

## Home Consumption Of Native Apples Will Be Large

Encourage Use of Fruits to Conserve More Exportable Products.

Pres. C. E. Barnes, of B.C. F. G.A., Returns from East with Cheering News.

The people of Canada will be asked to eat perishable products whenever they possibly can, substituting them for cereals and other foods that can be stored and exported. This, in brief, is the policy that will be followed by the Canadian Food Controller, according to Mr. C. E. Barnes, president of the British Columbia Fruit Growers' Association, who has returned home after visiting Ottawa and the fruit districts of Eastern Canada.

### THE APPLE CROP.

"Ontario will have a short crop of apples this year," said Mr. Barnes, and the same holds good in New York State. Nova Scotia will have a surplus of apples. With the shortage in Ontario and New York, the general situation is materially changed. What was at first thought would be an abnormal surplus has resolved itself into a normal quantity of apples for Canadian consumption.

Questioned regarding his conferences with Mr. Hanna, Mr. Barnes said that both the Canadian and American food controllers are bent on supplying the Allies with all the foodstuffs they require. This would mean that we, on this continent, must sacrifice, and the sacrifice will be great. To accomplish these ends and to ensure a regular supply of foodstuffs, Canadians and Americans must use much less of the exportable food products and consume more of the unexportable, or perishable products. This will mean a tremendous increase in the exportable supplies of meats and cereals.

### NO AMERICAN APPLES.

"This applies, in a special manner, to fruit and apples," asserted the President of the B.C. Fruit Growers' Association. "As a result of the bringing into force of this general principle both here and in the United States, combined with the generally short apple crop that is now assured, I feel safe in saying that no American apples will find their way into Canada. This again will mean that instead of an unwieldy surplus of apples in the Dominion and on the continent a perfectly normal apple market will be found, and that Canadian apples will be eaten by Canadians, and American apples by Americans.

### TO EAT MORE FRUIT.

Mr. Barnes pointed out that exceptional efforts are being put forth by the United States, which will mean a vastly increased consumption of apples and fruit generally. Mr. Hoover, he learned while in the East, has already an organization in operation which will in time reach every village and hamlet in the Dominion as well as the cities. The British Columbia men very aptly suggested to Mr. Hanna that Canadians should eat and use more fruit for desserts, because then puddings, pies, and cakes, which all require flour, would not be prepared, thus again relieving an extraordinary quantity of flour for export. So all good Canadians will, it is expected, soon learn more of the surpassing qualities of Canadian fruit.

## Route Contracts Awarded to Former Holders

Secretary Complains Cannot Get Statement From Treasurer.

Not Probable That School Classes will Help in Fruit Gathering.

The Board of School Trustees held its regular monthly meeting on Tuesday morning in the High School building. Chairman Sawyer being absent, Trustee Hilborn was elected chairman pro tem.

Previous to his appointment Mr. Hilborn had proposed that Mrs. Kelley act as chairman for the balance of the term. A counter proposal made by Mrs. Kelley and Mrs. Andrew, was that Mr. Hilborn fill that position. The secretary expressed the opinion that such an appointment could not be made at this time. Dr. Sawyer had not resigned, and he would need to be absent from two meetings in succession before the chair could be declared vacant.

No further progress had been made since the last meeting in obtaining a teacher for Division II. A telegraphic inquiry sent to the Coast had failed to bring an answer. Two applications had been received from New Westminster, and the Inspector there had been wired to the effect that the Board were prepared to appoint either of the two (giving first and second choice) upon the recommendation of the Inspector. He was asked to wire reply. Failure to receive an answer was quite a disappointment to the Board. The secretary was instructed to telephone a Boundary town to learn of the qualifications of an applicant now residing there. Mrs. Kelley suggested that a re-arrangement in the teaching staff be made to take on a local applicant who had just completed a course at Normal School. The other members of the Board thought it better to have some one with teaching experience, and that the young lady would find teaching in a home school too difficult.

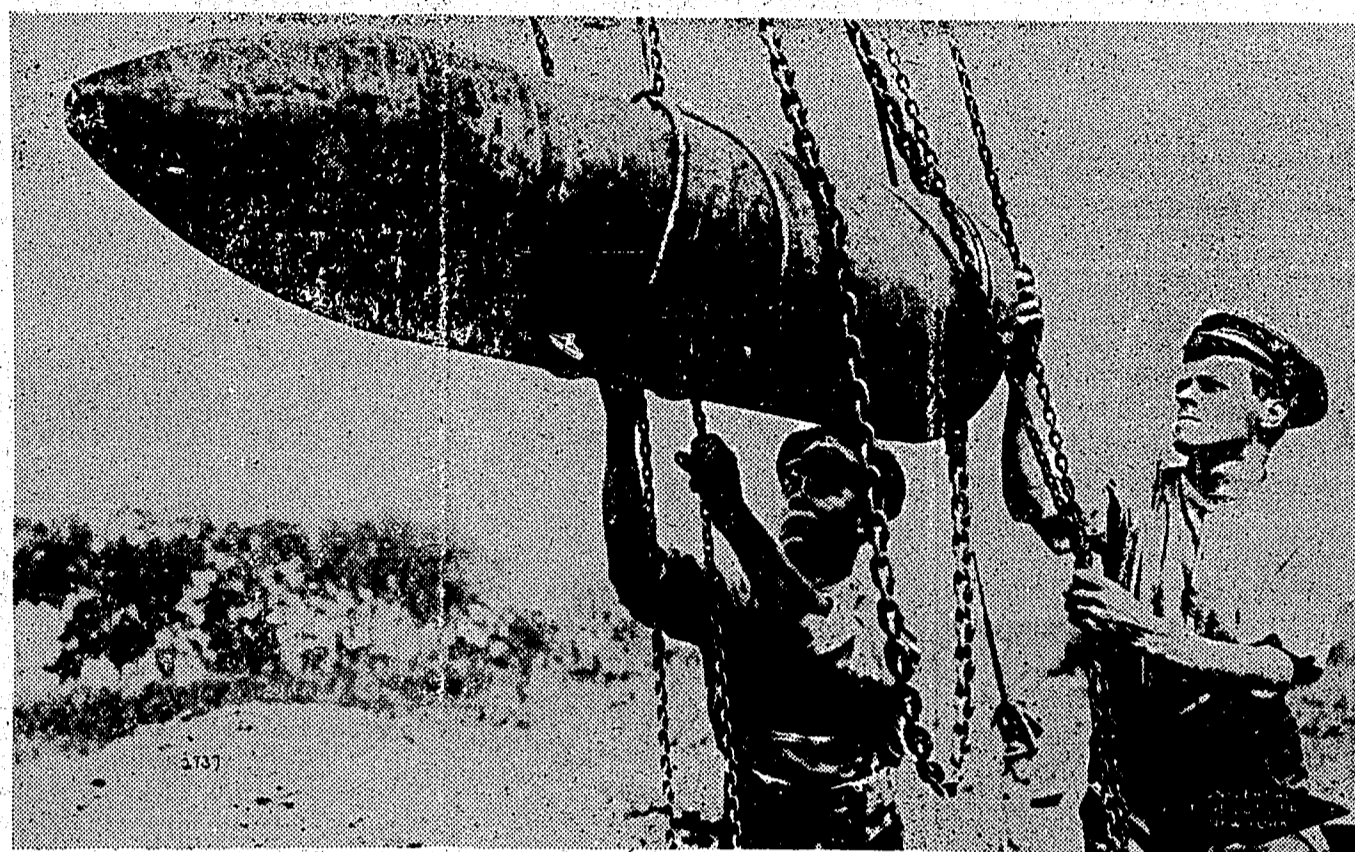

Tenders for the four conveyance routes were received and opened. With one exception all the figures showed a slight advance over the figures of a year ago. The present contractors were each awarded their routes for another year. G. R. Hookham & Co., get Route I, Trout Creek, at the former price of \$1.50 a trip, or \$3 each school day. Route II, Town, went to H. Bristol at \$1.20, as against \$1.10 last year. W. E. Rines will operate Route III, Giant's Head, at \$1.17 a trip, as against \$1.10 in 1916. David Lister, jr., who completed Mr. Harwood's contract for Prairie Valley, Route IV., gets \$1.10 a trip, an increase of 10c, over the former contract.

The Secretary stated that he was unable to complete the annual report as the Treasurer had refused to give him a statement of moneys received from the government during the past twelve months. This statement caused much annoyance. (Continued on page 6.)

"There is no reason for believing that there will be a panic in the apple market this year. Fair prices will be realized. Every grower should realize this, and not try to spoil the market before it begins."

Both Mr. Barnes and Mr. Palmer are very well pleased with their trip to Eastern Canada. They were received very cordially everywhere.

Hoisted to position ready to load.

## R. W. Kelly Drowned From Canoe Sunday.

Well-known Local Agent of C.P.R. Meets Death in Lake.

But for Timely Aid there would have been Second Fatality.

Many citizens of Summerland were horrified on Sunday afternoon by the quickly spreading news that Mr. R. W. Kelly, C.P.R. Agent here, had been drowned in the lake near the C.P.R. wharf.

Mr. Kelly and his assistant, Mr. Bert McQuarrie, had but a few minutes before the accident, entered a canoe and had paddled from the Stark boathouse to a point directly opposite and but a few yards from the C.P.R. wharf, when the canoe was overturned.

Had it not been that rescuers were quickly on the scene, there would have been a double fatality. But a few minutes after the alarm was given, a motor boat reached the canoe and rescued Mr. McQuarrie just as he was at the point of complete exhaustion. The canoe was righted, but Mr. Kelly was nowhere to be found. Mr. McQuarrie was brought ashore and taken to his sleeping quarters at the Express Office, where he was given a good rubbing and dry clothes, and after a few hours seemed to have recovered from the nervous shock.

Immediately an effort was made to find the body of Mr. Kelly. The lake bottom was dragged with a mass of barbed wire, and later a grappling hook was used. The body was finally located by Mr. J. J. Blawett, who was paddling about in his canoe, peering over the side to the lake bottom. The white shirt of the drowned man was easily discerned.

It seems strange that the one of the two who could not swim should be rescued, while Mr. Kelly, who felt quite at home in or on the water, should drown without apparently making any effort to swim ashore.

Mr. McQuarrie at first refused to enter the canoe, saying that he could not swim and knew nothing about a canoe, and was afraid of it. Only after repeated assurances did he yield to Mr. Kelly's persuasion. The water was smooth and Mr. Kelly evidently enjoyed the fear of his companion who wanted to be on shore, and when close to the wharf he jokingly rocked the canoe, when suddenly it overturned. It was then nearly three o'clock, and few people were about. Roland

Reid, a young lad living at Peach Orchard, was on the government pile-driver at the old wharf at the time, and, seeing the canoe overturn, rushed down the street giving the alarm. Mr. B. L. Hatfield, Roland Reid, and Bert Bryant immediately set out in a motor boat. Mrs. George Andrews happened to be on the C.P.R. wharf, and kept calling words of encouragement to Mr. McQuarrie, Mr. Kelly having already disappeared.

Messrs. Gerald MacLaine, A. Stark, and H. Lee of Mineola, were motoring up town and rushed to the wharf. Mr. MacLaine immediately undressed and plunged into the water in an attempt to reach the overturned canoe, but was persuaded to turn back lest he too, go down, when he was told that a motor-boat was coming.

As soon as he had sufficiently recovered, Mr. McQuarrie immediately telephoned his mother at Armstrong, and asked her to take the sad news to Mr. Kelly's wife and daughter, also residents at Armstrong. They both reached here that evening, and returned to Armstrong with the body on Tuesday morning.

Mr. Kelly's widowed mother resides in Winnipeg.

The deceased had almost completed his 20th year with the C.P.R.

## Change in Operating Dept. of K.V.R.

New General and Asst. Supt. Appointed.—Mr. Fisher will Devote Time to Traffic.

In order to take care of the increasing growth in the operation of the Kettle Valley Railway a change has been made in the operating department. Mr. J. W. Mulhern has been appointed general superintendent, and Mr. A. A. Smith, formerly assistant superintendent, has been appointed superintendent. Mr. O. E. Fisher continues in charge of the traffic and accounting departments.

## Mystery Cleared Up.

Old Man missing since last November Found Dead At Westbank.

The body of an aged man, identified as Mr. W. Dobbin, was found by Mr. M. Russell last week near Bear Creek, back of the town of Westbank. Mr. Dobbin disappeared from his home in Westbank last November, and although a search was made for him nothing could be learned of his whereabouts till his body was found a few days ago. Mr. Dobbin was over 80 years old, and was a veteran of the Indian Mutiny in 1857. The body was in a bad state of decomposition when found.

## Northwest Apple Crop Estimates.

Fruit Growing States Across Border Expect Output of 23,000 Cars.

An estimate of 23,500 cars of apples in the principal apple districts of the four Northwestern States for the 1917 season was made public in Spokane by L. J. Blot, secretary of the Fruit Growers' Agency, a co-operative marketing organization.

The estimate is based on the most reliable information gathered from the various districts.

Following are the estimates on the various districts:

District	Cars
Walla Walla	500
White Salmon and Underwood	200
Southern Idaho	2200
Yakima Valley	8500
Lewiston	250
Bitter Root Valley	500
Hood River	1200
Medford and adjoining districts	1500
Wenatchee	8000
Spokane	650

A brush and grass fire on the hillside back of Jones Flat caused the citizens of that neighborhood some alarm for a day or two last week-end. On Sunday afternoon a telephone call was put in asking for the help of all available men in town. Fear of the burning of the houses was soon past, however, as the wind was taking the fire in the other direction.

One result of this change will be that a great deal more attention will be given to the developing of traffic on the K.V.R. line. —Penticton Herald

## Hold Gala Day At Experimental Station.

Women's Institutes Unite In Entertaining Sister Institutes At Big Picnic.

The Summerland and West Summerland Women's Institutes entertained the members of the Women's Institutes of Peachland, Naramata, and Penticton at a picnic yesterday, Thursday, afternoon. Superintendent Helmer of the Experimental Station had kindly offered accommodation close to the flower gardens at the Station, and did much to assure the success of the event. Visitors from Peachland came down by cars and rigs. Those from Naramata, and some from Penticton, by ferry, which landed them at Black's wharf, while others from Penticton came by autos.

The visitors were met in town, and at Black's wharf by a number of local autos, and many members of the local Institutes were conveyed by same means to the picnic grounds.

Except for a high wind which sprang up during the afternoon and seriously interfered with the program, the day was an ideal one for the outing. For many of the visitors and some of our own people, this was their first visit to the Experimental Station, and many were surprised with the beauty of the Farm and the magnificent surroundings. Superintendent Helmer had anticipated every need. He and several members of the farm staff took the visitors over the Farm in groups, explaining the work and telling of the flowers, shrubs, etc., the rose garden being specially attractive at this time.

When every one had feasted their eyes to the utmost, refreshments were served. This gave the social committee a busy time, as there were about 140 ladies present. Here again Mr. Helmer's forethought was of great service. He had provided a large marquee with tables, a kitchen tent, and a tent for a dressing room, a big fire and a half dozen or more small stoves. The high wind which prevailed for an hour or more made it impossible to carry on the after dinner program, including the taking of a group photo, for which photographer Nelson was all prepared.

The ladies of the executive committee of the local Institutes were profuse in their words of thanks and appreciation for the valuable assistance given so freely by the many motorists who had placed their time and cars at the disposal of the committee. Without their help and their unfailing good humor in making many trips back and forth between town and wharf and the picnic grounds, the picnic would not have been the success it was.

## Ship Okanagan Wool

Fleece Valued at \$10,000.00 Left Vernon Last Week.

The first car shipment of local wool ever sent out from Vernon was forwarded to Boston last week by I. V. Snuder.

The shipment was valued at about \$10,000, and was composed of wool purchased from the Land and Agricultural Company of Canada, Sidney Edward, Thos. Bulman, and P. Burns & Co.

Sheep raising is developing at a rapid rate in this district, though there is still room for many more flocks on the Okanagan hills.

### THE FOOD PROBLEM.

IN A STATEMENT just issued Hon. W. J. Hanna, the recently-appointed Dominion Food Controller, outlined the situation within the Empire and Canada in regard to food supplies and with the necessities of the Allies. He asserts that there must be immediate voluntary action to curtail table excesses.

Mr Hanna makes the important statement that the crop of storeable food of this continent must be entirely inadequate to meet the demands unless the people determine to do everything in their power to make up the shortage. The statement says:

"The outstanding fact of the food situation, which it is imperative that every citizen of Canada should realize at once is that Britain, France, Italy, Belgium, and their European Allies are wholly unable to supply the Allied armies at the front and on the way. For nearly three years their man power has been engaged in the direct work of war, and in some cases large areas of their most productive lands have been overrun by the enemy. Their food shortage and the food to supply the armies of Canada and the United States must be wholly provided from this side of the Atlantic. The supply must also be sufficient to cover losses at sea. Australia, New Zealand, the Argentine, and other countries are now not available to relieve the situation because of their remoteness and the shortage of tonnage.

"There are some measures that are so obvious that we ask that they be adopted at once, and that the men and women of the Dominion pledge themselves to their observance. They include:

"Maximum production; the largest possible consumption of perishable foodstuffs in order to liberate the storeable food for transportation.

"The adoption of war menus.

"The prevention of food waste.

"The utilization and organization of volunteer bodies to assist the food controller in increasing and conserving the food supplies.

"The restriction of ocean tonnage make increased production and consumption of perishable foodstuffs at home imperative if the more easily transported commodities are to be released for export. The food problem of the Dominion is not measured by the domestic market, but by the needs of the Allied armies and nations. They require tremendous supplies of wheat, meats, fish, cheese, beans, canned and evaporated foods, and other commodities.

"They cannot be rationed unless the Dominion saves such foodstuffs for export. Fruits and vegetables in their season should be the country's foods to the greatest possible extent.

"Food is being wasted in the stores, hotels, restaurants, clubs, and houses of the Dominion. It is the duty of every citizen dealing in or preparing and serving food to adopt measures which will eliminate waste entirely."

### Sale of Fruit Lands by Tender.

SEALED TENDERS, addressed to the undersigned, and marked "M. J. Black Estate" will be received up to 12 o'clock noon, Saturday, July 14th, 1917, for the purchase of BLOCK 14 SUB-LOT 1073 GROUP ONE, MAP 406, OSOYOOS DIVISION, YALE DISTRICT, containing 5.3 acres. Fruit trees bearing two years.

Marked cheque for 10 per cent. of purchase price must accompany all Tenders, which will be returned to unsuccessful bidders.

### Cultivate The Potato Field.

W. T. Macoun, Dominion Horticulturist.

In the field culture of potatoes much time will be saved in hoeing later in the season, if the soil is harrowed, to destroy weeds just as the potatoes are beginning to come up. At this time many weeds will have germinated. If the potatoes are in a garden it may be raked over for the same purpose. As a rule the crop of potatoes will increase in proportion to the number of times the potatoes are cultivated during the growing season. There was found to be an increase of forty bushels an acre in a crop of potatoes cultivated six times over those cultivated three times.

Level cultivation will sometimes give better results than moulding or hilling up, and sometimes the results are not so good. Where the soil is stiff, or where the soil is wet, moulding, or ridging is desirable. Where the soil is loose and liable to suffer from drought in a dry time, level culture is recommended. Where the soil is both loose and moist, and where the climate is moist, ridging will usually give best results. As the crop of potatoes will be much larger if the tops can be kept green until frost than if they were destroyed by insects or diseases in summer, it is important, in addition to thorough cultivation, to protect the tops from injury.

#### INSECTS AND DISEASES.

The Colorado potato beetle and cucumber flea beetle are the commonest insects which injure the potato tops. The former can be readily killed with Paris Green in the proportion of eight to twelve ounces to a forty gallon barrel of water, or with arsenate of lead in the proportion of two to three pounds paste or one to one and a half pounds dry to forty gallons of water. A mixture of both in the proportion of eight ounces of Paris green and one and a half pounds of paste arsenate of lead to forty gallons of water will kill quickly and adhere well to the

### Fraternizing On The West Front

French, Belgian and British Soldiers, on leave, taking a walk.

foliage. These poisons will, to some extent, check the cucumber flea beetle, but, in addition to them, a better preventive is a covering of Bordeaux mixture on the foliage. The Bordeaux mixture should also be used to control the early and late blight of potatoes, the latter disease causing rot. These are two of the commonest diseases. To control the early and late blight of potatoes spraying with Bordeaux mixture should be begun before the disease appears, and the plants kept covered until autumn. From three to four sprayings will be required, depending on the weather. Taking the average of three years, the increase of yield from spraying with Bordeaux mixture was at the rate of 94 bushels per acre. In some years it is larger. Bordeaux mixture is made in the proportion of six pounds bluestone, four pounds lime, and forty gallons of water. Spraying mixtures should be used at the proper time and thoroughly, if good results may be expected.

#### DIGGING AND STORING.

Potatoes should be dug in dry weather, so that they will be dry when they are taken into the cellar. If they are diseased, the disease will not spread so rapidly among dry potatoes. If the potatoes are known to be diseased in the field, it is best to leave them in the ground as long as possible, so that diseased potatoes may more readily be seen and separated from sound ones before they are taken into the cellar. Potatoes should be stored for best results in a dry, cool, well ventilated cellar, and kept at a temperature between 33 degrees F. and 35 degrees F., if possible.

### Birds---Farm Assets.

Government statistics and personal observations show over and over again that the birds are the farmers' best friends. In return for their services they ask only protection that they may bring forth more enemies of insects.

How is this protection to be given? Happily the time is passed, or nearly so, when the farmers think that the birds must be destroyed

because of the fruit that they eat. In comparison with the amount of good they do, the amount of fruit eaten by birds during the summer is an infinitesimal matter—a mighty good form of insurance for the farmer.

But there is another way in which the birds require protection. That is protection during their nesting season. Not only should prowling cats be restrained and egg collectors either be made to see the folly of their heartless whims or else be summoned before the law, but provision should be made for the nest. Birds like company. Even the bluejay, usually termed a rascal, but at heart a booz companion of the farmer, likes to have his nest near a dwelling. The robin appreciates forked sticks placed in trees for him, and the wren, bluebird, and purple martin enjoy the companionship of man as soon as they learn that he is their friend.

The best way to get on amicable terms with birds is to build and put up bird-houses and see that such are not destroyed by boys or preyed upon by cats.

Public Schools Promotion Lists

The school year ended in the local schools without much ceremony. On the whole it has been a successful one, and all classes were well attended. The result of the examinations of the Central and ward schools are given below.

DIVISION I.

Junior Fourth to Senior Fourth—1, John Denike; 2, Ronald White; 3, Chas. Denike, May Harrison; 5, Roland Reid, Minnie Ritchie; 7, Ruth Graham; 8, Lawrence Beavis; 9, Jessie Monro; 10, Betty Barnes; 11, Arthur McRitchie; 12, Gordon Blewett; 13, Clyde Caldwell; 14, Muriel Wilson; 15, Winnie Yule; 16, Janet Drake.

In Division I. diplomas were won as follows: Regularity and Punctuality—Russell Munn; Department—Chas. Denike; Proficiency—Will be awarded on result of Entrance Examination.

DIVISION II.

Senior Third to Junior Fourth—1, Ewart Bowering; 2, Fred Gale, Dorothy Tomlin; 4, Kirk Sutherland; 5, Marion Hatfield, Ralph Purvis; 7, Grace Garnett; 8, Verna Smith; 9, Sylvia Washington; 10, Joan Ritchie; 11, Marion Beavis; 12, Willie Weaver; 13, Merle Smith; 14, Zanda Garnett.

DIVISION III.

Junior Third to Senior Third—1 Harry Hobbs, 2 Isabel Hogg; 3 Eva Johnson, 4 Mabel Shields, 5 Gertie Arkell, 6 Harold Sculthorpe, 7 Arthur Gartrell, 8 George Graham, 9 Helen White, 10 Margaret Munn, Cyril Taylor, 12 George Dewar, 13 Marjorie Holmes.

Senior Second to Junior Third—1 Jessie Rutherford; 2 Dorothy Garnett, 3 Ella Bowering, 4 Laura McLachlan, 5 Edgar Walker, 6 Betty Caldwell, 7 Creighton Rines, 8 Charles Tullett, 9 Alice Weaver, 10 Margaret Ramsay and Amy Smith, 12 Josephine Pentland, 13 Leicester Arkell, 14 Kenneth Bates and Adrian Howell.

Junior Second to Senior Second—1 Bessie Tomlin, 2 Edith James, 3 Alan Estabrook, 4 Eric Johnson, 5 Kathleen Monro.

DIVISION IV.

First Reader to Second Reader—1, Ernest Doherty; 2, Stella Wilson; 3, James Smith; 4, Joe McLachlan; 5, Ethel Holmes; 6, Nora Hampshire; 7, Henry Wernick; 8, Rhodes Elliott; 9, May Walker.

Second Reader to First Reader—1 Basil Wright, 2 George Denike, 3 Jack Purves, 4 Albert Doherty, 5 Buford Young, 6 Ella Jackson, 7 Alice Traylor, 8 Geo. Washington, 9 Marion Holmes, 10 Mary Munn, 11 Herbert Spencer, 12 Hannah Wernick.

First Reader to Second Reader—1 Muriel Bates, 2 Francis Stewart, Frank Dickinson, 3 Alice Doherty, 4 John Caldwell, 5 Edith Monro, 6 Anna Sandquist, 7 Lloyd James.

Receiving Class to First Reader—1 James Purves, Isobel Dickinson, 2 Gordon Nixon, 3 Edna Traylor, 4 Edward Smith, 5 Roselle James.

DIVISION V.

Promotions in Division V. Senior Second to Junior Third—Alice Limmer, Mildred Shields, Lottie Sculthorpe.

Junior Second to Senior Second—William Thornber, Campbell McAlpine, Violet Atkins.

First Reader to Junior Second—Gordon Sculthorpe, Kenneth Gartrell.

Second Reader to First Reader—Ralph Blowett, Bertha Riley.

DIVISION VI.

Receiving Class to First Reader—Jack Dunsdon.

Second Reader to First Reader—Fred Dunsdon.

Junior Second to Senior Second—Ted Dunsdon.

Senior Second to Junior Third—Arthur Dunsdon.

Junior Third to Senior Third—Arthur Wismer.

Senior Third to Junior Fourth—Dorothy Dunsdon.

Honor Roll—Regularity and Punctuality—Arthur Dunsdon.

Department—Dorothy Dunsdon.

Proficiency—Arthur Wismer.

Perfect Attendance for the year—Fred Dunsdon.

DIVISION VII.

From Receiving Class to First

Primer—Ruth Tait, Violet Treffry, Emily Mountford.

From First Primer to Second Primer—Mary Gartrell, Isabel Helmer, James Reid, William Reid, Eric Tait.

From First Reader to Second Reader—Arthur Morgan, Harvey Wilson.

From Second Reader to Third Reader—Alvin Wilson.

Honor Rolls—Proficiency—Mary Gartrell. Department—Isabel Helmer. Regularity and Punctuality—Arthur Morgan.

KILL FLIES AND SAVE LIVES.

Kill at once every fly you can find and burn his body.

Observers say that there are many reasons to believe there will be more flies this season than for a number of years.

The killing of just one fly NOW means there will be billions and trillions less next summer.

Clean up your own premises; see and insist that your neighbors do likewise.

Especially clean "out-of-the-way places," and every nook and cranny.

Flies will not go where there is nothing to eat, and their principal diet is too filthy to mention.

The fly is the tie that binds the unhealthy to the healthy!

The fly has no equal as a germ "carrier," as many as five hundred million germs have been found in and on the body of a single fly.

It is definitely known that the fly is the "carrier" of the germs of typhoid fever; it is widely believed that it is also the "carrier" of other diseases, including possibly infantile paralysis.

The very presence of a fly is a signal and notification that a housekeeper is uncleanly and inefficient.

Do not wait until the insects begin to pester; anticipate the annoyance.

The farming and suburban districts provide ideal breeding places, and the new born flies do not remain at their birth-place but migrate, using railroad and other means of transportation, to town and cities.

About half a million pounds of jam will be canned in Nelson this year.

ROUTE CONTRACTS AWARDED TO FORMER HOLDERS.

(Continued from page 1)

One of the Trustees suggested that the Board resign in a body in protest of treatment received from the municipal council and clerk. Another said that this would appear too much like submission, and suggested that the chairman of the finance committee be appealed to for the necessary figures. The council's motion as to the Board's expenditure which has been taken by the Board as a motion of censure, was here read and discussed, it having been held over till the regular meeting. Proposals were made that the Trustees send a delegation to the Council to explain the position of the Board and deny that the estimates were being exceeded. Another suggested that the Board go in a body. It was proposed by one of the Trustees that the council be asked for an apology. Discussion resulted in the appointing of Trustee Sharp and Secretary Bowering to wait on the Council at its next meeting to take up with that body the question of school expenditures. A motion was also passed instructing the secretary to write the Treasurer applying for statement of all moneys received by him from the Educational Department for the year ending June 30th.

The secretary read a circular letter from the Superintendent of Education dealing with representations from different parts of the province to the Department with reference to the closing of schools in certain fruit growing districts so that the older boys and girls might assist in the picking and packing of the 1917 fruit crop. Where circumstances justify it, the Department will consider the granting of permission to close all classes in High Schools and the intermediate, and senior grade classes of the public schools in such districts, for a specified period. Applications for such permission must be made not less than 30 days prior to the proposed date for closing them. Such applications may be made only and after the Board, through the principals, ascertained that no less than 75 per cent of the pupils in attendance in those classes will undertake to assist in the picking or packing of the fruit in the districts in which they live. Each boy or girl thus volunteering must obtain written consent of his or her parent or guardian and place the same in the hands of the secretary of the Board. A maximum period of closing shall not exceed five weeks.

It was the opinion of the Board that Summerland would not need to take advantage of this, as most of the soft fruit would be gathered

Should Use Every Available Receptacle.

Close students of the present food situation point out one serious factor which may tend to make conditions next winter as bad, if not worse, than last winter. This factor is the shortage of tinplate and glass jars for preserving. Canners of fruits, vegetables, milk, fish, etc., cannot get sufficient tin cans for their requirements. Recently the biggest tin can manufacturers in the United States held a conference with government officials and promised that the bulk of their decreased output would go to those concerns which are canning foods for army and navy contracts. Other canners, catering to domestic business, had to be content with what was left, and had to pay much higher prices for the cans.

Housewives may wonder how this should interest them. The point is that all goods sold in cans or glass jars are going to be much higher-priced and scarcer this season than last. Hence, it behooves every housewife to preserve all the fruits and vegetables this year that she can find the time and receptacles for. Women are beginning to realize that even if sugar for preserving is high-priced, it will pay them to do their own preserving because canning companies also have to pay a high price for sugar, and this greater cost must eventually come from the consumer.

Died—One Large Hen, in the second year of its age. Inquisitiveness over the contents of a neighbor's garden brought the deceased to a violent and sudden end, through the medium of a large lump of coal, thrown by a masculine hand. The late Mrs Hen is survived by a husband and large family of feathered relations. She was an active member of the laying community, and her death will be deeply regretted by the middleman. —Ex.

by the time schools reopened. It was thought doubtful if 75 per cent of any class would signify willingness to give up study for any period to help in harvesting.

It is not likely that much will be expended in cleaning and renovating the class rooms, although it was admitted that several of the rooms are in much need of it. Accounts as follows were approved, and the secretary instructed to requisition the Treasurer for the total amount.

### FILLING THE CARS WILL SAVE SHORTAGE.

"FILL THE CARS FULL and thus reduce the car shortage." That is the slogan of traffic officials and operating departments of railroads, and has become the main objective of large shippers.

The last official figures of the Department of Railways for Canada are those of the Deputy Minister of Railways in the blue book for 1915. They extend back to include the year 1907. Between the years 1907 and 1915, on the railways of Canada, the increase in tons of freight carried one mile was 51.1 per cent. But in the same period the aggregate capacity of freight cars (in tons) increased 1181.4 per cent., and the total number of freight cars in that same time has increased from 105,540 to 201,690, or an increase of 91.1 per cent.

If these figures are correct, and there is no reason to doubt them, it is hard for the layman to understand why there exists to-day a serious car shortage. The capacity for hauling freight has increased very nearly double the tonnage to be hauled, or at least the amount actually hauled. But the fact of the increase of tonnage capacity has not solved the problem of why it is not hauled. To make this matter more clear, that is, the car shortage question, it is necessary to analyze a little more closely the carrying capacity of the railways.

In 1907 the average capacity of freight cars was 27.6 tons, but the average tonnage they actually carried was only 15.4 tons. In 1915 the average capacity of freight cars had increased to 33.4 tons but the average tonnage carried in each car was only 18.4 tons. The capacity had increased between 1907 and 1915 an average of 5.8 tons, but the contents carried in each car had increased only three tons. In percentages only 52 per cent. of the capacity of each car was utilized. To transportation companies and to shippers these figures speak very loudly.

Taking these figures into actual transportation economy the conclusion is something like this: Had the average load in 1915 been 23.4 tons instead of 18.4 tons the same traffic would have been hauled with 6,947,577 less trains hauled one mile; 1,568,765 less car trips; 29,806,535 less of dead car hauled one mile.

Now, how can the public help this very complex situation that the country and railways are facing? By increasing the average load by five tons per car. In actual calculation this would improve the efficiency of the equipment, facilities, and man power of the railways to this extent: It would be the same as adding 54,800 freight cars; 482 freight and yard engines; 415 miles of yard trackage, and 13.5 per cent. increase in man power employed in train and yard service.

In striving to impress these facts on the public it is necessary to bear a few facts only in mind:

The present heavy volume of traffic will no doubt continue as long as the war lasts;

Additional cars and locomotives cannot be secured in large numbers for many months;

There is a serious shortage of labor and in some places of yard trackage;

The only way to improve present conditions is to secure greater efficiency in the present equipment, terminal trackage, and man power;

The railways cannot do this alone; the railways and the public co-operating can do it;

Consignees can help by ordering full carloads instead of the minimum authorized in the tariffs and classifications, and consignors can help by loading cars to their full authorized carrying capacity.

§ § § § §

THE SECOND READING of the Military Service Bill was passed by 118 to 55, after the Laurier amendment calling for a referendum had been lost by a vote of 111 to 62, and a motion for a six month's holst defeated by 165 to 9.

§ § § § §

LATE INFORMATION from London on the Prohibition situation is that the Prohibitionists are quite satisfied with the result of the investigation made by the Prohibition Commissioners and that they claim that they have made a good case, and as a consequence are expecting Premier Brewster to make preparations for the submission of the Prohibition Bill to the Legislature at the August session. Press dispatches at the same time say that representatives of the liquor interests maintain an optimistic attitude.

## CLOSING

After Saturday, July 14th, my Meat Store will be closed till further notice.

The high cost of meat, with limited sales, makes this action necessary.

I respectfully request that all outstanding accounts be paid before August 1st. At that date any accounts remaining unpaid will be put in other hands for collection.

J. DOWNTON.

### MORE SIMPLE FLY PREVENTIVES.

Any odor pleasing to man is offensive to the fly and vice versa, and will drive them away.

Take five cents' worth of oil of lavender, mix it with the same quantity of water, put it in a common glass atomizer and spray it around the rooms where flies are. In the dining rooms spray it lavishly even on the table linen. The odor is very disagreeable to flies, but refreshing to most people.

Geranium, mignonette, heliotrope and white clover are offensive to flies. They especially dislike the odor of honeysuckle and hop blossoms.

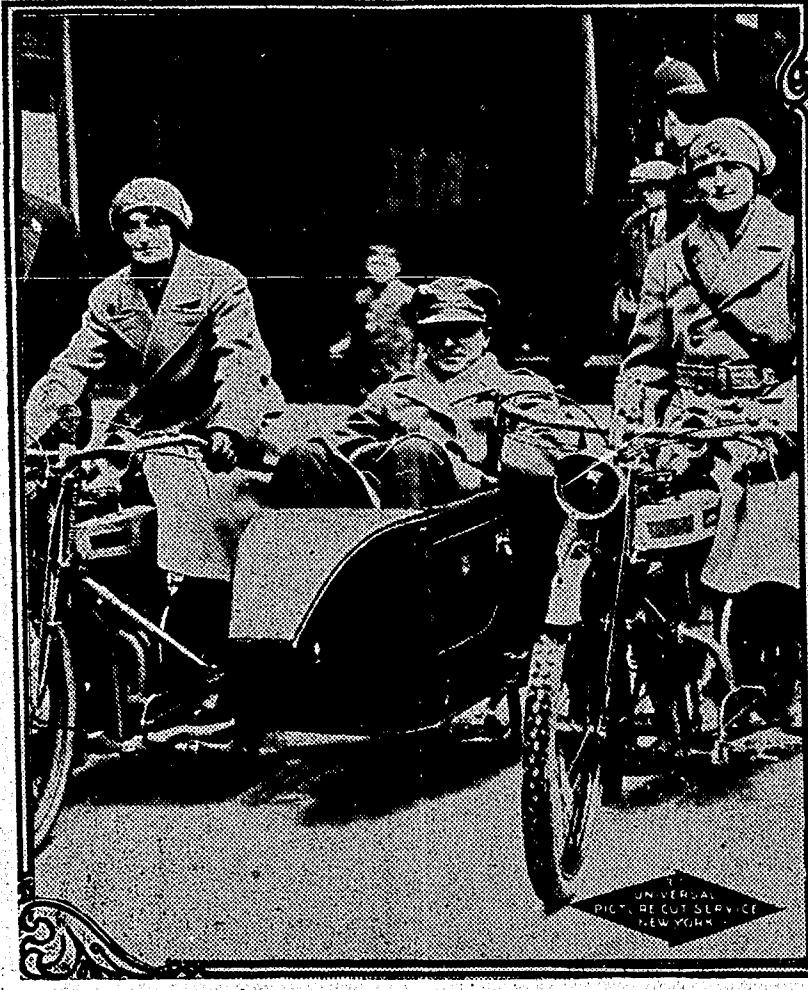

According to a French scientist flies have intense hatred for the color blue. Rooms, decorated in blue will help to keep out the flies.

Mix together one tablespoonful of cream, one of ground black pepper, and one of brown sugar. This mixture is poisonous to flies. Put in a saucer, darken the room except one window, and in that the saucer.

To clear the house of flies, burn pyrethrum powder. This stupefies the flies, but they must be swept up and burned.

Borax is especially valuable around farms and out of doors. One pound of borax to twelve bushels of manure will be found desirable as a poison without injuring its manurial qualities or farm stock. Scatter the borax over the manure and sprinkle with water.

Lye, chloride of lime, or copperas (sulphate of iron) dissolved in water, crude carbolic acid, or any kind of disinfectant may be used in vaults.

Taking Tommy for a Joy Ride.

### "DAMNABLE ITERATION."

A flashing gem from the great Shakespearian treasure house: "Thou hast damnable iteration, and art indeed able to corrupt a saint." Transfer the idea from the statecraft of King Henry IV. to the business-craft of democracy. Put into modern colloquial language the resounding stage talk of a past age. "Thou hast damnable iteration." In other words, "I will admit that at last you have made me sit up and take notice."

"And art indeed able to corrupt a saint." In other words, "You have won me over. Now to business."

Shakespeare touched there on the very soul of advertising—iteration. It is not enough for the advertiser to say once and for all time what he has to say. He must keep on saying it, until he makes the idea become a living force with those he aims to reach.

Keep at the clientele you serve, or seek to serve. Remember that that clientele is progressing in ideas and changing in personnel all the time. Keep at it. Only by everlasting repetition can you fix the reliability and superiority of your firm or wares in the public's mind.—Graphica.

## Orchard and Farm: Topics of Timely Interest and Helpfulness in the complex Business of Farming.

### CULL THE FLOCK (Experimental Farms Note)

The urgent need of conservation demands that all poultry not paying its way in either eggs or growth be killed for eating.

The present high prices of feed also make the keeping of such classes of poultry decidedly unprofitable as well as unpatriotic. Therefore, for your own good and for the good of the country, kill them. There are in every poultry yard birds that have outlived their usefulness, and others that will never pay their way, these might profitably be finished and marketed, not necessarily all at once, but as soon as practicable, taking into account the market, etc.

In these classes might be mentioned, in the order in which they should be disposed of, the following:

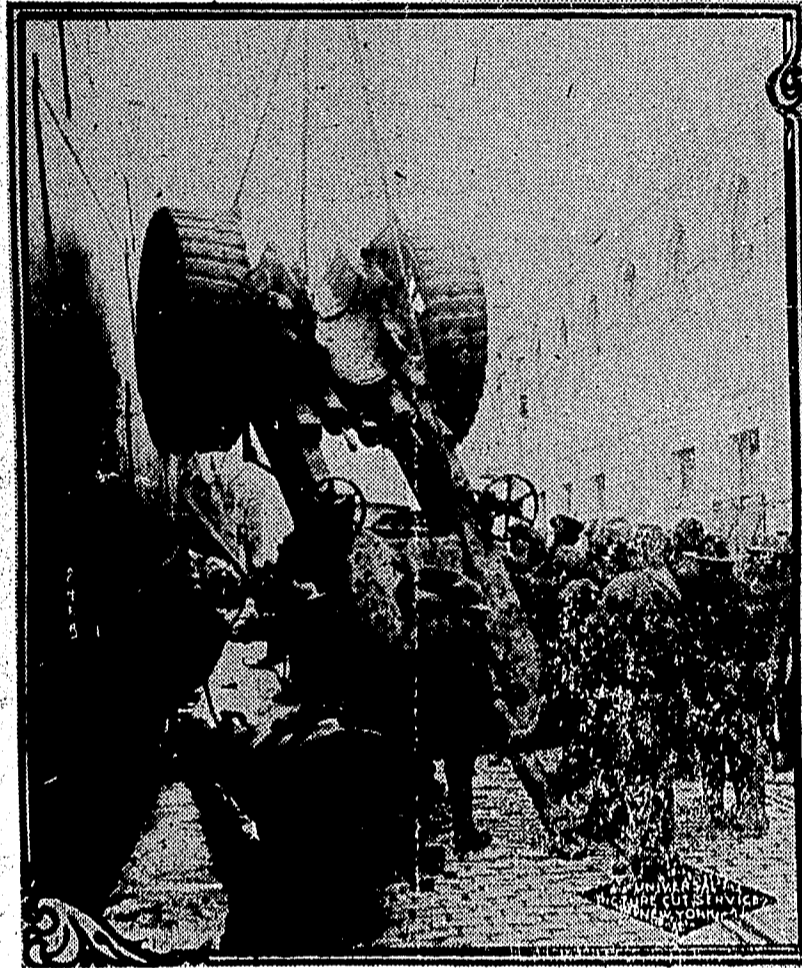

1. MALE BIRDS.—The breeding season being over, all males should be fished and killed. It will cost \$2 or over to keep each male until next breeding season, therefore, get rid of them; it will also be better for the layers, the eggs and the growing chicks.

2. TURKEYS AND WATERFOWL.—Toms and turkey hens, geese and ducks, not absolutely needed for next year's breeding should be disposed of.

3. HENS.—All hens of the heavier classes that are 2 years old and over might better be marketed now. In even the light classes many of this age ought to go. Others that are laying but that are not worth keeping for another year should be kept until the egg yield does not pay for the feed. Better still keep culling out those that show signs of early moulting as you go along.

The best of the one and two-year-olds of the lightest breed might pay to keep all summer, but only the year-olds should be kept over winter, and even these will stand culling fairly closely.

4. BROILERS.—If broilers are early it pays best to sell the cockerels when two or three pounds in weight rather than to keep them till heavier. This is especially so when the sex cannot be separated, and

A British Howitzer going to the Front.

where the runs are small, the pullets will soon require all the room and green feed available.

Light bred cockerels should be sold early; it seldom pays to feed them to maturity.

5. ROASTERS.—Don't leave the marketing of all roasters till late in the fall. Distribute this sale over as long a period as possible. Never market without finishing.

### CHEAPER POULTRY FEED

On account of the scarcity and high price of feed the poultry industry of this country is threatened by the prospect of the wholesale slaughter of laying stock and a serious falling off in the number of pullets to be matured.

The necessity for retaining for milling every possible bushel of wheat suitable for that purpose need not be emphasized. To provide poultrymen with feed for rearing their young stock without unnecessarily lowering the supplies of milling wheat, the Federal Department of Agriculture has requested millers throughout Canada to put on the market the cracked and shrunken wheat removed from grain before it is milled.

In addition to small and broken wheat these cleanings consist chiefly of the seeds of wild buckwheat, a near relative of the cultivated buckwheat. The Poultry Division of the Central Experimental Farm has used wild buckwheat in feeding experiments and reports it to be a highly satisfactory poultry feed and has ordered two cars of buckwheat screenings for the Central and Branch Experimental Farms from the Canadian Government elevators at Fort William. Fowls used to good grain do not take to it at first, but when they become accustomed to it they eat it readily, and do well on it.

The mill cleanings from local flour mills also contain traces of many other weed seeds, including several kinds of mustards. These, however, would not as a rule amount to more than two or three per cent of the cleanings in the case of the standard grades of western wheat. This material is specially recommended for back-yard, suburban and profes-

sional poultrymen. On farms the cleanings from yards and poultry houses where it had been fed would have to be disposed of so as not to disseminate noxious weeds in grain fields.

Those interested in obtaining this class of feed should immediately arrange with local mills or feed dealers for a supply. The mills cannot be expected to keep this material for poultry unless it is demanded for that purpose, and that rests with the poultrymen themselves.

Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

music, singing, sewing, kitchen gardening, and gymnasium.

The Naramata Fruit Company's packing house, under the management of Mr Victor Watson, is now open. A large number of boxes of cherries have been shipped this week.

Mrs Stanley Dicken (nee Miss Orca Williams) arrived on Saturday night from Lethbridge. Mrs Dicken was accompanied by her sister-in-law, Miss Dorothy Dicken of Fernie, B.C. The latter will spend the summer months in Naramata. Mr Dicken, who is the accountant in the firm of Henderson, Reid, & Patterson of Lethbridge, is expected in the month of August. Mr and Mrs Dicken intend to reside in Naramata for some time. They will live in Mr R. C. Robinson's cottage.

Miss Marjorie Denness from Vancouver, formerly of Australia, is spending her holidays as the guest of her college chum, Miss Dorothy Robinson. Miss Denness likes the Okanagan Valley very much, whose warm climate and picturesque scenery she has favorably compared with those of Australia.

Mrs Raitt and family have moved from Mr Steer's cottage down town to Mr Hook's tent on the hill, where they will be closer to their fruit orchard.

Miss Zella Smith of Vancouver arrived on Sunday morning to spend their vacation with her aunt, Mrs J. M. Robinson.

Mr T. H. Boothe left for the Coast on Monday.

Mrs Languedoc spent Tuesday in Penticton.

Captain Languedoc has been running the ferry for Capt. Roe, who is operating the engine of the pile-driver.

## BE A BOOSTER.

Do you know there's lots of people  
Settin' round in every town;  
Growlin' like a broody chicken,  
Knockin' every good thing down?  
Don't you be that kind o' grouch,  
'Cause they ain't no use on earth,  
You just be a booster rooster,  
Crow and boost for all you're worth.  
If your town needs boostin', boost  
'er,  
Don't hold back and wait to see  
If some other fellow's willin'—  
Sail right in, this country's free.  
No one's got a mortgage on it,  
It's just yours as much as his;  
If your town is shy on boosters,  
You get in the boostin' biz.

If things just don't seem to suit  
you,  
And the world seems kinder  
wrong,  
What's the matter with a boostin'  
Just to help the thing along?  
'Cause if things should stop a goin'  
We'd be in a sorry plight,  
You just keep that horn-a-blowin'—  
Booster' up with all your might.

Mr and Mrs J. M. Robinson and Mrs Gillespie spent Wednesday in Summerland, guests of Dr and Mrs R. C. Lipsett.

Mr McAlpine and his men have completed the work on the government wharf, which was badly in need of repair.

Mrs Anna L. Gillespie of Battle Creek, Mich., who has been visiting in Naramata, expects to leave for that city on Saturday to again take up her work as pastor of the First Spiritualist Church. Mrs Gillespie will visit friends in Winnipeg. She will also visit Mr Gillespie in Chicago, where he holds a position with the Florist Review company, which company is managed by Mr Walter Miller, formerly of Naramata.

Next Monday evening a social will be held in the Methodist Church. A fine musical program is being prepared. This affair will celebrate the seventh anniversary of the church.

Mr Charles Johnston is slowly recovering from his severe illness.

French Curassier inquiring the way to his destination.

If you know some fellow's failin's  
Just forget e'm, cause you know  
That the same chap's got some  
good points,  
Them's the ones you want to show.  
"Cast your loaves out on the  
water,  
They'll come back," a sayin' trite,  
Mebbe, too, they'll come back  
"buttered"  
When some feller boosts for you.

## Doings of Peachland

A Weekly Chronicle Furnished By Our Local Representative.

Miss Bessie Seaton returned from Vernon on Wednesday to spend the holidays with her mother.

Mr A. Stabler came in on Wednesday from Kelowna.

About twenty-five members of the Women's Institute either drove or motored down to the Experimental Farm at Summerland, where they were kindly entertained by the Summerland Institutes. The drive there and back was delightful, and apart from the very high wind which sprang up in the afternoon, the time spent at the Farm was much enjoyed. Everything was done to make the visit an interesting one, and Mr Helmer and others took the visitors to the different points of interest and explained the various experiments that are going on. Visitors got quite a good idea of the extent of the Farm, for the winding road which led to the top of the hill where the picnic was held was bordered by model plots where hay and cereal crops were growing. Everything was in perfect order, and most of the crops

seemed to be doing well. Refreshments were served in a large marquee, which was gaily decorated with flags and bunting. The Summerland Institutes must have had a great deal of hard work to prepare for the picnic, but it was all very much appreciated by the visitors.

Rev. W. J. and Mrs Scott returned from the Coast on Thursday, where they had gone to attend the Baptist Convention at New Westminster.

Mr A. Stabler went up to Vernon on Friday morning, returning on Saturday night. He took the service at the Baptist Church on Sunday morning in the pastor's absence and taught the Bible Class. He left for Okanagan Landing on Monday morning, accompanied by Miss Edna, who is going to visit friends there.

After taking in the picnic at Summerland Mrs A. Town went to Naramata returning home on Friday morning.

Mrs Hendrickson was a passenger to Vernon on Monday.

The newly formed Peachland Civic League held a meeting in the reading room last Friday evening, President E. W. Leeson in the chair. There were also present Reeve Morrison, Rev. J. A. Rowland, Rev. W. J. Scott, Mr L. D. McCall, Mr A. Town, Mr H. H. Thompson, Mr R. J. Hogg and Mrs Hogg, Mrs J. B. Robinson and George Robinson, and Miss Leone Morrison. Rev. J. A. Rowland was elected Secretary-Treasurer of the League. The minutes of the meeting of organization having been read and approved, a draft constitution was submitted, and, after due discussion of amendment, it was adopted. The object of the League is the mutual improvement of the members and citizens, and to take any action that will be for the benefit of the community. A meeting was arranged to be held on Tuesday the 10th inst., to welcome home the two soldiers in our midst, Private Peter C. Creswell and Private E. S. Smith.

Mrs Nash and little daughter of Kelowna are visiting at Mr Oliver Keatings.

Mr George Ferguson of Arthur, Ontario, is visiting his cousin, Mr James Hay at the cement works.

Mr W. M. Urquhart returned from Summerland where he had been to meet his grandson, Master Montgomery Hood, who has come to spend the holidays with his grandparents. He also brought back Mrs Urquhart and Miss Dimmock, who had stayed over in Summerland after the Institute picnic to visit friends there.

Miss Mary Miller arrived home from Victoria to spend the holidays with her mother.

Mrs N. J. Porter of Moose Jaw came in on Thursday, and is visiting Mr and Mrs George Keys.

Mr and Mrs Pinnakee and Miss Emma went to Kelowna on Saturday, returning the same day.

Mr J. Stewart of the "Sicamous" staff spent Sunday in town as the guest of Mr and Mrs O. Keatings.

Mrs H. E. McCall and little daughter Alice arrived home on Sunday after a month's visit to the Coast.

Miss Kate Miller arrived home from McLeod, Alberta, on Tuesday, where she has been on the staff of the hospital. Her mother, Mrs A. W. Miller, met her at Penticton and accompanied her home.

Rev. W. J. Scott returned home from Summerland on Monday morning where he went to take the service at the Parkdale Baptist Church.

Miss Smellie, who has been visiting her uncle and aunt Mr and Mrs R. J. Hogg, left on Tuesday morning for Winnipeg, where she will visit friends for a short time before returning to her home in Russell, Manitoba.

Mrs C. Aitkins was a passenger to Kelowna on Tuesday to visit her daughter, Mrs Lupton.

The last load of earth has been put on the tennis court, and it will soon be in proper shape for playing.

Mrs House was a passenger to Summerland on Tuesday evening, where she is going to visit Miss Dancer.

Can. Con. Hospital, Bear Wood, Wokingham, Berks.

May 29th, 1917.

Many thanks for the lovely parcel sent from the Home Comfort Club. Everything inside was in good condition, and very acceptable.

Yours faithfully, GEO. D. FISHER.

MUNICIPAL COUNCIL AND SCHOOL BOARD IN BETTER ACCORD.

(Continued from page 1)

was justified. In concluding his review of the figures, Mr Bowering maintained that, with the exception of about \$15, the estimates had not been exceeded.

Mr. Logie, comparing the first five months of the year 1917 with those of 1916, insisted that the ordinary expenditure had exceeded that of 1916 by \$647. He had not criticized the Board, and his reference to the increase was not to find fault.

Weather Report

Abstract from weather records for June, 1917, kept at the Government Station, Balcom Ranch, Summerland, B.C.

Table with 5 columns: June, Maximum, Minimum, Sunshine hr. min., Rainfall Ins. Rows 1-30 showing daily weather data.

Averages and Totals table for 1917 and 1916, including Maximum, Minimum, Sunshine, and Rainfall.

Bowering's statement therein that the Clerk had "managed to stampede" the Council. The Reeve interrupted the reading of the letter with the remark that it was not worth reading, while Mr Logie denied saying that the school expenditure should have been less than last year.

Coun. English, stating that he was new on the Board, said that he had not taken into account extra school expenditures necessary when he proposed the motion. He now felt that more light might have been thrown on school finances by the treasurer.

Mr Bowering said that it was evident that the whole thing was misunderstood by the Council, whereupon Coun. Simpson said that the Board would expect some action, and proposed the following resolution: "That this Council, having received the explanation of school expenditures for the first five months of this year, kindly furnished by the delegation from the School Board, express herewith their satisfaction that the larger expenditure for these months, in comparison with the corresponding months of last year, does not mean that the estimates for the year will be exceeded."

This satisfied Mr Sharp, who also asked why the Treasurer would not give the Secretary a statement of monies received. To this question the Reeve asked the Treasurer to reply. This reply was to the effect that he had told the Secretary that he had already in his possession all the necessary information to complete his yearly report to the department. Had the now Secretary not published such a letter as he had sent the Review, he would have helped him with his statement. The Reeve supported the Treasurer in this, saying that it was not part of his duty to give the information. He would have given it if the Secretary of the Board had not slapped the Treasurer in the face as he had.

REMOVABLE.

A sweet little girl at a party was being questioned about a beautiful doll she had just received for Christmas. The mother was booming with delight at the attention her daughter was receiving, when the little girl said:

"Why, do you know the hair on my doll's head comes off just like Mummy's!"

TELEPHONE COMPANY INSISTS THAT COUNCIL KEEPS TREES TRIMMED.

(Continued from p. 1)

Trout Creek system.

The Council decided to visit the Koop ranch and Gordon ranch to see if better water service can be arranged, and at the same time look into Mr Koop's claim for reduced acreage for tax purposes.

A letter was received from the Acting District Engineer in which he said that he had received complaints of water running on to the lakeshore road to the north of the C.P.R. wharf, and asked that the Council take action and have this trouble stopped. This provoked a general discussion on this oft recurring subject, and the Clerk was instructed to advise the Engineer that the matter was receiving the attention of the Council.

Accounts as below were approved for payment:

Table listing various accounts for payment with amounts, including Steuart Fruit Co., G. R. Hookham & Co., Review Publishing Co., etc.

When the Electric Light Committee met Mr Dobie later in the week beside the trees which have been causing the dispute, Mr Dobie agreed to move the wires out to the street end of the projecting arms so that the wires would be free of the trees. He insists, however, that the municipality must keep the trees trimmed, stating that increasing business may make it necessary to run more wires at any time. That his company has the right-of-way is evident, he says, in the fact that the municipality taxes them on their pole line.

TWO CARS MEET IN HEAD ON COLLISION.

other road by autos. Long recognized as dangerous, surely to-day's accident, following so closely as it does that of a few days ago, when several narrowly escaped death, will convince our municipal authorities that the time has come when this piece of road should be widened and the gravel bank cut back. Though the Treasury is short of funds, we are sure that every ratepayer would approve the instant removal of this menace to public safety. Particularly for the guidance of strangers, "Go Slow" sign posts should be placed there at once.

RECIPES FOR KILLING FLIES.

The United States Government makes the following suggestion for the destruction of house flies: Formaldehyde and sodium salicylate are the two best fly poisons. Both are superior to arsenic. They have their advantages for household use. They are not a poison to children; they are convenient to handle, their dilutions are simple and they attract the flies.

A formaldehyde solution of approximately the correct strength may be made by adding 3 teaspoonfuls of the concentrated formaldehyde solution, commercially known as formalin, to a pint of water. Similarly, the proper concentration of sodium salicylate may be obtained by dissolving 3 teaspoonfuls of the pure chemical (a powder) to a pint of water.

A glass tumbler and a saucer make a container which has been found convenient for automatically keeping the solution always available for flies to drink. An ordinary drinking glass is filled or partially filled with the solution. A saucer, or small plate, in which is placed a piece of WHITE blotting paper cut a little smaller than the dish, is put bottom up over the glass. The whole is then quickly inverted, a match placed under the edge of the glass, and the container is ready for use. As the solution dries out of the saucer the liquid seal at the edge of the glass is broken and more liquid flows into the lower receptacle. Thus the paper is always kept moist.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 9, No. 51. Whole No. 468.

SUMMERLAND, B.C., JULY 20, 1917.

\$2.00, payable in advance.

## Protect Interests of Fruit Shippers

### Dom. Govt. Creates Transportation Dept. of Fruit Branch

### New Official Visits Sum'land Seeking Information.

There has been recently created by the Dominion Government a new department to the Fruit Branch of the Department of Agriculture which will certainly fill a long felt want with fruit shippers and the trade generally. This new branch for the encouragement of the fruit industry is devoted wholly to transportation in its various phases in relation to the fruit business, now one of Canada's chief industries. At the head of this new department has been placed Mr George E. McIntosh, who for a number of years has wrestled with transportation problems for Ontario fruit growers, and takes up his work in the larger field well qualified to protect the interests of fruit shippers.

With Chief Dominion Fruit Inspector R. G. L. Clark, Mr McIntosh made a short visit to Summerland on Wednesday and looked thoroughly into the situation here, inspecting shipping facilities of C.P.R. and K.V.R., and inquiring of a few of the shippers, with whom he came in contact, of the service given. Considerable data of value in his work was also obtained.

Mr McIntosh, who is directly under Fruit Commissioner Mr D. Johnson, says that the government now realizes that while they have done much to assist and encourage the fruit grower in the production of fruit, the equally important phase of the industry, that of getting fruit to market, has been largely neglected. Mr McIntosh will represent fruit growers and fruit shippers, and will take up with the transportation companies any complaint and in every way try to obtain the best service at the lowest possible cost. Where matters cannot be satisfactorily adjusted with the railway companies, questions in dispute will be placed before the Railway Commission.

Earlier in the week Inspector Clark had arranged with the Review to call together a number of representative citizens to meet Mr McIntosh, but this arrangement miscarried through Mr Clark's inability to make known to the Review in time Mr McIntosh's plan.

Mr McIntosh will probably visit at least once a year the principal fruit shipping points throughout Canada.

## N.S. Apples a Light Crop.

### Few Apples in Eastern Canada This Season.

About three weeks ago, D. Johnson, Fruit Commissioner of Canada, in a preliminary survey of apple prospects, expressed the opinion that Ontario would not have more than a 25 per cent crop, but that Nova Scotia's crop would be a good one, both in quantity and quality. Like other parts of Canada, this season down in the Atlantic province has been backward. Later developments there have completely changed the crop outlook. Continued wet weather is causing an increase of fungus growth, according to a press dispatch from Halifax. This is causing a dropping of the fruit. In addition to this the ravages of the canker worm are the worst ever known in the history of apple growing in Nova Scotia.

## Major Hutton Writes from Italy

The following interesting letter from Major Hutton to the Summerland Troop Boy Scouts was read by the Scoutmaster to the boys assembled in, Ellison Hall last Friday evening. Since the organization of the Boy Scouts in Summerland the late Mrs Hutton always took a kindly interest in the troop. On more than one occasion the success of their summer camps was assured through the kindness of Mrs Hutton. Major Hutton, who has been an honorary official in the local organization has always manifested a deep interest in the Boy Scout movement. It was only natural therefore that upon learning of the death of Mrs Hutton, the Boy Scouts should forward resolutions of condolence to the bereaved husband and daughter.

British Military Mission,  
Comando Supremo, Italy.  
17, VI. 17.

Dear Sir,

I am in receipt of your notification of the kind expression of sympathy on the part of the Summerland Boy Scouts, and beg you to convey to them the best thanks and warm appreciation of both Mrs Acland and myself. You are correct in thinking my wife took great interest in them. Like a true soldier's daughter she loved them and all they stand for.

It may interest the boys to know that on the very evening I received your letter, I had just returned from spending some days in the firing line of the Italians, and particularly with our British artillery on the Carso. I was with one of the howitzer batteries which fired 600 rounds in about an hour and 10 minutes, i.e., an average of two a minute to each gun. As the shells weigh about 35 lbs., and it was over 90 degrees in the shade, it was pretty good work. Fortunately the casualties were light, though several were killed who could ill be spared. One was a battery Sergt.-Major who had completed 17 years of service, and had joined up again because he thought it was his duty. The Carso is not unlike some parts of B.C., but nearly every trench, shelter, or gun position has to be blasted out of the rock with dynamite, and if a shell drops near you, the splinters of rock are more dangerous than the splinters of shell.

In the Trentino (among the Alps) it is like fighting in the Rockies, and the military roads (miles and miles), and the aerial railroads, which the Italians have made up to their positions in the mountains, are wonderful.

With best regards,  
Yours very truly,  
E. E. HUTTON, Major G.S.

## Run-Away Accident.

As the result of a run-away accident on Saturday forenoon, Mr W. C. W. Fosbery will be forced to lie on his back for several weeks. While coming down the hill from Jones Flat, and almost directly in front of his own home, the rack of his wagon became disarranged and slid forward against the horses, startling them. The accident deprived Mr Fosbery of any foot brace, and he was unable to hold the frightened horses back. Almost immediately they had gained speed, and the wagon striking a stone the jolt threw Mr Fosbery clear of the rig and he fell heavily, injuring his spinal column. With several weeks of complete rest it is hoped that he will fully recover from the effects of the accident.

## Hottest Weather In Seven Years

### Long Dry Spell Severely Testing Water System

The hottest for seven years! Not in all this time has Summerland experienced such warm weather as has prevailed since the first of the month. The maximum was reached on Tuesday and Wednesday at Balcomo Ranch when the thermometer registered 96. One has to go back over the records to 1908 to find such a temperature. In July of that year the thermometer reached 98 on one day. At the Experimental Station the daily records of temperatures for the month to date are as follows. The thermometer there is on the bench near the railway:

July	Max.	Min.	July	Max.	Min.
1	80	49	11	93	61
2	85	53	12	91	59
3	82	60	13	87	60
4	80	57	14	89	58
5	83	52	15	89	61
6	81	49	16	95	62
7	85	50	17	97	63
8	86	53	18	98	63
9	86	65	19	94	66
10	90	60			

The long spell of hot, dry weather is severely testing our water system and making heavy inroads

on our reserve water supply. The upper dam on Eneas Creek was opened some time ago and early this week men were sent to the headwaters of Trout Creek to release the reserve water supply there. It is estimated that the water held there will give about a three weeks supply. It is hoped that before this reserve is exhausted relief will come in the form of rain.

The present critical situation is conclusive evidence of the imperative need of immediate action on the part of the province to provide increased storage facilities in practically all irrigated districts. The water situation is even more critical in many other districts in the Valley. In fact, in some places, apples are being heavily thinned in an endeavor to save part of the crop.

A recent visitor to Oroville stated that the temperature was 104 in the shade at the boundary customs house, and in Oroville at sundown he found it 103, and the night was unbearably hot.

## A. E. Trayler Badly Hurt.

As the result of the breaking of a hay-rack filled with hay, while descending a hillside, Mr A. E. Trayler now lies in the hospital with a fractured skull and broken jaw-bone. It was on Tuesday on the Dodwell ranch that the accident occurred, while Mr Trayler was driving a team of horses with a load of hay on the hillside from near the K.V.R. line. The breaking of the front upright caused the load, with Mr Trayler upon it, to slide forward on to the horses, and the frightened animals at once plunged for freedom. Just how Mr Trayler came to be so badly broken up is not known, but it is thought that the wheels of the loaded wagon passed over his head. A call for the doctor was at once put in, and neighbors rushed to assist Mr Dodwell with the injured man. His condition was so critical that it was not considered advisable to move him to the hospital until Wednesday morning. We are glad to be able to report that his condition has improved, so much so that on Thursday Mr Trayler asked for a newspaper.

Though the frightened horses raced wildly about the neighborhood for some time, there was fortunately little damage done. The verandah of the Dodwell home was damaged, and for a time the runaway horses, still attached to the wagon, were held, one each side of an apple tree. This soon gave way, and knocking down the gate, they continued on their wild career. Later they were caught by Mr J. R. Doherty.

## IRRIGATION INVESTIGATORS HAVE BEEN NAMED

Victoria, July 17.—The appointment by order-in-council was made to-day of J. S. T. Alexander, E. J. E. Davis, and F. H. Kidd as investigators to inquire into the existing irrigation systems of the Okanagan Valley at Peachland, Summerland and Westbank.

A party of Grain Growers' officials, who are touring the Valley for the purpose of getting firsthand information are expected to reach Summerland about noon today.

## Will Advertise Canadian Apples

President C. E. Barnes and Mr R. M. Palmer of the B.C. Fruit Growers' Association, who have recently returned from Ottawa, where they interviewed the government on the apple embargo question, reported at a recent meeting of the executive of the association that they were offered but little encouragement that the embargo would be removed. The government, however, would probably run a strenuous campaign advocating the eating of fruit by the people of the Dominion so as to save the supply of cereals. As this action was being taken in the United States on a very extravagant scale there appeared to be little doubt that the demand for fruit of all kinds, especially apples, would be very heavy in the whole of North America. They also stated that the farmers on the prairies were in entire sympathy with the position of the fruit ranchers.

## Fire Again Gives Alarm

The fire which has been burning for some time on the hill north of Jones Flat again occasioned considerable alarm on Thursday when several of the houses were in much danger. For a good part of the day men fought the spreading blaze, and shortly before six o'clock a call was made, through the telephone exchange, for help from town. The Review has been asked by Mrs A. C. Stewart, to thank the many who responded and helped to save her home and those of her neighbors. A guard was kept throughout the night lest the fire should again sweep down the hillside and endanger the houses below.

The Post Office Department is issuing a post card in commemoration of the fiftieth anniversary of Confederation. A three-cent stamp of like nature is now in course of preparation, and is expected to be issued early in August. The post cards will give interesting statistics, while the commemorative stamp will bear a reproduction of Plinting's "Fathers of Confederation."

## Head of Consumers' League in Town

A lady whose efforts in the interest of the British Columbia Fruit Growers has made her name a familiar one with many, was a visitor to Summerland last week-end. We refer to Mrs J. C. Kemp, President of the B.C. Consumers' League, with headquarters at Vancouver, an organization whose object is the extension of the local markets for local products, and to the exclusion, as far as possible, of imported goods.

Mrs Kemp has been touring the Okanagan to get first hand information as to the need of fruit pickers in the various fruit districts. She is an untiring worker, and is determined that no part of the fruit crop shall remain on the trees for lack of pickers. Mrs Kemp takes back with her a number of applications from other Valley districts for help, but found here that most of the fruit growers were depending on local help, although a few have made private arrangements for assistance from outside. The lady pickers who were placed by the League in the small fruit districts of the lower mainland have been getting along well.

The organization, of which Mrs Kemp is president, is continuing its vigorous campaign in the Coast cities, urging consumers to use B.C. fruit in preference to any other.

## Will Buy Our Apples.

Mr R. G. L. Clark, Dominion Fruit Inspector for British Columbia, has just returned from a visit to Ontario. In discussing with the Review on Tuesday the apple outlook, Mr Clark said that Western Ontario would not have enough apples for local consumption, and that if apple shippers of British Columbia went about it right they would find a very good market for apples in Toronto, Hamilton, Montreal, and other eastern cities. A number of cars of apples from this province were shipped to Ontario last year and were well received. Mr Clark is confident that this year is a favorable one for greatly extending the sale of B.C. apples in the east.

Here evidently is another market that will take not a few carloads of apples from this province, and thus still further improve a situation that at one time looked bad enough, but on the whole is now quite encouraging.

## Would Rebuild Dunsdon Dam

The surprising and greatly disappointing shortage in the water supply from the Eneas Creek water system this season, has further emphasized the need of greater storage facilities and revived the suggestion that the old Dunsdon dam be rebuilt. One citizen, a resident of Jones Flat, where the shortage is most felt, is so convinced that this is the proper course to take to relieve the situation for the next and following years, says he is willing to be one of a number of Jones Flat fruit growers to give free labor in the reconstruction of this dam. He thinks the importance of the situation more than offsets the rendering useless for a short time of the road which the filling of the dam would overflow. But for this road, which some of the municipal authorities maintain was built without the knowledge or approval of the municipality, this dam would doubtless have been rebuilt before this.

## Re-opening of Jam Factory Is Assured

### Has Big Order for Tomato Ketchup.

### Will also Can Tomatoes, Pears, &c.

Sixty thousand pounds of tomato ketchup will be part of the output of the local jam factory, provided negotiations, now progressing favorably, are satisfactorily concluded for the leasing of that plant to Mr O. H. Broder, whose coming to Summerland was mentioned in these columns last week. Mr Broder has already ordered some additional machinery, and upon confirmation of the order, will proceed at once to contract for a supply of tomatoes and fruit. He is planning to bring four hundred tons of tomatoes from Kelowna. Just what he will do in the way of canning is not yet known, but we understand that Mr Broder will be prepared to can all the tomatoes he can procure, and will also want to secure a large supply of pears for canning.

Part, or all, of the equipment of the Smith cannery may be utilized. If satisfactory arrangements are made it may be that the cannery machinery may be moved to the jamming plant in Peach Orchard.

## Premature Picking Causes Big Loss

Not for many years, if ever, has there been brought to the packing houses such a large number of unsalable, immatured cherries, as has been brought in this year. One official, in a position to know, estimates that there will be a 50 per cent loss of the possible crop, because of this. This includes the loss in tonnage, due to picking before the fruit reached fullest size. At the packing houses the culling has been very heavy. Several reasons are suggested, but in every case much of the responsibility is placed on the packing houses for not advising the growers just when to bring in the different varieties. The employing of inexperienced pickers, an endeavor to keep in advance of the rapidly maturing fruit, due to the hot weather, and fear that rain might come and spoil the crop, are probable explanations for the premature gathering of the fruit. The mistake is not confined to any one locality. This week an inspector picked over, cherry by cherry, a package from a neighboring district, and found only 25 per cent of marketable fruit in the package.

## SUCCESSOR APPOINTED TO R. M. WINSLOW, RESIGNED

Mr M. S. Middleton of the Provincial Department of Agriculture, well-known throughout the Interior, and until now with headquarters at Nelson, has been appointed Provincial Horticulturist and Inspector of Fruit Posts, in succession to Mr R. M. Winslow, resigned. Mr Winslow, who for a number of years has officiously filled this important position, has also been secretary of the B.C. Fruit Growers' Association since 1910, is a graduate of the Guelph College of Agriculture, and has been an active worker for the good of the agricultural and horticultural interests of British Columbia. He resigned to accept a position as manager of the Mutual Brokers, Limited, with headquarters at Vancouver.

# The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED,  
RALPH E. WHITE, MANAGING DIRECTOR

FRIDAY, JULY 20, 1917.

Though prepared for those parts of Canada where precipitation is heavier than in the Okanagan, the following item on the growing of potatoes will be helpful to those of our readers who this year have their own potato patches.

## Keep the Potatoes Green and Growing (Experimental Farms Note).

Many are growing potatoes this year for the first time and as a result of the greatly increased number of growers the crop will probably be greatly increased. But to insure a good crop there must be an abundance of moisture in the soil and the tops must be protected from insects and diseases.

The soil should be kept cultivated with the cultivator or hoe until the tops meet sufficiently to shade the ground. As most of the tubers develop in the three or four inches of soil nearest the surface, and as the tubers will not develop well in dry soil, quite shallow cultivation is desirable at this season of the year. In soil which is dry there may be good development of tops but there will be few tubers. The roots in such cases have gone down deep into the soil to obtain moisture but the tuber-bearing stems, which are quite different from the root system, do not develop well. Where the soil is a loose, sandy loam, hilling is not necessary and may be injurious, as the soil dries out more than if left on the level. In heavy soils it is desirable to hill the potatoes as it will loosen the soil and the tubers will be shapelier than when the ground is left level. When there is sufficient rainfall and moisture in the soil hilling is likely to give best results in all kinds of soil, as the soil will be looser and the tubers can push through it readily. As a great development of tubers takes place during the cooler and usually moister weather of the latter part of summer, it is very important to keep the plants growing well until then. In one experiment it was shown that during the month of September there was an increase of 119 bushels of potatoes per acre.

## Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Mr W. C. Kelley will conduct the service on Sunday evening at 7.30 in the Parkdale Baptist Church.

Mr F. W. L. Slade, Ottawa, is at the Experimental Station to-day, gathering specimens of insects.

Mr C. E. Barnes, President of the B.C. Fruit Growers' Association, was one of a party of motorists who were in town for a short time this morning.

214 head of sheep have just been added by Mr Wm. Brent to his flock at Shingle Creek. Mr Brent was able to purchase these at exceptionally low prices, and will probably add still more to his flock.

## Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

### Civic League's First Public Meeting

Welcomed Home the Returned Soldiers

The Orange Hall was crowded on Tuesday evening the 10th inst., when the citizens met to welcome home Privates Peter Cresswell and Ted Smith. The President, Mr E. W. Leeson, was in the chair, and opened the meeting and told of the work that Civic Leagues in other places had accomplished, and what it was possible for it to accomplish here. He then explained the reason for the meeting that night and ended by saying that as they wanted everything to be as homelike as possible they would start off with a chorus that everyone could join in viz., "When the Boys Come Home." Rev. W. J. Scott then spoke a few words of welcome, followed by Rev. J. A. Rowland, who asked the people to give three cheers and a tiger for the returned men, which they did most heartily. Mr R. J. Hogg told of the time when they had said good-bye to the boys when they left for the front, and how proud they had been to see them go, for they were going to do their duty. He then spoke of the joy he had in welcoming them home.

Both Privates Cresswell and Smith protested and said that they could not make a speech, when asked to reply to the words of welcome, but when they came to the front and began to speak they carried their audience by storm, for they were able to express themselves well, and made the story of their lives in the trenches and in the hospital a living reality, and those who listened got a glimpse of life at the front which was much more vivid than many you read in the newspapers.

Private Smith said that in seven months he wrote 140 letters, and only two did not get to their destination, and those were addressed to Canada, and he believed they went down with the "Asperian." The postal service was so good that he did not lose any letters or parcels which were sent to him. He was asked what he most appreciated in his parcels from home, and he said that personally he liked the clothing best because at the present time the Y.M.C.A. canteens made it possible for the men to buy extra food at almost wholesale prices, but hand knitted socks, which were such a comfort and necessity, could not be bought at any price.

Private Cresswell told of his experiences after he was wounded, and of the splendid treatment he received at the various dressing stations and in the hospitals of France and England, and finally in Toronto. He spoke of the care with which they carry the wounded so as to prevent any jar, and of the trains which were fitted up with berths on springs. He spoke of the wonderful skill of the surgeon who amputated his leg, and of the good piece of work he did. He said that the surgeons are some of the highest up in their profession.

Mr Leeson said in closing that he had been to many returned soldiers meetings but he thought that this one was the very best he had ever attended.

During the evening the following program was rendered, and was much appreciated:

- Instrumental, Mr Smalls and Mr Fulton, accompanied by Mrs Mitchell.
- Solo, "There is a Land," Mrs J. Elliott.
- Solo, Mrs Moore, "Belgium Shall and Must be Free."
- Solo, Private Ted Smith, "Mother McCree."
- Solo, Mrs Mitchell.
- Solo, Miss Urn Leeson.

Mrs Nash and little daughter of Kelowna, who have been visiting at Mr and Mrs O. Kentings, returned home on Wednesday.

Mrs Robison, who has been visiting her son, Mr Robison, returned to her home in Vernon on Wednesday.

Mrs Fulton was a passenger to Kelowna on Wednesday, returning the same day.

Mrs Cartwright of Okanagan Landing, and her children Master Frank and Miss Margaret Verey, and the two Clunias girls, came down on Wednesday to visit Mrs Cartwright's parents, Mr and Mrs W. J. Moore. Mrs Cartwright re-

## High School Examinations

Only 4 of the 10 who wrote on the High School examinations have been passed by the examiners. The names of the four are not yet available. The proportion is disappointingly low, and all interested will be impatient to learn the names of those who succeeded in passing.

The results in other Valley towns are shown below:

	No.	Passed
Naramata	4	1
Penticton	18	11
Kelowna	12	8
Vernon	9	4
Armstrong	17	13

### Boy Scouts Assist Hospital

The Editor, Summerland Review. Dear Sir,

Will you allow me to thank the Boy Scouts through your columns for their very kind and much appreciated contribution of \$10 to the building fund of the Summerland Hospital.

It is well known that the Board is endeavoring to have the rooms above the Hospital completed for the use of the nursing staff, which has been delayed so long, so that this is particularly welcome just now.

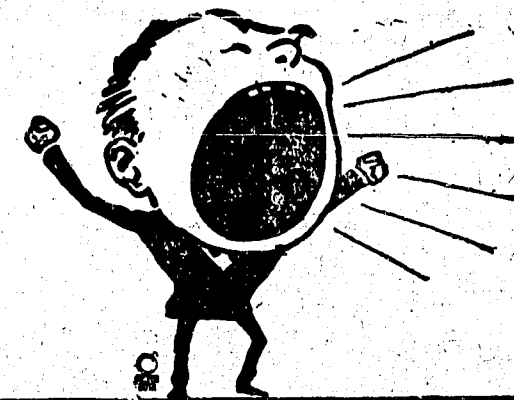

The Boy Scouts have done wonders since the war began in helping various funds, and a record of it should be published as an encouragement to them, if they could be induced to give particulars.

E. B. MAY,  
Hon. Treas.  
Summerland Hospital.

turned to Okanagan Landing on Saturday, but the children stayed to spend part of their holidays here.

Mr H. H. Thompson launched his gasoline launch "Argo" on Wednesday in order to take a number of the members of the Baptist Sunday School down to Crescent Beach on Thursday where they joined.

KETTLE VALLEY RAILWAY

TIME TABLE

Table showing train schedules for Kettle Valley Railway, including times for No. 9 Daily Westbound and No. 10 Daily Eastbound.

O. E. FISHER, Traffic Manager. H. B. YOUNG, Agent, West S. Inland.

Mrs J. L. Hilborn, who has been visiting with friends in Kelowna, returned on Saturday evening.

In the death of Corporal Clarence Raymer of Kelowna, Mr and Mrs Raymer have lost their second son on the battlefields of France.

Mrs Harvey Unkenholz, with her little son, Blair, of Boston, arrived here last week to spend the summer at the home of her father, Mr Isaac Blair.

Mrs H. Reynolds returned a few days ago from a short visit to Victoria and Vancouver, the occasion of her visit being to say good-bye to Mr Reynolds, who has left camp at Victoria for Petawawa.

Will the ladies when doing up their fruit please remember the hospital and do up a few extra bottles for that worthy institution. Empty bottles may be had at the hospital.

A cablegram brought to Mr and Mrs J. E. Phinney on Thursday morning the distressing news that their son Norman had been dangerously wounded. There will be general sympathy felt for Mr and Mrs Phinney, who have sent three of their sons to fight the battles of freedom and right.

Mr A. E. Rose of Revelstoke, owner of an orchard property near the K.V.R. bridge across Trout Creek, came down to Summerland on Monday evening and went on to Vancouver the next night by K.V.R.

The Ambulance League have a few jam tins to give out to any who will make jam for the soldiers. These can be obtained from the Parish Hall. 1 lb. coffee tins with tight-fitting lids will be most acceptable to the Ambulance League for filling with jam.

We understand that Mr R. C. Barker, for many years train dispatcher with the C.P.R., and now in the divisional office at Revelstoke, has been given the appointment of permanent agent in the C.P.R. at Summerland, and that he will take on his new duties about the 1st of August.

Postmaster Hayes was stopped on the street a few evenings ago by a stranger, who made the suggestion that the townspeople take a half holiday and free the side-walks of weeds and shrubbery, the vigorous growth of which is causing them to become a hindrance to pedestrians and unsightly to all.

The Post Office Department, in response to the request of the Board of Trade for a street letter box at the post office or C.P.R. wharf, preferably the former, has placed a letter box on the end of the ticket office at the wharf. With the better service being voluntarily given by Postmaster Hayes in keeping the mail open until 10 o'clock every evening, there will not be the same need for the box as when the mail closed at 9 o'clock, and on Thursdays at 8 o'clock.

Mr T. W. Collinge, who says he has been greatly interested in the descriptions of the Okanagan he has read in the British Columbia Building, London, is here, as he says, to verify the statements published in the advertising literature of this province pertaining to the Okanagan. He expresses surprise and delight with what he has seen, and says he is mightily pleased with our fair valley.

The ferry will resume its Thursday afternoon trips to Penticton on and after next Thursday, July 5th.

Mr and Mrs K. S. Hogg and two children returned on Wednesday from a motor trip down to Washington State.

Mrs Hamilton Lang of Vernon, with her two boys, is spending two weeks here with her sister, Mrs R. H. Helmer.

There is being assembled this week at the Fruit Union a carload of cherries which is being pre-cooled for shipment to Winnipeg.

Principal McIntosh of the High School and his assistant, Mr Denton, are both taking special courses at the summer school for teachers in Victoria.

Miss Matthewman, who has been studying music in the east, has arrived in Summerland to spend the summer with her parents, Dr and Mrs Matthewman.

In a recent letter from their son Roy, who is in a convalescent hospital at Balfour, Mr and Mrs Scott Darkis have been advised that he is again suffering from an attack of pleurisy.

Professor Clement of the Agriculture College, University of British Columbia, has accepted the position of Secretary of the British Columbia Fruit Growers' Association in succession to Mr R. M. Winslow.

Mr and Mrs Roy Skinner of St John, N.B., with their three children, are expected to reach Summerland to-night. Mrs Skinner and little ones will spend the summer with her parents, Mr and Mrs Wm. Kerr, while Mr Skinner will stay here for about ten days.

We were informed this week on good authority that Naramata has the distinction of having the orchard which will produce the largest crop of cherries of any single orchard in the South Okanagan. This orchard is the property of Mr J. C. Lyons, on which he has 101 cherry trees. One other orchard, on the Greta ranch, has a larger number of cherry trees, but they are smaller and younger.

Harry Brewer, a former citizen of Summerland and owner of property in Prairie Valley, surprised his friends here when he came in from the Coast recently to spend two days here. Early in the war, Mr Brewer went to Calgary and enlisted, but was later discharged as physically unfit, and later went to New Zealand where his father resides, stopping off at Honolulu to visit relatives. He tells of a great surprise he received when he had again taken ship at Honolulu, and going to the breakfast table came face to face with Mr C. J. Thomson who was then on his way to Australia.

When some of the Okanagan United Growers officials from the north end of the Valley visited Summerland several weeks ago they seemed to question the keeping qualities of Summerland Jonathans, stating that Jonathans were unsaleable after the first of the year. The Review was shown several well preserved specimens of this variety taken from a box of culls a few days ago. The Editor last week ate some excellent apple sauce made of Jonathans grown on his own place, the apples being stored unwrapped in the basement of the house. These apples have been good for eating raw almost up to the present time.

On Saturday, July 18th, a very successful social and dance was held in the Meadow Valley School, over 40 persons being present. Rev. J. J. Baker acted as chairman, and it was the general expression that it was the most enjoyable evening that had ever been held at Meadow Valley. The collection amounted to \$10, which will be used for Red Cross work. During the evening the following program was carried out:—The Maple Leaf, Audience; Chairman's Remarks; Recitation, Mrs Munro; Violin Solo, Mr E. Hunt; Duet, Ye Banks and Bros, Mrs Leo and Mrs Hunt; Recitation, Who Ate the Jam, Miss Hutten; Duet, Juanita, by request, Mrs Leo and Mrs Oxley; Sketch, Company, The Taming of the Shrew.

Mrs R. W. Kelly of Armstrong is spending a few days here with Mrs George Andrews.

Among a number of soldiers arriving in Vancouver this week from the front, was Ed. Hayward of Naramata.

Kenneth Elliott, who has been spending his vacation here, returned to Vancouver by K.V.R. on Monday evening.

A recent Vancouver market report states that some of the Okanagan "Bings" on display there were fully equal to any imported cherries, but that there were other shipments from Okanagan orchards which were so poor that they killed their own market and had to be sold at a sacrifice.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns, accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal-mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands. W. W. CORY, Deputy Minister of the Interior.

# News from Naramata

Current Events of Town and District.

Mr J. M. Robinson spent the week-end in Peachland.

Mr C. C. Aikins and Mr Victor Watson motored to Allen Grove on Sunday.

Mr Keith Leckie has accepted a position with the Okanagan Lake Boat Company.

Mr Stewart Allen has recovered from the recent accident occasioned by a fall from his horse.

Mrs Jas. Hayward has received word that her son Ed. has been invalidated home to Canada.

Miss Mona Grieves, who has been in Naramata for some time, left for her home in Vancouver on Saturday evening.

Word was received on Monday by Mr T. I. Williams of the death of his brother-in-law, Mr Jefferson of Lindsay, Ontario.

A large party went down to Penticton on Friday night where a very enjoyable time was spent in spite of the fact that Penticton was in darkness.

Mr T. J. Smith, who spent a few days in Naramata, returned to Merritt on Sunday. He was accompanied by his son, Mr W. R. Smith, who has been visiting in Naramata for the past week.

Mr Edmund Boothe rode to Penticton on Tuesday on business.

Mrs Anna L. Gillespie left for Battle Creek, Mich., on Saturday.

Mr Peter Roe took a large party on the "Skookum" to Peachland early this week.

Mrs E. P. Roe is spending a few days in Peachland with her sister, Mrs McDougald.

Master Harry Roe, son of Mr Fred Roe of Penticton, is visiting his aunt, Mrs Hughes.

Mr and Mrs A. Town of Peachland were visitors at the home of Mr J. M. Robinson on Monday.

We are sorry to state that Mr J. M. Myers received word of the death of his father, who resided in Prince Edward Island.

A very convenient packing bench, which enables the packer to sit at their work, has been installed in the Fruit Union.

Another of our citizens, Mr Howard Rounds, left on Wednesday morning for Kamloops to join the colors. Mr Rounds intends to join the machine gun section.

Mr T. H. Boothe, who paid a short visit to the Coast, has returned. While there he accepted the offer of the principalship of Naramata High School. Mr Boothe and

**MAKE PERFECT BREAD**

**ROYAL YEAST CAKES**

MADE IN CANADA

family will probably leave for Naramata about the middle of August.

## Water Situation Is Very Acute

The water situation at Naramata has become quite acute owing to the threatened shortage. It is reported on the best of authority that unless relieved by a spell of wet weather that the present period of extremely hot weather is bound to exhaust the present available supply stored at the upper dam.

The people's standing committee having to do with the adjusting of this standing menace, had a protracted session on Saturday evening, and again sent forward to the government a true statement as to the really seriousness of the situation.

No small attention has been done by the people themselves in providing for just such an emergency as at present exists, and when, in response to a special petition signed last March, every assurance of assistance was received in the way of financial aid, the fruit farmers felt that there would be no more trouble. But alas. The committee has been given to understand that no loan will be forthcoming till five responsible citizens will guarantee the repayment in the course of six months. This announcement, coming at a time when aid is practically futile as far as saving the situation for this year is concerned, was received with indignation. It is feared that unless a heavy rain comes soon that much of the crop is doomed.

Mr and Mrs P. Cresswell were passengers to Kelowna on Friday, returning the same day.

Miss Hilda Winger took in the picnic to Kelowna on Thursday, and stayed over on her way back to visit her parents, Mr and Mrs J. Winger, returning to Penticton on Monday morning.

Rev. J. A. Rowland visited Westbank this week.

Mrs W. C. Aitkins returned from Kelowna on Friday.

Private Ted Smith returned to Calgary to undergo further treatment in the hospital there. The best wishes of his many friends go with him for a speedy recovery to his usual health.

Mr Manning of the Peachland Lumber Co. went to Vernon on Saturday, returning on Monday.

Mr J. M. Robinson of Naramata spent Saturday and Sunday in town.

The ferry boat of Naramata brought a number from Naramata on Sunday, including Mr T. J. Smith and family. Mr J. M. Robinson went home with them, also Mr and Mrs A. Town, who spent Monday in Naramata, returning home on Tuesday morning.

The Misses Jessie and Kathleen Henderson came up on Saturday morning from Summerland to spend the holidays on their fruit lot here.

Mr H. H. Thompson took a party to Kelowna on Saturday in the launch "Argo." They report having had a very good time, arriving home just at 12 o'clock that night.

Mr F. Nuttall was a visitor in town on Sunday going north by the "Sicamous" on Monday morning.

The C.P.R. barge with pile driver came in on Monday and is making some very much needed repairs to the wharf here.

Mr and Mrs Nash and little daughter of Kelowna came in on Tuesday night, and are visiting Mr Seth Davison.

Mrs G. B. Phillips and her two little daughters, Marie and Myrtle, and her sister-in-law Mrs Adams, left by Tuesday night's boat for Penticton where they intend to visit till Thursday morning when they will start for their home in Calgary.

## Welcome To Pastor.

On Monday, July 16th, a social was held in the church to celebrate the seventh anniversary and to welcome the new pastor, Mr Ewing.

Mr Bartlett, who was in the chair, presided in his usual happy manner. The program opened with a few remarks of welcome to Mr Ewing, who replied in a few words. Mr Ewing remarked on the enthusiasm of the church workers in Naramata, and said that he knew he and his wife would enjoy their work there. The rest of the program consisted of:

- Song, Miss Jean Reid.
- Instrumental Duet, Mrs Languedoc and Miss Kathleen Robinson.
- Reading, Mrs Hayward.
- Song, Miss Margaret Mitchell.
- Cornet Solo, Master Ralph Boothe.
- Duet, Misses Gladys Robinson and Violet Mitchell.
- Piano Solo, Miss Enid Raynor.
- Recitation, Miss Catherine Hancock.
- Song, Mrs Ewing.
- Duet, Misses Margaret Allen and Florence Lyons, accompanied by Miss Alice Myers.
- Song, Miss Reid.
- Refreshments.

## Doings of Peachland

(Continued from Page 1.)

to assist the settlers rather than to encourage new immigrants. The success of the settler would in itself stimulate immigration.

Hon. Mr Pattullo then asked Mr Young, the Comptroller of Water Rights, to state the position of the government at the present time, whereupon Mr Young explained the government's position by stating that the government did the best they could last fall with the legislation then in force. At the last session of the house, legislation was passed giving the government power to act in such matters, and a commission has been appointed to inquire thoroughly into the operations of the irrigation companies in the Valley, and as soon as the report of this commission is in the hand of the government they will be in a position to act. Mr Young assured the meeting that the government would do all in its power to assist the growers throughout the province.

Mr Pattullo also assured the meeting that the government was anxious to help the producers in every way they possibly could. He promised immediate financial relief to operate a scheme proposed by Mr McGirr, who had just returned from the headwaters of the Peachland Creek. He reported that a

sufficient supply of water could be had by tapping a lake on the summit and diverting the water into the creek to save the situation for this season. The following resolution was passed unanimously:

Whereas the present irrigation water supply is totally inadequate for the production of fruit:

And Whereas the cost of providing such an adequate supply is beyond the financial resources of the company now operating the system:

Be It Therefore Resolved That this meeting of water users of Peachland urge the government to take immediate steps toward securing government ownership of all reservoirs, dams, canals, and main ditches, with the immediate view of having same enlarged so that an adequate supply of said water be left in the hands of municipalities and water corporations.

The meeting closed with a vote of thanks to the Hon. Minister and the other members of the party. Mr E. W. Leeson took the party over the benches to see the orchards before they left for Summerland.

### Executive of Civic League Meet.

A meeting of the executive of the Civic League was held in the Reading Room on Monday evening, with the president, Mr E. W. Leeson, in the chair. There were

present Sec.-Treas. Rev. J. A. Rowland, Rev. W. J. Scott, Mr R. J. Hogg, Mrs J. B. Robinson, Mrs Bennett, and Mrs Hugh Williams. The minutes of the previous meeting having been read and confirmed, attention was given to the Arbor Committee, of which Mr R. J. Hogg is the chairman, and plans were started for beautifying the municipality. It was arranged that letters from outside points addressed to the Board of Trade enquiring concerning the municipality should be handed to the Entertainment Committee, seeing that the Board of Trade had ceased to exist. As the president was about to take a trip to the Coast it was arranged that he should make enquiries of the hospital authorities as to whether, providing Peachland friends are willing to give presents of fruit for the invalid soldiers, the authorities there would be willing to pay the express charges of the same. If this could be arranged it would be advantageous for the men to obtain fresh fruit.

Last Thursday Mr Crehan, of Crehan & Martin, auditors, was in town a couple of days, and while here assisted in the completion of the dissolution of partnership between Thompson & McCall, and in the formation of the new company succeeding the firm, viz., The Peachland Stores Co.

Miss Dancer of Summerland motored up on Thursday and brought Mrs House, who has been visiting her. Mrs Howell accompanied her home.

Miss Bessie Seaton returned to Vernon on Friday.

During the high wind of Friday one of the cars of the barge with the C.P.R. pile driver caught fire from a spark from the engine, and but for the prompt action of the crew it might have resulted in a very serious fire. Happily it was discovered in time and was put out with very little loss.

Mr and Mrs Sharp of Vancouver were visiting in town a couple of days last week. Mr Leeson showed them over the district while they were here, and they returned on Tuesday of last week.

Mrs N. J. Porter, who has been visiting Mr and Mrs George Keys, returned to her home at Moose Jaw on Saturday via the Kettle Valley Railway.

Miss May Henderson came up from Summerland on Saturday morning to join her father and sisters who are spending a short vacation on their fruit lot here.

Mr James Michael returned home on Friday morning from the Boundary country. He reports conditions rather uncertain owing to so many strikes. Nearly all English speaking people are leaving. We understand that he has arranged with the Penticton Lumber Co. to supply them with logs from their pre-emption, and is arranging to start logging as soon as possible.

Mr W. D. Miller spent the end of the week with his family here, returning to Penticton on Saturday.

Miss Edna Stabler returned from Okanagan Landing on Saturday evening, and is a guest of Mr A. Town.

Walter Brown of the staff of the "Sicamous" spent Sunday with his parents here, returning to his work on Monday morning.

Private and Mrs Peter C. Cresswell were passengers to Penticton on Monday evening.

Mr Chas. Sommerville and Miss Irene Elliott were passengers north on Tuesday evening.

Mr E. W. Leeson left for Vancouver on Tuesday evening via the K.V.R. He expects to be away for a week or ten days.

Miss Edna Penland left by Tuesday evening's boat for her home in New Westminster. There was quite a number on the wharf to bid her farewell after five years of faithful and successful service in the public school, part of which time she served as principal. Her many friends wish her every success in her future work.

Mr H. H. Thompson made the first shipment of ripe tomatoes from Peachland on Tuesday.

Mr and Mrs Dryden and Miss Jean spent Wednesday in Kelowna.

Who can beat the output of 12 tons from the Greta Ranch cherry orchard? Mr J. T. Long, manager of the Westminster Trust Company's orchard at Greta's Landing has just finished shipping the last of the cherry crop. The crop was about 12 tons, but is only half what has been realized other years. There are 310 trees in the orchard, ranging from 8 to 12 years in age. Thirteen men picked 3,000 lbs. in a day and a half. How many tons were shipped from the Naramata orchard which claimed to have the largest crop of cherries in the South Okanagan?

Mrs A. W. and Miss Kate Miller were passengers to Summerland on Wednesday, where they went to visit for a few days.

# Boots & Shoes

## STILL Advancing!

Prices in Leather Boots and Shoes CONTINUE TO SOAR, and the prospect holds out no hope of a "Let Up," in fact more and more there appears to be danger that certain lines of Leather Footwear will eventually become unobtainable. Already manufacturers all over the country are failing to fill contracts accepted early last spring.

**What Does This Mean To You?**

It means that unless you obtain your fall requirements in Leather Footwear NOW you will have to pay more, and have greater difficulty in obtaining satisfactory goods when eventually the weather man brings your requirements in this direction to your attention with an argument that it will be futile to dispute. Money invested in those requirements RIGHT NOW will make interest at the rate of not less than 50 per cent. per annum. Can you do better? Study the following prices, they will bear COMPARISON.

## Naramata News

Current Events of  
Town and District

### Naramata Water Question

A public meeting was held in the town hall on Monday evening to discuss the critical water situation. Hon. T. D. Pattullo, Minister of Lands, Mr J. W. Jones, Member for South Okanagan, Mr Wm. Young, Comptroller of Water Rights, and Mr L. V. Rogers of Kelowna were all present.

Mr T. H. Boothe acted as chairman. At the suggestion of Mr Jones the meeting was made very informal. Mr Boothe, who had been asked by the farmers to do so, explained the situation to the minister, several of the citizens corroborating Mr Boothe's statements.

Mr Young, Comptroller of Water Rights, stated that the Hon. Mr Pattullo had given the problem much attention and had fathered legislation of drastic measures. Storage must be provided, and that he, Mr Young, had had his surveyors comb the hills in prospect of reservoir sites, and the matter of conserving water must be taken up on a business basis.

Hon. Mr Pattullo expressed great pleasure at being in Naramata. Mr Pattullo said that this dream land was not going to be ruined for lack of water if his influence would help. He said that at the last session an Irrigation Board had been appointed, and that the Board would reach Naramata about the beginning of August.

The object of the Board was to ascertain the exact situation and the relations between companies and people. On account of losing cabinet ministers and the acute financial conditions, the question could not be attended to at once. Money could not be given to the people to relieve the situation, but it could be advanced. He said he certainly was in favor of the government building storage dams, but he was not in favor of the government having complete control of the distribution of the water.

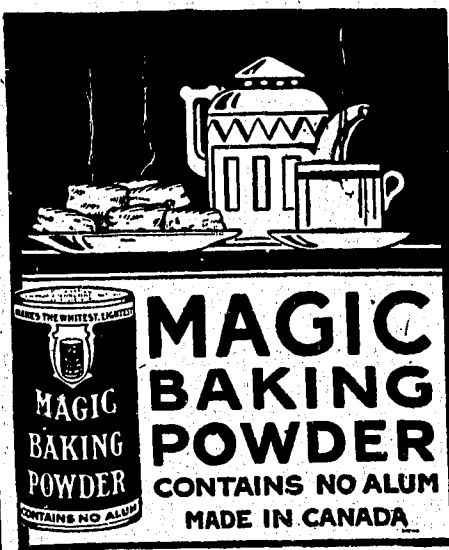

At a meeting of the Water Board with Mr Young later in the evening, it was decided in order to meet the immediate need the government would advance the money that Summit Lake might be tapped. By digging a ditch the water could be run into Mill Creek, and then into the dam.

The government will send out literature to the absent lot owners, advising them of conditions and asking them to share in the expense. As this is just a loan, the money must be repaid by November, 1918.

Nurse Gordon, who is in charge of the Summerland Hospital for a few months, spent several days in Naramata last week looking after the irrigation of her orchard.

Mrs George Hume, who has been visiting with her mother, Mrs John Noyes, for ten days, has returned to her home in Kelowna.

Mr Ed. Hayward, who has been with his battalion for several months in England, and who has been invalided home to Canada, arrived in Naramata on Thursday.

**MAGIC BAKING POWDER**  
CONTAINS NO ALUM  
MADE IN CANADA

Miss Lena McCullough from Summerland, and Miss Crow from Penticton, were the guests of Mrs Dan McKay and her daughter, Miss Clara Palmer, early in the week.

Mrs Lister and her son William, of Bredenburg, Sask., came in on Friday night's boat for a visit with their friends, Mr and Mrs G. H. Partridge.

Mr Howard Rounds, who went to Kamloops with the intention of joining the army, returned home on Friday. It was found that his eyesight would not stand the severe military test. Mr Rounds is the second Naramata citizen who has been turned down lately. Mr T. H. Boothe was also rejected a few weeks ago.

At the last meeting of the Farmers' Institute Mr C. C. Aikins was appointed member of the Water Board in the place of Mr T. H. Boothe, who expects to leave Naramata next month.

Mr F. Deacon of Vancouver, manager of the western branch of the Manufacturers' Life Insurance Co., was in Naramata for a couple of days on his way to attend a convention in Montreal.

The Ladies' Aid of the Methodist Church met in the ladies' parlor of the church on Thursday afternoon.

The regular meeting of the Ladies' Unity Club has been postponed from Friday, July 27th to Friday, August 10.

There is complaint made about the severe usage of the Naramata wharf by the "Sicamous" from time to time. Mr McAlpine put in fairly heavy fenders a few weeks ago, with the view of holding the "Sicamous," but even these, it is found, may not be sufficient to save the wharf from serious damage.

Mr Carroll C. Aikins, who has a hundred acres of orchard land, with eighty acres planted (said to be the show orchard of British Columbia), is considering the question of installing a pumping plant to raise water from the lake in order to save his crop this year. The failure of the supply of water usually furnished by the gravity system, installed by the Okanagan Securities Company, on account of the inadequacy of the dam and the breaking out last year of the people's dam, which was intended to hold an auxiliary supply, has put the orchardists to their wits ends to know how to carry their orchards through the season and to save their crops. Mr Aikins is conferring with Mr F. H. Latimer, P.L.S., on the subject, and if he approves of the project and a system can be installed in time to save his crop, Mr Aikins will put the system in at once.

Miss Edith Roe entertained a number of her young lady friends at an afternoon tea on Monday. It was given in honor of her friend Miss Jean Reid of Vancouver.

Mrs H. T. Davies and Mr Ernest Noyes are expected in from the Coast the end of this week.

### WATER STORAGE MEETING.

[Continued from Page 1.]

always a live question. In every place visited the situation was different. The companies are not living up to their agreements. A commission, which included a chartered accountant, had just been appointed, to investigate irrigation companies and their systems. He felt that the vested interests should be protected, but too much was claimed for these interests. The government wanted to treat the companies squarely, but he believed that it would be necessary to squeeze out some water. They had, no doubt, made losses, but they must stand it. They had gone into irrigation as a business venture and the government should not be expected to make good their losses, nor should the land bear the loss by buying out these companies at their own price and then incurring further expense for rebuilding their system. The government was desirous of giving a fair and square deal to water users. Mr Pattullo gave little encouragement for immediate assistance, although in some cases small sums had been loaned water users on personal guarantees. The financial situation in B.C. he described as almost alarming. However, B.C. has marvellous resources, and the more he visited other parts of the country the more faith he had in B.C. Our resources need development. Ordinary expenditures now exceed ordinary revenue. Careful financing is essential. The lavish expenditures of the past, during the days of expansion, compelled economy now. The best function of the government is to be an intermediary between the money lenders and water users. The people must help themselves. The government is only the people, and will do all possible to assist, but will not take the whole burden. He was not stating the policy of the government, but his own views. The land must pay for any assistance, and this rich valley should be able to stand the cost. Every acre should pay a tax to keep up the water system, whether using water or not, as it was the water which gave the land its value. He realized that something must be done, and done quickly. The government must conclude what policy to adopt in giving financial assistance. This may require a million

dollars, but this sum would not alarm him. The valley could pay for it. He asked that the people co-operate with the government to accomplish the desired result. With perseverance, hard work, and common sense this can be done. For the next year the people will have to take care of themselves.

Coun. Johnston urged that any building that is done must be done in the fall. The lack of a proper road made the construction at the headwaters expensive and difficult. Mr Logie asked if it was not possible to get a loan of two or three

thousand dollars. This was wanted now, as any building must be done in September and early October. He again complained of the dispute with the government over the Dunsdon dam, saying if the municipality had been given the storage record and the dam had been built, we would not now be placed in such a situation as at present.

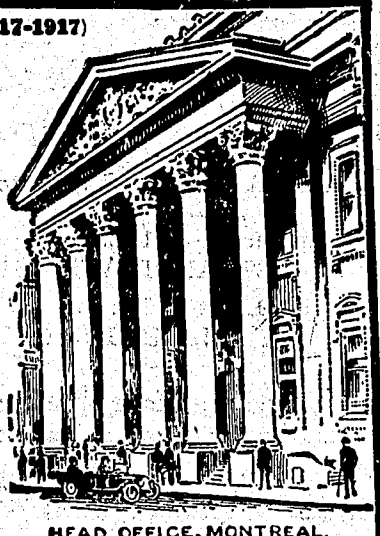

Both Mr Jones and Mr Rogers also spoke for a few minutes, and though Mr Pattullo did not give any promises of immediate financial assistance, there yet remains some hope that such may be available.
