

## Monthly Meeting Of School Board

A Bare Quorum in Attendance at Session in Council Chamber.

Authorized to Take Over  
New School Building.

Insurance on Buildings Discussed.  
Teachers Report School Attendance

Tuesday was the date for the regular meeting of the School Board, and the Trustees were advised that the meeting would be held in the Council Chambers at 2 o'clock. For some time it seemed doubtful that a quorum would assemble. Two of the Trustees, with the secretary, were on time, and it was known that only one other could possibly attend. Dr Sawyer, the chairman, has been in the east for some time and will not return, while Trustee Sharp's duties at Naramata prevented his attending. When the third Trustee arrived the business was proceeded with.

Formal permission was received from the Provincial Public Works Engineer authorizing the Board to take over the Trout Creek Point school building.

The matter of insurance on this building was discussed at some length. Acting Chairman Hilborn thought the risk was so slight that a policy for \$1,000 was sufficient. Mrs Andrew favored insuring for \$2,000, while in Mrs Kelley's opinion \$3,000 was not too much, considering the cost of the building. It was finally decided to leave it with the secretary to have \$2,000 placed on the building. In reply to an enquiry the secretary expressed ignorance of the amount of insurance on the other buildings. He could find nothing in his record to show this.

At the request of Principal Lees the Board gave permission for a half holiday to enable the schools to hold an exhibition and sale, the date to be fixed by the teachers.

The boys will find it rather expensive to play ball or throw missiles while close to the school buildings. A pane of glass in the High School building, broken by one of the Central School boys, must be replaced by him, according to the decision of the Board.

The secretary was instructed to advertise for tenders for providing and fitting storm sashes to the Central School building.

In answer to an enquiry from one of the Trustees as to why the teachers had not been paid their salaries, the secretary said that he understood that the July salary cheques had just been issued by the municipal treasurer.

Teachers' reports showed a total enrolment of 188 in the seven rooms, with an average attendance for Sept. of 167.27. A feature of the reports is that in Miss Lister's department there are only three girls of a total of 14 pupils. Miss Dale has two to one, eight boys and four girls, while in Miss Brown's room the order is reversed there being 19 girls and 11 boys.

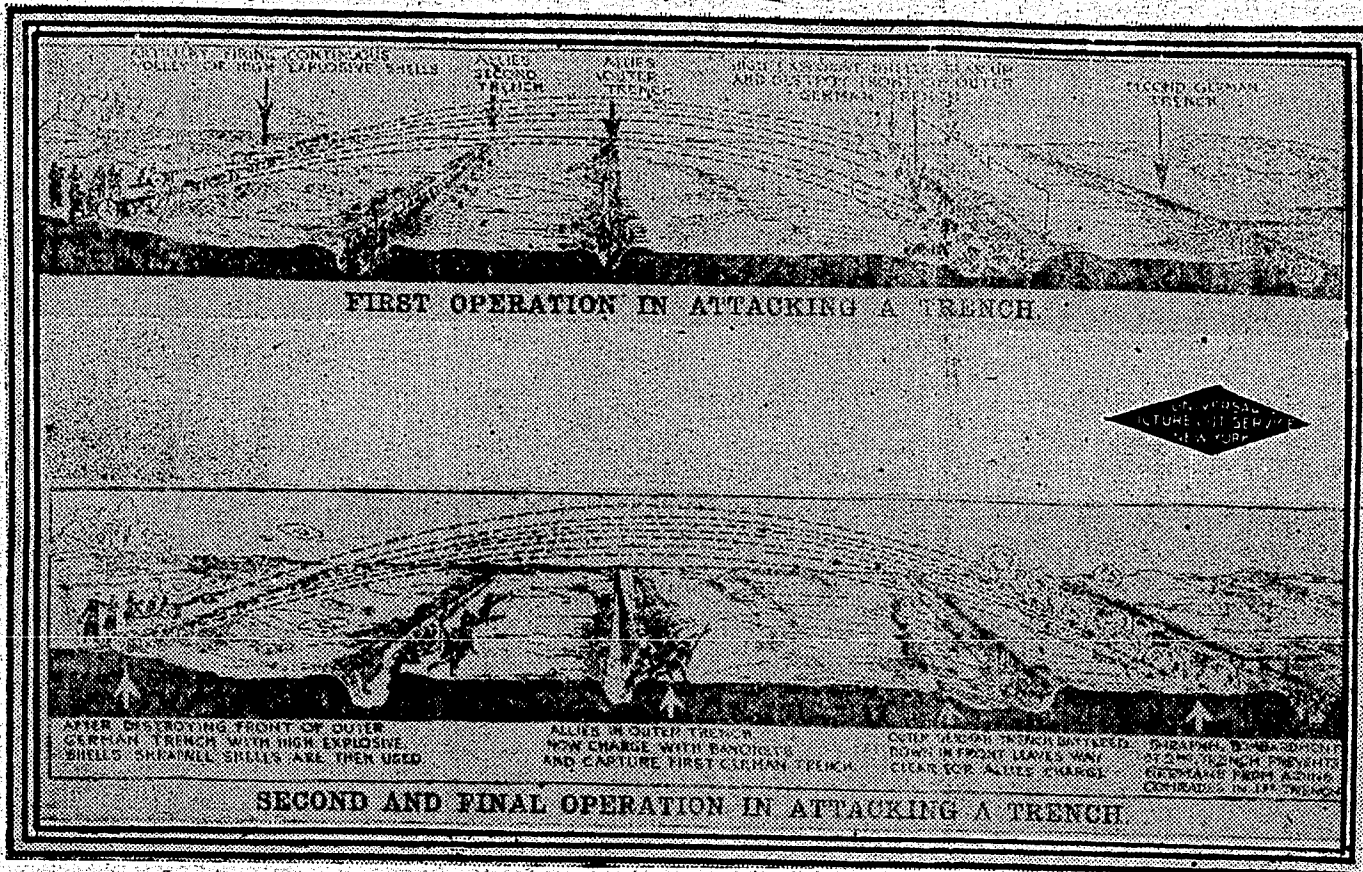

Accounts as below were approved for payment:

Teachers' salaries	\$780.00
Conveyances	189.06
Secretary	8.00
Carotaking	39.00
Chemicals, etc., for High School	21.55
Stationery, etc.	27.98
Stand Supply Co.	21.30
Sundries	13.75
<b>Total</b>	<b>\$1,100.72</b>

## Harry Barkwill Reported Missing

Harry Barkwill is missing! Some little time ago there appeared among the published lists of missing Canadians the name of Harry Barkwill, England being given as his address. Friends here then feared it was our well-known young citizen. This fear has been confirmed by L. Corp, A. J. Adams, who, in a letter to his aunt, Mrs Harry Dunsdon, says that Harry is among the missing.

## Trench Warfare

Showing the important part taken by artillery in the Great War.

## Winnipeg Good Market For High- Class Fruit.

Careful Selection and Good  
Carrying Conditions  
Are Needed.

Winnipeg is a market that is available to fruit growers in many parts of the continent, and from east, west, and south there are many and varied daily arrivals. The B.C. Markets Commissioner recently visited the prairie metropolises, and of his findings there writes:

Looking at it from a B.C. point of view this market presents a great opportunity for new business. So far it will pay only to ship first-class stock. Some fine stuff is sent here from B.C., and it comes into competition with the finest from Washington and Oregon. Ontario and Nova Scotia send their quota, and so do the Middle States and California.

The keen competition calls for extra exertion on the part of B.C. to excel in quality. Many shipments do us credit and some do not. Under our favored position regarding tariff we can secure the major portion of this trade. It will require considerably more care in selection of grade and care in ventilating and cooling the cars than has been in evidence this week.

Your M.C. examined three cars of Italian prunes to-day, two from B.C. and one from Washington. Unfortunately for his feelings the condition of the B.C. cars was the reverse of his wish. The Washington car was lead; prunes No. 1 regular in size and cool as stone to the touch. All crates were stamped weight 16 lbs. No. 1 car from B.C. was small in size and irregular; no ice; slightly overripe for wholesale trade. The goods were refused by the consignee on these grounds and were resold here. Car No. 2 was irregular in size. Ten per cent. of the prunes should not have been shipped, being too small and faulty in formation. The best in crates graded scarcely No. 1. Car heated; temperature 80 deg.; no ice; ventilator closed; fruit slightly overripe. The consignee is seeking adjustment, and with good reason.

One car of B.C. Wealthy apples was found in prime condition. A car of Ontario damsons developed plum rot, and was almost a total failure. A car of Washington Bartlets arrived overripe, was refused and jobbed, netting shippers only \$58.

All this will suggest to shippers what is needed. Further comment is unnecessary.

Heavy damage was done to the apple crop at Kelowna on Wednesday night of last week. As a result the evaporator is getting more of the apples than was expected. The wind also interrupted telephonic and telegraphic communication out of that city.

## Killed When His Auto Overturned

Last week the Review published a short story of the acquiring by Rennie Bros., of North Yakima of a tract of land near Kelowna which would be stocked at once with sheep. Robt. Rennie, who completed the deal was on his way back home, and was at the dinner table at Penitence with several of his guests when a telegram came advising him of the death of his mother. He at once left, accompanied by James Morrow, who is to manage the new sheep ranch, Wm. Morrow, and Joe Cornell, all of North Yakima.

According to recent press despatches Rennie was killed and Jas. Morrow and Joe Cornell seriously injured about eight o'clock the next evening as they were nearing Ellensburg. Rennie was making a sharp turnout from the main road when the car turned over. His body and that of his mother were buried together.

## J. M. Robinson At Silver City

J. M. Robinson, one of the owners of the Mammoth property in Sawpit Gulch, arrived on Saturday from his home at Naramata, B.C. Mr Robinson is a man of large affairs in British Columbia, especially in the famous Okanagan Valley, where he holds large interests, and has done wonderful colonization work. He has been very busy this summer testing the merits of an English patent for the preservation of all kinds of food in an atmosphere of pure carbonic acid gas. He owns the sole rights of this patent for the United States and Canada. The tests have proved highly satisfactory, and the method promises to supersede cold storage. Strawberries canned for 18 months by this method were taken from the jar in as good condition as the day they were picked. Mr Robinson will visit with his son and family here a couple of months at least.—Silver City Avalanche.

Mr Robinson is giving attention to putting in electrical equipment for the mine in which he is interested.

## Land Settlement Board.

Maxwell Smith, chairman of the Land Settlement Board, accompanied by F. R. E. DeHart of Kelowna, the local member of the board, are making a tour of the Interior, and were in Vernon yesterday. Mr Smith informed the News that the Board still had on hand sufficient funds to carry on the work of advancing loans to farmers on such applications as had met with favorable consideration. But, he said, a new loan will have to be raised by the government for future operations, and at existing rates of interest, anything that can be called "cheap money" is no longer available.—Vernon News.

## Prospects Bright For Increase in Sale of Fruit

Better Distribution Facilities  
Greatly Extending Market  
For B.C. Fruit.

The demand from the consuming public for fruit in increasing quantities is growing rapidly, and many are for the first time buying generous supplies this year. Peaches and plums are being bought at a brisk rate for jam making, but apples and pears are also having good sales.

The wholesale trade have never before had an equal demand, and it seems as though fruit in a non-producing country is more popular and used in greater quantity than where it is grown. The problem that has stood in the way of greater distribution was want of railway transportation. This fault has been greatly improved, and from now on fruit growers will find the demand increasing yearly.

They will be wise in future planting, says our Market Commissioner, to profit by past mistakes and plant only such fruit as will grow to perfection in the place they reside in, also the variety the market calls for is important, and care will need to be exercised to see that fruit on which there is a limited sale, such as sour cherries, is not overdone. Sweet cherries of the Bing and Lambert varieties may be greatly increased in the upper country.

Pear growing should receive more attention, as the supply is limited in season and variety. The lower mainland and Vancouver Island can grow all varieties the market needs in variety if the orchards are properly cultivated, pruned, and sprayed. There is no market for diseased fruit which, like Topay "just growed," but there is and will be a good market for well grown fruit. The day of increased acreage in B.C. is at hand, and as nature intended the prairies to draw their supplies from there, we should aim to grow enough to fully supply the increasing demand.

## Additions To Prize Money

To further encourage the boys and girls of Summerland to enter their potatoes under Class 12 at the Fall Fair, additional cash prizes are being offered by Mr John Tait, who will give first, second, and third prizes of three, two, and one dollar to any boys or girls who are successful in capturing the prizes of like grades as offered by the Agricultural Association. Mr Tait is sure that the young folks can win if they will try.

In answer to several enquiries the show secretary has asked the Review to state that twelve crab apples are required to constitute a plate.

Either the Canadian or the

## Sir Wilfrid Resigns Office

Ottawa, Oct. 3.—Sir Wilfrid Laurier has resigned as Liberal leader. He has placed his resignation in the hands of his House followers, and is insisting that it be accepted. A new leader will be appointed by a convention of Liberal members and candidates.

Sir Wilfrid will celebrate his seventy seventh birthday in November. His health has given way recently to such an extent that he feels unable to go through the hardships of a winter election campaign.

Col. C. C. Ballantyne of Montreal has accepted the portfolio of Minister of Public Works, and was sworn in this afternoon. Col. Ballantyne is the first Liberal to enter the Borden government. He is prominent as a business man in Montreal, and for some years served as a member of the Montreal Board of Harbour Commissioners, and was president of the Canadian Manufacturers Association.

The formal dissolution of parliament will be on Thursday or Friday. It has always been the custom to announce at the same time the date of the election, but this is not necessary, and in this case it will not be done. Owing to the new franchise bill it is difficult to know how long it will take to make up the lists and to fix the date exactly.

While plans are being made for the holding of the general elections in December, the impression is growing that it may be found impossible to have the voting take place before January.

## Scoutmaster Resigns

The resignation of Mr. John Tait as Scoutmaster has been tendered to the Scout Council. The alleged holding of meetings with the patrol leaders, unknown to him, by the Provincial Secretary, and criticism of his work as Scoutmaster are advanced as his reasons for resigning, which, he says, is done with reluctance, and the hope that the troop may carry on its good work. The difference between the Provincial Secretary and the Scoutmaster has seemingly resulted in the disorganization, temporarily we trust, of the local troop.

In closing his letter to the council, Mr Tait says: The work of the troop, I am sure, will compare with that of any troop in the Interior of B.C. As a troop doing patriotic work alone, I may say that we helped to swell that fund in Summerland by over \$120.00. Can any troop of its size beat that?

## TRI-WEEKLY SERVICE OPPOSED.

The proposal of the C.P.R. to reduce the boat service on the lake to a tri-weekly one is not likely to be carried out without considerable opposition from the different centres affected, says a Kelowna exchange. Not to mention the bad impression which would be given to outsiders by such a retrograde move, business men and others have come to depend so much upon the daily service that they are unwilling to relinquish it. To travellers the change would undoubtedly prove a great nuisance, entailing a day's delay in Vernon if they happened to arrive on an off day for the boat. The Kelowna Board of Trade has been urged to take the matter up and has arranged to hold a meeting of the business men on Tuesday morning next at 10 o'clock, when the matter will be discussed, and possibly some representation made to the C.P.R.

The decision has been arrived at by the Canadian Pacific Railway Company that in future railway time on the road shall not be computed from 1 to 24 o'clock, but that instead the system in vogue elsewhere on the continent, that is, from 1 to 12 noon, and from 1 to 12 p.m., shall be in operation. The change is covered in the new time tables effective October 1.

American standard apple boxes may be used by exhibitors under classes 1, 2, 4, and 5.

## Postpone Building Of Dunsdon Dam

Every Effort will be Made to Supply  
Needs from Trout Creek.

Eneas Dam to be Strengthened  
by Concrete.

Creek to Reservoir and North Main  
Ditches to be Enlarged.

The Dunsdon dam will not be built this fall, but instead the plan, as foreshadowed in last week's Review, will be carried out. The Councillors held a special meeting last Friday evening, when the matter was carefully considered from all sides. The plans and specifications, prepared by the engineer, were examined and, while some of the Councillors were confident that the dam could be built at a saving over the engineer's estimate, all were agreed that the building of the dam had better be deferred for one year, and in the meantime the upper dam further strengthened and made safe, and capable of bearing the heavier strain which the addition of two feet more to its height would put upon it. Whatever work is done there should be done before flooding the road, which would be the result of building and filling the proposed Dunsdon dam. Official notice that this piece of road had been abandoned by the government has been received. The Public Works Department will not consent to the building of another link in the road to take the place of the portion which would be flooded.

Under the revised plans the capacity of the north main ditch will be enlarged and connection with the Jones' Flat and Siwash Flat distributing systems, and provision made for the getting of more water into the reservoir from Trout Creek, which creek is recognized as having until late in the season an abundance of water, much of which now flows by into the lake.

Chairman Johnston of the Public Works Committee recommended that a cement outlet pipe be put in the Eneas Creek dam, and that there be a cement facing put on the upper face of the dam, and that this work be done at once. His motion to this effect, seconded by Coun. Campbell of the same committee, was carried unanimously. It was unanimously agreed that the Reeve should engage J. J. Mitchell, if available, to take charge of the work on the dam. Mr Mitchell has since consented to supervise the work, and started on Thursday morning.

Some difficulty is being experienced in getting men to work on the electric light extensions, but it is hoped that this will be overcome shortly.

Coun. Simpson was elected delegate to the municipal convention, which meets in Duncan early next month.

## Body of Dr. C. M. Smith Buried Here.

The body of the late Dr. C. M. Smith, whose death occurred on Tuesday at the home of his sister, Miss Smith, Port Alberni, arrived by train this morning, accompanied by Miss Smith. The remains were taken to the Board of Trade Rooms under the Masonic Hall.

Having been, during his residence here, a member of the local lodge of the Masonic order, the remains were cared for by the Masons, and the regular ceremony held in the Lodge room, after which the members in procession followed the remains to Peach Orchard Cemetery, where they were laid to rest beside those of his son.

Since leaving Summerland several years ago, Dr Smith has been living in Sault Ste Marie, where his son carries on a drug business. Later he went to California, where he has resided until a few months ago, when, after a serious illness, he and Mrs Smith went to Port Alberni.

The partial removal of the Australian embargo on apples will permit importation from Canada of only 10,000 boxes in all, 4,000 by the boat sailing early in October, and 6,000 in late November.

## INTERCONTINENTAL FOOD CONTROL.

BARON RHONDDA has issued a statement explaining Great Britain's plans for food control.

Food regulations in Great Britain are much more drastic than those on this side of the Atlantic. Nevertheless they are voluntarily, not compulsorily, observed by householders and others. "If voluntary measures fail," says Lord Rhondda, "I shall have no compunction in putting the nation on compulsory rations." This crisply defines the spirit of Great Britain. Self-restraint and self-sacrifice are the keynotes of the nation's attitude. Men, women, and children are proud to do their part in saving food and in increasing production. In both directions the national effort is sustained at a supremely high pitch.

Baron Rhondda, through the Food Administrator of the United States and the Food Controller for Canada, has called upon both these countries to rise to the occasion. That call must meet prompt and full response. Should Canadians fail to emulate Great Britain then all the sacrifice, all the devotion of Great Britain's people will have gone for naught. It remains for Canadians to make effective the effort of the Old Country.

The whole of Baron Rhondda's message is significant. That he depends upon Canadians is evident. In effect he says:

Price-fixing must be international, intercontinental. This means a readjustment of international and intercontinental trade relations. Each country must of necessity regard the others as partners and refrain from acting except with reference to them. Mr Hoover, Mr Hanna and I have been made responsible for food control in our respective countries. Food control in each must be adjusted to the requirements of all. Therefore we must work together to accomplish our ends. Our people will have reason to know that profiteering will be wiped out—that it is now fast disappearing—and that where high prices continue to exist they are to be attributed to war conditions.

Comprehensive plans have been developed whereby all international purchases of necessary foodstuffs are to be pooled and proportionately allocated to Great Britain and her Allies. All such contract prices are to be strictly regulated. "Unless prices are fair," Lord Rhondda asserts, "an unnecessary burden is placed upon the backs of the allied governments and consumers, American and Canadian taxpayers, and reactively on every food consumer in America for the sole benefit of a small section of the community."

It is only with Canada's unstinted help that Baron Rhondda's plan can be brought to fruition. "The world-peril is not the submarine," says the British Food Controller, "but diminishing harvests and lessening herds."

to shower the HOME COMFORT CLUB with these, so that they may be parcelled and mailed as Christmas Presents from Summerland to her boys in France, &c.

EVERYBODY COME!

## Naramata News

Current Events of Town and District

After a pleasant summer spent in Naramata Mr and Mrs Ford are planning to return to their home in Winnipeg in a few days. It is not improbable that they will eventually make Naramata their home.

The local apple crop is bulking up well, so much so that the local packing houses are finding it difficult to get the fruit packed and shipped out of the way. The Union has brought several packers over from Summerland.

Mrs M. M. Allen and daughter Margaret spent last week-end at Peachand, guests of Mrs Morsch.

Mrs George Beddome, of Hanna, Alberta, daughter of Mr and Mrs Partridge, has arrived to spend a few weeks with her parents. Returning with her was her sister, Miss Dorothy, who has been visiting with relatives on the prairies.

After spending the summer at his old vocation of marine engineer, Mr John O. Noyes returned home on Monday night. He has been on one of the lake boats in the eastern part of the province. It is quite probable that he and his family will spend the winter at the Coast.

Mrs Norris of Vancouver, who has been visiting Mrs J. M. Robinson here and with friends in Summerland, left for her home on Saturday.

The special Rally Day program was greatly enjoyed on Sunday by a good number of parents and friends of the Sunday School folk. Accompanying herself on the guitar Mrs Myers, wife of Rev. A. J. W. Myers, delighted the audience with her singing. It is announced that Mrs Myers will again sing at the district Sunday School meeting tonight, Friday, and this alone should be sufficient to insure a full house.

## Passed Away at Senlae.

James Wells, who for several years made his home at Naramata, passed quietly away on Sunday at the home of his son, Oliver Wells, at Senlae, Sask., whither the elderly gentleman had gone in the hope of getting better health, amid the activities of farm life.

Two years ago the aged couple celebrated their golden wedding at Calgary.

The late Mr Wells at one time lived in Ontario, in the township of Peel, Wellington county, and it is there that many of the old family friends still reside. During a few years of residence in Manitoba, the desire to live in British Columbia took the upper hand, resulting in his moving to Naramata in the spring of 1917, along with one son, J. Russell Wells, of the Naramata Fruit Co.

Besides the one son at Naramata, there is another son, Oliver, living

## Summerland Fruit at Red Cross Sale.

The clipping from the Battleford Optimist given here will be read with interest by our Summerland readers, especially those patriotic ladies to whose generosity and thoughtfulness the success of the event is due. Incidentally they did Summerland fruit growers a good turn by thus further spreading the fame of our fruit among our prairie neighbors.

The Norton Block on Main Street presented a very festive appearance on Saturday, Sept. 22nd, when the Red Cross ladies, wearing the Red Cross uniform, displayed a most tempting array of fruits and flowers from the Okanagan Valley, B.C.

The building was beautifully decorated with flowers, pictures, flags, and palms. In the window was a very interesting collection of war souvenirs from France.

The tea tables looked very pretty with their centres of roses and asters, while the larger tables were bountifully supplied with home-made cooking, peaches, cantaloupes, egg plants, and flowers.

The fruit, as well as the flowers, were the gifts of patriotic ladies of Summerland, B.C., collected and forwarded by Miss Isabel Spencer. The society wishes to extend thanks to these ladies, as well as to the numerous townspeople who helped to make the day a success. The receipts amounted to \$59.

at Senlae, Sask., and one daughter, wife of the well-known C.P.R. conductor, Mr Grieves, of Calgary, Alta.

## Calgary Market Is Glutted With Fruit

Country Points Wondering  
Why Fruit Orders are  
Not Filled.

The great prairie market, as represented by the hundreds of small centres, is hungry for fruit while the Calgary fruit houses are being deluged with fruit and vegetables. It is given as a conservative estimate that not less than 40 cars of fruit and 10 cars of vegetables reached Calgary last week, putting that market in a chaotic condition, especially with regard to fruit from this province.

"It seems a pity," said one wholesaler, that the Calgary market should be so much oversupplied with fruit, while the country points are wondering why their orders are not filled."

By direct shipments, in mixed cars when necessary, seems the only way in which the many smaller points can be supplied, and an efficient distribution obtained.

Of the situation at Calgary the Markets Commissioner, in his weekly report, says:

It has been a long time since so much fruit has arrived in Calgary in one week, and to add further to the unfortunate state of affairs much of the shipments are over-ripe when they arrive.

Two hundred boxes of pears were what might almost be termed pulp when they arrived. Some of the fruit had shrunk fully four inches from the top of the box. These had to be jobbed off to peddlers, and sold as low as 50 and 60 cents per box. Some could not be disposed of at all and went to the dump.

Creston plums are arriving over-ripe, and naturally it is impossible to command top prices for fruit in this condition.

Apples are arriving in fine shape and the market is steady. Some are small and off color, but nevertheless the apple is the one encouraging feature of the market this week. Hyslops are much in demand, and the market can take care of cars of much larger quantities than are being shipped.

There is an overload of peaches, and prices have declined slightly as a result.

Some of the local wholesalers are making up assorted carloads and shipping them to the country points in an effort to clear up the market. The double freight, however, makes this a risky proceeding.

Several cars arrived this week shipped direct to the retailers. This in itself would account largely for the demoralization of the market.

Prunes are practically a glut on the market.

The situation, however, is not entirely discouraging. Local dealers expect that by the beginning of next week the market will have adjusted itself, and with more care on the part of the shippers a repetition of this week's overloading can be prevented.

There is a good demand for good firm pears and peaches.

## Fruit Marks Act Violated by Crab Apple Shippers

Market Commissioner Grant reports that during a visit to Saskatoon he had occasion to examine Hyslop crabapple shipments and found them very disappointing. The smallest crabapple in a box of No. 1s should measure 1½ in. through, but many of those examined were but little larger than marbles. This is not only a violation of the Fruit Marks Act, but is hurtful to future business. Honest packing and careful marking always pays.

The above advice also applies to Italian prunes which are on the small side this year. Washington prunes, he says, are right up to standard, and B.C. will have to buck up on prunes or lose the market.

There is general satisfaction in Saskatoon with the late arrivals of B.C. apples, and the impression among fruit dealers is that there will be a good season.

### A DILEMMA.

Come along and help boost Summerland, and show what can be raised in the Stock line.

**An AUCTION SALE** of LIVE STOCK will be held on Ground on Second day.

Entries for above solicited. If you have anything for sale, let the Secretary, or J. E. Phinney, Auctioneer, know about it.

This will be the last Fall Fair in the Province this year, and is

## OPEN to ALL in the Province

Exhibits from Peachland, Naramata, Kaleden, Keremeos, Kelowna, Westbank, and Penticton  
Particularly invited.

## WOMEN'S INSTITUTES SECTION

The Summerland and West Summerland Institutes will hold, in conjunction with the Fair, a combined Exhibition of Flowers, Fancy Work, Cooking, &c.

Members of above Institutes, and other ladies, are urgently requested to enter exhibits. Kindly communicate with either the Secretaries, Mrs. JOHN TAIT or Mrs. J. J. MITCHELL.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Rev. James Lang was a passenger to Vernon on Thursday, returning on Saturday night.

Mr J. and Miss Morrison left by Thursday morning's boat for Rochester, Minn., where Mr Morrison has gone to consult specialists. Their many friends here hope that he will meet with success, and so make it possible for them to return soon.

Mr Meikle, manager of the T. Lawson Co.'s store was in town this week, returning to Kelowna on Friday morning.

Mr and Mrs Diamond came down from Vernon on Thursday night and went up on Friday morning to work at the lumber mill.

The young ladies reorganized the Red Cross Society on Thursday, and the following officers were appointed: Miss Switzer, president; Miss Jean Dryden, vice-president; Miss Montgomery, Secy.-Treas. They are starting in with the determination to make a busy winter of it and accomplish as much work as possible. As there is some material left over from last season they can go right ahead.

Mrs B. Robinson of Westbank returned from the Coast on Friday morning and went on to her home.

Mrs Williams, Miss A. Williams, and Mrs Robson returned to Vancouver on Friday after spending the summer here.

Mr Theodore Scott returned from Vancouver on Saturday where he has been for some time.

Mr A. Town, Master Gordon and Miss Lillian were passengers to Kelowna on Saturday, returning the same day.

Mrs W. B. Sanderson and Master Willie, Mrs A. Smalls and Master Sidney were passengers to Kelowna on Saturday, returning the same day.

Miss Switzer spent the week-end in Kelowna, returning on Sunday night.

Mrs Allen and daughter of Naramata came up on Saturday morning and visited Mrs Morsch, returning home on Monday night.

Mrs Bartlett, who has been visiting her sister-in-law, Mrs J. H. Clement, for some time, returned to her home in Vancouver on Saturday night by way of K.V.R. Miss Flossie Clement accompanied her home. Mrs Clement and Miss Aileen went as far as Penticton with them, returning on Sunday morning.

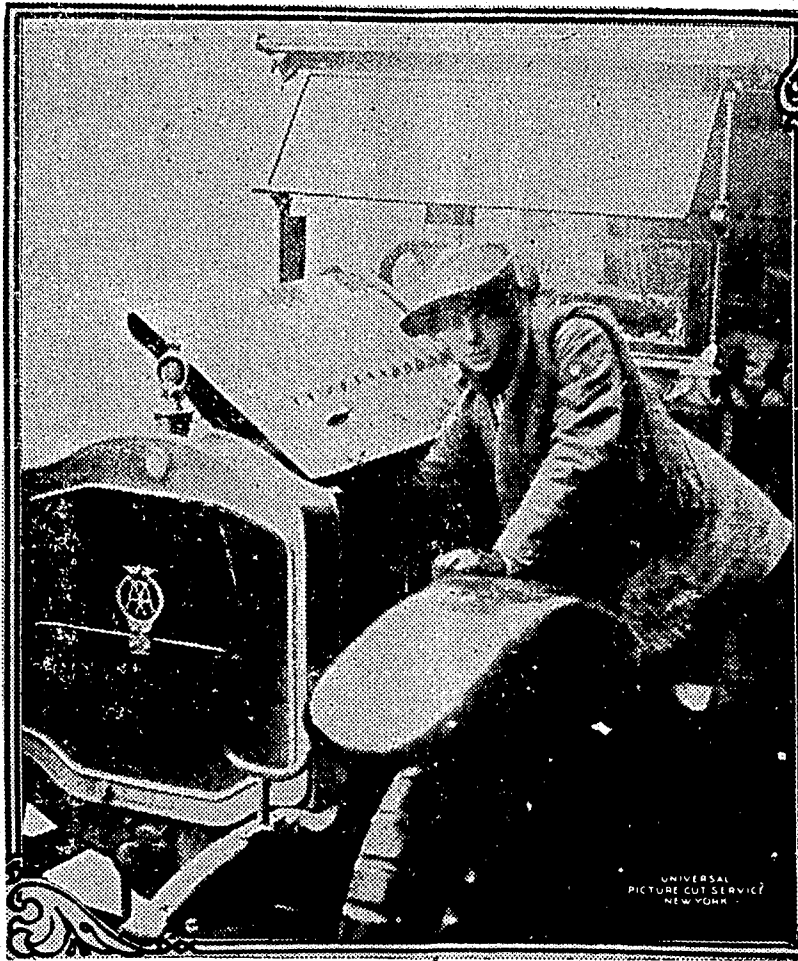

The regular meeting of the School Board was held on Monday afternoon in the Board Room of the school. After the routine business had been attended to, the matter of appointing a delegate to the annual meeting of the Trustees Association was taken up. The association meets at Nanaimo on the 7th, 8th, and 9th of November, and Mr J. Drought was chosen to represent the Peachland branch. A series of resolutions were passed to present to the convention.

The Union Sunday School held a Rally Day service last Sunday afternoon, which was of a missionary nature, with recitations and songs by the children. Rev. J. A. Rowland gave an address, and Mr R. J. Hogg took the review. The collection was given to missions.

Nearly every man in the district attended the Tax Sale, which was held on Saturday afternoon in the Council Chambers, and a number of lots were sold.

Mrs S. Murdin and Miss Illveya were passengers to Kelowna on Tuesday, returning the same day.

### Women Chauffeurs In England.

General Dorian, following the example of Lloyd George, is showing the able-bodied men that women can and will fill their places so that they can answer the country's call to arms.

The little boy was on his knees in his little night dress saying his prayers, and his little sister couldn't resist the temptation to tickle the soles of his feet. He stood it as long as he could, and then said: "Please God, excuse me, while I knock the stuffing out of Nellie."

At a recent wedding the bride was Miss Jane Helper and the bridegroom was Mr Newton Lord. The bridegroom, however, was very angry when he saw in the local paper an account of their wedding, headed in the usual way, "Lord-Helper."

### Makes Cooking a Pleasure

No bending over a hot top to reach the dampers—Kootenay controls are all on the outside—in front. And the oven thermometer shows the temperature without opening the oven door. This range saves fuel, time, trouble and—your temper. Write for booklet.

CANADA

## Military Service Act, 1917

### Explanatory Announcement by the Minister of Justice

THE MILITARY SERVICE ACT has received the assent of the Governor-General and is now part of the law of the land. It will be enforced accordingly, and the patriotism and good sense of the people can be relied upon to support it. Resistance to its enforcement, however, by word or act must and will be repressed, as resistance to any other law in force must be.

#### Reinforcements under the Military Service Act immediately required

It is the intention of the Government immediately to exercise the power which the Act confers and to call out men for military service in order to provide reinforcements for the Canadian forces. This is necessary since the military authorities report that the reserves available or in sight for reinforcement will shortly be exhausted unless this step be taken.

#### First call limited to men between 20 and 34 who were unmarried or widowers without children on July 6, 1917

The present call will be limited to men not in the schedule of exceptions who were unmarried or widowers without children on 6th July, 1917, and are at least twenty years of age, and were born on or since January 1st, 1883. Of this class all those will be entitled to conditional exemption whose services in their present occupations, agricultural, industrial or other, are essential in the national interest, and whose business or domestic responsibilities are such that serious hardship would ensue if their services be required. Conscientious scruples based upon a prohibition of combatant service by the articles of faith of the religious denomination to which men belong will also be respected. The men first required to serve will consequently be those who can be called upon with the least disturbance of the economic and social life of the country.

#### Civil Tribunals to deal with exemptions

Questions of exemption will be determined, not by the military authorities or by the Government, but by civil tribunals composed of representative men who are familiar with local conditions in the communities in which they serve, who will generally have personal knowledge of the economic and family reasons which those whose cases come before them have had for not volunteering their services and who will be able sympathetically to estimate the weight and importance of such reasons. Provincial Appellate Tribunals constituted from the existing judiciary of the respective provinces will be provided to correct mistakes made by Local Tribunals, and a Central Appeal Tribunal for the whole of Canada, selected from among the present Judges of the Supreme Court of Canada, will be constituted in order that identical principles may be applied throughout the country. In this way every man may rest assured of the fair and full consideration of his circumstances and the national requirements both civil and military.

#### Proclamation will announce the day

A proclamation will issue calling out the bachelors and widowers referred to and fixing a day on or before which every man must report for service to the military authorities unless he has before that day made an application for exemption.

#### How to apply for exemption

Applications for exemption may be made by written notice on forms which will be available at every post office, and will be transmitted free of postage. They will not, however, be required to be made in this way, but may be presented by the applicants in person to the exemption tribunals. The cases of those who have given written notice in advance will take precedence, and appearance in person will therefore be likely to involve considerably more inconvenience and delay to the men concerned, so that it is recommended that advantage be generally taken of the facilities for written application.

#### Exemption Tribunals in all parts of Canada

The local exemption tribunals will be constituted with the least delay possible, consistent with the selection of representative individuals to compose them; and the instruction of the members in their duties. There will be more than one thousand of such tribunals throughout Canada, each consisting of two members, one of whom will be nominated by a Joint Committee of Parliament, and the other by one of the Judges of the existing Courts. Every effort will be made by the wide distribution of tribunals, and by provision where necessary for their sitting in more than one place, to minimize the inconvenience to which men will be put in obtaining the disposition of their cases.

A Registrar will be appointed in each Province, who will be named in the proclamation and to whom enquiries may be addressed. Each Provincial Registrar will transmit to the appropriate tribunal the applications for exemption which have been submitted in advance of the sitting, and men who have sent these in will not be required to attend the tribunals until notified to do so. Other applicants should attend personally on the tribunal without notice.

#### How to report for service

Men who do not desire to claim exemption will report to the military authorities for service either by mail or in person at any time after the issue of the proclamation. Forms of report by mail will be found in all post offices, and, like applications for exemption, will be transmitted free of postage.

#### Early report advantageous

No man who reports for service will, although he may be medically examined and passed as fit, be required to go into camp or join a battalion until after a day fixed by the proclamation sufficiently late to permit of the disposition by the local tribunals of most, if not all, of the applications for exemption which may come before them. Thus no advantage will be gained by delaying or disadvantage incurred by prompt report for service on the part of those who do not intend to apply for exemption.

#### Facilities for immediate medical examination

Immediately upon the issue of the proclamation, medical boards will sit at every mobilization centre for the examination of men who report for service or who, subject to their right within the time limited to apply for exemption, desire to have their physical fitness determined in order to allay any doubt as to their physical condition, or to know definitely and in advance whether there is a possibility of their services being required. Certificates of physical unfitness issued by these Medical Boards will be accepted without any further investigation by exemption tribunals when they sit. Men found physically fit who have not reported for service may nevertheless apply for exemption on any of the prescribed grounds, including even their physical condition if dissatisfied with the Medical Board's conclusion.

#### Notice to join the colors

As reinforcements are required, notice to report to the nearest mobilization centre will be given from time to time to the men found liable and passed as fit for service. Disobedience of such notice will render the offender liable to punishment, but punishment for failure to report for military service, or to report subsequently for duty when called upon, will be imposed ordinarily by the civil magistrates; offenders, however, will remain liable for the performance of their military duties notwithstanding any civil punishment which may be imposed and will be liable to military punishment in cases in which civil proceedings are not taken.

#### Watch for the Proclamation

Notice of the day appointed for the making of a claim for exemption or for report for military service will be published as widely as possible, but, as no personal notice can be given until the individuals called out have so reported themselves or claimed exemption, men possibly concerned are warned to inform themselves with regard to the day fixed, since neglect may involve the loss by them of important privileges and rights.

CHAS. J. DOHERTY, Minister of Justice.

Ottawa, September 11, 1917.

SCHOOL REPORTS.

DIVISION I.

Senior Fourth—Ronald White, Minnie Ritchie, John Denike, Carleton Clay, Betty Barnes.

FOUND—A Yale key, attached to large stick, placed in Review window some time ago, remains unclaimed.

Miscellaneous

See our new Fruit Pickers. No ladders needed. Save time. Used extensively in Washington. Only two left.—T. B. Young.

Passing Events: Social, Personal, &c.

Ben Newton, who has been in hospital, has returned to the front lines in France.

Mr W. C. Kelley has been confined to his bed since Wednesday of last week, but is now much improved.

Two more soldiers have been sent up from the Coast to the Summerland hospital for treatment. They are Ptes. Binn and Foreman, and arrived here on Wednesday.

Mrs W. R. Mackay has applied for a passport to England, and is hoping to get away in time to spend the Christmas holidays with her people there. She plans on returning to her fruit lot here.

The rural route was taken over on Monday morning by the new contractor, J. E. Phinney, who is doing the work by auto, thus making quite a saving in time, and getting the mail to rural route patrons that much earlier.

Some slight changes have been made in the K.V.R. schedule, as will be seen in the advertisement in this issue. While it has been announced that the C.P.R. had discontinued the practice of using the twenty-four hour time in their time tables, the K.V.R. are adhering to that method.

Mr and Mrs Benson started from Kelowna on a three weeks' saddle ride to Vancouver and return. They went down the east side of the lake and made Penticton the first day, Keremeos the second. Thus by stages of from 15 to 20 miles a day they will make the journey, returning by way of Kamloops, Armstrong, and Vernon.

Mrs Aldridge, Naramata, eggs; Mrs Lipsett, pudding, cream, soup, chicken, vegetables; Mrs Andrew, apricots; Mr Hilborn, cantaloupes; Mrs Snider, peaches; Mr Ramsay, vegetables; Miss Bristow, melons; Mrs Rines, apples; Mr W. J. Robinson, peaches; Mr S. M. Young, apples; Mrs Fraser, preserves; Mrs Campbell, preserves; Mrs Guido, onions; Mrs McWilliams, cake; Mrs Limmer, tomatoes; Mrs Cooper, fruit, jelly, preserves, flowers; Mrs McIntyre, canned tomatoes; Mrs Hespeler, magazines; Meadowbrook Orchard, chicken; Mr Higgin, pears, apples, tomatoes; Mrs Mellor, pears; Mrs Hector Sutherland, nectarines; Mrs Tait, pears, grapes; Dr Lipsett, 1 box crockinole men.

\$15.00 REWARD

Will be paid for information leading to the identification and conviction of the person or persons who stole a quantity of Hardware from the new Bank of Montreal Building.

BERT HARVEY.

ELECTRIC LAMPS

For the convenience of customers I have arranged with the Summerland Supply Co. to carry a stock of Lamps at their Upper Store.

W. J. ROBINSON Summerland B.C.

ARTHUR WISMER Watch Maker, Jeweller and Optician,

Fine Watch and Jewellery Repairing.

Phone 573. R.R. No. 1, GARNETT VALLEY.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented in Summerland by Bert Harvey. A

Mr and Mrs H. G. Estabrook and family left by Sunday evening's train for Victoria where they will spend the winter.

The local treasurer of the Canadian Patriotic Fund has remitted to the Provincial Treasurer of the fund \$227.55, being the amount of local contributions during September, less 95 cents spent on posting notices of arrears.

Dr E. W. Sawyer has benefitted greatly by his visit to the scenes of earlier days in Nova Scotia. His health has greatly improved, and he has resumed teaching, having joined the faculty of Woodstock College, Woodstock, Ontario.

The girls of the Junior Red Cross did splendidly last Saturday with the tag day collection for the Prisoners-of-War Fund. In all \$72.55 was taken, the box containing the largest sum being that in charge of Margaret Ramsay and Alice Weaver.

"We are looking forward to getting back to the best spot in Canada. Summerland will look good when this is over." Thus writes a Summerland soldier to the secretary of the Home Comfort Club in acknowledging a Home Comfort parcel.

Messrs David Gray and J. I. Thompson returned from the Coast last week-end. They got so tired of the wet weather down there that they cut their visit short, and were glad to get back to the land of sunshine. A few days outside always makes a Valley resident appreciate Okanagan climatic conditions the more.

A landslide in Coquihalla pass on Tuesday carried away a small bridge near Jessica. Since then trains have been running via Spence's Bridge. It is stated that last night's train would run up to the scene of the slide where passengers, mail, etc., would be transferred, thus effecting quite a saving in time. It is expected that the new bridge will be completed by Monday.

There is no better evidence of the improved conditions financially with our fruit growers and farmer than is conveyed in the fact that taxes are being paid promptly. A larger proportion than ever have taken advantage of the discount offered for prompt payment. The collector seems quite satisfied with the way in which tax bills are being met.

Miss Frances Maud Buckland, daughter of Mr and Mrs Frank Buckland, of Kelowna, died on Thursday of last week after a severe and brief illness. Only a week before she passed through Summerland from Vancouver in company with her father. Her condition of health was then giving alarm. A week before, along with several other young ladies, she had gone to Vancouver to enter the Normal School but was refused admittance because she was suffering from anaemia.

At a recent gathering of the ladies of the Home Comfort Club, when a number of comforts were prepared for mailing to some of our boys now overseas, several letters were read, all from France, and all expressing thankfulness for the useful contents of parcels received, and particularly for the evidence that they were not forgotten, assurance of which was conveyed by the parcel. Some of the writers were C. Anderson, W. J. Beattie, J. C. Brant, Fred Ford, Chas. D. Kerr, H. Sculthorpe, and H. A. Walton.

A really good show of farm products grown by public school pupils, and of home cooking by school girls, will be held in the College Gymnasium next Friday. The judging will be completed in the morning and the doors opened to the public during the afternoon, and probably the evening, if proposed plans can be carried through. During the afternoon the exhibits will be sold for the benefit of the Children's Belgian Fund. There will also be some novel features included in the program. It is hoped to have an evening illustrated lecture by Mr Gibson, but of this there is no certainty, as he has not yet given assurance of being here.

Mr A. C. Fisher of Hatzic, representative of the Dominion Brokers, was a visitor to Summerland this morning.

Miss Beatrice Cates, who at one time resided here with her parents, and who left Summerland to engage in teaching in Alberta, was married on August 15th, at Red Deer, to Wallace O. Steele.

There is evidently a shortage of cars at fruit shipping points in B.C. Economy crated apples are being shipped in cattle cars. They are, however, reported to be arriving in Calgary in good condition.

E. R. Faulder, H. Dunsdon, B. L. Hatfield, and Miss Marjorie, the young daughter of the latter, returned from a visit to Vancouver last Saturday. The return trip was made in a new McLaughlin car purchased by Mr Faulder.

Miss Aitchison, matron of the Summerland Hospital, returned early this week from an extended visit in the east, and has resumed her duties, which, during her absence, have been ably carried on by Miss Gordon, who has now returned to her fruit lot.

Rev. H. A. Solly and Dr F. W. Andrew returned last Saturday from a motor trip to Seattle, Tacoma, Vancouver, etc. From Vancouver, where Mr Solly purchased a new car, they motored to Hope, from which place to Summerland the journey was made by rail.

Sgt. Frank Hayward, whose safe arrival in Halifax was reported last week, has been delayed at Quebec awaiting his turn to pass the medical inspection. He is expected to reach home some time next week. With him is George Clingan, an Okanagan College boy, who has been granted a two months' leave.

Mr L. Race Dunrobin is this week receiving the congratulations of his numerous friends upon the occasion of the announcement of his engagement to Miss Clouston. We understand the wedding will take place next week, after which, accompanied by his bride, Mr Dunrobin will go to Calgary, there to open an engagement with a theatrical company.

The Ambulance League wish it to be understood that the embargo on apples does not affect the shipment of apples to the soldiers by the Red Cross Society. The secretary has at present received promises of 350 boxes, and would ask those who have not yet replied, to do so as soon as possible so that arrangements can be made to send a carload forward.

Where, the world over, could one find more perfect weather than we in the south Okanagan are enjoying in October. Bright, sunny days with the temperature running up to eighty, and with nice warm evenings, nothing could excel it. A citizen who has lived in California, and knows that State well, says that the south Okanagan is preferable to anything that State has to give. For a short time our winter weather is not as nice as their's, but our summers are so much more to be desired than the southern summer that it much more than offsets the few weeks when they have the better of us.

MILITARY SERVICE ACT.

Ottawa, Oct. 4.—The first class of recruits under the Military Service Act will be called up on Saturday, October 13. A proclamation will be issued on that date notifying men in Class 1 that within a specified time they are either to report for military duty or to file a claim for exemption. Class 1 comprises those who have attained the age of 20 years, and were born not earlier than the year 1883, are unmarried, or are widowers but have no children.

With the proclamation calling up the men will also be published the regulations by which the tribunals appointed to hear applications for exemptions will be governed.

Military headquarters for B.C. have made public the personnel of the medical centres to examine recruits under the Military Service Act. In the Okanagan Capt. B. F. Boyce and Capt. G. E. Duncan will be located at Vernon. Other centres are Vancouver, New Westminster, Fernie, Fort George, Grand Forks, Hazelton, Kamloops, Nainaimo, Prince Rupert, and Revelstoke.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

The regular monthly meeting of the West Summerland Women's Institute will be held in the Parish Hall, Friday, Oct. 12th at two o'clock. C10

A special Thanksgiving service will be held in the West Summerland Baptist Church on Sunday evening at 7 o'clock. Please note change of hour. C10

Thursday, October 18th, has been selected a Red Cross Day throughout the Empire, and all monies collected on that day will be sent to one general fund. The Ambulance League have decided to raise money for that purpose by holding an Auction Sale in the Men's Club on Thursday afternoon, October 18th. Donations of any kind, either new or old, or farm and garden produce, will be most gratefully received, and they beg the public to give them their most hearty support in this undertaking, both by their contributions and by their attendance at the auction that afternoon. Mr J. R. Brown has kindly promised to be auctioneer. Afternoon tea will be served downstairs. C10

When in Vancouver put up at Hotel Dunsmuir Vancouver's Newest and most complete Hotel - 250 ROOMS - 100 with Private Baths. EUROPEAN PLAN \$1.00 per day up Electric Auto Bus Meets all Boats and Trains free. Cor. Dunsmuir and Richards Sts. tf

WATER NOTICE

STORAGE.

TAKE NOTICE that Summerland Lumber Co., Ltd., whose address is West Summerland, B.C., will apply for a licence for the storage of 350 acre-feet of water out of Pope Creek, also known as Meadow Valley Creek, which flows southerly and drains into Trout Creek, about half-mile west of Faulder Siding, K.V.R.

The storage-dam will be located at unnamed lake about 2 miles west of Lot 3761. The capacity of the reservoir to be created is about 350 acre-feet, and it will flood about 80 acres of land. The water will be diverted from the stream at a point about 2,000 feet north of the north line of Lot 2558, and known as Weaver Lake, and will be used for irrigation purposes upon the land described as Lot 2558 Osoyoos Division of Yale District.

The licence applied for is to supplement a right to take and use water as per Record No. 1046. This notice was posted on the ground on the 13th day of September, 1917.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is Sept. 14th, 1917.

### Kickaninny Fishing Is Permissible Sport

But Proper Net Must Be Used.

As a result of the amendments to the Fishery Regulations which forbid the customary habit of catching "kickaninnies" with a scoop net, and which by so doing has deprived a good many of both young and old Okanagan people from a day's sport as well as many a good and tasty meal, Mr. J. W. Jones, as well as the Board of Trade, determined to see if this law could be nullified so far as the Okanagan was concerned, for it was believed that the kokanee was a fish peculiar to this district. With this object in view, Mr. Jones communicated with Ottawa, but the Department of Naval Service, which looks after such matters even during war time, referred him back to the provincial authorities, whose suggestions they were following out when they worded the act. However, a slight though unofficial concession has been obtained, which is that fishing for kokanees may be practiced providing it is done with a proper net and in day time. This is probably good enough for the average kokanee sportsman, for it is surely tantamount to being told to do as has been done in other years. At the same time, it must be remembered that this is purely as yet an unofficial concession, and as the law still stands, the scoop is forbidden, while a 600 feet gill net is not, neither is a drag seine. Fishing is also forbidden between noon on Mondays and noon on Wednesdays. It would, therefore, appear as though the official who made the regulation knows nothing about the "art" of "Kickaninny" fishing, and probably knows nothing about the fish itself beyond that it is red. However, we live

in hopes, and in the meantime there is a big sale of one inch poultry netting, lots of people are getting bad colds through getting wet through nearly to their waists, and the people living in the neighborhood of the creeks have fish for dinner more than once a week.—Kelowna Courier.

### Coast Prices.

Wholesale prices at Vancouver on Saturday last as furnished by Markets Commissioner R. C. Abbott, were:

Apples, B.C. McIntosh Reds	\$2.25-2.50
Apples, cooking	1.25-1.50
Crab apples	1.25-1.75
Peaches	Open
Pears	1.50-1.75
Plums	1.00
Prunes	.85
Tomatoes	.80-.90

### Big Suit Adjourned

The legal dispute between the Okanagan United Growers and the Graham Company of Belleville, Ontario, which has been before the court in Vancouver, has been adjourned sine die to enable the judge to fulfil his engagements at the New Westminster assize. The case has already occupied two full weeks, and is to be resumed about the end of this month.

### B.C. Apples Only.

Vancouver, Oct. 4.—B.C. apples to the amount of 28,000 boxes are included in the cargo of a vessel which will leave here for New Zealand. No fruit from the United States is being carried. The apples are mostly McIntosh Reds and Jonathans from the Okanagan and Keremeos districts, and received high comment on the quality from the government fruit inspectors.

### A German "42" That Failed To Explode.

The photograph shows how the famous 42-centimetre shell compares with the average French infantryman. This shell fell near Verdun without exploding, and is now on exhibition at the Invalides in Paris. It is 5 feet 7 inches high, a trifle more than 16½ inches in diameter, and weighs upwards of 2,000 lbs.

## SKILLFUL WORKMEN

If your suit or coat is designed, cut to your own measure and made by workmen who are skilled in their craft, you will not suffer disappointment when you come to wear it.

But how disappointing it is to have clothes sent home to you wanting in those fine touches that tell of work done by those who are skilled in the ways of making fine apparel.

Complete safety is yours if your clothes are tailored by Hobberlin workmen. Only skilled workmen find employment here—from the chief designer—the highest paid craftsman in Canada—down through each and every grade of workmen. Every garment made to measure.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. GORY, Deputy Minister of the Interior.

## Assessment Roll to be Thoroughly Revised.

Land Values will be Appraised by Messrs. Logie & Cooper

Extension of the Municipal Cemetery.  
Food Controller on Local Milk Prices.

The regular monthly meeting of the Municipal Council, held on Tuesday, was attended by all the members with the exception of Coun. Simpson, who is attending the convention of the Union of B.C. Municipalities.

Mr P. G. Koop was present to support his written claim for a reduction in his assessed acreage. This matter has been before the Council on several occasions, and was argued at some length at earlier sessions. At the previous meeting Coun. Simpson urged that the matter be settled. This week Mr Koop was told that nothing could be done this year toward revising the assessment, and that the question would have to be settled by the next court of revision, if he was then dissatisfied with the assessor's valuation.

Instructions were given Constable Craig to prosecute the owners of two bulls running at large, as well as the owners of a band of horses that has been doing damage in Prairie Valley.

The Council was advised by letter from the Food Controller that local milk dealers must not be permitted to increase the price of milk without first obtaining the consent of that official.

Coun. English made a verbal report of an arrangement with the Okanagan Telephone Coy. re. the wires passing the trees in front of the Stark and Andrew homes. The company had moved the wires to the outer ends of the arms with the understanding that they would not be expected to keep the trees trimmed back, and also that at any time that it became necessary other wires might be run nearer the trees. Coun. English favored the municipality undertaking to keep the trees trimmed since they had been planted, by permission, on the street. The other councillors, arguing that the citizens in front of whose homes the trees were standing were the principal beneficiaries from the privilege, and that these people should keep the trees pruned. The Council would assume no responsibility.

### Final Word for Medical Boards

Official Bodies Must Pass On Each Man Called Up.

Ottawa, Oct. 11.—A number of doctors throughout the country have been writing here to ask if a certificate of physical unfitness from a family physician will be accepted at face value by a Medical Board instituted under the Military Service Act. The answer returned was a prompt negative.

Experience has shown that some family physicians are liable to be placed in an awkward position if certificates of physical unfitness granted by them are competent to secure freedom of responsibility under the Military Service Act for the sons of some of their patients. Doctors might easily be subjected to annoyances of a most disagreeable kind if the idea were to spread that any one of them, with a wave of his pen, might exempt a young man from military service. Under the scheme by which the Military Service Act is operated, the authorities will be guided by the Official Medical Boards.

A complaint was read from Mr Clouston of the tampering with a flume gate by a neighbor. Because of this interference with the water system, the writer said that he had not been able to get a sufficient supply of water to the Hosmer lot.

Miss Ballantyne reported a serious shortage of water to her lot, and hoped it would be remedied for next season.

A definite offer was received from W. J. Wilcox, owner of a number of lots in Peach Orchard, next the cemetery, to deed lots 21-25 inclusive, and also lot 41, making about two acres in all, to the municipality as payment for taxes totalling \$400. The offer will be accepted. This will give desired addition to the cemetery, and a better access than the present road permits.

The question of assessment was discussed at some length. The outcome was the reappointment of Mr Logie as assessor and the decision to ask Mr Cooper to assist in appraising the lots. The Council's instructions are that a thorough revision and readjustment of relative values be made. The assessment roll is to be opened on the 15th of this month and returnable on January 10th.

The following accounts were approved for payment:

Steuart Fruit Co., feed	\$32.10
W. R. Shields	11.95

D. Dickson	12.00
Sundries	22.64
<b>Total</b>	<b>\$2,929.91</b>

## Okanagan Output Is Very Large This Year.

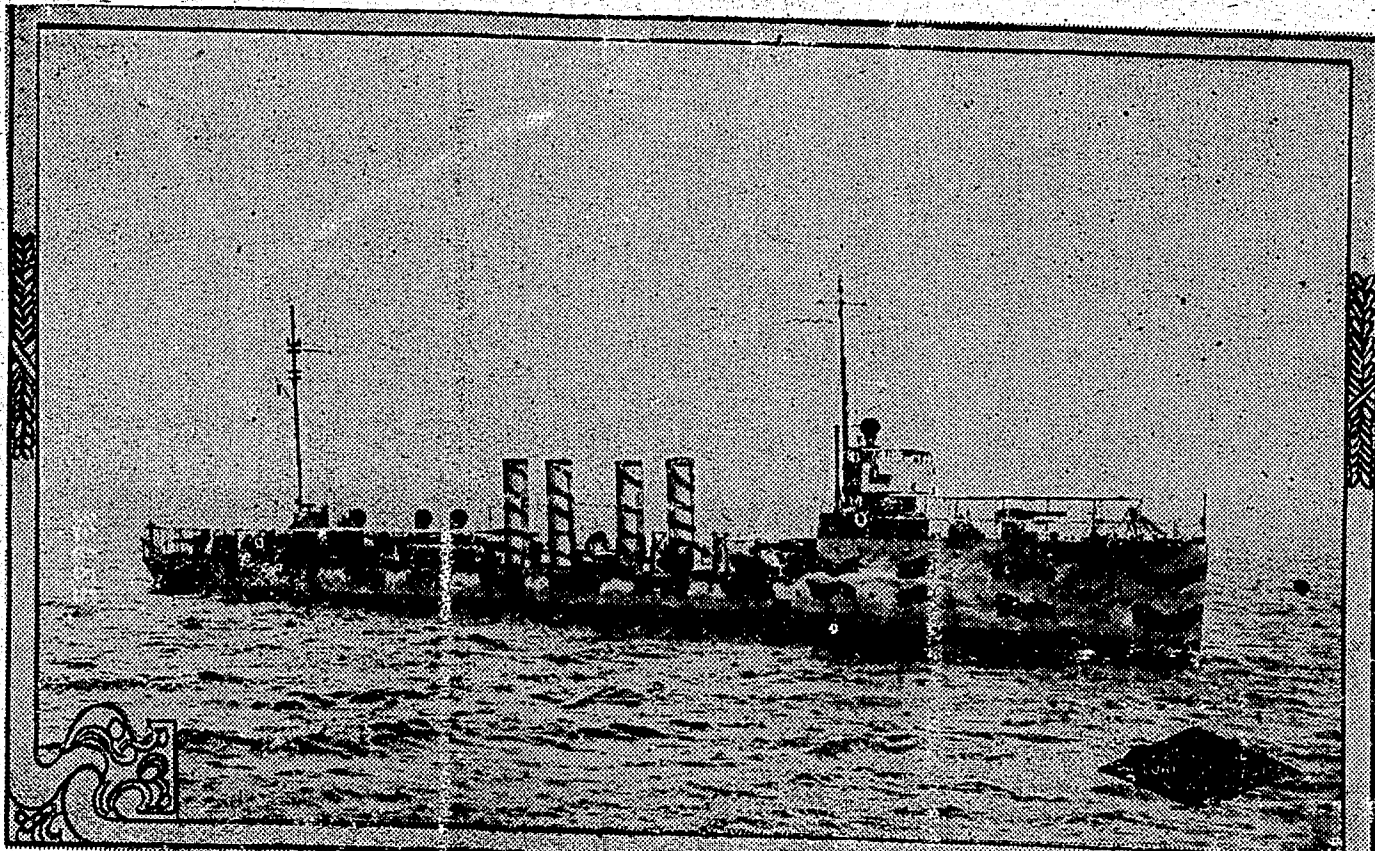

Nearly 4,000 Cars of Produce Exported, Says Maxwell Smith.

Victoria, Oct. 8.—The output of exportable produce from the Okanagan Valley for the year 1917, according to Maxwell Smith, chairman of the Land Settlement Board, who has just returned from that section, will approximate 3,700 carloads, or some 500 cars in excess of last year.

Present estimates place six hundred cars, or the equivalent to twelve thousand tons, for onions alone. Approximately twenty-five hundred cars will be required for the apple crop, two hundred cars for tomatoes, while the balance of the number quoted will be required for mixed shipments of grain, hay, and root crops.

In the last week of September from Kelowna alone there were shipped ninety-eight straight cars in addition to cars of mixed shipments, and of that number daily from two to four cars went out by express.

## Warships Painted to Represent Waves.

To give warships a cloak of invisibility they are now painted as shown in the photo. At a distance it is difficult to determine whether it is a vessel or the waves of the ocean, so deceptive is this new painted cloak.

## Kelowna Board of Trade Opposed to Reduced Service

Tri-weekly Lake Service will be Met by Strong Protests.

(Kelowna Record).

A number of local business men gathered together on Tuesday morning in the Board of Trade room for the purpose of considering what action to take in view of the rumored intention of the C.P.R. to reduce the boat and train service in the Valley. Mr. H. F. Rees, president of the Board of Trade, took the chair.

Some little difficulty was felt in discussing the matter owing to the absence of definite announcement on the part of the company, but it was plain that any such action would meet with decided opposition from the business men, many of whom urged the immediate circulating of a petition against the proposal, and the enlisting of the support of other places in the Valley, which, it was felt, would equally resent such a step.

The report which had been reproduced in the press, it was suggested, had been put out more in the nature of a feeler, in order to find out just how the reduction of service would be received. This seemed to be borne out by the fact that the new time tables issued October 1st still continued to show the daily service, though it had been pointed out that this could be changed at any time by a supplementary time table.

It was finally decided that inquiry should be made at Vancouver and Revelstoke as to the precise intentions of the company, and that the executive committee be empowered to take action on the receipt of a reply. It is certain that should the C.P.R. persist in its intention an organized effort will be made to prevent any interruption in the mail service.

An alfalfa lot in Peach Valley, locally known as the Villiers' lot, and lately owned by Mrs Leslie of Okanagan Landing, has been purchased by A. B. Elliott. The sale was made by Mr F. D. Cooper.

One notable shipment from the Okanagan Valley a few days ago was a single train, made up of seventeen cars, carrying nothing but sheep, there being some two thousand in the consignment.

## The late Dr. C. M. Smith.

The funeral of the late Dr C. M. Smith, held under the auspices of the Summerland Lodge, A. F. & A. M., was well attended by members of that order, quite a number of whom motored down from Peachland. The floral tributes were particularly beautiful. One very large wreath, from Supt. Helmer of the Experimental Station, represented the square and compass of the masonic order, worked in white and violet sweet peas and white asters, and surrounded by a border of green. Other wreaths were sent by Mrs English, Mrs Noble, and Mrs Milne.

The deceased was born in Brant County, Ont., in the year 1848, of Irish and Canadian parentage, his mother being a daughter of a veteran of the war of 1812, and granddaughter of a United Empire Loyalist named Fairchild.

When a lad of 16 years the family moved to Owen Sound, where, at 17 years of age, he was given a first-class teacher's certificate, and for two years he taught school. After that he studied medicine, and practised his profession at Owen Sound, Orangeville and Sault Ste Marie. His health being impaired by the rigorous winters of the Soo, he came to Summerland in 1905, and was the first resident physician here, practising also in Peachland.

Shortly after the death of his younger son, Dr and Mrs Smith removed from here, going first to his former home at the Canadian Soo and later to Long Beach, California. Last July they left California, intending to come to Peachland, after visiting his sister, Miss Smith, at Port Alberni. It was at the latter place that his last illness overtook him, the end coming suddenly. Those left to mourn include his widow, one sister, and one son, Bert, a druggist, living at the Canadian Soo.

## B.C.'S FIRST QUOTA WILL TOTAL 1,500 MEN.

Victoria, Oct. 10.—Military headquarters here stated to-day that 1,500 men will comprise British Columbia's first quota for the training camps after enforcement of the military service act. The remainder will be summoned to the colors at the rate of 600 a month. Men who qualify for Class 1, and who do not intend to claim exemption, will have up to the date set for the sitting of the tribunals to volunteer. After that all Class 1 men will be held to be infantry.

## Upper Floor Of Hospital Building Now Finished.

Provides Much Needed Further Accommodation.

The much needed additional accommodation in the form of more sleeping rooms for the nurses and another ward or two will soon be available at the Summerland Hospital. The work of finishing the upper storey is nearing completion, the carpenter work having been completed yesterday, there remaining only some little more plumbing and the finishing hand of the painter. The first thing that strikes one after he enters the new rooms is the surprising amount of space that has been reclaimed from what was formerly a useless attic. At the right of the head of the stairs, which lead up from the main hall, making a turn to the west near the top, is a large room facing the north.

This will give another good-sized ward. To the left a door opens into a cozy sitting room, well-lighted, and fitted with a fireplace. Opening off this is the matron's room, and a hall way to the front balcony. From this hall way another runs over forty feet to the east end of the building. On the north side of this there is a large bathroom and two more bedrooms, while on the opposite side a door gives access to a roomy store-room. Each of the sleeping rooms has a large clothes closet, and from the hall and the sitting room there opens several other closets which will all be found very useful.

For some time it has been necessary to keep a bed set up in the reception room on the main floor, and in other ways the need of the additional rooms has been shown. Incidentally, we are informed that the operating room is kept in pretty constant use. Numerous minor operations and, frequently, more serious ones keep that well equipped department in steady use.

Since the building was finished in its original form a laundry and sleeping accommodation for the Chinese cook and laundryman have been provided in the basement, one side of which is above ground level.

The hospital society is to be congratulated for its enterprise in having succeeded in providing the needed rooms which the finishing of the upper storey of the building provides.

## Overcrowding Calgary Market

Prairie Metropolis Flooded with Fruit, while Points Beyond Are Bare.

These should be taken care of by B.C. Shipping Centres.

Shippers should remember that at this season there is great possibility of flooding one town with fruit and keeping another bare, says the Prairie Markets Commissioner in his letter of Saturday last. Continuing, he says: This is particularly noticeable this week in Calgary, as it seems the regulars and irregulars and submarines all concentrate on this city. This being the case it would be well to bear in mind that as the peak of a season approaches always shorten on Calgary and lengthen on points further east, as the re-shipping charges renders distribution from here too expensive to be profitable.

A study of the freight rates from B.C. points to prairie points and the rates of re-shipping from here will show the need of solving the point of destination at the point of shipment.

There is a season when our apples are not on this market. Yes, two of them. One is before ours are ready to ship, and the other in early spring. But when B.C. apples get on the roll others take a back seat. At present B.C. holds the apple fort here, and no better fruit ever reached the prairie market than is now arriving. The McIntosh Red is a leader in favor, and overdoing the supply of that variety seems impossible. It is McIntosh everywhere, or just plain Mac.

### KNOTTY PROBLEMS.

During the past month there have been many complaints from the brokers and jobbers on the prairies that fruit shipments have not arrived according to contract. The general complaint has been "arrived overripe." Shippers in B.C. are disinclined to believe that such is the case, as when the cars roll everything seems in apple pie order.

The great problem to settle is "What is overripe fruit?"

If the shipper happened to be in Calgary and inspected his own car he would be convinced in nine times out of ten that the claims made by the jobbers are fair, but in the tenth case he would disagree. Jobbers here do not take into consideration the difficulties at shipping point, but look for goods to arrive in condition to allow them time to place them with the trade, so that the trade has also time to sell without sacrifice because of its overripe state. Several shipments of pears, plums, and prunes have arrived in excellent condition for immediate consumption, but have been refused or held for adjustment because it had to be forced on the market to prevent loss. Bartlett pears have been mostly the cause of trouble.

Perhaps the employment of a few more inspectors to examine the state of the pack might overcome the overripe difficulty.

These troubles are akin to the fruit game, and B.C. is no worse off than her neighbors in many other parts, but where great care is taken at shipping point the troubles decrease in proportion.

How to ship by freight! This again is a knotty point, but "safely first" suggests the use of ice at initial point. If arrangements were made to open the air vents after Revelstoke was reached, and when the initial icing was about spent an improvement would be found in state of arrival. Icing will prevent the fruit from rapid ripening en route, but if overripe when shipped it can only partially retard it, but even then it is a great preventative of loss.

## OUR SCHOOLS AND FREEDOM.

THERE ARE A GREAT MANY NATIONS in the world which imagine themselves to be republics when they are nothing but the sport and the prey of a few clever men, says the Montreal Witness. But be the leaders ever so patriotic, they can do little with ignorant people. The world has before it to-day one of the most frightful examples of the danger of lack of education that could be conceived in the unwillingness of the ignorant Russians, eighty per cent of whom can neither read nor write, to support the liberties which they have just won. They have not enough education to know where Britain or France or the United States is, what their strength is, or why they should assist them to crush German militarism. They have little conception of what Germany and Austria mean, never having seen a map, and only look on the German and Austrian soldiers who confront them as a people whom they have angered, and who will down arms as soon as they cease to anger them. They perceive that they have stirred up a hornet's nest and expect to appease the hornets by running away, though that is the worst thing they could possibly do under the circumstances. We have much to be thankful for that we in Canada are as a nation not as ignorant as this. Yet it must be said that we live in a false paradise, thinking ourselves educated when in reality we have far from acquired such a state of education as prevails in France or Germany. It is commonly supposed that we lack the money with which to educate ourselves. That we cannot afford to pay good teachers and equip good schools. What a foolish notion that has been shown by the war expenditure. We have been able to spend untold millions on the war, and are intending to spend untold millions more. Had we been anything like as sincere in our desire to be educated as we are in our determination to win the war we would be the most educated people on earth. It is never too late to mend. Let the whole of Canada try to make this school year the greatest in its history. Let the school boards do their best, ungrudgingly as to cost, to secure efficient teaching, and the teachers their best to inspire the pupils with a desire to learn, and an ambition to get on in the world, and the parents in the homes second the work of the teachers and support them to the fullest extent in their efforts to keep orderly schools where teaching is possible.

§ § § § §

## RELIGION AT THE FRONT.

THE CURIOUS THING about the religion of the front is that it is mystical and visionary, writes Rev. J. Kelman in the "Christian." A "revival" of religion at the Front does not mean what it meant when Mr Moody went through the city. Many a man at the Front has learned for the first time what we mean when we preach. In the tense strain on his nerves he begins to see strange visions. I have met twenty or thirty cases such as the strange White Christ that goes through the ranks. One boy told me that when he was ordered over the parapet, Christ appeared to him and told him to keep smiling, and said, "As long as you keep smiling you are safe," and he went into three hours' bayonetting with a smile that must have been more terrific than even his bayonet. He was never touched, and he believes to this day with absolute simplicity of faith that Christ kept His word.

Strange things are happening continuously. Make what you will of them. Many of these fellows have come, not by theology but by experience, into the vivid consciousness of Christ. They have seen the great tender hands of the Good Shepherd searching the wilderness for His sheep lost and afar off, and I am sure He is finding them there.

What was Jesus Christ to them before—to most of them? A mighty ecclesiastic quite out of their line. To others, a figure two

# A Shower Is Needed!

A Shower of Comforts and Necessities for CHRISTMAS PARCELS for our Citizen Soldiers now Overseas.

Soap - Lunch Tablets - Towels  
Tooth Paste - Candles - Notepaper  
Pencils - Tobacco - Cigarettes  
Gum - Chocolate - Sugar - Canned Heat  
Socks and Handkerchiefs  
Also Money with which to buy other sundries for the parcels.

An opportunity will be given on the evening of **Wednesday, October 17th,** at **Hotel Summerland,**

to shower the HOME COMFORT CLUB with these, so that they may be parcelled and mailed as Christmas Presents from Summerland to her boys in France, &c.

EVERYBODY COME!

thousand years, more or less, away, and belonging to a special class. Now they are going through, so far as we can, suffering such as Christ did for the sins of men. In their sacrifice to-day comes the great Christ of the Cross, and these men who once lived in self-indulgence realize suddenly that Christ is their Brother.

What they will do with this experience, with this realization afterwards, depends on our wisdom in the Church. God knows whether we shall be able sufficiently to understand to follow and to rise to the tremendous occasion.

## Naramata News

Current Events of Town and District

His parents and local friends are daily expecting the arrival here of Sgt. Frank Hayward, although it may be that he will go straight through to the Coast with the other returning soldiers of his party first. Sgt. Hayward has seen two years of fighting, and is the first of Naramata's citizen soldiers to return from the scene of battle. Wounded some time ago he has been sent home on furlough, after spending some time in hospital in England.

If present plans can be carried through some of Naramata's boys, members of the Sunday School, will attend the Sunday School convention to be held this month in New Westminster. The matter was discussed by teachers and officers last Sunday along with other items of business pertaining to Sunday School work. The idea originated with Dr Myers and Rev. Mr Westman, who extended the invitation to the boys. It has been decided that as many as possible shall go, the Sunday School to pay a portion of the expenses and the parents of the boys to make up the difference.

Mrs Myers and Miss Alice were the guests of Mrs Archibald, Summerland, on Thanksgiving Day.

Mr and Mrs Partridge entertained a number of the young people last Saturday evening in honor of their daughter, Mrs George Beddome, who came in from the prairies a short time ago to spend a few weeks with her parents.

The go-to-church trip of the ferry which has given our people an opportunity to attend the Sunday evening service in the Lakeside Church, Summerland, has been greatly appreciated, and it is hoped will be continued as long as weather conditions permit.

The local church was beautifully decorated for the "Harvest Home" service on Thanksgiving, which service was well attended. A quantity of apples donated for the occasion by the managers of the Fruit Union and the Naramata Fruit Co. will be sent to the Canadian soldiers through the Red Cross.

Mr Avison, now with the Summerland Experimental Station spent the holiday here.

The regular monthly meeting of the W.C.T.U. was held in the church on Tuesday afternoon. The members decided to hold a sale of home-made cooking again this year. The date of the sale will be fixed at the November meeting. Among the communications was one regarding the cocoa fund for the soldiers, and several letters of congratulation from sister unions.

Miss Edith Roe spent the holiday here with her parents.

The local Red Cross, which met last Saturday, is very busy preparing material for the soldiers' Christmas boxes. These must be sent off not later than Nov. 1st. Mrs Armour provided the refreshments for Saturday's meeting.

The fourth car of apples to be shipped by the Naramata Fruit Co. this season is now nearly ready. With the few packers that are available the company is now making a daily pack of 125 to 140 boxes a day.

The fruit being shipped from here this season is pronounced of high quality. It is greatly to be regretted that the shortage of water has caused too much of the apple crop to be under-sized, thus reducing the proportion of number one grade.

Mrs Cash will be leaving in a few days for Vancouver where she will probably remain for the winter.

Miss Enid Rayner is planning on taking a trip east as soon as the apple packing season is over.

### HEARD ON THE TRAIN.

"Is she as sour as she looks?"  
"Sour? Why, if that woman gazed aloft on a starry night she'd curdle the Milky Way."

## Water Dispute.

A case which presented many interesting features and some points of law of great importance to the district, came up for hearing a few days ago before Magistrate Weddell at Kelowna after having been adjourned from September 17th. The case was one in which D. Gellatly, the well-known rancher, was defendant in a charge brought by the Westbank Irrigation Co., of interference with their irrigation works and the cutting of a dam built by them on Powers Creek.

Gellatly, while admitting the cutting of the dam, contended that as holder of a prior record on the creek he was entitled to the water which he alleged the company was holding back.

Owing to the water shortage this year the Westbank Irrigation Co. had gone back to the headwaters of the creek and released a supply of water from Horse Shoe Lake, to enable them to use which they had, acting under permission from the district water engineer, built a dam across the creek. Mr Gellatly who takes his irrigation water out of the same creek, but lower down, was asked to join in this undertaking, but refused, claiming that as his record was a prior one he had the first right to the water anyway. When the extra water began to come down he went up to the company's dam and cut a way through it, allowing the water to come down to his own ditches. The break was closed by the company's bailiff, but defying all warning notices, Mr Gellatly cut it through again. A charge was then brought against him under the Summary Convictions Act.

While Gellatly's record was for 300 inches, it was claimed he was not entitled to all of this unless he had 300 acres under crop. Evidence was also submitted based upon measurements by the district engineers, to show that Gellatly was getting more than his proportion of the water even before the extra supply was tapped. A good deal of the interest of the public in the case hinges upon the right of Gellatly as holder of a prior record to water specially procured by the company by tapping a lake.

After a lengthy hearing it was decided that Mr Gellatly had offended by taking the law into his own hands and breaking the dam in spite of posted warnings. He was fined \$50 and \$74.45 costs.

When the decision was given defendant withdrew counter charges he had made against E. H. Smith and Cecil Clarke of interfering with his water supply.

Mr Gellatly has announced his intention to appeal the case to a higher court.

## ELECTRIC LAMPS

For the convenience of customers I have arranged with the **Summerland Supply Co.** to carry a stock of Lamps at their Upper Store.

### Graphic Story Of Hun Raid.

Naramata Man Gives Vivid Picture of Visit over England of German Air Squadron.

In a recent letter to his mother, Mrs E. P. Roe, Naramata, Gerald Roe gives an interesting account of an air raid over the south-east coast of England. Of this he writes:

"All the other raids that I have mentioned were merely amateur rehearsals to the finished spectacular production that we had yesterday morning. Shortly after ten o'clock the warning whistle went: we rather welcomed the sound of it, as we had been working hard all morning, and it is generally understood that it is a case of lay off when the raid is on. Well, in about five minutes it was on with a vengeance. The guns started around Ramsgate, which is just across the bay from us. One gun after another started, it soon became a steady roar, growing louder all the time as more guns and ones nearer to us took it up. These air guns give a short wicked bark, then there is a long whine or zing, then a low dull boom as the shell explodes a mile or so in the air. We could see that all the shots were centred in a space of about two or three hundred feet. The shots appear in the form of a ball of smoke as large as your head, which very slowly disintegrates and drifts away. The whole space was studded with little puff balls. There would be a hundred at a time. They were being put there at the rate of one a second when all the guns got going. This was some sight in itself, and just as we were wondering what it was all about and if it was coming our way, there slowly emerged through the haze and clouds a German air squadron. Ten of them, all exactly alike and in perfect formation, a leader first, and fairly well ahead, the others following, in V shape. It was a beautiful and wonderful sight, and you lost all idea of fear or the real purpose for which they were there, in admiration of these silver and gold machines moving along as steady as if they were on a track, and apparently very slowly. They are very high, which accounts for their apparent slowness. They are usually travelling at from 80 to 100 miles an hour. As the sun strikes them at different angles, and shades from the drifting clouds, they change from all silver to a light bronze or gold and back again. They give you the impression that they are brand new, all exactly alike, and the very last thing in aircraft. As they swing inland, and directly over our camp, another and another gun would open up on them, and the guns at the rear would stop firing as they got out of range, other guns taking their place as they came within range. The little puffs of smoke were getting closer and closer as the gunners got their eye in, and soon they broke up the fine formation. As it got too hot for a machine it would rise, fall, or slip off to the side a few hundred feet, and some of the guns would start feeling for it again. Then all at once we saw that one of the machines was hit. It's wing was shot away completely, and down it came, for all the world like a wounded duck, and half buried itself in a field about a mile from here. Then a second machine was hit and set afire, and it came down like a big ball of fire and smoke. About half way down the engine broke away and came down like a falling motor. Those machines carry three or four men each. Out of the first one a man was soon to jump or fall. Strange to say there was one man alive in that machine, and not very badly injured at that. The rest of the machines, eight now instead of ten, swung around and made for the coast, taking a long curve which took them over another town further down the coast. This brought them directly over our head, and we had the best possible view of them for over half an hour altogether. You have a feeling while they are directly over you that you wish that they would hurry up a bit and get past, and you have half a notion to get up and dodge around behind them. Of course they are dropping bombs more or less while they are directly overhead. You are sure that a bomb would drop right on your head. It probably wouldn't within half a mile, but that is the feeling you have. We all agreed afterwards, with emphasis on the afterwards, that it was a sight worth coming all this way to see."

# The Summerland FALL FAIR

and Flower Show

IN THE PARK

Wednesday & Thursday

October 24 & 25

Will be BIGGER than Ever

BEGIN NOW to prepare your Exhibits. Select some of your best-looking Apples, Crab-apples, Pears, Quinces, Grapes, &c. Let us see what you are growing in Field and Garden produce.

POTATOES will be a special feature this year; also Beans  
SEE PRIZE LIST, look it over carefully, and SHOW SOMETHING.

Take Note: Addition to Prize List - BEST SADDLE HORSE (saddled and bridled) - Prizes, \$4.00 and \$2.00

**LIVE STOCK** Owners would do well by **BEST ANIMALS**  
Showing some of their **BEST ANIMALS**  
AT THE FAIR THIS YEAR.

There will be a **BIG RING** for Stock parade  
which will also help in the Judging.

Come along and help boost Summerland, and show what can be raised in the Stock line.

An **AUCTION SALE** of **LIVE STOCK** will be held on Ground on Second day.  
Entries for above solicited. If you have anything for sale, let the Secretary, or J. E. Phinney, Auctioneer, know about it.

This will be the last Fall Fair in the Province this year, and is

**OPEN to ALL in the Province**

Exhibits from Peachland, Naramata, Kaleden, Keremeos, Kelowna, Westbank, and Penticton  
Particularly invited.

**WOMEN'S INSTITUTES SECTION**

The Summerland and West Summerland Institutes will hold, in conjunction with the Fair, a combined Exhibition of Flowers, Fancy Work, Cooking, &c.

Members of above Institutes, and other ladies, are urgently requested to enter exhibits. Kindly communicate with either the Secretaries, Mrs. JOHN TAIT or Mrs. J. J. MITCHELL.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

On Tuesday Mr W. O. Williams, having resigned his position at the general store, left by the boat for Summerland to visit friends there before taking another situation.

Mr and Mrs Wood, their daughter and two sons, came down on Tuesday evening from Alberta, and have moved into J. L. Vicary's house. We understand that they have leased Mr Vicary's fruit lot for three years. Their coming into the neighborhood gives additional help at this busy time, as Miss Wood and her two brothers have joined the staff at the packing house and are helping to handle the bumper fruit crop.

In speaking to Mr Robison, the manager of the local Fruit Union, he said that this season's output would far exceed anything handled by the Union before.

Mr and Mrs Ramsay went out by Wednesday's boat for Victoria. Mr Ramsay having been ordered to report there as he has to undergo another operation to cure his lameness before being discharged.

Mr Willis, representing Hudson & Stock, photographers of Kelowna, spent several days in town this week. We understand that he was quite successful in taking orders for photographs of orchards, etc.

Mrs J. Seaton went out on Thursday evening to make her home with her daughter, Miss Bessie Seaton, for the winter.

Mrs J. L. and Miss Mary Vicary went to Kelowna on Thursday where Miss Mary will take up her studies.

Mrs Neil Martin and her son Brewster came in on Thursday and visited Mr and Mrs Geo. Keys, going on to their home at Vancouver on Friday night by K.V.R.

Mr Charles Kay of Vancouver, who was visiting his parents, Mr and Mrs Jas. Kay, left for his home on Friday night.

### Combined Meeting of the Town and Hill Branches Ambulance League.

Almost every member of the Ambulance League was present at the combined meeting which was held last Thursday afternoon at the home of Mrs Moore. It was a most happy thought, for it brought all the members together, and the exchange of ideas was very helpful. Sewing was the first thing on the program, and the two sewing machines were kept busy keeping up with the work. The ladies were then asked to go out to the verandah and Mrs Gefford took a photograph of the group. Mrs J. Elliott sang very sweetly that beautiful solo, "Face to Face," which everyone enjoyed. Refreshments were served by the Hill branch of the league and a pleasant social half hour followed, after which a short business meeting was held with the vice-president, Mrs Geo. Keys, in the chair. Mrs R. J. Hogg, the secretary, read the minutes of the previous meeting. It was suggested that a list of the finished garments made by each branch be kept, so that at the end of each year the members would know how many finished articles had been contributed by each branch. It was also suggested that trench warmers could be made with newspapers and paraffin for heating the food in the trenches. George Robinson very kindly offered to take the down

town members of the league to the meeting in his auto and to give the proceeds, which amounted to \$2.50, to the Patriotic Fund.

Miss Dancer of Summerland came up on Sunday and visited Mr and Mrs N. S. Davidson of Trepanier, returning home on Monday.

Mr W. D. Miller spent the weekend with his family here, returning to Penticton on Sunday evening.

A special service to commemorate Thanksgiving Day was held at the Union Church on Sunday. The church was very beautifully decorated with autumn leaves and berries with their many lovely tints, making the whole interior resplendent. Special music was rendered by the choir.

### Peachland Comfort Club Send Their Christmas Parcels.

The members of the Comfort Club met in the Reading Room on Saturday afternoon and packed 26 parcels for the boys at the front. That it was a good substantial parcel you will have no doubt when you read

### Ambulance League

The regular meeting of the Ambulance League was held on Tuesday afternoon in the Reading Room. As the secretary, Mrs Hogg, had received a letter from the Red Cross headquarters asking this branch to join in the Tag Day, which is to be held on the 18th inst, it was decided to observe that day, and a committee was formed, composed of the following ladies, to make all the arrangements; Mrs Williams, Mrs Smalls, Mrs Needham, Mrs Keating, and Mrs A. Miller. The committee are to meet on Monday afternoon at the home of the president, Mrs Williams, to make the tags. At the close of the Ambulance League the Comfort Club met with Mrs A. Smalls, the president, in the chair. After the secretary, Mrs Buchanan, read the minutes, Miss Alice Elliott said that the girls wished to be affiliated with the Comfort Club, and would do everything they could to help along the work. It was proposed to hold a Hallowe'n social, and if the members of the Comfort Club would help in the way of refreshments, which were to consist of gingerbread, brown bread and butter, etc., they would give all the proceeds to the club. The ladies very gladly accepted the proffered help

of the girls, and will send for wool to be distributed and made up into hand-knit mitts.

Mrs D. A. and Miss Margaret Kirkby of Penticton came up on Saturday morning to spend Thanksgiving Day with her parents and bid good-bye to her brother, Mr John McLaughlan, who has enlisted. Mr Kirkby came up on Sunday morning, and they all returned home on Monday night.

The quarterly meeting of the Baptist Church was held on the afternoon of Thanksgiving Day, Pastor Scott in the chair. After a season of Thanksgiving reports from Mr Raymond Harrington, church clerk, Mr L. D. McCall, the church treasurer, Mr John Kerr, the secretary of the Sunday School, and Mrs McDougall, the secretary of the Women's Mission Circle, were pre-

serted and adopted. The treasurer's report showed a balance on the right side. Mr W. O. Williams, assistant superintendent of the Sunday School, having left Peachland, and Mr Harold McCall being away, Mrs Scott was appointed assistant superintendent. At the close of the business the friends sat down and enjoyed a Thanksgiving supper together.

Miss Montgomery of Penticton came up on Saturday morning and visited at Dr Buchanan's home, returning home on Monday night.

Rev. James Lang was a passenger to Vernon on Monday to stay with his son, Mr Hamilton Lang.

Mr and Mrs McBride of Vernon came down on Sunday to spend Thanksgiving Day with Mr and Mrs J. G. Robison, returning home on Tuesday evening.

### Our Booklet Explains

why Kootenay Ranges stay good as new, long after other ranges have worn out; how the asbestos joints prevent leakage of air or drafts; how the aluminumized flues prevent rust; and why they require less fuel than other ranges. Ask our dealer or write for booklet.

the following list of contents: Christmas cake, pr. hand-knitted socks, pr. hand-knit mitts, khaki handkerchief, 1 lb. tin of condensed coffee with milk, 1 trench candle, box of bachelor buttons, pair of leather laces, linen face towel; Turkish towelling, wash cloth, cake coal tar soap, box of mixed fruit; 2 packets chocolate and a Christmas card. Quite a few donations of money towards the fund were brought in.

Mr Manning of the Peachland Sawmill Co. was a passenger south on Saturday night. Mrs Manning was on board the boat and they spent Thanksgiving Day with their son at Penticton, returning on Tuesday morning.

Miss Minnie Card, who is staying with Mrs W. D. Miller, went down to Penticton on Saturday night, returning on Monday morning.

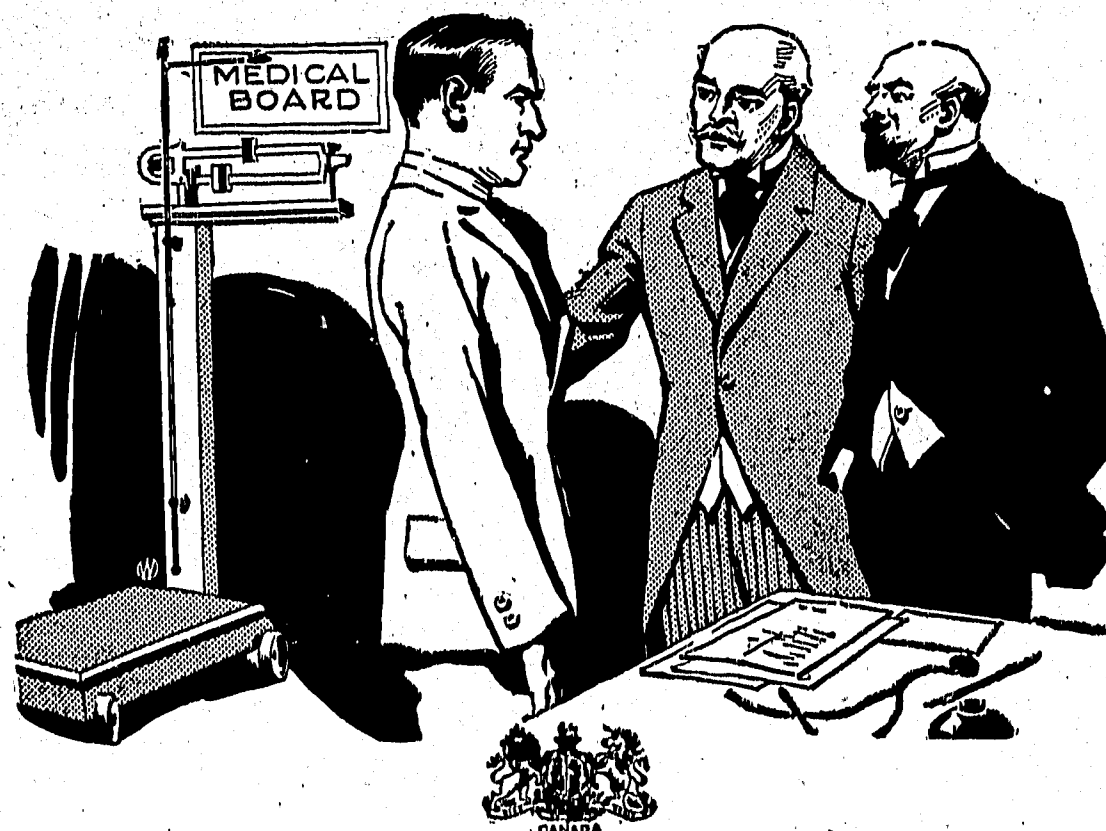

Mrs Jas. Hayward of Naramata came up on Saturday morning to visit her daughters, Mrs J. Wright and Mrs J. L. Elliott, returning home on Monday evening.

Miss Leone Morrison came home on Friday evening to spend Thanksgiving Day with her parents, returning to her school at Rutland on Monday morning.

Mr A. Town was a passenger south on Saturday morning, returning on Sunday evening.

Mr F. Frowen was a passenger to Kelowna on Tuesday where he has gone to work for the Irrigation Co. He expects to be away about a month.

Peachland is still contributing to the upkeep of the war, for three more of her citizens enlisted and left on Tuesday morning. They were John McLaughlan, J. S. Moore, and W. O. Williams. They were bound for Vancouver to join the Aviation Corps. There were quite a number at the wharf to see them off, and bid them God-speed.

### These Men Will Help You Decide

Are you liable to be selected for service under the Military Service Act?

The answer to this question is being made readily available for you. Remember that the first class to be called includes only men between the ages of 20 and 34, both inclusive, who are unmarried or widowers without children, those married after July 6, 1917, being deemed single for the purposes of the Act.

Medical Boards are now being established throughout Canada. These Boards will examine, free of charge and obligation, all men who wish to be examined as to their physical fitness for military service. They will tell you in a very short time whether your

physical condition absolves you from the call or makes you liable for selection.

It is important that you obtain this information as soon as possible. A certificate of unfitness from a Medical Board will secure for you freedom from responsibility under the Military Service Act from any Exemption Tribunal. A certificate of fitness will not preclude an appeal for exemption on any ground.

In order that you may be able to plan your future with certainty, visit a Medical Board as soon as possible and find out if you are liable to be selected. Your family and your employer are interested as well as yourself.

Issued by The Military Service Council. 191

The erection of the first of the permanent buildings on the Experimental Farm will be commenced at once. This will be a two storey structure, with concrete basement. The main floor will be devoted to offices, while the floor above will be for exhibition purposes, where the various products of the farm and other relative material will be gathered into a museum collection.

Exemption tribunals have been named for this Valley as below. The first named for each centre is the selection of the county court judges, and the second that of the board of selection, which has been sitting at Ottawa. In the Valley proper there will be only two tribunals, one at Vernon, Messrs L. Norris and A. Cochrane, and the other at Penticton, Messrs C. F. Guernsey and E. L. Michael.

From recent information received from Kelowna it now appears that the tract of land leased by Rennie Bros. of North Yakima for a sheep ranch is not adjacent to that city, but is none other than the Shingle Creek property of F. M. Buckland, and is but a short distance back of Summerland. Mr Buckland is now residing at Kelowna, hence the confusion as to the location of the proposed sheep ranch.

**United Services**

**Passing Events: Social, Personal, &c.**

Mr and Mrs McCutcheon and Mr and Mrs Rines motored to Princeton and back last Sunday.

Leaving here on Monday night and returning on Thursday morning, O. Atkins was a visitor to the coast metropolis this week.

Miss Cooper, who went to Ottawa last month on a visit with friends, will remain in the capital city until spring.

Mr and Mrs J. C. Brown, who, since leaving here, have been living at Sunny Slope, Alberta, have removed to Calgary, where they will spend the winter.

Lily Simpson, who has returned from Walhachin, where her parents now reside, in order that she might attend high school here, and her friend and school mate Lucy Hargraves, spent the week-end and holiday with friends in Naramata.

Three of the high school boys, Blanchard and Russell Munn and Alex. Smith, took advantage of the holiday and spent the three days on a cycling trip to Oroville and return. Leaving here on Saturday morning the American town was reached that night. Sunday was spent there, and the return journey made on Monday. In the eyes of their school mates the three have accomplished quite a feat.

The Ladies' Aid of St Andrew's Church held a very successful supper on the evening of Thanksgiving Day. A large number of citizens attended, and the ladies are anticipating a net result of over fifty dollars when all returns are in and accounts paid. In these days of H.C.L. it is indeed a treat to get a Thanksgiving dinner for "two bits"—the price of an ordinary supper in pre-war times.

Cliff. McWilliams and Hilton Snider, who were given "harvest leave" from the Petawawa training camp, came in from Manitoba last Friday. They have been assisting with the harvesting since they suspended their field artillery practice, and having a few days of the leave they spent them here. They left here on Tuesday night to rejoin the artillery, which has been transferred to Hastings Park, Vancouver, for winter training. Others of the 68th who have come up from Vancouver to spend a few days at home are, Ernest Lister, James Kean, and Aubrey King.

**ARTHUR WISMER**  
Watch Maker, Jeweller and Optician,

Fine Watch and Jewellery Repairing.

Phone 373. R.R. No. 1, GARNETT VALLEY.

Mr G. A. McWilliams was a visitor to Summerland this week.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented in Summerland by Bert Harvey. A

Mr Harold Sharp, who has been visiting at the home of his brother, S. F. Sharp, has enlisted in the 72nd, since going down to Vancouver some days ago.

After being confined to his home for several days, C. E. Rennie is now much improved, and, with Mrs Rennie, is spending a few days with relatives near Penticton.

Mrs R. C. Lipsett, after returning from attending a Women's Institute conference in the Kootenay district, went down to the Coast, where she attended another conference at Duncan, and later a meeting of the Advisory Board at Victoria.

Mr and Mrs J. A. Darke, who have been living in New Westminster for about a year, arrived here on Thursday morning. They will reside in Prairie Valley, where Mrs Darke, formerly Mrs Nettle, owns a fruit lot. Mr Darke is a brother of S. R. Darke, Meadow Valley, and of Jas. A. Darke, who at one time lived here.

An excellent indication of the condition of the fruit growing and kindred agricultural industries in Summerland is shown in the disposition of our own people to buy land. Real estate agents report receiving frequent enquiries from property holders for adjoining lots or other pieces desired by them. It is stated that several sales are now pending.

W. D. E. Evans and Mrs Evans, and their little son of Rosetown, Sask., and Mrs Jas. Evans of Enderby are visitors here. Mr Evans is a successful grain grower, and having harvested his crop, started off to spend the winter in California. He ran into California weather, or something better, before he had journeyed very far, and is now assisting an old acquaintance, A. E. Smith, gathering Summerland apples.

Since the first of the month there has been nobody on the municipal irrigation system. D. F. Brewer was the last of the ditchmen to be laid off, his engagement having ended on the last day of September. On October 3rd Water Supt. A. Rutherford terminated his services with the public works department. No water has been flowing through the irrigation system this month, which will make a late irrigation all the more necessary in order to put the soil in condition to safely carry the trees through the winter. Already some uneasiness is being manifested lest the water is not again turned into the ditches for a late irrigation.

Under the direction of J. J. Mitchell the municipality has a crew of men at work improving the Eneus Creek dam. Engineer Latimer visited the dam on Tuesday, and, after a conference with him, the Public Works Committee changed their former plans, and instead of a concrete facing being put on, a concrete core is being put in from end to end of the dam. This will make it absolutely proof against any possibility of a break, and will permit of its being raised, so that the capacity of the dam may be increased. The Public Works Committee have recently been over the north main making plans for enlarging it.

One of the outstanding social events of the week was a delightful house party given by Mrs and Miss Cartwright in honor of Miss Clouston, when, in anticipation of her approaching marriage, she was "showered" with a veritable deluge of packages and parcels of sundry articles both useful and beautiful. There were present a large number of friends of the bride-elect, who was greatly surprised when a little delivery wagon drawn by children was brought up before her, and eagerly unloaded upon her by a myriad of little hands. We are informed that the wedding will take place early next week, immediately following which Mr Dunrobin and his bride will leave for Calgary, stopping off at Banff for a few days.

Review Want and Sale ads. give Good Results.

Pte. Jas. Mitchell, of the A.S.C., is at his home here from the Manitoba camp on a short furlough.

Mr E. S. Archibald, of the Live Stock Branch of the Dominion Experimental Farms, is visiting the Summerland Farm to-day.

J. H. Bowering has been given the appointment of Registrar of Births, Marriages, and Deaths, and Issuer of Marriage Licenses for this district.

Coun. E. R. Simpson left early this week to attend the annual convention of the Union of B.C. Municipalities, which meets at Duncan on the 10th and 11th.

Wm. Nelson of the Canadian Flying Corps, and who has been training at the aviation camp near Toronto, arrived home this week on a few days leave. He will return east next Tuesday.

The Summerland Review is boasting about having cherries coming into its office in September. That is nothing. The Standard-Sentinel has peaches coming into its office all winter.—Kamloops Standard-Sentinel.

As last winter, the Experimental Station will again winter a number of cattle, probably about fifty. Supt. Helmer will leave shortly on a buying trip in the southern part of the Valley. It is proposed to feed quite a flock of sheep this winter as well.

Train service through the Coquihella Pass was resumed last Sunday after three or four days' diversion of traffic via Spences Bridge, owing to the destruction of a trestle by a landslide. K.V.R. trains are again running over the short line on schedule time.

A near accident due, according to the narrator, to the undue speeding of an auto around the Gartrell corner in Peach Orchard, and the failure to give warning of approach by using the horn, was reported to the Review this week. Three children, one of them a babe in a baby carriage, only by a very close margin escaped being run down by the car. It is said that but one out of several drivers' sounds his horn as he approaches this turn, and that as a result there have been several narrow escapes from accident.

**Are Busy at Silver City Mine.**

Fred Gerling and J. M. Robinson arrived from the Coast on Saturday to arrange for the resumption of work on their property in Sawpit gulch. The new power line going south from here will be tapped at the Poorman mill, leaving but a short mile of line to build to the shaft. New machinery in the way of compressor and hoist will be added to the equipment, and the present shaft will be sunk 200 feet this winter, giving a total depth of 335 feet. This depth will be fully prospected by crosscuts and drifts, and it is anticipated that before the work now laid out is completed, the southern extension of the famous Trade Dollar vein will have been poked up definitely.

A vast tonnage of low grade ore is now blocked out in the volcanic formation of the present workings, in fact so vast, the quantity is at present unknown, as the bottom has not yet been reached. The added depth to the shaft will serve a double purpose, that of determining the volume of low grade and an opportunity to explore for the rich lead from the north. Some very rich float in the shape of a large boulder weighing several tons, has been found in this gulch and milled in early days, but its source has never been located. As this property is located immediately to the south of the bonanza Trade Dollar, and on the same ledge, it will not be a surprise if Messrs Gerling & Robinson and associates open up within the next year a producing property fully as rich as its northern neighbor.

Lumber for several new buildings and timbers for the shaft has now been ordered, and preparations are being made for the convenient working of the property during the winter. The men interested in the opening of the now mineral zone are going at it in a conservative manner, and when the ground is proven, sufficient financial backing will be at hand to bring in a producing mine.—The Owyhee Avalanche, Silver City, Idaho.

**Community Calendar of Coming Events**

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

The regular monthly meeting of the Summerland Women's Institute will be held next Friday at 3 p.m. in the Elliott Hall. Roll Call to be answered with Sandwich Recipes, Exhibition of Christmas Gifts, cost not exceeding 50c. Tea, music. C11

**Hotel Is Again Drawing Visitors To Summerland**

In the "good old days," according to our "old timers," Hotel Summerland was the favorite hostelry of the Okanagan. Travelling men then booked their rooms ahead for the week-ends so that they might have the privilege of spending Sunday in Summerland, and enjoy the comforts of a homey, cheerful, and hospitable hotel. Schedules were so arranged that Summerland would be reached at the end of the week whenever possible, and frequently men would journey miles to be in Summerland over Sunday. Then there came a change, a change of management in the hotel, and greater attractions in other towns, and gradually the over-Sunday visitors became less and less. It is, therefore, with much satisfaction that we note an indication of the return of the former practice of travelling salesmen and others to "make" Summerland for Sunday. One of these men told the Review the other day that he found the service so much improved under the present management that he had tried the experiment a few weeks before, and was planning on staying again over Sunday, and that, moreover, he had heard a number of others express the same determination to so arrange their schedules as to arrive in Summerland on Saturday or earlier when necessary, so as to be at Hotel Summerland over Sunday. He and another had wired ahead and booked their rooms, and when they reached here congratulated themselves on having done so, as all the more desirable rooms were engaged. Summerland is indebted to Mrs Downton and her associates for the efforts being put forth to bring back the former desirable conditions. We learn, upon enquiry at the hotel, that there has been a marked improvement of late in the number of guests putting up there and the management are looking for considerable benefit from the new prohibition law, as, what was an attracting feature with some travelling men has been removed from competing hotels, and the local hostelry will be on a par with its competitors in this respect.

"Dasher selected his wife as he would pick out a motor car." "And he has been buying accessories ever since."—Puck.

**Christmas CAKES!**  
Will the Ladies of Summerland kindly keep in mind our Soldiers Overseas when preparing their Cakes for Christmas?

**Home Comfort Club**

will soon be making up PARCELS for Summerland's boys in far-off France.

A Christmas Cake from YOU will be appreciated.

Please send it to the Secretary, Mrs. Hoag, or other Club member, not later than November 1st.

They were discussing that joke about getting down off an elephant. "How do you get down?" asked the jokesmith for the fourth time. "You climb down." "Wrong!" "You grease his sides and slide down." "Wrong!" "You take a ladder and get down." "Wrong!" "Well, you take the trunk line down." "No, not quite. You don't get down off an elephant; you get it off a goose."—Indianapolis News.

### New Load Ruling Gives Shippers Much Trouble

In order to overcome in some measure the car shortage Supt. MacNabb of Revelstoke recently issued an order that all cars of fruit and vegetables must be loaded to within 18 inches of the top. This created an unfortunate condition of affairs here last week, the C.P.R. refusing to haul out a number of cars loaded by the Okanagan United Growers which had less than the new minimum demanded by Supt. MacNabb. As these cars had already been sold by contract, and other contracts demanded cars containing less than the amount which the new regulations insisted upon, the shippers felt that an undue hardship was thus inflicted upon them, which would disorganize their business and cause them heavy financial loss.

They immediately got into communication with the authorities at Ottawa and Victoria, with the result that orders came on Tuesday to haul out the cars which had been tied up here since Friday. The shippers express their willingness to co-operate with the C.P.R. as far as possible, and it is hoped that matters will now run smoothly for the rest of the season.—Vernon News.

## Tailoring

Where a High Standard Holds

The selection of material for suit or overcoat is important. The best work of designer and workmen may be spoiled through poor taste shown in material made up.

We can always help in a selection, and our range of materials is of a size to give the widest choice.

But all other things being equal, it is the skill shown in designing and workmanship that makes or mars the suit.

The House of Hobberlin is justly credited with fixing the standard for high-grade tailored - to - order clothes.

It is the fit and finish of all garments carrying the name of this House that has given the House first place in all parts of Canada for ideally built clothes—always made - to - measure—always high grade.

### Province May Hold Tax Sale

The Provincial Government is considering holding a tax sale of lands on which arrears of taxes under various provincial levies exist. The province has not held a tax sale for some years, the late government feeling that in view of the depressed financial condition it should be allowed to stand over until better times.

The Boy Scouts Association announces that His Excellency the Duke of Devonshire, as Chief Scout for Canada, has been pleased to award silver crosses to troop leader Philip A. DuMoulin, patrol leader Godfrey F. Groves, second Leonard DuMoulin, and Scout John D. Groves, all of Kelowna, B.C., for rescuing a boy who had broken through the ice on Okanagan Lake on March 2nd, 1917. The rescue was effected with imminent risk to all four boys, who showed remarkable resource and intelligence.

A good country road is always to be desired, and is a source of comfort and convenience to every traveller. Good roads attract population, as well as do good schools and churches. Good roads improve the value of the property, so that it is said a farm lying five miles from market, connected by a bad road is of less value than an equally good farm lying ten miles away from market connected by a good road. A larger load can be drawn by one horse over a good road than by two over a bad one. Good roads encourage the greater exchange of products and commodities between one section and another.

The wholesale price of cane and beet sugar has dropped so that in the Pacific States it is now selling at 7.25 cents a pound, and is being retailed at twelve pounds for a dollar. A dollar only paid for eleven pounds until the reduction. It is expected that this reduction will affect the price in B.C.

"Is your husband subject to draft?" "Yes, indeed; he catches cold at the slightest thing."—Detroit Free Press.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

## First School Fair Was Complete Success

### Evening Lecture Well Attended

#### Handsome Sum Realized For The Belgian Children's Fund

From every point of view—whether the interest shown by the children, the response of their elders as shown by the attendance, the educational results both of the show and of the splendid evening lecture, or the results financially—the first local school fair was all that could have been expected, and all who have the welfare of the young folk at heart will hope, is the successful inauguration of what will henceforth be an annual event.

During the afternoon of Friday last the College Gymnasium, where the exhibition was held, was visited by a goodly number of parents and others interested in educational work. The large hall looked quite like a country fair, and its attractiveness was enhanced by a generous display of cut flowers, many of which were kindly contributed by Dr. W. T. Broad, Trustee J. L. Hilborn, Judge, and Inspector J. Tait acted as show secretary.

There were several special attractions during the afternoon beside the exhibition proper. These included a competition by the girls in box-making, and of hat-trimming by two groups of boys, some of whom gave excellent promise of being experts in the mystic art of designing ladies' headwear. Tables bearing some of the work of the lower grades, such as drawing, coloring, and kindergarten work, attracted much attention. Afternoon tea was also dispensed, at a profit.

Mr. J. W. Gibson, director of school gardens and of the improvement of school grounds, who, by the way, denied himself the privilege of attending a much larger and more important event of like nature in order that he might attend the Summerland School Fair, gave a most interesting lecture during the evening on that phase of the education and development of the young in which he specializes. Permanent good should come of this lecture in removing from the minds of some of those who have not until now seen its value the opposition or indifference to the more modern methods of child development as offered by manual training, domestic science, and nature study, as carried on by the aid of the school garden.

The first part of the evening was taken up by a short address by the chairman, Mr. Hilborn, on the preparation of exhibits and by the distribution of the prizes to the winners. The "real live baby" also found a new owner, the little Duroc Jersey becoming the property of Janet Wismer. Miss Ruth Graham carried off three firsts, and Miss Gertrude Arkell two, capturing the two sweetstake prizes offered by the Summerland Supply Co., a pocket-knife to the former, and a pocket-knife to the latter.

The following list of prize-winners was kindly furnished the Review by the secretary:

- Box-making—Laura McLachlan, Mildred Shields, Minnie Ritchie.
- Hat Trimming—Section 1, Carleton Clay; section 2, James Smith.
- Potatoes—Kenneth Bates, Fred Gale, James Smith.
- Carrots—Gertrude Arkell, Margaret Ramsay, Eric Johnson.
- Onions—Ruth Graham, Eric Johnson.
- Bonns—Dorothy Garnett, Ronald White.
- Boats—Zanda Garnett, Fred Gale.

- Poultry—R. Phinney, Alfred Johnston, Grace Garnett.
- Rabbits—R. Phinney.
- Hares—John Denke.
- Bread—Gertrude Arkell, Ruth Graham, Jessie Monro.
- Cookies—Helen White, Ethel Holmes, Margaret Munn.
- Cake—Stella Wilson, Betty Barnes, V. Smith.
- Dressed Doll, girls under 12—Marjory Hatfield, Marion Beavis.
- Socks—Minnie Ritchie, Ruth Graham.
- Knitted Wash Cloth, girl or boy under 12—James Smith, Mildred Shields, Alice Limmer.
- Preserved Fruit—Ruth Graham, Betty Barnes.
- Home-made Candies—May Harrison, Florence Campbell, Gertrude Arkell.
- Dozen Eggs—Jessie Rutherford, Nora Hampshire, Willie Kean.
- Pumpkin—Joe McLachlan, Alice Weaver, George Denke.
- Vegetable Marrow—Joanna Ritchie, Margaret Ramsay, Alice Weaver.
- Hubbard Squash—Ruth Graham, R. White, M. Spencer.
- Tomatoes—Amy Smith.

Financially the results of the day were very gratifying. In all the returns amounted to \$167.71, and after all expenses are paid it is expected that \$150 will be left to be sent to the fund for the Relief of Belgian children. The channel through which the largest single amount was received was through the sale of tickets for the "real live baby," this bringing \$70. The five cent entries to the box-making and hat-trimming gave another \$10, the sale of afternoon teas \$20, and the evening collection \$12. The balance, of over \$50, was realized by the sale of the produce, which was all contributed by the young exhibitors for the benefit of the less fortunate young folk in stricken Belgium.

### WEDDING.

#### Proctor --- Clouston.

An event of very great interest to the residents of Summerland and vicinity, was the marriage of Miss Edna Mayhew Clouston, the younger daughter of Mr. and Mrs. Robert Clouston, and Mr. Lionel C. R. Proctor, better known to the public of two continents and his friends on this side of the water by the name which shines above the footlights, Mr. L. Race Dunrobin.

On Tuesday evening last at five o'clock, a few of the most intimate friends of the family assembled at the home of the bride's parents to witness the short and dignified ceremony which was conducted by Rev. A. Henderson.

After receiving many good wishes and congratulations, the bride was the sweetly radiant centre of a most homo-like and harmonious supper party, thoroughly enjoyed by all present.

Motoring to Penticton, Mr. and Mrs. Proctor boarded the "Sleamouse," en route for Banff, Calgary, and other Eastern points. However far they go, and however long they stay, the kindest thoughts of hosts of friends go with them all the way.

Since the war began, and up to the beginning of this month, there have been 8,253 volunteers signed for service overseas in this province, 3,201 others have been rejected.

## Canadians Practice Sword Fighting.

Photo shows mounted Canadian troops protected with hoods and pads, horses' heads likewise protected, ready to practice sword fighting on each other.

## War Duties Made Easier

### When Tasks Are Universally Performed, Says Celebrated Canadian Business Man.

Ottawa, Oct. 17.—It is easier to perform a patriotic duty when the duty is universally recognized and performed. This is the opinion of many keen observers who have recently come into contact with wartime life in Great Britain and France.

A celebrated Canadian business man, whose services have been availed of several times in recent years by the British Government, said recently: "I was greatly impressed both in France and Great Britain with the cheerful endurance of conditions such as we Canadians will not have to live under to the end of the war. It seemed to me that the public mind had become made up and set with the concentrated will power of millions of people, so that war duties did not produce the reactions one might have expected from a naturally peace-loving people."

To explain the popular war service which, in Great Britain and France has astonished the world, this gentleman quotes the familiar phrase, "Everybody's doing it."

## A Day Earlier.

In order to accommodate the Red Cross, whose advertisement it was specially desired should appear on "Our Day," Oct. 18th, the Review is published a day earlier this week than usual. The lateness of this request has made it impossible to get in everything that we had hoped to cover, the omission of which we are sure our readers will overlook under the circumstances. The late arrival of the usual items for our Naramata section has made it necessary to hold them over for the next issue.

It is stated that Mr. McEncherson of Hedley, the man selected by the Similkameen Liberal Convention some weeks ago as candidate for the bye-election to appoint a representative to the provincial house to succeed Mr. Shatford, has withdrawn from the contest.

## Youthful War Veteran Returns

### Was Through Ypres, Somme And Finally Wounded and Gassed at Vimy Ridge.

After having seen much service in France, and gone through the famous battles of Ypres, Somme, and Vimy Ridge, Douglas Male is again in Summerland. He came up from Esquimalt on Wednesday, and has but recently returned from England. Douglas had not attained eighteen years when he was accepted for service overseas. He returns with several inches added to his already tall figure, and with the erect carriage and walk acquired by military training. He brings back with him, however, the unmistakable marks of the dreadful conflict, having been wounded and gassed at Vimy Ridge on that memorable day of March first. From the wounds in his right side and leg and over the right eye he has nearly recovered, but he is now back in Canada to gain the assistance of B.C.'s climate in recovering from the effects of the gas on the membrane of his lungs. The condition of his lungs has been causing him to lose flesh, and he has been ordered to a convalescent hospital. Balfour was his destination, but, learning before leaving Esquimalt, that the Summerland Hospital was receiving such patients, he has put in a special request that he be sent here. He is therefore hoping to be ordered back to Summerland soon after he again reports at Esquimalt.

### WINTER APPLES.

Calgary.—Plunkett & Savage, one of the pioneer wholesale firms of Alberta, predict that difficulty will be experienced in getting delivery of winter apples.

Railway companies are compelling cars to be loaded to contain 900 to 1,200 boxes. This tends to disrupt distribution, as the quantity contained in the cars is too much at one time for small towns.

Coal dealers throughout Canada will not be permitted to make more than fifty cents actual profit on each ton of coal, according to an order-in-council issued on Wednesday.

## Success Of Fair Is Now Assured

### Will be Many Entries In All Classes

#### Large Prizes In Packed Fruit Contest --- More Specials

Everything is now in readiness for what promises to be the most successful exhibition the Summerland Agricultural Association has ever held. It only remains now for the fruit growers and farmers to live up to their promises and bring in as much stuff as possible. Exhibits are looked for from Peachland, Naramata, Penticton, and probably Keremeos, Kelowna, and Kaleden.

Local exhibitors are required to have all their exhibits (except livestock) in place by 9 p.m. on Tuesday evening next. Live stock must be in place by 10 a.m. on Thursday morning, and not removed until after 4 p.m.

Naramata stuff will be met at the evening ferry on Tuesday, and will be conveyed to the hall, and placed in position, if such is the wish of the exhibitor. Secretary Tait should be advised in advance by phone so that he may be prepared to care for everything that comes. Peachland exhibits should come down by the evening boat, and will be cared for on arrival at the wharf. Exhibits from Penticton should be sent by ferry on Tuesday or by C.P.R. on Wednesday morning.

No admission fee will be charged and a good attendance is looked for. Thursday will, of course, be the big day, and on that afternoon the exhibition will be formally opened by the Minister of Agriculture.

### PRIZES FOR PACKING SCHOOLS.

Fifteen dollars has been offered by the Department of Agriculture for prizes in the packed apple contest in which pupils in the packing schools of last winter are permitted to enter. Each contestant must pack three boxes of apples of one or more varieties, in three different packs, all to be wrapped except the top layer. This contest is open to pupils of schools held last winter at Peachland, Naramata, Penticton, Keremeos, and Kaleden as well as the Summerland schools. First prize in this is \$7.50; second prize, \$5; and third prize, \$2.50.

There was seemingly some confusion between this and the contest provided for the boys and girls who took packing lessons last winter, as under Class 13 in the Prize List only one competition is mentioned, and that has figures relating to both. The above list of prizes offered and conditions of contest are given as authentic, having been verified by reference to department correspondence, kindly made available by the secretary.

### BOYS' AND GIRLS' PACKING SCHOOL.

For the first time, by the direction of the Department of Agriculture, prizes will be offered the boys and girls who attended the packing classes held in connection with the public and high schools last winter. Each pupil will be required to pack and enter two boxes of apples, each to be a different pack, 2-2 and 2-3 being suggested. For this class the prizes are \$3, \$2, and \$1. All contestants, whether they win a cash prize or not, will be given a diploma, having made the necessary marks during the packing lessons, the exhibit now being all that is needed to complete the course and get the diploma.

An addition to the list of special prizes to be offered next week is a single apple and peach press donated by W. R. Shields for the winner of first prize, for best box of white potatoes to become the property of the donor. This is a class in which the school children are asked to compete, but, as a special has already been provided for them, this press is to go to a senior. For the boys and girls Inspector Tait has put up cash prizes of \$3, \$2, and \$1.

Another special is twenty McIntosh Red apple trees, offered by the B.C. Nurseries for the winner of first for the best two boxes of McIntoshes.

The auction sale of live stock, another new feature this year, will begin at one o'clock on Thursday, or immediately after judging is concluded.

More interest than ever is being manifested in the live stock department of the show, and a good number of entries are assured.

To finish the day there is the Home Comfort Club dance in Empire Hall, the proceeds of which, as well as from the sale of refreshments there, will be devoted to Summerland's soldiers.

## Okanagan Liberals Favor Unionist Nomination.

A meeting of the Executive of the Liberal Association, for the Federal Riding of Yale was held at the Incola Hotel, Penticton, last week. Some twenty representatives of the five provincial constituencies included in the Federal District were present.

The principal subject discussed by the meeting was the advisability of holding a convention to nominate a Liberal candidate for the Dominion election. It was decided to call such a convention, and it will probably be held at Penticton on the evening of October 31st, 1917.

A committee was appointed to draft a letter to be sent to the executive of each Conservative Association in the five provincial constituencies, suggesting that they might hold a convention at the same time and place. The object of this is to determine if it is possible for both parties to get together, and select a candidate, pledged to promote any policy for the successful prosecution of the war, and who would be acceptable to both parties, thus avoiding an election in this riding.

The sole desire of the executive in this is to encourage and promote the sentiment of placing Country before Party, and they have made this suggestion in the anticipation that influential Conservatives throughout the district will co-operate with them.

Another serious accident has befallen Matt. Wilson, of Paradise Ranch. On Wednesday, while up a ladder picking apples he fell and broke his arm. According to an unconfirmed report Mr. Wilson's fall was caused by a pig, which either attempted to reach under the ladder or in some way overturned it. He came over to Summerland by launch and had the broken limb set.

# The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.  
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

THURSDAY, OCTOBER 18, 1917.

CANADA AND THE UNITED STATES probably will be able to provide for the Allies' requirements of cereals other than wheat, during the next twelve months.

The Allied peoples themselves have been economizing with wheat and wheat flour. As Lord Northcliffe said in Montreal, "There is no such thing as white bread in the Old Country, from the King's table downwards." Other cereals are being used, but they cannot be used alone for bread. The Allies must add them to wheat flour to make the war bread now in universal use in European countries. Except in Italy, where the people normally consume much corn, there are few corn mills in Europe. Cornmeal, not being a durable commodity, cannot be shipped across the ocean in great quantities.

The Allies must have a wheat flour basis for their war loaf. Unless the people of Canada and the United States are willing to substitute other cereals for part of the wheat flour which they normally consume, they will be denying even war bread to many thousands of people. Substitution of at least one pound of other cereals for one pound of wheat flour weekly, per person, would save a very large quantity of wheat for export. It would still be far short of meeting the normal consumption requirements of the Allies, but it would save the situation.

AN INSTITUTION of increasing importance and one the value of which is becoming more and more appreciated is the British Columbia Association of School Trustees, which will hold its annual convention at Nanaimo on the seventh, eighth, and ninth of next month. The information gained, the inspiration and incentive to progress received by every appreciative delegate is of much more value than the dollars and cents that a one-way ticket costs, no matter what the distance. We hope that it was not because the importance of attending such a gathering was undervalued that the local board has not made provision to have someone of their number there to gather and bring back some of the good things, and to help along the movement toward the betterment of our educational facilities. It will be a calamity if Summerland is not represented, and we hope early action to name a representative will be taken.

§ § § § §

THE OKANAGAN has reason to be proud of its good roads. That is, speaking generally. There are exceptions. One of the most outstanding of the latter is the Summerland-Mineola road, one which lies outside any organized district, the up-keep of which therefore falls upon the province. A road that will permit the reasonably economic movement of the output of the mill and box factory at Mineola is vital to the success of that important business, the existence of which turns some thousands of dollars yearly into the provincial treasury, and is of great benefit to this community. It is certainly poor business and a short-sighted policy not to expend a small portion of that revenue in the maintenance of a road without which there would be no such revenue. Mineola and Meadow Valley are of increasing importance, and should receive more attention to their request for a reasonably decent road.

### THREE SERIOUS WARS.

An old Georgia negro, having told the judge that he had "been in three wars," was asked to name them, when he replied: "I wuz a cook in de Confedrit war, an' after freedom broke out I wuz married two times."

Replying to the question as to what should be the first rule of success for a young man seeking counsel, Thomas A. Edison says, "Get a job and do more than he is expected to do."

Out of print, out of mind, if you do not advertise.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

N.B. - Unauthorized publication of this advertisement will not be paid for.

In all countries. Ask for our INVENTOR'S ADVISOR, which will be sent free. MAHON & MAHON, 864 University St., Montreal.

Here is an opportunity

To get a Genuine Bargain in these days of high prices for Woollen Goods.

### Car Shortage Is General.

Calgary, Oct. 18.—B.C. apples are not coming on this market in anything like the volume they should at this season. The car shortage now may lead to serious loss from frost if the shipments are delayed until cold weather sets in.

Shippers are warned to give the matter their serious consideration, more especially owing to the need to conserve food stuffs by every means available.

Business has been quiet this week, mostly cleaning up. The overload state of the market here with peaches and Italian prunes is gradually cleaning up.

The season is practically over and shipments that were fit to hold in storage until the glut passed will profit thereby.

Prices on the wholesale row are increasing, and to-day peaches are quoted at \$1.05, and prunes at 95 cents.

Tomatoes are coming in slowly and are of poor quality, and prices vary with quality from \$1.25 to \$1.50.

Pears are very scarce, and blackberries are showing decline. Some fine second crop strawberries are arriving from Nelson and Mission-Hammond. The Hammond shipment runs a little green. They sold readily at \$5.00 per crate.

Owing to the car shortage the supply of apples has been very limited.

#### WHOLESALE PRICES FOR THE WEEK:

McIntoshes, No. 1, \$2.25 to	\$2.50
Crates, \$1.75 to	2.00
Wealthy, \$1.90 to	\$2.00
Blue Permaines and Kings,	\$1.75 to 2.00
Orchard run, \$1.60 to	1.75
No. 2	1.75
Pears	3.00
Hyslops	2.25
Prunes	.95
Peaches	1.05
Tomatoes, \$1.25 to	1.50

#### APPLE PRICES ON THE PACIFIC.

The great demand for high-class apples in the Eastern States and Eastern Canada has reflected in the prices ruling in Seattle and other Coast cities.

Delicious apples are selling here at from \$2.25 to \$3.00, and \$1.25 to \$1.50 C grade.

It begins to look as if the Coast growers will have all they can do to supply home needs, and the prospects never were better to secure a good price for their crop.

#### WINNIPEG APPLE SUPPLIES.

Winnipeg.—Apples from Nova Scotia are making their appearance on the Winnipeg market. Prices are high and the shipping somewhat uncertain. One Winnipeg firm reports that a car shipped from a point in Nova Scotia on September 25 overtook one shipped from the same point on September 20.

This uncertainty of supply greatly interferes with the distribution and also tends to increase the price.

#### ADVERTISING.

The Okanagan United Growers are doing some educational advertising which will have its effect. They are putting a folder in every box of apples telling the buyers the proper use to make of the different varieties and when they are at their best. The varieties are all too numerous, but the idea is good, and is sure to stimulate a greater care in after selection.

#### AS A MAN THINKETH.

If you think you are beaten, you are;  
 If you think you dare not, you don't;  
 If you like to win but think you can't,  
 It's almost certain you won't.  
 If you think you'll lose, you've lost;  
 For out of the world we find  
 Success begins with a fellow's will;  
 It's all in the state of mind.  
 If you think you are outclassed, you are;  
 You've got to think high to rise;  
 You've got to be sure of yourself before  
 You can ever win a prize.  
 Life's battles don't always go  
 To the strongest or the fastest man;  
 But soon or late the man who wins  
 Is the man who thinks he can.  
 —Author Unknown.

# The Summerland FALL FAIR

and Flower Show

IN THE PARK

Wednesday & Thursday

October 24 & 25

Will be BIGGER than Ever

BEGIN NOW to prepare your Exhibits. Select some of your best-looking Apples, Crab-apples, Pears, Quinces, Grapes, &c. Let us see what you are growing in Field and Garden produce.

POTATOES will be a special feature this year; also Beans SEE PRIZE LIST, look it over carefully, and SHOW SOMETHING.

Take Note: Addition to Prize List - BEST SADDLE HORSE (saddled and bridled) - Prizes, \$4.00 and \$2.00

**LIVE STOCK** Owners would do well by **BEST ANIMALS**  
 Showing some of their **BEST ANIMALS**  
 AT THE FAIR THIS YEAR.

There will be a **BIG RING** for Stock parade  
 which will also help in the Judging.

Come along and help boost Summerland, and show what can be raised in the Stock line.

An **AUCTION SALE** of **LIVE STOCK** will be held on Ground on Second day.  
 Entries for above solicited. If you have anything for sale, let the Secretary, or J. E. Phinney, Auctioneer, know about it.

This will be the last Fall Fair in the Province this year, and is

**OPEN to ALL in the Province**  
 Exhibits from Peachland, Naramata, Kaleden, Keremeos, Kelowna, Westbank, and Penticton  
 Particularly invited.

## WOMEN'S INSTITUTES SECTION

The Summerland and West Summerland Institutes will hold, in conjunction with the Fair, a combined Exhibition of Flowers, Fancy Work, Cooking, &c.

Members of above Institutes, and other ladies, are urgently requested to enter exhibits. Kindly communicate with either the Secretaries, Mrs. JOHN TAIT or Mrs. J. J. MITCHELL.

### Bigger Contract Than Anticipated

For the following interesting extracts from a letter, written by one of Summerland's citizens now serving in France, we are indebted to Mr Hector Sutherland. The letter is a very readable one, and reveals the views and opinions of a soldier behind the lines as to the task that has been put upon the Allies, and of the ultimate result. Britain has almost invariably entered every war in which she has been a belligerent with an under valuation of the strength of the enemy, and this has been no exception. Mr Liddell's letter depicts again the spirit which has always overcome this error and attained final victory. Mr Liddell, in private life, was a rancher, resident in Garnett Valley, where he owns 20 acres beyond Dunsdon's. He also has a pre-emption at Bathfield, where at his cabin he occasionally entertains shooting parties.

No. 2 Can. Stationary Hospital, France, — 19, 9, '17.

Dear Mr Sutherland:— 2.30 a.m., and all quiet. By the time this reaches Kildonan it will have been two years since the memorable morning I bid you good-bye to take "pot-luck," or any other kind of luck Fate had in store for me. After weighing the pros and cons I expected to return well within two years, and probably eighteen months, but I underestimated, like many others for whom there is less excuse. Great things have happened since our talks together on the subject, and I imagine greater to come before the end, which I think will be realized, please God, within another year. The entry of Uncle Sam at a critical time has made ultimate victory absolutely certain. France especially was much in need of the tonic United States has brought over, counteracting in a way the untimely collapse of her ally. We both thought Russia would do great things, but hardly expected to see a republic within three years. I still believe she will recover sufficiently to be of great service in bringing the war to a successful end.

There'll be a great home-coming some day, won't there? There will have been nothing like it in Canada's history. Some of us, myself for instance, will quickly "fall in and carry on" in the old way as though just from a trip in the hills; but for the majority, especially the young lads, it will take some little time to recover from the intoxicating joy of getting HOME.

You will soon be having signs of Fall—my favorite season. Canada's autumn is incomparable. I waited in vain last year for nature to don her pretty Fall dresses, but presumably, the climate of England and this part of France will not permit of the glorious crimson, purple, and gold with which our own dear Canada delights us. The bright browns and yellows of the dying foliage here, blends well enough with the climate, but from an Okanagan point of view this climate is damnable, and when the history of the great war is written it will be shown that the greatest obstacle the Allies had to contend with was the French cli-

### Nothing But Jail For Selling Liquor

Under the new prohibition act, effective October 1, there is no fine for men convicted of selling liquor. It means a jail sentence of six months upon conviction. There is no option. Under the act the penalties for selling liquor are six to twelve months for the first offence, and 12 to 21 months for the following violations: In case of an employee of a corporation is convicted of selling liquor he is treated as a person, not a corporation, and must go to jail. But the corporation, which cannot be jailed, must pay a fine of \$1,000. A person convicted of several offences, which may all have happened just before his arrest, may be convicted under one conviction, and made to pay penalties for several offences.

mate. If Haig had been favored with the weather experienced from May till beginning of this month in the Okanagan, the map would look better than it does. The crops have been good here, but it is plain to see that the weather and labor shortage is a serious handicap. It would break a Canadian's heart to farm here. It is a common opinion that the guns have an influence upon the precipitation, but I am not convinced, and would not be surprised to be authoritatively told that the rainfall was very little above the average. The moss-covered fences and tiles, and tree trunks tell the tale. The people here ignore the rain to a great extent. It is a common sight to see the old fellows cutting grass in the meadows, and for all the notice they take of the rain the sun might be shining. Most of the grain, and especially the smaller fields, is cut with the cradle; old men and women coming behind and drawing the grain together with a sickle and binding it into fair-sized sheaves. Occasionally, on the larger farms one sees a binder.

There is no fruit grown here worth the name. One comes across an orchard occasionally, a sight of the trees would decrease the value of the land in the eyes of a fruit grower at home. Tomatoes have for some time been fourteen cents a pound for what would be in the Okanagan an unsaleable quality. An inferior plum 16 cents per pound. A green windfall apple costs two cents—this includes the cost of a stomach ache. It is a standing order that "troops must not eat fruit and vegetables without first boiling them." This order is prompted by the system of intensive fertilization peculiar to this country—Belgium.

The above order is by way of a warning, and is not strictly carried out, but the order has reason in it. As for the fruit here I eat very little of it. I guess, perhaps, I am too particular, having come from the Okanagan. . . . It is now two weeks since Fritz paid us a nocturnal visit with his noise and kultur. Strange to say he seems to prefer a moonlight night, presumably because the searchlights are less effective; but lord! he's a poor prune, and his time would be better served making sourkraut—if he has the cabbage.

I read in the Review that Harry has joined the Artillery. He has chosen well; it is a very interesting branch of the service. Please wish him luck for me when you write. Since coming to France I have

met—not one of the Summerland men. Atkins, who left Canada with me, is at No. 3 Canadian General, two or three miles from here, and is now a corporal. It was his brother, you remember, that designed

the arch upon the wharf when the Duke visited the town. Most of the Summerland men in France are nearer the lines, where I have persistently tried to reach without success up to date. . . . How

dull it must be for the young women nowadays; but I expect everyone is busy, and determined to make up for it in the good days to come. Faithfully yours, S. A. LIDDELL.

Devonshire.

CANADA

[L.S.]

## GEORGE the FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India.

To all to whom these presents shall come, or whom the same may in anywise concern—GREETING:

### A Proclamation calling out the men comprised in Class 1 as described by the Military Service Act, 1917.

*E. P. Newcombe*  
The Deputy Minister of Justice, Canada

WHEREAS it is provided by our Militia Act of Canada, Revised Statutes of Canada, 1906, chapter 41, Section 69, that our Governor-General of Canada in Council may place our Militia of Canada, or any part thereof, on active service anywhere in Canada, and also beyond Canada for the defence thereof, at any time when it appears advisable so to do by reason of emergency;

And Whereas that part of our militia of Canada known as the Canadian Expeditionary Force is now engaged in active service overseas for the defence and security of Canada, the preservation of our Empire and of human liberty; and it is necessary owing to the emergencies of the war to provide reinforcements for our said Expeditionary Force in addition to those whose inclination or circumstances have permitted them to volunteer;

And Whereas by reason of the large number of men who have already left agricultural and industrial pursuits in our Dominion of Canada in order to join our Expeditionary Force as volunteers, and by reason of the necessity of maintaining under these conditions the productiveness or output of agriculture and industry in our said Dominion, we have determined by and with the advice and consent of our Senate and House of Commons of Canada that it is expedient to secure the men so required; not by ballot as provided by our said Militia Act, but by selective draft; such re-enforcement, under the provisions of the Military Service Act, 1917, hereinafter referred to, not to exceed one hundred thousand men;

And Whereas it is accordingly enacted in and by the provisions of an Act of our Parliament of Canada, holden in the 7th and 8th years of our reign, and known as the Military Service Act, 1917, that every one of our male subjects who comes within one of the classes described and intended by the said Act shall be liable to be called out on active service in our Canadian Expeditionary Force for the defence of Canada, either within or beyond Canada; and that his service shall be for the duration of the present war and demobilization after the conclusion of the war;

And Whereas the men who are, under the provisions of the said last mentioned Act, liable to be called out, are comprised in six classes of which Class 1 is, by the provisions of the said Act, defined to consist of all our male subjects, ordinarily, or at any time since the 4th day of August, 1914, resident in Canada, who have attained the age of twenty years, who were born not earlier than the year 1883, and were on the 6th day of July, 1917, unmarried, or are widowers but have no child, and who are not within any of the following enumerated

#### EXCEPTIONS:—

- Members of our regular, or reserve, or auxiliary forces, as defined by our Army Act.
- Members of our military forces raised by the Governments of any of our other dominions or by our Government of India.
- Men serving in our Royal Navy, or in our Royal Marines, or in our Naval Service of Canada, and members of our Canadian Expeditionary Force.
- Men who have since August 4th, 1914, served in our Military or Naval Forces, or in those of our allies, in any theatre of actual war, and have been honourably discharged therefrom.
- Clergy, including members of any recognized order of an exclusively religious character, and ministers of all religious denominations existing in Canada at the date of the passing of our said Military Service Act.
- Those persons exempted from military service by Order in Council of August 13th, 1873, and by Order in Council of December 6th, 1898;

And Whereas it is moreover provided by our said Military Service Act that our Governor-General of Canada in Council may from time to time by proclamation call out on active service as aforesaid any class of men in the said Act described, and that all men within the class so called out shall, from the date of such proclamation, be deemed to be soldiers enlisted in the military service of Canada and subject to military law, save as in the said Act otherwise provided; and that the men so called out shall report and shall be placed on active service in the Canadian Expeditionary Force as may be set out in such proclamation or in regulations; but that they shall, until so placed on active service, be deemed to be on leave of absence without pay;

And Whereas it is also provided by the said Act that at any time before a date to be fixed by proclamation an application may be made, by or in respect of any man in the class to be called out, to one of our local tribunals established in the manner provided by the said Act in the province in which such man ordinarily resides, for a certificate of exemption from service upon any of the following

#### GROUND OF EXEMPTION:—

- That it is expedient in the national interest that the man should, instead of being employed in military service, be engaged in other work in which he is habitually engaged;
- That it is expedient in the national interest that the man should, instead of being employed in military service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications;
- That it is expedient in the national interest that, instead of being employed in military service, he should continue to be educated or trained for any work for which he is then being educated or trained;
- That serious hardship would ensue, if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position;
- Ill health or infirmity;
- That he conscientiously objects to the undertaking of combatant service, and is prohibited from so doing by the tenets and articles of faith in effect on the sixth day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he in good faith belongs;

And that if any of the grounds of such application be established, a certificate of exemption shall be granted to such man.

And Whereas moreover it is enacted in and by the provisions of an Act of our Parliament of Canada holden in the 7th and 8th years of our reign and known as the War Time Elections Act that certain persons thereby disqualified from voting with such of their sons as on polling day are not of legal age, shall be exempt from combatant military and naval service;

And Whereas it is further provided by our said Military Service Act that applications for exemption from service shall be determined by our said local tribunals, subject to appeal as in the said Act provided, and that any man, by or in respect of whom an application for exemption from service is made; shall, so long as such application or any appeal in connection therewith is pending, and during the currency of any exemption granted him, be deemed to be on leave of absence without pay;

And Whereas our Governor-General of Canada in Council has determined to call out upon active service as aforesaid the men included in Class 1; as in the said Act and hereinbefore defined or described;

Now Therefore Know Ye that we do hereby call out the said Class 1, comprising the men in our said Military Service Act, 1917, and hereinbefore defined or described as to the said class belonging, on active service in our Canadian Expeditionary Force for the defence of Canada, either within or beyond Canada, as we may, in the command or direction of our Military Forces, hereafter order or direct.

And we do hereby strictly command, require and enjoin that each man who is a member of the said class shall, on or before the 10th day of November, 1917, in the prescribed form and manner, report himself for military service, unless application for his exemption shall then have been made by him or by another person entitled to apply on his behalf; wherein our loving subjects, members of the said class, are especially charged not to fail since not only do their loyalty and allegiance require and impose the obligation of careful and implicit obedience to these our strict commands and injunctions, but moreover, lest our loving subjects should be ignorant of the consequences which will ensue if they fail to report within the time limited as aforesaid, we do hereby forewarn and admonish them that any one who is hereby called out, and who without reasonable excuse fails to report as aforesaid, shall thereby commit an offence, for which he shall be liable on summary conviction to imprisonment for any term not exceeding five years with hard labour, and he shall nevertheless, if we so require, be compelled to serve immediately in our said Expeditionary Force.

And we do hereby proclaim and announce that for the greater convenience of our subjects, we have directed that prescribed forms, for reporting for service, and for application for exemption from service, may, at any time on or before the said 10th day of November, 1917, be obtained at any post office in our Dominion of Canada; and that reports for service and applications for exemption from service, if obtained at any of our said post offices and properly executed, shall be forwarded by our postmaster at the post office from which the same are obtained to their proper destinations as by our regulations prescribed, free of postage or any other charge.

And we do further inform and notify our loving subjects that local tribunals have been established in convenient localities throughout our Dominion of Canada for the hearing of applications for exemption from service upon any of the statutory grounds, as hereinbefore set out; that these our local tribunals so established will begin to sit in the discharge of their duties on the 8th day of November, 1917, and that they will continue to sit from day to day thereafter, as may be necessary or convenient, at such times and places as shall be duly notified, until all applications for exemption from service shall have been heard and disposed of; also that men belonging to the class hereby called out who have not previously to the said 8th day of November, 1917, reported for service, or forwarded applications for exemption through any of our post offices as aforesaid, may make applications in person for exemption from service to any of our said tribunals on the 8th, 9th or 10th day of November, 1917.

And we do hereby moreover notify and inform our loving subjects who are within the class hereby called out, that if, on or before the 10th day of November, 1917, they report themselves for military service, or if, on or before that day, application for exemption from service be made by them or on their behalf, they will not be required to report for duty, or be placed upon active service as aforesaid, until a day, not earlier than the 10th day of December, 1917, which will, by our registrar for the province in which they reported or applied, be notified to them in writing by registered post at their respective addresses as given in their reports for service, or applications for exemption from service, or at such substituted addresses as they may have respectively signified to our said registrar; and we do hereby inform, forewarn and admonish the men belonging to the class hereby called out that if any of them shall, without just and sufficient cause, fail to report for duty at the time and place required by notice in writing so posted, or shall fail to report for duty as otherwise by law required, he shall be subject to the procedure, pains and penalties by law prescribed as against military deserters.

Of all of which our loving subjects, and all others whom these presents may concern, are hereby required to take notice, rendering strict obedience to and compliance with all these our commands, directions and requirements, and governing themselves accordingly.

In Testimony Whereof We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. WITNESS: Our Right Trusty and Right Entirely Beloved Cousin and Counsellor, Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwicke, Baron Cavendish of Feltham, Knight of Our Most Noble Order of the Garter; One of Our Most Honourable Privy Council; Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of Our Royal Victorian Order; Governor-General and Commander-in-Chief of Our Dominion of Canada.

At Our Government House, in Our City of OTTAWA, this TWELFTH day of OCTOBER, in the year of Our Lord one thousand nine hundred and seventeen, and in the eighth year of Our Reign.

By Command,

*Thomas Mulvey*

Under-Secretary of State.

Summerland Telephone Co.

# Passing Events: Social, Personal, &c.

Mrs Currie, wife of C.P.R. Agent Currie, is here from Salmon Arm on a visit.

Mrs Lipsett returned last weekend from the Coast, where she had been attending various gatherings of the Women's Institute movement.

Miss Bena Logie left by K.V.R. on Monday night for Portland, Oregon, where she has gone to enter, as a probationer, the Good Samaritan Hospital.

Mr Thos. Welsh, a former citizen of Summerland, and at one time the owner of the property now held by Miss Ballantyne, arrived here from Vancouver this week.

Growers of tomatoes, cucumbers, and other field produce have had a long shipping season this year. We noted nearly a truck load of cukes going from the Hilborn farm this week.

The cottage until recently occupied by Mr and Mrs Arnold has been taken by Mrs J. C. Robinson, who with her son Alex. and daughter, Miss M. Robinson, arrived here from Regina last week.

The Sunday boat and train service has been discontinued, last Sunday being the end of the seven-day-a-week service. Nothing further has been heard of the proposed curtailment of the winter service to three trips a week.

Mrs D. H. Watson went down to Vancouver on Tuesday evening where she will probably remain for much or all of the winter. Mr and Mrs D. Watson, Sr., accompanied by their son, Wellington, went to the Coast by the same train. Mr Watson, Sr. goes to consult an eye specialist.

The Review has been asked by one of our local officials to extend a warning to those of our citizens against riding bicycles after night-fall without a light. This, we are informed, is intended specially for a number of young bicycle riders who have not equipped their wheels with lamps.

The law requires that a bicycle be lighted, as it does an auto, and a bicycle rider is equally liable to a fine for not obeying the law as is the motorist. It is said that there have been a number of near-accidents of late due to the absence of lights on bicycles.

H. W. Treffry, who has been in Southern Alberta, arrived home last Friday.

The rummage sale for the benefit of the Red Cross is being held in the Men's Club this afternoon.

Mr Gee, a Calgary man who came to Summerland this summer, has rented the T. E. Moore cottage.

B.C. Nurseries, Vancouver, reliable; true-to-name, is represented in Summerland by Bert Harvey. A

Suffering from an acute ailment of the knee, which has been giving him much pain, L. B. Ottley has been unable to be about for several days.

Having sold his present home lot, H. H. Elsey and family will move shortly to the cottage on College Hill, formerly occupied by Rev. S. Everton.

Frank Hayward will arrive in Vancouver on Saturday with probably the largest single group of returned soldiers that has yet crossed Canada.

A building which is described as a private garage, but which suggests that the owner may contemplate other uses for it, has recently been put up by Scott Darkis.

Rev. A. Henderson returned from his vacation visit to the Coast and the prairies, having spent a few days at Peachland on the way back. He will be in his accustomed place at the morning and evening services on Sunday.

Capt. Peter Roe has rented the D. H. Watson house and will move over with his family from Naramata late in October. We understand that Capt. Roe has ordered a car and purposes using the car instead of the boat for some of the trips that is now being made.

Miss Smith, who accompanied the body of her brother, the late Dr C. M. Smith, from Port Alberni, went up to Peachland the day after the funeral, there she spent the day inspecting the fruit lot and visiting relatives and friends. She continued on to the Coast the same evening.

Recent guests of Mr and Mrs Tavender were Mr Tavender's cousin and his wife, Mr and Mrs Hugh Kidd of Owen Sound, Ont. They are now completing a six months' tour of the west. So surprised and delighted were they with Summerland's unsurpassed climate that they have practically decided to return next spring to permanently reside here.

Eyesight tested and glasses fitted. Dr Morris, Professional Optometrist and Optician of Vancouver, will be at Rowley's Jewelry store on Monday, 29th October, to practice his Profession. If you need Glasses this is an opportunity to consult an Expert Authority on the subject, the oldest and most experienced Optometrist in Western Canada. Special care taken in every case. Glasses furnished at reasonable prices. 12, 13

**WHAT HE GOT.**  
A soldier in the British army wrote home: "They put me in barracks; they took away my clothes and put me in khaki; they took away my name and made me 'No. 575'; they took me to church, where I'd never been before, and they made me listen to a sermon for forty minutes. Then the parson said: 'No. 575. Art thou weary, art thou languid?' and I got seven days in the guardhouse because I answered that I certainly was."

The Kelley store building next the barber shop has been leased by Mr and Mrs Noble.

Rev. H. A. Solly lead the services in the Anglican Church at Penticton last Sunday evening.

T. J. Garnett has sold his apples to the Steuart Fruit Co., and is now on the prairies soliciting apple orders for the company.

Two more soldiers arrived on Wednesday morning for treatment at the Summerland Hospital. There are now six such patients at the institution.

While assisting in moving a furnace from the K.V.R. station to the new Bank of Montreal building, Dick Carefoot had his hand jammed and one finger broken.

On the last day of the Fair there will be sold at auction five or more cows, several head of young stock, all of good dairy type, driving horses, harness, buggy, etc. See bills for particulars. 12

Mrs J. M. Robinson has gone down to Vancouver to remain for the winter. Her daughter, Miss Dorothy, is attending the University there, and the others of the family still in Naramata will follow her to Vancouver in a few weeks.

The labor shortage is being felt locally by almost every industry, and probably by none more than the employers of carpenters. Numerous small repair jobs, alterations, and additions remain undone because carpenters are not to be had. At least one new home, a bungalow, for Mrs Kate Bentley, to be built on the Pares lot east of Victoria Gardens, has been contracted for, and material ordered. Its erection cannot be hurried because of the labor shortage.

The Review has been asked by subscribers on the rural route to give public expression of the great esteem which the retiring courier, Mr Blair, gained for himself with his patrons. Obliging and always courteous, he had won the respect of all. Punctual to a marked degree, patrons could almost without fail be sure to find him at their mail boxes to supply them with stamps or transact other business, at the same moment every day. In fact, it is said that it had become quite the custom to regulate the clocks by the mail wagon.

The shower held last night at Hotel Summerland by the Home Comfort Club for Summerland's soldiers was a most successful event. Nearly one hundred and fifty dollars in cash and goods was contributed. The Review has been asked by the Club to extend their thankfulness to the staff of the Steuart Fruit Co. for the handsome contribution of \$20.50 in cash, and to the members of the Union staff for an equally generous sum of \$28. Other cash donations brought the total up to \$72.50. Other gifts toward the Christmas parcels were made to the total estimated value of \$73.

**SITUATION IS PARADOXICAL**  
It is a strange problem this market one. We are sending apples to St. Paul and Minneapolis. N.S. is considering shipping to the United States, and this week Western Canada has 81 cars rolling from Washington. Now the main reason is salesmanship, just getting the right car at the right time, with the right story, and the right goods. — B.C. Markets Commissioner.

## Ideal For Wash-Day

The Kootenay Range accommodates the wash boiler and still leaves four holes free for cooking. This allows you to serve wash-day dinners that are just as good as other days and doesn't interfere with your laundering. Ask our dealer or write for booklet.

Each in his little potato patch.  
Every stroke gives a better chance  
To the brave big boys in the fight-  
ing line.  
Pull up the earth around the plants,  
See that it's left all soft and fine!

## Tailoring

Where a High Standard Holds

The selection of material for suit or overcoat is important. The best work of designer and workmen may be spoiled through poor taste shown in material made up.

We can always help in a selection, and our range of materials is of a size to give the widest choice.

But all other things being equal, it is the skill shown in designing and workmanship that makes or mars the suit.

The House of Hobberlin is justly credited with fixing the standard for high-grade tailored-to-order clothes.

It is the fit and finish of all garments carrying the name of this House that has given the House first place in all parts of Canada for ideally built clothes—always made-to-measure—always high grade.

Sole Agent for Hobberlin Tailoring

## Peachland Doings

A Weekly Chronicle Furnished  
By Our Local Representative

Miss Minnie Card was a passenger to Penticton on Thursday, and returned on Sunday morning.

Mr Theodore Scott returned from Kelowna on Friday.

Mr A. Town, and Miss Verna, Mrs W. Dryden, and Miss Jean, Mrs C. W. Aitkins, and Mrs Tewart were passengers to Kelowna on Saturday, all returning the same day with the exception of Mrs Aitkins, who returned on Tuesday.

Mrs Lowndes of Vancouver came in on Saturday night to join her husband who is with Mr H. H. Thompson. They will take up their residence at Mrs Tewart's house.

Miss Hadleigh of Victoria, who has been visiting in the Valley, came in on Sunday night to visit Mrs A. H. Cutbill and Mrs Tewart. She left for Victoria on Monday night by way of the K.V.R.

Mrs Bennett, who has been spending the summer with her sister, Mrs J. A. Moore, went out by Monday night's boat for Vancouver, where she has gone to visit her son who has enlisted.

Mr Thos. Powell was a passenger to Vernon on Tuesday to attend a meeting of the directors of the Fruit Union.

Word has just been received in town that Osborne Needham has been recommended for the D.S.O. No particulars are given of the circumstances for which it was awarded.

The output of the local Fruit Union up to last Saturday night was equal to the whole of last year's output, and the bulk of the winter apples are still to come.

Mr T. G. Wanless of Penticton spent some time in the town and district this week.

Our president, Mrs W. Douglas and our secretary, Mrs J. B. Robinson, were to have given their reports of the convention at Vernon at the regular meeting of the Women's Institute last Friday afternoon, but owing to the busy season only a very few turned out, and it was decided to give the reports at the next meeting. Mrs A. Smalls is to demonstrate the making of macaroons, for which she gained the prize at the exhibition.

The Baptist Church will hold its anniversary services on Sunday, and Rev. Andrew Grieves, pastor of the Penticton Baptist Church, will preach at 11 a.m., while Rev. J. Rowland will preach at the evening service. The union congregation have most generously given up their service to join with the Baptists, and their choir has kindly offered to help with the singing.

The Baptist Women's Mission Circle met at the home of Mrs P. N. Dorland on Wednesday afternoon. Refreshments were served at the close of the meeting.

DIED—At Peachland on Monday, 15th inst., Mrs J. Brown, after a lingering illness. The funeral took place from the family residence to the Peachland Cemetery on Wednesday the 17th. She leaves to mourn her going her father, who is a member of the household, her husband, and three sons, Stanley and Erskine of Penticton, and Walker of Peachland. Mrs Brown was a great sufferer, having been sick a long time. The sympathy of the whole community is extended to the family in their bereavement.

## High Power Line To Cross Ok. Valley

Contains Possibilities For Big Development Work From Here To Border.

Until recently we used to hear much of the Shuswap water fall and of what it would do for Summerland, Peachland, and other Valley towns when the power project in connection therewith was completed. We were to have cheap power for lighting and industrial purposes; it was even generally agreed that the municipality would purchase "juice" from the company and distribute it, that in this way the current would cost less than by operating the small hydro-electric plant, and there would be a constant service day and night with power for all who would pay for it. This boon to the householder and impetus to local industry was to come from the north, from the only possible source of a supply of electrical energy that was within reach of South Okanagan points.

That was, evidently, a dream of professional promoters, gladly listened to by many of us who were also dreaming of better things for our Valley cities-to-be. Now, as the result of the unostentatious decision of a man of action, the possibility of our being provided with this much needed aid to development is right before us. It will not come from the waterfall of the north but will reach us through the south from far-off Kootenay.

Another dream, you say. Not so. That which will make this a reality has already been undertaken. The power is now being developed and the high-tension power line is in process of construction.

We refer to the extension of the high power line of the West Kootenay Power Co. from the Boundary district across the Okanagan Valley and into the Similkameen, the preliminary work on which has already been commenced.

The fact that the project has behind it Mr J. J. Warren, president of the K.V.R., and managing director of the Power Co., and holds office as manager or director of several other large concerns who will be greatly benefitted by the extension, is sufficient guarantee that the project will be carried through to completion.

The high power lines of the West Kootenay Power Co. now extend west to supply "juice" to the mining and smelting industries of West Kootenay and Boundary, as well as for domestic use at Rossland, Trail, Grand Forks, Phoenix, and other towns. While the proposed extension will be primarily to give power to Copper Mountain, where the Canada Copper Co. will spend \$2,500,000 within the next two years in development and mining work, it is also intended to tap Camp McKinney. This is a camp which twenty years ago was a good producer, but has been dormant for the past fifteen years. During the past year the Trail Consolidated interests have staked and purchased a large number of mineral claims at Camp McKinney, and mining on an important scale will be undertaken there by that company.

Camps have now been opened up at Camp McKinney in order to initiate the power line construction work.

It is understood that the cost of the new line with laterals and substations will be between \$2,000,000 and \$2,500,000.

The project has been under consideration for some months, and

## Apples That Defy The World for Superiority of Color and Excellence of Quality.

### Wonderful Array Delights the Eye of All Visitors, Experts and Novices, at Summerland's Fall Fair.

#### Show Rounded Out by Display of Vegetables, &c., and a Creditable Showing of Pure Bred Animals. Formally Opened by Mr. J. W. Jones, M.L.A.

There have been many fine apple shows held here in past years, but never has there been displayed here a collection of the king of all fruits that, for color and general quality, has come up to that shown at the fall fair this week. There have been shows at which there were more apples, though we doubt if more exhibitors, but the quantity shown at this week's fair was greater than has been exhibited for several years. The high color and universally excellent quality of the apples were subjects of general comment, and the delight and admiration of many of our own citizens as well as visitors. The apple still remains the centre of attraction, though our annual shows have been extended from the former apple show to include nearly everything in local agricultural lines. Some particularly fine potatoes were also on display.

We are informed that so many of the plate exhibits of apples were considered by the judges as perfect specimens of their variety that exhibitors have been asked to donate them to the university as specimens.

It had been expected that the Minister of Agriculture would be present to formally open the fair, or, if he found it impossible to attend, that Deputy Minister Scott would give the opening address. Neither could leave the capital, and the duty fell to our local member, Mr J. W. Jones.

Mr Jones, in opening his remarks, regretted that the minister was not present, and that he had not been in South Okanagan this season to get some idea of the several trips over the district were recently made by Mr J. J. Warren, president of the K.V.R., managing director of the Trail Consolidated, and also of the power company, with Mr L. A. Campbell, general manager of the power concern.

It is understood that this power line, which will cross the Okanagan Valley not far from Fairview, is expected to be the means of reviving the mining industry there. Great possibilities are also opened in the way of opening up the vast extent of fine farm lands, commonly known as the Fairview Plains, by providing needed power for irrigating from the Okanagan River. Further, it is also understood that a lateral will be run up the Valley to provide the K.V.R. machine shop, round-house, yards, and offices, with power and light. Pontleiton is expecting to have available for municipal and industrial purposes an ample supply of power from this source. This being so it should not be a difficult matter for Summerland, and perhaps Peachland and Naramata, to be supplied with needed current by extensions of this lateral.

high quality of the agricultural output and of its immense volume. South Okanagan is fast becoming one of the leading producing constituencies of the province. Its importance as an agricultural district would justly entitle it to having its member made the Minister of Agriculture, and though he did not aspire to that position he hoped it would be given his successor.

Mr Jones says he has been going through the Valley and was astonished by the volume of the crops and of their excellent quality. After going through the packing houses here and seeing the quantity and quality of the fruit passing through them he could have no fear of the future of this district. The response to the Patriotism and Production appeal had been magnificent. He had been making a compilation of figures and had ascertained that the shipments from Summerland this season would approximate a value of three-quarters of a million dollars. He asked the older residents to compare this figure with that of ten years ago. The speaker congratulated Summerland both on the superior quality of the exhibit that was before him, and again on the greatly increased output of the district. South Okanagan, from Okanagan Centre south to Summerland and Naramata, will this year have a crop totalling in value 2 1/2 to 3 million dollars, nearer the latter figure, as compared with \$100,000 ten years ago. Tomatoes was one line which had been greatly increased. There was money in growing tomatoes. He had been told that Summerland's tomato crop this year would be double that of last year. Some wonderful yields were reported. One grower had a crop that returned him \$1,200 an acre. With the development of our resources one does not feel any concern for the future except that there is yet to be solved the question of water.

If we are shipping a crop worth 2 1/2 to 3 million dollars from 10,000 acres in South Okanagan then no other constituency can show such a yield. This increase brings with it a certain measure of responsibility. Our boys at the front are "carrying on," and we at home must do our duty here. Our soldiers and Allies must be fed, and we must provide the necessities of life. He was glad to see that many of Summerland's best young women were stopping into the places left vacant by our boys. Produce! produce more next year than we have this. Mr Jones laid much emphasis on the urgent need to strive for still greater production and to save the exportable foods needed by our boys overseas, beef, bacon, and flour. He also suggested that the Board of Trade organize the district in order to make the loan soon to be asked for

as large as possible.

The evidence of increasing interest in live stock was noted with satisfaction. Telling of the success and expansion being made by the creamery at Kelowna, Mr Jones said he was pleased to note that Summerland was starting out on these lines.

Mr Jones urged that our growers give attention to the producing of their own seed. Summerland was fortunate in having the Experimental Station, and could benefit much by heeding the lessons to be learned there.

Mr Jones spent the two days of the fair here, and had planned to stay longer, but had to return to Kelowna on Friday.

From the figures obtainable it would appear that this week's fair surpassed any other held here in both the number of entries and the number of exhibitors. Almost 700 entries were made by about 175 exhibitors. Of these 112 entries were in the Women's Institutes' section. Plate exhibits of apples were particularly strong, there being 495 individual plates of apples shown. Practically every point on the lake from Vernon to Penticton was represented in the exhibits. Westbank did particularly well in taking away a dozen prizes. Penticton was prominent in the live stock, and captured a good number of the prizes. A new feature in connection with the live stock was the sale on Thursday afternoon by auction of cattle and horses. Buyers were disappointingly few, and only a few of the animals offered changed owners.

Adding much to the attractiveness of the display in the hall, and of great educational and inspirational value, was the splendid exhibit from the Summerland Experimental Station. Another of special help to the fruit growers was the provincial exhibit of pests and the effects of these and of diseases on plant life which was in charge of Plant Pathologist, J. W. Eastham, B.Sc.

Another which drew much notice was that of mounted specimens of native birds, animals, and fish by F. G. Anderson.

The judges in the fruit and vegetable classes were M. S. Middleton, Provincial Horticulturist and Fruit Inspector, and Bon Hoy, Assistant Horticulturist and Fruit Inspector, assisted by Inspectors J. B. Castnor and J. Sowell. Geo. C. Hay of Kamloops, District Agriculturist, connected with the Live Stock Branch of the province judged the animals. W. T. Hunter of Kamloops was also a visitor at the show. For the Women's Institutes Mrs Davies and Mrs Cook, both of Naramata, judged the cooking, and Mrs Archibald and Mrs Barker the fancy work.

## World's Champion Fruit Packer Is S'land Girl

Such is the Opinion of Inspector who Witnessed Thursday's Contest.

It has long been recognized that Summerland had several very speedy apple packers, and for some time there have been claims and counter claims by the staffs of the local houses as to which had among their number the speediest of them all. These assertions finally culminated in the putting up by the staff of the Steuart Fruit Co. a stake of \$25 for the young lady among the Union packers who could surpass Geo. Silk, the speediest packer on the Steuart staff. Silk was ready to give the young lady a handicap of three boxes. The challenge was accepted by Miss Ruth Blair, the staff of the Union having put up another \$25 for Silk if he should prove to be the winner. The contest was pulled off on Thursday afternoon, and the news of the test, which spread quickly among the visitors at the exhibition, drew a large number of onlookers to the Union packing house, where, one on each side of the grader, the contestants strove to maintain the honors of their houses. It was a keenly exciting hour, and the excitement became extremely tense as the time to stop approached with but little advantage to either as far as the onlookers could guess. The stake money was held by one of the fruit inspectors, of whom there were a number here on Thursday, and the contest was conducted under their supervision. Cheers rang through the building, and numerous congratulations were poured on the popular young winner when it was announced that Miss Blair had packed 29 1/2 boxes in the sixty minutes, as against 27 1/2 by her opponent.

The Review was informed afterwards by one of the officials that this record of a box of perfect pack every two minutes had not likely been exceeded anywhere, and, in fact, it was his opinion that this was a world's record.

Creston is boasting of its expert fruit packers and of their packing records. Two men in a day's work had packed 176 boxes, beating their own former record of 172. Being curious to know how near this came to what is considered a day's work in the Summerland packing house, and meeting the manager of the Union on the street we asked him what his packers were doing. His reply was that five of his lady packers had the day before packed 120 boxes each in seven hours. Again, we enquired of one of the young lady packers as to what she had packed the day before. She is putting in long hours, working up to ten o'clock each night, but in the seven hours of the day before she had packed 140 boxes. True, these were packed from the bins of a grader, but these girls could see nothing exceptional in the boasted record of the Creston experts, stating that 12 to 13 boxes an hour was often made when they had to grade as they packed.

Enquiry at the Steuart packing house brought the information that one of their men does 125 boxes in a day from a bin, and close to 200 from the grader.

These figures, and especially the record made by Miss Blair, in packing graded fruit, leave the record makers of Creston in the class of the ordinary, every-day packer.

There were present on Thursday quite a number of visitors from Peachland, Penticton, and Naramata, the latter being met at the ferry and conveyed to the grounds by Messrs English and Anderson for the association, for which they made no charge, and to whom both the visitors and directors are grateful.

Among the special prizes the cash prizes offered the school children by J. Tait for box potatoes was won by Fred Gale, John Denike, and A. Wismer. The Shields special, also for potatoes, shown by seniors, was taken by E. R. Faulder. The Mallett cup goes to J. Tait for a year, and the B.C. Nurseries special for best McIntoshes to A. Steuart.

Much credit is due the management for the excellent manner in which the exhibits were arranged.

The service provided by the Ladies' Hospital Auxiliary in the providing of lunches was greatly appreciated by the officers of the fair, the exhibitors, and the visitors. Of greater importance, doubtless, to these ladies who put in many hours of hard work, was the sum realized for hospital purposes. The receipts for the sale of lunches, etc., was \$112.40, and the hospital tags, which has become a recognized privilege of the hospital at our annual shows, brought over sixty dollars. After all expenses are paid the former sum will net over \$100. The ladies are to be congratulated both in the service they rendered and the financial results.

## Money Makers Among Apples

### A Few of the Recognized Top Notchers and Average Prices

Dealing with the commercial worth of a number of the varieties of apples grown in the Pacific North-west States a Spokane writer says:

"Twenty-five years ago the Spitzenburg was considered the best of all the apples grown. Next to the Delicious and the Winter Banana, I think the Spitzenburg will bring the best prices in the markets, with the Arkansas Black next; but the fact that it is a light bearer, a tender tree, susceptible to disease, and not long lived, will cause other varieties to be preferred in the plantings of the future.

"At the age of eight years the Winesap, the Jonnathan, and a few other varieties would bear a fairly good crop under the climatic conditions of the Pacific North-west, but the Spitzenburgs would not at that age have come into profitable bearing. It has also been proven that it is not a long-lived tree, and that when other varieties are in full

## Naramata News

Current Events of Town and District

According to information received by his mother, Gerald Roe, who has been training in England for inland water service, along with several boys from Summerland, has been transferred to Paris. Just what his new duties are he does not state.

The popular tag was again resorted to in Naramata on "Our Day," Oct. 18th, when sixteen dollars was gathered for the Red Cross, and has since been forwarded to headquarters.

Mr J. Cooper of Calgary, accompanied by T. H. Boothe, visited Naramata in his tour of the Valley in search of a ranch that will be just to his liking. It may be that he will decide to locate here. He can't do better.

After a visit of about two months here with his parents, E. W. Noyes has returned to Vancouver.

On Monday Naramata extended a hearty welcome to her first soldier home from the front, when Frank Hayward slipped in quietly early that morning by special ferry from Summerland, having come up from the Coast by K.V.R. It had been planned to have a special demonstration, but his arrival two hours ahead of schedule upset that. Those who were about the wharf, however, gave him a royal welcome. All are delighted to have him home again, even if for only a few days, as he expects to go to the Coast again early next week.

With more orders offered him than he could take care of, Russell Wells of the Naramata Fruit Co., has returned from a successful business trip to the prairies, where he found every farmer prosperous, money plentiful, and a good demand for fruit.

Following but a few days after the news of its birth, the death of the infant daughter of Dr Will and Mrs Robinson, now of Toronto, was received here with sorrow.

Having gone before the medical board at Vernon this week, Billy Robinson returned on Wednesday with the information that he could not be admitted to Class A, but has been listed in Class B.

## LOCALS.

Local friends of Mr D. E. Hatt were glad to see his jovial face again this week. He came in on Thursday morning from Princeton, where he has been doing work for the Millitary Y.M.C.A., and went on to Armstrong, boarding the boat the same night.

It is expected that the Supreme Court case, Okanagan Telephone Co. vs. Summerland Telephone Co., will be heard at Vernon next week. Quite a number of Summerland people are preparing to attend.

A man who was afraid of thunder crawled into a hollow log as a place of safety during a thunder storm. The thunder rolled and the rain poured down in torrents, and the old log began to swell up till the poor fellow was wedged in so tight that he could not get out. All his past sins began passing before him. Suddenly he remembered he hadn't paid his newspaper subscription, and he felt so small that he was able to back right out.

An oil flotation mill is to be built near Princeton by the Canada Copper Company to cost, it is estimated, in the neighborhood of \$2,000,000, and will be completed within the next twelve months. The assured ore measure is placed at 10,000,000 tons, and on a 23 1/2 per cent. working basis these reserves have a net value of \$58,800,000.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

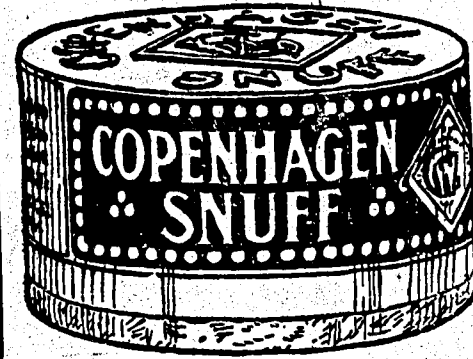

N.B.—Unauthorized publication of this advertisement will not be paid for.

A Weekly Chronicle Furnished  
By Our Local Representative

The regular meeting of the Council was held in the Council Chambers on Wednesday, October 10. All the members of the Council were present. After the minutes of the regular meeting, Sept. 10, were read and confirmed, the following communications were read: Secretary Union B.C. Municipalities re convention; City Clerk, Duncan, B.C., re reception of delegates; Controller of Water Rights re power licence, Dorland's spring; J. W. Jones, M.L.A., and District Engineer Stewart re trail to Brenda Lake; secretary of the Navy League re Trafalgar Day; Prohibition Commissioner re provisions of the act; Food Controller re price of milk; J. L. Elliott re road to Blocks 9-11, D.L. 912; J. McLaughlan resignation as electrician; letter from J. L. Elliott referred to Board of Works for report. Resignation of electrician referred to Light and Water Committee with recommendation to try to secure returned soldier for vacant position. Clerk reported that the life buoy on the C.P.R. wharf had been hung up on the outside of building as per instructions. The constable reported to the Council in connection with the collection of Dog Taxes, and was instructed to collect all unpaid taxes forthwith. Coun. Powell gave notice of motion to amend the Dog Tax By-law. The Finance Committee recommended the payment of September accounts to the amount of \$262.23.

Mrs. Walter Charlton was a passenger to Vancouver on Wednesday, where she has gone on a visit.

Mr. Thos. Powell, who had been attending a meeting of the directors of the Okanagan United Growers at Vernon, returned home on Thursday.

The sum of \$50.20 was raised on "Our Day" for the Red Cross in this district. Mrs. J. G. Robison and Mrs. A. Smalls sold tags at the Fruit Union, while the school children went from door to door after school. \$11.60 of this amount was collected at the Town Site.

Walker Brown has again assumed his work on the steamer, "Sicamous."

High School Inspector De Long inspected the High School on Friday.

Rev. W. J. Scott was a passenger to Penticton on Saturday where he went to exchange pulpits with Rev. Andrew Grieve, who preached the morning anniversary sermon here. He returned home on Tuesday morning.

### Baptist Anniversary

This church was favored with beautiful weather for its anniversary, notwithstanding the heavy wind storm and forbidding outlook of the day before. The union church kindly suspended their services, and their choir, assisted by members of the Baptist Church, brightened the service with their singing. The floral decorations, contributed by members of both churches, added greatly to the joy of the occasion. The people turned out well, and the messages of the preachers were listened to with marked attention and appreciation. Rev. Andrew Grieve's text in the morning was the last verse of the 15th of 1st Corinthians, "Therefore, my beloved brethren, be ye steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labor is not in vain in the Lord." The text upon which Rev. J. A. Rowland founded his discourse in the evening was Psalm 5, v. 8, "Lead me, O Lord, in Thy righteousness," Mrs. James Elliott's solo, "O Rest in the Lord," was very sweet and refreshing, and the anthems of the choir uplifting and helpful. Mrs. Hyde presided at the organ, and Mr. R. J. Hogg led the choir. It was a bright, happy, and profitable day.

Miss Rosa Law returned from Penticton where she had been visiting for about six weeks.

Nurse Wilson was a passenger south on Monday evening.

Mrs. Noodham received a letter from Miss Morrison conveying the sad news that her brother, Mr. J. Morrison, had died at Rochester, Minn., on Wednesday, the 17th inst., whether they had gone to consult the specialists, Messrs Mayo Brothers. Mr. Morrison became much worse on the journey after

#### THINK

Before you ask a merchant to Make a delivery Send goods on approbation Or incur other expense. Is it necessary? Delivery service is expensive, and ultimately YOU must pay for it. If the service is not

leaving here. The sympathy of the community is extended to her.

The shore run of the Kokanee has started, and the fishermen have had success, having caught 1200 fish on Saturday and 450 in about two hours on Monday. Owing to the two days close season they lost valuable time now that the run is on. It is however, hoped that the Department will extend the time for fishing owing to the lateness of the run.

Theodore Scott was a passenger to Penticton by Tuesday evening's boat.

necessary you are not only wasting your own money, but the resources of Canada as well. Canada is in urgent need of economy. Carry your parcel home.

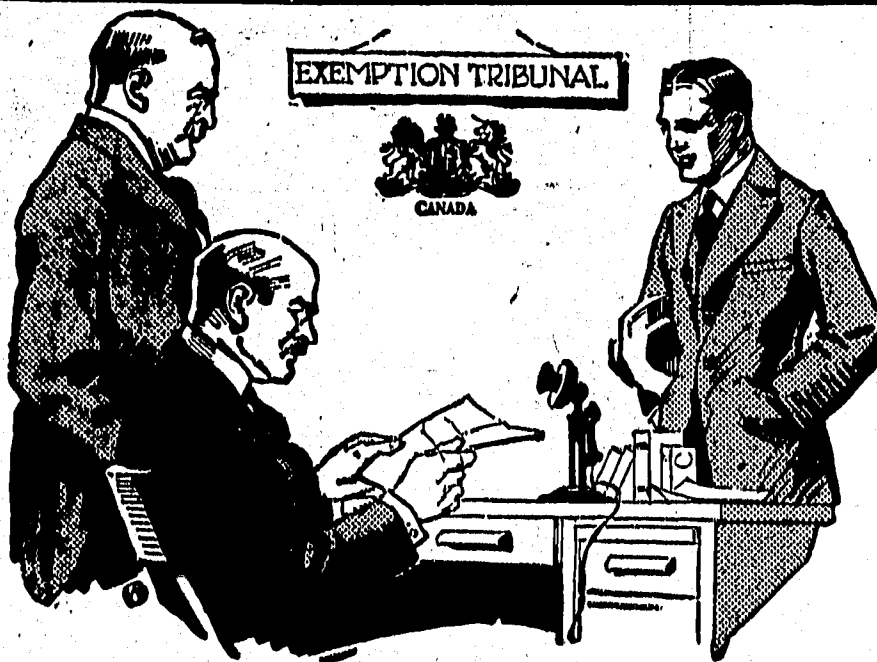

There is an old engraving hanging in many homes depicting a young and ragged urchin stepping up to a lady and asking if he may carry her parcel. Times have changed. To-day that same little chap might have difficulty finding a parcel to carry; and why? Because fashion has decreed that we may carry almost anything but a parcel. The result has been heavier delivery expense, which must be paid by the consumer, together with the same percentage of profit as is carried by the goods themselves. Because it does not show separately in the bill, it is not recognized as an additional cost. To a large extent merchants are to blame for this. If they were to adopt the "cash and carry" system, giving a price advantage to those who paid cash and carried their parcels, requests for delivery would soon show a decrease.—J. D., in Conservation.

## Exemption Tribunals.

Exemption Boards have been chosen in such a way as to make them absolutely independent and removed from all influence. There are over 1,250 boards throughout the country, each composed of two men, one appointed by the county judge in the district concerned and one selected by a joint committee of Parliament. Being familiar with local conditions where they sit, the members are well-fitted to appreciate such reasons for exemption as are put before them by men called up.

Exemption will be granted to those who can establish that it is in the national interest that they remain in civilian life. This is for the Exemption Board to decide after having received full information in each case.

The grounds on which exemption may be claimed (which are similar to the grounds recognized in Great Britain and the United States) are as follows:—

- (a) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (b) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications.
- (c) That it is expedient in the national interest that, instead of being employed in Military Service, he should continue to be educated or trained for any work for which he is then being educated and trained.
- (d) That serious hardship would ensue if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position.
- (e) Ill health or infirmity.
- (f) That he conscientiously objects to the undertaking of combatant service and is prohibited from doing so by tenets and articles of faith, in effect on the sixth day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he is in good faith belongs.
- (g) That he should be exempt because disfranchised under the War Time Election Act.

No Claim for Exemption should be put forward unless one or other of these grounds in fact exists, and no loyal citizen should assist in, or allow himself to be made a party to, any Claim for Exemption unless thoroughly satisfied that it is made in good faith.

Exemption may be applied for by the men selected themselves or by their parents, near relatives or employers. Application for exemption must be made on printed forms to be found at every post office, which are to be filled in and left with the postmaster if exemption is desired. The postmaster will forward the form to a Registrar, who will send it to the appropriate Exemption Board. In due time, then, the Applicant will get notice as to when he must present his case before the Board.

Issued by The Military Service Council.

Mrs Campbell; Mrs Rau.

16 Best Collection of Beans in pint jars, at least 3 varieties 2 1  
H. Bristow; L. E. Taylor, Kelowna.

### CLASS 13.

Packed Fruit Display by Packing School Pupils. All pupils of Packing Schools who attained a proficiency of 75 per cent. or over in the Packing Schools conducted by the Department of Agriculture in 1917 at Summerland, Peachland, Penticton, and Keremeos, are eligible for entry.

### RULES FOR COMPETITION.

No entry fees. Each competitor to exhibit two standard boxes of apples of three or fewer varieties, to be packed by the pupils without assistance; three packs in the diagonal style; all layers except the face, wrapped; no layer papers; fruit may be wiped; cover need not have been nailed down. The fruit will be scored on the following basis:

Grading - - - - - 20 points.  
Packing:  
Alignment 20 points.  
Bulge 20 do.  
Height at ends 20 do.  
Firmness 20 points  
- - - - - 100 points.

The Fruit Judge will forward his score to the Department of Agriculture, and the pupils awarded first, second and third will receive prizes of \$3, \$2 and \$1. Only pupils of the 1917 schools may compete. Pupils whose pack scores 75 per cent or over are credited with these points for diplomas whether they are successful in receiving prize money or not.

Mrs Rutherford; H. P. Davidson; Mrs R. M. H. Turner.

**OLE OLSEN COMING.**

One of the best known comedy dramas ever presented to the public. A story in 4 acts, with a laugh for every line—and here and there a touch of pathos. Dave Williams as Ole has a national reputation as a comedian. Little Jim, played by Marion Caldwell,

six years old, is as clever as a grown-up, and is sure to delight the audience, while Aunt Emaline, the forlorn spinster, Genie, the true-hearted girl, and the remainder of the cast are all exceptionally clever artists. The Colonist in Victoria, in speaking of Dave Williams, claims that he is one of the best comedians ever appearing in that city, where he played three years, and as Ole he is at his very best.

**Classified Advs.**

**RATES:**

FIRST INSERTION — 2 cents per word: minimum charge 25 cents.

EACH ADDITIONAL INSERTION — 1 cent per word: minimum charge 10 cents.

In estimating the cost of an advertisement, subject to the minimum charge as stated above, each initial, abbreviation or group of figures counts as one word.

If so desired, advertisers may have replies addressed to a box number, care of the "Review," and forwarded to their private address. For this service, add 10 cents to cover postage.

No responsibility accepted for correctness of telephoned advertisements.

Please do not ask for credit, as the trouble and expense of booking small advertisements is more than they are worth to the publishers.

**Wanted.**

**Passing Events: Social, Personal, &c.**

Rev. H. A. Solly returned a few days ago from Vancouver, coming by way of Seattle and bringing his new car.

Mrs and Miss Van Allen went down to Vancouver on Wednesday. After a short visit there they will go to Brantford, Ont., to spend the winter.

Leighton McLeod, who has been over in England for some time, has been transferred to the flying corps, and will go into training to prepare for that branch of the service.

Five of the six convalescent soldiers at the hospital were taken to the Balcomo ranch on Saturday by Miss Van Allen in her car, where they spent the day most enjoyably as guests at the Agur home.

Dr R. C. Lipsett claims the distinction of being the first person in Summerland to market wheat. He took a quantity of that grain to the Union this week, which had been threshed on the Lakeside ranch.

The sale and tea held last week by the ladies of the Red Cross was most successful, about \$220 having been realized. The major portion of this sum came from the sale by auction of sundry contributions. Mr J. R. Brown, to whom the ladies are very grateful, proved himself a most efficient auctioneer.

Coun. Johnston, Chairman of the Public Works Committee, left this morning with an assistant on a five days trip to the headwaters of Trout and Eneas Creeks. All the beaver dams that had been opened will be closed, as will the dam on Eneas Creek, and the smaller dam on Trout Creek. It may be that the big dam will also be closed.

Twenty-three dollars in cash beside a volume of goods for the honor roll soldiers of the Summerland Baptists was gathered together as the result of a shower held at the home of the Misses Spencer on Tuesday evening. In all, the donations represent more than \$50. A very pleasant social evening was enjoyed by those privileged to be present.

Announcement has been made that all wholesale dealers in fruit and vegetables must register with the office of the Food Controller by November 1. By order-in-council of October 11, the Food Controller was given authority to require such registration. Dealers failing to register make themselves liable to a fine of \$1,000 or imprisonment for three months, or both fine and imprisonment. The term "wholesale dealer" includes all persons handling fruit and vegetables between the bona fide grower and the bona fide retail dealer.

Sgt. Frank Hayward arrived last week-end, and has been dividing the week between his home in Naramata and his Summerland friends. He was an honored guest at a Christmas shower for the soldiers of the Baptist honor roll, which was held at the Spencer home on Tuesday evening. He is looking exceedingly well, and says the piece of shrapnel which he is carrying in his chest is causing him but little trouble. Upon examination at Quebec he was classed as fit for light service, and must report at Esquimalt in a few days to be assigned his new duties. It was at Vimy Ridge where he was in the "first wave over" that he received his wounds.

Patient—"What do you think of a warmer climate for me?"  
Doctor—"That's precisely what I'm trying to guard you against."

**\$10.00 REWARD**

Will be paid by the undersigned for information that will lead to the identification and conviction of the person or persons who stole a tarpaulin from my lot.

O. F. ZIMMERMAN.

**ARTHUR WISMER**

Phone 575. R.R. No. 1, GARNETT VALLEY.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented in Summerland by Bert Harvey. A

Mr Geo. Lingford of Salmon Arm, came down a few days ago to assist C.P.R. Agent A. B. Currie in the local office.

Rev. W. H. Bates has been appointed as assistant to Supt. Robertson of the union Sunday School which meets in St Andrew's Church.

Arrangements are being made to hold an auction sale of household goods and farm implements on Thursday, Nov. 15th, at the McLaren ranch, Jones' Flat. 13

Last year, according to the government estimates, the value of Canada's field products was \$820,000,000. Present indications are that this year the value will be \$1,100,000,000, which will make available just so much more for export to our Allies and to loan to Britain.

The new bank building will soon be ready for occupancy. The visit this week of the inspectors has somewhat delayed the removal of furniture, etc., from the present office and it is now expected that the new office will not be opened for business until the 6th or 7th of November.

Mrs P. Harris and child of Elbow Park, Calgary, are spending some weeks here with Mrs Lumsden. In order to get to France, Mrs Harris' husband, who held a captaincy in the 46th, some time ago reverted to a lieutenant, and is now at the front. In the same regiment was Geo. Mellor, brother of Mrs Lumsden, who has been severely wounded, and was mentioned in despatches for bravery.

Eyesight tested and glasses fitted. Dr Morris, Professional Optometrist and Optician of Vancouver, will be at Rowley's Jewelry store on Monday, 29th October, to practice his Profession. If you need Glasses this is an opportunity to consult an Expert Authority on the subject, the oldest and most experienced Optometrist in Western Canada. Special care taken in every case. Glasses furnished at reasonable prices. 12, 13

Chas. W. Wharton, now a corporal, left England about the middle of September in charge of a party of nine men for Saloniki.

Two exemption tribunals have been named for the Valley. G. F. Guernsey and E. L. Mutch, Penticton, and L. Norris and A. Cochran, Vernon.

A. J. Beer and Ted Tindler went up to Vernon on Thursday morning to go before the military medical board for examination. Both the men reported for service some time ago.

Miss Kelley, who has been with the C.P.R. here, has accepted a position at Princeton, to which place she went this week after spending two or three days at her home in Armstrong.

Fruit growers are again reminded that the apples which they are packing at home for contribution to our soldiers through the Red Cross must be at one or the other of the Union packing houses by the last of the month. Cards to enclose (one in each box) may be had from Mrs E. B. May.

Ernest—"Now, Mary, it is only fair for me to tell you that I'm a somnambulist." Mary—"That's all right, dear. We'll take it in turns. I'll go to your chapel with you one Sunday, and you can come to my church the next."—The Sketch.

"Wanted—A reliable man" read Mrs Bascom from the advertising columns of the paper. Then she raised her glasses upon her forehead, looked severely at her husband, and remarked: "And the world'll wait a considerable number of centuries yet before it gets him."

**IN THE SUPREME COURT OF BRITISH COLUMBIA**

IN THE MATTER OF Block 22, according to a Map or Plan of subdivision of Lot No. 454, Group 1, Osoyoos Division of Yale District, according to Map No. 160, and of a mortgage thereon made by RICHARD B. SMITH, Mortgagor, Deceased, in favor of FLORENCE EARL, Mortgagee,

IN THE MATTER OF An Act Respecting Contracts Relating to Land, being cap. 35 of the Statutes of the Province of British Columbia, 1915, and the Amendments thereto.

NOTICE OF INTENTION TO EXERCISE POWER OF SALE.

To: T. J. Smith, 1216 Bute Street, Vancouver, B.C., Mabel Smith, 1216 Bute Street, Vancouver, B.C., Ella Smith, Fort George, B.C., Mary Smith Bristow, Summerland, B.C., and to R. A. Smith, Merritt, B.C., AND TO ALL OTHERS WHOM IT MAY CONCERN:

In pursuance of chapter 35 of the Statutes of British Columbia, 1915, and the Amendments thereto, you are hereby notified that one month after the service of this notice on you I, FLORENCE EARL, the above named mortgagee, intend to take proceedings under the power of sale contained in the above mentioned mortgage, being an Indenture dated the 7th day of April, 1914, and made between Richard B. Smith as Mortgagor, and Florence Earl as Mortgagee, covering ALL AND SINGULAR the lands and premises situate, lying and being at Summerland, in the Province of British Columbia, being composed of Block twenty-two (22), containing ten (10) acres more or less, according to a map or plan of subdivision of lot No. four hundred and fifty-four (454), Group one (1), of the Osoyoos Division of Yale District, deposited in the Land Registry Office at Kamloops as No. one hundred and sixty (160), to secure the sum of \$1,800.00 payable on the 7th day of April, 1915, with interest at 25 per cent. for the sale of the said lands and premises, either by public auction or private sale;

AND FURTHER TAKE NOTICE that unless you take steps to protect your interest therein, the said property will be sold for the best offer received by the undersigned mortgagee.

Dated at Vancouver, B.C., this 17th day of October, A.D. 1917. FLORENCE EARL, Mortgagee.

The above notice is published in pursuance of an order of the Honorable Mr Justice Gregory made in Chambers at the Court House, Vancouver, B.C., on Thursday, the 18th day of October, 1917. EDWIN B. ROSS, Solicitor for the Mortgagee.

WEST SUMMERLAND, B.C.

Cannot Deliver Nova Scotia Apples to Calgary.

Resume of Market Items of Interest to Growers and Shippers.

Calgary—Cold weather has set in. On Tuesday three inches of snow fell, and there are about 17 degrees of frost at night.

The fruit business is cleaning up rapidly, and apples and pears largely predominate.

Advices have been received that the Nova Scotia apples intended for Calgary cannot now be delivered.

It is also reported that the Nova Scotia apple crop has passed from the growers' hands to the shippers, who are holding for a price. The Food Controller is investigating.

C grade apples are now being quoted at from \$1.10 to \$1.30 f.o.b. shipping point, averaging \$1.20.

Advice from large centres of fruit growing in B.C. say that

trading in fruit is now between the shippers and brokers.

PASSING OF THE SOFT FRUITS.

The soft fruits are just passing, and in many ways there has been room for improvement.

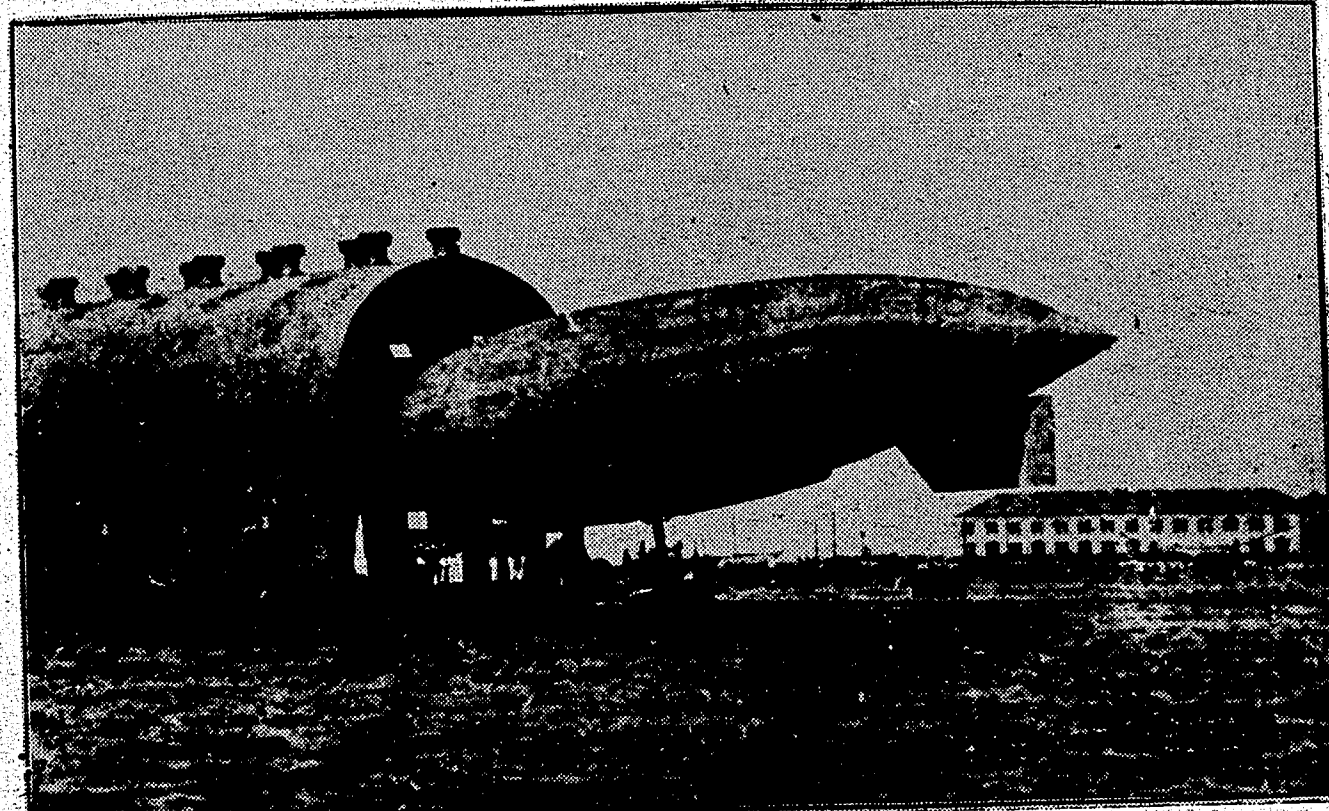

The cherry market was very encouraging this year. In Bings and Lamberts the demand exceeded the supply, while sour cherries returned a sufficient price to warrant the trees staying in the ground a little longer.

Apricots were scarce, small, and sent here in various sized boxes. One shipper sent a prune lug and a peach box in the same shipment. Both were offered for sale at the same price, in the same place. Owing to indiscriminate consignments prices were irregular, and some were retailed at little better than half the wholesale returns. The cure for these follies is in the growers' hands.

BANK OF MONTREAL

Advertisement for Bank of Montreal, established 100 years (1817-1917). Includes financial figures: Capital Paid up \$16,000,000, Rest 16,000,000, Total Assets (April 1917) 326,806,887. Also mentions accumulating savings in Dominion Government War Savings Certificates.

United States Observation Airship

Tailoring

Where a High Standard Holds

The selection of material for suit or overcoat is important. The best work of designer and workmen may be spoiled through poor taste shown in material made up.

We can always help in a selection, and our range of materials is of a size to give the widest choice.

But all other things being equal, it is the skill shown in designing and workmanship that makes or mars the suit.

The House of Hobberlin is justly credited with fixing the standard for high-grade tailored-to-order clothes.

It is the fit and finish of all garments carrying the name of this House that has given the House first place in all parts of Canada for ideally built clothes—always made-to-measure—always high grade.

Sole Agent for Hobberlin Tailoring

A. B. ELLIOTT

The Man who Saves You \$'s

Summerland and West Summerland

PLUMS AND PRUNES.

Plums were uniform in pack as far as 4-basket crates goes, but the filling of them left much to be expected.

Washington growers get five pounds in each basket. Many of our shippers did as well; some did not get over four pounds in.

Plum rot developed in some shipments from lower mainland. This should not be. Growers knowing that plum rot is prevalent in their orchard should not jeopardize other shippers in the same car by including their contagious stuff. Quarantine restrictions should be applied in such cases.

Prunes ruled small, and many reached here too ripe, due largely to non-use of ice. This year B.C. prunes were inferior to Oregon and Washington in size and also in shipping arrangements.

Advertising will not make quality. Get quality first. Then advertise.

We can market prunes of best quality at a profit against all comers.

If you want to sell you must advertise.

MONEY MAKERS AMONG APPLES.

(Continued from p. 1)

vigor it is on the decline. As a money maker, covering a long period of years, it is not therefore considered the best.

For baking, the Spitzenburg is very good, but the consensus of opinion, as expressed by the hotels, restaurants, and dining car service of the railroads of the North-west, is that the Rome Beauty, Yellow Newtown, Red Cheek Pippin, and Twenty Ounce Pippin are a little better.

The Spitzenburg makes good pies, in fact, it was once supposed to make the best pies; but now the Yellow Newtown, Winesap, Rhode Island Greening, Duchess, and Gravenstein are thought to be at least equal.

The following prices represent an average for three years received for certain varieties by the Hood River Apple Growers' Association and the Yakima Valley Fruit Growers' Association: Winter Banana, \$1.91; Spitzenburg, \$1.52; Yellow Newtown, \$1.47; Arkansas Black, \$1.39; Winesap, \$1.39; Stayman, \$1.28; York Imperial, \$1.18, Red

Cheek Pippin, \$1.17; Rome Beauty, \$1.17; White Winter Pearmain, \$1.10; Gano, \$0.97; Wagner, \$0.91.

The Delicious was not included in this estimate, but to-day it ranks very high, ranging in price nearly as high as the Winter Banana, is a heavy bearer and good shipper.

The 19 leading varieties, according to the estimate at the apple shows held at Spokane for several years past, when arranged alphabetically, are as follows: Arkansas Black, Baldwin, Delicious, Gravenstein, Grimes Golden, Jonathan, McIntosh Red, Northern Spy, Rhode Island Greening, Rome Beauty, Spitzenburg, Stayman, Wagner, Wealthy, White Winter Pearmain, Winter Banana, Winesap, Yellow Belleflower, Yellow Newtown. It should be borne in mind that this arrangement is not according to merit, naming the best first, but it is alphabetical.

The Arkansas Black is coming to be a great favorite for the fruit stands on account of its color. It is the most beautiful apple grown, but not the best.

WEST SUMMERLAND, B.C. October 23rd, 1917

Cautious Patron, Esq. Summerland, B.C.

Dear Friend,

The time is fast approaching when the Harvest will be gathered in and the thoughts of many ranchers and others who have been employed in taking care of the crop are turning to travel. Many will visit their friends and relatives in other locations, and others will desire to see parts of the country hitherto unknown to them. Are you one of this number? If you are, have you looked over your travelling outfit? Don't start out with a suit case which is liable to demobilise before you reach your journey's end. Examine your trunk; perhaps you will find by a close scrutiny that your last ramble made more havoc with its corners and fastenings than you realized. I have a good range of trunks and valises at prices very much less than present day value, and stocked up early, and you have now the chance to profit thereby. I have trunks from 27-in. to 36-in. long, and from 12-in. to 21-in. high; suit cases from 22-in. to 26-in. long; and in addition to these I have a good assortment of shoulder straps, rug straps, baskets, name tags, etc., etc. When comparing values in trunks and valises, do not forget that the freight on them is one-and-half times the first-class rate, and that being heavy articles they frequently cost more than 25 per cent of their value to bring in; furthermore any articles enclosed in them will also cost you at the same rate. I have for several seasons now bought my trunks and bags in conjunction with other merchants in the Valley, thereby making up a carload purchase, and obtaining a car-lot freight rate to Vernon (from the Eastern manufacturers), or some other convenient point, and distributed amongst us. This means a saving to you. Call and see my stock before trying elsewhere.

And now, dear Patron, changing the subject slightly—how about getting your clothes pressed and cleaned for the trip? Maybe a little repairing, too, is necessary. New clothes are expensive now, why not have your suit dyed? A change of color will keep you from tiring of it.

I am taking in this work daily now. This branch of my business is exceeding my expectations, and the work is giving excellent satisfaction—dry cleaning is so superior to sponge cleaning, and so much more lasting.

Don't overlook a new pair of boots when completing your outfit. Anyone will tell you that the cities are commanding higher prices for footwear than you can buy for in Summerland.

If you travel, do it right, and you'll have a right good time. Thanking you for past favors and assuring you of my individual attention,

Yours very sincerely, A. J. BEER.
