

## Fruit Union Building Is Badly Wrecked

Pillars Supporting the Upper Storey Broke Thru' Ground Floor.—Loss to Union will be Small.

The upper floor of the Fruit Union building at the wharf collapsed early on Tuesday morning. The lower floor was filled up with unpacked boxes of apples, and a large quantity had been stored on the upper floor. It was, without doubt, the load which had been put on the upper floor that caused the collapse, but that the building was not capable of carrying even a greater load was not suspected. The heavy material used in its construction and its substantial appearance was such as to give the impression that the building was equal to any load which might be put upon it. The cause of the collapse was the puncturing of the lower floor by a number of the 12x12 square pillars which support the floor above. The middle of the upper floor dropped several feet, the deepest depression being in the middle of the building, and but for the fact that the lower floor was filled to the height of perhaps eight feet with apples, and which is now carrying the weight above, the whole load on the floor above would have been precipitated on to the main floor.

The crash came about eight o'clock on Tuesday morning. Had it been an hour later it is scarcely possible that some of the workers that would then have been in the building could have escaped injuries or death. The ceiling now rests, in one place, on the top of the grading machine, and the apples had been stored so closely that only narrow passages were left to and around the machine. As it was, Harry Braun had entered the building but a few minutes before and was busy making a fire just opposite the grader when he heard the noise of the collapse and rushed for the door.

To an alleged fault in the architect's plans is attributed the accident. Below, under the main floor, are five huge beams, or sills, running from end to end of the building, supported by numerous piles.

The floor was built directly on top of these by laying 2x6 planks on edge and nailing them together. This, of course, makes a very strong and substantial floor. Over this, with an air space between, was a second floor. The floor above was supported by two rows of 12x12 pillars, the space between the rows being so divided that the foot of these pillars bore upon the floor some distance inside the second row of sills beneath. In other words, the support given these pillars and their load was nothing more than two by six planking on edge. Had these pillars been placed directly over the sills it is claimed the accident could not have occurred.

The building is owned by the C.P.R., by whom it is leased to the Fruit Union, and the owning company was at once notified. Arrangements were made immediately to place supports under the ends of the pillars that were protruding through the floor beneath so as to prevent a further settling, and permit of the removal of the fruit with safety.

The northern end of the main floor is being cleared of packed fruit, and, as it will be impossible to use the grader, packers will be put to work there to pack the fruit as it is sent down from above.

It is thought that there will not be any great damage to the fruit beyond a few boxes on the main floor, crushed by the ceiling above. At the time of the accident there were about 25,000 boxes of apples in the building.

## UNITED THANKSGIVING SERVICE.

St. Andrew's Church was crowded to the doors, the lobby and class rooms adjoining the auditorium were filled, and a number of disappointed citizens were turned away on Sunday morning, the occasion being the united services of Thanksgiving in commemoration of cessation of hostilities.

## A Profitable Branch of Farming

The high price now being paid for wool, as well as mutton, is greatly stimulating the raising of sheep. Stock raisers of this province are being urged to go more extensively into sheep raising. Periodical sales of good stock, some of it pedigreed, have recently been established by the Provincial Department of Agriculture, the purpose being to make breeding stock available to farmers.

The interior was tastefully decorated, the decorations including the flags of the allied nations. The splendid music furnished by the united choirs added greatly to the success of the event. A very appropriate solo was sung with much feeling, and in his usual splendid voice by Mr Frederick Graham.

The services were led by Rev. H. A. Solly, the address being given by Rev. Chas. Baker. On the platform also were Rev. W. H. Bates and Rev. G. J. C. White.

The excellent and impressive sermon by Mr Baker left with his hearers much food for thought.

## Spend \$2,000 in Comforts For Our Soldiers.

The financial statement of the Home Comfort Club, published elsewhere in this issue, shows the total of receipts amounting to \$850.65, with an expenditure of an almost equal amount. No doubt the club considers the year just ended the most successful of the three years of its existence. In 1917 the total receipts were \$704.51, and expenditures \$685.74. In 1916 the receipts and expenditures totalled just over \$468.00.

Organized on December 8th, 1915, the club has had a most active and useful three years existence, during which time 987 packages of sundry articles most appreciated by the men at the front have been mailed to Summerland boys overseas. The two thousand dollars that has been spent for the purchase of material and postage has been raised locally, and the officers point with commendable pride to the fact that with the exception of the one item of wool all purchases have been made in Summerland.

Beside the cash balance of \$26.74 as shown in the statement, the club has goods and stamps on hand to the value of \$84.51.

## Will Recuperate In California

Rev. A. Henderson and his daughter Miss Kathleen left by Monday morning's boat for Southern California, via Victoria. Preparations for the journey were made rather hurriedly, Mr Henderson having been advised but a few days before by his physician to give up work and make a change at once.

At a special meeting of the Church Board Mr Henderson was given three months leave of absence. Rev. A. H. Huntley of Pentleton will take charge of the evening services in the Lakeside Church during Mr Henderson's absence.

Some people are never happy unless they are in a position to make others miserable.

## Summerland Experimental Station

Brief Review of Valuable Work Being Carried On at "The Farm."

Something of the valuable work being carried on at the Summerland Experimental Station, one of the Dominion Government Experimental Farms, is described briefly in an interesting article written by Fruit Pests Inspector, John Tait, for the Agricultural Journal, published by the British Columbia Department of Agriculture.

The Summerland Experimental Station takes in about 600 acres acquired from the Indian Reserve, and is divided from Summerland by Trout Creek, the southern boundary of the Municipality.

"The station is beautifully located," and "its location is an ideal one," says Mr Tait, "and the farm comprises all the various soil conditions encountered in the Okanagan, Thompson, and Boundary districts." Continuing the writer says:

The land which is under cultivation rises in a series of benches from the level of the Okanagan Lake until it reaches the level of the Kettle Valley Railway. The farm is becoming so well known in this part of our province that a trip to the Okanagan is not complete without a visit to the Summerland Experimental Farm.

The area of the station is 285 acres under irrigation and 260 acres dry-farming and range land. The water supply comes across Trout Creek Canyon from the Summerland Municipal system, and is then distributed by an elaborate system of flumes to all parts of the farm.

The station has to be seen to be appreciated, as it is just four years since the first clearing and ploughing operations commenced, and to make such a place, as it now is, into a producing section in such a short time says much for the energetic and enterprising superintendent, Mr R. H. Holmer.

The farm has been divided up into sections, which are as follows: Seed production, cereals, orchards, and chemistry. There were over 15 acres used for seed-growing this year, comprising 5 acres mangolds, 6 acres carrots, 1 acre tomatoes, 1 1/2 acres Yellow Bantam sweet corn, 1 acre Longfellow fodder corn, one-tenth acre cucumbers, one-tenth acre lettuce, one-tenth acre radishes, one-tenth acre egg-plants, 1/2 acre peppers, and one-tenth acre winter melons. The various yields have not yet been tabulated.

Potatoes are grown to ascertain the best cultural methods, and also for seed distribution. There are 30 varieties grown, and free samples are sent to applicants, who must apply in writing. Methods applied are hilling, flat cultivation, distance apart in rows, etc. In the irrigation and cultivation meth-

ods whole potatoes and cutting to one, two, and three eyes are used.

**CEREALS**—This section is working on a five-year rotation: First year, plots in triplicate for yields of grain; second year, clover; third year, clover; fourth year, flax and peas; fifth year, corn and beans.

**CHEMISTRY**—This section is working on a three-year rotation: First year, potatoes; second year, oats seeded to clover; third year, clover.

These plots are treated with various combinations of fertilizers with and without barnyard-manure; also manure alone, putting on 10, 15, and 20 tons per acre.

All classes of forage crops are grown, with special note taken of water measurements. Mangels, carrots, turnips, etc., under a four year rotation: First year, plots of varieties for best yields; second year, wheat; third year, clover; fourth year clover.

There are fields of hay, alfalfa, clover, timothy, mixtures of clovers and grasses, also plots of forage grasses, fescues, brome, rye, orchard grass, Kentucky Blue, Canadian Blue, sanfoin, spring vetch, hairy vetch, etc.

There are six apple orchards and one stone fruit orchard. The apple orchards are being experimented on six different systems of cultivation: First, clean cultivation; second, alfalfa; third, soiling crops; fourth, clover; fifth, truck garden crops; sixth, five-year rotation, as follows: First year, roots; second year, wheat alone; third year, clover; fourth year, clover; fifth year, clover, with second crop turned under and then manured for roots. The orchards contain all the best and new varieties of fruit as it comes in. Stone fruits grown are apricots, peaches, plums, prunes, cherries, nectarines. Clean cultivation and sod practised; various methods of pruning practised—central header, modified central header, and vase-shaped.

There is some stock kept, but not to any large extent as yet. There are three carloads of store cattle brought in every fall for winter feeding, to produce beef and make manure. The superintendent favors Ayrshire pure-breds for dairying.

There are thirty-six Cheviot sheep and thirty-two Berkshire pigs at the Experimental Farm. One hundred and fifty White Wyandottes are to be used for breeding stock next spring. Turkeys are also being raised successfully.

It would not do to close this article without making special reference to the splendid array of flowers which can be seen in their season, both in specially constructed beds and also forming borders to the lawns. The work which has been done and the marvellous production of the soil which has been demonstrated by proper attention to supplying the soil with its needs has been a revelation to the farmers of Summerland.

The man who gets mad at what the newspaper says about him should give thanks three times a day for what the newspapers know about him and suppress.

## Special Session of Municipal Council

Prices Put On Real Estate Holdings.—Offended Citizen Given Apology.—Would Buy Debentures at Par.

The Municipal Council held a special meeting on Tuesday morning when J. J. Mitchell, who has been in charge of irrigation construction work, suggested that he be relieved of his duties as the work now being done could be carried on without him. Mr Mitchell expressed willingness to go on by the day if weather conditions at any time permit. Mr Mitchell also agreed to have an over-sight of the distribution of gravel, sand, and any other work that could be done during winter. It is possible that some 600 feet of new ditch may be dug, and if this is decided upon Mr Mitchell will attend to that work also.

Before retiring Mr Mitchell expressed the opinion that the Council should reimburse him and the other defendants in the two cases when they were accused of libel in connection with municipal work. It was hardly fair, he thought, that they should bear the legal expenses themselves. It was the opinion of several, including the Reeve, that it was not within the power of the Municipality to pay such accounts, but the clerk was instructed to obtain legal advice. The Council, however, did not commit itself.

The reading of an offer of \$700 from Sam Uzawa for a parcel of land between the Pollock and Nelson properties occasioned some discussion. At a previous meeting \$300 had been tendered for the same property. Coun. Campbell, Chairman of the Properties Committee, reported that a municipal employee had spoken for the same property some days ago, offering \$700. As this applicant for the property was temporarily out of town it was unanimously agreed to hold the property for his acceptance when he returns this week.

An offer of \$1,500 was received for the property on Jones' Flat known as the Hewitt lot. This was one of three properties recently advertised for sale, but the price offered was not considered sufficient.

Upon an inquiry from Coun. White asking if it was proposed that the Council hold these properties out of production until the full price was obtained rather than get taxes and rates due out of them and get them under production, Coun. Simpson suggested that having advertised them and obtained offers below value the Council could now put a price on each lot. This met with favor from Coun. Campbell, and prices were agreed upon for the three lots that had been advertised.

After making provision for the putting of a road through lots 7 and 8 between S. B. Snider's and the Moore property, two rough lots with a very small proportion of tillable ground, it was agreed to accept S. B. Snider's offer of \$500 for lot 8 and the portion of lot 7 that will lie to the south of the above-mentioned road. This road will give an outlet from "Happy Valley" to the main Giant's Head road.

During the morning A. E. Hespeler called and presented two letters which were read by the clerk, one being a copy of a letter written by the municipal clerk to Mr Hespeler's solicitor, and the other from the solicitor to Mr Hespeler. The subject of the letters was the section of the Gulch road passing through the Hespeler property. For several years Mr Hespeler has been endeavoring to get a plan of the road so that he might give the municipality a deed and at the same time has been asking that the original surveyed road running over the rock be cancelled. It is a matter of exchange, and his stated reason for making the demand is that he wanted the matter made clear and definite. Not having succeeded in having his request complied with he had finally put the matter in the hands of a lawyer. In coming before the Council at this time he protested against

the delay the engineer was occasioning in carrying out the promises of the Council and more particularly against the phraseology of the clerk's letter to his solicitor in which it was said that the Council considered Mr Hespeler a nuisance. Mr Hespeler claimed he was only asking for what was justly due him and could not see how he could be considered a nuisance in so demanding his rights. Regretting the tone of the clerk's letter the Reeve said that it was unbecoming, and that the insult was quite uncalled for was the opinion expressed by the other members of the Council. Coun. Campbell assumed some of the responsibility for the Council as a whole when he said that too much was left to the clerk, and that he should have been instructed as to just what to say. In this the Reeve concurred. The discussion ended when the following motion was passed unanimously, and the Reeve informed Mr Hespeler that he would receive a copy of the apology: Moved by Coun. Simpson, seconded by Coun. White, that this Council do hereby tender Mr Hespeler our sincere regrets that our municipal clerk in a letter dated October 15th to Mr Hespeler's solicitor did use unwarranted and discourteous language in reference to Mr Hespeler.

Mr Hespeler submitted an engineer's plans of the Gulch road section of his property, and, claiming that he had been over-taxed for years, asked that reduction be made in his water rates to the extent of the waste land shown in the plan.

A request for domestic water was received from Arthur Davidson, Mrs Pacey, C. W. Lees, and A. E. Smith, and was referred to the Public Works Committee. Another applicant for domestic water connection was received from R. O. Blacklock, and was granted.

A Vancouver brokerage firm wrote offering to take the last issue of municipal debentures at par, less 2 per cent. commission. About \$10,000 of this issue has been sold locally, and more will be taken soon, according to the treasurer. It was not thought necessary to consider the offer.

The Public Works Committee reported the necessity of conserving reservoir water, and recommended that an advertisement be placed in The Review forbidding the wasting of water by the unnecessary running of taps, requiring that the users make other provision against freezing.

To provide the Paradise Flat section with water during the winter is an expensive proposition with the present equipment. With the view to reducing this expense technical information is being sought before a change is made.

Another communication was received from the Okanagan Telephone Co., in which that company again insists that the Municipality must keep the company's lines free from trees within the Municipality. This seemingly referred to all trees whether growing wild or planted along lot lines. Legal advice will be obtained.

Rev. O. E. Mann, a property owner here, wrote asking the prices of municipal property, stating that he had prospective buyers.

## Returning Soldiers Arrive Tonight

Cpl. H. A. Walton and Ptes. Harold Smith and J. Corner are due to arrive here to-night by the steamer "Sicamous." All three have but recently landed in Canada, and have come directly across country. We understand that they will be given their discharges at an early date. Cpl. Walton was stricken on with diphtheria in June and was removed to England in August, and is being sent home for discharge. Pte. Harold Smith, who was wounded in the leg is still quite lame, and will also be discharged.

### OUR RETURNING MEN.

IS SUMMERLAND TO MAKE any organized effort to express the joy in the hearts of its citizens upon the return of her soldier citizens and the individual gladness with which they will be welcomed back in our midst? There will be some disappointment with the returning men that the necessities of the situation do not permit their returning in a body instead of singly or in small groups as has been ordered. That each and every one might be met at the boat and given a royal welcome with the cheers of the crowd augmented by the blaring of horns, the beating of drums, etc., would be desirable. It may even be possible to effect some measure of a reorganization of our band. The irregular arrival of the boat, sometimes at inconvenient hours, and the more or less irregularity in which the men will be returning might so make it that one group would be appropriately welcomed and another not. However, with proper organization these difficulties could be readily overcome. Another method of giving public expression of our appreciation of the great services these men have rendered and of the joy we feel in having them with us again would be by holding some special public gathering at which they could be collectively and individually welcomed and thanked, and an appropriate program being provided at the same time. Let us not put this matter off, there is no time to be wasted if we are to show the appreciation felt by each and every citizen.

### INCREASED EXPRESS RATES.

NO POINT IN THE OKANAGAN or perhaps in the province will be more concerned in the recent intimation that the express companies may raise all their rates 25 per cent. Summerland has built up an enormous express shipping business which, notwithstanding the greatly improved service being given by the freight shipping organizations, gives every promise of continued growth. By much hard work and persistent effort this business was established, and if a 25 per cent. increase is made in the cost of delivering fruit to their customers on the prairies it will be a serious matter to the shippers.

### ITS VALUE NOW ESTABLISHED.

PRIOR TO THE WAR display advertising in newspapers by governments was practically unheard of. Lord Kitchener first authorized it in England for recruiting, and its success was phenomenal. The Canadian Government first tried it to develop the apple market; later to increase production, and its success made newspaper advertising an essential part of every campaign requiring the attention of the people. Its efficiency in selling Victory Bonds has been outstanding.

With newspaper advertising a success in such selling undertakings how much more so must it be with the everyday merchant who has something to sell to the people six days in the week. And it might be stated right here that the same principles apply to the same extent in the smaller town as well as in the larger city. In the city it is thoroughly understood. In the smaller town only a few fully appreciate

## MUNICIPAL VOTERS' LIST 1919

TAKE NOTICE that the Council will sit as a Court of Revision to revise and correct the said Voters' List on Tuesday, December 10th, 1918, at 10 o'clock a.m., at the Municipal Office, West Summerland.

J. L. LOGIE,  
Municipal Clerk.

the true value of advertising along proper lines. It is a matter of education to the point that the worth is fully appreciated, that it means more people in the store every day, and in consequence more sales. When that is thoroughly understood there will be no question about the results. There are some business men that will never get over the idea that "it does not pay to advertise." That is where the man who believes in advertising has the great opportunity.

### "LET'S MAKE IT GOOD"

THERE IS A LIVE-WIRE wholesale firm in Winnipeg that has been handing out some real business pep to customers in a circular letter. The letter has both kick and punch as a tonic against the influenza and war aftermath and should be read daily by every business man. Here it is:

"Well, at least we have got the war over, and after having one celebration that was not called for, we have finally got the official news. However, the extra celebration didn't do any of us any harm.

"Undoubtedly, you are just as pleased as we are to get the long war over and done with. It has been a long, hard, uphill fight, but the Allies have triumphed, and we can be justly proud of Canada's share in the victory.

"All honor and praise to the boys who made it possible and who will have a vacant chair.

"You have likely heard a good deal of 'blue ruin' talk about what would happen to business after the war was over. We have, and, naturally, you have heard your share. Our own opinion is that business will be just what we make it ourselves. If we all go around with long faces and "failure" thoughts, business certainly will be bad, but if we put aside all such ideas and notions, and all pull together for a bigger and brighter business future, all will be well, and the adjustment period will not be noticed.

"We would like to have this letter give you one thought to carry with you, to use in your daily affairs. It is this—

BUSINESS WILL BE JUST WHAT WE MAKE IT.  
LET'S MAKE IT GOOD.

THE VANCOUVER PROVINCE publishes an item to the effect that Hon. Martin Burrell, Secretary of State and Dominion member for Yale, is certain to retire and may be succeeded by Henry B. Thomson, former provincial member for Victoria, and present Food Controller. Mr Thomson is a pioneer in B.C., and knows both Interior and Coast intimately.

A flea and a fly had the "flu."  
They neither were sure what to do;  
Let us fly said the flea; let us flee  
said the fly;  
So they flew through a flaw in a flue.

### A Crop of Mangel Seed

Above is shown a section of the field at the Summerland Experimental Station devoted this season to mangel seed production. Supt. R. H. Helmer is standing against the shocks. The method of harvesting is to cut the crown off the root using a sharp shovel. This prevents too quick drying. The drying requires two weeks. In the picture the crop has been tied up into shocks

#### SOME COW.

The record for seven days of the great cow Lakeview Dutchland Artis, Canadian Champion, is 34,445 lb. fat, equivalent to 43.05 lb. butter 80 per cent. fat. Her milk was 654.5 lb. Her best day's milk was 100.4 lb. yielding 5,526 lb. fat.

#### A LIVE SHEET.

"The friends of this paper will please hand us items while they are fresh. We prefer not to publish a birth after the child is weaned, a marriage after the honeymoon is over, or the death of a man after his widow is married again."

# RED CROSS DRIVE

December 9th - 15th

HOSTILITIES are not likely to be revived, but there is still much work for the RED CROSS to do.

HERE ARE SOME OF THE REASONS why you are being asked to help in this Campaign:

- Care of Canadian prisoners of war on German soil during the period of demobilization, transport, home-coming, and repatriation to Canada.
- Care of sick and wounded Canadian soldiers and sailors in field hospitals, base hospitals, convalescent homes, and specializing hospitals in England and France as long as any such remain.
- Care of sick and wounded Canadian soldiers and sailors in Canadian hospitals.
- Maintenance of complete Red Cross establishments, with personnel and supplies for the Canadian army of occupation in Europe for so long a time as any Canadian forces remain in Europe.
- Care, personnel, service, and comfort for Canadian forces during demobilization.
- Demobilization of Red Cross active service establishments in England and France and the return to civilian life of surplus Canadian Red Cross workers overseas.
- Maintenance of complete Red Cross establishments with personnel and supplies for Canadian forces in Siberia, under the direction of Lieut. Col. Dennis, recently appointed Red Cross Commissioner to Siberia.
- Relief for the destitute sufferers of war

NEXT WEEK British Columbia will be asked to raise \$250,000. Summerland's share of this has been fixed at

**\$1,500**

Be Prepared To Do Your Share

# ADVERTISING

Is An Evidence of Community Loyalty as well as Good Business

ADVERTISING will do more than build your business. It will build your community.

It will encourage the people in your Community to buy at home more.

It will counteract the effect of outside advertising and keep so much more money in the district.

And your community, after all, is only the aggregation of yourself and the rest of us.

Advertising to-day is, therefore, the business and the patriotic duty of the business men in this community.

And the logical medium is your home paper, as it reaches every buyer in the whole district.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr Charles Morrison left on Wednesday morning of last week for Kelowna, where he has accepted a position in the Canadian Bank of Commerce branch in that city. All Charlie's friends wish him well, with heaps of success in this new line of business.

We notice that Messrs O. G. & A. J. Miller are getting on nicely with the construction of their new building on the foundation from which their building was burned recently. They have the frame all up and about ready for the shingling.

Mr G. Lang, who is in the employ of the C.P.R. on the engineering department, with his wife spent a day in town with Mrs and Miss McDonald. They came in on Tuesday night of last week, leaving on the evening boat on Wednesday. Mrs Lang has recently been doing some volunteer nursing in Vernon, helping with the influenza epidemic.

Miss O. Cousins with her sister's little daughter Kathleen left on Wednesday morning of last week for Salmon Arm. We understand Mrs Cousins is coming to that city to keep house for her daughter and take care of her little granddaughter Kathleen.

Mrs W. Lupton with her family were passengers to Kelowna on Wednesday of last week after having spent a few days here with her parents, Mr and Mrs C. Aitkens.

After spending a few weeks here nursing and caring for Mr John McKinnon, who has been suffering from an attack of pneumonia, his sister, with her little boy, left on Wednesday evening's boat of last week to return to their home near Princeton. Mr McKinnon is out again, and we are pleased to be able to state is getting back toward his usual health.

The many friends here of Miss S Dimock, were very sorry to be called to bid her good-bye as she left on Thursday morning of last week for St. Louis. On former occasions she went there to visit, but this time it is her intention to make her permanent home there with her brother. Her absence will be greatly felt among her circle of friends here.

Mrs W. W. Fulton was a passenger north on Thursday morning of last week, returning in the evening.

Mr and Mrs Pinneke were passengers for Kelowna on Friday of last week. Mr Pinneke returned alone, having had to leave Mrs Pinneke in the hospital there for treatment for a week or ten days. She has been suffering for some time now with a very sore foot.

Miss Newby left on Friday evening's boat to spend the week-end in Summerland.

Special Thanksgiving services were held here, on Sunday last. A fairly good attendance listened to an able address by Rev. J. A. Rowland in the Methodist Church and the choir rendered special music, being two anthems. Service was held also in the Anglican Church,

under the leadership of Rev. H. A. Solly of Summerland. A goodly number were present.

Passengers to Kelowna on Monday last were Mrs and Miss K. Miller, Mr J. E. Kerr, Mr J. McKinnon, all returning on the evening boat.

Passengers going south on the "Sicamous" on Saturday last were Mrs Kirkby and Annie Margaret, who have been spending a time here with Mrs Kirkby's parents. Miss M. McLaughlin accompanied them home.

Mr and Mrs G. B. Phillips left on Monday morning last en route for the eastern states where they go to attend the Osborne Art Calendar Salesmen's Convention. It was their intention to make several stops en route, at Calgary, Moose Jaw, and Winnipeg. They expect to be back in Peachland shortly before Christmas.

Rev. and Kathleen Henderson passed through town on the "Sicamous" on Monday last on their way to California. Miss Kathleen is looking better again after her sickness, and is also feeling much better. Mr Henderson, we understand, has been feeling the need of a change and holiday, so they expect to spend about a month in the south.

Miss Jean Dryden went back to Kelowna on Monday last to resume her studies in the school there.

Mr H. D. Riggs came down from Kelowna on Monday night, intending to combine business with pleasure this week, in the matter of looking after his pre-emption here and taking a little deer hunt. He expects to remain over Sunday and fill the pulpit in the Baptist Church.

Mr Seth Davidson and Cecil Brown were passengers to Kelowna on Tuesday of this week, returning the same day.

### Peachland Union Has Banner Year

#### Shipments Exceed All Previous Records.

The Peachland Fruit Growers' Union is closing the season with the most successful year's business in its history. During the 1918 shipping season the Union has shipped 68,125 packages of fruit and vegetables, and over 50,000 pounds of fruit in bulk. Since 1914, the first season for which we have accurate figures, the Peachland Union has been making steady increase in its output.

The sales of 1917 greatly exceeded those of any previous season, but even that good year has been excelled this season by almost 50 per cent. in package shipments. The bulk stuff shipped in 1917 and 1918 were practically the same.

During the season just closed the Peachland Union has shipped the following in packages:

Apples	23,697
Pears	2,967
Crabapples	1,777
Peaches	24,443
Prunes	1,473
Plums	4,260
Apricots	1,125
Nectarines	10
Cherries	4,884
Currants	173
Gooseberries	68
Raspberries	6
Grapes	90
Tomatoes	2,925
Cantaloupes	31
Cukes	160
Rhubarb	4
Beans	14
Vegetable Marrow	18

Total packages 68,125  
The bulk sales were:

Cherries	520 lbs.
Peaches	20,500 ..
Tomatoes	15,300 ..
Apples	14,000 ..

Shipments during the past five years were:

1914	30,937 packages
1915	36,733 ..
1916	37,166 ..
1917	47,027 .. and 51,272 lbs.
1918	68,125 .. and 50,320 lbs.

Mr J. Gardner of Penticton, district agent for the London Life Insurance Co. of London, Ontario, came up on Tuesday morning to spend a few days in town with the local agent, Mr H. E. McCall, looking up some insurance business.

Old friends of Mr H. Slater will be interested to learn that he is the proud father of a nice little girl, born to them last week-end.

#### Apples Awaiting Shipment

Mr R. G. L. Clarke, Chief Dominion Fruit Inspector for B.C., in a circular issued this week reports apples on hand at various points in the Okanagan as follows:

Summerland	55 cars
Vernon	26 ..
Kelowna	13 ..
Penticton	12 ..

He reports that plenty of refrigerator cars are now available for moving these apples.

### The Provincial Seed Fair

is POSTPONED and will now be held on **JAN'Y 13, 14 & 15th, 1919, at KELOWNA.**

Annual Convention of the B.C. Seed Growers' Assoc. will be held on JAN'Y 14 and 15th, 1919.

The Dairymen's Convention will be held at Kelowna on JAN'Y 15 and 16th, 1919.

Those interested can plan to attend all three events. J. TAIT, Secretary S'land Farmers' Institute.

### So. Okanagan Poultry Show, PENTICTON - DEC. 17-20th

Lots of Cups and Specials. Judge - J. HADEN, Calgary. Sec'y - A. S. FEWRELL, Penticton.

## A Song for Every Mood

Music gives expression to every human emotion. All that is happy and beautiful in life, has been expressed in music.

When things seem bright and cheerful because a ray of happiness has come into your life, you need an outlet to give vent to your feelings.

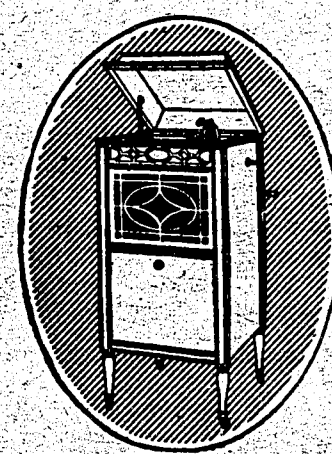

When sorrow or depression comes, the need of consolation is even greater.

It is at such times that you derive the greatest comfort from

## The NEW EDISON

"The Phonograph with a Soul"

Then one sweet note of the voice of Anna Case, or one ripple of melody from the bow of Albert Spalding, puts your soul in harmony with the world. Music—real music—is one of life's greatest boons. Edison music is real music because the New Edison does not merely imitate, it re-creates. One never tires of the New Edison, the novelty never wears off, because there is no novelty to wear off. It is not just another "talking machine". It is decidedly different. To appreciate the difference you must hear it.

We will gladly submit the New Edison to your musical judgment either here or in your own home.

Summerland Supply Co. Ltd., Summerland, B.C.

# Newspaper Space

Not  
For  
Fakirs

The thing that will make your place a landmark and your name a household word is consistent, truthful, rightly supported newspaper advertising.

"A city that is set upon a hill," says the Good Book, "cannot be hid."

The right kind of advertising will, so to speak, set any man, any town, any worthy business upon a hill.

Play fair, look after things, and dip deeply into printer's ink—and you can no more escape becoming prominent and successful than you can reverse gravity and cause rivers to run up grade.

Carry the stuff—deliver the service—keep up a vigorous fire in the papers—know what you print, and live up to it.

The most precious and desirable thing in a business career is public confidence. Getting ever-widening circles of people to believing in you is progress of the first order, but educating strangers to the idea that you're a man not entirely to be trusted, is slipping back—no matter what, for the time being,

the balance sheet may be saying to the contrary.

Forget that old saying of the circus man, that "people like to be humbugged"—they do, on any circus day—and have a bully time over it—but regular business is different.

The fellow who deliberately sets out to deceive the public is a fool and a piker if he thinks he can get away with it through pages in newspapers. He may manage to put it over for a while, but the backfire will get him in time, and it won't be long before he'll find himself exactly where he deserves to be—nowhere.

Newspaper space isn't for fakirs—it's for honest men, and every honest business can profit greatly through the use of it. It throws a spotlight upon the scene—and men and things that aren't quite standard will not stand the glare.

The crook should eschew printer's ink—he should emulate the Hun propagandists—slip around quietly and pass the bunk heart to heart.

For  
Honest  
Men

**Storms Interrupt Railway Traffic.**

A heavy snow and sleet storm on Monday night and Tuesday seriously interrupted railway and telegraphic communication in this province, particularly in the direction of the Coast. The C.P.R. telegraph lines west of Sicamous were broken down and the K.V.R. telephone lines through the Coquihalla Pass suffered likewise. The washout near North Bend delayed trains on the C.P.R. main line, and no Coast-mail reached the Okanagan on Wednesday.

Heavy snowfalls in the Coquihalla Pass interfered with the K.V.R. train schedule, and trains have been arriving somewhat irregular. We believe last night's train came around by Spence's Bridge, but that the next train is expected to come through the Pass.

It is said that four feet of snow fell in the Pass on Monday, and one engine was off the track, but was soon replaced, and another was stalled by the snow.

**Passing Events: Social, Personal, &c.**

Mrs Norris, who has been the guest of Mrs Lipsett for some time, leaves for her home in Vancouver to-night.

Deer seem to be more plentiful than usual, and many of them are being brought down by local hunters. Numerous reports are heard of successful hunting trips.

Mrs Ogilvie of Vancouver boarded the Coastbound train on Friday evening last after several months' sojourn in Summerland. Her health is much improved as a result of her stay here.

Mr J. W. Jones, M.L.A., came down from Kelowna on Wednesday evening. He spent Thursday afternoon and evening at Naramata, returning to the Orchard City on Friday morning.

The mine on the lake shore between Naramata and Pentiction, which has been operated for some months by a Pentiction syndicate, has been closed down for the winter months. The season's work has been pronounced successful, and the mine will probably be equipped with a compressor and air drills next year.

Attention is directed to the announcement in our advertising columns in this issue of a sale of work in which home-cooking will be a special feature. The sale will be held in Campbell's Hall, Saturday, December 14th, by the ladies of St. Andrew's Church. Every preparation is being made to guarantee a success of this, now annual, event.

In a letter received this week by his father, Mr J. O. Smith, Pte. "Jack" Smith, now in Vancouver, states that he is daily expecting his discharge because of a weak foot. It was only after many attempts to get past the Medical Board that Pte. Smith finally succeeded in San Francisco in enlisting in the Canadian forces. The doctors now tell him he should never have been passed.

**Closing Hospital.**

No new cases of influenza have been reported for some time with but one exception, that being Sam Uzawa, who is supposed to have contracted the disease while visiting sick friends in Mineola.

The Emergency Hospital is being closed this week.

Miss Gordon, who has so efficiently filled the position of matron since the hospital was opened, will return to her home in Naramata to-morrow.

The rural mail route and the service between the upper and lower post offices was taken over a few days ago by J. H. Bowering.

Come early and get your choice of these Mounts.

**W. W. HANDFORD,**  
PHOTOGRAPHER,  
PENTICTON.

Mr T. T. Dufrenne, of Montreal, is guest at Kalavista Resthome.

R Mitchell and his men returned on Thursday from Trout Creek headwaters.

Mr and Mrs F. A. C. Wright were passengers coastward bound on the K.V.R. on Wednesday.

Edward Logie, who has been home for a short time, returned to the Coast on Wednesday where he will take up the study of law.

Schools re-opened on Monday morning with only slightly reduced attendance. Manual training classes are being held in the new quarters recently provided in the addition to the High School building.

Mrs H. P. Salting and Mrs D. I. Walters, with her two children, of Naramata, started on Tuesday morning to visit friends and relatives at Battle Creek, Michigan. They will be absent for several weeks.

Word was received here this week by Mrs S. F. Sharp and Mrs Harold Smith of the death of their mother, Mrs Thornthwaite in England. The news was not wholly unexpected as Mrs Thornthwaite had been failing in health for some time.

Word has been received by his relatives here of the marriage of George Loomer to Miss Mary Smith of Jedburgh, Scotland, on November 4th. Mr Loomer, who enlisted from here, has been doing forestry service in Scotland.

H. M. Ramsay brought down an immense black eagle last Thursday afternoon on the Summerland road. The bird has a spread of seven feet from tip to tip of its wings. Mr Ramsay is having it mounted as a decoration for his store—Pentiction Herald.

A representative of the C.P.R. came down from Revelstoke to inspect the Union building, and we are informed that before leaving he made a statement to the effect that the wreck was due to faulty construction, which would imply that the building would be repaired at the expense of the C.P.R.

Miss Jenny Nicholson, who has been a resident of Summerland for some time, and is now teaching at Peachland, has been appointed teacher of the Town School. She will take up her new duties after the Christmas holidays, Mrs Beer having tendered her resignation to take effect at the end of this term.

Since our last issue further particulars have been received of the death of Mrs Wm. Carberry, daughter of Mr and Mrs R. Clouston, which occurred on November 20th at Rutland, Mass., and not in Boston as at first reported. Her parents, who were on their way east, received a telegram at St. Paul informing them of their daughter's death, which was caused by pneumonia, and was very unexpected. The deceased was but thirty-three years of age.

The Fruit Union now has two cars of feed and flour on sale. 19

James Ritchie spent a few days here recently attending to some business affairs.

Mr and Mrs A. E. Hespeler went out by K.V.R. on Wednesday evening to spend the winter in Vancouver where their young daughter is attending school.

Three or four new cases of influenza are reported to have appeared in Pentiction on Wednesday. The authorities there are confident that the disease will not spread again to any extent.

I. Henderson, son of G. A. Henderson, Vernon, district manager for the Okanagan of the Bank of Montreal, has enlisted at Vancouver in the Canadian Expeditionary Force for Siberia.

In anticipation of an increased number of tubercular cases resulting from weakened constitutions from attacks of influenza, the Pentiction hospital is preparing an outdoor cottage for the treatment of rest cases in order to prevent as far as possible the development of the dreaded white plague. Announcement is made elsewhere in this issue of a song recital and dance to raise money to help equip the cottage. The curtain raiser will be a two-act farce on the "Flu," given by the hospital staff, and written and arranged by Miss Pearson, one of the staff. Among the singers will be Mrs J. A. Burd, and Miss Pearson, whose home is in Brooklyn, New York, and Messrs Stock, Hinton, and Weaver will also assist in the program. Mrs Guernsey will be the accompanist, and two readings will be given by Miss McGregor. The "Bing Boys" will supply the music for the dance.

**CARD OF THANKS.**

I wish for myself and family to thank the Summerland Lumber Co., the people of Mineola, Upper Trout Creek, and Summerland for their kindness in our recent bereavement.

RICHARD M. H. TURNER.

**CARD OF THANKS.**

Mr and Mrs J. B. Thompson and family wish to extend their thanks to all those who so kindly came to their help during their illness with influenza.

It takes a rich man to draw a cheque; a pretty girl to draw attention; a horse to draw a cart; a porous plaster to draw skin; a toper to draw a cork; a free lunch to draw a crowd; and a well-displayed advertisement to draw trade.

**Savings Stamps.**

Thrift stamps and war saving stamps are now on sale at the local post offices. The purchaser of a thrift stamp is provided with a card arranged to hold sixteen stamps costing now 25 cents each. This collection of stamps totalling \$4.00 will be redeemed for \$5.00 five years hence. After January a premium of one cent per month will be added to the cost of the stamps. The war savings stamp costs \$4.00 to the end of January, after which one cent per month is added. The purchaser of these is provided with a war savings certificate to which ten stamps may be attached and will be redeemed at \$5.00 for each stamp on January 1st, 1924. By these two methods of saving, the public are given an opportunity to lend small savings to our government at a rate of interest exceeding 4 1/2 per cent, compounded semi-annually.

The steamship "Olympic" now the largest ship flying the British flag, arrived recently at Halifax with a big passenger list. She will sail from that port for Liverpool about the 12th, and passengers are being booked for Britain. The passenger rates are: first class, \$177; second class, \$92.50; third class, \$67.50.

**OBITUARY.**

**DIED.**—At the Emergency Hospital, Summerland, on Friday, Nov. 29th, Charles A. Turner, elder son of R. M. H. Turner, aged 18 years 4 months.

The funeral of Charles Turner was held on Saturday afternoon, burial being made in the Roman Catholic Church cemetery, at Pen-ticton. His death was caused by pneumonia, following an attack of influenza, and for several days he had been a patient at the Emergency Hospital, where he passed away on Friday night last. Charles was the eldest son of Mr and Mrs R. M. H. Turner, of Upper Trout Creek, and was only eighteen years of age. Besides his parents there are left to mourn their loss one brother and two sisters.

The death of John Smellie, who has been an inmate at the Kalavista Resthome, occurred on Thursday morning.

Accompanied by his father, Mr W. K. T. Smellie, who has been here for some days, the body was taken to Winnipeg this morning.

The deceased, who was a native of Ontario, was at one time with the Canadian Bank of Commerce at Pen-ticton, and later spent some months here at the Kalavista Resthome. He apparently fully threw off his tubercular trouble and was at Princeton with the coal company there when the disease reappeared. It is believed he over-taxed his strength.

One of the Japanese employees at the mill of the Summerland Lumber Co, by the name of Ukubo, died on Tuesday a victim of influenza. The body was brought down from the mill on Wednesday, arriving here about 1.30, and was taken direct to Peach Orchard cemetery where one of his fellow citizens presided over the brief ceremony held there.

**RATHER RAW.**

An Iowa paper does not hesitate to use its personal column to remind delinquent subscribers of their remissness.

The Oxford Leader incidentally mentions that "John Centman, who skinned the Leader out of a year's subscription, was in on Tuesday with a load of water-melons."

Canadian consumption of butter could profitably be reduced by 25 per cent., according to a Canadian authority. If such measures were adopted it would release for export 56,000,000 pounds per year. Another technical advisor states that national consumption averages 28 pounds a head per year.

California produced more than half the peaches grown in the United States this year, according to the Department of Agriculture. The commercial crop of California was 11,663,000 bushels, and of the entire country 20,546,000 bushels. Of the California crop 88 per cent. is either canned or dried.

## Municipal Elections

### Soon Time To Elect Reeve, Councillors and School Trustees

#### Board Of Trade Takes Hand In Civic Politics. Petitioning Councillor Simpson To Permit His Nomination For Reeveship

The last regular meeting of the Municipal Council for the year 1918 will be held to-morrow, Saturday. Occasionally we hear the question "who are to comprise the 1919 council?" The rush for honors has not yet made it difficult for ratepayers to choose, and while municipal affairs are frequently discussed and not infrequently is the action or non-action of the municipality criticized, the task of carrying on municipal government is not sufficiently attractive to bring out many candidates. The Board of Trade, in announcing a meeting to be held to-night, makes a somewhat radical departure in stating that the consideration of the personnel of the 1919 council and a discussion of municipal affairs in general is the principal business to be brought before the board. Anything that will create livelier interest in municipal affairs and will induce ratepayers in general to take a more active participation in the welfare of the community will be welcomed by well-wishers of the district.

At the coming elections it will be the duty of the ratepayers to appoint a reeve and four councillors, and two school trustees. The reeve and one councillor for each of the four wards are elected annually. Trustees are elected for two years. The three who were put on the board a year ago, Messrs Gartrell, Garnett, and Marshall, still have another year to serve. The retiring trustees are Mrs W. C. Kelley and Mrs F. W. Andrew, and we are informed that neither of these ladies will consider re-election. This being the case two new candidates must be selected. School trustees are elected by the ratepayers at large, not by wards.

The Review has not yet been able to learn whether it is the intention of all the present members of the council to offer themselves for re-election. In discussing the matter with Reeve Blair he stated that he was inclined to retire but had not definitely decided. We believe that Coun. Johnston has been approached with the suggestion that he accept nomination for the reeveship, but he informs The Review that he has no desire for the position. In our rounds this week we came across a petition, now being circulated for the signature of ratepayers, asking Coun. Simpson to permit his name to be entered on nomination day for reeve. Nothing more than rumor could be gathered as to any new candidates in any of the four wards as ward representatives on the council.

## Christmas Vacation

Dr Alexander Robinson, Superintendent of Education, is notifying the several School Boards in districts where schools were closed for three weeks or more as a preventive measure against the spread of Spanish influenza, that the school boards are empowered to keep their schools in operation the whole or part of the Christmas and Easter vacations, except Christmas Day, New Year's Day, Good Friday, and Easter Monday.

The question of holding classes during the holiday season was considered by the Summerland School Board, but the idea was finally abandoned. To-day is the last day of the school year with the exception of the manual training department, where classes will be held next week as usual. This is by mutual arrangement between Instructor Baker and the boys.

## Faces Winter of Misery and Distress

The clothing and food situation in Roumania is causing great misery, says George Danielopol, the newly appointed Roumanian Minister to Washington. The German occupation of Roumania brought poverty everywhere. The minions of Von Mackensen were as cruel as those of Von Bissing," says the minister. "Bucharest, like Brussels, has been stripped clean of everything. "If relief does not come soon a large part of our population will die this winter from hunger and cold. The people are walking about in their bare feet and they lack nourishment. "In Roumania at present a suit of clothes of a cheap variety costs more than \$200, a pair of shoes \$120, and a pound of chocolates \$25. The needs of the country are clothing material, shoes, and fats." Above is a picture of the principal street in Bucharest, the capital of Roumania.

## Women Will Unite Forces

### Two Local Institutes To Be Amalgamated

By a motion, carried unanimously at a well-attended meeting of the West Summerland Women's Institute, it was decided that the institute join forces with the Summerland Institute. Details of the amalgamation are to be worked out at a joint meeting to be held in January.

Mrs K. Bentley presented a report of the seed growing competition, in which eight of the members participated. The growing of mangel seed and sweet pea seed, and of mangel steckling had been taken up. Prizes were awarded as follows: for mangel seed, Mrs W. C. Kelley, 1st; Mrs F. Dickinson, 2nd; and Mrs and Miss Dale, 3rd. These same winners in the same order also took the prizes for sweet pea seed. Miss I. Spencer won the prize for steckling mangels.

During the meeting Supt. Helmer of the Experimental Station gave a very interesting talk on Soil Fertility.

## Returned Soldiers Favor Farming

Over 105,000 members of the Canadian Expeditionary Force wish to take up farming in Canada after the war. This figure was obtained by interviewing 230,000 members of the forces overseas; 48.9 per cent. of those men wish to go on the land. The provinces in which they wish to settle are as follows:

Ontario	25,400
Alberta	23,072
British Columbia	15,135
Saskatchewan	15,108
Manitoba	11,708
Nova Scotia	8,533
Quebec	8,380
New Brunswick	2,831
Prince Edward Island	816
Province not stated	4,518

"Of these 105,000 the cards disclose that 78,000, or 74 per cent., have had previous agricultural experience," statement says. "The number of men who have had three years' experience or more is 62,000, or 58 per cent., and the surprising number who have had twenty years' experience or over is 11,000, or almost 11 per cent.

"That this declaration represents a substantial prospective increase in the agricultural population is revealed by the fact that of the 105,000 men who wish to go on the land, fewer than 41,000 were actively engaged in agricultural pursuits at the time of enlistment.

"The men were asked to state whether they desired to take advan-

(Continued on Page 5.)

## Theatres Offer Special Features For Holidays

### Coming Of Two World Famous Pictures Announced This Week

Special attractions for the holidays are being offered this week by both the Rialto and Empress. On Christmas night and the night following the Rialto will put on "Lest We Forget," the great screen drama for which the world has been waiting. The historical significance of the drama will make it of value as long as the world stands, for it shows in visible form the great causes back of America's entrance into the war. The violation of Belgium and the leading of its citizens into captivity, the wanton destruction of magnificent cathedrals, and the inhuman treatment of innocent women and children are shown both on land and in the sinking of the mammoth ship, the "Lusitania," are all to be seen in "Lest We Forget."

[Continued on Page 8.]

## New Business Opening Here

### Bakery and Restaurant To Supply Long Felt Need

A long-felt need in the business life of the community has been a bakery to supply bread, cake, etc. This need is now to be supplied. A baker's oven, large enough to hold a hundred loaves at one baking, is now being built in the Campbell Block by Mr W. Johnston, who has had twenty years' experience in cooking and catering. Mr Johnston is this week opening a restaurant where meals will be served at all hours, in fact, while the restaurant is being fitted up, meals are now being served in the rooms above. Mr Johnston has been in charge of some excellent cafes and dining saloons, and more recently has been in charge of the catering on C.P.R. trains carrying officers and troops.

The opening here of a restaurant and bakery in charge of a man of the capabilities and experience of Mr Johnston, will be welcomed by the people of the district.

## Okanagan Valley Selected by Govt. for Settlement Plan

### Fairview—Osoyoos Tract Acquired From The Southern Okanagan Land Company. Will be Developed by Government in Units and Sold to Soldiers

The announcement was made at the provincial capital this week by Hon. T. D. Patullo, Minister of Lands, that the Provincial Government had completed arrangements for the purchase of the land holdings of the Southern Okanagan Land Company for the purpose of inaugurating a large-scale agricultural settlement in the lower Okanagan Valley. The property comprises 22,000 acres, including about twenty miles on either side of the Okanagan River, together with a stretch of bench lands on the west side of Osoyoos Lake averaging two miles in width, and running for a distance of ten miles from the outlet of the Okanagan Lake to the International Boundary. The townsites of Osoyoos and Fairview are included in the property.

### READY FOR PLOUGH.

The lands are ideally situated in this garden region of the province, with abundance of water nearby for irrigation needs, the entire 22,000 acres being open land all ready for the plough, and capable of being easily transformed into a second Okanagan district.

It is understood that the purchase price of the 22,000 acres is \$350,000, or, on the basis of a little more than \$15 an acre, or \$100,000 less than was offered to the Southern Okanagan Land Company for the property four or five years ago.

In making the announcement on behalf of the government, Hon. T. D. Patullo said:

"These lands, in my judgment, constitute the best development scheme of like proportion in British Columbia. They are being purchased under the 'Soldiers' Land Bill' for the benefit of the returned soldiers and the development of the province generally. In carrying out our plans it may be later found desirable to intersperse soldier settlement with other experienced and capable settlers. This will have to be determined as circumstances dictate. There will necessarily be a very large amount of preliminary work in connection with the project, such as the checking up of surveys for the construction of irrigation works, the subdivision and survey of the whole tract, the laying out of townsites, the allocating of right-of-way for railway, etc.

### DEVELOP BY UNITS.

"This will furnish work for returned soldiers during the construction period, and will put them in a position to make and save money, which will assist them in acquiring the lands after irrigation works have been constructed and water has been rendered available. This project particularly lends itself to development by units, which will keep down the overhead expenses and render its economic success more easy of accomplishment.

"In the carrying out of our plans we think there should be no difficulty in so arranging matters that we can co-operate with the Dominion Government under its legislation, so that Dominion assistance should be available to returned soldiers under their legislation.

"Last summer I went over this ground with the Water Comptroller and it struck me as a great pity that this large tract of what is undoubtedly as fine territory as there is in British Columbia should be practically uninhabited.

"The project has received the consideration of other officers of the government, including the Grazing Commissioner, the Superintendent of British Columbia Soldier Settlement, and the Deputy Minister of Lands. The knowledge

of the last-named official of this tract of land extends back some twenty years.

"We propose to formulate plans of operation immediately in order that actual development may begin with as little delay as possible. This is a project worth while. It is constructive work in a large way, and I feel perfectly sure will redound greatly to the benefit not only of the returned soldiers but to the province at large."

### ONE-TIME CATTLE RANCH.

The lands which have thus passed into the possession of the government to be made the object of the government's principal effort in modern large-scale agricultural settlement once formed part of the big cattle ranch staked out over sixty years ago by the late Judge Haynes, and which were later acquired by Thomas Ellis, one-time cattle king. In their later history they have been bound up with the fortunes of the Shatford brothers.

The Okanagan River, which runs through the middle of the property, is navigable all through the summer from Osoyoos Lake to Fairview Bridge, where much of the best land is situated, a distance of about sixteen miles. None of the land is more than five miles from the river, and most of it is within two miles.

Most of the land will need irrigation, though a small portion is so well watered as to require drainage. Most of the land can be irrigated direct from the Okanagan River by a gravity system. The greater portion of what is outside of the river-fed system is said to be capable of being irrigated by a gravity system fed from the creeks. The necessary reservoir sites on Inkampep Creek, which were obtained by the company some time ago, pass with the property to the government. Only a small portion of the lands will require power pumps to bring the water to their ditches.

It is understood that the government will embark on the work of irrigation by easy stages, bringing areas of a couple of thousand acres or so at a time under irrigation. The irrigation plans, when completed, however, are expected not only to take care of the needs of the area referred to, but also to provide water for the needs of the Osoyoos Indian Reserve on the east side of the valley. As no settlement has taken place in that part of the valley, the work of planning out an irrigation scheme to serve the entire area is said to be much simplified.

In his report, which was made at a time when he was transferring his services from the U. S. Government to the Government of the Colony of Victoria, Dr Elwood Mead, after referring to the range of semi-tropical fruits which can be grown in the valley, and to its commercial possibilities, said: "The last resource to be enumerated, but one regarded as most important, is the combination of attractive climate with landscape of unusual scenic beauty. The succession of lakes between Vernon and Oroville are lovely now with the mountain background, but their beauty will be immeasurably enhanced when the valleys become centres of civilized life and their slopes are covered with orchards and vineyards. This tract is the only one where extensive development is possible, and the long narrow strip on each side of the river offers an ideal place for homes. It will, in time, be the resort of those who have accumulated a competence in more rigorous climates and wish to enjoy it where they can have the greatest measure of human comfort."

## 1918 - Christmas - 1918

**B**EFORE another copy of THE REVIEW shall have reached you, dear reader, Christmas Day, the most joyous day of all the year, will have come again.

Not for five years has it seemed quite appropriate or sincere to extend to you our wishes for a Merry Christmas. This year, with our hearts full of gratitude for deliverance from a threatening reign of terror and oppression, and the forces directly opposed to the teachings of the PRINCE OF PEACE, we can truly rejoice, though in our hearts there is the lingering pain for those of our brave men who are not to return with the victorious troops. But these would not have us mourn. Rightly, we should rejoice and be merry, and we wish for you that there may be nothing to prevent yours being

## A Most Merry Christmas Season

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Creekside,  
West Summerland.  
Dec. 12, 1918.

The Editor, Summerland Review.

Dear Sir,  
I read your leading article in The Review of 6th inst. with interest, and hope that it will bear fruit, in fact I have spoken to a few men about it, and they are perfectly agreeable to help form a committee and meet the boat on arrival, and I should think that arrangements could be made with the captain to blow a signal on the whistle when he has any returned soldiers on board for Summerland. At the same time do not let us forget the boys that will never return, having laid down their lives in the cause of freedom. Do you not think that it is time for us to get together and have a memorial to those, and let it be something that will be ever before us, and also something that will help beautify our "Home Town."

A public meeting is the first thing, so let us get together as soon as possible and not forget—when fixing the date—that there are people outside the municipality who do not get their Review the same day as it is published and would be glad to attend.

Trusting you will spare the space for this letter in your next issue.

I am, Dear Sir,  
Yours truly,  
F. A. MILLER.

To the Editor,  
Summerland Review.

Dear Sir,  
Can anyone tell me why it is that Chinamen—without being asked to do so—have sent me donations to the Red Cross drive, while some people who profess to be Christians have refused to give anything to this appeal?

Does their refusal come from utter selfishness, or from a complete indifference to the sufferings

of their fellow creatures? In either case they would do well to take a lesson from those whom they call "heathens."

Poverty is no excuse, for we are never so poor but that we can help those who are more in need than we are ourselves. At this Christmas time of special rejoicing it is hard to believe that there are men and women who can refuse assistance to the suffering and destitute. Though they are thousands of miles away it is as much our duty to help them as if they were right at our door. It is surprising to find that in some cases a Chinaman has more idea of his "Duty to his Neighbor" than the so-called Christian.

Yours truly,  
DOROTHY MAY.

Toronto,  
November 26, 1918.  
The Editor, The Review,  
Summerland, B.C.

Dear Sir:

At the conclusion of the Victory Loan Campaign I wish to express to you this Committee's appreciation of your whole-hearted and effective co-operation. This Campaign probably provides a record in promotion by the press of a public enterprise. That this support is warmly appreciated is made plain by numerous messages which have reached this office during and since the campaign. From the Minister of Finance, from the Chairman of the Dominion Executive, from the Chairman of Special Committees, and from Provincial Chairmen have come messages of cordial appreciation and thanks. For example, from Nova Scotia comes such a message as this from G. S. Campbell, Provincial Chairman: "Hearty congratulations; work thoroughly appreciated in Nova Scotia and largely contributed to the success of the Loan here." This is typical of the testimony from all over the country.

The Campaign began as a war

THE MYSTIC BEAUTY OF MUSIC WAS NEVER MORE NEEDED IN THE HOME THAN IT IS THIS CHRISTMAS

When cloud-banks blot the sky dull grey, or whistling winds make outdoors disagreeable, how cheery and exhilarating are bright lights and sparkling fires;

And in these soul-trying days, how welcome is the cheery brightness—the soothing caress—the soul-satisfying message—of the music you love.

So this Christmas you need music more than ever—good music, that brings the spirit of Christmas to everyone, young and old. Such is the music of

**The NEW EDISON**  
"The Phonograph with a Soul"

This wonderful instrument brings the beautiful world of music into your home—RE-CREATIONS of the art of the world's greatest artists. The New Edison does not merely imitate—it actually RE-CREATES with such utter fidelity that the human ear cannot distinguish between the living artist and The New Edison.

The true spirit of Christmas lies in the soul of The New Edison. Let it sing its message of hope and faith and love in your home this year.

Visit our store for a demonstration of the marvelous New Edison or have one sent to your home. No obligation, of course. 197

Summerland Supply Co. Ltd., Summerland, B.C.

Has a Doctor the Right to Get Drunk?

If the butcher, the baker, or the candlestick maker goes off on a drunk, that's his own business, says the Princeton Star. The tailor, the barber, and the bricklayer can go on a toot and no one is injured but himself. We have seen fiddlers

effort. Before it ended war had ceased. Nevertheless the national well-being which actuated the press in giving the Campaign such unusual support continued. It is impossible to forecast what will be the full effect in Canada during the period of transition and afterwards, of the splendid success of the Victory Loan floated at a most critical moment. Its large share in that success the press of Canada will always be able to recall with satisfaction.

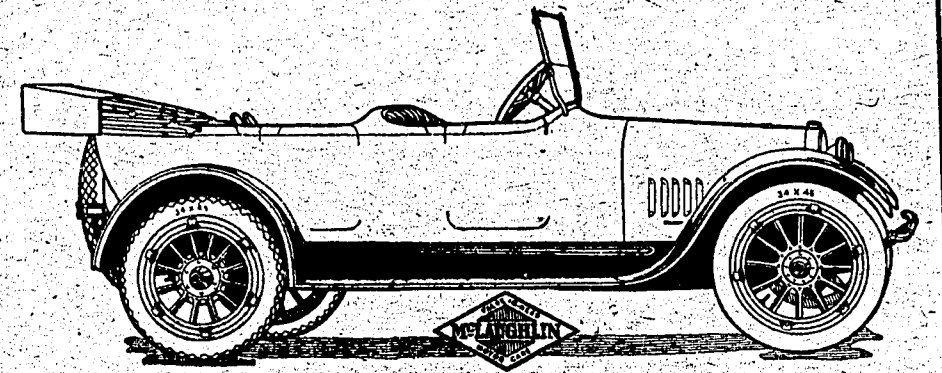

Yours sincerely,  
JOHN R. BONE,  
Chairman, Dominion Press News and Feature Committee.

get tanked up at country dances and spoil the dance, and we have known printers to get soused on publication day and throw the paper late. Cooks have a playful habit of getting stewed just when their services are most required. We even knew a preacher in Nelson some years ago who used to carry home a beautiful jag several nights each week. But no lives were lost and no great damage was done. It is different, however, when a physician gets drunk and stays drunk at a time when lives are depending on him. Then it becomes the public's business.

Bad reports come from Hedley, where, it is alleged, the resident doctor has been "lit up like a battleship" ever since the influenza epidemic started. By being incapacitated, not only were many lives in Hedley in jeopardy, but it was necessary several times to call a Princeton physician to make the 40-mile trip down there and back, when that gentleman already had more work than he could attend to looking after his patients at home.

The people of Hedley seem to have just cause for their indignation in connection with this matter.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs A. Town and Miss Olive Ferguson spent Wednesday of last week in Kelowna, returning on the evening boat.

Mrs W. W. Fulton was a passenger to Westbank on Thursday of last week, returning in the evening.

Passengers to Kelowna on Friday last were Miss F. Brocombe with two of her sister's children, Polly and Teddie Topham.

Four trappers and hunters of Swedish extraction came from down the lake last week prepared to go on a trapping expedition in the rear of our district. We presume, however, that they did not find conditions just as they would wish for their line of business, from the fact that they returned from the hills early this week and took the boat north. We have not exactly an ideal trapping district, but the deer hunting this year has been very successful. There were few hunters who did not realize their allotted number this season.

The Women's Institute met on Friday of last week after having missed their last regular meeting owing to the town being closed down at that time as a protective measure from the influenza. There was a fair attendance to enjoy an interesting session. The accumulation of correspondence was read and discussed as well as other matters of business transacted. During the afternoon Miss A. Elliott was called on to give the report of the convention which was held in Kelowna in the fall, and which report had not been given before owing to the missed meeting. Those present got the next best to an attendance at the convention, for the report was very full and interesting.

Mr D. J. White returned home from the Coast last Friday night to remain for an indefinite time.

Mr W. W. Fulton returned from Westbank last Friday where he had been for a few days previous.

Miss Newby was a passenger to Summerland on Friday night of last week, and her friends here were sorry to learn that she has been quarantined there. It is reported that she has the influenza but is not suffering from a severe case. Her Peachland friends hope she will recover and regain her health to permit of her trip home for the Christmas holidays which she purposed taking there. We are sorry that Miss Newby found it necessary to resign her position as teacher of the primary department of our town school, but wish her success wherever she may take up what duty holds out to her.

Mr C. W. Aitkens was a passenger to Kelowna on Saturday last, returning in the evening.

Mr J. S. Moore spent the week-end in Penticton, going down on Saturday night and returning on Tuesday morning.

One of our homes was saddened last Saturday by the death of Mrs Donald McDonald who has been living here for a time with her daughter, Mrs Reid. We understand death came as a result of paralysis. The funeral was held on Monday forenoon.

After spending the week-end in town with his brother, Mr E. Fulton returned to Westbank.

Two of our teachers, Miss Nicholson and Miss Ireland were passengers south on Monday night, Miss Ireland just to spend her Christmas holidays with her people and return to take up her work in the town

school for the next term, but we regret Miss Nicholson has accepted a position in her home town, Summerland, and will not be with us next term. However, during her short stay here she has made a number of friends, and being only a short distance away she will probably find her way back for an occasional visit.

Mrs H. McDougall left on Saturday night last for Penticton where she expects to visit for a time at the home of Mr R. J. McDougall, perhaps till after Christmas. Mrs McDougall has not been enjoying the best of health recently, and we hope the change and rest may do much to help her to regain her usual health.

Passengers north on Tuesday were Mr N. S. Davidson for Kelowna, Mr T. Powell for Vernon, and Mr J. McKinnon for Westbank. Mr Powell remained over in Vernon for a few days on business.

After spending some weeks in the hospital at Kelowna, Mrs Pinneke returned home on Tuesday night of this week. She has not completely recovered, but her foot is on the way to recovery.

We are pleased to learn that the McLaughlin family had the glad news of the arrival in Halifax last Saturday of their son Thomas, better known among his friends here as Tom. We are sorry not to be able to give the proposed date of his arrival in Peachland, but it will probably be soon.

One of Peachland's earliest pioneers in the person of Mr L. D. McCall, celebrated his sixtieth birthday on Wednesday the 18th, enjoying a family gathering to dinner.

Quite a number of our boys and girls have been taken down with a peculiar epidemic which has mostly confined itself to the children, although a few grown-ups seem to have suffered from somewhat the

same symptoms. It broke out suddenly in the school, and steps were taken at once to close the school, and in fact the town more or less, as a protective measure for fear it should develop into the much-dreaded influenza. We are glad to report no serious cases, and all seem to be doing nicely.

Mr Layton of Penticton with three helpers has been spending several days in town doing some much needed repair work on the government telephone line through the municipality.

### EUROPE MUST BE FED.

FAMINE AND PESTILENCE of unprecedented proportions are possibilities, declares the conservative Montreal Star in an editorial which is quoted with approval by the Boston Transcript, and fairly expresses the main current of American opinion. A special cable to the New York Times bears confirmation in the news that "the flow of refugees from Russia continues," and that "Petrograd is actually starving at present. Bread costs about \$8 a pound." From Germany, Foreign Secretary Solf cables Secretary Lansing: "As there is a pressing danger of famine, the German Government is particularly anxious for the peace negotiations to begin immediately." Even France, no doubt because she chose that available shipping should bring American soldiers and arms rather than food, is suffering acutely. According to a member of the American Food Administration, the time has come for dispelling the popular impression that food is plentiful in France. All through the country districts not included in the battle zone, practically the only food which anyone can afford is bread.

Putting the danger into a nutshell. The Wall Street Journal asks whether Central Europe shall have "bread or Bolshevism?" This strong exponent of a firm social order is of the opinion that "we must recognize the fact that hunger breeds anarchy, and that the most effective weapon against Bolshevism is a loaf of bread." Victory has made the Allied peoples, "through their governments," in the opinion of the Montreal Star "responsible for world conditions," and Food Administrator Hoover declares that "the spectre of famine abroad now haunts the abundance of our tables at home."

WALT MASON, the well-known American writer and editor of the Emporia Gazette, gives us something particularly good about the country newspaper. It appeared in a pamphlet entitled "Human Interest Stories," issued by the Equitable Life Insurance Company. Here it is: "Our little country papers seem drab and miserably provincial to stangers, yet we who read them, read in their lines the sweet intimate story of life. When the girl at the glove counter marries the boy in the wholesale house the news of their wedding is good for a forty line wedding notice, and the forty lines in the country paper give them self-respect. When in due course we know that their baby is a twelve-pounder named Grover, or Theodore, or Woodrow, we have that neighborly feeling that breeds the real democracy. When we read of death in that home we can mourn with those that mourn. When we see them moving upward in the world, into a firm and out toward the country club neighborhood, we can rejoice with those that rejoice. Therefore, men and brethren, when you are riding through this vale of tears on the California Limited, and by choice pick up the little country newspaper with its meagre telegraph service; when you see its array of countryside news, its interminable local stories; its tiresome editorials on the waterworks, the schools, the street railroad, the crops and the city printing, don't throw down that contemptible rag with the verdict that there is nothing in it. But know this, and know it well: If you could only take the clay from your eyes and read the little paper as it is written, you would find all of God's beautiful, sorrowing, struggling, aspiring world in it, and what you saw would make you touch the little paper with reverent hands."

### A NEW POTATO BOOKLET.

THERE HAS COME to the editorial desk a copy of a booklet on the use of potatoes. Many new and interesting recipes are given which are likely to attract attention. It is the desire of the Food Board to bring before Canadian housewives anew the remarkably high food value of the potato so that it may be used to the fullest extent in the coming winter as a leader among those things which have to supplant wheat flour as much as possible. Despite the common knowledge of the humble potato, it is not nearly so largely used nor prepared so palatably as it could be. The booklet, when ready, will be willingly mailed to any applicant to the Food Board, Ottawa.

A FINANCIAL CORPORATION IN VANCOUVER has been publishing in the press a list of B.C. municipal bonds which they offer for sale. On some of these they have set a price, while on others they ask for bids. Two issues by Summerland are included in the list, one at 5 per cent., due in 1940, is listed at 80.32 and interest. Another issue maturing in 1934, bearing 6 per cent. interest is quoted at 95.06 and interest. It is noticeable that the shorter the term the higher is the price quoted. According to these figures some of our later issues for a short term at 8 per cent. should bring quite a premium.

## Suggests a Solution To Much-Discussed Problem

VISCOUNT GREY, formerly British Foreign Minister, says a league of nations is the solution to the question of "freedom of the seas," and that Great Britain and the United States can reach a complete agreement on that question by joining such a league.

### Fish Meal as a Live Stock Food

In these days anything that will increase the available quantities of cattle food without decreasing the quality is of immense value. Experiments have proven that this is possible with fish meal, a food stuff that as yet is little known in this country, but which is used extensively in Europe. Fish meal should not be confounded with "fish scrap," "guano," or "pomace," or other forms of fish by-products used as fertilizers. The fish meal used is more carefully treated, and includes, or should include, only fresh, sound fish, or fish offal. The value of fish meal as a cattle food is explicitly set forth in a four-page pamphlet No. 17, issued by the Department of Agriculture, Ottawa, and which can be had free on application to the Publications Branch. Results of experiments made at the Central Experimental Farm show that fish meal, where available, is a suitable concentrate for cattle, sheep, and for hogs; that fish meal contains 55 to 60 per cent of protein, and over 10 per cent phosphate of lime; that if of good quality and properly fed with other meals and with roughages, it is palatable, wholesome, and a good feed for young growing stock, and also for milk production; and that if given a fair trial, and used in proper proportions it should become one of the most popular and profitable protein supplements for swine feeding.

to reach here for Christmas. We are so advised by wire to-day, but have assurance it will be here

January 6th

Insisting on something specially good for Christmas Day,

Watch for announcements!

THE RIALTO

Passing Events: Social, Personal, &c.

Mr and Mrs A. H. Steven leave to-night to spend the holiday season with relatives at the Coast.

Mrs C. M. Smith, of Innisfail, Alberta, arrived here a few days ago to remain with her daughter, Mrs Chas. Baker.

Mr and Mrs James Watt, of Innisfail, Alberta, are expected here this week to spend several weeks with Mrs Watt's sister, Mrs R. Graham.

Jack Smith, eldest son of Mr and Mrs J. O. Smith, returned home this week from Hastings Park, Vancouver, having been given his discharge from the army.

Her many friends here will learn with much regret of the report that Mrs A. W. MacLeod is seriously ill, and wait with anxiety and hope that the next news from the family, now in South Vancouver, will be that she is improving.

To meet increasing demands upon its facilities by the rapidly increasing fruit crop of the Okanagan the C.P.R. is making provision to increase its store of ice. The ice house at the Landing will be extended, the contract for which has now been let.

The sale of work held last Saturday afternoon by the ladies of St Andrew's Church was successful in every way. The sale was very largely attended and all seemed to have a good time.

The Home Comfort Club have recently issued a twenty-four page booklet containing an excellent collection of practical recipes contributed by members, all the recipes having been used by practical housekeepers. The club is now offering these for sale at the modest price of 25 cents.

Through a most unusual misfortune, P. Burgoine now living on the Campbell Ranch in Garnett Valley, has lost a valuable horse. Last Thursday, while Mr Burgoine was away and the horse was loose about the yard, it jumped over a wood pile, and in doing so came down upon the edge of a double-bitted axe, the other edge of which had been driven into the top of a chopping block.

A young son was born to Mr and Mrs C. J. Gale last Saturday at the Summerland Hospital.

R. H. English announces that he is prepared to take a limited number of horses and cattle for winter pasture.

Dr George Hindle, principal of the Trail High School, has done excellent work during the epidemic, nursing nightly in homes for several weeks.—Trail (B.C.) News.

Prof. W. T. Broad and Mrs Broad, and their son Charles left by boat on Wednesday evening for Calgary, where they will spend a few weeks visiting with friends.

Walter Ramsay, of Idaho, a brother of Thos. Ramsay of this place, with his wife and four children, arrived here this week for the purpose, we are informed, of making their home here.

Mr T. H. Boothe has disposed of "Roycroft," his orchard home at Naramata to Mrs Harriet Shievers of Ottawa, Ontario. It is understood that Mrs Shievers will have immediate possession.

A bale has been sent to Red Cross headquarters this week by the Summerland branch of the Okanagan Ambulance League, containing 91 prs. socks, 6 stretcher caps, 12 prs. slippers, 12 housewives, 6 prs. bed socks, 6 slings, 6 scull-tetus bandages.

Messrs E. R. Simpson, W. H. Hayes, and J. Lawler, president, vice-president, and manager respectively of the Summerland Fruit Union, motored to Kelowna and to Vernon on Tuesday. Mr Simpson remained in the North Okanagan city to attend a meeting of the directors of the Okanagan United Growers.

Brought down with influenza on their way to California Rev. A. Henderson and his daughter, Miss Cathleen are still at Victoria. They left here on the morning of Monday, December 2nd, intending to spend a few days in the capital city before continuing to San Diego.

Officials of the Fruit Branch of the Ottawa Department of Agriculture predict that the definite removal of the three years' embargo on the importation of apples into Great Britain is going to be a fine thing for Canadian apple growers.

Lemon Crop Totals Ten Thousand Cars

California's lemon crop will total close to 10,000 cars this season, provided no setback takes place. The greatest total consumption of lemons, both California and foreign, in the United States and Canada during any year for the past ten years has not exceeded 11,500 cars, thus showing that California shippers are in a position to supply the entire wants of the country for lemons without calling for a box of the foreign product.

The nearness to British markets is giving Canadian wheat growers an advantage over all others, in or out of the empire.

Where the school garden and agricultural instruction has been introduced in the province, the experiment has proven so satisfactory and the study has been shown to be of such practical value, that the Vancouver schools have requested the introduction of school gardens in the thirty-two schools of that city.

Motorists in this section will be glad to learn that the Okanagan Telephone Company has arranged with the Kelowna Board of Trade to instal a telephone at the Westbank ferry wharf. This will permit auto owners and others on the Westbank side to call the ferry office at Kelowna, or indeed to speak to any point on the company's system. The telephone will be a pay slot affair. The experiment will be tried out for a year. The toll charge has not yet been decided on.

Milk Bottle CAPS

Stock Caps of Best Quality At Lowest CASH Prices.

Review Office.

Mr J. M. Sutherland is expected home the first of next week from Winnipeg.

Mr and Mrs S. B. Snider are leaving to-night for Vancouver where they will spend the holidays.

A carload of Alberta coal is due to arrive next week for R. H. English. Place your order with him at once.

Since the influenza struck Trail, seven weeks ago, there have been 64 deaths, 60 of which were directly due to influenza or resulting pneumonia.

Mrs A. J. Beer had a wire this morning from her husband stating that he would arrive home on Monday from Toronto where he has been with the R.A.F.

Late prairie reports are to the effect that there has been considerable stiffening of apple prices. It is understood that jobbers have advanced apple prices about twenty cents.

The annual convention of the B.C. Fruit Growers' Association, formerly held each year at Victoria, will be in the Okanagan this year, Penticton being the convention point. The dates are January 21st and 22nd.

According to a cable received from England by the Canadian Department of Agriculture, the British Ministry of Food is interested in the importation of cheap fruit only. Mr C. W. Baxter, head of the Fruit Branch, says he is not hopeful that any increase will be made in the price of apples in boxes on account of superior quality.

A number of poles in various parts of the district once a part of the old Okanagan Telephone Co. system are being removed, a local man having the contract. This week a crew of Okanagan Telephone men has been busy taking down wires and insulators along Shaughnessy Avenue. These wires were formerly used by the company's local exchange, but as the Summerland company now has all the local business the wires have not been used for some time.

Raising Embargo Is Fine Thing.

Officials of the Fruit Branch of the Ottawa Department of Agriculture predict that the definite removal of the three years' embargo on the importation of apples into Great Britain is going to be a fine thing for Canadian apple growers. The removal of the embargo has had an immediate effect in Nova Scotia, where there are approximately 200,000 barrels of apples still in cold storage. These can be readily exported to Great Britain, even if space is limited on individual steamships.

The Summerland Fruit Union is sending a car load of apples to England.

HANDICAPPED.

In a Scottish country parish a well-known joker was chatting with the minister, who jocularly said: "I suppose, Jamie, you have in your time made up as many witticisms as I have sermons?" Jamie: "Well, I dinna ken, but you have a great advantage ower me."

FAMILIAR "HOHEN."

Townley (in Milwaukee cnto, 1925)—"That watter you called 'Hohen' looks familiar." Yandley—"Probably you saw his picture in the papers; it used to appear quite often a few years ago. Then he was called the 'Crown Prince.'"

A Prussian officer once declared that they would either win the war or go to hell. They have not won the war.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Attention is directed to an advertisement of the masquerade dance to be given New Year's eve in Steward's Hall, Penticton. C

A union service will be held in St. Andrew's Presbyterian Church on Sunday morning at 10.30. A combined choir of the Baptist, Methodist and Presbyterian churches, under the leadership of Miss Harrison, will render the following anthems: "Peace on Earth," "Simper," "Behold, I Bring You Good Tidings," "Churchill," "Arise, Shine," "Elvy." The subject of Rev. W. H. Bates' address will be "Was Jesus Mistaken in His Forecast of the Future." Miss Evelyn Brown will sing a special solo.

The children of the Lakefront Sabbath School, Summerland, will give their annual Christmas Entertainment in Empire Hall on Friday, December 27th, at 8 o'clock. ### Mounted Police For Br. Columbia

#### Territory Of R.N.W.M.P. To Be Extended East And West.

The Royal Northwest Mounted Police is to have its jurisdiction extended from Port Arthur to Victoria. It is understood that this important decision has been reached, and that the necessary order-in-council will be passed immediately.

The mounted police will have charge of the enforcement of Federal laws from the head of the lakes to British Columbia. For some time it has been increasingly apparent that a Federal force was necessary to enforce Dominion laws. It has therefore been decided, instead of disbanding the force as was at one time proposed, to extend its authority through the whole of Western Canada. In Eastern Canada the Dominion police will be increased in strength, although there has been a proposal to extend the famous red-coated force to the whole of Canada. This may be decided later.

The force, which now consists of only some 500 men, will be increased to 2,000 or 2,500 men.

There are two squadrons of the mounted police in France consisting of 740 men. They will be added to the home force. There are also 180 men in Siberia. These, with ex-mounted policemen, who are anxious to return, will likely bring the force up to strength.

The headquarters of the whole force will continue in Regina. There will also be posts at Port Arthur, Winnipeg, Nelson, Vancouver, and other points. Since the war there have been a few police doing boundary patrol work in Manitoba and among the British Columbia mines, but now they will continue the work they have formerly carried on in Saskatchewan and Alberta only.

#### Taking Troubles To Bed.

I know a man who is aging very rapidly from his business and family worries. I frequently travel morning and evening to and from the city with him, and instead of looking fresh and rejuvenated in the morning he actually looks older and more careworn than he did the night before. This is because he takes his troubles to bed with him and falls asleep worried and depressed. Instead of practicing mental chemistry and neutralizing or driving them out by the peace thought, the harmony and love thoughts, he lets those vicious mental devils, that are playing such havoc in his life, work all night in his brain. And, of course, they poison his blood, deplete his vitality, and cut wrinkles deeper and deeper every night.—From "Love's Way."

### Little Grief Felt In Her Demise

Burial services were conducted simultaneously in the Elliott Hall and in the Parish Hall on Friday afternoon of last week, when Animosity had the last writ of a decent burial conducted by the ladies of both the Summerland and West Summerland Women's Institutes; and it is hoped "she" will remain under for evermore.

The Institutes had resolved on a re-union, and it was put to a vote of the members of both Institutes, with the gratifying result that from now on there will be only one Women's Institute conducting useful and instructive work amongst the women of Summerland.

The aims of the Women's Institute are well-known here now. There may be some who are not conversant with the good work. It would be well for those to make an endeavor to attend some of the meetings and find out for themselves how they can be benefited.

Get the "Get-together" spirit and participate in the mutual advantage gained. Let the women put Summerland on the map as she has never been before, and you may become a power in your own community and in the province to which you are all proud to belong.—Contributed.

Advertising is a cumulative proposition. When all merchants advertise, even if they take but a small space in the home paper, the effect of all doing it has a much greater drawing power than if only one merchant advertised though he used greater space than all combined. All merchants do not recognize this. They are content to live on the enterprise of their fellow merchants who advertise in order to keep the business that holds the community together. It retards the growth of the community and creates a leak in business that loses money to all.

#### CONCLUSIVE EVIDENCE.

A special constable in a suburb of London relieved his mate at midnight, and, to his astonishment, found him in a most deplorable condition. Both his eyes were in mourning, his nose was flattened, his mouth was askew, and his clothing showed further testimony of a terrific combat.

"My Gawd!" said the relieving officer of the law. "You're in a 'orrible state. You're beaten up sumphin' terrible an' no mistake. W'ot 'appened?"

"Yer knows that pretty little widdar as lives down at the end of the street 'oos 'usband was killed at Gallipoli?"

"Yus."

"Well, 'e ain't."

The best gratuity that can be given a returned soldier—a job and the right to be left alone.

### King George Visits Canadian Troops

The above picture was taken during one of his frequent visits to Canadian Camps in England.

#### THEATRES OFFER SPECIAL FEATURES.

(Continued from Page 1.)

The star of "Lest We Forget," beautiful Rita Jolivet, was herself a passenger on the "Lusitania" on its ill-fated trip, and heard those immortal words of her fellow-passenger, Charles Frohman, "Why fear death? Death is the most beautiful adventure of life." Her life was spared to be a living witness to the brutality of the Huns.

This great eight-act production provides a mighty panorama of events now historical, connected with the opening days of the war, and follows its progress through the later thrilling months. A beautiful story shines like a star through the darkness, the roar of battle sometimes seeming like a mighty accompaniment to the human drama being played. Many Canadians unable to go abroad and engage in actual fighting or works of mercy have wished they might see with their own eyes a part of what has been going on in Europe since August, 1914. "Lest We Forget," shows more of actual events abroad during the great struggle of decency against barbarism than any one person, whether combatant or non-combatant, could possibly see. Besides being a great love story, it is a valuable chronicle of the war.

"Hearts of the World," describes the supreme triumph of D. W. Griffith, to be presented at the Empress Theatre, Jan. 1st, one day, inaugurates a new era in the realm of the screen drama. Here, with the great war as a background, Mr Griffith has filmed a simple little love story, old as the ages yet ever new. "Hearts of the World" has proven the latest sensation in the screen world. Mr Griffith realized that the public which became enthusiastic over "The Birth of a

Nation" and "Intolerance" would expect something big from him in this latest picture, and therefore instead of trying to outdo himself in staging gigantic battle scenes, he used the Great War only as a background for the filming of a simple and attractive story of tremendous human interest.

"Hearts of the World" shows the happy, peaceful life of the people of a small village before the grim horror War reared its ugly head over the horizon. The causes that led up to the war are shown; the meeting of the English Parliament on the eventful night when the vote was cast for war; the session of the French senate voting upon the Declaration of War; the session of the cabinet awaiting the fatal hour when the ultimatum to Germany would expire. These scenes come as a prelude; then the great drama begins when the German hordes enter France.

In taking the battle pictures for "Hearts of the World," Mr Griffith had the assistance and co-operation of the British War Office. It is the opinion of all who have seen "Hearts of the World" that Mr Griffith has outdone his own best achievements and has established a new artistic record which it will take years and years for someone else to equal, if indeed such a thing is possible.

#### WHAT A COAL MINER DID.

When the war began in 1914 a man named Godfrey Jones, a coal miner in Wales, enlisted as a private. He soon became a non-commissioned officer, and a little later earned a commission. At Saloniki he showed such conspicuous courage that he was awarded the Distinguished Service Order. The other day Col. Jones, still serving with his countrymen and in command of Welsh soldiers, was promoted to the rank of brigadier-general. The coal miner now outranks the heir to the British throne.

### Big Party Goes To Oroville Dance

(Oroville Gazette.)

Last Thursday a party of merry makers from Summerland recruited by a squad, bent upon enjoyment, at Penticton, drove down to Oroville in cars, participated in the Thanksgiving dance, stopped over in town all night, returning home at noon on Friday. The visitors certainly enjoyed their visit, and Mine Host Grubb, of the Hotel de Grubb, did all in his power to make their stay in town pleasant. The party joined together in the big dining room of the hotel on Friday for lunch before their departure, and had a jolly time of it, singing a number of songs, closing with "America." Not since the beginning of the world war has the town been visited by such a large and happy company of people from British Columbia. On their return the visitors dropped a note to E. N. Grubb, bearing the signatures of the entire party, enclosing \$5.00, and stating that "in our excitement on leaving your hotel we overlooked thanking your dining room help for their courtesy. Please accept enclosed with our compliments and tender to them." The party consisted of Mrs C. J. Duncan, F. G. Anderson, Hesse Phinney, Edna English, Mrs I. R. Brown, I. R. Brown, R. D. Darkis, Gertrude Rines, Mrs A. S. Peck, Ed. C. Arkell, C. J. Duncan, and Frank Steuart, of Summerland, and J. G. Curry, Mrs H. St Clair, Miss Bryson, and Mr Ray Wanless, of Penticton.

W. H. Hudson, for seven years principal of the Vernon High School, has resigned, to take a position on the staff of the Victoria High School after the Christmas holidays.

### Sugar Ban Is Now Off.

The ban on the use of sugar for making French pastry, iced cakes, or biscuits, for candy for private consumption, as well as in the manufacture of icing sugar, has been removed. The war restrictions on the method of serving sugar in public eating places are withdrawn.

On and after January 1, white or granulated sugar may be used in making bread, etc., so, too, the restrictions on the use of sugar in the manufacture of canned goods, biscuits, cake, dough products, candies, chocolate, table syrups, and the like, medicinal preparations, beers and soft drinks, desserts and jelly powders, ice cream, and even on chewing gum will not be in force.

The cancellation of so many rules which war had imposed on Canadian use of sugar has been made possible through unexpected improvement in stocks, but the Food Board desires the public still to be reasonably restrained and to avoid anything like extravagant use of any of these articles, because it will still be some weeks before supplies and distribution can be at all compared with pre-war conditions.

Buy it in Summerland.

### WHO'S RESPONSIBLE FOR THIS?

FOR TEN YEARS Summerland has had a customs postal package service. In normal times more than eight hundred packages have been cleared in one year through the local post office. Despite the difficulties war regulations have imposed on importations postal parcels totalling about five hundred packages yearly are being received here by the postal customs. We are informed this week by the postmaster that official intimation of the termination of this service has been received by him. This comes as a great surprise just at a time when we might reasonably hope to have Summerland made a full outpost for customs purposes. Who has been meddling with this matter to bring about inconvenience to our citizens and effecting an insult to the community by making it necessary to go to Penticton for all customs postal packages?

Until recently Revelstoke has been a port of entry with Kelowna an outpost and Summerland a sub to Kelowna as regards postal packages. Penticton has been an outpost of Grand Forks but is now being made a port. With this change it would be but logical that Summerland be made an outpost, but why we should be deprived of the service we have had and forced to go to Penticton cannot be explained in any way than that somebody has been meddling. The change effects no saving to any government department. We are satisfied the business has been handled here during the past ten years in the most efficient manner. Will our people submit meekly to the insult to their community and to the inconvenience and expense that the change would incur? We think not.

NOW THAT THE WAR IS WON the experts are beginning to ask who did it. The Emporia Gazette calls special attention to the characteristically brief and modest statement in the British War Office's announcement of the end of the war: "In the fifty-second month of a war without precedent in history, the French army, with the aid of the Allies, has achieved the defeat of the enemy." Marshall Foch has told Sir Douglas Haig that the terrific smash of the British army through the Hindenburg positions between Cambrai and St. Quentin was the blow that killed the German hopes of maintaining a successful defensive. Marshall Foch has also spoken to General Pershing of the importance of the American drive in the Argonne region, and told him that the words "the Meuse" "can be borne with pride on standards of the American army." But all are agreed that no one army won the war. It was a joint victory, and the military expert of the New York Times thinks it doubtful if the military history of the world records a more perfect example of co-operation of armies of different countries in the same battle than that of the British, the French and the American armies."

BEFORE THE WAR Britain depended very largely on Denmark for pork products beside other farm produce. The prices obtained by Eastern Canadian exporters was largely regulated by Danish quotations. Two and one-third million hundred-weight of bacon entered Britain yearly from Denmark. During the four years of war that marvellously productive little country has cut heavily into her live stock until to-day she is short more than one million, eight hundred thousand hogs alone. Germany's hog shortage is given as over 19 million pigs. It will be seen that the Mother Country cannot hope to get her supply of bacon, etc., from her European neighbors, at least for some time to come. Canada and the United States are the logical sources of supply, and this would seem to be Canada's opportunity, to establish a permanent trade of huge volume.

THE RECENT AUTHORITATIVE ANNOUNCEMENT that our soldiers are to be returned much quicker than was at first given out will give much satisfaction, and will be the cause of much rejoicing on the part of the anxious relatives and friends, who are impatient to have the boys home again, as well as the soldiers themselves, who cannot get back to Canada too soon to please them, now that victory has been attained. Even at the rate of 30,000 monthly, it will be many months before all have been returned.

THE TOWNS IN the northern end of the Valley and also Kelowna are losing no time in pressing for the building of the projected branch of the C.N.R., now a government system, from Kamloops to Kelowna. All the Boards of Trade between these two points have been asked to send representatives to a convention on the subject to-day at Vernon. A spur from Vernon to Lumby is included in the plans.

CHAS. P. NELSON  
— PHOTOGRAPHER —

Fire and INSURANCE (Accident)

MUNICIPAL AND PROVINCIAL SECURITIES may now be offered the public without first obtaining permission of Ottawa, the Minister of Finance having removed the war-time restrictions on such issues. Private corporation securities are still subject to the approval of the Minister.

BUT FOR THE ARRIVAL in England of six thousand barrels of apples just before Christmas that country would have had a practically "fruitless" Christmas. Very few oranges were to be had, and when the apples from Canada arrived there was a great scramble among the dealers.

INSEPARABLE UNION between the British Empire and the United States has been brought about by the war according to General Pershing, in charge of the American forces in Europe. He says: "Steadfast in adversity, wounded with a thousand wounds, Great Britain's hammer blows have never weakened nor faltered. But for the tenacity of her people, the war would have been lost.

"To those of us who have been associated with them and fought with their gallant troops, words of praise seem inadequate to express our admiration.

"These things our kinsmen have done have brought inseparable union between them and ourselves. We offer our right hand of friendship to our two nations may be more firmly linked together to insure the future of the world."

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

After spending some months at Vancouver Miss Verna Town arrived home on Wednesday morning of last week. We understand Verna had somewhat of an experience en route, her train being delayed on the road for some hours and having to run over a temporary track to get around the bad place on the road.

The Rutland school being closed on account of the influenza, Miss Leone Morrison came home on Wednesday night of last week to remain at home through the Christmas and New Year holiday.

Peachland friends of Rev. A. and Miss Kathleen Henderson will be sorry to learn of their illness with the influenza, as we understand they contracted the same and had to stay over at Victoria, while on their way to California. The latest word was to the effect that they were both on the mend.

Miss Olive Ferguson was a passenger north on Thursday morning of last week, going as far as Sicamous and returning on Friday.

Mr James Duncan of Westbank spent Thursday of last week in town visiting his daughter, Mrs Burkett Robinson, and Mr J. E. Kerr.

Master Baird Iverson of the Townsite spent Thursday of last week at Kelowna, returning in the evening.

Another of our boys to arrive home from the service was John McLaughlan of the R. A. F., having been in the Beamsville Camp near Toronto. Jack is home for at least two months, but expects to receive his final discharge during that time. It not, however, he will have to report in camp again after that.

Pte. Kenneth Elliott of Summerland spent Thursday of last week in town visiting friends, returning home on the evening boat.

Mrs Brougham of Penticton, formerly of Westbank, after visiting in Westbank, spent a day in town, the guest of Mr and Mrs N. S. Davidson, taking the boat here on Thursday evening of last week for her home.

Miss Leone Morrison spent Friday of last week a visitor in Kelowna, returning on the evening boat.

Two more of our overseas boys came home on Friday night of last week, Tom McLaughlan and Will Aitkens. Your reporter has not had a chance to interview either of the two, but we may be able to get some interesting material from them later.

Miss M. Smith, B.A., who has been teaching at Oyama for this past term, and expects to resume in

the same school after the New Year, came home last Friday night to spend her holidays on her fruit lot here.

Mr J. Brown left on Friday night last for Vancouver, where he expects to visit for a short time.

Passengers to Kelowna on Saturday last were Mr. Moore, Mr John Wright, Mr H. D. Riggs, of Kelowna, and Mr H. E. McCall, all returning in the evening except Mr Riggs who was going home after a couple of weeks in our midst.

Friday night's boat brought Mr and Mrs G. B. Phillips back after their trip east. They report a very pleasant visit. Mrs Phillips will remain here for some time, but Mr Phillips leaves shortly again to resume his work for the Osborne Art Calendar Co.

Mr G. Keyes, Mr G. B. Phillips and Mr E. F. Smith motored to Penticton last Monday, returning the same day.

Mrs T. Cartwright and her daughter Miss Margaret Verey of Okanagan Landing came in on Monday night to visit with Mrs Cartwright's parents Mr. and Mrs W. J. Moore.

Walker Brown arrived on Monday night's boat, but was surprised to find that he had missed his father, who had gone K.V.R. to the Coast. He spent the night the guest of Mr W. Douglas, and left next morning to go back to the Coast. Walker was looking pretty fit, considering that he had just recently got over the influenza.

Passengers to Kelowna on Tuesday morning last were, Weston and Vernon Winger, Tom and John McLaughlan, Mr Town and Albert and Cecil Brown, all returning in the evening.

Mr Will Aitkens returned on Tuesday night's boat after spending a couple of days in Vernon.

Charlie Morrison came home on Tuesday night to spend his Christmas holiday here.

Mrs W. Lupton with her children arrived on Tuesday night to spend Christmas with her people here. They were enjoying a family gathering for Christmas dinner at the

home of Mr and Mrs Ernest Aitkens.

Mr Shaw and Lorne came home from their work at Bear Creek to spend Christmas with the rest of the family at the Townsite.

Mr J. E. Kerr was a passenger south on Tuesday night to visit in Penticton during the Christmas and New Year season.

Mr A. N. Pope went to Summerland for Christmas, to visit with the Summerland portion of his family, Mr and Mrs R. H. Helmer.

Mr and Mrs D. Kirkby of Penticton came up for a family round up, and to enjoy the Christmas festive season here.

Before the fire on Christmas Eve two girls were planning for the holiday.

"Sister Mollie," said one of the younger, "would a long stocking hold all you want for a Christmas gift?"

"No, Sister Sallie," said the elder, "but a pair of socks might."

### Whale Meat-- Whale Milk

Fifteen cent milk has induced such embarrassment that an official of the Oregon agricultural College is urging the cultivation of the whale for milking purposes. There is no difficulty about it, at all, he says, and enough whales could be raised in Puget Sound alone to supply the whole United States and Canada with milk.

### TROUSERS NEXT?

There is no doubt the war will teach us to shed many conventions. The top-hat is one of the few outward and visible signs that occasionally remind us that there was such a time as a world at peace. Is it ever likely to have a vogue in future? The stiff collar and starched shirt, and the bowler hat are other articles of a gentleman's wardrobe that are waning in popularity, and when the fighting men take off their putties will there be a revolt against the hideousness of trousers?—London Daily Chronicle.

Asked to name the six greatest men in Germany, a Portland school boy submitted the names of Von Turpentine, General Hindburg, Bethman Bowlegs, General Diss Order, General Bumluck and Turkish embarrasser. Which now seems to be quite fitting.

A Missouri man was sent to jail for sticking a fork into a mule's hind leg. There must have been something the matter with that mule's hind leg, or the man would never have been sent to a jail; he would have been taken to a cemetery.

 WHEREVER THIS SIGN IS DISPLAYED  
**BUY** War-Savings Stamps for \$4.00 each, place them on the Certificate, which will be given to you; have your Stamps registered against loss, free of charge at any Money-Order Post Office; and on the first day of 1924, Canada will pay you \$5.00 each for your stamps.  
 As an aid to the purchase of W.-S. S. you can buy THRIFT Stamps for 25 cents each. Sixteen of these Thrift Stamps on a Thrift Card will be exchanged for a W.-S. S. Thrift Stamp do not bear interest. Their virtue is that they enable you to apply every 25 cents you can save towards the purchase of a Government, interest-bearing security.  
 "If high rates of interest must be paid on Government borrowings it is but right that every man, woman, and child should have the opportunity to earn this interest."—*St. Thomas White.*  
**\$5.00 for \$4.00**

**Amazing Story Of Cruelty at Merritt.**

An almost unbelievable story of cruelty and inhumanity is told by the Merritt Herald of a Russian, who has a cobbler shop in Merritt. It was the death of the cobbler's son, aged fifteen years that uncovered the tragedy. The cobbler's wife and children were discovered to be literally starving to death, and the hotel was without heat or any comforts. Nothing fit to eat was found in the house. Though the family were starving the husband and father sent out to a restaurant and ordered his own meals, and never even so much as divided his bread with those whose support he was supposed to be. This condition prevailed notwithstanding the fact that people who called at the cobbler's shop to pay for work done invariably saw this criminal husband and father pull out a large roll of money from a drawer under his bench when he had occasion to make change. When the condition of affairs became known neighbors came to the relief of the mother and little son, both of whom were sick, actually starving. The daughter, nearly grown up, had been given a position in a lodging house, and is recovering from her starved condition. Not only was this so-called man cruel in his failure to provide for his family but he was decidedly inhuman in his compelling his two sick boys to labor day after day from early morning till late at night that his wad of Canadian money might grow in proportion.

The cobbler was arrested, and after trial was ordered by the magistrate to pay fifteen dollars every Monday morning to the Chief of Police, who was instructed to turn the sum over to the cobbler's wife who, with her children, will be provided with a separate cottage.

**THE STORY THAT NEVER GROWS OLD.**

Like the songs that are sung in the twilight,  
 Like all tales that are tenderly told,  
 Like the memories of loved ones that hallow our hearts,  
 There's a story that never grows old.  
 Lo! The angels first sing it in chorus,  
 And the watchers with wonder behold.  
 They feel the first thrill of the beautiful truth  
 In the story that never grows old.  
 Round the Christ Child of Bethlehem's cradle,  
 Are clusters of apples of gold,  
 And pictures of silver adorn every page  
 Of the story that never grows old.  
 It gladdens the heart of all children,  
 And millions of manlier mold  
 Are happier, holier, better by far,  
 For the story that never grows old.

**SHE BENEFITTED.**

"Did your husband leave you anything?" asked the white woman of the colored lady in mourning, who had consented to do her washing.  
 "No'm," answered the bereaved. "Ah suppo'ted him all the time we been married. Even paid his lodge dues. But the lodge done well by me. They gave him a gran' funeral, an' pays me fo'ty dollars a month alimony."

**"I'm Thru-enza," A New A.R.C. Epidemic.**

With the cessation of hostilities the patriotic societies are called upon to combat a new epidemic, originating this time within their own ranks. The affliction is known as "I'm thru enza."  
 The initial symptom is a sense of lassitude—a feeling of "What's the use? It's all over. Why should I work?" Steps are being taken to isolate the germ—also those who are carrying it.  
 The epidemic is not widespread; nevertheless an effort is being made to stem its advance.  
 "Cold" feet is a marked symptom.  
 Another indication of the presence of the germ is forgetfulness (that the boys are still over there).  
 The victim, as a rule, cannot concentrate the mind (on knitting).  
 The sight becomes impaired (can't see to sew).  
 The ears become affected (can't hear the appeal of hundreds of thousands of refugees who must be clothed, fed, and housed).  
 Heart doesn't beat as it used to, and in advanced cases that organ apparently turns to stone.  
 A vaccine consisting of parts of fincture of I-wont-quit and Red Cross spirits, a dash of patriotism, and a peck of pep is effective.—*Are Rays.*

**Press Advertising Sold Victory Bonds**

**BEFORE** the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$676,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No argument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign ever undertaken in any country," and Mr J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.

MR. J. R. CAMPBELL.

A full stock of FRESH and CURED MEATS and Fish will be carried, and every effort made to maintain a good service. Your orders will be appreciated.

## J. DOWNTON.

### Local Airman Slowly Recovering From Injuries

Capt. T. J. C. Martin, whose wife is the eldest daughter of Mr and Mrs J. M. Sutherland, is slowly recovering from injuries received in a nearly fatal accident, while flying in England. Capt. Martin, who has many friends in the Okanagan, has had a most successful career since joining the Royal Air Force. For some time he was second in command of a bombing squadron, and was one of the pilots of Handley-Page machines chosen to bomb Berlin. He was in England taking some final instructions when, on the 18th of September, he was asked to give a demonstration for which he used a borrowed machine. It was during this flight that he crashed to earth in a deadly tail spin, and was very seriously injured. His right leg was fractured below the knee, the knee cap of the left leg crushed, and he was badly smashed up about the face and head, and the doctors said that it was only his indomitable will that kept him alive. Though only twenty-four he has been seven times recommended for honors, and more recently has been recommended for promotion to major. It is uncertain whether Capt. and Mrs Martin will return to Canada after he has been discharged from hospital.

### Horses On Bridge Delay Train.

The K. V. R. train westward bound which arrived here late on Christmas night was later still in leaving. In fact it was long after midnight before she pulled out from the station. The reason for the delay was the obstructing of the track at the trestle bridge on the Cross property in Prairie Valley, where some frightened horses had gotten on the trestle and held up an east bound freight. The trestle is an open one, and the horses could not cross it. One of them in its fright jumped off the trestle to its death. It was with much difficulty that the track was finally cleared by the train crew.

### GIVE HIM A CHANCE.

"What your husband needs, madam, is rest. I shall prescribe a sleeping draught."  
"Very good, doctor. And when should I give it to him?"  
"I don't propose that you should give it to him at all, madam. You will please take it yourself."

### Pound Notice.

There has been impounded at the Municipal Pound one bay entire colt with little white on front and hind pasterns on left side; no brand visible; very gentle. The above animal will be sold by public auction at the Pound at 2 p.m., Saturday, January 4th, 1919, unless the owner previously claims the same and pays all penalties and expenses chargeable therewith.  
JOHN DALE,  
Pound Keeper.

### Mineral Requirements of Hogs.

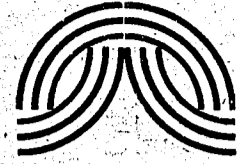

(Experimental Farms Note.)

Anyone familiar with the feeding of hogs knows that much crude or raw mineral matter is consumed by them, aside from that naturally contained in the food eaten, and known technically as the ash content. While a general statement as to the mineral or earthy requirements of the hog may be made, certain abnormalities may appear at various stages of the animal's existence due to a definite lack of some vital constituent in an apparently perfectly balanced ration, this lack due, in turn, to the absence of the required mineral or salt, in the soil that grew the foods. Here, of course, specific feeding is required.

In general, pigs under summer or outdoor conditions supply their own wants in the foregoing connection, consuming earth, slate, weathered stones, ashes, wood, etc. If they are pen-fed, some two or three of these easily available materials may be supplied. Even under outdoor conditions, however, many large feeders provide supplemental mineral and corrective feed. Of these, charcoal in various forms, ground rock phosphate, ground limestone, slaked lime, bone meal, wood ashes, salt, etc., are the most important. A readily accessible supply of a mixture of the above is advised as a general corrective of possible deficiencies in the mineral constituents as supplied by the regular ration.

In most localities simple home-procured mineral foods, as mentioned, will prove sufficient. To the feeder who wishes to leave no stone unturned or in localities where there is evidence of a lack of necessary plant food a more diversified mixture would be indicated. The quantities consumed are so small, comparatively, that the cost will prove almost negligible. The growth and development of hogs, with rations so supplemented, cannot be injured and in most cases will likely be greatly benefitted.

"I'm quite a near neighbor of yours now," said Mr Bore. "I'm living just across the river."  
"Indeed," replied Miss Smart. "I hope you'll drop in some day."

### The Compliments Of The Season ..

We take this opportunity  
of extending to our patrons

where I have built a MODERN OVEN, and backed by long experience I am prepared to guarantee satisfaction.

MEALS SERVED AT ALL HOURS.  
OYSTERS DURING WINTER SEASON.

Will have Bread on sale immediately after Christmas.

W. JOHNSTON.

# ADVERTISING

### Is An Evidence of Community Loyalty as well as Good Business

ADVERTISING will do more than build your business. It will build your community.

It will encourage the people in your Community to buy at home more.

It will counteract the effect of outside advertising and keep so much more money in the district.

And your community, after all, is only the aggregation of yourself and the rest of us.

Advertising to-day is, therefore, the business and the patriotic duty of the business men in this community.

And the logical medium is your home paper, as it reaches every buyer in the whole district.
