

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 40. Whole No. 405.

SUMMERLAND, B.C., MAY 5, 1916.

\$2.00, payable in advance.

## Prohibition Speaker Here Last Sunday

### Emphasizes Wisdom Of World-wide Movement to Be Rid of Alcohol Evil.

Rev. J. S. Henderson of Vancouver was in Summerland over last Sunday in the course of a tour he is making through the province in the interests of the People's Prohibition Movement. In the afternoon he addressed a public gathering in the Lakeside Baptist Church. The attendance at this gathering, while not large, included representatives from most sections and denominations. It was unfortunate that more time did not elapse between the definite announcement of Mr Henderson's coming and his actual arrival, than merely a day or two.

Mr Henderson is a forceful talker with his subject at his fingers' ends. He not only put up a strong case for prohibition, but he also set up some of the stock arguments often encountered from the side of the anti-prohibitionists, and riddled them with sound temperance argument.

Pointing to the need for temperance legislation in this province, Mr Henderson drew attention to the fact that every other province in Canada had taken some step forward on this question since the war began, and he gave it out as his opinion—many share it, too—that England herself will have to cope with liquor, the foe within her own confines, before she can expect to take the place in the nationhood of the world that is expected of her.

There was nothing in this province organized as well as the liquor traffic, said Mr Henderson. Start something and see! Even now, as the government was trying to frame temperance legislation in keeping with the growing public sentiment, the liquor interests were clinging to the neck of the government, as it were, doing its best to block progress. Mr Henderson thought it was up to the friends of temperance to show their strength and thus give some sign to the legislators that such an enactment has their support.

Advancing some of the arguments he met with in the course of his meetings, Mr Henderson dealt first with the time-worn statement that the presence of the licensed bar in any community is a special financial benefit. It's good for business, it was said. But Mr Henderson differed, and with concrete examples showed this argument to be a fallacy. He pointed out that bank managers of the province had recently been approached by the liquor interests, hoping to get the weight of their opinion on this point in favor of the retention of the licensed bar. But it was significant that only fifteen had replied favorably. Neither was there anything in the argument that there was more illicit liquor selling under prohibition than with the licensed bar, said Mr Henderson. He remarked that the Mayor of Vancouver and others, in urging prohibition upon the government recently, had pointed out that there were already numerous blind pigs flourishing in that city with all the licenses that it already has. Some objectors also said that prohibition interfered with the personal liberty of the people. With illustrations very much to the point, Mr Henderson pointed out how any man's liberty ended where it encroached upon the rights of others.

Dealing with the question as to whether there should be any compensation or not for licenses that were wiped out, Mr Henderson took the ground strongly that there should not—unless, of course, such was paid out of the pockets of the liquor interests. This was the course adopted, so far as he knew, in England, where large numbers of licenses had been cut off, and the owners had been compensated out of the fees collected from remaining licensees. But to expect that money raised by general taxation should be taken out of the public purse for this purpose, Mr Henderson contended was not just. After all, the licensed hotel as an investment was clearly in the nature of a speculation, since the existing Bowser liquor Act clearly stated that liquor licenses were renewable from year

## Short Route Will Soon Be Ready.

### K.V.R. Resumes Work In Coquihalla Pass.

Work commenced on Easter Monday on the task of opening the Hope Mountain section of the Kettle Valley line after the winter's snowfall. Construction will be resumed as soon as the snow and other obstructions have been cleared away sufficiently, and the line is expected to be ready for through traffic in a month or two. An idea of the excessive snowfall in that district can be gathered from the fact that during the first three days of work it was only found possible to clear some thirteen miles of track. It is understood that even this progress is more than the engineers in charge expected to make, there being a good many snow and dirt slides to be removed. The portals of at least three tunnels have to be cleared out, which in itself is expected to be something of an undertaking. Fifty feet of snow fell last winter in the vicinity of Coquihalla Summit, as much as eleven feet on the level at a time. Even last week there still remained some six or seven feet. The amount of snowshed construction that will be called for to meet such conditions is tremendous, running into several hundred thousands dollars.

## Association For Whole Province.

Representatives of the various Boards of Trade throughout the Province of British Columbia will meet in Vancouver on Friday, May 12, for the purpose of organizing an association which will take in every Board of Trade in B.C. The organization will be known as the Associated Boards of Trade of B.C., and its main object will be to render more effective the work carried on by such bodies.

The activities of such a body, to take in all the boards of the province, it is calculated, will be far more beneficial to the province as a whole than the work carried on by the different organizations in existence at present. Such an organization will be able to approach the Provincial or Federal Government on any question it desires to bring to the notice of either of the governments, and lend added weight to its recommendations by the fact that it is representative of the whole of British Columbia.

## B.C. Portland Cement Co.

The liquidator of the B.C. Portland Cement Company has been given leave to advertise for tenders for the sale of the plant, as efforts for reconstruction have failed. The plant of the company, costing \$250,000, is situated at East Princeton. A number of Summerland people are financially interested in this concern. Bonds to the extent of several thousand dollars are held here.

The C.P.R. Telegraph is stringing another wire through the Okanagan country, which will give a much better service and direct communication to both Vancouver and Calgary. The business of the company through this Valley has greatly increased during the past year, with the result that the additional wire was found necessary to maintain a high standard of service, which is the aim of the C.P.R.

to year at the pleasure of the license commissioners, and could not be looked upon as in the nature of a vested right.

Rev. C. H. Daly presided at the meeting, and introduced Mr Henderson. After the close of the address of the afternoon Mr T. G. Bonvis gave a solo, "Building For Eternity."

Following the meeting Mr Daly announced a meeting was to be held of the local committee of the Social Service Council. This was in the nature of a conference between Mr Henderson, as one in touch with the situation as it affects the entire province, and the local branch of the movement.

## THE ANNUAL COURT OF REVISION

### Number Of Appeals Against Existing Assessments.

## COUNCIL AGAIN DISCUSSES ARREARS.

### Looks Like Climax At Next Regular Meeting.

The Municipal Council was in session on Wednesday as a Court of Revision. There were about two dozen appeals against assessment and irrigable acreage, but nothing transpired to take the meeting out of a quiet and dignified manner of session. There were present the Reeve, Couns. E. R. Simpson, R. Johnston, and J. R. Campbell.

For about an hour before the Court of Revision sat, there was a session of the Council, and this was also continued after the disposal of the appeals. A number of communications were considered, and the table was pretty well cleared for the regular monthly session which convenes on Wednesday of next week.

A number of ratepayers waited on the Council at various stages of their session enquiring into the avowed intention of the Council to cut off the irrigation water supply of those in arrears with their rates. They were all given the same assurance by the Council that nothing would be done till after the next meeting, by which time delinquents must submit to the Council a definite proposal as to how they will arrange for their arrearages. The desire is to avoid working any hardship, but at the same time it is felt that the time has come when something must be done by those who are behind.

Coun. Johnston remarked during the discussion on this burning question that there were now three years of arrearages. There were requests continually coming up before the Council for new work and improvements to the irrigation system, and he did not see how it was going to be possible to continue to finance under these conditions. If only they could see this money, financing would be easy.

The Reeve said that the Council's idea was that some people were not making the effort to pay they should. There was \$11,000 in irrigation rates now outstanding, and if it were possible to get this sum, they would certainly be on easy street.

Coun. Simpson remarked that the people were now getting some returns from their crops, and so were able to meet some liabilities. But it was doubtful if the Municipality was getting its share.

There were a number of communications, mostly of minor importance, brought before the Council and either disposed of or laid over till the meeting next Wednesday.

The matter of the appointment of a constable came up before the meeting, and the outcome as a decision to advertise for applicants for the position at a salary of \$25 per month, or just half what has been paid heretofore.

## COURT OF REVISION.

A list of appeals against assessments was tabled by Assessor Logie shortly after 10 a.m., and the Council proceeded to pass upon them. A number of objections were registered on the ground that the property was being offered for sale at a figure below the assessment, but this ground was not sustained where it was shown that the assessments were in proportion to surrounding properties.

One appeal that necessitated an adjournment to the property in question was that lodged against the assessment on lots 61 and 62 at Mr. Hespeler's home property. After discussing the pros and cons of the case, the Councillors decided to view the lots, which was done at the close of the session.

Mr J. S. Emerson of Vancouver lodged an appeal against the valuation of his property in Peach Orchard, and Mr F. D. Cooper was present in Mr Emerson's interests. A short discussion and investigation cleared up the situation and the assessment stood.

George Craig's 10-acre orchard

property in Prairie Valley was on the list, and on this the Council made a slight reduction in the assessment for taxation purposes. This property has stood till now at \$2,800, but on account of the presence of alkali in different parts of the lot, this figure was reduced to \$2,250.

John Craig's irrigable acreage in Peach Valley was reduced from ten to six acres.

The protest of Mrs K. Bentley in regard to her property in the vicinity of the old rifle range was considered from the standpoints of valuation and irrigable area. The Assessor's ruling in each case was sustained, but the Board of Works will look into the question of the water supply to these lots, which will solve a good deal of difficulty.

Mr W. C. Kelley was present and on behalf of several clients as well as in his own personal interest, argued on several appeals. He takes the view that the present method of assessment is not according to the wording of the law, which says that land shall be assessed at its present value. He realized that to carry this out implicitly would reduce the amount realized from the tax levies, but it was not for the Council to study such consequences at this time. He quoted a recent ruling from the courts that upheld his contentions.

Assessor Logie's view was that there was considerable difference of opinion on the interpretation of "value." It was an unsettled question all over the province. In his opinion the only workable assessment system was that based on proportionate values.

Mr Kelley contended that the proper value was the actual cash selling price, and in establishing things on this basis he repeated that the question as to what consequences might ensue need not come in for consideration yet, being something entirely apart from the issue.

Mr Kelley's strongest appeal was in regard to lot 55, north west of the Municipal Office. This is assessed at \$600 per acre, and this Mr Kelley considered excessive. The land value was too high and the improvements were placed too low, he said. He regarded the assessment as an inequality in proportion to surrounding properties. This assessment was a bone of much contention at the last Court of Revision. The improvements are valued at only \$2,000 and the land at \$3,000. Mr Kelley desired that the improvements be put at a proper valuation, and the land value brought down. The rates on the whole five acres figured out at \$15.84 per acre, and at such it was not possible to get adequate return out of the investment. It was fruit land property, used as such, and no subdivision had ever been contemplated, though this possibility seemed to enter into the assessment as a consideration.

Mr Logie's statement of the case was that the land in question had a value over and above ordinary farm land, which was proved by the fact that a house had been built thereon and rented to a business man. Its favorable location allowed of revenue being derived from the house, and in his view the land was worth more than double the value of ordinary farm land. After other argument the Court decided to sustain the assessment.

The improvements on Mr Kelley's corner block in West Summerland were reduced from \$4,000 to \$2,500, nearer their actual cost.

Among the properties on behalf of which Mr Kelley argued were the Collego properties, the T. E. Moore estate, L. C. Woodworth lots, W. J. Wilcox's subdivision, property of Mrs Kelley and his own.

The Review is informed that it is Mr Kelley's intention on his own behalf and that of his clients to appeal to the County Court on the

## Sad Fatality At Peachland.

### Community Mourns Death of Little "Buzzy" Thompson.

Peachland, B.C., May 4th.—A sad fatality occurred at the new townsite on Wednesday about noon. The home of Mr H Thompson of the firm of Thompson & McCall was completely destroyed. In the house sleeping was a small child, a boy of three. Before his parents could get to the house from the orchard it was one mass of flame, and all efforts to rescue the child were in vain. The sympathy of the community goes out to the parents in their sad bereavement.

## Local Liberals Carry On Campaign.

On Friday evening last, the Liberal candidate for the southern Okanagan riding, Mr L. V. Rogers, B.A., of Kelowna, held a campaign meeting in the College Gymnasium.

The chair was occupied by Mr W. C. Kelley, president of the local Liberal Association. In the course of his remarks, Mr Kelley referred to the presence of two automobile loads of Penticton Liberals, about fifteen in all, commending the good spirit this showed existed between the two towns. Mr Kelley also dwelt at some length with the question of land titles in British Columbia.

The first speaker of the evening was Mr Clayton, of Penticton. He was followed by Mr J. Mutch, also of Penticton. Both spoke in no uncertain manner of their belief in the iniquity of the present government.

The address of the evening, of course, was that delivered by the candidate, Mr Rogers. It was generally recognized by friends and opponents alike that Mr Rogers excelled himself on this occasion. His speech was not destructive but rather dwelt at length upon the policy and platform of the Liberal party. He drew attention to the fact that the amount available for loans under the Agricultural Aid Bill was only \$840,000, which was like a drop in the ocean when it had to be stretched over the province. Mr Rogers, whether elected or defeated in the election has won his way as an orator, this last speech being one that will long be remembered.

The attendance at the meeting was rather meagre. It seems somewhat difficult just at this juncture to interest the electorate generally in provincial political issues. The elections are still in the indefinite future, but when once these are announced it is likely that there will be a livelier interest manifested. It is probable that both parties will consent to joint meetings, when the two candidates may be expected to appear on the platform together. This will undoubtedly tend to larger and more enthusiastic gatherings.

## BIRTHS.

MORGAN—To Mr and Mrs G. Morgan, at the Hospital, on Wednesday, May 3rd, a son.

## CARD OF THANKS.

To all those who showed sympathy and kindness in any way to Mrs M. Campbell and family in the time of their late bereavement, it is desired to return most heartfelt thanks.

Adversity is the touchstone of friendship.

question of the assessments. A sitting of the Court is to be held in Summerland shortly to hear the case.

The assessment of \$3,000 on the Daubney lot was reduced to \$2,500 on representations from F. G. Barnard, who showed that the lot had suffered damage from the pond that stood there last year.

The Court of Revision rose about the middle of the afternoon, standing adjourned till the following Wednesday.

## Alexander Seaton Falls In Action.

### Another Peachland Boy Makes The Supreme Sacrifice For Freedom And Right.

Our correspondent at Peachland sends the following:

Word was received on Sunday morning by Mrs J. Seaton of the death of her son, Alex. He left here in June 1915 to join the 4th. After going overseas he was drafted into the 7th Battalion. He went into the trenches in November, and has been through many severe engagements.

He was a very popular young man in the community. The heartfelt sympathy of the entire community goes out to the family in their bereavement. A memorial service will be held in the Methodist Church on Sunday morning.

Alex, who was only nineteen years of age, was well known to many Review readers. He was prominent in the athletic organizations of Peachland, particularly in the baseball team.

John, a brother of deceased, is now at Kingston, training with an engineering corps.

## Wedding: Wright--White.

Two widely known and well thought of young people of this place were united in marriage on Wednesday of this week, May 3rd, when Miss Margaret Timlin White became the bride of Mr Walter McMartin Wright. Both have resided here for upwards of seven or eight years. The bride is a daughter of Mr and Mrs G. J. C. White, while the groom hails originally from Renfrew, Ontario, where his parents, Mr and Mrs A. A. Wright, still reside.

The ceremony took place in the afternoon at "Kalavista," the home of the bride's parents. Rev. N. McNaughton, pastor of the Baptist Church, was the officiating minister. About fifty guests were present at the nuptials.

The bride was unattended, and wore a gown of charming taste in white satin trimmed with Spanish lace, and a long train. Wearing also the conventional veil and wreath of orange blossom, and carrying a beautiful bouquet of white roses and asparagus fern, she made indeed a radiant and happy picture. Little Miss Margaret Munn was a pretty flower girl, carrying a basket of sweet peas and white tulips.

The bride entered the room on the arm of her father, by whom she was given away. She took her place beside the groom, who was also unattended, under a beautifully contrived floral bed composed principally of apple-blossom. All round the large room there were arranged very profuse and fragrant decorations of cut flowers and potted plants, till it seemed to be almost a mass of bloom.

After the ceremony the company repaired to the spacious verandah where refreshments were enjoyed. The health of the bride and groom was proposed in happy terms by Rev. N. McNaughton, to which the groom made reply. Felicitous speeches were also made by Mr. G. J. C. White and Mr W. C. Kelley. Heartiest congratulations were extended to Mr and Mrs Wright by the assembled guests.

Later the happily united couple left to take up residence on Mr Wright's orchard property on which a comfortable bungalow of neat appearance has lately been erected. Their departure was marked by all the manifestations of good will and friendship that usually characterize such occasions. For her going away dress the bride wore white serge.

If good wishes and Godspeeds can help them along life's way, Mr and Mrs Wright have a host of them. Their many friends wish for them nothing but the best joy and happiness. The array of wedding gifts from their friends far and near was an exceedingly imposing one, and many of the gifts were of considerable intrinsic value quite apart from the wealth of friendship they signify. One unique present that the bride will value not a little is a booklet containing an accurate record of her genealogy on her mother's side traced back through two or three centuries.

## A REAL NEED.

IT SEEMS more than a pity that with the cry for more production and more production ringing through the land, there should be such a thing as a first-class jam-making plant in this district never turning a wheel. Jam is almost a soldiers' necessity, and Summerland has the fruit and the plant for making it.

It is a question whether some aid could not be obtained from the government in the way of cash, under the new Agricultural Credits Act. Jam making is a perfectly legitimate and highly desirable industry for a fruit district, and the act was designed to help such. Those who know say that the plant of the Okanagan Jam Co. is in good shape, and of comparatively large capacity. Given the astute business management that it does not seem to have had in its working period, there is no reason why the jam plant could not be caring for all the small fruits and soft fruits it can handle. To provide such an outlet for this stuff would be another step in the right direction for Summerland.

It is only to be expected that before proffering any assistance, the government would expect to see some evidences of good faith locally. Some preliminary steps would have to be taken toward freeing the plant from the entanglements that put the old company on the rocks. But if the government would extend aid on a similar basis to which the Fruit Union was established, could not the jam plant be set in motion again, doing its very necessary by-product work? For a district the size of Summerland, producing some three or four hundred cars of fruit each season, and still to have no cannery, jam factory, or any other by-product industry on a commercial scale, is a weakness that will hinder very materially the community progress.

What are we going to do about it?

§ § § § §

## LET'S HAVE IT.

THE FRUIT GROWERS are asked by the Board of Trade to voice their opinions on the daylight saving scheme. It is primarily in their interests that the plan is being advanced, and to them a good deal of the benefits would accrue.

It is scarcely necessary to rehearse the whole catalogue of advantages that daylight saving claims for itself. More perhaps may be gained by touching upon some of the objections raised to it.

Some are afraid that since there are some institutions in the place that cannot be expected to put their clocks on one hour as the plan calls for, there will be a certain amount of confusion in the minds of people having dealings there. This may be so, but when cities the size of Winnipeg and Calgary, with all the local and national business interests and connections they would have, can put the scheme into effect, surely a town of this size should be able to do it and survive. The institutions that might be expected to be most concerned in this difficulty are the railways, telephone companies with long distance connections, banks, post offices and possibly some others. In the opinion of a good many, however, where no adjustment can be made to fall in line with the new time, it will not work great hardship to have these keep to the present arrangement. Banking hours will not be any more inaccessible to the general run of people than at present, and to have the C.P.R. office and the post offices open an hour later might prove more of an accommodation than a hindrance to people who are not at present able to reach them conveniently within the existing hours.

Business houses and public institutions of this nature are after all out to serve the public, and if it is found that the best interests of the people as a whole are to be served by adopting the daylight saving scheme, then it ought to go, and they should adjust themselves as far as possible to meet the change. The local merchants might find that it would be to their own interests to open for business an hour earlier than heretofore. This opinion has already been expressed by local business men.

As to just how it affects the fruit grower there can only be one opinion. Help is going to be short this year as it never has been, and the crop is not going to be any less. Daylight saving will give an hour more in the beginning of the day for picking. More valuable still it will give another hour for packing and to get the cars on to the barge. The tendency will be to pick more fruit in the morning, when it should be picked. Persons from a distance having

occasion to be down at the boat in the morning will be able to do any business they wish with the merchants without having to wait almost two hours for the time of opening. There is also to be borne in mind the considerable saving in artificial light that will be effected, whether it be oil or electric light, since bedtime will come an hour earlier.

The surprising thing about the movement now on foot to put daylight saving into force in Summerland, is the fact that many people say they favor it as something they have thought should have been in force years ago. It is not the new and untried scheme to most people that might be imagined, and so many will be prepared for the little difficulties that may conceivably arise.

By all means let Summerland have daylight saving, and it is to be hoped that there will be a good attendance to say so at the meeting of the Board of Trade to be held shortly to discuss the matter again.

§ § § § §

## ROOM FOR IMPROVEMENT.

TO THOSE who say that there is nothing to the "Patriotism and Production" campaign, nor any need to preach "Production and Thrift," we commend the figures set forth below. They show that this province of ours has room for considerable improvement in the matter of providing its own foodstuffs. Some allowance ought to be made, perhaps, on account of produce that has to be brought in during the off season, but even making some consideration on this account, the figures do not read well.

The exports from United States points to this province last year amounted to \$3,129,425 in value, while the British Columbia imports into Seattle were \$551,762, largely made up of copper, paper and coal.

The heavy shipments of agricultural produce passing through Seattle to British Columbia, where they might be grown under almost equal facilities, are worthy of special mention. A partial list of the goods with the corresponding value is as follows:

Apples, 5,812 boxes, \$5,929; beans, 808 bushels, \$3,622; butter, 514 cases, \$8,354; cheese, 179 cases, \$1,578; eggs, 1,347 cases, \$9,868; dried fruit, 875 cases, \$2,337; fresh fruit, 6,219 cases, \$12,082; meat, 2,369 cases; \$21,079; seed 446 sacks, \$4,056; wheat, 1,754 bushels, \$2,262; vegetables, 3,222 crates, \$7,303.

These figures indicate clearly that there is something wrong in the production or marketing of agricultural produce in British Columbia.

§ § § § §

IF ANY fruit growers think that in asking for some reckoning or promise of such in regard to unpaid water rates, the Council are going too far, they should stop to consider the question as it affects the whole body of orchardists. Some say that to deprive any lot of water for the non-payment of rates is taking away from the owner any prospect of making money off his land. Bricks cannot be made without straw, these people say, and neither will our land produce anything without the water. The same reasoning applies to the position of the Municipality as the providers of the water for the entire district. They cannot do their share without the people on the land help. Work cannot be done without money, and the time has past when the amount that comes in from those who make great effort to keep paid up is sufficient to provide the means for doing all that has to be done. Every year a great deal of improvement becomes necessary, in which all have benefitted in the past, irrespective of whether they have paid their rate or not. If a person makes no exertion to provide for payment, who should suffer, just the one person, or all his neighbors who perhaps are no better off financially than he, but who move heaven and earth to pay their rates? The idea is not to lay down an arbitrary ruling, but evidence must be produced to the Council that efforts are being made to clean up arrears. Their decision is in short an effort to sort out the sheep from the goats, to separate the "won't pay" man from his better disposed fellows. It is certain that no business house would have been so easy in the matter of these arrearages as the Municipality has been up to now, and there is a feeling that this leniency has been taken advantage of in some cases.

§ § § § §

SOME OF the most glorious achievements of British arms have not been associated with victories but defeats. Yet in such cases the splendid fight against odds, the heroic resistance till the bitter end, the difficulties and hardships so bravely endured, usually go far towards lessening the sting of defeat. So it was in the surrender of Kut-el-Amara to the Turks lately. General Townshend did not stop to bicker when ordered to do what his judgment told him was not for the best. It does not matter to the British soldier that "someone has blundered," and so the exploit of Kut-el-Amara takes its place in the illustrious annals of British arms. The expedition failed in its purpose, but what a shining example of British tenacity and dogged heroism the incident provides! Like the Gallipoli fighting in this war, Stormberg, Colenso and Magersfontein of the Boer War and Rourko's Drift and Khartoum to earlier campaigns, but will have a permanent place in British history from now on. The whole empire will await the full story of that one hundred and forty-three day siege with eager interest, and in the certain knowledge that British traditions have been well upheld.

§ § § § §

TO SPEND \$25,000,000 a day on war, to finance about half the world, to raise a billion and a half yearly by taxation and to do it all without new machinery or oppressive imports shackling trade—history may yet decree that the most marvellous thing about the Great War was British finance.—Toronto Globe.

## Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C.,  
May 3, 1916.

Editor, Summerland Review.

Dear Sir,

In the issue of the Review of the 28th ult., I notice an article dealing with local criticism of the government bull stationed here.

About a year ago I made a public criticism of the bull's breeding as an animal being used as a foundation for our community herd. My statement has not been refuted.

The fault lies, not with Dr Tolmie, but with the local Live Stock Association. An association formed to foster such an important branch of our farming business, should have sought to enlist every farmer in Summerland and called a meeting to discuss this very important matter in every detail, before a purchase was made.

The first topic for discussion at the first meeting of the association should have been a "Standard of Excellence."

No breeder has ever made a success of his stock breeding who has not first got clearly established in his mind what he wants in the animal he is breeding.

This, I understand, was not done.

Then comes the amusing situation of some of our councillors who, having passed a by-law requiring a fat test of 3.50 per cent in milk offered for sale, sanctioning the purchase of an animal whose dam tested only 3.30 per cent fat. The members of the association most surely showed inexperience in live-stock breeding by not recognizing the first law thereof, viz., "Like Begets Like."

I have always tried to point out that since the greater number of our farmers will keep but one cow, whose milk they will use on their tables, they will want milk testing a little richer than 3.30 per cent fat. The neighbors who buy from them will demand at least 3.50 per cent.

Then the condemnation of those who are not acquainted with the breed rests upon the poor cow.

A dissatisfied community—Is that a bright outlook for our Live Stock Association. Dairying, as Dr Tolmie is doing it and dairying as we are now drifting into, are two very different things. Dr Tolmie knows his business, but we don't like to drink his milk.

Now, is it the breed?  
What do other breeds test as dairy run?

What is the average shorthorn test? About 3.25 per cent.

The only pure bred Ayrshire cow that I know of in Summerland tested only 3.30 per cent.

There are individuals of any of these breeds whose dams test 4 per cent fat and give a good quantity as well, which would have made a splendid foundation for our community herd.

Why weren't we allowed to start right? The reason is evident.

Our only remedy now is a co-operative dairy, handled by men who have had experience and training in the business.

Yours truly,  
A. A. DERRICK.

## Home Comfort Club's Vermin Proof Garments Fill The Bill.

Letters like the one printed below show how the boys in France appreciate the efforts of the Home Comfort Club in providing sundry articles that add inestimably to the comfort of the soldier on service. The vermin-proof garments which are mentioned in this letter seem to be almost an indispensable article in meeting uncontrollable conditions of trench life.

British Expeditionary Force,

France.

April 3rd, 1916.

The Home Comfort Club,

Summerland, B.C.

Dear Mrs Hogg:

Kindly intimate to your splendidly organized Club my appreciation of the parcel sent me, containing the numerous comforts, which reached me an hour previous to my writing. Everything arrived in as good shape as when they were packed. The vermin proof garments will fill a long felt want, as the British sense of fair play demands that we only fight one scourge at a time. And it is a matter of consideration with men which of these two is the most repulsive.

Thanking you again for your consideration, I remain,

Yours very sincerely,

JACK STEVEN.

## A Useful Invention.

A distinctly practical idea, and one that it appears is likely to be taken up with by the military authorities, has been advanced by Mr W. B. Hines, of Okanagan Falls. It relates to the comfort of soldiers in wet trenches. Mr Hines' suggestion is that soldiers could keep their feet perfectly dry and warm in wet trenches by wearing oilskin stockings as well as the ordinary trench sock or stockings. A thin sock, he says, should be worn next the skin, then the oilskin, next the ordinary stocking, and then the boot. Mr Hines adds that he has originated this idea himself after suffering tortures both at the time and in the shape of after effects, through long wading about in water day after day.

After various experiments, [an oilskin stocking is being produced which go well above the soldiers' knees, procurable at a cost of about \$1.25 per pair, a reasonable enough price in comparison to the comfort they must bring to the soldiers.

### The Woolly Aphis.

(Schizoneura Lanigera).

The Woolly Aphis is widely considered the most troublesome insect pest of apple trees we have, from the difficulty experienced in cleaning up an orchard infested with it, and its harmful effect upon the trees. Its name of Woolly Aphis is derived from the secretion resembling fine cottony fibre, which more or less covers its body. The insects appear on infested trees during the summer in masses like tufts of cotton, attached to the twigs or leaves, beneath which will be found the bodies of the insects. During the winter months they shelter under the bark or in cavities in the wood of the trees, but more often descend to the roots; large numbers will often be found at or near the collar of the root.

The eggs of woolly aphides are to be found singly in crevices of the bark, enveloped in the dry skin of the female. During the summer months they reproduce in the same manner as green aphides, but winged forms appear only in the fall. During mild winters, woolly aphides may be found in different stages of development, showing that if egg-laying takes place, the eggs probably hatch off at once, and new colonies are started. The prevalence of dead-spot or bark disease in apple trees gives just the condition of the bark which favors the pests, by providing them with shelter, and increases the difficulty of reaching them by spraying. It is therefore important that, as far as possible, dead and decayed bark and all surplus limbs and branches of infected trees should be removed before spraying is done, to allow the spray mixture used to penetrate all parts of the trees.

The best winter spray to use is self-boiled lime, sulphur and salt. Another winter wash is very effective:—1 lb. concentrated lye, 1 lb. whale-oil soap, and 5 galls. water. This may be applied with a brush, or with the power pump, if used warm. One application in the fall, and another before growth commences in the spring. During the summer months, the masses or colonies of aphides occurring on the limbs may be destroyed by touching them with a brush dipped in coal oil, or spray with Black Leaf 40, 1—700. It will be necessary to repeat the treatment at intervals to keep the pest in check.

For the root form of woolly aphid kerosene emulsion is very effective. 2 galls. coal oil, 1 gal. water, 1 lb. hard soap. Boil soap in water till all is dissolved; then, while boiling hot turn it into the kerosene, and churn the mixture well for at least five minutes, when it will appear a smooth, creamy mixture. The above quantity of 3 galls. will make 80 galls. wash.

To increase the effect, the roots of infected trees should be uncovered as far as possible before applying. Tobacco leaf or refuse dug in about the roots will also help to keep down the pests.

JNO. TAIT,

District Fruit Pest Inspector.

Now is a good time to take a glance over your back yards and devise some plan to ostracize the fruit cans and rubbish which have accumulated since the last installment was removed. You can generally judge of the occupants of a house by the condition in which the front and back yards are kept. In a general sense we all pride ourselves on being cleanly and tidy.

What you don't say doesn't hurt you or anybody else.

## PEDIGREED Duroc Jersey Swine

The Government records show the following percentage of increase or decrease (1910—1915 compared) of the breeds:

Berks . . . . .19 per cent loss	Chester White 47 p.c. gain
Yorks . . . . .19 " " "	Poland China. 222 " " "
Tams . . . . .7 " " "	Durocs . . . . .653 " " "
Hampshire .50 " " "	

This is a correct view of the way the people have headed in five years—showing a big tendency toward thicker hogs, and especially the DUROCS. My herd contains some of the best Duroc blood in Canada and the States, and is from stock that has never been defeated in the Shows from Winnipeg to Victoria.

Orders booked now for April and May Pigs—Your choice of 10 litters.

# OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

## Ladies' Aid Society.

The regular yearly meeting of the Ladies' Aid Society was held in the church basement on Wednesday afternoon with a good attendance. The meeting was called to order at three o'clock by the president, Mrs M. M. Allen, when, after the regular routine of business, the chair was then taken by Rev. R. M. Thompson, who, in a very neat speech, congratulated the ladies on their very efficient business methods. The ladies are pleased to state that after paying up all their accounts and giving \$50 to the treasurer of the church for church purposes during the year, doing what they could for Red Cross purposes, and sending a goodly supply of clothing to Vancouver for Salvation Army purposes, and having paid for their fine piano, they still have in the treasury, something in the neighborhood of seventy dollars, which is indeed an excellent showing. The regular election of officers then took place, Rev. Thompson nominating the whole Aid, as, in his opinion, every lady was eligible for nomination. Ballots were then distributed around, with Mrs J. M. Myers and Mrs Thomas Kenyon acting as scrutineers. The balloting resulted as follows: Mrs J. M. Myers, President; Mrs M. M. Allen, Vice-President; Mrs Thos. Kenyon, Secretary; Mrs T. H. Boothe, Treasurer. The other committees were appointed from the chair, and are: Miss Edna Noyes, Superintendent of Flower Committee; Mrs Davies and Mrs Cook, Purchasing Committee.

The meeting was then brought to a close by singing that good old hymn, "Blest be the Tie that Binds," after which Mrs. Fred Young and Mrs Kenyon served refreshments.

## Rev. R. M. Thompson Appreciated By The Naramata Church

After the annual church meeting of the members and adherents of the Naramata church on Wednesday evening last the crowd repaired to the basement where the ladies had prepared dainty, and withal, abundant refreshments. In the course of the merry proceedings a hearty vote of general appreciation, proposed by Mr J. H. Pushman, and seconded by Mr Jas. Young, was tendered Rev. R. M. Thompson for his faithful and effective services as pastor during the past year.

In the general reports, as handed in by the various heads of the church departments, a noticeable feature was the entire lack of deficits. From the Sunday School to the Ladies' Aid, all showed creditable balances, and indicated that however other persons and places may talk of hard times, there is no such conditions prevailing at Naramata.

The pastor, in making a report, added emphasis to the plea put forward by the Sunday School Superintendent, Mr J. H. Pushman, for a larger attendance at the Senior Bible Class, the pastor expressing his desire to have more men of the stamp of our Bible Class teacher, Mr Bartlett, in his church at Pentiction. Another pleasing feature of the evening was a number of musical selections in which Mesdames Allen, Lyons, and Williams appeared to advantage as soloists, while Mrs Russell Wells gave a reading entitled "Pledged With Wine." Mrs Boothe acted as accompanist.

## Memorial Service.

A memorial service for the late Arthur Hayward, another of our heroes, was conducted in the church on Sunday afternoon. The pastor took as his text that ever helpful passage of Scripture, "Let not your heart be troubled," found in St John xiv chapter, 1st verse. The whole discourse throughout was very helpful, not only to those in immediate bereavement, but also to those who have sons, husbands, and brothers away doing their duty in the present crisis. To die at one's post of duty is to die a noble death. All such pass on to a larger and fuller life, the preacher went on to say. Miss Enid Raynor sang very sweetly, "Sleep On, And Take Thy Rest, Good-Night." The hymns were all very carefully selected for the occasion, Mrs Allen presiding at the organ. Rev R. M. Thompson of Pentiction conducted the service, which was largely attended.

## The Women's Institute.

The regular monthly meeting of the Women's Institute was held on Tuesday afternoon in the club house. There was a large attendance, practically all the members being present to respond to the roll call. The afternoon's program was of unusual quality, and included a paper on Current Events by Mrs T. I. Williams, a paper by Mrs C. Aikins, entitled "Some Aspects of the Drama." Another reading greatly appreciated by the ladies was that of Mrs McGregor of Pentiction, whose readings are always very helpful and inspiring.

A very hearty vote of thanks to Mrs McGregor, proposed by Mrs J. H. Pushman, was responded to by the whole institute.

With over forty members, we have now in our midst a real, live institute, the method of conducting business being most gratifying.

## Current Events - OF - Town & District

Subscribe for the Review and stop borrowing.

Mr Keyes of Pentiction motored into our town for a few hours on Sunday, attending the memorial service.

Mr Jno. Pushman, senr., has so far recovered from his illness to enable him to resume his duties at the school.

Miss Hall has returned home after a very pleasant two weeks spent with Mr and Mrs Fred Young on the south benches.

The Naramata Boy Scouts are planning a Pie Supper and Concert to be given in the Scout Hall on Thursday, May 18th.

Miss Margaret Allen, who has been visiting in Pentiction for a few days, returned home on Sunday, coming up by motor car.

Sergeant Ed. Hayward of Kamloops, son of Mr and Mrs James Hayward, after a few days visit with his parents here, left again on Saturday morning's boat.

Mr and Mrs Geo. Dempsey drove down to Pentiction on Sunday where they attended the services held in the Methodist Church of that town, it being the annual meeting of the Oddfellows, who attended in a body. The service was ably conducted by Rev. R. M. Thompson.

The Boy Scouts of Naramata in a body attended the Boy Scout Concert over at Summerland on Thursday evening last. The boys are very enthusiastic in the statement as to the splendid time they had, and what a good concert was put on, all stating that the Summerland people used them white, and that they are ready to go again at any time.

The regular yearly meeting of the Naramata Ladies' Unity Club was held on Friday afternoon, April 28th, in the club house. The election of officers resulted in Mrs

W. W. Mitchell being elected President; Mrs G. Cook, Vice-President; Mrs Languedoc, Secretary, to act permanently after September; Mrs Fred Manchester to take her place till that date, when she expects to leave Naramata; Mrs Salt- ing, Treasurer. A very pleasant afternoon was spent by all present, Mrs Julius Block and her daughter, Miss Block, serving refreshments.

## Tom Sawyer and Huck Finn

Are not yet dead. The report that the two notable characters, Tom Sawyer and Huck Finn are mere myths of the imaginative brain of one, Samuel Clements, generally known as Mark Twain, is a fabrication. The wise heads of Naramata—and there are a number of such—declare that amongst the "bunch" of youthful boyish citizens here, are a number of duplications of the two famous historical characters. The latest "stunt" is to construct a considerable stretch of narrow gauge railway with real rails fastened down with real spikes to very good imitations of the railway tie. It is true the track has never been subjected to the critical inspection of an engineer's level. It is true, too, that no two of the ties are the same distance apart—for these railway magnates are not bound by petty rules of construction. It is also true that no "right-of-way was purchased—or even asked for—why should the "kings of the forest" ask permission from mere men. Not they. And now behold the railway track, constructed during the recent Easter holidays, and behold, too, the one solitary hand-car upon which the proprietors disport themselves during their spare moments when not trifling with the problems of Euclid and algebra and kindred vanities.

## CARD OF THANKS.

Mr and Mrs Jas. Hayward wish to express their sincere appreciation of the particular and public manner in which the people of Naramata expressed their sympathy with them. Also to the many friends who have written about the loss of our dear son, A. H. Hayward.

Perhaps no class of people meet with so much or so severe criticism as teachers. Much of this criticism is unjust and exists solely because parents and others listen to unverified reports, and do nothing to acquaint themselves with the real inner workings of the school room.

## SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

Passing Events: Social, Personal, &c.

Within the space of a week, Mr J. H. Bowering has learned of the death of two nephews, killed in service in France.

Mrs Lister and Miss Lister returned on Saturday from Kelowna where they spent the Easter vacation with Mr. Lister.

TENDERS are asked for the finishing of the isolation ward at the hospital. Specifications on application to H. C. Mellor.

Clarence Elsey went out to Vancouver Tuesday where he will have his eyes treated. He will visit Victoria and the boys in the military camp there before returning.

Another promotion has come to C. N. Borton, who joined the 103rd as a private some months ago. Sergeant Borton is now his official designation. He writes home that he hopes to be going overseas soon.

Missionary Sunday will be observed in the Methodist Church on Sunday next, the morning service at 10.30 being in the Methodist Church, and the evening service at 7 o'clock being in St Andrew's Church. A hearty invitation is extended to all.

One hundred and seventy-two dollars was forwarded Monday by the local branch of the Canadian Fund to the provincial treasurer. It was made up of monthly contributions totalling \$165 and cash donations \$12; less \$5 for hall rent last October.

Monday morning saw a good number of soldiers who have been home on "seed time leave" return to their regimental headquarters at Kamloops. Among them were S. Bartholomew, R. Barkwill, R. Verrier and Thos. Whitfield. Messrs F. J. Nixon and W. J. Beattie were also among the party, going to join up with the regiments into which they have enlisted.

As a result of measles contracted since the family went to Vancouver, little Willie Ritchie is lying critically ill with bronchial pneumonia. On Tuesday his temperature was alarmingly high, but on Wednesday it did not go quite so high. Our citizens generally will all wish that the little sufferer may be spared to return to us. His little sisters are also ill but recovering satisfactorily.

Father John Duplanil, now in charge of the Catholic Churches at Penticton and the Indian Reserve, held mass here Wednesday morning. Father John, as he is generally known, is a native of Lyons, France, and spent six years studying in Belgium. He is taking a very active interest in his Indian proteges and is urging the Department of India Affairs to establish a school on the Reserve.

Mr and Mrs George Craig returned to Summerland last Saturday evening after a short honeymoon spent at Vernon. Whatever hopes they may have cherished of being able to slip off the "Seamans" unheralded to surprise their friends must have been swept aside when they heard the boat commence a joyous tatos on its syren. When still some miles off the captain opened his program, and the wise ones who heard the unmistakable joyous whistlings soon got wise as to what it meant. The friends of the popular young couple were thus given ample time to gather and prepare the manner of welcome to be extended to the travellers. But the bride and groom outmanoeuvred them all by remaining on the boat and proceeding on to Penticton, from whence they came on up to Summerland by automobile the same evening. Mr and Mrs Craig are taking up residence in the Stark boathouse.

The Imported Shire Stallion, Nottingham . . . Dusky Rhodes No. 798, will stand for the season at my stables, Garnett Valley.

Every Saturday at English's stables, commencing Saturday, May 6th.

For terms, &c., apply to L. S. MELROSE, 'Phone 594.

After an extended visit to Winnipeg, Mr J. M. Sutherland returned home on Tuesday.

Miss Georgie Elsey has returned from Peachland where she had been engaged with Messrs Thompson & McCall.

D. H. Watson, who returned from Vernon where he spent much of the week, went out to the Prairies Monday morning.

S. R. Fraser has sold his barber business to C. E. McCutcheon. He has also disposed of his Ford runabout to Ben Maine, of the Summerland Lumber Co., Ltd.

Harvey Phinney and Charles Stewart, two Summerland boys enlisted in the 9th Cycle Platoon at Toronto, left there on April 25th, for Halifax, where they embarked on the transport "Olympic."

Mayor J. W. Jones of Kelowna is spending a good part of the week here attending to various matters of business. He attended an executive meeting of the local Conservative Association on Wednesday evening.

It is understood that Mr and Mrs Gerald MacLaine will occupy the cottage soon to be vacated by Mr and Mrs Vaughan. Mr MacLaine's parents are coming from Canso, N.S., to spend the summer, and may be accompanied on their return next fall by Mr and Mrs MacLaine.

The bridge on the lakeshore drive crossing Deep Creek, about three miles south of Peachland, has been washed out by the rising waters of the creek, the supports having been torn from under the wooden portion. A bridge a little higher up is being used till repairs are effected.

Ralph Brown, who enlisted some weeks ago while studying at the Ontario Agricultural College, Guelph, is now a corporal in the 56th Overseas Battery of the Canadian Field Artillery training at Guelph. He expects to go to Kingston shortly to take a sergeant's course.

The mounted specimens belonging to the Department of Agriculture showing the metamorphosis of various pests to be found in this district, and the effect of certain pathological diseases on plant foliage, after having been on exhibition in the Review Office window for some weeks past, are now being shown at West Summerland, in the window of McWilliams Drug Store.

Mr and Mrs Ephraim Evans, of Brandon, accompanied by their young daughter, reached here the first of the week for a short visit. Mr Evans has two orchard properties here which are being cared for by F. G. Barnard. The visitors are homeward bound having spent nine months in California and the winter in Victoria. Their son James, who spent a summer here, is now engaged extensively in lumbering in the Peace River district of northern Alberta.

As you drive around the district these days, do you take time to revel in the beauties of Summerland in the spring time? Put everything else out of your head, and give yourself over to the enjoyment of the prospect. The peach trees enveloped in their mass of delicate pink blossom, the profuse and fragrant cherry blooms, and the plum trees just bursting into blossom—these are only a few of the beauties one can note in the orchards just now. The roadsides, too, are green with spring growth, and on the hillsides the bright Okanagan sunflowers and the pure white Saskatoon blossom are doing their share towards conveying the message of springtime to all and sundry that pass by.

The Ambulance League are making a special appeal for more socks for soldiers. Monday, May 22nd, will be "Sock Day" in Summerland, when instead of the usual Ambulance League meeting it is proposed to hold a sock shower in St Stephen's Parish Hall. Afternoon tea will be served at a small charge in aid of the league, and donations of socks will be most gladly received. Those who have not time to knit a pair between now and that date are asked to buy suitable ones so that a good supply may be collected in answer to this appeal. The Ambulance League continues to meet every Monday afternoon for Red Cross work. If only every woman would do her share in this work there would be sufficient supplies for all our soldiers at the front.

Dr C. A. Jackson and family have removed from Penticton to Agassiz, where they will reside for an indefinite period.

Duncan Woods returned home on Thursday, having made a rather extended visit to the Slokan and Spokane countries.—HedleyGazette.

It is understood that C. H. James, municipal electrician, whose father died a few weeks ago in England, plans to go home just as soon as he can get his affairs adjusted here.

Mr J. W. Wheeler, manager of the Summerland Lumber Co., Ltd., is expecting a touring car from Vancouver taken in exchange for equipment with the purchaser of the old mill site.

Pte. Harold Smith went out last Saturday morning after enjoying leave at home for a month. Mrs Smith accompanied him on returning to Kamloops, and will remain there at least for a time.

Mr and Mrs Rennie, late of Sherbrooke, Quebec, an advance notice of whose coming was made on this page last week, reached here Monday and have taken up residence in Garnett Valley.

Rev N. McNaughton has chosen for his subject at the Sunday morning service in Parkdale Church, "Life's Centre." At the Lakeside Church in the evening his subject will be "Vicarious Sacrifice."

A school was opened on Monday morning at Meadow Valley, a room in S. R. Darke's house doing temporary service. The school will have an attendance of ten children, and is being taught by Mrs J. J. Baker.

If our readers see any way by which our, as well as your newspaper can be improved and made more helpful and entertaining, the editor is not only willing, but eager to hear of it. We are always on the lookout for something better, and by helping us you profit thereby, and by benefitting you we gain thereby.

VISIT YOUR SCHOOLS.

How many of our school children's parents ever visit the schools or even know the teachers when they meet them on the street? How many know what their children are studying or how they are progressing? Is there any of you who have a building to make or a fence to build, a dress to make, a house to paint or whatever the job may be, that say to the one employed to do it: "Here are the tools and materials, go ahead and do it to suit yourself and it will suit me." Is not that what many of you are doing with your children? You say by your actions: "Here is my child with its books, papers and pencil. I've furnished materials and tools, educate him as you like."

A saloon-keeper said to an old friend, "Well, I see you've been up to the tabernacle and given Billy Sunday your last nickel, and now you've got to walk home." "Yes," replied the old friend, "and many a time I've given you my last nickel and couldn't walk home."

The Salmon Arm Farmers' Exchange, which in addition to undertaking the packing and shipping of agricultural produce along the same lines as the local Fruit Union, also conducts a co-operative retail store, paid last year to shareholders a dividend of 15 per cent on their cash purchases, in addition to providing a dividend of 10 per cent on the ordinary shares.

One hundred and seventy-five Methodist ministers from all parts of British Columbia are planning to attend the thirtieth session of the provincial conference to be held at Vancouver, May 22 to May 28, Church Union having been disposed of as far as the Methodist Church is concerned, it is understood that there are no particularly burning questions to be thrashed out, although there is a long program of business to be considered by the conference. Rev. R. J. McIntyre, formerly of Summerland, is secretary of the conference. Rev. R. W. Lee is down for an address on "Prohibition, the Church and the Social Centre," during the progress of the conference. Mr Lee will also conduct an evening service in one of the Vancouver Methodist churches on the Sunday which falls within the dates of the conference.

Rev. C. H. DALY WILL GO TO FORT GEORGE.

Rev. C. H. Daly has had under consideration for some days a request from the Home Mission Committee of the Presbyterian Church that he go to Fort George to take charge of the work there. Mr Daly has for years specialized in just this class of work, hence the offer and the appeal as a call to duty the request has been. The realization of the strategic value of the situation in that new field has helped Mr Daly and family decide to make the change.

In conversation with the Review Mr Daly told of how hard it was to leave Summerland, especially when he considers his family of little ones. He describes conditions here ideal to bring up a family and were it not wholly impracticable, he would leave Mrs Daly and family here.

Our readers generally will greatly regret to learn of the decision to leave for other fields, which they will probably do in a few weeks.

There are two little words, simple enough in themselves, that introduce untold trouble in the world and responsible for more gossip, scandal, and harm than any two words in the English language. These two words are nothing more than, "They say." They have done more to ruin the reputations than all other things. If you never quote what "they say" you may be quite certain you are not a gossip.

We are tempted to speak a word to our merchants. We do it only with the best intentions. We are thankful that you have placed your ad in our columns. Our many wideawake readers will see it and they will read it. If the merchants wish to keep trade at home, they must, of course, let the public know what goods and what inducements they offer. The great merchants of our larger cities are constantly advertising at an enormous expense, but it pays them; and it was by shrewd advertising that they became successful. They cannot afford to stop, or else they would. Our merchants can't afford to stop advertising in their local paper. Advertising pays, even if you have no competition.

Summerland Fruit Union.

UNITED GROWERS WILL MARKET FRUIT FROM BOUNDARY COUNTRY.

Recognizing the worth of the Okanagan United Growers as a selling force in the fruit markets, there was started a movement on the part of several of the organizations and large producers of the south-eastern portion of this province to link up with the organized growers of the Okanagan, which it is said has finally resulted in the Okanagan United Growers undertaking to act as selling agents for growers in the Kootenay and Boundary districts.

Manager Jackson has just returned from that section where he went by invitation, and though details are not yet available, it is understood a large quantity of berries, soft fruits and apples will be marketed from there by the Growers, thus further guarding against price cutting.

State your needs in 'THE REVIEW' 'WANT' Column.

Gentlemen.

Having purchased from Mr S. R. Fraser the business conducted by him, I beg to announce that commencing Monday, May 8th, I will be at the West Summerland shop during the hours between 4 p.m. and 10 p.m. daily except Thursday.

Hours down town will be from 8 a.m. to 3 p.m., and Thursday evening. Your esteemed patronage is solicited.

**Newsy Paragraphs**  
from  
**PEACHLAND**

Mrs J. McLaughlan was a visitor to Kelowna on Monday of this week.

The bridge on the lakeshore over Deep Creek went out with the high water on Wednesday night.

The Misses Gertrude and Olive Gummow visited Kelowna on Wednesday, returning the same evening.

Mrs J. H. Clements and two daughters, Eileen and Flossie, paid a visit to the dentist at Kelowna on Wednesday.

The Misses Whitworth of the public school staff, who have spent their Easter vacation at Chilliwack, returned on Monday evening.

Mr Erskine Brown drove up from Penticton in his car last week to spend a few days with his parents, Mr and Mrs J. Brown.

The Misses Jean and May Ritchie, old residents of this place, now of Summerland, spent a few days last week with their friend Miss Murdin.

Mrs J. L. Vicary and daughter, Miss Mary, spent Tuesday and Wednesday with friends in Kelowna, returning by the evening's boat.

Miss H. Gummow was a passenger to Penticton on Wednesday night. She intends staying a few weeks with her brother and sister there.

The regular monthly meeting of the Women's Missionary Society of the Methodist Church was held at the home of Mrs N. S. Elliott on Wednesday afternoon.

Peachland's dairy herd is still increasing. Mr O. Keating purchased five head at Westbank last week.

On Wednesday afternoon the Ladies' Aid of the Presbyterian Church met at the home of Mrs R. E. Taylor.

In the absence of Miss F. Whitworth on Monday, Miss Olive Ferguson substituted in the primary department.

Miss Betty Buchanan, who has been visiting at her home for the past week, returned to Penticton last Saturday night.

Miss L. Moule, High School teacher, returned on Saturday evening, having spent her holidays at her home in Salmon Arm.

A number of the farmers are already shipping cream to the creamery at Kelowna. Another step to prevent a community leakage.

Mrs Jas Miller, who has lately occupied the house of Mr R. M. Whyte, on Monday moved to Mr O. Miller's cottage on Beach Avenue.

Miss Cather, who has been working at the home of Mr H. E. McCall for last few months left for Okanagan Centre on Saturday morning.

Mrs J. L. Vicary and daughter, Miss Mary, having spent the winter in Mr S. Lang's cottage near town, moved to their orchard on the flat for the summer months.

Mr W. J. Robinson of Summerland was in town this week on business connected with the irrigation company. While here he was the guest of his sister, Mrs M. McDougald.

Sergeant Ed. Hayward of the 172nd, an old resident of Peachland, spent the week-end with his sisters, Mesdames J. L. Elliott and J. Wright, returning to Kamloops on Monday morning.

Mr and Mrs R. E. Taylor and Miss B. McLaughlan drove to Penticton last Saturday on a visit to Mrs Taylor's sister, Mrs D. H. Kirkby. They returned home the following evening.

Miss G. Elsey, who has left the firm of Thompson & McCall, was a passenger to Kelowna on Tuesday morning. She proceeded down the lake the same evening to her home at Summerland.

Mr Young, Comptroller of Water Rights, of Victoria, arrived in town on Tuesday evening to spend a few days in connection with the work now being done on the irrigation system by the government.

Mr Davis, government engineer from Victoria, and his staff of helpers came in on Friday evening. They have been sent in by the government to value the irrigation company's plant prior to its being purchased by the people.

Messrs B. F. Gummow and H. Ferguson, who have been spending Easter holidays at their homes here, rode to Penticton last Saturday afternoon to resume their duties as teachers, the former at Penticton, the latter at Fairview.

Miss Gertrude Gummow left for Penticton on Saturday evening to take up her duties again on the public school staff. She was accompanied as far as Summerland by her sister, Miss Olive, who teaches in the Garnett Valley School.

Private Samuel Michael of the 121st Irish Fusiliers, who has been visiting at his home for the past two weeks, returned to Vancouver by Thursday morning's boat, to join his regiment. He expects the 121st to be moved overseas shortly.

Mr Leslie Rogers, High School Principal of Kelowna, and Liberal candidate for South Okanagan, paid us a visit last week. A meeting of the local Liberals was held in the Council Chambers, Wednesday night. He spent Thursday going over the district, returning the following morning.

Mr Thomas of Kelowna visited town last week, in the interests of the Kelowna Creamery. A well attended and enthusiastic meeting was held in the store of Thompson & McCall. Mr Thomas urged that the farmers send their cream to the creamery, as a higher and more uniform grade of butter resulted from their methods, than when each individual farmer makes and markets his own output. He pointed out that in thus co-operating they would be able to command a better price.

Thursday last was the day set for the first riding party of the season.

First Primer B—Elsie Riley, Bertha Riley.

The value of any paper as an advertising medium is the circulation multiplied by the purchasing power per subscriber, then divided by the rate. The reasonable advertising rates of the Review and its thorough circulation through the district are strong points in its favor, but the high average purchasing power per subscriber also tends to make of this paper the very best local advertising medium obtainable.

The morning was cloudy and cold, but towards noon the sun shone forth in all its splendor. Shortly after one o'clock riders to the number of fifteen had assembled, their objective point being the Fish Lakes, some seven or eight miles distant. A couple of hours riding brought them to their destination. A short time was spent in games and viewing the beauties of the country. After having enjoyed the contents of their lunch baskets, the horses were saddled, and all started on the return trip. The party arrived home in good time after having spent several very enjoyable hours.

**"Can't Afford It"**

That's what a merchant said the other day about his advertising. He said that trade was falling off and that he would have to economize.

**Advertising**

is to stimulate business, but evidently Friend Merchant has it figured out that when times are good and folks have plenty of money to spend, he will demonstrate the advantage of spending it with him. But in dull times he will let the other fellow have the business.

**It is a Fact**

that advertising pays better when times are dull. It is the open season for bargain hunters, and the merchant who has nothing to offer the economical buyer is the first to suffer. The time to advertise is all the time and you can LEAST AFFORD to quit when you need the business most.

**Production and Thrift**

**CANADA'S CALL  
FOR SERVICE AT HOME**

**Produce More and Save More**

before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever

**Make Your Labour Efficient**

possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

**Do Not Waste Materials**

our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain, are not only "doing" but are learning to "do without."

There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain, are not only "doing" but are learning to "do without."

**Spend Your Money Wisely**

finance the war. Save your money for the next Dominion War issue. There can be no better investment.

Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the front. Your savings will help Canada to

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 41. Whole No. 406.

SUMMERLAND, B.C., MAY 12, 1916.

\$2.00, payable in advance.

## 7,000 Troops To Train At Vernon

On and after June 1, the military forces enlisted for overseas service in Canada will go into camps for summer training in different parts of the Dominion. In the East, preparations already are well under way for the opening of large concentration centres at Valcartier, Quebec; Barriefield, Ontario; and other points. Sewell, Manitoba, better known as "Hughes' Camp," and at which the British Columbia Company of the Universities Battalion will be trained, also is being made ready for the troops. In British Columbia, the Vernon Camp, at which over 5,000 soldiers were quartered last year, is to be re-opened on or about the beginning of June, but little yet has been done towards that end.

A statement was made by Col. J. Duff Stuart, D.O.C., last week, with reference to the Vernon concentration camp. He said that six battalions from the Mainland portions of the province would be placed under canvas at that place, and that with them would be details of the Canadian Army Service Corps and the Canadian Army Medical Corps. More than 7,000 troops, it was estimated, would train in the Okanagan.

The following units will go to Vernon this summer: The 158th Duke of Connaught's Own Battalion, and the 231st Seaforth Battalion, of Vancouver.

The 121st Western Irish, and 131st Fusiliers, now at Queen's Park, New Westminster.

The 172nd Cariboo Rangers, now at Kamloops.

The 225th Kootenay Battalion, now being mobilized at Cranbrook.

The new overseas section of the Field Ambulance Corps.

No. 21 Company of the Army Service Corps.

Col. Stuart stated that the camp would be re-opened by June 1.

The commandant for the Vernon Camp has not yet been nominated, Col. Stuart said.

The report that an infantry brigade is to be held on Vancouver Island has been authoritatively confirmed. Information to this effect has been conveyed to the commanding officers of the various units in barracks in Victoria, but it has recently been stated in responsible quarters that the soldiers are not going to be permitted to remain in their present billets, but are to be concentrated in some Island camp for training. Thus there will be two camps in British Columbia, one at Vernon and one on Vancouver Island.

There is no doubt that the Vancouver, New Westminster, and other Mainland troops will be required to concentrate at Vernon, as the effort made by the two former centres to induce the Militia Department to reconsider its policy in this regard has brought a reply which points out that the move is essential in the interests of the efficiency of the Western Canadian soldiery.

## Summerland Storehouse Delights Investigators.

Several Americans interested in the storing of fruit, and representing fruit growing and shipping organizations in Washington State visited this district last week on a tour of investigation. Their particular mission was to learn what style of building was best suited for holding apples during the winter. It would seem that Summerland has in the Fruit Union building the best in the Valley for this purpose, and that the Union warehouse is in fact the very best kind of building in which to hold over apples. The visitors investigated the store houses at Vernon, Kelowna and Penticton, as well as here, and got data on actual results. It would appear that the loss was greatly less in the wooden structure here than in the cellars, basements, or concrete block buildings investigated elsewhere. It may not be known to many of our readers that the Union building is double boarded both inside and outside the frame, with an insulation between each layer of boards of an inch or so of a material of the nature of felt. The floor is similarly constructed.

## New Packing House

### A. Stuart & Son At Work On Large Structure Near Mun. Hall.

The C.P.R. packing house, under lease to the Summerland Fruit Union, and sub-leased by them to A. Stuart & Son, will this year be used by the Union, with Geo. Craig as chief packer in charge of the work there. This has necessitated Messrs Stuart finding accommodation elsewhere, and they have finally decided to build. For a time it was thought that a good portion of their output might be packed in a building which the K.V.R. was expected to erect beside the station, and that the balance would be packed in a rented building, possibly the gymnasium. It would now seem that the major portion of the firm's shipments will be prepared in their own warehouse. They have purchased from W. C. Kelley a site northwest of the Municipal Office, and not far from the building occupied by them for the past two years, and will at once commence the building of a packing house about 50 x 80 ft. That part of their shipment produced in Peach Valley and vicinity will in all probability be packed at the railway station.

## Our Soldiers Greatly Appreciate Home Comfort Club's Efforts.

Somewhere in Belgium, April 11, 1916.

Sec. Home Comforts Club, Summerland, B.C., Canada.

Dear Mrs Hogg,

My tardiness in acknowledging your very useful and appropriate parcel is due to its going to my former address, Second C.M.R., instead of to the Third Div. Signaling Coy., my present address.

Some of my happiest recollections are of occurrences in the few short years spent in your community, and it gave me the greatest pleasure to read the three copies of the Review enclosed in the parcel that I have had since coming to France.

Thanking you very much indeed for the many useful articles.

I am,

Very Sincerely Yours,

HARRY J. MACLEOD.

D. of C. C. R. C. Hosp., Cliveden, Taplow, Bucks. April 16, 1916.

Dear Mrs Hogg,

Received the parcel from the Home Comfort Club, and wish to thank them very much for the work and trouble they have gone to to send these things over here to us fellows.

I am working in the issuing stores, something similar to my old job in Summerland. Jack Kennedy is here in the hospital. He is having a pretty good time. We have been out playing golf several times.

Thanking the Club again for their kindness.

I remain,

Yours Sincerely,

WILL ANGOVE.

## Ladies' Hospital Auxiliary.

At the annual meeting of the Hospital Auxiliary held in April the following officers were appointed for the new year:

President, Mrs Lipssett  
1st vice president, Mrs Clouston  
2nd vice president, Mrs W. H. A. Moore

Secretary, Miss Anna Haynes  
Treasurer, Mrs E. B. May

House Committee, Mrs Heapeler  
Purchasing Committee, Mrs Andrew, Mrs May, Mrs W. Watson.

Contributions of old linen will be gratefully received by the matron of the Hospital.

The regular monthly meeting of the Ladies' Hospital Auxiliary will be held on Tuesday afternoon, May 16th, at 3 o'clock, at the home of Mrs Heapeler.

## REGULAR COUNCIL MEETING

Another Interesting Session.

Problem Of Irrigation Rates Again Wrestled With, And Policy Further Fixed.

### Those Who Pay Will Be Given Water.

What Work Does, And What Does Not, Properly Come Under Direction Of Irrigation Superintendent, Is Still Unsettled Question.

The regular monthly meeting of the Municipal Council on Wednesday of this week occupied the biggest part of the day. The outstanding issue before the meeting was the matter of dealing with delinquent ratepayers. The Council has for some time been trying to work out a course that will induce the payment of a good proportion of the eleven thousand dollars past due on rates, and now they seem in a fair way to get at least a measurable portion of that sum. A full Council was present at the meeting.

### ARRANGING FOR PAYMENT.

A good many ratepayers who are in arrears came to the Council during the course of the day and laid out the endeavors they will make within the next few months to clear up part or all of their arrears. This was in line with the policy announced at the previous meetings and made known in other ways, that delinquents would be expected to make some provision for their back water rates, the alternative being that the Council would not furnish the supply this season. Others sent in definite propositions in writing setting forth what they will do along this line. Those who made verbal statements were asked to reduce the same to writing, so that the Council would have something definite to refer to if payment did not materialize.

The response so far to the efforts of the Council to get this money lying out in arrears has come from resident property owners. Non-residents are to be approached further, and once the situation is made clear to them, there is no reason why there should not be a good response from them as well. In some of these cases, the Council is not in possession of the actual owner's address. Special effort is to be made through any local representatives such people may have to get in touch with these owners, making it clear that there must be some arrangement made to cover the arrears, or the water service for this year will be withheld.

The ditchmen have been furnished with lists showing the property affected by this mandate, and when it is found that the Council is actually putting this rule into force, some recalcitrants may be brought into line.

### ANOTHER PLAN TOO DRASTIC.

During the discussion of one particular case, the suggestion was made by one of the Councillors that provision might be made to cover back rates by the ratepayer giving the Council an order on the shippers of their fruit.

In bringing this suggestion forward, Coun. Simpson said that the situation as to the arrears was working more hardship now than if drastic action had been taken years ago. Most growers, he said, contracted to sell their fruit for the season. The amount they got by the end of the season was much more than the sum due for the year's water rates. It was going to be left so that rates could remain unpaid, and nothing be said or done by the Council, it was only natural that the rates would get left till last.

Nevertheless, this course did not find favor in the eyes of other members of the Council. Neither the Reeve nor Coun. Johnston supported it, feeling that it might work too much hardship. The crops were, after all, quite an indefinite thing, and to tie a man down to parting with a portion of his returns, when after all those might not be large, would not work out well in a good many cases.

Councillor Stark observed that the rates were secured against the

## REGULAR COUNCIL MEETING

Another Interesting Session.

Problem Of Irrigation Rates Again Wrestled With, And Policy Further Fixed.

### Those Who Pay Will Be Given Water.

What Work Does, And What Does Not, Properly Come Under Direction Of Irrigation Superintendent, Is Still Unsettled Question.

The regular monthly meeting of the Municipal Council on Wednesday of this week occupied the biggest part of the day. The outstanding issue before the meeting was the matter of dealing with delinquent ratepayers. The Council has for some time been trying to work out a course that will induce the payment of a good proportion of the eleven thousand dollars past due on rates, and now they seem in a fair way to get at least a measurable portion of that sum. A full Council was present at the meeting.

### ARRANGING FOR PAYMENT.

A good many ratepayers who are in arrears came to the Council during the course of the day and laid out the endeavors they will make within the next few months to clear up part or all of their arrears. This was in line with the policy announced at the previous meetings and made known in other ways, that delinquents would be expected to make some provision for their back water rates, the alternative being that the Council would not furnish the supply this season. Others sent in definite propositions in writing setting forth what they will do along this line. Those who made verbal statements were asked to reduce the same to writing, so that the Council would have something definite to refer to if payment did not materialize.

The response so far to the efforts of the Council to get this money lying out in arrears has come from resident property owners. Non-residents are to be approached further, and once the situation is made clear to them, there is no reason why there should not be a good response from them as well. In some of these cases, the Council is not in possession of the actual owner's address. Special effort is to be made through any local representatives such people may have to get in touch with these owners, making it clear that there must be some arrangement made to cover the arrears, or the water service for this year will be withheld.

The ditchmen have been furnished with lists showing the property affected by this mandate, and when it is found that the Council is actually putting this rule into force, some recalcitrants may be brought into line.

### ANOTHER PLAN TOO DRASTIC.

During the discussion of one particular case, the suggestion was made by one of the Councillors that provision might be made to cover back rates by the ratepayer giving the Council an order on the shippers of their fruit.

In bringing this suggestion forward, Coun. Simpson said that the situation as to the arrears was working more hardship now than if drastic action had been taken years ago. Most growers, he said, contracted to sell their fruit for the season. The amount they got by the end of the season was much more than the sum due for the year's water rates. It was going to be left so that rates could remain unpaid, and nothing be said or done by the Council, it was only natural that the rates would get left till last.

Nevertheless, this course did not find favor in the eyes of other members of the Council. Neither the Reeve nor Coun. Johnston supported it, feeling that it might work too much hardship. The crops were, after all, quite an indefinite thing, and to tie a man down to parting with a portion of his returns, when after all those might not be large, would not work out well in a good many cases.

Councillor Stark observed that the rates were secured against the

land anyway, and ordinary creditors were not so protected.

The Reeve remarked that where the hardship came in was the fact that the arrears of rates cannot be used for security for a loan, as in the case of taxes. Thus the \$11,000 now out was just like that much dead money.

Several promises having been made in regard to the payment of 1914 rates, Councillor Simpson enquired if the Council were going to make any special effort to include the 1915 arrears also. Payment of the 1914 rates had to be made before August anyway to keep the land out of the tax sale. His opinion was that the 1915 rates should be arranged for also. Some ratepayers were only in arrears for 1915 in any case, while others were behind for 1914 as well.

The Council did not make any definite ruling on this question, however.

### ASKS FOR REFUND.

Mrs Hall, owner of an acre lot adjoining W. J. Beattie's, waited upon the Council in regard to the irrigation service to her property. She asked for a refund of her 1915 rates on the ground that the Municipality had never delivered water to her lot line as they should have done, owing to which trees and small fruits had suffered to a great extent. It transpired, however, that no complaint had been received by the Council last season in regard to this. A request had been made to allow the use of the domestic water service to irrigate a few trees near the house, and this had been granted. If any other complaint had been made, the Council held they could have attended to it. The lot is now properly supplied with a flume to the lot line, and no trouble is anticipated this season.

### DUTIES OF IRRIGATION SUPERINTENDENT.

The Reeve put a series of questions to Irrigation Superintendent Thomson who was present, as to the scope of his duties, and to whom he was responsible. He further had the Clerk read a memorandum prepared by the Council at the time of Mr Thomson's appointment, setting forth the duties of his position. The object of all this apparently was to discover by what authority Mr Thomson was having anything to do with the new work on the Garnett Valley flume. Mr Thomson stated that the Board of Works had instructed him to take this work in hand. The Reeve said he did not think the Board of Works had any authority to do so, unless their instructions came from the whole Council. Councillor Johnston, chairman of the Board of Works, spoke up at this juncture and stated that he had gone up there and found the work muddling along, the lumber all mixed up and non-paying the material on their backs about 400 feet. He did not want to see such expensive carrying on. A storm in a tuncup arose for a few minutes, but tranquility was soon restored, and the matter did not come up again during the meeting.

Later Mr Thomson asked by letter that his duties in regard to this undertaking be clearly defined.

### ASSESSMENT REDUCED.

The appeal lodged by Mr Heapeler in regard to the "Eberstein" property was passed upon during the morning. The members of the Court of Revision viewed the property in question last week, and it was decided on Wednesday to allow the appeal. Lot 61 was reduced from \$1,200 to \$800, and lot 62 from \$2,800 to \$2,700. This makes

(Continued on page 6.)

## Honor Roll Unveiled.

Peachland Remembers Defenders, And Pays Tribute To Fallen Soldiers.

Peachland, May 10th.—The ceremony of unveiling Peachland Roll of Honor took place at the Sunday morning service in the Methodist Church, which was filled to its utmost capacity. The service was a most impressive one, the music being suitable to the occasion, which was also a memorial service to the late Pte. Alexander Seaton.

On the table at the foot of the Honor Roll was a beautiful wreath of Easter lillies and roses, with a card bearing the words, "He loved Honor more than he feared Death," which was placed there by the officers and members of the Athletic Club, who were assembled in the two front seats to pay their last respects to Alex, one of their number, who was so highly esteemed by all.

As the choir sang, "O, Canada," Miss L. Morrison, costumed as "Britannia," and Miss M. Henderson as "Canada," both of whom now have brothers serving at the front, approached the altar from either side of the church, as the words "And with our lives, we'll guard thy liberty," were sung, the veil was withdrawn. The congregation arose, and remained standing while the pastor, Rev. A. Henderson, read the forty-seven names on the roll, which were as follows: Alexander Seaton Gordon Whyte Herbert Vivian Westley Waldriff John Jackson Ernest McKay Thomas McLaughlan Douglas Henderson Jack Wilson Harold Miller Robert Laidlaw John Buchanan Jack Thorne Norman Pope Victor Jones Bert Robinson Frank Chapman Roy White John Vicary Harry Urquhart Albert Feathers Gordon McDougald Walter Wingate Bertram Conroy Leslie Maxwell Grant Lang Peter Creswell Charles Sutherland James Miller Kenneth Tailour Sam Michael John Seaton Fred Topham Frank Maxwell Arthur Theobald Osborne Needham William Aitkens Thomas Coldham Ernest Aitkens Farril Whyte Edward Smith William Sanderson Fred Salt Bryson Whyte Howard Morrison Arthur Henderson William Dryden

## Re-Union Meeting of Ladies' Societies

An interesting and unusual gathering was held on Wednesday afternoon of this week in St Stephen's Hall, the occasion being a reunion meeting of the Women's Missionary societies of the Anglican, Baptist, Methodist, and Presbyterian churches of Summerland. The hall was filled with interested and enthusiastic workers from each of the different congregations, and the fine spirit pervading the gathering was a tribute to Miss Dale and Mrs D. H. Watson who originated and successfully carried out the union meeting.

The meeting was opened with devotional exercises by Mrs Harrison, after which Mrs D. H. Watson took charge of the meeting, and presided in a very able manner. Her opening remarks emphasized unity in the great essentials of Christianity, and as representatives of the different societies gave reports of the work done by the women of their respective churches. One was struck by the great similarity of ideals, aims and methods of working. The women of each church have their representatives in the foreign field, and in the Home Mission field, and working among the foreigners in Canada, and whether they work in school or orphanage or hospital or dispensary—on the Indian Reserve—or the Zenana Mission, or on the lonely home mission frontier, their one aim is by lives of service and sacrifice to win "The World for Christ."

Mrs H. A. Solly spoke for the Women's Auxiliary of the Anglican Church; Miss Dale for the Baptist Circle; Mrs Snider for the W.M.S. of the Methodist Church; and Mrs C. H. Daly for the W.M.S. of the Presbyterian Church. The closing address emphasized the thought of "Our Missionary Motive," which must be a firm belief that Christ has power to transform the lives of men, and our inspiration must be from Him who always touched with healing and compassion, the anxious, sinning, and suffering multitudes on mountain side, river bank, or desert place.

The musical part of the program was greatly enjoyed. A piano duet by the Misses Harrison and McLeod; a quartette by the Misses Steuart, Miss Grace Logie and Miss Pollock, and a very fine rendering of the "Psalm," "Why art thou cast down, O my soul," by Miss Harrison.

A collection was taken in aid of the Zenana Mission Hospital in Lucknow, in which hospital Summerland is interested.

At the close of the meeting refreshments were served by the Women's Missionary Circle of the Baptist Church, and an enjoyable social hour was spent.

This is not Okanagan weather that we have been getting, but as is always the case, compared with what is being experienced elsewhere we are faring well. Fruit growers and the early vegetable men, particularly the latter, are much concerned with the tardiness of summer. However, the rule fixed for themselves by some growers that it is not safe to set out plants till after May 10th seems a wise one. Records at the government weather station covering a number of years show that we are liable to frost up to that date. At that elevation, there was on Sunday morning two degrees of frost recorded. Enquiry in different parts of the district fails to find that any damage was done.

## Highest Praises For Alex. Seaton.

Words of Comfort for Stricken Mother

Minister's Office, Ottawa, May 1st, 1916.

Dear Mrs Seaton,

Will you kindly accept my sincere sympathy and condolence in the death of that worthy citizen and heroic soldier, Private Donald Alexander Seaton.

While one cannot too deeply mourn the loss of such a brave comrade there is a consolation in knowing that he did his duty fearlessly and well, and gave his life for the cause of Liberty and the upbuilding of the Empire.

Again extending to you my heartfelt sympathy,

Faithfully,  
SAM HUGHES,  
Major-General,  
Minister of Militia and Defence,  
for Canada.

Trenches,  
15-4-16.

My Dear Mrs Seaton,

As O.C. of the company in which your son was fighting when killed, please allow me to express my deep sympathy with you in his loss. You have the great satisfaction of knowing he died the best death that is possible, but a son is a son.

He and the balance of his bombing squad were having a game of their own with a German who was firing the "flares." As he fired each flare they loaded their rifles at the flash. This caused the German to stop and commence to fire back at them. One of those bullets hit your son and killed him. He was laughing at the time, because of the way in which they had bothered the enemy.

He was a very fine boy—a good shot, a first-class bomber, and very popular with his fellows. He had abundant nerve and resource, and

was one of the happiest men in the company. He is greatly missed.

He was buried tonight, and be assured, the grave will be well looked after. I cannot tell you the location of the grave because it is forbidden to mention our position, but it is in a country—a war country—where several of his comrades are. He was killed instantly, and had no time to realize that he was hit. All his effects will be sent to you in due course, and rest assured, Mrs Seaton, that your son "made good" and proved himself. If there are any particulars, or if there is any news I can give you, please let me know, and believe me,

Sincerely yours,  
W. H. CASBY, Capt.,  
O.C. No. 1 Coy., 7th Batt.

FRIDAY, MAY 12, 1916.

## WHAT ABOUT THEM?

TWO VERY WORTHY MOVEMENTS which Summerland has put into force in previous years seem in a fair way to suffer neglect this year, crowded out, possibly, by the press of other things. We refer to the civic "Clean Up Day," and the Sunday set apart by the local churches just about this time under the title of "Go to Church Sunday." The habit of cleanliness is spoken of as being next to godliness, so that these two movements would seem to embody two of the highest attributes the human race can strive for.

Is it too late now to hope for a public "Clean Up Day?" Summerland may not need cleaning up more than any other place, but it needs it nevertheless, and a day set apart for the special work of scavenging ought to become a part of the community program. Most people are more than willing to co-operate with the municipal authorities in clearing up debris from their adjacent yards and premises, but many are without the means of hauling such rubbish away to the proper place. This is especially where the work of the municipal body comes in, and also perhaps in doing something with the roadsides, though in this it is safe to say that a certain amount of volunteer labor would also be forthcoming. In the interests of the public health, and also surely of our community pride, some of the highways, byways and backyards of the district need the activity of a "Clean Up Day" to change their aspect somewhat. Probably the assistance of the Board of Trade would be forthcoming for the more energetic prosecution of the project.

"Go to Church Sunday" may not appeal to the community as a whole in quite the same way. At the same time if the go-to-church habit was a little more firmly established in the lives of people generally there might be less need to preach "Clean Up Day." It affords welcome evidence, too, of the co-operative spirit that the churches of today are very much in need of. It can't hurt anybody to go to church just once a year, and it might do a great deal of good.

§ § § § §

## STRAIGHT TALK.

NOT LONG SINCE we heard advertising characterized as "a necessary evil," something that has to be done "because the other fellow does it." It may be that advertising is a necessary evil, but it may also be one of those necessary evils that are in reality blessings in disguise. The surgeon's knife, the hospital, the prison, the asylum—and so on right through the very fabric of twentieth century life;

competition, wealth, poverty—are there not scores of "necessary evils" which are nothing less than blessings in disguise?

After all, who is there that does not believe in the principle of advertising? The printed announcement of a business concern, or an undertaking in a newspaper is only one form the great principle of advertising takes. Why does a carpenter, painter, or any other workman like to make a good job of what he is at? Not so much for his conscience's sake, but because he knows that good work is good advertising. Why does the merchant ornament the front of his store with large windows and fill them with goods, if it isn't because window displays constitute one of the milder forms of advertising? Why does almost every article from a pocket knife to an automobile bear the maker's name, if it isn't for advertising purposes? A little thought will show the most pronounced Missourian that advertising is a whole lot more than merely a necessary evil. As a matter of fact, it has so become a part of the warp and woof of present day life that without it our existence would be indeed humdrum, monotonous and colorless.

The person who advertises merely on the ground that "the other fellow does it," is doing advertising a grave injustice, and his own intelligence too. The past few years have by changing financial conditions, especially in the New World, imposed very trying conditions on modern business. Many false notions have been dropped out of business conduct, unable to stand the test of the times. But advertising remains, and more than that, it is increasing. Eaton's, Simpson's, Hudson's Bay, Spencer's, and the other big mail order department stores don't fill their home city papers with advertisements merely because the other "fellow does it." Such bluff would soon be called. They do it because it pays, because it gets business for them. Everyone knows that the automobile business is booming these days; yet pick up almost any periodical and automobile advertisements will soon catch your eye. Are they put there just because "the other fellow does it?" Who ever else is having a bad time just now, the banks are declaring dividends just the same, and the big and small papers show their advertisements right along. Do such institutions indulge in senseless follow-my-leader tactics?

No, advertising, used rightly, is the tested, tried and true friend of every business concern to-day. It has been condemned, thrown overboard, given up as worthless, but it still survives and thrives in spite of this treatment, and permeates through every live concern. It is for the small merchant as well as the big, and can be made to become the strongest link between the goods and the buying public.

§ § § § §

## THE WAR BOOK OF 1916.

IT WOULD perhaps be too much to say that the Agricultural War Book, issued for free distribution by the Federal Department of Agriculture, is the most complete book ever published in Canada entirely devoted to the subject of which it mainly treats. Yet in variety it certainly is. Besides the general matter brought together by the editor, the Commissioner of Agriculture, some seventy agricultural and education experts have contributed to its 250 pages, including the Federal Ministers of Agriculture and Finance, the Live Stock Commissioner, and Dairy Commissioner for the Dominion, chiefs and sub-chiefs of various departments and divisions, federal and provincial, and professors at the Ontario and other agricultural colleges.

While there are statistics of the world's as well as of Canada's produce last year, for purposes of comparison, and two or three years preceding, the book is a long way from being confined to figures. On the contrary it contains pages upon pages of textual information, instruction and sound advice appertaining to its title—"Production and Thrift." Not alone would the farmer and breeder be the better for its study, but every householder, every citizen would profit by following its counsel, which, in a general sense, is embodied in the motto that appears on the front cover, namely:

### IN WAR TIME.

Produce more and save more,  
Make your labor efficient,  
Save material from waste,  
Spend your money wisely.

§ § § § §

## TAKING UP WITH THE LOANS.

THE IMPORTANCE to the agriculturists of the province of the inauguration of the Agricultural Credits Commission is indicated by the keen interest shown by farmers in all sections of the province in the

work of that body. Since the formal sanction was given by the government to the formation of the Commission, and it was brought into existence under the terms of the Agricultural Act passed last year, inquiries have been pouring in from farmers asking for information as to the course to be pursued in making applications for loans. Many applications have already been received, and the Commission has been kept busy answering these queries and sending out the asked-for information.

The interest shown indicates that the action of the Provincial Government in bringing into effect the system whereunder loans to farmers will be made has proved a most popular and far-reaching one from the standpoint of the agricultural interests. The work of the Commission is now being organized, and in a very short time will be in a position to deal with those applications for loans which have already been received. Forms of application are being prepared, and will be sent to all those seeking them. These forms will comprise questions of a most searching kind, and will necessitate the applicant giving the fullest information.

The necessary formalities in connection with the issue of the securities for the \$1,000,000 loan just negotiated have been completed, and the money will be available whenever the Commission requires it.

§ § § § §

## HOME TRADE AND THE COUNTRY PAPER.

"I've just been glancing over this paper from a little town down in southern Illinois," said the real estate agent.

"It isn't much of a paper, is it?" commented his prospective customer.

"That's where you're mistaken," corrected the agent. "This is a humdinger of a newspaper proposition and I'll prove it to you."

"I've met the editor personally, and I'm acquainted with the town where he is located. I know its alleged business men. I know the citizens of that place as I know my family. And, putting my knowledge of the different elements together, I have a pretty fair idea of the proposition the editor of this sheet is up against. And, needless to add, I wouldn't trade him jobs."

"When the editor came to that town, five years ago, he hadn't a dollar to his name, but he has held his own. He has as much now as when he started."

"He walked into that town with an army press under his arm. When he announced that he was going to start a weekly newspaper, one man immediately subscribed for three months at 25 cents. Another paid for six months, but not without considerable misgivings. Still another, who was locally known as a desperate gambler, and dead-game sport, subscribed for a whole year."

"The merchants told him they didn't care to advertise just yet, but each donated half a dozen articles on the evils of patronizing the mail order houses, and told him that he had their permission to print them some time, when he wanted to fill up the paper. The first issue of that paper would have been entirely free of advertising if it hadn't been for a man whose wife died and wanted a card of thanks."

"That editor started in telling the business men what he thought of them, and the result was such interesting reading that the subscription list grew by leaps and bounds. Then he took the list to progressive dealers in neighboring towns and got their advertising, and then the local dealers had to fall into line."

"The editor does a good business, and puts all his earnings back into his plant. He has put the town on the map. There are thousands of country editors just like him. But if you go into that town and talk about him to the merchants they will tell you he'd be a good editor if he told the farmers to patronize home trade. The idea of buying advertising space and telling the farmers themselves has not yet occurred to them."—Chicago Daily News.

OLD ENGLAND is adopting the daylight saving scheme. The British House of Commons has favored it by resolution, and a bill will be introduced forthwith. It is expected that the clocks will be put ahead one hour at midnight on Saturday, May 20th. The saving on account of lighting alone that will result is conservatively estimated at \$12,500,000 yearly, and this will be direct saving to the people almost entirely. It is proposed that normal time go into effect again September 30th. The measure will be voted on again at the close of the war.

### DO YOU KNOW OF ONE?

Do you know of a mail order house that has ever contributed one cent in taxes or otherwise toward defraying the expenses of this town?

Do you know of one that has ever contributed a cent toward our churches or our schools?

Do you know of one that has ever contributed a cent to the welfare of the community in any manner, shape, or form?

Do you know of one that has done anything but pull money out of the community—money which never comes back?

If not, why do you continue to enrich people who never do anything for you and yours, and yet demand their pound of flesh in advance?

Summerland, B.C., is thinking of adopting daylight saving for the reason that so many of the men of the district have gone to war an extra hour of daylight is needed for those left at home to gather in the fruit crop. A very utilitarian reason, surely.—Calgary Herald.

In eight months the creamery at Salmon Arm made 28,000 pounds of butter. It costs \$140 a month to operate the creamery.

## Orchard and Farm: Topics of Timely Interest and Helpfulness in the complex Business of Farming.

### A Preventive and Cure for Worms in Hogs.

Of all farm animals, hogs are the most common hosts for worms. Unless they are free from them the most economical gains can not be made. Professor Wm. Hislop of the Washington Experiment Station at Pullman says that in very large numbers, worms check the growth of shoats, and frequently cause chronic indigestion and sometimes death.

Four species of intestinal worms infest hogs. Of these the Round Worm (*Ascaris suis*) is the most common. This parasite is found in the small intestine, and after death migrates forward into the stomach. The worms vary from 4 to 10 inches in length, cylindrical in shape, and in color are yellowish white. The eggs and embryos pass out in the excrement and scatter everywhere; hence the need of thorough disinfection of the premises. Hogs become infested through the feed and water taken into their digestive tracts. Professor Hislop recommends the following formula for hogs infested with worms:

(Dose for 100 lb. pig.)

Santonin	5 grains
Calomel	2 grains
Area Nut	2 drams
Sodium Bi-carbonate	1 dram

The herd should be divided into lots of 6 to 10 head, and weighed, and the drugs apportioned accordingly. For example, if one lot of 10 hogs weighed 1000 pounds; it should receive ten times the above dose. The hogs should be kept off feed for 12 to 18 hours previous to giving treatment. In the morning mix the drugs into a slop of shorts and give to the hogs. In the evening of the same day give the dosed hogs a bran mash. This will flush out the worms. Gather all the expelled parasites and burn them.

#### FORMULA TO PREVENT WORMS.

Common salt	3 lbs.
Glauber's Salts	3 lbs.
Salsoda	3 lbs.
Copperas	3 lbs.
Sulphur	1 lb.

(Recommended by U.S. Department of Agriculture.)

This should be placed in boxes 12x12x4 inches and kept under cover before the pigs at all times.

### Feed, Water and Care of Working Horses.

Many horses are killed and many more are injured by careless feeding and watering.

Never water a horse immediately after feeding grain. This washes the grain through the stomach before it is properly mixed with the stomach juices and is liable to cause colic. It is safer to water the horse before feeding grain.

If the horse is very warm let him drink a few swallows and then hold his head up for a minute or two, and thus cool his stomach slowly. Try it yourself in hot weather. You can drink a quart of water without injury if you will but take several minutes for the first few swallows.

When horses are brought in hot from their work they should first be given water cautiously, and then fed hay and grain together, allowing them to exercise their own judgment in the selection of their feed.

While waiting for them at the watering trough, the time can be profitably used in removing the harness, at least the collar, and cooling the shoulders by washing in cold water. Removing the hot harness in a hot barn during the hot noon hour is a great relief to the horse, and is really worth while.

When a horse becomes colicky or is foundered, from too much grain or cold water on a warm stomach, there is no one to blame but the one who had him in charge, and it is he who must be charged with either ignorance or carelessness. Horses are worth money, and their services are indispensable. Their care and management should be given more consideration.

Setting hens should be separated from the laying stock.

There are many cases of infertility in eggs. The commonest one is an overfat state of the hens consequent on improper feeding, just as many over-fat show animals fail to breed.

Little chicks should be protected from cool, damp surroundings. Nothing is more detrimental to their health and more certain to bring heavy mortality than to let them out in the wet grass early in the morning.

Each year curtails the amount of native pasture and the amount of native hay available, and creates a need for more tame hay and pasturage. Have you enough on the farm for this year? If not, why not try some oat pasture or hay?—Farmers' Advocate.

# OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

## NO ALUM

### Keep Your Prunings Off The Road.

The practice of dumping all kinds of rubbish on the roadside has gone about the limit. Complaints about obstructions caused by the orchard prunings has led Road Foreman William Nuttall to issue warnings to the chief offenders to have the practice discontinued. Aside from the danger to the travelling public is the very principle of the thing. If each lot owner could hold himself responsible for his share of the road allowance, we would in time have a really charming community, with its long avenues of blossom laden trees shading the roadside, without even the suggestion of uncleanness.

### Former Naramata Scout Master Marries.

A very pretty wedding took place at St. Philip and James' Church, Cheltenham, Gloucestershire, England on March 18th, of Private Henry Joseph Pitman of Naramata, former scoutmaster, now of the 47th Battalion C.E.F., and formerly of Cheltenham, to Miss Daisy Emily Selley, of Cheltenham, a life long acquaintance and school companion. The best man was Private Joe Hannah, formerly of Vernon, and well known in the Okanagan. Among the presents were a silver tea service and silver spoons from the boys of Mr Pitman's battalion.

We take this opportunity of wishing Mr and Mrs Pitman a long life and a happy one. It is Mr and Mrs Pitman's intention to come back and live in Naramata after the war is over.

The ladies of the Red Cross have concluded to continue their weekly sewing circles during the summer. Some of the ladies thought that through the busy season if the work was taken home and just have sewing once a month in the club room, it might be a good plan, while others thought that it would be better to continue the weekly meetings, with the result that the circle decided the latter. Surely we can sacrifice a half day once a week for our soldier boys who are sacrificing their all for us. So the good work goes on. Mrs H. T. Davies and Mrs J. H. Pushman served refreshments at the Saturday meeting.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

### Ladies' Aid Society.

The Naramata Ladies' Aid Society are all invited to Mrs Fred Young's, south benches, on Wednesday, May 31st, to meet the Ladies' Aid from the Popular Grove Aid. The ladies here are all pleased that this opportunity has been afforded them to meet our friends from that place and have accepted the invitation unanimously.

### Current Events OF Town & District

Gardener Aveson of the Experimental Farm, Summerland, spent Sunday at Naramata.

The many friends of Mrs Dan McKay are pleased to learn that she is improving from her recent illness.

Mr John McLean of Summerland spent Sunday at Hotel Naramata, guest of Mr J. O. Robinson and sisters.

Rev. R. M. Thompson of Penticton conducted divine service here on Sunday afternoon, coming up by motor car.

Mr Gordon Hayman leaves on Saturday, May 20th, for Kamloops, to enlist for active service. He is about to join the artillery.

Mr James Young went out on the "Sicamous" as far as the Landing to meet Mrs Young, who arrived home on Wednesday night's boat. Mrs Young has been for some months visiting friends down in Manitoba. All are pleased to welcome her home again.

Mr and Mrs Jas. Dean and little daughter, who left Naramata some two years ago to take up residence in Montreal, have returned to our town, arriving by the "Sicamous" on Friday evening. We are all very pleased to welcome them back. Mrs Dean is the daughter of the late Squire Hill, whose sad death occurred here late last fall. They are now comfortably settled in their own cottage home again.

The W.C.T.U. met in regular monthly session at the home of Mrs Russell Wells on Tuesday, May 9th. The meeting was called to order at

### The Old England JULIUS W. A. BLOK, NARAMATA, B.C.

Gentlemen's Outfitter, etc. Chiefly British Goods Imported Direct.

### "STEVE"

is a big, upstanding S. C. W. Leghorn now in his second year. His show room record is O.K., but more important still is the fact that his Dam was a great egg producer. Mated to him are 12 neat, chalk-white S. C. W. Leghorn pullets all trapped and selected for their ability to produce eggs.

Eggs For Hatching, \$1.50 for 15.

A. H. MULFORD, NARAMATA, B.C.

three o'clock by Mrs Boothe, vice-president. After the regular routine of business was dispensed with, there was a short program, which consisted of readings by Mesdames Davies, Allen, Myers, and Boothe, after which Mrs Allen sang a solo entitled "Tramp, Tramp, Tramp," a patriotic "troop song." The meeting was then closed by prayer.

Mrs E. B. B. Reesor of town is in receipt of intelligence from Vancouver that her oldest son, Goronwy B. Reesor, has enlisted for active service in the Seaford Highlanders, and has been in training since May 1st. This is an outstanding example of the right kind of loyalty, where a young man in a comfortable position and a fair salary, with every prospect for rapid promotion hears and obeys the call of duty. Goronwy, who has a host of friends in Naramata, carries with him the good wishes of the entire community.

Roy Boothe of the 11th C.M.R., Willows Camp, Victoria, writes that "Recruits are rolling in from all parts of British Columbia, and they don't think it will be long now till they are up to strength and away overseas." Roy speaks of being in a route march last Friday, the whole regiment marching 25 miles. They all left at five o'clock a.m., and got back at 4.30 in the afternoon. He says it was some march, but there wasn't a man fell out all day, but there were a number with sore feet, and he was one of them.

That sneak thieves have again been busy around Naramata is quite evident. When going out of his kitchen door quite early on Sunday morning, T. H. Boothe noticed his cellar door standing wide open, and upon making inquiries in the house found that the doors had been closed securely on Saturday night as usual, but not locked. Going into the cellar he found that at least seven jars of jams and pickles as well as half a box of Jonathan apples which had been recently opened, were all gone, and quite a few burnt matches strewn about. That the apples in question had been hurriedly removed was quite evident by the way the papers in which they were packed had been thrown around. It is quite evident that Naramata is in need of a policeman, or at least a guard of some kind.

It is difficult to see how horses can fail to rise in value. Military strategy has obviously reserved Canadian supply against the ultimate requirements of the Allies. When our equine resources are called upon depletion will soon be noticeable and prices are already anticipating the stimulus of surplus exhaustion.

Review Office.

### Graves Registration Commission.

Those at the front probably know of the good work being done by the Graves Registration Commission in recording the location of the graves of our fallen comrades. The Chaplain must report to them every burial he conducts, with the location of the grave. But now the Commission is prepared to do more. They will furnish to the wife, mother, or other near relative of a deceased man, a photograph of his grave. The relatives must make application to the Chaplain of the unit to which the deceased was attached, giving his name, rank, number, etc., and the date of his death. The writer had occasion recently to apply for one of these photographs on behalf of the father of a man in the Seventh, who died at a clearing station in November. He found that the photograph had been taken, was on record, and could be sent immediately.—Listening Post.

British Columbia is doing its part toward keeping the rain out of homes in the United States, its shipments of shingles across the border in 1915 amounting to 1,256,804,000; and this notwithstanding the movement in the latter country looking to the employment of less combustible materials in roofs, and despite the commonly accepted belief that the shingle is no longer necessary to the maintenance of family discipline.—Christian Science Monitor.

The beauty of a postage stamp, a person of perception has said, is that it "sticks right on the job till it gets there." This is what newspaper advertising will do—if you will let it. It will keep right at it, week in and week out, carrying its message to people ready to receive it. And each time it will be planting the seed of the profit plant. Advertising is no business for a quitter; but it is a mighty force for a man who knows how to hold fast.

Every farm boy should make the most of his opportunities to get education. The farmer of the future will need it even more than the farmer of to-day.—Farmers' Advocate.

Every family with a backyard and outhouse, if the municipal regulations do not interfere, can maintain a hennery, and every family can thus have that always desirable modicum—a fresh egg.

## Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Ry., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800

Passing Events: Social, Personal, &c.

Penticton is trying to get an internment camp established there.

A bad break occurred in the power main on Thursday which is being repaired today.

Mrs F. A. C. Wright went out to Aspen Grove last Friday to visit her friend, Mrs Adamson.

J. Secrest boarded the train on Wednesday afternoon on his way to Washington State for a short visit.

The Merrill Cottage recently vacated by G. M. Ross, has been rented by E. A. Jones, who will enter into possession at once.

Pte. Jack Pollock, of the B.C. Bantams, is spending a few days here at the home of his parents, having arrived on Wednesday.

The sacrament of the Lord's Supper will be administered in St Andrew's Church on Sunday the 21st inst., at the morning service.

Mrs Janet Lock, a former resident of Summerland, has returned to her Kaledon home after spending the winter with her son in Ladner.

Donald Ross expects to go to Armstrong within two weeks, where he will enter the employ of the C.P.R. under his brother George, now agent there.

The Summerland Telephone Co. now has a new directory, revised to date in the printers' hands. It shows that Summerland has over 200 phones, a highly creditable showing, considering present conditions.

Divine service will be conducted in the Methodist Church on Sunday morning next at 10.30 by Rev. R. W. Lee. In the evening at 7 o'clock a united service will be held in the Lakeside Baptist Church. A hearty invitation is extended to all.

The new municipal grader has been put to work lately, being given its first real test near the K.V.R. station. It has been stated that six horses can pull it, which shows that the machine is capable of effecting a good deal of improvement on the roads in short order if conditions were favorable.

Game Wardens Gartrell and Dundas, the latter stationed at Kelowna, captured a pair of beavers on Tuesday, on instructions from their superiors, and sent them to Vancouver, presumably for the Park Commissioners. The animals were taken at Trout Creek Point, and were both fine specimens, particularly the female.

Geo. D. Fisher of the Canadian Army Medical Corps, is still at the Canadian Convalescent Hospital, Wokingham, Berks, England, where he was stationed soon after arriving on the other side. The normal accommodation this hospital offers is four hundred, but he says that they have received orders to prepare for fifteen hundred. Huts and tents are accordingly being put up. Everything possible is done to make it pleasant for the poor boys who have been out in the firing line, "and goodness knows." Pte. Fisher says, "they need it, as according to all reports, it is an awful life. It is very sad to see the state some of the convalescents are in. Lots of them will never be able to do anything again."

YOU WILL HAVE SOME FLUMES TO

REPAIR REPLACE REMODEL

Upon your selection of the right kind of material will depend the permanency of your work.

We Make a Specialty of

and are booking orders now for early delivery.

PHONE L15, write, or better still call on

Summerland Lumber Co., Ltd. Post Office, West Summerland. J. W. WHEELER, MANAGER.

Mrs Lipsett and Mrs Phinney drove up to Peachland this morning.

Will the children who have copies of the W.C.T.U. medal contest books please leave them with their school teachers?

At least one grower in this district remained up all night during the frost of Saturday-Sunday last, and saved his early plants by fires.

Rev. C. H. Daly and family will be leaving here early in June for their new home in Fort George. Mr Daly will give his farewell address on Sunday, May 28th.

Mr G. A. McLaine arrived back in Summerland on Wednesday evening from Walthachin, B.C. He will again take charge of Stirling & Pitcairn's packing house this season.

Mr and Mrs D. Lorne Sutherland and family are leaving early next week for Selkirk, Man., where Mr Sutherland has rented a farm for one year. After that time he will occupy his own farm nearby, the lease of which will expire then.

Willie Ritchie, whose serious illness was recorded in these columns last week, is now convalescent, according to latest information. His parents have been advised to bring him back to Summerland, the Coast climate being injurious to his health.

A "Mothers' Day" service will be held in Parkdale Baptist Church on Sunday morning. At this service Mr Fred Graham will be the soloist. A union service will be held in the Lakeside Church, at which Rev. R. W. Lee will preach.

Mr and Mrs Langlands with their four children have taken up residence at Mineola, where Mr Langlands is employed with the Summerland Lumber Co. With the sawmill and box factory as a nucleus, Mineola is becoming quite a community.

Lance-Corporal G. D. Marson of the 11th C.M.R., arrived here on Thursday night and is busy scouring the district for recruits for his battalion which is to go overseas as soon as it is up to strength. Corporal Marson's call for recruits will be found in our advertising columns.

The Home Comfort Club meets on Thursday the 18th at the home of Mrs Stark. The Review has been asked to request relatives and friends of Summerland boys who have enlisted and are now overseas, to give the Club their present address. It is apparent that the good work the Club is doing is greatly appreciated by our soldier lads.

The Summerland Women's Institute will hold their regular monthly meeting on Friday, 19th, at 3 o'clock, in the Men's Club parlor. Mrs W. J. Robinson will give a paper on "Civic Improvement" and discussions will follow, in which members of the Farmer's Institute have been invited to participate. Afternoon tea will be served.

A beautiful pair of ring-neck, or Mongolian pheasants were received by Mr W. H. Hayes on Thursday night, and are now in confinement at his home. This makes six pheasants Mr Hayes has brought in this spring. Two pairs brought in from the Coast some time ago, though having been given their liberty, still remain nearby. There are known to be six other pheasants in the community, three in Prairie Valley and three at Trout Creek Point. These are supposed to have worked up from Okanagan Falls. Pheasants are very stringently protected by law, a heavy penalty being imposed for their destruction.

"It is awfully nice of the St Andrew's Society to send the Review every week, and I wish to convey my thanks to them through you. I look forward to getting it." This is an extract of a letter from G. D. Fisher, an active member of the Scotch society before he enlisted last year, to Mr J. G. Robertson, president. The St Andrew's Society sends the Review to all its members who have enlisted and are now overseas, taking advantage of the special prepaid rate of \$1 per year. This is an example that other societies might well emulate, and the offer is also open to any local subscribers who have soldier relatives in Canada or overseas. Without question your soldier friend would appreciate the news of the home town every week, regularly, and without fail. Enquire about it.

Summerland's Honor Roll now contains no less than 173 names.

Walter Verity left on Wednesday morning for Victoria where he enlisted for overseas service.

Relatives here were advised by cable on Tuesday of the safe arrival in England of Charles Stewart and Harvey Phinney on the transport "Olympic."

Presbyterian services will be conducted next Sunday morning and evening in St Andrew's Church and in the Methodist Church at three o'clock. Rev. C. H. Daly will conduct all these services.

J. J. Blewitt is having some extensive improvement made to his Peach Orchard home. Mr Blewitt, by the way, went down to the prairies some days ago, and will likely be absent for some weeks at least.

Rev. J. Knox Wright, D.D., representing the British and Foreign Bible Society, will address a public meeting in the Lakeside Baptist Church, on Friday evening, May 19th, at eight o'clock. Dr Wright's address will be illustrated with lantern views.

In his letter published last week, regarding the milking strain of the pure bred Holstein, "Delta Butter Boy," the bull owned by the Summerland Pure Bred Stock Association, Mr A. A. Derrick stated that the standard of butterfat required under the municipal law is 3.5 per cent. It has been learned from reference to the by-law in question that what is required is at least 3.25 per cent butterfat, and at least 9 per cent of other solids.

Local Baseball Team Eclipsed This Time.

The High School baseball team went to Penticton again yesterday afternoon, but their star of good fortune was apparently under eclipse. They put two good ones over Penticton two weeks back, but the boys in that town came up smiling each time, and yesterday their persistence was rewarded, and they came out on top by 6-2. At the last of the second innings the score stood 2-1 for the visiting nine, but in the last of the fourth the Summerland aggregation blew up, and Penticton got five men across the plate. The home batters hammered Ritchie's offerings all over the lot, and the luckless fielders fumbled most of the 'flies,' and so the errors piled up—likewise the runs.

They settled down after this run-fest, but no more scoring resulted on either side. Penticton put a stronger nine into the field than they previously mustered, and perhaps the visitors were too confident of repeating their snap of two weeks ago.

Table showing innings scores for Summerland and Penticton.

Will Build School At Trout Creek.

At the last meeting of the School Board the Superintendent of Education informed the Board that his department had agreed to build the school at Trout Creek Point. The Secretary is now negotiating with Duncan Woods for an acre of land as a school site.

The usual budget of salaries and conveyance accounts, with a few small items was approved for payment.

Miss Evelyn Brown applied for a position on the teaching staff. The matter of supervision during recess, and particularly the noon hour is still giving the Board some concern. Further correspondence on the subject was received from Principal Lees, which was left with the chairman to deal further with.

The first 22 miles of the provincial highway between Hope and Princeton is finished at a cost of \$177,767. It will cost \$130,000 to complete the remaining 72 miles.

During the first three months of this year the number of telephones in use in B.C., has increased from 39,800 to 40,353. This is 822 less than were in use on January 1, 1915. Not so bad for war times.

RECRUITS WANTED.

The 11th C.M.R.

Is going OVERSEAS IMMEDIATELY sufficient Recruits are secured to bring it

UP TO STRENGTH.

An Unusual Opportunity - Don't Miss It.

ENLIST NOW!

I will be in Summerland till the evening of Monday, May 15

Lance-Corp. G. D. MARSON.

Recruiting Officer.

Look At This!

Some people seem to have so completely inured themselves against all reason in regard to supporting their home community with their trade, that it is next to impossible to convince them that they do not always save money by spending it outside.

Just now in a neighboring town, stupendous sale events are announced by two rival stores. One item noticed in the big announcements is flour of a particular brand, priced specially at \$3.80 per ninety-eight pounds. At the same time one of the local merchants here advertises in this issue the same article at forty cents less. This is not the only instance that could be cited, but it is a representative case.

That Summerland prices are always "up in the air" is not the case, and a little investigation might prove to many people that all things being equal, one gets "stung" quite often by spending money in the stores of outside towns.

At the same time the people have a right to know how their home town prices compare with those in neighboring towns, and if they have placed before them detailed advertisements from these outside points setting forth prices that look alluring, it is not to be wondered at that a certain amount of Summerland money goes to help the development of other places.

There is a moral in this for both the buying public and the local merchants.

Accounts detailed as under were authorized for payment at the Council meeting last Wednesday:

Table listing various expenses and their amounts, totaling \$5,444.35.

The Imported Shire Stallion, Nottingham . . Dusky Rhodes

No. 798, will stand for the season at my stables, Garnett Valley.

Every Saturday at English's stables, commencing Saturday, May 6th.

For terms, &c., apply to L. S. MELROSE, Phone 594.

State your needs in 'THE REVIEW' 'WANT' Column.

Gentlemen.

Having purchased from Mr S. R. Fraser the business conducted by him, I beg to announce that commencing Monday, May 8th, I will be at the West Summerland shop during the hours between 4 p.m. and 10 p.m. daily except Thursday.

Hours down town will be from 8 a.m. to 3 p.m., and Thursday evening.

Your esteemed patronage is solicited.

**Newsy Paragraphs**

from  
**PEACHLAND**

Miss Dancer of Summerland, who spent Wednesday in town visiting with friends returned home the same evening.

On Wednesday evening Mr A. Town returned from a business trip to Winnipeg. While there he was the guest of his sister, Mrs A. N. McCutcheon.

Trepanier Lodge A.F.&A.M. entertained a large number of visiting brethren from Kelowna, Summerland and Penticton, in their lodge room on Tuesday evening.

Mrs Wm. Aitkens and little daughter, Kathleen, returned home on Tuesday evening from Kelowna, where they have been visiting Mrs Aitkens' sister-in-law, Mrs Wm. Lupton.

Mr and Mrs Morrin, former residents of this place, now of Phoenix, were visitors in town for a few hours on Friday. They were motoring through to Armstrong, but stopped long enough to renew old acquaintances and have lunch.

Miss Bessie Seaton, who has been spending some weeks at her home here, returned to Vernon on Saturday morning, to resume her duties on the public school staff. Her mother, who accompanied her as far as Kelowna, returned the same afternoon with her other daughter, Mrs W. D. Miller.

The funeral of little Buzzy Thompson, who met such a tragic death last week when their home was destroyed, was held at 10 a.m. on Friday. The little coffin was covered with beautiful white flowers. The pall bearers were Masters Tom Drought, Austin Hay, Earl Murdin, and Albert Town.

We are sorry to report that Mr A. Miller, who is suffering from a severe cold, is still confined to his bed.

Master Jas. McKeever spent a few days in town as a guest of Willie Buchanan. He returned to his home in Penticton last week.

Mrs Wm. Lupton and children of Kelowna, came down on Tuesday night to pay a visit to Mrs Lupton's parents, Mr and Mrs C. Aitkens.

Mrs J. Seaton and family wish to express their thanks to the many friends for the kind expressions of sympathy extended to them in their recent bereavement.

Mr J. R. Brown, Indian Agent, and several other men of Summerland, spent Friday in town, the bridge over Deep Creek making traffic impossible. They proceeded home on Saturday morning.

The exceptionally high water of the past week brought down a large quantity of debris, some of which got into the supply pipes and caused a great deal of trouble at the power house and on the domestic water service.

Mr H. Slater was a passenger to Vernon on Wednesday morning. He is away on business connected with the Fruit Union. Mr Archie Seaton is looking after the feed department in his absence.

Owing to the high water the bridge on the lakeshore road over Trepanier Creek was closed for a few days. Jas. Michael, local government road foreman had the work in charge, and it is again open for traffic.

The regular weekly meeting of the Girls' Red Cross Society was held in the usual meeting place, on Monday at 7:30 p.m. The girls wish to thank Mrs Clarence of Edgewater Inn, who so kindly supplied part of the refreshments for the evening.

The regular monthly meeting of the Methodist Ladies' Circle was held at the home of Mrs Wm. Sanderson, on Wednesday afternoon.

On Wednesday, Mr R. J. Hogg had the misfortune to break a bone in his foot. He will be unable to be around for a few weeks.

Miss Ella White, who has been working in Armstrong for the past few months returned home on Wednesday evening. After a short stay here, she will visit her brother in Washington, U.S.A.

**REGULAR COUNCIL MEETING.**  
(Continued from page 1.)

a total reduction in the assessment on this property of \$500.

A. A. Derrick has been asking the Council for a water supply to Block 1a, D.L. 674, in Peach Orchard. He was promised this last year, and on this account was rebated the amount of the rates to the beginning of this year. An attempt will be made to supply the lot from a spring nearby.

G. L. Sinclair called upon the Council during the course of their meeting and among other matters asked that a stretch of flume crossing a road near his property be replaced by an underground pipe. The flume as it was now would necessitate a big hump in the road, which would not be good for the large amount of fruit that would be hauled out of that neighborhood over the road this season. He believed this would prove the least expensive in the end. The matter was referred to the Board of Works.

The Irrigation Superintendent asked for instructions as to who should attend to the placing of flumes at road crossings. This work was placed under Mr Thomson.

The Clerk reported on the progress of the proposal for the Municipality to purchase from James Ritchie a five acre tract across the road south from the Central School. The price asked for this land is \$600 per acre, \$3,000 in all, payable in five instalments. It is understood that the intention would be to place this ground at the disposal of the public in general for sports purposes, and it could also be used as an adjunct to the present school playgrounds. Nothing was done in the matter.

**APPEALING AGAINST ASSESSMENTS.**

Among the most important communications was the notice of appeal served on the Municipality by Mr W. C. Kelley against the ruling of the Court of Revision on the question of the assessments of the following properties: The Misses Spencer, Woodworth lots, W. J. Wilcox sub-division, T. E. Moore estate, and Mr Kelley's own business lots at West Summerland. The case will be heard in Summerland before Judge Brown in a session of the County Court probably next Tuesday. The Council authorized the Clerk to secure the aid of the

**Summerland Supply Co. Limited.**

firm of Billings & Ladner, barristers, of Vernon, to defend the Municipality in the case. Councillor Stark did not altogether admit the necessity of this course, but it was finally agreed upon by the majority.

A claim for damage submitted by R. Mitchell resulting from an overflow of snow water from the north main, amounting to \$30, was considered too high by the Council, and Mr Mitchell will be offered \$10 on his claim, the same compensation as was granted another ratepayer on a similar claim.

**CONSTABLE APPOINTED.**

Two applications were up before the Council for the position of Municipal Constable, combining also with this the duties of Sanitary Inspector and Noxious Weed Inspector. J. C. Brown and Alex. Milne were the two applicants, and the position went to the former. The salary has been reduced to \$25

per month. Each Councillor will also nominate one person from his ward to assist the Constable, more especially in regard to the Herd Law, these men to receive the poundage fees arising from such cases.

W. R. McKay tendered \$35 for the democrat the Council offered for sale and this was accepted.

Councillor Johnston introduced the matter of the seepage on the J. A. Kirk property, near Major Hutton's. There is considerable leakage from a good sized ditch, and Mr Kirk desires either that it be lined with cement, or else a wooden flume be built inside the ditch. There is a domestic water pipe laid under the ditch, however, and this precludes the cement lining. It was finally decided to build about a thousand or twelve hundred feet of two foot flume over the ditch, at a cost of about \$300.

Mrs G. L. Young's orchard on Jones' Flat will be connected with the flume system for irrigation

purposes instead of being served with a pipe. This will cost in the neighborhood of \$100.

Councillor Stark asked that the new grader be put to work on Shaughnessy Avenue, but nothing was done about it.

Two other matters touched upon very briefly were daylight saving and "Clean Up Day," but nothing was done in either case.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 8, No. 42. Whole No. 407.

SUMMERLAND, B.C., MAY 19, 1916.

\$2.00, payable in advance.

## Express Shippers Confer On Prices

On the invitation of the Fruit Shippers' Committee of the West Summerland Women's Institute independent express shippers met in the High School building on Thursday evening to discuss prices for the coming year and other matters of interest to the welfare of the fruit industry. The response was not so heavy in numbers, as anticipated, only seven shippers beside the Women's Institute being represented, but all felt that a move had been made in the right direction.

Mrs Fosbery, for the Women's Institute, conducted the meeting. The price list for 1915 was presented in detail and comment invited, subsequent discussion resulting in some slight alterations which appeared satisfactory to all. Matters brought to the attention of the meeting were the advisability of making a material difference in prices to retailers and consumers; the importance of calling each variety by its proper name; the extremely poor policy of indulging in the illegitimate business of consigning to express agents, and the possibility of establishing a local information exchange.

## Fighting Pests New and Old.

As if there were not enough pests rampant among the orchards of B.C., a new specimen has come to light to harass the fruit grower. The appearance of the Pear Thrips, a new insect found last year near Victoria, capable of destroying an entire crop of apples, plums, etc., by attacking them in the blossom stage, is the first recorded arrival of the pest in Canada. Mr R. C. Treherne, of the Dominion Entomology Department, says a mixture of nicotine, sulphate and soap has been found to be effective, and tests are going to be made of miscible oils.

The Provincial Department of Agriculture is putting up a strong fight against the threatened inroads of the codling moth in northern Okanagan, and has had four big power sprayers at Westbank, with three more power sprayers at Vernon. Mr Winslow says that it is hoped to buck the codling moth this season to the point of extermination. Much of the infection comes from foreign fruit cars entering Canada, and then getting to the fruit districts for the loading of British Columbia fruit.

## LOCALS.

A large motor car arrived over the C.P.R. last Monday for Mr J. W. Wheeler, manager of the Summerland Lumber Co.

The ladies of the Hospital Auxiliary are planning to hold a lawn fete at the home of Mrs W. J. Robinson on Thursday afternoon, June 29th. Remember the date and keep it free for this event.

It has been learned here with much disappointment that the B.C. Baptist Convention will not be held here this year as expected. Both this year and last, Summerland has extended an invitation to the convention, this time with reasonable assurance of its acceptance, but it again goes to the Coast, this time to Victoria. Eight years ago the Baptist Convention met here, and it is reported to have been one of the most successful.

We were shown recently an envelope which had passed from place to place, covering, according to the calculations of the addressee, a distance of 8,000 miles before being finally delivered to the proper person. The envelope contained a letter from a Summerland mother to her son in the Canadian army in France. The letter was on its way before the parents learned that their son had been wounded. From the front the letter followed the wounded man to a hospital in the north of France, thence to Curragh Camp, Ireland. From there it was sent to the Record Office in York, and was finally redirected to Herne Bay Hospital, where its owner was convalescing.

## United Growers Did Big Business

### 1915 Report Made Public. Turnover This Year May Exceed Million Dollars.

The annual report for the year 1915 of the Okanagan United Growers, popularly known as the Central Selling Agency, is an interesting document. On a capital of \$2,600 it began business three years ago, and last year handled more than 1,536 cars of fruit and vegetables, appropriately one-half of the total production in the Okanagan Valley. This is a substantial increase over the amount handled in 1913 and 1914.

In connection with this great volume of production no less than 89 carloads of box material were required, including one carload of nails, three carloads of sacks, and three carloads of paper for packing, and five carloads of spray.

### AGENCIES ON PRAIRIES.

During the year agencies were established at various points, especially on the prairies, with a considerable saving over amounts for brokerage in former years, and noticeable increase of efficiency in distribution. Another year it is hoped to crowd the turnover past the 2,000 car mark, and the total sales to more than one million dollars.

Among the fruits handled were more than 300,000 boxes of apples, 30,000 crates of apricots, 14,000 crates of cherries, 35,000 boxes of crab-apples, 8,000 boxes of prunes and plums, and 45,000 boxes of peaches. With vegetables the turnover was also very large. Cabbage handled ran more than 360,000 pounds, beets 50,000 pounds, celery 135,000 pounds, onions 5,100,000 pounds, potatoes 4,000,000 pounds, tomatoes 287,000 pounds, and large quantities of other vegetables. More than 1,000 carloads of hay were also handled.

So much for the outgo. In addition the organization sold to its members and the various unions affiliated with it no less than 64 carloads of flour, feed, seed, etc.

### CAPITAL STILL THE SAME.

Although no more than three years old the capital is still \$2,600, and there is more than \$20,000 of a reserve fund in the bank. This reserve has been created by holding back a certain proportion of the sales made. Three per cent will be the amount for the current year, and after that it is expected that it will not be more than two per cent.

The total turnover in 1915 was \$802,168.88, with handling expenses of \$89,265.85, or less than 5 per cent. Unless present signs fail the Okanagan United Growers are going to be a large factor in solving the fruit selling problems of B.C. fruit growers. Now a number of Kootenay and Boundary growers have arranged to ship through the Okanagan United Growers. This is expected to be highly profitable to both producers and the Okanagan United Growers.

## Crop Not Injured.

From what he can judge at present, although he admits it is a little early to tell yet, Chief Dominion Fruit Inspector Clarke of Vancouver says that the Okanagan fruit crop will show very slight effects of the hard winter just passed. He believes the production of fruit this year will equal, if not surpass, that of last.

## Large Spud Acreage.

According to all accounts there will be an even larger acreage this year than last in potatoes throughout the province. In this connection it is stated that some growers are planting seed potatoes that cannot but eventually bring British Columbia crops into disrepute. It is even being advocated that the government pass legislation permitting its inspectors to condemn as seed potatoes any stocks which they feel will not produce good crops. It is stated that Chinese gardeners are the worst offenders in this respect.

## Suggest Longer Summer Vacation For Schools.

### Young Folks Needed In Orchards And Gardens To Take Place Of Men Now Defending The Nation.

### Board Of Trade Also Urges Adoption Of Daylight Saving.

### Roads, Railway Accommodation, And Mail Service Dealt With At Regular Monthly Meeting.

With a membership of more than a hundred, and a vigorous executive, our Board of Trade is a force to be valued, and is sure to accomplish much that will be for the general weal of the community.

The regular meeting held on Tuesday in the Board rooms was well attended, and an active interest was manifested in all the subjects discussed, of which that of daylight saving received the most attention.

Among the correspondence, that between the Board and Road Superintendent Lang and with the government candidate for Southern Okanagan, Mayor J. W. Jones, of Kelowna, promises hope of a sorely needed improvement in the condition of the lakeshore drive between Summerland and Peachland. Mr Jones recognizes this as one of our most important tourist roads, and from recent experiences knows the need of immediate repairs and improvements, and promises his assistance in accomplishing the desire of the Board that these be done. Supt. Lang advised that he would be here shortly, and would go into the matter at that time.

Superintendent Fisher of the K.V.R., assured the Board that a station building would be erected here, plans for which were now being prepared. An authorized agent will be appointed.

The Board of Trade of Penticton wrote asking the local Board to support their appeal to Ottawa for a daily through mail service over the K.V.R. They will not be satisfied with anything short of a regular postal car and mail clerk. No baggage car mail service!

After the opinion of the members was determined the Secretary was instructed to prepare a strong resolution in support of this request.

His resolution favoring the adoption of the daylight saving plan was again proposed by R. H. Helmer, and seconded by J. Galt.

Supporting Mr Helmer, H. C. Mellor said the advancing of the clock one hour was favored by the Fruit Union. It would be a great boon to the fruit industry. Fruit picked earlier would be cooler. It

would come to the packing houses in 40 per cent better condition. There would be more time to handle the day's output.

While favoring the idea K. S. Hogg wished to point out possible inconveniences. We should not stop with adopting the plan ourselves, but should interest sister towns and work to have the plan spread over the whole province.

Dr Andrew was of the opinion that if adopted by the Board members, and the municipal employees were put under the plan and the business houses fell in line, all others would be practically forced to do likewise. The Municipal Council had already approved of the plan, why not adopt it at once, and ask the Municipality to adopt it?

Coun. Johnston urged the necessity of general co-operation of the fruit growers if the ditchmen were to be put to work an hour earlier. A vote showed unanimous approval of the scheme, and upon motion of Mr Hogg a petition will be presented to the Municipality asking that the plan be put in force from May 31 to October 31. Other Valley towns will be asked to adopt the plan.

The President spoke again of the condition of Shaughnessy Avenue, and asked Chairman Johnston of the Public Works Committee if anything was being done to improve the road. He did not make any definite statement in regard to this, but said he was informed that the cement pipe for culverts on the road to Trout Creek had arrived, and that W. Watson was to put them in at government expense.

Voicing the opinion of a number who had spoken of it, Dr Andrew favored postponing the opening of the schools till September. The children would be needed in the orchards. If this was the general desire, it should be made known to the School Board, who would be obliged to take the question up with the Department of Education. Though seemingly favored, there was no formal motion in support of the suggestion.

## Appeals On Assessments

### Judge Orders Reductions On All Applications.

The appeal of W. C. Kelley to the County Court against the decision of the local Court of Revision, the hearing of which was up before Judge Brown of Greenwood on Wednesday and Thursday, has been of more than usual interest, being, as it is, the outcome of a dispute of long standing. For himself, and as solicitor for owners, Mr Kelley appealed against the assessments made by Assessor Logie, and sustained by the Court of Revision on the properties of the Woodworth estate lying on the northern slope of Giant's Head, and a five acre lot east of Giant's Head; on the T. E. Moore five acre lot; on the Wilcox subdivision in Peach Orchard, and his own lots Nos. 1, 2, and 3 from the barber shop corner to the jewelry store.

By arrangement a sitting of the County Court, presided over by Judge Brown, was held here to hear the appeals. Mr Kelley presented his own cases, while Mr Cochrane of Cochrane & Laidner, Vernon, appeared for the Municipality.

In one of the cases heard Mr Kelley called to give evidence in addition to his own; Messrs A. H. Steven, A. A. Derrick, and H. G. Estabrook. Defendants witnesses were: Assessor Logie, Roove Blair, and Mr W. J. Robinson.

The group of Giant's Head lots had a total assessment of \$2,400, and the examination and cross-examination was on the individual value of these lots. These included the site of the slaughter house. Mr Kelley stated that he had tried to sell these for the estate, but had no bids. They were mountain side lots, with little or no surface soil, mostly rock, and water pipes froze during winter. In cross-examination he stated they had been subdivided to reap the benefit of the college close by, and were only a half mile from the business centre. There was now no call for lands, and he was not surprised that he got no bids. The assessment was the same as for 1913, 1914, and 1915. The appellants' witnesses all put low values on the hillside lots, and on Blk 5, D.L. 3807, a five acre broken lot, assessed at \$1,200.

Assessor Logie, local assessor for nine years, testified that he had held a similar position on the prairies for fifteen years, and was a valuator for a loan company for twenty-five years. He had been over all the properties in question and believed he had put fair values on them. The assessments had been agreed upon by previous owners. (Continued on page 5.)

## One Missing, Other is Killed

### Lieutenant Van Allen and Private John Steven Mentioned as Casualties.

Despite the fact that close upon two hundred men have gone from Summerland into the British or Canadian armies, a good number of whom must have seen actual fighting by now, the number of casualties to date among local men has not been great. This fortunate immunity has been broken this week, however, two casualties coming to light that cause grave concern to many people in Summerland.

### AVIATOR IS MISSING.

Flight Lieutenant Kenneth Marsden Van Allen has been reported missing following an air raid on German positions on the Belgian coast. He left Summerland about a year ago to join the Curtiss School of Aviation at Toronto, following his engineering bent. After completing the course at Toronto, and gaining his pilot's certificate, he crossed to England, where he was commissioned and stationed at Dunkirk, France, and it was from this base that he started out on the trip from which he failed to return. His mother and sister, Mrs and Miss Van Allen, who resided with him at Balcombe, have been in England for some time, so as to be near him. Word that the young aviator was missing was received from England by his uncle, Rev. Robert Sims, of Toronto.

Lieutenant Van Allen attended the engineering department of the University of Toronto, of which he was a graduate. His father was the late E. W. H. Van Allen, for many years resident in Winnipeg and Brantford, Ont.

### KILLED IN ACTION.

"Somewhere in France" Private John Steven died the death of a soldier on Friday, May 6th. This is the telegraphic advice received by his brother, A. H. Steven, on Tuesday of this week.

Private Steven enlisted from here early last year with the 30th Battalion, and with that body crossed to England. He was later drafted into the 7th Battalion, which he joined at the fighting line. Only about three weeks ago there was published in these columns a characteristically cheerful letter written by him to the Home Comfort Club from the trenches, gratefully acknowledging the receipt of articles sent to him. Even later than this his brother received word from him containing the information that his battalion was seeing some fighting; and that he himself had been in some pretty tight places. It is conjectured that it is round St Eloi, where heavy fighting will probably be allowed for the occasion, there can be no objection offered on the score of what it would cost.

Private Steven came to Summerland from Murkle, Calthness, Scotland, some years ago, joining his brother here. Up to the time of his enlistment last year he was engaged in carpentering, and in the firm of A. H. and J. Steven he has done a good deal of building work in the district. He was a member of the Presbyterian Church, and especially active in the Young People's Guild of that body. He was also connected with the Summerland St Andrew's and Caledonian Society as a highly esteemed and valued member. He has numerous friends in every section of the district who were grieved to learn of his demise, though it comes with the knowledge that in making the supreme sacrifice he died the noblest of deaths. In Scotland John Steven was an enthusiastic volunteer. One of his accomplishments, but which never came to light in Summerland, was the playing of the bagpipes which he did a good deal in his native land in several bands.

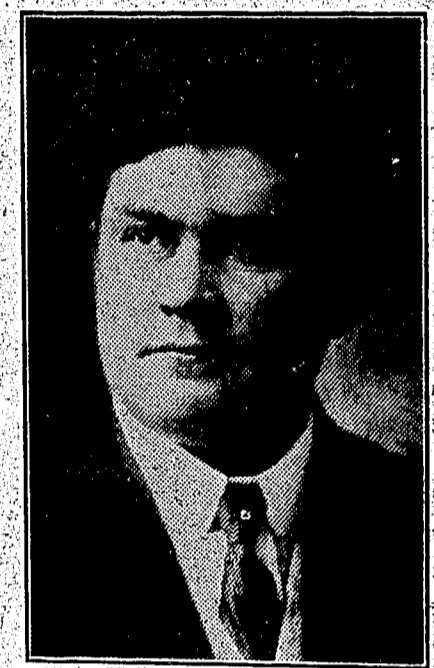

The community laments the loss of a most estimable and useful citizen, and the family an unselfish brother. His truly heroic death was the crowning effort of that life.

The only immediate relatives in this country are his brother, Alex, and an uncle, Mr John Stark, both of this place, a sister, Mrs H. Tay-

## Will Summerland be Represented Here?

The tenth annual convention of the Western Canada Irrigation Association will be held in Kamloops on July 25th, 26th, and 27th. Last year the convention was held at Bassano, Alta., and Kamloops and Nelson were the competing cities for the 1916 gathering.

Preparations are now well under way in the matters of making up the program for the meetings of the convention and, and providing for the entertainment of the two hundred or so delegates who usually attend. Men prominent in irrigation and agriculture in the western provinces have been chosen

HON. W. R. ROSS, Provincial Minister of Lands, Victoria, B.C.

President of Western Canada Irrigation Association, who will preside at the forthcoming Kamloops Convention.

to speak on subjects of greatest interest to the fruit grower and farmer. With the active encouragement of the British Columbia, Alberta, and Dominion Governments, and by the activities of the very live executive who have the arrangements in hand, there is every reason to believe that a most successful convention will be pulled off.

The slogan of the Western Canada Irrigation Association is: "Wise men not only pray for rain—they pay for it. It used to read: "Wise men no longer pray for rain—they pay for it," but out of deference to objections on the part of religious bodies it was changed to read as above.

It might not be a bad plan for Summerland to send one or two delegates to this convention. In former years this place was always well represented, and with the gathering this year so near as Kamloops, to which point special rates will probably be allowed for the occasion, there can be no objection offered on the score of what it would cost.

Why should not Summerland be advanced as a suitable meeting place for a subsequent convention? The plan apparently is to meet in an Alberta town one year and in British Columbia the next. By this reasoning the 1917 meeting will take place in Alberta, but there is no reason why Summerland could not make a strong bid for the convention two years hence. It would have been here before now if the vigorous representation of the earlier years had been maintained subsequently. Kelowna and Penticton have both entertained the Western Canada Irrigation Association at their annual session, and Summerland can boast just as much attractiveness as either. To have two hundred people come into the place even for three or four days would mean something to Summerland. Isn't it worth while trying for?

Quite apart from this consideration, a delegate or two at the Kamloops gathering would help to further enlarge the spot on the map representing Summerland.

lor, of Vancouver, and another brother, William, who travelled at his own expense from New Zealand to Vancouver where he enlisted with the Canadian Engineers. He is now in England.

### PROTECTING SHIPPERS.

MENTION WAS MADE in the Review some time since that legislative protection was being sought at Victoria on behalf of shippers of goods to commission merchants in the cities, who failed to render a settlement within a reasonable time, and then attempted to extort a bill of expense from the shipper instead of giving just returns. There is now before the House a bill amending the "Sale of Goods Act" in such a way as will afford shippers on commission ample protection. We quote some of the most important provisions of the new law, shorn of the verbal embellishment which the law tacks on:

Every consignment of goods for sale shall be dealt with and accounted for to the consignor accurately and fully, and so as to show the name of the purchaser of the goods, the respective prices at which sales were made, the gross amount realized, the amounts in detail of expenses, the rates of commission charged, and the amount due to the con-

signor as the net result of the entire sale. If at the end of any week any portion of the goods remain unsold an account shall be rendered to the consignor up to the end of such week, and so from week to week until the consignment is accounted for to the consignor. No seller or agent shall be entitled to any commission unless he has fully complied with the provisions of this section.

All money realized from the sale of consigned goods shall, in the hands of the seller, be trust funds, and the consignor shall have full right to enforce an accounting and payment.

The money payable to any consignor in respect of consigned goods shall by the seller be remitted to the consignor within five days after realization, first day exclusive and last day inclusive, and in default of cash remittance the seller shall be deemed to have misappropriated the money.

All sales and dispositions of consigned goods shall be subject to payment in cash unless with the consent in writing of the consignor is obtained.

Any money unfairly or improperly retained by any seller may be recovered by the consignor in any court of competent jurisdiction. In every action, the burden of proof shall be on the seller to establish and prove that he has justly and truly accounted. To the full extent to which the seller fails to sustain such burden of proof the consignor shall recover judgment.

§ § § § §

### THE EGG MARKS ACT.

IT IS COMING SOON, what egg producers and egg consumers of the province have been wanting for a long time—protection from the imported egg. A measure now before the Legislature will compel the marking of foreign eggs, and eggs that have been preserved or held in cold storage. This is a measure that the B.C. Poultry Association has been agitating for consistently during the last few years.

In the case of cold storage eggs the onus of having them so marked is put primarily on the storage plant, but any dealer who has eggs which he knows to have been held in storage is required to have them so stamped before they are displayed for sale. The same applies to preserved eggs. Eggs imported from China must also be stamped plainly "Chinese Eggs," and if this is not done prior to their entry into this province the importer or dealer must have it done.

Further, hotels, restaurants, cafes, bakeries and other such places where Chinese eggs are offered for sale or used in the preparation of goods for sale, must display a sign conspicuously, so that patrons can clearly see it, reading "Chinese Eggs Used Here," or "Chinese Eggs Sold Here," as the case may be. The penalty provided for the infringement of these regulations is a fine of \$100.

When this legislation goes into force it looks as though the B.C. poultryman may be able to do a little better in the matter of selling his eggs. It should certainly curb the practice which has been found to be in vogue at the present time, of bringing Chinese eggs into the Western States and shipping them over into the Coast cities as the product of western American farmers.

A MILLION DOLLARS may seem a lot of money to distribute among the farmers of this province, but it seems as though this sum, recently raised by loan by the provincial government under the Agricultural Credits Act, is not going to be quite enough to satisfy first needs. Reference was made on this page last week to the eager way in which farmers all over the province were taking advantage of the facilities offered to obtain long term loans at reasonable rates. The keen interest aroused by bringing into effect the terms of the Agricultural Bill of last year, and appointing the necessary commission is indicated by the mass of application which have been received by the commission within the past few weeks. Over 700 enquiries have been received from agriculturists in every section of the province, all seeking information relative to the steps to be taken in making application for loans.

§ § § § §

WE WANT TO BOOST YOU—Yes, you, individually. Will you give us the opportunity? This town needs a booster and we stand ready to boost the town booster—and the town too. Shall we boost you? We need some energetic man who will marshal his pluck and determination and round all the rest of us up into one great aggregation of boosters. It takes brains to do it, but some one among us possesses the requisite amount of brains. The town needs him, the whole community needs him, and we never needed him worse than we do right now, when nature has afforded us so many opportunities for commercial advancement. Are you that man? We hope you are. We want to see you step forward and assume the laudable task. We want to see you succeed. And then we want to boost you because of the boosting you have done for the town.

There is a milking Shorthorn in the dairy herd at the O.A.C. that never gave over 43 pounds of milk a day, but she produced 11,000 pounds in one year.

A garden 60x100 feet should produce sufficient vegetables for a family of ten persons, and leave some surplus for storage for winter.

## Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

### Production To Capacity.

Is the farmer justified in believing that the firm tone of the horse market and the present high prices for live stock rest upon a secure foundation? May he look forward with any confidence to the next season's or next year's market? Should he prepare, as against an advertised shortage and high prices for all classes of farm animals, by breeding a larger number of mares or of cows, sheep, hogs and poultry? We are confident that the farmer has never been in a more secure position than the present, as regards the extension of his breeding operations, but to enable him to more easily form his own conclusions, the following facts are submitted:

#### HORSES.

Since the outbreak of the war the British Remount Commission has purchased in Canada 15,000 horses. 8,000 have been bought by French contractors, and 25,000 by the Canadian Department of Militia. The French Department of Militia is now engaged in buying an additional 1000 head. The British Remount Commission has purchased over 700 since March, and is buying daily in Montreal. French contractors are anxious to obtain supplies and are arranging to buy all that are available both in the east and in the West. It is understood that, as a result of the purchases already made, army buyers are finding it increasingly difficult, both in United States and Canada, to readily secure the number of horses which they require, particularly of the type suitable for heavy cavalry or heavy artillery.

In addition to the purchases for army account, commercial activity from two distinct quarters has exerted a very evident influence upon the Canadian horse market during the past three or four months. Since the beginning of the year 6,000 horses reached the Winnipeg Stock Yards from Eastern Canada and 5,917 were shipped from the same yards westward, mostly to Saskatchewan. During the months of January, February and March, 1,805 horses were exported to the United States. A few hundred more went forward to the same market in April. The horses exported were good farm chunks weighing from 1,300 to 1,500 lbs. As high as \$500 a pair was paid for animals possessing extra quality and conformation. This new movement in the horse market is having its effect upon prices all over Canada.

Buyers report that the better classes of drafters and farm chunks are getting scarce and hard to buy. The same holds true of good big roadsters and saddlers. The noticeable scarcity of good horses of these descriptions illustrates the fact that demand has already overtaken supply and makes it very evident that all the really good sound mares in the country should be bred this year. It cannot be too strongly emphasized, however, that they should be mated only with strictly high class sires. The number of horses rejected by army buyers clearly indicates that there is no place for the unsound horse or the misfit. Such animals have been, are now and always will be a drag on the market. Breed to the best if you would have the best. Unsound or malformed mares are just as bad as unsound stallions. It is easier to raise a good animal than a poor one. Manage the work this spring in order that the best mare on the farm may be regularly returned to the horse. Next year, a good crop of sound, healthy colts will be as good as a bank account. Canada is likely to enter shortly the commercial export market and that market will require all you can produce.

### Poultry Raising As Veterans' Vocation

#### B.C. Poultry Association Petitions Government To Take Some Action.

Poultry raising is considered to be an excellent occupation for returned veterans in the opinion of the executive of the B.C. Poultry Association. At a recent meeting the following resolution was passed, calling upon the government to give their attention to the matter:

"Seeing the great opportunity there is at the present time for the development of a great poultry industry in B.C., just so soon as effective legislation is given to the protection of our egg markets, and in view of the fact that a great number of the returning soldiers will turn their attention to this industry, we, the executive of the B.C. Poultry Association, do petition the Provincial Government to reconsider their recent decision in cutting down the grant. This curtails the possibilities of extending the work of this Association in preparing for greater production:

- "(1) By the education of the people in utility poultry raising.
- "(2) By the holding of shows of pure bred stock in the recently suggested nine districts.
- "(3) By the institution of a breeding station where stock can be raised and supplied to those who have served the Allied cause free or at a very low figure."

### Be Ready For The Cut Worm.

It will soon be cut worm time, and by watching out for the first signs of these pests it is possible to save much damage to young crops. E. H. Strickland, M.Sc., field officer of the Entomological Branch of the Dominion Department of Agriculture, has given out some interesting facts concerning the work of cut worms and the best method of controlling them.

According to Mr Strickland the majority of eggs hatch out about the middle of April. From then till the middle of June the cutworms feed extensively upon all classes of crops and weeds. By the middle of June, in normal seasons, they are all matured and have formed small oval cells in the earth, in which they remain for a period ranging from a few days to a month, before turning to the brown pupa from which at the end of another month moths hatch.

The cutworms remain below ground during the day, coming near to or to the surface at night, in order to search for food. In wet soils the cutworms are able to move less freely below the ground, and come to the surface more extensively. Cutworms are most destructive to crops in which spots for some reason, such as their being higher than the ground level of the field, are drier than the rest. Such places should be watched carefully in the spring. If early in May any sign of cutworm damage is seen it should be treated immediately with the bait described below, in order that the young caterpillars may be killed before they become scattered through the whole field. In this way the damage to many acres may be considerably lessened by the treating of the comparatively small area.

Those who delay treatment until these infestations are nearly or quite stripped, may find that the infestation has become too general to warrant the expense of poisoning.

The bait recommended should be made in the following proportions:

Shorts	50 lbs.
Paris Green	1 lb.
Molasses	1 gallon.
Water	1 1/2 gallons.

It should be especially noted that shorts give better results in this mixture than bran, although bran may be used to fair advantage. The

crudo beet molasses give the best results. The shorts and Paris green should be mixed dry, and care should be taken not to breathe the dust of the Paris green when making this mixture. A handkerchief tied over the mouth will lessen the danger. Stir the molasses into the water and add the solution slowly to the shorts and Paris green, thoroughly mixing with the hands all the time to prevent lumps forming and apply the mixture to infested areas and for a few feet beyond at the rate of 50 lbs. of shorts per acre. It will be seen from this information from Mr Strickland that the time to act is now if sources of infection from last year are to be adequately dealt with.

### Unity Club Afternoon Tea.

A Ten Cent Tea in aid of the Unity Club Society was given on Thursday afternoon at the home of Mrs Fred Manchester, Mesdames Manchester and Salting being the genial hostesses. It is pretty safe to state that every lady member of the society was present, as well as a number of gentlemen. There was a very dainty luncheon served, which was greatly enjoyed by all present. The Misses Gwen and Kathleen Robinson and Miss Lois Wells assisted the hostesses. A short musical program was rendered. The collection amounted to five dollars.

### Current Events

#### — OR — Town & District

Chief Constable McDonald of Penticton made an official visit to Naramata one day last week.

Mrs M. M. Allen and little son Stanley spent Sunday with Mr and Mrs Fred Young, south bench.

Messrs Hancock and Raynor have been very successful in catching some very fine trout in the lake.

An account of the Boy Scout Concert and Pie Supper will be published in the next issue of the Review.

Mr Geo. Dempsey drove down to Penticton on Monday evening to be present at the I.O.O.F. Lodge meeting in that town.

Mr Gordon Hayman went out on Tuesday morning to Vancouver to enlist. It is his intention to join the Royal Artillery.

Dr Andrew, medical inspector, paid an official visit to the school on Wednesday last, coming around via Penticton in his motor car from Summerland.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be held for.

Mrs M. M. Allen made a business trip to Summerland on Thursday last.

The many friends of Mrs Dan McKay will be pleased to learn that she is better again and able to be up and around.

The Farmers' Institute are holding their regular monthly meeting tonight, Friday, a report of which will be given in the Review next week.

Dr Andrew of Summerland paid an official visit to Naramata on Saturday evening last, visiting Mrs John Bruce, who has been on the sick list for some time.

Miss Annie Dale and Miss Rothwell, both of Summerland, were in town on Saturday between ferries, and during their stay were guests of Mrs Boothe.

On account of a burst in a pipe on the road leading up to the home of H. T. Davies some parts of the road and hill were pretty badly washed away before the leak could be stopped.

Private Lewis Block, who went out as far as Vancouver to join the Royal Artillery a week or two ago, arrived home on Friday evening's boat on a short leave. He returned on Tuesday morning's boat.

Mr and Mrs Carrol Aikins and Mr and Mrs Geo. Cook motored down as far as Dog Lake on Tuesday. While there they enjoyed a luncheon on the shore of the lake before returning to their homes.

The regular weekly sewing circle in connection with the Red Cross Society was held in the Unity Club building on Saturday afternoon last, Mrs Hancock and her two daughters, Marie and Cathey, serving refreshments.

Mr Davis of Victoria, B.C., civil engineer, arrived in town on Monday night and while here is appraising the irrigation system of the Okanagan Securities, Ltd., of this place. While here he is a guest at the Syndica House.

Nurse Gordon of Naramata, now acting head-nurse of the Summerland Hospital, arrived in town on Monday for a few days to look over her holdings in this place. She left again to resume her duties on Thursday.

Mr and Mrs Andrew Wilson and little son have taken up their residence in what is known as the Wilkinson cottage, south benches. This move was made so that Mr Wilson would be nearer his work during the summer months.

Captain F. J. Languedoc, late of the Lake Boat Company, has accepted a position with the Okanagan Trust Company to look after the irrigation water system for the summer months, taking the place of Mr Bruce Cash, who enlisted some months ago.

Divine service was conducted on Sunday afternoon last by Rev. H. A. Solly of the Summerland Anglican Church. There was a good attendance present. The reverend gentleman took as his subject "The Resurrection." Mrs F. J. Languedoc ably presided at the organ.

Mrs Thomas Kenyon, who has acted in the capacity of nurse at the

home of Mr and Mrs Carrol Aikins, for the past three years, is at present taking a holiday, staying at the home of Mrs Fred Young, south benches, for the summer months at least. Her husband, Bandsman Thomas Kenyon, who enlisted some time ago, is still at Bramshott, England, his regiment not having as yet been sent to the front.

Mrs P. S. Roe is in receipt of a recent letter from her son Russell, informing her of the safe arrival at Shorncliffe of the 62nd Battalion. The only unpleasant part of the trip was the eight days' delay in sailing after first getting on the boat, the "Baltic." In common with a good many more Russell has had an attack of measles, but is now recovered. He is now enjoying a short holiday, visiting his father at Birmingham.

In recent letters from two or three of our boys who have enlisted and are now away far from home, they speak of the great pleasure of having the Summerland Review come to them each week. One boy especially says it is the one big thing he looks forward to, as it brings him back again to the sunny Okanagan. We ourselves know what a home paper means to each one of us living right here. Help it along by getting news items for us, and by paying up your subscriptions. Boost the Review.

That the pilfering or thieving is still going on is evidenced by the fact that another of our neighbor's cellars has been visited. We refer to that of Mr Frank Rounds, where it is said that 30 lbs. of lard and a side of bacon have been taken, along with other things. Surely in a neighborhood of this kind these conditions should not be. We cannot think that any one of our neighbors would be guilty of such things, but all the same we do not feel entirely safe, and feel that the powers that be should get busy.

It is pretty quiet around the town these days, but not so on the benches. The fruit ranchers are all busily engaged in their holdings, cultivating, plowing, spraying, irrigating, making gardens, beautifying their lawns, etc. The orchards are really a lovely sight at present with their acres of fragrant blossoms. It is worth one's while to take a drive around and see the work that is being done. It is hard to realize that only seven or eight years ago this community was a wilderness of sagebrush and sun scorched hills and valleys. So much for the wonderful irrigation system we have here and the intelligence behind it.

That our former Scoutmaster, Harry Pitman, who is now in

England serving King and Empire, is still doing what he can to help on the Boy Scout movement overseas, is evident from the account of a recent Scout entertainment or organized under the auspices of the Camelsdale Troop. That organization of Boy Scouts gave a very excellent entertainment at their headquarters on Wednesday evening, April 14th. The newspaper report goes on to state that the band of the 47th C.E.F. was present (and, by the way, anyone ever having heard this band and knowing that it consists of so many of our own boys who have gone overseas will know just how good it does sound). The thanks of the committee and Scouts were tendered to Private Harry Pitman of the 47th infantry brigade, who has now acted as Scoutmaster for some time, and who formerly held a post of Scoutmaster in Naramata.

### EGG EXPORTS.

The anomaly of agricultural Canada importing eggs is passing and Canada is now exporting eggs. Two things are contributing to the success of the export business. Since the war, foreign shipments to Great Britain have been seriously interfered with. Trade with Russia, a great egg-producing country, was practically shut off, and the way was open to Canadian shipments. This and the fact that we are beginning to produce more eggs than ever has been working great changes in the Canadian situation. Last year Canadian hens laid eggs to the value of \$30,000,000. They are going to do better this year. There is a production and thrift campaign on in the Dominion through which all may do their "bit" towards the success of the Empire in the present struggle. One of the ways to help is to keep a flock of hens thereby serving your own table, and helping to increase the exports of eggs. Every egg you produce for your own table leaves one extra for the export trade.

### TO CAN RHUBARB.

A simple way in which to preserve rhubarb is to cut the tender stems into half inch lengths without peeling. Pack them in cans. Then pour in cold water till the can overflows. Seal it tightly, and treat it the same way as any other canned fruit.

This is excellent for pies or for sauce in the winter time.

The ability of always seeing the bright side or shining up the dark one is a blessing to the person who possesses the power, as well as to

## Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800

A PROVERB APPLIED TO MODERN BUSINESS.

"Faint heart ne'er won fat dollars." Or, as John Wanamaker once stated it in another way, "Advertising is no business for a quitter." The man that sticks at it wins. The article with merit that is advertised week in and week out is the article that turns out profits for those that are selling it. The effect of right advertising is cumulative. Returns grow bigger with each repetition. There are concerns who are doing more and more advertising every year. They find that their business is increased by it.

Gentlemen.

Having purchased from Mr S. R. Fraser the business conducted by him, I beg to announce that commencing Monday, May 8th, I will be at the West Summerland shop during the hours between 4 p.m. and 10 p.m. daily except Thursday. Hours down town will be from 8 a.m. to 3 p.m., and Thursday evening. Your esteemed patronage is solicited.

C.E. McCutcheon

Passing Events: Social, Personal, &c.

A memorial service will be held for the late Pte. John Steven in St Andrew's Church on Sunday at 3.30 p.m.

A gang of Summerland Telephone Company men have been busy lately putting in a new pole line extending from the Municipal Office north on into Garnett Valley.

Mrs C. W. Haddrell and young child left last Saturday morning for England. Mr Haddrell joined the 54th Battalion, but later transferred into a company of Pioneers. He is now in England.

Moving the four ton safe in which the Bank of Commerce has guarded its valuables was the no mean feat which was undertaken this week. It has been shipped to Courtenay, Vancouver Island.

Mr and Mrs W. Arnett and Miss Hilda are leaving on Monday morning, their ultimate destination being Dauphin, Man. They expect to make stops en route at Calgary and Winnipeg. Their stay on the Prairies will be a protracted one.

J. Lawler, having disposed of his Ford car to the Fruit Union, had intended becoming the owner of a McLaughlan "Baby Six," and had an order placed. Not being able to obtain anything like immediate delivery, he has purchased a Canadian Chevrolet.

The High School boys are making the trek up to Peachland tomorrow to show the boys of that town how to play ball. It is understood that arrangements are under way for a return engagement here on Empire Day, next Wednesday, when there is some talk of a double header being pulled off.

Changes are being made in the arrangement of the Supply Company's main store. The grocery and dry goods departments are being moved into the south building where they were formerly, and the hardware and men's furnishings will be brought forward from their present location to the space now occupied by the groceries and dry goods.

C. Noel Higgin and Hector W. Agar, both of the 172nd Battalion, came in on Tuesday night, the former for two weeks and the latter for one week's leave. They have been doing guard duty at Bonnington Falls, B.C., at the big power plant there for about six weeks. It is expected that the 172nd will move into camp at Vernon for the summer about the last of this month or the beginning of next.

The West Summerland Women's Institute met in St Stephen's Hall on Friday, the 12th inst. After the minutes were read and business over Mrs Snider opened the discussion by a good paper on "Saving Strength." Nearly all present took part in the discussion which followed. The roll call was answered by a physical exercise that is beneficial to health. The Institute is giving \$5 per month to the fund for prisoners in Germany. Shipping fruit as last year through sister Institutes will be engaged in by members. Last year about \$1,000 worth of fruit was shipped, and all are willing to do so again.

PHONE L15, write, or better still call on

Summerland Lumber Co., Ltd. Post Office, West Summerland. J. W. WHEELER, MANAGER.

The ladies of the Hospital Auxiliary met in regular monthly session on Tuesday afternoon at the home of Mrs Hespeler.

Dominion Fruit Inspector Clarke made Summerland the first visit of the year this week, arriving on Tuesday evening. He is looking into general conditions.

Mrs H. A. Solly is this week at Grand Forks where she represents the Women's Auxiliary of St Stephen's Church at the Diocesan Convention of the Anglican body.

A Methodist district meeting was held at Penticton this week at which Rev. R. W. Lee was present. Mr Lee went up to Vernon this morning and will go on to Vancouver on Tuesday to attend the conference there.

Word came west from Ottawa a few days ago to the effect that the 54th Battalion will cross from England to France within a few weeks at the most. This battalion has been in England since last fall. There are many Summerland boys in its ranks.

Harry Everett and Roy Darkis were two more boys of the 172nd to come in this week on short leave. The former has only six days, while Pte. Darkis is home for about two weeks. He has lately been in the isolation hospital for a while suffering from an attack of measles.

Methodist Church services will be conducted on Sunday next at 10.30 a.m. and 7 p.m. The morning service at 10.30 will be conducted by Rev. H. G. Estabrook. The service at 7 p.m. will be in St Andrew's Church, when the preacher will be Rev. J. Knox Wright, D.D., of Vancouver.

Do you notice what the Summerland soldiers say in regard to having their home paper sent across to them every week? Another letter in this issue says that the paper is read right through to the last line of the personals. It is like a letter from home to the boys over there—only it's better, so much longer and more inclusive. Try sending it to your soldier friend, and see how he appreciates it. Enquire about our \$1 per year offer in this connection.

Monday, May 22nd, will be Sock Day in Summerland, and a special appeal is being made by the Ambulance League for contributions of socks for the soldiers. A "Sock Shower" will be held in St Stephen's Hall, and afternoon tea will be served for ten cents. All kinds of socks will be acceptable—hand-knit socks, bought socks, or money to buy socks. Show by your presence and by your gift of socks that you are really interested in the welfare of our soldiers, and encourage the Ambulance League in the work they are doing.

Mesdames S. Angove and T. G. Beavis went out together on Monday morning by the "Sicamous" bound for Vancouver and Victoria. Mrs Angove is an accredited delegate from the local Methodist Church to the Methodist Women's Missionary Society Convention, which meets at Victoria immediately, and Mrs Beavis, while not an attached delegate, will also attend some of the sessions of this convention. Both will take the opportunity to visit friends in the two cities. They expect to be away for about two weeks. In their absence Miss Eula Watson is in charge of the dry goods department at the Supply Company's main store.

From all indications it seems that Summerlanders are now getting into the thick of the fighting at the front. Many who enlisted in the spring of last year are now getting to the front with various drafts, reinforcing battalions already on the firing line. From this circumstance it is highly probable that local casualties will come to light in greater numbers than hitherto. Indeed, it is hardly to be thought that Summerland can hope to come through with so few casualties in the future as there have been up to now. Letters received by friends here show how the boys happen upon each other quite by chance, and of the good times they have when they get together. It is learned in this way that P. Le Roy Black is now over in France with the Princess Patricia's. He enlisted with a University Battalion in Montreal. Keith Elliott is also in France now.

The regular monthly meeting of the Women's Christian Temperance Union will be held in St Andrew's Church, Friday, May 26th, at 3 p.m.

Mr B. F. Gummow of Peachland, now teaching in Penticton Public School, has resigned, and will enlist for service in the Canadian forces.

Rev. N. McNaughton's Sunday morning subject at the Parkdale Baptist Church will be "The Soul's Anchorage;" evening, Lakeside Church, "Things That Abide."

Supt. F. W. Peters of the C.P.R., Vancouver, was a passenger on the "Sicamous" on Thursday evening. He was accompanied by Mrs Peters and a party of friends.

The Sacrament of the Lord's Supper will be observed in St Andrew's Church on Sunday at 10.30. In view of the memorial service the usual afternoon service down town has been cancelled.

Ex-constable Graham went up to Kelowna on Tuesday morning to take up duties as resident Provincial Police officer. As it is probable that he may be given other duties later, Mr Graham does not plan on moving his family for the present.

Following the example set by Summerland and Peachland, a stock association has been organized at Penticton. This will enable farmers of that district to take advantage of the offer of the Dominion Government to loan pure bred sires. The association has applied for a Jersey bull.

Carp are reported to be coming up into the lake from the south, a number having already been caught. They are very destructive to spawning grounds, and are likely to seriously affect the supply of trout. It is hoped that prompt action will be taken to deal with this threatened menace.

Lance-Corp. G. D. Marson, who spent several days in the district soliciting recruits, returned to the Coast on Tuesday. He obtained two additions to his battalion, the 11th C.M.R., which expects to go to England shortly. Martin Joyce is one who enlisted, the other name mentioned, though not confirmed, is that of Arthur Clouston.

Much to the annoyance and monetary loss of some of our citizens, dogs are making night raids on rabbit hutches. Last Sunday night A. Britten lost 17 rabbits, and on the same night A. A. Derrick was again a loser, on this occasion 7 being taken. Needless to say these, and others, would be grateful to dog owners if they would keep them fastened up at night.

Members of the St Andrew's Society are requested to attend the memorial service in St Andrew's Church on Sunday afternoon at 8.15 for the purpose of paying respects to a beloved member, Pte. John Steven, fallen in the service of his King and Empire. All Scotsmen of the district are invited to join with the Society on this occasion. J. G. Robertson, Pres.

Sergeant C. N. Borton, of the Machine Gun Section, 108rd Battalion, C.E.F., came in from Victoria by Monday afternoon's train, surprising his friends with an unexpected visit. With a number of other sergeants he is out on a recruiting mission, his battalion needing only about a hundred men to bring it up to strength. Sergeant Borton will cover about half a dozen towns in the lower Okanagan and Similkameen, in an endeavor to get a portion of the recruits required.

The Canadian Bank of Commerce branch here is no more, the last day's business being done on Monday, the 15th inst. Most of the bank's equipment and supplies were packed and dispatched to the Penticton branch. Both Messrs J. D. Lewis and C. H. Sismey will be attached to the Penticton branch for a while. The former will see to getting the Summerland business properly transferred, and the latter will very shortly take on relieving work up and down the Valley. Mr Sismey expects to be through with this work in time to join the warehouse staff of the Fruit Union before the crop rush begins.

About three-quarters of the total value of fruit produced in this province in 1915 was grown in the Okanagan. The total crops for all the province is placed at \$1,600,000.

APPEALS ON ASSESSMENTS.

(Continued from page 1)

There had been no appeals against his valuations till last year.

Cross-examined by Mr Kelley, Mr Logie believed Blk. 5 was of equal value with the Moyle lot adjoining. This had been bought at a snap cash bargain, and was no guide as to values. He had given Jas. Ritchie no special concessions in his assessments except on the sports ground used by the public.

W. J. Robinson believed that the values as assessed were low, considering location, view, etc. He admitted the compensating disadvantage of a climb, but did not think the need to blast for basements a great disadvantage. With no turn-overs there was now little on which to base cash prices.

Reeve Blair in his evidence said it would be cheaper to blast and build basements than to haul stone and build.

To Mr Kelley: Could not say how desirable the lots were. They afforded a fine view and were cheaper than usual. He had heard complaints about the slaughter house. The owner had promised to move, but it was not now being used.

Mr Kelley in rebuttal: Had sold the Moyle lot for \$1,000 cash. There was no increase in value of lot 5 since. Water was not available to this lot. Re side hill lots, he knew the slaughter house was being used.

The judge's ruling makes reductions on the hillside lots as follows: Lot 2, from \$200 to \$150; Lot 3, \$200 to \$150; Lot 5, \$200 to \$175; Lot 8, \$150 to \$100; Lot 17, \$600 to \$250; Lot 18, \$600 to \$250; Lot 19, \$300 to 250. Slaughter house site reduced from \$150 to \$50.

The five acres (described as a "hog-back"), Blk. 5, D.L. 3397, from \$1,200 to \$500.

The same witnesses for appellant and respondent were heard in the T. E. Moore estate appeal. It is assessed at \$1,500 or \$300 per acre. Some side hill and cut by brook. The Judge orders assessment reduced to \$1,000.

In asking for a reduction on the building lots, Mr Kelley produced evidence to show that rentals had been greatly reduced in the past two years. He urged that land across the road was assessed at \$600 per-acre. This was more valuable land and had not been subdivided for that reason. Lot 1 on the corner, barber shop, pool room and meat store, frontage of 15.1 ft. was assessed at \$300, 2 and 3 at \$500 each. Retail business at West Summerland had dropped off notoriously and materially since 1913, and the rents from buildings on these properties had greatly depreciated. He now valued these \$160, \$200, and \$200. He would be glad to sell at that valuation and the improvements at the assessed value or less.

Cross examined: Mr Kelley admitted selling a building lot farther back, 50 x 212 for \$550, but this had eight-year old pear trees on it.

The judge's finding is "that these lots were assessed fairly or almost so in comparison with other business lots, and if I were not constrained to do so by the wording of the Municipal Act I should not interfere with the assessment. Having regard to the evidence I do not think the present assessment is based on the actual value of the lots. If present conditions only were considered I think lots should be reduced to what Mr Kelley asks. I think, however, as the business section of a populous fruit growing district this property may reasonably be expected to be more valuable in the near future as to its rental value than now. Even allowing for this, the assessed value is too high."

Lot 1 was reduced to \$250, Lots 2 and 3 to \$375 each.

The Wilcox appeal was withdrawn on objection of the respondent's solicitor. This appeal had never been properly before the Court of Revision, as the notice, though dated April 20, did not reach the Municipal Office till the 26th. Ten days notice is required. After considerable argument, Mr Kelley consented to the throwing out of this appeal without costs to appellant.

Total costs assessed against the Municipality, exclusive of the municipal witnesses, were \$58.

It was expected that the Hope Mountain cut-off of the K.V.R. would be ready for traffic by the time the C.P.R. summer time table went into effect, early in June, but now July 1st is being mentioned as the likely date for opening the short route between here and the Coast.

Boy Scout Column

SUMMERLAND TROOP BOY SCOUTS.

Headquarters—ELLISON HALL. Meet every Friday in Ellison Hall. Visitors cordially invited to attend. Recruits apply at any meeting. Scoutmaster J. Tait. A.S.M., H. Harris. Physical Instructor, G. Dale.

The Boy Scouts wish to thank the Summerland people for the splendid manner in which they turned out to their Concert on April 27.

There was a very good attendance at the Scouts' meeting last Friday. Roll being called, work was commenced. Assist. Scoutmaster Harris took one squad of boys on a route march. They marched off forming fours, right and left forming, etc., on the way, and learning all the general rules of marching.

Those who remained were lined up by Instructor Dale, and dumb-bell exercises given.

The signalling patrol were taking up their work in an adjoining room. When the marchers returned all were paraded, and Scoutmaster J. Tait addressed the troop. He then read a letter from the Naramata Troop, containing an invitation to the entire troop to the Naramata Scout Concert and Pie Supper on Thursday, the 18th May. Needless to say the invitation was accepted.

The meeting was then adjourned. Next meeting will be Friday, the 19th. Don't forget that visitors are welcome, so don't be shy. A SUMMERLAND BOY SCOUT.

No, the prices of printers' commodities are not up in the clouds. They are above the sky.

**Newsy Paragraphs**  
from  
**PEACHLAND**

Mr H. E. McCall of the firm of Thompson & McCall, spent Wednesday at Kelowna on business.

Mr Hamilton Lang, Superintendent of roads and bridges, was a visitor to town on Saturday.

Miss Irene Elliott spent last week-end at Penticton as the guest of Miss G. V. Gummow, returning on Monday morning.

Mr H. Slater, manager of the Fruit Union here, who spent a few days at Vernon on business, returned by auto on Thursday night.

Mr George Needham of Summerland came up by Saturday morning's boat to spend the day at his home here, returning by the afternoon's boat.

Messrs Rowcliffe Bros., Logan and Rev. Dunn of Kelowna motored down on Monday. They spent the day looking over the orchards, and returned the same evening.

Mrs J. B. Robinson had the pleasure of a visit from her sister, Mrs R. C. Lipsett of Summerland, who was accompanied by Mrs J. E. Phinney. They drove up on Friday, returning on Saturday afternoon.

Rev. A. Henderson and Mr Alfred Town were passengers on the south bound boat to Penticton on Monday night to attend the district meeting of the Methodist Church, which was held there on Tuesday and Wednesday.

Dr Wm. Buchanan gave the first lecture of a series to be given on "First Aid to the Injured," on Wednesday afternoon in the High School room, to an attentive class, which consisted of the pupils of the

High School, and Fourth Class of the Public School, also one or two visitors. Although the seating capacity of the room is not very great, more might take advantage of these valued lectures.

The annual business meeting of the Methodist Ladies' Circle was held at the home of Mrs W. B. Sanderson last week. The reports of the year were read and proved to be satisfactory to all. The election of officers resulted in the following ladies being chosen to fill the various offices for the ensuing year: President, Mrs A. Town (re-elected); Vice-President, Mrs N. S. Elliott; Secretary, Miss Mae Henderson; Treasurer, Mrs B. S. Brown (re-elected).

The members of the Circle are anticipating a pleasant and profitable year's work.

**PEACHLAND WOMEN'S INSTITUTE**

The April meeting of the Women's Institute, which was held in the Baptist Sunday School room on Friday of last week, opened with the singing of "Britannia," Mrs E. Lang presiding at the organ, and the Vice-President, Mrs Buchanan, in the chair, the President, Mrs S. Murdin, who was suffering from a severe cold, being unable to officiate. The minutes of the last meeting were read and adopted. The motto for the month was then given by Miss O. Ferguson. The various communications were read by the Secretary, Mrs J. B. Robinson, after which a most excellent paper on "English Music" was given by Mrs E. Lang. This was followed by a solo, very ably rendered by Mrs James Elliott. A most interesting and helpful paper on "Parliamentary Rules" was then given by Mrs R. C. Lipsett of Summerland, after which Mrs Carter gave the "Current Events." The greetings from the Penticton Institute were then given by Mrs Buchanan. They wish to entertain the members of the Peachland Institute at a picnic to be held at

Penticton in July, for which invitation the Institute wishes to thank them very kindly. A lengthy discussion followed as to ways and means of beautifying the town. Mesdames A. Town and R. J. Hogg were appointed to meet the Council to see what could be done along this line. After adjournment a very enjoyable hour was spent in a social way, the executive of the Institute having provided refreshments.

The executive of the Women's Institute met at the home of Mrs R. J. Hogg this week to discuss ways and means to assist in beautifying the town. They first considered the new park grounds. The park is adjacent to the school grounds, and as the School Board has lately planted a row of ornamental trees along its frontage, the Institute decided to continue this row across the park frontage on Beach Avenue. Another necessity in town is tie-posts for the farmers' horses, when in town. This the ladies decided to alleviate by placing twelve posts in convenient places in the town. They also made a donation to the Red Cross Society of ten dollars and fifty cents, with which to buy yarn.

Since the inception of the Institute they have conducted a sewing class in the school. This they decided to continue during the coming year. Some little time ago the Institute donated a First Aid box to the school. The box has now arrived, and Dr Buchanan, who so kindly offered his services free of charge, has already begun his good work. All this goes to show that the Peachland Women's Institute is very much alive, and a potent factor in the well-being of the community. Will the Farmer's Institute kindly take notice?

**More Commendation For Home Comfort Club's Gifts**

April 21, 1916.

Dear Mrs Hogg,  
I received your parcel yesterday, just a short while before going into the trenches. It was a surprise, and I am very grateful indeed to you and those who have been so kind to remember me in this way.

I enjoyed the Review very much, and after lighting a Pall Mall, read everything from the article on the extermination of the codling moth in B.C. to the last item in the Personal Column.

I was surprised to read the difference between the fruit shipments of 1914-1915, in the Okanagan. It is a big increase, and before long I hope the Okanagan fruit will have absolute control of the market in B.C., and give little room for the American growers.

You seem to have had a stiff winter, and from reports it has been rather severe in all B.C. I didn't think that the lake froze over entirely, but of course there are exceptions. Skating and sleighing parties would be the order of the day, and Penticton would, I imagine, be a rather popular spot if skating down the lake were possible. But I suppose all the nice men have gone to the war, and skating, with the other kind isn't very enjoyable, is it?

It is rather difficult to keep my mind on this little epistle, as at present the Huns are putting some shells quite close to a road where our communication trench crosses it. I am sitting in my dug out, but if one happened in here it would be good-bye Willie. One hears the gun report in the distance, and then in a second you hear the shell whistling along like an express train, and then a huge bang when it explodes on striking.

I had a very narrow squeak the other day. We were back in reserve, occupying a farm and quite close to shell fire. I happened to be lying down after lunch on my improvised cot when the Huns started shelling. I got up and went down to the cellar, and only got in when a shell hit the roof, went through the ceiling and scattered my bed with fragments. I am keeping the fragments as souvenirs—but such is war. Well, I must be off. Thanking you.

Yours very sincerely,  
WALTER W. KENNEDY.

Dear Mrs Hogg,  
Just a few lines to thank the members of the Home Comforts for their kindness in remembering us at this time. I must say it just suited my taste and you would like to have seen the rush for chewing gum when I opened it. I expect by the time you receive this letter we shall be thinning out

**"Can't Afford It"**

That's what a merchant said the other day about his advertising. He said that trade was falling off and that he would have to economize.

**Advertising**

is to stimulate business, but evidently Friend Merchant has it figured out that when times are good and folks have plenty of money to spend, he will demonstrate the advantage of spending it with him. But in dull times he will let the other fellow have the business.

**It is a Fact**

that advertising pays better when times are dull. It is the open season for bargain hunters, and the merchant who has nothing to offer the economical buyer is the first to suffer. The time to advertise is all the time and you can LEAST AFFORD to quit when you need the business most.

Germans. I have been pretty lucky so far. Happened to come out on top in the battalion for shooting, and was sent down to Aldershot on a course of sniping. It's very interesting work. We are kept separate from the other boys, and our training is quite a change from the ordinary routine. The scouts and snipers go together, and the only other Summerland fellow in the battalion is Lance-Corpl. Reid, and he is in the scouts with me. I see by the Review that nearly all Summerland young men have joined up. The old place will look good to most of us when we get through with this war. Must close now with kind regards to the ladies of the Home Comforts Committee. Believe me, yours sincerely,  
CORPL. GEO. BARKWILL.

Some hens never lay a fertile egg, and are akin to barren animals. The hens which lay extremely large eggs are often infertile.

**KEEPING OUT DISEASE.**

The hot weather will soon be here with its companions, flies and mosquitoes. The real remedy, of course, would be to keep the premises in condition that they would not breed the insects, but this is an ideal state that is next to impossible. In lieu of this, the next best thing is to screen windows and doors. The prudent husband, in justice to himself and his family, will see that this is done. The cost will be but slight, and, besides the comfort it will give, the health of the wife and children will be greatly protected. Flies and mosquitoes breed disease. By protecting windows and doors with screens you may be saving the life of some member of your family.

A word to you sonny—you little twelve or thirteen year old boy who is smoking cigarettes on the sly. What do you want to be when you grow up—a stalwart, vigorous

healthy, broad-shouldered man, or a little, puny, mealy, no-account, weak-minded dude? If you want to be a man, strong like a man, with hair on your face, brains in your head and muscles in your limbs, you just let those cigarettes alone. If you want to be a thing pitied by your folks, despised by the girls and held in contempt by the fellows, keep right on smoking and end your days in the insane asylum.

## Resignation Officially Accepted.

Rev. C. H. Daly Concludes Ministry Here Next Sunday.

St Andrew's Church was the scene of a Presbytery meeting on Tuesday night of this week, the special business being the consideration of the situation arising from the resignation of Rev. C. H. Daly from the pastorate of the church, as previously announced, to go to Fort George, B.C. The visiting clergy present were Rev. Ferguson Millar, of Penticton, Moderator; and Rev. David Lister, of Benvoulin. Mr. A. G. Munn, as senior elder, represented the local church on the Presbytery. A brother of Mr. Millar, a Presbyterian College professor from Edmonton, who is visiting at Penticton, was also present. He did not act in an official capacity, but was interested in the proceedings more on account of the fact that he and Mr. Daly were college friends in former days.

In response to the invitation of the Moderator, representatives of the various church organizations expressed views in regard to the resignation of their pastor that were representative of the whole body. Mr. J. G. Robertson, speaking for the church session, voiced the views of all those who spoke. He eulogized Mr. Daly and the work he has done during his pastorate here in very sincere terms. The congregation were indeed loath to have their pastor leave, he said, but they could not stand in his way since it was realized that it was a call for him to take up a larger work, and one for which he was eminently fitted. Other speakers representing the managers and the congregation corroborated what Mr. Robertson said. Mr. Daly replied briefly to the kind words tendered him by these speakers.

When the Moderator put a statement of the case before the meeting, it was decided unanimously to accept the resignation of Mr. Daly. He ends his pastorate here on Sunday next, the 28th inst.

During the course of the meeting Rev. D. Lister, as one who has been in close touch with Mr. Daly for a number of years—ever since he came to Summerland from the East in fact—spoke very feelingly on his behalf, rendering a great testimonial to the man and his work.

A happy incident occurred just after the vote to accept the resignation of Mr. Daly had been taken. Mr. A. H. Steven, secretary of the Board of Managers, read a penned address from the congregation and church organizations to Mr. and Mrs. Daly, on their retirement from this field. The text of this address appears in another column. A second surprise of like nature was in store for Mr. Daly when at the conclusion of the Presbytery meeting proper, Mr. J. G. Robertson, also presented him with an address from the members of the Summerland St. Andrew's and Caledonian Society. This is also reprinted elsewhere in this issue. To both of these Mr. Daly replied, modestly endeavoring to depreciate the kind words he had listened to.

At the conclusion of the meeting, business of another order came in for attention, and to the accompaniment of light refreshments a short but very hearty social time was participated in by the assembled company.

## Predicting Good Fruit Prices.

"For your delicious fruits and your pears you are due to get more money than for some time past," said Horace W. Day, of the well-known firm of Seibel & Day, New York commission merchants, to Yakima growers, in an interview last week.

"We are touring the West and Northwest on our annual trip," said Mr. Day. "We have come up through California and Medford, Ore., Grant's Pass, Hood River, and other fruit sections, and know fruit conditions from first hand knowledge. All the sections we have passed through, with the possible exception of Hood River, have been hard hit by the recent frosts, and the production will be cut down materially from earlier estimates."

## HON. MARTIN BURRELL MAKES GOOD RECOVERY.

Hon. Martin Burrell, who was burned about the face in the Parliament buildings fire in February, and who has been recuperating in the south after a long illness, has returned to Ottawa, and attended a recent sitting of the House. He received a generous round of applause from Conservatives and Liberals when he entered the chamber. His face has completely healed, and remains unscarred.

## THE WOMEN'S INSTITUTES.

"Civic Improvement" was the principal topic discussed at the regular monthly meeting of the Summerland Women's Institute held last Friday afternoon in the Men's Club. The attendance was very good. Because of the nature of the discussion for the day an invitation had been extended to the members of the Farmer's Institute to take part in the discussion.

Mrs. W. J. Robinson led the discussion with a well-prepared paper which was greatly appreciated. Mr. R. H. Helmer followed with a very strong talk about having Summerland cleaned up in a thorough fashion, which brought about the forming of committees to see to this very urgent matter.

The Women's Institute appointed Mrs. R. M. Ross and Mrs. A. L. Moreland as their committee with power to add to their number. The Farmer's Institute appointed Messrs. J. L. Hilborn and J. Tait, who also have power to add.

The Secretary was asked to inform the West Summerland Women's Institute of business done, and ask for their co-operation in the movement. Mr. J. Tait, Secretary of the Farmer's Institute, also read a paper along the lines of having more trees planted in our public places, which would enhance the beauty of the place.

The committees appointed were asked to approach the Council at the first opportunity to arrange for a "Civic Holiday."

Tea was served, and a social time was spent. Miss Hayes kindly rendered a solo, which was accompanied by Miss McLeod.

The meeting then broke up with everyone fully resolved to do his or her share on the day appointed for "Clean Up."

## Boy Scout Column

SUMMERLAND TROOP BOY SCOUTS.

Headquarters—ELLISON HALL.

Meets every Friday in Ellison Hall. Visitors cordially invited to attend. Recruits apply at any meeting. Scoutmaster J. Tait. A.S.M., H. Harris. Physical Instructor, G. Dale.

About thirty-six Summerland Scouts paraded on the wharf last Thursday evening for the Naramata Scout Concert. The boys boarded the "Trepantier," and were soon landed at their destination. Tumbling mats and the parallel bars were then carried up to the Concert Hall. Here a splendid supper was waiting to be eaten, and the Scouts did ample justice to it. After supper, time was given for the men to "settle" before the commencement of the program. A splendid program had been arranged, and all enjoyed themselves. Return trip was made, and then the Scouts were dismissed, and all went home perfectly satisfied with the outing.

There was no meeting on Friday last, but there will be one tonight.

A SUMMERLAND BOY SCOUT.

Several Westerners figure successfully in the various results of the year's work in the faculty of science at McGill University, Montreal. Among them is Donald La Verno McNeil, of Vancouver, who was formerly a student at Okanagan College, matriculating in 1911 at the head of his class.

## Creston Growers Optimistic Over New Selling Arrangement.

In view of the new arrangement between the Creston Fruit Growers' Union and the Okanagan United Growers, by which the latter organization will market the fruit of the Kootenay company during the coming season, it was found necessary for the latter to make some changes in their selling charges. Hitherto Creston shareholders' produce has been handled on a margin of 12 per cent. For this year the charge will be 10 per cent, which includes the commission paid the Okanagan United Growers, but in addition there will be a pool charge on every package, crate, or box handled, as follows: 5 cents a crate on strawberries, raspberries, gooseberries, blackberries, currants, and sour cherries. 4 cents a box on apples, crab apples, and pears. 3 cents a crate on tomatoes, peaches, plums, sweet cherries, cucumbers, peas, beans, rhubarb, green corn and bunch vegetables. 50 cents a ton on coarse vegetables.

The new arrangement on some lines will work out slightly higher than 12 per cent., but past experience, as well as information from Okanagan Unions supplied the Creston Union, all go to show that the 12 per cent margin invariably rules a trifle too low if a modicum of profit is to be shown on the year's business.

Creston producers are pleased to note that although the Okanagan United Growers were not to enter upon the selling campaign for Creston until May 15, they were busy before that date in disposing of the limited quantity of rhubarb that was offering.

## LIEUT. VAN ALLEN BELIEVED A PRISONER.

That Flight Lieut. K. M. Van Allen is alive and well is the belief of friends and relatives, though no official information has been obtainable. A chum, who has been with him since before leaving Toronto, writes very confidently to Mrs. Van Allen now in London, England, that while they had no definite knowledge, they had very reliable information to the effect that he was seen to come down in German territory with his machine well in control, and the opinion was that he effected a landing without injury to himself. General regret among his corp was felt because of the losing of a popular member, but as rather good feeling existed between the airmen of our armies and the enemy the writer was sure he would be well treated.

Our Naramata correspondent, getting his "copy" in first, has saved us the necessity of recording in detail some changes, effected and contemplated by the directors of the Summerland Fruit Union.

## Much Damage to Fruit From Frosts in Oregon and Idaho.

Killing frosts early in the month caused heavy damage to fruits, gardens, and alfalfa in widely separated districts of Oregon, according to reliable reports. At Grant's Pass the thermometer sank to a minimum of 23, and in the surrounding districts great damage resulted. In Eastern Oregon the damage was great, particularly to cherries. In Grant and Malheur Counties the fruit crops were said to be ruined. Baker County reported heavy damage. Thurston County, Washington, advised that frost partially damaged small fruit. In the Hood River Valley there was damage to fruit trees of all kinds, although the frost was not so severe as in some other districts. A second frost, two days later, completed the destruction of Southern Idaho's fruit crop, which was badly damaged by the heavy frost referred to above. The state horticultural inspector reports that there is little left of the apple crop, while prunes, pears, peaches, and small fruits were wholly destroyed. The loss to the growers is variously estimated at from \$1,000,000 to \$2,000,000.

## Local Names in Normal School Pass Lists

The thirty-first session of the Provincial Normal School at Vancouver concluded last Friday, and diplomas have been granted to the successful aspirants for teaching honors. The pass list contains several names of local interest, among them being the undermentioned:

Advanced Class—Miss Ruth Dale; Miss Naomi O'Callaghan, late of Naramata; Miss Dorothy Postil, a former well-known Okanagan College girl.

Preliminary Class—Lloyd F. Bent; Miss Annie M. Blair; Miss Madeline Eisey; Miss Helen R. Sawyer.

## Okanagan Ambulance League

The Ambulance League wish to thank all those who by their contributions helped to make the "Sock Shower" such a success last Monday. About 140 pair of socks were taken in during the afternoon, and \$50 in cash. Of this total the Junior Ambulance Class, under Miss Rothwell, collected 46 pair of socks, and \$28.60 in money. They canvassed the whole district, and collected from those who were unable to come to the meeting, and so contributed largely to the afternoon's success. Mrs. Stark has kindly offered her verandah for Red Cross meetings during the summer months. The Ambulance League will therefore meet there next Monday afternoon, and alternate Mondays, instead of in Elliott's Hall. Members please take note of this.

## HOW THE VALLEY GIVES TO THE PATRIOTIC FUND.

The Provincial Branch of the Canadian Patriotic Fund at Victoria has given out the following detailed contributions from points in the Okanagan received during the month of April. The places mentioned in the comparison below are picked out from a long list of towns and districts in all parts of the province who are supporting the work of the Fund.

Armstrong	\$250
Enderby	185
Kelowna	200
Naramata	15
Penticton	282
SUMMERLAND	462.95
Vernon	882.89

## WEDDING.

CAMPBELL—BUTLER.

A very pretty though quiet wedding occurred on the 18th inst. at the home of Coun. and Mrs. J. R. Campbell, when their niece, Miss Elizabeth Genevieve Butler, became the bride of Mr. Ernest Elmer Campbell.

To the strains of the Wedding March, played by Mrs. J. R. Campbell, the bridal party entering the sitting room, the bride leaning on the arm of her uncle, Mr. J. R. Campbell, by whom she was given away. The groom was supported by his friend, Mr. C. E. Rennie, recently of Sherbrooke, Quebec, while Mrs. Rennie, the bride's only sister, acted as matron of honor.

Little Miss Florence Campbell made a pretty flower girl, carrying a basket of apple blossoms.

The bride was arrayed in white shadow lace over net, and silk with wreath of orange blossoms, and carried a bouquet of white lilac.

About thirty of the bride's most intimate friends were present to witness the marriage ceremony, which was performed by Rev. N. McNaughton, pastor of the Baptist Church.

The presents were pleasing tokens of regard. During an informal reception refreshments were served, after which Mr. and Mrs. Campbell and Mr. and Mrs. Rennie left by auto amid a shower of rice, for Oroville, Wash., and other points, for a brief trip.

Mr. and Mrs. Campbell will take up their residence in Garnett Valley.

## BIG TUNNEL NEARLY COMPLETED.

The coming of the Kettle Valley Railway into the southern Okanagan has tended perhaps to lessen interest in any improvements being effected to the C.P.R. main line service. Nevertheless, the work of driving the tremendous tunnel under the Selkirks at Roger's Pass, B.C., has gone on steadily, and by September next it is expected that this great work, constituting the longest tunnel on the continent of America, will be completed.

From portal to portal its centre line will measure 26,400 feet, a distance of five miles. It has been driven by opening a "pioneer bore" parallel with the main tunnel, a new feature that has aroused the interest of tunnel engineers the world over.

The expenditure of \$12,000,000 on this work is another indication of the efforts being made to eliminate grades and snow troubles. The tunnel will bring down the summit elevation of the Selkirk portion of the C.P.R. main line from 4,980 feet to 3,791 feet. It will reduce the length of maximum grade from 22.15 miles as at present to 6.91 miles, the grade of 2.2 per cent. remaining unchanged. It will dispense with about four miles of snow-sheds in a distance of thirteen miles of main line. Incidentally the length of the main line is reduced by about four and a half miles, the total considerably reduced, and several loops eliminated.

From the "pioneer bore," crosscuts have been made at intervals to the main tunnel line, and this excavation proceeds at the same time in several sections of tunnel, as well as at both portals.

During the past three months Nelson has put in 24 more telephones. That city now has 602.

## Honor Memory of Pte. Steven

Crowded Church at Impressive Memorial Service.

With the church full almost to the last available seat, there was ample evidence of the feeling that the passing of Private John Steven at the battle-front has stirred up among his friends and fellow citizens. The memorial service held last Sunday afternoon in St. Andrew's Church was the first of its kind ever held in the edifice. The large congregation and the reverent attitude of those present alike bespoke the wide circle of friendship in which the dead soldier moved before he responded to the call of duty.

All shades of religious belief were represented in the congregation, and assisting Rev. C. H. Daly in the conduct of the service were Revs. H. A. Solly and N. McNaughton.

Beautiful decorations were in evidence in the church, all quite in keeping with the occasion. On the wall behind the choir the St. Andrew's and Caledonian Society, of which Pte. Steven was a prominent member, had executed a very appropriate effect. The flag of St. Andrew's was fastened up, and round its centre was a large wreath made up of cut flowers. In front of the pulpit was another large wreath from the Young People's Guild and the Sunday School, laid over a Union Jack. Vases of white flowers were on each side of this wreath, and there was also a beautiful array of white flowers and plants set to one side on a table. The St. Andrew's Church Honor Roll, which records the names of all its soldier members, was draped in purple instead of the customary black, the thought being as was mentioned that there need be nothing dismal in the service. Smaller flags were also in evidence on the walls on each side of the choir. Each of the wreaths bore a card with a brief message of sympathy from its donors.

Rev. N. McNaughton read scripture from the Old and New Testaments, and Rev. H. A. Solly offered prayer. Rev. C. H. Daly delivered the memorial address. While not speaking at great length, Mr. Daly was quite at his best, and every word he spoke found response in the hearts and minds of his listeners. He showed what a valuable asset Pte. Steven had been to the community before joining the ranks. It was no love for soldiering or fighting that had led him to enlist, he said, but the clear call of duty. As a soldier he had now made the supreme sacrifice, giving up his life for his country and Empire.

Well-known hymns of suitable sentiment were sung by the congregation, and the choir also rendered a short anthem, "Lord, For Thy Tender Mercies' Sake." As a solo, Mr. Jas. O. Smith also sang some verses from the hymn, "Now The Laborer's Task is O'er." At the conclusion of the service, the congregation stood while Handel's "Dead March" from "Saul," was rendered on the organ.

## Carload Express Minimum Reduced.

It is understood that the minimum carload weight for fruit shipments has been reduced from 20,000 lbs. to 17,000 lbs. This was one thing that the fruit conference at Calgary last summer fixed upon as being a most desirable concession. The Dominion Express Company were approached at that time, but could not then see their way clear to concede to such a request.

Now, however, the reduction has been announced in time to take effect this season. Small fruit shippers of the lower mainland may be expected to derive great benefit from this step.

Two carloads of potatoes were recently shipped from Creston to Ontario.

The latest hen joke: Egg production in Canada will be cut in half this year. Why? Because the hens are all busy making shells.

## Not a Holiday but an Opportunity to Work

For a Healthier, More Tidy, and Beautiful SUMMERLAND.

Next Thursday, June First

a day to spend in the cause of

## Civic Improvement

Roadsides, Alleys, Fences and Walks, all can be made more attractive, pleasing and healthful.

Read the Reeve's Proclamation on page three, and plan to do your share.

Get in touch with the executive of the Farmers' Institute, and find out what is expected of you.

### TWO REFERENDUMS.

THE POLICY of the Government to submit the matter of enfranchising the women of the province to the electors at the forthcoming Provincial elections has been approved by the Legislature. The Government's proposal is to bring down at the present session an amendment to the "Elections Act" granting the franchise to women, the amendment to be put before the electors in the shape of a referendum, and, if approved, to become effective on January 1 next. Price Ellison, M.P.P. showed his colors on the question by voting with the Opposition on an amendment to give women the vote immediately, and without a referendum.

In the Prohibition measure which the Government brought down in the Legislature this week there is no provision for compensation, but an extension of the time within which it will become effective if approved at the forthcoming elections, will be made for six months, or until June 1, 1917.

The Premier promised some time ago that the bill would be submitted by way of a referendum to become effective from January 1 next. Since that time the question has been one of keen interest, and numerous petitions from the liquor interests as well as from the Prohibitionists have been presented to the Government. The latter, it is stated, have consented to the extension of time until June 1 next year. The liquor interests demanded either compensation or a considerable extension of time, an extension of at least two years. The bill in other respects will be based largely upon the Macdonald Act in Manitoba. One feature of it will be the provision for Government dispensaries throughout the Province, from which alcoholic liquors for specific pur-

poses, other than as beverages, will be dispensed. Drug stores will continue to dispense liquors by prescription.

In addition, drastic amendments to the existing liquor laws are to be passed this session to go into force until prohibition takes effect if it is approved.

§ § § § §

### THE EGG MARKING ACT.

THE BILL respecting the marking of eggs now before the Provincial Legislature, has been altered from the original draft. Mention of this progressive measure was made last week. Its terms will prove of great importance to poultry men and dealers, as well as the consuming public. Its purport is to force dealers to sell eggs only when the same are properly labelled to show their quality. The containers from which the eggs are sold must be labelled to show the origin of the eggs, such as "B.C. Eggs," "Canadian," "United States," or any other country whence they come. B.C. eggs must further be labelled to show whether they are "first class" (fresh), or "second class" (cooking). In the case of Chinese or preserved eggs, each egg must be stamped "Chinese" or "preserved" as the case may be. In respect of cold storage eggs a time limit of ninety days is provided. No eggs that have been held in cold storage for a longer period will be permitted to be sold. This restriction will prevent what has hitherto been a sore point with poultry men and the public, the practice of dealers buying eggs when prices are low and holding them in cold storage until the winter months, when they are disposed of at high prices, and virtually give the dealers control of the market. The Act contemplates the appointment of a Government inspector.

§ § § § §

IT HAS COME TO LIGHT that the idea of conserving daylight by the expedient of putting the clock on one hour during the summer months had its origin in Canada, and in the West, too. A Regina man, Captain Rounding, conceived the scheme some years ago, and since that time it has been quite generally adopted in Canada, and spread to European countries.

§ § § § §

THE TANGLED RELATIONSHIP of municipalities and hospitals in regard to patients who take hospital service and fail to pay for it, is to be definitely remedied by legislation. At the present time the liability is on the municipalities in an indefinite kind of way, but an amendment to the law now being dealt with will make it clear that the hospitals can collect from municipalities as an ordinary debt. In the case of indigents, municipalities are liable anyway; if patients are not indigent then the municipalities from which those men came shall collect from them.

### Printer's Ink and The Fruit Business.

Perhaps you are one of the decreasing minority of fruit growers who do not see that printer's ink can do any good in the way of helping to sell your fruit. We say "decreasing minority," because every year more and more fruit growers come to this office to get their selling helps put up in printed form, and for other requirements of their business.

If you are a fruit grower, and dependent upon your own efforts to dispose of all or part of your crop, there are a good many ways in which printer's ink can be used to build up your connections, and save you time—which in the busy fruit season is the same as money.

The Review presses have already commenced to turn out special work for the fruit growers. Printed price-lists are becoming increasingly popular. These are sent every year to old customers, and in many cases to prospective customers. Some growers provide a space on their lists so that the quantity of each variety desired can be marked on the same sheet, and the whole list returned as an order sheet. Others prefer a separate order blank, or one attached by perforation in order that the customer may have the price list by him for reference.

It is easy to see what a good advertisement a printed price list makes for any fruit grower who is trying to place tree-ripened fruit direct on to the prairie consumer's table. A satisfied customer who is pleased with his purchase is likely to tell his neighbors and friends about it, and a good many shippers enclose extra price-lists with the request that they be handed on by the customer to his neighbors.

Price-lists are usually sent out some time before the shipping season commences. There are usually responses back in time to give the grower an opportunity to see what is ahead of him. It is a good plan to follow this up with a printed reminder as each variety comes in, a course which helps to bring those to time who may have delayed ordering. This course is of especial value in the case of some prairie farmers who have not much idea as to when the different kinds of fruit are available.

To those who ship any considerable quantity of express fruit during the summer, printed postal cards advising the customer of shipment are not only a great time saver, but they also give the prairie consumer a more substantial impression of the person he is dealing with. These cards are inexpensive, and repay the cost of printing in the time they save.

"Cash with order" is undoubtedly the ideal way of doing an express fruit shipping business. It does not work out in every case, however, and there are some instances where a sales slip has to be sent forward at the same time, this serving also as a shipping advice.

These are not all the ways in which printer's ink can help sell your fruit, but they may be suggestive to some growers. If you have not just settled in your own mind just what form your list shall take, you are invited to call at the Review Office and discuss the matter. Our advice will not cost you anything, and it is more than likely that we can give you the suggestion that will fit your case.

Time is a consideration in this matter, for when the rush of handling the crop is on, one has not the time to plan out a selling campaign, and besides, it is almost too late by then.

Would it not be worth your while to try what effect a little printer's ink will have on your business?

Call, or 'phone 39 to talk it over.

## Some Ways in which We Can Serve You Greatly to Your Advantage

Do You Use A **Typewriter?**  
You Will Require **Typewriter Papers**  
We carry a large stock of papers of different kinds and quality, ready to cut to any size desired.  
We have another paper especially made for taking carbon copies.

## Orchard and Farm: Topics of Timely Interest and Helpfulness in the complex Business of Farming.

### Paper On The Management And Training Of Milch Cows.

Now that the fruit grower has come to the conclusion that it is necessary to augment his income by the keeping of a few cows, either for the purpose of supplying his household with a plentiful supply of milk and butter, or for the purpose of going into the business on a commercial scale by the sale of cream to the creamery, I will endeavor to give a few hints which may be of some use, or even of some value to the orchardist who has decided to go in for the keeping of stock for the purposes above mentioned.

I will begin with the training and proper handling of dairy stock. It is a matter of greater importance than appears at first sight.

Those who own milch cows and do the milking themselves fully appreciate the value of having gentle stock.

The udder and teats of a heifer should be handled often while she is growing. This will have a two-fold effect. It will cause extra development in these parts, and at the same time make the heifer gentle, so that when she comes really to be milked, but little difficulty will be experienced.

If a heifer or cow has never been handled prior to the time she has calved, a pen should be made about five feet high, and just wide and long enough for the animal to stand in. Have a safe bar behind her at the height of her buttocks, and an opening at the side to milk through. Tie her by the head. Gentleness and perseverance must do the rest. In no case strike her. There is no danger of the milker being kicked, for the left hand holding the teat with the wrist pushed strongly against the stifle will prevent her from using her heels for injury. Exercise patience, and show her that she will not be hurt, and she will soon come to feel that the operation is connected with ease to herself. If the udder is inflamed or the teats sore, use cold water for the udder, and glycerine for the teats. This also will have the effect of causing her to associate the idea of relief with the operation of milking. Before beginning to milk, always wash the teats and udder with lukewarm water if they are dirty, or brush them with a soft brush if they are only dusty. This also will have a two-fold effect, it ensures the milk of being free from dirt, and has the effect of bringing down the milk into the teats, so that you can begin to milk freely at once.

Sit down on the off or right side, so that the right hand will be nearest to the cow's head. Take hold of the rear teat nearest you with the left hand, speaking gently to the cow at the same time. Induce the cow to place the leg against which you press your wrist farther back than the opposite one. The pressure of the arm should carry the leg back. In milking, grasp the teats by the upper portion well up to the udder, with the thumb and forefinger, bringing the other fingers successively together with a slight pull, force out the milk.

Some experts recommend milking diagonally, that is milk one fore teat and one hind teat on opposite sides. Personally I prefer to milk the two front teats together and then the two hind ones, for the reason that almost without exception a cow gives the larger quantity of milk from her hind teats, and you can milk more uniformly by so doing.

Two of the most essential things necessary for a milker to learn is to be able to milk fast and to see that no milk is left in the udder, or in other words to strip clean.

Slow milking has the effect of making a cow tough to milk, and imperfect milking will soon put a cow dry.

In this connection I would like you to bear in mind that the length of time a cow will continue to milk (her milking period) is to a great extent governed by how you treat her when she has had her first calf. Always milk a heifer from the time she calves till within six weeks of her time for coming in again. A great many cows are spoiled by not paying attention to this, for the reason that the small quantity she gives does not warrant the trouble and time taken to milk her. That is a great mistake, and one that should be avoided as the future length of time of milking depends to a very large extent on how she was trained when young.

Do not feed at milking time. Many persons supposing that it induces the cow to let down her milk, or that she will stand more quietly, give a feed at milking time. This should never be done. The act of eating induces moving about, and if for any reason the feed be withheld, the cow becomes restive, however gentle she may be.

Many good dairymen feed only after milking. It is a good plan under the rule of compensation. Once milking is begun, milk fast and steadily, and without talking until it is finished. If you have a milker that cannot keep a cow quiet, be sure something is wrong with the man or woman as the case may be.

You cannot afford the loss in milk, that will inevitably ensue from this cause, and the proper way is either to discharge such milker, or put him or her at some other work.

#### DRIVING TO AND FROM PASTURES.

This, if entrusted to children, without caution being given, often results in injury to the animals. From sheer animal spirit, children will often drive them on a run, or make them jump over partially lowered bars. The first diminishes the flow of milk if it does not make it bad from overheating, and the second often causes injury to limbs and other tender parts.

Another very bad habit, and one I have noticed to be very prevalent here, is the throwing of stones, especially at cows. This should not be tolerated, many a good animal has been absolutely destroyed by this practice. A blow on the udder will often result in a teat becoming blind, and sometimes the whole quarter may be destroyed. I think it is more a question of luck than anything else that some of the cows here have escaped injury from this source.

Be regular in milking and feeding, nothing counts more for success than regularity in this respect.

Set a time dividing the periods as near equal as possible most suitable to milk and feed your cows and stick to it, even though you should sometimes be put to some inconvenience to do so.

Poultry and eggs produced on Canadian farms in 1915 reached a truly enormous value, representing a sum of between \$31,000,000 and \$32,000,000. Of this sum the value of the eggs produced alone represents not less than \$30,000,000, which was two and a half times the value of all fruit produced, six times the value of all sheep raised, and one-half the value of the cattle products. These figures serve to show the magnitude of the industry. England seems to be regarded as the logical market for Canadian poultry and eggs, and last year Canada exported \$2,800,000 worth. The possibilities of the industry in this country are looked upon as very great.

The City of Vernon has a tax rate of 30 mills. This is charged against the full assessed value of lands and 40 per cent of the improvements, and is made up as follows: general rate 8 mills; health 1 mill; school 6 mills; special 15 mills.

There are 53 Sundays in this year. This will not occur again for 110 years.

In Merritt the agent of a Vancouver store was fined \$60, for doing business in that town without a city license.

# CIVIC HOLIDAY.

TO ALL WHOM IT MAY CONCERN:

I, Isaac Blair, Reeve of the Municipality of Summerland, do hereby proclaim Thursday, June 1st, 1916, a Public Holiday, and call upon all good citizens to observe the same by having a general clean up of their yards and premises.

(Signed), ISAAC BLAIR,  
Reeve.

# OUR NARAMATA SECTION :

Everything of Business and Social Importance  
Transpiring in South Okanagan's Newest Town

## Farmers' Institute Hold Monthly Gathering.

Before none too large but still a representative body of fruit growers, Principal T. H. Rayner, B.Sc., read a comprehensive paper on "The School in its Relation to Farm Life." This paper was greatly appreciated by all present, and it is regrettable that more people did not hear it.

The committee appointed some little time ago to work in an advisory capacity with the directorate of the Summerland Fruit Union, of which Naramata forms a part, met the officials in Summerland on Friday last, and from all accounts it is gathered that there is bound to be a much better all round understanding. We are now going to be furnished with full, definite, and explicit reports on the working of the organization that is destined to do so much for the fruit growers of the Okanagan Valley in general, and for Naramata in particular.

As far as this unit of the big organization is concerned, there is bound to be established a spirit of faith—a spirit of confidence—which after all is the very foundation of all good business.

The problem of dealing with the orchard box vexatious difficulty, is being experimented with in the following way:

Each grower will be privileged and encouraged to buy his own in lots of not less than 100 to each man, at the very nominal charge of 12½ cents each. Each grower's name to appear on both ends of his boxes. This should go a long way toward eliminating the constant waste and loss in this branch of the service.

Another move upon the part of the directorate points a way to easier financing. It is proposed to advance up to a limit of 20 per cent of a member's expected output, at 8 per cent interest upon the credit of the crop, in such cases where it can be shown to be in the

interest of good business and where the merits of the case is beyond question. There is much more that might be said in anticipation on the splendid possibilities for effective work of the Union. But certainly it is in the interests of the fruit growers one and all to "hook up," for the season and hasten the day when this one agency will control at least 75 per cent of the total output of the Valley, and may we hope 100 of the Naramata crop.

## Current Events — OF — Town & District

We are pleased to report Mrs J. S. Lyons better again after her recent illness.

Mrs J. O. Noyes and her sister, Mrs Hughes, were down to Penticton on Saturday last.

Mr John McLean of Summerland spent Sunday at Hotel Naramata, the guest of J. O. Robinson and sisters.

Dr Paton has moved out of town, having taken rooms for the summer at the home of Mr H. Steele in order to be closer to his own fruit ranch.

This week a cow belonging to the fancy dairy herd on Fairview ranch surprised the owner by a double birth. Both the wee arrivals are in a fine healthy condition, and are as much alike as two peas.

Mr and Mrs Dan McKay and Miss Clara have gone out to their fruit ranch, formerly known as the Munro ranch, but purchased by Mr McKay last spring. Mr and Mrs McKay will be absent for some weeks.

The Kenwood orchard property under the direction of its new owner, Mr Rolt, is having its irrigation system very much improved by the construction of several hundred feet of flumes to replace the pipe system of former years.

Mrs Elsey of Summerland spent Wednesday and Thursday at the home of Mr and Mrs Jas. Hayward. While here she attended the Boy Scout Concert and Supper, returning with the Summerland Scouts by special ferry after the concert.

Mr H. K. Bowes of Toronto paid friends in Naramata a few days visit this week on a return trip from Vancouver where business demanded his attention. During his short stay in town Mr Bowes was a guest at the home of Mr and Mrs H. T. Davies. Mr Bowes left on Tuesday morning for the East.

At a special meeting called by the president of the W.C.T.U. after the church service on Sunday last it was unanimously agreed that two delegates be sent to the W.C.T.U. Convention to be held at Kelowna on Thursday and Friday, May 25th and 26th, Mrs D. O. Hughes and Mrs T. H. Boothe being the two ladies selected.

The fine display of cut flowers of various kinds at the church on Sunday last was a very pleasing feature of the service. They were all beautifully arranged in cut glass vases and bowls, and placed at various places throughout the church. Miss Edna Noyes and her Sunday School class are responsible for this tastefully arranged display, and certainly are to be congratulated.

Rev. J. Beatty, recently stationed at Enderby, but at one time resident student pastor here, occupied the local pulpit on Sunday. During his stay in town the reverend gentleman was a guest at the home of Mr Fred J. Young, south benches. It is understood that Mr Beatty has, in common with the two former pastors, Messrs Willan and Bunt, decided to don the khaki, and will go overseas shortly with the 15th Medical Battalion of Victoria.

**The Old England**  
JULIUS W. A. BLOOR,  
NARAMATA, B.C.  
Gentlemen's Outfitter, etc.  
Chiefly British Goods Imported Direct.

## Naramata Current Events (Continued).

Mr. and Mrs. Dobie and children are now comfortably situated in their house on the south bench, Mr Dobie having built this spring.

Rev. A. T. Allen, of Nakusp, B.C., was a visitor this week at the home of his daughter-in-law, Mrs M. M. Allen, Fairview ranch.

Rev. J. S. Allen of Nakusp, assisted in the divine service held here on Sunday last. The preacher, Mr Beatty, took as his text the "Prodigal Son."

Mrs D. O. Hughes and Mrs T. H. Boothe went out on the "Sicamous" on Thursday morning, May 25th, as far as Kelowna, to be present at the W.C.T.U. Convention to be held in that city.

The regular Red Cross Sewing Circle was held at the Unity Club parlors on Saturday last. The ladies expect to have another shipment ready by next week. Mrs Raynor and Mrs Peter Roe served the refreshments.

Miss Kathleen Robinson is gathering around her quite a large and interesting class of music pupils. It is very pleasing to note what splendid progress her class is making under her very able direction. Her pupils all speak in the highest terms of her very efficient method of teaching.

The president of the Ladies' Aid Society earnestly requests that a full house be represented at the home of Mrs Fred Young, south bench, on Wednesday, May 31st, where they are invited to meet the Poplar Grove Ladies' Society. It is expected that sufficient rigs will be on hand to convey as many as can see their way clear to go.

One morning as Mrs J. M. Myers was busily engaged making and planting her garden she picked up an apple pruning sprig that had been lying on the ground for some time, and placed it at the end of one of the rows as a mark. To her surprise after a couple of weeks' absence from the spot she found the apple sprig completely covered with blossoms from top to bottom. Who says we cannot grow things in the Okanagan?

A horse which has been in the Pound for the last twenty-eight days, and which has been advertised in the local papers by Pound Keeper Mitchell, and which apparently had not any owner, was sold by auction on Monday, May 22nd. There were a number of bidders present, the highest bid being made by Mr H. W. Rolt, one of our local fruit ranchers. The horse is said to

be a very good beast, and was sold for \$80, Pound-Keeper Mitchell acting as auctioneer.

## Boy Scout Concert.

The Boy Scout Concert and Supper given on Thursday evening last was a huge success in every way. There was a big meat pie Supper served with various extras such as salads, pickles, cakes of various kinds, etc., which was greatly enjoyed not only by the boys in question but by large numbers of adults who were present.

The program was of a varied nature, including piano solos by Principal Raynor and daughter, Miss Enid, and Miss Block; Miss Violet Mitchell sang a solo; duet by Mrs M. M. Allen and Miss Walker, entitled "Larboard Watch."

The opening selection was a piano solo, "Napoleon's Last Charge," accompanied by drums and cymbals, played by Mr and Mrs Fred Manchester and Mrs F. J. Languedoc. Scout Master Nuttal's club and axe swinging was one of the features of the evening's entertainment, while the Scouts gave a fine exhibition of tumbling, drills, signals, pole drills, etc.

The Summerland Scouts came over in a body and gave assistance in the program. Among other things there was a parallel bar exhibition under the able leadership of Physical Instructor, George Dale, which was very well received.

Mrs Languedoc acted as accompanist throughout the proceedings. The proceeds amounted to about \$20.

## ADVERTISING AXIOMS.

The following sayings about advertising have been acknowledged axioms or facts. No unbiased person would attempt to deny them. Experience, observation, and experiment have removed them from the doubtful class to the certain: A business not worth advertising is not worth having.

No man ever went broke by judicious advertising, but there are thousands who go into bankruptcy annually because they don't advertise.

The small town merchant who blames his neighbors for going into the city is himself more or less responsible for the exodus.

It is a pity that the non-advertising merchant cannot see the fact that he is paying the bills of his advertising competitor.

"It costs money to advertise," says the slow-coach merchant, but he forgets that it costs more to run a business without advertising.

## The Summerland Telephone Co., Limited.

In 1914 the people of B.C. paid duty on 2,854,178 dozen eggs. In 1915 we paid duty on only 552,399 dozen eggs, being a decrease of 2,301,779 dozen. The falling off in imports was due to the addition of a 7½ per cent war tax on the regular duty of 3c. per dozen. The jobbers found that the tax was prohibitive. An increase in the domestic production also did its share towards bringing down the imports.

## SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself. Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton. The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands. W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

## Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

## International Correspondence Schools, Box 826-O, Scranton, Pa.

### Classified Advt.

#### RATES:

FIRST INSERTION — 2 cents per word: minimum charge 25 cents.

EACH ADDITIONAL INSERTION — 1 cent per word: minimum charge 10 cents.

In estimating the cost of an advertisement, subject to the minimum charge as stated above, each initial, abbreviation or group of figures counts as one word.

If so desired, advertisers may have replies addressed to a box number, care of the "Review," and forwarded to their private address. For this service, add 10 cents to cover postage.

No responsibility accepted for correctness of telephoned advertisements.

Please do not ask for credit, as the trouble and expense of booking small advertisements is more than they are worth to the publishers.

#### Wanted.

**WANTED**—Wood. Any of our subscribers who would find it more convenient to pay their accounts with wood please phone or call at Review Office.

**WANTED**—Subscribers to pay up their subscriptions. Review Office.

#### For Sale.

**FOR SALE**—One good milch cow. Fresh seven weeks. Giving three gallons a day. Price \$100 cash. Phone 693, Lipsett. tf

**FOR SALE**—Spring pigs, two and four months old, \$4 and \$6 each. Weighing up to 50 lbs. Phone L13. tf

**FOR SALE**—Bean Spray Pump, in perfect order, \$55. W. Arnett. a28tf

**FOR SALE or TO RENT**—One of the choicest two acre lots in Summerland, with comfortable house; electric light; domestic water, etc., ten minutes walk from post office. Apply T. H. Riley, Agent. tf

**FOR SALE**—Yearly subscriptions to the Review. There are still a few homes in the district where this paper should be. Phone 39. Free on trial to bona fide new subscribers for one month.

# Passing Events: Social, Personal, &c.

Mrs Frank Smith, Agassiz, has been this week the guest of Mrs C. Duncan.

Rev. David Lister of Benvoulin has been spending the week with his family here, coming in by Monday evening's boat.

George Craig expects to remain a patient at the Hospital for a week or so yet, following an operation on his injured leg last Tuesday.

Representing the Summerland Methodist Church as layman, Mr J. R. Brown went down to Vancouver to attend the B.C. Annual Conference.

The Misses Arta Kinney, Christina Redstone, and Rosie Impett of Penticton were the guests of Miss Jennie Brewer on Tuesday and Wednesday.

**PLEASE NOTE**—Dr T. B. Turner, Dentist, will be at his Summerland office, Shaughnessy Avenue, on Tuesday of next week, instead of Monday as customary.

Donald Ross went out by Tuesday morning's boat bound for Armstrong, where he will enter upon C.P.R. work under his brother, G. M. Ross, late agent at this point.

J. Wernick, said to be of Russian birth, and the purchaser of the Cates property on Jones Flat, arrived this week from the Prairies with his family, and has entered into possession of his newly acquired orchard property.

A fine black bear skin was brought into town this week by E. N. Rowley. When suspended by the snout it required raising nine feet in order to lift the skin of the hind legs clear of the ground. The bear was shot at his ranch up Trout Creek.

The morning church service at the Parkdale Baptist Church on Sunday next will be withdrawn in order to allow of a union service at St Andrew's Church, where Rev. C. H. Daly will conduct his final services here. In the evening, at the Lakeside Church, Rev. N. McNaughton's subject will be "Divinity in the Commonplace."

The rebuilding of the Garnett Valley line of the Summerland Telephone Co. has taken more time than was contemplated. However, the poles are now set and the wires are being run. Until this is finished several new numbers allotted to subscribers on the new directory are not yet in order, and subscribers are asked to use the old numbers for a few days longer.

Great hopes were entertained for the local High School baseball team when they started their season by putting Penticton to sleep so auspiciously in their two first games. They have not kept up the pace, however, and suffered their second defeat last Saturday at Peachland, when the boys of that town won out over them by a score of 13-8, as mentioned in the notes from Peachland in this paper. A baseball double-header spoken of for May 24th did not materialize, neither Penticton nor Peachland being able to put in an appearance.

With no community celebration on it was natural that the community should spread itself out somewhat and undertake many private picnic parties on the 24th. Fish Lake proved an especially attractive venue for a number of parties, and many Summerlanders were seen picnicking in that vicinity. A party of Peachland people were also at this pleasant spot. The Meadow Valley Sawmill folk were there en bloc, making in itself quite a large party. There was also another private party of some sixteen or seventeen from West Summerland.

Mr J. W. Jones, Mayor of Kelowna, and Conservative candidate for South Okanagan, expects to spend a few days of next week in Naramata and Summerland. He hopes to visit Naramata on Tuesday and Wednesday, 30th and 31st May, spending Thursday and Friday, June 1 and 2 here. On Thursday he will see the residents of Upper Trout Creek and Meadow Valley at a meeting to be arranged to discuss with him several local matters in which they are interested. Mr Jones is taking a keen interest in the opening up of those valleys tributary to Summerland, affording as they do good opportunities for settlement after the war, if only proper roads are provided, more schools established, and the problem of irrigation made more practicable.

Manager Dobie of the Okanagan Telephone Co. was in town to-day.

The Home Comfort Club meets for work next week on Thursday, June 1st, at the home of Mrs Conway.

Presbyterian services will be held next Sunday morning and evening in St Andrew's Church, and in the Methodist Church at 3 p.m.

E. R. Butler has become the owner of the McLaughlin-Buick car belonging to Muir Stewart, who is purchasing a new Chevrolet.

Ptes. H. Everett and H. W. Agar of the 172nd returned to Kamloops by Tuesday morning's boat after spending short leave at their homes here.

Rev. and Mrs N. McNaughton are removing from the house on College Hill they have been occupying to the J. C. Wilson cottage near H. H. Elsey's.

Howell Harris has passed the necessary medical examination and expects to join the B.C. Company of the Western Universities Battalion, the 196th, in the immediate future.

Corporal George Barkwill of the 47th Battalion, now in camp in England, has gained recognition of his marksmanship by taking a first-class instructor's certificate in what is known as the "Aldershot Snipers" course in musketry.

Mrs D. H. Watson boarded the boat on Wednesday evening, proceeding east by the Kettle Valley from Penticton the following morning, on her way to Rossland, B.C., where she is paying a visit to her daughter, Mrs W. P. Racey.

Mr and Mrs E. A. Jones and family moved into the Merrill cottage last week-end from the J. R. Brown building opposite the Review Office. Other removals during the past few days are that of Mr and Mrs O. Vaughan, who are now occupying the Arnett cottage, and Mr and Mrs G. A. MacLaine, who have taken the house vacated by Mr and Mrs Vaughan on Beach Avenue.

Roy Darkis, who recently enlisted into the 172nd Battalion at Kamloops, has been dangerously ill with pneumonia at his home here for almost a week past. It was only about ten days ago that he came in on what was to be about a two weeks' furlough. He was convalescing from an attack of measles, and was apparently in a condition that made the appearance of complications well within possibility. It is expected that the crisis in the patient's condition will be reached this week-end.

Writing to the Review this week from Bramshott Camp, Corporal George Barkwill says the 47th expects to go across to France soon. They have already sent one draft of men over, and reinforcements are expected from another B.C. Battalion to bring the 47th up to strength again. All special courses in connection with the Battalion have now been completed. Corpl. Barkwill topped the list of the entire regiment in classification shooting, and following this was sent to Aldershot to take a sniper's course, as mentioned in another item.

The taste of rapacious dogs for domestic rabbits seems to continue unabated, and more hutches have been broken into this week and the inmates lost. Mr G. Graham lost at least a family of nine young rabbits and doe a few days ago, and a neighbor would likely have suffered some loss if the marauders had not been disturbed. Others in that vicinity have also lost animals from time to time. If the culprit dogs are ever caught, as they surely must be, a dose of medicine in the shape of lead pellets ejected from the muzzle of a .22 will be the proper tonic to prescribe.

Our two Women's Institutes, at the suggestion of the ladies of the parent Institute, are co-operating in the effort toward "Civic Improvement" by leading in the organization and carrying through successfully a general clean up and improvement of private premises, roadsides, streets, etc. The President of the Farmers' Institute is hoping for a hearty support of the commendable movement of the ladies by every man turning out on the official civic clean up day. It is understood that the Women's Institute are arranging to serve lunch for all who thus co-operate, each Institute providing for those working in its neighborhood.

Mr and Mrs Alex. Miller of Peachland are guests of Dr and Mrs Lipsett.

Mrs T. A. Woods of Kelowna, with her young son "Paddy," is visiting here with her aunt, Mrs Down-ton.

Pte. Will. Gallagher has come in from Kamloops on a week's leave of absence which he is spending with his parents in Garnett Valley.

Sergt. Borton boarded the boat this morning on his way back to camp at Victoria. He speaks confidently of his battalion, the 103rd, being ordered to England very soon.

With several assistants W. Watson has for some days been busy putting in needed culverts and making repairs to the Lakeshore Drive between Town and Trout Creek.

Rev. C. H. Daly shipped his household effects on Tuesday. With Mrs Daly and family he will leave here on Monday morning, traveling via Vancouver and Prince Rupert, to his new field of endeavor at Fort George.

Mrs D. L. Sutherland and little ones boarded the boat on Wednesday morning bound for their new home in Manitoba. Mr Sutherland goes to-night, taking with him a car load of household effects and a car of live stock.

A government road grader came off the boat on Thursday night. We shall expect to see it, under the direction of Road Foreman W. Watson, effect many sorely needed improvements in the condition of the trunk roads of the district, more especially the Lakeshore Drive.

Miss Raleigh, for several years with the Summerland Development Co. here, and for the past six years a resident of Vancouver, is the guest of Mrs Fred. Nixon. Miss Raleigh, who was well-known and popular during her several years of residence here, is renewing many former acquaintances.

Mrs Conway, Mrs Kelley, and Miss Dale are representing the local W.C.T.U. at the district convention being held at Kelowna this week. The three silver medalists, Kathleen Brown, Gertrude Angwin, and Fraser Lister are also at Kelowna, having gone up this morning to compete for the gold medal awarded by the larger organization.

Miss Anna Lister, of the Vernon Jubilee Hospital nursing staff, was telephoned for at the beginning of the week to come down and take charge of Pte. Roy Darkis, who is lying ill at his home. Dr White was up from Penticton yesterday on behalf of the same patient, being called into consultation on the case by Dr Andrew.

Managers Lawler and Slater of the Summerland and Peachland Unions respectively, along with other managers of locals, are this week touring the fruit districts to the south. This is an idea of Central Manager Jackson, who heads the party. He hopes to thus have the men gather many new ideas and suggestions of value in their work in the Okanagan.

The Okanagan Deanery of the Woman's Auxilliary will hold their annual meeting in Summerland next Wednesday, May 31st. A large number of visitors are expected in from other places in the Valley. The Bishop will preach at the service in St Stephen's Church at 10.30 a.m., after which the Summerland branch will entertain the visiting delegates to lunch in the Parish Hall. The business meeting will begin promptly at 2 p.m., and anyone caring to attend the same will be most cordially welcome.

The friends and former patients of Dr Chas. M. Smith, late of Summerland, will be pleased to learn that he has achieved what is commonly said to be impossible to a medical man who has been out of Medical College over one year, i.e., to pass successfully the very stiff examination imposed by the California Medical Board. Very few physicians beyond middle age succeed in passing in California, as no lower marks than 75 per cent in any subject will be allowed. Dr Smith's lowest in any subject was 77 per cent, and his general average was 82%. This is considered pretty good for an old man who will be eighty years old if he lives until the 31st day of next September. Congratulations, Doctor, from all your friends!

All eggs should be kept in a cool, dry, and well-ventilated place.

### CARD OF THANKS.

Mr and Mrs A. H. Steven and Mr John Stark take this opportunity of publicly acknowledging to all friends, including the members of the St Andrew's Society, for the many manifestations of sympathy expressed during their recent sad bereavement.

### 'PHONE IS POPULAR IN B.C.

British Columbia leads the provinces of Canada in the number of telephones as compared with population, according to the annual statement regarding telephone organizations throughout the Dominion. Canada as a whole has an enviable record in that the number of telephones has increased between 1911, when they were one to every 23 of the population, and 1915, when they were one to 15 of the population. Ontario has one to every 10½ persons; Quebec one to every 21 persons; Saskatchewan one to every 16 persons; Manitoba one to every 10 persons; Alberta one to every 10½ persons; British Columbia one to every eight persons. There are 533,090 telephones in the Dominion, of which 219,865 are in villages and rural districts.

### DETACHABLE.

"Katherine says when she takes down her hair it reaches the floor." "It does when she happens to drop it."

We advocate preparedness in this shop. We are prepared to receipt subscription bills six days in the week, and if you can't get around in the six days we'll take it on Sunday without blinking an eye or turning a hair.

**Rev. C. H. Daly Recipient Of Two Addresses.**

**St. Andrew's Congregation And Scotch Society Record Their Estimation Of Pastor And Chaplain.**

On Tuesday evening in the course of the meeting of the Presbytery in St. Andrew's Church, an address was read and presented to Rev. and Mrs. C. H. Daly. It was from the members of the church and its affiliated bodies, and it read as under:

Mr and Mrs Daly:

It is with feelings of the deepest regret that we, the members and adherents of St. Andrew's Presbyterian Church, Summerland, have learned of your intended departure from our midst.

During the five years that you have been our pastor we have learned to esteem and love you deeply, and we wish to assure you that the vacancy thus caused by your removal can not soon be filled in our affections.

In times such as these, when confronted by heavy burdens at home, and agitated by the greatest world-moving crisis of the centuries, we have learned like the good soldier of the battlefield to repose our well-earned confidence in your admirable generalship, and to follow with you through the darker ways of life trusting to the Omnipotence "which ever lives and loves" until like clay from the Potter's wheel we pass beyond "sufficiently impressed."

As guides and counsellors of the young folk of this congregation both Mrs Daly and yourself have been invaluable in our Sunday School work. In Temperance and Moral Reform work and in all organized effort for the betterment of this community we have benefited by the sympathy and co-operation of you both.

Mr and Mrs Daly, we assure you that you carry with you to your new field of labor the best wishes of this entire congregation and hope

that you may be spared to enjoy many years of joyous service in your new home.

Thus, confident of the future, you leave us to take up the work that lies before you, until— Beyond a hundred ever-rising mountain lines And past the range of Night and Shadow—see The high heaven dawn of more than mortal day Strike on the Mount of Vision! So, Farewell.

The address was signed on behalf of the different organizations by the following: R. H. English, D. Kean, J. G. Robertson, Alex. Smith, Mary Lister, Jessie Rothwell, Mrs J. J. Mitchell, and A. H. Steven.

The other address was prepared on behalf of the Summerland St. Andrew's and Caledonian Society. Mr Daly has acted as Chaplain for this body since its inception. This read as follows:

Rev. Charles H. Daly, B.A., Summerland, B.C.

It is with regret that we, your fellow Members and Brethren of St. Andrew's and Caledonian Society of the District of Summerland have learned of your intended departure from Summerland.

In the past four years you have been our efficient and beloved Chaplain. In this period a strong bond of fraternal affection has been created between us all. As you have moved in and out amongst us, your example as a Man and Christian Gentleman has left its influence on all our lives. Your optimism has cheered us in hours of discouragement, your loyal service has been an inspiration, while your broad charitable spirit of life has always been a rebuke to our over hasty and unkind judgments.

We shall miss your genial presence in all our gatherings, but we know we are all better men for your work with us, and you will carry with you from Summerland

the affectionate regard and sincere respect of all our members.

As a brotherhood and society we sincerely trust that for you and yours in life the best is yet to be, and that God's richest blessings may be given to you.

Signed on behalf of the Summerland St. Andrew's and Caledonian Society,

JOHN G. ROBERTSON, President.  
A. H. STEVEN, Secretary.  
J. O. SMITH, Treasurer.

**More Commendation For Home Comfort Club's Gifts**

No. 4 Platoon, A Co.,  
54th Kootenay Bat.,  
Bramshott Camp,  
Liphook, Hants,  
April 27, 1916.

Dear Mrs Hogg,

I beg to thank you and the Summerland Comfort Club, for your kindness in sending a parcel to me. The papers enclosed were very welcome indeed.

At present I am employed on the headquarters staff as clerk, and have been rather busy for this last month. The days have been taken up with two courses, musketry and bomb-throwing, that meant I had to do my office work in the evenings, but now the courses are finished I will have more spare time. That is the reason I have not written sooner.

Two weeks ago a draft of 120 men left the battalion for France, to-morrow another 100 men are expected to leave. To the best of my knowledge no Summerland boys in the battalion are in either of these drafts.

The weather has been splendid this last week, much better than the rain and cold we have been getting.

There is no news to tell you about when we leave for the front, as I don't know. Many wild rumors have been circulated since we came here, but nothing definite will be told us until 24 hours before leaving.

As for war news, Canadian papers get more news than the English ones. It does get a little exciting when the alarm goes at midnight, as the Zepps are somewhere around. Everybody has to get up, dress, and then if they do come, scatter around the open country—everybody for himself. There is one anti-aircraft gun in camp, but it would be of very little use in case of an attack.

Thanking you and the club again for the parcel,  
Believe me,  
Yours very sincerely,  
HERBERT SIMPSON.

April 29th, 1916.

Dear Mrs Hogg,

I bet you're apostrophising me for not acknowledging the parcel long ago, and I hasten at this late hour to assure you that it wasn't because it wasn't appreciated by me and my friends—especially my friends, but because I didn't learn until a couple of days ago who had sent it. It came when I was on leave in "Blightie." When I came back one of the boys handed me a pair of "diaphanous pyjamas" and a note with the information that only one parcel had come for me while I was away. He thought the note contained the address of the sender, but it was only the directions for applying the vermin-proof garments, and it wasn't until he found the address in one of his pockets the other day that we discovered that it was the Summerland Comfort Club whom we had to thank. Of course, I've got to do the thanking, although the way the boys talked, the contents must have appealed to them, and I guess I was lucky to get the "pyjamas." It was good of you to remember me. At least the garments showed that you understand what we're up against out here. I'm still fresh from the "Smoke," where I indulged in all kinds of that brand of virtue which is second only to Godliness, and I'm saving those robes for a critical moment. I know it will come, as I've been there before.

We're having beautiful weather here now. Spring was pretty late looming up, but it's here at last. A clear sky and green grass, and even the trees are coming out in leaf. I wouldn't have believed that leaves grow in this country if I couldn't see it with my own eyes. It's certainly good after the winter. Everybody is arguing Ireland in this hot just now, and I guess I'll have to cut this out. You know what an argument on Ireland usually is.

Thanking you for remembering me, and wishing the Club every success, I am,  
Yours sincerely,  
FRANK HAYWARD.

**A SELECTION OF CUPS & SAUCERS**

In various designs, just arrived

ALSO

**Glass Tumblers, Bean Crock, Butter Churns, and Stone Crock.**

**SPECIAL NOTICE:**

See the New

**Utility Duplex Door,**

Orders taken here.

**Screen Doors now in stock.**

**T. N. RITCHIE.**

**"Can't Afford It."**

That's what a merchant said the other day about his advertising. He said that trade was falling off and that he would have to economize.

**Advertising**

is to stimulate business, but evidently Friend Merchant has it figured out that when times are good and folks have plenty of money to spend, he will demonstrate the advantage of spending it with him. But in dull times he will let the other fellow have the business.

**It is a Fact**

that advertising pays better when times are dull. It is the open season for bargain hunters, and the merchant who has nothing to offer the economical buyer is the first to suffer. The time to advertise is all the time and you can LEAST AFFORD to quit when you need the business most.

**Newsy Paragraphs from PEACHLAND**

Mr E. Brown returned from Penticton in his car last week.

Mr W. J. Robinson is spending a few days in town on business.

Mr Wm. Miller came up on Wednesday to spend a few days with his family.

Mr Archie Seaton is looking after the feed department of the Fruit Union in the absence of the manager, Mr H. Slater.

The horse which has been in the Pound for the past few weeks was claimed on Monday by Mr Rex Chapman of Osprey Lake.

Mr H. Slater, Manager of the Fruit Union, left on Monday on a business trip to the South. He expects to be gone about a week.

Mr Alex. Miller was a passenger south to Summerland on Tuesday night to join Mrs Miller who has been visiting there for the past week.

Mr Geo. Barber and family who own a fruit lot here, motored from Salmon Arm on Tuesday. While here they are the guests of Mr and Mrs Wm. Douglas.

Miss Boss Seaton and her friend, Mr H. Woods, motored from Vernon on Saturday. They spent the week-end at her home here, returning on Sunday afternoon.

Rev. A. Henderson and Mr and Mrs Alfred Town left on Saturday morning via Seacombs, en route to the Coast, to attend the annual conference of the Methodist Church, which is being held at Vancouver.

Peachland's dairy herd will have to increase their production from now on, to make up for their misbehavior this week. Mr Seth Davidson, pound-keeper, is considerably richer as a result of said misbehavior.

Miss Louise Moule of the High School staff, enjoyed a short visit from her sister, Miss M. Moule, on Wednesday evening, who returned to Kelowna the following morning to resume her duties as teacher of Domestic Science and Sewing.

Rev. A. T. Allen of Nakusp, a former pastor of the Peachland Methodist Church, who stayed off for a few days to visit his daughter-in-law, Mrs Allen, of Naramata, on his way to conference, journeyed north last Monday to visit some of his old friends here.

Mrs G. Fawcett returned by Thursday's boat from Calgary, Alta., where she had spent a couple of weeks on business. On her way home she stopped off a few days at Banff to visit her husband, who has enlisted with the Home Guards, and is doing duty there.

Mr Wm. Lupton of Kelowna motored down last week to join his wife and children who have been visiting Mrs Lupton's parents, Mr and Mrs Clem. Aitkens, for the past week. We are sorry to report the illness of one of Mrs Lupton's children, who is suffering from a bad attack of pneumonia.

The Summerland High School boys made the trek up to Peachland on Saturday to show the local boys some of the finer points of the popular American game. However, they evidently withheld their little demonstration of how to play ball as a surprise for the Peachlanders when they travel south on June 3rd, for the score was quite the reverse of our modest expectations. With the exceptions of their batting, fielding, and an occasional overthrow, the Summerland nine played a good game. Two practices constituted the spring training of the locals, while the Summerlanders have been trimming most of the teams in the Southern Okanagan. Great apprehension was felt as to the final outcome of the game, when the visitors scored twice in the first innings, but Peachland retaliated in their half, and to the joy and exultation of the home fans came out on the long end of a 13-8 score. Mr Bert McKenzie umpired the game to the entire satisfaction of all concerned.

There were several picnics held on May 24th. A party went to the Summerland dam on Deep Creek; others to the falls on Tropanior, while the Philathon Class celebrated the 24th by a Riding Party to Fish Lake. Leaving the classroom at 9 a.m., they went by way of the Glen and Piggarties, arriving at their destination about 11.30 a.m. A couple of hours was spent in

fishing and viewing the beautiful scenery, after which a social time was spent around the lunch table. All enjoyed the contents of the lunch baskets provided by the girls, also the fish caught in the lake there. The party, which left for home about 4 p.m., became divided when reaching the cross roads. Those who came via Wheeler's Mill arrived home at 7 p.m., while the others went down Garnett Valley and over the lower divide to the lake shore. They were hospitably entertained to tea by Mr Alex. Miller, for which all wish to thank him. They then took the lake shore road home, which they reached about 9 p.m., tired but happy.

In the eyes of the British Columbia Consumers' League, Canada is on the eve of opening up a great trade with our sister Dominion of Australia. This vast country is in a position to supply Canada with a number of products which have hitherto been procured elsewhere. Among these is Australian oranges and lemons, which, it is felt, should be sold in this province in preference to the foreign fruit.
