

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 9, No. 5. Whole No. 422.

SUMMERLAND, B.C., SEPTEMBER 1, 1916.

\$2.00, payable in advance.

Coast Mails Over K.V.R.

Will Reach Here Early in Morning. New Service Started To-day.

Beginning to-day a big improvement in the mail service between Vancouver and other Coast points and Summerland will be experienced as the result of an arrangement by which all such mail matter will be sent up by K.V.R. baggage, instead of around by way of Sicamous. This means that instead of getting the Coast mails in the evening after the arrival of the boat it will be at the post offices ready for distribution by 7 o'clock standard time, each morning except Monday.

The contract for carrying the mail from the K.V.R. station to the two local post offices has been given to Mr R. H. English.

For some time all mail matter destined for K.V.R. and west points mailed in time for the boat has been dispatched on the evening boat going south, but till now incoming mail has continued to come by C.P.R. For two or three weeks there has been a weekly exception to this rule when Coast matter leaving Vancouver on Saturday evenings came over the K.V.R. and up the lake by the boat on Monday mornings.

Needless to state the twelve to fifteen hours quicker service will be greatly appreciated and will greatly facilitate business with Vancouver. There will be ample time to answer Coast letters the same day as received.

Ralph Smith Tirades Against Bowser Government.

Veteran Liberal Speaks at Strong Meeting in Support of L. V. Rogers.

Whether or not they are going to come out on top on the 14th of this month, the meeting which the Liberals had on Wednesday of this week was an enthusiastic one. It was intended originally to hold the gathering in the Campbell Hall, but it was a wise decision to change the venue to the College Gymnasium, because the small hall would certainly not have held the crowd.

The speakers were Mr L. V. Rogers, the Liberal candidate for the South Okanagan and Mr Ralph Smith, one of the party candidates in Vancouver, and a veteran of many campaigns. Mr W. C. Kelley presided.

COVERS FAMILIAR GROUND.

Mr Rogers speaking for about half an hour, covered ground more or less familiar to readers of the Review from reports of his meetings which have appeared from time to time. He does not consider this a fight between Liberals and Conservatives, or a more party clashing, but states the question is whether the present government on its record as trustees for the public should be returned for another term. He scores them for not carrying on in a business like way, and on the ground of extravagance, backing those statements up with an array of solid facts. The government has lost the confidence of the people—illegality runs riot.

Mr Rogers said that the Premier was trying to make capital out of the disagreement of Mr Smith with Mr Browder in the matter of the

Ayrshire Strain For Garnett Valley.

Dairymen of Garnett Valley held a meeting in the schoolhouse a few days ago and formed a pure bred stock association. Every resident interested in the matter favored the introduction of Ayrshire strain into that section. Whereas there were at one time no more than five cows in that section there are now in the neighborhood of fifty.

Communication is being made with Dr Tolmie, Live Stock Commissioner, with a view of having an Ayrshire bull brought in, and it is expected that the animal will be here next spring. It is said to be the purpose of the newly-formed association to limit the use of the bull strictly to Garnett Valley dairymen.

Prisoner of War In Germany.

Jack Firstbrook, who was mentioned in these columns several weeks ago as one of the aviators reported missing, has been heard from. A telegram received on Thursday morning at Naramata states that he is now a prisoner of war in Germany, and faring well. Mr Firstbrook, who has many friends in Naramata and Summerland, having visited here with his sister, Mrs W. L. Robinson, enlisted for aviation service in Toronto shortly after war was declared.

The prune crop in Walla Walla is valued at \$500,000 this year. Onions in this district are worth about \$400 a car.

latter's writ against the government. That little difference, said Mr Rogers, was a sign of strength in the Liberal party, indicating that no one-man rule existed there, as it did in the government.

Speaking to an agricultural audience, Mr Rogers selected from the issues at stake those which most affected this section. He criticized the government's land policy as it has been carried out during the past thirteen years, and set forth Liberal ideals in this regard. The farmers' loan policy he characterized as long delayed legislation, to which his prime objection is that it leaves the way open in its administration for patronage and party workings. It would have been so simple to place the entire matter in the hands of independent people, he said. One difference between the parties to-day is that while the government condones patronage, the Liberals condemn it. Sanguine references to himself as "the coming member for South Okanagan," and to the time when he would be sitting in the Legislature at Victoria were received with applause and laughter.

On the matter of the irrigation problem, both Liberal and Conservative candidates seem to be virtually in agreement. Both advance the plan of government ownership of the reservoirs and dams, and if necessary the main canals, with the actual distribution in the hands of the water users. Mr Rogers pointed with pride to the fact that the principle of government ownership had been a Liberal plank for years, while the Conservatives had opposed it, taking it up now merely as a matter of expediency. In the last thirteen years, Mr Rogers said, the government has done virtually nothing for irrigation.

Replying to the statement that he did not have heavy interests in the constituency, Mr Rogers said vehemently, "We do not want mon-

1917 Roll Will Show Revision of Assessments Downwards.

Council Authorizes Assessor to Commence Work. Resignation of Electrician Received.

A special session of the Municipal Council held last Saturday morning with a full Board in attendance, opened with a discussion in regard to several tax sale properties. Special circumstances bearing on each were considered, but the Municipality declines in all cases to put itself in a position that might be looked upon as discriminating between two parties interested in any particular properties.

In regard to the clear marking of lots in the cemetery, the Clerk brought in an estimate for wooden stakes set in a cement base, but on the suggestion of the Reeve the cost of providing all cement posts will be looked into.

Two letters were read bearing on the Morgan-Brown seepage trouble at Trout Creek, a brief official letter from Dr Young, Comptroller of Water Rights, and another from Mr Augustine, the engineer who has looked over the ground. The latter complained in his letter that the Municipality were not living up to the agreement entirely in regard to the measuring boxes which were installed according to Mr Augustine's suggestion. The opinion of the Irrigation Superintendent and some of the Councilors, however, was that they were even doing a little more than was asked of them.

Among other things Mr Augustine enquired as to when the irrigation season would close. It was agreed in the Council that the ditches would be kept full till the 15th of September at all events.

K.V.R. COMPLAINS OF FLUME AND DITCHES.

A request was received from Mr O. E. Fisher of the K.V.R. asking for the installation of a standpipe at the station, and this has since been put in.

Mr Fisher complained of water leaking from flumes and ditches above the tracks, pointing out the serious damage which might be caused in this way. Superintendent Thomson, reporting on this matter, said that at Mile 10 the trouble was originating from the flumes which the railway company is supposed to maintain. At Mile 11 the municipal flume needed lining, and he thought steel fluming would be the best thing in this particular case. West of this point both municipal and railway flumes were at fault.

with corporate interests." His only purpose would be to give the best possible service to all.

NOTE FOR PROHIBITION.

Mr G. J. C. White took the platform at the conclusion of Mr Rogers' address representing the local prohibitionists. He described prohibition as the greatest issue in the campaign, and in years to come, while people might forget for which party they cast their votes at this time, they would never forget that they helped to bring in prohibition in 1916. He urged a strong attendance at a meeting referred to elsewhere, to be held on Monday night in the interests of prohibition, when questions and discussions on the matter are to be invited.

NOTHING HALF-HEARTED ABOUT MR SMITH.

Mr Ralph Smith got a very cor-

It was decided to get in touch with Mr Fisher and ascertain if he could come up and look over these places with some of the Council, when a speedy adjustment of all the trouble could be had.

ELECTRICIAN RESIGNS.

Mr C. H. James, the Municipal Electrician, sent in his resignation, having joined the Motor Patrol Service. This was accepted by the Council to date from the end of August. The plant has temporarily been in charge of T. P. Thornber, and it was left with the Electric Light Committee to make arrangements for the running of the plant during the month of September. At the next regular meeting the appointment of a successor to Mr James will be considered.

A THOROUGH REASSESSMENT.

The Clerk again introduced the matter of reassessing the district, instancing the result of the Sir Charles Tupper versus Peachland appeal, which went against the municipal body, as a substantial reason for an entire revision of the assessment roll of this district. Mr Logie's opinion is that there should be a general lowering of the assessments, in order to save the possibility of costly appeals. He read quotations from the new amendments to the Municipal Act covering the question of appeals, and it is clear that there can be no appeal from the ruling of municipal courts of revision, provided that the assessment on the property in question is ten per cent less than the year preceding, and also provided that such assessment is fair and equitable in respect to lands adjacent. General opinion of the Council seemed to favor a revision of the roll on the ten per cent reduction basis. A motion was passed authorizing the Assessor to commence work on the Assessment Roll for 1917, same to be brought down on the 15th of January next. Another motion fixed Mr Logie's remuneration for this work at \$250, to be paid at the rate of \$50 per month from the time the work is commenced till this amount has been paid.

One or two other minor matters were dealt with before the Council adjourned to meet again in regular monthly session on Saturday morning, September 9th.

dial reception from the audience when he arose to speak. He speaks deliberately and forcefully, and showed himself to be a thoroughgoing, out-and-out Liberal—no sitting on the fence for him.

He advanced three reasons for voting down the government, which he elaborated on at considerable length. In the first place the government had failed to maintain its power against corporate wealth; secondly, while the business of the province should be run in favor of everyone, as a matter of fact it was actually being run in favor of a privileged few; thirdly, he charged that the provincial business was not being managed as intelligently and economically as the ministers' own private business affairs would be.

In endeavoring to substantiate the first charge Mr Smith instanced the extensive aid which has been

(Continued on page 2.)

Fall Fair Dates Are Fixed Oct. 25-26.

Secretary W. M. Wright, of the Agricultural Association has received permission from the Department at Victoria to change the date of the Summerland Fall Fair to Wednesday and Thursday, October 25th and 26th. This is about two weeks later than the date originally set.

The compilation of the prize list has been taken in hand, and representatives of the association are now at work canvassing for donations to the prize list.

Reports from New York State indicate that the recent hot weather did tremendous damage to the apple crop there.

Leaves The Pastorate to Enlist.

At a meeting of the Kamloops Presbytery held last week at Kelowna, the resignation of Rev David Lister, of Benvoulin, was accepted. Mr Lister has joined the Canadian military forces, enlisting into the medical section of the 131st Battalion, it is understood. He has gone into camp at Vernon this week.

It was announced that the Presbyterian and Methodist churches of Kelowna have decided to unite under the leadership of Rev E. D. Braden, of the Methodist Church. The Presbytery sanctioned a working basis presented by the uniting congregations. This is the first instance in the west of two strong congregations coming together in the spirit of Christian brotherhood, as far as is known. A strong union co-operation committee was appointed by the Presbytery as suggested by the last general assembly.

Rev. Fergusson Millar of Penticton has offered his services as chaplain in the Canadian forces, and the Presbytery endorsed his application, recommending him for the position.

Rev A. Dunn of Kelowna resigned from the Presbytery, having left the pastorate to take a position on the Kelowna High School staff.

Another Bale From Ambulance League.

The contents of 39th bale recently sent from the Summerland-Naramata branch of the Okanagan Ambulance League are as follows:

129 pr. socks; 3 shirts; 1 bundle face cloths (100); 15 tray cloths; 90 hospital handkerchiefs; 25 T bandages; 1 bundle old linen; 12 kit bags; 7 ward slippers; 7 linen bags; 3 bundles mouthwipes; 10 wash rags; 8 operation stockings; 1 muffler; 16 fomentation wringers; 10 pillow cases; 1 towel.

Lake Level To Be Maintained.

The water of Okanagan Lake is not to be permitted to drop to the extremely low level of last winter, according to the plans of Supt. McDonald, in charge of dredging of Okanagan River and of the dam at the foot of the lake. By the dam through which the water flows by way of spillways, it is proposed to control the water flow and thus prevent the dropping of the lake to too low a level.

Penticton Poultry Association is preparing for its annual show.

Holidays Over, At Work Again.

Schools Re-Opened Monday, And the Attendance Seemed Good.

"And then the whining schoolboy, with his sachel, And shining morning face, creeping like snail Unwillingly to school."

This is what Shakespeare said about the schoolboy, but it does not exactly fit the way the Summerland children began another year's work this week. Enrollments in all departments are good and promise to be better. The extremely hot weather has been trying, making it hard to settle down to real work after the long vacation, and it will probably not be till after the holiday next Monday that the work will be taken up in real earnest.

The High School, with Principal D. H. McIntosh and Mr C. D. Denton, commences with twenty-nine pupils, with prospects of an increase of eleven more. This will give the two teachers no easy task in carrying on the three classes.

At Trout Creek the primary school has been reopened in the J. R. Brown house, the big room formerly utilized as the dining room being adapted to school purposes. Miss Dynes of Penticton, is the teacher, presiding at present over fourteen children.

Miss Ruth Dale has taken charge at the Garnett Valley School, where about ten children are in attendance at present.

At the Town School Miss Lister commenced with about twenty scholars. There will probably be less than formerly at this school, one of the classes having been taken away and added to the Central School.

Some of the older scholars have not yet put in an appearance at the Central School, but within the next few days the elder classes will likely fill up, and the total enrollment will not be any less than last year it is thought, but rather more. The only change in the Central School staff is in the beginners' room, where Miss Evelyn Brown is teaching in place of Mrs Lister.

Makes Reductions In Telegraph Rates

C.P.R. Inaugurates System Of Deferred Payments.

The Canadian Pacific Railway Telegraphs Department has announced a substantial reduction in day telegraph rates by inaugurating a day lettergram between all points on the system. All messages of fifty words or less will, if the sender so desires, be treated as a deferred message and sent at one and a half the regular day rate for ten words.

By deferred message is meant that such message will be transmitted delivered subject to the priority of fully paid day messages. For messages of more than fifty words an additional charge of one-fifth of the day rate will be charged for each additional ten words.

Day lettergrams must be written in plain English or French language, and no code words permitted. This service is now in operation between all offices on the Canadian Pacific lines.

There has been all through the season an abundance of water in Trout Creek, and notwithstanding the long spell of hot dry weather there is not likely to be any shortage of water.

FRIDAY, SEPTEMBER 1, 1916.

A CHANGE DESIRABLE.

THE EXTREME HEAT of these past few days has emphasized the desirability of postponing the opening of the schools. There are many people who can see no reason for resuming school work the last week in August when the summer heat is usually so intense. Added to this is the fact that the first Monday in September is a holiday which means a break in the school routine before work has been resumed a week. Why not commence the day following that holiday, and carry on from that day, when the summer heat has almost past, and working conditions generally are more bearable? It should be borne in mind that schoolhouses are not usually constructed with any special provision for counteracting extremes of heat and cold, and experience shows that the Summerland school buildings, all frame structures, are not any exceptions to this general rule. City schools, of brick or stone, may feel the heat less, and are therefore able to resume the work in August under more pleasant conditions than most rural schools encounter then. For this reason the country schools at least deserve a little extra consideration from the education authorities.

BEHOLD A MIRACLE, says a dispatch from Edmonton. It points out that the city's criminal records have been easily kept since prohibition struck the place. In a three day period last week there was one charge before the city police court, and that on a minor count. The prison farm has become practically depleted of labor because prisoners' terms are expiring and none are appearing to replace them. It's the same in Lethbridge. Prohibition conditions in Alberta are rapidly emptying the provincial jail there of prisoners. Those already in are gradually leaving as their terms expire, and no more are coming in. The authorities are in a peculiar position now of not having sufficient labor to cut the crop on the jail farm. This is just one phase of the economic saving that prohibition effects.

Last Week In Calgary Market

Calgary, Aug. 26.—Mixed cars have been finding a waiting market for all fruits except crabapples. These have not sold to any extent, and are moving slowly. There has been a good demand for preserving fruits. Jobbers report a good week's business in the country, and a large number of mixed cars have been placed to good advantage. Crabapples are not moving. Despite the low price the housewives of the city have not yet realized that crabapples are on the market. Special advertising is being done to help sell the crabs now on the market, and circular letters to the trade are also being sent out, emphasizing the fact that crab apples are cheap. Transparents are wholesaling at \$1.20 in the city and \$1.35 in the country. Apples—Yellow Transparents, Red Astrachans and the other varieties now on the market are moving fairly well at \$1.00 for ones, \$1.65 to \$1.75 for twos, and \$1.00 to \$1.40 for crates and threes according to quality. Crated stock is not as good as it might be. Tomatoes—Selling readily. Four basket, field tomatoes wholesaling at \$1.10 to \$1.25. Hothouse, \$2.00 to \$2.25, all B.C. Some local grown hothouse tomatoes are being sold by the retailers. Cucumbers—Demand not brisk, \$1.00 to \$1.25, hothouse, \$2.00. Pickling cucumbers are wholesaling at \$1.00 to \$1.25. Plums—Selling at from \$1.25 to \$1.40. Supply unequal to the demand. Pears—Bartletts, \$2.75 to \$3.25. Some big lug boxes from Washington containing Bartletts are wholesaling at from \$3.10 to \$3.50. This box weighs 60 lbs., and is consid-

Okanagan "Crabs" Going To U.S.A.

Twenty Carloads of Diminutive Apples Shipped to Middle West.

A new and extensive market has been found by Manager Jackson of the United Growers for Okanagan crab apples. Had he not done so the prices would likely have been extremely disappointing. Prairie housekeepers, because of the high prices of sugar, are not buying as much as usual. This, together with the larger crop, threatened to result in a demoralization of the market, and to prevent this markets abroad were investigated. It is understood that sales in the middle western states amounting to twenty carloads have been made. The second car of crabs from here for the United States was shipped to-day.

Newspapers, Circulars, and Booklets Tell of B.C. Fruit

During the past month there has been issued from the office of the Fruit Markets Commissioner, Calgary, three circulars which have been mailed to over 4,000 retailers of fruit in Manitoba, Saskatchewan and Alberta. These circulars emphasize particularly the value of pushing the sale of B.C. fruits, and set forth arguments to offset the altogether too prevalent talk about the high price of sugar. These circulars have done a great deal of good in bringing to the attention of the retailers and fruit merchants that B.C. fruits are now arriving on the market, and that it is to their advantage to sell none but fruit from the Pacific Coast province. Over 300 letters have been received by the Commissioner during the past three weeks, asking for literature for distribution amongst their customers, calling attention to B.C. fruits.

Over 100,000 pamphlets on "How to Preserve Fruit Without Sugar" have been distributed throughout the three prairie provinces, and nearly 8,000 B.C. Fruit Booklets have been mailed from the Commissioner's office since the middle of June.

It has been thought wise not to advertise preserving fruits too strongly when the supply is not equal to the demand, but some advertising is being done to keep B.C. fruit before the consumers of Western Canada.

Crab apples are being advertised

Canada's Exhibit Of Fruit

Proves Attractive At The Panama-California Exposition.

When the Panama-Pacific Exposition at San Francisco closed last December, the Hon. Martin Burrell was urged to transfer the whole of the exhibit to San Diego, where the directors of the Panama-California Exposition had decided to continue their exposition for another year. Very advantageous arrangements were made, and the Canadian exhibit in its entirety is housed in the finest building on the grounds, which overlook the beautiful bay at San Diego.

As at San Francisco, so in this case, the Canadian exhibit is the central feature of attraction, and Mr Burrell has received the following wire from Commissioner Hutchinson, who is in charge: "All express themselves as highly delighted with the exhibit. Enormous crowds in the grounds, the building being packed to the limit."

Over \$19,000 worth of butter, buttermilk, cream and ice-cream was sold by the Kelowna Creamery during its first year, ending May 31st last. The creamery has entered upon its second year with excellent prospects.

Are you among the thousands of men and women who are carried away by the catalogue habit? Is there anyone in your immediate family circle who is allowing this habit to run away with him? This habit started more than forty years ago. It is this same habit that has stunted the growth of thousands of communities. It has built up a few enormously large cities at the expense of your own town. Don't allow a habit like this to run away with you. Take the bit in your own teeth. Investigate for your self. Find out. Talk it over. Get your heads together. That habit is hurting you and your interests. By killing this habit you benefit yourself, your children, your neighbors, your community. Spend your money at home.

extensively both by circular letter and in the newspapers. This week every jobbing house in Western Canada is pushing the sale of crab apples, and some of the brokers are offering prizes to the salesman who sells the most crab apples during the week. This united publicity effort is bound to achieve results, and crab apples should be purchased by every housewife in the west.

RALPH SMITH TIRADES AGAINST BOWSER GOVERNMENT.

(Continued from page 1.)

given the C.N.P.R. and the P.G.E.R. by the province. The dealing of these two corporations with the government showed that the railways controlled the government, not vice versa as it should be. Now with both these lines seeking Federal aid it was quite possible that all vestige of provincial control over the companies would disappear. All conditions of the C.N.P.R. charter had been broken. In regard to the P.G.E. Mr Smith at least supported Mr Brewster's contention that while all the money from the sale of bonds had been paid over, only 62 1/2 per cent of the road had been built, which was not as it should be. Further, \$25,000,000 worth of common stock had been distributed illegally, and \$310,000 paid out of the provincial treasury for interest charges.

Mr Smith also asserted that mining interests had control over the government, and gave the inside history of the big Vancouver Island strike a year or two back as supporting this contention, and also the \$105,000 gift of mining stock to Dr Young in return for certain privileges. "The government has sold itself out to corporate interests," said Mr Smith. "Their independence has absolutely gone."

In 1904 the civil service cost the province \$250,000. In 1915, \$1,750,000 was spent under this head. There were no fewer than 3,000 outside officials. These were some of Mr Smith's points in speaking on his second reason for opposing the government. He said he never really knew the true extent of the small army of officialdom till he came through the Interior. The government has been working all these years for the benefit of Conservatives only—in the interests of the "machine." But this machine was now breaking of its

own weight. There had to be political machinery of a kind, but there was a vast difference, Mr Smith pointed out, between political machinery which has to be greased and oiled with public money, and legitimate party organization.

In regard to his third point, Mr Smith found fault with the frequency with which the lieutenant-governor-in-council clause found its way into legislation. This was distinctly undemocratic, he said, taking power away from the Legislature and placing it in the hands of a few. Payments of public moneys were authorized under the cloak of this clause for which there was no accounting possible. It was like a set of company directors taking matters into their own hands and transacting business that everyone should have a voice in, if for no other reason than that the Bowser government deserved to be defeated.

On the score of mismanagement Mr Smith also went heavy against the government. He rehearsed familiar figures in this regard showing the growth of the deficit during the past few years. There was an extraordinary increase in expenditures even in the face of dropping revenues. These expenditures, too, were largely reckless machine expenditures, not producing any productive result, nor aiding in the real development of any industry. The information which the expansive commission has been obtaining should have been available through the civil service, thus effecting another huge saving.

Mr Smith denounced as disgraceful the manipulation of the Agent-General and Premier positions between Messrs Bowser and McBride. The people had a right to know, said Mr Smith, just why McBride resigned. Truly Mr Bowser was a "self made" premier.

Concluding, Mr Smith said all evidence he had seen on his tour was against Bowserism. No government has exercised tyranny as this has, and he saw every reason

why the Liberals will be elected. Splendid applause was given all the speakers. At the close of Mr Smith's speech questions were in-

vited, and a few were elicited and answered by Messrs Rogers and Smith. The meeting closed with the singing of the National Anthem.

Simply a little rub with a cloth keeps the highly burnished cooking top always glistening, dustless clean, without blacking; in four pieces it cannot warp or bulge.

Tennis 10c. extra.

PLEASE COME.

Fair Minded with Strength of Character and Experience.

In choosing the first representative for South Okanagan in the Legislature, who could fill the exacting requirements better than a man whose interests are in the constituency, and whose business would benefit or be set back, just as yours would be if those interests were not efficiently looked after?

Who has filled the position of Mayor of Kelowna for five years by the unanimous choice of its citizens, and has therefore been for years in close touch with the requirements of the community and the individual, and who understands by experience how those requirements can be best satisfied?

Who could have a better knowledge of the political and general affairs of the Province? and, as we have said, Who could better represent us in the Legislature?

You answer, "There could be no better man." Reader, that man is Mr. J. W. JONES who is contesting South Okanagan as the Government Candidate, which Government for thirteen years has been so thoroughly trusted by the people, and which without doubt will be returned to power on the 14th of September.

For this reason his services would be more valuable to the district than would those of his opponent. For it is well known that a constituency returning an opposition member has not that opportunity of pressing home its requirements which it would enjoy by returning a Government supporter.

The Government is certain of a substantial majority of fifteen or twenty seats.

Mark your ballot for J. W. JONES, you know he is fair-minded, has ability, character, and strength to fight for the needs of the district.

Improved Service.

At the suggestion of a number of my customers, and for their greater convenience, and to improve my service to the public of the district, I have opened a second STORE in the KELLEY BLOCK (north of barber shop), where you will find me, with a full stock of

MEATS, FISH, &c.,

on the afternoon of Tuesday, Friday, and Saturday of each week.

May I enjoy a continuance of your patronage?
Careful attention given to all orders.

"REVIEW" Offices.

Orchard and Farm; Topics of Timely Interest and Helpfulness in the complex Business of Farming.

The Keeping of Bees.

The saying, "The resources of Canada are inexhaustible" is true of no food products more than of honey. An abundance of honey-yielding flowers, with a high average of favorable weather for the production and ingathering of the honey, makes Canada a good country for the bee-keeper. Moreover, the bulk of Canadian honey is of unsurpassed quality, and honey has become, as it deserves to be, a staple article of food in many places, selling readily at satisfactory prices when properly distributed." So states the Dominion Apiarist, Mr. F. W. L. Sladen, in Bulletin No. 26 Second Series, just issued by the Department of Agriculture, Ottawa, that can be had free on application to the Publications Branch of the Department. Mr. Sladen furnishes the further information that in Ontario and Quebec, and in regions in the other provinces of the Dominion, there are an increasing number of people who make bee-keeping their principle business, some of the specialists in Ontario reaping an income in excess of \$2,500 per year, while there are thousands who find it a profitable and healthful auxiliary to their annual revenue. In Ontario alone it is estimated that there are 10,000 bee-keepers. Mr. Sladen, after dealing with the advantages of bee-keeping, and extending instructions and advice to beginners, proceeds to deal with the different elements involved in bee-keeping and honey productions. In a plain, concise way he tells of the location the apiary should be given, the most desirable races, the development and handling of the bees, the diseases and enemies to which they are subject, and the attention they need at different seasons of the year. He also gives a list, with descriptive illustrations, of the principal honey-producing plants with their approximate yielding periods. In fact, it would seem that pretty well everything worth knowing about the cultivation and management of the honey-bee is detailed in this handy sixty-page official Bulletin or pamphlet published for gratuitous circulation.

Bark Beetles Do Damage.

Bark beetles are doing a tremendous amount of damage, to the bull pine and yellow pine forests in Southern British Columbia, and especially in the vicinity of Princeton. Clumps of dead trees are to be seen in many places, also trees with just the tops dead, known as "red tops." Two years ago J. M. Swain, assistant entomologist for the Dominion, in company with H. H. Thomas, of Princeton, member of the Provincial forestry staff, made an investigation, and the government published a bulletin on his findings. There are two species of the bark beetle, the technical names being the "Dendroctonus brevicornis" and the "Dendroctonus monticolae." The beetles enter the bark of the healthy tree in pairs during the summer months. The female does all the boring, and the male "mucks" back the sawdust. So many holes and crevices are bored and so much sap and pitch escapes that in three

Butter Up In Price.

The price of butter is soaring. New Zealand is sending all its supply to Great Britain, and British Columbia is unable to obtain any from that source. Manitoba and Alberta, instead of importing, are contributing to the export demand. There has been an advance of two cents a pound of late in Winnipeg. Creamery butter is now quoted at 31 cents a pound at the creameries. Retail creamery is selling there for 37 cents a pound, and city and table and dairy at 30 to 35 cents.

years the tree "bleeds" to death. Cutting and burning the infected timber seems so far to be the only known means of destroying the insect. Recently R. Neil Chrystal, another entomologist, was through the Nicola district with Mr. Thomas, and will be back this month to make further investigations.

Monster Shark Caught Near New York Bathing Beach.

The army of bathers who have swarmed the New York bathing beaches for many years with a feeling of absolute security are very much stirred up over the presence of sharks in the waters about New York city. Apparently there is none too much food about for such as do chance to wander northward and into the water chilled by the Labrador current, for the shark shown in the accompanying photograph leaped into a row boat in pursuit of a fish caught on a line by one of the party in the boat. The monster weighed 340 pounds, and it was no easy matter for those in the small boat to overcome the big fish, which lashed about frantically. To come close to the razor-like jaws of the brute would have been fatal. Finally the shark died, as any fish will out of water, and the party of triumphant fishermen put back to Far Rockaway, L.I., with a catch they had never expected to make.

WHEN BUYING YEAST INSIST ON HAVING THIS PACKAGE

DECLINE SUBSTITUTES

CHRISTMAS PARCELS FOR NARAMATA SOLDIERS.

The regular weekly meeting of the Naramata branch of the Okanagan Ambulance League was held in the Unity Club parlors on Saturday last. At this meeting it was unanimously decided that every soldier wearing the khaki, who has lived and gone out from Naramata, both home guards and overseas, will receive a Christmas parcel, the said parcels to be sent five weeks before Christmas Day to our boys serving overseas, so as to be sure of reaching them in time. Each parcel is to contain a Christmas cake, socks, candy, and gum. There was a good attendance at this meeting, the interest keeping up surprisingly well considering the busy season. Mrs Hayward and Mrs T. H. Boothe served refreshments towards the close of the afternoon's work.

Current Events

Town & District

Mr Herbert Pierce spent Sunday at Paradise Ranch, the home of Mr Matthew Wilson.

Mr Willie Mitchell has recently purchased a fine bay mare from Mr Fred Dennison of town.

Mr Flinch of Penticton was here for a few days last week at the home of Mr and Mrs J. C. Lyons. While here Mr Flinch assisted Mr Lyons in kalsomining the school house.

Miss Maud Walker of Vancouver has returned to Naramata to resume her duties as junior teacher of the school here. A half holiday was given to the children on the first day of opening.

Miss Gwen Robinson went out on Saturday morning's boat for the Toronto General Hospital, where she has been accepted as a probationary nurse. Her friends all wish her the very best in her new field of labor.

Mr J. S. Lyons, painter and decorator, has completed the cleaning of the schoolrooms, giving each room a thorough overhauling, kalsomining the ceilings, scrubbing and shellacking and oiling the floors, fixing up the desks and blackboards, etc., and leaving everything in splendid shape for the teachers and scholars to go ahead with their year's work. Mr Lyon is certainly to be complimented on his fine workmanship.

Naramata Current Events.

(Continued.)

Manager Jack Lawler of the Summerland Fruit Union spent Monday in Naramata.

George Tomlin of Kaleden spent a few days in Naramata visiting friends.

Master Stanley Stiff left for Kaleden for a few days visit with his friend, George Tomlin.

Mr and Mrs R. H. King and children spent a few days last week with friends in Penticton.

Mr and Mrs Fred Manchester of Naramata are leaving for Battle Creek, Mich., on Friday morning.

Mr L. V. Rogers, Liberal Candidate of the South Okanagan riding, visited Naramata on Saturday last.

We are pleased to report that Mrs M. M. Allen, who has been on the sick list for a few days is better and able to be about again.

A party of Naramatans went down to Penticton on Saturday evening, taking in the Picture Show, and returning on the late ferry boat.

Capt. Languedoc, Supt. of the irrigation system here, completed his term on Thursday, August 31st, with the Okanagan Securities Company for this season.

Mr Geo. Schreck and his mother, of Buffalo, N.Y., came in on Friday evening's boat to spend the remaining part of the summer at Keystone ranch, the home of Mr John Schreck.

Miss Amy Armstrong, daughter of Dr Armstrong of Calgary, Alberta, came in to Naramata on Tuesday morning by K.V.R., and visited Mr and Mrs Russell Wells for a few days, leaving again on Friday.

Mrs R. C. Lipsett, accompanied by Mrs. Alex. Moreland and sons Jack and Bobby, came over the lake on Friday last to spend a few hours with Miss Gwen Robinson at Hotel Naramata before her leave taking for Toronto.

Word has been received from Private Harry Pitman and Private Rev. W. B. Willan, both former residents of Naramata, that they are now in the field of action in France, doing their bit for King and Empire.

Mrs J. J. Warren of Penticton, wife of the President of the K.V.R., and her daughter Miss Warren, came up on Thursday last and spent a few hours with Mrs J. M. Robinson and daughters at Hotel Naramata.

On account of the shortage of water the manager, Mr Gerald B. Williams, of the Electric Light Co., has given notice that the service will be discontinued until such time as the supply of water would justify the operating of the plant.

A party of young people held a picnic up beyond the big K.V.R. tunnel on Sunday last, the whole party going up on horseback in the morning and returning in the evening. All report a splendid time spent, the day being very fine.

Rev. R. M. Thompson of Penticton motored up and conducted divine service in the Methodist Church on Sunday afternoon. On account of the illness of the regular organist Principal Rayner ably presided at the organ. A solo was sung by Mr Ravenscroft of Penticton, which was greatly enjoyed by those fortunate enough to be present.

Kolowna - September 26-27
Armstrong - September 28-29
Penticton - (No Fair)
SUMMERLAND October 25-26

Naramata Current Events

(Continued.)

Mrs Mulford paid a short visit to Penticton on Tuesday.

Mr Rhind of Fairview is the guest of Mr and Mrs Harry Mulford.

Mr Stanley Dicken of Lethbridge, Alta., is spending a short holiday in Naramata.

Mrs Frank Wilcox and little daughter Margaret are the guests of Mrs T. I. Williams this week.

It is understood that the property formerly known as the J. B. Ireland place has again changed hands.

Mr and Mrs Henry Whitaker of Victoria, B.C., came into Naramata on Tuesday night's boat, and are registered at the Syndica House.

Subscribe for the Review. Let us show our appreciation of this "Naramata Section" by having this paper coming into our home every week. It is our own home paper.

Mr Boone of Montreal, one of our absentee orchard holders in this district was in town last week looking over his interests here. While here Mr Boone was a guest at Syndica House.

Mrs T. I. Williams entertained the young people of the town at her home on Thursday evening in honor of her daughter, Miss Orea, who is to be married in the early part of September.

Mr and Mrs Caid and family of Peace River, Alta., have come to Naramata to make their home. They are for the present occupying the McKay cottage until such time as their ranch home is ready for them.

On account of the great drought of the last few weeks and almost constant sunshine, the fruit in many orchards is ripening up very fast, almost too fast indeed for the people in charge to get it to the packing house before it is too ripe. This Valley is truly named the Sunny Okanagan, that is why we have such superior colored fruit of all descriptions. The apple, the plum, the pear, the peach, in fact everything growing in our favored district.

A Swede was courting his girl one night, and overcome by the tender passion, asked her to marry him. She readily consented, after which both were silent for a long time. Finally the girl asked Ole why he didn't say something. He replied, "I tank der bane too much said already."

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B. - Unauthorised publication of this advertisement will not be paid for.

Review Office.

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools' studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800

Passing Events: Social, Personal, &c.

Mrs E. B. B. Reesor, known to many of our readers is now a resident of Vancouver.

Mr and Mrs Hespeler and little daughter returned at the end of last week from Vancouver.

Miss E. Watson, Miss Myrtle Clay and Mrs Blower are leaving on to-night's train for a holiday excursion to the Coast.

Vernon city schools will not be opened till Monday the 11th, by order of the health officials. The change was made because of the hot weather.

Mr Leitch, manager of the Dominion Cannery at Vernon has been covering the district this week looking for peaches and other local products for his cannery.

To-day at the Union a car of tomatoes is being loaded for Vancouver, also a car of crab apples for North Dakota, and a mixed car of peaches, cucumbers, and apples.

After several attempts Mr W. H. Milligan, who has been doing home guard service, has succeeded in being enlisted for overseas. He is now in the Vernon camp with the 172nd.

Miss Jean Robinson, who did some substitute work in the city schools, and was recently appointed to the permanent staff, has declined the position, having taken a better appointment at Peachland.—Victoria Times.

Misses Robina and Grace Logie went out on this morning's boat on their way East where they will visit relatives and friends in several points. Miss Annie Dale is assuming Miss Robina's duties as assistant postmistress at West Summerland.

Word has just been received here by Mr and Mrs Sydney Sharp of the death of Betty, the only child of Mr and Mrs W. J. Nicol, former residents of Summerland, but now of Vancouver. The little child was two years and nine months of age, and died on August 29th. Mr Nicol is now serving in the army.

Mr B. T. Boies, Dominion Fruit Inspector, has this morning received instructions from his chief, Inspector Clarke, that the main crop peaches, Late and Early Crawford, Elbertas, etc., packing smaller than 90s must be graded No. 2s. "This is the ruling," says Inspector Clark, "on which imported peaches are graded, both on the prairies and in B.C., and we cannot allow our standards to fall below those set on imported fruit." This ruling will apply to the individual shipper as well as the larger concerns, and Mr Clark's instructions are that it must be fairly carried out.

Summerland Fruit Union.

Two cars of cows, heifers, etc., were lauded here on Thursday morning for L. C. Woodworth.

Col. Cartwright, musketry instructor at Vernon, was a recent visitor to the camp at Sidney, V.I.

The Home Comfort Club will meet next Thursday evening, Sept. 7th, at the home of Miss Blair, Peach Orchard.

R. H. English and son of the Pioneer Livery announces that their car meets all eastbound trains at the Kettle Valley station, West Summerland.

Raymond E. Bent, who spent the summer vacation here with his parents went up the lake on Sunday morning to resume his teaching duties at Seymour Arm.

"Election Issues" will be the subject of Rev N. McNaughton's address on Sunday morning at the union service in St. Andrew's Church. At the evening service in the Lakeside Church he will speak on "The Curse of Mercoz."

Mr and Mrs Lloyd and child of Wallachin, B.C., are now living in the Dr Smith house, having rented it furnished from Mr and Mrs H. Everett. Mrs Lloyd and child came in at the beginning of this week, Mr Lloyd preceding them by a few days.

Mr and Mrs Arthur Solly, now of Armstrong, are visiting at the rectory. They drove from their up-valley home, coming by easy stages and camping en route, and reached here on Monday. Mr Solly sees a great improvement in our orchards since he left here, the growth being very marked.

Mrs Grieve and her daughter, Mrs T. J. McAlpine, went up the lake to Vernon at the end of last week, accompanying Bandsman W. Grieve, who went to rejoin his battalion, the 172nd, after a three weeks' leave. Another son of Mrs Grieve, Alex., known to many here, is also at Vernon with the 131st Battalion.

Tuesday of this week has been voted the hottest day so far encountered this year. In proximity to the lake or where it was possible to get the benefit of what little breeze was moving it was bearable, but other places got it good and hot. One thermometer under an awning at West Summerland registered 104 degrees during the afternoon.

Those who have occasion to be up late at night just now should not fail to notice on starry nights the brightness of Jupiter, easily the most conspicuous star visible. This fact has been drawn to our attention by a valued subscriber. Jupiter is the largest of the planets, and is attended by eight satellites, four of which may easily be discerned with field glasses.

Mr and Mrs Wm. Duncan, accompanied by Mr Duncan's mother and sister, Mrs and Miss Duncan, all of Enderby, spent several days last week in Summerland. The party made the journey by auto, it being the wedding trip of Mr and Mrs Duncan and their first visit to this part of the Okanagan. The visitors were naturally delighted with our beautiful lake and splendid fruit orchards. The return journey to Enderby was made by way of Keremeos, Hodley and Kamloops. While here the party wore the guests of Mr Duncan's sister, Mrs A. Dockstader.

In one of his characteristic cartoons or "Popular Profiles," now appearing in the Vancouver World, J. W. Bangough has caricatured Colonel R. Cartwright of this place, and now Musketry Instructor at the Vernon Camp. The cartoon appeared in last Friday's issue. Under the picture the following Bangough-like explanation was printed: The war spoiled the spraying season on Col. "Bob's" Summerland ranch. He took the first boat up the lake to Vernon, with his binoculars and his sword under his arm, and allowed a military tailor to make a big hole in the season's apple money in exchange for a new suit of khaki. The "onion" who falls to "keep his rifle and his kit just so" gets a touch of the original Cartwright epaulet that makes Sherman's description of war seem like a benediction.

BIRTHS.

DUCKETT—On Friday, Sept. 1st., at Summerland Hospital, to Mr and Mrs R. Duckett, a daughter.

What Does "Somewhere In France" Mean To You?

Does that much read and oft repeated phrase "Somewhere in France," hold for you a meaning dear in memory? If so the great war-play of that name which is coming to Empire Hall will no doubt be a welcome factor in depicting actual scenes from the front in addition to affording you probably one of the most wholesome and interesting evening's amusement which you have had for some time.

A military drama, whose scenes are laid in Canada and "Somewhere in France," it has a heart interest, which, irrespective of these points, demands recognition as a wholesome love story of exceeding charm. There is, of course, the usual unscrupulous villain who adds to the story a melodramatic flavor by his daring efforts to end the life of his rival in order that he may win the girl. How his plans are frustrated after being seemingly accomplished, and the wounded is returned to his sweetheart who nurses him back to life and happiness is told with a simplicity and charm which pleases even the most fastidious.

Trench warfare is realistically depicted in the second act of the play as are some of the thrilling escapes which take place in the "dugouts." The construction of this trench took place under the eyes of a returned soldier who had the pleasure of making the "original" his home for a period of months, and who was invalidated home after having received a bullet through the right shoulder which incapacitated him from further duty at the front, and consequently it has been built with attention to detail, even the background with the help of the scenic artist has been made to show the entanglements as well as enemy trenches in the distance.

"Somewhere in France" comes to the Empire Hall on Saturday, September 9, and from the number of enquires to date a record house is expected.

Raymond E. Bent, who spent the summer vacation here with his parents, went up the lake on Sunday morning to resume his teaching duties at Seymour Arm.

Mr D. E. Hatt, who has been covering Similkameen in the interests of prohibition, filled the pulpit of the Pentiction Baptist Church on Sunday last. It is stated that he has since returned to Vancouver.

For the first time in the history of Canadian horticulture, the Department of Agriculture has this year established grades for crab apples. Growers and shippers are being instructed in this regard by the inspectors. A requirement for No. 1 crabs is that they be not less than 1 1/2 in. in diameter.

Death has again visited the Hewitt family, now of Pentiction, formerly of Peach Orchard and Jones Flat, this place. Thomas, the fifth son, who has been ailing for some time, passed away on Tuesday morning. The funeral was held on Thursday afternoon from his father's home on Lakeshore Drive.

Daylight fireworks is to be a feature of the afternoon's program at a Red Cross Tea to be given by Miss Dodwell and her nephews, Messrs P. G. Dodwell and his brother N. C. Dodwell of Vancouver, on Friday afternoon next at the Lawn Tennis Club grounds. Further particulars of this event, which will doubtless be looked forward to with pleasant anticipation by many, will be found in our advertising columns.

Mr N. C. Dodwell of Dodwell & Co., Vancouver agents of the Blue Funnel line of steamships, is spending his vacation here at the home of his brother and aunt at Meadowbrook Orchard, Prairie Valley. This is the sixth succeeding season in which Mr Dodwell has passed his vacation here, in itself an indication that Mr Dodwell likes Summerland. As a matter of fact he is most outspoken in his praise of our community and its healthful, delightful climate, and declares he would not spend his summer anywhere else.

WEST SUMMERLAND, B.C.

"If the Northwestern apple shippers refuse to be stamped, good prices should be realized this year," said L. J. Blot of the Spokane Fruit Growers' Co., recently.

It is learned that there is a bill before the United States Senate to regulate the size of the fruit boxes for interstate shipment. The boxes required by the bill are identical in size with those now in use. The object is to standardize boxes and guard against dishonest dealers and growers. The bill has passed the House of Representatives, and is expected to pass the Senate shortly.

THE WHOOPING-COUGH.

Few people realize what a serious disease whooping cough is, and the greatest carelessness exists regarding it.

Fully one half the cases occur during the first two years of life, and many of these are during the first month.

Only those who have had experience with the disease in young children can understand what it means. There is no rest for patients or attendants, night or day, for as a rule the paroxysms are very frequent, and, even, when there are no complications, leave the child exhausted.

Nor are the paroxysms all, for with each one vomiting is very likely to occur and starvation for the child stares you in the face.

Broncho-pneumonia is the most common complication, and, being a very serious disease at any time, it is particularly so in connection with whooping-cough, and the mortality when it results is very high.

These things being true, it is very important that people should feel responsibility regarding its spread. How any one can feel justified in taking children with this disease to moving picture shows, picnics, on street cars, or any other place where people are gathered is quite beyond comprehension.

A BARGAIN.

137 Acres for \$2500

\$500 cash, balance in four equal payments: Interest 6 per cent.

Two Prairie Valley Men Send Thanks.

Fort Stamford, Plymouth. August 4th, 1916.

Dear Mrs Hogg, I am writing to thank you and the members of the Home Comfort Club for their kindness in sending me the parcel which arrived a few days ago, just in time for me to pack in my kit, as I am under orders to take some drafts to Salonika, the doctors thinking it a good chance for me to rest my leg, which has been rather troublesome lately.

Yours sincerely, F. C. NAPER.

August 1st, 1916.

Dear Mrs Hogg, The Home Comfort parcel arrived safely at my stall (we are billeted in the remains of a stable), and was much appreciated, especially the candy. Up to the present I haven't been in need of Hun-proof garments, but as they are in strong force in the neighborhood I expect to be able to withstand any onslaught, with the aid of said garments.

As you know there are several Summerland boys in this battalion, and though I haven't run across them lately, wandering about being discouraged in this locality, I think all are well.

Kind regards to all friends.

Yours sincerely, T. F. KNOX.

Game Season Opens

For North and South Okanagan, the game season opens as follows:

Grouse, blue and willow - Sept. 15 to Nov. 30.

Prairie Chicken - Sept. 15 to Oct. 15. No person may kill or have in his possession more than 12 in any one day.

Ducks - Sept. 15 to Feb. 15, 1917.

Geese - Sept. 1 to Mch. 31, 1917. Limit 250 for season.

Deer - No open season for white-tail.

Mule deer - Male sex only, over 1 year; Sept. 15 to Dec. 15. Three the limit.

Cariboo - male, one year; Sept. 1 to Dec. 15.

Mountain Sheep - No open season.

Mountain Goat - one year old, both sexes - Sept. 1 to Dec. 15.

Bear - Open throughout the year.

After any open season has expired, six weeks is allowed for the disposal of any large game, and two weeks for game birds.

Trapping - Fur-bearing animals, except fox, Nov. 1 to April 30, 1917. Fox, Nov. 1 to Mch. 15, 1917.

No open sale season for deer in this district. Sale of bear all season.

A Yakima shipper has sold three cars of Jonathans at \$1.75 f.o.b. for Extra Fancies, and \$1.50 for Fancies.

Why Is the Whisky Combine So Anxious to Defeat the British Columbia Prohibition Act? Do you suppose, for one moment, they have opened the gigantic "boodle" barrel to defeat the bill if the bill did NOT prohibit?

WHOEVER heard of a Liquor crowd advocating a Prohibition Act? Still, the Whisky Combine in British Columbia would have YOU believe that. They brazenly tell you that Prohibition is all right, but that the British Columbia Prohibition Act does NOT prohibit.

The Whisky Combine evidently considers the people of British Columbia are brainless, unthinking fools.

The British Columbia Prohibition Act DOES prohibit. It is the BEST prohibition act in all Canada.

The Whisky Combine KNOWS it. The people of British Columbia KNOW it. The placing in force of the British Columbia Prohibition Act means the elimination of British Columbia's greatest waste. It means more prosperity for every man, woman and child within our borders.

Don't allow the Whisky Combine to confuse you! Vote FOR the Act, and share in the prosperity which will follow its adoption.

Mark Your Ballot thus: VOTE "YES" Are you in favor of bringing the "British Columbia Prohibition Act" into force? Yes X No

NOTE - This space is paid for from a fund made up of voluntary contributions of men and women who believe in the abolition of the degrading liquor traffic.

Red Cross Supplies Official Request That Workers Divert Attention To Special Articles. Until further notice, the Canadian Red Cross Society has requested all workers to make no more surgical pads, compresses, wipers, or roller bandages.

Mrs Ross Resigns Her Position On School Board

Dental Service For Summerland School Children.

Health Inspector's Report Suggests Need of Action.

The Board of School Trustees sat in regular monthly session on Tuesday. With the exception of Mrs Ross all members were in attendance. The resignation of Mrs Ross, who will be absent from the community for some months was received and accepted. No action was taken toward filling the vacancy.

Among the communications was a letter from the High School Inspector, Mr A. Sullivan, advising the Board of his having enlisted for overseas service.

A copy of his report to the Department was submitted by letter by Health Inspector Andrew. This report revealed the fact that an unduly large proportion of the pupils were suffering from defective teeth. In his letter to the Board Dr Andrew stated that there was now a movement being made toward having the government appoint dentists to visit the schools and give pupils the necessary dental treatment and instruction. The School Boards may be asked to bear part of the expense. He believed that if enough boards throughout the province applied for such a service it would soon come into effect. The Health Inspector again recommended filtered drinking water for the Garnett Valley School, and that flush closets be provided for the High School. His report showed a considerable increase in the percentage of children who were affected with goitre, for which he could offer no explanation.

Accounts as follows were approved for payment:

Salaries (nine teachers)	\$775.00
Secretary	10.00
Janitor	24.00
Conveyances, August	37.60
Anderson, G., carpenter work	12.50
S'land Drug Co., desks	126.50
Trustees Assoc.	10.00

For the information of interested readers we may state that the province pays \$580 per year towards the salary of each teacher, and also pays one half of the conveyance cost.

Hospital Donations For August.

Through the columns of the Review an appeal was made some time ago for donations of vegetables to the Hospital. A glance at the length of the appended list will show how liberal was the response. We are now asked to express the thankfulness of the Hospital authorities for the quick and ready response to the immediate need. For some weeks past the Hospital has been well filled, and consequently the consumption of vegetables etc., has been greater. Those who can and will help to keep the institution supplied with these essentials will be doing a good work, and they may be sure their contributions will be appreciated.

Mrs W. H. A. Moore—vegetables and fowl; Mrs J. E. Phinney—flowers and magazines; Mrs W. M. Wright—vegetables, milk, and flowers; Mrs G. J. C. White—vegetables and old linen; Mrs C. J. Thomson—eggs, fowl, and fruit; Mrs S. Darkie—canned fruit, and oranges; Mrs J. Downton—potted plant; Mrs R. C. Lipsitt—pudding and eggs; Mrs M. Campbell—can-

Name Is Missing

Takes From Value of Picture.

A neat and attractive folder issued from Winnipeg is being distributed by the Kettle Valley Railway. It describes in pictures and words the new scenic route across southern British Columbia. Among all the pictures used the most honor is done to one of Summerland, which is used to cover the front and back of the folder, but unlike the others, there is no legend to tell of what it is. This oversight is to be regretted, as not only does it leave unanswered the query of many, but an excellent opportunity to make known its beauties is lost to Summerland. Those familiar with the outlook from that part of the railway will quickly recognize the picture as being taken from above the Cross property looking across the meadows towards Rattlesnake Mountain. The sweep of the railway around the rock as it swings from Prairie Valley to Peach Valley, with the orchards below and beyond, and the background of rugged hills make a very pretty picture. Let us hope that the next time it is used Summerland will be given due credit.

Thanksgiving Day, October Ninth

Thanksgiving Day has been fixed this year for the second Monday in October, which is the 9th of the month. The date is fixed every year by the Dominion Government, and the necessary order-in-council was passed last week.

Well-known Methodist Pastor Enlists

After trying many times since war broke out to enlist for overseas service, and making special journeys on several occasions to the Coast recruiting depots, Rev. Geo. B. Kinney, B.A., Methodist minister in the Nicola Valley circuit, has been accepted, and within the next couple of weeks he will relinquish his charge to join the ranks of the Army Medical Corps. Mr Kinney has friends here who will learn with interest of the step he has taken.

For several years he enjoyed unique experiences as a mountaineer, explorer, and lecturer. In his travels he has reached the most difficult regions of the Canadian Rockies. His most notable feat was his discovery of Mount Robson, which gained for him fame among geographical societies of the world. Mr Kinney delivered a lecture in Summerland a winter or two ago.

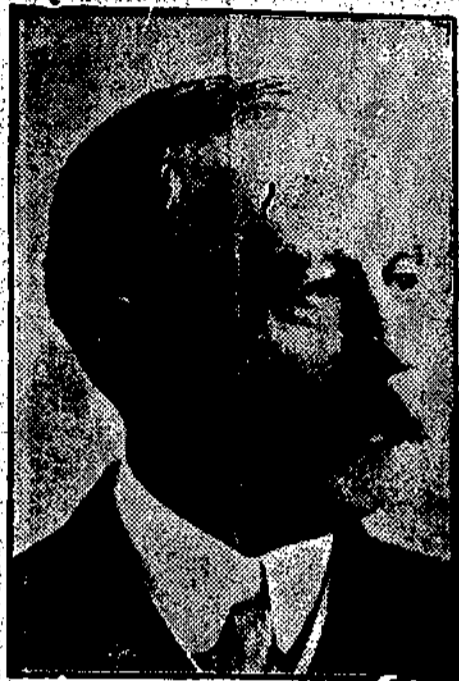

ned fruit, vegetables, and butter-milk; Mrs H. H. Elsey—flowers; Mrs H. Bristow—vegetables; Miss Dodwell—vegetables and eggs; Miss Arkell—vegetables, butter-milk, flowers; Dr Andrew—extension light; Dr Lipsitt—fruit; Mr A. Hespeler—potatoes; Mr P. Thornber—fruit and flowers; Mr S. M. Young—fruit; Mr W. J. Robinson—buttermilk, fruit; Mr A. Britton—fruit; Mr Traylor—fruit; Mr R. Pollock—vegetables, fruit, honey; Mr R. Johnston—fruit; Mr Holmer—flowers from flower show; Mr T. Ramany—vegetables; Mr P. G. Koop—vegetables; Mr G. Thornber—potatoes; Mr H. W. Snider—fruit and vegetables; Rev. H. A. Solly—vegetables; Mr Alex. Smith—vegetables; Mrs R. Cartwright—corn; Lou Sing Dow—potatoes and flowers.

Children—Elsie and Bertha Riley, Ethel Phinney—flowers; Kirk Sutherland—cream.

The Hospital Board are also grateful to our local electrician, Mr T. P. Thornber, for services rendered without charge.

Minister of Agriculture Here

Will Speak With Mr H. H. Stevens, M.P., Mr J. W. Jones and Mr L. V. Rogers To-Night.

THE HON. MARTIN BURRELL, Minister of Agriculture and member of the House of Commons for this district, together with Mr H. H. Stevens, member for Vancouver, arrived in town this morning. The people of the district are to be given an opportunity to hear both these distinguished gentlemen speak at the College Gymnasium to-night. Our member, the Minister of Agriculture, needs no introduction to any Okanagan audience. The minister is spending a few weeks in his home constituency, his first visit west since his terrible experience last winter in the fire which destroyed the parliament buildings. Mr Burrell's Summerland constituents will be glad to welcome him back.

Mr Stevens is regarded as one of the most eloquent speakers in Western Canada and, by request, will address to-night's gathering. Other speakers will be Mayor J. W. Jones and Mr L. V. Rogers, government and opposition candidates for South Okanagan's seat in the provincial house.

The chair will be taken at 8.30 local time.

Convinced By Results.

Spokane Papers, Confessing Surprise, Tell of Wonderful Change Resulting From Prohibition Act.

One has but to spend a few days in such cities as Winnipeg, Spokane, and Seattle to realize how very much the new temperance laws have done for these provinces or states which have made the sale of liquors within their boundaries illegal.

Most convincing, however, are the statements of those who, fearing the business consequences, opposed the proposed legislation. Editors of a number of the metropolitan dailies, seeing the marvellous improvement, have not been slow to admit their mistake. In reply to an enquiry from New York, Henry Rising, Editor of the Spokane Daily Chronicle, writes:

Editor, The Survey, New York.

Dear Sir,—One year ago they told us prohibition would throw thousands out of work and fill the towns of Washington with vacant stores and dwellings. They told us the state would swarm with bootleggers and reek with moonshine whisky. They told us liberty would be stifled, morals would suffer, and business would go to the dogs.

We were afraid they were right. For months now Spokane has honestly tried prohibition, and it has prohibited. Not perfectly, but better than speed laws prohibit fast driving or larceny laws prohibit theft. Drinking has not stopped. Close to one thousand persons per week get permits to ship liquor into this county, as the law allows. Reckoning each of those thousand permits at the maximum, the total amount would have given each Spokane saloon of one year ago just six quarts of whisky, and seventy-two bottles of beer for a week's supply—enough to last a small saloon till Tuesday night.

Let the public records tell the rest of the story: From January 1 to May 1, 1915, this city arrested 501 drunks, 441 vagrants, and 256 disorderlies. From Jan. 1 to May 1, 1916, the record was 150 drunks, 128 vagrants, 80 disorderlies. One

year ago there were 180 prisoners in the county jail; now there are 30. Spokane's building permits for the first four months of 1915 gave a valuation of \$344,000; same period of 1916, \$548,218. Bank clearings for first four months of 1915 were \$156,355,107. Four months of 1916, \$188,289,410.

Charity cases before the Social Service Bureau, first four months of last year, 1,070. For four months of this year, 700. Inmates of the county poor farm one year ago 161. Now 116.

Add to this that unemployment is less, poverty less, than twelve months ago; divorces are fewer; collections are better; dives have closed; white slavers are not to be found; burglaries and holdups have dwindled; the panhandler has vanished; grocers, clothing merchants, shoe dealers, report gains in business ranging from 5 to 35 per cent; now business blocks are being built; the banks hold millions more in deposits than they held last April; the hotel men who at that time were near panic over the coming of the new law, are wearing smiles as they turn surplus guests away.

The Chronicle did not fight for prohibition in 1914. It is ready at ten seconds' notice to-day to

Game Regulations

Correction Made in Date Published.

Last week we published a summary of the game regulations which appeared recently in another Valley paper in a form which we thought would be of value to Review readers. Noting the list just before going to press and never doubting its correctness we did not take or have the time to compare it with the official regulations, and it was not till after printed that we discovered some errors. We hope that none of our readers' plans were deranged by the errors, and now give below a summary taken off the officially published regulations. These dates are for North and South Okanagan and Similkameen:

- Grouse—Sept. 15 to Nov. 30. Not more than 12 in any one day.
- Prairie Chicken—Sept. 15 to Oct. 15. To Sept. 30 in Similkameen. Not more than 12 in any one day.
- Cock Pheasants—Similkameen only, Oct. 18 to 31.
- Ducks—Sept. 1 to Jan. 31.
- Geese—Sept. 1 to Mar. 31.
- Deer, Mule, male only, over one year—Sept. 1 to Dec. 15. Shooting white tailed is prohibited. Not more than three.
- Caribou, male, over one year—Sept. 1 to Dec. 15.
- Mountain Sheep—Prohibited.
- Mountain Goat, over one year, both sexes—Sept. 1 to Dec. 15.
- Fur-Bearing Animals, except Fox—Nov. 1 to Apl. 30.

TRAPPING.

There is no open season for trapping Beaver in Similkameen.

Foxes—Nov. 1st to Mar. 15.

24 Hours Late

The Coast mail which should have reached the Summerland Post Office on Thursday morning did not reach here until Friday morning, much to the annoyance of many. As usual the train was met by the courier, but only that for the West Summerland Post Office was put off. Later it was learned after enquiry by phone from the Summerland Post Office that the mail for that office, which included that for the rural route had been carried on to Penticton. Why no effort was made to rectify the stupid blunder instead of keeping the mail bags there for a full twenty-four hours has caused considerable resentment. The stray bags were delivered by boat this morning.

fight its best against any serious effort to repeal or cripple the prohibition law.

The Spokesman-Review, our morning paper, said this week that the police records show a falling off of 67 per cent. in arrests since the first of the year. The Spokane county physician treated on an average of one case a day of delirium tremens last year, but had four in January and none in February and March. Pasco, a railroad junction and division point, county seat, paid last year \$100 per month for feeding their prisoners. This year the jail doors, both county and city, are swinging wide open.

These are just a few of the things that come to my mind as I have your letter, and I can furnish you a great many more such if you care for them.

Yours very truly,
HENRY RISING,
Editor Spokane Daily Chronicle.

Spokane Spokesman-Review,
March 11, 1916.

Last night Mrs Robert Fairloy, the stewardess at the county jail, served meals to 41 inmates, all the prisoners the jail contained. In (Continued on page 6.)

Plans Are About Ready To Improve School Grounds

Supervisor J. W. Gibson Taking Lead in Good Work.

Garden Plots For Practical Instruction.

Plans for the improvement of the grounds about the High and Central Schools were shown the Review this week. These plans were recently prepared by Mr J. W. Gibson, Director of Elementary Agricultural Education, who has also been commissioned with the direction and supervision of the improvement of school grounds throughout the province. The pencil plan as drawn by Mr Gibson is the result of a day spent by him and Trustee Hilborn on the school property some time ago. After further consultation with Mr Hilborn, perfected plans drawn to scale will be made and forwarded to the School Board. According to the plan there will be a row of evergreen trees 10 ft. apart along the west and north lines of the school plot, four feet inside the lot line. Along the east and south acacia trees 30 ft. apart are suggested. An irrigation ditch will be run all round inside the rows of trees. Ornamental shrubs will be set out in groups between the irrigation lines and the fence lines. A curved walk will run from the west gate to the front of the High School and another from the east entrance to the south-east corner of the Central School. From these a straight drive or walk will run across the front of the buildings.

The space between the two buildings will be given over to school gardens. Each department will have a portion in charge of the teacher with whom Mr Gibson will co-operate. There will be a drive from the north-east gate to the rear of the Central. Shrubs are to be placed at suitable places around the buildings with probably some grass plots. That portion of the grounds between the walk along the front of the buildings and the irrigation line inside the front fence will be graded and raked to be used as a girls' playground.

Kelowna Utilizing By-Products

The Orchard City Evaporator Company, of Kelowna, has just completed the installation of additional machinery, giving this plant a capacity of ten tons a day. The plant is now handling apples exclusively. The output finds a ready sale in eastern markets. Only apples that would be otherwise unmarketable are used, so that the output of the plant is clear gain to the community. Another Kelowna industry, that of the B.C. Evaporators, Ltd., is also busy. Their plant, contained in a fine brick building just completed, is now converting the odoriferous onion into a form that will require less space and consequently less freight charges to convey it to distant markets. In fact, we believe, the product of this plant will all go overseas for consumption in the numerous camps of the Allies.

Local capital has made some great changes and improvements in the Kelowna cannery, and it too is a home market for the products of the Kelowna farms and orchards. All these plants are capable of handling much greater quantities of farm products than is now available.

FRIDAY, SEPTEMBER 8, 1916.

VOTE NEXT THURSDAY.

THE ENFRANCHISED PORTION of the inhabitants of this district should need no urging to go to the polls next Thursday and exercise their privilege. The Review does not undertake to do anybody's party thinking for them, and so will not urge the merits of either candidate above those of the other. But in regard to the two referendums it is different. There are moral issues involved in these questions that are entirely absent from the party vote.

The Review favors the causes of women suffrage and prohibition. Both movements have a strong public opinion behind them, and while more is being heard in regard to prohibition because there is money at stake, that is not to say that it totally eclipses in importance the principle of granting the suffrage to women. There was a time when woman suffrage was looked upon in the nature of a joke; but to-day it forms an issue that most nations are facing, or have faced. And when once the subject has been advanced for serious consideration, the battle for the cause is as good as won. Apart from that it will be better for the men of B.C. to give women the vote before the women take it for themselves.

Although Summerland has never had within her confines the most potent argument for prohibition—the licensed saloon—there is no reason

to doubt but that this place will do its share in wiping the liquor traffic out of existence as a legitimate business in this province. The costly arguments with which the liquor people are attempting to gull the electors are astonishing enough, and one is forced to wonder how it comes about that the "boodle barrel" can stand such a strain. If prohibition is not going to prohibit then there would not seem to be any need for the liquor interests to get up in arms against it. Their attitude is as inconsistent as their arguments are incorrect. There does not seem to be any reason to doubt that Summerland stands as a solid phalanx against an economic waste that B.C. and the civilized world in general is getting tired of.

§ § § § §

OUR POLITICS.

THE REVIEW hasn't any. It isn't that the editor doesn't think anything about politics, or that others connected with the paper haven't their own personal views. But a paper that endeavors in its small way to serve the interests of the whole community—Conservatives, Liberals, Independents, Socialists, and whatever other ways of thinking there may be—will not accomplish that end by tying itself up to the editor's particular political persuasion. Naturally this attitude does not please everyone. The newspaper that does please everyone has not been published yet. A favorite form of expression for those who would like to see this paper declare itself on one side of politics or the other is to phone or write and say they don't like the way this political meeting or that political meeting was reported in the paper. It showed bias, they say, and favored the other side.

There are people, however, who recognize the fairness of our stand. One citizen of very pronounced Liberal persuasions congratulated the editor this week on the fairness with which the Liberal meeting of last week was reported, going so far as to say that it was easy to foresee that the editorial vote on the 14th would mean one more for the Liberal candidate. Against this opinion is that expressed by another reader who said that it was most apparent that the meeting in question was reported from a Conservative standpoint, which is another way of saying that it was not fairly done by.

Nevertheless, the Review appreciates and invites such comment. It is an indication that there is some interest taken in our feeble efforts to reflect the doings of the community. To strike either appreciation or criticism is to realize that the efforts of even a local weekly do not go unrecognized.

§ § § § §

BRITISH COLUMBIA is now the only province or state on the western half of this great continent where women do not enjoy equal suffrage with men. Year after year our mothers, wives, sisters, daughters, have seen state after state grant the rights of citizenship to their women, until now all the Canadian west excepting our own province has extended the franchise to women. South of us every state clear to the Mexican boundary and extending well east has without exception so recognized its duty to its womanhood. It cannot be that we men of B.C. will longer withhold from our women-folk that which is their right. This is a question wholly outside of party politics. Let every man who is a man do the manly thing and mark his ballot. "Yes" opposite the question "Are you in favor of the extension of electoral franchise to women."

D. H. Watson, W. Watson, Fosbery, Mitchell, Snider, and Cartwright.

Yesterday afternoon the visitors were given a motor ride over the Pentiction benches, followed by an At Home at Mrs McGregor's residence.

Miss Helen Sawyer has returned home from Alberta where she had been teaching in a summer school.

Mrs W. V. Davies of Chilliwack, is spending a few days here at the home of Mrs R. C. Lipsett, a fellow member of the provincial Advisory Board of the Women's Institute.

Mr C. James, until recently in charge of the power plant here, went up the lake this morning bound for Montreal, where he will embark for overseas to serve in the motor boat patrol defence of the coast of Great Britain.

Miss Hazel Hayes was the honored guest at two small afternoon teas within the last few days. Last Friday Mrs S. Angove entertained

at her home in honor of Miss Hayes, and last Tuesday afternoon Miss Anna Hayes was hostess at a tea in honor of her sister.

The members of the Summerland Women's Institute will hold their regular monthly meeting next Friday at 3 p.m. in the Men's Club. A candy competition will be held and the delegates will give their reports of the convention held at Pentiction this week.

August donations from Summerland to the Canadian Patriotic Fund forwarded this week by the honorary treasurer, Mr E. B. May, totaled \$184.20. \$5.00 of this was a special cash donation, the balance being made up of regular monthly contributions.

Mr S. N. Cutbill of Peachland is the first resident of that town to indulge in a motor car. A new model Ford was delivered to him this week from the Summerland garage. We are informed that another is to go to the same town to Geo. Robinson. Yet a third Peachlander is said to have placed his order.

No rust can attack the flues because they are so thoroughly aluminized, and they economize nearly every bit of heat.

McClary's Kootenay Range

Loan to Fruit Union	8,000.00

Total - \$55,700.00

In addition to the foregoing, thousands of dollars have been spent in giving protection from the importation of fruit and other pests; in assisting to exterminate fire-blight; in educational and demonstrational assistance in horticultural science; in demonstration orchard; in providing Market Commissioners, whose weekly bulletins give us market conditions and quotations at home and abroad every week during the season; grants to Farmers' Institute; grants to Women's Institute; grants to Flower Shows; and, under the Agricultural Credits Act, money can be borrowed for the purchase and improvement of orchards, farms and live stock at 6 1/2 per cent. interest.

These activities have assisted us in educating our children, caring for the sick, and carrying on the business of the community.

To provide for this expenditure out of direct taxation upon a small population in mountainous British Columbia would have been impossible. The Government, therefore, fell back upon the natural resources of the country for revenue purposes.

Vote for J. W. JONES and the Government that has stood behind Summerland.

Women's Institutes In Convention

Valley Women Gather For Two Days At Pentiction.

Representatives of sixteen Women's Institutes gathered this week at Pentiction, where a very successful convention was held. The visiting ladies were met by the members of the local Institute, and after an hour or so spent at the hotel the visitors were treated to a corn spread on the beach.

The sessions of Wednesday and Thursday were presided over by Mrs R. C. Lipsett of this place and Mrs W. V. Davies of Chilliwack, both members of the Advisory Board. Mrs Davies acted as chairwoman, and among other subjects touched upon in her opening address urged parents to get better acquainted with their children's teachers, inviting them in for a cup of tea occasionally, the men as well as the women. The schools would be the most important institutions for the next few years. She urged the secretaries of the different institutes to keep up the good work. The Empire needs the best service of the women. The reconstruction of things after the war will depend to a great extent on the women. Let them all work for a greater, nobler Canada. Mrs Davies later dealt with the laws pertaining to women's rights within the province, offering suggestions for their improvement. The lack of food inspectors was also commented upon.

Among the papers read was one on "Phases of Adolescence," by Mrs Murdin, Peachland, another by Mrs McGregor, Pentiction, on "Preventable Allments During Child Life;" Mrs Fosbery told of "Market Problems—How We Solve Them," and Mrs Solly gave an address on "What Our Children Should Read." "Institute Problems" were discussed by Mrs Aikens of Naramata. Mr John Kyle of the Educational Department gave an interesting and valuable illustrated lecture on manual training which received much favorable comment.

It was Mrs D. H. Watson's privilege to reply to the Reeve's address of welcome.

Among those who attended from the local institutes were: Mesdames Lipsett, Solly, Anderson, J. Tait,

CASHING IN SALE

at The LADIES' EMPORIUM

In order to be prepared to meet my invoices for Fall and Winter Goods now soon due to arrive, I will,

Improved Service.

At the suggestion of a number of my customers, and for their greater convenience, and to improve my service to the public of the district, I have opened a second STORE in the KELLEY BLOCK (north of barber shop), where you will find me, with a full stock of

MEATS, FISH, &c.,

on the afternoon of Tuesday, Friday, and Saturday of each week.

May I enjoy a continuance of your patronage?
Careful attention given to all orders.

J. DOWNTON

A REQUEST

TELEPHONE SUBSCRIBERS are asked when responding to a telephone call, to give their OWN NAME OR NUMBER.

For instance, if, when his phone rings, Mr Green would give his name instead of saying "hello" the speaker at the other end of the wire would at once know he HAD THE NUMBER ASKED FOR, without enquiring further. Thus on every call time would be saved, and the efficiency of the service greatly increased.

If this method of response has not been your practice begin to-day.

The Summerland Telephone Co.,
Limited.

Warning To Electors!!!

IF YOU ELECT to have the washing done in the home you may be laying the foundation of ill-health besides having the inconvenience of steaming clothes around the residence.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Apple Crop At Least Equal To Last Year's

The British Columbia apple crop should exceed that of last year according to the Dominion Government Fruit Crop Report. There has been some development of scab on account of wet weather, but it is not general, and the bulk of the crop promises to be clean.

Early varieties of plums are extremely light in the Okanagan, and a small crop of all varieties is reported in the Kootenay Valley. Taking the province as a whole there will not be more than a medium crop of plums and prunes, the report says.

In regard to apples, it is said further that in most parts of the Okanagan Valley there is an increase over last year's crop, particularly in the Vernon district. There is some development of scab, due to wet weather and neglect of spraying. Generally, however, the crop of apples promises to be of very good quality. There was a very heavy drop in the Kootenay district early in July. McIntosh Red and Jonathan fell off very heavily. There is still promise of a crop at least equal to 1915.

Agriculture In The Schools

Many Opportunities Available For Correlating Farm Interests With School Work.

In the public schools of most of the provinces of Canada, nature study and agriculture are included in the prescribed course of work, but the opportunity of correlating school subjects with practical life on the farm is not always fully utilized. In rural and village schools, particularly, the interest of children in their school work should be aroused and held by its intimate contact with agriculture. A few suggestions are offered herewith for impressing upon the pupils the utility value of the subjects taught.

In connection with the teaching of arithmetic the following topics might be used as a basis for problems and general instruction:

Neat methods of compiling farm records, e.g., milk and egg production, receipts and expenses, time sheets, etc. These records will form the basis for numerous problems.

Cost of production, rent, labor, wear and tear of machinery; marketing of farm products, computation of profits; mensuration of fields, wood-piles, lumber, ice-houses, etc.; invoices, cheques, receipts and commercial forms; taxation; mortgages.

The teaching of reading, and the study of literature offer exceptional opportunities for arousing the interest of the pupil.

The best literature is replete with selections calculated to inspire a love of outdoor life and an interest in the plants and animals with which the country child comes in daily contact. Whittier's "The Barfoot Boy," Burns' "To a Mountain Daisy," and Lowell's description of a day in June are examples, and every teacher will be able to pick out scores of other pieces of merit.—Conservation.

Change Desired In Inspection & Sale Act

It is the expressed opinion of the great majority of fruit growers that some changes are now necessary in the definitions of grades, as defined in the Inspection and Sale Act, and to this end numerous requests have been made to the Fruit Branch at Ottawa. The Act at the present time does not define a No. 8 apple, the only requirements being that the "face" shall represent the contents of the package.

In a season such as 1915, when much of the fruit was scabby, large well-colored apples slightly affected with scab, had to be marketed, if packed in closed packages, under the same grade (No. 8) as culls. Up to the present time it has been impossible to obtain the necessary legislation, and the definition of grades will, for this season at least, remain unchanged.

Don't throw ashes against wind on fences or buildings.

Winter Melons May Be Kept Till Christmas

In the home of one of my friends watermelons are always served as fresh and as ripe as from the field, on such holidays as Thanksgiving, Christmas and New Year's Day. Their appearance was always a mystery to friends, and their taste, at such unexpected times, was always a delightful treat. But the secret is out, and I will tell you how the feat is accomplished.

In the fall, when the melons are gathered, or when the best ones are in the market, a few especially perfect specimens are chosen. There must be no breaks or cuts in the rinds.

Then the housewife takes a brush and a good varnish, and goes carefully over the entire melon. When the first coat is dry she applies a second, and if it seems necessary, a third. The result is that the melon is sealed up so perfectly that it is preserved in its original state until cut. It is, of course, kept in a cool place, though not cold enough so there is any danger of freezing. The coating of varnish must not be broken, or if it is, the melon must be used at once.

The plan has been proved a success, year after year. Try it, and surprise your friends.—J. D. C., in the Country Gentleman.

How Land Values May Be Increased

How much is your land worth, Mr Farmer?

You, as a business man, are, of course, ready to admit that the nearer you are to a live town and the livelier the town the more valuable will be your farm.

An acre of fertile ground is an acre of fertile ground no matter where it may be located. But an acre of ground a mile from the city limits of Toronto or Winnipeg is worth thousands, while another acre located elsewhere may be worth a sum computed only in dollars or hundreds of dollars.

This is even so as regards that town of yours. Land near the town is worth more than land several miles away. If yours were a bigger and better town, land adjacent to it would be worth even more than it is.

Every farmer knows that as the country builds up, as towns grow, as things improve in general—just so fast does his land value increase. These things need no argument. Every farmer knows land value is determined largely this way.

It is easy to see that the farmers' best interests can be promoted by building up a town.

Supporting the home merchants is only one way by which this can be helped on.

New Method For Destroying Gophers.

Ford cars are said to be numerous down in the State of Colorado, but gophers and such like pests that bother the farmer are even more so. One farmer of bright ideas there was bothered a great deal with gopher holes in his irrigation trenches, and found he was losing too much water. He went to work and discovered a new field of usefulness for his Ford. His system was to attach one end of a rubber hose to the Ford exhaust pipe and poke the other end into the gopher hole, making the joint tight with a little dirt pressed down with the foot, thus filling the hole. Run the Ford for a few minutes and this latest Ford "poison potion" reduces Mr Gopher to a state of innocuous desuetude.

Where the gophers are pretty thick in the furrows, the man with the Ford hose attachment is able to put the quietus upon very large detachments in the course of half a day, although he does not take the trouble to dig them all out of the ground, since their edibility is much impaired by their onerous consumption of Ford hot air.

Economy and good digestion are aided by never eating bread that is not at least 24 hours old. Ten per cent. of the cost of bread would be saved by rigidly adhering to this simple practice.

WEDDING.

Williams--Dicken.

A public wedding in which Miss Nellie Orca Williams, daughter of Mr and Mrs T. I. Williams of town and Mr Joseph Stanley Dicken of Lethbridge, Alta., were the principals, drew a large crowd to the church on Wednesday evening at eight o'clock.

The building in which the brief but impressive ceremony was performed, had been tastefully decorated for the occasion. A central arch of red and white roses formed a fitting background, while the two front rows of seats, reserved for relatives and a number of specially invited guests, were relieved by borders of Virginia creepers and white flowers.

The ceremony was opened by the playing of the Bridal Chorus by Mrs King, at which time the groom and his supporter, Mr Gerald Williams, first took their places before the altar, to be followed by the bride, who was conducted by her father. The bridesmaid was Mrs Wilcox of Salmon Arm, B.C.

The marriage ceremony was then read by Rev. R. M. Thompson in that gentleman's impressive manner. The ceremony while brief as such ceremonies pertain in other denominations, was none the less effective.

Current Events - OF - Town & District

Mrs M. M. Allen and daughter Margaret spent Saturday at Penticton.

Mrs Dorothy Cash has gone to Grand Forks for a few weeks visit with friends in that city.

Mr George Schreck, accompanied by his brother, Mr John Schreck of Keystone orchard, spent Saturday in Kelowna.

Mr W. E. Boone of Montreal, who has been a guest at Syndica House for a couple of weeks, left on Sunday morning's boat.

Allen Hill of Vancouver, a former resident of Naramata, came in on Sunday morning's K.V.R. train, and is visiting his sister, Mrs James Dean.

Mr and Mrs Geo. Schreck and son Donald, all of Buffalo, after several weeks' visit at the home of Mr J. M. Schreck, Keystone ranch, leave next Monday for the East.

Divine service was conducted in the Methodist Church by Rev. F. W. Hardy, formerly pastor of the Summerland Methodist Church. During the course of the service Mr Stanley Dicken of Lethbridge, Alberta, played a violin solo, ably accompanied by Mrs Wilcox of Salmon Arm, piano.

The young couple left on Thursday morning for Lethbridge, Alta., where they will reside.

Naramata Current Events (Continued.)

Mrs Bennett of Battle Creek, Michigan, is spending a holiday with Mrs Howard Rounds.

Pte. T. I. Williams of the 102nd R.M.R. left on Thursday to resume his duties at his camp at Glacier, B.C.

Mrs W. W. Mitchell, accompanied by her daughter, Mrs William Nuttall, went to Penticton on Saturday.

Word has been received from Pte. Thomas Kenyon that he is now in France right in the thick of the fighting.

Corpl. Harold Mitchell, from Sidney Camp, is home for a few days' furlough, coming in by Monday morning's boat.

Mrs D. O. Hughes was a business visitor to Penticton on Saturday last, coming home by the late ferry after the show.

Mesdames Languedoc, Davies, and Hughes were delegates to the district convention at Penticton of the Women's Institutes.

Mrs Thomas Kenyon, who for many months has been living at the home of Mrs Fred Young, leaves for Vancouver on Wednesday night's boat.

Ptes. Hedley and Goronway Reesor of the 231st, arrived in Naramata on Monday evening from Camp Sidney to remain on a month's furlough.

Pte. T. I. Williams of the 102nd R.M.R. arrived on Monday to be present at the marriage of his daughter, Miss Orca, which took place on Wednesday evening.

Mr and Mrs Tomlinson of Calgary, Alberta, came into Naramata on Thursday, leaving again on Saturday for Penticton. While here they were guests at the Syndica House.

Inspector of Fruit Pests Castner paid a couple of visits to this district this week in order to secure data for a full report on the acreage under cultivation here, and a fairly accurate estimate of the crop for the season.

Mrs John Bruce, accompanied by her daughter Marion and son James, left for Vancouver on Wednesday evening's boat, where they will in future reside, Mr Bruce having preceded them three months before. Mrs Bruce will travel by way of K.V.R.

There was a fair attendance at the Liberal Candidate's, Mr L. V. Rogers' lecture in the Syndica House on Wednesday afternoon, August 30th. Mr Rogers is to address another public meeting in the Syndica House on Thursday, Sept. 7th, at 8 p.m. to discuss the issues of the provincial campaign. As this meeting is open for both ladies and gentlemen it is likely there will be a full house, as the great majority of men have more time in the evening just now through the press of the busy season's work.

Mrs E. M. Bell, one of the absentee orchard holders, came in on the boat on Wednesday morning, from her home in Saskatoon, Alberta. While in town she was busy looking after the selling and packing of her fruit, and arranging her business for next year's work. Her orchard of eleven acres or more is one of the oldest in the district, and all in full bearing. Mrs Bell expressed herself as being pleased with this year's prospects, and believes in a great future for this Valley. Mrs Bell left on Friday night's boat to take the K.V.R. eastward.

The soldiers in the Vernon Camp voted on Monday the 4th on the provincial issues. Those now on harvest leave who return before the date of election will be given an opportunity to vote upon their return.

Naramata Current Events (Continued.)

Mr Fred Dennison left town one day this week for Osprey Lake.

Mrs Jacobsome and daughter Jennie spent Tuesday in Penticton.

Misses Kathleen and Margaret Robinson spent Tuesday in Penticton.

Miss De Roache of Vancouver, is a visitor at the home of Mr and Mrs James Dean.

Miss Lorna Palmer, a grandchild of Mrs Dan McKay, is in town attending High School here.

Mrs Lewis Block has returned home after a visit with Mr and Mrs Williams at Peach Orchard, Summerland.

One of our oldest settlers, Mr Fred Manchester, and his wife went out on Tuesday morning to reside in Battle Creek, Michigan, for a while. We hope though to see them back again, as their home and interests centre around Naramata.

The Saturday night's trip by special ferry boat to Penticton is becoming quite popular. A great many of the citizens of Naramata taking advantage of journeying to that town, taking in the picture show, and having a look around on the side.

The regular monthly meeting of the Ladies' Aid Society was held on Wednesday afternoon in the basement of the church, with a fair attendance. At this meeting it was decided that the purchasing committee buy a quantity of new goods, and that the ladies get started in earnest to sew and make preparation for the annual bazaar, which takes place the early part of December. The president, Mrs James Myers, served refreshments at the close of the meeting.

After a two months' lapse, during the hot and busy months of July and August, the first monthly meeting of the Women's Institute took place on Tuesday, Sept. 5th, in the Unity Club parlor. There was a good attendance. After the regular business routine was dispensed with, Mrs Davies read a very interesting paper on "Labor-Saving Devices," which was followed by a splendid paper read by Mrs James Myers on "Butter Making." Mrs Myers very kindly answering any questions put to her on the art of butter making. Mrs Fred Simpson read a paper on current events, which was followed by an instrumental solo by Mrs Languedoc. After the singing of "O, Canada," the meeting closed with God Save the King.

Do You Make BUTTER?

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Ry., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

NOW IS THE TIME to book your Order for YOUNG PIGS from our Fall Litters.

BALCOMO RANCH. R. V. Agur, Mgr.

Mr Muir Stewart motored to Grand Forks the first of this week on a business trip, Mrs Stewart accompanying him. They left on Sunday and returned on Wednesday.

Mr and Mrs O. L. White of Everett, Wn., who accompanied Mrs R. E. White and children on their return from a visit to relatives in that city, started on the homeward trip on Monday. They motored to Oroville, planning to stop at Omak, Okanagan, etc., going home by way of Wenatchee.

Passing Events: Social, Personal, &c.

Mr J. J. Warren and party passed through town on Wednesday coming by motor from up-valley points.

Rev. Dr White, Supt. of Methodist Missions for B.C., will preach in the Methodist Church on Sunday morning.

Another automobile has come into the district, this being a Ford of late model, purchased this week by Mr Fred Anderson.

John Bloomfield of Winnipeg is visiting just now with his parents here, arriving on Monday after having been out to the Coast.

R. H. English and son of the Pioneer Livery announce that their car meets all eastbound trains at the Kettle Valley station, West Summerland.

Mrs Harry Everett of Summerland, B.C., whose husband is training with the 172nd Battalion, Vernon, is a guest of Mrs S. G. Green, Comox Street.—Vancouver Province.

Mrs J. F. Faulkner was an arrival in Summerland by this morning's train from the Coast, and will spend three or four weeks here visiting with Mrs S. Angove and Mrs J. E. Phinney. Mrs Faulkner, who now resides in Vancouver, at one time lived here.

T. J. McAlpine came in on Wednesday night from Rogers Pass, where he had been working on construction at the big tunnel. Mr McAlpine has many interesting things to tell of the big engineering feat. He was accompanied from Vernon by Mrs McAlpine and her mother, Mrs Grieve.

Capt. Cartwright, the son of the late Sir Richard Cartwright, with Mrs Cartwright, spent the week-end as guests of Mr and Mrs F. W. Mc Niece, Port Moody. Capt. Cartwright, who has been in charge of a hospital in Belgium, is home on furlough, recovering from an attack of typhoid.—Vancouver Province.—Capt. Cartwright, we are informed, was a recent visitor here at the home of his brother, Col. R. Cartwright.

George Harwood, who enlisted from here some time ago, was recently delayed at St John just as he was about to sail with his battalion and ordered into hospital, having an attack of measles. It was not until after the departure of his companions that he was released and ordered to embark on another transport about to sail. His surprise and delight may be imagined when, strolling about on deck, he came across his brother Ralph, a corporal in the A.M.C., who had enlisted from Brandon College. He too had experienced an unexpected delay at the head of the lakes, else he would have embarked by another route.

We are advised that the Liberal-Conservative Association are making arrangements to receive the election returns by wire at their committee room in the Empire Hall block. Citizens are welcome to gather there and get the news as it comes in. The ladies, who are more than usually interested, are invited. Those who cannot attend are at liberty to enquire by phone, when the information to hand will be given.

Ask the travellers out to Vancouver by the train that should have run last Friday evening what they think of the Kettle Valley service, and they will probably say that there may be a nice station at Peach Valley, but the hotel accommodation in connection is not exactly de luxe. Last Friday's westbound train was about seven hours late when it got to Summerland, so that when the dawn of Saturday broke, instead of waking up on the train and thinking how near they were to Vancouver, the would-be passengers were still yawning at Peach Valley, after a none too comfortable night spent at the station. The train finally pulled in about 5.30 a.m. Saturday morning.

Messrs E. B. Mayon, editor of the Nicola Valley News, Merritt, W. R. Langstaff, postmaster of that town, and E. W. Rhodes, of the Coldwater Hotel, Merritt, passed through Summerland last Monday on an automobile trip they undertook over the holiday week-end. They went up the Nicola Valley to Kamloops, across to the Okanagan, down the Valley, and from Penticton to the Similkameen. Mr Mayon made a call at the office of the newspaper fraternity here, and in the course of his conversation made it clear that business in the Nicola is picking up, things generally being on the up grade owing largely to the impetus which the mining industry has taken on of late.

Miss Ida Brown, a former student of Okanagan College, has accepted a position as stenographer at Penticton.

Mr J. Thompson went out this week to Saskatchewan with his brother, who has been visiting Mr and Mrs Thompson for a short time.

Mr D. E. Hatt is this week in the Valley in the interests of the People's Prohibition Movement. He will be at Peachland to-night and on Sunday will speak in Kelowna.

"Christ in the Individual Life" will be the subject of Rev N. McNaughton's sermon at the union Presbyterian and Baptist service in St-Andrew's Church next Sunday morning at 10.30.

The heavy rains last Saturday and Sunday and the unpromising commencement of the holiday on Monday was responsible for the postponement of a number of automobile trips of some distance that had been planned, and also of some other private holiday picnics and outings.

Private Chas. A. Marshall, of the 172nd Battalion, came down from Vernon by last Friday's boat on a month's leave of absence. He says the battalion, which is now eleven hundred strong, or about fifty over strength, expects to leave for overseas within a short time. In fact his leave may not extend over the full month on account of this fact.

A Day Letter service is now being given by the Government Telegraph Service, and, according to information furnished by the local agent, is similar to that being furnished by the C.P.R., as described in these columns last week. There is this difference, however, the government system, through its working connection with the Western Union, is able to deliver such messages in United States as well as in Canada.

Mr and Mrs D. MacLaine, of Day Roberts, Newfoundland, are visiting here just now, at the home of their son, G. A. MacLaine. They arrived last Sunday morning by the K.V.R. train. Mr and Mrs MacLaine are taking a long vacation, and after spending some time at their former home in Nova Scotia, proceeded on to Denver, Colorado, from whence they proceeded to Summerland. They expect to remain for about a month.

A meeting of those interested in prohibition for B.C. was held last Monday evening in St Andrew's Church. The Bill, as it is to be voted on next Thursday was discussed from various viewpoints in response to some questions which had been raised, and plans were further perfected for ensuring the presence of every voter at the polls some time during the voting day. Mr G. J. C. White was appointed chairman of the district committees who will look after that part of the work, and two scrutineers were appointed, Mr W. M. Wright for West Summerland and Mr J. R. Brown for the town section. It is probable that a similar official will be appointed for Mineola also. The matter of raising some funds is having consideration as well, the desire being to raise sufficient money to take a share in the advertising campaign which is being carried on.

A comparison of the two weather records for the month of August as published in this issue shows that the temperature at Trout Creek averaged about two degrees higher through the month than at Balcom. The hottest days of the month at Balcom were the 24th, 25th, and 29th, when 80 degrees was registered as a maximum. At the Experimental Station on those days maximums of 91 degrees, 87 degrees, and 93 degrees were recorded. As in the previous month a slightly less rainfall was recorded at the Experimental Station than at Balcom. To complete the comparisons a sunshine recorder is required at the Experimental Station, and perhaps some time the Dominion Government may see fit to install one. As it is the two weather records make a reliable index of the wonderful climate the Okanagan enjoys, and residents who have friends who are at all interested in the Valley would do well to send the issues of the paper away containing the two records together.

Elwood Shorey, a military visitor from the Vernon Camp, spent a short time visiting friends here recently.

Dr and Mrs F. W. Andrew motored down across the line to Okanagan on Monday, and Mrs Andrew remained there to visit with friends for a time.

Mrs Avery of Enderby, left on Tuesday for her home up the Valley after spending a short time at the home of Mr and Mrs C. H. Gayton, old friends and neighbors of former days in New Brunswick.

A Cadillac Limousine car, given by Lady Tupper, is to be raffled in Vancouver in aid of the Red Cross and Patriotic Fund. Tickets, price \$1 each, can be obtained from Mrs Andrew or Mrs May. The drawing will take place at the Hotel Vancouver on October 2nd.

Mr and Mrs S. G. Tobin of Alberta have been spending a short time in the district recently. Mr Tobin is the member for the Leduc district in the Alberta Legislature, and owns a five acre property here adjoining Mr C. H. Gayton's. Mrs Tobin spent three or four weeks here, Mr Tobin joining her last week. They left again this week.

The flow of water on the J. R. Brown orchard at Trout Creek, which has been coming out of the bank apparently from the bench above, has abated somewhat of late, and is now confined to a small steady stream, with no mud or slides. In the view of Mr G. Morgan this is attributable to the installation of the devices which control the water supply to the orchards on the bench above.

Mass meetings will be held next Sunday evening at St Andrew's Church and the Lakefront Baptist Church, both at 7.30 o'clock, when the proposed Prohibition Bill for B.C., upon which a referendum is being taken next Thursday, will be discussed. At St Andrew's Church Rev A. Henderson will have with him Rev Dr White, Superintendent of Methodist Missions, for the province, and in the Lakefront Church Mr W. C. Kelley and Dr E. W. Sawyer will speak with Rev N. McNaughton. These meetings provide an opportunity for any to ask questions regarding the Bill, and any such questions may be sent in beforehand when they would receive fuller attention, or they may be asked at the time of the meeting. Large attendances at both gatherings are urged.

Passengers for Coast points, via Hope, leave W. Summerland 22.30 daily. Arrive Vancouver 10.40 the next morning.

Passengers for Merritt, Nicola, and Spence's Bridge change at Brodie. Arrive 3.21. Leave 8.45 daily. Arrive Merritt 10.00. Nicola 10.30. Spence's Bridge 13.30.

Don't be confused by the Whisky Combine!

The British Columbia Prohibition Act DOES prohibit. That is why the Liquor Interests have opened their "boodle" barrel in an attempt to defeat it.

The Liquor Interests are entering the last two weeks of their fight against Prohibition. Up to the present they have waged a malicious and unscrupulous fight to deceive and confuse the people of British Columbia concerning the effectiveness of the British Columbia Prohibition Act. They have gone so far as to insult the intelligence of British Columbia voters by suggesting that they—the Whisky Combine—are in favor of Total Prohibition; but that the British Columbia Prohibition Act does not Prohibit.

All who investigate the British Columbia Prohibition Act know that this is merely the last wall of the Whisky Combine—a ruse to avoid the real issues of the campaign.

The Whisky Combine Make No Attempt to Defend Their Traffic.

They decline to defend the charge that "booze" is the chief weapon of crime. They refuse to defend the charge that they are attempting to save the saloon and dive.

If the saloon is a good thing for British Columbia, why do not the Liquor Interests say so?

There is no sane defence for the saloon and dive, and the Whisky Combine make no defence. They have opened the "boodle" barrel in a wild endeavor to confuse the electors as to the merits of the bill.

The British Columbia Prohibition Act is the best Prohibition Act in Canada. It is better than either the Alberta or Manitoba Acts, which have been declared the best legislation ever enacted in those provinces.

The Combine knows the only chance they have to defeat the British Columbia Prohibition Act is to maliciously attack the bill—to deceive and confuse the people.

Call For Recruits

The 6th Field Company Canadian Engineers, with headquarters at North Vancouver, B.C., having received a special call for a large number of men for the Canadian Engineers Overseas Service to go overseas at once, are making every effort to reach and put before every suitable man in the Province of British Columbia the advantages of service in the Canadian Engineers. When a man joins the Engineers, his training consists chiefly of instruction in military engineering work, which is both interesting and helpful to any one, and the many and varied branches of work undertaken by the Engineers of the army makes it possible for almost any man to select the branch of work for which he is most suitable.

Recruits are also being sought by the Army Medical Corps, Vernon. Capt. Vegneux, Officer commanding the training depot at Vernon writes the Review that men are badly needed for this branch. Experience in first aid, he says, is not essential, and the medical examination is not so severe as for infantry. The men will train for a few weeks then go overseas. It is the quickest way to get overseas, and see the actual fighting in the trenches while collecting and caring for the wounded. Full particulars may be had from Capt. Vegneux at Vernon.

CONVINCED BY RESULTS.

(Continued from page 1.)

March last year the county was feeding an average of 230 prisoners daily.

A year ago to-day there were 25 women confined at the county jail, the majority of whom were drug and whisky victims. To-night there will be but one woman at the jail to be cared for.

Last year at this time there were nearly 100 prisoners at the jail who were drunkards and drug fiends. When the reporter visited the jail yesterday not one such case was in evidence.

Last night there were 15 federal prisoners at the jail, according to Mrs Fairley. A year ago there were 60 federal prisoners. No bootleggers are arriving at the jail.

The report of County Physician A. E. Stuhl, filed yesterday with the county commissioners, shows that he has not treated a patient for delirium tremens during the last month. Last year Dr Sells, the county physician, treated many drink victims.

At this time there are about two cases on the criminal docket of the Superior Court for trial during March. The criminal docket usually averages from 12 to 20 cases per month.

Eleven Million Dollars Per Annum Are Wasted in British Columbia on Account of the Liquor Traffic

Just stop and consider the magnitude of this gigantic loss for one single moment!

THE WHISKY COMBINE in their attempt to save the saloon and the dive continue to freely spend from their gigantic "boodle" barrel in an endeavor to confuse and mislead the people. In not a single one of their costly advertisements have they made any attempt to defend the traffic in which they are engaged.

In 1914 the people of British Columbia expended \$11,000,000.00 for liquor, and it is for a continuation of this that the Whisky Combine is fighting. The Liquor Interests know that the British Columbia Prohibition Act DOES prohibit—that the British Columbia Prohibition Act is the BEST Prohibition Act in all Canada. That is the reason they have opened their gigantic "boodle" barrel to defeat it.

Here is the approximate cost of "booze" in British Columbia cities:

Vancouver	\$4,500,000
Victoria	2,000,000
New Westminster	450,000
Nanaimo	300,000
Nelson	300,000
North Vancouver	200,000

\$7,750,000

Other cities and towns, including Prince Rupert, Kamloops, Fernie, Rossland, Vernon and Revelstoke	1,340,000
Other towns not included above—at least	1,910,000

\$11,000,000

That means a "booze" expenditure of \$202.10 per capita family of five.

This ELEVEN MILLION DOLLARS spent to fatten the bank accounts of the Whisky Combine would provide the necessities of life for more than 12,000 families, or 60,000 people for an entire year.

in Summerland to strike a story similar to this and perhaps if they were all followed up as this one was, the trade-at-home spirit would become more firmly rooted into the minds of many heedless people.

"What do you have to pay for them?" was our natural question in regard to the printing that went East. The price was named.

It cost this gentleman just ten cents per thousand more to get this particular work done in the East than the Review charged for exactly similar work done for other local people.

That is just the way out of town buying works in a great many cases. A person hears or sees that they can get a certain article for so much by sending away for it. Without waiting to ascertain just what the local prices are, away goes that good money, helping some other town to pay its taxes when our own needs it pretty badly.

Don't be stampeded into sending your next printing order—or any

other kind of order for that matter—out of town, but do the wise thing and see us first.

Love and reason are seldom on speaking terms.

Diverse Matters Are Discussed

No Business Of Outstanding Importance At Regular Council Session.

There were no matters of very great moment brought before the Council at their regular monthly meeting held last Saturday morning, and the session was ended about midday. All the councillors were present.

The Clerk read the minutes of the last two meetings, and after these had been approved, two or three small matters were disposed of before the communications were taken up.

ENDORSES DEMOCRATIC RESOLUTION.

A resolution from the City Council of Niagara Falls, Ont., pressing for equal pensions for officers and privates in consequence of disablement from the war was read, with a request that the Council here, as in other places, endorse it and send copies to the proper quarter. The Council were in sympathy with the democratic spirit the resolution showed, and endorsed it accordingly.

A lengthy letter from Mr P. G. Koop was read in regard to an occasion when it was claimed water was delivered to him without due notice, which resulted in some inconvenience to Mr Koop. This has been investigated, and the Clerk will reply answering the complaints made.

A letter from R. S. Monro regarding unsatisfactory irrigation conditions as pertaining to some Peach Valley lots will be considered by the Board of Works.

IN GOOD SHAPE FINANCIALLY.

A letter from a firm of brokers offering to do any business the Council desired in the way of buying some Dominion war loan bonds shortly to be issued, brought from the Clerk the statement that the Municipality was in good shape financially at the present time. Irrigation rates and taxes both have come in better this year so far than last. All bank borrowing except those against the current year's taxes have been paid back, the retired notes being laid on the table at this meeting. The Clerk suggested that the Council try and locate some more of their own bonds which could be bought in with sinking funds that will be on hand at the end of the year. The Council concurred, and the Clerk will take the necessary preliminary steps in this direction.

Certain portions of sidewalk will be repaired in the near future, especially those portions which join

on to stretches of cement walk, making a more or less awkward step. This is to be remedied, the boardwalk to be raised to the level of the cement.

CEMETERY IMPROVEMENTS.

The Clerk reported on the cost of cement posts to mark the lots in the cemetery. The specifications provide for a tapered post eighteen inches long, four inches square at the top. The total cost installed is estimated at about \$30, as against \$20 for wooden posts set in cement. The cement posts will be used. About 130 will be required. The advisability of purchasing the lot east of the cemetery was also gone into, and it being felt that this could be bought for \$75 or \$100, it was thought well to have negotiations opened looking towards acquiring this property. This will provide a road right through the cemetery, which has long been felt desirable. The present road is also to be widened.

ELECTRIC LIGHT MATTERS.

Two applications for electric light and one for domestic water were granted.

The proposed extension of the light system along Rosedale Avenue seems to be at a standstill, the expected number of applications not having materialized from residents affected.

The Reeve will look into the cost of another extension out towards the direction of Col. Cartwright, Wm. Ritchie and others in that neighborhood.

T. P. Thornber submitted an estimate for proposed alterations at the power house that will not only bring certain arrangements into conformity with the requirements of the electrical inspector, but will also add to the efficiency of the plant in no small degree. It is proposed to take out one wall and extend the foundations to allow of the dynamo being changed into a better position. The cost is estimated by Mr Thornber at about \$100. This report was referred to the Electric Light Committee, who will look over the proposed alterations and report to a special meeting of the Council that will be called if necessary.

Nothing was done in regard to appointing a permanent electrician to succeed Mr James.

Mr James was granted \$0 payment in full for overtime which he

(Continued on page 6.)

Through the government service the Review is able to claim the distinction of being the first paper in the Valley to give out anything like complete election returns. A detailed list of the constituencies and the members returned appears on page 2. Though these may change somewhat as the outlying polling stations report, and as the counts in the big cities become confirmed, it is believed the results published in this issue are substantially correct. There are some noteworthy features of the polls that may be mentioned. Premier Bowser has lost his seat in Vancouver, and so far not one of his Cabinet has been returned, though two are still in doubt, these being Hon Wm. Manson at Prince Rupert and Hon W. R. Ross at Fort George.

These results, of course, take no account of the soldiers' votes, which are not to be counted till October 12th. There are estimated to be 20,000 soldiers who are voting in Canada and overseas in all the centres of war.

PROHIBITION—Throughout the whole province, the referendum on the B.C. Prohibition Bill has carried with a majority of 6,000 or 7,000 votes. Further details are not available. The two local polling stations gave a majority in favor of 190 to 65. Naramata, 37 to 8; Mineola, 16 to 10; Peachland, 45 to 20. Other nearby points are reported as follows: Penticton 54 majority in favor; Keremeos, 66 majority; Princeton, 102 majority; Vernon, 33 majority.

WOMAN SUFFRAGE—On the Woman Suffrage referendum, the province is reported to have voted 5 to 1 in favor. Local figures: Summerland, two stations, 195 to 58; Naramata, 42 to 4; Mineola, 16 to 9; Peachland, 61 to 16; Penticton, 86 majority; Keremeos, 20 majority; Princeton, 59 majority; Vernon, 209 majority.

Get Ready For Fair. All News To "Jack"

Hold Your Best Apples To Go On Show

Local fruit growers who are interested in the success of the Summerland Fall Fair to be held on October 25th and 26th, are asked to hold some of their best apples for exhibition purposes. The more exhibits there are the keener the competition will be for the prizes and the greater the honor accorded to the winners.

Secretary W. M. Wright has been advised that in connection with the packing competitions held during the Fair, and for which the Department of Agriculture awards cash prizes, there are 24 in Summerland and 13 in Naramata who are eligible to enter. This competition is limited to those who participated in the packing schools held last winter under the auspices of the Department.

Canvassers are now out soliciting donations to the prize list, which will be issued on the completion of their efforts, when it will be known what money is available for distribution in prizes. The grant from the Department at Victoria has been reduced by \$100 this year, \$400 being given instead of \$500 formerly. It is hoped, however, that this will be made up for by local subscriptions, so that it

Report May Pack At Calgary Fair.

In a "write-up" of the fruit and vegetable show to be held in Calgary next month the News-Telegram of that city says:—

"The fruit growers of the Pacific Coast province are already making preparations to have the best apples on show, and the champion apple packer of the world, J. Lawler of Summerland, is to be seen every night back of the big warehouse there, packing early apples so that when the winter varieties are ready he will still be the best apple packer in the country."

When seen by the Review Mr Lawler stated that this was news to him, as he had not even a suggestion to go to Calgary. He, however, seemed to be quite ready to so give another boost to Okanagan apples, and will doubtless accept, if invited, to the prairie city to give an exhibition of apple packing.

will not be found necessary to curtail the prize list from past years.

There are two ways most people can help along the Fall Fair. One is by giving much or little toward the prize list, and the other by entering in whatever classes are available.

Hon. Mr. Burrell Visits District

Minister Of Agriculture and H. H. Stevens, M.P., Speak To Large Audience.

SOME SUCCINCT SENTENCES.

In view of the sacrifices of the men who have gone to war, no man, if he does not do something to make Canada a bigger and better Canada, is any longer worthy of the name Canadian.—Hon. Martin Burrell.

There is not one spot in B.C. where there is not loyal support of the Dominion's part in this war.—H. H. Stevens.

Of the 12,000 acres under irrigation in the South Okanagan, 8,000 acres produced last year 2,000 cars valued at \$1,200,000. A possible 35,000 acres could be irrigated, with a production of \$5,000,000. Hence the importance of the irrigation problem.—J. W. Jones.

Blue ruin and pessimism? There is a species of optimism that is worse than pessimism. What this province has been suffering from is an attack of incurable optimism.—L. V. Rogers.

These are sentences that stood out in the addresses of the four speakers at the big meeting held last Friday evening in the College Gymnasium under the auspices of the Liberal-Conservative Association. The Conservatives fired their last shots in the campaign at this meeting, and were fortunate in getting men of such calibre as Hon. Martin Burrell and Mr H. H. Stevens to speak in the behalf of Mr J. W. Jones, their candidate. The College Gymnasium was crowded, and the meeting was exemplary in its orderliness, excepting for the outbreaks of one good Liberal, who in season and out of season, persisted in interrupting the speakers. Mr J. A. Kirk presided.

DEAFENING APPLAUSE FOR MR BURRELL.

Splendid as were the receptions accorded to the other speakers there was no mistaking that the greatest applause went to Hon. Martin Burrell, Dominion Minister of Agriculture, and member for the constituency of Yale-Cariboo. He was the last speaker of the evening, and when he arose he received an ovation that lasted several minutes. It is clear that Mr Burrell enjoys the support not only of every Conservative but also of many Liberals as well.

His address, couched in elegant terms, and delivered with his customary gentlemanly eloquence, was an exceedingly instructive one. Mr Burrell did not devote very much time to provincial questions, though heartily endorsing Mr Jones and the Bowser government, but

devoted most of his address to a resume of the work of his department since he had assumed its direction in 1911. It was the first time, he pointed out, that the Dominion portfolio of agriculture had gone outside the provinces of Ontario or Quebec.

Agriculture being the paramount industry of the country the department was an important one. Unless the great problems are solved so that people can stay on the land, there will be no lasting prosperity for the country. Almost as important as the fighting itself just at this time is the matter of agricultural production. In spite of the heavy enlistments all over the country, the production of the Dominion has actually increased, and last year was the greatest export year in the history of the Dominion.

An interesting announcement which Mr Burrell made was that his Department had taken over all the purchasing of flour, feed and hay for the British and French armies, and this was being done quietly and without any suggestion of graft whatsoever, tremendous task even though it was.

devoted most of his address to a resume of the work of his department since he had assumed its direction in 1911. It was the first time, he pointed out, that the Dominion portfolio of agriculture had gone outside the provinces of Ontario or Quebec.

Agriculture being the paramount industry of the country the department was an important one. Unless the great problems are solved so that people can stay on the land, there will be no lasting prosperity for the country. Almost as important as the fighting itself just at this time is the matter of agricultural production. In spite of the heavy enlistments all over the country, the production of the Dominion has actually increased, and last year was the greatest export year in the history of the Dominion.

An interesting announcement which Mr Burrell made was that his Department had taken over all the purchasing of flour, feed and hay for the British and French armies, and this was being done quietly and without any suggestion of graft whatsoever, tremendous task even though it was.

THE EXPERIMENTAL FARMS.

The remarkable expansion in the work of his Department even since he had assumed the portfolio, was strikingly shown in figures which Mr Burrell quoted. In 1911 \$1,200,000 sufficed for the needs of the Department, and this year, in spite of the war, and when other Departments had had their expenditures cut down tremendously, \$4,000,000 was being spent by the Department of Agriculture.

Referring to the work of the experimental farms all over the country, Mr Burrell said there was some criticism on account of the expense incurred. They now cost the country about a million dollars a year. He pointed out they were not meant to pay their way—they would not be true experimental farms if they did. He showed how the work of the farms had been the means of saving huge sums to the country by proving out varieties, as to which were suitable for different localities and which were not. The famous Marquis wheat, Mr Burrell showed, was a product of the Central Experimental Farm at Ottawa. Sixty-five per cent of the wheat now produced in the Dominion was Marquis, and the money saved to the farmers on account of this earlier ripening variety was

B.C. Fruit on Exhibition at Calgary

Apples on Show in Conjunction with Home Grown Vegetables.

(Calgary Herald.)

If there ever was any feeling on the part of the British Columbia producers against the campaign to serve Calgary markets with home-grown vegetables that feeling is rapidly changing to one of hearty co-operation, as evidenced in the enthusiasm B.C. fruit interests are displaying for the big fall fair the Vacant Lots Garden Club is putting on at the Horse Show building, Oct. 16, 17, 18. It seems to be the general opinion of local fruit dealers that the more vegetables Calgary district grows the more money Calgary will have to spend on fruit. According to the best authorities, the pippin is as necessary to the upkeep of the human system as the spud.

A show, therefore, which has as its chief object the exploitation of the Calgary gardener and the B.C. orchardist, ought to make a special appeal to every consumer in the city. No stronger co-partnership could be formed in the solution of the great economic problem which the Calgary housewife is daily trying to work out.

At a meeting of the fruit exhibit committee the plans for British Columbia's share in the fall fair were discussed, and practically completed. Sam Savage pointed out that Calgary was the receiving point for the best apples shipped to any city on the continent, or in the

world for that matter, and urged that an educational feature of the fruit display be an apples calendar, so that housewives would get the most for their money by knowing when to purchase and use the many varieties of apples offered on our markets.

Apparently, not only dogs but apples have their days, and to use a late winter variety in the early fall is a waste of food values. The exhibits from the sister province will be confined to three classes—first, the big packers, sending fifty or more boxes of five seasonable varieties; second, the small grower, sending five or more boxes of five seasonable varieties; and third, the small grower sending his best product, varieties undesignated. All apples displayed at the fall fair will be disposed of by auction.

ANNOUNCEMENT OF ELECTION RESULTS.

Some disappointment was expressed on Thursday at the incomplete nature of the election returns which were given out. These were received over the Government Telegraph and Telephone lines, and the criticism was made in some quarters that had the returns come through some other channel, a fuller service would have been forthcoming. In justice to all concerned it must be said that this is not the case. Summerland people who were in Penticton Thursday evening state that the election news received there was just as sparse and incomplete as here, though that town was served with a wire direct from

Vancouver. With so many outlying polling stations, and so many candidates in the larger Coast cities, it is only to be expected that the returns would be slow coming in.

The Review has made special efforts to get complete returns, and while not as successful as we would like, such as it has been possible to learn are given.

BURRELL—JONES MEETING.

(Continued from page 1.)

enough to pay the whole cost of the farm many times over.

Livestock, a most important branch of agriculture, was now costing \$600,000 per year instead of \$100,000 in 1911.

Help had also been given to the poultry industry to such an extent that Canada was now largely exporting poultry products instead of just as largely importing.

Dealing with his Agricultural Instruction Act, Mr. Burrell showed how it had fulfilled promises made in 1911. The sum of \$10,000,000 had been set aside for purposes of agricultural instruction to be expended through a period of ten years. There was no overlapping on to the work of the different provinces, and the aim of the whole scheme was to make the people help themselves. B.C.'s share of this money was \$63,000 this year, and next year it would be \$69,000, \$15,000 of this is set apart for ag-

ricultural instruction in the public and high schools of the province.

FRUIT INDUSTRY HAS BENEFITED.

It was with justifiable pride that Mr. Burrell was able to lay before his hearers what has been done for the benefit of the fruitgrower. A separate fruit branch had been formed distinct from the dairy and cold storage branches, with which it was formerly joined up. A special commissioner had been appointed to foster the growing market in England for Canadian fruit. The tariff had been raised on apples imported to guard against the deadly competition of the western States. "If it were not for that protection the fruit grower might just as well give up," said Mr. Burrell.

In this connection Mr. Burrell scored the Liberals heavily for their attitude on the reciprocity question, showing that their standpoint was inimical to the best interests of the fruit industry.

SUPPORTS J. W. JONES.

From the consideration of this point Mr. Burrell passed on to a brief mention of the provincial questions. He gave whole hearted support to Mr. Jones as the representative of the Bowser government. He saw more hope for aggressive policy from the government than from the Liberals. The

WAR LOAN

DOMINION OF CANADA

Issue of \$100,000,000 5% Bonds Maturing 1st October, 1931.

PAYABLE AT PAR AT

OTTAWA, HALIFAX, ST. JOHN, CHARLOTTETOWN, MONTREAL, TORONTO, WINNIPEG, REGINA, CALGARY, VICTORIA.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER.
PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 97½

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917.
THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above named Bonds for subscription at 97½, payable as follows:—

10 per cent on application;
30 " " 16th October, 1916;
30 " " 15th November, 1916;
27½ " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 10th day of October, 1916, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt, from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges

Recognized bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

Subscription Lists will close on or before 23rd September, 1916.

A REQUEST

TELEPHONE SUBSCRIBERS are asked when responding to a telephone call, to give their OWN NAME OR NUMBER.

For instance, if, when his phone rings, Mr Green would give his name instead of saying "hello" the speaker at the other end of the wire would at once know he HAD THE NUMBER ASKED FOR, without enquiring further. Thus on every call time would be saved, and the efficiency of the service greatly increased.

If this method of response has not been your practice begin to-day.

BURRELL—JONES MEETING.
 (Continued from page 2.)

best planks to be found in the Liberal platform, he pointed out, were already embodied in the Conservative policy. He preferred the optimism found in the government record to the pessimism which the Liberals seemed to be steeped in.

PATRIOTIC SENTIMENTS.

"Thoughts of the war are with us at all times," said Mr Burrell, referring to the great war. We are fighting for liberty, and that Canada may be a better place to live in. But the war has brought tremendous obligations that cannot be evaded. When the test came Canada responded well, for 360,000 men have enlisted to date, giving up comfort to fight. And the free born sons of Canada, said Mr Burrell, have proved themselves the match of the trained forces of Europe, machine trained armies. But the war cannot be carried on without sacrifice, and there was need for thrift and self-sacrifice.

Mr Burrell paid special tribute to Premier Borden and his colleague, Hon. Thos. White, Minister of Finance, for their work in connection with carrying on the war, so far as the Dominion is concerned. He also paid sterling tribute to the men at the front, what they are fighting for, and how they are standing the hardships. The problems which will face Canada at the end of the war will be the greatest the country has had.

Mr Burrell concluded his speech with the ringing sentence which is placed at the head of this article. It was close upon midnight when he concluded, after having spoken for nearly an hour, and it is seldom the privilege of Summerland people to hear a speech so well worth listening to. It was no wonder that so great a measure of applause was accorded Mr Burrell, and it must have been gratifying to him to receive such spontaneous approbation.

STRONG SPEECH FROM MR JONES.

Mr J. W. Jones, the government candidate, gave the first speech of the evening after a few remarks from Mr Kirk, the chairman.

Mr Jones gave the same vigorous support to Mr Bowser's legislative achievements as he has done at previous meetings. He dwelt especially upon what the government had done for the farmer, but showed at the same time how the progress of the province has been general. He traced its growth from an uncomfortable position at the time the Conservatives came into power to a condition to-day that was distinctly promising. He refuted the Liberal criticism of the government's land policy, showing how the land resources of the province had not been alienated in any degree. Mr Jones also reviewed the steps which were being taken to provide suitable land which would be available for the returned soldiers.

On the question of the irrigation difficulty in some parts of the constituency, Mr Jones reaffirmed his belief in the efficacy of government ownership of the reservoirs and main canals, and incidentally showed how this policy had been advanced years ago by Mr Price Ellison, but turned down by the managers of the irrigation companies. The government had been investigating the situation for some time, and now had data on hand that would allow them to address themselves to the task of dealing with the problem. While the situation is not so acute here Summerland should nevertheless be interested in the matter. Had the opposition leaders touched upon it while here? Not at all, said Mr Jones. He showed by mentioning the production possible from irrigated lands in the South Okanagan the importance of this problem to the district. He intended, if elected, to give the same attention to the needs of the district as he had been giving since he had received the nomination a year and a half ago.

The popularity of Mr Jones' candidature was strongly evidenced in the applause which was given him, an indication that many votes in the district were going to be cast in his behalf on Thursday.

THE LIBERAL SIDE.

Mr L. V. Rogers has been on the platform at almost every meeting during the campaign the government party has held here. He, too, was exceedingly well received. After some complimentary remarks to Mr Burrell, and the Liberal-Conservative Association in allowing him the privilege of speak-

ing at their meetings, Mr Rogers proceeded to his vigorous arraignment of the government, smiting them hip and thigh on account of their shortcomings. He depreciated the government arguments that the province was in an unassailable condition financially, quoting figures which he thought left plenty of room for improvement. Mr Rogers strongly criticized the land policy which has been pursued, and also the method of setting aside land for the soldiers. This is being done by making purchasers who are in arrears with payments surrender a portion of their holdings equivalent to the amount outstanding. Naturally, Mr Rogers pointed out, the land owners will select the best portions of their holdings for themselves, and the soldiers will get what is left. He mentioned the homesteading of land, and farmers loans administered by a strictly independent body, as two strong Liberal planks. He is in accord with the proposed government solution of the irrigation question, and stated that while government ownership had long been a Liberal principle, the Conservatives were only just now adopting it. Touching on the patronage evil, Mr Rogers said that Mr Brewster was the first leader to come out into the open for its abolition. This government had both condoned it and practiced it, but the Liberals party condemned the system. He restated his view that this election was not a mere party fight, but a struggle for right government, a fight for the rights of the people.

AN OLD TIMER IN THE OKANAGAN.

Mr H. H. Stevens said he was no stranger to the Okanagan, he had been here twenty-three years ago, and stayed for six years. He gave an interesting reminiscence of the time when there was nothing but two ranches on the whole west side of the lake—those of Messrs Short and Gartrell—and only Kelowna on the east side. Pentleton then was just a wharf, a hotel and a livery barn. There was an amazing change, and he found more real common sense being put by the farmers into their efforts, and he thought there were more results coming from their work. He believes that the Okanagan is destined to play a very important part in the affairs of the province. Touching briefly upon Canada's part in the war, Mr Stevens said that they had every reason to be proud of the western regiments that had been reviewed as they passed through Ottawa. The finest regiments came from the West, he said. The country was determined to see this thing through for the sake of Belgium, Serbia and the other little states that were suffering so much.

VIGOROUSLY CHAMPIONS THE GOVERNMENT.

Turning to matters political, Mr Stevens endorsed very strongly the Bowser regime, and he did not hesitate to denounce the Liberal criticisms roundly. He said he had heard the first words about a constructive Liberalism from Mr Rogers. It was easy to talk about loans to farmers, but it was a complicated problem to tackle. Mr Bowser could have dangled this policy before the electors as a pre-election promise, but he had done more, and farmers' loans were now an actuality. The irrigation problem was another difficult matter, and careful consideration of the data collected was needed before the matter could be remedied. Contrasting the Conservative and Liberal policies as a whole he characterized the one as constructive and the other as destructive. The Bowser government had placed more real legislation on the statute books than any other government in the same length of time.

Mr Stevens went very thoroughly into the farmers' loan act, the workmen's compensation act, aids to shipbuilding and mining, the question of aid for returned soldiers, showing the genuineness and thoroughness of each. He disproved some opposition statements in regard to railway matters and finances, with the inference that the province had no proper system of accounting. The public accounts were open to all, said Mr Stevens, and it was everybody's privilege to look into them.

Not a single dishonorable act in Mr Bowser's public career could be pointed to, he said. The Liberals had made many charges in this connection, but always failed to back them up. The patronage system they so complained of was recently brought to perfection under the Liberal regime at Ottawa. The province's financial system of carrying on public works by borrowing, deplorable though it might be, was the same as with other

governments, and was not peculiar to B.C. Mr Stevens concluded his forceful speech by strongly discouraging empty criticism. "Criticize if you wish," he said, "if you have something better to put in place, but if not, refrain."

Designed this year it will ornament and enhance the good appearance of the tidiest kitchen in all Canada.

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

GILLETTS LYE EATS DIRT

Naramatans Optimistic.

Naramata fruit growers, as a result of an abundant crop, and a steady insistent market and good prices, are wearing the glad smiles of hope. They seem to see in the near future the dawn of a new era for the Okanagan, and incidentally their own well-favored sunny Naramata. Most of the growers have acted on the advice of the government lecturers and others in adding more and more the system now in vogue of mixed farming. Each fruit lot owner now keeps his own cow, and consequently the family have abundant butter and cream, and all kinds of milk. Then a few pigs are fed on the by-products, and in due course the larder is stored with choice supplies of bacon and lard. In this way living expenses are reduced to the minimum, and happiness and good cheer become the watchword. Who wouldn't live in the Okanagan!

Red Cross Notes.

The regular weekly meeting was held on Saturday last with a fair attendance. The ladies are now going to devote their undivided attention to the preparation of the Christmas parcels to be sent out to our own boys wearing the khaki. The sideboard scarf which was raffled off by Mrs George Aldridge our secretary-treasurer, was won by Miss Clara Palmer. All the money made by this means or any other legitimate means, will go toward buying yarn, shirting, flannelette, etc., for our soldiers. Mrs Partridge and Mrs Fred Simpson served refreshments toward the close.

Corpl. Harold Steers of the 231st Seaforth Highlanders now camped at Sidney, arrived in Naramata on Monday by K.V.R. to spend a few weeks with his brother Mr Ernie Steers.

Mr Norman Mitchell, who has been for about two years living in Three Hills, Alberta, arrived home quite unexpectedly on Friday night's boat to spend a while with his parents, Mr and Mrs W. W. Mitchell.

W.C.T.U.

The regular monthly meeting of the W.C.T.U. was held in the basement of the church on Tuesday afternoon, the newly appointed president, Mrs Young, presiding. A short program at the close of the meeting consisted of a reading by the corresponding secretary, Mrs D. O. Hughes, and an instrumental solo by Mrs T. H. Boothe, after which most delicious fruit of different kinds was served to those present.

Current Events - OF - Town & District

Corpl. Allie Noyes of the 231st Seaforth Highlanders arrived home on Monday for a few weeks' furlough.

Mr John McLean of Summerland spent the week-end with Mrs J. M. Robinson and family at Hotel Naramata.

Mr Allen Hill, who has been visiting his sister Mrs James Dean for a few days, left for Vancouver by Wednesday evening's boat.

Edmund Boothe, accompanied by Miss Marguerite Robinson, took a jaunt to Penticton on Saturday last, each going down on horseback.

We are pleased to note that the electric light plant is again running after a lapse of a couple of weeks on account of the great drought.

Corpl. Harold Mitchell of the 231st Seaforth Highlanders, who has been for a few days holiday, left again on Monday morning for his camp in Sidney.

Divine service was conducted in the Methodist Church on Sunday afternoon by Rev. H. A. Solly of Summerland, the rev. gentleman coming over by special ferry.

After the close of the meeting at which Mayor Jones and Hon. Martin Burrill were the principal speakers, on Friday afternoon last, Mrs J. M. Robinson and daughters, entertained a number of guests to a five o'clock tea in their home.

Judging from the large number of citizens who find time, inclination, and cash to take in the free trips to Penticton store sales, it abundantly is proved in this particular instance at least that there is nothing like persistency in advertising.

Speaking of advertising, reminds one of the Jones Bros. running a small general store in a small village in a middle western state who as a result of a total loss through fire, were compelled to advertise, and who, as a result of a determined and persistent system of judicious advertising worked up to an annual trade of \$150,000. And as a result of two things good advertising and good service. Fact!

Remember the Fruit and Vegetable Exhibition.

The powers that be at the back of the Fruit and Vegetable Show booked for Oct. 19th, are busy perfecting plans for that initial event in Naramata. Mr H. K. Bowes, the new owner of the old store buildings on Front Street, formerly occupied by the Naramata Supply Co., has very kindly and generously offered the management the use of the building for show purposes. A better place could not be found. It is large enough, quite central, and beautifully lighted. It only remains now for the people themselves to get busy and prepare their exhibits. The people in general, of course—not a few of the people, for it is a well-known fact that nothing so soon and so surely nips the budding ambitions of the exhibitors as to find a lack of patronage and a limited number of prize seekers, whose names, if oft repeated, give the quietus to the whole project. Already the prize list is in circulation, and it now is up to the people of the district to net with one accord. Of course we will!

"Mother," said a little girl who was engaged in making her doll an apron, "I believe I will be a duchess when I grow up." "How do you ever expect to be a duchess my daughter?" the mother asked. "Why, by marrying a Dutchman, to be sure," replied the girl.

PRACTICAL EDUCATION.

While our schools are being conducted very satisfactorily, we believe many of the problems in mathematics are not practical. Why not have problems useful in everyday life? For instance like the following:

If it takes a boy twelve years of age twenty-two minutes to bring in six small sticks of wood, a distance of seventeen feet, how long will it take him to travel a mile to see a circus show procession?

A woman placed four pounds of cold meat and eight slices of bread before a tramp. At the end of twenty minutes how much was left?

A man pays thirty cents for three pounds of evaporated apples and gets a \$14 newspaper puff for sending them to a hospital. Does he gain or lose, and how much?

Two females, each thirty years of age, are sitting on a sofa. Neither of them has a husband. One is worth two hundred thousand dollars, and the other teaches a district school. Which is the unmarried lady and which is the old maid?

A man winks his eye an average of 30,000 times a day, and a woman's tongue makes 78,000 motions every twenty-four hours. At this rate how long will it take the man to catch up?

If it costs \$200 for a young lady to learn painting, and she turns out landscapes worth forty cents a piece, what is the net profit?

It takes twenty blows of a hammer in the hands of a woman to drive a tenpenny nail three inches. She misses the nail twice where she hits it once. How many blows does she strike in all, and how far can her voice be heard when she strikes her thumb?

Scab has almost completely ruined McIntosh and Fameuse apples in Morrisburg, Ont., district. Growers, who have sprayed four or five times will have from 60 to 80 per cent of clean fruit, but there are only few of such orchards. The general crop cannot be estimated at more than a 50 per cent crop with a small percentage of No. 1. Most orchards in the vicinity of Brantford are 90 per cent scabby and wormy. In the famous Annapolis Valley there is no increase in scab, and the coloring of the fruit is more than usual. Growers are looking for better prices than last year. Barrels are plentiful and transportation assured.

By devoting all our energies to producing things useful and abandoning the purely ornamental and the luxurious, we are helping the country.

Do You Make BUTTER?

If you do, you must use Wrappers, with certain legal requirements printed thereon.

We have just received a large shipment of

Pure Vegetable Parchment

FOR

Butter Wrappers

Your Order for whatever quantity you require will be appreciated. Quality and Prices right. We find business in this line increasing, but we can do more.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Review Office.

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 300

International Correspondence Schools, Box 826-O, Scranton, Pa.

large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

"Noxious Weeds, their Identification and Eradication," by H. O. English, Soil and Crop Instructor. This is the title of Circular Bulletin No. 18, just issued by the Department of Agriculture, Victoria. It is free for the asking. A list of noxious weeds is followed by instructions for control, identification and eradication. A dozen page illustrations of the weeds precede the full text of the provincial Noxious Weeds Act.

Classified Adverts.

RATES:

FIRST INSERTION — 2 cents per word: minimum charge 25 cents.
EACH ADDITIONAL INSERTION — 1 cent per word: minimum charge 10 cents.

In estimating the cost of an advertisement, subject to the minimum charge as stated above, each initial, abbreviation or group of figures counts as one word.

If so desired, advertisers may have replies addressed to a box number, care of the "Review," and forwarded to their private address. For this service, add 10 cents to cover postage.

No responsibility accepted for correctness of telephoned advertisements.

Please do not ask for credit, as the trouble and expense of booking small advertisements is more than they are worth to the publishers.

NOW IS THE TIME to book your Order for YOUNG PIGS from our Fall Litters.

BALCOMO RANCH. R. V. Agur, Mgr.

Passing Events: Social, Personal, &c.

Mrs Ronald Sinclair, of Vancouver, is visiting with Mrs Hespeler.

Mr Hugh McKay, assistant accountant at the Bank of Montreal, Vancouver, is visiting Mr and Mrs Hespeler.

R. H. English and son of the Pioneer Livery announce that their car meets all eastbound trains at the Kettle Valley station, West Summerland. tf

Among the soldiers who are home just now on leave are Privates J. Pollock of the 143rd B.C. Bantams, S. Bartholomew, of the 172nd, who came off the boat last Saturday night, and H. Sculthorpe, of the Army Medical Corps.

Mrs A. D. Adamson and two children arrived from Aspen Grove on Tuesday morning of this week, and have been staying at the home of Mr and Mrs J. L. Logie. Mrs Adamson has taken charge of the extensive ranch property at Aspen Grove which her late husband managed. She expects to remain here for a few days yet.

"All's fair in love and war"—so the villain seemed to think in "Somewhere in France," played in Empire Hall last Saturday night. Owing to the late arrival of the boat it was long after the usual time before the curtain lifted, and a pretty good house was waiting by that time. The play was well acted throughout, and certain portions of it conveyed very vivid impressions of what real war is like. Scenery and costumes both were well above the average.

Baron Shaughnessy, president of the Canadian Pacific Railway, arrived at the Coast at the end of last week and has been spending several days there. He is on a tour of the C.P.R. system from coast to coast, which it is predicted will result in some radical changes in the administration of some departments of the railroad. Among those who are accompanying Baron Shaughnessy are several directors and vice-presidents of the company who have been identified with the development of this district. These are Sir Edmund Osler, Herbert S. Holt, and R. B. Angus.

Marian, youngest daughter of Mr and Mrs B. L. Hatfield, met with a mishap last Saturday afternoon by which she suffered a broken arm, the bone being broken just below the elbow. The accident occurred when she fell from a fence near the Felix Hotel, where the family are staying. Dr Andrew took her to the Hospital where an X-ray examination proved the extent of the injury. The broken bone was set, and the little sufferer made as comfortable as possible. It will probably be almost six weeks before the broken bone has knit again with anything of its former strength.

Mrs George Gartrell is now visiting at the Coast.

Dr Saunders, Dominion Cereal-ist, of Ottawa, was a visitor at the Experimental Station for a day or so last week-end.

James Ritchie came in this week from Vancouver and remained over election, expecting to return to Vancouver this evening.

The Ladies' Hospital Auxiliary will meet next Tuesday afternoon, September 19th, at three o'clock at the home of Mrs R. C. Lipsett.

Mrs J. Rowley and Mrs Bissette are leaving this evening for a holiday trip to Vancouver. They will motor to Penticton and take the train from there.

The regular fortnightly meeting of the Home Comfort Club will be held on Thursday evening of next week, September 21st, at the home of Mrs E. C. Graham.

Basil Steuart went out by the Kettle Valley line on Wednesday morning for Grand Forks, where he is attending to the packing and shipment of extensive apple purchases which it is understood have been made in that section by A. Steuart & Son.

After a "try-out" of some weeks Mr J. Downton has concluded that he can better serve his customers by operating both one store and making regular and frequent deliveries from there. Announcement of a change in service is made in his regular advertising space. 7

Both the Conservatives and the Liberals held meetings this week at the Summerland Lumber Company's mill at Mineola. On Monday night Mr L. V. Rogers, Liberal candidate, held a meeting there, and the following night Mr J. W. Jones, now M.L.A., also spoke. At this meeting Mr Hatt also spoke in the interests of prohibition.

Enthusiastic mass meetings were held locally last Sunday night in support of the B.C. Prohibition Bill. In St Andrew's Church Dr White, Superintendent of B.C. Methodist Missions, and Rev. A. Henderson were the speakers, and in the Baptist Church in the evening Rev. N. McNaughton spoke with Dr E. W. Sawyer and Mr W. C. Kelley.

Mr D. E. Hatt has been in the Okanagan for the past week or ten days in the interests of the prohibition movement. He addressed meetings at Peachland and Kelowna last week-end, and came on down to Summerland early this week. He spoke at Mineola in the mill on Tuesday night, and on Wednesday took part in a big demonstration at Penticton. He expects to return to the Coast this evening.

Myrtle Rebekah Lodge, No 32, will celebrate the 65th anniversary of the founding of their order at a special church service next Sunday evening. This will be held at the Lakeside Baptist Church, conducted by Revs A. Henderson and N. McNaughton. The regular evening service in the Methodist Church will be withdrawn to permit of a union service for this occasion. A united choir will render special music.

A very successful Tea was given by Meadowbrook Orchard at the Summerland Lawn Tennis Club's grounds on Friday afternoon last, the 8th inst., in aid of the local branch of the Red Cross Society, tennis, music and daylight fireworks being amongst the attractions. The daylight fireworks, imported direct from the well-known firm of Hit Fireworks Co. Inc., Seattle, were a distinct success, the greater portion of the company present having never seen anything of the kind before. The place do resistance, an 8lb. day light rocket, which upon exploding in mid-air, dropped a large Union Jack, measuring 4 x 6 1/2 feet attached to a parachute, called for great applause and much cheering. On the following afternoon a Mixed Doubles American Handicap Tennis Tournament was held also in aid of the Red Cross Society, from which Mr P. G. Dodwell and Mrs P. G. Koop carried off the honors. The entire proceeds from the two entertainments will bring in at least \$25, which we feel sure the Red Cross Society will appreciate.

Geo. Robinson came down from Peachland this week and took home his new Ford car which he has purchased from B. L. Hatfield.

Members of the 172nd Battalion are understood to have received word that they will leave for overseas in about three weeks.

Mrs A. B. Williams has been enjoying a few days holiday at Kaleden this week, where she has been staying with Mrs H. Lock.

Mr J. Galt returned last week-end from a two weeks' holiday spent at the Coast. Mrs Galt and little daughter are remaining there for several weeks.

After a stay for some time at the home of Mrs E. A. Jones, her daughter, Mrs Cartwright and her little granddaughter left the first of this week, returning to Kamloops.

L. L. Palmer, formerly Valley fruit pest inspector, and now connected with the Mutual Brokerage interests on the Prairies, came in by Wednesday evening's boat and has been around the district for a day or so.

A Cadillac limousine car, given by Lady Tupper, is to be raffled in Vancouver in aid of the Red Cross and Patriotic Fund. Tickets, price \$1 each, can be obtained from Mrs Andrew or Mrs May. The drawing will take place at the Hotel Vancouver on October 2nd. 4

Mrs J. W. Angwin entertained at a most enjoyable afternoon tea at her home on Thursday afternoon, the guest of honor being Mrs MacLaine, of Newfoundland, who is visiting just now with Mr and Mrs G. A. MacLaine. Most of the ladies who were present were from the Maritime Provinces, adding interest, not to say pleasure, to the occasion.

Rev F. Millar of Penticton will spend next Sunday in Summerland. He will conduct the quarterly communion service in St Andrew's Church at 10.30 a.m., and will also preach there in the evening. Rev N. McNaughton will preach in Penticton next Sunday morning.

Over the telephone last evening, while election returns were being received, Mr Jones asked the Review to convey through its columns his best thanks to his supporters here, in Peachland, and Naramata, and his great appreciation of their efforts on his behalf in the long drawn out contest, now closed successfully. If at all possible he will visit these districts shortly to ascertain our "after-feelings," now that the smoke of battle has cleared away.

An interesting letter from Mr R. Randall, formerly provincial fruit pests inspector in this district, and now with the 102nd Battalion on service, is published elsewhere in this issue. The letter is an acknowledgement of a parcel sent by the Home Comfort Club. It contains references to several well-known Summerland soldiers, and also states that the 54th Battalion, one in which this district is very heavily interested, has also crossed to France, and will likely be in the fighting. Trooper Weeks, the writer of the second letter of thanks published is the son of Mrs Frank Marshall of Hotel Summerland.

Subscriptions will be received at the Bank of Montreal here for the new Dominion Government War Loan until September 23rd, on which day the lists will close. This is a very attractive and safe investment, bearing 5 per cent, and is purchasable at the generous figure of \$97.50 per \$100, the bonds being in denominations of \$100, \$500, and \$1,000, interest half yearly, and they run for 15 years. A 10 per cent payment upon application can only be accepted at the present time, until allotment is made, when the balance can be paid in full, or 30 per cent on 16th October, 30 per cent on 15th November, and 27 1/2 per cent on 15th December, completing the calls.

E. B. MAY, Manager. 7

Keep your troubles to yourself; while you are telling them you are taking up the time of the woman who is waiting to tell hers.

OBITUARY.

LAURENCE C. WOODWORTH.

A well-known figure in the district passed out this week with the death of L. C. Woodworth. The news that his body had been found on Tuesday afternoon at Shingle Creek created a profound sensation as it spread widely about. He had business dealings with Bruce Cousins at Shingle Creek that day, and had left him to meet again near the creek. Failing to meet him as expected Mr Cousins made search and soon found the body, much to his horror, with blood showing from a fresh bullet wound in the temple. Close beside the body was a .22 rifle which was evidently the means by which the tragedy was brought about. This rifle, it has been learned, was borrowed from an Indian in the vicinity.

The remains were not disturbed until Dr Andrew had been summoned, and he ordered the body to be taken to Penticton, Shingle Creek being properly in that coroner's district. An inquest was held there on Wednesday, and a verdict of accidental death was returned by the jury.

The body was brought up to Summerland for burial, and interment took place yesterday afternoon at Peach Orchard, Rev N. McNaughton conducting a service.

Much sympathy is expressed for Mrs Woodworth and the family who remain, on account of the tragedy which has so suddenly enveloped them. There are two sons of Mr Woodworth by a former marriage, the elder Cyril, being at Vernon with the 172nd, and the younger, Sinclair, now at Vancouver with his uncle, Mr C. M. Woodworth. There is also a little daughter at home with Mrs Woodworth.

Ayrshire Cattle to be Specialized by Garnett Valley.

Garnett Valley breeders have for some time shown a preference for Ayrshire cows over those of any other breed, and when a live stock association was formed recently by the farmers of that section that breed was the unanimous choice.

Application was made by the association to the Dominion Government for a pure bred sire, and word has now been received by the secretary, Mr W. M. Wright, that the request will be granted, the animal to be shipped at an early date. Information forwarded is that his dam under a R.O.P. test produced in one year 18,013 pounds of milk, making 485 pounds of butter.

Mr Wright assured the Review that it was not the desire or intention of the new association to interfere with Holstein breeding in this district. Garnett Valley had always been an Ayrshire district, and the sire being brought in was for Garnett Valley only.

Mr and Mrs W. J. Nicol wish to thank their friends in Summerland for the many letters of sympathy received by them, and also from the kind enquiries for Mr Nicol's health. He is now out of hospital and is progressing favorably.

Superintendent R. H. Helmer of the Dominion Experimental Station will leave here on Monday with an exhibit to be shown at the Kamloops Fair, opening Wednesday. The exhibit will be shown at many of the fairs of the province this fall. From Kamloops it goes to Kelowna and thence to Armstrong.

Mrs James Conway returned on Wednesday morning from a visit to her daughter, at Stoven's Camp, near Romeo, eight miles beyond the Coquihalla Summit. She went over to Princeton with her son, J. R. Conway, in his Ford last Tuesday, and from there went on to Romeo, where her daughter, Mrs Behan, is residing with her husband.

Good Wheat Being Sent East

Two Hundred Cars of Grain From North End of Valley.

British Columbia is the latest entrant in the aggregation of wheat exporting provinces of the Dominion—the bread-basket of the world, as it has been called. Several shipments have been received at the Calgary government elevator consigned from Vernon, Enderby and Armstrong, and there is a lot more expected later, as threshing is completed. This is the first time any grain has been sent eastward. While there is a market for milling grain at the Coast, it is a spasmodic one, and there is not the premium there that is obtained on Fort William shipments. Of course if the shipping facilities at the Coast in the way of ocean transportation was normal the Coast elevators would likely get this grain. Conditions just at present, though, are not favorable. There is no inspection at the Coast, either, and grain shipped there direct would have to be graded from samples sent to the Calgary offices.

The Canadian Pacific has just issued a supplementary tariff in which for the first time the possibility of grain shipment eastward from interior British Columbia points has been taken into consideration. From points such as Vernon, Enderby and Armstrong there is a rate of 41c charged to Fort William. It is estimated there will be about two hundred cars of grain to ship from these points. At present it is being sent in sacks down as far as Calgary and reloaded there. Shippers at northern valley points are handicapped by the lack of elevator facilities, and apparently are also lacking in loading platforms, otherwise they would not go to the trouble to have all their grain sacked. But with their wheat grading No. 3, they can afford to go to a little extra trouble and still do very well.

There are many politicians who have not solved the difference between a principle and a platitude.

TWO LETTERS RECEIVED BY HOME COMFORT CLUB

102nd Bat., Can. Contingent, Aug. 15, 1916.

Dear Mrs Hogg, No doubt the members of your club and my other Summerland friends will be interested to know our battalion is now in France. We are at present at a rest camp back of the firing line, resting after our train journey through this country. This is a beautiful country here, crops of all kinds are good, and look very nice. One hardly realizes that a war is on so close, excepting for the flare lights which we can see at night, and an abundance of aircraft. It is only a little more than four months since I enlisted, and here I am in France, and inside of a few days expect to be at the base just behind the back lines of trenches. I would like to tell you all about our trip over to England, and experiences here, etc., but news which we are allowed to write is very limited. Mr Rush from Summerland is attached to our battalion, and several others of the 11th C.M.R. I saw H. C. Howis quite often while at Bramshott Camp, England, and I expect by this time he is somewhere in France, his battalion was leaving about the same time as ours, and we are attached to the same brigade. We are right on the frontier between Belgium and France. I think this is all the news this time, will probably have something more exciting to write about next time. With kindest regards and all good wishes.

Yours sincerely, REUBEN RANDALL.

P.S.—I am attached to the snipers' section.—R.R.

4th Queen's Own Hussars, Curragh Camp, Ireland. 25th Aug. 1916.

Dear Madam, To-day I have received your splendid parcel from your club. I cannot find words sufficient to express my heartfelt thanks, but believe me I thank you so much for your great kindness. At present I am unfortunately on the Home Service list, but trust I shall have the pleasure once more to help to rid the world of the most detestable vermin on earth. It has been my wonderful luck to be fighting beside Canadian regiments. I was in support to them on the never-to-be-forgotten Feb. 29, 1915, and after being wounded was in No. 2 Canadian Hospital at Le Treport, France, and again when I came to England at Herne Bay and Shorncliffe. I have only the Canadians to thank for being as fit as I am at present. I thank you and all your helpers once again. I trust to one day have the pleasure of personally thanking you.

I am sincerely, A. J. WEEKS.

claims to have put in on extension work.

A report prepared by the Irrigation Superintendent detailing work which will have to be done before next season was presented. It was referred to the Works Committee who will arrange the work mentioned in order of urgency. It was decided to leave water in the ditches after the 15th of the month, for two weeks. The superintendent will be retained till the end of the month, and the services of all the ditchmen with the exception of about three will be dispensed with on the fifteenth.

Superintendent Thomson was authorized to proceed with certain slight repairs at the Garnett Valley dam.

A comprehensive and ably prepared report of the Irrigation Convention at Kamloops a month or so ago was presented by Coun. E. R. Simpson and read to the Council. A unanimous motion of thanks was tendered to Coun. Simpson for this report.

Accounts as follows were passed for payment:

\$1550.00 Raised By Ambulance League.

It may interest readers of the Review to hear a little about the work of the Summerland and Naramata branch of the Okanagan Ambulance League during the year from August 1915 to August 1916. During that year there were 149 members in Summerland, and 40 in Naramata. The amount of money collected during the year was \$1,552.58, and the money spent \$1,220.66. \$151 was sent in cash to the Red Cross Society, and the rest spent on materials (wool, etc.) leaving a cash balance of \$331.92. Twenty-eight bales have been sent away containing 5,085 articles, of which 606 were socks, also four bales of surgical dressings. Forty-five sewing meetings have been

held, but much of the work was done by the members at home. 438 boxes of apples were sent out last fall, and close on a ton of jam.

Up to the present time in the new year of the League, there are only eight qualified members. Those wishing to remain members and carry on the good work of the League are asked to send their membership fee of 25c. to Mrs. Solly, the treasurer. There are still many empty tins waiting for jam. They can be obtained either from Mrs. Milne or Mrs. Solly. —Contributed.

Calgary Exhibit Open To B.C. Apple Growers

Splendid Opportunity To Advertise Okanagan Fruit.

The city of Calgary a few years ago organized a Vacant Lots Garden Club, for the purpose of tilling the vacant lots scattered throughout the city. The movement "caught on," has spread rapidly, and now it is one of the most important economical institutions in the city. It has done not a little in helping to keep down the high cost of living, for fresh vegetables "from our own garden" are being served with real housewifery pride in hundreds of homes throughout the prairie city.

The idea has grown so rapidly and the club has met with such success that it was decided last year to hold a potato show, and very successful it was. The club under the guidance of the City Council has decided to branch out somewhat and hold a larger and better show this season. Vegetables as well as potatoes are important, and so the Calgary Soil Products Exhibition is to be held on Oct. 17th, 18th and 19th, when all the biggest potatoes, turnips, beets, carrots, and cabbage will be shown in the big horse show building in the hundreds of classes drawn up by the exhibition officials.

British Columbia fruit growers have been asked to make a display, and all the Calgary fruit brokers and jobbers were appointed a committee, headed by W. E. McTaggart, B.C. Fruit Markets Commissioner, with offices in the Prairie city, to look after this part of the display.

This committee is the most aggressive and enthusiastic of all, and already has completed preliminary arrangements for the display. Big rosy cheeked B.C. baked apples, served with pure Alberta cream will be sold at 10 cents each by pretty maids in true gingham dresses, while other visitors to the show will count how many apples are on display, for prizes are to be given to the persons guessing nearest to the correct number on display. Boxes of apples will be the prizes, and the Calgary housewife who can bake the best apple pie from B.C. apples will be able to compete in a competition with her neighbors.

During the same week the Calgary jobbers are holding their annual apple week, and the accumulative effort will secure for British Columbia apples a great deal of advertising. It, therefore, behoves every fruit grower in the province to make a display at the show. The fruit committee will sell every box of apples for exhibitors, and will remit to them the prevailing wholesale price of apples less the freight.

Three classes have been made so that the big and little shipper will be able to show his fruit to advantage.

Diplomas and ribbons will be awarded.

One of the aims of the fruit committee is to educate the Calgary housewife to the varieties in season, so that she will order apples by variety instead of just plain apples, and to make sure of this the three classes have been drawn up as follows:—

1. Exhibits of fifty boxes or more to be made by shipping organizations, those displays to be made up of McIntosh, Jonathan, Yellow Newton, Spion, Wagener, Rome Bounties, Kings, Greenings, Win-

Thinks Highly of New K.V.R. Line.

Lord Shaughnessy was greatly impressed with his first journey over the completed Kettle Valley Railway, and said that in addition to being a tourist line, owing to its scenic attractions, it should carry a great deal of freight between the Coast and the Kootenays, and possibly between the Coast and further East. In railway circles it is said that Baron Shaughnessy's present tour of Western Canada is the last he will make as president of the Canadian Pacific, and that at the annual meeting in October he will be succeeded by Vice-President George Bury, retaining, however, his connection with the great corporation as chairman of the board of directors.

Big Demand For B.C. Potatoes.

Winnipeg speculators are buying heavily of B.C. potatoes. One broker, says an exchange, is reported to have sold 90 cars and another 40 cars at prices around \$16, \$17 and \$19 a ton at B.C. points. Minneapolis is enquiring for potatoes from this province. It is learned that Indiana, Ohio, Illinois and Iowa have practically no crop at all, while Michigan, Wisconsin, North Dakota, New York and Maine have a crop 70 per cent of last year. One Minneapolis firm is in the market for 50 cars of potatoes. North Yakima is endeavoring to get the Minneapolis market, and has sold potatoes at \$22 f.o.b. for Netted Gems and Burbanks, these varieties always commanding a premium. Idaho has offered potatoes in Minneapolis at \$14 f.o.b., but the trade there seems a little afraid of Idaho spuds. Walla Walla is asking \$25 f.o.b., but no sales have been made at that price. A car of B.C. potatoes was sold in Minneapolis recently at \$1.50 a bushel, or 2 1/2 c. lb. wholesale price.

Mr W. H. A. Moore is now on a visit to Nova Scotia.

Miss Mary Lees is leaving for Regina this week-end after spending several weeks here visiting with her brother, Principal C. W. Lees.

Dr F. W. Andrew and J. R. Doherty went up to Kelowna on Thursday afternoon in connection with the affairs of the Masonic fraternity.

Miss Annie Dale has been an inmate of the Hospital for several days. She expects to be about her duties again in a few days at the most.

ter Bananas, and Canada Baldwin apples. Diplomas to be awarded for the displays.

2. Exhibit of five or more boxes of McIntosh, Jonathan, Wagener, Grimes Golden, and Winter Banana apples to be made by individual shippers. Ribbons to be awarded.

3. Exhibit of five or more boxes by individual shippers of apples of any variety. Ribbons to be awarded.

Every apple growing district in British Columbia should have a display at this exhibition. Alberta farmers will be in the city at the same time attending the Live Stock Sales, and this will afford B.C. growers a chance to show their wares to their best customer, the prairie farmer.

Growers should write at once to W. E. McTaggart, B.C. Fruit Markets Commissioner, Calgary, telling him that they will be making a display so that arrangements may be made for the proper grouping of the exhibits in order to make the most attractive showing.

Board Of Trade Deals With Various Subjects Of Interest

President Expresses Desire To Work In Unison With Council For Betterment Of Local Conditions.

Effort Of Okanagan Telephone Co. To Get Valley Monopoly Meets With Unanimous Disapproval.

A considerable volume of business, important and less important, was expeditiously dealt with at the regular monthly meeting of the Board of Trade held in the board rooms on Tuesday evening. There was present a fairly representative gathering with President F. W. Andrew in the chair.

Among the correspondence read was a letter from a member protesting against the refusal of the agent of the Dominion Express Co. to accept fruit for shipment shortly before the departure of the boat one morning during the cherry season. The member complained that the former agent had occasionally, but always as a favor, accepted fruit in the early morning for the northbound boat. He urged that the Board of Trade deal with the company with the view to having an order issued that shipments be so accepted. The same member also complained that fruit delivered in the afternoon for shipment by express was left standing in the sun and was being tampered with on the trucks. Several members, including Messrs. Lawler, English, and others, took the side of the agent, some of them declaring the charge was the result of a personal grudge, and that it was unreasonable to expect to deliver fruit for express before the boat left, and that it was a practicable impossibility for the agent to receive early morning shipments. To do so he would need to close in the late afternoon just at a time when fruit was coming in in quantity. Dominion Express Agent Kelly was sent for and given an opportunity to state his side of the case. He declared he was quite justified in refusing morning shipments. Up to the present he had been receiving express stuff up to 9 p.m., and it took from 2 to 2 1/2 hours to bill it out. It was 10.30 or 11 o'clock every night when he got through, and he thought it unreasonable to ask him to be on the job again before 6 in the morning. His prescribed working hours were 6 to 5. Seemingly the members present were quite satisfied with the service, as when given an opportunity and requested by Mr Kelly no further objections or requests were made.

LIGHTS FOR PUBLIC WHARF.

President Andrew reported that during the visit of Hon. Martin Burrell, some members of the executive had approached the minister on the subject of lighting the government wharf. He expressed his readiness to support a request to the proper department to have the wharf lighted. At Tuesday's meeting Secretary Galt was instructed to write the department asking that the wharf be lighted.

The need for accurate statistics of local business, including orchard and garden production was again pointed out by the president, who expressed the hope that the board would take action to procure figures covering the various activities.

Enquiries from outside points for fruits and vegetables had been referred by the secretary to several producers, and real estate enquiries were referred to local agents.

Dealing with a question of municipal improvement for which a committee had been named to take up the subject with the Council, President Andrew regretted the seeming attitude of resentment shown by some of the municipal authorities when approached by the Board of Trade. The people must have a form for expression of opinion. At one time there was the ratepayers' association for just such purpose. He criticised the council for not providing for contingencies when striking the rates earlier in the year. As it is, when needed improvements are proposed there is no fund with which to provide them. It is not the desire of the board to dictate to the Council, but any suggestions or requests should be given consideration by the council.

OKANAGAN TELEPHONE AND GOVERNMENT TELEPHONE.

A press dispatch from Vernon to the Vancouver Daily Province, believed to be inspired by interested parties, and making it appear that the company was experiencing unfair competition from the government system, was discussed, and strong exceptions taken. A committee was named to draft a resolution along certain lines refuting statements made and commending the policy of the Government Telephone Service in relation to Okanagan Valley business.

Soldiers Write of Coming Home.

Letters to Comfort Club Full of Cheer.

France, September 2, 1916.

Dear Mrs Hogg:—

This time I was at home when your parcel came so now I'm in a position to pass an opinion on the quality of the parcels that the Summerland Comfort Club send to the boys. As it happened I was also in a position to appreciate it very much when it came. Of course everybody knows that there are lots of times over here when we don't exactly live in the lap of luxury, although we sure do see life, but there are times when the broken state of our fortune is pitiable to behold, and this was one of them. Consequently the parcel seemed pretty good. I can't mention any one particular article in it above another, because they were all equally good. I enjoyed it very much, and I wish to thank the club very much for their kindness.

We are pretty busy these days, and expect to be busier soon. I wish I could tell you about a few of the things that happen around here, because it is very interesting

Counter Petition re Bank Removal.

Petitions bearing the names of one hundred and fifty citizens, which, if complied with, would virtually mean the removal of the Summerland branch of the Bank of Montreal to some building now standing or to be erected in the newer business centre have been submitted to the bank. This is the same petition as mentioned in these columns several weeks ago, the final copy of which has just been handed in and which brings the total number of petitioners up to exactly one hundred and fifty. Another petition is now being circulated by and among citizens who are "interested in the maintenance of the present office of the Bank of Montreal," "respectfully" and "earnestly" protesting against any such change in arrangements as would cause the removal of the present office of the bank.

When interviewed by the Review, Manager E. B. May expressed satisfaction with the circulation of this second petition, as this would be likely to enable his institution to better learn the feeling of the general public of the entire community on the subject. He again gave it as his opinion that under present conditions the bank would not maintain a second office in the municipality. As now developed the question would therefore appear to be one of the removal or non-removal of the bank to different quarters.

to me just now, and I'm sure it would be to everyone at home. However, we'll be there pretty soon.

France is certainly a wonderful country. I've had a chance to see a little bit of it lately, and I think it's as beautiful a country as you could wish to see. I've almost decided to take up a homestead here after the war.

Please convey my thanks to all the members of the club, and tell them that it has the best wishes of Yours very sincerely,

FRANK HAYWARD.

Somerset Barracks, Shorncliffe, England. Sept. 4th, 1916.

Dear Mrs Hogg,

Many thanks for the two parcels just received. I am delighted with the contents.

Glad to say I have quite recovered from my wounds and am feeling quite fit again, but am looking forward to the time we sail for Canada and the beautiful Okanagan. Quite a lot of the boys who got marked permanent base are leaving England this week for Canada. I don't know whether any 2nd C.M.R. boys are in this lot for the casualties do not come to the cavalry depot now. We are liable to leave these barracks any time now for I understand they are to be turned into a hospital. Was up to the 11th C.M.R. camp this morning to see Bert Nelson and the other Summerland boys, but they were all out on parade.

Please thank all the ladies of the Home Comfort Club for their kindness.

Yours very sincerely,
W. ATKINSON.

While Canada's wheat yield for this year is estimated to be a little more than that of 1914, it will be less than half of last year. Last year's crop averaged a yield of 20 bushels to the acre. This year it will be less than 17 to the acre. In 1914 it was 15.07.

Three Thousand Boxes Red Export Apples

Summerland and Naramata Contribute To Australian Cargo.

There will be shipped this week from here to Vancouver five car-loads, about three thousand boxes, of medium and small sized bright red apples for export to far-off Australia and New Zealand. Jonathans form the large bulk of the shipments.

One car will be shipped from Naramata and will go via Sicamous to Vancouver. The other four cars will go direct from here to the Coast over the Kettle Valley Railway. Of these the Summerland Fruit Union are shipping two, A. Steuart & Son one, and A. H. Steven one. The car from Naramata is also being sold by the Summerland Fruit Union.

OBITUARY.

Silas Hamblin Adams.

After suffering for some time past from heart trouble, Mr S. H. Adams passed away somewhat suddenly on Thursday night at his home in Garnett Valley.

Through residence here of a considerable length of time he was well-known throughout the community, and his death removes a sterling and upright citizen who was always respected by those who enjoyed his friendship. While not as a rule taking any prominent part in public affairs, he served a two year term on the School Board very acceptably three or four years ago.

Deceased came to Summerland eleven or twelve years ago. Before settling in Garnett Valley he lived in the town section, erecting the house later owned by Dr C. M. Smith. He was a native of Ontario, and went west to Manitoba about 1879-80, where he pioneered in the Cypress River district.

Besides his widow there are three sons and two daughters remaining in the immediate family, Ernest, by a former marriage, Clarence and Irvine, Helen and Fairy. A brother is the only other relative in this province, being resident in Vernon, it is understood.

Arrangements for the funeral had not been made up till this afternoon, but it will probably be held to-morrow, Saturday.

A break in one of the flumes on the east side of Garnett Valley this week made a bad mess of the road near the Malrose property.

As the result of an accident at the Union packing house at the wharf George Sinclair has been off duty for several days suffering with a badly bruised leg.

Rally Day service will be held next Sunday morning in St Andrew's Sunday School and also in the Parkdale Baptist Sunday School. In both cases specially prepared programs will be used.

Prefers Box Pack.

The box is the coming package, for most varieties at least, says the Canadian Horticulturist. It is easier to pack; easier to handle in the orchard, on the train, or in the home of the consumer; it avoids bruising, and it enables a householder, who does not want to buy more than a barrel at a time, to have three varieties in his home at a time.

CORPORATION versus THE PEOPLE.

HOWEVER other Valley towns may view the situation, Summerland does not incline to the belief that it would be for the best to have the Okanagan Telephone Company take over the government service in the Valley. Some few years ago there was talk of this being done, and now from the appearance of certain plausible articles in the Coast press of late, it looks as if the Okanagan Company is again paving the way for overtures looking towards the acquisition of the government line. When Hon. Martin Burrell was in Vernon lately, he was interviewed by the president and manager of the Okanagan Telephone Company and others, and into the ear of the minister was poured a story of the inutility of the government service which we fear might not correctly reflect the true state of things.

If the case is taken on its merits we think there is little danger of the Department of Public Works at Ottawa consenting to allow the people's long distance line in the Valley passing out of existence. There is a danger, however, that some undue political influence might assert itself at the capital and cause the thing to go through. Such things have been known to happen in regard to matters of relatively small importance, and this should be guarded against.

It needs so little perspicacity to see what would happen in the case of Summerland if the Okanagan Telephone Company did succeed in obtaining a monopoly of the long distance service in the Valley that we do not propose to take space to point it out. The district needs to be alive to the situation, however, and it is pleasing to learn that the Board of Trade has already taken the matter in hand. It is probable that such a deal as the Okanagan Company desires, if assented to, would be put through as quietly as possible, which emphasizes the need of keeping our ears to the ground.

§ § § § §

SHOULD EXTEND ITS SCOPE.

THE SPLENDID RECEPTION which was accorded the first Dominion War Loan leaves little doubt as to how the second will be taken up. Big corporations all over the country have signified their intention of taking up with it, and not a few municipal bodies consider the loan issue offers a lucrative opportunity for the investment of sinking funds. Individuals are doing their part, but the share they can take in the loan is small in comparison to what the business interests of the country are doing.

The suggestion has been made that Canada might well follow the example of the Mother Country in popularizing these war loan issues. That is, popularize them in a thorough sense. There are likely to be a large number of loyal Canadian citizens the country over who have neither the ninety-three and a half per cent. to pay down nor the means to meet a thirty dollar payment three months running. Yet in the course of a year these same people could conceivably set aside a hundred or two hundred dollars, which they would be glad to offer to the country—if the country wanted it.

The plan that suggests itself is that which has been put into effect in England. Small amounts may be paid in through the post offices at any time, and when a certain amount is reached, fifteen shillings for instance, the depositors' receipts are exchanged for an interest bearing document that at once gives the holder an added interest in the great war. This procedure teaches the saving habit and undoubtedly cultivates thrift. An added attraction of this plan is that children are encouraged to put by their trifles of cash, and it is not long before they have something to show for their virtuous saving. A hundred dollars is a long way off to poor people, and the government is losing the use of a lot of good money by not offering something within easier reach of the lesser paid wage earners.

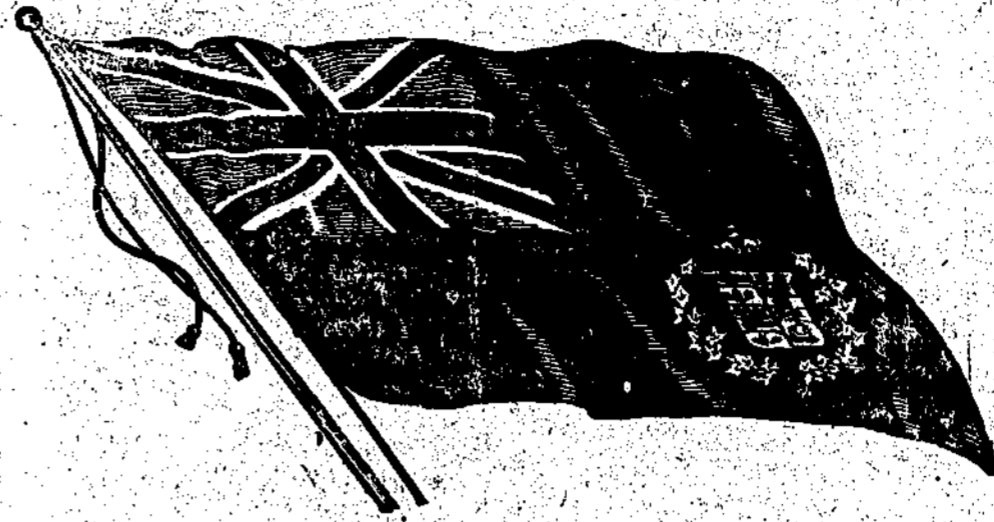

§ § § § §

THE PROHIBITION LAW promulgated by the Legislature of Ontario some months back went into effect last Saturday. It is difficult to realize what a great revulsion of feeling has come over the country within the last few years, and especially since the outbreak of war, against the liquor business. Manitoba, Alberta and Saskatchewan are all under prohibition laws, and now Ontario has joined them, to be followed in all likelihood by our own province. Nova Scotia and Prince Edward Island have banished the bar. Now Brunswick and Quebec are for the most part under local option laws, so that every province in the Dominion has now condemned the traffic in intoxicants within its borders. The time seems ripe for the Dominion to take the lead from the provinces and put the interprovincial liquor business under control. Then the last vestige of the traffic will have been swept away.

§ § § § §

SUMMERLAND might well be represented at the Calgary fruit and vegetable exhibition which is mentioned elsewhere in this issue, and which was touched upon in last week's Review. To get the name of Summerland firmly embedded in the minds of the fruit dealers and consumers of that city would be to accomplish a great deal. The prairie fruit market belongs by right to British Columbia, and the product of this district could get an individuality there that would mean much in cold cash from year to year. If no exhibit of a district nature can be sent to Calgary next month, are there any individual fruit growers with their eyes open enough to send something along?

"Keep the Home Fires Burning!"
Keep Home Production at the top notch.
Keep up the Home Interest in Orchard and Farm.

Our Boys would be sorry if they found Home Industries deteriorated when they returned. There are not as many of us to maintain local enthusiasm in the production of the Best Fruit - the Best Vegetables - and the Best Live Stock But if ALL do their "Bit" we can have the

Biggest Show Ever

Begin now to prepare to exhibit. Lay aside some of those wonderful Apples, Crabapples, Quinces, Grapes, etc. Let others see what you can do in growing Field and Garden Vegetables.

LIVE STOCK will be a

Orchard and Farm:

Topics of Timely Interest and Helpfulness
in the complex Business of Farming.

Apple-Grading Rules in Washington.

General rules and regulations governing the packing of apples and establishing and refining the grades thereof, as adopted by the Commissioner of Agriculture for the State of Washington, are here given:

"First Grade," "Grade No. 1," or "Extra Fancy" are defined as sound, smooth, mature, clean, hand-picked, well-formed apples only, free from all insect pests, diseases, blemishes, bruises, and other physical injuries, scald, scab, dry or bitter rot, worms, worm stings, worm holes, spray burn, limb rub, visible water core, skin puncture or skin broken at stem.

"Second Grade," "Grade No. 2," "Fancy" apples are defined as apples complying with the standard of first grade apples, except that slight leaf rub, scratches or russeting shall be permitted up to a total of one inch in diameter; and limb rubs will be permitted showing an aggregate area in the various counts of one-half of that allowed for leaf rubs, providing that no apple shall show total blemishes aggregating more than one inch in diameter in counts running 125 to the box or less; more than three-fourths inch in diameter in counts running 138 to 168 to the box, and one half inch in diameter in counts running 175 or more to the box. No clearly misshapen or bruised apple, or apples bearing evidence of rough handling shall be permitted in this grade.

"Third Grade," "Grade No. 3," or "C" grade apples shall consist of mature apples free from all insect pests, worms, worm holes, infectious diseases, skin punctures,

bruises or broken skin—but slightly misshapen apples, or those having sun scald, and the blemishes allowed for second grade apples shall be permitted, and there shall be no requirement as to color.

"Combination Extra Fancy and Fancy" grade. When first and second grade apples are packed together, the packages must be marked "Combination Extra Fancy and Fancy."

Combination grade may also include all other apple varieties not provided for in first and second grades.

When second and third grade apples are packed together, the packages must be marked "Combination and Second Third Grade."

When first, second and third grade apples are packed together, the packages must be marked "Orchard Run," but Orchard Run packages must not contain any apples that would not meet the requirements of third grade.

"Summer and Early Fall Varieties": Summer varieties, such as Astrachan, Bailey's Sweet, Bie-tightimer, Duchess, Early Harvest, Red June, Strawberry, Twenty Ounce Pippin, Yellow Transparent and kindred varieties not otherwise specified in these grading rules, together with early fall varieties such as Alexander, Blue Pearmain, Wolf River, Spokane Beauty, Fall Pippin, Waxon, Tolman Sweet, Sweet Bough, and other varieties not provided for in these grading rules, as grown in sections of early maturity, shall be packed in accordance with the grading rules covering fancy grade, as to defects, but regardless of color rules.

Importance Of Conserving The Fertility Of Our Soils.

The soil is the one great factorial foundation not only of agriculture but of the nation's welfare, hence it is practically impossible to spend an excess of care on its cultivation and preservation. Therefore any knowledge that results from experience is of the greatest value. A deal of information acquired from such experience in Bulletin No. 27, second series, entitled "Soil Fertility, Its Economic Maintenance and Increase," just issued by the Department of Agriculture, of which Dr Frank T. Shutt, the Dominion Chemist, is author, and which can be had free by application to the Publications Branch of the Department at the capital. Dr Shutt sounds an intensely practical note of warning when he argues that we have been terribly wasteful of plant food, and that every effort should be made to maintain and increase the fertility of our soils, and, by more rational methods, endeavor to put a stop to that waste. While the warning is directed to the North-West, "where farming has been likened to mining," Canada generally is summoned to account. In brief, a change is called for from extensive to intensive farming, the lesson that is sought to convey being that there is more profit in high tillage and conservation in cultivation than in methods of mere routine. Having gone minutely into the properties, necessary treatment and application of farmyard manures, the doctor supplies a table giving the approximate average composition of manure (fresh) from various animals, describes the manurial value of clover, the component elements and beneficial influence exercised by fertilizers, and refers to the places occupied by wood ashes and seaweed as potassic fertilizer. He goes into the virtues of gypsum and nitrate of soda as indirect potash fertilizer, concluding in an instructive review of the chief means by which the productiveness of the soil may be increased and preserved, by urging farmers to make greater use of the various means and agencies provided by the governments—Federal and Provincial—"for the assistance of the man on the land by information, advice and demonstration." "There is no country," he avows, "better provided than Canada in this respect." Regarding manure, two important facts to be remembered are that where it is not at once utilized by being put into the soil, or on to the soil, one-third of its initial value is lost, and that the loss is least where the manure is kept compact and protected from rain.

Get These New Bulletins.

"Poultry Rations and their Practical Application" is the title of circular bulletin No. 10, which has just been issued by the Department of Agriculture, Victoria. All the rations given in this interesting little circular have been experimented with many years ago, and have been used constantly and successfully by a great many poultrymen in this province. It is with the idea that many poultry raisers can better and cheapen their methods of feeding their stock by following out the suggestions in this publication that it is issued at the present time.

A second edition of bulletin No. 48, "Exhibiting Fruit and Veget-

ables" has just been issued, owing to the enormous demand which exhausted the supply of the first edition very soon after it came off the press. This bulletin deals with the standards of judging adopted by the judges applied by the Department, and also with the arrangement and selection of exhibits. Its pages are full of many useful hints that are of great value to those exhibiting fruit or vegetables in the province.

For copies of either of these publications, write to the Publications Branch, Department of Agriculture, Victoria, and give both the name and the number of the bulletin or circular required.

Every dollar borrowed abroad that might be obtained at home means money going out of the country. Riches may not bring happiness, but they have at least one advantage over poverty, they do not prevent it.

Intense heat-resisting power is the feature of the almost imperishable fire-box linings of our own McClary semi-steel fire-box made in eight pieces—can't warp.

McClary's Kootenay Range

The man who designed the Kootenay knew his job. I know that and that is why it carries my guarantee as well as the makers'.

"REVIEW" Offices.

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

Current Events - OF - Town & District

Mrs Northcote and daughter Aubrey spent the week-end with friends in Penticton.

Visitors to Penticton on Saturday last included D. McKay, T. H. Boothe, F. W. Rolt, W. Rounds and Mrs F. J. Young.

Former Naramatans, Mr and Mrs A. C. Robertson, of Penticton, were guests last Sunday at the home of R. H. King.

Mrs M. M. Robinson and Mrs G. Gray of Summerland were in town on Saturday as guests between ferries of Mrs J. M. Robinson.

Mr W. C. Mitchell Instructor of Manual Training for this inspectorial district was a visitor to town on Thursday last, in order to cast his vote—we hope for woman suffrage—and other worthy subjects.

The rush of apple picking has set in and Manager Snider of the United Growers has no time to sleep between meals, in order to keep pace with the rush of fruit now being hauled to the warehouses.

To judge by the number of visitors to Chute Creek during the course of the past ten days, "kick-innie" fishing has fruit farming—or even politics—beaten a mile. In the game of fishing everyone may participate with more or less certainty of success.

The local participants in the recent political campaign are this week seen wearing the same clothes as formerly, but their faces are adorned with smiles that won't—let it be hoped—wear or rub off with the advent of low prices for fruit—or high prices of cigars.

Mr Russell Wells as chief selling agent for the Naramata Fruit Company has gone to the Prairies and has already booked a good deal of business. According to a letter this week the Prairie market is this year particularly good and "times" never were better.

Mr and Mrs James Wells have returned to Calgary, after having spent the whole of the spring and summer in Naramata. It is not at all likely that owing to the uncertain vitality of Mr Wells that the elderly couple will return again to resume life on their fruit ranch.

Who cut the wires that surround the enclosure on Third Street, and popularly known as "the pound"? For this information Poundmaster W. W. Mitchell hangs out an offer of ten dollars. Apparently nobody knows the name of the culprit or else nobody needs the ten "bucks" badly enough to impart the needed information.

Now that the government has changed, Naramata will have the width of the wharf doubled. Sure it won't be done till it's needed.

To-day another horse very nearly disappeared over the threatening edge as a result of the driver attempting to avoid having the inner hubs knock over a pile of loose orchard boxes just outside the doors of the Fruit Union.

"Bonanza Belt" is a new name suggested for southern Okanagan. Looks as though the title is appropriate if by a Bonanza is meant a proposition that produces the maximum of money with minimum of effort. Many of the orchardists boast of a yield of from five to ten boxes of apples off individual trees, which with prices close to a dollar net to the grower means a good deal more than a simple living. So "Bonanza" is the word now for the Okanagan.

FREE ADVERTISING.

One of the best articles on the subject of what may justly be termed grafters after the newspaperman's stock in trade appeared recently in The Editorial, the statements being credited to the Detroit Herald:

Nobody ever thinks of going to the coal dealer and asking him to send a little coal up to the church or lodge room to heat up the building for a meeting or entertainment. Nor does one ask the ice cream man to donate ice cream, nor does one suggest that the electric light company furnish lights for the occasion. But people often express surprise and resentment when the newspaper man asks remuneration for an advertising notice relative to aforesaid meeting or entertainment.

If the coal dealer or the ice cream man or the electric light company should voluntarily donate said coal, ice cream or lights, the recipients thereof would be exceedingly grateful, and would probably instruct the newspaperman to run a free notice telling the public all about the generosity of aforesaid coal dealer, ice cream man or electric light company. But nobody runs a notice eulogizing the newspaper man. For free advertising, especially of the reading notice brand—which by the way, is the most expensive in time and labor—is taken for granted, as the natural gift.

The editor very gladly gives a certain amount of complimentary space to charitable and other organizations weekly. He gives this freely, to the exact limit of space available. This complimentary service means work for the compositor and work for the make-up man. It is work absolutely without hope of reward. And there are in this community, persons so devoid of appreciation of courtesies extended, that not only do they fail to express gratitude for favors shown, but on occasion feel it incumbent upon themselves to bawl out the editor if perchance he does not allow them the quota of space they consider their natural right. If the butcher should present them with a fine, juicy steak on Friday night, would these same persons visit his shop on Saturday morning and roast him to a turn because the steak was not sufficiently large for their entire families?

The newspaper man's space is just as much his stock-in-trade as the coal dealer's coal, the ice cream man's ice cream, the electric light company's electricity or the butcher's meats. The average man never thinks of the hours of toll—downright soul-sweating toll—it takes to get out a paper. He never thinks of the worries, trials and tribulations every editor must undergo. Every line of type in a newspaper represents labor that costs money and there is a lot of money tied up in type, presses and other equipment. Paper and ink, rent, heat, light, power and insurance must be paid for out of the income derived from the newspaper man's stock-in-trade.

A man talking about a wonderful parrot hanging in a cage from the window of a house which he had often passed, said, "It cries 'Stop thief,' so natural, that every time I hear it I always stop."

Ontario Apple Crop Reduced 60 Per Cent.

"The Ontario apple crop will not be over 60 per cent. of that of last year in volume, and we will not have over half the quantity of Nos. 1. and 2 fruit that we had in 1915," was the statement of D. J. Johnson, Dominion Fruit Commissioner.

"On the other hand, the north-western States will have double the tonnage of a year ago, and the quality there is good. In the Annapolis Valley, Nova Scotia, the volume of production will be about the same as a year ago, with quality better.

"Taking the continent over, production will be practically the same as in 1915. Transportation to the British market will be somewhat better than last season, but rates will be as high as \$2 per barrel. The total cost of landing and selling in Britain may be put at 12s. per barrel. But the market over the water is correspondingly high."

In Sheldon's "Science of Successful Salesmanship" we find these observations: "A friend of mine told me not long ago that on returning to his home town in the Old Country after an absence of twenty years, he visited the old shop in which he had served his apprenticeship, and there he found lying on the top shelf some of the same bolts of cloth, neatly folded and carefully papered, that he had handled as a boy. Such conditions simply mean dry rot and final commercial decay. To succeed in modern retailing, reasonable goods must be sold within the season at full price, if possible, and if not at full price then at some price, whatever that price may be. To pursue any other policy must mean that in the following season the retailer will be showing old goods easily remembered by observant customers, while his competitors are showing new goods; and his prestige as a progressive, wide-awake dealer is at once injured, if not seriously crippled. Besides, however little reasonable goods may be worth at the end of the season, they are worth much less the following season, when newer and better things are sure to heavily depreciate the value of the older goods. There are differences of opinion among retailers as to the value of newspaper advertising, but whatever these differences, I feel assured that all men in business agree as to the value of publicity. The newspaper is regarded as one of the best, and by some as the very best medium of such publicity."

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

Review Office.

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Ry., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800

International Correspondence Schools, Box 826-O, Scranton, Pa.

Passing Events: Social, Personal, &c.

Mr and Mrs R. F. Theed are visiting Mr and Mrs Arthur Solly at Armstrong.

Mrs J. Lock came up from Kaleden last Sunday and has been spending a few days at "Brookdale," Peach Orchard.

F. Munro, who plans to enlist early in October, has engaged Dan Rutherford to care for his Meadow Valley farm during his absence.

R. H. English and son of the Pioneer Livery announce that their car meets all eastbound trains at the Kettle Valley station, West Summerland.

Miss Hazel Hayes left on Wednesday morning on her way back to Ottawa after a visit of three or four weeks with her parents, Mr and Mrs W. H. Hayes.

Mrs Richard Wilson of Vernon who has been visiting Pte. and Mrs H. Sculthorpe returned to her home in Vernon last week taking Miss Lottie Sculthorpe with her for a two or three weeks' visit.

Rev. D. Lister preached his farewell sermon at Benvoulin last Sunday, and has gone to Vernon to join the 131st Battalion. His long experience in drug dispensing has fitted him for a responsible work with the medical section of that battalion.

Those of our younger readers and we hope they are many who purpose taking part in the "bird house competition" being conducted by the Summerland Women's Institute are requested to have their essays on "My Tenants" in the hands of the secretary of the Institute, Mrs J. Tait, by the end of September.

The Red Cross Society have sent out an appeal for funds, and throughout the Empire special collections are to be made for that purpose on October 19th. In response to a letter from the Lieut. Governor asking them for their assistance on this occasion, the Ambulance League are taking the matter up in this district, and have decided to hold an Auction Sale to raise funds for this purpose. It will be on similar lines to the sale which they held last year and which proved so successful financially, only this year the money raised by it will be sent direct to the Lieut. Governor of B.C., to be forwarded with other contributions from the province to the headquarters of the Red Cross. If everyone will begin right away and think of something they can send to the sale, they will greatly assist the Ambulance League in their efforts to make it a success. Household or personal effects, orchard, dairy or farm produce, anything and everything that can be spared for such a worthy cause will be most acceptable. Notice as to time and place of the Auction Sale will be given at a later date.

Mr G. A. McWilliams returned on Thursday morning from a visit to Vancouver.

"Saving the Child" will be the subject of Rev N. McNaughton's sermon on Sunday morning in St Andrew's Church.

Mrs F. W. Andrew returned on Sunday from a two weeks' visit to Okanagan, Wn. Dr Andrew met her with his car at Oroville.

Mr Muir Stewart made a quick automobile trip over to Grand Forks last week-end, leaving on Sunday morning and returning the following evening.

Mr and Mrs Adam Zimmerman of Hamilton, Ont., arrived here Thursday evening on a visit to their son, Mr O. F. Zimmerman. Mr Zimmerman is collector of customs at the Port of Hamilton.

A boating party from Peachland visited Summerland on Thursday. They were Mr and Mrs R. J. Hogg, Mr and Mrs H. H. Thompson, Mrs McGraw, Mr J. L. Elliott, Miss Kate Miller, Rev Mr Rolland, Mr Harold McCall, and Mr John Kerr.

Supt. R. H. Helmer of the Experimental Station, Trout Creek, and Mr Chas. H. Cordy went out at the first of the week for Kamloops with the exhibit from the Farm that has been shown at the Kamloops Fair this week. It will also be exhibited at other points and in due course at the Summerland Fall Fair.

Prof. J. W. Eastham, plant pathologist with the Provincial Horticultural Branch, spent part of this week in the district. He reports that Summerland is particularly free from any serious tree diseases, but urges constant vigilance. There are serious pests about us that should not be permitted to get established here.

Mr J. J. Baker of Mineola, suffered painful injuries on Wednesday night of last week that necessitated his removal to the hospital. He was unhitching his horse and when nearly freed the animal bolted. Just what happened Mr Baker is unable to say. Injuries to sciatic nerves have caused much pain, but the sufferer is now doing well, and hopes to be walking by the end of the week.

The yearly nuisance which arises when the weed growths meet from both sides of that stretch of sidewalk between A. J. Bear's store and the hotel, was abated this week but not by the interest of the Council in the matter. A citizen possessed of a certain amount of public spirit ended the nuisance by getting to work with a scythe, and thereby earned the gratitude of those who have to pass there continually.

If present plans are carried out, this district, for the first time in its history, will export hay this fall. F. Munro, who grows hay extensively, informs the Review that he finds he can sell his hay crop to better advantage by shipping to Vancouver than by selling locally. Hay, he states, is now worth \$25 a ton in Vancouver. He can bale it and deliver at "Faulder" Sliding for \$4, and the freight to the Coast is \$8, leaving him \$18 clear at the stack. His best local offer is \$18 delivered, and to get this price he would have a long haul.

Prof. F. M. Clement recently appointed to the chair of horticulture in the B.C. University, was a visitor to Summerland last week-end. Prof. Clement has but recently arrived in the province from Ontario, where he has gained considerable reputation as director of the Ontario Horticultural Experiment Station at Vineland, in the Niagara district. He is now covering the province thoroughly acquainting himself with local conditions and the present state of our horticultural industry. While in Summerland Prof. Clement was the guest of Mr and Mrs J. L. Hillborn. The Ontario Government, by the way, has just announced that Mr E. F. Palmer, B.S.A., has been appointed to succeed Prof. Clement at Vineland. Mr Palmer is a son of Mr R. M. Palmer of Vancouver Island, well-known throughout the province, a former deputy Minister of Agriculture and father-in-law of our present Deputy-Minister, W. E. Scott.

Mrs Wellington Watson was a passenger on Thursday morning's boat up to Kelowna.

Miss Mae and Cathleen Henderson spent a few days last week with friends in Peachland.

Miss Verna Town returned to her home in Peachland on Monday after a short visit with friends here.

Mrs Gerald MacLaine entertained at afternoon tea on Wednesday in honor of Mr MacLaine's mother, now visiting here.

The regular monthly meeting of the W.C.T.U. will be held on Friday the 29th, at 3 p.m. in the Lakeside Baptist Church.

Mr and Mrs J. O. Smith have had word that their son, Bugler W. D. Smith left for overseas with his regiment, the 100th Battalion, Winnipeg Grenadiers.

"The War and Denominationalism" is the timely subject of the address of the pastor, Rev N. McNaughton at the Lakeside Church on Sunday evening.

Quarterly services in the Methodist Church on Sunday at 11 a.m. Subject, "The Signs of the Times." A fellowship meeting and the Sacrament of the Lord's Supper will follow the usual service.

Mrs Walton entertained a number of friends at afternoon tea on Friday afternoon, at her home in Prairie Valley, on the occasion of her mother leaving for the Coast. All spent a very enjoyable time.

Apples and fruit generally appear to be bringing fairly satisfactory prices this season. A bulletin from the Okanagan United Growers on Wednesday reports the following average f.o.b. prices from sales made: apples, No. 1s, 1.30, No. 2s, \$1.12, No. 3s, 97c.; orchard run, \$1.; prunes, 85c.; plums, No. 1s, 99c., No. 2s, 83c.; crabs, No. 1s, \$1.35, No. 2s, \$1.05; pears No. 1s and 2s, \$2.; No. 3s, \$1.88; tomatoes, No. 1s, 75c., No. 2s, 57c., green, 65c.; cantaloupes, crates, \$2.42, peach box 90c.

Members of the Myrtle Rebekah Lodge No. 32 attended service in a body last Sunday night at the Lakeside Baptist Church, to commemorate the 65th anniversary of the institution of their order. About a dozen members of the lodge, accompanied by a few members of the parent Oddfellow's Lodge, met at the lodge room and walked to the church. The service was conducted by Revs. N. McNaughton and A. Henderson, the former preaching a sermon eminently fitted to the occasion. A solo was ably rendered by Mr T. G. Beavis during the course of the service.

The Summerland Women's Institute held their regular monthly meeting last Friday afternoon in the Men's Club. Rev. N. McNaughton read an excellent paper on "Veracity," which was much appreciated, and a special vote of thanks was accorded him. Another feature of the afternoon was an auction sale of home made candles, which proved very successful. Mrs Angwin officiated. The Institute have resolved that each member be taxed 10 cents per month to enable the Institute to send \$5 per month to support a Canadian prisoner of war. Mrs Solly gave a full report of the convention which was held in Penticton, September 6 and 7. Mrs Anderson gave Current Events.

Subscriptions will be received at the Bank of Montreal here for the new Dominion Government War Loan until September 23rd, on which day the lists will close. This is a very attractive and safe investment bearing 5 per cent, and is purchasable at the generous figure of \$97.50 per \$100, the bonds being in denominations of \$100, \$500, and \$1,000, interest half yearly, and they run for 15 years. A 10 per cent payment upon application can only be accepted at the present time; until allotment is made, when the balance can be paid in full, or 30 per cent on 16th October, 30 per cent on 15th November, and 27 1/2 per cent on 15th December, completing the calls. E. B. MAY, Manager. 7

ANOTHER FORM OF CRUELTY.

According to the Packet, an Orillia girl knitted a pair of socks and sent them off to the war with a note tucked in the toe of one of them giving her address. She has just received a message from the soldier at the front who got them. He writes: "Received your socks. I am wearing them now-one on my arm, the other on my head. Who told you you could knit socks?" - Toronto Daily Star.

Societies.

W. S. & W. M. Summerland Lodge, No. 56 Meets on the Thursday on or before the full moon. H. Dunsdon, W.M. K. S. Hogg, Sec.

HE ADVERTISED—AT LAST.

There was a man in our town,
And he was wondrous wise,
He swore (it was his policy)
He would not advertise.

But one sad day he advertised,
And thereby hangs a tale,
The ad was set in quite small type
And headed "Sheriff's Sale."

YOUR COAT

The coat made to fit You—that is your coat if it is tailored-to-your-measure by the House of Hobberlin. The fitting is to your individual figure and will not fail to please—be you ever so particular and exacting.

Summerland and West Summerland

Can't Do It.

So insistent have been a number of my customers that I still maintain my branch meat store, that I have consented to still operate it for a time at least.

I will, therefore, on the afternoons of TUESDAY and FRIDAY be at my store in the Kelley Block, with a full stock of meats and fish in season.

Thanking my many friends for their patronage, I trust I shall continue to merit their good will.

J. DOWNTON

Peachland.

Thou of the name
That makes the mouth water,
I sing of thy fame,
Okanagan's fair daughter;
Posed by thy lake
Like a nymph at her fountain
When morning beams break
On thy shimmering mountain.

Cool breezes sweep
From the lake's open reaches
While merry waves leap
On thy pebbly beaches;
Leaned on thy breast,
When fruit trees have flowered,
Thy peaceful homes rest,
In blossoms embowered.

Zephyrs and sun,
In thy soft summer season,
Commingle in one
Affection and reason;
Poets might speak
Of thine orchards full-laden
With fruit like the cheek
Of a blushing young maiden.

Hail to thy hills
And their garment of glory,
To thy soft-flowing rills
With their wonderful story,
Hail to the name
That is ever-alluring,
And hail to a fame
That is far more enduring.

This is thy fruit
The most really delicious,
Not one recruit
To the ranks of the vicious;
Ever to rear
Men noble and fearless—
Thy glory is here,
O Peachland the Peerless.

The above was read at a recent public gathering at Peachland by the author, Mr D. E. Hatt, who reserves all rights. By permission of the author and at the request of a number of Peachland subscribers, we are putting Mr Hatt's eulogy of our sister town in print. Extra copies may be had at the Review Office.

Career of Promise Cut Short by Death.

Son of W. T. Broad Killed in Big Somme Battle. Sent Home Vivid War Impressions.

A cable came on Wednesday from Shorncliffe to Professor W. T. Broad saying that his fourth son Percy was killed at the front on the 15th. Just a year ago he went away with the Fourth University Corps to join the Princess Patricia's Light Infantry Regiment. After training in England he took part in the second battle at Ypres on June 2nd and following days, when nearly every man of his company was a casualty, only three or four being left. He has been in the fighting on the Somme, and it is there he lost his life.

He was 20 years of age, and had been a law student in Calgary. He passed his final law examinations for barrister last year and his LL.B., but did not wait for conferment, but enlisted at once. To his parents he wrote on the 8th of August: "Don't worry about me or the other boys when they come over. There is nothing really to be alarmed about. I am having the time of my life and would not have missed coming for anything. It is the only thing worth while I ever did.

There are hardships once in a while, but what can you expect out here? They are not so bad when you really come to face them. The man who is cuddling over the fire imagines the storm outside to be a whole lot worse than he would find it to be if he went out in it. So make up your mind that things are not so bad as you think."

On the 22nd of August he wrote: "I gave you recently a description of the last service I attended out here, about two months ago. That was the last one we had. For all we see of it the church might as well be non-existent. It is very unfortunate, firstly because there would be a tremendous response to a real man, and secondly, because when we get back, the church is going to be judged by what we have seen of it out here, and I am rather afraid it will be weighed in the balance and found wanting.

Never since the world began have there been such tremendous opportunities—millions of men out here daily facing death and starving for a man's religion.

On Sept. 3rd he writes: "The experiences we have to go through out here soon take away all our pleasure in the things that used to interest us, and letters are about the only things I know that can raise one out of this condition of coma. It is war, war, war all the time. It is the only thing we talk about, and when we are not actually at grip with the enemy, we are steadily and persistently training for the day when we get our chance. It is impossible to think of or to take any interest in anything else. You might call it mental paralysis; but of course it is inevitable, and there is only one way to change it. That is the task that lies ahead of us.

I often think that 90 per cent. of the people at home do not realize that there is a war on. A little while ago I got a letter saying among other things that June 2nd must have made me "rather nervous." About the only thing we can do with a letter like that is to try to see the funny side of it, and laugh. I remember one boy who came out of that battle safely but his face was so altered in expression

(Continued on page 6.)

Fire Quickly Consumes Home.

J. C. Brown's New Cottage, With Furniture, a Total Loss, Partly Covered.

Fire never razed a home more quickly than that of J. C. Brown on his orchard property south of the Peach Orchard Gulch road. It was but a few minutes from the time the fire was first discovered till all was reduced to ashes and a heap of ruins. The outbreak took place about noontime on Monday.

Mr Brown, who was alone at the time, had started a fire in the kitchen stove and then went to the stable. Returning fifteen or twenty minutes later he was horrified when nearing the house to see smoke pouring out all round. Neighbors must have seen the smoke at about the same time for it was not long before a large crowd had gathered by motor, horse or on foot. Nothing whatever could be done to save either the building or the contents so quickly had the fire spread.

The house was a new one, and had not been occupied many months. The loss, though considerable, will be partly borne by insurance companies, there having been \$2,000 placed on the house and furniture.

Mrs Brown, who has been at her former home in Quebec, is expected back on Saturday night.

Help of Soldiers May be Had.

The British Columbia Fruit Growers' Association has advised its members that it is possible to obtain the help of soldiers from the Vernon Camp to aid in the work of harvesting the big apple crop. Leave will be granted to the soldiers for this purpose in the same way as the extended leave was given earlier in the year at seedtime. Furlough will not be granted to the soldiers promiscuously, but the military authorities have assured the Fruit Growers' Association that leave will be granted in all genuine cases.

This announcement may be the means of alleviating to some extent any shortage of labour that may exist. The rush of work in connection with the picking and shipping of the apple crop may be handled with considerable more ease if fullest advantage is taken of the soldiers' leave privilege.

Peachland Hears of Further Casualties.

Two more of Peachland's volunteer soldiers have been put on the casualty list. Recent reports include the name of Pte. Thomas McLaughlin of the First Canadian Pioneer Battalion among the wounded. Information wired his parents, Mr and Mrs John McLaughlin, is that he is now in a hospital in England, suffering from a gunshot in the leg.

Lieut. R. A. Ramsay is another Peachland citizen reported among the wounded, word having been received by Mrs Ramsay at Peachland on Saturday to that effect.

Ernest Alkoms, who was invalided home some time ago and has since reaching the west been in hospital at Victoria, suffering from nervous breakdown, has so far recovered to be able to return home for a visit. Still suffering from the effects of his experience, all wish for him a speedy recovery as they do for those other Peachland heroes now laid aside.

Hon. Sir George E. Foster Minister of Trade & Commerce, And Fellow Members of Dominions' Royal Commission Visit Summerland.

Ok. United Growers Present Case For Fruit Growers, And Show Distinguished Visitors Over Valley.

Summerland was honored on Thursday by a visit from Sir Geo. E. Foster, Minister of Trade and Commerce, and a member of the Dominions Royal Commission, who, with other members of that commission, is now touring Canada. Others of the party were:—Sir Edgar Bowring, representing Newfoundland; Sir Jan Langerman, representing South Africa; Mr J. R. Sinclair, for New Zealand; Mr Tatlow for Ireland; and Mr Hardy of London, Secretary of the Commission. Accompanying the commissioners were Mr R. M. Winslow, Prov. Horticulturist, Mr F. D. Nicholson, Pres. of the Okanagan United Growers, Mr F. T. Jackson, Manager of the Okanagan United Growers, Mayor J. W. Jones, Kelowna, member-elect for South Okanagan.

The Dominions Commission was organized in 1912 for the purpose of promoting trade within the Empire, and much valuable informa-

tion had been gathered and several countries visited before war was declared, when the work was interrupted. However, the war has only added to the importance of the work and created a much greater need for improving inter-dominions relations and the commission has now resumed its work to carry it to completion. While in Vernon the case for the Valley fruit growers was presented by the Okanagan United Growers, and the commission persuaded to take a motor trip through the Valley. Arriving here late in the afternoon, the Union packing house was visited, and a tour made of some of the benches. When the Experimental Farm was reached it was getting dark, and much to the regret of all that pleasure had to be cut out. The party continued to Penticton where the boat was boarded and the return made to Vernon this morning.

Mrs Langerman and Mrs Tatlow were also with the party.

Board of Trade Gives Rebuttal to Phone Company's Plea For Privilege.

Following is copy in full of a letter sent this week to a Vancouver daily, and needs no further explanation.

The Editor, Vancouver Daily Province, Vancouver, B.C.

Dear Sir,— At a largely attended meeting of this Board held on the 19th inst., reference was made to an article appearing in the Vancouver Daily Province headed "Telephone Lines in the Okanagan," and a committee was appointed by the Board to deal with this matter, which is considered to be inaccurately stated.

Enclosed please find a reply which answers fully the question brought up by the Okanagan Telephone Company, and we trust you will be able to give it equal prominence in your valued paper.

I may add that this organization is not the usual small town Board of Trade, but boasts an active membership of one hundred and fifteen business men and fruit growers of this community.

Yours truly, J. GALT, Sec.-Treas.

The attention of the Summerland Board of Trade was recently called to an article in the Province dated Sept. 13th, 1916, entitled "Telephone Lines in the Okanagan," wherein certain misleading statements were made regarding the Long Distance Telephone Service in the Okanagan Valley. When certain officials of the Okanagan Telephone Company interviewed the Hon. Martin Burrell in Vernon, it

[Continued on Page 6.]

Proclamation MUNICIPALITY OF SUMMERLAND re DAY-LIGHT SAVING

In compliance with the expressed wishes of a number of citizens, and more particularly of parents of children living at some distance from the Central School, the Municipal Council has agreed to the reverting to the railway Standard Time in effect up to the inauguration of the Daylight Saving plan on June 19th. Be it known, therefore, that beginning at midnight Sunday, OCTOBER FIRST, Standard Time will again become the Official Time for the Schools and all workmen employed in the Municipality. All good citizens are required to govern themselves accordingly.

J. L. LOGIE, Municipal Clerk.

No Shooting Within Municipal Limits

This Is Desire of Board of Trade to Council & Approved by Game Warden Gartrell.

That it is very desirable there be no open season for the shooting of game birds within the boundaries of Summerland seems to be the unanimous opinion of all interested.

There are now in the district several flocks of pheasants, a number of quail and some blue grouse, besides other birds whose numbers should be permitted to increase. To permit shooting even for a few days might easily result in total extinction. To safeguard pheasants and quail particularly it is desired that all game shooting be prohibited. There are fairly authentic reports to the effect that already two pheasants have been destroyed, the birds having been mistaken, according to the shooters, for birds of other species.

At the last meeting of the Board of Trade there was passed unanimously a resolution to Provincial Game Warden A. Bryan Williams, asking that he make shooting within municipal limits illegal, and on Monday a similar resolution was put through by the municipal council. The movement has the fullest support of Deputy Game Warden Gartrell.

Flour Highest In Ten Years

Sugar Also Soars Skyward

Steadily climbing for months the wholesale price of flour has reached a figure not touched for ten years. Last year at this season \$6.30 per barrel of four 49 lb. sacks was the Coast price. This week it is \$9.20. Winnipeg quotes \$8.60 for No. 1 patents, \$1 above the high mark of February 1915, and \$3.30 a barrel higher than in August 1914. No. 1 feed wheat is now \$53 per ton as compared with \$40 last year.

Standard granulated sugar is another staple much higher than when war was declared. Beginning at \$5.80 in August 1914 it stood at \$7.25 in September 1915, and has now reached \$8.25 per hundred-weight.

Power For Ironing

At the last meeting of the Council, Electrician T. P. Thornber asked for and was given permission to run the power plant one morning from 9 to 12 each week for the accommodation of housekeepers who would like to use electric irons during the daylight hours.

Mr Thornber said afterwards, in talking with the Review, that he hoped by this plan to relieve the night load making that much more power available for lighting. One iron consumes as much power while in use as a number of lamps. However, the plant would not be run for the convenience of two or three, and the day service will not be maintained unless generally taken advantage of.

The J. R. Brown cottage, and perhaps others on Lakoshore Drive, had a close call at noon to-day. Some ashes had been thrown out on the shore just at the rear of the house resulting in a fire among some tree limbs, etc., on which the lawn is built. Fanned by a strong wind the fire quickly assumed alarming proportions, but was gotten under control by a quickly assembling throng with garden hose and pails by the time the volunteer brigade and hose cart arrived a few minutes later.

Municipal Fathers Sit In Extra Session.

Matters Pertaining to Electric Light Plant Discussed. Dissatisfied with K.V.R. Treatment.

Too much water getting on to their properties by one way or another was the subject of several complaints read at the Council Board during a special sitting on Monday afternoon.

P. G. Koop again complained of a full flow of irrigation water being turned on to his orchard without warning. J. Dunsdon reported damage and inconvenience caused by a flow from a leaky flume. R. V. Agur asked that seepage to a lot in Prairie Valley be stopped. Coun. Johnston said this water was alleged to be coming from the south main. Wm. Cross had a similar complaint regarding his property near the K.V.R. line. These complaints, with another from Mrs R. M. Ross, to the effect that her tenants were complaining about a flow from a nearby septic tank, were all referred to the Public Works Committee to be dealt with.

Messrs W. M. Wright, J. L. Hilborn, and M. Steuart, representing fifteen householders in their section, asked for electric light service, Mr Wright offering to loan the money necessary to make the extension. An extension in the direction of Col. Cartwright's is also desired by a number of householders, according to the Reeve. Methods of legally financing these extensions were discussed, and it is probable that debentures will be offered those who have tendered the capital necessary. This will be decided at the next meeting. In the meantime estimates of the costs will be obtained.

The long talked of alterations in the arrangement of the machinery in the power plant including the reversing of the position of water wheel and dynamo, as well as carrying out alterations ordered by the inspector were again touched upon. To change the position of the dynamo will require extending the end of the building. It has been pointed out that more power would be generated and much greater length of line given the big driving belt which now has to be renewed frequently at considerable cost. The change was recommended by Coun. Stark, Chairman of the Electric Light Committee, supported by Coun. Johnston of the same committee, who said that while making the alterations ordered by the inspector would be the time to shift the dynamo. They would soon save the cost of alterations. The Reeve refused to consent to the alterations until again approved by an engineer. It was finally arranged that he with the other members of the committee would make a further inspection.

Supt. Thomson reported that the bottom had fallen out of a part of the south main, above the Cross property. The break had been repaired. He also reported that the K.V.R. had not yet made the repairs to ditches and flumes on the right-of-way as had been promised last spring, and had not even sent a man to see the flumes. This provoked general disapproval. "A cheap outfit" was the description given the railway company by one of the councillors.

Coun. Simpson again introduced the subject of the narrow road behind the K.V.R. station, which the railway was to widen. The Reeve

FRIDAY, SEPTEMBER 29, 1916.

THOSE APPLE PRICES.

THE FURORE that seems to have been stirred up in some parts of the prairie provinces over the baseless statements of some obscure Winnipeg fruit dealers regarding the prices quoted for B.C. apples seems somewhat incomprehensible, viewed from this distance. It may be that in some cases consumers in the prairie provinces are having to pay more for their apples this year than last, but that is certainly not the fault of the grower. The assertion that shippers in this province are adding twenty cents to the prices quoted last year is so absurd that we have to wonder how anyone can believe it.

Without going to the trouble of looking into the situation at all, certain grain growers' organizations have announced their intention of boycotting B.C. fruit, preferring to buy the imported article rather than to be subjected to what they are deluded into thinking is not an honest deal. This attitude is obviously an unfair one. B.C. fruit growers would be equally justified in avowing their intention of using no more prairie butter, flour, feed and such like commodities. The prices for these necessities are high here, but what would the prairie farmers think if their brethren in this province followed their ultra-patriotic example and boycotted the produce of their farms? Yet there would be just as much fairness in such a step.

British Columbia fruit growers are too dependent upon the extensive market the prairie provinces offer for its fruit to dream of taking such liberties. The fruit growers have had too hard a fight to get a fair showing in that market to think of putting into effect such a suicidal policy as the extortion of this additional twenty cents a box on apples would be. The protection the new tariff is intended to afford will evidence itself of its own accord without any rough handling such as has been wrongly laid to the credit of this province.

§ § § § §

FINAL COUNTS from all parts of the province show that the six or seven thousand majority claimed for the prohibition referendum will be very greatly exceeded. With reports to hand from all the ridings the People's Prohibition Movement now state that the majority in favor of the prohibitory measure was not less than ten thousand. They are also confident that the soldier vote, far from decreasing this large plurality will add to it. In the meantime it is interesting to note how Ontario fared during the first few days of prohibition. Already drunkenness has decreased very strikingly in some of the larger cities, and this is only in line with the experience of every other province that has tried it. Prohibition certainly does prohibit what it is intended to prohibit, namely open drinking and its attendant shameless drunkenness.

Baptist Church Honors Soldier Members.

There have been prepared two "Rolls of Service" to be hung in the Baptist Churches, listing the names of members of the church and congregation who have enlisted for service with the Canadian forces. One has been framed and was hung in the Parkdale Church last Sunday morning during the course of the Sunday School session. The other, as soon as completed, will be hung in the Lakeside Church.

Twenty-two names are listed with the battalions to which they belong. Hand decorations of a patriotic nature add to the attractiveness of this permanent memorial to the church's soldier members.

The names that appear are these:
George Harwood - 11th C.M.R.
Henry McLeod
3rd Divisional Signalling Coy.
Frank Hayward - 10th Battalion

Henry Jennings	C.A.M.C.
Afred Vanderburg	do.
Joseph Graham	do.
Elwood Bent	do.
Charles J. Johnson	C.O.R.C.
Harvey Phinney	4th Cyclist Platoon
Walter Mumm	C.A.M.C.
F. LeRoy Black	P.P.C.L.I.
C. N. Borton	103rd Battalion
S. Bartholomew	172nd Battalion
Roy Darkis	do.
William Grieve	do.
Cyril Woodworth	do.
E. W. Armstrong	C.A.M.C.
John McLeod	196th Battalion
Bedford Tingley	do.
Arnold Gayton	158th Battalion
John Pollock	148rd Battalion
Henry Darke	104th Regiment

The good Samaritan did not wait to be introduced to the man who had fallen among thieves.

Tenders Wanted

THE BANK OF MONTREAL
calls for tenders for the following

DRY PINE 16-inch STOVE WOOD

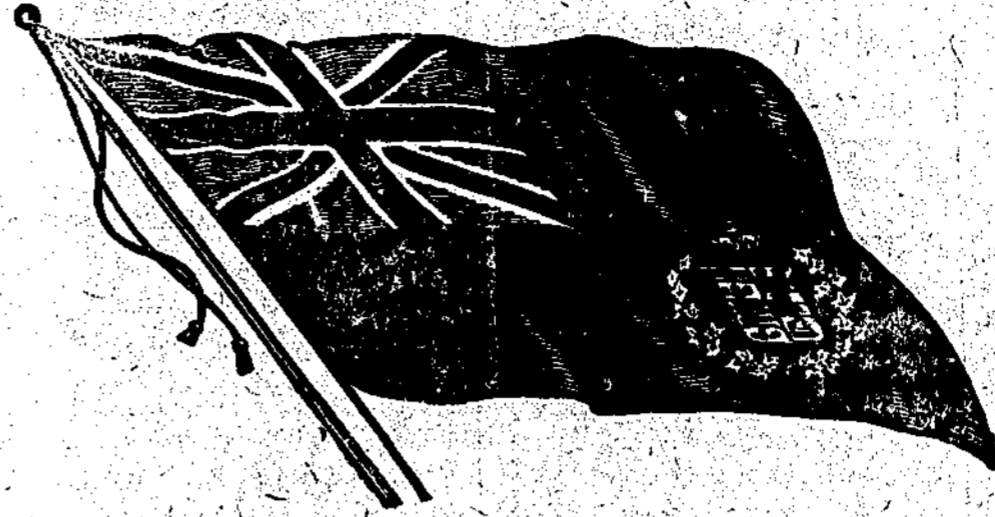

for delivery before the last day of October:

- 10 Cords to be delivered at the Bank.
- 10 do. do. at the Bank house.
- 8 do. do. at Mr. J. Galt's house (Lake front, town).
- 3 Cords of dry Birch are also needed for delivery at the Bank house.

It is all to be of first quality, cut from live trees, and is to be piled and measured before payment.

Orchard and Farm: Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Storage for Ontario Fruit In Winnipeg.

Grimsby Growers Erecting Big Plant In Prairie City.

The Ontario and Manitoba Cold Storage Company has just been formed with capital from the two provinces to erect a big cold storage plant in Winnipeg in which perishable fruit and produce may be held. Grimsby fruit Growers are behind the venture.

Vast quantities of fruit from that district have been lost in Winnipeg every year owing to the lack of proper facilities, and fruit producers in Ontario are keenly interested in the proposal, as they are very anxious to get their trade in Winnipeg on a solid and secure basis. Every summer the producers in the Grimsby region ship a large amount of fruit, some of it of a quickly perishable character. Some of this fruit is re-shipped from Winnipeg to many provincial points.

With a proper cold storage plant in Winnipeg fruit arriving in cold storage cars could be kept in good condition indefinitely. The establishment of the cold storage plant will also greatly benefit consumers, as it will make for the retailers and jobbers a more stable basis on which to conduct their business.

The fruit producers of Grimsby district have asked to be given stock in the enterprise to the extent of \$40,000 worth of 6 per cent bonds. Besides this amount it is proposed to dispose of stock to the extent of \$10,000 in Winnipeg.

The building will be started this fall. It will have a frontage of 170 feet and a depth of 80 feet. The height of the building will be five stories. It will be thoroughly equipped as a cold storage plant.

Speaking of fire escapes, we heard a woman say that her husband was the greatest fire escape on record—he had not built a fire in forty years.

Trying to do business without advertising is like winking at a pretty girl through a pair of green goggles. You know what you are doing, but nobody else does.

Simply a little rub with a cloth keeps the highly burnished cooking top always glistening, dustless clean, without blacking; in four pieces it cannot warp or bulge.

McClary's Kootenay Range

It won't be hard to decide what range you want in your kitchen after I show you the Kootenay's special features.

Sold by Summerland Supply Co., Ltd.

A REQUEST

TELEPHONE SUBSCRIBERS are asked when responding to a telephone call, to give their OWN NAME OR NUMBER.

For instance, if, when his phone rings, Mr Green would give his name instead of saying "hello" the speaker at the other end of the wire would at once know he HAD THE NUMBER ASKED FOR, without enquiring further. Thus on every call time would be saved, and the efficiency of the service greatly increased.

If this method of response has not been your practice begin to-day.

Grain Growers Boycott B.C. Apples

The following note appeared in the Grain Growers' Guide recently: "The members of Acme-Local, No. 62, United Farmers of Alberta, have decided not to buy B.C. apples on account of the duty that is being charged. Instead will buy apples from fruit growers in the United States and let the duty charged help pay the revenue."

"The central office is in touch with growers in Washington willing to ship direct to the consumers in Alberta, and will gladly put you in touch with these people if any union is intending to buy apples this fall, and would like to secure them from the States."

Regarding the recent publicity given a statement of a Winnipeg broker, Market Commissioner McTaggart says:—

MORE PUBLICITY FOR B.C. FRUIT.

There has been quite a lot of publicity given during the past two weeks to the statements of some wholesalers at Winnipeg, relative to apple prices, and that we in British Columbia were adding the duty to the price of the apples. This was investigated by your Market Commissioner and found that no damage had been done. The trade there are not back of the statements to any extent. Publicity is secured in the Winnipeg dailies giving the facts as regards apple marketing conditions, and this has set at rest any doubts as to the apple prices.

Cheese is one of the best and most wholesome substitutes for meat.

Live Stock Farming Is Best Paying.

Cost accounting systems show that live stock farms return the highest rate of interest on investment. Professor W. F. Handschin, of the University of Illinois, who has charge of the cost accounting work in that state, gives the following as the main advantages of live stock farming:—

1. Utilizing of rougher lands to better advantage, and the utilizing of damaged feeds, cornstalks, and straw.
2. Increasing of the fertility of the soil by feeding the crops raised and the careful use of manure.
3. Cutting down the cost of horse and man labor by distributing it more equally throughout the year.
4. Increasing proportion of valuable crops due to the fact that the building up of the soil by the live stock system will increase the yield.

Apples To Argentine

Several cars of British Columbia apples were lately shipped to Buenos Aires, South America. The fruit was taken mostly from the vicinity of Spence's Bridge. Messrs Robertson, Morris & Co., of Vancouver made the shipment. This is the firm of which Mr R. Robertson, late manager of the Okanagan United Growers, is a member.

This firm is also the marketing agent at the Coast for the output of the government creameries in the province of Saskatchewan. Last year 60 per cent. of the total output of these creameries, which is about two million pounds of butter, found its way into this province. This represents about \$360,000 in cash.

OUR NARAMATA SECTION: Everything of Business and Social Importance Transpiring in South Okanagan's Newest Town

NO ALUM

Naramata Red Cross Notes

The regular weekly meeting of the Okanagan branch of the Ambulance League was held in the Unity Club building on Saturday last with a large attendance. It is splendid to see how the interest is keeping up. Owing to the untiring effort of many of the ladies there is now enough money in the treasury for the Christmas Parcel Fund, and work is being done now toward that end.

At this meeting it was decided to hold a Lawn Social at the home of Mrs. T. H. Boothe, where a collection would be taken up toward the general fund. Master Wesley Rounds also donated three Belgian hare rabbits to be raffled off, which will all go to make up the one-thing needful.

Mrs. Davies and Mrs. Northcote served refreshments. The collection amounted to \$1.75.

Current Events — OF — Town & District

Local fruit dealers are swamped with orders for Naramata apples. Can't begin as yet to supply the demand.

Have you read elsewhere in this issue a special item calling attention to the Naramata Fruit and Vegetable Show?

Mr and Mrs Hunt of Kelowna with their son Roy have come to Rakadom ranch to again take charge during the winter months.

Mrs. E. B. B. Reesor, who came in from Vancouver on Saturday evening last, found it necessary to again return to the Coast. She left on Thursday morning.

The wealth of color now being added to the fruit as a result of the warm afternoons and cool nights is placing the local product where it belongs—in the front rank. That's right!

A carload of Jonathan export apples was loaded on Sunday morning last booked for far-away Auckland. The fruit was all of prime quality, and should go far toward spreading the fame of the Okanagan fruit.

The announcement that Mr and Mrs Dean Walters and family are to return shortly to again take on ranch life at Naramata is glad news to a whole lot of folks who regretted at the time—about a year ago—to see the family leave.

Naramata Current Events (Continued)

Mrs. Hogg of Baule Creek, Mich. and her daughter Miss Edna Bennett, after a pleasant summer's visit in Naramata as guests of Mrs. Howard Rounds, started on Thursday on their return trip. Both ladies became very much attached to the life at Naramata, and none need be surprised if some day they may return to remain permanently.

The Naramata Fruit Co. have the honor of having shipped the first loaded car of apples from Naramata. Hitherto the fruit has been loaded on the regular passenger and freight boats and actually loaded into the cars at Okanagan Landing. It is not at all improbable that in the course of another year that the volume of business here may justify the construction of a slip-dock for Naramata. Hasten the day!

The regular monthly meeting of the Ladies' Aid in connection with the Methodist Church was held on Wednesday afternoon at the home of Miss Edna Noyes, with the president, Mrs. James Myers, presiding. At this meeting it was unanimously decided to hold a Thanksgiving Dinner on Monday evening, Oct. 9th, and different committees were appointed to look after the refreshments, etc. There is to be a short program at the close.

Divine service was conducted in the Methodist Church on Sunday afternoon by Mr. W. R. Bartlett, our genial postmaster. The regularly appointed preacher, Rev. R.

Naramata Current Events (Continued)

pleasant outing, it was not at all the least of the pleasures to be able at the end of the afternoon to have over a hundred good-sized salmon trout to "divey" up 'tween 'em.

Business Transfer.

Mr. A. H. Mulford has sold out his butcher business to a fellow citizen, Mr. Geo. Aldridge, who has already taken over the work.

It is understood that Mr. Mulford has accepted a position with P. Burns & Co., and will therefore be removing from town shortly.

That is where the "rub" comes in for Harry has been with the town from the first and worked on the very first survey outfits that staked the town site. The very best wishes of the entire community will follow Mr. Mulford wherever Dame Fortune may choose to send him.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Review Office.

M. Thompson of Penticton, being laid aside with a very bad cold, Mr. Bartlett took as his text 18th verse of fourth chap. II, Corinthians. Mr. Bartlett in to be congratulated on the splendid talk he gave the people, the whole service throughout being very helpful as well as profitable.

Mr. Harry Hook of Greenwood, B.C., the owner of a ten acre ranch at Naramata came in on Saturday for a few hours to see what progress had been made by his plot of eight thousand strawberry plants, set out last spring. Mr. Hook returned again on Monday's K.V.R. morning train. He expressed himself as greatly pleased with conditions in general, and only wishes that he were free to take up the outdoor life at Naramata.

A joint meeting of the executive bodies of the two local Institutes: that of the Farmers' and of the Women, was held on Saturday evening last. Plans for the proper handling of the show were outlined. A whole lot of progress was made, once the folks got down to business. Amongst other things decided upon it was agreed that we should ask Mayor Jones of Kelowna, member-elect for South Okanagan, to open the show, and that every effort be made to get everybody in Naramata to do something to swell the exhibition.

Fishing for the kickanines continues to attract considerable attention. Last Sunday a party consisting of Mr and Mrs Geo. Cook, Mr and Mrs W. Steele, Mrs F. Rounds and son Wesley, Mr and Mrs Howard Rounds and son Philip, and Mrs Hogg and daughter Miss Bennett, spent the day along the purling pools of Chute Creek. While the chief purpose was to have a

Young Man, Do you know

that some of the best paid men right here in B.C. educated themselves for advancement at home, right in the village or on the farm, and that they had no better chances than you have, some, indeed, being extremely poor, and only having a knowledge of reading and writing? These men have, through the study of International Correspondence Schools' courses, and a determination to succeed, risen to where they are. Why not you?

Others with good general education have found that without special training along one line, they could not hope for much in exchange for their services, and have taken up the International Correspondence Schools studies and made good.

The International Correspondence Schools have contracts now with over two hundred railroads alone for instructing their employees, including the C.P.R., the C.N.R., the B.C. Electric Rly., and the Dominion Government railways in Canada, and the text-books of the School which have become famous for their clearness, practicability, and thoroughness, are now used in nearly 800 large colleges and schools, including in Canada, McGill, Toronto University, Department of Technical Education, Halifax, Shawinigan Technical Institute and others. A large number of colleges in the United States, including the United States Government Aeronautical School, Army War College, etc., also use International Correspondence Schools text-books.

Comedy of Youth, "Peg o' My Heart" Coming.

The attraction at Empire Hall on Saturday, October 7th, will be an engagement of J. Hartley Manners exquisite comedy of youth "Peg O' My Heart." The action of the play takes place in Scarborough, England, and has a central figure of a wild, mischievous girl, who has been reared amid poverty in New York, and who, nevertheless, has preserved a flower-like fragrance of nature born to the wildwood.

Loyalty to her father and her father's country, Ireland, and the memory of an aristocratic mother are the watchwords of her aristocratic nature. The play has an abundance of humorous situations and heart interests. The United Producing Company, who is presenting the production, has given it a splendid setting and supplied an excellent cast. Miss Dorothy Layne will be seen in the role of Peg, while others in the cast will be William Sauter as Jerry, William Phelps as Alaric, H. Nelson Dickson as Mr. Hawkes, Miss Katherine Sheldon as Mrs. Chichester, Miss Mabel Baring as Ethel and Howard Walsh as Brent.

CARD OF THANKS.

Mrs. S. H. Adams and family wish to thank the neighbors and friends who were so kind and thoughtful during their recent sad bereavement.

NOTICE TO CONTRACTORS

SOUTH OKANAGAN SCHOOL.

SEALED TENDERS, superscribed "Tender for South Okanagan School," will be received by the Honourable the Minister of Public Works up to 12 o'clock noon of Friday, the 13th day of October, 1916, for the erection and completion of a two-room school house and woodshed at South Okanagan, in the Okanagan Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 26th day of September, 1916, at the offices of L. Norris, Government Agent, Vernon; J. Mahoney, Government Agent, Court-house, Vancouver; C. C. Fuller, Secretary of School Board, Okanagan Mission; and the Department of Public Works, Victoria.

By application to the undersigned, contractors can obtain a copy of the plans and specifications for the sum of ten dollars (\$10), which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque, made payable to the Honourable the Minister of Public Works, for a sum equal to 20 per cent. of tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH, Deputy Minister and Public Works Engineer, Department of Public Works, Victoria, B.C., Sept. 23rd, 1916. 9

Summerland Fruit Union.

Mrs. J. Lock returned to Kaledon by auto last Sunday after a week spent with friends in Sumerland.

Mrs. R. C. Lipsett and Mrs. Angwin went up to Kelowna on Thursday morning to judge at the Kelowna Fair.

Prof. and Mrs. A. J. Perry, former residents of Summerland, now of Winnipeg, spent the summer in Chicago. They returned to Winnipeg early this month.

Mr and Mrs Theed returned on Tuesday evening's boat from a short visit to Armstrong, where they were guests of Mr and Mrs A. Solly, formerly of this place.

Miss Mary Lees left last Sunday after a visit of some length with her brother, C. W. Lees. Miss Lees went from here to Vancouver, planning to go on from there to Regina.

It is worth knowing that there is a second 11th Battalion in Shorncliffe, therefore, anyone writing to the 11th C.M.R.s must address in full — 11th Battalion, Canadian Mounted Rifles.

Mr. Moore of the Garnett Valley Mill property went to the Coast on the K.V.R. on Saturday night, having received a wire that Mrs. Moore had been taken ill. He had expected her up during the week.

Dr. E. W. Sawyer, chairman of the local Board of School Trustees is announced as a speaker at the convention of the B.C. School Trustees Association to be held in Vernon on the 11th and 12th of next month.

Privates Arthur Pentland and Levi Johnston, both of the 172nd Battalion came down from the Vernon Camp last Saturday night on special leave and are now busy with the harvesting of the big apple crop of this district.

Mr and Mrs D. MacLaine, after a visit of about four weeks with their son, G. A. MacLaine, went out on Tuesday evening's train on their way to Vancouver. They will later proceed back to Newfound-land, where Mr MacLaine is in the cable business.

A number of residents of Shingle Creek have decided to put in a local telephone circuit, connecting the homes of the district. Connection with the Summerland system is being sought, and a proposition suitable to both parties is likely soon to be consummated.

The Hotel Summerland will open its spacious dining room at eight o'clock next Thursday, Oct. 5, for a 500 party in aid of the funds of the Home Comfort Club. Mr and Mrs Marshall hope to see all their old 500 Club friends, to raise as much as possible for our soldier boys' Christmas parcels.

Mr and Mrs D. C. Thompson and family are removing back into their own home in Victoria Gardens, from the smaller cottage on the Shaughnessy property, which they have been occupying for some time. Mr and Mrs H. D. Bentley, who have been occupying the Thompson cottage took up residence this week in what was formerly the Presbyterian Manse.

C. H. Slamey left on Thursday morning for Vernon, where he has enlisted into the ranks of the Canadian Army Medical Corps. He is unfit for service in an infantry battalion, and will therefore "do his bit" for his country with the Medicals. Resigning from the staff of the Bank of Commerce when that institution ceased to operate here, he has since been employed at the Fruit Union warehouse.

Prize Lists for the Summerland Fall Fair, October 25th and 26th will be ready for mailing within the next day or two. There are a few changes and additions that should be noted by intending exhibitors, those being such as should tend to attract more exhibitors in the classes affected. The executive of the Agricultural Association are doing everything possible to make the Fair the biggest and best yet, and it now remains for the farmers generally to do their part by getting exhibits ready.

Mrs. W. Limmer and little daughter are spending a few days with Mrs. Chittenden at Pentiction.

R. H. English and son of the Pioneer Livery announce that their car meets all eastbound trains at the Kettle Valley station, West Summerland.

Mrs. C. N. Borton and family removed this week to the next house to the north of the one they have been occupying, formerly rented by Mr and Mrs K. S. Hogg.

The Home Comfort Club will gather next week on Wednesday evening, October 4th, instead of Thursday as customary. The meeting place will be the home of Mrs. A. Stark.

Among the cars in Thursday morning's westbound freight was one containing apples destined for Shanghai, China, and shipped by the B.C. Growers, Kelowna and Pentiction.

The Valley Poultry Show will be held at Pentiction this year. This was the decision reached by the delegates of the various local organizations who met at Kelowna on Wednesday. The show will be held early in December.

The new school at Upper Trout Creek had a close call on Thursday of last week. A spark from an engine set alight to some pine needles near the school, but, with the help of the school children, the section men were able to prevent it doing any damage.

Harold Wrexford Birkett of the Canadian Infantry, was killed in action on September 9th, according to cable reports. Deceased, who married Miss Muriel Pope of Peachland, was well-known to many here and in Peachland. He was the son of Louis Birkett of Chislehurst.

Harvest Festival services will be held in St. Stephen's Church next Sunday. There will be a celebration of Holy Communion at 8 a.m., Sunday School at 10, matins at 11 and Holy Communion at 12 noon. There will be no evening service, the Rector being at Peachland then.

It is not given to every couple to partner it through life for fifty-eight years. This is the record which Mr and Mrs A. Fraser attained on Sunday last, leaving them but two years off from their diamond wedding anniversary. It is doubtful if there is another such record in the place.

Ernest Smith of the 11th C.M.R. is one of two that obtained the "marksman" on the range at Shorncliffe in classification shooting on Sept. 8th. He was picked out and sent away. He did not know where he was going or how long he was to be away. As it is not compulsory for a marksman to become a sniper he is in hopes of being allowed to return to his battalion.

What has become of all the grouse this year? Two men rode to the headwaters of Trout Creek and shot all they saw, their bag being one; two others walked nearly over the whole of Bathfield and saw none. The same good luck seems to follow everyone this year. Have the grouse gone up the mountains or are they so very scarce? If the latter, surely it is a matter for our Game Warden to see something is done towards a "close season."

105 in the shade! Frequent midnight temperatures of 90!! These are Chicago temperatures as reported by a Review subscriber and a former citizen of Summerland. Longing to be back here? Of course he is. He has watched with justifiable envy the reports of Summerland daily temperatures as published in the Review. Can you imagine such weather, you who have lived in Summerland for some years? Here we enjoy a maximum temperature reaching occasionally to 90, Chicago's midnight coolness. While with us the thermometer drops during the summer months an average of nearly 30 degrees each night, the Chicago thermometers begin at our maximum and climb up as high as 105. The Okanagan is the place in which to work and live.

Medal Awarded.

On Monday at the High School Miss Jean Ritchie was presented with a silver medal, being the student making the highest average standing in the preliminary department. The medal, which was awarded by the former principal, R. B. Forsyth, had been sent by him to Trustee Mrs. Kelley, who made the presentation on behalf of Mr. Forsyth.

Mr and Mrs J. L. Hilborn and Mrs. A. McLachlan were among those who visited Kelowna during the Fair this week.

BOARD OF TRADE GIVES REBUTTAL TO PHONE CO.'S PLEA FOR PRIVILEGE.

[Continued from Page 1.]

was stated that the Government admitted that their Long Distance line was built, not to pay, but merely for colonizing purposes, and that there was no intention of opposing a private enterprise, etc. It was made to appear that the Okanagan Telephone Co. was suffering a hardship because the Government line would not go out of business. All of which may be true, but not being the whole truth, the article leads to false conclusions. Additional facts are as follows.—

Previous to the advent of the Okanagan Telephone Company in the long distance business, the Government had a line running from Kamloops via Vernon, Kelowna, Peachland, Summerland, and Penticton to Hedley and Princeton. As the construction was primitive the service was often faulty, but as business was increasing with the growth of the Okanagan Valley, appropriations were made to improve the line from Kamloops and through the Valley. Then the Okanagan Telephone Co. appeared on the scene. It bought out the local company then operating in Vernon, and purchased at high figures the local systems in Kelowna, Peachland, Summerland, and Penticton. It immediately evidenced itself as a monopoly by raising the rentals before improving the service "in order to make them uniform," and all in spite of a vigorous protest from every town included. They next, in 1912, attempted to buy or lease the Government Long Distance line, threatening in case of a refusal to build their own long distance line. The Public Works Department received remonstrances from nearly every Board of Trade, City and Municipal Council throughout the Valley, and after due consideration, decided it would be to the general interests of the people to retain this trunk line, rather than to hand it over to a monopoly. The Okanagan Telephone Co. accordingly built their competing line from Vernon to Penticton, and immediately raised the tariffs, so that in the case of Summerland to Vernon the rate was sixty cents against the former rate of fifteen cents on the Government line. The answer given to these high rates was "now we have built the line, it has got to pay." To clinch matters this company refused to give connection to the Government line if the call could possibly be delivered over their own line. The people of the Okanagan towns had been slowly tied up until they had no choice but to pay the greatly increased local and long distance rates. A rebellion naturally followed. Kelowna, Peachland, Summerland, and Penticton all endeavored to oust the Okanagan system by systems of their own; but it was no easy matter to replace a public utility such as a telephone system. Gradually the towns submitted with the exception of Summerland, where a local company was formed. It installed a modern central energy system, and obtained the whole of the local telephone traffic, and gives, we believe, a service that is not surpassed in the Province. We are enabled to telephone at reasonable rates over the Government Long Distance line to all neighboring towns. Indeed this latter line has been brought up to standard requirements and has been extended to Revelstoke and Oroville, Wash., where connection is made with the Bell System, and to the Boundary Country connecting with the B.C. Telephone System. Privately owned, this line of course could not be profitable, but its convenience is appreciated and of untold benefit to the greater part of the population along its route. As the Government was first in the field, any opposition a later line may experience is entirely self sought.

Subsequent to being displaced in Summerland by the Summerland Co., the Okanagan Telephone Co. reduced its local rates in other towns, and lowered its long distance tariffs, for reasons that must be quite obvious, so the other towns did not continue in rebellion. However, the constant current of dissatisfaction is often flatteringly expressed in admiration and only of the "Summerland System." If, as stated in your article, the Government purposes building a line of their own from Vernon to Enderby, it is altogether likely that they have been unable to come to a working agreement with the Okanagan Telephone Co. over this stretch. It shows a reluctance to being held up in their long distance traffic, rather than a wish to oppose the present Company, which objects to inter-switching arrange-

LOCALS.

School Inspector Anstey is in town to-day.

Mr. H. Sutherland is on a business visit to Winnipeg.

M. Steuart made another motor trip to Grand Forks early this week.

T. J. McAlpine and Jno. Tait were visitors to the Kelowna Fair this week.

Acting Sergeant F. J. Nixon returned to Vernon Camp on Monday morning.

Mrs. Gettings of Boston, Mass., reached Summerland Tuesday morning on a visit to her mother, Mrs. I. Blair.

C.P.R. Agent Kelly contemplates enlisting for telegraphic service, and expects to leave here in about a month.

Mrs. E. A. Jones and little daughters leave to-morrow morning for a few weeks visit with relatives near Lumby.

Mr. E. Gardener Smith, valuator for the Agricultural Credits Commission, is expected to visit Peachland and Summerland next week.

Excellent prizes are being offered by the Women's Institute for papers on "My Tenants," written by builders of bird houses who participated in the construction contest last spring. The essays should be handed in to the Secretary at once. Full particulars may be had by phoning the Secretary, Mrs. J. Tait.

Final returns have been received at the Union office for apricots. According to Secretary Moreland No. 1 'cots will net the grower 3 cents and No. 2s 2 1/2 cents. These are considered excellent prices. The crop was a short one, little more than one-third the quantity of last year's output being shipped by the Union this year.

Splendid response was made by Summerland citizens to the appeal for books and magazines for the Vernon Camp. Eight cases weighing 750 pounds of as fine a collection of books and magazines as was ever gathered was forwarded to-day. The Review has been asked to state that further donations will be received at the packing houses up to noon Thursday.

Many Review readers will be interested to learn of the marriage last Saturday at Kelowna of Miss Kate Lloyd Jones, daughter of Mr. and Mrs. D. Lloyd Jones of that place and grand-daughter of Mr. and Mrs. Jas. Gartrell of Summerland, to Mr. Gladman who was located in the Valley as an engineer during K.V.R. construction. Mr. and Mrs. Gladman left at once for Toronto where they will reside.

Summerland people are to be given the privilege of hearing Mr. H. R. Hadcock again next Sunday. In the morning at 11 he will be at the Methodist Church and in the evening he will speak in St. Andrew's Church. Mr. Hadcock is not only head of the Army Y.M.C.A. work in Canada, but gives very interesting first hand information of conditions at the front. His stories are bristling with actual happenings. Those who heard him last week were greatly pleased and will be sure to hear him again.

A newspaper man can say nice and pleasant things about a man and his whole family for two long years and never hear a word from them, and then in one short week, by some hook or crook, get in a seeming uncharitable phrase and get blown higher than Gullidoroy's kite, and incur their life-time enmity. This is one of the secret pleasures of the business.

months with other lines. The telephone history of the Okanagan Valley furnishes ample evidence for the necessity of such a public utility being under Government control, and the need of compulsory connection between all systems. The public demand "Service," and this should not be restricted because a few demand "Dividends," and would not hesitate to scarp the Government's investment to attain that end.

Yours truly,
THE SUMMERLAND BOARD OF TRADE.

CAREER OF PROMISE CUT SHORT BY DEATH.

(Continued from page 1.)

that I could hardly recognize him, and more than one man came out with most of his hair white. "Rather nervous!" More than once I have taken up rations or water to the front line and have crossed a ridge in the open knowing that it was covered by enemy machine guns, and sure enough as soon as I got nicely started they would open up and bullets would start whizzing by, missing me by inches. The only thing was to push on steadily for we knew they would stop in a minute."

He also wrote in glowing terms of the work the Y.M.C.A. is doing among the soldiers, its worth and service being invaluable to the men.

Eaton Breaks Prune Market

The T. Eaton Co. are charged by B.C. Fruit Market Commissioner McTaggart with breaking the price of fresh prunes in the Winnipeg market.

According to Commissioner McTaggart the Eaton Company ordered a car of Chilliwack prunes through C. A. Cunningham, western superintendent for the C.N. Express Co. The price arranged was 55c. f.o.b. in the standard peach box. Notwithstanding their signed order the buyers instructed the shippers to send the fruit by freight. This they declined to do, sending it by express as ordered. In the meantime they, Eaton's, bought a car of Hatzic prunes for only 80c. laid down in Winnipeg, and refused to accept the Chilliwack car. They advertised and sold the Hatzic car at \$1, thus breaking the prune market in Winnipeg.

After going into the matter thoroughly, Market Commissioner McTaggart advised that the car be put on sale at auction. This was done, and brought for peach boxes 85c. to 90c., and 4-basket crates 95c. to \$1.25.

Roads Throughout District Getting Attention.

The municipal team has been busy of late on road improvements, and what has been accomplished ought to be duly appreciated by users of the stretches of road affected and by citizens generally. Among other places attention has been given the main road north from the Municipal Office, at the point where it crosses Eneas Creek. Hitherto the creek has crossed the road diagonally, but lately the creek bed has been diverted so that the water goes under the road at right angles. At the extreme edge of the road the creek runs back to its former course. Much brush has also been cleared away from this bridge, and now there is about twice the width of road available as formerly. Coun. J. R. Campbell, with his team as well, took charge of the job. It is understood that efforts are being made by the Council to acquire small strips from two lots at this point which prevent the road running straight along. Needless to say this will effect a still greater improvement. Another bad spot that has been put in better and safer condition is the road which runs east of J. L. Hillborn's. The road at this point has been graded out and made much wider.

declared this should be settled now for all time. The road had been changed when the railway was built and the municipality had gravelled the new piece, and then, declared Coun. Johnston, the railway people had built the station on the gravel. Clerk Logie said he had already pointed out to the agent that the company was not living up to its agreement. He was instructed to take the matter up with the company, Coun. Simpson declaring that the road way should be graded out to the full forty feet in width.

The man who knows the least is often in the biggest hurry to tell it.

A. B. ELLIOTT,

THE MAN WHO SAVES YOU \$\$\$
Summerland and West Summerland

Can't Do It.

So insistent have been a number of my customers that I still maintain my branch meat store, that I have consented to still operate it for a time at least. I will, therefore, on the afternoons of TUESDAY and SATURDAY be at my store in the Kelley Block with a full stock of meats and fish in season. Thanking my many friends for their patronage, I trust I shall continue to merit their good will.

J. DOWNTON

We must safeguard home interests with the light of publicity and education. Any community that ignores this cause eventually lands on the rocks. The only safe course is the trade-at-home course. Out-of-town buying means shipwreck. Spend your money at home.

The Summerland merchant pays taxes at home, thus helping to keep finances of municipality and province going; the mail order house pays to another province and city, and the money we send out is gone from circulation in our midst for good.
