

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 9, No. 14, Whole No. 431.

SUMMERLAND, B.C., NOVEMBER 3, 1916.

\$2.00, payable in advance

Local Men Who Have Died for Country.

List of Summerland's Soldier Heroes is Lengthening.

With two more names added this week to the number of those men who have enlisted from Summerland and given their lives in the war, the list is getting ominously long. It stands at present as follows:

- Flight Lieutenant Van Allen.
- Lieutenant L. R. C. Douglas-Hamilton.
- Lieutenant C. T. O. Rush.
- Lieutenant Gordon Kerr.
- Private D. Bridgeman.
- Private J. Steven.
- Private Ralph Osler.
- Private D. J. McIntosh.
- Private H. Figgis.
- Private Ross Rea.
- Private R. Callan

The following also have died in hospital while on service: Lance-Corporal R. W. Deans. Private G. H. McLeod. Private G. Wilson.

Benefit Comes From Exhibiting Apples.

Calgary Fruit Sales Greatly Stimulated in Consequence.

The Calgary Soil Products Exhibition certainly stimulated the sale of British Columbia apples throughout the city and district. Every grocer and retailer of fruit tells of increased sales. Quite a number of crates of slow-moving varieties were also put into consumption, relieving the market for the better varieties, which worked to the advantage of the growers.

The window display contest did a great deal to create interest in British Columbia apples, and while perhaps the number of entries was not as large as was expected, nevertheless every retailer pushed British Columbia apples during the week.

The entire display of apples, with the exception of the Summerland shipment and a few other boxes, was purchased by a Calgary grocer, and he is making a window display of these. As his store is well located on the principal shopping street the good work started at the show will be continued.

The guessing contest attracted a great deal of interest, and much valuable publicity was afforded British Columbia apples by this scheme. There were 38,762 apples on display, and the winner of the contest guessed that there were 38,760, while several others were very close. Local jobbers donated boxes of apples as prizes.

More Prizes.

Additional Winnings at Fall Fair Last Week.

Some additions and corrections to the published list of prize winners at last week's Fair are kindly furnished by the Secretary, Mr W. M. Wright. The winnings of Mr T. J. Washington had been omitted entirely. These were second for box Famous; first for box Greenings; first on plates of both these varieties and second on plate Jonathans. Mr Derrick is credited with another prize, being first on plate Kings, and Mrs McLaughlin came second in the bread contest for prizes offered by Mr Young. It was Blanchard Munn who took first for Pen and Ink Drawing, while Tholm Hobbs took first on Painting.

Lay Down Their Lives For Empire's Cause.

Lieuts. Kerr and Rush Have Made Supreme Sacrifice.

Casualties given out within the last few days have brought very close home to Summerland the devastation in young manhood that the war is making in every country of the Empire. But the closer home the cost of the great death struggle of democracy against autocracy is brought to us, the more should it steel our hearts into the determination that right shall win.

Mr and Mrs William Kerr received advice from Ottawa on Tuesday that their son, Gordon, a lieutenant in the Canadian Field Artillery had been killed. He left here early last year to return to St John, where he joined the artillery and trained for a year on Partridge Island. While here he was employed in the office of Mr James Ritchie. Before coming west he held a commission in the militia, and taking this up again he soon transferred into the artillery. Mr and Mrs Kerr are able to gain a good idea of where their son was at the time of his death, for in writing home not long since he spoke of being within sight of the famous reclining image of the Virgin, which places him near the town of Albert. For the bereaved parents and sisters, Mrs R. F. Theid and Mrs E. R. Agur, and other relatives much sympathy is felt, and many residents of the district who knew the young soldier feel much sorrow in the loss of a friend. His brother, Charles, also known here, is now at the front with the forces.

Another casualty in which Summerland is strongly interested is Lieutenant C. T. O. Rush, who was formerly accountant in the Bank of Montreal. He has been officially listed as killed in action. Although his home town was Peterboro', Ontario, he enlisted from here, and Summerland can claim him as one of its own soldiers. He came west to this point in the employ of the Bank. Enlisting into the 11th C.M.R. as a private, he was soon promoted, and while the regiment was at Victoria he qualified for a lieutenant's commission. It was reported first that he had been severely wounded, but now comes the word that he has given up his life. He too, has many friends here who will deeply regret his death.

Trans-Pacific Apple Markets

When the liner "Niagara" sailed for Auckland and Sydney last Wednesday she took in one section of her spacious holds a shipment of 30,000 boxes of choice Okanagan apples. According to F. Lovoday, Dominion Fruit Inspector at Vancouver, more British Columbia fruit is going to the various market centres of the world this season than any other year in the history of the Dominion Fruit Inspection Branch. In quality the fruit compares with the best the world produces. Australia is taking at least 75,000 boxes of British Columbia fruit this season. Other markets are also being opened up.

The C.P.O.S. liner "Empress of Japan," which sailed on Friday, took out 1,200 boxes of apples to the Orient. A brand new market has been opened up with the Philippine Islands, and South America is taking a big share of the apple crop this year.

Okanagan Valley Is Setting New Record

C.P.R. Official Reports Great Increase in Fruit and Vegetable Movement.

Mr F. W. Peters, general superintendent of the Canadian Pacific Railway, has stated that there is this year an immense increase in fruit and vegetable shipments from the Okanagan Valley. Statistics compiled on the fruit movement from the Valley show that the railway handled during last week an increase of 70 per cent. in fruit and vegetables over the shipments of the corresponding week in 1915.

"There is a decided improvement and development in the fruit industry from the Valley," said Mr Peters. "Last week the Okanagan shipped 277 cars of fruit and vegetables, mostly apples, as against 164 cars for the corresponding week last year. This shows an increase of 113 or a 70 per cent raise. They are still loading from 30 to 40 cars a day, and by the end of the year we ought to show some big shipments out of the Valley for the season. The apple crop was the largest on record, being shipped mostly to prairie points, and as already announced, the shippers are taking advantage of the frost-proof warehouses at Calgary in order to get the advantage of rates east from that point."

The arrangement which Mr Peters refers to in the paragraph above is one by which Valley shippers may store their fruit in Calgary warehouses for a time, and still take advantage of the through rates from here to eastern points. Further reference to this is made elsewhere in this issue.

McAlpine Case Now in Court.

Municipality's Technical Objections Over-ruled Now on Third Day

Late word from Vernon is to the effect that the case of McAlpine v. Summerland is still before the court, this being the third day. It is hoped that the evidence will be all taken by to-night. The expectations of the municipal authorities that the case would not get to court because of technicalities has apparently not been realized. Witnesses attending for the plaintiff are J. R. Brown, G. Anderson, L. McLaughlin, and Dr Andrew, beside Mr McAlpine himself. For the defendants there are attending court, Reeve Blair, Coun. Johnston, Municipal Clerk Logie, Engineer Latimer, Ex Supt. Mitchell, David Kean and J. G. Robertson.

Xmas Parcels For Peachland's Soldiers

Each Peachland citizen now wearing the uniform will be remembered with a Christmas parcel by the loving folks at home. Arrangements for this were concluded at a recent meeting of the Comfort Club held at the home of Mrs Wm. Dryden, when it was decided to hold a sale on the afternoon of Friday, Nov. 3rd, the proceeds of which will be used to send a parcel of necessities and comforts to each and every Peachland soldier. Should there be any funds left over after the parcels are mailed what remains will be turned over to the local Ambulance League branch, with which the Comfort Club is nearly identical.

Good Support For Work of Comfort Club

Large Shower Party Successful in Every Way.

From every standpoint the shower party given by the Home Comfort Club and the Myrtle Rebekah Lodge on Tuesday evening was surely a success. The Oddfellow's Hall was not any too large for the company that attended, indeed it was crowded to the extent that one likes to see at such gatherings. As to the success of the shower part of the evening, tables at one end of the room heaped high with gifts of all kinds were ample evidence. The shower was to help provide the necessary financial means and goods to make up substantial Christmas packages to be sent to all Summerland soldiers who have gone overseas.

During the evening musical items were provided by Miss Evelyn Brown, a solo; Mrs G. A. MacLaine and Miss Evelyn Brown, a duet; and solos by Mr Frederick Graham and Pte. Hamsworth, a visiting soldier, all of which, being admirably rendered, were well received. In the intervals there were various games and contests suitable for a large company, and tables for cards were also provided. A further diversion was to be found in the fortune teller's booth, where for a humble dime, Mrs McGregor, a Penticton visitor, looked into your palm and told of your past, present and future. The financial proceeds of the evening were further augmented by the sale of candy in twenty-five cent boxes, containing a toothsome quarter's worth. Light supper refreshments in the shape of sandwiches, cake, coffee, etc., were handed round and obviously enjoyed, after which dancing was the order of the evening.

The entire function while delightfully informal, was well organized, and those responsible deserve every credit for its success. Hallows'en decorations were to be seen on the walls.

In the Review Office window this week have been displayed the contents of the Christmas packages that are being sent to the soldiers. Comprising things wearable, eatable and readable, one can imagine the gratitude the recipients would feel in getting such substantial reminders of Christmas from their friends back in the home town. To provide such a package for every soldier from Summerland across the seas is indeed no light task, and the nature of the undertaking being such as to receive everyone's endorsement, there should be no lack of support for the Home Comfort Club.

WEDDING.

Moore-Gummow.

MARRIED: At Kelowna, on Monday, October 30th, Miss Henrietta A. M. Gummow of Peachland to Mr R. A. F. Moore of Spokane, Wn.

Miss Gummow gave her friends quite a surprise when she went over to Kelowna on Monday, accompanied by her brother Ben, and was made the bride of Mr Moore. Both bride and groom are well known in Peachland, Summerland and Naramata. Mrs Moore was almost a life long resident of Peachland, being the oldest daughter of one of the pioneer families. Mr Moore is a nephew of Mrs M. Robinson of Summerland, and therefore has a number of relatives in these south Okanagan towns. He too was one of Peachland's pioneer

Won In Spite Of Heavy Handicap.

Congratulates Summerland on Splendid Exhibit.

"Will Summerland win the laurels again next year?" This is the question asked by B.C. Markets Commissioner W. E. McTaggart, who is responsible for the success of the apple display at the Calgary Exhibition. Here is his report on Summerland's exhibit:

"The display of apples at the Soil Products Exhibition entered by the Okanagan United Growers, Ltd., and which took first prize in Class 144 for exhibits of 50 boxes or more, was from that enterprising district of Summerland. In spite of the heavy handicap at the packing houses and with a shortage of pickers and packers, boxes, etc., as well as a heavy rush of fruit, the Summerland Fruit Union conceived the idea of sending an exhibit to the exhibition and carried the scheme through to a most successful conclusion. This explanation is given so that credit may be showered where credit is due. Summerland is to be most heartily congratulated on making such a splendid exhibit, which is all the more creditable when the circumstances are explained. Will Summerland win the laurels next year?"

American Apples Are Going Higher.

Advance in "C" Grade Should Benefit B.C. Car Shortage.

The car shortage in this Valley is considerably curtailing the movement of apples to the prairies. Prairie jobbers are not able to fill their orders, but it is expected that the situation will be somewhat relieved by the use of paper-lined boxcars.

The car shortage in the fruit districts across the international line is also serious. Warehouses there are piled to the roofs with fruit, and cancellations of orders are being received daily. Some American shippers, however, are pleased to cancel Canadian orders for C grade apples because the price, since these orders were placed, has advanced a nickel per box. British Columbia shippers are the winners in this case, because in all probability quite a quantity of apples will be put into storage at various points throughout the prairies and orders will be filled from these shipments which would have otherwise been filled with American apples.

Last Saturday it was announced that the C.P.R. would issue a special tariff allowing Okanagan apple shippers the privilege of storing apples at prairie points and then reshipping them at through rates. This will relieve the car shortage and help the apple growers, for there are not storage facilities in the Okanagan. This is a temporary arrangement.

That hundreds of cars have been sent loaded into the United States and are there put into service on American lines is an explanation offered as one of the reasons for the car shortage here.

citizens, whence he removed to Washington some years ago.

Upon their return to Peachland the newly married couple received congratulations from their many Peachland friends, by whom both bride and groom are greatly esteemed. Miss Gummow has been very active in church and young peoples circles, and will be greatly missed.

The happy couple boarded the boat on Monday evening en route to Mr Moore's home near Spokane.

A Soldiers' Comforts Day

Summerland Merchants Will Devote a Twentieth of Wednesday's Cash Sales To Home Comfort Club Funds.

Spend Your Money At Home, And Help Send Comforts To Our Soldiers.

The proposal of one of our merchants that a special day be named when five per cent. of all cash sales would be donated to the Home Comfort Club Fund has met with ready response. No doubt the idea will meet with equally ready response from the buying public. The merchants have declared their willingness to turn over 5 per cent. of all cash taken over the counter on Wednesday next to this deserving cause. It is up to the buyers to say how large their contributions shall be. Come out on Wednesday to do your buying and bring your check book or money bag!

Following is a list of advertisers who have joined in this movement. Some of them are making special announcements in their regular spaces:

- Summerland Supply Company
- A. B. Elliott
- G. L. McWilliams
- J. Downton
- A. J. Beer
- Summerland Drug Company
- J. Rowley
- Summerland Fruit Union

Rates for Contract Advertisements furnished on application.
Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

FRIDAY, NOVEMBER 3, 1916.

THE WEEKLY NEWSPAPER.

THE CHICAGO TRIBUNE thinks the weekly newspaper promotes the interest in the town in which it is published to such an extent that it becomes impossible to place an estimate upon its worth. There is no enterprise, it says, that does so much for the corporation or the individual citizen as the newspaper. It stands opposed to the town knocker, the town kicker, the town fanatic, and the town drones. It stands for progress against stagnation. It is ever ready to obstruct the schemes of visionaries, and as ready to aid the constructive plans of wise and level-headed citizens. The paper has not yet come to its own, however, because it is never appreciated to the extent of its worth by the people at large. Yet when battles are to be fought for town or country a rush is made to the newspaper office always to find the loyal editor ready, frequently without hope of reward. Many other enterprises are encouraged by a bonus, but rarely is a newspaper offered such help, and still more often not given the support it is entitled to. Communities frequently lose sight of their benefactor when they fail to recognize the weekly journal as such. The editor and his paper stand as bulwarks of defence against the attacks of evil or designing schemes affecting the good of the individual or town. For these and other reasons the newspaper, town and country, should receive the support of the public at large in a very liberal degree, for it is really the most important business enterprise of the community.

Some of the Yakima schools begin early sessions at eight o'clock, and dismiss at one, leaving all the afternoon free for the pupils to help in harvesting the apple crop.

The human will is a kind of argument; it is not likely that God would have given all men such feelings if He had not meant to gratify.—F. E. Robertson.

Summerland Fruit Union Packers

WILL GIVE

Monday, November 6th, 1916.

Choice Reserved Seats at Theatre Box, \$1.50.

Secured from Okanagan Lake Boat Company, \$1.50, including Ferry.

Leaving Summerland 7 o'clock sharp.

Condolence From France.

The following is a letter received recently by Mrs Arthur Solly:

France, Oct. 1st.

Dear Mrs Solly:

I feel sorry to have this privilege of writing you in reference to your dear boy's death, Marmaduke, and yet to know him, as I and others got to, one feels it doubly so.

We left the Old Country together to join the battalion, and, naturally, got more attached to each other. It was always an understanding should anything happen either of us we should notify their loved ones.

I am pleased to let you know that he suffered very little, if any, as he was struck with a machine gun bullet in the chest on Sept. 27th, while in action, and, like a true soldier, died at his post. I wish to convey on behalf of the boys and myself our deep sympathy on your bereavement. We miss him; he was one of the best, and always so thoughtful of others; so unselfish, which is a point one is bound to admire, and here we see such noble deeds, and your boy was never lacking. With kindest regards and best wishes from the boys and myself.

Yours sincerely,
Pte. S. A. ADAMS.

School Children Working For Stricken Belgian Boys And Girls.

The children of the schools have taken up with the work of aiding the Belgian Children's Relief Fund, and are likely to make just as much a success of the effort as other war time charities which they aided. On Friday afternoon of next week, November 10th, the public are invited to attend at the Central School, where different attractions will be given by the children under the direction of their teachers. Miss Ballantyne's room and that of Miss Brown are going to be responsible for little concerts. In Miss Rothwell's room a museum will be arranged, and to each child will be assigned the explanation of one curio to the enquiring visitors. In Mr Lees' room there will be a picture gallery, and here also each pupil will be ready to tell about a picture. Tea will be served by the girls during the afternoon. An admission of 15 cents will be collected, entitling visitors to see the whole round of attractions. For the tea the nominal price of ten cents will be charged. The affair will take most of the afternoon, commencing at one o'clock, the plan being to spend half an hour in each room. An advertisement on page 2 sets the matter forth quite fully. It is earnestly hoped that parents generally will make a big effort to be at the school next Friday, not only to encourage children and teachers alike in special undertakings of this nature, but also on account of the worthiness of the cause. Make a point of being there.

Central School Monthly Report.

Receiving Class—Alfco Traylor, Ruth Ritchie, Joan Duncan, Francis Steuart.

Eggs Are Climbing At Coast.

The peak of the season in the price of eggs has been reached, according to Victoria wholesalers. Local fresh eggs are now selling there for 70 cents a dozen. The wholesale price is 60 cents. These prices have been holding for the last week or ten days. Three weeks ago prices were 10 cents lower.

Wholesalers blame the high prices on the fact that it is now the off-season for laying hens. There are practically no new eggs coming on the market. In many cases stored eggs are being used.

There will be no relief from the high prices until the hens start again to lay. The only fear dealers have for the continuation of high prices is that many poultry raisers are now killing off much of their stock because of the high feed prices, and the possibility of these prices going higher before the winter is through. As yet it is not known to what extent this is being carried.

Considerable quantities of Alberta storage eggs are now being sold at the Coast at about 20 cents under the price of fresh eggs.

On Wednes., November 8th

We will

DONATE 5 PER CENT

to the Home Comfort Fund, from all CASH SALES made on that day, and in addition will give you

15 p.c. off the price of any ALARM CLOCK at either Store.

This will be a good opportunity to select your Christmas Presents and have us lay them aside for you.

Orchard and Farm:

Topics of Timely Interest and Helpfulness
in the complex Business of Farming.

An Experiment In Orchardng.

One of the most interesting experiments at Vineland in the Niagara
district of Ontario already showing results is the large apple orchard
devoted to cultural and pruning tests. This block, consisting of some
600 trees, was planted five years ago, and is made up of the following
varieties set out as yearling whips: Hyslop, Spy, Greening, Baldwin,
King, Hubbardson, Cranberry, Jonathan, McIntosh, interplanted with
Dudley, Duchess, Wagener, Wealthy and Ontario. In all there are
thirty-three rows, the first being winter-pruned, the second summer-
pruned, while the third row has not been touched since the first shaping
up. This plan has been followed consecutively through the entire block
for the five seasons with very marked results.

The winter-pruned trees have received the usual treatment as prac-
tised in Ontario, being headed back and thinned out every year. Those
treated in summer have received very light pruning, crossed limbs or
those that would be useless later being removed. Almost no heading
back was done, except taking out the terminal buds from the highest
branches. While receiving so little pruning these trees have a good
frame-work to make a tree capable of bearing a heavy load. The third
row in each case has not been touched since the initial pruning.

The results are very uniform throughout, the summer-pruned trees
and those not treated being loaded with fine marketable fruit, while
the winter pruned trees show hardly an apple.

There appears to be no doubt that summer-pruning will bring the
young orchard into profitable bearing much quicker than the plan usual-
ly followed of heading back severely every season.

Another striking result in this block of trees is the difference shown
between the cultivated and sod sections. Despite the very wet spring
and early summer the trees in sod are much poorer in foliage and
vigour.

Is Alfalfa Improved By "Stack Burn?"

Some Colorado dairymen aver that "stack-burn" of alfalfa is a very
desirable thing and that the cows relish the discolored, half-burnt
article, and will give more milk when fed on it than if fed the greenest,
brightest, and best cured alfalfa. That, so many feeders think, is the
ne plus ultra for their money.

"Several times in our experience have we had alfalfa come out of
the mow showing that it had been subject to a half cooked condition.
In every instance the cows showed a manifest preference for this
mow-burnt alfalfa, and they maintained their milk flow while feeding
on it. Do we all know as much about alfalfa as we think we do?"

"Hoard's Dairyman," one of the best stock journals in the Uni-
ted States, in answer to an enquiry on this subject says:

When hay is permitted to be soaked with rain it loses much of
its nourishing properties and its palatability. Hay stacked green
seems to retain all of its nourishing properties, and at the same
time is very palatable to the animals even though it is discolored.
We have never followed the system of hay making in this manner. Our
method is to cure the green alfalfa in the cock and cover it with a hay
cap. Hay made in this way is far more satisfactory than hay permitted
to be dried in the sun. The curing of hay is not wholly a drying pro-
cess. Steps must be taken to retain all its nutritive elements as well
as its palatability, which can be done better in the shade than when
it is exposed to the direct rays of the sun. It should not be under-
stood that hay cured in the stack is necessarily burned the same
as is horse manure when not sufficient moisture is applied when the
manure is fermenting. To be sure, the hay is discolored and has a dark
brown, almost black, appearance at times, but it is not dry and mouldy
as one might think.

Big Money Makers.

Hens More Than Double Feed Investment.

One may draw some very interesting and valuable deductions from
a copy of the summary of results of the B.C. Egg Laying Contest just
issued by Director J. R. Terry. Perhaps the thing that will strike the
practical man most forcibly is that the average profit per hen over the
cost of feed bought at current prices was \$2.47. The contest lasted for
11 months, but in making our deductions let us suppose that the hens
would have produced no eggs at all in the twelfth month. The results
given are the average of 240 birds, heavy and light. The average
yield was 151.5 eggs and these were sold at the very ordinary price of
84 cents per doz, or \$4.29 per bird. Feed cost was \$1.81 for 11 months,
making \$1.98 a year. This would leave \$2.31 a bird over cost of feed.
While the average price gotten for the eggs was 84 cents the feed cost
would work out at 15.6 cents. The winning pen in the Leghorn class
laid an average of 188.8 eggs, and in the weight class 187.6 eggs.

Facing Egg Famine.

Million Dozen Shipped To Great Britain In Week.

According to a statement issued by the Department of Agriculture,
at no time in the history of the Dominion has the necessity for increased
production of eggs and poultry been more apparent than at the present
time. The demand is unprecedented. This is true for export or for
home consumption. Consumers generally and even producers them-
selves are using more eggs. The average per capita consumption of eggs
in Canada this year will be greater than ever before.

The market for eggs and poultry is very active. The prospects for
a continued demand are very bright. The country is said to be facing
a shortage not only of current receipts but of Canadian storage stocks as
well. So great has been the export demand, the country will be oblig-
ed to import to help out home demands. Nearly one million dozen eggs
were shipped during the first week of October to Great Britain.

No rust can attack the flues because they are so thor-
oughly aluminized, and they economize nearly every bit
of heat.

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

Parcels For The Soldier Boys

Last Saturday was a very special day in Red Cross circles. Early in the afternoon a score or more ladies, many of them mothers of lads at the front, were seen wending toward the club room. All of them carried something, two of them so loaded down that they commandeered the two-wheeled truck cart of the Supply Co.—Mr Bartlett wouldn't mind—in order to hasten on the work.

The busy secretary, Mrs Aldridge had asked everyone in sight to bring along empty cans in which to pack the parcels for overseas.

The whole afternoon was taken up in preparing separate parcels of good things for the brave lads in Europe. Each parcel was packed in a tin receptacle to protect it from dampness and injury, then wrapped in stout paper and again covered with cotton and plainly addressed. This will account for the three big sacks of mail that left the local post office one morning this week. Good luck to the boys, their parcels, and to the willing workers of the Red Cross.

Given Worthy Promotion.

The following is official orders of Oct. 19:—“Canadian Ordnance Corps, Petawawa Military Camp—Armament Staff-Sergeant Block has this day been put on the camp staff list, Petawawa Military Camp, and has been warned to hold himself in readiness to proceed to the Royal Military College at Woolwich, for a course in armaments and equipment, when camp closes, end of Oct.”

Current Events - OF - Town & District

Mr and Mrs T. I. Williams spent Thursday in Summerland.

Mr John McLean of West Summerland was a week-end visitor returning on Monday evening's boat.

Miss Minnie Block spent a day or two in Summerland last week, visiting the exhibition as well in that town.

Mayor Jones of Kelowna and member-elect for this constituency, passed through town on Monday en route to Victoria.

Captain F. J. Languedoc and Mr E. H. Hanock, two persistent and consistent hunters, have had their search for deer rewarded—each tallying one for the season.

The “Syndica House” has been closed for the winter, as under existing conditions, with the greatly reduced patronage at this season, it is unable to be kept on a paying basis.

Mrs R. C. Robinson was in town on Wednesday for a short visit with her young sisters-in-law, the junior members of Mr Robinson's family, prior to the departure of the latter for Los Angeles, Cal.

Mr and Mrs D. J. Walters have again taken up concert engagements, and have already filled two engagements, one in Summerland and one in Penticton, the latter being for the hospital ball on Hallowe'en, Tuesday evening.

The four sisters, Misses Kathleen, Dorothy, Gladys, and Margaret Robinson, boarded the “Sicamous” on Wednesday evening en route for Los Angeles, California, to join their parents, Mr and Mrs J. M. Robinson, who purpose residing in that city for the winter.

Naramata Current Events (Continued).

Messrs Rounds and Dempsey were visitors to Okanagan Falls this week.

Mr and Mrs Wm. Nuttall and little daughter Margaret spent Thursday in Summerland visiting the Fall Fair.

Mr Carroll C. Aikins has purchased another new motor, having disposed of the speedy machine in use at Rekadom ranch all season.

Fruit picking and packing is now over and the only thought will be now not to spend the money too fast before the advent of another season's output.

Private T. I. Williams, who has been taking a month's furlough at his home here left again on Monday morning's boat for Mara to resume his duties at that point.

A number of our citizens plan spending a portion of the coming winter season at the Coast. Among others these are a few: Mr and Mrs Geo. Wolstencroft, Mr and Mrs Jas. Dean, Mr and Mrs H. P. Wilson.

Manager Jack Lawler of the Summerland Fruit Union was across the lake on Monday looking for clues to the party or parties who “lifted” a number of new orchard boxes without due regard to ceremony.

In accordance with Department of Education regulations school hours began winter schedule on Wednesday. School now opens at 9.30 and closes at 3 p.m. with one ten minute intermission in the forenoon.

Mr Rife Moore of Priest River, Idaho, passed through town on Friday evening on his way north. Rumor has the fact pretty well cinched that his return trip on Monday evening's boat was made in company with a northern bride. But the rest is a Peachland story.

The regular monthly meeting of the Ladies' Unity Club was held on Saturday afternoon with the president, Mrs W. W. Mitchell, presiding. At this meeting final arrangements were made for the bean and pumpkin pie supper which took place on Tuesday evening, “Hallowe'en.” At the close of the session there was a short program, in which Mrs T. I. Williams sang very sweetly the “Holy City,” ably accompanied by Mrs Languedoc. Mrs Jas. Hayward gave quite a comic reading entitled “As Others See Us,” which afforded great merriment for those fortunate enough to hear her. The president then appointed Mrs Boothe to act on the regular monthly program committee to take the place of Mrs J. M. Robinson, who has left Naramata for the winter. Miss Robinson and Mrs Cash served very dainty refreshments, after which the meeting closed.

We wish for immortality. The thought of an annihilation is horrible, even to conceive it is almost impossible.

Springfield, Mass.

Hallowe'en Party Well Attended.

The Hallowe'en Bean Supper under Unity Club auspices on Tuesday evening was the one big social event—and “spree” would perhaps be a better word—of the entire week.

The first event of importance was beans, and the next item of interest was beans, the third likewise. Not Van Camp's either, but quite as good, were bound to say, else loose our jobs or our heads.

The inner man having been duly satisfied the floor was cleared and the evening's program by way of entertainment followed. Everybody and everything seemed in the spirit of and for the occasion. Everybody wanted fun and they found it—or made it; and when it came to that old, old yet ever new game of ducking for apples—well one would smile for the whole of the next year. Talk of a little nonsense now and then being good for the wisest men—this will need to be made to include the women too, for somehow the women folk are in the majority now in Naramata and the humble male creatures left as home guard left even the fun making to the women. Oh, no names please.

Altogether the Unity Club ladies are to be congratulated for the success of the whole evening.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, and the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5; which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Mayor Jones Heavy Loser.

Huge Fire at Kelowna. Business Blocks Wiped Out.

Kelowna was visited by a disastrous fire before daybreak last Sunday, resulting in damage to the extent of about \$175,000, when the Raymer block and contents were reduced to ashes. The outbreak commenced apparently from the heating system, either in the Thomas Lawson department store or the Opera House adjoining. Both these premises, as well as the Mason & Risch piano warehouse, the Crawford book store, Muirhead's shoe store, the Oddfellows' and Masonic Hall, Raymer Hall, and several dwelling and office quarters were totally destroyed. The fire was only stayed when it came to the solid brick walls of a large warehouse on one side, and another substantial building on the other.

The Raymer family narrowly escaped with their lives, having to leave by the roof and then through adjacent buildings. The largest losers are Messrs Lawson Limited, who approximate their loss at being in the neighborhood of \$75,000. The Muirhead loss is said to be \$16,000, and Crawford's \$10,000. The building destroyed was valued at over \$40,000. Mrs Raymer's loss, which includes scenery and moving picture machines, was very heavy, while the Oddfellows' and Freemasons lost considerably. The insurance is believed to run about \$50,000. Mayor Jones, the recently elected Conservative member of the Provincial House for South Okanagan, is the principal stockholder in Lawsons Limited.

The city of Toronto was recently asked to raise \$250,000 among its citizens for the Red Cross Fund. A canvass was made and liberally responded to for when the final returns were made it was found that the amount contributed totalled \$701,859.

Passing Events: Social, Personal, &c.

The 172nd B.C. Battalion has reached England safely, according to cable announcement.

St Andrew's Society members are urgently requested to meet in church vestry at 8 o'clock Monday night.

The school day was shortened by an hour on Wednesday to the customary opening hour of 9.30, and closing at 3 p.m.

Will anyone having addresses of Summerland soldiers kindly give them to Mrs Hogg of the Home Comfort Club by next Wednesday at the latest.

Mrs A. L. Moreland came up from Vancouver on Thursday after an absence of several weeks. While there she visited with her sister, Mrs Wellband.

The Ambulance League hopes to send off the shipment of jam to the soldiers next week. Will everybody please send in their tins as soon as possible.

Mr F. Munro, Meadow Valley, expects to leave this week-end for the Coast, where he goes to enlist in the 68th Battery of the Canadian Field Artillery.

The West Summerland Women's Institute will meet in St Stephen's Hall on Friday, 10th Nov. at three o'clock sharp. A full attendance is requested, as there is important business to be done.

The ladies of the Methodist Church will give a chicken pie supper and entertainment on Thursday, Nov. 9th. Supper at half past six. Admission, including supper, 50 cents. Everybody welcome and promised a good feast.

The amount remitted by Mr E. B. May, local Hon. Treas. to the Hon. Treas. of the Canadian Patriotic Fund at Victoria this week, representing the subscriptions made by the people of Summerland during the month of October, was \$152.80.

One of the best entertainments given in Peachland for some time was the Hallowe'en party given by the Philathea class. Fifteen dollars was cleared and donated to the military Y.M.C.A. Peachland has also been assisting the Y.M.C.A. by generous contributions of books and magazines.

The Sunday School which has been meeting every Sunday morning in the Lakeside Baptist Church has discontinued its sessions, having decided to amalgamate its forces as far as possible with the School which meets in the Methodist Church at 12.15. There will, accordingly, be no further Sunday School sessions in the Lakeside Church.

The Electric Light Loan.

Next Wednesday the ratepayers are asked to give their assent to the by-law authorizing the municipality to borrow a sum of money to be expended on the extension of the electric light system. We think the history of this proposal has been pretty thoroughly covered in these columns, but lest there be an impression with any that this loan will mean some increase in taxes it might be well to again state that the plan is to make extensions only to groups of houses that will return enough in rates to make a good return on the investment, and will thus be more than self-supporting. In fact the extensions now contemplated are expected to fully take care of the new debt as it matures. The money borrowed is to be paid back in the form of electric current. This explanation seems to be coming to the public who are asked to vote on the by-law, and we take the liberty of handing it out.

A man who has a good opinion of himself is often a poor judge of human nature.

Miss Leckie of Kelowna has been the guest this week of Miss Helen Phinney.

Buy your rubbers for the winter on next Wednesday. Five per cent. goes to soldier's Home Comforts. A. J. Beer. 14

The proceeds from the quilt donated by Mrs F. A. Miller, were for the Red Cross and not for the Hospital as was erroneously stated last week.

A donation of \$10 was recently made by the Summerland Masonic Lodge to the Prisoners of War Fund. The Naramata School also contributed \$3.85.

The Myrtle Rebekah Lodge desire to thank the public for the generous response to their appeal for donations for the shower to the Home Comfort fund and stores.

The West Summerland Ladies' Aid of the Methodist Church wish to thank all those who donated towards the filling of the boxes for the boys at the front. About 25 packages were prepared and forwarded.

The treasurer of the local branch of the Ambulance League has received acknowledgement from His Honor the Lieutenant-Governor of a contribution of \$200 from the residents of Summerland for the British Red Cross Society.

Rev. H. G. Estabrook was preacher at the anniversary services of the Peachland Baptist Church last Sunday. The union Methodist and Presbyterian services were withdrawn and all joined with the Baptists in their celebration.

The Anglican Church are planning to hold a social and whist drive next Thursday evening, Nov. 9th, when Sgt. Wright will tell those present of a few experiences of his life in the trenches. Admission 15 cents, for whist play 10 cents extra.

There will be a Harvest Home service in St Andrew's Church on Sunday morning led by the pastor, Rev. N. McNaughton. At the evening service in the Lakeside Church Mr McNaughton's subject will be "Christ's Teachings and the Present War."

Word has been received that T. J. Garnett, who is selling his apples on the prairies, is meeting with success. His first car he took to northern Saskatchewan and disposed of it in three days, selling from the car direct to the farmers at better prices than anticipated.

Do not forget that the stores will close early on Saturday night, Nov. 11th, when the Hospital Society are putting on the Welsh Choir Concert at the Empire Hall. Seat Sale opens on Monday morning next at the Drug Store, and the Secretary anticipates the withdrawal of the seat plan on Friday noon at the latest, so that early booking is the only way to be sure of your seat. 14

Roy Black Is Doing Well.

Word has been received by friends here that Roy Black, who was reported wounded some time ago, is getting along well. The nature of his wound or of its seriousness had not been learned before. He received a shot wound in the right side. There were no bones broken, the wound being in the flesh only. He is now able to hobble about the ward of the London hospital in which he is confined, and expects soon to be transferred to a convalescent hospital. His many Summerland friends will be glad to learn that Roy's wounds are not as serious as was feared.

Let us draw strength, not from twice-told arguments, but from the busy spectacle of our great city's life... remembering that all this greatness she owes to men with the fighter's daring, the wise man's understanding of his duty, and the good man's self-discipline in its performance.

Mr Buckland now brings his cream from his Shingle Creek farm by auto truck.

The Misses Robina and Grace Logie returned this week from a visit of about a month or six weeks to eastern points.

Mrs Lipsett returned home on Saturday from a visit of some weeks to the Lower Mainland and Vancouver Island.

The Home Comfort Club will meet with Mrs Hogg next Wednesday, when the soldiers' Christmas parcels will be made up and sent off.

Mr Archie Seaton, who suffered a cut foot some days ago while at work on the telephone line near Armstrong, and has since been in the hospital at Vernon, has returned to his Peachland home.

Mrs R. C. Robinson and two children arrived back in Summerland from Silver City, Idaho, at the first of the week, accompanied by her sister, Mrs K. S. Hogg, who met her at Spokane.

Mr R. Robertson, formerly manager of the Okanagan United Growers, was a visitor to Summerland last Sunday. He came down from Kelowna on the boat, and after spending a few hours here boarded the train for his home in Vancouver.

Information has been received by his parents here that Pte. E. F. Smith was one of a draft of 150 men of the Canadian forces in England drafted into the 7th Battalion of Vancouver and sent over to France. They crossed the channel on Oct. 13th.

The 196th, Western Universities Battalion, with several Summerland men in its ranks, has left Camp Hughes, Manitoba, for England. Messrs John and Leighton MacLeod, Bedford A. Tingley, and Howell Harris are at least four names this district is interested in.

Rock and mud slides were responsible for the late arrival of the Coast train on Tuesday and Wednesday. These slides occurred in Coquihalla Pass and are apt to recur from time to time along the newer sections. More than three feet of snow has already fallen in that high altitude of moisture laden atmosphere.

Mr C. W. Lees, principal of the Central School, was the recipient of two presentations this week, marking the esteem of pupils and teachers alike, and their interest in his marriage, which takes place to-morrow to Miss A. R. Hayes. On Thursday just after recess he came in for a great surprise when Robert Hatfield, one of the class, came up and made him a presentation of a handsome carving set and sterling silver knife and fork rests. These were subscribed for by the room over which Mr Lees presides at school. Though taken completely by surprise, he made grateful acknowledgement to the scholars. The members of the teaching staff have also made a substantial presentation to their principal in the shape of a handsome clock.

To Alberta Hospital.

Miss Kate Miller, the well-known Peachland nurse, was recently offered a position on the staff of the McLeod, Alberta, Hospital, which she accepted, and on Monday she left for the prairie town. Miss Miller has for some time been doing private nursing in different Valley towns, and has just completed an engagement with a typhoid case at Vernon. Her many Okanagan friends, while regretting her going, express confidence that she will succeed in her new undertaking.

Several cars of Ben Davis apples are being shipped to South Africa from Brighton, Ont.

Two more cars of B.C. McIntosh apples recently reached Toronto. They are selling at \$2.35 and \$2 for 1s and 2s. Yakima Rose Beauty and Jonathan are bringing \$2.50, while some Hood River boxed apples sold for \$4.

Sailors' Sons For Navy Service

Aim of Sailors' Relief Fund.

There are a veritable host of war time charities to which we should always be willing to open our purses. The latest, and just as worthy as any it seems, is the British Sailors' Relief Fund. Subscriptions are solicited on the grounds that the Navy has asked for nothing; that it has not even been publicly thanked yet for its almost miraculous work; that every fund provides for our soldiers, whilst this is the only one yet founded in Canada which provides specifically for the sailors. This thank-offering, started in Montreal, will be completed throughout the country, and goes to the children of the men who have been maimed or killed in this, our defence. The main purpose of the fund is to provide for them and educate their children, that they may become such sailors as their fathers. All subscriptions may be forwarded to Mr D. L. Crawford, manager of the Bank of Commerce, Victoria. Admiral Lord Charles Beresford is interested in the administration of the fund, which goes strictly for the benefit of the dependents of killed or permanently injured sailors. Children fitted for it are to be brought up in the profession of their fathers. There is no need to urge the worthiness of this cause, it is too apparent. Perhaps it is not too much to hope that there will be some response locally.

Bowser Elected.

The fate of Premier Bowser at the hands of the Vancouver electorate, so long in doubt, has been established by the report of the final returns from the soldiers' votes. At first reported defeated, then with results uncertain, latest figures place him fifth of the six representatives from Vancouver, and the only man from the metropolis not in support of the new government. He will now be in position to lead in opposition. Mr Bowser now leads Cowper in number of votes, shoving him down to sixth position, formerly held by Donnelly, who will be left at home.

Salt For Cows.

It is essential that a supply of salt be always available for the cows if a high yield of milk is expected. Salt feeds for dairy cows once a week is not sufficient. It is a good plan to keep rock salt under shelter where the cows can get at it once a week in such quantities as cows will eat up clean. It is not advisable to mix salt with feed, for frequently under such a plan the cow will get more salt than she needs. Cows having salt kept before them at all times in separate compartments will not eat too much. An overfeed of salt given to a cow that has been deprived of it for some time acts like a poison, which sets up an irritation in the digestive organs which results in scouring.

A cheap watch is usually in sympathy with the eight-hour movement.

Never teach false morality. How exquisitely absurd to tell girls that beauty is of no value, dress of no use. Beauty is of value, her whole prospects or happiness in life may often depend upon a new gown or a becoming bonnet, and if she has five grains of sense she will find this out.—Sydney Smith.

Banish the future; live only for the hour and its allotted work. Think not of the amount to be accomplished, the difficulties to be overcome, but set earnestly at the little task at your elbow, letting that be sufficient for the day; for surely your plain duty is not to see what lies dimly at a distance, but to do what lies clearly at hand.—William Osler.

Let us learn to be content with what we have. Let us get rid of our false estimates, set up all the highest ideals—a quiet home; vines of our planting; a few books full of the inspiration of a genius; a few friends worthy of being loved and able to love us in return; a hundred innocent pleasures that bring no pain or remorse; a devotion to the right that will never swerve; a simple religion empty of all bigotry, full of trust, hope and love—and to such a philosophy this world will give us all the empty joy it has.—David Swing.

Penticton Would Guard Against Tuberculosis.

Coming before the City Council of Penticton as delegates from the Penticton branch of the Women's Institute, three ladies have asked the municipal authorities to take legislative action toward regulating the admission of tubercular people into the municipality. It was pointed out that at the present time there was little or no check upon tuberculosis in that district, and as a great many people went there from other parts of the province who were afflicted with the white plague something should be done to safeguard residents.

Blessings may appear under the shape of pains, losses, and disappointments, but let him have patience and he will see them in their proper figure.

Soil Products Exhibition To Be Made Annual Event.

At a meeting of the Soil Products Exhibition management held last Friday night in Calgary it was decided to hold the exhibition every year. With the stock sales being held at that time and the vegetables grown in Calgary gardens just at their best, not to speak of the B.C. fruit display, it is to British Columbia's interest to do her part in making this show a grand success every year.

"Some merchants save \$5 by not advertising, and lose \$100. Where ignorance is bliss, it is folly to advertise."

The first chapter in the history of modern shipbuilding in British Columbia was opened last Saturday, when contracts were signed for the building of three steel ships, valued at one and a quarter million dollars each. It is expected that contracts for five more ships will be signed and that all eight ships will be under construction in a few months.

Summerland Fruit Union.

Lieut. Hookham Writes Letter of Thanks.

British "Tommies" Are Source of Amusement and Also of Anxiety.

17th Royal Welsh Fusiliers, B. E. F., France.

Dear Mrs Hogg, I am writing to thank you, and through you the ladies of the Home Comfort Club, very much for your present to me.

The contents of the parcel were most acceptable, one and all of them, but the most acceptable thing of all was the fact of being remembered. How did you know that I like sultanas better than almost anything? Thank you all very much.

I think a great deal of Summerland, and am wondering when I am going to see it again. I suppose the war will end some day, but unfortunately I seem to be the only man in France who doesn't know when, so can't make any arrangements! I haven't come into contact with any Summerland men, though I have naturally met lots of men from our contingents, and a few British Columbians.

I am afraid our wet season has set in properly again, now, and that means that we are literally up to the neck in mud. To give you some idea of what the trenches can be like at times, a man in my platoon was going with a message from me from one post to another, about 30 yards away, and in the trench all the way, when he got stuck in the mud and couldn't get out. I had to send a sergeant and two men to pull him free.

I don't think that this life altogether appeals to me, but it has its brighter spots. Tommy is a never failing source of amusement and encouragement, though he can be a source of anxiety too. For instance a friend of mine had to take a wiring party out to repair some wire in front of the trenches. He took them out at night, having impressed on them for the hundredth time the great importance of silence, since the Hun was only 40 yards away with his machine gun. They started work and all went well until Thomas managed to throw a half hitch of barbed wire round his best friend who was working with him. Then the noise started, and the rest of the party gathered round to see fair play and offer advice at the tops of their voices. Then my friend from the nearest available shell crater in a loud whisper: "Silence, men! do you want to be all wiped out?" And Thomas replies at the very top of a very loud voice which could easily be heard at Berlin, "Well, but, sir, he's pretty near bloomin' well cut me bloomin' 'and orf," and was absolutely innocent of intending to offend.

The Boch, too, has his redeeming qualities, though not many of them, since he undoubtedly possesses a sense of humor, and also undoubtedly is a brave man, even if he doesn't like the bayonet. I don't either! After a big Russian offensive one of our units stuck out a big notice over the trench at night, "Yesterday the Russians took 2,000 German prisoners." Next morning the following notice appeared in front of the Boch trench: "The Russians may have; don't you wish you could?" That happened before the "Big Push."

Well, Tommy found that a bit of a puzzler. Thanking you all again for your kindness in sending to me, and hoping that it may not be many months (years) before we are all among you again.

I am,
Yours very sincerely,
G. R. HOOKHAM.

No. 3 Can. Gen. Hospital, France.
October 7, 1916.

Dear Mrs Hogg,

The very welcome parcel from the Home Comfort Club arrived to-day, and was thoroughly enjoyed not only by myself but also by my tent-mates, who aided me in the pleasant task of demolishing it. It is awfully good of all you people at home to remember us so thoughtfully, and I can assure you that it is appreciated very much indeed.

As you can well imagine we have been extremely busy this past summer, and have good prospects of a busy winter. It may interest you to know that Bob Atkins of Summerland is now with this unit.

Hoping this finds you in good health, and with best wishes for the other members of the society, I remain,

Yours sincerely,
V. N. MERRILL.

MR. MERCHANT

When you want Counter Check Books, or anything along that line, you can get them for as little money through the Review Office—and more promptly—than by sending away for them. We are here to serve you. We are one of you: The canvasser for the Coast printer, or the eastern printer, does not spend his dollars with you; does not contribute to the upbuilding of your town; does not pay taxes; does not bring dollars into the town. He takes them out. Phone 39 the next time you are prepared to renew your printing orders.

The average woman swallows flattery, just as a baby swallows buttons, regardless of the trouble that may follow.

Home Comfort Cash Day

[At Both Our Stores]

Next WEDNESDAY, 8th inst.

On above date, in addition to the regular 5 per cent. Discount for Cash, we will give to the Home Comfort FIVE CENTS on every Dollar Cash purchase at our Stores in Summerland and West Summerland.

An opportunity to assist the Home Comfort in its worthy cause.

Come Everybody!

Remember! 5c. on each Dollar Cash Purchase goes to the Home Comfort.

By-Law Had But One Dissident.

Ratepayers Approve of Borrowings for Light Extensions.

In an exceedingly light poll the electric light loan by-law placed before the ratepayers for approval on Wednesday was carried, forty-nine registering their approval, while one solitary vote was cast against it. It was not anticipated that there would be a heavy vote, for more momentous measures in the past have failed to draw a much heavier vote. Something over twenty of the votes were cast at the front, the remainder being registered at the Municipal Office. The lone dissenting vote was cast down town.

This by-law authorizes the issuance of debentures to raise money to make extensions to the electric light system, two of which are immediate, one along Rose-dale Avenue and east skirting Jones Flat, and the other out in the direction of Wm. Ritchie's and Col. Cartwright's residences. The money for both these extensions is being put up by interested citizens, and the revenue derived is expected to fully take care of the outlay required.

Now that the by-law has been approved it is likely that the construction work will be taken in hand, with immediately.

For Suffering Children in Belgium.

The children of the Central School are holding an entertainment this afternoon, the cash proceeds of which will be devoted to the relief of the children of Belgium. Through the individual efforts and sacrifices of the children there has already been accumulated a goodly sum for this worthy cause, there being now about \$70 on hand, the result of the contributions from time to time of the pupils. Each in his or her own way has earned little sums for this fund or, as in not a few cases, those children who have had the opportunity of earning money by helping with the fruit have contributed from their hard earned wages. One little man we learned of gave \$1 out of \$5 that he had so earned.

To Stock Lakes With Fish.

Primarily at the instance of the Penticton Board of Trade, the Dominion Department of Fisheries has consented to stock several of the lakes in this vicinity with trout next spring. For several years the Penticton people have been pressing this upon the authorities, and only now has the request been acceded to. The Department proposes to place a supply of cut throat trout in some of the most accessible lakes.

It is estimated that there are no less than 150 lakes within a radius of fifty miles of Summerland, all of which are of more or less use for fishing. By getting several of these well stocked it is thought that a large number of fishermen and tourists may be attracted to the locality in the near future.

Now Westminster, B.C., is making arrangements to ship a car load of apples to the soldiers at the front. The car will contain about 400 boxes, and is expected to reach the front line trenches in time for Christmas.

Another jump in the wholesale price of flour is reported from Vancouver, where the price of best patents has reached \$10.00 per barrel. Winnipeg reports cash wheat at \$1.02 1/2, a small quantity of No. 1 Northern having sold at that figure.

Court's Decision Favors Council

McAlpine Case Heard at Vernon Occupied Three Days

Plaintiff Will Appeal From Judgment Given.

The case of McAlpine vs Municipality of Summerland, which came up in the Court of Assize at Vernon last Wednesday was not concluded till late on Friday afternoon, and the principals and most of the local witnesses did not reach home till Saturday night. The particulars of the claim are already well-known. Judgment was given in favor of the municipality, the judge expressing the opinion that the water which appeared in the plaintiff's cellar did not come from the domestic water pipe. The plaintiff's action, with claim for damages, was accordingly dismissed with costs. Mr A. D. McIntyre, of Kamloops, and Mr W. E. Haskins, of Penticton, conducted the case for Mr McAlpine, and Messrs Cochrane & Ladner of Vernon acted for the municipality.

At least one other witness not noted from here last week was T. Ramsay, a former employee of the municipality, who was a witness for the Council. Engineer Norrington was brought up from the Coast by the defendants.

After the evidence of the plaintiff was heard and that of the defendants was called, the municipal solicitors asked that the case be dismissed on certain legal technicalities, pointing out that the course laid down by law had not been followed by plaintiff. The court refused to give a decision on this point, preferring to reserve judgment till later, and ordered that the hearing for the defence be proceeded with. It is stated that judgment was given without the usual summing up of the evidence and argument of the defendants' solicitors.

When seen on Thursday afternoon by the Review, Mr McAlpine stated positively that he would take the case to the Court of Appeals, and declared that he was sure he would yet win. So sure, he said, was his solicitor of having the judgment reversed in the Court of Appeals, that he had at once voluntarily offered to forego his fees if he could not win the case for his client.

Car Shortage Affects Calgary Market.

The car shortage, which is general throughout Canada at the present time, is having a serious effect on the Calgary market, and until such time as cars are more plentiful there promises to be an acute shortage of B.C. fruit in Calgary.

Owing to the non-arrival of shipments the Calgary market is awfully short on apples, the supply falling far short of the demand. Calgary wholesale and brokerage houses are making every effort to cope with the situation, and while nothing definite has been arranged, it is hoped that next week will at least see an improvement in conditions.

The Fruit Commissioner's weekly report shows the arrivals of carlot apples in a week at Winnipeg to be 13 cars from B.C., 3 from Washington, 18 from Ontario and 9 from Nova Scotia. Arrivals at Saskatoon were 4 B.C. apples, 1 B.C. pears, 1 Ontario apples, 3 Nova Scotia apples and one of imported. During the early part of last week there were 7 cars of B.C. apples rolled into Calgary and 4 B.C. and 1 Washington into Edmonton.

Mid-Term Exams. In High School.

Standings As Furnished By The Principal.

The students in all three years of high school work have just completed their papers for the mid-term examination, the results of which help to decide their fates at the end of the school year. The score made by each pupil, as kindly furnished by Principal McIntosh, is shown below. In all three classes the possible score was 900, with the exception of the two who took partial matriculation, the possible in this being 400.

I.—PRELIMINARY.

L. Simpson, 788; H. Steuart, 781; L. Hargreaves, 760; Ida Shields, 709; J. Gayton, 695; A. Smith, 663; R. Barnes, 642; B. Munn, 634; M. Munro, 551; B. Taylor, 544; M. Bentley, 510.

II.—ADVANCED JUNIOR.

F. Lister, 645; J. Ritchie, 639; C. Henderson, 572; M. Hatfield, 568; D. Tingley, 566; G. Elsey, 554; K. Brown, 552; I. Carefoot, 544; G. Bowering, 536; J. Babbit, 481; A. Brown, 464.

III.—MATRICULATION.

S. Wallack, 649; B. Bristow, 642; R. Elsey, 599; R. Harrison, 506; D. Ritchie, 476; E. Lister, 418; D. McIntyre, 414.

PARTIAL MATRICULATION.

K. Elliott, 245; B. Vanderburg, 138.

Good Demand For Winter Variety Apples

With the season for McIntosh apples practically over, the public is turning its attention to the winter varieties, with the result that Wageneers, Jonathans, Winesaps, Rome Beauties, and other late varieties are much in demand on the prairies. McIntosh Reds arriving in Calgary are selling at \$2.25 No. 1s, \$2 for twos, and \$1.75 for threes. The other varieties are being wholesaled at from \$1.75 to \$2 per box. The market is exceptionally strong, and a shipments are being cleaned up immediately on arrival.

Kaleden Trustees Resign.

The trustees of the Kaleden School have all resigned office as a protest against the action of the education department in refusing to furnish sufficient supplies of cash to enable the trustees to carry on the work.

A Kaleden correspondent says: The government collects the school taxes and should either enforce payment or else provide from other sources the funds needed. To expect trustees to carry on without funds is simply farical and the Kaleden trustees decline to be made parties to such tomfoolery."

One Good Result From Car Shortage.

While B.C. growers are seriously affected by the car shortage, the same is equally true of the American shippers, and owing to the non-arrival of cars from across the border some Calgary wholesalers have cancelled their orders for C grade stock, and have substituted the B.C. product, hoping that the somewhat shorter haul would result in better service. If this should prove to be the case it should be of no small advantage to the British Columbia growers.

Alfalfa hay and Okanagan timothy hay are now wholesaling at \$25 per ton in Vancouver. Constantin brings \$2 less.

Cannot Convey from Peach Valley

Trustees Unable to Arrange to Send Rig to K.V.R. Station

Second Furnace Will Be Put In Right Away.

The Board of School Trustees find that they are not in a position to provide conveyance for the children living near the K.V.R. station and beyond on Paradise Flat. This conclusion was reached after considerable discussion, the question having arisen by the reading of a request from K.V.R. Agent Young that such accommodation be provided. There were present at this meeting on Tuesday, the regular monthly meeting, Chairman Dr Sawyer, Mrs Kelley and Mr Hilborn. An effort was made to devise some scheme that would permit the carrying of these children. It was pointed out by Secretary Logie that the government had made no provision for the conveyance of the children from all over the municipality but only from those points where schools had been maintained. The proposition that the Prairie Valley van go out to the station was considered impracticable, as it would add about a mile and a half to their drive morning and night and would necessitate their homes considerably earlier and arriving later at night.

Complaints had been received of the slowness of the conveyance bringing the children from the Giant's Head route and of the van leaving its starting point considerably ahead of schedule time. The Secretary was instructed to advise the contractor that he must adhere to schedule.

The purchase of a carload of soft coal from G. R. Hookham & Co. by the secretary at \$6.50 per ton was approved by the Board.

Mrs Lister put in an application for a position on the teaching staff in one of the junior departments whenever a vacancy occurred.

Trustee Hilborn reported that the contractor had not started to install the second furnace in the Central but he expected work to commence this week. The secretary was instructed to have the contractor sign the guarantee that the system would give satisfaction.

After inspecting and approving the following accounts the Board adjourned to the call of the Chairman. There had been passed at an earlier special meeting the balance of \$180 due the contractor on the first furnace installed at the Central, and an insurance account of \$150 due Mr W. J. Robinson.

Teachers' salaries	\$775.00
Secretary	10.00
Janitors	36.00
Conveyances	197.40
Convention Delegates' expenses	15.80
Summerland Supply Co.	16.50
S. Darkis	9.50
G. L. McWilliams	13.00
Sundry accounts	11.28
Total	\$1,088.08

Want Dominion Temperance Legislation.

The temperance forces of the different provinces in the Dominion are getting together on temperance legislation, and a conference is to hold at Ottawa toward the end of November at which the present provincial prohibition acts will be discussed and the weaknesses found in them, it is hoped, will be remedied by Dominion legislation, which will be sought as a result of the deliberations of the conference.

Could Have Been Advertised More.

More Penticton Entries and Visitors Might Have Come.

Visitors to the exhibition at Summerland speak very highly of the quality of fruit displayed, although they state that the number of exhibits was hardly as great as expected. There was a very small attendance from Penticton, as the people here knew little or nothing about the fair. No posters from Summerland were displayed here and no advertising was done; as a result most of the Pentictonites did not know there was a fair on in the town up the lake. The Summerland management might take a leaf out of the book of the Penticton Turf Club and make more use of printer's ink to attract the crowd. As it was, a fruit and stock show which had a great deal of merit was seen by less than a score of people from the Penticton and southern districts, a great many of whom would no doubt have been glad to attend had they known anything about the affair. The same applies to the Naramata exhibition, which was an excellent show, but had practically no Penticton visitors. Penticton Herald.

WEDDING.

Lees—Hayes.

A wedding round which rare local interest centred was solemnized last Saturday afternoon, November 4th, when Miss Anna R. Hayes, youngest daughter of Mr and Mrs W. H. Hayes, became the bride of Mr Colin W. Lees.

From a residence of about ten years in this community, Miss Hayes naturally came to be exceedingly well-known throughout the district, making many friends; while the groom, from the very fact of holding the principalship of the public schools of Summerland, has been more or less in the public eye since coming to Summerland two years ago. He hails from Ontario, coming west immediately after graduating from Queen's University.

The wedding took place at three-thirty, and only a small circle of near relatives and friends witnessed the nuptials. The ceremony was performed by Rev N. McNaughton, pastor of the Baptist Church. Pretty autumn flowers and foliage decorated the room where the marriage was held. The bride, took her station beside the groom escorted by her father, as the familiar wedding march was played by Miss Edna MacLeod. Gowned in white georgette crepe and wearing the customary tulle veil caught with a wreath of orange blossom, the bride appeared to charming advantage. She carried a lovely bouquet of white roses and carnations. Both the bride and groom were unattended during the ceremony.

The post nuptial arrangements had been altered shortly before the wedding owing to sudden bereavement in the family of the bride, and a reception that was to have been held did not take place. Congratulations were extended to Mr and Mrs Lees by the company, and on towards evening, after an informal wedding supper had been served, the bride and groom went off by motor to their home. They are residing in the D. L. Sutherland cottage on the property east of the orchard of which Mr Lees has himself become the owner.

There were many beautiful presents from relatives and friends, giving ample evidence of the wealth of good wishes that are extended to Mr and Mrs Lees as they embark upon their journey through life together.

Says Our Fruit Needs Publicity

Thos. Abriel Pays Tribute to Soil Products Show.

Should Make It Equivalent of Spokane Fair.

Thomas Abriel, president of the British Columbia Fruit Growers' Association, has returned to his home at Nakusp, B.C., from Calgary where he attended the Soil Products Exhibition which was held there two or three weeks ago. He is quite enthusiastic over the exhibition and says it should be made an annual event, for it affords the fruit growers of British Columbia an excellent opportunity to show to the people of the prairie provinces what fine apples can be grown in this prolific province.

"We, as growers, I am sorry to say, did not attach sufficient importance to the amount of advertising which we would receive from the show. Those of us who thought along such lines as these have made a mistake, considering the amount of money involved in an exhibition of this kind. I know of no other form of advertising in which we can obtain such excellent results at so little expense for the growers of British Columbia, with the exception of newspaper space," said Mr Abriel.

"The exhibition was much more than a local affair and now that it has established itself it will, no doubt, become an event of no small importance every year.

"I would suggest to the fruit growers of British Columbia that we make this Soil Products Exhibition an exhibition on a par with that which our neighbors south of the line have established with their Spokane apple show. We spend hundreds and hundreds of dollars on our little local fairs; why not spend some money on an apple show that will practically take in a large part of the three prairie provinces, for is it not on the prairies that we sell the largest part of our fruit crop? We must prepare now to carry out our part of the show every year."

Mr Abriel is known as the "Blueberry King" of British Columbia, for he is the largest shipper of this small berry in the province. He is a careful packer and is very particular as to the pack and grade. He is an advertising enthusiast and to whom belongs a large share of the credit for conceiving and carrying out of the Association's new policy of every fruit shipper contributing to an advertising fund \$1.00 for every car of fruit shipped from British Columbia.

Army Medical Corps

The Army Medical Training depot returned to Victoria this week. During the summer many men were trained as stretcher bearers and nursing orderlies, as well as clerks, for different clerical positions in the corps. During the stay at Vernon over 250 officers and men have proceeded overseas. The training will go on all winter in Victoria, and a medical unit will go overseas in early spring. Medical men are urgently needed, and one cannot serve his country in a better way than by joining the Army Medical Corps and helping his wounded and sick comrades. Mr M. Hayward, Bolgian Orchard Syndicate, Vernon, B.C., will supply all information on application.

When you telephone, let him hear the smile in your voice. He can't see the smile on your face.

FRIDAY, NOVEMBER 10, 1916.

THE BUSY WOMEN'S STANDPOINT.

IN DISCUSSING the matter of the home merchants versus the mail order houses lately, a lady frankly admitted that she ordered much of her family's needs from the catalogues of mail order houses. Her views should be illuminating to the merchants who aver that they have "no use for advertising."

"I am a busy woman," she said, "and the care of my house and family takes all my time. I am not able to get to town very often, and when I do my time is very limited. Where I came from I used to get all the clothing, boots and shoes and other necessities for the household from the local stores. I used to watch the advertisements in the local paper, and when I saw what I wanted, I knew that I could go and ask for the very thing I needed, and get it. The transaction took only a very few minutes, and I was able on most of my visits to town to get done all I wanted."

"This does not seem to be the case now," she went on, "and I have given up trying. I haven't the time to go and find out whether the stores have what I want or not. If they don't tell me, it isn't my place to go and find out. And it is easier for me and more satisfactory to take up a catalogue and see just what I want, than to try at the stores to learn if they can supply my needs or not. I know there are other women in my position. It isn't our fault that our good money goes to the mail order firms. They put right into my hands what goods they have to offer, and if the local men want my trade, let them do the same thing."

Is there not much good logic in this busy woman's argument?

§ § § § §

THE BOX SHOOK BUSINESS.

THE MANUFACTURE of boxes is no insignificant adjunct to the growing and shipping of fruit and the effort that is being made to keep that branch of the industry in the Valley is a highly commendable one and means much to the general prosperity of the district. To supply the packages for the carrying of the product of the orchards of Summerland alone to the widespread markets has required this season fully two million feet of lumber. This is a big lot of lumber, but the consumption of box material here is exceeded by two other districts of the Valley, namely Vernon and Kelowna. Consider with these the volume of output from such other points as Armstrong, Penticton, Peachland, Naramata and the many other important shipping centres all up and down the Valley, and one can perhaps gain some idea of the immense amount of lumber required for shooks and the sum of money it represents. The importance of keeping this industry at home will then be quite apparent.

That this is realized by the business people of Summerland is evident from the fact that practically all of the box material used here is of local manufacture. Peachland and Naramata are being supplied from the same source.

With the natural increase in crops next year that can reasonably be expected over the output of this season it is anticipated that the box mill will need to prepare for a local market for close to double the size of this year's requirements.

§ § § § §

THE CHICAGO TRIBUNE thinks the weekly newspaper promotes the interest in the town in which it is published to such an extent that it becomes impossible to place an estimate upon its worth. There is no enterprise, it says, that does so much for the corporation or the individual citizen as the newspaper. It stands opposed to the town knocker, the town kicker, the town fanatic, and the town drones. It stands for progress against stagnation. It is ever ready to obstruct the schemes of visionaries, and as ready to aid the constructive plans of wise and level-headed citizens. The paper has not yet come to its own, however, because it is never appreciated to the extent of its worth by the people at large. Yet when battles are to be fought for town or country a rush is made to the newspaper office always to find the loyal editor ready, frequently without hope of reward. Many other enterprises are encouraged by a bonus, but rarely is a newspaper offered such help, and still more often not given the support it is entitled to. Communities frequently lose sight of their benefactor when they fail to recognize the weekly journal as such. The editor and his paper stand as bulwarks of defence against the attacks of evil or designing schemes affecting the good of the individual or town. For these and other reasons the newspaper, town and country, should receive the support of the public at large in a very liberal degree, for it is really the most important business enterprise of the community.

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

CANADIAN PATRIOTIC FUND.

Summerland, B.C.,
November 6, 1916.

The Editor, Summerland Review.
Dear Sir:

Although we are at the best time of year as far as cash returns for crops are concerned, the monthly payments into the Canadian Patriotic Fund are becoming steadily smaller. In October only \$152.80 was paid in, which is the second lowest yet, July being the smallest on record at \$139.45.

The practice of sending out notices of arrears each month is an added expense which should not be necessary, and unfortunately is not often well replied to.

Unfortunately the war is not won yet, and may take a long time before it is, and in the meantime we should honestly continue in our responsibility of assisting the dependents of our fighting men.

I appeal once more to the people of Summerland to pay in their subscriptions as promptly each month as possible, as in doing so they not only enable dependents to receive their allowances regularly, but it will also be found less of a burden than if the amount is allowed to accumulate.

Yours truly,
E. B. MAY,
Hon. Treasurer.

Hospital Donations For October.

The Review has been asked to publicly acknowledge the following donations to the Summerland Hospital during October.

Mrs A. Moyes, Mrs A. Moreland, Mrs H. Smith, Mrs R. C. Lipsett, Mrs W. H. Hayes, Mrs W. H. A. Moore, canned fruit; St Stephen's Church Harvest Home, fruit, flowers and vegetables; Naramata Harvest Home, bread, fruit, flowers and vegetables; Arthur and Kenneth Gartrell, kickinies; Elsie Riley, fish and flowers; Marguerite Moreland, jelly; Lou Ding You, Chinese vegetable, old linen; Mrs Hespeler, five books, chicken and grapes; Dr R. C. Lipsett, cream, plants; Mrs W. M. Wright, grapes; Mrs Vaughan, oranges; Mrs A. Moyes, grapes; Mrs G. J. C. White, pears, squash; Mrs S. M. Young, grapes; Mr Downton, sausages; Mrs W. H. A. Moore, nine dozen water glass eggs, plants, drugs, vase; Mrs G. Anderson, cake; Mrs J. D. Wood, cake; Mrs T. Ramsay, biscuits; Mr G. Gray, box apples; Mr O. Vaughan, fruit; Mr A. A. Derrick, Mr T. Washington, Mr Alex. Stewart, H. H. Elsey, H. C. Mellor, W. Ritchie, Mr W. E. Rines, prize apples from show; Mrs Helmer, one sack potatoes, one sack beets, one sack pumpkin and two water melons; Aitchison Ranch, one sack potatoes and one sack onions.

The Board greatly appreciate the receipt of a donation of five dollars from Mr William Sauter, now with the United Producing Company at Calgary.

SOUND ADVICE.

A farmer who was carrying an express parcel from a city mail order house, was accosted by a local merchant: "Why don't you buy that bill of goods from me? I could have saved you the express, and besides you would have been patronizing a home store, which helps pay the taxes and builds up the locality." With characteristic frankness the farmer asked: "Why don't you patronize your home paper and advertise? I read it and didn't know you had the goods I have here."

Private Roy Darkis, who was in the 172nd Battalion till the severe illness, from which he is still convalescing, has been transferred according to official military orders to the M. H. C. C.

An American farmer experimenting with Burbank seed potatoes has succeeded in raising 400 bushels on less than three-quarters of an acre.

The farmers of Chilliwack are arranging for an Educational Show, at which experts on fruit, vegetables and grains will deliver addresses.

Official Pay of All Ranks in Canadian Army.

How much money the members of the various ranks draw each day is a subject which interests the civilian population. Here are the official rates, taken from militia orders. They include sustenance and field allowances:

Colonel	\$7.50
Lieutenant-Colonel	6.25
Major	5.00
Captain	3.75
Lieutenants	2.60
Paymaster	3.75
Adjutant Captain	4.25
Adjutant Lieutenants	3.10
Chaplain Captain	5.10
Quartermaster Captain	5.10
Warrant Officer	2.30
Regt. Sergeant Major	2.05
Regt. Quartermaster-Sergeant	1.85
Orderly Room Sergeant	1.70
Paymaster Sergeant	1.70
Battalion Sergeant-Major	1.80
Battalion Quartermaster-Sergt.	1.70
Sergeants	1.50
Corporals	1.20
Bombardiers	1.15
Privates, etc.	1.10

Among privates are included gunners, drivers, sappers, batmen, cooks, buglers, drummers, etc.—Exchange.

We act as if comfort and luxury were the chief requirements of life whereas all we need to make us really happy is something to be enthusiastic about.

Orchard and Farm:

Topics of Timely Interest and Helpfulness
in the complex Business of Farming.

Systematic Advertising Campaign of British Columbia Fruit.

Appropriation of One Dollar a Carload of Fruit or Acre of
Shrubs to Create Effective Fund for Aggressive
Campaign for Possession of
Western Markets.

The fruit growers of British Columbia are falling into line to advertise British Columbia fruit. The scheme was ratified at a meeting held in Kelowna recently, when the executive of the British Columbia Fruit Growers' Association completed the details for the carrying out of the campaign.

The proposal was first mooted at the annual meeting of the Association which was held in Victoria last March, and has been gradually taking shape ever since, the full scheme being formulated at the Kelowna conference.

All the shipping organizations will contribute to this fund \$1 for every car of fruit shipped from their packing houses. The small fruit growers will contribute \$1 per acre, for generally speaking they are not carlot shippers, although the Creston, Mission-Hatzie and Gordon Head berry growers ship in carlots.

This fund will be devoted to the advertising of British Columbia fruit, principally in the logical market for our fruits, namely, the prairie provinces. Vancouver is a consumer of altogether too much American fruit, and the campaign will also be waged there.

Last year a very successful advertising campaign was carried out, which resulted in fruit from the Pacific Coast province being much more widely known and used than heretofore.

"It is not this year that we must think about," said the president, Mr Thomas Abriel, "but in the years to come, when our production of fruit has materially increased, we will have a fund that we can use to excellent advantage in telling the consuming public what we have to offer. Our fund this year will not be very large, but on the dollar a car basis it will grow yearly with the production, and then our fund will always be equal to the supply as it is at the present time.

"We must educate the public to ask for British Columbia fruit, not simply for 'fruit,'" continued Mr Abriel. "When the average housewife buys oranges and lemons she does not ask for plain oranges and lemons in the majority of cases, but asks for and demands a certain brand of oranges and lemons, because she has come to know this brand through a judicious use of printer's ink."

Mr Abriel pointed out that, as the association had begun an advertising campaign, to stop for one single season would mean that all the goodwill which has been secured for our fruit will be lost, for the public soon forgets if a commodity looking for buyers is not kept continually in the lime light.

"This year we have done considerable advertising on small and soft fruits, and have used a large number of mediums in the prairie provinces and at the Coast. This advertising has been written and placed by the markets commissioners of the department of agriculture, and has already brought excellent results.

"Thousands of B.C. fruit booklets have been distributed so far this season and before the snow flies on the prairies we will have distributed 30,000 of these little booklets. This booklet has been sought by thousands of housewives, who proclaim it to be one of the best of its kind yet printed, and other advertisers have complimented us on this feature of the campaign. This booklet helps to link up the consumer with the fruit grower after the newspaper and magazine advertising has done its part.

"Apples will be advertised extensively," said Mr Abriel, "and our campaign is expected to eclipse that of last season. To make this campaign a great big success every fruit grower in the province should give it his support, and I know they will, for by accumulative effort we will accomplish that for which we are aiming—namely, a wider and better distribution of British Columbia fruits.

"We grow the best fruit in the world, but we must advertise it to reap the rewards which we should," concluded Mr Abriel.

The scheme as outlined above was given much consideration and was finally adopted by the executive. The fruit shippers of the province, with hardly an exception, have taken up with the idea enthusiastically and have sent in their contributions to the general fund, which will grow as the production of fruit increases. Advertising is the life of any business, and no one knows that better than the fruit growers of British Columbia. They have found that the judicious use of printer's ink pays big returns, and that is why they are planning to increase their appropriation yearly as they have now decided.

Diseased Potatoes May Bring on Embargo

U.S. Government Will Not Tolerate Importation of Bad Tubers.

The Department of Agriculture at Ottawa has been notified by United States authorities of the rejection of potato shipments at a number of border points where the Canadian grown potatoes were seeking entry into American markets. To the credit of British Columbia it must be said that there have not been any rejections worth reporting at points of inspection in this province, although it is possible of course that a few B.C. tubers are among those being complained of.

The reason for the rejections is said to be the fact that the potatoes were diseased. It is pointed out that at the conclusion a year ago of conferences between the minister of agriculture and the authorities at Washington an agreement was reached whereby there should be a

free interchange of potatoes between the two countries, providing the potatoes were free from scab or insect pests. It is now contended, therefore, that exports must depend upon the growers themselves. The scarcity of the potato crop in Canada will forbid much export this year, but it is pointed out if farmers desire to take advantage of heavy export trade in the future they should not prejudice the market by shipping diseased potatoes.

Mr R. C. Abbott, Coast Markets Commissioner, has ascertained by telegraphing to Washington that no embargo has as yet been declared against Canadian potatoes.

Even a first-class phonograph may be ashamed of its record.

Designed this year it will ornament and enhance the good appearance of the tidiest kitchen in all Canada.

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

NO ALUM

Naramata Has Seepage Troubles

Mr R. H. King, Mrs E. Wells and Mrs T. I. Williams, owners of fruit ranches on some of the lower levels of the bench lots, have seen fit to call the attention of the authorities to very noticeable and serious seepages from properties situated on the higher levels. The district engineer has the difficulty in hand and it is hoped that an adjustment will be effected without recourse to legal proceedings.

Women's Institute Meeting.

The regular monthly meeting of the Women's Institute was held in the Unity Club parlors on Tuesday afternoon last, with a large attendance present. The convenors of the different committees who took charge of the fruit and flower show all report a splendid showing and a most successful day along financial lines. The sales table for returned soldiers brought in nearly thirty dollars, the refreshment booth \$18.40, the

Red Cross tags \$18.80. The different prize winners have all been awarded their prizes by the treasurer, Mrs H. Rounds. A unique feature of the afternoon's program was the response to the roll call. Instead of each one present simply responding by answering "here," or "present," as we all did in the early days at school, each member stated some specific thing for which she was thankful, several of whom responded by saying they were thankful their boys in France were still alive and well. In the absence of Mrs Aikins, Miss M. S. Gordon acted as secretary.

Current Events - OF - Town & District

Mr and Mrs George Cook have moved down town again for the winter season.

Mrs Clarence Craig and little one of West Summerland, is visiting Mr and Mrs R. H. King for a while.

Miss Edith Hayward, after an extended visit with her parents, has returned to Kelowna to resume her office duties.

Quite a crowd of Naramatans went down to Penticton on Monday evening by ferry to attend the show, "The Birth of a Nation."

Mrs F. J. Languedoc left Naramata one day last week en route for Grand Forks, B.C., where she will be visiting friends for a fortnight or more.

The High School pupils who have been following the somewhat lucrative business of fruit packing during the rush of the apple season, have again resumed their classes, much to the satisfaction of their teacher, Principal Rayner.

Naramata Current Events (Continued).

Mr and Mrs J. C. Lyons are anticipating a trip to Coast cities in the course of a few weeks.

Mr and Mrs. James Dean and baby boy are spending the winter months with friends in Victoria and Vancouver.

Word has been received from Mr and Mrs A. H. Mulford that they are now comfortably situated in their new home in Vernon.

Will the members and friends of the W.C.T.U. not forget the regular monthly meeting at the home of Mrs Jas. Myers on Tuesday, November 14th.

Hon Mr Heneage paid the Boy Scouts a visit on Monday afternoon last, reviewing them in the Scout Hall and giving the boys some sound advice along Scout lines.

Mr F. H. Rounds and son Wesley were business visitors to Fairview and Okanagan Falls on Saturday last. While there Mr Rounds purchased a very fine cow.

The large number of our citizens at present holidaying at the Coast cities has given rise to the suspicion that there must be more or less money in the fruit business.

The season of mists and shadows has at last set in. But after such an unusually lengthy spell of dry weather, the showers of the past few days were welcomed by young and old.

Bugler Arthur Stiff of the 102nd Regiment is expected in Naramata, his old home town, to spend a short holiday after his strenuous life in the military camp for several months.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

Late Peachland Paragraphs.

Mr Cousins has returned to Alberta, having boarded the boat on Friday morning last.

Mrs Henry Burch of Kelowna is visiting her sisters here. Mrs J. Wright and Mrs J. L. Elliott.

Mr Theodore Scott has returned from the Vernon Camp where he had been engaged in work with the military branch of the Y.M.C.A.

At the manse here on Saturday last Miss Grace White, adopted daughter of Mr Geo. McLure was united in marriage to Mr Geo. Chamberlain of Kelowna.

At the regular monthly meeting of the local branch of the Okanagan Ambulance League, the resignation of Mrs J. L. Vicary, president, now at the Coast, was received. Mrs J. Seaton was elected to the vacancy.

Trying to do business without advertising is like winking at a pretty girl through a pair of green goggles. You know what you are doing, but nobody else does.

Passing Events: Social, Personal, &c.

Mr and Mrs Hilborn leave early next week for a visit of a few weeks at the Coast.

Mr Sheldon, of Leamington, Ont. a former neighbor, is this week the guest of Mr and Mrs A. McLachlan.

Both the high schools inspector, Mr Delong, and Mr Anstey, who holds the same position as regards the public schools, are in the district this week in their official capacities.

Mr O. E. Tomlin is taking over the general store business at Kaleden formerly operated by Mr D. D. Lapsley, and will also have charge of the Post Office there. Mr and Mrs Lapsley are moving to the Coast.

Mr George Doherty, who recently returned from Richlands, B.C., has taken up residence on the Adamson lot on Jones Flat, of which property he will be in charge. The Adamson holdings include also a lot in Garnett Valley.

Don't forget to help the soldiers by attending the Dance on November 17th. A comfortable sitting room has been arranged for cards. Also an unusual program. Naramata orchestra. Tickets 75 cents, including supper. 15

Mr C. W. Jones of Calgary is spending to-day at the home of his son, Mr E. A. Jones. He arrived from Kelowna where he has been staying for some months, on Thursday evening's boat, and is proceeding on to-day by K.V.R. to Portland, Oregon.

In addition to the other duties pertaining to his work as Indian Agent for the Okanagan Band, Mr J. R. Brown, along with others who hold similar positions all over the province, has been appointed to act as a registrar for the purpose of marrying Indians only.

Mr and Mrs W. R. Rourke, former citizens of Vernon, who for the past two or three years have been living at Kaleden, have resumed their residence in this city. Mr Rourke has accepted the position which he formerly held as accountant with the S. C. Smith Lumber Company. --Vernon News.

The Review is in receipt of a short anonymous poem entitled "Ladies, Peruse This." It is signed only by "A Mere Man." It is not the practice of the Review, or any other newspaper for that matter, to take any cognizance of anonymous contributions, but we shall be glad to learn the authorship of this poetical effort:

It is stated that Mr Jas. Ritchie plans on coming up from the Coast next week to arrange for the removal of his effects to Vancouver. He will also take his heavy team, which he will put to work there, Mr Dockstader, the present teamster in charge, removing with his family to the Coast to continue with Mr Ritchie.

J. T. Washington was the winner of the second prize for the best white potatoes at the Fall Fair. Those were grown from seed sent him by his brother in England, who makes a specialty of growing potatoes. He was defeated by Wm. Ritchie who won on potatoes grown from seed from the same source brought here a year earlier.

Mrs W. P. Racey arrived in Summerland this week on her way back from a trip to the Coast, and is at present visiting with her mother, Mrs D. H. Watson. Mr Racey having returned from the Coast by another route, motored up from Oroville hoping to see Mrs. Racey here, but the Coast train being late, he had to return before she arrived.

A most successful chicken pie supper and social entertainment was held last night in the Methodist Church, the members of the Ladies' Aid being the hostesses. There were a large number of citizens who enjoyed the good things to eat, and from the dining rooms they repaired to the main auditorium where a splendid program was put on, including a shadow play a tableau, and several musical numbers. The proceeds will total fully \$60.

Mr and Mrs C. J. Duncan purpose leaving next week for a visit of several weeks at the Coast.

Mr John McLean left here early this week to join his family in Montreal where he will spend the winter.

No less than eighty-five parcels were sent off on Thursday by the Home Comfort Club addressed to Summerland's soldiers overseas. This is all the parcels that had been completed, there being a half dozen or more to be sent off yet.

Arthur J. Theobald, of Peachland is mentioned in recent casualty lists as among the missing. Pte. Theobald was known to many by the name of Brown. His friends in the Okanagan will await anxiously hoping to learn that he is in good health at least.

Mr Douglas Brown, formerly principal of the Central School here and latterly of the Quesnel School has resigned his charge there, according to information received here from Rev. C. H. Daly, and gone to Vancouver for the purpose of enlisting.

A field service post card received from Pte. Reuben Randall of the 103rd Battalion, by the Home Comfort Club, intimates that he is quite well thus far, and that he has just received one of the ever-welcome parcels, for which he will make fuller acknowledgment later.

Mrs C. N. Borton and family left this week for Vancouver, where she will reside close to her sister, Mrs Chas. Phinney. Her husband, Sergeant Borton, who went overseas with the 103rd Battalion, is either now in France, or in anticipation of crossing immediately.

The Summerland Women's Institute will hold their regular meeting next Friday afternoon at 3 o'clock in the Men's Club. Roll call will be answered by quotations from Browning. Miss Aitchison will give "A Talk on Pictures," and Mrs Angwin will lead the discussion. Then there will be a camisole competition, and it is hoped that each member will enter this.

The funds of the Home Comfort Club will be considerably increased as a result of the special effort of the local merchants this week. Just what the total will be could not be learned, as but few of the contributions had yet reached the treasurer of the club. One cheque of handsome proportions had been received from the Summerland Supply Co., the amount of this being \$20.

Former friends and acquaintances here of Mr E. A. Eagle, who at one time conducted a grocery business here, will be interested in learning that he has retired from business in Port George and is leaving for Vancouver. He has also resigned his position on the civic board of aldermen. It is reported that he is a highly esteemed citizen of the northern city, and that he has prospered there.

A car of "orchard run" apples is being shipped this week to the prairies by A. A. Derrick.

There has been organized this week a five hundred club whose purpose it is to meet weekly in St Stephen's Hall.

Rev H. G. Estabrook will be the speaker at the morning service in St Andrew's Church next Sunday. At the evening service Dr Sawyer will preach, while Mr Estabrook will address the evening congregation in the Lakeside Church.

The shipment of jam for the soldiers will be sent off next Thursday, and this last appeal is made in order that all contributions may be brought to the Parish Hall in time for packing. It is hoped that none who intend contributing will overlook this.

In this issue of the Review, the provincial government makes a call for tenders for the erection of the new primary school at Trout Creek. There has not been a great deal of building activity in the district of late, and this provides an opportunity for local builders to get a good contract. It would be a thousand pities to see a job like this to go to an outside contractor.

Mr L. S. Melrose left here last Thursday with two cars of horses, etc., for his newly acquired ranch at Innisfail, Alta. Mrs Melrose and the children remained until this morning when they boarded the boat for the prairie province. A good citizen and a good neighbor, it is much to be regretted that Mr Melrose could not find sufficient scope here for his specialty, the breeding of heavy pure bred horses.

Mr D. H. Watson, who has been acting as a salesman for the Okanagan United Growers all the summer, with headquarters at Edmonton, is not expected to return home immediately, according to information gleaned from his family here. It is learned that Mr Watson is no longer connected with the United Growers, and that he may be establishing himself in business on his own account, in which case the expectation is that he would remain in Edmonton indefinitely.

The appointment of Lieutenant-Colonel R. Cartwright, C.M.G., of this place to the headquarters staff at Work Point Barracks, Victoria, as musketry instructor, has been announced in official orders. Col. Cartwright is a son of the late Sir Richard Cartwright, and prior to his retirement eight or nine years ago he was director-general of musketry for Canada. It was then he came to Summerland. At the outbreak of war he offered his services to the authorities, and for two summers has been engaged in musketry work at Vernon and Sydney, Vancouver Island. Col. Cartwright came down from Vernon early this week, and having spent a few days at his home here, is leaving for the Coast immediately. Mrs Cartwright will accompany her husband.

Weather Report

Abstract from weather records for October, 1916, kept at the Government Station, Balcomo Ranch, Summerland, B.C.

Table with columns: Oct., Maximum, Minimum, Readings, Sunshine hr. min., Rainfall (Inches). Rows include dates 1-31 and averages for 1916 and 1915.

Slide Interrupts K.V. Train Service.

It was not until late this morning that the K.V.R. train due here from the Coast at 6.25 a.m. Thursday pulled in. The delay was caused by a slide of unusually large proportions in the Coquihalla Pass. So completely was traffic over the new line blocked that it was necessary finally to divert the east-bound train by way of the main C.P.R. line to Spences Bridge and via Merritt to Princeton. Little could be learned to-day of the train due here this morning, but as we are going to press Agent Young informed the Review that No. 2 due this morning was also coming via Spences Bridge.

Telegraph service has also been interrupted, but it has been inferred from late news over the line that the line through the pass will soon be cleared and to-morrow's train may come by that route. Westbound trains have also been going via Merritt and Spences Bridge.

Miss Kathleen Henderson was a visitor to Peachland early this week, motoring up with Rev. H. A. Solly.

Rev. H. A. Solly was at Peachland the first of this week on one of his periodical visits to that section of his field.

Sergeant F. A. C. Wright, who very recently returned home here after a long spell of service at the front, and a period of rest and convalescence in England, has gone out to Victoria, leaving this morning. He went in response to an official summons, for what duties he did not know.

The young people of the Baptist Church and the congregation generally held a very enjoyable social affair on Monday evening of this week at the Misses Spencer. The object was to help provide the necessary contents for Christmas parcels to be sent to the score or so of soldiers on the church roll of service.

Happily there seems to be no foundation for the report that was current in the district early this week that Private Jack Kennedy has been killed in action. So far as can be learned no one has actually seen the casualty reported, and despite the fact that Private Kennedy was noted in the Vernon News as having been killed, it seems that the story is only hearsay, though the rumor did seem to be quite well circulated last weekend.

The social and whist drive held on Thursday evening in the Parish Hall was not very well attended, but those who were there felt it was well worth while in every way. The chief attractions was an informal talk by Sergeant F. A. C. Wright, who has but recently been invalided home from service in Europe. He told of what he termed "A Quiet Day in the Trenches," taking a typical day's experiences from dawn till dark. It may have been a quiet one to the soldiers, but it sounded very eventful indeed as it was related. Sergeant Wright described trench life very clearly and concisely, and those who were listeners gained a most intimate acquaintance with the life of the soldiers who are fighting over in France. Cards were played during the evening, and refreshments were served. The proceeds amounted to about \$7.

Even if the rainy season has passed it is not wise to go far in a canoe before learning to swim.

Apples Are Nourishing.

When we eat an apple we take just the right dose of iron the blood needs, and the one in poor health will get iron in an apple which is more easily absorbed by the blood than in any preparation made by the chemist. Lime is also found in the apple in the same form as it is found in our bones. And nature has also placed quite a nice little dose of magnesia in the apple. This keeps off rheumatism by purifying the blood. Sulphur is found in the apple as well and has an especial effect on blood and skin diseases. The sugars found in the apple are the most nourishing part of the fruit and these sugars are just crystallized sunshine and are far more digestible than any ordinary sugar. Fruit helps us on the road to health. Apples in particular.

"Just What a Soldier Needs."

Home Comfort Club Parcels Are Warmly Welcomed.

B.E.F., France. / Oct. 15, 1916.

Dear Mrs Hogg:
Your parcel from the Home Comfort Club arrived some time ago, and I am really ashamed of myself for not acknowledging it sooner.

We have been running a divisional hospital for over a month, and I have been kept pretty busy while my correspondence glided.

I am indeed very grateful to you and the other ladies of the Home Comfort Club for your trouble and thought for us boys over here. Our unit has not done any great work yet, but that is our misfortune, so far we have not been needed, but when the time comes that we will be needed, we will all be found ready and willing for whatever we can do.

We will all be glad when the war is over and we are home again, but until that pleasure is ours we will always be ready.

I wish the Home Comfort Club every success in their good work which we all appreciate very much.

Yours sincerely,
HAROLD HILBORN.

Cheriton, Shorncliffe, Kent.

Dear Mrs Hogg,
I have just received a letter from Mabel and she tells me you have received no word from the box the Home Comfort Society sent to me. I am very sorry indeed that this letter should have been lost, for I appreciated your kindness very much indeed, also about a dozen other fellows who helped to do away with your gifts join me in thanking you one and all for your work.

After about a year of hospital work I am again living under canvas and am forming fours most of the time with lectures when the weather is bad. Again thanking you all for your work.

I remain as ever,
Yours truly,
J. R. GRAHAM.

Cheriton Camp, Shorncliffe, Kent. October 16th, 1916.

Dear Mrs Hogg,
I am writing to thank you very much for the parcel from your club. It came as a surprise and a very pleasant one too. It was rather funny that it should have come the very day I returned to camp from special duty in London, and the very day that I needed it. As other soldiers from Summerland have said in their letters, the first

Newsy Paragraphs from PEACHLAND

The Presbyterian ladies are hoping to have pretty things to offer the public of Peachland on the 22nd of November. People always like a few pretty things for Christmas, even in hard times.

The Home Comfort Club took in \$66 at their sale of work, etc., last Friday. Besides this sum \$17 has been contributed. We hope all our boys at the front will get a good cheer parcel at Christmas, with which our best wishes go, and a speedy homecoming to them all!

Peachland was much saddened by a cable on Saturday to Mr Urquhart, which said that Harry Urquhart, his grandson, had been severely wounded in France. Another cable on Monday said that Harry is seriously ill. We hope he may recover. Harry is one of Peachland's favorite boys.

The Red Cross girls had an evening last week, and took in \$16. The profits go to the Y.M.C.A., we believe, a very good object. The Y.M.C.A. are doing much for the comfort of our boys at the front, and we are all glad to give our "bits" to anything that will help in comforts for them. The wish of everybody is that they could give more.

May Hang On Too Long.

Oregon farmers who are now refusing to sell their produce for love or money, and who evidently believe that prices will go still higher, would do well to watch out. There may be several other thousand farmers harboring the same idea, but who at the same time may take a notion to unload all at once at some unexpected time in the near future. In this event, where would the Oregon producer find himself? —Exchange.

Some women are awfully touchy. A widow has brought an action against a paper which said that her husband had gone to a happier home.

thing that strikes one is that each and every article is just what a soldier needs, and I must say that your club has done wonders, judging by the letters I see in the Review.

Thanking you again for remembering me in this way,
I am,

Yours very sincerely,
PHILIP AGUR.

DEPARTMENT OF WORKS.

NOTICE TO CONTRACTORS.

TROUT CREEK SCHOOL.

SEALED TENDERS, superscribed "Tender for Trout Creek School," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Tuesday, the 28th day of November, 1916, for the erection and completion of a small one-room school-house and out-buildings at Trout Creek, in Summerland Municipality, and the South Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 9th day of November, 1916, at the office of L. Norris, Government Agent, Vernon; J. Mahoney, Government Agent, Court-house, Vancouver; J. L. Logie, Secretary of School Board, West Summerland; and the Department of Public Works, Victoria.

By application to the undersigned contractors may obtain one copy of the plans and specifications for the sum of ten dollars (\$10), which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to 20 per cent. of tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques of unsuccessful tenderors will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderor, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITHS,
Deputy Minister and Public Works Engineer.

Department of Public Works, Victoria, B.C., November 2nd, 1916. 15 16 17

Community Hygiene.

The awakening of the civic sanitary conscience has produced a strong demand among progressive schools for books that teach children how to be good citizens. "Community Hygiene," by Woods Hutchinson, A.M., M.D., State Health Officer of Oregon, meets this need. The book deals with sanitation in the home, school and community and teaches the best sanitary practice. The purpose and plan of the book is to make the child a useful member of society, eager to promote its health, strength and happiness in every possible way. The author has an international reputation as an authority on hygiene and civic sanitation.

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 9, No. 16. Whole No. 433.

SUMMERLAND, B.C., NOVEMBER 17, 1916.

\$2.00, payable in advance

Council Buying Back Debentures

Block of 1910 Issue Available at 84.75 Will Be Bought Up.

Councillors Appointed to Revise Voters' List.

Three thousand dollars of the municipal sinking fund now on deposit in the bank, earning but three per cent interest, is to be used to retire some of the thirty year debentures issued in 1910. This was decided upon at the regular monthly meeting of the Council on Friday last. C. Meredith & Co., the Toronto brokers, have offered a block of these bonds to the municipality at the very favorable price of 84.75, and the Council were not long in passing a resolution to accept the offer.

Coun. Johnston, Chairman of the Public Works Committee, told of visiting some of the storage dams. He recommended that a trail between Fish Lake and the headwaters of Eneas Creek, recently cut through by Deputy Game Warden Gartrell, be cleared of fallen trees and improved. This would afford a much shorter route to the dam at the head of Eneas Creek than going by way of Peachland, and from there the headwaters of Trout Creek could also be reached. He recommended further that a cabin be built at each of these two dams. It will be necessary to do some work on both these dams next spring.

Another report submitted by Coun. Johnston was to the effect that the poles complained of by Mr W. C. Kelley as having been cut by the municipal employees and allowed to fall on his fence had not been cut by any municipal employee.

A resolution from Vancouver asking that the provincial highways from Hope to Princeton and from Cascade to Roseland be built, was endorsed by the Council.

Reeve Blair and Couns. Johnston and Campbell were appointed to sit as a court of revision to revise the local electoral list. The question of how to realize on the various lots purchased by the municipality at tax sale was discussed at some length. A special meeting will be held at an early date to finally decide on some form of action. In the meantime the Clerk will prepare and put in the hands of each councillor a list with description and full particulars of each parcel of land now held by the municipality. The opinion was expressed that if these properties were now offered for positive sale people would bid at auction or submit tenders when they would not be interested

(Continued on page 5.)

Shipments Ahead of Last Year.

An indication that the apple crop of the Okanagan this year is much ahead of last is seen in the fact that up to November 2nd, the Okanagan United Growers had shipped more cars from the Valley this season than up to the same time last year. 1,237 cars of fruit and vegetables have been shipped up to the date mentioned. It must be remembered that soft fruit shipments from the Valley in 1916 were much below those of 1915, so that to catch up in the number of carloads indicates a great increase must have taken place in other lines, and it is in apples that this increase is most apparent.

Goodly Sum For Belgian Children

Local Schools Do Well In Effort For Worthy Cause.

The children of the Summerland schools are contributing to the fund for the suffering Belgian children on a larger scale per capita than any other school in the province. This is the opinion of the teachers of the schools here, now that the total contributions have been made up and forwarded. Including the proceeds of the entertainment last Friday afternoon at the Central School, and one on a smaller scale at the Town School this week, the sum of \$150 has been made up, and forwarded to the Department of Education as the contribution from the local schools.

This amount has been collected from 160 or 170 pupils, which places the per head contribution at almost one dollar.

\$46.19 was the total amount realized from the event at the Central School last Friday afternoon. Interested parents and others turned out in good numbers to enjoy what had been arranged, which is an encouragement alike to teachers and scholars in such undertakings. The proceeds were made up of a fifteen cent admission fee and a ten cent charge made for afternoon tea served by the girl scholars.

The programs mapped out for the different rooms were all carried out as arranged. It was necessary to commence quite early in the afternoon, so that some of the visitors missed the concerts which were given in the junior rooms, under the direction of Miss Ballantyne and Miss Brown. Time was found during the afternoon to repeat these, however, and the young performers gave a good account of themselves each time, with their songs, choruses, recitations, and such like. In Miss Rothwell's room a wonderful collection of curios was on show. These had been kindly lent by different people, and comprised a most interesting collection, relics and travel mementoes from all parts of the world being among the exhibits of this museum. The scholars of this class were kept busy explaining to the visitors what the curios were, and most people were astonished to find such a varied and interesting collection had been gathered up locally. In the senior room a picture gallery was the attraction, reproductions of some of the masterpieces, portraits of great artists, and art pictures generally being shown. Here again explanations were furnished by the pupils.

In its way, the whole entertainment was quite unique, and as such deserves special mention.

On Wednesday afternoon of this week a concert was given at the Town School by its pupils, under the direction of Miss Lister. From the contributions of the children themselves, sale of candy, admission, and other sources, the sum of \$10.04 was realized as the school's contribution to the fund for the Belgian children. There was a fine program of items well presented, bespeaking the fact that much hard work had been put into the preparation of the affair, and the parents who attended were duly appreciative of this.

During the first eight days of the month two cars of imported apples and two cars of B.C. apples were received in Regina. At Moose Jaw for the first week only one car of B.C. apples and one of Washington apples were received.

Movement Made For Better Roads

Board of Trade Appoint Committee to Co-Operate With Municipal Council.

Question of Good Roads Discussed in Various Phases.

How best to effect immediate needed repairs to the roads of the district and also to inaugurate and carry out a plan of construction of permanent roads was the principal subject of discussion at the regular meeting of the Board of Trade held on Tuesday evening in Campbell's Hall. The notice sent out to members last week-end conveyed the announcement of the subject for discussion, and intimated that all rate-payers would be welcome. The attendance, though not large, was fairly representative, and included a few citizens who were not members of the board.

Among the communications read was one from Hon. Martin Burrell, which encouraged the hope that the public wharf would soon be properly lighted.

While there was some criticism of the policy of the Council as regards roads, general expressions of appreciation of the efforts of that body to serve the community as best they could with the means available were heard.

Chairman F. W. Andrew asked at the opening of the discussion that local politics be avoided, and that attention be given to outlining a proposition of co-operation with the Municipal Council. Upon motion, proposed by Mr Helmer, the courtesy of the floor was extended to those present not members of the board.

Mr Helmer declared that two things were essential to the community—water and good roads. This year the Council had done well in supplying the former. He had heard no complaints, and with the means available the Council had done well to give water first consideration. He suggested co-operation with the Council to bring about better roads.

Mr S. M. Young declared that if all citizens did as he had done for years past there would be no poor roads. He had improved and kept up the road passing his property, sowing the roadsides. Just why the municipality had sent a team there and plowed and scraped the road and dumped the earth on the roadside he could not understand. That piece of road was now in worse shape than it had been for years. This had always been the best piece on that road, and he would like to know why the money had not been spent somewhere else.

Mr O. F. Zimmerman, who has taken a prominent part in the good roads movement, said the Council had done wonders in providing the municipality with the best water system in the Valley, but they would still need to spend a lot of money each year, and there would not be money enough to give the roads the desired attention. He urged that the citizens get together and assist the Council. He suggested that the Council permit all those in arrears with taxes, say two years, to work out the amount on the roads. He would also like to see every man in the district put in a day or two on the roads free of charge, under proper supervision. Only repair work could be done now, but shale could be hauled and spread.

That we cannot have good roads unless they are repaired and rebuilt under a competent person who would see that proper means are

Praises For Our Local Hospital

Westbank Patient Speaks Highly of Treatment Here.

The Westbank correspondent of the Vernon News writes as follows: Mr Ernest Smith arrived home on Saturday morning. One of the first salutes he received was, "If it weren't for your color we wouldn't know you had been sick!" This is nothing at which to wonder after passing through the experienced hands of Dr Andrew and staff. The usual length of time for a case of appendicitis is six weeks, but Mr Smith is around in five weeks, which pays great credit to the Summerland Hospital. Mr Smith says he was treated more as one of a family than as a patient in a hospital, and that everything in the way of comfort was carefully looked after by the attendants. The hospital is in a lovely situation, from which a long stretch of the lake and the K.V. railway can be seen. Mr Smith cannot speak too highly of the attention he received at Summerland, and has almost decided to get sick again and make tracks for the hospital there!

Heating Trouble Causes Panic

Extremes of temperature seem to be the only thing possible at the Central School. And shivering cold is preferred to the heat as it was served up to the teachers and pupils on Wednesday. For a time excitement ran high when boiling water and steam burst forth under high pressure and shook the building like an earthquake. Fearing the worst the pupils were ordered to vacate the building and not to stop to save anything.

Since the cold weather set in the rooms have much of the time been very uncomfortable, some days the highest the thermometers could be induced to register being scarcely fifty degrees. The trouble is that the new heating system is not yet complete. One furnace was put in some weeks ago, and the second ordered, and lately everything was made ready for the second furnace. Asked by the Review the reason of the delay, the contractor explained that he had had the furnace on order to ship from Vancouver, but when the hitch occurred at the meeting of the Board the furnace was allowed to go to another customer. As soon as the Board decided

(Continued on page 5.)

used to take care of water was the opinion of Mr C. N. Higgin, who said that numerous culverts were needed.

That the taxes in arrears had already been borrowed against and could not be counted upon for much was the opinion of Mr W. M. Wright. A definite plan and fixed policy must first be adopted. First was a competent head. We have a man right here in our midst, one well qualified to carry through the work in the person of Coun. Campbell, and if he could be persuaded to undertake the work he should not be expected to work for nothing. Mr Campbell had had considerable experience in the east where he had acquired quite a reputation as a builder of good roads. Mr Wright suggested that a plan be laid out for permanent roads, and a portion built each year. Many citizens would gladly work free under such a plan on portions near their own places.

The chairman said the Council had stated that if the taxes were better paid they would have more

(Continued on Page 2.)

Welsh Singers Draw Big Crowd

Give Two Concerts and Prove Themselves Artistes of First Water.

Thanks of Citizens Due to Hospital Society.

The coming of the Royal Gwent Welsh Singers to Summerland last Saturday night proved a musical attraction of the first order. It is a long time since anything of the same class has appeared in Empire Hall. Apparently the people of the district realized this for the hall was crowded as it very seldom is. A great deal was expected of a musical aggregation with such a reputation behind it, but few in the audience felt any disappointment.

There is a lure about male voice music that draws people, even those who do not pride themselves on being musical to the finger-tips. Add to this the fact that the Welsh Singers' performance was undoubtedly first-class and one gets the reason for the high pitch of enthusiasm that was worked up in all those who heard them.

The singers numbered ten with an accompanist, under the leadership of Mr David John. With the voices completely under the control of the leader's baton, and with the singers displaying a professional confidence, every number was a finished product. The former characteristic was especially apparent in the ensemble selections. These included the massive "Hallelujah Chorus" from Handel's "Messiah," an ambitious attempt, one would think for less than a dozen voices, but nevertheless admirably carried through in all particulars. Other full selections were a number of sweet part songs, and some more robust selections, including the stirring "Marseillaise," March of the Men of Harlech, and Welsh National Anthem. There were only two solos on the program, a baritone, "Roses," and a tenor, "The Sunshine of Your Smile." The latter was encored, and the response brought the well-known "When Irish Eyes are Smiling." Another song, of a humorous nature was "Jimmy Iaw," in which that personage was being asked to make someone the loan of his saw—the question being asked, the singer explained, in the manner of the oratorio. It was some time before the audience got over the laughter arising from this piece.

There were also some duets and trios, both humorous and serious, which were all of a high musical standard.

On Sunday the Welsh Singers gave a sacred concert in St Andrew's Church, and a few people who had not heard the performance of the previous evening, and many who had, helped to crowd the church. Here again a splendid variety of music was given, and met with due appreciation. The ensemble selections on this occasion were "The Crusaders," "The Storm," "Destruction of Gaza," "Hallelujah Chorus," "Land Kindly Light," an old Welsh selection, "The Tune of the Bottle," a part song, "In the Sweet By and By," and an anthem, "Holy Art Thou," to the music of Handel's Largo. Two solos were given, "When I Survey the Wondrous Cross," and "Open the Gates of the Temple," the latter an especially fine effort. An old Welsh hymn, "Flow Gently, Devon," was also given.

Naturally such a company as the Royal Gwent Welsh Singers can-

Victoria Does Not Like K.V.R. Schedule

Officials Reply That Change Cannot Be Made.

Complaints against the schedule now being followed by the Kettle Valley Railroad have been entered by the Victoria Board of Trade.

It is represented that the timetable now operative discriminates against Victoria by reason of the fact that Kettle Valley trains leave for the Interior shortly before the arrival of Victoria boats at the Vancouver terminus, and reach the Coast after the departure of steamers for the Island. Conditions are such that exactly two days are lost on every round trip, the disabilities being the same for passengers, express, freight and mail.

Mr H. W. Brodie, passenger agent at Vancouver, has replied stating that a change in the service could not be contemplated till next spring. This intelligence is considered unsatisfactory by the Victoria Board of Trade, and the opinion was expressed that the position of Victoria merchants would be better without the railway under the present itinerary, as the delays naturally tended to divert business from that city. It was ordered that the matter be referred to Mr R. Marpole and Mr F. W. Peters, of the C.P.R.

A True Soldier.

The father of two gunners in No. 4 Siege Battery, now the 131st, in expressing his sorrow at the death of Lieutenant Gordon Kerr, told a story which is publicly repeated because it shows what a fine, manly man Lieutenant Kerr was. The two gunners, young men who had enjoyed more opportunities than fall to the lot of the average private, were of course restricted in going overseas to the service dunnage bags, which hold only the bare necessities. Although not members of his section, Lieutenant Kerr offered to find room in his trunk for such additional equipment in the way of underclothing and other comforts as these boys might need. The offer bespoke a thoughtfulness, a freedom from snobbishness, characteristic of one who in his brief military career proved himself a thorough soldier. Efficient in his work, thoughtful of those under him, and ever mindful of the fact that his rank in an army of citizen soldiery was neither a reason nor an excuse for superiority, popular in private life, Lieutenant Kerr retained his popularity under more trying conditions and proved his true manhood.—St John Globe.

Okanagan Apples Arrive In Good Condition In Glasgow

A Glasgow cable says: A car of Okanagan apples arrived here in excellent condition. Jonathans are selling wholesale at \$3.35 to \$3.75; McIntosh Reds at \$3.35 to \$3.55, and Canada Baldwins \$3.10 to \$3.35.

not be brought into a place except on what may seem high terms. The fact that the Hospital will benefit by only about eleven dollars is explained when it is understood that the promoters only had one-fifth of the gross receipts from which to meet all expenses. Nevertheless, the people of the district enjoyed a concert of a nature all too rare here, and the Hospital does benefit to some extent, though not as much as its friends would like.

THE DANGER IN HOLDING ON.

A WIDESPREAD NOTION that the prices of farm products are lowest just at the time of the after-harvest rush of marketing, and that the farmers who are able to hold their crops until later in the year fare better than those who sell earlier. The people of Canada are most familiar perhaps with the "hold your wheat" pronouncements put out in the last few years especially on the prairies, and numerous efforts have also been made to organize the growers of other produce to prevent too rapid marketing. Another familiar phase of the subject is the oft-repeated denunciation of the speculators, who are alleged to buy up the surplus when farmers are marketing extensively right after harvest, and keep it to sell at exorbitant prices later in the season.

A study of market fluctuations for ten years past does not justify either the charges against the speculators nor the admonitions to the farmers to delay marketing their produce. A comparison of prices for a series of years of potatoes, hay and apples, made by Dr Gilbertson, of the Department of Agriculture, shows that growers often lose much more than they gain by holding these products back from the market. Comparisons were not made in butter, eggs and poultry, but it is a matter of common knowledge that buyers who stock up on these commodities when they are most plentiful and put them in cold storage to supply later demands when production has diminished frequently suffer heavy losses.

The fact that there is some danger in holding on too long to fruit and vegetable produce should be brought to the notice of local growers who have visions of reaping big prices after a wait of another month or two. It may come, but those who are following this course will do well to watch market conditions very closely. In the matter of potatoes, for instance, the car shortage may affect prices to a very great extent. Potatoes are high now because of a heavy demand from outside markets. Growers in this province cannot get anything like the number of cars they need to fill such orders. Those in a position to say are of the opinion that the condition in regard to the car supply is not going to improve for a long time yet. The railway companies have the cars busy hauling war orders, many of the perishable kind. If potato growers in this province cannot get the means to ship their stuff to the far-away markets, they will have to be sold in the home markets in time, and then prices are coming down. And unhappy indeed will be the lot of the man who has his spuds still pitted or in his cellar, fondly dreaming about potatoes at sixty dollars a ton.

§ § § § §

THE ITALIAN GOVERNMENT has seized upwards of fifteen million dozen eggs to prevent dealers from putting prices up. This is a step in advance of appointing a commission to investigate just why the price of living is going up, and a Coast paper cannot resist an attempt at humor by calling the seizure "eggcellent" policy.

§ § § § §

More About The Storage In Transit Rate.

The C.P.R. has so far refused to extend the time limit for the expiration of the storage in transit privileges, but Mr W. C. Bowles, general freight agent, Winnipeg, has told Market Commissioner McTaggart that individual cases would be dealt with and these would receive the attention of the officials and that if conditions at that time warrant it the limit would be extended.

MOVEMENT MADE FOR BETTER ROADS.

(Continued from page 1.)

money for roads. It was his opinion that henceforth taxes would be better paid.

Reeve Blair upon being asked to speak said that he would be glad to have good roads, and if the means were to be had he could provide them. The very dry season had worked havoc. There had been more expended on roads in the last two years than for years past. Heavier traffic and more autos were wearing the roads faster.

The indifference of so many people in regard to paying taxes was doing injury to Summerland, said

Mr J. L. Hilborn. When a dollar show came along one would see there the people who did not pay their taxes. He thought the Council was not drastic enough.

The question drifting to the collection of taxes, Mr Higgin said he had noted in the Coast papers advertisements inviting bids on certain described properties now held by the municipalities, and suggested that our Council so offer properties held by them. Mr Hilborn favored suing.

Mr Zimmerman emphasized the necessity of devising some means of filling holes and ruts between now and March. He suggested a special road levy of a dollar an acre with the option of paying the levy in labor. This would get the

non-resident who would benefit without cost by any voluntary effort. He believed the roads were costing those who used them more in upkeep and damage to fruit, etc., than the levy would amount to.

That we will never have good roads without sprinkling, was the opinion of Mr C. H. Tate. This was favored by others, Mr McAlpine favoring a pipe line for the Gulch Road.

Coun. Simpson assured those present that the Council had spent every dollar they could spare on the water system. He believed in good roads, but at the rate tax money is coming in much cannot be spent on roads. It might be a good plan to make a definite rate for road work of say a mill to be spent as it was collected. At present all that the Council can hope to do is to keep the roads in reasonably good condition. Every ratepayer was entitled to his share of good roads, and he favored keeping all roads up to a certain standard rather than improving only certain places, the trunk roads of course requiring more. He thought that possibly statute labor might be a success in a thickly settled community like this.

Coun. Campbell did not favor statute labor. Value would not be received and teams would not be satisfactory. If all would turn out, the voluntary plan might work, but it would be unfair unless all cooperated. The object of the meet-

ing was good, but as regards collection of taxes he thought the worst was over. He said that work well done was the cheapest, and favored doing well a piece at a time.

The discussion continued for some time, many others taking part. Mr Helmer offered to put a team on the Gulch Road for two days. Mr English would have a road foreman in each ward and allow taxes to be worked out. He too would put on a team.

The road on the shore repaired by voluntary labor under the direction of Coun. Campbell, declared Mr Helmer, is the best piece of road in the vicinity. Surely as good could be done on other pieces.

On motion of Mr Zimmerman a committee was named, and after a recess a recommendation was submitted by them that the Council be approached and asked to appoint a superintendent to direct voluntary work on the Gulch Road as a trial effort, and that a committee be named to rustle volunteers. The chairman named Messrs Bristow, Watson, and T. B. Young to so act, and have a list of volunteers ready to submit to the Council on the 22nd.

Coun. Simpson suggested a permanent committee to continue the work, and the appointment was left with the president who will make the selection after more thought and after the initial experiment has been made.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Rotation Of Crops To Increase The Duty Of Water On The Irrigated Farm.

By R. H. HELMER, Superintendent of the Summerland Experimental Station.

In these days when the slogan of every farmer should be greater production per acre rather than an increase in acreage, on account of the shortage of help and the inability of water companies and municipalities to raise capital to enable them to store more water, there is urgent necessity of putting irrigated farms under a rotation.

Experience has shown that alfalfa in most soils responds in yield up to 3 feet 6 inches or 4 feet of water. Clover and pasture follow this very closely during a period lasting from the middle of April to the middle of September. Grain, on the other hand, requires much less water, varying according to soil from 1 ft. 6 in. to 2 ft., and spread over a much shorter period, say from April 15th to July 15th. So that it is quite evident that with a rotation, including some grain, the maximum amount of water would be needed during flood water time and thus reserve the dammed water for the alfalfa, clover crops and pasture. Hoed crops require less water than other crops as moisture may be conserved by good tillage.

Further, by following a rotation, each part of the farm has a chance of getting its fair proportion of manure at regular intervals, vegetable matter is turned under thus getting the soil into better tilth, and at the same time, increasing the duty of water. Besides this, weed control under irrigation can be accomplished only by a rotation of crops.

However careful a farmer may be with weeds, unless the ditches and the whole community served by those ditches, are controlling weeds, the water coming through the ditches will seed the land it serves each year. The hoed crop year is, of course, the best year for weed control, and the cultivator should be used often and well during the season, and after each irrigation as soon as the land is mellow enough.

The rotation suggested as best suited to irrigation farming in British Columbia is as follows:

- First year, grain.
- Second year, seeded to clover and timothy or alfalfa and orchard grass.
- Third year, hay.
- Fourth year, hay, one crop, manured in summer and second crop turned under.
- Fifth year, hoed crop.

Thus 20 acres of arable land would be cut up as follows: 4 acres grain, 12 acres hay, 4 acres hoed crop. To examine this from a water standpoint, it would give 8 acres of crops requiring large amounts of water, 8 acres requiring a small amount and 4 acres of hay which would be ploughed under and would not need so much as if growing.

The Apple Market And The Car Shortage.

Every Dealer Pushing B.C. Fruit.

Prairie jobbers and retailers alike are complaining at the slow movement of apples from B.C. points. Country points are not overly well supplied with apples and what they have are all B.C.'s. It is regrettable that more cars couldn't have been placed before this because this cold spell will affect the movement to some extent. Jobbers, however, are waiting patiently for their cars. Thus writes Market Commissioner McTaggart.

This year has afforded British Columbia an excellent opportunity to properly show her wares. From Winnipeg west British Columbia apples are to be seen, and there will be a good many more rolling to prairie towns. People are being persuaded by the retailers to purchase boxed apples because "Ontario has a poor crop this year!" This argument is being used in hundreds of towns by energetic retailers.

Some Manitoba retailers are selling B.C. crated stock at \$1.50 to the consumer, and are doing a good business. In one prairie town which the Market Commissioner visited last week there was to be seen everywhere but one lot of American apples, while B.C. brands were to be noticed. This is as it should be.

Railways Doing Their Best.

Car Shortage Still Serious.

Railway officials at Winnipeg in discussing the car shortage declare that they are doing their very best to relieve the situation in the Okanagan Valley. They point out that apple shipments and all other shipments must wait their time until the orders of the army and navy have been obeyed. In the service of one of the biggest Canadian meat packers three or four hundred refrigerator cars which are being used to haul frozen meat from the western packing houses to the Atlantic seaboard where fast steamers wait at the docks to be loaded, and then to ply their way to Old Country ports where the meat is transported by the Army Service Corps to the men fighting in the trenches.

The railway officials say further that we in B.C. must put up with conditions, they are abnormal they know, but still we must do the best possible and use paper lined box cars.

Across the line a similar situation prevails. The shippers there have taken the matter up with the Interstate Commerce Commission but still no relief is in sight. Paper lined box cars are being put into service there as well. One railroad absolutely refuses to allow any of its refrigerator cars to be loaded with apples for a destination not on its own lines. The car shortage is general. On the prairies some apud shippers are having some trouble in securing cars. Grin and bear it is all that can be said.

Some Washington Growers Favor But Two Grades.

Substitution of an extra fancy and a standard pack for Washington apples in place of the present three grades is finding favor throughout many sections of that state, and will no doubt be discussed at the Spokane Apple Show meetings.

Intense heat-resisting power is the feature of the almost imperishable fire-box linings of our own McClary semi-steel fire-box made in eight pieces—can't warp.

OUR NARAMATA SECTION:

Everything of Business and Social Importance
Transpiring in South Okanagan's Newest Town

Naramata Needs An Express Office

Farmers' Institute Insisting
That One Be Opened
There.

The regular meeting of the Farmers' Institute last Friday night held in the basement of the church was attended by almost only a bare quorum, but nevertheless some very good progress was made. Three important steps were taken. First to maintain a policy of "never give up" toward the government or the C.P.R. or both in forcing the Express Company to re-open an office in Naramata.

Another move in the right direction was to hand to the secretary a list of all seeds required for the coming season in order that the Department of Agriculture may be in a position to direct this Institute later in the year, where such and such variety of seed may be had to best advantage. The idea is a sort of get-together of buyer and seller, anywhere throughout the province. The principle is to be applied too in the case of farmers having seeds for sale. November 30th was the date set for having these seed lists placed in the hands of the secretary.

The other step was a two step. It is a step toward the now long delayed school grounds improvement. Mrs. Allen and Mrs. Davies and Mrs. Williams represented the Women's Institute in a plea for co-operation in making Thursday, Nov. 16th, Arbor Day. The ladies promised to serve a hot dinner to all and sundry who would turn out manfully with pick and shovel on Thursday and help level off the

front approach to the school. Messrs W. W. Nuttall, E. H. Hancock, and R. H. King were appointed a committee of arrangements.

But this will have to be "continued" as the story books say, in the next issue, for here is the editor calling for "copy."

Current Events — OF — Town & District

After a week-end visit here at the home of R. H. King, Mr. Clarence Craig with his wife and little one returned to Summerland on Monday.

Rev. R. M. Thompson paid Naramata a special visit on Wednesday afternoon, the occasion being christening ceremonies in a number of the homes.

A hunting party composed of Messrs N. Mitchell, G. Brock and H. Rounds after a three days' search for the elusive deer returned empty handed. But such is the game. Better luck next time.

The ladies of the W.C.T.U. held an enjoyable meeting on Tuesday afternoon at the home of their president, Mrs. J. M. Myers. At the close of a short but helpful program, the hostess' tea and cake was most acceptable on the chilly November afternoon.

Postmaster W. R. Bartlett spent Monday at Peachland where he owns a fruit ranch. It would appear from Mr. Bartlett's humorous remarks in connection with his holdings, that the revenue is not such as to provide a very liberal fund for postmasters in declining years.

Principal Rayner of the local superior school, has had occasion to draw the attention of parents to the need of more regular attendance. He declares that a great deal of work will have to be overtaken

Naramata Current Events (Continued)

in some way as a result of so many of the pupils absenting themselves during the fruit packing season.

The monthly Anglican service usually held here every second Sabbath in the month did not materialize, whereon hangs a tale of a boat or rather of an engine that "bucked." The ferry went across the lake on Sunday afternoon all in good time and the Rector boarded the craft in good time, and the getaway was made for Naramata, but had only nicely started when bingo! the engine went dead, and there was nothing to do but put back to the wharf. When finally the engine was adjusted it was then too late to come. Fact is that the remark often heard about Okanagan weather being of two kinds, the usual and the unusual holds good about gasoline engines. So Sunday's mixup is clearly of the unusual type and may never occur again.

Have Things Handy To Poultry Yard

One of the Handicaps Can Be
Easily Remedied.

One of the common handicaps in the poultry yard is inconvenience of arrangement, says Canadian Farm. The grain is at the barn; the straw for litter is at the stack; water must be carried some distance from the well. There is no shelf in the chicken house on which to keep remedies and lice powders, and the birds must be carried to the house for individual treatment or a special trip made. The result is that many little things are omitted

because it takes so long to get ready to do them.

If the grain is stored in a barrel in the chicken house, the housekeeper can feed the chickens without much trouble, and the men can refill the barrel with a week's supply from a wagon.

If the straw is not baled, and stored in the chicken house, hauling the straw for the chicken house should be made a weekly chore to be looked after by the men as regular as they would bed the horses and cows.

A treatment for lice before lice get bad; an application of carbolyzed vaseline to heal a wound that is starting; a dose of peroxide or an injection of sweet oil and kerosene up the nostrils before disease starts, will save much time and trouble if things are handy. To take time now, before the weather turns bad, will mean easing the burdens of the housekeeper who also looks after the chickens.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

Passing Events: Social, Personal, &c.

John McDougald of Peachland spent last week-end with relatives here.

The Home Comfort Club will meet next week with Miss Henderson on Wednesday the 22nd.

Rev. N. McNaughton spent last week-end at Vancouver, preaching on Sunday at the Fifth Avenue Baptist Church.

Mrs Waterman of Paradise Ranch, is a surgical patient at the hospital where she was operated upon on Monday by Dr Andrew, assisted by Dr Knox of Kelowna.

Mrs J. W. Wheeler and her sister, Mrs Pardee, received the sad news last week-end of the death of their mother, Mrs J. Jenkins, at her home in East Orange, N.J.

Rev. N. McNaughton returned from the Coast on Wednesday morning and will preach at both services as usual on Sunday. His morning subject will be "The Faith That Heals," and in the evening at the Lakeside Church he will speak on "Knowing God."

The Ladies' Hospital Auxiliary is meeting next Tuesday afternoon at three o'clock at the Parish Hall. A good attendance of ladies is requested, and a busy afternoon of sewing for the Hospital is expected, there being considerable work of this nature to be done.

In the list of donations to the Hospital for the month of October, the name of Mr W. M. Wright was omitted from the record furnished the Review, he having donated a box of apples which was on exhibition at the Fall Fair. The Matron has asked the Review to state that donations of potatoes would be especially appreciated at this time.

Mr David Michael, one of the Royal Gwent Welsh Singers, and the business manager of the organization, is the only member of the original party still singing with them. The Gwent Singers were on board the ill-fated "Lusitania" on their way back to Wales for a six weeks' vacation when the vessel was torpedoed by a German submarine. Several of the singers were drowned, and others were so unnerved by their experiences that they could not be induced to take up with the work again. Thus the new body came into existence. Mr Michael himself suffered a very trying experience when the big Cunard liner went down, having been in the water for five hours before being rescued.

Train Schedule Again Normal.

Slides Removed and Bridges Replaced. Trains have been Running on Longer Route.

For the first time in many days the west bound train will leave here on schedule time, and tomorrow morning the eastbound train will again come up through the Coquihalla Pass. Serious slides of earth, rocks and snow, in addition to blocking the track carried away three bridges west of Coquihalla station, and the time required to replace these was the reason for the delay on resuming traffic. All damage has now been made good, and now that freezing weather has set in no further trouble from land slides is expected till spring. It is hoped that the numerous snow sheds and the use of snow plows will keep the pass open.

Since the blockade trains have been running via Merritt and Sponces Bridge, passing here at 5.40 a.m. going west, and arriving from the Coast at 1.30 a.m.

"While the supply of apples this year is exceptionally large and the quality excellent," said the Victoria Colonist this week, "there seems to be a general slump in their sale. A carload of Okanagan apples, which was consigned to Australia, but which missed the boat, is now being sold here, and there is a better demand for them than for the local produce."

Mrs P. S. Roe of Naramata is away at the Coast visiting relatives.

Mr J. Thomson has returned from a visit of some duration to the prairies, having left here in the early fall.

It is stated on what is considered good authority that the Okanagan Telephone Co. have decided to close their office here.

Mrs A. Graham Munn and Miss Hippisley left on Wednesday evening by K.V.R. to spend several weeks in Coast cities.

Andrew Charlie, an Indian of the reserve to the south, was struck or run over by the eastbound train on Tuesday morning near Penticton.

J. T. Washington loaded a car of apples last week-end from the orchard of J. A. Nolan, and went out to Calgary with it himself on Monday.

Mr T. N. Ritchie was a Coastward bound passenger on last night's train. He expects to return with his brother, James, early next week.

Mrs L. C. Woodworth boards the boat tonight on her way to Nova Scotia, via Boston. Mrs Woodworth has been a patient at the Hospital for some time, but is now sufficiently recovered to travel.

Mr and Mrs Ernest Campbell, who have been living in Garnett Valley on the J. R. Campbell property, have removed to Penticton, where Mr Campbell has taken up the dairy business on a fairly large scale.

Mr Frank Marshall is now a steward on the C.P.R. steamer "Adelaide," which plys between Vancouver, Victoria and Seattle. He has just sent home a picture of himself in uniform in which he looks particularly trim.

Mr H. Douglas Hamilton, a brother of the late Captain L. R. Douglas-Hamilton, is here this week attending to some business of his soldier brother's estate. Mr Douglas-Hamilton purposes going to Vancouver to enlist for overseas service.

Coyotes are unusually plentiful and are coming right in among the houses, and of course never miss a chance to take a chicken or a whole flock of them. This morning Mr W. M. Wright, when driving home from Garnett Valley, shot one and missed another.

Two carloads of cattle, forty-three in all, were received here this week from Lacombe, Alberta, for the Experimental Farm. They are two-year old steers brought here for winter feeding, to convert the hay crop at the Farm into beef. Some cattle sheds have been erected near the railway bridge where the hay is stacked.

Word reached here this week that Pte. Percy Holder was missing. While it is true that he was listed as missing, later news reveals the fact that he with another had been assigned to some special duties, and not returning with his comrades was believed to be missing. Immediately he came in and learned that he had been so posted, he sent an explanation to his mother here.

Never judge women and cigars by their wrappers.

If a man loves a woman, he may give up cigars for her. But if she loves him she will not ask it.

It is not what he has, or even what he does, which directly expresses the worth of a man, but what he is.—Amiel.

Snakatoon reports very little winter stock of apples yet in and the weather cold and snowing. Apple arrivals there between 2nd and 7th were three cars imported, one from B.C., and one from Ontario. During the same period Edmonton received five cars from B.C. and three from Washington. There arrived at Calgary on the 3rd and 4th eight cars from B.C., one containing some pears. No imported stock.

Mrs C. W. Lees will not receive at her home till after the new year.

The Misses Campbell, daughters of Mrs M. Campbell are at present away at the Coast making a short visit there.

Dr and Mrs Knox of Kelowna were the guests this week of Dr and Mrs Andrew at their home on Lakeshore Drive.

The regular monthly meeting of the W.C.T.U. will be held on Friday afternoon, November 24th, at three o'clock, at the home of Mrs H. H. Elsey.

Mr and Mrs J. L. Hilborn and daughter Eva went out by the Thursday train on their way to the Coast, where they expect to remain for a few weeks.

Prairie Valley, with its substantial homes and well-established orchards, is reckoned one of the most desirable sections of the municipality. Travellers on the trains would get such an impression from the finished appearance of the nicely painted buildings. The large hay barn recently erected on Meadowbrook Orchard, has lately received attention from the painter's brush, as well as the residence and all the outbuildings on the ranch. The residence of Mr W. P. Secret near by has also been repainted lately.

Time To Prepare For Winter.

Sharp Snap Last Week-end a warning that Cold Season Is At Hand.

If your water pipes need any attention to put them in order for the winter, there should be no further delay about doing it. The first touch of winter last week-end was a reminder of what may be expected at any time now. Last Friday night the temperature at the government recording station in Prairie Valley was 21 degrees, not an unusually low registration for this time of year. The next night the thermometer dipped down fourteen degrees and showed a minimum temperature of only seven degrees above zero. The same night the temperatures at the Dominion Experimental Farm, Trout Creek, were recorded about four degrees higher in each case.

The cold snap caught most people unprepared. In some cases water pipes were frozen up, necessitating a tedious thawing out process. More serious was the damage done to apples in storage in buildings not proof to sudden climatic changes. Losses from this cause throughout the district are variously estimated, and it is hard to ascertain the quantity damaged. A Steuart & Son were among the losers from this cause, neither their packing house nor the T. B. Young warehouse where fruit was being stored temporarily being able to keep out the frost of Saturday night. On Sunday teams were busy all day hauling fruit from these places to more suitable storage quarters. The Fruit Union had fortunately finished a day or two before hauling fruit from their upper warehouse, which is built to stand any vagaries of the weather.

Latest information is that the damage done by freezing of apples is not as serious as was feared.

At Penticton, it is said, shipping concerns had still a quantity of apples in their packing houses none of which are frost proof, and the loss may be considerable. Manager Jackson, of the Okanagan United Growers went down to that town on Wednesday, and it is understood he is likely to have the fruit hold by the Union there sent up to the Summerland Fruit Union packing house here. There are now in that house 6,000 boxes of apples, but the big building is capable of holding many times that quantity.

Newsy Paragraphs

from

PEACHLAND.

HARRY UROUHART DIED OF WOUNDS.

Following a cable advising his Peachland relatives that Harry Urouhart had been wounded in action, and a second later telling of his serious condition, a third cablegram has brought the dread news that the brave soldier had died of his wounds on Saturday. Peachland is thus called upon to mourn the loss of another of her most popular sons, so many of whom have already given their lives for the cause of freedom and right.

Rev. Mr Scott, pastor of the Peachland Baptist Church, occu-

HEATING TROUBLE CAUSES PANIC.

(Continued from page 1)

placed to have the second furnace put in another was ordered, but it was found that this would have to come from Toronto, one of the right size not being obtainable nearer. This was shipped at once and is expected daily. In the meantime he had made temporary repairs to the old boiler, which with the one furnace was expected to make the building comfortable for a time. Fire was put on on Tuesday, and that was the first day for some time that the rooms had been comfortable. In the meantime the lavatories and drinking fountains had frozen up, causing much inconvenience.

It would seem that the trouble on Wednesday morning was due to a very hot fire applied to a water heating system with a greatly reduced radiating surface and perhaps too with frozen water connection. First there was hot water thrown from the expansion tank in the principal's private room, followed by superheated steam, and the radiators became so hot as to scorch the wall behind, and the noise and vibration so great as to become alarming. Quickly Prin. Lees dismissed the children, and with help from some of the boys went to the basement and extinguished the fire in the boiler. So great was the force of the steam behind the escaping water that the latter was thrown in a strong jet against the ceiling, soaking the plaster and wood work and taking the varnish off the latter. A messenger was hurried to the secretary at the municipal office, and another to Trustee Hilborn. Mr Hilborn went over, but the fire had been extinguished and the danger removed before he arrived. Needless to say the boiler is not in use now, and the rooms are again too cold for comfort. So alarmed were some of the parents when they heard of the trouble that they have refused to allow their children to return.

COUNCIL BUYING BACK DEBENTURES.

(Continued from Page 1.)

by a tax sale with its uncertainties of holding land bid in.

The dangerous condition of the sidewalks around the Empire Hall block was again brought up by Coun. Stark, who urged that something be done at once to make them safer or the municipality would be in for a suit for damages. It was decided to close up the approaches to the basement of the building, and fill in the holes now in the sidewalk.

HIS REASON.

Could anything better illustrate the point of self-sacrifice than the following anecdote?

One scorching day, when his comrades were nearly prostrated he was seen carrying his own gun and another man's, two cartridge belts, two knapsacks, and a dog. The colonel stopped him.

"Look here, you marched all yesterday and you fought all last night," the colonel said.

"Yes, sir," said the young soldier, respectfully.

"Well, then, what are you carrying that dog for?"

"Because, colonel," said the soldier, "the dog's tired."

There arrived in Winnipeg from Nov. 3rd to 6th 13 cars of Ontario apples, 11 cars of B.C. apples, and 6 cars of Washington apples.

Cooking Vegetables

Loss of Valuable Ingredients Through Wrong Methods

While boiling vegetables the nutrients soluble in water may be dissolved out and lost. The nutrients liable to be lost include protein compounds, mineral constituents, and sugars.

It has also been found that considerable losses occur in the boiling of other vegetables such as carrots, beets, and parsnips. The loss in the mineral matter is serious, as vegetables furnish mineral materials from which teeth and bone are formed.

Perhaps the best way to kill a falsehood is to let it lie.

Newspaper advertisements give desirable business news in the right place and at the right time.

Going Back to France

(Montreal Daily Star, Nov. 7th)

Lieut. G. Roy Stevens has come back from England and taken a commission with the 6th Universities Company.

During his senior year he took the officers training corps work and passed his examinations, qualifying as lieutenant.

A platoon of the company expects to leave for England in the near future, and recruiting will continue for the next platoon, which will be sent overseas as soon as it is partially trained.

Expects To Go In Action Again Soon

But the Censor Won't Permit Pte. Randall to Say Whether a Big Push Is Coming.

France, Oct. 15th, 1916.

Dear Mrs Hogg,

Very many thanks for the parcel received a few days ago. You could not have sent me anything more acceptable, especially the vermin-proof garment.

Our battalion have been more or less in action since August 18th, but have been out behind the lines some two or three weeks.

I have met quite a number of Okanagan boys here, and it is certainly nice to meet old acquaintances.

With kindest regards to all my Summerland friends, especially the members of the Home Comfort Club.

Yours very sincerely, REUBEN RANDALL.

Let us be of good cheer, however, remembering that the misfortunes hardest to bear are those which never come.—Lowell.

DEPARTMENT OF WORKS.

NOTICE TO CONTRACTORS.

TROUT CREEK SCHOOL.

SEALED TENDERS, superscribed "Tender for Trout Creek School," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Tuesday, the 28th day of November, 1916, for the erection and completion of a small one-room school-house and out-buildings at Trout Creek, in Summerland Municipality, and the South Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 9th day of November, 1916, at the office of L. Norris, Government Agent, Vernon; J. Mahoney, Government Agent, Court-house, Vancouver; J. L. Logie, Secretary of School Board, West Summerland; and the Department of Public Works, Victoria.

By application to the undersigned contractors may obtain one copy of the plans and specifications for the sum of ten dollars (\$10), which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to 20 per cent. of tender, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITHS, Deputy Minister and Public Works Engineer. Department of Public Works, Victoria, B.C., November 2nd, 1916. 15 16 17

Kindness is wisdom, There is none in life But needs it, and may learn.

So far this season the Northwestern States have shipped 8,132 cars of apples, compared with 7,381 cars at the same time one year ago.

The last shipment of apples for this season from Washington apple districts destined for Australian ports will go forward this week.

Picture of Prison Camp Conditions

Canadian Prisoner in Germany Sends Thanks for Parcel.

Mrs C. H. Gayton, who has been active on behalf of the fund for sending parcels to prisoners of war in Germany has received an interesting letter from a Vancouver soldier, now confined at Giessen. In some cases at least, it is evident that the conditions of confinement are not absolutely intolerable. We take pleasure in publishing the letter.

Giessen, Germany.
October 3rd, 1916.

Dear Mrs Gayton,
I am taking this opportunity to write you and thank you once again for your kindness in sending parcels to me through the Canadian Red Cross Society. I must apologise for not having written before, but, as our correspondence is naturally limited, I have been unable to do so sooner and I hope you will excuse me on this account.

As I think you know, I belong to the 29th Battalion from Vancouver, and was captured on the 19th of April this year, and so have been a resident at Giessen nearly six months. Since I have been here I have been treated well and shown every consideration. The camp itself is in a splendid location, and is kept wonderfully clean. It is divided up into eleven companies, and all non-commissioned officers are in No. 8 company. In each company there are five large barracks, which are light and airy, and each company has a piece of ground for exercising ourselves on. We have our own church here in the camp, and services are held every Sunday, and there is always a large attendance. We also have a brass band here, the talent being furnished by the prisoners of war, and the instruments were donated by the Y.M.C.A. Besides playing at the church service on Sundays, they give us a short program before, and the music is program greatly appreciated by all. We are all looking forward to the time when we will be able to return to our homes and in the meantime we are endeavoring to make the best of things.

The weather here is beginning to get colder and the days are getting shorter, but these little things do not make much difference in our present mode of living. We have had a splendid summer, and at times it was very hot.

I spend a good deal of my time here in reading, and as literature is plentiful, time passes fairly quickly. There are quite a number of Canadians at Giessen, and they are a jolly lot of fellows, guaranteed to keep things fairly lively at all times.

There was a fellow in my platoon who came from somewhere in the Okanagan Valley, of whom you may know. His name is Lance-Corporal H. R. Coell. I do not know where he is now, as I have not heard from him since I have been here.

I am afraid I shall have to close now as it is very nearly time for "lights out," so once again thanking you for your kindness and hoping you are enjoying the best of health.

Believe me,
Yours very sincerely,
RALPH K. PRESTON.

There are being shipped this week from Vancouver for trans-Pacific points about fifteen carloads of apples. Ten carloads are for Australia and three for New Zealand.

PHEASANTS COME HIGH!

It costs twenty-five dollars to shoot your first pheasant in Summerland according to the price put upon this illegal sport by Mr R. H. English, J.P., last Saturday. While rumor has it that this is not the first pheasant shot in the district it is the first proven instance, and being the first offence the court put the fine at twenty-five dollars. The charge was laid by Deputy Game Warden Gartrell against Mr F. Graham, who pleaded ignorance of the law. The bird was shot on Jones Flat. Pheasants, which were introduced recently by private enterprise, are rapidly increasing in numbers, and it is confidently hoped that by careful protection they will soon be numerous enough to permit of a short open season each year.

Will Receive Offers For Tax Sale Land

Council Takes Big Step In Effort to Realize on Land Held for Taxes.

An important decision in regard to the land held by the Municipality for delinquent taxes was reached at the meeting last Wednesday. An advertising announcement in this issue of the Review makes quite clear the intention of the Council in regard to the property which has been bought in at tax sales, and for which the Municipality now holds deeds.

Lists of these properties were before the Councillors, but were not gone into individually, the Council instead fixing on a policy to be pursued as a general principle.

The motion dealing with this matter was proposed by Coun. Simpson, and seconded by Coun. Stark. It provided that the Council is open to receive offers for unredeemed tax sale land bought and now owned by the Municipality. The Council does not want the land, it wants the money tied up with it. Any offers made will be considered individually, and the merits of the case considered. It is their express desire to work no hardship in any cases, but there is the feeling that a portion of the property now held by the Council can be realized on.

While cash offers would probably be the most acceptable, it is likely that the Council would consider any offers made for extended terms. Lists of the property upon which offers may be made can be seen at the Municipal Office. The policy which the Council is adopting is in line with what some districts at the Coast and elsewhere are doing.

Boosting K.V. Ry.

C.P.R. to Attract More Traffic To New Scenic Route.

Winnipeg.—O. E. Fisher, traffic manager of the Kettle Valley Railway, who is attending the convention of passenger traffic officials of the C.P.R., is one of the most influential debaters at the C.P.R. conference now in progress. It is the C.P.R.'s intention to give this new prairie route into Vancouver a big boost next year to attract business.

Mr Fisher stated that business had been very satisfactory since the opening of the line in July last. Scenic features of the country opened up by this railroad are superb, and will continue to attract an ever-increasing amount of patronage from the travelling public.

J. S. Carter, district agent at Nelson, will have charge of the passenger end.

Minor Matters Dealt With By Council

Grant of \$50 to Agric. Assoc. Third Electric Light Extension Mooted.

Messrs W. M. Wright and S. M. Young were in attendance at the Council session on Wednesday afternoon, asking that the Council make a grant of fifty dollars to the Agricultural Association to enable it to clear up its year's work without a deficit. Mr Wright pointed out the worth of the association to the district generally, a benefit in fact to non-residents as well as residents. They had received one hundred dollars less from the government this year than previously, but despite this they were only asking for half that amount. The local people had given good support to the work of the association, and the prize money had been well distributed. Enquiry was made of the membership of the Agricultural Association, and it was found that it was quite widespread. The request was finally granted by resolution.

H. G. Estabrook waited upon the Council and among other matters brought up the condition of the road at the entrance to his property. Many years ago he had given to the existing Council for road purposes a strip of land that had cost him about two hundred dollars, and he had been promised then that the entrance to his place would be improved. As it was now he was only able to take out about half a load of fruit, and to load up again outside meant considerable extra labor now that the output was getting to be considerable. He asked to have the dip in the road raised about three feet. The Council while sympathetic were unable to promise anything, and advised Mr Estabrook to bring the matter before the next Council.

The Board of Works will look into the question of disposing of water that comes down the draws above S. M. Young's orchard.

R. Purves was granted a standpipe to be put in near his property to enable him to get domestic water, he to pay cost of installing same.

A resolution by the City of Armstrong asking for the support of the Council in the formation of an Okanagan Battalion for overseas service was not received with favor. The Councillors were of the opinion that the better way would be to fill up the ranks of regiments not yet up to strength rather than embark on the formation of a new battalion.

Mr J. W. Jones, M.P.P., wrote promising his support to the movement to establish a Princeton-Hope highway, which would open the way for tourist traffic from the Coast into the Okanagan and on to the Kootenay.

Messrs. Cochran & Ladner sent two communications of minor importance relative to the McAlpine law suit.

The request of T. B. Young to have a standpipe outside his warehouse lowered to prevent freezing was referred to the Works Committee.

The possibility of a third electric light extension was advanced by the Clerk, who intimated to the Council that twelve or thirteen residents along the Giant's Head road had expressed a desire to have the light, though the proposition had not advanced far enough for them to promise definitely to take the light, nor had any mention been made of advancing the necessary funds to carry out the extension. The revenue from this extension, it was

Council Will Help With Roadwork

Accepts Offer of Voluntary Labor Made Through Board of Trade.

At a special meeting of the Council held on Wednesday afternoon, a resolution was passed accepting the offer of the citizens of Summerland, made through the Board of Trade, to contribute voluntary labor for the improvement of the roads.

Messrs H. Bristow and W. Watson were present from the Board of Trade and reported that they had secured the promise of thirty-nine days' work from men and teams together, and twenty-nine days' man work without teams. Mr Bristow addressed the Council on the matter, stating that the Board of Trade quite realized that the Council was spending as much money on the roads as they could spare after looking to the water system, but still it was quite clear that the roads were by no means in as good shape as was desirable, and hence the Board was contriving a system by which volunteer labor could be used to improve them. With the citizens promising work freely as mentioned above, it was thought that the Council would agree to cooperate to the extent of putting its team on the work, providing the necessary shale, and also appointing a competent supervisor. The Fenner Gulch road was indicated as a good spot to commence operations, and the Council accepted the offer of the voluntary labor, agreeing to make a start on the piece of road mentioned, and the Board of Works was authorized to appoint a competent supervisor to oversee the work.

The best way of putting the road in question into good condition was touched upon briefly, and also the matter of the best disposition of the labor promised. It was thought likely that either Coun. Campbell or Coun. Johnston would undertake the direction of the work, but since the meeting the Review learns that Wellington Watson has been asked by the Council to take charge of operations.

Okanagan Apples Give Satisfaction

Reports received at the Department of Trade and Commerce at Ottawa state that the first British Columbia apples seen on the British market this season were inspected in Liverpool on Oct. 18. The fruit, which was from the Okanagan, arrived in excellent condition, and gave the best of satisfaction to the purchasers. Ontario shipments arriving at the same time were not so good. It is stated that there is always a strong demand on British markets for well-colored red dessert apples in October, and November owing to the preponderance of English green varieties offered for sale at that time.

calculated roughly, would be about \$275 or \$300 a year. The electrician will be asked for an estimate on the cost of this.

In regard to the other two extensions, it has been intimated that the grant for the Rosedale Avenue extension is available as soon as the Council is ready for it. The matter is at present before the municipal inspector for his formal approval, and in the meantime the details are being prepared.

Poles and wire required will be ordered shortly, but nothing was said as to when the actual work might start.

BIG INCREASE IN APPLE PACK.

There have been packed this year by the Summerland Fruit Union some 82,800 packages of fruit. This in the total does not show an increase over the pack of 1915, but there has been a marked increase however in the quantity of apples handled. Soft fruits have of course fallen far short of last year's output due to the effect the very severe winter had on the stone fruits. In apricots alone the quantity handled by the Union this year was ten thousand packages less than in 1915. Peaches too were several thousand packages short. These shortages having been made up by the larger and more valuable boxes of apples, the net returns to the grower is expected to exceed those of a year ago.

The Best The Market Affords

Standard Desired for B.C. Fruit Value of Advertising Shown More of It Necessary.

In closing his season's activities on the prairies, W. E. McTaggart, B.C. Fruit Markets Commissioner, writes in part as follows to members of the B.C. Fruit Growers' Association:

I am taking this opportunity to again impress upon the growers the wisdom of shipping only the best. Let us make the slogan "Buy B.C. Fruit!" mean the best the market affords. When we have done this we shall have reached the goal for which we are striving. Good business methods, coupled with common sense as to packing and shipping, will win for any grower the market's best price.

With the issuing of this report my work on the prairies is completed for the year, and it is with no little satisfaction that I return to British Columbia knowing that more and more British Columbia fruit is becoming known as "nature's best," and that the fruit growers of our prolific province are winning the prairie markets as their own. This is as it should be.

The growers this year have packed better fruit, but there is still room for improvement, and they have adopted better business methods, and here, too, some have yet to learn a few pointers, but speaking generally the industry is showing improvement every day; by this I mean the individual growers are putting more thought into the business and are making it one of British Columbia's greatest assets.

Advertising, the inspiration of modern business, has been employed to a greater extent this year than ever before in telling prairie people just what British Columbia has to offer. Newspaper, farm journal and circular advertising have all been used to exploit British Columbia fruits, and the results are to be seen on every hand. Prairie housewives now ask for B.C. fruit instead of "fruit," and they want to know why B.C. fruit is not on the market if their grocer tries to sell them an imported box or crate.

Advertising ways, and we must advertise more than ever next year. We must keep the good-will of the prairie fruit consumers with us and by the judicious use of printers' ink we will be able to do so. Do your bit in telling your neighbor what advertising has done for B.C. fruit and enlist his co-operation. It pays beyond the shadow of a doubt.

I wish here to thank the fruit growers for their support during the year, and especially those who helped to make the Soil Products Exhibition such a success. We must achieve greater success, however, another season.

How Lieut. Gordon Kerr Was Killed

As Told by Companion of Office and Army.

The following simple and touching story of the death of Lieut. Kerr, written by Bombardier A. E. Speight, a former employee of Wm. Thomson & Co., a St John shipping concern with whom the deceased was employed before coming to Summerland, was sent to Mr John Oliver of Thomson & Co., and published in St John papers:—

Somewhere in France.

Dear John,—No doubt all in the office are anxious to know just how Gordon Kerr met his death, so I am writing this to give you the particulars.

On Wednesday morning last, he was observing officer, accompanied by two signallers he went to the forward trenches to observe and correct our fire. As they were going through the trenches Fritz began to shell, but they reached the dugout in which the observing was to be done all right. The dugout had a funk in it, but Mr Kerr and the signallers evidently thought they were safe, as they did not go down in to the pit. There was an opening in the dugout which looked over the German positions. It was through this opening that the shell came, exploding inside. Mr Kerr had just told one of the signallers to go down to the pit and put on his greatcoat, which the chap had left down there, and Gordon was afraid that he would catch cold. While he was coming up after putting the coat on the shell entered. When the top was reached the other signaller and Gordon were dead. Neither of them was badly cut up, and both were brought back and buried behind the lines yesterday morning. Each had a coffin and were buried in their uniforms. Someone had a bunch of maple leaves and these were strewn over their bodies and buried with them. Death came to both instantaneously, and neither could have known what happened.

Gordon will be missed greatly, as he proved himself to be an excellent officer, and was very well liked by all. He looked after his section's comfort at all times, and took a great interest in showing them maps and interesting pictures of the German positions which he, as an officer, had to deal with. If any one man in the Battery was prepared to meet his Maker Gordon Kerr was, as his way of living was an example to all.

Well, John, I close now. Regards to all.

(Sg.) A. E. SPEIGHT.

Money In Hunting Coyotes

Both magpies and coyotes are unusually plentiful this fall and are coming right into the orchards. The hard winter which wrought destruction among many of the game animals thus made food for these scavengers plentiful, with the natural result of a large increase in wolves and magpies. This is the opinion of one of our best woodsmen, who says there are no rabbits in the hills, and that grouse are scarce, and that the coyotes will remain low till the spring crusts form on the snow when they will return to the hills to pursue the deer. Deer, he says, are fairly plentiful yet, particularly in those places where they have not been too much molested by hunters. With fox skins in good demand and a good price being paid by raw fur dealers for coyote pelts from which imitation fox furs are made, hunting coyotes should be a profitable occupation for many this winter.

Helping the Military Y.M.C.A. Getting Near Cure Of Infantile Paralysis.

The following acknowledgement has been received from Mr H. R. Haddock, national secretary of the military service department of the Y.M.C.A., for \$62.80 sent him, this being the first instalment of the fund being solicited from Summerland citizens.

"I have just received your splendid order," Mr Haddock has written, "which is a part of the tangible report from Summerland. I thank you for same on behalf of the boys in khaki."

This amount is the result of the canvass made in the West Summerland district by Messrs Wm. Ritchie and J. L. Hilborn. They still have another \$15 pledged, and the canvass has not yet been completed. As it is extended, and further collections made, amounts will be sent on to Mr Haddock. It is planned to cover both sections of the district, so that to everyone the opportunity will be extended to help ameliorate as much as possible the hardships of the life of the Canadian men in arms.

A Coming Peachland Event.

The sale of fancy work and home cooking, under the auspices of the Peachland Presbyterian ladies, will take place in the reading room on Wednesday next, beginning at three o'clock. This will be an attractive event for two reasons. First, because every article on sale will represent full value for the money, and second, because all the fancy work will be suitable for Christmas gifts. There will be a cup of tea for all that like it at a small charge.

D. E. Hatt came in from the Coast on Thursday morning's train, and on Tuesday afternoon next is acting as auctioneer at a sale mentioned elsewhere.

Getting Near Cure Of Infantile Paralysis.

Having established the infectious process of poliomyelitis or infantile paralysis, the pathological department of Johns Hopkins Hospital has already begun a campaign in the laboratory to ascertain the direct transmission of the germ. For the immediate purpose of this accomplishment two monkeys have been obtained in New York City.

A tremendous step has been gained by the definite ascertainment that the seat of the infection is in the larger intestine, according to Dr Hopkins, and that the germ is taken into the system through the mouth. The discovery developed from invariable lesions found on the intestines of the fifty-one paralysis victims examined.

The transmission is to be attempted through the monkeys. A special species from India has been found best adapted for the experiment, and two of these now at the Johns Hopkins Hospital were found at a dealers in New York, after much inquiry.

The pathological department, through the discovery of Dr Burrows, who was assisted by Dr J. F. Hempel, representing the health department, that infection is through the mouth, and that the intestine is the sole site of the germ to a point where the disease can be identified and treated as intelligently as diphtheria or small-pox.

It has just been reported that a rabbit used to determine the method of transmission of the germ has developed the disease, and Dr Burrows and Dr J. F. Hempel, of the health department, who has been assisting Dr Burrows, are certain that another long stride has been made toward solving the whole problem of poliomyelitis. One of the rabbit's legs has become paralyzed.

It is impossible for a woman to preserve a secret so it will keep.

Checker Season Again Opened

Local Team Will Need To Look To Its Laurels.

A return game of checkers was played last week by the local checker players with the invincibles (almost) from Shingle Creek. The score in this game which was played at the home of Mr and Mrs Wm. Ritchie, was 18 to 13 in favor of the visiting team. Here is the score in detail:

SHINGLE CREEK

	Won	Drawn	Lost
Brent, W.	4	2	0
Duckett,	2	1	3
Houghton	2	1	3
Brent, J.	4	0	2
Nicholson	2	1	3
Brent, R.	4	0	2
	18	5	13

SUMMERLAND

Ritchie, W.	2	1	3
Snider, S. B.	3	1	2
Beer, A. J.	3	1	2
Young, T. B.	2	1	3
Harding, L. G.	2	1	3
Ramsay, T. H.	1	0	5
	13	5	18

The first game of the season was played the week before when the champions for Summerland journeyed out to the home of Mr Jos. Brent at Shingle Creek. Everyone is ready to say that he had a good time, nevertheless it would seem that they must have been badly beaten for not one of them spoken to could remember the score. It is to be hoped that they will not return so badly disconcerted the next time they venture to play the men of the hills at their favorite game.

Seattle Firm Places Its English Business With One Firm.

J. Forsyth Smith, Canadian Fruit Trades Commissioner at Leeds, England, has issued the following report:

The interesting announcement is made that the Northwestern Fruit Exchange of Seattle, who claim to be the largest exporters of box apples in the United States and to be handling 4,000 carloads this season, have placed their entire export output in the hands of Messrs J. & H. Goodwin, Ltd., apple brokers, of Manchester, Liverpool and London, who state that they are now booking orders, at c.i.f. prices, for New York and Boston shipments during October, November and early December. This announcement is of particular interest to students of apple marketing problems, as it involves a radical departure from previous methods of handling the output of this organization. For several years, the Exchange has had its own sales representative on the London market, free to place apples through the brokers or by direct sale to wholesalers. The new policy concentrates the output in the hands of one of the most important firms of apple auction brokers in the United Kingdom, though apparently an effort will be made to sell a considerable proportion of the apples by private sale.

Commendation For Lieut. Rush.

Home Comfort Parcel Arrives Too Late To Reach Hero Soldier.

29th October, 1916.

Dear Madam,
Your parcel for poor Rush came too late by four or five days, so we opened it and distributed the contents.

We all miss him very much, he was such a nice boy and did so well. The position had been won, and he had toiled long into the night assisting in consolidation when his end came. He must have been all alone at the time because it was not until the next morning that we found him, but we brought him out, and he lies in a proper military cemetery which will be cared for.

Poor Rush! I feel a personal interest in him, because when I was back in Canada on leave early this year I had to examine him for his commission when he was in the C.M.R., and he truly justified being selected because he did nobly, and we all thought well of him.

Believe me,
Yours faithfully,
E. J. COOK,
Capt.,
Adj. 102nd Canadian Inf. Bttn.

Bombing Section,
54th Kootenay Bttn.
B.E.F., France.

Dear Mrs Hogg,

I was pleased to receive a parcel a short while ago from the Summerland Home Comfort Club, and was sorry not being able to acknowledge it before. You sure know the right things to send. I have met several of the Summerland boys since coming to this part of France, including W. Haddrell, who was sent back with slight shell shock, but was going back to his battalion when I saw him, and J. Forsyth, and B. Newton. All the Summerland boys with the 54th, with the exception of Bob Callan, who is missing, and Howis, who was sent to Blighty with trench fever, are well.

Thanking you again for the parcel, with best wishes,
From Yours,
P. HOLDER.

Bramshott, Hants.
27th Oct., 1916.

Dear Mrs Hogg,

I received the parcel which was sent to me by your club. The contents are certainly of great use to a soldier.

Please convey my thanks to your members for their kindness.

I am trying to procure for you a small piece of the lost Zeppelin, and if successful I will forward it on, and would suggest that the club raffle it.

Once more thanking you for your kindness.

Respectfully yours,
CLIFFORD BORTON.

An Edmonton jobber is bringing in apples from Washington in bulk and packing them in crates made locally. Another jobber in the same city did the same thing last year, but was not very proud of his deal after he experienced a great deal of grief.

Mr P. H. Moore, the popular superintendent of the Dominion Experimental Farm at Agassiz, has decided to resign and accept the more lucrative position of manager of the Sayward farm on Vancouver Island, where he will have more scope for the exercise of his undoubted talents.

LOCALS.

Scoutmaster Tait has issued a call for a gathering of the local troop of Boy Scouts next Thursday evening, November 30th, at 7.30, in Ellison Hall. All Scouts should attend.

There has been organized at West Summerland a Young People's Red Cross Society. To make it a complete success the co-operation of all is asked for to help in the accomplishment of a large amount of much needed work. The social and devotional will each have a part in the meetings, which are to be held in the Parish Hall every Monday evening at 7.30.

A start has been made in repairing the sidewalks in various places, particular attention being paid to spots where different levels come together, forming a menace on dark nights. The cement walk around the Empire Hall block has been receiving attention to-day, and a good job is being done, which will be appreciated by all who have occasion to use the walk.

Union worship of the Methodist, Presbyterian and Baptist congregations will be held in the Lakeside Baptist Church next Sunday evening at seven o'clock. Rev. A. Henderson is to conduct the service. A united choir will lead the singing, and a solo will be rendered by Miss Evelyn Brown. At the close of the service committees from the three

bodies will meet to consider a basis for future union evening worship.

Mr Jno. Tait has received an intimation from the Department of Agriculture that, as in former years, pruning and packing schools will be conducted here this winter, provided the requisite number of entries can be secured. The generous terms upon which the government conducts these schools and the benefit to be derived from them need not be enlarged upon. One has only to recall the scarcity of packers this season to be convinced that everyone possible should become conversant with the principles of packing, in order to be available for such emergency situations as arose here this season owing to the shortage of experienced packers. Fuller particulars of both these schools will be given out later.

Owing to a peculiar accident last Friday, Harold English has been confined to bed ever since, suffering from somewhat extensive bruises and general soreness due to a severe shaking up. He was riding on top of a load of hay, while Alex. Milne was driving the team. At the south end of Shaughnessy Avenue the load from some cause became dislodged, and Harold slipped from off the load to the ground without being able to save himself at all. Mr Milne was also thrown off, and sustained some cuts and a shaking up in the fall. Dr Andrew attended both, and while Mr Milne was able to get around again shortly, Harold is still confined to his bed.

The Corporation of the District of Summerland.

Tax Sale Properties.

THE COUNCIL are open to receive offers for unredeemed Tax Sale Lands bought in and now owned by the Municipality.

Former owners will be given opportunity to repossess on reasonable conditions.

The highest or any tender not necessarily accepted.

Phones — Office 49. Residence 803.

A REQUEST

TELEPHONE SUBSCRIBERS are asked when responding to a telephone call, to give their OWN NAME OR NUMBER.

For instance, if, when his phone rings, Mr Green would give his name instead of saying "hello" the speaker, at the other end of the wire would at once know he HAD THE NUMBER ASKED FOR, without enquiring further. Thus on every call time would be saved, and the efficiency of the service greatly increased.

If this method of response has not been your practice begin to-day.

Heated Box Cars Not Satisfactory

Suggestions For Improvements. Jobbers Glad For Even These.

Some Current Prairie Prices.

Calgary.—Heated cars have been arriving on the prairies during the past week in large numbers. During the cold spell of last week several cars were touched by frost, but these are not in the majority as far as can be learned at this writing. It would be well for shippers to build the false bottoms higher, for several cars have shown frost on the bottom rows, due in all probability to the fact that the heat was not circulated sufficiently. One reports says that the cars were touched with frost at the end, due no doubt to the same cause.

Jobbers are glad to get these cars as shippers can well imagine, and now that a Chinook wind has swept over this part of the country, business will be good again for the fine summer weather now prevailing will give jobbers a chance to place their country orders.

Prevailing wholesale prices follow: Pears, Winter Nellis, per box \$3.25. Buerre d'Anjou, 1's, \$3.75, 2's, \$3.25. Apples, Economy, \$1.15, Jeffrey Jumble, \$1.60, Jonathans, No. 1, \$1.80, No. 2, \$1.60; Wagners, No. 1, \$1.80, Winesaps, No. 1, \$2.00, Romes, No. 1, \$1.90, Banana, No. 1, \$1.90, Ontario and Baldwin, \$1.80.

Lethbridge.— Wholesale apple prices— Winter varieties (Wash.), per box \$1.65. B.C., \$1.80; No. 2, \$1.60; No. 3, \$1.25.

Medicine Hat.— There is a general complaint amongst the wholesalers about the car shortage for apples in B.C. and Washington, and as a result we have very few cars coming to town. The wholesale prices are: B.C. No. 1 wrapped, \$1.75; No. 2, economy crates, \$1.50. Winter Nellis pears, \$2.75.

Moose Jaw.— In Moose Jaw the jobbers are absolutely at a standstill as far as imported cars to country points are concerned. B.C. apples have come through most freely, but in box cars, and unfortunately a number of them have been caught in the cold snap at the end of last week and are arriving in a partially frozen condition. I examined one car to-day in which were two charcoal heaters and it was frosted at both ends. Winter apples are selling at \$1.50 in small lots and some No. 1 McIntosh held over selling at \$2.00.

Regina.— Conditions generally about same; heavy frost damage reported on apples in box cars during the early part of the week, which damage could have been averted if heaters which were in cars had been lit, but practically all arrived without heat. General dissatisfaction on account of prevalence of small size apples in B.C. cars. Apple prices about same, \$1.75 to \$1.90; good Ontarios \$6.00 to \$6.25 per bbl.

Winnipeg.— Wash. C grade \$1.75; Jonathans, Rome Beauties, \$2.00 to \$2.25; Ontario Spys, 1's, \$7.50, 2's, \$6.00, 3's, \$5.00. Baldwins, 1's, \$6.00 to \$6.50; Greenings, \$5.75. B.C. McIntosh Reds, Jonathans, \$1.75; boxes, \$2.00 to \$2.25; Spys, \$2.50.

Remedies For Ivy Poisoning

Direct contact with the poison ivy plant is not always necessary to produce poisoning, as the poison may be transferred from clothing, gloves, and implements, also from towels used by those who have been in contact with the plant. When there is reason to believe that there has been exposure to the poison, repeated washing with warm water and strongly alkaline soap as soon as possible is advisable.

There is no one remedy that will cure all cases of ivy poisoning, and in severe cases a physician should be consulted. Specialists have found the following methods and formulas useful in many cases. At the outset, removal of the cause of the irritation may be accomplished by cleaning the inflamed surface repeatedly with alcohol, or with a saturated solution of sugar of lead in alcohol, using a fresh bit of lint or absorbent cotton each time, to avoid spreading the irritant. The sugar of lead cannot be used over extensive areas, because of risk of lead poisoning. Covering the inflamed parts with lint or absorbent cotton kept constantly moist with limewater or with a saturated solution of bicarbonate of

soda will afford relief. When this cannot be used, a simple ointment, such as zinc oxide ointment, is recommended. A solution containing 1 ounce of fluid extract of grindelia to 1 pint of water applied on cloths and allowed to evaporate may afford relief. Black wash, prepared by adding 1 dram of calomel to 1 pint of limewater, may be applied two or three times a day, allowed to dry, and followed with zinc oxide ointment. This treatment must be used with caution in extensive cases because of the possibility of mercury poisoning. The acute inflammation of ivy poisoning is sometimes followed by eczema and secondary infections of the skin, which, in mild cases, will yield readily to treatment with bland antiseptic ointments. A formula highly recommended for ivy poisoning and often especially helpful at this stage is the following:—
Carbolic acid 2 grams.
Resorcin 2 grams.
Bismuth subgallate 4 grams.
Equal parts water and limewater to make 250 cc.
This solution may be dabbed on the affected parts several times a day.

WANT THE APPLES.

North Yakima, Nov. 17.— Situation same in Yakima as week ago; no change in apple prices; every buyer anxious to get fruit; some asking to have apples loaded in box cars with false floor, end and ceiling, they taking the risk. One train of 50 cars left in this way with special messengers; understand nearly all reached destination without frost. Potatoes still \$33. Weather very cold.

During the week Nov. 6 to 13 Saskatoon received 8 cars of B.C. apples and 1 B.C. mixed, and 3 of imported apples, while Edmonton received two each from B.C. and Wash.

Between Nov. 10th and 13th 33 cars of Ontario apples arrived in Winnipeg. During the same time there were 7 cars rolled in from B.C., and 2 each from Nova Scotia and Wash.

WHEN BUYING YEAST INSIST ON HAVING THIS PACKAGE

DECLINE SUBSTITUTES

School Grounds In Good Shape.

As intimated in a previous issue the citizens clubbed together in an effort to put a presentable appearance to the front grounds at the school. Last Thursday, Nov. 16th, was the day agreed upon.

The call to voluntary service for the public weal was responded to most willingly. Almost every available team was on hand shortly after eight o'clock.

The part played by the ladies was doubtless a contributing factor toward the success of the operations.

The committee in charge of operations representative of the Farmers' Institute and the Board of Trustees, Messrs Nuttall, King and Hancock, are to be commended for their workmanlike manner in handling the job, while the sextette of

The Old England

JULIUS W. A. BLOCK,

NARAMATA, B.C.

Gentlemen's Outfitter, etc. Chiefly British Goods Imported Direct.

ladies from the Women's Institute who dispensed the refreshments, certainly filled the bill admirably—Messdames Allen, Hughes, Myers, Rounds, Nuttall, and Salting.

The news of the "doings" at Naramata had evidently travelled to Summerland for Friday morning's ferry brought Photographer C. P. Nelson across hot foot to get some tangible evidence of the first Arbor Day at Naramata.

Altogether the success of the undertaking will likely lead to some such a scene becoming an annual event in Naramata.

The Leaven of The Gospel

In an earnest plea in defence of the good old Gospel of the Son of God, Rev. R. M. Thompson set forth in bold relief the utter nonsense of our thinking that the culture of learning as advocated by the scientists and others of the learned professions, could or would bring about the regeneration of the race.

Current Events - OF - Town & District

Messrs Armour and Partridge were business visitors to Pentiction on Saturday last.

Mrs Dean Walters was up to Peachland on Friday on a short visit as a guest of Mrs Morsch.

Mr J. O. Robinson, or to be more explicit "Jack," left on Wednesday morning's K.V.R. express en route to Los Angeles. Jack's sudden move was necessitated by a message by wire from his father, Mr J. M. Robinson. It is learned that Mr Robinson is meeting with splendid success in his undertakings at the southern city.

The citizens of Naramata are waking up—gradually, to the direct benefits of the K.V.R. railway service. This week the School Board brought in a carload of coal, but as the whole car was more than was needed a number of private individuals came to the rescue and took half of the car off the hands of the Board.

Naramata Current Events (Continued)

Mrs Munro and little Miss Agnes Armour visited friends in Pentiction on Saturday last.

There was a special meeting of the Ladies' Aid Society held on Wednesday afternoon, but the regular monthly meeting takes place on Wednesday afternoon, Nov. 29, at which it is requested all the members try to be present on account of urgent business.

Messrs Carless and Robertson of Pentiction have undertaken to cut 1,000 cords of wood from the logs cut some few years ago by the Pentiction Lumber Co. The logs are below the present grade of the K.V.R. near Arawana Siding, and consequently the task of loading the wood, once it is cut, will involve some labor.

An added improvement is being made at Arawana Siding. A proper approach is being made from the west which will provide accommodation for a team to drive to the siding to load or unload without running the risk of collision with passing trains.

The Fairview Ranch the home of Mrs M. M. Allen was the scene of a delightful little party given in honor of a birthday of the youngest member of the household, Master Stanley. Stanley had invited all his playmates to his home for an evening's enjoyment, and to judge from reports the youngsters enjoyed themselves—especially did they enjoy the fun of eating into a birthday cake said to hide within its mysterious sides three coveted treasures; to wit: a ring, a button, and a five cent piece.

Indians Are All Loyal Canadians

Twelve hundred full-blooded Canadian Indians have enlisted for overseas service since the war began, and one at least has received the military medal for bravery. The various Indian reserves throughout Canada have contributed upward of \$6,000 toward various patriotic funds.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

Passing Events: Social, Personal, &c.

Miss Bloomfield reached home on Friday night from Rossland to remain till after the holiday season.

Another lot of Christmas parcels for Summerland soldiers was sent off by the Home Comfort Club last Friday. This shipment brought the total Christmas packages mailed by this energetic organization up to one hundred and eleven.

Mrs Ed. Vanderburg has returned home after a visit of two months at the Coast. With her came Mrs Brewster, wife of Dr Brewster, of Vancouver, and her little daughter, Winnetta. They will remain with Mrs Vanderburg till after Christmas.

The Ambulance League will meet next Monday afternoon, as usual, in Elliott's Hall. If more people do not take these opportunities for doing Red Cross work, it is thought advisable to discontinue these meetings in the town, and meet every Monday in the Parish Hall instead.

Miss Helen Phinney returned early this week from a short visit to her sister, Mrs Jack Conway, Vernon. She will leave here on Saturday for Vancouver, and after a few days in that city she will proceed with friends to Seattle where on Wednesday the 29th she will become the bride of Mr David W. Shaver of Portland, Oregon.

The members of the Okanagan Press Guild, which includes every newspaper man from Salmon Arm to Hedley, gathered at Penticton on Wednesday night to transact business in connection with the publishing of weekly newspapers. To-day representatives of all southern B.C. papers, from the international boundary north to the towns along the C.P.R., and from Alberta to the Hope mountains, are in conference.

It is well within the remembrance of many people when the first car of coal was brought into Summerland. This coming winter, however, indications are that many carloads will be consumed locally both in furnaces and small stoves. There seems to be a general shortage of genuine cordwood, and many people are laying in a stock of coal rather than risk a wood famine when the real cold weather comes. Both the genuine hard coal and the soft kind from Merritt and Princeton are being used locally. Shortage of labor in the mines is sending the prices up, and they may go still higher yet.

Mrs Scott Darkis, who recently accompanied her son Roy to Victoria for further medical treatment, has returned, and reports very favorably on the condition of the patient and the progress he is making towards complete recovery. This will be good news for his many friends here, who hope that after such a long and severe spell of sickness Roy may soon be restored to his former vigor. At Victoria an X ray examination was made by doctors in consultation, and Roy underwent a further operation last Thursday. Although very weak from the journey he stood the operation well, and it is thought to have been quite successful. The latest word from the operating surgeons to Mr and Mrs Darkis is that Roy is doing wonderfully well considering that he had already been ill for seven months. They are of the opinion that if no other complications set in he will fully recover.

Corporation of the District of Peachland

MUNICIPAL VOTERS' LIST, 1917

TAKE NOTICE that the Municipal Council will sit as a Court of Revision to revise and correct the Municipal Voters List, on Monday, December 11th, 1916, at three o'clock, in the Council Chambers, Peachland.

WM. M. DRYDEN,
Municipal Clerk.

Mr T. N. Ritchie arrived back from the Coast on this morning's train.

Mr Hector Sutherland returned early this week from a stay of several weeks in Winnipeg.

Auction Sale of household effects, farm implements, etc., property of Jas. Ritchie, next Tuesday, at 2 p.m. See bills out on Saturday. D. E. Hatt, Auctioneer. 17

Mr Jas. Ritchie came up from the Coast on Wednesday morning and went on to Keremeos and returned the same night. He plans to return to the Coast on Saturday night.

The downtown Sunday School is preparing a Christmas entertainment which will be presented on the evening of December 22nd. Further particulars will doubtless be available later.

A supper and sale of work is to be given by the ladies of the College Auxiliary in the College Gymnasium on afternoon and evening of December 1st. Fish chowders and other unusual dishes are features of the menu. See adv. elsewhere in this issue.

In honor of the fourth anniversary of their marriage, Mr and Mrs A. Stark entertained about three dozen friends at their home on Monday evening. Five hundred was played at nine tables till close on to midnight, when refreshments were served, bringing to an end a most enjoyable evening.

The Summerland Women's Institute will hold their next meeting on Friday, Dec. 1st in the Men's Club. Will the members please take notice of the date of this meeting. Roll call answered by quotations from Dickens. Mrs D. H. Watson will give a talk on "The Christmas Spirit," and there will be readings from Dickens. Afternoon tea will be served.

Messrs G. J. Coulter White, H. C. Mellor, and J. Lawler, respectively president, vice-president, and manager of the Fruit Union, accompanied by Gerald MacLaine, left on Monday morning of this week on their way to Spokane, to attend the annual international fair in that city. They went as far as Oroville in J. Lawler's Chevrolet, and if conditions were favorable planned to complete their journey by car. They expected to be away about a week.

Instead of importing hay the Fruit Union is this year being supplied with horse hay by farmers in the district. One hundred tons will come in to the Union warehouse from a single farm, the Brent ranch, at Shingle Creek. Others in that vicinity, as well as the farms of Meadow Valley, are becoming heavy producers of hay. Cow fodder is being largely produced in the form of alfalfa by the fruit growers. Steadily and surely our community is becoming more nearly self supporting.

An announcement in another part of this paper tells of the appearance in Summerland of the Peat Concert Company, on Tuesday evening, December 5th. This is an event that should draw all people to Empire Hall who are interested in hearing first-hand war experiences, and there should be few indeed in the place who are not. Private Peat was a member of the 1st Canadian Contingent, and went through some of the big developments in the early part of the war. He was wounded in the lung and shoulder by a German explosive bullet, and lay for two days on the battlefield. He will tell of the terrible experiences with German gas at Langemark, the brilliant Canadian charge at St Julien, an exploit which has brought much glory to Canadian military annals, and he will also tell something of German atrocities at Ypres. This should be a compelling story, one all loyal citizens should hear. In addition, Mrs H. Pent, A.R.C.I., will contribute some splendid recitations during the course of the evening, and Trooper Jarrett is also to appear with the latest songs from the trenches. The general admission will be fifty cents, and the local Red Cross is to receive a generous portion of the evening's receipts. See the advertisement.

Mr E. S. Archibald, Dominion Animal Husbandman, Ottawa, was a recent visitor to the Experimental Station here.

D. E. Hatt will auction the effects of Jas. Ritchie next Tuesday at two o'clock. See bills out on Saturday. 17

Leaving Naramata on the east-bound train on Wednesday morning for Spokane, Jack Robinson is now on his way to join his parents at Los Angeles.

The Home Comfort Club is starting a Five Hundred Club in the Oddfellows' Hall next Wednesday, Nov. 29th. Come and have a pleasant evening at cards.

Rev. N. McNaughton will preach at the services on Sunday next in St Andrew's Church in the morning at 10.30 and in the evening at 7 o'clock. The evening service in the Lakeside Church will be conducted by Rev. A. Henderson as announced elsewhere.

Little David Cook Craig, son of Mr and Mrs George Craig, died at the Hospital on Sunday afternoon, after living only three days. Among their friends there is widespread sympathy felt for Mr and Mrs Craig in the sorrow which has overtaken them. The baby was buried in the Peach Orchard cemetery that afternoon.

The new school building at Faulder is now just about ready for its proper use, and in a very short time the children are expected to be making use of their new quarters. The building will also serve as a social centre for the residents of that vicinity, and already it is understood events of this nature have taken place there.

Mr J. H. Ashdown of Winnipeg spent Tuesday here at the home of Mrs and Miss Harrison, arriving by boat on Monday evening and departing on Wednesday morning. Mr Ashdown was shown a part of our fruit district, and expressed surprise and delight with what he found here. The scenic beauty of the place particularly appealed to him.

For some weeks Fruit Pests Inspector John Tait has been spending much of his time at Kelowna assisting in the survey of the orchards of that district. Before going there he was similarly engaged here during much of the late summer and fall. A careful and thorough census of the orchards of the whole province is thus being taken for the first time.

The Summerland Women's Institute held their monthly meeting in the Men's Club. There was a fair attendance of members present. Miss Aitchison gave a very pleasing "Talk on Pictures," which was much appreciated. Mrs D. H. Watson led the discussion which was entered into with much interest. A canisole competition followed, which did not have the entries expected. Some labor-saving devices were on display, and Mrs Lipssett explained the benefit derived from each article.

No arrangement was left undone apparently that could have added to the success and enjoyment of the dance held in Empire Hall last Friday evening. It was given by the packing staff of the Summerland Fruit Union for the benefit of the Home Comfort Club and proved a popular event. As well as the local people who were in attendance there were also some visitors from Naramata and Peachland, so that the floor while never unduly crowded, was well filled when the dancing was in progress. A number were also present who did not participate in the dancing, cards being provided for these. The hall had been decorated in a very effective manner for the occasion. Mr and Mrs Dean Walters of Naramata provided almost all of the music, well up to their customary irreproachable standard. A short program was rendered between dances, consisting of solos by Miss Evelyn Brown and Miss Myrtle Clay and occasional selections by Mrs C. Duncan. An intermission was made for refreshments, which were of the quaintest and most appetizing nature. It was two o'clock before the "goodnight waltz" came round, and brought the first dance of the season to an end.

Galena Ore in Garnett Valley.

Are we to have a mine in Garnett Valley? There are good reasons to believe that we will, according to Mr Geo. Gartrell and some associates, who have already registered their stakings on the promising property. Specimen pieces from the ledges containing galena are now in the Review Office window. According to information furnished by Mr Gartrell he has discovered three big ledges of this rock carrying lead and silver on the western face of the mountain on the east side of Garnett Valley near the dam.

Floot has been seen there for many years, and to Mr Gartrell's knowledge the territory was prospected 28 years ago, and on occasions since. It remained, however, for Mr Gartrell to discover the sources of this floot. Three large bodies of mineral-bearing quartz were uncovered by him and samples sent to an assayer. These samples, he declares, were only average, and were shown to contain \$10.67 of silver and \$.36 of lead or \$14.03 for both to the ton of ore. Four claims of 1,500 square yards each have already been staked, and so good are the prospects that he has been offered the money necessary to develop the property in a big way, but he prefers to keep it in his own control, and purposes to start developing in a small way next spring.

Westward Ho!

There was a considerable family stir in evidence at the K.V.R. station on Sunday evening, when one of our citizens in the person of Mr Chas. J. Thomson boarded the rear end of a Pacific-bound train. A casual effort on the part of a bystander was only able to elicit the information that he was merely taking a jaunt to the Coast to try and hasten the selection of the new Government Cabinet. The sight, however, of two well-filled traveling grips and the paternal demonstration displayed confirmed the impression of your correspondent that he was embarking on the first stage of his annual trip to the Land of the Kangaroo.

Later his name appeared amongst the list of second-class passengers aboard the "Makura," which sailed on Wednesday night from Vancouver for Sydney, Australia.—Con.

Edward Logie has gone out to the Coast and at Vancouver intends to enlist. He has an inclination to join the Medical Corps, but had not fixed definitely upon any particular unit up to the time of leaving.

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

A CONSCIENTIOUS PROTEST.

West Summerland, B.C., 22nd November, 1916.

The Editor, Summerland Review.

Dear Sir:

At a meeting of the Board of Management of St Andrew's Presbyterian Church held on Tuesday evening, the Treasurer intimated the fact that he had obtained the sum of \$4.00 as rental for use of the church for the sacred concert held therein by the Welsh Singers on Sunday, November 12th.

This announcement raised considerable discussion, several of the members of the Board expressing themselves very strongly, inasmuch as it had come to their knowledge that such concert was promoted for the benefit of individuals and not for the Hospital as was the general impression.

The following motion was then made by Mr Robert Johnston, seconded by Mr David Gray:—

"That we, the members of the Managing Board of St Andrew's Presbyterian Church record our emphatic disapproval of the method used by which the church was given over for the conducting of a sacred concert on Sunday afternoon, November 12th; and would, and hereby express our sentiments that where and when the welfare of any charitable or benevolent institution can be advanced, the use of the church can be readily obtained; but never for the promoting of any money-making scheme of any private individual or individuals, and that we take the earliest opportunity of giving publicity to same."

We would therefore hand you herewith cheque for the sum in question, and would ask you to tender same to the Hospital Treasurer.

Yours truly, JOHN G. ROBERTSON, Chairman. A. H. STEVEN, Secretary.

Managing Board, St Andrew's Presbyterian Church, Summerland.

A domestic science teacher in one of the Saskatoon schools is a strong booster for B.C. apples. She has been telling all her classes that B.C. Snows make the best jelly. She hails from Ontario, and as every B.C. grower knows, people from Ontario are pretty hard to convince that we can grow apples at all.

It is estimated that 25 per cent of the Hood River apple crop was frozen.

Reduction Sale

Our Stock being heavy in many lines, we would call your attention to our CASH SALE at Summerland and West Summerland, commencing SAT., NOV. 25th to December 2nd inclusive.

DEPARTMENT OF WORKS.

NOTICE TO CONTRACTORS.

TROUT CREEK SCHOOL.

SEALED TENDERS, superscribed "Tender for Trout Creek School," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Tuesday, the 28th day of November, 1916, for the erection and completion of a small one-room school-house and out-buildings at Trout Creek, in Summerland Municipality, and the South Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 9th day of November, 1916, at the office of L. Norris, Government Agent, Vernon; J. Mahoney, Government Agent, Court-house, Vancouver; J. L. Logie, Secretary of School Board, West Summerland; and the Department of Public Works, Victoria.

By application to the undersigned contractors may obtain one copy of the plans and specifications for the sum of ten dollars (\$10), which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to 20 per cent. of tender, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITHS, Deputy Minister and Public Works Engineer.

Department of Public Works, Victoria, B.C., November 2nd, 1916. 15 10 17
