SUMMERLAND, B.C. FRIDAY, DEC. 5, 1919.

\$2.00, payable in adv.

## Board of Trade Condemns Sunday Municipal Work

Members Not at All of One Mind, Circumstances Considered. Engineer Explains

### Resolutions For Convention

Many Matters of Local and District Import to be Advanced

Several subjects of importance to this district will be brought to the attention of the convention of the boards of trade of this province at its February meeting in Vancouver. This action was decided upon at a meeting of the Summerland Board of Trade held Tuesday evening. The local board has proposed that a joint meeting of representatives of the boards of trade of the Valley be held at an early date to prepare resolutions to be presented at the Provincial Convention. No date has yet been fixed and should no action along this line be taken at an early date it already has been arranged that the Summerland and Penticton boards shall get together to prepare for the convention. Vice President Solly, Secretary Wright and Messrs. R. E. White, S. M. Young and H. W. Harvey were appointed a committee to meet with a Penticton committee to draw up the resolutions and in other ways prepare for the convention.

A resolution proposed by Secretary Wright and seconded by Coun. Campbell, respecting Sunday work on municipal irrigation construction work provoked quite an animated discussion. The resolution was that the Board of Trade is opposed to the practice of municipal work being carried on on Sunday. Mr. Wright said he did not wish to find fault with the Council, stating that it was due to their zeal and energy that the work had been pushed on on Sundays. He described the Sunday labor as being both illegal and unchristian.

Mr. C. H. Tate was chief speaker in opposition to the resolution. Engineer Fawkes also spoke in explanation of his action in having the work proceeded with on Sunday. The Council had fixed a program of construction to be completed this fall. The cold weather and the possibility of having to close down before the work was finished, which would make it necessary to go back to the same work in the spring and prevent moving of equipment and material during the winter to a new site. He did not draw more pay for working Sundays, but the urgency of the case justified his action. He had no intention of making Sunday work a practice. The periods between frost and irrigation in the spring and irrigation and freezing in the fall were short and delay meant many dollars loss and expense.

Mr. Tate fully justified the action of the Engineer, under the circumstances. Mr. S. B. Snider did not think the motion was one intended to censure the Council. They were perfectly right in acting as they had under the circumstances, but it was a good thing to thus state the attitude of the public. Mr. Tate insisted that the motion would be understood as a vote of censure. Mr. Wright said that had he been the engineer he would probably have done the same thing, but legally the work could not be justified. A change in the reading of the motion was suggested to include the phrase, "except in cases of necessity," but the resolution as originally proposed was carried.

Regarding the Valley meeting, Secretary Wright read communications from several of the other Boards favoring Summerland's suggestion. Kelowna, however, took the view that the last president of the Associated Boards of Trade, a Valley organization that existed some years ago, should call this meeting. During a discussion of motor taxes a possible tax on gasoline was referred to when several members including the chairman expressed the opinion that it was unfair to tax motor vehicles and let the horse vehicle off. It was stated that narrow tires were doing more damage to our roads than were motor cars.

It was stated, also that of fifty ferries under government control forty-six were free. Two of the pay ferries were on the Okanagan Lake. Chairman Solly described this as discrimination against the upper country. If all ferries could not be maintained free of charge to travellers then all should be treated alike.

In proposing a resolution for the hastening of construction of the trans-provincial highway Mr. F. A. C. Wright said unless we insist on more haste our grandchildren would not see tourist traffic in the Valley. The Government should find some means of financing this important work.

The difficulty experienced in the landing of passengers and unloading of freight at the Government pier at Naramata was referred to by R. E. White. He also pointed out the need of beacon lights at both the Naramata wharf and Summerland wharf.

The chair was occupied by Vice-President Solly, who was by motion authorized to sign cheques with the Secretary Treasurer during President Andrew's absence.

Two citizens were proposed for membership, these being T. P. Thornber, municipal electrician, and Theo. Harmon, tailor. Both were elected to membership. Chairman Solly remarked that every taxpayer should be a member of the Board of Trade.

## Local Churches in Forward Movement

The inter church forward movement which is being taken hold of by all denominations all over Canada includes among its aims the deepening of the spiritual life and gathering new members.

To forward this purpose the churches are holding a week of special prayer. Next week will be devoted to this purpose by the Summerland Baptist Church, services being held each evening except Saturday at 7.30 o'clock. All are invited to participate in these services.

An effort is also being made by the local churches to hold union evangelistic services and there is some hope of securing the noted evangelist Rev. Mr. Brown who was so successful in Vancouver. A committee of members from the different churches met a short time ago and another meeting will be held on Monday night in the West Summerland Baptist church following a short prayer service at 7.30 o'clock.

Divisions among families are an unsatisfactory kind of arithmetic.

## Pure Seed Production Is Growing Industry in Summerland Council Orders Motor Tractor

Part of Equipment Needed to Build Better Roads

### Hears Engineer on Hydro-Electric Scheme For Valley

An order was placed for a tractor by the Summerland Municipal Council on Tuesday. The tractor selected, an "R. & P." was recommended by the Engineer. Mr. Johnston, representing the Begg Motor Company, Vancouver, offered every required guarantee and his terms were considered favorable, he having offered to give a special cash discount in order to introduce that make of machine in the Okanagan. Further he undertook to accept municipal road equipment bonds at par in payment any time within sixty days should the Council prefer to make payment in that way. The purchase price of the tractor is \$1,875 f.o.b. Vancouver, subject to a special cash discount of ten per cent. in sixty days.

Mr. R. Purves asked permission to cut three trees on the roadside near his residence. The Council did not favor removing the trees. The question of ownership of a fourth tree was left to Councillor Campbell. Mr. Purves claimed that a portion of the tree at least was inside his fence line.

Upon recommendation of the Collector the Council passed a resolution to the effect that beginning January 1st next tenants will be required to make a deposit of \$5 for domestic water service and \$10 for electric light, when the owner of the property occupied by the tenant disclaims responsibility. The auditors who have been paid the same annual fee of \$150 since 1910 have asked for an increase. The Council authorized the raising of the fee to \$200.

A very interesting and informal discussion was had with Engineer Porter, who is investigating the possibilities in the Okanagan for the sale of hydro-electric power which might be developed at one or more of three sites now controlled by the Government. Mr. Porter expressed himself as optimistic but advised against delaying in making needed additions to the local power plant or extensions to the system. It would be several years before the larger system could be extended this far. The possibility of power from an outside source should be kept in mind when making any expenditures on the local system.

Dr. W. H. Wood was appointed medical health officer for three months, beginning December 1st.

A renewed application by John Tait for irrigation water was referred to the water committee.

Coun. Kirk reported that Mr. Fiske had offered to make at his own expense the extension to the domestic water system to serve his lot, asking only that the Municipality put in a stop and waste and make the connections. Permission was granted accordingly.

Reeve Simpson and Couns. Campbell and White were by motion authorized to sit as a court of revision of the voters' list on the date fixed by statute, December 10th at 10 a.m.

Permission was granted R. Johnston to put earth excavated from a cellar which he will dig near the Parkdale Baptist Church on the lower side of the road in front of his property.

The Engineer's report covering the work done on the North main, No. 2 ditch and several main flumes was received and filed. By motion he was instructed to make survey, plans, specifications and estimates of cost on work necessary to be done on the south main to bring it up to the established standard. This will cover the system from the reservoir around the west, south and east sides of Giant's Head and also to Paradise Flat.

Councillor White reported that the drinking fountain near the power house needed repainting. This was referred to the Engineer.

Reeve Simpson made a brief and interesting verbal report on the recent meeting of Municipal representatives at Vernon and of the sitting of the provincial Tax Commission on Saturday.

Gathering Ripened Carrot Seed at Summerland Experimental Station

## Opening Local Mail Contracts

Department Asking for Bids. Seven Day Inter-Post Office Service

Tenders are invited by an advertisement in this edition inserted by the order of the Post Office Inspector for the conveyance of His Majesty's mail over Summerland-Rural-Route number one for a period of four years. The present contractor has asked to be released from his contract. As the tenders will be received until the 9th of January it is not probable that there will be any change until the first of February.

There will be general satisfaction in the intimation in the same advertisement that it is the intention of the Post Office Department to give a seven day service between the upper and lower post offices. Without this service any matter mailed after five o'clock Saturday evening will lie at the West Summerland Post office until that hour Monday evening, and would not get started on its way until Tuesday morning. With the transfer of the mail to the Summerland Post Office Sunday evening this matter will get away twenty-four hours earlier.

## Sale Brought Good Returns

Successful Event Held by St. Andrew's L. A.

A most successful sale of work was held on Saturday, November 29th by the Ladies Aid of St. Andrew's Church. The hall was tastefully decorated with Oregon grape and the different booths were artistically arranged, displaying many dainty and useful articles which were quickly disposed of to eager purchasers who came and went throughout the afternoon. A special feature was the nicely arranged tables of the Willing Workers' Missionary Society, presided over by Miss Sinclair and Miss Isabel Stewart. The ladies in charge of the other booths were: General Convener, Mrs. W. H. Bates; Faney work, Mrs. Rutherford and Mrs. Alex. Smith; Aprons, Mrs. McCutcheon and Mrs. Munn; Miscellaneous, Mrs. Darkis; Candy, Mrs. Stewart and the Misses H. Stewart, M. Robertson and K. Bates; Home cooking, Mrs. H. Sutherland and Mrs. J. J. Mitchell; Tea tables, Mrs. J. L. Logie, Mrs. W. Ritchie, Mrs. J. Ritchie, Miss Jennie Brewer and others. The total receipts were \$180.00.

Penticton Municipal Council is contemplating the passage of loan bylaws to raise \$125,000 for expenditure upon the municipal irrigation system and \$30,000 on the domestic water system.

## Fraser Canyon Will Be Route of New Highway

Engineer's Report Will Favor That Route. To Be Built at Once

Fraser Valley Canyon will be the route of the first trans provincial highway according to a prominent government official who is in close touch with the survey work that is being carried on through the Fraser Canyon and over the Hope-Princeton route. It is understood that the engineers will report definitely in favor of the more northern route.

To build a highway over the proposed route between Hope and Princeton would necessitate the crossing of three summits while on the Fraser route the greatest elevation between the Okanagan and Coast will be at Summit Lake, in the Grand Prairie district northeast of Vernon. Another factor in the selection of the Fraser route is that it would serve a larger portion of the province as highways branch both north and south into all the interior country. It is said that this route does not present the engineering difficulties that would be met in building over the Hope Mountains. Along the Fraser River Canyon, about twenty-five miles of the old Caribou trail will be rebuilt for the motor highway.

It is probable that work will start on the building of this road early after New Year.

## OBITUARY

### Mrs. Mary Campbell

In the death of Mrs. Mary Campbell, which occurred at her home here on Sunday morning, November 30th, Summerland lost one of its most respected pioneer citizens. Mrs. Campbell and her two daughters have been residents of Summerland for eleven years, coming here from Pilot Mound, Manitoba. Until recently Mrs. Campbell had been most active in the management and operation of her large orchard, which she and her daughters have worked with but little extra help and the orchard has always been considered one of the best kept properties in the district.

For some months Mrs. Campbell has been in failing health and the end was not unexpected. She had always taken an active part in the affairs of the community and particularly in church work. Of a kindly and hospitable disposition she was beloved by all who knew her.

The funeral, which was largely attended, was held on Thursday afternoon at her late residence, and was conducted by Rev. W. H. Bates, the body being conveyed to the C.P.R. wharf. Mrs. Campbell's home from Saskatoon and took the remains to Manitoba, there to be

## Work Started on Shore Road

Will Cut Off Points and Eliminate Hill at Farm

Work has been started this week under the direction of District Road Foreman T. J. McAlpine on the cutting back of the points along the shore road between Summerland and Peachland. This work is being done under the special appropriation made some months ago. The program, among other things, provides for the straightening out of the sharper curves, cutting back points and widening the road where these occur. The location of the road just south of Trout Creek where it crosses through the Experimental farm on the shoulder of the hill will be changed and the road carried along at the foot of the slope.

Only \$10,000 has been allocated for this work but when this is exhausted the work will be carried on if not finished, on next year's anticipated appropriation. The sum referred to above covers the district from below Trout Creek to Westbank Ferry.

## Two Teachers Resign Positions

Will Close Garnett Valley School

Having received the resignations of two members of the teaching staff the Summerland School Board held a special meeting on Saturday to consider the resignations. Miss Oliver who has been in charge of the domestic science department since it was opened at the first of the term finds it necessary to resign in order to undergo treatment for throat trouble. Her resignation was accepted with regret. The resignation of Miss Evelyn Brown, who has been a most proficient and valued teacher in the primary department, was also regretfully accepted.

After some discussion it was decided to advance Miss Banks, now in charge of Division V, to the position being vacated by Miss Brown, and Miss Ruth Dale who has been teaching in the Garnett Valley School will be put in charge of Division V.

The Board decided to close the Garnett Valley school and put on a conveyance for that district. To do this would effect some saving and it was also shown that unless the attendance improved the department would likely demand that the school be closed because of insufficient attendance.

A box factory will be operated next season at Penticton, if timber rights are obtained covering part of the spruce in the neighborhood of McCulloch.

TWO DOLLAR EGGS

A report from Petaluma, California, dated November 22nd, gives a prediction that eggs will be selling at \$2.00 a dozen before the winter is over and it carries with it the authority of the President of the Poultry-Keepers' Association of that locality. As the speaker represents an association of poultrymen who keep four million hens, his opinion must be received with a certain amount of respect, which is not lessened by the fact that the annual product of these united flocks of biddies is around four hundred and fifty million eggs. Evidently we are not yet at the limit of the high cost of living.

A significant feature of the president's statement is the declaration that, while last year's profit per hen was \$1.26, the margin for this season is but 75c., and attached to these figures is a moral which I think will bear dwelling upon at this time.

There is just now a lot of news as to the setting up of returned men on poultry farms in this province, and I think it would be well for the promoters of these schemes to reflect on the estimated profit given above. It must be remembered that the district of Petaluma is an ideal one for the poultry industry, as far as climate is concerned, and it should furthermore be realized that egg production has there been brought to the zenith by the most approved system, rigidly applied by skilled operators. Yet an analysis of profit in proportion to the enormous capital which is undoubtedly invested, will show that they by no means come under the head of easy money. As a matter of sober fact that there are no large profits to be made, but that on the contrary, the margin is so narrow that it may easily vanish altogether. The *Fancier's Gazette*, the leading English poultry journal for many years challenged anyone to produce an authenticated record of a successful poultry farm in the Old Country and so far as I know, the record was never forthcoming. Nothing is so fascinating as the idea of a poultry farm to the man who contracts hen fever—and nothing is so liable to end in financial disaster. For this reason I think that the rosy schemes of "community" settlements of men who are to become poultry farmers on limited experience, need more consideration than they seem to be getting. Poultry and small fruits are a good combination, but by all means let the plan be so proportioned that the small fruits be the main factor, and the poultry as more or less a side issue. AUTOLYCUS.

**WEDDING.**

Bartholomew—Pennell

On Friday evening November 21st, Harold George Bartholomew of Kelowna and Miss Eleanor Lucy Pennell of Kamloops were married at the home of Mr. and Mrs. Chas. Baker. Rev. W. H. Bates officiated.

The bridegroom is a member of the staff of the Kelowna Record and a particular friend of Mr. G. R. S.

Blackaby of the Bank of Montreal here. Mr. Blackaby was "best man" at the ceremony. The bride was for several years with the Government Telegraph Service at Kelowna, and more recently at Kamloops.

**Town Basketball Team Wallops West Summerland**

On Monday, December 1st, the Town Team opened their season with the first game with West Summerland in Empire Hall. The Town team was: H. Snider and A. S. Peck, guards; Will Angove, centre; Messrs. Ralph Brown and R. Reid, forwards. The West Summerland was: A. Gayton and K. Elliott, guards; B. Stewart, centre; H. Phinney and Chas. Stewart forwards.

The Town boys were right in the game as soon as the whistle blew and scored basket after basket with apparently little difficulty, and the first half of the game was too one sided to be interesting, the score at half time being 26-4 in favor of the town.

In the latter half of the game West Summerland played a little better, but were still unable to hold the town boys. The scoring was not quite so one sided this half, although the Town doubled the West's score, scoring 18 to their opponent's 9. The final scores were 44 to 18 in favor of the Town.

The scoring honors for the Town were fairly evenly divided, all forwards doing their fair share. Will Angove especially made some very fine long distance shots.

The next game will be played Friday, December 5th, when our boys play a return game with Penticton, and hope to avenge the defeat previously suffered by them.

—Contributed.

**Potato Market Becomes Unsettled**

Difficulty in obtaining cars together with the condition of the U.S.A. market has created an unexpected condition in the potato market of this Province. During November the United States buyers were active at the Coast and bought up many car loads of spuds. However, only a little over fifty carloads have left the Province for the U.S.A. The U.S.A. buyers are now trying to unload, says Coast Markets Commissioner Abbott, as the market prices in the United States do not warrant them shipping out at the price they have paid for the potatoes.

A judge in Los Angeles has decreed that all women who appear in his court as witnesses must tell their exact ages.

SUMMERLAND AND

WEST SUMMERLAND

**Synopsis of Land Act Amendments**

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$500 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and no more than \$10.00 per acre, including 5 acres cleared and cultivated, and residence on at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his pre-emption, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 40 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage and royalties.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

**PRE-EMPTORS' FREE GRANTS ACT.**

The scope of this Act is enlarged to include all persons joining and settling in the City's Forces. The time within which the heirs or assigns of a deceased pre-emptor may apply for title under this Act is extended for one year from the death of such person, or former or assign, or year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers or pre-emptors recorded after June 24, 1918.

Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces or dependents, whether direct or indirect, remitted from settlement to March 31, 1920.

**SUB-PURCHASERS OF CROWN LANDS.**

Provision made for issuance of Crown Grants to sub-purchasers of Crown Lands, acquiring rights to purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes.

Sub-purchasers do not claim whole of original parcel; purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

**GRAZING.**

Grazing Act, 1915, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued to farmers on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers up to ten head.

**Naramata News**

Current Events of Town and District

Capt. A. S. Lawrence and family came in this week from Winnipeg and are looking over the district with the idea of locating here or in some of the surrounding districts. Mr. Lawrence will go to the Coast to get his discharge while the family will take up their temporary home here. We hope to make it so pleasant for them during their stay that they will conclude to reside with us permanently.

The Ladies' Aid of the Methodist Church are busy preparing for their annual bazaar.

Pastor Ewing and Deaconess Mayda Williams are attending the Forward Movement Convention at the Coast.

Mrs. T. I. Williams left Tuesday for Vancouver where she will undergo a serious operation. The operation will take place at the General Hospital and Dr. R. C. McKechnie will have the case in charge.

The car of coal that was brought in by Russell Wells is disposed of and the rattle of the coal shovel is music to the ears especially when we are having a cold north wind.

Mr. Mark Manchester has arrived from the far north and is staying a few days with his brother F. C. Manchester before continuing his journey to the coast, California and the East.

A number from here attended the basketball game in Summerland Monday night and watched the West Summerland boys go down to rapid defeat. However the West boys say that it can't be done again and it will be a good game sure next time. There was a dance after the game and everybody from the down town section was happy.

The Ladies' Unity Club met on Friday afternoon with Mrs. Howard Rounds as hostess. Mrs. Vera Palmer Anderson who is visiting here favored the ladies with a most pleasing vocal solo. Mrs. J. M. Robinson will act as hostess at the next regular meeting which will be held in three weeks.

Mr. Jack Lawler was in town on business Tuesday.

Mrs. Walters' sister Miss Kenison who came in a few weeks ago has accepted a position at the Summerland Hospital starting on the 15th of December.

The Women's Institute held their regular meeting on Tuesday afternoon. The principal business was the election of officers for the ensuing year and the reading of the annual reports. Mrs. Howard Rounds was elected President; Mrs. May Mallory, Vice President; Mrs. Thos. Kenyon, Secretary-Treasurer; Mrs. Frank Rounds, Mrs. Joe Lyons and Mrs. Routh were elected Directors. At the close of the meeting tea was served.

Miss Violet Mitchell who has been seriously ill is reported to be improving.

Mrs. Mabel Lyons accompanied by her brother Mr. Ewart Bailey of Winnipeg, who was a visitor in

Naramata last week, went to Vancouver, where they spent several days together ere Mr. Bailey returned home. Mrs. Lyons reports a very pleasant trip.

The Ladies' Aid of the Naramata Church intends holding a bazaar and dinner at an early date. Considering the enthusiasm and energy the ladies are putting into it the bazaar will lack none of its old time valor. The monthly business meeting of the Ladies' Aid was held at Mrs. Hayward's on Wednesday of last week with a large and enthusiastic attendance.

Miss Emily Severs with Mrs. Greene as accompanist delighted the congregation assembled at the church on Sunday last with a solo: "I Heard The Voice of Jesus Say."

Mr. James Craig left on Friday night's boat for Vancouver where he intends to spend the winter.

The Rev. Mr. Ewing had a very narrow escape on Sunday last while on his way from Pentiction to hold service in Naramata Church. In making one of the very treacherous curves which appear on that road he made a wrong turn and would surely have gone over the bank had it not been for some weeds and brush which held the car back from a plunge down the slope.

The Women's Institute held their annual meeting and election of officers Tuesday afternoon with a very commendable attendance considering the cold afternoon. Two of the girls' classes of Naramata Sunday School have organized as a club called The Adanac Club with Miss Stonehouse as president and meeting Tuesday of each week and intend taking charge of the candy booth in connection with the bazaar. Donations of sugar, though hard to get and scarce, for candy will be gladly received by the girls.

**Hospital Donations For November.**

Miss Sinclair, milk and canned fruit; Mrs. D. I. Walters, Naramata, canned fruit; Mrs. E. Banks, venison; Mr. C. H. Gayton, roast of pork, bread, venison, canned fruit and grape juice; Mrs. R. Clouston, canned fruit; Mrs. Harold Smith, head cheese; Mrs. Collas, old linen.

When the SS. Niagara sailed last week-end from Vancouver for the Antipodes she carried approximately 14,000 boxes of excellent Jonathan and Winesap apples shipped from this Valley.

State your needs in 'THE REVIEW' 'WANT' Column.

**Bargains In Real Estate**

\$22,000 takes a 31 acre orchard, paying 10 per cent. on investment.

\$15,000 takes good ranch, all complete.

\$1,100 takes acre, with house, stable and small fruits.

\$1,800 takes 4 acres; hay, with small house, etc.

Passing Events: Social, Personal, &c.

Mr. H. Cancellor returned on Tuesday from a short visit to the Coast.

Mr. Wm. Ritchie went out to Calgary this morning. He expects to be away for a week or more.

An announcement of special interest to women is made this week by A. J. Beer in his advertising space.

The girls of Division I, High School, will serve afternoon tea at the Domestic Science kitchen, from 2.30 o'clock to 4 p.m., Tuesday, December 9th. Parents and friends are very cordially invited.

Mr. and Mrs. Clarence Craig and their two boys returned last Thursday night from a visit to Calgary. Mrs. Craig and the little ones were there for some weeks and Mr. Craig went out a few days ago to accompany them home.

A landslide fell on the lake shore road about half way between Summerland and Penticton about three o'clock Thursday afternoon, completely obstructing traffic. Men were at once put to work clearing the road and it is possible that traffic may be resumed late today.

Jack Lawler went out to the Coast Thursday morning on an extended vacation. He has not been feeling in the best of health for some time and this week his condition became somewhat alarming. He has been ordered to take a two or three months complete rest.

Mrs. L. J. Block and her little daughter Mary who have been staying with Mrs. Block's parents, Capt. and Mrs. Hatfield of Kaleden, since they returned from Esquimalt, have joined Mr. Block here. Mr. and Mrs. Block are now residing in the A. S. Hatfield cottage on Beach Avenue.

The business block occupied by John S. Ritchie and J. H. Bowering has been purchased by Mr. R. Johnston. Mr. Johnston will start at once on the erection of an addition on the west side of the present building. The new part will be occupied by Mr. Bowering. We understand Mr. Johnston intends to remodel and extend to the rear the present building.

Mrs. M. McLaughlin who went to Nova Scotia several months ago, at the same time as her daughter, Mrs. Elliott, and Mr. Elliott, returned to her home here on Monday. She has been visiting with relatives and friends in her native province, and was met at Seacombs by her daughter, Miss Maude, on Saturday.

About a dozen Summerland ladies were each the delighted recipient of a substantial package of confectionery received by registered mail a few days ago. These were reminders of the banquet tendered the Vancouver Board of Trade when on their tour of the Okanagan. The recipients were the members of the Women's Institute who had waited on the tables on that occasion. Mr. Purdy, a well known confectioner of the coast metropolis, on that occasion took the names of the ladies and it was he who sent the packages.

Dr. and Mrs. Andrew went out Thursday morning for a visit to coast cities. After a brief stay in Vancouver they purpose going to California and probably to Honolulu. They will be away from Summerland for about three months. Dr. W. H. Woods arrived here a few days ago to practise during Dr. Andrew's absence.

Messrs. Manchester and Peck are advertising something novel in the way of dances this week. It takes the form of a hard times dance, in Empire Hall on Friday next, December 12th. They will provide their usual good music, and a prize is to be awarded for the most appropriate "hard time" character costume.

Mr. Frank J. Doney and Mrs. Doney are visiting the former's sister, Mrs. Clark Wilson. Mr. Doney arrived Tuesday night from a visit to the East where he has been since he visited here last summer. Mrs. Doney has been with friends at Seattle, and met her husband here Tuesday. After two or three weeks' stay here they will return to their home at Long Beach, California.

There is now on exhibition in The Review window a miniature section of a concrete irrigation ditch, with a controlling and measuring device. This model was prepared by Municipal Engineer Fawkes to demonstrate the working of the proposed plan for regulating the flow of water through the Municipal irrigation system. One end of the model was closed in order that it might hold water for demonstrating purposes.

Mr. C. W. Loos started this week on a visit to Eastern cities. He plans on going right through to New York and later to Ontario. Mr. Loos, who is now principal of the Kelowna public schools, was given two weeks leave of absence by his board and just before his departure he was advised that his salary next year would be \$210 per month, an increase of \$10. During Mr. Loos' absence in the east Mrs. Loos and infant daughter, who came down from Kelowna Saturday, will remain here with her parents.

Dr. and Mrs. Lipsett left Thursday morning for a visit to Los Angeles.

Phone your order for rubbers and I will deliver by mail at my expense. A. J. Beer. 13-20

BORN.—November 27th at the home of Nurse Scott, to Mr. and Mrs. J. W. Bent of Mineola, a son.

Mr. and Mrs. Hespeler went down to Vancouver on Tuesday where they will remain for the winter.

Mr. and Mrs. A. B. Elliott and family moved into the flat over their down town store, which has been remodelled.

Miss Muriel Wilson, who with Miss Gillis has been visiting friends at Princeton, returned by train Tuesday morning.

After a brief vacation divided between Summerland and Peachland Rev. A. W. MacLeod left on Friday to resume his duties as pastor of the Baptist Church in North Vancouver.

Miss Nan Allison, who has been here for some months engaged in fruit packing and later relieving at the local telephone exchange, left by train Tuesday morning for her home at the Coast.

The Women's Auxiliary of the Baptist Church will hold a sale of work and home cooking in Campbell's Hall on Saturday, December 13th from 2 to 6 p.m. A splendid opportunity to buy Christmas gifts, aprons, etc. 19

An owl with a wing spread of five feet from tip to tip and measuring two feet from head to tail was shot last Monday by H. Tavender close to his house. The big bird is said to be a great western horned owl and is heavily feathered to its toes. Mr. Tavender will have it mounted.

Is your name on the voters' list? If you are entitled to a vote and are not sure that your name is on the list we would suggest that you inspect the list now posted in the municipal office. If it be that your name has been omitted apply to the Court of Revision at its annual sitting on December 10th to have it put on.

Dr. and Mrs. Andrew went out Thursday morning for a visit to coast cities. After a brief stay in Vancouver they purpose going to California and probably to Honolulu. They will be away from Summerland for about three months. Dr. W. H. Woods arrived here a few days ago to practise during Dr. Andrew's absence.

Mrs. Stark went out to Vancouver on Friday to remain for a few days.

Prof. and Mrs. Broad left here on Wednesday morning for a visit to Calgary.

Mrs. J. Downton is expected home early next week from Vancouver where she has been visiting her niece, Mrs. Bennett.

Mrs. Chas. Widen of Duhamel Alberta arrived here Saturday with her little son on a visit to her parents Mr. and Mrs. H. H. Elsey.

Mr. H. Sutherland returned last Friday from Halcyon hot springs, where he has been for several weeks taking the baths.

Bank of Montreal banking hours.—Summerland, 10 to 3; Saturdays, 9.30 to 12. Naramata, daily, 10 to 12. 19

A meeting of curlers will be held in the office of J. R. Brown on Monday evening next, December 8, at 8 p.m. to decide on plans for the coming winter. All interested in curling are invited to be present. 19

Mrs. Gray, matron of the Princeton Hospital, returned to the Similkameen metropolis on Sunday morning's train after a brief visit here with Miss Aitheson, matron of the Summerland Hospital.

At the annual meeting of the St. Andrew's Missionary Society, held Wednesday, Miss Sinclair presented Mrs. Bates with a life membership card of the Women's Missionary Society of the Presbyterian Church of Canada.

Mr. E. T. Bealy of Nelson has gone down to the Coast for a short visit before returning to his home. Mr. Bealy has been engaged during the fruit shipping season at the Summerland Fruit Union packing house.

Application has been made to the Marine Department by the Okanagan Lake boat men for a lighthouse on Trout Creek Point, and another at the point north of Kelowna. They are also asking for a more powerful light on Squally Point.

An excellent orchestra is being organized in connection with the Young People's Society of St. Andrew's Church. Already there are five violins, one cornet and a piano. It is expected that two or three other instruments will be added shortly.

To assist in the settlement in Canada of disabled Imperials, the Dominion Government at the recent session of Parliament appropriated \$25,000,000. This is in addition to the appropriation for Canadian soldiers' settlement, amounting to nearly \$200,000,000.

Okanagan apples in barrels are being sold in Vancouver. Recent market reports state that another car of Jonathan apples from the Okanagan put up in barrels has carried there. The quality of the fruit is good and the retail trade is buying readily at two and a half cents per pound.

The regular monthly meeting of the Summerland Women's Institute will be held next Friday 12th at 8 p.m. in the Parish Hall. C

New Variety of Pear Gives Large Yield per Acre

Experiments carried out with the Cordon pear, a variety used in intensive pear growing, have been successful at the W. H. Armstrong farm at Keremeos, according to Mr. C. H. Armstrong, manager of the farm. The Cordon pear is grown on trees but six feet high and the fruit grows almost off the trunk, the branches being but a few inches in length.

Planted but two or three years ago, last year 320 boxes of pears were taken from a single acre and when the trees mature Mr. Armstrong says that he expects 1,000 boxes of pears to the acre. Some enthusiasts claim that by this method of growing pears, as many can be produced from one acre of orchard as from ten acres cultivated in the old way. At the Armstrong farm five acres are planted to the new variety, and twenty additional acres are to be planted in the near future.

A wise man knows a good thing when he sees it, but a fool doesn't know a good thing when he has it.

Dec. 1-27	24	.00	0.00	1.7	
" 2-18	18	.00	0.00	4.2	

It is an easy matter to follow advice that travels in the direction you are going.

## State Health Insurance; Pensions For Widows and Mothers; Public Nurses

These are Matters to be Inquired Into by the Social Welfare Commission Recently Appointed By Province.

Victoria.— While the people of the province will have ample opportunity of posting themselves upon the various subjects into which the newly appointed Social Welfare Commission will inquire, the more general phases of its investigation are explained in a memoranda now issued by the Hon. J. D. MacLean, Minister of Education and Provincial Secretary, whose department assumes immediate jurisdiction. As already announced in the press of the Province, the scope of the inquiry will include state health insurance, mothers' and widows' pensions, and public health nursing.

### STATE HEALTH INSURANCE.

The present Workmen's Compensation Act is a species of state health insurance unto itself inasmuch as it provides for surgical and hospital treatment in all cases of accident. The Act, therefore, creates a basis from which the larger provision might be made. That is

to say, its machinery would lend itself to meet the cost of treatment of medical ailments not only of the workman, but also of his family. Under such a plan, in the event of its feasibility being established, both the family and the workman would be given the choice of a medical practitioner whose fee would be fixed by an administrative board in consultation with doctors, nurses and hospitals.

It will be observed, of course, that the underlying principle is one of co-operation and the pooling of monies with which the cost of medical, nursing and hospital attention would be met. It is believed, too, that in operation there would be created a community sentiment bent upon its own self-preservation. For instance, there would be a direct incentive to be more careful in matters of sanitation, because of the knowledge that upon the amount of sickness prevalent, the cost to contributors would depend.

To the medical profession it is expected to appeal by reason of the automatic removal of bad debts. Popularly termed "good pay" for some patients well provided with this world's goods would not be made to pay for "bad pay" patients, who usually omit payment altogether.

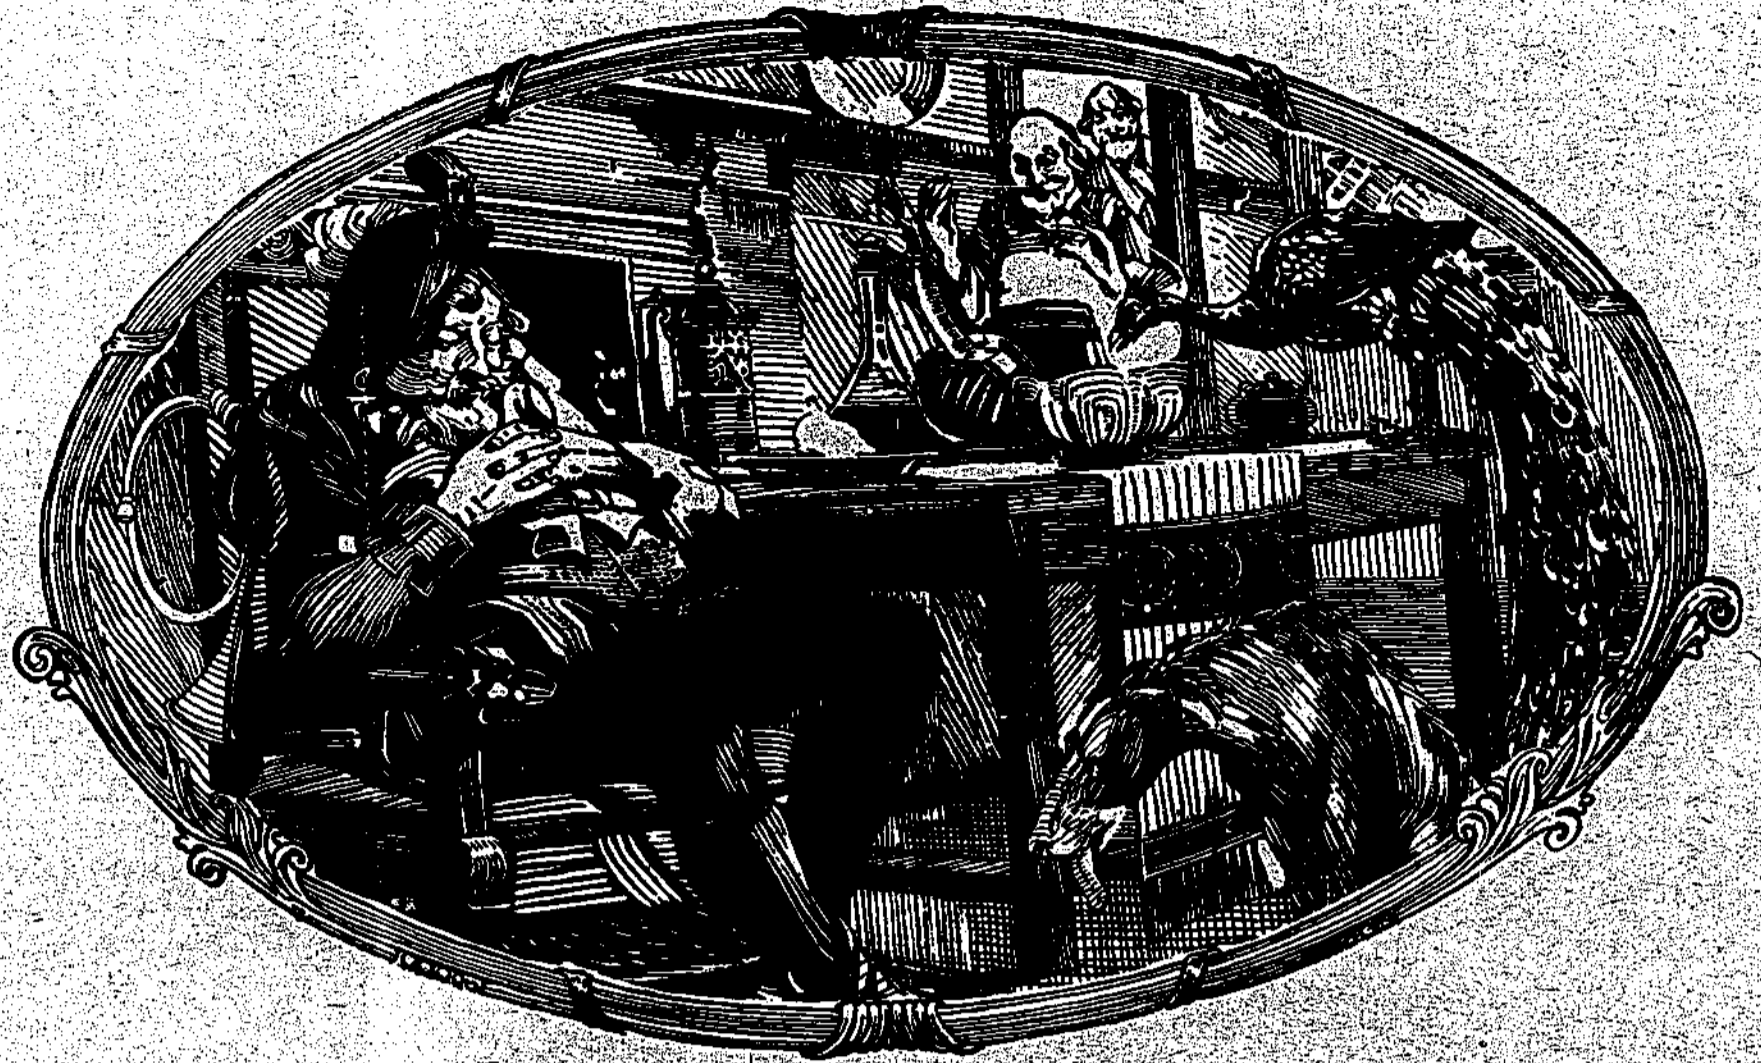

### MOTHERS' AND WIDOWS' PENSIONS.

It is realized that lack of provision for the mother or the widow with a family to support fastens an obligation on all governments. Unless the natural association and relationship of mother and child can be safeguarded the state runs the risk of reducing the value of the citizen of tomorrow. Take, for instance, the case of the mother with three children and the breadwinner incapable of earning a livelihood. She is obliged to eke out a miserable existence for herself and her family by her own labor, place her children in a "home," at a cost to the state, by the way, or otherwise add to honest wages such revenue as may be derived from questionable pursuits. In the absence of federal legislation, therefore, the Government of this Province contends that it cannot afford to neglect either from a humanitarian or an economic standpoint such action as may lead to the establishment of mothers' pensions.

### PUBLIC HEALTH NURSING.

A system of public health nursing would contemplate the stationing of a nurse at strategic points, whose duty it would be to carry out emergency work, sanitary work, school inspection and generally to act as an educational medium for the furtherance of health and child welfare work.

While it must be understood these matters are to form the subject of a careful survey on the part of the Social Welfare Commission, Dr. MacLean authorizes the publication of the foregoing details so that the general public may become acquainted with an eventuating policy, should its feasibility be demonstrated by the information gleaned.

## When the Tongue is Pleased the Mind is Satisfied

THE most difficult thing to set down in words is the description of a taste, because there is no word to describe taste but taste. So, when talking about the taste of Chocolates, the only way to stimulate the sensation you enjoy from eating them, is to tell you that they are luscious, or satisfying, or delicious, or that they flatter the palate, or that they have such and such a flavour.

But you cannot get real conviction about the "quality of taste" in Neilson's Chocolates except by tasting the Chocolates themselves. So we want you to go to your Druggist or Confectioner and buy a box.

Don't eat them hurriedly. Consider each piece carefully. Open a few pieces. Let your palate linger over the flavour of the coatings, the fruit, cream and nut fillings, and the blended flavour of the fillings and coatings together.

If you will do this and eat, as continentals say, "with appreciation," you will get a remarkable quality of enjoyment from your purchase of

## Attracting Birds Round the House

It is possible with a little care and forethought to attract birds about our dwelling places, adding thereby not only to the cheer, but providing one of the best means of protecting our gardens and orchards from the ravages of insects.

One of the easiest birds to attract is the Western Bluebird. These birds are invited to remain with us not so much by the planting of slow growing shrubs and vines, as by erecting bird houses for them. Even on the treeless prairie this form of invitation will usually induce them to remain throughout the nesting season.

"Naturally, they nest in holes in trees or cracks in buildings, sometimes in the most unexpected places," states Professor W. T. Shaw, zoologist of the Washington State Experiment Station. "I once know

of a pair to nest in the tool box of an old abandoned reaper. Consequently, anything in the form of a box of the proper dimensions, furnished with a hole of sufficient size to admit the bird will be used by them."

A suitable bird house may be made by converting a small box into one. A box six or eight inches by ten inches is one of about the right dimensions. In one end, about two inches from the floor, a hole should be made, two and one quarter inches in diameter. This may be cut flat in the bottom and arched. The box may be made still more attractive, not only to the birds, but to the owner of the place as well, by being covered by strips of bark sawed from yellow pine or fir. The door might be furnished with a little step of sound bark.

The box should be placed at least ten or twelve feet from the ground. It is well to locate it near a building, as under an eave. It may be made to furnish endless enjoyment for the children by placing it close to an upstairs window.

## Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

After having spent two weeks in the Valley, his time divided between here and Summerland, the Rev. A. W. MacLeod has returned to his home at the Coast.

The Community Club met on Wednesday of last week, in the home of Mrs. Wm. Dryden and enjoyed a very pleasant social and musical evening, toward the close of which refreshments were served.

Mr. Thos. Powell last week attended a conference of representatives from the municipalities in the Valley. Mr. Powell representing Peachland.

Mr. George Keyes with Mr. and Mrs. Murdin and Mr. A. J. MacKenzie motored down to Summerland on Thursday of last week to attend the funeral of Miss Annie Dale who died very suddenly at her home there.

Mr. and Mrs. O. Keating left on Friday last to once more set eyes on the prairies. They intend going to Russell, Manitoba, where they have many friends and acquaintances to visit in and around that part of the country.

Mrs. Mussen was a passenger leaving on the north bound boat on Friday morning last with California as her destination, after a short lay over at Vancouver.

After a very pleasant visit with her daughter, Mrs. Cartwright, at Okanagan Landing, Mrs. W. J. Mooré returned to her home here on Friday.

Major and Mrs. Hardisty returned home after a short trip up the lake.

Mr. Joe McDonald, Government Wharf and Dredge Foreman for this section, spent Friday of last week in town arranging for the shipping of lumber and timbers for repairs on wharves elsewhere on the lake, and completing arrangements for the repairs on the Government Wharf here. Mr. Jas. Michael is starting with a small crew this week to make the necessary repairs.

Mr. Delong, High School Inspector, paid the high school here a visit last week and we understand was favorably impressed with the work being done in that branch.

The Rev. C. D. Clark with his "Trail Rangers" had another little "time" on Friday night, when in addition to their regular program they had a debate "Resolved, that it is better for a boy to stick to school." The boys for the affirmative were Earl Murdin and Franklin Elliott, while the opposing two were Douglas Morrison and Gordon Town. The affirmative won the day. Quite an important item on the program for the evening was a "Bean Feast," which of course was well enjoyed.

Mrs. Grantham was a passenger north on Saturday last, being accompanied on her return in the evening by Mr. Grantham who spent Sunday in town, leaving by the north bound boat on Monday.

Mr. R. J. McDougall was a visitor in town on Saturday last, having come up by the morning boat. On his return in the evening he took with him his little boy Royal and daughter Mildred who have been for some time now stopping with Mrs. P. N. Dorland.

Nurse Wilson is paying Peachland another visit and is the guest of Mr. and Mrs. Thos. Powell.

After having spent some time over in the Kelowna Hospital Mrs. C. Aitkens returned on Monday night and we are glad to note that she is considerably improved in health. She was accompanied by her daughter Mrs. Lupton who returned to Kelowna the following morning.

Miss Broscob returned to Peachland on Monday evening after having spent a portion of the fall working in Kelowna.

Mrs. E. P. Roo who has been visiting her sister Mrs. H. McDougall, returned to her home in Nanaimo on Monday evening.

Dr. and Mrs. R. C. Lipssett spent Tuesday in town visiting Mrs. Lipssett's sister Mrs. J. B. Robinson. They returned to Summerland by the evening boat expecting to leave shortly to spend the winter in Los Angeles.

Mr. Thos. Boll's son was visiting with him for a short time, but he was obliged to return to Calgary for further treatment. Mr. Boll accompanied him up the Valley.

The first of the month has seen some changes in residents in town. Mr. and Mrs. Fulton have moved their butcher shop and dwelling into the former Miller Block opposite the Post Office. Mr. and Mrs. R. A. F. Moore and Miss O. Gummow have moved into the place vacated by the Fultons. Mr. and Mrs. W. D. Miller and Harold have moved in from the ranch at Camp Helena and have taken up winter residence in Mr. A. W. Miller's residence.

Mr. John McLaughlin, Jr. in charge of the electrical plant and pole line has a gang of men at work resetting the poles on the entire line. It was certainly not before it was needed, as many of the poles were so badly rotted that there was little or no bone left in the centre of them just below the surface of the cement foundation around them.

A lost opportunity very seldom finds its way back.

### MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 9th January, 1920, for the conveyance of His Majesty's Mails, on proposed Contracts for four years, seven times per week each way, between Summerland and West Summerland, and six times per week over SUMMERLAND RURAL ROUTE No. 1, from the Postmaster General's pleasure. Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Summerland and West Summerland, and at the office of the Post Office Inspector.

## B.C. Pure Bred Cattle Exported

The leading position being taken by B.C. pure bred cattle was again demonstrated when a shipment of twenty head was sent from Vancouver last week to the Hawaiian Islands via San Francisco. This is the first shipment of cattle from Canada to the Hawaiian Islands and it opens a new and large market for B.C. cattle.

The shipment consisted of eighteen purebred Holsteins and two purebred Jerseys, and is composed of selected animals of the finest breeding and showyard type from the leading herds of the province of British Columbia. Nine of the Holsteins came from Mr. J. M. Steves' herd at Steveston; two from Colony Farm, two from Mr. Joseph Sayward's farm on Vancouver Island and one each from the following men: John Mufford, Milner, William Mead, Milner, Kettle Valley Railroad, Penticton; A. W. Cooke, Kelowna, and Dr. S. F. Tolmie, Victoria. One of the Jerseys was obtained from Dr. W. Swenerton of Vancouver, and the other came from the herd of B. H. Bull & Son. The entire order was selected by Professor J. A. McLean of the University of British Columbia, and every animal has been chosen with the utmost care. The request for this Canadian stock is a direct outgrowth of the visit which Professor McLean made to the territory of Hawaii last summer for the purpose of judging the live stock at their exhibition.

## Evolution Of The Frame Hive

By Geo. Weaver.

We all know that the natural home of the wild honey bee is in the trunk of a decayed tree, and the earliest beekeepers very logically used suitable portions of such trees as hives in their home apiaries. However, that system must have been pretty laborious, and as it was gradually found that bees would build in almost any receptacle which gave them the requisite shelter, various types of hive were evolved, their characteristics depending largely on locality. The hive which is most familiar to us, however, is the old-fashioned straw skep, which was most common in England, and is, in fact, used by some of the old school even yet.

This skep is probably familiar to most of us through illustrations, as it is still used as the type of the bee industry, and of industry generally, the expression "As busy as a bee" falling naturally into place with a picture of the cone shaped straw hive of past generations. The construction of these hives was such as to effectually throw off rain, and also to protect bees from severe changes in temperature, and it is doubtful if any modern hive is superior in those features, but when this is said all is said. The interior of the straw hive could only be got at by turning the whole affair upside down, and even then, no manipulation was possible, as the combs were fixtures, and meddling with them very often meant the destruction of the entire colony. This condition of things applied to all hives in those days, as the idea of moveable comb had never suggested itself, and the recognized method was to leave the bees alone all summer, and stifle them with the fumes of brimstone in the autumn, so as to secure their stores. A poor return, and wasteful, but no other way was thought of.

It was reserved for a blind man to think of a system of moveable frames, the studies of Francois Huber, the Swiss naturalist, leading him to the adoption of a series of hinged frames, which enabled him, through the eyes of his wife, to note more closely the habits of his bees. This was in the latter part of the 18th century, but it was not until 1850 or thereabouts that the modern hanging frame of the present day was evolved and perfected by the American apiarist Langstroth, whose hive is now the standard on this continent. Without going into details which may be found in the catalogue of any maker of bee appliances, I may say that the essential principle of the modern hive, a differing from the old methods, is the convenience of access to every part, and the standardizing of sizes, so that frames, sections, feeders, or division boards, can be used in any hive of standard make, and can consequently be interchanged from one hive to another without trouble. Thus it is easy to watch conditions closely all the time, and control or assist each colony just when it is found necessary and the bee keeper of the present is in full the meaning of the word, a bee master, having the work completely under control. So entirely is this the case that many needless elaborations have appeared, and much useless interference and "fussiness" has resulted, but the commercial apiarist puts such trifles aside, and the chief differences in methods are now those of varying locations and climates, which bring about their own modifications.

Briefly described the modern hive consists of a main body, the brood chamber, which rests on a separate bottom board, is covered by a detachable top, and contains eight or ten frames which hang suspended from the inner rims of the chamber, and are spaced automatically to allow of the correct bee space between them. On this main body can be built up any required number of shallow bodies or supers, which are used only during the honey flow, and contain sections or shallow frames to be filled by the bees after the brood chamber is filled. The aim of the beekeeper is to get all colonies into good shape in readiness for the honey flow, so that he will have the greatest possible number of workers to take advantage of it.

The period and duration of this flow varies greatly, according to locality and season, and the readiness, or unreadiness, of a colony to get the utmost from it while it lasts, is the determining factor between success or failure.

# The Romance of the Okanagan

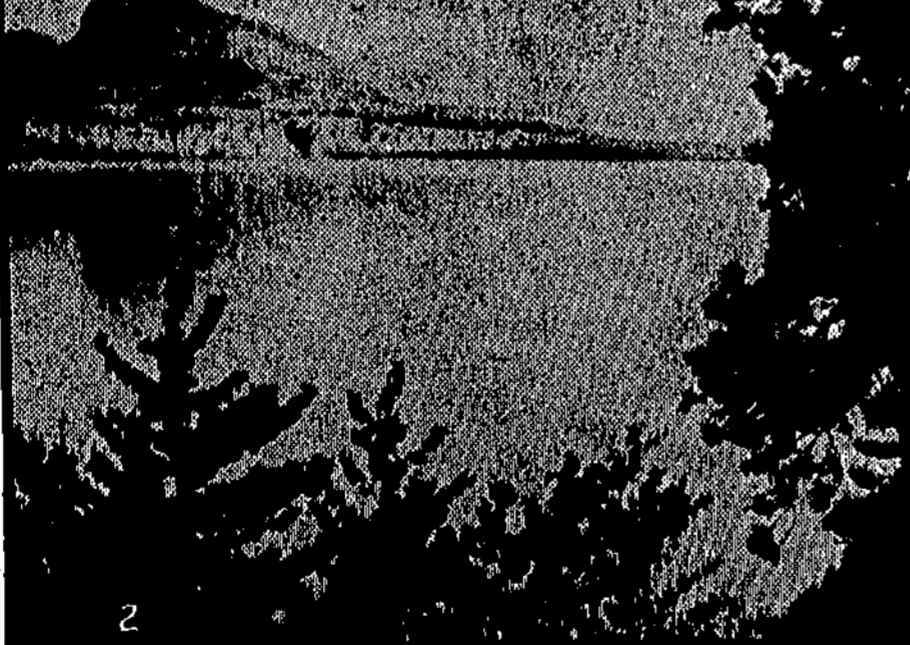

"The Cecil Rhodes of the Okanagan" has been the title given Mr. J. M. Robinson of Naramata, Okanagan Valley, B. C.

It is due to his energy and vision that the valley is now covered with smiling orchards and is one of the assets of the Dominion.

From his newspaper office in Portage La Prairie, Manitoba, in 1894, Mr. Robinson observed a family of eight, with their savings of ten thousand dollars, leaving for California. That they were seeking a milder climate led him to remark that it was to be regretted that Canada should lose such citizens and that there was not a Canadian California.

Two years later Mr. Robinson and his party went to Rossland, at the time of the mining-boom and formed a prospecting party who went into the Okanagan valley and located claims near Peachland and established Camp-Hewitt. The hills refused to uncover their storehouse of metals. With courage they faced the conviction that their hopes were blighted. However, if the hills of Peachland revealed that the greatest wealth lay in the surface soil which, when cultivated and planted, produced fruit and vegetables, unsurpassed.

At the ranch of Mr. Lambly, gold commissioner, Mr. Robinson was given peaches and was amazed to learn that they had been grown on the ranch. He at once realized that he had found that for which he had been searching; the Canadian California. Boundless possibilities lay in the great reaches of upland, covered with scattered pines and sage brush. A tract purchased on the bench was called Peachland, the name carrying the advertisement with it. Eastern people then inquired if "Peaches grow in Peachland", so there truly was much in a name. To have one hundred families occupying the land that one family occupied; to see the barren, parched hills the homes of thousands of Easterners was the dream of the "Father of the Okanagan." Promoting this colonization scheme, a car of settlers was brought from Manitoba in 1908, a preacher and a teacher included, as there were twenty-one children in the party. The Peachland townsite company was formed and the land was divided into small holdings of ten acres. An irrigation system was

(1) Fruit Orchards, Summerland, B.C.  
(2) View of the Okanagan Lake, Penticton, B.C.

installed, the water being brought from the mountain streams flowing into the lake and, with assured irrigation, the land sold at nominal cost. Orchards were planted and homes erected. It was all an experiment as irrigation was a new thing in Canada. A school was built, a store was opened, a union church was established. The first service was held on the veranda of Mr. Robinson's home and this union church continued for some years. The late Mr. J. B. Somerset, former business manager of the "Winnipeg Free Press" joined the colony and attended the fruit farm part of the enterprise. It required five years for the trees to come into full bearing and during that time there were many crises of "fate" but the staunch-hearted men continued their transformation plans. Over twenty miles of good roads were constructed and gave access to every tract. Electric and domestic water systems were installed. In due time, one hundred thousand fruit trees were bearing and the land and valleys back of the lake were planted to the very mountains. So the slopes were freed of their burden of pine trees. Woodlands gave place to orchards of apples, pears, peaches, apricots, plums and cherries.

This was one of the first small fruit farm enterprises in Canada where the irrigation system was installed by the company. The early days of development had to break down a prejudice against irrigation and when once a grower has learned to be his own rain-maker, he prefers the certainty of that to any other method.

Having found Peachland, Mr. Robinson determined to exploit a new district and to the south of his last enterprise, purchased ten thousand acres in 1903. No title could be more fitting than Summerland, applied to the new district which is the sunny centre of the Okanagan.

Summerland has an unusually picturesque environment. In the centre of the district rises the peak known as Giant's Head.

The last venture in pioneering was at Naramata on the opposite shore of the lake. Over the hills that were parched and gray, vine-covered homes and polio orchards now greet the eye. From the Lake front, at night, the twinkling lights of hundreds of homes shine far and clear and a vision has become a splendid reality. Mr. Robinson, the benefactor, to whom both the Okanagan and the Dominion owe much, rests content.

## Council Will Sell Industrial Site

### Must First Receive Assent of the Electors

At this week's sitting of the Municipal Council a motion was carried offering to sell eight twenty-five foot lots on the lake shore between the Post Office and the Fruit Union for the sum of \$2,000. This motion was the result of an application from the Union to purchase these lots. Representing the company owning the lots prior to their sale for taxes, Mr. J. M. Robinson had also applied for the lots, asking that they be returned to the company for the amount of rates and taxes against them, less than \$800. Before the property can be disposed of the sale must have the approval of the rate payers and the Clerk was instructed to prepare the necessary by-law which after being advanced by the votes of the Council will be placed before the rate payers for approval on the date of the annual municipal elections. The price of \$2,000 represents the valuation placed upon the lots for taxation purposes.

By motion and with the intimation that the price would be acceptable, the Council agreed to pay George Henry \$40 for the shale on his lot in Prairie Valley.

Progress on the work of re-surveying the south main was reported by the Clerk for the Engineer.

A resolution from the Board of Trade respecting Sunday labor on Municipal work was received. The Clerk was instructed to acknowledge same with the statement that the resolution would be referred to the 1920 Council.

With the threat that unless an answer was received within six days proceedings would be taken, Jas. Pyffe made a claim for \$184 for irrigation water. Referred to Water Committee.

An offer from W. J. Tullatt for the plank in an old flume near the G. W. Johnston lot at fourteen cents per length was accepted with the usual conditions.

An application from V. J. Bernard for irrigation water for a lot in Peach Valley recently purchased by him, was referred to the Engineer.

An application by Japanese for the use of camp buildings above the reservoir was not granted.

A domestic water connection for his lot west of J. S. Ritchie's store was granted E. Johnston.

An application from H. M. Lumsden for permission to clear a new road running from the Peach Valley road west into Prairie Valley was referred to the Chairman of the Roads Committee.

An application from E. F. Sanborn for the purchase of a lot north of Jones Flat, said to contain 180 acres, was referred to the Properties Committee.

The following accounts were approved for payment.

## Court of Revision

### Few Appeals on 1920 Voters List

Three names were added to the Summerland voters' list by the Court of Revision which sat on Wednesday morning in the Municipal Council Chamber, there being no other applications for the privilege of the ballot.

It is noteworthy that not a single householder as such is on the voter's list. There are in the community a number of incorporated companies and private individuals doing business under trade licenses who might have had their names entered on the list had they taken the trouble to make application at the proper time.

The voters' list as prepared by the clerk from the assessment roll contains the names of a number whose right to vote is doubtful. When the assessment roll is revised according to the requirements of a recent amendment to the Act, there is likely to be quite a change in the voters' list.

The Reeve and Couns. Campbell and White comprised the Court of Revision and after the list had been checked over name by name with the clerk and the three names noted above added a motion adopting the list as the voters' list for 1920 was unanimously carried.

## Car Wrecked but Occupant Escapes

All week a McLaughlin car, the property of R. H. English, has been lying near the Union ice house in a badly wrecked condition. The car was being driven up the hill Sunday night by Will White and had nearly reached the top of the steep grade west of the ice house when the engine stalled and the car began to roll backward. Finding he could not hold the car the driver tried to let it down on to the road running north by the ice house, but it ran up on the bank and rolled completely over. The driver escaped quite uninjured and the other occupant, a nurse at the Hospital, though somewhat shaken up, also escaped without a scratch.

The rural route mail service has been taken over by Mr. A. E. Smith until the new contract is entered into, presumably about February 1st.

The members of the Hospital Board and Ladies' Hospital Auxiliary are holding a reception this afternoon in honor of Miss Aitchison, the retiring matron of the Summerland Hospital.

Mr. G. Marshall of this place has been given the important appointment of manager of the large orchard at Okanagan Centre, the property of the Okanagan Land Company, Ltd., of which Mr. J. J. Warren is president. The orchard comprises something like 700 acres of bearing trees.

Retail merchants of Kelowna, after hearing Mr. George S. Hougham, provincial secretary of Retail Merchants' Association, an organization which covers the whole of Canada, formed a Kelowna branch with the following officers: president, G. A. Melkie; first vice president, Geo. S. McKenzie; second vice president, D. K. Gordon; treasurer, W. W. Pettigrew; secretary, S. Wade.

## New Sources of Revenue For B.C. Municipalities

### Proposals Made by Okanagan Municipalities to Tax Commission

Reeve Simpson and others who attended the sitting of the Government tax inquiry commission at Vernon seemed confident that some measure of relief to municipalities as regards taxation would result. The united action of the municipalities of the Okanagan evidently made a very favorable impression and the resolutions prepared at the conference of the Okanagan municipalities were attentively listened to. Reeve Simpson has received a copy of the minutes of the conference which preceded the hearing of the commission, which minutes contained the resolutions as presented to the commission. These are reproduced here:

Present: S. A. Shatford, Mayor, Vernon, who presided; J. M. Wright, Mayor, Armstrong; F. H. Barnes, Mayor, Enderby; E. R. Simpson, Reeve, Summerland; T. Powell, Councillor, Peachland; J. Kidston, Reeve, Coldstream; G. Roseman, Clerk, Enderby; W. F. Kennedy, Alderman, Vernon; J. S. Galbraith, Alderman, Vernon; A. L. C. Maddon, Alderman, Vernon; F. B. Cossitt, Alderman, Vernon.

The president expressed his regrets at the oversight he had made by not advising the Municipality of Spallumcheen of the conference in sufficient time to permit of a representative from here being present.

Penticton had advised that a delegate from there would be present if possible. If not present, one would be in Vernon in time for the sitting of the Commission on Saturday.

**MOTOR TAX.**  
Mr. A. O. Cochrane introduced the question of motor taxation. Discussion ensued.

Moved by Reeve Simpson, seconded by Alderman Powell:

That, as motor traffic is increasingly a cause of heavier charges for building and maintaining roads within the municipalities, we are of the opinion that the Provincial

Government should apportion to the municipalities a substantial percentage of the revenue derived from motor licenses. Carried unanimously.

**GASOLINE TAX.**  
Moved by Alderman Kennedy, seconded by Mayor Wright:

That the Provincial Government be requested to pass legislation authorizing municipalities to assess retail dealers a tax of two cents per gallon on all gasoline sold for motor traffic purposes, such revenue to be used for general municipal purposes; the Provincial Government to protect retailers within municipal limits by imposing a similar tax on gasoline retailed in unorganized districts for provincial purposes. Carried.

**PERSONAL TAX.**  
Moved by Mayor Barnes, seconded by Alderman Madden:

That as an additional source of municipal revenue, the Provincial Government be strongly urged to allot to municipalities a reasonable proportion of personal property tax collected in such municipalities. Carried.

Moved by Alderman Galbraith, seconded by Alderman Kennedy, that as an additional source of municipal revenue, the Provincial Government be strongly urged to allot to municipalities at least fifty per cent of the revenue derived from the amusement tax in their respective municipalities. Carried.

**SCHOOL TAXES.**  
Mr. Roseman, Enderby, read and laid upon the table a draft resolution calling upon the Provincial Government to render increased aid for the maintenance and carrying on of schools.

After discussion the chairman appointed a committee for the purpose of drawing a motion based upon the tenor of the discussion.

This was done. The following motion was then

Moved by Mr. Roseman, seconded by Mayor Wright:

(Continued on page 7.)

## Opposing Sale of Government Telephones

There is every indication that Boards of Trade of the Valley will be a unit in opposing the transfer of the Valley section of the Government Telephone and Telegraph System to a private corporation. The resolution adopted by the Summerland Board of Trade is being heartily endorsed by other boards of the Valley. This week the Penticton Board unanimously endorsed the resolution. A few days earlier the Chamber of Commerce of Kamloops took a similar stand.

In connection with the report that the Okanagan Telephone Co. is renewing its efforts to obtain possession of this portion of the government system it is stated that negotiations between the B.C. Telephone Company and the Okanagan Telephone Company whereby the former would absorb the latter are pending and that one of the conditions is that the Okanagan Company must first obtain the monopoly in this Valley.

Following several days of unusually cold weather there are promises of a break, the weather having moderated to-day considerably. Early this morning the thermometer at the farm reached five below, and four below on Thursday. This temperature with a wind which at times reached a velocity of 23 miles per hour has been anything but comfortable to residents, although travellers coming from the Coast find this a relief from the cold humid atmosphere down there, while prairie people arriving here move about as if the thermometer hung about freezing point.

Koremeos has several canneries and one of them is the largest in the Dominion.

## Is Buying Hotel Local Hostelry to be Entirely Renovated

By a deal which only awaits the completion of the necessary papers Mr. C. B. McCallum of Vancouver becomes the owner of Hotel Summerland. Negotiations were opened a few days ago when the present owner, Mr. H. S. Blanchard, was on a visit to Vancouver.

Mr. McCallum arrived here the first of this week and has already laid plans for greatly improving the property so that the travelling public and local patrons of the Hotel may be given a first class service. We understand that it is the intention of the new proprietor to put in a new basement with foundations, to install an up-to-date and efficient heating system and to thoroughly renovate the exterior and interior of the building and make other needed improvements.

Mr. McCallum is an experienced hotel man. He will be followed here later by his wife and two daughters and son. The latter, who won military honors, will probably take up fruit land.

Mr. and Mrs. Blanchard will leave shortly to reside in Vancouver, Mr. Blanchard having become the owner of a house in that city through his deal with Mr. McCallum.

## Petition For Daylight Saving

Nelson City Board of Trade recently passed a resolution asking the Provincial Government to bring into effect next year the daylight saving scheme. The Summerland Board of Trade and other Boards throughout the province have been furnished with copies of the resolution which they are asked to endorse. Already some have done so. Penticton Board of Trade in session last Monday evening gave the movement fullest support.

## Money Orders to U.S. Stopped

A circular to post-masters signed by Inspector J. F. Murray carries the following instructions: "Please discontinue forthwith the issue of Money Orders payable in the United States, and do not resume the issue of such orders until further notice."

Just as we go to press we learn of the arrival here from Ontario of a medical man, Dr. Driver, who until recently was for some time connected with the Ottawa General Hospital. Dr. Driver will assist Dr. Wood in his practice and it is quite probable that he will locate here.

Rev. R. B. Parcell, Methodist pastor, has been elected mayor of Washougal, Wash.

Quebec apple growers are agitating for a national apple exhibition in Canada.

So far this season 56 carloads of apples have been shipped from Oroville.

The City Council of Vernon has passed a by-law granting an honorarium of \$1,000 to the Mayor.

Eighty-five per cent of the railway grade between Princeton and Copper Mountain is completed. Five hundred men are employed, and the grade should be ready for the steel soon after the first of the year.

Penticton seeks a government grant in aid of construction of a proposed new school, estimated to cost \$70,650, complete with site and furniture.

During the past season 260 cars were loaded and unloaded at Koremeos. The outgoing shipments included 18 carloads of cattle.

The Japanese of the province subscribed \$173,000 in Victory Bonds, exceeding their quota by 75 per cent.

## Local Players Defeat Penticton

### Two Lively Games in Empire Hall

Two good games of basketball were witnessed by a large crowd in Empire Hall on Friday, December 5th, when two teams from Penticton, ladies' and men's, were defeated by the Summerland teams.

The ladies' teams took the floor at 8.45 p.m. The local team was as follows: Mrs. Geo. Craig and Miss Janet Sutherland, guards; Miss Edith Bristow, centre; Misses Hessie Phinney and Eva Shields, forwards. The game was very evenly contested during the first half, only one basket being scored, which was by Miss Shields. Half time score, Summerland, 2; Penticton, 0.

The second half was also equally strenuous and the girls put up a good brand of basketball. All played well and watched their opponents with the result that the scoring was again kept pretty low, our girls scoring 6 points to their opponents' 3. Full time score, Summerland, 8; Penticton, 3.

Considering that the Summerland girls only had one practice this season, they played a remarkably good game of ball, and did well to beat their opponents.

The men's teams took the floor about 9.30 p.m. and as was anticipated a hard fought and strenuous game resulted. The Penticton team was not up to full strength, being without the support of Jimmy Weir and Vic DeBeck.

The game opened right from the start with fast play and hard checking, but Bill Angove soon found the basket with a long shot, and opened the scoring for Summerland within 5 minutes of the opening whistle. However Penticton did not let our boys have their own way and the play waxed fast and furious, both teams playing roughly. The play during the whole of the first half was very even and at half time the score stood at 6 to 5 in favor of Summerland.

The second half of the game was not so even, and Penticton soon found that they were unable to hold the Summerland boys. Throughout this half Summerland had considerably the better of the play, scoring 11 points to their opponents' 7, the final score being 17 to 7 in favor of Summerland.

For the local team Will Angove at centre played an excellent game and scored some very fine baskets, and in all made 5 field baskets and converted one foul. Ralph Brown scored 2 baskets and Reid L. This team was as follows: Snidor and Peck, guards; Angove, centre; Brown and Reid, forwards.

After the game the floor was soon cleared and dancing followed, music being furnished by the Manchester and Peck orchestra. Refreshments were served about midnight. Dancing finally broke up about 2 a.m. A large crowd attended both the games, and the dance, and on the whole a very exciting and enjoyable evening's entertainment was provided.—Contributed.

## WEDDING.

### MITCHELL-CAREFOOT.

Mr. James Mitchell and Miss Minnie Carefoot were united in marriage on Friday, December 5th at the home of Mr. and Mrs. J. J. Mitchell, the ceremony being performed by the Rev. W. H. Bates of St. Andrew's Presbyterian Church. Mrs. Mayo acted as matron of honor and Mr. B. Mayo supported the groom.

After the ceremony the guests sat down to a nicely prepared supper. The happy couple left the same evening for Penticton en route to Vancouver. On their return Mr. and Mrs. Mitchell will live on the Mitchell farm.

Eskimos living within the limits of Canada number 3,290, of whom 1,087 live in Baffin Land, the large arctic island north of Hudson's Bay and separated from Greenland by Baffin Bay. On the mainland there are 2,200, principally in the territory adjacent to Hudson's Bay.

### Sugar Shortage Will Be Acute Till February

There will be no relief from the sugar shortage until February. Following is an excerpt from a trade letter received by local merchants from the W. H. Malkin Co., wholesale grocers of Vancouver:

We are sorry to advise that we do not expect to see relief of the sugar shortage until February next. Up until today we were under the impression that we would have a plentiful supply of sugar by the first of next year, but on account of disappointments in shipments of raw sugar, such will not be the case. Our allotment of sugar for December will be very considerably less than for November and as yet we have not received word as to what our allotment for January will be, but until you get further information do your best to conserve any supplies of sugar you may receive and have your customers do likewise. The sugar situation is still very serious.

### Car of Apples Burns

A fire, believed to have resulted from the heating system becoming too hot, here early Sunday morning destroyed one of the C.P.R. fruit cars loaded with apples from Grand Forks.

It is believed that the heating system became so hot that it ignited the paper wrappers on the fruit, setting fire also to the very dry boxes. The loss will be about \$3,500.—Cranbrook Herald.

### "SHUBERT" NOW A CANADIAN HOUSE

For the convenience of Canadian fur shippers, Shubert is operating a Canadian fur house—A. B. Shubert, Ltd., 324 Donald Street, Winnipeg, Manitoba, Canada.

"This procedure," says Mr. A. B. Shubert, President of A. B. Shubert, Ltd., Winnipeg, Canada, "was due to an increasingly large amount of new Canadian shippers each season, and since Shubert has always had the shippers' interest at heart, we make these connections so that we may be closer to the Canadian fur shipper, thereby giving him advantages which before could not very well be applied."

"Shubert" requires no introduction to the Canadian fur shipper, having been in the field for over thirty-six years. Attention is directed to the Shubert advertisement in this paper.

**Synopsis of Land Act Amendments**

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$100 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may receive another pre-emption, if he requires land in conjunction with his farm without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road not exceeding half of purchase price is made.

**PRE-EMPTORS FREE GRANTS**  
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased person may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 30, 1918. Taxes are remitted for five years. Provision for return of moneys accrued due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from settlement to March 31, 1920.

**SUB-PURCHASERS OF CROWN LANDS.**  
Provision made for issuance of Crown grants to sub-purchasers of Crown Lands acquiring rights from purchasers who do not complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes payable be distributed proportionately over made by May 1, 1920.

**GRAZING.**  
Grazing Act 1918, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

**Naramata News**

Current Events of Town and District

Mr. Stuart Leckie of Penticton was in town this week visiting friends.

Mrs. T. I. Williams who went to Vancouver for an operation has been operated upon and is reported to be doing nicely.

Mrs. Ralph Smith, M.L.A. talked to a large audience in the Church on Monday night and her pleasing personality won her many friends.

The lecture was along the line of instruction to the lady voters in regard to the bills recently passed and the ones that will be brought up soon, but the talk was equally interesting to the men who formed a large part of the gathering.

Mrs. Smith is giving her attention to several bills. The most prominent is the one relating to Mothers' Pensions and her hearers were apparently entirely in sympathy with the movement.

Her statements are given with the proper force that gives great confidence in her ability to get the things she goes after.

The ladies of the town gave Mrs. Smith a reception and tea on Tuesday afternoon at the Unity Club House. During Mrs. Smith's stay here she was entertained at the home of Mrs. Languedoc.

Mrs. Vera Anderson who has been visiting her mother Mrs. Dan McKay received word yesterday that her husband had broken his leg and had been conveyed to the Brandon Hospital.

Mrs. Anderson immediately departed for her home, which is in Hamiota, Manitoba.

Mrs. J. M. Robinson left on Saturday for an extended visit to the east where she will visit her sons and daughter in Toronto.

Mrs. Robinson will visit friends at Winnipeg and Brandon on the way. She will be joined at Winnipeg by her husband Mr. J. M. Robinson, who is there on business.

Mr. M. D. Manchester who arrived recently from Dawson and has been visiting his brother Mr. F. C. Manchester, left on Monday morning for California where he will remain for a time with his family and then go east to Pittsburg on electrical business.

Mr. Harold Mitchell has gone to Vancouver for medical treatment at the General Hospital.

Miss Kenison has gone to the Summerland hospital to assist in the work for a time.

Matters of great importance to the community besides the election of officers for the ensuing year will take place at the last annual meeting of the Farmers' Institute which will be held on Monday, the 15th.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, DEC. 12, 1919.

**ZERO WEATHER IN THE BANANA BELT** is not often experienced nor can we say that we are enjoying the novelty. Though it brings us a measure of discomfort we may perhaps derive some satisfaction from the fact that we are escaping lightly as compared with wide stretches of the country to the east and south of us. In the western states farmers are burning ear corn and fence posts and tearing down old shacks and other old buildings for fuel. Thousands are suffering from total lack of fuel and shortage of food because of lack of transportation. From the Canadian prairies come reports of farmers burning fences and buying building lumber to be converted into fuel. California feels the chilly blast and Oregon reports the coldest weather in its history. The Okanagan still remains a favored vale!

**FURTHER EVIDENCE** if any were needed of the rapid progress being made by the Okanagan Valley is contained in a recent statement by Mr. F. W. Peters, General Superintendent of the C.P.R. Mr. Peters is quoted as saying that 3,822 cars of fruit and vegetables were moved from the Okanagan this year between July 1 and November 30, a gain of 1,000 cars over last year's totals. The increase is all the more noteworthy from the fact that the railway company has been experiencing great difficulty in securing cars.

**AMATEUR THEATRICAL AND MUSICAL EVENTS** of a high order were features of the winter round of entertainment in Summerland a few years ago. The war interfered with all this, but is it not time now to re-organize? We have considerable excellent musical talent in the community and a goodly number of more or less experienced amateur players. Are there not some among them who will take the lead to re-establish the musical and theatrical clubs of earlier years?

**A FURTHER EFFORT IS TO BE MADE** at once to assure that legislation will be enacted at an early date to change the rule of the road in B.C. United action is being taken by the Union of British Columbia Municipalities, the Good Roads League, the Vancouver Auto Club, the Vancouver Island Auto Club and the Board of Trade and City Council of Vancouver, which will approach the Provincial Government asking for such legislation. These organizations are assured that they will have the support and co-operation of similar organizations in the Okanagan and elsewhere in the interior.

For the purpose of better controlling the level of the water in the Okanagan Lake the Dominion Government will have constructed at the outlet a lock or dam to replace the present weir by which the flow of water into the river will be controlled. The contract has already been awarded and we understand that construction will begin soon.

During the year now ending Summerland has been free from typhoid and most of the other common diseases, according to a statement submitted to the local Board of Health by Dr. F. W. Andrew, M.H.O. Dr. Andrew further reported that there are fewer tubercular cases in the community than in any year of which he has a record.

Mrs. W. J. Docking, a former resident of Summerland, came in on Monday's boat and is staying with her sister Mrs. Adams in Garnett Valley.

A farewell tea in honor of Miss Aitcheson was given by the St. Andrew's Presbyterian Ladies' Aid at the home of Mrs. Basil Stuart on Wednesday afternoon. A most delightful time was spent and a very interesting program rendered. Those taking part were Mrs. Stevens, Mrs. Wood, Mrs. Beer, Mrs. Shepard and Miss Sinclair. Expressions of regret were voiced at Miss Aitcheson's departure from among them. She was for two years president of the Aid and was a member of the Managers' Board of the Church for one year.

**Passing Events: Social, Personal, &c.**

Three hundred and twenty-five dollars were cleared by the ladies of St. Stephen's Church at a sale held last week.

Mr. Harold Smith returned to his home from the hospital today, having been in that institution for about three weeks.

Mr. Thos. Washington is expecting his sister Mrs. Hack from the Old Country and will go up on the Monday morning boat to meet her at Sicamous.

Miss Jean McRitchie who has been spending the summer with her sister Mrs. T. J. Garnett, will leave for her home in Chicago by Saturday morning's boat.

Mr. and Mrs. T. A. Oliver are leaving next week on a two months' vacation. They will remain in Vancouver until after Christmas when they will go south. A man is being sent from Vancouver to relieve Mr. Oliver as K.V.R. Station Agent.

Attention is directed to the advertisement in this issue of Mr. F. R. Shikora. His announcement is of special interest to ranchers who are not enjoying the service of such public utilities as electric lighting and gravity domestic water system.

Miss Jean Glover of Glasgow, a sister of Mrs. H. Lambie, has arrived to reside here permanently. Miss Glover served for five years with the Imperial forces being two years at Salonica, two years in Serbia and one year in a London Hospital.

Over fifty members of the Methodist Association met at the home of Mr. and Mrs. A. McLachlan on Monday night last for a social evening and to welcome a number of newcomers, among whom were Rev. Mr. Stoodley and Mrs. Stoodley. After an impromptu program of games and singing, refreshments were served and a most enjoyable time was brought to an end by everybody joining hands in “For He's a Jolly Good Fellow” and “Auld Lang Syne.”

**Community Calendar of Coming Events**

Advance notices under this heading will be charged for at two cents a word. Minimum charge 20c first insertion. Each repeat one cent a word. Minimum 10 cents.

The usual morning service at the Baptist Church, West Summerland. A service of song in the evening led by Mr. Blackaby.

Morning Service in St. Andrew's Presbyterian Church at 10.30 conducted by the Pastor. Young People's Society 7.30 p.m., leaders, Miss Marie Arkell and Miss Eliza Ritchie. Topic, “Hymns and Their Authors.” Orchestra.

Mrs. W. J. Robinson returned on Monday from a visit to Manitoba.

Mrs. A. C. Steuart is visiting with friends in Calgary.

Llewelyn Bowering returned last Friday from a stay of several mos. in Saskatchewan.

Mr. and Mrs. L. W. Rumball will spend the next two months at Bowden, Alberta, their former home town. They went out by boat early this week.

Storage as it concerns the Summerland fruit farmer will be the subject of a discussion at a Farmers' Institute meeting, announcement of which is given in the advertising columns of this edition.

Mr. H. K. Fisher, for several years manager of the Bank of Montreal at Penticton, has been transferred from Hull, Quebec, to Summerland and is now in charge of the Shaughnessy Avenue branch of the Bank of Montreal. Mr. Fisher and his wife arrived from the east in city a week ago.

Phone your order for rubbers and I will deliver by mail at my expense. A. J. Beer. 13-20

Mr. F. A. C. Wright went out Wednesday morning on a brief visit to Vancouver.

Mr. and Mrs. S. B. Snider are leaving next Monday for two months stay at Vancouver.

Mr. O. F. Zimmerman arrived home Monday from a brief visit to Hamilton, Ontario where he had gone because of the death of his father.

Mr. and Mrs. J. C. Wilson and their young daughter Stella left Thursday morning for a visit of about two months to Danville, Quebec, Mr. and Mrs. Wilson's former home.

**CARD OF THANKS.**

Mr. J. Campbell, Misses Campbell, and Mrs. Dick wish to thank their many friends for their help and sympathy in their recent great bereavement; also for the beautiful floral offerings.

**SAVE \$10.00 ON SINGER MACHINE**

This advance goes into effect this month. Buy now — Save \$50.00 to \$75.00 on PIANOS if bought this month.

**Peachland Doings**

A Weekly Chronicle Furnished By Our Local Representative.

Mrs. and Miss Needham left by Wednesday morning's boat last week for Qu'Appelle, Sask., where they expect to spend the winter with Mrs. Needham's married daughter Mrs. Geo. Dell.

Mr. R. Walters, manager of the P.F.G.U. spent a few days of last week in Vernon. During his absence W. Buchanan was in charge of the business.

After having taken his son as far as Sicamous on his return to Calgary, Mr. Thos. Bell returned on Wednesday evening's boat of last week.

Mr. Martin Hendrickson has been suffering with a broken ankle which he was unfortunate enough to receive on Wednesday of last week. He was employed as teamster for Mr. A. N. Cutbill, and while skidding logs for Sam White and Cecil Brown got caught with one of the logs which fractured the ankle. He went over to Kelowna on Thursday morning accompanied by Sam White and had the ankle attended to. He states that it is doing as well as can be expected.

The Dominion Fruit Inspector spent Wednesday of last week in town holding a case against Greata Ranch over a shipment of fruit. The defendant was fined \$25 and costs for first offence. The case was tried before Reeve Hogg.

Mr. A. Town has recently sold his home and adjoining property to Mr. Brinsen who lately came in from the States. Mr. Town and family have not vacated the house yet being somewhat undecided as to their next move.

Mr. and Mrs. John McDougald recently returned from Summerland where Mr. McDougald had been employed in the packing house, and is now on the Government road gang.

The Government road gang under Foreman J. Seaton commenced operations last week on the lake shore road south.

Peachland was honored last week by a visit from Mrs. Ralph Smith, M.L.A., who addressed a public gathering in the Orange Hall on Friday evening at 8 o'clock. The audience appreciated this pleasure very much and considered that as well as being pleasing it was profitable. Mrs. Smith enumerated several recent alterations and improvements in the laws of our province which she was pleased and proud to have assisted in having put through the House; and gave outlines of others which she felt it a duty to see put through if possible. She gave much food for thought for anyone who has the welfare of the country and home at heart, and pointed out very clearly the necessity for every elector taking advantage of every opportunity possible to acquaint themselves with the laws of the country, past, present, and those changing. The following afternoon she was entertained at tea at the home of Mrs. Wm. Dryden, in company with quite a number of ladies of the community who were treated to an address on important measures concerning the mothers, and of necessity to the country in general. She left on the north bound boat on Saturday morning.

The Rev. Andrew Grieve of Penticton is spending the week in town conducting special evangelistic meetings in the Baptist Church.

The Reception Committee held a meeting on Tuesday evening last to make final arrangements for the soldiers' banquet on the 11th.

Miss Betty Buchanan and Miss Ilyva Murdin spent the weekend with their chums the Misses Edgecomb at their home.

Mr. Joe McDonald spent the week end here again in connection with wharf repair work.

Mr. Iverson took his little daughter down to Summerland on Saturday last to put her in the hospital there for treatment to one of her legs which has been causing her considerable trouble lately. As yet they have been unable to ascertain just what the trouble is.

Mrs. J. Winger was a passenger south on Saturday night last to spend the week end at Penticton. She returned on Monday morning's boat.

Miss F. Broscob has accepted a position in Penticton for a time and went down on Saturday night.

One of our pioneers, Mr. Robert Michael was called to his last reward on Sunday morning, the 7th, after quite a long illness. For some time he had been confined to his bed, having for a longer time previously been more or less confined to the house. The funeral was held on Monday afternoon at two o'clock. He leaves a married daughter in Manitoba, Mrs. Wm. Henry, and one in Peachland, Mrs. L. Mills, and two sons, James and Samuel, both residents here.

Mrs. John McLaughlin Jr. was a passenger north on Monday morning last for Kelowna.

Mr. Grantham spent the week end here again with his wife, a guest at the Edgewater Inn.

Mr. A. N. Pope was a passenger north on Tuesday morning last.

The result of the voting on the Electric Light Extension By-law resulted as follows: 31 for, 3 against, and 1 spoiled ballot.

A special meeting of the shareholders of the Peachland Fruit Growers' Union was held on Saturday, the 6th in the Orange Hall. There was a good turn out of members and good interest shown at the meeting. The business on hand was that of packing house accommodation, orchard boxes and other matters concerning the handling of the fruit crops. A motion was passed to the effect that steps be taken to remedy the insufficient accommodation now existing. A committee was appointed to select three members to act in conjunction with the directors to go into the matter of increased accommodation more fully and report as soon as possible. The committee was: A. D. Ferguson, J. A. Edgecomb and John Wright. Mr. A. D. Ferguson gave notice of a motion to be placed before the next meeting to amend the by-laws to change the date of the annual meeting. Mr. Manton made application to the meeting for a packing house at Trepannier, but this matter was left over to be taken up at the next meeting. In connection with the orchard box problem the following amendment motion was carried: "That no private orchard boxes be taken to the packing house except at the latter part of the season when privilege may be given to use same after due consideration of the directors; and that the directors be empowered to purchase any private boxes from the owners provided same are in good condition." Another motion was passed as follows: "That the percentage of orchard boxes to be distributed to each member be left in the hands of the directors, and that such distribution be done at the beginning of the season."

Mr. Jack Wilson is enjoying a visit from his sister who arrived in town on Tuesday night.

**How the Apple Got into the Dumpling**

—is a small mystery compared to how the maraschino cherry is made to float inside its chocolate coating.

To one who has never seen it done, it may well seem difficult—if not impossible. Let us tell you how we do it.

First of all we make a delicious boiled cream. This is then placed in heated containers to keep it soft. The maraschino cherries are next examined to see that each one is perfect. Then one at a time, the perfect cherries are picked up with a fork, dipped into the cream and laid aside to set.

The second stage takes place in the chocolate dipping room. Here the cream-coated cherry is rolled in warm liquid chocolate. As this cools and sets, the cream melts, and—presto!—the cherry floats.

As for the result—well, you must taste Neilson's Maraschino Cherries—they are more luscious—we were about to say—than mother's apple dumplings.

# Home, Sweet Home

A wanderer stood in the darkened street, looking through the window at a happy family within. The scene pictured the longing in his soul for the home he did not have.

The man slipped away unseen, and one day wrote a song—the song of his soul. And this song became immortal; the most beautiful and pathetic heart-song that the world has ever known.

The man was John Howard Payne, and the song is "Home, Sweet Home."

You may RE-CREATE in your own home this immortal song if you own

## The NEW EDISON

"The Phonograph with a Soul"

"Home, Sweet Home," "Swanee River," "Kathleen Mavourneen," "Silver Threads Among the Gold" and hundreds of other heart-songs are at your command; waiting to be RE-CREATED for you by the magic of this greatest of all instruments, with all the richness of melody and depth of expression that you have longed for in the phonograph—just like the living artist.

If you love real music, ask for a copy of the beautiful book "Edison and Music," and "What the Critics Say," the booklet that proves Edison's superiority.

## New Sources of Municipal Revenue

(Continued from Page 1.)

Whereas it cannot be successfully contended that the education given in our schools, and the general work of maintenance carried on by municipalities, are purely for the benefit of the people residing within their own boundaries, such services being in reality for the general benefit of Canada,

And whereas the financial position of the municipalities is becoming increasingly difficult and critical by reason of larger questions being brought into issue on account of reconstruction and other after war problems;

And whereas increased standards of education call for larger expenditures in salaries of teachers and in buildings and equipment, thereby creating a serious difficulty in finding from present municipal sources the required revenue, and it is essential if the municipalities are to carry on their work that such assistance be given by the Provincial Government;

And whereas education is one of the highest interests of the state, and the maintenance thereof in the last resort, a matter also of vital national importance and that the standard should in no wise be lowered;

Therefore be it resolved that the Provincial Government be urged to the limit to assume by reason of the matters recited herein:

The full cost of education in all municipalities. Carried.

Moved by Mr. Roseman, seconded by Mayor Wright:

That we ask Mr. Cochrane to represent us at the sitting of the Municipal Convention to be held on Saturday next. Carried.

On motion of Mr. Roseman, seconded by Reeve Simpson, a hearty vote of thanks be accorded to Mayor Shattford for his having called the present conference, and presiding over it.

## AUCTION SALE

These cattle will be sold at auction at Dr. Boyce's stable, Kelowna, Tuesday, December 16, at 1 p.m.

Herd Bull by Lady Zoe Arctic de Kol Dam B.C. Ester Camille. His sire has 10 R.O.P. sisters.

Bull Calf. Sire Jellico Mechthilde Dam Zola Line de Kol. This bull sire is sire of Burton Mechthilde who was Junior and Grand Senior Champion at the Provincial Exhibition, New Westminster, 1919, defeating Grand Senior Champion at the Vancouver Exhibition 1919, also defeating Colony McKinley Segis, Grand Champion at the great cattle show at Portland, Ore. His dam is grand dam to Burton Mechthilde. Anyone wanting a bull should not miss this one.

Cow, Canary de Kol of Penticton, who is half sister Rosaline de Kol, mother of the champion bull.

Cow, Polly Sircastic of Penticton. Sire Korndike Sircastic de Kol, who has three R.O.P. daughters. Dam Daisy of Vernon. This is a splendid young cow and sure to make a record if put on a test.

Heifer, Minnie Echo Mechthilde, sire Jellico Mechthilde; dam Pauline de Kol. Semi official record 12 mos. 11,816 lbs. milk, 516 lbs. butter. This heifer is half sister to the champion bull and cousin to the Carnation Bull, who has sold for \$100,000, whose dam May Echo Sylvia, world's champion milk cow who made 1,006 lbs. milk and 41 lbs. butter in seven days.

Yearling Heifer, Sire Jellico Mechthilde, dam Polly Sircastic of Penticton. The makings of a first class cow with splendid backing.

The above stock are bred to freshen in the spring, and carry the best Holstein blood in the world. Anyone wanting to get some first class stock should not miss this sale.

Also 4 Selected Grade Cows, milk lng, and 2 Grade Heifers:

Daisy Ayrshire Jersey, four years old, freshened in September. A splendid butter cow, giving a good flow of milk.

Madge, Holstein Grade 8 years old. This cow has given up to 70 lbs. milk when fresh.

Spooks, Holstein Grade 3 years old. A splendid milkor.

Laurel, Holstein Grade 4 years old. A big persistent milkor.

Heifer May, Three-quarter Holstein, n daughter of Spooks, and is the making of a splendid cow.

Heifer Eve, Guernsey, Holstein Grade eleven months old. The making of a good cow.

The above cows are all gentle and easy to milk, and real Dairy Cows.

### To The Man of 30

This is, perhaps, the most decisive period of your life. If you are spending all your income NOW, a habit is crystallizing which may cause your later years to be passed in poverty. You should face this truth and retrench. Why not cut down unnecessary expenses and deposit some of your income in a savings account?

If you are married such a course is doubly important.

## THE DOMINION BANK

SUMMERLAND BRANCH,

O. F. ZIMMERMAN,

Manager.

### Local Theatre To Show Best

Having just returned from a short visit to Vancouver Manager Darkis of The Rialto says that he has entered into a contract for a film service that will give his house as good pictures as are shown anywhere. He has contracted for the well known Paramount and Arcraft pictures. Fully realizing that the people of Summerland will not be satisfied with anything but the best Mr. Darkis has entered into this contract notwithstanding that it will mean a very much larger weekly outlay for his house. One only needs to look through the program published elsewhere in this issue to appreciate the improvement in the program which the new film contract assures.

### Grand Forks Fruit Output

Fruit shipments from Grand Forks this season will total 141 cars. There have been 134 cars in straight car shipments leave the valley to date; there are about three more to go, and approximately 5 carloads have been shipped by express. Of these shipments about 107 cars were apples, about 30 cars of prunes and plums, and 4 cars of other small fruits. In addition to the above there were about four cars of apples destroyed by fire when ready for shipment, and it is estimated that about eight cars of apples were caught by the early frost.—Grand Forks Gazette.

The demand for Enderby brick far exceeds the supply.

## BANK OF MONTREAL

## Referendum on Sale of Site for Storage Building

Council's Price on Shore Lots Accepted.

Water Being Wasted.

Those who Continue Practice Will be Cut Off.

Having received from the Summerland Fruit Union an acceptance of the offer to sell eight lots on the lakeshore as a site for a frost-proof fruit storage building, the Council on Tuesday gave the preliminary readings to a by-law under the provisions of which the proposed sale will be referred to the ratepayers to be voted on by them at the time of the annual election.

The reserve supply of domestic water is becoming uncomfortably low. The continued cold weather has made it impossible to replenish the supply and further it was reported that the flow in Trout Creek was at a very low ebb and that it would be a very small stream that could be turned into the canal, and until warmer weather this small flow of water would freeze as it flowed over the concrete of the canal. The present low level of the reservoir is attributed to an excessive waste of water through the pipe system. From many parts of the district come reports of taps running wide open causing heavy and constant drain on the reservoir. By motion of Couns. Kirk and Campbell the Council issued instructions to Foreman Dickson to cut off the connection to all properties where water is being wasted, following the first warning. Instructions were also given to take advantage of the first opportunity to get a further supply through to the reservoir. It was stated that it would require a week to refill the reservoir.

R. Mitchell was again given the privilege of cutting and selling the ice on the reservoir under previous terms and conditions. Mr. Mitchell reported that there was then about a foot of ice which was free from snow.

Engineer Fawkes reported progress on the work of surveying and preparing plans for improving the south main between the reservoir and Peach Valley siphon.

A request from Mrs. R. M. Ross that the alley adjacent to her home property be opened up was referred to the Engineer.

Post Office Inspector Murray wrote regarding a report he had received to the effect that the road between Col. Cartwright's and Prairie Valley was not in satisfactory condition and also that the rural route courier had complained of the hill leading from the Prairie Valley road to the Higgin road, so called. Pointing out the regulations respecting mail service over roads in bad condition, the Inspector asked that he be advised if the necessary repairs would be undertaken. The Clerk was instructed to reply that it was the intention of the Council to improve the section of road referred to, also the hill.

A report having been received that a family was not receiving support from the husband and father who is said to be at the Coast and that the family was in need of fuel and food, instructions were given to the Constable to investigate and the Clerk was authorized to have wood and a week's supply of food sent them if needed. Action will probably be taken to compel the head of the family to support them. The matter will be further considered when the Constable's report is received at the next meeting.

The Council adjourned to meet again Saturday at 2 p.m. to pass the December accounts.

### NEW BOX FACTORY.

With the view to building a box factory to take care of all the requirements of the district in that line the Summerland Lumber Company recently purchased a site near the K.V.R. station to which a railway spur will be extended. The Company has not yet decided just when they will begin the work of building the new factory.

## Car Rolled Into The Lake

The Studebaker car owned by R. H. English and occupied by Mr. English and his daughter Miss Edna, who was driving, and a resident of Naramata, was suddenly thrown from the lake shore road into the lake, between Summerland and Penticton, last Sunday afternoon. The accident occurred on the sharpest turn in the road following a collision with C. J. Duncan's car, which was coming from the south. English's car when it went off the side of the road landed directly upside down on a strip of ice and rolled from that position into the water in an upright position. All three occupants escaped injury and were not even wet, and the car was not greatly damaged. The Duncan car had one of the front tires torn off and a front fender broken. It is claimed by both drivers that each was driving slowly but the point where they came together is one of a number where a collision is almost unavoidable if two cars attempt to round the turn from opposite directions at the same time. The promised improvement to the lake shore road at these points cannot be made too soon for the safety of the public.

## Mr. Baker will Remain Here

At the first of the year Mr. Chas. Baker, the efficient head of the Manual Training department of the Summerland Public Schools, will devote all his time to the work in Summerland. Since he has been in charge of the work here he has been giving two days to Penticton, but the time has arrived when both Summerland and Penticton require a manual training instructor for the full time, and Mr. Baker has decided in favor of Summerland. Now that Mr. Baker will be giving his full time to the work here other classes which should have been receiving the training will take up the work at the beginning of the year. We understand that the Penticton Board made every effort to secure Mr. Baker and Summerland is indeed fortunate in that he has decided to remain here.

## Feed Cattle at Dominion Farm

Twenty-five head of steers were brought in from Calgary by Supt. Helmer of the Dominion Experimental station here for feeding purposes. Mr. Helmer pronounced them a fine lot of big steers, their average weight at time of purchase being eleven hundred and twenty pounds. They lost seven pounds each in transit but quickly regained and early this week they averaged eleven hundred and forty pounds each. Mr. Helmer expects them to make rapid gains in weight. In addition to the beef cattle, sixty-one sheep are being wintered at the farm, also forty-four pigs. The latter are now being put under a feeding test which will be watched with interest by many farmers.

## Washington Peaches Killed

Peaches will be at a premium next year, judging from the weather reports from the principal peach growing districts of the north-west. At Yakima last Friday the temperature dropped to 22 degrees below zero. Districts out from Yakima reported temperatures as low as 30 degrees below. Spokane reports that the temperature ranged from 18 to 31 below in different parts of the Inland Empire, as the interior of Washington is called. As 10 below is said to be the danger point for peaches the fruit growers of those districts are certain that all peach buds have been killed. Here in Summerland the temperature did not get down to within ten degrees of the danger point.

The Penticton Municipal Council recently gave an order forbidding the making of any further connections to the electric light system of that district until another unit is added to the power plant.

# Summerland Hospital Burned Early on Sunday Morning

Building a Total Loss, With But Little Furniture and Equipment Saved.

Nothing remains but a blackened foundation, twisted pipes and other iron and, still towering over all, a badly wrecked chimney to mark the site of the Summerland Hospital, which was completely destroyed by fire early Sunday morning. Fortunately there were few patients in the building at the time and it was but a few minutes after the alarm of fire was given that all were removed to places of safety. But a few minutes elapsed between the time of the discovery of the fire and the complete destruction of the building, and comparatively little of the contents was salvaged.

The matron and day nurses had not retired until after 12 o'clock and it was but a few minutes after 5 o'clock that the matron, Miss Aitchison, who was sleeping on the upper floor, was awakened by the roar of the fire above her. Quickly realizing the seriousness of the situation, Miss Aitchison called the telephone central and rushed to the end of the upper corridor and called Miss Stirrup, who spread the alarm through the building, while Miss Aitchison asked central to call for aid.

Miss Kennison who was on night duty on the lower floor had made the round of the building shortly after 3 o'clock, when everything seemed to be as usual. Neither she nor any of the patients knew anything of the fire until informed by the nurses from the floor above.

Miss Stirrup picked up the Iverson child, the only helpless patient, and carried her to the nearest cottage. There were only three other patients, all of whom were able to walk. One of them, T. J. Garnett, who had been in for stomach treatment and had been on a liquid diet, did good work for a time in helping to save linen, surgical equipment, etc., notwithstanding his weakened condition. The Chinaman cook, who slept in the basement, was wakened by one of the nurses.

When the first neighbor arrived on the scene, a large portion of the roof was ablaze, and fire had spread over much of the ceiling of the upper storey. Other neighbors were quick to arrive, but the building was beyond any possibility of being saved from complete destruction, and all that could be done was to pull out of the building, the lower part of which was quickly thrown into darkness by the short circuiting of the light wires, what furniture and equipment could be removed in the brief time that remained.

From the front a quantity of linen, practically all of the equipment of the operating room, most of the instruments and books and some furniture was taken out. Others at the rear went through the kitchen into the X-Ray room and removed several parts of the new X-Ray outfit. The refrigerator and a few other articles were also saved. A burning or defective chimney is supposed to have caused the fire.

The loss has been variously esti-

mated at from \$12,000 to \$20,000, but these figures are in no way authentic and it will probably be some days before the value of the loss can be approximated. The material saved has been gathered up and it is stated that this represents about \$500 in addition to the X-Ray parts. The complete X-Ray equipment cost \$1,800, about half of which was saved. Insurance carried was \$4,000 on the building and \$1,000 on contents.

The Hospital Board held a meeting immediately after the fire in the Hotel parlor, through the courtesy of the Hotel management, when preliminary arrangements were made for caring for the patients and providing for the staff. The report of the matron respecting the fire was also received and a committee appointed to look for a building that could be used temporarily as a hospital.

A second Board meeting was held on Monday and another on Wednesday when it was finally arranged to make use of the Felix Hotel building, which will be rented from the Bank of Montreal from month to month at a rental of \$50.00 per month. Other buildings were investigated but were found unsuitable or would require considerable expense to adapt them to hospital purposes. The Felix Hotel can be used with practically no expense for alterations. This building will be available immediately after the New Year. In the meantime most of the staff is being held and will be busy in making preparations for occupying the temporary building.

The Board on Wednesday decided to call a meeting of citizens on Sunday when the whole matter will be laid before the people and a proposition made for providing the necessary funds for a new hospital.

The matron and the other members of the nursing staff lost much of their personal effects. None of them were able to return to their rooms a second time after having seen the patients safely removed, and only saved what could be quickly gathered up in one armful. It was just over five years ago that the Hospital was opened and from then until the present time it has been in charge of the one matron, Miss Aitchison, whose term of office expired on the 15th. Miss Stirrup, her first assistant, had been appointed to that position and is expected to take charge in the Felix Hotel building.

Another Summerland orchard is soon to become the property of a native of Japan. Some months ago the orchard to the north of Peach Orchard, known as the Wilcox lot, was purchased by Mr. Walter of Castor, Alberta. Mr. Walter spent the summer here and took the crop off the orchard this fall. Shortly after he left here to spend a few weeks in Alberta it was currently reported that Mr. Walter had sold the property to Frank Sato. This report has been confirmed by Mr. Walter in a letter to The Review.

## Christmas Advertising Number NEXT TUESDAY

THE REVIEW will be published next week on Tuesday. This change is made to satisfy a number of advertisers and will give all one more opportunity to place their wares before the host of buyers still seeking for Christmas Goods.

By publishing on Tuesday the shoppers will have one clear day and evening in which to purchase the advertised goods. The early publication of The Review will afford an opportunity that no live merchant will miss. Prepare your copy early to be placed before the shoppers next Tuesday evening. They will be sure to be guided by what they see in next Tuesday's paper.

Will all correspondents and other contributors kindly note change in date of publication.

## Hot Lunches For Schools

Hot drinks for the school children will be provided by the Women's Institute. At the regular meeting of the Institute last Friday a committee was appointed to make the necessary arrangements. The hot drinks will be provided throughout the winter. Though the attendance was small an interesting meeting was held.

Roll call was answered with suggestions for the 1920 program.

An excellent paper on Parent-Teacher Associations was read. This paper had been prepared by Mrs. Lister and was read by Mrs. Beer. It dealt largely with the importance of training the young minds.

During the social hour which followed the serving of tea, Mrs. Solly on behalf of the members of the Hospital Board tendered the retiring matron, Miss Aitchison, a beautiful onyx and pearl lavalliere with brooch to match, and for the ladies of the Hospital Auxiliary, Mrs. Solly presented Miss Aitchison with a handsome silver mounted umbrella with engraved initials. Both these gifts were pleasingly acknowledged by Miss Aitchison.

## Miss Brown Is Showered

A miscellaneous shower was given Miss Evelyn Brown last Saturday evening by Mrs. Behan and Miss Conway at the home of their mother. About thirty well wishers of the bride-to-be were present and an evening of social intercourse enjoyed. A genuine shower of linen was poured down on Miss Brown at one time during the evening, and numerous other articles were presented her in baskets.

Following choir practice last Tuesday evening at the home of Mrs. R. H. English the girls of Miss Brown's Sunday School class presented her with a brass kettle, after which light refreshments were served and a pleasant hour spent with their teacher, who will shortly be leaving for her new home in Alberta.

Miss Brown was also the guest of honor at a little social gathering last Wednesday evening at the home of Mr. and Mrs. Basil Stewart.

## Shipping Jonathans To U.S.A. Points

About sixty carloads of Jonathan apples will be shipped from this Valley to United States points under an agreement reached a few days ago between the Valley shippers and the C.P.R., according to the Vernon News. Under the new arrangement the C.P.R. has agreed to put into effect what is known as "option No. 2," whereby the arrival in perfect condition at points in the United States of fruit shipments from this Valley is guaranteed by the railway company who will provide heated cars and send out men in charge.

The increased cost would vary according to distance the shipment is carried. It is believed that this arrangement will result in a larger export apple trade.

## Truck and Car In Collision

Struck a few days ago by one of the trucks belonging to the Fruit Union the Municipal car driven by Engineer Fawkes was badly wrecked. The truck had run up the steep incline in front of the Telephone exchange and just as Engineer Fawkes drove in from the north the truck backed down the grade and struck the car broadside and badly smashed the body and did other damage to the car. It would seem that the driver of the truck was quite unaware of the presence of the other car behind him and that Engineer Fawkes was in no way responsible for the accident. A claim has been put in to the Union for the amount of the damage. The Union, being protected by an insurance policy against such claims, has passed the claim on to the insurance company.

Turkeys are selling in Victoria at 70c, a pound live weight.

## Frost Proof Storage On Farms Needed

Farmers Institute Arrives at This Decision.

Box Situation.

Shooks Must be Obtained Early in Season.

Storage in the orchard and the need for greater storage facilities at shipping points, the box shortage and the time for picking apples were all subjects of discussion at a meeting of the Farmers' Institute held on Wednesday afternoon.

Mr. Isaac Blair opened the discussion by telling what he had done to provide storage on his own farm, describing the buildings, giving costs etc. The general opinion seemed to be that individual cellars with a capacity of from one to two cars of fruit should be in every orchard. With these the choking of the packing houses could be avoided. These would by no means do away with the necessity of large storage accommodation beside trackage, which was conceded to be equally important.

Several ideas were suggested as to the best method of overcoming the box difficulties. R. V. Agur would have box material delivered to growers in the fall so that hired help could be kept employed in making boxes in spare time during the winter. The difficulty of financing the purchase of box material at this season of the year was pointed out by M. Stewart, who favored having the box material delivered in the early spring, when he believed payment could be deferred until perhaps August. A suggestion was advanced by T. Washington that the O.U.G. should own and operate a box mill and secure timber limits. No resolution to this effect was put through as it was stated that better provision would be made locally for supplying the box material required here.

That many apples were left on the trees too long and their keeping qualities thereby impaired was the expressed opinion of several of the members. It was pointed out, however, by Mr. Stewart, that color was essential in order to have the apples grade up to standard. J. Tait declared that by proper pruning and thinning color could be obtained in time to have the apples picked before they became over ripe.

## Okanagan Apples For Glasgow

Fifteen carloads of apples are to be shipped from the Okanagan to Glasgow on a Donaldson liner sailing from St. John, N.B. Mr. C. A. Whitlock, manager of the Vancouver office of the Cunard Line, visited the Valley a few days ago and made arrangements for the shipping of the fruit.

B.C. McIntosh apples were selling in Glasgow last week at 20s. 10d. per box. 1,787 boxes of B.C. apples offered at Liverpool on the 10th are described in telegraphic reports as excellent in condition and quality. No. 1 Jonathans brought 20s. 10d., No. 2; 18s. 6d. to 19s. 8d.; Medium sized Newtons, 20s. 10s.; large size, 17s. Apparently Grimes Golden is not in demand as on the 8th 12s. to 13s. were offered and on the 10th 13s. was offered but not accepted.

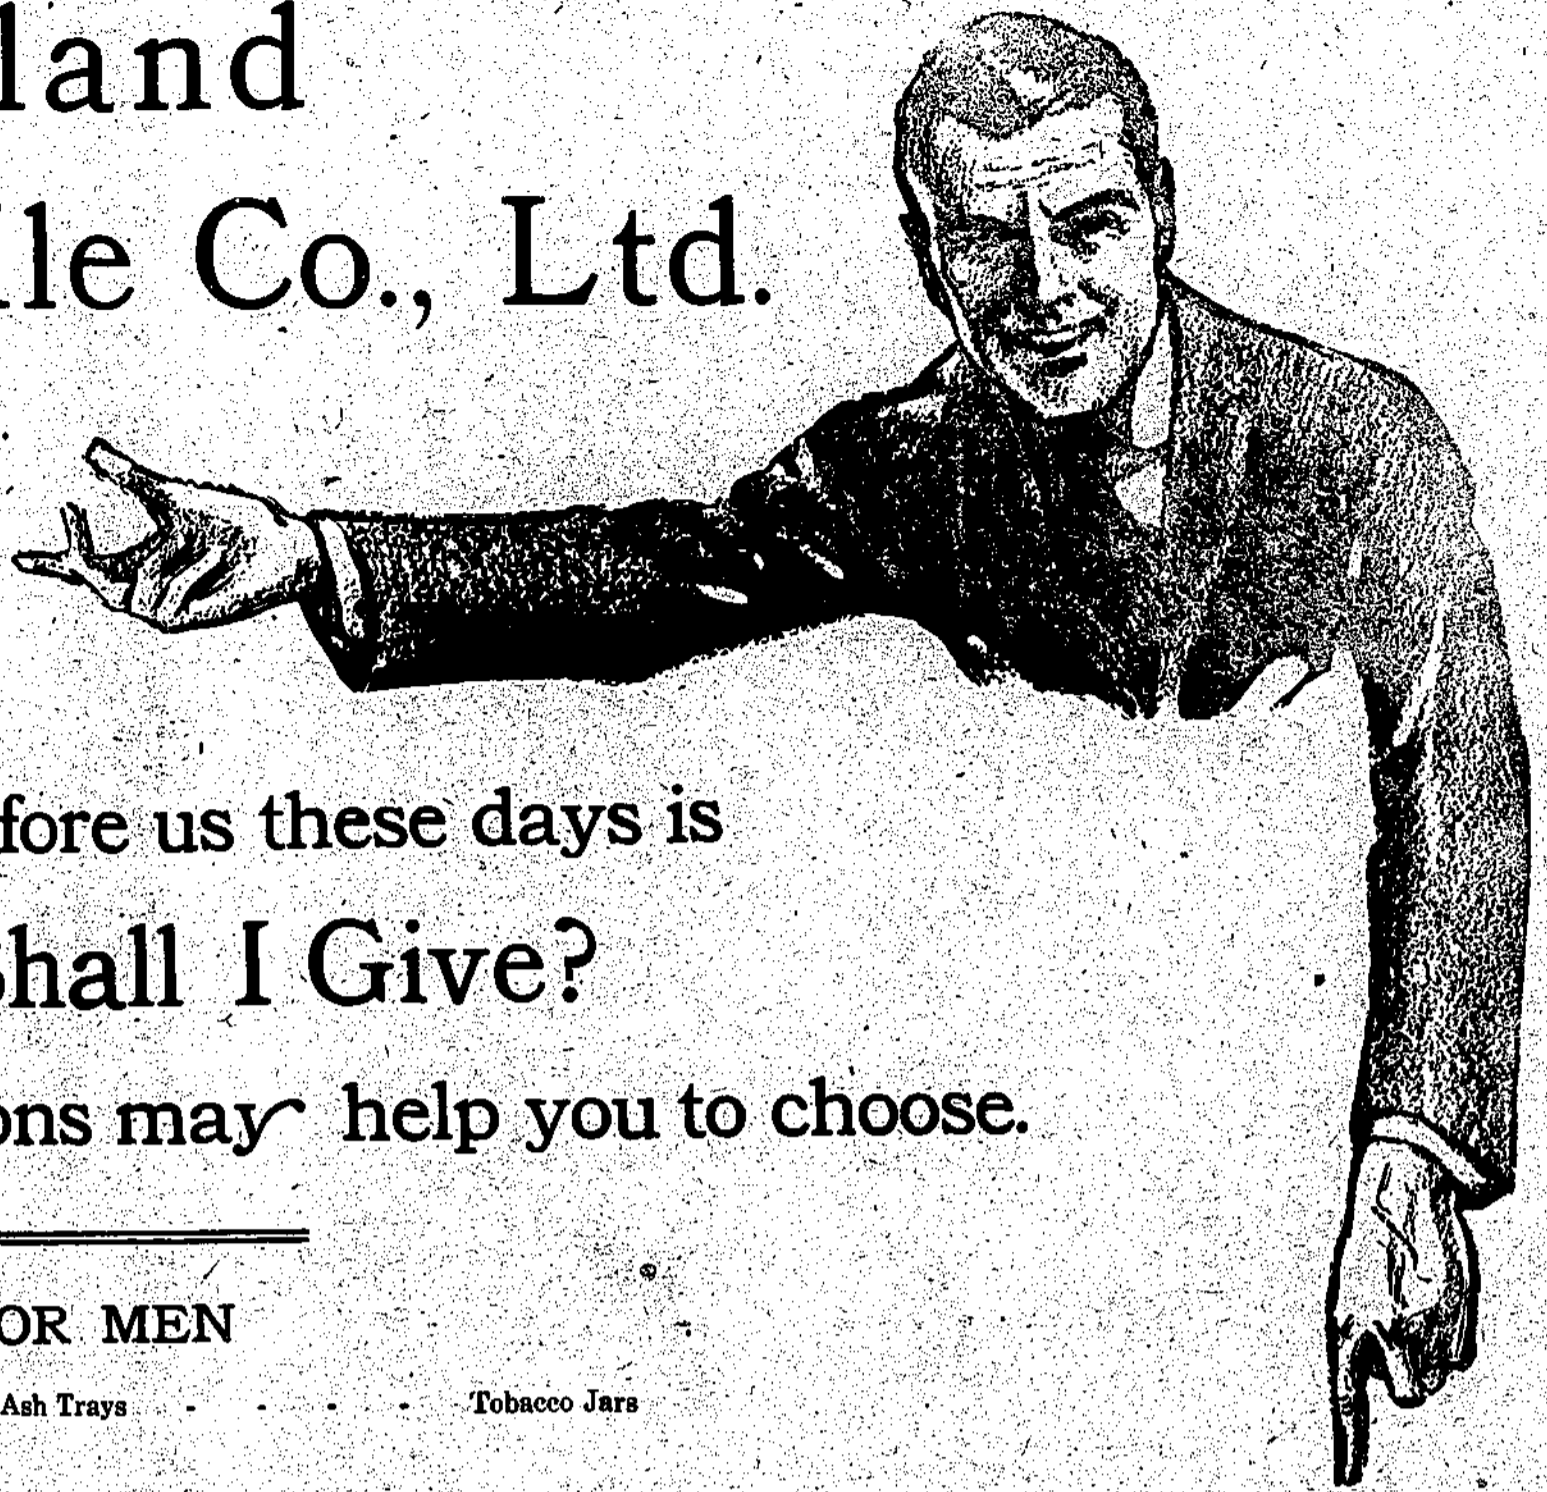

The London Market is receiving large supplies of English apples and reports heavy receipts of American boxed. There No. 1 B.C. Jonathans were selling for 19s. to 20s. 10d. Grimes Golden and McIntosh at 17s. to 18s.

The cottage close below the Hospital, owned for some years by Ralph Kent, has been purchased by Mrs. E. Lennox of Regina. Mrs. Lennox who is a war widow will be coming home some time this month with her children. Negotiations were opened with W. C. Kelley by Mrs. Lennox for the purchase of the property during a visit she made here some weeks ago.

**Synopsis of Land Act Amendments**

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer of claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture and cannot be obtained in less than 5 years. Improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence for 3 years are required.

Pre-emptor holding Crown Grant may record another pre-emption if he requires land in conjunction with his pre-emption, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 540 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. 50% of one-half of cost of road, not exceeding half of purchase price, is made.

**PRE-EMPTORS' FREE GRANTS ACT.**

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended for one year from the death of such person, as formerly until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 28, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependants, accrued direct or indirect, remitted from enlistment to March 31, 1920.

**SUB-PURCHASERS OF CROWN LANDS.**

Provision made for issuance of Crown Grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole parcel. Applications must be made by May 1, 1920.

**GRAZING.**

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partly free, permits for settlers, campers or travellers, up to ten head.

**Have You Any Surplus Money To Invest?**

Now is the time to place same on good Mortgage Property. I have some choice loans offered. See me if interested.

**Naramata News**

Current Events of Town and District

Mr. Gordon Bain from Fort George has joined his family here and for the present they will reside in the Alexander cottage.

Mrs. George Wolstencroft was the guest of friends in Kelowna for a few days last week.

The young son of Mrs. Waterman of Paradise Ranch is very ill with pneumonia.

Mrs. E. Wells and Andy Wilson were in Summerland on Monday.

Mr. J. Flannigan and Mr. Parker of Summerland were here for the week end.

The last of our boys to return from overseas was Mr. Frank Hughes, who came in from Ottawa last week accompanied by his mother who had gone as far as Montreal to meet him. They visited Mr. and Mrs. John Pushman in Ottawa and also friends in Winnipeg on their way home.

Mr. Lawrence has gone to the Coast to secure his discharge from service and attend to other business in connection with his getting located permanently.

The ladies of the Methodist Church held their annual bazaar and supper in the church basement on Thursday night. The ladies have been working very hard for the past few weeks in preparing for this event and the result was very satisfactory to all. There was a large crowd to take care of, and the prettily decorated booths and the many useful articles on display found ready customers. The Girls' Club under the direction of Miss Stonehouse had a most attractive candy booth and their wares were soon exhausted. A most excellent supper was served to all after which the bazaar was formally opened by Pastor Ewing, who had come from Penticton to enjoy and assist in making a successful event.

An impromptu dance was held in the Unity Club house by the young folks on Thursday night. These are expected to be weekly occurrences to help put in the winter.

Mr. Rayner has been selected to go as a delegate to the Farmers' G. W. V. A. and Labor Convention to be held in Kelowna on the 17th.

The Farmer's Institute held their regular and annual meeting on Monday at the Unity Club building. There was a large attendance and exceptional interest was shown by the members in all of the business affairs of the community which were freely discussed. The Mothers' Pension Bill, public health nursing, health insurance and maternity work were heartily endorsed. The memorial committee was allowed to stand and continue their work. The committee on co-operative organization made their report which was accepted. The election of officers was the next item to be disposed of and while the feeling was general that it would be better and more satisfactory to all concerned if the old board would continue in office, all retired, except one, Mr. Geo. Partridge who has been a most efficient secretary was persuaded to remain in office. The officers for the coming year are: president, F. C.

Manchester, vice president, R. Gamon; secretary - treasurer, G. Partridge; S. Dicken; L. Smith.

The retiring president Mr. Dean Walters has been most faithful in his work to make the Institute a success and he will be missed as a leader in the work of the coming year. His report of the past year's work and his suggestions for the future were excellent and deserved the hearty applause he received. The new board will have such matters as the slip dock, the new wharf, co-operation among the growers and the advisability of forming a municipality to occupy their attention.

The executive will meet immediately to arrange for the program of events to happen at the regular meetings and the printed lists will soon be available.

The meeting was entertained with orchestra selections by Mr. Thos. Kenyon, Mr. S. Dicken and Mr. and Mrs. F. C. Manchester. Miss Gordon gave some of her Scotch dialect readings and Miss Seevers rendered a vocal solo assisted by Mrs. Green on the piano. All of the numbers were splendidly received and the artists called back for more. The meeting was a great success and we hope there will be many more of the same kind in store for us for the coming year.

## The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.  
RALPH E. WHITE, MANAGING DIRECTOR  
SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, DEC. 19, 1919.

IS SUMMERLAND TO CONTINUE to be the home of British peoples or is it to become a settlement of Orientals? It is known that Japanese who have been resident here for several years are ready and willing to pay high prices to obtain title to Summerland orchard property. At present there is no law forbidding the sale to them. Only public sentiment and individual loyalty on the part of the present holders will stop further sales. Individually a number of the Japanese we have among us are fine, clean young men. Unfortunately there is such a wide difference between the two races the settling here of Orientals can mean nothing but two distinct colonies for which there is not sufficient room. If all our land is occupied by white people we can have a strong, thriving and prosperous community. Every orchard held by an Oriental makes that much less room for the needed white population. If the sales to Orientals continue social life will be narrowed by reduced white population, thus making others more inclined to sell out and move elsewhere. Fortunately we have made but the beginning in a movement in this direction and such a calamity may yet be averted.

TAXING OF AUTOMOBILES TO BUILD RAILWAYS is proposed by Hon. John Hart, Minister of Finance, according to published statements. The Government intends to spend three million dollars in completing the Pacific Great Eastern Railway to Prince George. An additional sum of one million dollars will be raised for operation and other expenses in connection with that railway during 1920. The Minister is reported to have told the Vancouver Board of Trade that a portion of this sum will be realized from increased automobile licenses. This astounding statement will not be received with very good grace by municipalities throughout the province which have been looking to the automobile tax as a source for needed funds. It frequently has been stated that the quarter million dollars now collected by the government in motor taxes is not used for the logical purpose of improving or maintaining our highways. Perhaps it too has been going for such purposes as buying railways. It is impossible to conceive of anything more inconsistent, especially when the whole province is crying for better roads, to tax motor traffic in order to project a railway further into the northern interior.

THE CANADIAN POST OFFICE DEPARTMENT has temporarily gone out of the Money Order business as far as remittances to United States points are concerned, according to a news item in our issue of last week. The fluctuating price of Canadian money in the New York market combined with the high rate of exchange would seem to be the reasons for the Government so acting.

The rate of exchange varies sometimes from hour to hour and it became a practical impossibility for the Post Office Department to keep the numerous offices informed on the exchange rate. The inability of the Post Offices to sell money orders on United States points possibly to

some measure will help remedy the present unbalanced condition. Canada is buying too much in the United States when the United States purchases in Canada are considered.

OF THE FORWARD MOVEMENT and the inter-denominational co-operation manifested in the Movement the Vancouver Province says: "Every city, town, village and all the country places have seen or will see this manifestation of unity of purpose and desire. The movement is not confined to Canada, but in this Dominion several churches have set before themselves a common spiritual programme. They have seen the people getting together to carry out great and imperial undertakings. Organized Christianity, believing the cause for which it stands has the largest claims on all men and especially on its own members, has placed before the churches represented in this movement a policy bold enough to appeal to high ambitions. The call is issued for personal consecration, effort and sacrifice. There is an invitation to larger interest and investment in missions, a demand for higher standards of social and business life, for personal integrity and unselfishness. The nation is giving thanks for the prospect of international peace. It will be well for Christian people and for all men of good will to seek peace and cultivate charity in their own country and community, to avoid as far as may be the spirit and tone of bitterness and censoriousness which seem at present to be the sin that most easily besets us."

LATELY WE HAVE BEEN HEARING considerable of a proposition to develop electrical energy by harnessing some of the water powers of the northern Okanagan country. In the issue of The Review of April 24th, 1909 there was published an article respecting the probability of developing power at Saswap Fall. At that time a Mr. Morris visited Summerland in the interests of the proposed company the prime mover in the prompting of which was Mr. Ricardo, manager of the Coldstream Ranch. The purpose of Mr. Morris's visit was the collection of data as to the amount of power which could be disposed of here.

Another article in the same issue said: "It will be interesting for the people of this district to learn that negotiations are under way whereby a ten mile car line may be expected to be in operation within the next two years. The system will be so laid out so as to tap the main residential district, establishing connections with the front so as to handle the fruit crop two years hence."

THERE IS MUCH TO BE SAID in favor of Mothers' Pensions. With our post war conception of citizenship mothers' pensions would meet with more general approval than the former practice of expending money in bringing alien immigrants into Canada. One Canadian born citizen is worth many of the immigrants that were brought into this country a few years ago.

TAXING BACHELORS ABOVE THIRTY years of age has been proposed, the money to be used to support large needy families. And why not? The bachelor and the father of the large family may be working in the same shop earning the same pay, the one spending his life in self-indulgence and the other in rearing a family of good Canadian citizens. If Canada needs such citizens why should not the burden of their cost be more evenly divided?

The Ford Factories tell us there will be a shortage of cars and trucks during 1920, and we want your name on our list if you are considering a Ford purchase.

### Okanagan Apples Win Out on Pack

Ontario Horticulturist Says  
His Province Will Rival  
This Valley Neq Year

Canadian fruit did not hold a very prominent place among the fruit handled on the Toronto Fruit Market during the latter part of September and the early part of October, says Canadian Horticulturist. Mr. P. J. Carey, Instructor Dominion Fruit Division, told a representative of The Canadian Horticulturist that up till then only a small shipment of Okanagan apples and a few carloads from Northumberland and Durham counties had reached the market. These entered into competition with American fruit.

Mr. Carey stated, and gave our representative an opportunity to verify the fact, that the Okanagan apples and Oregon pears were the best packed fruit on the exchange. The box packed apples, Wealthies, of W. H. Gibson & Sons, Newcastle, Ont., were the finest quality of apples as well as being the best packed Ontario apples being handled on the whole exchange.

The Okanagan apples, which were an early pack, and therefore not the Okagan best, were packed on the side, while Mr. Gibson's were packed on end. There were a few boxes of apples from the Bowmanville district on the exchange which were not a credit to the grower who consigned them. The apples in the top row had been wrapped and packed carefully. The apples in the centre were packed but not wrapped. Those at the bottom had been, apparently, just thrown into the box.

While looking at the neat packing of the Okanagan and Mr. Gibson's apples, Mr. Carey stated that 50 p.c. of the selling of apples was governed by their pack. To support this, he turned to a few baskets of Snows, which although not packed, looked very nice. A basket of these was dumped out, and then repacked on the side, with the reddest parts up.

Some people standing near, who noted what had been done, immediately commented on how much better the repacked basket looked in comparison with the unpacked baskets.

In a published interview, Mr. C. L. Lowe, Sales Manager of the Okanagan United Growers, recently gave the challenge that the British Columbia apple growers can displace the Ontario fruit in the Toronto market, by their uniform and careful packing. Upon our representative mentioning this to Mr. Carey, he stated emphatically, that while Mr. Lowe's statement might remain unchallenged this year, the prospects were that next year the Ontario packs will be just as good as the Okanagan. Owing to the longer use of the Western box by the Okanagan growers, they have an advantage over us in their familiarity with it. They use the side pack. Next year Ontario growers will be using the new box and will also adopt the side pack. "The British Columbia growers will need something more than just their pack," said Mr. Carey, "to hold the trade on the Toronto market after this year. In saying this I do not overlook the fact that the British Columbia growers have good reason for their confidence in the superiority of their pack."

### Higher Alcohol Content in Frozen Apples

Experiments conducted by Yakima fruit by-product manufacturers to determine the value in their business of the apples that suffered from the recent freeze have led to the interesting discovery that the juice from frozen apples develops a much higher content in alcohol, acetic acid, and sugar than do unfrozen fruit, rendering such fruit particularly valuable for the making of vinegar.

These experiments showed that, after being bottled only a short time, the juice of frozen fruit contained three-tenths of one per cent. of alcohol, where unfrozen fruit juice contained on alcohol.—J.A.G. in Agricultural Journal.

### Pound Notice

Impounded at Peachland, B.C. red mooley yearling heifer with halter, branded J on right hip. If not claimed will be sold at Peachland corral at 3 p.m. 26th of December to defray expenses.

This is an unusual opportunity, one that you cannot afford to miss. Remember you save 10 per cent. on practically everything you buy in this store outside the grocery department.

A. Milne, The Ladies' Emporium

## .. The Winding Trail ..

From tragedy to comedy is but one step, and we constantly see the farcical element cropping up in events TO LAUGH!" which in themselves are no laughing matters. Strikes, past and present, have been rather rich in humorous touches, the very latest being the naive request of some striking miners that they be allowed to mine sufficient coal for the relief of their own families! This is just about on a level with the indignation freely expressed by certain street car drivers in a recent "sympathetic" and short lived strike in Vancouver, on realizing that, their cars being put out of commission, they themselves had to return home on foot. Then we have the amusing disclosure of the identity of one Mr. Glass, a one time prominent "Red" organizer, but now known to be a member of the Royal North West Mounted Police. It is hard to decide which is the funnier tableau—the sudden metamorphosis of the guileful "Mountie" or the unbounded rage of Mr. Cassidy, K.C., at the "outrage" perpetrated by the prosecution.

If we go further afield, we find much the same element of humour in Mrs. Pankhurst's serious advice to labour to keep within the law. We can hardly forget that only a few years ago this estimable lady and her militant followers were breaking the law with the utmost abandon, and we are forced to smile at her wholesouled conversion. But we can forgive in this case, and receive the fair penitent as one sinner that repenteth. But what can we say to the comic opera claims of one de Valera, born in America of Spanish parents, to pose as the "President" of an Irish Republic—which does not really exist? Shall we bracket him with the mad Italian poet who is trying to set the Balkans on fire once more, or must we take his pretensions as bred from the same density of understanding as is the "Amazement" of Berlin when told that the Allies threaten further proceedings unless the terms of peace are carried out? It is hard to decide, the one thing certain being that, like Abram Lincoln during the Civil War, we must perforce laugh in order to restrain our tears.

Together with the greater part of the Dominion of Canada and possibly Europe generally, the Okanagan Valley has this year experienced climatic conditions which have been decidedly abnormal. The latter part of summer brought us extreme heat and dryness, the fall was remarkable for heavy gales, and winter began considerably ahead of its usual date. All these aberrations affected our crops adversely, and at times we heard forecasts colored by various shades of pessimism. Yet at the close of the season we learn on official authority that the total output has once again passed the previous record. The figures given by Mr. Peters of the C.P.R. show a grand total of 3,822 carloads of produce shipped out of the Valley, being just 1,000 cars more than in 1918, and taking the fact that prices were also better, we must admit that our fears were premature and that all's well with our world.

I note that Vernon is considerably upset at the possibility of the sale of the Coldstream Ranch to a Japanese syndicate, and is trying to avert what it rightly considers a calamity. As the law stands, the Oriental can purchase land in this province and is constantly doing so, but nothing approaching a transfer of 13,000 acres has ever been accomplished or suggested. It seems very curious that the province which not many years ago resisted the landing of a shipload of Hindoos (who were actually British subjects) by force of arms, is apparently willing to give title of ownership to Orientals who have no ties with this Dominion beyond the fact that they fought as our allies against a common enemy. The province of British Columbia, largely owned by Japanese, as it bids fair to be, will be somewhat of an anachronism, and should cast about for a more suitable name.

AUTOLYCUS.

## W. W. Ballantyne

Neidpath Farm  
Near Stratford, Ont.

writes an advertisement

The Delco-Light Plant you sold me to light my farm has not only given us the pleasure and convenience of electric light in all our buildings, BUT IT IS RAPIDLY PAYING FOR ITSELF IN THE WORK IT DOES.

It would be a good investment for us aside from the lighting altogether. So far, we have found 16 jobs for Delco on our farm, and we are constantly finding new jobs for it. We are using power from Delco-Light to run:—

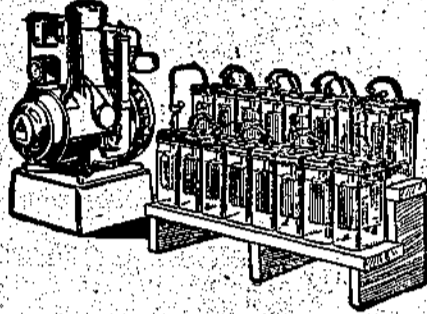

1. Three unit milking machine.
2. Cream separator.
3. The pump in the dairy.
4. Root pulper.
5. Emery stone.
6. Horse clippers.
7. Sheep shearing machine.
8. Fanning mill.
9. Washing machine.
10. Vacuum cleaner.
11. Electric iron.
12. Toaster.
13. Charging batteries on our motor car.
14. Pumping water for household use.
15. Lighting our home, stable, out-buildings and yard.
16. Violet ray generator.

We have never figured this work down to so many hours per day, but we do know that we can operate the farm with one less man than we used to. Figure out the wages and board of a farm hand and you can see what the Delco-Light plant saves us.

We used to run a gas engine on the milker and cream separator, at a cost of 10 cents a day. Our Delco-Light plant supplying light and power for the whole farm costs only 7 cents a day.

It would not only be a harder proposition to run our farm without Delco-Light, but it would cost us a lot more money. We have no hesitation in recommending any farmer to harness up his farm to Delco-Light.

Yours truly, (Signed) W. W. Ballantyne.

Passing Events: Social, Personal, &c.

Miss Aitchison left here Tuesday morning to return to her home in Ottawa.

The W.A. of the Baptist Church held a successful sale last Saturday in Campbell's Hall, \$213 being realized.

Miss Eva Barkwill, a sister of Bob Barkwill arrived here from England on Tuesday. We understand she intends remaining in Summerland.

James English, brother of R. H. English and a former resident of Summerland came in from Treherne, Man. the first of the week. He was accompanied by his nephew, Harry English.

Rev. Edgar Russell who as a resident of Summerland for some months and went from here to Victoria, arrived here this morning for a short vacation. It is expected he will preach in the Baptist Church on the next two Sundays.

Twenty-two below is reported to have been recorded in the northern end of the Valley during last week's cold spell. At the same time the Government thermometer on the Experimental Farm here registered five below.

Lieut. Littlejohn and his wife of Estevan, Sask. arrived here a few days ago with the intention of making Summerland their home. They are at present living in Peach Orchard. Lieut. Littlejohn is one of the many who have sacrificed much in the cause of liberty, having lost his eyesight during the great struggle in France.

President Solly and Secretary Wright of the Summerland Board of Trade went up to Kelowna on Thursday morning to attend a conference of the Boards of Trade of the Valley. The purpose of the gathering is to prepare a program which will be advanced by the Okanagan Boards at the convention of the Boards of the Province which is to be held in Vancouver in February.

On Sunday last at the close of the morning service at St. Andrew's Presbyterian Church the following committees were appointed in connection with the Forward Movement:—Spiritual Aims: J. L. Logie, convener, Mrs. J. G. Robertson, Wm. Kerr; A. Smith, Miss Sinclair, Mrs. C. A. Mitchell and Miss Harrison. Census Committee: A. McLachlan, Lee McLaughlin, R. Johnston, D. Lister, C. Adams, E. Hutchinson. Publicity and Literary Committee: Geo. Sinclair, S. Davidson, J. O. Smith. Financial Drive: C. A. Mitchell, Basil Stewart, J. C. Freeman, J. R. Campbell. A. G. Munn was appointed clerk of the above committees.

The public schools close to-day for the Christmas vacation.

The W. A. of the Summerland G.W.V.A. is preparing to hold an exhibition of war souvenirs.

Mrs. Kennedy of the High School staff left this morning for her home in Calgary, where she will spend her Christmas vacation.

The D.I. Club of the Baptist Church is entertaining the members of the congregation at a social in the church to-night. A feature of the affair is a shower for children in an Italian mission home at Vancouver.

That he must take a six months' rest, abstain from smoking, not use his car, stay away from movies and in every way relax from all activities except the taking of a long stroll every day, are the instructions given by physicians to J. Lawler, who went down to the Coast about two weeks ago to take an ordered rest.

The Summerland basketball team has arranged for two games and a dance in Empire Hall tonight, one between the girls of the upper and lower towns, and the other between the town team and the boy scouts. The net proceeds from the admittance charges the boys propose to donate to the nurses of the hospital, to in part remunerate them for their losses in the hospital fire.

Over sixty pupils of the Summerland high school celebrated the closing of the fall term at a social gathering held in the Campbell Hall last evening, which was also attended by Principal McIntosh, Mr. Denton and Mrs. Kennedy, the other members of the teaching staff, also by Mrs. Denton. It goes without saying that all the young people had a good time, the evening being spent with games, music, etc. The boys and girls had gone to much trouble in tastefully decorating the hall, and refreshments were jointly provided by the girls and boys.

With the intention of prospecting for coal on his recently acquired property near White Lake, G. R. Hookham is having machinery and equipment brought in from the Coast. He has been down to Vancouver on two or three occasions lately for the purpose of procuring the necessary equipment. Mr. Hookham is now advertising the necessary notices of his intention to apply for license to prospect for coal, petroleum and natural gas. It is stated that already very promising outcrops of coal have been uncovered and further that geologists state that there is every prospect of coal in that area.

Summerland is now without a justice of the peace except the Reeve, who holds that title by virtue of his municipal position.

Last week-end there were 120,650 packed boxes of apples being held in the Okanagan Valley according to the Fruit Commissioner's report. It was estimated that there were still to pack 60,850 boxes.

Mrs. Kate Bentley now has with her another daughter and two grandchildren. They are Mrs. Suffrey and her two daughters who arrived here a few days ago from London, England.

Miss Brown and Miss Oliver, two of the teachers of the public school staff who are resigning were the recipients of presentations made by Mr. Baker of the Manual Training department on behalf of the other members of the school staff. After school on Tuesday the teachers all assembled in the domestic science room when Mr. Baker in a pleasing speech presented Miss Brown with a casserole, and Miss Oliver with an umbrella, which were acknowledged in a few happy words following which a brief social time was spent.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Morning Service in St. Andrew's Presbyterian Church at 10.30. Subject, "The Business Man Who Never Thought of Christ." Young People's Society, 7.30, led by Mrs. Caldwell. Topic, "The Christmas Message and the Christmas Spirit." Cornet solo.

Christmas tree and Sunday School Entertainment in St. Andrew's Presbyterian Church on Tuesday, the 23rd, at 7.30. An interesting program will be presented. Children free. Adults 25c.

Rev. Edgar Russell will preach at both services at the Baptist Church, West Summerland on Sunday.

CARD OF THANKS

The relatives of the late Miss Dale wish to convey their sincere thanks to friends and acquaintances for their many expressions of sympathy and kindness extended to them during their recent bereavement, and also for the floral tributes.

We are now prepared for Your Christmas Needs with a Fine Assortment of New and Up-to-the-Minute Goods: Wrist and other Watches, Clocks, Silverplate, Fancy Goods, &c., &c. J. ROWLEY, Jeweler & Optician. West Summerland

Transportation by AUTO — The only CONGENIAL way Capt. P. S. ROE Phone 13 Summerland At Your Service MORNING, NOON and NIGHT Change in Ferry Time Commencing December 1st the Ferry will leave Summerland at 9.30 a.m. and 3.45 p.m. Naramata 12 noon and 4 p.m. Pentleton trips Tuesdays and Saturdays, leaving Summerland 9.30 a.m.; Naramata 10 a.m.; and Pentleton at 2.30 p.m.

Mr. and Mrs. Clarence Craig and family will spend the next three months in Ontario, having left here Saturday for North Gower, Carlton County, Mr. Craig's former home.

Education Department officials state that the Pentleton school grounds are the best kept in the whole of British Columbia.

Following a report from the Municipal Electrician in which it was shown that the present plant is inadequate to the load placed upon it, the Council issued instructions that no more electric light connections should be made.

Useful Christmas presents within easy reach: bedroom slippers (we will tell you their size), pocket books, gloves, mitts, suit cases, trunks, spats, basketball shoes, hockey boots, arctic socks, rubbers, sheepskin socks, buggy whips, skate straps, suitcase straps, ankle supports, infants' shoes, warm felt boots, footwear of all kinds, etc., etc.—All at Beer's Shoe Store. 21

Mrs. G. L. McWilliams was a recent visitor at the Dale home here.

Mr. E. W. Bateman arrived this morning from Vancouver on a brief visit to the Dales.

Following the reading of Constable Craig's report at a meeting of the Police Commissioners held on Tuesday the Constable was given a three months' leave of absence, and J. C. Arkell was appointed acting constable.

The recent cold weather made it necessary to suspend work for a time on the erection of the foreman's house on the Experimental Farm here. Several buildings for the Farm have been authorized and in addition to the Foreman's house which will be completed first, the foundation has been laid for a boarding house. Supt. Helmer is also to have a house built for him but next year he expects to occupy the building now being put up as a foreman's dwelling.

Corporation of Summerland NOTICE All parties running water to waste from the Domestic Water System must cease doing so at once, otherwise their service will be disconnected. By Order of the Municipal Council. F. J. NIXON, Municipal Clerk. December 19, 1919.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

After a couple of days spent at Vernon, Mr. A. N. Pope returned to his home here on Wednesday of last week.

Lieut. Tees left last week for Calgary, where he expects to spend the Christmas season with his people, and return to the Valley later on. Mr. Brinsen who recently came in from Alberta with his family to settle in our midst paid the prairie a short visit again, leaving on Thursday of last week and returning on Tuesday night.

Mr. J. W. Jones, M.L.A., of Kelowna, came down to attend the Returned Soldiers' Banquet held here last Thursday.

Mr. George Weaver of Naramata, piano tuner, spent a couple of days in town last week giving heed to the various pianos under his tuning supervision. He left for up the lake points on Friday morning.

Mrs. Bennett left Friday night for Tacoma where she will probably spend a large portion of the winter.

Mr. Wes. Waldriff went south on Friday night and after visiting in the vicinity of Dog Lake returned home on Tuesday morning. He reports lots of ice down in that part of the country.

Mr. Roscoe E. Law was a passenger south on Monday evening last to spend a short time in Penticton.

Miss Jean Kincaid of Kelowna was a visitor in town last week end.

The C.P.R. left one of its barges in town on Sunday to be loaded with the Government wharf repair material which was supplied by the Peachland Lumber and Mfg. Co. and placed on the Government wharf for shipment. Mr. Jas. Michael with a helper loaded the scow ready for taking away and will soon be starting the repair work on the wharf here.

Having recently sold their residence and fruit lot to Mr. Brinsen who just came in from Alberta, Mr. A. Town and family have moved into Mr. and Mrs. Dorland's residence for the winter.

Miss Betty and Mrs. Buchanan left on Saturday evening's boat en route for Vancouver to visit there for a time.

Mrs. Dorland and son Hugh left on Saturday last to join Mr. Dorland for the winter at Midway.

Miss F. Broscomb returned on Monday from Penticton where she has been for a short time. She will remain in Peachland.

Having sold their property in the Townsite to Mr. and Mrs. Kenneth Tallyour Messrs. Oct. and A. N. Pope left on Saturday last en route for Vancouver, where they will make their home for some time. The community will miss these gentlemen who have not only always ably filled their places as citizens but have done their bit in public service to the municipality.

A dance was given in the Orange Hall on Friday evening in honor of the returned men at which a goodly number were present and a very enjoyable evening spent.

Rev. C. D. Clark spent a couple of days of last week in Vernon attending a Forward Movement convention in connection with the Methodist Church.

#### Peachland Veterans Given Home-Coming Banquet

The banquet in honor of the returned soldiers was held on Thursday night of last week in the Orange Hall. Over 60 were in attendance, despite the terribly cold evening. The menu was well filled out with many tempting dainties and plenty to spare. Throughout the banquet hour the toast list was very ably and pleasingly handled by the various speakers interspersed with songs by Mrs. H. K. Mitchell and Mr. A. H. Cutbill, which were well received. The toast list was as follows:—The King, Chair. Empire and Imperial Forces, proposed by J. W. Jones, M.L.A. and responded to by Majors Thorn and Tallyour. The Navy, proposed by Mr. J. L. Vicary and responded to by Signaller Wm. M. Buchanan. Canada and Canadian Forces, proposed by Captain Higgins and responded to by Major Hardisty. Municipality and School Trustees, proposed by Mr. Grant Lang and responded to by Reeve R. J. Hogg. Returned Men, proposed by Mr. Thos. Powell and responded to by Mr. J. G. McDougald; Secretary of the G.W.V.A. Silent Toast to the Fallen Heroes. Ladies, proposed by Mr. W. L. Williams and responded to by Mr. M. D. Ross. As hinted above these addresses were very pleasing and interesting, and we regret the fact that space will not allow our dealing with them in detail.

The addresses were not only pleasing, but instructive from a historical point of view for the various speakers brought to mind afresh many incidents, facts and figures of importance in connection with the world war.

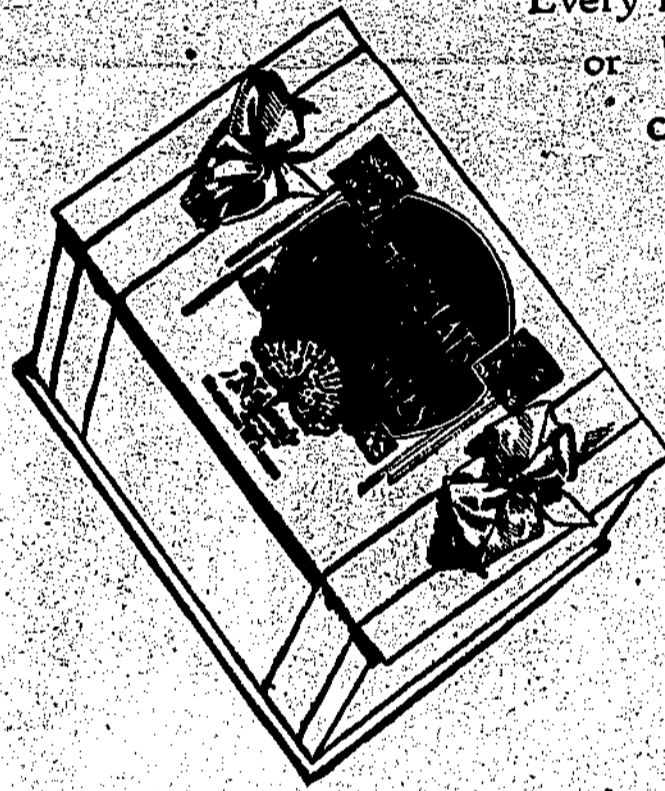

## On the Amiable Vanity of Chocolates

A GREAT deal has been written on the food value of Chocolates, or candies (as some people call them). Well, as an emergency ration, a box of Neilson's or any other good Chocolates has a sound food value.

But it is our belief that people buy Neilson's Chocolates because they are luscious to the taste and delightfully satisfy one's craving for something sweet.

Every maiden should know that when her "man" or her "boy friend" (as she may call him) comes bearing a gift of Neilson's he is bringing to her the most delicious Chocolates that money can buy.

Three tons of Coal For the Price of Two

We wish to introduce to our customers the most remarkable Coal Saver ever offered to the public, namely CALOXI. CALOXI is a Chemical compound for the treatment of coal, which when applied and used according to directions is guaranteed to make two tons of coal burn as long and give as much heat as three tons of the same coal when untreated. CALOXI is put up in One Pound Boxes, which contain sufficient to treat two tons of coal. These One Pound Boxes sell for \$1.50 each. Coal is Scarce. People must conserve. Order early and be assured of your supply.

Both Stores will be open Monday, Tuesday and Wednesday evenings

### Coldstream Estate May Be Sold To Jap. Syndicate

Vernon.—A report that the Coldstream Ranch may pass into the possession of a Japanese syndicate has aroused much indignation here. Mr. Lundy, the agent for Lord Cowdray and Mr. Buchanan, the English owners of the estate intimated in a recent interview to the Toronto Globe that such a sale might be made. He offered the ranch to the Provincial and Dominion governments for soldier settlement purposes but was not successful in disposing of it. Mr. Lundy stated to the Globe that he was now considering an offer he had received from a company of Japanese.

At a meeting of Vernon Board of Trade Friday, a committee was appointed to take up the matter with the provincial and federal authorities and to exert all possible efforts to prevent the transfer of this 13,000 acre estate to Orientals.

### Felt Doubtful Of Outcome

In a letter to The Review thanking this journal for the co-operation given in the Victory Loan Campaign, Mr. John Nelson, chairman of the Press and News Features Committee for this province, says:—I wish to express on behalf of Mr. W. J. Taylor, president of the Canadian Press Association and the provincial executive, their sincere thanks for the fine co-operation of the entire provincial press. The fact that every community in the province reached its quota and in a great number of cases not only the quota but the objective was passed, is in itself the best proof of the efficiency of the press campaign.

My own work was made very light by the wonderful co-operation of every editor in British Columbia. I cannot refrain in this letter from adding my own thanks to that of the officials already mentioned.

I was very nervous of the outcome of this loan, as I think we all were, but results have shown that we underestimated our own possibilities. We underestimated also, I think, the cumulative value of several years of intensive cultivation of the patriotic spirit of the Canadian people. To my mind this accession of remarkably successful loans is the best proof of the value of intelligent advertising, and an indication, if such were needed, of the irresistibility of an united press. It should not be without its lessons to us in the future. It was a great achievement to attain so nearly to the high water record of 1918. I hope to send you in a few days an analysis of British Columbia's part in the loan, which, unless I am mistaken, will show, after deducting special subscriptions, which you will agree with me is a very proper deduction, that British Columbia ranks second in the Dominion, coming short only of the rich province of Ontario.

I trust this will be the last such loan that will be needed in Canada, but if it should ever again become necessary to mobilize the whole country in some big undertaking, whether it be for war or peace, the fraternity established and the reserves of resources disclosed in this campaign will be of the utmost possible service.

## Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. In this they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

WM. RITCHIE.

## Sales To Orientals Strongly Condemned

That the business of the real estate agent who had sold to a Chinaman should be taken from him and like threats as well as most vigorous condemnation was heard at a meeting of the Pentiction Board of Trade last week when a resolution was presented to the effect that the Board viewed with indignation and alarm the encroachment of Chinese on the main street of that town. A recent sale of the Foley-Bennett property on the main street to Chinese was the occasion of the resolution.

Mr. E. W. Mutch condemned the deal in strong language and said that he could sell his orchard property to Orientals at a premium but to do so would be a gross injustice to his neighbors and he would deserve to be ridden out of town on a rail. Mr. A. H. Huntley also strongly condemned the sale of any property to Orientals.

Mr. L. A. Rathvon who had made the sale said that if he had not put through the deal some other agent would have sold to the Orientals.

Mr. W. E. Hasking declared Mr. Rathvon had as much right to sell land to an Oriental as had the merchants to sell their groceries.

Public sentiment will be aroused against any further land sales to Chinese.

## Bringing Manure From Calgary

Stockyard manure has been shipped here from Calgary as an experiment by Supt. Helmer of the Dominion Experimental Station. While in Calgary recently Mr. Helmer arranged to have a sample car shipped to the farm here. The minimum carload is twenty-five tons and the cost delivered is \$4.55 per ton. Seventy-five cents f.o.b. the cars at Calgary is charged and the freight charge is \$3.80 per ton. If an order of one hundred carloads was made up locally, Mr. Helmer believes that a material reduction on freight rates could be obtained, and when speaking to The Review Mr. Helmer said he would make such a proposal at the next meeting of the Farmers' Institute.

Mr. Helmer is quite satisfied with the quality of the manure supplied and he would like all interested to inspect this carload which he unloaded this week.

## C.P.R. Employment Figures

Revised figures up to October 31st, regarding C.P.R. employees who enlisted, and army men who have been given employment on their return from overseas have just been issued.

The figures revised to the end of October are as follows:

Total reported as joining	
the army	10,747
Dead	1,081
Wounded	2,025
Re-employed in the service	6,060
Other soldiers given employment	6,973
Total soldiers given employment to date	18,088

At present Pentiction's borrowing power is \$182,000. The Council are preparing to submit money by-laws to sell debentures up to a total of \$225,000 for needed improvements. The Herald wants to know what the government is going to do about it.

Although the Doukhobors in British Columbia were counted on for \$75,000 for the Victory Loan they only took up \$10,000 worth of bonds.

It is stated a big tourist hotel will be built at Coquahalla, on the K.V.R.

## BIRTHS.

At the home of Nurse Scott on Wednesday, December 10th, to Mr. and Mrs. Russell McFadden, a daughter, still-born.

## Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

" 15-20	0	.00	0.00	0.0	
" 16-28	16	.00	0.00	0.0	

## WORK PROGRESSING ON OKANAGAN LINE.

With some two thousand men at work, most of them returned soldiers, the construction of the Canadian National Railway branch into the Okanagan is being carried on with vigor. From Kamloops where the C.N.R. enters from the north the Government line trains will use C.P.R. tracks easterly for a few miles. The Okanagan branch really begins at a point just west of Ducks station on the C.P.R. It will cross through the Grand Prairie district to Armstrong and from Armstrong to Vernon will again run on C.P.R. lines. Construction is also proceeding on the Lumby branch running from Vernon out through the Coldstream Valley. Track laying on the Kamloops end of the line will commence early in the spring.

## Okanagan vs. California.

British Columbia has little to fear from competition with South California, according to a former resident of that section of the Pacific State, Mr. R. J. Laidlaw. Mr. Laidlaw, a former owner of a large fruit ranch in the south, visited the Okanagan recently and is now most enthusiastic on the subject of fruit growing in this Valley. He has sold his California ranch and bought an Okanagan orchard.

## Trout Creek United Farmers

Demonstrations in the art of killing, plucking and dressing poultry were given Thursday evening, the 11th, by Mr. George W. Johnson, before a large gathering at the regular monthly meeting of the United Farmers in the Trout Creek School House. As Mr. Johnson proceeded with the work he explained every move and turn, imparting quite a few new pointers in the art of dressing chickens. Those present, including quite a few visitors, were able to get a close up view of the work and the numerous questions put by them were clearly answered by Mr. Johnson who received a hearty vote of thanks for the interesting and efficient demonstration he had given.

## Select Candidates For Next Year's Municipal Council

Ratepayers at Meeting by Board of Trade Consider Personnel of 1920 Council

### Coun. Campbell for Reeve

Ward 2 Representative Strongly Urged to Assume the Larger Responsibility

Councillor J. R. Campbell was the choice of the citizens for Reeve at the public meeting called by the Board of Trade which was held on Saturday. Councillor Campbell's name was the only name advanced and by a unanimous resolution the meeting expressed the opinion that he was the best man for the position, and extended to him a hearty invitation to accept nomination. When asked if he would accept nomination, Councillor Campbell expressed preference of retiring from council work but if continuing on the council he would rather serve again in his present capacity. To accept the position of reeve would mean giving much more time and thought to the municipal work. The responsibility was becoming greater year after year. Mr. Campbell after thanking the meeting for the confidence thus expressed and the honor conferred promised to give the request careful consideration.

Vice-President Solly of the Board of Trade occupied the chair and expressed the hope that Councillor Campbell would accept nomination for reeve.

After the meeting was called to order Jas. Ritchie, stating that the meeting was not a representative one, suggested an adjournment. He recalled the meeting that the ratepayers at one time held in Empire Hall when 90 per cent. of the voters were present. He objected to a small meeting passing resolutions endorsing certain men.

He was informed by the chair that the ratepayers' meeting was for the definite purpose of receiving the annual reports. The idea in calling this meeting was to propose candidates for next year's council in time to give the citizens an opportunity to consider. If there were not as many present as should be he was sorry for it but thought the business of the meeting should be carried on.

From time to time others dropped in until about, perhaps, forty were present.

Reeve Simpson when called on by the chair said he realized just how Councillor Campbell felt of the work. It was because of the large demands made on his time by the duties of reeve that he had been forced to relinquish the work. Councillor Campbell had been on the board longer than any other member, he has the welfare of Summerland at heart and has done excellent work for the Municipality. Though elected for one ward he has given equal care for the municipality at large. It was the Reeve who proposed the above mentioned resolution inviting Councillor Campbell to accept nomination.

Taking the wards in the order of their numbers the chairman asked the representative of Ward One if he would again serve. Councillor White replied that while he had at times found that the work demanded much of his time he would be willing to serve another year if such was the desire of the electors of his ward. No other candidate being suggested the meeting endorsed Councillor White for re-nomination.

Mr. F. A. C. Wright was proposed for Ward Two to succeed Councillor Campbell and received the

approval of the ratepayers present. When Ward Three was called the names of R. Johnston, R. V. Agur and Councillor Dodwell were proposed. A ballot was taken resulting in 19 votes for Mr. Johnston and 6 for each of the other two. The chairman when declaring Mr. Johnston the choice of the meeting said this was no indication of the selection that might be made by the electors of Ward Three.

Councillor Kirk, when questioned, said he would like to serve another year in order to see through the present constructional program, and his candidature was endorsed by the meeting. Stating that he felt that he was voicing the feeling of the meeting the chairman expressed deep regret in the retirement of Reeve Simpson for which the latter expressed his thanks stating that he was retiring against his wishes in municipal work. If one has his heart in the work it becomes more and more interesting, unfolding a field of study and usefulness. He felt sure that if a number of the present council were returned and the others suggested went on the council to give them help the work would be carried on in a satisfactory manner.

A resolution proposed by Duncan Wood that the ward system be abolished was supported by Reeve Simpson, James Ritchie and others, and was unanimously carried and referred to the members of the present council who were in attendance.

## Schools Closed For Holidays

Large Attendance at Closing Exercises Shows Need of New School Building

The closing exercises of the Central School were held on Friday last and were most successful from every point of view.

In the morning the divisions in the larger building invited the parents to view the achievements of their pupils and some very carefully prepared programs were carried out.

Particular mention might be given to the entertainment offered by the Recelving and Primer Classes in Miss Brown's room. They were rewarded by a brief visit from Santa Claus towards the close of the program—unmistakable proof that he has survived the war.

In the afternoon the two divisions in the other building combined to present a very pleasing program, which reflects great credit on both teachers and pupils. The interest of the parents was made manifest in a very satisfactory manner by the large attendance—some 125 being present.

The necessity for more adequate accommodation was once more made apparent on this occasion. For instance, every modern school of this magnitude should undoubtedly possess an assembly hall, where the pupils could assemble on occasions of this kind. Apart from such occasions the whole school should be able to get together frequently, say once a week, for a brief social period, to which parents would be in-

## GREETINGS

The Publishers and Staff of the Review wish for its Subscribers, Advertisers and Friends a Right Merry Christmas, with the hope that the Year 1920 will be a Year of Happiness and Prosperity for One and All.

## Teachers Demand Higher Salaries

Present Schedule to Trustees Board and Teachers Discuss Question

Demands for large increases in salaries are being made by the teachers here as elsewhere throughout the Valley. The matter has been before the Summerland School Board on several occasions and at the meeting of the board last Saturday evening the subject was discussed with Mr. Denton, representing the High School teachers, and Mr. Davidson, representing the Public School teachers.

The minimum fixed by the schedule which has been presented to the Board requires a 50 per cent. increase in the salary of the principal of the High School, an increase of 33 1/2 per cent. for his first assistant and a 25 per cent. increase for the third teacher.

The minimum salary as fixed by the teachers' Valley organization demands increases for the public school teachers proportionate to those which have been fixed by the same organization for high school teachers. Under this schedule the principal of the public school would have 25 per cent. added to his salary, his assistant 33 1/2 per cent. and approximately that increase for other members of the staff. It would seem that these marked increases are to a large extent due to the fact that the Summerland teachers are receiving salaries lower than salaries paid in many other school districts.

A schedule is being worked out which will practically meet the demands of the teachers and will be approved by a resolution at a later meeting of the Board. It is the intention of the Board to put the matter before the ratepayers at a public meeting when, according to Chairman Gartrell, the people will be asked to give their approval or show their disapproval by electing or defeating the members of the Board who will be seeking re-election.

The accounts as noted below were approved for payment:

Teachers' Salaries	\$1,754.00
Conveyance	251.25
Secretary	10.00
Janitors	118.00
W. M. Wright, insurance	80.00
Dr. F. W. Andrew	31.25
Freight on coal	25.40
R. Parmley, coal	219.21
J. E. Gray, wood	15.00
J. W. S. Logie, rent	8.00
G. R. Hookham & Co.	148.55
R. H. English	16.09
Sundries	26.00
	\$2,004.15

Such gatherings would promote a more healthy school spirit, and better co-operation, and would inject an element of social life into the otherwise dull routine of school life.

## Domestic Water Is Running Low

Further Report on Storage Council Meets to Consider Accounts

The importance of conserving water is further emphasized in a report made by Foreman Tomlin to the Council on Saturday afternoon. According to this report the water in Trout Creek is very low though there is some hope of its rising, so low, in fact, that water to only three inches in depth could be run through the irrigation canal. In twenty-four hours this flow had only raised the level of the reservoir three and a half inches, and at this rate, Mr. Tomlin said, it would take sixteen days to refill the reservoir. The pipe connection between the creek and reservoir was now delivering any water. Mr. Tomlin told of the difficulty in opening the intake gate which had become frozen. As this wooden gate must be replaced soon he suggested an iron gate. With such a gate a small fire could be placed on the lower side of it and would soon free it from the grip of the ice.

In a report submitted by the Police Commission the Council was informed that the Constable's wage had been increased from \$25 to \$35 per month, this increase to date from the first of this year. It was stated that application had been made for an increase at the first of the year and the constable was then promised that whatever increase was made would date from that time.

Stating that he was organizing an orchestral society, Mr. E. Hutchinson asked for the loan of the band instruments owned by the Municipality. The Clerk was asked to prepare a list of the instruments on hand when Mr. Hutchinson would be given an answer.

The chief purpose of the meeting last Saturday was to pass the December accounts so that the books might be put in shape for the auditors. In the usual course each month's accounts are payable on the 15th of the following month. Therefore, the fact that the following accounts which were approved does not necessarily mean that checks will be issued at once:

Pay Roll	\$1,026.66
Island Supply Company	10.05
R. H. English, coal and car hire	38.91
W. J. Robinson, rent	6.00
H. Road	34.55
Dr. F. W. Andrew	13.80
Dr. Wood	4.20
W. C. Kelley	53.25
Review Publishing Company	74.00
P. S. Roe, wood, etc.	9.80
Summerland Fruit Union	16.00
Stuart Fruit Company	10.05
Chas. Schwass	10.50
Scott Darkis	31.85
Summerland Drug Company	5.70
James MacKay, hay	126.75
F. Munro, hay	146.50

(Continued on page 8.)

## Summerland Will Build New and Larger Hospital

Mass Meeting Held on Sunday Unanimously in Favor of Rebuilding Institution

### To Be Memorial Hospital

Plan to Combine Soldiers' Memorial With New Building is Endorsed

Resolved: That this meeting of the citizens of Summerland endorse the project of erecting and equipping a new hospital building on a site to be mutually agreed upon by the contributors, and that we pledge ourselves to support such a project in every way.

This resolution was proposed at a largely attended meeting of the citizens of Summerland in St. Andrew's Church on Sunday afternoon, and was carried unanimously, following several short addresses and a brief discussion. Mr. R. H. Helmer, vice president of the Hospital Society, presided.

Noting the large number present Mr. Helmer expressed every confidence that it was the intention of the people of Summerland to carry on. It was proposed to lay the whole matter of the Hospital before the people and to ask that they give it consideration and come to the annual meeting of the Hospital Society prepared to vote.

Mr. H. C. Mellor, a member of the Hospital Board, when called upon first took up the question of insurance. The contract price of the building when completed five years ago was just over \$6,000. It was isolated and was reasonably well insured by a \$4,000 policy when taken over from the contractors and at the same time the furnishings were insured for \$1,000. Since then the upper floor had been finished, and other improvements made a total cost of about \$2,000. More furniture had also been added.

## Minimum Wages in Fruit Industry

Commission Fixes Hours of Work and Lowest Wages for Girls in Packing Houses

The conference of delegates representing the employers, employees and public, which has been sitting to advise the Minimum Wage Board regarding wages in the fruit industry, has finished its labors and brought in its recommendation.

The finding of the conference calls for a minimum wage of \$14 per week for an eight hour day or a 48 hour week. The pickers will not come under this finding, as they are not included within the minimum wage act.

The conference made an important exception, however, in allowing a 90 day rush period, when longer hours may be worked, with a minimum wage of \$18 per week. Any work in excess of 60 hours per week is to be paid for at the rate of 45 cents per hour.

The rush seasons come along at different times. The 90 day period is to be observed by each establishment. The head of the firm may choose the periods when the rush programme of longer hours may be put into effect, no dates having been set by the conference. A wage for learners was also set at \$10 per week for the first month, \$11 for the second, \$12 for the third, and after that the minimum wage must be paid.

The findings of the conference will be reviewed by the minimum wage board before going into effect. It will take effect within 90 days of the time the board endorses it. It will consequently be in operation next season.

He admitted that more insurance should have been put on, but at the board meetings the members have talked for hours on ways and means to get more money with which to carry on.

The general feeling of the board was that they should immediately rebuild. They had been busy making temporary arrangements and had not yet gone into the details of a new building. Mr. Mellor then made a strong case of the need of a Hospital in Summerland, such an institution being as much an obligation on the people as are the churches and other public buildings. Quoting the words of Christ, 'Inasmuch as ye have done it not to me, ye have done it to me.'

Mr. Mellor said that our Christianity is to be measured by what we are doing for one another.

In closing he reminded his hearers that everyone who contributed \$1.00 or more during the past year is a member of the Hospital Society, and has a right to vote at the annual meeting.

While the Hospital fire was well nigh tragic it should not be considered a calamity, was the opinion expressed by Mr. Chas. Baker. This meeting was called to consider an important and intensely humane proposition. Rather than lament the misfortune we had best consider the method of restoration.

Mr. Baker advanced the idea of a memorial hospital stating that the memorializing of those whose bodies lie in Flanders' field should be a feature of the new building. Such would be a most fitting memorial. A hospital would be a logical way of perpetuating the names of our fallen heroes. He believed such a proposition would find a ready acceptance in the hearts of the people. Mr. Baker advocated organizing for the financing of the new hospital. He would carry the effort into the field of sentiment, and would enlist every organization in the churches and out. Every boy and girl who knows money is to spend should be asked to help.

He had visions of a better hospital being built, at the entrance of which would stand a stone, catching the first glimpse of sunshine and reflecting the last rays of the setting sun, and on which the names of our fallen soldiers would be perpetuated. Mr. W. C. Kelley, who was next to speak, referred to the importance of a hospital in a community life and of how it had lightened the burden of caring for the sick which the women had always borne. The hospital was a problem that affected everyone, and if we maintain the western spirit we will face this problem in a broad and statesman-like way. He believed that if we adapted ourselves to the problem that we can finance a hospital that will be worthy of the community. Mr. Kelley expressed the opinion that the new hospital should be built either at the lake front or on the Flat, and thought that a free site could be obtained at other places. He thought a hospital should be in a thickly populated section, and if built in town would have the additional protection of the water system.

During the brief discussion that (Concluded on Page 8.)

**BILLY'S HOME COMING.**

Some days ago a picture were carefully examined and prizes placed before the first and second year classes of the Summerland High School, of which the pupils were asked to make a study and on this write a story. These stories

The first prize story is published here together with the name of the author. The second prize story appears on another page.

Slowly the train rumbled into the sleepy little town of Merlin. With a laborious groan it stopped before the little red station, as if glad of a rest. In the shadowy twilight could be seen the figure of the old station agent, who, with mail bags beside him, was exchanging a few friendly words with the conductor. All the train men were joking and laughing, for it was Christmas Eve, and on that night everybody feels happy.

The only passenger to alight was a small boy about ten years old. Judging from his clothes, one would suppose that he came of a moderately well to do family. From the proprietary air with which he gazed around him, it could be taken for granted he was not a stranger to Merlin.

As the train steamed out the station agent turned around and for the first time noticed the little figure on the platform.

"Why, Billy!" he exclaimed, going over to the boy. "Welcome back to Merlin. And how did you like the boarding school?"

"Fine," said the lad, "but it's nice to get home. Is Dad here yet, Mr. Brown?"

"No, not yet," he answered, glancing down the road, "but he will be here soon. He told Mr. Jackson to tell me that your father would come for you, and that you were to stay here until he came. So you just go into the waiting room and make yourself comfortable, Billy, and your father will be here in no time."

The night was cold and Billy was glad to go into the cheery room, where the homely comfort pervading it made Billy sink with a sigh of contentment into the long bench. He stretched his feet out to the fire and viewed the familiar surroundings. The large hanging lamps threw a friendly glow over the room. The heavy time worn clock ticked merrily, seeming to say, "Merry Christmas! Merry Christmas!"

Billy's eyelids were growing heavy. How warm it was. It seemed as if the lights were going out—why! what was that? It sounded like sleigh bells. It was coming nearer. Suddenly it stopped, and hurrying feet came up the steps. Then the door opened and a familiar figure walked in. It was an old negro. He had a kind looking face, which now, however, looked rather care-worn and weary.

"Well, Marse Bill, yoah is all heah?" he said.

Billy jumped up and running towards the old darky, danced around him gleefully. "Joe, how glad I am to see you! But I thought Daddy was coming—Joe, why don't you smile? You look so—so queer."

"Shoo, Billy, don't say dat. Your father he done sent me fo' yoah." He shifted uneasily from one foot to the other and tried to smile. "Come 'long Billy," he said rather shortly.

He led the way out to the sleigh, followed by a very perplexed little boy. Billy jumped in and Joe tucked the rug around him. Then he himself mounted onto the driver's seat, gave a crack of the whip and they had started. The cutting wind and jolting of the sleigh made conversation almost impossible. And the horses were unusually frisky, so that Joe had his hands full managing them. Billy pulled the rug tightly around his ears, while a great feeling of anxiety came over him.

But it wasn't long till the horses stopped and Billy knew that he was home. Joe helped him out, and cleared his throat as if about to speak, but no words would come. Billy turned the path that led to the house. There was only a light glimmering in the kitchen, making the place look strangely desolate. He pushed open the door, coming face to face with Bridget, the maid. On seeing who it was she cried, "Billy dear, an' you've come at last." She gathered him in her arms as if to protect him from something harmful. But Billy noticed her eyes were red and swollen. He jerked away. "What's the matter?" he asked, "Where's Father? Where's Mother?" There was an unmistakable quaver in his voice, though he tried manfully to choke it down. His legs felt wobbly. Oh why didn't Bridget speak? Why did she stand there and stare at him? Then the door opened and a man entered. Could that be his father? That old, haggard looking man with the lines in his face and all the crinkles gone from under his eyes? And his back was stooped. His father was tall and straight.

"Billy, Billy," he said tenderly, putting his arms around him.

"Oh, what is wrong?" cried Billy, "Something is wrong, and nobody will tell me. Mother!" he called, running into the dining room. Here he found his little brother, Tommy, standing by the table, a look of childish misery imprinted on his face.

"Oh Billy, I'm so glad you've come," he cried, running up to his brother. "They put her in a big black box. Jim says they'll put her in a big hole in the ground like they did with Mary Harvey's mother." Tommy looked more woe begone than ever. "Tommy!" was all Billy could say. It couldn't be true! His mother wasn't dead! Then—

Someone touched his arm. "Well, Billy, you're not going to sleep here all night, are you?" a familiar voice said. Why it was his father's voice!

Everything was blurred. What was that dancing light before his eyes? It was a lantern. And there indeed was his father standing before him. Billy rubbed his eyes. Was he dreaming or awake? Yes, there could be no mistake about it. His father was really there and ready to take him home.

"Come, Billy, your mother said I was to hurry home with you." And thinking he wasn't quite awake he poked him up and carried him out to the sleigh. Then his mother wasn't dead.

Away they sped over the snow, the horses' hoofs beating time merrily. In a few minutes the sleigh came to a standstill. They were home.

How cheery it looked. Lights streamed brightly from the windows, and there was a big Christmas tree in the parlor. Billy could see it right through the window. He could hardly wait till he reached the door. He ran into the parlor, and there stood his mother. She put her arms around him. "Billy boy! Billy boy!" he heard her cheery voice saying.

And what a Christmas it was. Never was there such a Christmas. And what a turkey and plum pudding. Billy soon forgot his terrible dream in the joys of Christmas.

On Christmas night Billy with his father and mother and Tommy went to the evening service at the grey old fashioned church. As they neared the church Billy could hear the people singing: "Peace on earth, goodwill towards men." And into his heart also entered the true spirit of Christmas.

West Summerland, B.C.

ISABEL DAVIDSON,  
Second year of High School,

**The Quality of Neilson's  
is not Strained**

ONE, William Shakespeare, created a character, Portia, who said to Shylock, "The quality of mercy is not strained."

People who have read it have never forgotten it.

But few reflect that the quality of anything is not strained. If it were, then it would cease to be quality.

What, then, do we mean by adapting it to Neilson's? Just this: that from the cocoa-beans of which we make our coatings, to the fruits, nuts, creams and other confections that we use for fillings, we use only the finest materials.

This quality is also paramount in our process of manufacture, and packing, because many a box of chocolates is bought on appearance. Although the artistry of our boxes may not appeal to all, it certainly will appeal to people of refinement.

And it is these people who will most appreciate the delicacy of flavour and unstrained quality of Neilson's Chocolates.

## \$125 For Nurses

### Basketball and Dance Nets Good Sum

Two good games of basketball were played last Friday evening in Empire Hall and following the games a dance was put on. The dance was given by the Summerland Basketball team and the net proceeds of admission to games and dance were donated to the nursing staff of the Hospital, the members of which suffered heavy losses through the fire.

The girls' game between the Town and West Summerland teams was very evenly contested with the result that there was very little scoring on either side, half time score being 2-0 in favor of the Town and full time score 4-2 in the Town's favor.

In the men's game the Scouts started off with a rush and opened the scoring with a penalty and soon afterwards added 3 more field baskets before the Town boys got going. But the Town boys soon found themselves and passed their opponent's score and then for a while the Scouts were apparently flustered as the Town boys with seemingly no difficulty added basket after basket, with the result that at half time the score stood at 22-7 in favor of the Town.

The second half of the game was equally strenuous and was marked by harder checking and lower scoring than the first half, the Town boys being apparently content to keep their opponents from making any big score. This half of the game was equally fast, and both teams watched their opponents and checked hard, both playing fairly roughly. The Scouts had slightly the better of the scoring, making 10 points to the Town's 7.

Final score, 29-17 in favor of the Town.

After the games the floor was cleared and dancing commenced, music being furnished by the Manchester and Peck orchestra. Refreshments were served about midnight and dancing continued till after 2 a.m. A record crowd attended both the games and the dance, visitors coming from both Naramata and Penticton.

A very enjoyable evening's entertainment was provided and the Club has pleasure in announcing that the net proceeds will amount to just over \$125.—Contributed.

### ORGANIZING COUNTY Y.M.C.A.'s

C. D. Thornton, the territorial secretary of the Town and Country Department of the Y.M.C.A. has returned to headquarters in Vancouver after spending some time in Alberta in connection with the completion of the organization of the Rosebud County Y.M.C.A. Last July a convention at Olds decided to organize a County Association including Olds, Didsbury, Innisfail, Bowden and contiguous territory. It is the policy of the Association not to call a secretary or start oper-

ations until the budget for at least a year has been secured. Mr. Thornton reports that the money has been assured to finance the county for two years and he expects to have a secretary on the field in a few weeks. The men of the county which gets its name from the river valley in which the towns are situated, are very enthusiastic over the project which is the first to be organized in the province. There are, however, on file, requests from more than a dozen communities in Alberta and almost as many in British Columbia asking Mr. Thornton to investigate the possibility of organizing county associations in their districts.

Brazil's new president has urged on his congress the irrigation of more than 2,000,000 acres of land in the north-west of the republic, where famine has cost more than 1,000,000 lives since 1877.

## Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs. E. Aitkens left on Wednesday afternoon of last week for Vancouver to visit her parents Mr. and Mrs. Jas. Hay.

Charlie Morrison spent a couple of days visiting at home last week.

Mr. Grantham was a visitor in town last week leaving by Thursday's boat. He was accompanied by Mrs. Grantham and son Jack, who have been guests at the Edgewater Inn for some weeks.

Miss Morley, teacher of the intermediate grade in the central school, left for the Coast on Thursday of last week to spend her Christmas holidays.

Captain Higgins spent a couple of days visiting down the lake last week, going down on Thursday evening's boat and returning on Saturday morning.

Prov. Constable Rankin spent a day in town last week-end on special business.

Mr. and Mrs. Iverson's little girl returned on Friday morning last somewhat improved. She was under treatment in the Summerland Hospital until it was burned, when she was removed to Penticton for a continuance of treatment on her limb.

Mrs. J. L. Elliott entertained at lunch on Friday last her mother, Mrs. Hayward and her brother in law Mr. Bain, who motored up from Naramata on their way to Kelowna. Mrs. Elliott joined them

on their trip to Kelowna and returned with them on Saturday afternoon.

At the meeting of the Women's Institute on Friday the election of officers resulted as follows: Mrs. Wm. Dryden, re-elected president; Mrs. Murdin, vice president; Miss A. Elliott, secretary treasurer; Miss M. Smith, director. Only sufficient members were present to entitle the Institute to one director, but they expect to have more later on. The retiring officers entertained the gathering at afternoon lunch.

Mr. and Mrs. A. McKay arrived on Friday to spend Christmas and at least a portion of the winter.

Last Friday evening a very pleasant time was spent at the home of Mrs. Needham when Miss Whitman entertained the pupils of the Peachland High School. The rooms were tastefully decorated with evergreens and garlands intertwined with flags; but the Christmas tree with its load of gifts won the admiration of all present. Each guest came representing some geographical name, which produced immense fun for everyone, the prizes being awarded to Dublin and Pekin. Games and contests were the order of the evening after which dainty refreshments were served. In the absence of Santa, Miss Whitman ably filled his place in distributing the various gifts. Three cheers and a tiger given to the hostess and the singing of "For She's a Jolly Good Fellow" brought the merry evening to a close.

Alex. Beasley who has been residing with Miss M. Smith and attending the high school here this past term, left on Saturday morning last to spend his Christmas holidays at his home at Oyama. He expects to return for the next term.

After spending a few days in Penticton last week Mr. R. E. Law returned to his home here on Friday morning.

Mrs. Craig came back from the prairie on Saturday to visit her parents Mr. and Mrs. N. A. Shaw.

Roy White is visiting his mother and sisters. He has been recuperating since his operation and is nearly back to his normal health.

Mrs. Wright returned on Monday from a short trip down the lake.

Mr. Jas. Michael commenced repair work on the Government wharf here on Monday last.

Mr. Brinsen and family have moved into the home purchased from Mr. A. Town.

Mr. Burkett Robinson left last week end for Penticton, where he will probably start work on the Dominion Government pile-driver.

Rev. C. D. Clark conducted the Christmas service in the Methodist Church on Sunday evening last while the choir ably assisted with special music.

Please allow me to wish the readers of these columns a Very Merry Christmas.—Peachland Correspondent.

## Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. In this they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

For fruit pickers a climbing device has been patented, consisting of a tripod, on one leg of which is a ratchet arrangement with a seat that can be raised and lowered.

# Passing Events: Social, Personal, &c.

A carload of Yellow Newton apples was shipped last Saturday by Mr. Isaac Blair to Calgary.

Mr. J. W. Harris, principal of the public school at Coquitlam is spending the Christmas vacation with his family here.

Mrs. J. Corner leaves Wednesday morning to sail for England. She expects to spend three or four mos. at her former Yorkshire home.

A quantity of old linen and cotton is required at once for temporary hospital. Please leave your contributions with either Mrs. Solly or Mrs. R. M. Ross.

As a special Christmas feature Rex Beach's well known story "The Barrier" will be shown Christmas afternoon and evening at the Rialto. This is an eight reel performance, and with it will be shown an excellent comedy.

Mrs. E. W. Bateman of Vancouver, who has been at the home of her brother, Mr. Thos. Dale, since the death of her sister, Miss Annie Dale, is now recovering from a serious illness with which she was stricken a short time after her arrival here.

Attention is directed to an advertisement in this issue of a public dance to be held in Empire Hall on New Year's Eve, under the auspices of the Summerland Hospital Society. The New Year's Eve dance put on by the Hospital is now an established annual affair in Summerland and the dance announced for next Wednesday night promises to be the most successful event of its kind.

In our issue of December 5th we published an article respecting the growing of pears at Keremeos. The pears were being produced in large quantities per acre, and were said to be of the "Cordon" variety. We have since been informed that the name "Cordon" pertains to the method of growing the fruit or rather of pruning and training the trees, and that a number of different fruits are grown under this intensive method. The trees are heavily pruned and trained in a special manner and are kept down to a dwarf size.

Miss Annie Blair who has been teaching at Yale has returned to her home here.

Miss Hookham, sister of Mr. G. R. Hookham, arrived last Saturday night from Birmingham, England.

Rev. Mr. Stoodley and Mrs. Stoodley have gone down to the Coast to remain until after the New Year.

Miss Kate Butters of the public school staff went up the Lake Saturday morning to spend the Christmas vacation in North Okanagan.

Roy Elsey, Donald McIntyre, Howell and Allen Harris, four Summerland students at the University, are home for the Christmas holidays.

Miss Ballantyne, until recently a resident of Summerland, came down from Kelowna on Saturday to spend the holiday season with friends here. Miss Ballantyne has been teaching near Kelowna.

The burning of the Hospital with practically all its furnishings has suddenly thrown a heavy burden on the ladies of the Hospital Auxiliary. It is to this body that the Hospital Society has always looked for such necessities as bed and table linen and other clothing and linen materials necessary in hospital work.

Mrs. J. Lawler has returned from her visit to Vancouver. Mr. Lawler was advised to remain at the Coast. Feeling better for the change of environment he again overtaxed himself by visits to wholesale fruit houses, and had to be again warned by his doctors that complete rest was essential to his recovery.

"Florinda," an operetta which was staged with great success in Penticton recently is to be reproduced here in Empire Hall next Tuesday evening by fifteen Penticton girls of teen ages. The girls have had as musical director Mrs. Munshaw, and for their dance instructor, Mrs. McDonald, while Mrs. Scarff has been drilling them in the operetta. See advertisement.

Mr. C. B. McCallum, the recent purchaser of the Hotel Summerland property, is now in charge at the Hotel having taken possession last week-end. The former proprietor, Mr. H. S. Blanchard and family went down to Vancouver on Sunday morning. Mr. McCallum went out to the Coast this morning and upon his return will make arrangements for some extensive improvements to the property.

The local branch of the Okanagan Ambulance League, more familiarly termed the Red Cross, will hold its annual meeting early in January, according to the formal announcement appearing in this number. As stated in the announcement the members will be asked to decide on the proposal to continue the work in conjunction with the Ladies' Hospital Auxiliary. On the same occasion a shower for the Hospital will be held and each lady is asked to bring canned fruit and household linen both of which are urgently needed when the temporary hospital is opened.

Oroville Creamery is paying 72 cents a pound for butter fat.

## Summerland Weather Report

A Merry Christmas and a Bright & Prosperous New Year to All  
  
MRS. G. NOBLE

## OBITUARY.

### CHARLES TULLETT.

Charlie Tullett, the twelve year old son of Mr. and Mrs. W. J. Tullett, passed away on Sunday afternoon about six o'clock after an illness of but two or three days.

The funeral was held from St. Andrew's Church, the service being conducted by Rev. W. H. Bates and was very largely attended. By request the young lad's favorite hymn "Whither Pilgrim are Ye Going?" was sung, also another favorite hymn, "Rock of Ages, cleft for me." Upon the casket were a number of beautiful wreaths which were afterwards carried to the graveside by members of Charlie's Sunday School class, and there again placed upon the casket. Four of his class mates, Colin Houston, Percy Thompson, Alfred Johnston and Willie Bates were pall bearers.

The news of Charlie's death came as a shock to the community and especially to his school mates with whom he had been playing but a day or two earlier. Meningitis was the cause of his death and is believed to have developed as a result of a fall from a bicycle some time ago.

The bereaved parents have the heartfelt sympathy of a large circle of friends and acquaintances.

Penticton hopes to have a new Dominion Post Office building soon.

K.V.R. trains have so far this winter been using the Coquahalla Pass and are experiencing little difficulty in maintaining schedule time. Any delay that occurs is usually at connecting points. It is expected that the Pass will be used right through the winter and that the present daily time schedule will be maintained.

That Summerland is soon to have a modern vinegar and cider plant now seems a certainty. For some time Mr. C. A. Walter of Walter's, Ltd., has been investigating the possibilities of operating such a plant here. He is now ordering the necessary machinery and plans to return to Summerland early in the new year to supervise the erection of the plant. Our last information was to the effect that the vinegar works would be built in Peach Orchard, but whether this has been definitely decided we have no knowledge. The company is advertising in this number for call apples.

In Italy good board can be secured for \$73 per week.

## Department of Lands NOTICE

### APPLICATIONS FOR GRAZING PERMITS FOR THE SEASON OF 1920.

Applications for permits to graze live stock on the Crown range within each grazing district of the province of British Columbia must be filed with the District Foresters at Cranbrook, Fort George, Kamloops, Nelson, Prince Rupert, Vancouver and Vernon, or with the Commissioner of Grazing, Parliament Buildings, Victoria, B.C., on or before February 29th, 1920.

Blank forms upon which to submit applications may be obtained from the District Foresters at the above named places or from the Department of Lands at Victoria, B.C.

G. R. NADEN,  
Deputy Minister of Lands,

## HIS CHRISTMAS

He looked very lonely and desolate, indeed, sitting there, the sole occupant of the station. His head drooped, his whole body relaxed in sleep and his face and attitude plainly showing fatigue. Although only a young lad, for he could not have been over twelve, his face had a care-worn look. His clothes, though neat and clean, were very poor and shabby.

In his dreams as he lay there he seemed to see a gently sloping field. It was night, but by the light of the bright stars he could see a large flock of sheep, with motionless shepherds watching over them, just as the stars stood sentinel over the earth. Suddenly there shone a bright light, so bright that for a minute it dazzled the eyes of the shepherds. Then angels appeared hovering over the earth, and saying, "I bring you good tidings of great joy, for unto you is born this day in the City of David a Saviour, which is Christ the Lord. Glory to God in the highest, and on earth peace, goodwill toward men."

The scene changed. There appeared before the mind of the boy another picture; that of a clean, newly built stable. In a manger of sweet hay lay a babe, wrapped in white swaddling clothes. By his side knelt the mother, and his father stood beside her, looking down at the child.

The lad woke with a start. A kindly face was looking down at him, which he instantly recognized as that of the station master.

"Your train will be in in five minutes, Sonny."

"Thank you for waking me, sir," the boy replied, as he gathered up his bundle.

His mind was still intent on the dream from which he had just been awakened. He remembered that years ago his mother had told him that story on a Christmas Eve, and to-night was again Christmas Eve. Christmas meant little to him. For two years he had earned for himself a scanty livelihood in the town of A—. Two years before his father had died, and his mother had been unable to support both her son and herself. So she had been forced to let him go and seek work. Finding none in the small village in which he lived, he had come to the larger town.

To-day he had received a message from home saying that his mother was very sick. He was now waiting for the train which was to carry him to her, having bought a ticket from a little hoard he was saving for her. At five o'clock he had got the letter that had driven all other thoughts but that of his mother's illness from his mind. He had come to the station at nine, and, worn out, had fallen asleep on the seat. It was now nearly eleven.

The train came. The hours passed very slowly until he reached his destination. He walked rapidly to the little cottage that was his home, and arrived at his mother's bedside at about four o'clock.

She was in a heavy stupor, and the old doctor who had just come in explained that the crisis of the fever from which she was suffering would probably come soon. The boy took a chair at the side of the bed. The doctor said that if her heart did not fail at the critical moment the fever would leave her. The minutes dragged by. There was no movement of the figure on the bed. The minutes lengthened to an hour. The boy got up and walked to the window. Outside the night was dark, but the stars shone brightly, reminding him of his dream. He could almost hear the angels' voices. "Peace on earth, goodwill toward men." But it brought no comfort to his sore heart. Was his mother, his only friend on earth, to be taken from him? He went slowly back and gazed down at her earnestly. He thought she looked paler, more lifeless.

Another hour passed. Was she leaving him without even a goodbye? Another, interminable hour that seemed like a year. Again he went to the window, and this time the first pale shimmer of approaching dawn showed in the east, bringing a ray of hope to his bosom. He imagined he heard a slight movement, and returning quickly he thought her condition altered a trifle and her breathing more regular.

He wakened the doctor, who had fallen asleep in his chair. After a hasty examination he pronounced her safely past the worst, and told the boy she would soon awake from her slumber, and be able to talk to him. In a few days she would recover entirely. Then he told the boy a piece of news he had not previously mentioned, that a wealthy uncle had discovered where his mother lived, and was going to take them both to live in his big house. Of this brother of his father's the boy had never heard, for his mother had been too proud to ask him for help when her husband died, and had never suspected that he knew anything of her.

At the dawning of that Christmas Day there dawned a great peace and happiness in that boy's heart, and a great thankfulness to God.

## Lauds War Record of Canada

Speech at Peachland Banquet Toasting "Canada and Her Forces"

Below is given the address of Capt. Higgins on the occasion of his proposing a toast to "Canada and the Canadian Forces," at a banquet given by the citizens of Peachland to the returned men of that town. This was forwarded to The Review as a sample of the toasts, being selected from among the others because it appealed to our correspondent as a Canadian. Space would not permit our publishing the address in our last number.

Mr. Chairman:

Ladies and Gentlemen:

I have been asked to propose a toast which I am sure will be received with acclamation—the toast of Canada and the Canadian Forces. It will be remembered that soon after the war was declared in 1914 Canada offered her help to the Motherland because she knew that the cause which Britain had decided to fight for was a just one. She has proved herself worthy of the confidence that Britain placed in her for she provided and kept up to strength four of the best divisions that have ever taken the field, and it is admitted by all that the reputation these divisions won is second to none. No troops were better clothed, equipped, and fed than the Canadians; and mainly through the self denial of those who remained at home. Field comforts arrived over there in great quantities causing the Canadian soldier to be envied by those who were less fortunate. Canada also looked after the dependents of her soldiers whilst they were away and this was a source of great relief to the men who were sure that while they served their country their families were taken care of, and should they be called upon to make the supreme sacrifice their mothers or wives and families would not come to want. The home coming was also well arranged by Canada, for the soldier found that every possible comfort had been provided on the return voyage and on his arrival in Canada he was received with open arms by all. CANADA is the toast I have to propose, together with THE CANADIAN FORCES who do not regret having fought for her.

#### High Taxes For Penticton

Penticton tax rate for 1920 will probably be 45 mills, an advance of 10 mills on the 1919 rate, according to the Penticton Herald. The 1919 general rate of 15 mills is almost certain to go up to 20 mills. A contributing factor to this increase of 5 mills will be the raising of \$5,000 by taxes for hospital purposes. The school rate will probably be increased 5 per cent from 8 to 12 mills. Higher operating expenses and interest and sinking funds charges on a proposed new school by-law will occasion this increase. The Municipal Debenture rate for 1920 will probably remain at 12 mills. This will have to be materially increased after next year if the proposed irrigation and domestic water by-laws are carried. A health rate of one mill is also levied.

### SUMMERLAND WILL BUILD NEW AND LARGER HOSPITAL.

(Continued from Page 1.)

followed the addresses, Mr. F. A. C. Wright stated that Mr. J. W. Jones, M.L.A. had advised that a delegation be sent at once to place the local hospital situation before the Provincial Secretary, the Hon. J. D. McLean, who was quite sympathetic toward hospital work. Mr. Jones thought the Government would contribute dollar for dollar, and might even do better.

Others to speak in support of the memorial idea were Mr. J. W. Harris, Mr. G. J. C. White and Reeve Simpson. Mr. White proposed that the Municipality should take a share in financing the new building, and that the hospital should also be an expression of the generosity of the people. Reeve Simpson said that if the new building were to be a memorial hospital we should not lose sight of the fact that it must be something better than would otherwise be put up as a matter of necessity. He thoroughly endorsed the idea that the new building be a memorial hospital.

Mr. W. J. Beattie asked if those who had been left behind by our fallen soldiers would be benefitted by the memorial hospital. This question the chairman could not fully answer, but stated that as chairman of the memorial committee he proposed to call a meeting of that committee at an early date.

During the afternoon the choir of St. Andrew's Church sang an anthem beside leading the gathering in the singing of hymns. Mrs. George Ross sang an appropriate selection in her always appreciated and splendid manner.

### Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed land only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Extensively pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportional improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records, without permanent residence may be issued, provided applicant makes improvements to extent of \$800 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 30 acres, may be leased as homestead title to be obtained after fulfilling residential and improvement conditions.

For trading and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stampage.

Natural hay meadows inaccessible by existing roads may be purchased conditionally upon construction of a road to them. Rebate of one-half cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces, the time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 30, 1918. Fees are remitted for five years.

Provision for return of money accrued, due and been paid since August 4, 1914, on account of payments, fees and taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependants, acquired direct or indirect, remitted from enactment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving form, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately on whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established and stock-owners; range management Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

The Dominion Government is to put four boats on the run from Vancouver to New Zealand.

The selective draft recently taken in the United States reveals that there are in that country 19,000,000 men of military qualifications.

German propagandists of all kinds are using Mexico as a port of entry to the U.S. Bolsheviks and disciples of the Soviet government of Russia are flocking through Mexico by hundreds and the Immigration Department has increased its number of inspectors and is doing everything in its power to check the influx.
