Vol. 10, No. 19. Whole No. 488.

SUMMERLAND, B.C., DECEMBER 7, 1917.

\$2.00, payable in advance.

## Splendid Response to Call for Victory Loan Subscriptions

### Summerland Contributes \$80,000 to the Big Money Drive.

Takes Fifty per cent. Over Allotment. Three Hundred and Sixty Subscribers with an Average of \$220 each.

Summerland has done splendidly! Eighty thousand dollars from a community of little over two thousand people, whose chief industry, that of fruit growing, is only now reaching that period where the production is exceeding expenses, is a record not to be ashamed of. The desire to participate in the big drive was met everywhere by the canvassers, and the number of subscriptions received shows a high average. The amount of the bonds subscribed for ran all the way from \$5,000 down to \$50.

Of the above total \$67,400 represents new money, while \$12,600 will be paid for by the conversion of early issues of Canadian bonds.

The total of \$80,000, was subscribed for by 361 applicants.

The allotment given Summerland by the provincial committee was \$60,000, and because of the neglect of the organizer to visit Summerland it was feared that there would be some difficulty experienced by the canvassing committee in placing this amount.

But Summerland was not to be kept under, and finished the campaign, which was short and conducted without fuss, with a large surplus.

Beside the above, the bank here received seven subscriptions from Naramata, each for fifty dollars.

Peachland, too, did excellently. Reference to the canvass there and the amount subscribed is made in the Peachland column of this number.

Throughout the Okanagan the Victory Loan drive has been a magnificent success, three-quarters of a million dollars having been realized. Latest reports received from the various centres give results as follows:

Armstrong	\$87,750
Enderby	40,000
Vernon, Coldstream, etc.	239,050

Kelowna	209,500
Peachland	15,000
Summerland	80,000
Penticton	95,000

\$25,000 of the sum raised at Penticton was contributed by 169 K.V.R. employees. Officers of that company, which had offered to finance the purchases of the line and gathered in subscriptions to the amount of \$25,000. Penticton's objective was \$60,000.

Comparing the result in Summerland with that at other points we have good reason to feel well satisfied. It will be seen that if the last-named place in the list above had not had the assistance of the men along the railway we would have exceeded the total raised there.

The grand total for the province stands now at about an even \$18,000,000, and with the extension of time it is not unreasonable to expect that when the lists are closed the grand total for all Canada will reach \$500,000,000.

The sum raised here fully justifies the resentment of our citizens to the proposal that Summerland be included in the Penticton district, and what an injustice to our district would have been done had Penticton been credited with \$80,000 to which it had no right.

"Oh, it's great; there's no two ways about it," was the comment of Sir George Foster when it was announced at headquarters that the issue of \$150,000,000 had been subscribed nearly twice over. Well over \$400,000,000 have been offered, and all will be issued. In fact, an intimation has been made by the Minister of Finance that while the time for subscribing to the Victory Loan expired on Saturday, Dec. 1st, subscriptions will be accepted for some days longer, while the returns are still coming in for the other subscriptions.

## Fish Hatchery Soon Ready

### Creeks of Park Afford Best Possible Site For Such Establishment.

Fisheries Overseer G. N. Gartrell is busy preparing for his baby fish the necessary pools or ponds such as are now commonly used in the propagation of fish in the government fish hatcheries. As noted in these columns some weeks ago, Mr. Gartrell obtained the permission of the municipality to build these on one of the small creeks running through the Peach Orchard park. No more ideal place could be found for the purpose than is to be found there, according to Mr. Gartrell. As soon as he has everything in readiness Mr. Gartrell will send for the fish spawn. This is placed in a "basket" in water, of course, and in due time, if conditions are right, the young fish are hatched. It is not till then that they are placed in the waters of the brook, the hatching being done in a building where conditions of temperature, etc. can be better controlled. The "fry" or baby fishes will be cared for in the nurseries which Mr. Gartrell is preparing for them in the park, and will later be given their freedom, and used to stock Okanagan and probably other lakes in the Okanagan water sheds.

Penticton, through its Board of Trade, has been trying to get a hatchery established there, and there is apparently much disappointment caused by its going elsewhere. The Penticton Herald does not know why a hatchery should be established in Summerland, and comments editorially as follows:

"Information which the Board of Trade has received seems to point to the fact that Summerland will probably get a fish hatchery, and Penticton, which has been agitating for one for several years, may have to do without. We do not know the reasons leading to the decision of the authorities to establish a hatchery in Summerland. That point is hardly so accessible as Penticton for shipments to lakes on the railway line, or to those bodies of water south of here.

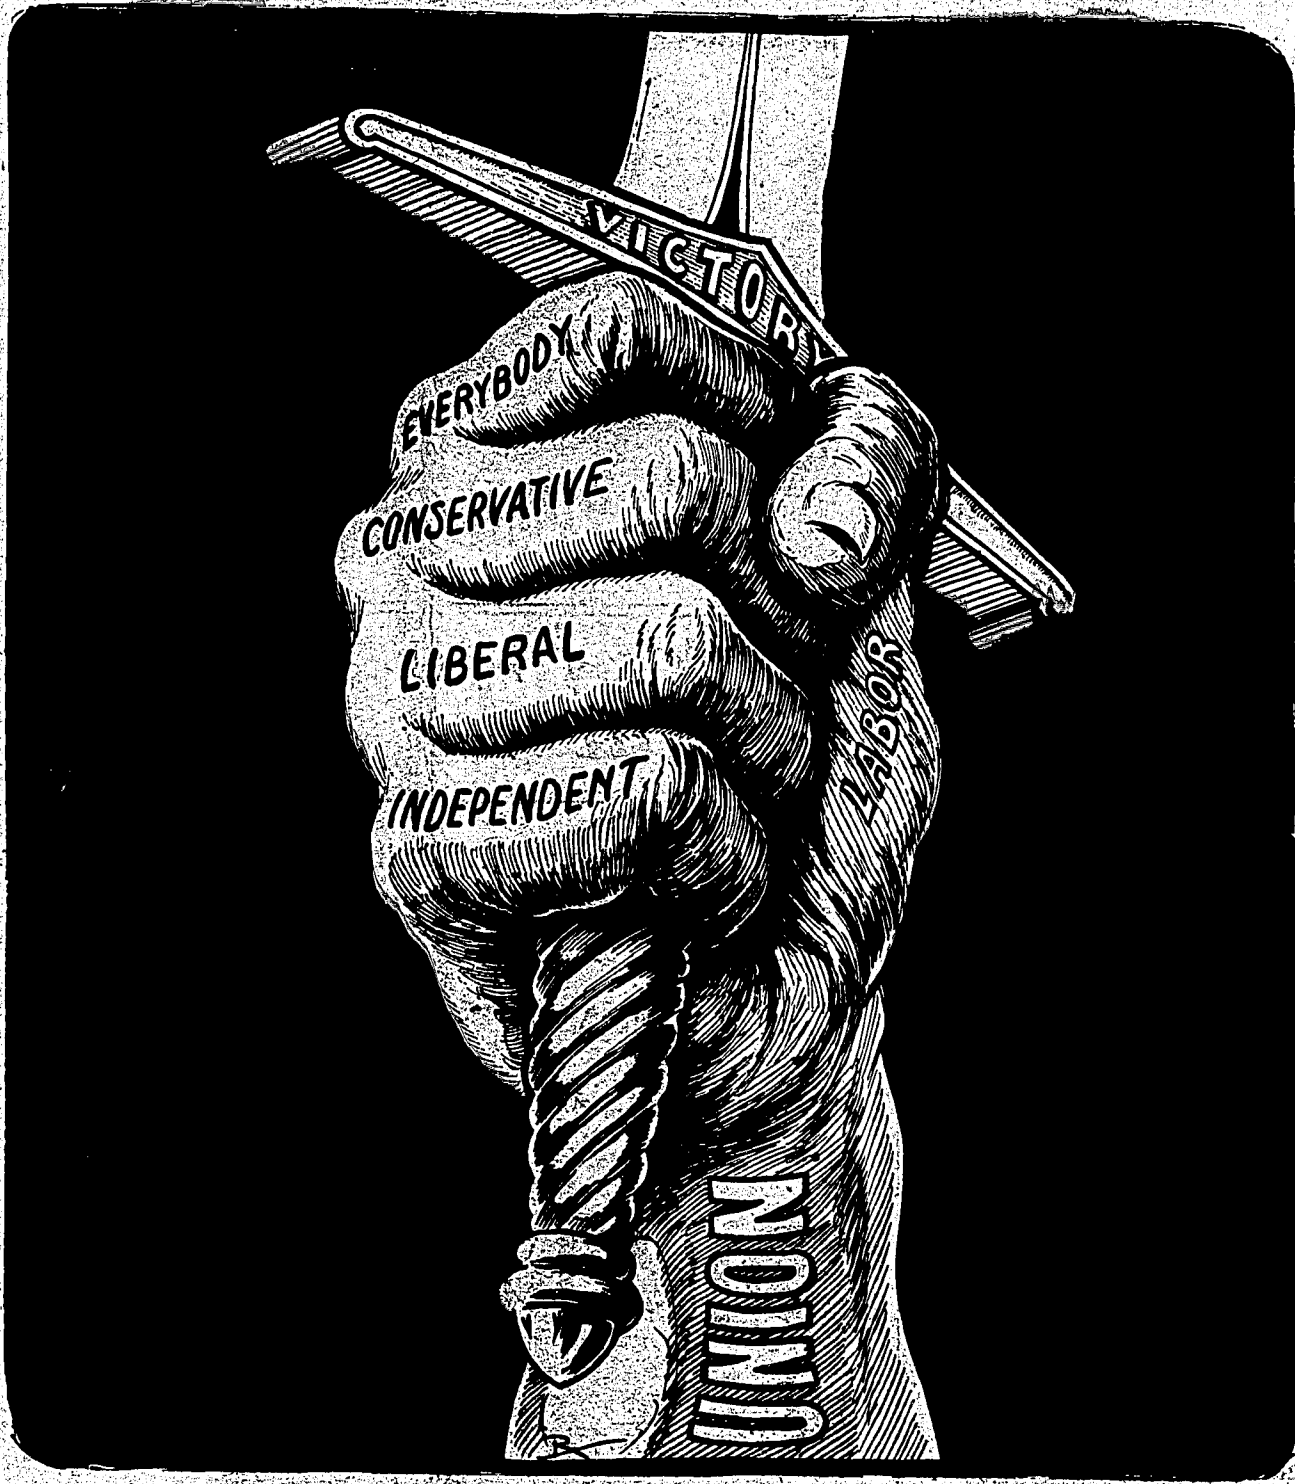

However, if Summerland has the hatchery, the principal purpose is achieved, and that is to get an institution of this character for the district so that fry may be obtained for the scores of prospective fishing grounds in the vicinity. Penticton would like to have a hatchery, but if there is only one, and it is to go to Summerland, no one would seriously begrudge the northern neighbor its good fortune in the matter. The chief thing is to get the fry."

## May Operate Picture House

Mr. H. B. Young, who recently resigned his position as K.V.R. agent, is interesting himself in the motion picture business. He has taken up with the local syndicate the matter of completing its original plans of opening a picture house in the Brewer building. If he succeeds in his efforts some further money will be spent in remodeling the building and fitting it with open chairs. Much of the equipment is now on hand.

Mr. Young is going to Nelson and Spokane, and will look further into the picture business and get some practical instructions on operating the machine with the view to doing the operating as well as managing the business for the syndicate.

ONE COMMON OBJECT! ONE SUPREME CAUSE!

To defeat the Germans and preserve liberty and democracy.

## Bare Quorum At Meeting Of School Trustees

Teacher Resigns to Continue  
Studies.

Firewood Contracts Awarded

Miss Annie Blair Added  
To Teaching Staff.

It was not until half an hour after the hour fixed for the opening of the regular monthly meeting on Tuesday afternoon of the Summerland School Board that there were enough members of the Board present to form a quorum, and then barely the required number, three, were in attendance. Originally five, the number was reduced to four some months ago by the resignation of Dr. E. W. Sawyer. Since then the forced absence of Mr. S. F. Sharp, whose duties at Naramata made it impossible for him to be present at some of the meetings, and later his going to Vancouver, has kept the number of Trustees at the meetings down to three. Acting Chairman Hilborn will be going to the Coast very soon, and his going will leave only the two lady Trustees at home, not enough to carry on the business, and it will be necessary that either Mr. Hilborn or Mr. Sharp return from the Coast to be at the meeting which must be held later in the month to finish the year's business.

Mr. J. Treffry of Trout Creek Point waited on the Board to learn their decision as to a request that the school building there be made available for the holding of religious services, led by a Penticton man of the holiness faith. After hearing him, decision was withheld for further consideration, and later in the afternoon, after learning that there was some opposition to the proposal to thus open the building, the Board decided not to grant the request.

The United Farmers asked permission to use the basement, offering to fit up and heat the place for themselves. They were given permission, provided they make good any damage done.

The resignation of Miss Dynes, who, as teacher of the Trout Creek Point School, has proved herself efficient and thorough, was accepted with regret. Miss Dynes is going to continue her studies at Normal School. Miss Annie Blair was appointed to the position.

Several tenders for wood were received and considered. Those tendering were T. B. Young, R. H. English, J. G. Robertson, S. A. Denike, and David Gray. The wood offered by Mr. Robertson and Mr. Gray was not according to specifications, and their tenders were not considered.

The contract for supplying the Central School was awarded S. A. Denike, 25 full cords of 128 cubic ft. piled, for 6.65 a cord. T. B. Young's offer to supply the Garnett Valley School with seven cords at \$7.25 was accepted, as was also R. H. English's for the Town School for a like quantity at \$8.00.

Seven storm sash windows for the Central School are being supplied by Mr. Bert Harvey for \$80.00 put on.

November accounts as follows were approved for payment:

Teachers' salaries	\$780.00
Convoyance contractors	218.00
Caretaking	42.00
Secretary	8.00
Coal, G. R. Hookham & Co.	79.00
Sundries	44.46
	\$1,172.96

## First Call on Monday

1,500 Men Will Go Into  
Camp At Coast.

Victoria—Military headquarters have made arrangements for the reception of 750 recruits under the Military Service Act, to assemble at the Willows Camp here on Monday next. Similar arrangements for 750 recruits at Hastings Park have been made. Only 1,500 men will be called up at first.

## Public Schools Nov. Honor Roll

The honor roll for the past month in the various departments of our public schools is given here. These are the class leaders, according to the results of the month-end exams, and the daily records of the month:

**DIVISION I.**  
Senior Fourth—Ruth Graham, Ronald White, Minnie Ritchie, John Denike, Betty Barnes.  
Junior Fourth—Dorothy Tomlin, Marion Beavis, Merle Smith, Verna Smith, Kathleen Bates.

**DIVISION II.**  
Senior Third—Florence Campbell, Harry Hobbs, Ethel Phinney, William Kean, Helen White.  
Junior Third—Arthur Holding, Amy Smith, Ella Bowring, Frank Marshall, Kenneth Bates, James Smith.

**DIVISION III.**  
Senior Second Reader—Bessie Tomlin, Vera Walker, Eric Johnson.  
Junior Second Reader—Ernest Doherty, Stella Wilson and Nellie Thompson equal, James Smith.  
First Reader—Alice Traylor, Bertha Riley, Frances Rutherford.

**DIVISION IV.**  
Second Primer—Muriel Bates, Nora Clements, Mary Munn, Isobel Holding.  
First Primer—Roselle James, Edna Traylor, Isobel Dickinson, James Purvos.  
Receiving Class—Jack Bowring, Edna Smith, Eva Hilborn, Dorothy Chew and Ethel Denike equal.

**DIVISION V.**  
Senior Second Reader—William Thornber, Violet Atkins.  
First Reader—Harold White, Gertrude Shields, Ralph Blowett.  
First Primer—Reginald Atkins, Boginnore' Class—Terence Bennett, Ralph Sculthorpe.

**DIVISION VI.**  
Receiving Class—Emily Mountford, Harry Reid.  
First Primer—Violet Traffry, Ruth Tait.  
Second Primer—Mary Gartrell, Margaret Pioro.  
Second Reader—Arthur Morgan, Harvey Wilson.

The Spud Potlatch at Ashcroft realized about \$2,600. After expenses are paid the balance will be given to the Red Cross.

## Coming To B.C. Many Will Stay

According to various press dispatches there has never been such a movement westward of prairie people as has begun this winter from the grain provinces to British Columbia. The wider distribution of B.C. fruit is without doubt turning the minds of the prairie folk to that part of Canada where such wonderful fruit is grown. Many who have been in the habit of going south are this year coming to the Pacific Coast province, and many others whose finances until now made it necessary that they remain at home are buying tickets westward. As a diversion from the life on the farm the cities of the Coast naturally attract many of these, but the Okanagan is also receiving much attention, and a good many are coming here.

The attractions of fruit farming in this most favored climate are appealing to many, and one railway official in a position to know says that many who are coming to this province for the winter will pay deposits on fruit farms before returning.

## Date For Making Appeals Extended

Privilege is Granted by Minister of Justice.

Can Now be Filed up to Dec. 10th.

Ottawa, Dec. 8.—The date for filing appeals from local tribunals has been extended until Monday, Dec. 10. Under the Military Service regulations the time for filing appeals was limited to "three clear days after the date on which notice of the decision was received by the applicant or by the military representatives."

## Sugar For Soldiers

According to a memorandum received at the post offices it is now ordered that sugar, refined and unrefined, including maple sugar, may be exported by parcel post up to regulation weight when consigned to and intended for military or naval forces overseas. The limit of weight to Britain is 11 lbs., and to Franco 7 lbs.

## Exemption Tribunal Completes Work

The work of the exemption tribunal for this district is now ended. Nearly all of those of Summerland and vicinity who went before the board were listed in these columns just after the board opened its hearings. There were no others from here who were put into Class A. Benj. Mayne, Mineola; Roy Phinney, of the Experimental Station, and S. Saaguchi, one of our Italian colony, were all entered in Class C. Of those put in Class E not already mentioned were: C. D. Denton, teacher in the Summerland High School; C. W. Frith, an invalid, and B. L. Roscoe, also an invalid.

Peachland had only one man left who could qualify, and he was a food producer; this was J. S. Moore, and he was put in the A Class. G. A. Robinson of Peachland was put in Class B and A. W. McDougall and F. Cousins in Class C, while T. W. Scott was also a Class E man.

## Met Instant Death

That Pto. Wm Gallagher was killed instantly while in action was learned from a letter received by his parents from his commanding officer. Much to comfort and cheer the stricken parents is contained in the brief letter reproduced here:

Francis,  
October 31st, 1917.

Dear Mrs Gallagher,  
It is with the deepest regret and most sincere sympathy that I have to inform you of the death of your son, Pto. Gallagher, W. E., killed in action, October 28th, 1917, by a shell near Paschendaele, Belgium. Death was instantaneous. He was buried on the field of battle. During his period of service in Franco he always did most valuable work. His loss is one which will be keenly felt by all ranks. By his cheerfulness and bravery, under most trying circumstances, he at all times set an example to his comrades, spurring them on to greater efforts.

On behalf of the officers and men of the company I wish to express our sincerest sympathy in your great bereavement.

Yours sincerely  
DONALD R. CHARLESACE,  
Major, O.C. A Coy., 47th Batt.

### MEN OR FOOD.

GREAT AS IS THE NEED OF MEN to maintain Canada's strength on the western front the need for food for these men and for the fighting men and civilians of Britain, France, and the other allied nations of Europe is equally pressing, and we fear may be even more urgent shortly. Careful judgement must therefore be exercised in the enforcement of the new Military Service Act that the food producing capacity of Canada is not impaired. It will be recalled that after Britain had conscripted her civilian army many men were returned from camp to farm in order that the food supply might not fail. With the general refusal to grant exemption to any man who could pass the test into Class A it seemed certain that the already seriously crippled agricultural industries of the Valley would be still further hindered and a forced reduction in our farm outputs effected. That Ottawa is awake to the danger of crippling agriculture by the drafting of farmers and farm labor is evident from a statement from the Minister of Militia that the farmers and farmers sons needed for production should be exempted. On Monday an order-in-council was passed in regard to the exemption of farmers, and clearing up the situation which has been somewhat clouded by the varied decisions of exemption boards in different parts of the country. In some districts farmers and farm laborers have all been exempted, and in others the tribunals have been refusing applications. It is the announced intention of the government to see that there is uniformity of decisions, and that the agricultural industry is not depleted. The government will probably take steps to see that the decisions affecting bona fide farmers may be subjected to special revision.

The Okanagan is especially concerned in this matter. No part of Canada responded more readily to the call for recruits nor contributed so largely of its population, largely agricultural, as has this valley. True, there are among us a few who should have gone, but there are more who could have better served the cause by staying at home and making their farms produce to the limit. But any further removal of our farm people, especially of those who are specially qualified in certain branches of the industry, will have the effect of cutting down production. The attitude of Ottawa as shown by the order-in-council is encouraging.

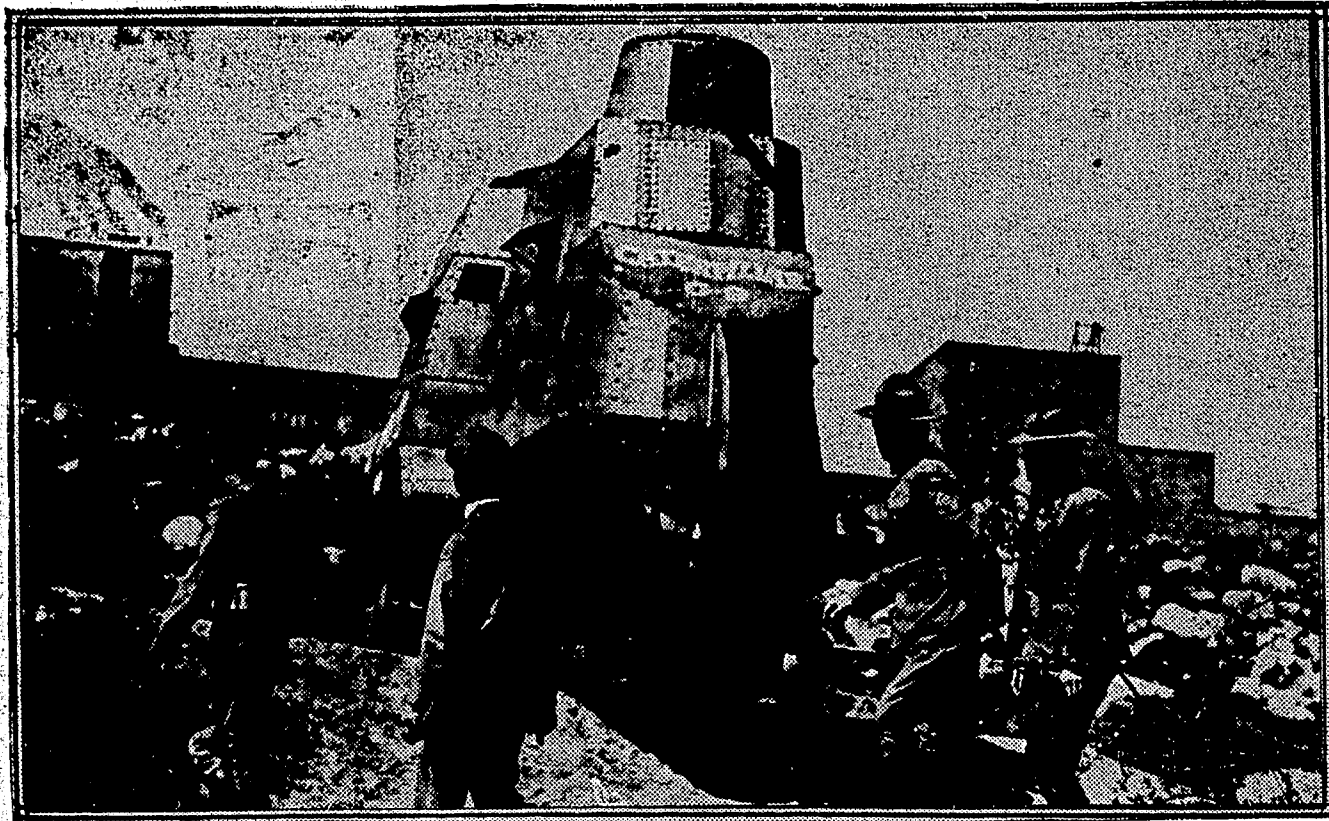

§ § § § §

THE BELATED NOTICE coming through Ottawa to the effect that the British Government has declined to permit the entry from Canada into the United Kingdom of Christmas parcels for civilians will be a disappointment to many. Importation of parcels, strictly limited in weight and size, may still be sent to members of the Canadian Expeditionary Force.

§ § § § §

WITH THE PASSING of German East Africa into British control through the success of the British South African forces against the enemy, the last of her overseas possessions is lost to Germany. The change will be a great blessing to all of Africa, as under German methods development was greatly hindered.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Miss Morrison, who has been away at Rochester, returned home on Wednesday. She expects to make a sale of her stock and effects.

Nurse Wilson came in on Wednesday from Kelowna.

George Robinson of Peachland and Mr Robert Keyes had a collision on the Lakeshore Road. George was going toward Summerland with a load of ladies, including Mrs Jefford and her two daughters, and Mrs Wm. Henry, when the accident happened. Mr Keyes' car was very slightly damaged, but George Robinson's car was put out of action, though no one was injured. Mr Keyes brought the ladies back to Peachland.

John McDougald came home on Thursday for a few days' visit with his mother, having received word to go overseas shortly. John has made a record for getting over in a short time, for he enlisted less than a month ago. He left for Vancouver on Tuesday night. His mother, sister Candace, and brother Archie went with him as far as Summerland to see him on the train. They went in Mr Cutbill's car, and returned home the same night.

Mr J. S. Moore got instructions last week to report again for examination, and was sent to Vernon where he was refused examination on the ground of having been discharged, and was sent home again.

Mr Fred Fruen returned home from Kelowna on Friday.

Captain Walter Wingate returned home to the Coast on Saturday morning.

Mrs Robert Howell and Miss Myrtle Keating, who have been visiting in Penticton, returned home on Saturday morning.

Miss Olive Gummow went down to Penticton on Saturday for a few days' visit.

Mr W. D. Miller came up on Saturday morning and spent the day with his family, returning at night.

Nearly \$15,000 was subscribed for Victory Bonds in Peachland,

which is a pretty good record for a small place, considering what it has done for patriotic purposes since the beginning of the war. Part of this was made up of money which had been put in the bank by Mr Wm Dryden for his son William, but as he was killed in action his parents decided to let his money still work for him in winning the war, and so invested it in Victory Bonds.

Mr and Mrs Robert Keyes of Penticton have been visiting at Mr and Mrs George Keyes of Peachland, and returned home on Saturday. Mr Keyes was lucky enough to get a deer while here. Mrs George Keyes returned with them, coming home on Monday morning.

### Secretary of People's Prohibition Movement Gives Address.

Last Tuesday evening Rev. G. W. G. Fortune of Vancouver, secretary of the People's Prohibition Movement, gave a very interesting address in the Presbyterian Church.

He dwelt upon the great importance of the temperance people being alert with respect to the enforcement of the prohibition law, and gave several instances where evasions were attempted and detected, and the transgressors brought to justice.

He also spoke of the benefits attained, and said that four jails had been closed in B.C. Strong testimony is given by the nurses of the hospitals who say that whereas before prohibition they generally had four or five emergency calls each night, the first month after its enforcement they had only one call during the whole month.

Discussing the likelihood of the compensation to the liquor sellers it would not be entertained by the public opinion of the province. The liquor sellers knew that their licences expired at the end of each year, and those who had spent considerable sums in improving their premises according to the requirements of the licence law did so with the full knowledge of the precarious character of their holdings, and took the risk as other men take the risk of any purely business venture.

Many men fail in a business that has benefitted the community, while

liquor sellers who have lost in a business that constantly ruins members of the community, and often made wives widows and children fatherless.

When those who have been ruined by the liquor traffic are compensated by the state it will be time enough to consider the compensation of the liquor sellers.

Rev. Edgar Russell of Summerland spent Wednesday in town, returning at night.

The regular monthly meeting of the School Board was held in the board room of the school on Monday the 3rd inst.

Miss Vera Hay, who spent the week-end with her parents here, returned to Kelowna on Monday morning.

The regular meeting of the Ambulance League was held in the reading room on Tuesday afternoon. Mrs B. S. Brown served refreshments. The last parcel of supplies sent to the Red Cross headquarters

### Julius Caesar Nayphe

One of the interesting features in connection with Julius Caesar Nayphe's lecture, "The Oriental Pageant," which will be given on the second night of the Chautauqua Festival, is an Oriental marriage ceremony. Elaborate costumes brought from Athens will be worn by several local young women during the lecture.

Born at Athens, reared in Palestine, educated both abroad and in

by the local branch of the Ambulance League contained the following articles: 20 suits pyjamas; 16 T bandages; 24 stretcher caps; 10 towels.

Mr Dryden, municipal clerk, told your correspondent that he had received more taxes up to date than any year since the formation of the municipality.

We are sorry to report that Mrs J. Wright is very seriously ill, but we hope that she will take a turn for the better soon.

America, Julius Caesar Nayphe is thoroughly equipped for the unique lecture which he will deliver. Dressed in heavily embroidered robes of his native land, he contrasts the customs, life, fashions, courtship, and marriage of his own country with those of this continent.

Divorce is practically unknown in Greece, says Nayphe. Prior to the marriage ceremony, the mother of the bridegroom calls at the home of her prospective daughter-in-law and makes closest inquiries as to her physical and mental qualifications, her characteristics, and her accomplishments. Practically the same is true in the case of the young man.

Nayphe says that he came to America to "learn a little of everything." He completed his education at both Harvard and Oxford, and then he decided to abandon the customs of his ancestors from time immemorial, and make America his permanent home. He says he refuses to be buried in the tomb of his fathers as long as he lives. A

### No More Grain For Whisky.

By an order-in-council under the provisions of The War Measures Act, regulations are made that "on and after the first day of December, 1917, and until the Governor-General in Council has, by order, declared that the present abnormal conditions have ceased, no grain of any kind and no substance that can be used for food shall be used in Canada for the distillation of potable liquors."

#### A DIFFICULT FEAT.

The school girl was sitting with her feet stretched out far into the aisle, and was busily chewing gum, when the teacher espied her.

"Mary!" called the teacher sharply.

"Yes, ma'am," questioned the pupil?

"Take that gum out of your mouth and put your feet in!"

# Christmas Slaughter Sale Now On!

Thru the month of December we will sell our entire Stock of

## Dolls, Toys, Fancy Goods Brass Ware, Jewelry,

AT A

# DISCOUNT of 20%

In addition to this we will donate 5 per cent. on all sales of Xmas. Goods to the Home Comfort Club. In this way you can make a big saving on your Christmas purchases and at the same time help in the sending of comforts to the Soldier Boys.

### The Southern Okanagan Poultry Show

TO BE HELD AT

PENTICTON --- DECEMBER 11th to 14th, 1917.

Fine List Special Prizes. — Entries close Dec. 8th. — Send for Prize List. S. B. PENTY, Sec'y, Penticton.

THE PHONOGRAPH which really sings.

### The NEW EDISON

"The Phonograph with a Soul"

actually sings. It has stood beside Anna Case, Giovanni Zenatello, Guldo Ciccolini, Arthur Middleton, Thomas Chalmers and a score of other great artists; and has sung duets with them, and then sung in comparison with them.

The musical critics of more than five hundred newspapers concede in the columns of their own papers, that it is only by watching the lips of the artist standing before them, that they can tell whether it is the artist singing or The New Edison singing.

We almost hope you will disbelieve what we say—and come to our store and make us prove our statements. You will not be asked to buy. We merely wish to prove that the New Edison Recreation of music is a fact.

102

Summerland Supply Co. Ltd., Summerland, B.C.

## The War Burden Of Canada.

Military and Naval Activities of Canadians Not Confined to War Areas.

Ottawa—Besides the military organization she maintains, Canada keeps up a considerable establishment at home. Coast defences have to be looked after at Halifax, Sydney, Quebec, St John, and Esquimalt. Again, Canada has the duty of guarding at home, internment camps, railway bridges, etc., requiring a large number of men, besides hospitals and camps. In addition to this there is in home waters the Canadian Naval Service, which since war began has

absorbed 5,800 Canadians as officers and men, with its associated services all under direct Canadian control.

Although far removed from the central seat of war, Canada is under the necessity of keeping up a healthy military organization at home because this is a world war, and in its ramifications may raise its horrid head from any point of the compass. The first guarantee of efficient activity at the front is efficient organization and perfect order at home.

### IS THIS THE CAUSE?

The United States military draft shows that the number of those physically defective is from 7 to 20 per cent, higher in rural districts than in cities. The officials blame this on the lack of medical inspection in country schools.

## Canada And The World Food Shortage.

Recent developments in Europe, official correspondence, and the latest crop estimates make it plain that the world food situation to-day is serious beyond anything that we could see a few months ago. Unless we are willing to make some sacrifice in our eating and rigorously to guard against waste of food-stuffs, we may find the conclusive victory of our armies endangered.

Reports of the crops of France and Italy show that we shall be called upon to strain every effort and to conserve every ounce of food to make up the shortage of our Allies. Temporary disaster has overtaken the Italian army, and it will be necessary to support them to the utmost by rushing food shipments. The requirements of Great Britain will be much larger than they were last year. We must also ensure the women and children of France against terrible suffering, and make certain that the Allied cause will not be weakened by shortage of essential food supplies.

The situation is grave to-day, and the time has come when the people of Canada must realize that the Allies are depending on the continent of North America to a far greater extent than ever before. It is within the power of all of us effectively to support the efforts of our armies. The Canadian farmer has done his part by harvesting a splendid crop. Plans have been made for greater production next year. But until the next harvest, the only means of increasing the exportable surplus of food is for the consumer to do his duty. The fighting efficiency of the Allied forces will be impaired unless Canada awakens to the seriousness of the food problem. There rests upon us a tremendous responsibility—perhaps for the very issue of the war.—W. J. Hanna, Food Controller.

### W. J. Hindley.

The Omaha Bee, one of the leading dailies of the United States, said: "W. J. Hindley is a man with a faculty of public expression which is seldom surpassed."

This is unquestionably true. Mr. Hindley is one of the ablest orators upon the platform to-day. His lecture on the last afternoon of the Chautauqua Festival will be one of the biggest events of the "Three Joyous Days."

As former pastor of the great Central Congregational Church of Winnipeg, he spoke to the largest regular audiences in Canada. Sunday after Sunday he banked up two thousand people in the big church auditorium. The Winnipeg Free Press says that no one ever had to rub their eyes, cough, or pinch themselves to keep awake. It is a pure delight to sit under the spell of Hindley's eloquence. It is impossible to describe the peculiar power of his oratory, the vividness of description, the happiness of his illustrations, the spontaneity of his humor, and the compelling impetus of logic with which he drives home his convictions. He is an apostle of higher ideals and better living—be sure and hear him.

### MISTAKES.

When a plumber makes a mistake he charges twice for it.

When a lawyer makes a mistake, it's just what he wanted, because he has a chance to try the case all over again.

When a carpenter makes a mistake, 'tis just what he expected, because the chances are ten to one he never learned his business.

When an electrician makes a mistake, he blames it on "induction," because nobody knows what that is.

When a doctor makes a mistake, he buries it.

When a judge makes a mistake, it becomes the law of the land.

When a preacher makes a mistake, nobody knows the difference.

When a printer makes a mistake—but who ever heard of such a thing!

Well-known apple growers of Walla Walla have organized a co-operative apple box factory company there. It is figured that this company can make its boxes at cost to the growers, who are members, of 10 or 11 cents each, as compared with present charges of 16 to 18 cents per box.

## SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.  
N.B.—Unauthorized publication of this advertisement will not be paid for.

On Sunday next at the morning service of the united congregations here Rev J. A. and Mrs Banton will open a two weeks' series of special services. During the first week these will be held in St Andrew's Church, and the following week in the Lakeside Church. Mr Banton is said to be specially gifted both as a speaker and a singer, and Mrs Banton is also an exceptionally qualified musician.

There are 186 branches of chartered banks in B.C.

The big bridge spanning the St Lawrence at Quebec has been opened to traffic.

This season more than 100 carloads of fruit were shipped from Keremoos.

Some of the heart trouble among Canadian soldiers is caused by smoking too many cigarettes.

The Princeton Coal Company now has 110 men on its pay roll. Daily shipments now run about 240 tons. Further development work is planned for next summer which will increase the output to 700 or 800 tons a day.

Kelowna has not yet given up hope of having a military hospital there. It has been proposed that one of the hotels be used for the purpose. The matter will be again taken up with Ottawa immediately after the election.

There will be no New Zealand butter to reach Canada this winter, the British Government having contracted for all the surplus butter at a price of about 85c. a pound. It is said that there will be 15,000 tons for export.

**Passing Events: Social, Personal, &c.**

Mr and Mrs W. H. Hayes moved down town this week.

A dancing club has been organized this week which will meet regularly in Campbell's Hall.

Mr and Mrs Wm. Weaver and family left for Vancouver on Monday night to make that city their home.

After a visit of some weeks at her home here, Miss Wismer has returned to Victoria to resume nursing.

Mr and Mrs T. H. Walker left last night by K.V.R. for Vancouver, intending to spend a few weeks' holiday at the Coast.

Mr and Mrs J. D. Wood were K.V.R. passengers last Saturday night bound for Vancouver. They may spend most of the winter there.

Mr E. W. Keenleyside, a resident of Vancouver, and owner of an orchard lot opposite Miss Dale's, spent last week-end here. As manager of the North American Life for B.C. he appointed Mr W. C. Kelley local agent.

The addition of a section of concrete sidewalk extending beyond both sides of the building adds much to the pleasing front of the new bank. The cost is almost wholly borne by the bank, the municipality contributing only to the extent of half of what a plank sidewalk would have cost.

A telegram sent from Halifax on Monday to his parents, Mr and Mrs Wm. Ritchie, told them of the safe arrival there of their son, Pte. James Ritchie. It is expected that he will be given his discharge as soon as he is out of the hands of the doctors. It will be remembered that he was wounded in the arm and now has a stiff elbow.

The Trout Creek Point branch of the United Farmers of B.C. held a successful meeting on Tuesday evening in the basement of the school-house. Plans were made for the holding of semi-monthly meetings throughout the winter. A carefully prepared program will be followed. Discussions on live farm topics will, of course, be the principal feature of the meetings.

Rev. G. W. G. Fortune, general secretary of the People's Prohibition Movement was a visitor to Summerland this week. He addressed a small gathering in St. Andrew's Church on Wednesday evening. A full report of a similar meeting at Peachland is given in our Peachland section of this number, which will apply equally well to the meeting on Wednesday here.

Our readers will remember what a surprisingly large sum was realized last spring by the sale of old rubbers and like material, which was gathered by the Boy Scouts. It is little short of criminal to burn or otherwise destroy anything that can be put to good use. Better lay away all those old rubbers that you find are too worn for further use. Tea lead and scrap metal should also be saved. It will be asked for soon.

Mrs R. M. Ross returned last Friday after a visit to her son, George Ross, at Armstrong, staying with them until they were settled in their new home in Revelstoke, Mr Ross having entered the C.P.R. chief dispatcher's office there. Mrs Ross is back in her own home, and delighted to be again settled in Summerland in the best climate to be found anywhere. She will be joined later by her younger son, Donald, who is just now relieving in the C.P.R. office at Vernon.

The Home Comfort Club held its annual general meeting on Wednesday evening at the home of Mrs Butler, when reports of the year's work were received and officers elected. All the officers and committees of the past year were returned to office. The treasurer's report showed that over seven hundred dollars had been spent during the year for soldiers comforts, as compared with about four hundred dollars in cash the year before. Besides this very satisfactory total of cash expended for Summerland's soldiers overseas, donations in kind were received for the same purpose to the value of about one hundred and seventy-five dollars. No less than 351 parcels were made up and mailed during the year. An even hundred more than in 1916.

Miss Rita Harrison is planning to enter Normal School the first of the new year.

Mr A. B. Currie, who has been acting agent for the C.P.R. here, is now relieving at Enderby.

Mrs Kate Bentley's new cottage has been finished and will be ready for occupancy in a few days.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented in Summerland by Bert Harvey. A

Bert McQuarrie expects to leave here soon, and will likely be transferred to the C.P.R. office at Vernon.

Mr Oliver, who, as relieving agent for the K.V.R., is already known here, has been appointed local K.V.R. agent to succeed Mr H. B. Young, resigned.

Roy Darkis has come in from Vancouver to remain until after Christmas. He looks much improved, and has been working in a machine shop, learning a trade for several weeks.

Mr and Mrs E. Vickers have come in from the prairies to spend the winter in Summerland and are now living in Mr English's cottage, formerly occupied by Mr and Mrs Frank Williams.

The Ladies' Auxiliary of St. Stephen's Church held a very successful sale of work yesterday afternoon in the Parish Hall. The sum of one hundred and seventy dollars was realized, which will be devoted to the expense of finishing the interior of the hall, which is to be plastered.

Mrs James Dunsdon and little daughter returned on Saturday night from Victoria where they had been visiting for a month Mrs Dunsdon's parents. Mrs Dunsdon comes back with a better appreciation than ever of the delights of Summerland's unrivalled climate.

Mr J. Taylor, formerly a night operator at the K.V.R. station was a visitor here the first of the week. We understand that he is considering opening a bakery and restaurant here, and may lease the T. B. Young building opposite the lumber yard and convert it to suit the needs of the business.

By an exchange of properties Mr Muir Stuart becomes the owner of the lot on which his packing house stands and the cottage thereon now occupied by Mr G. L. McWilliams. His cottage and a portion of the land immediately surrounding it passes to Mrs Kelley Mr and Mrs Stuart will move into their newly acquired home next week, while Mr and Mrs McWilliams will still be Mrs Kelley's tenants in the Stuart cottage.

Mr and Mrs Noble have moved into the Kelley Block on Granville Road.

Mr J. E. Serrey of Calgary is visiting here at the home of an old friend, Mr T. S. Secret.

Two deer were taken by B. L. Hatfield in a hunting trip last Saturday on the other side of the lake.

Mr G. A. McWilliams, who now makes Vernon his headquarters, has been about the district this week.

Mr H. Cascaden, who has been spending the summer here, has returned to his family in northern Alberta.

E. N. Rowley made a visit to his traps this week and was successful in getting a number of beaver and lynx.

Arthur Holmes, who has been with the Steuart Fruit Co. all season, has removed with his family to Penticton.

Mrs A. H. Steven and children left on Monday for Edmonton, where they will remain with relatives until after Christmas.

One hundred and thirty dollars and fifty cents was the amount remitted to Victoria by the local treasurer of the Patriotic Fund, Summerland's contribution for November.

Mrs Angwin and her daughter, Miss Gertrude, were passengers coastward bound on the K.V.R. train on Monday evening. They purpose visiting in Vancouver and Victoria until after the holidays.

Mr and Mrs Muir Stuart and Mr and Mrs W. Limmer will spend several weeks at the Coast this winter. Mrs Stuart and family, accompanied by her parents, went out by K.V.R. on Thursday night. Mr Stuart will follow shortly.

We have heard of the Ford being put to many uses, but the latest, according to a municipal official, is in the unauthorized transfer of fuel from a municipal wood pile to the yard of the driver. Though assuring the Review that this was a fact, the official would not give the name of the car owner. We will still hope that there is some mistake in this.

Fall plowing, which has been general throughout the district, has been interrupted for a few days at least by several light falls of snow, which in the total has sufficiently covered the ground to make sleighing. The ground is not frozen, and any melting of the snow will be quickly absorbed, much to the advantage of soil and trees. With warm bright sunshine, the snow is not likely to stay very long.

**Britain's Noble Fighters from India**

Native Indian Sikhs, lancers, riding to take up their position as outpost along the firing line in northern France. The native Indian regiments which Britain has taken into France to fight the Germans have distinguished themselves by their brilliant fighting. The lancer regiments are as splendid horsemen as the famous German Uhlans, and as courageous.

**Community Calendar of Coming Events**

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

The regular meeting of the West Summerland Women's Institute will be held next Friday afternoon, December 14th at 3 o'clock in the Parish Hall.

Dr and Mrs Lipsett are planning on a vacation at the Coast.

Ernest Lister, James Kean, Hilton Snider, Cliff McWilliams, and John McDougald, now all serving king and country in the artillery branch of the Canadian Army, and who were home on a short leave, returned to Vancouver on Monday evening. They expect to start soon on the journey to Europe. A large number of friends gathered at the station to bid them farewell.

Attention is called to the advertising space of the united churches in this number; wherein special services for all next week are announced. The special services will be opened by the visitors in St Andrew's Church on Sunday morning and the Parkdale Baptist Church the same evening. Rev A. Henderson will conduct the evening service in the Lakeside Church, but the following Sunday a week of special services will be opened there by Rev. and Mrs Banton.

**Tickets Are Selling Fast**

We would advise that all our readers who purpose attending the three days' Chautauqua at Penticton secure their season tickets at once. The tickets are now on sale at Chittenden & McKeen's drug store, where reservations may also be made. The tickets are going rapidly, and will soon all be sold. The price for the season ticket is \$1.75, with 50c. extra for reserved seats. All proceeds beyond the actual guarantee to the managers is to be devoted to the Red Cross, Y.M.C.A., Soldiers' Comforts and Hospital. An added feature of the very complete program is a dance in Burch's Hall after the close of the last performance, Friday, Dec. 14th, and for which the Royal Hawaiian Quartet has offered its services gratis. This will be a benefit affair, the small admission price of twenty-five cents being added to the surplus from the regular course to swell the sum for Red Cross and the other funds named above. The Hawaiian Band, though leaving by boat the next morning, have offered to play as late as they are required.

The badness in the best of us and the goodness in the worst of us should restrain any of us from throwing mud at the rest of us.

LICENSE TO FIGHT.

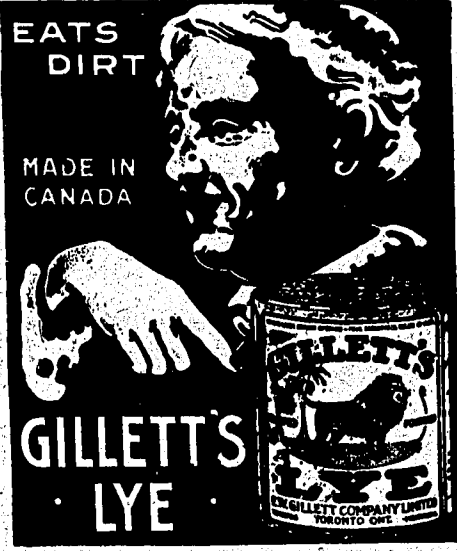

"Well, that's enough to try the patience of Job!" exclaimed the minister, as he threw aside the local paper. "Why, what's the matter, dear?" his wife inquired. "Last Sunday I preached from the text, 'Be ye, therefore, steadfast,'" answered the parson, "but the printer makes it read, 'Be ye there for breakfast.'"

A turnip weighing 27 pounds was grown at Revelstoke this summer.

SCHOOL BOYS AND BIRDS.

The little .22 rifle in the hands of the boy is a serious menace to bird life. Give a young lad one of these miniature rifles, and he is at once ambitious to test it out on killing something. If school boys were taught their dependence upon the work the birds do to protect man's food supply from destructive insects, they would place a much greater value upon their feathered friends.

A pumpkin weighing 116 pounds is on exhibition in Bonners Ferry.

Naramata News

Current Events of Town and District

The Christmas parcels for the men overseas having been sent off in good time the local branch of the Ambulance League turned their attention to jam, about fifty tins of which have been sent to Vancouver for the returned soldiers in hospital. The League held a meeting on Saturday afternoon at which a number of reports were received.

Mr and Mrs J. O. Noyes left on Friday night for Victoria, where they will remain for the winter with their son Ernest. Their cottage has been taken by Mr H. T. and Mrs Davies for the winter.

Mr and Mrs Geo. Aldridge were guests last Sunday of Mr and Mrs S. F. Sharp, Summerland. They returned by road, bringing with them Mr Sharp's horse and buggy, which they will keep until Mr Sharp returns from a visit to the Coast.

The whist drive given by Mrs W. Nutall and Mrs D. McKay on Tuesday evening in the Unity Club in aid of the local Red Cross work was well attended. Visitors from Summerland came over by special ferry.

Mr and Mrs G. Cook have moved down from their ranch to their winter house in town.

Mr Ernest Steers was the weekend guest of Capt. and Mrs Roe, Summerland.

Mrs W. Steele of Mineola is spending a few days with Mrs G. Cook.

The friends of Mrs J. C. Myers will regret to learn that she is not recovering from her illness as rapidly as might be hoped.

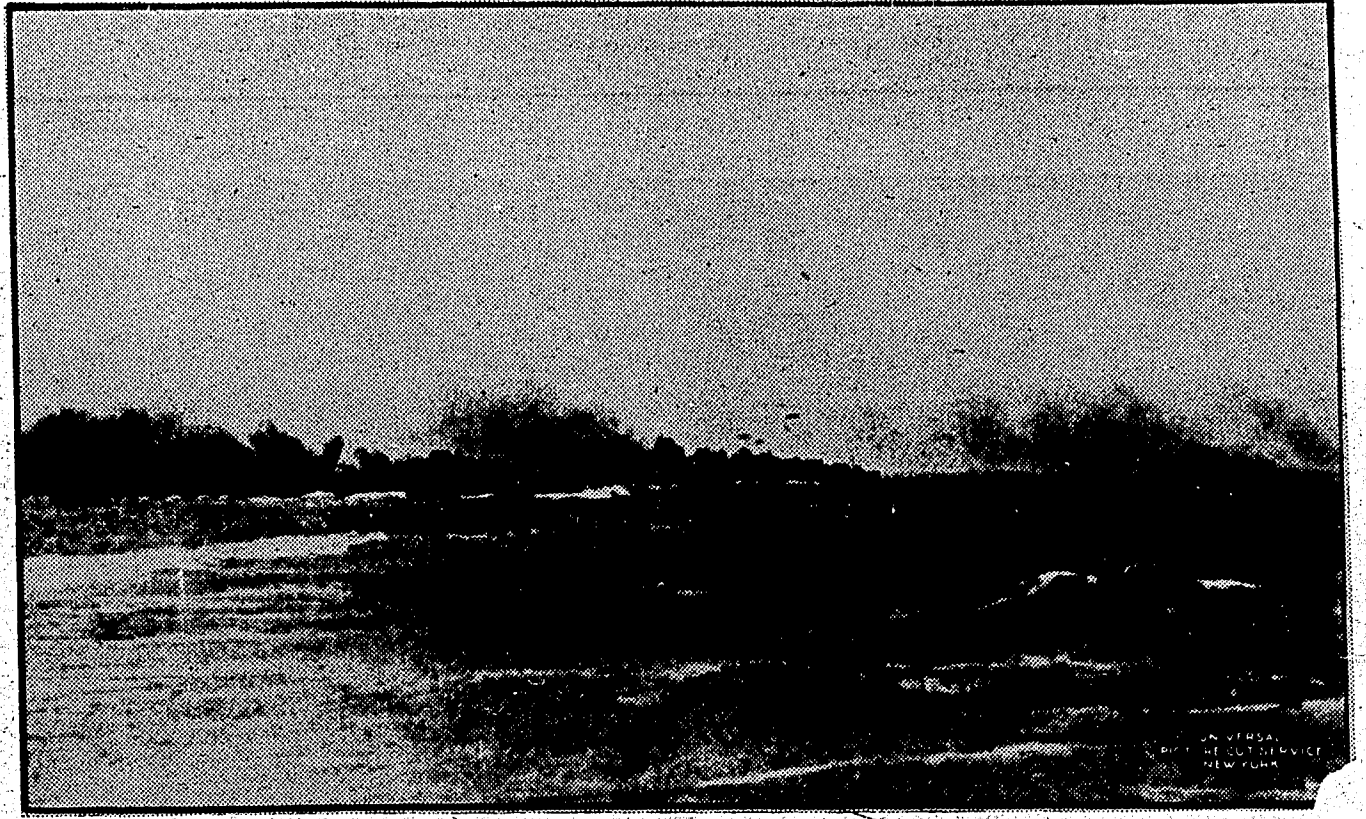

Women's Institute Fruit Shipping Business is Increasing.

Some three years ago the West Summerland Women's Institute launched as a venture a scheme of fruit shipping whereby the shipper sells direct to the consumer. The system was carefully thought out and planned by one of the members of the Institute, Mrs W. C. W. Fosbery, and adopted by the Institute for trial. The first year served to establish a small market with prairie institutes; the second year brought a satisfactory increase in customers, and this year has proved highly successful, the Institute having done business in the selling of fruit to the amount of four thousand dollars in cash.

Mrs Kate Bentley has held the important position of manager of the fruit shipping department, and has given a large share of her time free to this work, the correspondence and book-keeping entailed by the largely increased business this year being no mean job. The customer remits cash with his order, and that order is passed on by the manager to some one of the shippers whose name she holds. The business is fairly divided among the members, and not only have the shippers been well satisfied, but letters of appreciation from the customers have been received in many cases. Miss Marion Cartwright has consented to take over the work of manager next year, and it is thought wise to hold the customers already listed rather than reach out for new ones.

Two British soldiers went into a restaurant at Saloniki and asked for Turkey with Gracco. The waiter said: "I'm sorry, gentlemen, but I can't Serbia," whereupon the Tommies cried, "Fetch the Bosphorus." When that gentleman arrived and heard the complaint the manager said: "Well, gentlemen, I don't want to Russia, but you cannot Roumania." And so poor Tommy had to go away Hungary.

Smoke to Foil "U" Boats

One of the several methods used to curb the destruction of vessels by the U boats, now showing results in the reported losses. The British destroyers convoying the merchant vessels send out dense clouds of black smoke.

## Would Write Off Sum For Depreciation Of Plants

Councillor Simpson Says Books Show Inflated Value of Public Utilities.

### Holds Much Real Estate

Council Disposes of a Number of Matters In a Full Day's Session.

The Municipal Council was in session from 9.30 a.m. until after 5.00 p.m. on Monday except for an hour and a half at noon. A short time in the morning was taken by the three members comprising the court to revise the voters' list. Only one name was added and none struck off. The list, as compiled by the clerk, was practically a copy of the names on the assessment roll. Permission was given D. Kerstine by the Council to cut some small dead timber and some fallen trees in the park on condition that he clean up and burn the brush.

The question of maintaining the poles carrying the light wires to the houses on College Hill was referred to the Electric Light Committee. Electrician Thornber had reported that some of these poles which had been put up in a very temporary way by the late L. C. Woodworth, were falling.

A number of meters now on hand were ordered to be returned to the makers for repairs, as they will be needed on the new extensions. The meter in the College Gymnasium is again out of order, and it was decided to ask the interested parties to have it repaired, it being stated that such a guarantee had been given, and that in the meantime a flat rate be charged to cover current consumed.

The electrician, who is not given any special allowance for using his car for line work, was given permission to use current to keep his car motor warm so that it might be ready for immediate use.

Complaint was again made that current being supplied the telephone company for the operation of the central energy plant was being used for other and private purposes. Coun. English suggested that the municipality put in the necessary appliances for charging car batteries at the power house so that the profit might go to the municipality. The idea seemed to be favored by all, and the Electric Light Committee was asked to take the matter up with the electrician. It was also proposed that the municipality go into the wiring of private houses, and that the electrician do no work except for the municipality. Referred to committee.

Further complaint was received of the menace to public safety said to be caused by the dilapidated condition of the old lines of the Okanagan Telephone Company. Mr. C. N. Higgin drew special attention to the unsafe condition of the road between the pound and John Dalos, where wires and poles were obstructing the street. Having for the past two or three years given notice from time to time of the danger from these lines and having had some narrow escapes he now gave formal notice that he will hold the municipality responsible for any injury suffered.

A very full report of the condition of the old Lakeshore Telephone Company's lines, now owned by the Okanagan Telephone Company, was submitted by the constable. Everywhere over the district they are a menace to public safety. In Prairie Valley, Garnett Valley, Peach Valley, east of Giant's Head, near the hospital, along by Wright's, McLachlan's, and Fossbury's, near Huddleston's and Koop's, and on Jones' Flat, poles were found down, wires trailing on the ground, and in places both obstructing traffic.

Con. Johnston reported that a new wagon was needed for D. Dickson, who attends to the municipal water pipes. At present a wagon was being hired, and this was costing too much. Coun. English favored having Mr. Dickson provide his own rig, adjusting his salary to include this. It was pointed out that Mr. Dickson works by the hour. Finally it was decided that the

Public Works Committee should buy a light democrat for the purpose. Mr. Dickson provides the horse, and is given a sum each month to cover cost of feed.

Coun. Johnston asked permission to build a coal shed at the power house. Nine cords of wood put there last winter had nearly all been stolen. He wanted some means of having the fuel put under lock and key. Left with the Public Works Committee.

A report was made by the same councillor that a cord or so of wood had been taken little by little from a municipal wood pile near the head of the Zimmermann gulch. In this case there were witnesses to prove who took the wood, and he asked if anything should be done. After some discussion it was agreed that the matter should be put in the hands of the constable, with instructions to prosecute.

Both Coun. English and Coun. Campbell stated that they had lost wood, and even the municipality is, seemingly, not without blame, for it was stated that a municipal employee had taken some wood from a nearby yard for use at the jail.

In order to assure retention of title the constable will be instructed to open up every road-end and piece of public property now fenced in by private citizens. This is a mere matter of form, and does not imply that further use by private citizens of these road-ends will not be permitted.

Mrs. W. R. McKay asked for a rebate on taxes to cover the cost of building a retaining wall in her cellar, made necessary, it was claimed, by seepage of water to the cellar, believed by the applicant to have come from the irrigation ditch. Regret was expressed by Coun. Johnston that this matter had not been brought earlier to the attention of the board, as now it was impossible to ascertain where the blame, if any, lay. The claim was not allowed.

The by-law empowering the Finance Committee to borrow \$2,500 for public works was finally considered and adopted.

In his introduction of the question of writing off a sum for depreciation of plant, Coun. Simpson opened a question on which there was much discussion as well as much difference of opinion and confessed ignorance by some. The chairman of the Finance Committee did not approve of the policy of the past in that nothing was written off each year for depreciation. It had been stated that depreciation was made good by the amount spent for maintenance. But this expenditure last year was only equal to two per cent. of the valuation of the system, and that was an average year. He would have liked to have a new valuation of the irrigation and domestic water systems and the lighting plant made, but refrained from suggesting this earlier in the year because of the additional expense. It was a difficult matter to ascertain just how much should be written off each year. If all the system were wooden flumes, ten per cent., less the two per cent. spent for maintenance, would not be too much. But with a large part of it permanent ditches and cement work, (Continued on page 4.)

Visitors to Vancouver report that the city is literally filled with visitors from the prairies. Citizens of the prairie provinces have been arriving there by trainloads. While many will return to the grain districts, not a few plan to look about for suitable land on which to settle, at once or later. No doubt the wider distribution and the increasing popularity of B.C. fruit are factors in turning their minds toward the great fruit growing sections of this province with unsurpassed climate.

## SHIPMENTS OF SEASON SHOW HEALTHY INCREASE

Million-and-Half Pounds of Fruit Go From Here By Express.

Peachland and Naramata Also Enjoy Increased Prosperity.

### Naramata 70 Cars - Peachland 90 Cars Summerland 345 Cars

The above are the totals of the shipments of fruit and early vegetables from Summerland, Naramata, and Peachland during the past season according to a reasonably accurate compilation of figures of the shipments made by carload, less than carload, and express throughout the season.

A feature of the season's business has been the heavy increase in express shipments from all three places. A careful estimate of the express shipments from Summerland over the C.P.R. and K.V.R. brings the total close to a million and a half pounds, with about ninety shippers. This represents an increase of approximately forty per cent. over the express shipments of 1916.

Greater increases were shown at both Peachland and Naramata, Peachland's express shipments running about double those of last year, while Naramata's is several times greater. Fourteen cars of fruit were shipped by the Greta Ranch, a member of the Peachland Fruit Growers' Union, the biggest individual shipper, and helped materially to swell the total shipments of the Peachland Union.

For the first time in its history Naramata has been a factor of considerable proportion in the shipments of the district. With her many young apple orchards now coming into a good bearing age, the increase of output from there next and succeeding years will doubtless double up steadily. In fact, ambitious citizens of that, our youngest fruit district, are expecting Naramata to take second place in the list of the three points next season.

During the soft fruit season this year the Summerland Fruit Union was a heavy shipper by express, and the increase made in the total express shipments from here was doubtless largely augmented by the Union business.

The Union and the Stuart Fruit Co. are the two big local shippers of fruit in carload lots. Nearly all of the carload business was done over the C.P.R., though stuff for export or Coast consumption was largely shipped by K.V.R. The Inko route continues to be the best for both freight and express to prairie points.

There was a marked increase this year in the output of apples from Summerland, and this increase is likely to continue from year to year. Little or no increase was shown in soft fruits, this season, due to various causes.

### Late War News.

The following summary of war news was received by wire this morning:

Friday morning, December 14th.—Korniloff reported wounded in encounter with the Bolsheviks. There are conflicting rumors of the outcome of the battle.

Russian peasants may be sent to work in Germany.

The Austro-German advance toward Venice has been checked.

Massed attacks on the British lines at Cambrai have been repulsed.

The big German munitions factory, the headquarters for the manufacture of poison gas and tear shell, has been destroyed by an explosion.

### Another Week of Religious Services

Rev. J. A. and Mrs. Banton will conduct the last of the special services in St. Andrew's Church on Sunday morning. Sunday evening they will begin a week of special services in the Lakeside Church. Music has been a feature of the services, and those who have been privileged to attend eulogize the effective singing of both Mrs. and Mr. Banton. Mrs. Banton is a good deal of an artist, and her voice has remarkable range and power. The gospel hymns are made very expressive by the two, whose voices blend splendidly. There has been a fine feeling of unity among the members of the different congregations, which are uniting in these services. No doubt the attendance throughout all next week will be large. A volunteer choir has been receiving training from Mrs. Banton, and it is hoped all of the members will continue with their assistance next week.

## Tri-Weekly Boat Service To Begin With New Year

Will Still Have Daily Mail Service From C.P.R. and K.V.R. on Alternate Days.

### Is a War Measure

National Service Board Has Ordered Reduction, Says Superintendent F. W. Peters.

Vernon, Dec. 13.—Supt. Peters of the C.P.R., who was in the city on Tuesday, conveyed to the News a piece of intelligence that will prove an unpalatable morsel for our Okanagan readers. He states that after January 1st the daily train service on the S. & O. Railway will be discontinued for the winter months, and only three trains per week will come in from Sicamous, a corresponding reduction in the steamship service on Okanagan lake being made at the same time.

#### IMPERATIVE NECESSITY.

"We are driven by imperative necessity," said Mr. Peters, "to make this reduction. We are at war, and war measures regarding transportation problems have forced the railways to prune down all services in the most severe way. On the main line between Calgary and Vancouver we will cut out Nos. 3 and 4 trains, and run only two trains daily instead of four. The necessity of supply service for moving troops, supplies, munitions, and foodstuffs has compelled the National Service Board, which now controls the railways of the Dominion, to insist upon these reductions, and much as we dislike to curtail the Okanagan service during the winter, we have no alternative

but to meet the situation in this way. Shortage of fuel, especially in view of the probable embargo on the export of American oil, adds to the necessity of exercising the most rigid economy, and the difficulties which the railways are facing grow more serious every day."

#### THE MAIL SERVICE.

We will still get a daily mail in Vernon, though on the alternate days between the S. & O. service it will come up from the south, over the Kettle Valley line to Penticton. Mr. Peters met the Board of Trade at Kelowna on Monday and discussed the matter. Although the news was received with regret, there seemed to be no other course open but to accept the conditions imposed by war-time necessity as philosophically as possible, the hope being expressed that the reduction in service would be only a temporary nature. It must be taken as one of the minor sacrifices which we are called upon to bear in connection with the war.

Although definite arrangements have not yet been made, it is expected that the trains from Sicamous will arrive here on Tuesdays, Thursdays, and Saturdays, returning north on the alternate days.

### Final Meeting of School Board.

Will End Year with Balance to its Credit.

In order to be sure that there would be a quorum to pass the accounts and clean up any remaining business, the School Board met on Wednesday afternoon with three members, Mrs. Andrew, Mrs. Kelley, and Mr. Hilborn present.

Finding that Coun. English could not legally contract to supply the Town School with wood, the chairman reported that he and the secretary had arranged to have T. B. Young, whose tender was at the same price, take over the contract. This was approved.

Miss Annie Blair wrote accepting the appointment to the Trout Creek Point School. The secretary was instructed to arrange with D. Gray for wood to be delivered to the Trout Creek Point School, white poplar and pine, at \$7.50 a full cord.

At a previous meeting the secretary had been instructed to report on the insurance carried on the different buildings. He submitted his report on Wednesday. There is a policy for \$3,500 on the Central, and another for \$1,500 on the High School. It was discovered that policies on the Town and Garnett Valley Schools, which lapsed in 1915, had not been renewed, and there has been no insurance on these buildings since then. Not being used it will not be possible to insure the Prairie Valley building. The secretary was instructed to take out policies with C. P. Nelson for \$550 each on the Town and Garnett Valley buildings, and \$150 on the furniture in each. A policy was taken out some weeks ago on the Trout Creek Point School. Subject to possible reductions the accounts for December were passed as below:

Teachers' salaries	\$780.00
Convoynances	140.25
Secretary	11.00
Caretaking	42.00
Medical Health Officer	18.75
H. W. Harvey, storm windows	86.00
Water rates	0.00
Fuel, Trout Creek Point School	5.00
Total	\$1,101.00

A financial statement was presented by the secretary showing a credit margin of two hundred dollars. Gross expenditures for the

### Hope-Princeton or via Kamloops.

Government Engineer Inspecting Northern Route.

While little has been heard in the past few months of the proposals to secure a trans-provincial highway across British Columbia there is at least one section that is not overlooking any opportunities to bring the highway through its boundaries. Two routes were proposed this summer, one through the Hope mountains from the town of Hope to Princeton, the other along the Fraser River canyon to Kamloops, and thence northward up the Thompson River, and through the Rockies to Edmonton.

Alfred Driscoll, C.E., of Edmonton, Dominion government engineer, was recently assigned the task of inspecting the route between Kamloops and Hope, the efforts of the Kamloops and Edmonton motorists being mainly responsible for his services being secured for this work.

Beginning at Edmonton, Mr. Driscoll made the trip across the mountains and down the Thompson River to Kamloops by pack horse. At present there is some eighty miles of road along the Thompson River from Kamloops north. After completing this work a party inspected the route along the Thompson and Fraser River as far as Hope, while some attention was also given to the Hope-Princeton route, which was surveyed some years ago by a Vancouver firm of engineers.

It is expected that Mr. Driscoll will make his report to the Dominion government, and his opinion regarding the feasibility of the northern route and estimate of the cost of the undertaking is being awaited with interest by the people of Kamloops, who are taking a deep interest in the project.

twelve months totalled	\$13,188.85.
Government grants are:	
On Salaries	\$5,220.00
On Convoynances	937.05
On Garden Account	30.00
Total	\$6,187.05

These grants leave a balance of \$7,000.40 to be provided for out of taxes. The estimate made at the first of the year was \$7,200.

## Naramata News

Current Events of Town and District

The ladies of the community are preparing to hold a white gift Christmas and chicken supper on the evening of Thursday, Dec. 27th. A program, mostly by and for the children, is being prepared.

Three large parcels were sent from here recently to the Salvation Army at Vancouver by the Ladies' Aid of the local church.

Another shipment of hospital supplies was sent off a few days ago by the local branch of the Red Cross.

Mrs E. P. Roe, Mrs Hughes, and Mrs Allen were visitors to Summerland over Wednesday night. They attended the Chautauqua lecture on Wednesday afternoon.

Mrs G. Cook left on Tuesday for a three months visit to Los Angeles.

Good work on putting our roads in better condition is being done by Road Foreman G. Partridge. The grade of some of our hills will be much easier as a result of this work.

A petition has gone forward from here to the government urging that the much needed funds for carrying on the school be provided. Being an unorganized district the collection of the taxes and the financing of the School Board is a duty of the government at Victoria. Because some of the local tax payers are in arrears does not seem sufficient reason for the enforced closing of the school, which must result unless the government proceeds to collect these arrears or advances the money in the meantime.

That Reg. Boothe was badly shot up on the left side from head to foot by shrapnel, when wounded a short time ago, was told his parents in a recent letter. A telegram received this week brings the cheering news that he is now in hospital in Leeds, England, and is doing well.

## Conservation and Utilization of Farm Manure

(Experimental Farms Note).

All investigations go to show that farm manure has its greatest value when fresh, that the liquid portion is richer than the solid material, and that the former is more readily lost through drainage and leaching. Hence it is that every precaution is taken here to ensure a minimum loss of plant food constituents in the manure and is the chief reason for applying manure to the land, where practicable, as quickly as possible after it is produced.

At the Central Farm, Ottawa, the liquid manure is absorbed by means of litter, usually cut straw, and as each load of mixed liquid and solid manure is gathered it is taken directly to the field and is spread on the land either by hand or by means of the manure spreader, as convenient. This method is carried on consistently throughout the year although during occasional winter seasons this system may be disorganized for a time due to the depth of snow or other causes. The contour of the land at this farm, which varies from fairly level to gently rolling, lends itself admirably to the foregoing plan of procedure.

The manure is always applied systematically in definite cropping systems or crop rotations. The amount and frequency of application vary according to the duration of the rotation, but, without exception, in the regular farm rotations, six tons per acre of fresh manure is allotted to each year of the rotation. For instance, in a three-year system, of hoed, grain, and hay crops, eighteen tons is applied for the hoed crop. In four year rotations twenty-four tons is the quantity used. For a five-year rotation the amount is thirty tons, of which fifteen tons is applied for the hoed crops and the balance is spread in lighter dressings for the clover and timothy hay areas.

Where manure is applied for cultivated or hoed crops the importance of incorporating the manure thoroughly with the soil as near to the surface as practicable is closely observed.

Paddy, being examined in a case where the defendant was charged with breaking a plate glass window with a large stone, was asked the size of the stone.  
"Was it big as my fist?" asked the judge.  
"Sure it was bigger," Pat replied.  
"Was it as big as my two fists?"  
"Sure it was much bigger," said Pat.  
"Was it as big as my head?"  
"Sure it was about as long, but not so thick," said Pat, amid loud laughter.

Traveller (in country store)—  
"What have you in the shape of automobile tires?" Clerk—"Fresh doughnuts."

### SOMETHING WRONG.

MRS. A. MILNE

**Peachland Doings**

A Weekly Chronicle Furnished By Our Local Representative.

Miss Olive Gummow returned home from Penticton on Wednesday where she had been visiting for a few days.

Mr J. A. Moore of Great Falls, Montana, came in on Wednesday and spent the day here arranging about his lot.

Mr J. S. Moore returned from Penticton on Wednesday, where he had been visiting for a few days.

After spending the day canvassing the district in the interests of the People's Prohibition movement, Rev. G. W. G. Fortune continued his journey down the Valley on Wednesday night.

Mr Robb of the Peachland Lumber Co. returned from Penticton on Thursday where he had been spending a few days with his family.

Messrs Clayton and Rogers of Penticton came up on Thursday and spent some days hunting in the district, returning home on Saturday night. They were fortunate enough to secure a fine buck.

Mr J. H. Hyde returned from Penticton on Friday, where he had been for several days on business.

Mr H. E. McCall returned from his trip to the prairies on Friday morning.

Mr O'Neil was a passenger to Kelowna on Friday where he has secured work.

Mrs A. and Miss Verna Town were passengers to Kelowna on Friday morning, Miss Verna going over to undergo an operation for appendicitis. Mr A. Town went over on Saturday when the operation was successfully performed. Mr and Mrs Town came home on Saturday night.

Mrs W. Henry went up to Gellatley's on Saturday and spent the day with them, returning at night.

Mr Manning of the Peachland Lumber Co., was a passenger to Vernon on Saturday night, returning home on Tuesday night.

Mr A. N. Pope returned from Vernon on Saturday night, where he had been visiting his daughter, Mrs Hamilton Lang.

Mrs Buchanan was a passenger to Penticton on Saturday night, where she has gone to visit her brother-in-law, Mr J. D. McDonald.

Mr B. A. Moorehouse of Penticton came up on Monday morning

**Back-Yard Poultry That Pay.**

(Experimental Farms Note)

A dozen hens in the back-yard should supply the average family with new laid eggs more cheaply than eggs can be bought during the winter, and as a business proposition such hens pay. Further to demonstrate this, a small experiment was conducted by the Poultry Division of the Experimental Farm, Ottawa. The details are supplied by Mr. George Robertson who kept the flock in his own back-yard.

At this time when increased production is of such vital importance, the urban and suburban keeping of poultry requires particular attention. To demonstrate what might reasonably be expected under ordinary city conditions, a mixed flock of fowl were placed in surroundings such as a majority of city fowl would be subjected to. The birds were not selected with a view to the greatest production

possible, but rather to the securing of such a flock as any amateur might go out and purchase.

The flock consisted of twenty-six birds—four of which were three year old Black Leghorn hens; six White Leghorn pullets; and one Black Minorca pullet hatched in May, and the balance were cross breeds, Black and White Leghorns, hatched in June. They were not put into winter quarters until well on in November, and it was December 7th before the first egg was laid.

**HOW THE FLOCK WAS KEPT.**

An old wood-shed, about eleven by twelve feet, was utilized as a poultry house. In the south side, fifteen inches from the floor a line of windows two feet wide was placed, and above these an opening about eighteen inches wide was made across the entire front. In this a frame covered with light cotton was hinged. This frame was kept hooked up to the ceiling through the day except in the severest weather. Hoppers of oyster shell, beef scrap, and dry mash

were kept constantly before the flock. The dry mash consisted of bran, middlings, and cornmeal, equal parts, one half-part gluten and one half-part blood flour. A deep straw litter was kept on the floor into which all whole grain was scattered.

In the morning, mixed grain, usually cracked corn, wheat and oats, equal parts, was given. At the same time warmed water was given. At noon the water was renewed, and all the kitchen waste such as vegetable parings was fed. Usually at this time a few handfuls of mixed grain were also scattered.

In the winter, as it is always dark before the night feed, which consisted of mixed grain, was given, an electric light was turned on for a couple of hours, and the fowl allowed to scratch to their hearts' content. Water was also supplied at the night feeding. Before turning off the light, the water pan was emptied so as to prevent its freezing solid through the night.

As the flock from the time it was put in the fall until it was disposed of in the summer, never got out

side the house, and as no rooster was kept, there was no annoyance to the neighbors.

The methods followed were such as almost anyone could follow. A very small space for a house and no yard room are required. By buying pullets in the fall and selling them when poultry is high in the early summer, the most will be had out of the flock without interfering in any way with either your own or your neighbor's back-yard garden.

This mixed flock of hens and pullets laid, in the six months, December to May, 149 dozen of eggs, which were sold at 70 cents a dozen in December, January and February, 60 cents in March, 50 cents in April, 40 cents in May, giving a total revenue of \$84.42.

The cost of feed and litter for the same period was \$26.13.

Thus twenty-six hens and pullets turned \$26.13 worth of feed and the table scraps that would otherwise have been wasted from a household of four persons, into \$84.42 worth of eggs or a profit over cost of feed of \$58.29.

to do some surveying for Mr R. E. Law, returning on Tuesday evening.

Mrs Hendrickson, who has been visiting at the Coast for some time, returned home on Monday.

Mr J. Tait, Fruit Pest Inspector, spent Monday in town, returning home on Monday night.

Mrs C. W. Aikins was a passenger to Kelowna on Monday, going up to visit her daughter, Mrs Lupton, and returned home on Tuesday night.

Mr J. Stewart, having finished his work at Kelowna, came down on Monday night, and is visiting at Mr O. Keating's.

Mrs L. D. McCall received the sad news on Monday of the death of her sister-in-law, Mrs J. J. McBurney of Hartney, Man. Many will remember Mrs McBurney, as she spent the winter with Mr and Mrs L. D. McCall about ten years ago. Their friends here extend their sympathy to Mr McBurney and family.

**Peachland Council Meeting.**

The regular council meeting was held in the council chambers on Wednesday afternoon, the 5th inst. It was decided not to advertise for an electrician at present. The Reeve and Couns. Powell and Hogg were named a Court of Revision for revising the Voter's List. Nominations were arranged for the 14th of January, and the clerk was appointed returning officer. It was decided that the Police Commissioners, apart from the Reeve, be nominated and elected in the same way as the councillors.

The Court of Revision sat in the Council Chambers on Monday, 10th inst., and revised the Voter's List, which now stands at 106 names.

**Your Christmas Guests**

—And What Their Presence Means in Your Home.

WHAT a glorious Christmas it would be if you could have Anna Case and Marie Rappold, Thomas Chalmers and Arthur Middleton as your Yuletide guests—to spend the holiday season right in your own home—and sing for you, whenever you wish!

Thanks to the genius of Thomas A. Edison, you can have the enjoyment of their voices, not only for Christmas but for all the days to come.

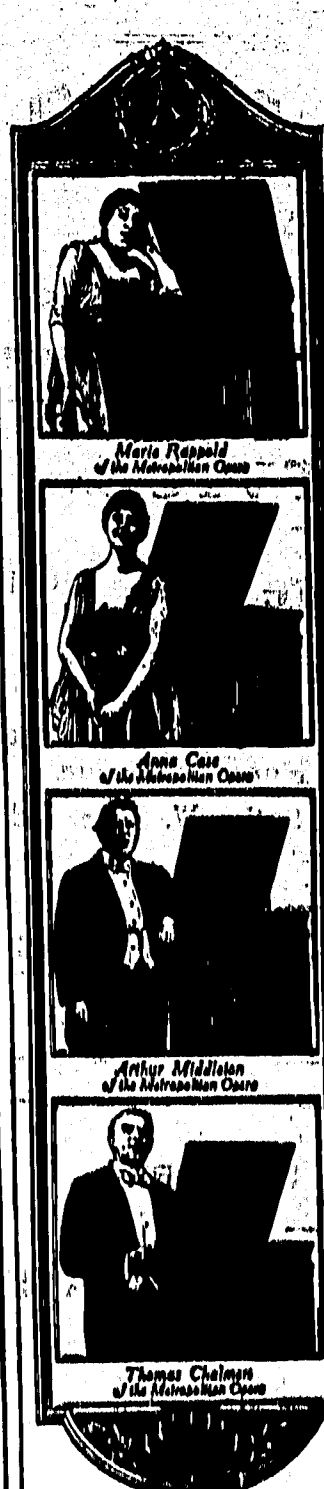

**The NEW EDISON**

"The Phonograph with a Soul" reproduces the human voice with such fidelity and accuracy that no human ear can detect a shade of difference between the living artists and the New Edison Re-Creation of their voices.

Before hundreds of audiences have been conducted the famous "tone test," in which the artist sings alone, then suddenly stops, leaving the New Edison to continue the song. Thirty different artists have made the test before more than a million people. And not one of this vast audience has been able to tell, except by watching the singer's lips, when the voice stopped and the New Edison began.

As a Christmas gift, what could equal this wonderful instrument? It means a richer, fuller life—a permanent pass to theatre and opera house—an introduction to all the music of all the world.

Come to our store, and let us show you how Mr. Edison has succeeded in Re-Creating the human voice and music.

Summerland Supply Co. Ltd., Summerland, B.C.

**REGULAR MEETING  
MUNICIPAL COUNCIL.**  
(Continued from page 1)

a much less yearly, write-off would be sufficient. Considering that nothing had been written off for some years he suggested that the Council consider a ten per cent. reduction in the valuation as now shown on the books. Assuming that five per cent. would cover the actual depreciation, and taking from this the two per cent. spent on maintenance, repairs, ten per cent. would be enough to cover only the shrinkage of the past three years.

Reeve Blair, claiming he was wholly unacquainted with the subject, suggested that the matter be left till a valuation had been made, but this did not satisfy Coun. Simpson, who again urged that ten per cent. be written off to make up

for the failure to provide for depreciation in the past. Last year's statement showed a surplus of \$130,662.79. He did not believe a valuation would show nearly that much. Better begin getting down to the actual value by writing off ten per cent.

Coun. English supported the proposition to write off an amount annually, but thought five per cent. enough to start with. A valuation might be made, and then, if found necessary, a depreciation could be made each year.

Coun. Johnston also thought five per cent. plenty to start with. The clerk was asked his opinion by the reeve. He explained that a number of years ago an amount had been written off but that the next year quite a large sum had been charged to maintenance, and the auditors thought this was sufficient to offset depreciation. Since then maintenance expenditures were tak-

en to make up depreciation. He did not put any value one way or the other in Coun. Simpson's proposal for a reduction in the valuation of the water systems. The amount of surplus shown did not matter as long as there was a surplus. The banks only look at the liquid assets.

Coun. Simpson considered Mr. Logie's a serious statement. According to him it did not matter whether the statement was faked or not as regards the fixed assets as long as a surplus was shown.

The reeve objected to the insinuation that the figures might not be correct, to which Coun. Simpson replied that \$130,000 is not a true estimate of the surplus.

Declaring that something should have been written off the water system each year and not so much off other assets, Coun. English moved that five per cent. be the amount, and his motion was seconded by Coun. Campbell. The latter believed five per cent. was enough for this year. A lot of new plumbing had been put in. Ten per cent. would mean that the life of the plant was only ten years.

Coun. Simpson reminded him that the ten per cent. was to cover several years. Last year two per cent. was spent in repairs. If the life of the plant was 20 years then another three per cent. each year would be enough. On this basis it would require a reduction of eight per cent. to cover the past six years. Ten per cent. is too low.

As he understood it, said the reeve, the figures are put before the auditor and from these he prepares the statement. It is for him to make the allowance for depreciation.

The motion of Couns. English and Campbell for five per cent. was carried.

Another matter which was introduced by the chairman of the Finance Committee, and which consumed much time, and was left uncompleted, was the consideration of the large holdings of real estate as shown by a list which had been prepared at his request. He had made the discovery that while the municipality owned the lot on which the Fruit Union office building stands, another man was collecting the ground rent. Another property he mentioned can be rented, a man having been enquiring for it. The long list was considered carefully, lot by lot, and it was found that a number of saleable parcels and others that could be easily rented are now owned by the municipality. Not a few of them have houses, barns, and such improvements. The list will be further examined at the next meeting, and all these properties will be bequeathed to the new council with a recommendation covering each lot as to what disposal should be made of it, whether sold, leased, or held for municipal use, or simply listed for the time as dead wood.

A suggestion was made that the council bear the expense of getting telegraphic reports of the election returns, which would be at least \$25. The clerk said to do so would be illegal.

Coun. English stated that it had been suggested to him by a lady citizen that a committee be named to meet and welcome all returned soldiers. After consideration it was argued that the council should constitute such committee to welcome all such soldiers whether our own citizens or visitors, and to express to them the appreciation of the community for the service they had rendered.

After passing the following accounts the council adjourned to Saturday morning, Dec. 22nd.

**Canning Chicken  
To Conserve Meat**

This year more poultry than usual is finding its way to market in a thin, unfinished condition. There is very little sale for this grade of chickens, and their presence in so many shipments has a great deal to do with the comparatively low price returned, at times, to producers. Cull chickens, if held, frequently prove more of a liability than an asset to producers. The best place for them is in a can or a jar made ready for table use. Later in the season when good chickens are scarce and high in price, poultry thus prepared may be utilized and served in many appetizing ways.

The following methods of canning poultry are being advocated by government institutions in the United States:

Method 1.—Dress the chicken, separating it into sections or leaving it whole as preferred. Season and fry as for serving. When the meat is three-fourths done, remove from the fire and pack the pieces into a clean, hot glass jar. If the chicken is whole, break the neck and legs, roll the chicken up into a small roll, tie with string, or fasten with toothpicks. A quart jar should hold two or more small chickens. Pour over the chicken the hot liquid from the frying pan, if necessary adding hot water to fill the jar completely. Adjust the rubbers and tops, leaving the latter slightly loose. Place in a water bath canner and sterilize from 90 to 120 minutes, depending upon the size of the chicken. Remove and tighten the covers immediately.

Method 2.—Dress the chicken, and leave whole or cut into pieces as preferred. Cover with boiling water, and simmer until the meat can be separated from the bones. Return the bones to the liquid, and boil it down one-half. Pack the meat closely in hot glass jars, add one level teaspoonful salt to each quart, and fill the jar with the hot liquid. Adjust the rubber and top, leaving the latter slightly loose. Sterilize three to three and a half hours in a waterbath canner. Remove and tighten the tops immediately. The liquid remaining may

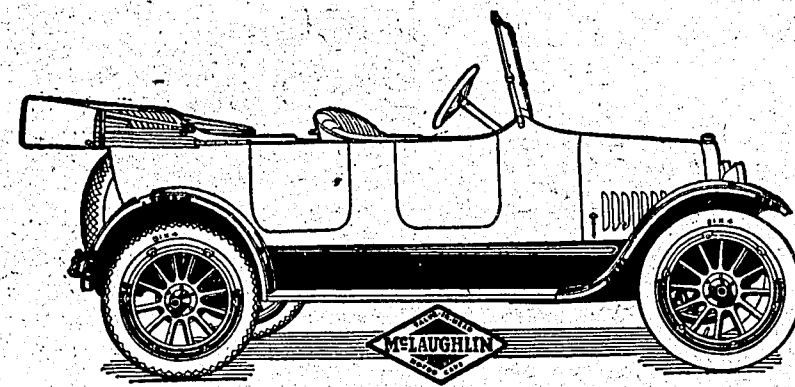

be placed in a jar, sterilized 90 minutes and kept for soup or gravy. Two pounds of dressed fowl should make one pint of solid meat, and a pint of thick stock.

Method 3.—Cut the dressed raw chicken into convenient sections. Pack into glass jars, add one teaspoonful salt to a quart, fill the jar with boiling water, adjust the rubbers and tops as above, and steril-

ize in a waterbath canner three and one-half to four hours.

Method 1 given above is for small, frying-sized chickens. Methods 2 and 3 may be used for chickens of any size.

There is said to be 5,000 boxes of Australian butter in storage in Vancouver.

**SYNOPSIS OF COAL MINING  
REGULATIONS.**

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

O. E. FISHER, Traffic Manager. H. B. YOUNG, Agent, West S'land.

Mrs Shields has returned from a visit to Vernon.

Mr and Mrs G. Marshall and two sons are spending a short vacation at the Coast.

G. L. McWilliams and Muir Stewart exchanged their places of abode on Thursday afternoon.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented in Summerland by Bert Harvey. A

Mr and Mrs G. A. MacLaine got away yesterday for an extended visit to Mr MacLaine's parents in Nova Scotia.

A second daughter, Shirley Dale White, has come to the home of Mr and Mrs Gilbert V. White, Iroquois Falls, Ontario. She was born on Nov. 23rd

A card received by relatives here last night informed them that Pte. W. E. Grieve passed through Sicomous on Thursday morning on his way home from England.

Clarence Elsey has returned from a short visit to Vancouver. He went down with the boys from here who are serving in the 68th Battery and who were home on a short leave.

Sgt. Frank Hayward has returned to Victoria after spending a week here. He was hoping to get his discharge soon, but has been ordered to the Vancouver General Hospital for further treatment.

From the 24th of December until the 3rd of January our warehouse will be closed. Will those of our customers who may be needing feed, etc., procure same during the coming week. The Steuart Fruit Co. 20

Notwithstanding that quite a number of our citizens have gone away for more or less extended visits elsewhere, there are very few vacant houses to be found. New citizens or winter visitors are in temporary possession of most of those that would otherwise be vacant.

Mr J. L. Hilborn and little daughter, Eva, accompanied by Miss Hipsley, left by Thursday night's train to join Mrs Hilborn at the Coast. After two weeks at Vancouver and Victoria they will journey south as far as Los Angeles, Long Beach, California, will be their headquarters until some time in February.

Our readers will be glad to learn that the condition of health of Roy Darkis is showing much improvement. Coming up from Vancouver some days ago for a visit to his home here he contracted a cold and pneumonia developed. Several earlier attacks have doubtless left him the more susceptible to the disease. For several days he was very ill, but is now much improved.

**First Draft To Be Called Up Jan. 3rd**

Ottawa.—The first draft of men under the Military Service Act will be called to the colors on January 3. It was originally hoped, as stated in the proclamation calling upon the first class to register, to put the first draft on active service by December 10. But owing to the fact that a large proportion of the men in the first class postponed reporting for service or claiming exemption until the last days of the period fixed by the proclamation of October 13, for compliance with the law, it has been found that the work of registrars and tribunals has not yet advanced sufficiently to make it practicable to call a draft to the colors on the date indicated.

**WHAT SOME ADS COST.**

Spoking of advertising, here is what some publishers charge for space: Ladies Home Journal, \$8 a line, or \$104 per inch, and \$0,000 for a full page each issue; the back cover sells for \$10,000. A full page advertisement in the Saturday Evening Post sells for \$5,000, and the back cover sells for \$7,000; and the centre page in color is \$12,000. As this advertising space is always filled, it is evident that advertising pays, even at these prices.—Patrolin Advertiser.

Rev. H. A. Solly was a visitor to Vernon this week.

Only one more week of school, and the children are glad.

Rev. A. Henderson is going up to Armstrong on Saturday morning, and will assist Rev. R. W. Lee in his services there on Sunday.

In the list of class leaders published last week the name of Doris Rines was omitted from the Senior Third in Division II. She came third in her class for November.

The Provincial Government has declared a half-holiday for Monday afternoon, election day. As there is no contest in Yale it is not likely that the afternoon will be taken here or at other Valley towns.

J. A. Grant, Provincial Markets Commissioner for the prairie provinces, whose weekly letter from Calgary has been a source of great interest to many of our readers during the shipping season, is visiting the Okanagan this week.

Frank Ageno, the Jap who has been operating the Clingan lot on Jones Flat, is said to have purchased the T. J. Smith lot. It will be recalled that this lot was recently advertised for sale by tender. The price paid is said to be \$2,500.

Pte. James Ritchie arrived in Vancouver some days ago, and, according to a telegram received here, he will be home on the Sunday morning train. His brother, Gordon, has gone down to the Coast to meet him and accompany him home.

Mrs H. H. Elsey has gone down to the Prairies to visit for some weeks. After a week in Calgary she has gone to Duhamel, Alberta, there to remain with her daughter, Mrs Chas. Widen, until after Christmas. Before returning home she will visit friends in Winnipeg.

The Summerland Women's Institute held their meeting on Friday last at the home of Mrs Angove. There was a good attendance. After the business of the Institute had been dealt with, Mrs Solly gave a very interesting talk on "How Christmas is spent in other Lands." Roll Call was answered with Christmas quotations. Then a social time was spent at a Thimble Tea.

**In Winter's Grip.**

No not in Summerland—on the prairies. In fact press dispatches from many parts of the continent tell of the extremely cold weather, temperatures of forty below being reported from some points. Who would not be glad they are in the sunny Okanagan. True a dip of the temperature here to just below the freezing point caught us with a cloudy sky, and a mantle of white now covers the earth, something unlooked for at this season. Still the snow is welcomed by all, especially the fruit grower, whose soil and trees will be the better for the covering of snow. There is no guarantee that it will last.

Potatoes are now moving east from this province. Last week over 200 tons were shipped from Vancouver and other lower mainland points.

A furniture manufacturing plant has been established at Kelowna by a subsidiary company of the company which operates the furniture store there. A very complete line of machinery has been put in after experimenting in a small way. The higher costs of manufacture in the east, the increased freight rates, and the fact that freight on such bulky goods as furniture are always high, has made it possible to manufacture furniture here in the Okanagan at a profit. There are, no doubt, many other lines of manufacturing that might be engaged in here.

A little boy entered a surgery. On his catching sight of the doctor he whispered quietly into his ear: "Please, sir, mother wants to know is monies catching?" "Tell your mother of course they are," replied the doctor. The boy, not being satisfied with this, exclaimed: "Please, sir, mother wants to know what you will give her to spread 'om about the village? My sister's got 'om awful."

**Letters From Our Soldiers  
To the Home Comfort Club.**

**Bedford Tingley Sends  
An Interesting Letter.**

Several more letters bearing grateful acknowledgement of the receipt of parcels from the Home Comfort Club were received recently. Among them were communications from Pte. A. B. Mundie, written from England; Pte W. R. Tweedy, 34th Divisional Train, France; C. A. Steuart, France; S. A. Liddell, in hospital in France; Pte. F. L. Faulkner, France; Pte. G. Dale, France; and Pte. W. E.

Grieve. Another from Bedford A. Tingley, written from Bramshott, England, is reproduced here:

19th Reserve Canadians,  
Bramshott.

Dear Mrs Hogg,

I wish to acknowledge with thanks a parcel from the Home Comfort Club. You must work some to remember the Summerland boys so well, and I'm sure we are all grateful to your club even if our thanks are poorly expressed.

I was particularly pleased to get the gum. Why? It is such good exercise chewing it you know. As our physical instructor would say: "It strengthens the shoulder muscles and improves the carriage."

Our instructor in physical training is a corporal who came over with the 232nd or some other first contingent battalion. He must have been reading the drill book once and read the sentence mentioned, for with every exercise he gives us, whether it exercises the arms, neck, or feet, he always says proudly, "This exercise strengthens the shoulder muscles and improves the carriage." You must know by this time that our carriage is grand—almost as good as a Ford, in fact.

You will pardon me if I make a suggestion, I know. The boys in France are the ones who NEED the parcels, not we in England. Not that we don't appreciate them here,

not at all, but after being under hell-fire for six days and to go back to billets and find a parcel waiting is as near to Heaven as Ireland is. I'm sure we couldn't have taken Vimy Ridge this spring unless the people at home remembered us at times.

Now this was to be a letter of thanks, but I always wander from my subject. I should have been a parson, I guess. Again, many thanks!

Wishing you and the Home Comfort Club the best of luck, I am,  
Gratefully yours,  
BEDFORD A. TINGLEY.

**Valley Indian  
At University**

An Okanagan Indian, H. Harris, who has been taking an agricultural course at the University of British Columbia, has been granted exemption as a farmer. With his father he owns a 500-acre ranch near Armstrong. His only brother has gone to the front. Harris spends from April to October as a farmer, and the balance of the time at the University. He believes that his agricultural training will be beneficial to 200 Indians on the reserve in inducing them to take up better farming methods.

Midway expects to have a creamery next year.

**SLIPPERS**

Each year an ever-increasing number of people find by experience that Slippers are probably the very best Christmas Gift yet devised by the inventive genius of the Philanthropist. Most of our best ideas in this world are remarkable for their simplicity, and when the gift givers have sent their brains soaring for "Bright Ideas" they invariably come back to Mother Earth and pick up the "Simple Idea," and this is where the Slipper idea slips in. Why? They are both intensely Seasonable and Reasonable, and are not subject to caprice of fashion to the extent that other articles of apparel are; further, for those who have many gifts to give they offer a range of prices that cannot be excelled by any other article which could be called reasonable at its best price. I have WOMEN'S BEDROOM SLIPPERS from 90 cents to \$3.00, and WOMEN'S FANCY EVENING OR DANCING SLIPPERS from \$2.25 to \$5.00. Further, they are easy to fit and easy to change if, by any misfortune, they do not fit, and in these times of war, when economy is the watchword and extravagance a crime, USEFUL GIFTS ARE TO BE THE FASHION OF THE DAY. Send something that the recipient would have to buy in any case, something that cannot be wasted. Among other

**CHRISTMAS GIFTS**

that I have in my Stock are GLOVES and MITTS in various grades, both for hard-working wear and for dress purposes; WOMEN'S and CHILDREN'S SPATS, WARM FELT FOOTWEAR in various Styles. Leather-Covered and Plain, GUM RUBBERS for the boys, and OVERSHOES for the girls, solid comfort for their feet in this severe weather we are experiencing; TRUNKS, SUIT CASES, BASKETS, and other Travelling Equipment; LEATHER COLLAR BOXES and HANDKERCHIEF BOXES, POCKET BOOKS, PURSES, Etc.

## Game Would Not Have Protection.

Board of Trade Strongly Disapproves Combination of Duties.

### Rule of the Road Again Discussed.

Enquire of Lands Here. Committee Appointed to Arrange Annual Dinner.

Several matters of considerable importance to the community and of general interest to the citizens were dealt with on Tuesday evening at an interesting meeting of the Board of Trade held at Hotel Summerland. There was a fairly representative attendance.

A petition praying the government not to carry out its intention of combining the duties of the game wardens with those of the provincial police is being circulated, and this was taken up and discussed by the board.

The statement was made that the game department had been self-sustaining, there being shown a profit from the collection of license fees and it now looked as though the government wished to load the game department with the cost of the police. That inefficiency must result was declared by another, as the duties of a policeman keep him in the towns and inhabited sections, while, if a game warden is to be of value, he must be in the hills and forests and quite beyond being of any service as a policeman. The board was unanimous in opposing the combination of the two, and the secretary was instructed to officially sign the petition.

The Lands Settlements Board is seeking information re lands available for settlement, and the Okanagan member of the board has asked the Board of Trade if there are any suitable blocks of land to be had here. After some discussion Messrs Cooper, Lipsett, Gartrell, English and Ritchie were appointed a committee to prepare a list of lands in and adjoining the municipality that might be acceptable for purchase by the Land Settlements Board, such list to include the holdings of the municipality which have been acquired at tax sales.

On motion it was decided to ask the assessor for a census of the live stock of the community, more especially dairy animals. This action is in line with the suggestion made some months ago that Summerland lay plans for the establishment of a creamery here at the earliest possible date. Messrs Lipsett, Hayes, and Mellor were named a committee to investigate further the possibilities of such industry here.

With the amount of work that has been done on the Lakeshore Drive between Summerland and Peachland it is not now probable that the reopening of the bench road will be considered. At the request of the Board of Trade the government engineer inspected both roads, and, while he did not report to the board, his report having of necessity to go direct to his department, it is understood that he favors further improving the lower road, and has stated that when completed it will be the more satisfactory route.

A communication from the Kelowna Board of Trade on the need of better accommodation for the transfer of motor cars between Princeton and Hope, asked for the cooperation of Summerland in obtaining better service. The letter complained of poor loading and unloading facilities; that a flat car instead of a closed car was used, and this permitted pilfering. The charge is \$15. The experience of several members of the board was given. In addition to risk of losing articles or parts on route, greater danger was said to exist from the exposure of the car to burning cinders from the locomotive. After shipping a car, it was further stated, a man must sometimes wait for several days at Hope or Princeton for its arrival. Regular and quick service, better protection of automobiles on route, and some improvement in loading accommodations will be asked for.

During the discussion it was suggested that the motorists endeavor to become independent as quickly

(Continued on page 2.)

## Will Exempt Farmers From Military Service.

Important Ruling by Supreme Court Judge.

An important, and final, decision has been rendered by Mr Justice Duff with regard to the exemption from military service of persons who are engaged in agriculture. The matter came before him on the appeal of an Ontario farmer who asked that his son be exempted because he was necessary for the proper working of the applicant's farm.

Mr Justice Duff found that the Military Service Act did not deal specifically with the matter of the exemption of persons engaged in agriculture or any other industry. But, at the same time, he laid down the propositions that there should be no diminution in agricultural production, and that the supply of competent labor for this purpose is deficient. For these reasons the young man in question was granted an exemption as long as he remained employed in agricultural labor. Official announcement of the ruling is given on page three.

The supreme necessity, declared the judge, that leads the state to take men by compulsion and put them in the fighting line, requires that men shall be kept at home who are engaged in work essential to enable the state to maintain the full efficiency of the combatant forces, and whose places cannot be taken by others not in the class called out.

With this precedent established, the farmers of the country have assurance that any valid grievance caused by the local tribunals will be remedied on appeal. In its practical application, it should also mean that a relatively small number will be taken from rural sections where voluntary enlistments have been numerous.

## Lost Right Arm.

In the conflict on the western front, Reginald Verrier, one of Summerland's citizens, who early heard the call to the defence of the Empire, has suffered the loss of his right arm. We are informed that it was when he was on the way back to the rest station that he was struck by a stray shell. He was reported wounded in the issue of the Review of Nov. 30. A letter written by him with his left hand has just been received by his sister, Miss Verrier, Upper Trout Creek. Until enlisting, Pte. Verrier was an employee of the municipality, being one of the irrigation staff.

## Class A Men Sufficient.

Col. J. Moss, chairman of the Military Service Council, in a statement issued the past week, said: "The total number of men who have reported for service or claimed exemption up to Dec. 1, is 403,505; of these 241,565 have been medically examined, of those medically examined, 117,873 are categorically A men, and 123,692 in lower classes. This leaves 161,930 at that rate still to be examined, and if the same ratio of category A men to others is maintained, which might be reasonably expected, it will give an additional 72,582 in category A, or 106,435 men in all. The tribunals may exempt 50 per cent, and still have the 100,000. In view of the figures, the Military Service Council has not considered the idea of calling out the married men, as it is evident Class A of the first class will furnish the required quota."

Beginning on Monday, January 1st, the "Scamou" will leave Penticton three days a week at 8.15 a.m. This will permit of connection with the boat by the K.V.R. morning train from Vancouver.

An investigation is being conducted under the direction of the Food Controller into the poultry situation. A study is being made of such questions as the cost of producing eggs and poultry and of the cost of feeding.

## Canada's War Cabinet Premier

R. Borden

## Returned to Ottawa with an All-English Speaking Ministry.

### THE UNION CABINET B.C. MEMBERS-ELECT

Sir Robert Borden, Prime Minister.

Hon. Martin Burrell, Secretary of State.

General Mewburn, Minister of Militia.

Sir Thomas White, Minister of Finance.

Hon. C. C. Ballantyne, Minister of Marine and Fisheries.

Hon. C. J. Doherty, Minister of Justice.

Hon. F. B. Carvell, Minister of Public Works.

Hon. A. L. Sifton, Minister of Customs.

Sir Edward Kemp, Minister of Overseas Military Forces.

Sir George Foster, Minister of Trade and Commerce.

Hon. Arthur Meighen, Minister of the Interior.

Hon. T. A. Crerar, Minister of Agriculture.

Hon. T. W. Crothers, Minister of Labor.

F. B. McCurdy, Parliamentary Under-Secretary to the Department of Militia.

Hon. Hugh Guthrie, Solicitor-General.

Hon. J. A. Calder, Minister of Colonization.

Hon. N. W. Rowell, President of the Privy Council.

Hon. P. E. Blondin, Postmaster-General, and Hon. Albert Savigny, Minister of Inland Revenue, the two French-speaking ministers of the new Cabinet, were defeated at the polls.

Unless other French-Canadians are appointed to the positions thus made vacant, Canada will have an entirely English-speaking Cabinet for the first time in her history.

France paid over £1,000,000 a day for her war with Germany in 1870, or £316,000,000 in all. The American War of Independence cost Britain \$121,000,000, or roughly, \$1,600,000 a week. The Russo-Turkish war bill showed a total of \$200,000,000; the Napoleonic wars squandered in all over \$1,000,000,000; and the American Civil War cost \$7,100,000,000, in addition to 800,000 lives. The present war will exceed the cost of all others put together.

From the Kamloops district 80 Indians have joined the colors and are now on active service. They are scattered throughout different battalions, and only one has, so far, been killed in action.

## Latest Summary of Election Results:

Province	Government	Opposition	Deferred	In Doubt
Ontario	71	11	—	—
Quebec	3	62	—	—
Nova Scotia	5	0	2	—
New Brunswick	7	4	—	—
Manitoba	13	1	1	—

British Columbia	12	1	—	—
Saskatchewan	16	—	—	—
Alberta	11	—	—	1
Yukon	—	—	1	—
Totals	188	92	4	1

## Arrested Here While Attempting To Avoid Police.

Robbed Benefactor at Penticton. Trapped in Freight-car.

Early on Monday morning, just as the westbound freight was about to pull out from the K.V.R. station here, two young men, Harry Williams and Dewey Vaughan, who are citizens of the United States, were arrested on a charge entered against them at Penticton, and were later sentenced to a term of imprisonment at Kamloops with hard labor.

The two, with one Kelly, a one-armed teamster, who had befriended them by providing them with food and paying their way from Enderby to Penticton, put up at a rooming house, Kelly standing the cost. Early on Monday morning Kelly was disturbed by the closing of his door, and soon discovered that his new found companions had departed, taking with them his pants and the \$60 which was in the pockets. The night constable was notified, and later a message sent to the constable here asking that he be at the station to arrest them should they attempt to pass through here. He arrived on the scene too late, however, to be of service, as Constable Thomas had come up on the freight and effected the arrest of both the young hussies. They had been hanging around the station for some time, having walked that far on the way to the Coast, and when the train stopped slipped into an empty box car, both side doors of which were open. They were seen, however, and quickly captured, a brakeman closing the door on one side as the constable entered the other and found them hiding in a corner of the car.

## How Pte. W. Grieve Won His Medal.

Pte. W. E. Grieve, whose arrival in B.C. was noted in our last issue, may not be home for some days. He had been successful in securing only four days leave of absence, and believing that his mother was in Vancouver, arranged to spend the time there. As he has already arranged to spend Christmas in Kamloops, which town we understand contains special attractions for him, it will be a few weeks before he is permitted to visit Summerland.

Pte. Grieve enlisted in the 72nd Battalion, and spent four months in France before receiving his wounds, and has since been in hospital in England.

Of his winning the Military Medal for conspicuous bravery in the field a Coast daily says:

"On June 26 he was detailed to act as stretcher-bearer, and it was for his bravery and devotion to duty during the trying days between the 26th and 28th that he received his decoration. Under terrific fire he, following up the main body in 'No Man's Land,' dressed the wounds of those who fell, and marked the craters in which he placed his patients, later guiding parties to them and helping in their rescue. In the official statement of his action, the officer commanding comments on his marked bravery, adding, that but for his gallant action many lives would have been lost."

## Still Plowing.

In anticipation of the continued shortage of labor, and in order to be as far advanced as possible before the spring rush begins, there has been more plowing done this fall than for a long time. Between the demand for teams for this work and the fact that practically every household is without a surplus of fuel, livestock and private citizens with teams are kept busy. During the few days when there was a covering of snow on the roads a raid was made on the wood, but every available horse is again at the plowing. With continued mild weather the farmwork should be in good shape when the seeding season comes.

There are 137 languages spoken in Russia, and it appears to be the ambition of the people to have a republic for each language.

## Better Protection For Creek Fish.

Government Enquires Re. Strict Enforcement of Act.

### Screens Required at Ditch Heads.

Board of Trade Asks That Trout Creek Be Stocked With Brook Trout.

Are the fish of our rivers and creeks to be conserved or are they to be permitted to disappear through their migratory habits and the destructiveness of irrigation systems which tap the streams? This is a question which has been put to the people of the Valley by the Federal Government. While there is now on the statute books of the country a law forbidding the diversion of water from streams without providing screens for the protection of the fish, this law has never been enforced in this Valley.

It is stated that thousands and thousands of trout now find their way into the irrigation ditches and flumes and are poured out upon the land with the irrigation water. It is the desire of the government to prevent this waste, but at the same time they do not wish to put the irrigationists to undue expense. The question has been therefore put up to the people in this way: Shall we enforce this law and compel municipalities, companies, or other water distributors to put in screens at the intakes or shall the destruction of the fish be allowed to continue?

Fisheries Inspector Gartrell put the matter before the Board of Trade at its meeting on Tuesday and there got a unanimous request for the conservation of the trout.

Rev. H. A. Solly considered it most extraordinary that the government should ask such a question. If the law was a good one it should be enforced.

There was a time when there were plenty of fish in our creeks, commented Coun. English, but not so now.

The screens must be of 3 inch mesh, stated Inspector Gartrell, and in addition to the cost of installation will incur expense in keeping them cleaned unless revolving screens are used. He believed he could devise suitable revolving screens that would require little attention. It was pointed out by H. C. Mellor that the entrance of fish into water pipes now causes some expense which would be saved by the screens.

From long experience in the diversion of water C. H. Tate advised that a second and larger screen be used if a fixed screen of 3 inch mesh was put in. By putting a very coarse screen in front of the fine one there would be less trouble than now. A resolution proposed by Messrs Solly and Lipsett to the effect that the law be enforced and that a copy of the resolution be given the inspector was carried unanimously.

Another important resolution petitioning the government to stock Trout Creek with eastern brook trout was also endorsed by all. It is understood that this request will have the approval and support of Inspector Gartrell, who states that Trout Creek is ideal for that variety of fish.

## Lost Entire Crew, But Gained Objective.

To have lost his entire crew of machine gun men and himself escaped with but a scratch on the knee was the remarkable experience of a young soldier from Peachland, Gordon McDougald. McDougald, who took a course in machine gun work, was afterwards promoted to Lance-Corporal, and has been in charge of a gun crew in Belgium.

During one of the recent engagements in Flanders Leo-Cpl. McDougald was pushing forward with his crew, and in the struggle lost every one of his men. Receiving only a scratch on the knee, the young leader went back and got a crew of bombers and riflemen, and with their aid took his gun through.

### FRENCH QUEBEC AMAZES FRANCE.

The following article is translated from Le Matin, one of the most important dailies published in Paris:

"We owe the truth to our friends. It is difficult further to conceal from the French-Canadians the profound disappointment which their attitude with regard to the war has created in France.

"Everyone knows Canada's admirable effort. A country peopled by those who left Europe to escape from the deplorable scourges which have fallen, from time to time, on this unfortunate continent. War is declared. A war which for them must necessarily be far away and in which they could scarcely be greatly interested without an effort of the imagination. Quickly they come of their own accord, enlisting voluntarily by the hundreds of thousands, paying all the expenses of the expedition, engaging in the making of munitions, and giving their lives freely. Recently they have done still more. On August 4, the Senate at Ottawa voted on a bill passed by the Commons for compulsory service. On returning from England at the beginning of the summer, Sir Robert Borden, Premier of the Dominion, demonstrated to his countrymen, that this law was indispensable in order that Canada should continue to play her part in the war. The Canadian Parliament has already responded to his appeal.

"Unhappily this effort is entirely due to the patriotism of the English-speaking Canadians. The French-Canadians have not only participated very little, but they have done and continue to do all in their power to arrest the movement.

"The total Dominion population is seven millions, of which two millions are French-Canadians, and in spite of this the number of volunteers which they have furnished to the army is such a mockery, that out of consideration to them it were better to withhold the figures. The excuse given until recently was that by temperament they could not be expected to sympathize with the Anglo-Saxon system of voluntary enlistment. Compulsory service has, however, provoked amongst them, especially in the Province of Quebec, an opposition still more violent. As soon as the Liberals of the west united with the Conservatives to support this new measure of national defence, Quebec got solidly behind Sir Wilfrid Laurier, in order to frustrate the issue. And Sir Wilfrid Laurier refused the patriotic offer which Sir Robert Borden made to him to unite in a coalition government. Compulsory service has been demanded almost entirely by the English-speaking Canadians.

"The Catholic clergy are divided, it is said, over the question of the war. Nevertheless, by the admission of the most eminent French-Canadians, such as Senator Lavergne, it is confirmed that the majority of bishops and priests have adopted an attitude clearly anti-patriotic.

"Canadian Nationalist leaders, such as M. M. Bourassa and Lavergne, said, it appears, at the time of the South African war, if France had been on the side of Britain that the French-Canadians should have gone voluntarily to fight. At the beginning of the present war many were the English-speaking Canadians who believed that at this time Canada was to realize unanimity. But events have shown that the demonstration of love lavished on France by the men of Quebec and Montreal were in character entirely platonic. The tie of old memories has been as powerless as loyalty towards Britain when it is a question, for the Canadians of French descent, to conquer their provincial egoism, and to-day we verify this paradoxical fact that the only place in North America where the cause of France is not embraced with ardour is in the province where our language is spoken."

§ § § § §

ALL HONOR TO THE MEN AND WOMEN of Canada, schooled in the ways of partyism, who have had the courage to forsake the great party chieftain, who through his long life has had the admiration and respect of all Canadians, and, with many strong Liberals who have been looked upon as among our best citizens, have cast their votes for the defeat of their former leader, realizing that to do otherwise would have postponed that day when victory shall have been won and the much-desired era of peace ushered in.

§ § § § §

"IN QUEBEC Canada has a relatively greater problem than Britain has in Ireland. Like Ireland there are in Quebec those who would establish a separate state astride the approach to our front door, but, worse than with Ireland, the aim of the leaders of the ignorant French of Quebec, that province where the large family is bonused and where the population is rapidly increasing, is to so conserve their numbers

and to further increase and spread until they dominate all Canada. There the priesthood has the recognized right to tell a man how he shall vote, and it is these who forbid that the door be opened to the light by the learning to converse with their neighbors in or even read the English language. Freedom of thought and action are almost as unknown in rural Quebec to-day as two hundred years ago. Only by being kept in ignorance can the populace be manipulated by those in control.

Long removed from any connection with France, that country is as foreign to the French-Canadian as is Italy, but they dearly love their native Quebec and Canada as they know it. Of the larger world issues they know nothing. They see no good reason why their sons should be taken away to die on the battlefields of Europe. To educate and enlighten the people of Quebec is Canada's problem. Until they are educated along modern lines and into the light of true citizenship the habitant of Québec, and the borders of the neighboring provinces in which they have overflowed, will remain a dangerous and powerful weapon in the hands of selfish partisans.

§ § § § §

WHAT POSSIBILITIES! It is claimed that in the new Union Government we have the best statesmen of both parties co-operating for the success of our arms and the betterment of Canada. What an opportunity such a union affords to banish for ever party graft, that bane to the moral health of our public life! What possibilities for making real national progress the vote of the united English-speaking citizens of Canada everywhere have put into the hands of our administrators!

Canadian Highlanders on their Way to the Front.

### BOARD OF TRADE MEETING.

(Continued from p. 1)

as possible by maintaining pressure for the completion of the Hope-Princeton link in the trans-provincial road. Chairman Andrew, commenting on this, stated that the difficulties in the way were deterring tourists from the Coast visiting the Valley. As an indication of the possibilities of the tourist traffic, Dr Andrew stated further that during the past season 19,000 cars have gone over the Blewitt Pass between Seattle and Wenatchee.

The need for several additional street lights was again emphasized, and the secretary was instructed to bring this need to the attention of the municipal authorities.

The pressing need for a change in the law respecting the rule of the road in this province was recalled by Rev. H. A. Solly. He told of accidents resulting from this rule that had in addition to causing destruction of property and much suffering, had resulted in loss of life. The constant danger to travellers on both sides of the international line was also given as sufficient reason why our rules should comply with those of the rest of the continent.

Dr Andrew reported upon action taken on this question at the last Good Roads Convention. Data of accidents was being gathered, and will be used to support the demand for the change in the law. He had particulars of a number of accidents, all of them serious.

The suggestion that the idea of an annual dinner, which was inaugurated last year, be carried out, met with general approval, and a committee, comprised of Messrs Tait, Lees, Andrew, and Zimmerman, appointed to bring off the event on January 22nd. It is proposed to get some good speakers.

### FOOD CONTROLLER HAMPERED.

IT IS AN UNDOUBTED FACT that an attempt so extensively organized and so deliberately carried out as to make its origin easily attributable to enemy agents has been made in Canada to discredit the Food Controller and to checkmate his efforts along the line of conservation. Stories without even a vestige of foundation have been scattered broadcast. Nor have they come to life casually. They have started simultaneously in different parts of the country, and in each instance have been calculated to arouse public indignation. These untruths, intangible quantities though they be, have the power of destruction that lies in a battalion of soldiers. They are insidious, subtle, persistent. Bit by bit they dissipate public trust, the great essential in the work of food control. They hamper the work of the Food Controller. It lies with every individual to forbear from criticism; to refrain from passing on the vagrant and harmful story; and thus the more effectively co-operate in work which is going to mean more than the majority of people yet realize.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr G. Keyes and Mr J. Brown were passengers to Penticton on Wednesday night. Mr Keyes returned on Friday morning.

Miss Kate Miller, who has been nursing in the McLeod Hospital, came in on Wednesday night to spend the Christmas holidays with her parents here.

Mr Groves, District Water Engineer, spent a couple of days in town this week in connection with the irrigation.

The regular monthly meeting of the Women's Institute was held on Friday afternoon in the school-room of the Baptist Church. Mrs W. Douglas, president, was in the chair. After the reading of the minutes of the last meeting the secretary, Mrs J. B. Robinson, read the resolutions passed by the various conferences, all of which were adopted with the exception of the one which dealt with the length of the High School course. It was decided to recommend that the High School course be completed in three years as at present. The roll call was answered by "An Unselfish Thought for Christmas." Refreshments were served at the close of the meeting, and the prize money was awarded to the winners at the Flower Show.

Miss Robinson, who has been visiting her brother, Mr J. B. Robinson, returned to her home in Vernon on Friday morning.

Miss Dynes of Summerland came up on Saturday morning and spent the day visiting at Mr and Mrs J. Gummow's.

Mrs A. Town went to Kelowna on Saturday to visit Miss Verna, who is getting on as well as can be expected.

Mrs H. Williams and Masters Eddie and Lloyd were passengers on Tuesday morning's boat on their way to Mrs Williams' old home near Toronto, where they intend visiting Mrs Williams' parents for a couple of months. Mr Williams and Robert expect to follow in a short time.

Mr J. Stewart was a passenger out on Tuesday morning, going to his old home in Manitoba, where he expects to spend the winter.

Mr A. H. Cutbill has received word that his brother is a prisoner of war in Germany. Many will remember Mr Cutbill, who was here during the summer of 1916 convalescing after a severe attack of the fever which he contracted while serving in India. After leaving here Mr Cutbill joined the Flying Corps in England, and during the time he was learning his business he was employed in delivering flying machines from England to France—taking over one machine and then returning by boat for another. At the time of his capture he was acting in a bombing squadron, and during a heavy fog was taken a prisoner by the Germans.

Mr A. N. Pope was a passenger out on Tuesday night, going as far as Summerland, where he intends visiting his daughter, Mrs Helmer, for a few days, and then going on to the Coast to spend the holidays with his son, Mr Charles Pope.

Mrs R. A. F. Moore, who has been visiting her parents, Mr and Mrs J. Gummow, went out on Tuesday night to her home near Spokane, Washington.

We learn that there is to be another vacancy in our staff of school teachers, Miss Montgomery having resigned the principalship of the Public School. This will make three vacancies on the staff.

The regular meeting of the Ambulance League was held on Tuesday afternoon in the reading room. The next meeting will be held a week from New Year's Day.

A large family party was held at the home of Mr L. D. McCall on Tuesday to celebrate his birthday. It was a lovely day, more like the spring than midwinter, and they all had a most enjoyable time.

#### SHE HAD THE WILL.

Mrs Jinks—"My husband was a confirmed smoker when I married him, but to-day he never smokes."  
Mrs Blinks—"Good! To break off a lifetime habit like that requires a strong will."  
Mrs Jinks—"Well, that's what I've got."

### Corpl. Clouston Was Instantly Killed.

Particulars as Furnished Parents by his Lieutenant.

France, 20th Nov, 1917.  
Dear Mr Clouston,  
No doubt you have received the official notification of the death of your son 227,640 Cpl. A. H. Clouston.

I have obtained all the information I can from three of the boys of his platoon, who saw him killed. They are 646,116 Pte. H. Crump, 646,000 Pte. W. H. Purchase, and Pte. Holmyard, all of No. 2 Coy.

Cpl. Clouston was instantly killed by fragments of a shell, on the morning of Nov. 10th near the support trench during the operations near Paschendaele.

He was buried in the trench by Pte. Purchase.

Your son has been an N.C.O. in my platoon for some months, and I have always had the greatest confidence in him. His cheerfulness and devotion to duty at all times won for him the respect of all his officers and men.

At the time of his death Cpl. Clouston was acting as Platoon Sergeant. His first thoughts were for the comfort and safety of his men, and it was in the carrying out of this that he met his death. The shelling had been very severe in his sector of trench, and he had been going along the top to find out if anyone had been wounded. He was just stooping to jump into the trench when he was hit, and he died within a few seconds.

The officers and men of the company desire to express their sympathy to you and yours, in this your great loss, and we feel that we have lost a true friend and an excellent soldier, who has cheerfully laid down his life for a cause that is just.

Allow me to express my personal sympathy.

Very sincerely,  
MORRIS H. A. DRURY,  
Lieut.

### Early Pullets vs. Old Hens For Eggs

(Experimental Farms Note).

For profitable early winter egg production the early-hatched pullet is three times better than the late pullet, four times better than the yearling hen, and thirty times better than the "aged" hen.

Early pullets are best for winter eggs. This has been demonstrated many times. The Poultry Division, Experimental Farm, has collected figures for several years, and when the three months (November, December, January) only are taken into consideration the relative profitableness of the four ages is as noted above. If the six winter months were considered the contrast would not be so striking, for the hens and the late pullets were just beginning to lay when the experiment closed. However, if eggs alone are to be considered we cannot afford to feed birds until towards spring before they produce. Even if desired for breeding, it is a question if, with the high price of feed, we had not better rely upon the well-matured pullet for hatching eggs next spring rather than feed hens that will not produce or only at a loss. Certainly there is no excuse whatever for keeping in our poultry houses late pullets

whose eggs cost more than they are worth and birds that are absolutely useless as breeders.

This summary is of results that extend over four years, and are taken from several of the farms of the system so that the figures will indicate fairly well what may be expected for these three months.

These figures show that early pullets (hatched before May 1st) produced eggs at a cost for feed of 18.3 cents. The late pullets (hatched after May 15th) at a cost of 56 cents. The year old hens at a cost of 78.2 cents, and for every dozen eggs laid by the hens in the aged class the cost of feed was \$5.73.

Again these facts should be emphasized (1) that for PROFITABLE EGG PRODUCTION birds should LAY BEFORE FEBRUARY. (2) Early well-matured pullets are the only birds that may be expected to do this. (3) Late pullets as a rule will not pay to keep. (4) For eggs, hens are not profitable. (5) If we have a good flock of early pullets, for the time being depend upon them for breeding. (6) It is a national loss to keep birds that eat a dollar's worth of feed to produce fifty cents worth of eggs.

### Final Appeal Judge Gives Ruling on Exemption of Farmers

Mr. Justice Duff (the Final Court of Appeal) Declares it is Essential that there shall be No Diminution in Agricultural Production.

(Published by authority of Director of Public Information, Ottawa.)

Hon. Mr. Justice Duff gave judgment on December 6th, in the first test case brought before him, as Central Appeal Judge (the final court of appeal), for the exemption of a farmer. The appeal was made by W. H. Rowntree in respect of his son, W. J. Rowntree, from the decision of Local Tribunal, Ontario, No. 421, which refused a claim for exemption. The son was stated to be an experienced farm hand, who had been working on the farm continuously for the past seven years, and ever since leaving school. He lives and works with his father, who owns a farm of 150 acres near Weston, Ontario. With the exception of a younger brother, he is the only male help of the father on the farm. The father is a man of advanced years.

In granting the man exemption "until he ceases to be employed in agricultural labor," Mr. Justice Duff said:

"The Military Service Act does not deal with the subject of the exemption of persons engaged in the agricultural industry; and the question which it is my duty to decide is whether the applicant being and having been, as above mentioned, habitually and effectively engaged in agriculture and in labor essential to the carrying on of agricultural production, ought to be exempted under the provisions of the Military Service Act.

"These two propositions are indisputable:

"(1) In order that the military power of the allies may be adequately sustained, it is essential that in this country and under the present conditions, there should be no diminution in agricultural production.

"(2) The supply of competent labor available for the purpose of agricultural production is not abundant, but actually is deficient.

"The proper conclusion appears to be that the applicant, a competent person, who had been habitually and effectively engaged in labor essential to such production, ought not to be withdrawn from it.

"It is perhaps unnecessary to say that such exemptions are not granted as concessions on account of personal hardship, still less as a favor to a class. The sole ground of them is that the national interest is the better served by keeping these men at home. The supreme necessity (upon the existence of which, as its preamble shows, this policy of the Military Service Act is founded) that leads the State to take men by compulsion and put them in the fighting line requires that men shall be kept at home who are engaged in work essential to enable the State to maintain the full efficiency of the combatant forces, and whose places cannot be taken by others not within the class called out."

Ottawa, Dec. 8, 1917.

**Orchards Damaged.**

Chilliwack.—Many thousands of dollars worth of damage was done in the Chilliwack Valley as a result of a storm which visited the Lower Mainland. For two days the city and valley were without light or power service, and the telephone system of the Chilliwack Telephone Company was practically out of commission.

The most serious loss was suffered by the fruit growers, many reporting a third of their orchards ruined.

In many cases there is nothing but the short trunks of the trees left.

Some of the orchards look like some of the scenes pictured from France after a German retreat.

This loss is most serious, as years will be required to replace the trees destroyed.

**THE PRUSSIAN SAVAGES**

Goethe said: "The Prussian is born cruel, and civilization will make him a savage." Civilization cannot be charged with the responsibility of making the Prussian a savage, as he never acquired civilization. What he has acquired is control over all other German peoples, whom he seems to have successfully made over after his own image.—New York Herald.

**A WISE HEN.**

The Editor of the Similkameen Star recently indulged in the following bit of pleasantry: "A hen in Princeton persists in laying in the coal yard. It is presumed she has been reading that notice: 'Now is the time to lay in your coal.'"

**One Person Out Of Every Ten In Canada Bought Victory Bonds**

The latest returns in the Victory Loan campaign show a total of 782,714 subscribers, or one subscriber for every ten people in Canada. This establishes a new record with respect to the proportion of the population of a country subscribing to its War Loans. The previous record was held in Great Britain, where one person out of every twenty-three subscribed to the last War Loan. In the Liberty Loan campaign in United States, bonds were sold to one person out of every twenty-seven of the population.

In many cities, towns, and districts in Canada, the proportion of the population buying Victory Bonds was even higher than one in ten. In a number of cases it was as high as one in four.

The achievement in connection with Canada's Victory Loan, while primarily due to the splendid spirit of patriotism that pervades the country, is another evidence of what may be accomplished through press advertising, backed by an adequate selling organization.

Prior to the Victory Loan campaign there were comparatively few bond buyers in Canada. The third Canadian War Loan of last spring, which was the most widely distributed bond issue in Canada up to that time, had only 41,000 subscribers. The Finance Minister deemed it essential that many times that number should subscribe to the Victory Loan. He assigned to the press the task of educating with respect to the Loan the great masses of the people who were not bond buyers, and in most cases had only a very vague idea of the meaning of the term "bond" as applied to securities.

For several weeks before the sale of Victory Bonds commenced Canada's need for money to carry on the war and to maintain her agricultural and industrial prosperity was presented to the people of Canada in display advertisements in the press. Emphasis was placed in those advertisements on the privilege and duty of every Canadian to assist in the war's financing of his or her country, and upon the fact that if Canada's financial needs were to be met the great masses of the people would have to buy Victory Bonds. The meaning of a "bond" and the security behind Canada's Victory Bonds were explained in simple, everyday language. Similar educational work was done voluntarily by almost all newspapers and other publications through their news and editorial columns.

By November 12th, when the sale of Victory Bonds commenced, the people had been educated very largely to the need for the money, the security behind the Loan, and the reasons why every person who could possibly do so should buy one or more Bonds. The preparatory educational work in the press was followed up by a most efficient Dominion-wide organization of personal workers. Concurrently with that personal solicitation there appeared in the press a series of "selling" advertisements emphasizing the immediate privilege and duty of every Canadian to buy Victory Bonds, and many editorials and news articles along the same line were published in every newspaper.

The press publicity created an atmosphere and a knowledge of the situation that in addition to securing large numbers of subscribers without personal solicitation made it possible for the personal workers to do their work quickly and effectively and with infinitely greater results than could have been obtained without the educational, inspirational, and selling advertisements in the press.

At the conclusion of the campaign Sir Thomas White, in a telegram to J. H. Woods, President of Canadian Press Association, Inc., expressed his sincere thanks for the fine spirit and splendid energy shown by the press, and his opinion that the press had every reason to congratulate itself upon the character and effectiveness of the advertising propaganda.

Twelve or fifteen men are employed at the colliery at Conlont taking out coal and getting the mine in shape for large operations again. Some coal will be shipped to Vancouver this week. Those mines are controlled by a syndicate of Vancouver men, including Blake Wilson, R. S. Lennie and others.

**One on the C.P.R. Irish Barber Defends The Title To His Sign.**

The following amusing letter is copied from the South Shore Breeze, a little publication issued by the Board of Trade of the municipalities opposite Montreal. The editor says he is assured that the letter is genuine, and that it passed recently through the office of one of the officials of the C.P.R. It runs as follows:

Dear Sir:

In accordance with our policy, our solicitor was instructed to notify certain parties who were conducting different lines of business using the letters "C.P.R." such as the "C.P.R. Hotel," C.P.R. Restaurant, Barber Shop, etc., that the use of the sign was illegal and they should be prosecuted.

One party received this notice who had a barber shop bearing the sign C.P.R. Barber Shop—Cut Rates." Our solicitor has sent his reply, which reads as follows:

Dear Sir:

I got yure nottis. I don't want no law soot with yure big company, or i don't want to paint a new sign on my shop. Times is bad and i have a large wife and fambly to sport. I no yure company owns most everythink—railroads, steamers, most of the best land and the time, but i don't know as you own the hole alfabet. The letters on my shop dunt stand for yure railroad, but for somethink better. I left a mutter in ould Ireland. She is dedd and gown, but her memries dere to me. Her maiden name was Christina Patricia Reardon, and what i want to no is what you are going to do about it. I suppose that you wont argu that the balans of my sine what refers to cut rate has got anythink to do with yure railroad. The aint been no cut rates around these parts that I nos of.

(Signed) Timothy O'Brien.

There is an element of reason in Tim's argument and defence I find difficult to combat, and if the trial were before a jury I am rather inclined to think we would get the worst of it, and Timothy would continue to do business at the old

**SYNOPSIS OF COAL MINING REGULATIONS.**

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Passing Events: Social, Personal, &c.

C. H. Cordy was a visitor to Vernon early this week.

Roy Darkis is about again, and is looking quite fit after his recent trying illness.

Pte. John Taylor came in from the Coast to remain with his family until after Christmas.

The treasurer of the Okanagan Ambulance League acknowledges with thanks \$15 from the Mineola branch of the league.

To-day the schools close for the usual two weeks' Christmas holidays. Several of the divisions will observe the closing of the term by holding special exercises, to which the public are invited.

Misses Ethel and Opal Thomson, former citizens of Summerland, but now of Kelowna, have been visiting at the home of their uncle, Mr W. Watson, the latter for two weeks and the former for a week.

While it seems certain that Summerland will not have the full short courses in agriculture as were given here last winter, there is a possibility that there may be two days of special lectures during the winter.

The West Summerland Dance Club met on Wednesday evening in the Campbell Hall, over thirty members being present. There was dancing for both beginners and the more experienced, and a good time was had by all.

The At Home announced in this issue to be held in Campbell's Hall to-morrow has now become an annual event, and they have proved very popular, especially with the little ones. To-morrow's event is sure to be equally well attended and enjoyable.

A card received by Mrs Otley on Wednesday relieved her of considerable anxiety. Her brother, who is on one of the boats plying between Halifax and Europe, was known to have been ashore at Halifax about the time of the terrible disaster which befel that city.

The rumor that 80,000 sacks of mail had been destroyed in the Halifax disaster is officially declared to be false. The announcement will be welcome news to the people of the Okanagan as elsewhere throughout Canada. Had there been such a loss, it would have meant that many a soldier would have been without his Christmas letter from home and his package of Christmas gifts sent by thoughtful friends and relatives.

Price List of Grain & Feed

December 6th, 1917

Table with columns for item name, weight, and price. Includes FLOUR, BRAN, SHORTS, WHEAT, MIDDINGS, WHOLE OATS, FLATTENED OATS, OAT GROATS, GREEN BONE, OYSTER SHELL, FLAX MEAL, HAY, FARINA, ROLLED OATS.

We handle Prntt's Chicken Remedies.

Summerland Fruit Union.

Gordon W. Whyte of Peachland, a cavalryman is officially reported wounded.

Mrs. J. Downton returned on Tuesday evening from a short visit to relatives in Kelowna.

A mare belonging to T. B. Young broke its leg on Tuesday night by kicking. It was shot the next morning.

Hon. Wm. Hespeler has come to Summerland to spend the holiday season at the home of his son. He was met at Sicamous by the latter last week-end.

Harry Chepmell, who went east some months ago, entered the Forestry Battalion at St Catherines, Ont. It is now learned that he is not likely to be permitted to go overseas because of his age.

Mrs A. Rutherford and two children boarded the boat this morning en route to Brandon. They will be away for about three months, most of which time will be spent at the home of Mrs Rutherford's parents near that city.

From a card received from Harry Everett, hearing the season's greetings, which we gladly acknowledge with our best wishes for his early return to our midst, we learn that he is still in England; his address being the sergeant's mess, Seaford, Sussex.

Because of the very busy season which always precedes Christmas, the special services announced to be held in the Lakeside church were postponed until after the holidays. On Sunday morning next, Rev. and Mrs Banton will assist in the singing at St Andrew's Church, and in the evening the visitors will conduct the service in the Lakeside Church.

The merchants and business men of Pentiction are fully alive to the value of publicity. Always carrying a healthy volume of advertising the Herald of last week comprised eighteen pages, of which less than a total of four was reading matter. Further use is made of printers' ink by flooding this and other communities with copies of the advertisements with which they are building up local business, and incidentally their home town through the medium of their home paper.

There was a good attendance at the West Summerland Women's Institute meeting on Friday last. It was decided not to hold any money over during war times. After paying all expenses the funds will be divided between the Red Cross, Military Y.M.C.A., Prisoners-of-War, and Halifax Relief Funds. Mr Pollock demonstrated the making of Scotch scones and puff pastry, and, with a cup of tea, these were enjoyed by all. It was also decided to reduce the membership fee from one dollar to fifty cents. Cont.

Mr H. B. Young left early this week for a visit to Spokane and the Kootenay.

Mr and Mrs G. Marshall and sons returned early this week from a week's visit to Vancouver.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented in Summerland by Bert Harvey. A

We are informed that J. D. Wood, who went down to the Coast to spend some weeks, is now with a shipbuilding company there.

Rev. W. H. Bates will go up to Kelowna on Saturday morning and on Sunday will conduct the Christmas service in Benvoulin Church of which Rev. D. Lister was pastor.

For several days K.V.R. trains have been routed via Spence's Bridge. A slide in Coquihalla Pass has made it necessary to divert the trains until the track is again clear. Before that a big slide at Ruby Creek on the C.P.R. beyond Hope, interrupted the schedule.

By a special order-in-council the season in which the use of gill nets and drag seines may be used in Okanagan Lake has been extended to January 1st. The use of these is forbidden between the first of the year and August 15th.

After waiting for many weeks, and at times almost despairing of success, Mrs Herbert Sharp, who, with her little ones, has been visiting at the home of her brother-in-law, S. F. Sharp, Trout Creek Point, started on the long journey back to England this week.

The following articles composed the 58th Bale sent from Summerland to the Red Cross Headquarters at Vancouver: 62 prs. socks; 3 prs. pyjamas; 5 stretcher caps; 10 trench caps; 2 day shirts; 2 draw sheets; 12 slings; 5 bundles old linen; 36 handkerchiefs; 24 table napkins; 5 pillow cases; 22 bags for dressings; 1 bundle old kid gloves; 131 T. bandages; 4 kit bags; 15 laundry bags; 37 hot water bottle covers, 2 operation stockings; 43 scultetus bandages; 4 prs. ward slippers.

Attention is called to the advertisement of the Sauder Co., Vernon, suggesting a means for converting waste into cash for patriotic work. It is Mr Sauder's intention to centralize the collecting of old papers, rags, iron junk, and in fact any kind of junk. Past efforts of patriotic societies to collect old papers, rags, etc., have resulted in a loss to everybody but the Coast dealers and the railway company. It is Mr Sauder's intention to make Vernon the central collecting point, he, in turn, shipping by the carload. Thus he expects to make it worth while for any patriotic society or organization to make the collection in the several towns of the Valley. -Advt.

There will be a meeting of the Municipal Council to-morrow, Saturday, morning.

Mr J. M. Sutherland is expected home from Winnipeg in time to spend Christmas with his family.

DON'T FORGET slippers, gloves, mitts, spats, purses, etc., for Christmas presents. A. J. Beer. 21

Mr and Mrs R. Mitchell are leaving on Saturday morning to spend Christmas with Mr Mitchell's brother at Armstrong.

Mrs Moyle of Jersey City, a sister of Mrs Wheeler and Mrs Pardee, Mineola, has arrived from the East to make her home with her sisters.

We are informed that there will be curtailed telephone service on Christmas Day. Connection will be given between 9 and 11 a.m., and 2 and 4 p.m.

Pte. James Ritchie reached home the first of the week, coming in from Vancouver, where he arrived a few days before with others returned home from Europe.

There is still enough snow left in Meadow Valley to make good sleighing, and the Lumber Company is taking every advantage of the snow to get logs drawn in. The mill is busy every day.

A row between two natives of Southern Europe last Saturday night required the interference of the police. One had been treated to prohibited simulant, so it is said, and provoked the other until a fight resulted.

Rev. Walter Daniels, missionary evangelist for B.C. for the Baptist denomination, is expected to arrive in Summerland the end of the month, to remain for two weeks. A series of special meetings under his leadership will begin on Sunday, Dec. 30th.

Among the published lists of wounded appeared recently the name of Pte. G. L. Callan. Though a former resident of Summerland his nearest of kin are in Scotland, which was the address given with his name. Pte. Callan has a sister, Mrs T. Ramsay, living here. His brother, who enlisted from here, was killed about a year ago.

Yesterday is dead, forget it. Tomorrow does not exist, don't worry. To-day is here, use it. -Von Bocklin.

**Naramata News**

Current Events of Town and District

Mrs E. H. Hancock and daughter leave for Vancouver to-night to spend the holidays. During their absence, Percy, the young son and brother, will be the guest of Mrs Rayner.

The "White Gift" entertainment to be given by the Naramata Sunday School is being looked forward to with much anticipation. Beginning with a supper, which will be free to all the children of the community, after which will be a concert and the presentation of the gifts, the affair will be one of the chief social events of the winter.

Stanley and Harold Stiff, two of Naramata's young citizens, have gone to Trail, there to join their father, who is engaged with the smelter company.

Word has been received in Naramata of the death of Mr Richardson at one time principal of the local school. Shortly after leaving here he enlisted for overseas service, and is one more of the many stalwart Canadians who have given their lives for the cause of justice and freedom. His widow and young son are with friends in Vancouver.

In the absence of Rev. W. P. Ewing, who was unable to be present because of the condition of the roads, Mr W. R. Bartlett took charge of the regular Sunday service.

Mr and Mrs. Dobie, who left last week to visit in the east with relatives and friends, will return to the province after the holidays and will likely spend most of the winter at the Coast.

Mrs T. I. Williams was the guest of Mrs T. H. Boothe, Penticton, over the week-end.

For the school closing to-day, Miss Smith, the teacher, has prepared an interesting program which will doubtless be much enjoyed by both parents and pupils.

Harold Allen was the guest of T. H. Boothe last week-end.

Those of our citizens who were privileged to attend the Chautauqua entertainments are loud in their praise of the high quality of the program.

Capt. and Mrs Languedoc are leaving by boat to-morrow for a visit to California.

Mike in bed, to alarm clock as it goes off—"I fooled yez that time, I was not asleep at all."—Judge.

## Council Heads List With \$300 for Halifax Relief Fund

### Real Estate Holdings a Knotty Problem Yet Unsolved Last Regular Meeting.

#### Upkeep of Pole Lines Placed on the Electrician.

The last regular meeting of the Municipal Council for the present year was held on Saturday last when the accounts for December were passed and other matters dealt with.

Among the correspondence read was a request from Mr. J. W. Mulhern, General Superintendent of the K.V.R. asking that the charge for water at the tank beside the local station be reconsidered, as the company considered it too high for the amount of water taken. At the time the agreement was made the charge did not seem excessive, stated Supt. Mulhern. Less water was being used than had been contemplated, and he asked that the by-law be amended and again voted on by the ratepayers.

At a considerable cost the municipality had made provision for supplying the water according to contract, and none of the councillors felt that the matter of the monthly charge for the service was one that should be referred to the ratepayers. Having provided the necessary piping to deliver the volume of water asked for, Coun. English said the municipality should be careful about reducing the charge.

While it may be that less water is just now being used than we are required to deliver according to contract, Coun. Campbell said the consumption might be increased at any time, and if the rate were reduced now it would have to be raised again.

Coun. Simpson said that perhaps it might be that the railway was using less water now, but he knew that in the summer there had been complaints from ranchers that the drawing of water at the station was interfering with the irrigation. The municipality had been put to considerable expense at times because of the contract with the railway. After all the service was a cheap one for the K.V.R. If the company had to put in and maintain any kind of a system for themselves it would cost them more than they are now paying the municipality. We are giving a dependable service, and stand ready to supply the contract amount.

Coun. Campbell pointed out further that the system must be maintained at the same cost whether the full amount of water is taken or not.

The clerk was instructed to convey to the railway company the views of the council.

#### \$300 FOR HALIFAX RELIEF FUND.

Rev. H. A. Solly and Mr. C. N. Higgin waited on the council and asked that the municipality consider contributing to the relief of the sufferers in the Halifax disaster. Mr. Higgin said that nearly every city and municipality throughout the Dominion had done something. He realized that the Council was experiencing a money shortage, but this was a national disaster, and though large sums had been contributed, much more was needed to provide for the orphans and other sufferers. He favored the municipality contributing a sum of money rather than making a public appeal. Mr. Solly also favored the idea of the council voting a few hundred dollars rather than public subscriptions.

The Reeve replied that this matter had come before the council at the previous meeting, and he had been quite disappointed when he understood that the council could not legally make such a contribution. He now learned that he had been mistaken in this. He would be glad to have the municipality do what it could, and thought the ratepayers would wish Summerland to assist.

Coun. Simpson said he had been severely abused because the council had not taken action, and when he enquired what was expected of the council was told that they should organize a canvass such as

had been made for Victory Bonds. Nothing was expected from the municipal treasury. However, he favored making a grant as large as reasonably possible, and inviting citizens so disposed to add to that sum.

After some general discussion, during which it was suggested that the municipal contribution be \$500, it was finally disposed of by a motion by Coun. Simpson and English that the council open a subscription list, heading it with a grant of \$300.00, and that copies be placed with the Bank of Montreal, at the Review Office, and a third in the municipal office, and that citizens be invited to subscribe.

#### ROAD ENDS AND PIG PENS.

Constable Craig submitted a detailed report on road ends and road allowances now fenced off for private use. On some of these buildings have been erected, while pieces of road are included in orchard or meadow lots. Several roads in the Prairie Valley district were mentioned as being fenced off, while one of the main roads there runs for some distance on private property. The object of the report is to get a list of all such temporary possession of private citizens, so that ownership may be fixed, and thus prevent possibility of the property being claimed by right of possession.

Complainant had been made to the constable of the foul smell from pig pens down town, and he had investigated these. In one pen close to the street he found two pigs. The pen was fairly clean, but there was a pile of manure beside it. Another little further back contained six pigs. Sometimes this was clean and at other times it was not. This was about 150 or 160 feet from Shaughnessy Avenue. Two other pigs were kept in a building formerly used as a stable. Once he had found the pen dirty, but before that it was very clean. He realized that he must treat all alike, and asked the council to act. He knew that as sanitary inspector he could order that no pigs be kept within 500 feet of street or dwelling house. It was his opinion that all pigs kept in the places mentioned should be slaughtered. The constable then retired to attend to a call about stray horses. Later the matter was again referred to, when the Reeve declared that leniency should be shown to those who were raising pigs. It was further stated that during the winter little annoyance is likely to be caused by the pens mentioned as having given offence to those who travel along Shaughnessy Avenue.

#### RESPONSIBILITY DEFINITELY FIXED.

A verbal report was made by Municipal Electrician Thornber of the falling of a number of poles. He asked for definite authority to reset or replace poles from time to time as it became necessary. On a previous occasion he had been put off when he knew the work should be done. He now asked the council for a ruling on this, as to whether he should do needed work or first get permission from committee or council.

Reeve Blair replied that he thought the electrician already had such authority, and that it was his own fault if he had not taken it.

Coun. Simpson answered this by stating that he had discovered that the electrician had not as free a hand as he had thought he had. The council had been condemning him unjustly.

Declaring that Mr. Thornber could not do his duty if he has his hands tied, as the discussion had shown, Coun. English proposed a motion to the effect that Mr. Thornber be given full power to make the necessary repairs to keep the lines in

## New Schedule Goes Into Effect After Next Week

### North Trip of Boat 3 Hours Later.

The winter time table of the C.P.R. lake service and railway Okanagan Landing - Sicamous Junction, effective after Sunday, January 6th, gives only three round trips a week for the boat. The northward trips will be made on Monday, Wednesday and Friday, and the southward trips from the Landing on Tuesday, Thursday, and Saturday. The train service between the main line and the lake will also be on alternate days to connect with the boat. Only the time of departure and arrival at the junction and the head and foot of the lake are yet available. These show quite a departure from the former schedule as regards the day's ranging up the lake. The steamer will not leave Penticton until three hours later than at present. This will give the Coast train passengers opportunity to connect with the boat. Leaving Penticton at 8:40 a.m. it will be close to 10 o'clock before the "Sicamous" will leave Summerland. More particulars as to the time of departure and arrival at the lake points will be given later. Official announcement is made in the regular C.P.R. advertising space.

good condition. This was carried out unannounced.

Another motion was made by Coun. English that equipment to cost about \$100 be added to the present plant so that storage batteries might be charged and the municipal revenue thus increased. This expenditure was authorized.

Mrs. E. M. Ross asked that the ditch crossing her Peach Valley lot be cement lined. Referred to committee.

J. S. Campbell, now in Scotland, urged that new fluming be put to the right to cut and sell the fee on the reservoir was granted to R. Mitchell, who has been handling it for several years. He is not permitted to charge more than \$1.15 a ton delivered on the bank of the reservoir, and must pay the municipality thirty cents a ton for all ice sold.

Having learned that a soldier is interested in the title of the Houghton lot in Victoria Gardens the council passed a resolution to redeem the lot, it having been sold at tax sale.

An invalid soldier, who is in the Valley for his health and is selling small articles from house to house, will not be required to pay the usual pedlar's license of \$50, the council concluding to let him do business under the local dealer's license of \$2.50.

Complaint was made of the danger to riders caused by fallen wires and especially by barbed wire fences which are down in many places and are giving much trouble to those who have to do with the herding of loose animals. The constable is to order all lot owners who have fallen wire fences either to repair or remove them.

An enquiry from a former citizen, much of whose property has been sold for taxes, and is now held by the municipality, asking if he might have the lands returned to him next year upon his paying arrears and interest revived that question of tax sale properties which has so often been discussed, but on which no fixed policy has been made. Until some definite policy is laid down it seems quite impossible to answer this or similar enquiries satisfactorily. It was suggested that in this particular instance other parties might have more at stake in the properties than the original owner. To give him a deed would be to give him a clear title to the lots and nullify any security formerly covered by mortgage.

Arguments were offered in support of the proposition that all tax sale properties be sold to the highest bidder. It was pointed out that if the council buys in land at tax sale, holds it for several years, and then hands it back at any time at the request of the former owner, then the tax sale is of no value, and owners are only making a convenience of the municipality. It was also declared that some of these people are allowing the council to

## United Farmers of Trout Creek Hear Talk on Pests.

### Inspector Tait's Suggestions Good.

On Friday, December 21st, the United Farmers of Trout Creek held their last 1917 meeting in the schoolhouse. There was a very creditable attendance in spite of the inclement weather. After the routine business was disposed of the nomination of School Trustee for Ward IV came up for discussion. It was decided to leave the matter pro tem in the hands of a committee appointed by the meeting.

The balance of a successful and enthusiastic session was spent in hearing and questioning Fruit Pests Inspector Tait, who had very kindly come down to discuss the subject of "The Control of Fruit Pests from the Inspector's Viewpoint." Mr. Tait prefaced his remarks with some very good suggestions relative to the development of the social side of the U.F.C. organization, of which suggestions some, if not all, will, no doubt, be carried out. Entering upon his subject for the evening, Mr. Tait dealt particularly with woolly aphis and codling moth, giving much valuable information regarding the life history of these dread pests, and many good hints for their control and extermination. Other pests as green apple, rosy apple, and lesser apple worm were mentioned and suggestions given for handling these less feared, though as regards Summerland as yet more destructive, enemies to the fruit grower. The two hours came as an end much too soon, and Mr. Tait felt that in the small portion of the evening allotted him he had been unable to do more than touch upon the border of his subject. In responding to a vote of thanks, he assured the meeting he would be very glad to come and continue his talk and discussion on some future occasion, saying that he considered it both a duty and a pleasure combined to help the farmers in any way he could. The meeting then adjourned to reassemble on January 8th, 1918, the date set apart for the annual meeting of the Trout Creek local.

hold title to their lands while they are spending their money freely for other purposes than keeping their taxes paid. At the expiration of one year after purchase these lands are decided by the collector to the purchaser, whether it be the municipality or private citizen, and the lands are said to be free of all former incumbrances. It is felt that unfair advantage is being taken of the council because of the impression that former owners may purchase lands at any time. A request for such title from the former holder of the land brings with it questions of equity, and some of the councillors would avoid all risk of entanglement by reselling the properties on the open market, leaving it to the interested parties to make their own arrangement as to purchase and adjustment of equities. This matter will be further considered at a later meeting, and possibly some definite policy will be fixed upon.

The accounts presented by the Finance Committee were approved for payment:

W. R. Shields	\$14.25

## Councillor Simpson Announces Decision to Drop Council Work.

### Others of Board Express Preference for Private Life.

#### The School Board.

#### Three Vacancies to be Filled. Ladies Continue.

But little has yet been heard of any interest being taken in the coming annual elections for Council or School Board. One or two new citizens have been mentioned in general conversations as possible candidates for municipal honors should this one or that one decide not to act for another year.

But, apparently, the citizens generally are quite satisfied with the conduct of public business during the year now ending, and are quite willing that the honors of re-election should go to the same citizens.

There are evidences of less willingness among the members of the Council for a continuance as at present than exists outside, and some expressions have been heard of dissatisfaction among the councillors of present arrangements for carrying on the business of the municipality. While all the members take considerable interest in the work, all look upon the position as being unpleasant at times, and a duty to be performed rather than a position to be eagerly sought.

With perhaps one exception, it is not likely that any of the present council will refuse to serve longer if convinced that they are needed. Reeve Blair, who has served in that capacity for three years, informs the Review that it is his personal inclination to retire and give his time to private affairs, and if he considered only his personal interests he would do so. However, if he is persuaded that he is needed he will not refuse to serve another year. He realizes there are not many who can give the time, and who are as conveniently near the municipal office.

Another who has served long and faithfully is Coun. Johnston, who has been Chairman of the Public Works Committee for three years, and latterly has acted largely in the capacity of superintendent of public works. Some of his supporters in Ward IV. are disposed to reward his long service by nominating him for the reeveship, but, unless he has changed his mind recently, the Review is doubtful if he would accept nomination. Coun. Johnston is now in Manitoba, but enquiry among some of his Trout Creek friends confirms this view.

Coun. Campbell, as a member of the Public Works Committee, has also manifested much interest in the varied duties of that committee, but he, too, would gladly be excused from further service, and if the voters of his ward can get another to represent them at the council meetings he would willingly withdraw. Otherwise he will not refuse to give another year to the work.

While not wishing to shirk what might appear to be a duty, Coun. English is another member of the Council who has expressed himself as one who would be glad to be relieved of the duties of office. He will, however, not refuse to act if nominated for another year.

Coun. Simpson, Chairman of the Finance Committee, was also seen by the Review, and at the time would give no definite answer. He stated that he had the matter of his seat on the board under consideration, and would let the press have his decision within a day or two. Yesterday Coun. Simpson called at the Review Office and announced his decision to withdraw, saying:

"While I greatly appreciate the confidence placed in me by the electors of Ward III, during the past four years, I think I should now retire and give place to one of the many more worthy to represent them at the Council Board.

I feel that I have not accomplished all that may have been expected of me, and my personal affairs might well receive more of my time and attention.

I sincerely wish to retire this year, and hope that in so doing I may not appear to shirk a duty."

There are three vacancies on the Board of School Trustees to be filled. The term of office for the two lady Trustees extends to the end of 1918, but that of the two men on the Board ends with 1917. Chairman Sawyer resigned some months ago.

We understand that Trustee Hilborn, who is just now away on vacation, will accept renomination. There appears to be some doubt about Trustee Sharp, and the United Farmers of Trout Creek have already been considering nominating his successor. Supt. Helmer of the Experimental Station was approached, and while expressing willingness to serve, informed the committee that he did not have the necessary property qualifications. Should Mr. Sharp's reply to the United Farmers confirm the opinion that he will not accept nomination, there will be two new Trustees required to complete the Board. There is not likely to be a rush of candidates for the honors, in fact nothing can be learned of any aspirants nor even of anyone being suggested to assist in the direction of our educational institutions.

#### OBITUARY

##### GERTRUDE ANDERSON

Suddenly, on the evening of December 24th, Gertrude Anderson, the beloved wife of George Anderson, died at her home here.

A gloom spread over the whole community, when, on Christmas morning, it became known that Mrs. Anderson had passed away the night before. Death came with such suddenness as to cause a shock to all. While she had not been in robust health, Mrs. Anderson, seemingly, had well recovered her usual strength after her severe illness of last spring. She had been about as usual during the day and was making preparations for Christmas Day. Her husband had been out of the house but a short time when his brother entered, and was shocked to find Mrs. Anderson in a chair in the kitchen in a death-like condition. Medical aid was quickly summoned, but without avail, for the end came shortly after ten o'clock.

As Miss Gertrude Harding, the deceased, came to the Okanagan from Bedfordshire, England, about ten years ago. It was about nine years ago that she became the wife of our fellow citizen, Mr. George Anderson, and has, with the exception of nearly a year's absence in England, resided in Summerland up to the day of her untimely death.

After a brief funeral service at the house, led by Rev. H. A. Solly, the remains were laid away in the Peach Orchard cemetery.

Of a particularly bright and happy disposition, Mrs. Anderson possessed a beautifully refined character, and was greatly loved and respected by those whose good fortune it was to know her best. Though of a retiring nature she took an active part in the life of the community, and did good service for years in connection with the Women's Institute.

The deepest sympathy of the community goes out to the grief-stricken husband in this his time of great bereavement.

Success is merely a matter of doing the right thing at the right time.

In order to build up the salmon run in the Fraser River and Puget Sound, arrangements have been completed whereby the United States Fisheries Bureau will ship ten million sockeye salmon from the Afognak, Alaska, hatchery to hatcheries on the Fraser River.

## Testimonial and Purse.

### Christmas Surprise For Former Mail Courier.

The Christmas mail brought no greater surprise to anybody than it did to Mr L. G. Blair when he opened a registered package and found therein Christmas greetings signed by eighty former patrons and accompanied by a very substantial sum of money. The greetings were in the form of a testimonial of the appreciation of the good services Mr Blair had rendered the patrons of the rural route mail service, and is as follows:

Summerland,  
December 25, 1917.

To Mr L. G. Blair,  
Summerland,

We, whose names you see below, patrons of Summerland Rural Route No. 1, which opened with you as its first courier, wish to put on record our sincere appreciation of the great service rendered by yourself while filling that position.

Whether on the hottest day in summer or the coldest day in winter, through rain or snow, we found you and our mail at our box always at the appointed hour, accompanied by a cheerful "good morning" to any of us who were out to meet you.

We have felt, however, for some time that we would like to show our appreciation in a little stronger form than words, and therefore ask you to accept the enclosed as a proof of this feeling, and along with it the very best wishes from all of us to yourself and family for a Merry Christmas, and a Happy and Prosperous New Year.

Naturally Mr Blair feels quite delighted that his efforts to serve were so well received, but he says that he had only done his duty in accordance with the terms of his contract, and that any such evidences of appreciation were wholly unexpected. He had found the patrons always kind, courteous, and considerate, and whom it was a

## High School Examinations.

The results of the High School examinations held just before the end of the term are given here:

### MATRICULATION.

(Possible marks, 900)  
Fraser Lister, 565; Jean Ritchie, 521; Kathleen Brown, 473.

### JUNIOR ADVANCED.

(Possible marks, 1,000)  
Hazel Steuart, 759; Marjorie Hatfield, 698; Lily Simpson, 697; Lucy Hargreaves, 666; Joe Gayton, 621; Blanchard Munn, 610; Olive Bristow, 597; Ida Shields, 588; Rex Barnes, 547; Alex. Smith, 524; Melvin Monro, 511.

### JUNIOR PRELIMINARY.

(Possible marks, 900)  
Alva Garnett, 690; Hugh McIntyre, 671; Louis Smith, 658; Thelma Hobbs, 648; Jean Caldwell, 600; Norah Bates, 590; Edgar Hobbs, 588; Russell Munn, 533.

The following failed in one subject: James Marshall, 554; Robert Hatfield, 519; Cecil Ritchie, 502.

### Closing Exercises at Trout Creek School.

School closing for the Christmas holidays was celebrated on Friday afternoon under the direction of the teacher, Miss Stella Dynes. The schoolroom was decorated with flags and bunting; beautiful designs ornamented the blackboard, on which the program was printed. Parents and friends were present in large numbers, and games and songs were enjoyed. Santa Claus appeared and distributed the presents and candy from the Christmas tree; refreshments were served. After all had enjoyed a social half hour, Mr Helmer, on behalf of the trustees and friends, called the meeting to order, and in a few well-chosen remarks on the efficiency, thoroughness, and splendid discipline exhibited, presented the teacher with a beautiful ebony manicure set. Miss Dynes has resigned her position at the Trout Creek School, and is going to Victoria after the holidays to finish her Normal course.—Contributed.

Any merchant who does not advertise is lacking in the ability that makes big business.

pleasure to serve. His formal expressions of gratitude are printed immediately following:

## Many Thanks!

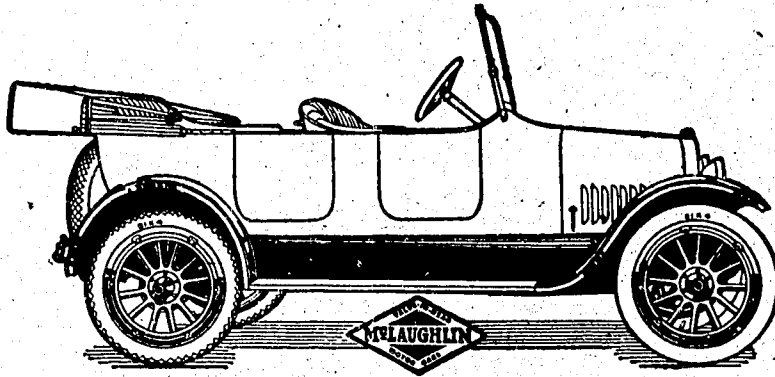

To Rural Route Mail Patrons:

Permit me in this way to convey to the eighty good friends along the route expressions of my gratitude for the many kind words contained in your valued Christmas Greeting to myself and family, and also for the very substantial sum of money accompanying it; for all of which I feel that I am quite undeserving, having during the term of my service done nothing more than might reasonably be required of me under the conditions of the contract.

Trusting that the coming year may be full of happiness for all, and bring with it much prosperity.

I remain, yours sincerely,

L. G. Blair.

**PUT IT IN PRINT.**

A newly married lady was being interviewed by a reporter of the local newspaper just after the ceremony "And after the honeymoon, where do you intend to settle down?" was his final question. "At the old manse," said the bride, as she hurried away. The reporter thought it sounded unusually familiar, but he decided to use it, so when it appeared in print the report finished up: "After the honeymoon the happy couple intend to live at the old manse."

**Passing Events: Social, Personal, &c.**

Miss Secrest, a surgical patient at the hospital, is making good progress.

Roscoe McWilliams came in by boat on Saturday night to remain until after the holidays.

Howard Rounds, of Naramata, was operated on at the Summerland Hospital last Saturday for appendicitis.

Mr and Mrs Bennett and children leave on Saturday morning via Kelowna to make their home in Victoria.

Mr and Mrs T. B. Young went down to the Coast on Wednesday night, expecting to be away for about a week.

Mr Connor, who is now living here with his sister, Mrs McLaren, underwent an operation at the hospital last Friday. He is doing well.

Pte. R. H. Atkinson, who was invalided to England from Saloniki, where he was stricken with malarial fever, is likely to be returned to Canada soon. It is said that the fever has affected his heart.

At the special Christmas service of the West Summerland Baptist Sunday School last Sunday evening \$25 was collected for the children in Halifax. The program included recitations, songs, and addresses, and was much enjoyed.

A very successful supper and entertainment was held by the Lakeside Sunday School on Thursday afternoon in the Men's Club. A pleasing program, given principally by the little ones, was greatly enjoyed. About \$16 was contributed by the children for sufferers in Halifax.

The evening service in the Lakeside Church, led by Rev. A. Henderson, assisted by Rev. and Mrs. Banton, will partake of a memorial character, because of the death of Mrs. Anderson. Miss Evelyn Brown and Mr. Beavis will be soloists. Rev. and Mrs. Banton will be at the Sunday School held at 11 a.m.

Mrs. H. White, mother of Mrs. Mellor, arrived in Summerland last week to remain for an indefinite period. Since leaving her former Ontario home she has been visiting on the prairies. On Christmas Day there was a happy reunion at the home of Mrs. Lipssett, when two of her sisters, Mrs. White and Mrs. J. B. Robinson of Peachland, reviewed old times on the banks of the beautiful St. John River, Gagetown, N.B., being the scene of their school girl days.

Mr and Mrs Thos. Dale and daughter, Miss Ruth, are enjoying a visit with relatives at the Coast.

Mr and Mrs A. B. Williams are spending the holidays with their daughter, Mrs Ernest Lock at Chilliwack.

Donald Ross came home on Christmas Eve, and will remain here with his mother. He has been with the C.P.R. at Vernon since early last summer.

Mrs G. L. McWilliams and little child went down to Vancouver on Saturday to spend the holidays. Mr McWilliams left by train on Monday night to be away for a week.

Mrs Tingley and her daughter, Miss Dorothy, were among the Saturday night passengers Coastward bound. They will spend the holiday season with friends in Vancouver.

One of our pioneers, John Buchanan, was found at his pre-emption across the lake in a partially paralyzed condition and brought to the hospital on Monday. He is reported as doing well.

Eye strain is a waste of nerve energy, and should be corrected. If you are troubled that way consult S. L. Taube, the well-known optical specialist. He will be at the Summerland Drug Co.'s store on Wednesday, January 9th. 22,23

The West Summerland Dancing Class will meet on Wed., Jan. 2, in Campbell's Hall. A cordial invitation is extended to all interested. We want those who can dance as well as beginners. The admission charge will be 25c. for gentlemen, and 10c. for ladies. 22

The treasurer of the Summerland Hospital Society has received from Mrs. D. H. Thornthwaite, secretary, a cheque for \$50 payable to Miss Aichison, the matron of the hospital. The funds, it is understood, have been raised by an energetic committee of women of the Rutland-Ellison district near Kelowna for the purpose of providing little luxuries and tobacco for wounded soldiers that are patients in the hospital. It is expected that Miss Aichison will distribute them from time to time for the personal comfort of the soldier patients.

A delightful Christmas party was given for Masters Dennis and Terry Bennett, who leave this week for Victoria, by Mrs. Downton on Wednesday afternoon. There were nearly one hundred little ones and two score mothers gathered in the big billiard room of the Hotel Summerland, which was tastefully decorated, and in which stood a trimmed tree laden with presents. During the afternoon Santa Claus made his appearance and greatly delighted the little guests. Many a little boy and girl will now be certain of the untruth of the gossip that "the aint no Santy," because they have now actually seen him and accepted presents from his hand. The children were assisted in their games by several a few years older, and shortly after refreshments, which were served at five, a jolly party broke up with much praise for Mr and Mrs Downton.

Blanchard and Russell Munn were Coast-bound passengers on the K.V.R. train on Saturday night.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented in Summerland by Bert Harvey. A

Mr and Mrs Basil Steuart and young son, Francis, are visiting at the Coast, having gone out last Saturday.

Miss Wolfenden, of the Central School teaching staff, left by train on Saturday night to spend the vacation at her home in Victoria.

Kenneth Elliott and his sister Kathleen came up from Vancouver on Saturday morning to spend the Christmas season with their parents and relatives.

We regret that a number of late contributions to our columns, and several items of news have been crowded out of this issue because of a broken week and insufficient help.

After moving his household effects into his new home, Mr Muir Steuart left for Vancouver just before Christmas, there to join his family and to take a few weeks off from business.

The Review has been asked to inform any of our readers who may be contemplating giving a party that the billiard room at the hotel is available without cost, decorated for immediate use with garlands, greens, and Christmas tree.

85 per cent. of all headaches are the result of eye strain. Are you troubled that way? If so consult S. L. Taube, the well-known optical specialist. He will be at the Summerland Drug Co.'s store on Wednesday, January 9th. 22,23

The Directors of the Summerland Women's Institute have decided to send a donation to the Halifax Disaster Fund, and ask that any member wishing to subscribe to same will send their subscription to the secretary as soon as possible. The need is urgent and your co-operation is asked for.

A happy afternoon was spent in the Campbell Hall last Saturday by a large number of young people, ranging in years from infancy to the respected three score or more, the occasion being the annual At Home of the officers and teachers of St. Andrew's Sunday School. Games and refreshments and the bringing of gifts for the members of the church and congregation now at the front were the principal features of the afternoon.

At the request of the Minister of Finance, the Bank of Montreal, West Summerland, will remain open on Thursday and Friday, the 3rd and 4th of January, from 7.30 until 9.30 p.m., and on Saturday, the 5th, from 2 until 6 p.m., for the purpose of receiving instalments on the Victory Loan subscriptions, so that it will not be necessary for subscribers to be punctual with their payments on January 2nd, as previously arranged. E. B. May, Manager. 22

Mr and Mrs G. Wolstencroft of Naramata were holiday guests of Mr and Mrs T. P. Thornber.

Mrs John Borton, who was on her way from Ottawa to Halifax to spend Christmas with relatives, missed by but a few hours being there at the time of the terrible explosion. She has written her daughter here, Mrs Sculthorpe, telling of her narrow escape and of the fate of a number of relatives. Both Mrs Borton's sisters were killed, and with them every member of their families. A niece and her family were also killed, the husband, who is at the front, being the only one left. Mrs Borton wrote from Newcastle, N.B.

**PRINTER WAS DOOMED.**

"I've come to kill a printer," said the little man. "Any printer in particular?" asked the foreman obligingly. "Oh, any one will do. I would prefer a small one, but I've got to make some sort of a show at a fight or leave home since your paper called my wife's tea party 'a swill affair.'"

**WHERE THERE'S ALWAYS A SCOT.**

"The chief engineer, a Scot, 'Certainly and always! Passenger ship, freighter, yacht, from here to Suez and back again, the man in charge of the engine room probably is a Scot. There is no special reason for it; it just happens that way. There is the old story, told with zest to-day by travellers who will swear that they witnessed the doings of an American and an Englishman who beguiled the time in Shanghai by wagering substantial sums on their odd achievements of knowledge. The Englishman, of course, was behind in the game, but finally he hit upon a brilliant wager; he bet that every ship making ready to sail that day carried a Scot in the engine room. So to every engine room door they went and called 'Sandy,' 'Mac.' And every engine room gave its reply. The story must be as old as the steam engine. The bet could be won to-day. 'The chief engineer, a Scot.'—New York Sun.

**AN EYE WITNESS.**

Gentleman—"Why don't you get out and hustle? Hard work never kills anybody."  
Rastus—"You're mistaken dere boss, I'se lost four wives dat way."

The Food Controller is being given authority to license dealers in food supplies, and a general plan of licensing is being prepared. Before it is applied to any particular trade, representatives of that trade will be consulted.

Jeruda—"Aftah we's married we'll hab chicken fo' dinnah ebery day, deary." Matilda—"Oh, you honey! But I wouldn't ask you to run no sech risks jes' fo' my sake."

A Weekly Chronicle Furnished By Our Local Representative.

Mr and Mrs Skinner and Miss Bessie returned to Lacombe, Alberta, on Wednesday. Mrs Skinner and Bessie will stay in Lacombe this winter. Mr Skinner intends to spend the winter in Ontario.

Mr and Mrs A. Town were passengers to Kelowna on Wednesday, returning at night accompanied by Miss Verna.

Mrs G. Hohensee was a passenger to Kelowna on Wednesday, returning at night.

Mr J. Brown returned from the Coast on Wednesday.

Miss Jean Dryden gave a surprise party on Thursday evening in honor of Miss Switzer, who has resigned the position as teacher of the High School. All the High School pupils were invited, and a jolly evening was spent.

Mrs Suddaby of Lavoy, Alberta, came in on Thursday night to spend Christmas with her parents, Mr and Mrs J. McLaughlan.

Miss Wilkie came in on Thursday evening to spend the holidays with Mr and Mrs Coldham.

Mr and Mrs Oliver Keating gave a party in honor of Miss Montgomery, principal of the Public School on Thursday night.

Mr Wm. Douglas was a passenger to Kelowna on Friday, returning the same day.

The Primary Room's closing, which was held on Friday afternoon, was a very happy event. The room was prettily decorated with paper garlands and Christmas greens, and excellent specimens of the children's work were displayed around the walls. The many parents and friends who gathered to hear the children recite and sing enjoyed the program thoroughly. Rev. J. A. Rowland moved a vote of thanks to Miss Alice Elliott, who had so carefully trained the children, and to the children who rendered the program so well, and then led the children in three cheers for their teacher. Rev. W. J. Scott seconded the vote of thanks. The program was as follows: Chorus, "Oh,

Canada," School; Recitation, A Prayer for Santa Claus, Polly Topham; Troubles of a Small Boy, Wallace McKenzie; Recitation, Manners, Kenneth Brown; Recitation, The Leaves' Party, Gertrude Hohensee; Chorus, Jesus' Little Ones, eight girls; Recitation, The Child in the Looking Glass, Vivian Thompson; Recitation, While We're Asleep, Sidney Smalls; Recitation, One, Two, Three, Margaret Harrington; Recitation, Santa's Boy, Teddy Smith; Recitation, At Christmas Time, Alice Wright; Chorus, Christmas Song, School; Recitation, The Question, Edith Town; Recitation, Santa's Helpers, Edgar Taylor; Recitation, School, Hertha Hohensee; Recitation, December, Helen Wright; The Senses, Lizzie Topham; Chorus, Little Birds, A and B Class; Recitation, Santa Claus, Gordon Morrison; Recitation, Counting, Emma Hockyard; Recitation, At Christmas Time, Arthur McCall; Recitation, Mud Pies, Annie Taylor; Recitation, When I Gave My Daddy, Polly Topham; Chorus, The Christmas Song, Second Primer Class; Recitation, Her Vision, Ella McKenzie; Recitation, My Penny, Jack Hyde; Recitation, Little Bird, Jean Hyde; Recitation, Combination Holiday, George White; Recitation, My Evelyn May, Pearl Law; Chorus, Merchant Song, Dialogue, His Pocket, James Clement, Douglas Elliott; Recitation, The Message of the Snowflakes, Isabelle Taylor; Recitation, Santa Claus, George Fruean; Recitation, The Christ Child, Lillian Town.

The pupils of the High School had a party in their room on Friday afternoon, basketball and other games were enjoyed and refreshments were served. At the close Miss Switzer presented each pupil with a small token of remembrance.

On Friday last the teachers, scholars, and friends of the Baptist Sunday School enjoyed a most happy social time together in their Sunday School hall. After a bountiful repast had been partaken of a number of scholars gave recitations and songs much to the enjoyment of their parents and friends, and a Christmas tree, which had been hung with bags of sweetness was stripped of its bounty and distributed among the happy recipients. Absent friends were not forgotten, and Grandma Powell and Mrs. Mac-

donald had each a souvenir sent them.

It was a happy united Christmas family party, and the presence of the superintendent, Mr Harold McCall, who had been away on the prairies for a season, gave added satisfaction. Mr Willie O. Williams, assistant superintendent, who is now away in the Royal Canadian Flying Corps, was much missed. To Mrs Murdon, Miss Dimock, Miss MacDonald, and Miss Scott the thanks of all are due.

Miss Switzer and Miss Whitworth left on Friday night for their homes at the Coast to spend the Christmas holidays, Miss Montgomery leaving on Saturday morning.

Mr and Mrs Taylor of Winnipeg came in on Friday night to spend Christmas with their son, Mr R. E. Taylor.

BORN—To Mr and Mrs George Phillips of Calgary, a daughter.

Mrs Buchanan came home from Penticton on Saturday morning where she had been visiting her brother-in-law, Mr J. D. McDonald.

Mrs Vivian has moved down town for the winter and is occupying the Percy Nash cottage.

Mrs M. N. Morrison was a passenger to Kelowna on Saturday, returning the same day.

Mrs W. Henry, who has been visiting her parents, Mr and Mrs Robert Michael, returned to her home in Manitoba on Saturday morning.

Mrs Cartwright and children of Okanagan Landing came down on Saturday night to spend Christmas with her parents, Mr and Mrs W. J. Moore, Mr Cartwright coming down on Monday night.

Miss Edith Hayward of Kelowna came down on Saturday night to spend the Christmas holidays with her sisters, Mrs J. L. Elliott and Mrs John Wright.

Mr O'Neil came in on Saturday night to spend Christmas with his family here, returning to Kelowna on Wednesday morning.

Messrs Manning and Robb of the Peachland Lumber Co. went down to Penticton on Saturday to spend Christmas.

Miss Morrison has succeeded in disposing of all her household

effects and went out to the Coast on Saturday night, where she expects to remain for some time.

Mr D. J. White came in on Monday morning from the Coast where he has been working.

Miss Flossie Clement returned from the Coast on Monday morning to spend Christmas with her parents here.

Mrs Jefford, Mrs Oliver, Miss Myrtle and Mr Herbert Keating were passengers to Kelowna on Monday, returning the same day.

Miss Leone Morrison, who has been teaching at Rutland, came in on Monday to spend the holidays with her parents, Mr and Mrs M. N. Morrison.

Mr and Mrs James Hayward of Naramata came in on Tuesday morning to spend Christmas with their daughters, Mrs J. L. Elliott and Mrs John Wright.

Mr and Mrs D. A. Kirkby and Miss Annie Margaret came in on Tuesday morning to spend Christmas with Mrs Kirkby's parents, Mr and Mrs John McLaughlan.

Mr and Mrs J. G. Robison were passengers for Vernon on Saturday morning, where they intend spending the Christmas holidays.

Miss Hilda Winger came up from Penticton on Tuesday morning to

spend Christmas with her parents here.

Miss Vera Hay came down from Kelowna on Tuesday to spend Christmas with her parents, Mr and Mrs James Hay, returning to Kelowna on Wednesday morning.

Mr W. D. Miller spent Christmas with his family here, returning to Penticton on Tuesday night.

Mr Seth Davidson was a passenger to Kelowna on Tuesday morning to spend Christmas with Mr and Mrs Nash, returning on Wednesday night.

Mr and Mrs C. W. Aitkins were passengers to Kelowna on Tuesday morning to spend Christmas with their daughter, Mrs W. Lupton.

**MARRIED THREE BIRDS.**

The wife of a Methodist minister in West Virginia has been married three times. Her maiden name was Partridge, her first husband was named Robins, her second husband Sparrow, and the present Quail. There are two young Robins, one Sparrow, and three Quails in the family. One grandfather was a Swan, and another a Jay, but he's dead now and a bird of Paradise. They live on Hawk Avenue, Eagleville, Canary Island, and the fellow who wrote this is a Lyre and a member of the family. —Valley Enterprise.

Resolutions may be presented to be sent to B.C.F.G. Convention. The Labor Situation will be discussed. Business Important. All members are requested to attend.

**SYNOPSIS OF COAL MINING REGULATIONS.**

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.
