

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 11, No. 23. Whole No. 544.

SUMMERLAND. B.C., FRIDAY, JANUARY 3, 1919.

\$2.00, payable in aurince.

### Summerland's Fruit Exports for 1918 -\$552,000 Peachland's \$130,000 Naramata's \$110,000

### Ownership of Local Roads

Tangle.

Money for School Purposes.

The issuing of an inocent looking order to the municipal constable was the occasion of a vigorous protest including a threat from a private citizen to close up one of our most used thoroughfares.

At a meeting of the Council held on December 21 Coun. John-Boards of Trade at Vernon and ston inquired if an order issued a year ago to the constable to open fences on a piece of unused roadway near the Experimental Farm had been carried out. He was informed that the constable had not opened the fence, and, with practically no discussion the order was repeated, the purpose being to assure retention of title in the municipality. When the Council met on the afternoon of December 31st, with all members present except Coun. Johnston, W. C. Kelley, J. R. Brown, and Duncan Woods entered a protest against the action of the Council in so ordering the fence remov-

would appear that the old road as once used running west from James Gartrell's home trespassed on private property and came out on to Trout Creek at the point where the bridge now gives access to the Exthat when he fenced this property the road running west was thrown into an impossible position on to the face of the cliff. The land of the Brown property, Mr Brown, at his own expense, built a road across his lot from north to south, and another, apparently on Mr Woods' land, along the south side of the Brown lot. This latter road gives approach to Mr Brown's old orchard and to the Experimental Farm as well as other properties. The road which he cut across his lot from north to south is now a link in the main thoroughfare running north and south through the Valley. A portion of the old road along the north, and all of that along the west side of his lot has been fenced in by Mr Brown, and it was these fences that were ordered opened. Mr Brown could see no purpose to be gained by this action, claiming that more valuable land was now occupied as roadways, which roadways were of much greater service to the public. He intimated if the Council maintained its right to remove the fence mentioned that he would fence the road running south from Gartrell's cor-

Acting for interested parties Mr Kelley also took part in the discussion. A copy of a registered plan which was laid on the table by the clerk showed these roads, but it was maintained that the owners had at no time surrendered title. The outcome of the discussion was an instruction to the clerk to take action necessary to obtaining title to the used roads and to surronder to Mr Brown the abandoned roads.

By-Law No. 100, a money by law asked for by the School Board to sprend the cost of the addition to the High School building over a period of five years, was advanced through the third reading, and is being published in this issue.

Thomas Figgis to use a section of tinue to use the property at the returns, together with shipments who delighted the audience with Sharp and G. Thornber for the doubt, due to Messrs Sharp and Further suggested that rent of this make this total somewhat higher.

Offered to pay \$10.00 per year ren. offered to pay \$10. tal. This section of rondway has billed in advance. been used by Mr English for sevhe had been billed for the rental. 1918 Council.

### **Presses For** Free Ferry.

Messrs F. A. C. Wright, H. A. Solly, P. G. Koop, and R. E. White Council Issues Order to Undo met with Secretary Lees of the Board of Trade on Monday, having been appointed a special committee Prepares By-Law to Raise to express the views of the Summerland Board of Trade respecting the Kelowna-Westbank ferry. The result of the meeting was the preparation of correspondence on the importance of the government maintaining this essential link in the Okanagan highway as a free ferry, to be sent to the Minister of Public Works and Mr J. W. Jones, member for South Okanagan. The Kamloops were asked to give this question their support and to bring the importance of it before their respective members.

A letter for publication in Vancouver dailies was also decided upon, Mr F. A. C. Wright being asked to attend to this. Mr Wright, who is a member of the Vancouver Automobile Club, offered to bring the situation in this Valley officially to the attention of that club. soliciting their support to Summerland's request to the government.

### The Customs **Postal Service**

Prompt Action Taken by Board of Trade.

Commissioner of Customs Orders Investigation.

The Board of Trade have promptly taken up with the authorities which delegates were present from the termination of the postal customs service here. Secretary Lees weeks ago there was published in so closely associated in their rela- cheen, Coldstream, Lumby, Oyama, on Monday wired both the Minister Okanagan Centre, and Kelowna. of Customs, Ottawa, and Hon. The expression of opinion from the Martin Burrell, Secretary of State, meeting was embodied in a resolu- and a member for this constituency tion, passed unanimously, that a in the Federal House. Replies have been received to both these messages. The Board of Trade's telegrams and the replies are given here.

> Hon. Martin Burrell, Sec. of State. Ottawa, Ont.

Citizens of Summerland protest against the termination of the postal custom service here. They refuse to tolerate such an insult to the community, and will have to travel 10 miles for the smallest customs package. They demand the immediate reestablishment of the service and urge you as their representative, to take this up with the minister at once.

C. W. LEES, Sec. of the Board of Trade.

Reply.

#### PRECEDENTS APLENTY:

THE MORE CAREFULLY the question of ferry service on this lake and the subject of ferries generally is looked into the more is the action of Summerland, Kelowna, and other Okanagan centres in demanding a free ferry service between Westbank and Kelowna justified. Several months ago this subject was touched upon in this column when it was pointed out that numerous ferries giving almost continuous service were maintained by the government as links in the highways of the lower mainland. We have since been informed that there is at least one free ferry maintained in the south-eastern portion of the - province, not as important as that in the Okanagan. Yet another instance might be offered in support of our request. Across the Skeena River at Terrace there is operated a ferry service free of charge to the public to give connection between Terrace and the bit of road which terminates in the wilderness about fourteen miles from the river. If the government operates a ferry such as this, on what grounds can it refuse to accede to the reasonable demands we put forward that the Kelowna-Westbank ferry, a vital link in the much-travelled Okanagan highway, be operated at provincial expense?

### SAVING, A NATIONAL POLICY.

THE SAVING OF MONEY, which was considered wise policy during the war, must be continued by Canadians through the period of reconstruction. As a people we must save in order to preserve. It will take some time to pay the cost of the war. Besides, that great struggle brought national burdens in the form of huge interest charges and pensions that will long remain. These can be successfully carried only as our people save

Fortunately to-day saving is made easy. The cost of the great war has demonstrated to every one the absolute necessity of it. The heavy taxes that have followed and will remain are a constant reminder that economy and saving are essential to the welfare of the nation. These influences have prepared the way for the introduction of national sav-

The Canadian War Savings Plan is so devised as to make saving easy on the part of all, no matter how small may be their earning power. The rate of interest, which is a little over 4½ per cent. compounded half-yearly is good. Four dollars invested in a War Savings Stamp during December or January will bring \$5.00 in January, 1924. There is no risk. Nothing could be safer than Canada, and Canada stands behind the War Savings Stamps.

WE HAVE UNWITTINGLY OFFENDED the civic pride of our esteemed friend, Editor Walker of Enderby. In paying his community a compliment, as we thought, by drawing something of a comparison between Enderby and Summerland with regard to public school matters, this time to the advantage of the former, we quite innocently, we can assure him, spoiled the whole thing by referring to the Northern Okanagan community as "the little town of Enderby." After quoting at length our comments on the progressiveness of Enderby's public school, our good friend says:

"The little town of Enderby!" Well, by gum! The trouble is. Editor White hasn't been out of Summerland since he attended the editorial convention in Vancouver four months ago, and at that time he got the idea bumped into him that street cars and show windows make a city. Gee! There's no accounting for some editorial nerve. And he's a very mild man, too!"

Our apologies to friend Walker and his city. Perhaps some day we shall be invited to a convention in the "City of Enderby," and then we shall know what makes a city.

"LET US VISUALISE a march of the British dead down Fifth Avenue," suggests a writer in the New York Tribune in an endeavor to make the staggering casualty lists of the war more real than mere figures can make them. "At daybreak they start, 20 abreast. Untilsundown they march . . . and the next day, and the next, and the next. For ten days the British dead pass in review. For eleven days the French dead file down the Avenue of the Allies.' For the Russians it would require the daylight of five weeks more. Two months and a half would be required for the allied dead to pass a given point. The enemy dead would require more than six weeks." For four months men actually killed in the war, passing steadily twenty abreast—the writer suggests, as a fitting punishment for the late German kaiser, that he be forced to stand at attention and review this stupendous, ghastly procession, from the first rank to the last."

DOES THE RELEASE OF millions of pounds of wool by the governments of Canada and the United States mean lower prices and the return of woollen goods to something like pre-war figures? It is not likely, but let us hope that it will result in a material come-down from prices that only the rich can pay.

THIRTY MILLION CANS, nearly one half of California's 1018 pack of canned tomatoes, have been reserved for government uses. while the entire output of solid pack tomatoes will be taken by the govornment.

RECENT STATISTICS issued by the United States show that that country has a big surplus of wheat as compared with the 1917 crop. More than twice as much wheat and greatly increased stocks of all-other cereals were in elevator warehouses and mills in December as at the same time a year ago.

A LONDON CABLE states that some choice British Columbia apples sold in the Christmas market there for \$1 each. Probably Golden Russets, says the Daily Province.

BY RECENT ACTION of the United States Government the price of wheat on this continent for the 1919 crop is almost sure to be maintained at present prices.

### Corporation of the District of Summerland.

PUBLIC NOTICE is hereby given to the Electors of the Municipality of Summerland that I require the presence of the said Electors at the Municipal Office, West Summerland, on the 18th day of January, 1919, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Reeve, Councillors, and Police Commissioners, and in the Municipal School Board as Trustees. The mode of nomination of candidates shall be as follows:--

The candidates shall be nominated in writing; the writing shall be ing Acts. subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer, at any time between the date of the notice and 2 p.m. of the day of nomination, and in the event of a poll being necessary, such poll will be opened on the 16th day of January, 1919; at W. J. Robinson's Office in Summerland, for Wards I, and IV., and at the Municipal Office, West Summerland, for Wards II. and III., of which every person is hereby required to take notice and

govern himself accordingly. The qualifications for Reeve, Councillor, and Trustee are as follow:-The qualifications for Reeve, shall be his being a male British subject, and having been for the three months next preceding the day of nomination, the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed, value on the last Municipal or Provincial Assessment Roll of Five Hundred Dollars, or more, over and above any registered judgment or charge, and Law upon which the vote of the Municipality will be taken on Saturday, being otherwise duly qualified as a voter.

The qualifications for Councillor shall be his being a male British subject, and for Trustee a British subject; and they having been for the three months next preceding the day of nomination the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial the Corporation of the District of Summerland will be taken a Assessment Roll of Two Hundred and Fifty Dollars or more, over and above-mentioned By-Law at the time and places above-mentioned. above any registered judgment or charge, or being a homesteader, lessee from the Crown, or pre-emptor, who has resided within the Municipality for the space of one year or more immediately preceding the nomination or, who being a homesteader lessee from the Crown or pre-emptor, who has resided within the Municipality for a portion of the year immediately preceding the nomination, and who during the remainder of the said year has been the owner of said land of which he formerly was a homesteader, lessee from the Crown or pre-emptor, and who is assessed for Five Hundred Dollars, or more, on the last Municipal or Provincial Assessment Roll over and above any registered judgment or charge, and being otherwise qualified as a voter.

Given under my hand at Summerland, this 80th day of December, 1918.

JOHN L. LOGIE,

Returning Officer.

### Corporation of the District of Summerland.

### BY-LAW No. 100.

A By-Law to enable the Corporation of the District of Summerland to raise by way of Loan the sum of \$1,500.00 for School Purposes.

WHEREAS it is deemed necessary and expedient to borrow the sum of \$1,500.00 for the purpose of defraying the expense of the erection of a building for Manual Training and Domestic Science.

AND WHEREAS it is necessary for said purpose to raise by way of a Loan upon the credit of the Corporation of the District of Summerland the said sum of \$1,500.00 payable

\$300.00 on the first day of February, 1920, \$300.00 on the first day of February, 1921, \$300.00 on the first day of February, 1922, \$300.00 on the first day of February, 1923, \$300.00 on the first day of February, 1924.

bearing interest in the meantime payable half yearly on the first days of February and August in each year at the rate of eight per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforesaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of

\$420.00 by rate in the year 1919, \$396.00 by rate in the year 1920, \$372.00 by rate in the year 1921. \$348.00 by rate in the year 1922. \$324.00 by rate in the year 1923.

AND WHEREAS the whole rateable property of the Corporation of the District of Summerland, according to the latest revised assessment roll is \$2,751,085.00.

AND WHEREAS the total amount of the debenture debt of the said Corporation of the District of Summerland is \$365,500.00 of which none of the principal or interest is in arrears.

NOW THEREFORE, the Reeve and Council of the Corporation of the District of Summerland, in open Council assembled, enact as

1. It shall be lawful for the Reeve of the said Coporation of the District of Summerland to raise by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$1,500.00 and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Corporation of the District of Summerland for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the Reeve to cause any number of debentures to be made, for a sum not exceeding \$300.00 each, bearing interest at the rate of eight per cent. per annum, not exceeding in the whole the sum of \$1,500.00, and all such debentures shall be sealed with the seal of the said Corporation of the District of Summerland.

3. The said Debentures shall bear date the first day of February, 1919, and shall be made payable

> \$300.00 in one year, \$300.00 in two years, \$300.00 in three years. \$300.00 in four years, \$300.00 in five years,

Trucks and Parts from the date hereinafter named for this By-Law to take effect, at the agency of the Bank of Montreal, in the said Corporation of the District of Summerland, and the amounts shall be raised and levied annually in each of the respective years by a rate on all the rateable property in the said corporation of the District of Summerland, in addition to all other rates, for the payment of the debt hereby created, when due.

4. The said debentures shall have coupons attached for the payment of interest at the rate of eight per cent. per annum on the amount of the said Debentures, and such interest shall be payable half-yearly on the first days of February and August, in each and every year, and the signatures to such coupons may be either written, stamped, printed, or lithographed.

5. A rate on the dollar shall be levied and shall be raised annually in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of

\$120.00 in the year 1919, \$96.00 in the year 1920, \$72.00 in the year 1921, \$48.00 in the year 1922, \$24.00 in the year 1923.

shall be raised and levied by a rate on all rateable property in the said Corporation of the District of Summerland, in addition to all other rates in said years, for the payment of the interest on the said Deben-

7. This By-Law shall, before the final passage thereof, receive the assent of the Electors of the Corporation of the District of Summerland, in the manner provided for by the "Municipal Act, 1914," and Amend-8. This By-Law shall come into force and take effect on the first day

of February, 1919. 9. This By-Law may be cited for all purposes as the School Loan

By-Law, 1919. Passed by the Municipal Council this 31st day of December, 1918. Received the assent of the Electors of the said Corporation of the

day of January, 1919. District of Summerland the Reconsidered and finally passed by the Municipal Council the

day of January, 1919. Reeve.

Clerk.

## Press Advertising Sold Victory Bonds

EFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month-November, 1918over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$676,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign-in advertisements. No argument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the pross of the nation. Press advertising has justified itself as the surest and speedlest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "... The press publicity campaign to raise victory Loan 1918, said, ... The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.

### Captain Robertson Before Commission

Strong Objection to Long Work-day on "Sicamous"

Capt. Geo. Robertson, of the C.P.R. steamer "Sicamous," when before the commission inquiring into the dispute between the companies and the Merchants Service Guild, an organization of masters and mates, made strong objection to the hours of service required of the crew of the "Sicamous."

"We would be fairly satisfied with the wages we are receiving now," said Capt. Robertson, "if we were given the other conditions that are provided for in the amendment in the McAdoo award, under which we are working."

Capt. Robertson claimed that they had to work at least sixteen hours a day as against the eight hour day provided in the McAdoo award. He claimed it was necessary for him to be within call during the whole time as he was responsible for the safety of the ship, and considered it necessary for him to be in charge at every landing.

F. W. Peters, General Superintendent of the C.P.R., contended that this statement was hardly correct, and that the captain could go and rest, if he desired, and would not be held responsible for anything that might occur during the time the pilot was in charge.

A commissioner pointed out that in the case of the steamer "Adelaide," where an error was made by the pilot, the captain was punished. Mr Peters replied that this was a matter of law.

Capt. Robertson, in his evidence, told of the difficulty in getting and keeping deckhands during the busy season. Starting on the morning trip at 5.30, it was frequently 12 o'clock before the round trip was completed, the men often being kept busy handling freight all of that time. The deckhands were paid \$57.50 a month, and quit work during the busy season. They were replaced by Japs, who were paid 30 cents per hour for 18 hours straight. These men did not last very long, and were replaced by a crew of carpenters from the shops, who were allowed carpenters' wages. Later on Chinese were put on at 27½ cents an hour, with an average day of 15 hours. The boats were always short-handed on account of the long hours.

Better equipment at the docks was suggested as a means of expediting the loading and unloading; and thus lessening the hours the men would have to work.

### J. H. Bowering New Postmaster.

J. H. Bowering formally took charge of the West Summerland post office on Wednesday January 1st. Mr Bowering was one of several applicants for the position which has been open for some time. He took over the rural route some weeks ago. Mr Bowering informs The Review that he has asked that the office be made an "accounting office." At present it is known officially as a non-accounting office, which means in substance that money orders and postal notes are not issued or cashed. It is expected that the full service will be giv-

# 

Is An Evidence of Community Loyalty as well as Good Business

DVERTISING will do more than build your business. A It will build your community.

It will encourage the people in your Community to buy at home more.

It will counteract the effect of outside advertising and keep so much more money in the district.

And your community, after all, is only the aggregation of yourself and the rest of us.

Advertising to-day is, therefore, the business and the patriotic duty of the business men in this community.

And the logical medium is your home paper, as it reaches every buyer in the whole district.

### Will Work For **Fraser River Route**

Kamloops.--At a meeting of the members of the Auto Association eld for the purpos ways and means of promoting the building of the British Columbia link of the Canadian Highway by the way of the Fraser River and Kamloops, it was decided to form an organization to be named the Benefit. Fraesr River Inter-provincial Highways Association.

> It is the intention of the association to place an engineer on the route from Vancouver to Kamloops, thus securing practical and reliable data as to the desirability and economy of this route in connecting up the Canadian Highway from Alberta to Vancouver. This will be done as soon as practicable. It is the opinion not only of the town and the people in the district along this proposed route that it is the best one from a scenic point of view as well as for all the year round traffic that can be secured in the province, but many others south of this route are also of the same opinion and are willing to co-operate in any action taken that will impress the fact upon the proper authorities.

The B.C. Federation of Teachers, an organization of school teachers. With respect to irrigation the recently in convention in Vancouver, decided that the government "Irrigation will be done by water be requested to introduce at the present grant has to the average salary of public school teachers.

Copy for change of contract advertising must be in the hands of the printer not later than Tuesday noon to insure publication in the next issue.

FRIDAY, JANUARY 10, 1919.

VERY PRONOUNCED INCREASES in express rates will be made by the express companies doing business in Canada if their application now before the Board of Railway Commissioners for permission to increase their rates is allowed. The express companies also propose to cancel all commodity tariffs. By such action the fruit industry of this Valley will be one of the interests most seriously affected. Here are some of the increases that shipments from here will appear under the proposed new tariff, the figures being cents per 100 pounds:

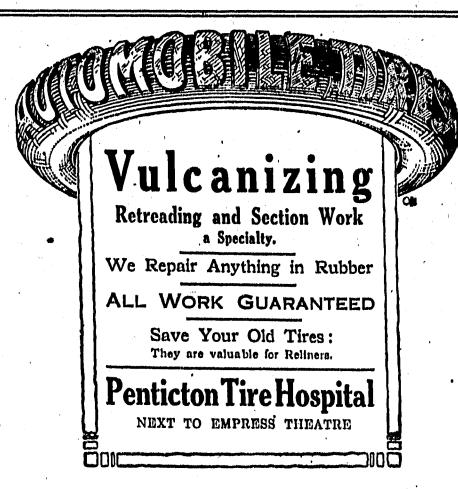

To	Present	Proposed	To Present Proposed
Calgary		270	Edmonton 210 360
Saskato		475	Regina 250 .475
Brando	n 255	555	Winnipeg 265 600

It will be noted that the increase in some instances is over 100 percent. The Board of Railway Commissioners have been advised that in all probability representatives of the fruit industry will desire to be heard when the case comes up. Many of our readers, working independently of any organization, will, no doubt, wish to express their views, in which case we would suggest that they write to Mr G. E. McIntosh, in charge of transportation, Fruit Commissioners Office, Ottawa.

It would appear to us that the onus should be altogether on the express companies to show reason why they should be exmitted to increase the rates. The opinion is almost universal that the express companies, as subsidiaries to the railway companies, return large profits to the parent companies.

THE VERY BAD CONDITION of the lakeshore road from town to the Trout Creek bridge has resulted in conside able harm to this district in the way of the very unfavorable impression it has left with everyone who has passed over it in the past several months. More direct injury has thus been done than much effort in the way of boosting can possibly counteract. A very natural conclusion that a motorist would reach while bumping and pounding over this piece of road would be that the district was in an unhealthy condition financially and deteriorating greatly. This is very regrettable, especially when we know that these impressions are entirely wrong. True, the attention has not been given the roads of the district that they should have received, and it may be equally true that it should not fall on the municipality to maintain this section of the lakeshore road. The fact remains, however, that the province has declined to do more than to maintain the northern and less used half of the Valley highway along our seven mile front, and since the government cannot be forced in this matter it remains with us to keep this road in passable condition. Probably if the actual extra deterioration of the numerous vehicles owned locally that have had to travel this road could be figured in dollars and cents it would equal the cost of the effort that would have been necessary to keep the road in reasonably passable condition. We do not profess to be experts in the matter of road maintenance, but we are convinced that occasional dragging of this piece of road when the surface was in the right condition, followed by a light sprinkling of snale or gravel to prevent the clay sticking to whoels would not any great expense and would give the public a very different road from the abominable one over which they new must travel between town and Trout Creek.

THE REVIEW GRATEFULLY animowledges the receipt from the C.P.R. of an elegant brochure entitled "Their Glory Cannot Fade." It is a war sourceir, illustrating the insignia of the Canadian army, published as a tribute to the Canadian soldiers who went overseas. A list with dates of the important battles in which Canadians fought, and other valuable information regarding the Canadian army are given on the first pages. Beautifully done in colors the most of the remaining pages are devoted to illustrating the insignia of office, special badges, and British war medals. This valuable little publication comes with the season's compliments from H. W. Brodie, general passenger agent, C. H. Bowes, assistant general passenger agent, and W. H. Deacon and F. H. Daly, travelling passenger agents, all of the Vancouver offices of the C.P.R.

WHEN ATTENDING THE POLLS on election day do not fail to cast a vote in favor of the money by-law proposed by the School Board. The necessary capital expenditure has already been made in the addition to the High School building, and a by-law is necessary to borrow money and spread the repayment over five years, instead of collecting the whole sum in one year's taxes.

BEARING BEST CHRISTMAS WISHES from the author the editor of The Review has recieved a beautiful booklet of new poems by our erstwhile citizen, Mr D. E. Hatt, M.A. This edition of recent poems by Mr Hatt is dedicated "to the aeroplane spruce loggers of Queen Charlotte Islands, with some of whom it was the writer's privilege to live and labor as "Y" man during the summer and autumn of 1918, and for whom they were originally written," and we anticipate much pleasure in learning something of the norhern coast country and its people by the reading of the cleverly versed glimpses contained in the numerous pages of Mr Hatt's latest efforts in the way of poetry.

THAT IT IS VERY DESIRABLE that more attention and supervision be given officially to the health and general well-being of school pupils will be generally adimtted, and the possibility of introducing something more than the somewhat cursory inspection at long intervals that our present method permits may not be quite so much without the pale of possibilities as may be generally believed.

In a Vancouver Island school district where it is intended to introduce thorough supervision of this nature a start has been made by an arrangement with the local hospital whereby such inspection will be given by a qualified nurse. In this instance the board were able to start this important work without incurring any liability.

The above facts are given merely as suggestions with the hope that our citizens would give this matter some thought. We must either keep abreast of the times or suffer directly by lagging behind.

WHILE ON THE SUBJECT OF SCHOOLS. Some little effort has been made here to interest our young people in garden and horticultural work and the establishing of a school garden has been talked of for some time. Should we not go a little farther and have regular instruction in one or more branches of farm work, starting first with horticulture and gardening? In this work we believe much assistance will be given by the province. Some such co-operation as is now practiced in other places might be introduced here.

In a Vancouver Island district instruction is being carried on by a representative of the Department, half days being given to different schools. We believe the only expense to which the School Board of the district is put is the travelling expenses of the instructor. The same man is also district representative of the Department of Agriculture, and is at the call of the farmers of the district, ready to give his services and advice.

### Corporation of the District of Summerland.

### AUDITORS' REPORT.

Summerland, B.C., 31st December, 1918.

To the Reeve and Councillors of the

Corporation of the District of Summerland.

We have audited the books and examined the records of the District of Summerland for the year ending 31st December, 1918, and prepared therefrom the following statements which form part of this report:

(A) Statement of Receipts and Disbursements,

(B) Statement of Assets and Liabilities,

(C) Statement of Public Utilities, (D) Statement of Municipal School Board,

All receipts have been duly accounted for, and payments authorized by the proper officials.

Depreciation has been written off the fixed assets at the rate fixed by the Municipal Council, and as there was no depreciation written off the schools previously, we have written off 10 per cent. this year to take care of 1917 and 1918, and would suggest that in future at least 5 per cent. per annum be written off the schools.

For the year 1918, the total available resources or revenue of your Municipality amounted to \$119,485.81, out of which revenue provision had to be made for \$97,998.39 (which figure included sinking funds to date), leaving a surplus of \$21,487.42, of which sum \$16,930.96 is in liquid assets in excess of current liabilities, and the balance has been put into capital expenditure, so that if, as we have recently pointed out in other Municipalities, some means could be adopted whereby all taxpayers would have to pay their taxes promptly, the levy in 1919 could be largely reduced. We are only pointing this out to show that for the present at least, the people who are paying their taxes promptly are paying dearly to carry the tax payers who do not pay at the proper time. In the course of time this will right itself, but in the meantime a hardship is worked on the present paying taxpayer, and this in all probability would not occur were it not for the abnormal times through which we are passing.

We strongly commend your Treasurer and Council for making a saving to the Municipality of \$2,623.40 on redemption of bonds, and in this way helping out the sinking fund very materially, and relieving the taxpayers of quite an item in this regard. We also commend the Council and officials on their adoption of the serial bond as this also is a great saving in the payment of interest.

As shown on the face of the Balance Sheet, the Sinking Fund investments at December 31, 1918, are \$12,892.83 less than the requirements at that date for the retirement of the various debentures, at maturity. This is an improvement over the showing at December 31, 1917, the whole of the 1918 Sinking Funds having been invested and \$9,404.92 in addition.

In our opinion the statements herewith submitted are true and correct statements as disclosed by the books and records of the District, and the Balance Sheet presents the true financial position of the District as disclosed by the said books and records as at 31st December, 1918. Respectfully submitted.

CREHAN, MOUAT & CO., Chartered Accountants, Municipal Auditors.

### Advice On Plant Diseases

(Experimental Farms Note.)

In view of the present vital need for increased production the Central Experimental Farm urges every in a comic vein, unconsciously or farmer to look well into the question of crop diseases, for the losses in orchard, field, and garden are, found in the correspondence. Here Germany. When he was drafted he Long die Germany. in the aggregate, simply appalling.

The United States Department of Agriculture estimates that the smutted wheat grown in that country in 1917 would fill a line of house. freight cars reaching from New York to Cleveland (600 miles). In is in front. 1916 in Canada the loss from rust on grain amounted to \$50,000,000, while the Canadian potato crop in another. 1915 was almost cut in two by the ravages of blight and rot. Each year about one quarter of the Ontario apple crop is lost from apple and he is my sole support.

These are only a few common I don't think it was "none." examples of the numerous diseases which yearly take heavy toll of our crops everywhere. Indeed it has been said that the dollars annually lost from crop diseases on the average farm would pay the hired man's

A great number of these diseases can be prevented by well tried and simple remedies, and since we are now in the midst of the greatest food crisis the world has ever seen. every bit of food saved from the and poor. wastage of disease becomes not only profit for the grower but an asset to our country, and a boon to starving humanity.

In order to make it easy for everyone to get in touch with all the available help on plant diseases the following sources of information are given:-

IDENTIFICATION OF DISEASES AND ADVICE REGARDING TREATMENT.

1 The Agricultural Representative in your county, if there is one: 'phone or write him, or get have never received my elopment him to call.

your province. Each college makes a girl. it a part of its policy to answer ence? all such inquiries.

### Corporation of the District of Summerland.

\ PUBLIC NOTICE is hereby given to the Electors of the Munici-1919, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Reeve, Councillors, and Police Commissioners, and in the Municipal School Board as Trustees.

The mode of nomination of candidates shall be as follows:-

The candidates shall be nominated in writing; the writing shall be ing Acts. subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and 2 p.m. of the day of nomination, and in the event of a poll being necessary, such poll will be opened on the 16th day of January, 1919, at W. J. Robinson's Office in Summerland; for Wards

Land IV., and at the Municipal Office, West Summerland, for Wards II.

and III., of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for Reeve, Councillor, and Trustee are as follow:-The qualifications for Reeve, shall be his being a male British sub. day of January, 1919. ject, and having been for the three months next preceding the day of nomination, the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll of Five Hundred Dollars, or more, over and above any registered judgment or charge, and being otherwise duly qualified as a voter.

The qualifications for Councillor shall be his being a male. British subject, and for Trustee a British subject, and they having been for the three months next preceding the day of nomination the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll of Two Hundred and Fifty Dollars or more, over and above-mentioned By-Law at the time and places above-mentioned. above any registered judgment or charge, or being a homesteader, lessee from the Crown, or pre-emptor, who has resided within the Municipality for the space of one year or more immediately preceding the nomination or, who being a homestoader lessee from the Crown or pre-emptor, who has resided within the Municipality for a portion of the year immediately preceding the nomination, and who during the remainder of the said year has been the owner of said land of which he formerly was a homestender, lessee from the Crown or pre-emptor, and who is assessed for Five Hundred Dollars, or more, on the last Municipal or Provincial Assessment Roll over and above any registered judgment or charge, and being otherwise qualified as a voter.

Given under my hand at Summerland, this 80th day of December,

JOHN L. LOGIE, Returning Officer.

### Corporation of the District of Summerland.

### BY-LAW No. 100.

A By-Law to enable the Corporation of the District of Summerland to raise by way of Loan the sum of \$1,500.00 for School Purposes.

WHEREAS it is deemed necessary and expedient to borrow the sum of \$1,500.00 for the purpose of defraying the expense of the erection of a building for Manual Training and Domestic Science.

AND WHEREAS it is necessary for said purpose to raise by way of a Loan upon the credit of the Corporation of the District of Summerland the said sum of \$1,500.00 payable.

\$300.00 on the first day of February, 1920. \$300.00 on the first day of February, 1921, \$300.00 on the first day of February, 1922, \$300.00 on the first day of February, 1923, \$300.00 on the first day of February, 1924.

bearing interest in the meantime payable half yearly on the first days of February and August in each year at the rate of eight per cent. per annum, the principal of such sum, when raised, to be applied for the purposes aforésaid.

AND WHEREAS for the payment of the said principal and interest, it is necessary to raise the sum of

> \$420.00 by rate in the year 1919, \$396.00 by rate in the year 1920. \$372.00 by rate in the year 1921, \$348.00 by rate in the year 1922, \$324.00 by rate in the year 1923.

AND WHEREAS the whole rateable property of the Corporation of the District of Summerland, according to the latest revised assessment röll is \$2,751,085.00.

AND WHEREAS the total amount of the debenture debt of the said Corporation of the District of Summerland is \$365,500.00 of which none of the principal or interest is in arrears.

NOW THEREFORE, the Reeve and Council of the Corporation of the District of Summerland, in open Council assembled, enact as

1. It shall be lawful for the Reeve of the said Coporation of the District of Summerland to raise by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said Municipality, by way of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$1,500.00 and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said Corporation of the District of Summerland for the purposes and with the objects herein-

2. It shall be lawful for the Reeve to cause any number of debentures to be made, for a sum not exceeding \$300.00 each, bearing interest at the rate of eight per cent. per annum, not exceeding in the whole the sum of \$1,500.00, and all such debentures shall be sealed with the seal of the said Corporation of the District of Summerland.

3. The said Debentures shall bear date the first day of February, 1919, and shall be made payable

\$300.00 in one year, \$300.00 in two years, \$300.00 in three years. \$300.00 in four years. \$300.00 in five years,

from the date hereinafter named for this By-Law to take effect, at the agency of the Bank of Montreal, in the said Corporation of the District of Summerland, and the amounts shall be raised and levied annually in each of the respective years by a rate on all the rateable property in the said corporation of the District of Summerland, in addition to all other rates. for the payment of the debt hereby created, when due. 4. The said debentures shall have coupons attached for the payment

of interest at the rate of eight per cent. per annum on the amount of the said Debentures, and such interest shall be payable half-yearly on the first days of February and August, in each and every year, and the signatures to such coupons may be either written, stamped, printed, or 5. A rate on the dollar shall be levied and shall be raised annually

in addition to all other rates on all the rateable property of the said Municipality, sufficient to pay interest on the debt hereby created, during the currency of the said Debentures and to provide for the payment of the said debt when due.

6. The sum of

\$120.00 in the year 1919 \$96.00 in the year 1920, \$72.00 in the year 1921, \$48.00 in the year 1922,

\$24.00 in the year 1923. shall be raised and levied by a rate on all rateable property in the said pality of Summerland that I require the presence of the said Electors at Corporation of the District of Summerland, in addition to all other the Municipal Office, West Summerland, on the 18th day of January, rates in said years, for the payment of the interest on the said Deben-

> 7. This By-Law shall, before the final passage thereof, receive the assent of the Electors of the Corporation of the District of Summerland, in the manner provided for by the "Municipal Act, 1914," and Amend-

> 8. This By-Law shall come into force and take effect on the first day of February, 1919.

> 9. This By-Law may be cited for all purposes as the School Loan By-Law, 1919. Passed by the Municipal Council this 31st day of December, 1918.

> Received the assent of the Electors of the said Corporation of the District of Summerland the day of January, 1919.

## Passing Events: Social, Personal, &c.

Summerland's contribution to the Canadian Patriotic Fund for the month of December was \$186.50.

J. W. S. Logie is enjoying a well earned rest at Olalla. During his absence Mr I. P. Barnes is in charge of the upper drug store.

T. I. Williams of Naramata attended the annual meeting of the B.C. Fruit Growers' Association held here on Wednesday.

Rev. A. Henderson and his daughter, Miss Cathleen, are now at Corning, California, both having sufficiently recovered from influenza to continue their journey from Victoria.

The "Poultrymen's Union of B.C." has recently been granted a former resident of Trout Creek, a certificate under the Agricultural Act. The head office of the association is in Vancouver. The capital is \$100,000, with shares of par vale of \$1.00 each.

Attention is drawn to an advertisement in this issue of a ratepayers' meeting on nomination day. On that occasion candidates for election will be given an opportunity to address the ratepayers and no doubt a number of citizens will wish to be heard.

The Hedley Gold Mining Company has declared a dividend of \$6,000, being at the rate of fifteen cents a share under the new capitalization, which is double that of the former. This makes a total of \$126,000 to be distributed in 1918, and a grand total of \$2,430,000.

Confirmation is had this week of near the Dale property and the ad-Jack Imayoshi. Each lot contains Hotel. five acres, and on each is a small cottage, that on the Steven lot bemell. The purchaser, a native of district for a number of years.

### Summerland Very Fortunate.

Influenza continues very prevalent throughout the province as well as other parts of the continent. In many places the ban is still on. Fortunately Summerland has been free of the disease for some time. A few days ago, however, it is reported that some workmen came to Mineola bringing the disease. T. J. Jackson and his son, Earl, who had been working at Mineola, have since come home with the malady. These two are the only known cases in this vicinity.

A Summerland man, now in Vancouver, writes that the influenza is very bad in that city, and states THURSDAY 9, FRIDAY 10, that the papers must find it hard to say as little as they do about it. Summerland people are wise not to visit that city, he says, unless they know how to nurse or have had the

### First to the Rhine.

## For Pneumonia

A remedy for pneumonia has been sent out from the office of the Surgeon-General of the United States at Washington, which is said generally by the government to be an absolute cure. The formula has been sent to all hospitals, military camps and to all government offices. Here is what the government advised:

Saturate a ball of cotton as large as a one-inch marble with spirits of alcohol, three drops of chloroform to each ball of cotton. Place it between the patient's teeth. Let minutes and then rest for 15 minutes, longer if needed. Then inhale again 15 minutes and repeat operaresult will be that the lungs will expand to their normal condition. 15 minutes.

The value of a good local newspaper is much more than many people seem to think. And the way to make it good is to patronize it, pay for it, and furnish it with ads, news, and items, such as the public want to know. Bring them in, and "faith we'll print 'em." The press is a mighty power in helping to carry on the business and progress of our country.

### **Peachland Doings**

A Weekly Chronicle Furnished By Our Local Representative.

Wednesday of last week, being New Year's Day, saw more of the customary festivities in the homes here, as many of the homes in which there had been sickness at Christmas time were well on to recovery by the New Year.

We are pleased to be able to report little or no new developments of the influenza during the week, and all who have been affected are get clear on all points of interest doing nicely now. We understand our neighboring town of Glen Rosa has a few cases, some of which are at their height just now, although none are reported at all serious.

On Thursday of last week Mr E. Fulton was a passenger north for

After having spent her Christmas and New Year vacation on her fruit lot here and visiting relatives, Miss M. Smith left on Friday morning to return to take up her duties for chers engaged for the coming term the balance of the term in the are as follows:- Miss Young of Oyama School. She left earlier Edmonds, B.C., the primary room, mands, to be able to spend a day in Hand of Vancouver to succeed Miss Kelowna.

come home on Friday night of last School, but owing to sickness in week was Mr Thomas Coldham. It her family she had to advise the was somewhat of a surprise to his board that she could not come. At brother, Mr W. Coldham, as well as the rest of his friends, as no home-coming. Tom is both looking ier Schools, and the transportation and feeling fine.

Passengers to Kelowna on Saturday last were Mr A. Town, Mr and Trepanier School was let to Mr Mrs John Wright, Mrs J. L. and William Buchanan at \$4.00 per Miss Willa Elliott. Mr Town re- cord, and the Central School to Mr turned in the evening boat.

rived on Saturday morning last to per day. take care of Mr J. Wright's house and stock during his short absence.

After spending a very pleasant holiday for the New Year festivities with their brother, Mr Everett Law, in Penticton, Mrs L. Vivian and Miss R Law, with their mother, returned on Saturday

Mr Thomas Bell returned home on Saturday evening of last week after a short vacation north.

After a few days spent at up the lake points Will Aitkens returned home on Saturday last.

Mrs D. Kirkby and Miss Annie Margaret returned to their home in Penticton on Saturday night of last week, after spending New Year's vacation with Mrs Kirkby's parents and family here.

We are pleased to note that after being confined to the house for some time now Mr J. Hyde has recovered sufficiently to be around again, and was a passenger north on Monday of this week, returning in the evening.

On Monday morning last Messrs Will Aitkens and Tom McLaughlan left for New Westminster to report to Military authorities there. They expect to receive their final dis-charge, but of course did not know how soon they would receive it.

Miss Leone Morrison left on Monday morning to return to Rutland to resume her duties in the school there for the balance of the term.

After spending a pleasant week-end visit in Kelowna Mr and Mrs John Wright and Mrs J. L. and Miss Willa Elliott returned on Monday evening last.

Mr E. Fulton was a visitor to Kelowna on Monday returning the

Mr Manning, formerly connected with the Peachland Lumber Company's mill here, was a visitor spending a few days in town this

Mr J. G. Robison returned on Monday night after spending a short vacation at Vernon.

Mr J. Wright was a passenger to Kelowna on Tuesday of this week, returning in the evening.

Mr W. J. Robinson and family of Summerland were visitors to town on Tuesday. They motored up for the day, and were the guests at the home of Mr and Mrs A.

Those public-spirited minds in the community are busy this week thinking and planning the stand they are going to take in connection with the public matters soon to be decided. Nominations are being received until Monday next for Reeve, Councillors, School Trustees, and Police Commissioners for 1919. If you are satisfied that

those at present holding office are as capable as we can get to handle the public affairs put them back in the harness and show your appreciation in some way for the services rendered throughout the year just past. If, on the other hand, you know of someone who could better serve the interests of the community in any of the capacities you will need to look sharp and nominate your man on or before Monday. If you are in doubt on any of these matters be sure and attend the public ratepayers meeting to be held on

Saturday afternoon the 11th, and

The local pound has not been very busy of late until one day recently there was a bunch containing twenty head put in all at once. The majority of them were owned locally, and of course were taken care of at once, but there is some little excitement being shown in the interest taken on the two horses not yet claimed and to be sold on Monday next.

School Board business: the teathan was necessary for school de- to succeed Miss Newby, and Miss Ireland as Principal, both in the Central School. ## There's the 'Phone!"

Promptness in answering the telephone is a mark of courtesy shown the caller. It is also a help to the operator, for it enables her to complete the call and to give her attention to others.

Telephone calls should be answered promptly, for sometimes the calling person does not wait, and "hangs up." If this happens the subscriber who has been called should not blame the operator.

Your co-operation is required for efficient service.

Mr Higgin de- tional three feet will give more nied the right of the council to water than a new dam of fourgive former owners of properties, teen feet near the old Dunsdon bought at tax sale by the munici- dam. Another thousand dollars pality, the opportunity to buy it spent on the present dam will back at the prices represented by the accumulated taxes and charges.

The council should make as much as gineer says the existing dam can possible from these lands, and to be raised ten feet higher allow them to go back to the former owners was to encourage non-payment of taxes.

by W. C. Kelley, who said the Creek Point, there was a long discusaction of the council was legal, and sion on the purchase of the engine, that former owners were morally entitled to a chance. He had no objection to the council giving these people an opportunity to get Women's Institute back their properties.

Noting that there was no item in the statement showing court fines, Mr Higgin asked the collector if he had not received any, to which further questions Coun. Simpson of the Summerland and West Sumthe reply was that he had not. To come to the municipality. None had been received, and he did not then know what machinery was necessary to force it.

Mr Higgin criticized the plan adopted by the auditors in the distribution of expenses, claiming that overhead charges should be itemized. He also pointed out the large lands concerned and the cost of operating Trout Creek pump.

The collector informed Mr Higgin it had been the practice in past years to add each year's taxes and rates to the value of tax sale property held by the council. The auditors had now ruled that these properties must not be thus appreciated after two years.

Chairman Johnston of the Public Works Committee, after remarking that both municipality and ratepayers had had a fairly good year, gave in detail a report of the length and size of flumes and ditches constructed during the season. It had been estimated that low: 17,000 feet of flumes would have to be rebuilt. As a matter of fact, 21,000 feet had been replaced by dent; Mrs W. C. W. Foshery, sec- Johnston. new. 4,468 feet of new flume had ond vice-preisdent; Mrs E. B May, been put in the north main, 12,882 secretary-treasurer; Mrs K. Bent- Bentley, Annie Dale, J. H. > Mr Simpson was asked to explain Here Next Week his attitude towards taxation of improvements. He still maintained the view expressed a year earlier that some method of taxation on impovements was desirable. That was only a personal view. He had no idea of attempting to force that view on the public nor could he bring it about unless favored by the majority. Again, it would be impossible to do anything towards taxing improvements under the present method of assessment. The assessment for the coming year had been made, and on improvements it is not accurate enough for a basis of

> > Having been re-elected by acclamation, the councillor for Ward I., not being in the field as a candidate, did not expect to be called upon. The chairman suggested that as Coun. White had been Chairman of the Electric Light Committee he might say something as to the deficit that utility had shown. Very briefly Coun. White mentioned that for his own satisfaction he had seggregated the asset of \$23,000 in the electric light system into several items such as generator, building, pipe line, poles, wires, transformers, etc. By calculating depreciation on these, which ran from praccent. on main belt in power house, item "Sinking Fund," it would then be seen that the loss was greater than shown in the profit and loss statement. More than the usual number of poles had been replaced, which had made the maintenance heavier than usual. There had been a loss in revenue through

(Continued on Page 8.)

### R. J. Hogg was Elected Reeve.

Peachland's 1919 Council.

Monday being nomination day there was the usual excitement round the council chambers on that occasion. The main excitement, however, seemed to be to get men to fill the vacancies. There were three vacancies to fill on the school board as well as the reeve and councillors, and one police commissioner. Within five minutes of the time for nominations to close there was still a vacancy on both the council and the school board, but before the time was called they were filled, and to the satisfaction of the ratepayers there was no election necessary. For a while there were two nominations in for Ward III., but with the consent of the nominee, Mr A. J. Mac Kenzie and those who nominated him, he was put on for Ward II., which filled the council and saved an election. The result of the nominations are as follows: Reeve-R. J. Hogg; Councillors-Ward I., Cross Drive is on. The windows of Oct. Pope; Ward II., A. J. Mac the homes as well as various con-Kenzie; Ward III, R. E. Year. The public ratepayers' meeting tried by letters to get him to meet called for last Saturday afternoon the board on any ground chosen by at two o'clock was held in the Council Chambers, but we very much re-This was not done, and the board gret a rather poor attendance for a meeting of this nature. However, while there was a lack of attendance there was no lack of interest shown district this past week looking after into the matter. The various by those who did turn out. Owing points were discussed at this time, to illness two members of the counand as the grieved member was not cil, Messrs T. Powell and R. E. present to substantiate his charges Taylor, were not able to attend. the meeting passed a resolution to The retiring reeve, Mr W. Dougthe following effect, a copy of las, took the chair, and, after a which was to be sent to the absent few opening remarks, called on gentleman: "Resolved that in the clerk W. Dryden, to read the audiabsence of proof this meeting of itor's report and the 1918 financial ratepayers hold the school board not statement. The meeting was then guilty of the charges made against thrown open for discussion and suggestions from the ratepayers. Judging from the very little fault-finding on the part of the ratepayers people had not heard that there was the 1918 council had succeeded in to be a service. Next Sunday we carrying on the work of the year in a way which satisfied the majority of the electors. We might say that the school board could be classed with the council in this respect. There were, however, a couple of against the school board in connection with the transporting of the children. It seems that some of the parents are not satisfied with general merchants, spent Tuesday the present arrangement whereby of this week a visitor to Kelowna. there are only sixteen of the children allowed on the rig, whereas if the number was placed at twenty it would practically cover the present requirements. The board explained that under present conditions it could not be arranged. The other point was against the council for not doing a certain piece of road work which was to have been attended to some time ago. There were difficulties in the way, however, which were explained by the reeve and a discussion followed in which a decision was arrived at whereby the ratepayers and council are to work together to try and remove the difficulties and arrange for the improvement. The

road in question is the proposed road through the property bought by Mr O. Keating (namely the old Robertson five acres) to be put in such a way as to avoid the extreme ly steep grade which the present roadway enforces. When this is done it will enable the growers in that district to make a decidedly shorter trip to town than they now have, as the present grade is practically out of the question for or dinary use, much less hauling loads over. It had been thought advisable to discuss, in connection with this meeting, plans for some sort of memorial for our fallen heroes and, as well, something in the nature of a public reception of some kind for the returned lads. It was suggested by Dr Buchanan that owing to present conditions it would be hard to get a well attended meeting, which in this case is essential, and as well, the fact that it may be some time yet before the boys will be all home. He thought in view of these facts that it might be better to wait till the epidemic scare was cleared away and better weather on hand so we could have a fully representative meeting of the community. This seemed to meet the approval of those present, and on motion of Dr Buchanan, second. ed by Mr A. Town, a resolution was passed recommending the council for 1919 to keep this matter in mind and bring it before the people at a later date. The meeting then.

### A Broncho Buster.

adjourned.

Following the meeting in the council chamber on Monday after. noon there was marked excitement at the auction sale at the pound. Mr H, Williams, pound keeper, acted as auctioneer. There was one horse sold, but as much fun as if it had been a dozen. Did you ever hear such exciting bidding on a horse as five cents? Well, we saw it here on Monday. The successful bidder was R. H. Huston, and the hammer came down at \$12.55. This did not end the fun, for it was an unbroken colt, and one of the boys volunteered to ride the critter. He was roped and saddled, and in due course of time was mounted. The rider was heard to say afterward that he did not like to come down to the ground all at one move so he came down in steps. The horses rump was a little nearer the ground than the saddle, so he climbed down that far the first move he made, and after a few more vicious jumps and squeals from the colt the rider made the next sten down. He was a game

buster, however, and got on again, that time to ride the beast straight up, and when he got off that time it was in the customary manner. Cecil Brown was the successful rider, and after him Arnold Ferguson had a ride. 😥

### **Peachland Doings**

A Weekly Chronicle Furnished By Our Local Representative.

Mrs McCracken, formerly of Glen Rosa, spent a few days in town and her property in Glen Rosa, and while here seeing about the erection of a tombstone at the grave of her late husband, who died while they lived at Glen Rosa. She left on Monday morning for Alberta.

The first church service since the ban was put on this last time, was held in the Methodist Church on Sunday last. There was not a very good attendance, partly due to the fact that quite a number of the expect will see the usual services in the other churches as well.

After spending several weeks at the home of Mr George McClure across the lake, Mr George Chamberlain and his wife and little girl complaints registered, one being left on Wednesday night of last week going south.

Mr H. H Thompson, one of our

Mr J. E. Kerr, who has been in Penticton for the past few weeks with his mother, passed through on the "Sicamous" on Monday morning last to spend the day at Kelowna. He returned to Penticton on the evening boat. We learn with regret that he reports his mother as little or no better. He said they expected to take her out to Vancouver the next morning for further treatment.

After spending a week or so visiting at Vernon, Mrs J. G. Robison returned to her home here on Tuesday night.

## "There's the 'Phone!"

Promptness in answering the telephone is a mark of courtesy shown the caller. It is also a help to the operator, .for it enables her to complete the call and to give her attention to others.

Telephone calls should be answered promptly, for sometimes the calling person does not wait, and "hangs up." If this happens the subscriber who has been called should not blame the operator.

Your co-operation is required for efficient service.

#### SHOULD BE AN OUTPORT.

A PROTEST WAS MADE in these columns a short time ago against the discontinuance of the customs postal service here, and a demand that it should be reinstated. The matter was taken up by the Board of Trade, and that body has been pressing for the re-establishment idea is not a new one. Close co-operation between the educational auof the former service. A more careful consideration of the situation has convinced us that we do not want this service. Summerland is of sufficient importance, and the business warrants the establishing here of a regular customs office. With such an office it would not be necessary for freight, express matter, and postal packages, subject to customs duty, to be diverted or held at other places awaiting clearance.

In our former article we stated that we might reasonably hope to have Summerland made an outport, just at the time when we were deprived of what little service in that line we had at the post office. The customs postal service is only a make-shift at the best, and takes care of only a small part of our import business.

To ask that Summerland be made a customs outport is to demand nothing more than is our due. At present there is frequent annoyance and sometimes serious inconvenience suffered through the holding up of express parcels at Kelowna, the outport through which practically all our goods have been received. The delay is, at least, two days, and, we believe, occasionally runs to a week or more. With a customs officer here all freight, express, and mail matter would be delivered directly to Summerland and could be obtained by the owners without this delay.

Some may ask, what is an outport? From the point of view of service there is no difference between a port and an outport. In a given district there will be several points where custom service is maintained. One of these will be a port, the others outports. The outports make their returns to the larger one of the group, and that in turn reports for the group to the Department of Customs. The advantages of being an outport as compared with the service we have had is so apparent that it need not be emphasized. There will be no additional cost to the Department, and no reasonable objections could possibly be offered against making Summerland an outport.

For many years Penticton has had such a service, as has Princeton, Kelowna, and other towns in the southern Interior. Many places of less importance than Summerland now have a customs officer.

We would strongly urge that our Board of Trade make no further program has been arranged for 1919 effort to obtain the postal service, but instead it should go vigorously and every indication is that the after the establishment of a customs office here. If the former service Naramata Farmers' Institute will is reinstated we will not have the same reason for insisting on being be a power for further development made an outport. Only by persistent effort will we get this service, but if we show determination we see no reason why it should be refused. every member.

WE'D LIKE TO KNOW DEFINITELY whose responsibility is greatest—that of the home merchant to the community or that of the community to the home merchant. Certainly each is responsible to the Auditors, G. Wolstencroft and other if all are to progress. The home merchant is as necessary to the life of a community as the community is to the success of the home merchant. Without one the other could not exist. And where one fails to make good the other suffers in direct ratio to the other's failure.

It is the duty of the home merchant to advertise and boost his business and everything that is of interest to the community in order to hold the interest and the business at home. Any merchant failing to do this shirks the responsibility he owes to the home community, and places the load of holding business in the home community more heavily upon the shoulders of others. In short he is shirking his responsibility to the community and his fellow merchants.

On the other hand, the people of the community owe it to themselves and the home merchant to patronize the local stores that advertise and boost the town and its interests. This part of the unwritten law of community building is invariably carried out. We have yet to see the merchant who did not get the business of the people of his community who was wide awake enough to get after it. The merchant who does

Vulcanizing Retreading and Section Work a Specialty. We Repair Anything in Rubber ALL WORK GUARANTEED Save Your Old Tires: They are valuable for Reliners. Penticton Tire Hospital NEXT TO EMPRESS THEATRE

not reach out after business will soon have nothing left to reach out after. In effect, he indicates that he does not want business. and business will not go where it is not invited.

Looking over our Okanagan exchanges it is very apparent why some towns are forging ahead while others are standing still. The best indication is to be found in the columns of the local papers. Where these columns are liberally made use of by the home merchants the towns are moving ahead steadily; business is retained in the home town, and the dollars kept at home circulate more freely, which means that a beneficial reciprocity exists to the good of all. In other towns where there is not this progressive spirit in evidence in the columns of the local paper on the part of the home merchants, there is no mistaking the signs of lack of business, lack of development, lack of progress. Thus, you will agree. we feel sure, that the first responsibility for the home community's advancement rests primarily upon the shoulders of the home merchants. and if anyone of them plays the part of the slacker the community suffers. - Okanagan Commoner.

A MOST VALUABLE SUGGESTION was thrown out recently by a speaker before the Vancouver Board of Trade to the effect that the teachers of the province be utilized as an advisory board to the provincial Department of Education. It was the speaker's opinion that advice from the teachers was not sought by those in authority in B.C. The thorities and the teachers looking to the greater efficiency of the schools is already practiced in some of the provinces of Canada. The adoption of the same idea in every school district would tend directly to the betterment of the schools. Trained for his or her work and constantly in closest touch with the schools there should be no better advisor than the teacher.

THE NEED OF FURTHER SOURCES OF REVENUE for muni cipalities, and the placing before the government a proposition that the province relinquish the right to collect income taxes, motor licenses, and amusement taxes to the municipalities, who would pass over to the government only a portion of these is causing the premier some concern. He has stated that this would mean handing over to the municipalities approximately \$1,300,000 in annual revenue. Not feeling disposed to make this sacrifice some other solution of the difficulty may be proposed.

AN EXCHANGE ASKS THIS QUESTION: "In the scanty years of 1912-14, how high was your credit at Eaton's? History has a way of repeating itself."

### **Make Good Start**

The Naramata Farmers' Institute has made a splendid start on the new year's work. At the annual meeting held recently thirty-one members were enrolled, and Secretary George Partridge is confident that the membership will reach

Reeve Blair looked upon this

Coun. Campbell, who has been 'on the job' 'practically every morning, told of the work that was being done on the roads, which was being carried on at a disadvantage

Coun. Simpson: It is the council's duty to treat all as nearly equal as possible. The Trout Creek people should have a good road, and the present one was a poor advertisement. We should try to show the government that we are entitled to assistance.

Reeve Blair and his opponent were given an opportunity to speak, and their addresses were much along the same lines as at earlier meetings.

Replying to G. Morgan, Coun. Simpson said he was quite in accord with the principle of spending the money raised at Trout Creek Point on the debenture rate on the Trout Creek system. On this subject, Mr Kirk said there was no room for two opinions.

Following a general discussion on various subjects, Mr Kirk undering when it was suggested that a small, the fourteen inch pipe at took to defend the engineers and explain his connection with the no action was taken, as the 8 inch well-have been eighteen inches, Zimmerman gulch road. He had not been in Summerland 24 hours flume on the west side of Garnett Zimmerman gulch road. He hoped when he was engaged to survey the Valley was to be rebuilt and the the expenditure now being made right-of-way and the grade. He was not asked or given an opportunity to express an opinion of the site. He would not go justice to the citizens and to avoid councils. Their instructions are incomplete.

Replying to a question from the chair regarding the council's attitude towards the water supply to the farm, Reeve Blair said when the work now on hand was complete the farm would have all the water needed.

### That Garnett Valley Flume

Editor, Summerland Review.

Just a few words to explain to the ratepayers of Summerland a statement made by Mr Kirk at Trout Creek meeting, regarding a flume which was built from Mr Theed's, Garnett Valley, down to Mr Wright's, and which by an oversight remained unanswered.

According to Mr Kirk the council did not agree on size of flume that should be put there, so decided to get Mr Latimer to settle the dispute. Mr Latimer recommended a 2 ft. flume, and the council then built a 4 ft. flume. Mr Kirk must have gotten his information from a not very reliable source.

The council asked our foreman to take levels and find out how much head we could add to the spyphon pipes, leading across the valley and feeding the flume back of Mr Mc-Kenzie's. By using 4 ft flume on low grade he could get 5 feet more head to syphon.

The work was commenced on this plan and flume built a short distance. On account of crossing Mr Wright's property, which we would have to syphon at quite a large expense and extra lumber used in flumes, part of the council favored putting flume in on old grade and make it 3 feet wide.

It was then that a difference of opinion arose between the councillors, and we decided to call an engineer. He endorsed the plan laid out by part of the council. The flume was built 3 feet instead of 4 feet as Mr Kirk stated, and according to Mr Latimer's recommenda-

One of the principal reasons for changing the plans from a 4 ft. flume to 8 ft. was because of the decision to carry more water around from Trout Creek.

Mr Kirk stated we were building our flumes, and coment ditches too large and causing a waste of money, but did not know the acreage of land they should cover.

Mr Wright said the day before we had wasted a lot of money last year in building our flumes too small. When asked where, he mentioned one, but could not tell how large it was.

It strikes me as rather a joke that our two learned friends did not talk the matter over and come to the same decision before criticising our work in public meet-

In reading this letter do not come to the conclusion that I am not in favor of engineers, because I am in favor of good engineers laying out our work.

J. R. CAMPBELL.

No. of Application, 7909D.

### Land Registry Act.

Notice Under Section 36.

TAKE NOTICE that an application has been made to register The Corporation of the District of Summerland, as the owner in Feesimple, under a Tax Sale Deed from the Collector of the Municipality of Summerland, to the Corporation of the District of Summerland, bearing date the 23rd day of August, A.D. 1915, in pursuance of a Tax Sale held by said Municipality on or about the 18th day of August, 1914, of all and singular certain parcel or tract of land and premises situate, lying, and being in the Municipality of Summerland, in the Province of British Columbia, more particularly known and described as: -Lots 4 and 5, Map 1103, in subdivision of Blocks 10 and 11, Map 456, in a subdivision of District Lot 3397, Group 1, Osoyoos Division, Yale District.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act," are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be for ever estopped and debarred from setting up any claim to or inrespect of the said land, and I shall register the said Corporation of the District of Summerland, as owner

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:—

"And in default of a caveat or certificate of lis pendens being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the "Municipal Clauses Act, 1906," or section 293 of the "Municipal Act," or section 139 of the "Assessment Act, 1903," or section 253 of the "Taxation Act," in cases in which

notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

DATED at the Land Registry Office, at the City of Kamloops, Province of British Columbia, this 14th day of June, A.D. 1918.

C. H. DUNBAR, District Registrar.

There's a heap of difference between fuss and force.

### Correspondence.

(Continued from page 2)

On Thursday morning of last week Mr Manton of the Trepanier townsite left for Winnipeg where he expected to spend about 2 week.

January 14, 1919.

The Editor, Review.

As a Canadian I take strong objection to the viewpoint of how from Penticton Herald. One of the cracy and liberty has been the public platform an excellent vehicle for discussing public questions and advancing public welfare.

Penticton is a prosperous com of the horses advertised for sale in if its citizens are content to forego the pound and came down thinking the right to have their community the one answered the description of questions discussed in open meetone of his, which it did, and he ing, and to have their public representatives give an account of their stewardship by word of mouth as well as by printed statement. If Penticton councillors can find noth: ing bigger nor broader than baiting or abusing each other it is evident their vision is too narrow. I hope the citizens of Summerland will never be content to forego public discussion of local affairs nor al on the Saturday morning north- low such discussion to be petty or personal.

PUBLIC NOTICE is hereby given to the Electors of the Municipality of Summerland that I require the presence of the said Electors at the Municipal Office, West Summerland, on the 18th day of January, 1919, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Reeve, Councillors, and Police Commissioners, and in the Municipal School Board as Trustees.

The mode of nomination of candidates shall be as follows:-The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and 2 p.m. of the day of nomination, and in the event of a poll being necessary, such poll will be opened on the

### 18th day of JANUARY, 1919,

at W. J. Robinson's Office in Summerland, for Wards I. and IV., and at the Municipal Office, West Summerland, for Wards II. and III., of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for Reeve, Councillor, and Trustee are as follow:

The qualifications for Reeve, shall be his being a male British sub ject, and having been for the three months next preceding the day of nomination, the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll of Five Hundred Dol. the last Municipal or Provincial Assessment Roll of Five Hundred Dollars, or more, over and above any registered judgment or charge, and being otherwise duly qualified as a voter.

The qualifications for Councillor shall be his being a male British subject, and for Trustee a British subject, and they having been for the three months next preceding the day of nomination the registered owner in the Land Registry Office of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial Assessment Roll of Two Hundred and Fifty Dollars or more, over and above any registered judgment or charge, or being a homesteader, lessee from the Crown, or pre-emptor, who has resided within the Municipality for the space of one year or more immediately preceding the nomination or, who being a homesteader lessee from the Crown or pre-emptor, who has resided within the Municipality for a portion of the year immediately preceding the nomination, and who during the remainder of the said year has been the owner of said land of which he formerly was a homostcader, lessee from the Crown or pre-emptor, and who is assessed for Five Hundred Dollars, or more, on the last Municipal or Provincial Assessment Roll over and above any registered judgment or charge, and being otherwise qualified as a voter,

Given under my hand at Summerland, this 30th day of December,

JOHN L. LOGIE, Returning Officer.

### Municipal Elections, 1919 For REEVE

To the RATEPAYERS of the Municipality of SUMMERLAND:

Owing to certain rumors that I have heard I wish to make a statement as to my nationality and patriotism.

I was born in Truco, Nova Scotia. In the early sixties I was a volunteer in the Sterling Volunteers. Later I was appointed a captain in the Militia, and was called out for service at the time of the Fenian Raid.

As a poor man I left for the United States in 1880 where I went to work for \$1.50 per day. Three years later I bought up the business where I was employed, earned a little money, and came back to Canada to make my home in Summerland, where I have developed an orchard that, to say the least, is a credit to the community.

During the recent Victory Loan Campaign I advised one of the canvassers not to urge citizens—who had bills to pay in the various stores and whose financial position would not permit them to do so-to subscribe for Bonds, because I considered it was their first duty to pay their debts. On this account it has been said I am not patriotic, but if I had been of the age of some of those who have made the statement I would have been at the front firing bullets instead of words.

I have served you five years on the Municipal Council, during four of which, I have represented you as Reeve-four of the most discouraging and strenuous years the world has ever known. The government has continually urged economy, the attitude of the banks has been most conservative; so that it was almost impossible to secure funds, and money was scarce. We have brought you through these four years, and the statement from the auditors shows that Summerland is in as sound a condition financially as any other municipality in the district, and better than very many. Through the help of others we have secured the money to put our water system in better condition, and as we have the work laid out and fully understand it in its entire details, we should have the privilege of completing it, instead of putting it in the hands of those who have had no experience as to the demands of the situation and the manner of carrying the work through.

Under these circumstances I again appeal to you for your support, and, if returned, will do all that lies in my power to advance your interests, which are my own.

Thanking the ratepayers for their support in the past,

I remain,

Yours truly,

ISAAC BLAIR.

### Municipal Elections, 1919 For REEVE

Having accepted nomination for reeve of Summerland I ask the electors for their support.

I have served five years as councillor, during which time I have made a careful study of municipal affairs in general and feel qualified to act in the responsible capacity to which I

I regret that the necessity to be away from Summerland for several days prior to the day of election makes impossible a personal canvass. But I wish to say that I shall, if elected, endeavor to so conduct myself in office that all citizens shall be accorded fair and impartial consideration, and that the affairs of the Municipality shall be conducted as nearly as possible with that efficiency absolutely necessary in ordinary industrial

E. R. SIMPSON.

## Municipal Elections, 1919

For WARD 2

To the Ratepayers:-

Being again in the field for election as your representative on the council, I hereby respectfully solicit your support.

Contrary to reports I have not stated at any time that I would not be a candidate for re-election. True, last year, on more than one occasion I remarked that I was so busy that I would be quite willing to drop out at the end of the year. Since then, however, the outlook has been quite changed by the disposal of property and other business changes. If re-elected my time will be largely at your disposal.

Sincerely yours,

J. R. CAMPBELL

O. ATKINS

## Municipal Elections, 1919

To the Ratepayers of Ward II.

Coming out as a candidate to represent you on the Municipal Council for the year 1919 I feel that you all know my opinions and aims in local interests without, by the publicity of the press, enlarging on them to any great extent.

My views on internal policies are the same as I tried to express at the public meeting on Monday last, and briefly are

I would create and develop a more permanent policy as to our Irrigation System. I would go more thoroughly into the science of road-making, and I would in all ways endeavor to make Summerland, by its go-aheadness, a place that will attract outsiders to come and settle in our midst.

If you elect me, I shall do all in my power to see that each and every one of you, without favoritism, gets your share of irrigation water, and I will personally take up any of your grievances and do my best to remedy them.

If you elect me, I shall consider that my time is your time; and I can give you most of my time. If you elect me, I shall consider myself your servant to look after your rights, and will at all times endeavor to take a leading part in all matters that will tend to benefit and bring credit to our Municipality.

I am and hope to be your willing servant,

F. A. C. WRIGHT.

### Valuable Reports On Insect Pests Of B.C.

Review of the Study Given Insect Pests in the Province of British Columbia During 1918.

THE PEACH WORM (Anarsia lineatella).

The life history, habits, and control of this insect was studied this year at Kaleden and Penticton,

Minute larvae, hatched from eggs laid the previous autumn, passed the winter in the axils of one, two, three and four year old wood. Larval migration from winter quarters to the buds commenced on April 10 at Kaleden on apricots, and a few days later at Penticton on peaches. On April 16 the majority of the larvae had left their winter quarters. The bulk of the apricots were in full bloom on April 16; peaches on April 25. Larvae became full grown at the close of April and during the first week of May, at which time 25 per cent. of the generation were preparing to form their chrysalids.

The main pupal stage occurred between May 17 and 30. Moths appeared between May 29 and June 19. during which time eggs were being laid. Minute worms or larvae of the second generation commenced to appear on June 19, their numbers increasing rapidly during July. These second generation larvae became full grown by August 1, at which time chrysalids of the second generation were observed. The main pupal period of this generation occurred between August 8 and September 3. Second genera-August 26 and September 15, layworms, which, in turn, formed hibernation quarters in the crotches of the trees.

soming, followed by a second spray set during May and July. with arsenate of lead after blossom ing. This same recommendation is suggested for the 1919 season, but it is thought highly probable that a combination of these two sprays (L.-S. plus A. of L. 2 lbs-40 galls.) applied just previous to blossoming will ultimately prove both efficacious and more economic ical. The spray should be applied to the tips of the trees with good pressure and into the cretches of the finer branches.

### WIREWORMS CONTROL.

caused in recent years at points in the manufacturers of spray machthe Okanagan Valley and on Van-couver Island by the attacks of wire-worms on onions, corn, and advised to procure suitable machpotatoes. Extensive experiments ines at their earliest convenience. were carried out at Kelowna in onion plantations, by the use of baits. Altogether 6,707 baits were set and examined, and 25,939 wireworms were collected. Baits set in

of baked rice, shorts, and water. shine during the year.

1017

84.58

Various poisons were added to the baits, but no results attended their inclusion. The method of using the baits consisted of moulding the shorts into small balls which were, in turn, set in the soil 2 or 3 inches deep, in rows 10 feet by 5 feet. The baits then, after a week or ten days, were removed from the soil, broken open, and after the wireworms have been removed by hand, remoulded and reset in the soil for another ten days. Two applications were supposed to suffice for the year, the first treatment taking place as the onions were

just starting through the soil. The practical results of this work indicated that the method, while tedious, undoubtedly would gradually clear land of wireworms. The most feasible suggestion would be to set unpoisoned baits, dig them up after ten days, and reset fresh baits. The baits might be, this way, fed direct to chickens. The old-fashioned method of using sliced potatoes in the same way is also suggested.

#### THE ONION MAGGOT (Hylmyia antiqua)

Time and opportunity did not allow of any studies of the life history and habits of this destructive onion pest this year. Several growers in the Okanagan Valley tested the new poison bait consisting of sodium arsenite and molasses, but the results expected did tion moths were in flight between not materialize. The poison bait methods of destroying the adult ing eggs which gave rise to minute flies is still believed to be satisfactory. The periods of application are not properly known, as these periods can only become clear fol-CONTROL — In the spring of lowing a study of the life history. 1918, fruit growers were recom- It is hoped that next year this study mended to spray with Lime-Sulphur will be commenced. It is believed, 1-9, in the week previous to blos- however, that the baits should be

#### THE ONION THRIPS (Thrips tabaci)

This thrips caused a great deal of trouble in onion growing districts. Spray applications of soap and nicotine should be applied as soon as the thrips appear in numbers in the axils of the leaves. This year the first spray date was about June 20. Later applications are dependent on weather conditions. If the weather is moist thrips do not multiply rapidly; if dry, breeding is rapid, with a low mortality record. In-Considerable injury has been formation has been received from

Following the formal declaration of the result of the polling, reeveof the result of the polling, reeve-elect, E. R. Simpson took the oath Baptists Burn of office before the returning officer, the new reeve in turn swearing in each of the four councillors.

Four committees were proposed by the reeve, these with their respective chairmen being: finance, White; roads and electric light, Campbell; water, Kirk; properties, Dodwell. The old time public works committee has thus been dis-Two suggestions pensed with. were advanced by Reeve Simpson as to the composition of these committees, one being that each committee consist of two councillors with the reeve as ex officio member as has been the practice in past years, another that the council as a whole constitute each committee. This latter plan was favored as an experiment, at least, and was approved by the council. With the committees so constituted frequent meetings will be necessary, and it was thereupon agreed that the council should meet every Monday at three o'clock, and that any comthat hour on the same afternoon.

The school money by law, which had received the assent of the ratepayers on Saturday, was finally read and considered, and the reeve and clerk authorized to sign and seal

A good part of the morning was taken up in the consideration of the important question of engaging a superintendent of public utilities. Reeve Simpson expressed the opinion that a man of very considerable ability was required. The council should decide how good a man we should have. He felt that ultimately we should have a man such as is not now available here, a man Alfalfa-fed Stock whose training would qualify him would not displace any one, but would be filling a newly-created storage, distribution, etc. This ment consisted of forty-four head believed it would be very easy for for the cows \$110. an efficient man to save his salary and also to save money of the individual citizens. There was a general little over a month ago. opinion among the councillors that such a man would be hard to get. cision to advertise in the Valley, at the Coast, in Calgary, and in Washington State.

Coun. Campbell pointed out much work that needed to be done, and might be done at once without waiting for a superintendent. We had always been too late in starting the spring work. The policy which should be adopted with respect to roads was given considerable time, and several suggestions considered. No definite plan was

agreed upon. It was decided upon recommendshould be distributed to the various vertise wisely. places where it will be required, preparatory to getting the lumber upon.

### Influenza Waning **Schools Re-open**

The schools will reopen on Monday in accordance with the recommendation of the Medical Health Officer, after being closed for two weeks. Fearing that there might be a further spread of the disease, church services and Sunday Schools were dispensed with last Sunday. As the disease has been confined to the families in which it appeared some days ago, no new cases having developed outside those fam-The municipal council will sit liles, it has been thought advisable mate.

IT IS NOT IN DOLLARS and cents that one would measure the success of such an institution as our hospital, but the financial side of such a community asset is one to which attention must be given. The balance sheet for the year just ended, which is published in this number, reflects a condition with which the directors and citizens generally may well feel satisfaction. Through efficient mnagement and the continued generous support of the public, distressing deficits are being the "Auld Kirk." Yet we know avoided.

"A SWAMP HOLE in the Okanagan" is the term applied by a lars in their future life will be writer in recent issues of Vancouver dailies in an effort to discredit the purchase of the tract of land in the Fairview-Osoyoos district for the government settlement scheme. That one phrase alone is enough to prove that the writer did not know what he was writing about. Broad benches of semi-arid grazing land, with patches of cactus and tracts of sage brush and grease-wood could scarcely be termed "a swamp hole."

§ § § § §

A PLEASING COMPLIMENT was paid the Okanagan a few days ago by The Province, when under the heading "The Okanagan," it acknowledged that this district had made good in the following editorial:

"After many experiences, some of them bitter, the Okanagan Valley is coming to its own. There is a rapid increase of orchards that have reached a bearing age. The people have learned the art of cooperation in packing, transportation, and marketing. They know beter than they did how to obtain a substantial part of the proceeds of their products. Statements made at the Kelowna gathering, setting forth the quantity and value of fruits and vegetables shipped from that district, are full of encouragement for the future. It is for the advantage of the Okanagan district that they are settled by a superior class of residents. The life there has attracted many well-educated men and women, who form enlightened communities, cherishing intellectual life, and yet quite capable of guarding their material interests."

§ § • § §

INCLUDING FARM LIVE STOCK the farmers of Canada had at the close of last season sold, or held available to the markets, nearly three billion dollars worth of farm produce. This astonishing figure represents about \$400 for every man, woman, and child in the country. This figure conveys some idea of the rapidly-growing importance of the farming, industry in this country. The figures listed below were pub lished by the Financial Post:

\$966,921,000 Grain crops 429,900,000 Hay and roots 10,000,000 Fruit and vegetable Animal produce 300,000,000 Livestock 1,047,100,000 50,000,000 Poultry \$2,803,921,000 Grand total agricultural wealth

Practically a quarter of a million head of cattle were owned in this province last fall, according to statistics issued at Ottawa. There has been a very large increase in the number of milch cows which is given The Citizens of Summerland and vicinity are invited to attend a Meeting as 50,965 head as compared with 39,599 five years ago. The number of beef and other cattle increased from 100,000 in 1913 to 195,000 in Parish Hall twenty million dollars. There has been a falling off in the number of horses, while the quantity of swine and sheep was the same in 1918 as in

A RECENT PRESS REPORT from Nevada states that a large number of pet cats had died there, apparently affected with influenza. The animals are stated to have shown all the symptoms of the epidemic. Some of them were killed to prevent a spread of the disease. Reports were current that dogs had developed the disease in some localities in

It was but a few days ago that we noted a report from Saskatchewan that big game in the area north of Prince Albert were suffering from influenza, and that the possibility of its extending to domestic animals was feared.

EXPENDITURES.

Weekly Chronicle Furnished By Our Local Representative.

Passengers to Kelowna on Wed nesday of last week were Mrs W. expected. Ashley and three of the boys; Mrs Estabrook, Sr.; Mr N. S. Davidson, and Mr J. Winger, all returning on the evening boat but Mr Winger, who remained over to attend a stock breeders' convention meeting, and returned on Thursday. Mr Winger states that there were some very interesting topics discussed, among others being the subject of tuberculosis among cows. It was pointed out that there is less among the cows in these parts at the present time than there used to be. It may, in the near future, make an province, in connection with this

an; Miss Essie Winger and Mr T. Coldham. The former returned on er remained up the lake for a day hoped to be able to return soon.

The first meeting of the 1919 council was held on Monday when the members of the council were duly sworn in to office and the committees formed for the year's work. Further than this we regret that we are unable to give 'details of the meeting owing to the absence of the clerk for a few days. One of the matters attended to, according to notices around town was the decision to call a public meeting of the citizens of Peachland and district to be held in the Orange Hall on Saturday afternoon, Feb. 1st, at 2 o'clock. The purpose of the meeting will be to arrange for a Municipal Honor Roll, a memorial for the boys who have fallen, and as well a reception for the returned boys. A large attendance is requested and needed.

Mr and Mrs Jeffords were passengers to Kelowna on Tuesday to spend the day in that city.

Mrs J. Hay left by Tuesday morning's boat to spend a few days visiting friends in Kelowna. Mr H. Williams and Lloyd also spent last Tuesday in Kelowna.

We are sorry to note that Mrs W. Ashley found it necessary to undergo an operation for appendicitis, and left by Tuesday morn-

ing's boat to go to the Kelowna hospital. We are glad, however, to be able to report that word has just been received by her husband to the effect that she has passed through the operation successfully and is doing as well as could be

Apple butter has long been a make three gallons. Pour over the evening boat, while Miss Wing- cover apples well. After cooking is certainly startling. until tender run through colander or two. Mr Coldham left to report then add the boiled cider and boil to army officials at the Coast, and down to desired thickness. When nearly done add one and one-half pints sugar, and when done flavor with one teaspoonful allspice and one teaspoonful cinnamon. For making apple butter on a large scale, a steam apple butter cooker should be used. It makes a butter with the right flavor quickly, and with the least amount of labor.

### Guard Against Indigent T.B's.

Medical Health Officer Points Out Danger.

Ten New Cases Come Here During Year.

Vital statistics for the year 1918 as contained in the annual report of the · Medical Health Officer show that there were twenty-six births in Summerland, eleven males and fifteen females:

During the year there were four teen deaths, two of which were infants. Four deaths resulted from influenza. and four from tuberculosis. Of this disease there were ten new cases during the year, all from outside points.

Of other infectious diseases there were ten cases of measles, sixty-six german measles, forty-eight chicken pox. two of erysipelas, and two of impetigo.

In his report Medical Health Officer Andrew said that while this municipality has for a number of years been comparatively free of infectious diseases this last year has been especially severe. We have escaped the ravages of typhoid fever, diphtheria, and scarlet fever, and the death rate has been exceedingly light in the diseases that have appeared.

Nevertheless the time lost in actual illness and quarantine makes a large total, and has cut into school work severely.

Eighty-nine cases of epidemic influenza were reported within the municipality up to the end of the year, with two deaths. Four other cases were brought in from outside the municipal limits, two of whom died. The closing of the schools and churches for four weeks in November and December, no doubt, prevented a wider and more fatal spread of the disease. Sixteen separate importations of influenza were noted. The percentage of population attacked was smaller than in many places, while the mortality and severe complications were be-

low the average. Dr Andrew paid a fitting compliment to the volunteer nurses in expressing his highest appreciation of their courage in nobly risking health in caring for those affected with the scourge. Few understand how hard was the work, and how

The Medical Health Officer again urged the importance of dealing with the tubercular problem in the protection of the municipality from an invasion of consumptives, especially those who may become a public charge. In the past eight years there have been thirty-one deaths from tuberculosis of whom only ten had been residents for over one year. With one exception all had come here in search of health. Because of influenza, and soldiers who had suffered gas, chest wounds, and under-nourishment and imprisonment, he predicted more tubercular cases. Our climate will attract many of these. The sanitarium accommodation of the province is entirely inadequate, and medical After a brief discussion of the men are recommending the Okanto cope with the question we will sumptives. ### HIGHWAY ROBBERY.

"WOT'S THE GOOD OF ANYFINK? W'y, nuffink," wrote and sang Albert Chevalier, the world-famed English music hall artist. And these words ring in our ears as we contemplate the audacity of the Ex press Companies of Canada in their further attempt to suck the last drop of the red blood of enterprise and ambition from the vitals of Western industry. For all we know that when these and kindred organizations, composed for the most part of men and combinations of men of wirepulling proclivities, once get the taste of human blood and the flavor of plunder, they will not stop their unbridled career of national blood suck as white as the conscience of Pontius Pilate.

people fondly imagine. The proposed increase in express rates is a remains in the police forces of the cities and municipalities. stubborn and ghastly reality. The proposed increase in express rates if it becomes legalized, and, judging by former experiences, we believe it will in some form or other—will positively and unquestionably spell stark, staring ruin to many businesses and enterprises in Western Canada. The proposed increase in express rates may, to the superficial, or to the man who is unfamiliar with the methods of these human sharks, create mirthful expressions, and be provocative of jocund remarks and witty repartee, but it will be treated with no such levity by the business man who has overcome the most impossible obstacles in an endeavor, loyally and patriotically, to place an almost impossible business on a modestly-paying financial basis.

If this further blockade to Western trade comes to a successful or partly successful issue so far as the express companies are concerned, we must not shut our eyes to the fact that it will be unalterable. The lid will be securely put on many Western enterprises, and a severe and rude check will have been administered to those very developments to which we have all been eagerly looking for the further expansion of this Western territory.

The schedule of proposed rates which has aroused the ire and indignation of all sections of the people who are any real asset to the Dominion, is positively staggering in its audacity. It only goes to show what lengths these express companies are prepared to go, if they get any encouragement. If the Board of Railway Commissioners acquiesce in the flagrantly unjust demands of these human sharks, and we lean to the opinion that some concession will be made, it will represent such a form of highway robbery as even Vancouver on a foggy night would scorn to tolerate.

But, out of evil good may yet come. This may yet prove to be the as usual but did not take the rolllast straw on the Canadian camel's back. It may be that, as the result call, and did not insist on all the of a national howl of indignation and disgust, Canadian express com- boys being present. The attendpanies, as well as the remaining Canadian railway companies will have precipitated themselves into the national glue-pot and become the pro- one, and after a good time all round perty of the people, who have paid the piper and been bled white for the meeting was dismissed. so long.

On the other hand, if these express companies are allowed to pursue the tenor of their illicit way without let or hindrance, the The sides were not as even as they expression "Wot's the good of anyfink?" may well be answered by the might have been so that the Beav hopeless one of "W'y, nuffink," Certain businesses will have to close ers succeeded in beating the Wood down and other enterprises already in their inception as a result of Pigeons 10-0. peace will be mercilessly nipped in the bud. Progress, enterprise, and ambition will be stifled, and the new scale of Canadian express rates will not only be a standing disgrace to the Dominion and an irreparable eons lost every game, and the Beainsult to the intelligence of the Canadian people who will have permitted such a travesty to be imposed upon them, but it will also menace our national prosperity and hold us up to the contumely and ridicule of other competing nations. -- Western Grocer.

PERHAPS NO STRONGER ARGUMENT can be advanced in support of our demands upon the government that the Westbank-Kelowna ferry be operated as a free ferry, than by stating instances of where free ferry service is maintained. We have already referred to a number of ferries in the lower mainland district where frequent trips across the Fraser River are made without charge for the convenience of the travelling public; to a free ferry service in the Kootenay district, and to one maintained on the Skeena River at Terrace for convenience of a sparsely settled section of country.

Directly west of Fort Fraser on the Grand Trunk Pacific, and about fifteen miles or more from Burn's Lake station, there is a body of water called Francois Lake, about sixty miles long and two and a half to three miles wide. Other than the Indians there may be a hundred settlers in the district on the north and south sides of this lake which extends east and west. The Provincial Government, we are informed, operates a large gasoline ferry and barge on this lake absolutely free. Rigs and autos are carried on the barge and passengers on the boat, This ferry was inaugurated by the McBride government, and operated free, and the same service is being maintained by the present administration. The government is, no doubt, quite justified in maintaining this ferry, but every argument that could be advanced to justify a ferry on Francois Lake is multiplied by the greater importance of the Okana. perimenting in this line. gan Lake ferry service, being, as it is, an essential link in one of the important highways of the province. Until the Okanagan ferry is made free we cannot hope for the same progress which such a service would immédiately insure.

A LONDON DISPATCH says that President Wilson was opposed to the British overseas dominions having their own representatives at struction. With the present hand- that Mr Johnston be asked to rethe peace conference. But with France, Italy, and Japan agreeing, the president was forced to yield. His attitude on this point seems to the material for cross ties, braces, have been a tactical mistake.—Calgary Herald.

### U.F.A. BEHAVES LIKE SILLY CHILD.

The United Farmers of Alberta behaved-like a lot of silly children when they refused to accept a gift of 10 boxes of apples which were sent in the friendliest spirit to their convention at Edmonton by the growers of the famous Creston district.

Grown men can usually be expected to show more common sense than to display such puerile petulance in a matter of this sort.

They object to the duty which the Dominion Government placed on apples imported from the United States, a duty which was designed to enable the fruit grower of British Columbia, where the industry was languishing and threatening to die out, to make a livelihood.

Prairie farmers are entitled, of course, to object to this duty or to any other duty, but it will be noted that while their various resolutions ask for remission of the duty on agricultural implements and so on-requests which have been partially granted—they never ask to have the duty removed from certain of the feed products which they have to sell, and which the fruit growers and other residents of British Columbia have to buy at higher prices which benefit the prairie farmer.

British Columbia fruit growers have not objected to those duties. They are willing to see the prairie farmer make a living, but they want also to live themselves, and they naturally think such action as that at the farmers' convention at Edmonton comes with rather ill grace from those who have profited hugely through \$2 wheat. With wheat at more than double its normal price a howl over a 30 cent extra duty on a box of apples seems rather absurd, to say the least of it.—Nelson News.

THE ANNOUNCEMENT that the Attorney-General is seriously considering the reorganization of the police system of this province with the object of bringing the municipal and provincial police under ing until they have drained the last red corpuscle of the national system one head, responsible directly to the government, is of general interest. The Attorney-General has pointed out that while this department is The proposed increase in express rates is not the joke that some responsible for the enforcement of the laws, the power to do so actually

> THE PRINCIPLE of using goods made in Canada has been reendorsed by the Dominion Government. The reason stated with this announcement is that all manufactureres may be better able to take advantage of the opportunities afforded by the so-called reconstruction period. Being prepared to protect goods made in Canada the government, to be consistent, must also protect goods grown in Canada. Is this not a very strong argument on the side of our fruit growers in their fight against the suggested removal of the tariff on imported

> A THOROUGH SURVEY of the industrial outlook of the immediate future in Canada by men in a position to judge correctly gives promise of exceptional prosperity and activity. According to the Department of Labor, Canada is entering upon a period of expansion greater than at any time in her history • The outlook is of the brightest for our manufacturers with rapidly increasing demands for our produce at home and abroad. Price levels will be generally maintained.

and carried to the place needed.

The annual report of Medical Health Officer Andrew was received and after being read was referred to the Board of Health. In his letter accompanying the report the Health Officer pointed out the inadequate salary now being paid, the sum being \$25. While he made no suggestion as to what the salary should be it was suggested by some of the councillors that one hundred dollars would not pay for the work done by the doctor last year. It was finally agreed to fix the amount at \$50.

An offer from Mr Blair of \$40 for the old lumber remaining from the north main taken out last year was accepted.

A detailed account for \$175.55 was received from Cochrane & Ladner for their services in connection with the Kelley assessment appeal, and will be included in the January

accounts. Reeve Simpson reported having received a notice to the effect that \$7.500 was Summerland's allotment from the Soldier's Housing Fund being loaned by the Dominion Gov. Government.

A petition bearing forty-six signatures, over forty of whom are ratepayers, protesting against the continued use of the road-end immediately south of English's old stable, as a stable yard. This roadend has been fenced in, and the petitioners asked that the fence be removed and the ground cleaned up and drained In view of this petiion it was not considered advisable to grant the request of T. Figgis that the plot be rented to him for a wood yard at a rental of \$10. The matter was referred to committee.

D. C. Barr wrote asking that the checks, and as flumes rot from the flume on the south main of the outside the thinner lumber would | Peach Valley syphon be enlarged not last as long. > The weather of the last few weeks has completely destroyed the rather thin sheet of ice that had formed on the reservoir as far as its being of any value for storage is concerned. Unless we get a little colder weather than we have had the prospects for an ice harvest are anything but encouraging. R. Mitchell, who has the cutting rights on the reservoir, informs The Review that two weeks of freezing weather would be required to make ice fit for storage.

The Prisoners of War Committee of the local Red Cross at its meeting on Wednesday decided to devote its energies towards the fund for St Dunstan's Hospital for Blind Soldiers, and also assist the fund for disabled soldiers. This is in line with the action of similar organizations throughout the country. One of the proposed means of raising money is to ask every school child to earn five cents per month for this worthy purpose. Elsewhere where this plan has been tried it has been a great success. Other means are being planned for obtaining money for the purposes mentioned above.

### Former Naramata Pastor Returns

One of the officers who arrived a Vancouver on Saturday last on the transport "Empress of Asia" is Lieut. W. Percy Bunt of the Royal Air Force. At the time of his enlistment Mr Bunt was a probationer for the ministry of the Mothodist to the Landing. Church. Lieut. Bunt enlisted with the 148th at Montreal, where he was pursuing his studies at the time of the outbreak of war. After receiving three stripes in the infantry, having served in Egypt, France, and England, he entered the air force. Liout. Bunt is well known in the South Okanagan, having for a time been in charge of market: the church at Naramata.

Another former resident of Naramata to arrive on the "Asia" was Wilbur Wellband, whose home is now in Vancouver. He went oversens with the Seaforths, and was promoted on the field.

C. J. Duncan arrived from the Coast last Friday, and Mrs Duncan was expected this morning.
