

Fruit Convention To Be Held July 20-21

First Midsummer Gathering of B.C. Growers Scheduled for Penticton.

The first mid-summer convention of the British Columbia Fruit Growers' Association and the British Columbia Entomological Society will be held at Penticton on July 20 and 21, under the auspices of the Department of Agriculture of the Provincial Government. The sessions will be open to the public, and everybody interested is invited to attend. The program as outlined includes addresses and papers by the following on the subjects given:

D. Johnson, Fruit Commissioner, Ottawa—"The Marketing of Fruit."

Lionel E. Taylor, Kelowna, vice-president of the B.C. Entomological Society—"Birds in Their Relation to Fruit Growing and Agriculture." This address will be illustrated by lantern slides.

Dr F. F. Wesbrook, President of the British Columbia University, Vancouver—"Agricultural Education in British Columbia."

R. M. Winslow, Provincial Horticulturist, Victoria, B.C.—"Why Advertise B.C. Fruit?"

R. C. Abbott, Coast Markets Commissioner, Vancouver, B.C.—"Opening the Coast Market for Okanagan Fruits and Vegetables."

R. C. Treherne, Assistant Dominion Entomologist for British Columbia—"Important Insect Pests of Okanagan Fruits, and Their Control."

J. W. Eastham, Provincial Pathologist, Vancouver, B.C.—"The Control of Plant Diseases in Irrigated Fruit Districts."

Tom Wilson, Inspector of Indian Orchards, Vancouver, B.C.—"Cutworms and Their Control."

Other probable speakers who have not been definitely arranged for as yet include Hon. William Manson, Hon. H. Bark, Idaho, and Prof. W. S. Thornber.

Special rates will be given on all railroads, and it is expected that a number of representatives of prairie fruit dealers will be present. The Calgary Board of Trade are endeavoring to have their long-proposed excursion to British Columbia at this time. As the convention dates are only a few days before the convention of the Western Canada Irrigation Association at Kamloops, it is probable that a number of prairie visitors will come to the Okanagan convention, and then go on to the convention in Kamloops.

Favors Holding Nine District Poultry Shows.

A new policy has been adopted for the province in regard to the distribution of the government grant toward the annual poultry shows. In the past any local organization was, upon complying with certain requirements, given a share of the annual general grant, the amount being fixed by the B.C. Poultry Association. This year grants will be given to only nine shows, one each in as many districts. Okanagan district, No. 6, extends from Sicamous to the international boundary, and is awarded 12 per cent of the total grant. Last

Public School Promotion Lists.

Published below are the lists of promotions in all grades of the public schools. Children and parents alike will probably study the lists with great eagerness.

Junior Fourth to Senior Fourth—Hugh McIntyre, Louis Smith, Cecil Ritchie, Jas. Marshall, Jean Caldwell, Robert Hatfield, Irvine Adams, Russell Munn, Edgar Hobbs, Alva Garnett.

Rolls of Honor—Attendance, Blanchard Munn; Proficiency, Lucy Hargreaves; Deportment, Rex Barnes.

Senior Third to Junior Fourth—Helen Shuffrey, Betty Barnes, Ronald White, Roland Reid, Carol Graham, Carleton Clay, Lawrence Beavis, Tom Washington, Ruth Graham, Alfred Johnston, Janet Drake, Herbert Riley, Mina Yule, Warren Gayton, Willie Caldwell, Ronald Phinney, Alvin Garnett, Winnie Yule.

Junior Third to Senior Third—Jean Ritchie, Grace Garnett, Jessie Monro, Zanda Garnett, Alex Munn, Edna Heys, Gordon Blewett, Ethel Phinney, Thorald Borton, Willie Kean, Sylvia Washington, Doris Rines, Dorothy Tomlin, Earl Wilson, Joan Ritchie, Marion Beavis, Fred Gale, Walter Ramsay, Ewart Bowering, Marion Hatfield, Ernest Riley, Sing Ging, Mabel Dunn, Ralph Purves, Kirk Sutherland, Harold Brown.

Rolls of Honor—Regularity and Punctuality, Alex. Munn; Proficiency, Helen Shuffrey; Deportment, Joan Ritchie.

Senior Second to Junior Third—T. Howell, F. Marshall.

Junior Second to Senior Second—M. Ritchie, G. Graham, H. Hobbs, D. Simpson, M. Holmes, G. Dewar, A. Wilson, J. Rutherford, C. Rines, D. Garnett, L. Arkell, L. McLachlan, C. Tullett.

Honor Rolls—General Proficiency, D. Tomlin; Deportment, T. Howell; Regularity and Punctuality, D. Garnett; Best Collection Wild Flowers, T. Howell.

From First Reader to Second Reader—Ella Bowering, Annie Caldwell, Betty Caldwell, Fred Holding, Adrian Howell, Edith James, Eric Johnson, Lester Williams, Mary Snow.

From Second Primer to First Reader—Alan Estabrook, Nora Hampshire, Arthur Morgan, Kathleen Monro, Nicolas Solly, Ivor Solly, Muriel Simpson, Stella Wilson.

From First Primer to Second Primer—Rhodes Elliott, Kenneth Duncan, Ethel Holmes, Isabel Holding, May Hale, Frances Rutherford.

From First Primer B to First Primer A—Frank Dickinson, George Denike, Jack Purves, Basil Wright, Mary Munn.

Rolls of Honor—Proficiency, Ella Bowering; Deportment, Kathleen Monro; Punctuality and Regularity, Rhodes Elliott.

TOWN SCHOOL.

(In alphabetical order).

Promoted to Third Reader—Jean Blewett, Isabel Hogg, Alice Limmer.

Promoted to Second Reader A—

year this was \$5,000, but it is not known yet whether the government purposes making any change in this sum.

The Boundary district, No. 8, extending from Okanagan east to Kootenay Lake, gets 25 per cent of the grant, as the Provincial Show will be held in that district this year. No other district gets more than ours. Vancouver Island and Vancouver city and vicinity each get the same as we, 12 per cent. of the total.

The various local associations have been advised of this change, and asked to appoint a representative on the district executive. Summerland will be represented by Mr Jno. Tait, and an initial meeting will be held, probably at Kelowna, to organize and talk show. The date and place of this meeting will be arranged by mail.

Provincial Elections Sept. 14, Nomination Day Aug. 3.

Premier Bowser announced at Victoria on Wednesday afternoon that nominations for the provincial house would be on Thursday, August 3rd, and elections six weeks later, Thursday, September 14th. Mayor J. W. Jones of

Kelowna is the nominee of the government party, and Mr L. V. Rogers, also of Kelowna, the opposition candidate in this new riding of South Okanagan, extending from near Okanagan Landing south to Trout Creek.

Summarizes B.C. Fruit Prospects

Markets Commissioner McTaggart Thinks Apple Prices Will Not Rule High.

In a recent address to Manitoba retail merchants, W. E. McTaggart, B.C. Fruit Markets Commissioner, whose office is in Calgary, summarized crop conditions in this province, and his address is given below in part:

"We have had a very backward spring, and a very severe winter. Any of you who know British Columbia will hardly believe me when I tell you that the snow fall in Victoria in January was 73 inches, but, as you know, weather conditions have been abnormal everywhere. In the Okanagan Valley a number of the orchards were hurt by the frost, and generally suffered from winter injury. Across the line in Washington, Oregon, Montana, and Idaho similar conditions prevailed, and these states have had late spring frosts, which have seriously affected some crops."

"Last fall everyone in the fruit business declared with a great deal of confidence that there would be a big crop of apples this year, but their expectations will not be fulfilled, for the weather man stepped in and had his way. We in British Columbia will have an average crop of apples, which will total slightly over last year. But what I say about the crops now may be pure fiction next week; a hundred and one things may happen that will upset our present estimates."

LOWER APPLE PRICES.

I am firmly of the opinion that apple prices will be less this year

than they were last, despite the increased duty, for our crop will be slightly larger than 1915. The American apple crop, that is in the Western States, will be greater than last year, but how much it is hard to say. Southern Idaho has been hard hit, and also some of the other districts. It will be impossible to tell how the apple market will swing for another two months. "McIntosh Reds stood the winter well, and these will be in demand as much as ever. Pears were hard hit in some districts, and not so badly in others, but there will be an average crop. The strawberry crop is short on the other side 70 per cent of last year, while we in British Columbia have a good crop. The same may be said of raspberries. The United States crop of sweet cherries is short, and in B.C. our crop will be less than last year."

SOUR CHERRIES.

Mr McTaggart put in a good word for the sour cherry. "Let me here ask you," he said, "to consider more seriously the sour cherry for preserving. When preserved, without sugar it makes an excellent filler for pies and puddings. "The apricot crop will be considerably lighter, so will prunes, as in both these there was, on the whole, a tremendous crop last year, and the trees will take a partial rest. Peaches will be in greater quantity, and probably there will be more plums. There will be an increase in crab apples."

Dominion Day Celebrations.

Given a fine day, the Dominion Day celebration at Penticton never fails to act like a magnet, attracting a crowd of excursionists from every town in the Valley. This year the holiday fell on a Saturday, and this doubtless made it easier for many from up-Valley points to make the trip. The "Sicamous" made the customary trip down the lake, and taking up holiday makers at every point was freighted down with a heavy load when Penticton was reached.

Summerland was strongly represented in the throng that invaded the festive town. Some took advantage of the special C.P.R. boat trip, and a number of those who could not get away in time for this trip went down by the ferry company's boat a little later. Private launches also carried down parties.

But it is safe to say that most of the crowd that went from this town travelled down by road. Every auto that could be brought into service seemed to have been made use of, and not a few owners made a small mint of money by being able to make the trip a number of times during the day. Big rigs and small rigs without number also headed south and helped considerably to swell the crowd of celebrants.

The weather was almost as good as it could have been, which in these unsettled times is something fortunate. The morning seemed a little overcast and inclined to show-eriness, but only a few drops of rain fell, and then bright sunshine set in to stay.

In the view of many people, Penticton has never had so many people within its borders at one time. Certain it is that the crowd congregated there was very considerable. All kinds of refreshment concerns did a roaring business, and incidentally it may be the last time that the Dominion Day excursionists who are so inclined will be able to quench their thirst at the Penticton bars, for by the time the next Dominion Day arrives British Columbia will probably be on the water wagon.

The sports ground was the centre of attraction for most people, and the big program of horse races and athletics was voted first-class. Summerland got in on the prize list in the foot races, when George Dale came first in the 100 yards sprint and the 220 yards also.

Those who did not take in the festivities at Penticton found good use for the holiday. Fishing was popular among those who lean to quiet methods of celebration, and several good catches are reported. Others went off on picnic jaunts, while still others—chronic cases these—spent the day working as usual.

final decision to put in a new heating system. Mr Wallace reports that the boiler has been working to full capacity, while the radiating surfaces in the class rooms have been 150 to 200 square feet short in each. Little wonder then, he says, that the plant was not satisfactory, especially when it had an additional drag of faulty piping.

A new plant to supply heated air has been ordered at a cost of \$880. The usual budget of salaries and accounts were passed for payment.

A letter from Mr W. C. Kelley was read threatening suit unless an account from the Borton estate for work done was paid. The account had been approved and placed to the credit of rates, but Mr Kelley maintained this was due from the School Board and could

Council Decides To Hold Tax Sale Aug. 31.

McAlpine Case Again Heard From. Will Not Get Into Court Till Fall.

The Council has decided to hold a tax sale, the date for which was fixed at August 31st, at a meeting held on Tuesday afternoon, at which all members with the exception of Coun. Stark were present.

Clerk Logie went to Kamloops this week to search the records in connection with a number of properties in which the Council is specially interested.

Messrs Cochrane & Ladner, the solicitors for the Municipality, advised the Council that they had been served with papers in connection with the McAlpine claim. This is a claim for alleged damages to his home property, caused, according to Mr McAlpine, by a leaky water pipe. The case will not be heard till fall.

The resignation of Miss Mary Pollock of the Municipal Office staff was regretfully accepted.

A recommendation from the School Board that the sum of \$3.55 be paid W. C. Kelley for the Borton estate was received. Reeve Blair considered the sum too trifling to go to court about, and asked that the Council instruct the Treasurer to pay the claim. The amount had been applied against rates. Approved.

The Reeve reported having inspected a road near R. S. Monro's, and recommended that it be repaired at once, and Coun. Johnston also recommended immediate repairs to a road near F. G. Barnard's. Both were approved. This brought up the question of a team of horses for road and other work. Coun. Johnston, chairman of the Public Works Committee, reported the team now in use as not being fit, and that it was poor economy to continue using the horses. The Reeve and Chairman of the Public Works Committee were delegated to buy a pair of horses.

Provided satisfactory arrangements can be made as regards title and payment the Councillors present all favored the purchase of the five acres in front of the Central School. The price is \$3,000, terms \$600 per annum, and to be applied against taxes on Mr Jas. Ritchie's holdings in that vicinity.

Some complaints were made of encroachments on the streets and were referred to the Constable to be reported upon.

A road to Mrs Bentley's property is to be repaired as soon as possible.

The appointment of a delegate to the Western Canada Irrigation Convention at Kamloops was laid over till the 11th.

One hundred lengths of old flumming in Garnett Valley were sold W. G. Raby for 25 cents a length.

The Baptist Sunday Schools of Summerland and Peachland will probably unite in a picnic on Tuesday, July 18th, at a point about midway between the two places, possibly at Miller's wharf. Arrangements are now on foot to bring this about.

not be so applied by the Municipality. It was decided to ask the Council to pay the bill as it was too small to stand suit for.

Sets for the Trout Creek School were ordered, and the secretary authorized to engage a room in which to hold classes till the new building is ready.

Award Contract For Heating Plant at Central School.

Routes For Next School Year Arranged.

There was a general shuffle of the school conveyance contracts at the School Board meeting on Tuesday. Only one contractor, Mr T. R. Harwood, has the same route as last year. Mr W. E. Rines, who has the Town route, gets the Giant's Head route, while the Town and Trout Creek go to new bidders. Following are the contractors and their rates:

Trout Creek, G. R. Hookham & Co. \$3.00 per day.
Town, H. Bristow \$2.20 per day.
Giant's Head, W. E. Rines \$2.20 per day.
Prairie Valley, T. R. Harwood \$2.00 per day.

A report was received from Mr J. B. Wallace, heating engineer, on the heating plant in the Central School, the result of which was the

Lottie Sculthorpe, Mildred Shields.

Promoted to First Reader—Kenneth Gartrell, Marguerite Moreland, Paxton Morsch, Gordon Sculthorpe, William Thornber.

Promoted to Second Primer—Ralph Blewett, Gertrude Shields, Harold White.

Promoted to First Primer A—Borthera Riley, Elsie Riley.

HOW IT WORKS IN MANITOBA.

IN VIEW OF THE FACT that the proposed temperance legislation for this province is modelled closely on the Manitoba statutes it is interesting to note how the first month of prohibition has worked in the prairie province. Opinions on the matter seem unanimous in one thing—that the province has benefitted in no small way, and later on, when the law has been working long enough to smooth out the difficulties that must necessarily arise, there will be even greater benefits apparent.

Out of the many beneficial results consequent upon this new law and which are apparent on every hand, there stand out the following facts with perhaps greater emphasis than any of the others. These are vouched for by prominent business men.

The commercialized end of immorality has been reduced to such an extent that if such conditions continue in the province they will be reduced to a minimum within three months.

Only 24 drunks were arrested in Winnipeg in June as compared with 261 in the preceding month of May.

There have been only one-half as many convictions in the Winnipeg police court as there were during May.

Just half as many vagrants were convicted during June as May.

The wholesale houses report that collections during June have been far better, and this very desired condition is directly attributable to prohibition.

The administration of the Temperance Act has been of so diligent and vigorous a nature as to break down the organized ring of bootleggers. There is now no liquor ring in Manitoba.

The hotelmen have surrendered themselves to the new conditions, have fallen into line, and are helping to their best endeavors in the administration of the Act.

No weaknesses in the Manitoba Temperance Act have as yet been discovered, and in all the cases taken to court by the license department convictions have been obtained.

The leading retail merchants in the city declare that money which formerly went in drink is now directed over the counters of the stores, and more domestic commodities are being purchased.

The above are only a few of the illustrations which could be cited

to show that prohibition did not come to Manitoba too soon, and that the Act has certainly suppressed the liquor traffic. On the other hand, there are those who, willfully doubting the efficacy of the Act, point to the fact that very large shipments of liquor are daily being brought into the province through the medium of commission houses. This situation is to be met by amendment to the Act if it is found necessary.

Coast papers just now are carrying heavy liquor advertisements pointing out that the proposed B.C. prohibitory law will not prohibit because private persons will still be able to import liquor in any quantities. Yet, they say, the bill interferes with personal liberty!

Alberta went dry last Friday, June 30th at midnight, and in that province they plan even to suppress the sale of two per cent beers.

§ § § § §

WHAT SUMMERLAND MISSES.

WHAT IS IT that Penticton has that Summerland lacks in the matter of putting on a "big day" once a year? Time was when the 24th of May used to bring big crowds from up and down the lake to Summerland, but that has long since gone into the limbo of things forgotten. Yet Penticton still goes strong on Dominion Day, and gets stronger every year, some people think.

It is a good thing for the people and the place to be invaded by a crowd once a year, and more than once a year if it is possible. It is good for the inhabitants to see a crowd of new faces every so often, and to mix in with the jostle that such celebrations mean. It helps to stir people out of rusticity, too much of which is not good for most

FRUIT Boxes & Crates

Summerland is not only producing excellent fruit and vegetables in ever-increasing quantity, but has also a

MODERN BOX FACTORY

Where all kinds and styles of Box Material are manufactured. Thousands and thousands of boxes will be made here for use locally, and in other valley points.

LET US KNOW YOUR NEEDS. We shall be glad to quote prices, and you will find them right.

SUMMERLAND LUMBER COMPANY, Ltd.
BOX MANUFACTURERS.

"Fight or Pay"

YOU know the purpose of the

Canadian Patriotic Fund

The Local Branch Invites Your Immediate Assistance

Your opportunity to help the man at the Front to fight your battles.

Full information from the Treasurer, Mr. E. B. MAY.

A NEW SHOE STORE

Having purchased the SHOE STOCK of the Summerland SUPPLY CO.'S BRANCH STORE at West Summerland, and in order to give a better service to a large number of my customers, I will on

MONDAY NEXT open a Store in the RITCHIE BLOCK at West Summerland. This Store will be operated on similar lines and in conjunction with my store downtown, the Shoe stock being supplemented by

Harness, Trunks, Bags, Gloves and Tents. REPAIRS will also be catered to.

In anticipation of extended patronage an effort will be made to give the people of Summerland a Footwear service second to none in the Valley. Prices will be adjusted on the same moderate basis as before (taking into consideration, of course, the rapidly advancing prices of all leather goods on the present Market), and the Footwear difficulties of the Public of Summerland will be persistently studied, as for instance the difficulty of an adequate and well-selected supply of Children's Footwear. People have frequently complained to me that it is hard to get children properly fitted in Summerland, and owing to the great variation of size standards amongst Shoe Manufacturers of to-day, particularly in connection with Children's Footwear, it is hard to keep a properly "sized up" stock, but by determined effort and increasing experience the problem can be overcome. **MANY NEW LINES** will be added to the Stock purchased from the Supply Company, and many more are in transit.

STUDY MY QUALITY AND PRICE, and you will decide that it does not pay to send out for Footwear. Do not compare Goodyear Welts with McKay Sewn Soles. I refuse to stock "cheap trash" to accommodate the price of the outsider.

A NEW FEATURE

Permanent "Bargain Tables" will be run, one in each Store, on which will be placed broken lines (single pairs, &c.) of Boots and Shoes at great discounts.

YOUR patronage solicited.

My terms in the future for both Stores will be **SPOT CASH.**

A. J. BEER

Store may be ready for business Sat. 1 p.m.—Monday for certain.

Corporation of the District of Peachland

Court Of Revision Of Assessment Roll.

NOTICE is hereby given that a Court of Revision for the purpose of hearing complaints against the assessment of the District for the year 1916 as made by the Assessor, and for a revising, equalizing, and correcting the Assessment Roll, will be held at the Municipal Office on Tuesday, the 11th of July, 1916, at 8 p.m. All complaints or objections to the said Assessment Roll must be made in writing and must be delivered to the Assessor at least ten days before the date of the first sitting of the said Court.

WM. M. DRYDEN, Assessor.

Fall Fair Dates.

Some of the dates arranged by the Department of Agriculture for the Fall Fairs throughout the province for the season of 1916 are given below:

- Vancouver - August 14-19
- Enderby - In August, if held.
- Kelowna - September 26-27
- Armstrong - September 28-29
- Penticton - (No Fair)
- SUMMERLAND October 11-12

A BARGAIN.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Sugarless Canning.

Some Hints For The Housewife.

The steadily increasing price of sugar, due to the war, is causing many housewives to consider cutting down very materially their supply of canned fruits this season.

Fruits are so necessary in a balanced ration, however, that it is unwise to prepare to do without them, and as the season when they may be gathered and eaten fresh is a short one, some way to overcome the difficulty raised by the sugar prices should be determined.

The addition of sugar is not necessary to preserve the fruits from decay, and used in the proportion usual in canning it takes no part whatever in their preservation, for in order that sugar may act as an antiseptic it must be used in the form of a thick syrup, or, as in jams and jellies, where pound for pound is used.

Fruit must be sound. Do not use mushy berries or overripe, spotted cherries.

Sterilize jars, rubbers and tops thoroughly and leave them in sterilizer covered with water until ready to pack, then lift out one jar at a time and do not wipe it.

Work rapidly, thoroughly and pack neatly.

Always place a false bottom in the sterilizer to keep the jars from direct contact with the heat of the fire, otherwise breakages will occur.

Wrap jars in paper before storing to preserve the beautiful coloring of the fruits.

Do not open jars because the fruits have shrunk. The space left by the shrinkage of the fruit, and the escape of some of the water by steam, is a sterilized vacuum, and will not in any way injure the product.

For exhibition purposes, however, the jars may be opened after about three-quarters of the sterilizing period is over. Open the jars to be exhibited and fill up with fruit from another jar. Replace rubbers and tops quickly.

When To Cut Hay,

"Make hay while the sun shines," is the old rule and is always a good rule to follow. Another rule which should receive consideration, according to Professor E. G. Schafer of the State Agricultural Experiment Station at Pullman, is that the hay crop be cut when the greatest total amount of digestible nutrients can be obtained. This condition will be attained somewhat earlier in the biennial and perennial legumes than in the grasses.

Alfalfa makes the best quality of hay if it is cut just as it is coming into bloom, say when it is one-fourth in blossom. It will be more digestible if cut at this period, and there will be less loss in leaves than if cut later. If cut earlier there will be a reduction in yield. Red clover should be cut at a little later stage of maturity or when the first heads are turning brown.

Sweet clover should be cut just before the blossoms appear. When cut at this stage it will retain less of the bitter taste and will be less coarse and woody than if cut later.

Timothy, orchard grass and other grasses should be cut after they are in bloom and when the seed is being formed. There is less loss in the grasses by the falling off of the leaves as the plant advances in maturity than in the clovers. If Timothy is cut too early it is more difficult to cure.

Hay should not be cured so rapidly that the leaves will become dry and shatter while the stems still contain a great deal of moisture, but the moisture from both the leaves and stems should be evaporated largely through the leaves. When hay becomes partly cured in the swath and windrow it should be placed in cocks. When cured in this manner more leaves will be retained and a better color will result. Hay should be cured rapidly enough to prevent molding.

§ § § § §

Comparison Of Poultry Methods.

In connection with a recent agricultural college egg-laying competition a special trial was carried out to compare the value of the "intensive" and "semi-intensive" systems of poultry keeping. In both cases, the test pens consisted of 100 White Leghorn pullets, but while those kept on the intensive system were strictly confined to the poultry house (80 ft. x 17 ft. in size), those kept on the semi-intensive system were allowed in addition the run of a well-grassed yard 2,000 sq. ft. in area. The results of the experiment were clearly against the close confinement of the birds, the average egg yield in the semi-intensive pen being 168.5 eggs per hen during the twelve months competition, while that in the intensive pen was only 140 eggs. The death rate in both pens was very high, amounting to 12 in the intensive pen and 10 in the semi-intensive pen.

Codling Moth Numerous In Washington State.

The season 1915 was generally considered in Washington State a "worm year." Because of a concurrence of several factors more apples than usual were wormy at harvest and correspondingly more worms than usual went into winter quarters. Ordinarily the winter mortality of the codling moth is excessive, as is obviously apparent when we consider how few apples become wormy early in the season year after year. The past winter, however, although severe, did not manifest the alternate freezing and thawing which is most fatal to the codling moth. In many localities a snow blanket held over into spring to protect the worm in the ground. Accordingly the codling moth has been transforming in numbers and in the warmer valleys the first brood of worms is showing up to a startling extent.

Methodist Church Ladies Hold Successful Ice Cream Social & Entertainment.

This week promised us an entertainment in the Methodist Church, and we got what was promised along with ice cream and cake—yes, several of them, and of several kinds—good kinds too, the kind the Naramata ladies are noted for. Reference is made to the social held in connection with the anniversary service. The church owes to those responsible for the success of the affair, at least a whole-souled vote of thank-yous.

To Miss Edna Noyes especially for her skill, patience, and perseverance in training the young folk in their numerous dialogues and recitations, much credit is due. The little folks certainly acquitted themselves creditably.

The chair on Monday evening was occupied by Rev. R. M. Thompson, and the following program was given:

Chairman's Remarks,
Rev. R. M. Thompson.
Instrumental Duet,
Alice Myers and Laurel Pushman.

The Old England

JULIUS W. A. BLOCK,

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Current Events — OF — Town & District

Mr and Mrs J. M. Robinson were visitors to Summerland on Saturday.

Mr and Mrs W. W. Mitchell were visitors to Penticton on Saturday.

Mr E. H. Hancock has become the possessor of the McLaughlin car formerly owned by Mr W. C. Kelley, Summerland.

A farewell service in the church this (Friday) evening is being held because of the prospective removal to Ottawa in the near future of Mr J. H. Pushman.

After a sojourn of exactly five months at Victoria on business in connection with his various interests, Mr J. M. Robinson returned on Friday night's K.V.R. express.

Mr James Myers was recently informed by letter that his parents' home in Prince Edward Island was totally destroyed by fire. The aged couple barely escaped with their lives.

The serviceable Fairbanks weigh scales recently installed in the Fruit Union warehouse will prove an immense time and labor saver, especially when the real rush of the fruit season commences.

Saturday, July 1st, was spent by the greater portion of the citizens in Penticton, where the usual attractions incident with the public nature of the holiday proved the chief magnet.

Miss Orca Williams, after another year as teacher in the Fernie public school, is on her way home, and is spending a part of her holiday with close friends at Salmon

Naramata Current Events. (Continued.)

Arm. She is expected to reach Naramata on Monday evening.

Mr and Mrs E. H. Hancock and Mrs Rayner spent Thursday in Summerland, going over in Mr Hancock's launch, and taking in the Lawn Fete on the premises of Mr W. J. Robinson in aid of Hospital funds.

Nurse Gordon, after a three months' stay in Summerland as head nurse in the Hospital, returned home on Friday morning to take up her duties again on her ranch in Naramata. Naramatans all welcome Nurse Gordon home again.

The usual anniversary services of the Methodist Church were duly conducted by Revs. Thompson, of the Methodist Church and Millar of the Presbyterian Church, both of Penticton. Rev. Millar preached the sermon from the text, 2 Chron. 26 chap., "He was marvellously helped till he was strong," making a strong appeal to the people not to forget God either in times of prosperity or adversity, and especially in times like these. The church was beautifully decked out with all kinds of flowers, and the congregation was large. Mrs Languedoc ably presided at the organ. Two solos were rendered during the course of the service, one by Miss Gladys Robinson and the other by Miss Fairbanks of Penticton. The whole service throughout was of a very high order, Rev. Thompson ably assisting in his usual sympathetic style.

Cherry Thieves Again.

Cherry thieves are again on the trail for their favorite fruit. Mr Walter Land, who is now in England on service for his country won't perhaps ever know what happened to at least a portion of his cherry crop of 1916. According to the observations of Mr Wolstencroft, who has the property in charge during the owner's absence, the thief or thieves made the raid on Monday evening or early on Tuesday morning, making away with almost the entire yield of the two ripest trees in the orchard. Every evidence pointed to a hurried job, as the trees were almost stripped of fruit spurs and much of the foliage, thus doing much damage to the trees.

The matter has been placed in the hands of Provincial Constable McDonald, who is determined to at least put a stop to the fruit thieving.

Frank Hayward Writes From Trenches

Gives Interesting Peep Into
War Zone.

Mr Frank Hayward has been through a double-dyed "scrap" and is so happy at escaping with a whole skin that he wishes to celebrate by having it published. It is good reading. The following is the letter:

June 10th.

My Dear Mother,
Just a scribble to give you the usual news. I am feeling fine and dandy. We leave the trenches tonight. It will be very late before we get home, and I won't have time to write a letter in time for to-morrow's mail unless I write it now, so here goes. We have been having the hottest time of our sweet young life up here the last week, and I will heave a great big sigh of infinite relief when I gaze up into the canvas of our good old roost billet hut again. Yes, that's going to be some sigh.

I used to think I would like to participate in some real "honest injun", dyed-in-wool" scrapping. Those foolish yearnings are now tucked away with other disillusionments in the attic of the misty past, and I reckon they're going to be considerably moth-eaten before I air them again.

Was certainly pleased a few minutes ago to run slap bang into my only home town compatriot in this region, Reg. Bootho. Talk about it being good to meet a friend from your home town. It was certainly good to meet Reggie. His battalion is relieving us to-night. Glory be. He had just told me the very sad news of Norman Pope (and news is only too available these days), when a big black cloud went

up about fifty yards away, followed by the ripping sort of an explosion those big shells make, and Reggie went one way and I dived another way. I blush to say that I went faster than Reg., but my ears were still ringing from the explosion of a whiz-bang that was inconsiderate enough to detonate right in front of my dug-out yesterday, and I didn't revel in the idea of another doing likewise. Anyhow our battalion has done twelve days out of the last fifteen in the forward trenches, and several of those were about as cram full of excitement as they could possibly be, and we are all pretty war worn and tired.

It is terrible to think of all the boys who are losing their lives up here, and the last few days have been as cruel as this war could make them. I don't think there are many of the boys who will forget the last Saturday and Sunday. We came out on Sunday, and I think I wrote you then. Tuesday night we were on our way back again though, but before we left I had the luck to meet some of the boys from back there: Charlie Johnston, Ted Smith, Bert Robinson and Ernie McKay, and Tom McLaughlin. Charlie and Bert and Ernie came out to see us go and wish us luck. Fortunately the last four days have been comparatively quiet although the artillery has been busy all the time. I am carrying back about a dozen unanswered letters that came while I have been up here.

It is getting dark so I will have to close now. Remember me to all Naramatans and Summerlanders and Pentictoners and Peachlanders if you see any. Take good care of yourself and Dad,

Your loving son,
FRANK.

Why Some Ads. May Not Pay

Some merchants experiment for a time with the use of newspaper space, dabble with it, so to speak, and because they do not see direct results in a few issues, become disheartened and quit. "It does not pay to advertise in this town," they say.

The people who spend hundreds of dollars in advertising, and even thousands, and make many more hundreds or thousands through it, are emphatic in saying that the investment pays handsomely. They say they could not succeed in business without it.

Perhaps your copy is not of the "selling kind." A merchant may be able to talk to a customer in a convincing way and yet not know how to shape an advertisement that will have the right "kick" to it. Let the Review help you if you are in doubt:

Review Job Printing Dept. Summerland

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads along for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 300 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax; Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

A large number of Agricultural Colleges are also using the International Correspondence Schools books in their classes in preference to all others.

The International Correspondence Schools can either start you at the bottom of the ladder or where you probably now are, part way up, and help you to the attainment of your ambition. Are you enough in earnest to inquire? It costs you nothing for information.

International Correspondence Schools, Box 826-O, Scranton, Pa.

E. C. Graham was down from Kelowna with his car over Tuesday night.

Sergeant Borton left for Victoria on Thursday morning, and Pte. H. Thornthwaite on Friday. The 103rd, to which both belong, will leave almost immediately for overseas.

Possibly the first shipment of raspberries to go out from Summerland this season was a crate sent out early in the week by H. H. Elsey to a prairie customer. Like all other fruits raspberries are considerably behind their normal ripening time.

While on the road to Penticton last Saturday night Mr. Scott Darkis had a narrow escape from serious accident when his car turned over on the side of the road. Mr. Darkis and another occupant were able to get free of the car in time to escape injury. The car was not greatly damaged.

At least three Summerland autos made a long trip to Grand Forks and return last week end, starting out Sunday morning and returning the following day. The journey is said to be about one hundred and thirty miles each way. Minor tire troubles were the only difficulties encountered on the way. The cars that made the trip were those of Dr. F. W. Andrew and Messrs. K. S. Hogg and J. Lawler.

A good many soldiers, some from the Vernon camp and others from the Coast have been in town during the last few days. Among those of the 172nd at Vernon who have been noted on visits to the home town are Pts. Harold Smith, C. Noel Higgin, Harry Barkwill, Thomas Whitfield, and Reg. Verrier. At least two members of the 103rd Battalion have also been in from Victoria, namely Sergeant Borton and Pte. Harry Thornthwaite, both machine gun men.

Municipality of Summerland.

Applications will be received by the undersigned up to the evening of July 10th, for the position of Stenographer in the Municipal Office.

J. L. LOGIE, Municipal Clerk.

O. E. FISHER, Traffic Manager.

Raymond Bent, who has been teaching at Seymour Arm, reached home last Saturday.

The Home Comfort Club will meet next Thursday evening, July 13th, with Mrs. O. Atkins.

Mr. A. B. Elliott returned on Wednesday night from a visit to Castor and Calgary, Alberta.

It is reported that Halcyon Orchard, the Rivington property has been sold to a purchaser in England.

A valuable cow was lost by Mr. Geo. Graham on Tuesday. Bloating caused death in a few minutes.

Misses Mae and Cathleen Henderson, daughters of Rev. A. Henderson, came down from Peachland about the end of last week, and are now occupying the Methodist parsonage with their father.

The Treasurer of the Okanagan Ambulance League acknowledges with thanks the sum of \$26, the proceeds of the lawn social held recently by the Patriotic Whist Club.

After an absence of several weeks at Olds, Alberta, where they have been putting in a crop of grain, Mr. Wm. Ritchie returned home on Wednesday evening.

Mrs. Morfitt and family have returned to their Summerland home after spending the winter in Calgary. Lieut.-Col. Morfitt, though still in camp at Calgary, expects to be going overseas soon.

The members of the two local Women's Institutes are invited to a union picnic by the Penticton Institute next Tuesday, the 11th. The journey will be made by ferry leaving here at 2 p.m. There will be a special return trip at 7 p.m.

The 103rd Battalion, C.E.F., the "Vancouver Island Timber Wolves," received orders at the end of last week to "stand by" in preparation for going overseas. Among the local men who are in the 103rd are Sergeant Borton, Privates H. Thornthwaite, and J. Corner.

Mr. and Mrs. E. H. Lock arrived on Monday evening's boat from Ladner, B.C., where Mr. Lock has the High School principalship. Mrs. Lock is remaining for a time with her parents, Mr. and Mrs. A. B. Williams, while Mr. Lock proceeded on to Kaleden last Tuesday to join his mother on their orchard property.

The members of the West Summerland Women's Institute are looking forward with pleasant anticipation to their regular meeting on the 14th, which, after the usual business, will take the form of a lawn social, and will be held at the home of the Misses Spencer. A good program has been arranged, and a large attendance is expected.

Miss Ruby Hunter, at one time on the Summerland school staff, is now Mrs. J. M. Bryden, having become the bride of Mr. Bryden of Victoria on Wednesday. The marriage took place at Kelowna, the home of the bride. The happy couple received congratulations from a number of Summerland friends during the stay of the "Sicamous" here on Wednesday evening. They will reside in Victoria.

The evening service of the Presbyterian Church held in St. Andrew's Church on alternate Sunday evenings, will be conducted by Prof. W. T. Broad, of Calgary, commencing next Sunday evening and continuing every other Sunday evening until some time in September, it is expected. Next Sunday evening Mr. Broad will commence a series of sermons, and his subject will be, "What This War Means." Rev. N. McNaughton will be heard every Sunday evening in the Lakeside Baptist Church.

It does not seem likely that the general community outing and union Sunday School picnic contemplated in some quarters will materialize. The plan was to take advantage of special rates offered by the K.V.R. to a picnic under Sunday School auspices, and organize a general excursion out to Uak station at Chain Lakes. But the Sunday Schools of the district were not altogether unanimous in regard to the project, and it was not felt desirable to press it further. Nevertheless it seems a pity that Summerland cannot enjoy a general community holiday or excursion just once a year.

The Fruit Union's Ford has been converted into a useful truck, and is doing good service between the different packing houses.

Black currants are now ripening. 12 lbs. for \$1.00. Phone your order to J. H. Bowering, phone 674. 413,4

Two more carloads of horses were loaded and shipped from here on Wednesday night by L. C. Woodworth. Like the others they were shipped to Alberta.

Complaint was recently made by a resident of Prairie Valley of the loss of a quantity of eggs and wheat. Both local and provincial police have been investigating, but as yet no charge has been laid.

During the interruption to service on the C.P.R. main line recently a special C.P.R. silk train passed through here over the K.V.R. carrying a cargo valued at considerably over a million dollars.

A most readable and interesting letter written while in the front trenches in his usual cheery style by Frank Hayward is published this week in our Naramata columns. Look it up and read it and get a direct view of trench warfare.

Rev. N. McNaughton's morning service at the union service in St. Andrew's Church next Sunday will be "The God of Comfort." In the evening, at the Lakeside Church he will preach on "The Stone in the Way." This service will be held at 7.30 p.m. new town time, instead of 7 p.m. as heretofore.

No new cases of measles have been reported, other than those in the family of Section Foreman H. Sanquist, near the K.V.R. station. Mrs. Sanquist and children have but recently returned from a visit to Spokane, and it is supposed that the children contracted the disease while there. Mr. and Mrs. Sanquist have resided in Summerland for nearly a year.

Mr. C. H. Fleming, who with Mrs. Fleming has been visiting for sometime at the home of his daughter, Mrs. John W. Hale, Trout Creek, left on Tuesday morning's boat on his way back to Saskatoon. Mrs. Fleming is remaining here still. Mr. Fleming resided in Summerland in the early times, when he had in his care a number of orchards belonging to outside owners.

An item on this page last week mentioned that Lieut. H. V. G. Rivington, formerly of "Halcyon Orchard," Summerland, had been wounded. This was according to the best information that could be had. Later and more authentic word has come to the Review stating that the fact is Lieut. Rivington was admitted to the No. 14 General Hospital at Boulogne, France, on June 25th, suffering from a severe attack of neurasthenia. In such cases neurasthenia is understood to mean shell shock, affecting all the nerves.

Carpenters have been busy this week fitting the store in the Ritchie block, lately occupied by the Bank of Montreal, with shelves, etc., for A. J. Beer, who has rented the place for a leather store. As announced elsewhere in this issue, Mr. Beer will open the new store on Monday with a full stock of leather goods. Mr. Beer has engaged his cousin, Mr. L. G. Harding, who learned his trade beside him in Mr. Beer's father's workrooms in Leeds, to assist him in his extended business. It has not yet been decided whether Mr. Harding or Mr. Beer will operate the new store. Probably they will work it alternately in order to get better acquainted with the public.

The British Columbia quota of the Western Universities' Battalion, the 190th, left for Sewell, Manitoba, last week, where they are now undergoing their summer training in one of the country's big mobilization camps. The battalion is made up of four companies recruited in the four western provinces. The British Columbia company has at least four young men in its ranks in whom Summerland should have a strong interest. Those are Messrs John and Leighton MacLeod, sons of Rev. and Mrs. A. W. MacLeod, Bedford A. Tingloy, and Howell Harris. The battalion comprises for the most part young men of more than average scholarship and refinement, and among the officers are several well-known university instructors, and men of considerable intellectual attainment.

BIRTHS.

CORNISH—At Rossland, B.G., to Mr. and Mrs. E. Cornish, on Thursday, June 29th, a daughter.

WHITE—To Mr. and Mrs. Gilbert V. White, at Chicago, on June 12th, a daughter.

WEDDING.

KING—SMITH.

The marriage of Miss May Smith, daughter of Mr. and Mrs. Joseph Smith, of Prairie Valley, to Mr. Aubrey King, was solemnized on Saturday, July 1st, at Penticton. Both the bride and groom have been residents of the district for some years.

They will make their home in Prairie Valley.

ANOTHER SUMMERLAND BOY GIVES LIFE FOR RIGHT AND FREEDOM.

After more than a year in the trenches "Bert" Figgis, who was among the first to respond to the call to arms, has given his life to the cause of freedom and right.

A cablegram bringing the sad intelligence to his parents was received by them on Wednesday. His death was the result of wounds received in action. The sympathy of the community goes out to the bereaved parents, who, though of course proud of the noble work of their son, cannot but feel keenly their sad loss.

A Bridal Shower.

A number of fellow members of the Parkdale Church choir and of the Baptist Young People's Union and other friends of Miss Bessie Harwood assembled last night at the home of Mr. and Mrs. J. H. Bowering to "shower" Miss Harwood.

After a pleasant social time spent on the lawn the merry party entered the house where a well-filled "horn of plenty" was poured out to the guest of honor. The horn had been well filled with a bountiful and splendid collection of linens, etc., well assorted, and was gracefully acknowledged by the bride-elect.

On Tuesday next Miss Harwood becomes the wife of Mr. Allen Lister of Stettlar, Alberta, in which town they will make their home.

Pte. Wm. Gallagher came in on Saturday for a short visit to his parents in Garnett Valley.

The regular monthly meeting of the W.C.T.U. was held last Friday at the home of Mrs. H. H. Elsey. The principal item of business was the receiving of the reports of the delegates to the district convention held at Kelowna. Mrs. Conway, Mrs. Kelley and Miss Dale, who represented the local organization submitted the reports. A copy of the resolutions, etc., adopted by the convention has been received at the Review Office too late for treatment in detail.

Don't imagine that when you have advertised once that the fellow who reads it is going to remember it for ever. He won't. It's up to you to speak again and again till you put your message across.

\$1 Penticton AND RETURN.

Every Saturday night, CAR No. 6259 will leave the Post Office at 7 o'clock for Penticton. Phone No. 1 and Reserve Your Seat.

SUMMERLAND AND WEST SUMMERLAND

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

The Editor of the Review.

Dear Sir,
May I ask you to find space in your paper for a few facts in connection with the Canadian Patriotic Fund which I think it advisable to put before the Summerland people.

It seems we are in some danger of being likened to something that flares up brilliantly for a short time and then gets dimmer and dimmer instead of burning with a steady regular light.

We started out by contributing to this fund, the respectable sum of \$399.30 last February, and in March went one better by subscribing \$462.95, but our energy seems to have become suddenly exhausted for we dropped ignominiously in April to \$172. We equalled this in May, and a quarterly subscription made it look \$22 better as it reached \$194. In June, in spite of special notices of arrears being sent out, we could only return to Victoria \$139.45.

We will now look at what the central fund in Victoria is paying out to dependents of Summerland. In April there was paid out \$228.50, and in May \$271, so it is reasonable to suppose it will be higher still for June, and will go on growing.

We must be prepared to contribute to this fund as long as the war lasts, the effort must be continued and should be looked upon as a solemn duty by everyone. We should not only contribute what we happen to find we can spare, but we should look upon it as a debt that we are

bound to meet on certain set due dates.

It may not strike everyone that this very fund is the one organization that can best assist in securing men to maintain and strengthen the Canadian forces at the front, as without it, great numbers who have gone, and are still going, would have found it impossible to leave their families; and in order to win this war and all that winning it means, it is absolutely necessary that this steady stream of enlistments shall keep up. If you are to stay at home in security and comfort while our soldiers are doing their utmost by everlastingly sticking to it over there in Europe, the least we can do is put up every dollar we can spare to assist them and find others to back them up.

If the people of Summerland will not be roused from a mere apathetic form of subscription we may be forced to resort to what is described in a paragraph below as "A Hun Trick," read it. Well, I hope not.

It is true, however, that out of 126 names upon our subscription list, it was necessary to send out no less than 48 notices in June, many of them calling for many months of arrears. I wish to thank those that promptly responded to them, and especially so to those who respond with regularity month by month. There are many in Summerland who, if they would think this matter over seriously, would conclude that they can easily afford to contribute by the month instead of being content with having made a small cash down donation at the time the canvass was made, and I trust that those who did so and have since been stirred by the gallant deeds the Canadian soldiers have done and are doing every day, so that they will undoubtedly be

come history for all time to come for the famous Canadian Army, will now write the Treasurer that they wish their names added to the monthly contribution list, as when the war is over, this greatest of all wars that has ever shaken the earth, I have no hesitation in saying they will feel more contented with themselves as having done something towards its successful outcome.

Yours faithfully,
E. B. MAY,
Hon. Treas.
Can. Patriotic Fund.

A HUN TRICK

"Married women whose husbands are at the front only have to present themselves at the office to obtain repayment of the price of their seats," was the alluring invitation recently flashed on the screen of all moving picture theatres in Frankfort. There was a general movement toward the office, but instead of receiving their money, all were bundled off in patrol wagons to the police headquarters, where they were informed that, since they had money enough to squander on amusements, the city would cut off their usual allowance."

Summerland, B.C.
July 3rd,

Dear Sir:

I noticed in a recent issue of your paper, some Govt. Weed Inspector had run through here and was to be here again to DISCUSS the weed situation. How like a Government Inspector! Why not get down to business and get weeds eradicated, cut and burned and pulled, not discussed. I fear our very excellent constable is a poor weed inspector, why does he not get around and see weeds for himself and insist on their removal, not wait for complaints to be lodged, as his predecessor did. In connection with stock being where they should not be I am told that in a food and feed thieving case lately the policeman from Kelowna had to be got in to try and lay hands on the culprit—surely a poor state of affairs.

Yours truly,
RATEPAYER.

Thrift is not cheese-paring, but an intelligent use of food and other resources, the habit of sacrificing personal interests to the nation's.

NO SUGAR

We have received the following Fruit Preserving Recipe from a reliable source, and reprint same for the benefit of those of our customers who may have decided to curtail the making of preserves this season on account of the high market price of sugar.

Our Motive

in publishing it, is to encourage bottling fruit, and suggesting that the money usually expended in sugar be used for what might be termed

Absolute Necessities.

Sugar will eventually have to be used in preparing the fruit for the table, but much less will be required to sweeten to taste. Authorities all agree that fruit put up without sugar retains its delicate and distinctive flavor.

To put up fruits without sugar, simply prepare them in the ordinary way; see that the jars are perfectly clean, thoroughly scalded with boiling water, filled to the top and left in them a considerable time; boil the rubbers and covers, and see that the rubbers are soft and free from grooves or cracks, place the fruit in the jars, fill with cold water, place them in a boiler filled with cold water, heat to the boiling point. Berries will do if removed when the boiling point is reached. Large fruits, such as peaches, pears, plums, cherries, and the like should get 20 to 30 minutes boiling.

A board should be placed in the bottom of the boiler to keep the jars from the direct heat of the stove. Fruit thus prepared will be found excellent for pies; delicious for eating with cream, and generally superior to the sugar-syrup preserves. In properly air-tight jars they will also keep quite as long.

We carry in stock "Perfect Seal" and "Economy" Jars.

Summerland Supply Co.
Limited.

Notice to Hospital Patients.

BY THE ORDER OF THE BOARD of the Summerland Hospital, Notice is Hereby Given that in connection with all Maternity Cases a deposit of \$15.00 will be required before a case will be accepted, the balance of the account to be paid according to the established rules in print; as it is being found that, through non-payment of accounts, it is impossible to keep the Hospital open otherwise.

316-37

Newsy Paragraphs
from
PEACHLAND

Miss Moule and her sister will occupy the W. A. Lang cottage during the holidays.

Miss Candace McDougald has returned home after a stay of nine months with her sister, Mrs Marr at Chilliwack.

Mrs Seaton and Miss Bessie Seaton spent Wednesday in Kelowna, going up by motor with Mr Stephen and returning by boat.

Mrs Hamilton Lang and little son, of Vernon, are in town for a few days the guests of Mrs and Miss McDonald.

Mrs W. D. Miller and little daughter are visiting Miss Mae Baldoek, Penticton, where they went on Dominion Day.

Pte. S. Michael spent last weekend at his home here, coming down from Vernon camp. He was accompanied by Corporal Howard.

There was a good representation from Peachland at the Dominion Day sports at Penticton, probably forty in all, most of whom made the trip on the excursion boat.

Four mountain sheep were seen by Piro Warden Hogg near Westbank recently. The animals seemed quite tame, and stood about thirty yards distant and watched him pass.

Miss Parker, who has been a guest at the home of Mr and Mrs Harrington, started on Tuesday on the long journey to Venezuela. She will stop off at Calgary for a few days.

Mr and Mrs Welch of Chilliwack arrived here on Friday last to spend the summer. Peachlanders will remember Mrs Welch as Miss Galbraith, owner of the Nash property near Mr Konting's.

Miss Minnie Smith has resigned the Woods Lake school and is spending the vacation at her home here. Other Peachland teachers now home are Misses Olive and Gertrude Gummow and their brother B. F. Gummow, Miss Bessie Sonton, and Mr Hugh Ferguson.

Mr Cousins returned on Saturday from the prairies.

Miss Bell arrived on Saturday on a visit to her sister, Mrs J. L. Vicary.

Miss Jean Kincaid of Kelowna is spending a few days here with Miss N. J. Elliott.

Mrs C. Inglis is visiting here. She was met at the Landing on Saturday by Mrs Thos. Powell.

Mrs S. H. Murdin is enjoying a visit by her mother and sister, Mrs Williams and Miss Williams of Gladstone, Manitoba.

Miss Ritta Robinson of Vancouver reached here on Tuesday on a visit to her uncle and aunt, Mr and Mrs J. B. Robinson.

Rev. A. Henderson and Mr G. Gartrell, both of Summerland, were among those who registered at Edgewater Inn this week.

After a two weeks' visit at his home here Pte. J. A. Miller, left for Victoria on Monday to rejoin his regiment the 103rd.

The Summerland Scouts Alex. Smith, Frank Stewart, and Allan Harris tramped it to Peachland this week and camped on the lake shore.

Mr C. Vansaymorton of the Experimental Station, Summerland, returned to his duties on Monday after spending a few days on his fruit lot here.

Osborne Needham and his friend J. Hussey of the Vernon Camp are off duty for a month on haying leave. After a few days here they will go to Woods Lake to work.

Economy that renders labor or capital idle is worse than useless. Only such economy as diverts labor and capital to more productive uses or to the production of more permanent results can be regarded as beneficial. Where results of that nature are not virtually assured it is better to avoid all disturbing departures from the ordinary patronage on which commerce and industry depend.

Big Apples Not Called For.

Cox's Orange and Yellow Newtown Popular in England.

J. Forsyth Smith, Canadian Trade Commissioner at Leeds, in a review of conditions of the apple market in Great Britain says:

"British Columbia box apples only reached the market in small quantities, something over 8,000 boxes having been distributed between London, Glasgow, and Manchester during the season just closing. In general, they reached the market in excellent condition, except in the case of Cox's Orange Pippins for the London market, many of which were soft and waxy, and had to be sold at greatly reduced prices on this account. The varieties were mainly Yellow Newtons, Spitzenbergs, Jonathans and Rome Beauties.

The English Cox's Orange Pippin is very popular, and as the supply is small in comparison with the demand, British Columbia Cox's Orange Pippins of reasonably good color, that can be laid down in good condition, are assured of excellent prices. The past season, however, apparently showed that there is likely to be some difficulty in placing the larger sizes of this variety on the market in good condition. Shippers are therefore advised to ship the smaller sizes only. The English Cox is a small, well-colored apple, and small, well-colored apples of this variety from British Columbia are greatly superior in market value to those that are larger, softer and below standard as to color.

The Yellow Newton is one of the most important of the imported varieties, but with this exception, red varieties are preferred—Jonathans, Spitzenbergs, and Winesaps all being in good demand. The Grimes Golden sells only with difficulty. Red varieties are especially called for early in the season, while the English crop is supplying the uncolored varieties plentifully.

Buyers complained of many of the British Columbia apples last season. The demand is for sizes from 125 to 163, and during the winter months very good prices have been given for apples over the 200 count.

Appointed Returning Officer.

The list of deputy returning officers for duty at the forthcoming provincial elections has been given out from Victoria. For the constituency of South Okanagan Chas. H. Cordy has been appointed. As given out in last week's Review, nominations will be held on Thursday, August 3rd, and elections six weeks later, on September 14th.

The British War Office has given permission to allow British Columbia soldiers in England to record their votes, but the men actually at the front have sterner business on hand than party politics, so that their ballots cannot be had.

It is understood that at the same time as polling takes place, referendum votes are to be taken on the prohibition and women suffrage questions.

CARD OF THANKS.

To all the friends who extended sympathy in the passing of their soldier son, Mr and Mrs Thomas Figgis desire to extend sincere thanks.

A Series of Storms

Saturday's electrical storms were responsible for not a little mild fright and a certain amount of material damage to electric light and telephone systems.

There were three distinct visitations, and they constitute the most severe storms that have been for some time past. The first section blew up the Valley about nine o'clock in the morning, and this seems by general opinion to have been the most severe of the three. It became unusually dark, and the lightning even in the daylight seemed exceptionally vivid, and the thunder claps that followed almost instantly were something a little more awe-inspiring than usual. Although rain pelted down hard for some time, the storm cleared away, and a fine day set in. It only lasted till about six o'clock, however, when another severe outbreak occurred, this seeming to come from the northwest. Again just after midnight came a third storm, with vivid electrical manifestation and heavy rain.

No fewer than nine transformers on the electric light system were put out of commission during the day, and minor trouble was also encountered with the telephone system. A tree was struck near Mr Hespeler's, and the ground around it is said to show very evident signs of the occurrence. Another tree near Jas. Gartrell's is known to have been struck. No other material damage can be learned, several rumors of such, upon investigation, proving unfounded.

At least one lady, a daughter of Mrs M. Campbell, suffered from the effects of the severe lightning, and was laid up for a short time, but fortunately she did not suffer severe harm.

Visiting Growers May Be Shown Over District.

Summerland will be visited next week by probably fifty fruit growers from all parts of the province if the present proposals of the Summerland Board of Trade are carried out. The first midsummer conference of the British Columbia Fruit Growers' Association convenes next week at Penticton, opening with a meeting of the executive and directors on Thursday morning, the program covering Thursday and Friday.

Friday afternoon is left open for a tour of the district, according to the printed program. Our Board of Trade has been active in their efforts to have the visitors spend a few hours in this district, final arrangements for which are likely to be made to-night at a meeting of the entertainment committee at which R. V. Agur, chairman of the local special committee has been invited to be present.

One proposal is that after a run over the Penticton benches, the visitors will be brought up to Naramata and across by special ferry; here to be met by autos and shown over the district. Another is to have the delegates come up by train and return by auto. In either event at least a dozen cars will be needed and our Board of Trade will be grateful to every car owner who will assist. Those who will volunteer should communicate with the committee chairman, Mr R. V. Agur or Mr R. H. English.

BIRTHS.

PURVES — On Tuesday, July 11th, to Mr and Mrs R. Purves, a son.

C.N.R. Will Start Building Soon.

Sir Donald Mann Says Company Wants To See Okanagan Branch Built.

During a visit to the Coast this week, Sir Donald Mann, one of the Canadian Northern Railway magnates, stated that his company was making preparations in earnest to carry out their British Columbia construction program, which includes the new branch line from Kamloops through Vernon down to Kelowna. Negotiations are now in progress, he said, with New York financial interests, whereby funds can be secured for this purpose.

Of railway development in the interior of the province Sir Donald stated his company is very anxious to proceed with construction of the line in the Okanagan, from Kamloops to Kelowna. This line will pass through the town of Kamloops and over the Thompson River at that point, joining the line already built. It will be one of the best feeders the company will possess, and will open up the rich fruit section to the markets in the three

Trains by the Hope Cut-Off Soon

Time Between Coast and Kootenay Will Be Reduced Very Soon.

On the last day of this month trains over the Kettle Valley railway via the Hope cut-off will reduce the time between Nelson and the Coast by about four and a half hours, bringing the journey down to twenty-seven hours, according to an announcement made by officials of the Canadian Pacific a day or two ago.

On the morning of July 31 the first train leaving Nelson will go through the cut-off, and will arrive in Vancouver on the night of August 1. The first train from Vancouver to Nelson will leave on the last day of the month, and is scheduled to arrive there twenty-seven hours later.

prairie sections still further.

"I am satisfied that as a result of this trip we will be able in a short time to announce that construction of that line will be proceeded with," he said.

Main Talk at Council Meeting is of Noxious Weeds.

Seeding Down Roadsides to Clover and Alfalfa Advanced. Electric Light Extension Asked For.

That some comprehensive policy effectively dealing with the weed problem is greatly needed—just now was the unanimous opinion of the Councillors when the subject came up for discussion, but other than issuing instructions, that the Weed Inspector give immediate attention to Canada Thistle no action was decided upon, that barrier of finance again appearing in the way, as something not yet disposed of. The condition of Shaughnessy Avenue and the larger question of road improvements and of repairs made more urgent by the recent rains, also received attention, but for the same reason no definite plan of action was decided upon.

Reports of a number of bad wash-outs in the roads, caused by the recent heavy showers, were received. Coun. Stark again urged that something be done at once to better the condition of Shaughnessy Avenue. The grader, had made some improvement, but a number of large holes are yet to be filled. That something should be done was admitted by the Public Works Committee and other members. When the new team of horses which the Reeve and Chairman of the Public Works Committee are to purchase is available, then gravel or shale would be put into the holes.

Coun. Campbell recommended diverting the creek from Three Lake Valley to save damage now done to the Prairie Valley road.

Several bad places, including a road near Mrs Bentley's, are to have immediate attention from Foreman Arkoll.

Coun. Johnston said many of the weeds would be soon going to seed and the lot owners should be now compelled to clean up their lots, but at the same time the Municipality must clean the road sides. Here the question of expense again came in. Coun. Stark would like to see all the road sides seeded to alfalfa or clover. That this should be done where possible was the opinion of Coun. Campbell. Coun.

Simpson did not think this would be worth while unless a good job was made of it.

Upon recommendation of Coun. Johnston it was decided to have the Inspector have Canada Thistle wherever found cut at once, and if on roadsides, removed at the expense of the Municipality. Unless the law respecting weeds on the road sides was again changed to make adjoining property responsible, Coun. Stark declared the Municipality would be up against a big expense, and he urged that the Council advocate the cropping of the roadsides even if the Municipality had to furnish the seed.

The Reeve and Clerk were appointed municipal delegates to the Western Canada Irrigation Convention, which meets in Kamloops July 25, 26 and 27.

A list of applicants, with the minimum number of lights and electric appliances they would use was submitted, along with an offer from Mr A. A. Wright to loan the money necessary to extend the service to the homes of his son. The list included Messrs Wright, Hilborn, McLachlan, and Muir Stewart. The proposition was laid over till it could be learned what the cost of the extension would be, how many more users could be gotten to take the service, and the power of the Municipality to so borrow.

An application was received from Mrs Ilogg for current to her new cottage. Granted.

The Clerk was instructed to draft a resolution urging the Federal authorities to pass a Dominion Act bringing the Daylight Saving plan into operation throughout all Canada. This is in line with a suggestion from the Union of Canadian Municipalities, which meets soon in Montreal, and to which the Council did not feel able to send a representative.

To better put the Poultry Association in a position to urge that the District Poultry Show for Ok-

Plan Annual Picnics

The local Sunday Schools have been busy this week preparing for their annual picnic outings, and those that have not already fixed upon the time and place will probably make their arrangements within the next few days.

The Presbyterian Sunday School, uniting as formerly with the St Andrews' Society, will picnic tomorrow, Saturday, at Bulyea Point Trout Creek. Rigs and picnickers will leave the church about ten o'clock, and will join at the grounds many who will find it nearer and more convenient to proceed direct. Given a fine day, the customary good time will be forthcoming without a doubt. Any visitors will also be assured of a welcome.

The two Baptist Schools will journey on Tuesday next, June 18, up the lake as far as Miller's wharf. It was expected that they would be joined by some from the Sunday Schools of Peachland, but this has not been found feasible after all. While there will be many who will drive up by the Lakeshore Drive, a special boat trip has also been provided. The "Skookum" will leave the government wharf at one o'clock, new town time, and the trip up of seven or eight miles, will prove most enjoyable to children and elders alike if the day is bright. A small charge of 25c. will be made to the adults to help defray the expense of the boat, while the children will be carried free. A cordial invitation is also extended in this case to any who may care to take in a good afternoon's outing.

Methodist arrangements are now in hand, and will likely be brought to a head within the next few days.

A Bicycle Accident.

Ronald Phinney was laid up for a few days over last week-end as the result of taking a header from a bicycle last Sunday afternoon. He was sitting on the handle-bars of a bicycle ridden by Bernard Taylor, and Ronald was braking the front wheel while the machine was going down a hill near A. G. Munn's. In some way his foot must have come in contact with the spokes and he and Taylor were pitched headlong. Phinney got a blow on the head that knocked him out for a while. He also sustained bruises on one side and on one leg that will be felt for some time yet. Bernard Taylor's fall was not so severe, but he suffered severe and painful cuts on one hand. Help was fortunately close at hand, and the boys were taken home and made as comfortable as possible, but it was some little time before "Bobbie" Phinney came round properly.

Hospital Donations.

Donations to the Hospital during the month of June 1916:

Mrs F. A. Williams, enamelled jug; Mrs H. Sculthorpe, magazines; Mrs G. L. McWilliams, magazines and radishes; Mrs D. F. Brower, eggs; Mr A. A. Dorricks, lettuce and radishes; Mrs R. C. Lipssett, puddings, cream and cherries; West Summerland Institute, eggs; Mrs Limmer, flowers; Mr A. E. Hespeler, potatoes; Mr Chas. Wharton, cucumbers and lettuce; Mrs M. Campbell, potatoes, jam, and rhubarb; Mr Geo. Secrest, lettuce and cross; Mr Young, cherries; Mrs Atwood Miller, magazines and flowers; Mrs Solly, cream; Ladies' Auxiliary, cake and berries.

anangan Valley be held here the Council consented to make a grant not to exceed \$100, provided the Provincial grant does not come up to \$600, and to bring the total up to that sum.

Great Promise In Apple Crop.

"June Drop" Has Been Light Says Inspector Clarke After Tour.

R. G. L. Clarke, chief Dominion fruit inspector for British Columbia, recently returned to the Coast from a tour of the Okanagan, Kootenay, and Boundary districts. He predicts that the fruit crops in Kootenay and Boundary districts will be at least twice as great as last year.

Mr Clarke has been through the southern portion of the province as far east as Creston and stated that he had found every evidence of a bumper fruit crop this year. Apples were particularly promising, and nothing short of severe hailstorms or some other elemental calamity could prevent the fruit farmers of the district from having an abundant harvest, he said.

The chief inspector reports that the fall of fruit has been exceedingly light, and that every indication pointed to a large proportion of the young fruit reaching perfection. Much care should be exercised by the growers, he said, to prevent scab. This, he stated, could only be done by systematic and thorough spraying, which had been difficult of late owing to rainy weather.

In the Okanagan Mr Clarke reported a slight falling off in some fruits, but this, he declared, was amply made up for in the heavy crop of apples promised. The farmers of the province, he said, should have no trouble this year in meeting the competition of the United States growers, as with a splendid crop in sight and the existing tariff laws there should be no difficulty in supplying the Canadian market with Canadian fruit.

Practically all the berry growers have adopted the standard pint box for commercial purposes. This contains 33.6 cubic inches, and should run not less than twenty-two pounds to the crate, averaging around twenty-five pounds. Great care should be taken in packing in order that the consumer may have the benefit of the same quantity of fruit as that put up by the export shippers across the line, he said.

Fatal Shot Received After Return From Visit To England

Private Herbert Figgis, who recently succumbed to wounds received in action, mentioned in the Review last week, had only been back in the trenches a very short time after enjoying a brief respite from the fighting, during which time he was able to visit relatives in England. Only a night or two after having received the fatal telegram, a letter came to his parents from a relative saying that Herbert had visited them. He was a British Territorial until about six months before coming to Canada. Immediately hostilities broke out he enlisted in this country, and went forward to Valcartier as one of the first Canadian contingent. He enjoyed the honor of being the first man to go from Summerland to take up arms in the great struggle. It seems a hard fate to have passed through so much fighting, and enjoy a short holiday, only to go back to death. Thus Summerland adds another worthy name to its list of honored dead.

Alex. Leitch of the Dominion Cannery, Vernon, was in town for a short time early in the week.

A MESSAGE TO THE FRUIT GROWER.

THE DOMINION GOVERNMENT fruit branch has given out a message that every fruit grower will do well to heed. If it does not apply at home, there will be orchards close by that need it.

"What has caused the falling off in the quality of Canadian fruit? Simply the fact that many growers have abandoned the thorough care of their orchards pending the arrival of what they believe will be more prosperous times. Efficient cultivation and careful spraying have not been as consistently carried on during the past year as formerly. The result is that last season at least 75 per cent of the apple crop was too seriously affected with scab to grade No. 1, and No. 3 fruit was a drug upon the market.

"It must be apparent that if methods of distribution and marketing are to be perfected, then the quality of the fruit must also approach perfection—and quality rests with the growers.

"Quite apart from that, however, it seems obvious that any grower who hopes to economize temporarily by allowing his spraying machines and orchard implements to be idle, will be the ultimate loser, for when times become more prosperous and he considers it safe to again adopt the methods he has neglected, he will have to combat the accumulated strength of insects and fungus diseases, and it will probably be years before his orchard will be again free of these pests.

"Reports from Canadian markets during the past few months, and from the markets of Great Britain, show that prices for No. 1 fruit of all varieties have been excellent. There has, however, been so much fruit of poor quality placed before the public that, in some cases, it had to be withdrawn on account of the poor prices offered.

"There is no reason why the Canadian growers should not produce fruit equal in quality to that grown in any part of the world. That has already been proven at the Panama Pacific International Exhibition now closing at San Francisco. From all sources comes the undeniable report that the Canadian fruit exhibit not only equalled but surpassed that from any other section.

"There are many who have continued their thorough methods and realize now that they have done right. But we feel that if Canadian fruit growers will join hands in an effort to keep up the reputation which their product has heretofore gained for itself, they will have years of prosperity, with the added compensation of knowing that they are doing their share towards a common end—the sustenance of an Empire fighting for its existence."

Two Views On Daylight Saving

The Dublin Evening Mail has this to say of the Daylight Saving:

"It seems to be generally accepted that the government will pass the Daylight Saving Resolution today. No Act of Parliament apparently is necessary. An order goes out that all railway and public clocks are to be advanced an hour at midnight on Saturday, and the thing is done. It may cause a little inconvenience here and there, but if it applies, as it ought, to this country, we shall not mind the trouble. We have had a good deal

to put up with lately, and an hour less or more, at sea or ashore, we die, does it matter when? The thing has been done in Germany, and even in Holland, with conspicuous success, where the father put on the clock, and the mother, in ignorance of the fact, also put it on, and the maid, in her maternal innocence, also put it on an hour, there was legitimate ground for complaint by the small boy of the family, who went to school at six in the morning. It was a handsome sacrifice on the altar of Time and Eternity. But the Daylight Saving idea has passed the stage of being regarded as a joke. The gentleman who asks if the cows can be

persuaded to give us milk an hour earlier is a humorist, not a dairyman. The practical side is that the new regulation will save the national light bill and coal bill; and we want all the savings we can get. A million a year saved will enable us to borrow twenty-five millions, and that means a great many silver bullets. The early bird catches the worm; and the early rising nation will get its own reward."

Quite another view is taken by the Canadian Farmers' Advocate, which writes: "Saving daylight in the cities will come somewhat as a joke to the farmer. He gets up and starts work when he will. The city chap finds it necessary to put the clock on an hour to force himself out of bed. Incidentally, it indicates the indolent habits the city has dropped into in recent years."

Weather Report

Abstract from weather records for June, 1916, kept at the Government Station, Balcom Ranch, Summerland, B.C.

"Fight or Pay"

YOU know the purpose of the

Canadian Patriotic Fund

The Local Branch Invites Your Immediate Assistance

Your opportunity to help the man at the Front to fight your battles.

Full information from the Treasurer, Mr. E. B. MAY.

To the Electors of South Okanagan

Sirs,

At last the date of the General Election, for the Province of British Columbia, has been announced.

On September 14th next you will be asked to record your views on the vital issues affecting the welfare of this Province. Presumably you are to decide on one of two or more men to be your Representative, but really through your vote, you are to decide, whether or not, this Province is to have Constitutional Representative Government.

The issue is stated this way, not because of any lack of appreciation of the need of consideration, of the maladministration of our resources, and the squandering of funds of this Province, but because of a realization that owing to the era of strife and stress through which we are passing, the Electorate as a whole, has been awakened to a consciousness of the fact, that principles are and should be, considered before financial interests.

The questions included in this issue are many and varied. Primarily, you are to decide whether you wish your Representatives to be Members of our Provincial Parliament, or merely, as they have been in the last Legislature, puppets to do the will of an autocrat who has out-Kaisered the Kaiser in his domineering monopolization of the control of our affairs. Also do you wish your Legislature to be a real deliberative assembly, or merely a Record Office for storing and preparing catalogues of the Powers of the Lieutenant-Governor in Council. This is a phrase which has studded virtually all Acts of Parliament during the past few years, and has conducted much to establish and maintain the bureaucracy referred to above. And further your choice will decide whether the Acts of your Legislature are to be the Laws of the Province for everybody, or are to be the Laws which the many must and the few may observe. This feature is illustrated by the fraudulent alienation of our Crown Lands, but is particularly brought home to us at the present time, through the admission of the Government in the Legislature at last session, that contrary to the provisions of an Act passed by its own subservient majority, it had handed over the funds which it held in trust for the building of the P.G.E. Railway, prior to the completion of the road.

Mr Brewster, the Liberal Leader, by every means possible during the recent session, endeavored to have the administration of P.G.E. funds investigated, but failed.

Accordingly at the dissolution of the Legislature he caused a writ to be issued against the Government Officials responsible, charging misapplication of these Trust Funds.

This writ to date has been ignored, thus showing indifference not only to the Laws, but also to the Courts.

From these and other considerations it is evident that Constitutional Government is a dead issue in B.C., and would remain so were the present Government returned to power, for such an act on our part would be looked upon by them as an approval of the tyrannical conduct of the past, and therefore permission to wade right in again.

I have only dealt with this one phase of the issue in this note, but will, from the platform and elsewhere, again, as in the past, discuss the questions of vital importance to this, a Farming Constituency. Our only hope, whether living in the country or city, lies in the successful development of the agricultural industry. The lack of interest shown in the welfare of the Farmer, together with the absolute refusal to attempt to solve the Irrigation problems of this district, except for annual surveys in various localities, with perennial promises of consideration and assistance, has left agricultural development in a state of stagnation, and kept the entire population in a state of unrest and despair.

As the Liberal Candidate in this Election, I shall endeavor to meet each of you as Electors, to discuss the issues, but not to coax or try to tease you into promising your Vote, for the ballot is, and should be, kept secret. Nor shall I either in public or in private promise Court Houses, Jails, jobs, etc., nor even promise to send strawberries to the soldiers. On the contrary, I make one simple statement, that as the Member for the South Okanagan, I shall endeavor to represent the views of the Electorate, and thus to promote the welfare of this Constituency in the Province as a whole.

The decks are cleared for action. As citizens and as a people, we must practise economy and retrenchment, directing our course by the principles of integrity and uprightness, so that when the awful international carnage is over, we may from a wholesome economic basis and a moral and constitutional foundation, look forward with a clear outlook to days of Peace and Contentment.

Yours truly,

LESLIE V. ROGERS.

Liberal Candidate.

Why Some Advertisements May Not Pay.

Some merchants experiment for a time with the use of newspaper space, dabble with it, so to speak, and because they do not see direct results in a few issues, become disheartened and quit. "It does not pay to advertise in this town," they say.

The people who spend hundreds of dollars in advertising, and even thousands, and make many more hundreds or thousands through it, are emphatic in saying that the investment pays handsomely. They say they could not succeed in business without it. Perhaps your copy is not of the "selling kind." A merchant may be able to talk to a customer in a convincing way and yet not know how to shape an advertisement that will have the right "kick" to it. Let the Review help you if you are in doubt!

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Alfalfa And June Rains

Harvesting a Valuable Crop Without Loss Of Quality, Color Or Leaf.

The northern end of Okanagan Valley grows very much more alfalfa than is grown in South Okanagan, and it also has very much more precipitation, and through the early summer particularly the growers of alfalfa and other hay crops find it difficult to save their crops, but to a large extent the difficulties encountered there are met here also by growers of alfalfa. The advice of an Oregon alfalfa grower of long experience was repeated last week for the benefit of its readers by the Enderby Press thus:

ALFALFA MEN AGAIN CAUGHT.

Last year the first crop of alfalfa cut in the vicinity of Enderby was exceptionally heavy. So much rain fell at the time it was fit to cut that many of the owners allowed it to stand too long. When it was finally cut, much of it was caught in the fields, and the continued rains ruined much of the early cut. This year the season opened better for the alfalfa men. The first crop was not so heavy as last year, the stalk finer, and the weather promised well. Several of the larger producers cut their entire crop, and it was caught down by the rains of the past week. Needless to say, most of the first cut will be badly damaged by the wet weather. This fact reminds us of what was said by a lecturer sent by the Provincial Department of Agriculture to give the provincial alfalfa men some pointers on the curing of alfalfa. This man was from Oregon, the wettest state in the Union. He addressed an institute meeting in Enderby one evening two years ago. Speaking of curing alfalfa and the difficulties encountered, he said, in his opinion, the alfalfa men in this vicinity were certain to lose the greater part of their first cut every season until they adopted a more up-to-date way of handling it. He criticised severely the method here followed of cutting the whole field before attempting to save any of it. Here we see fields of many acres where the crop is laid upon the ground, and, as happened last year and this, and as happens most frequently, the June rains come and spoil the crop—or most of it.

That speaker had raised alfalfa in the state of Oregon for eleven years, and he professed to know something about it. He said they never at any time thought of keeping the mowers going the whole day through. No matter how small the crop or how heavy, the mowers were seldom run longer than until ten o'clock. Then all hands are put to work on the cut laid down. This is nursed along all day in the hot sunshine, and by four or five o'clock in the afternoon is hauled away or put in cocks so the rain cannot injure it. Alfalfa, this authority said, should be put in the barn or stacked while it is yet green and retains considerable of its own moisture. It can be handled in this condition without losing any of the leaves, and it will not sweat or damage itself when so put up. To leave it in the field until it becomes as dry as the other grasses should be means the loss in the handling of the great part of its leaves. If rains do come between cuttings, the speaker said, the standing crop will be damaged but little compared with the damage which would result if the whole field were down. Harvesting in this way, the alfalfa men of Oregon have never, in late years, sustained serious loss on account of rains. Perhaps the method of our alfalfa growers has some advantages over the Oregon method, but after seeing so much of the first crops, last year and this, damaged by the rains, there is good reason to believe it would be wise to adopt here the practice followed there.

Alfalfa And Clover Seed

Provincial Dept. of Agriculture Will Demonstrate Hulling.

Following along the lines of the discussion at the last Farmers' Institute Convention, regarding the high cost of clover and alfalfa seed, the Department of Agriculture has decided, according to Deputy Minister W. E. Scott, to purchase a clover and alfalfa thresher and huller for demonstration purposes.

The transportation charges will be borne by the Department, a nominal rate of \$1 per bushel being charged to defray operating expenses.

The Department trusts that farmers will avail themselves of this opportunity to determine the suitability of our district to the industry, and that not less than two or three farmers, representing conditions in the district will save one or two acres of their clover or alfalfa crop for the purpose of seed production.

Any farmer saving a part of his hay crop for this purpose should communicate with the Soil and Crop Instructor, Department of Agriculture, Victoria, as soon as possible, stating the acreage he is saving, and whether this is the first or second crop. He will be advised forthwith as to the most approved method of handling his crop with a view of obtaining the best results.

Try The Ben Davis This Way

Some one has done horticulture a great service by helping to lift the popular contempt off the Ben Davis apple. It has been discovered that this common and much maligned variety of apple preserves deliciously. Here is the recipe:

Peel and core the apples and cut each into about twelve slices. Place in a preserving kettle, and add two cups of sugar for each quart of preserves. Cover with boiling water, and then let the preserves boil in the covered kettle until the apples become transparent. Then seal away while hot.

The rooster is the direct cause of a loss to poultry raisers of much money every summer, says an agricultural journal—a loss that could be prevented by the simple expedient of getting rid of the adult male birds as soon as the hatching season is over. It is the fertile egg that spoils in hot weather. An infertile egg will keep for weeks, even when subjected to a high temperature.

Produce more and consume or destroy less is a simple, effective and unassailable formula, but economies that cause unemployment without the certainty of resultant greater production should be avoided as worse than useless.

OUR NARAMATA SECTION : Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

Mr. Pushman Given a Farewell

Under the auspices of the church and under direction of Mrs M. M. Allen, a farewell was held on Friday evening last in the church in honor of Mr J. H. Pushman, who is leaving shortly for Ottawa, where a good position has been offered him as accountant in a large lumber firm.

The proceedings, in the absence of Rev. R. M. Thompson, who was unavoidably late, were conducted by T. H. Boothe. The program was practically in every case an impromptu one, but was nevertheless of an entertaining order, and consisted of the following numbers: Instrumental, Mrs T. H. Boothe. Chairman's Remarks. Vocal Solo, Mrs T. I. Williams. Address, on behalf of church, Mr Bartlett.

Vocal Solo, Mrs M. M. Allen. Address, on behalf of Fruit Union, Mr F. H. Rounds. Vocal Solo, Miss Edna Noyes. Address, on behalf of the School Board, T. H. Boothe, Secy. Speech by the guest of the evening, Mr J. H. Pushman. Instrumental Solo and Encore, Principal T. H. Rayner. God Save The King.

At the conclusion of the program the whole body proceeded to the basement where tasty refreshments were served.

Judging from the tone of the speeches and general feeling as expressed, the departure from town of Mr Pushman will mean a distinct loss to the community. Mr Pushman's active participation in the affairs of the community mark him as a man of wide sympathy coupled with a love for the "square deal" in everyday life.

Mr. E. H. Hancock New Trustee

At the annual meeting of rate-payers on Saturday morning last Mr E. H. Hancock was duly elected School Trustee to take the place of Mr J. H. Pushman, whose term of office expired, and who is also removing from the community.

Two special items of general interest to the district were discussed, one was the disposition of and management of the old school.

The other has reference to our assessment and our taxes. The draft of the district roll is crammed full of inaccuracies, due to hasty work by the assessor or his assistants.

At the winding up of this special meeting on Tuesday evening these two problems were solved. The disposition of the old school was left in the hands of the Board of Trustees, and to right assessment matters a committee consisting of the Trustees, assisted by Messrs Armour and Partridge was asked to make a revision of the roll at the earliest possible date, and send the result of their findings to H. F. Wilmott, Assessor at Vernon.

Current Events OF Town & District

Rev. H. A. Solly conducted Anglican service here on Sunday afternoon.

A number of local ranchers expect to have a "bumper" crop of apples this season. The trees in general are in fine condition.

Mr J. Bruce has accepted a position in Victoria and left on Monday morning's boat. The family will follow as soon as a suitable house is secured.

To judge from the amount of hay being put up locally this season there will be a much reduced amount of the imported article used at Naramata this coming season.

Women's Institute Picnic at Penticton

A large crowd of eager picnickers—members of the local Institute, journeyed to Penticton on invitation from the sister organization in that town, by special ferry—most of them—and enjoyed having a combined gathering.

Besides our ladies there was another excursion from Summerland, and one also from Peachland.

Naramata Current Events. (Continued.)

Mr and Mrs T. I. Williams announce the engagement of their daughter, Nellie Orca, to Mr J. Stanley Dicken of Lethbridge, Alta., the marriage to take place the first week in September.

At the Farmers' Institute meeting to-night Mr Geo. Cook will read a paper of a practical nature on the topic "How to Get the Best Results From Mixed Farming on a ten acre Fruit Ranch."

Miss Dorothy Simpson now of Medicine Hat, Alta., is home to spend the summer with her mother and brother, Mr Fred Simpson. Miss Simpson, after a year's absence, declares that she is glad to get back to Naramata.

Mrs George Schreck and son Donald of Buffalo, N.Y., arrived in town one day last week to spend the summer with Mr and Mrs John Schreck of Keystone ranch. It is understood that Mr George Schreck, a brother of John Schreck and his mother are to come a little later in the season.

The packing houses for a few days this week were both quite busy preparing the cherry crop for the market. A great deal of care was shown by the operators in adding the finishing touches to the baskets. If any other district can produce any finer display of cherries, they will in the language of the street "have to go some."

Mr Geo. Wolstencroft is in receipt of a letter from his brother, Mr H. L. Wolstencroft of Glasgow, a wireless operator, in which the latter states that he made three voyages for the "Sardinia" (the boat by the way that last fall took the Red Cross apples) out from Glasgow to Portland, calling at Halifax, before the vessel was torpedoed. It was the operators' practice to remain on duty for 72 hours out from Glasgow.

The service at the Sabbath School on Sunday last was featured by a farewell address and presentation by Mr Jas. Young on behalf of both church and school to Superintendent J. H. Pushman upon the occasion of his leaving for Ottawa. Mr Pushman was certainly surprised at this evidence of appreciation, and while thanking the folks for their kindness, disclaimed having done more than his duty, as every good citizen should do.

Mr Jas. Miller of Calgary, the owner of a choice ten acre orchard at Naramata, after a week's holiday here, returned to his own home town. Mr Miller's visits are usually a year apart, but even so, he is thus enabled to keep in pretty close touch with conditions at Naramata. This place looks good to him, and he only wishes that conditions were such as would enable him to live here permanently, and enjoy the free and open-air life of the Okanagan.

SINCE VODKA HAS STOPPED IN RUSSIA.

After fourteen months without vodka, Russia reported rather remarkable conditions, as follows:

Crime (all kinds) has decreased 62 per cent.

Absenteeism in factories has fallen 60 per cent.

Suicide rate has dropped enormously.

Hospitals formerly overcrowded are not filled.

Efficiency in factories increased 10 to 15 per cent.

Practically every inhabitant is at work.

Savings deposits have increased 8 per cent.

Fire damage has fallen off 88 per cent.

Wages in some districts raised 500 per cent.

This applies to peasants working as day laborers.

People are eating better and costlier food.

Better clothing is worn by the poorer classes.

Agricultural implement sales 60 per cent larger.

Imprisonment decreased 75 per cent.—Ottawa Journal.

THE POWER OF A \$10 BILL.

Consider the power of a ten dollar bill when it is spent at home. It is like magic. If circulates. It pays off a thousand obligations. It creates business and puts people to work in our community. But the ten dollar bill that is sent away to the out-of-town house does nothing to our town. It becomes dead to us. It is out of commission for ever as far as our town is concerned. We never see it again. Let us then give power to the money we spend. Let us remember that our best investment is that power-money that we spend at home.

THE GREAT APOSTLE OF PERSONAL LIBERTY.

A great deal is said about personal liberty in connection with this matter of the prohibition of the liquor traffic, though the old cry that every man has a perfect right to do as he likes is not as popular as it once was, for we have before us a perfect example of a man who is exercising personal liberty to the full; we have one man who is a living exponent of the right to do exactly as he likes, no matter who is hurt by it. The perfect example of a man who believes in personal liberty for himself is a man by the name of William Hohenzollern.

MEN WILL MAKE LAWS, FOR ONE ANOTHER.

If there were only one man on the earth, he might have personal liberty to do just as he liked, but the advent of the second man would end it. Life is full of prohibitions to which we must submit for the good of others. Our streets are full of prohibitory signs, every one of which infringes on our so-called personal liberty: "Keep off the grass," "Go slow," "No smoking," "Do not feed the animals," "Post no bills," "Kindly refrain from conversation." Vote for the bill.

If you want to have someone working for you, put some money in the bank.

To give the residents of Summerland and Naramata a Trip on the Lake to PENTICTON and Return:

Excursion Tickets

Costing 40 cents each (practically half-price) will be issued to Parties of 4 or more.

Do You Make BUTTER?

If you do, you must use Wrappers, with certain legal requirements printed thereon.

We have just received a large shipment of Pure Vegetable Parchment FOR Butter Wrappers

Your Order for whatever quantity you require will be appreciated. Quality and Prices right. We find business in this line increasing, but we can do more.

DO IT NOW.

Review Job Printing Dept. Summerland

Young Man, Do you know that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men, have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 300

International Correspondence Schools, Box 826-O, Scranton, Pa.

Please explain, without further obligation to me, how I can qualify for the position, trade or profession before which I have marked X

HOTEL HOPE.

Rough and stony hillside,
Snow and slush and mire,
Rivers rushing flood full,
Miles of forest fire,
Block the upland roadways
Leading to the slope,
Where in peace and beauty
Stands the Hotel Hope.

Hard on tender muscles
Are these weary ways
There's no easy pathway
Through the weary maze.
Look behind you often,
Pass along the rope;
See! it's fastened strongly
To the Hotel Hope.

What is there about it
Drawing people so?
Hundreds travel with you
Whichever road you go.
Look beyond the clouds, friend,
Step out strong, don't grope,
Living's always good, man,
At the Hotel Hope.

Summerland,
July 1916.

Mr Wharton wishes to inform the down-town public that cabbage and cucumbers can be procured at Elliott's store.

Mr E. H. Lock came up from Kaledon on Tuesday morning and spent a few days with Mrs Lock who is visiting here.

The Ladies' Hospital Auxiliary will meet next Tuesday afternoon, July 18th, at three o'clock at the home of Mrs J. E. Phinney.

B.C. soldiers in England are to be given a vote in the coming Provincial Election. Those at the front will not be within reach of the ballot box.

O. P. Elvigion, who made many friends here during the days of railway construction, when he was with Carlson & Co., is now living in Vancouver, having recently removed from Idaho.

The ss "Sicamous" made a special trip up the lake on Sunday evening carrying the officers and men of the 225th Kootenay Battalion which had come over the K.V.R. to go into camp at Vernon.

The regular monthly meeting of the Summerland Women's Institute will be held next Friday afternoon in the Men's Club at three o'clock. Chief items of the program will be a demonstration in "Jam Making," and a paper will be read on "House Flies and Public Health."

Jars may be had at the Hospital by any ladies who desire to do any preserving at this time or later. This makes a very acceptable way of helping the Hospital, and donations in this way are always very much appreciated. It is hoped that there will be a good demand for the jars. To fill an extra two or three at the same time the preserving is done would not entail very much extra work, and at the same time very acceptable help is being given to the Hospital.

Miss Winona Steuart was the guest of Mr and Mrs Marshall at Hotel Summerland for the weekend, and on Sunday the party spent a most delightful day on and invitation of Mr Clud James, who drove them in his McLaughlin-Buick car to Oroville, calling en route to admire the beauties of the Okanagan Falls. A stop was made at mid-day for al fresco dinner, and on the return for supper on the shores of Vassaux Lake. Splendid weather added to the complete enjoyment of this charming country, and several snap shots were taken. Miss Steuart returned home on Monday evening, much benefitted by the change.

Traffic Manager.

Muir Steuart went out on Tuesday morning's boat on a short business trip to the Prairies.

The annual conference of the Women's Institutes of the Okanagan District will be held this year in Penticton on September 6 and 7.

A carload of young cattle, purchased from F. Munro, Meadow Valley, by French Bros., Vernon, was shipped from here on Wednesday evening.

That the Greta ranch which ships its output through the Peachland Fruit Growers' Union, will this year ship 15 or 16 carloads of fruit is the statement of Inspector Tait.

Among those named in recent casualty lists who have died of wounds is Sgt. Roy Stevens, formerly of Summerland, and son of C. S. Stevens. Roy enlisted at Edmonton.

Private H. Sculthorpe, a Summerland member of the 172nd Battalion, came down from Vernon Camp at the end of last week, and is spending a ten day's leave with his family here.

"Sowing and Reaping" will be Rev. N. McNaughton's subject in St Andrew's Church on Sunday morning. At the Lakeside Church in the evening his subject will be "The Door to Life."

Jack Firstbrook of Toronto, brother of Mrs Will Robinson, and known to many here and in Naramata, and who has been serving in an aviation corps, was recently reported as one of nine missing.

On Sunday next the C.P.R. will begin its usual summer seven-day-a-week lake and rail service. The ss "Sicamous" and the train between the Landing and main line will be run on the same schedule as on other days.

Mr F. W. Rolt, the new representative of Naramata on the directorate of the Summerland Fruit Union, succeeding Mr J. H. Pushman, took his place with the other directors when they met in their usual monthly meeting on Tuesday.

Mr G. A. McWilliams who has been home for a few days, went up to Vernon this morning where he will make his headquarters for a time at least. Mr McWilliams has taken the district agency for the manufacturers of the Singer sewing machine.

Mr W. H. Stevens, district superintendent of the government telegraph and telephone system, was in town for a short time on Monday, coming down the Valley with Mrs Stevens in his Studebaker. W. H. Layton, district foreman, met them at Kelowna, and came down with them.

A number of girls, about twelve or fifteen in all, enjoyed a camp holiday last week at Trout Creek point. With them were Mrs J. W. Angwin and Miss Evelyn Brown as chaperones. That they enjoyed the experience goes without saying, in spite of the storms of last week-end, with thunder and lightning, to say nothing of rain out of the ordinary, which one might think would have marred their pleasure. But then you can't make campers down-hearted. The girls broke up camp on Monday.

Mr and Mrs J. L. Logie returned last Saturday from a short visit to Kamloops.

Black currants are now ripening. 12 lbs. for \$1.00. Phone your order to J. H. Bowering, phone 674. 413,4

Pte. W. J. Beattie came down from camp at Vernon on Thursday evening returning the next morning. He, with a number of others, expects to start for overseas at once.

Mr and Mrs Jas. Ritchie and family returned from Vancouver on Wednesday's train. Mrs Ritchie and the children will remain here. Mr Ritchie returned to Vancouver this morning to attend to matters in connection with his lumber holding on the Coast.

Rev. A. Henderson will conduct a special patriotic service in the Methodist Church on Sunday morning next at 10.30. It will serve as a memorial to the Summerland heroes who have fallen in battle recently, and patriotic hymns will be sung.

The Canadian Press Censor has given out the information that the 11th Canadian Overseas Battalion, popularly known as the 11th Canadian Mounted Rifles, has arrived safely in England, with several other regiments that crossed the Atlantic at the same time.

W. H. Milligan of the 102nd Regiment, Canadian Militia, came down from Sicamous internment camp last Saturday evening on a week's leave. There are about two hundred alien enemies interned in the camp, it is understood, mostly Austrians. They are being put to work building and repairing roads in that vicinity.

Mr L. V. Rogers, the Liberal candidate for South Okanagan came off the boat on Wednesday evening having spent the day at Peachland. He attended a meeting of the Liberal executive here on Thursday night, and to-day he is at Naramata. That the real fight for the seat in the Provincial Legislative Assembly is now on is evidenced by Mr Rogers' announcement elsewhere in this issue.

A very material evidence of the keeping qualities of Okanagan apples, or more specifically those grown on N. S. Davidson's Trepanier ranch at Peachland was produced when a fine specimen of Northern Spy, grown by Mr Davidson, was presented to the Review this week. It is not generally expected of this variety that it will keep much longer than February at best, but this specimen was not only firm and juicy, but the flavor was also excellent.

Fully forty ladies, members of the local Women's Institutes, journeyed to Penticton on Tuesday where together with about thirty each from Peachland and Naramata they were well entertained by the Penticton Institute on the beach between the C.P.R. wharf and the bridge. The "Skookum" took most of the picnicers from Summerland and the "Trepannier" carried the Peachland guests. A third boat was engaged by the Boat Company to convey the Naramata visitors. A good time was enjoyed by all and the next event of like nature will be looked forward to with pleasant anticipation.

Newsy Paragraphs

PEACHLAND

Mr Jno. Tait of Summerland, district fruit pests inspector, spent Wednesday in this vicinity.

Miss Mary White returned on Saturday's boat from Vernon where she has been for several months.

Mr. and Mrs Logan are here for a few days from Kelowna. They plan on going to Edmonton immediately.

Pte. Robinson, now training at Vernon, spent last week-end here with his uncle and aunt, Mr and Mrs J. B. Robinson and his sister, Miss Rilla, who is here from the Coast.

Osborne Needham and his friend, J. Hussey, both on haying leave from the Vernon camp, went to Woods Lake on Monday to spend the balance of their month's leave in the hay fields.

Miss Annie Bell, sister of Mrs J. L. Vicary, arrived here on Saturday from New Zealand. Miss Bell will spend a few days with her sister before continuing on her journey to England.

WEDDING.

LYSTER—HARWOOD.

On Tuesday evening last, July 11th, at the home of her parents, Mr and Mrs T. R. Harwood, Miss Ressie Harwood became the bride of Mr Allan Lyster, of Stettler, Alberta. The ceremony was performed by Rev N. McNaughton, and took place at 7.30.

The bride, who was unattended, wore a dress of snowflake voile. She was given in marriage by her father. She carried a shower bouquet of white roses, carnations and gypsophila, and set against a background of asparagus and pink roses, the bridal scene was one of unusual prettiness. Above was a unique and quite effective arrangement of tiny baskets filled with pink roses and gypsophila, suspended by ribbons from a circle of Oregon grape.

The bride and groom left that evening by automobile for Peachland, sped on their way by the good wishes of their friends. They spent the night at Peachland, and proceeded on the boat the following morning up the lake on their way to Stettler, where they will make their home.

Attention of interested readers is called to the special offer of the Okanagan Lake Boat Co. in their regular advertising space.

It is understood that Mr D. E. Hatt who removed to Vancouver some months ago with his family, will shortly return with his brother. Whether this means that he has decided to settle here again is not known, but he is likely to arrive about the end of the month to remain for some weeks at least.

If you want to sell you must advertise.

Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C. Tuesday.

The Editor, Summerland Review. Dear Sir,

I see two suggestions in your last week's issue regarding the preserving of fruit without sugar. The recipe is no doubt excellent, but equal parts of berries and sugar on the other hand is not a necessity to prevent fermentation, presuming a fair amount of care has been taken in sealing. Enough sugar to make palatable is sufficient. My experience of the other method has proved to me conclusively that by the unsweetened way much more sugar is used in the long run. In pies for instance the wife buries it in sugar before the top crust is on, and then at the table it gets another deluge. Summerland is no exception to most B.C. towns in respect to a needless consumption of imported and eastern preserves.

Just estimate the cost of a sealer of our own fruit with a reasonable amount of sugar and you will see that even with the higher price of sugar it is economy. There is little profit on sugar, but a large one on jams to the retailer, and if we do not put up a sweet conserve of some kind, next winter will see us patronize C. & B. or Wagstaffe to appease that sweet tooth most of us possess.

Now that I hope for permission for this space in your worthy paper I would crave an additional few lines on another subject.

Do you not think, Mr Editor, that in a small community like Summerland a telegram suspected of grave import could be more judiciously delivered than was a message of death last week, and unfortunately there may be many such.

German mothers have been schooled to sacrifice their boys for "Der Tag." Don't let us drift that way.

Yours truly, "LAKESIDE."

Recounts Trying Experience Under Continuous Shell Fire.

Vivid Realism In Letter From Front Written by Member of Famous "Princess Pats."

Private Percy D. S. Broad, one of the four sons of Prof. and Mrs. W. T. Broad, serving with the Canadian forces, sent a letter to his parents recently from which extracts are printed below. The letter has reference to the third battle of Ypres early in June. The daily papers frequently make mention of terrific shell fire, and just what it means to the men in the trenches this letter helps to tell.

Probably you will have heard before this that the battalion was badly cut up in the first few days of the third battle of Ypres. We were in the front line at the time the attack started, and had to stay for three days longer until relief was possible. No. 1 and No. 2 companies were in the front line at the time and the other two in supports. No. 1 had by far the heaviest losses. You may gather some idea of the severity of the bombardment from a clipping from The Times, which I enclose.

We were enfiladed from both ends by the enemy artillery, and the last night they started to shell us from behind as well. We thought at first it was our own artillery falling short, and frantic messages were sent back for our own guns to cease fire. Then we learned that a heavy gun was bombarding us from away over on the other side of the salient. For the first 36 hours we had to hold the line alone, and during that time we had

NO FOOD OR WATER.

Then the reserves began to dribble through, and we were able to get a few hard biscuits and a mouthful of water. It is a miracle that any of us got out alive. Practically all my friends were killed. I had enough narrow escapes myself to

turn a man's hair grey. Twice I was buried by the parapet being blown in on top of me. I was hit dozens of times on the head by big lumps of rock which would have laid me out but for my steel helmet. I got some bad cuts on the arm from flying fragments, but apart from that didn't get hit at all.

At one time a corporal and myself were firing over the parapet together during an attack. My rifle was only a few inches from his. A shell fell right in front of us and blew off the front part of his rifle but did not touch either of us.

As for bullets, I picked out half a dozen from the sandbags where they had struck only a few inches away. It surely was some initiation, for it was my first time in the trenches. I cannot tell you any details, but will have to leave the story till I get back.

Those of the old Pats who are left with us, say that May 8 was nothing like as bad as this, and they say that the regiment fought even better this time than they did then. All I can say is that those who fell

DIED LIKE HEROES

and it would be an honor to die in their company. It was magnificent to see the way those young fellows, most of them scarcely out of their teens, behaved in the face of that terrific bombardment. There were few bullet wounds. The grim work was done by their artillery, placed anywhere from two miles behind their lines. It was a case of crouching down behind the parapet and trusting to luck that you were the one missed. No man who lay there and saw his friends, as Churchill said, "blown into parcels of bloody rags," could ever be the same. The worst half of the story will never be told. Sleep was absolutely impossible. At night we just sat

NO SUGAR

We have received the following Fruit Preserving Recipe from a reliable source, and reprint same for the benefit of those of our customers who may have decided to curtail the making of preserves this season on account of the high market price of sugar.

Our Motive

in publishing it, is to encourage bottling fruit, and suggesting that the money usually expended in sugar be used for what might be termed

Absolute Necessities.

Sugar will eventually have to be used in preparing the fruit for the table, but much less will be required to sweeten to taste. Authorities all agree that fruit put up without sugar retains its delicate and distinctive flavor.

To put up fruits without sugar, simply prepare them in the ordinary way; see that the jars are perfectly clean, thoroughly scalded with boiling water, filled to the top and left in them a considerable time; boil the rubbers and covers, and see that the rubbers are soft and free from grooves or cracks, place the fruit in the jars, fill with cold water, place them in a boiler filled with cold water, heat to the boiling point. Berries will do if removed when the boiling point is reached. Large fruits, such as peaches, pears, plums, cherries, and the like should get 20 to 30 minutes boiling.

A board should be placed in the bottom of the boiler to keep the jars from the direct heat of the stove. Fruit thus prepared will be found excellent for pies, delicious for eating with cream, and generally superior to the sugar-syrup preserves. In properly air-tight jars they will also keep quite as long.

We carry in stock "Perfect Seal" and "Economy" Jars.

there and shook with the cold. I lost everything except the clothes I had on in the front line. It was not long before everything was buried. Two fellows I know went crazy.

Perhaps the most pitiful story of all was when we got back to camp. Once out of the trenches we had a long march across country under heavy fire most of the way. The last part we did in busses, and when we got out we had about half a mile more to go. By that time some of the men were so exhausted that they had to be carried. Then when we reached camp everybody was so kind to us. They could not do enough for us. With that and the sudden lifting of the strain, and the awful quietness,

OUR NERVES GAVE WAY

completely. Fellows threw themselves down and broke down utterly. I lay down and cried like a little child. There were five of us in the one hut, and each of us had lost his bed-fellow. It was a week before we could sleep without the most awful nightmares.

At present we are billeted at a farm some distance behind the lines, but still within sound of our own guns. We have been heavily reinforced, and are getting into shape again. Still things will never be the same. We miss too many of the old familiar faces.

We get a good deal of drill, but there is nothing to do in our spare time but loaf around the barn. Reading matter is very scarce, and all we have is newspaper magazines from home. I have no inclination for reading or writing letters or doing anything else. All I want to do is to forget. . . . My only form of amusement is to take a rubber sheet and find a lonely spot in the fields, lie down and "commune with myself in holy silence." There is not much fun in that.

This morning I went to sleep and dreamt I was home again (the first time since I came away). I was telling all about June 2nd. Then I woke up. . . . I am sorry you should be worried about my safety. It is really not necessary, for I do not see what there is to be worried about. Out here we congratulate a man who gets wounded because he gets out of this inferno and has a clean bed and clean clothes for a while at least. Up in the trenches it was not death I was afraid of, it was the probability of being mutilated. But I think the

worst of it all was to sit there unharmed and see one's friends cut up. Just before I came out I was put in a bay where all the occupants had been killed about ten minutes previously by a shell. There were three of them—one of them one of my best friends, a boy who came down from Calgary at the same time as myself, called Milne, and I could see his body sticking out from under the debris. The trench was blown in on top of them, and all three were killed instantly. Just before I got there another man was killed by a piece of shrapnel, and another by a German sniper. One time I went back for water. It was kept in a little dug-out up a communication trench. The whole trench had been blown in and the occupants, about fifteen in all

WERE LYING DEAD

at the bottom of the trench. I had to go along on all fours because the trench was covered by a German sniper. Well, I think that was worse than being hit yourself. It was impossible to get the dead or wounded out. They just had to lie until we came out. The trench was just littered with them.

The first few days after we came out, very few of us could sleep on account of our nerves. Then I had the misfortune to get a bad dose of lice, and lay in agony for a couple of nights. Then I investigated and found my shirt just swarming. The first day I must have picked out 150, the next about 50, and now I have them fairly well under control. The best you can do is to keep them down—you can never get rid of them. My body is

JUST A MASS OF SORES,

and even yet I cannot sleep at nights. I get most of my sleep at odd moments in the daytime. Perhaps it is rather inconsiderate of me to give these details, but I assure you it is a good deal worse to hear than to read about. The numbers are not exaggerated.

Time was when some merchants vied with each other in extravagance of statement in their ads. The wise merchants of to-day vie with each other in the ACCURACY of their statements about goods and values. Nowadays deliberate misrepresentation in advertising would surely and quickly kill any store indulging in it.

3,000 Cars From Valley Last Year

This Year's Total Will Also Reach That Figure

Reports from sections of the province which have reached Mr. W. E. Scott, Deputy Minister of Agriculture, concerning the agricultural prospects for this year indicate that the output will hardly be as favorable as last year, though, generally speaking, the situation is comparatively satisfactory. On the other hand, the fruit crop will be a good one all round. In the Okanagan section Mr. Scott expects that this year's yield will be equal to last year's, when, from January 2 to December 25, a total of 2,736 cars of fruit and vegetables were shipped from the Okanagan Valley. Of these shipments, 1,600 cars were fruit, 726 vegetables, 341 mixed fruits and vegetables, and 69 of canned products. In addition 200 cars were shipped in less than carlots and by express. It is estimated that the output of the Okanagan section was valued at \$1,600,000. There is every indication that this year's yield will exceed last year's.

Two Sunday Schools Hold Picnics

Though the day was not hot by any means, the Presbyterian Sunday School picniced last Saturday under weather conditions that were very comfortable. The grounds selected were at Trout Creek point, just at the creek mouth. The attendance was not as large as previous years, many of the elder members not being able to leave their work for the day. All told there were about fifty or sixty when the picnic tea was partaken of. Most of the children started out from the church during the morning in two or three rigs, and others joined them at the grounds. The point was reached in time to enjoy a lunch about noon time, and the afternoon passed very quickly for the youngsters in sports of all kinds in the glade just back from the shore, and bathing, boating, and wading from the beach. A second meal was enjoyed in the open before the return home, and the rain, which had at times threatened, conveniently held off till the journey homeward was well begun.

On Tuesday last, the Baptist Sunday Schools sought out a new picnic spot, proceeding up the lake in the "Skookum" as far as Alex. Miller's ranch, formerly known as Cosnar's. Between those who went up by boat and those driving, over a hundred people got to the picnic. After a doubtful morning the afternoon proved ideal for picnic purposes, and the hour's trip up the lake was a treat enjoyed by small and large. Mr. Miller placed his house at the disposal of the visitors, a privilege which was of much assistance, and which met with great appreciation. There was the usual picnic program of races and sports, while bathing also was popular. The warm weather drew good business to the tea cream and soft drink stand, but nevertheless appetites were still keen when a bountiful tea was served under the trees. The return was made during the evening.

The Methodist School is understood to be holding its annual excursion on Thursday afternoon next to Trout Creek point.

Mayor Stewart of Victoria has joined the Bowser government as Minister of Finance.

Result Of High School Exams.

Peachland and Summerland Both Make Envious Records.

The results of the June examinations held in the High Schools of the province are announced by the Department of Education.

Peachland has the honor, among nine schools, to have passed 100 per cent, 4 out of 4. These were:

Advanced Course, Junior Grade—Alice L. Morrison, 643; William L. Seaton, 630; Archibald F. Seaton, 602; Herbert K. Keating, 556.

All of the 11 Summerland candidates made the required average, but one, failing in one subject, French, was not given her standing.

Following are the results:

Advanced Course, Junior Grade—Susie Wallace, 654; Bertha M. Bristow, 650; Dwight C. Ritchie, 635; Roy C. Elsey, 619; Donald M. McIntyre, 619; Margaret Harrison, 588; Ernest J. Lister, 561; G. Edward M. Logie, 560.

Full Course, Junior Grade—Carlyle E. Clay, 615.

Senior Grade—Marion H. Harwood, 671.

Ida Brown made an average of 516, but falling short in French, a new subject for her, was not passed. Howell Harris, recently enlisted, has been given his standing in the senior grade.

Seven other High School students took the B.C. University matriculation examinations, the results of which have not yet been announced.

Leaders of their classes in the various subjects with the marks made were:

Reading, Edward Logie and Donald McIntyre tied, 76; English Grammar, Bertha Bristow, 64; Composition, Edward Logie, 60; English Literature, Edward Logie, 66; Algebra, Bertha Bristow and Dwight Ritchie tied, 96; Susie Wallace led in Geometry, 95; Physics and Chemistry, 66, Botany, 69, and Latin, 79. In French, Dwight Ritchie, 61. Roy Elsey is credited with leading the school in the test examinations held during the year.

All of the pupils in the Preliminary Grade were successful in passing into the second year. Their names, as furnished by Principal R. B. Forsyth, are: Jean Ritchie, Olive Bristow, Fraser Lister, Margery Hatfield, Kathleen Brown, Gertrude Rines, Alice Brown, Irene Carefoot, Dorothy Tingley, Grace Bowring, Gertrude Elsey, Eliza Ritchie, Jean Babbitt, Pearl Darkis.

Results in the lower Okanagan are summarized as under:

	No. Candidates	No. Passed
Kelowna	20	17
Peachland	4	4
Summerland	11	10
Penticton	10	5

Hon. Martin Burrell Coming West

Hon. Martin Burrell, Dominion Minister of Agriculture, and member for Yale-Cariboo, is leaving Ottawa this month, and will come west to Grand Forks, B.C., for a while. Mrs. Burrell is to accompany him. They will also visit most of the principal towns of British Columbia on their western trip.

Mr. Burrell has made wonderful recovery from the serious burns he received at the time of the fire in the parliament buildings, but has been working very hard since his return to his post of duty as Minister of Agriculture, and is in need of a rest and change.

Premier Bowser & Cabinet Ministers In South Okanagan

Peachland, Summerland and Naramata Honored on Monday by Visit from Prominent Politicians

Premier Will Return In Few Weeks On Political Campaign

Hon. W. J. Bowser, Premier; Hon. Ernest Miller, Grand Forks, Pres. of the Council; Hon. Wm. Manson, Prince Rupert, Minister of Agriculture; Hon. Lorne Campbell, Rossland, Minister of Mines; and Mr. H. B. Thomson, retiring member for Victoria, together with Mr. D. N. McIntyre, one of the members of the Dominion Fishery Commission, and acting secretary to the Premier, and several newspaper men, who are making a tour of the province, visited this district on Monday. They were accompanied by Mayor J. W. Jones of Kelowna, government candidate for South Okanagan.

Leaving Kelowna early on Monday morning by launch a stay of about an hour was made at Peachland, where they were met at the wharf by forty or fifty citizens. The Premier made a very short, informal address in response to a request. Continuing the journey south the party departed amid hearty cheers.

Summerland was reached in time for lunch, and here again a number of citizens gathered to welcome the visitors. They were escorted to Hotel Summerland where lunch was served, after which a number of waiting autos took them over the benches. Later they were escorted to the wharf where a special ferry awaited them. Mr. J. M. Robinson, who had met the party here, accompanied them to Naramata. Our Naramata representative tells of how they were entertained there. Although not out on a speech-making tour the Premier was persuaded to say a few words after lunch in which he thanked the friends for the friendly spirit extended. They were touring the Valley in a leisurely way, getting acquainted, and learning, first-hand, of local conditions and needs. Later, when a candidate for North Okanagan had been selected, he proposed returning. This would also suit Mr. Jones and Mr. Shatford better.

He touched upon the political history of the last few months.

The financial situation, the ill-health of the speaker at the time of the by-elections, his following a native son as premier with a good many doubting Thomases who were not over-confident of his ability to lead, had made his position not a bed of roses, by any means, but he had buckled to it, and at the closing days of the session there was not a single rift in the ranks. Every promised piece of legislation had been carried through. Notwithstanding the serious charges of corruption, he had had every confidence in his colleagues, and had encouraged full and investigation. Though for a good part of the time from 1905-1916, when

the Public Works Department had expended some thirteen million dollars, the government had had little opposition, the investigators could not put their fingers on a single dollar that had gone astray. This he considered a credit to the name of B.C., and especially to the civil men under the ministers, who really do the spending.

Since the by-elections conditions have greatly changed. A few months ago things seemed against him, but now the pendulum was swinging back. The people were thinking out the problems, and are getting B.C. back on the track. He had found during his tour that the people were all very serious. They are not so much interested in politics as in business. With the cabinet by which he has surrounded himself, Hon. Mr. Bowser thinks he will be better able to conduct the business of the country than it would be possible for Mr. Brewster to do. In forming the cabinet he felt that the time to work the basic interests of the province had arrived. A government was just what the people made it. In the past boom days, when real estate was uppermost, legislation was to suit the demands. Now the development of the basic interests of Agriculture, Timber, Mines, and Fishing, were to receive more attention. Agriculture was the most important, and he had concluded that no one man could properly administer both Finance and Agriculture. Either required the undivided attention of the Minister. He had accordingly asked the House to make Agriculture a separate portfolio, and had called on Mr. Manson to be Minister of Agriculture.

The government had given power to borrow \$15,000,000 for agricultural aid, but as money could not now be borrowed to advantage, only one million had been obtained. While he was in the East arranging for this money Mr. Brewster was crying blue ruin, but B.C. had borrowed at a cheaper rate than the Anglo-French loan. Costing the province 5.63 the farmers would get it at 6.5. The money was now only earning 3 per cent in the bank, and would be put out as quickly as possible. There will be no politics in granting loans. Liberals will be as good as Conservatives.

After dealing for a moment or two with some of the criticisms of his opponents, the Premier said, his object in this tour was not only to get acquainted with the country and the people, but he wanted the people to know him and to learn for themselves that he was not the autocrat that his enemies pictured him. The liking him to the Kaiser or he particularly resented.

Flower Show Date Deferred

The Women's Institute Annual Flower Show, which was fixed for the first week in August, will not be held until the third week of that month. This decision is due to the lateness of the season.

The Summerland Women's Institute July meeting will be held next Friday, the 28th, instead of today. The ladies are busy to-day entertaining the delegates to B.C. Fruit Growers' Assoc. Convention.

Brighter Prospects For Fruit Industry

Dominion Fruit Commissioner Gives This As His Opinion.

Mr. Donald Johnston, Dominion Fruit Commissioner, is in the Okanagan this week attending the B.C. Fruit Growers' Association Convention at Penticton. He has been through the Washington fruit centres looking into the methods employed in putting their apples on to the market, and when he speaks at Penticton he will probably have much of interest to give out to the visiting growers.

Mr. Johnston reports in most districts a prospect of a light crop of apples throughout Canada, although it is too early to say specifically what will be the Nova Scotia crop. It will certainly be light in Ontario. "For that reason there will be a large demand for British Columbia fruit on the prairies next winter, quite apart from the British market," he explained.

"The demand for British Columbia fruit is increasing, and the publicity given to it by the provincial department here has aided the popularity of apples as a form of diet in sections of the Dominion where formerly apples were not used to any considerable extent. On the whole I think the future of the horticultural industry in British Columbia is much brighter than was the case some time ago. From the attention given to co-operative marketing I consider the condition of the industry has gained much."

Better Lighting Of Our Streets

Board of Trade Discuss This And Other Timely Topics

Some more street lights and a few of those now in use replaced by some of greater candle power are needed, according to the Board of Trade. The subject was discussed a month ago, but was left over for more information. As the result of a committee report presented at the monthly meeting on Tuesday night the Municipal Council will be asked to put a light at the Supply Co.'s upper store, move the light near Ritchie's lumber yard to the corner at Stewart's packing house, put a light midway between T. B. Young's residence and Elliott's store, another at the junction by the power dam, put a stronger light at foot of the Gulch road near the old hospital, another at Estabrook's corner, Peach Orchard, and one at the turn at the Gainer cottage. A light is also desired for Gartrell's corner, Peach Orchard, and the Council will be asked to extend the line to the point north of the C.P.R. wharf.

Two new names were added to the list of active members. A request from the Penticton Board of Trade asking support to their demands that the Post Office Department operate postal cars on the K.V.R. trains instead of having the mail carried by express as is proposed was laid over for further information as to the comparative cost. It was stated that by the proposed method the cost would be about \$7,000, while if mail cars were used the cost would be over \$20,000 a year.

Considerable time was spent in planning details for the entertainment of the B.C. Fruit Growers' Association visitors this (Friday) afternoon. They will visit Naramata first and come across to Summerland at three o'clock. At the wharf twenty cars will meet the

B.C. Will Have Record Fruit Crop

United Growers Predict More Shipments To Ontario

Prospects for a large crop of the staple fruits in British Columbia are excellent, according to R. Robertson of Vancouver, who is now in Edmonton in the interests of the Okanagan United Growers Limited. He was the predecessor of Mr. T. F. Jackson in the management of the concern.

Production of British Columbia fruit this year, according to Mr. Robertson, will be the greatest in the history of the province, due to the fact that the orchards are now practically all bearing fruit, and he predicts that in a very short time the whole of the demand for fruit of the three western provinces will be supplied from British Columbia, making importations from the United States unnecessary. As a matter of fact he expects that fruit in quantities would actually be shipped from British Columbia to Ontario. Last year fifty car loads of apricots were shipped from the coast province to Hamilton to be used in canning.

Express Fruit Shipments Getting Heavy

Last Sunday saw the commencement of the daily northbound boat trip, which is put on every summer when fruit shipments begin to show volume.

Summerland has for years enjoyed the distinction of being the heaviest express shipping point in the Valley, and only one or two places in other parts of the province exceed the volume of local shipments. Last Sunday morning close upon five hundred cases went on the boat, which means about half a ton in bulk. Cherries, of course, are the main shippers, but small fruits also help to swell the total.

Valley Contributions

The provincial branch of the Canadian Patriotic Fund received during the month of June contributions amounting to \$68,857.15. Total disbursements for the month previous were \$109,982.62, points outside of Vancouver and Victoria receiving \$80,276.88, while the two Coast cities absorbed the balance. The total number of dependent families in May was 5,187, with 8,435 children, making a total of 13,622 persons.

Valley points contributed in June as under:

Armstrong	\$250.00
Kelowna	830.53
Penticton	288.13
Summerland	194.00
Vernon	727.71

Further orders for \$35,000,000 worth of heavy shells for delivery early in 1917 are being placed in Canada.

visitors and convey them over the district calling at Mr. Hillborn's going to the mouth of Garnett Valley, thence through Prairie Valley, east of Giant's Head, and down to Trout Creek. A stop will be made at the Experimental Farm, where afternoon tea will be served by the Women's Institutes. From the Farm they will be conveyed back to Penticton in time for the closing session.

Anywhore from 60 to 100 men will be in the party.

FRIDAY, JULY 21, 1916.

DURING HIS VISIT to the Valley Premier Bowser spoke reassuringly of the coming of the Canadian Northern into the Valley. He said that New York financiers have expressed a willingness to see the railway undertakings of the Canadian Northern through in this province, and that the company will very shortly proceed with the construction work on the line from Kamloops to Kelowna. The Premier and his party also inspected the water power rights which the C.N.R. have obtained at Shuswap Falls, with the ultimate view of developing electric power. It has been given out that next summer there will be a daily train service from the Okanagan to the Coast over the C.N.R. tracks, from Kelowna, through Vernon to Kamloops. Southern lake towns should see that some definite assurance is forthcoming in regard to a car barge service for these points. It is likely that the company will do this ultimately in its own interests, but it might come a little sooner if some pressure were applied, and the company were shown that towns in this district are anxious for it.

§ § § § §

BEFORE A MEETING of the Board of Railway Commissioners held in Winnipeg a few days ago representations were made by the Canadian Pacific Railway in regard to ice and salt furnished for refrigerator cars throughout Canada. Mr W. B. Lanigan, in addressing the board at considerable length, pointed out that the service of icing in transit was not a service that was always for the benefit of the owners of perishable goods. He maintained that as far as the railways were concerned, their duty, according to the railway act, stopped at the point where they were required to provide suitable vehicles of transportation. Dealing with the cost of icing, Mr Lanigan argued that the owners of perishable goods ought to bear the cost of icing refrigerator cars, as this was outside the expense of regular transportation. The C.N.R. was also interested in the case. The Board has not yet given out its decision.

CANADA'S CHEESE PRODUCTION this year will likely reach record figures, so far as value is concerned, if not in quantity. The season for dairying has been excellent in all parts of Canada, and prices are high. The export of cheese to Great Britain is now very heavy, and little difficulty is being experienced in securing ocean tonnage. Arrangements have been made with the Admiralty for cold storage space in a number of transports. Sailings from Montreal average about one steamer per day. The total export of cheese for the year will probably run close to 200,000,000 pounds. The Dairy Commissioner reports that Western Canada is now supplying practically all its own dairy needs, with a surplus over for British Columbia, which province has hitherto been importing butter from New Zealand.

§ § § § §

MANITOBA has not been long in getting after that "weak spot" in its recent temperance legislation that the liquor interests are so fond of harping on. The liquor license department has notified the liquor commission houses, as far as they could be located, to get out of business. Many of them have complied with the order, but some are stubbornly holding out. They will be proceeded against if persistent in carrying on their business in face of the order of the government.

§ § § § §

THE NATION'S BUSINESS.

From Financial Post.

THE ABNORMAL RAINS in many parts of Canada have interfered with farmwork that it is now too late to plant many of the usual crops. Much of the land will go idle, or, if planted with the usual crops, will give poor results. This means farmers will have less money to spend with their local merchants for supplies of all kinds; manufacturers will have fewer orders, banks will have smaller deposits, there will be less money and higher rates for investments in municipal bonds and other securities.

But live Ministers of Agriculture at Ottawa could have retrieved much of the situation. For the lessened farm revenues this year they will be directly to blame.

At our agricultural colleges and experimental farms we have a lot of splendid public servants. No men in Canada give better results for the money we pay them. As a result of experiments, they know exactly what it is most profitable to plant at this late date, and what is not. For example, it is too late for wheat, barley or oats, but experiments show that peas, beans and other crops may be put in. The trouble is that very few farmers know this. The Ministers of Agriculture have not told them, or if they have, they have used fourteenth century bell ringing methods. That is, calling meetings which few attend or sending out bulletins which fewer read, because neither are timely. All the farmers can be reached by the methods pursued by modern merchants and manufacturers. They talk to the people they want to teach in the papers closely read by them. There are no worth-while, farmers anywhere in Canada who are not readers of their local town or village newspaper. To tell them, in the columns of these papers, what experiments of our best farmers showed, at times like this, would cost but little and lead to millions of dollars' worth of increased production. The farmers are yearning for this very information.

We are told to economize to meet the tremendous burdens which war is imposing upon us, but if we curtail our purchases, there will be that much less employment for the workers in our shops and factories. The business-like method is to increase production that we may have more money.

As Directors General of Agriculture some of our ministers are a joke. We spend millions finding what to do, then neglect to tell the people—for whom the work is done, who ought to know, who want to learn—anything about it.

This is a subject the press and business men should agitate. It means more money.

A million spent in intelligent talks in the small daily and country weekly press, telling the farmers the money making things to do—that the experts and successful farmers have discovered—and how to do them, would produce tens of millions for distribution among all classes in Canada.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Sulphur as a Fertilizer for Alfalfa

During the past four years the Southern Oregon Experiment Station has been conducting extensive fertilizer experiments on alfalfa in the Rogue River Valley. During the first two years it was found that the yield of alfalfa could be increased from 25 to 500 per cent—depending on the type of soil—by the application of 300 lbs. per acre of either superphosphate or gypsum. Other fertilizers were also tried. As superphosphate, which contains phosphorus, calcium and sulphur, and gypsum, which contains calcium and sulphur, increased the crop, it was concluded that the action of these fertilizers might be due to the sulphur contained in them, and experiments were started to determine this point.

A portion of the field was selected where alfalfa had been producing unsatisfactory yields for several years, and which had never received fertilizers of any kind. Two plots were fertilized with flowers of sulphur, one plot with iron sulphate, and one with superphosphate. Check plots receiving no fertilizer were left alongside the fertilized plots for comparison. The plots receiving the flowers of sulphur, iron sulphate and superphosphate at the rate of 300 lbs. per acre each, produced an increase of slightly more than 100 per cent over the unfertilized check plot. The stand on the former was much thicker, taller, freer from weeds and the plants were much darker in color than on the latter.

The results were so remarkable and unexpected that the work for 1915 was increased and extended, not only on alfalfa but also on red clover and vetch on many types of soil. The flowers of sulphur, superphosphate, iron sulphate and gypsum each again gave very marked increases in yield. In a number of cases the increase amounted to from 200 to 300 per cent, and in one instance where iron sulphate had been applied to adobe soil the increase amounted to 1000 per cent.

The alfalfa plant contains far more sulphur than was indicated by the earlier chemical analyses of its ashes. Recently it has been shown that an average crop of alfalfa of from 4 to 5 tons contains approximately 35 lbs. of sulphur and only 25 lbs. of phosphorus.

Control Of The Fruit Market

With fruit abundantly grown in Canada it is surely strange that immense quantities should be imported from the United States. Yet Bulletin No. 47, dealing with pre-cooling, recently issued by the Dairy and Cold Storage Branch of the Department of Agriculture, Ottawa, states that "during 1913, when tons of tender fruits rotted on the ground in Ontario for want of markets, and when calamity stared the fruit grower in the face, the Dominion of Canada imported from the United States 12,149,207 pounds of peaches, 6,197,700 pounds of plums, 6,026,692 pounds of grapes, and 11,354,228 pounds of pears, apricots, quinces, and nectarines." It is further stated that these importations are increasing, and that they largely go to the prairie provinces. This, of course, is due to the fact that in the eastern provinces especially, though to too great an extent in B.C. as well, sufficient attention and care are not paid to the fruit in gathering, storing, packing, and shipping. The object of the bulletin, which can be had free on application to the Publications Branch of the Department of Agriculture at Ottawa, is to overcome this state of things. Detailed advice as to pre-cooling and refrigerating all kinds of fruits, with results of experiments at the Grimsby pre-cooling station, is given, with the rates charged for pre-cooling and storing. A second bulletin, No. 48, issued by the Branch, and which, like the other, can be had free on application to the same source, supplies additional details of pre-cooling investigations, and contains a vast deal of practical information regarding packing, shipping, and marketing. Both fruit grower and shipper will profit by earnest study of each of these bulletins.

October Calves Mean Increased Milk Flow

Cows Should Milk At Least a Month Longer if Given a Chance

The time of freshening has a considerable influence on the yield of milk. The best season, so far as the total yield is concerned, is late autumn and early winter. The principal reason for this is that cows that calve at this season make a second "spring" in the month of May, when there is a plentiful supply of young, fresh grass, and go up in their yield instead of falling off, as is the case with spring calvers at a similar stage of their lactation period.

Thus a cow that freshens at the beginning of October will be in the eighth and ninth month of her lactation period in May or June. A good milker will then give as much as she did in the fourth and fifth months—i.e., in January and February. The corresponding period for a cow that calves on April 1st will be November and December, when she will probably be "dry," unless hand-feeding is provided on a liberal scale.

The extra yield of milk in the case of the autumn calvers is also due in a lesser degree to the longer milking period, and the better condition of the cows at the time of calving. Cows that freshen in October or November should milk at least one month longer than those that come in in March or April. Against the extra increase in milk has to be set the extra cost of feeding.

British Columbia Fruit Yield in 1915

The total fruit production of this province during 1915 has been summarized as under. Of the total of 2,388 cars, the Okanagan shipped out about 1,000, or a trifle under 70 per cent.

Description.	Tons.	Cars.	Value
Apples	18,444	1,597	\$881,542
Crabs	1,528	127	60,790

Pears	857	71	52,230
Plums and Prunes	2,384	238	116,023
Peaches	1,425	143	79,662
Apricots	675	68	36,881
Cherries	361	36	50,151
Strawberries	938	94	195,382
Raspberries	461	46	113,076
Blackberries	122	12	27,328
Bush Fruits	128	13	21,757
Loganberries	31	3	5,954
Total	27,349	2,388	\$1,640,716

Fall Fair Dates.

Some of the dates arranged by the Department of Agriculture for the Fall Fairs throughout the province for the season of 1916 are given below:

- Vancouver - August 14-19
- Enderby - In August, if held.
- Kelowna - September 26-27
- Armstrong - September 28-29
- Penticton - (No Fair)
- SUMMERLAND October 11-12

DECLINE SUBSTITUTES

Premier W. J. Bowser And Party Pay Naramata a Visit

Naramata was certainly honored on Monday afternoon when Premier W. J. Bowser, accompanied by a number of the cabinet ministers met at Summerland by Mr. Robinson, and after a drive round the town and district were brought by special ferry to Naramata. While here the entire party were entertained to afternoon tea on the verandah of the spacious Robinson residence. From here the route led to Penticton by auto, where the night was passed, before proceeding to Grand Forks.

The distinguished visitors were met at Summerland by Mr. Robinson, and after a drive round the town and district were brought by special ferry to Naramata. While here the entire party were entertained to afternoon tea on the verandah of the spacious Robinson residence. From here the route led to Penticton by auto, where the night was passed, before proceeding to Grand Forks. The members of the party were Premier W. J. Bowser, Mayor J. W. Jones, Kelowna, E. E. Miller, M.L.A., Grand Forks, H. B. Thomson, former member for Victoria, Hon. W. Manson, Minister of Agriculture, Hon. Lorne Campbell of Rossland, Minister of Mines, and Mr. D. N. McIntyre.

John Schreck a Director

At the meeting of the Farmers' Institute on Friday night Mr. John M. Schreck was selected as director in place of Mr. J. H. Pushman. As Mr. Schreck is a practical fruit farmer, and takes a lively interest in everything pertaining to successful farming, the choice will likely prove to be a wise one.

Current Events — OF — Town & District

Mr. Blue, of the Vancouver News-Advertiser, was in town for a short while on Monday.

Mr. F. J. Young has completed the erection of a large barn in which to store his hay.

Mr. Fred Young, after about six months service as book-keeper for the Naramata Supply Co., has severed his connection with the firm.

Mr. J. C. Williams and family have returned to Naramata after several months spent at the Dominion Experimental Farm at Summerland.

Mr. J. H. Pushman, accompanied by his daughter, Laurel, and his parents, expect to start on their trip to Ottawa either Saturday morning or on Sunday.

Mr. R. J. McDougall or otherwise plain "Bob" McDougall, in the course of a trip over B.C. in the interests of the Daily Province paid Naramata a brief visit on Monday.

Miss Ruth Dale of Summerland was a visitor to town on Saturday last. Miss Dale is now a fully-fledged teacher, having recently passed her professional examinations at the Provincial Normal School.

The recent heavy showers have made the making of hay rather tedious and uncertain. The hay is no sooner dry after being turned when the next shower is again on hand.

Naramata Current Events. (Continued.)

to cause the work to be done all over again.

Word has been received from Pte. Hedley Reesor that he has been admitted into the ranks of the 231st, the same regiment that his brother Goronwy is connected with. Hedley has already been transferred.

At a recent meeting of the executive of the Liberal-Conservative Association here, Mr. F. W. Rolt was appointed to fill the vacancy left by the removal of Mr. J. Bruce, who has decided to move his family soon to Victoria.

Mrs. E. B. Reesor went out on Monday bound for Victoria. It is probable that business may detain her a little over a month, during which time Vancouver, Calgary, and Winnipeg are other places that will be visited.

Pte. Frank Hughes is at home on furlough for a few weeks enjoying the freedom from the restraints of military camp life. Frank looks every inch a soldier, and evidently camp hours and camp fare and routine are a pretty good combination.

Miss Muriel Garrioch, a daughter of the well-known English Church-rector of that name at Portage-la-Prairie, was in town for a few hours on Saturday, and while here found time to call upon her former Portage teacher, T. H. Boothie.

Pte. T. I. Williams came in on Tuesday's boat from Glacier, where he has been on bridge duty for some little time. He appears to enjoy the life of a soldier and speaks in highest praise of the efficiency of the whole organization, as far as it immediately affects him. He expects to return to camp on Monday, but hopes to get a harvester's leave in September, at which time he will be home for a whole month.

A Use For Cherry Stems

Orchardists can help very materially to defeat the Germans by shipping their cherry stems to Europe. A number of by-products have been heard of which the orchardist might very profitably engage in manufacturing, but it will be a new one to most people to learn that a very important use has been found for cherry stems. They have been shipped from Oregon fruit districts lately to Europe to make the poisonous gas that is used by the opposing armies in France.

The stems, from which cyanide of potassium is made, were formerly shipped in bales to Germany, but since the beginning of the war have been bought up by representatives of the allies and shipped to England. Several tons will be shipped this season by Oregon canneries.

WHAT THE OUTSIDE BUYER HAS TO PUT UP WITH.

"Say," said the man of the house at the breakfast table one morning, "this is the punkest coffee I ever drank."

The housewife looked pained. "By sending away for twenty-five pounds of it I saved a dollar and a quarter," she said.

"Well," was the doleful comment of the daughter, "and so we'll have to be drinking the stuff for the next year or so."

How much did you say you got of it, mother?" enquired the school boy son anxiously.

Which goes to show that the cheapest way is not always the best way. The experience of this economically inclined housewife is duplicated many times over in this community.

The only road to real economy is the road that leads to the home town. This is the first commandment in community development. Whenever we pass up our own community and send an order away from home we break this commandment by one stroke of the pen. Give your home dealer the chance to fill that order. Given the same conditions, he can usually meet the competition of any out-of-town house in the country. The long distance route is the road to waste, over-buying, and false economy.

Will Enforce Egg Marks Act

Prosecutions Will Follow
Non-Observance of Law.

The new Eggs Marks Act has come in for a good deal of discussion amongst retailers, wholesalers and handlers of poultry products throughout the province. The newly appointed chief inspector, R. C. Abbott, declares that he will vigorously enforce the act as soon as dealers have had sufficient time to digest its requirements.

At the retail stores each receptacle containing eggs must bear a placard. If they are first-grade eggs the placard must bear the name of the province or country of origin and the additional words "fresh," "cold storage," or "preserved," as the case may be. The letters on the card must be at least four inches high. The words "B.C. Eggs," or "B.C. New Laid" will not do. If they are British Columbia eggs of first grade the placard must state "B.C. Fresh," but there is nothing in the act to prohibit the use of additional wording if desired.

According to the inspector, when eggs are not exposed for sale, but are kept in refrigerator or warehouse, under counters, etc., the required placards must be displayed where they can be readily seen by customers.

A fruit which many people who know say is not meeting with the popularity it demands is the loganberry. It is not everyone who cares to eat the loganberry as fresh fruit, but for preserving or making jelly they are certainly hard to beat. The loganberry is a Pacific Coast creation, which first appeared in 1881. It is a hybrid between the raspberry and the blackberry. Loganberries are not produced in any quantities in this Valley, and the more's the pity, some say.

PATENTS PROMPTLY SECURED

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. GORY,
Deputy Minister of the Interior.

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Ry., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

HANSOMS' SAD FATE.

Mrs Gadd: "Oh, Mr Shril, stop a moment; I want to speak to you. Have you been home since morning?" Mr Shril: "No." "Why no. What do you mean?" "Oh, I can't be the first to tell it; indeed I can't. The neighbors are saying that your wife and Mr Hansom have eloped." "Well, well! It's his own fault. I warned him to keep away from her."

Passing Events: Social, Personal, &c.

The Home Comfort Club will meet at the home of Mrs. D. H. Watson on Thursday, 27th July, at 7.30.

Mr Hespeler went down to the Coast again this week. Mrs Hespeler and daughter have been visiting there for several weeks.

Pte. J. Babbitt, Summerland, is mentioned by the Vernon News this week among Okanagan soldiers on the casualty lists reported wounded.

The Summerland Fruit Union has an order for fruit for the royal train bearing H.R.H. the Duke of Connaught and his party back east which passes through Sicamous on the 26th.

Miss Thompson of Kelowna is visiting in Summerland for about a month. She arrived on Thursday evening's boat, and is at present a guest at the home of her aunt, Mrs Wellington Watson.

Rev. N. McNaughton will conduct the usual union services next Sunday morning in St Andrew's Church at 10.30 a.m., and in the Lakeside Baptist Church at 7.30 p.m. Mr W. T. Broad will conduct service in St Andrew's Church at 7 p.m.

The 103rd Battalion, C.E.F., is the latest British Columbia unit to go overseas. It left Victoria last Saturday, and by this time will be well on its way to the homeland. In this battalion are Sergeant C. N. Borton and Privates Harry Thornthwaite, and John Corner.

At Okanagan Falls, where Premier Bowser and his party called this week, one of the interesting exhibits shown the visitors was samples of broom corn grown in the vicinity. Several varieties of broom corn are grown, and a shipment of the product to a broom manufacturing company is to be made shortly.

The bursting of a wooden conduit has interfered with the care of the irrigated orchards at Kaleden, and until the water system has been repaired, the condition of the ranchers will not be a happy one, as, under present money market conditions, a loan of the size necessary to rehabilitate the water system is not easily negotiated. It is expected that Premier Bowser will include a scheme for the relief of these conditions in his promised statement covering irrigation centres on Okanagan Lake next month.

KETTLE VALLEY RAILWAY

TIME TABLE

Table with columns for Westbound and Eastbound routes, including destinations like Spences Bdg., Merritt, Princeton, and Okanagan Falls, with corresponding arrival and departure times.

Table for Penticton East routes, including destinations like Nelson, Grand Forks, Midway, Carmi, McCulloch, Arawana, and Penticton, with arrival and departure times.

Passengers for Coast points arriving at Spences Bridge 19K take C.P.R. train No. 1 at that point c.17 next morning, arriving Vancouver 10K.

Passengers leaving Vancouver can take C.P.R. train No. 2 at 20K Sundays, Tuesdays and Thursdays, arriving Spences Bridge at 8.36K next morning, leaving there at 6K for Penticton, or they can take C.P.R. train No. 4 out of Vancouver at 9K Tuesdays and Thursdays, arriving Spences Bridge 16.27K making direct connection with train for Merritt, lying there overnight and coming on to Penticton next morning.

O. E. FISHER, Traffic Manager.

The regular monthly meeting of the W.C.T.U. will be held in St Andrew's Church on Friday, July 28, at three o'clock.

Rev. H. A. and Mrs Solly, who have been enjoying a short holiday with their family on the lakeshore at the Agur Boathouse, are returning this week to the rectory.

Mrs H. A. Walton is making a visit to Vernon where her husband is now in camp. H. A. Walton now holds rank as Lance-Corporal in the base company of the 172nd Battalion.

Mrs Jack Conway, her daughter Eileen, and the latter's playmate, Gertrude Ritchie, came down from Vernon on Wednesday and are now at the home of Mrs Conway's parents, Mr and Mrs J. E. Phinney.

Mr K. S. Hogg had the misfortune to suffer painful injury to his right hand early this week when his automobile engine backfired as he was starting it, and the crank came in violent contact with his hand.

Dominion Fruit Commissioner D. Johnson, Fruit Marks Inspector Clarke, and P. E. French, Vernon, of the Horticultural Branch, motored down the Valley from Vernon yesterday. The night was spent here, and after a visit to the Experimental Farm they continued to Penticton.

Mr and Mrs C. C. Chittenden motored up from Penticton on Thursday afternoon, bringing little Alice Limmier back to Summerland after a visit with her sister at Penticton. Mrs Muir Stewart and little daughter returned with them, and will visit for a short time with Mrs Chittenden.

Mrs Hocken of Kelowna is at present a guest at the home of Mr and Mrs I. Blair, and her stay here will probably be of considerable length. She has lately been visiting at Edgewater, B.C., with her son, who has been to the front and returned home wounded. He will soon be fit for service again, and will then go overseas.

Little Hugh McLachlan, three months' old son of Mr and Mrs A. McLachlan, died on Wednesday morning of this week. For some time past he had been ailing, and though at times it looked as if the little fellow was going to pull through after all, death came on Wednesday morning. The funeral was held on Thursday, Rev. A. Henderson officiating. Much sympathy is expressed for the bereaved parents.

The Women's Institutes of this place were entertained on Thursday afternoon of this week by the ladies of the Naramata Institute. The trip was made across the lake in the afternoon by a special boat, and the number of ladies from here who took in the event made a good load for the ferry. At Naramata the visitors enjoyed a very pleasant social afternoon, music from Mrs F. J. Languedoc and Miss Kathleen Robinson, and readings by Mrs C. C. Atkins being among the items on the program arranged. A very dainty and plentiful tea was served by the entertaining Institute in their commodious clubhouse, and the visitors returned across the lake in the early evening with very happy recollections of the function.

Mr and Mrs A. Town of Peachland were visitors to Summerland on Thursday.

Miss Hessie Phinney returned home on Wednesday from a stay of several months in Vernon.

C. Noel Higgin, a member of the 172nd Battalion, came down the lake on Wednesday's boat from Vernon on leave.

Pte. Arthur Pentland of the 172nd, Vernon, is down on a month's leave, staying at the home of his sister, Mrs L. W. Pacey.

The thirty-third automobile to come into the district, if a recent count is to be accepted, is the Ford of which Mr A. E. Hespeler is becoming the owner.

The Summerland Fruit Union is doing quite a business in eggs and has shipped hundreds of cases since taking up that line some weeks ago. They are not able to get enough to fill their orders.

Rev. A. Henderson is to be the speaker at a meeting under the auspices of the Citizens' League at Vernon on Monday, when he will deliver a lecture entitled, "Germany from Within and Without."

The staffs of the three packing houses of the Summerland Fruit Union enjoyed an outing on the lake last night. The "Skookum" was boarded here and Penticton movies taken in before the party returned.

Mr and Mrs E. R. Butler and family went up to Vernon on Wednesday evening by automobile, where they met Mr and Mrs J. C. Robson, Mrs Butler's parents, who are to visit here for a time. The party arrived back to-day.

Mr J. M. Robinson leaves tomorrow morning for New York where he goes by request of American capitalists who are desirous of securing the Canadian and American rights of the "Hemming's Process" now held by Mr Robinson.

Mr and Mrs John Tait and Mr and Mrs Wellington Watson went up to Vernon on Monday by automobile to visit the military camp while the Duke of Connaught was there. They returned on Tuesday evening. Other cars to make the trip up to the Vernon camp with passengers were those of Mrs J. Lawler and Mr C. James.

Though the surface of the road about the hotel corner is in better condition than it was, all is not yet right. This week Mayor Jones, returning from the south had just stopped in front of the hotel when suddenly the road gave way letting the car down to the axle. Water in considerable quantity seems to be flowing along the line of the water pipe.

Among the soldiers who have been enjoying leave from their units this week are Privates Harry Barkwill, Cyril Woodworth, and Levi Johnston, all of the 172nd Battalion. Howell Harris, who has joined the B.C. company of the Western Universities Battalion, is home enjoying furlough in which to recuperate following an operation which he underwent in Vancouver a short time back. He will join the regiment at Sowell, Manitoba, in due course, leaving some time next week.

BIRTHS.

YOUNG—To Mr and Mrs Thomas B. Young, on Thursday, July 20th, a daughter.

Misses Ida Brown and Gertie Rines are visiting friends at Penticton this week-end.

H. W. Agar came down from the Vernon camp last night to remain for a month on harvest leave.

Mr J. O. Robinson expects to leave soon for Northern California where he will remain for some time.

Mr W. C. Kelley is recovering from an attack of pleurisy with which he has been laid aside for some days.

Miss Edna MacLeod has been appointed to the position at the municipal office, until now filled by Miss Mary Pollock.

A car of cattle was shipped in this week by L. C. Woodworth, and a car of horses were taken back to Alberta on Wednesday.

The Union shipped their first ripe tomatoes on Monday, and on Tuesday the first apricots and peaches of the season were sent out.

Mrs and Miss Mathewson are visitors to Summerland just now staying at the home of Mr and Mrs E. R. Simpson, Paradise Flat.

Miss Jessie Bateman, who has been visiting her sister, Mrs G. L. McWilliams, left by the "Sicamous" on Thursday morning for her home in Vancouver.

It is understood that Miss Gwen Robinson has been accepted as a probationer in the Toronto General Hospital, and that she will leave about September 1st to take up her new duties.

Mr and Mrs W. G. Benson are visiting at "Ballycrystal," Peach Orchard, the home of Mr and Mrs F. D. Cooper, Mrs Benson's parents. They motored down from Kelowna and expect to return this week-end.

Rainy weather interfered somewhat with a picnic which it was planned to hold in the Park at Peach Orchard last Sunday. Mr J. A. Kirk being the host of the occasion. It was found necessary to hold the affair in Ellison Hall where chairs and other furnishings were provided, and the gathering was still a decided success. There were about fifty guests.

Four carloads of pre-cooled cherries, nearly half of which were assembled here from other lake points have been shipped recently by the Summerland Fruit Union. Three of the cars went through to Winnipeg, the fourth being billed to Calgary. A thermograph was placed in each car to record temperatures en route. Those already heard from arrived in excellent condition.

It was a happy if tired party of telephone employees that reached town from the south early this morning, the event being the annual outing of the "hello" folk. Two cars took the party which was made up of Mr and Mrs Atkins, Misses Myrtle Conway and Helen Phinney of the Summerland Telephone Co; Miss Edna MacLeod and Miss Eula Watson of the Okanagan Telephone staff; Mrs Johnston of the Government Telegraph Service Penticton office, and Misses Bessie Clark and Ruth Wanless of the Okanagan Company, Penticton. Leaving here at noon, Oroville was reached at 5 o'clock, after a stop at Okanagan Falls. A picnic lunch was enjoyed on a green just beyond Oroville and the return journey was started early in the evening. It was after midnight when Summerland was reached.

HE CHANGED HIS MIND.

"Mr Sims, take my advice and never get married. I am sick of married life. I have not been home for two days." "Is that so, John? Why, I should think you ought to be happy. I heard your wife fell heir to \$10,000 only yesterday." "The deuce you say! I'll see you to-morrow, Sims. So long."

A damsel asked one of her fellow boarders, a stylish dry goods clerk, at the breakfast table, "Why is your moustache like my back hair." He blushingly gave it up; the answer caused him to blush still more, "Because it is all down."

Newsy Paragraphs

PEACHLAND

Mrs Powell is enjoying a visit from her friend Miss Black.

Mr and Mrs Wm. Logan left here on Monday last for Edmonton, where they plan to reside.

Mrs J. L. Elliott has returned from a two week's visit with her sister, Mrs H. Burtch, Kelowna.

Mrs David Kirkby of Penticton is spending a few days here with her parents, Mr and Mrs McLaughlin.

Miss Jean Kincaid, who had been visiting friends in Peachland for several weeks, has returned to her home in Kelowna.

Mrs S. Murdin, her mother, Mrs Williams, and her sister Miss Williams, went down to Summerland on Monday to visit friends there.

A passenger on the "Sicamous" coastward bound was Miss Edna Pentland. She will spend the summer vacation in New Westminster.

Miss Rilla Robinson, after a visit here with her uncle and aunt, Mr and Mrs J. B. Robinson, returned to her home in Vancouver on Saturday morning.

An ice cream social and dance was held on Friday night in the Orange Hall as a farewell by the young people to Miss Rilla Robinson and Miss Edna Pentland.

Messrs H. Thompson and H. McCall, partners in the business here under their names, made the trip to Penticton recently in Mr Thompson's launch in 3 1/2 hours.

An early treat was enjoyed last Saturday by a number of citizens among whom were distributed a quantity of luscious ripe tomatoes grown by Mr. H. H. Thompson.

The water users of the district are to meet again on the 26th to go further into the question of acquiring the irrigation system owned by the Peachland Townsite Co. Messrs J. M. and W. J. Robinson

were here last Saturday to meet the commissioners in this connection.

Mrs Bennett of Spokane is here visiting with her sister, Mrs J. A. Moore.

Mrs Clem. Aikens has returned from Kelowna where she had been visiting with her daughter, Mrs Wm. Lupton.

Misses Arnett and Fish of Armstrong are this week visiting Mrs E. Lang. Miss Lang entertained a number of young people in their honor on Tuesday evening.

Peachland was visited last Saturday by Messrs J. T. Armstrong, J. R. Mountain, and J. S. T. Armstrong of the Water Commissioners, and Mr Davis of the government engineering department. Several requests and complaints in regard to water matters were placed before them.

The union Sunday School picnic was held on Thursday the 13th, at Trepanier Creek. The afternoon was greatly enjoyed by young and old, a comprehensive program having been arranged, the contests for prizes being a prominent feature. About 120 citizens, big and little, enjoyed the outing.

Ontario Apple Shippers Quoting Prices.

British Columbia growers will be interested in the fact that Ontario apple shippers have already sent out price lists to prairie apple purchasers, and that they have quoted prices laid down in Alberta and Saskatchewan. The prices are for boxed and barrelled stock, of the usual winter varieties. Snows, it has been learned, are quoted at 15 cents per box higher than for the other varieties. Other prices could not be obtained.

Representatives of the Washington apple shippers are at present touring the prairies, while one organization, the North Pacific Fruit Distributors, have their own salesman in this territory. Regardless of the duty the Washington shippers are looking into the possibilities for sale in this market. No prices have yet been quoted.—Market Commissioner's Report.

Boy Scout Column

SUMMERLAND TROOP BOY SCOUTS.

Headquarters—ELLISON HALL.

Meets every Friday in Ellison Hall. Visitors cordially invited to attend. Recruits apply at any meeting. Scoutmaster J. Tait. A.S.M., H. Harris. Physical Instructor, G. Dale.

The last meeting for the summer months of the local troop of Boy Scouts was held on Friday, June 30th. Each year the troop is disbanded during the busy part of the fruit season. At this meeting it was decided not to have a troop camp, but that each individual patrol take a week's camping.

Accordingly the next Monday the Signalling Patrol started on their camp. It was decided to have a moving camp, moving a few miles a day. The boys carried with them grub, blankets, and a small tent. First night camp was pitched about a mile past Crescent Beach. The following morning a fresh start was made and Peachland reached that evening. After pitching camp and after supper the Scouts did a little exploring round the country. Next morning the boys thought that Crescent Beach was as good a camping ground as anywhere, so they turned round and made for there. Grots was made by noon, and Crescent Beach during the afternoon. Here the Scouts spent two nights, Wednesday and Thursday. On Friday morning Mr C. James, to the delight of the boys came round in a launch and asked if they would care to go up to see the Kelowna Scouts in camp at Cedar Creek, a little south of Kelowna. Needless to say they did. So they bundled into the launch on route for Cedar Creek. The lake was very rough, but the spray didn't dampen the Scouts' spirits at all. After Squally Point had been reached the lake calmed down and the boat soon arrived at its destination. When but a little from the shore the camp was signalled. The visitors landed and joined in some games. The Kelowna Scoutmaster then invited them to sup-

per. After supper the party again embarked and set off for home after an enjoyable afternoon, reaching home late that night.

Scout meetings will start again shortly after the summer holidays when recruits will be cordially welcomed.

There are now nineteen Scouts and Scoutmasters from this troop serving their country.

A SUMMERLAND BOY SCOUT.

Memorial Service.

An unusually impressive service was that held last Sunday morning in the Methodist Church, conducted by Rev. A. Henderson. While of a patriotic nature, it also served as a memorial for the late Private Herbert Figgis, who recently died of wounds, and other Summerlanders who have given up their lives in the war. It added a fitness to such a service that Mr Henderson himself has two sons at the front, one of whom has been in the trenches for about fifteen months. He read extracts from a letter which the chaplain of the regiment to which Private Figgis belonged had written to Mrs Figgis, telling of her son's wounds and his death. Speaking very sympathetically, he pointed out how the soldier's death in such a cause and in such a way was a triumph. Appropriate music, including an anthem, was given by a large choir which led in the very hearty singing of special hymns, two of which were hymns now being sung very widely in England and Canada, in memory of the soldiers who are falling for the sake of the Empire.

A notion seller was offering a Yankee clock, finely varnished and colored, with a looking-glass in front, to a lady not remarkable for her personal beauty. "Why, it is beautiful," said the vendor. "Beautiful, indeed! A look at it almost frightens me," said the lady. "Then, marm," said Jonathan, "I think you had better take one that hain't got no looking-glass."

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 52. Whole No. 417.

SUMMERLAND, B.C., JULY 28, 1916.

\$2.00, payable in advance.

Plenty of Money to Buy Fruit

Prairies in Way For Another Big Crop. Late Spring Offset by Plenty of Moisture.

The fruit and vegetable growers of the Okanagan Valley have been watching with interest, almost with anxiety, the reports from the prairies with respect to the condition of the crops, because the prosperity or otherwise of this Valley depends so largely upon the production of the prairies.

It was not anticipated that the west could expect a repetition of last year's yield, which was so exceptional as to be phenomenal, and which was referred to all over the prairies as a "miracle" or "wonder" crop. Many ranches yielded 60 bushels an acre, and the ranchers themselves netted 95 cents a bushel. This enabled them to clear up outstanding liens against their machinery, wipe off loans at the bank, and still leave them with a fat margin for this year's operations.

This year the preliminary conditions were forbidding, owing to the departure of so many men to the war and to the delay which last year's big crop entailed in the matter of fall preparation. The acreage available for crop has been reduced 20 to 30 per cent. On top of this an exceptionally wet and late season prevented the farmer from getting on the soil, and indeed many of the farms disced their crop in on the stubble of last year's harvest.

The growth of this crop is remarkably promising, and latest advices from the prairies indicate that there is now a probability of last year's phenomenal yield. Neepawa Register, which is published in the centre of one of the best grain areas in the west, in its last issue has the following comment under the heading of "The Crop":

"A week ago to-day there were a few heads visible on early fields. To-day the country is a sea of wheat headed out, speaking eloquently of early harvest. It is another 'wonder' year. The late spring—very late—counted for nothing. The phenomenal growth of this country laughs at late springs, defies frosts, and this year excels itself. There will be another great crop. Those who say 'great as last' are probably mistaken, for (Continued on page 6.)"

Died At Hospital

Howard C. Foster of Keremeos, died at the local Hospital on Tuesday. Foster had ridden over from Keremeos with a bunch of horses to be shipped from here. He had been in poor health for about six months, and reached here in an exhausted condition. Going to the Pioneer Livery Stables he threw himself in the hay. It was clear that his condition was serious, and the doctor was summoned and persuaded the sick man to go to the Hospital, where it was hoped that with good care and nourishment he would rally. He had suffered from heart trouble and had but one-third of normal amount of blood. Deceased, who had recently taken over the Pares ranch at Keremeos, was connected by marriage to an Indian tribe at Olnla, B.C. A number of his friends reached here on Wednesday morning and took this body south.

The production of apples in British Columbia has increased from 210,000 boxes in 1910 to 787,750 in 1915.

Appeal For Jam For The Soldiers.

The Ambulance League are making arrangements to send a shipment of home-made jam through the Red Cross Society for our sick and wounded soldiers. They all hope they will receive the same generous support in this undertaking as they did last year. In order that this year's shipment may be of uniform size, which will facilitate packing, the League have bought a large supply of empty tins, and anyone who will kindly fill these with jam can obtain them at the Parish Hall, West Summerland. Further notice will be given as to the date of shipping the jam. May we remind those who are kind enough to respond to this appeal that plum jam is least appreciated by a soldier even when in good health. Any other kind is preferred.

Eighty-six per cent. Pass Entrance Exams.

Public School Scholars Make Good Record for Summerland.

It was gratifying to be able to publish last week such a high percentage of successes in the High School examinations, and it is pleasing indeed to be able to follow this week with almost as good a record in the High School entrance examinations.

Fifteen candidates wrote the examinations at the Central School, and of these thirteen have been successful. Their names and marks are:

Lily Simpson, 678; Joseph L. Gayton, 665; Rex I. P. Barnes, 662; Blanchard Munn, 658; Edward Morsch, 645; Melvin K. Munro, 622; Lucy Hargreaves, 619; Alex. G. Smith, 616; Margery M. Bentley, 587; Hazel Steuart, 584; Mary Hatt, 570; Ida Shields, 550; Bernard W. Taylor, 550.

Of the eight Peachland candidates who took the examinations the following six were successful:

Alice A. Cousins, 690; Edward Cousins, 644; Jeanie A. Dryden, 598; Mary D. Miller, 585; Illvya M. Murdin, 580; Anna L. Cousins, 576.

Naramata presented four candidates, but only one was able to pass, the successful scholar being Marie D. Hancock, with 554 marks.

Summerland's record compares very favorably with that of other points at this end of the Valley as a comparison shows:

	No. Candidates	No. Passed
Kelowna	31	24
Peachland	8	6
Naramata	4	1
Summerland	15	13
Pentiction	27	25

An Appreciation

The Summerland Board of Trade wishes to take this opportunity of expressing its acknowledgment and thanks to the auto owners and drivers who so willingly gave their cars and time towards entertaining the delegates of the B.C. Fruit Growers, and also to the ladies whose ready assistance greatly aided Mr and Mrs Helmer in their entertainment of the guests at the Experimental Farm.

J. GALT, Sec.,-Treas.

The number of fruit trees in British Columbia has increased from 650,000 in 1901 to approximately 8,000,000 in 1913.

Summerland a Delight To Conference Visitors.

Demonstration Farm and Experimental Station Are Surprises to Fruit Growers.

Ride Through Miles of Orchard as Guests of Board of Trade.

The local Board of Trade did a good stroke of business for Summerland when the delegates at the B.C. Fruit Growers' Convention held last week in Pentiction were induced to take a look at the orchards of this place. It is safe to say that many who saw Summerland for the first time during the auto trip last Friday will have a good word to say for the place in the future.

After motoring up from Pentiction to Naramata in the early afternoon, the visitors were brought across the lake, and were met on the government wharf by a dozen cars. Representatives of the Board of Trade and the Municipal Council were at the wharf to meet the boat when it reached here, and a number of other citizens were also waiting the arrival of the party. The fifty visitors just filled the available vehicles comfortably, and after a brief time for greeting, the cars started off at intervals on a trip round the benches.

The first stop was made at Mr J. L. Hilborn's ranch, Jones Flat, which is used by the Provincial Government as a demonstration station for the South Okanagan in fruit and vegetable growing. This well-managed property never fails to elicit admiration from those who see it, and the party of visitors were duly impressed.

After leaving Jones Flat the cars headed for Prairie Valley, skirting the entrance of Garnett Valley. There are some orchards of splendid appearance in that section, and the call there was well advised.

Close upon supper time the travellers reached the Experimental Station at Trout Creek. Superintendent R. H. Helmer made the most of the opportunity, and the recollections which the visitors have of the Farm must be pleasant indeed. They were shown all over the place by Mr Helmer, and as illustrating the varied possibilities of the district, the Experimental Farm spoke loud for Summerland.

Members of the two Women's Institutes were on hand with dainty refreshments for the dusty travellers, which were much appreciated and very heartily partaken of. Short speeches were made by a few of the visiting delegates, acknowledging the kindness which had been shown them, and assuring the people of Summerland and the Southern Okanagan in general that the impressions which they have gained of the district are quite fresh and distinct. All told there were about one hundred and twenty-five people in attendance at the Farm during the time the delegates were being entertained there.

The Fruit Union Ford that followed the procession of cars around was very prettily decorated, and carried a load of girl packers. A prettily contrived canopy had been erected over the body, and even the wheels carried decorations. The front of the car bore a placard "WE PACK THE FRUIT."

The cars proceeded on southwards in time to get the delegates into Pentiction for the evening session.

Postal Car on Kettle Valley Line Not Likely

Inspector Cannot See Way Clear to Recommend This Service.

Mr John Greenfield, Post Office Inspector for B.C., and who is inspecting the Post Offices of the Okanagan spent Thursday in Summerland.

Mr Greenfield was away up in the north-eastern part of the province when he received a wire from Ottawa to come down to Pentiction to confer with the Board of Trade there with reference to their persistent demand for a postal car service on the K.V.R.

Mr Greenfield made a trip that has formerly required three weeks in 50 hours. Boarding the train at Lucerne station, Jasper Park, on the prairie side of Yellow Head Pass at six o'clock on Saturday night, he made connections with No. 2 C.P.R. train at Kamloops on Monday morning, completing his journey on the boat on Monday afternoon.

Questioned by the Review as to the decision of the Post Office Department regarding Pentiction's demands, the Inspector said that Pentiction Board of Trade were insistent on having a postal car—which served after all would have practically no advantages over a baggage (Continued on page 6.)

Direct Line to Coast Will Open on Monday

Twelve Hour Run Between Here and Vancouver Cuts Fare in Half.

Next Monday evening when the K.V.R. through express leaves here at 22.30 the new service through Coquihalla Pass will be inaugurated. Reference to the new timetable in our advertising columns shows the great saving in time that this new route will effect. Leaving here at 10.30 in the evening the train arrives at 10.40 next morning in Vancouver. Coming back, one will board the train leaving there at 6.00 in the evening, and arriving here at 6.25 the following morning.

The shorter route will be a great convenience to the travelling public, and a great benefit not only to the south Okanagan, but all of the southern part of B.C.

The new single fare between here and Vancouver will be in round numbers \$10.00, while the return trip will cost about \$16.00.

There will be no change in express rates, those having been adjusted a year or two ago in anticipation of the shortened route. Freight rates will be brought down about 20 per cent.

The new trains will have standard sleepers, also dining cars where needed.

August Bride Honored by Friends.

About fifty of her associates in the Baptist and Methodist choirs "showered" Miss Mary Pollock last night at the home of Mr and Mrs W. M. Wright. The spacious verandah gave abundance of room for the carrying through of the methods of making the presentations which the showers from the skies prevented being carried through on the lawn.

The bride elect was given a fishing tackle and told to cast her line into a pool of green, and each time the line was drawn in a package containing some useful household article was found.

An umbrella, covered with green, tied with white ribbon, covered with red roses, under which many gifts were tied, was presented to the guest of honor by the hostess.

Dainty refreshments were served before a glowing fire-place in the living room, and finally the guests dispersed, first showering the bride-elect with the very best wishes.

Miss Pollock becomes the wife of Mr A. H. Barker of Trail, B.C., next Thursday, August 3rd.

Roy Stevens May Not Have Died of Wounds

Likelihood is That He Has Returned to Canada on Leave

The report that gained credence some two or three weeks back to the effect that Sergeant Roy Stevens had died of wounds received in action may not be true. It arose from the assertion of some who said that they had seen the name of Sergeant Stevens in the official casualty lists.

A press dispatch from Quebec which appeared in some daily papers last week-end mentions a Sergeant Stevens of the Princess Patricia's as one of a party of wounded soldiers who have returned to this country. The item reads as follows:

"The party included three members of the original Princess Patricia's, viz:—Lance-corporal Proudfoot, Corporal Williams, Pts. Gibson, and Sergt. Stevens, of Edmonton, who went over with the first university draft. All four are due to receive their discharges, excepting Sergt. Stevens, who is on furlough. He spoke in the highest praise of the courage of all the Canadians at the front. Referring to the fighting in Sanctuary Wood, Sergt. Stevens, who is suffering from shrapnel wounds in the head, back and shoulder, declared that, preceding the German attack on the Canadian lines, the enemy not only shelled, but actually blasted the trenches from Hoogo to Hill No. 60 (St Eloi), which line is held by the Canadians alone, and comprised practically the entire Ypres salient. It was in this vicinity, he said, that the original Princess Patricia's were wiped out in 1915.

Although he enlisted from Edmonton, Roy has many friends here in Summerland, made during the long residence of the family here, who are rejoicing that the first bad news heard of him has been considerably modified.

To operate the evaporating plant established in Kelowna a year or so ago, the British Columbia Evaporators, Limited, a company with a capital stock of \$25,000 has recently been organized.

Local Cherries Pour Into Calgary

That City Has An Especial Interest in Summerland. Much Calgary Money Invested Here.

"Cherries, rich, ripe, and luscious, have been pouring in from Summerland and other points in the Okanagan region for some time past," says the Calgary Herald, a day or so ago. "In quantity and quality the Okanagan cherry crop of 1916 would be hard to beat. Naturally the big yield affected the price, but this was all to the advantage of the consumer in Calgary and elsewhere, while the grower was compensated by the greater quantities he had for sale. There are few families in Calgary that have not had cherries and berries on the table every time they felt inclined during the present season. Happy people of the mountain country! They are having as ordinary articles of diet what are coveted luxuries to people of less favored climes.

CALGARY MONEY IN OKANAGAN.

"In addition to the fact that a delightful article of food at a very moderate price comes from there, Calgarians are interested in another way in the products of the Okanagan country. There is quite a lot of Calgary money invested in the fruit farms of this region, and Calgary men have been amongst the pioneers of the industry there. The Summerland district especially owes much to the enterprise of Calgary men. That enterprise is now bearing fruit in a double sense.

"Most of the fruit coming into Calgary arrives by express, and a stroll through the sheds of the express companies after the arrival of a train will give an idea of the extent of the business in small fruits just now.

"The express companies have made special arrangements for handling the fruit. Great care is exercised from the moment the crates are placed on the cars at the shipping point until they are safely delivered to the consignees here. The bulk of the fruit is handled by the Dominion Express Company, and their arrangements for handling this class of highly perishable goods have worked out so well that there has been little wastage either in transit or in delivery to the Calgary dealers."

Ellison Gets Unanimous Vote

Mr Price Ellison's personal popularity in the Okanagan Valley was again attested this week, when a second Conservative Convention for the riding of North Okanagan held at Vernon nominated him as its candidate in the forthcoming elections. Messrs Koway and Kidston were also presented in the first ballot, but in view of the overwhelming vote for Mr Ellison, his nomination was made unanimous. Many ridings throughout the province are holding second conventions in view of the pronouncement of Mr Bowser, favoring this course.

The apple crop of Western New York is poor in quality, and at harvest time is not expected to be more than 50 per cent normal because of the continued cool and wet weather. The pear crop is light, and there will not be a big yield of peaches.

THE NEW ROUTE.

THE COMPLETION of the last link in the Kettle Valley line between the southern Okanagan and the Coast may be made to have a very great effect upon the growth of this section, or again it may be allowed to pass unnoticed. It all depends on whether Summerland as a community wakens up to its opportunities to grow.

Summerland is now within about twelve hours of Vancouver and the Coast, and the fare is such that the trip needs but half the outlay it called for before the advent of the Kettle Valley line. There are people at the Coast who could be induced to come to the Okanagan for week-end holidays if they knew that the southern end of the Valley is no longer as inaccessible as it used to be. Other towns on the new line are already making themselves known at the Coast, emphasizing their attractions for week-end and holiday makers in general. If Summerland does not do likewise, our share of visitors will go elsewhere. This town, after all, has its full share of natural attractiveness, but it needs to be brought to the attention of the people at the Coast and elsewhere.

A good way of starting out on a campaign of this nature would be to have the district represented at the Vancouver Fair next month. Many people to whom at present Summerland is only a name, could learn a great deal of the possibilities of the place by seeing on exhibition some of the prize fruit that the place is famous for. There was a time when Summerland was always represented at the Vancouver Fair. Isn't it time we were there again?

§ § § § §

THE LARGER COMMUNITY SPIRIT.

THE TYPICAL CHARACTERISTIC of a progressive town is a keen sense of the gains that may come from the growth of a town as a whole. The people clearly see that if they can make their town and its business

increase, every form of property and business will go ahead. Furthermore the net profit in case of such increase should be larger proportionately than the gain in gross returns. A larger business can often be done without much increase of expense, leaving a greatly enhanced net return.

In every progressive town, therefore, the merchants are willing to devote much time and thought to making the town grow as a whole. They do not relax efforts to compete successfully with each other. But the gains that come from the growth of the town as a whole come easier and with less effort.

The first essential is to develop an intense feeling of community loyalty. It should be realized that everyone who owns a business or any real estate is going to gain by the growth of the town as a whole. Also everyone who has a job in a growing town is the gainer, though this is not always realized. In a growing town employers are better able to pay good wages, and there are more opportunities for advancement.

The first step in community loyalty is to patronize the home merchants. The man who sells supplies in your town is in a sense your business partner. He is working for ends that are vital to your success. Every purchase made at home helps on the town, helps make your property, your business, your job, more valuable, and hopeful of larger opportunity.

Spend your money so as to make your home town grow, rather than so as to make some other place grow.

§ § § § §

THE MATTER of telephone tolls throughout British Columbia will be discussed by the Union of B.C. Municipalities at its meeting this fall in Vernon. A case will probably be prepared and presented to the Railway Commission a little later when the data required from all parts of the province has been gathered. Facts regarding rates and the character of the service in one district as compared with another are now being assembled.

§ § § § §

FROM RELIABLE REPORTS it would appear that relatively speaking of the three districts, Naramata will this year have the largest crop, followed next by Summerland, with Peachland coming third. This is in inverse relation to the age of the orchards. If these are the facts do they convey a lesson which should not be overlooked?

§ § § § §

WHEN THE ASSESSOR calls round it is not necessary for you to put on that poverty stricken look. He has a right to ask you what you have, and it is your duty to tell him. The man who lives honestly 364 days in the year should not spoil it all by lying to the assessor on the 365th day.

Salmon Arm Creamery Exceeds Expectations.

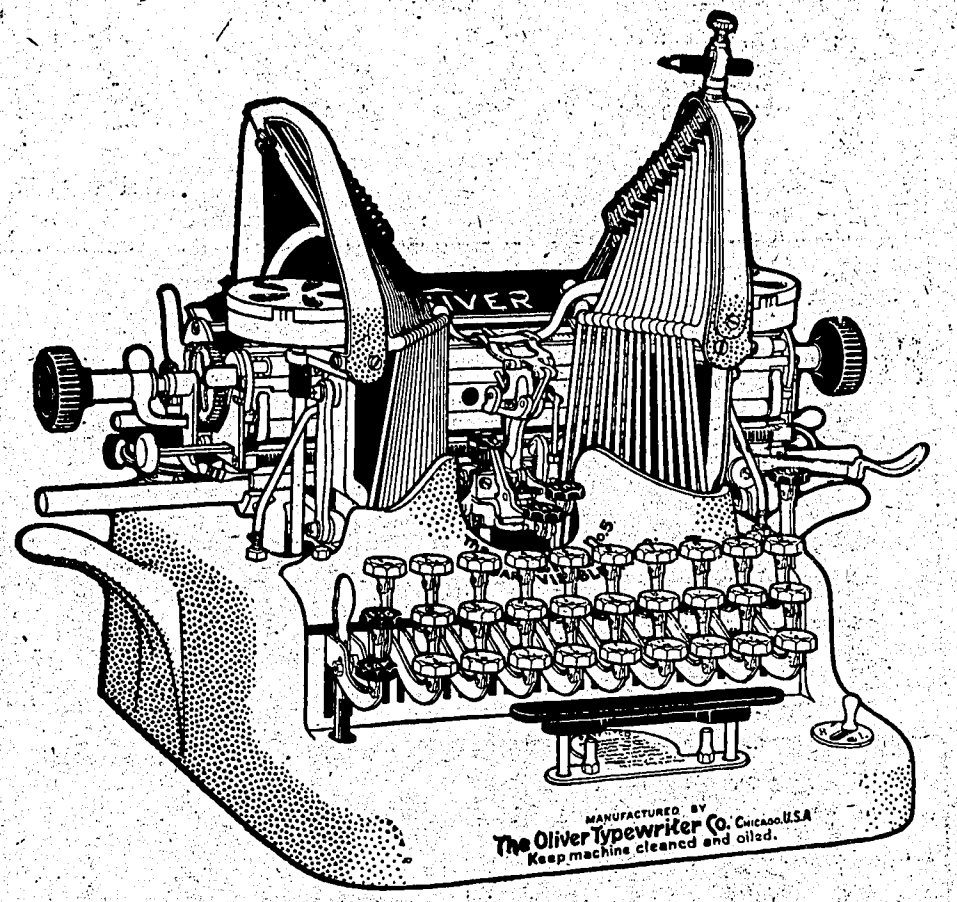

That the new creamery at Salmon Arm, B.C., has more than justified its existence and forms a most effective payroll for the farmers in that community is evidenced by the fact that the output for June totalled 8,100 pounds, or a sum available for distribution for the past month of approximately \$2,400.

This exceeds even the most sanguine expectations of its strongest supporters, yet at the same time there is every reason for believing that this output will be materially increased in the near future, for its capacity is not by any means reach-

More Fruit To Be Shipped To Ontario.

B.C. growers state that owing to the short crops in Ontario shipments of fruit from west to east will be undertaken on a much larger scale this year. Last year several cars of 'cots were shipped to canneries at Hamilton, and it is expected that this year experiments will be made with different varieties of fruits.

The creamery bids fair to be one of the strongest and most flourishing institutions of that community, and promises to provide a good payroll.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Most Hogs On Pasture Require Grain Ration.

Notwithstanding High Price Of Grain, Some Should Supplement Pasturage.

There are many farmers who are using hog pasture, and are endeavoring to materially reduce the cost of producing pork by this system. There are many farms on which the hogs are not fed any grain whatever and are being left to subsist entirely on pasture. It is questionable whether such a practice is the most economical, says the Farmers' Advocate. Of course, a lot will depend on the quality of pasture employed. With alfalfa, which is a leguminous plant, they may do fairly well. However, on the average hog pasture they are not likely to mature nearly so quickly as when fed in conjunction with a light grain ration. Hog raisers differ widely regarding the quantity of grain that should be fed to hogs in this system. Some breeders give them all they will consume, others feed a ration equal to about two or three per cent. of the live weight of the hog, and others allow the pigs to run on pasture and feed them one per cent. grain ration. Regarding the supplementary feed that should be combined with forage, the amount of grain depends largely upon the pasture used, the price of grain, and the market for the pork product. When grain is high it is rather expensive to feed a supplemental ration. At such times there is a temptation to raise the hog on pasture alone. At the present time, however, grain is a moderately good price, while hogs are abnormally high, and it will no doubt pay well to feed a fairly liberal ration in order to put hogs on the market at the earliest possible date.

Alfalfa On Every Farm---Why?

- 1—It is a profitable crop.
- 2—It increases farm values.
- 3—It excels every other crop. In yield per acre In feeding value As a drouth resister As a soil enricher.
- 4—Its frequent cutting destroys weeds.
- 5—It balances the grain ration.
- 6—It leads to live stock farming.

Buttermilk as a Poultry Food

Perhaps no feeds are so general and yet put to such slight actual use on the average farm as buttermilk or skim milk. Both are about the same in feeding value, especially after the latter has become sour. The full value of buttermilk or skim milk does not lie so much in its food value as in its effect on other foods and general aid to digestion. Buttermilk also develops vigor and vitality to a marked degree as well as promoting unusual growth at the same time.

Milk, added to the ration, increases the consumption of other foods, and experiments have shown the greatest increase on gain with chickens was made when most skim milk was being fed.

Buttermilk is also very valuable for laying hens, having a very high feeding value, particularly during the winter months. Either may be fed in mash mixtures or in a drinking fountain.

Some Advantages Of Thicker Cream

Dairymen Will Find There Is a Saving Over Marketing It Thicker.

Dairy farmers who separate milk quite often need to learn that there are several reasons why a thick cream is better than thin cream.

The tendency of legislative bodies to pass laws setting the standard at 35 per cent. butterfat shows that it is difficult to persuade many farmers to set the separator to run at 35 per cent. cream, or better.

From the standpoint of the dairyman it is to his advantage to run the separator so as to get a heavy cream. Perhaps the principal reason is that it gives him more skimming for use on the farm, and skimming is valuable for young calves and pigs.

With a thick cream he has less weight, but gets the same money because there is just as much butterfat. He needs fewer utensils, saving labor in washing and care of the washroom.

And finally, it has been demonstrated that a thick cream will not sour so quickly as thin cream. The reason, of course, is that there is more milk sugar in thin cream, and it is the milk sugar that sours. In the hot summer months it will be found that a heavy cream can be kept in better condition than a thin cream.

Ontario is the proud possessor of the original McIntosh Red tree, which still stands at Dundelas.

OUR NARAMATA SECTION :

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Current Events — OF — Town & District

Mrs. Town of Peachland paid friends in Naramata a short visit on Thursday.

Manager Coombs of the Penticton Cannery was through the district on Tuesday on a purchasing trip.

Mrs. R. C. Lipsett was amongst the jolly crowd that journeyed across to the rose tea held last week by the Women's Institute.

Mr. James Wells still continues to experience very poor health, so much so that unless his condition improves he will return to Calgary.

Rev. R. M. Thompson of Penticton conducted the usual afternoon service here on Sunday last. He was accompanied on his trip by Mrs. Thompson.

Miss Foster, former teacher in Naramata, has been granted a B.C. life certificate, having passed successfully at the recent professional examinations.

The home of Mr. and Mrs. R. H. King has been gladdened by the advent of another child—a daughter. The birth occurred on Tuesday morning, July 18th.

Mr. J. H. Pushman, accompanied by his parents and his two children, Miss Laurel and Master Stewart, went out on Saturday morning's boat en route to Ottawa.

Mrs. Atkins of Winnipeg and daughter Miss Mary Atkins arrived in Naramata on Saturday evening to spend the summer months at Rakadome, the picturesque home of Mr. Carroll Atkins.

Naramata Current Events (Continued.)

Mr. Jas. Hayward has bought the driving outfit formerly owned by Mr. J. Bruce. Since taking over the care of certain fruit ranches, Mr. Hayward finds much use for a serviceable horse.

Mr. W. M. Armour has added a new mowing machine to his ranch equipment. Owing to the amount of hay being grown on the ranches under his supervision the time worn hand-scythe is quite inadequate.

Pte. T. I. Williams of the 102nd R.M.R., after a short stay at his home, returned to active duty at Glacier on Monday. He hopes to secure a harvester's leave—four weeks—commencing early in September.

On Thursday afternoon the ladies of the Institute were en fete on the occasion of the visit from sister organizations at Summerland and Peachland. The club room parlor was attractively decorated with pink and red roses—all home grown, that goes without saying.

After buying hay for years Mr. W. W. Mitchell, in common with a good many other residents, has discovered that he can grow more hay on his own place than he needs. In the matter of hay and other products the whole community has at last "got wise" and "got busy."

Mr. J. M. Robinson started on Saturday morning for New York, to confer with certain American capitalists, with a view to completing the sale of the Canadian and American rights to the now famous "Hemmings Process." This new and simplified method of arresting decay in fresh fruits, fresh fish, meat, etc., has at last, after many months of patient and determined and intelligent experimenting, been put on a sound commercial basis, and only awaits the coming of the financier with the means to proceed with the establishing of the process on a large scale.

The regular monthly meeting of the W.C.T.U. was held at the home of Mrs. Peter S. Roe on Wednesday.

Naramata Current Events (Continued.)

July 19th, with a fair attendance. After the regular routine of business the program was given, consisting of a reading by Mrs. D. O. Hughes; a solo by Mrs. M. M. Allen; and some newspaper reports read by Mrs. James Myers. Dainty refreshments were then served by the hostess and her daughter. The next meeting will be held in the church on Tuesday, August 8th, with Mrs. Fred Young as hostess. A large attendance is hoped for as it is desirable of electing a president to take the place of Mrs. E. P. Roe, who is not returning to Naramata as was formerly expected.

E. Canada Apple Crop Promises To Be Light

According to reports received conditions in the apple orchards of Nova Scotia and Eastern Canada do not point towards a large crop or high quality. The fruit commissioner reports that little spraying was done in Georgian Bay district last spring. Trees there have, too, set such a large crop that the fruit will be small unless a very heavy drop occurs. Prospects are for an inferior product in that district.

Over Western Ontario a lot of the fruit is dropping in unsprayed orchards.

Between Toronto and Hamilton there will not be more than 50 per cent crop. Baldwins give best promise; Spys and Greenings are light. Scab is prevalent, but some well-drained orchards promise a fair crop.

In the McIntosh and Fameuse section of Eastern Ontario, scab is developing to a remarkable degree, and has caused considerable dropping.

The best report is made of Prince Edward county. More spraying than usual has been done there, and fruit is apparently setting well.

In Nova Scotia, apples are setting well, and the promise is now for a larger crop than seemed possible a few weeks ago. It is estimated that there will be 70 per cent of a full crop, or slightly more than 1,000,000 barrels. Gravensteins and Nonpareils are heavy. Baldwins and Kings medium, Starks and Blenheims light.

Taking the situation as a whole, owing to neglect of orchards the production of good fruit will not be excessive, and the prospects are for reasonably profitable returns for those who have the good stuff.

Perhaps the most famous of all orchard areas in Canada is the Annapolis Valley in Nova Scotia, nine miles wide and eighty miles long. With the Dominion Atlantic Railway running through the valley, the growers have ideal packing and shipping facilities. Sixty per cent of the crop is handled co-operatively by one central association. Plums and pears are also grown there on a commercial scale.

It is estimated that the Wenatchee fruit crop will be about 7,000 cars.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

Deluge of Catalogues Here Explained.

The Local Papers Are Watched.

This is the way the mail order houses get business away from the country merchants.

The advertising manager of one of the biggest order firms on the continent recently addressed an advertising club in the following terms:

"We have a bureau whose duty it is to read each week the country newspapers from all over the country. There is not a paper of any consequence in our trade territory we do not get. The bureau looks over those papers and when we find a town where the merchants do not advertise or advertise half-heartedly in the local paper we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local papers."

Political campaigns are over profile of prophets, and the fact that a majority of them are proven to be false prophets each succeeding campaign does not deter them from boasting, whenever they espouse the cause of a candidate that their man will "wipe up the earth" with the other fellow.

Canneries in California are paying as high as \$50 per ton for Bartlett's, and shippers are paying the growers equal to \$1 per box for the fruit alone.

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Ry., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

A large number of Agricultural Colleges are also using the International Correspondence Schools books in their classes in preference to all others.

The International Correspondence Schools can either start you at the bottom of the ladder or where you probably now are, part way up, and help you to the attainment of your ambition. Are you enough in earnest to inquire? It costs you nothing for information.

Attention is called to the change in the Okanagan Lake Boat Co. advertisement on our Naramata page.

Mrs Jas. Ritchie and family are spending the summer at Kaleden, with Mrs Ritchie's parents, Mr and Mrs J. C. Findlay.

Advice has been received here to the effect that prairie grown cabbage and potatoes are now on the markets, and it will be unprofitable to ship these commodities from here to prairie points.

An appeal against a Peachland assessment made by Sir Chas. Hibbert Tupper of Vancouver, who owns some Peachland property, is the occasion for the visit to Vancouver of Reeve Morrison and Clerk Dryden of Peachland, and Clerk Logie of Summerland.

Mr Lewis Boggs of the Pentiction Public School staff, who with his sister has been staying at the Kalavista Resthome here has gone to Aldershot, N.S., to join the company of which Captain Cutton, formerly president of the Acadia University, is in command.

Mr and Mrs Lawson and Mr and Mrs McLaren and family, all of Grand Forks, B.C., were visitors for a day or so this week at the home of Mrs J. J. Mitchell. They were on their way to Princeton, where they are spending a camping holiday for about a week.

Although only arriving in Summerland a short time ago with the expectation of remaining at least for the summer, Mrs G. W. Morfitt and family have returned to Calgary, going out by this morning's boat. Mrs Morfitt had word that her husband, Lieut.-Col. Morfitt, who commands a battalion at Calgary, had been ordered overseas, and this news was responsible for their return to that city.

Many soldiers from the Vernon Camp have been given leave to return to their home towns during the past two weeks or so to help gather in the big hay crop of the Valley. The granting of this hay time leave on a wholesale scale has resulted in a number of Summerland soldiers getting a visit to their homes here of about a month's duration. Among those who are in town on hay time leave are Ptes. Harry Everett, Harold Smith, A. Pentland, H. W. Agur, R. Barkwill, R. Verrier, Cyril Woodworth, H. W. Farridge, and Cpl. C. Noel Higgin. A number of strangers are also understood to have come down at the end of last week from the camp in the expectation of finding haying or other farm work to do.

About one hundred dollars' worth of prime fruit and vegetables were lost on Wednesday evening through a mishap which occurred to a one horse wagon laden with fruit. The outfit belonged to Thos. B. Young, and having been loaded with about eighty boxes of fruit at Stewart's packing house, was being driven down to the wharf by Alex. G. Smith, son of Mr and Mrs J. O. Smith. Proceeding down the Gulch Road, all went well till the top of the horseshoe bend below Mr Hespeler's was reached. Here as the horse was holding back a breeching strap gave way, and the brake not being in working order, the situation became alarming. With the weight of the load pressing from behind, the horse began to kick, and the young driver got a nasty blow on the knee from one of the animal's hoofs. He stayed with the rig as long as possible and then jumped clear. Out of control altogether the horse came on down the Gulch road shedding the load as it went, the boxes of which were hopelessly smashed and the contents scattered by the wayside. The runaway turned the corner at the foot of the hill safely, and went on down Shaughnessy Avenue at a lively pace, still shedding apples, peaches, apricots, cucumbers, tomatoes, currants and other fruits. The horse was finally stopped at the bandstand, when only twelve boxes of the load remained intact. One of the shafts was broken, and other damage of a minor nature was done to the rig. The injury done to the boy's knee, though somewhat painful, is not thought to be of a serious nature.

Rev. A. Henderson was a visitor to Vernon this week.

D. Woods has finished the season's work on his claims on Nickel Plate mountain.—Hedley Gazette.

W. J. Tullet has enlisted in the Pioneers, now recruiting at the Coast, and leaves on Tuesday morning to join his battalion.

William Brent has just received word that his nephew, D. McIntosh formerly of the 54th Battalion, lately of the 2nd Battalion machine gun section, was killed in action on the 10th of June.

The united Presbyterian and Baptist service will be held in St Andrew's Church as usual at 10.30 a.m. on Sunday. In the evening the pastor, Rev. N. McNaughton, will preach at the Lakeside Church at 7.30.

Mr Muir Steuart returned last Friday evening from a business trip to prairie centres including Edmonton and Regina. Mr Steuart says that the demand for preserving fruit is very light, due doubtless to the high price of sugar.

The "Bluebird" campers are enjoying a week at Crescent Beach, the party, consisting of Mesdames Harwood, R. H. Atkinson, and Misses M. Harwood, K. Elliott, Rita and May Harrison. Boating, bathing, and swimming being the order of the day, the time passes all too quickly.

Miss Snider came in from Vancouver on Thursday of last week to spend the balance of the school vacation with her parents, Mr and Mrs B. Snider. Miss Snider is a member of the Vancouver Public School teaching staff. With her came little Miss Dorothy Lott, the five year old grand-daughter of Mr and Mrs Snider.

A special ferry trip was made to Pentiction on Thursday evening to take down those who wished to see the patriotic films shown at the moving picture house there. The film series is entitled "Canada's Fighting Forces," and it depicts very vividly scenes from the training camps both in this country and overseas. Corporal White, a returned veteran, was also on hand to give a narrative of his experiences, and to enlarge upon the pictures.

In mentioning the volume of express shipments from this point in last week's Review, a somewhat obvious error occurred in stating the approximate weight of the shipment that went out by the first Sunday boat. The number of cases was close on five hundred, and taking them at an average of twenty pounds each, which is probably well under the actual figure, the total weight would be in the neighborhood of five tons. It is worth while noting that this weight is about as much as was being sent out in the height of the season three or four years ago, and the present season is still quite young.

It is reported that the prune, apple, and pear crops are almost completely destroyed this year by frost in certain parts of Idaho, particularly in the southern portion.

Mrs Gunn of Edmonton is the guest of her sister, Mrs A. H. Steven, for a few weeks.

Fruit boxes of local manufacture are now being stocked at T. N. Ritchie's lumber yard.

Mrs R. M. H. Turner entered the Hospital last Monday morning, suffering from an attack of appendicitis.

Mrs Chas. Phinney and family of four children arrived on Monday evening's boat from Vancouver on a visit with her sister, Mrs C. N. Borton. Her home was at one time in this place.

Mr and Mrs Mauser, formerly of Bridgewater, N.S., and now of northern Alberta, have been visiting old friends here, Mr and Mrs G. J. C. White. They left on Wednesday, boarding the boat at Pentiction that evening.

Jack Conway is now no longer dependent upon the C.P.R. in getting from place to place on his rounds among his customers. He now visits the grocery stores throughout his district in a Ford runabout, in which he reached Summerland this week.

Mr C. W. Lees is going to Pentiction to-night to meet his sister, Miss Mary Lees, who is coming in over the K.V.R. Miss Lees is a graduate of Macdonald College, Guelph, and for the past two years has been head dietitian at Riverdale Hospital, Toronto.

About fifty men of the Western Irish Regiment in training at Vernon Camp came down the lake on Wednesday evening en route to Bonnington Falls near Nelson, where they go to relieve a similar number of the same battalion doing guard duty at the internment camp there.

Sergeant A. E. Walker of the Forestry Battalion, who has been seeking recruits for his battalion, which leaves for overseas soon for work in log cutting, hauling and sawing behind the fighting lines in France, returned to the Coast on Thursday morning. Seemingly there are but few available men left in Summerland, as he was not able to obtain any here. Five recruits were obtained at Kelowna, and four at Pentiction.

Lieutenant H. Rivington, mentioned in these columns a short time ago as suffering from neurasthenia or shell shock, has been in the Howard Home, Brighton, England, since June 28. Before the war this institution was one of the many convalescent homes of that popular coast resort, but now it is being used exclusively for the care of wounded officers. Lieut. Rivington suffers severe concussion pains in his head, caused by the noise shock of the shells, and also neurasthenia, and rheumatism all over his body. He will be unfit to return to the front, and has to have many weeks rest, before he will be given the lightest home work.

Old fashioned calligraphy covered more bad orthography than type-writing does.

BIRTHS.

PACEY—On Sunday, July 23rd, to Mr and Mrs Leslie W. Pacey, a daughter.

Mrs and Miss Clouston entertained a large number of friends, at a garden party yesterday at their home in Peach Valley.

Councillor E. R. Simpson and Municipal Clerk J. L. Logie are representing the municipality at the Western Canada Irrigation Convention being held this week at Kamloops.

Miss Warnes has gone to Kaleden to take charge of the Union packing house there. With her is Miss Thomson, also of this place. The Kaleden house is operated by the Pentiction Fruit Union.

Summerland friends of Mr and Mrs R. B. Wilkinson are welcoming them back to our community which they love so well. With their little child they registered at Hotel Summerland yesterday.

Mr and Mrs J. H. Chown and family of Moose Jaw spent a couple of days here this week. They are on a vacation trip, and have gone on to the Coast. Mrs Chown is a daughter of Mr and Mrs Cross, Prairie Valley.

Mr W. E. White, of Everett, Washington, arrived in Summerland yesterday, coming via Wenatchee and Okanagan, Wash., and Princeton. Mr White saw considerable evidence of winter killing in Washington orchards, and heard stories of disappointingly short fruit crops. He is staying at the home of his son, Mr R. E. White.

Mrs G. Noble and her cousin, Miss Angus, went out by boat Monday morning for a short visit with Miss Angus' parents at North Vancouver. Mrs Noble will return next week, when Mrs A. Milne will go to Vancouver and other Coast cities, returning later with Miss Angus. Miss Maud McLaughlin will be in charge of Mrs Milne's store during her absence.

They Miss Their Apples.

Canadians With Imperial Forces Would Like B.C. Fruit.

Canadians who have been transferred to Imperial army forces across the seas, so letters state recently, are being deprived of the privilege of eating apples as they were used to when they remained with the Canadian forces.

One soldier writes to his mother stating that he is in a company where there are fifty Canadians, twenty-five of them being Vancouver boys. All of them have been contributors to the apple fund, but since being transferred they were cut off the apple supply. The writer is a member of Company 644, M. T., A. T. C. with the Egyptian Expeditionary Force, who can be reached through the London office.

EXHIBIT OF FRUIT.

Under the direction of the Department of Agriculture a small exhibition of British Columbia fruit will be placed at the coming Vancouver exhibition. Agricultural literature published by the publications branch of the Department will be given away, and experts from the various branches will be present to advise farmers, gardeners, and others interested in any of the many different sides of agriculture.

B.C. University Appoints Professor Of Horticulture

The University of British Columbia announces the appointment of F. M. Clement as Professor of Horticulture. He is expected to arrive about September 1. Mr Clement has been for a number of years Director of the Horticultural Experiment Station at Vineland, Ont., in the Niagara Peninsula.

The pear crops of the Wenatchee Valley promise to be not only of normal size this year but of extraordinary high quality. It is estimated at 800 cars with a big percentage of first grade fruit.

PLENTY OF MONEY TO BUY FRUIT.

(Continued from page 1)
last year there was plenty of six-rowed wheat, a thing inexplicable and unlikely to be soon repeated. But certainly conditions have been ideal in the superlative. Rain, heat, rain. Nothing except hail will now retard the growth."

This splendid showing, which in the event of no untoward accident such as hail or frost, spells prosperity in capitals for the prairie provinces, is good news for us in the Okanagan.

The monthly commercial letter issued this month by the Canadian Bank of Commerce says:

In the Western Provinces, after several weeks of cool, wet weather, ideal for the development of a strong root growth, there has been a few days of warm weather, and crop conditions up to the present are excellent in all parts of these provinces. The amount of land which has been seeded on disked stubble is greater than had been previously estimated, but the season so far is favorable for such seeding, and the total acreage in crop is now estimated at about ninety per cent of that of 1915. In other parts of the Dominion weather conditions have been generally favorable for field crops. Abundance of rain has favored pastures and hay crops, but has not improved the outlook for fruit which promises to yield somewhat below normal.

POSTAL CAR ON KETTLE VALLEY LINE NOT LIKELY.

(Continued from page 1.)

car service. The department will inaugurate the service that will meet the needs of the circumstances, and just as the merchant would do they will build according to the needs of the business to be developed. The service for which Penticton is asking will cost \$21,000 in addition to the present

Grain Man Speaks To Fruit Growers

Gathering At "Farm" Hears Prairie Man.

"It is our desire to establish a friendly relationship between the grain growers of the prairie provinces and the fruit growers of British Columbia. We recognize the benefits to be derived from a greater inter-provincial trade. We buy your fruit, you buy our flour, butter, grain, and other products. My visit here has been for the purpose of getting acquainted with the conditions under which you are working. Our president, Mr. Rice Jones, has made a close study of British Columbia conditions and harbors a friendly feeling for you. Perhaps if other prairie leaders had a better knowledge of your conditions their attitude would be somewhat different from what it is. I

service. The six day-a-week baggage service will cost \$9,000 additional. Wholly on his own initiative, with a view to arriving at a satisfactory compromise, the inspector offered a seven day a week baggage service. He was disappointed when this offer was refused, with the statement that they would have nothing else than a postal car service.

When asked what the difference in these two services was the Inspector explained that the mails would be just as expeditiously carried by either service. There is one office between here and Princeton, two west of Princeton, and five smaller offices in the Boundary district, whose mails will have some little delay in reaching some points. Instead of these offices each making up a bag to be "worked" on the train, they will make bags for the Post Offices en route where the mails are "worked." This will mean the handling of a few extra bags of mail by the Post-Office Department.

am glad to have had the opportunity of meeting with you, going through your orchards, and of making a study of conditions at first hand."

This was the statement made by J. H. Turnbull, of the Alberta Farmers Co-operative Elevator Company of Calgary, in a brief address at the Dominion Experimental Farm here last Friday afternoon.

His remarks were well received, and it is felt that his visit here may have the effect of removing some of the prejudices that exist in the minds of the prairie consumers.

Apple Exports.

Between 1,250,000 and 1,500,000 barrels of Canadian apples are consumed outside of Canada every year, most of these in Great Britain. The growers of Nova Scotia and Ontario cater especially to the Old Country market, though some British Columbia fruit also reaches it. Nova Scotia has been developing for some years past, a trade in South America and South Africa, with very satisfactory results. British Columbia exports considerable quantities to Australia, and has even experimented with China and Japan.

Are You Doing Your Share?

Strong Appeal From Treasurer Of Local Branch Patriotic Fund.

Payments into the Canadian Patriotic Fund for the month of July have so far totalled \$172.25, and there are still some 60 names to hear from.

Are you one of those 60? If so, please send in your subscription at once so that it will be in time to be included in the remittance to the Treasurer at Victoria on the last day of the month.

Figures supplied me from the central office in Victoria show, that for the next year, no less than one and a half millions will be needed for British Columbia alone, but as the Eastern provinces are undoubtedly benefitting more than B.C. through munition contracts, it has been decided lately that if the people of B.C. will find \$800,000 the balance will be made up in the East.

\$800,000, however, is a large sum, and your support will be needed to the fullest extent of your ability.

I recognize that many are giving this support already, and paying it in many instances with conscientious regularity, but there are others I am sorry to say who although well able to afford a monthly subscription have, after giving a single cash down modest contribution, done nothing whatever since.

Some have never done anything at all. The excuse that the government should do the whole thing by all round taxation is put forth by many, but as the government have not done so I can see no reason why one should say he will not give at all, unless it is to be conducted according to his way of thinking. The war would be lost while we are arguing about it if the majority reasoned no better than that.

The plain fact is, many who can afford to give are side-stepping their responsibility, and if the men who are fighting from Canada now had side-stopped-enlistment, there would now be no army, and Canada would not be represented by the glorious deeds that she has and will

still have to her credit—deeds that form permanent unperishable traditions for her brave army for all time to come—traditions that will stand her in good stead in many a tight national pinch in years to come.

Who can foresee what a great nation Canada is destined to become? In crises such as she will sometimes have to face to maintain that greatness it is clear the reputation of her fighting men is what will do it.

Happily there is now no question about that reputation. It is made, and is being consolidated as they say in the trenches every day.

Very well then, come forward you who are staying at home in security and do your part by helping to maintain them there through assisting those who are dependent upon them. Can a man fight with his full determination and energy if he is worrying about the very existence of those he has left at home? It requires no thought to see that it is the duty of those who have not gone to look after the dependents of those who have, and in order that this can be uniformly carried out, the Canadian Patriotic Fund has been formed.

The people in the Nicola district evidently feel very strongly about this matter, and when passing the Review Office I would suggest your just dropping in for a look at the Nicola Valley News of July 14th.

It will set some people thinking. E. B. MAX, Hon. Treas. Canadian Patriotic Fund.

PULLING TOGETHER.

An esteemed contemporary prints the following suggestion to business men:

"When the business men of a town learn that their real competitor is not the man across the street or around the corner, but is the big mail order houses of the large centres, and that these big institutions with their systematized methods of advertising and letting rural communities know what they have to sell and at what price, that will eventually get them if they don't throw off the yoke of selfishness and pull together for community upbuilding, they are in a fair way to succeed in business. The next move is to profit by those same mail order concerns and go after business in the same way they do: Advertise, Advertise Right, and keep everlastingly at it."

Washington Apple Crop

A commercial apple crop of approximately 16,627 cars for the State of Washington for 1916 is the estimate compiled from the reports of the field inspectors made the first of the week for the various fruit-growing districts. The inspectors reported their own estimates and those of prominent growers and shippers and the figures above strike the probable average.

These figures indicate a larger crop than last year, and rather closely approximating the great 1914 apple crop.
