DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 12, No. 1. Whole No. 574.

SUMMERLAND, B.C., FRIDAY, AUGUST 1, 1919.

\$2.00, payable in advance.

Preparing for Extensions of Permanent Construction

Council Determined to Lose No Time. Will Start Work Immediately Ratepayers Approve By-Law

Need Money For Roads

Finance Chairman Suggests Adoption Here of Road Tax. Will Instal Recording Water Meters

Instructions were given by the Council on Tuesday for the preparing of all necessary working plans and the making of all possible preliminary arrangements for the carrying through of the proposed improvements to the irrigation system. Engineer Faykes will, accordingly, give his attention to this work, first completing working plans for the extension of the new work on the north main around to Garnett Valley and Jones and St. Wash Flats. In order that he may give this undivided attention he has been relieved of some of the other responsibilities.

Foreman H. Tomlin submitted a report relating to roads and sidewalks. The latter he found needing considerable attention. Some work must be done at once in the interests of the public safety and he was authorized to make these repairs which will require about 1,000 feet of lumber for Shaughnessy Avenue and adjacent streets and 900 feet for Granville Road.

Mr. Tomlin further reported that he was attending to the worst parts of the roads and said he could keep the truck and teams busy to good advantage. He requested and was granted permission to continue this work and to put a dumping body on the truck so that shale might be handled with greater speed.

Engineer Faykes submitted a request from the Electrician for permission to make certain changes in one of the high tension lines. This change was recommended by the Engineer. At present the high voltage line running west turns south at the north-west corner of Mrs. Campbell's lot and then west past the gymnasium. The poles are in poor condition and must be replaced if the line is still to run that way. The suggestion was to carry the line more directly west to St. Stephen's Church, and to cut and drop the poles on the other two sides of the triangle to carry secondary wires. After considering a bill of costs the work was approved.

Reports of fluctuations in the flow of water in the ditch west and south of Giant's Head continuing a suggestion was made by Coun. Kirk that two measuring and recording devices now on hand and similar to those used at the Farm be installed, one at the main intake and the other at the head of the south main. This was approved.

Upon recommendation of Coun. White, Mr. W. Mack was given permission to clean up and use two building lots next to the house he now occupies just east of Elliott's Shaughnessy Avenue store, subject to a sale at any time by the Council and the approval of the next Council.

A letter from Mr. C. J. Huddle-

Faster Time for Fruit Specials

Revelatoko.—It is understood in railroad circles that when the Okanagan fruit special goes on for the coming season, that it will be in much better shape than last year. More attention will be paid to terminal shipping facilities and it is understood that the run will be made in six hours to Revelatoko, and a total of twelve hours less running time to Calgary. This will prove a great boon to the shippers, as it lands their fruit on the prairie market in much better condition than heretofore. The plan is not fully developed as yet, but will be announced soon.

W. Mack and family of Brandon have come to Summerland to reside and are now living in the cottage on Shaughnessy Avenue, next Elliott's store.

New Company In Retail Business

One of the most important business deals to transpire here for some time may be closed by the time this reaches our readers. The deal whereby the Summerland Supply Company, Ltd., will dispose of the drygoods and grocery business in its upper store, has been pending for some time, and the transfer will likely be made this week.

The new proprietors of this part of the stock will be a company now in process of incorporation of which Messrs. J. C. Freeman and W. C. Kelley will be the principal stockholders.

The new concern is taking a lease of that portion of the store building now occupied by the grocery and drygoods departments. Advantage was taken of the half holiday yesterday to take stock, an extra staff having been engaged for the purpose.

Finest Cherries Beautifully Packed

Often it has been reiterated that it pays not only to carefully select fruit for shipment but to put them up in the best possible form. This week The Review was handed a letter from a dealer who had received some cherries from a Summerland grower and shipper which fully proves this contention. That part of the letter bearing on this matter reads: "These were not only the best preserving cherries which we have ever seen in B.C. but they were most beautifully packed. We regret that you will not have more this season, but assure you that we will be glad to have some of this fruit next season. Growers do not realize how much easier it is to sell fruit which has quality, especially if it is well packed. Yours came in with some others from the same district and we got just double the price for yours."

Three dollars per crate of four boxes was the price realized by the shipper of these selected and well packed preserving cherries.

During a discussion on roads, Coun. White, Chairman of the Finance Committee, pointed out the need of more money for road purposes, and suggested a road tax on all male citizens between certain ages not now paying land tax, stating that it might be advisable to collect such tax this year.

Two applications were received for domestic water connection. One, that of C. P. Nelson for his new studio, was granted. The other, from George Fosbery for the Milligan lot, will be dealt with along with others when the general extension of the system is considered.

During a discussion on roads, Coun. White, Chairman of the Finance Committee, pointed out the need of more money for road purposes, and suggested a road tax on all male citizens between certain ages not now paying land tax, stating that it might be advisable to collect such tax this year.

Regatta Thursday

Announcement is made in these columns that Pentleton's third annual regatta will be held on Thursday afternoon, August 7, at 2 o'clock. The day being a half holiday there should be assurance of a good crowd for the events to be conducted under the auspices of the Pentleton Aquatic Club.

Pentleton has not celebrated a regatta for about five years, but the two annual affairs carried out before the war were quite successful. There is no doubt that the same will be said of the third regatta.

The following is a list of the events:

- Sailing race: double sculls, men, half mile; double sculls, ladies, eighth mile; double canoe, men, eighth mile; double canoe, ladies, eighth mile; handicap gasoline launch race (stay and "go bang"); swimming races: open, eighth mile; 50 yards swimming race, open; 50 yards swimming race, ladies; open dive; springboard, 8 and 10 feet; diving boys, 16 and under; swimming under water; obstacle race, tilting; duck hunt.

Valuable and appropriate prizes for all events. A deposit of 25c. will be charged every competitor for every entry. This will be returned to all starters on the day of the regatta. The entry list is now open and is not confined to members of the Aquatic Club or local residents. Intending competitors should see the caretaker at the Aquatic Club and get their names down open. The club premises will be open to all on the day of the regatta, but an admission fee, 25c. adults and 10c. children under 14 will be made.

Has Leg Broken In Runaway

Thrown from his carriage after his horse had taken fright on the gulch road, W. Carter now lies in the hospital suffering from a compound fracture of a leg and other injuries. Mr. Carter and his nephew Will White were driving down the hill when they met two or three motor vehicles and before they had gotten beyond the last one, driven by O. Atkins, the fractious animal was bolting wildly down the grade. Seeing that disaster was inevitable Mr. Atkins turned his car and started in pursuit. He had not gone far when he found the rig piled up on the side of the road. Mr. Carter in being thrown from it had become entangled and the two bones in one leg were completely broken. His nephew escaped with some bruises and a general shaking up. Mr. Carter was taken to his home at the foot of the hill by Mr. Atkins, and after the doctor had dressed the broken limb he was removed to the hospital where he is now resting comfortably.

Finds Prices Very High

Prices are very high in London, Eng. and that city is filled with visitors, says Mr. P. G. Koop in a recent letter. A very marked increase has apparently been made in automobile prices, for Mr. Koop says that a second hand car that would sell for \$600 here will bring three times that amount in London. A 1916 model Light Six McLaughlin cannot be had for less than \$3,500.

Mr. and Mrs. Koop had to wait two weeks in New York before being able to get accommodation. All boats are full both ways, every trip and rates are nearly double pre-war prices.

What The B.C. Farmer Says

The B.C. Farmer, official organ of the United Farmers of British Columbia, addresses its readers thus:

"Support your local newspaper. British Columbia is blessed with some of the best weeklies in Canada and, generally speaking, local support seems to be forthcoming, but in some districts petty differences crop in to mar the good work that the newspaper can do.

"A good weekly newspaper is an asset to any district. It is the Bureau of Information for your district—and a mighty effective bureau it is too. Support your local paper—with its weekly budget of local happenings every week it creates a fine community spirit and community spirit helps a district to strive for everything that is best."

Much pleasure is expressed by his friends that Mr. George Gray is again able to be up and around after a long spell of illness.

Farmers' Institutes and United Farmers In New Organization

Plans for Amalgamation to be Placed Before Members For Approval or Otherwise.

Plans were completed last week at a Vancouver conference for the organization of the Farmers' Union of British Columbia, which will be an organization of ten thousand members and will embrace the membership of the Farmers' Institutes and that of the United Farmers of British Columbia. This is the result of a resolution which was passed at the conference of Farmers held last month at Smithers, when it was thought that as these two associations more or less work along the same lines, that an amalgamation of interests would be to the benefit of the farming industry generally. As a result a committee was named which met in Vancouver on Monday. The significance of this move is that no longer will the farmers of British Columbia be organized un-

WEDDING

Harmount-Logie.
A wedding of much more than usual interest for this district took place on Wednesday evening of this week, July 30th, when Miss Robina Logie became the bride of Mr. George Harmount. Coming here in the early days of the community, some fourteen years or so ago, the bride, who is the eldest daughter of Mr. and Mrs. J. L. Logie, had resided here constantly until a year or two ago, when she went to Portland, Ore. to enter the nursing profession. Her winsome disposition, capable and pleasant manner of conducting public business when engaged in that work here, and her undoubted musical talent, all conducing to make for her a host of friends, ever increasing during the years of her residence here. Accordingly her entrance into the matrimonial state excited great interest in all sections of the community.

The ceremony took place in St. Andrew's Church at 7 o'clock, the officiating minister being Rev. Ferguson Millar, of Pentleton. The Church was beautifully decorated with flowers and greenery, roses and baby breath predominating, the coup de grace of which was a wide floral arch under which the bridal couple took their stand. These decorations were the work of Mrs. Scott Dairis.

Arrayed in georgette crepe, with the conventional veil with orange blossom, and carrying a bouquet, the bride made a charming figure as she entered on the arm of her father to the strains of the Wedding March played by Miss B. K. Harrison. She was supported by her sister Miss Grace Logie, who also wore crepe of a very pale pink shade, while the groomsmen were Edward Logie, brother of the bride. Only members of the family witnessed the wedding.

At the conclusion of the ceremony the party proceeded to the home of the bride where a delightful reception of an entirely informal nature was held. At this time intimate friends to the number of about two dozen were able to offer congratulations to the happy couple. Luncheon was partaken of, its pleasure being enhanced by the tasteful decorations which Miss Grace Logie had arranged. Streamers of white ribbon radiated from a bridal cake of several layers. The customary toast to the bride was given, to which the groom aptly responded, and the guests acknowledged with "For He's a Jolly Good Fellow." Vocal solos were rendered by Mrs. G. M. Ross and Mr. F. Graham during the evening.

The bride and groom motored to Pentleton a little later to proceed up the lake the following morning to Vancouver. From there they will go on to Portland, and later to New Orleans, where Mr. Harmount is undertaking a vast reclamation scheme involving something like eighty thousand acres. A host of good wishes follow Mr. and Mrs. Harmount on their long journey south, and while the removal of Mrs. Harmount makes an irreparable loss in social life generally, there remains the memory of the help which she has so freely bestowed when her services were sought in undertakings along those lines.

Winners of Water Sports at Peace Celebration.

The following list of winners of the aquatic events at the celebration held at Crescent Beach on July 10 has been handed to The Review:

- Greasy Pole.—1, Edgar Hobbs; 2, K. Bates; 3, E. Wilson; 4, J. Smith; 5, K. Gartrell.
- Swimming 50 yards.—1, Rowley; 2, Alfred Johnston.
- Swimming under water.—1, Rowley; 2, J. Kennedy.
- Boys under 18.—1, Gartrell; 2, J. Smith.
- Boys 16 and under.—1, R. Munn; 2, C. Daly.
- Diving, Boys under 18.—1, K. Gartrell.
- Diving, 15 years and under.—1, R. Munn; 2, T. Harris; 3, Edgar Hobbs.

You can always flatter a woman by asking her opinion about something she knows nothing about.

Now Doing Half Million Dollar Retail Business

From Modest Beginning Retailer in Small Western Town Builds up Big Business

How It Was Done

Owner Tells Other Retail Men in Conference. It Was "That Two Per Cent."

Retail store men in conference recently heard one of their number who had built up a big business in a small western town tell in a most convincing way of the secrets of his success.

His name was Mann—just a plain, common-sense, hard-headed business man and merchant. He told how he started in a grocery business as a boy with \$1,600 capital, and the first week he opened up he had a fair sized advertisement in the local paper; "and I believe there has never been an issue of the paper from that time to this that our firm's name has not been advertised in," he said. Now the store he heads does a business of half a million dollars a year at retail and he advertises more than ever, and says that with advertising he believes they can make the business run a million. Some of the advice he gave the assembled business men was: "First have some thing in the newspaper all the time. You say it is too much trouble to write the advertisements? yes; but if you spend a little time, even till midnight, to prepare some good advertising you will find it the biggest money maker you ever had. Have your salesmen talk advertising, study it, and back it up. Have your jobbers help you prepare advertisements. Take some jobbers' finely written and displayed advertising and apply it to your own business. Get them to print extra copies of their circulars and folders with your name on and send these out." And then he went on to impress those business men with the danger of not advertising, saying that the big mail order houses have lists of names by the millions; they know exactly in what communities they have the least competition, and they go after the business in those places where the business men do not advertise. And mark this further statement: "Eighty-four per cent. of the business failures are of non-advertisers. I beg of you to SPEND AT LEAST TWO

PER CENT. OF YOUR GROSS SALES IN ADVERTISING, and back up this advertising properly and you will see wonderful results."

Is there not a business sermon in this man's observations, since he is not connected in any way with newspapering, but has grown rich as he has grown gray in the mercantile business, and is counted one of the greatest business successes in the Northwest?

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C.,
July 29th, 1919.

The Editor,
Summerland Review.

Sir: As new comers to Summerland my husband and myself feel outraged at the treatment our son and ourselves have received regarding alleged cherry stealing. Your issue of July 18th states this has been practised on a large scale and that Mrs. Tavender identified a young man in a tree and called him a thief. Mr. Tavender follows this up with a warning addressed to "young men."

It is reported to me by citizens Mrs. Tavender is freely stating the young man she referred to is our son, and to his father she has called our son a thief, and said if she had been close enough she would have shot him with a gun. Mrs. Tavender appears to be suffering from the cocksureness of ignorance, as our son has never at any time stolen any cherries from the Tavender orchards, and we want nothing to do with them.

Our son has, during the entire cherry season, been in our home and in bed every night, at no time getting up before six o'clock, when he has been at work at home that keeps him too busy to go to other orchards. We know nothing of whether the Tavenders have had cherries stolen or not, but we do know our son has not stolen any of their cherries in early morning or at any other time. We further know it is of doubtful value to prosecute Mrs. Tavender for the slanders of her busy tongue. But we hope we may be left free to make a home in Summerland without more slanders, and that we may expect the citizens to treat all our sons not according to the silly lies of a loose tongue, but according to the characters they show in daily life in Summerland.

Yours truly,
(MRS.) ALICE TAYLOR.

Improvements Planned For Oroville Road.

Road Engineer Gwyer announces that instructions have been received to start work on the east side of Dog Lake. Construction will be commenced at once and it is expected that the road will be finished this year.

The Engineer hopes also to change the road between Okanagan Falls and Vasseaux Lake this summer in order to take it to the level of Okanagan River, instead of its present up hill and down dale route.

With these two proposed changes autumn should see a water grade auto road all the way from Peachland to Osoyoos.

HELP PREVENT FIRES— FOLLOW THESE RULES.

1. MATCHES.—Be sure your match is out. Pinch it before you throw it away.

2. TOBACCO.—Throw pipe ashes and cigar or cigarette stumps in the dust of the road and stamp or pinch out the fire before leaving them. Don't throw them into brush, leaves or needles.

3. MAKING CAMP.—Build a small camp fire. Build it in the open, not against a tree or log or near brush. Scrape away the trash from all around it.

4. LEAVING CAMP.—Never leave a camp fire, even for a short time, without quenching it with water and then covering it with earth.

5. BONFIRES.—Never build bonfires in windy weather or where there is the slightest danger of their escaping from control. Don't make them larger than you need.

6. FIGHTING FIRES.—If you find a fire, try to put it out. If you can't, get word of it to the nearest forest ranger at once.

The above rules for the prevention of fires, prepared by the United States Forest Service, are equally applicable to Canada. Their observance would go far towards lessening the tremendous toll taken each year by the forest fire fiend.

A feature of a trades procession in Detroit the other day was a fine new motor hearse bearing the placard, "People are dying to ride in this."

The Coldstream Estate has been sold by the Earl of Aberdeen and Mr. James Buchanan to the Earl of Cowdray and associates, according to a despatch from London published in the Vancouver World. The White Valley irrigation system, which is now the subject of an investigation by a commission, is said to be included in the sale. The despatch says the new owners will sell or further develop the property. Many small blocks have been sold off the original 13,000 acres of the famous estate.

Pure Bred Cow Is Real Money Maker

Remarkable Figures Show How Holstein Has Paid

Official papers of the Record of Performance of Summerhill Topsy, one of the herd of pure bred Holsteins at the Balcom Ranch have been received by Manager R. V. Agur. The cow has certainly made a splendid record as will be seen by the figures published below:

	Milk	Butter
1914	12,499 lbs.	500 lbs.
1915	12,715 "	508 "
1916	12,983 "	512 "
1917	13,828 "	565 "
1918	17,817 "	781 "
Five years	69,842 "	2,866 "

Based on 2½ lbs. milk to the quart, and Babcock test for the butterfat, and the 80 per cent. rule for butter the above is the equivalent of 27,936 quarts milk, which at 10c. per quart equals \$2,793.60 for five years.

Had the milk been converted into butter the result would have been 2,866 lbs., which at 50 cents would have given \$1,433.00 in five years. The skim milk would have been left on the farm, meaning a considerable addition to the latter value.

In her last lactation period (12 months) Summerhill Topsy produced 17,817 lbs. or 7,126 quarts of milk, which at 10c. per quart would have a money value of \$712.60 for the year. Her average butter fat test was 3.5 per cent. In terms of butter she produced 781 lbs., which at 50c. would have a money value of \$390.50. Her best day's yield of milk during this period was 78.9 lbs. milk, or 31½ quarts in the one day.

In addition to the above production of milk and butter in the past five years Topsy has had six calves, five heifer calves and 1 bull calf, all registered stock.

The bull calf at a year old sold for \$150.00
The four heifers are worth 250.00 each 1,000.00
The month old heifer calf is worth 50.00

So Topsy has produced:
In milk \$2,793.60
In offspring 1,200.00
\$3,993.60

or practically \$4,000.00 in the five years. Her original cost was \$325.00.

The net cost of feed and labor should be deducted from this total to find the amount actually at the credit of the cow.

The records for 1917 and 1918 are from Dominion Government figures and represent Topsy's Record of Performance test for those years. In the above production Topsy has no doubt established a record above any cow in the Okanagan Valley. No other has as good an official record.

Richard Simpson, a returned soldier, has been appointed to the position of nursery manager in connection with branch activities to be established in the Southern Okanagan settlement area. Mr. Simpson formerly was general nurseryman with the Brookside Orchard, Vernon, and later with the Henry Nursery.

On Routes 1, 2 and 3 vans will be provided by the School Board, On Routes 4 and 5 vans to be provided by the Contractors.

Contractors to provide rugs in cold weather.

J. H. BOWERING,
Secretary School Board.

Invincible in Battle: Builders of Democracy.

Reeve Hogg Pays Tribute To Peachland's Citizen Soldiers.

In the following excellent address Mr. R. J. Hogg, Reeve of Peachland opened the Peace Celebration in that delightful lakeside town. Unfortunately space would not permit of its publication in our issue of last week, but it loses none of its worth by being held over for a week.

Ladies and Gentlemen, Fellow Citizens of a Free Country:

There falls to me to-day the honor and pleasure of making a brief statement as to this celebration.

It has pleased His Majesty the King to set apart this day as one of general rejoicing in which we will recognize as far as we can how deep are the reasons why our hearts should be filled with thanksgiving.

In less than a month will occur the fifth anniversary of the declaration of war, and during the first year of the struggle how few of us realized the true significance of the issue at stake. At times we halted and wondered; men's hearts cried out in anguish that such a calamity could come upon our world. There were times when we questioned the outcome until our faith took hold again of God and we felt assured that the arch blasphemer could not triumph. But there were days of uncertainty and we read in the fate of Belgium the destiny of our land should the German heel ever tread it as master. The freedom for which our soldiers fought and died is ours yet and because it has been sealed to us in the signing of the Peace Terms by Germany we are called upon to rejoice. We do indeed rejoice, because materialism which had set faith in equipment, discipline and force, has been signally defeated, and we rejoice still more in the fact that moral realities have been shown to have greater power than brute force.

We look upon the goodly number of returned men with us to-day, and we rejoice for that and for their triumph, but no acknowledgment of victory is complete that does not pay tribute to the army of noble women who, with hearts always anxious and in many cases broken and bleeding, toiled early and late that our cause might triumph, and because of it all, their labor as well as that of our soldiers we are to-day the citizens of a land whose freedom is untrammelled. It is not at this time that we as a community will welcome back our soldiers; a day in the near future will be set apart for that. We must however express our joy in the return of so many, and mark you from what these men have returned. They have returned from a victorious assault on what, humbly speaking, were the impregnable defences of an unconquerable foe. And may we not take it as a splendid omen for the future that these men are to-day, here and everywhere lined up in support of the civil authority. Invincible in battle, now that they have returned to their home land, shall we not look to them for assistance, and it may well be leadership, in the establishment of a firmer basis than in the past, of the principles of truth and justice.

Even in our rejoicing our thoughts must go out to those over whom their comrades sounded "The Last Post" in a far off land, and though the thought of them tempers our gladness may it not well be the final reason for rejoicing that their death was not in vain. Our land is still free and it is ours to perfect the freedom for which

they died by establishing in Canada a true democracy built in righteousness and having for its framework the eternal verities. Let me remind you again that the King's command is that we rejoice, and that to-day we celebrate the consummation of that for which we have so long striven, even the freedom and peace of the world.

Leads In Membership

Recent statements showing the membership of the B.C.F.G.A. issued by Prof. Clement, the secretary, still give this district a long lead over any other in the province. The local director, Mr. R. V. Agur, is to be congratulated on the excellent showing for the Summerland-Naramata district. Here there are now 124 members, 22 of whom hold life membership. Penticton district with the diligent efforts of Mr. Huntley, the director for that district, which includes the Municipality of Penticton and communities to the south, though holding second position, is a long way behind with 89 members, 16 of whom are for life. Peachland, with Mr. Thos. Powell as director, has a membership of 21. The total for the province is 808, of whom 88 hold life membership.

Water Notice.

DIVERSION AND USE.

TAKE NOTICE that Frederick Charles Wildy, whose address is Peachland, will apply for a licence to take and use 1,000 gallons daily of water out of lake, also known as Wildy's Lake, which flows through his property, and drains into Okanagan Lake, about at the N.W. Point, S.W. point of property. The water will be diverted from the stream at a point about middle of lake at about 600 yards from S.E. corner, and will be used for irrigation purpose upon the land described as P.R. 961, S. Similkameen.

This notice was posted on the ground on the 21st day of July, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C. within fifty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is August 1st, 1919.

FREDERICK CHARLES WILDY,
1-5 Applicant.

Mr. Warren's Elevation.

Congratulations are due to Mr. James J. Warren on his election to the presidency of the Consolidated Mining & Smelting Company of Canada, Limited, which is a matter of more than passing interest to this part of the Dominion. Mr. Warren has been looming larger in the financial and industrial world than most people are familiar with.

In being elevated to succeed the late W. D. Matthews he finds himself in intimate association with Sir Edmund Walker, Mr. Charles R. Hosmer, Mr. George Sumner, and others of the elect in the financial world, whose confidence he has undoubtedly won through ability shown as managing director of the Consolidated Company during recent years—a period during which the Consolidated has grown from being a mere mining and smelting company to a metallurgical enterprise of vast proportions.

Educated at Toronto University, Mr. Warren was one of the most successful lawyers of the city, devoting himself chiefly, in the practice of his profession, to commercial and corporation law. He was managing director of the Trusts and Guarantees Company, Limited, and a director of the Home Life Association of Canada. His election to the presidency of the Kettle Valley Railway Company and the construction of this important railway link brought him into prominence in British Columbia. Since his inclusion in the Board of Directors of the Consolidated his rise has been rapid, filling the position of managing director during the past

two years.

The advanced development policy of the Consolidated Company and its allied interests—the Canadian Pacific, the Kettle Valley Railway and the West Kootenay Power Company—is a matter of the first importance to this part of the Dominion, where the interests of these companies and that of the people in the territory affected are identical. Mr. Warren's many friends will wish him continued success.—Grand Forks Gazette.

THE ENTRANCE RESULTS

THE RESULTS of the High School Entrance examinations, which by the way, were announced in The Review before the general supply of coast papers arrived, came to hand too late to allow of any comment in last week's paper. It is felt, however, that such a result should not be allowed to pass by unmentioned. There are some who will say that a hundred per cent. pass list is just a coincidence, nothing more. Others will pass it by without thinking that there is anything at all meritorious in such a result. But those who have followed the progress of school work in the community will be glad to give credit where it is due, and they feel that it should go in this case to Mr. C. W. Lees, who relinquished the principalship of the public school two or three months ago. It is not so long ago when the entrance results were very far from satisfactory, but many people put this down to the fact that principals were coming and going every few months, which did not allow proper co-ordination among the staff, and this was in turn reflected in the examination results. To the fact that Mr. S. A. McDonald, the new principal was able to carry on the work to a successful conclusion and thus to avoid the set back common to a change of instructors during a term, credit is also due. Coming in the midst of the spring studies the change of principalship was expected to result in the failure of some pupils to pass the entrance exams. Mr. McDonald fortunately had it in him to avoid this misfortune.

A review of the record for the past five years shows that of the 82 who wrote only 7 failed to pass. In 1917 also there was a 100 per cent. pass list. We trust that the new principal and teachers, with such a record before them, will be able to maintain things at the same high level.

TRUE HAPPINESS

Did you ever read the books of Kings and Ecclesiastes written by Solomon, the richest, wisest and most powerful man of Biblical times, keeping in mind that it is the story of a man searching for happiness?

Try it, if you haven't.

There was a man who had but to raise his hand in token of a wish and that would be fulfilled if it were physically possible.

And yet he was the unhappiest of men: He tried pleasure, labor, the attainment of knowledge, etc., only to find them of no avail in bringing happiness to his heart.

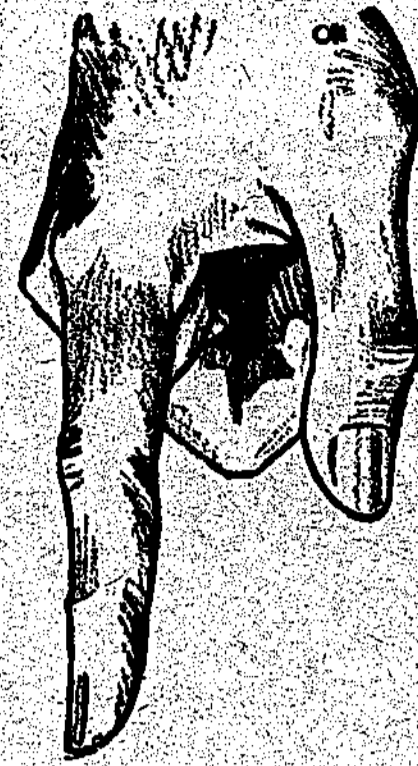

Then he turned to the helping of others and found therein the true happiness which had eluded him in all other trails.

It is true to-day as it was in Solomon's time. The only real happiness is in SERVICE to your fellow-men.

Some 500 men are now at work on the new Kamloops-Kelowna branch of the Canadian National Railways.

An African frog sounds a call under water which can be heard for miles.

We are better off in all ways not to have measles, whooping cough, scarlet fever, etc., in childhood, just as we are better off not to have lost a finger, an eye or even a toe. Parents should be ever careful to protect their children in all known ways against every sickness.

Criticises Policy Adhered To In The Past By The Review

Practically since its first issue The Review has followed a policy with respect to its advertising space, a policy that at one time was quite commonly practiced, which, briefly described, was to refuse business from merchants outside its territory handling the same lines as carried by the home merchants. For some years there has been a general movement by publishers away from this fixed policy. Right here in the Okanagan the change is very marked. One large retail house which always carries large advertisements in its local paper now advertises in four of the six towns of the district having papers.

Recently "Printer & Publisher," a trade journal, was asked to give its views on this question of accepting "copy" from the outside advertiser.

Here is how the editor treats the question:

"Printer and Publisher" has several times taken the ground that it is a mistake for the papers to allow their field for drawing business to be narrowed down. Much worse is it to make a perpetual practice of warning—rather assuring—the merchants of the place that they are perfectly safe in your generous hands. In effect you lead them to believe that you are going to protect the field for them in so far as it is in your power to do so. They can advertise, but all the same they can feel—for you tell them so—that their territory is safe from invasion by outside competitors who might want to appeal to the district through the perfectly legitimate manner of inserting their notice in your advertising columns.

Publishers should beware of this ultra-loyal attitude to their own merchants. By all means treat fairly with them. Give them a reasonable amount of preference. If they are patronizing your paper sufficiently to give you a living take the attitude that they are entitled to protection in their own field. But if you are in a place where miserable little contracts are doled out to you, and where you are expected to take the most of these out in trade at the merchant's own price, then look out.

It is a mistaken idea that a paper is a sort of public institution subject to the dictation of every person who has occasion to spend a dollar or two with it every month. A newspaper, no matter whether it is a country weekly or a metropolitan daily, is a business proposition, as much as a foundry, a machine shop

or a general store. It is run in order that those men connected with it can make a decent living. Of course there is the other sense, which is generally recognized, viz., that part of its duty is to serve its community. The better it performs this function the better the living it will make.

A paper has two sources of revenue, its circulation and its advertising. Do not say that it has its job printing revenue, for it has not. The paper should stand on its own feet and not be an excuse for conducting a job printing establishment. The advertising is the large end of the business. The publisher has his white space to sell, and why should he be called upon to say that only those within a certain charmed circle can come along and buy what he has to sell, viz., his white space? Are any of his advertisers taking this attitude? Do they tell customers who happen to stop in from outside this charmed circle that it will not be possible to take money from them, or to do business with them? Certainly not. They generally are very pleased to find that they are getting business from a distance, and they take good care to treat this trade with a decided preference.

Publishers, looking to their own best interests, should watch this condition carefully. They should never allow themselves to be jockeyed into the position where the merchants of the town can take it for granted that, whether they advertise or not, their field will have no appeal from outside merchants through the medium of the town paper.

Miscellaneous

PACKERS WANTED.—Transportation from West Summerland arranged. Summerland Fruit Union 49tf

Half a million head of cattle in southern Alberta are on the verge of starvation and their plight is such that immediate steps on a considerable scale must be undertaken if they are to be saved. Continued drought has completely destroyed all feed. One man who arrived here from Alberta a few days ago said there was not enough left to keep the gophers alive.

Passing Events: Social, Personal, &c.

Mrs. McLaughlan, Mrs. A. B. Elliott's mother, is with Mr. and Mrs. Elliott on their visit to Nova Scotia.

Mr. T. N. Ritchie, for some years a resident of Summerland and lately of Vancouver, came up last week to attend to some business matters and visit with relatives and friends here and in Peachland.

The Okanagan has this year contributed some of the finest Bing and Lambert cherries ever seen on the Vancouver market, according to Markets Commissioner R. C. Abbott.

Alannah Sutherland, young daughter of Mr. and Mrs. J. M. Sutherland, went up to Kelowna Wednesday morning to spend a few days at the home of Mr. and Mrs. J. W. Jones.

Provincial Constable E. C. Graham was in town last week presumably to be on hand if any law breaking proclivities developed in connection with the performances of the visiting circus.

Auctioneer J. E. Phinney is arranging to hold an auction sale of Dr. E. W. Sawyer's household furniture etc., in the College Gymnasium. Particulars of the sale are given in our advertising columns.

Mrs. York's Bible readings given to union gatherings in the Baptist Church this week are of daily increasing interest, the subject last night, "Eden Restored," being especially well dealt with. This evening's subject will be "The Beggar's Inheritance."

The growing of Bing and Lambert cherries should be left with the interior districts of British Columbia, says Coast Markets Commissioner R. C. Abbott, from a careful study of the cherry situation during the past five years. In his opinion the lower mainland and the island should confine themselves to "sours."

Mr. and Mrs. F. C. Manchester will start a school of dancing in Campbell's Hall, West Summerland, Wednesday evening, August 6th. Beginners' class at 7.30. Advanced class, new dances, 9 p.m. Will be at West Summerland Drug Store Wednesday p.m. for arrangements, or communicate Naramata. Terms reasonable. Special price for term of six lessons. 1a

An invitation has been extended by the managers to the Reeve and Councillors of Summerland to attend the two-day peace celebration in Vernon next Monday and Tuesday. Arrangements have been made for a special boat on Monday to leave Penticton at 6 a.m. and Summerland about 7. The return trip will be made leaving the Landing at 11 p.m. Special train from and to Landing. On Tuesday quick connection will be made at the Landing with the regular boat.

Pte. R. Munroe, of Summerland was among the returning men to leave Halifax on July 24th for the West.

J. C. Kennedy, recently returned from service in the Imperial Army, is again with the Canadian Bank of Commerce and is just now assisting in the Keremeos office.

Rev. W. P. Reekie, secretary of the social service for Saskatchewan, spent Wednesday here with friends and went up to Kelowna on Thursday to visit his brother there.

Mrs. R. H. Agur entertained last Friday evening at a dance in honor of her youngest son Philip who has but recently returned from service overseas, and of his bride, whom he brought home from England.

Edward Logie went out to the coast on Thursday morning over the K.V.R. His friend, Mr. Poole, who has been visiting him for some little time will leave for the Coast on Monday morning.

Mr. F. A. C. Wright came in from Vancouver on Saturday, having largely recovered from his recent severe illness for which he had been undergoing treatment in the Vancouver General Hospital.

Rattlesnake hunting was one of the diversions at the Boy Scout camp at Lake Osoyoos this summer. Twenty altogether of the rattlers were bagged, the last one of which had taken a stand in front of headquarters camp.

Quite a number of young men and women are coming in from the coast to engage in fruit packing here. Among those to arrive recently were Mrs. McMaster, Misses Palmer, Alexander, Nickerson, McArthur and Thomas, all of whom are with the Summerland Fruit Union.

Mr. and Mrs. F. A. Miller, of Castor, Alberta, who came to this province a short time ago to seek a more inviting climate, have decided to make their home in Summerland in future. Before returning to the prairies they took an option on an orchard property here and, we are informed, are sure to return.

After many weeks of patient waiting coast mail is now being delivered here over the K.V.R. Though for two months trains have been running daily over the short route making it possible to effect a saving of from 10 to 24 hours in the time of delivery of mails here it was only on Tuesday that the direct mail service was inaugurated. Why it should take two months to make a change that should have been made automatically with the change in train schedule is hard for our citizens to understand. Mail for the coast still goes by the old route via the boat, south if in time for the evening boat, otherwise north in the morning.

Mrs. John Tait has gone down to Victoria to visit her mother and sisters.

Arthur Pentland, one of Summerland's war veterans, has bought the Davidson property.

Principal McIntosh of the High School is spending a few days at the coast.

Miss Gertrude Higgins of Winnipeg came in last Saturday to spend a few days with Mrs. J. P. McIntyre.

Mrs. B. L. Hatfield returned Monday from Vancouver where she has been in hospital for some weeks.

Mr. and Mrs. M. Stuart and some visiting friends made a motor trip down into Washington, returning Wednesday.

Mr. and Mrs. J. Richmond of Victoria came in Wednesday morning to visit Mrs. Richmond's parents, Mr. and Mrs. S. Darkis.

Dr. E. W. Sawyer is having his household effects moved to the College Gymnasium where the articles will be put on sale at auction on Saturday, August 9th.

A bridal shower was tendered to Miss Robina Logie on Tuesday afternoon, at the home of Mrs. George Craig. It was attended by a good number of friends of the bride-to-be.

After a short honeymoon at the coast, Mr. and Mrs. George Silke will reside in Penticton for the summer. Mr. Silke is connected with the B. C. Growers in that place at present.

Mrs. G. M. Ross came in from Field on Saturday evening, and is spending a week with Mrs. R. M. Ross. She attended the wedding reception of her friend, Mrs. Harcourt, on Wednesday evening.

Miss Jessie Henderson who arrived in the Valley from Toronto three or four weeks ago, came down from Peachland last week-end to spend a few days with her father here.

Mr. J. B. Braun, who with his wife and two children have been visiting his mother, Mrs. Rau, for some weeks, has decided to make Summerland his home. Mr. and Mrs. Braun have rented the Dock-steader house, near Mrs. Rau's. The family came here from New Westminster.

Though there were twenty-four of the Central School pupils to pass the High School Entrance exams., the list as furnished us last week contained the names of but twenty-three, that of Miss Joanne Ritchie having been omitted. Miss Ritchie's total marks were 680, making her thirteenth in order of merit.

Mrs. E. R. Simpson and Mrs. J. M. Sutherland entertained a large number of friends at a delightful picnic in the Park on Tuesday. The occasion was in honor of Mrs. Matthewman and her daughter, who had returned a few days before from the coast, where they have been for some weeks, and started on Thursday on their return journey to Ottawa. They will stop off at Banff, Calgary, Chicago and other points on their way east.

Telephonic communication between Summerland and Naramata will be very much improved when the repairs now being made to the cable are completed. New landing has been provided for the Naramata end of the cable at a point where it will not be constantly disturbed as it has been at the wharf. Quite a long piece of this cable had become so chafed that it had to be replaced with new.

Messrs. G. T. Coles and S. J. Bryant of Vancouver were visitors to Summerland yesterday. They had motored in leisurely stages from the coast and were going north and up into the Cariboo before returning. Both expressed much pleasure in what they saw here. They looked over the district and visited the Farm. Mr. Coles has had some years' experience in fruit growing in California but seemed to think that this was a paradise as compared with the hotter southern country, which is not as free from late frosts as South Okanagan.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

A solo by Mrs. G. M. Ross and a quartette by Mrs. Ross, Mrs. Craig and Messrs. Baker and Beavis will be features of the evening service in the Lakeside Church on Sunday. C

Rev. Mr. Campbell of Rutland will be the preacher at St. Andrew's Presbyterian Church this coming Sunday at 10.30 a.m. C

A union evangelistic service will be held in the Baptist Church, West Summerland, on Sunday evening, at 7.30. Mrs. York will speak upon "The Land of the Passover." C

Naramata News

Current Events of Town and District

The Court of Inquiry into the estate of the late Thos. Ellis resumed its sitting here on Tuesday.

Mrs. Waite and son from Lindsay, Ont., who have been visiting Mrs. Joe Lyons for the past month, have returned to their home.

Mr. B. L. Hatfield of Summerland was here on business Thursday.

The usual monthly meeting of the Ladies' Unity Club was held at the Club house on Friday afternoon, Mrs. Wm. Mitchell acting as hostess. After the business of the meeting was disposed of a piano solo was rendered by Miss Kathleen Robinson, which was much appreciated. The next meeting will be held the fourth Friday in August and Mrs. Dan McKay will be the hostess on this occasion.

The Anglican Church Sunday School of Summerland held their annual picnic here at the Unity Club grounds on Saturday afternoon. There was a large turnout and the afternoon was pleasantly spent with games and refreshments.

A number of our citizens took advantage of the ferry trip to Penticton last Saturday night, and it is to be hoped they will continue.

Mrs. W. H. Leckie of Vancouver was the guest of Mrs. J. M. Robinson this week.

Mr. and Mrs. F. C. Manchester were in Summerland on Tuesday.

In naming a newly elected school trustee Mr. A. Routh, we were in error, as the trustee for the term is Mr. Howard Rounds.

Mr. Gerald Williams who has been studying the watch makers' business in the States is back home once more.

Miss Ethel Gray and Miss May Roe of Ottawa who have been visiting relatives here have gone to the coast for a few days.

Miss Emma Davies who has been visiting her parents for the past few weeks has returned to her duties at the coast. Miss Davies is Assistant Night Superintendent of the Vancouver General Hospital.

Friends of Guy Brock were glad to see him on Monday when he came over from Summerland to make us a short visit.

The Rev. Mr. Dobson of Regina gave a most excellent talk in the Church on Sunday afternoon. His work along the lines of community building and the needs of humanity are well known and his original ideas are extremely interesting.

Mr. Fred Anderson and Mr. Atkins of Summerland were in town on Tuesday on business connected with phone repairs.

Mrs. Lumsden and son of Vancouver stopped over for a short visit on Monday afternoon.

Mr. and Mrs. F. C. Manchester will start a school for dancing in Campbell Hall, West Summerland.

Miss Millicent Simeox from Banff is stopping at the Syndica and expects to remain some time.

Mr. George Phillips of Vancouver came in on Saturday to assist Mr. A. Wilson on his fruit lot.

Old residents of Naramata consisting of Mr. T. H. Boothe and sons Roy and Ralph were here on Sunday looking over some of their property.

Mrs. I. L. Woodyly and Mrs. Walter Cross and son who have been the guests of Mr. and Mrs. Hugh Davies went to Peachland on Tuesday morning to visit Mrs. McDougall.

Word has been received from Gerald Roe who is on his way to England from India and he will be with us now before long.

A most delightful picnic supper was held near the home of Mr. and Mrs. R. C. Robinson on Friday evening. The party consisted of Mr. and Mrs. J. L. Logie and family, Mr. and Mrs. Kenneth Hogg and daughter of Summerland, Mrs. Bennett and daughter of Portland, Mr. Poole of Vancouver, Miss Wil-

lis croft, also of Vancouver and Mr. George Harmount of New Orleans. Mr. Harmount was formerly connected with the construction department of the K.V.R., and with his partner Mr. Bacher built the big tunnel above Naramata.

A motor party consisting of Mr. and Mrs. Thos. Kenyon, Miss Phillis Monk, Mr. Walter Land and Mr. Russell Wells went down to see the soldier settlement lands on Sunday.

Boy Scout Column

1st SUMMERLAND TROOP B.P. SCOUTS.

Scoutmaster - O. F. Zimmerman. Headquarters - College Gymnasium. Meets every Friday evening at 7.30 p.m.

Last Friday saw a full turnout of the local troop and a good evening's work was gone through. Practically the whole evening was devoted to the passing of Second Class tests, as every scout is expected to have passed these by the end of the month. Quite a number will have their first class badges by that time also.

As we are going to lose two of our leaders for the winter several changes in the patrols have been made.

Jas. Marshall will retain his position as leader of the Lions but will have Blanchard Munn as his second instead of Gordon Blewett, who has been appointed leader of the Wood Pigeons. Russell Munn, late of the Beavers, will be Gordon's second, while the Beavers will now be led by Moses Marshall, with Roland Reid as second. The new leaders took charge of their patrols Friday and will be under the supervision of the old leaders until the latter's departure.

As yet we have not received all the accounts for camp. By the way, the boys used to eat there is no doubt but what they will be of vast proportions, but—

Snapshots of camp are gradually being turned in. It is the intention of the Scout Master to start a

troop album, and with the idea of making a beginning is offering a prize for the best ten prints. There certainly ought to be a good collection.

The total sports results are not yet ready. The Lions lead in inspection, while the Beavers are leading in land sports. There are still the water sports, however. A full list will be published next week.

Opening Prices Named

The opening prices of the O.U.G. have been named in Crabapples and Jonathans. Transcendent Crabs \$1.60, O.K. Brand. Jonathans \$2.25. The offerings are limited at the above prices.

Winnipeg reports an advance sale of cars of Delicious apples at \$3.00 per box F.O.B. Okanagan.

Buying Apples For Overseas.

J. A. Grant, Prairie Markets Commissioner, in a recent bulletin, states that apple buyers from the Old Country will soon be in the Valley to buy apples for export. It is not known just how heavily they will buy, but ample ship space

will be allowed for Canadian apples to cross the Atlantic. Only a week or so ago the big shippers in the Okanagan were asked to give a rough estimate of what export business they expect to do this season. There is reasonable hopes, therefore, that the apple export trade will this year be a considerable factor in the disposal of the big crop.

Land Registry Act.

NOTICE UNDER SECTION 36.

No. of Application, 7654D, 7667D, 7675D.

TAKE NOTICE that an application has been made to register The Corporation of the District of Peachland, as the owner in Fee-simple, under a Tax Sale Deed from the Collector of the Municipality of Peachland, to The Corporation of the District of Peachland, bearing date the 10th day of September, A.D. 1917, in pursuance of a Tax Sale held by said Municipality on or about the 17th day of August, 1916, of all and singular certain parcel or tract of land and premises situate, lying, and being in the Municipality of Peachland, in the Province of British Columbia, more particularly known and described as:— Block 19, Map 125, in Sub-division of District Lot 490, Group 1, Osoyoos Division, Yale District; Block 13, Map 410, in subdivision of District Lot 2538, Group 1, Osoyoos Division, Yale District; Block 11, Map 410 in subdivision of District Lot 2538, Group 1, Osoyoos Division Yale District.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said The Corporation of the District of Peachland as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:

"And in default of a caveat or certificate of its pendens being filed before the registration as owner of the persons entitled under such tax sale all persons so served with notice or served with notice under subsection (6) of section 155 of the Municipal "Clauses Act, 1900," or section 298 of the "Municipal Act,"

or section 1139 of the "Assessment Act, 1903," or section 253 of the "Taxation Act," in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up

any claim to or in respect of the land so sold for taxes."

"DATED at the Land Registry Office, at the City of Kamloops, Province of British Columbia, this 9th day of July, A.D. 1919.

C. H. DUNBAR, District Registrar.
To F. H. LeQueane, Assessed owner of Block 19, Map 125; Mrs. Janet Davis, Assessed owner of Block 13, Map 410; Maud Mary Jackson, Assessed owner of Block 11, Map 410.

SUMMERLAND AND

WEST SUMMERLAND

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr. Jos. Townsend left last week for Camrose, Alberta, to remain about a couple of weeks.

After spending a pleasant holiday here visiting friends, Miss Jean Kincaid left on Wednesday morning of last week.

Mr. F. C. Wildy with his motor launch "Happy" made a couple of trips to Kelowna last week for the convenience of some of our townsfolk. On Wednesday he took Mrs. J. MacMillan and Mrs. H. H. Thompson up and back; and on Thursday Mr. and Mrs. A. J. Miller made the round trip. Both were pleasant trips.

On Wednesday evening of last week Major and Mrs. Hardisty left for a visit to the coast. They returned on Monday.

Mr. and Mrs. George Lang journeyed to Summerland by auto last week, to be there for the wedding of Miss Logie.

Government Engineers Coleman and McCauley spent a few days here last week, getting particulars in connection with the old Government wharf. We understand this is preparatory to the taking over of the Provincial Government wharves by the Dominion Government.

After a pleasant stay of a week or so in the neighborhood of his property up Trepannier Creek, and visiting friends there, Mr. George Hill left on Thursday morning to return to Kelowna.

Mrs. A. W. Miller was a passenger to Summerland on Friday night of last week, returning on Monday morning last.

Mr. J. W. Jones, provincial representative for this district spent Friday and Saturday of last week in town, busy as usual with the interests of the people at heart and alert to anything which demanded his attention.

After paying a short visit here, guests in the home of Mr. and Mrs. Edgecomb, Mr. and Mrs. Insley of Calgary left last week to return to their home.

Little Miss Pearl Law is paying her folks a visit for a time, having come up from Penticton on Wednesday morning of last week.

Mr. Woodbridge of Kelowna spent a couple of days in town last week, coming down on Thursday night and returning to Kelowna on Saturday morning.

It was somewhat like old times to see last week the familiar face of one of our citizens of early days, Mr. T. N. Ritchie, who spent a couple of days here on business. It is rumored that he is about to sell his fruit lot here.

Mr. and Mrs. Foster of Calgary with their two daughters Fem. and Annie left by auto en route to Medicine Hat to finish their holidays. Mr. and Mrs. Foster came in with Mr. Roe and family, staying between the homes of Mrs. Mitchell and Mrs. George Keyes.

Mr. and Mrs. C. B. Roe of Medicine Hat, with their three children, Monas, George and Sidney, left for their home on Friday's boat via K.V.R. after spending an extra pleasant visit, which was all too short, with an old friend Mrs. H. K. Mitchell. Mr. Roe spent his holiday with us last year, and liked it so well he wanted the rest to experience the same joy. Mrs. Roe is a niece of Deputy Attorney General Browning, of Edmonton.

After spending a couple of weeks visiting with his sister Mrs. Dr. Buchanan, Mr. J. D. McDonald left on Saturday night last to return to his home in Penticton.

Master Earl Murdin spent last week end visiting friends in Summerland, returning on Monday morning.

Mr. Francis, and Master Eddie Cousins and Archie Hamilton have accepted jobs in Mr. DeMuth's mill on the K.V.R. and left on Tuesday night to go to that point.

After spending a very pleasant vacation here visiting her people, Mrs. Wilde, and her little girl, left on Friday night for her home in Portland, Ore. She was going via K.V.R. to Vancouver where she expected to visit her sister Ethel, who, her many friends here will be sorry to learn, has had the misfortune to experience a fire in their home which wiped out all they had. This we regret to say is the second fire which Ethel has experienced since commencing married life.

Mr. Thos. Elliott is enjoying a visit from a niece, Mrs. Alex. McKinnon of Edmonton, who arrived on Thursday night.

Ronald and little Miss Willa Elliott went to Naramata last Thursday to pay their grandparents, Mr. and Mrs. Hayward a visit.

The Peachland Livery auto truck took a load down to Summerland on Thursday afternoon to take in the circus. Those going down enjoyed the outing very much.

Mr. and Mrs. and Master George Fruean left on Saturday morning last to return east, to Rutland, Vermont, where Mr. Fruean expects to follow his trade. Mr. and Mrs. Fulton have since moved into the Nash house just vacated by the Frueans, which is hard by their place of business and will be much handier in many ways.

We regret having omitted an item which should have been included in the news of last week. This was the sale of the Logan orchard and home. Mr. Logan is not feeling able to give the place the care that he would like to give it, and for this reason has been offering it for sale. Mr. McBean is the lucky purchaser and is to be congratulated on now owning one of the nice homes in the district. It is apparent that Mr. McBean's stay of a few months has not been for naught for he has had his eyes open for a good thing, and got it.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$500 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$100 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in connection with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown grant land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 40 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 5 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 20, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1916, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who entered into complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim who of original purchaser, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of prairie industry provides for grazing districts and large administration under Commissioner. Annual grazing permits issued based on numbers of head priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers campers or travellers, up to ten head.

On Friday of last week Mrs. A. Town and Mrs. A. D. Ferguson entertained the young people of the community at the home of Mrs. Town. A goodly number were present and enjoyed a splendid evening. Music and games were the principal events. Mrs. Wallace and Mrs. J. L. Elliott each sang a solo. Mrs. J. A. Moore and Master Franklin Elliott were accompanists while Mrs. Moore furnished a number of piano selections which sounded splendid from the position the piano held on the verandah. As Mr. J. W. Jones was present on this occasion he was called on and spoke a few very fitting remarks. Among other things he mentioned the desire of the Kelowna folk that Peachland would again take up the matter of a canoe club and get together a crew to attend the near approaching regatta at Kelowna and contend for some of the good prizes. He expressed the regret of the Kelowna sports that the other towns on the lake had apparently dropped the canoe idea, and made a strong appeal to the young people gathered together on that occasion to try and see to it that the spirit was revived. The Rev. Mr. Clark also spoke a few words, stating that it was the hope of those who were backing up these monthly entertainments, to form a glee club and plan for entertainment ahead. A gathering was announced of all the young people who would take an interest to go into particulars and decide definitely on what course to follow. Lunch was served on the lawn after which followed some group singing which closed the events of a very pleasant evening.

The purchasers of the Lang property, Mr. and Mrs. Wilson and family arrived on Friday night and are now settled in their new home. We trust they will feel at home in our midst, and will feel free to enter into anything of interest with the rest of us.

Mrs. Dr. Woodley of Vancouver and her daughter Mrs. Cross with her little boy of Moose Jaw, were visitors arriving on Tuesday morning last. They came to visit Mrs. H. McDougall and Mrs. P. N. Dorland. Mrs. Cross and her little boy remained just the one day, leaving the next morning for their home, but Mrs. Woodley remains here for a while.

Our local constable had a duty to perform, and performed it without delay and also without fear on Monday last when a bunch of gypsies set up action in town. Mr. Williams warned them and they moved on without further comment.

Mrs. Stevens staged her last regular dance in the Orange Hall on Tuesday night last, as she expects to leave this week for the Old Country. There were a goodly number present, and despite the heat of the evening everyone seemed to enjoy it immensely.

After a pleasant week spent in Summerland visiting old friends and acquaintances there, Miss Olive Gummow returned to her home here on Tuesday morning last.

Mr. George Keyes and S. H. Murdin started out by auto on Tuesday en route for Salmon Arm for a short visit.

Mrs. L. Vivian was a passenger south bound on Tuesday night for Penticton.

It is gratifying to note that it is only now that it has been found necessary to touch on the North Fork Dam supply of water, and that only for a small helping, so we should have plenty this season.

A Ten dollar bill invested in shoes NOW will yield you more interest, right off than a Hundred dollars in the Bank will do in a whole year.

A. J. BEER

The Mutual Brokers Were Going Under

Among other things, this season seems likely to bring forth a lively fight between the Okanagan United Growers and the Mutual Brokers. The former as is well known is the orchardists' mutual organization in the Valley. The Mutual Brokers is the Canadian name for an American concern handling the brokerage end of the Nash fruit wholesale interests.

The O.U.G. got a good start on the Mutual Brokers in 1917 and 1918, hence the middlemen are said to be out for blood in 1919. They are reported to have made the claim that through friendly or subsidiary fruit packing concerns in the Valley they will control at least fifty per cent. of this year's output.

The only observation we would like to make here is that the O.U.G. in the past saved the situation for the growers, and will continue to do so if the orchardists will only have sense enough to stand by the co-operative concern. To be attracted away one year by a small increase held out by the middlemen and then to get little or nothing when the co-operative movement perishes is poor business in the long run. It will be a bad day for the Okanagan if the Mutual Brokers succeed in getting control of the fruit tonnage.—Penticton Herald.

Enlarging Cannery.

The Okanagan Canning Company which has been operating successfully at Benvoulin for the past two or three seasons under the ownership of Messrs. Duncan and Schell, is to make a considerable step forward this season. With the entrance of two new partners, Messrs. Jas. I. Campbell and Clarence Burch, the concern has been regularly incorporated as a limited company. The plant is being reorganized to conduct a much larger business, and new plant is being added which will greatly increase the output and the range of products handled.

To serve the public as best he can has always been the aim of nearly every printer. The making of a profit on his work is, too often for his own welfare, a secondary matter. If there happens to be anything left over after paying for material and wages and such overhead as rent, fuel, light and wear and tear of machinery and equipment, he considers himself lucky, provided it does not have to go to make up a positive loss on the previous job. The fact is few printers are qualified to know what their costs are. This has been the situation in Vancouver, as in many other places.

Mr. J. Anderson special representative of the United Typothetae of America, who spent a week in Vancouver conducting a survey of the job printing industry, states that he obtained information from 23 job printing firms in the city. A total investment of \$266,385 was shown and the number of job printing employees was 209 representing a population of about 1,000. Only two firms of the 23 made any profit, the total loss in the industry in Vancouver for the past year being \$162,821.

This is all to be changed. Expert cost accountants have been engaged by the Vancouver printers, who have recently organized to save themselves from disaster, and a schedule of prices has been prepared that will be expected to return to the printer his costs on each individual job and a small margin of profit beside.

Hon. N. W. Rowell, Ontario's prominent white ribboner, and President of the Privy Council of the Dominion, is spending the summer in the Okanagan. He has a farm at Okanagan Centre. Mr. Rowell is said to be slated for an additional cabinet position in the forthcoming ministerial shuffle at Ottawa.

CORRECTING FOOLISH NOTIONS.

Professor Swanson, head of the Political Science Department of the University of Saskatchewan, spoke the truth when, addressing the Retail Merchants of that province recently, he said: "It has been almost the policy of Canada to look upon the thrifty man as mean and narrow in his outlook upon life. We have admired the land speculator and the man who made and spent money, but the war has tended to change this."

The War Savings campaign with its War Savings and Thrift Stamps is following up the opportunity created by the war. It is giving the people the correct perspective. It is bringing home to them the foolishness of waste. It is teaching them to invest wisely.

Moreover, the campaign is making it easy for the people to save, because it enables them to purchase War Savings Stamps, which are the soundest possible investment and which pay well.

There's a good thing about a dog: He does not pretend to be anything else.

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 12, No. 2. Whole No 575.

SUMMERLAND, B.C., FRIDAY, AUGUST 8, 1919.

\$2.00, payable in advance.

Want A Police Magistrate Here

Council Will Recommend the Appointment of W. T. Broad, L.L.B.

Further Extension of Public Utilities Required Here

There are occasions when Summerland would find it convenient to have a police magistrate and a proper police court. It is doubtful if there is anywhere in all Canada another place of the size of Summerland without such an official. To provide this need it is necessary that an appointment be made by the Provincial Government.

Several weeks ago, as the result of requests from citizens and in recognition of the fact that it would at times be an advantage to have a police court, the Municipal Council wrote Prof. W. T. Broad asking that he give his consent to his being recommended for appointment to the position of police magistrate. At the regular meeting of the Council on Tuesday Prof. Broad's answer was received and read. In this he made certain suggestions and consented to his being recommended for the position upon certain conditions which the Council was willing to grant.

Committee work occupied the attention of the members of the Council until 4.30 on Tuesday and at 6.30 adjournment was made, the earliest in many weeks. All members were present except Coun. Dodwell.

Municipal Electrician Thornber reported that five households in a group in Peach Orchard desired electric light connections. The total cost to the Municipality would not exceed \$100. He was asked to get the regular written applications from each householder.

A report from R. R. Chew that a flume leading to a small siphon in Prairie Valley was in bad condition was referred to Foreman Tomlin for early attention.

Lack of domestic water pressure and a continued irregularity in the supply of irrigation to the Farm were complained of in a letter from Supt. Helmer. The letter was referred to Chairman Kirk of the Water Committee.

An offer of gravel at a bonus of 25c. per load was received from G. H. Doherty and referred to Chairman Campbell of the Roads Committee with power to act.

An application from W. R. Tweedy for an irrigation box was referred to the Water Foreman.

Two more applications for domestic water were added to the list of those to receive consideration along with others now in the hands of the Engineer for reports. These two were from H. W. Treffry, Paradise Flat, and G. Morgan, Trout Creek Point.

Being on a pipe line A. E. Rose was given domestic water for his orchard lot. The application of C. W. Lees for electric light in his packing house was also granted, as was that of R. H. English for a cottage on Shaughnessy Avenue.

Much more time is required during the period between irrigation seasons to keep a supply of water pumped to Paradise Flat that would be necessary were a larger pump used. The Clerk was on Tuesday instructed to get full data from the pipeline foreman and forward it to a coast firm for the purpose of learning what size of pump would serve the purpose and the cost of same.

Fined For Letting Water On To Roads

Kelowna.—Users of irrigation water who permit the water to flow over on to the roadway had better take a warning from the fate of several residents of the district who appeared in the Provincial Police Court during the past few days. Seven convictions have already been made on charges under this heading, it now being a punishable offence to allow water to run on to the roadway. Those who have been prosecuted are A. E. Latta, of Ellison; W. E. Adams, manager of the Central Okanagan Irrigation Company; Bram Singh; W. J. Rankin, of Glenmore; J. S. McKenzie, foreman of Capt. Brown's ranch;

Goes To Kelowna

Mr. C. W. Lees, recently principal of the Summerland Public Schools, has been appointed to the position of principal of the Public School at Kelowna.

Early this week Mr. Lees was advised by phone of the vacancy, and he was asked to apply for the position which was to be advertised. Promising to give the matter serious consideration Mr. Lees later put in a written application and upon receipt of this at Kelowna he was informed by phone that his application had been accepted. The salary is \$200 per month.

Mr. and Mrs. Lees will visit Kelowna at once to arrange for a house but will reside here until school term begins.

Local Motorists To Organize

With approximately one hundred and fifty motor cars it is time that Summerland had an automobile association. Frequently expression has been given to this opinion by car owners, and last year preliminary steps were taken to effect such an organization. The subject was revived at the Board of Trade meeting on Wednesday and following that meeting a start was made towards forming an automobile club.

Having elected Rev. H. A. Solly and R. E. White as provisional chairman and secretary respectively the meeting resolved that an automobile association be organized. Messrs. Lawler, Lees, Tait and Solly were named a committee to arrange for further organization.

Another meeting was arranged to be held in Campbell's Hall next Wednesday evening.

Valley Re-Union Held at Vernon

Vernon held a monster celebration on Monday and Tuesday last to commemorate peace. Perhaps not every one noticed that the first day, Monday, was the fifth anniversary of the declaration of war by Britain on Germany. Several cars went up from here, among those driving up being Scott, Darkis, F. R. Gartrell, Jno. Tait, G. N. Gartrell, R. Johnston, Miss Edna English and T. J. Garnett.

The weather was not at all propitious the first day, when a parade of decorated cars and floats was held followed by sports in the afternoon, and a banquet for returned soldiers and boxing in the evening. At the banquet Hon. N. W. Rowell, Bishop Doull of the Kootenay Diocese, and Brigadier General Odium were among the speakers. On Monday afternoon Lieut. Hall arrived from Kamloops with his aeroplane, stunting over the grounds before proceeding to the old camp site to land. Passenger carrying flights were made both days, and more exciting stunts were seen Tuesday.

Five teams played off a baseball tournament, Pentleton taking first place. Armstrong and Vernon played increase, the former winning out. A bucking contest and wild steer riding were two very popular events.

All hotel and eating accommodations were crowded, and everything considered Vernon is to be congratulated on this complete organization of such pretensions. All stores in the city closed on Monday, and again Tuesday afternoon.

Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Date, 1919.	Max.	Min.	Rain	Sn.	Sunshine
July 30—	88	62	.00	0.0	0.7
" 31—	76	62	.09	0.0	4.8
Aug. 1—	85	59	.00	0.0	10.8
" 2—	88	60	.00	0.0	9.9
" 3—	78	58	.02	0.0	10.2
" 4—	67	57	.07	0.0	.2
" 5—	76	57	.00	0.0	10.5

and J. Lang, Ellison. In each case Magistrate Weddell imposed a fine of \$5.00 and \$2.50 costs, the minimum fine under the statute.

Summerland Will Send Fruit Display to Vancouver Fair

Board of Trade Appoints Committee to Attend to This Phase of District Publicity

Roads Are Again Discussed

Would Have Municipality Better Equipped for Road Work. Favor Road Tax. Dutiable Parcels Delayed

Summerland will have a display of fruit at the Vancouver Exhibition, September 8th to 13th, it was determined at the Board of Trade meeting on Wednesday. Plans were launched at that meeting, which, if carried through as outlined, will give the district some efficient publicity. Correspondence to the Municipal Council and to the Board of Trade was read by Secretary Lees in which Summerland was urged to request to send down a display of fruit and other soil products.

Following a general discussion of the merits of such an undertaking, the means of gathering the material and the cost it was unanimously agreed that the Publicity Committee, Messrs. Kelley, Zimmerman and Tait with the addition of Messrs. Helmer and R. V. Agur be asked to go further into the matter at once. This committee was asked to call a meeting at any time their plans had sufficiently advanced to permit of an estimate of the cost, when the Board would be asked to approve of the expenditure.

The meeting opened with President Andrew in the chair, but at 10 o'clock his place was taken by Vice-President Solly. At first there was a rather slim attendance but later the numbers approached the average.

Nothing having been heard of a resolution to the Municipal Council some weeks ago asking that that body ascertain the cost of necessary road equipment and what sum of money would be required to be spent over a period of years to put the roads of the Municipality in satisfactory condition, a further resolution was passed instructing the Secretary to remind the Council of this request.

President Andrew thought it might also be well to remind the councillors who spoke at Trout Creek last January of their pre-election declarations as to the Lakeshore road between the Post Office and Trout Creek bridge.

Disappointment was expressed from the floor in that the Council had not made more of an effort to take care of the water that flows from the Zimmerman gulch.

General sympathy was expressed for the Summerland Lumber Company in that the Government had failed to put the road between Summerland and Mineola in satisfactory condition.

factory condition. Manager Wheeler who was present, stated that many thousands of dollars were collected annually by the Government from the Mineola district in stumpage and royalty fees and in taxes, but scarcely a dollar of it was ever returned to the district. A resolution covering this subject will in all probability, be submitted for the approval of the Board at the next meeting.

In a brief report on the University Extension lectures, R. E. White told of their success and stated that the University was well satisfied with the reception given the lecturers. He had been assured that Summerland would be included in the circuits of further lecture courses.

Mr. Francis R. Jones, special commissioner from headquarters of the Overseas Club is now in Canada, according to a communication from London. The Board was asked to co-operate in arranging for him to address a Summerland audience. W. C. Kelley was delegated to confer with Mrs. F. A. Miller, local acting correspondent of the Club, on this matter.

Following a statement that the present lessee of Hotel Summerland planned to surrender his lease at an early date a committee of two, R. E. White and K. S. Hogg, was asked to look into the matter and make arrangements within their power to have the hotel kept open during the winter.

Dissatisfaction was expressed with the present arrangements regarding dutiable mail matter addressed to West Summerland. Such matter addressed to Summerland comes through promptly but anything for the upper Post Office is held at Pentleton. A resolution to the Post Office authorities, proposed by Mr. Hogg, asking that all such matter for West Summerland and the Rural Route be forwarded to Summerland was unanimously carried.

During the discussion on roads Coun. White, Chairman of the Municipal Finance Committee stated that he had recommended to the Council the imposing of a road tax on all male adult citizens not paying a land tax, and that this matter was now receiving the consideration of the Council. Later in the evening a resolution approving of such a tax was proposed and carried without opposition.

LOCAL MAIL SERVICE

Sunday Transfer of Mails From Upper Post Office

An improvement in the local inter-office mail service has been provided by the Post Office Department. In the past any mail matter dropped in the upper post office for points north and east after the closing of the mail for the lower office on Saturday afternoon remained there until Monday afternoon and did not get on the boat until Tuesday morning. This annoying inconvenience has been removed by the extending of the courier service between the upper and lower post offices from a six to a seven day service during the summer months. It has been the practice of many to bring their mail matter to the lower office on Saturday nights and on Sunday. This will not be necessary while the seven day service is in effect. Apparently the improved service is permanent for the months June to September inclusive, judging from the wording of the information sent to Postmaster Bowering.

Motor tourist traffic is now at its height. Many cars are to be seen here every day bound either north or south. That some of them have come from points far distant is indicated by their license plates.

KELOWNA'S BIG REGATTA

Full Programme of Events for Two Day Show There

Kelowna's Thirteenth Annual Regatta, known as the Peace Regatta, will be held in the up-the-lake city on Wednesday and Thursday, August 13 and 14. A full program has been prepared for the two days of fun. On Wednesday the events will comprise swimming, diving, canoe and boat racing. The field and track items comprise sprints, jumps, relays and a football game. There will be a dance at night.

On Thursday there will be more swimming and diving competitions, with a launch race and a war canoe race.

An aeroplane exhibition is scheduled, with also a baseball tournament and a lacrosse game. A confetti carnival and dance will close the second day.

Meet General Manager

Branch managers of the Bank of Montreal in the Valley gathered at Sicamous on Tuesday evening to meet Sir Frederick Williams-Taylor, General Manager of the Bank, who was passing through in his private car. Mr. E. J. White, the local manager, went up on Tuesday's boat, and joined a motor party at Kelowna for Vernon.

Insp. Anstey Moved

Kelowna.—Many people will learn with interest of the appointment of Mr. A. R. Lord, a former Kelowna school principal, to the position of schools inspector of the Okanagan district, rendered vacant by the transfer of Mr. A. Anstey to Vancouver. Mr. Lord is to make his headquarters in Kelowna, and will be here some time in October. On his leaving Kelowna some five or six years ago Mr. Lord was for a time principal of a Vancouver school, and for the past four years has been stationed at Prince Rupert as school inspector for that district. Mrs. Lord, formerly Miss McNair, was also at one time a teacher on the local school staff.

B.C. Fruit Growers Executive Meets

Mr. R. V. Agur, local member of the executive of the B.C.F.G.A., reports an interesting and important meeting of the executive held at Vancouver from which he returned last Friday. Both the Minister and Deputy Minister of Agriculture attended the meetings and both, no doubt, learned a lot about the fruit industry of the province.

Further effort is to be made to have all independent fruit houses contribute to the fund maintained by the Association for the benefit of all fruit growers and shippers, such as opposing the proposed increase in express rates, meeting movements for lower tariffs on fruit, etc.

Oriental ownership of land, the sugar shortage on the prairies and a campaign for increased membership among fruit growers were other matters dealt with.

Canneries and Fruit Growing

(Spokane Review)

Last year's prices which made fruit growers rub their eyes, will be beaten this year all along the line. The crops of strawberries and cherries have already been disposed of at fancy prices, and there is nothing to indicate that there will be any change with respect to the other crops that are coming.

Yakima growers have been offered \$55 a ton for their pears by a west side cannery, the highest price ever reported at the opening of a season.

The same cannery is offering to contract for cull apples at \$10 a ton, which is three times the price of two years ago.

The canneries have a great deal to do with the sudden change in fruit prices. There has been a general tendency in the last year or so to bring the canneries to the Inland Empire fruit districts instead of making the fruit go to the canneries. This is, in addition to its beneficial effect on prices paid to growers, a great step in the direction of conservation. Canneries take fruit from the orchards and put it up before it has a chance to spoil. They take, and utilize, fruit of the lower grades that used to be utterly wasted.

A fruit district that has a good cannery need not fear the old nightmare of an oversupply of apples or peaches rotting on the ground.

New Meteorological Station

The weather department of the Provincial Government has made arrangements for the establishment of a third station in Summerland and district. Mr. F. A. Miller of Bathford has been supplied with a rain gauge, and will henceforth be able to report precipitation there to The Review periodically. Later on he expects to be supplied with a thermometer when he will be able to report maximum and minimum temperatures.

The record Mr. Miller has kept of the rainfall in the month of July is as follows:

1st	Light Showers
5th	.81 inches
16th	Light Showers
28th	Light Showers
31st	.10 inches
Total	.41 inches

Cancelling Orders For Soft Fruit

Serious Shortage of Sugar Affecting the Prairie Fruit Market

Government Puts Embargo on Sugar Exports For a Time

Shortage of sugar on the prairies has undoubtedly interfered with the selling of fruit. In some parts retailers report a complete stoppage of fruit sales where usually the trade is brisk. The Vancouver refinery is putting out its utmost but its output at best could fill only a small part of the prairie needs just at preserving time. Eastern refineries are supposed to have been exporting instead of shipping west, however, and hence the shortage there.

The following is a statement from S. S. Savage of Plunkett & Savage, Calgary, who is leading the fight to bring about an ending of the sugar shortage in Western Canada:

"An embargo is the only remedy that will help Canada now. The B.C. Refining Company is doing all it can to help the situation, but it has orders ahead for two months which it must fill.

"The eastern refiners say that they can only ship limited quantities west, but this is because they are exporting. Exporting sugar when Canada needs it so badly to counteract the high cost of living is an improper proceeding and I shall ask the local members of Parliament to petition the Dominion Government to put an embargo on sugar exports until the Canadian situation has been relieved."

That Mr. Savage's efforts have been successful is indicated by the following telegram:

Ottawa, July 31.
S. S. Savage, President, Western Canada Fruit Jobbers, Calgary.

Yours received. Meanwhile issuing no more export licenses for sugar. Food Board investigating actual requirements in Western Provinces. Have advised eastern refineries urgency Western situation. Suggest western buyers get into immediate communication with different eastern refineries and make direct arrangements re deliveries and prices.

CANADA TRADE COMMISSION. Meanwhile from Calgary it is also reported by the Prairie Markets Commissioner that wholesalers are not sending nearly as much fruit to country points as the sugar shortage is more acute in those places. This leaves a much larger quantity to be handled locally.

Saskatchewan appears to be the worst situated province in regard to the shortage. The B.C. Sugar Refinery has now signified its intention to fill Alberta orders before shipping farther east, and shipments from the east are not yet reaching Saskatchewan in anything like the volume required.

So far local shippers have suffered no direct loss, canneries having taken any fruit assembled for orders since cancelled.

Union shipments have been largely for Manitoba, where the sugar shortage is not so acute.

Osoyoos Hill Road Will Be Fixed Up.

Those who have occasion to travel Osoyoos Hill or Anarchist Mountain frequently are congratulating themselves since the recent visit of the Hon. J. H. King, Minister of Public Works, it is stated.

The Osoyoos hill is the aggravating link between the network of fine roadways of the Okanagan and Boundary districts; the length of the hill is bad enough but the condition of the road makes it much worse. According to report, when the Hon. Dr. King was motoring through on his recent trip the car in which he travelled was unable to climb the hill on account of the road's condition, and it was necessary for the Minister and his party to make the most of the grade on foot. It is stated that instructions were at once given to have the hill put in good shape for travel.

UNSIGHTLY BILLBOARDS.

ADVERTISING, when properly directed, is no doubt a means of creating additional business for the advertiser. How the advertiser spends his appropriation—from the standpoint of securing results—is his own concern.

The medium through which he reaches the public, however, concerns the public, and the people are awakening to the fact.

Appearance counts. For this reason and for no other, all modern newspapers, notwithstanding that the greater proportion of their revenue comes from advertising, have excluded display advertising from their front pages.

When a private industry, so dependent upon its advertisers, can take a stand on behalf of appearances, how much more important is it that our public streets, the front pages of our towns, should be protected? The more public a situation is, the more eagerly is it seized upon for the erection of a billboard, and this regardless of the fact that it constitutes a deteriorating influence upon surrounding property, in many cases a hiding place for a "dump," and often creates a fire menace of no mean proportion.

Cities are spending enormous sums in the construction of good roads and sidewalks; merchants and residents, largely for the sake of appearances, improve their properties fronting on same, that the eye of the travelling public may not be offended. Yet billboards and signs are permitted without control as to location.

It is high time that our municipal authorities recognized their duty towards public amenities, and regulated the erection of signs and billboards.

THE METRIC SYSTEM FOR WEIGHTS AND MEASURES.

THINKING MEN AND WOMEN will do well to consider the striking arguments brought out by the World Trade Club of San Francisco in their campaign for adoption of the units of the metric system of weights and measures.

They show a striking anomaly: That the metric system was invented by a Briton, James Watt, in 1783, and yet all civilized nations have adopted it exclusively, excepting the United States and Britannia, including Canada.

That the so-called "British system" of weights and measures is of German origin—a relic of the old German Hanseatic trade league—and yet Germany scrapped it in 1871 and adopted the metric system, invented by a Briton.

People of Britannia and America may well ask themselves whether they are not carrying conservatism too far.

The Metric System is no untried theory.

Its principle—the principle of decimal computation—has been used in the monetary system of the United States since 1786. If the United States had heeded Thomas Jefferson, they should also have adopted this system of weights and measures based on decimals—so simple a system that a child can learn its main features in ten minutes. Canada now uses decimal coinage. We know how well the decimal system works with money. It will work equally well with weights and measures.

The World Trade Club has started the ball rolling. What we all need is to look the subject up.

THE PRAIRIE PROVINCES produce a not inconsiderable yield of fruit, mostly small fruits, as shown in the Canada Year Book for

1918, issued by the Dominion Statistician. For the three provinces as stated the number of apple trees in bearing was 2,574; of apple trees not in bearing 10,618. Other orchard trees bearing numbered 7,201, and non-bearing 3,278. The orchard acreage is 674, and that of gardens 32,764. Of strawberries the production was 20,855 quarts, of currants 31,355 quarts, of gooseberries 11,609 quarts, of other small fruits 499 quarts, of apples 11,899 bushels, and of other orchard fruits 1,393 bushels.

T. F. McWilliams accompanied by a soldier friend, J. H. Davies, motored from Vernon on Saturday, and on Sunday drove on to Kaleden to visit E. H. Lock, all three being McMaster class mates. With him they motored down to Fairview, seeing the Soldier Settlement land. On Monday morning Messrs. McWilliams and Davies returned to Vernon, the latter leaving for Calgary that afternoon much impressed by his first trip through the Valley. Mr. Davies has served in both the army and navy and was a lieutenant in the First Rifle Brigade in the Imperial army towards the close of the war. He was wounded eleven days before the armistice.

Keep your cash at home and it will continue to work for you. Send it away and it will work for the other fellow to your disadvantage.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs. Lupton of Kelowna with two of her children have come down to reside here for a time. They have taken up residence in the Pollard cottage.

On Thursday morning Mrs. Stevens with her three boys left for England where she expects to remain for a time.

Major Hardisty was a passenger north on Thursday of last week.

Miss A. E. Elliott was a visitor to Kelowna on Thursday, accompanied by Emma Hockyard, both returning on the afternoon boat.

Mrs. L. Vivian returned from Penticton on Thursday morning, accompanied by her brother from the prairie who is spending a short vacation here with the family.

After a pleasant visit spent with Mrs. W. Morsch, Mrs. Walters and her little girl returned Thursday evening to their home in Naramata.

The C.P.R. pliedriver with its crew of men spent a few days last week and this, doing some much needed repairs to the C.P.R. wharf here. They were picked up by the tug and taken to the Landing on Tuesday morning.

Miss Jean Kincaid arrived on Thursday evening to visit friends here.

Messrs. George Keyes and S. H. Murdin returned on Thursday from a pleasant motor trip to Salmon Arm and district. They report having seen some very nice orchard country around Salmon Arm.

Passengers northbound on Friday morning were Miss Doris Long and Mr. W. W. Fulton.

Miss Stella Lupton came down from Kelowna on Friday to join the rest of the family here; she was accompanied by her chum Miss Irene Parkinson, who came to enjoy a short holiday here.

Mr. E. S. Taylor and family are enjoying a visit from Mr. Taylor's sister in law and her two children from Winnipeg, Man.

After spending a few days' pleasant visit here with her sister in law Mrs. H. McDougall, and Mrs. P. N. Dorland, Mrs. Dr. Woodley left by the south bound boat on Saturday.

Mr. P. N. Dorland paid home another flying visit this past week end, making the trip up and return by auto from Penticton.

Rev. A. Grieve of Penticton filled the pulpit in the Baptist Church here on Sunday and gave a very interesting sermon preparatory and leading up to a series of sermons he is preparing to preach from the pulpit here on "The Second Coming of Christ," on alternate Sundays at 8 p.m.

Rev. Hugh Dobson, B.A., B.D., Field Secretary Social Service and Evangelism preached in the Union Church on Sunday evening last to a good audience who heard a very able sermon on Justice and Righteousness. Mr. Dobson has a large field and a large work, having the four western provinces to look after, and is very enthusiastic in his work.

The weather conditions here on Monday morning last were not very conducive to encouraging a large attendance from here at the celebration in Vernon. The following were the persons who went from here on the excursion boat: H. H. Thompson with Mrs. Thompson and little Master Leslie; J. E. Kerr; J. Buchanan; H. Miller; H. Kenting. A number of others in the

community motored up later in the day, and those who went report having had a very good time.

A party of visitors came in on Monday night last from Calgary to spend a couple of weeks' holiday here. They are Mrs. John Cooper with her son Ross; and Gerald Hator who are stopping with Mrs. and Miss Needham; Mrs. Wylie, Miss Lambertson and Miss Helts in Mrs. Mills' home.

W. W. Fulton left for Summerland on Monday where he has accepted a position with Mr. Wellington Watson.

After having spent a very enjoyable holiday at Naramata with their grandparents Mr. and Mrs. Jas. Hayward, Ronald and Willa Elliott returned to their home here on Tuesday morning.

Master Jack Chambers of Vancouver arrived on Tuesday night to spend a portion of the holidays here with his chum Master MacMillan.

The Wilson family are enjoying a visit from friends, Mr. and Mrs. Hackett from Lamont, Alberta.

We are beginning to be curious now as to what is in store for us under the auspices of the Women's Institute toward the end of this month in the Orange Hall. From

Water Notice.

DIVERSION AND USE.

TAKE NOTICE that Frederick Charles Wildy, whose address is Peachland, will apply for a licence to take and use 1,000 gallons daily of water out of lake, also known as Wildy's Lake, which flows through his property, and drains into Okanagan Lake, about at the N.W. Point, S.W. point of property. The water will be diverted from the stream at a point about middle of lake at about 600 yards from S.E. corner, and will be used for irrigation purpose upon the land described as P.R. 961, S. Similkameen.

This notice was posted on the ground on the 21st day of July, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C. within fifty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is August 1st, 1919.

FREDERICK CHARLES WILDY, Applicant.

their second class tests were given an opportunity to do so, following which a good hour was spent in scouting games.

The Scout Master is in receipt of a letter from Provincial Headquarters informing him that it has been H.R.H. The Prince of Wales' special request to inspect all Scout troops along his route, and asking him to be prepared.

As the treasury is again sadly depleted it was decided at the last Court of Honor, meeting to hold another dance. This is planned to be the biggest dance ever held in Summerland. Committees have already been chosen and all are busily engaged now. So we are sure it will be in every respect a success. Everybody turn out and spend an enjoyable evening.

Naramata News

Current Events of
Town and District

Mrs. Dean Walters and daughter Alice spent a few days last week with Mrs. Morsch in Peachland.

Mr. Baker and family of Weyburn, Sask., spent a short time in this district looking over the possibilities for investment in fruit property or other business.

Mrs. Thos. Kenyon and sister Miss Monk were visitors at the home of Mrs. Hunt in Glenmore last week.

Mrs. Fred Young and niece Miss Sadie Davidson have gone to Vancouver for a few days.

Major Fraser and Captain Flannigan of Ottawa are guests of Mr. C. C. Aikins.

Mrs. A. J. Gordon of Vancouver is visiting this district with the idea of getting subjects of general interest to write up for the Vancouver Province. Mrs. Gordon was here last year and her most interesting articles were much appreciated by the readers of the coast papers. Mrs. Gordon has been in Penticton district and expects to get a good deal of interesting matter from Summerland.

Mr. and Mrs. Jas. Dean arrived from the coast on Saturday morning and are the guests of Mr. and Mrs. George Wolstencroft.

It is with regret that we learn that the Syndica House is closing this week. It is to be hoped that it will be able to operate again before long as it leaves the community with no place for hotel accommodations.

Miss Mariah McKechnie, daughter of Dr. Will McKechnie of Vancouver, is visiting at the home of Mr. and Mrs. J. M. Robinson.

Mr. and Mrs. R. C. Robinson and Mr. Gordon Hayman motored to Summerland on Monday.

Rehearsals are in progress for a local concert to be given in Naramata Opera Hall the last of this

month. The affair will be under the direction of Mrs. C. C. Aikins and the funds will be turned over to the Red Cross.

The Rev. Mr. Ewing and family are spending their vacation here and are occupying the Bartlett cottage.

The Rev. Mr. Millar of Penticton was here on Sunday.

A party from Poplar Grove held a picnic on the North beach on Thursday afternoon.

A very pleasant evening was spent at the dance given by Mr. and Mrs. F. C. Manchester at the Pavilion on Thursday night. There was a good crowd from Summerland and Penticton, the people coming by both car and ferry. Refreshments were served by the Unity Club.

Mrs. Lumsden and son Gerald were here over the week end. Mr. Gerald Lumsden was sent to the Valley by his doctor at the coast to try and regain his health. He will probably live in a tent on the Leckie property on the beach near the Unity Club building.

The improvement in the Summerland phone service is much appreciated and the fact that it will not be interrupted as it has been in the past will be sure to get new business.

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

A Matter of Acreage.

The Editor,
Summerland Review.
In the B.C. Fruit Growers' Association Bulletin for July, I note two paragraphs concerning bees which will bear some enlarging on. They are as follows:—
"Pollenating agencies such as the honey bee are necessary to the set of a good crop of fruit."
"One colony of honey bees should be provided for each acre of or-

chard."
I may say that these axioms are laid down with special reference to the cultivation of Bartlett pears, but they will apply to fruit growing in general, more or less, all growers having found from experience that the weight of their crop depends largely on the extent to which the blossom is pollenated, and also that no agency is so effective as the work of the honey bee.

The second paragraph, however, must be taken with certain reservations. It is probably quite true that a colony of honey bees to the acre may not be too much for pollenating purposes, but the beekeeper, as such, has to consider the prosperity of his bees during the time when there are no fruit blossoms in evidence, and nectar must be found elsewhere. It must be kept in mind that, in a district like this, natural blossom is scarce all through the latter part of the summer, and a colony of bees which find plenty in a fruit orchard in the early months, may very easily go short later on. Therefore the fruit grower in this Valley will do well to think of his bees when sowing his cover crops for ploughing in, and choose those which will serve as fields of nectar as well as fertilizers. He has plenty of choice—alfalfa, alsike, hairy vetch and the small white Dutch clover, are all nectar producers, and, I believe, are also all good fertilizers. But the big red clover, which is so rich in promise and so barren in results, is anathema to the bee man, for the simple reason that, although nectar may be in its blossoms in abundance, it is too deeply hidden for the honey bee to reach it, and the unprofitable bumble bee gets it all—and keeps it.

To advocate the cultivation of sweet clover may be rank heresy in the present day; nevertheless there is no reason why it should not be encouraged in waste places and along the roadsides, as it seems to be in Summerland. Sweet clover is probably the greatest of all sources of nectar, acre for acre, in this country, and a judicious spreading of this and its smaller fellow, white Dutch, cannot be too strongly advised in places where the honey bee is an admitted necessity.

Failing some such provision, together with suitable cover crops on the ranch, the proportion of one colony to one acre would be unworkable.

GEO. WEAVER.

Naramata, B.C.

Summerland, B.C.,
Aug. 6th, 1919.

Dear Sir:

Kindly allow me space in your valuable paper to reply to that person who pens her signature as Mrs. Alice Taylor.

In the issue of July the 18th there was no names mentioned and if the cap did not fit why did Mrs. Taylor put it on? I have resided in Summerland for eight years and during that time I have never before been awakened by the audacity of any person picking cherries from a tree not more than twenty feet from my window at 3 o'clock in the morning in good moonlight almost as bright as day.

You stated Mr. Tavender followed with a warning address to young men, which is misleading. He had reference only to the young man who was seen in the orchard on the morning of July the 17th. Your son told me during the cherry season that he was out in an auto truck joy riding until two or three o'clock in the morning. How does that agree with your statement that your son was in your home and never up before six o'clock in the morning?

Perhaps you forgot to mention the time he went to bed. My character is above reproach, and I am

not writing simply for the sake of correspondence, but to clear myself of the damaging and illegal statement of August the 1st.

Yours truly,
LILLIAN TAVENDER.

[The subject matter of this correspondence having now developed into one of pure personalities and believing that the publicity that has

been given the prime subject of stealing fruit will have had some effect in checking the evil wherever it may exist in its territory The Review declines to give further space to this discussion.]

Hawaiian concert and dance at King's Hall, Penticton, Monday evening, August 11th. Don't miss this concert and dance.

Land Registry Act.

NOTICE UNDER SECTION 36.

No. of Application, 7654D, 7667D, 7675D.

TAKE NOTICE that an application has been made to register The Corporation of the District of Peachland, as the owner in Fee-simple, under a Tax Sale Deed from the Collector of the Municipality of Peachland, to The Corporation of the District of Peachland, bearing date the 10th day of September, A.D. 1917, in pursuance of a Tax Sale held by said Municipality on or about the 17th day of August, 1916, of all and singular certain parcel or tract of land and premises situate, lying, and being in the Municipality of Peachland, in the Province of British Columbia, more particularly known and described as:— Block 19, Map 125, in Sub-division of District Lot 490, Group 1, Osoyoos Division, Yale District Block 13, Map 410, in subdivision of District Lot 2538, Group 1, Osoyoos Division, Yale District; Block 11, Map 410 in subdivision of District Lot 2538, Group 1, Osoyoos Division Yale District.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said The Corporation of the District of Peachland as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:

"And in default of a caveat or certificate of its pendency being filed before the registration as owner of the persons entitled under such tax sale all persons so served with notice or served with notice under subsection (6) of section 155 of the Municipal "Clauses Act, 1906," or section 208 of the "Municipal Act,"

or section 1139 of the "Assessment Act, 1908," or section 253 of the "Taxation Act," in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up

any claim to or in respect of the land so sold for taxes."

DATED at the Land Registry Office, at the City of Kamloops, Province of British Columbia, this 9th day of July, A.D. 1919.

C. H. DUNBAR,
District Registrar.

To F. H. LeQueune, Assessed owner of Block 19, Map 125; Mrs. Janet Davis, Assessed owner of Block 13, Map 410; Maud Mary Jackson, Assessed owner of Block 11, Map 410.

Rain or Shine don't forget to attend the Auction Sale on Saturday. Ample seating accommodation. 2

Mr. and Mrs. Ross Bueland of Okanogan, Washington, were guests of Mr. and Mrs. Geo. H. Doherty over last week end.

Capt. Lane, owner of the lot just across the road to the north of the Woodworth lot was a visitor to Summerland this week.

Negotiations have been opened by Mr. A. McLachlan for the purchase of the well known Hilborn property on Jones Flat.

The Bartholomew house in Peach Orchard has been let to Miss Banks, a new member of the local school staff, and her mother.

Mrs. G. M. Ross returned to Field on Tuesday morning, accompanied by her little daughter. It is expected that with Mr. Ross they will return for a vacation before very long.

Hawaiian Serenaders will give a musical concert in King's Hall, Penticton, Monday evening, August 11th, followed by a dance. Music by Hawaiians augmented by piano and drums. Admission \$1.00 for both concert and dance. Children to concert, 25c. 2

There has been no response to the request that ripe fruit be taken to the K.V.R. station for advertising purposes. Those who attend the incoming trains say it is a common thing for passengers to enquire for fruit and are often disappointed when told that it cannot even be bought at the station. Looks like a chance for business for some enterprising youngster living near the station.

Lieut. C. Edmund Bentley arrived home Thursday night looking in fine form and none the worse for his war experience. He was preceded by his sister, Mrs. Pares, by but a few days. She reached home on Saturday and was among those at the wharf to greet the returning veteran. Mrs. Pares has been in England since early in the war having gone over at the time her late husband enlisted. She took up war work and served as a police sergeant.

Surveyors are busy on the soldier settlement tract to the south, getting levels for the irrigation system that is being installed there. One source of water will be Vaseaux Lake from which it is expected that water will be carried to irrigate at least most of the bottom land. That this work is no mean undertaking may be seen from the fact that it is estimated that 300,000 tons of material of various kinds will have to be taken in by horse and truck.

Granite kitchen articles in large variety at Auction Sale. 2

Mrs. Spick of Winnipeg is a visitor here at the home of her sister, Mrs. A. W. E. Fawkes.

The Auction Room will be open Saturday morning from 9 to 12 o'clock for persons to view the goods for sale. 2

Mr. and Mrs. Jas. Ritchie and family came in by K.V.R. Thursday morning from Vancouver. They will remain for some weeks.

Dishes Galore! Replenish your stock in this line. Also a few toilet sets in good patterns at auction, Saturday, 9th. 2

There will be novelty dances by the Hawaiians in King's Hall, Penticton, Monday evening, August 11th. Come and bring your friends. 2

Mr. R. H. Helmer, Supt. of the Experimental Station, returned last night from attending the Western Irrigation Convention at Medicine Hat.

Mrs. Lipsett, wife of Dr. J. H. Lipsett of Holland, Man., and a sister of Mrs. Peter Edwards of Summerland is visiting here at the home of her sister and that of her brother in law, Dr. R. C. Lipsett.

Gordon Dinning, at one time manager of the Bank of Commerce at this place, left Vernon on Monday for Saskatoon where he will resume work in the bank after having been overseas.

The Penticton Board of Trade is making another effort to secure some of the Indian Reservation lands adjoining that city. In a resolution to Ottawa they particularly ask that the 3,000 acres lying west of the town be set apart for returned soldiers.

Mrs. Bender and her two daughters of Castor, Alberta, arrived here on Friday to get direct information on Summerland and the Okanagan and, incidentally, to help Mr. Walters in the picking of his fruit crop. They are already much impressed with Summerland, its beauties, its orchards and general advantages as a place in which to make a home.

Unlike too many other irrigation districts in the Valley, Summerland still has a good flow of water for irrigation with reservoirs holding a considerable quantity yet to be drawn from. On Monday the reservoir at the head of Prairie Valley was as full as it was considered safe to have it and for a time the closing down of the gate at the intake on Trout Creek was contemplated. The flow of the creek had risen considerably, due probably to showers in the hills. Eneas Creek too has a good flow, the only difficulty there as elsewhere being in defective sections of the distribution system.

It is rumored that the C.P.R. is likely to purchase the Great Northern road from Grand Forks to Oroville. American companies as a rule being in difficulties it is felt that this line is not receiving the attention it should in the interests of the extreme southern portion of the province. Presumably the Great Northern line up into the Similkameen would also be included in the deal. If this took place Oroville, Grand Forks and Penticton would be corners of a railway triangle, since the long projected Oroville-Penticton line is soon to be materialized.

Another break down of its power unit left Penticton without lights over last weekend.

F. H. Hayward has been spending a few days in Summerland on one of his visits from the coast.

Miss Patterson of Victoria is a guest at the Pollock home, having arrived here on Tuesday.

Inquiries for all kinds of properties are continually being made to F. D. Cooper, the real estate broker of Peach Orchard, where his office is. 52,8

The dance following the concert in King's Hall, Penticton, on Monday evening, August 11th, with Hawaiian music with piano and drums will give you the best in all the latest dance music. Come and spend an enjoyable evening. 2

Members of the Red Cross who subscribe to the fund for providing comforts for the men suffering from shell shock are reminded that their subscriptions are again due. Fifty cents is the amount due for the last five months of the year.

Many were glad to welcome Lorne Sherk back to Summerland, even if it were only for a visit. The family resided here eight years or so ago, Lorne's father carrying on a feed and dray business at West Summerland. Lorne and his brother Lemur and sister Leonora attended Okanagan College.

Inspectors who will devote their whole time to the inspection of fruit as to color, size and grade, are being placed at fruit shipping points in the Valley. Inspector T. H. Bain, who was at one time before stationed here, has returned to take up these duties. Naramata will also be in his territory of inspection.

Early risers on Wednesday got a glimpse of an aeroplane passing down the lake. It was piloted by Lieut. Hall who had the two days previously been at Vernon with his machine. Lieut. Hall is on his way to Calgary, but is proceeding slowly, stopping at several points to give exhibitions, earning his way, so to speak. Mrs. Hall and a mechanic follow the machine in a car. Lieut. Hoy was to have made an attempt to fly to Calgary from the coast in eighteen hours flying time, but bad weather caused a postponement. From Vernon the aviators fly down the Valley and across to Cranbrook. Mrs. Hall occupied the front seat in the airplane during the flight down the Valley.

World Trade Club Starts Metric System Campaign.

San Francisco, August 5.—"Dollar-Meter-Liter-Gram" is one slogan with which the World Trade Club of San Francisco, U.S. America, representing over 500 of San Francisco's leading manufacturing merchants, has started its campaign for the world-wide adoption of the metric units of measurement. "Keep the World War Won" is another. Still another is: "Our Weights and Measures Made in Germany." The Club's arguments show that the weights and measures now used by Britannia and the United States were forced upon England by the German Hansatic Trading League centuries ago. Germany herself scrapped the old units in 1871, and adopted the metric system, which was invented by a Briton, James Watt.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Prof. W. T. Broad will occupy the pulpit at the 10.30 service in St. Andrew's Presbyterian Church on Sunday. C

Walter Mumm who only returned home from overseas three or four weeks ago, went out the end of last week bound for the coast.

Mr. and Mrs. R. E. White spent last weekend at Okanogan, Wash., visiting friends. They returned on Monday, bringing Miss Helen, who has been spending two or three weeks there.

Rev. David Lister who has been in Saskatchewan since his return from overseas some months ago, came in on Tuesday. Mrs. Lister preceded him here two weeks or so previously.

A motoring evangelist, Elliott McAllister by name, stopped off here early this week and is holding services this week in the Lakeside Church. Mr. McAllister came in from the coast in his Gospel car, with texts painted on its side, and is proceeding up the lake, holding services en route. As a means to pleasure the automobile is usually known, and seldom indeed is it put wholly to such use as in this case.

The rain which fell more or less copiously last week end, while it perhaps put a stop to the plans of some who intended to go to Vernon, undoubtedly was a wonderful benefit to the country in general. In Alberta crop prospects have improved from very bad to moderately good. Some parts of Saskatchewan now report at least fifteen bushels to the acre in sight. Stockmen are jubilant over the change that has come about in the feed situation, and it is certain that it will not now be necessary to bring in such immense quantities of hay from Ontario and Quebec that provision has been made for.

Among the returning nursing sisters to arrive in Halifax this week was Matron M. E. Blott, sister of Mrs. Andrew of Summerland, and a resident of Summerland for some time previous to her enlisting. Matron May E. Blott, who has latterly been head of "The Peak" hospital at Buxton, went overseas with the 5th Canadian Base Hospital unit, and has a fine record of service. At Saloniki, she was on the nursing staff under Dr. George E. Gillies and other Vancouver medical men. Her original training was received at the Roosevelt Hospital, New York, and prior to going overseas she was chiefly engaged in private nursing. Dunnville, Ontario, is her birthplace.

DeHart Retired From Land Board

Result of Transfer of Kelowna Property Through Third Party.

VICTORIA.—By an order in council Francis R. E. DeHart of Kelowna ceases to be a member of the Board of Directors of the Provincial Land Settlement Board. The Government's action follows an investigation into the manner in which the Christian ranch at Kelowna was disposed of to the Land Settlement Board.

The story is that the Minister of Agriculture recently recommended, and the Provincial Cabinet approved, the purchase of the 440 acre Christian ranch outside Kelowna, on the repeated recommendations of Mr. Frank DeHart, who was a director of the Land Settlement Board for the Kelowna district. The price paid by the Government was \$35,000 and it was understood by the Government that this was the lowest price the actual owners would take.

Certain information, it is said, came to the knowledge of the Government after the sale was consummated, which led to an investigation being made. The result of the investigation is said to show that the sale which Mr. DeHart recommended was but the purchase of the land under a short option which netted the option holder, President Morrison of the Kelowna Liberal Association, nearly \$10,000 profit.

The option held by Mr. Morrison is said to have been obtained for \$100 by that gentleman early in December last. Sixty days later it was renewed for ten days for a further \$500, but a sum of \$600 discount was allowed off the purchase price of \$24,000 when the payment was made in the middle of March.

It is said that the investigation made by the Government shows that the transfer to Mr. Morrison was made on the same day that Mr. Morrison transferred to the Government, and that in addition the stock and implements of the ranch, which are valued at over \$1,000.

In making the recommendations for the purchase from Mr. Morrison, Director Frank DeHart is said to have urged that the property would be ideal for dividing up into small holdings for soldier settlers.

The policy of the Land Settlement Board is said to have been inflexible as to dealing only with principals, the Government taking the view that it would be improper to allow commissions and profits to agents, when those commissions and profits would have to be charged up against the purchase price which the soldier settlers would have to pay for the land on subdivision.

A Farmer.

How do you define this word? Read This One.

What is a farmer? This question caused some stir last spring in connection with the interpretation placed on the word "Farmer" by the judge of the Cowichan district court of revision and appeal.

The Attorney-General's department side-stepped the question, and the genial manager of the Cowichan Creamery supplied his own version. He now supplements this with the following, for which Farm and Dairy apologues to the Drover's Telegram:—

What's a Farmer?
A farmer is—
A capitalist who labours.
A patriot who is asked to produce at a loss.

A man who works eight hours a day twice a day.

A man who has every element of nature to combat every day in the year.

A man who is a biologist, an economist, and a lot more lists.

Who gives more and asks less than any other human being.

Who takes unto himself for his own sustenance and that of his family, those of his products that other people will not utilize.

Who gives his boys and girls to the cities to infuse red blood into a society that is constantly decadent, and whose only salvation is the virility that it draws from the rural sections.

Who is taxed more and has less representation than any other Canadian citizen.

Who sells his products for what the other fellow cares to pay for them and who buys the other fellow's products at what the other fellow cares to charge for them.

Who is caricatured on the stage and in the daily papers, but who

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands or to extent of 20 acres.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties to not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 40 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emption are due or payable by soldiers on pre-emptions recorded after June 25, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 6, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from one installment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete purchase involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

What Mulching will do for an Orchard.

(Experimental Farms Note.)

The mulch system or application of bulky vegetable material in orchard practice has in some districts a number of important advantages over tillage. In districts where the rainfall is largely confined to the winter and spring period, mulching may be the best practice. The mulch system reduces labor in orchard operations, a very important factor now that labor costs are very high. The mulch conserves the soil fertility as well as the soil moisture. The mulch system favors early ripening of the wood in the autumn and does not encourage excess of wood production. It favors the accumulation of vegetable matter in the surface layer of the soil. The turf created prevents soil washing during the spring and winter period. The mulch favors vermin, insect and fungus troubles; these are disadvantages that detract considerably from the gain in labor and soil saving.

can come nearer taking hold of any business and making it go than any other Canadian alive and in captivity.

That's what a farmer is. —Cowichan Leader.

What Tillage will do for an Orchard.

(Experimental Farms Note.)

The success of an orchard project in B.C. demands that thorough tillage be practised until such time as the trees are well established. Surface tillage conserves the moisture of the winter and spring months for the use of the tree during the period of growth and seasonal fruit development. Tillage aerates the soil aiding chemical and bacterial action in plant food production. The tillage operations aid in the disintegration of the soil particles that carry the food elements. Tillage destroys many insect pests and fungus spores, thereby reducing greatly the insect and fungus injury.

In the arid sections, tillage destroys the soil fibre and reduces vegetable matter or humus making agent. With the fibre or vegetable matter gone, the soils become more difficult to till and poorer in nitrogen. Tillage practice has a big balance in its favour and is the practice of the most successful orchardists.

Will Remove High School To College Building

School Board Proposes to Charge All High School Pupils Tuition Fees

Okanagan College main building will be leased by the Summerland School Board for High School purposes. This action was unanimously decided upon at the regular board meeting on Saturday. As has been stated, the unpreparedness of the district for the greatly increased school population has forced the Board to take the present high school building for public school purposes and to make other provision for the high school.

The Methodist Church Board was asked to quote a monthly rate on the church and men's club buildings altered to meet the requirements of the School Board. George Gartrell was asked to put a price on his building, a portion of which is now occupied by the Drug Company and the Okanagan College Board was also approached for a figure for the use of a part of the main College building.

At the meeting on Saturday the several propositions were considered. The church and club rooms were quoted at \$60 per month, and the required space in the College building was offered at \$35. The store building was not entertained. The college authorities will make what changes were asked for the interior of the building and Mr. G. J. C. White, representing them, promised the use of the assembly hall, accommodation for janitor and other privileges. An option for a second year was promised by Mr. White, subject to certain conditions.

The college offer was accepted and Mr. White undertook to have the lease drawn up. Trustee Marshall and the Secretary were authorized to arrange the details with the College Board.

DOMESTIC SCIENCE

Preparations for the opening of the domestic science department are progressing. The Secretary reported that Miss Oliver had offered to personally select the equipment and will make a visit to Vancouver wholesale houses for that purpose. Her purchases will be shipped to a local store, the latter agreeing to give special prices. Miss Oliver's offer was gladly accepted. She will be paid cost of transportation one way.

Miss Oliver is entering upon her duties here with enthusiasm and the determination to give the girls of Summerland a domestic science course equal to the best. The new department is not to be a cook house, but a model kitchen. If possible it will be a place in which something can be seen and learned that cannot be had in the homes.

Secretary Bowering reported that Miss Oliver was delighted with that part of the equipment that has been constructed or is being made by Manual Training Instructor Baker and his boys. With it she will have a room superior to many.

A requisition from Principal McIntosh of the high school for laboratory material was approved.

Principal McIntosh who was present, was asked to express his opinion regarding the addition of a fourth year to the high school course. While it would mean heavier work for the two teachers now in the high school, even with the necessary third teacher, he said the extra year could be added. He suggested that the new instructor be a specialist in English and history.

The name of such a teacher was already before the Board and the Secretary was instructed to write her and offer a salary of \$1,250.

HIGH SCHOOL STUDENTS TO PAY

A marked departure from the usual practice was proposed and accordingly has the approval of all the members of the Board, namely, that all high school pupils be charged a tuition fee. The Board must provide nearly \$700 to make up the salary of the third teacher over the grant made by the Department of Education.

Mr. Tat at first advocated that a fee be charged the fourth year

class only, as the additional expense was being incurred to meet the wishes of the parents of the six pupils in that class who, otherwise, would have the expense of attending college elsewhere. The other members favored an all round fee. The Secretary assured the Board that it had the power to make a charge. He advised against the fee for the fourth year only, favoring a charge to all high school students. Every effort should be made to hold that year and to make Summerland an educational centre.

The question of fees, whether graded or equal throughout and the amount, was finally laid over for another meeting.

CONVEYANCE CONTRACTS AWARDED

Tenders for conveyance for the next school year were received and considered and the contracts for the several routes awarded as follows:

Route 1—Town, one way only.
H. Bristow, \$2.00 per trip.
Route 2—Trout Creek, turning at top of hill at night. G. R. Hookham & Co., \$2.00 per trip.
Route 3—East of Giant's Head. W. E. Rines, \$1.50 per trip.
The Board provides the van for each of these routes.
Route 4—Prairie Valley. Dr. Lister, \$1.75 per trip.
Route 5—Paradise Flat. H. Sealhorpe, \$1.50 per trip.
Contractors provide vans for routes 4 and 5.

Local Branch In Favor of Union

The United Farmers of British Columbia, Trout Creek Local, held their regular meeting at the school house on Thursday, August 7th. There was a large attendance. The business included the passing of a resolution supporting the proposed amalgamation with the Farmers' Institutes, this being forwarded to the Central Secretary.

The speaker of the evening was the Rev. Hugh Dobson, who has devoted much time to the study of the social life of Canada and for upwards of two hours he held the close attention of his audience while he outlined many of the causes of unrest which exist at the present time. Mr. Dobson is a firm believer in development by evolutionary methods as opposed to revolutionary; he is heart and soul a patriot and, it is a long time since the people of Trout Creek had the pleasure of hearing a speaker of his equal. Although the hour was late when Mr. Dobson sat down he was called upon to answer several questions and after a hearty vote of thanks the meeting closed with the singing of God Save the King.

There are still some empty jars at the hospital which the staff would be glad to have filled with fruit. Filling a jar or two while doing your own fruit will be of help to the hospital and your kindness will be fully appreciated.

Is Driest Season Experienced Here

Little Over Inch of Rainfall in Three Months

There have been drier months in the same season in other years than were May, June or July of this year, but not in the history of Summerland has there been as dry a three months in the same season as the past three. In that time there was a total precipitation of 1.37 inches recorded at the Government meteorological station at the Balcombe Ranch. Last year the total rainfall for the three months was 1.88, and this again was lower than the lowest previously recorded, 2.23 in 1910. May and July of 1915 hold the record for the greatest rainfall during the same months in any of the ten years recorded. June 1913 had a precipitation of 4.6 inches.

Below is the record of rainfall for the months of May, June and July for the past ten years.

	May	June	July	Total
1919	.42	.68	.27	1.37
1918	.38	.33	1.17	1.88
1917	1.77	.54	.22	2.53
1916	.46	1.60	1.05	3.11
1915	2.83	.86	2.41	6.10
1914	1.17	1.32	.25	2.74
1913	1.63	4.60	.86	6.59
1912	1.11	1.60	1.53	4.24
1911	1.24	.38	.54	2.61
1910	.95	1.01	.27	2.23

Recent quotations for fruit f.o.b. Valley points are—

Apricots, No. 1, \$1.85 to \$2.10 per 4 basket crate.
Apricots, No. 2, 4 basket crate, \$1.60 to \$1.65.
Peaches, No. 1, peach box, \$1.35 to \$1.40.
Peaches, No. 2, peach box, \$1.20
Plums, 4 basket crate, \$1.50.

The Sugar Famine and Fruit Sales

That the stories of the sugar shortage in the prairie provinces are not mere alarmist rumors is clearly shown from information gleaned from undoubtedly reliable sources during the week. Never during the war even were those provinces so short of sugar. Though in those times only a few pounds could be purchased at one time, an exception was made for preserving and there never was any pronounced shortage.

From Winnipeg comes word that the sugar shortage in Western Canada is acute. Housewives are unable to make progress with their fruit; candy manufacturers cannot get supplies to meet the requirements of their customers, and manufacturers of soft drinks and syrups are being hampered in the same way.

The wholesale fruit dealers state that their country shipments of preserving fruits are fifty per cent. below what they should be because there is no sugar available at country points to enable country purchasers of fruit to preserve what they would like to buy. For this reason shipments of fruit into the city are being curtailed.

Markets Commissioner Grant of Calgary sheds more light on the situation, and by no means brightens the prospect. He says:

"We are informed that the action of the Minister of Trade and Commerce in cancelling all export licences will not prevent export of sugar for weeks. Unless the immediate embargo is placed on export sugar to hold good until the Canadian market obtains a normal supply, thousands of dollars worth of stone fruits will be sacrificed. The fifty cars reported diverted to the West cannot be located by Saskatchewan dealers, and there is other evidence that the refiners are not doing all they can for the Canadian consumer.

"We urgently request that all shippers of stone fruit should immediately wire to the Minister of Agriculture at Ottawa, urging him to use his influence in pleading an immediate embargo on export sugar, until such time as the needed supply in Canada is obtainable." (Continued on page 2)

Still Have Water In Reserve

Summerland In Envyable Position re Water

Summerland has a reserve supply of water that will last well into September. This is the cheering news given The Review by Mr. R. Johnston, who has just returned from a visit to the reservoirs at the head of Trout Creek. He went up Monday morning, accompanied by two men who have remained to cut a channel into one of the lakes which will permit of lowering its level considerably, thus making it a larger feeder for the main reservoir. Other lakes and beaver dams will be opened, all of which will help to maintain the flow of water in Trout Creek. The reservoir on Canyon Creek has not yet been opened. This is usually left until the end of the season.

Mr. Johnston states that he cut a trail through to a large lake at headwaters which can be made to hold much more water at little cost. At its outlet is an abandoned beaver dam, which can be repaired and a few feet of concrete pipe put in it to permit of further lowering.

The fact that Summerland after the driest season in the history of irrigation here still has a good supply of water in reserve is very gratifying, as is also the fact that further storage may be had at comparatively small cost. All this confirms the claim for Summerland that it has one of the best water systems to be found anywhere. Already the envy of other communities not so fortunately situated, Summerland, with a little further expenditure on storage and the completion of its program of improved distribution will be among the most fortunate irrigation districts of this continent.

Holds Championship of Lawn Tennis

Last week from the 5th to the 9th inclusive there was held at Kelowna the first lawn tennis tournament held in the Valley since war was declared on Germany, and the members of the Okanagan Lawn Tennis Association, of which Coun. P. G. Dodwell of Summerland is president, and Mr. Seon of Kelowna secretary, are very much gratified by the entry, and are looking for a good revival of the game in this Valley.

The attendance through the week was excellent and the players from the Summerland Club report a very good time. The grounds at Kelowna are beautifully located and well kept.

The players representing Summerland in the tournament were Miss Higgin and Mr. Dodwell, and they won for their town and club a goodly share of the honors.

The winners were:

Ladies' singles, championship, Mrs. Wilson, Kelowna.

Ladies' doubles, Mrs. Wilson and Mrs. McDonald, Kelowna.

Mixed doubles, Mr. and Mrs. Scott Wilson, Kelowna.

Men's singles, Mr. P. G. Dodwell, Summerland, playing in the finals against Mr. G. E. Seon, a Cambridge half blue. In this Mr. Dodwell won three straight sets, 6-0, 6-4, 6-2, and holds the Valley championship.

The men's doubles was won by Col. Beison, Kelowna and Mr. Dodwell, Summerland, against the Kelowna pair, Messrs. Mallam and Stubbs, by a score of 6-1, 6-4, 6-2.

The prizes included silver cups donated by the several affiliated clubs, most of them to be won three times. One exception to this requirement is with the prize offered for the men's doubles. This is a perpetual cup donated by R. V. Winch & Co., Vancouver.

In the mixed doubles Miss Higgin and Mr. Dodwell got into the semi-finals before being defeated by the ultimate winners, Mr. and Mrs. Wilson.

Mr. Galt, for some time with the Bank of Montreal here and latterly at Kelowna, has been transferred from the latter place to Ladner and with Mrs. Galt left for the Delta country last week.

Taking Precautions Against Winter Water Shortage

New Irrigation By-Laws Ready For Approval of Ratepayers

To make sure that Summerland does not run short of domestic water during the winter, the Council has instructed Engineer Fawkes to make an early report on the condition and capacity of the pipe from the intake on Trout Creek to the reservoir. The volume of water that has been coming through this pipe has been insufficient and each winter the channel which carries the irrigation water from the Creek to the reservoir has had to be opened and water put through. This is very expensive and with the new and larger flume would be quite inadvisable to undertake. The pipe now in was said to be of sufficient capacity and was put in for the purpose of providing ample water to maintain the level of the reservoir throughout the winter. Engineer Fawkes will make an examination and report at once, according to the instructions given by the Council on Tuesday.

He has now completed the surveys on the north main around to Jones Flat and also on the so-called Thompson ditch, and will soon have ready detailed plans and specifications for the reconstruction of these on the larger scale required by the Council's program for a permanent and ample irrigation system.

Learning from D. Dickson, foreman of the pipe line, that a section of pipe 2 1/2 in. in diameter was in the Paradise Flat line above the pump and between some 4 in. and 6 in. pipe, Coun. Kirk for the Water Committee suggested that this be replaced with 6 in. pipe and a test made of the present pumping outfit before a new one was ordered. This was approved by the Council.

To remove the annoyance of water on the road at the foot of the Zimmerman gulch, Coun. Kirk suggested the diverting of a flow of water below T. J. Garnett's to land or to a flume. Foreman Tomlin was instructed to look over the ground and report. Mr. Tomlin, stating that there would always be some water going down the Gulch suggested a culvert with a good grade at the foot of the gulch and an open ditch along the east side instead of ditch on west side to a culvert at low point as now. He was also instructed to open a road to the Corner, Hargreaves and other lots.

Complaints had been coming from the Farm of reduced domestic water pressure. Coun. Kirk, finding

Opens New Photo Studio Here

Mr. Chas. P. Nelson, photographer, is now in his new studio and, as he announces in his advertisement in this number, is ready for business. In fact he is already busy, but not so busy that he will not be glad to welcome visitors.

His new studio, next door to the Bank of Montreal, is very conveniently arranged and is equipped with the latest machines, instruments and all the sundries, unnamable to the novice, for the making of portraits, photographic views, picture postcards, etc.

The camera room is ideally located for just the right light, which is in perfect control by several devices, even the tint of the wall being selected for best effect on the negatives. This room is at the northern end. Between it and the front is a reception or waiting room, which is being fitted up with a view to the comfort and entertainment of patrons. Here will be displayed some of Mr. Nelson's fine scenic pictures, in which class of work he excels. Beside the reception room and occupying the other half of the front of the building is the work room with the dark room opening off it.

The new studio, which is a valuable acquisition to the community, fills a long felt need and we bespeak for Mr. Nelson the patronage of our readers.

that there was good pressure north of the canyon at a point much higher than the Farm, felt that there was a stoppage between the connection and the Farm. Supt. Helmer had reached the same conclusion and together they made an examination and found the pipe nearly filled with an accumulation of leaves, etc. near the meter.

With the larger flow of water that will be available when the system is enlarged Coun. Kirk pointed out the danger there would be from water getting beyond control of the lot owners. He suggested that every owner should be required to have a proper conveyance and that the Municipality make provision for overflows to the roads.

This would open the question of the responsibility of the owner if he permitted water to flow off his lot, declared the Reeve.

That the Municipality would get into trouble if it undertook to take care of water after it had been delivered to the lot was the opinion of Coun. Campbell. The Government now has an official who will stop the putting of water on the roads.

Coun. Kirk said the lot owners must be required to have conveyances made to a standard. He would soon be getting water in excess of the original agreement and the Municipality can make the necessary regulations.

Reeve Simpson recognized the importance of taking care of water as a measure of protection to the roads, but Coun. Campbell maintained his stand that no effort should be made by the Council to care for wasted water.

MEASURING DEVICES SUGGESTED

Water measuring devices for water to the laterals were proposed by Coun. Kirk, who had models from the Experimental Station there to demonstrate their value.

After hearing from the Clerk what was required to make an exchange of deeds for the original and present road sites in the big gulch, he was instructed to prepare a deed for Mr. Hespeler and to get one from him and to ask Mr. Arnett for a deed which he said had been promised.

That verbal instruction had been given by Mr. Logie that the Municipality must not remove any more shales from Development Company property, was reported by Clerk Nixon. He was asked to write the Company regarding a supply of shale.

A complaint that two lots in Victoria Gardens were getting an abundance of water with a flow running day and night for many days was referred to the foreman.

By-Laws No. 107 and 108 authorizing further work on the irrigation system and raising by debenture loan the \$75,000 required for same were given the customary readings and are now ready to be submitted to the ratepayers. These by-laws are published in this number of The Review. Clerk Nixon will be returning officer.

Following a complaint that not enough water was being given the water users under the Trout Creek pumping plant, the matter was taken up with Engineer Fawkes. He reported that the pump had averaged nine hours per day during all July and the cost was mounting up. He felt that this could be reduced. It was also stated that the men on the Dairy Farm were not conserving the water, there being no flumes. The Engineer was instructed to have the amount required by the

Summerland Weather Report

FRIDAY, AUGUST 15, 1919.

Fruit Growers of Summerland, Peachland and Naramata

who are shipping their fruit by Express or L.C.L. would do well to observe the requirements of the Fruit Marks and Shipping Act and Regulations

That small and wormy fruit will not be allowed to pass as No. 1. Boxes must be well and properly filled before leaving packing house.

The Inspection and Sale Act, Part IX. (the Fruit Marks Act), as amended in 1918, requires that:—

- (1) Every **C**ased Package of fruit be marked in letters not less than $\frac{3}{8}$ inch in length with the words "Packed by" and
 - (a) the name and address of the packer,
 - (b) the name of the variety, and
 - (c) the grade (No. 1, No. 2, Domestic, No. 3).
- (2) (1) The No. 1 grade must be one variety, good colour, normal shape, not less than medium size and not less than 90 per cent. free from all defects.
- (2) The No. 2 grade must not be less than nearly medium size, some colour for the variety and 85 per cent. free from defects.
- (3) The Domestic grade must be not less than medium size for variety and 80 per cent. free from worm holes.
- (4) The No. 3 grade, as well as No. 1, No. 2 and Domestic, must be properly packed and include no culls.

"Culls" means fruit that is either very small, seriously deformed, has 15 per cent. or more of its surface injured in any way, or the flesh of which is not edible, or the skin of which is broken so as to expose the tissue beneath.

DEPARTMENT OF AGRICULTURE,
T. H. Bain, Inspector

Boy Scout Column

1st SUMMERLAND TROOP B.P. SCOUTS.

Scoutmaster - O. F. Zimmerman.
Headquarters - College Gymnasium.
Meets every Friday evening at 7.30 p.m.

With two exceptions there was a full turn out Friday night. Owing to the fact that the hall was being utilized that evening the meeting was perforce held outside, but this fact added to rather than detracted from the interest in the meeting.

Practically all the boys are now through their second class work and several are well advanced in their first class tests.

After the regular work had been disposed of the Court of Honor sat to receive the reports of the various committees in charge of the dance on the 20th. Everything is progressing favorably and nothing is being spared to make this dance the biggest ever held in Summerland.

Saturday afternoon saw quite a merry crowd of Scouts sit down to a splendid supper at the home of Mr. and Mrs. Munn, before journeying southward to Penticton to pay the Cadets a return game in baseball. It was certainly a good game, all the way through the end of the last inning seeing a score of 4 all. Naturally excitement ran high during the extra inning which was played, Summerland batting first managed to steal one more run, then Penticton went to the bat. At one time they had two men on bases, second and third with none out, but the Scouts tightened their field, backing their pitcher so well that the final result was 5-4 for the Scouts.

It is hoped to have a game in Summerland on the 21st and a good crowd is expected as it will be a game worth seeing.

REMEMBER THE 20TH.

THE SUGAR FAMINE AND FRUIT SALES.

(Continued from page 1)

or until normal conditions prevail." From Regina it is reported that the sugar shortage is having a serious effect on the fruit business, jobbers are holding back on buying and most cars are being split up instead of each house bringing in mixed cars.

Similar conditions are reported from Edmonton and other points. W. J. McDowell of the O.U.G., Vernon, in a recent letter says:

"In connection with the sugar shortage our understanding is that the Canadian Trade Commission has now ordered the immediate stoppage of overseas export shipments. Mr. Winslow of the B.C. Credit and Traffic Association is working in close connection with the Canadian Trade Commission and also with the directors of the Western Jobbers Association in the matter of this shortage. In fact he is at present away attending a session of the latter body.

We are working to see that this shortage is relieved before we get much further into our soft fruit shipping season."

Summerland seed growers will soon be harvesting their crop. Onion seed is now about ripe and some mangel fields are also about ready.

Safety all the Time.

Our Passengers are fully insured against accident.

NOTICE re Auto-Livery Rates

The undersigned respectfully draw the attention of the Public to the fact that in view of the increased cost of all commodities and the consequent increase in the expense of running an automobile it has been deemed necessary, after due consideration, to advance charges in accordance with the following tariff. We would also wish it to be noted that our charges still compare favorably with those of other Okanagan points:

Flat Rate, per mile - 25c.

(Reckoned from Garage to Garage)

Waiting, per hour - \$1.00

(One hour given free of charge for every 20 miles)

Rate by Time, per hour - \$2.50

(Within a radius 10-mile radius—20-mile round trip—and for a minimum period of two hours)

Between the hours of 12.00 midnight and 6.00 a.m., an increase of 25 per cent. on the above tariff will be charged.

Naramata News

Current Events of Town and District

Mrs. L. L. McDonald and son who have been visiting the home of Mr. and Mrs. William Mitchell have returned to their home in Blackie, Alberta.

Rev. A. Henderson of Summerland was the guest of friends in town the past week.

Dr. and Mrs. R. C. Lipsett, Mrs. John Lipsett, Mrs. White and Mr. McLean motored around from Summerland on Thursday and spent the day with Mr. and Mrs. J. M. Robinson.

Miss Turner of Armstrong is the guest of Mrs. Frank Languedoc.

Miss Phyllis Monk of Vancouver who has been spending a month with her sister Mrs. Thos. Kenyon, has returned to her duties at the coast.

The steamer Okanagan is now docking here every night.

A great many of the men of this community are busy fighting the forest fires which are raging back in the hills in close proximity to the small dam.

Mrs. B. L. Smith has returned home after a visit to the coast cities where she has been investigating different evaporating plants with the idea of improving her own plant here which she has been operating during the season. Mrs. Smith is doing a good work and we hope she can be successful in her undertaking.

Mr. and Mrs. Vale of the eastern provinces are visiting Mrs. Dewitt.

Dr. Jamieson of Edmonton is here inspecting his fruit lot.

Miss Jessie Gordon who has been the guest of Miss Dorothy Robinson for the past month has returned to her home in Victoria.

Mr. Symons of Vancouver has purchased the Chas. Johnson fruit lot and will soon take possession. Mr. Symons is a practical plumber and will be a welcome addition to the district.

The ferry made a special trip from Penticton to the home of Mr. Matt. Wilson on Saturday night. The occasion was a dancing party and it is reported that they all enjoyed the evening immensely.

Rev. H. A. Solly of Summerland held Anglican Church service here on Sunday afternoon.

Mr. Dobson has been giving some of his interesting talks in neighboring towns lately. The last event of this kind was held at Trout Creek, and was largely attended.

Mr. Winger and son Wesley are building a stone foundation around the house of F. C. Manchester.

A large delegation of our people attended the Peace Service in Penticton on Sunday night.

A most delightful afternoon tea was given by Mrs. Noyes, Mrs. Dewitt and Mrs. Hughes on Tuesday at the home of Mrs. Hughes for the visiting ministers and Mr. and Mrs. Vale.

A number of our young people attended the Hawaiian Concert at Penticton on Monday night.

The next meeting of the Ladies' Unity Club will be held on Friday, August 22nd.

An old gentleman entered a country newspaper office and, approaching the editor said: "I want to get copies of your paper for a week back."

The editor replied: "Hadn't you better try porous plaster?"

NOTICE

To

Returned Soldiers.

Dr. F. W. Andrew of Summerland has been appointed by the Department of Soldiers' Civil Re-establishment as Medical Representative, whose duties are to attend to all returned men who require medical attention. This attention is to be given free to men who may be taken ill any time within one year of discharge, whether the cause be from war service or not, and to men who are suffering a recurrence of disability caused by war service, at any time.

MUNICIPAL COUNCIL

(Continued from Page 1)

water agreement delivered to the land concerned.

The Council agreed upon a policy of construction if the by-laws carry first to relieve the pipe lines which now have reduced pressure. A complaint from G. S. Drevitt regarding seepage will be reported on by Coun. Kirk.

Mr. R. V. Agur, director for the Summerland-Naramata district for the B.C.F.G.A. wrote enclosing vouchers for payments made in connection with the entertaining of visitors at the Experimental Station on May 24th and thanked the Council on behalf of the B.C.F.G.A. for its co-operation.

An additional remuneration of \$15 per month was voted the electrician for the use of his car.

Bridges in Peach Orchard will be strengthened to carry heavy traffic, according to the Engineer's recommendation.

A report from the Finance Committee recommending the payments of the following accounts was adopted:

Water Notice.

DIVERSION AND USE.

TAKE NOTICE that Frederick Charles Wildy, whose address is Peachland, will apply for a licence to take and use 1,000 gallons daily of water out of lake, also known as Wildy's Lake, which flows through his property, and drains into Okanagan Lake, about at the N.W. Point, S.W. point of property. The water will be diverted from the stream at a point about middle of lake at about 600 yards from S.E. corner, and will be used for irrigation purpose upon the land described as P.R. 961, S. Similkameen.

This notice was posted on the ground on the 21st day of July, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C. within fifty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is August 1st, 1919.

FREDERICK-CHARLES WILDY, Applicant.

SUMMERLAND AND WEST SUMMERLAND

Corporation of the District of Summerland

BY-LAW NO. 107

A By-Law of the Corporation of the District of Summerland to authorize the Municipal Council of said Municipality to improve, repair, and reconstruct the flumes, ditches and dams of the Municipal Irrigation System of the said Corporation of the District of Summerland. The Reeve and Council of the Corporation of the District of Summerland, in Council assembled, enact as follows:—

1. WHEREAS it is necessary to improve, repair and reconstruct the flumes, ditches and dams of the Corporation of the District of Summerland, therefore, be it resolved that the Council of the Corporation of the District of Summerland be, and is hereby, authorized to improve, repair and reconstruct the said flumes, ditches and dams of the said Municipality.

2. THIS By-Law shall, before the final passing thereof, receive the assent of the Electors of the Corporation of the District of Summerland in the manner provided for in the Municipal Act, 1914, and amending Acts.

3. THAT this By-Law shall come into force on the first day of November, 1919.

Done and passed by the Municipal Council this Twelfth day of August, 1919.

Received the assent of the Electors of the said Corporation of the District of Summerland, this day of 1919.

Reconsidered and finally passed by the Municipal Council this day of 1919.

Reeve.
Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-Law upon which the vote of the Municipality will be taken on Wednesday, August 27th, 1919, between 9 o'clock a.m. and 7 o'clock p.m.

The Poll will be held at the following places:

Municipal Office, West Summerland.

W. J. Robinson's Office, Summerland.

PUBLIC NOTICE is hereby given that the vote of the Electors of the Corporation of the District of Summerland will be taken on the above mentioned By-Law at the time and places above mentioned.

F. J. NIXON,
Municipal Clerk.

Corporation of the District of Summerland

BY-LAW NO. 108

A By-Law to raise \$75,000.00 to improve, repair and reconstruct the flumes, ditches and dams of the Irrigation System of the Corporation of the District of Summerland.

WHEREAS it is deemed advisable to improve, repair and reconstruct the flumes, ditches and dams of the Irrigation System of the Corporation of the District of Summerland.

AND WHEREAS it is necessary for the said purpose to raise by way of Loan, upon the credit of the Corporation of the District of Summerland, the sum of \$75,000.00 payable

- \$2,000.00 on the first day of November, 1920
- \$2,000.00 on the first day of November, 1921
- \$2,200.00 on the first day of November, 1922
- \$2,400.00 on the first day of November, 1923
- \$2,600.00 on the first day of November, 1924
- \$2,800.00 on the first day of November, 1925
- \$3,000.00 on the first day of November, 1926
- \$3,200.00 on the first day of November, 1927
- \$3,400.00 on the first day of November, 1928
- \$3,600.00 on the first day of November, 1929
- \$3,800.00 on the first day of November, 1930
- \$4,000.00 on the first day of November, 1931
- \$4,200.00 on the first day of November, 1932
- \$4,400.00 on the first day of November, 1933
- \$4,600.00 on the first day of November, 1934
- \$4,800.00 on the first day of November, 1935
- \$5,200.00 on the first day of November, 1936
- \$5,400.00 on the first day of November, 1937
- \$5,600.00 on the first day of November, 1938
- \$5,800.00 on the first day of November, 1939

bearing interest in the meantime, payable half yearly on the first days of May and November in each year at the rate of 6 per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of

- \$6,500.00 by rate in the year of 1920
- \$6,380.00 by rate in the year of 1921
- \$6,460.00 by rate in the year of 1922
- \$6,528.00 by rate in the year of 1923
- \$6,584.00 by rate in the year of 1924
- \$6,628.00 by rate in the year of 1925
- \$6,660.00 by rate in the year of 1926
- \$6,680.00 by rate in the year of 1927
- \$6,688.00 by rate in the year of 1928
- \$6,684.00 by rate in the year of 1929
- \$6,668.00 by rate in the year of 1930
- \$6,640.00 by rate in the year of 1931
- \$6,600.00 by rate in the year of 1932
- \$6,548.00 by rate in the year of 1933
- \$6,484.00 by rate in the year of 1934
- \$6,408.00 by rate in the year of 1935
- \$6,520.00 by rate in the year of 1936
- \$6,408.00 by rate in the year of 1937
- \$6,284.00 by rate in the year of 1938
- \$6,148.00 by rate in the year of 1939

AND WHEREAS the whole rateable property of the said Corporation of the District of Summerland, according to the latest revised assessment roll is \$2,629,620.00

AND WHEREAS the total amount of the debenture debt of the said Corporation of the District of Summerland is \$365,000.00 of which none of the principal or interest is in arrears.

NOW THEREFORE, the Reeve and Council of the Corporation of the District of Summerland, in open Council assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said Corporation of the District of Summerland to raise by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$75,000.00 and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Corporation of the District of Summerland for the purposes and with the objects hereinafter recited.

2. It shall be lawful for the Reeve to cause any number of debentures to be made, for a sum not exceeding \$1,000.00 each, bearing interest at the rate of six per cent. per annum, not exceeding in the whole the sum of \$75,000.00, and all such debentures shall be sealed with the seal of the said Corporation of the District of Summerland.

3. The said Debentures shall bear date the first day of November and shall be made payable

- \$2,000.00 in one year
- \$2,000.00 in two years
- \$2,200.00 in three years
- \$2,400.00 in four years
- \$2,600.00 in five years
- \$2,800.00 in six years
- \$3,000.00 in seven years
- \$3,200.00 in eight years
- \$3,400.00 in nine years
- \$3,600.00 in ten years
- \$3,800.00 in eleven years
- \$4,000.00 in twelve years
- \$4,200.00 in thirteen years
- \$4,400.00 in fourteen years
- \$4,600.00 in fifteen years
- \$4,800.00 in sixteen years
- \$5,200.00 in seventeen years
- \$5,400.00 in eighteen years
- \$5,600.00 in nineteen years
- \$5,800.00 in twenty years

from the date hereinafter named for this By-Law to take effect, at the agency of the Bank of Montreal, in the said Corporation of the District of Summerland, and the amounts shall be raised and levied annually in each of the respective years by a rate on all the rateable property in the said Corporation of the District of Summerland, in addition to all other rates, for the payment of the debt hereby created, when due.

4. The said Debentures shall have coupons attached for the payment of interest at the rate of six per cent. per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the first days of May and November, in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said debentures and to provide for the payment of the said debt when due.

6. The sum of

- \$4,500.00 in the year 1920
- \$4,380.00 in the year 1921
- \$4,260.00 in the year 1922
- \$4,128.00 in the year 1923
- \$3,984.00 in the year 1924
- \$3,828.00 in the year 1925
- \$3,660.00 in the year 1926
- \$3,480.00 in the year 1927
- \$3,268.00 in the year 1928
- \$3,084.00 in the year 1929
- \$2,868.00 in the year 1930
- \$2,640.00 in the year 1931
- \$2,400.00 in the year 1932
- \$2,148.00 in the year 1933
- \$1,884.00 in the year 1934
- \$1,608.00 in the year 1935
- \$1,320.00 in the year 1936
- \$1,008.00 in the year 1937
- \$ 684.00 in the year 1938
- \$ 348.00 in the year 1939

shall be raised and levied by a rate on all rateable property in the said Corporation of the District of Summerland, in addition to all other rates in said years, for the payment of the interest on the said Debentures.

7. This By-Law shall, before the final passage thereof, receive the assent of the Electors of the Corporation of the District of Summerland, in the manner provided for by the "Municipal Act, 1914," and Amending Acts.

8. This By-Law shall come into force and take effect on the first day of November, 1919.

9. This By-Law may be cited for all purposes as the Irrigation Loan By-Law, 1919.

Done and passed by the Municipal Council this Twelfth day of August, 1919.

Received the assent of the Electors of the said Corporation of the District of Summerland the day of 1919.

Reconsidered and finally passed by the Municipal Council the day of 1919.

Reeve.
Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-Law upon which the vote of the Municipality will be taken on Wednesday, August 27th, 1919 between 9 o'clock a.m. and 7 o'clock p.m.

The Poll will be held at the following places:

Municipal Office, West Summerland.

W. J. Robinson's Office, Summerland.

PUBLIC NOTICE is hereby given that the vote of the Electors of the Corporation of the District of Summerland will be taken on the above mentioned By-Law at the time and places above mentioned.

F. J. NIXON,
Municipal Clerk.

Passing Events: Social, Personal, &c.

Mrs. Wilson of Los Angeles is visiting her sister here, Mrs. S. B. Snider.

After spending some time at the coast with her aunt, Miss Annie Dale, Miss Ruth Dale returned over the K.V.R. on Sunday morning.

Dr. E. W. Sawyer left this morning on his return to Woodstock, Ont. going by way of the K.V.R. and Crow's Nest.

Mr. R. B. Forsyth, at one time principal of the Summerland High School, came in on Wednesday via the C.P.R. to make a brief visit here while on his way to the coast.

Miss Kathleen Henderson who has been convalescing at the home of Mr. and Mrs. H. Reynolds, Peach Orchard, after her recent illness, has gone to Peachland with her sister Miss Jessie Henderson.

Quite a number of people from this place took advantage of the Pentleton Regatta last Thursday to have an outing. They report a good time, with a full and well arranged program.

Mr. G. Raby has returned from Calgary where he went some weeks ago to visit his son.

Mr. Ilyne Buckley of the Armstrong Nurseries was a visitor at the home of Mr. and Mrs. Clarence Craig on Wednesday.

Enquiries for all kinds of properties are continually being made to F. D. Cooper, the real estate broker of Peach Orchard, where his office is. 3,4

Mrs. Burton Hatfield is making good progress toward recovery and is now under the care of Nurse Findley, who came up from Kaleden.

At the evening service in the Baptist Church on Sunday memorial tablets placed by fellow church members in memory of two of the young men of the church, George Dale and George Harwood, whose bodies occupy honored graves in France, will be unveiled. Further notice is given in the usual column.

Sergeant H. C. Howis came off the boat on Thursday evening, the boat proclaiming, as usual the presence of a homecoming soldier. Mrs. Howis and their young daughter, who have been in England for three years or more, returned with him. There were a good many friends at the wharf waiting to extend a hand of welcome to them.

Owing to the fact that there were some other attractions and that the hall in which it was proposed to assemble was otherwise occupied, the meeting of citizens interested in the organization here of an automobile and good roads association was postponed. As announced in our advertising columns the organization meeting will be held in the Men's Club on Monday. Everyone who owns a car or is interested in good roads, and that should mean a good many, are urged to attend.

Manager Darkis returned Thursday morning from Vancouver where he has been on business in connection with the Rialto Theatre. Mr. Darkis states that he has completed arrangements for a much improved film service and that from now on the pictures shown at the Rialto will be the equal of those seen in the best theatres. He has already booked up some really good features and states further that the comedies shown each night will be among the best. In the regular advertising space he announces a first class serial to begin at an early date.

Control of Price Setting and Distribution by Organization.

It is very noticeable on the prairie markets that B.C. producers are coming together to get the cost of production for their wares.

The individual consignor is becoming scarce, and uniform pack and price is in vogue. We meet a number of growers who have their private customers whom they supply at organization prices. These men pride themselves on their private trade. How would it be for them if all were as selfish? We should join the local union, and then work for it. There is a difference between being a member and a worker. It is the worker that makes for success. The outsider waits for the power; he is no part of it to force the issues, never thinking that success or failure in his business depends on his co-operation. These outsiders are all aetheral co-operators, but they never get their feet on the ground.

Remember that union puts power in the work and its object is to right a wrong which has become insufferable and driven many unsuspecting but hard working men away from the land.

—Prairie Markets Commissioner.

Mrs. McPherson of Vancouver is here on a visit to her parents, Mr. and Mrs. S. B. Snider.

Messdames Crowe and Norris from Vancouver, are visiting with Mrs. R. C. Lipsett for a time.

Mrs. T. F. Wilson and two children and Mr. Watts, Mrs. Wilson's father of Lethbridge, are the guests of Mr. and Mrs. Chas. Baker.

Ronald White went down to Orville last Friday and proceeded from there by train to Okanogan where he joined friends on a motor trip out to Seattle and the Sound country.

Miss Dorothy Peck, who has been visiting her brother here, A. S. Peck, has gone down to Auburn, Wash. to make her parents a short visit before she goes to Vernon to teach in the public school there.

Visitors of note to Summerland this week are Hon. J. W. Armstrong and Mrs. Armstrong, who are guests at the home of Mrs. J. P. McIntyre, Mrs. Armstrong's sister. Mr. Armstrong is a member of the Manitoba Government.

Mr and Mrs Lees and Mr & Mrs Hayes were visitors to Kelowna the first of this week. While there Mr. Lees, who has accepted the position of principal of the Kelowna public schools, visited the Secretary of the school board and also engaged a house.

Music of an exceptionally high order has been given at the Lakeside Church for the last two Sundays especially. Last Sunday evening special music was given by Mrs. E. N. Rowley, who sang, and Miss Jessie Henderson of Toronto, who rendered a piano solo.

The Misses Moke of Lacombe, Alberta, who have been visiting here at the home of their aunt, Mrs. Fenner, have returned to the prairie province, via the coast. They were accompanied to Vancouver by Mrs. Fenner, who has since returned.

The Summerland Agricultural Society will hold its annual fair on October 29 and 30, the dates fixed by the Department of Agriculture. Growers are urged to begin now to prepare for the fair. Mr. W. G. Raby has been appointed show secretary and will be glad to hear from all intending to enter.

Quite a number of people enjoyed an open air concert of Hawaiian music on the Smith wharf late Sunday evening. The night was so tempting and the lake so beautiful in the moonlight the members of the Hawaiian concert company who were here over Sunday were tempted to music. Those so fortunate to be near were delighted with the beautiful melodies.

A serious bush fire which raged for several days in the vicinity of one of the Naramata storage dams is now under control after a strong fight by about a half hundred men under fire warden Wilton, aided by showers Tuesday evening. The fire which was well back from the railway, amidst heavy brush and fallen timber is supposed to have been started by lightning.

On behalf of the Summerland Hospital Society, the following donations for July are gratefully acknowledged: Mrs. R. C. Lipsett, eggs, peaches; Mrs. B. Stewart, cherries; Mrs. C. Wilson, raspberries; Mrs. W. Wright, ice cream, tomatoes; Mrs. H. Tsvender, apricots; Mrs. E. Korcher, canned fruit; Mrs. Munn, tomatoes; Mrs. Helmer, vegetables and flowers; Charlie Vono, peaches, ice cream; Mrs. Lee (Minoola), lettuce.

Attention is directed to an official notice to fruit shippers published in this number over the signature of Inspector Bain. There are a few packers or shippers who, Mr. Bain says, are disposed to be careless or are attempting to evade the regulations fixing the standard of fruit. Another matter of which he is receiving complaints is the packages in which some of the fruit is being shipped. The boxes are carelessly made in too many instances. In others the material is too flimsy or the opening between the pieces of lumber so large that the fruit spills out. Inspector Bain is determined to remove any and all occasions for complaint of grading or packing of fruit from Summerland.

Community Calendar of Coming Events

At the close of the regular service in St. Andrew's Presbyterian Church on Sunday morning a short business meeting will be held. C

The unveiling of the memorial in memory of George Dale and George Harwood will take place in the Baptist Church, West Summerland, on Sunday evening at 7.30. Special music will be provided. C

Next Sunday being Missionary Sunday in the Sunday Schools, Mrs. Coulter White will give a talk on Missions in Palestine to the Baptist Sunday School after the regular church service on Sunday morning. C

Mrs. Kinnard, mother of K. W. Kinnard of the Vernon Fruit Union, is visiting with the Misses Spencer. She is accompanied by a friend, Miss Harding.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Rev. A. Grieve of Penticton spent a day here last week.

Mr. I. Cousins and family enjoyed a visit from Mr. Wrightson last week. He came in on Wednesday night's boat.

Miss Hilda Winger who has been working in Penticton is making Peachland and her parents and family a visit. She expects to return to Penticton shortly.

Mrs. A. Town with a small party of friends motored to Summerland and back on Wednesday evening.

After spending a very pleasant visit here with his mother and sisters, Mr. A. Law left on Thursday.

It always causes more or less commotion and curiosity in a small place to see anyone carried in or out of town on a stretcher. Such was the case on Thursday of last week when Mr. Cornish of Winnipeg, Man., with his three children and a lady friend of the family arrived with Mrs. Cornish an invalid. We are glad that they were directed here, for although the invalid's case is not a particularly serious one, the air seems to just suit her and she is doing splendidly and is in a fair way to recovery. They spent a few days at the Edgewater Inn, until Mr. Cornish located a suitable place on the benches. They moved up to the old Musto place where they are, among the pines and still have access to all the farm produce which they may desire.

Other passengers arriving on Thursday night were Mr. Logan who has been supplying as book-keeper for the Kelowna Saw Mill Company for a couple of weeks, and Mr. Ross who came back to take up his position in the Royal Bank here to relieve Mr. Ratteray who left on Friday morning.

That Miss Emma Carlson of Enderby, who taught in the school here some time ago, has a tender spot in her heart for Peachland is evidenced by the fact that when she wishes to enjoy a nice quiet holiday she chooses Peachland. This time she brought with her a sister to participate in the same pleasure, and while here are guests of Mrs. L. Mills.

Mr. B. M. Whyte was a passenger leaving on Friday morning to take up his duties as one of our Dominion Fruit Inspectors.

After a pleasant holiday spent with friends in Edmonton, Mrs. E. F. Smith and the two boys returned to their home here on Friday night.

Miss Ilyva Murdin spent the past week end visiting friends in Summerland going down on Friday night's boat.

Summerland Fruit Union

Smith of Merritt, B.C. were arrivals on Saturday morning's boat intending to spend the balance of the school holiday with relatives here. They are at present guests of Mr. and Mrs. A. J. MacKenzie and family.

After a short holiday spent out of town, Major Hardisty returned to his home here on Saturday.

Mr. McDonald returned home Saturday night from a short visit north.

Another of our boys to return from overseas, W. D. Sanderson, arrived on Monday night. 'Billy' as he is known here, is looking hale and hearty, and says he is glad to get back.

Saturday night last saw the commencement of a new venture of the Women's Institute, when they shipped in and put up for sale some good ice cream. They improvised a stand near the approach to the C.P.R. wharf at the end of second street, and it was so much of a success that they sold out of cream too early in the evening. They believe they could have sold quite a larger amount, and will increase their order next Saturday, as they figure on keeping it up during the ice cream weather. They cleared about eleven dollars, which amount is to be added to their fund that is being used for improvements for the town.

Real estate is still changing hands in Peachland. Mrs. E. House has sold her lot at her own price. The buyers are Mr. and Mrs. Hackett of Lamont, Alberta, who came in to visit the Wilsons and liked the place so well they decided to buy a home. We always regret, however, to see a local resident sell their last holding, for fear they may be induced to leave the community. Since getting settled in their new home and surroundings, Mr. and Mrs. Hackett report that they are delighted.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land. Partnership pre-emptions abolished, but parties of not more than four may now make improvements on pre-emptions with joint residence, but each making necessary improvements on respective claims. Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant. Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim. Records without permanent residence may be issued, provided applicant makes improvements to extent of \$500 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required. Pre-emptor holding Crown grant may record another pre-emption if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land. Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after paying residential and improvement conditions. For grazing and industrial purposes areas exceeding 840 acres may be leased by one person. Mill, factory or industrial plant on timber land not exceeding 40 acres may be purchased; conditions include payment of stamp duty. Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive. No fees relating to pre-emptions are due or payable by pre-emptors on pre-emptions recorded after June 20, 1914. Taxes are remitted for five years. Provision for return of moneys accrued on pre-emptions since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enactment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS. Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately by whole areas. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1919, for systematic development of livestock industry, provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for settled and un-settled stock-owners may form Associations for range management. Fees, or partially free, permits for settlers, campers or travellers, up to ten head.

Mr. R. J. McDougall of the Penticton Herald paid town another of his week end visits, coming up on Saturday by auto. He was accompanied by Mrs. Booth and little Miss Gwendoline, who remained over, visiting friends for a few days. Mr. McDougall took his two children Mildred and Royal back to Penticton with him to give them a week's outing.

After spending a week visiting at the home of Mrs. Burkett Robinson, little Miss Kathleen Kendall left on Monday night to return to Naramata, there to join the rest of the family, spending the holiday season in that community. Francis Robinson accompanied her down to Naramata to visit for a few days.

Masters Donald and Russell MacKenzie of Vancouver are spending the latter portion of the school holiday visiting here with their cousin Mr. A. J. MacKenzie and family.

Mr. and Mrs. Gray of Summerland spent Tuesday in town visiting Mrs. H. McDougald and family.

Among other enterprising features in town at least all the gentlemen in the community are pleased to note on Saturday night opposite the Post Office, was a barber's sign. It did not end with the sign though for if you stepped inside you saw Mr. Chidley the barber hard at it, and we wish him all kinds of success in his undertaking for it has been a much felt need in town for some time. In times past we have always been able to get a good trim because we had those here who could do it, but at times it was somewhat inconvenient not to have a shop in town.

We have in town at present a travelling evangelist, who carries a small home with him wherever he goes by auto, having the auto fitted up with very comfortable quarters and decorated with several fitting texts which announce and advertise the life and work of the occupant. Mr. R. E. McAllister the evangelist has been following this line of evangelistic work for some time and has covered a great deal of country in this way. He hopes to be privileged to deliver the message of Salvation to the people of Peachland.

We advised last week that we would probably have something further to mention about what was to be doing in the Orange Hall soon. Well it is to come off alright, on Friday night, and the Women's Institute who are getting it up are only going to charge a

quarter at the door. When they are making the entrance so reasonable they expect and hope for a good turn out, more especially when the proceeds are to swell the fund to pay for the drinking fountain the Women's Institute are putting up. The program will be interesting and varied, and among other numbers will be a Scotch play, "The Pie in the Oven," or "The Bashful Young Man."

The Union Sunday School picnic was held on the beach by the pavilion on Tuesday afternoon from 2 o'clock on. A very pleasant time was spent by all. During the course of the afternoon the children's races were pulled off and as usual enjoyed to the full by the younger generations represented. About 5.30 the children were arranged in order on the Beach and served with food and dainties, at which game they were none the less ready and willing. Then the older members of the assembly had their turn at the good things, of which there was plenty and no exception to the general rule of picnics here, good stuff and lots of it. After this there was an open air song service. Those present were specially favored with a solo sung by one of our visitors from Calgary, Mrs. Wilde. She rendered in a manner very pleasing to all "My Task."

The moves in real estate do not seem to have come to a standstill by any means here in Peachland, and are not likely to either, since the G.W.V.A. through their secretary Mr. C. G. McDougald have announced that they will be only to glad to do all they can, if any person wishing to sell their land would give them the particulars, to inform comrades from outside points who are enquiring about the district.

SUMMERLAND, B.C. FRIDAY, AUGUST 22, 1919.

\$2.00, payable in advance.

Automobile and Good Roads As.

Organization Effected This Week. Looking For Large Membership.

The Summerland Automobile and Good Roads Association was launched at a meeting of motorists held Monday evening. After the gathering, the meeting place of which was announced as the Men's Club, had repaired to the band stand, where the breezes from the lake could be enjoyed to the fullest extent, the meeting was called to order by Rev. H. A. Solly, president pro tem.

The appointing of officers required two ballots, one for the president and the other for vice-president. These resulted in the election of Mr. F. A. C. Wright as president and Rev. H. A. Solly as vice-president. The names of three citizens were advanced for election to the position of secretary-treasurer, but the withdrawal of two left that position to Mr. O. F. Zimmerman. The President, Vice-President and Secretary, together with Messrs. G. Thornber, R. E. White, G. R. Hookham and Dr. Andrew form the executive of the new organization.

With about an even one hundred and fifty cars in Summerland it was confidently stated that a membership of at least seventy-five could be enrolled at once. The executive committee was asked to make a special effort at once to enroll that number. Several of those present also undertook to get two members each.

The membership fee was fixed at \$5.00. This is low, it was stated, as required for membership in any similar organization and will afford none too much revenue for the efficient working of the new organization.

Better roads will be one of the objects which the association will at once set about to obtain and an early expense in this connection will be the sending of a representative to the Provincial Good Roads Association which will meet at the same time as does the Union of B.C. Municipalities in North Vancouver.

Early affiliation with the Vancouver Automobile Association was advocated by President Wright, who described the Vancouver Association as the mother club of such organizations in this province.

One very important function of the Summerland Automobile and Good Roads Association will be to encourage and assist the municipal authorities in their efforts to give Summerland better roads. At the meeting on Monday night the general drift of the discussions was to the question of better roads. A number of bad corners and places which the growing brush have rendered dangerous were mentioned.

President Wright stated that one of the first duties of the executive would be the drafting of a working constitution and by-laws, and that as soon as this had been done a general meeting of members would be called to approve of same with any amendments the meeting might desire.

Several members came prepared to pay their membership fees, which was taken by the acting secretary. All citizens who contemplate joining this important organization should do so at once by paying the membership fee to Secretary O. F. Zimmerman.

4,000 Cars From Valley This Year.

According to Mr. F. W. Peters, general superintendent of the C.P.R. for B.C., the crop in the Valley this year will approximate twenty per cent. more than last year. Mr. Peters has just completed a trip through the Okanagan, and upon what he learned he gave out the above statement in Vancouver on his return.

"Last year the C.P.R. moved 3,950 cars from the Valley," said Mr. Peters, "and this year we are preparing to move 4,000 cars."

Crops in the non-irrigated districts in the north end of the Valley will be light on account of the dry season, Mr. Peters thought.

New Bank Office

Bank of Montreal Opens in Former Bank of Commerce Quarters.

More convenient banking facilities have been made available to many of its patrons by the action this week of the Bank of Montreal in opening an office in the quarters formerly occupied by the Canadian Bank of Commerce.

For some time rumors have been current of the opening on Shaughnessy Avenue of a bank office, the names of banking institutions not now represented here being frequently mentioned. The move on the part of the Bank of Montreal has probably been made partly for the purpose of so meeting further the need of the community as to make the coming of a competing office unlikely.

The new office is in charge of Mr. H. J. Tocque, a returned man, who was formerly with the Bank of Montreal in Vernon, and he with his assistant have been detailed to carry on both the new office and the Naramata office opened some weeks ago.

For the present the office hours of the Shaughnessy Avenue branch will be from 1 to 3 p.m. each day except Saturday, when the office will be open from 9:30 to 12 noon. The Naramata office will be open each day except Saturday, the hours being from 10 to 12 noon.

This arrangement of hours is but temporary, we are informed. Just as soon as business in the new office warrants the longer hours of service will be given.

PLANS ADVANCED FOR BIG EXHIBIT

Board of Trade Decides To Have Special Display at Vancouver.

Good progress is being made toward the putting up of a display at the Vancouver Exhibition that will be a credit to Summerland. This is the conclusion one would reach after hearing the report of Mr. R. H. Helmer for the publicity committee of the Board of Trade at a special meeting of the board held in the Men's Club Wednesday evening.

With the assistance of Mr. J. Lawler, who has had considerable experience in such work, plans for a really attractive display had been arranged. The obtaining of the fruit, etc., and the larger question of financing the exhibit were discussed at some length. Some of the speakers favored the giving of the necessary assistance by the Municipality, but it was finally agreed to make a canvass of the district to obtain from fruitgrowers and others donations of fruit or orders on their shipping houses for the equivalent. Very material assistance is expected from the exhibition association toward staging the exhibit. A motion asking the Municipality to make good any deficit was carried but the committee will make every effort to finance the exhibit without this assistance.

The committee was instructed to go ahead and get the exhibit ready as quickly as possible and to meet at Inspector J. Tait's office this Friday, morning at 10 o'clock. It was estimated by Mr. Helmer that from \$300 to \$400 would be needed to carry through the undertaking.

The resignation of Secretary Collin W. Lees was read by the President and reluctantly accepted, with the regret that circumstances required his leaving Summerland for a time. This resolution was made by Rev. H. A. Solly and seconded by Mr. Helmer. President Andrew spoke of the good service that had been rendered by Mr. Lees. He would like to see greater cultivation of appreciation for public service where efforts are honestly made. He hoped Mr. Lees would not forget the town in which he got his start in the Okanagan.

A hearty vote of thanks was tendered Mr. Lees, who, said the proposer, Mr. Helmer, had always been a booster for Summerland. The appointment of a new secretary was laid over for the next meeting.

A successful man keeps his eyes and ears wide open and his mouth closed.

Complaints of Unfair Distribution

Further Charges That Orientals Get More Than Share of Water

Charges of favoritism and discrimination in the distribution of irrigation water on two of the ditches, and which will require thorough investigation, were made before the Council on Tuesday. In one instance Mr. F. Dickinson, in answer to a letter from the Clerk respecting a report made by the ditchman that he had been interfering with the gates, stated to the Council that he had not been given any water for three weeks, that the ditchman had said there was no water for him although there was water in the ditch. He admitted taking water from Saturday night to Monday morning. He stated further that he had convinced the ditchman that he had been wrongly accused of permitting his cow to damage a flume but complained that the ditchman had not withdrawn the charge.

Mr. W. A. Chisholm was another to complain of unfair distribution. A Japanese close beside him got more water, he said, than his, the Craig and the Steuart lots, which were all served on Fridays and Saturdays. The Oriental got water on Wednesdays and Thursdays and at times, gets more than he can use.

In answer to a suggestion from the Reeve that a readjustment of days might be advisable and that he and the Japanese might be watered on the same days, Mr. Chisholm replied that he had once been on the same days with the Jap, but then got no water at all. He stated further that the water fell off after the ditchman had gone. It was also being turned off at night and on again in the early morning. When asked who turned the water off, Mr. Chisholm said he could not answer that, but he had found it all running on to the Jap's lot.

Mr. G. R. Doherty in support of Mr. Chisholm's statements said the Japs have the best crops because of getting more water.

Reeve Simpson regretted the matter had not been reported earlier in the season.

Another from the same section to call during the afternoon to complain of small supply of water was Mr. J. D. Wood, who stated that the screens which had been put in to prevent culverts etc. from choking, had been removed with the result that the pipe under the road through which he should be receiving water had been filled up.

Again pointing out the danger the open ditch, many feet deep, crossing his lot to his children, Mr. E. O. James asked that the delivery end of the siphon that empties into the ditch just west of his house be changed a little to the

(Continued on page 2.)

Board of Trade Endorses Bylaws

Urge Citizens to Give Active Support To Improvement Scheme

The new irrigation by-law was referred to at Wednesday's Board of Trade meeting by Mr. Helmer, who said that he heard of an undercurrent of criticism that may do more harm than was dreamed of. If the by-law does not pass Summerland will be in a very serious position. Other districts are now suffering. We too will be facing ruin unless we vote this money. We will have to support the Council.

Inspector T. H. Bain said he did not know of a place better served than Summerland. It has better fruit and better foliage than any other part of the Okanagan, due to the men who had gotten behind this improvement scheme. He congratulated Summerland on the way its water question had been handled. Water is the greatest asset, we must have it. He urged that the money be raised to carry on the good work.

Reeve Simpson was present and was asked to speak on this subject. He replied that he had, at the request of the Council, prepared a statement for publication in The Review this week. He regretted that it was somewhat general, all details having not yet been worked out. He pointed out that a three-fifths vote was necessary. The issue was a serious one. If nearly 100 per cent. of the vote could be called out the by-law would pass without question. Indifference might result in its defeat. It is true and a matter of pride that we are not suffering for water as others are. By a little foresight on the part of earlier councils whose plans were now being carried out, this calamity had been avoided. By that forward action we are not in such a position. It would be fatal to preen ourselves that we are in a fortunate situation. A great part of the flume system may fail at any time. Much must be done before next spring. To delay would be fatal.

An instance was given the meeting of a ranch under a system south of here on which early estimates put the crop at 40,000 boxes of apples. The crop would not now be 6,000 because of insufficient water. What would the cost of rebuilding the system be as compared with such loss?

The following motion, proposed by Mr. A. Stark was carried unanimously. "Whereas a shortage of water would be fatal not only to the crop but also to the trees, this Board of Trade very strongly supports the by-laws to be voted upon on August 27th, and urges all voters to give it their active support, and further that a committee be appointed to arrange for transportation of voters to the polls."

Will Visit Farm

Kelowna Farmers Arranging Another Excursion To Summerland.

Last year the farmers and fruit growers of Kelowna set apart a day on which to visit the Dominion Experimental Station here and quite a number came down in cars. It is now proposed, says the Kelowna Record, to make a joint affair of the annual picnic of the farmers of that district to the Summerland Experimental Station, the Farmers' Institute and the United Farmers' members joining with the Automobile and Good Roads Association.

Supt. R. H. Helmer has fixed Thursday, August 28th as a suitable date, and the names of those who are prepared to supply cars and of those who wish to go should be given to Mr. L. V. Rogers at once. Those attending will bring their own baskets of eatables, and Mr. Helmer will kindly supply tea and milk.

If there are enough cars available it is intended that wives of members should take part in the picnic.

It has been customary that those who do not own cars should pay \$1 each towards ferry dues to the car owner who takes them. Those who wish to make a full day will leave by the nine o'clock ferry, and those who are not able to get away so early will leave later by a special ferry.

OKANAGAN NEVER SO PROSPEROUS.

Expansion Generally at Kelowna is Index of Valley Growth.

According to a descriptive article appearing in the Province, Kelowna in common with the rest of the Valley is enjoying a wonderful era of prosperity and expansion.

Many new buildings are now in course of erection, some of brick. Among them is the new Berry theatre. A tourist hotel to cost about \$150,000, is being promoted to be built on the lakeshore.

The Kamloops-Kelowna branch of the C.N.R. is progressing rapidly, grading being carried on all along the line practically, and steel may be laid into the Orchard City this fall. An agitation is now being carried on to have a union station and wharf established at the site of the present C.P.R. station.

As here in Summerland, real estate is moving freely there, orchard property changing hands at prices varying from \$500 to \$750 per acre. Many new settlers are coming in, among them being a good number of Imperial Army officers, now demobilized. The Provincial Government has also acquired some land for soldier settlement purposes, which means that the Canadian veterans will take up land there.

The two canneries at Kelowna are going full blast. One, specializing in the canning of tomatoes, employs about three hundred workers at the height of the season. This cannery has a capacity of about seventy thousand cans a day, and is expecting to put out a quarter of a million cases. The other plant goes in for fruits and vegetables, and is now taking in five tons of produce a day, its capacity being sixty thousand cans per day.

There are six packing houses with numerous branches in the adjacent districts. The manager of one packing house stated that his firm would handle about 120,000 cases, which would mean \$250,000 to the growers.

Mr. James Gordon, formerly principal of the Kelowna public school, took up the work of fruit confection and making candied fruit pool, etc., as an experiment during his holidays and has made a special study of the process. His interest in the work became so great that he is giving up his school work to take charge of this department of the cannery.

Miss Frances Todd has accepted the offer of the position as third teacher on the high school staff. Miss Todd was the board's first choice. Deeds have been put in and other preparations are being made in readiness for opening in the College building.

Few Canadian Troops In England

Capt. H. G. Estabrook Talks Interestingly of Conditions In England

Capt. H. G. Estabrook, who for the past seven months has been on trans-Atlantic conducting work for the Y.M.C.A. with the troops returning to Canada, paid Summerland a short visit this week on his return to his home in Victoria. He estimates that he has travelled about forty thousand miles in his voyages. Capt. Estabrook's work consisted of the organization of the recreative features on board the ships conveying the soldiers back to Canada. These included sports and games of all kinds, sing songs, moving pictures, and where a chaplain proper was not on board, making provision for the spiritual welfare of the men. Between trips and when the opportunity presented itself Capt. Estabrook travelled through England, Scotland, Ireland and Wales, visiting many spots of historical interest. He has much of interest to say of post war conditions in the Old Country.

He says there are only a few thousand Canadian troops still in England. These include those who are in hospitals, who will be returned on the next trips of the hospital ships S.S. Esseebo and Araguay, which will make one more trip each.

Of the original twenty-five conducting staffs three only remain, and these will be demobilized as soon as possible. Every ship from now on will bring soldiers with their dependents.

The strike situation in England, as in Canada, is serious. The high cost of necessities has upset the balance of things generally, and the consequent unrest is ominous. The Government authorities, however, seem to be keenly alive to the gravity of the situation, and are patiently and firmly grappling with it.

In the midst of it all it is reassuring to see how the people generally are reinstating the play element into their social life, now that the war is over. Summer resorts are overcrowded, and the old time national games and sports are again in full swing. Premier Lloyd George continues to be the strong man of England. It is the right of the Britisher to criticize, and the public mind now and again gets greatly disturbed as problems of great moment crop up in every day life. At the psychological moment Mr. Lloyd George appears, gives his summing up of the situation, and retires, and if all are not wholly satisfied with his message yet everyone seems to settle down in the spirit of "Well, he has struck the trail that will lead us out."

Somehow in spite of the warnings such as the Premier gave in his recent speech, the people of England are not panicky, but feel there, as we do here, things will be rightly adjusted in due course. The food shortage was plainly visible at times. Sugar and butter were absent from the meal tables of rich and poor alike, and public eating places at times could supply only very meagre meals, the price, however, being very far from meagre.

While not absolutely certain as to his immediate future, Mr. Estabrook fully expects to continue in the "Y" work in connection with the centres that have been established at many coast and inland points.

For The Benefit of the Returned Men.

According to word received from the Soldiers' Civil Re-Establishment Board at Victoria, Dr. F. W. Andrew of Summerland has been appointed to a position the same as occupied by the medical officer in the army. Any returned men who are suffering from illness, whether caused by war service or not, within a year after securing their discharge, will be given treatment free by Dr. Andrew, and any recurrence of disability caused through service will be cared for and given attention at any time.

Forest Fires Cover Large Areas

The big forest fire that has been raging for some days beyond the site of the Naramata storage dam is still spreading and has now covered miles of heavily wooded territory. A little more than a week ago it was all but out, and most of the fire fighters were sent down. It is said that more than a hundred men have been up fighting this fire.

Another fire which started near the railway station above Naramata has spread rapidly, and is now well back in the hills. Though a good many men have been fighting this fire, it seems improbable that it will be checked until we have rain.

A grass fire which is said to have started on the Smith place at the northern end of this municipality on Monday burned several sections of fluming before it was extinguished early Tuesday morning, after hours of hard work by a number of citizens.

Eleven dollars an ounce has been paid for tomato seed grown here in Summerland. It was, of course, from carefully selected fruit and absolutely "pure blood."

New Retail Concern Begins Business

The Summerland Mercantile Company, a new concern now being incorporated, has closed with the Summerland Supply Company, Ltd., for the purchase of its stock of dry goods, crockery and groceries in its upper store. The principals in the new company are Messrs. J. C. Freeman and T. B. Young. When first proposed Mr. W. C. Kelley was also a party to the deal but he has since dropped out.

The western half of the store building, which contained the stock of dry goods, groceries and crockery has been leased by the new concern. The Supply Company will continue to do business in the other half of the building with a stock of hardware, furniture, clothing, etc.

The latter company is also adding a line of dry goods to its lower store.

Lieut. Alfred Vanderburg, R. A. F., another of the many Summerland boys who served in France, reached home Saturday night and was met at the wharf by a large number of friends who were glad to give him a welcome home.

AN APPEAL TO THE RATEPAYERS RE BY-LAW.

Summerland, B.C.,
August 20th, 1919

The Editor,
Summerland Review.

By your permission I would like to remind your readers of the voting on the by-law on Wednesday next. The matter is of utmost importance to all of us who are ratepayers, for the question of a first class water supply is one of success or failure to our municipality. The public interest shown in it the last few years proves that our people are fully alive to its importance. The splendid response to the appeal made last year to make a real beginning to improve our irrigation system augurs well for the district, and has already proved a fine investment. Had we shelved the question then, we might to-day be in the sad plight of our neighbors at Naramata and Penticton, for whom we have deep sympathy.

We could not assuredly foresee the dry season of 1919, but like prudent and wise people, our citizens insured against a possible drought, and we are to-day reaping the benefit of such foresight. But we must not get weary in our well doing. A start only has been made so far. A magnificent part of the whole scheme has been successfully carried out, thanks to the energy of our Council, the Engineer and the employees. What has been done reflects great credit on Summerland and its citizens. Of course it cost money, but I maintain that we get our water very cheaply for irrigation purposes and we can well afford to go on improving the system till we get it as near perfection as possible, and till we all have an ample supply not only for our needs but also for our desires. We have no alternative. Some of us have suffered a deal this season because we have not had enough water to carry our truck growing to perfection, but we are thankful for the improvement evident in most parts of the municipality. So let us all pull together to complete the work already begun. We have a magnificent watershed and water supply to draw from, and it will be our own fault if we do not get an abundance of water, enough to satisfy every grower.

Our greatest enemy is indifference to-day. It would surely be a foolish and narrow minded policy to neglect to vote next Wednesday, or to vote against the by-law—and an absent voter is practically a hostile one. Those who criticize most the granted defects still existing are the very ones who should most boost the passing of the by-law, and help all possible in canvassing for it. If I vote against this by-law next Wednesday because I am dissatisfied with my water supply this season, I shall prove myself an arrant fool thus to impede a complete remedy against my present deficiency. To point out the futility of such action will be enough to convince all ratepayers of the wisdom of the necessity of recording favorable votes for the project.

I am convinced myself that the Council and Engineer are doing their level best and have done it so far. One has only to go carefully over the work already done in 1918 and 1919 to be convinced of this. I went over much of it yesterday for the fifth time since its completion, to see how it is working now that water is low, and I am proud of the work done and the improvement over last year's supply. That some are suffering who are solely dependent on the domestic pipe supply because an excessive number are now being allowed to draw from it, does not prove that the Council and Engineer have not done work to be proud of, but simply that three quarters of those who are now drawing from the pipe and who were originally intended to draw from and can be amply supplied from flumes and ditches, should be cut off from the pipe line, and then those wholly dependent on it could get fairly served. This is not a fault of construction but of management, and can easily be remedied. So instead of opposing the by-law let all such

sufferers press the Council to do the necessary cutting off and thus let all be served more equitably than at present is the case. I am satisfied that this will be done next season.

To oppose the by-law because of narrow sectional ideas, or because of jealousy, is not worthy of a single ratepayer. Ratepayers of Trout Creek will show their wisdom in giving whole hearted support to the by-law. If they vote against it they will assuredly be called unwise, narrow and selfish. We are one municipality and we must all pull together. What is good for one part of the district reacts to the benefit of all other parts. For my part I do not believe those voters who are in the Trout Creek district will vote against relief to those less favorably placed.

No, don't let any of us act so foolishly. Let us one and all pull together in the same direction to improve our water system. Let us boost Summerland all we can honestly. Let us back up the energy of the Council and its officials by giving them all the support we can. They are doing our work and not their own, and they are doing it as well as can reasonably be expected.

I have written lengthily, Mr. Editor, because it is of tremendous importance to us all that this by-law carries next week. If it were to pass without a single hostile vote, as I believe last year's did, it would reflect infinite credit on the sound common sense of the Summerland ratepayers and be something to be proud of. So let us all vote for the by-law next Wednesday.

Yours truly,
W. T. BROAD

MUNICIPAL COUNCIL

(Continued from Page 1.)

south so as to eliminate the deep ditch.

Reeve Simpson saw no physical impossibilities to this and Mr. James was promised that the matter would have early attention. Mr. James also asked again for domestic water, suggesting that the pipe be pushed through an abandoned siphon pipe. Reeve Simpson promised to give this his personal attention.

Mr. J. Tait renewed his request of last spring for an irrigation service to several lots near Mrs. Rau's. This revived the question of the much needed larger supply

of water through the pipe line to the Hespeler lots and south, and Coun. Kirk asked for and was given permission to have that line opened at several low points. He stated that he was satisfied that the pipe contained some obstructions, probably sand, etc., in the low parts. Mr. Tait was told that his request was waiting a report from the Engineer.

An option was given Clarence Adams on the Christie lots, 120 and 21, at the head of Garnett Valley. He wishes to purchase them under the plan of the Soldier Settlement Act. He was also given permission to cut some hay on a meadow in exchange for the building of a brush and gravel road to the lots. This road will give access to the site of a proposed new flume.

Coun. Dodwell reported that the rural mail was no longer being carried over a road on the north side of Prairie Valley, because of the condition of a hill. He suggested buying a corner of a lot at that point and changing the road to give an easier grade. Information as to cost, etc., will be submitted to the Council.

By resolution a cheque for \$125, tendered by Mr. W. A. Caldwell for a horse, was accepted.

The Clerk was instructed to reply to a communication from the Board of Trade respecting roads and road equipment, that the matter was before the Council and would have early attention.

Mr. C. W. Lees, having purchased from the Development Company Lot 116 and 50 58 in D.L. 675, ten two-acre lots, asked that they be grouped into two or three lots and that water be put on for irrigation. Referred to Engineer for report.

Mr. C. H. Taylor, now owner of the Quipp lot, applied for water for a larger area for next year as he proposed planting more land, and H. C. Howis asked for domestic water to Block 22 in D.L. 2561. These will be considered in due course.

The Reeve and Clerk were appointed delegates to the Union of B.C. Municipalities Convention to be held in North Vancouver on Sept. 16, 17 and 18.

Pointing out the danger to traffic that exists because of the very narrow section of road around J. Tait's corner Coun. White presented a resolution that the road be widened to the sidewalk and also that the brush on the corners and turns of the principal highways be cut. This was seconded by Coun. Campbell and carried.

Reference was also made to the need of using the watering cart. It was stated that the tank was now being soaked to render it usable. Coun. Kirk suggested that the cost of oiling the streets should be looked into.

The Clerk asked for instructions

regarding the McAlpine judgement, the monthly payments not having been forthcoming this year. He was instructed to request a satisfactory reply to the several communications before the end of the month.

In response to numerous requests from Mr. George W. Johnston for a domestic water service, an effort is being made to arrange for payment of the necessary pipe extension, about 800 feet.

Instruction was given for the placing of a screened box at the mouth of the pipe which drains the Drewett and adjacent lots.

Couns. Campbell and White were appointed a committee to look into the question of obtaining a supply of lumber suitable for the municipal needs and to report.

Owing to changes to be made in the power line there will be no lights at West Summerland on Monday night.

The semi-annual district gathering of representatives of the Presbyterian churches was held this week at Kelowna. Attending from here were Rev. W. H. Bates, Rev. D. Lister and Mr. J. G. Robertson.

Twenty-two express truck loads, about 2,000 packages, of fruit were shipped from the C.P.R. station here Thursday morning. This is said to be a record. It looks as if Summerland will still hold her record as the largest express shipping point in the province.

Corporation of the District of Summerland BY-LAW NO. 107

A By-Law of the Corporation of the District of Summerland to authorize the Municipal Council of said Municipality to improve, repair, and reconstruct the flumes, ditches and dams of the Municipal Irrigation System of the said Corporation of the District of Summerland. The Reeve and Council of the Corporation of the District of Summerland, in Council assembled, enact as follows:—

1. WHEREAS it is necessary to improve, repair and reconstruct the flumes, ditches and dams of the Corporation of the District of Summerland, therefore, be it resolved that the Council of the Corporation of the District of Summerland be, and is hereby, authorized to improve, repair and reconstruct the said flumes, ditches and dams of the said Municipality.

2. THIS By-Law shall, before the final passing thereof, receive the assent of the Electors of the Corporation of the District of Summerland in the manner provided for in the Municipal Act, 1914, and amending Acts.

3. THAT this By-Law shall come into force on the first day of November, 1919.

Done and passed by the Municipal Council this Twelfth day of August, 1919:

Received the assent of the Electors of the said Corporation of the District of Summerland, this day of 1919.

Reconsidered and finally passed by the Municipal Council this day of 1919.

Reeve,
Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-Law upon which the vote of the Municipality will be taken on Wednesday, August 27th, 1919, between 9 o'clock a.m. and 7 o'clock p.m.

The Poll will be held at the following places:

Municipal Office, West Summerland.
W. J. Robinson's Office, Summerland.

PUBLIC NOTICE is hereby given that the vote of the Electors of the Corporation of the District of Summerland will be taken on the above mentioned By-Law at the time and places above mentioned.

F. J. NIXON,
Municipal Clerk.

Corporation of the District of Summerland BY-LAW NO. 108

A By-Law to raise \$75,000.00 to improve, repair and reconstruct the flumes, ditches and dams of the Irrigation System of the Corporation of the District of Summerland.

WHEREAS it is deemed advisable to improve, repair and reconstruct the flumes, ditches and dams of the Irrigation System of the Corporation of the District of Summerland.

AND WHEREAS it is necessary for the said purpose to raise by way of Loan, upon the credit of the Corporation of the District of Summerland, the sum of \$75,000.00 payable

\$2,000.00 on the first day of November, 1920
\$2,000.00 on the first day of November, 1921
\$2,200.00 on the first day of November, 1922
\$2,400.00 on the first day of November, 1923
\$2,600.00 on the first day of November, 1924
\$2,800.00 on the first day of November, 1925
\$3,000.00 on the first day of November, 1926
\$3,200.00 on the first day of November, 1927
\$3,400.00 on the first day of November, 1928
\$3,600.00 on the first day of November, 1929
\$3,800.00 on the first day of November, 1930
\$4,000.00 on the first day of November, 1931
\$4,200.00 on the first day of November, 1932
\$4,400.00 on the first day of November, 1933
\$4,600.00 on the first day of November, 1934
\$4,800.00 on the first day of November, 1935
\$5,000.00 on the first day of November, 1936
\$5,200.00 on the first day of November, 1937
\$5,400.00 on the first day of November, 1938
\$5,600.00 on the first day of November, 1939
\$5,800.00 on the first day of November, 1940

bearing interest in the meantime, payable half yearly on the first days of May and November in each year at the rate of 6 per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of

\$6,500.00 by rate in the year of 1920
\$6,380.00 by rate in the year of 1921
\$6,460.00 by rate in the year of 1922
\$6,528.00 by rate in the year of 1923
\$6,584.00 by rate in the year of 1924
\$6,628.00 by rate in the year of 1925
\$6,660.00 by rate in the year of 1926
\$6,680.00 by rate in the year of 1927
\$6,688.00 by rate in the year of 1928
\$6,684.00 by rate in the year of 1929
\$6,668.00 by rate in the year of 1930
\$6,640.00 by rate in the year of 1931
\$6,600.00 by rate in the year of 1932
\$6,548.00 by rate in the year of 1933
\$6,484.00 by rate in the year of 1934
\$6,408.00 by rate in the year of 1935
\$6,320.00 by rate in the year of 1936
\$6,208.00 by rate in the year of 1937
\$6,084.00 by rate in the year of 1938
\$5,948.00 by rate in the year of 1939

AND WHEREAS the whole rateable property of the said Corporation of the District of Summerland, according to the latest revised assessment roll is \$2,629,620.00

AND WHEREAS the total amount of the debenture debt of the said Corporation of the District of Summerland is \$365,000.00 of which none of the principal or interest is in arrears.

NOW THEREFORE, the Reeve and Council of the Corporation of the District of Summerland, in open Council assembled, enact as follows:—

1. It shall be lawful for the Reeve of the said Corporation of the District of Summerland to raise by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$75,000.00 and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Corporation of the District of Summerland for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the Reeve to cause any number of debentures to be made, for a sum not exceeding \$1,000.00 each, bearing interest at the rate of six per cent. per annum, not exceeding in the whole the sum of \$75,000.00, and all such debentures shall be sealed with the seal of the said Corporation of the District of Summerland.

3. The said Debentures shall bear date the first day of November and shall be made payable

\$2,000.00 in one year
\$2,000.00 in two years
\$2,200.00 in three years
\$2,400.00 in four years
\$2,600.00 in five years
\$2,800.00 in six years
\$3,000.00 in seven years
\$3,200.00 in eight years
\$3,400.00 in nine years
\$3,600.00 in ten years
\$3,800.00 in eleven years
\$4,000.00 in twelve years
\$4,200.00 in thirteen years
\$4,400.00 in fourteen years
\$4,600.00 in fifteen years
\$4,800.00 in sixteen years
\$5,200.00 in seventeen years
\$5,400.00 in eighteen years
\$5,600.00 in nineteen years
\$5,800.00 in twenty years

from the date hereinafter named for this By-Law to take effect, at the agency of the Bank of Montreal, in the said Corporation of the District of Summerland, and the amounts shall be raised and levied annually in each of the respective years by a rate on all the rateable property in the said Corporation of the District of Summerland, in addition to all other rates, for the payment of the debt hereby created, when due.

4. The said Debentures shall have coupons attached for the payment of interest at the rate of six per cent. per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the first days of May and November, in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said debentures and to provide for the payment of the said debt when due.

6. The sum of

\$4,500.00 in the year 1920
\$4,380.00 in the year 1921
\$4,260.00 in the year 1922
\$4,128.00 in the year 1923
\$3,984.00 in the year 1924
\$3,828.00 in the year 1925
\$3,660.00 in the year 1926
\$3,480.00 in the year 1927
\$3,288.00 in the year 1928
\$3,084.00 in the year 1929
\$2,868.00 in the year 1930
\$2,640.00 in the year 1931
\$2,400.00 in the year 1932
\$2,148.00 in the year 1933
\$1,884.00 in the year 1934
\$1,608.00 in the year 1935
\$1,320.00 in the year 1936
\$1,008.00 in the year 1937
\$ 684.00 in the year 1938
\$ 348.00 in the year 1939

shall be raised and levied by a rate on all rateable property in the said Corporation of the District of Summerland, in addition to all other rates in said years, for the payment of the interest on the said Debentures.

7. This By-Law shall, before the final passage thereof, receive the assent of the Electors of the Corporation of the District of Summerland, in the manner provided for by the "Municipal Act, 1914," and Amending Acts.

8. This By-Law shall come into force and take effect on the first day of November, 1919.

9. This By-Law may be cited for all purposes as the Irrigation Loan By-Law, 1919.

Done and passed by the Municipal Council this Twelfth day of August, 1919:

Received the assent of the Electors of the said Corporation of the District of Summerland the day of 1919.

Reconsidered and finally passed by the Municipal Council the day of 1919.

Reeve,
Clerk.

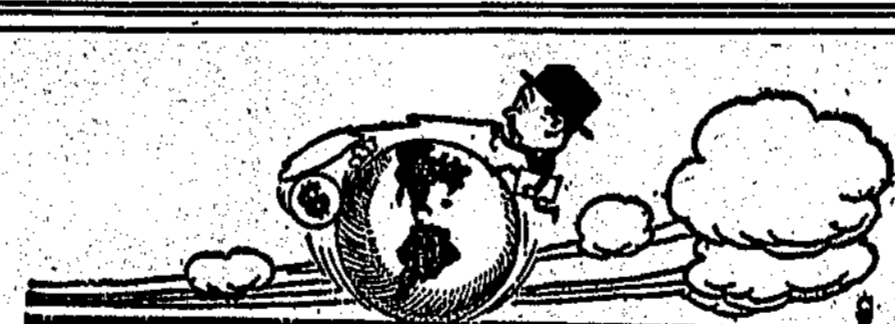

TAKE NOTICE that the above is a true copy of the proposed By-Law upon which the vote of the Municipality will be taken on Wednesday, August 27th, 1919 between 9 o'clock a.m. and 7 o'clock p.m.

The Poll will be held at the following places:

Municipal Office, West Summerland.
W. J. Robinson's Office, Summerland.

PUBLIC NOTICE is hereby given that the vote of the Electors of the Corporation of the District of Summerland will be taken on the above mentioned By-Law at the time and places above mentioned.

F. J. NIXON,
Municipal Clerk.

Naramata News

Current Events of Town and District

Mr. and Mrs. F. G. Sliter of Seattle and Mrs. F. W. Chambers and three children of Los Angeles are visiting Mr. and Mrs. George Cook. The entire party motored through from Seattle and had an ideal trip.

Mr. Frank Haywood of Vancouver and Miss Elsie of Summerland were guests of Mr. Haywood's mother on Wednesday.

Miss May Roe who is visiting relatives here was obliged to go to the hospital in Summerland last Tuesday on account of a severe attack of appendicitis. She is now improving and able to be about once more.

Another forest fire started on Friday on the John Robinson pre-emption, and is now raging fiercely toward the summit of the hills between the two creeks, Eight Mile and Camp Creek. A large fighting force of men are on the ground but are not able to arrest the blaze. A good rain is the only thing that will afford relief just now but unfortunately there are no prospects for this at present.

Mr. and Mrs. James Dean who have been visiting Mr. and Mrs. George Wolstencroft for the past two weeks have returned to their home in Vancouver.

Miss Ruth Waterman who went into training in Vancouver Hospital to qualify as a nurse is making rapid progress in her profession and has received her cap.

Rev. and Mrs. Ewing were at home to Naramata friends on Tuesday evening at the home of Mrs. Hughes, a further report of which will be given next week.

Guests at the home of Mr. and Mrs. J. M. Robinson this week are Robert McKechnie of Vancouver, Miss Carmen Mathers of Vancouver, and Mr. Paulding Mead of New York.

The dance at the Pavilion on Thursday evening drew a good crowd both from Summerland and Penticton, while Paradise was represented by the residents of that place and some of their friends. The refreshments were served by the Ladies Unity Club under the management of Mrs. Salting and Mrs. McKay. All had a good time and departed about one o'clock.

The entertainment which is being prepared under the direction of Mrs. C. C. Aikins will be held on Thursday evening, August 28th. There will be a one act play, a mixed musical program and the whole affair will end with a minstrel performance. The forest fire is handicapping the rehearsals somewhat on account of some of the talent being required to stay in the hills, but with any kind of luck the show will be given on the date specified and will be well worthy of patronage. The funds will go to the Red Cross.

A quarterly board meeting of the Methodist Church was held on Monday night.

On account of the absence of Mr. Miller the regular church service was held by the Rev. Ewing.

Would Control Organization of Cannery.

"The organized fruit cannery of the Dominion should be, as soon as possible, put under the regulative power of the Board of Commerce, shortly to be named." This is one of the important recommendations which has been placed in the hands of the Minister of Labor by the Cost-of-Living Commissioner.

The report states that the business of canning is practically a natural monopoly, and that its prices should be as carefully regulated as the charges made to the public by a railroad or telephone company. This because it is doubtful if there will ever be sufficient competition in this field to control prices.

The report finds that the business of canning fruits and vegetables in Canada is very largely in the hands of the Dominion Cannery Limited, and the Canadian Cannery Limited, the first of which is described as an operating company, which packs about three-fourths of the Canadian output, and the second is almost entirely a price fixing organization for the Dominion Cannery Limited, and others.

A woman's hat may be off her head and still be on her mind.

IRRIGATION FOR WINTER SOIL MOISTURE.

By R. H. Helmer, Supt. Experimental Station, Summerland, B.C.

Our crops often lack sufficient soil moisture during the winter and the following reasons may be given for applying water in the late fall:—

1. Evaporation is practically nil.
2. Water which would otherwise be wasted can be made use of.
3. Water distributes itself to a greater depth.
4. The soil water film remains in contact with soil particles for a longer period, more plant food is dissolved and made available ready for the spring to form strong root systems to growing plants.
5. Water stored in the soil at the time of planting is invariably more valuable, unit for unit, than water applied later.
6. Irrigation water applied early in the spring chills the soil already warmed by sun and cultivation. In deep retentive soils, fall irrigation overcomes this.

IN ORCHARD PRACTICE GREAT CARE MUST BE USED.

An orchard that has suffered from drought, if heavily irrigated too early in the fall, will make a second growth which will not ripen sufficiently to stand winter freezing. On the other hand an orchard well cared for and irrigated during the growing season, with well ripened wood, will benefit greatly by an abundance of soil moisture. The writer has seen some good examples of an abundant soil moisture saving apple trees during severe winters. One case in point. Apple trees round a spring in an orchard which sub-irrigated about half an acre were not damaged and bore abundantly the following year, while trees were badly damaged and killed as they receded from the influence of the seepage.

Fall irrigation for orchards, last week in October to middle of November; other crops such as clover, alfalfa, pasture, grain; September to middle of November; bare ground any day the water will percolate into the soil.

REMEMBER. — Freezing drains the moisture from the plants and those going into the winter dry lose their life-blood, the cells become dry and tough and flow of sap is checked or completely stopped. In districts with abundant fall rains, late irrigation is unnecessary.

Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Date, 1919.	Max.	Min.	Rain	In.	Sunshine
Aug. 13—	72	56	.00	0.0	8.8
" 14—	77	49	.00	0.0	11.9

NOTICE

To Returned Soldiers.

Dr. F. W. Andrew of Summerland has been appointed by the Department of Soldiers' Civil Re-establishment as Medical Representative, whose duties are to attend to all returned men who require medical attention. This attention is being given free to men who may be taken ill any time within one year of discharge, whether the cause be from war service or not, and to men who are suffering a recurrence of disability caused by war service, at any time.

Water Notice.

DIVERSION AND USE.

TAKE NOTICE that Frederick Charles Wildy, whose address is Peachland, will apply for a licence to take and use 1,000 gallons daily of water out of lake, also known as Wildy's Lake, which flows through his property, and drains into Okanagan Lake, about at the N.W. Point, S.W. point of property. The water will be diverted from the stream at a point about middle of lake at about 600 yards from S.E. corner, and will be used for irrigation purpose upon the land described as P.R. 961, S. Similkameen.

This notice was posted on the ground on the 21st day of July, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C. within fifty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is August 1st, 1919.

FREDERICK CHARLES WILDY, Applicant.

Announcement

WE beg to announce that we have sold our Grocery, Dry Goods and Crockery business at West Summerland to The Summerland Mercantile Company.

We take this opportunity of expressing our appreciation and thanks to our many customers of West Summerland for their long and generous patronage.

We will still continue to carry, at West Summerland, a full stock of Hardware, Furniture and Gents' Furnishings, and will now be in a better position to give more attention to the requirements of our customers in these particular lines.

The above change does not affect our Down Town Store, excepting that in addition to the Groceries, Hardware, Crockery and Gents' Furnishings carried there, we will add a range of Dry Goods. This we feel assured will be appreciated.

Passing Events: Social, Personal, &c.

Major Hutton was a visitor to Vernon this week.

Mrs. W. H. Hayes has gone down to Vancouver to remain for a short time.

Miss Anna Lister came in Tuesday evening on a short visit to her home. She is on the nursing staff of the Revelstoke hospital.

Mr. Blackley, of Lethbridge, was this week the guest of Mr. and Mrs. Chas. Baker. He is on his way to visit his ranch at Salmon Arm.

Mrs. Anderson of Peach Orchard has gone to the Coast to remain until spring. She was accompanied by her son F. G. Anderson, who has since returned.

Mr. and Mrs. W. Arnett and daughter, Miss Hilda, are spending a vacation on their orchard home here, having arrived from Manitoba last Friday evening.

Gordon Ritchie is home again from England. He enlisted in the 68th Battery, but was transferred to heavy artillery in England. Since the 11th November he has been serving in hospital work.

Enquiries for all kinds of properties are continually being made to F. D. Cooper, the real estate broker of Peach Orchard, where his office is. 3,4

Miss Gertrude Howson came in from Edmonton Tuesday evening to join the other members of the family. Her father, Mr. Daniel Howson now has the D. L. Sutherland lot.

CHANGES IN FERRY SCHEDULE.—The ferry is now leaving Summerland at 9:30 instead of 10 a.m. Return from Naramata leaving at 12 instead of 11 a.m. Afternoon trip as now.

W. J. Beattie came in from Vancouver on Monday. Since leaving here some weeks ago Mr. Beattie has been under treatment in hospital because of illness contracted in the trenches in Flanders.

Mr. E. R. Simpson, President of the Summerland Fruit Union went up to Vernon Thursday morning to attend a regular meeting of the board of the Okanagan United Growers, of which he is a member.

Regimental Sergeant Major H. W. Atkins came in over the K. V. R. on Friday, August 8th, after an absence of four years, three of which were spent in France. For the present he is the guest of Mr. and Mrs. Geo. W. Johnston.

In a baseball game at Penticton between a team from the Summerland Boy Scouts and another of Penticton Cadets the Summerland boys were winners by 5-4. The Cadets are coming up next Thursday to try to even up with the Summerland boys.

Mrs. A. B. Williams, assisted by her daughter, Mrs. Ernest Lock and her daughters-in-law Mrs. L. R. Williams and Mrs. F. A. Williams, entertained a number of friends last Friday afternoon in honor of Mrs. Colin W. Lees, who is shortly removing to Kelowna.

The Board of Trade has been asked to give some assistance or suggest some way in which the fruit packers here for the summer months from other places be suitably provided with eating and sleeping quarters. A building that could be operated co-operatively by the girls under the supervision of a matron is one of the suggestions from the packers.

The dance given by the Boy Scouts Wednesday evening is pronounced one of the most successful ever held here. In attendance it probably has not been exceeded. Good music, a floor in fine condition and pleasing decorations contributed to the pleasure of the large number of dancers. A special feature was the announcing of the dances by bugle call. Ice cream was sold and coffee, lemonade, sandwiches and cake provided free. The proceeds will defray the remaining indebtedness on the summer camp and the balance will be used to buy library books, etc.

Continued dry weather is quickly diminishing the available supply of irrigation water. For more than a week men have been at the head of Trout Creek opening some of the beaver dams and cutting a channel into one of the lakes. On Monday Mr. R. Johnston went up and came back with the men on Wednesday. He reports the water falling fast and says the reserve there will be exhausted very soon. Early next week he will go to Canyon Creek to open the gate on the dam there. There is yet water in the Enosa Creek dam, but all stored water will have been used by the first few days in September, unless rain comes in the meantime. Usually the service is terminated about the 15th of September by the discharge of the ditchmen. Unless rain comes in the meantime it will probably be that the season will end a few days earlier by the exhaustion of the supply of water.

Miss Baraclough, a former citizen of Summerland, is here from Manitoba on a visit, the guest of Mrs. R. C. Lipsett.

Mr. H. G. Pearce of Vernon is here relieving Mr. R. Shaw, accountant with the Bank of Montreal, who is now on vacation.

Mr. and Mrs. C. N. Higgin went out Tuesday morning to the Coast. From there they will go to England to remain through the winter.

Mr. F. A. Miller, a recent visitor here from Castor, Alberta, has bought, through W. J. Robinson, the David Gray property at Trout Creek Point.

MAY PRESENT ADDRESS TO PRINCE

At the Council meeting last Tuesday Coun. Kirk threw out the suggestion that an effort be made to have the Prince of Wales stop a few minutes as he passes Summerland on his tour, for the purpose of receiving an address to His Royal Highness.

The Prince's program as at present drawn up makes provision for a trip over the Kettle Valley Railway, passing east through here. The royal train will reach Penticton on September 30th, and since a trip on the lake is projected it will mean that the Prince passes Summerland both by the train and the boat. The proposal is to have the boat stop at the Government wharf, it being far more suitable for reception purposes than the C.P.R. wharf.

It is certain that this move to have the Prince of Wales stop at Summerland will be popular, for there are a host of loyal subjects here who desire the opportunity of seeing the young Prince who will at some future time occupy the throne of England. The fact that during the war the Prince made it a point to be at the front acquainting himself with actual conditions, and more than once, it is known, was even in the fighting area, has made him a favorite with many of his future subjects.

The matter is being taken up in the proper quarter, and successful results are hoped for. Peachland and Naramata will be asked to cooperate, so that the affair may be made quite representative.

From Penticton the boat with the royal party will proceed to Kelowna. From that point the Prince will motor to Vernon and later to the Landing, joining the boat there to return to Penticton, and on east over the Kettle Valley Railway.

Memorials Unveiled

To perpetuate the memory of two of its young soldier-members, George Dale and George Harwood, who laid down their lives on the fields of Flanders in the war now ended, memorial tablets have been placed in the Parkdale building of the Summerland Baptist Church. Both were young men in the height of youth and vigor, respected members of the church body.

The tablets of brass on square mounts of hardwood, have been placed one on each of the east and west sides of the church. The formal unveiling took place at a largely attended service last Sunday evening.

Mr. W. C. Kelley was the speaker of the evening and addressed the congregation in words bearing on the occasion. The actual unveiling was done very fittingly by two others who saw service in France, Frank Hayward and Arnold Gayton.

A union choir of the Presbyterian and Baptist Churches led the singing and also rendered a fine anthem. Other special music of a nature suited to the service was a violin solo by Miss Walker and a vocal solo by Mrs. C. Elsey.

Ratepayers of Summerland

Your Municipal Council wish to urge upon the Ratepayers the necessity of registering their vote in favor of By-Laws Nos. 107 and 108.

We have gone as carefully and thoroughly into the requirements of the irrigation system as it has been possible to do. In the June 27th issue of The Summerland Review was published, in part, an estimate of the work proposed to be done between the present and the next irrigation seasons. At the general meeting held July 2nd further estimates were given on the Prairie Creek ditch and what is known as the Thompson ditch. The total sum proposed to raise was \$72,000. As the By-Law calls for the issue of 6 per cent. debentures, and as it will probably be necessary to sell them at a price to realize 7 per cent., the issue is being made for \$75,000, which will complete all the most necessary parts of the work outlined. The total estimates prepared by the Engineer and presented to the public meeting were as follows:—

North Main	\$8,385.00
South Main	9,693.00
Siphon	700.00
Garnett Valley	5,000.00
Flumes	15,000.00
Trout Creek Canal	10,814.26
Thompson Ditch	13,272.60
Prairie Creek Ditch	9,140.76

\$72,005.62

This program does not include any additional work at headwaters. The Council fully appreciates the importance of storage, but the necessary work on the system within the Municipal district is so great that something had to be left for a future time. We feel that now too much of the water we store is lost to us through faulty ditches and flumes. Elimination of this waste of storage water will in effect be an increase in our supply.

All the main ditches will be concreted and therefore of a more permanent character. For this class of work it is very proper that it be done under a capital loan by law, as the money is expended for a permanent addition to the system. Some of the work proposed, such as most of that on the Garnett Valley system and the money expended in renewing other wooden flumes might better have been provided for out of revenue in past years. Where a wooden flume is enlarged the proportion of cost due to enlargement may properly be classed as a capital expenditure. But the disintegration of the system over and above an amount equal to the sinking fund provided for the liquidation of the debt should be offset by maintenance provided for out of the annual revenue. This principle having been only partly put into effect in the past, there is now no alternative but to borrow to put the flumes in condition to perform the duty required.

Of the considerable sum allocated to the renewal of flumes several thousand dollars represents work which has already been undertaken. After the expenditure of the moneys raised by the last loan, it was found that much work still had to be done if water was to be carried to many users. We could not see these citizens lose their crops. The old flumes serving these lots were completely beyond repair. Too much had been left for just another season or so. The situation was serious. We met it, but in doing so had to assume that the majority of the ratepayers would uphold us in our action and to do so requires your support at the polls next Wednesday.

None should be so indifferent as to fail to cast his or her vote. If the by-law is to pass let it pass by the support of a large majority. Do not overlook the fact that a three-fifths majority is required.

Summerland already enjoys, in this valley and beyond, a reputation for progressiveness. Already we are known to have less trouble with our irrigation than probably any other district in the Okanagan. But let us not be content while, still improvement can be made that will justify the expenditure.

Not yet have we a system that will serve all equally. Those suffering most, and least able to pay increased charges, will gladly do so for the benefits to be derived. Those more fortunate at present will surely most willingly assume an obligation that they will feel less.

Benefitting by the experience of last year we felt we could not wait until fullest details as to the work could be prepared, but that it was necessary to get the by-law under way. It takes several weeks to prepare a money by-law. After it passes the Municipal Inspector, and advertise the poll, have the vote the debentures must be prepared and offered for sale. Starting as early as we did we will not have funds available before they are urgently needed.

Our Engineer is now under instructions from the Council, preparing the data that will enable the work to be planned, materials purchased in advance, and make possible economies that cannot be practised unless the work is well thought out before construction is actually commenced. The field work is at present engaging the Engineer's attention. Accurate information as to possible grades is being obtained. Information as to the required class of work to be done on each section will be compiled and made a matter of careful record. The Council determines the amount of irrigable acreage each ditch has to serve, and with grades known, no mistake as to capacity should occur in future. It is unfortunate that all this detailed information cannot be given before the voting, but we believe we have the confidence of the people in that we will exercise every economy consistent with satisfactory service and the greatest durability, that we have considered impartially the needs and claims of different persons and sections, and that we sincerely and honestly endeavor to do what is right within the limits of our knowledge and intelligence. We have given much earnest and careful thought and are prepared to do what more we can as your elected representatives. We are here in this position of trust not more by our will than yours. We ask then that you support us in our certain belief that the work we recommend is necessary and will be done with an eye only to the improvement of our district and to the material good of our citizens.

Signed on behalf of the Municipal Council of Summerland,

E. R. SIMPSON, Reeve.

A Weekly Chronicle Furnished
By Our Local Representative

Miss Irene Parkinson, who was spending a short time in town visiting with Mrs. Lupton and family, returned to her home in Kelowna on Wednesday of last week.

Wednesday and Thursday of last week saw quite a number of our citizens take the day off to enjoy the various attractions in connection with the Kelowna Regatta. Some went by boat and others motored. There was considerable disappointment on the part of several who went over in not seeing the aeroplane perform, as they had expected.

Miss Bessie Seaton came down from Vernon on Wednesday of last week and is now enjoying a holiday with her sister Mrs. W. D. Miller on their ranch at Camp Helena.

Mrs. Seigfried with her four children arrived on Wednesday of last week, from Oids, Alberta. She was accompanied by her father, Mr. Reid, whom we are very sorry to report has since succumbed after an illness of a few days. Being a man of advanced years the trip proved rather too strenuous for him. Mrs. Seigfried has the sincere sympathy of the community in her bereavement, all the more so as she is a stranger in a strange land. Just previous to her father's death she had closed a deal to purchase the Murchie cottage and fruit lot and expected to settle in it at once. In answer to a telegram telling him of his father's death, Mrs. Seigfried's brother came at once. The funeral took place on Monday last.

Mr. George Keyes with Mr. Cornish and Mrs. Wingate enjoyed a very pleasant auto trip down to the Similkameen last week. They had a little car trouble however to slightly mar their trip on the return, and were obliged to leave the car in Penticton for repairs. They got another car to complete their journey home, and Mr. Keyes took the boat down later for his car.

Mr. McAllister the evangelist who held open air meetings here last week and took part in some of the services on Sunday last, resumed his evangelistic trip on Monday afternoon. He made mention of the fact that he anticipated and hoped that he would be able to return to Peachland perhaps later on this fall.

Mrs. Robert Howell went out on Thursday morning of last week to visit friends at Kelowna, and afterward at Vernon and Lumby. Her mother Mrs. E. House left by the afternoon boat to visit friends in Summerland.

Mr. and Mrs. J. McGregor and their two boys surprised their friends here by stepping off the boat one night last week to spend a few days among old friends and

scenes. They were not able to stay very long unfortunately, Mr. McGregor having to be back on duty shortly and had to leave again on Wednesday morning last, to return to their home in Shaunavon, Sask.

Miss Hilda Winger returned to Peachland after visiting friends in Westbank for a few days.

Among the visitors to Kelowna on Friday was Mr. Hendrickson, who brought with him a supply of ice cream and other necessities for the ice cream parlor which he and his wife started up that evening in the old Miller block. That the enterprise has met with success so far is proved by the advantage that has been taken by the citizens of the convenience. The same is a very busy corner every business night since the opening.

Miss Maudie Kincaid came down on Friday evening.

Mr. and Mrs. R. Harrington are enjoying a visit for a short time of a friend of their daughter on the prairie, Mrs. Denning of Lincum, Alberta.

On Friday evening last the promised entertainment was given in the Orange Hall by the Women's Institute. Those who were able to avail themselves of the opportunity of having a good time were certainly not disappointed. All thoroughly enjoyed the program throughout. Although mention might well be made of all the items on the program, space will not allow, but many repeated have been the comments on the Scotch play which caused many sore sides among the audience. The program for the evening was as follows:— Chairman's address by the Rev. J. A. Rowland; Instrumental duet, Mrs. Moore and Mrs. Mitchell; Solo (Little Damsel), Mrs. Wallis; Solo (Aton Water), Mrs. George Lang; Instrumental Solo, Miss J. Henderson, Solo (Sunshine and Rain), Mrs. J. L. Elliott; Solo (Robin Adair),

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is not timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years and has made proportionate improvements, he may be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$100 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 100 acres may be purchased; conditions include payment of stumpage.

Barren hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Robate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 24, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Armed Forces or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1910, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Mr. Moore; Scotch Play "The Pie in the Oven or the Bashful Young Man." Characters: Mr. and Mrs. McNab (Mrs. Dryden and Mrs. Keating); their daughter Flora and Peter Duff, suitor for Flora's hand (Mrs. Reid and Mrs. Mitchell); duet "Hunting Tower," Peter and Flora (Mrs. Reid and Mrs. Mitchell); Scotch reading, "That Mysterious Riddle," Mrs. McNab (Mrs. Keating); Solo, "Laddie," Mrs. George Lang; solo, "Because I love you, dear," Mrs. J. L. Elliott; Solo, "Mary of Argyll," Mrs. Moore; Solo, "Vale," Mrs. Wallis; "God Save the King." The proceeds of the entertainment were about thirty-seven dollars out of which there is but little expense, and is to be used for the drinking fountain fund.

Mr. and Mrs. R. A. F. Moore enjoyed a few days' visit from their son Arthur who has been serving with Uncle Sam's men and who has signed on for another year. He had just recently returned and gotten a few days' leave. It must have been with considerable interest that this young man visited Peachland as it was the place of his birth and he has the distinction of being the first baby born in Peachland. He left the Valley when quite "wee" and has not enjoyed the pleasure of a return visit until now. He left on the south bound boat on Monday.

After having spent several months in town Mrs. W. Wingate and the children left this week, to join Mr. Wingate at the Coast.

Mr. S. E. Lang and Mrs. Lang are spending a pleasant holiday in town visiting relatives and renewing old acquaintances. Mr. and Mrs. Lang used quite frequently to holiday here, but since the war have very patriotically cut out holidaying, but we hope they will resume their yearly visits with us.

Mrs. John and Master Ross Cooper, Mrs. Wylie and Gerald Hatton, who have been enjoying a pleasant visit here from Calgary, for a couple of weeks left on Monday morning to return to their home. The Misses Holts and Lambertson who are a part of the party remained over for a little while longer, and are now joined by a couple of their friends, also from Calgary, Miss Sifton and Miss Brown, who will spend a short vacation here.

A joint meeting of the executives of the Women's and Farmers' Institutes was held on Monday last at which it was decided to hold the Fall Fair which they are getting up on October the 9th. The

executives of each are to prepare prize lists for their own departments and it is hoped that the citizens will do all they can to assist in making this fair a success and those in charge would be pleased to have the particulars from anyone who may feel inclined to put up special prizes on any exhibits.

The reception committee, or rather sub of the parent committee which was appointed some time ago to arrange a suitable reception for the returned men held a meeting on Monday evening in the reading room for the purpose of commencing plans to submit to the head committee. Several suggestions were made and instructions given to different persons to gather necessary data in connection with proposed plans. Another meeting is to be called by the chair.

Mrs. A. Town motored to Penticton on Monday last, and was accompanied as far as Summerland by Mrs. G. Lang, returning again the same day.

Old friends and acquaintances were pleased to meet and welcome Mrs. and Miss Jean Pollard, who have come back to their old home for a summer vacation. By their happy and contented expressions it is quite easy to see that the pleasure is not all belonging to those of us here and we hope they will continue to enjoy their visit. They have been heard to remark that they can not help seeing happiness and prosperity written on Peachlanders' faces. Mr. Pollard was not able to get away at the time they left, but hopes to join them here later.

Mr. L. Seaton arrived Monday night to spend a portion of the closing days of the summer vacation among friends and relatives here before resuming his duties for another term.

Mrs. Fulton is enjoying a visit from a friend of former days who recently came to the valley to live, Mrs. Brown and her little boy.

Mr. R. H. Huston spent Tuesday night down the lake, returning the following morning.

Mr. and Mrs. Childley moved in from the Townsite this week and are getting settled in the Murdin cottage in town.

Mr. and Mrs. J. M. Robinson and son Campbell, accompanied by Mrs. Gray and others, paid town a short visit on Tuesday, motoring up and back the same day.

Tuition Fees For High School

Board Fixes Scale of Monthly Charges to Pupils in All Class

Agriculture as a study course in the public schools was discussed with the Summerland School Board by Mr. J. W. Gibson, director of agricultural science, at a special meeting of the Board held Tuesday evening, when Chairman Gartrell and Messrs. Tait and Marshall were present.

Mr. Gibson suggested the introduction of agriculture in the schools of Summerland. He also touched on the question of improving the school grounds.

In thanking Mr. Gibson for his visit Chairman Gartrell assures him that it was the purpose of the Board to introduce this branch of study, so fundamental to the district, in September 1920 if possible.

According to the explanation given of the plan of the Educational Department the instructor in agriculture is provided free, being paid from the Dominion fund for the advancement of agriculture. Mr. Gibson suggested that Summerland and Pentiction might employ the same instructor. Enderby and Armstrong work together in this way, as do Vernon and Kelowna. The expenses would be approximately \$600 per year.

Mr. James Ritchie was present and had an informal conference with the Board regarding a site for the proposed new school building.

An application from E. Hunt for the position of caretaker of the College building at \$25 per month for the ten months was accepted.

Considerable time was spent by the three members of the Board who were present in discussing the proposed fee for tuition in the High School. A graduated scale was finally adopted and all high school pupils will now be required to pay a monthly fee. To those in the fourth year the fee will be \$5.00 a month; third year, \$2.00; first and second years, 50 cents.

On Tuesday morning next the fall term in the schools begins. Summerland will have a teaching staff of fourteen, including the principals of the high and public schools.

Prin. McIntosh of the high school will again have with him Mr. C. D. Denton and a new teacher, Miss Frances Todd. All classes will be held in the College building.

At the Central there will be Prin. S. A. McDonald, Mr. Donald Davidson, Misses Kate Butters, J. E. Nicholson, M. F. Bank and E. Brown, all new in that school with the exception of Miss Brown and Principal McDonald. Miss K. Elliott will be at the town school, Miss M. Harrison will again be at the Trout Creek School and Miss Dale goes back to her school in Garnett Valley.

The manual training work will be carried on under the efficient leadership of Mr. Chas. Baker, who made a splendid start in this work last spring. A new department will be that in domestic science which will be under the capable direction of Miss Fredrica Oliver.

All indications are that the attendance at the several schools will be in excess of any previous year and that in total there will be a very marked increase in school population.

It is expected that there will be an attendance of fifty at the high school, and that there will be 200 to enter the Central. The three ward schools will all be well attended.

Permission was sought by Messrs. Miller and Turner of Upper Trout Creek for the admission of their older children to the Summerland Schools. Secretary Bowering was instructed to answer that these children would be admitted without charge.

Quite a number of farmers from Kelowna spent Thursday at the Experimental Station here and beside greatly enjoying the outing, we are sure they learned much from the valuable work being carried on by Supt. Holmer that will be of service to them in their own orchard and farm work generally.

Coast Business Men Coming to Valley

Vancouver.—Another excursion, similar to the one which took place recently to points in northern and central British Columbia, is planned by the Vancouver Board of Trade, this time to the Okanagan and other sections of the fruit growing districts of the province. Since the return of the delegates on the first excursion, Secretary Payne has received numerous requests from boards of trade up country, urging the members of the board to visit that section of the province.

On Thursday the council of the board, after discussing the matter at length, decided unanimously to hold an excursion in the fruit growing belt. In the communications received by the board it is stated that the matter has been discussed by the boards of trade in the Okanagan, and all have urged that the excursion be held at as early a date as possible.

The council requested the same committee, Messrs. G. H. Cottrell, chairman, and C. E. Tisdall and Nichol Thompson, which so successfully carried out the arrangements in connection with the northern trip, to take charge of the arrangements for the proposed trip. The excursion will take about one week and already a large number of the members have signified their intention of taking it in.

S'land Boy Has Trying Experience

Shipwrecked, Wanders Two Days Along Precipitous Coast

Word has been received by his parents here of the trying experience and miraculous escape from a tragic death of Roy Danks, a Summerland boy who has been for some months on the north west coast of this province. Roy has been in the employ of a coal mining company for whom he has been operating a motor launch carrying supplies from Hartley Bay to the mine many miles up one of the inlets on our rugged coast. The trip from the mine and back consumes three days and nights and it was on one of the return trips, with his boat loaded and an Italian as his only assistant that he was overtaken by a severe storm. The seas ran high and the night was very dark with the boat about a mile and a half from shore, when, about 11 o'clock, the craft was swamped beneath the huge waves and the two men left floating in the water with nothing but some of the cargo to cling to. Some time before morning they drifted onto a beach and when daylight broke they found themselves in a wilderness of mountains and water. To search for a place of habitation where food could be obtained seemed their only salvation. For two days and nights they journeyed on following the side of the inlet, sometimes climbing steep mountain sides, almost inaccessible, their only food being mussels and wild berries.

When a shack was finally sighted and hopes thus revived, the two, footsore and weary, hastened on, only to find that their goal lay on the other side of a fairly broad and very deep creek. To swim was the only way to cross and when the other shore was reached all remaining strength was about spent. At the cabin relief was found and from there the two shipwrecked men were sent back to the mine.

Those who know of what Roy has passed through and of how his life was despaired of on more than one occasion, will marvel that he was able to withstand such an ordeal, but he writes that he is little the worse for his experience.

Lieut. R. Loughton MacLeod, son of Rev. A. W. MacLeod, pastor of North Vancouver Baptist Church, after over three years' service overseas, has arrived in Vancouver. Lieut. MacLeod left with the Western University Battalion and transferred to the Royal Air Force. He saw strenuous service in France, where in an air fight he was wounded in the leg, which had to be amputated. He has spent most of the time since the signing of the armistice in a London hospital.

Okanagan Apples Enjoy An Ever Broadening Market

Quality and Color Opens Way to World Markets. Even Fruit Districts of East Offer No Barriers

Okanagan apples are reaching out into the American market this year in startling fashion, and McIntosh Reds are pioneering the way. They are doing missionary work, advertising themselves and their fellows, and sending home the good, hard cash at the same time.

The Okanagan United Growers, says a writer in The Press, has orders booked from United States points already for 250 cars of Macks and Jonathans, and more are coming in every day. The list of shipping points in the Company's sales book reads like a list of the leading cities and most populous states in the Union. From New York, Chicago, and Boston the orders have come, from Minneapolis and St. Paul, St. Louis and Kansas City, from Ohio, Iowa, North Dakota, Wisconsin and even Oklahoma.

Nor is Canada forgotten. Business with the eastern provinces promises to be three times what it was in 1918. Once Okanagan growers looked to the prairies to take the bulk of their fruit, but this is no longer. They are invading the eastern market and hope to skim the cream off it. Orders are on the books for Macks, Jonathans and crabs from Toronto, Peterboro and Montreal, and from as far east as Sherbrooke, Quebec, and St. John, N.B., and these orders, both American and Canadian, are for car lots, and at higher prices than the growers can get in British Columbia cities or on the prairies.

"What is the reason for this conquering march?" I asked Mr. C. L. Lowe, sales manager of the Okanagan United Growers. "How is it possible for British Columbia fruit after travelling thousands of miles, to compete with eastern fruit almost in the eastern orchards?"

"It's a better article," Mr. Lowe answered with assurance. "No place on earth can grow Macks like the Okanagan Valley. We are further north than Oregon and Washington, so the keeping quality of our apples is better. We are at a higher altitude, so our coloring is better. We have only to give our apples a chance, to grade and pack

Executive of U.F.C. Favors Amalgamation

(Special to The Review.)

Kamloops, Aug. 23.—At the call of Mr. R. A. Copeland, Lumby, president of the United Farmers of British Columbia, a meeting of the provincial directors of the association was held here this afternoon and evening. Messrs. Geo. Clark, Sidney; J. L. Pridham, Kelowna; W. E. Chapple, Armstrong; Walter Shipley, Canoe; C. W. Greer, Kamloops; J. R. Brown, Vernon, and W. E. Smith, Revelstoke, were present.

AMALGAMATION APPROVED.

After the disposal of routine business, President Copeland recounted the steps leading up to the conference at Vancouver of representatives of the Farmers' Institute Advisory Board and of the United Farmers respecting the amalgamation of the two organizations. The

Okanagan Fruit on C.P.R. Trains

Okanagan fruit is obtaining a good advertisement these days on the C.P.R. line through the efforts of J. C. L. Lowe of Sicamous. He has recently made arrangements to have neat pasteboard cartons supplied him which he distributes among the news agents of the C.P.R. trains, who sell them to the passengers at 30 cents per package. At present these contain excellent samples of plums, peaches, apricots and cherries, but their contents will be changed from time to time as the season advances. They bear the label of "Okanagan Fruit" and present a very attractive appearance. Mr. Lowe complains that despite assurances given by local shipping firms he has as yet received no supplies for exhibition at

Steelheads Planted In Osoyoos Lake

Osoyoos Lake and probably the Okanagan River up to Okanagan Falls or even to Okanagan Lake will be benefitted by the recent action of American authorities in placing 100,000 steelhead trout fry in Osoyoos Lake, the lower end of which extends for several miles into Washington State.

The following is from the Oroville Gazette:

Thursday last, Deputy Game Warden Faver of Tonasket, planted 100,000 steelhead trout fry in Osoyoos Lake. The little fellows came from the state hatchery, in the Methow River near Pateros, and were in prime condition. The game commission of the county has performed most admirable work in the distribution of game fish among the lakes and streams of the county, no section being overlooked. Last year 2,000,000 trout were distributed, and this year the number will exceed 4,000,000. With one of the best hatcheries in the west immediately in the county the commission has been supplied with vigorous fry, and these diminutive fish develop with surprising rapidity. Already are the sportsmen enjoying the fruit of the work of the game commission. From Osoyoos, Waukeet and Spectacle lakes are being taken large, handsome trout, and the gameness of these fish bring joy to the hearts of the angler.

Members Must Respect Civic Laws

Japanese Claim They Have Only Been Getting Fair Share of Water

The Japanese of Summerland are jealous of their reputations as good and law abiding citizens. The inferences and implications contained in published reports of complaints made to the Municipal Council regarding matters pertaining to irrigation, in which Japanese were mentioned, came up for discussion at the regular meeting of the local sons of Nippon on Sunday. Apparently a careful enquiry was made with the result that the leaders were satisfied that none of their number had been tampering with the water gates or otherwise interfering with the equitable distribution of water.

Representing the Japanese Farmers' Association, Harry Kobayashi accompanied by Frank Ageno who has one of the lots referred to in the complaints heard a week before by the Council, called at the Council Chamber on Tuesday while the Council was in session and expressed regret that there had been such implications against any of their number.

He told of the enquiry by their Association, stating that it had been agreed that any member who was found to have broken the laws and rules of the community would be disciplined by the Association. A delegation had gone to the citizens who had complained the week before but could not get them to accuse anyone of the Japanese. They were anxious to get at the truth and wished to live as good citizens. He asked that, if at any time in the future there should be any charge against any Japanese, the secretary of the Japanese Farmers' Association be notified at once. Any member offending the laws of the community would be duly punished. An explanation tendered by Mr. Kobayashi for the marked difference in some instances between the lots worked by members of their organization and those of white men was that the former were experienced while in many cases the white men were new to the work, especially on irrigated land. The Japanese on Jones Flat had suffered from the general water shortage there, but had not complained. Nor had they made use of domestic water for irrigation purposes, as had been done by some of their neighbors.

The delegation was thanked by Reeve Simpson for the way in which their side of the question had been presented and for the promised assistance in enforcing the water regulations.

Winter Domestic Water Supply

Council Hears Reports From Engineer on This Question

Part of Tuesday afternoon was spent by the Reeve and Councillors in looking over a section of Jones Flat, where inequitable distribution of water had been complained of. At 6.30 the Council adjourned until Friday morning, after getting only partly through the day's agenda.

Requests for prices on land held by the Municipality resulted in an order to hasten the registering of tax sale deeds.

As a result of a report from the committee in charge, the Council, in view of the hours being put in by the Municipal Electrician, who, in addition to taking his regular shift seven days a week as operator at the power plant, has the lines to care for and private wiring, etc., to attend to, was voted an increase of \$20 per month.

Reeve Simpson, who on behalf of the Council is endeavoring to have the Prince of Wales call at Summerland on September 30th, read the correspondence on the subject, including a telegram from Hon. Martin Burrell to Mr. J. W. Jones, M.L.A. A definite answer had not then been received.

Couns. Campbell and White, a committee to negotiate for the purchase of lumber, reported having secured a quotation from the Manager of the Summerland Lumber Company for shipment from Princeton. Preparations are being made to place a definite order, with specifications, for immediate delivery.

A report from the Engineer showing the progress made on the survey of the several sections of the irrigation system, was received. Engineer Fawkes also submitted a report on the winter supply pipe to the reservoir. He did not approve of a suggestion that had been made to carry the pipe around to a main leading out of the reservoir; the purpose in the suggestion being to save seepage from the reservoir. The length of pipe needed would be great and the cost heavy. He found the pipe between the intake weir and reservoir would not now carry water, indicating that it was either above hydraulic grade at some point or was choked. This latter is, in the opinion of the Engineer, the cause. Further examination by "breaking" the pipe at intervals will be necessary. This was authorized, the work to be undertaken as soon as possible. Engineer Fawkes thought it might be advisable to continue the pipe from the point where it now ends on the railway embankment to the reservoir, instead of permitting the water to spread and reach its destination as it will.

Not knowing the amount of water required for domestic water purposes, the Engineer could not state whether the pipe, if in proper condition, was large enough to deliver sufficient water. Its capacity is about one cubic foot per second.

Coun. Kirk stated that .77 cu. ft. per second would be sufficient. This would leave quite a margin for seepage from the reservoir.

The Engineer was told that it was the desire of the Council to start work in two weeks on the north main, should the bylaws carry, and he was asked to prepare specifications, with plans of cross sections of the different pieces of construction, grade, length, capacity and estimates of material.

Stirling & Pitcairn In Suit

John Kidston, of Vernon, will sell his 1919 crop to Stirling & Pitcairn, Limited, of Kelowna, but on September 10 a Supreme Court trial will be held of two actions in which each party is suing the other. An injunction granted a week ago preventing Mr. Kidston from selling his crop to anybody but Stirling & Pitcairn, Limited, remains in effect until that date. Mr. Kidston's notion is for an accounting of the firm's dealings with his crops, and the firm is suing for enforcement of its contract. The subject is of great interest to fruit growers in the Okanagan as the litigation affects the marketing of their crops.

The Summerland Review

FRIDAY, AUGUST 29, 1919.

DILATORY POLICY

FOR MANY WEEKS—YES MONTHS—the question of repairs to that portion of the Okanagan highway within the limits of Summerland has been the subject of correspondence that has been going round and round the circle between the Municipality, the Department at Victoria and the District Engineer and his assistants, with nothing accomplished. With the exception of a small expenditure on that part of the road built and maintained along the northern fringe of the district by the Government, and in no way a Municipal road, not a dollar has been spent here. All that section from Peach Orchard to Trout Creek remains wholly neglected by the provincial road men and has had but little work done on it by the Municipality. Some weeks ago the Municipal Council offered to bear half the cost of putting this piece of road in good condition, but the matter was evaded by the Government.

Here is a subject for the recently organized Good Roads and Automobile Association to tackle. An extra appropriation for road purposes has been made by the Province, but all indications now are that none of it will come this way.

In Penticton quite a portion of the main street has been rebuilt by the Province, the Municipality paying only one thousand dollars toward the cost.

All we ask is a square deal.

UNLESS EARLY STEPS ARE TAKEN to meet in some measure the demand for house accommodation in Summerland this community cannot hope to make the progress that it would otherwise certainly enjoy. Already many families after coming here and finding it quite impossible to get a place in which to live have gone elsewhere. Some of these homeseekers have been people who wanted orchard land with a house ready to go into, but not a few have been those who had been captivated by the beauties of the Valley and would have settled along the lakeshore or on the front benches overlooking our magnificent sheet of water. The inauguration here of a more extensive building program would be of immediate value to the district and should be profitable to those who so invest their capital.

THE LANDOWNERS OF SUMMERLAND have approved of the irrigation improvement plans of the Municipal Council, almost to a man. The program is a large one and, in order to permit the turning in of the water not later than May first next it will be necessary that work start at once.

WITH THE LARGER SUPPLY OF WATER which the proposed improvements to the system will give, the annual output of fruits and vegetables here will expand rapidly. Watch Summerland grow!

FIFTY PER CENT. OF THE COST of paving Westminster Street and Yale Road within the limits of Chilliwack will be borne by the Province. The Chilliwack Council has awarded the contract, comprising 16,400 yards of bitulithic pavement for \$38,540.

Getting Ready For Fall Fair

A meeting of the Directors of the Summerland Agricultural Association was held on Friday last at which preliminary steps were taken in connection with the Fall Fair on October 29th and 30th.

The prize list which will be ready for distribution within the next few weeks, is practically the same as last year, except that the collection of vegetables is subdivided and there will be separate prizes for each variety. In place of the box making contest, it is proposed to hold a second packing contest open to all comers.

Mr. W. G. Raby was present and took over the secretaryship and all communications in connection with the fair should now be addressed to him (Rural Route).

Reference was made to the great interest now being taken in the Summerland district and no effort will be spared by the directors and secretary to make the show the best yet. This is assured if all will do their part.

Note the dates, October 29th and 30th, and commence preparations for your exhibit now.

By-Laws Pass; But Few Oppose

By-Law No.	107	108
For	196	198
Against	9	12
Spilled	1	1

Total Vote - 206 206
The above is the official return on the balloting on the irrigation improvement by-laws by the landowners under the Summerland irrigation system on Wednesday.

As compared with previous votings on by-laws the poll was a large one, manifesting the interest taken by the growers and property holders generally in the improvement of the irrigation system.

At the Municipal elections last January, when there were contesting candidates for the reeveship and for three seats on the council as well as the election of school trustees, only 221 voters came out.

Three who voted in favor of doing the work as proposed in the Council's construction programme voted against the by-law authorizing the borrowing of the money with which to meet the cost. Whether they were wholly opposed to borrowing the money or objected to the terms of repayment, interest or had other reasons for their action is not apparent.

The Municipal Council is meeting to-day to give final approval to these by-laws and to authorize the Reeve and Clerk to sign and seal them.

The debentures will not be put on the market until November 1st, but no delay in starting work will be occasioned by this as it is confidently expected any funds needed in the meantime may be obtained by temporary loan.

Fire Warden Injured

Penticton Herald—Mr. Dick Wilton, fire warden, is lying in the hospital with two or three cracked ribs, the muscles of his back badly torn and his face badly bruised and battered as the result of an accident on the Kaleden road last weekend. Mr. Wilton had been a very busy man up to the time of the accident in connection with the fires raging in the hills near the Naramata dam site, and had been working along with little or no help. On Saturday, in company with Mr. Copley, assistant grazing commissioner, he was hastening north from Okanagan Falls in his motor car and had reached this end of the Kaleden flats when he turned to inspect what he imagined was smoke rising on his left.

From this point his recollection of the affair is a blank, but Mr. Copley says the car jumped the road and went down the steep embankment taking Wilton with it, he himself jumping clear of the rolling machine.

Mr. Arnott, driving the stage for the Southern Okanagan Transportation Company, was following the pair up, and he and Mr. Copley went to the assistance of Wilton. They found him lying unconscious at the bottom of the gully about twenty feet from the overturned car and badly battered. They hastened into the Penticton hospital with him, still unconscious, and turned him over to the care of Dr. McGregor. The doctor states that the injuries are severe and that the patient is also suffering a great deal from shock, but quiet and rest will soon bring him around again. No internal injuries apart from the broken ribs are reported.

Okanagan Has Heaviest Apple Crop

The latest report on fruit and vegetable conditions in British Columbia issued by the Fruit Commission's branch of the Dominion Department of Agriculture shows that the apple crop throughout the province varies from medium to good.

The Okanagan apple crop is estimated to be 30 per cent. heavier than it was last year. Wealthy, Jonathan and McIntosh varieties give the best promise. In the Kootenay district continued dry weather has caused a drop in estimated results, still the crop may be about 15 per cent. greater than it was last year. Some damage was done by hail on the West Arm of Kootenay Lake. In the Creston district there was a good crop of fine quality. On Vancouver Island the crop varies greatly with different districts. Cold weather in blossoming time and hot, dry weather since has adversely affected the yield in some parts. King, Duchess, Gravenstein and Baldwin are considered about the best varieties on the Island.

Reports on onions and potatoes are somewhat unfavorable. The crops are generally light and backward due to continued dry weather. In the Vernon district there are approximately 1,800 acres of potatoes with an estimated production of 4,700 tons, and 450 acres of onions, with an estimated yield of 8,000 tons. The production of onions in Kelowna is estimated at 400 tons. In the Armstrong district the potato crop is reported as light.

INSPECTS SOLDIER SETTLEMENT LAND.

Hon. T. D. Pattullo, Minister of Lands, returned to Victoria recently from a short inspection trip to the South Okanagan section which the Government is developing for soldier settlement purposes and on which work is now being done under the contract recently awarded for the construction of a main ditch for the irrigation system which will eventually provide a water system for the land.

The Minister, who was accompanied by Water Comptroller Cleveland, expressed himself well satisfied with the progress of the work. While there he interviewed Mr. J. J. Warren, manager of the Kettle Valley Railway, urging the extension of that line to provide transportation service for the settle-

MORE ICE NEEDED.

Okanagan's rapidly growing fruit shipping business, which requires an ever increasing amount of ice for the refrigerator cars has made it necessary that the C.P.R. erect another ice storage building. The Kelowna Record made this announcement last week:

That the increasing demands from Kelowna for ice for refrigerator cars has induced the C.P.R. to plan the erection of a large ice storage building here was the information given out by Mr. O. C. Walker, of Winnipeg, inspector of refrigeration service, on his visit here a few days ago.

At present all cars are being iced at the Landing before being sent down here. This results in a very considerable wastage of ice especially if the car has to stay here any length of time. A storage building here would obviate this and make possible much better service. The building will cost in the neighborhood of \$25,000. The ice is brought down from Banff during the spring by special ice trains, thousands of tons being needed for the requirements of the Valley fruit traffic.

ment area. He hopes shortly to be in a position to announce an arrangement to that effect.

Peachland Doings

A Weekly Chronicle Furnished
By Our Local Representative.

After spending a very pleasant vacation of some months in visiting friends and acquaintances here and in Summerland, Mr. and Mrs. George Lang left on Wednesday of last week for Ottawa.

Mr. and Mrs. J. McGregor with their two boys left on Wednesday morning of last week to return to their home in Shaunavon, Sask. after a few days spent amid old familiar scenes and faces here.

Mr. B. M. Whyte was a passenger outgoing on Wednesday morning's boat last week.

After spending his vacation here looking after his fruit lot, Mr. Wallace and his wife left on Wednesday of last week. We regret that more of our summer visitors were not residents, but hope that some day in the not too distant future these people who are the summer visitors of today will be settled among us to stay.

Mr. Thos. Powell was a passenger to Vernon last week going up on Thursday and returning on Friday.

Mrs. E. House returned on Thursday morning of last week after a pleasant short holiday spent with friends in Summerland.

Mrs. Alex. McKinnon who has been visiting here with her uncle Mr. Thos. Elliott for some time, left Thursday morning to return to her home in Edmonton.

Mr. and Mrs. Harrington enjoyed a motor trip taking a visiting friend over the Vernon road last week.

Mr. McNair of Vancouver, who will be known here as being connected with the Dominion Glazed Cement Pipe Company spent a few days of last week in town.

Mr. J. W. Jones, M.P.P. of Kelowna spent Thursday night in town to give an address to the G.W.V. Association. The meeting was thrown open to others than the G.W.V.'s and a goodly number assembled to listen to what proved to be a very interesting address. During the course of his remarks he enumerated the various Soldier Settlement Lands and gave a description of each with helpful information about the different features in connection with the same. He also touched on the matter of loans to veterans and also dependents, in fact explained many points of interest to all. The meeting was thrown open for questioning and discussion, and while Mr. Jones said he hoped they would not think him an encyclopedia he would be pleased to try and answer any and all ques-

tions those present wished to ask. He also made known the fact that he was always at home on Saturdays and would be glad at any time to assist any of the Veterans or dependents of our soldiers, with any problems with which they were having difficulty.

After spending a short holiday at points up the lake Mrs. Robt. Howell returned home on Thursday.

Mr. and Mrs. Pinneke were passengers to Kelowna and return on Friday of last week. They have recently moved in to town from the Murchie place and are now settled in Mr. Thos. Elliott's house on Beach Avenue.

Miss Duff-Stewart left Friday morning to return to the Coast, after enjoying a pleasant vacation here.

Mr. Montgomery was a passenger to Summerland on Friday night returning on Saturday morning last.

A very pleasant evening was enjoyed by the young people of the community at the home of Mrs. J. L. Elliott, when Mrs. Elliott and Mrs. Mitchell entertained on Friday evening. A goodly number were present and there was plenty of amusement for all.

Mr. Townsend returned last week end from his trip to the prairie. He reports crops fair around the district he visited, but a short distance from there was pretty hard hit.

Little Miss Maud Kincaid returned to her home in Kelowna on Saturday after a pleasant holiday spent here with her young friends.

Mr. Burkett Robinson spent the week end at home, going back to the mill again on Monday last.

The Misses Emma and Agnes Carlson left on Saturday morning to return home after visiting in Peachland for a portion of their holiday term. While here they were guests of Mrs. L. Mills.

Mr. Nuttall who used to take care of Mrs. Tewart's garden and orchard spent the week end in town, leaving again on Monday morning.

Mr. and Mrs. George Keyes have recently enjoyed a visit from an old friend, Miss Flossie Arnold. She took little Miss Myrtle Phillips back to Calgary with her.

Mrs. C. W. Whyte is visiting in town, a guest of Mr. and Mrs. Thos. Powell.

Mr. and Mrs. J. H. Clements, assisted by Mrs. H. Mitchell were at home to the G.W. Veterans on Saturday afternoon and evening. Ice cream and dainties were served.

Mr. and Mrs. A. J. MacKenzie with their family and visiting friends took a rather novel holiday trip last week, spending a couple of days up in the Glen Robinson country. They took their outfit with them and camped out in the open air and enjoyed the trip immensely.

Another citizen came to reside in Peachland on Sunday last, a son born to Mr. and Mrs. Chas. Somerville.

Mr. W. R. Bartlett of Naramata is spending a couple of days in town this week, looking after his interests here.

Mrs. Siegfried's brother Mr. Reid left on Monday morning to return to his home on the prairie.

Mr. Don McDonald left on Monday last to return to Winnipeg where he expected to remain for a while before going over to Scotland.

After a pleasant vacation spent in Peachland, guests at the home of Mrs. L. Mills, the Misses Lambertson and Helts of Calgary left on Monday to return home.

Miss Mabel Smith of Merritt is visiting in the home of Mr. H. E. McCall for a few days before leaving the Valley to return home for school.

Master Robt. McKechnie and Lloyd Kendall came up from Naramata on Monday to spend a short time in Peachland. Little Miss Frances Robinson accompanied them up, having been visiting in Naramata for a week.

Mrs. H. McDougall is holidaying in Naramata for a short time, having gone down on Monday night's boat.

That Peachland real estate values are not being held at any prohibitive points would seem to be proven by some more recent transfers, and it always seems a good recommendation for any locality when residents buy up local properties.

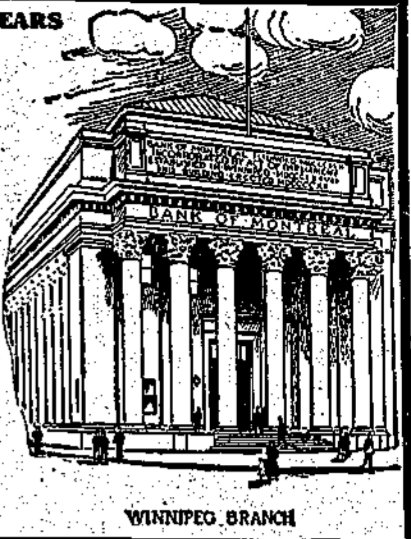

(Other Peachland Notes will be found on page 6).

Electric Starting and Lighting

NO car has a better starting and lighting system than that now available to purchasers of Ford Cars. It is a Ford product, built into the motor—

- a positive starter as reliable as the motor itself;
- a powerful lighting system, uniform under all engine speeds.

On the open models—Touring Cars and Runabouts—it is OPTIONAL EQUIPMENT.

On closed cars—Sedans and Coupes—it is STANDARD EQUIPMENT.

On all models the Ford Standard Magneto also provides ignition independent of the batteries.

See the Ford car with this new equipment.

Ford Runabout \$660; Touring \$690
On open models the Electric Starting and Lighting Equipment is \$100 extra.
Coupe \$775; Sedan \$1175 (closed model prices include Electric Starting and Lighting Equipment).
These prices are P. O. B. Ford, Ont., and do not include the War Tax. 115

Carload of Exhibits Covering Whole Range of Province's Natural Resources Shipped East For The National Exhibition.

British Columbia's varied natural resources as well as the products of her factories will be exceptionally well demonstrated at the forthcoming Canadian National Exhibition which will be held at Toronto from August 23 to September 6.

A QUESTION OF PRICE.

By Geo. Weaver, Naramata.

The immortal Mrs. Glass in her celebrated recipe for jugged hare, says, "First catch your hare," which we must admit is a most important preliminary.

What is the market price of honey in the Okanagan Valley at any given period, and how is it arrived at? My observations here for the past two seasons have shown me that there is practically no attempt to standardize prices, but that every apiarist having honey to spare sells it on a purely haphazard system.

PRINCE WILL MAKE VISIT TO OKANAGAN.

Will Come In From The Coast By The Kettle Valley Railway And Have a Trip on the Lake.

His Royal Highness the Prince of Wales, now in Canada, will visit the Okanagan Valley on September 30th, according to present arrangements. The Prince is now in the east, opening the tour of Canada that it has become customary for sons of the reigning monarch of the British Empire to make.

The total length of his seventy-day journey from Quebec to the Pacific Coast and back to Ottawa, is over 8,800 miles.

Last month Vancouver wholesalers imported 37,319 boxes of fruit from the American side, most of which was shipped from California.

But we are inclined to believe that actions do not speak louder than words at the meetings of a sewing society.

idly increasing, and there seems to be ample justification for market quotations in "The Agricultural Journal" and other publications devoted to the interests of farmers and fruitgrowers.

NOTICE

To Returned Soldiers.

Dr. F. W. Andrew of Summerland has been appointed by the Department of Soldiers' Civil Re-establishment as Medical Representative, whose duties are to attend to all returned men who require medical attention.

Water Notice.

DIVERSION AND USE.

TAKE NOTICE that Frederick Charles Wildy, whose address is Peachland, will apply for a licence to take and use 1,000 gallons daily of water out of lake, also known as Wildy's Lake, which flows through his property, and drains into Okanagan Lake, about at the N.W. Point, S.W. point of property.

This notice was posted on the ground on the 21st day of July, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C. within fifty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is August 1st, 1919.

FREDERICK CHARLES WILDY, Applicant.

Announcement

WE beg to announce that we have sold our Grocery, Dry Goods and Crockery business at West Summerland to The Summerland Mercantile Company.

We take this opportunity of expressing our appreciation and thanks to our many customers of West Summerland for their long and generous patronage.

We will still continue to carry, at West Summerland, a full stock of Hardware, Furniture and Gents' Furnishings, and will now be in a better position to give more attention to the requirements of our customers in these particular lines.

The above change does not affect our Down Town Store, excepting that in addition to the Groceries, Hardware, Crockery and Gents' Furnishings carried there, we will add a range of Dry Goods. This we feel assured will be appreciated.

Wenatchee and Yakima are finding the price on apple boxes advancing fast. Early in spring a box shoo could be purchased at 14c. to 15c. To-day they are quoted in the knock down at 20c. Recent advices from Spokane allege that prices have advanced to 24c. This is double the figure charged three years ago. Yakima growers need 5,000,000 boxes yearly and growers will have to pay \$100,000 more for boxes than they expected. Some large growers and shippers produce their own boxes, but do not sell on the open market.

PACKERS WANTED.—Transportation from West Summerland arranged. Summerland Fruit Union 49tf

Passing Events: Social, Personal, &c.

Monday next, September 1, is Labor Day, a Dominion holiday.

The staff of the Summerland Fruit Union held a corn-bake at Okanagan Falls last night.

Mr. F. W. L. Sladen, Dominion Apiarist, was a visitor to the Experimental Station here this week.

Mr. and Mrs. A. B. Elliott are expected home Saturday night from Nova Scotia, where they have been visiting relatives and friends.

Mr. and Mrs. Colin W. Lees are moving to Kelowna this week, where Mr. Lees will be in charge of the public schools of that city.

Mr. and Mrs. J. McRae of Vancouver have been visiting Mr. and Mrs. Basil Steuart here. They returned to the Coast on Wednesday's train.

Mr. Geo. W. White, brother of Editor R. E. White, spent a few days in Summerland this week. Coming from the Sound country by way of Wenatchee he returned via K.V.R. and Vancouver.

Russell Roe came in over the K.V.R. Wednesday morning from Vancouver, having gone through to the Coast from Halifax and obtained his discharge from the Canadian Forces. He had been a long time in England, being in hospital there until quite recently. Leaving here a young lad the years during his absence have made quite a change in him.

Brush Fire Alarms Trout Creek Section

Trout Creek Point had a bush fire this week that occasioned much uneasiness and on Tuesday night kept a large number of citizens busy. Believed to have been started by the remains of a picnic fire, the blaze spread quickly, once it got going. For a time several homes were in danger and it was to save these rather than the need of saving timber from destruction that the people, close to a hundred, worked well through the night. Several stayed until morning. Though the fire covered quite an area it really did little damage, and now that the tract has been burned over a menace to the homes nearby has been removed.

So alarming did the situation become at one time that at least one house, the Geo. Williams cottage occupied by Mr. and Mrs. Bagg, was emptied of its contents.

The fires above Naramata continue to burn and have now covered miles of timber land, having spread north and south while reaching back toward the summit.

Miss Williams from Lethbridge, is the guest of Mr. and Mrs. Chas. Baker.

The Kelowna Board of Trade is endeavoring to interest capital in the construction of a tourist hotel in that city.

Intending to enter the Provincial Normal School at Vancouver, Miss Marion Harwood left for the Coast on Tuesday morning.

Two hundred and twenty electric light users are now being supplied with current by the Summerland Municipal power plant.

After a brief visit here, Miss Rothwell, formerly of the Summerland public school staff, left Tuesday for Prince Rupert, where she holds a similar position.

That August has been an exceptionally dry month is shown by the fact that only about one-tenth of an inch of rain has been registered at the weather station on the Experimental Farm.

Mail is being despatched each Sunday afternoon at 5 o'clock from the upper to the lower post office here so that it may be forwarded with the matter from the latter office Monday morning by boat.

Mr. H. C. Howis, who has but recently returned from overseas, has taken the position of resident manager of the Co-Operative Orchard Company, rendered vacant by the removal of Mr. Lees to Kelowna.

Mr. and Mrs. Herbert Dunham and family have returned to Summerland, having since leaving here been living in Saskatchewan and on Vancouver Island. Mr. Dunham has bought property on Paradise Flat, but for the present is living in the Marshall cottage, near T. J. Garnett's.

Mr. and Mrs. R. E. White were pleasantly surprised last night by the arrival of the former's father Mr. W. E. White, who is just concluding a round trip from the Pacific to the Atlantic through the U.S.A. and Canada. After a brief stay here he will return to the Sound via Okanagan and Wenatchee.

The Wilcox Orchard above Peach Orchard has been bought by Mr. Walters for his firm, Walters, Limited. This property lies near the fifteen acres bought by Mr. Walters this spring from Mr. H. C. Mellor. Mr. Walters, with a staff of assistants, is now busy gathering his fruit crop and shipping it to his firm's retail store in Castor, Alberta.

Several of the Vancouver wholesale fruit men were much exercised over the arrival of a car of Okanagan fruit which, judging by its very poor condition on arriving had been shipped in an overripe state. It consisted of peach plums, apples and field tomatoes, the fruit particularly being complained of. The apples consisted of Yellow Transparent, Napoleon and one or two other early varieties, many of the boxes being quite unmarketable. Negotiations were carried on to sell the entire output to one of the canneries. We feel confident the fruit was not shipped from Summerland, Naramata or Peachland. Nevertheless, such stuff when placed on the market directly reacts against the whole Valley.

Spring Will See High Prices

Five thousand boxes of Walla Walla apples sold for \$1.70 in the orchard, buyers furnishing box, hauls and packs the boxes, and pays on basis of boxes packed. Okanagan Valley, B.C. McIntosh Reds were sold at \$1.00 in the orchard, buyers furnish box, hauls and packs the boxes and pays on basis of boxes packed. Prices of apples in the Okanagan Valley advanced 15c. per box last week (Aug. 21).

Prairie Markets Commissioner J. A. Grant predicts that well matured, sound winter apples will bring fifty per cent. more in the spring than present prices. His advice to B.C. growers of good winter apples is, don't hurry to sell sound stock; sell the culls and poorly colored apples. Judging from advanced sales this market is still far short of its needed supply of apples. "Prairie Bears will be Bulls in the spring."

Mr. and Mrs. Eckford have come here from Armstrong and are now living in one of the cottages near the hotel.

About \$50 was cleared by the Women's Auxiliary of St. Stephen's Church at a supper given in the Parish Hall last week.

Mr. A. E. Rose is having a house built on his orchard property at the head of the road leading to the railway bridge over Trout Creek.

Mr. Andrew Pollock, accompanied by his wife and child, arrived here Sunday morning from Union Bay, Vancouver Island, to visit his parents.

Miss Wolfenden, teacher here in the Central School until last June, has gone from her home in New Westminster to Ocean Falls, B.C., where she will be teaching for the next year.

Rev. Mr. Kennedy, missionary to the Japanese in this province, was the guest this week of Rev. H. A. Solly. Last night at the Rectory he met and spoke to a number of the Japanese of Summerland.

A dance given by Mr. Fred Graham at Kaleden for the packers in the Steuart Fruit Company's house there, of which Mr. Graham is in charge, was largely attended by Summerland young people.

Mr. and Mrs. Richardson of Kilham, Alberta, are guests of Mr. and Mrs. J. R. Brown. Mrs. Richardson, who is a sister of Mrs. Brown, already has many acquaintances here, having visited Summerland before.

Roy Black, formerly associated with the Lakeside Stock and Dairy Company here and owner of an orchard lot in Paradise Flat section, came off the boat last night. He left here to enlist and has been in the east since returning to Canada some months ago.

Mr. H. H. Crease with his wife and child, arrived here last night with the intention of making Summerland their home. Before returning to England to enlist Mr. Crease was with the Horticultural Branch of the Department of Agriculture. For three and a half years he was with the Imperial Forces in Egypt and has just returned from England.

The Summerland Drug Company have moved their down town store this week into the building formerly occupied by A. J. Beer on Shaughnessy Avenue. Carpenters have been busy for some time making the necessary changes. Dr. Andrew is also moving his office from over the old Drug Store premises, and will be on the first floor above the Drug Company in their new location.

Several pieces of broken fruit jars, and other glass vessels, now on display in the window of The Review office were sent in by a motorist who had picked them up along a wheel track on the Peach Orchard gulch road. In the opposite track were several jagged pieces of tin and it was the reflected light from these that caused the motorist to stop his car just in time to avoid both tin and glass. By their position he is sure they were placed as they were with the deliberate intention of cutting the tires of passing cars.

OBITUARY.

LOUISE ATKINSON.

Through the death of Louise Atkinson, wife of William Atkinson, of Garnett Valley, Summerland has lost one of its most respected citizens.

Coming here with her husband about fourteen years ago, from Lincoln, England, Mrs. Atkinson was looked upon as one of the pioneers of our still young community. Though she had not been in her usual good health for some time, the end came quite unexpectedly on Thursday morning.

She leaves beside her husband, three sons, Robert, recently returned from service overseas, William, who is now on his way home, and John, still living in England; and two daughters, Mrs. Geo. W. Johnson, here, and Mrs. H. M. Ramsey, Pentleton.

The funeral service will be held on Saturday afternoon at two o'clock from St. Stephen's Church.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Labor Sunday Service in St. Andrew's Presbyterian Church at 10.30 a.m. Subject, "Has the Church Betrayed the Laboring Man?" All welcome. Adults' Bible Class in Hall at conclusion of Service. Prof. W. T. Broad, teacher. All men heartily invited. C

Mr. A. T. Williams of New Westminster, baritone soloist, will sing next Sunday evening at the Lakeside Church. His selection will be "Into Thy Hand." C

The annual picnic of the Presbyterian Sunday School was held yesterday at Crescent Beach. Over 200 went out by motor truck and private cars. A very enjoyable time was spent in games, etc., and supper was served.

The funeral of Tom Kurota, a Japanese, is being held this afternoon at which Rev. W. H. Bates is officiating. The deceased was the subject of a very critical operation yesterday at the hospital and which he did not survive. Dr. Riggs of Vancouver was the operating surgeon, assisted by Drs. Andrew and White.

Walter Truswell, a druggist recently back from France was drowned in the lake off from Pentiction Sunday evening. He was a good swimmer and early Sunday evening started off in a canoe, wearing his bathing suit. He was not missed until Monday morning, when investigation showed that his clothes were still in the bathing house and his canoe was discovered about three miles up the east side of the lake, and some distance from shore. His parents reside at Trail.

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest.

August 27th, 1919.

The Editor,

Summerland Review.

Dear Sir:

In your last week's issue of The Review you publish a letter from Prof. W. T. Broad in which he rightly and admirably called upon the citizens generally to vote for the Bylaw for irrigation system extensions.

May I in this column remind Prof. Broad that we of Trout Creek are sufficiently public spirited to realize that what benefits one part of the Municipality benefits the whole.

But we do feel, and I think many residents in other parts of Summerland are with us, that there ought to be further improvements and extensions in the storage at Headwaters.

In closing, may I, as one Trout Creek resident, express my sincere appreciation of and gratitude for the very kind and happily successful efforts of so many of our fellow citizens who came from far and near to help us combat the fire of Tuesday night.

Yours sincerely, G. THORNER.

ACCIDENT AT PEACHLAND.

The Editor, Summerland Review.

Sir:

Respecting an accident which befel me last Saturday evening whereby the democrat in which a lady friend and I were driving was backed over the embankment and turned turtle into the lake with us beneath, it has reached my ears that Arnold Ferguson is being blamed as the cause of it.

This is entirely wrong. The primary cause of the accident was a jutting point of rock which prevents drivers going around it in opposite directions from seeing each other.

Naramata News

Current Events of Town and District

Mr. W. R. Bartlett is taking a much needed vacation on his ranch in Peachland and will be gone for a week.

Mrs. P. N. Haynes and son of Consort, Alberta, are the guests of Mrs. Dan McKay.

As two gentlemen in a large car were approaching Naramata on Monday, they met Mr. Jas. Young who was driving back to his home after being in town on business.

thing to prevent the accident. Immediately it occurred he jumped into the water and worked hard and well towards assisting recovery.

I feel it both a pleasure and a duty to make this explanation, and to publicly thank Arnold for the splendid way in which he helped us.

Yours truly, THOMAS POWELL. Peachland, 25th August, 1919.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$800 per annum and records same each year.

Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory, or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after July 26, 1918.

Provision for return of moneys acquired and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from installment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS. Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes.

Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1919.

GRAZING. Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner.

Annual grazing permits issued based on numbers ranging priority for established owners. Stock-owners may form Associations for range management. Fees, or partially free, permits for settlers, campers or travellers, up to ten head.

time and the surprise was great on both sides when he found that the men in the car were relatives, one his own brother, Mr. E. T. Young of Olympia, Washington, whom he had not seen in years and the other Mr. Ed. Ross, Chief Sanitary Inspector for the State of California.

Miss May Roe who has been the guest of relatives here for the past two months has returned to her home in Ottawa.

Mr. Gibson of Victoria was here on Monday on business connected with the school.

Mr. John Noyes is here for a few days visiting his family.

The next meeting of the Ladies' Unity Club will be held on the fourth Friday in September, and it is important that every member be present as business will be brought up that will be of special interest to all.

A very pleasant meeting of the Unity Club was held last Friday afternoon, Mrs. Dan McKay acting as hostess.

The Naramata Women's Institute will hold their monthly meeting on Tuesday afternoon, September 2nd, at the Unity Club house.

We hear with regret that the expected visit to our town of Mr. and Mrs. M. D. Manchester has been called off.

Peachland Doings

(Continued from page 8)

Such is the case here recently. Mr. N. S. Davidson of the Trepanner Townsite, despite the fact that he already has quite an acreage has purchased the C. W. Whyte estate property at the Townsite and also the house and lot owned by Mr. A. Town adjoining Mr. I. Sutherland's.

The many friends of Miss Jean Dryden were called on to say goodbye to her on her departure for Victoria where she goes to take her Normal training.

Mrs. Dickson who has been with Major and Mrs. Hardisty for some time, was a passenger going north on Monday morning.

Mr. Jas. Michael left by auto on Monday morning to catch the K. V. R. train at Summerland, to go over to the Nicola Valley on business.

Mr. W. D. Winger returned home on Monday morning from Naramata, where he has been employed lately.

Master Fack, Chambers of Vancouver who has been spending his holidays here with the MacMillans, left on Monday morning to return home.

Mr. Duncan Leckie and Mr. Henry Rushberry who have been spending the summer here have returned to Vancouver where they will take up their school work again.

Mr. W. J. Robinson and family were the week end guests of Mr. and Mrs. J. M. Robinson.

Mrs. B. L. Smith and Miss Ethel Gray were visitors in Summerland this week.
