

# The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.  
RALPH E. WHITE, MANAGING DIRECTOR

FRIDAY, SEPTEMBER 7, 1917.

## Day of Consignments Is About Over.

The following from the Yakima Herald is of great interest to B.C. growers:

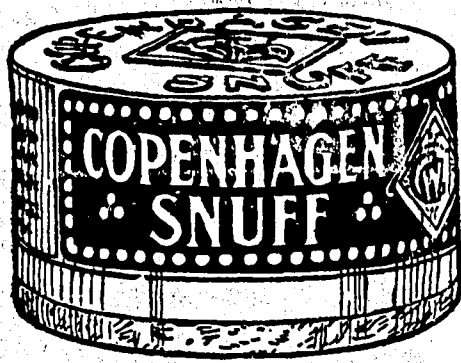

"Extinction of the consignment business, beginning with the apple trade this season, is now threatened. Growers of all food commodities are receiving high prices. The demand is so great that the entire crop of numerous staples of Washington promise to be absorbed at high level, and the traditional shipment from grower to commission man, with many other customs, is evidently doomed to die out.

"Seattle jobbers who were seeking consignments ran into a bunch of eastern buyers, who were bidding 15c. to 20c. higher than the

asking prices for the previous week, with Winesaps at \$1.50 to \$1.55 per box, Delicious at \$1.65 to \$1.75, Rome Beauties at \$1.35 to \$1.40, and Stayman Winesaps at \$1.35 to \$1.60. Consignment in the peach trade is regarded as improbable under the asking price now prevalent of 70c. per crate for straight carloads, and 75c. for mixed cars, and in pears at \$1.35 to \$1.50 per box. Seattle merchants who expect to handle the usual large quantities of this fruit will be compelled, it is now claimed, to invest some cash.

"Seattle jobbers assert that orchardists are out of line with quotations for Elbertas at 70c. to 75c., and that the fruit will not sell at that level. Eastern buyers, however, are taking on stock at these levels, or 70c. to \$1.00 selling price here. First shipments will be made about September 6."

## Copenhagen Chewing Tobacco IS THE WORLD'S BEST CHEW

It is manufactured tobacco in its purest form.

It has a pleasing flavor.

It is tobacco scientifically prepared for man's use.

### Game Season.

A severe epidemic has almost entirely exterminated all species of grouse in the Interior, and there are barely enough birds left to restock the country. There will, therefore, be no open season for the shooting of these birds in any part of the country east of the Cascade range. Usually the grouse season opens about September 15th.

The open deer season east of the Cascade summit is from September 1st to December 15th.

Because of the very dry weather and grave danger of forest fires being started by hunters the opening of the shooting season has been postponed for two weeks south of the boundary.

The growers at Mission City received an average of \$2 a crate for raspberries this summer.

### Market Commissioner On U.S. Apple Outlook.

British Columbia apple growers will be interested to hear the general tone of the apple market from their southern competitor's point of view. The panicky and uncertain state of the season's market for apples has disappeared and a very strong feeling that a return of the times of seven or eight years ago when prices were of a kind to induce men into the fruit business has arrived again.

Many growers of the Wenatchee Valley who have small or inferior stuff to offer may sell C grade at 85 cents a box by car lots, but they will not contract for their main crop yet, not at that price.

Extra fancy grades run from \$1.25 to \$1.85 dependent on the variety, but all the standard varieties run toward the top figure.

New York is reported as being short on crop, and again this year car shortage is threatened. Apple boxes that were 10 cents each last year are 17 cents now, and it is difficult to insure delivery of them even at that price.

Peaches have been coming in small in size, and many of the apple orchards run under the average size this year. Elberta peaches open at \$1.00 per box. Tomatoes are not rolling in the bulk expected, and they are again stiffening in price. They are 65 cents a box in Spokane to-day, Wednesday, Aug. 29, and come in peach boxes.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

It is the announced intention of the Peachland Townsite Company to serve every water user on their irrigation system through locked measuring boxes

Miss Bessie Dimock, who has been visiting Miss Myrtle Keating, returned to her home in Vancouver on Wednesday.

Mr J. McLaughlan, jr., was a passenger to Penticton on Wednesday, returning home on Friday.

Mrs Roe of Naramata came in on Thursday and is visiting Mrs Hugh McDougald.

Mrs W. B. Sanderson, who has been visiting in Penticton, returned to her home here on Thursday.

Mrs N. S. and Miss Alice Elliott, who were visiting in Vernon, returned home on Thursday.

Mr D. J. White was a passenger to Vancouver on Thursday, going by way of the K.V.R.

Mr Walker Brown, who has been working on the steamer Sicamous, came home on Thursday to help his father with the fruit.

Miss Olive Ferguson, who has been visiting at the Coast for a couple of months, returned to her home here on Thursday.

Miss Edna Stabler left on Friday morning for her home in Vancouver. She expects to stay over for a day or two in Kamloops to visit her mother on the way out.

Mrs W. C. Aitkins, who has been visiting Mrs Lupton of Kelowna returned home on Friday.

Rev. J. A. Rowland returned home on Friday.

Mrs A. Town, Mrs C. Town and Mrs A. D. Ferguson were passengers to Kelowna on Saturday, Mrs A. Town returning on Sunday, Mrs C. Town on Monday, and Mrs Ferguson is remaining for some time.

Miss Switzer of Vancouver came in on Saturday to take charge of the High School.

The Misses Nancy and Betty Buchanan returned from Penticton on Saturday where they had been visiting their uncle, Mr J. D. McDonald.

Mr D. A. Kirkby of Penticton came up on Sunday morning to spend the day with his family at Mr John McLaughlan's, and returned on Monday evening accompanied by Mrs Kirkby and Miss Margaret.

Mr Clarence Duncan and his sister, Mrs Burkett Robinson of Westbank, spent Sunday with Mrs Hugh McDougald.

Miss Vera Hay returned from Kelowna on Sunday.

Rev. W. J. Scott returned from Summerland on Monday morning accompanied by Rev. Edgar Russell who spent the day here, returning at night.

Mr H. E. McCall and family were passengers to Summerland on Sunday night, going down to spend Labor Day with Mr and Mrs Fred Gartrell. Mr and Mrs Gartrell brought them back in their car on Tuesday morning. Mr Gartrell came up to see some cows that are for sale here with a view of increasing his stock.

Miss Bessie Seaton was a passenger to Vernon on Monday, going back to reassume charge of the school there.

Mrs and Miss Flora Needham returned from Vancouver on Tuesday.

Mr W. D. Miller spent the weekend with his family here, returning to Penticton on Monday night.

Miss Cryderman and Miss Bellgrove of Vernon came down on Sunday night and are visiting Mr and Mrs J. G. Robinson.

Miss E. Montgomery came in from Prince Edward Island on Sunday night, having been engaged as principal of the Public School.

Miss Olive Gummow returned home from Penticton on Monday morning where she has been visiting for some time.

Miss Leone Morrison was a passenger to Rutland on Monday morning having accepted a position as teacher of the school there.

Mrs Cartwright of Okanagan Landing returned home on Monday morning, taking with her her children, Master Frank and Miss Margaret Veray.

Rev. James Lang was a passenger to Vernon on Monday morning.

A very pleasant impromptu picnic party, which would have taken place on the beach had the weather been warmer, was held on Labor Day at the home of Mrs P. Dorland in honor of Mrs Roe of Naramata.

Mrs and Miss Una Williams, who have been visiting Mrs Williams' brother, Mr Sam Murdin, returned to their home in Gladstone, Man., on Tuesday morning.

Mr and Mrs J. H. Clement are enjoying a visit from their sister-in-law, Mrs H. Bartlett of Vancouver.

Miss Whitworth returned from her home in Sardis, B.C., to again take charge of the Trepanier school.

The regular meeting of the School Board was held on Monday night in the board room of the school. After the usual routine business the question of the transportation of the children who live on the hill was taken up. As the government have agreed to pay half the expense it was decided to continue to drive the children home at night.

After the summer holidays the schools re-opened on Tuesday, with Miss Switzer teacher of the high school, Miss Montgomery principal of the public school, and Miss Alice Elliott teacher of the Primary department, and Miss Whitworth in charge of Trepanier.

Mrs George Gray of Summerland came up on Monday to spend Labor Day with her sister, Mrs M. E. McDougald. Mrs McDougald, Archie, and Candace took her home in the evening in Mr Cutbill's car.

Miss M. Macdonald, who has been staying with Mr and Mrs R. Harrington for a month or two, left for her home in Winnipeg on Tuesday evening, going by way of the K.V.R.

Mrs Hogg, secretary of the Ambulance League, sent out 1 doz. suits of pyjamas and 36 prs. of socks last week. She read a very encouraging report at the last meeting of the league, which showed that since the first of June \$164.25 had been raised to swell the funds of the society.

The Women's Institute will hold a Flower Show and general exhibition next Friday afternoon from 3 to 6 p.m. The following extra prizes have been donated by the merchants of the town: Mr J. G. Robison, manager of the Fruit Union, a 49 lb. sack of the best white flour for the best loaf of white bread; Mr H. H. Thompson of the Peachland general store, a large bottle of flavoring extract and a can of desiccated potato selling at \$1.25; Mr Clement, 1 lb. of best tea, 1 lb. of best coffee, and 1 lb. of Bourneville cocoa.

This season 9,000 crates of strawberries were shipped out of the Creston Valley.

Walled Farmer Will to Farmer Bill, The cost of living's high. Says Farmer Bill to Farmer Will, Depends on where you buy.

Why don't you go to Young's, quoth he, There is the place to deal, Than puffed up with prosperity, You'll soon begin to feel.

Hay, oats, and bran, shorts, wheat, and corn, Chopped barley, oats, and wheat, Rolled oats for breakfast in the morn, At prices hard to beat.

And many housewives who have learned Success that "Our Best" flour sends Rejoice to know it has returned To visit once more with its friends.

Young's poultry feed when fed each day, You'll find this is no hoax; Your hens will soon begin to lay You eggs with double yolks.

Why do you wail, why do you weep? Here in our midst, in our own town, The dawning fact comes with a leap, The cost of living has gone down.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns, accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

**PATENTS PROMPTLY SECURED**

In all countries. Ask for our INVENTOR'S ADVISORY, which will be sent free. MATHON & MATHON, 304 University St., Montreal.

### CHARGES CONSPIRACY.

THE CONSIGNING of fruit to the Calgary City Market, or, to be more exact, the comments thereon as made by B.C. Markets Commissioner, J. A. Grant, in his weekly bulletin, have seemingly stirred up quite a controversy that is to sure to discount the marked betterment in feeling of the prairie consumers toward the fruit growers and their problems.

Here is a leading editorial from one of the Calgary dailies, The Albertan:

The Prairie Fruit Markets bulletin is a small paper published by the B.C. Department of Agriculture, horticultural branch. In its last issue it makes an attack upon the Calgary market because of the method of administration. It criticizes the city for sending an agent to British Columbia to solicit produce in that province. It declares that the merchants "are not taking all this lying down, and as the days go by they are getting ready to take up the cudgels in their own behalf."

The spectacle of the British Columbia Government making an attack upon the Calgary Public Market because an agent of that market undertook to get produce from the B.C. fruit growers, is a very unusual one, and is difficult to defend. The B.C. fruit men have secured special favors from the people in the form of increased duties from the Canadian Government. That is not sufficient, and the B.C. Government is making a special effort now to prevent the people of Calgary from getting that fruit in any manner except the most expensive.

It is very difficult to get the viewpoint of the B.C. Government.

But there is no difficulty in getting the viewpoint of the city of Calgary. The B.C. fruit men, with the assistance of certain produce mer-

chants in this city, are attempting to tear down the city market, because the market is trying to reduce the cost of living, and in some mysterious manner the fruit men have secured the assistance of the B.C. Government in this unfair campaign.

This conspiracy to increase prices or limit supply at this particular time, under present conditions, is a very serious matter. The Dominion Government surely will not tolerate this thing for a minute. If it does, then all these food conservation commission organizations are mere jests appointed to while away the time.

Again the News-Telegram under the heading "A Fruit Protest" says editorially:—

The News-Telegram agrees with the Morning Albertan that the B.C. fruit growers and Fruit Commissioner have no business to bleed the people of the prairies. The growers come to Alberta when they want their fruit and their lumber protected by tariff. They plead with tears in their eyes for concessions that will injure the prairie population and so far their requests have met with favorable receptions. But now the Fruit Commissioner makes the blunt statement that he proposes to get every last cent for the growers, and that it is up to the consumers of the prairies to look after themselves. Now, Mr Grant should know that the prairie's denizens are quite capable of looking after themselves.

They are quite capable of getting legislation that will be fair to them and of going into the open market, American or Canadian, for their fruits. We are under no obligation to British Columbia if British Columbia does not feel that it is under obligation to us.

That province's representatives have preached reciprocity of interests for years, but the truth is seeping through, and it will probably cause a change of sentiment in Alberta at last.

We are entitled to buy in the cheapest market, and if Mr Grant tries to blacklist the dealers of this city who avail themselves of this privilege, he will arouse an agitation which he will regret.

Here is still another comment:

The B.C. government is in the strange position of backing a conspiracy to defeat the city market in its effort to secure B.C. fruit for the people of Calgary.

According to the following it would appear that those interested in the City Market intend to carry the matter further.

Commissioner Graves believes that the B.C. fruit men and the B.C. government are in conspiracy with the wholesalers of this city to break the Calgary market. He has sufficient evidence to bring to the attention of food controllers, or some other Dominion public body, which must take action. Unless we are much mistaken, some action will be taken.

### ADVERTISING DOES IT.

It will not do the country merchant much good to tax the mail order houses. A law is wanted that will compel them to stop advertising. That is the way they have built up their business, and without advertising, this great thorn in the side of the non-advertising little merchants, would soon fade away.

### DON'T STOP.

When someone stops advertising, Someone stops buying. When someone stops buying, Someone stops selling. When someone stops selling, Someone stops making. When someone stops making, Someone stops earning. Everybody stops buying. Keep going.

He—(bitterly)—"So I'm rejected, am I?" "She—Yes; but you may come up for re-examination in six months' time."

If you want to Sell, you must Advertise

### A Modern Method Of Preaching The Gospel.

The press is not being neglected as a medium by which religious information may be carried to the public, as the "weekly sermons," the "go-to-church-Sunday," and other publicity campaigns show. Now an organized movement to spread Christianity in non-Christian lands through the newspapers is on foot. It is thus briefly described by the Pittsburg Christian Advocate:

"Inspired by the convictions and sacrifices of a Christian gentleman, who is not a Methodist, the Board of Foreign Missions of the Methodist Episcopal church is now developing a plan to preach Christ through all the newspapers of the world, by furnishing free copy of interesting evangelistic matter, aimed directly at the conversion of the soul. This gentleman offers \$5,000 in case \$50,000 is raised to make a fair trial in Japan, Korea, and China, and at least \$15,000 more, in case \$1,000,000 is contributed by all Christians, to prosecute the work among all nations except the United States. As this work is to be world-wide and exceedingly economical, all lovers of the Lord, in all churches, are invited to contribute liberally to this method of winning the world to Christ. A column in a secular weekly newspaper for a year would cost but little, and would reach a great multitude of readers, many of whom could not be reached in any other way, and would yield great results under the blessing of God."

### A POWERFUL MAGNET.

A young fellow from the country called on Henry Ford in his workshop the other day, and the manufacturer, not knowing exactly what to show him, picked up a powerful magnet and said:

"That magnet will draw three pounds of iron from a distance of two feet. There is no natural object on the face of the earth that has more power."

"I dunno about that, Mr Ford," answered the young countryman thoughtfully, "I know a natural object, wrapped in muslin and frills, that is drawing me every Sunday evening over 15 miles of plowed fields."

### SKILLFUL WORKMEN

If your suit or coat is designed, cut to your own measure and made by workmen who are skilled in their craft, you will not suffer disappointment when you come to wear it.

But how disappointing it is to have clothes sent home to you wanting in those fine touches that tell of work done by those who are skilled in the ways of making fine apparel.

Complete safety is yours if your clothes are tailored by Hoberlin workmen. Only skilled workmen find employment here—from the chief designer—the highest paid craftsman in Canada—down through each and every grade of workmen. Every garment made to measure.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

The Baptist Women's Mission Circle was held at the home of Mrs Macdonald on Wednesday afternoon. A very interesting account of Miss Hatch's work among the lepers in India was read. Refreshments were served at the close.

The Presbyterian Ladies' Aid Society met at the home of Mrs A. Small on Wednesday afternoon.

Mr Joe Morsch was a passenger to Naramata on Wednesday, returning on Sunday morning.

Mr Borden of Vancouver was a visitor in town a couple of days this week.

The Misses Cryderman and Bellgrove, who have been visiting Mrs J. G. Robison, returned to their home in Vernon on Friday morning.

Mrs Layton of Vancouver visited Mrs Jas. Hay this week.

Mrs Inglis, who has been visiting her parents, Mr and Mrs Thos. Powell, returned to her home in Consul, Sask., on Friday. Her mother accompanied her, and will stay for several weeks.

Mr J. S. Moore was a passenger to Penticton on Friday, returning on Sunday.

Mr McPherson, who has been looking after the Gummow lot this summer, returned to Vancouver with his family on Friday. Mrs McPherson's sister accompanied them.

Miss Mary McLaughlan was a passenger to Penticton on Friday, returning on Sunday morning.

Mr George Keys visited Penticton on Friday.

George Robinson took a load down to Penticton to the good roads convention on Friday.

Mr and Mrs Ramsay returned to Peachland on Sunday morning and expect to remain here for a month or two. Mr Ramsay has to undergo another operation on his leg before being discharged.

Mrs and Miss Ray of Vancouver visited Mrs B. S. Brown on Monday. They went on to Kelowna on Tuesday morning before returning home.

Mr, Mrs and Miss Leeson left for Vancouver on Monday morning.

Mrs A. and Mrs C. Town were passengers to Naramata on Monday night, where they intend visiting before Mrs C. Town returns to Vancouver.

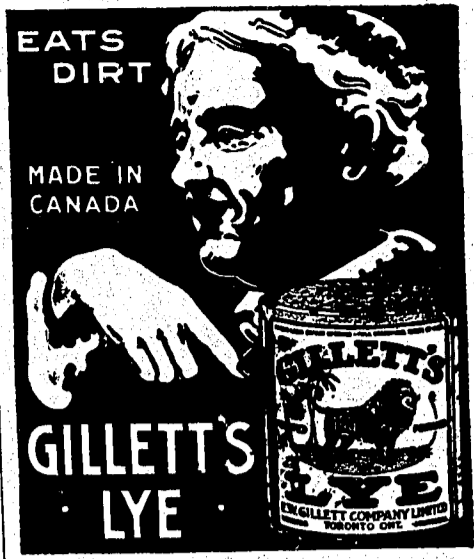

Miss Shaw, who has been visiting Mrs Skinner at Trepanier, returned to her home in Lacombe, Alta., on Tuesday night, going by way of the K.V.R.

The regular semi-monthly meeting of the Ambulance League was held in the reading room on Tuesday afternoon. The secretary, Mrs R. J. Hogg, read the following letter

from Red Cross headquarters:

"I have much pleasure in acknowledging the generous contribution of Red Cross supplies from the Peachland Auxiliary. Each article, including socks and pyjamas, was well made, well laundered, and well bundled, and a credit to your workers. They were amongst the nicest supplies we have yet received."

At the present time food regulations are so much in the air that the following from the Philadelphia Public Ledger on "Protein Foods and How to Pick Them Out" will be read with interest: "Proteus was an old gentleman who, according to ancient mythology, could transform himself at will into a lion, a snake, a tree, water, or whatever else struck his fancy. Hence the term 'protein,' which modern food experts use for describing the substance in food that goes to make muscle and blood, and which assumes a great variety of ostensible forms. Thus, for example, eggs, meat, fish, milk, cheese, and the seeds of legumes (such as beans, peas, cowpeas, soy peas, and peanuts) are largely composed of protein. Suppose that you want an ounce of protein. You can find it in a quart of milk, or in four eggs, or in seven ounces of medium fat meat, or in four ounces of dried navy beans, or in a twelve ounce loaf of bread. The government office of Home Economics says so; and it further states that three and a half ounces of protein a day is a reasonable allowance for a man doing moderate work—a carpenter for instance. The carpenter could get this much protein from one egg at breakfast, half a pound of pork chops or mutton chops at dinner, and three-fourths of a teacupful of baked beans at supper. It is to be presumed that he would eat other things such as bread and butter, which contains protein, but if he ate nothing else he would get all the stuff he needed for the building and repair of his body. Fuel supply for the body engine is a wholly different matter, and is not here considered. Potatoes, cereals, and fats are typical fuel foods. The average woman being smaller than the man, requires less protein. She can get, along very nicely with two and four-fifths ounces of this essential per diem. A child of three or four years will be adequately supplied with it by a quart of milk every twenty-four hours, or a pint and a half of milk and one egg. To get enough protein a family of five persons—father, mother, and three children should have weekly, an equivalent of fourteen quarts of milk and ten and one-half pounds of meat (or fish or poultry, or eggs, or cheese). Every quart of milk used in cooking or otherwise makes it possible to reduce the allowance of meat by half a pound, and every extra dozen eggs by one and one-half pounds. But it should be clearly understood that what is spoken of here is merely the body-building contribution to the diet. For full fuel supply there must be fuel foods in addition. Among the latter, fats, sugar in one form or another, and potatoes and cereals to furnish starch are most valuable. The prime essential, however, is

protein, and the housewife who is anxious to reduce the cost of living for the domestic establishment will choose the kind of food supplies that furnish at the lowest cost and with least waste what of this necessary her family needs."

The Methodist Women's Circle met at the home of Mrs J. N. Elliott on Wednesday afternoon.

### Fruit Box Lack Is Serious.

Olympia, Washington.—That the fruit box shortage is far more serious than was supposed is the announcement made by the state Council of Defence, which has been investigating the matter for the last ten days. Reports reaching Olympia from box makers and the consumers indicate that instead of being a local shortage the fruit box shortage is state and nation wide, and that foreign countries also are short.

The Yakima, Wenatchee, and other fruit sections of Washington, as well as those of Oregon, report a shortage running into the hundreds of thousands. The box shock factories can promise no relief, and next year the situation will be worse, they say. One of the reasons for the shortage, in addition to the logging and lumber mill strike, is the fact that early in the season many eastern concerns bought up large quantities of shooks in this state.

If you want to sell you must advertise.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

### Eastern Apples For Prairies.

Prices Have Already Been Fixed, Says Food Controller.

According to Hon. W. J. Hanna, food controller, who was in Winnipeg this week, Western Canada will obtain its apple supply from Nova Scotia. He stated that the British Columbia crop was 75 per cent. normal. Ontario and Quebec have only 15 per cent. of a normal crop, but Nova Scotia has 100 per cent. normal. The latter province usually exports a large quantity of apples, but this year the crop from the East will be diverted to the West, and the food controller's department has already made arrangements for the distribution of the crop in carload lots to the West. The price also has been fixed, and the wholesalers and retailers will help in its distribution on the basis of the fixed price.

### Grain Crop Totals Huge Sum.

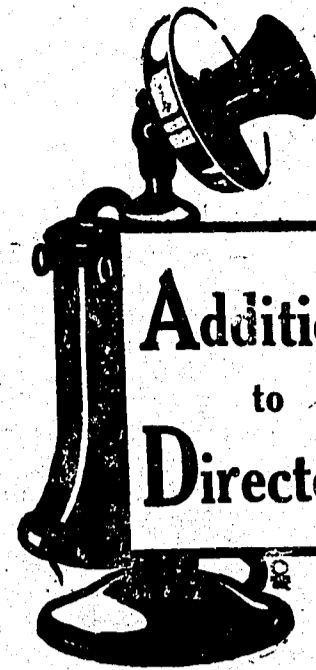

The Winnipeg Free Press estimates the wheat crop of 1917 as follows:

Wheat 214,250,528 bushels; oats 187,028,065; barley 38,781,060; flax 6,611,463.

This estimate is based on an inspection including the three prairie provinces made by the commercial editor and the reports of more than two hundred local correspondents.

The yield of wheat is placed at fifteen bushels for Manitoba; fourteen for Saskatchewan; and twenty-five for Alberta; oats at twenty-five, barley at twenty, and flax at nine bushels for the three provinces. The value of all the grain crops is placed roughly at \$575,000,000, as compared with \$502,000,000 for the record crop of 1915; \$225,000,000 for the crop of 1913; the year prior to the war, and \$136,000,000 for the crop of 1910.

"But isn't your son rather young to join the army?" "Well, he is very young, but, then, he's going to join the infantry."

FRIDAY, SEPTEMBER 21, 1917.

## ASSESSMENTS.

THE QUESTION OF ASSESSMENTS and a thorough revision of the municipal assessment roll was re-opened by the suggestion of the Assessor that a revision of the roll be made this fall, and the proposal of some of the councillors that a board of assessors be appointed to make a new assessment.

That such a revision is necessary is recognized by none better than by the assessor himself, who admits that he has been working on a basis of valuations that is now largely obsolete. The growing demands for a readjustment brought the question prominently before the council last year, and there was much disappointment when it became known that the assessor's roll when closed was not materially altered from former years, other than the making of a general reduction of valuations of ten per cent. in order to protect the municipality from the cost of appeals.

For the past two or three years the war and the conditions which it has brought about have been advanced as excuses for not meeting the demands for a totally new assessment. Though the war still continues this can scarcely longer be advanced as a sufficient reason for delaying further the readjustment of valuations, etc., required.

§ § § § §

Not only is readjustment of relative valuations of town lots needed, particularly as between the two townsites, but the arbitrary valuing of each and all (generally speaking) fruit or farm lots under the irrigation system at a flat figure per acre should be superseded by the more just method of ascertaining the relative values on the basis of producing ability. A careful survey of each lot will show the justice of making allowance in many instances for broken lots, those with hillsides, ravines, etc., while it may also be learned that some have been exempted in part from water rates on such land that should be producing something, if not tree fruits, and while of less value should be paying a full water rate.

While this assessment is being made a thorough revision of the valuations on improvements should also be made, which might well be extended to include a census of live stock, and even of the population, a question over which there is much difference of opinion, and a matter on which our municipal office should be better informed.

That all this work, spread over such an extensive area as is contained within our municipal limits, should have to be taken by one man would be unreasonable. Mr Logie gave it as his opinion, when asked at the last sitting of the council, that the district might, perhaps, be divided into sections, but that the Act made no provision for a board of assessors to fix the valuation of each property. If the act requires that there be only one assessor it is time the act was amended, and if such is the law there is surely a way around the difficulty which would accomplish the desired end. There is no doubt that a valuation made by a board would be more generally acceptable than if made by the best man available, particularly so if that man were one of the board.

## Apple Sales in the Wenatchee Valley

Wenatchee, Wash.—The apple crop of the Wenatchee Valley is moving into dealers' hands. In the early stages of 1917, numerous growers sold at \$1 per box orchard run. Gradually as the season advanced the orchard run price advanced to \$1.15, \$1.25, and a few days ago two sales, were reported at \$1.35 orchard run.

One grower with two five acre tracts sold the crop from one tract to the Pacific Fruit & Produce Co. at 2c per pound, all grades, and the fruit taken just as it comes from the tree without packing or boxing. This is a new way of selling apples here.

The by-products plants of the Skookum Fruit Products Company is now under construction. When completed it will be 100 feet long, 37 feet wide, and two stories high. John F. Sugrue, head of the organization, says he expects to have the building completed by the first of October. The plant will have four kilns, with a total capacity of ten tons daily.

## Kelowna Producing Heavily.

The Kelowna district is producing heavily this year in all lines, it being estimated that there will be alone over 9,000 tons of onions, beside an increased production of tomatoes and fruit. The labor situation is acute, hampering the gathering of the crops, but this is being relieved in some measure by the timely arrival in the district of a number of girls and women from the Coast.

## Training Centres Have Been Named

Vernon will be one of the eleven centres of mobilization under the new Military Service Act.

The list comprises Fernie, Fort George, Grand Forks, Hazelton, Kamloops, Nanaimo, Nelson, New Westminster, Prince Rupert, Revelstoke, and Vernon. At all these places will be established exemption tribunals, and men called up for service in the surrounding localities will report at a central station at each town.

Those who are declared eligible for the draft armies will be congregated together and, under the supervision of a military officer, delegated from Victoria headquarters, will be given transportation to either of the two big training centres—Victoria or Vancouver. Those of the eleven centres that are to supply drafts for Victoria, and likewise those for Vancouver, will later be designated.

It is believed at headquarters that the men taken by the first draft in this province will not number more than 7,000 at the outside.

Advertising is, broadly speaking, merely expression with a purpose, community expression, church expression, trade expression—but always with a purpose. Advertising is direction with a destination. It is aim, with a target. It is a message with someone to receive it.

This summer a farmer at Larkin, between Vernon and Armstrong, threshed 24 tons of wheat from 28 acres.

## Kelowna Fair Was Success.

Kelowna this month held her twenty-second annual fall fair under favorable auspices, good attendance being a marked feature, particularly on the last day, notwithstanding the exceptionally busy season. A good display of local produce, including fruit, vegetables, and canned goods was to be seen. The ladies were to the fore with excellent exhibits of fancy work, cooking, and home-cooking. Great interest was taken in the stock competition for boys and girls.

## The Kaiser's Dream.

The following, written by a soldier and published in an eastern Canadian paper is printed by request:

There's a story now current, though strange it may seem,  
Of the great Kaiser Bill and his wonderful dream.  
Being tired of the Allies, he lay down in bed,  
And amongst other things he dreamt he was dead,  
And in a fine coffin was lying in state,  
With a guard of brave Belgians, who mourned his fate.  
He wasn't long dead till he found to his cost,  
That his soul, like his soldiers, had gone to be lost.  
On leaving the earth to heaven he went straight,  
And arriving up there gave a knock at the gate,  
But St Peter looked out, and in voice loud and clear,  
Said, "Begone, Kaiser Bill, we don't want you here."  
"Well," said the Kaiser, "that's very uncivil,  
I suppose after this I must go to the devil;"

So he turned on his heel and off he did go  
At the top of his speed to the regions below.  
But when he got there he was filled with dismay,  
When waiting outside he heard Old Nick say  
To his imps—"Now, look here, boys, I give you a warning,  
I'm expecting the Kaiser down here in the morning,  
But don't let him in, for to me it's quite clear,  
He's a very bad man, and we don't want him here,  
If once he gets in there'll be no end of quarrels,  
In fact, I'm afraid he'll corrupt our good morals."

"Oh! Satan, dear friend," the Kaiser then cried,  
"Excuse me for listening while waiting outside.  
If you don't admit me, where can I go?"  
"Indeed," said the devil, "I really don't know."  
"Oh, do let me in, I'm feeling quite cold,"  
Said the Kaiser, quite anxious to enter Nick's fold,  
"Let me sit in a corner, no matter how hot."  
"No!" said the devil, "most certainly not.  
We don't admit people for riches or pelf,  
Here are sulphur and matches, make a hell for yourself."  
Then he kicked Wilhelm out and vanished in smoke.  
And just at that moment the Kaiser awoke.  
He jumped out of bed in a shivering sweat,  
And said, "Well, that dream I shall never forget  
That I won't go to heaven I know very well,  
But it's really too bad to be kicked out of hell."

## Flour Prices Now Stable.

Millers Fix Prices for Various Sections.

All the big Canadian milling companies have agreed on a price for flour and also on certain changes in the matter of delivery. The millers state that as no fixed price for flour has been made in Canada, and as the price for wheat is identical in both Canada and the United States, they have made their prices as nearly in accord with the American prices as possible. The American law limits the profit on flour to 25 cents per barrel, and on feed to 50 cents per ton.

The cash price in car lots for Royal Household, Five Roses, and Purity basis, per barrel of 196 lbs., and 'in' 98-lb. cotton or jute sacks, is as follows for British Columbia: East of and including Golden, Cranbrook, also Kootenay Central Railway, \$10.80. Revelstoke, Nelson, and common points, \$10.90. British Columbia coast, Okanagan Valley, Kettle Valley, Grand Forks, Midway, Phoenix, and Greenwood, \$11.00. Vancouver Island, \$11.05.

## LOCAL TAX USELESS.

It will not do the country merchant much good to tax the mail order houses. A law is wanted that will compel them to stop advertising. That is the way they have built up their business, and without advertising, this great thorn in the side of the non-advertising little merchants, would soon fade away.

## Sky-high Live Stock Prices Will Continue

Supply is Short, and Europe's Demand will be Tremendous.

Twenty dollars a hundred for live hogs in Chicago, and very near that figure on the Canadian markets—when will the ascension stop? Butcher's cattle are selling around \$11. Never before has the Canadian farmer received such prices, and, although feed prices are high, they are more than offset by those for live stock. What is more, high prices are likely to continue for years after the war.

"The hog supply of the United States is 3,000,000 less than five years ago," recently said Dr. J. G. Rutherford, the leading authority on live stock subjects. "In Canada we have such a shortage of hogs that it is quite impossible to supply our own demands from our own hogs, and large quantities of American pork, ham, and bacon are being shipped into our country. I feel satisfied that hogs, provided fair play is exercised on the market, will maintain a high figure for many years to come."

As for beef cattle, he stated: "There is a tremendous shortage of cattle all over the world. There is an extraordinary demand. The number of cattle in the United States has decreased by some 7,000,000 in the last nine years, and that with many more people to feed. We have, in Canada, the same diminution going on, although we lack the corresponding increase of meat-eating population. There has been a tremendous waste in the slaughter of calves."

"After the war, not only Germany, Austria, Italy, and Belgium, but every other country in Europe will have been drained of its supply of cattle, and there will be a tremendous demand, and the prices will soar far beyond any figures that any of us have ever seen."

## The Future Of The Horse

As far as the light-legged horse is concerned, he is practically doomed. The motor car has taken his place. Although still of some use in courtship, he will go out of business as soon as the self-guiding car comes on the market.

For a number of years the heavy horse will be in demand. He is keenly in demand at the present time. Prices were never so high. After the war is over, there will be a great demand for them in the countries now ravaged by war.

I have in my possession an official publication from the Belgian Government giving many harrowing details as to what happened to the Belgian horses. The brood mares and foals running in the fields were slaughtered, being often used as targets by the German soldiers. One pure bred stallion, valued at \$10,000, was burned up in his box while the groom and his wife and children were forced on their knees to watch the agonizing death of the noble animal. Then, the Germans realized that they had made a mistake in destroying these valuable horses, and began to ship them to Germany. They sent their experts to select the best individuals, giving to the Belgians for payment orders on the Republic of France, payable at Paris. These orders were in German, and were often for the most trifling sums. I have had interviews with representatives of all the large cartage companies in our cities, and they say that, so far as they have gone in trying out the motor trucks, they have found the horse much more satisfactory and economical. Whether the development of the motor truck, which, until comparatively recent years, did not receive as much attention as that of the passenger car, will be taken up with energy enough to make it sufficiently economical to supersede the horse, I cannot say. The heavy farm tractor is a thing of the past. The light farm tractor has come in to stay. So far as the horse business is concerned, a man can continue to breed heavy horses without any risk of market failure for at least ten or fifteen years to come.—Dr. J. G. Rutherford, before the Western Canada Irrigation Association.

Northern Spy apples are selling at \$1.00 a box f.o.b. shipping point. Other No. 1 winter apples bring \$1.70.

# The Summerland FALL FAIR

and Flower Show

IN THE PARK

Wednesday & Thursday

October 24 & 25

Showing some of their  
AT THE FAIR THIS YEAR.

There will be a **BIG RING** for Stock parade  
which will also help in the Judging.

Come along and help boost Summerland, and show what can be raised in the Stock line.

An **AUCTION SALE** of **LIVE STOCK** will be held on Ground on Second day.  
Entries for above solicited. If you have anything for sale, let the Secretary, or J. E. Phinney, Auctioneer, know about it.

This will be the last Fall Fair in the Province this year, and is

**OPEN to ALL in the Province**

Exhibits from Peachland, Naramata, Kaleden, Keremeos, Kelowna, Westbank, and Penticton  
Particularly invited.

**WOMEN'S INSTITUTES, SECTION**

The Summerland and West Summerland Institutes will hold, in conjunction with the Fair, a combined Exhibition of Flowers, Fancy Work, Cooking, &c.

Members of above Institutes, and other ladies, are urgently requested to enter exhibits. Kindly communicate with either the Secretaries, Mrs. JOHN TAIT or Mrs. J. J. MITCHELL.

**Peachland Doings**

A Weekly Chronicle Furnished By Our Local Representative.

Mr. and Mrs. Bowman Rumsey, Alta., spent a few days in town this week visiting the Fulton's, Hohensee's, and Peneke's.

Mrs. A. Town has returned from Naramata where she has been visiting Mrs. J. M. Robinson for a couple of days.

Miss Rose Law was a passenger to Penticton on Wednesday where she has gone to visit her brother of the Penticton Herald staff.

Mr. W. J. Moore, Mr. D. Ferguson, Mrs. W. D. Miller, Mr. and Mrs. C. Keating, Mr. A. Town, and Master Gordon, Mr. Seth Davidson, were passengers to Kelowna last week to take in the fair.

Mr. and Mrs. J. Wright, who have been visiting in Kelowna for a couple of days, returned home on Thursday night.

Mr. R. E. Buxton and Mr. Charles Reid of Moose Jaw spent a few days here visiting Mr. and Mrs. George Keys this week. They went on to Hedley on Friday night where they expected to visit for a short time before returning to Moose Jaw.

Mrs. Burkitt Robinson of Westbank came down on Thursday to take in the Flower Show on Friday, going on to Vancouver on Friday night.

Mrs. Hughes and her son Ira of Naramata came up to take in the Flower Show. While here she visited Mrs. Hugh McDougall, Mrs. P. Dorland, and Mrs. Morsch.

Mrs. R. C. Lipsett of Summerland and her sister-in-law, Mrs. Norris of Vancouver, came up on Friday morning to take in the Flower Show. Mrs. Norris acted as one of the judges.

Mr. W. R. Bartlett of Naramata came up and spent Friday on his fruit lot, returning home at night.

Mr. Clarence Duncan of Westbank came down on Friday to attend the Flower Show and to visit his aunt, Mrs. Hugh McDougall, returning at night.

Mr. Stanley Brown of the K.V.R. staff at Penticton motored up on Friday and spent the day with his parents here returning at night.

Miss Vera Hay was a passenger to Kelowna on Saturday, returning to her work there.

Mr. F. Nuttall came in on Saturday to attend the bridge party on Saturday at Mrs. Tewart's, remaining until Monday morning.

Mrs. Manning of Vernon came down on Saturday night to spend the week-end with her husband and sons at the lumber mill.

Mr. James Michael and George Robinson motored to Penticton on Saturday, returning the same day.

**Women's Institute Flower Show and General Exhibition**

Great interest was shown in the Flower Show last Friday afternoon, and the large number of people who were present seemed to greatly enjoy the display.

Mrs. Bennett, Mrs. Moore, Mrs. Robison, Mrs. Clarence, Mrs. Smalls, and Mrs. Sanderson, who were on the decorating committee, put in a lot of work on Thursday, for which they were well repaid, for the hall looked very attractive with its garlands of hops and Virginia Creeper, and bunches of Mountain Ash berries. The display of flowers was good, although so late in the season, and the house plants massed against the wall made a fine background for the cut flowers. There were roses, dahlias, sweet peas, cosmos, salvia, etc.

There were some very handsome crocheted yokes and embroidered centre pieces in the fancy-work section, and the boudoir caps displayed were exceedingly dainty. The one who won first prize for the best collection of fancy work showed a great variety of pretty things, among them being a tray made of matting, a set of d'oylies with tatted edge, strings of home-made beads, tatted caps lined with silk, and knitted wash cloths and kettle holders. Plain sewing was also exhibited, and the patches were so neatly done, and the work shirts, which were made entirely by hand showed great care and patience.

The display of home cooking did credit to the ladies of the district for the good things shown looked very appetising. There was great competition in bread, and the tarts, biscuits, and cakes made your mouth water. The canned fruit and vegetables showed that the ladies were on the committee to help win the war. The judges must have had great difficulty in making the awards, for all the exhibits looked worthy of a prize. There were canned beans, corn, peas, carrots, tomatoes, and beets, and a good variety of fruit, pickles, and jellies.

The display of fresh fruit and vegetables was not large, but it was good, and the potatoes were fine specimens, without a sign of scab. The children's section was well represented. The bouquets of wild flowers and autumn leaves and berries were beautiful, and added their blaze of lovely colors to the flower section. The little table made by one of the boys would delight any little girl's heart, and the chipmunk trap made by another boy showed a great deal of ingenuity on his part. It was made to catch chipmunks but it has been used to catch mice with great success. Miss Alice Elliott, teacher of the Primary Room, displayed some of the work done by the children in the school. There were little baskets made of paper, bright-colored woven paper mats, drawings, etc., all done so carefully and neatly that the display was a credit to both teacher and pupils.

Mrs. Burkitt Robinson of Westbank showed a very interesting collection of souvenirs sent from France and Belgium by her husband. Mrs. Hugh McDougall displayed a pestle and mortar which was over a hundred years old. Mrs. J. Miller showed two immense platters which were one hundred and thirty-five years old, and one of them had a depression at one end for the gravy. Mrs. J. B. Robinson also showed a very interesting old plate that was over a hundred years old. Mrs. O. Keating was in charge of the refreshment department, which

was located in a near-by store, and was assisted by Mrs. Needham and Mrs. Howells. That it was well patronized was shown by the empty shelves and freezers at closing time. The proceeds were to be devoted to patriotic purposes. Owing to the absence of the secretary, Mrs. J. B. Robinson, the prize winners cannot be announced.

Mr. O'Neil was a passenger to Vernon on Wednesday morning.

Mrs. Garnett of Summerland and Mrs. Will Hay of Vancouver, who has been helping the Garnett's to take off their fruit crop, came up on Sunday morning to visit Mr. and Mrs. James Hay, Mrs. Garnett going on to Vernon on Monday, while Mrs. Wm. Hay and Mrs. Jas. Hay visited Kelowna on Tuesday.

Miss Janet Sutherland and Miss Ruth Blair came up on Sunday morning from Summerland and spent the day with Miss Kathleen Henderson, returning at night.

Mr. H. Hardy was a passenger to Vernon on Monday.

A very pleasant party of friends met at the home of Rev. and Mrs. W. J. Scott on Monday evening in honor of Mr. Harold McCall, who is leaving on Thursday for the Prairies, where he will visit old friends. His many friends are glad he will be returning to Peachland again.

Mrs. Will Atkins and Mrs. K. Mitchell have rented Miss Dimock's cottage for the winter and moved in on Monday.

Mrs. J. B. Robinson and Mrs. W. Douglas were passengers to Vernon on Tuesday morning to attend the conference of the Women's Institutes, which is being held there.

Mr. W. J. Robinson of Summerland spent Tuesday in town in the interests of the company.

**Council Appreciates T. Powell's Services In Water Enquiry.**

At the regular meeting of the council last Wednesday evening in the Council Chambers it was decided to hold a Tax Sale of the unredeemed lots on Saturday 29th inst. at 2 o'clock.

The government was asked to cut a trail to Brenda Lake for the purpose of taking in supplies necessary for the storing of water.

The following resolution was unanimously passed: That this council desires to express its sense of obligation which the people of the district are under to the chairman of the Water Committee. Mr. Thomas Powell presented the case of the district before the Water Commission in a most efficient and

painstaking manner, and, whatever the outcome of the commission's labor may be, we feel the gratitude of the community is due to the chairman of the Water Committee.

Mr. H. Lownd of Vancouver came in on Monday night to take Mr. Harold McCall's place in Mr. H. H. Thompson's store.

**Fixing Apple Prices**

The Fruit and Vegetable Commission has advised the Food Controller, after a serious study of the situation, that a supply of apples can be secured at a fair cost without the necessity of setting prices to the producer, and that it is not necessary to take over the apple crop to secure distribution. The Food Controller will exercise supervision over its distribution through ordinary channels of trade on a fair and equitable basis, and will cooperate in the matter of traffic arrangements.

Mr. R. Robertson, formerly head of the Okanagan United Growers, is one of the members of the Fruit and Vegetable Commission.

This official announcement disposes of a factor which has caused a great deal of uncertainty in the apple trade, and now that this has been settled there is sure to be a quickening of activities in the buying and selling of the king of fruits.

**WATER NOTICE**

**STORAGE.** TAKE NOTICE that Summerland Lumber Co., Ltd., whose address is West Summerland, B.C., will apply for a licence for the storage of 350 acre-feet of water out of Pope Creek, also known as Meadow Valley Creek, which flows southerly and drains into Trout Creek, about half-mile west of Faulder Siding, K.V.R.

The storage-dam will be located at unnamed lake about 2 miles west of Lot 3761. The capacity of the reservoir to be created is about 350 acre-feet, and it will flood about 80 acres of land. The water will be diverted from the stream at a point about 2,000 feet north of the north line of Lot 2558, and known as Weaver Lake, and will be used for irrigation purposes upon the land described as Lot 2558 Osoyoos Division of Yale District.

The licence applied for is to supplement a right to take and use water as per Record No. 1046.

This notice was posted on the ground on the 13th day of September, 1917.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is Sept. 14th, 1917. SUMMERLAND LUMBER CO. LTD., Applicant.

### Summer Pruning The Young Apple Orchard.

By E. F. Palmer, B.S.A., Director Horticultural Experiment Station.

At the Horticultural Experiment Station, Vineland, Ontario, an experiment in the pruning of young apple trees has been under way since 1914. The following is a brief description of the experiment and a statement of the results obtained to date:

The apple orchard at the experiment station, in which the pruning work is being conducted, consists of 646 trees, including 170 trees of standard varieties: Hyslop, Spy, Greening, Baldwin, King, Hubbardston, Cranberry, Jonathan, and McIntosh, and 476 trees of fillers, Dudley, Duchess, Wagener, Wealthy, and Ontario. The orchard was planted in the spring of 1911, and the pruning experiment started in the spring of 1914. Three systems of pruning are being followed—winter pruning, summer pruning, and little or no pruning.

**WINTER PRUNING**—These trees receive the usual treatment as practised in Ontario, being severely cut back and thinned out in March or April. The object is to form a framework that is pleasing to the eye, and at the same time will carry a maximum load of fruit without damage when the tree comes into bearing.

**SUMMER PRUNING**—The trees are well thinned out in August and cut back only enough to keep the trees within bounds, which usually involves simply pinching out the terminal buds from the higher branches. The object is as much as possible to admit a maximum of sunlight and air to develop as many fruit buds and fruit spurs as possible, but at the same time not to sacrifice the shape of the tree any more than is necessary. Early bearing is the object in view.

**LITTLE OR NO PRUNING**—These trees receive no pruning whatever except that a few cross and broken or otherwise injured limbs are removed. They are left as much alone as is conveniently possible.

Careful records are made of the size and vigor of the trees, blossoming dates, number of fruit spurs and fruit set, quantity of fruit harvested, and comparative size, color, and keeping quality of the fruit.

#### SUMMARY OF FRUIT PRODUCED, 1916.

Method	No. of Trees	Total Weight of Fruits	Total No. of Fruits	Avg Weight of Individual Fruits
Unpruned	207	3,260 lb.	14,416	.2261 lb.
Winter pruned	228	227 "	781	.2906 "
Summer pruned	209	1,820 "	7,169	.2538 "

As will be readily seen from a careful study of the above table, the results to date are very uniform throughout. The summer-pruned and unpruned trees were loaded with fine marketable fruit both in 1915 and 1916, while the winter-pruned trees, with the exception of two or three of the filler varieties, have borne practically no fruit. (In 1915, the winter-pruned trees bore no fruit, the summer-pruned trees 127.7 lb., and the unpruned trees 209.4 lb.) There appears to be no doubt that summer pruning will bring the young orchard into profitable bearing much quicker than the plan usually followed of heading back severely each year. The unpruned trees, of course, have given similar results, but due to this lack of pruning the trees are not in as good condition for future bearing. They are more straggly, and have too many branches, thus not allowing as free a circulation of air or as much sunlight as is desirable for the control of insect pests and diseases and the production of the best quality of fruit.

#### AVERAGE DIAMETER IN INCHES OF TRUNKS OF TWO STANDARD AND TWO FILLER VARIETIES.

Variety	Unpruned	Winter Pruned	Summer Pruned
Wealthy	2.267	1.967	2.130
Duchess	2.093	1.703	1.942
Baldwin	2.369	2.062	2.337
Greening	2.489	2.052	2.393

The evidence presented in the above Table is fully as marked as in the previous table, and is again strongly in favor of the unpruned and summer-pruned trees. It is of interest also to note that the difference between unpruned and summer-pruned is quite marked, in the case of the earlier-bearing smaller-growing varieties, Wealthy and Duchess, while in the case of the later-bearing, larger-growing varieties, Baldwin and Greening, it is comparatively small.

The difference in the average diameters of the trunks in the three systems of pruning is, of course, correlated with differences in the general size and vigor of the trees.

### Says Canada Has Surplus Potatoes

Desires American Market Opened.

Canada has more potatoes than she knows what to do with. This was stated in the debate in committee of the House precipitated by a motion by Mr Carvell of New Brunswick, that they be put on the free list. Mr Carvell said that the surplus this year would be about 10,000,000 bushels. The crops, he said, were good all over the country.

During the fiscal year just passed, he said, out of 568,000 bushels of potatoes imported into Canada, 567,769 bushels came from the United States. In the same period 2,000,000 bushels of potatoes were exported from Canada to the United States, where they had to meet an ad valorem duty of 10 per cent. Were potatoes put on the free list in Canada, Mr Carvell argued, they would enter the United States free of duty, and half a million dollars would be saved to Canadian farmers.

#### NO MARKET NOW.

In years when the crops were below the standard in Ontario and Quebec, the Maritime Provinces were able to ship some of the surplus to these two provinces. This year they would be unable to do so because both Ontario and Quebec had a surplus. The only market was the United States.

Under the War Measures Act, said Mr Carvell, the government, by an order-in-council, had put wheat and wheat products on the free list, why should not it meet the problem in the Maritime Provinces by doing the same with potatoes? The farmers of the east were entitled to as much consideration as those of the west. If found necessary at some future time, the order-in-council could be repealed.

### Russian Treating Wounded German.

A Russian Red Cross man attending a wounded German soldier who has been struck by part of a bursting shell in one of the bloody engagements on the Eastern Front.

### Not Taking Any Chances.

Nursery Stock Importation Regulations

Some changes in the regulations in regard to the admission of nursery stock to the province have been made by the Dominion Government. The season for the admission of nursery stock opens on October 1. Under the new regulations all shipments of nursery stock destined to points in British Columbia, subject to fumigation or inspection, shall be forwarded in bond to Vancouver for fumigation and inspection at that port. Nursery stock subject to fumigation or inspection shall not be included in cars, boxes, bales, or other containers, with plants that are exempt from fumigation or inspection, but shall be shipped in separate containers.

The port by which it is intended that nursery stock subject to fumigation or inspection shall enter Canada shall be clearly stated on each car, box, bale, or other container, which shall also bear a declaration of the nature of the contents. All shipments made in accordance with these regulations will be entirely at the risk of the shippers or consignees, the government assuming no responsibility whatever.

Stock referred to as exempt from fumigation or inspection consists of herbaceous and greenhouse-grown plants, including roses in foliage, which have been grown in pots up to three inches in diameter, bulbs and tubers. Such exempt stock, however, is subject to inspection under provincial regulations, but no inspection fee is charged.

All species and varieties of currants and gooseberries (ribe and grossularia) are included with other species of nursery stock that are prohibited from entering Canada, for reason of the possibility of currant or gooseberry bushes carrying the pine blister rust, a disease very disastrous to species of the five-leaf white pine, and to safeguard against the currant bud mite. The prohibition of currant and gooseberry bushes into Canada need not necessarily work a hardship, owing to the fact that there is already sufficient of this stock within the Dominion from which to propagate.

#### CRESTON'S APPLE CROP.

Creston.—The latest revised estimate of the quality of the Creston Valley apple crop this year is that it will run at least 35 per cent. No. 1s, 40 per cent. 2s, and 25 per cent. 3s, and at present the local union is unable to keep up with the orders for them.

Returns are now in for the first car lot that went out to Frank, Alta., about three weeks ago, loaded largely with Transparents that had some trouble coming up to No. 3s of this variety a year ago. These will bring 85 cents a box f.o.b. This figure is interesting, and decidedly encouraging, when it is remembered that the 1916 price of Transparents of the three grades was not higher than 65 cents.

#### A LAWSUIT.

A suit is in progress this week at Vancouver between the Okanagan United Growers and the Graham Evaporator Company. Suit is being brought by the Okanagan United Growers for failure of the company to take delivery of vegetables contracted for last year, while the company has entered a counterclaim for damage through loss by frost. W. H. D. Ladner is acting for the Okanagan United Growers, and H. DeBeck for the Evaporator Company. They went down to the Coast on Sunday, as did also Capt. Mutrie, and Secretary McDowell of the Okanagan United Growers.—Vernon News.

#### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.  
N.B.—Unauthorized publication of this advertisement will not be paid for.

## Offering Five Dollar Bills

Agricultural Association gives Opportunities for Young Folk to Win Prizes.

Thirty Dollars in Cash for Amateur Apple Packers.

Other Items of Interest on Coming Show.

There will be an opportunity next month for some of our boys and girls to get some "easy money" at the Fall Fair. In Class 12, a prize of \$5 cash is offered for the best orchard box of potatoes, while \$2.50 will be given to the exhibitor of the second best. It is known that a number of our young folk have been growing potatoes that cannot be outclassed by those grown by their seniors, and some of these young people stand a good chance of taking the money, if they enter their potatoes. Only one orchard box full is necessary.

Another instance in which the young folk have equal chances with the grown-ups is in the plate exhibits of potatoes. Look up the prize list. There are other chances to win cash prizes if you will look through the list.

Thirty dollars in cash has been donated by the staff of the Experimental Station as prize money for three-box entries of winter apples. Each entry of three boxes must be grown on the property of the exhibitor and be packed by the grower or a member of his family. In no case may they be packed by one who engages as a packer. This debars the professional and makes it easy for the young folk to capture the first, second, or third prize of \$15, \$10, or \$5.

An addition to the prize list will be noted in the Fair advertisement in this issue. There are many good saddle horses in this district. The number of entries should be large.

We are informed that, by an oversight, no place was made for crab-apples in the prize list. Secretary Tait assures us that a class will be made for them, and advises all who have good crabs to save some for the show.

The packed fruit contest for packing school pupils is always one of the most interesting features of the show. All pupils who made 75 per cent or over at the packing schools held last winter here and at Peachland, Naramata, Penticton, and Keremeos, are eligible. No entry fees are required. Each contestant must enter three boxes of standard apples of three or fewer varieties. All pupils who score a certain percentage at the show will be given their certificates of merit, these entries being considered by the Department of Agriculture as the final proof of proficiency attained at the packing school.

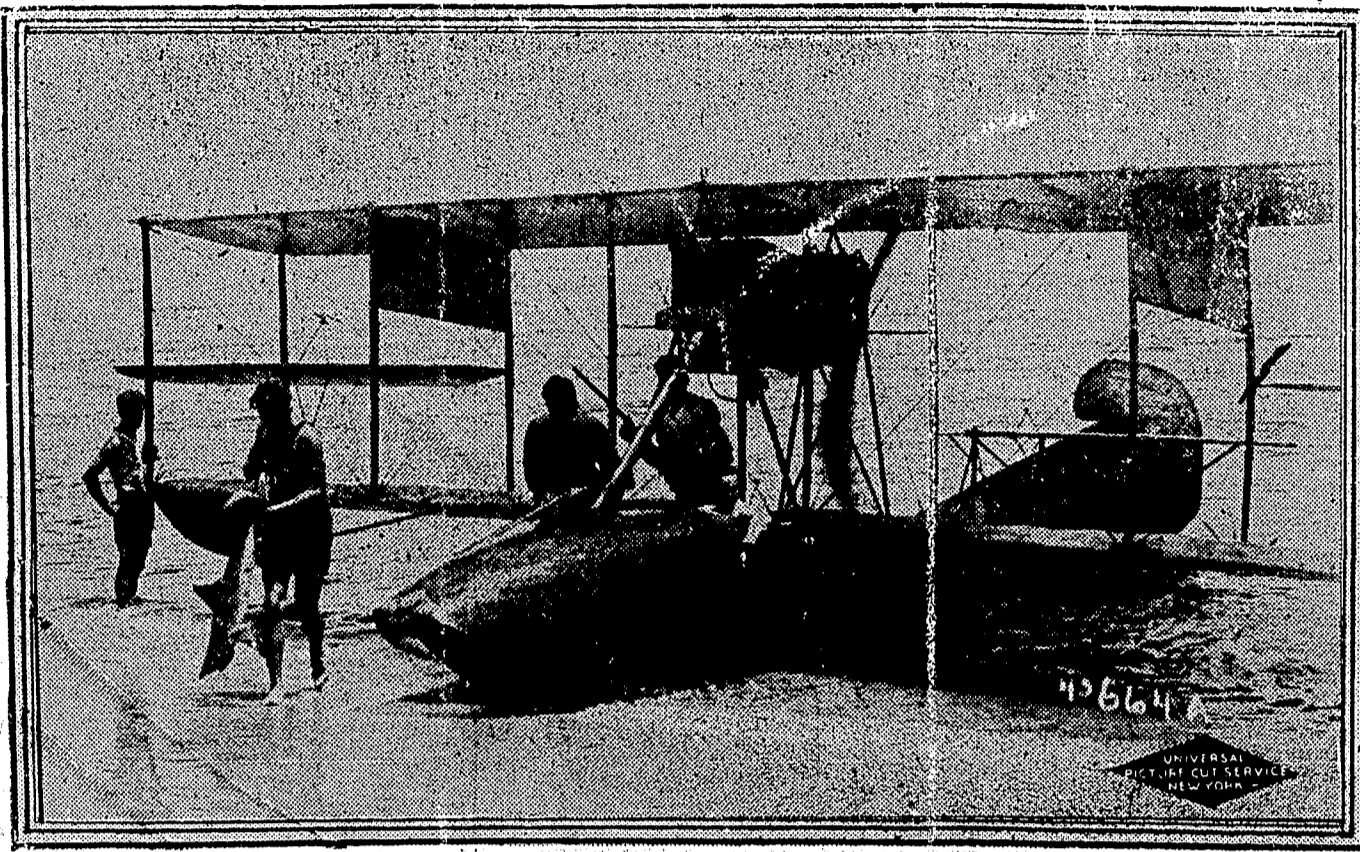

The Women's Institute sections are not confined to the local Institutes as is thought by some. Any lady in the province may enter exhibits upon becoming a member or paying the entry fee.

## Fined Five Dollars and Costs.

A case of considerable local interest to Peachland and Summerland is to be heard at Kolowna to-day. A charge was laid against James Michael of Peachland by district road foreman T. J. McAlpine of obstructing the lakeshore road and refusing to remove the obstruction. Mr Michael has been getting out logs on the hillside and drawing them to the lakeshore. To do so he has to cross the road. It is said that he has been dragging them across, and that, while this method is forbidden by law, the foreman would have overlooked this had he not, as is alleged, refused to keep the accumulation of earth removed from the roadway. The dispute between the road foreman and the ox-road foreman will be settled in court to-day.

A telephone report from Kolowna states that Mr Michael was fined five dollars and costs.

## A British Seaplane

Just returned from a fight with German raiders.

## Hotel Penticton Destroyed by Fire

Fire broke out in the Hotel Penticton at 10.30 o'clock on Monday night, and although the strenuous work of the fire department resulted in saving the shell of the building, the entire hostelry was completely gutted and contents ruined. The Hotel Penticton was the oldest one in Penticton, in fact the original structure was one of the first buildings to be erected on the townsite. The hotel was managed by Mrs Sarah J. Barnes, a widow, whose husband purchased the property in 1906. Mr Barnes died in 1911, since which time his widow has managed the estate. The hotel property and furnishings were valued at \$35,000 and was insured for \$10,000. Nothing was saved but a few articles of furniture and some clothing.

## Apples For Export

Summerland apples will be eaten in Japan and China as well as in New Zealand and Australia.

A small shipment of apples was sent from here by the Summerland Fruit Union to Tokio, and another to Yokohama, Japan, and on Monday the Union will start a car of apples rolling for China.

Preparing apples for export has been a feature of the week in local packing houses. Only certain few varieties are exported, and they have to be packed in boxes of different dimensions from the box now in general use for home trade.

In all there will be about four thousand boxes of Summerland apples in the next steamer sailing from Vancouver to New Zealand. Two thousand boxes have been sent by the Union. The Stewart Fruit Co. and A. H. Steven are also contributing to the same cargo.

Naramata and Peachland, as well as other points in the Valley, will be represented in this shipment billed to New Zealand.

## Mentioned In Despatches

Miss Grace McCullough, a former Summerland girl, and now a nursing sister at Saloniki, has for the second time been "mentioned in despatches." Miss McCullough went from here to Vancouver where she trained in the Vancouver General Hospital, and enlisted for service overseas in the same unit as did Miss Blott, also of Summerland. It is understood that her second honorable mention was in connection with the great fire in which a large portion of the city of Saloniki was burned.

Capt. Otto DeMuth is another to receive honorable mention, for the second time or oftener, and we are informed that he has been twice decorated for bravery. Capt. DeMuth had just graduated in medicine from McGill when war broke out, and he enlisted in the east. The most recent mention is for attending to the wounded on the field under particularly dangerous conditions.

## Buys Elsey Home

Another Family to Settle Here

An important real estate sale was made this week when the H. H. Elsey home became the property of Mr James Thompson of Kamloops. The purchaser is a brother of Mr Joss. Thompson of Trout Creek Point, and with his wife has been visiting at the home of his brother. Feeling that he would like to make Summerland his home he was shown over the district, and finally selected the Elsey property as the one that suited him best, and, after negotiations, the purchase was made. The price paid, while not stated, is said to give no suggestion of any lowering of local real estate values, but rather the reverse.

We understand that the Elsey family have no intention of leaving Summerland, but being asked to put a price on the property Mr Elsey did so, resulting in a sale, which was made through Mr F. D. Cooper.

Mr and Mrs Thompson, with their four children, and Mr Thompson's mother, are expected here in October to take possession.

## Wounded Soldier Coming Home

Sgt. Frank Hayward is now on his way across the continent and is expected to reach here early next week. He arrived in Halifax from England early this week, and wired from there that he was homeward bound.

Sgt. Hayward was among those who were wounded in the famous Vimy Ridge engagement on Easter Day, and has since been in hospital. It is not known here whether he has been given his discharge or is only coming home on sick leave.

## Tells How He Was Gassed

In a letter just received by his mother, Harvey Phinney tells of his being gassed. He was just returning with others to the dug-outs during the night of Sept. 4th, when "Old Fritz shot over some of his gas shells, which are filled with different kinds of gas. What I got was the mustard gas, which burns the skin and blinds one for a time. I kept my mask on but left my eyes uncovered to see where I was going. When he puts over these shells he also sends some shrapnel and heavy shells. I can thank my lucky stars that there was a fallen tree near me, and I stayed under it until the shelling stopped."

Continuing he writes from his hospital in England that he is getting along well, but is still having considerable trouble with his eyes, but he says they are coming along nicely. They give him no pain, but that while he can see well at times, at others everything is blurred. His many friends here will be glad to learn he escaped so easily.

## Mr. F. W. Clingan On Exemption Board

Word was received in the city on Monday to the effect that Mr F. W. Clingan, President of the local Liberal Association, had been appointed a member of the Exemption Board under the Military Service Act. His Worship Mayor Lacey and Mr Clingan will therefore constitute the local Board.—Salmon Arm Observer.

Mr Clingan is well-known in Summerland. He owns an orchard here, and makes occasional visits here to attend to business in connection with the fruit lot.

## THE WOMEN'S INSTITUTES.

The regular monthly meeting of the Summerland Women's Institute was held last Friday at the home of Mrs W. Watson. There was a good attendance. The president, Mrs Lipsett, was in the chair. Mrs W. J. Robinson read an interesting paper on the life of Dr Drummond and other Canadian Poets. Mrs Angwin kindly gave a demonstration of stencilling. The secretary gave a report of the fourth annual conference which was held in Vernon on the 18th, 19th, and 20th inst. Mrs Davies, secretary of the Advisory Board, gave a short address. Miss Brown, in her usual good style, delighted the company with a solo, after which tea was served and a social time spent.

## Coming Here To Pick Fruit.

(Vancouver Province).

Several young ladies from the general office of the D. Spencer Company, including Misses Ethel Jacks, G. Robinson, Margaret Condon, and Elsie Ball, chaperoned by Mrs Condon, are going to spend their holidays fruit-picking in the upper country, and will leave for Summerland to-day to work on the Ridenau ranch. Mr Derrick, the manager of the ranch, has been employing women help since the beginning of the season, and, writing to the B.C. Harvester's Bureau, expresses his pleasure at the satisfactory way in which the girls from Vancouver have performed the work. He says: "I am very much pleased with these girls, and assure you they are doing their 'bit' as well in their sphere as are their brothers in the trenches."

All indications are that Naramata's fruit crop will this season greatly exceed the output of any previous season. The packing houses of the Naramata Fruit Co. and the Fruit Union are both busy places. A car slip will soon be a necessity here. Now the car boys are forced to wait while the fruit is being loaded into the cars.

## Traffic Is Heavy

Apples Moving From Valley In Train-loads.

Express Shipments Attaining Huge Proportions.

Fruit is now moving out of the Valley in large train loads. The first of last week a trainload of fifty cars of fruit was started rolling, and is reported to have passed through Calgary on Tuesday of last week. Last Friday another such train was noticed by a Summerland citizen moving north from Vernon. He was informed that of the fifty cars, forty-one were of fruit and vegetables destined for the prairies. On that same day the steamer "Sicamous" unloaded 3,071 packages of fruit going forward by express, thus indicating that the heavy express shipments which early in the season became a feature of the shipping business is continuing. Nearly a carload, about 1,000 packages of express matter is being loaded at the C.P.R. wharf here every day, while the shipments by train also continue heavy.

It is stated on good authority that the 1916 express shipments of fruit and express from the C.P.R. wharf totalled almost a million pounds, and that this season's shipments are likely to almost, if not fully, double that quantity.

It is predicted that next year the volume of express business will force the C.P.R. to run two boats daily in order to take care of both express and passenger business.

Shipments by car lot from both the C.P.R. and K.V.R. stations here are showing a healthy and promising increase in volume.

## News of a Week In Naramata.

Lieut. Gammon Takes English Bride.

Red Cross Holds Successful Sale.

Mr J. M. Robinson is now at Silver City, Idaho, where he has gone on business in connection with his mining interest there. It is understood that while he is there—he will be away for a month or more—the mine will be electrified, after which operations will be carried on in a larger way than in the past.

Allie Noyes, son of Mr and Mrs J. O. Noyes, was recently admitted to a hospital in France, suffering with a slight fever, according to a field card received by his mother from the nursing sister attending him.

The Naramata friends of Lieut. R. E. Gammon have been advised of his marriage in England to Miss Hilda Evelyn Shirriff, of Chelmsford. Other good news is that Lieut. Gammon has completely recovered from the shell shock which was the occasion of his being sent to a hospital in England. He has returned to France. He was married on August 13, and expects to return to Naramata with his bride as soon as the war is over.

The ladies of the Red Cross held a very successful sale last night when sixty-two dollars was added to the Red Cross funds. In addition to the sale of a variety of contributions in the form of wearing apparel, etc., quite a quantity of fruit and vegetables was contributed, the sale of which helped materially. Supper was served, and tea cream was also on sale. The ladies are delighted with the results of their efforts, and very grateful for the excellent manner in which the event was patronized. "Everybody was there" is the answer to the question of attendance.

A special program has been prepared for Sunday School Rally Day, to be observed here as elsewhere next Sunday. The presence of many citizens as can attend will be encouraging to the young folk. They will be well repaid.

(Continued on page 2.)

## Estimate Is High

Some Doubt Expressed Of Building Dunsdon Dam.

Suggested Money Better be Spent Elsewhere.

Will the Council when it meets to consider the engineer's plans and estimate of costs of the proposed Dunsdon dam abandon the idea of proceeding with its construction? It does not seem improbable. The plan provides for placing the new dam 140 ft. below the site of the former dam, at which point the base of the dam would be about seven feet lower than the other and this will make it necessary to make the dam that much higher in order to bring the water to the level of the intake for the distribution system. It is the cost, however, as compared with the results, that is likely to change the plans of the Council, at least that is the prediction of some of our interested citizens, formed after learning of the disappointingly high figure of the estimate.

This matter of more water is a vital question with many, but at the same time it is the desire of all that no unnecessary outlay be made, and that for what money is expended the greatest value be gotten. It is said that the engineer's plans call for an expenditure of \$5,000, and that while it may be possible to do the job for less, considering the amount of water that could be stored, that sum might well be spent elsewhere to better advantage.

It has been suggested that a few hundred dollars be spent on the upper dam on Eneas Creek and the dam be raised by one and a half to two feet. The increased depth spread over and beyond the present surface would give a large volume of water. No matter what plan is adopted for the Garnett Valley system it is said that only spring storage can be reckoned on and that it would be better to add to the storage at the headwaters at a comparatively small cost and make any further expenditure in increasing the carrying capacity of the north main and connecting it with the area, other than Garnett Valley, now served from Eneas Creek. In support of this proposal it is pointed out that there is always an abundance of water in Trout Creek until late in the season, and water from there could be assured for a longer period than from Garnett Valley.

The engineer's plans were at once forwarded to Victoria for approval of the Water Comptroller, and immediately upon their return it is expected that the Council will be called together to decide what shall be done.

Just as we go to press we are informed that the Council will hold a special meeting to-night at 7.30 o'clock.

## Items of Interest to Fruit Growers

Kootenay reports that apples are a poor crop there this year.

Shipments of fruit from Washington State to Calgary are reported by a Calgary jobbing firm to be heavier this season than over before.

Nova Scotia apples have made their appearance on the Winnipeg market. Trade is reported good, with a sufficient supply of fruit to satisfy the demand.

No. 1 B.C. Wealthies were bringing \$2.40 a box wholesale last week in Toronto. At Calgary they were selling at \$2.25, while Duchess brought \$2, and McIntosh Reds commanded \$2.50, and Jeffries \$2.25.

Plunkett & Savago, a Calgary fruit concern, state in a late weekly circular that apples are arriving at Calgary freely but are going very fast, the amount being consumed being double that of other years. Cars of winter apples are being booked up freely now at \$1.00 to \$2.10 per box f.o.b. the various shipping points out of Calgary.

### IF APPLE DUTY WERE ABOLISHED?

THE PRAIRIE GRAIN GROWERS are largely free traders, and the official organ of the grain growers' organizations, the Grain Growers' Guide, is an out-and-out free trade advocate. The increase in the duty on imported apples was strongly opposed by the Guide, but many of the most intelligent and leading grain growers, when the whole situation was laid before them—still free traders in principle—granted the justice of the demands of the fruit growers for further protection against the "dumping" practiced by American apple shippers, who, rather than permit a slump in prices in their own markets, were ready to sell their surplus low grade stuff on the Canadian markets at any price they could obtain, irrespective of the cost of production.

The Grain Growers' Guide revives the subject in a recent editorial, as follows:

No one can forget the imposition last year of an additional duty of 50 cents a barrel on apples, which made the tariff 90 cents a barrel. Westerners were forced to eat Canadian apples at any cost. The ruthless real estate exploitation in British Columbia was to be made good by the people of the prairies. If Western Canada eats as many apples this year as last, and Ontario consumes her usual amount, the prairies must import about 1250 cars or half the total consumption, and pays approximately \$205,000 duty on these. The apple duty imposed last year is operating against allied and national interests. It ought to be abolished.

§ § § § §

It is apparent that the writer has jumped to conclusions without duly investigating the situation. Canada has a surplus of apples this year while the United States has a short crop. If the duty were removed and free passage given apples to and fro across the line, there is little doubt that the farmers on the prairies would pay more for their apples this fall and winter than they will under existing conditions. The short crop and keen demand has boosted the price of apples on the south side of the line to a figure higher than ours and, without the tariff wall, much of our best apples would right now be going to large American centres, with the result that the prairie people would have to be content with lower grade stuff or pay a higher price. With the conditions as they exist just now there are a number of our shippers who would be glad to have the tariff wall torn down, temporarily at least. One of these, with whom we were speaking recently, stated it as his firm belief that free access to the American markets for our high class fruit, gained by giving the American grower access to the Canadian market would on the whole be to our advantage. We can scarcely agree with this, but it is an indication that the abolishing of the duty might not be the boon to the prairie folk that the Guide would have us believe.

§ § § § §

The Guide had better let the tariff remain this year. There are plenty of apples in Canada for her needs, and sufficient to create competition in our own markets.

It is expected that the prairie provinces will consume 2,500 carloads of apples this season. Of this quantity, B.C. can supply more than half. Last year about an even quarter of this quantity was shipped from the North Western States to the prairie provinces. If the cars are available the importing of even this quantity might well be disposed of. Nova Scotia has 4,000 carloads for which she is seeking a market, much of which will come west. With the duty removed all this surplus would go to the large eastern American cities, and then Canada would be short and our west would have to pay the higher prices now prevailing in the North Western States. It looks to us as if the prairie farmers benefited by the apple duty.

§ § § § §

### FOOD CONTROL.

THE LESSON OF WAR ought not to be wasted when peace comes again. It may be that the pressure of an industrial and economic competition between nations, resumed on a greater scale than ever before, will force the state everywhere to retain the food dictator. At least it would be folly for America to surrender the lesson of social economy that other nations already have learned—and we doubtless soon will learn.—New York Tribune.

THE PURCHASE of One Thousand Dollars worth of Goods from your own town or your own country, instead of purchasing outside, means the addition of one person to your town or country instead of supporting him abroad.

### Naramata News

[Continued from Page 1.]

Mr C. C. Aikins, who motored to Seattle last week with a Summerland party, returned to his home on Sunday, having left his friends there and made the return journey by rail.

Miss Dorothy Robinson left last night, Thursday, for Vancouver where she has gone to take a course in the B.C. University.

Rev. A. J. W. Myers, Ph. D., and Mrs Myers, of Toronto, are expected here in a few days, and while here will be guests at the home of Dr Myers' brother, Mr J. M. Myers. It has been arranged to have Dr Myers and Rev. J. P. Westman, general secretary of the B.C. Methodist Sunday School institutes, speak at a special gath-

Mrs Aikins, Miss Aikins, and Mrs C. C. Aikins, with her little son, left last Friday for Toronto.

Mrs Schreck, Mrs Davies, and Mrs E. P. Roe crossed over to Summerland on Tuesday and spent the day as guests of Mrs R. E. White.

Rev. A. and Mrs Archibald came over from Summerland on Saturday and spent the afternoon with Mr and Mrs J. M. Myers.

Mrs D. O. Hughes and her son Ira have returned from a visit with relatives in Peachland. Mrs Hughes had the misfortune to sprain her ankle, and the accident delayed her return.

Mrs Languedoc was a guest of Mrs Solly at the Summerland rectory last week-end.

R. E. White, editor of the Review, accompanied by Mrs White,

### Russian Cossacks Getting Information

Contrary to general information about the Cossacks, they do very little fighting; they are used particularly in securing information as to the enemy's whereabouts, drawing their fire, and attempting to cut their source of supplies.

ering in the local church on Friday evening, Oct. 5th.

Mrs C. C. Aikins provided the refreshments for the last Red Cross gathering, but being unable to attend, Mrs M. M. Allen, of the refreshment committee, did the catering.

Mr and Mrs R. H. King spent the week-end in Summerland, guests of Mr and Mrs C. Craig.

Messrs John McLaughlan of Charlottetown, P.E.I., H. M. Jenkins of Calgary, and Geo. McDonald of Penticton, were the guests of Mr J. M. Myers last Monday.

His parents have received information that Russell Roe has fully recovered from the effects of being buried in a dug-out some months ago, and has returned to France.

spent Monday afternoon and evening in Naramata, the latter period at Keystone Ranch, guests of Mr and Mrs Schreck.

The local branch of the Ambulance League has sent out a call to all local workers urging the early completion of all work now in hand, as it is desirable that a shipment be made up and sent off as soon as possible.

### A Free Trip to Vancouver

I gave such a rate to a customer on his Insurance, it saved him the cost of a return ticket. He was still getting the same protection.

WALTER M. WRIGHT.

## Daily Shipments Mounting High

(Kelowna Record).

Express shipments of fruit and vegetables have this week touched a high-water mark, and have taxed the capacity of both the staff and the transportation facilities. This is due, no doubt, to the fine weather which is ripening everything at a great rate. Tuesday the boat could not take all the packages, and had to leave about two hundred on the wharf for a return trip. Freight is being sent out at the rate of fifteen to twenty cars a day. On one day twenty-two cars were taken out. The barge is making a double trip each day.

## The Way Of One Editor From Texas

A West Texas editor got tired of being called a "liar" because of an occasional typographical error or slight disagreement of the facts in publishing a common-place news item. In his wrath he announced in bold face type as follows:

A lot of people in this town fall out with the editor and brand him a liar when the ordinary human mistakes of life show up a newspaper. You have a little charity and fellow-feelin' for every man in town but your editors. You claim you want the facts, and d—d if I don't give 'em to you. Read the next issue of this sheet and you'll see some facts with the bark off. I'll admit that I have been a liar, ever since I have been editing this sheet, but I have never printed a lie in these columns except to save somebody's feelings from being hurt. I'm not afraid of any of you, and I'll be dad blamed if I don't print the plain truth from now on, or until you get out of the habit of calling me a liar every time I make some little unavoidable typographical error. Watch my smoke.

Here are some paragraphs culled from the next issue:

John Benning, the laziest merchant in town made a trip to Belleville yesterday.

John Coyle, our groceryman, who voted with the Republicans in 1896 and consumes more mail order whiskey than any other member of the Baptist Church in this country, is doing a poor business. His store is dirty and dusty. It is a wonder he has any business at all.

Rev. Sty preached last Sunday night in the Christian Church. The sermon was punk and uninteresting, except some stuff he quoted from Bob Ingersoll, for which he failed to give Bob any credit. He also quoted a few passages from one of William Elbert Munsey's sermons and had the gall to palm it off as his own.

Dave Chartier died at his home two miles north of this place last Thursday night. Dick Holderness, who is an old friend of the family, attended a few minutes before he expired. He gave it out that Dave died of heart failure. That is a lie. Dave died of drinking too much of a very poor grade of mail order licker. This paper prints the truth.

Tom Spark married Miss Cordie Meader last trades day at the county seat. It ain't generally known but the marriage was brought about mainly by a Remington shot gun manipulated by the bride's father, Tom concludin' that marryin' was the healthiest thing he could do until other arrangements could be made.

Roger Lloyd, cashier of the State Bank at Willow Grove died Wednesday evening, and was buried Friday by the Odd Fellows in Pleasant Mound Cemetery. He has been taking this paper seven years, and so far hasn't paid us a cent, we thinking that he, being a banker, would pay sometime. We will sell the account for two bits' of fresh greens.

Married: Miss Suslo Scrugg and Horace Guffin, last Saturday at the Methodist Parsonage, Rev. J. C. Williams officiating. The bride is a very ordinary town girl who flirts with all the travelling men she meets, and never helped her mother three days all put together in her whole life. She is anything but a beauty, resembling a gravel pit in the face, and walks like a duck. The groom is a natural born loafer and bum. He never did a lick of work until his step-daddy run him off from home last fall. He now resides at the home of his wife's father, and says that he has no definite plans for the future. Suslo will have a hard row to hoe.

# The Summerland FALL FAIR

and Flower Show

IN THE PARK

Wednesday & Thursday

October 24 & 25

## Will be BIGGER than Ever

BEGIN NOW to prepare your Exhibits. Select some of your best-looking Apples, Crab-apples, Pears, Quinces, Grapes, &c. Let us see what you are growing in Field and Garden produce.

POTATOES will be a special feature this year; also Beans  
SEE PRIZE LIST, look it over carefully, and SHOW SOMETHING.

Take Note: Addition to Prize List - BEST SADDLE HORSE (saddled and bridled) - Prizes, \$4.00 and \$2.00

**LIVE STOCK** Owners would do well by **BEST ANIMALS**  
Showing some of their  
AT THE FAIR THIS YEAR.

There will be a **BIG RING** for Stock parade  
which will also help in the Judging,

Come along and help boost Summerland, and show what can be raised in the Stock line.

An **AUCTION SALE** of LIVE STOCK will be held on Ground on Second day.

Entries for above solicited. If you have anything for sale, let the Secretary, or J. E. Phinney, Auctioneer, know about it.

This will be the last Fall Fair in the Province this year, and is

## OPEN to ALL in the Province

Exhibits from Peachland, Naramata, Kaleden, Keremeos, Kelowna, Westbank, and Penticton  
Particularly invited.

## WOMEN'S INSTITUTES SECTION

The Summerland and West Summerland Institutes will hold, in conjunction with the Fair,  
a combined Exhibition of Flowers, Fancy Work, Cooking, &c.

Members of above Institutes, and other ladies, are urgently requested to enter exhibits. Kindly communicate with either the Secretaries,  
Mrs. JOHN TAIT or Mrs. J. J. MITCHELL.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr H. Hardy returned from Vernon on Wednesday where he had been visiting for a few days.

Mrs Hood of Nanaimo came in on Wednesday night and is visiting her parents, Mr and Mrs Wm. Urquhart.

Mrs Hendrickson was a passenger to Penticton on Wednesday night, returning on Thursday morning.

Mrs James Hay returned home from Kelowna on Wednesday where she had been visiting her daughter, Miss Vera.

Mrs J. B. Robinson and Mrs W. Douglas returned from Vernon on Thursday where they had been attending a conference of the Women's Institutes.

Miss C. Everett, who is pastor's assistant to Dr Campbell of the First Baptist Church in Vancouver, came in on Thursday evening, and visited Rev. W. J. and Mrs Scott, going on to Summerland on Saturday.

Mrs Hughes and her son Ira returned to their home in Naramata on Friday night after a couple of weeks' visit here.

Mrs Marshall of Innisfail, Alberta, and Mrs Gillespie and children of Princeton visited Mr J. and Miss Morrison a couple of days this week. They left by Friday's boat for Princeton.

Mr A. J. McKenzie went to Kelowna on Saturday to try and procure some boxes but was unable to buy a single box. On Monday he went over to Wheeler's Mill, just back of Summerland, where he was able to secure enough to keep him going for a time. The shortage of

boxes in the district is a great hindrance to the ranchers, for they cannot get their fruit away, and some varieties are held up entirely because of the lack of boxes for shipping.

Mrs Roe, who has been visiting her sister, Mrs H. McDougall for some time, returned to her home in Naramata on Saturday night.

The Misses May and Kathleen Henderson returned to their home in Summerland on Saturday night.

Mr Arnold and Miss Olive Ferguson went to Kelowna on Sunday to visit their mother, returning at night.

The regular monthly meeting of the Ambulance League was held on Tuesday afternoon in the reading room.

The Baptist Ladies' Aid met at the home of Mrs P. Dorland for an old time quilting bee. When the work was laid aside tea was served in the dining room, and a very pleasant social hour was spent. At the prayer meeting which followed, Miss Everett told some interesting incidents in connection with Dr Oliver's evangelistic campaign in Vancouver.

At the whist party which was held at the home of Mrs Tewart on Saturday the 22nd inst., the sum of \$7 was given to help the Patriotic Fund.

### The Prize Winners

#### Completing Last Week's Report Of The Peachland Exhibition.

A number of extra prizes were very kindly donated by the following gentlemen, and helped very much to create an interest in the competition, for the prizes were well worth striving for: Mr G. Robison, Manager of the local Fruit Union, a 49 lb. sack of Purity Flour for the best loaf of white bread; won by Mrs E. Smith; Mr H. Hardy, a 49 lb. sack of Purity Flour for the best loaf of brown bread; won by Mrs W. Douglas; Mr H. H. Thompson, a large bottle of flavoring extract for the best gingerbread; won by Mrs Harrington; Mr Clements, 1 lb. of best tea for the best lb. of butter; won by Mrs R. Harrington; 1 lb. of best coffee for the best collection of canned fruit with sugar; won by Mrs W. Douglas; 1 lb. of Bourneville Cocoa for the best collection of canned vegetables; won by Miss O. Ferguson. Mrs Norris of Vancouver and Miss Morrison were the judges for flowers, fancy work, home cooking, and children's exhibits, while Mr Hardy judged the fruit and vegetables.

Section 1—Best display of dahlias, 3 varieties, 1, Miss O. Ferguson.

### Immature Potatoes Are Best For Seed.

#### Experiments Prove They Yield Better.

Potatoes which have not fully matured give better yields than fully matured seed. This has been proved by experiments conducted at the Ontario Agricultural College at Guelph for the past five years. The practice of planting immature potatoes is quite common in England.

The farmers of this country should follow the same practice, and should combine it with hill selection. When the potato vines are beginning to ripen, the most vigorous hills can easily be noted. Vigorous tops above ground usually mark a good yield of potatoes underground. The vigorous hills should be dug at the time the selection is made, providing it is late enough in the autumn to insure the potatoes keeping well until planting time next spring. Where the potatoes in a hill have particularly strong tops, are of good size and yield well, they should be kept for seed. In hills which do not yield satisfactorily, however, the potatoes should be used for cooking and not saved for seed. An examination of the field at this time of the year will demonstrate that some hills have resisted bugs, disease, and drought better than others, and that the yield of certain hills is higher than others. The disease-resisting and high-yielding hills will produce a better crop than seed taken from the common bin or from the planting of small potatoes, as is often the case. —F.C.N. in Conservation.

### That Guilty High Heel

In a recent issue the Scientific American tells its readers that during 1916 no less than 1,149 deaths resulted from the wearing of high heels, fatal injuries being caused by the heel catching in step or clothing and throwing the wearer down stairs. To this the fashionable crimster added in the same year a total of 4,000 crippling, including sprains, breakages, and permanent strainings. As the hand of humanity has turned against the fly, so must the foot of womankind turn against the high heel.

### Big Apple Deal.

One of the largest apple deals noted in the northwest states this season has been closed in Lewiston, when the entire output of the Lewiston Land & Water Company was sold to the Haley-Neeley Company of Sioux City, Iowa.

The sale was negotiated by the North-western Fruit Exchange.

The terms are cash acceptance shipping point, and the price, while not disclosed, is said to be very satisfactory to the sellers. It is admitted that more than \$100,000 is involved in this deal.

Did you ever think what your ad in the newspaper is doing for you? When you close your store in the evening and go home to your family and fireside, not thinking about your business at all, then it is that the paper is being pored over in hundreds of homes—the homes from which your trade is drawn. And there is your ad doing its work silently, but surely, and if you have taken the pains to make it attractive its work will be all the more effective. This is repeated over and over again, and is no doubt what inspired some writer to call newspaper advertising a "silent drummer."

Pastor—"I was glad to see you at prayer meeting last night, brother." "Village Souse—Was that where I was? Well, I'll be jig-gered!"

### WATER NOTICE

#### STORAGE.

TAKE NOTICE that Summerland Lumber Co., Ltd., whose address is West Summerland, B.C., will apply for a licence for the storage of 350 acre-feet of water out of Pope Creek, also known as Meadow Valley Creek, which flows southerly and drains into Trout Creek, about half-mile west of Faulder Siding, K.V.R.

The storage-dam will be located at unnamed lake about 2 miles west of Lot 3761. The capacity of the reservoir to be created is about 350 acre-feet, and it will flood about 80 acres of land. The water will be diverted from the stream at a point about 2,000 feet north of the north line of Lot 2558, and known as Weaver Lake, and will be used for irrigation purposes upon the land described as Lot 2558 Osoyoos Division of Yale District.

The licence applied for is to supplement a right to take and use water as per Record No. 1046.

This notice was posted on the ground on the 13th day of September, 1917.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is Sept. 14th, 1917.

SUMMERLAND LUMBER CO. LTD., Applicant.

By J. W. WHEELER, Agent. 7-10

### The Cleanest Range

The Kootenay has a nicked steel, rust-proof oven that is as easy to wash and keep clean as any cooking utensil. The ash-chute directs all the ashes into the pan, which is roomy and large enough to hold a two days' accumulation. Write for booklet.

K.V.R. Agent H. B. Young moved into the T. N. Ritchie cottage on Wednesday.

Rev. H. A. Solly will return from his two weeks' auto trip with a new car, having purchased a Dodge while at the Coast.

Rev. H. G. Estabrook came in on Tuesday morning from Victoria to take his family to the capital city, where they will remain for the winter.

Mrs R. C. Lipsett, accompanied by Mrs. W. V. Davies of Chilliwack, left by the Monday morning train for Cranbrook to attend a district conference of the Women's Institutes of the Kootenay district.

Mr and Mrs Geo. Gray returned on Tuesday morning from a ten days' visit to Vancouver and their former home town, New Westminster. Mrs Robinson, who went down to Vancouver some weeks ago, came back with them.

Miss C. S. Everett, pastor's assistant to Dr J. L. Campbell, of the First Baptist Church, Vancouver, spoke at the Parkdale Baptist Church on Sunday evening. Miss Everett is spending her vacation in a tour of the Okanagan, and arrived here on Saturday night. While here she was the guest of Mrs McAlpine.

Don't delay your Pressing, Cleaning, and Dyeing work. Many people have already tried my Agency and have been well pleased. Don't confuse Dry Cleaning with Sponge Cleaning; the two are not to be compared. Remember also that I take in all kinds of alterations and repairs. A. J. Beer. 9

We are glad to be able to state that there appears to be no truth in the statement that C. A. Marshall was poisoned by gas. We understood that this information was conveyed in a letter from the front by a Summerland soldier to his wife, and that his son and friends here had been similarly advised. Very recent letters from Pte. Marshall convey news that would completely contradict the earlier report.

The current issue of the Agricultural Journal, published by the Provincial Department of Agriculture, devotes more than two pages to a prize essay written by Mrs Ernest Lock, and entered in the Women's Institutes contest. It is a most excellent paper on "Vocational and Technical Education," and was awarded the first prize. Mrs Lock is a member of the Summerland Women's Institute, and entered her paper through the local institute.

Mr G. A. Carlson, of the well-known construction firm of Carlson & Co., was in town early this week. This firm constructed many miles of the K.V.R. line, during which they made Summerland their headquarters. A quantity of construction equipment, which has been lying at Faulder and here since then is now being shipped to Valley, a point about fifty miles north of Spokane on the railway running up to Nelson. From here a branch line is being built to a mining property.

There are events occurring in every community which, if reported in a local paper, would create a commotion little dreamed of. What to report and what not to report often perplexes the editor. He is often unjustly accused of cowardice and favoritism, when all the time he is looking toward the good reputation of the town where his lot is cast. The local editor from necessity almost constantly finds himself between two fires, and which ever way he turns he is sure to be unjustly judged. This is one of the pleasures of the newspaper business.

Misses Mae and Kathleen Henderson are now at Victoria, having left here on the Sunday night train. Miss Kathleen, who applied some time ago for admission to St Joseph's Hospital, Victoria, to train for a nurse, received her acceptance while at Peachland last week, with instructions to come at once. After a short stay in the capital city Miss Mae Henderson will go to Chicago to visit her aunt, and from there will go to Toronto, where, at the home of her uncle, Rev. Dr. Henderson, she will, in late October, become the bride of Mr Clayton Crawford, of Toronto.

Mrs Chipman went up to Kelowna this morning, to spend a few days.

Mrs W. M. Wright and child leave to-night to join Mr Wright in Vancouver.

B.C. Nurseries, Vancouver, reliable, true-to-name, is represented, in Summerland by Bert Harvey. A

Messrs David Gray and J. I. Thompson were coastward bound passengers on the K.V.R. train on Monday night.

Beginning on Monday next the electric light will be turned on earlier in the afternoon, and continued throughout the night.

Deputy Minister of Agriculture Wm. E. Scott, was a visitor to Balcomo Ranch and the Hilborn Demonstration Farm on Monday.

Mr and Mrs E. W. Leeson and Miss Leeson, who had been staying at Peachland, have returned to their home here.-Vancouver Province.

Mrs Harbottle and Mrs Arnold went out by boat on Saturday morning for their respective homes, the former to Carievale, Sask., and the latter to Shelburne, N.S.

Mr and Mrs Isaac Blair, who accompanied Mr Blair's daughter to the Coast last week on the first stage of her return journey to her New England home, reached home again on Tuesday morning.

Harold Sharp, brother of S. F. Sharp, with whom he has been visiting since coming from California, went out to Vancouver on Monday morning with the intention of enlisting in the 72nd Battalion.

Mrs Roy Skinner, and children, left here on Friday evening by K.V.R. for Vancouver on the first stage of their homeward journey to St John. Mrs Skinner has spent most of the summer with her parents here, Mr and Mrs Wm. Kerr.

Thomas E. Crowell, a prominent citizen of Vernon for many years, and well-known throughout the Valley, was accidentally shot by the discharge of his rifle last Thursday and died on Tuesday morning. He had left his rifle, still in its canvas case, standing in his car, and was about to enter the car after cranking it when the rifle fell and exploded, the bullet striking him in the breast.

An announcement of interest to both men and women appears in our advertising columns of this issue. Mr S. Daines, the well-known Penticton tailor, who specializes in ladies tailoring, has recently taken a partner into business with him, a man who comes highly recommended as a maker of men's suits and coats. Periodical visits for the purpose of taking measurements, etc., will be made by one of the firm to the store of their newly appointed Summerland agent, G. L. McWilliams.

Mr H. H. Elsey went down to Calgary last Saturday to attend to some business matters in connection with property he holds there.

Brief news of the fact that Arthur Pentland has been gassed has been received by his sister, Mrs L. W. Facey. He had but recently recovered from the effects of being buried by a shell explosion.

The name of Miss Belle Vanderburg of Summerland appears among others in a society news note in Vancouver papers as a partial list of guests at a shower given for her cousin, Miss Sadie Bird of Vancouver.

After a comparatively short time spent in Camp Petawawa, H. Reynolds has successfully passed his examination and is now a fully qualified gun layer. He was one of a draft that left camp last Sunday morning for the Atlantic seaboard to board a transport for England.

The Steuart Fruit Co. believe in featuring Summerland Apples. Their apple box this year has the two words "Summerland Apples" in large letters, followed by: "Packed and shipped by The Steuart Fruit Co., Summerland, Okanagan Valley, B.C."

Will Gray, son of David Gray, Trout Creek Point, is visiting at his parental home. In an accident some months ago, while following his vocation as a railroad engineer, with the C.P.R. on the prairies, he suffered a broken leg. He expects to return to the prairies at an early date.

Rev. H. A. Solly and Dr F. W. Andrew reached Vancouver early this week on their motor trip during which they visited Wenatchee, Seattle, and other Washington centres. They will come home by way of Hope, shipping the car by rail through the Coquihalla Pass. They are expected this week-end. The trip has taken more time than expected, but evidently has been greatly enjoyed.

Following the good prices received for cherries, as compared with earlier years, fruit growers are feeling quite encouraged by the returns received for apricots. The Union has settled with its members at four to four and a quarter cents for No. 1 'cots, and three cents for No. 2 and cannerly stuff. This is said to be a price that leaves the grower a profit over and above the cost of production.

After making several trips through the Valley, Robert Rennie, of Rennie Bros., Yakima Valley, Wash., has selected and made final arrangements for the lease of 1,200 acres of land near Kelowna. Mr Rennie passed through Summerland on his return south, the first of this week. It is his intention to import at once from the Canadian prairies 1,500 head of sheep to be wintered on the above mentioned property.

**Community Calendar of Coming Events**

Advance notices under this heading will be charged for at two cents a word. Minimum charge 50c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Rally Sunday will be observed by the Lakeside Sunday School with a special program. The regular classes will be dispensed with. C

Rally Sunday at West Summerland Baptist Church Sunday School in the morning. Church service in the evening at 7.30, followed by a special meeting of members to consider future work. C

Monday, October 8th, is Thanksgiving Day in Canada.

Sunday next will be observed as Rally Day in the Sunday Schools.

**WHAT FRIGHTENED HIM.**

Betty was milking the cow when the mad bull tore over the meadow. Betty did not stir, but continued milking. Observers who had run to safety saw to their astonishment that the bull stopped dead within a few yards of the maid and cow, turned round, and went away sadly. "Weren't you afraid? Why did he run away?" asked everyone of Betty. "He got scared," said Betty. "This cow is his mother-in-law." Good Jest.

## Powers Creek Water Causes Court Case

Westbank Irrigation Co. Lays Charge Against D. Gellatly. Wm. Young to be Subpoened.

(Kelowna Courier).

That well-known hardy annual, the Gellatly water plant, was blossoming again in the Kelowna provincial police court on Monday last, the affair being a hearing under a Summary Convictions Act of a charge brought against Mr D. Gellatly by the Westbank Irrigation Company, for cutting and interfering with a dam on Powers Creek, which they claim had the result of depriving them of their water. In connection with the same affair, Mr Gellatly, however, has two charges filed against two residents of Westbank who, under instructions from the irrigation company, took steps to divert the water in the Westbank channels.

Mr E. C. Weddell is acting for the company, while Mr R. B. Kerr is acting for Mr Gellatly. The hearing commenced at ten o'clock on Monday morning, and continued with but one slight intermission until 3.30 in the afternoon, an adjournment being then made until the morning of September 29 in order to allow the irrigation company to get Mr Young, the controller of water rights, into court to substantiate certain statements made by various witnesses, including Mr F. W. Groves, engineer, and his assistant, Mr Simey.

The case is one of considerable importance as several matters of great importance to the district, which have been recurring a number of times in various cases, it is understood, will be determined should the plaintiff company win their case. Mr Gellatly expresses a firm determination to appeal the case in such an event. One of these questions include the right of a prior licensee to water held back in the creek by natural or beaver dams.

## Another Outlet For B.C. Apples

The Canadian Department of Trade and Commerce has been advised by the Australian Government that it has temporarily lifted the embargo on Canadian apples to permit the importation of up to 10,000 barrels.

This newly-found market for 80,000 boxes of apples, made available to our fruit shippers, though late in opening, will doubtless be greatly appreciated.

This is just a little too much: The Teutonic settlement of Prussia, Sask., has shown its defiance of patriotic sentiment and resentment of the franchise act by the town council naming its principal street Lusitania Avenue. Soldiers' associations and the British Citizenship League have made representations to the government urging that the town be forced to change its name and the name of the offensive street.

## Plans To Store More Irrigation Water

Orchard City Preparing To Prevent a Recurrence of the Present Shortage.

(Kelowna Record).

Though nothing is likely to be heard for some time of any definite government attitude on the subject of irrigation, the serious shortage which has been experienced during the present year has stirred several of the companies and water users to make efforts to increase the available storage facilities and means of supply, and also to improve the distribution systems so as to eliminate undue waste of water from seepage, etc.

The residents of Glenmore who have suffered heavily this year, have been moving strongly in the matter, and it is understood that the liquidator of the Kelowna Irrigation Company has arranged to spend a considerable sum of money in order to put the system in better shape for another year. Plans have already been prepared for a new dam at the headwaters of Mill Creek. This dam will increase the storage capacity by about 400 acre feet, or from 750 to 1,150 acre feet. Considerable repair work is also to be done throughout the system, and a contract is being let for the scraping and painting of the inside of the steel fluming.

Farmers of the Ellison district who use water from Scotty Creek have also made arrangements to put in work there which will ensure a better supply of water for the future. In this case there is no company, but the users concerned, representing about 1,000 acres, have assessed themselves one and a half dollars per acre to provide funds to put in a new dam which would bring up their storage to about 500 acre feet. It is also hoped that sufficient money will be available to flume the water for some distance down the creek, as it is found that a great deal of water is lost from the present ditch before it reaches the distributing system at all.

During the past season the Canyon Creek Irrigation Co. has put in something over 3,000 feet of new fluming in order to cope with the demands made upon their water supply.

## Peter Wants Douks To Serve

A dispatch from Winnipeg states that Peter Veregin, head of a Doukhobor settlement near Brilliant, B.C., stated that in his opinion the Doukhobors in Canada should not have been exempt from military service.

He also stated that a number of young men in his settlement have already enlisted for service in the near future.

## Fruit Dealers Must Register.

It is announced that an order is about to be issued by the Food Controller requiring all wholesale dealers in fruit and vegetables

throughout Canada to register with the Food Controller. Further, it is understood that all dealers will be required to file a statement with the Food Controller of all purchases of apples from the fruit growing districts. This order covers all contracts for the 1917 crop.

## A BET ON DYING.

A company officer (mentioned in despatches and awarded a Military Cross) got pneumonia in the trenches and was taken to the base hospital where, when he was supposed to be asleep, he overheard the doctor and the nurse conferring on his case. The doctor expressed the opinion that the patient would die, and was dismayed to hear a feeble voice from the cot: "Give you five to one, in sovereigns, I don't, doctor."

A pause. Then: "You won't? Six to one."

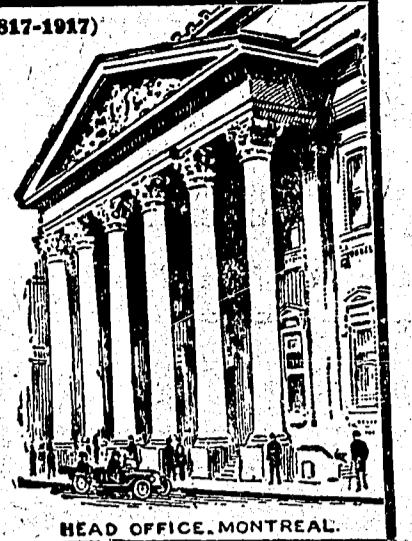

Another pause, followed by a disgusted grunt, after which came: "No sportsmen, these M.O.'s. Capital chap; clever doctor, but can't kill me, if the Boche couldn't. Seven to one, doctor! Nothing doing? Wash out, eh? Well, good ni', doctor. I'm going to sleep and to get well." And he did.

## SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessees may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B. - Unauthorized publication of this advertisement will not be paid for.

PATENTS PROMPTLY SECURED In all countries. Ask for our INVENTOR'S ADVISORY, which will be sent free. MATHON & MARION, 364 University St., Montreal.
