Garnett V. Dam Being Raised and Strengthened

Reeve and Councillors Inspect the Work.

Concrete Core Being Built Into Dam.

Good progress is now being made by J. J. Mitchell, superintendent of construction, and his men toward the completion of the Garnett Valley dam. This dam, when finished, will have increased capacity sufficient to hold as much water as the former dam and the Dunson dam, had it been rebuilt, could both have held in reserve.

The Reeve and Councillors and several other citizens visited the dam last Saturday afternoon. Only by an inspection of the work while it is in progress can one get a true impression of the extent of the undertaking, and of its importance as a part of the permanent construction being worked in the municipal irrigation system.

The dam, as originally built, was a wall of logs supported and strengthened on the down-stream side, with further cribbing of logs, and all built up, above and below, with abundance of earth. One would think in looking at such a dam that it would effectively hold the water in check for many seasons, but a dam of the height of the Garnett Valley dam, perhaps 25 feet, has to withstand an enormous pressure, and in practice it is found with such construction to be almost impossible to prevent leaks, which at any time may become washouts with their serious consequences.

It was to guard against such a disaster as well as to give added storage capacity, that the work now being done on the Garnett Valley dam was undertaken. Last year, beginning on the eastern bank, a deep trench was dug down into the dam just above the cribbing or log "core," and half way across to the other shore. In this trench a thick wall of concrete, reinforced with a network of iron rods, was constructed against the upper side of the solid log wall. This fall this wall of reinforced concrete is being carried across to the western shore. When finished and the earth has been filled in, the dam will be greatly strengthened, and higher as well, and will be one that can be further added to with safety at any time. The engineer has said that another ten feet can be added to its height. This is in addition to the increase now being made.

Two shacks, one a cook-house and dining room, and the other a bunk-house, have been built, and a dozen men are employed on the dam. It is estimated that the total cost of reinforcing and raising the dam will be about \$4,000, which will be a saving of \$1,000 on the original estimate of \$5,000.

The dam will back the water up on to and spread it over many acres in the form of two lakes, one at the dam and the other a short distance above this, and connected with it by a narrow channel.

IS FARM DULY APPRECIATED?

Summerland is envied by many of the most progressive farmers of the Interior because of the valuable asset which it has in the Summerland Experimental Station. Visitors frequently speak in terms of greatest praise of the splendid work that is being done here by Supt. R. H. Holmer and his competent and enthusiastic staff. One such visitor to the Farm recently was Mr. C. E. Lawrence, a well-known and progressive farmer of Kamloops, who spent a day studying the methods practiced and the experiments being made. In a few minutes spent at the Review office that evening, he spoke in most complimentary terms of the splendid work being done and the value of this work to those farmers who

Change in Rules of Military Service Act

Documents required by the Military Service Act which formerly could be signed by two reputable citizens, must in future be signed by a Justice of the Peace in certain cases, and a Magistrate in others.

The office of the Provincial Registrar under the Military Service Act has announced that under a recent order in council new regulations regarding the carrying of documents had been placed in force.

Under the new order age certificate must be carried, or in lieu a certificate from a Justice of the Peace. Marriage documents must be an official certificate or one signed by a Justice of the Peace.

With regard to nationality the papers must be a certificate signed by a consul or vice-consul or a certificate of a Magistrate that satisfactory evidence had been submitted to him that the nationality claimed has been proved to his satisfaction.

The fourth change reads: "If it be claimed that he is not within the class or that he is not liable or expected upon any other ground a certificate from a Magistrate certifying that evidence has been produced establishing the fact in which the claim is based is necessary."

Under the order in council which this new regulation supersedes, men were required to carry either the regular certificates of birth, marriage, nationality, and exemption, or certificates signed by two reputable citizens.

Capt. Broad Met Death While Aiding The Wounded

Prof. W. T. Broad and Mrs. Broad have received a letter from Captain H. Roy Williams, the officer commanding the company in which their son, Capt. T. H. Broad, was serving, when he fell mortally wounded.

"The battalion," states the captain, "had just completed a tour in the front line and had moved back to reserve. In the afternoon of September 17, while the men of one of the companies were getting their supper at their field kitchen, a few heavy shells landed in the area, two near the kitchen, and a number of the men were killed or wounded."

"The latter were removed to the dressing station, which was quite close to our company headquarters, and your son assisted to bandage some of the men. The shelling shifted to near the dressing station and he, with others, attended to the removal of the wounded who were transferred to a trench close at hand. This was just finished and he was standing on top of the trench when he was instantly killed by shrapnel from a shell. The same shell also killed Captain Ott, our adjutant, and severely wounded others."

Your son had just been promoted to the rank of captain, and was a most efficient officer. He was buried with Captain Ott close to the little town of Monchy-le-Preux, near Arras. You will be notified of the exact location of the grave.

"On behalf of the other officers of this company and myself I wish to convey our sincerest sympathy. Your son was always bright and cheerful, ever ready to do more than his share, and his death is keenly felt by us all."

Professor and Mrs. W. T. Broad wish to express their sincerest thanks to their many friends who have expressed their sympathy with them in this their recent bereavement.

Ninth Annual Fair Successfully Staged Here This Week

Pleasing Display of Perfect Fruit, Fine Vegetables and Artistic Handiwork in Agricultural Hall—Pure Bred Cattle and Hogs of High Standard Shown in Park

Many Outside Entries Received

Mr. J. W. Jones, Member for South Okanagan, formally Opened the Show.

The Summerland Fall Fair, which originated nine years ago as an apple show, and which in late years has been broadened to take in other lines, including live stock, was another very successful affair this year. While there were not as many exhibits as last year, the show held in the Peach Orchard Park and Ellison Hall on Wednesday and Thursday, well maintained the high standard of quality of fruit and vegetables set in earlier years, and in the dairy cattle line a number of specially fine animals were shown.

As one entered the big hall the first thing that struck him was the pleasing change from former years adopted in the arrangement of the interior display. Instead of the high bank of boxed apples running from end to end down the middle of the floor, the box displays were banked at each end and the middle of the hall given over to the plate and other smaller exhibits. Along the side of the hall opposite the door was the splendid display from the Summerland Experimental Station. Seed production was a prominent feature of this exhibit, and some excellent models of home made farm implements and devices for the convenient distribution of water were shown.

Next the Farm exhibit a section that attracted much attention was the tastefully arranged display of large size photographs of local and other B.C. scenery ranging from peaceful orchard views to wildest mountain scenery with snow-capped mountains with their glaciers, mountain torrents and lakes protected by wooded mountain sides. A number of pictures taken from local mountain tops gave wonderfully clear and broad views of Okanagan lake and surrounding hills and benches. Many of the pictures were beautifully tinted. Some were framed and others not, and all were offered at very reasonable prices, and Mr. C. P. Nelson, the artist, did a good business during the two days of the show.

An added feature of the fair was the section given over to the schools. Here some very fine work was displayed, a feature that very much delighted the public being the kindergarten work in paper and plasticine by the little ones of Miss Brown's department.

The exhibit of fruit was not as large as the number of entries received by Secretary Tait led the directors to expect. A number of those from outside points failed to appear, no doubt because of the prevailing epidemic. However, Westbank, Peachland, Naramata, Ponticton and Koromoos were well represented by exhibits. The Armstrong packing house at Koromoos, of which Mr. Dory is manager, made quite a number of entries, and, as will be seen by the prize list printed elsewhere in this number, captured a goodly number of prizes.

Among the novelties in the vegetable section was a pumpkin grown at Trout Creek by Clark Wilson, and weighing 133 lbs. A card on this offered the pumpkin to any one who could pick it up and carry it home. No one accepted the offer. Some very large potatoes were also shown, R. Johnston, Trout Creek, having brought in several, and one

grown by Thompson Elliott, Peachland, was labelled 3 1/2 lbs. A box of fine cukes grown by C. E. Weeks, Kelowna was donated to the Summerland Hospital. Another special exhibit, well worthy of mention, was a fine collection of insects by Harold Allen, Naramata, shown with the exhibit of Provincial Entomologist Treherne. On the western wall was hung some very long alfalfa roots taken from the Koop ranch. Some fine specimens of nursery stock, McIntosh Red apple, grown by A. Moyes, manager of Aitchison orchard, well demonstrated that Summerland might well grow its own stock, and in that way keep at home many hundreds of dollars now sent out yearly.

The formal opening of the fair was made by Mr. J. W. Jones, M.L.A., in a short address on Thursday afternoon. Mr. Jones regretted that Hon. E. D. Barrow, the Minister of Agriculture, had been unable to attend. He had hoped that Major McIntosh and Mr. J. S. Cowper of Vancouver, and Mr. Whitehead, New Westminster, would be present, as he had been endeavoring to get these members of the provincial house to come up and see what we were doing here. Mr. Jones noted the pleasing arrangement of the exhibits and the beautiful photographic display of Okanagan scenery, the beauties of which could not be excelled. While there were but little over four hundred entries this year as compared with 500 last year the reasons for this were well understood locally. He drew attention to the prominent place in both plate and box exhibits held by the Jonathan apple. The prizes were well distributed, and he congratulated Keremeos on the number taken. Referring to the wonderful color of the apples, Mr. Jones declared that the color of the fruit grown at this end of the Valley cannot be excelled. He noted with satisfaction that in the Women's Department the exhibits were all in the utility class, fancy work not being in evidence. The cooking was all along the lines of food conservation. He spoke in highest terms of the seed production at the Experimental Farm, and asked that the visitors to the exhibition note the great superiority of the home grown seed over the imported. He declared that this proves that anything grown on irrigated land set the standard for its class. Three pounds of seed potatoes, Empress State, obtained at the Farm, had yielded a Kelowna farmer 185 lbs., and 245 lbs. had been produced by 3 lbs. of Delaware Beauties. Complimenting the children on the excellent school exhibit, and noting with satisfaction that the live stock department showed a splendid increase, though he regretted sheep did not have a place on the prize list, Mr. Jones closed by an appeal for the support of the people to the Victory Loan.

Mr. J. M. Ward, head of the Horticultural Branch of the Department of Agriculture for the State of Tasmania, followed Mr. Jones, Tasmania. In normal times exports two million bushels of apples, mostly to England. He noted with satisfaction that we were free from the codling moth, so destructive in the United States and other places.

[Continued on Page 4.]

Summerland Features In Government Bulletin

Of special interest to the farmers and fruit growers of the Okanagan is a series of bulletins just issued by the Provincial Department of Agriculture, Horticultural Branch. A copy each of ten of these circulars has been received by The Review, and every one of the ten deals with some phase of agricultural endeavor as carried on here.

Of special interest is the fact that four of the bulletins have been prepared in Summerland, and deal especially with the production of early vegetables such as egg-plant, sweet pepper, cucumber, cantaloupe, and tomato. These were prepared by Mr. J. L. Hilborn at the request of the Horticultural Branch.

The following are the titles of the various circulars with their respective numbers, and any or all of them can be had free upon application to the Department at Victoria or through the local Farmers' Institute:—

- No. 35, "The Currant Gall-Mite;" No. 39, "Apple Aphides;" No. 44, "Apple Scab;" No. 45, "Anthracnose of Apple Trees;" No. 46, Egg Plant and Pepper Growing in the B.C. Dry Belt;" No. 47, Cucumber and Cantaloupe Growing in B.C. Dry Belt;" No. 48, "Forcing Houses and Frames for Producing Early Vegetable Plants;" No. 49, "Tomato Growing in the B.C. Dry Belt;" No. 50, "Potato Diseases;" No. 52, "Diseases of Stone Fruits in B.C."

Summerland Apples Are Subjects Of Great Praise

The "Blenheim Orange" apple is not very largely grown here, nor is it well enough known locally to be generally appreciated. The arrival in Winnipeg recently of a box of apples of this variety, shipped by the Summerland Fruit Union through the Okanagan United Growers, occasioned some very favorable comment by the "Winnipeg and Western Grocer," a trade paper with a wide prairie circulation among dealers.

Of these apples the Grocer says: "Probably the most popular box of apples that has come into Winnipeg this season was that which reached our offices one week ago. This was a box of 'Blenheim Oranges,' a variety in immense favor with apple epicures in the Old Country, but which are apparently grown to perfection in the Okanagan Valley. . . . The box . . . contained the most perfect fruit. Men who are admittedly specialists in the fruit business, as well as those less tutored, but probably harder to please, yet who know and judge an apple by its 'toothsome-ness,' were unanimous in their opinion that the 'Blenheim Orange' they tasted through our medium, were a positive surprise as well as a perfect delight. We believe, but we are not quite sure, that a limited supply of these apples are or will be available this season, but, if not, we hope our readers will preserve their souls and mouths in patience until the next autumn, when, we understand, fair supplies will take care of the epicurean demand."

Probably the largest grower of Blenheims in this district is Mr. H. C. Mallor, who has twenty-seven trees, from which he expects a good crop next season.

Some people's charity is confined to the distribution of lomons.

The Summerland and other school Boards throughout the province have been advised by the secretary, Mr. R. J. Hogg of Peachland, that the convention of B.C. School Trustees, scheduled to be held at Enderby next week, has been postponed indefinitely. Mr. Hogg hopes to be able shortly to announce a new date for the convention.

Fire Quickly Destroys Stock Of Jewelry

Quick Work of Fire Brigade Averts Disaster.

Both Stock and Building Uninsured.

A fire, which very quickly assumed alarming proportions, broke out in the store in the Kelley block, occupied by J. Rowley as a jewelry store at noon on Saturday. The store had been closed but a few minutes when the fire was noticed by Mr. R. S. Monro, who informed Mr. Harding in Beer's shoe store next door. Running to the corner, Mr. Harding called to Mr. T. B. Young, who was coming out of his office, and Mr. Young rang the fire alarm on the church bell opposite. Quickly a crowd of willing workers gathered, and without delay the fire hose was brought out and coupled to the hydrant close by the burning store, and a heavy stream of water under high pressure turned into the fire, which was burning fiercely and threatening to wipe out the whole corner. For a time it seemed that the next store, occupied by G. Noble, would be invaded by the flames and much of the contents were hurried out. Fortunately the fire was checked just as it had broken through into the next building. Very little damage was done the rear half of the jewelry store, but the interior of the front store was badly burned, and the stock on the shelves and in the window, and show cases totally destroyed. The more valuable part of the jewelry stock was in the safe and was uninjured.

Mr. Rowley, when seen by a Review representative, had not been able to calculate his loss, but estimated it at about \$800. The damage to the building is placed at about \$500.

The plate glass in the front of both stores next door were badly cracked by the heat and the awnings destroyed.

Much credit is due the volunteer fire brigade, whose good work saved the whole corner from being wiped out.

It is believed that the fire originated from an overheated stove.

C.P.R. Agent Has Influenza

This morning Summerland had only one known case of influenza, according to Dr. F. W. Andrew, Medical Health Officer. This case was a Japanese who had come here from Kelowna early in the week, and had at once been isolated. The half dozen other cases have all recovered. These were all mild cases, and had been isolated.

Though there did not seem to be any good reasons for cancelling the fair, the Reeve thought it inadvisable to permit the dance which has now become an established closing to the two days' fair program, and he accordingly issued a proclamation on Thursday morning postponing the dance. While the local authorities are ready to take quick action should the disease get established here, there has not yet been any move toward a general closing. The theatre will close after to-morrow, and outside of the churches there will be few occasions for the coming together of any number of citizens.

At noon to-day, C.P.R. Agent Sharpe was officially reported to be down with influenza. It is presumed he contracted the disease from some of the C.P.R. boat crew. Quite a number of the crew of the "Sleamous" are off with the epidemic, and yesterday morning only one deck hand was left. No freight was taken on.

Mr. W. Limmer is relieving Mr. Sharpe at the telegraph key during his illness, or until the C.P.R. sends in a relief agent.

"YOURS FOR VICTORY LOAN, 1918."

"Yours for Victory Loan 1918," is the Canadian letter writer's slogan in the Victory Loan campaign. Every one is asked to sign his or her letters in this way. Already some are doing it, and before the campaign is far under way it is hoped the practice will be general. It is an easy and yet most effective way of driving home the appeal for the Loan, and it will reach practically every one. Business men particularly are requested to adopt the idea. As they read their incoming and outgoing letters, during the next five weeks, they will confront "Yours for Victory Loan 1918" scores of times each day. Start now signing your letters in this way. Get into the swing! Every little bit is needed if Canada is to "go over the top."

THE USE OF THE APPLE.

"THOSE WHO MAKE a liberal use of apples will serve the dual purpose of saving for shipment overseas such articles of food as are fit for that purpose and at the same time furnish a useful and valuable food for the household." "The apple without question is the king of fruits, whether fresh, dried, evaporated, or canned, it is a wholesome food, easily prepared, attractive and palatable at all times." "Always cook apples in earthen or granite utensils and use silver, granite, or wooden spoons for stirring. The use of the apple as the basis for all manufactured jam is well known. This is due to the large amount of pectose which it contains. There is no waste to a good apple; even the paring and core may be utilized for jelly. Fruits are classified as flavor fruits and nutritive fruits—the apple comes under both of these heads." These are extracts from a little booklet issued by the Fruit Branch of the Dominion Department of Agriculture giving 160 recipes for the use of the apple. The book can be had free on application to the Publications Branch, Department of Agriculture, Ottawa.

More Buying of Orchards

Mr Hugh Lambie, known to many of our fruit growers as Valley agent for the B.C. Nurseries, has purchased the 10 acre lot just south of the Phinney lot from Thos. Dale. This orchard was formerly owned and was planted by F. J. Nixon. Mr Lambie plans on building a house on the lot next spring, when he and Mrs Lambie and their son will come to make Summerland their home. Mr Lambie says he has looked carefully over the whole Valley, and Summerland suited them the best by far of any place in which to make a home.

The well known Shaughnessy Ranch, the property allotted to the recently retired head of the C.P.R. by the Summerland Development Co., of which he was also president, has been purchased by S. J. Beggs. Mr Beggs, after selling his other lot, looked about elsewhere in the Valley but was not long in concluding that Summerland was the best of all the very attractive centres in the Okanagan.

Another well-known lot about to be taken over by a Summerland purchaser is the Watson lot near Major Hutton's. We understand Mr G. Marshall is buying this property from the Summerland Development Co.

If a man really loves a woman she does not have to conceal her age.

The path to success is paved with good intentions that were carried out.

WOOD for SALE

We are cutting a limited quantity of Wood, and anyone wishing to order should do so AT ONCE

\$7.00 PER CORD OF TWO RICKS

WM. BRENT

Heavy Buying Of Apples For Vancouver.

Mayor Gale of Vancouver stated upon several occasions during his recent visit to the Okanagan that what he had learned of our fruit industry had made him determined that Okanagan fruit should be offered the consumers of his city at lower prices than they were then paying. He proposed to effect this reduction in prices by having the fruit shipped direct to the "city market."

The city market building, we are informed, is occupied by the Defiance Packing Co. and H. O. Kirkham, who also operates a number of stores elsewhere in the city.

R. G. L. Clarke, Chief Dominion Fruit Inspector, in his report of last Friday says:—

"It is reported the Defiance Packing Co. of Vancouver has purchased 16,000 boxes of apples in Kelowna and Penticton, 6,000 Jonathans, 5,000 Wagners, 1,500 Spitz, 3,000 Yellow Newtons, 800 Stone-man Winesaps, and 2,000 assorted varieties, at \$2.25 for No. 1, \$2.00 for No. 2, and \$1.75 for crates. These to be all handled through the City Market. These prices f.o.b. Kelowna."

The Sun of same date says in part:—

"The first carload of apples from the Okanagan under the new arrangement arrived yesterday, and were immediately switched to the City Market siding and unloaded ready for sale to-day. The car comprises 270 boxes of Jonathans, 428 of Wagners, and 102 boxes of Northern Spys, all of the highest quality. The whole 800 boxes will be placed on sale at prices ranging from \$2.15 to \$2.85, which represents a big cut from the average prevailing prices for No. 1 grade apples."

That the placing of Okanagan apples before the buying public through this new channel has effected a great saving to the consumer would seem doubtful when the prices mentioned above are compared with the following retail prices as found to exist last Saturday by Markets Commissioner Abbott, and reported in his weekly bulletin:

Jonathans, \$2.70 and \$2.80; Cox's Orange, \$2.50; Grimes Golden, \$2.65; Greening, \$2.45; Spitz, \$2.70; Talman Sweet, \$2.70; Snow, \$2.70; Belleflower, \$2.10; Baldwin, \$2.30; Cooking Apples, \$1.25 to \$1.75.

The hard part of an easy job is the getting thereof.

British Columbia potatoes, grown on the lower mainland, are finding a market this year in Washington. A serious shortage in the Washington crop, due to failure in the White River district, has made a demand for our potatoes in that state.

from Vancouver. Mr Kellaway gave The Review some very interesting information on fruit growing in Tasmania, and insisted that no expense be spared in keeping our orchards free of codling moth. The expense in even keeping it under some measure of control is enormous.

NINTH ANNUAL FAIR.

(Continued from Page 1.)

Our government cannot do too much in its efforts to keep the moth out. Our fruit industry was well worth fostering. Mr Ward hoped that next year Australia and Canada would again be exchanging apples. He also spoke of the high quality and color of our apples.

Mr Ward and Mr S. J. Kellaway, a fruit grower of Tasmania, and a member of a committee of five advisors to the Horticultural Branch, left their island state six months ago to learn what they could of the fruit industry of Canada and the United States. They sail next week

OFFICIAL PROSPECTUS

The proceeds of this Loan will be used for War purposes only, and will be spent wholly in Canada.

THE MINISTER OF FINANCE OF THE DOMINION OF CANADA offers for Public Subscription the

Victory Loan 1918

\$300,000,000. 5½% Gold Bonds

Bearing interest from November 1st, 1918, and offered in two maturities, the choice of which is optional with the subscriber as follows:

5 year Bonds due November 1st, 1923
15 year Bonds due November 1st, 1933

Principal payable without charge at the Office of the Minister of Finance and Receiver General at Ottawa, or at the Office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary and Victoria.

Bonds may be registered as to principal or as to principal and interest, at any of the above-mentioned offices.

Interest payable, without charge, half-yearly, May 1st and November 1st, at any branch in Canada of any Chartered Bank.

Principal and Interest payable in Gold
Denominations: \$50, \$100, \$500 and \$1,000

Issue Price: 100 and Accrued Interest Income Return 5½% per Annum

Free from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The proceeds of the Loan will be used for war purposes only, including the purchase of grain, foodstuffs, munitions and other supplies, and will be spent wholly in Canada.

Payment to be made as follows:

10% on application; 20% January 6th, 1919;
20% December 6th, 1918; 20% February 6th, 1919;
31.16% March 6th, 1919.

The last payment of 31.16% covers 20% balance of principal and 1.16% representing accrued interest at 5½% from November 1st to due date of the respective instalments.

A full half year's interest will be paid on May 1st, 1919, making the cost of the bonds 100 and interest.

Subscriptions may be paid in full at the time of application at 100 without interest; or on any instalment due date thereafter together with accrued interest at the rate of 5½% per annum.

This Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge upon the Consolidated Revenue Fund.

The amount of this issue is \$300,000,000, exclusive of the amount (if any) paid for by the surrender of bonds of previous issues. The Minister of Finance, however, reserves the right to allot the whole or any part of the amount subscribed in excess of \$300,000,000.

Conversion Privileges

Bonds of this issue will, in the event of future issues of like maturity, or longer, made by the Government, during the remaining period of the War, other than issues made abroad, be accepted at 100 and accrued interest, as the equivalent of cash for the purpose of subscription to such issues.

Payments

All cheques, drafts, etc., covering instalments, are to be made payable to the Credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture, and the allotment to cancellation. Subscriptions must be accompanied by a deposit of 10% of the amount subscribed. Official Canvasers will forward subscriptions or any branch in Canada of any Chartered Bank will accept subscription and issue receipts.

Subscriptions may be paid in full at time of application at 100 without interest; or on any instalment due date thereafter together with accrued interest to time of making payment in full. Under this provision, payment of subscriptions may be made as follows:

If paid in full on or before Nov. 16th, 1918, pay without interest, or 100%
If remaining instalments paid on Dec. 6th, 1918, balance of 90% and interest, (\$20.48 per \$100)
If remaining instalments paid on Jan. 6th, 1919, balance of 70% and interest, (\$70.80 per \$100)
If remaining instalments paid on Feb. 6th, 1919, balance of 50% and interest, (\$31.64 per \$100)
If remaining instalment paid on Mar. 6th, 1919, balance of 30% and interest, (\$31.16 per \$100)

Denomination and Registration

Bearer bonds, with coupons, will be issued in denominations of \$50, \$100, \$500, and \$1,000, and may be registered as to principal. The first coupon attached to these bonds will be due on May 1st, 1919.

Fully registered bonds, the interest of which is paid direct to the owner by Government cheque, will be issued in denominations of \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$25,000, \$50,000, \$100,000, or any multiple of \$100,000.

Payment of Interest

A full half year's interest at the rate of 5½% per annum will be paid May 1st, 1919.

Form of Bond and Delivery

Subscribers must indicate on their application the form of bond and the denominations required, and the securities so indicated will be delivered by the bank upon payment of the subscription in full.

Bearer bonds of this issue will be available for delivery at the time of application to subscribers desirous of making payment in full. Bonds registered as to principal only, or fully registered as to principal and interest, will be delivered to subscribers making payment in full, as soon as the required registration can be made.

Payment of all instalments must be made at the bank, originally named by the subscriber. Non-negotiable receipts will be furnished to all subscribers who desire to pay by instalments. These receipts will be exchangeable at subscriber's bank for bonds on any instalment date when subscription is paid in full.

Form of Bonds Interchangeable

Subject to the payment of 25 cents for each new bond issued, holders of fully registered bonds without coupons, will have the right to convert into bonds with coupons and holders of bonds with coupons will have the right to convert into fully registered bonds without coupons, at any time, on application to the Minister of Finance or any Assistant Receiver General.

Forms of application may be obtained from any Official Canvaser, from any Victory Loan Committee, or member thereof, or from any branch in Canada of any Chartered Bank.

Subscription Lists will close on or before November 16th, 1918

ARTICLE No. XXVI.

It is but to state the known, the admitted, and the obvious to say that the interests of the people who comprise any community are mutual interests.

What, apparently, does not seem to be so well realized—although quite as obvious—is the fundamental necessity for effecting a permanent union of these interests. More particularly essential is the closer co-operation of the agricultural and commercial communities.

There are a few industrial plants on this continent which never have any strikes among their employes, and where the said employes are happy and satisfied and work tooth and nail for the best interests of the company that hands them their pay-checks. Why is this? Is it not simply because of a wise, broad recognition on the part of the employers of the fact that the well-being and contentment of their men mean success and profit to the factory?

The men, on their part, appreciate being taken into a co-operative partnership with the firm. They work under the most satisfactory conditions and participate in the success of the business. They reciprocate wholeheartedly. It is a mutually common-sense arrangement that produces the most wholesome results.

And it should be the same in the community. Jealousies should be thrown aside; passive interest should be stimulated into vigorous action; people should get acquainted with their neighbors and with newcomers; loyalty to the mutual interests involved should be the motto of everyone; progressive co-operation should take the place of kicking and grumbling. Altogether we require the TRUE COMMUNITY SPIRIT—a spirit that can surmount every real and imaginary difficulty in every worth-while district in the country.

To accomplish these delightful things—and they HAVE been accomplished in some localities—community organization is necessary. Call this organization a Community League, a Commercial Club, a Board of Trade, or what you will—it matters little so long as the proper spirit is behind and the proper objectives ahead.

EXCLUSIVENESS MUST GO.

In this community organization no class of the people must be left out—for there is but ONE CLASS the real community has room for, and that is the class that will work for the well-being of the community and is loyal to the mutual interests of the whole.

Let us say that a certain centre has a population of 8,000. That is not the real population of the town. In reality the population is more like 10,000—for is not the man who farms a hundred acres, five miles from the post-office just as much a citizen as the man whose little garden plot is five blocks from the post-office?

In the community sense, he certainly is.

Widen out your community organization, then. Too many of them are confined—miserably so. Reach out to the fields that are hitherto untouched, and you will find a response that will be surprisingly agreeable and effective.

Your community spirit must not be lazy—IT MUST WORK to bring the results. Your new found citi-

zens from a radius of five, eight or ten miles, can do more for your town than the handful of "close-ins" could ever hope to do. Give them a chance. Take them into your confidence. Get their co-operation and advice on town planning and children's playgrounds, on the advertising of the district, on the promotion of sports and literary clubs, on picnic excursions and bridge-building, on maintaining the civic centre as a place that's sweet, clean, and beautiful; on planting trees and buying new rugs for the hospital. Invite them to ride in your automobiles and you ride in theirs. Get them to join in your campaign for better roads, and by all means let them feel that the fall fair is THEIR fair, that the concert is THEIR concert, that the schools and the picture shows are THEIR institution. It will be surprising how naturally, THEN, they will realize that the town's business places are THEIR business places.

Yes; let us, by all means, organize community organizations with the broad community spirit.

Robert Stead's New Novel.

Robert J. C. Stead, in his new novel, "The Cow Puncher," (Toronto, the Musson Book Co., Ltd., cloth, \$1.50) has written a notable book with a Western Canada setting. David Elden, the cow puncher of the story, grows to young manhood on a ranch in the foothills outside the influence of church or school. At eighteen he is accidentally thrown into the company of a young Eastern girl, who enkindles in him the ambition to be somebody in the world.

With this purpose in view, young Elden leaves the ranch and goes to make his fortune in a young Western city. The first night he is swindled out of all his ready cash by a gang of card-sharpers, and he takes a job next morning as a coal heaver. For a time it looks as though Dave's course would be downward instead of up, but he fortunately comes under influences which revive his ambition for self-betterment.

About this time the big western real-estate boom breaks out, and Dave's course is meteoric. His wealth comes quickly and goes as quickly. Following the collapse of the boom a tragedy in his love affairs sends him as an enlisted man to France. In the closing chapters is found one of the highest patriotic notes struck by any author during the war.

"The Cow Puncher" is decidedly worth while. It is interesting and refreshing, and at times inspiring, written with all Mr Stead's intimate knowledge of the West and skill of delineation. Through the book runs a happy vein of humor and philosophy which is not the least of its charms. It is illustrated by Arthur Heming, ex-lumber man and North-West Mounted policeman, and is announced by the publishers as an all-Canadian book—written by a Canadian, and printed and bound in Canada. It should receive a warm welcome from the Canadian reading public. The United States edition is issued by Harpers.

War Efficiency and National Prosperity

More than a billion and a half dollars distributed in Canada for exported agricultural produce and the products of labor in the fiscal year ending March 31, 1918, has kept Canada busy and prosperous in spite of the war.

CANADA'S production in such enormous quantities was made possible only by the money received through Canada's War Loans. Canada thus was enabled to assist the Allies in their purchases here by establishing financial credits for their use in this country.

CANADA'S war loans not only have sustained Canada's war effort, but they have kept the wheels of production turning as they never turned before.

This is the flood of cash which poured in to Canada's farms for their exports in the fiscal year 1918, for:—

Butter.....	\$ 2,000,000
Cheese.....	36,602,000
Eggs.....	2,271,000
Oats.....	37,644,000
Wheat.....	366,341,000
Flour.....	95,896,000
Meats.....	76,729,000
Vegetables.....	19,034,000

Over six hundred and thirty-six million dollars for exported farm products alone!

AND the workers of Canada also shared greatly in Canada's export trade.

For their products there was distributed in Canada, during the year:

Munitions.....	\$450,000,000
Metals.....	92,083,000
Vehicles.....	22,776,000
Wood Pulp and Paper..	59,599,000

These huge sums were spent in Canada by the Allies.

Canada's own war expenditure for the fiscal year 1918 was \$342,762,000.

And the bulk of all these expenditures, the foundation of Canada's prosperity and war effectiveness, was made possible only because the subscribers to Canada's war loans furnished the working capital.

CANADA must keep this great work going—must produce as never before; must work, fight, save and lend as she has never yet done to bring victory and a lasting peace to a war-ridden world.

But Canada to-day (thanks to her great export trade), is in a better position now than ever, to carry on.

The Victory Loan 1918 will keep Canada busy, will enable her to maintain her great export business; and it will make Canada more efficient than ever, because her prosperity will not be diminished and her determination to work, fight and win will be stronger than it has ever been before.

A Weekly Chronicle Furnished By Our Local Representative.

Miss Jean Dryden came home from Kelowna last week, the schools being closed in that city as a preventive measure from the Spanish influenza.

Miss Johnston, who had been picking for Mr J. McKinnon, returned to Kelowna on Wednesday morning of last week.

Miss Ledingham, who has been spending quite a holiday here with her uncle, Mr R. J. Hogg, left on Wednesday morning last week, with the intention of lending a helping hand with the influenza epidemic in Vancouver.

Mr Thos. Powell returned on Wednesday night of last week after spending a day or two in Vernon.

Miss Leone Morrison returned home last week, on Wednesday's boat, her school also being closed on account of the influenza, which seemed to be getting into the Rutland district.

Miss Gladys McCall of Gibson's Landing, Howe Sound, came in on Wednesday's boat of last week to spend a time visiting her relatives here. She has been in the Vernon district for some weeks past doing National Service work in the orchards there.

Mrs D. J. White with Master Leslie, and Mrs Hendrickson were passengers south on Wednesday night's boat last week, going down to spend a few days in Penticton. They returned on Monday morning of this week.

Mr Duncan of Westbank and his daughter, Mrs Harkness, spent Wednesday of last week in town visiting friends. They returned in the evening.

Passengers north on Thursday morning of last week were, Mrs G. Keyes, and Miss Marie Phillips to spend the day at Gellatly, and Mr and Mrs J. Wright to spend the day in Kelowna.

Passengers north on Friday of last week were Mrs A. Town and Master Gordon and Miss K. Henderson to spend the day in Kelowna; Mrs Robison en route for Vernon for a short visit; Mrs Burke Robinson and one of the children to visit for a few days in Westbank with her father and sister; and Mr A. Pope for Vernon. Old friends and acquaintances will be interested to note that Mr Pope went up to spend a few days with his daughter Muriel (Mrs Harold Burkett) who has just returned from England where she has remained since her husband's death.

After spending a few days' pleasant holiday visiting friends here, Mrs Estabrook, Sr., returned to Summerland on Friday.

Miss Newby was a passenger to Summerland on Friday last to spend the week-end.

Friends of Mrs Will Aitkens were very sorry to learn of the news she received which called her away suddenly for Vancouver. Her mother and sister are victims of the influenza, and we understand her sister is in a critical condition. Mrs Aitkens left on Friday night last, in answer to a telegram.

She left little Miss Kathleen with her sister, who is spending the time here which she has at liberty owing to her school up the Valley being closed. Mrs Aitkens carries the sympathy of her many friends with her in her trouble.

After spending a few days in a very pleasant holiday with Miss Dancer in Summerland, Mrs R. Howell returned to her home here on Saturday morning.

Miss Kate Miller was a passenger north on Saturday last en route for Vancouver where she went offering her services as a nurse to help with Vancouver's crying need. Rumor has it, however, that her services were transferred to Prince Rupert.

Passengers to Kelowna on Saturday were Mrs C. Aitkens and Mrs J. Winger and Miss Doris.

Messrs Davis and Groves were passengers arriving on Saturday morning's boat, paying an official visit in connection with the water situation.

After spending a couple of days in the district in the interests of the London Life Insurance Co., Mr J. Gardner, formerly of Penticton, returned down the lake to further follow his duties. While here Mr Gardner appointed a local agent in the person of Mr H. E. McCall.

Mr V. Jones was a passenger returning to Peachland on Saturday night.

Miss Leone Morrison went down on Saturday night's boat to spend the week-end in Summerland. She returned on Tuesday morning.

Rev. H. D. Riggs, formerly and again now of Kelowna, came down on Saturday last to take the afternoon service for the Baptist denomination here on Sunday, and they listened to a very profitable discourse at that time. Mr Riggs has been filling a pulpit in Hartney, Man., for a time, but has recently returned to B.C., and as business is keeping him for a time in Kelowna he has agreed to come down and preach for the church here each Sunday while remaining in Kelowna. He returned to that city on Monday morning, after being entertained by the Keyes.

Passengers to Kelowna on Monday morning were Mrs W. Coldham and Mrs Stevens, returning on the evening boat.

Mrs C. Aitkens returned on Monday night after spending the week-end in Kelowna with her daughter, Mrs W. Lupton.

Miss Margaret Duncan of Vancouver came in on Monday night's boat to visit at the home of H. E. McCall. She is a friend and fellow worker of Miss Gladys McCall, who came recently from the Vernon district, where the girls have been

servicing with others in the National Service work there, in the orchards. They report for the most part a pleasant and profitable experience. There were about sixty-five girls in the party, mostly from the Coast. Before coming to the Valley, they formed a part of three hundred who were employed around the Hatzic and adjoining district.

Mrs Burkett Robinson returned on Monday night's boat after spending a few days in Westbank.

Corporation of the District of Peachland

ELECTION FOR SCHOOL TRUSTEE

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Corporation of the District of Peachland that I require the presence of the said electors at the Municipal Office, Peachland, on the 11th day of November, 1918, at 12 o'clock noon, for the purpose of electing a School Trustee to fill the vacancy caused by the resignation of Mr John S. Drought.

The mode of nomination of candidates shall be as follows:

Every candidate for election shall be nominated in writing; the writing shall be subscribed by two voters in the school district for which such election is to be held, as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and two p.m. of the day of nomination. The said writing may be in the form numbered 5 in the schedule to the Elections Act, and shall state the name, residence, and occupation or description of each person proposed, in such manner as sufficiently to identify such candidate, and in the event of a poll being necessary, such poll will be opened on the 14th day of November, 1918, at the Municipal Office, Peachland, of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for School Trustee shall be his or her being a British subject, and his or her having been for the three months next

preceding the day of nomination the registered owner in the Land Registry Office of land or real property situate within the district of the assessed value on the last Municipal or Provincial Assessment Roll of Two Hundred and Fifty Dollars, or more, over and above any registered judgment or charge, or being a homesteader, lessee from the Crown or pre-emptor, who has resided within the district for the space of one year or more immediately preceding the nomination, or who being a homesteader, lessee from the Crown or pre-emptor, who has resided within the district for a portion of the year immediately preceding the nomination, and who during the remainder of the said year has been the owner of said land of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and who is assessed for Five Hundred Dollars or more, on the last Municipal or Provincial Assessment Roll over and above any registered judgment or charge, and being otherwise qualified as a voter.

Given under my hand at Peachland, this 31st day of October, 1918.

WM. M. DRYDEN, Returning Officer.

Passing Events: Social, Personal, &c.

Mrs H. A. Solly returned on Tuesday morning from a short visit to the Coast.

Messrs Derry and Chamberlain, the former manager and the other one of the staff of the Armstrong packing house at Keremeos attended the fair this week.

Some abnormally large potatoes grown by R. Johnston, Trout Creek, and weighing around five pounds each, have been on display in The Review window this week.

The Ladies' Hospital Auxiliary served lunch and tea in the basement of the exhibition hall during both days of the fair. The net takings will total \$130 or more.

Dr and Mrs Matthewman were advised by cable this week that their son, Capt. Gerald Matthewman, has been awarded the Military Cross. Capt. Matthewman, who is a graduate of the Military College at Kingston, is with the Indian army in Palestine.

Through the sale of "woolies" on Thursday afternoon at the fair by little Miss Isobel Zimmerman and Scout Jimmie Smith the Prisoners of War Fund was augmented by \$29.55. The woolies were supplied from Vancouver and the money will be there credited to Summerland.

With reference to the item in our last issue in which it was stated that there was no seeming foundation for the report that there was to be a Japanese store opened here, it has been suggested that it might be interpreted that the local Japanese buy all their supplies from Vancouver. This is not the case, the purchases they make there being of commodities that are not obtainable here.

A young lad, George Callaway, had a bone in his fore-arm broken in a runaway on Tuesday. He was driving a horse down the Peach Orchard road to the fair grounds when some harness broke, frightening the horse. The horse turned in toward the cemetery where it became entangled, and where the young driver was thrown out. He was picked up and taken home and the doctor summoned. He is now doing nicely.

Rev. W. H. Bates and family have moved from the Sawyer place to Prof. Moore's house this week.

A. H. Steven went up to Armstrong on Saturday to attend to business in connection with his farm property there.

Mr and Mrs J. J. Armstrong and Mr and Mrs Harry Armstrong of Keremeos were visitors to Summerland during the fair.

Don't neglect your insurance any longer; I am in Summerland again and can fix up your risk. Walter Wright. 14

Miss Snider, who has been doing volunteer nursing in Vancouver, came in on Thursday morning to visit her father, who has been quite sick with stomach trouble.

M. S. Middleton, Provincial Horticulturist, and Mr R. H. Treherne, Entomologist, and Mrs Treherne were among the visitors to Summerland during the fair.

Miss Amy Brown went over to Phoenix on Thursday where she will assist in nursing "flu" patients. When there came a call from the Coast some days ago for nurses she offered to go up to Anyox, but in the meantime other nurses had been engaged for there and Miss Brown was asked by wire to go to the Boundary mining town.

At a recent gathering of the Japanese citizens of Summerland it was agreed that three thousand dollars should be fixed as the objective of the local association for subscriptions to the Victory Loan. This will be a splendid contribution, and the assistance will, of course, be very welcome to the local committee.

An official telegram brought news to his people here that Clarence Adams had been wounded. Since then Mrs Adams has had a letter from him written at Liverpool, where Clarence is in hospital. He was hurt during an air raid, when 150 of his party were killed or wounded. He was struck by something on the left shoulder, and though he was not feeling very good when he wrote there is no occasion for alarm because of his condition.

Mrs Cartwright went down to Victoria last week for a short visit.

Mrs James Thompson returned on Monday night from a visit to Nelson.

That mountain sheep, now grown quite tame, is still making his home on Giants Head.

At a dance held last night in the Oddfellows' Hall \$12 was realized for the Home Comfort Club Fund.

Messrs F. A. C. Wright, Pte. Jack Smith, and Pte. Sutcliffe were passengers to the Coast on Monday night.

Miss Oliver, daughter of K.V.R. Agent here, has gone to Vancouver to help nurse the influenza patients of that city.

W. M. Wright returned from Vancouver on Thursday morning. He recently recovered from an attack of influenza.

Mr George Dobie, manager of the Okanagan Telephone Co., Ltd., has been suffering from pneumonia. Mr and Mrs Dobie are the guests of Mr and Mrs A. B. Currie. We are glad the patient is making good progress towards recovery.—Salmon Arm Observer.

Provincial Horticulturist M. S. Middleton, Ben Hoy, Inspector Hunter, Pentleton, L. Taylor, Kelowna, and Messrs Ward and Kellaway of Tasmania were judges at the fair. Mrs Davies and Mrs Allen, Naramata, judged the Women's Institute section, and Mrs Ross and Miss Spencer were judges of the school section.

By-Laws Approved

Only eighty-nine ratepayers recorded their wishes regarding the irrigation improvements and the amendment to the telephone company franchise by voting on Tuesday. Not one of the eighty-nine voted against By-laws Nos. 97 and 98, the irrigation; construction and loan by-laws, nor were there any spoiled ballots for these, the eighty-nine ballots all approving the work and the borrowing by debenture of the necessary capital.

There was not the same unanimous endorsement given the By-law empowering the telephone company to increase its monthly rentals. In this case three of the eighty-nine ballots were spoiled and eleven were cast against the amendment. The seventy-five votes in favor of the telephone By-law were such an overwhelming majority of the ballots cast that the Reeve and Council in a special session on Wednesday morning had no hesitation in giving final approval to this along with the other by-laws.

There were present at this meeting only the three members comprising the Finance Committee, just enough for a quorum, and no other business was transacted.

CARD OF THANKS.

If it were possible we would like to personally express our gratitude to all those who so promptly and ably did their best to make our loss as light as possible.

We thank you for what you were so willingly able to accomplish.
J. ROWLEY.

"Hearts Afire"

Featuring CLARA KIMBALL YOUNG

Taken from the Novel by John Oxenham entitled "Hearts in Exile."
Dramatized by Owen Davis.

Clara Kimball Young's appealing personality never registered to better effect than in this wonder-film. "Hearts Afire" tells a story of Russia, and tells it in a compelling, gripping manner that delights the beholder. This picture is one that entertains and interests throughout each foot of the film.

WILL BE AT

The RIALTO

SATURDAY, Nov. 2.

This excellent Picture will be the LAST shown at The Rialto for a time, the Management having decided to discontinue until the danger from the epidemic has passed.

NOTICE

Military Service Act, 1917. EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor-General in Council, impose strict obligations upon every employer TO ASSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN ANY WAY IN DEFAULT UNDER THE MILITARY SERVICE ACT.

An employer who is charged with having a defaulter in his employ must be able to prove THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION at the time when the employee was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

REGULATIONS.

"106. Every person who employs or retains in his service any man who has deserted or is absent without leave from the Canadian Expeditionary Force, or who is in default in the performance of any obligation or requirement for reporting or for military service, imposed upon him by the Act or Regulations, or any proclamation thereunder, shall be guilty of an offence punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars, and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he made due inquiry and that THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR THE MILITARY AUTHORITIES TO THE MAN SO EMPLOYED OR RETAINED IN HIS SERVICE WERE PRODUCED FOR HIS INSPECTION, and that it was reasonably established to his satisfaction by such inquiry and papers that the man was not a deserter or absent from the force without leave, or in default in respect of any of the obligations or requirements aforesaid."

Best Packed 10 Boxes Winter Apples. This exhibit to have not less than two varieties. 5 boxes must be packed from either of the following varieties: Delicious, Ontario, or Wagener.
1st, \$25.00; 2nd, \$15.00; 3rd, \$5.00.
Three entries or no second prize. Four entries or no 3rd prize. Open to all packing houses and fruit growers in the Valley.
J. Lawler.

CLASS 2.
Best 3 boxes Winter Apples, any one or any three varieties, all varieties to count equal. Packing to be done by the grower or one of the family who is not a professional packer. By this is meant one who does not pack for a living. All apples must be grown on the property of the exhibitor. Packing to count 50 per cent. of points. Prizes donated by Superintendent R. H. Helmer and men on the Experimental Station. \$15, \$10, \$5.
H. C. Mellor; W. E. Rines; A. Moyes.

- CLASS 3.**
1 Best 2 boxes Delicious \$10 \$5
W. H. Armstrong, Keremeos; H. C. Mellor.
3 do. Gravenstein 10 5
W. E. Rines.
4 do. Jonathan 10 5
W. H. Armstrong; F. M. Smith, Penticton.
6 do. Northern Spy 10 5
F. G. Barnard; H. C. Mellor.
7 do. Rome Beauty 10 5
W. E. Rines; F. M. Smith.
8 do. Spitzenberg 10 5
W. H. Armstrong; W. C. W. Fosbery.
9 do. Wagener 10 5
H. C. Mellor.
10 do. Winesap 10 5
W. H. Armstrong; W. Armour, Naramata.
11 do. Winter Banana 10 5
J. R. Doherty; W. H. Armstrong.
12 do. Yellow Newtown 10 5
H. C. Mellor; G. Morgan.

- CLASS 4.**
2 Best Box Baldwin \$5 \$2.50
W. H. Armstrong.
3 do. Hubbardson's Nonsuch 5 2.50
G. Morgan; H. Bristow.
4 do. King 5 2.50
G. Morgan.
5 do. Rhode Island Greening 5 2.50
H. C. Mellor.
7 do. Ben Davis 5 2.50
H. C. Mellor.
9 do. Salome 5 2.50
H. Bristow.

Best Box Quinces—W. C. W. Fosbery.
PLATE EXHIBITS (5 apples to Plate).

CLASS 6.
Best Plate Exhibit. First Prize, \$1.50; Second Prize, \$1; Third Prize, .50.
1 Delicious 2 Grimes Golden 3 Gravenstein
4 Jonathan 5 McIntosh Red 6 Rome Beauty
7 Spy 8 Spitz 9 Wagener 10 Winesap (old)
11 W. Banana 12 Y. Newtown.

Delicious—W. H. Armstrong; A. H. Huntley, Penticton; H. W. D. Smith, Penticton. Grimes Golden—H. Cancellor; A. W. Jocelyn, Westbank; Capt. Languedoc, Naramata. Gravenstein—W. E. Rines; R. H. Agur Estate. Jonathan—J. Tait; Dr Mathison; J. Moore, Peachland. McIntosh Rod—R. H. Agur Estate; Dr Mathison; J. R. Doherty. Rome Beauty—Capt. Languedoc; J. M. Myers, Naramata; W. E. Rines. Spy—A. Ferguson, Peachland; R. H. Agur Estate; C. Craig, Spitz—H. C. Mellor; W. H. Armstrong; J. M. Myers. Wagener—H. Bristow; J. M. Myers. Capt. Languedoc. Winesap (old)—S. Blackwood, Westbank; Dr Buchanan, Peachland; W. H. Armstrong. Winter Banana—J. R. Doherty; W. H. Armstrong; Capt. Languedoc. Yellow Newtown—Capt. Languedoc; W. H. Armstrong; J. M. Myers.

CLASS 7.
Best Plate Exhibit. First 75c.; Second 50c. Any other variety than in Class 6. Each variety to compete separately.
King David—J. Tait; Marjorie Hatfield, Non-Such—H. Bristow; H. Cancellor. Cox's Orange—J. M. Myers; Dr Mathison, Rhode Island Greening—Mrs W. A. Lang, Peachland; H. C. Mellor. Baldwin—Mrs J. M. Sutherland; R. Johnston. Ben Davis—G. J. C. White; H. C. Mellor. Gano—J. McKinnon, Peachland; A. Ferguson, Peachland. Salome—H. Bristow, W. E. Rines. Arkansas Black—R. Johnston. Dolanwe Red—E. E. Eddy, Peachland; H. Hardy, Peachland. Snow—Kirk Sutherland; W. C. W. Fosbery. Ontario—M. Tanoda, Westbank; Miss Clark, Westbank. Black

Twig—Seth Davidson, Peachland; G. H. Doherty, Golden Russett—J. McKinnon; H. Bristow; White Winter Pearmain—G. J. C. White. York Imperial—Mrs W. A. Lang. Tolman Sweet—S. A. Denike. Wealthy—R. H. Agur Estate.

CLASS 8.
Best Plate Exhibit Hyslop Crabs, 12 to a plate. Conditions and prizes as in Class 7.
W. C. W. Fosbery.

CLASS 9.
Best Plate of Pears in the following varieties. Conditions and prizes as in class 7.
Flemish Beauty—S. A. Denike. Winter Nelles—H. Bristow. Beurre de Anjou—Dr Mathison; W. C. W. Fosbery.

CLASS 10.
Best Box Pears.
2 Winter Nelles \$4 \$2
H. Bristow.
3 Any other variety. Each variety compete separately. 4 2
Beurre de Anjou—W. H. Armstrong; W. C. W. Fosbery.

CLASS 11.
Best Plate of 5 Quinces 75c. 50c
G. J. C. White; Mrs F. D. Cooper.

CLASS 12.
Best Grapes \$2 \$1
P. G. Koop; Mrs. Feldtman, Penticton.

CLASS 13.
Best 3 Vegetable Marrows \$1.00 50c
E. B. May; H. Bristow.
do. 1 Pumpkin 1.00 50c
W. E. Rines; H. C. Mellor.
do. 1 Squash 1.00 50c
H. Bristow; J. L. Hilborn.
do. 2 Citron 1.00 50c
H. Bristow; W. E. Rines.

CLASS 14.
Best Plate of Six Potatoes. 1st, 75c.; 2nd, 50c.
Green Mountain—G. Graham; W. C. W. Fosbery.
Any Other Variety—R. Johnston; E. R. Simpson.

10 Best Orchard Box of White Potatoes \$5 \$2.50
G. Graham; W. C. W. Fosbery.

12 Best Collection of Vegetables, not less than 12 varieties 10 5.00
Mrs E. B. May

14 Best Orchard Box of White Onions 5 2.50
E. R. Simpson; A. Moyes.

15 Best 2 qt. Sealers of white field Beans 2 1
E. Mountford; W. E. Rines.

16 Best Collection of Beans in pint jars, at least 3 varieties 2 1
E. Mountford; G. H. Doherty.

APPLE PACKING CONTEST.

Competitors must pack three boxes within 25 minutes to secure perfect points for speed.

Prize winners of similar contests in previous years are barred.
If less than five compete, 1st prize will be \$7.50; 2nd prize \$5.00, no third. If less than four, only one prize, \$5.00.

Prizes will be, if five or more compete, 1st, \$10; 2nd, \$7.50; 3rd, \$5.

The prize money will be paid direct to the winners by the Department of Agriculture on receipt of the signed report of the judges.

Miss K. Babbitt; Miss Doris Cordy; Miss Eva Shields and Miss Vera King, Penticton, a tie.

STOCK

CLASS 15.
Horses, Agricultural.

2 Best Brood Mare, any age \$5 \$3
R. H. Agur Estate.

5 do. Foal 1918 4 2
R. H. Agur Estate.

6 Best Orchard Team to Wagon \$10 \$5
G. H. Doherty; E. O. James.

CLASS 16.
Roadsters.

2 Best Brood Mare, any age \$5 \$3
S. A. Doniko.

3 do. Two Year Old Filly or Gelding 4 2
Mrs J. Tait; C. Craig.

5 do. Foal 1918 4 2
S. A. Doniko.

6 Single Driver in Harness 5 3
H. Scott; Geo. Dewar.

7 Best Saddle Horse 4 2
Geo. Downar; C. Craig.

CATTLE.

CLASS 17.
Pure Bred Dairy Type.

1 Best Cow, any age; First Prize, \$10; donated by Mr J. W. Jones, M.L.A.; Second Prize, \$5.00.
R. H. Agur Estate; H. Bristow.

2 Best Two Year Old Heifer \$4 \$3
R. H. Agur Estate.

3 Best One Year Old Heifer 4 3
R. H. Agur Estate.

4 do. Heifer Calf 4 3
R. H. Agur Estate; H. Bristow.

CLASS 18.
Grade Dairy Type.

1 Best Cow, any age \$4 3
R. H. English; W. E. Rines.

2 do. Two Year Old Heifer 4 3
R. H. Agur Estate; E. O. James.

3 do. One Year Old Heifer 4 3
H. C. Mellor; Adrian Howell.

4 do. Calf 1918 (Heifer) 4 3
Ernest Doherty; O. Vaughan.

PIGS.

CLASS 19.
2 Best Brood Sow \$4 \$2.50
H. C. Mellor; H. C. Mellor.

3 do. Pair Spring Pigs 3 2.00
Geo. Denike; Geo. Dewar.

CANADIAN BANKERS' COMPETITION, FOR BOYS AND GIRLS.

Only Boys and Girls who have not attained their 17th birthday are eligible to compete.

Exhibitors must feed and care for the animals they exhibit for at least six weeks.

CLASS 2. Two Pigs (Pure Bred or Grade). Prizes: 1st, \$5; 2nd, \$4; 3rd, \$3; 4th, \$2; 5th, \$1.
Geo. Denike; Geo. Dewar; Ruth Graham.

Women's Institutes Section.

CLASS I. 1st 2nd
1 Best basket arrangement of autumn leaves, berries, and grasses. \$1.00 .50
Mrs J. Tait; Mrs Ottley.

2 Best basket garden flowers 1.00 .50
Mrs Ottley.

CLASS II.
1 Best pair men's knitted socks \$1.00 .50
Mrs Lipsett; Mrs Helmer.

2 Best pair knitted mittens 1.00 .50
Mrs M. Robinson.

3 Best knitted jersey with sleeves for child 1.00 .50
Mrs R. V. Agur.

6 Best four articles made from flour sacks 1.00 .75
Mrs W. C. W. Fosbery; Mrs Eric Agur.

7 Best trousers for boy under 7 (made from daddy's old pants) 1.00 .50
Mrs Bryant; Mrs R. V. Agur.

8 Children's home-made shoes (with pattern) 1.00 .50
Mrs Eric Agur; Mrs W. C. W. Fosbery.

12 Best plain sewing, girl under 10 .75 .50
Dorothy May Solly.

18 Best home-made rag rug 1.00 .50
Mrs Myers, Naramata; Mrs Estabrook.

CLASS III.
(All baking to be done with Standard War Flour).

1 Best single loaf of bread, made from Ogilvie's standard flour \$1.00 .50
Mrs Kristine; Mrs W. C. W. Fosbery.

2 Best single loaf of bread, made from Purity mixed flour 1.00 .50
Mrs Mellor; Mrs Lipsett.

Best Single Loaf Bread, made from "Purity" flour.
Mrs W. J. Robinson; Mrs Kristine.

3 Best loaf potato bread (Miss O. Hayes' recipe) 1.00 .50
Mrs Chew; Mrs Holmer.

4 Best loaf brown bread 1.00 .50
Mrs Moyon; Mrs W. C. W. Fosbery.

5 Best baking powder biscuits .50 .25
Mrs Young, Naramata; Mrs Mellor

6 Best war cake (recipe given) .50 .25

WAR CAKE RECIPE.
Eggless—Butterless—Milkless.

2 cups brown sugar 2 cups hot water
2 tablespoonsful crisco or lard
1 package seedless raisins
1 teaspoonful salt 1 teaspoonful cinnamon
1 teaspoonful cloves

3 cups flour 1 teaspoon soda
Mrs Figgis; Mrs Holmer.

7 Best pumpkin pie (war pastry) .50 .25
Mrs Mellor; Mrs Figgis.

8 Best apple pie (war pastry) .50 .25
Mrs Mellor; Mrs Lipsett.

9 Best three varieties war cookies .50 .25
Mrs Mellor; Mrs Helmer.

10 Best four varieties catsup and relish, not less than 1 pint .75 .50
Mrs Lipsett.

12 Best four varieties canned vegetables 1.00 .50
Mrs W. J. Robinson; Mrs Bristow.

14 Best four varieties jellies 1.00 .50
Mrs May; Mrs Cooper.

15 Best four varieties canned fruit 1.00 .50
Mrs W. C. W. Fosbery; Mrs Kristine.

17 Best four varieties pickles 1.00 .50
Mrs Lipsett.

18 Best four varieties marmalade 1.00 .50
Mrs Lipsett.

19 Best one print pound butter 1.00 .50
Mrs Myers; Mrs G. H. Doherty.

20 Best quart vinegar 1.00 .50
Mrs Solly; Mrs Kristine.

22 Best bowl mixed fruit for table decoration 1.00 .50
Mrs Barnes.

SCHOOL SECTION.

No. 1. One Spring Pig.—Open to all. First Prize \$5, donated by Prin. C. W. Lees; Second, \$2.50; Third, \$1.00; also prizes offered by the province.
Alfred Johnston; Jack Harris; Ruth Graham.

No. 3. Insects, to be named.—(a) Children aged 10 and under; (b) children over 10.
First Prize, \$1.00; Second Prize, 50c.

One Exhibit by Harold White (Div. V.) a small but commendable exhibit, not entered for competition.

No. 4. Map Drawing. Best Map of North America.—(a) Children aged 10 and under; (b) children over 10.
Dorothy Garnett (Div. II.); Nicolas Solly (Div. II.)
Winnie Yule (Div. I.); Sylvia Washington (Div. I.)
First Prize, \$2.00; Second Prize, \$1.00.

No. 5. Drawings in Design.—(a) Children aged 10 and under; (b) children over 10.
Dorothy Garnett (Div. II.); Jessie Rutherford (Div. II.)
Grace Garnett (Div. I.); Clara Graham (Div. II.)
First Prize, \$1.00; Second Prize, 50c.

No. 6. Drawings from Nature.—(a) Children aged 10 and under; (b) children over 10.
Betsy Caldwell (Div. II.); Arthur Morgan (Div. II.)
(Thelma Howell (Div. II.); Clara Graham (Div. II.)
First Prize, \$1.00; Second Prize, 50c.

No. 7. Writing.—Two foolscap pages of muscular movement exercise; one foolscap page to be a written poem.—(a) Children aged 10 and under; (b) Children over 10.
Gertrude Arkell (Div. II.); Kathleen Monro (Div. II.)
First Prize, \$1.00; Second Prize, 50c.

Water Notice.

(USE AND STORAGE).
TAKE NOTICE that the Westminster Trust Company, whose address is New Westminster, B.C., will apply for a licence to take and use 400 acre-feet and to store 400 acre-feet of water out of Lake Brenda, which flows south-westerly and drains into Pinaske Lake. The storage dam will be located at outlet of lake. The capacity of the reservoir to be created is about 400 acre-feet, and it will flood about 50 acres of land. The water will be diverted from the stream at a point about 2,500 feet below outlet of lake, and will be used for irrigation purposes upon the lands described as D. Lots 3316 and 2537 Osoyoos Division. 200 acre-feet to be used on D.L. 3316, 100 acre-feet in D. L. 2537, and 100 acre-feet for loss by evaporation and seepage. This notice was posted on the ground on the 12th day of October, 1918. It is also proposed to lower the water level of Lake Brenda 5 or 6 feet by an open cut. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914" will be filed in the office of the Water Recorder at Vernon and Nicola. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is October 11th, 1918.

NOTICE TO SOLDIERS ON HARVEST LEAVE.

Attention is directed to a recent announcement published in the Press by the Military Service Branch, Department of Justice, regarding extensions to be granted to men EXEMPTED AS FARMERS.

It is pointed out that this DOES NOT IN ANY WAY AFFECT MEN WHO HAVE BEEN ORDERED BY THE REGISTRAR TO REPORT TO Depot Battalions and who have thereafter received leave of absence from the Military Authorities.

Once a man has been ordered to report for duty by the Registrar he leaves the jurisdiction of the Registrar and comes under that of the Department of Militia and Defence, and is to be considered as a soldier. This applies to men of the 20 to 22 Class, who have been ordered to report by the Registrar in virtue of the cancellation of exemptions by Order-in-Council of the 20th April last, as well as to those ordered to report in the usual way on refusal of claim for exemption, or on expiration of exemption granted.

All men, accordingly, who have been ordered to report, and are therefore SOLDIERS, and who have subsequently been granted harvest leave by the military authorities, MUST, NOTWITHSTANDING THE NOTICE ABOVE REFERRED TO, REPORT ON THE EXPIRATION OF THAT LEAVE, unless they are notified to the contrary by their Commanding Officer or by general notice published by the Department of Militia and Defence.

DEPARTMENT OF MILITIA AND DEFENCE.

Pest Freedom Means Much to Fruit Growers

Should Spare No Effort or Expense to Maintain En- viable Position.

The total freedom of the orchards of this province from codlin moth was a great surprise to the two fruit men from Tasmania who visited the Summerland Fruit Fair last week. In their own country it is necessary that spraying and banding of trees be constantly practiced, and The Review was told that there was no thought of ever being able to rid the country of the destructive pest that is costing a huge sum yearly. The fact that Messrs Ward and Kellaway had just come from the Pacific States of the United States of America, where millions of dollars annually is lost through the ravages of the codlin moth made the contrast of our freedom from that pest the more marked. We could not refrain from giving much credit to the late Inspector Cunningham for B.C.'s enviable position, at the same time expressing confidence that Provincial Horticulturist M. S. Middleton, backed by the fruit growers of the whole province, will spare no effort or expense to keep our orchards clean. Regarding this important subject Mr Ward, who is the head of the fruit division of the Tasmanian Department of Agriculture, made the following statement:

"I was greatly surprised to learn that the codlin moth is practically non-existent in British Columbia. If it gets a hold on an orchard it means an expensive business to spray and keep it under. It costs about \$5 per acre in spraying, and it is necessary to do this about three times, sometimes four or five, but putting it at three sprayings means a cost of \$15 per acre, which in the 40,000 acres of orchard (in the Okanagan) would mean a cost of \$600,000 per year. Your growers would be well advised to keep the codlin moth out, and the only way to do this is by stringent restrictions from districts outside the province.

"During my stay in the States I saw more apples destroyed by codlin moth than I have seen in my whole experience. From reports I have seen, about 2,500,000 boxes were destroyed by the ravages of the worm. I understand your agricultural department officers recognize what it means to keep the pest out of the province, and are doing all they can in this respect, and therefore should receive the backing of every fruit grower."

While they have the codlin moth in Tasmania they have no pear blight, or fire blight as it is called here. During his visit to this continent Mr Ward has seen untold damage wrought by this disease, and says that no legislation would be too stringent to keep the dreaded disease out of Australia.

Marriage Bells Have Busy Week

Cupid Scores Heavily in Past Few Days.

The marriage was solemnized on Wednesday evening, November 6th, of Miss Jessie Mitchell, daughter of Mr and Mrs J. J. Mitchell and Mr Benjamin Mayne of Minooia. The ceremony took place at the home of the bride's parents, Rev. W. H. Bates officiating. The witnesses were Mr James H. Ritchie and Miss Myrtle E. Ritchie. The room was nicely decorated, and the bridal party came forward to the strains of the Wedding March as played by Mrs A. J. Boor.

To a large company of intimate friends a wedding supper was served, and during the repast the health of the bridal couple was proposed by Mr Isaac Blair and Mr R. H. English. Mr Bates replied, and

(Continued on Page 5.)

Coast Doctor Gives Of His Experience

Tells of Successful Treatment Of Influenza.

Noting that little advice regarding influenza has been given the public from the experience of professional men, Dr Ernest A. Hall of Vancouver, made a radical departure from the accepted rule of "professional etiquette," when he wrote "The World an open letter giving valuable information relative to the treatment of the disease." Dr Hall's comments on his action in thus departing from the lines of professional procedure are almost as interesting as his instructions regarding the epidemic. His contribution is given here:

As the present war has shown up in bold relief many of the frailties, incompetence and absurdities of our social and economic systems, so has this epidemic revealed the inadequacy of our medical system.

We are not what we have so often been accused of—mercenary pirates preying upon the prejudices and misfortunes of the public—but their servants, waiting at all times to give relief and assistance, and in the coming social reconstruction, a unit in the new state, a unified factor of service.

In defiance of present professional procedure, here is the first shot. And it is a blow directly aimed at that which seems even yet to be considered by some as the great factor of dignity and professional self-esteem, secrecy and exclusiveness.

Away with such follies of the past. What we have we have received from society and to society we owe it with interest accrued.

Since from the pen of experience little has appeared in the public press relative to the treatment of influenza, I herewith submit what I have found satisfactory:

1. Go to bed.
2. Open the bowels freely, and the windows more freely.
3. Keep plenty of fresh air in the bedroom.
4. Drink copiously of hot water, hot lemonade, or hot ginger tea; take from three to six cupsful.
5. Take Liquor Amoniac-Acetatis; children from one-half to one teaspoonful, adults from one to two tablespoonfuls every half hour, until free perspiration is induced, then lessen the amount given, keeping up the amount of perspiration for at least six hours, then continuing the medicine in smaller doses and at less frequent intervals for at least twelve hours, increasing the medicine at any time the skin should become dry. Do not waken

D. E. Hatt in North Country

With music and movies the Y.M.C.A. is out to conquer the monotony and isolation of the lumber camps on Queen Charlotte Islands where aeroplane spruce is being manufactured for the government.

A combined hotel and recreation hall has been erected at Thurston Harbour; reports Mr D. E. Hatt, the Y secretary for the Moresby Island group of camps. The building is 32 x 32 feet, two storeys, with cottage 32 feet, quarters for the secretary, and shower baths. Upstairs are four small and one large room to be used by transients. Mr Hatt has charge of the building, and he meets the boats which arrive at night and early in the morning.

During August the score or more camps and sawmills of the Masset Inlet district were visited three or four times by the Y.M.C.A. secretary, Mr G. R. Welch. His addresses on patriotic, moral, and religious lines were well received, and the literature he distributed was eagerly welcomed. At headquarters at Buckley Bay a tent has been set up and equipped, and this will fill the bill until permanent quarters can be secured.

\$50,000 in One Week!

This is Sum to be Subscribed to Put Summerland "Over The Top."

A Profitable Investment - With Far-Reaching Results

Summerland has not yet secured its honor flag for the Victory Loan 1918 campaign. According to Secretary R. Purvis the subscriptions to date are \$83,000. The quota set for Summerland is \$80,000 and there is little more than a week left in which to gather in the \$50,000 still required. Summerland has always done nobly. In the last Victory Loan campaign she scored very high, and all other war funds have been generously supported. She will not—she must not—fall short in this, the last and most important call. True, local circumstances have delayed the canvass, and much of the ground remains untouched. We will yet go "over the top" with a splendid margin.

Considered purely as a business proposition, an investment, this is one of the best opportunities ever offered, one of the world's very best investments. The money so loaned is always available for other purposes if needed. In the meantime you are getting 5 1/2 per cent. on your capital. And this is free from Federal taxation as other investments will not be. The rate of interest is much higher than the United States Fourth Liberty Loan, and there seems little doubt these Victory Bonds will materially increase in value soon after the war ends, perhaps to 15 or 20 per cent. premium.

The immediate prosperity of Canada depends on the raising of at least five hundred million dollars by this loan with which to "carry on."

Let's get that Honor Flag without further delay and then go after a few crowns. LEND TO CANADA.

German Navy in Hands of Rebels

FRIDAY EVENING.—German Navy sails away from Kiel under red flag. Revolution spreads to Bremen, Hamburg held by rebels. Artillery battles in streets.

Armistice terms not yet signed. Acceptance may be delayed until Monday morning.

the patient to give medicine.

6. Take all the fluid food that is possible to digest.
7. See that the bowels act at least once a day.
8. Give no alcohol.
9. Keep the patient in bed at least one week, and always two days after the temperature has become normal.

In a second contribution on the all-absorbing subject of influenza Dr Hall, stating that he has had more than his average cases of influenza and has managed these cases without a drop of alcohol and with no mortality, says the question naturally suggests itself—"Is it not reasonable to suggest that since alcoholics are so largely used in the treatment of these cases that possibly we might find therein a contributory factor in the high rate of mortality?"

"The central thought in the treatment of influenza after thorough elimination," continues Dr Hall, "is supporting measures. Alcohol is incapable of this. Alcohol is not a stimulant but a narcotic. It does not support, but depresses. It does not strengthen the heart, but weakens it. It is positively detrimental in the treatment of influenza, or in any other condition in which tonics and strengthening measures are required. The present excessive demand for liquor is little less than alcoholic mania. It indicates a deplorable lack of knowledge of the nature and effects of alcohol both on the part of the profession and laity, and is no tribute to the intelligence of our people. Away with alcoholics if you would save your cases of influenza. Alcohol in this case as in other conditions of sickness is the undertaker's best friend."

STEADY THE HOME FRONT: PUT OVER THE LOAN.

If peace came to-night the Canadian Army would have to be fed and nursed for over a year before returning home. Your money will do it. Ships must be built and armies fed. This means a market but not the money for a cash market. Will you lend your money for this purpose? The proceeds of the loan will provide the cash, produce products, and stabilize industry.

The last loan made business good. This loan will keep it good. Business prosperity and the loan go together.

The loan of 1917 was a guarantee against military defeat. It meant reinforcements; ordnance, food, ammunition, hospitals—victory.

The loan of 1918 is a guarantee against commercial depression. With one we secured victory; with the other we will ensure prosperity.

Our soldiers have done their full duty—let us do ours.

... BUY MORE BONDS ...

Increased Storage On Eneas Creek

Intake on Trout Creek Has Been Completed.

This week saw the completion of the concrete core in the Garnett Valley dam. With this done all that remained was to scrape the earth up against the core, when the dam would be ready to store a much larger volume of water than has ever before been held in reserve in that valley.

Last week a crew of five Chinamen, working under the foremanship of A. Rutherford, finished the concrete work on the intake weir and gate on Trout Creek. The cleaning away of the growth of brush and shrubs along the big ditch below the intake has already been done, and J. J. Mitchell, who is directing the operations there, informed The Review that he would move his camp from Garnett Valley to Trout Creek and push ahead with the concrete lining of the ditch. Sand and gravel, as well as cement are already on the ground.

Greatest difficulty is being experienced by Mr Mitchell in getting men in sufficient number to push the work along in the way it is desired. He is hoping, now that the fall work in the orchards and gardens is nearly done, that he can get much needed help from the ranchers and others who have been working on the lots.

Big Fruit Increase

Figures From Provincial Department Show Strides Or Industry

The following figures, given by Mr A. B. Tweddle, provincial statistician, show the tremendous increase in fruit production which has taken place in B.C. in the last five years:

TOTAL OF TREE FRUITS.		
	Tons	Cars

McLeod Boys Win Promotions

John and Leighton MacLeod, former Summerland boys, and sons of Rev. A. W. MacLeod, at one time physical instructor at Okanagan College, and now pastor of a church in south Vancouver, have recently been honored by promotion. John, who went away in the Western University Battalion, and transferred to the 46th Battalion, received his commission about a month ago. Leighton, who also served in France with the 46th Battalion, recently took the Royal Air Force training course, and has now been gazetted a flight lieutenant in that corps. A third boy, Harry J., and the oldest of the three, has been fighting four years in France, and both he and John has come through unscathed so far. He is with the 11th C.M.R.

Shortly after receiving his commission, Flight Lieutenant R. L. MacLeod was wounded, cabled advice to this effect having been received by his parents only a few days ago. He had only crossed over to France in August.

Gunner Ben Blair is one of a party of returned soldiers recently landed at an Atlantic port. He is due to arrive here Saturday morning.

United Growers' 1918 Sales Show Big Increase.

Some Surprising Statistics Given Out by Manager McDowall.

Figures made public recently by General Manager McDowall of the Okanagan United Growers show a very marked and healthy increase in business experienced this season by that organization over last year.

These figures deal with the soft fruit shipments of the Okanagan United Growers as sales agent for the various local co-operative unions affiliated in this agency and carry conclusive evidence of the splendid progress which the Okanagan fruit growers are making. Of cherries, apricots, peaches, plums, and prunes there were shipped through the Okanagan United Growers last year 88,000 packages. The shipments in these fruits this year were 250 per cent. of 1917 figures, the totals amounting to the huge sum of 220,000 packages.

The total sales up to the end of September are in value a long way ahead of the sales for the same period last year. The Okanagan United Growers sales to the end of September 1917 were \$412,000, while for the same period this year they total \$746,000. When it is considered that practically the whole of the apple and pear business for the season is yet to be added to this latter figure it will be seen that the business is sure to run away ahead of last year's.

The following figures show in number of packages the volume of business done in soft fruits in 1917 and 1918 and the increase of this season over last:

	1917	1918	Increase
Cherries	7,000	21,000	14,000
Apricots	7,000	20,000	13,000
Peaches	25,000	71,000	46,000
Plums	21,000	49,000	28,000
Prunes	28,000	59,000	31,000
	88,000	220,000	132,000

Perjury Charge Again Dismissed

Another effort is being made this week by T. J. McAlpine to obtain a police court verdict against Reeve Blair and former Supt. J. J. Mitchell for perjury. Mr McAlpine has had the necessary papers taken out at the Vernon police court, and the case was down for a hearing at two-thirty o'clock on Thursday afternoon before Police Magistrate Hoggie of Vernon, but had not been opened last night according to a telephone message.

A similar charge was entered during the summer, and the case came up for hearing before Magistrate G. F. Guernsey and R. H. English, J.P., in the police court at Penticton on August 30th, when it was thrown out of court on the ground of insufficient evidence.

The charge is based on the evidence given by Messrs Blair and Mitchell during the hearing of a suit for damages entered by Mr McAlpine against the Municipality of Summerland for loss through the alleged leaking of a water pipe. In their evidence it is said that the size of a new section of pipe was given as six inches, whereas it was sworn by Mr McAlpine that it was only four inches in diameter. This size has since been admitted as correct by the municipal representatives, and the cause of their mistake has already been explained by them. Mr McAlpine takes the view that the size of the new section of pipe had a direct bearing on the result of the suit, which went against him, and charges that the evidence was given as it was in order to obtain a verdict in favor of the municipality.

According to a telephone message just received at the home of one of the party attending Court, the case ended this afternoon, and resulted in its being dismissed on Mr McAlpine's evidence, the Court declaring there was no occasion for the entering of the perjury charge.

CROP ESTIMATES AND MARKET EFFECTS.

THE ESTIMATES MADE BY OUR FRUIT EXPERTS this spring of the Valley crop have been greatly exceeded by the actual shipments. There have been times in past seasons when fruit men have said that the publishing of the actual crop prospects would have a depressing effect on prices, but the low estimate made this year of the Okanagan crop had a direct and injurious bearing on the prices obtained. And, the reason is apparent. When the estimate was made known it was seen by the jobbers of the prairies that B.C. could not take care of their needs, with the result that these jobbers arranged elsewhere for the additional supply. The great excess of Okanagan fruit over the early estimates came on markets quite unexpected. Had there been the former facilities and available supplies our markets would doubtless have been so filled up with American fruit as to have resulted disastrously for our fruit growers. The giving out of actual facts as to crop prospects, as near as they can possibly be ascertained, will, year in and year out, result to the best advantage of the industry. We would not imply that there was any thought upon the part of our fruit men to falsify estimates. Results have been pleasing surprises.

A statement of shipments from this Valley of "soft" fruits during 1917 and of the estimates and shipments for this season was recently published by the Prairie Markets Commissioner and are given here:

	Shipments 1917	Est. Shipments 1918	Shipments 1918
Cherries	14,628	20,038	41,770
Apricots	13,244	28,850	40,236
Peaches	52,754	89,868	142,494
Plums	41,552	66,022	97,440
Prunes	55,730	78,056	117,012

	Excess over Estimates 1918	Increase over 1917 Shipments
Cherries	21,632	27,042
Apricots	11,440	26,604
Peaches	52,726	91,840
Plums	31,418	55,908
Prunes	38,646	61,282

THE HOME GUARDS HAND GRENADE—The Victory Bond.

DR JAMES W. ROBERTSON, who recently toured Britain, France, and Italy, on behalf of the Canadian Government and the Canadian Food Board, reports conditions in Italy as extremely severe, although improved by good crops of fruit and vegetables during the past summer. There has been a diminution of over fifty per cent. in the production of milk, butter, and cheese, and the total ration in Germany, according to the Italian Food Controller, was better at the time of Dr Robertson's visit than that of Italy.

THE CIVILIAN'S CHANCE—Buy Victory Bonds.

A MOVEMENT, starting in Montreal, and continuing in Chatham, Ontario, might well be carried throughout Canada. This is the contracting idea as applied to farm lands. City men with a little capital are forming syndicates to buy tractors and break idle land under the direction of practical contractors. This principle could be applied to regular farm lands, and would help solve the labor problem for the Canadian farmer.

THEY EARN WHILE YOU SLEEP—Victory Bonds.

British Columbia.

You can sing of "Way Down South" till you're foaming at the mouth,
You can howl "Down Texas Way" for all I care,
You can yell "The Marsoillaise" for the balance of your days,
Or "Uber Ober Alles," if you dare,
Let Pat sing "Tipperary" till we all are sick and weary,
Let the Yankoo sing "My Country 'Tis of Thee,"
After all is said and done, the best country 'neath the sun
Is the Province of old B.C.

Not "Down South," but "Farthest West," is the bravest and the best,
Where the broad Pacific rolls so grand and free,
Stream and forest, mountain range, fruit and flowers, wold and grange,
Reach perfection in the Province of B.C.
The Province of B.C., that's where I long to be,
The home of all that's beautiful and free—
From Alaska to the Bound'ry, from the Rockies to the sea,
As fair a place as Paradise, the Province of B.C.

You may seek the whole world over, but you cannot match Vancouver;
Okanagan is the garden of the Lord;
Victoria is a shrine, both human and divine, with Esquimalt standing
sentinel and guard.
The roses shine in Pleadry and apples bloom in Normandy,
B.C. has apple blooms and roses too.
Mighty rivers and cascades, silver springs and forest glades,
While Italy cannot boast a sky so blue.

The Province of B.C., that's where I long to be,
The home of all that's beautiful and fearless and free,
From Alaska to the Bound'ry, from the Rockies to the sea,
A fairer place than Paradise, the Province of B.C.

By Pto. T. A. Hollins, C.E.F., Bramshott Hospital, England, 1918.

Preparing For Possible Spread Of Epidemic.

Emergency Hospital Being Prepared. Several Cases Under Treatment.

Throughout all southern Okanagan Lake points the influenza epidemic is not making much progress as yet, and there is a feeling of confidence abroad that it will not become as serious here as it has in so many parts of the province and elsewhere.

During the past week Roy Phinney, who has been employed at the Experimental Station, was brought home as an influenza patient, and latest reports are that he is doing nicely. Another case developing last week-end was that of L. W. Pacey. He is now at his home, and, we regret to learn this morning, is fighting an attack of pneumonia. Three or four employees of the DeMuth mill have come in from there with the disease, and have been at the J. R. Campbell ranch in Garnett Valley, one of the men being Mr Burgoine, who has recently leased the Campbell property. Mrs Burgoine has since been stricken, but we are informed that none of the cases are serious.

Last Sunday a request was made by the Reeve that church services and Sunday Schools be suspended for a week or two. The public schools have also been closed by order of the School Board. There has not, however, been any formal "closing" order issued, Reeve Blair taking the view that in a community like Summerland, where there is no congestion of population, closing is not necessary.

On Tuesday Peachland was brought under the closing regulations, though there had not, up to yesterday, been any cases reported there. Naramata is also still free.

The city Health Officer of Vernon has reported up to Thursday morning 225 cases, with five deaths. Generally, the cases are mild, and there had been no new cases reported for two or three days.

A particularly virulent form of the disease exists in the Chinese quarters at Kelowna, where there have been several deaths.

According to private reports, the

Aquatic Club building at Penticton, recently converted into a hospital, has all the patients that can be accommodated, and they are now taking patients into the regular hospital. One Chinaman died on Wednesday.

At a meeting of the Summerland Hospital Board this morning it was decided to take the Gainer cottage and fit it up as an emergency hospital. That building is a scene of activity this afternoon, and will be ready by morning to receive patients. It has been thought best to remove Mr Pacey to this building, and two of the Union packing house girls, believed to have influenza, may also go there. Nurse Gordon of Naramata, who has acted as matron in the Summerland Hospital, has volunteered to take charge, and Misses Kathleen Babbitt, Faith Walker and Jean Crossen have volunteered as nurses. Mrs Hartick, of Hotel Summerland has offered to take charge of the kitchen.

Miss Crossen and Miss "Cherry" Smith of the Union staff are said to be influenza patients, and several others of the staff are ill with bad colds. The shortage of help on the grader rendered it advisable to suspend work for the time.

Should the cases become more numerous it will be likely that food donations will be needed at the emergency hospital. It might be well for those who can help in this way to keep themselves informed.

Refrigerator Car Service Must Go

Complaints from the Okanagan Valley that fruit districts are not getting proper refrigerator car service have been before the Railway Commission. Sir Henry Drayton, chairman of the commission, in a published opinion, points out that the Canadian Pacific Railway has had to use a large proportion of refrigerator cars in the overseas movements of fresh meats.

He adds that the C.P.R. has gone on the market for heaters and purchased a considerable supply, although far short of supplying all cars which may now be required. Sir Henry, under the circumstances, does not think it feasible to order more than the steps already taken.

Real Estate In Demand by Local Buyers

Several Properties Change Ownership During Week.

Several local properties have been changing ownership within the past few days. As has been the case in most of the real estate sales recorded recently the buyers are local people.

The house and acre on the east side of Giant's Head, known as the Page property, has been purchased by S. M. Young. We understand Mr Young purposes making the newly-acquired property his home.

The Daubney lot on Paradise Flat adjoining the Aitchison orchard, has been purchased by A. Moyes, who has been in charge of this lot since he has been managing the Aitchison property.

The Bogue lot, which is just north of T. J. Garnett homestead, has been bought by R. Pollock. The sale was made by the Summerland Development Co.

The lot at the foot of Garnett Valley, held for some years by W. R. Ely, has this week been purchased by H. M. Lumsden. This is a five acre lot, and, as in the case of the Page property, was sold through W. C. Kelley.

Another Summerland man to take on more land is J. T. Washington. His new possession is a lot he has been caring for, being the Rennie lot of five acres between the Batho and Blair lots, and nearly opposite Mr Washington's own gate.

CLEAR THE DECKS!

Get ready for action!
Forget each attraction
That leads you away from your part!
What part'll you have shown
In this VICTORY LOAN?
Will you back it with all of your heart?

Canadians fighting
Are daily delighting
Their Allies with proof of their skill!
The foe they're pursuing
How much are YOU doing
To give the mad Kaiser his fill?

You know of a way
You can help win the fray—
Quite clearly this way has been shown.

Canadians all!
Arise at the call
AND CARRY THIS VICTORY LOAN!
—William F. Kirk.

Purchase Peace—Buy Victory Bonds.

New Brunswick has adopted a voluntary rationing scheme for the homes of her people. This plan was prepared in conference of representatives of local food committees, women's institutes, and domestic science teachers. It was revised and approved by the Canada Food Board. Similar plans are being formulated in the other provinces, revised in certain minor details to fit local conditions.

Naramata Holds Second Exhibition

Busy Sister Town Determined to Make Annual of Start Made Last Year.

On Thursday, Oct. 24th, the Naramata Women's Institute, with the loyal support of the Farmers' Institute, held an Exhibition of Women's Work, also a competition in plates of ten varieties of apples. Because of the labor shortage the executive had not planned for as ambitious an attempt as our former show, and were consequently greatly gratified with the day's outcome. The town hall in which it was held was bright with autumn leaves and trailing hop vines. One end of the hall was devoted to a splendid exhibit from the Summerland Experimental Station, consisting chiefly of displays of different varieties of potatoes, seed grains, and models of agricultural implements.

The judging was in the able hands of Mrs. MacGregor, Mrs. Campbell, Miss MacIntyre, and Miss Jackson of Penticton, and Mr. R. H. Helmer and Mr. J. Tait of Summerland.

After the judging, the show was formally opened by Mr. J. W. Jones, M.L.A. While the visitors scattered to admire the various exhibits the girl collectors for the Tag Day gathered a goodly sum for the Navy League.

Special mention should be made of the fine quality of apples shown, the coloring being exceptional, and the grade known as "fancy." Much regret was expressed that conditions forced the curtailment of more extensive displays of fruit.

The afternoon was closed by a six o'clock supper, the proceeds from which, we understand, will help to purchase a Victory Bond for the Women's Institute.

The following were winners in the various entries:

- Best Pair Pyjamas—Mrs Languedoc, Mrs Allen.
- Best Army Shirt—Mrs Allen, Mrs Cook.
- Best Pair Knitted Socks—Mrs Smith, Mrs Myers.
- Best Tea Cloth—Mrs Smith.
- Best Crocheted Centrepiece—Miss E. Mason.
- Best Combination—Mrs Wells, Mrs Cook.
- Best Nightgown—Mrs Davies, Mrs Wells.
- Best Crocheted Yoke—Mrs Cook, Mrs Barry.
- Best Strip Crocheted Lace, girls—Margaret Allen.
- Best Fancy Apron—Mrs Brodie, Mrs Hughes.
- Best Kitchen Apron—Mrs Young, Mrs Allen.
- Best Washable Cushion Cover—Mrs Davies, Mrs DeWitt.

Best Assortment of Articles made of Flour Sacks—Mrs Myers, Mrs Roe.

Best Hand Made Rug—Mrs Myers, Mrs Simpson.

Best Three Button Holes—Mrs Hancock, Mrs Cook.

Best Home Made Toy, boys—Wesley Rounds, Gordon Williams.

Best Canned Fruit—Mrs Allen, Mrs Cook.

Best Four Varieties Pickles—Mrs Davies.

Best Loaf War Bread, made with Rolled Oats—Mrs Wells, Mrs Aldridge.

Best Oatmeal Cookies—Mrs Young, Mrs Myers.

Best 2 lbs. Butter—Mrs Allen, Mrs Myers.

Best War Cake—Mrs Aldridge, Mrs Hughes.

APPLES.

Best Plate of Five Apples.

Jonathan—Mrs Allen, Captain Languedoc.

Wagener—Capt. Languedoc, Mr Myers.

Spitzenberg—Mr Cook, Mrs Myers.

Grimes Golden—Capt. Languedoc, Mr Myers.

MacIntosh Red—Mr Myers, Capt. Languedoc.

Winesap—Mrs Armour, Mr Cook.

Winter Banana—Capt. Languedoc, Mr Cook.

Yellow Newtown—Capt. Languedoc, Mr Walters.

Rome Beauty—Capt. Languedoc, Mrs Hancock.

A special prize was offered for the holder of the most points in this competition. This was won by Capt. Languedoc, first, and Mr Myers, second.

grown growth where they look upon their advertising appropriation as a piece of charity that they, in the bigness of their heart, are doing out to keep the paper from falling into the hands of the balliff.

There is nothing that will put your paper in the very ordinary class as fast and as surely as the old flattened-out advertising, the ten-month old stuff, the kind that speaks of Christmas when people are buying Easter hats, and tells of winter underwear when folks are sweltering at 95 in the shade.

And the publisher can do a lot to get his advertisers out of that miserable habit. He can get out copy suggestions. He can impress upon the merchant that fact that his ad is his announcement to the people, and he can surely convince him that if he has nothing new to talk about the public will soon take it for granted that he has nothing new to sell.

The publisher who looks on the merchant who changes his copy regularly and who insists upon a certain kind of an ad as a bit of a crank and a nuisance is missing the mark by a mile. The change-of-often advertiser is in reality the salt of the whole situation.—Printer and Publisher.

Great Britain's Naval Losses

Sir Eric Geddes, reviewing British naval losses, declared Britain's losses in fighting ships of all classes have been approximately 230—"more than twice the total losses of war vessels of the whole of our Allies," and that 450 auxiliary craft, such as mine-sweepers and trawlers, also have been destroyed. British merchant ships to the number of 2,400, with a gross tonnage of nearly 7,750,000, have been sunk, he said, or nearly three times the aggregate losses of our Allies, and 50 per cent. more than the total losses of all other Allied and neutral countries.

WANTED Property

that can show fair return on Investment to Sell.
W. J. ROBINSON
REAL ESTATE & INSURANCE
Summerland B.C.

As a matter of business, what do you think of the plan?

You are a farmer.
Canada is a farming country.
Canada grows more food than the people of Canada need.

To prosper she must sell that surplus food.

Great Britain is our best customer for grain, pork, beef, cheese and other farm products.

Every practical man must see how important it is to hold the British trade. Canada wants not only the profit on this trade, she wishes to create a goodwill in Britain towards Canadian products and thus assure our export business for the future.

At the moment Great Britain asks for credit, asks Canada to sell her the products of the farm, "on time." To hold her trade, it is necessary to give this credit.

This takes capital—immense capital. For Britain's purchases from Canada are huge, and these purchases must be paid for in cash.

In these times, it is not easy even for a nation as wealthy as Canada to procure money. Certainly, no other country can lend us money. The only way now open for Canada to secure money is to borrow from the people of Canada.

This is the reason for selling Victory Bonds.

Can anyone deny the sound business sense of this plan of protecting our valuable market?

From the standpoint of the man who lends, what better security could he get for his money? Where else could he get a five and a half per cent. return on such security? Where would he find an investment to pay interest so regularly and with so little trouble to the lender? Certainly Canadians have an opportunity to benefit very directly from this borrowing plan.

And the money Canada borrows is spent entirely in Canada—a very large part of it for the very crops the farmer has to sell.

Therefore, if the Victory Loan is a success, business in Canada must be good, the nation must prosper and so be able to carry on a vigorous war effort in France and Flanders.

As a practical man you must approve of the Victory Loan plan.

Then help it along. Put your own money into Victory Bonds; urge your friends to buy; work hard among your loyal neighbors to make the Victory Loan 1918 an overwhelming success.

Buy VICTORY BONDS

—all you can pay for in cash and all you can carry on instalments.

"REVIEW" Offices.

Peachland Doings

A Weekly Chronicle Furnished
By Our Local Representative.

Mrs S. H. Murdin was a passenger to Summerland on Wednesday night of last week, going down to attend the exhibition there, and returning on Friday morning.

Mr and Mrs H. E. McCall spent a short time in Summerland last week, on a combined business and pleasure trip. They drove down on Tuesday and returned on Thursday afternoon.

Mrs Dorland and Master Hugh were passengers south on Wednesday of last week, en route for Midway, where they intend spending the winter as usual with Mr Dorland, who is still serving as mail clerk on the K.V.R., with his run from Midway to Nelson.

Mr A. N. Pope returned from his visit to Vernon by Wednesday's boat of last week, and brought with him his daughter, Mrs Harold Burkett. Mrs Burkett has just recently returned from England via New York and Montreal. She states that she is glad to be back in Canada again. After spending the balance of the week here with her father and uncle, she went down to Summerland by Saturday's boat to visit with her sister, Mrs R. H. Helmer, after which she expects to resume her journey and visit her other sister, Mrs F. Bywater, in Vancouver.

Mr E. Taylor and family are enjoying another visit from Mr Taylor's father and mother, who came in on Wednesday night of last week.

Mrs Hugh Williams received the sad news last week of the death of her father in Elmwood, Ontario. The community's sympathies are extended to Mrs Williams.

Another sad report to reach town was that of the death of Mrs Will Aitkens' sister, in Vancouver, a victim of the Spanish influenza. Readers will remember that Mrs Aitkens was called to Vancouver on account of the illness of her mother and sister, her sister at that time being considered in a critical condition. Her mother is improving, but Mrs Aitkens herself was taken ill shortly after reaching there. Her friends are glad to note that it is a mild form which she has, and reports are favorable so far of her condition.

Miss Maclure of Mazama, came in on Friday morning of last week to spend a time here with Mrs Clarence.

Miss Nicholson was a passenger south on Friday night of last week to spend the week-end there.

Mr E. Fulton came in on Friday night of last week from Kelowna where he has been working at carpenter work, the section he was on having closed down.

On Friday of last week Mr J. Brown received a telegram from his son Erskine, at Vancouver, stating that he had just come out of the hospital and was feeling fairly well. Mr Brown had also recently got word from Walker over on the Island, that he was out again and doing nicely.

Mrs W. Dryden gave a well-attended Red Cross Tea on Friday afternoon of last week in aid of the

ambulance. One of the features of the program was the musical section. Mrs J. L. Elliott and Mrs Mitchell each sang a solo, accompanied by Mrs E. F. Lang. Miss Newby also sang a solo, accompanied by Miss Ireland. Miss Ireland and Mrs E. F. Lang each rendered a piano solo. There was a sale table containing pickles, catsup, and sundry articles. The sales made, together with the proceeds of the Tea totalled \$48.

Passengers to Kelowna on Saturday last were Mrs J. Hay, Miss Hay, and Austin; J. Moore, and E. Aitkens.

Mr R. Mitchell came down from the Summerland dam on Saturday and took the boat for Summerland to spend the week-end there. On his return on Monday morning he brought with him three more men for his gang on the construction work at the dam.

Mr H. D. Riggs of Kelowna again spent the week-end in Peachland, supplying for the Baptist denomination here.

Dr Buchanan was called on Saturday night to visit Mr J. McKinnon. It was found that he had been suffering from a severe cold which had turned to pneumonia. He has, however, passed the critical stage and is improving now.

Rev. H. A. Solly of Summerland spent Sunday in town holding the regular semi-monthly service in the Anglican Church.

After spending a week here, the guest of Mr H. E. McCall, Miss Margaret Duncan left on Monday night to return to Vancouver.

The Victory Loan campaign up to the present time is quite satisfactory. The canvassers are doing their duty faithfully, and as proof that it has not been without result report that up to Tuesday night of this week the amount stands at twelve thousand two hundred and fifty dollars, with enough more still in sight that we may now order and place our flag pole.

It is estimated that nearly five million people have died of starvation or malnutrition during the war. This total is more than half the population of Canada.

A call to arms: "John, take the baby."

Corporation of the District of Peachland

ELECTION FOR SCHOOL TRUSTEE

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Corporation of the District of Peachland that I require the presence of the said electors at the Municipal Office, Peachland, on the 11th day of November, 1918, at 12 o'clock noon, for the purpose of electing a School Trustee to fill the vacancy caused by the resignation of Mr John S. Drought.

The mode of nomination of candidates shall be as follows:

Every candidate for election shall be nominated in writing; the writing shall be subscribed by two voters in the school district for which such election is to be held, as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and two p.m. of the day of nomination. The said writing may be in the form numbered 5 in the schedule to the Elections Act, and shall state the name, residence, and occupation or description of each person proposed, in such manner as sufficiently to identify such candidate, and in the event of a poll being necessary, such poll will be opened on the 14th day of November, 1918, at the Municipal Office, Peachland, of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for School Trustee shall be his or her being a British subject, and his or her having been for the three months next

preceding the day of nomination the registered owner in the Land Registry Office of land or real property situate within the district of the assessed value on the last Municipal or Provincial Assessment Roll of Two Hundred and Fifty Dollars, or more, over and above any registered judgment or charge, or being a homesteader, lessee from the Crown or pre-emptor, who has resided within the district for the space of one year or more immediately preceding the nomination, or who being a homesteader, lessee from the Crown or pre-emptor, who has resided within the district for a portion of the year immediately preceding the nomination, and who during the remainder of the said year has been the owner of said land of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and who is assessed for Five Hundred Dollars or more, on the last Municipal or Provincial Assessment Roll over and above any registered judgment or charge, and being otherwise qualified as a voter.

Given under my hand at Peachland, this 31st day of October, 1918.

WM. M. DRYDEN,
Returning Officer.

The Onion Cure.

The Health Board of Washington, New Jersey, has published the following remedy, which is said to be a sure cure for pneumonia: Take six to ten onions, according to size, and chop fine, put in a large saucepan over a hot fire, then add the same quantity of rye meal and vinegar, enough to form a thick paste. In the meantime, stir it thoroughly, letting it simmer five or ten minutes. Then put in a cotton bag large enough to cover the lungs, and apply to chest as hot as patient can bear. In about ten minutes apply another, and thus continue by repeating the poultices, and in a few hours the patient will be out

of danger. This simple remedy has never failed to cure this too often fatal malady. Usually three or four applications will be sufficient, but continue always until the perspiration starts freely from the chest. This remedy was formulated many years ago by one of the best physicians New England has ever known, who never lost a patient, and won his renown by simple remedies.

A few days ago it was reported that the Canadian Y.M.C.A. was the first to establish a "Y" across the Hindenburg line. To-day there are ten Canadian Y.M.C.A. branches in and through that famous defensive system, writes Capt. M. Best of Hamilton, recently arrived in France.

Your patronage respectfully solicited.

After being indisposed for several weeks Mr W. C. Kelley is again at his desk and back to nearly his former strength.

Mrs. Burkett, sister of Mrs R. H. Helmer, and who has just returned from England, has been visiting Mrs Helmer for some days.

One of the two rooms being added to the High School building has been finished and the Manual Training department has been moved into this room from the Parish Hall.

Sergt. Ralph Brown of the Artillery, much to the surprise of his parents here, has recently been on furlough and visited the north of Ireland and other Old Country places. He was on his way back to France when he wrote.

Mrs Harry Darke died last Friday at her home in New Westminster following an attack of influenza. Hearing of her illness Mrs J. A. Darke, her mother, went down to Westminster two weeks ago to-day to care for her. A week later she had succumbed to the disease.

Western Canada scored high at the International Soil-Products Exposition at Kansas City, capturing a total of one hundred and four prizes.

No less than fourteen carloads of apples were sent out of Kelowna in one week recently for places outside the North American continent, and this in spite of the apple embargo forbidding shipment of apples to Great Britain.

Mrs J. Norris, guest of Mrs Lipsett, her sister-in-law, received the sad news on Thursday morning of the sudden death of her sister, Mrs G. R. Crowe of Winnipeg.

Since going to the Coast G. Lloyd McWilliams has been a victim of the epidemic, and for a day or two was seriously ill. Mrs McWilliams and little one left here on Monday evening to join Mr McWilliams in Vancouver where they will reside.

Apple shipments have been moving rather slowly for the past week or so. The influenza epidemic on the prairies has laid off nearly all the travelling salesmen for the fruit companies, and business in consequence is practically at a standstill.

Mr E. R. Berry, the well-known theatre man and head of the syndicate operating the circuit of Empress Theatres, including those of Kamloops, Vernon and Penticton, has been in hospital in Vancouver for several weeks because of trouble with his eyes.

Recent information from a hospital in France has been received by Mrs F. J. Nixon that her husband had been admitted there suffering with a broken leg.

The news of the untimely death of Fred Pardee early on Saturday morning last at Princeton came as a great shock to a large circle of friends in the Okanagan.

Hospital Donations: October

The following list of contributions to the Summerland Hospital during October was given The Review by the matron, Miss Aitchison: Mrs R. E. White, apples; Mrs J. C. Arkell, turnips, lettuce, canned corn; Miss Campbell, pumpkin pie; Mrs Isaac Blair, apples, eggs, grapes; Mrs R. Clouston, jams, jellies, pickles, apples; J. Downton, sausages; Mrs F. A. C. Wright, magazines; Mr Napier Higgin, grapes; Mr G. Graham, potatoes; Mr R. H. Helmer, cream, canned fruit, dried corn, magazines; Mrs John Wilson, flowers; Harvest Festival, Naramata, fruit, vegetables; Harvest Festival, Baptist Church, fruit, vegetables; Harvest Festival, St Andrew's Church, fruit, vegetables; Thanksgiving Supper, St. Andrew's Church, cake, buns. From Apple Show, Mr T. M. Smith, Penticton, four boxes apples; Mr W. E. Rines, one box apples; Mr J. L. Hilborn, squash.

A Help That Is Worth While

The man who buys a Victory Bond helps:

- 1. Himself by: (a) Encouraging the saving habit. (b) Getting a high rate on his money. (c) Securing an absolutely non-speculative investment. 2. Himself and his fellow citizens by: (a) Giving employment to thousands in Canadian munition factories. (b) Giving trade to the merchants from whom these people buy. (c) Creating in this way a general prosperity throughout Canada. 3. Canadian soldiers by: (a) The encouragement which they derive from the knowledge that the folks at home are helping win the war. (b) The munitions which ensure them a bountiful supply of food and shell. (c) Their maintenance abroad. It is in exchange for Canada's outlay upon munitions that Britain maintains Canada's army overseas. 4. Great Britain and her Allies by: (a) Conserving Britain's finances which have been the backbone of the Allies as well as of Britain herself. (b) Affording to the Allies both munitions and ships. (c) Relieving men in Britain for the battlefield who would otherwise have to be making munitions. 5. Civilization by: (a) Helping to win the war. (b) Helping to promote thrift. (c) Helping to strengthen the ties between Canada and all the Allies. And a help like that is help worth while, isn't it?

Declare War Yourself - Buy Victory Bonds.

The syndicate of Penticton men operating the mine on the lakeshore between that town and Naramata has shipped its fifth car of ore to the smelter at Greenwood. A crew of eight men has been working a lower level, and the ore obtained has been of more uniform and better quality than had been anticipated.

A section of the top of the clay cliff above the lakeshore road, just north of Crescent Beach, fell on Sunday morning. Rev. H. A. Solly, who was on his way to Peachland to hold a service there on Sunday afternoon, could not have gotten through without a good deal of shovelling had it not been that a four-horse team attached to a heavy wagon with wide wheels came along and towed his car over the slide which completely covered the road.

To Celebrate Victory

A huge bonfire on the top of Giant's Head and other bonfires all over the district is a method of celebrating the termination of hostilities, proposed by F. A. C. Wright and Wm. Ritchie. As soon as the official news is received they would have all these fires lighted.

Fred Pardee a Victim of Influenza.

The news of the untimely death of Fred Pardee early on Saturday morning last at Princeton came as a great shock to a large circle of friends in the Okanagan. Contracting influenza at the Summerland Lumber Co.'s saw mill near Princeton, where he had been for some weeks, his case quickly became critical, and his mother, who was at her home in Mineola, was sent for. She arrived at her son's bedside but a few hours before he passed away. Born on Long Island, New York, twenty-eight years ago, the deceased came to Summerland several years ago, accompanied by his widowed mother. Here he associated himself with his uncle, Mr J. W. Wheeler in the lumber business and has since held positions of responsibility with the company. With the favorable environments here his health, which was not of the best when he came west, greatly improved, and last May he joined the artillery and went into training at Victoria. After three months in camp it was found that his strength was unequal to the task, and he was given his discharge. In his passing his mother loses a most devoted son, and the staff and employees of the Lumber Co. a genial companion and fellow worker. His mother and other sorrowing relatives have the deepest sympathy of all. The remains were brought to Summerland by train on Tuesday morning, and were respectfully conveyed to Peach Orchard cemetery by the Masonic order, accompanied by a large concourse of citizens. The funeral service was conducted by the Masons, a short address being given by Rev. A. Henderson.

KETTLE VALLEY RAILWAY

The regular monthly meeting of the Summerland Women's Institute will be held next Friday, 15th, in the Elliott Hall. Roll Call - "Health Hints." Rev. H. A. Solly will give an address on "Constructive Criticism."

SUNDAY SCHOOLS OF CANADA

UNITE TO HELP VICTORY LOAN BY WAR MEMORIAL

ONE MILLION SCHOLARS! ONE MILLION DOLLARS!

A million Sunday School scholars and members of Young People's Associations of the Anglican, Presbyterian, Baptist, Methodist and Congregational Churches are co-operating on a plan which has the three-fold purpose of helping to boost the Victory Loan Over the Top; assisting the churches to extend their mission work, and commemorating the heroism of church members who have fallen at the front. "Every Sunday School at least one bond" is the cry that will help to carry the 1918 Victory Loan to the Sunday Schools' million dollar objective. Above is a reproduction of the shield to be presented to each Sunday School subscribing a bond.

CARD OF THANKS.

Mr and Mrs G. Noble wish to take this opportunity of thanking all those who so generously assisted them during the recent fire.

Share in Victory - Buy a Bond.

Last Friday Miss Alice Stockhill became the wife of Russell McFadden, the marriage ceremony having been performed by Rev. J. Ferguson Miller of Penticton. The bride is a sister of Mrs Rice of the Municipal Office staff, and has been living with Mrs Rice since her arrival here from Montreal last summer. Mr McFadden has been a resident of Summerland for a year, his home being in Sault Ste. Marie. Mr and Mrs McFadden are living with Mrs Rice.

The Naramata Church was the scene of a pretty wedding on Thursday at one o'clock when Miss Wilhelmina Elizabeth Block, daughter of Mr J. W. A. Block, became the bride of Mr Alfred Aveson.

Both the principals have long been residents of Naramata. The church had been beautifully decorated by the ladies, and to the strains of the Wedding March, played by Mrs Languedoc, the bridal party approached the altar. The bride, who was beautifully dressed in grey silk with hat to match, was given away by her father.

Miss Enid Rayner was bridesmaid, and Mr W. R. Bartlett supported the groom. Following the ceremony, which was performed by Rev. H. A. Solly, the wedding party repaired to the home of the bride where a lunch was served. There were present at the wedding a large number of the citizens of Naramata, and the many and beautiful presents received by the happy couple were evidences of the good wishes of their large circle of friends.

Pound Notice.

Impounded, at the Summerland Municipal Pound: 1 sorrel saddle pony, with white strip on face, curving to left nostril. Two front fetlocks and off hind fetlock white; some white saddle marks. If not previously claimed will be sold Nov. 16th at 2 p.m. at Municipal Pound.

**SCIENCE AND INDUSTRY AID
VICTORY LOAN**

As an instance of how science and industry have co-operated in helping to win the war, it is interesting to note that Sir Thomas White, K.C.M.G., Minister of Finance, has made a special "His Master's Voice" record for the purpose of actually informing the Canadian Public in his own voice concerning the need of the second Victory Loan.

Science has thus made it possible for the voice of the Finance Minister to be heard in thousands of places in every part of the Country at the same time. The illustration shows Sir Thomas "caught in the act" as he made his special recording at the laboratories of the Berliner Gramo-phone Company, Limited, Montreal.

**New Method Of
Taxing For Water**

**Penticton Is Considering
Radical Change.**

It is possible that Mr. William Young, Comptroller of the Provincial Water Branch, will come to Penticton shortly on a special mission to investigate the local irrigation system. His duty will be particularly to go into the matter of rates with a view of equalizing them.

It is suggested that in future a basic rate be set for all land which may be served by the irrigation system. This will be a mill rate collected with the ordinary taxes. In addition, there will be a service rate for all land taking irrigation water, and collected the same as at present.

Such a plan, it is believed, will do away with the complaints of owners who say that they are forced to pay irrigation rates although they do not use any irrigation water. It will also make the collection of the basic rate at least more simple and convenient than at present, as, if this rate is not paid with the rest of the taxes, the property will go to tax sale.

The council decided at its meeting on Monday to ask the Provincial Government for the loan of Mr. Young's services.

As the new proposal means an almost entire change of front in the policy of the Council, the work and recommendations of the Provincial Government expert, should he come here, will be watched with interest. —Penticton Herald.

Boy Scout Column

SUMMERLAND TROOP BOY SCOUTS.

Meets every Friday evening at 7.30 p.m.

Orderly Patrol for month—Bonvors.

The regular weekly meeting opened with roll-call. There was a very good attendance, at least two Scouts returning from summer leave who had not been present for two or three months.

The individual Patrols were taken in separate work, while the Orderly Patrol put up the stoves. After about forty-five minutes drill the younger Scouts had a game of basketball. Then the meeting was

**Banks Will Help
Small Investors**

It is announced that, in order to encourage investors to participate in the 1918 Victory Loan, the banks will lend subscribers, on the probable certainty of repayment within a year, up to 90 per cent. of the amount of the investment in the Loan. The rate of interest charged by the banks is 5 1/2 per cent.

This should have the effect of greatly stimulating the flow of money into the Loan of Victory. Many people who were anxious to do their bit towards supporting the boys at the front were unfortunately restricted as to the amount they had available for investment, having immediate or future obligations which called for their ready capital. It is such as these that the Banks are ready to help. On reasonable security those intending investors may receive the cash from the bank at the same rate of interest the Dominion Government pays for the entire Victory Loan. They may reduce their obligations to the banks monthly or quarterly.

The banks will also accept from small investors for safe keeping without charge the interim securities and later the bonds themselves up to a reasonable amount, for the term of one year.

Water Notice.

(USE AND STORAGE).

TAKE NOTICE that the Westminster Trust Company, whose address is New Westminster, B.C. will apply for a licence to take and use 400 acre-feet and to store 400 acre-feet of water out of Lake Brenda, which flows south-westerly and drains into Pinaske Lake. The storage dam will be located at outlet of lake. The capacity of the reservoir to be created is about 400 acre-feet, and it will flood about 50 acres of land. The water will be diverted from the stream at a point about 2,500 feet below outlet of lake, and will be used for irrigation purposes upon the lands described as D. Lots 3316 and 2537, Osyoos Division. 200 acre-feet to be used on D.L. 3316, 100 acre-feet in D. L. 2537, and 100 acre-feet for loss by evaporation and seepage. This notice was posted on the ground on the 12th day of October, 1918. It is also proposed to lower the water level of Lake Brenda 5 or 6 feet by an open cut. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon and Nicola. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is October 11th, 1918.

Free Seed.

By instructions of the Hon. Minister of Agriculture a free distribution of superior sorts of grain will be made during the coming winter and spring to Canadian farmers.

The samples for distribution will consist of spring wheat (about 5 lb.), white oats (about 4 lb.), barley (about 5 lb.), and field peas (about 5 lb.). These will be sent out, free, by mail, from the Central Experimental Farm, Ottawa, by the Dominion Cerealists, who will furnish the necessary application forms. Only one sample can be sent to each applicant. As the supply of seed is limited, farmers are advised to apply very early.

Were Looking For Bargains

Tenders For Tax Sale Lots Were Too Low. Council Spends Half-day Inspecting.

The members of the Municipal Council spent Monday morning around the table and the afternoon in looking over sections of road and several lots for various purposes.

Coun. E. R. Simpson was not able to attend because of illness.

Tenders for a lot between that of Nelson Bros. and the Follock home-stand, and for the Kepp lot adjoining the A. Stuart property, were received but the offers were considered too low, and this opinion was strengthened by an inspection of both lots during the afternoon.

Mr. J. A. Kirk, who has suffered much damage for several years from excess water on his meadow property near Major Hutton's, and who has repeatedly asked that the ditch running around two sides of the lot be made water-proof, again urged that this work be done this fall. Under this same ditch there was placed some years ago one of the main water pipes. This pipe follows a serpentine course, and it has now been learned that frequent repairs are required in order to keep the joints reasonably tight.

Coun. Johnston explained to Mr. Kirk that the problem was a difficult one, either the pipe line or the irrigation water must take a different course. The crooked pipe line should be straightened out, but cannot be moved far from its present position as it extends through the valley behind the Hutton property. To change the course of the irrigation water means building at quite an elevation a flume around two sides of the Kirk lot. While present labor prospects do not warrant a definite promise that the work would be undertaken this fall, it was agreed that the new council be recommended to attend to this work early next spring. Mr. Kirk also asked that the road on the north-west corner of the lot be changed as it runs on his property, either this or that the council should buy a piece of the land.

Mr. E. Thomas asked that the flume along the east side of the Giant's Head road carrying water to his orchard, the Irving lot, and other adjoining properties, be rebuilt. He was asked to take this up with next year's council. During the afternoon this section of the system was inspected, and it was agreed that a new flume was necessary and that it should be further elevated at the southern end to give a better grade.

By motion the council agreed to pay Mr. P. Laidlaw \$500 for a team of horses, harness, and wagon which the Municipality has been using for some time. Mr. Laidlaw foregoes any charge for the use of the team during the past three months. During the morning Mr. R. Purves, secretary of the local Victory Loan committee, waited on the council, and, after giving figures showing the amount subscribed locally in the present canvass, suggested that the Municipality invest some of its Sinking Fund monies in Victory Bonds. An inquiry from a member of the Finance Committee brought the statement from the treasurer that there was only two thousand dollars available cash in the Sinking Fund, ten thousand dollars having recently been invested in the repurchase of Summerland debentures. He did not think it wise to reduce this margin. A regrettable dispute arose between the Roove and Secretary Purves over the amount fixed to be raised here and the methods used in obtaining subscriptions, the Roove stating that hanting and bullying were being resorted to.

The matter of making a permanent and satisfactory road through Peach Valley was revived by a letter received from Mr. F. G. Barnard. Coun. Campbell in response to this letter said he had had some temporary repairs effected, but urged that definite action be taken and the course of the road decided upon. At present much of the road runs over private property. The road from James Fyffe's around to the east side of the Monro property was inspected during the afternoon, as was also the road leading into

the Wm. Cross lot. The Peach Valley road can now be more intelligently dealt with, and it is probable that the council will decide at the next meeting to obtain from the Summerland Development Co. a road-way along the edge of the hill on the east side. This will have the advantage of being dry, with good road material along the way, and will also be an advantage to the Development Co. by putting all the bottom land on one side of the road.

The McTaggart property was inspected during the afternoon, Mr. McTaggart having asked that water be carried to the highest point of his lot. He also complained of a washout from the ditch and renewed his claim for payment for that part of the lot now occupied as a highway. Mr. McTaggart claiming that he has never sold any portion of his lot to the K.V.R. The highway now used was given the Municipality in lieu of the roadway now traversed by the railway.

Mr. W. H. Treffry wrote asking the council to rent him for winter pasture a lot on Paradise Flat. The clerk was instructed to obtain an offer from him, the council first fixing a minimum price. Mr. H. A. Young wrote asking the council to put a sale price on the same lot. The clerk reported this was one of the several lots now under negotiation for re-purchase by the former owners.

A claim was made some weeks ago by a Kelowna law firm on behalf of E. C. Graham. Mr. Graham had billed the council for repairs to auto spring, alleging this had been broken by the overflow of mud and water at Crescent Beach. The claim being referred to Cochran & Lader, the council was advised that the Municipality was not liable whether the Municipality or the Government maintained the road, and that Mr. Graham would find it hard to prove that the mud was the cause of the break.

A claim for rebate of domestic water rates made by Mrs. Martin (Continued on page 6.)

Celebrate End Of Hostilities

Huge Bonfires, Fireworks, Processions, And Also Much Noise.

The terminating of hostilities brought about by the acceptance by the Germans of the terms of the armistice as prescribed by General Foch was duly celebrated by young and old on Monday night. The terms under which General Foch consented to stop pounding the defeated Germans are such as to mean virtually the absolute surrender of the enemy and an early and assured peace.

Early on Monday evening the night's celebration was opened by a procession led by the Boy Scouts carrying the Kaiser in effigy, and which was burned in front of the upper post office, while a large crowd with horns, bells, tin cans, and many other noise-creating devices, not overlooking the fire cracker, joined in the revelry. On the College campus from time to time heavy charges of stumping powder were set off, making reports that were heard for miles around. Huge bonfires built on mountain tops and at many points throughout the district added to the effectiveness of the scene. A large bonfire had been built on the top of Giant's Head, and another on Rattle Snake Mountain. From the camp at the irrigation dam at Enns Crook to Trout Crook and from Prairie Valley to the lakofront, fires were to be seen everywhere. During the evening a procession of motor cars was organized and, filled with jubilant noise makers, covered a circuit including the lakofront, Jones' Flat, and Prairie Valley. No attempt was made at speech-making, but the crowd joined in cheers for the Allies and the singing of the National Anthem.

Sunday a Day of Thanksgiving

Sunday next has been fixed by the government as a day of national thanksgiving to celebrate the conclusion of peace. Churches throughout the Dominion are requested to hold special thanksgiving services.

Peachland and Naramata Are Flying Honor Flags

Summerland, Working Under Handicap, Plans To Go "Over The Top" To-morrow.

Peachland has been flying her honor flag for some days, and to the flag she has added three crowns. The quota set for Peachland is \$15,000, and we learned from Municipal Clerk Dryden by telephone this morning that \$24,500 had been raised, and the campaign was still being waged.

In Naramata, whose allotment was \$5,000, more than twice that sum has been subscribed. There the citizens view with pride the honor flag and its several crowns.

Summerland has not yet reached the goal fixed for it, but Secretary Purves is confident that Summerland will yet go "over the top." Circumstances have been considerably against the campaign locally, chief of which has been the disorganization of the canvass by the influenza epidemic, and for a time the campaign was almost at a stand

still. Up to last night \$65,000 of the \$80,000 required have been subscribed. It is hoped that to-day and to-morrow will produce the \$15,000 yet required. Though it is the opinion of some that the quota for Summerland, in view of the splendid contribution made in the past and the restricted territory given her, is high, there is a determination that she will make up the sum asked for. With regard to territory it is pointed out that Pentiction has all the country to the boundary including Kaléden, Okanagan Falls, Fairview and other points.

If you have not yet subscribed for your Victory Bonds do not wait for the over-worked canvassers in the field. Get in touch with Secretary Purves by phone. It may be that you have purchased, but with a little effort can do better, take another bond if you can.

Leslie W. Pacey Epidemic Victim

Sudden Death Is Great Shock To The Community.

News of the death on Saturday morning last of Leslie W. Pacey spread a gloom over the whole community. But a week before he had been about his work, and it seemed hard to believe that his life had passed out. Though a young man—thirty-six last month—of strong physique, he quickly succumbed to pneumonia, which rapidly developed when he was stricken with the prevailing epidemic. Mr. Pacey, popularly known as "Jack," has been an industrious and useful citizen of Summerland for seven years, coming here from Brandon. He was born in Surrey, England, and came to Canada at the age of nineteen, first living at Portage. He was married two years before coming to Summerland, and his wife and three small children have the deepest sympathy of the whole community.

The funeral was held on Sunday morning under the auspices of the

Led His Men To Speedy Victory

Captain Matthewman Shows Valour In Palestine.

To be informed by the commanding officer that to his son was largely due the credit for the speedy capture of most important positions in Palestine was the proud experience of Dr. G. P. Matthewman. It will be recalled that Dr. Matthewman recently received a cable from his son, Capt. Gerald Matthewman, stating that he had received a military cross. Nothing further has been said by Capt. Matthewman as to how he won this token of gallantry. Dr. Matthewman is naturally greatly delighted with a letter just received from Lieut.-Col. Davson, serving under General Allenby, commander of the British Forces in

Canadian Order of Foresters, in which the deceased was a member. The body was laid to rest in the Peach Orchard cemetery, where a brief service was held, led by Rev. W. H. Bates.

I Am The Man . . . In The Trenches!

When the call came I went out to fight the common enemy of mankind. I sought no other reason, asked no profit; the Empire's call was for me, and I went. I left you with a trust. I demanded of you that you "carry on" whilst I was "over there"; that you watch over and care for those near and dear to me and foot the bill for them and me. For more than four years I have stood between you and destruction. I have been through hell and suffered the tortures of the damned; have been succeeded and again gone forth to drive the enemy back. On foreign soil I am greeted by one and all, poor and rich, as the savior of mankind. When I return to Canada I will call upon you for an account of your stewardship. I shall ask of your trust, and was betide those who have failed me, those who have been more bonstors whilst others and I have paid the price. I am coming back from a land where men poured out their wealth till told to stop, till there was none to pour, but there the wealth was blood, not gold.

My account lies with a man named Foch, but yours is due to mankind. Unless you can look me straight in the face and say, "I have fought with you," and show me your bonds I shall deem you to have been the Kaiser's friend, and no quarter will be shown. I will judge you, not by your cheers or the flags you waved when peace came, but by the amounts you gave, the bonds you bought. There is yet time for you to make good, and I warn you that if you have not bought, waste no time in doing so because I am the man from the trenches and in no mood for dallying. With only one more day to do your "bit," if you meant those cheers when you heard of peace, buy your bonds to-day.

(Issued by the British Columbia Committee, Victory Loan, 1918.)

Palestine. A copy of the letter we are permitted to publish here:

8 154 Indian Infantry, B. E. F., 25, 9, '18.

Dear Mr Matthewman:

I feel I should write to tell you how much I admire your son's conduct. I am busy reorganizing, so I will just give you pieces of my report on him. I cannot mention the award I have recommended him for.

"Conspicuous gallantry in action in the attack on Akrahbh- and Khel Kerum on Sept 21st, 1918."

"This officer guided the battalion in the attack. Under artillery, heavy machine gun and rifle fire he showed great courage, and it was largely due to his courage and resource in collecting men and capturing ridge after ridge that the position was so speedily taken. He was foremost in each attack, and his personal example had great effect on very young and partially trained troops he was leading."

The G. O. C. told me it was the most dramatic attack he had seen by Indian troops, and I attribute its success largely to your son.

Yours sincerely, H. DAVSON, Lt.-Col. Comdg.

After completing his military course at Kingston, Ontario, in 1915 the young officer went overseas in August of that year, and was sent to India where, on the north-west frontier, he was in some stiff skirmishes with rebels. From there he was transferred to Mesopotamia, where he served for eighteen months. Returning to India on furlough in July 1918 he received information upon his arrival at Calcutta that he had been given a commission as captain and was ordered to Palestine to join General Allenby's forces. It was there, in a four days' battle against Turks, that he displayed such gallantry and did such excellent service that he was given special mention in dispatches and awarded the military cross.

More Class Room Accommodation

School Board Forced To Provide For Increasing Attendance.

At a meeting of the School Board held last Friday morning it was decided that preparations be made to care for the overflow from the crowded rooms of the Central School building. The room intended eventually for domestic science in the addition recently made to the High School Building will be used for the time being for this purpose.

Tenders for the contract for the finishing of the room are being asked for. The secretary was also instructed to advertise for a supply of wood for the different schools.

The question of reinstating a full van service on the town route was revived, and by motion it was decided to put on the afternoon service on December 1st. Trustee Marshall asked that his protest be recorded as he objected to giving this service. Trustee Garnett was not present. Since October 15th Paradise Flat and the district near the K.V.R. station has had a conveyance service.

A supply of benches for the manual training department has been received and, just previous to the closing of the schools, the manual training classes started work in the new building.

Fifteen desks for the High School will be purchased from Okanagan College at \$4.50 each.

The usual accounts for teachers, caretakers, etc., were approved for payment.

Growing Sugar Cane

F. B. Phillips, of Okanagan Landing, made some successful experiments in the cultivation of sugar cane. The seed was sown late in June, and even though put in late, was quite fully matured. If, as is quite evident, sugar cane may be grown commercially, it will add still another industry to the many for which the Okanagan is famous.

Influenza Here In Mild Form

Emergency Hospital Has 11 Patients.—Only two or three serious cases in this district.

Though there are now about sixty cases of influenza in the district there are very few serious cases, and many are of very mild type. Last Saturday several patients were taken into the newly opened emergency hospital, and there are now eleven patients there under the care of Matron Gordon, and her volunteer assistants, Miss Kathleen Babbitt and Miss Faith Walker. All the inmates of the hospital are doing well; the only case at any time being serious, being "Charlie," a Chinaman.

"Davie," the seven-year old son of Mr and Mrs D. C. Thompson, Victoria Gardens, has been very sick for several days, but this morning's report was favorable.

Andrew Pierre, son of Antoine Pierre, lies critically ill at his father's home at Trout Creek Point.

The situation took on a somewhat alarming aspect early in the week when almost every member of the Fruit Union staff at the big packing house was stricken, but it is now felt that the climax has been reached, and it is hoped with confidence that the number of new cases will rapidly diminish.

Dr. Andrew, the only physician in the field, is, of course, extremely busy. The opening of the emergency hospital has been of great assistance in handling the situation, and much credit is due to Miss Gordon and her helpers who volunteered to serve as nurses.

Others who have volunteered and who are ready to take up the work of nursing the sick are Miss Kathleen Henderson, and Miss Newby, of the Peachland Public School staff, who have been visiting here since Peachland schools closed. The Boy Scouts are also doing excellent work by doing chores and making themselves generally useful where needed.

There have been no new cases at Mineola for several days. Harry Thompson, who was pretty sick for a time, is now making rapid recovery; and the six or seven Orientals, all of whom escaped lightly, are convalescent.

The disease has not yet made its appearance at Naramata, where schools are running as usual; and community life is taking its customary course.

Peachland, according to latest information, had also escaped.

167 cases were reported at Pentiction up to Wednesday, very few of them being serious.

Rev. H. A. Solly, who has been confined to the house for two or three days with a mild attack of influenza is about again.

Efforts Of Review Are Appreciated.

The humble effort that has been made by this journal to further the interest of the Victory Loan and support the campaign in its territory has received the appreciation of Chairman W. H. Malkin, of the B.C. Executive Committee who writes the editor thus:

The Managing Editor, "Review," Summerland, B.C.

Dear Sir,

I have noted with great pleasure the large amount of space you have given to the advertising of the Victory Loan in your paper. The free use you have allowed to be made of your columns and editorial space for the purpose of furthering the interests of the Victory Loan is bound to have its effect in the constituency where your paper circulates, and I wish on behalf of the Provincial Executive to express in a very earnest manner the deep thanks for your patriotic and generous spirit which you have shown in this connection.

With kind regards and wishing your district every success,

I remain,

Yours faithfully,

W. H. MALKIN, Chairman, B.C. Executive Committee, Victory Loan 1918.

Copy for change of contract advertising must be in the hands of the printer not later than Tuesday noon to insure publication in the next issue.

FRIDAY, NOVEMBER 15, 1918.

"The Day!"

At last—the Day! Flags fly, flames flare, I hear
The varied sounds of triumph burst and die—
Bells, trumpets, whistles, music, cheer on cheer—
Fill the whole world and echo to the sky.
I cannot join the hearty revelry
Though thankful in my soul for end of strife;
Through misty eyes in Flanders Field I see
Two crosses white, and each one means—a life!
Does one in all that cheering crowd to-night
Know aught of what he shouts in open street?
Dear Dead! YOU know that he who wins a fight
Takes victory as quietly as defeat.

West Summerland, B.C. (Rights Reserved).

"PEACE HATH HER VICTORIES."

BULGARIA, TURKEY, AUSTRIA, and now the arch enemy of civilization—all have succumbed to the terrible onslaughts of Great Britain and her glorious Allies. The instigator of the foul crime against humanity, the once proud German Empire; has now thrown herself on the mercy of the world.

That is the Peace that seemed so far away only a few short weeks ago. How glorious it is to know that our boys "over there" are through fighting. And we will prepare to bring them home and to re-establish them in peaceful pursuits.

"Peace Hath Her Victories No Less Renowned Than War." It is for us, then, to remove the difficulties we see in our path, and we can do this by lending the Government to the limit of our ability so that industry will not lag and Canada will face the new problems with serenity and confidence.

§ § § § §

WHILE IT IS NOT PROBABLE that there will be a general demobilization of Canadian forces overseas for some time there is likely to start at once a movement of a considerable number of our forces from camps in England and British hospitals. This will require no small number of transports. The return journey to England of these boats will make available that much additional space for moving food products from Canada to England. Further shipping accommodation will now be made available by the cessation of shipments of munitions.

In England there has been almost a total failure of the apple crop, and dealers, the country over, are agitating for the lifting of the embargo on importation of apples. Canadian fruit growers and exporters readily submitted to the embargo, believing that tonnage was needed for the more urgent purpose of carrying war material. Reports from Washington indicate that fruit shippers there are already moving to have the embargo lifted, and we believe a similar movement is under way in Canada.

Fruit growers in this province are materially interested in the export of apples to Britain, and should spare no effort to have this market, to which we may rightly lay special claims, reopened to us at the earliest moment.

§ § § § §

CONSERVATION of pocket space as well as metal was probably in the minds of the authorities when they decided to materially reduce the size of the Canadian one cent copper coin. The new coin, the design for which is now being prepared, will be slightly larger and a little thicker than our ten cent piece.

§ § § § §

THE PRINCETON STAR has increased its size to a six-column, six-page paper, and says that its continuation at that size will be regulated by the amount of business it gets. In other words, if the business men of Princeton do not patronize the paper sufficiently to warrant a continuation of that size paper, the Star will revert to its former "Pocket Edition" size. It says: "This is no time to spend money on non-paying publications, and the Star has certainly no intention of wasting any sweetness on the desert air."

CHRISTMAS

C. P. NELSON

Discovers a Cure For Flu Pneumonia

Headquarters at the base hospital, Camp Fremont, California, has announced the discovery of a positive cure for the pneumonia which follows Spanish influenza, and which has always been the fatal stage of the disease. The treatment consists of intravenous injections of coaguline, and has been found, it was announced, to prevent hemorrhage of the lungs, which characterizes this new type of pneumonia. The report given out at Fremont says:

"As a result of numerous autopsies performed on the bodies of soldiers who have died from the disease, the surgeons have found that the pneumonia developing from influenza is in no way like the ordinary pneumonia. The patient undergoes no crisis, and instead of the lungs filling with mucus, they become so weakened and the blood becomes so thin that upon the least irritation they bleed, resulting in the suffocation of the patient. Heretofore the surgeons have been unable to stop the flow of blood, but it was found that with the use of coaguline the blood can be thickened within twenty minutes of the first injection and the great danger of hemorrhages prevented. Already over 300 cases have been cured at the base hospital.

"Diphtheria vaccine has been used to good advantage. It not only counteracts the germ, but also helps to thicken the blood."

Volney Merrill Killed in Accident

Volney Merrill was killed on Nov. 8th in an aeroplane accident in England. Volney, who at the time of his death was a Flight Cadet in the Royal Air Force, was still but a lad. He could not have been more than fourteen years of age when he enlisted, and went overseas as a bugler. Recently he had transferred to the Air Forces. Volney spent most of his young life in Summerland, and until leaving here took an active part in the Boy Scouts.

His parents, who now reside in Vancouver, were expecting word that he was coming home on leave when the sad news of his death was received.

Potatoes, and potatoes dried, desiccated or otherwise prepared may now be shipped from Canada to the United States or vice versa free of duty, an order-in-council having been passed at Ottawa placing potatoes on the free list.

"One of the finest apple-growing countries in the world," is the way Mr S. J. Kellaway of Tasmania, who was one of the judges at the Summerland Fall Fair, described the Okanagan Valley, when about embarking for home. "The quality of the fruit is the finest I have ever seen. The fruit growing industry is young, and I see no reason why the Okanagan Valley does not become in time the greatest fruit-producing country in the world."

In the first nine months of this year British Columbia has produced a quarter of a million tons more coal than during the corresponding period of last year.

How Many Crowns for Your Honor Flag?

Of course every city, town and district will earn its Honor Flag.

But how about the crowns?

For every twenty-five per cent. in excess of its quota, each city, town and district will be entitled to add a crown to its flag.

Can you do fifty per cent. better than your quota—that means two crowns for your Honor Flag.

But double your quota and it means four crowns.

Hang a Flag in your hall, that for years to come will show that your city, town or district did better than well—

That it was a real factor in the huge success of CANADA'S VICTORY LOAN 1918.

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada

in the complex Business of Farming.

Food From Waste Syrup From Apple Apples. Apples. Culls.

(Canadian Horticulturist.)

In these days, when the world faces an increasingly serious food shortage, it is unwise to overlook any resources that will add good nourishing food to the nation's depleted supply. Therefore, it is surely in order to again call special attention to the importance of properly utilizing that large proportion of the apple crop which graded below standard. In many localities the percentage of culls or cider apples runs fully one-third of the total, and it is frequently estimated that thousands of tons of such apples are wasted each year.

A portion of the larger culls may be evaporated to excellent advantage. Another most practical way of diverting this enormous waste into good food is by pressing. Practically all the valuable and nutritive elements of fruit are contained in the juice. The other parts consist largely of cellular tissue, and are of little value except to retain the juice, which in ripe apples runs as high as 90 p.c. Therefore, a short cut to conserving the rich, life-sustaining elements possessed by even the smallest of cull apples, is by first grating and pressing, then working up the juice.

A modern hydraulic cider press will extract an average of a little over four gallons of cider from each bushel of ordinary under-grades. This juice can be readily converted into a variety of food products that are not only appetizing and nourishing, but most of them are in concentrated form, convenient to market, and easy to preserve. Sweet cider, cider vinegar, boiled cider, apple syrup, apple jelly, apple butter, and pasteurized cider are all in active demand, and can be sold at a better profit than is usually obtained from the apples in a fresh condition.

Even the pomace need not be wasted. It is being used extensively as feed for dairy and beef cattle, and for hogs and sheep. Many pronounce it equal to ordinary corn silage. Pomace also has a distinct value as jelly stock because of its pectin content, which is not impaired by drying. Frequently the pomace is re-pressed, the resulting juice being used for making vinegar or jelly.

YOU'VE GOT TO KEEP IT UP.

You've got to keep it up,
You have to keep on walking,
One step won't take you very far;
You've got to keep on talking,
One word don't tell folks who you are;
You've got to keep on growing,
One inch won't make you very tall;
You've got to keep them going,
One little ad, won't do it all.

Bomb the Boche with Bonds.

For those who have a great many second grade apples and culls on hand, the making of apple syrup is profitable. The acids are removed by boiling the cider with precipitated chalk calcium carbonate, or whitening. This neutralizes the acids of the cider, converting them into insoluble calcium salts, which settle to the bottom and are removed by decantation.

Add three-fifths of an ounce of precipitated chalk, obtainable at any drug store, for each gallon of cider used, bring to a boil, and boil vigorously for five minutes, removing the foam and scum as fast as formed. Pour into containers as tall as are available. Two-quart mason jars will do, or even big preserving kettles. Let it stand quietly for four or five hours. Then carefully pour off the clear liquid, throwing away all the sediment at the bottom. Boil the clear liquid rapidly down to a syrup, removing all scum. The syrup should boil at 220 degrees Fahrenheit.

The syrup is placed in bottles or mason jars and sterilized by placing the containers in boiling water for 15 minutes. If the whole outfit is then allowed to cool slowly, the little sediment in the syrup will settle to the bottom and leave a clear, bright, very pleasing, mild syrup, with a delightful apple flavor.

Water Core In Apples.

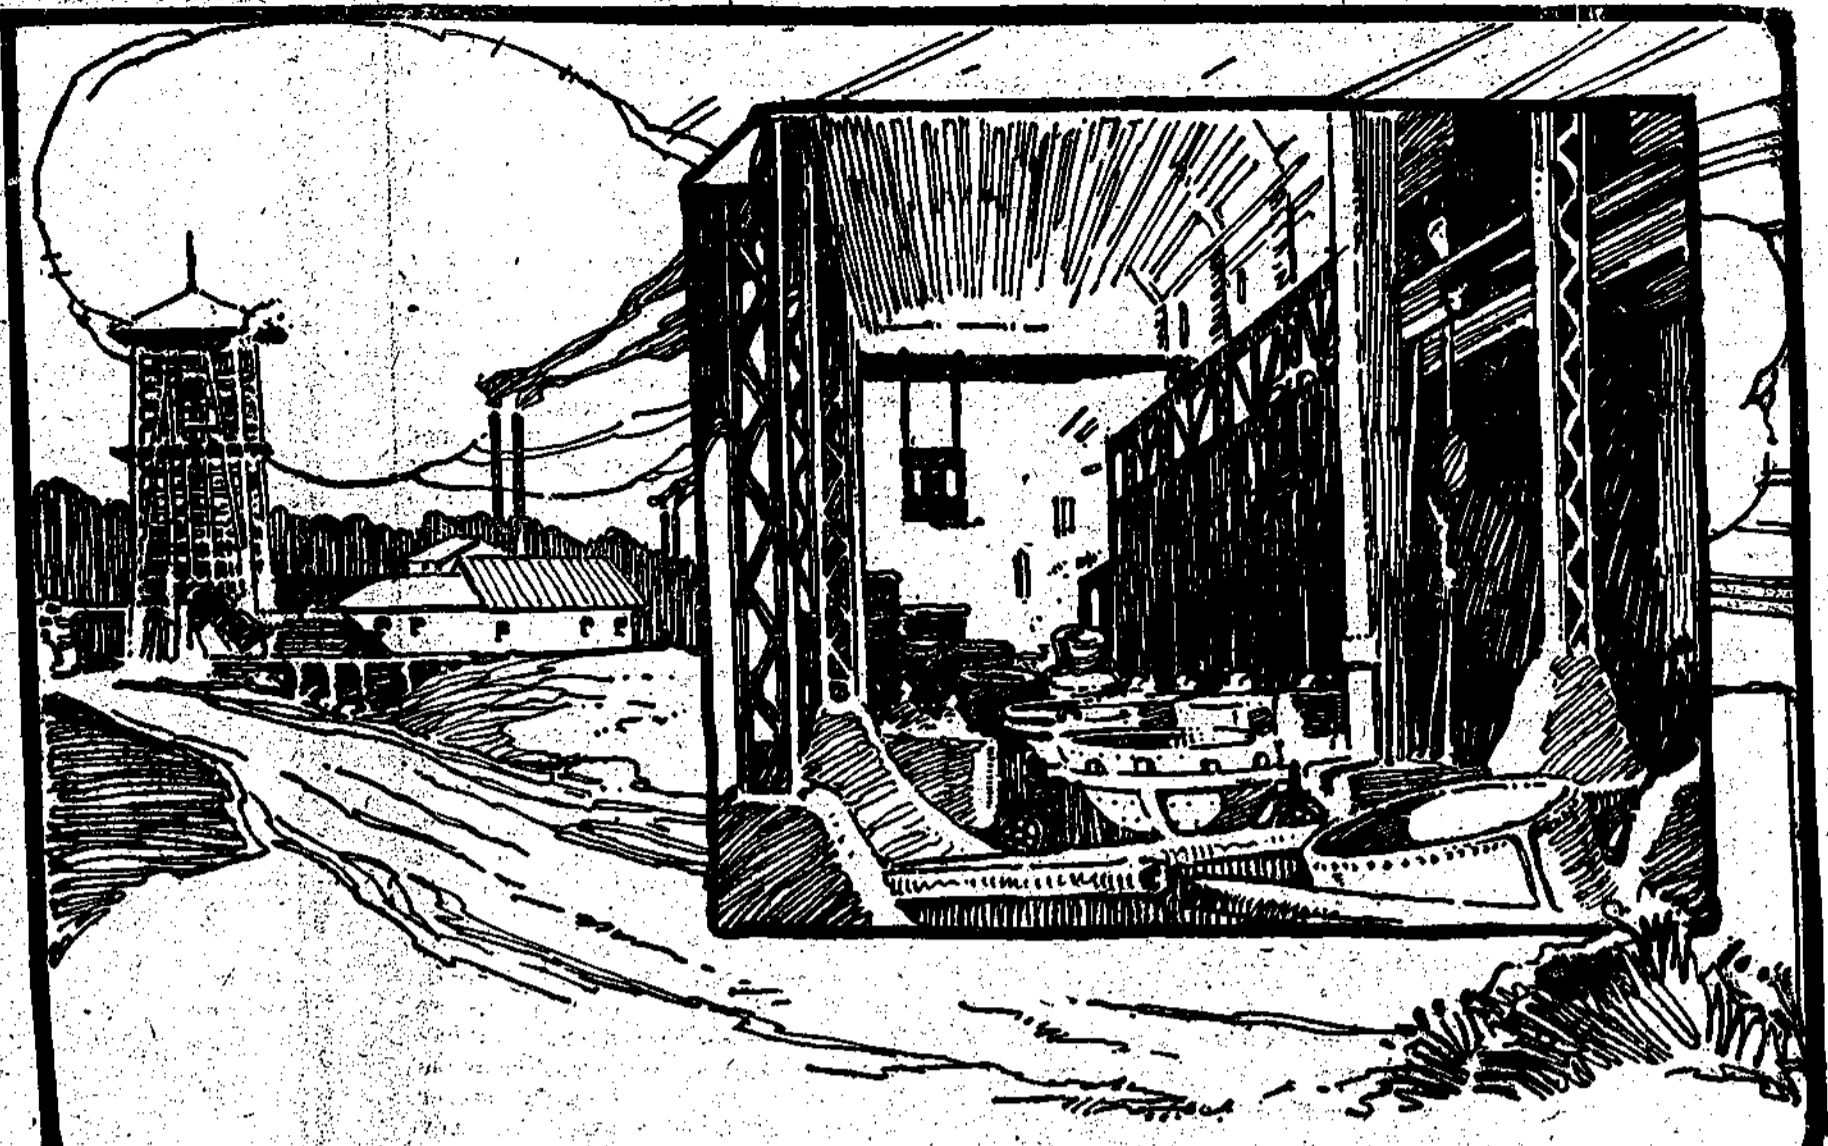

Prof. O. M. Morris, Professor of Horticulture at the Washington State College, says of water core in apples: "All fruit that is showing any indication of this trouble should be gathered as soon as it is sufficiently mature. Water core found in the fruit this year is common to all fruit-growing sections. It occurs with more or less frequency nearly every year, but it is seldom of commercial importance.

"It is not caused by any fungus, but is a physiological development, and does no damage to the trees or to any succeeding crops. Fruits that are little affected may be stored in common or cold storage and marketed later. Water core fruit should not be shipped, and is unsatisfactory for either canning or evaporating.

SURE--WEARING APPAREL.

"Sister won't be able to see you to-night," said the little brother to her insurance man caller. "She's had a terrible accident--got her hair all burned!"
"Gracious! Was she burned!"
"No, she wasn't there, and ma wants me to ask you if it's insured as wearin' apparel?"

If you want to Sell, you must Advertise

Victory Bonds provide a market for British Columbia Mines and Smelters

Of Canada's total production in the calendar year 1917, of copper, lead and zinc, amounting to \$35,750,000, British Columbia produced \$21,350,000.

For the fiscal year ending March 31st, 1918, Canada sold on credit to Great Britain and the Allies more than \$46,000,000 worth of metals, the greater part of which were produced from the mines of British Columbia. That was more than three times the average exports for the three preceding years.

The Victory Loan 1917 made this production possible because it enabled Canada to give credit to Great Britain and the allies for their metal purchases in this country.

Without this market the mines and smelters of British Columbia could not have sold their outputs.

But the mines have had a market for their ores. The smelters have turned out tremendous quantities of copper, lead and zinc.

This production has not only brought prosperous times to the miners

but it has been a mighty factor in helping to win the war, for these metals were absolutely necessary to the production of munitions in both Canada and Europe.

The Victory Loan 1918 will keep the good work going. British Columbia will continue to have a market for her metals and other minerals and these will help to win the war.

By buying Victory Bonds you enable Great Britain to secure needed materials for munitions and you help to maintain prosperity in British Columbia.

Buy Victory Bonds to the limit

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr Suddaby, who has been in Penticton for a few days, returned here on Wednesday morning.

Mr John McKinnon's sister came in on Wednesday morning to nurse him. We are pleased to report that he is doing nicely.

The Fulton brothers, and Mr D. McLachlin were passengers to Kelowna on Wednesday, returning the same day.

Owing to the closing of the schools as a precautionary measure against the influenza, Miss Nicholson and Miss Newby went to Summerland to spend a few days.

Rev. J. A. Rowland was a passenger north on Thursday, returning the same day.

Mr R. Keyes, who came up from Penticton for a hunt with Mr G. Keyes, returned home on Thursday.

Miss Gladys McCall, who has been with her cousin Harold McCall for a couple of weeks, decided to continue her National Service work, and accepted a position on the "Sicamous."

Miss Maclure, who spent a week with Mrs Clarence, returned to her home in Mazama Thursday night.

Mrs H. K. Mitchell left here on Friday morning to spend the winter with her brother in Ontario.

Peachland people received a shock on Friday morning when a telegram announced the death of Mrs W. C. Aitkens. She had been called to the sick bed of her mother and sister, and on the train contracted the influenza, and died at the King Edward Emergency Hospital. She leaves to mourn her loss a husband, Lance-Corporal W. C. Aitkens, still overseas, and a little daughter, Kathleen, aged four years. The sympathy of the neighborhood is extended to the sorrowing relatives.

Mrs G. B. Phillips was a passenger north on Saturday morning, joining her husband in Calgary. They expect to attend the convention of the travellers of the Osborne Art Calendar Co. in North Carolina.

Mr Stanley Brown of Penticton is spending the week-end with his father, Mr J. Brown.

Mrs Suddaby, who has been visiting her sister, Mrs D. Kirkby of Penticton, returned on Monday morning accompanied by her sister and Miss Annie Margaret.

At the election held on Monday for School Trustee to fill the vacancy caused by Mr John Drought's resignation, no nominations were received, it is therefore left to the board to fill the vacancy.

Mr and Mrs R. Keyes of Penticton motored up on Monday to deliver the car they had sold to Mr G. Keyes, and returned to Penticton by boat in the evening.

Mrs Buchanan has received a letter from the Red Cross headquarters at Vancouver expressing grateful thanks on behalf of the soldier patients for the choice fruit and vegetables kindly donated by Messrs N. S. Davidson, J. Drought, A. E. Drought, I. Iverson, and Dr Buchanan. Also one from Major Woollard, O.C. Vancouver Military

Canada's New Fruit Commissioner

Mr. C. W. Baxter Is Familiar With The British Columbia Fruit Industry.

Mr C. W. Baxter, recently appointed to fill the vacancy created by the death of Mr Donald Johnson, Fruit Commissioner, which occurred some two months ago, has been an important official of the Fruit Branch for more than six years. His appointment is therefore in harmony with the policy of the government to fill vacancies by promotion where suitable officials are available within the department.

Mr Baxter was born in Chelsea, Quebec. At the age of sixteen years he began a business career in the fruit industry, particularly in the handling of apples, which covered the whole field from the packing of the fruit to the export trade. He entered the government service in July, 1912, and for two years was the chief inspector under the Fruit Marks Act for the Prairie Provinces, with headquarters at Winnipeg. His experience during

Hospital, acknowledging the receipt of six boxes of pears and nine boxes of fruit and vegetables, saying that the fruit arrived in splendid condition, and that the men were enjoying it immensely. A further consignment of apples will be sent this week for Christmas consumption.

Peachland celebrated the cessation of hostilities by bon fires on Monday and Tuesday night.

Mrs Wm. Lupton and children came down from Kelowna to visit friends here.

Mr J. and Master Austin Hay were visitors to Kelowna on Tuesday.

Miss Kate Miller, who has been ill with influenza at Anyox, is now on a fair way to recovery.

Chiefly British Goods Imported Direct.

this time gave him a close insight into the fruit industry of British Columbia. In 1914 he was transferred to Ottawa and put in charge of the inspection work for Ontario east of Toronto and the province of Quebec. He was then closely associated with Mr Johnson in handling the major problems relative to the distribution of fruit and vegetables.

When the Food Administration was reorganized on the retirement of the Hon. Mr Hanna, Mr Baxter, while still an officer of the Fruit Branch, assumed an important position on the Canada Food Board, where he was placed in charge of the fruit and vegetable section. On the completion of the licensing system, an enforcement section was created, and Mr Baxter given its charge.

It will be the policy of the Department of Agriculture, through the Fruit Branch under Mr Baxter, in addition to the administration of the Fruit Marks Act, to give special attention to the problems of marketing and distribution generally. As in the past, however, fruit growers will continue to receive supplementary assistance in matters pertaining to their business.

The production side of the fruit growing industry, representing a yearly crop valuation of about \$140,000,000, is more particularly looked after by the Department of Agriculture through the very efficient fruit division of the Experimental Farms, which covers every province in Canada and deals with all questions concerning production, from the creation of new varieties, methods of cultivation, treatment of insects and disease, to the harvesting and storing of the crop.

The Man who Saves You \$'s

Summerland and West Summerland

The Bank will trust you

Perhaps you never had an account in a bank—maybe you've never done business in a bank—hardly even cashed a cheque in one. But—

that is no reason why you cannot go to a bank and borrow money to buy Victory Bonds.

If you are a steady, industrious, thrifty citizen, working and saving a part of your income, you are just the kind of person Canada's chartered banks stand ready to help to-day.

Any bank will lend you as much money as you can save during the next twelve months, with which to buy Victory Bonds.

All you have to do is to pay ten per cent. of the amount you want to buy and deposit the receipt for that ten per cent. in the bank.

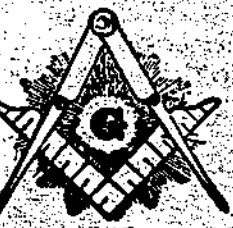

The bank will lend you the 90 per cent. balance at 5½ per cent. interest and will give you a year to repay it, the interest you get on your bond being just the same as the bank charges you.

This is a fine opportunity for you to begin a real savings account, to make a first class investment and to help your country at the same time.

Why not see a banker to-day—he will tell you all about it and you will be glad of the advice and help he can give you.

Borrow and Buy Victory Bonds

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada

Passing Events: Social, Personal, &c.

Mr G. A. McWilliams is a visitor to Summerland this week.

Mr S. B. Snider is about again after a serious illness of several weeks.

T. J. Garnett, returned last Friday evening from a business visit to the prairies.

Pte. Edward Logie arrived last night from the Coast. He has been given his discharge from the army.

Mr and Mrs R. Clouston left early this week to visit their daughters in Atlantic cities of the United States.

Mr James Ritchie arrived from Vancouver on Saturday, and is spending a few days here attending to some business affairs.

Mr A. Wismer, Garnett Valley, leaves to-night for Vancouver where he intends to remain. The other members of the family will join him later.

Fruit shipments for the past two or three weeks have been practically at a standstill because of the prevalence of influenza throughout the prairies.

A daughter was born, Saturday last, November 9th, at the Summerland Hospital, to the wife of V. Guide of our Italian colony.

The K.V.R. train from the Coast arrived ten hours late yesterday, due to a rock slide west of Princeton. Passengers and baggage, etc., were transferred over the slide.

Miss Amy Brown returned last week-end from Phoenix, where she went to nurse influenza patients. She was working but a few days when she herself was taken ill. She is now convalescing.

Formal authorization of the proposed municipal debentures has been received from Ottawa and from Victoria. Anyone wishing to take up municipal debentures should apply at the Municipal Office. 16

Mrs H. Tavender has received information that her brother Corpl. Arthur Hawthorn has been wounded in the right arm. Corpl. Hawthorn enlisted from Medicine Hat and has been with a machine gun company.

Pte. Douglas Henderson, son of Rev. A. Henderson, who has been in hospital in England for some time suffering from shell shock, has returned to Canada, and is now in Coburg War Hospital. He was visited recently by his sisters, Mrs Crawford and Miss Jesse, and they found him to be convalescing nicely. He hopes to be discharged from hospital in a few weeks.

While returning to Penticton on Sunday night from a visit to relatives here, Mr and Mrs C. Chittenden were surprised to see a coyote on the road in front of their car. The animal climbed the face of the cliff for a short distance then stopped and faced the lights of the car, making an excellent shot for the gun which, fortunately, Mr Chittenden had been carrying in this car.

Miss Bona Logie returned from Portland, Oregon, by Saturday morning's train. She has been working hard at the hospital there, where she has been training, since the influenza outbreak, and came home to rest. Immediately she arrived here she took charge of her sister Mrs Hogg and Mr Hogg, who had just taken influenza. Now she is nursing the Hogg children at her father's home.

CARD OF THANKS.

Mrs L. W. Pacey desires to thank all the kind friends for their sympathy and help in her recent bereavement.

Say, Neighbor:

I have some Special Snaps in Choice Real Estate.
A SEMI-MODERN COTTAGE with One Acre, close to West Summerland.
FIVE-ACRE FRUIT LOT in bearing, all planted in good varieties of standard apples.
Also FRUIT LOT on LAKE-SHORE.
W. C. Kelley

Including two infants there were last night eight patients in the Summerland Hospital.

The treasurer of the Okanagan Ambulance League acknowledges with thanks the receipt of \$3.00 from Division III. of the Central School.

The influenza claimed eight victims in seven days in Princeton last week. There are about 150 cases there with a total of 18 deaths.

Secretary T. H. Riley of the Hospital Society reports the receipt of \$29.50, a donation from the local Japanese Association to the emergency hospital.

Robert Gee was admitted to the Summerland Hospital on Wednesday having been brought in from Mineola suffering from a broken foot which had been crushed by a rolling log.

Mr O. C. Kerr, C.P.R. auditor for this district, died last week in Revelstoke, a victim of influenza. Mr Kerr made periodical visits to Summerland and other Okanagan points.

Mr R. S. Shaw, accountant in the local branch of the Bank of Montreal, went over to Princeton on Monday night to take charge of the branch there, the manager and accountant at Princeton both being ill with influenza.

Indian Agent J. R. Brown reports very favorably on the influenza situation among the Indians of the Okanagan. There are, however, a number of serious cases in the Similkameen, where he has been for the last two days.

Sergt. W. A. Wellband, son of Mr and Mrs T. R. Wellband of Vancouver, and former residents of Naramata, has been awarded the Distinguished Conduct Medal for conspicuous bravery during the battle of Amiens, August 8-13, 1918.

Fresh air, good nursing, and plenty of rest are more efficacious than drugs and medicine in the treatment of influenza and pneumonia, according to the view of the New York State Influenza Commission, recently appointed by Governor Whitman.

The local telephone exchange closed down between three and six o'clock on Monday to celebrate the signing of the armistice, much to the annoyance of some of the subscribers, who were thus cut off from getting the war news. The service was discontinued at the suggestion of the Okanagan Telephone Company's Vernon office, all the exchanges of the Valley being off for this period.

Although Sunday next has been proclaimed a day of thanksgiving, there will be many towns and cities throughout Canada where the epidemic situation will make it inadvisable for people to congregate. From information available we understand that local churches generally will not open on Sunday, although service will be held in St Stephen's Church. In the meantime preparation might be made for the holding of a big united community thanksgiving service as soon as the danger from the epidemic has passed.

THE CAFETERIA SYSTEM FOR HOGS.

Much of the drudgery is taken out of hog feeding by the use of the self-feeder. According to investigations carried on at the Experimental Farm at Ottawa, hogs, after they have reached a certain age, do better when fed in this way provided the proper mixtures are used. Strange to say, when properly handled, dangerous and wasteful over-feeding is not so likely to occur with the self-feeder as when meals are given at stated hours.

It has been shown that the hogs are the best judges of when they should take food. The feeder is fully described in Special Circular No. 115, obtainable at the office of the Publications Branch of the Department of Agriculture at Ottawa. This bin-like receptacle is easily made at a cost of about \$10, even when new lumber is used in its construction.

Mr K. S. Hogg, who has suffered from a mild attack of influenza early in the week, is now out.

It is said that one of our Japanese citizens has subscribed for Victory Bonds to the value of \$1,000.

All male persons between 21 and 60, living within the Municipality of Penticton, must pay a road tax of \$2.00 unless assessed owners of land.

A new Canadian citizen of Japanese parentage arrived on Wednesday at the Summerland Hospital, a boy, whose proud parents are Mr and Mrs Geo. Tada.

One of the officers of the "Sicamous" has succumbed to pneumonia following influenza. Mate Simpson, whom we reported in a critical condition last week, has since died.

One of the elevators at the Union packing house has been equipped with an electric motive power, and a part of the immense accumulation of apples is being stored on the upper floor.

In the interests of the general public it has been suggested, where it is necessary for members of households in which there are influenza patients to visit the post office, that they should make their stay as brief as possible.

Citizens who are donating jam for the invalid soldiers in hospitals of the province are asked to send their contributions to the Parish Hall no later than Wednesday. On that day the Boy Scouts will prepare the jam for shipment.

During the high wind last Saturday night the "Skookum" broke from her moorings and was driven on the shore just north of the C.P.R. wharf. She was pulled off this morning by a C.P.R. tug; little damage having been done.

A tiny British Tommy brought in a hulking Prussian officer, who looked down at him very disdainfully and said at last, "You fight for money." Tommy looked up casually at his prisoner and asked what he fought for. "I fight for honor," said the Prussian. "Ah," retorted Tommy, "then we are both fighting for what we haven't got."

Summerland contributions for the month of October to the Canadian Patriotic Fund totalled \$174.75. The total contributions for the province, including Vancouver are a little over three million dollars, while the disbursements to date total nearly five million. This excess of disbursements or distributions amounting closely to two million dollars, has been supplied by the Central Fund at Ottawa.

TOO COLD FOR MONKEYS.

Philadelphians who were crossing Dakota by motor car last summer felt something go suddenly wrong with the inner works of their machine. They investigated and found they needed a monkey wrench badly.

The accident occurred near a way station that was little more than "a pino-box with a tub of water," as one of them described it.

The Scandinavian station master, almost as rusty as the rails over which he presided, seemed puzzled when the wayfarers invoked his aid.

He shifted his quid and turned his cap over in his hands meditatively.

Then he slowly said: "My brudder, Jan Jansson, he got a cow ranch. My brudder-in-law, Sven Senson, he got a sheep ranch. But Nord Dakota too cold. We ain't got no monkey ranch."

FULLY PREPARED.

"So you wish to leave to get married, Mary? I hope you have given the matter serious consideration."

"Oh, I have, sir," was the earnest reply. "I have been to two fortune tellers and a clairvoyant, and looked in a sign book, and dreamed on a lock of his hair, and have been to one of those astrologers, and to a manjun, and they all tell me to go ahead, sir. I ain't one to marry reckless like, sir."—Household Words.

The average man does not amount to much when measured by his neighbor's standard.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. First insertion. Each repeat one cent a word. Minimum 10 cents.

Service in St Stephen's Church of a Thanksgiving character will be held at 11 a.m. on Sunday morning.

CARD OF THANKS.

Mrs D. C. Thompson wishes to express her gratitude to the kind friends and neighbors whose help and solicitude have been of great comfort during the serious illness of her son.

PAT CASEY'S PRAYER.

An Irish soldier, after ten months of hard, active service, applied for a furlough. His request was granted, and then it dawned on him that he had no money to take advantage of his holiday. He wanted one hundred dollars to go to Paris.

He was at his wit's end, there being no time to be lost, when he recalled his old mother's advice to apply to the good God above in time of trouble. So he wrote and posted this letter:

"Dear Lord: Here I am after fightin' ten months in mud up to me neck. The work is somewhat unpleasant, but Ye'll be glad to hear that I killed fifty Germans. Now I'm a little tired, and I have me furlough all right, but I have no money left, having spent most of what I had for prayer books. Ask Father McCarthy if ye don't believe me. So, Lord, I ask ye in the name of all the saints for the small sum of one hundred dollars. Sure, ye'll never miss it, and if ye send the money I'll never forget ye in my prayers.

PAT CASEY.

In due course this appeal reached the censor's office, which happened in this particular locality to be housed in the Y.M.C.A. quarters. The letter was passed around, and aroused considerable attention and discussion and interest, as Casey was known to be a brave and cheerful fighter.

Contributions were sought, and finally the sum of fifty dollars was raised. This was sent to the applicant, without comment, in a Y.M.C.A. envelope. The next day the following acknowledgment was received:

"Dear Lord: I've received your 50 dollars as per application for furlough money, and I thank ye. My yer shadow never grow less. But I make so bold as to give ye a word of warnin'. Send the next money by the K. of C.'s. Ye sent the last by the Y.M.C.A., and they nipped half of it on ye.

PAT CASEY.

CARD OF THANKS.

Mrs Pardee and relatives wish to thank the many friends of Mineola and Summerland for their valued sympathy during their recent sad bereavement.

WHAT IT DID.

Visitor—"Why don't you advertise?"
Town Storekeeper—"No, sree. I did once, and it pretty near ruined me."
Visitor—"How so?"
Town Storekeeper—"Why, people came in and bought durn near all the stuff I had."

NO CAMOUFLAGE IN THIS!

The couple were married at the home of the bride's parents where they will remain until the bridegroom gets a job.—Centrella Courier.

A laugh is worth a hundred groans in any market.

There are now about 270,000 women working on farms in Great Britain.

A gray-headed veteran merchant once remarked: "It costs a merchant lots of money not to advertise."

Pound Notice.

Impounded at the Summerland Municipal Pound, One Brown Mare, with a few white hairs on forehead, branded "S" on left shoulder.

The above animal will be sold by public auction at the Municipal Pound at the hour of 2 o'clock in the afternoon of Saturday, Nov. 23rd, 1918, unless before such date the owner of said animal claims same and pays all penalties, allowances, and expenses chargeable therewith.

JOHN DALE, Pound Keeper.

Pound Notice.

Impounded at the Summerland Municipal Pound: 1 sorrel saddle pony, with white strip on face, curving to left nostril. Two front fetlocks and off hind fetlock white; some white saddle marks. If not previously claimed will be sold Nov. 16th at 2 p.m. at Municipal Pound.

JOHN DALE, Pound-keeper.

J. H. BOWERING, Secretary School Board.

Influenza Epidemic

Instructions Regarding Care Of Sick Persons.

Since thousands of people are nursing influenza patients in the province the following instructions will be of value:

1. Fresh air is the most essential requisite to the comfort and well-being of patients, no matter how ill.
2. Rest in bed for three days after fever has gone is urged to prevent complications.
3. Pneumonia cases should not be kept in the same room with uncomplicated influenza cases.
4. Nourishing food at regular intervals.
5. Plenty of water or lemonade.
6. General unworried service, avoid chattering, nagging or questioning; anticipate wants of sickest patients; convalescents usually ask for what they want. Keep the patients in isolated room in separate beds. Keep patient in bed all the time. (This means patient must not get up to go to the bathroom). Two or three pillows arranged step fashion, the lowest well under the shoulders, will make breathing easier. Keep the arms and shoulders well covered. Ventilate the room freely. At the outset, headache and backache are frequent. Cold cloths (moist, but not dripping) to the head, changed frequently give some relief. Avoid anything that might cause the slightest chill.

CARE OF MOUTH.

A mouth wash every few hours and cold cream to the lips help to keep the mouth in a normal condition. If patient is extremely weak, wipe the teeth carefully with moistened cotton applications three times daily.

COUGH.

Patients should keep mouth covered when coughing. Paper napkins or three thicknesses of toilet paper used only once, are safer and better than rags or handkerchiefs. Keep a small paper bag pinned to bedside, within reach of patient's hand, to receive the used napkins. Change bag twice daily, or when ever it becomes half full. The invisible spray from the mouth and nose during coughing is as dangerous as visible expectoration. Convalescent patients can be masked. Weak patients are annoyed by them.

FOOD.

For the unhappy, feverish patients, liquid diet, hot or cold as preferred; milk, lemonade, weak tea and coffee, broths. For convalescents and patients not feverish, soft diet gruels, cooked cereals, milk toast, jellies, soft boiled eggs, etc. Food may be kept warm in a thermos bottle. All patients should drink some water every hour when awake.

PRECAUTIONS.

All mouth washes, bathwater, excreta, and unclean liquid food should be thrown into toilet by the attendant.

All bags, napkins, scraps of unclean food, mouth swab, etc., should be wrapped in clean newspaper before being carried to the kitchen to be destroyed by burning.

All linen, sheets, masks, towels, etc., should be submerged in a large kettle of cold water in the sick room, or put in a pillow slip or laundry bag. This can be safely carried to the kitchen stove and when contents have been boiled five minutes, anyone may finish caring for the linen. When attendant cannot stop to wash her own hands, door knobs, faucets, etc., should be protected by scraps of newspaper which may be destroyed after each using. Attendants must be constantly masked, must wear big all-over aprons in sick room, changing it to a different one always before entering any other part of the house. Attendant must keep facilities for washing her own hands, soap, nail brush, and paper towels in clean place, and never touch the patient or patient's utensils without afterward cleansing her own hands thoroughly. Running water is better than a basin of weak disinfectant kept for the hands alone.

Everything used for the patient should be kept separate from the supplies for the rest of the household. This means dishes, bed linen, bath wraps, face cloths, rocking chair, etc. Families can help visiting nurses and aid by having hot water, towels, and newspapers ready when nurses are expected.

Freemen Buy Bonds, Slaves Wear Them!

An Old Trick.

Attention was drawn recently by an article in the Prairie Fruit Markets Bulletin to the practice of jobbers turning down cars of fruit and vegetables. These cars are offered at a price f.o.b. shipping point, and rolled to the purchaser in good faith. If better buys are offered in the interval the tendency of some buyers is to assume a super-critical attitude, and refuse the car at its destination. This is an old evil in the fruit business, and sooner or later it reflects with force back on the jobber using such methods. Old established concerns do not resort to this method of squaring themselves, and they even try to protect the shipper. We do not refer to goods damaged in transit, but to goods not being up to contract standard when shipped. The time has come to have independent inspection at shipping end, and sales made conditional to that inspection. Shippers of vegetables should insist on cash at shipping point, with inspection there. This is the only remedy for the condition referred to, and which, we regret to say, has been abused by some at this end.

WERE LOOKING FOR BARGAINS

(Continued from page 1.)

was referred to Public Works Committee.

Calling attention to the fact that further influenza cases had been reported, Coun. White suggested that the same restrictions should be put on the assembling of people here as has been done in other places, but this did not meet with favor.

On motion of Couns. White and Johnston the following accounts were ordered paid:

S'land Telephone Co., rentals and tolls	\$49.45
Corpn. of Summerland, street lighting	125.00
Corpn. of Summerland, water and light	7.50

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

The Editor, Summerland Review.
Dear Sir,

May I be permitted space to protest against the unwarrantable action of the Reeve in connection with Summerland's Victory Loan Campaign?

Acting upon instructions I waited on the Council on Monday morning last, gave a short account of our progress, what we were expected to subscribe, and how we were progressing, voicing the hope that the Council would be able to assist with an investment.

Mr Blair referred the matter to Mr Logie, who in a few words expressed regret at their inability to help, gratuitously expressing his opinion that Summerland had done well last time, and if they did nothing this year they had done their duty. Mr Blair then remarked that somebody set the quota and the canvassers went around and bantered and bullied the people into buying. Except from Mr White there was no protest against this. (Mr Simpson was absent through sickness.) Now, I challenge the Reeve to cite one instance in which a canvasser has been guilty of even discourtesy. It came within the scope of my duties to wait upon him personally, and he can find no fault either with my manner of approaching him nor with my reception of his refusal to subscribe.

It is intolerable that such a vital matter as the Victory Loan should be treated in such an unworthy manner, unworthy of the dignity of the civic chair and, I should hope, of the Council who represent the district, though why, with the exception of the afore-mentioned Mr White, they allowed it to pass undiscussed is beyond comprehension. It should be understood that my protest is based not so much against the discourtesy accorded to me, bad enough though that was, but against the narrow attitude of

Boy Scout Column

SUMMERLAND TROOP BOY SCOUTS.

O. F. Zimmerman, Scoutmaster.
Headquarters, College Gymnasium.

Meets every Friday evening at 7.30 p.m.
Orderly Patrol for month—Beavers.

We met in the Gymnasium for a few minutes on Monday night. After the Fall-in, Mr Solly gave us a short talk, telling us that the long-hoped-for day, when the fighting would finish, had arrived, and that the boys would soon be back, and a totally different future lay before us. We who had spent four

years of our comparatively short life under war conditions were now to live in a time of Peace.

The meeting was closed with a short prayer by Mr Solly.

Led by a dummy Kaiser, carried by two Scouts, we marched to the town where we lit the Kaiser who burned like a torch. We then proceeded up to the Giant's Head, passing the College, and lit the bonfire that we had built there last week. From there we could see bonfires in different places, but I think none was as good as ours.

SECY.
Provincial Horticulturist Middleton states that the crops will be heavier than expected in the Okanagan and that the good prices will mean big revenues for the fruit growers. The fancy stock is also finding a ready market further east each year, this season fruit was sent as far as St John, N.B.

the Council to the Victory Loan itself, which is a matter of vital concern to the Canadian people, including ourselves. The Council is supposed to be our leader in these matters, but in this case it has failed deplorably to rise to the occasion. A little more dignity, a little more patriotism and a little less roughriding over others would have rendered this letter unnecessary.
I am, Dear Sir,
Yours faithfully,
R. PURVES,
Secy. for Victory Loan Committee.
P.S.—Apart from the above, and speaking as a citizen, is there no room for a flag on the Municipal Building?

Coast Markets Commissioner, R. C. Abbott, comments as follows on a car of apples shipped to Vancouver from an Okanagan town:

"A car of apples shipped to the H. O. Kirkham Groceteria, City Market Building, from the Okanagan Valley is indeed no credit to the Okanagan. This car is, without exception, in our opinion, of the poorest quality of any car examined by us during the last four years. Although it is shipped under the "Popular" brand, it has become very unpopular, and will do a great deal toward hurting our Okanagan apples."

We are sure this car was not shipped from Summerland, Peachland or Naramata.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 11, No. 17. Whole No. 538.

SUMMERLAND, B.C., NOVEMBER 22, 1918.

\$2.00, payable in advance.

Honor Flag Is Hoisted.

S'land Ends Campaign with Good Margin.—Peachland & Naramata Do Splendidly.

Summerland has made good! With a very restricted territory as compared with that given many of the Okanagan centres and a serious disarrangement of the canvass, due to the appearance of influenza in the district, the canvassers, at one time reduced to one or two, were at great disadvantage. Many of the centres were so fortunate as to find municipal sinking funds with balances lying in savings banks which might well be invested at the higher rate offered on Victory Bonds. Summerland, on this occasion, had no money that might be so invested, having recently repurchased debentures of its own issue to the value of \$13,000. On Friday and Saturday the canvass was revived with more vigor, and closed on Saturday night with a total subscription of \$84,400, of which \$55,000 was paid in cash, and has been remitted to the Finance Minister.

There were in all 383 subscriptions to the loan, and it is expected that many of these will pay for the bonds in full at the next payment date, December 6th.

A matter of comment is an outcome of the canvass is the general prosperous condition of the people of the district.

Naramata, whose quota was nearly quadrupled, has made the largest subscription in proportion to quota, and her subscribers were the most per capita of any part of the Okanagan, being one in three.

Peachland, in this respect, was a close second, her subscribers being one in three and a quarter. Her quota of \$15,000 was nearly doubled.

Kelowna, including Okanagan Mission, Okanagan Centre, etc., exceeded its objective of \$200,000 by \$69,450.

Vernon, including Coldstream Municipality, Lavington, Lumby, Okanagan Landing, Oyama, and the west side of Okanagan Lake, made a total of \$318,000, the quota being \$200,000.

The Penticton territory included the Indian reserves, Kaleden, Okanagan Falls, Fairview, Osoyoos, etc., and there the subscriptions totalled \$253,200, the quota having been fixed at \$100,000. Of this sum \$21,000 was subscribed by Balfour George, chief of the Inkanep Reserve down near the boundary.

K.V.R. subscriptions were also sent into Penticton. It is estimated that from this source, including officers, \$30,000 was obtained.

Penticton Municipality invested \$8,500 Sinking Fund monies. District No. 9, the Okanagan and Similkameen sections, raised \$1,310,000 the quota being \$840,000.

Every province in the Dominion went over its objective, most of them by a substantial margin. The totals for the provinces are:

British Columbia	\$35,396,667
Alberta	18,189,600
Saskatchewan	23,889,000
Manitoba	43,639,900
Ontario	829,519,000
Quebec	175,433,050
New Brunswick	16,500,000
Nova Scotia	30,600,000
Prince Edward Island	2,700,000

The figures for Prince Edward Island are very incomplete, it was announced, owing to a big snowstorm, which had hindered reports being turned in.

Toronto, Nov. 19.—None of the most optimistic estimates of the success of the 1918 Victory Loan came anywhere near the realization, as expressed in the official figures announced at a great meeting in Massey Hall here last night. In the three weeks' drive Canada subscribed the great sum of \$676,027,217, which means that the loan is oversubscribed by more than 35 per cent. The Dominion total for the whole campaign last year was \$420,000,000.

According to a report given by R. Mitchell, superintendent of the work at headwaters, to the chairman of the Public Works Committee, good progress is being made there recently, and the work will be finished in about ten days.

A Press Victory.

District Chairman Appreciates Efforts of Papers.

Mr W. T. Shatford, chairman of District No. 9 for the Victory Loan 1918 campaign, has sent the following letter to the editors of the Okanagan and Similkameen:

On behalf of the Provincial Executive Victory Loan 1918, I desire to thank the Press of this district for the intelligent publicity so freely given.

The canvasser should always be preceded by publicity, but with influenza so wide-spread, all the ordinary channels of publicity were closed. The Press—the major channel—however, remained open, and while a great responsibility was thrown upon them, they were not dismayed, but came through gloriously.

The magnificent results achieved are almost solely due to the Press and our splendid army of canvassers.

What a great record for British Columbia! Over \$35,000,000, or \$90.00 per capita. This district subscribed over \$1,300,000, also a magnificent showing.

We have therefore every reason to be proud of the Press, and the great work which, in hearty cooperation with our committees, they have done.

W. T. SHATFORD,
District Chairman

Leighton MacLeod Loses Left Foot

The many Summerland and Okanagan friends of Rev. A. W. MacLeod and family will learn with regret that Mr MacLeod's third son, Leighton, has lost his left foot. Brief mention was made two weeks ago of his having been promoted to Flight Lieutenant and of his having been wounded. It is now learned that he was piloting a bombing plane flying low over the German lines when he was wounded in the foot by a machine gun bullet. The surgeons did their best to save the foot but finally were compelled to amputate the leg between the knee and ankle.

Harry MacLeod is now with the Divisional Signal Corps, and John is lieutenant in the 46th Battalion. Both these boys were in the final scrap in the vicinity of Mons.

In a brief note to The Review, Mr MacLeod says, "we would like to thank our Summerland friends for their unflinching kindness to the boys since they went to the front."

Two Provincial Officials Resign.

M. S. Middleton, Provincial Horticulturist, and H. O. English, Chief Inspector of the Soil and Crop Division, have resigned their positions and left the government service. Mr Middleton has been with the government for the past ten years. He was at first assistant horticulturist in the Nelson district, and eighteen months ago was advanced to the head of that branch of agricultural work in the province. He intends to engage in fruit ranching.

Mr English has been with the Department of Agriculture for three years. He has been in charge of the field crop competitions held annually throughout the province under the auspices of the Farmers' Institutes. He is also secretary of the Seed Growers' Association.

The military authorities have decided to first return men whose trade classification showed there was an immediate need for them from an industrial point of view, preference to be given married men, because of their greater responsibilities. The order of their return will depend on the length of time they have been away from home. Next will come single men in accordance with their length of service overseas.

The C.P.R. steamer "Okanagan" has been laid up for the winter. The steamer "Aberdeen," the pioneer passenger boat of Okanagan Lake, is being dismantled, as is also the smaller steamer the "Kaloden."

Looking For a Competent Man

Farmers Inst's Urge Dept. to Make Important Changes.

Hon. E. D. Barrow has informed the Advisory Board of Farmers' Institute that negotiations are proceeding to secure the services of a competent man for the office of Deputy Minister of Agriculture to succeed Mr W. E. Scott. The "district agency plan" is to be adopted in the reorganization of the department.

Alleged shortcomings of the present system of the Department of Agriculture were brought to the attention of the Hon. E. D. Barrow in a conference with the Advisory Board of the Farmers' Institutes.

The necessity of complete reorganization to avoid the present overlapping which occurs through the various activities of the Board of Health, the Education Department, the Agricultural Department, as well as the work now being carried on in the province by the Federal Agricultural Department was urged.

It was pointed out that through the duplication of effort the results accomplished were not commensurate with the expenditure of time, effort, and money.

The district agency plan adopted in eastern provinces was recommended for British Columbia.

This would mean that the department instead of as at present sending out experts to all parts of the province at large outlay to advise the farmers, would, in districts deemed necessary, station competent men who would be in constant touch with the farmers of their particular districts and direct their efforts along proper lines.

Mr Barrow agreed some such policy would effect an improvement and he promised full consideration. The under-manned condition of the department will also be considered. In connection with the question of powder, a system of bonusing the farmer for every acre cleared, and a plan whereunder powder should be supplied on time, as in seed grain, notes to be taken from the farmer, were suggested.

Coun. E. R. Simpson, who has been confined to his home for two or three weeks, is able to be about again.

Confirms Prices Predicted in Boom Days

\$1,000 per Acre can be Exceeded by S'land Orchards.

How much can be made per acre of orchard is a question frequently asked, and any figures bearing on this question are always interesting. A return of a thousand dollars per acre would be high even for the real estate boosters of earlier days, but that such returns are easily possible has been proven.

It so happens that there is a block of one acre with 100 trees of one kind, Yellow Newtowns, on the Balcom Ranch. It was easy to keep the crop from these trees separate from others. This crop was planted in 1904. About eight years ago as the trees were coming into bearing and the varieties were found unsatisfactory the whole block was "top-worked" by Mr Holmor, now Superintendent of the Experimental Farm. The selections used were from Yellow Newtowns. These eight year-old tops have this year produced 1,400 boxes of apples which, when repacked, are expected to return at least \$1,000, exclusive of the cost of package and packing.

The Review would be glad to have information of this nature from other fruit growers. Such figures are an encouragement to those whose orchards are still in the development stage, and an incentive to others whose crop returns are not so satisfactory.

Mr L. E. Taylor of Kelowna will represent the Okanagan district of the Farmers' Institutes Advisory Board.

Civic Finances Greatly Improved

Municipal Sinking Fund: Its Condition and How Invested.

A very gratifying improvement in the financial situation of the Municipality of Summerland as regards its Sinking Fund account will be shown by the annual statement to be issued early after the end of the year. The condition of this account will be improved to the extent of \$5,600.

According to the statement issued December 31, 1917, the amount required for Sinking Fund purposes was \$57,092.84. The fund, however, was short to the extent of \$22,297.75, this deficit being the result of non-payment of taxes. For 1918 there will be a further sum of \$9,628.27 to be added to the Sinking Fund.

In one form or another over \$15,000 will have been placed to the credit of the account this year.

The following figures, obtained at the Municipal Office this week, show the condition of the account and how the accumulated funds have been invested.

Total due Sinking Fund,	
December 31, 1917	\$57,092.84
Redeemed Debentures	
1917 and prior	31,000.00
Redeemed Debentures	
April 1918	3,500.00
Redeemed Debentures	
October 1918	13,000.00
Victory Loan 1917	2,000.00
Cash on hand	523.19
Total	\$50,023.19

Balance to be made up	\$7,069.65
To be added for 1918	7,344.56
Interest 4 per cent. on redeemed Debentures	2,283.71
Total	\$16,697.92

Unless by some unexpected good fortune, this will be approximately the amount due the Sinking Fund at the end of this year as compared with \$22,297.75 twelve months previous.

The Municipality's inability to purchase 1918 Victory Bonds has revived more than usual interest in the question of the Municipal Sinking Fund, and in response to inquiries made of The Review the above information is given. It will be noted that at the most \$500 only could possibly have been invested in Victory Loans.

Regrettable Incident Used to Discredit Of Summerland

Local Loan Campaign Occasion of Long Article.

Summerland has been receiving some very undeservingly discreditable publicity because of certain incidents in the Victory Loan campaign. It is often the case that many suffer for the sins of the few, and in this instance all Summerland is brought to shame. The spirit of loyalty is particularly strong with us, and we have always been so credited.

In a large display heading the Penticton Herald says: "Summerland Council Lukewarm on Loan," and comments as follows:

"Summerland obtained its Victory Loan quota, but the honor flag for the district was only achieved after a good deal of very hard work by the secretary and some of the more enthusiastic canvassers. Summerland has such an excellent reputation for patriotic giving and wholehearted support of any laudable object that its comparatively poor showing in the Victory Loan campaign has been a matter of considerable comment in neighboring districts.

Possibly much of the difficulty in the Summerland canvass may be explained by the facts set forth in a recent issue of the Summerland Review, contained in a letter by Mr R. Purves, secretary of the Victory Loan committee. After a perusal of the communication one is forced to the conclusion that if Mr Purves is correct in his assertions, Summerland possesses a reeve it has no reason to be proud of. Without being pharisaical we can at least

Apples To Britain.

Embargo Lifted.—Shippers To Find Bottoms.

Canadian apples may now be shipped to England. The Canadian High Commissioner at London has advised Canadian authorities that a general import license had been issued to the fruit trade in Britain, but that Canadian exporters must find their own shipping space.

It is not probable that there will be any great quantity of British Columbia apples to reach England this winter, the difficulty in obtaining cars being an important obstacle in the way of the early revival of sales in Britain.

Nova Scotia will be more directly benefitted and, no doubt, a considerable quantity of Nova Scotia apples will be shipped overseas. This in itself will be a direct benefit to British Columbia, removing from the Canadian market apples that would come more or less in direct competition with our own.

Prairie Markets Commissioner Grant, who has been stationed at Calgary during the summer, is now in Ontario looking toward the extension of the market for B.C. apples, which have been sent this year as far east as New Brunswick. The lifting of the embargo will be of assistance to Commissioner Grant.

Over Fifty Cars Apples To Ship

There are in storage here between 50 and 60 carloads of apples yet to be shipped, and nearly all to be packed. The big Union packing house at the wharf is literally jammed full with apples. 4,000 boxes of these have been packed and are now ready for shipment, and 25,000 boxes are yet to be packed. The Stewart Fruit Co. has on hand about 16,000 boxes. It is difficult to estimate how many carloads are held by private shippers or growers for later sale.

So many salesmen have been off the road and business generally has been so demoralized because of the epidemic, sales have been nil for several weeks. When the epidemic has passed the demand is expected to revive rapidly. There is no anticipation of any slump in prices.

The following is an estimate of the quantity of apples held at other points in the Valley: Vernon 85 cars; Kelowna 29 cars; Penticton 20 cars; other points 5 cars.

Preparing To Open New Class Room.

At a special meeting of the School Board held on Tuesday afternoon, H. W. Harvey was given the contract for lathing, plastering, and finishing the domestic science room in the new addition of the High School building. Including black boards, etc., the contract price is \$365.

Having decided to get an additional teacher the secretary was instructed to offer the position to a Summerland young lady, and in the event of her non-acceptance, to advertise.

Secretary Bowring also reports a vacancy in the Town School, and the advertisement in this issue asks for applicants for that position.

The Board decided to fumigate all the school rooms on the first Monday in December. This to be subject to future developments.

feel thankful that our Penticton reeve is made of different stuff."

Then follows the letter referred to, together with the post script:

In a long article on the campaign relating to Penticton and district is sandwiched in a front page column of the Herald the following:

"Summerland had a big struggle to make its quota of \$80,000, for the workers faced many handicaps, among them the virtual opposition of the municipal council.

"In Penticton, on the contrary, the council showed every sympathy and it subscribed \$8,500."

The smelter at Greenwood is being taken down and moved to Copper Mountain.

Passing Over Us Lightly.

Summerland Very Fortunate as Regards Epidemic. Peachland and Naramata Free.

The influenza situation, never at any time very serious in Summerland, has greatly improved during the week. There have been no new cases reported for several days, and almost without exception all patients are doing well.

Andrew Pierre, son of Antoine Pierre, and his sister Margaret, were brought into the Emergency Hospital the first of the week, both suffering from pneumonia. Andrew is still in a somewhat critical condition.

Miss Gordon, matron of the Emergency Hospital, developed the influenza in a mild form the first of the week, but at no time gave up her responsibilities. She is now about her duties.

Miss Kathleen Babbit, one of the nurses, did not escape so easily, but her condition is very satisfactory.

The little Thompson boy is not regaining his strength as rapidly as he appeared to be doing a week ago.

There has been a fresh outbreak of the malady at Mineola. A Chinaman, who took sick on Friday, and refused to take the medicine prescribed, sent a messenger to Vancouver for a Chinese doctor. On Saturday he consented to be treated by Dr. Andrew, but died on Sunday.

Besides a number of Chinamen several of the white men and women at Mineola are sick, and Miss Ashbury, who brought a patient up from Vancouver for the local hospital, and Mrs. Angwin, are now caring for the patients at Mineola.

Joe Gibelesco, an Italian, was brought into the Emergency Hospital on Monday, and Charlie Turner, son of R. M. H. Turner, on Tuesday. We believe all the Mineola patients are progressing satisfactorily.

Summerland has at no time been formally closed. At a suggestion of the Reeve most of the churches suspended services, and the School Board closed the schools. Announcement is made in this issue of the resuming of church services. We are informed that the Reeve has concluded the danger has passed, and has telephoned the ministers approving the re-opening of the churches.

Those patients who have been released from the Emergency Hospital are loud in their praise of the care given them there, and the kind treatment accorded them by the nurses, and especially are they full of praise of the motherly thoughtfulness of the matron, Miss Gordon.

The malady has not yet made its appearance in Naramata or Peachland. Both these towns are now hopeful of entirely escaping.

Up to the present Penticton has had approximately 250 cases, according to the Penticton Herald. There are about 100 patients there now suffering from the influenza. Six deaths have occurred in that district up to date. The hope is expressed that the worst is over, and that the town will again be open in another two weeks.

Although between 20 and 30 new cases have occurred during the past week at Vernon the cases continue mild. The Vernon News reports only seven deaths having occurred out of some 400 cases. There is no chance at present of schools, churches, and public gatherings being permitted to reopen. There are about 20 cases among the prisoners at the internment camp.

At Kelowna the churches are opening on Sunday, one service only being allowed. There will be no Sunday Schools as yet, nor will public meetings be allowed. Some of the rural schools opened last Monday, Rutland being an exception, but schools there will re-open next Monday. The Kelowna schools will probably open on Wednesday next.

Only four new cases appeared up to Thursday, and about 50 cases were still under treatment. Altogether Kelowna and district have had about 200 cases with ten deaths, those being all Orientals.

The Orientals of Kelowna suffered very heavily through the influenza.

[Continued on Page 3.]

FRIDAY, NOVEMBER 22, 1918.

CO-OPERATIVE CURING OF PORK.

COMPLAINT IS SOMETIMES HEARD from Summerland farmers as to the small or totally lacking profit to be made in hogs. They say that they pay a relatively higher price for the mill feeds used and at the same time get a smaller price for the finished animal than the farmers of the prairies and some parts of B.C. It may be that these farmers are using too much "boughten feed," and that by producing a larger percentage of the hog feed on their own farms better returns would be had.

As to the prices obtained for the fattening hog: In this respect we are similarly situated as we are with regard to tomatoes and other crops. We are shipping too much of our material in "raw" form, instead of manufacturing it at home. We certainly have reached the stage where we could easily support a cannery and probably a plant for the manufacture of sundry by-products from our fruits.

Is it not just here that we are falling down with respect to the profits to be had from the production of pork. A small co-operative packing house would not cost much in the way of capital invested, and one good man, experienced in the curing of hams and bacon, could run such a plant. Some existing building could be utilized requiring only the addition of a smoke-house, and the other equipment would not be expensive. The finished product, ham, bacon, etc., would command a very much higher price than that now received for the dressed hog. The existence of such a plant would be a great encouragement to hog production, and with one or two more pigs on each of our five and ten acre lots there would be enough raw material to make a small plant profitable and give the farmer a higher net return than he now receives.

THE POWER OF ADVERTISING.

THE SUCCESS OF THE Victory Loan campaign throughout the province must stand forever as a proof of what good organization and zealous salesmanship can do. It is in no way derogatory of these if we say that it was pre-eminently a proof of the power of newspaper advertising and publicity.

Other means of publicity were practically paralyzed. Public meetings were prohibited, parades were cancelled, even open-air gatherings were discouraged. The pulpits were unoccupied. Dinners and club gatherings were impossible. All the ordinary methods, outside of newspapers, of informing the public mind and of generating enthusiasm were barred. On top of these was the depression due to the epidemic, and most fatal of all in the final days of the campaign, the news of peace.

Each succeeding difficulty was met by the press of the province with a bigger blast of printer's ink. The work of the editors was rendered peculiarly difficult by a simultaneous order from the government to reduce the consumption of white paper. Every extra column therefore had to be deducted from a reduced space for news. Publicity committees, realizing the situation, used generous paid copy; the merchants backed them up. But the free reading matter donated by the press—editorial and news—was three times as great as in the last loan, and has probably never been equalled before in this province, not even in a political campaign.

If any papers are worthy of special mention it is the weekly ones, whose staffs in many instances were reduced by the influenza, and who gave without stint often where they could ill afford to do so.

The campaign proved two things: It proved the unselfishness and patriotism of the editors, and it demonstrated beyond question that there is no combination of adverse circumstances which can defeat any worthy campaign behind which is ranged intelligent and adequate advertising.—Vancouver World.

SOME ASTONISHING FIGURES relating to British Columbia's forests are contained in a report of the Canadian Commission of Conservation, the result of an exhaustive investigation of the forest resources of this province, extending over a period of three years.

The timber that has been destroyed in this province by forest fires is almost equal to the total standing timber to-day in all Canada, including B.C., or to put this in another form: of a total area of 155,855 square miles of forest land, about one hundred thousand, nearly two-thirds of the total, have been destroyed by fires. This loss is attributed very largely to public carelessness.

Notwithstanding this almost inestimable waste, British Columbia still has enormous forest wealth, the report placing the total at practically 850,000 million feet board measure, nearly 40 per cent. of this being in the Interior.

Speaking in general terms, red cedar, Douglas fir, the several spruces and western hemlock are each about 20 per cent. of the total, balsam and kindred firs, lodgepole pine, western yellow pine, yellow cypress, larch, white pine, and black cottonwood making up the balance. Hemlock, balsam fir, spruces and cottonwood are all used in the manufacture of pulp for paper, and as this province has enormous quantities of these woods, yearly becoming scarcer in the east, the manufacture of pulp and paper are sure soon to become more important industries in British Columbia.

GOOD NEWS FOR THE HOUSEKEEPERS throughout all Canada is contained in the announcement from Ottawa that all orders and rulings regarding the sale, purchase, use or consumption of substitutes for wheat flour have been repealed. Henceforth bread may be made from wheat flour. The present milling extraction of standard flour, however, will be retained, the authorities believing that this will enable sufficient flour to be exported for the needs of the Allies.

Open Air Thanksgiving When Peace Declared.

Editor, Summerland Review.

Dear Sir,
I noticed by the Review of last week that a general thanksgiving service in all churches for peace is proposed.

May I suggest through your columns, that when Peace is actually signed, a great open air service of all denominations be held some Sunday afternoon at a spot to be decided upon beforehand, and at which all the local and visiting ministers will take part, as it would seem that the thanksgiving fitting the deliverance from the awful tragedy and catastrophe of this great world war should not be offered in buildings made by men's hands, and in separate denominational congregations, but in unity surrounded by nature as we all see it. I should not be surprised if many here already have a similar

opinion to mine, if they have not openly expressed it.

E. B. MAY.

FOREST BRANCH
Lands Department

TIMBER SALE X1518.

SEALED TENDERS will be received by the District Forester, Vernon, B.C., not later than noon on the 5th day of December, 1918, for the purchase of Licence X1518, to cut 270 Cords Yellow Pine and Fir Cordwood on an area adjoining L.12273, near Summerland, Osoyoos District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Vernon, B.C.

Without Music You Cannot Live a Full Life

Music is now recognized as a necessity in the home. Music feeds the soul, as food feeds the body and literature feeds the brain. Next to religion, it is humanity's greatest comforter.

The New Edison opens the doors to the world of music. It brings the supreme art of the greatest singers, instrumentalists and musical organizations to you with such unerring fidelity that the artists themselves could give you no more.

The NEW EDISON

"The Phonograph with a Soul"

does not merely imitate; it actually re-creates.

Before audiences totalling more than two millions, thirty great artists have conducted tone tests which proved that no shade of difference could be detected between the artist and the instrument. They have sung in direct comparison with the New Edison, then suddenly ceased, permitting the instrument to continue alone. The only way the listeners could tell when the artist stopped was by watching his lips. And with the lights lowered, they were unable to say when it was the living voice they heard and when the New Edison.

Could a more convincing test than this be devised? Doesn't it prove the truth of our assertion that ownership of this instrument is equivalent to having all the great artists of the world literally at one's command?

Come in and hear the New Edison here, or allow us to send one to your home, where you can hear it at your leisure.

enza epidemic, and we believe the deaths there have been among Orientals only. In all eight Chinamen, one Hindu, and one Japanese succumbed to the disease. There have been three emergency hospitals in operation, the High School being used for white patients. Another building was fitted up for the Chinamen and Principal Gordon of the Public School took charge. After being on duty for some days, and his wife having contracted the disease, he was relieved by Archdeacon Greene. Another hospital for the Japanese was opened under the management of one of their number. Late reports were that the epidemic was waning, there being but few new cases.

Up to last Friday there had been 14 deaths at Princeton, among the victims being Miss Doris Lyall, sister of G. G. Lyall, druggist at Princeton.

The Princeton Star says the situation is improving, comparatively few new cases being reported, and not many dangerously ill.

The influenza epidemic has been very serious at Trail, according to the Trail News of last Friday. There have been 600 cases in that city with 37 deaths. The two doctors are rushed night and day, and the call for help has been great, whole families being stricken.

An order has been issued by the Medical Health Officer that all convalescents must wear masks for ten days when outside their own home, or be quarantined for that time. He states that this is the worst time for communicating the disease.

Influenza has seriously affected the operation of the smelter at Trail, about fifty per cent. of employees being affected. Notwithstanding the great need for men the company is giving notice that no employees will be allowed to return to work without a quarantine clearance.

This morning two more homes were reported with influenza. Percy Thompson, just home from Mineola, has it, and also his sister Dorothy. Louis Guide is also down with influenza, and is supposed to have contracted it from an Italian friend just arrived from Trail.

Classified Adverts.

RATES: FIRST INSERTION - 2 cents per word; minimum charge 25 cents.

EACH ADDITIONAL INSERTION - 1 cent per word; minimum charge 10 cents.

In estimating the cost of an advertisement, subject to the minimum charge as stated above, each initial, abbreviation or group of figures counts as one word.

Passing Events: Social, Personal, &c.

The post office authorities have given J. H. Bowering the contract for the rural mail route, and he will take over the route on the first of December.

Mr and Mrs Fred Stockhill of Montreal, who have been touring the west, are expected to arrive here to-night on a visit to their daughters, Mrs Rice and Mrs McFadden.

Five cases of jam, in all about 300 pounds, were packed yesterday for the Red Cross by the Boy Scouts. This jam will be sent to the returned soldiers at the Kamloops sanitarium.

Mr and Mrs Gerald McLaine are both ill with influenza at Penticton. Mrs J. R. Brown and Miss Amy Brown, Mrs McLaine's mother and sister, have gone down to take care of the patients.

Eugene F. Thompson, who for a season lived on the J. C. Brown lot, and recently with J. Burgoine took over the Campbell property in Garnett Valley, is in a critical condition as a result of a paralytic stroke.

Chief Dominion Fruit Inspector R. G. L. Clarke reports that thirteen cars of B.C. apples were received in Vancouver during the past week as well as two cars from the American side. He points out that some cars of Jonathan apples, principally the larger grades, are not holding up, and he advises that the price be made so that they will be moved into consumption as rapidly as possible. - Vancouver Province.

Letters received from the following, acknowledging the receipt of parcels from the Home Comfort Club, were read at a recent meeting of the club: Lieut. A. W. Vandenberg, Royal Air Force, England; Pte. Harold English, England; Sapper A. R. Gayton, Pte. C. A. Gayton, Pte. B. A. Tingley. The latter were written from France. Pte. A. R. Gayton had recently returned from "Blighty," and says he was very lucky in meeting his brother Arnold. They happened to get on the same train and went across the channel together.

OBITUARY.

New Mounts. Best Portrait Paper. Come early and get your choice of these Mounts.

W. W. HANDFORD, PHOTOGRAPHER, PENTICTON.

Say, Neighbor:

I have some Special Snaps in Choice Real Estate. A SEMI-MODERN COTTAGE with One Acre, close to West Summerland. FIVE-ACRE FRUIT LOT in bearing, all planted in good varieties of standard apples. Also FRUIT LOT on LAKE-SHORE. W. C. Kelley.

We are informed that Mrs Down-ton, who has been visiting friends at Kelowna, is ill there with tonsillitis.

Miss Ruth Blair returned from Nelson last Friday. She has been in the Kootenay country for some time in charge of fruit packing.

Until all danger of influenza has passed no visitors will be admitted at the Summerland General Hospital. By Order of Chairman. 17

Miss Anderson, a former patient at the local hospital, came in from the Coast on Tuesday morning to again take a course of treatment for asthma.

Indian Agent J. R. Brown has spent considerable time in the lower Similkameen this week where many of the Indians have been ill with influenza.

Mrs M. A. Sutherland of Winnipeg arrived on Saturday to spend the winter months here. She has rented Mrs Estabrook's cottage in Peach Orchard.

Miss Gertrude Angwin, responding to a call for nurses at Penticton, has volunteered, and expects to go down to the neighboring town the latter part of this week.

Accountant R. Shaw, of the Bank of Montreal, returned on Tuesday morning from Princeton, where he was in charge of the branch of the bank there during the manager's illness.

Mr and Mrs A. Davidson and family are Summerland's newest citizens, having arrived here a few days ago from Regina. They are now settled on the J. C. Brown property which Mr Davidson has purchased from Mr Traube.

Beginning with December 1st, the price of milk throughout the district of Summerland will be 15 cents when delivered, according to one of the leading milk producers of the district. Our informant states that this is the price being charged in other parts of the Valley, and that the increase yet falls short of the price that should be received, because of the greatly increased cost of production.

Mr C. W. West, Supervisor of Indian Agents under the United States Government, and Mr Fred C. Morgan, Superintendent of the Colville Agency, Washington State, paid Indian Agent J. R. Brown here a hurried visit yesterday. They had been looking over the reserves of South Okanagan and Similkameen. Both gentlemen expressed themselves as greatly delighted with what they had seen of British Columbia.

Mr Hector Sutherland returned from Halcyon Hot Springs last Friday greatly benefitted by the sulphur baths.

Miss Anna Lister, who has been nursing at the Revelstoke Hospital, came home on Friday night for a brief rest.

Mr and Mrs W. A. Caldwell and family have this week moved into the cottage on College Hill, generally known as the Everton cottage.

Mr J. W. Harris, Principal of the Coquitlam Public School, leaves to-night to resume his duties on Monday morning. He will be accompanied by his daughter, Miss Gwen Harris.

The University of B.C. re-opens on Tuesday next. W. M. Wright will be leaving to-night to be ready to resume classes on Tuesday. Mr Wright will be accompanied by his wife and child. Roy Elsey, Donald McIntyre, and Allen Harris will go out on Monday. Miss-Susie Wallace, another Summerland student at the University, remained at the Coast.

How Uncle Sam Treats Non-Subs.

In accordance with a resolution adopted by the County Council of Defence prior to the opening of the Fourth Liberty Loan Drive the papers of Okanagan County, Washington, have been publishing a list of considerable length and one which makes rather amusing reading. To the people of Okanagan County it no doubt is a more serious aspect. The list as published is only a partial one, and the announcement states other names will be submitted to the press as they were reported.

The following paragraphs are typical of the whole report:

A. V. Pflaum, rancher and mining promoter, Pine Creek, address Tonasket. Homesteader and applicant for final proof on additional homestead. Well able to buy. Strong pro-German tendencies. He says that he will not buy, and that the committee has no power to compel him to buy, and further says that anyone is a dam fool to buy them. He has not bought before.

E. H. Hemeske, Siwash Creek, Anglin, rancher and cattleman. The committee is of the opinion that he is pro-German. He was asked to purchase \$250 in bonds, as he had never bought any before. He signed up for one \$50 bond of this issue, but committee returned the application, as the committee thinks he is well able to buy, and the committee thinks he positively should buy the quota allotted him.

Community Calendar of Coming Events

Advance notice under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

St. Andrew's Church services - 10.30 a.m. and 7.30 p.m. Subjects: morning, "Allied Christianity's Part in the Work of Reconstruction." Evening, "What is Wrong With The Churches." Sunday School after the morning service. C

Lakeside Church, Sunday School 11 a.m.; church service 7 p.m., subject, "The Autumn of Life." C

Red Cross will meet as usual in Parish Hall on Monday at 2.30 by permission of Medical Health Officer. It is urged that there should be a good attendance as the authorities have asked that the work be continued. C

NOT WORKING OVERTIME.

Policeman's wife (at 2 a.m.) - "John, there's a burglar under the bed." Policeman - "Well, ring up a cop; I'm off duty."

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representatives.

On Thursday of last week an enthusiastic and patriotic crowd gathered in front of the school to witness the raising of our Victory Loan Flag on the school flag staff. At the time of the raising of the flag the list totalled \$22,500, the allotted amount being \$15,000. The list closed, however, with the neat sum of \$28,200, which entitles Peachland to three crowns as well as the flag. This amount, of course, includes Westbank, their portion of the total being \$3,250. At the flag-raising Mr T. Powell, as chairman, and Rev. J. A. Rowland, secretary of the committee, addressed the gathering, congratulating them on the efforts already put forth and urging on them the necessity of doing even better. In connection with Mr Powell's remarks he read a letter from Mr W. H. Malkin, of Vancouver, Provincial Chairman of Victory Loan Committee, written to the executive here. Mr Malkin commented on the work of the local committee and likewise on the patriotic tone of the whole community, not alone in connection with the Victory Loan, but in all patriotic duties, and on behalf of the Provincial Executive thanked the people of Peachland for their support with the present Victory Loan. We publish herewith the list of subscribers to the present Loan, first for Westbank, as follows:—M. Russell; J. Hewlett; L. Hewlett; E. Johnson; Mr Sinclair; A. Nichol, Jr.; J. M. Jones; C. Clarke; L. B. Lake; L. Lake; Mrs E. A. Gore; G. E. Brown; H. C. Last; W. B. Gore; Mr Falkner; Miss Dobbin; Mrs Harkness. For Peachland as follows:—Mrs J. A. Dryden; Miss J. A. Dryden; W. M. Dryden; O. Keating; Mrs H. M. Keating; Miss Myrtle Keating; J. P. Long; Mrs A. McLaughlin; A. J. MacKenzie; Miss Mary McLaughlin; Mrs C. K. McDougall; A. N. Pope; Mrs Suddaby; J. E. Kerr; J. McLaughlin; H. Hardy; J. S. Drought; H. Drought; O. Pope; Mrs W. Buchanan; Mrs Tewart; Mrs E. Lowndes; J. A. Rowland; J. T. Long; G. H. Greaat; Miss C. E. McDougall; Mrs E. Lang; Mrs J. A. Needham; Miss Flora Needham; Mrs E. A. Robinson; Mrs M. V. Thompson; Mrs P. E. Vivian; Roscoe E. Law; Miss Elsie E. Law; Miss Verna, Master A. W., Master G. H., the Misses L. C. E. J., and E. E. Town; W. Ashley; T. Powell; R. Hall; R. A. Smith; W. E. Smith; G. Keyes; V. M. Jones; J. Kay; W. R. S. Metcalfe; Mr J. H. Clements; Mrs M. F. Clement; and the Misses A. A.; D. D.; F. B.; and F. H. Clements; Mrs L. C. Miller; Mrs J. Sanderson; Miss D. A. Long; Peachland Fruit Growers' Union; C. Morrison; Mrs A. M. Morrison; R. H. Huston; Miss A. Elliott; S. H. Murdin; S. N. Cutbill; N. S. Davidson; Mrs M. Davidson; Mrs E. M. Robinson; W. Douglas; A. D. Ferguson; B. O. Iverson; G. E. Long; G. Hohensee; C. Brown; H. Keating; V. Winger; Mrs H. L. Hogg; W. J. Moore; F. W. Verey; R. J. Hogg; The Peachland Aquatic & Athletic Club; C. R. Somerville; J. McKinnon; A. Town; Mrs C. C. Town; H. H. Thompson; Mrs J. Mills; Mr and Mrs A. Young; C. Aitkens; J. S. Moore; H. E. McCall; Mrs P. O. McCall; Miss N. Buchanan; Miss E. I. Buchanan; Miss E. I. Pentland; A. W. Miller; Miss A. L. Morrison; L. G. Williams; E. O. Williams; R. H. Williams; Mrs A. B. Williams; Mrs T. Murdin; N. R. Keating; Mr L. D. McCall; Miss Gladys McCall; H. Williams;

Earl Murdin; A. K. Hay; Mrs F. B. Jeffords; G. A. Robinson; Mrs W. Douglas; Mrs E. C. Drought; W. D. Miller; Miss H. Douglas; Mrs Murdin. The estimated population of Peachland is set at about four hundred and fifty, which would make practically a one in three per capita subscription list.

Mrs Morgan and her daughter, Miss Lee, who have been staying for a couple of months with Mrs Stevens, left by Friday night's boat en route for San Francisco, where they intend to spend the winter.

A pretty wedding was solemnized in St. Margaret's Church on Friday last when Miss Vera, daughter of Mr and Mrs James Hay of Peachland, was united in marriage to Private Ernest Aitkens, also of Peachland. Promptly at five o'clock the bride entered the church on the arm of her father to the strains of the Wedding March played by Mrs E. Lang. She wore a blue suit, with white hat, and carried a bouquet of smilax, carnations, and chrysanthemums. The ceremony was performed by Archdeacon Greene of Kelowna. During the service Mrs W. Lupton, sister of the groom, sang a very appropriate solo. The church was beautifully decorated for the occasion, and many of their friends were present to witness the ceremony. The happy couple took up their residence in the Tewart bungalow on the hill.

Miss Gladys McCall came off on Saturday night's boat and spent the week-end here with her uncle, L. D. McCall, returning on Monday morning.

Miss Nora Drought had the misfortune on Thursday of last week to fall from her bicycle and sustained a dislocation of the elbow joint. We are pleased to report that she is getting on nicely.

Messrs. J. and A. Hay and Mr D. McLaughlin spent Monday of this week in Kelowna, returning in the evening.

After spending the week-end with his family here, Mr W. D. Miller returned to Penticton on Monday night.

Mrs Hugh McDougall was a passenger to Penticton on Monday night last, where she is visiting Mr R. J. McDougall.

Having completed the work to be done this fall on the Peachland dam

extension, the crew came out on Monday. The six-foot addition which has been placed on the former dam should solve the water storage question for our irrigation supply for the present at least. Mr McGregor of Kelowna, who has been in charge of the work, returned home on Tuesday.

Mr G. Keyes and family enjoyed a pleasant auto-trip to Westbank this week, and while in that locality ran down to Gellatly for a portion of the day. Mrs Burkett Robinson accompanied them as far as Westbank to visit her father and sister.

The Minister of Agriculture is calling upon farmers and live stock men to maintain their operations on the war-time scale.

Correspondence.

Rural Route, No. 1, Summerland, B.C., Nov. 19, 1918.

The Editor, Summerland Review.

Dear Sir,
In regard to Mr Purves' letter of the 15th inst., I would like to say that if he knew all the difficulties the Public Works Committee have to contend with he would not be so quick to question their patriotism. As it is the part of the Finance Committee to look after the finances of the Municipality I do not consider it is up to the mem-

bers of the Public Works Committee to say much on that subject. He speaks of our narrow attitude. I don't consider he had any reason to use that expression, as he was told before he came before the Council that there were no funds on hand for that purpose.

I have subscribed to both Loans to the full extent of my means at the time, which is as much as he has done. As to patriotism, I believe we have as much of it as he

has. It is not always the man that yells the loudest that lifts the most.

I am,
Yours respectfully,
R. JOHNSTON.

Peace does not alter the food demands upon Canada and the United States, but in fact increases the load and the demand for economy.

Sensational Story Of Railway Deal

Cabinet's Action a Most Unusual One; but Gov't Supporters say Premier Can Explain

Victoria, B.C., November 25.—“The parties of the second part (Foley, Welch & Stewart, etc.) covenant that all the rolling stock, equipment, plant, and machinery, now in, upon, or about the said line of railway or adjacent thereto, and heretofore in use by them, or any of the said companies in or in connection with the construction or operation of the said line of railway, are the properties of the said companies, and are to be transferred, set over, and delivered to the province.”

The above is Section No. 14 of the agreement between the Government and Pacific Great Eastern Railway interests made last session and passed by the British Columbia Legislature. In that form it is now contained in the statute law of the province.

Practically, however, the exact opposite of the terms of the proposal as above outlined has been carried out, it is stated. Equipment and construction material along the line between Squamish and Prince George, estimated by some to be worth up to a million dollars, has been sold, and shipped, some to Alberta, some to the United States, and some has passed through Vancouver.

Pursuant to the legislation, it is stated that two government officials were sent up the line of the P.G.E. to make an inventory of the saw mills, locomotives, tools, dump cars, etc., on the grade; but these men were recalled before their work was half completed, it is said.

REASON FOR ACTION.

The reason given is that the agreement passed by the members of the House, and signed by the government and the railway company was not in accord with the negotiations which are alleged to have taken place between the company representatives and Hon. John Oliver as Minister of Railways. When this conflicting condition of affairs came to light the government decided to disregard the clause in the agreement and, instead, to hand over to the company the equipment and material referred to. The history of the entire incident will be read with unusual interest throughout the province. Enabling or corrective legislation may be proposed by the government, and, according to reports current, the opposition in the House is already preparing to demand a royal commission of enquiry into all the facts of the alleged variation of the agreement.

The plant and equipment which have been taken out of the P.G.E. country covers a wide range. It is stated that one thousand tons of construction rails were sold to a Vancouver metal concern for \$64 per ton. Some other individual sales ran up to five figures each, it is said.

The serious misunderstanding of the matter, as it is officially described in Victoria, extended, it will be recalled, to the newspapers. Published reports of the settlement between the P.G.E. and the government emphasized the fact that construction material and outfit were to be handed over to the government for the purpose of use in completing the line to Prince George, and in later extension to Peate River. But the newspapers and the legislature and the text of the agreement were all mistaken, however, according to what is said to be the Premier's recollection of his negotiations; and upon the latter giving the company the equipment and material, the cabinet has acted, trusting to secure endorsement at the next session of the legislature.

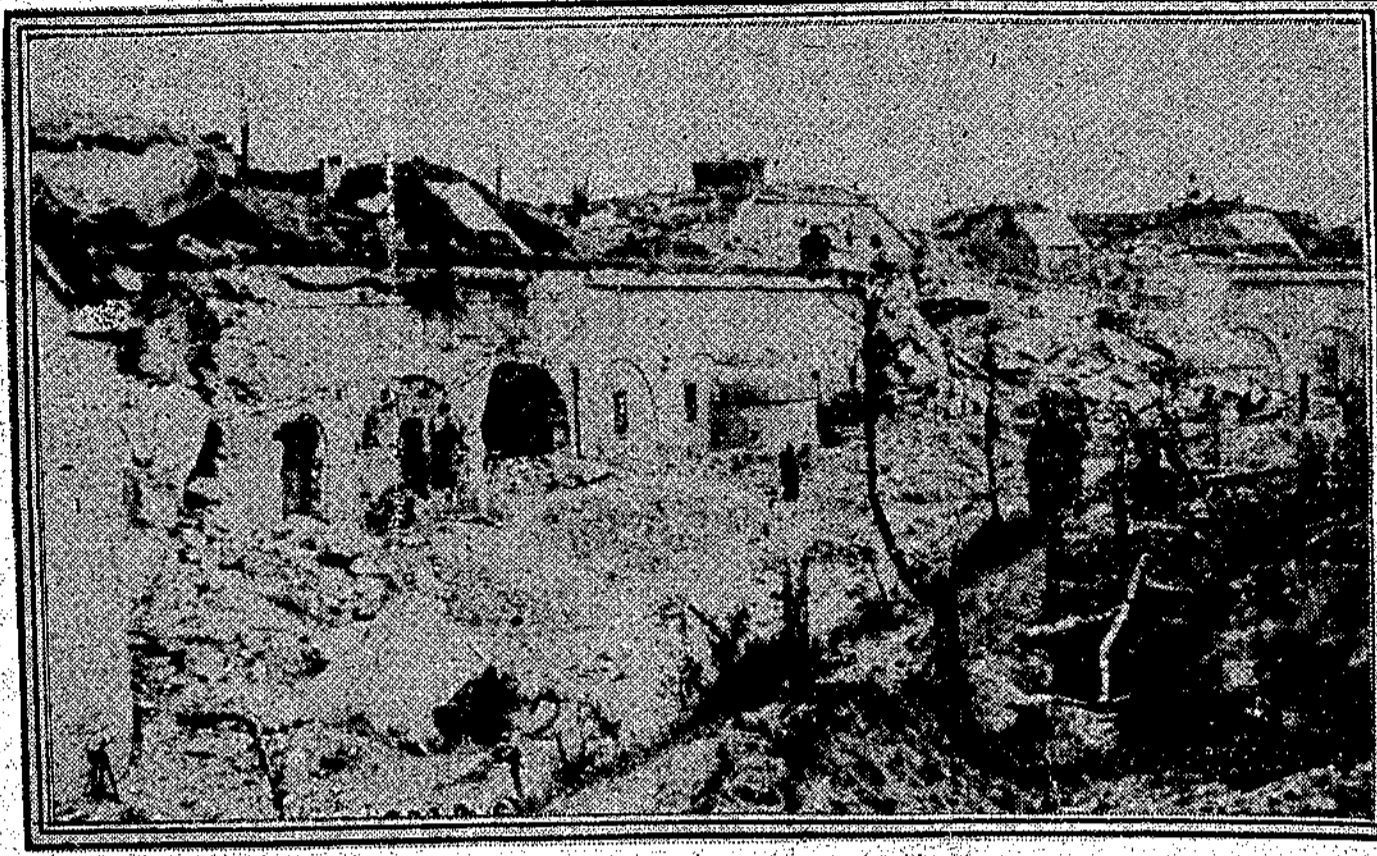

MR FARRIS TALKS.

That the contractors had been permitted by the government to remove their plant and equipment, in violation of the terms of the statute, was not denied by acting Premier J. W. deB. Farris, K.C., to whom the question was referred.

“I am sorry that the etiquette of the situation makes it impossible for me to make a statement upon the matter,” said Hon. Mr Farris.

“The matter is one which arose (Continued on page 6.)”

Russian Forts Destroyed by Germans.

Above is a photograph of Russian fortifications after a bombardment by enemy siege guns. The strongest fortifications have proved unequal to the modern engines of war.

Valley Apples Going To U.K.

By permission of the British Ministry of Food, Canadian apples may now be exported to the United Kingdom. Permits are being issued this week in order of the receipt of applications. Ocean transportation rates are \$2.00 per box and \$5.00 per barrel. Recent cables state that the probable price in England as fixed by the Food Controller would be 6 1/2 pence per pound as a primary distributors' maximum, and the retail maximum price 9 pence.

The Okanagan United Growers have given options on from fifteen to twenty cars of apples for the Old Country market, so that Okanagan apples are likely to find a market in the United Kingdom this winter. The freight to the Atlantic seaboard will be about sixty cents per box, and ocean freight two dollars per box.

Possibilities In B.C. Sheep Raising

Hon. E. D. Barrow Looks for Growth in Industry from New Grazing Rules.

The Provincial Government has inaugurated a new policy with respect to grazing lands. Hon. E. D. Barrow, Minister of Agriculture, believes it will be a great impetus to sheep raising and says: “I look, as a result of the new system of handling grazing leases in the province, to see a very great increase in the sheep-raising industry here. Under the new system, instead of great areas being set apart for individual graziers to administer as they thought best, a commission of grazing experts will administer the lands, charting out areas to which the graziers must take their flocks and herds at certain seasons.”

“There are great areas in the Interior,” said the minister, “which have not been used for grazing because the lands have been too high and rocky for cattle to exist, so that they have to go to the lower levels. These high rocky lands, however, with large patches of pasture and flowering herbs, make splendid pasture for sheep, who are protected by their long wool from the attacks of flies. We are hoping to see sheep-raising take a great leap forward in the province.”

Mayor McQuarrie of Nelson died on Thursday of last week, a victim of influenza.

The gigantic scale of the operations in Canada of the Imperial Munitions Board is indicated in an official statement that the total value in contracts for shells, raw material, and supplies of various kinds up to May 31 last was \$1,200,000,000.

Canada To Give Thanks On Sunday

People of Summerland Will Unite in Big Service That Morning.

Sunday, December 1st, will be a Day of Thanksgiving throughout all Canada. At the request of the western provinces the Canadian Government postponed the date of the official Day of Thanksgiving for the cessation of hostilities until Sunday next. Everywhere special preparations are being made befitting the occasion.

In Summerland the churches are all uniting in a service to be held at 11 o'clock in St. Andrew's Church, and for the occasion a special order of service has been prepared. Copies of the program have been printed and will serve as a souvenir of the event. The sermon will be given by Rev. Charles Baker. Music will be a prominent feature of the service, and includes a solo, “How Beautiful Upon the Mountains,” which will be sung by Mr. Frederick Graham.

Under the able direction of Miss Harrison a choir of forty or fifty voices which has been practicing for the occasion will lead in the singing of the hymns of thanksgiving and praise, and will render several anthems. The committee in charge, after looking further into the matter, decided it was inadvisable to hold the service in the College Gymnasium, the heating facilities there are not very good, and particularly would it be uncomfortable for the choir.

The collection, after defraying current expenses, will be devoted to the Summerland Hospital.

Canadians Make Wonderful Record

J. H. Woods, chairman of the delegation of Canadian editors who visited Great Britain this year as the guests of the Ministry of Information, has received the following cablegram from Lieut.-Gen. Sir Arthur Currie, commanding the Canadian Corps in France:

“The Canadian Corps warmly appreciate the congratulations of the Canadian newspaper delegation. Tell the people of Canada that the corps is more than proud of its efforts to satisfy those at home.”

In the last two years of strenuous fighting it has never lost a gun, has never failed to take an objective, and has never been driven from an inch of ground once consolidated, while its casualties amongst the rank and file bear the smallest percentage, in proportion to the strength, of all the British forces.”

The Canadian newspaper censorship will not be lifted until peace is declared, or at least until the thirty days' armistice is over.

No New Cases For Ten Days

With one exception there have been no new cases of influenza in the district for the last eight or ten days, and there is every hope that the epidemic will soon be a matter of history. The exception referred to is Mrs. Harting, who volunteered to cook at the Emergency Hospital, and who has contracted the disease in a mild form. There are five patients at the hospital, and all are doing nicely except Charlie Turner, who has been very ill, and is not conquering the disease as quickly as had been hoped.

Miss Kathleen Babbit, who contracted the disease while nursing at the hospital, was taken to her home and is getting along nicely. Her place at the hospital was taken by Miss Beatrice Gale.

It is probable that the hospital will be closed the first of the coming week.

Every member of the J. B. Thompson household contracted the disease even to the little baby, but all are up and about again except Mrs. Thompson and she will be over it shortly. Miss Wolfenden, teacher in Division II, in the Central School, went to the aid of the stricken family, but was able to leave a day or two ago, and a neighbor has been relieving Mrs. Thompson of the care of the baby.

Church services will be resumed on Sunday and the schools will reopen on Monday morning.

The Rialto Theatre announces in this issue that it will reopen on Saturday, December 7th, and an effort is being made to provide a specially good program.

Mailing Apples To Soldiers.

Well over a thousand packages of apples have been sent from Summerland within the past few weeks to soldiers overseas. The apples are put up in special wooden boxes weighing, when filled, seven pounds, and sent by mail. Two of the local shipping houses have made a specialty of this business, and have been receiving orders from as far east as Brooklyn, New York, and eastern Canadian cities, and also from other American centres and the Coast cities. In many cases standing orders have been placed for a box a week to be sent to a given address. The enterprise shown by the shippers who have engaged in this business is commendable. The advertising received, in thus having Summerland apples so widely distributed and brought to the notice of the widely scattered friends of soldiers overseas, is of much value to the district.

The Government of Peru is acquiring wheat from Australia and other countries. Sugar is to be exported. The government has forbidden the export of cattle.

More Than Half Million Dollar Crop

This Figure will be Greatly Exceeded When All Returns Are In.—Still Far Short of Early Possibilities.

When the returns from the fruit exported from Summerland this season are complete it will be shown that the fruit shipped from this point will considerably exceed in value a half million dollars. As a matter of fact it is not improbable that our exports will exceed \$600,000. It is but a few years ago that the total value was less than \$100,000. Since then there has been a steady increase in the tonnage, and the prices received show a marked improvement.

Last year Summerland received, for her fruit crop, about \$400,000, according to reliable figures. This year not only has the crop exceeded that of last year but the prices obtained have also been better, and the Review was told this week, by an unquestioned authority on such matters, that our estimate of a half million dollars for 1918 would be greatly exceeded. This information will be of great satisfaction to all interested in the welfare of Summerland, but these figures fall far short of the possibilities of the immediate future. With the coming into bearing of many young trees, and a steady increase in the crops from more of the matured ones, and the prospects of greatly increased production of tomatoes, and other

cannery stuff, one million dollars is not too high a goal for the district to set for itself.

The prices that have been obtained for its members by the Union show very satisfactory returns to growers.

White and yellow peaches have averaged 75 cents net, with the exception of Elbertas, for which the growers were paid 81 cents, just over 5 cents a pound for the fruit. No. 2s brought 46 cents, Elbertas 2s netting 60 cents. The average price paid the grower for No. 1 apricots was \$1.09 per package with 18 pounds of fruit to the crate. This means 6 cents a pound. Over 4 cents a pound or 77 cents was returned to the grower for No. 2 apricots. The price obtained for No. 1 plums ranged from 93 cents to 64 according to variety, most of the returns being nearer the higher figure and averaging close to 5 cents a pound. For crab apples the growers have been paid \$1.26 for Hyslops, and 90 cents for Transcendents.

We are informed that returns will be sent out next week for early apples, and that the prices obtained are most gratifying, and that the fruit growers will receive more for their No. 3 apples this year, in most varieties at least, than was paid last year for No. 1s.

Business Outlook Decidedly Brighter

Farmers Have More Money Than Ever.

With the advent of peace, passing of the epidemic, which we are glad to say touched us comparatively lightly, and the general prosperity of the community, business prospects for the Christmas season and the coming winter should be of the best. With more than a half million dollars distributed among the fruit growers of the district for fruit shipped out of the Valley there will be much more money than ever before available for circulation here.

It now rests with the merchants as to how much of the farmers' money shall pass through their hands. The Review is fully prepared to co-operate with the business people of the community and hopes to be a factor in making the buyers acquainted with the goods to be had in the local stores, the numerous bargains available, and in other ways to help combat the evils of the mail order distributors of goods frequently inferior in quality.

A representative of the paper will call on the merchants at the earliest opportunity in connection with their Christmas advertising, and will be ready to give any assistance. A large stock of cuts to add to the pulling power of the advertising will be made available. Never has the value of judicious advertising been more fully realized than now, and the merchant who does not advertise is directly a loser, though sometimes it may be hard to convince him of that fact, because he is not able to count the dollars that he does not get.

We would request that our readers watch closely our advertising columns to learn who of our retailers are the most enterprising and show that local patriotism which is necessary to the proper conservation of our resources and the building up of a progressive community.

There has been much press comment on the fabulous price of \$100,000 paid recently for a Holstein bull calf sent for sale to Milwaukee from Brockville, Ontario. The calf was purchased by the Carnation stock farm near Seattle, Washington. It is a notable fact that the highest figure probably ever paid for a bull has been paid for a Canadian animal, and an equally noteworthy fact that it was bought by a Pacific Coast firm.

OBITUARY.

EDITH CARBERRY.

Friends here have been advised by telegram from Mr R. Clouston, then in Montreal, that Mrs W. Carberry, the eldest daughter of Mr and Mrs Clouston, had died at Boston on Nov. 20th.

Mr and Mrs Clouston left here a few days ago to visit Mrs Carberry and their other daughter, Mrs L. R. Dunrobin. They had made brief stops en route, and had only reached Montreal when they received news of their daughter's death.

The deceased, who was very popular here and in other Okanagan centres, where she had a large circle of friends, had been in hospital for some months. Besides her husband she leaves one young son.

She was the eldest of three children, of whom only one, Mrs Dunrobin, is left, the brother, Arthur, having predeceased his sister by one year and ten days, having fallen, like so many other of Canada's brave young men, in defending the cause of right against might.

DAVID THOMPSON.

The funeral of “David” Thompson, the eight year old son of Pte. and Mrs D. C. Thompson, was held on Sunday at 1 o'clock from St. Stephen's Church, and the body committed to its last resting place in the Anglican Church cemetery. A number of his young playmates acted as pall-bearers.

After a fight of several weeks against results of an attack of influenza the little lad passed to his rest on Friday night. Much sympathy is expressed for the bereaved mother and young sister, whose husband and father is now overseas with the Canadian army.

Censorship Lifted.

The censorship restrictions imposed upon publication in the Canadian press and elsewhere of information relating to the sailing dates and movements of all merchant vessels have been cancelled, with the approval of the Admiralty. As previous to the declaration of war it is now permitted that the movement of merchant shipping may be advertised and reported. The War Office has also approved the removal of the censorship restrictions with relation to publishing statements containing references to the various army units, and to the location of these units, except as regards reports relating to troops in Russia and Siberia.

FRIDAY, NOVEMBER 29, 1918.

DAYLIGHT SAVING.

ONE AND A QUARTER MILLION TONS of coal have been saved in the United States during the seven months' operation of the "daylight saving" law, according to figures compiled by the United States Fuel Administration.

Among the many places which kept close watch on the operation of "daylight saving" very definite facts were obtained from one community of about 10,000,000 population. It was shown that in this one district the saving of coal was 17½ tons per 1,000 population over the period of seven months. These figures were checked against records from other places in widely separated districts having the same relative conditions, and from the mass of facts thus gathered the estimate of 1,250,000 tons of coal saved is determined.

Assuming these figures to be correct, and that they represent the saving in every locality where "daylight saving" legislation was made operative, and assuming further that the saving of coal is only one of many economies made possible by turning the clock ahead an hour, and that if this saving is possible during the summer months it could be more than doubled during the winter months when more coal is used, we wonder why legislation is not passed in all countries turning all clocks ahead one hour and keeping them there instead of switching back each year as we now do.

If such phenomenal saving is possible seven months in the year, why not twelve months in the year, instead of clinging to the established Greenwich time?

FRENCH CROPS ARE SHORT.

ALL OPTIMISTIC REPORTS TO THE CONTRARY, the French food situation this year is even more grave than it was last year. The French Food Controller, M. Victor Boret, has issued a report outlining the food situation in which he states unequivocally:—

"It should be stated clearly that the total nutrition value of the 1918 crop of cereals as well as of beans and potatoes in France, is below the total nutrition value of these products for last year. The wheat crop, fortunately, is larger and of better quality, but the maize, barley, oats, beans, and potato crops are considerably smaller.

"The potato situation is particularly grave, for whereas the average for the last ten years is 12,000,000 long tons, this year the potato crop will not exceed 7,500,000 long tons.

WE WOULD REMIND those few of our neighbors, who seemingly are inclined to make much of the fact that Summerland did not exceed her objective in the recent Victory Loan canvass by her usual splendid margin, that she is just now spending fifty thousand dollars on her irrigation system in order to still further respond to the nation's call for greater production, and that her own people are providing the money. It has so happened, and unavoidably, that this call has been made almost concurrent with the Victory Loan.

THERE HAS BEEN, WITH A FEW, a disposition to criticize the Municipality for putting on the local municipal improvement debentures about the same time that the Victory Loan was being floated. Information from Ottawa, respecting the government's attitude, should set at rest municipal conscience respecting this matter. In substance the Ottawa report says that the government is not likely to take all the money subscribed in the last Victory Loan campaign as the Minister of Finance feels that there should be a portion of available investment, funds left for provinces and municipalities who may desire to float securities for reconstruction work. No one will deny that the work being undertaken by the Municipality is as essential as any reconstruction work.

Misjudged

That an attempt has been made to sidestep Pentleton by newspapers of adjacent districts is the complaint made by the Pentleton Herald. Its charge against this journal is that while it defined the Pentleton territory as including the Indian Reserves, Kaledon, Okanagan Falls, Fairview, and Osayooos, etc., it failed to state that \$280,000 of the total raised was subscribed within the Municipality of Pentleton. We must confess that we had not analysed the figures. One item in the report of that district, which stood out, we did mention. That was the \$21,000 subscribed by Balfour George, chief of the Inkaneop Reserve. If a sum exceeding \$200,000 was raised within the Municipality of Pentleton great credit is due the local committee and the community is to be congratulated.

Prisoners' Parcels

Ottawa, Nov. 25.—Telegraphic advice has been received from the Canadian High Commissioner, London, that on account of the repatriation of all prisoners of war, individual parcels for prisoners of war have been stopped. The needs of these prisoners are being attended by the Canadian Red Cross Society or similar aid societies.

With the closing of breweries in the United States after December 1, any temporary dislocation in the barley market should cause producers little concern. Barley formerly used for brewing will, it is hoped there, result in increased amounts of milk, meats, flour, poultry products and other foods.

Mr. D. R. Clarke, who has been superintendent of the British Columbia branches of the Bank of Montreal, has been promoted to be assistant general manager of the bank at the head office in Montreal.

For the termination of hostilities by the Signing of The Armistice

it is fitting that we should, as a people, publicly give thanks unto GOD.

Our Government  Has Proclaimed

Sunday, Dec. 1st,

a Day of

National Thanksgiving

And the people of Summerland are asked to assemble themselves in

St. Andrew's Church at 11 a.m. on that Day.

A Special Order of Service has been prepared, with appropriate Music.

Sermon by Rev. Chas. Baker.

Is the British Empire to have but one representative at the coming peace conference, or is each of the nations within the Empire to be represented?

Canada's premier, now in England, will, doubtless, do his best to have Canada represented, as will Premier Hughes for Australia.

To Keep Afloat.

Penticton Herald Forced to Follow Trend of Times.

The Penticton Herald has increased its advertising rates, and what is more the business men are accepting the new rates, as they realize that they have increased everything that they sell, to carry on, and appreciate the fact that the newspaper must do the same.

Following are the rates put in effect the first of this month by the Penticton Herald:

Transient Display—First insertion, 60 cents per inch; second insertion, 50 cents; third, and all subsequent insertions, 40 cents.

Contract rates for business cards, etc., without change privilege, 25 cents per inch.

Contract display, 30 cents per inch, with reduction if over a quarter of a page per week is contracted for. Extra charge for guaranteed position.

Readers 10 cents per line first insertion; five cents subsequent insertions.

Classified advertisements and "Coming Events", three cents per word first insertion; two cents subsequent insertions.

Business locals in "Penticton Paragraphs" column, 25 cents per line.

SOME RULES FOR SUCCESS.

Choose your life work early. Make your own rules of conduct early.

Do more than the routine work of your job.

Choose your friends carefully. Decide quickly in all matters and act promptly.

If right, ignore criticism; if wrong, change without delay.

Practice economy. Be neither extravagant nor niggardly.

Avoid depending upon your friends. Give as much as you receive from them.

Practice diplomacy—it smooths the rough spots and gives you the advantage on the next move.

Cultivate cheerfulness to enable you to carry the necessary and throw off the unnecessary burdens.

Indulge in sufficient play and recreation to keep the body strong and the mind vigorous.

Be square with yourself as with those with whom you are associated.

Business locals in special column, 15 cents per line.

All readers, want advts., locals, etc., set in black face type are fifty per cent. extra.

Legal advertisements 12 1/2 cents per line first insertion; eight cents all subsequent insertions.

Should Do It Now

Don't Borrow or Share Somebody's Newspaper—Have One of Your Own.

Longfellow could take a worthless piece of paper and write a poem on it and make it worth \$65,000—that's genius. There are some men who could write a few words on a piece of paper and make it worth \$8,000,000—that's capital.

The Canadian Government can take an ounce and a quarter of gold and make it worth \$25—that's money. A mechanic can take material worth \$5 and make it into watch springs worth \$1,000—that's skill.

There's a man in London who can take a piece of canvas, paint a picture on it, and make it worth \$1,000—that's art. A Greek can take an article worth 55 cents and sell it for \$1—that's business.

A woman could purchase a hat for \$2.50 but prefers one worth \$27—that's foolishness. A ditch digger handles several tons of earth for \$3.50 a day—that's labor.

The editor can write a cheque for \$9,000,000, but it wouldn't be worth a dime—that's rough. Take \$2 and buy a year's subscription to the Review—that's getting ten dollars worth at least.

AN OPTIMIST IN KHAKI.

Lieutenant-General Sir W. R. Marshall, recently appointed to the Mesopotamia command, tells a good story as illustrating the genial optimism of the men he is privileged to command.

A very much battered and muddled battalion had, it appears, halted for rest and refreshment among a mass of shattered ruins that had once been an Arab village.

A junior officer accosted a cheerful-looking private belonging to his platoon.

"Got a good billet?" he asked. "Yes, sir," answered the private, "first rate! An' if there was only a roof an' three more walls it 'ud be better still."

NOT ON THAT LINE.

After two years in the mud and trenches of Flanders, Private Thomas Atkins got his leave at last, and made what he conceived to be the best use of his holiday by getting married.

On the journey back, at Southampton, he showed to the inspector his marriage certificate in mistake for his return railway pass.

The official, who claimed to be a Scot, studied it carefully, and then said:

"Eh, mon, you've got a ticket for a lang, wearisome journey, but no on the South-Western Railway."

Federal Food Administrators in all American States have been advised that sugar allotments for household use will be held rigidly to two pounds per person per month, and announcing further restrictions for manufacturers.

ADVERTISING

Is An Evidence of Community Loyalty as well as Good Business

ADVERTISING will do more than build your business. It will build your community.

It will encourage the people in your Community to buy at home more.

It will counteract the effect of outside advertising and keep so much more money in the district.

And your community, after all, is only the aggregation of yourself and the rest of us.

Advertising to-day is, therefore, the business and the patriotic duty of the business men in this community.

And the logical medium is your home paper, as it reaches every buyer in the whole district.

**The Review
Summerland**

Phone 39, and our Representative will call.

Red Cross Buying

(Penticton Herald.)
Some weeks ago The Herald printed the financial statement of the Penticton Red Cross. That statement disclosed the expenditure of a considerable amount of money for goods used by the organization in this laudable work, but the figures did not make it clear where this money was spent.

As the local publicity organ for the town, and therefore the mouth-piece of the public in this community, The Herald is anxious if possible that all such expenditures be kept within the district.

In a recent letter to The Herald the Red Cross mentioned that all the money for Christmas stockings was spent locally, but from the statement published this only amounted to \$58.12, and there is no mention where the \$1,630.28, expended for other goods, was spent. Every other society in Penticton patronizes the town from whom it gets its subscriptions, but it is understood that our Red Cross spends a very small percentage of its collections here, most of the money going to mail order houses and wholesale firms.

This would seem a short-sighted policy, and one hardly calculated to find favor even with many of the most enthusiastic workers of the Red Cross.

In most small towns of the province the Red Cross buys its supply locally, and in many of these places there are no stores of the character possessed by Penticton holding heavy stocks and employing a large number of people, all of whom, with their families, are depending on their employers getting sufficient business to keep them engaged and to keep their stores open, and all of whom with their dependents, in their way, are amongst those who work for and subscribe to the local patriotic societies. In a town like this most of us in some way depend one upon another. Expressmen, landlords, the municipality, and others depend upon the local business men and their employees for taxes, licenses, and rent; as the business men depend upon the public for their support. In a hundred ways his money is distributed, and it helps us all. The local merchant must have a margin on his goods to pay freight and a percentage of the wages, etc, and if the Red Cross buys wholesale the same as the merchant, it undoubtedly saves this margin, which the Red Cross in other towns, except perhaps in larger centres where the wholesale men are local firms, allow their business men to make because it comes back to them a hundred fold. Often where the merchants bought in advance and in large quantities they can save money for the Red Cross. The home industry principle shows that Red Cross workers are not only patriotic to their subscribers and the Empire, but to their community also.

The worst of all is supporting eastern mail order houses with money, some of which is collected from the very people who work, or who are depending on our local stores.

Printer's ink has demonstrated positively its ability to sell Victory Bonds. Given a fair chance it can greatly increase your Christmas trade.

Were Unprepared.

Vancouver.—Because British Columbia rallied to the Victory Loan in a way that was never deemed probable, scores of banks have found themselves depleted of the official installment receipts. A hurry message has been sent to Ottawa to supply these to the Receiver General's office at Victoria, and as soon as possible these will be distributed to the banks. While some inconvenience is found in not having the official receipts, it is pointed out by Provincial Chairman Malkin that the over-subscription and success of the loan was due to the public's desire to stand behind the country in Canada's greatest financial effort of the war.

Vancouver has had 4,104 influenza cases and 464 deaths, according to figures published last week. Spokane had 5,133 cases reported and 172 deaths. At Princeton 22 deaths were reported up to last Friday. The epidemic there is now on the decline.

There is a great deal more learning in the world than education. Our schools and colleges are for the most part well-called institutes of learning. That they are; but of education, I am sorry to say—not. To yoke up learning with life must be the great educational work of the future.—Bruce Calvert, in The Open Road.

Ten Little Taters.

Here are a few witty little verses describing the fate of Ten Little Taters, modelled on the Ten Little Nigger Boys with which we are all so familiar. But, after all, one wonders whether the Ten Little Taters or the ultimate consumers are the more to be pitied; the Ten Little Taters are indeed eaten up, but it is the ultimate consumer who is "dished" in the end. Poor ultimate consumer!

Ten little taters
Growing on a vine,
Local buyer got one,
Then there were nine.

Nine little taters
Shipped away by freight,
Railroads got one,
Then there were eight.

Eight little taters
Another ride were given,
Transfer got one,
Then there were seven.

Seven little taters
Sold Commissioner Dix,
Commissioner man got one,
Then there were six.

Six little taters
In a store arrive,
Retailer took one,
Then there were five.

Five little taters
Eaten up and then—
The "ultimate consumer"
Paid for the ten.

"They Also Serve."

We've never seen the Flanders front,
Or heard the shells go screaming by;
We've never crawled in "No Man's Land."

Or waited in the night to die,
We've never rushed the parapet,
Or sung the battle hymn of hate,
We've only learned (and God, it's hard)—
We've learned to stay at home and wait.

The band has never played for us,
Those songs that set the heart aglow,
When they marched down the dear old street,
We stood alone, and watched them go.

But, oh, the years have been so long;
And, oh, the nights that we've lived through,
We visioned all their agony—
You know the way that women do.

No cross of glory has been pinned
All shining bright upon our breast,
We found our glory when we held
Them close against our face to rest,
And so our loved ones marched away
And left to us that harder fate.
In earth's vast army, fighting still,
They also serve, who watch and wait.

EDNA JAUQUES, in Calgary Herald

Music Lovers Amazed by Edison's Daring Test

All told, 2,000,000 music lovers in Canada and the United States, on more than 1,500 different occasions, have gone to one of their local theatres filled with curiosity regarding a startlingly novel musical recital to which they had been invited.

In each case they have come away amazed at the almost unbelievable demonstration which had taken place before their very eyes, and ears—the most daring test of a phonograph or talking machine ever made. They saw a noted Edison artist stand beside

The NEW EDISON

"The Phonograph with a Soul"

They heard the instrument sing in the artist's voice—in other words, re-create her voice. Presently the artist herself began to sing note for note with the instrument. Musically trained ears strove in vain to distinguish the faintest shade of difference between the actual voice and the Re-Creation. Then, suddenly and without warning, the artist ceased singing, leaving the instrument to continue the air alone. Only by watching the artist's lips did the audience know that she had ceased singing and that they heard the instrument alone. This is the famous Edison "Tone Test."

Only Edison makes this test. Only Edison can make this test, because only the New Edison actually re-creates the human voice and the music of human-played instruments with every tone quality and every shade of expression. Ordinary phonographs, and talking machines, merely reproduce.

If you have not been fortunate enough to witness an Edison Tone Test, you may at least hear Edison's wonderful new phonograph at our store. Make the time to suit your convenience.

Newspaper Space

Not For Fakirs

The thing that will make your place a landmark and your name a household word is consistent, truthful, rightly supported newspaper advertising.

"A city that is set upon a hill," says the Good Book, "cannot be hid."

The right kind of advertising will, so to speak, set any man, any town, any worthy business upon a hill.

Play fair, look after things, and dip deeply into printer's ink—and you can no more escape becoming prominent and successful than you can reverse gravity and cause rivers to run up grade.

Carry the stuff—deliver the service—keep up a vigorous fire in the papers—know what you print, and live up to it.

The most precious and desirable thing in a business career is public confidence. Getting ever-widening circles of people to believing in you is progress of the first order, but educating strangers to the idea that you're a man not entirely to be trusted, is slipping back—no matter what, for the time being,

the balance sheet may be saying to the contrary.

Forget that old saying of the circus man, that "people like to be humbugged"—they do, on any circus day—and have a bully time over it—but regular business is different.

The fellow who deliberately sets out to deceive the public is a fool and a piker if he thinks he can get away with it through pages in newspapers. He may manage to put it over for a while, but the backfire will get him in time, and it won't be long before he'll find himself exactly where he deserves to be—nowhere.

Newspaper space isn't for fakirs—it's for honest men, and every honest business can profit greatly through the use of it. It throws a spotlight upon the scene—and men and things that aren't quite standard will not stand the glare.

The crook should eschew printer's ink—he should emulate the Hun propagandists—slip around quietly and pass the bunk heart to heart.

For Honest Men

Classified "For Sale" or "Want" Ads. Order Form

Use this blank on which to write out your condensed ad., one word in each space. Enclose money order or cheque, and mail direct to THE REVIEW, Summerland, B.C.
RATE: Two cents a word first insertion, minimum price 25 cents; subsequent insertions, one cent a word, minimum 10 cents.

Passing Events: Social, Personal, &c.

Recent casualty lists report: Pte. H. J. Pitman, formerly of Naramata, seriously ill.

Mr and Mrs Walter Wright and child, Roy Elsey, and Donald McIntyre were K.V.R. passengers to Vancouver on Monday night.

Mr Andrew Robertson of Philadelphia arrived here last Thursday evening on a visit to his sisters, Mrs W. Kerr and Mrs W. H. Hayes.

There still continues to be considerable activity in Summerland real estate. One of the latest transfers reported is the Watson lot, so called, on Jones' Flat, to M. Stewart.

Baled hay is being brought all the way from Ontario to the Similkameen Valley. A Princeton firm has bought two car loads of timothy and red clover, costing them over \$40.00 a ton laid down.

A car of Jonathan apples was shipped the first of the week to Minneapolis by the Summerland Fruit Union. This is the second car of apples of this variety to go from the Union to that city.

Miss Bena Logie, who came home on a short leave for a rest, but spent practically all her time while here in nursing, left by K.V.R. last Monday to resume her duties in the Good Samaritan Hospital, Portland, Oregon.

Mr W. A. Chisholm of Cranbrook, who has been in Summerland for some weeks staying with his sister, Mrs Findley, was joined last Friday by his wife and two boys. The family will probably remain here for the winter at least.

Mr and Mrs G. H. Ingles and their two young children, arrived here last Friday from Saltcoats, Sask. They made the journey west as far as Cranbrook by motor, where Mr Ingles shipped his car to Grand Forks, the journey to Summerland being made by train. We understand that Mr and Mrs Ingles are likely to make their home here.

Jack Craig, a former employee of the Fruit Union, and a brother of George Craig, is now in Russia. In a letter just received here he states he is within the Arctic Circle, and looking forward to two months of darkness. The men there are now busy building log houses as a protection against the Arctic winter.

Teachers Wanted

TEACHER for Summerland Ward School, salary \$340 per annum; also Teacher for Junior Third Grade at Central School, salary \$340.

Applications, with references, to be addressed to J. H. BOWERING, West Summerland, Secy. School Board.

Here Is Your Chance:

Commencing Nov. 22nd until Dec. 7th,

we offer you the following remarkable

New Mounts. Best Portrait Paper. Come early and get your choice of these Mounts.

W. W. HANDFORD,
PHOTOGRAPHER,
PENTICTON.

Say, Neighbor:

I have some Special Snaps in Choice Real Estate.
A SEMI-MODERN COTTAGE with One Acre, close to West Summerland.
FIVE-ACRE FRUIT LOT in bearing, all planted in good varieties of standard apples.
Also FRUIT LOT on LAKE-SHORE.
W. C. Kelley.

Col. Cartwright, who has been chief instructor in musketry in British Columbia during the war, is again at his home here.

Do not forget your flag on Sunday, Canada's day of National Thanksgiving. Every bit of bunting should be flown on that day.

Mr W. K. T. Smellie, until recently a resident of Winnipeg, came in from Vancouver a few days ago to visit his son, John Smellie, of Kalavista Resthome.

Okanagan apples are enjoying an ever extending market. Dealers in St John, away down on the Atlantic seaboard, are now using our apples for their best trade.

Ten of Summerland's Japanese residents boarded the K.V.R. last Friday night for Vancouver. We understand that three of them are sailing from there to visit their native land.

In order to comply with a recent government order The Review mailing list is being checked up, as unpaid subscriptions must be eliminated. If in arrears renew at once. Your label shows date to which you have paid.

S. J. Beggs, who recently purchased the Shaughnessy property, is now taking possession, and G. Marshall, who has been in charge there, is moving to the Angus lot in Prairie Valley.

Miss Belle Vanderburg and Miss K. Elliott left by Monday evening's train for the Coast, Miss Vanderburg to resume her studies at the Normal School, Vancouver, and Miss Elliott at the Normal, Victoria.

Unless otherwise requested acknowledgment of receipt of renewal subscriptions to The Review will be made only by change of subscription date on label. Increasing costs have now made this a universal practice.

Miss Conway of the Bank of Montreal staff, left last Friday for a visit with friends in Vernon. Miss Conway has been ill for several weeks, and had not sufficiently recovered her strength to resume her duties at the bank.

Mr J. Rowley will re-open his West Summerland Store in a few days with a new Stock of Jewelry, Watches, Clocks, etc., suitable for the Christmas and New Year trade. Your continued patronage will be doubly welcome and appreciated. 18

Now that the strain and worry of the war is ended and the Victory Loan a thing of the past, all attention is being centred on the approaching Christmas festivities. Are our local merchants getting their due share of this year's Christmas trade? If not, why?

In connection with the rumor among the school children that the Christmas holidays will be shortened this year on account of the time lost through the influenza epidemic it is pointed out that this is a matter for the Provincial Department of Education to decide.

Because of the great rush of work early in October The Review was not furnished with the usual monthly weather report from Balcom Ranch. The Experimental Farm's report for that month was published. We do not know whether any of our readers are preserving the monthly reports from Balcom Ranch, and will not now publish the September figures unless we have sufficient requests to do so.

While tying a young mare to a tree on Monday morning, Mr H. C. Moller received a nasty wound and narrowly escaped worse injuries. He had just tied the rope when the horse reared and struck at him with its fore feet. One of the unshod hoofs struck him fairly in the mouth with a downward blow, cutting the lip on the inside, so that two stitches were required. Mr Moller was thrown forcibly to the ground and considerably bruised. He had sufficient presence of mind to give himself a rolling motion as he fell, and by this thoughtfulness only did he escape a kick from both hind feet, as immediately he was thrown down, the mare turned and kicked at him savagely. Mr Moller had thrown himself beyond the range permitted by the horse's tether.

Mrs W. J. Taylor and family are leaving early next week to spend the winter with relatives in Ontario.

Is your subscription paid? A recent government order requires that subscriptions to newspapers be paid in advance.

Mrs Estabrook of Peach Orchard, went up to Peachland on Sunday where she plans on spending the winter with friends.

Capt. G. L. Estabrook, retired, is relieving Capt. Weeks, of the C.P.R. tug "Naramata," Capt. Weeks being ill with influenza.

Mr John Stark, who suffered a paralytic stroke some time ago, lies seriously ill at the home of his nephew, A. H. Steven. We regret we are unable to report any improvement in his condition.

Several motor parties from Summerland went down to Oroville on Thursday, Uncle Sam's Thanksgiving Day. After enjoying the Thanksgiving dinner the visitors from here attended a dance.

The first snow of the season fell on Tuesday, when a thin mantle covered the earth down to lake level, to the depth of about an inch. Almost immediately it began to disappear before the southerly breezes.

A victim of pneumonia, following influenza, Andrew Pierre, son of Antoine Pierre, died early on Monday morning at the Emergency Hospital. The funeral was held on Monday afternoon, burial being in the reserve cemetery close to Penticton.

C. S. Stevens, for several years a resident of Summerland and manager of the Lake Shore Telephone Co., until it sold out to the Okanagan Co., has recently returned to his home in Edmonton from France, where he has been serving as a chaplain.

Attention is called to the announcement, elsewhere in this issue, of the postponement of the Provincial Seed Fair, and the Seed Growers' Association and the Dairymen's Convention. The dates for these have now been fixed for the middle of January.

Advertising, like liniment, does not do much good when applied with a feather. It needs to be rubbed in for results. Apply it through the right mediums to the right people at the right time, and keep on rubbing it in until returns begin to come in. Then still keep on rubbing.

Recent press reports chronicle the death of President C. R. Van Hise of the University of Wisconsin, one of the largest institutes of learning on this continent. President Van Hise, who is a brother of W. E. Van Hise of Summerland, had but recently returned from England, where he had gone on a commission for the United States Government.

From the first Summerland has always been popular as a summer resort. Its delightful climate, varied and beautiful scenery, and the fascinating attractions of Okanagan Lake will always make it an ideal place to spend a summer vacation. Of late years it is becoming equally popular as a place of residence during the winter. Its open falls, extending well into the winter months, and its early springs, with a short mild winter intervening, appeal forcibly to the residents of the prairies, and almost equally as strongly to the people of the Coast, who tire of the dark rainy days. Already quite a number of families have moved in for the winter, and the demand for houses, and particularly furnished quarters, is becoming acute. Any who have such accommodations to rent should make it known. For this purpose the "For Rent" column of the local paper might well be used.

CARD OF THANKS.

Mrs D. C. Thompson desires to convey to the many kind friends and neighbors her heart-felt gratitude for their many acts of kindness, their help and sympathy during the sickness of her young son, and for the beautiful flowers placed upon his casket.

The influenza has killed 50 Indians in the Nicola Valley.

KEEP CUSTOMERS POSTED.

The greatest reserve force you can employ is to keep your customers well informed of your doings, says John Hart, in Hello, a London publication. Public memory is always short—under the present conditions it must be shorter than usual; the stress of circumstances is great, far too great, to enable them to recollect that "your goods are the best!" So keep your reserves in constant training, fit for the day.

What Mr Hart says to English merchants and manufacturers is equally applicable in Canada. The wise business man will advertise with an eye to after-the-war conditions.

A scheme is under way to plant 1,000 acres in Utah with a rubber bearing plant.

The Canada Food Board has no intention of interfering with dealers who legitimately store potatoes, apples, and vegetables for the requirements of their trade.

Representatives of nine Protestant denominations have accepted an invitation of the Presbyterian Church in the United States to meet in Philadelphia on December 3 to 6 to consider an appeal of the Presbyterian General Assembly for "organic union of the evangelical churches in America."

Peachland Doings

A Weekly Chronicle Furnished
By Our Local Representative.

Miss Kate Miller arrived home on Wednesday morning of last week after having suffered from an attack of influenza at Anyox. She left here some little time ago to take part as nurse in assisting with the epidemic, but unfortunately was taken ill at once herself. She had a fairly hard time of it, suffering from bronchitis at the same time. We are glad to say that she is now recovering nicely, although still weak.

Mr and Mrs Chamberlain (nee Gracie McLure) with their little daughter, were passengers arriving on Wednesday morning, having come from their home in the States. They expect to remain at the home of Mr G. McLure, across the lake, for an indefinite time. We are sorry to report that Mrs McLure has not been well for some time past, and does not seem to improve any, in fact, seems rather to be declining.

Mr and Mrs G. B. Phillips were passengers arriving on Wednesday night of last week, to spend a short holiday with their parents here. Mrs Phillips left here a short time ago to join Mr Phillips at Calgary, from where they were to leave for their annual trip to the Osborne Art Calendar Salesmen's Convention being held in the eastern States. Owing to the epidemic they were advised that the convention was postponed till the 9th of December, so they took advantage of the intervening time to visit Peachland again, when Mr Phillips intends trying his luck for a set of horns.

Mr Groves of Kelowna, Government Engineer, paid Peachland district a visit this week in connection with irrigation matters, coming in on Wednesday night and leaving by Friday night's boat.

Mrs Birkett Robinson was a passenger to Westbank on Thursday morning, where she had been called by telephone from her sister, Mrs Harkness, to meet and spend the day with her brother Clarence Duncan of the R. A. F. Clarence has been in Toronto training camp, and had a short leave home. He is attached to the photographic branch of the service. After spending a couple of days in Westbank he went on to Vancouver, where he expected to remain a few days before returning to Toronto.

Mr W. J. Moore spent Thursday in Kelowna going over on the morning boat and returning in the evening.

Who says N. S. Davidson can't A'Ford? Why of course he can. He went over to Kelowna one day last week and got one and drove it home himself. Now he can make a trip to town and back while he would otherwise be getting ready and hitching up the horse to come.

After spending a few days in Penticton, the guest of Mr and Mrs R. J. McDougall, Mrs H. McDougall returned home on Saturday morning last.

Miss Leone Morrison left on Saturday morning's boat to resume her duties at her school in Rutland, the influenza ban having been lifted.

Passengers to Kelowna on Saturday last were Mrs and Master George Fruean, Mr and Mrs Walter Charlton, returning on the evening boat.

The regular meeting of the Ambulance League was held in the Reading Room of the Presbyterian Church on Tuesday afternoon last. Mrs G. Needham, who had had charge of the cutting, asked to be relieved, and Mrs A. Smalls was appointed to take her place.

The Keyes and Phillips motored to Penticton last Sunday, returning the same day.

Having rented her home in Summerland, Mrs Estabrook, Sr., has come to Peachland to reside for a time. While here she is the guest of Mr and Mrs R. H. Harrington.

Mr Vic Jones was a passenger arriving on Monday night last.

C. Morrison and H. Keating were passengers to Kelowna, returning on the evening boat.

Mr N. S. Davidson and A. Ferguson motored to Kelowna on Tuesday last.

Mr Kincaid of Kelowna came down on Tuesday night's boat, and is visiting at the home of Mr A. D. Ferguson.

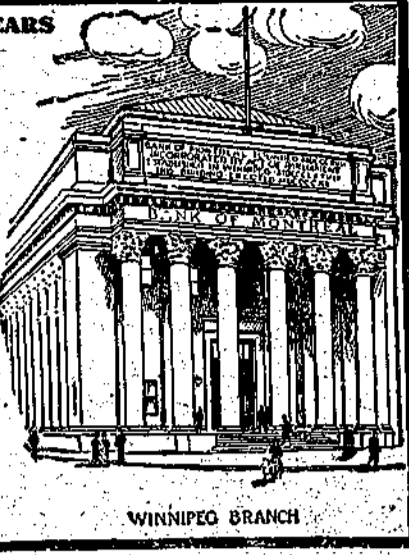

You may be sure you are right, but do not be too sure that everybody else is wrong.

SENSATIONAL STORY OF RAILWAY DEAL

(Continued from page 1)

in the Department of Railways, which is presided over by Premier Oliver. Under the circumstances it would be discourteous and improper for me to make any statement in the absence of the Premier. I can only say that the question is not one which takes us by surprise, and that when the Premier's explanation is made, either at the opening of the legislature, as I believe had been his intention, or before then, if he so decides on his return, it will be found, I am sure that the explanation is a full and ample one, which will satisfy both the legislature and the people of British Columbia.

The acting premier refused to enter upon a discussion of the matter, which relates to his chief's own particular department.

NOT AGREED TO.

It is understood from persons friendly to the government who

claim to know the facts of the case, that the discovery was not made until after the prorogation of the House that the agreement which had been signed by the parties and sanctioned by the legislature was not the same agreement which the Premier and the Foley, Welch & Stewart representatives later declared they had arrived at.

This story of the affair is said to run roughly as follows: During the negotiations for a settlement which were conducted in person by Hon. John Oliver with the Foley, Welch & Stewart representatives, the Minister of Railways agreed that if a cash payment of \$750,000 was made together with a transfer of all the plant and equipment for the operation of the road, then the contractors would be allowed to remove all of their construction equipment.

Hon. Mr Oliver, so the recital runs, drew up his own form of agreement, and in the section which was to cover the apportioning of the road and construction plant inserted

a clause to the effect that all the plant and equipment, as in a schedule annexed, was to pass to the province.

Having thrashed out and agreed upon the terms, Hon. Mr Oliver is said to have handed over his draft agreement with alterations to the law officers of the government to put into better legal shape and to stop up any loopholes. Apparently they did the job quite completely, for, so the story runs, finding that the schedule or inventory referred to had not been attached or received, the law officers re-drafted clause 14 into what a lawyer terms "an omnibus clause," covering everything in or upon or adjacent to the line, etc., with the idea of putting the province in a favorable position in the event of dispute over the items in the schedule when it arrived.

This re-drafted agreement, which is alleged to have gone further than the bargain the Minister of Railways had made with the Foley, Welch & Stewart people, was later on signed by the respective parties, printed upon the legislative records, and an act embodying the agreement passed, without the discovery being made by either the Minister or the Foley, Welch & Stewart officials that clause 14 contained anything that had not been agreed upon.

When the discovery was made,

it is said, the legislators had departed, and the government was confronted with the problem of whether to hold Foley, Welch & Stewart to the forfeiture of their plant and equipment or to take the responsibility of disregarding the statute and carry out the promise the Premier made that they should have their construction equipment if a cash payment was made to the public treasury. Taking the view that the latter was the honorable course to adopt, and that the legis-

lature could be counted on to endorse such a change, instructions were sent out to release the equipment which provincial officials had already seized and inventoried.

Such in brief is said to be the story of the removal of the equipment which has attracted notice, and which promises to provide some interesting discussion when the legislature meets.

At present Premier Oliver is away at Ottawa and is not expected home for several days.
