the section devoted to home baking, preserving and other household arts gives a representation of the wide range of work which the housewife of this district undertakes in the preparation of the food for her household. The exhibits of bread are most appetizing in their appearance, and the canned fruit and jellies also show up well. The Women's Institute are to be congratulated on their determination to carry the show on in spite of the difficulties of the times. Their efforts seem to have met with good encouragement, both in the matter of the exhibits and attendance.

Tea is being served to those who desire it at a nominal charge.

The prize list as drawn up by the secretary is as follows:

- Three Vases Flowers—1, Mrs J. Tait; 2, Mrs G. Anderson.
- Sweet Peas, six colors—1, Mrs J. Tait; 2, Miss Cooper.
- Sweet Peas, named—1, Mrs S. Angove.
- Best Collection Dahlias—2, Mrs S. Angove.
- Best Collection Asters—2, Miss Cooper.
- Twelve Roses, grown out of doors—1, Mrs S. Angove.
- Ten Cloth, colors—1, Mrs A. Stark; 2, Mrs F. Marshall.
- Collars—1, Miss Hayes; 2, Mrs M. M. Robinson.
- Towel, Initialled—1, Mrs Downton.

## Fall Term Begins August 28.

There seems to be some confusion as to the date of the re-opening of the public schools. The date is fixed by provincial law, and could be changed only by special permission. According to the School Act the "Summer school holidays shall extend from the last Friday in June until the fourth Sunday in August."

Almost before the classes get down to work there will be an interruption by Labor Day the following Monday. There are many who feel that nothing would be lost by deferring the opening until the Tuesday following that holiday.

Mr W. Watson has become the owner of a Case car, having purchased Mr W. C. Kelley's automobile of that make.

- Embroidered Petticoat—1, Miss Hayes.
- Centrepiece—1, Miss E. Watson; 2, Mrs J. Downton.
- Embroidered Nightgown—1, Mrs E. B. May; 2, Miss M. McLaughlin.
- Embroidered Blouse—1, Miss Hayes; 2, Mrs A. Stark.
- Child's Dress—1, Mrs J. Galt.
- Dressing Jacket—1, Miss Hayes.
- Tray Cloth—1, Mrs Stark; 2, Mrs W. J. Ross.
- Tea Cozy—1, Mrs Galt; 2, Mrs W. J. Ross.
- Cushion, Colored—1, Mrs F. Marshall.
- Filet Lace—1, Mrs Hayes; 2, Mrs W. Watson.
- Knitted Jacket—1, Mrs G. Anderson.
- Socks—1, Mrs David Watson; 2, Mrs A. E. McLaughlin.
- Embroidered Camisole—1, Miss Hayes.
- Roman Cut Work—1, Mrs W. J. Ross.
- Pin Cushion—1, Mrs A. Moreland.
- Child's Hat—1, Miss A. Hayes.
- Plain Sewing—1, Mrs M. M. Robinson.
- Fancy Bag—1, Mrs W. J. Ross.
- Irish Lace—1, Mrs M. M. Robinson; 2, Mrs W. J. Ross.
- Outlined Work, by child under nine—2, Dorothy May Solly.
- Pen and Ink Drawing—1, Mr A. C. Cooper.
- Water Color—1, Mrs A. Moreland.
- Best Drawing Book, under sixteen—1, Allen Harris.
- Bread, Royal Household Flour—1, Mrs A. E. McLaughlin; 2, Mrs Mellor.
- Half Dozen Rolls—1, Mrs A. E. McLaughlin.
- Cake—1, Mrs Moreland; 2, Mrs A. E. McLaughlin.
- Cookies—1, Mrs G. Gartrell; 2, Mrs Mellor.
- Pickles, four varieties—1, Mrs Lipsett.
- Canned Fruit—1, Mrs MacLaine; 2, Mrs W. Watson.
- Peaches, yellow flesh—1, Mrs Sharp; 2, Mr C. Wharton.
- Bread, Our Best Flour—1, Mrs Solly.
- Brown Bread—1, Mrs Sharp.
- Ten Biscuits—1, Mrs G. Gartrell; 2, Mrs Angove.
- Pie—1, Mrs Moreland; 2, Mrs G. Gartrell.
- Jellies, four varieties—1, Mrs Stark; 2, Mrs Solly.
- Relish—1, Mrs Hayes.
- Collection Summer Fruit—1, Mrs Sharp.
- Crata Peaches—2, Mrs Sharp.
- Peaches, White Flesh—1, Mrs F. Marshall; 2, Mr C. Wharton.

## Trout Fry For Our Lakes.

Okanagan Valley lakes are likely soon to be stocked with trout fry. An effort was made some time ago to have the Dominion Government do this, but poor transportation facilities made it impracticable. Now that the K.V.R. is in operation the matter has been taken up again by our member, the Hon. Martin Burroll, with the Fisheries Department, and he has been promised that a further report will be made by the chief inspector of fisheries for the province.

A brother of Lieut. Douglas Hamilton, whose death at the front was mentioned in these columns last week, is expected to visit Summerland next week in connection with Lieut. Douglas Hamilton's affairs.

## High School Principal Resigns

Mr R. B. Forsyth, principal of the High School, has resigned his position. He left a few weeks ago for his former home in Prince Edward Island, and a few days ago his resignation was received by telegraph.

The vacancy which Mr Forsyth's resignation makes has been filled by the appointment of Mr D. H. McIntosh, who has heretofore been the assistant teacher to the principalship, and Mr C. D. Denton has been appointed to the assistant post. Mr Denton has been teaching at Armstrong since last Christmas.

It is understood that Mr Forsyth has accepted an appointment to the Vancouver High School staff. It would seem that our High School teachers are being sought for by the metropolis as we have it on good authority that Mr McIntosh has just refused a very tempting offer from Vancouver at a much larger salary.

Our School Board is to be congratulated on being able to procure the services of such excellent men, and parents will continue to feel confident that their children in the High School are getting the very best of training. Both Mr McIntosh and Mr Denton were selected by Okanagan College because of their especial qualities as teachers.

## Criticism Endorsed

After copying in full our criticism last week of the report of the B.C. Fruit Growers' Association's visit to Summerland, as furnished the Province by its Penticton correspondent, the Penticton Herald makes the following comment:

The Review is quite justified in making this comment, for the entertainment provided by Summerland to the visitors in the Okanagan during the B.C. Fruit Growers' Convention was hospitable and fine. There is no question but that every member of the party will remember their trip through the orchards there with a great deal of pleasure. They all said so at any rate.

Than the editor of the Review there is no one more jealous of the good name and reputation of his progressive town.

## Prices in the Kootenay.

The city of Nelson has been brought pretty close to this end of the Okanagan Valley by the daily train service over the Kettle Valley line, and it is somewhat surprising to find that in a city less than twelve hours from Summerland, the prices of fruits and vegetables are exceedingly high. In the Nelson Daily News of last Saturday, retail prices were quoted as follows:

- Hothouse cucumbers 15 to 20c. each
- Tomatoes 20 to 25c. per lb.
- Lettuce 10c. per lb.
- Peaches 2 lbs. 25c.
- Apples, Yellow Trans. 3 lbs. 25c.
- Apricots \$1.75 per crate
- Plums 60 to 75c. per basket

This week it was expected that prices would drop somewhat, however arrivals of fruit and produce being expected. Is there room in the Kootenay metropolis for more Okanagan produce?

Mr R. Pollock is a patient in the Hospital just now, and a few days ago underwent a minor operation.

J. J. Blowitt came in at the end of last week after a stay on the Princeton.

## Peachland Flower Show

The second annual flower show of the Women's Institute took place on Friday afternoon in the basement of the Baptist Church. There was a fine display of flowers, fancy work, domestic science, and fruit. Mrs Keating was in charge of the ice cream booth, the proceeds of which went to the Ambulance League. Those who had the hard task of judging were: Flowers—Mrs Moore, Mrs Hogg, and Mrs J. E. Robinson; Fancy Work—Mrs J. Tait, Summerland, and Miss F. Moule; Domestic Science—Miss F. Moule; Vegetables—Mr H. Hardy. The prizes, first and second, were as follows:

- Roses—Mrs Ferguson.
- Dahlias—Mrs Mills, Mrs Ferguson.
- Pink carnation—Mrs Ferguson; Mrs Mills.
- Sweet peas—Mrs Mills.
- Collection of flowers—Mrs Mills, Mrs Tewart.
- Collection potted plants—Mrs L. D. McCall, Mrs Mills.
- Best work shirt—Mrs Carter, Mrs Clarence.
- Best mending and darning—Mrs Needham, Mrs Carter.
- Best flower table—Miss McDonald, Mrs Tewart.
- Best bouquet wild flowers—Lizzie Keating, Mrs A. Town.
- Handicraft—Albert Town, Gordon Town.
- Collection fancy work—Mrs Taylor, Miss McLaughlin.
- Hand Sewing—Mrs Needham, Mrs McDougall.
- Sponge cake—Mrs Ferguson, Mrs Buchanan.
- Buns—Mrs Urquhart, Mrs McCall.
- Special for buns—Mrs Wm. Douglas.
- White bread—Mrs Wm. Douglas, Mrs Harrington.
- Brown Bread—Mrs Harrington, Mrs Needham.
- Butter—Mrs Douglas, Mrs J. Elliott.
- Pie—Mrs Ferguson.
- Drawing and painting—Myrtle Keating, Verna Town.
- Best dressed chicken—Mrs Tewart.
- Canned fruit—Mrs Town, Mrs Urquhart.
- Canned jelly—Mrs Needham, Mrs Douglas.
- Best plate of fruit—Mrs Douglas, Mrs Hogg.
- Potatoes—Mrs Ferguson, Mrs Needham.
- Best Collection vegetables—Mrs Douglas, Mrs Tewart.

There were five special prizes offered outside of the institute. The Peachland Fruit Growers' Union offered a forty-nine pound sack of flour for the best loaf of white bread, which was won by Mrs Wm. Douglas; also one forty-nine pound sack of flour for the best loaf of brown bread, which was won by Mrs Harrington. Mr J. H. Clements offered one pound of tea for the best pan of buns, won by Mrs Wm. Douglas; also one pound coffee for the best sponge cake, won by Mrs A. D. Ferguson. H. E. McCall a fancy tea pot for the best decorated table, which was won by Mrs L. McDonald. In connection with the show the ladies sold ice cream and cake, taking in \$22.80. After the show a number of the exhibits were sold and the proceeds turned over to the Ambulance League.

## Another Thru Train Over Hope Cut-Off.

The Great Northern, it is announced, will begin about September 1st running a through train daily between Spokane and Vancouver by way of Marcus, Grand Forks, Oroville, Princeton, Hope and Chilliwack using the line jointly with the Kettle Valley between Princeton and Hope. This will make Princeton quite a busy railway point.

### Improved Service.

At the suggestion of a number of my customers, and for their greater convenience, and to improve my service to the public of the district, I have opened a second STORE in the KELLEY BLOCK (north of barber shop), where you will find me, with a full stock of

**MEATS, FISH, &c.,**

on the afternoon of Tuesday, Friday, and Saturday of each week.

May I enjoy a continuance of your patronage?  
Careful attention given to all orders.

# J. DOWNTON

"REVIEW" Offices.

## Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

### Thinning the Fruit Pays

Unless the peach trees are allowed enough space to develop to their maximum there will always be a quantity of second grade offered for sale. A tree which is loaded will, even after it is thinned, produce as many baskets of fruit as one which is not so thinned, but the one which is thinned will produce more first class fruit, while the other will have a quantity of small and second grade peaches. It is easier to pick and drop small green peaches on the ground than it is to pick those same peaches later and put each one in a basket. The cost of thinning any kind of fruit, apples, pears, plums or peaches, is more than made up by the time saved in harvesting and grading, and also by the increased price of the greater amount of first grade fruit.

§ § § § §

### Seed Fairs Will Again Be Held

The Provincial Department of Agriculture is planning to proceed further with its plans in regard to seed fairs, the first of which were held last winter. Plans for this present season, in fact, are somewhat more elaborate than last year. A series of local seed fairs will be held in all parts of the province, usually under the auspices of the Farmers' Institute, and following these provincial fairs will be held in order to get the winners at the local shows competing together. The intention at present is to hold the seed fairs in the months of November and December. Revised prize lists have been prepared and rules and regulations governing the different competitions have also been prepared. Copies may be had from the Department at Victoria.

Government officials say they can already see evidences of the value of seed competitions in the better methods adopted by a large number of farmers in every part of the province to produce better exhibits for this year's seed fairs.

It is impossible of course to state just at this time to what extent the holding of the seed fairs has influenced seed production, though it is without question that they have been the means of stimulating interest in the movement inaugurated by the Dominion Government to get the farmers all over the country to grow as much of their own seed as possible.

§ § § § §

### The British Apple Market

An English correspondent, writing a few days ago about fruit conditions in Great Britain, says, "I am under the impression that there will be a good demand for apples from Canada this season. The English apple crops are not looking at all well, though it is early to pass an opinion yet. They will likely be small, scrubby and wormy. If any of the districts do better than others, it will probably be the districts that have only been planted of late years."

Canadian apples coming on to this market do well, especially if the samples are good and clean. One of the troubles with a number of shipments in past years from Canada is the fact that many of the ends come out of the barrels in transit. This is probably owing to the nailing, and you will understand that where the bottoms and tops come out of the barrels the apples are considerably damaged and numerous barrels lost out of the shipment."

Mr R. M. Winslow, Provincial Horticulturist, has received from Mr J. Forsyth Smith, Canadian Fruit Trade Commissioner for Great Britain, a special report on the direct shipping of apples to Great Britain. The report, in some detail, goes into the views of Old Country firms on the matter, financial arrangements, etc., and includes a considerable number of enquiries for B.C. apples. Copies of the report can be had by interested shippers on application to the Department of Agriculture, Victoria, B.C.

Public Meeting

Under the auspices of the Liberal-Conservative Association

THE HONORABLE

W. J. BOWSER

Premier of British Columbia, AND

J. W. JONES,

Esq., Liberal-Conservative Candidate.

Will Address the Citizens of Summerland on Provincial Political Issues, at

EMPIRE HALL

Tuesday Afternoon, 22nd inst.

at 3-00 o'clock prompt (new town time)

Electors of Naramata are especially asked to attend. Special Ferry from Naramata being arranged for.

The Ladies, and all Soldiers now in the district, are cordially invited to be present.

An invitation is extended to the Opposition candidate or his representative, to speak at this Meeting.

J. A. KIRK, President.

J. M. SUTHERLAND, Hon. Sec'y.

EMPIRE HALL - SATURDAY, AUG. 19th

By Authority of Military Headquarters, Ottawa

Lieut. B. C. HILLIAM

AND STAFF,

in a Humorous and Musical

Concert - Recital

Entire Receipts in aid of the Canadian Camp Recreation Fund

Prices - 25c. and 50c.

Plan at Summerland Drug Store.

The 187th Battalion, C.E.F., commanded by Lieut.-Col. G. W. Morfit, left Calgary this week for overseas.

The Home Comfort Club will meet next Thursday, August 24th, at the home of Mrs F. D. Cooper, Peach Orchard.

G. J. C. White spent a day or two in Vernon this week, attending a meeting of the executive of the Okanagan United Growers.

Messrs Lawler and Sage of the Fruit Union motored to Vernon on Thursday afternoon. Mr Sage will go to Armstrong before returning.

Pickers are scarce across the line, and officials of the associations are considering the advisability of a house to house canvass of Tacoma to secure pickers.

R. H. English and son of the Pioneer Livery announce that their car meets all eastbound trains at the Kettle Valley station, West Summerland.

California canneries are paying \$52 per ton for pears. Foreign shippers have contracted at the rate of \$1.00 per box in the Sunset State for pears to go overseas.

Miss Kathleen Babbitt, now a probationer at the Vancouver General Hospital, underwent an operation for appendicitis recently, and has been making a rapid recovery.

Messrs W. Harvey and H. Tomlin went out on the "Sicamous" last Wednesday morning bound for Rogers Pass, to work on the finishing of the C.P.R. tunnel there.

The Review has been furnished by Mr. R. H. Helmer, Superintendent of the Dominion Experimental Station, Trout Creek, with an extract from the meteorological records for the month of July as kept there.

The United Producing Company presented "Charley's Aunt" in Empire Hall on Wednesday evening this week. While they did not have a packed house by any means, yet in these times a hall three-fourths full or thereabouts must be considered quite satisfactory.

A pair of 1,600 lb. horses was purchased this week at Vancouver by the Public Works Committee, all the members of which were down attending the Vancouver Exhibition. The horses came up in a car of stock put on the siding at Faulder and destined for Upper Garnett Valley.

In last week's paper mention was made of the marriage of Miss Dorothy Postill, third daughter of Mrs E. A. Postill, on July 20th.

Three days afterwards the marriage of Miss Mary Postill, the eldest of the three daughters took place. Those who came to know the family during the time the Misses Postill attended Okanagan College will be interested in the following item clipped from the Vancouver Item:

"A quiet wedding took place on Tuesday evening, August 1st, at the home of the bride's mother, when Mary, eldest daughter of the late Alfred Postill, of Okanagan Valley, B.C., and Mrs E. A. Postill, 333 Third Street, Westminister, was united in marriage to John Wickham Barnes, son of the late J. Wickham Barnes, F.R.C.S.L.S.A., of London, England, and Mrs Barnes of Salmon Arm, B.C. Rev. F. W. Auvaiche of Hammond, B.C., performed the ceremony. Mr and Mrs Barnes will make their home in Vancouver."

Premier Bowser is on his third trip through the province, and next Tuesday afternoon at 3.00 o'clock in Empire Hall, will address a meeting on the questions at issue in the provincial elections to be held next month. With him will be Mayor Jona of Kelowna, the Liberal-Conservative candidate for this riding.

With the speeches of the Liberal leaders last week still fresh in mind there will, without doubt, be many people who will attend the meeting next Tuesday to hear the other side of the question. A strong contingent is expected to cross from Naramata, and an urgent invitation to the ladies is extended, and also to every person of whatever political affiliation they may be.

The meeting is being well advertised, and the hall is likely to be crowded. On this account, if on no other, the audience should be seated in time for the meeting to commence promptly at 8 o'clock.

**The B. C. Hilliam Concert-Recital**

Lieut. B. C. Hilliam, former star with the "Follies," and his staff of military artists, will give a concert-recital in Empire Hall tomorrow evening, Saturday, August 19th, in aid of the Canadian Camp Recreation Fund.

This fund in no way intrudes upon the splendid work which the Y.M.C.A. is carrying on in the military camps, nor does it overlap on to the activities of any other organization engaged in such work. Its aim is to step in and help wherever help is needed. Every cent that finds its way into the treasury of this fund will do its bit towards the destruction of camp monotony. Lieutenant Hilliam is the officer in charge of this initial western appeal for the fund, having been duly authorized by the military headquarters at Ottawa.

Lieutenant Hilliam is a whole concert program in himself. Those who recall his appearance with the "Follies" here not long ago will know that the entertainment to-morrow night will be all that it should be. During this humorous and musical concert-recital, Lieut. Hilliam will contribute a number of musical sketches, and other military artists who will contribute to the program are Sergeant Adamson, Sergeant Evans, and Sergeant Murgatroyd.

An advertisement elsewhere in this issue contains full particulars.

Increase the vitality and the fruit bearing ability of squashes, pumpkins, and melons by restricting the vine growth. As a rule the vines tend to spread a great deal more than is necessary. Prevent this spreading by snipping off the tip ends of the vines, preferably with a sharp knife, close to, but just beyond a leaf stem.

**July Municipal Accounts.**

The main items on the list of accounts passed at the regular meeting of the Municipal Council last week are as follows:

Pay Roll	\$1,404.68

**To the Electors of South Okanagan, B.C.**

Dear Sir,—

No doubt you are already aware that Thursday, September 14th, has been fixed as the date of the polling in the forthcoming Provincial Election.

As you will be called upon to vote for the South Okanagan Riding, I would like, as candidate selected by Conservatives and a large body of independent business men and farmers, to draw your attention to some of the more important considerations which make it urgent and necessary that your vote and influence be used on my behalf.

The Okanagan Valley, and particularly the district of South Okanagan to which you belong, is at the present time at a stage of development which demands the greatest care and active co-operation of all concerned. Indeed, it might be said that the purely local needs and problems of the district are so important as to entirely overshadow those of a wider provincial character.

No one, I venture to say, of all those who have resided for any length of time in the district, has had the temerity to deny that, for productiveness of soil, climate and general desirability as a place to live in, our Valley stands in the front rank of all the wide Dominion.

It is obvious, however, that these things alone are not sufficient to ensure the permanent prosperity of the district, and there is no doubt that in the past too much emphasis has been laid upon the natural advantages of the Valley and too little upon the organization of necessary facilities such as transportation, extension of reliable markets for fruit and produce, and the provision of an absolutely permanent, cheap, and abundant supply of water for irrigation purposes. Given these things, which would ensure to the farmer an adequate return for his labors, the natural attractions of the Valley would compel a development out of all proportion to what has yet been achieved.

The Government of British Columbia during the past session adopted many measures of far-reaching importance to the farmers of the Valley, chief amongst which might be mentioned the Agricultural Credits Act, affording much-needed financial assistance to the farmer who is struggling to put his place on a revenue-producing basis. The system is one which has worked wonders in many other countries, notably in New Zealand.

Much progress has also been made in the preliminary gathering of data leading to the government taking control of irrigation water supply, and this I regard as perhaps the most pressing of all local problems. I am strongly in favor of government provision and ownership of

storage reservoirs and main canals, leaving distribution systems to be handled by water municipalities specially organized amongst water users themselves. This would ensure a degree of permanence which nothing else could give, and cheaper water rates to farmers.

For the first time the district of South Okanagan has been given the opportunity of direct representation in the House, and it is essential, especially at this critical time, that a representative be chosen who has thorough knowledge of local conditions, and who is in intimate touch with its needs and problems.

As you know, I have been resident in Kelowna for a number of years and all my interests, financial and otherwise, are bound up with the district. For the past ten years I have been very closely connected with almost every local movement for the benefit of the district—the Board of Trade, the Growers' Exchange, Farmers' Institutes, Agricultural Association, Kelowna Creamery, Kelowna Hospital, and others. Of my work on the City Council I need say no more than that I have been a member of that body for the past seven years, five of them as Mayor of the city. In all these various activities I have had an opportunity which has fallen to few of gaining valuable experience and insight into the needs of the district, and I am willing to place this experience at your disposal in looking after your interests should I be elected to the legislature.

During the past few months the government of which the Hon. W. J. Bowser is the head, has been subjected to the most venomous and bitter attacks, and serious charges have been laid in the wildest possible manner. Happily these charges have been disproved in the most convincing manner, and in some cases have rebounded to the lasting discredit of those who laid them. The record of the past session of the House, too, is admitted on all hands to be the most remarkable in the history of the province for the number and character of the beneficial measures which have been passed.

There may be some, however, who from purely party considerations would hesitate to vote for one who admitted Conservative leanings. To such I would say that while I certainly would support the government in the highly progressive policy which has characterized the past session, I am not a hide-bound party politician, and would at all times place the interests of the district before any party considerations.

Yours sincerely,

**J. W. JONES**

FRIDAY, AUGUST 25, 1916.

A SELF CONTAINED COMMUNITY.

THE COMMUNITY which does the most for itself is the self-contained community. It is the community where everyone is loyal to themselves, their neighbors and their merchants.

There is no need to be incredible about this statement. Many hundreds of dollars leave Summerland every month, to purchase goods that the merchants of the place are offering.

When the actual facts are considered, who gives the best service, the home merchant or the mail order house? If the home merchant were treated the same as the mail order house this is what would happen.

These are the Review's sentiments on the buy-at-home question, notwithstanding the fact that there is published in this issue an unsolicited advertisement from one of the large mail order houses of the west.

There is also a challenge to local merchants in that advertisement. The Review counts itself as one, and it is our belief that the buying public here need education as to what the local stores have to offer in values.

LOCALS.

Mr J. Tompkins is on a visit to Summerland.—Enderby Press.

Mr F. Graham will be the soloist at the patriotic service in St Andrew's Church on Sunday evening.

Mr and Mrs Galt are leaving on Saturday for a vacation visit to Victoria, Vancouver, and other Coast points.

Mr and Mrs S. O. Bray of Kelowna were guests at Hotel Summerland on Thursday, on their return from the Coast.

Mrs T. R. Harwood returned from the Coast on Tuesday morning. Her daughter, Miss Marion, who accompanied her to Vancouver last week, remained there to take a course in the Normal School.

The Misses Logie are planning on a visit to Ottawa, leaving here on Tuesday morning to join Miss Gwen Robinson at Armstrong.

"Jack" Moreland leaves early next week to resume his studies in an Ontario school. He will make the journey under the care of Miss Gwen Robinson.

Mr and Mrs W. C. Kelley, after spending several days at Vancouver, reached home on Tuesday morning. While in the metropolis Mr Kelley purchased a Studebaker car, which will arrive immediately.

R. G. Clarke, Chief Dominion Fruit Inspector for B.C., spent part of the week here. Mr Clarke says he sees enough fruit now worthless, that if spraying were more general would bring in much more than the expense of spraying.

Corporation of the District of Summerland

NOTICE of TAX SALE

Notice is Hereby Given that, pursuant to the provisions of the "Municipal Act," and Amending Acts, and of a resolution of the Municipal Council, passed on the 4th day of July, 1916, I shall, on Thursday, the 31st day of August, 1916, at 10 o'clock in the forenoon [local time], at the Municipal Building, West Summerland, B.C., offer for sale at public auction the lands situate within the Municipality hereinafter described, for delinquent taxes and rates, and subsequent taxes and rates in arrears, together with interest, costs and expenses, if the total amount be not sooner paid.

Table with columns: Person Assessed, Description of Property (District, Lot, Block), Taxes Rates & Interest, Costs and Expenses, Total Amount Due. Lists various property owners and their tax details.

Given under my hand at West Summerland, B.C., this 14th day of August, 1916.

KENNETH S. HOGG, Collector.

### Improved Service.

At the suggestion of a number of my customers, and for their greater convenience, and to improve my service to the public of the district, I have opened a second STORE in the KELLEY BLOCK (north of barber shop), where you will find me, with a full stock of

### MEATS, FISH, &c.,

on the afternoon of Tuesday, Friday, and Saturday of each week.

May I enjoy a continuance of your patronage? Careful attention given to all orders.

### GOVERNMENT POLICY DEFENDED IN ROUSING SPEECHES.

(Continued from page 1.)

action by the Premier and Dr Young, Comptroller of Water Rights, had saved the situation. He had gone to Victoria and found business men willing to deal with the situation promptly.

After discussing the matter with many ranchers he had come to the conclusion that the government must stand behind the water users. These were the men who invested their money in the land, and their interests must be considered above all others. Nevertheless careful attention must be given to the position in which the interested bondholders are placed, for municipal securities would not be worth much if it became known that irrigation bonds had become absolutely worthless. The whole question was one that demanded the most careful consideration.

He advocated government ownership of the storage reservoirs and canals. There should be more reservoirs built, so that there could be no more shortage. If the government took over the storage reservoirs and the main canals, the people could take care of the distribution. The rate for the people on the land should be about \$2 per acre, and should certainly not exceed \$3 per acre.

In conclusion Mr Jones said that he stood for the interest of all capital invested in the district, and for the laboring man as well. He believed that prosperity would reign if the Premier's program went through.

### LIBERAL ADDRESS.

Mr L. V. Rogers, the Liberal candidate, was the next speaker, and for about fifteen minutes gave an energetic presentation of the opposition standpoint. A good deal of this time he gave up to the plugging at Vancouver, and in the course of his remarks upon this question he addressed some pertinent queries to Mr Bowser. The Premier, he said never referred to the mysterious J. L. Sullivan, who was in charge of the pluggers that came from Seattle. Mr Rogers charged that no precautions were taken to keep them out. If Welsh, the prominent Conservative, knew that there were irregularities being practiced, why did he not have the parties concerned arrested, he asked? Personally he did not accuse the Attorney-General or the Liberals either. They were trying to get John T. Scott back from Seattle, but a warrant for his arrest had been issued to keep him outside of the province. He asked the Premier, if he honestly believed that Macdonald was connected with the plugging, then why did he not have Macdonald arrested and prosecuted? Scott was fighting deportation solely on account of the warrant issued by the Attorney-General, and if he could come back and accuse Macdonald, he should be allowed to come back and let Macdonald be prosecuted.

The government, he passed on, had not been "Conservative" in many ways. In 1903 there had been a deficit of only \$400,000, but in 1917 there would be a deficit of not less than \$22,000,000. Was this prosperity, he asked? Look at the credit of the province. Nova Scotia had been able to sell its bonds at a premium, while the best R.C. had been able to get was about 84 per cent. This was because of the recklessness of the expenditure that had characterized the administration, and it was being continued this year by spending two dollars for every one dollar of revenue.

Touching for a moment on the Browster writ, Mr Rogers said it was issued because it was believed that the government had acted illegally in paying out trust funds before authorized, though it was not suggested that there was any intentional illegality. The sole excuse that was offered was that there were seven thousand men out of employment at the time. But the law did not permit of a starving person stealing a loaf of bread, and Mr Rogers' analogy was that public men should have stamina to do the right thing even in the face of consequences.

The government had also been remiss in permitting so many money-making concerns to run loose on the country. Some had been shown to be fraudulent in other provinces, and some were mentioned that had been brought to the attention of the Attorney-General. They should have been investigated and not tolerated, said Mr Rogers.

### OAVATION FOR PREMIER.

Mr Bowser got a splendid recep-

tion when he rose to speak at the conclusion of Mr Rogers' remarks. He said he had been glad to make the acquaintance of Mr Rogers, but wherever he met the Liberal candidates it was the same story he encountered—blue ruin and pessimism.

"There should be less depression and more optimism," said Mr Bowser. "Let us see the rift in the cloud. If we do this we shall have a better province." The wailings of the Opposition were like the grief of the "official crier" at the Irish wakes. The Liberals were most emphatic that the government had all gone to pieces, that there was nothing left, but still they were most anxious to get in.

### REPLY TO ROGERS.

Mr Bowser gave answer to some of the questions on the plugging matter advanced by Mr Rogers. Why not prosecute Macdonald? Because Gosdon was already being prosecuted, and why should he, as Attorney-General, add to the multiplicity of charges? Gosdon was being prosecuted properly, even the Liberals admitted that. John T. Scott was the man who held the key to the situation, and there was no way to bring him back. Why not withdraw the warrant against him, Mr Rogers had asked. If Scott was not guilty, why did he not come back anyway, and put the whole thing at the feet of him, the Premier, as it was alleged could be done?

Mr Bowser went very thoroughly into all the sordid details of the plugging, how lists of dead and absent voters had been prepared, that these names were to be passed and not challenged, and the persons paid ten dollars apiece for their trouble. There had undoubtedly been remissness on the part of the police, but any aspersions on his own private character were absolutely unfounded, and he resented them. It was an utter falsehood to say that he had ever met Sullivan while he had been staying at Kamloops for his health, or that he had met Sullivan at any other place than his office at Victoria, and then only for a few minutes in the ordinary course of business.

Mr Bowser drew attention to the extraordinary number of votes polled at the by-election, though it was usual for by-elections to get a far smaller vote than at general elections. In the election of 1912 there were about 10,000 votes polled, of which Tisdall, then heading the poll got 5,047. In February last, no less than 15,000 votes were recorded, in which Macdonald got a clear majority of 4,000, which almost equalled the total Conservative vote in the previous election.

"And then," said Mr Bowser, "the Liberals ask people to bring home to me the placing of Scott in the Liberal office, to defeat my own candidate!" "Further," asked Mr Bowser, "Why did Scott go to Seattle when the committee was appointed to investigate, even before the warrant was issued, if he was not guilty?" An interesting exhibit Mr Bowser had with him was a facsimile of the cards with the particulars the pluggers were to vote on. There was no danger of Scott coming back, Mr Bowser said, after relating the evidence which went to show the close connection the erstwhile Liberal worker had with his chiefs, and in the meantime it was perfectly safe to lay the blame for the whole thing on Bowser.

The Premier took advantage of the occasion to refute some statements made by Messrs Brewster and Macdonald during the course of their speeches here not long ago, while trying to prove the extravagance of the administration. They were small matters, Mr Bowser said, and there was nothing to them, but they indicated to what lengths the Liberals were going in their present campaign.

### GETTING ACQUAINTED WITH THE ELECTORS.

The Premier said he was going round the province to get better acquainted with the citizens, and they with him. He could not claim to reach the sublime heights of statesmanship that Mr Browster did, he said sarcastically, but he was doing his best. He was trying to gain a firsthand knowledge of conditions that would help him with the problems that had to be faced. He had been twenty-five years in Vancouver, thirteen years in public life, and nine years a minister of the crown, and he had always been given a large majority in his own city of Vancouver. In Vancouver he was prepared to stand or fall, but Mr Browster was apparently not so sure of his seat in Victoria, for he was also running in Alberni, against a Conser-

vative member who was now at the front.

### CREDIT IS NOT BAD.

Mr Bowser objected to the statements which had been made to the effect that the credit of B.C. is not as good as that of other provinces. Nova Scotia was in a different position to this province, he pointed out, and the loan that the maritime province had obtained was of an entirely different nature to that

## Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

### Unity Club Meeting

The regular monthly meeting of the Ladies Unity Club was held on Thursday afternoon last with the president, Mrs W. W. Mitchell, in the chair. After the regular routine of business was dispensed with the president in a neat speech told why this special effort had been made; it was to bid good-bye to four departing members who will all take their leave in the immediate future. The club room was beautifully decorated with roses placed on small tables, from which refreshments were served, and to further add to the comfort of the many guests there was a cosy fire built in the fireplace on account of the dampness and chilliness of the atmosphere outside.

The tea table was presided over by Mrs J. M. Robinson and Mrs Mitchell, and a bevy of young ladies served delicious sandwiches, cake and ice cream, while Mrs Julius Block and Mrs E. H. Hancock poured tea.

The program consisted of:  
Speech by Mrs Mitchell  
National Airs played by Mrs Cash, piano.

Solo by Mrs Allen  
Recitation by Mrs Russell Wells, "Asleep at the Switch"

Piano Duet by Miss Alice Myers and Miss Margaret Mitchell, encored and responded to

Duet, sung by Miss Gladys Robinson and Miss Violet Mitchell, with Miss Kathleen Robinson accompanist

Speech by Miss Reid of Alix, Alberta

Piano Duet by Mrs F. J. Languedoc and Miss Kathleen Robinson, encored and responded to

After the program was dispensed with Mrs J. M. Robinson in a few kindly words tendered a vote of thanks to the retiring secretary, Mrs F. C. Manchester for her painstaking and untiring effort during the past two years in which she has faithfully held that office. This motion was seconded by Mrs Boothe and heartily responded to by the whole gathering. Mrs Manchester on behalf of herself and the other departing members replying and thanking the ladies.

### Current Events - OF - Town & District

Lieut Bruce Cash of the 102nd Battalion, Kamloops, is home for a week or two.

Divine service was conducted by Rev. Mr Thompson of the Methodist Church, Penticton, on Sabbath last.

Mrs H. T. Davies and Mrs D. O. Hughes accompanied their sister, Mrs J. H. Pushman as far as Penticton.

Rev. Mr Hardy, formerly of Summerland Methodist Church, paid a visit to Naramata on Sunday afternoon last

### Naramata Current Events. (Continued.)

Mrs Brooks of Penticton paid a short visit to Mrs R. H. King on Saturday last.

Miss Reid of Alix, Alberta, came in on Wednesday evening's boat and while here is the guest of Mrs F. J. Languedoc.

Little Miss Jean Robinson of Summerland is spending a while with her aunt and cousins at Hotel Naramata.

The regular weekly meeting of the Red Cross Society was held on Saturday afternoon in the club rooms. Miss Block and Mrs Russell Wells served refreshments.

A special ferry took quite a large number of interested spectators over to the Experimental Farm in Summerland on Sunday last. All report a fine time spent, and of the very courteous treatment given them by Manager Helmer and his staff of busy workers.

Mrs J. H. Pushman and little daughter Gracie left on Thursday on the noon ferry; going as far as Penticton and from there took the K. V. R. train and proceeded to Vancouver, where they will meet Mrs J. O. Noyes; and from that centre the party will journey east to Ottawa, where Mrs Pushman will reside in future.

Dr W. McKechnie of Vancouver, who was called to Summerland Hospital on professional duty last Saturday, spent a few hours in Naramata on Monday last. Dr McKechnie, wife and children were among the first settlers at Naramata some eight years ago. Mrs McKechnie is a sister of Mr J. M. Robinson.

A special ferry took J. O. Robinson, Miss Dorothy, Kathleen and Marguerite Robinson, Mr W. W. Mitchell, Mr T. H. Boothe, Miss Violet Mitchell, Capt. F. J. Languedoc, Mr and Mrs J. H. Partridge, Mr John McLean, Mr H. T. Davies, Ernest Steers, Mr Dan McKay, Miss Clara Palmer, and a few others over to hear the political speeches by Premier Bowser, Mayor Jones, and Mr. L. V. Rogers on Tuesday last at Summerland.

What might have proved a very serious accident happened last Friday afternoon when Edmund Boothe delivered a load of fruit down to the packing house on the wharf. It seems that after the load was disposed of in the packing house Edmund left his horse, a big heavy draught, for a minute and went to speak to a friend, when in some way the horse became frightened and started to back up, the rig going down into the lake, and the only thing that saved the horse was that it broke the whiffle-tree and harness and got loose, otherwise the horse would have gone down too. However, with the assistance of some friends the rig was taken out of the lake and everything fixed up again satisfactorily.

### Fall Fair Dates.

Some of the dates arranged by the Department of Agriculture for the Fall Fairs throughout the province for the season of 1916 are given below:

- Vancouver - August 14-19
- Enderby - In August, if held.
- Kelowna - September 26-27
- Armstrong - September 28-29
- Penticton - (No Fair)
- SUMMERLAND October 11-12

Spoken of the possibilities for orchard products, an old nurseryman says where a dollar's worth of fruit was consumed ten years ago, ten dollars' is wanted now. Unless all signs fail, one hundred dollars' worth will be required in ten years from now.

What is that which he who has it does not wish for, but he who has it would not part with it for any money?—A bald head.

## EATON'S FALL AND WINTER CATALOGUE IS NOW BEING DISTRIBUTED

Have You Got Your Copy?

If not, you know what this book means to you in the way of money to be saved, you know what the big EATON stores and warehouses mean in the way of quick service and, above all, you know what the quality of EATON goods means to you in the way of satisfaction. You know that the whole EATON system is placed at your service the moment your postcard or letter reaches us asking for a copy of our latest Fall and Winter Book.

Send For This Book Now

And be sure of making the most of your buying opportunities this fall; take fullest advantage of the wonderful purchases we have been able to make because of our immense store and warehouse capacity and our tremendous cash-purchasing power; become to the limit of your ability a shareholder in the profits of prosperity that EATON merchandising produces.

Your name and address, with a request for the catalogue, clearly written on a card or letter paper is all that you need to send us to receive this big 520-page book; the sooner you do it the longer you will have to enjoy the benefits of money saved and satisfaction gained.

### Fruit Shortage in East.

Reports from Ontario indicate a serious shortage of fruit this season owing to unfavorable conditions during June and July, extensive droughts having done most harm. In some classes of fruit the shortage will be as much as sixty per cent., it is said, and in others forty. This situation will afford British Columbia growers an opportunity of extending their business in the prairie provinces, and it is thought they will not be slow in taking advantage of it. At present there is quite a difference in the quotations on the local market for Ontario and B.C. apples and plums, the lower prices being quoted for the western products.

Dr Milton Hersey of Montreal, head of the greatest mining engineering firm in Canada, predicts a great advance for mining in British Columbia when the war is over.

## Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicality, and thoroughness, are now used in nearly 600 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

A large number of Agricultural Colleges are also using the International Correspondence Schools books in their classes in preference to all others.

The International Correspondence Schools can either start you at the bottom of the ladder or where you probably now are, part way up, and help you to the attainment of your ambition. Are you enough in earnest to inquire? It costs you nothing for information.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

BIRTHS

ROBINSON—On Monday, August 21st, at the Hospital, to Mr and Mrs W. J. Robinson, a son.

Miss Gwen Robinson will leave on Saturday morning for Toronto where she will enter the General Hospital to train as a nurse. She will make a stop at Armstrong, visiting Mrs G. M. Ross.

In Empire Hall last Saturday night, B. C. Hilliam, well-known as a former leading light with the "Pollys," appeared before a good-sized audience in another of his pleasing entertainments. Mr Hilliam now holds a lieutenant's commission in the Canadian army, and is busy raising funds for a camp recreation movement. With him were two or three other musical military men, and between them they presented a first-class musical program, Lieutenant Hilliam taking the lion's share, and proving himself to be quite the finished humorist in a musical way that he was always thought to be. His entertainments can always be assured of good receptions wherever they are announced.

Passing Events: Social, Personal, &c.

George Dale returned on Wednesday morning from a visit to Vancouver.

Captain Webb was an arrival from the Coast on Wednesday morning's train.

Rev. C. Baker of Yorkton, Sask., will conduct service next Sunday morning in St. Andrew's Church, and in the Lakeside Baptist Church at 7.30 in the evening.

A Cadillac limousine car, given by Lady Tupper, is to be raffled in Vancouver in aid of the Red Cross and Patriotic Fund.

A short time before his death in action on the western front, L. R. C. Douglas-Hamilton received promotion from the rank of Lieutenant to that of Captain.

An interesting entomological specimen preserved in alcohol and now being shown in the Review window is a scorpion, captured by Mr Alex. Milne on the lakeshore road north of Crescent Beach.

Mr Ralph Smith, Liberal Candidate for Vancouver, and Mr L. V. Rogers, Liberal Candidate for South Okanagan will speak at Naramata on the afternoon of Wednesday, August 30th.

Dr and Mrs W. C. McKechnie of Vancouver were visitors here and at Peachland and Naramata on Sunday and Monday.

McWilliams' ad will be of interest to school children this week.

Mr and Mrs E. B. May returned the first of this week from a two weeks' vacation spent at the Coast.

Mrs A. Stark will receive next Wednesday afternoon, August 30th, from 3 till 6 in honor of her sister, Miss Hazel Hayes.

R. H. English and son of the Pioneer Livery announce that their car meets all eastbound trains at the Kettle Valley station, West Summerland.

Hon. Martin Burrell left Ottawa on Wednesday afternoon for a visit of four or five weeks in B.C.

Rev. N. McNaughton, accompanied by Mrs McNaughton, leaves today on a short trip to the Coast.

Mr and Mrs E. H. Lock left on Thursday evening for Ladner, where Mr Lock will resume his High School work.

Dr F. W. Hardy, who is here spending a short vacation, went out this week to his pre-emption back in the hills in the vicinity of Bathfield.

Mrs J. C. Robson left on Tuesday afternoon, returning to Rosland, B.C., after making a visit of several weeks here at the home of her daughter, Mrs E. R. Butler.

Dr Taube, the eyesight specialist of the Taube Optical Co., who has had 45 years experience in the profession, will be at the Summerland Drug Co.'s store on Monday.

James Mitchell, son of Mr and Mrs J. J. Mitchell, has obtained a position in the engineering department of the Kettle Valley Railway Company.

The ladies of St Stephen's W. A. are planning to hold a Water Fete on Wednesday afternoon, August 30th, at the Agur boathouse.

Members of the Ambulance League are reminded that the League begins its third year this month, and all those who wish to continue their membership should obtain their year's subscription of 25c.

A number of visitors went up from here last Saturday to the Kowloon Regatta, and the general consensus of opinion is that the journey up and back was very enjoyable.

Mr C. D. Denton was a visitor up the lake to Vernon for a day or two this week.

Mrs John Treffry returned last Saturday evening on the boat from a visit to Portage la Prairie, Manitoba.

Ben Blair, who has been time-keeper at the Experimental Farm, Trout Creek, for some time, left last week for the Prairies.

Messrs T. G. Beavis and T. N. Ritchie were among the arrivals back in Summerland by Monday morning's train after brief visits to Vancouver.

Private Arnold Gayton, who has been enjoying a visit to the home of his parents here for two or three weeks, is leaving at the end of the month to take up his military duties again at Vernon.

Miss Kathleen Babbit came in from the Coast on Monday morning's train to rest up after an operation she recently underwent at Vancouver.

Rev. C. Baker of Yorkton, Sask., reached Summerland on Tuesday evening on a visit of a week or ten days. Mrs Baker and daughter, Ruth, have already been here for some time, being guests at the home of the Misses Spencer.

Mr and Mrs O. Atkins and family returned on Tuesday of this week from a short visit to the Coast. They had intended making the trip by automobile, but at the last their plans were changed, and they travelled by the Kettle Valley route.

Miss Hazel Hayes arrived from Ottawa by the Kettle Valley this morning, and is making a visit with her parents, Mr and Mrs W. H. Hayes. Miss Hayes travelled via Vancouver, making a short stop there before proceeding on to Summerland.

By an unfortunate error in the account of Miss Bessie Clark's wedding in last week's Review, the bridesmaid was given as Miss Myrtle Clay instead of Miss Myrtle Conway. The Review herewith tenders an apology to all concerned for the error.

Claude D. Hampshire, recently checker in the local C.P.R. office, has been with the colors in England for some time past. He has written friends in Summerland to the effect that he is now on the continent within the sound of the guns, expecting shortly to get into the front line.

R. B. Forsyth, late High School principal here, has returned from a vacation visit to his former home in Prince Edward Island. He spent a few hours in Summerland on Tuesday of this week before proceeding on to Vancouver, where he has a position on the city High School staff.

Rev. A. Henderson will conduct service in the Methodist Church next Sunday morning at 11.00 o'clock. In the evening at 7.30 in St Andrew's Church, a patriotic service will be held, at which special music by the choir under Miss Harrison's leadership will be rendered. Mr Henderson will also preach on this occasion.

The new heating plant lately ordered by the School Trustees is now being installed by the contractors in the Central School. This step it is hoped will put an end to the disorganization that has been forced upon the school when winter brings exceptionally cold snaps, which the old heating plant has not been able to overcome.

Summerland's "trade balance" just now is very decidedly inclined the right way. The value of fruit and other produce being shipped out at the present time is far in excess of the value of all that has to be imported.

Summerland Fruit Union.

**GOVERNMENT POLICY DEFENDED IN ROUSING SPEECHES.**

[Continued from Page 3.]  
fact, Mr Bowser stated that he had been able to obtain better terms for B.C. than had been given for the Anglo-French war loan.

"And what did Mr Brewster do to help the credit of the province?" asked Mr Bowser. The Liberal leader was in the East when he was there trying to arrange for the loan, and Mr Brewster preached the bluest kind of ruin in a speech he would not dare to give in B.C., was the Premier's scathing comment. The electors at Vancouver and Victoria were stampeded at the time of the last by-elections, and as a result Brewster and Macdonald came into the House. But the more Mr Brewster declaims against the state of affairs in the province, said Mr Bowser laughingly, the higher becomes the credit of B.C.

Dealing with the statement of the Liberals that the present rate of expenditure was double the revenue, Mr Bowser said that was only half the truth. So long as such extensive development is necessary it is not right that the taxpayers should have to meet all the expense of the assistance that is being given to different lines of industry. Foreign capital was being brought in to develop certain industries, and the burden should not be put on to the taxpayer. "Let us have faith in B.C. and ourselves, and the prosperity of 1913 and 1914 will come back," Mr Bowser said.

**THE BREWSTER WRIT.**

Referring to the writ that Mr Brewster has issued against him, he wanted to know who raised the technicality that it involved. It was Brewster. All doubt on the point which the writ raises as to the life of the present parliament could have been removed if Mr Brewster had helped to put the extension bill through. Mr Bowser said that the government had to keep faith with the electors, and had to fulfil its promise in regard to workmen's compensation, aid for the returned soldiers, prohibition, woman suffrage, agricultural aid,

shipbuilding, and so on. There were many bills to be put through, but the Liberals just talked till they thought the proper term of the Legislature had expired, and then rushed into court for their writ. "This is not the time for technicalities or lawsuits," said Mr Bowser emphatically, "the people are more interested in the important business of developing B.C." He pointed out the anomalous position that Mr Brewster would be placed in with regard to the writ if he were elected, and showed what would result from this piece of political trickery and expediency.

**THE IRRIGATION PROBLEM.**

After showing the futility of other points in the Liberal program, Mr Bowser made a brief reference at the close of his speech to the irrigation situation in the Valley. He said that by thorough investigation the government knew all there was to be known about the matter as it now stood, and they could not afford to take any chances in dealing with it. No country could hope to prosper without agriculture, and in this case the water user must have full protection. If the agricultural production was to be increased, then they must help the man on the land. But if the water supply was permitted to fail, the farmers would be starved off their land. At the same time the interests of the investors who hold irrigation companies' bonds must also be considered. They must encourage the flow of capital into the province as well as population, and to have the irrigation companies fail would be to discourage capital from coming into B.C. Neither could they ask the water users to pay prohibitive rates. The government might take over the systems and provide enough water for all the lands, and then leave it to the people to handle the details.

Mr Bowser said he would not make any promises on the eve of an election, but he was trying to deal with the situation as a business man. The primary object of any measures would be to protect the water users so they could still remain on the land. He hoped by

**Plans For Beautifying Central School Grounds**

Plans for the permanent improvement of the school grounds about the Central and High Schools are now being prepared. Mr J. W. Gibson, M.A., director of elementary agricultural education for the province, and who also is commissioned with the direction and supervision of the improvement of school grounds, was here this week to deal with the matter of school grounds. He met the Trustees on Wednesday evening, and discussed with them general plans for improvement.

Trustee Hilborn was appointed a committee of one to go over the grounds on Thursday and outline a plan of improvement that will cover a period of several years.

These plans will, it is understood be completed and forwarded to Victoria. They will involve considerable preparatory work this fall. A greater importance will henceforth be attached to the school gardens which will be made an important adjunct of the text book.

next year all the difficulties would be removed, that there would be an end of the continual nightmare of threatened water shortage. He was glad to have heard Mr Jones' statement of the case, and felt he would rather consult the Conservative candidate on the question than his opponent. For this reason Mr Jones should be elected, and if the South Okanagan wanted to help Mr Bowser frame legislation of benefit to the district, he would be glad to hear on September 14th that Mr Jones had been elected, so that his advice would be available for the government.

In conclusion, said Mr Bowser, it seemed to him that the election was already won, it was just a case of how many Liberals there would be.

There were no questions asked of the speakers, and the meeting broke up with the singing of the National Anthem.

**Why Is the Whisky Combine So Anxious to Defeat the British Columbia Prohibition Act?**

Do you suppose, for one moment, they have opened the gigantic "boodle" barrel to defeat the bill if the bill did NOT prohibit?

WHOEVER heard of a Liquor crowd advocating a Prohibition Act? Still, the Whisky Combine in British Columbia would have YOU believe that. They brazenly tell you that Prohibition is all right, but that the British Columbia Prohibition Act does NOT prohibit. In substance they say: "We, the Whisky Interests, believe in Prohibition, but we want an Act, which WILL prohibit—not the present British Columbia Prohibition Act."

Think of that for one moment! Imagine the Whisky Combine spending the "boodle" barrel to secure an Act for British Columbia which DOES prohibit! The Whisky Combine evidently considers the people of British Columbia are brainless, unthinking fools.

The British Columbia Prohibition Act DOES prohibit. It is the BEST prohibition act in all Canada.

The Whisky Combine KNOWS it. The people of British Columbia KNOW it.

The placing in force of the British Columbia Prohibition Act means the elimination of British Columbia's greatest waste. It means more prosperity for every man, woman and child within our borders. It means happy homes, healthy

bodies and cleaner minds. The adoption of the British Columbia Prohibition Act will be the death-blow to bar rooms, saloons, and houses of ill-fame.

The adoption of the British Columbia Prohibition Act will mean a saving to the people of Vancouver alone of nearly \$5,000,000.00 per annum.

Don't allow the Whisky Combine to confuse you! Vote FOR the Act, and share in the prosperity which will follow its adoption.

Mark Your Ballot thus:

**VOTE  
"YES"**

Are you in favor of bringing the "British Columbia Prohibition Act" into force?	Yes	X
	No	

NOTE—This space is paid for from a fund made up of voluntary contributions of men and women who believe in the abolition of the degrading liquor traffic.
